Data Science Minor (Manchester)

https://manchester.unh.edu/program/minor/data-science

**Description**

The objective of this minor is to provide a basic background in data science for those who are more interested in the theoretical underpinnings of analytics and data science.

**Requirements**

Students must complete five courses (20 credits) with a cumulative minimum grade point average of 2.0 and with no grade below a C- grade. Transfer course approval for the minor is limited to at most, two relevant courses successfully completed at another accredited institution, subject to syllabi review and approval. Some preparation in MATH 425 Calculus I and programming (COMP 425 Introduction to Programming, CS 414 From Problems to Algorithms to Programs or CS 415 Introduction to Computer Science I) is required.

**Requirements**

Total Credits 20

1. Must select at least one CS and one MATH course. Must select CS 750 Machine Learning or MATH 738 Data Mining and Predictive Analytics.

For more information, contact Jeremiah Johnson, program coordinator and minor supervisor, at Jeremiah.Johnson@unh.edu.

**Art**

**Programs**

- Art Minor (Manchester) (p. 391)

**Art Minor (Manchester)**

https://manchester.unh.edu/program/minor/art

**Description**

The art minor is an appropriate option for students wanting to take a combination of studio and art history courses or for those wishing to concentrate on a single medium.

**Requirements**

The minor in art consists of five courses (20 credits) chosen from the offerings of the department, two of which must be at the 500-level or above. Courses can be all studio art, all art history, or a combination of both. Studio art courses are taught at New England College (formerly New Hampshire Institute of Art) in Manchester through a partnership with UNH Manchester.

A maximum of two courses (8 credits) may be transferred from another accredited institution, provided UNH has accepted them as transfer credits. Transfer courses must be a minimum of three credits. Students with three credit transfers must make up the credit shortage.

For more information, contact the Academic Advising Office (unhm.advising@unh.edu) at (603) 641-4170.

**ASL/English Interpreting**

**Preparing skillful interpreters through interaction and immersion**

In the nation’s first accredited interpreting program and one of only 14 accredited programs in the country, you’ll learn American Sign Language and the foundation of ASL/English interpreting from distinguished faculty, all of whom are native ASL signers and/or certified interpreters.

The demand for skilled interpreters is on the rise, with the Bureau of Labor Statistics (http://www.bls.gov/ooh) projecting 18 percent growth in the interpreting field between 2016 and 2026. Our program prepares you to work with the Deaf community by teaching you the intricacies of American Sign Language and Deaf culture, as well as the skills you need to pursue a career as an ASL/English interpreter.

Members of the Deaf community are integrated with students into the learning experience, both inside and outside the classroom, which is a very unique feature of our ASL/English Interpreting program. During your senior year internship, you will be paired with a nationally certified mentor and use your interpretation and ASL skills within organizations throughout the state.

Our graduates have pursued careers in ASL/English interpreting, deaf education, rehabilitation, healthcare, audiology, social work, counseling and the media. From medicine to law, education to performing arts — your career opportunities as a bilingual and bicultural graduate are vast.

https://manchester.unh.edu/academics/degree-programs/asl-english-interpreting

**Programs**

- American Sign Language and Deaf Studies Minor (p. 391)
- ASL/English Interpreting Major (B.S.) (p. 392)

## ASL/English Interpreting Major (B.S.)

https://manchester.unh.edu/program/bs/aslenglish-interpreting-major

**Description**

The American Sign Language (ASL)/English Interpreting program at UNH Manchester is a specialized, in-depth program with a national reputation for quality. In 1999, the program became the first interpreting program in the country to be found in compliance with the National Interpreter Education Standards of the Conference of Interpreter Trainers (CIT). In 2007, the program became the first interpreting program in the nation to be accredited by the Commission on Collegiate Interpreter Education (CCIE), and, in 2017, the program became the first program to be re-accredited by CCIE. UNH Manchester also houses one of northern New England's most comprehensive collections of books and media materials on ASL/English Interpreting.

The program is guided by the premise that deaf people, as a linguistic minority, possess their own cultural values, literature, history, traditions, and social conventions. Interpretation requires bilingual and bicultural competence in spoken English and American Sign Language. The ASL/English Interpreting program at UNH Manchester provides students with a strong theoretical foundation as generalists in ASL/English Interpreting and helps prepare students for either state-level interpreter screening or national Registry of Interpreters for the Deaf (RID) interpreter certification, depending on students’ skill level and experience.

Graduates may go on to pursue specialty areas in interpretation or related fields of study.

Students who complete the bachelor of science degree in ASL/English Interpreting graduate with a varied and flexible academic base. Interpreting requires skills such as sustained powers of concentration, versatility in dealing with a variety of people and content areas, fast-thinking and excellent communication skills in the respective languages. Students seeking to become interpreters receive a foundation in American Sign Language, Deaf culture, and the interpreting process, and their programs of study often include elective courses in linguistics, sociology, communication, and psychology. Students also gain a thorough grounding in the liberal arts through the University’s Discovery program.

Graduates of the ASL/English Interpreting program may pursue careers in ASL/English interpreting, deaf education, rehabilitation, health care, audiology, social work, counseling, and the media. The program provides students with a varied and flexible academic base. Graduates are prepared for further study in such fields as psychology, communication, linguistics, sociology, and anthropology.

**Students must complete 64 credits in the major, 40 credits in the University’s Discovery program, and 24 credits in elective courses. Students must complete 64 credits in the major with a grade of C or better. Students who earn less than a C on a particular course may repeat that course only once. Students must achieve a GPA of 2.5 or better. Students who complete the bachelor of science degree in ASL/English Interpreting must pass both ASL 532 American Sign Language IV and INTR 630 Consecutive Interpretation I with at least a B or successfully demonstrate competence in American Sign Language and consecutive interpretation, respectively. Transfer students must complete a minimum of eight ASL/English Interpreting courses at UNH Manchester.**

¹ ASL/English Interpreting majors cannot use this course to fulfill the SS Discovery requirement.

## Capstone Experience

The capstone experience in the bachelor of science degree program in ASL/English Interpreting is met by INTR 735 Field Experience and
Seminar II, which is a senior-level course and the last in the sequence of courses required for the major. This course meets the following two criteria of the capstone experience for this major:

1. the capstone synthesizes and applies disciplinary knowledge and skills,
2. the capstone demonstrates emerging professional competencies.

For more information, contact Laurie Shaffer (laurie.shaffer@unh.edu), program director, (603) 641-4134, or the Office of Admissions (unhm.admissions@unh.edu) at (603) 641-4150.

### Biological Sciences

**Explore the living world through hands-on experience in the lab and in the field**

Discover the inner workings of living organisms from molecules to ecosystems in our Biological Sciences program. As our largest and most popular major, the Biological Sciences program is designed to give you the degree you want — through self-designed concentrations, independent study, research projects, internships, job shadows, study abroad, and more.

You'll work with faculty mentors to customize your degree around your interests, allowing you to focus your learning in these diverse areas of study:

- Biology Teaching
- Ecology
- Genomics
- Microbiology
- Pre-Professional Health (Dental, Medical, Optometry, Pharmacy, Physician Assistant, Physical/Occupational Therapy, Veterinary, etc.)

All students, in consultation with their faculty advisor, develop a self-designed concentration where they select a group of upper-level courses that represents their interest.

Research is central to this program, empowering you to explore, question and invent. Side-by-side with your classmates and professors, you'll conduct experiments in our state-of-the-art labs: general biology, advanced biology, microbiology, general chemistry and organic chemistry, as well as the cell culture research lab and microbiology research lab.

You'll also have the opportunity to apply your skills in the real world through experiential learning, including:
• robust job shadows at the Elliot Hospital Laboratory and other local medical facilities
• internships at Manchester Water Works, ARMI (Advanced Regenerative Manufacturing Institute), and other biotechnology firms in the Millyard
• summer research courses at Shoals Marine Laboratory
• study away opportunities such as investigating biological diversity in Belize or microbial ecology in Iceland

Through diverse areas of study, faculty experts and hands-on experience, you'll be prepared for success in graduate, medical or professional studies, and careers in industries from healthcare to agriculture to education.

Biological Sciences (A.S.)

https://manchester.unh.edu/program/as/biological-sciences

Description

Biology is the study of living organisms in both laboratory and field conditions. It concerns itself with questions of understanding the living world, its complex interrelationships, and the role of human beings within it.

The associate of science in biological sciences program at UNH Manchester is designed to serve either as a terminal degree or as a springboard for students interested in the life sciences, which include majors in biology, microbiology, zoology, plant biology, wildlife management, environmental conservation, biochemistry, and animal sciences. Employment opportunities in the public and private sectors include education; food, water, wastewater and other industrial laboratories; clinical laboratories; biotechnology; environmental research and monitoring; and animal behavior.

Requirements

Students must complete a minimum of 64 credits to graduate. There are two tracks in the A.S. degree program at UNH Manchester: biology and microbiology.

</tbody>
</table>

Other statistics courses such as BIOL 528 Applied Biostatistics I or BUS 430 Introduction to Business Statistics may be used to satisfy this requirement.

### Microbiology Track Requirements

Students opting for the microbiology track must complete all courses listed in the biological sciences program with the exception of BIOL 541 Ecology. In addition, students must complete the following courses.

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>BMS 602</td>
<td>Pathogenic Microbiology</td>
<td>5</td>

</tr>
</tbody>
</table>

Note: Students preparing for professional or graduate programs may need to complete: CHEM 651 Organic Chemistry I/ CHEM 653 Organic Chemistry Laboratory and CHEM 652 Organic Chemistry II/ CHEM 654 Organic Chemistry Laboratory. These courses may substitute for CHEM 545 Organic Chemistry/ CHEM 546 Organic Chemistry Laboratory and BMCB 658 General Biochemistry/BMCB 659 General Biochemistry Lab. Please consult your academic advisor.

For more information, contact Stephen Pugh, program coordinator, at Stephen.Pugh@unh.edu; or contact the Office of Admissions (unhm.admissions@unh.edu), (603) 641-4150.

### Biological Sciences Major (B.A.)

https://manchester.unh.edu/program/ba/biological-sciences-major

Description

Biology is the study of living organisms in both laboratory and field conditions. It concerns itself with questions of understanding the living world, its complex interrelationships, and the role of human beings within it.
The B.A. in biological sciences at UNH Manchester is designed to:

1. allow students to earn a baccalaureate degree in biology at UNH Manchester;
2. allow students to combine study in biology with other programs and disciplines by completing a second major, a minor, or a self-designed set of elective courses along with their biology degree;
3. allow students to complete a major in biology while taking required courses in education in preparation for the five-year M.A.T. or M.Ed. programs and state certification in secondary science education; or alternative state certification pathway;
4. provide an opportunity for students to complete a baccalaureate degree in biology while completing the required courses for admission to medical, dental, veterinary, physician assistant, pharmacy, physical therapy, optometry, and other professional or graduate programs.

Employment opportunities in the public and private sectors include education; industrial, clinical, and research laboratories; biotechnology; and environmental field research.

Requirements

Students must complete a minimum of 128 credits and satisfy the University’s Discovery Program and foreign language requirements. Each course required in the major must be completed with a minimum grade of C-. Students must attain a minimum GPA in the major of 2.0. Transfer students must complete at least 24 credits in the major at UNH. BIOL 413 Principles of Biology I, BIOL 414 Principles of Biology II may be used to satisfy the biological sciences Discovery requirement and CHEM 403 General Chemistry I, CHEM 404 General Chemistry II may be used to satisfy the Physical Sciences Discovery requirement. PSYC 402 Statistics in Psychology may be used to satisfy the Quantitative Reasoning Discovery requirement; however, students interested in graduate or professional programs are encouraged to take MATH 425 Calculus I, or MATH 424B Calculus for Life Sciences, to satisfy the Quantitative Reasoning requirement.

The UNH Manchester B.A. in biological sciences program is structured with three levels of coursework.

In consultation with your academic advisor, select a capstone experience, such as the following:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>BSCI 792</td>
<td>Research</td>
<td></td>
</tr>
<tr>
<td>BSCI 793</td>
<td>Internship</td>
<td></td>
</tr>
<tr>
<td>BSCI 794</td>
<td>Clinical Microbiology Internship</td>
<td></td>
</tr>
<tr>
<td>BSCI 795</td>
<td>Independent Study</td>
<td></td>
</tr>
</tbody>
</table>

Total Credits 5

BSCI 701 Senior Seminar I will meet weekly during either semester of the senior year in a seminar format. Students will share information about capstone experiences, listen to presentations on timely issues in biology, develop career preparation skills, and provide training in poster production. Other methods of oral presentation and scientific writing are explored as students prepare to present the results of their capstone activities at the Undergraduate Research Conference or other venues.
In addition, all students will take elective courses to fulfill the 128-credit requirement for a B.A. degree. These elective courses could fulfill the requirements for a major or minor in another program or they could fulfill a self-designed interdisciplinary concentration. They could include some of the supporting science courses listed above. These courses would be selected in consultation with the advisor and the appropriate faculty advisor in another program.

For more information, contact Stephen Pugh, Program coordinator, at Stephen.Pugh@unh.edu or contact the Office of Admissions (unhm.admissions@unh.edu), (603) 641-4150.

**Biological Sciences Minor**

https://manchester.unh.edu/program/minor/biological-sciences

**Description**

The minor in biological sciences will introduce students to the field of biological sciences in a five-course sequence that will provide substantial education and training in scientific concepts, science communication, and laboratory skills, as well as the central content areas of biology, including biomolecules, cell biology, genetics, metabolism, physiology, phylogenetics, ecology, and evolution. Students adding the biological sciences minor will be adding a valuable credential to their major indicating a substantial additional skillset in the biosciences.

**Requirements**

The minor requires students to complete five courses (20-21+ credits, depending on the courses chosen). The minimum acceptable grade in these courses is a C- and the average grade for these courses must be a C or better.

Courses for non-majors (for example, BMS 507 Human Anatomy and Physiology I/BMS 508 Human Anatomy and Physiology II; BSCI 405 Diversity of Life, BSCI 406 Human Organism, BSCI 410 Contemporary Health Issues, BSCI 421 Diseases of the 21st Century, BSCI 422 Biotechnology and Society, BSCI 432 Medical Terminology; BIOL 520 Our Changing Planet), will not count towards the minor. Students are advised to take some upper-level courses; BMS 503 General Microbiology/BMS 504 General Microbiology Laboratory or GEN 604 Principles of Genetics are frequently pre-requisite courses.

**Required courses**

Select one of the following

BIOL 413 Principles of Biology I
& BIOL 414 and Principles of Biology II
The B.S. in biotechnology at UNH Manchester is designed to:

- basic science study of many biological questions.
- protection of ecosystems, and the generation of energy, as well as in applications in the treatment of diseases, the production of food, the small chemicals and biomolecules in technology.

Biotechnology is the use of living organisms, biological systems, and biotechnology-major/#collapse_64)

Biotechnology Faculty (https://manchester.unh.edu/program/bs/biotechnology-major/#collapse_64)

To ensure a course counts in the minor, it is required that students consult the minor coordinator, Dr. Patricia Halpin, (patricia.halpin@unh.edu) before enrolling in the course.

**Biotechnology**

**Channeling scientific curiosity to fuel discovery and innovation**

You’re a scientist at heart — curious about how everything works, right down to the smallest detail. Exploring topics like biochemistry, molecular biology and genetics, our Biotechnology program puts you at the heart of one of the newest and fastest-growing scientific fields.

Whatever your scientific passion, studying biotechnology can bring you to its doorstep — preparing you to create advancements that can change lives and improve the world around you.

https://manchester.unh.edu/academics/degree-programs/biotechnology

**Requirements**

Students must complete a minimum of 128 credits and satisfy the University’s Discovery Program and writing requirement. Each course required in the major must be completed with a minimum grade of C-. Students must attain a minimum GPA in the major of 2.0. Transfer students must complete at least 24 credits in the major at UNH.

BIOL 413 Principles of Biology I, BIOL 414 Principles of Biology II can be used to satisfy the biological sciences Discovery requirement and CHEM 403 General Chemistry I, CHEM 404 General Chemistry II may be used to satisfy the Physical Sciences Discovery requirement. PSYC 402 Statistics in Psychology or MATH 424B Calculus for Life Sciences/MATH 425 Calculus I may be used to satisfy the Quantitative Reasoning Discovery requirement.

Employment opportunities in the public and private sectors include education; research laboratories; clinical laboratories; forensic laboratories; jobs in diverse areas from research to quality control to sales in the pharmaceutical industry; industrial positions in the food industry, water and wastewater laboratories and facilities; and environmental research and monitoring.

**Faculty**

Biotechnology Faculty (https://manchester.unh.edu/program/bs/biotechnology-major/#collapse_64)

**Biotechnology Major (B.S.)**

https://manchester.unh.edu/program/bs/biotechnology-major

**Description**

Biotechnology is the use of living organisms, biological systems, and small chemicals and biomolecules in technology. Biotechnology has applications in the treatment of diseases, the production of food, the protection of ecosystems, and the generation of energy, as well as in the basic science study of many biological questions.

The B.S. in biotechnology at UNH Manchester is designed to:

1. allow students to earn a baccalaureate degree in biotechnology at UNH;
2. allow students to combine study in biotechnology with other programs and disciplines by completing a minor, or a self-designed set of elective courses along with their biotechnology degree;
3. allow students to complete a major in biotechnology while taking required courses in education in preparation for the five-year M.A.T. or M.Ed. programs and state certification in secondary science education; or alternative state certification pathway;
4. provide an opportunity for students to complete a baccalaureate degree in biotechnology while completing the required courses for admission to medical, dental, veterinary, physician assistant, pharmacy, physical therapy, optometry, and other professional or graduate programs.
5. allow students to complete a baccalaureate degree in biotechnology while completing the required courses for admission to graduate research programs (M.S. or Ph.D.) in the life sciences and related fields.

The UNH Manchester B.S. in biotechnology program is structured with three levels of coursework.

**Advanced Biology Courses (600/700 level)**

Select five courses (at least one course from each of the three categories)  

I. Advanced Biology courses
- GEN 711W  Genomics and Bioinformatics
- GEN 714  Personal Genomics
- GEN 771  Molecular Genetics
- BMS 702  Endocrinology
- BMS 705  Immunology  
or BMS 705  Immunology  
& BMS 715  and Immunology Laboratory
- BSCI 620  Global Science Exploration
- BSCI 670  Clinical Pathophysiology
- BSCI 680  Pharmacology
- BSCI 692  Evolutionary Medicine
- BSCI 695  Exploring Biology Teaching (1-4 credits)
- BSCI 735  Cell Biology
- BSCI 750  Cancer Biology: From Benchtop Research to Therapeutic Interventions

II. Laboratory Techniques courses
- BMCB 753  Cell Culture
- BSCI #765  Nucleic Acid Techniques
- BSCI 766  Protein and Immunologic Techniques
- BSCI 777  Molecular Biology and Biotechnology
- CHE 651  Biotech Experience/Biomanufacturing (BTEC 220 GBCC)
- ZOOL 625  Principles of Animal Physiology  
& ZOOL 626  and Animal Physiology Laboratory

III. Advanced Microbiology courses
- BMS 601  Bacteriology of Food
- BMS 602  Pathogenic Microbiology  
& BMS 603  and Pathogenic Microbiology Laboratory
- BMS 706  Virology  
& BMS 708  and Virology Laboratory
- BSCI 737  Microbial Genomics
- BSCI 740  Aquatic Microbiology

Total Credits: 76

1  BMS 705 Immunology, may optionally be taken with or without BMS 715 Immunology Laboratory.

Depending on their specific academic and career goals and in consultation with their advisor, students may elect to take additional supporting science courses and a full year of physics (adding PHYS 402 Introduction to Physics II to PHYS 401 Introduction to Physics I listed above). These courses are often required for admission to medical, veterinary, and other professional and graduate programs.

**Capstone Experience**

</table>

Select a capstone experience, such as the following:

- BSCI 792  Research
- BSCI 793  Internship
- BSCI 794  Clinical Microbiology Internship
- BSCI 795  Independent Study

Total Credits: 5

BSCI 701 Senior Seminar I will meet weekly during either semester of the senior year in a seminar format. Students will share information about capstone experiences, listen to presentations on timely issues in biology, develop career preparation skills, and provide training in poster production. Other methods of oral presentation and scientific writing are explored as students prepare to present the results of their capstone activities at the Undergraduate Research Conference or other venues.

In addition, all students will take elective courses to fulfill the 128-credit requirement for a B.S. degree. These elective courses could fulfill the requirements for a major or minor in another program or they could fulfill a self-designed interdisciplinary concentration. These courses would be selected in consultation with the advisor and the appropriate faculty advisor in another program.

For more information, contact Stephen Pugh (Stephen.Pugh@unh.edu), program coordinator; or contact the Office of Admissions (unhm.admissions@unh.edu), (603) 641-4150.

### Biotechnology Minor

https://manchester.unh.edu/program/program/biotechnology

**Description**

The Minor in Biotechnology will introduce students to the field of biotechnology in a five-course sequence that will provide substantial education and training in bioethics, as well as the central content areas of biology and biotechnology, with a focus on modern genetics and laboratory techniques. Students adding the biotechnology minor will be adding a valuable credential to their major, indicating a substantial additional skill set in the laboratory-focused and forward-looking field of biotechnology.

### Requirements

Students must complete five courses (20-21 credits, depending on the courses chosen) with a cumulative minimum grade point average of 2.0 and with no grade below a C-. Transfer course approval for the minor is limited to, at most, two relevant courses successfully completed at another accredited institution, subject to syllabi review and approval. Courses for non-majors will not count towards the minor.

#### Required Courses

<table>
<thead>
<tr>

<td>1, 3</td>
</tr>
<tr>
<td>Biotechnology lab techniques course</td>
<td>1, 2</td>
<td>4-5</td>
</tr>
</tbody>
</table>

**Total Credits** 20-21

1. Biotechnology majors-level course
2. BMS 503 General Microbiology/BMS 504 General Microbiology Laboratory may be an additional pre-requisite course
3. Students in majors with 3+ course overlap (e.g., Neuropsychology) will need a different course than GEN 604 Principles of Genetics within the Biotechnology major. BMS 503 General Microbiology/BMS 504 General Microbiology Laboratory is recommended alternative.

To ensure a course counts in the minor, it is required that students consult the minor coordinator, Dr. Kristen Johnson (Kristen.johnson@unh.edu), before enrolling in the course.

### Business

**Leadership Through Innovation, Collaboration and Real-World Experience.**

Located in the economic heart of New Hampshire, our Business program gives you the skills, resources and connections to become a successful, innovative leader. Small class sizes offer you individualized attention from faculty, while our vast network of business partners gets you the practical experience employers want.

Our faculty members bring years of industry experience to the classroom, and their flipped-classroom approach means you’ll apply concepts and theories to real, hands-on work. Senior capstone experience brings your learning to life through: an internship or project at a local business, case studies, business ethics study, and developing your professional self. Another internship is required to be taken junior or senior year to support career decision-making.

This highly interdisciplinary program is designed to explore your interests and prepare you for a lucrative career, offering areas of focus in:

- accounting & finance
- business economics
- management and human resources
- marketing and sales

Working hand-in-hand with local businesses through internships, capstone experience, or involvement in our award-winning Enactus.
program, you'll get the real-world experience and leadership skills that today's employers look for.

Business Administration (A.S.) Manchester

https://manchester.unh.edu/program/bs/business-administration

Description

Our Associate in Science degree in Business Administration is designed to provide students with a stepping stone to a career. Graduates of the program are prepared for entry-level employment opportunities, or to continue their education at the baccalaureate level.

Requirements

Students must complete a minimum of 64 credits to graduate with an associate of science degree in business administration. A minimum cumulative GPA of 2.0 is required for graduation. In addition to completing eight Discovery Program courses and one Inquiry or Inquiry-attribute course within their first 48 earned credits, students must complete six courses (24 credits) in the major and one elective course.

Business Major (B.A.) Manchester

https://manchester.unh.edu/program/ba/business-major

Description

The bachelor of arts in business has a strong interdisciplinary focus. The curriculum adheres to a philosophy that effective decision making requires a broad understanding of the institutional and cultural climate within which businesses are operating. The program uses the resources of Manchester’s business community and its economic strengths to provide students with skills, knowledge, and opportunities.

The business program offers areas of focus in accounting, business economics, management (including human resources), and marketing/sales. Students with a unique interest can create a self-designed concentration with approval of their advisor and the coordinator of the business program.

The culminating capstone experience enables students to apply their knowledge in the form of an internship or applied senior project. Because this is a bachelor of arts program, students fulfill the foreign language requirement. Students have the opportunity to enhance their knowledge through community experiences and internships. Graduates of UNH Manchester’s business program are in demand because they offer future employers a portfolio of practical skills and theoretical knowledge, coupled with applied experiences through internships, leading to effective communication and leadership.

Requirements

Students must complete 128 credits to graduate. Each required course must be completed with a minimum grade of C-. Students must attain a minimum GPA of 2.0 in major courses required for graduation. Majors cannot use BUS 430 Introduction to Business Statistics, ECN 411 Introduction to Macroeconomic Principles, or ECN 412 Introduction to Microeconomic Principles to satisfy both Discovery Program and major requirements. Transfer students must complete at least half of their credits in the major and the 8-credit capstone experience (BUS 705
Business Ethics and either BUS 750 Business Capstone Senior Seminar - Internship or BUS 760 BUS SR SEM - Research Project) in residence at UNH Manchester.

### Area of Study

Select an area of study

| Total Credits | 78-84 |

1. Experiential learning is required prior to the last semester at the University. BUS 690 Business Program Internship as an internship course satisfies this requirement. Most students will take two internships at UNH Manchester - (BUS 690 Business Program Internship and BUS 750 Business Capstone Senior Seminar - Internship.)

2. Business Capstone Experience (two courses: BUS 705 Business Ethics and one senior business seminar [BUS 750 Business Capstone Senior Seminar - Internship or BUS 760 BUS SR SEM - Research Project], fulfills the Discovery Program capstone requirement for business majors and is taken during the senior year).

Note: Because this is a bachelor of arts program, students must fulfill a language requirement. Efforts will be made to enhance fluency through subsequent courses and community experiences.

Business Major: Accounting Option (B.A.) Manchester

https://manchester.unh.edu/program/ba/business-major-accounting-option

**Description**

The Accounting Option is offered in response to the growing demand for Accounting graduates in public accounting firms as well as in industry. Many local public accounting firms have expressed that with an expected high retirement rate among “baby boomers”, there appears to be a need for graduates with robust accounting credentials. Representatives from well-known CPA exam prep course firms expressed the opinion that accountants are in high demand and the unemployment rate in this industry is very low.

The Accounting Option offers students the necessary courses to enable them to sit for the CPA exam, which is one of the major steps in obtaining a CPA license.

The requirements for sitting for the CPA exam in the State of New Hampshire are a bachelor’s degree, 24 credits in business subjects, and 30 credits in accounting subjects. The Accounting Option within the Business program provides these required credits.

**Requirements**

Students must complete 128 credits to graduate. Each required course must be completed with a minimum grade of C-. Students must attain a minimum GPA of 2.0 in major courses required for graduation. Majors cannot use BUS 430 Introduction to Business Statistics, ECN 411 Introduction to Macroeconomic Principles, or ECN 412 Introduction to Microeconomic Principles to satisfy both Discovery Program and major requirements. Transfer students must complete at least half of their credits in the major and the 8-credit capstone experience (BUS 705 Business Ethics and either BUS 750 Business Capstone Senior Seminar - Internship or BUS 760 BUS SR SEM - Research Project) in residence at UNH Manchester.

**Requirements - Accounting Option**

Business Minor (Manchester)

https://manchester.unh.edu/program/minor/business

**Description**

The minor in business allows students to pursue their interests in the liberal arts and sciences while building a foundation of business skills and adding a valuable credential to their portfolio and resume. The minor in business requires successful completion of five business courses or 20 credit hours from the courses listed below.
Requirements

Students must complete five courses (20 credits) with a cumulative minimum grade point average of 2.0 and with no grade below a C- grade. Transfer course approval for the minor is limited to at most, two relevant courses successfully completed at another accredited institution, subject to syllabi review and approval. Students must complete a minimum of 20 credits for the minor, with a maximum of 8 credits transferred from accredited institutions and a minimum of 12 credits completed in residence at UNH.

Electives

Select two of the following (at least one of which must be at the 600 level or above):

- BUS 430 Introduction to Business Statistics
- BUS 533 Introduction to Managerial Accounting
- BUS 601 Financial Management
- BUS 610 Marketing Principles and Applications
- BUS 620 Organizational Behavior

Total Credits 20

Other 600- or 700-level courses in business (BUS) or economics (ECN) may be substituted for courses listed above with permission of the business program coordinator. This may include an Internship course (BUS 690 Business Program Internship), Special Topics courses (BUS 675 Special Topics in Business Administration/BUS 685 Applications in Business Management), or an Independent Study in Business (BUS 695 Independent Study in Business).

For more information, contact Bill Troy, program coordinator and minor supervisor, at (603) 641-4345 or Bill.Troy@unh.edu.

Entrepreneurship Minor (Manchester)

https://manchester.unh.edu/program/minor/entrepreneurship

Description

The entrepreneurship minor is designed for those students who are interested in starting their own business or enhancing a business in which they are currently working.

The course content of the minor is designed to meet the objective of developing the mindset, skills, competencies, and experiential learning that enable students to function as entrepreneurs or as productive members of emerging, entrepreneurial firms.

The entrepreneurship program integrates the knowledge and experiences gained in other disciplines, as well as from the field of entrepreneurship, into an understanding of the process of new venture creation and the management of entrepreneurial businesses. With the minor presenting entrepreneurial concepts from a generalist perspective, students will acquire knowledge to conceive, develop, and launch new ventures and to turn innovative ideas into products that can be brought to market.

Emphasis is placed on the managerial, legal, and marketing aspects of start-up businesses. The program culminates with a juried business plan competition for financial backing and start-up funding support.

Ethical and legal—In addition to exploring legal issues associated with a small business, students will examine their own personal values and aspirations to help guide their entrepreneurial careers.

Knowing the numbers—Entrepreneurs must be intimately familiar with the financial health of their businesses, particularly in regard to cash flow and other limited resource management and forecasting.

Business model—Students will be expected to develop a full understanding of how to create and utilize a business model and transform it into a fundable business plan.

Selling the idea—Students must not only understand how to identify and evaluate potential investors, but also how to sell their business idea when the opportunity presents itself.

Managing growth in entrepreneurial companies—Students will learn the unique set of leadership and communication skills necessary to guide a company through its most perilous time period: rapid growth.

Entrepreneurship minors are strongly encouraged to become active members in the ENACTUS program (http://manchester.unh.edu/current-students/enactus), which focuses on helping entrepreneurs in the Manchester community. Students will also be encouraged to take advantage of internship opportunities through the Career and Professional Success (CaPS) office (https://manchester.unh.edu/careers/career-professional-success).

For more information, contact Bill Troy, program coordinator and minor supervisor, at (603) 641-4345 or Bill.Troy@unh.edu.

Forensic Accounting Minor

https://manchester.unh.edu/program/minor/forensic-accounting

Description

Opportunities for growth in the field of Forensic Accounting continue at an impressive rate. Career options for students who add the minor in Forensic Accounting can include investigative and litigation support to accounting firms, banks, police departments, government agencies and other organizations. The knowledge attained in this minor can help a homeland security expert or accountant investigate the rampant fraud
that is often tied to homeland security or business threats, including non-accounting fraud issues.

In addition to following the knowledge content of the Certified Fraud Examiner (CFE) certification exam offered by the Association of Certified Fraud Examiners, the skills attained in the Forensic Accounting minor will augment the students' potential in a variety of career opportunities in homeland security and fraud investigation. The CFE consists of four parts: Fraud Prevention and Deterrence, Financial Transactions and Fraud Schemes, Investigation, and Law. This credential is highly regarded in the security industry, corporate risk management, law offices, and in government agencies such as the Federal Bureau of Investigation.

The Forensic Accounting minor will appeal to students who would like to add specialized skills to their Homeland Security degree. In addition, the Forensic Accounting minor can be used as a minor in other degree paths (except for the B.A. in Business, Accounting option). While it is not training students to pursue the CPA or careers more focused in traditional accounting, it can be used to expose students to the field of accounting.

**Requirements**

All five courses applied to the Forensic Accounting minor must be completed with a minimum grade of C- and an overall GPA of 2.0. Students must take at least three 500-level or above courses to complete the minor.

**Communication Arts**

**Shaping skilled communicators through creativity, technology and hands-on experience**

With expert faculty, state-of-the-art studios and a vast network of internship opportunities, our Communication Arts program gives you the skills and experience to turn your passion into a profession. Our highly adaptable program opens doors to limitless career possibilities — shaping the next generation of filmmakers, journalists, HR specialists, marketers and beyond.

Recent data from the American Academy of Arts & Sciences shows that Communication Arts is the largest and most popular of the humanities disciplines. Part of this interest is because we live in a world where communication is a vital part of daily life, regardless of career or industry. But another part, potentially even more important, is the inherent flexibility that students find — not only during college, but in the job market after graduation.

Your interests inspire what you study, allowing you to focus your degree in areas like Advertising and Public Relations (https://manchester.unh.edu/program/ba/communication-arts-major-advertising-public-relations-option), Cinema and Media Arts (https://manchester.unh.edu/program/ba/communication-arts-major-cinema-media-arts-option), Digital Media (https://manchester.unh.edu/program/ba/communication-arts-major-digital-media-option), and Human Relations (https://manchester.unh.edu/program/ba/communication-arts-major-human-relations-option). Students can also take courses in graphic design, advertising design, typography, and more through our partnership with the Institute of Art and Design at New England College in Manchester.

Through hands-on learning in our classrooms, in the field and in our audio, video and editing studios, you’ll shape the social, creative, analytical, and technical communication skills you need for success in industries from media to business, healthcare, education, and more.

- Communication Arts Major: Digital Media Option (B.A.) (p. 407)
- Communication Arts Major: Human Relations Option (B.A.) (p. 408)
- Communication Arts Minor (p. 409)

**Faculty**

Communication Arts Faculty (https://manchester.unh.edu/program/ba/communication-arts-major/#collapse_145)

**Communication Arts Major (B.A.)**

https://manchester.unh.edu/program/ba/communication-arts-major

**Description**

Communication Arts majors explore the creativity, artistry, and impact of human communication. The program offers a rich variety of learning experiences, including:

- Working with cutting-edge digital media in state-of-the-art sound and video production studios and a high-definition editing suite with full Adobe creative cloud access.
• Discovering how communication theories and practices shape personal identity, social skills, professional relationships, and human relations.

• Enhancing your media writing, social media, public relations, and strategic communication skills.

• Exploring the history of media using a super-tech screening room with surround sound.

• Developing hands-on research activities, creative media projects, and internship experiences that link students with businesses, nonprofits, and the community.

To complete the major, students can take courses from across the Communication Arts curriculum, or they may choose to focus their coursework in one of four suggested areas of study: Advertising and Public Relations (https://manchester.unh.edu/program/ba/communication-arts-major-advertising-public-relations-option)*, Cinema and Media Arts (https://manchester.unh.edu/program/ba/communication-arts-major-cinema-media-arts-option)*, Digital Media (https://manchester.unh.edu/program/ba/communication-arts-major-digital-media-option)*, or Human Relations (https://manchester.unh.edu/program/ba/communication-arts-major-human-relations-option)*.

A degree in Communication Arts prepares students for today's communication-driven society. The program offers students the knowledge and skills they need to succeed as professional communicators, media artists, and entrepreneurs working in a variety of careers. Our alumni have gone on to work in fields such as radio, television, film, web, digital video, corporate communications, journalism, public relations, social media, advertising, sales, strategic communication, audience research, counseling, conflict mediation, human resources, and more. A Communication Arts degree also creates pathways to careers in government, social services, public education, and community affairs, where employers seek graduates who can think creatively and communicate effectively to a variety of audiences and constituents.

Communication Arts faculty bring exceptional expertise to the classroom and are actively engaged in their own creative and scholarly work. They regularly share their knowledge with audiences around the state, the country, and the world. Some are also experienced professionals who bring current, real-world knowledge from the workplace to the classroom. In addition to classroom instruction, the program also provides students with exceptional access to experiential learning opportunities (internships, community-based research, service learning, and media production projects) that occur within real-life settings.

* Advertising and Public Relations, Cinema and Media Arts, Digital Media, and Human Relations are Degree Options that appear on the official UNH transcript and diploma. The specific requirements for each Degree Option are presented elsewhere in this catalog. Students are encouraged to contact the Communication Arts program coordinator or their academic advisor to discuss whether a Degree Option is the right choice for them.

Requirements

Degree Requirements

Students must complete a minimum of 128 credits and satisfy the University's Discovery Program and foreign language requirements. Communication Arts (CA) majors must complete 10 courses (40 credits) and maintain a minimum overall grade point average of 2.0 in the major. Transfer students must complete at least 20 credits in the Communication Arts major at UNH. Communication Arts majors may use up to two CMN and/or CA courses toward both the Communication Arts major and UNH Discovery Program requirements.

Total Credits: 8

Capstone Requirement

The capstone requirement will be satisfied in a student’s senior year by completion of a specific four-credit capstone course at the 600 or 700 levels. Students may not enroll in a capstone course until they have completed all three CA program core courses (CMN 455 Introduction to Media Studies, CMN 456 Propaganda and Persuasion, and CMN 457 Introduction to Language and Social Interaction) and all CA Area A and Area B requirements. The capstone course can also fulfill an Area C course requirement.

The capstone experience offers seniors an opportunity to synthesize and apply knowledge and skills gained throughout their communication arts major coursework. The capstone course requires students to conduct an original research study, a creative media project, an internship, community-based research, or an advanced service learning project in communication arts under the close supervision of a communication arts faculty member. Students are strongly encouraged to share their capstone projects with the larger UNH community through participation in the Undergraduate Research Conference, a presentation in the Brown Bag lunch series, publication in the UNH undergraduate journal Inquiry, or presentation in some other public venue. Students should work closely with their advisors to make sure the capstone requirement has been satisfied.

Courses that satisfy this requirement include, but are not limited to:

Communication Arts Major: Advertising and Public Relations Option (B.A.)

https://manchester.unh.edu/program/ba/communication-arts-major-advertising-public-relations-option

Description

Students in the Advertising and Public Relations option develop knowledge and skills relating to the use of strategic communication practices within a variety of settings such as ad agencies, commercial businesses, and nonprofit organizations. A dynamic mix of historical, social, ethical, organizational, creative, analytical, and experiential perspectives is used to create a strong foundation for professional success and graduate study. Coursework covers topics such as earned and paid media, social media, graphic design, media writing, data analytics, and audience research. Some courses use field trips and guest speakers to keep students up-to-date with current trends. An internship in advertising and public relations is required.

Requirements

Option Requirements

Students must complete all of the Communication Arts major requirements (p. 405) and will work with their academic advisor to select courses that also satisfy option requirements.

The option in Advertising and Public Relations consists of 24 credits as distributed below. Note that some courses may also be used to fulfill the requirements of the Communication Arts major. Courses applied to the option must be completed with a minimum grade of C- and overall GPA of 2.0. Transfer students must complete a minimum of 12 credits, including the Advertising and Public Relations Internship, at UNH Manchester.

Communication Arts Major: Cinema and Media Arts Option (B.A.)

https://manchester.unh.edu/program/ba/communication-arts-major-cinema-media-arts-option

Description

Students choosing the Cinema & Media Arts Option study the creative media industries with a focus on developing professional skills and knowledge relating to careers in film, television and radio. Courses cover topics such as narrative, screenwriting, audio and video production, film history and criticism, documentary, and audience research methods. Students may elect to take an internship in the area of cinema and media arts to help fulfill requirements for the Option.

Requirements

Option Requirements

Students must complete all of the Communication Arts major requirements (p. 405) and will work with their academic advisor to select courses that also satisfy option requirements.

Students must complete all of the Communication Arts major requirements. The option in Cinema and Media Arts consists of 24 credits as distributed below. Courses may be used toward the Communication Arts Degree requirements as well as the Cinema and Media Arts option. Courses applied to the option must be completed with a minimum grade of C- and overall GPA of 2.0. Transfer students must complete a minimum of 12 credits at UNH Manchester.

Communication Arts Major: Human Relations Option (B.A.)

https://manchester.unh.edu/program/ba/communication-arts-major-human-relations-option

Description

Students choosing the Communication Arts Human Relations option explore practical, theoretical, and historical perspectives on the study of human relationships in professional and personal contexts. With so many of today’s employers emphasizing the value of human communication skills in potential employees, the Human Relations Option offers students the knowledge and hands-on learning they need to develop their oral and written communication skills, as well as their ability to work in teams. Coursework covers topics such as verbal and nonverbal communication, perception, identity, conflict, human resource management, power, health, social psychology, human development, and counseling. An internship in the area of human relations is required.

Requirements

Option Requirements

Students must complete all of the Communication Arts major requirements (p. 405) and will work with their academic advisor to select courses that also satisfy option requirements.

The option in Human Relations consists of 24 credits as distributed below. Note that some courses may also be used to fulfill the requirements of the Communication Arts major. Courses applied to the option must be completed with a minimum grade of C- and overall GPA of 2.0. Transfer students must complete a minimum of 12 credits, including the Human Relations Internship, at UNH Manchester.

Communication Arts Minor

https://manchester.unh.edu/program/minor/communication-arts

Description

The communication arts minor allows students in other majors to broaden their understanding of human communication while also developing deeper knowledge and practical skills that can enhance their professional lives and complement their major field of study.

Requirements

The communication arts minor allows students to expand their understanding of human communication while also developing knowledge and skills that can enhance their professional lives and complement their major fields of study.

The communication arts minor requires completion of five courses (20 credits), according to the requirements below. A minimum GPA of 2.0 in minor courses is required, with no individual grade lower than a C-. Courses taken on a pass/fail basis may not be used for the minor. Students should work with their major advisers to ensure that any prerequisites for CA courses have been met, or that permission to enter the course has been granted by the course instructor. Courses used to satisfy Discovery Program requirements may be used to satisfy CA minor requirements. No more than 8 credits used by a student to satisfy major requirements may be used for the minor. At the discretion of the minor coordinator, transfer credits may be used to satisfy minor requirements, but no more than 8 credits (or 2 of 5 classes) should be transfer credits.

Computing

The undergraduate computing programs in the Applied Engineering and Sciences Department at UNH Manchester prepare students for successful careers in computer science and information technology and further education in computing-related graduate studies. In our computing programs, students learn computing principles and computational thinking practices to understand how computing machineries, including networks and clouds, work; design and build efficient systems; and apply computations and tools to develop and operate next generation of computing applications.

Programs

- Computer Information Systems Major (B.S.) (p. 409)
- Computer Science Major (B.A.) Manchester (p. 411)
- Applied Computing Minor (p. 413)

Faculty

Computer Science Faculty (https://manchester.unh.edu/program/ba/computer-science-major/#collapse_152)

Computer Information Systems Major (B.S.)

https://manchester.unh.edu/program/bs/computer-information-systems-major

Description

The computer information systems (CIS) or information technology (IT) field, in its broadest sense, encompasses all aspects of computing technology. During their program of study, students develop a strong skillset to effectively select, administer, apply, and integrate computing technologies to create IT solutions that meet the needs of users within an organizational context.

The bachelor of science degree in Computer Information Systems prepares graduates with knowledge, skills, and professional practices to work in the highly integrated field of computing technologies and to grow into leadership positions. The program also enables graduates to further their studies at the graduate level and pursue research in a computing-related discipline.

Career opportunities for students with an undergraduate CIS degree are varied, but may include such areas as software applications developer, data security specialist, database developer/administrator, e-commerce analyst/programmer, help desk manager, multimedia developer, network/
system administrator, technical writer, technology trainer, user support specialist, testing and quality assurance specialist, or web developer. Career options exist in a wide range of organizations as all businesses, industries, and nonprofits continue to use, develop, and integrate information technology solutions.

**Program Educational Objectives**

Within five years of graduation a CIS student should be able to:

- Apply knowledge and skills in core and advanced information technologies to help an organization achieve its goals.
- Advocate for users of information technologies, whether they are end users of information systems, managers of enterprise applications, developers of IT solutions, or customers of IT-reliant work systems.
- Develop, manage, and evaluate computing and communication systems and services.
- Live and work as contributing, well-rounded members of society.

**Student Outcomes**

1. Analyze a complex computing problem and to apply principles of computing and other relevant disciplines to identify solutions.
2. Design, implement, and evaluate a computing-based solution to meet a given set of computing requirements in the context of the program's discipline.
3. Communicate effectively in a variety of professional contexts.
4. Recognize professional responsibilities and make informed judgments in computing practice based on legal and ethical principles.
5. Function effectively as a member or leader of a team engaged in activities appropriate to the program's discipline.
6. Use systematic approaches to select, develop, apply, integrate, and administer secure computing technologies to accomplish user goals.

The CIS program outcomes are aligned with criteria for accrediting information technology programs as recommended by the ABET Computing Accreditation Commission and the ACM Computing Curricula – IT 2017 Information Technology guidelines.

### Requirements

Students majoring in computer information systems must complete 128 credits to graduate, satisfy the University’s Discovery Program, and complete 81 credits in the major with a minimum of C in each course. Students must maintain an overall cumulative GPA of 2.0 or better.

Transfer students who elect to major in computer information systems must earn 81 approved credits for completion of the their major, of which at least 24 credits must be completed at UNH Manchester.

### Computing Topics

Select three computing courses totalling twelve credits

### Concentration

Select four courses

Total Credits 81

1. Any of these courses, except for COMP 500 Discrete Structures, may be used to satisfy the Quantitative Reasoning Discovery requirement.
2. To broaden and advance student learning of computing innovations. Advisor permission required.
3. Majors can creatively design a concentration of courses that reflect their academic and professional goals and career plans. Four courses can be selected across a wide university curriculum, reflecting majors’ interests in a liberal arts, scientific, engineering, interdisciplinary, or professional area of study. The concentration must be approved by the student’s advisor before the student’s junior year.

For additional information about the computer information systems program, contact Michael Jonas (michael.jonas@unh.edu), (603) 641-4352, or contact the UNH Manchester Office of Admissions (unhm.admissions@unh.edu), (603) 641-4150.

### Computer Science Major (B.A.)
Manchester

https://manchester.unh.edu/program/ba/computer-science-major

#### Description

The computer science program combines a solid foundation in computing necessary to succeed in today's start-up and high-tech environments. The program is designed in response to market demand for students proficient in computer science.

Students in the computer science program are required to complete an industry-sponsored project and a research-themed project. The projects focus on real-world experience and give students the opportunity to work with industry experts through internships and sponsored research.

Career opportunities for students with an undergraduate computer science degree are varied, and may include such areas as applications developer, computer and information research scientist, data security specialist, database administrator, database developer, multimedia developer, network architect, product development manager, quality assurance analyst, software systems developer, user experience designer, or web developer.

#### Program Educational Objectives

Within five years of graduation, a CS student should be able to:

- Demonstrate mastery of the core areas of computer science
- Invent, develop, manage, and evaluate computing systems and services
- Exercise professional responsibility and have appreciation of the social, legal, ethical, and cultural issues inherent in the computing field.

#### Student Outcomes

1. Analyze a complex computing problem and to apply principles of computing and other relevant disciplines to identify solutions.
2. Design, implement, and evaluate a computing-based solution to meet a given set of computing requirements in the context of the program's discipline.
3. Communicate effectively in a variety of professional contexts.
4. Recognize professional responsibilities and make informed judgments in computing practice based on legal and ethical principles.
5. Function effectively as a member or leader of a team engaged in activities appropriate to the program's discipline.
6. Apply computer science theory and software development fundamentals to produce computing-based solutions.

#### Requirements

Students majoring in computer science must complete 128 credits to graduate, satisfy the University's Discovery Program, and complete 73 credits in the major with a minimum of C- in each course. Students must maintain an overall cumulative GPA of 2.0 or better.
Transfer students who elect to major in computer science must earn 73 approved credits for completion of their major, of which at least 24 credits must be completed at UNH Manchester.

**Select one course in computing to broaden and advance student learning of computing innovations**

Total Credits 73

1. The program requires four mathematics courses and one physics course.
2. The program prepares students for the workforce and further education in a holistic way by emphasizing communication, collaboration, team work, initiative, appreciation for diversity, and self-direction and responsibility. These competencies are developed through the sequence of courses.
3. Advisor permission required.

For additional information about the computer science program, contact Michael Jonas, (603) 641-4352, michael.jonas@unh.edu, or contact the UNH Manchester Office of Admissions, (603) 641-4150, unhm.admissions@unh.edu.
Applied Computing Minor

https://manchester.unh.edu/program/minor/applied-computing

Description

The minor requires five COMP courses (20 credit hours). Students must earn grades of at least C- in each course and maintain an overall GPA of 2.0 in minor courses. Transfer students may transfer up to two courses, subject to the approval of the minor supervisor. Courses taken on a pass/fail basis may not be used for the minor. No more than 8 credits used by the student to satisfy major requirements may be used in the minor.

Digital Language Arts

The Digital Language Arts major is a regionally-distinctive course of study designed to mesh your creative writing interests with the world of digital creative production. This major focuses on many of the skills considered important for success in the job market: critical and creative thinking, written and oral communication, and the ability to collaborate as part of a team.

With courses in areas from visual and digital narratives to experimental creative writing, from virtual reality to metamodern poetics, this exceptional major offers a digital-age curriculum that is innovative, entrepreneurial, and cross-disciplinary. You'll build high-level skills in critical and creative thinking through the creation and development of digital-age projects in environments from print to virtual reality.

You may also have the opportunity to be part of one of two on-campus publications: *The Manchester Independent*, a digital newspaper covering the Greater Manchester area, and *Best American Experimental Writing*, an annual, nationally distributed anthology of innovative literary art.

The Digital Language Arts major culminates with real-world experience through upper-level seminars, capstones, and the opportunity for internships that are tailored to your own career ambitions—and focused on the applied skills that employers particularly value.

Digital Language Arts Major (B.A.)

https://manchester.unh.edu/program/ba/digital-language-arts-major

Description

Students in the Digital Language Arts program develop high-level critical and creative thinking skills by planning and constructing innovative, entrepreneurial digital-age projects. By conceptualizing, theorizing, and authoring cutting-edge ideas for both art and business, you'll learn to excel in every type of literacy necessary for success in the digital marketplace. This includes, in addition to conventional print literacy, literacies in visual, audiovisual, digital, transmedia, performative, augmented reality, augmented virtuality, and virtual reality environments.

Requirements

For the Digital Language Arts program at UNH Manchester, students must complete a minimum of 128 credits and satisfy the University's Discovery Program and foreign language requirements, and complete a minimum of 40 credits in major coursework with a grade of C- or higher. The major requirements consist of a minimum of 10 courses. These 10 courses (40 credits) must include the capstone requirement. Students in the major must earn C or higher to pass ENGL 419 Introduction to Literary Analysis, ENGL 502 Professional and Technical Writing, and ENGL 595 Literary Topics: Digital Creative Writing. One literary theory/poetics course is required.

The Creative Writing Minor is a course of study tailored to the interests of individual creative writers, with an additional focus, in all classes, on oral and written persuasion, imaginative and critical thinking, and collaboration with creative peers. The aim of the Minor is to help students develop a unique approach to language that results in memorable, publishable work. Students are free to author work in any of 36 genres, including creative nonfiction, poetry, fiction, and creative non-fiction, poetics, or appropriate courses in Communication Arts and allied Programs with advisor approval.

For more information, contact program coordinator Susanne Paterson (susanne.paterson@unh.edu) or contact the Office of Admissions (unhm.admissions@unh.edu), (603) 641-4150.

### Creative Writing Minor

https://manchester.unh.edu/program/minor/creative-writing

#### Description

The Creative Writing Minor is a course of study tailored to the interests of individual creative writers, with an additional focus, in all classes, on oral and written persuasion, imaginative and critical thinking, and collaboration with creative peers. The aim of the Minor is to help students develop a unique approach to language that results in memorable, publishable work. Students are free to author work in any of 36 genres of creative writing, and are encouraged to innovate, experiment, and cross genre lines at will. Because our program is especially focused on interdisciplinarity and multimedia literary art, it is well-suited to those wishing to become “creatives” in the digital age. Even students who do not intend to publish their work will find that the skills developed through the Minor—including literacies in everything from print to virtual reality, from visual narrative to augmented virtuality—are useful in any profession where creativity and entrepreneurial ingenuity are valued.

Classes in the Creative Writing Minor prize innovation, experimentation, individuality, and creative daring across genres and media, and emphasize collaboration and conceptual reasoning far more than is common in many creative writing courses. A central presumption of the Creative Writing Minor is that the most engaging literary art is reflexive—meaning that not only is there a philosophy of language animating it, but also that its author has drawn from all his or her non-literary interests in developing that philosophy. For this reason, undergraduates in STEM programs are particularly encouraged to study in the Minor; they bring the way they speak, write, and reason in their non-creative writing courses into all of the workshops and theory seminars in this plan of study as well.

The director of the Creative Writing minor, Professor Seth Abramson, is the author of many books of cross-genre creative writing and the series editor for Best American Experimental Writing, an annual anthology of experimental poetry and prose published annually by Wesleyan University Press and sponsored by the Digital Language Arts program (https://manchester.unh.edu/program/ba/digital-language-arts-major) at University of New Hampshire.

### Requirements

Students must complete 20 credits with a minimum 2.0 grade-point average in these courses overall and with no individual grade lower than a C-. No more than 8 transfer credits will be accepted.

Engineering Technology

Shaping the next generation technical workforce through hands-on and real-world experience

With topics including communications theory, digital signal processing, analog systems, and digital systems. The ABET-accredited Electrical Engineering Technology program gives you the practical experience to meet both industry demand and your career goals. Small class sizes mean opportunities to collaborate with faculty who are industry experts, giving you one-on-one attention to excel in the dynamic, highly rewarding field of electronics.

From advanced manufacturing concepts to complex machine design, the ABET-accredited Mechanical Engineering Technology program will ignite your fascination with how things work. You'll work alongside faculty experts to learn mechanical design, fluid/thermal technology, production systems, automation engineering and more.

Through hands-on experience in the classroom and in the field, this applied degree program gives you the practical experience to turn your passion into a career.

Electrical Engineering Technology Major (B.S.)

https://manchester.unh.edu/program/bs/electrical-engineering-technology-major

Description

Engineering technology requires the application of engineering and scientific knowledge and methods combined with technical skills in support of engineering activities. Graduates may work in a variety of areas including engineering design, manufacturing, field service, testing, and sales and may work in management positions related to engineering, manufacturing, and computer technology.

The engineering technology program at UNH Manchester offers only junior- and senior-level coursework. Students admitted to this program...
must have an appropriate associate degree from the New Hampshire Technical Institute or an equivalent institution accredited by the Engineering Technology Accreditation Commission (ETAC) of ABET, www.abet.org (https://www.abet.org) or show academic evidence of ability to successfully complete the requirements of this calculus-based program. After two major courses, non-matriculated students must either be admitted to the program or declare that they are not planning to pursue a degree in engineering technology.

The programs at UNH Manchester are designed to meet the needs of both full- and part-time students with a mix of classes scheduled during the day and in the evening.

## Requirements

Students must complete a minimum of 128 credits and satisfy the University’s Discovery Program.

English Teaching

Shaping skilled English educators through creativity and real-world experience

Inspire others to share your love of reading and writing with our English Teaching program. Considered one of the region’s best, our program gives you the tools, guidance and real-world experience for a rewarding career in English education.

Our faculty are not only master teachers, but thoughtful advisors and mentors to those who see themselves as educators. They offer a diverse spectrum of expertise—from Shakespeare to African literature, from 21st century journalism to deep knowledge of standards-based literacy education.
Our five-year Accelerated Master’s option allows you to work on requirements for your Master of Arts in Teaching degree while still in the bachelor’s program. You’ll spend the fifth year interning at an area school, preparing you to become state-certified to teach English Language Arts.

Combine your passion for reading and writing with theories of learning and teaching literacy—leading you to a career helping students develop the skills they need for a lifetime of learning.

**Description**

**Shaping skilled English educators through creativity and real-world experience**

Inspire others to share your love of reading and writing with our English Teaching program. Considered one of the region’s best, our program gives you the tools, guidance and real-world experience for a rewarding career in English education.

Our faculty are not only master teachers, but thoughtful advisors and mentors to those who see themselves as educators. They offer a diverse spectrum of expertise—from Shakespeare to African literature, from 21st century journalism to deep knowledge of standards-based literacy education.

Our five-year Accelerated Master’s option allows you to work on requirements for your Master of Arts in Teaching degree while still in the bachelor’s program. You’ll spend the fifth year interning at an area school, preparing you to become state-certified to teach English Language Arts.

Combine your passion for reading and writing with theories of learning and teaching literacy—leading you to a career helping students develop the skills they need for a lifetime of learning.

**Requirements**

All English Teaching majors must complete 10 courses (40 credits). Six of 10 courses must be at the 600-level or above. The English Teaching major prepares prospective teachers of middle- and high-school English (grades 5-12). This degree does not provide state certification. Students who wish to be certified must apply for admission to graduate study within the Education Department. Certification requires an additional year of coursework and internship at the graduate level. Most, or all, of the graduate coursework and internship may be completed in the 12 months following completion of the B.A. in English Teaching.

- All prospective English Teaching majors should enroll in EDUC 500 Exploring Teaching as early as possible.
- ENGL 419 Writing About Literature must be completed with a minimum grade of C. All other major courses must be completed with a minimum grade of C-
- English Teaching majors must have a 2.5 GPA in the following program requirements:

Select one of the following

One 700-level English course

ENGL 797 Special Studies in Literature
Combine the English Teaching major with UNH’s renowned MAT, taken at the Manchester campus, and in five years students can be state certified to teach English and Language Arts. With the five-year master’s option, students can apply 12 undergraduate credits to the advanced degree. The English Teaching major includes courses that will introduce students to the Common Core Standards, a nationwide effort now transforming K-12 education.

For more information about the English Teaching program, contact Susanne Paterson, Associate Professor and Program Coordinator, at susanne.paterson@unh.edu or the UNH Manchester Office of Admissions at (603) 641-4150, unhm.admissions@unh.edu.

TESOL Minor (Manchester)
https://manchester.unh.edu/program/minor/tesol

Description

The Teaching English to Speakers of Other Languages (TESOL) Minor is a set of courses designed to prepare interested students in teaching and/or working with multilingual learners. The minor is primarily for students pursuing careers in teaching but is also appropriate for students interested in a range of professions that require regular interaction with a multilingual population (e.g., social work, work force development, public health, and management). It is also beneficial for students who want to later pursue K-12 ESOL certification or a graduate degree in education or linguistics at UNH or another institution. As the cultural and linguistic diversity in K-12 schools continues to increase, the TESOL Minor is an excellent addition to any student interested in public school teaching.

Furthermore, the TESOL Minor appeals to students who are interested in teaching English to bi-/multilingual learners in non-K-12 settings, either in the US or abroad. In the U.S. this includes teaching at the post-secondary level, e.g. community colleges, academic enrichment centers at Institutions of Higher Education (IHEs) and at adult learning centers. For students interested in teaching abroad, the TESOL Minor provides a competitive edge over other BS/BA candidates, including prestigious opportunities such as the Fulbright English Teaching Assistant Program. The Minor is also attractive to students who are interested in using the credential to pursue overseas opportunities (e.g., Peace Corps, World Teach), and, in addition, opens up new international job-seeking possibilities.

Requirements

For the Teaching English to Speakers of Other Languages (TESOL) Minor at UNH Manchester, students must complete 20 credits with a minimum 2.0 grade-point average in these courses overall and with no individual grade lower than a C-. No more than 8 transfer credits will be accepted.

</tbody>
</table>

1. Cannot be repeated under different course title
2. See faculty advisor about taking a course for Capstone credit during senior year.

1 Since 1998, EDUC 712 Teaching Multilingual Learners has been recognized by the Durham English Department as the equivalent of ENGL 715 Teaching English as a Second Language: Theory and Methods
2 Special topics in the past have included: “Language and Culture in Schools & Schooling”; “The Immigrant Experience in Film and Literature”; and “Sociolinguistics and Socioliteracies”. Students may petition to have a TESOL related course from another major (e.g., English, Communication Arts) fulfill the EDUC special topics requirement.

For more information, contact Judy Sharkey (judy.sharkey@unh.edu), Associate Professor of Education or Susanne Paterson (susanne.paterson@unh.edu), Associate Professor and Program Coordinator.

General Studies

The Associate in Arts in General Studies offers students academic flexibility in a program that combines the foundations of a liberal education and elective courses that satisfy personal interests. https://manchester.unh.edu/program/aa/general-studies

Programs

- General Studies (A.A.) (p. 419)

Faculty

https://manchester.unh.edu/directory/all

General Studies (A.A.)
https://manchester.unh.edu/program/aa/general-studies

Description

The Associate in Arts in General Studies offers students academic flexibility in a program that combines the foundations of a liberal education and elective courses that satisfy personal interests. The A.A. in general studies is the first two years of a baccalaureate program and all 400-level courses transfer to and fulfill the University’s Discovery requirements. Students who earn an A.A. in general studies have a foundation for continued study in any major while they develop problem-solving skills, cognitive skills, and learning techniques that are vital to a lifetime of learning. Many students begin their college study in the A.A. general studies program. Depending on personal interests and academic goals, students may choose to apply to a baccalaureate degree program prior to completion of the A.A. degree.
Requirements

To graduate with an associate of arts degree in general studies, students must complete 64 credits, earn a minimum cumulative GPA of 2.0, and fulfill two types of requirements: University Discovery Program and degree requirements. The program includes nine courses from the Discovery Program curriculum. Working with their advisors, students enhance their program of study with elective courses where they can explore their interests and possible baccalaureate degree majors. The last 16 hours of credit must be UNH courses completed following admission and matriculation, unless permission is granted to transfer part of this work from another institution.

Description

An excellent complement to any degree, a History minor helps you build a foundational understanding of the political, social, economic and cultural forces that influence human life.

Requirements

To earn a minor in history, students must complete 20 credits with no individual grade lower than C- and a 2.0 grade-point average in minor courses. Up to 8 transfer credits may be used toward the history minor.

Homeland Security

Preparing innovative, dynamic problem-solvers for a safer tomorrow

Today's threat environment is complex and dynamic and includes threats from small- to large-scale attacks of violence or terrorism, to cybersecurity to catastrophic natural disasters such as hurricanes, wildfires, tornadoes and earthquakes. Fully available to students on both campuses (Durham and Manchester), the Homeland Security (HLS) program will give students the tools to help organizations and the nation be safe and resilient.

History Minor (Manchester)
https://manchester.unh.edu/program/minor/history
Fully available on both Durham and Manchester campuses, the UNH Homeland Security program is built upon the expertise and advice of subject matter experts from around the Nation. Its proven curriculum includes practical experiences, service and experiential learning opportunities, and consulting opportunities that together empower students to manage programs and to lead people. HLS provides students with an impressive array of tools including how to do strategic planning, how to build emergency management and continuity plans, how to perform an organization-wide security and risk assessments, and how to design and evaluate exercises. The 4-year curriculum is flexible and incorporates the ability for students to take 40 credits of "breadth" as either two minors, a double major, or a dual degree. Students transferring with an associate's degree automatically satisfy the breadth requirement. Ultimately, the Homeland Security program empowers students to be successful on the job market or in graduate school.

Homeland security is a broad-field, applied liberal arts degree teaching students critical thinking, writing and analysis skills. As a result, HLS creates several graduate school opportunities and opens students to dozens of career paths in both the public sector (i.e., local, state or federal government), and the private sector or the military. Students will find diverse and rewarding career opportunities in cyber security/ information assurance, intelligence analysis, civil or Foreign Service, diplomatic security, law enforcement at the local, state or federal levels, emergency and disaster management, immigration, border and transportation security, policy making, corporate security, risk management, critical infrastructure protection, human security and more.

**Requirements**

Students must complete 128 credits to graduate. All courses within the major, fully available on both Durham and Manchester campuses, must be completed with a grade of C- or above and an overall GPA of 2.0 or above in major courses.

**Complimentary Block of Courses (Breadth Requirements)**

In addition to the core HLS courses, students must complete 40 additional credits from either Durham or Manchester campuses, or both, in one of five ways:

1. two minors;
2. a minor and a "coherent block"/self-designed concentration approved by the HLS coordinator;
3. a second major or a UNH dual degree;
4. an associate's degree transferred in to UNH;
5. some other combination of coursework with consent of the HLS program coordinator.

For additional information about the Homeland Security program, contact James Ramsay (james.ramsay@unh.edu), HLS Program Coordinator, or the UNH Manchester Office of Admissions (unhm.admissions@unh.edu) at (603) 641-4150.

**Corporate Security Minor**

https://manchester.unh.edu/program/minor/corporate-security

Security threats are all around us. Modern society has demonstrated that all organizations face risks from natural disasters, to disgruntled employees, to foreign terrorists groups such as the Islamic State or Al Qaeda, to domestic terrorists/criminals, to active shooters, cyber-attacks, bioterror threats such as EBOLA, SARS, and anthrax. Further, weather-related events such as Hurricanes Katrina and Sandy, or massive snow storms causing extended shut downs of businesses, tornadoes, earthquakes and potential flood and rain events are always possible and can be devastating to the financial solvency of any organization. Consequently, threats like these have changed how employers evaluate and manage risk.

The relatively rapid rise of the Corporate Security Officer (CSO) in the private sector indicates the deep commitment many organizations now have to enterprise risk management of security threats across all industrial sectors. Corporate security professionals (not "security guards") plan for future potential events, develop and implement risk management, preparedness and resilience strategies that avoid, transfer or reduce the risk to the organization posed by these threats. The need for corporate security expertise has likely never been greater.

**Requirements**

The corporate security minor requires students to complete five courses (20 credits). All five courses applied to the corporate security minor must be completed with a minimum grade of C- and an overall GPA of 2.0. Students must take at least three 500-level or above courses to complete
the minor, noting no more than two courses (8 credits) may also be used in the HLS major.

For more information about the Homeland Security minor on either campus, contact James Ramsay, HLS program coordinator and minor supervisor, at james.ramsay@unh.edu.

### Cybersecurity Policy Minor

https://manchester.unh.edu/program/minor/cybersecurity-policy

#### Description

The Minor in Cybersecurity Policy introduces students to the basics of cybersecurity, as well as to societal and business mandates for incorporating cybersecurity into an organization’s policies and governance structures. We study techniques for communicating about cybersecurity, and we explore solutions for sustaining cybersecurity within a variety of organizations.

This minor is available to both Durham and Manchester students.

#### Requirements

This minor is only available to undergraduate students enrolled in the accelerated option for the Master of Science in Cybersecurity Policy and Risk Management (CPRM) program. Students must be accepted into CPRM before registering for any of the courses in Category B below. Only seniors are permitted to take courses in Category B.

Five courses (20 credits) are required for the minor. All courses must be completed with a minimum grade of C- and an overall GPA of 2.0.

| CPRM 750 | Security Measures II                            |         |

Total Credits 20

1. May be taken at any time
2. May be taken only after acceptance into the accelerated option for the M.S. in CPRM program

For more information about the Cybersecurity Policy minor, contact Dr. Maeve Dion, coordinator and minor supervisor, at maeve.dion@unh.edu.

### Global Studies Minor

https://manchester.unh.edu/program/minor/global-studies

#### Description

Globalization is a complex web of interwoven processes that affect virtually all facets of our daily lives, from pop culture to economics, politics to climate and everything in between. Many of the pressing problems of the 21st Century – climate change, environmental sustainability, terrorism, pandemics, etc. – transcend national boundaries and will need to be solved as a global community. The Global Studies minor explores the challenges and opportunities that arise from living in an increasingly inter-connected world and also cultivates cross-cultural awareness by encouraging students to view issues from different cultural perspectives.

The Global Studies minor has four thematic pillars: culture & society, governance & conflict, economics & interdependence, and environment & health.

**Governance & Conflict**: explores the challenges of global governance in an increasingly inter-connected world of societies with different political and economic systems; analyzes the causes and effects of conflict and examines techniques for conflict resolution

**Culture & Society**: explores the values, norms, art and literature of different cultures around the world and throughout history, and their inter-relatedness

**Environment & Health**: explores human security issues, such as food security, health and disease, environmental sustainability and climate change

**Economics & Interdependence**: explores the politics, policies and practices of international trade and finance, and the development and effects of economic interdependence

#### Requirements

All five courses applied to the Global Studies minor must be completed with a minimum grade of C- and an overall GPA of 2.0. Students must take at least three 500-level or above courses to complete the minor.

Homeland Security Minor

https://manchester.unh.edu/program/minor/homeland-security

Description

Today's threat environment is complex and dynamic and includes threats from small- to large-scale attacks of violence or terrorism, to cybersecurity to catastrophic natural disasters such as hurricanes, wildfires, tornados and earthquakes. Fully available to students on both campuses (Durham and Manchester), the Homeland Security (HLS) minor will give students an excellent glimpse at what it takes to keep the nation safe and resilient.

The minor in Homeland Security (HLS) is designed to provide a professional experience to students not majoring in Homeland Security, but who are interested in aspects of the homeland security profession. Students will see how Homeland Security issues, challenges, and tools are related to their specific major and how Homeland Security can be used to embellish their careers.

Requirements

The minor in homeland security requires five courses (20 credits). Students must earn grades of at least C- in each course and an overall GPA of 2.0 in minor courses. Transfer students may transfer up to two courses, subject to the approval of the HLS program coordinator. Courses taken on a pass/fail basis may not be used for the minor. No more than eight credits to satisfy major requirements may be used in the minor.

Terrorism Studies Minor
https://manchester.unh.edu/program/minor/terrorism-studies

Description

The discipline of terrorism is a fluid topic. Terrorism has existed for hundreds of years. Yet since the tragic events of September 11, 2001, terrorism has become the top priority of US national and homeland security including the Intelligence Community, the DOD, FBI, CIA, DHS, and State Department. Additionally, acts of terrorism have continued to challenge the national security interest of not only the United States, but of all her allies. To combat the threats of terrorism, much has been done, and continues to be addressed in the domestic and international arenas.

The United States has taken drastic measures to create new laws and enhance existing ones to attempt to ensure terrorist attacks don’t reach the US. Other nations have experienced their own issues with terrorism, whether it is Russia’s conflict with Chechen Rebels, Columbia’s war with FARC, or the effects on Mid East and African countries at the hand of Al Qaeda, al Shabaab, or Boko Haram. The development of asymmetric tactics by terrorists and insurgencies worldwide affect governments, infrastructure, and world peace.

The terrorism studies minor is both multidisciplinary and interdisciplinary, which means that some courses will explore phenomena primarily through one disciplinary lens whereas others will weave together different disciplinary perspectives.

Requirements

The terrorism studies minor requires students to complete five courses (20 credits). All five courses applied to the terrorism studies minor must be completed with a minimum grade of C- and an overall GPA of 2.0. Students must take at least three 500-level or above courses to complete the minor.

Humanities

Shaping insightful thinkers through liberal arts exploration

Channel your curiosity about the human condition with our highly interdisciplinary Humanities program. With self-designed concentrations and faculty mentorship, you’ll develop the intellectual, analytical and communication skills that will set you apart in any industry.

As a humanities major, you’ll sharpen your abilities in analysis and critical thinking through exploration of diverse works of art, music, literature, history, philosophy and the sciences. Let your interests fuel your studies with self-designed concentrations, from the social and ethical implications of genetic engineering to the examination of a historical period through literature, arts and more.

With the personalization to tailor your degree to the future you want, the skills and knowledge you’ll gain will help you reach your career goals.

Humanities Major (B.A.) Manchester
https://manchester.unh.edu/program/ba/humanities-major

Description

The UNH Manchester humanities program is an interdisciplinary study of the human condition, past and present. The program is based on
careful examination of substantial works from a variety of disciplines and is intended to develop intellectual skills, specialized knowledge, and breadth of understanding. It provides students with a broad foundation of knowledge and skills in the liberal arts combined with a coordinated, self-designed program of studies in an area of individual student interest.

The program attracts highly motivated students who wish to assume significant responsibility for the content and direction of their studies. Humanities students develop skills of analysis, critical assessment, and effective communication as they study diverse works of art, music, literature, history, philosophy, and the sciences. Individually designed programs may cover the full range of student interests: for example, the social and ethical implications of genetic engineering or the examination of an historical period through study of its literature, arts, history, philosophy, and sciences. Students complete their major with two capstone seminars. The first, HUMA 795 Study of Creativity, explores the nature of creativity through the lives and works of individuals such as Leonardo da Vinci, Kathe Kollwitz, Mozart, Freud, Einstein, and Georgia O’Keeffe. The second seminar, HUMA 796 Study of Contemporary Issues, explores current social and political issues with a focus on developments in public policy, science, and business, and their impact on social values.

Humanities majors find employment in a wide range of fields or pursue graduate study in subjects such as law or education. Skills and knowledge developed through the major are important in virtually all social and career responsibilities. A humanities major or minor can also complement work in other majors such as elementary or secondary education, business, communications, or computer information systems. Humanities students develop skills of analysis, critical assessment, and effective communication as they study diverse works of art, music, literature, history, philosophy, and the sciences. Individually designed programs may cover the full range of student interests: for example, the social and ethical implications of genetic engineering or the examination of an historical period through study of its literature, arts, history, philosophy, and sciences. Students complete their major with two capstone seminars. The first, HUMA 795 Study of Creativity, explores the nature of creativity through the lives and works of individuals such as Leonardo da Vinci, Kathe Kollwitz, Mozart, Freud, Einstein, and Georgia O’Keeffe. The second seminar, HUMA 796 Study of Contemporary Issues, explores current social and political issues with a focus on developments in public policy, science, and business, and their impact on social values.

¹ This is an approved program of study designed by the student in consultation with a faculty advisor. In addition to courses available on the Manchester campus, students may, with prior approval, use courses from area colleges and the University’s Durham campus. The concentration is made up of two humanities courses (HUMA prefix) at the 600 or 700 level and three courses from any relevant discipline at any level.

For more information, contact Susanne Paterson (susanne.paterson@unh.edu), program coordinator or the UNH Manchester Office of Admissions (unhm.admissions@unh.edu) at (603) 641-4150.

### Humanities Minor (Manchester)

https://manchester.unh.edu/program/minor/humanities

#### Description

The humanities minor is an interdisciplinary program where students can combine humanities courses and courses from other disciplines that form a multidisciplinary theme or topic. The minor in humanities is an excellent way to add breadth of perspective to specialized study in particular disciplines. Many professions encourage students to develop skills and knowledge outside their area of professional interest. The humanities minor can meet this objective and make college education a more enlightening and rewarding experience. Students selecting a minor in humanities should, in consultation with a faculty advisor in humanities, identify a general theme or topic for the minor.

#### Requirements

To earn a minor in humanities, students must complete 20 credits with no individual grade lower than C in minor courses.

### Legal Advocacy

#### Programs

- Legal Advocacy Minor (p. 425)

### Legal Advocacy Minor

https://manchester.unh.edu/program/minor/legal-advocacy

#### Description

The Legal Advocacy Minor is a set of courses which is designed to ensure students with an interest in law school have all the skill-sets and several of the field-specific knowledge bases that will help them succeed there. It is also intended to help students contemplating law school develop a clear understanding of what that experience is likely to be, as well as some insight into the nature of professional legal practice.
For students who may not intend to pursue graduate study in the law, the Minor sharpens their written, rhetorical, and analytical skills, helping them succeed in a variety of other graduate programs and career paths. In all cases, it is designed to further students' understanding of how the American legal system, and their state's legal system in particular, function.

The Minor emphasizes transferable skill-sets, a commitment to public service and responsible advocacy, experiential learning, and the preparation of undergraduates for a diverse job market. The core skill-sets developed in the Minor—critical thinking, creative thinking, oral communication skills, written communication skills, and the ability to advocate for oneself and for others both singly and as part of a team—are instrumental to every profession. So too is having a basic understanding of the nation's legal system, as such knowledge is foundational to being an engaged citizen.

Instructors in the Legal Advocacy Minor include a licensed attorney with six years of trial experience in New Hampshire, a retired Justice of the 4th Circuit Court of New Hampshire, and a former paralegal who has published numerous scholarly articles on the subject of Law & Politics.

**Requirements**

Students must complete 20 credits with a minimum 2.0 grade-point average in these courses overall and with no individual grade lower than a C-. No more than 8 transfer credits will be accepted.

**Literary Studies**

The Literary Studies major focuses on skills considered important for professional success: critical thinking, thoughtful reading, written and oral communication, and the ability to collaborate as part of a team.

The major offers courses in areas from graphic novels to crime fiction, from film adaptations of literature to post-colonial narratives. As a Literary Studies major, you will explore poetics, literary theory, and literary analysis in print and digital literature.

You may also have the opportunity to be part of one of two on-campus publications: The Manchester Independent, a digital newspaper covering the Greater Manchester area, and Best American Experimental Writing, an annual, nationally distributed anthology of innovative literary art.

The Literary Studies major culminates with real-world experience through upper-level seminars, capstones, and the opportunity for internships that are tailored to your own career ambitions—and focused on the applied skills that employers particularly value.

**Literary Studies Major (B.A.)**

https://manchester.unh.edu/program/ba/literary-studies-major

**Description**

Students in the Literary Studies program advance their power to analyze keenly and write incisively by studying leading-edge and foundational literary works in print, graphic and digital forms. Gaining a mastery of aesthetics and genre, literary theory and cultural history, our students learn to see how language shapes the world on every scale. Literary Studies students take an array of literature classes as well as core courses in digital language arts and professional and technical communication, making them just the sort of versatile, critically aware graduates prized in workplaces today.

**Requirements**

For the Literary Studies program at UNH Manchester, students must complete a minimum of 128 credits and satisfy the University’s Discovery Program and foreign language requirements, and complete a minimum of 40 credits in major coursework with a minimum grade of C-. The major requirements consist of a minimum of 10 courses. These 10 courses (40 credits) must include the capstone requirement.

Students in the major must earn C or higher to pass ENGL 419 Introduction to Literary Analysis, ENGL 502 Professional and Technical Writing, and ENGL 595 Literary Topics: Digital Creative Writing. One literary theory/poetics course is required. Two pre-1800 literature courses are required.

English Minor (Manchester)

https://manchester.unh.edu/program/minor/english

Description

With a minor in English, you can complement your major with five classes from our areas of study. We think you’ll find that even subjects that seem far apart have an uncanny way of intersecting.

In our literature courses, you might read and research a play about thermodynamics, even as our writing classes give you an opportunity to study the many genres of creative and occupational writing. English study expands your portfolio of transferable skills while keeping your imaginative faculties in high gear.

Employers from across the professional spectrum are looking for employees with skill-sets that include those of an English minor—for instance, the ability to think critically, parse challenging texts, and express new ideas persuasively and creatively. You’ll be amazed at what an English minor can do for you both personally and professionally.

Requirements

For the English minor at UNH Manchester, students must complete 20 credits with a minimum 2.0 grade-point average in these courses overall and with no individual grade lower than a C-. Students may include in the English minor courses from the Writing Focus, which includes courses in creative writing and journalism.

ENGL 419 Writing About Literature is recommended as one of the five courses.

Neuropsychology

Explore the human brain to fuel research, innovation, and discovery

Channel your curiosity about the human brain and behavior in our cutting-edge Neuropsychology program. Fusing core components of biology and psychology, this program prepares students for an impactful career in the growing field of neuroscience.

You’ll explore the concepts behind normal human behavior, from learning and memory to sensation and perception. You’ll also examine complex neurological conditions like dementia, addiction and mood and movement disorders.

Guided by faculty experts in our innovative research labs, you’ll gain the empirical, analytic and communication skills that will make you stand out in your career — or in your application to graduate or medical school.

Faculty

Neuropsychology Faculty (https://manchester.unh.edu/program/bs/neuropsychology-major/#collapse_141)

Neuropsychology Major (B.S.)

https://manchester.unh.edu/program/bs/neuropsychology-major
Description

Neuropsychology is the study of the human brain and its relation to behavior. The UNH Manchester program focuses on the biological basis of human functioning in both normal and pathological states (e.g., dementia, depression) and therefore, prepares students for careers working with individuals with various mental health and neurological conditions. This interdisciplinary program offers a concentration of core and advanced courses in psychology and biology while providing sufficient flexibility for students to customize their education in order to meet specific requirements for their chosen career path, including the health professions.

The neuropsychology program prepares students for a variety of careers within the field of neuroscience, including bachelor-level positions and graduate training in research and health professions. At the bachelor-level, students are prepared for positions in healthcare (e.g., clinical laboratory technologist, psychometrician) and biomedical research (research assistant). The program is also designed to provide the flexibility needed to prepare students for graduate training in the health professions, such as being a physician, physician assistant, psychologist, neuropsychologist, or occupational therapist. Students interested in medical school are able to complete premedical requirements within four years.

Requirements

Students majoring in neuropsychology must complete a minimum of 128 credits and satisfy the University’s Discovery Program, and complete 56 credits in the major with a minimum of C- in each course and a 2.0 overall grade-point average in all major requirements. Three courses in the major can be used to fulfill both a major requirement and a Discovery requirement, providing students with more flexibility to customize their education.

Transfer students who elect to major in neuropsychology must complete at least 32 credits in the program at UNH to qualify for the degree in neuropsychology. The department’s academic advisors will determine the distribution of these credits. Transfer students should note that courses are allotted only the number of credits granted by the original institution (after adjustments for semester-hour equivalents). Thus, students transferring from an institution at which courses carry less than four credits each must make up for any credit deficit created by acceptance of transfer credits into the neuropsychology major.

Specific course selections should be discussed with the advisor. Exceptions to the requirements for the major require a petition to the department.

1 If used to fulfill SS Discovery requirement, students must take PSYC 511 Sensation and Perception, PSYC 513 Cognitive Psychology, or PSYC 561 Abnormal Behavior.
2 Students may either take BSCI 680 Pharmacology or PSYC 733 Drugs and Behavior for major credit, but not both.
3 If a student chooses to complete PSYC 795 Independent Study for less than 4 credits, they will need to take additional credits that count toward the major.

For more information about the neuropsychology program, contact Alison Paglia, Ph.D., program coordinator, at Alison.Paglia@unh.edu (alison.paglia@unh.edu), Daniel Seichepine, Ph.D., at Daniel.Seichepine@unh.edu, (Daniel.Seichepine@unh.edu) or the UNH Manchester Office of Admissions (unhm.admissions@unh.edu) at (603) 641-4150.

Philosophy

Programs

- Philosophy Minor (Manchester) (p. 428)

Philosophy Minor (Manchester)

https://manchester.unh.edu/program/minor/philosophy
Description

Philosophy is the study of the fundamental nature of truth, existence, beauty, morality, and justice. People study philosophy to understand the basic principles of science, art, and the human condition.

Though this sounds abstract, a background in philosophy is excellent training for any walk of life. Philosophy offers training for a variety of careers by providing a unique combination of life-long skills: analytic and interpretive skills, critical reasoning skills, the enhanced capacity to detect problems and to solve them, excellence in oral and written presentation and defense of one’s ideas, skill at asking probing and central questions about the ideas of others (as well as about one’s own ideas), and skill at effectively understanding, organizing, and evaluating complex systems of thought.

Requirements

A philosophy minor consists of five philosophy courses, completed with a C- or above, one of which must be at the 500-level or higher, (PHIL 495 Tutorial Reading or PHIL 795 Independent Study, with special permission only).

For more information, contact Phillip Deen (phillip.deen@unh.edu), minor supervisor.

Professional and Technical Communications

The Professional and Technical Communications major was uniquely designed with your career in mind. Built upon an analysis of large-scale polls of employers, this major focuses on the five skills considered most important for success in the job market: critical thinking, creative thinking, written communication, oral communication, and the ability to collaborate as part of a team.

With courses in areas from new media journalism to legal writing, from business communications to technical writing, this regionally distinctive major offers a professionally-oriented curriculum that is entrepreneurial and forward-thinking. You will develop career-driven, transferable skills and learn to excel in any professional context by studying how to communicate and collaborate in a variety of academic and applied environments.

You may also have the opportunity to be part of one of two on-campus publications: The Manchester Independent (http://manchesterindependent.com/index195.htm#NEWS), a digital newspaper covering the Greater Manchester area, and Best American Experimental Writing, an annual, nationally distributed anthology of innovative literary art.

The Professional and Technical Communications major culminates with real-world experience through upper-level seminars, capstones, and a required internship that are tailored to your own career ambitions—and focused on the applied skills that employers particularly value.

Professional and Technical Communications Major (B.A.)

https://manchester.unh.edu/program/ba/professional-technical-communications-major

Description

Students in the Professional and Technical Communications program study to become accomplished digital-age communicators. You’ll develop transferable skill-sets in oral and written communication that prepare you to excel in any professional environment. In addition, you’ll learn to communicate and collaborate in specializations of your choice — including, among others, new media journalism, creative nonfiction, business writing, legal writing and research, and technical writing.

Requirements

For the Professional and Technical Communications program at UNH Manchester, students must complete a minimum of 128 credits and satisfy the University’s Discovery Program and foreign language requirements, and complete a minimum of 40 credits in major coursework with a grade of C- or higher. The major requirements consist of a minimum of 10 courses. These 10 courses (40 credits) must include the internship requirement. Students in the major must earn C or higher to pass ENGL 419 Introduction to Literary Analysis, ENGL 502 Professional and Technical Writing, and ENGL 595 Literary Topics: Digital Creative Writing.

Any 500, 600, or 700 level writing, communications, or journalism electives 2

1 NOTE: ENGL 694 Special Topics in Creative Writing is a writing-intensive course.

2 Students may also choose to complete a minor in another discipline.
Professional Writing Minor

https://manchester.unh.edu/program/minor/professional-writing

**Description**

The interdisciplinary minor in professional writing introduces you to the many genres of professional writing, providing opportunities to practice your skills in an internship setting.

Courses span the areas of English, Communication Arts, and Computing, and include classes such as Media Writing, Journalism in the 21st Century, Introduction to Creative Non-Fiction, Professional and Technical Writing, Social Media for Organizations and Business, Introduction to Computer Applications, Mobile Computing, as well as others.

**Requirements**

Students must complete 22-24 credits for the minor. Courses must be completed with a minimum grade of C- unless otherwise specified, and a 2.0 overall GPA in courses used for the minor is required. A maximum of two transfer courses (3 or 4 credits each) may be applied to the minor. No more than 8 credits used by the student to satisfy major requirements may be used in the minor.

Students should select courses from the following subject areas:

Psychology

Explore the biopsychosocial factors that drive thoughts and behaviors

Explore the science of behavior and mental processes in our Psychology program, bringing classroom learning to life in our research labs and in the field. Guided by faculty who are experts in their disciplines, you’ll develop a broad background in the field — including perceptual, biological, clinical/counseling, and developmental psychology.

Our program prepares you for careers aimed at improving lives ranging from research assistant to mental health worker, social welfare caseworker to teaching. You’ll also foster skills that are attractive and useful in all industries, including critical and logical thinking, data analysis, research, scientific communication and more.

Psychology Major (B.A.) Manchester

https://manchester.unh.edu/program/ba/psychology-major

**Description**

Psychology is the scientific study of behavior and mental processes. The UNH Manchester psychology program provides students with a broad background in psychology, introducing them to both the experimental and clinical perspectives in the field.

The psychology program, through its independent study and internship programs, offers opportunities for participation in cooperating New Hampshire mental health, human services, and rehabilitation facilities. Students have worked in hospitals, halfway houses, mental health centers, and other agencies. The department also invites guest speakers
Program Requirements

Students majoring in psychology must complete a minimum of 128 credits, satisfy the University's Discovery Program and foreign language requirements, and complete 44 credits with a minimum of C- in each course and a 2.0 overall grade-point average in all major requirements.

Transfer students who elect to major in psychology must complete at least 24 credits in the program at UNH/UNH Manchester to qualify for the degree in psychology. Transfer students must earn a total of 44 approved credits for completion of the psychology major. The department's academic advisors will determine the distribution of these credits. Transfer students should note that courses are allotted only the number of credits granted by the original institution (after adjustments for semester-hour equivalents). Thus, students transferring from an institution at which courses carry less than four credits each must make up for any credit deficit created by acceptance of transfer credits into the institution.

The courses listed below are offered on the UNH Manchester and/or Durham campuses; specific course selections should be discussed with the advisor. Exceptions to the requirements for the major require a petition to the department.

Note: Course numbers with the # symbol (e.g. #400) have not been taught in the last 3 years.

Total Credits: 44

1. May be substituted for a group I or group II course, but they may not both be used to fill the same group.

Discovery Capstone:

1. PSYC 793 Internship: This will count towards fulfilling the capstone and a group II 700-level psychology course. By taking PSYC 793 Internship, the capstone will be considered fulfilled.

2. PSYC 795 Independent Study: Students can designate a 4 credit independent study as their capstone experience. This can count towards the capstone and as a PSYC 402 Statistics in Psychology replacement course. Students should also register for PSYC 798 Capstone, a 0 credit course to reflect that the capstone experience is fulfilled.

3. One 700-level course designated as capstone. A capstone designated 700-level course will count towards fulfilling the capstone and a 700-level course. Students will register for PSYC 798 Capstone, a 0 credit course to reflect the capstone experience is fulfilled. See guidelines below:

- You may take any eligible 700-level Psychology course in your senior year (90+ completed credits) for Capstone credit.
• At the beginning of the semester, ask your professor about the possibility of taking the course for Capstone credit. Remember that your professor is not obligated to designate a course for Capstone credit. Please be respectful in approaching your professor, and if the answer is no, please accept this decision.

• Meet and discuss with your professor what you will be doing to constitute your Capstone experience. In some cases, it will be an extra assignment; in others it will involve the expansion of existing class work. Your professor will use his/her professional discretion to determine what constitutes as your Capstone experience.

• If approved, you will register for PSYC 798 Capstone in addition to the 700-level course.

Students who plan to transfer to Durham should consult with their advisor.

For more information about the psychology program, contact Alison Paglia (alison.paglia@unh.edu), program coordinator, or the UNH Manchester Office of Admissions (unhm.admissions@unh.edu) at (603) 641-4150.

### Psychology Minor (Manchester)

https://manchester.unh.edu/program/minor/psychology

#### Description

The Psychology minor brings a unique perspective on society and human behavior to your studies and adds a set of skills that makes you stand out to employers in a variety of industries.

#### Requirements

</tbody>
</table>

- No more than 4 credits of PSYC 795 Independent Study may be applied to the minor.

- A maximum of 9 approved psychology transfer credits can be applied to the UNH psychology minor.

- Transfer courses must be evaluated for their equivalency. Only courses taken in a psychology department can be applied towards the minor.

- Three credit transfer courses can be applied as only three credits. Students must make up the credit deficit created by acceptance of transfer courses, with one exception: one three-credit course accepted in transfer may be applied for a total of 19 credits.

- AP Psychology transferred into UNH is equivalent as PSYC 401 Introduction to Psychology.

For more information, contact Alison Paglia, minor supervisor at alison.paglia@unh.edu.

### Public Service and Nonprofit Leadership

https://manchester.unh.edu/academics/degree-programs/public-service-and-nonprofit-leadership

#### Overview

**Developing agents of change in the classroom and in the field**

The bachelor of science degree in public service and nonprofit leadership provides an interdisciplinary, applied approach to the study of public and not-for-profit institutions and actors. Students explore the ways that leaders and citizens work in and around governments to address the complex problems confronted by N.H. and the U.S. today.

All students choose a path that enables them to complete an accelerated Masters in Public Policy or Masters in Public Administration, where they take their most advanced courses in the Major alongside graduate students in the UNH Carsey School of Public Policy. Those courses count as 12 credits toward their BS degree and as 9 credits toward a UNH-Carsey MPP or MPA, should a student choose to continue on to a Masters. Most students entering as first-year students will be able to complete a combined BS/MPA or BS/MPP within five years.

#### Programs

- Public Service and Nonprofit Leadership Major (B.S.) (p. 432)
- Political Economy Minor (p. 433)
- Political Science Minor (p. 434)
- Public History Minor (p. 434)

#### Faculty

Public Service and Nonprofit Leadership Faculty (https://manchester.unh.edu/program/bs/public-service-nonprofit-leadership-major/#collapse_120)

### Public Service and Nonprofit Leadership Major (B.S.)

https://manchester.unh.edu/program/bs/public-service-nonprofit-leadership-major

#### Description

The bachelor of science degree in public service and nonprofit leadership provides an interdisciplinary, applied approach to the study of public and not-for-profit institutions and actors. Students explore the ways that leaders and citizens work in and around governments to address the complex problems confronted by New Hampshire and the United States today.

All students choose a path that enables them to complete an accelerated Masters in Public Policy or Masters in Public
Administration, where they take their most advanced courses in the Major alongside graduate students in the UNH Carsey School of Public Policy. Those courses count as 12 credits toward their BS degree and as 9 credits toward a UNH-Carsey MPP or MPA, should a student choose to continue on to a Masters. Most students entering as first-year students will be able to complete a combined BS/MPA or BS/ MPP within five years.

Public Service majors develop essential, transferable skills in critical thinking, practical problem solving, communication, teamwork, leadership, civic and community engagement, research, and data analysis. Coursework emphasizes experiential learning, such as interning at the N.H. State House or with local lobbying firms, engaged research in the real world, and hands-on service learning at a range of not-for-profit organizations in health, human services, advocacy, and the arts. All students must undertake at least one semester-long internship and at least one independent research project to be presented at the UNH Undergraduate Research Conference.

Public service and nonprofit leadership graduates can pursue careers in state and local government, political campaigns, advocacy, non-profit organizations, journalism, education, and more, and are prepared to pursue graduate studies in law, public policy, public administration, community development, and public health.

Requirements

Students must complete 128 credits to graduate, including 44 credits in the public service and nonprofit leadership major. Students must maintain an overall cumulative GPA of 2.0 and a cumulative GPA in the major of 2.0. No credit toward the major will be given for any course in which the student receives a grade of less than C-. Students also must fulfill the UNH Discovery Program requirements. Up to three courses may be used toward both the public service and nonprofit leadership major and UNH Discovery Program requirements. Transfer students must take at least 28 credits in the major at UNH Manchester.

Political Economy Minor

https://manchester.unh.edu/program/minor/political-economy

Description

Students interested in pursuing a career in government, business, communications, or the law can add a breadth of perspective through the political economy minor.

Requirements

The political economy minor consists of five courses (20 credits total). The minimum grade requirement is C- per course. Any grade lower than a C- will not count toward the minor. Students wishing to use transfer credits from abroad or other universities should meet with the political economy minor supervisor, Stephen Pimpare, to determine eligibility toward the minor.

University of New Hampshire
**Political Science Minor (Manchester)**

https://manchester.unh.edu/program/minor/political-science

**Description**

Students interested in pursuing a career in government, business, communications, or the law can add a breadth of perspective through the political science minor.

**Requirements**

The political science minor consists of five courses (20 credits total) that may span the sub-disciplines of American politics, international relations, comparative politics, political philosophy, and political sociology. Any courses with the political science (POLT) or politics and society (PS) course designations may be used toward the minor. No more than two courses may be taken at the 400 level.

The minimum grade requirement is C- per course. Any grade lower than a C- will not count toward the minor. Students wishing to use transfer credits from abroad or other universities should meet with the Public Service and Nonprofit Leadership minor supervisor, Melinda Negron-Gonzales, to determine eligibility toward the minor.

For more information, contact Melinda Negron-Gonzales at Melinda.Negron@unh.edu.

---

**Public History Minor**

https://manchester.unh.edu/program/minor/public-history

**Description**

Public historians work on translating historical research and information to the broad public audience. The public history minor is designed to provide students with the skills and experience to work in museums, archives, libraries, historic sites and houses, non-profits and historical societies, corporations, and in educational and community programs.
CONTINUING EDUCATION, SUMMER SESSION, AND JANUARY TERM

Continuing education provides public access to higher education for individuals not formally admitted to a UNH degree program. Taking courses as a non-degree student is an excellent way to prepare for matriculation into a degree program, help advance or change careers, or study a topic of interest.

Non-Degree Student Status

Undergraduate

Undergraduate courses (numbered 200-799) are open to individuals with a high school diploma, GED, or home-schooled secondary education equivalency. Individuals may register for a maximum of 11 credits per semester.

Graduate

Graduate courses (numbered 800-999) are open to individuals with a baccalaureate degree from an accredited college or university. Individuals may register for a maximum of 8 credits per semester.

Full-Time Special Student Status

Undergraduate

Non-degree students who wish to register for 12 or more credits in a single semester must receive formal permission from UNH Undergraduate Admissions. Special tuition and fee rules apply. Please contact UNH Undergraduate Admissions at 603-862-1360 for more information on how to apply.

Graduate

Non-degree students who wish to register for 9 or more credits in a single semester must receive permission from The Graduate School. Students approved for this special status must pay full-time graduate tuition and fees at the time of registration. Please contact The Graduate School at 603-862-3000 for more information on how to apply.

NH Senior Citizen Tuition waiver

New Hampshire residents who are age 65 or older and are not enrolled in a degree program are eligible to take a maximum of two credit-bearing courses (some exceptions apply) per fiscal year (Summer Session/Fall/January Term/Spring) tuition-free. Please visit https://www.unh.edu/continuingeducation/undergraduate-coursework for more information, under Registration.

Pre-Admission Program

The Pre-Admission Program allows students an opportunity to strengthen their academic credentials in preparation for admission to a baccalaureate program by completing coursework that satisfies both general education and introductory-level major requirements. Students complete two semesters in the program, register for up to 12 credits per semester, and then transfer to a baccalaureate program upon successful completion of the outlined criteria. For more information please visit https://admissions.unh.edu/apply/non-traditional-students/how-to-apply/pre-admission-program.

CATS Program

The CATS (Challenging Academically Talented Students) Program is open to highly motivated and academically strong high school juniors and seniors who want to enrich their academic experience with a college-level course. Students may choose from freshman-level courses (400-500 numbered courses). For an application and more information, please visit https://admissions.unh.edu/apply/cats-challenging-academically-talented-students-program.

Prerequisites

Individuals are responsible for meeting all course prerequisites before registering for classes. Prerequisite information is included in undergraduate and graduate course descriptions.

Graduate coursework is advanced study and presumes completion of adequate preparation at the undergraduate level in the same or allied field in which the student wishes to pursue graduate coursework.

Academic Standards and Expectations

A cumulative grade-point average of 2.00 (C grade) is the minimum acceptable level for undergraduate work and 2.67 (B- grade) is the minimum acceptable level for graduate work at the University. The records of non-degree students are examined periodically and academically deficient students may be warned or excluded from registering. All non-degree students are expected to become familiar with and adhere to the current UNH Student Rights, Rules, and Responsibilities available online at https://www.unh.edu/student/rights.

Professional Development and Training

Professional Development and Training, an affiliate office of the Graduate School, serves individuals, businesses, and organizations by offering a wide range of non-credit professional development opportunities throughout the year. Programs are designed to assist professionals in developing new or advanced knowledge and skills in a variety of fields. Training is offered in Durham, Manchester, and Portsmouth, N.H. For more information, visit https://training.unh.edu/.

Summer Session

Summer Session provides a wide range of credit and non-credit courses, institutes, and programs in a variety of term lengths from May to August. From youth-enrichment programs to advanced-level institutes, Summer Session provides educational opportunities for learners of all ages. On-campus housing is available for students enrolled in summer credit courses. Please note: summer credit courses are held to the same academic standards as regular term courses but are typically offered at an accelerated pace. For more information, please visit www.unh.edu/summersession (https://unh.edu/summersession).

January Term

January Term is a three-week learning opportunity held during winter break. Online, on-campus, and study-away credit courses are available in a variety of academic disciplines at both the undergraduate and graduate levels. Because of the intensive course of study, students may register for only one course during January Term. For more information, visit https://unh.edu/januartyerm/.

Accounting and Finance (ACFI)

# Course numbers with the # symbol included (e.g. #400) have not been taught in the last 3 years.

ACFI 501 - Survey of Accounting
Credits: 4
Survey of basic accounting concepts, including exposure to financial statements, accounting processes, decision making, and budgeting. This course is designed for students pursuing a Business Administration minor or exploring basic accounting. No credit for students who have had ADMN 502. Not for Paul College students.
Equivalent(s): ACFI 502, ADMN 502, ADMN 517

ACFI 620 - Topics in Accounting
Credits: 4
Special topics; may be repeated. Prereq: ACFI 621 or ACFI 723 depending on topics and junior standing.
Repeat Rule: May be repeated for a maximum of 12 credits.
Equivalent(s): ADMN 698

ACFI 621 - Intermediate Financial Accounting I
Credits: 4
Examination of the nature and applicability of accounting theory and the conceptual framework of accounting. Development of the capacity to address and resolve issues and problems in financial reporting. Topics include valuation and reporting of current and operating assets, and revenue recognition. Prereq: ADMN 502. Students wishing to repeat ACFI 621 must request and obtain departmental approval.
Equivalent(s): ACFI 721, ADMN 717
ACFI 622 - Intermediate Financial Accounting II
Credits: 4
Selected topics within financial reporting such as accounting for leases, pensions, stock options, and deferred taxes. Focus on how and why these issues are accounted for in the manner prescribed by current GAAP.
Equivalent(s): ACFI 722, ADMN 739

ACFI 640 - Topics in Finance I
Credits: 2-4
Special topics.
Repeat Rule: May be repeated for a maximum of 8 credits.
Equivalent(s): ACFI 640W, ADMN 698

ACFI 640W - Topics in Finance I
Credits: 2-4
Special topics approved as Writing intensive. Topics include: A) Financial Scandals, Upheavals, and Crises.
Attributes: Writing Intensive Course
Repeat Rule: May be repeated for a maximum of 8 credits.
Equivalent(s): ACFI 640, ADMN 698

ACFI 650 - Wildcat Investment Fund
Credits: 2
Students actively manage the Wildcat Fund, a donor-created fund which consists of cash and stocks. During weekly meetings, students present their stock selections to the group and debate the merits of the presented stocks. Trades are then made accordingly. An officer corps is responsible for structuring and coordinating the group. Students in good standing may retake course. Prereq: permission.
Repeat Rule: May be repeated for a maximum of 12 credits.

ACFI 701 - Financial Policy
Credits: 4
Development of analytical tools and practical skills for recognizing and solving complex problems of business finance. Working-capital management, capital budgeting, cost of capital, capital structure, and dividend policy. Prereq: ADMN 570.
Equivalent(s): ADMN 755

ACFI 702 - Investments Analysis
Credits: 4
Equivalent(s): ADMN 730

ACFI 703 - International Financial Management
Credits: 4
Financial management problems facing multinational firms. Primary focus on effects of currency denominations on financial decisions. Prereq: ADMN 570.
Equivalent(s): ADMN 746

ACFI 704 - Derivative Securities and Markets
Credits: 4
Derivative assets and markets, and their role in business decision-making and portfolio management. Emphasis on practical and theoretical aspects of hedging and speculating using futures and options for both commodities and financial assets, including their market mechanics. Prereq: ADMN 570.
Equivalent(s): ADMN 732

ACFI 705 - Financial Institutions
Credits: 4
Examination of financial institutions and markets. Emphasis on how institutions create value, the regulatory environment under which they operate, and the role of risk management. Prereq: ADMN 570. Only open to BusAdm: Finance majors. Writing intensive.
Attributes: Writing Intensive Course

ACFI 706 - Financial Modeling and Analytics
Credits: 4
The main objective of the course is to bridge the gap between theory and practice by using software applications and real-world data to solve a variety of financial problems. The course is very ‘hands-on’ and is expected to help students develop skills that are useful in a variety of jobs in finance, accounting, insurance, and real estate. Prereq: ADMN 570.

ACFI 707 - Equity Analysis and Firm Valuation
Credits: 4
This course is intended to provide practical tools for analyzing and valuing a company’s equity. Primarily an applications course, it covers several valuation models such as market multiples and free cash flow models, and focuses on the implementation of finance theories to valuation problems. Prereq: ADMN 570.

ACFI 708 - Real Estate Finance
Credits: 4
This course provides an introduction to residential and commercial real estate. Topics include market analysis, cash flows, debt and equity financing, valuation, and real estate investment trusts. Case studies, projects, and real world applications of the concepts learned are significant components of the course. Prereq: ADMN 570 or HMGT 655.

ACFI 709 - Mortgage Banking and Fixed Income Securities
Credits: 4
This course focuses on bonds and the bond market. While the cash flows of bonds are specified, their valuation is particularly challenging given interest rate movements, embedded optionality, and credit risk. As part of an examination of structured products, the course will examine the process of creating, valuing, and trading mortgages. Further, the course demonstrates the skills needed to manage fixed income portfolios in light of both client specific objectives and the market environment. Prereq: ADMN 570 or HMGT 655 and ACFI 702 or permission.

ACFI 710 - Big Data in Finance
Credits: 4
This course serves as an introduction to many aspects of big data utilization, specifically as it applies to finance. Topics typically include high frequency trading, stock market anomalies, data management, fintech innovations, and safety and ethics when working with big data. Programming languages common to finance, such as Stata, SAS, and Python, are learned and used to analyze and manipulate data. Prereq: ADMN 570.

ACFI 720 - Topics in Finance II
Credits: 4
Special topics. Prereq: ADMN 570.
Repeat Rule: May be repeated for a maximum of 16 credits.
Equivalent(s): ACFI 720W, ADMN 723

ACFI 720W - Topics in Finance II
Credits: 4
Special topics. Prereq: ADMN 570. Topics include: A) Financial Scandals, Upheavals, and Crises.
Attributes: Writing Intensive Course
Repeat Rule: May be repeated for a maximum of 16 credits.
Equivalent(s): ACFI 720, ADMN 723
ACFI 723 - Advanced Managerial Accounting Concepts and Applications
Credits: 4
Builds on the basic managerial accounting course by continuing the theme of accounting as a management tool. Emphasis is on cost accounting as a source of data for measuring and improving the economic condition of the enterprise. Newly evolving management themes are integrated into the traditional topics of planning and control, cost analysis, overhead allocation, transfer pricing, and decision modeling. Prereq: ADMN 503.
Equivalent(s): ADMN 718

ACFI 724 - Auditing
Credits: 4
Philosophy and environment of auditing, with attention to an understanding of the major auditing concepts and objectives and its judgment process. Emphasis on the nature and economic purpose of audits, standards, professional ethics, auditors' legal liability, internal control, and audit evidence. Includes audit procedures, reports, and computer software. Prereq: ACFI 621. Writing intensive.
Attributes: Writing Intensive Course
Equivalent(s): ADMN 720

ACFI 725 - Financial Statement Analysis
Credits: 4
Methods and tools of analysis and interpretation of financial statement data. Use of financial information in a variety of decision making situations including a prediction of corporate earnings, debt ratings, and financial distress; lending decisions; risk analysis; and equity valuations. Prereq: ACFI 621 and senior standing.
Equivalent(s): ADMN 736

ACFI 726 - Introduction to Federal Income Tax
Credits: 4
Federal income tax concepts and law applicable to individuals. Coverage includes taxable income and deductions, passive activities, alternative minimum tax, property transactions and compensation. Prereq: ADMN 502.
Equivalent(s): ADMN 747

ACFI 740 - Topics in Accounting II
Credits: 4
Special topics. Prereq: ACFI 621 or 723, depending on topics, and senior standing.
Equivalent(s): ADMN 722

ACFI 750 - Internships in Accounting
Credits: 1-4
Accounting fieldwork in a business or other type of organization. Supervision provided by the organization, and consultation provided by the faculty sponsor. Written report required. Course credits vary according to the nature of the fieldwork, to be determined by the faculty sponsor. Prereq: seniors in high standing; permission. Cr/F.
Repeat Rule: May be repeated for a maximum of 12 credits.

ACFI 751 - Internships in Finance
Credits: 1-4
Finance fieldwork in a business or other type of organization. Supervision provided by the organization, and consultation provided by the faculty sponsor. Written report required. Course credits vary according to the nature of the fieldwork, to be determined by the faculty sponsor. Prereq: seniors in high standing; permission. Cr/F.
Repeat Rule: May be repeated for a maximum of 12 credits.

ACFI 752 - Independent Studies in Accounting
Credits: 1-4
Student-designed individual research projects, approved by a faculty sponsor. Paper required. Course credits vary according to the nature of the project, to be determined by the faculty sponsor. Prereq: seniors in high standing; permission.
Repeat Rule: May be repeated for a maximum of 12 credits.

ACFI 753 - Independent Studies in Finance
Credits: 1-4
Student-designed individual research projects, approved by a faculty sponsor. Paper required. Course credits vary according to the nature of the project, to be determined by the faculty sponsor. Prereq: seniors in high standing; permission.
Repeat Rule: May be repeated for a maximum of 12 credits.

ACFI 754 - Honors Seminar in Accounting and Finance
Credits: 4
Seminar discussions of advanced readings in accounting and finance. For seniors with standing in the honors program.

ACFI 799 - Honors Thesis/Project in Accounting
Credits: 4-8
Supervised research leading to the completion of an honors thesis or project in accounting; required for graduation from the honors program in administration for students in the accounting option. Prereq: permission of director of undergraduate programs and Accounting and Finance department chair.

Administration (ADMN)

Course numbers with the # symbol included (e.g. #400) have not been taught in the last 3 years.

ADMN 400 - Introduction to Business
Credits: 4
This course will introduce students to business organizations, the business disciplines and critical issues in contemporary business. The priority will be in having students develop strong intellectual foundations in business, knowledge of core disciplines of business, and an awareness of businesses' role in the economy and in the larger society. The course will include once a week lectures and also small group discussion sessions. The lectures will be organized by the lead PAUL faculty person and include visits and discussions with executives from New Hampshire companies. Writing intensive.
Attributes: Writing Intensive Course

ADMN 403 - Computing Essentials for Business
Credits: 1
Self-paced course covering the fundamental skills and proficiency of general business software applications. Topics will include word processing and spreadsheet applications. Cr/F.

ADMN 410 - Management Information Systems
Credits: 4
This course provides an introduction to computer literacy, basic computer hardware and software concepts, business applications of information technology and computer ethics. Hands-on exercises include spreadsheets, databases and web pages. Students registering for ADMN 410 are expected to be able to bring a laptop computer to each class session running the Windows version of Microsoft Office Professional (including Microsoft Access). Prereq: ADMN 403.
ADMN 420 - Business Statistics
Credits: 4
Introductory coverage of statistical methods for managerial decision-making: probability, descriptive and inferential statistics, and regression. Quantitative techniques common to many introductory statistics courses are covered, but the emphasis is on understanding concepts such as uncertainty, inferences from sample data, and model formulation, and on utilizing these techniques as aids in decision-making. Prereq: ADMN 403; MATH 420 or 424A.
Mutual Exclusion: No credit for students who have taken ADM 430, BIOL 528, BUS 430, EREC 525, HHS 540, MATH 439, MATH 539, MATH 644, PSYC 402, PSYC 402H, SOC 402, SOC 402H, SOC 502, SOC 502H.

ADMN 444 - Business for People, Planet, and Profits
Credits: 4
Many experts and practitioners have realized that the traditional approaches of government and the non-profit sector will not - alone - be enough to solve the myriad of social and environmental challenges facing the world. Rather than seeing big business as "part of the problem" many are considering how the immense power of the private sector can contribute to addressing social and environmental issues. This course will allow students to explore the growing phenomenon of "socially and environmentally conscious capitalism," a more considered type of capitalism with the potential to be a platform for social and environmental change.
Attributes: Social Science (Discovery); Inquiry (Discovery); Writing Intensive Course

ADMN 502 - Financial Accounting
Credits: 4
Fundamentals of financial accounting concepts and procedures for analyzing economic events and the preparation and use of financial statements. No credit for credit for students who have taken ACFI 501.
Equivalent(s): ACFI 501, ACFI 502, ADMN 517, ADMN 532

ADMN 503 - Managerial Accounting
Credits: 4
The use of information by managers to (1) determine the cost and profitability of the organization’s products or services; (2) plan, control, and evaluate routine operations; and (3) make special non-routine decisions. The demand for managerial accounting information is derived from an integrated treatment of organizational objectives, an orientation to customers, and a focus on activities as the unit of analysis for measurement of cost, quality, and time. Prereq: ADMN 502.
Equivalent(s): ADM 533

ADMN 570 - Introduction to Financial Management
Credits: 4
The investments, financing, and dividend decisions of the firm in a global setting. Topics include capital budgeting, designing and issuing securities, manager performance evaluation, resolution of agency problems, and working capital management. Open to PAUL majors only. Prereq: ECON 401. Pre- or Coreq: ADMN 420, ADMN 502; ECON 402.
Equivalent(s): ADMN 601

ADMN 575 - Behavior in Organizations
Credits: 4
Behavioral science concepts applied to work settings. Focus on understanding and analyzing individual beliefs, values, goals, perceptions, motivation, commitment, and decision making; group structures and processes (interpersonal skills, communication, conflict resolution, leadership, and team work); organizational control systems (rewards, task design, performance appraisal); outcomes (satisfaction and development of the person as well as the organization); and organizational change. No credit for students who have already had MGT 580. Prereq: ADMN 400, ADMN 403, ADMN 502. Writing intensive.
Attributes: Inquiry (Discovery); Writing Intensive Course
Equivalent(s): ADMN 611, BUS 620, MGT 580

ADMN 580 - Quantitative Decision Making
Credits: 4
Introduction to the use of quantitative tools in the decision-making process of an organization. Planning and operational problems in the manufacturing and services sectors are emphasized. Topics include forecasting, capacity planning, optimization, project scheduling, simulation and risk analysis, quality, inventory management, and waiting lines. Open to PAUL majors only. Prereq: ADMN 420, ADMN 503.

ADMN 585 - Marketing
Credits: 4
Covers marketing as the process of planning and developing goods and services to satisfy the needs of target customers: consumers, other businesses, institutions. Focus on how marketing contributes to the firm’s goals through product planning, pricing, promotion, and distribution policies, through both digital and traditional channels. Open to PAUL majors only. No credit for students who have had MGT 550 or HMGT 600. Prereq: ADMN 400; ECON 401.
Equivalent(s): ADMN 651, HMGT 600, MKTG 550

ADMN 598 - Topics
Credits: 1-4
Special topics. Prereq: permission. Cr/F.
Repeat Rule: May be repeated for a maximum of 12 credits.

ADMN 685 - Study Abroad
Credits: 16
Open to students studying abroad in the discipline as approved by the department chair and Undergraduate Programs Office. Special fee. Cr/F.
Co-requisite: INCO 588
Attributes: World Cultures(Discovery)

ADMN 686 - Study Abroad
Credits: 16
Open to students studying abroad in the discipline as approved by the department chair and Undergraduate Programs Office. Special fee. Cr/F.
Co-requisite: INCO 588

ADMN 700 - PAUL Assessment of Core Knowledge
Credits: 0
One of the learning objectives in the Business Administration Program is that all students will graduate with an understanding of these core knowledge assembled from the various disciplines that contribute courses to the program. We assess this learning as part of our Assurance of Learning Program. The zero credit course provides an administrative mechanism for accomplishing this goal. Permission required. Cr/F.
Co-requisite: ADMN 703
ADMN 703 - Strategic Management: Decision Making
Credits: 4
Capstone course: Problem-solving, decision-making, and strategic thinking relative to managerial, economic, ethical, legal, political, social, and technological aspects of an organization's environment. Integrates the functional discipline skills within the role of the general manager as leader and chief strategist, organizational builder and doer. Case discussion and analysis, industry and competitive analysis, environmental scanning, industry simulation, strategic audit, stakeholder analysis, values, ethics and social issues management within the public policy process are important course components. Open to PAUL majors only. Prereq: ADMN 570; ADMN 575; ADMN 580; ADMN 585; and senior standing.

Co-requisite: ADMN 700
Equivalent(s): MGT 703

ADMN 798 - Topics
Credits: 1-4
Special topics. Prereq: permission.
Repeat Rule: May be repeated for a maximum of 12 credits.
Equivalent(s): ADMN 798W, MKTG 798, MKTG 798W

ADMN 798W - Topics
Credits: 1 or 4
Special topics; may be repeated up to a maximum of 12 credits. Prereq: permission. Writing intensive.
Attributes: Writing Intensive Course
Repeat Rule: May be repeated for a maximum of 12 credits.
Equivalent(s): ADMN 798, MKTG 798, MKTG 798W

ADMN 799 - Honors Thesis/Project
Credits: 4-8
Supervised research leading to the completion of an honors thesis or project; required for graduation from the honors program in administration. Prereq: permission of director of undergraduate programs and department chair. Writing intensive.
Attributes: Writing Intensive Course

Aerospace Studies (AERO)

AERO 301 - Leadership Laboratory
Credits: 0
Taken by all AFROTC cadets throughout enrollment in AFROTC. Command and staff leadership experiences in cadet corps. Air Force customs and courtesies, drill and ceremonies, career opportunities, and life and work of the junior officer. Student leadership potential developed in a practical, supervised laboratory. Cr/F.
Repeat Rule: May be repeated up to unlimited times.

AERO 415 - Heritage and Values of the United States Air Force I
Credits: 2
Heritage and Values of the United States Air Force I, is a survey course designed to introduce students to the United States Air Force and provides an overview of the basic characteristics, missions, and organization of the Air Force.

AERO 416 - Heritage and Values of the United States Air Force II
Credits: 2
Heritage and Values of the United States Air Force II, is a survey course designed to introduce students to the United States Air Force and provides an overview of the basic characteristics, missions, and organization of the Air Force. This is a continuation of AERO 415.

AERO 416 - Heritage and Values of the United States Air Force II
Credits: 2
Team and Leadership Fundamentals II, focuses on laying the foundation for teams and leadership. The topics include skills that will allow cadets to improve their leadership on a personal level and within a team. The course will prepare cadets for their field training experience where they will be able to put the concepts learned into practice. The purpose is to instill a leadership mindset and to motivate sophomore students to transition from AFROTC cadet to AFROTC officer candidate. This is a continuation of AERO 414.

AERO 671 - Leading People and Effective Communication I
Credits: 4
Leading People and Effective Communication I, teaches cadets advanced skills and knowledge in management and leadership. Special emphasis is placed on enhancing leadership skills and communication. Cadets have an opportunity to try out these leadership and management techniques in a supervised environment as juniors and seniors.

AERO 672 - Leading People an Effective Communication II
Credits: 4
Leading People an Effective Communication II, teaches cadets advanced skills and knowledge in management and leadership. Special emphasis is placed on enhancing leadership skills and communication. Cadets have an opportunity to try out these leadership and management techniques in a supervised environment as juniors and seniors. This is a continuation of AERO 671.

AERO 681 - National Security Affairs/Preparation for Active Duty I
Credits: 4
National Security Affairs/Preparation for Active Duty I, is designed for college seniors as gives them the foundation to understand their role as military officers in American society. It is an overview of the complex social and political issues facing the military profession and requires a measure of sophistication commensurate with the senior college level. The final semester provides information that will prepare the cadets for Active Duty.

AERO 682 - National Security Affairs/Preparation for Active Duty II
Credits: 4
National Security Affairs/Preparation for Active Duty II, is designed for college seniors and gives them the foundation to understand their role as military officers in American society. It is an overview of the complex social and political issues facing the military profession and requires a measure of sophistication commensurate with the senior college level. The final semester provides information that will prepare the cadets for Active Duty. This is a continuation of AERO 681.
AERO 695 - Officer Internship (Air Force)
Credits: 4
Experiential learning through class and field work in a military environment. Written analysis required. Prereq: AERO 671 (maybe taken concurrently). Permission of department chair required. For AFROTC cadets only. Cr/F.

AERO 796 - AFROTC Internship
Credits: 1-4
This internship is an Air and Space Studies program which prepares students for careers as Air Force Officers by providing experiential learning in an AFROTC detachment. History or Political Science majors are preferred. The internship is supervised by an Air Force Officer. By permission only. Prereq: AERO 415 and AERO 416, AERO 541 and AERO 542, and AERO 671 and AERO 672.
Repeat Rule: May be repeated for a maximum of 4 credits.

African & American Studies (AFAM)
# Course numbers with the # symbol included (e.g. #400) have not been taught in the last 3 years.

AFAM 690 - Study Abroad in Ghana
Credits: 16
Spring semester at the University of Ghana (Legon, Ghana) for juniors and seniors, with coursework available in a wide range of disciplines. Students must be matriculated in a four-year degree program, have a GPA of at least 3.0 have a declared major, and have completed at least 32 hours of credit. Students must attend fall orientation sessions. Consult the Ghana Program Advisor in the Center for the Humanities, Huddleston Hall. Course fee required. Cr/F.
Co-requisite: INCO 588
Attributes: World Cultures(Discovery)

AFAM 695 - Independent Study in Ghana
Credits: 1-4
Independent study for students in the UNH program in Ghana.

AFAM 795 - Independent Study
Credits: 1-8
Open to qualified sophomores, juniors, and seniors. May include research project, fieldwork or a relevant internship. To be elected only with permission of the coordinator and with qualified supervision.
Repeat Rule: May be repeated for a maximum of 8 credits.

Agricultural Mechanization (AM)
# Course numbers with the # symbol included (e.g. #400) have not been taught in the last 3 years.

AM 451 - Welding/Fabrication Technology
Credits: 4
Processes and procedures of welding including: Shielded Metal Arc Welding (SMAW), Shielded Metal Arc Cutting (SMAC), Oxyacetylene Welding (OAW), Oxy-Fuel Gas Cutting (OFCA), Gas Metal Arc Welding (GMAW), Plasma Arc Cutting (PAC), and Gas Tungsten Arc Welding (GTAW). Welding metallurgy and control of distortion. Special fee. Prereq: permission. 2 lec/2-hr rec.
Equivalent(s): AM 251, AOE 451, EDUC 451

AM 461 - Internal Combustion Engines I
Credits: 4
Internal combustion engines (spark-ignited and diesel) and their subsystems with emphasis on their design, how they function, preventive maintenance, and troubleshooting. 2 lec/2-hr rec.
Equivalent(s): AM 261, AOE 461, EDUC 461, VTAE 461

AM 462 - Internal Combustion Engines II
Credits: 4
Advanced engine principles and theory. Detailed major failure analysis and overhaul techniques. Prereq: permission, AM 461 or EDUC 461. 2 lec/2-hr rec.
Equivalent(s): AM 262, EDUC 462

AM 470 - Residential Electricity
Credits: 2
Electrical principles, laws, and installation with emphasis on the "National Electrical Code." While modeled at the residential level, concepts and terminology will be applicable to the commercial and light industrial sectors as well. Concepts and methodologies will be supported with design and when appropriate, hands on application to enhance the learning environment. 2 lec/2-hr rec. (half semester course.)
Equivalent(s): AM 270, AOE 470, EDUC 470, VTAE 470

AM 591 - Studies in Agricultural Mechanization
Credits: 1-4
Students who have the ability and adequate preparation to work independently may propose a contract to design a course or research project on a topic not available through existing course offerings. The purpose of this research is to explore new areas in the student's field of study or to pursue course material in greater depth. Work is supervised by an appropriate faculty/staff member; credit varies depending on the proposed project/research. Areas may include welding, engines, building construction, electricity, or computers.
Equivalent(s): AM 291

AM 592 - Studies in Agricultural Mechanization
Credits: 1-4
Students who have the ability and adequate preparation to work independently may propose a contract to design a course or research project on a topic not available through existing course offerings. The purpose of this research is to explore new areas in the student's field of study or to pursue course material in greater depth. Work is supervised by an appropriate faculty/staff member; credit varies depending on the proposed project/research. Areas may include welding, engines, building construction, electricity, or computers.
Equivalent(s): AM 292

American Sign Language (ASL)
# Course numbers with the # symbol included (e.g. #400) have not been taught in the last 3 years.

ASL 435 - American Sign Language I
Credits: 4
Introduction to American Sign Language with emphasis on visual receptive and expressive use of language, as well as providing opportunities for other forms of visual communication such as facial expression, mime, and gesture. Participants develop their skills through videotapes, classroom participation, and readings that cover issues important to the Deaf community. A weekly, one-hour language laboratory is required as part of this course. Limited to 15 students. Special fee. No credit if credit has been received for COMM 533.
Equivalent(s): COMM 401, COMM 533
AMST 501W - Introduction to American Studies
Credits: 4
An introduction to the basic methods used in the interdisciplinary study of history, literature, arts, and other aspects of the life and culture in the United States, with a special focus on a local New England sub-region: the Piscataqua river, Manchester, Boston, Portland, and the White Mountains, with an emphasis on the multiracial, multilingual, and multiethnic nature of New England culture. Disciplinary approaches drawn from literature, history, environmental studies, folklore, material culture, art history, architecture, film, anthropology, and sociology. May include guest lectures, field work, trips. Required for students minoring in American studies.
Attributes: Humanities(Disc)
Equivalent(s): AMST 501

AMST #501 - Introduction to American Studies
Credits: 4
An introduction to the basic methods used in the interdisciplinary study of history, literature, arts, and other aspects of the life and culture in the United States, with a special focus on a local New England sub-region: the Piscataqua river, Manchester, Boston, Portland, and the White Mountains, with an emphasis on the multiracial, multilingual, and multiethnic nature of New England culture. Disciplinary approaches drawn from literature, history, environmental studies, folklore, material culture, art history, architecture, film, anthropology, and sociology. May include guest lectures, field work, trips. Required for students minoring in American studies. Writing intensive.
Attributes: Humanities(Disc); Inquiry (Discovery); Writing Intensive Course
Equivalent(s): AMST #501

AMST #444B - New Orleans: Place, Meaning, and Context
Credits: 4
Course uses literature, essays, film, music, debate, and discussion, to explore the topics of place, history, people, politics, and culture. Lectures, discussion, assignments, and group projects will touch on issues regarding race, poverty, power, social mobility, gender roles, crime, corruption, energy, and the environment. Special fee. Writing intensive.
Attributes: Humanities(Disc); Inquiry (Discovery); Writing Intensive Course

AMST #444E - Fly Fishing and the American Experience
Credits: 4
The practice of fly fishing may seem like a rather specialized topic for a semester-long course, but it is truly an interdisciplinary pursuit that is based upon a rich literary heritage. The class will begin with readings, while using film, demonstrations, field trips, and service learning, to help define the extent to which fly fishing in America has become intertwined with literature, art, popular culture, biology, environmentalism, and business/technology. On one level, students will learn about fly fishing techniques, stream ecology, and local rivers. And on another level, they will see how the American landscape and ways of thinking have created something quite distinct from its European antecedents. Writing intensive.
Attributes: Humanities(Disc); Inquiry (Discovery); Writing Intensive Course

American Studies (AMST)

# Course numbers with the # symbol included (e.g. #400) have not been taught in the last 3 years.
AMST #604 - Landscape and American Culture
Credits: 4
Interdisciplinary study of the perception, representation, and/or construction of nature. Topics vary from year to year and may include: landscapes in nineteenth-century literature and art, colonial mapping of the Americas (traditions of writing and cartography), Native American traditions of land perception, and the twentieth-century emergence of eco-criticism. Writing intensive.
Attributes: Writing Intensive Course
Equivalent(s): ENGL 650

AMST 614 - Native American Studies Topics
Credits: 4
The multidisciplinary study of the histories, cultures, and representations of indigenous peoples. Topics vary and may include Native American/Euro-American interactions under colonialism, the so-called "Era of Assimilation," and contemporary issues of sovereignty. May be repeated if the subject matter is different.
Repeat Rule: May be repeated for a maximum of 8 credits.

AMST 615 - Asian American Studies Topics
Credits: 4
The multidisciplinary study of Asian American literature, culture, theory, and history. Perspectives may be drawn from gender studies, anthropology, cultural studies, film studies, and medicine. Topics vary and may include the study of contemporary fiction and film, representations of gender, of race and cultural pathologies, and of the ethnic body. May be repeated if the subject matter is different.
Repeat Rule: May be repeated for a maximum of 8 credits.
Equivalent(s): ENGL 738

AMST 620 - Internship
Credits: 1-8
Supervised internship with a governmental agency, private corporation, philanthropic institution, library, archives, museum, historical society, publishing company, or other institution seeking individuals interested in historical research, community development, or careers in education. Permission required. Cr/F.
Repeat Rule: May be repeated for a maximum of 8 credits.

AMST 696 - Special Topics
Credits: 4
Focused study of an issue, problem, or theme in American Studies. Topics vary. For example: Black Protest in the 1960's, the rise of consumer culture, domestic art, architecture and suburban planning. Barring duplication of subject, course may be repeated for credit. For details see the coordinator. Prereq: AMST #501, and another AMST course, or permission. Writing intensive.
Attributes: Writing Intensive Course

AMST 697 - Seminar in American Studies
Credits: 4
Open to qualified juniors and seniors, with permission of the coordinator and the instructor. Intensive study of a specialized topic that varies from year to year. Enrollment in the seminar is limited to 15 so that all students can take an active part in the discussion and work closely with the instructor on their papers. Barring duplication of subject, course may be repeated for credit. For details see the coordinator. Prereq: a grade of B or better in AMST #501, completion of at least two other courses in the minor, permission. Not offered every year.

AMST 795 - Independent Study
Credits: 1-8
Open to qualified juniors and seniors. May include fieldwork or an internship at a museum, library, historical society, etc. To be elected only with permission of the coordinator and with qualified supervision.
Repeat Rule: May be repeated for a maximum of 8 credits.

Analytics (DATA)

DATA 557 - Introduction to Data Science and Analytics
Credits: 4
An introduction to data science and analytics. The landscape of analytics, including an overview of industries and sectors using analytics or expected to use analytics in the near future. Data generation, data management, data cleaning, and data preparation. Ethical use of data. Focus on visual and exploratory analysis. Project-based, with an emphasis on collaborative, experiential learning. Programming and statistical software will be used, but previous experience is not required.
Attributes: Environment,TechSociety(Disc)

DATA 674 - Predictive and Prescriptive Analytics I
Credits: 4
A first course in predictive and prescriptive analytics. Supervised learning models including linear models and CART models. Model assessment and scoring methods, including cross-validation. Regularization and model tuning. Unsupervised learning models including k-means clustering. Project-based, with an emphasis on collaborative, experiential learning. Statistical software will be used and programming required. Prereq: MATH 425, COMP 490, DATA 557, or permission of the instructor.

DATA 675 - Predictive and Prescriptive Analytics II
Credits: 4
A second course in predictive and prescriptive analytics. Time series analysis and model ensembles. Bootstrapping, simulation, optimization. Monte Carlo methods. Project-based, with an emphasis on collaborative experiential learning. Statistical software will be used and programming required. Prereq: DATA 674 or permission of the instructor.

DATA 690 - Internship Experience
Credits: 3
A field-based learning experience via placement in a business, non-profit, or government organization using analytics. Under the guidance of a faculty advisor and workplace supervisor, students gain practical experience solving problems and improving operational processes using analytics. Prereq:UMST 599: Internship and Career Planning Seminar.

DATA 750 - Neural Networks
Credits: 4
Artificial neural networks power the recent advances in computer vision, speech recognition, and machine translation. This is a first course on neural networks with a focus on applications in computer vision and natural language processing. Topics will include generic feedforward neural networks, convolutional neural networks for computer vision tasks, and recurrent neural networks with application to natural language processing, with other topics to be selected based on the interests of the instructor and the class. Prereq: MATH 425, MATH 545 or MATH 645, COMP 490, or permission of the instructor. Also listed as COMP 750.
Equivalent(s): DATA 751
An animal's welfare is not just confined to the realm of animal rights; it also involves deeper considerations such as the impact of biotechnological research on agriculture, food safety, genetics, animal health, aquaculture, animal welfare, breeding, recreation, companionship, and the reproduction of domestic animals. The changes in meat consumption by humans have significant effects on the environment and large and small farm operations. What are the effects of this change on the environment and large and small farm operations? What are the effects of biotechnological research performed on animals for human benefits? What is the difference between animal welfare and animal rights? Why should we care? In what ways does this affect us?

**DATA 757 - Big Data**
**Credits:** 4
A first course in large-scale analytics and data science. Characteristics of big data and the emerging software stack for working with massive datasets, including Hadoop and MapReduce. Algorithms for extracting information from massive datasets. A first course in linear algebra is not a prerequisite, but is recommended. Prereq: MATH 425, DATA 557, or instructor permission.

**DATA 790 - Capstone Project**
**Credits:** 4
Under direction of a faculty mentor, students work in teams to find solutions to complex real-world problems using analytics. Projects may come from internal or external sources. Students define the problem, obtain the necessary data, develop suitable models and solutions, and present their results. Prereq: Senior standing in Analytics B.S. program.

**DATA 796 - Data Analytics Lab Independent Study**
**Credits:** 4
This class is a student independent study centered around a faculty-facilitated but student-directed analytic project. The class requires competency in two areas for successful completion: Data collection/cleaning and data mining/analysis. Students will be responsible to apply modern analytical tools and techniques such as predictive modeling, segmentation, network analysis and others to real world problems and data. They will be required to present their findings during the course and at its completion as well as write a formal report of methods and findings with modern data visualizations synthesized throughout.

**Animal Sciences (ANSC)**

Course numbers with the # symbol included (e.g. #400) have not been taught in the last 3 years.

**ANSC 401 - Animals and Society**
**Credits:** 4
Through an interdisciplinary and historical lens, students delve into the interaction and interdependence of animals and people, the changes and patterns over time, and the resulting implications for the animal industry and the quality of life for animals, people, and the planet. Topics covered include agricultural production, organic farming, sustainability, global agriculture, Community Supported Agriculture (CSAs), research, nutrition, food safety, genetics, animal health, aquaculture, animal welfare, breeding, recreation, companionship, and the reproduction of domestic animals. What are the major changes in meat consumption by humans? What is the effect of these changes on the environment and large and small farm operations? What are the effects of biotechnological research performed on animals for human benefits? What is the difference between animal welfare and animal rights? Why should we care? In what ways does this affect us?

**Attributes:** Biological Science(Discovery); Discovery Lab Course

**ANSC 402 - Horsemanship Lab**
**Credits:** 4
For beginning, intermediate, and advanced riders. Lab (lesson) format with required co-requisite (hybrid or on-line). All levels will work on correct position and technique for dressage and combined training with application of appropriate theory. All students are required to perform the following tasks independently: properly groom, tack and cool out their horses. Students should allow time before and after lab to do so. For the safety of horse and rider, there is a rider weight limit of 200 pounds for all mounted activities in the UNH Equine Program, including ANSC 402. There are other courses that provide students with opportunities for hands-on experience with horses. Special fee. Lab. Prereq: permission. Co-requisite: all students must be simultaneously enrolled in the appropriate section of Horsemanship Theory (ANSC 422, ANSC 522, or ANSC 622).

**Repeat Rule:** May be repeated for a maximum of 8 credits.

**ANSC 403 - Summer Horsemanship**
**Credits:** 1
For beginning and intermediate riders. Basics of balance seat, specializing in basic dressage and combined training. There is no lecture with this summer course. Limited number of students may stable their horses at the University. Special fee. Prereq: permission.

**Repeat Rule:** May be repeated for a maximum of 18 credits.

**ANSC 404 - Theory of Horsemanship**
**Credits:** 2
Principles and theory of horsemanship, dressage and jumping, including biomechanics of the horse and rider, rider position and aids, cross-country jumping and conditioning, and the horse's instincts, senses, behavior and training as they relate to riding. Online only.

**Equivalent(s):** ANSC 402

**ANSC 405 - Theory of Horsemanship**
**Credits:** 2
Principles and theory of horsemanship, dressage and jumping, including biomechanics of the horse and rider, rider position and aids, cross-country jumping and conditioning, and the horse's instincts, senses, behavior and training as they relate to riding. Online only.

**Equivalent(s):** ANSC 402

**ANSC 406 - Careers in Animal Science**
**Credits:** 1
Survey of various areas of animal and veterinary science and opportunities available. Cr/F.

**ANSC 411 - Freshman Seminar in Equine Science**
**Credits:** 1
Seminar format class. This introductory level class provides students with an overview of the equine industry, its economic impact and pressures and the job opportunities available. Class also includes investigation of the requirements and options within the UNH Equine Program and exploration of the opportunities and resources available for students. Cr/F.

**ANSC 419 - Horse Power**
**Credits:** 4
Students explore the enduring bond between the horse and man and the effect of that bond on civilization by considering: How has the horse and man's use of the horse shaped civilization and contributed to societal change? How has the progress of civilization and societal change affected the horse and its role in society? What does our use of the horse say about us as individuals and as a society? Cannot receive credit if credit received for ANSC #444B.

**Attributes:** Humanities(Disc)

**Equivalent(s):** ANSC #444B
ANSC 421 - Introduction to Animal Science
Credits: 4
This course provides an overview of the scope and diversity of animal agriculture at the global, national and local levels. It also provides an introduction to the animal sciences through which students 1) learn basic animal science terminology 2) acquire an appreciation of the objectives of various animal enterprises and 3) gain understanding of contemporary trends, challenges and opportunities within animal agriculture. Special fee.

ANSC 422 - Introduction to Horsemanship Theory
Credits: 3
For beginning and intermediate riders enrolled in ANSC 402. Hybrid format, includes face-to-face and on-line content, with required lab co-requisite (ANSC 402). Correct theory of basic horsemanship skills, including safe handling practices, introduction to equipment and horse sports, overview of equine senses and behavior, and correct rider position and technique for dressage and jumping. See ANSC 402 (co-requisite) for details on required lab activities. Permission required.

ANSC 426 - Equine Conformation and Lameness
Credits: 4
The study of conformation as it relates to soundness and performance. Students learn to recognize the components of good conformation as they relate to the athletic functions of the horse. Field trips highlight varying disciplines and how conformational changes make horses appropriate for differing activities. Students will also use the University herd to practice assessing conformation and its evaluation for performance types. Students will also learn how conformational faults impact long term soundness. Special fee.

ANSC 427 - Equine Handling and Care Techniques
Credits: 4
Course familiarizes students with different aspects of equine management through a practical and hands-on approach. Topics include selection, fit and care of English tack, bits, grooming, clipping, wound care, safe bandaging techniques, equine behavior, farm layout, basic health care and monitoring, parasite control, and equine transportation. Students will have hands-on experience in the UNH stable. Responsibilities include feeding, cleaning, turnout, and basic care of the University herd.

ANSC 424B - Horse Power: Transforming and Reflecting Civilization
Credits: 4
Human attitudes toward other animals are generally divided into five categories: animal exploitation, animal use, animal welfare, animal rights, and animal liberation. While all five categories are examined, this course concentrates on the differences between animal welfare and animal rights. These two categories differ fundamentally on the basis of the ethical or moral status they give animals. Past human societies have justified both the worship of animals and the torture and sacrifice of animals to the gods. Animal rights believers rely on a rights-based philosophy, while animal welfare advocates concentrate on a utilitarian based set of values. Course concentrates on the application of these two ethical philosophies to current uses of animals such as the use of animals in research, the use of animals as food (factory farming), the production and use of transgenic animals, and the use of animals as organ donors for humans (xenotransplantation). Since animal rights is, in itself, not a discipline, students depend on information from other disciplines ranging from moral philosophy and ethics to history to genetics, production agriculture, and ethology. Writing intensive.

ANSC 404 - Animal Science
Credits: 4
A fundamental equine science course including anatomy, sports medicine, nutrition and preventative care. Students present oral and written journal reviews on equine science topics pertinent to lecture. Prereq: BIOL 412.

ANSC 400 - Equine Assisted Activities and Therapies
Credits: 4
Comprehensive examination of Equine Assisted Activities and Therapies including types of therapeutic riding and its physical, cognitive, and emotional benefits for clients with a variety of disabilities. Topics include hippotherapy, therapeutic riding, equine-facilitated mental health, youth at risk, therapeutic vaulting, carriage driving, equipment needs/ modifications, special considerations for selecting and training the therapy horse, and the role of the volunteer therapist and instructor. Students have the opportunity to work with horses and riders in the UNH Therapeutic Riding Program during labs, as well as view other programs on mandatory field trips. Special fee.

ANSC 444A - Animal Ethics: Your Child or Your Pet
Credits: 4
Human attitudes toward other animals are generally divided into five categories: animal exploitation, animal use, animal welfare, animal rights, and animal liberation. While all five categories are examined, this course concentrates on the differences between animal welfare and animal rights. These two categories differ fundamentally on the basis of the ethical or moral status they give animals. Past human societies have justified both the worship of animals and the torture and sacrifice of animals to the gods. Animal rights believers rely on a rights-based philosophy, while animal welfare advocates concentrate on a utilitarian based set of values. Course concentrates on the application of these two ethical philosophies to current uses of animals such as the use of animals in research, the use of animals as food (factory farming), the production and use of transgenic animals, and the use of animals as organ donors for humans (xenotransplantation). Since animal rights is, in itself, not a discipline, students depend on information from other disciplines ranging from moral philosophy and ethics to history to genetics, production agriculture, and ethology. Writing intensive.

ANSC 444B - Horse Power: Transforming and Reflecting Civilization
Credits: 4
Students explore the enduring bond between the horse and man and the effect of that bond on civilization by considering: How has the horse and man’s use of the horse shaped civilization and contributed to societal change? How has the progress of civilization and societal change affected the horse and how its role in society? What does our use of the horse say about us as individuals and as a society? Writing intensive. Special fee.

ANSC 500 - Equine Assisted Activities and Therapies
Credits: 4
Comprehensive examination of Equine Assisted Activities and Therapies including types of therapeutic riding and its physical, cognitive, and emotional benefits for clients with a variety of disabilities. Topics include hippotherapy, therapeutic riding, equine-facilitated mental health, youth at risk, therapeutic vaulting, carriage driving, equipment needs/ modifications, special considerations for selecting and training the therapy horse, and the role of the volunteer therapist and instructor. Students have the opportunity to work with horses and riders in the UNH Therapeutic Riding Program during labs, as well as view other programs on mandatory field trips. Special fee.

ANSC 504 - Equine Science
Credits: 4
A fundamental equine science course including anatomy, sports medicine, nutrition and preventative care. Students present oral and written journal reviews on equine science topics pertinent to lecture. Prereq: BIOL 412.

ANSC 507 - Survey of Equine Training Techniques
Credits: 3
Physiological development, control, and education; biting, lunging, driving, and equine gymnastics. Special fee. Lab.
ANSC 510 - Integration of Culture and Agriculture in Ireland: Past, Present, and Future
Credits: 2 or 4
What was the worst natural disaster in 19th century Europe? What characterizes Ireland's agriculture in the 21st century? In this interdisciplinary course, students examine the cultural, historical, political, economical, and religious influences on Ireland's agriculture, fisheries, and forestry. The crowning experience of the course, a 10-day study abroad in late May, provides students with a window to the world as they experience the culture, agriculture, and topography of Ireland. Students will immerse themselves in local history and culture as they tour working agricultural farms, university research facilities, and cultural landmarks. Permission required. Not open to freshmen. Special fee. Writing intensive. 2 or 4 credits.
Co-requisite: INCO 589
Attributes: World Cultures(Discovery); Writing Intensive Course

ANSC 511 - Anatomy and Physiology
Credits: 4
Discussion/comparison of the principles of mammalian form and function. Includes molecular and cellular mechanisms of major processes (such as muscle contraction, neural transmission, and signal transduction) and systematic aspects of the nervous, endocrine, cardiovascular, respiratory, gastrointestinal, and renal systems. Prereq: BIOL 411 and BIOL 412. Special fee. Lab. No credit if credit earned for BMS 507 and BMS 508, ZOOL 518. Not open to freshmen.
Equivalent(s): BMS 507, ZOOL 507, ZOOL 518

ANSC 512 - Anatomy and Physiology
Credits: 4
Discussion/comparison of the principles of mammalian form and function. Includes molecular and cellular mechanisms of major processes (such as muscle contraction, neural transmission, and signal transduction) and systematic aspects of the nervous, endocrine, cardiovascular, respiratory, gastrointestinal, and renal systems. Prereq: BIOL 411 and 412 and ANSC 511. Special fee. Lab. No credit if credit earned for BMS 507 and BMS 508. Not open to freshmen.
Equivalent(s): BMS 508, ZOOL 508, ZOOL 518

ANSC 520 - Classical Dressage Experience in Portugal
Credits: 2
Concentrated study of the Portuguese method of classical dressage at L'Escala De Equitaco De Alcainca 'N Alcainca, Portugal. Affords students the opportunity to ride at a premiere center for equestrian art with a master of classical dressage and to experience the culture of Portugal. Offers full immersion in dressage riding, teaching, and training. Trip takes place over Spring Break. Weekly seminar held prior to departure. Special fee. Prereq: ANSC 402: Horsemanship at I-2 level or above. Permission required.
Co-requisite: INCO 589
Repeat Rule: May be repeated for a maximum of 6 credits.

ANSC 522 - Intermediate Horsemanship Theory
Credits: 3
For intermediate and advanced riders, and beginners who have completed ANSC 422. Hybrid format, includes face-to-face and online lectures/content with required lab (ANSC 402) as co-requisite. Correct theory of more advanced horsemanship skills and concepts, including equine behavior and learning, horse and rider biomechanics, correct rider techniques for dressage and combined training, and systematic athletic development of the horse for dressage and jumping. Permission required.
Co-requisite: ANSC 402
Equivalent(s): ANSC 405

ANSC 536 - Preparation and Competition Techniques for the Modern Sport Horse
Credits: 4
Course addresses the safe handling and appropriate grooming and clipping techniques for modern sport horses as they are prepared for competition. Additional topics include trailering, studding, post-workout care, and other industry skills. Students will evaluate selection and movement of sport-horses while in-hand and demonstrate knowledge by showing horses in best practice for the type and style. Students will demonstrate horse-handling proficiency while showing their assigned horse in-hand at the annual Little Royal Livestock & Horse Show. Lecture and lab format, including industry guest speakers and demonstration. Prereq: ANSC 437, ANSC 422/ANSC 522/ANSC 402. L or instructor permission.
Equivalent(s): AAS 536

ANSC 538 - Equine Handling/Longeing
Credits: 1
This seven-week intensive course provides students with the opportunity to learn to longe a variety of University horses in an enclosed arena under private instruction. The emphasis is on safety and welfare of the horse and handler. Proper equipment and fit are addressed along with different training techniques used to improve the horse's quality of movement.
Equivalent(s): AAS 538

ANSC 543 - Technical Writing in Animal Sciences
Credits: 2
Emphasis on writing scientific articles and articles for the end user on subjects pertaining to the animal science industry. Students are expected to make several oral presentations. Resume preparation is also included. Prereq: ENGL 401 or equivalent; permission. Writing intensive.
Attributes: Writing Intensive Course
Equivalent(s): ANSC 743

ANSC 546 - Animal Business Applications
Credits: 4
Survey of the various elements of managing an animal and/or agricultural operation regardless of commodity. Topics include: financial statements, credit and interest, insurance considerations, labor management, marketing, promotions, advertising, and sales.
Equivalent(s): AAS 546

ANSC 547 - Applied Equine Management
Credits: 3
Students learn how to make equine management decisions based upon science and business principles. Topics covered include evaluating health parameters, hoof care, vaccination and parasite control, nutrition, accurate record keeping and housing. Students monitor horse health, vaccinate, pull shoes and do fecal exams using the University herd. Business topics include: the importance of contracts, efficient staffing, stable/arena design for function. Field trips highlight different sized equine enterprises.
Equivalent(s): AAS 547
ANSC 548 - Agricultural Business Management
Credits: 4
This course is designed to give students an opportunity to focus on the agricultural industry relative to specific, operational concepts such as small business start-up, creating a business plan, funding strategies, business development including SWOT analysis, market analysis, branding, product placement and pricing strategy, advertising and using social media, employee hiring and management, supply chain management and analyzing financial statements. An examination of sustainable and socially and environmentally responsible business practices will also be included. The course involves lecture and field study allowing students to examine similar agricultural operations in order to enhance practical understanding of topics covered. Prereq: ANSC 546.
Equivalent(s): AAS 548, ANSC 635

ANSC 600 - Field Experience
Credits: 1-4
A supervised experience providing the opportunity to apply academic experience in settings associated with future professional employment and/or related graduate opportunities. Must be approved by a faculty adviser selected by the student. Permission of supervising faculty member required. Cr/F.
Repeat Rule: May be repeated for a maximum of 8 credits.

ANSC 602 - Animal Rights and Societal Issues
Credits: 4
To explore all aspects of human-animal interaction and welfare, emphasizing social, ethical, biological, historical and economic aspects of animal care and use. (Juniors and seniors only.) Special fee. Writing intensive.
Attributes: Writing Intensive Course
Equivalent(s): ANSC 407

ANSC 605 - Poultry Production and Health Management
Credits: 4
This course focuses on understanding how the management practices used in raising domestic poultry can promote the production of healthy birds. Discussion centers on chickens in both large and small commercial flocks. Topics covered include breed and stock selection, anatomy & physiology, hatchery and brooder management, commercially important diseases, biosecurity and preventative health care, applicable food safety practices, and welfare. Students will gain hands-on experience working with live poultry during this course. Prereq: ANSC 421, AAS 431, or permission.

ANSC 609 - Principles of Animal Nutrition
Credits: 4
Applied animal nutrition and nutrient metabolism. Prereq: one year of chemistry; one semester of physiology.

ANSC 612 - Genetics of Domestic Animals
Credits: 4
Application of basic and molecular genetics to the diagnosis and control of inherited diseases of domestic animals and application of quantitative genetics for the improvement of economically important traits of farm animals. Prereq: BIOL 411 or permission.

ANSC 615 - Dairy Farm Internship
Credits: 14
An internship on a commercial dairy farm allowing the student day-to-day management of a herd of Holstein cows health and management (animal and financial) are studied. Homework and monthly exams. Dairy Management majors only. Permission required.
Equivalent(s): ANSC 630, ANSC 698, ANSC 699, ANSC 727

ANSC 620 - Equine Diseases
Credits: 4
Provides an understanding of the normal versus the abnormal equine including recognition of clinical signs of the abnormal equine, diagnosis and treatment options. Knowledge of when to call a veterinarian and how to administer follow up care. Emphasis on preventative health care. Prereq: ANSC 504. Special fee. (Juniors and seniors only.)

ANSC 622 - Further Explorations in Horsemanship Theory
Credits: 2
For intermediate and advanced riders who have already completed ANSC 522. Online format, with required lab (ANSC 402) as a co-requisite. Students will use online content and independent study projects for in-depth explorations of more advanced topics related to the theory of dressage, jumping, and horsemanship, with particular attention to the application of correct theory to the individual rider's current skills, goals, and lab activities. May be repeated, with a different focus in subsequent semesters. Prereq: ANSC 522 and Permission.
Co-requisite: ANSC 402
Repeat Rule: May be repeated for a maximum of 10 credits.

ANSC 625 - Animal Diseases
Credits: 4
This course focuses on concepts of animal health and disease primarily as they relate to domestic agricultural species. Basic principles of diagnosis, transmission treatment, and prevention are introduced and applied to the presentation of specific disease conditions. The course is divided into sections that focus on the primary body system that is affected by the disease or disorder and a heavy emphasis is placed on learning the skills necessary to recognize and prevent disease. Prereq: AAS 439, ANSC 511, ANSC 512.

ANSC 635 - Nonprofit Management for Agriculture Business
Credits: 4
This course is designed to give students an opportunity to focus on the agriculture industry relative to specific operational topics for nonprofit businesses. Case studies will include therapeutic riding, agricultural nonprofits, animal welfare/rescue field, animal or agricultural educational programs and nonprofit foundations and the growing field of animal and plant therapy. Topics include: legal structure and organization, credentialing, developing a strategic plan, creating and managing a board of directors, staff and volunteer management, risk management and insurance, fundraising, marketing and public relations, using social media and public accountability. Special consideration will be given to understanding and utilizing financial statements to drive the business and fundraising efforts. The course will involve lecture and project management allowing student to examine similar agricultural business operations in order to enhance practical understanding of topics covered for a final project. Course is offered biennially, in the Spring semester of even-numbered years.
Equivalent(s): ANSC 548, CSL #402, CSL 508

ANSC 640 - Principles of Riding Instruction
Credits: 4
Introduction to the principles, theory and practice of Riding Instruction. Includes discussion of styles of learning and instruction as applied to a riding environment, student assessment, skill acquisition, lesson planning, horse selection and principles of group and private riding instruction. Students will use lab time to observe, assist and practice teaching in sections of ANSC 402, which will be matched according to their abilities and interests. Students will prepare for ARIA licensing examinations as part of class. Fall semester only. Lab. Prereq: ANSC 405 or ANSC 522.
Attributes: Writing Intensive Course
ANSC 641 - Principles of Dressage Instruction
Credits: 2
Advanced principles and theory of dressage and advanced concepts in teaching and coaching dressage. Students will use lab time to observe, assist and practice teaching in dressage-only sections of ANSC 402. Students will prepare for ARIA licensing examinations as part of class. Spring semester only. Lab. Prereq: ANSC 640.

ANSC 642 - Principles of Jumping Instruction
Credits: 2
Advanced principles and theory of jumping and advanced concepts in teaching and coaching over fences in the arena and cross-country. Students use lab time to observe, assist and practice teaching in intermediate I and II level sections of ANSC 402. Lab. Prereq: ANSC 640. Offered spring semester of every odd numbered year.

ANSC 643 - Principles of Therapeutic Riding Instruction
Credits: 4
Principles and theory of teaching therapeutic riding, including special considerations of teaching in a therapeutic environment and methods of instruction for individuals with a variety of disabilities. Lab consists of observing, assisting and practice-teaching in UNH Therapeutic Riding Program as preparation for PATH International instructor certification process which is done as part of this course. Spring semester only, biannually, odd numbered years. Prereq: ANSC 640 and ANSC 500.

ANSC 650 - Dairy Industry Travel Course
Credits: 1
Extended field trip to a variety of dairy farms and dairy related businesses in the Northeast with students and faculty from other New England land grants. Includes discussion sessions, case study, problem solving, and journal report. Prereq: permission. Special fee.
Repeat Rule: May be repeated for a maximum of 2 credits.

ANSC 665 - Principles of Horse Trials Management
Credits: 2
Theory and hands-on involvement in the organizational process of managing an event competition. Topics will include budgeting, logistical needs, working with entries, sponsorship, awards, publicity, facilities management, course design and committee management. Students will actively participate in the management and preparation of the UNH Horse Trials, overseeing the committees working in the phases of the event and also performing other responsibilities. 1-credit, half semester course. (During the fall semester, the class will meet for the first half of the semester; during the spring semester, the class will meet for the second half of the semester)
Equivalent(s): ANSC 565

ANSC 694 - Summer Cooperative for Real Education in Agricultural Management
Credits: 4
SCREAM (Summer Cooperative for Real Education in Agricultural Management) is a course in which students perform the work and make financial and management decisions associated with the CREAM dairy herd. Students assume complete responsibility for the management and care of the 25-cow herd for the entire summer. SREAM provides students with a unique experiential learning model that will help them understand how to work together to manage and operate a small business, the decision-making skills required in production agriculture, and the application of science to the management of a dairy herd. Prereq: upper-class standing, permission.
Equivalent(s): ANSC 698, ANSC 699

ANSC 695 - Supervised Teaching Experience
Credits: 1-2
Participants are expected to perform such functions as leading discussion sections, directing and assisting in laboratories, and assisting students with their problems in courses that participants have completed successfully. Enrollment is limited to juniors and seniors who have a minimum 3.00 cumulative average. Prereq: permission of instructor and department chairperson. Cr/F.
Repeat Rule: May be repeated for a maximum of 4 credits.

ANSC 698 - Cooperative for Real Education in Agricultural Management (CREAM)
Credits: 4
CREAM (Cooperative for Real Education in Agricultural Management) is a 2-semester course in which students perform the work and make the financial management decisions associated with the CREAM dairy herd. Students assume complete responsibility for the management and care of the 25-cow herd for the entire academic year. CREAM provides students with a unique experiential learning model that will help them understand how to work together to manage and operate a small business, the decision-making skills required in production agriculture and the application of science to the management of a dairy herd. Two semesters of 4 cr. each are required. Prereq: AAS 425 or permission.
Repeat Rule: May be repeated for a maximum of 8 credits.
Equivalent(s): AAS 275, ANSC 615

ANSC 701 - Physiology of Reproduction
Credits: 4
Comparative aspects of embryology, anatomy, endocrinology, and physiology of reproduction. Lab.

ANSC 708 - Ruminant Nutritional Physiology
Credits: 3
Anatomy of the ruminant gastrointestinal tract, physiological factors related to rumen function, and microbial and whole-body metabolism of carbohydrates, protein, and lipids. Prereq: BMS 503 and BMS 504 or equivalent.

ANSC 710 - Dairy Nutrition
Credits: 4
Feeding management of dairy cattle. Emphasis on feedstuffs, nutritional requirements, and diet formulation for efficient production and optimum health. Prereq: ANSC 609 or NUTR 750; permission.

ANSC 715 - Physiology of Lactation
Credits: 4
Examines the biological and biochemical influences of the lactation process. Emphasis on the physiological effects of environments, hormones, and nutrition on milk synthesis and secretion, mammary physiology, and maternal response. Prereq: ANSC 701, permission.

ANSC 724 - Reproductive Management and Artificial Insemination
Credits: 4
Focus on goals and fundamentals of reproductive management of horses, dairy and livestock animals, and through actual experience, development of competency in performing modern breeding techniques for equine and bovine reproduction. Permission required. Special fee. Lab.
Equivalent(s): ANSC 652
ANSC 725 - Equine Sports Medicine  
Credits: 4  
Course focuses on equine anatomy and physiology in relation to athletic performance and injury. Students write an independent paper assessing the use of an equine heart rate monitor on either a UNH or private horse during the semester. (Juniors and seniors only.) Prereq: ANSC 504, 512, 620. Special fee. 
Equivalent(s): ANSC 625

ANSC 727 - Advanced Dairy Management I  
Credits: 4  
Advanced management evaluation of milking procedures, reproduction, genetics, herd health, feeding, housing, and milking systems. Prereq: junior or senior standing; permission. 
Equivalent(s): ANSC 615

ANSC 728 - Advanced Dairy Management II  
Credits: 4  
Advanced management evaluation of record keeping, financial and business management, personnel management, waste management, and marketing. Prereq: junior or senior standing; permission. Special fee. Writing intensive. 
Attributes: Writing Intensive Course

ANSC 750 - Collaborative Farm Design and Development  
Credits: 4  
As a semester long group project, students will design an economically feasible, fully operational, diversified small farm. Students will need to consider site selection, infrastructure, equipment, labor, animal production and health, financing options, marketing and sales, etc. in their design. The final project will be presented in both an oral and a written format. Independent initiative and group collaboration are both integral to success in this project. Writing intensive. 
Attributes: Writing Intensive Course
Equivalent(s): ANSC 750W, NUTR 750, NUTR 750W

ANSC 795 - Investigations  
Credits: 1-4  
Investigations in genetics, nutrition, management, diseases, histology, equestrian management/agribusiness, physiology, cell biology, microbiology, dairy management, or teaching experience. Prereq: permission. 
Repeat Rule: May be repeated for a maximum of 4 credits. 
Equivalent(s): ANSC 795W

ANSC 796 - Equine Senior Seminar  
Credits: 2  
This course is geared to prepare graduating seniors for professional work experience, including skills related to job seeking, resume preparation and interviewing for work in the equine field. In addition, students will engage in dialogue regarding current and relevant controversial topics within the equine industry. Through guided group discussion, selected readings and guest speakers, student are exposed to subjects which equine professionals must confront and address within the equine industry. This course serves as a preparation for and pre-requisite to the Equine Capstone Experience, ANSC 797. 
Equivalent(s): ANSC 697, ANSC 796W

ANSC 797 - Equine Capstone Experience  
Credits: 4  
This course allows students to review critical professional skills, concepts and theories necessary for success within the equine industry and then to demonstrate competence in these areas, to a panel of equine program faculty. Students also coordinate logistics and content of an outreach Equine Education Day. Successful completion allows students to showcase professional skills and abilities to the non-academic equestrian community. Prereq: ANSC 796.

ANSC 799 - Honors Senior Thesis  
Credits: 1-4  
Independent research culminating with a written honors thesis in A) Genetics; B) Nutrition; C) Management; D) Diseases; E) Histology; F) Light Horsemanship; G) Physiology; H) Cell Biology; I) Microbiology; J) Dairy Management. Prereq: permission. IA. 
Attributes: Writing Intensive Course
Repeat Rule: May be repeated for a maximum of 8 credits.

Anthropology (ANTH)  
# Course numbers with the # symbol included (e.g. #400) have not been taught in the last 3 years.

ANTH 411 - Global Perspectives on the Human Condition: An Introduction to Anthropology  
Credits: 4  
This course introduces students to the core concepts, methods, and research of contemporary cultural anthropology, as well as to the ways in which the discipline is relevant to their daily lives. Students will learn how anthropology approaches the study of culture, language and communication, family and kinship, gender and sexuality, race and ethnicity, economic relationships, political systems, religion, social change and globalization. Ethnographic material from both the U.S. and cross-culturally, as well as a series of hands-on, experiential and interactive activities, will demonstrate anthropological concepts and questions. 
Attributes: World Cultures(Discovery)
Equivalent(s): ANTH 411H, ANTH 411W
ANTH 411H - Honors/Global Perspectives on the Human Condition: An Introduction to Anthropology
Credits: 4
This course introduces students to the core concepts, methods, and research of contemporary cultural anthropology, as well as to the ways in which the discipline is relevant to their daily lives. Students will learn how anthropology approaches the study of culture, language and communication, family and kinship, gender and sexuality, race and ethnicity, economic relationships, political systems, religion, social change and globalization. Ethnographic material from both the U.S. and cross-culturally, as well as a series of hands-on, experiential and interactive activities, will demonstrate anthropological concepts and questions.
Attributes: World Cultures(Discovery); Writing Intensive Course
Equivalent(s): ANTH 411, ANTH 411W

ANTH 411W - Global Perspectives on the Human Condition: An Introduction to Anthropology
Credits: 4
This course introduces students to the core concepts, methods, and research of contemporary cultural anthropology, as well as to the ways in which the discipline is relevant to their daily lives. Students will learn how anthropology approaches the study of culture, language and communication, family and kinship, gender and sexuality, race and ethnicity, economic relationships, political systems, religion, social change and globalization. Ethnographic material from both the U.S. and cross-culturally, as well as a series of hands-on, experiential and interactive activities, will demonstrate anthropological concepts and questions.
Attributes: World Cultures(Discovery); Writing Intensive Course
Equivalent(s): ANTH 411, ANTH 411H

ANTH 412 - Broken Pots and Buried Cities: Adventures in Archaeology
Credits: 4
Traces the history of archaeology's most spectacular finds and how those moments of adventure and glory developed into a scientific discipline. Provides an introduction to the methods used by archaeologists to recover, analyze, and interpret data in their ongoing effort to understand humanity through the analysis of those small things left behind.
Attributes: Social Science (Discovery)

ANTH 415 - The Human Story: Evolution, Fossils and DNA
Credits: 4
This course uses an evolutionary approach to investigate human biological and bio-cultural variation in time and space. Through a study of the basics of population genetics, an evaluation of our closest living relatives, nonhuman primates, and an exploration of the biological and cultural pathways traversed by our ancestors to become modern Homo sapiens, students learn the depth and complexity of the human story. Laboratory exercises dealing with human genetics, hominin fossils, and evolution are integrated with lectures to give students hands-on learning experience. No credit earned if credit received for ANTH 413.
Attributes: Biological Science(Discovery)
Equivalent(s): ANTH 413

ANTH 440A - Honors/Medicine and Culture: Science, Technology and the Body
Credits: 4
This course takes a comparative, cross-cultural approach to global medicine. Through critical readings, multimedia presentations, class discussions, and expository writing, we consider how techno-scientific developments, transnational flows, environmental transformations, and historical inequities shape how we know and experience our bodies. Key course topics include controversies surrounding new medical technologies, the intersections between Western and non-Western medical systems, and innovative responses to chronic global diseases.
Attributes: Environment,TechSociety(Disc)

ANTH 440B - Honors/Saving Culture: Heritage Management
Credits: 4
Culture and heritage are increasingly important topics for scholars, art connoisseurs, politicians, and the public alike. The Taj Mahal in India is the UNESCO world heritage site, but is yoga that many around the world engage in? Who decides what heritage is and what counts as culture? How do these decisions impact peoples' daily lives? The course introduces students to the concept of cultural heritage and how it "works" in complex, non-universal ways.
Attributes: World Cultures(Discovery)

ANTH 444 - The Lost Campus: The Archaeology of UNH
Credits: 4
In this course, students are active participants in the systematic documentation and examination of the University of New Hampshire's cultural heritage resources. Students are introduced to the practice and process of archaeology through lectures, readings, assignments and hands-on archival research and archaeological fieldwork. Students learn the foundational methods of archaeology including survey, mapping, documentation, excavation, artifact identification, artifact interpretation, and presenting results to the public.
Attributes: Historical Perspectives(Disc); Inquiry (Discovery)

ANTH 450 - Introduction to Race, Culture, and Power
Credits: 4
Race, culture, and power intersect at a social space where those in that space experience differing opportunities and access to social and economic privileges, resources, and power. This course explains the way race functions today as a social and cultural category to justify systematic inequality and differences in power and to obscure the functioning of the global economy. The course draws on emerging literature on Blackness, Whiteness, and Minorities and on analyses of the differential implementation of social welfare policies in the United States. (Also listed as INCO #450.)
Equivalent(s): INCO #450

ANTH 500 - Peoples and Cultures of the World
Credits: 4
Explores cultures and peoples from specific geographic regions of the world. Broadly considers social, gendered, economic, and political changes in ecological and historical context, focusing on precolonial, colonial, and contemporary societies and globalization. May be repeated barring duplication of subject.
Attributes: World Cultures(Discovery)
Repeat Rule: May be repeated up to unlimited times.
Equivalent(s): ANTH 500W
ANTH 501 - World Archaeological Cultures  
**Credits:** 4  
The development of prehistoric cultures worldwide offered in the following sections:  
A) North America;  
B) Mesoamerica;  
C) South America;  
D) Near East;  
E) Europe;  
F) Asia.  
North America: from earliest settlement to European contact, includes Eastern Woodlands, The Plains, and the Southwest.  
Mesoamerica: from earliest cultures through Spanish conquest, includes the Olmec, Maya, and Aztec civilizations.  
South America: Cultural development from earliest migrations to the Inca Empire.  
Near East: from earliest agricultural villages to the world's first civilizations.  
**Attributes:** World Cultures(Discovery)  
**Repeat Rule:** May be repeated up to unlimited times.  

ANTH #508 - Anthropology of Internet  
**Credits:** 4  
While adopting an anthropological lens in this course we explore how and in what ways digital environment, cyberspace in particular, affects an individual, community, and the state, and how, in turn individuals affect the digital landscape.  
Focusing on the dynamic interaction between digital environment and humans we will (1) tease out what is "new" about our contemporary moment, (2) clarify changes and continuity that characterize this digital age and its effects on our daily lives, (3) explore virtuality as part of our daily experiences, and (4) learn how in what ways cyberspace becomes a place of personal achievement, dwelling of community-like formations, social control, and politics.  
**Attributes:** Social Science (Discovery)  

ANTH 510 - Animals, Identity, and Culture  
**Credits:** 4  
This course explores the roles of identity and culture in shaping the relationships humans form with other animals.  
A range of relationships are investigated, including those that figure animals as beings sharing in personhood, as prey, as technologies, as workers, as food, and as family.  
Inspired by the explosion of new research in multiple disciplines, this course emphasizes cross-cultural and transhistorical variations, while also exploring some of the biosocial features humans share with other animals.  

ANTH 511 - Core Concepts in Anthropology  
**Credits:** 4  
This foundational course, required within the first year of declaring the major, provides students with a cross-field perspective on anthropology through a focus on writing in the discipline.  
Approaching humankind as cultural and biological beings with distinct as well as interconnected histories, the course exposes students to the varied research practices of cultural, biological, archaeological, and linguistic anthropologists.  
Students will build skills in reading and research and will practice writing within several disciplinary genres and conventions that reflect anthropology’s public as well as scholarly sides.  
Featured topics provide entry points into key anthropological themes, including the holistic study of human thought, behavior, language, ideologies, and institutions; race, gender, and inequality; and adaptation and change within social and natural environments.  
**Attributes:** Writing Intensive Course  

ANTH 513 - Ethnographic Methods  
**Credits:** 4  
The course introduces students to social science research and differences between quantitative and qualitative research methods, and provides a hands-on experience to develop skills in interviewing, participant-observation, life-history, surveying, socio-linguistics, fieldnotes, and ethics of the research.  
**Attributes:** Inquiry (Discovery)  

ANTH 514 - Method and Theory in Archaeology  
**Credits:** 4  
Basic method and theory; techniques in recovering and interpreting data; laboratory exercises in ceramic and lithic analysis. Critical evaluation of archaeological literature.  
**Attributes:** Inquiry (Discovery)  

ANTH #515 - Anthropology and Contemporary Issues  
**Credits:** 4  
Anthropological approaches to current world issues such as racism, poverty, religious movements, revolution, and environmental stress.  
Selected topics examined in the context of both western and nonwestern societies.  

ANTH 525 - Anthropology of the Body: Fat, Fitness and Form  
**Credits:** 4  
This course surveys the way our human bodies are valued, transformed, experienced and made subject to control in different societies around the world. It explores cultural constructions of fatness and obesity, fitness and sports as sites of politics, economics and social change, and bodily modification and dis-integration in tattooing, injury, biomedical technology, disability, aging, and extreme environments of war and outer space. Uses anthropological and feminist theories and introduces ethnographic methods.  
**Attributes:** Social Science (Discovery)  

ANTH 550 - Introduction to Forensic Anthropology  
**Credits:** 4  
This course provides an overview of forensic anthropology, a sub-field of biological anthropology that applies knowledge of skeletal anatomy to problems of medico-legal significance (i.e., identification of human skeletal remains and interpretation of the circumstances surrounding death). This course outlines concepts underlying the recovery and analysis of human remains, the determination of the biological profile (including age, sex, ancestry, and stature), and the interpretation of skeletal trauma and pathology.  

ANTH 557 - Special Topics  
**Credits:** 4  
Occasional and experimental offerings on an entry level. May be repeated for different topics.  
**Repeat Rule:** May be repeated up to unlimited times.  

ANTH 601 - Topics in Popular Culture  
**Credits:** 4  
This course explores the anthropology of popular culture using film, novels, and other media as well as widely disseminated texts. The course focuses on myths about culture and human behavior which become part of the global cultural mainstream, and counterposes popular stereotypes with data from cultural anthropology and archaeology.  
A) Native Americans and Popular Culture  
B) Archaeology and Popular Culture  
C) Popular Culture and Physical Anthropology  
D) Poverty and Popular Culture  
E) Gender and Popular Culture  
F) Other. May be repeated but not in duplicate areas.  
**Repeat Rule:** May be repeated up to unlimited times.
ANTH 610 - Medical Anthropology: Illness and Healing  
Credits: 4  
Intermediate-level introduction to medical anthropology through sociocultural and biocultural approaches to describing health-related ideas and practices in cross-cultural, historical and ecological contexts. Focuses on human illness and religious experiences of disease and the end of life. Considers how suffering, diagnosis, treatment, prevention, and care are shaped by: religion and ritual; symbolism and language; age, gender and sexuality; families, social movements, and governments; and the worldwide expansion of biomedical expertise and technologies.  
Equivalent(s): ANTH 610W  
ANTH 611 - History of Anthropological Theory  
Credits: 4  
Provides a grounding in the history of social thought in cultural anthropology and sister disciplines from 19th century evolutionism to the present. Course reading is based on primary sources - original essays written by theorists central to the discipline. Assessment is partly based on students' ability to apply theoretical concepts to novel contexts, as well as the ability to evaluate and compare theories on the basis of logic and evidence.  
ANTH 612 - Applied Anthropology  
Credits: 4  
Introduces students to the ways anthropological questions, concepts, and methods are applied to real world problems. Students learn how anthropological knowledge and methods can be used in a wide range of disciplines and careers. The course includes experiential learning where students engage with professionals doing work within applied anthropology. Students gain perspective on the practical possibilities in their major and acquire skills to position themselves for future careers.  
ANTH 616 - Religion, Culture, and Society  
Credits: 4  
Major anthropological theories of religion; analysis of religious beliefs as symbolic systems and their interrelations with ritual and other social institutions. Detailed study of specific religions. Operates on a seminar format. Writing intensive.  
Attributes: Writing Intensive Course  
ANTH 620 - Ritual and Religion of Ancient Mesoamerica  
Credits: 4  
This course examines the religious beliefs and ritual practices of ancient Mesoamerican cultures, such as the Olmec, Maya, and Aztecs. Students learn about the meaning of ritual practices (like human sacrifice and burial rites) and the myths that underlie this mysterious ritual behavior from an archaeological perspective. This class is writing intensive and involves primarily in-class discussion. Students are evaluated based on their participation, oral presentations, and a number of writing assignments. Writing intensive.  
Attributes: Writing Intensive Course  
ANTH 625 - Sexuality in Cross-Cultural Perspectives  
Credits: 4  
This course examines the ideologies and practices associated with sexuality from a broad perspective that incorporates diverse case studies from the ethnographic record. Working from the argument that much of human sexual behavior is culturally constructed rather than biologically determined, the course invites students to expand their notion of the "normal" and to consider the human condition from a cross-cultural perspective. Topics discussed include cross-cultural varieties of transgendersed experience, same-sex sexualities, and heteronormative identities.  
ANTH #627 - Urbanization in Africa  
Credits: 4  
Explores the process of urbanization and describes the creation of urban culture in sub-Saharan Africa by investigating the effects of urbanization on socio-economic and cultural conditions. An attempt is made throughout the course to study urbanization and urban life within the context of broader societal, economic, cultural, and political relations in order to understand the dynamics inherent in these processes. Urbanization is discussed in the context of colonialism, post-colonialism, and other social relations of dependency that continue to shape urban life and urban-rural relations.  
ANTH 640 - Anthropology of Islam: Muslims' Everyday Lives in Contemporary Communities  
Credits: 4  
This course introduces students to different ways of being Muslim in the contemporary world, focusing on Muslim communities residing in Central Asia (post-Soviet independent countries, China, and Afghanistan); the United States and some parts of Europe; and the Middle East and North Africa (MENA).  
ANTH 645 - Cultural Sustainability and the Role of Public Archaeology  
Credits: 4  
In archaeology, the sustainability movement has encouraged increased outreach and education in an effort to make archaeology relevant to the public and to sustain past lifeways, especially cultural traditions threatened of being erased in our increasingly homogenized and globalized world. Students will be introduced to this field and experience for themselves how to translate academic archaeology to the masses through public programming, from designing museum exhibits to participating in "open archaeology" education for the public.  
Attributes: Writing Intensive Course  
Repeat Rule: May be repeated for a maximum of 8 credits.  
ANTH 650 - Anthropology of Migration and Movement  
Credits: 4  
This course uses an anthropological framework to gain a more nuanced understanding of the complexities of global migration and human movement. It will examine the theoretical underpinnings of an anthropological perspective on migration and movement, and will explore a variety of ethnographic case studies to explore the significant political, economic, environmental, legal, and social issues that influence global migration.  
Attributes: Writing Intensive Course  
ANTH #670 - Language and Culture  
Credits: 4  
Investigates the relationship between language and culture and how their interpenetration produces meaning. Special attention to the issues of class, gender, and ethnicity and the ways in which inequality is maintained through culturally patterned speech styles and associated prejudices. Speech communities in the United States are emphasized.  
ANTH 674 - Archaeological Survey and Mapping in Belize  
Credits: 4  
Involves hands-on training in field reconnaissance, survey and mapping of archaeological sites, and the use of ARCGIS mapping software. This field course takes place in Belize (Central America) and will be of interest to students studying anthropology, geography and geospatial technologies, among others. Special fee.  
Co-requisite: INCO 589  
Repeat Rule: May be repeated for a maximum of 8 credits.
ANTH 675 -Archaeological Field School in Belize
Credits: 8
The Archaeological Field School in Belize is an intensive, four-week summer program focused on the ancient Maya civilization in the eastern Belize River valley in Central America. Project participants will map and excavate archaeological sites and receive hands-on training in field and lab methods. Students will be graded on their participation, their submission of a field notebook, an exam based on readings and nightly lectures, and a final written report based on original field research. Special fee. Majors only.
Co-requisite: INCO 589
Repeat Rule: May be repeated for a maximum of 16 credits.

ANTH 680 -Africana Religions: Mobility, Power, and Material Culture
Credits: 4
Explores Africana indigenous and earth-based and ancestral practices, Islam, and Christianity to show how religion has powerfully shaped communities and always been on the move within and beyond the African continent, including in the Americas and Asia. Uses theories of media and material culture to survey religious environments, ritual, oral, visual, and expressive arts. Students tour virtual and local exhibits and interact with curators, heritage specialists, community members, and museum collections to curate an exhibit.
Attributes: Writing Intensive Course
Repeat Rule: May be repeated up to 0 times.

ANTH 685 -Gender, Sexuality and HIV/AIDS in Sub-Saharan Africa
Credits: 4
HIV/AIDS has been defined as one of the exceptional global pandemics of the Millennium. This course traces the rise and global spread of HIV and AIDS and the introduction of antiretroviral therapies and prevention in sub-Saharan African and its Diasporas with a focus on sex and gender. Includes findings on heterosexual and LGBTIA individuals, couples, and communities and perspectives on: kinship, marriage, love, transactional sex, reproduction, contraception, gender-based violence, and activist movements. Uses ethnographies and health sciences databases.
Attributes: Writing Intensive Course

ANTH 690 -Ethnographic Field Research
Credits: 4
Explores history, theory, and practice of ethnographic research. Students read and practice such techniques as mapping, taking life histories, compiling genealogies, and analyzing use of space, language, and rituals. Each student also carries out, writes up, and presents an independent research project. Prereq: ANTH 411 or permission. Operates on a seminar format. Writing intensive.
Attributes: Writing Intensive Course

ANTH 695 -Globalization and Global Population Health
Credits: 4
This course traces how political economies drive global movements of people, diseases, and health interventions. It takes a multidisciplinary approach through medical anthropology and humanities, public health, and sustainability, looking at: histories of health intervention and biomedical technologies; under-development; shifting public-private sector governance; humanitarianism, cultural knowledge, expertise, and translation; and health-related social justice approaches and liberation theologies. Topics may include: epidemics, non-communicable diseases, metabolic disorders, substance abuse, violence, injury, and aging.
Attributes: Writing Intensive Course

ANTH 697 -Special Topics
Credits: 4
Occasional or experimental offerings. May be repeated for different topics. Prereq: ANTH 411 or permission. Operates on a seminar format.
Attributes: Writing Intensive Course
Repeat Rule: May be repeated up to unlimited times.
Equivalent(s): ANTH 697W

ANTH #698 -Folklore and Folklife
Credits: 4
Examines the materials and methods used to study folklife and folklife, emphasizing the historical context and development of folklife studies in North America and Europe, field research, performance theory, and other topics. (Also offered as ENGL #732.) Operates on a seminar format.
Writing intensive
Attributes: Writing Intensive Course
Equivalent(s): ENGL #732

ANTH 699 -Senior Thesis
Credits: 4 or 8
Independent work in the library or field; recommended for, but not confined to, majors intending to pursue graduate studies. Contact staff to obtain approval and arrange supervision prior to senior year. 4 or 8 credit 2 semesters; an IA grade (continuous course) given at end of first semester. Writing intensive.
Attributes: Writing Intensive Course
Repeat Rule: May be repeated for a maximum of 8 credits.
Equivalent(s): ANTH 699H

ANTH 699H -Honors Senior Thesis
Credits: 4 or 8
Independent work in the library or field; recommended for, but not confined to, majors intending to pursue graduate studies; required for honors candidates. Contact staff to obtain approval and arrange supervision prior to senior year. 4 or 8 credit 2 semesters, 8 credits required for honors; an IA grade (continuous course) given at end of first semester. Writing intensive.
Attributes: Writing Intensive Course
Repeat Rule: May be repeated for a maximum of 8 credits.
Equivalent(s): ANTH 699

ANTH 700 -Internship
Credits: 1-4
Provides student with supervised practical experience in anthropology in one of the following areas: A) professional or community support work within an academic or applied anthropology setting; B) teaching; C) museum work; D) archaeological laboratory or fieldwork; E) research on a faculty research project; F) editorial work on a journal or faculty book project. Prereq: permission.
Repeat Rule: May be repeated for a maximum of 8 credits.

ANTH 705 -Topics in Mesoamerican Anthropology
Credits: 4
Examines the very origins of civilization in the New World by first focusing on the domestication of staple food crops and the development of inequality and carefully tracing the ever increasing socio-political complexity displayed by early Mesoamerican peoples. Includes the successive rises of the Olmec, the Zapotec, the Preclassic Maya and Teotihuacan in an effort to understand the mechanisms driving the development of agricultural intensification, economic specialization, long-distance trade networks, and the institution of divine kingship. Operates on a seminar format, open only to juniors and seniors.
ANTH #730 - Anthropological Thinking on Education  
Credits: 4  
Course introduces the students to key anthropological concepts that, taken together, underpin anthropological thinking on education. The concepts are Culture (Geertz, White), Evolution (Morgan Steward), Function (Malinowski, Radcliffe-Brown), Interpretation (Geertz, Turner), Feminism and Postmodernism (Leacock, Rosaldo) and Process (Bailey, Vincent). The course analyzes and synthesizes them into a conceptual framework by which to understand human behavior, activity, production and reproduction in formal education.

ANTH #740 - Teaching Race  
Credits: 4  
How do we teach about race? What are schools and universities communicating about the meanings of racial ascription, of color and whiteness? How can we best use the power of educational institutions to further the struggles for equality and racial justice? And how can we do this in ways that constructively educate all our students? This course brings together prospective teachers and other students interested in human relations to discuss ways of combining the insights of new scholarship on race with personal experiences and challenges in the classroom to address these questions.

ANTH 750 - Islam and Gender: Gendered Lives of Muslims  
Credits: 4  
This seminar focuses on the lives of Muslims. While critically questioning some existing ideas about and representations of Muslims, it introduces students to practical and historical aspects of gender politics in different Muslim communities. 

ANTH 770 - Anthropology of the Sinister  
Credits: 4  
Examines narratives of the sinister-stories about witches, demons, vampires, extraterrestrials, and other in-human and human evils-that are told as if true, and the cultural, political, and economic contexts of their production. Variations of the sinister are compared cross-culturally and historically. Links between worldwide circulation of narratives of sinister phenomena, conspiracies, and processes of globalization are emphasized. Operates in a seminar format, and open only to juniors and seniors.

Equivalent(s): RS 770

ANTH 785 - The Anthropology of Dreams and Dreaming  
Credits: 4  
This course emphasizes the "dream theories" of indigenous societies and how beliefs and practices associated with dreaming are integrated into cultural, ontological, political, economic, and religious systems. Western theories are also examined from within a comparative perspective—from basic Freudian models to contemporary scientific debates about the neurological origin and significance of dreaming. Writing intensive.

Attributes: Writing Intensive Course

ANTH 795 - Reading and Research  
Credits: 1-8  
A) Cultural/Social Anthropology; B) Anthropological Linguistics; C) Archaeology; D) Physical Anthropology. Prereq: 12 credits of anthropology, permission.

ANTH 796 - Reading and Research  
Credits: 1-8  
A) Cultural/Social Anthropology; B) Anthropological Linguistics; C) Archaeology; D) Physical Anthropology. Prereq: 12 credits of anthropology, permission.

ANTH 797 - Advanced Topics  
Credits: 4  
Advanced or specialized courses presenting material not normally covered in regular course offerings. May be repeated, but not in duplicate areas. Course descriptions on file in the department office during registration. A) Social Organization; B) Economic Anthropology; C) Anthropology of Religion; D) Political Anthropology; E) Social Impact Analysis; F) Cultural Ecology; G) Prehistoric Archaeology; H) Historic Archaeology; I) Cultural Resources Conservation; J) Lithic Analysis; K) Ceramic Analysis; L) Faunal Analysis; M) Human Evolution; N) Human Variations; O) Anthropological Theory. Prereq: ANTH 411 or ANTH 412 (as appropriate)/ or permission. Operates on a seminar format, open only to juniors and seniors.

Attributes: Writing Intensive Course

Repeat Rule: May be repeated up to unlimited times.

Applied Animal Science (AAS)  
# Course numbers with the # symbol included (e.g. #400) have not been taught in the last 3 years.

AAS 402 - Introduction to Livestock and Poultry Management  
Credits: 2  
Students are introduced to the management of livestock and poultry in small-to-medium sized operations. Students learn basic animal feeding, selection, handling, housing, management and health practices necessary to manage livestock and poultry. Through readings, multi-media presentations, writing and field assignments, students gain insight into the work, commitment and skills necessary to raise domestic farm animals for food and profit.

AAS 421 - Large Animal Behavior and Handling Techniques  
Credits: 2  
Introduction to domestic large animal behavior and handling techniques. Cattle, horses, swine, and sheep are used in this course. Students perform routine health-related procedures and gain valuable hands-on skills and safe animal handling techniques which can be applied to the fields of veterinary medicine, animal research, commercial agriculture, and animal control. 1 lec/1 lab.

Equivalent(s): AAS 221, ANSC 408, ANSC 508

AAS 422 - Small Animal Grooming I  
Credits: 2  
Introduction to pet grooming. Course covers the techniques and styles of brushing, grooming, clipping, trimming, and bathing common breeds of dogs and cats. Students perform basic grooming in lab period. Special fee for non-TSAS students. 1 lec/1 lab.

Repeat Rule: May be repeated for a maximum of 4 credits.

Equivalent(s): AAS 222

AAS 423 - Dairy Selection  
Credits: 2  
Selection techniques used in cattle for purchase, breeding, and genetic improvement through the use of visual evaluation, pedigrees, production, and progeny information. 1 lec/1 lab. Special Fee.

Equivalent(s): AAS 223
AAS 424 - Animal Law and Regulations
Credits: 3
This course covers the practical application and understanding of animal law and regulations. Designed for applied animal science majors the material is relevant for any learner interested in animal protection and welfare. Select current bills, court rulings or animal-related legal movements are reviewed. Practical application topics include: due process, contract law, evidence collection, and courtroom procedures. Focus is on domestic species with limited review of regulations and liability regarding exotic pet keeping.
Equivalent(s): AAS 224

AAS 425 - Introduction to Dairy Herd Management
Credits: 4
The course explores economic, scientific and practical aspects of dairy herd management. The topics covered include history, cattle selection, nutrition, housing, milking, and disease prevention strategies. There are a number of field trips and weekly labs emphasizing management and hands-on experience.
Equivalent(s): AAS 244, ANSC 409, ANSC 410

AAS 428 - Anatomy and Physiology of Domestic Animals
Credits: 3
An overview lecture course describing the anatomy (structure) and physiology (function) of domestic animals, focusing on canine, feline, equine, and bovine species. Anatomic and physiologic topics are intertwined as the course progresses through each body system. Relevant species differences are stressed. Focus is on applied concepts appropriate for animal-related careers. Course is designed to be taken along with AAS 428A or AAS 428B for AAS and VTEC majors respectively.
Equivalent(s): AAS 228

AAS 428B - Anatomy and Physiology of Domestic Animals Lab for VTEC majors
Credits: 1
Reinforces material presented in AAS 428 lecture and introduces students to the animal body by hands-on study of anatomy. Anatomical relationships and concepts that are important for the medical care of animals are presented. The feline species will be the primary anatomical model used. Comparative anatomy of bovine, equine, and avian species will also be covered. Course is required of Veterinary Technology majors and is designed to be taken along with AAS 428 lecture.
Co-requisite: AAS 428

AAS 431 - Introduction to Animal Science
Credits: 4
Survey of the dairy, equine, livestock, and small animal industries; current issues and related occupational opportunities are presented. Included is assistance in gaining or improving the skills needed to be successful in college. Lecture/Lab or Recitation.
Equivalent(s): AAS 231

AAS 432 - Introduction to Forage and Grassland Management
Credits: 3
Introduction to grasslands of the world and their management. Special emphasis on the identification, production, and utilization of New England forage crops for feeding domestic farm animals. The course includes the selection of local plant species and varieties, including their management and recommended harvesting practices. The course also includes a basic introduction to soils, as well as nutrient and fertility management.
Equivalent(s): AAS 232

AAS 433 - Small Animal Grooming II
Credits: 2
Continuation of AAS 422 Small Animal Grooming I with the addition of on-line canine dermatology and topical therapy basics. Student is assigned more complex breeds to groom and develops more proficiency in scissoring, hand stripping and clipping. Must have taken AAS 422. Special fee for non-TSAS students. 2 lab.
Equivalent(s): AAS 233

AAS 434 - Equipment and Facilities Management
Credits: 3
Operation of agricultural equipment and maintenance of agricultural facilities as found in New England. Development of the essential skills and technical information needed to manage and supervise agricultural facilities and equipment. 2 lec/1 lab.
Equivalent(s): AAS 234

AAS 439 - Fundamentals of Animal Health
Credits: 2
Covers the principles of maintaining animal health by preventing and managing disease via husbandry, immunization, diagnostic testing and treatment. Focus is on domestic species; primarily dogs, cats, horses and cows. Topics include external and internal parasitology, microbiology, immunology including vaccination, and disease treatment. Course is designed to be taken along with the appropriate lab section: AAS 439A for Applied Animal Science majors or AAS 439B for VTEC majors, respectively. No credit earned if credit was received for VTEC 439.
Equivalent(s): AAS 239, VTEC 439

AAS 439B - Fundamentals of Animal Health Lab for Veterinary Technology Majors
Credits: 2
Laboratory course to complement lecture course AAS 439. Common veterinary diagnostic laboratory tests are covered, such as fecal flotation, urinalysis, complete blood count and blood chemistry, bacterial culture and sensitivity testing, gram staining, and immunologic testing such as ELISAs. Topics include laboratory safety, identification of internal and external parasites, and blood cells, examination of urine sediment, and principles of sample collection. This lab course is required of Veterinary Technology majors along with AAS 439 lecture.
Equivalent(s): VTEC 439

AAS 445 - Veterinary Assisting Techniques
Credits: 4
Course is designed to prepare students to enter veterinary practice as a veterinary assistant. Topics include veterinary pharmaceuticals; animal nursing including record keeping, patient observation, husbandry, and disease control; surgical preparation and assisting including surgical instrumentation, sterilization and patient management; laboratory sample collection and handling; and diagnostic imaging including radiography safety, patient positioning, radiographic film processing and filing, and ultrasound. Required for completion of the veterinary assisting certificate.

AAS 451 - Human/Animal Bond
Credits: 4
Students explore various aspects and perceptions of the human-animal bond through multidisciplinary approaches over time and across cultures. They will critically evaluate the meanings humans ascribe to companion animals. Through movies, video clips, readings, and discussions, students are exposed to historical and contemporary utilization and exploitation of companion animals they may encounter in their professional lives. Class concentrates on “pet” animals (dogs, cat, and to a much lesser extent the horse.)
Equivalent(s): AAS 251
AAS 525 - Canine Learning Theory and Application
Credits: 4
Canine behavior problems are a major cause of abandonment and euthanasia in dogs. Effective application of canine learning theory can prevent and solve behavior problems and save lives. Student gain a working knowledge of animal learning theory with a focus on training basic obedience commands, prevention and modification of common canine behaviors, effective human communication within a practical canine training session, canine ethology, the business and ethics of dog training, and more. Prereq: AAS 430 or equivalent.
Equivalent(s): AAS 225

AAS 527 - Companion Animal Diseases
Credits: 2
Common diseases in companion animals discussed system by system; emphasis on canine, feline, equine, and ruminant species. Other species covered based on class interest. Disease pathogenesis, diagnosis, and treatment are covered. Care-based learning includes developing differential diagnosis lists and technician evaluations and interventions. AAS 428 or another Anatomy and Physiology course is strongly suggested as a pre-requisite.
Equivalent(s): AAS 227

AAS 535 - Animal Nutrition
Credits: 3
The food nutrients, their digestion and absorption, factors affecting value of feeds, feed additives, and nutrient requirements for maintenance and productive functions.
Equivalent(s): AAS 235, AAS 435

AAS 540 - Animal Breeding
Credits: 3
Principles and practices, including the physiology of reproduction, fertility and sterility, artificial insemination, breeding systems, and selection.
Equivalent(s): AAS 240, AAS 440

AAS 552 - Equine Health Management
Credits: 4
Systems of the horse as they relate to common diseases and lameness. Applied approach to conditioning, care of the sick or lame horse, and preventive care. Prereq: AAS 426 or AAS 437.
Equivalent(s): AAS 252

AAS 553 - Equine Competition Management
Credits: 2
Students organize and run a combined test competition to be held in April. The class is responsible for mailing entries, handling publicity and ad sales, compiling the program, setting the course and dressage ring, and dealing with the public. Proceeds fund seminars available to students and class field trips. May be repeated once. Prereq: AAS 426 or AAS 546.
Equivalent(s): AAS 253

AAS 558 - Animal Population Medicine and Management
Credits: 2
This course applies material from animal health and disease classes to populations of animals rather than individual animals. Topics include stress and disease management, behavior and ethical problems in animal populations, evaluation of scientific research, and decision analysis. Concepts in epidemiology and statistics are covered. Students design and carry out a statistical analysis on data from a chosen animal population. Prereq: AAS 428, AAS 439, MTH 202.
Equivalent(s): AAS 258

AAS 563 - Small Animal Grooming III
Credits: 1
Individual supervised grooming experience for students who wish to obtain more technical grooming skills. Must have taken AAS 422 twice or AAS 422 and 433. Cr/F.
Equivalent(s): AAS 253

AAS 572 - Comparative Equine Operations
Credits: 2
Exploration of national and regional equine farms and related businesses. Using field trips and journals, students will experience and study different farm and business operations. Prereq: AAS 426. 1 lab. May be repeated to a maximum of 2 credits. Cr/F.
Equivalent(s): AAS 272

AAS 574 - Dairy Cattle Disease Seminar
Credits: 2
Covers principles of the immune response, immunological basis for disease control, and emphasizes management practices to prevent disease and maintain optimal animal health in dairy cattle. Numerous guest lecturers, field and case studies, and emphasis on current topics of interest to the industry.
Equivalent(s): AAS 274

AAS 575 - Cooperative for Real Education in Agriculture Management (CREAM)
Credits: 4
CREAM (Cooperative for Real Education in Agricultural Management) is a 2-semester course in which students perform the work and make the financial and management decisions associated with the CREAM dairy herd. Assumption of complete responsibility for the management and care of this 25-cow herd for the entire academic year. CREAM provides students with a unique experiential learning model that will help them understand how to work together to manage and operate a small business, the decision making skills required in production agriculture, and the application of science to the management of a dairy herd. Two semesters of 4 credits each are required. Prereq: AAS 425 or ANSC 409 and ANSC 410 or permission.
Equivalent(s): AAS 275, ANSC 698

AAS 577 - Functional Canine Analysis Practicum
Credits: 4
The majority of this course takes place at the Cocheco Valley Humane Society in Dover, New Hampshire. Students facilitate the rehoming of shelter dogs with manageable behavioral issues by assessing, developing and implementing individual plans. A limited amount of time is spent on assisting with incoming temperament assessments and adopter behavioral consultations. Cases commonly involve: social hyper-arousal, obedience, confidence building, enrichment, reactivity, possessive, and barrier counterconditioning and desensitization. Includes one feline functional assessment plan. Prereq: AAS 430, AAS 525.

AAS 591 - Studies
Credits: 1-3
Students who have the ability and adequate preparation to work independently may propose a contract to design a course or research project on a topic not available through existing course offerings. The purpose of this research is to explore new areas in the student’s field of study or to pursue course material in greater depth. Work is supervised by an appropriate faculty/staff member and credit varies depending on the proposed project/research. Areas may include dairy, light horses, livestock, poultry, meats, forages, management, small animals, or general animal science. Permission required.
Repeat Rule: May be repeated for a maximum of 6 credits.
Equivalent(s): AAS 291
AAS 592 - Studies
Credits: 1-3
Students who have the ability and adequate preparation to work independently may propose a contract to design a course or research project on a topic not available through existing course offerings. The purpose of this research is to explore new areas in the student's field of study or to pursue course material in greater depth. Work is supervised by an appropriate faculty/staff member and credit varies depending on the proposed project/research. Areas may include dairy, light horses, livestock, poultry, meats, forages, management, small animals, or general animal science. Permission required.
Repeat Rule: May be repeated for a maximum of 6 credits.
Equivalent(s): AAS 292

AAS 593 - Equine Field Operations
Credits: 1-3
Field experience in selected areas of equine care and handling, under supervision of appropriate faculty/staff and outside facilities supervisor. A) Veterinary Clinic; B) Breeding and Foaling; C) areas of student interest. All field operations done on an individual basis. Four or more hours per week. Students must provide their own transportation. Prereq: AAS 426, 437, 547, and/or permission of instructor and adviser.
Equivalent(s): AAS 293

AAS 597 - Applied Animal Science Work Experience
Credits: 0
Employment (12 weeks, generally in the summer following the first year) in an approved animal-related position. Cr/F.
Equivalent(s): AAS 293

Applied Business Management (ABM)

# Course numbers with the # symbol included (e.g. #400) have not been taught in the last 3 years.

ABM 404A - Introduction to Business I
Credits: 2
This 1/2 semester course introduces students to the nature of the firm, market competition, and management principles. Topics include entrepreneurship, starting a firm, selecting and retaining human resources, choosing an appropriate legal structure, and the role of ethics in business. Students will learn basic concepts of economics, study market structures, and engage in competitive analysis of specific firms. Lectures, guest speakers, and case studies used to promote discussion and real-world situations.

ABM 404B - Introduction to Business II
Credits: 2
This course is the second half on Introduction to Business. It introduces basic marketing concepts, including product, pricing, promotional and distribution strategies; applies management principles to operations, information technology, and finance; and examines uses of accounting data and financial statements to evaluate past financial performance and project future performance. A basic business plan is required in an area of the student's interest. Students must take ABM 404A before being eligible to take ABM 404B.

ABM 405 - Small Business Accounting Principles
Credits: 4
Learn the basics of sound bookkeeping practices as they apply to any retail, service, or manufacturing entity. Topics include: debiting and crediting, trial balance, worksheets, ledgers and journals, and checkbook reconciliation. Students perform all of the necessary bookkeeping transactions for an actual business. 3-hr lec/2-hr lab.
Equivalent(s): ABM 205, ABM 224

ABM 407 - Applied Marketing
Credits: 4
Marketing processes presented through text readings, discussions, and semester-long projects. Topics include market research, target marketing, demographics and psychographics, promotion, advertising and publicity, distribution, and pricing. Focuses on the non-personal aspects of marketing and selling. Sust Agriculture & Food Systems and Applied Business Management majors only.
Equivalent(s): ABM 207

ABM 506 - Human Resource Management
Credits: 4
The biggest problem most managers face is getting their employees motivated to work at peak performance. This course is designed to teach managers how to motivate employees through proper hiring techniques, performance reviews, training, administering change, working with problem employees, working with unions, and administering pay and fringe benefits. 2 2-hr discussion. Sust Agriculture & Food Systems and Applied Business Management majors only.
Equivalent(s): ABM 206, ABM 223, ABM 406

ABM 508 - Managerial Accounting
Credits: 4
Students focus on the decision-making aspects of financial management, primarily for internal use by managers. Topics include: cost behavior and control, budgeting, inventory control, capital investments and depreciation, tax strategies, interpretation of financial statements, profitability analysis, case flow management, standard cost accounting, manufacturing accounting and other cost accounting techniques.
Equivalent(s): ABM 208

ABM 514 - Applied Sales
Credits: 4
Focuses on the process of personal selling and persuasion skills. Students spend considerable time practicing their techniques and working with (and observing) professional sales associates in the workplace. Selling involves the pre-approach, approach, demonstration, handling of objections, and closing the sale and follow-up. Also presents and discusses the roles of the sales manager and related financial elements. 2 2-hr lec-discussion.
Equivalent(s): ABM 214, ABM 221, FSM 240

ABM 532 - Small Business Law
Credits: 4
Background and understanding of the legal aspects of management, including: contracts, liability and insurance, business law and regulation, employee laws and rights, forms of ownership, tax implications, and other legal matters relevant to successful management.
Equivalent(s): ABM 232
ABM 540 - Ethics in Business and Society
Credits: 4
A new look at the interface of managerial and ethical issues as they relate to workers, the workplace and the interface between business and society. Brings together concepts such as profit, values, community and responsibility to consider a paradigm that meets the needs of an organization and the social environment in which it must exist. Helps students identify methodologies for sustaining business in its function as a responsible force for the betterment of wealth and well being in society.
Equivalent(s): ABM 240

ABM 550 - Business Policy
Credits: 4
Through use of case studies from existing businesses, the organization and execution of a student-run business, students now bring together and apply all they have learned throughout the program. This course also features an Executive Speaker Series and a community service component. This unique and experiential final-semester course allows the individual to see how all of the parts make up the whole and to achieve a higher level of self-confidence, self-esteem, and hands-on abilities. 2 2-hr lec-discussion.
Equivalent(s): ABM 211

Arabic (ARBC)

# Course numbers with the # symbol included (e.g. #400) have not been taught in the last 3 years.

ARBC 401 - Elementary Arabic I
Credits: 4
This course introduces students to the language of Arabic and the culture of the Middle East. It teaches writing and pronunciation of Arabic letters and words, as well as a number of common phrases, such as greetings and cordial interactions. Both modern standard Arabic and colloquial Egyptian are taught. It also introduces students to basic aspects of Arabic culture and history. Special fee.
Equivalent(s): LLC 401

ARBC 402 - Elementary Arabic II
Credits: 4
This course builds on skills of learning Arabic acquired in ARBC 401. It continues with the teaching of these skills, which are listening, reading, writing, and speaking. It expands the students' acquisition of grammar, and widens their familiarity with the Middle East culture. It teaches both modern Standard Arabic and colloquial Egyptian. Prereq: ARBC 401 or permission from the instructor. Special fee.
Attributes: Foreign Language Requirement
Equivalent(s): LLC 402

ARBC 503 - Intermediate Arabic
Credits: 4
This intermediate level course builds on the skills of reading comprehension and the writing and speaking of Modern Standard Arabic that were acquired in first-year Arabic. It takes students to the next level of familiarity with, and the practice of, Arabic. It also puts a heavier weight on using the Egyptian dialect of Arabic in conversation. Prereq: ARBC 402 or permission from the instructor. Special fee.
Attributes: World Cultures(Discovery); Foreign Language Requirement

ARBC 504 - Intermediate Arabic
Credits: 4
This intermediate level course builds on the skills of reading and reading comprehension and the writing and speaking of Modern Standard Arabic that were acquired in Arabic 503. Students begin to read Arabic newspapers, websites, and other simple reading materials. An emphasis on using the Egyptian dialect of Arabic in conversation continues. Prereq: ARBC 503 or permission of the instructor. Special fee.
Attributes: World Cultures(Discovery)

ARBC 595 - Arabic Practicum
Credits: 2
Practical use of Arabic language and culture through special projects outside the classroom. Prereq: Permission. Cr/F.
Repeat Rule: May be repeated for a maximum of 4 credits.

ARBC 631 - Advanced Arabic I
Credits: 4
This advanced intermediate level course builds on the skills of reading and reading comprehension, and the writing and speaking, of Modern Standard Arabic that were acquired in ARBC 504. Students continue to read Arabic newspapers, websites and other materials, and bring their findings to share in class discussions. An even greater emphasis than in lower levels of Arabic, are placed on acquiring and practicing the Egyptian dialect of Arabic in class conversations. Prereq: ARBC 504 or permission from the instructor.

ARBC 632 - Advanced Arabic II
Credits: 4
This advanced intermediate level course builds on the skills of reading and reading comprehension, and the writing and speaking, of Modern Standard Arabic. Students continue to read Arabic newspapers, websites and other materials, and bring their findings to share in class discussions. An even greater emphasis than in lower levels of Arabic, are placed on acquiring and practicing the Egyptian dialect of Arabic in class conversations. Prereq: ARBC 631 or permission from the instructor.

ARBC 795 - Independent Study in Arabic
Credits: 1-4
Guided individual study. Topics selected by instructor and student in conference. Barring duplication of content, may be repeated for credit. Prereq: permission of instructor.
Repeat Rule: May be repeated up to unlimited times.

Arts/History & Studio (ARTS)

# Course numbers with the # symbol included (e.g. #400) have not been taught in the last 3 years.

ARTS 400 - Topics in Art History
Credits: 4
Art History will be presented thematically. At least three distinct chronological periods will be treated; students will develop research skills and give oral presentations. Topics will vary: "Art Writers: Their Sources and Their Effects;" "Rome from Romulus to the Fascists;" "Cults of the Original and Cultures of the Copy." Repeatable up to a maximum of 12 credits with different topics. May count toward the architectural minor if papers take the appropriate emphasis.
Attributes: FinePerformingArts(Discovery); Writing Intensive Course
Repeat Rule: May be repeated for a maximum of 12 credits.

ARTS 401 - College Art Seminar
Credits: 1-4
Guided individual study. Topics selected by instructor and student in conference. Barring duplication of content, may be repeated for credit. Prereq: permission of instructor.
Repeat Rule: May be repeated up to unlimited times.

ARTS 795 - Independent Study in the Arts/History & Studio
Credits: 1-4
Guided individual study. Topics selected by instructor and student in conference. Barring duplication of content, may be repeated for credit. Prereq: permission of instructor.
Repeat Rule: May be repeated up to unlimited times.
ARTS 440A - Honors/From Digging to Digital: Preserving and Displaying the Past
Credits: 4
This course introduces the methods for the digital preservation of artifacts and the ethics of cultural conservation. Students will work with objects from the UNH museum to assess digital tools available to conservators, art historians, and archaeologists. We will explore photogrammetry, 3D modeling, virtual reality, web publishing software, and digital applications to study objects and preserve out cultural heritage. Discussion sections will address the social role of museums and international affairs.
Attributes: Environment,TechSociety(Disc)

ARTS 444 - Mona Lisa to Much Ado About Nothing: An Introduction to Renaissance Culture
Credits: 4
What did Michelangelo and Shakespeare have in common? This course will read primary sources about the period called the Renaissance, which looked back to Greek and Roman paganism but which also launched Europe toward modernity due to its new emphases on individual ambition and civic pride.
Attributes: FinePerformingArts(Discovery); Inquiry (Discovery); Writing Intensive Course

ARTS 444B - The Business of Art
Credits: 4
This course explores the relationship between art and money from a variety of perspectives. Topics will range from the art market boom in seventeenth-century Holland, to money as subject matter in twentieth-century art. How do we determine the value of art? How do markets influence taste? How do we define authenticity? What is at stake in the opposition between art and money, and can they be reconciled? Writing intensive.
Attributes: FinePerformingArts(Discovery); Inquiry (Discovery); Writing Intensive Course

ARTS 444C - Honors/Seeing Gender: Feminist Art and Visual Culture
Credits: 4
What is the role of visual culture in our understanding of sex, gender and sexuality? What role do the history of art, art and film criticism, and philosophical aesthetics play in the creation, interpretation, and appreciation of feminist art? Through close analysis of primary works, primary sources, and theoretical and literary texts, as well as discussion and writing, this course will explore topics including gender norms, the gaze, patriarchal/stake violence, transgender theory, and global feminism.
Attributes: FinePerformingArts(Discovery)

ARTS 455 - Architectural Design Studio
Credits: 4
An entry level architectural design studio. Course assignments feature hand drafting, hand rendering, model building, and project presentations while developing skills in verbal, written, and graphic communication. Drafting, hand-rendering, and model making materials and tools are required for this course. Knowledge of CAD or 3-D computer modeling is not required.

ARTS 480 - Introduction to Art History
Credits: 4
Analysis of the central forms and meanings of art history through intensive study of selected artists and monuments. Includes works of architecture, sculpture, painting, and the graphic arts. Topics will vary but might include the Parthenon, Chartres Cathedral, Michelangelo’s Sistine Chapel ceiling, Rembrandt’s self-portraits, Monet’s landscapes, Picasso’s Guernica, Frank Lloyd Wright’s Falling water, Georgia O’Keeffe’s abstractions, ukiyo-e prints, and Benin sculpture.
Attributes: FinePerformingArts(Discovery)
Equivalent(s): ARTS 480W

ARTS #487 - Twentieth Century Europe
Credits: 4
This course examines the extraordinary transformations that have swept across Europe in the past century in relation to their impact on art, architecture, photography, film, theatre, and literature. The course structure reflects the interdisciplinary quality of the field of cultural studies in that we examine a range of issues that challenge traditional national boundaries. Readings, films viewings, and class discussions focus on specific historical events, such as World War I, World War II, the Holocaust, the Cold War, and Post colonialism, in relation to specific cultural movements, such as expressionism, futurism, surrealism, and existentialism, that have contributed to Europe’s identity formation.
Attributes: FinePerformingArts(Discovery); Writing Intensive Course
Equivalent(s): ARTS #487H

ARTS #487H - Honors/Twentieth Century Europe
Credits: 4
This course examines the extraordinary transformations that have swept across Europe in the past century in relation to their impact on art, architecture, photography, film, theatre, and literature. The course structure reflects the interdisciplinary quality of the field of cultural studies in that we examine a range of issues that challenge traditional departmental boundaries. Readings, films viewings, and class discussions focus on specific historical events, such as World War I, World War II, the Holocaust, the Cold War, and Post colonialism, in relation to specific cultural movements, such as expressionism, futurism, surrealism, and existentialism, that have contributed to Europe’s identity formation. Writing intensive.
Attributes: FinePerformingArts(Discovery); Writing Intensive Course
Equivalent(s): ARTS #487

ARTS 501 - Introductory Ceramics
Credits: 4
Theory and practice of basic ceramics; includes all methods of basic construction, decoration, glazing, and kiln firing. Emphasis on each individual’s perceptual development. Special fee. Lab.

ARTS 510 - Principles of Design
Credits: 4
An introduction to the principles of design. Students will explore the foundational elements and processes of design principles found in the development of the fine and commercial arts. Lectures will explore the history of design concepts and movements, while studio/lab sessions will enable students to develop their own projects and animation designs. Students will develop basic proficiencies in design software programs.
Equivalent(s): ARTS 401
ARTS 525 - Introductory Woodworking
Credits: 4
This course introduces students to the process of designing and building furniture with wood as the primary material. Students think creatively to brainstorm and develop their own, individual designs and use a variety of hand tools, power tools, and machines to build their objects. This course is a prerequisite to upper level woodworking and furniture design workshop courses, which subsequently investigate more sophisticated furniture concepts and woodworking techniques. Special fee. Lab.
Attributes: FinePerformingArts(Discovery)

ARTS 532 - Introductory Drawing
Credits: 4
This course is an introduction to the basic principles of studio drawing. Students work towards mastering the technical skills to produce drawings from observation, a working knowledge of the historical time line in drawing, and insight into the complexities of the creative process. A variety of materials are explored, pencil, charcoal, ink and collage. Art historical and contemporary drawing practices are shown in lectures and books to amplify the concepts introduced in the daily studio work. Special fee.
Attributes: FinePerformingArts(Discovery)
Equivalent(s): ARTS 532H

ARTS 532H - Honors/Introductory Drawing
Credits: 4
This course is an introduction to the basic principles of studio drawing. Students work towards mastering the technical skills to produce drawings from observation, a working knowledge of the historical time line in drawing, and insight into the complexities of the creative process. A variety of materials are explored, pencil, charcoal, ink and collage. Art historical and contemporary drawing practices are shown in lectures and books to amplify the concepts introduced in the daily studio work. Special fee.
Attributes: FinePerformingArts(Discovery)
Equivalent(s): ARTS 532

ARTS 536 - Introduction Printmaking: Intaglio
Credits: 4
Study of intaglio printmaking techniques, including etching, dry point, and engraving. Prereq: ARTS 532 or permission. Special fee. Lab.

ARTS #537 - Introduction to Printmaking: Lithography
Credits: 4
Study of lithographic processes on stone and aluminum plate. Prereq: ARTS 532 or permission. Special fee. Lab.

ARTS 546 - Painting Design I: Perceptual Painting and Color Theory
Credits: 4
Color is the central formal issue in painting. This course explores in some detail all basic aspects of color, introducing color terms and examining the meaning of color contrast. Students become familiar with the color wheel and perform color-mixing assignments. Ideas about color are related to paintings done in class based on a variety of subjects. Students receive training on the essential vocabulary of color (as well as materials, techniques, etc.). Lectures on great colorist, critiques and outside assignments are also featured as part of the studio routine of this course. Prereq: ARTS 532 Introductory Drawing. Special fee.

ARTS 551 - Introduction to Darkroom Photography
Credits: 4
This studio course introduces the fundamentals of photographic practice. Students learn technical aspects of exposure, developing and printing in the darkroom as they explore and respond to the visual qualities of the medium. The format includes class demonstrations, lab work, field assignments and critiques. Manual 35mm film camera will be provided. Special fee.

ARTS 552 - Introductory Digital Photography
Credits: 4
Introduction to the basic principles and applications of digital photography. The philosophical and technical relationship between camera and computer is an integral part of today's digital literacy needs. Techniques learned correspond to traditional darkroom processes and include creative shooting, editing and image manipulation. The students uses new skills and techniques towards developing a unique artistic vision. Digital camera required (point and shoot or DSLR). Special fee.
Attributes: Environment, TechSociety(Disc)

ARTS 557 - Introductory Sculpture
Credits: 4
Introduces the beginning student to the theory and practice of designing three-dimensional compositions using a series of progressive assignments. The student develops a practical understanding of sculptural elements, including line, form, space, mass, and plane. Multiple materials are explored including clay, plaster, wire and wood. This course is a prerequisite to upper level sculpture workshop courses, which subsequently focus on in-depth investigations of a particular sculptural material. Special fee.

ARTS 574 - Introduction to Architectural History
Credits: 4
Survey of representative buildings from the entire history of architecture with analysis of structure, form, and symbolic content, concentrating on major works such as the pyramids, the Roman Pantheon, the Gothic cathedral, the Renaissance palace, the Baroque church, and the modern skyscraper. In addition to the overarching narrative of architectural history, further topics include materials and building technologies, design theories, aesthetic principles, and the role of the architect in society.
Attributes: Historical Perspectives(Disc)
Equivalent(s): ARTS 485, ARTS 574W

ARTS 592 - Photography's Brave New Worlds
Credits: 4
Today, we are bombarded by photographs on the Internet, Facebook, Twitter, and Instagram. Indeed, digital photographs seem to have created a "brave new world." However, throughout its history, photography's artistic innovations, technological developments, and creative new uses have transformed the ways in which we navigate the world. This course focuses on photography's game-changing impact on art, science, social reform, popular culture, globalization, and war propaganda from 1839 to the present.
Attributes: Historical Perspectives(Disc)
Equivalent(s): ARTS 692

ARTS 596 - Special Topics in Studio Art
Credits: 4
Introductory level topics to be announced before registration. Topics can be either a lecture or studio course. May be repeated with different topics. Repeat Rule: May be repeated for a maximum of 12 credits.
ARTS 598 - An Artist's Life
Credits: 4
This course looks at the visual arts from the standpoint of artists. Biographies of artists and their environments are emphasized. Studio methods, professional activities, and ideas of historical and contemporary artists are also studied. The semester includes readings, discussions, and field trips. The course encourages students to develop ideas about the relationship of the visual arts to other disciplines in fine arts, literature and the sciences.
Attributes: Inquiry (Discovery)

ARTS 600 - Internship
Credits: 1-4
Election to take an internship in the following areas within the Department of Art and Art History: (600A) Painting, Drawing, Printmaking, Photography, Sculpture, Woodworking, Ceramics, and Graphic Design; (600B) Art History; (600C) Architecture; and (600D) Museum Work. Cannot be used to satisfy one of the three electives in the Studio B.F.A. Program and one of the two electives in the Studio B.A. Program. In art history, it can be taken as an elective above the 11-course major requirement. May be repeated up to 8 credits. Prereq: permission.
Repeat Rule: May be repeated for a maximum of 8 credits.

ARTS 601 - Ceramics Workshop
Credits: 4
Application of new ceramic materials and techniques, with emphasis on ideas and their expression through form and content. Experimentation encouraged. Specific focus to be announced each semester. Prereq: ARTS 501. Special fee. Lab.
Repeat Rule: May be repeated for a maximum of 16 credits.
Equivalent(s): ARTS 502

ARTS 610 - Principles of Typography
Credits: 4
Introduction to the principles of typography. Students will explore the foundational elements and processes of typographic principles used in graphic design and publishing. Lectures will explore the history of typographic concepts and movements, while studio/lab sessions will enable students to develop their own projects and typographic designs. Students will develop basic proficiencies in design software programs.

ARTS 612 - Interaction & Game Design
Credits: 4
This course is an exploration of the principles of interaction design as they relate to physical and digital space, with a focus on designing user-centered artifacts, games, and experiences. Theoretical concepts like ethnography, user-testing, and the use of mapping in design will be explored. We will also examine the landscape of technology as it relates to interaction, and the use of appropriate tools and software to create prototypes and functioning digital designs.

ARTS 625 - Wood/Furniture Design Workshop
Credits: 4
In this studio course students learn how to design and build furniture and non-functional objects using a variety of techniques, hand tools, and machines. Emphasis is on challenging and exploring creativity to examine preconceived ideas about what furniture forms should look like while developing a solid understanding of various techniques. Prereq: ARTS 525 Introductory Woodworking. Special fee.
Repeat Rule: May be repeated for a maximum of 16 credits.

ARTS 632 - Intermediate Drawing
Credits: 4
Intermediate Drawing reinforces and builds upon skills developed in Introductory Drawing. Strong emphasis is given to resolving spatial relationships and composition (examination of 2D and 3D space). Line as abstraction, gesture, tonal development, perspective, and drawing from the human figure are important topics of this course. Materials such as graphite, charcoal, ink, and mixed media are covered, as well as the use of different papers. Outside assignments and class critiques play an expanded role. Prereq: ARTS 532 Introductory Drawing. Special fee.

ARTS 633 - Life Drawing
Credits: 4
A continuation of the more formal aesthetic issues introduced in introductory and intermediate drawing with an emphasis on drawing the human figure from life. Prereq: ARTS 532 Introductory Drawing. Lab. Special fee.

ARTS 636 - Printmaking Workshop
Credits: 4
Emphasis on development of the individual’s imagery in lithography and/or intaglio, including an introduction to multicolor printmaking. May be repeated for a maximum of 12 credits. Prereq: ARTS 536 and/or ARTS #537. Lab.
Repeat Rule: May be repeated for a maximum of 12 credits.

ARTS #645 - Water Media
Credits: 4
This course is an introduction to water media; watercolor, gouache, egg tempera, and ink. The students explore the technical and expressive properties of each of these materials. Because water mediums are unique in their portability and adaptability to a variety of environments, the students travel outside of the studio classroom to paint in the UNH greenhouses, insect collection room and in the surrounding landscape. Students must have completed ARTS 546 Introductory Painting. Course may be taken a second time to explore the medium at a higher level. Special fee.
Repeat Rule: May be repeated for a maximum of 8 credits.

ARTS 646 - Painting Design II: Perceptual Painting and the Individual Artist’s Vision
Credits: 4
Students paint in class and begin to consider the character of their own work as artists. Themes related to color development are explored further. Teachers of this course help students understand the stylistic attributes of great artists/mentors. Lectures, demonstrations, outside assignments, and class critiques continue to augment the daily regime of class painting. Other painting media besides oil paint (acrylic, water media) may be featured in the class. Prereq: ARTS 546 Painting and Color Theory. Special fee.
Repeat Rule: May be repeated for a maximum of 8 credits.

ARTS 651 - Photography Workshop
Credits: 4
Individualized projects involving creative methods, including color, manipulative, and documentary techniques. Students provide their own cameras. Prereq: ARTS 551 Photography: Darkroom AND ARTS 552 Digital Photography. Lab. Special fee.
Repeat Rule: May be repeated for a maximum of 16 credits.
ARTS 654 - 17th and 18th Century American Architecture
Credits: 4
Chief architectural styles and significant buildings from the European colonization to the birth of the American republic. A study of religious, public, and domestic architecture and of the settlement patterns of the Spanish, French, Dutch, and English colonies, culminating in the revolutionary classicism of the new republic. Typical works include the California mission church, the New Orleans raised cottage, the Dutch farm house of the Hudson Valley, the plantations of Virginia, and the Boston State House. Field trips. Prereq: one 400- or 500-level art history course. Writing intensive.
Attributes: Writing Intensive Course

ARTS 655 - Nineteenth-Century Architecture: The Architecture of Empire
Credits: 4
Architectural concepts and significant buildings in Europe and America from the Revolutions of the late eighteenth century to the First World War; this course covers religious, civic, commercial, and domestic theories of architecture as well as town planning and urban design during the rise of the modern nation-state and market capitalism. Connections between social and architectural history will be emphasized. Prereq: one 400- or 500-level art history course or permission of the instructor. Writing intensive.
Attributes: Writing Intensive Course

ARTS 656 - Twentieth-Century Architecture: Modern and Contemporary
Credits: 4
From the turn of the century to recent commissions of living architects, this course provides a global view of twentieth-century architecture, covering the major movements along with more radical engagements with architecture. Important formal, technological, and theoretical debates surrounding Modernism will lead to consideration of Post-Modernity and contemporary values of architectural design. Connections between social and architectural history will be emphasized. Prereq: one 400- or 500-level art history course or permission of the instructor. Writing intensive.
Attributes: Writing Intensive Course

ARTS 667 - Sculpture Workshop
Credits: 4
Design and production of sculpture focusing on various materials and techniques and how they relate to composition and content. Emphasis on understanding visual language while developing an individual style. Prereq: ARTS 567. Special fee. Lab.
Repeat Rule: May be repeated for a maximum of 12 credits.

ARTS 674 - Greek Art and Architecture
Credits: 4
Ancient Greece has long been a source of emulation and inspiration. From the legendary Bronze Age palaces of Mycenae and Knossos, through the classical ideals of the city state and its ultimate diffusion through Alexander the Great, this course explores ancient Greek culture through the lens of its surviving art and architecture. We will visit the great temples, urban centers, monuments, buildings, statuary, luxury and everyday objects that Greek society produced as a reflection of its ideals. At the same time, we will consider the legacy of Greek material culture by looking at issues such as cultural heritage, the trade in antiquities, and the adoption of Greek forms in our modern world. Prereq: one 400- or 500-level art history course. Writing intensive.
Attributes: Writing Intensive Course

ARTS 675 - Roman Art and Architecture
Credits: 4
Rome: what started as a handful of huts overlooking the Tiber River would grow into a vast empire spanning the Mediterranean Sea. Roman society would create vibrant and complex works of art and architecture that drew inspiration from the variety of ancient cultures it encompassed. Starting in the 9th century BCE and ending with Constantine, the first Christian emperor in the 4th century CE, this course will survey the artistic and architectural achievements of ancient Rome. We will examine public and domestic architecture, as well as funerary art, painting, portraiture and sculpture in their ancient and modern contexts. Our aim is to understand the development of Roman culture and consider its legacy in the modern world. Prereq: one 400- or 500-level art history course. Writing intensive.
Attributes: Writing Intensive Course

ARTS 677 - Early Medieval Art
Credits: 4
Development of Christian art from 300 to 1000 A.D. Study of the formulation of a new visual language via the intersection of Mediterranean and northern European traditions. Major focus on early Christian catacombs, Byzantine mosaics, insular manuscripts, and Carolingian imperial art. Prereq: one 400- or 500-level art history course. Writing intensive.
Attributes: Writing Intensive Course

ARTS 678 - Romanesque and Gothic Art
Credits: 4
From the fall of the Roman Empire to the fourteenth century, through plague and destruction, glory and honor, heaven and hell, this course tackles the culmination of medieval artistic development, focusing especially on major architectural monuments and their sculptural programs. Treating also the art of tombs, relics, manuscripts, and devotional painting. Connections between social, religious, and art history are emphasized. Prereq: 400- or 500-level art history course or permission of the instructor. Writing intensive.
Attributes: Writing Intensive Course

ARTS 679 - Northern Renaissance Art I
Credits: 4
Painting, sculpture, graphic arts, and manuscript illumination in France, Germany, and the Netherlands in the 14th and 15th centuries. Emphasis on the development of the traditions of Northern naturalism and the emergence in 15th-century Flanders of a distinct Renaissance consciousness, which runs parallel to contemporary trends in Italy. Major figures include the Limbourg brothers, Claus Sluter, Jan van Eyck, and Hugo van der Goes. Prereq: one 400- or 500-level art history course. Writing intensive.
Attributes: Writing Intensive Course
ARTS 680 - Iconoclasm and Collecting: The Art of Early Modern Northern Europe
Credits: 4
The sixteenth century in northern Europe was a time of tumult, religiously, politically, and economically. We will study a formative early phase in the challenge to create an art during ideologically-fraught times (including amusing art), from Bosch's weird monsters to Bruegel's vast landscapes. Prints and drawings greatly expanded the market for art, its capabilities to explore new imagery, and its geographical reach. Lucas van Leyden, key predecessor of Rembrandt, Durer, an unusually well-traveled artist and ambitious to create an art theory for Germans, Holbein, one of whose portraits caused an international debacle, and Bruegel, who turns his back on traditional ambitions, were all valued for their works on paper as well as their paintings.
Attributes: Writing Intensive Course

ARTS 681 - Early Renaissance Art
Credits: 4
How did Europe recover from the Black Death in 1348? How was it possible for Florence to become the center of western creativity both before and after that catastrophe? How did Renaissance art develop elsewhere during the fourteenth and fifteenth centuries? What was "primitive" about Botticelli? Prereq: ARTS 400, 480, 500, or 574; or instructor permission. Writing intensive.
Attributes: Writing Intensive Course

ARTS 682 - The High Renaissance
Credits: 4
Examines the trajectory from Leonardo to the deaths of Michelangelo and Titian: painting, architecture, and works on paper. Prereq: ARTS 480, 500, or 574; or instructor permission. Writing intensive.
Attributes: Writing Intensive Course

ARTS 683 - Baroque Art
Credits: 4
The last period of Italian world prominence in the visual arts, the Baroque witnessed a shift of artistic power toward Spain, France, and the Netherlands. The private collecting of pictures, controversies over the legitimacy of religious images, the exploration of etching, pastels, and monotypes, and the serious pursuit of less augus subject matter for the visual arts all served to separate Baroque art from its esteemed predecessor, the Renaissance. Bernini, Borromini, Caravaggio, Velazquez, Rembrandt, Rubens, and Poussin are among the artists to be studied. One 400- or 500-level art history or permission of the instructor. Writing intensive.
Attributes: Writing Intensive Course

ARTS #684 - Baroque Art in Northern Europe
Credits: 4
Dutch and Flemish painting in the 17th century. Examination of such major figures as Rubens, Rembrandt, Van Dyck, and Vermeer. Attention is also given to the development of the genres and to the many little masters who practiced them. Prereq: one 400- or 500-level art history course. Writing intensive.
Attributes: Writing Intensive Course

ARTS 685 - Graphic Art of the Renaissance and Baroque Periods
Credits: 4
The availability of paper and the invention of the printing press made it possible for drawings and prints to become fundamental elements in the western artistic tradition. Prints have been called major instigators of the production of secular art and of overtly experimental art. They were the first art made with an elite but relatively broad class of collectors in mind, and— in different examples—the first art that could be owned even by the poor. Examination of anonymous works, works by artists famous only as printmakers, and the printed work by or after Mantegna, Durer, Lucas van Leyden, Raphael, Michaelangelo, Bruegel, and Rembrandt, as well as drawings of the period. Prereq: one 400- or 500-level art history course. Writing intensive.
Attributes: Writing Intensive Course

ARTS 686 - Eighteenth-Century European Art
Credits: 4
European art of the "long" eighteenth century (1680-1815) experienced radical shifts in aesthetic, social, and political orientation: from the splendors of absolutism to the austere neoclassicism of revolutionary art. This course explores painting and sculpture (and works in other media) in relation to the development of a public sphere, the emergence of individualism, the invention of personal domestic comfort, the introduction of women to artistic power, the scientific revolution, and the birth of global consumer culture. Prereq: one 400- or 500-level art history course. Writing intensive.
Attributes: Writing Intensive Course

ARTS 687 - Art and Modernity, From Revolution to World War II
Credits: 4
The "long nineteenth century" in Europe was a period of unprecedented artistic innovation. This course explores how visual artists responded to the massive social, political, and technological upheavals that shaped modern experience. Topics will include Romanticism's turn inward to the darker realms of the imagination (Goya, Blake); Realism and social reform (Courbet); Manet's "painting of modern life" in Paris; and the Impressionists' and Post-Impressionists' aesthetics of sensation and formal experiments with optical perception (Monet, Seurat).
Attributes: Writing Intensive Course

ARTS 688 - Histories of Late 19th & 20th Century European Modernism
Credits: 4
An examination of European and American art from Symbolism to Surrealism, from the 1890s to World War II. The course focuses on a series of topics related to the political, social, scientific, and artistic upheavals of the era. Among the topics to be considered are Gauguin and "Primitivism"; Picasso, Cubism, and film; the Bauhaus and Utopian Architecture; Modernist Photography; Surrealism and Freud; and the fate of art under Hitler and Stalin. Prereq: one 400- or 500-level art history course. Writing intensive.
Attributes: Writing Intensive Course

ARTS 689 - Contemporary Art and Theory, 1945-2000
Credits: 4
This course examines developments in the fine arts and art theory from 1945 to the present. Special emphasis will be on the issues of the construction of post war national/culture identities, the relationship between aesthetics and politics, and globalization, in relation to various artistic movements, including Action and Color Field Painting, Pop Art, Minimalism and Conceptual Art, Earthworks and Sited Sculpture, Feminist Art, and Digital Art.
Attributes: Writing Intensive Course
ARTS 693 - American Art
Credits: 4
A chronological survey of American painting and sculpture from the European colonization to the New York Armory Show of 1913, with emphasis on portraiture, narrative, still-life, and landscape painting. Examination of stylistic and thematic developments from the Puritan and Georgian New England portrait, the heroic narrative of the Revolutionary era, the romantic landscape to the realism of the post-Civil War era and the birth of modernism. Typical works include Copley's Portrait of Paul Revere, Cole's Course of Empire, Homer's Fog Warning, Cassatt's At the Opera, and Eakin's Max Schmitt in a Single Scull. Prereq: one 400- or 500-level art history course. Writing intensive.
Attributes: Writing Intensive Course

ARTS 694 - Vision and Modernity: From Panorama to Early Film
Credits: 4
The course examines the emergence of modern visual culture between the end of the 18th century and the beginning of the 20th century. It tracks the development of new technologies and conditions of viewing—from the panorama to photography to early cinema—and situates those developments in relation to larger social, intellectual, and cultural shifts in our conceptions of subjectivity, collectivity, and the mechanics of optical perception. The visual material at the center of our discussions will include nineteenth- and twentieth-century photographs, as well as paintings, prints, film, and other forms of visual entertainment and ephemera. Prereq: one 400- or 500-level art history course. Writing intensive.
Attributes: Writing Intensive Course

ARTS 695 - Special Topics in Art History
Credits: 4
Topics and prerequisites to be announced before registration. May be repeated with permission of the instructor. Lab.
Attributes: Writing Intensive Course
Repeat Rule: May be repeated up to 2 times.

ARTS 695I - Problems in Visual Arts/Italy
Credits: 4
Part of the ITAL 685 and ITAL 686 study abroad program held in Italy.

ARTS 696 - Special Topics in Studio Art
Credits: 4
Topics and prerequisites to be announced before registration. May be repeated with different topics.
Repeat Rule: May be repeated for a maximum of 12 credits.

ARTS 697 - Topics in Asian Art
Credits: 4
A thematic study of the major artistic achievements in India, China, and/or Japan from pre-history to the twentieth century. Works of art in various media, including painting, sculpture, ceramics, calligraphy, prints, architecture, and gardens, will be examined in relation to philosophical concepts and to their cultural/historical contexts. Prereq: one 400- or 500-level art history course or permission of the instructor.
Attributes: Writing Intensive Course
Repeat Rule: May be repeated for a maximum of 8 credits.
Equivalent(s): ARTS 597

ARTS #699 - Museum Studies
Credits: 4
Introduction to the history and practices of American museums, including their purposes, organization, interpretation, policies and practices. Use of the Art Gallery, with occasional visits to other museums and art conservators. This course may not be used by studio art majors and B.F.A. candidates to fulfill the art history requirement. Prereq: two courses in art history or permission. Writing intensive.
Attributes: Writing Intensive Course

ARTS 700H - Honors Seminar
Credits: 4 or 8
Requires successful completion of a written thesis supervised by two faculty advisers (one each from studio and art history faculty) to be reviewed by members of the department honors committee. The art history thesis will involve an original problem in art history and the studio art thesis will examine the student's own work. Honors students only.

ARTS 732 - Advanced Drawing
Credits: 4
Treatment of more complex compositional problems; application of a broader range of solutions to pictorial problems to reinforce and expand individual concepts of image and technique. Prereq: ARTS 632 Intermediate Drawing and ARTS 633 Life Drawing. Lab. Special fee.
Repeat Rule: May be repeated for a maximum of 12 credits.

ARTS 746 - Painting Design III: Perceptual Painting and Narrative Themes
Credits: 4
Daily class routine remains grounded in practical aspects of color development, technique, and formal mastery. Outside assignments begin to stress narrative motives in a variety of assignments that present the student with opportunities to explore ideas. A higher level of ambition is encouraged in the student/artist. Prereq: ARTS 646 Painting and the Artist's Vision (8 credits). Special fee.
Repeat Rule: May be repeated for a maximum of 12 credits.

ARTS 791 - Art Education (Elementary)
Credits: 4
Children's creative growth as revealed through their visual expression. Development of elementary art education programs with emphasis on objectives, methods, materials and techniques to foster creativity. Suggested prereq: EDUC 500.

ARTS 792 - Art Education (Secondary)
Credits: 4
The creative process in the visual arts in relation to the development and skills of middle and high school students in the public schools; mechanics of beginning and maintaining a secondary art program; exploring resources for art education programs on the secondary level. Suggested prereq: EDUC 500.

ARTS 795 - Understanding Art History: An In-depth Overview
Credits: 4
Art history is by its nature interdisciplinary, and so this course, while it is intended as the capstone for art history majors, also welcomes voices (and eyes) from other disciplines. We will look at a variety of case studies addressing works of art and architecture, and students will research their own topics, in an effort to understand better the strengths and weaknesses of art historical thought, both past and present. Prereq: at least one 600-level or above art history course or equivalent experience.
Attributes: Writing Intensive Course
Equivalent(s): ARTS 696
ARTS 796 - Independent Study in the Visual Arts
Credits: 1-8
A) Photography; B) Sculpture; C) Drawing; D) Painting; E) Printmaking; F) Water Media; G) Architectural Design; H) Curatorial Assistant; I) Painting in Italy; J) Ceramics; K) Wood Design; L) Art History. Open to highly qualified juniors and seniors who have completed the advanced level courses in the chosen medium. Prereq: permission of department chairperson and supervising faculty member or members. Special fee on some sections.
Repeat Rule: May be repeated for a maximum of 8 credits.

ARTS 798 - Seminar/Senior Thesis
Credits: 4-8
Readings and discussions oriented toward the intellectual premises of art. Culminates in mounting an exhibition of the student's work. Required of all students in the B.F.A program. Other advanced students may elect with instructor's permission. A year-long course; an IA grade (continuous course) will be given at the end of the first semester. Lab. B.F.A. majors must take 8 credits total. Special fee for Photography students.
Repeat Rule: May be repeated for a maximum of 8 credits.

ARTS 799 - Seminar in Art History
Credits: 4
Topics and prerequisites to be announced before registration. May be repeated with permission of instructor.
Attributes: Writing Intensive Course
Repeat Rule: May be repeated up to 1 time.
Equivalent(s): ARTS 698

**Athletic Training (AT)**

# Course numbers with the # symbol included (e.g. #400) have not been taught in the last 3 years.

AT 406 - Introduction to Athletic Training
Credits: 1
Introduction to the profession of athletic training. Past, present, and future of athletic training in the U.S. and Internationally. Components of the academic and experiential preparation of athletic trainers. Overview of the professional and personal attributes to be successful in a health care profession.
Equivalent(s): KIN 406

AT 506 - Concepts of Athletic Training
Credits: 4
Introduces techniques for prevention, recognition, treatment, and rehabilitation of common athletic injuries. Course is a prerequisite for beginning clinical experience in athletic training rooms for the athletic training professional. Prereq: BMS 507.
Co-requisite: AT 507
Equivalent(s): KIN 506

AT 507 - Concepts of Athletic Training Lab
Credits: 1
Theory and techniques of protective taping and wrapping to prevent common athletic injuries. Techniques of transfer and transportation of injured athletes. Identification of anatomical landmarks. Observation and practice in the University athletic training rooms. Special fee.
Co-requisite: AT 506
Equivalent(s): KIN 507

AT 658 - Evaluation and Care of Athletic Training Injury I
Credits: 4
Co-requisite: AT 658L
Attributes: Writing Intensive Course
Equivalent(s): KIN 658

AT 658L - Evaluation and Care of Athletic Training I Lab
Credits: 1
Techniques and practice for performing test and assessment procedures for athletic injuries. Prereq: AT 507.
Co-requisite: AT 658
Equivalent(s): KIN 658L

AT 659 - Evaluation and Care of Athletic Training II
Credits: 4
Prereq: AT 506; BMS 507 and BMS 508.
Co-requisite: AT 659L
Attributes: Writing Intensive Course
Equivalent(s): KIN 659

AT 659L - Evaluation and Care of Athletic Training II Lab
Credits: 1
Techniques and practice for performing test and assessment procedures for athletic injuries. Prereq: AT 507.
Co-requisite: AT 659
Equivalent(s): KIN 659L

AT 660 - Therapeutic Exercise in Athletic Training
Credits: 4
Co-requisite: AT 661
Equivalent(s): KIN 660

AT 661 - Therapeutic Exercise in Athletic Training Lab
Credits: 1
Students learn and practice psychomotor techniques associated with rehabilitative and conditioning exercise.
Co-requisite: AT 660
Equivalent(s): KIN 660

AT 662 - Therapeutic Modalities in Athletic Training
Credits: 4
Rationale, use, and application of therapeutic modalities in athletic injury rehabilitation. Principles of electrophysics and biophysics. Physiological effects on body tissues, indications and contraindications, and clinical applications. Prereq: AT 506; AT 507.
Co-requisite: AT 663
Equivalent(s): KIN 662

AT 663 - Therapeutic Modalities in Athletic Training Lab
Credits: 1
Students use and practice with the devices, machines, and techniques associated with the treatment and rehabilitation of athletic injuries.
Co-requisite: AT 662
Equivalent(s): KIN 663
AT 665 - Laboratory Practicum in Athletic Training
Credits: 2
Clinical experience in athletic training under the supervision of UNH approved clinical instructor. Special fees (sections A-E). 2 credits (per section - 5 sections total). AT 665A Prereq: AT 506 and AT 507. AT 665B Prereq: AT 658, and AT 662. AT 665C Prereq: AT 659 and AT 660. AT 665D Co- or Prereq: AT 710. AT 665E Prereq: AT 665D.
Repeat Rule: May be repeated for a maximum of 10 credits.
Equivalent(s): KIN 665

AT 667 - Pharmacology for Athletic Training
Credits: 2
Introduces the use of drugs as they pertain to the health care of athletes and their effect on athletic competition. Topics to be covered will include basic drug action, commonly prescribed medications, dealing with the diabetic and asthmatic athlete and performance enhancing substances. Prereq: junior or senior Standing.
Equivalent(s): KIN 667

AT 668 - Ergogenic Aids in Sports
Credits: 2
In sports, faster, higher, stronger, longer, and better is what everyone wants. Athletes and coaches seek out sports ergogenics that will give them a training and performance advantage over their competition. This course introduces the use of sports ergogenics and their use in athletic competition. Prereq: sophomore, junior or senior Standing.
Equivalent(s): KIN 668

AT 670 - General Medical Conditions in Athletics
Credits: 4
Athletes often sustain non-orthopedic pathologic conditions. An athletic trainer must be able to recognize, assess, and determine appropriate action or referral in an athlete suffering general or systemic illness or disease. Covers conditions affecting the major systems of the body. Prereq: EXSC 620.
Equivalent(s): KIN 670

AT 693 - Teaching Assistantship
Credits: 2
Students serve as teaching teaching assistants in assigned class activities. Assignments to be made by the class instructor may include teaching assistants' and administrative duties. May take two different sections. Cr/F.
Repeat Rule: May be repeated for a maximum of 4 credits.

AT 696 - Independent Study
Credits: 2-4
An advanced, individual scholarly project under the direct supervision of a faculty member. Prereq: junior or senior.
Repeat Rule: May be repeated for a maximum of 8 credits.

AT 696W - Independent Study
Credits: 2-4
An advanced, writing-intensive, individual scholarly project under the direct supervision of a faculty member. Student and Faculty Adviser will prepare a written proposal that outlines: the questions to be pursued, the methods of investigation, the student's qualifications to conduct the research, the nature of the finished written product (e.g. case study, position paper, extended lab report). This proposal must be approved by the major faculty and the department chair prior to the student's registration for AT 696 WI. All AT 696 WI projects must include: Some forms of informal, ungraded writing such as a journal, reading summaries, draft chapters, or invention activities. Regular writing interaction between student and faculty adviser (i.e. at least weekly or biweekly), to include written feedback from the adviser. A finished product that is polished via revision. Faculty sponsors and students should consult the resources and guidelines of the UNH Writing Program. Prereq: junior or senior; departmental approval.
Attributes: Writing Intensive Course
Repeat Rule: May be repeated for a maximum of 8 credits.

AT 699H - Honors Project
Credits: 4
Project first involves tutorial sessions to introduce the student to the experimental design, after which a research question is developed. After an appropriate literature review, the student collects and analyzes data, forms conclusions, and prepares a written report on the findings.

AT 710 - Organization and Administration of Athletic Training Programs
Credits: 4
Principles of organization and administration of athletic training programs; management of personnel; legal aspects; relation of athletic trainer to athletic programs and sports medicine team.
Attributes: Writing Intensive Course
Equivalent(s): KIN 710

AT 715 - Seminar in Athletic Training
Credits: 4
Career issues and special topics in athletic training. Students are required to submit and present a term project on assigned topic. Prereq: AT 665C.
Equivalent(s): KIN 715

AT 718 - Career Preparation in Athletic Training
Credits: 4
The last Athletic Training required course, and designated "Capstone Experience", this course is designed to provide the students with means to integrate and augment concepts, skills, and knowledge gained in all previous major course requirements. Students write an evidenced-based practice paper understanding and appreciating the role of evidence-based medicine in athletic training. Comprehensive practical exam. Prereq: AT 665, sections A-D. Athletic Training majors only.
Equivalent(s): KIN 718

Biochemistry, Molecular & Cellular Biology (BMCB)

#  Course numbers with the # symbol included (e.g. #400) have not been taught in the last 3 years.
BMCB 401 - Professional Perspectives in Biochemistry, Molecular and Cellular Biology
Credits: 1
Introduction to the fields of biochemistry, molecular and cellular biology. Explores professional opportunities for BMCB majors. Guest speakers from on- and off-campus present seminars and lead discussions on contemporary issues in subject area. Development of strategies for achieving professional goals. Cr/F.

BMCB 405 - Biotechnology Research Internship
Credits: 2
A 4-week (minimum) experiential learning internship in which students conduct independent laboratory-based research in an area of shared interest with a faculty mentor in the College of Life Sciences and Agriculture. Students gain first-hand experience conducting original research, incorporating direct observation, reflection, evaluation, and discussion. Permission required. Open to high school students only.

BMCB 501 - Biological Chemistry
Credits: 5
Survey of the molecular basis of life with a focus on the mechanisms of biochemical reactions in metabolic pathways, beginning with an overview of functional groups and organic reactions relevant for living organisms. Bioenergetics of carbohydrate, lipid, and nitrogen metabolic pathways. Prereq: CHEM 403 and CHEM 404, or CHEM 411. No credit earned if credit received for BMCB 658, or BMCB 751 and BMCB 752.
Equivalent(s): BMCB 658, BMCB 751, BMCB 752

BMCB 600 - Field Experience
Credits: 1-4
A supervised experience providing the opportunity to apply academic experience in settings associated with future professional employment and/or related graduate opportunities. Must be approved by a faculty advisor selected by the student. Permission required. Cr/F.
Repeat Rule: May be repeated for a maximum of 8 credits.
Equivalent(s): BCHM 600, BCHM 600W, BMCB 600W

BMCB 605 - Principles of Cell Biology
Credits: 4
Cell and developmental biology of multicellular eukaryotic organisms. Structure and function of major cellular compartments; mechanisms of cellular communication and dynamics; embryonic development. Special topics: subcellular organization and function; membrane biogenesis; signal transduction; mitogenesis; apoptosis; autophagy; tumor suppressors and cell cycle regulation; cytokinesis; cytoskeletal dynamics; cellular shape and motility; stem cell biology; organogenesis; morphogenesis and patterning. Prereq: BIOL 411 and BIOL 412; CHEM 403 and CHEM 404.
Equivalent(s): BIOL 605, BSCI 735

BMCB 658 - General Biochemistry
Credits: 3
Comprehensive, introductory course emphasizing the cellular metabolism and the structure and function of proteins, nucleic acids, carbohydrates, and lipids. Prereq: BIOL 411; CHEM 545 and CHEM 546, or CHEM 547 and CHEM 548, or CHEM 651 and CHEM 652. Coreq: BMCB 659.
Co-requisite: BMCB 659
Equivalent(s): BCHM 602, BCHM 656, BCHM 658

BMCB 659 - General Biochemistry Lab
Credits: 2
Structured laboratory experiments that provide training in analytical and preparative techniques fundamental to modern biochemistry and molecular biology. Coreq: BMCB 658. Special fee.
Co-requisite: BMCB 658
Equivalent(s): BCHM 659, BMCB 659W

BMCB 659W - General Biochemistry Lab
Credits: 2
Structured laboratory experiments that provide training in analytical and preparative techniques fundamental to modern biochemistry and molecular biology. Coreq: BMCB 658. Special fee. UNHM only. Writing intensive.
Co-requisite: BMCB 658
Attributes: Writing Intensive Course
Equivalent(s): BCHM 659, BMCB 659

BMCB 750 - Physical Biochemistry
Credits: 3
Structure, interactions, and physical-chemical properties of biomolecules. Thermodynamic, kinetic, and spectroscopic methods for the study of proteins and nucleic acids. Prereq: CHEM 547 and CHEM 549 and CHEM 548 and CHEM 550 or equivalent; MATH 424B or equivalent, or permission.
Equivalent(s): BCHM 750

BMCB 751 - Principles of Biochemistry
Credits: 4
In-depth survey of biochemistry: macromolecular structure; structure and function of proteins, nucleic acids, carbohydrates, and lipids; introduction to metabolic pathways. Prereq: CHEM 547 and CHEM 548, or CHEM 651 and CHEM 652; or permission.
Equivalent(s): BCHM 751

BMCB 752 - Principles of Biochemistry
Credits: 4
In-depth survey of biochemistry: metabolism of amino acids, nucleotides, carbohydrates and lipids; synthesis and regulation of macromolecules; molecular biology of the eukaryotic cell. Prereq: BMCB 751 or permission.
Equivalent(s): BCHM 752

BMCB 753 - Cell Culture
Credits: 5
Principles and technical skills fundamental to the culture of animal and plant cells, tissues, and organs. Introduction to the techniques of sub-culturing, establishing primary cultures, karyotyping, serum testing, cloning, growth curves, cryopreservation, hybridoma formation and monoclonal antibody production, and organ cultures. Application of cell culture to contemporary research in the biological sciences. Prereq: BMS 503 and 504. Special fee. Lab.
Equivalent(s): ANSC 751, MICR 751, PBIO 751

BMCB 754 - Molecular Biology Research Methods
Credits: 5
Theory and application of current technologies to manipulate DNA. Hands-on research experience that includes DNA isolation and quantitation methods, cloning, PCR, DNA sequencing, and analysis of gene products. Prereq: GEN 604. Special fee. Lab. Writing intensive.
Attributes: Writing Intensive Course
Equivalent(s): BCHM 754, BSCI #765, GEN 754, PBIO 754
BMCB 755 - Laboratory in Biochemistry and Molecular Biology  
Credits: 5  
Application of modern techniques to the characterization and purification of biomolecules, with an emphasis on proteins and nucleic acids. Analysis of enzyme kinetics and basic techniques used in molecular biology. Prereq: BMCB 751 or permission. Special fee. Writing intensive.  
Attributes: Writing Intensive Course  
Equivalent(s): BCHM 755, BSCI #765

BMCB 760 - Pharmacology  
Credits: 4  
Introduction to the basic principles and fundamental concepts of pharmacology, with a focus on molecular mechanisms and pathological basis of therapeutics and their curative effects. Topics include: foundations of pharmacology including pharmacodynamics and pharmacogenomics; drugs affecting other systems; chemotherapeutic drugs. No credit if credit earned for BSCI 680. Prereq: BMCB 658 or BMCB 751, or permission.  
Equivalent(s): BSCI 680

BMCB 763 - Biochemistry of Cancer  
Credits: 4  
Evaluation of the hallmarks of cancer, including molecular mechanisms of carcinogenesis, roles of oncogenes and dysregulated cell development, function and metabolism, tumor immunology, and the biological basis of cancer therapy. Prereq: BMCB 658 or BMCB 751 or permission.  
Equivalent(s): BCHM 763

BMCB #783 - Proteomics for Biological Discoveries  
Credits: 4  
Large-scale, high throughput study of proteins; characterization of entire set of proteins in a biological sample (proteome); quantification of changes in protein composition, interactions and post-translational modifications; major technology platforms; pharmaceutical and biomedical applications. Develop skills in processing samples from research projects; analysis of mass spectrometric data. Prereq: BMCB 658 or BMCB 751 or permission.  
Equivalent(s): BCHM 783

BMCB 790 - Undergraduate Teaching Experience  
Credits: 1-4  
Provide academic support to graduate teaching assistants or faculty in preparing, presenting, and executing Biochemistry, Molecular and Cellular Biology lectures or labs. Permission required.  
Repeat Rule: May be repeated for a maximum of 4 credits.

BMCB 794 - Protein Structure and Function  
Credits: 4  
Analysis of how the three-dimensional architecture of soluble and membrane proteins contributes to their biochemical function; methods for determining the structure of proteins; protein folding; protein targeting; mechanisms of enzyme catalysis. Computer resources used for protein modeling and structural prediction. Prereq: BMCB 658 or BMCB 751 or permission.  
Equivalent(s): BCHM 794

BMCB 795 - Investigations in Molecular and Cellular Biology  
Credits: 1-4  
Advanced research or scholarly projects developed and conducted under the supervision of a faculty member. Provides the opportunity to apply advanced knowledge and techniques of the major to a specific problem or question. Permission required.  
Repeat Rule: May be repeated for a maximum of 8 credits.  
Equivalent(s): BCHM 795, BCHM 795W, BMCB 795W

BMCB 795W - Investigations in Molecular and Cellular Biology  
Credits: 1-4  
Advanced research or scholarly projects developed and conducted under the supervision of a faculty member. Provides the opportunity to apply advanced knowledge and techniques of the major to a specific problem or question. Permission required.  
Attributes: Writing Intensive Course  
Repeat Rule: May be repeated for a maximum of 8 credits.  
Equivalent(s): BCHM 795, BCHM 795W, BMCB 795

BMCB 799 - Senior Thesis  
Credits: 1-4  
Independent research project under the direction of a faculty sponsor for seniors in biochemistry, molecular and cellular biology. Final product is a written thesis. One or two semesters. Permission required.  
Attributes: Writing Intensive Course  
Repeat Rule: May be repeated for a maximum of 8 credits.  
Equivalent(s): BCHM 699, BCHM 799, BCHM 799H, BMCB 799

BMCB 799H - Honors Senior Thesis  
Credits: 1-4  
Independent research project under the direction of a faculty sponsor for seniors in biochemistry, molecular and cellular biology and in the Honors Program. Final product is a written thesis. One or two semesters. Permission required.  
Attributes: Writing Intensive Course  
Repeat Rule: May be repeated for a maximum of 8 credits.  
Equivalent(s): BCHM 799, BCHM 799H, BMCB 799

Bioengineering (BENG)  

# Course numbers with the # symbol included (e.g. #400) have not been taught in the last 3 years.

BENG 725 - Cell Phenotyping and Tissue Engineering Laboratory  
Credits: 4  
Introduction to culture and phenotyping of mammalian cells (cell line models), with applications to bioengineering and biomedical sciences. Skills, techniques, and knowledge covered include sterile technique, cell culture, cell line models, cell proliferation, cell survival, cell migration, cell adhesion, and drug response. Inquiry-based team projects investigate cell proliferation, cell death, transfection, flow cytometry, 3D scaffolds, or cell imaging. Prereq: BMS 503/504 or permission.

BENG 755 - Computational Molecular Bioengineering  
Credits: 4  
Introduction to fundamental concepts in bioengineering with primary emphasis on understanding details of biomolecular structures integrated with molecular modeling, simulation, and visualization techniques. The course will introduce structural details of various biomolecules (proteins, nucleic-acids, sugars, and lipids), followed by concepts in thermodynamics and physical chemistry (such as intermolecular forces, energy, entropy, chemical potential, and Boltzmann's distribution), the applications of which will be discussed in the context of drug-receptor interactions, molecular recognition, biomolecular folding, enzyme catalysis, allosteric communication, diffusion, and transport. The laboratory will include training and learning about advanced simulation and visualization software engines. Preference will be given to bioengineering majors.
BENG 762 - Biomedical Engineering  
Credits: 4  
Overview of the biomedical engineering through topical studies such as drug delivery and sensors. Discussion of modern engineering methods through primary research sources. Prereq: differential equations and statistics. Writing intensive.  
Attributes: Writing Intensive Course  
Equivalent(s): CHE 762

BENG 763 - Bioengineering Design I  
Credits: 2  
Bioengineering design course will cover safety, regulations and ethics for development of bioengineering devices and processes. Topics include product design, benchmarks, design team functioning, marketing and finances. Students will also learn about current Good Manufacturing Practices, process validation and intellectual property considerations. Students will produce the following documents during the course: preliminary design, materials and supplies list, project schedule and budget, innovation map, FDA approval plan.  
Attributes: Writing Intensive Course

BENG 764 - Bioengineering Design II  
Credits: 4  
Team based laboratory course focuses on developing the project planned in BENG 763. Major report is due at mid-semester after first prototype is completed. A second report is due at the end of the semester to indicate improvements on initial design. Writing intensive.  
Attributes: Writing Intensive Course

BENG 766 - Biomaterials  
Credits: 4  
Fundamental principles of biology and material science, along with latest topics in biomaterials research. Topics include cell biology, wound healing, host response to foreign materials, polymers, hydrogels, diffusion and methods of material characterization. Specific medical applications of biomaterials such as orthopedic and dental implants, heart valves, artificial blood vessels, cochlear and ophthalmic implants and tissue engineering. Laboratory. Students are expected to have some background in chemistry, mathematics, and high school biology. Also listed as CHE 766.  
Equivalent(s): CHE 766

Biological Science (BSCI)  

# Course numbers with the # symbol included (e.g. #400) have not been taught in the last 3 years.

BSCI 405 - Diversity of Life  
Credits: 4  
Survey of ecology, evolution, genetics, and the diversity of life. Emphasis on basic biological principles. For non-biological science majors. Lecture and lab. Cannot be taken for credit after completion of BIOL 411, BIOL 413, or equivalent. No credit for students who have completed BIOL 405. Special fee. Lab.  
Attributes: Biological Science(Discovery); Discovery Lab Course  
Equivalent(s): BIOL 405

BSCI 406 - Human Organism  
Credits: 4  
Survey of biological chemistry, molecular and cell biology, and major plant and animal systems. Emphasis on basic biological principles. For non-biological science majors. Lecture and Lab. Cannot be taken for credit after completion of BIOL 412, BIOL 414, or equivalent. No credit for students who have completed BIOL 406. Special fee. Lab.  
Attributes: Biological Science(Discovery); Discovery Lab Course  
Equivalent(s): BIOL 406

BSCI 410 - Contemporary Health Issues  
Credits: 4  
This course exposes students to the three major dimensions of health - physical, emotional, and social. Nutrition, infectious diseases, substance abuse and addiction, mental health, sexual health, aging and stress management are among the issues that will be discussed. Students will learn to intelligently relate health knowledge to the social issues of the day.  
Attributes: Biological Science(Discovery)

BSCI 415 - Millyard Scholar Academic Skills and Planning Seminar  
Credits: 2  
Through in-class activities, workshops and guest speakers, students in the Millyard Scholars Program will explore career paths, and develop resources and skills for academic success. All student work, planning and experiences will be showcased in a digital portfolio.

BSCI 418 - Phage Bioinformatics Lab  
Credits: 2  
In the course, students undertake a hands-on undergraduate research experience to describe, document, and publish the discovery of new bacteriophages (bacterial viruses). In doing so, students will elucidate how the genome codes biological information. The aim of the course is for students to develop further research and computational analysis skills while preparing to publish their scientific discoveries. The course will focus on research data analysis and presentation of research data to scientists and the public. Permission required.

BSCI 421 - Diseases of the 21st Century  
Credits: 4  
Provides a basic understanding of several different diseases that may be prevalent over the next century. Treatment and prevention of the disease are also discussed. Students will acquire a basic understanding of the research methodologies underlying several fields within the biological sciences, such as microbiology, immunology, and molecular biology. Agents of biological warfare are also discussed. Prereq: ENGL 401.  
Attributes: Biological Science(Discovery)  
Equivalent(s): UMS 599G

BSCI 422 - Biotechnology and Society  
Credits: 4  
Provides a basic understanding of genetic engineering. Techniques discussed include cloning, gene transfer, the Polymerase chain reaction (PCR), in vitro fertilization, organ transplants, and paternity testing. Ethical issues involved with each technological advance are examined.  
Attributes: Biological Science(Discovery)  
Equivalent(s): BIOL 404, BIOL 444A

BSCI 432 - Medical Terminology  
Credits: 2  
This course is an introduction to medical terminology. The origin, roots, prefixes and suffixes of common scientific and medical terms are examined. Course is totally online and includes assigned online interactive material. Appropriate for biology majors, prePA, premed, and other interested majors.
BSCI 450 - The Small Microbial World
Credits: 4
An introduction to the invisible world of microbes and microorganisms and their impact on human life and ecosystems. Laboratory will be an opportunity for science and non-science students to learn the scientific method while they participate in citizen or crowdsourced science and contribute to scientific knowledge. Vaccines, antibiotics, and other topics will be presented. Special fee.
Attributes: Biological Science(Discovery); Discovery Lab Course

BSCI 501 - Ethical Issues in Biology
Credits: 4
This course is an introduction to the ethical issues associated with current and future use of biotechnology. Students will think critically about different ethical problems that emerge from scientific research and its applications to medical technology. The focus will be on personal and public policy decision making. Prereq: BIOL 413 and 414 or BIOL 411 and BIOL 412. Writing intensive.
Attributes: Writing Intensive Course
Equivalent(s): BIOL 404

BSCI 502 - Intro to Biotech Manufacturing
Credits: 4
Introduction to the terminology and practices of the biotechnology industry, with an emphasis on the business, regulatory, legal, and basic scientific underpinnings of modern biotechnology in the commercial and government sectors.

BSCI 510 - Introduction to Biofabrication
Credits: 4
This project-based course introduces students to the techniques and challenges of biofabrication. Students learn how additive manufacturing is used to combine cells with a variety of biolinks to create living tissues such as skin, cartilage, vascularized bone, and blood vessels. During this process students learn how to design for and operate 3D printing and bioprinting equipment. An emphasis will be placed on the ways in which this emerging technology impacts our society.

BSCI 599 - Special Topics in Biology
Credits: 1-4
This course explores and investigates topics in biology that would not normally be covered in other courses in the curriculum.
Repeat Rule: May be repeated for a maximum of 12 credits.

BSCI 620 - Global Science Exploration
Credits: 4
This course includes a spring break trip abroad investigating living organisms in their natural habitat. Students will participate in pre-trip seminars on the country, local flora, fauna and habitats they will visit. Students will design a project to integrate their personal interests and objections with in-country investigation. Post-trip seminar will focus on preparation of project and its presentation. Prereq: BIOL 413 and 414, or BIOL 411 and 412. Permission required. May be repeated if the spring break trip is to a different country.
Attributes: Writing Intensive Course
Repeat Rule: May be repeated for a maximum of 8 credits.

BSCI 670 - Clinical Pathophysiology
Credits: 4
This course covers the principles and mechanisms of disease at the cellular, tissue, organ, and system levels, including responses to cell injury, death and adaptation, and inflammation. Acute and chronic disease processes as well as trauma are used to both understand the impact of these processes on body function as well as a means to gain a better understanding of integrative body systems. No credit if credit earned for BMS 794 or UMST 599 Clinical Pathophysiology. Prereq: BIOL 413 and BIOL 414 or BMS 507 and BMS 508.
Equivalent(s): BMS 704

BSCI 680 - Pharmacology
Credits: 4
This course is designed to cover the concepts of basic pharmacology and drug therapy. It includes examination of the body systems and the related drugs therapy within each system. It explores the basic drug groups, key similarities and differences among drugs in each group. Emphasis is placed on the mechanism of action for each group and how these medications act in relation to normative and pathophysiology. The therapeutic use and adverse effects of drugs as well as understanding recreational drug use will be included. No credit if credit received for UMST 599 Pharmacology. Prereq: BIOL 413 and BIOL 414 or BMS 507 and BMS 508.

BSCI 692 - Evolutionary Medicine
Credits: 4
This course introduces the theory of evolution by natural selection and the influence of evolutionary theory on our understanding of the cause and treatment of human disease. Topics covered include evolutionary theory, natural selection, human evolution, pathogen evolution, evolutionary mismatch, and the evolution of aging, cancer, and reproduction. Prereq: GEN 604 or permission of the instructor. Writing intensive.
Attributes: Writing Intensive Course

BSCI 695 - Exploring Biology Teaching
Credits: 1-4
Students assist in teaching labs in undergraduate courses supervised by the lab coordinator/instructor. Responsibilities include facilitating lab endeavors, giving a presentation, and writing a report. Prereq: permission.
Repeat Rule: May be repeated for a maximum of 4 credits.
Equivalent(s): BIOL 695

BSCI 701 - Senior Seminar I
Credits: 1
To be taken during the last two semesters of the senior year as students complete their Capstone project. Course emphasizes written and oral communication, discussion of current topics in biology, and career guidance. Fall and spring semester. Cr/F.

BSCI 702 - Senior Seminar II
Credits: 1
To be taken during the last two semesters of the senior year as students complete their Capstone project. Course emphasizes written and oral communication, discussion of current topics in biology, and career guidance. Fall and spring semester. Cr/F.
BSCI 735 - Cell Biology
Credits: 4
This course is an upper level biology class that expands on the basic knowledge of cellular structure and function. The focus is on molecular biology and cell signaling. Experiments by preeminent scientists are explored and analyzed. Prereq: BIOL 413 and BIOL 414, CHEM 403 and CHEM 404, or equivalent.
Equivalent(s): BMCB 605

BSCI 737 - Microbial Genomics
Credits: 4
Microbial genomics (primarily bacteria and bacteriophages) and genome-scale approaches to addressing questions in microbial physiology and pathogenesis are the focus of the course. Large-scale sequencing projects, genome structure and evolution, metagenomics, and other challenges in comparative genomics are discussed. Hands-on wet laboratory and bioinformatics projects are included in this laboratory-lecture course. Prereq: GEN 604, BMS 503 and BMS 504. Special fee.

BSCI 740 - Aquatic Microbiology
Credits: 4
Lectures and labs focus on Lake Massabesic and its use as the source of supply as the drinking water for approximately 160,000 New Hampshire residents. The course covers a basic history of the Lake, the importance of watershed protection, EPA regulations, and standards and the various techniques and methods available to analyze water for basic quality. No credit for students who have earned credit for UMST 599 Aquatic Microbiology. Prereq: BMS 503 and BMS 504. Permission. Special fee. Writing intensive.
Attributes: Writing Intensive Course

BSCI 747 - Industrial Microbiology and Fermentation
Credits: 4
Production of biologics and food by the biotechnology and agribusiness industries is the major focus of this course. Development of procedures for fermentation and bioprocessing, from proof of concept through scale-up stages will be emphasized, utilizing both theory and quantitative understanding as well as hands-on wet lab experience with modern bioprocessing equipment. Troubleshooting, safety, and QC considerations will be addressed. Prereq: BMS 503, BMS 504. Special fee.
Equivalent(s): BSCI 606

BSCI 750 - Cancer Biology: From Benchtop Research to Therapeutic Interventions
Credits: 4
The development and progression of cancer can be defined by several molecular and cellular biological characteristics. In this course, we will utilize primary literature to begin to understand (1) how specific cellular processes are altered during cancer initiation and progression; (2) how different cancers and the genetic landscape underlying them are being studies using models in the laboratory; and (3) how innovative therapeutics are being designed to target tumors based upon their individual molecular signatures. Prereq: GEN 604. Writing intensive.
Attributes: Writing Intensive Course

BSCI #765 - Nucleic Acid Techniques
Credits: 4
Laboratory course focused on application of molecular biology techniques for the extraction, detection, and use of nucleic acids. Emphasis is on recombinant DNA cloning and bioengineering techniques in biotechnology. Special fee. Prereq: GEN 604, BMCB 658/659. No credit for students who have received credit for BMCB 754, BMCB 755, BMS 650, or BMS 714.
Equivalent(s): BMCB 754, BMCB 755, BMS 650, BMS 714

BSCI 766 - Protein and Immunologic Techniques
Credits: 4
Laboratory course focused on application of molecular biology techniques for the isolation, quantitation, detection, analysis, and use of proteins. Substantial emphasis on the use of immunassays and antibodies in protein work. Modern proteomics techniques are also discussed. Emphasis on recombinant protein expression in the field of biotechnology. Prereq: GEN 604, BMCB 658. Credit cannot be received if credit received for BMS 650, BMS 714, BMS 715. Special fee.
Equivalent(s): BMS 650, BMS 714, BMS 715

BSCI 777 - Molecular Biology and Biotechnology
Credits: 5
The organization, expression, and control of RNA and protein-coding genes in prokaryotic and eukaryotic cells. The focus of the course is on mechanisms of genetics at the molecular level and the application of modern techniques to laboratory biotechnology projects. Prereq: GEN 604. Special fee.

BSCI 792 - Research
Credits: 1-4
Advanced independent research under the direction of a faculty mentor. Content area to be determined in consultation with faculty member. Prereq: permission. Up to 4 credits may be applied to self-designed concentration. Up to 4 credits may be applied to the Capstone requirement. Fall and spring semester. Prereq: Permission of Faculty mentor. Cr/F.
Repeat Rule: May be repeated for a maximum of 8 credits.

BSCI 793 - Internship
Credits: 1-4
Field-based learning opportunities in the biological sciences through placement in the appropriate outside agency, under the direction of a faculty mentor and representative of outside agency. Content area to be determined in consultation with faculty mentor. Prereq: Permission. Up to 4 credits may be applied to self-designed concentration. Up to 4 credits may be applied to the Capstone requirement. Fall and spring semester. Cr/F.
Repeat Rule: May be repeated for a maximum of 8 credits.

BSCI 794 - Clinical Microbiology Internship
Credits: 4
Advanced instruction in clinical bacteriology, mycology, parasitology, and/or virology at a local hospital or reference laboratory. Isolation, identification, determination of antibiotic sensitivities, and modern advanced testing for common pathogens are emphasized. Prereq: BMS 602 and permission of instructor.
Equivalent(s): BMS 751, BMS 761

BSCI 795 - Independent Study
Credits: 1-4
Advanced individual study under the direction of a faculty mentor. Content area to be determined in consultation with faculty mentor. Prereq: permission. Up to 4 credits may be applied to self-designed concentration. Up to 4 credits may be applied to the Capstone requirement. Fall and spring semester. Cr/F.
Repeat Rule: May be repeated for a maximum of 8 credits.

Biology (BIOL)

# Course numbers with the # symbol included (e.g. #400) have not been taught in the last 3 years.
BIOL 400 - Professional Perspectives on Biology  
**Credits:** 1  
Where can a degree in biology take me? This course views the scope of biology and explores professional opportunities for biological science majors. Guest speakers from on- and off-campus present seminars and lead discussions on contemporary issues in biology. This course will help you learn the skills required to succeed in biology and develop strategies for college success. Today, the field is multidimensional, offering many career opportunities for the future. Required for all first semester biology majors. Cr/F.

BIOL 402 - Biology in our Daily Lives  
**Credits:** 4  
Students will learn about the nature and practice of science as it relates to biology, and the ways in which our activities have a biological impact on the world around us. Throughout the course, the students will examine the biological messages with which we are constantly bombarded, and by linking background scientific principles to those messages, practice distinguishing science from pseudoscience.  
**Attributes:** Biological Science(Discovery)

BIOL 408 - Plants and Civilization  
**Credits:** 4  
Global experience of human interactions with plants, and the ways in which plants have contributed to the development and the flourishing of human societies. Includes role of plants in providing sustenance, clothing and shelter, quest for spices, the historical consequences of plant explorations and exploitations, the power to heal or kill, plants in mythology and spiritual endeavors, plants that alter consciousness, plant diseases and human history, plants as energy for society, and the Green Revolution in global change and feeding the world in the future. Special Fee.  
**Attributes:** Biological Science(Discovery); Discovery Lab Course  
**Equivalent(s):** PBIO 400

BIOL 409 - Green Life: Introducing the Botanical Sciences  
**Credits:** 4  
All human and other animal life on earth depends upon green life: i.e., the plant world. In its diverse forms, green life is the ultimate source of our food, and of the atmospheric breath of life: oxygen. This course explores the structure, function, growth, reproduction, and remarkable evolutionary diversity of plants in their natural and human-influenced environments. Special Fee. Lab.  
**Attributes:** Biological Science(Discovery); Discovery Lab Course  
**Equivalent(s):** PBIO 400

BIOL 410 - Principles of Molecular and Cellular Biology  
**Credits:** 3  
Introduction to structure and function of cells, tissues and organs, physiological processes; genes and heredity. No Laboratory. All COLSA and pre-professional health students should take BIOL 411, (with lab).  
**Attributes:** Biological Science(Discovery)

BIOL 411 - Introductory Biology: Molecular and Cellular  
**Credits:** 4  
Introduction to structure and function of cells; tissues and organs; physiological processes; genes and heredity. Required for majors in the biological sciences. Special fee. Lab. Students not permitted to enroll in BIOL 411 and BIOL 412 in the same semester.  
**Attributes:** Biological Science(Discovery); Discovery Lab Course; Inquiry (Discovery)  
**Equivalent(s):** BIOL 405, BIOL 411H, BIOL 413

BIOL 411H - Honors/Principles of Biology I  
**Credits:** 4  
Introduction to structure and function of cells, tissues and organs, physiological processes and genes and heredity. Required for majors in the biological sciences. Special fee. Lab.  
**Attributes:** Biological Science(Discovery); Discovery Lab Course; Inquiry (Discovery)  
**Equivalent(s):** BIOL 411, BIOL 413

BIOL 412 - Introductory Biology: Evolution, Biodiversity and Ecology  
**Credits:** 4  
Evolution is the paradigm through which we understand Biology. This course will introduce students to evolutionary concepts that underlie the tremendous biodiversity present on Earth, and explore the ecological interactions that occur among individuals and species. Indoor and outdoor lab activities. Required for majors in the biological sciences. Students are not permitted to enroll in BIOL 411 and BIOL 412 in the same semester. Special Fee. Lab.  
**Attributes:** Biological Science(Discovery); Discovery Lab Course; Inquiry (Discovery)  
**Equivalent(s):** BIOL 412H, BIOL 414

BIOL 412H - Honors/Principles of Biology II  
**Credits:** 4  
Evolution is the paradigm through which we understand Biology. This course will introduce students to evolutionary concepts that underlie the tremendous biodiversity present on Earth, and explore the ecological interactions that occur among individuals and species. Indoor and outdoor lab activities. Required for majors in the biological sciences. Students are not permitted to enroll in BIOL 411 and BIOL 412 in the same semester. Special Fee. Lab.  
**Attributes:** Biological Science(Discovery); Discovery Lab Course; Inquiry (Discovery)  
**Equivalent(s):** BIOL 412, BIOL 414

BIOL 413 - Principles of Biology I  
**Credits:** 4  
Lecture and Laboratory introduction to biological principles; cell structure, function, replication, energetics and transport mechanisms; physiological processes; Mendelian, molecular genetics and gene technology. Required for students majoring in the life sciences. Cannot be taken for credit after BIOL 411 or equivalent. Special fee. Lab.  
**Attributes:** Biological Science(Discovery); Discovery Lab Course; Inquiry (Discovery)  
**Equivalent(s):** BIOL 405, BIOL 411, BIOL 411H

BIOL 414 - Principles of Biology II  
**Credits:** 4  
Lecture and laboratory survey of the five kingdoms of life; physiology of cells, tissues, organs, and organ systems; evolution; human impact on the biosphere. Required for students majoring in the life sciences. Cannot be taken for credit after BIOL 412 or equivalent. Special fee. Lab.  
**Attributes:** Biological Science(Discovery); Discovery Lab Course  
**Equivalent(s):** BIOL 406, BIOL 412, BIOL 412H
BIOL 416 - Watershed Watch - Research Experience
Credits: 2
This course builds upon the experiences gained while conducting the field and laboratory research from BIOL 415 (Watershed Watch Summer Institute). Students will be expected to integrate the conceptual and hands-on components learned in BIOL 415 into their own independent scientific research projects conducted under the mentorship of a faculty advisor from their college or university campus. Using a seminar format, students will receive additional lecture and reading materials (via distance-learning tools), compare their research progress (e.g., problems and accomplishments) with the progress of other students on other campuses, and will integrate their findings into the larger studies of the Merrimack and Pasquotank River watersheds. Ultimately, students will present their results at the UNH Undergraduate Research Conference at the end of April. (IA grading). Prereq: BIOL 415 and instructor approval. Repeat Rule: May be repeated for a maximum of 4 credits.

BIOL 420 - Introduction to Forensic Sciences
Credits: 4
Explore the forensic sciences! How do you collect, preserve, and analyze evidence related to a crime scene investigation? Hear from the experts and apply scientific principles and techniques in laboratory exercises that follow a crime scene scenario. The goal of this class will be to provide students with an understanding of what criminalistics entails and to prepare them for additional, more in-depth classes in criminalistics or forensic science. Special fee. Attributes: Biological Science(Discovery); Discovery Lab Course

BIOL 430 - Biology of the City
Credits: 4
This course explores biological systems, functions, and interaction of organisms in an urban environment. Using the campus as our laboratory, the course will progress from exploring the effects of urbanization on biodiversity, biological responses to urbanization, urban forestry, urban agriculture, and conclude with topics in sustainable urban development and conservation. Students in the course will develop an understanding of ecological concepts, problems, and solutions to improving ecological systems of urban areas. Attributes: Biological Science(Discovery); Discovery Lab Course

BIOL 440A - Biotechnology and Society
Credits: 4
The history and science of biotechnology and genetic engineering of bacteria, plants, and animals including humans. Applications of DNA technology, cloning and genetic engineering to agriculture, biomedicine, industrial products, and environmental problems. Discussion of economic, social, environmental, legal, and ethical issues related to the applications of biotechnology and genetic engineering. No credit for students who have completed BSCI 422 (UNHM). Attributes: Environment, TechSociety(Disc); Inquiry (Discovery)
Equivalent(s): BIOL 404, BSCI 422

BIOL 440B - Current Controversial Issues in Biology
Credits: 4
An inquiry into current controversial issues in biology and their scientific and technical bases, but with an emphasis on exploring the various perspectives or beliefs related to each topic and their social and environmental implications. Attributes: Biological Science(Discovery); Inquiry (Discovery)

BIOL 495 - Research Experience in Biological Sciences
Credits: 1-2
Hands-on research experience for high school students and UNH freshmen under the supervision of a Biological Sciences faculty member. This independent-study course introduces students to the research process and requires them to undertake a research project that involves laboratory and/or field work. Before a student can register for the course, he/she must meet with a Biological Sciences faculty member who will serve as mentor and supervisor, and the two of them must have a formal agreement on the specific research activities that the student must carry out. Prereq: permission. May be repeated up to a maximum of 4 credits. Repeat Rule: May be repeated for a maximum of 4 credits.

BIOL 510 - Mushrooms, Molds, and Mildews: Introduction to the Fungal Kingdom
Credits: 4
Fungi are a fascinating group of organisms that occupy nearly every habitat on the planet. We encounter fungi in everyday life from the dangerous to the delicious. This course is a fun, approachable introduction to the world of fungi. Students will learn about the role fungi play in human society, review basic concepts of fungal biology and discuss important issues of our time: how we use fungi to make medicines, how fungi feed us, how plant diseases and food spoilage affect food supply, and how fungi contribute to ecosystem functioning.

BIOL 520 - Our Changing Planet
Credits: 4
Ecosystem interrelations and factors critical to maintain sustainability will be addressed in this course. Environmental issues such as water usage, pollution, and treatment; air and soil quality; fossil fuels and alternative energy sources will be presented. Not for credit if credit earned for ENE 520. Attributes: Environment, TechSociety(Disc)
Equivalent(s): CIE 520, ENCV 520, ENE 520

BIOL 528 - Applied Biostatistics I
Credits: 4
Knowledge of biostatistics is essential to understanding our observations of life on Earth and properly design and conduct scientific research. Students develop skills in organizing data and performing, presenting, and interpreting statistical analyses. Theoretical concepts are applied using statistical software(s) and prepared biological data. Topics include descriptive statistics, continuous and discrete probability distributions, inferential statistics, confidence intervals, hypothesis testing for a difference of means and proportions, linear regression, non-parametric hypothesis testing, and graphing. Attributes: Quantitative Reasoning(Disc)
Mutual Exclusion: No credit for students who have taken ADM 430, ADMN 420, EREC 525, HHS 540, MATH 439, MATH 539, MATH 644, PSYC 402, PSYC 402H, SOC 402, SOC 402H, SOC 502, SOC 502H.

BIOL 541 - Ecology
Credits: 4
Equivalent(s): BIOL 541W
BIOL 544 - Your Genes, Your Life
Credits: 4
How do mutations accumulate to cause cancer? How does genetic variation underlie evolution? This course examines technological advances to read your DNA sequence, your genome, and how the genome can be modified by gene-editing. Students deliberate ethics underlying gene therapy, improving immune therapy, and modifying human embryos. The course uses an inquiry approach to illuminate how knowing your genome predicts some aspects of your life, but other features depend on genome interaction with your environment.
Attributes: Environment,TechSociety(Disc); Inquiry (Discovery); Writing Intensive Course
Equivalent(s): BIOL 404, BIOL 444A

BIOL 550 - Mushroom Madness
Credits: 3
An intensive 2-week summer field and lab course that emphasizes the identification of mushrooms and other macrofungi that occur in New England forests. The role of mycorrhizal fungi, decomposers, and pathogens in forest ecosystems will be examined. Recent changes in our understanding of the evolution and systematics of macrofungi will be explored. Collecting trips to the White Mountain National Forest, NH and Massachusetts state and town forests will be followed by lab identification sessions that utilize traditional methods (microscopy, spore prints, staining reactions) as well as modern molecular techniques (DNA barcoding, RFLP). Smart phone apps will be used for recording field notes and images, and for uploading observations to on-line repositories (iNaturalist and MushroomObserver). One overnight field trip will be scheduled. Prereq: Intro course in Biology, Plant Biology or permission.

BIOL 556 - Systematic Botany
Credits: 4
Scientific basis of plant taxonomy and the identification and classification of major plant families, native trees, shrubs, and wildflowers. Field trips, plant collection. Prereq: BIOL 412 or BIOL 409. Lab. Special fee.
Equivalent(s): BOT 566, PBIOL 566

BIOL 600 - Field Experience
Credits: 1-4
A supervised experience providing the opportunity to apply academic experience in settings associated with future professional employment and/or related graduate opportunities. Must be approved by a faculty adviser selected by the student. Prereq: permission. Cr/F.
Repeat Rule: May be repeated for a maximum of 8 credits.

BIOL 601 - Biology and Ecology of Plants
Credits: 4
Because plants can't move, they have evolved extraordinary adaptations that allow them to inhabit a wide variety of environments and respond to environmental changes. This course introduces students to these adaptations by focusing on how the relationship between plants and their environment has influenced their morphology, physiology, community structure, and distribution. Emphasis is on terrestrial plants. Labs will be field-based. Lab. Prereq: BIOL 412.
Equivalent(s): PBIOL 601

BIOL 633 - Data Analysis for Life Science
Credits: 4
Expand your statistical knowledge and resume by learning R. Use project-based learning to explore topics such as inequalities of life expectancy, heart disease and risk behaviors, biomagnification of ecotoxins, and impacts of ticks on wildlife populations while learning statistical skills and R. In this course students will learn to become proficient in R (data manipulation, graphing, hypothesis testing, importing and cleaning data) and learn to effectively communicate statistical results.

BIOL 675 - Medical Botany
Credits: 4
This course is an integrated study of the medical, psychoactive, and poisonous plants, their active constituents their physiological effects on people, their mode of action and their role in historical and current medical practice. Emphasis is placed on the impact that plants have on human health. Students will take an active role in class, and will develop their own knowledge of medicinal plants through guided discussions and in-class group activities. Prereq: BIOL 411, BIOL 412.

BIOL 695 - Biology Teaching Practices
Credits: 1-4
Students assist instructor in biology course labs. Responsibilities may include assisting instructors with field trips, lab set-up and clean-up, helping students during lab and field exercises, presenting material, and creating a project that enhances the curriculum. You may be expected to present material or create a project that enhances the curriculum. This course is by invitation only. Prereq: permission. May be repeated to 4 credits maximum.
Repeat Rule: May be repeated for a maximum of 4 credits.
Equivalent(s): BSCI 695

BIOL 700 - Current and Controversial Issues in Biology
Credits: 4
This course explores current issues in the biological sciences that are controversial and have a significant impact on individuals and society. Issues related to human population growth, evolution, cloning, synthetic biology, genetically modified organisms, free will, etc. Biology capstone. Only open to Animal Science, Zoology, Neuroscience and Behavior, Biology, Marine & Freshwater Biology, and Sust Agriculture& Food Systems majors.

BIOL 701 - Plant Physiology
Credits: 4
Knowledge about principles of plant physiology is critical to understand how plants work and what happens between planting a seed and picking up a flower or a fruit. This course focuses on fundamentals of plant physiology and metabolism using lecture and laboratory investigations. Lecture topics include: plant-water relations, mineral nutrition, photosynthesis and respiration, plant metabolism, signaling and hormones, growth and development, and plant-environment interactions. Labs will be project-based and students will conduct experiments to explore basic plant processes. Prereq: SAFS 421 or BIOL 409 or BIOL 411 and BIOL 412; CHEM 411 or CHEM 403; or permission.
Equivalent(s): PBIOL 701
BIOL 702 - Lab Techniques in Plant Physiology and Biochemistry
Credits: 4
The course provides a hands-on experience with instrumentation and experimental procedures for analysis of plant growth and metabolism. Experiments demonstrate the regulation of plant growth and development in response to environmental and chemical factors, analysis of cellular contents and processes, and use of modern instrumentation and analytical tools for physiological and biochemical studies. Experiments deal with plant water relations, photosynthesis, plant hormones, enzyme kinetics, use of spectrophotometry and fluorometry, aseptic procedures, and liquid and thin-layer chromatography. Special lab fee. Prereq: BIOL 411, BIOL 412, BIOL 701/801 or permission of instructor. Equivalent(s): GEN 702

BIOL 704 - Plant-Microbe Interactions
Credits: 3
Microbes and plants have developed intriguing strategies to encourage, resist or profit from their coexistence. The primary objective of the course is to provide students with a comprehensive overview of the various ways in which microbes interacts with plants, the outcomes of that interplay, and applications of these interactions and explore how these interactions impact ecosystem function. Prereq: BIOL 411 and BIOL 412, BMS 503 and BMS 504 or GEN 604.
Equivalent(s): PBIO 709

BIOL 709 - Plant Stress Physiology
Credits: 3
Plants cannot move in order to avoid challenging environmental conditions. Hence, plants developed other mechanisms that allow them to cope with stress. This course focuses on the mechanisms deployed by plants to respond to stressful conditions, some responses being nothing short of chemical and biological warfare. Biotic and abiotic stresses covered include pathogens, herbivores, drought, salinity, temperature, UV radiation, and heavy metals. Agricultural and ecological implications are discussed.
Equivalent(s): PBIO 709

BIOL 711 - Experimental Design & Analysis
Credits: 4
Design and analysis of biological and ecological research experiments. "Real world" studies used to discuss the identification of hypotheses, appropriate experimental design, and the application of statistical analyses including ANOVA, ANCOVA, correlation and regression, cluster analysis, classification and ordination techniques. Theoretical statistical concepts tailored to consider students' own thesis and dissertation research, allowing statistical problems to be addressed at various stages of the research process. Common computer packages used for analyses include Excel, JMP, Systat and R.

BIOL 713 - Biochemistry of Photosynthesis
Credits: 4
Physiology and biochemistry of photosynthesis in higher plants and microorganisms: light reactions, electron transport, membrane structure and function, carbon assimilation pathways, energy conservation, and metabolic regulation. Agronomic and ecological aspects of photosynthesis are examined; Prereq: plant physiology or biochemistry (Not offered every year.) Special fee.
Equivalent(s): BOT 713, PBIO 713

BIOL 720 - Plant-Animal Interactions
Credits: 4
Animals and plants engage in a range of interactions, from plant-pollinator and plant-ant mutualisms to plant-herbivore and carnivorous plant antagonisms. This course will explore the consequences of a variety of interactions on the evolution of traits in both animals and plants, considering implications for both conservation and agriculture. Weekly recitation. Prereq: BIOL 412.

BIOL 752 - New England Mushrooms: a Field and Lab Exploration
Credits: 4
This is a hands-on field, lab and lecture course in the identification, classification, life histories, and ecology of mushrooms and other macrofungi. Lectures focus on macrofungal ecology and systematics. Laboratory instruction emphasizes morphological, microscopic, and molecular identification techniques, plus the use of smart-phone field note recording and on-line resources. Several field trips are required in addition to the weekly laboratory. Previous experience with fungi is not required. Grades are based on a collection, a project, and presentations. Prereq: Intro course in Biology or Plant Biology, or permission. Equivalent(s): BOT 752, PBIO 752

Biomedical Science (BMS)

# Course numbers with the # symbol included (e.g. #400) have not been taught in the last 3 years.

BMS 401 - Professional Perspectives in Biomedical Sciences
Credits: 1
Introduction to the major and the options in Biomedical Sciences. Strategies for successfully achieving academic and professional goals in the biomedical sciences. Professional opportunities for BMS majors are presented. Cr/F.
Equivalent(s): MEDT 401, MLS 401
BMS 402 - Special Topics in Biomedical Sciences
Credits: 1
Introduces contemporary research and provides an avenue to explore recent developments in the field of biomedical science. Each semester focuses on a different theme. Cr/F.
Equivalent(s): BIOL 401, ZOOL 401

BMS 405 - In Sickness and in Health: Understanding Why Bodies Fail
Credits: 4
This course describes the basic structure and function of various organs and systems, then discuss many common diseases and conditions that impact humans, such as meningitis, Alzheimer's, diabetes, HIV/AIDS, asthma, and schizophrenia. Primary focus is on the physical process of disease but the course will also examine the emotional and social impact of certain diseases.
Attributes: Biological Science(Discovery)

BMS 407 - Germs 101
Credits: 4
Societal and technological impact of the invisible microbial world on our lives and on the planet. Weekly extra-class activities enable students to use the scientific method of inquiry to explore topics like bacteria that use sunlight to live or use of bacteria in genetic engineering. Presents germs from different perspectives: as living organisms, as human enemies or friends, and as represented in newspapers or on TV. Especially useful for people with microphobia. No credit for BMS or Biology majors. Special fee.
Attributes: Biological Science(Discovery)
Equivalent(s): BIOL 407, BMS 408, MICR 407

BMS 407 - Germs 101
Credits: 4
Online version of BMS 407. Societal and technological impact of the invisible microbial world on our lives and on the planet. Weekly extra-class activities enable students to use the scientific method of inquiry to explore topics like bacteria that use sunlight to live or use of bacteria in genetic engineering. Presents germs from different perspectives: as living organisms, as human enemies or friends, and as represented in newspapers or on TV. Especially useful for people with microphobia. No credit for BMS or Biology majors. Special fee.
Attributes: Biological Science(Discovery)
Equivalent(s): BMS 407, MICR 407

BMS 501 - Microbes in Human Disease
Credits: 4
Identification, pathogenesis, epidemiology, treatment, and prevention of medically important microorganisms. The biology of clinically relevant bacteria, viruses, fungi, and parasites is presented in relation to disease progress and host defense mechanisms. Clinical correlations that indicate microbes are causative agents of disease are emphasized. The laboratory introduces techniques for identification of pathogenic microorganisms to reinforce and expand the theoretical content. Special fee. Lab.
Attributes: Biological Science(Discovery); Discovery Lab Course
Equivalent(s): BMS 501H, MICR 501, MICR 501H, MICR 502

BMS 503 - General Microbiology
Credits: 3
Principles of microbiology; morphology, physiology, genetics, culture, and classification of bacteria and other microorganisms; relationships of microbes to agriculture, environment, industry, sanitation, and infectious diseases. Prereq: BIOL 411 and BIOL 412 or equivalent; CHEM 403 and CHEM 404 or equivalents.
Co-requisite: BMS 504
Equivalent(s): MICR 503

BMS 504 - General Microbiology Laboratory
Credits: 2
Practical laboratory training in general microbiology. Topics include safe handling, visualization, and physiological identification of microorganisms with special attention given to aseptic technique. Prereq: BIOL 411 and BIOL 412 and CHEM 403 and CHEM 404 or equivalents. Coreq: BMS 503. Special fee.
Co-requisite: BMS 503

BMS 507 - Human Anatomy and Physiology I
Credits: 4
Cellular and systematic aspects of the human body. Laboratory exercises utilize preserved specimens, dissectible models, living tissue and computer-aided instruction. Systems covered include: the cell, chemistry, tissues, integument, osseous tissue and the skeleton, muscular tissue and muscles, nerves, the brain, spinal cord, autonomic nervous system, and special senses. No credit earned for ANSC 511 and ANSC 512. Lab. Special fee.
Attributes: Biological Science(Discovery); Discovery Lab Course
Equivalent(s): ANSC 511, ZOOL 507, ZOOL 627

BMS 508 - Human Anatomy and Physiology II
Credits: 4
Cellular and systematic aspects of the human body. Laboratory exercises utilize preserved specimens, dissectible models, living tissue and computer-aided instruction. Systems covered include: endocrine, blood, cardiovascular, respiratory, immune, digestive and metabolism, urinary, acid-base and electrolyte balance, reproductive. Prereq: BMS 507. No credit earned for ANSC 511 and ANSC 512. Lab. Special fee.
Attributes: Biological Science(Discovery); Discovery Lab Course
Equivalent(s): ANSC 512, ZOOL 508, ZOOL 627

BMS 560 - Body Fluids
Credits: 3
The study of diseases and disorders through the analysis of extra-vascular body fluids. Emphasizes renal anatomy and physiology, and diseases and metabolic disorders affecting renal function.
Equivalent(s): BMS 660, MEDT 665, MLS 660, MLS 665

BMS 561 - Body Fluids Laboratory
Credits: 1
Practical experience in the performance and clinical correlation of urinalysis and selected body fluid procedures. Special fee.
Co-requisite: BMS 560
Equivalent(s): BMS 661, MEDT 665, MLS 661, MLS 665

BMS 600 - Field Experience
Credits: 1-4
Supervised experience providing the opportunity to apply academic experience in settings associated with future professional employment and/or related graduate opportunities. Must be approved by a faculty advisor selected by the student. Only 4 credits can be used toward the major. Permission required. Cr/F.
Repeat Rule: May be repeated for a maximum of 8 credits.
Equivalent(s): BMS 600W, MICR 600, MICR 600W
BMS 601 - Bacteriology of Food
Credits: 5
Lectures and laboratories address modern technical concepts of microbiology, physiology, and biochemistry related to food sanitation. Theoretical and practical approach serves as an integrative experience. Food sanitation is a serious public health issue in the meat, dairy, fish, and water industries. Benefits students seeking employment in public health or sanitary microbiology fields. Topics include food as a substrate for microorganisms, causes of food spoilage, food borne disease outbreaks, public health complications, isolation and identification of food spoiling microorganisms, and essentials for food safety and sanitation. Prereq: BMS 503 and BMS 504 or equivalent. (Not offered every year.) Special fee. UNHM only.
Equivalent(s): MICR 603

BMS 602 - Pathogenic Microbiology
Credits: 3
An introduction to microbial disease, with a focus on bacterial and viral diseases in humans and animals. This course examines the clinical presentation, laboratory diagnosis, and treatment of specific microbial pathogens. Molecular aspects of both microbial infection and host immune response are discussed. Case studies based on real clinical and research microbiology problems are presented. Prereq: BMS 501, or BMS 503 and BMS 504.
Equivalent(s): MICR 602, MICR 700, MICR 800

BMS 603 - Pathogenic Microbiology Laboratory
Credits: 2
An introduction to morphologic, cultural, biochemical and pathogenic characteristics of microorganisms causing human and animal diseases. Laboratory exercises focus on both classical and modern laboratory diagnostic testing. Prereq: BMS 501, or BMS 503 and BMS 504. Special fee.
Co-requisite: BMS 602

BMS 610 - Biomedical Lab Management
Credits: 4
Overview of biomedical laboratory management, including lab operation, compliance, financial management, personnel management, information systems, and leadership. Writing intensive.
Attributes: Writing Intensive Course
Equivalent(s): MEDT 610, MLS 610

BMS 623 - Histology: Microscopic Cellular Structure and Function
Credits: 4
Cellular structure, function, and physiology, as well as the interactions between cells in different organ systems, are examined at the microscopic level. Digital microscopic images are utilized to examine the cellular structure of all organ systems and the interactions between cells in these organs. Prereq: ANSC 511 and ANSC 512, or BMS 507 and BMS 508. Hybrid course with online lab.

BMS 635 - Preceptorial in Prehospital Care
Credits: 2
Practice and evaluation of prehospital care. Understand the roles of different provider levels in a healthcare setting. Students participate in ambulance activities, then discuss assessment and treatment of patients in the prehospital setting. Licensure by the New Hampshire Bureau of EMS required before course start date. Prereq: KIN 684 and KIN 685 or equivalent. Cr/F.
Repeat Rule: May be repeated for a maximum of 4 credits.

BMS 640 - Phlebotomy Theory
Credits: 2
Theory and demonstration of procedures involved in blood collection with an emphasis on safety and professionalism. Hands-on practice of selected techniques. Special fee.
Equivalent(s): MLS 640, MLS 650A

BMS 641 - Phlebotomy Clinical Internship
Credits: 1-2
Students obtain experience and proficiency in routine blood collection techniques at a health care facility (80 to 120 hours). Prereq: BMS 640. Special fee. Cr/F.
Equivalent(s): MLS 641, MLS 650B

BMS 642 - Clinical Immunology and Serology
Credits: 2
Innate and specific immunity in the context of chemical and cellular responses to antigenic challenge. Also introduces the immunologic basis of autoimmunity, immune proliferation and deficiency, and hypersensitivity. Current clinical analytical methodologies and diagnostic criteria used to identify, differentiate and/or monitor these responses and conditions included. Prereq: BIOL 411 and BIOL 412, or BMS 507 and BMS 508, or ANSC 511 and ANSC 512.
Equivalent(s): MEDT 651, MLS 642, MLS 651

BMS 643 - Clinical Serology Laboratory
Credits: 2
Performance, interpretation and application of serological techniques for the diagnosis of immune system disorders. Special fee.
Co-requisite: BMS 642
Equivalent(s): MEDT 651, MLS 643, MLS 651

BMS 644 - Clinical Hematology
Credits: 3
Human blood cell physiology in both health and disease. Includes benign and malignant conditions of red blood cells and white blood cells.
Equivalent(s): MLS 644, MLS 652

BMS 645 - Clinical Hematology Laboratory
Credits: 2
Analysis of whole blood for cellular components with special emphasis on differentiating benign from malignant processes, as well as cellular identification by morphologic characteristics and cytotoxicity staining. Special fee.
Equivalent(s): MLS 645, MLS 652L

BMS 646 - Clinical Hemostasis
Credits: 1
Introduction to hemostasis through evaluation of platelets, blood vessels, coagulation factors and fibrinolysis, including dysfunction and disease states. Pre-Coreq: BMS 644 or permission.

BMS 650 - Molecular Diagnostics
Credits: 4
Fundamental principles of molecular technology and techniques used in clinical laboratories such as nucleic acid extraction, DNA amplification, sequencing and hybridization, gel electrophoresis, and chromosome analysis. Prediction and detection of human disease (infectious disease, cancer, and other inherited disease), identity testing, molecular epidemiology, pharmacogenetics, and ethical issues. Previous knowledge of genetics and biochemistry lab techniques is highly recommended.
Attributes: Environment, TechSociety(Disc)
Equivalent(s): BMS 755, BSCI #765, MLS 755
BMS 655 - Human and Animal Parasites  
Credits: 3  
Introduction to the parasitic process in humans and different animals indigenous to domestic and foreign areas of the world. Topics include epidemiology, infection, control, genetics, and immunology, as well as global economic consequences. Prereq: BMS 503 and BMS 504.

BMS 656 - Immunohematology  
Credits: 3  
The immunology of blood, including blood group systems and the critical role they play in safe transfusion medicine. Additional topics include blood collection, component use, transfusion reactions, and transfusion-transmitted infections.  
Equivalent(s): MEDT 653, MLS 653, MLS 656

BMS 657 - Blood Banking Laboratory  
Credits: 1  
Hands-on experience in clinical blood banking practices including blood typing, antibody screening and identification, cross matching, and confirmatory testing. Special fee.  
Co-requisite: BMS 656  
Equivalent(s): MEDT 653, MLS 653, MLS 657

BMS 658 - Medical Biochemistry  
Credits: 3  
Use of body fluids to assess specific disease states including the pathophysiology of the disease, pre-analytical issues, analytical methodologies, and instrumentation. Topics include the biochemistry of analytes (amino acids, proteins, enzymes, tumor markers, non-protein nitrogen metabolites, carbohydrates, lipids, electrolytes, blood gases, etc.), clinical endocrinology, toxicology and therapeutic drug monitoring. Prereq: BMCB 658 and BMCB 659; BIOL 528, or equivalents.

BMS 659 - Clinical Chemistry Laboratory  
Credits: 2  
Measurement of blood analytes such as proteins, glucose, electrolytes, and cholesterol, etc. Screening for drugs in urine and evaluation of clinical significance in human specimens. Principles of spectrometry, immunoassay, point-of-care testing, chromatography, mass spectrometry, electrophoresis, automation, and ion selective electrodes, with emphasis on instrumentation, quality control, and pre-analytical and analytical issues. Special fee.  
Co-requisite: BMS 658  
Equivalent(s): MLS 654L, MLS 659

BMS 699 - Independent Study in Biomedical Science  
Credits: 1-6  
In-depth studies under faculty supervision. Permission required. Cr/F.  
Repeat Rule: May be repeated for a maximum of 16 credits.  
Equivalent(s): BMS 696, BMS 696W, BMS 699W

BMS 702 - Endocrinology  
Credits: 4  
Structure and function of vertebrate endocrine systems through the lens of physiology, biochemistry, and cell and molecular biology, with special reference to mammals. Current investigations of the body’s major endocrine glands, such as the brain, thyroid, pancreas, adrenals and gonads, as regulators and integrators of biological systems. BMCB 605 recommended. Prereq: BMCB 658 or BMCB 751.  
Equivalent(s): ANSC 702, BCHM 702

BMS 703 - Infectious Disease and Health  
Credits: 4  
Principles underlying the nature of infectious disease agents, including representative parasites, fungi, bacteria, viruses, and prions. Established pathogens and emerging human and animal disease agents highlighting zoonotic diseases. Epidemiology, pathogenesis, host immune response, disease transmission, treatment, and control. Weekly review and discussion of current world disease events. Prereq: BMS 503 and BMS 504.  
Equivalent(s): MICR 705

BMS 704 - Pathologic Basis of Disease  
Credits: 4  
Principles and mechanisms of disease at the cellular and tissue levels, including responses to cell injury, death and adaptation, inflammation, circulatory disturbances, disorders of the immune system, and neoplasia. ANSC 511 and ANSC 512, or BMS 507 and BMS 508 recommended.  
Equivalent(s): ANSC 704

BMS 705 - Immunology  
Credits: 3  
An introduction to the fundamental mechanisms of immune function. Topics include the cells and organs of the immune system, humoral and cellular immune responses, the generation of immune cells, and how immune cells fight various infectious pathogens. Coreq: BMS 715 for BMS:MM majors only. Prereq: BMS 503 and BMS 504.  
Equivalent(s): MICR 705

BMS 706 - Virology  
Credits: 3  
Equivalent(s): MICR 706

BMS 708 - Virology Laboratory  
Credits: 2  
Co-requisite: BMS 706  
Equivalent(s): MICR 708

BMS 711 - Toxicology  
Credits: 4  
Examination of mechanisms by which chemicals and other toxicants produce adverse effects in biological systems. Consideration of toxicant exposure and absorption, systemic and cellular distribution and metabolism, altered cellular mechanisms, and systemic and organ-specific effects of toxicity. Case-based discussions of toxicants affecting humans and other species in environmental and clinical contexts. Prereq: BMCB 658.
BMS 710 - Grand Rounds
Credits: 2
Interactive presentation and observation of disease through pathological examination of animals submitted to the NH Veterinary Diagnostic Lab for necropsy. Discussion of underlying pathogenesis of diseases and disorders. Examination of archived gross and digital tissue specimens. Intended for those in pre-professional medical, dental, pharmacy, veterinary and biomedical fields. Prereq: BMS 507 and BMS 508, or ANSC 511 and ANSC 512.
Repeat Rule: May be repeated for a maximum of 4 credits. May be repeated up to 2 times.

BMS 715 - Immunology Laboratory
Credits: 2
This applied immunology laboratory course highlights both historic and current methodologies important for elucidation and diagnosis of immune function. Techniques used to study phagocytosis, antibody production, immunodiffusion, and T-cell function will be introduced. Applications of the antibody technologies to other scientific disciplines (ELISA, immunofluorescence microscopy, immunoblotting, etc.) will also be covered. Prereq: BMS 503 and BMS 504. Special fee.
Co-requisite: BMS 705
Equivalent(s): MICR 715

BMS 715W - Immunology Laboratory
Credits: 2
This applied immunology laboratory course highlights both historic and current methodologies important for elucidation and diagnosis of immune function. Techniques used to study phagocytosis, antibody production, immunodiffusion, and T-cell function will be introduced. Applications of the antibody technologies to other scientific disciplines (ELISA, immunofluorescence microscopy, immunoblotting, etc.) will also be covered. Prereq: BMS 503 and BMS 504. Special Fee.
Co-requisite: BMS 705
Attributes: Writing Intensive Course

BMS 716 - Public Health: Food- and Water-borne Diseases
Credits: 4
How and why food-borne and water-borne agents (virus, protozoal, bacterial and toxic material) are still prevalent within our society with focus on the roles of government, disease and epidemiology, and sources of anthropogenic pollution. Field trips to wastewater plant and/or drinking water plant, town meetings and/or public policy hearings. Prereq: BMS 503 and BMS 504. Special fee. Lab. Writing intensive.
Attributes: Writing Intensive Course
Equivalent(s): MICR 714

BMS 718 - Mammalian Physiology
Credits: 4
Advanced study of the systems that control mammalian functions with emphasis on cellular and molecular mechanisms. Includes the nervous, muscular, cardiovascular, renal, gastrointestinal, and endocrine systems. Prereq: at least one semester of animal/human physiology, or one semester of anatomy and physiology. Permission required. Writing intensive.
Attributes: Writing Intensive Course
Equivalent(s): ANSC 718

BMS 719 - Host-Microbe Interactions
Credits: 4
An examination of the way microorganisms interact with their hosts, with an emphasis on the pathogenic and commensal organisms of humans. Course material is introduced via reading, analysis and group presentations of primary scientific literature. Students are not only introduced to different types of host-microbe interactions, but different methods, systems and model organisms used to study these interactions. Prereq: BMS 501, or BMS 503 and BMS 504; GEN 604.

BMS 720 - Mycology, Parasitology, and Virology
Credits: 3
Theoretical basis of the pathogenesis, epidemiology, and diagnosis of fungal, parasitic, and viral infections. Prereq: BMS 602 and BMS 603.
Equivalent(s): MEDT 720, MLS 720

BMS 721 - Mycology, Parasitology, and Virology Laboratory
Credits: 2
Practical experience in medical mycology and parasitology diagnostic techniques. Isolation and identification of mycological and parasitological specimens. Principles and practices of proper specimen collections, analysis, and interpretation of results. Special fee.
Co-requisite: BMS 720
Equivalent(s): MLS 720L, MLS 721

BMS 725 - Cell Phenotyping and Tissue Engineering Laboratory
Credits: 4
Introduction to culture and phenotyping of mammalian cells (cell line models), with applications to bioengineering and biomedical sciences. Skills, techniques, and knowledge covered include sterile technique, cell culture, cell line models, cell proliferation, cell survival, cell migration, cell adhesion, and drug response. Inquiry-based team projects investigate cell proliferation, cell death, transfection, flow cytometry, 3D scaffolds, or cell imaging.
Equivalent(s): BMS 620

BMS 730 - Ethical Issues in Biomedical Science
Credits: 4
An examination of the importance of scientific integrity in the biomedical sciences. Students are introduced to the ethical issues that scientists must be familiar with when conducting research. Issues include scientific record keeping, authorship and peer review, conflicts of interest, use of animals and humans in research, and recombinant DNA technology. Class is discussion-based, encouraging both an appreciation of established guidelines and an opportunity to critically examine them. Prereq: BIOL 411; GEN 604; BMS 503 and BMS 504. Writing intensive.
Attributes: Writing Intensive Course
Equivalent(s): MICR 718

BMS 740 - Human Microbiome
Credits: 4
The human microbiome is a new, rapidly growing field of microbiology that has already made important contributions to the understanding of human health. This laboratory course utilizes current research methodology to investigate the microbiome of the human skin. Students gain hands-on experience in PCR, genomics, bioinformatics, and modern clinical identification techniques. They also generate primary data to make their own contribution to this important field of research. Prereq: GEN 604; BMS 501, or BMS 503 and BMS 504. Special fee. Lab.
BMS 750 - Case Studies
Credits: 1-5
Patient case studies are analyzed in up to four different areas: microbiology, hematology, clinical chemistry, or immunohematology. Correlation of patient history with clinical presentation and interpretation of clinical laboratory results. Learn to interpret given information, recognize abnormal results and their clinical significance, generate etiologic possibilities, and determine the best diagnosis for the patient condition including appropriate treatment and recommended follow-up testing. Writing intensive. Microbiology case studies. 2 credits. Prereq: BMS 602 and BMS 603; BMS 720 and BMS 721. Hematology case studies. 1 credit. Prereq: BMS 644 and BMS 645. Medical Biochemistry case studies. 2 credit. Prereq: BMS 658 and BMS 659. Immunohematology case studies. 1 credit. Prereq: BMS 656 and BMS 657.
Attributes: Writing Intensive Course
Equivalent(s): MLS 750

BMS 751 - Advanced Clinical Microbiology Internship
Credits: 5
Instruction and clinical practice of microbiology-related techniques and their applications in the medical laboratory setting. Includes the principles and practices of proper specimen collection, clinical diagnosis testing, and interpretation of results. Special fee. Prereq: BMS 656 and BMS 657.
Equivalent(s): BMS 751W, MEDT 751, MLS 751, MLS 751W

BMS 751W - Advanced Clinical Microbiology Internship
Credits: 5
Instruction and clinical practice of microbiology-related techniques and their applications in the medical laboratory setting. Includes the principles and practices of proper specimen collection, clinical diagnosis testing, and interpretation of results. Special fee. Writing intensive.
Attributes: Writing Intensive Course
Equivalent(s): BMS 751, MEDT 751, MLS 751, MLS 751W

BMS 752 - Advanced Hematology Internship
Credits: 5
Instruction and clinical practice of hematology-related techniques and their applications in the medical laboratory setting. Includes the principles and practices of special hematology procedures including diagnostic staining, advanced hemostasis, and evaluation of blood cells in disease states.
Equivalent(s): BMS 752W, MEDT 752, MLS 752, MLS 752W

BMS 752W - Advanced Hematology Internship
Credits: 5
Instruction and clinical practice of hematology-related techniques and their applications in the medical laboratory setting. Includes the principles and practices of special hematology procedures including diagnostic staining, advanced hemostasis studies, and evaluation of blood cells in disease states. Writing intensive.
Attributes: Writing Intensive Course
Equivalent(s): BMS 752, MEDT 752, MLS 752, MLS 752W

BMS 753 - Advanced Immunohematology Internship
Credits: 5
Introduction and clinical practice of immunohematology-related techniques and their applications in the medical laboratory setting. Includes the principles and practices of advanced blood-banking procedures, including antibody identification, and component therapy.
Equivalent(s): BMS 753W, MEDT 753, MLS 753, MLS 753W

BMS 753W - Advanced Immunohematology Internship
Credits: 5
Introduction and clinical practice of immunohematology-related techniques and their applications in the medical laboratory setting. Includes the principles and practices of advanced blood-banking procedures, including antibody identification, and component therapy. Writing intensive.
Attributes: Writing Intensive Course
Equivalent(s): BMS 753, MEDT 753, MLS 753, MLS 753W

BMS 754 - Advanced Clinical Chemistry Internship
Credits: 5
Instruction and clinical practice of clinical chemistry-related techniques and their applications in the medical laboratory setting. Includes the principles and practices of advanced laboratory analysis of body fluid chemistries. Enzymology, isotopes, hormones, blood gases, and toxicology. Theory, operation, evaluation and maintenance of automated chemistry systems.
Equivalent(s): BMS 754W, MEDT 754, MLS 754, MLS 754W

BMS 754W - Advanced Clinical Chemistry Internship
Credits: 5
Instruction and clinical practice of clinical chemistry-related techniques and their applications in the medical laboratory setting. Includes the principles and practices of advanced laboratory analysis of body fluid chemistries. Enzymology, isotopes, hormones, blood gases, and toxicology. Theory, operation, evaluation and maintenance of automated chemistry systems. Writing intensive.
Attributes: Writing Intensive Course
Equivalent(s): BMS 754, MEDT 754, MLS 754, MLS 754W

BMS 761 - Clinical Microbiology Internship
Credits: 20
Advanced instruction in clinical bacteriology, mycology, parasitology, and virology at local hospital or reference laboratory. Isolation, identification, and antibiotic sensitivities for common pathogens are emphasized. Special fee.
Equivalent(s): BMS 761W, MEDT 761, MLS 761W, MLS 761

BMS 761W - Clinical Microbiology Internship
Credits: 20
Advanced instruction in clinical bacteriology, mycology, parasitology, and virology at local hospital or reference laboratory. Isolation, identification, and antibiotic sensitivities for common pathogens are emphasized. Special fee. Writing intensive.
Attributes: Writing Intensive Course
Equivalent(s): BMS 761, MEDT 761, MLS 761, MLS 761W

BMS 762 - Clinical Hematology Internship
Credits: 20
Advanced instruction in clinical bacteriology, mycology, parasitology, and virology at local hospital or reference laboratory. Specialized tests such as automated cell counts, cytochemical analyses, and specialized hemostasis are covered. Special fee.
Equivalent(s): MEDT 762, MLS 762

BMS 763 - Clinical Immunohematology Internship
Credits: 20
Advanced instruction in clinical immunohematology at a local hospital or reference laboratory. Pre-transfusion testing, donor screening, phlebotomy and component therapy emphasized. Special fee.
Equivalent(s): MEDT 763, MLS 763
BMS 764 - Clinical Chemistry Internship  
Credits: 20  
Advanced instruction in clinical chemistry at a local hospital or reference laboratory. Analysis of carbohydrates, proteins, enzymes, lipids, hormones, electrolytes, blood gases, and drugs. Special fee.  
Equivalent(s): MEDT 764, MLS 764

BMS 790 - Undergraduate Teaching Experience  
Credits: 1-4  
Provide academic support to graduate teaching assistants or faculty in preparing, presenting, and executing Biomedical Science lectures or labs. Permission required.  
Repeat Rule: May be repeated for a maximum of 4 credits.  
Equivalent(s): MICR 790

BMS 795 - Investigations in Biomedical Science  
Credits: 1-8  
Advanced research or scholarly projects developed and conducted under the supervision of a faculty member. Provides the opportunity to apply knowledge and techniques of the major to a specific problem or question. Permission required.  
Repeat Rule: May be repeated for a maximum of 8 credits.  
Equivalent(s): BMS 795W, MICR 795, MICR 795W

BMS 795W - Investigations in Biomedical Science  
Credits: 1-8  
Advanced research or scholarly projects developed and conducted under the supervision of a faculty member. Provides the opportunity to apply knowledge and techniques of the major to a specific problem or question. Permission required.  
Repeat Rule: May be repeated for a maximum of 8 credits.  
Equivalent(s): BMS 795W, MICR 795, MICR 795W

BMS 796 - Biomedical Research Internship  
Credits: 4-16  
Advanced instruction/participation in some aspect of biomedical research at an off-campus location. Student designs program of study with research supervisor and BMS faculty advisor. Permission required.  
Repeat Rule: May be repeated for a maximum of 16 credits.  
Equivalent(s): MLS 796

BMS 799 - Senior Thesis  
Credits: 1-4  
Independent research project under the direction of a faculty sponsor for seniors in biomedical sciences. Final product is a written thesis. One or two semesters. Permission required.  
Attributes: Writing Intensive Course  
Repeat Rule: May be repeated for a maximum of 8 credits.  
Equivalent(s): BMS 799H

BMS 799H - Senior Honors Thesis  
Credits: 1-4  
Independent research project under the direction of a faculty sponsor for seniors in biomedical sciences and in the Honors Program. Final product is a written thesis. One or two semesters. Permission required.  
Attributes: Writing Intensive Course  
Repeat Rule: May be repeated for a maximum of 8 credits.  
Equivalent(s): BMS 799

Business (BUS)  
# Course numbers with the # symbol included (e.g. #400) have not been taught in the last 3 years.

BUS 400 - Introduction to Business  
Credits: 4  
Introduces the study of business: examines the origins and development of American business, its place in a global economy, and its legal and ethical roles in modern society. Includes an overview of the functional areas of business such as finance, marketing, and organizational behavior. Designed for business majors as well as for students considering a major in business.  
Equivalent(s): ADM 400

BUS 405 - Introduction to Business Computer Applications  
Credits: 4  
This course is designed to prepare students for both their computer related course work in other classes, but also for both internship and permanent professional problems. The skills and knowledge contained in this class are critical to early student success, and should be taken on arrival to the UNHM Business program. These skills are: word processing, presentation development, database creation and access, and spreadsheet data display and analysis. Open to all majors.  
Equivalent(s): COMP 411

BUS 410 - Introduction to Entrepreneurship  
Credits: 4  
This course explores the structure and framework of entrepreneurial endeavors, both inside and outside of the business world. Questions to be addressed include: What is entrepreneurship? What is opportunity recognition and selection? How can you create and define connective advantage? How can you think about people in the entrepreneurial context? How can you garner support (financial and other) for an entrepreneurial venture? What do you do when nothing works as planned?.  
Equivalent(s): COMP 411

BUS 430 - Introduction to Business Statistics  
Credits: 4  
The use of statistical methods for managerial decision making. Emphasis is on understanding concepts, including inferences from sample data and model formulation, as aids in decision-making. Lab: Using class-focused statistics problems, designed to provide opportunity to develop course-specific problem solving strategies; to adapt from mathematical to statistical thinking; to analyze and communicate significance and meaning of numerical outcomes; to develop course-specific test taking prowess. Prereq: MATH 420 or MATH 425 or equivalent.  
Attributes: Quantitative Reasoning(Disc)  
Mutual Exclusion: No credit for students who have taken ADM 430, ADMN 420, BIOL 528, EREC 525, HHS 540, MATH 439, MATH 539, MATH 644, PSYC 402, PSYC 402H, SOC 402, SOC 402H, SOC 502, SOC 502H.

BUS 453 - Leadership for Managers  
Credits: 4  
This course provides the critical element of analytical and intellectual examination and reflection of certain core issues in the practice of leadership. These objectives are achieved through open discussion, honest self-assessment, experiential exercises, and observation of real-life leadership practice. What is valued in this course are honest relationships and dialogue, risk-taking, dedication to the topic of leadership, initiative, and exploring the confusion and gray areas involved in these topics. Prereq: BUS 400. Only open to Business Admin majors.  
Equivalent(s): ADM 453
BUS 455 - Management of Human Resources  
Credits: 4  
This course emphasizes the development of skills for dealing with selected aspects of human resource management. It aims to enhance the students' ability to apply theoretical concepts and alternative approaches for dealing with common issues concerning the human side of the enterprise. The course is geared to serve the needs of line and staff administrators in supervisory positions. Thus, it strives to train students and facilitate the development of better understanding of human resources issues as they relate to other managerial functions, organizational behavior, and the ability of managers and the organization to achieve prescribed goals. Prereq: BUS 400 or permission of instructor.  
Equivalent(s): ADM 455

BUS 492 - American Business History  
Credits: 4  
This course explores the historical development of American business institutions from the colonial era to the present. Thematic units organize the material focusing in turn on the most significant developments in the American business environment. The goal is a cumulative understanding of the development of the system. A great deal of our discussion and reading centers on the interaction of market operations and social values and how these interactions influenced the business environment at different times. It is the study of business in the context of past times that makes this course different from a course in business methods or institutions. Through the study of the past students develop their critical thinking and writing skills.  
Attributes: Historical Perspectives(Disc)

BUS 520 - Training and Development  
Credits: 4  
Students interested in career options in training and development of human resources development learn some of the theoretical bases, core practices, competencies, and issues of this professional field, as well as considerations for global training and development. They are exposed to research and discoveries on skills and knowledge related to training and adult learning, and models for effective training. They learn the most current trends and issues in international training and development, including the push for management and leadership training for intercultural understanding. Prereq: BUS 400, BUS 455, or permission from instructor.  
Equivalent(s): ADM 520

BUS 530 - Personal Finance  
Credits: 4  
This course is designed to give students some expertise in the life decisions that almost everyone must make concerning tax planning, purchasing or renting of a home or automobile, medical, life, auto and home insurance needs. Investments and planning for retirement among other financial decisions that adults must make.  
Attributes: Quantitative Reasoning(Disc)

BUS 532 - Introduction to Financial Accounting  
Credits: 4  
Fundamental concepts of accounting and their impact on the business world and society as a whole. Emphasis on the recording of economic transactions, and preparation and analysis of financial statements. No credit for students who have had ACFI 501, ACFI 502, ADMN 502.  
Equivalent(s): ACFI 501, ACFI 502, ADM 532, DCE 462, DCE 463

BUS 533 - Introduction to Managerial Accounting  
Credits: 4  
Emphasizes how organizational managers use accounting information to support their functions of planning, control, and decision making. Examples taken from corporations, small business, and not-for-profit organizations. No credit for students who have received credit for ACFI 503, ADMN 503.  
Equivalent(s): ACFI 503, ADMN 503

BUS 535 - Federal Taxation  
Credits: 4  
Introduction to the basics of the federal income tax rules for individuals. Basic concepts in federal taxation include gross income, exclusions, adjusted gross income, deductions, exemptions, and credits. Additional tax concepts included are cash and accrual methods, passive loss rules, and like-kind exchange. No credit for taking BUS 710 (Federal Taxation) or BUS 675 (Special Topic Federal Taxation).  
Equivalent(s): BUS 675, BUS 710

BUS 565 - Selling and Sales Management  
Credits: 4  
The sales and selling management (SSM) course covers both the strategies, and the tactics, of selling, from the wide-ranging perspectives of sales people and customers. Management topics include: motivation and behavior, sales methodologies, channel optimization, recruiting and selecting representatives, training, compensation, and evaluation. Class also covers in-depth through the class practice sales tactics such as: prospecting and sales call planning, communicating the sales message, negotiating for win-win situations, overcoming objections, closing the sale, and follow-up management. Reflecting the nature of practice selling, the SSM course is offered in a short series of longer days. Prereq: none, but BUS 400 or BUS 610 is encouraged. No credit earned if credit earned for BUS 675 if listed as Selling and Sales Management.  
Equivalent(s): ADM 565

BUS 600 - New Venture Creation  
Credits: 4  
An opportunity for students to identify and create a new business venture via a business plan. Elements of a business plan are examined as well as review of the other entrepreneurial course that move up the minor. Prereq: BUS 410, BUS 453, BUS 550, BUS 565.

BUS 601 - Financial Management  
Credits: 4  
Study of investment, finance, and dividend decisions of the business firm. Topics include capital budgeting, designing and issuing securities, management of working capital and evaluating manager performance. Prereq: completion of Introductory Business Core or permission.  
Equivalent(s): ADM 601

BUS 603 - Intermediate Financial Accounting I  
Credits: 4  
The first of two in-depth financial accounting courses. Course provides student with the in-depth understanding of the theory, conceptual framework, and development of generally accepted accounting principles giving them the knowledge necessary to properly account for and present information in financial statements prepared for external uses. Topics include the income statement, the statement of cash flows and balance sheet with an emphasis on asset accounts. Prereq: BUS 532 and BUS 533. No credit if credit received for BUS 675 Intermediate Accounting I.
BUS 610 - Marketing Principles and Applications  
Credits: 4  
Studies the process of planning and distributing goods and services to the marketplace. Topics include product planning, pricing, promotion, and distribution. Emphasis on the application of marketing principles to real world business cases. Prereq: BUS 400, ECN 412.
Equivalent(s): ADM 610

BUS 615 - Intermediate Financial Accounting II  
Credits: 4  
The second of two in-depth financial accounting courses. Course provides students with an in-depth understanding of the theory, conceptual framework, and development of generally accepted accounting principles giving them the knowledge necessary to properly account for and present information in financial statements prepared for external users. Topics include time value of money, current and non-current liabilities, leases, deferred taxes, retirement benefits, stockholders equity, earning per share, accounting changes and errors, and statement of cash flows. No credit if credit received for BUS 675 Intermediate Accounting. Prereq: BUS 532, BUS 533, BUS 603.

BUS 620 - Organizational Behavior  
Credits: 4  
Applications of behavioral science concepts to work settings. Topics include worker incentives and perceptions toward work, group versus individual decision making, conflict resolution, interpersonal and leadership skills, and the study of other behaviors relevant to effective managing of a business organization. Prereq: Completion of Introductory Business Core or permission. Writing intensive.
Attributes: Writing Intensive Course
Equivalent(s): ADM 620, ADMN 575, MGT 580

BUS 629 - Adv Managerial Accounting  
Credits: 4  
Further develop the basic managerial accounting knowledge base and skill set. Emphasis on the cost accounting concepts and techniques used to produce the information needed to make both planning and control decisions as well as cost analysis, overhead allocation, transfer pricing, and decision making. Prereq: BUS 532; BUS 533. No credit if received for BUS 675 Intermediate Accounting.

BUS #630 - International Management  
Credits: 4  
This course introduces students to the world of international business and management by studying cultural influences, government, and business structures in our global economy. Students also learn about trade relations, international finance and legal and labor agreements. Also covered, are topics on information needs, production systems, marketing and promotion, and career planning. Prereq: an international business course. Only open to Business Administration majors.
Equivalent(s): ADM 630

BUS 635 - Entrepreneurial Application through Enactus  
Credits: 3  
This is a three credit project driven course aimed at teaching students an understanding of free enterprise through the application of economic activities within the community. In addition, students will have special topic sessions on leadership, time management, public speaking, project management, and fundraising. Emphasis on teamwork. Course is open to all students who have junior or senior level standing, in and out of the business program. Prereq: junior or senior level standing. Special fee.
Repeat Rule: May be repeated for a maximum of 12 credits.
Equivalent(s): ADM 635

BUS 640 - Business Communication and Conflict  
Credits: 4  
This course is designed to give students a comprehensive view of communication, its scope and importance in business, and the role of communication in establishing a favorable outside the firm environment as well as an affective internal communications program. The various types of business communication media are covered. This course also develops an awareness of the importance of succinct written expression to modern business communication. Prereq: Completion of Introduction to Business Core and BUS 455; or Approval by instructor.
Equivalent(s): ADM 640

BUS #660 - Employment and Labor Law  
Credits: 4  
This course includes a study of the organizational rights of employees and unions and the governance of the use of economic force by employers and unions. Also studied is the duty to bargain collectively, the manner in which collective bargaining is conducted, and the subjects to which it extends, as well as the manner in which collective bargaining agreements are administered and enforced. The relationship between a union and its members is also treated. Prereq: Completion of Introduction to Business Core and BUS 455.
Equivalent(s): ADM 660

BUS 661 - Integrated Marketing Communication  
Credits: 4  
Integrated Marketing Communications (IMC) is a fast evolving field in business and marketing. This course covers the full spectrum of planning, budgeting, data collection and analysis, creative tools and models, including perspectives on both Business to Consumer and Business to Business, IMC. Special emphasis for: cultural, lifestyle and ethnic sensitivity, global versus individual country tactics, and the fast evolving techniques of social and mobile marketing. All of the above are in the context of building brands and customer loyalty. Prereq: BUS 400 and BUS 610. No credit earned if credit earned for BUS 675 or BUS 685 if listed as Marketing Communication.
Equivalent(s): ADM 661

BUS 663 - Services Marketing and Operations Management  
Credits: 4  
This course is designed to prepare students for NH business and marketing careers by understanding the issues, challenges, and terminology inherent in industries as diverse as health care, construction, education, professional and technical offices, transportation, information and publishing, tourism, retailing, etc. Case studies are used throughout the term. We study many of these sectors, both as academicians and as consumers, to build a portfolio of understanding across divergent sectors. Students learn about services marketing strategies and management models that: increase customer satisfaction, improve customer retention and create dominant service brands that can create a competitive advantage for firms in any given industry. Prereq: BUS 400; BUS 610. No credit if credit earned for BUS 675 or BUS 685 if listed as Services Marketing.
Equivalent(s): ADM 663
BUS 665 - International Marketing Strategy Management  
Credits: 4  
The primary missions of the International Marketing Strategy Management (IMSM) course are to help students to: (1) develop understanding and knowledge of the important role International marketing plays in business (2) develop and improve global thinking, problem solving and integrative skills in a case based context (3) learn and apply the varying tools and models for evaluating when, where and how international marketing investments should be made. (4) understand and implement special approaches for cultural and ethnic differences in taste and attitudes, including trade legalities and regulations. Prereq: BUS 400 and permission of instructor. No credit if credit earned for BUS 675 or BUS 685 if listed as International Marketing.  
Equivalent(s): ADM 665

BUS 675 - Special Topics in Business Administration  
Credits: 1-4  
Provides students with an opportunity to explore a topic in business administration such as marketing, management, finance, or accounting. Topics will vary. Barring duplication of subject, may be repeated for credit. Prereq: Completion of Introductory Business Core or permission.  
Equivalent(s): ADM 675

BUS 685 - Applications in Business Management  
Credits: 4  
Selected topics. Topics will vary. Barring duplication of subject, may be repeated for credit.  
Repeat Rule: May be repeated for a maximum of 8 credits.  
Equivalent(s): ADM 685

BUS 690 - Business Program Internship  
Credits: 1-4  
Supervised internship practicum within the private, public or non-profit sector. Focus is for the student to gain valuable insights into both professional and managerial positions, applying their college knowledge to a variety of roles and projects, influencing their career trajectory through 'real world' experience. Can be taken multiple times for credit, with credit varying from 1-4 hours based on time spent on the internship. For the 16 credit concentration, up to 4 BUS 690 credits can be applied. Credits beyond will be applied to general credits. Does not substitute for the internship required as part of the Business Capstone Course BUS 750 - Business Internship Senior Seminar. Offered, Fall, Spring and Summer. Cr/f.  
Repeat Rule: May be repeated for a maximum of 12 credits.

BUS 691 - VITA Internship  
Credits: 1-4  
Internship for the application/completion of the basics of federal income tax rules for individuals. Must have previously completed Federal Taxation course (BUS 535, 710, BUS 675).

BUS 695 - Independent Study in Business  
Credits: 1-4  
Independent study exploring a special topic emphasizing the managerial, organizational, strategic, political or economic context(s) within which business decisions are made. Prereq: BUS 400 and permission of instructor.  
Repeat Rule: May be repeated for a maximum of 8 credits.  
Equivalent(s): ADM 695

BUS #701 - Business, Government and Society  
Credits: 4  
Examines relationships between business and its broader social, political and economic contexts. Topics include business ethics, social responsibilities, the impact of globalization, the impact of government policies, and how business influences government. Prereq: BUS 620 or permission. Writing intensive.  
Attributes: Writing Intensive Course  
Equivalent(s): ADM 701

BUS 705 - Business Ethics  
Credits: 4  
Analysis of ethical issues that arise in contemporary business practice, both domestically and locally. Topics will include ethical issues concerning labor practices, marketing, financial services, environmental practices, human rights, and emerging technologies. Students will be taught to recognize, analyze, and address ethical challenges as they arise in their careers. Consideration will also be given to public policies and global ethics codes that inform business decision-making. Writing intensive.  
Attributes: Writing Intensive Course

BUS 715 - Forensic Accounting/Fraud Examination  
Credits: 4  
The course will develop the students' understanding of what forensic accounting is and how it pertains to both civil and criminal matters. The participant in this course will gain a basic understanding of the characteristics of forensic accounting, the tools used in this area and the applications in the business world today, including financial statement and tax fraud, bankruptcy, divorce, identity theft, organized crime and litigation services. Pre- or Coreq: BUS 720.  
Attributes: Writing Intensive Course

BUS 720 - Auditing  
Credits: 4  
Introduction to the basics of auditing and other assurance services theory and practice. It provides an overview and understanding of the public accounting profession and the professional auditing standards. The class also integrates auditing material with previous financial and managerial accounting course. Prereq: BUS 532, BUS 533, BUS 603, BUS 615, BUS 629. No credit if credit received for BUS 675 Auditing.

BUS 725 - Financial Statement Analysis  
Credits: 4  
This course will examine financial reporting, the quality of accounting information, and US GAAP and IFRS. The flexibility which is built into GAAP will be examined, noting how firms may take advantage of this flexibility to manipulate financial information while staying within the bounds of the rules for proper reporting. Also examined will be the relationships found within the reported numbers by comparing various elements of the financial statements. Prereq: BUS 720.

BUS 750 - Business Capstone Senior Seminar - Internship  
Credits: 4  
The capstone seminar course in which students complete their degree with an internship, while also conducting case analyses, class exercises, and a variety of reflective writings via selected readings, written and oral student reports. Prereq: Last full senior semester standing; BUS 400, BUS 405, BUS 430, BUS 532, BUS 533, BUS 610, BUS 620, BUS 690, ECN 411, ECN 412, COMP 405 or COMP 415, MATH 420 or MATH 425, PTC 500, or pre-set equivalents.  
Equivalent(s): BUS 760
Chemical Engineering (CHE)  

Course numbers with the # symbol included (e.g. #400) have not been taught in the last 3 years.

CHE 400 - Chemical Engineering Lectures  
Credits: 1  
Introduces the profession, the process engineer as designer and problem solver, and the goals of the chemical engineering/bioengineering curriculum. Lectures by faculty and practitioners. Introduction to computer skills, engineering ethics, safety, and careers in chemical engineering and bioengineering. Cr/F.

CHE 410 - Energy and Environment  
Credits: 4  
Attributes: Physical Science(Discovery)  
Equivalent(s): CHE 410H  

CHE 410H - Honors/Energy and Environment  
Credits: 4  
Attributes: Physical Science(Discovery)  
Equivalent(s): CHE 410  

CHE 501 - Introduction to Chemical Engineering I  
Credits: 3  
Systems of units; material balances and chemical reactions; gas laws; phase phenomena.

CHE 502 - Introduction to Chemical Engineering II  
Credits: 3  
Energy and material balances for systems with and without chemical reactions; design case studies.  
Attributes: Inquiry (Discovery)  

CHE 601 - Fluid Mechanics and Unit Operations  
Credits: 3  
Continuity, momentum, and energy equations; laminar and turbulent flow in pipes; rheology. Applications to flow in porous media, filtration, and fluidization.

CHE 602 - Heat Transfer and Unit Operations  
Credits: 3  
Thermal properties of materials, steady-state and transient conduction and convection; radiation; applications to heat exchangers and process equipment.

CHE 603 - Applied Mathematics for Chemical Engineers  
Credits: 4  

CHE 604 - Chemical Engineering Thermodynamics  
Credits: 3  
Volumetric and phase behavior of ideal and real gases and liquids; cycles; steady-flow processes; chemical equilibrium.

CHE 612 - Chemical Engineering Laboratory I  
Credits: 3  
Selected experiments in fluid mechanics, heat transfer, and unit operations. Writing intensive.  
Attributes: Writing Intensive Course  

CHE 614 - Separation Processes  
Credits: 3  
Adsorption, Chromatography, Membrane Separations, Liquid-liquid, Extraction and Crystallization, requires junior level studies in chemical engineering or permission.

CHE 651 - Biotech Experience/Biomanufacturing  
Credits: 4  
Course begins by introducing students to the proteins and companies of biotechnology and to current good manufacturing practices. For remainder of the course, students use cell culture of bacteria, mammalian and yeast cells to produce human proteins using the tools and manufacturing standards, operating procedures of biotechnology, including upstream and downstream processing of proteins, and quality control of protein production. Permission required. Also listed as ANSC 651, MICR 651.

CHE 695 - Chemical Engineering Project  
Credits: 1-4  
Independent research problems carried out under faculty supervision.

CHE 696 - Independent Study  
Credits: 1-4  
Prereq: permission of the adviser and department chairperson; granted only to students having superior scholastic achievement.

CHE 703 - Mass Transfer and Stagewise Operations  
Credits: 3  
Diffusion in gases, liquids, and solids; design and analysis of distillation, absorption, and other stagewise equipment and operations.
CHE 705 - Fossil Fuels and Renewable Energy Sources  
Credits: 4  
Processing and refining of coal, crude oil, natural gas, tar sands and shale oil. Biomass co-combustion, biofuel extraction, impediments to widespread utilization. Exploration of environmental issues with energy generation and consumption. Lab.

CHE 706 - Electrochemical Methods for Energy Applications  
Credits: 4  
Fundamentals and applications of thermodynamics of electrochemical processes; kinetics of electrochemical reactions; electrocatalysis basics and current technologies for batteries, supercapacitors and fuel cells. Prereq: CHEM 683, CHEM 684.

CHE 707 - Chemical Engineering Kinetics  
Credits: 3  
Use of laboratory data to design commercial reactors. Continuous, batch, plug-flow, and stirred-tank reactors for homogeneous and catalytic multiphase reactions.

CHE 708 - Chemical Engineering Design  
Credits: 4  
Introduction to cost engineering. Application of acquired skills to design of chemical processes. Individual major design project required. Safety for industrial processes. Lab. Writing intensive.  
Attributes: Writing Intensive Course  
Equivalent(s): CHE 608, CHE 608E, ENE 608, ENE 708

CHE 709 - Fundamentals of Air Pollution and Its Control  
Credits: 4  
Equivalent(s): ENE 709

CHE 712 - Introduction to Nuclear Engineering  
Credits: 4  
Development of nuclear reactors; binding-energy; radioactivity; elements of nuclear reactor theory; engineering problems of heat transfer, fluid flow, materials selection, and shielding; environmental impacts.

CHE 713 - Chemical Engineering Laboratory II  
Credits: 3  
Selected experiments in mass transfer, stagewise operations, thermodynamics, and kinetics. Writing intensive.  
Attributes: Writing Intensive Course

CHE 714 - Chemical Sensors  
Credits: 4  
Interdisciplinary approach using thermodynamic, physical and surface chemistry, kinetic, electrochemical, and optical principles to analyze and design chemical sensors. Topics will include selectivity and sensitivity of sensors, biosensors, electrochemical sensors, mass sensors, optical sensors, and multivariate sensors. Lab. Prereq: Math 527; CHEM 405 (or equivalent); or permission.

CHE 722 - Introduction to Microfluidics  
Credits: 4  
Fundamentals and applications of microfluidics; scaling laws; microfabrication technology; hydrodynamics and electrodynamics; interfacial phenomena; capillary effects and diffusion; microvalves; micropumps; lab-on-a-chip systems; biochips. Prereq: fluids mechanics course or permission of instructor.

CHE 744 - Corrosion  
Credits: 4  
Fundamentals of corrosion processes in industrial and environmental settings; thermodynamics, kinetics, and mass transport in local corrosion cells; protection by electrochemical, chemical, surface modification or barrier methods; instrumental methods in corrosion science. Lab.

CHE 752 - Process Dynamics and Control  
Credits: 4  
Dynamic behavior of chemical engineering processes described by differential equations; feedback control concepts and techniques; stability analysis. Lab.

CHE 761 - Biochemical Engineering  
Credits: 4  
Immobilized enzyme technology, microbial biomass production, transport phenomena in microbial systems, biological reactor design, process instrumentation and control, applications in separation and purification processes. Lab.

CHE 762 - Biomedical Engineering  
Credits: 4  
Overview of the biomedical engineering through topical studies such as drug delivery and sensors. Discussion of modern engineering methods through primary research sources. Prereq: differential equations and statistics. Writing intensive. Also listed as BENG 762.  
Attributes: Writing Intensive Course  
Equivalent(s): BENG 762

CHE 766 - Biomaterials  
Credits: 4  
Fundamental principles of biology and material science, along with latest topics in biomaterials research. Topics include cell biology, wound healing, host response to foreign materials, polymers, hydrogels, diffusion and methods of material characterization. Specific medical applications of biomaterials such as orthopedic and dental implants, heart valves, artificial blood vessels, cochlear and ophthalmic implants and tissue engineering. Laboratory. Students are expected to have some background in chemistry, mathematics, and high school biology. Also listed as BENG 766.  
Equivalent(s): BENG 766

CHEM 400 - Freshman Seminar  
Credits: 1  
An introduction to the chemistry profession. Talks and workshops on the career of a chemist in academia, industry, medicine, law, teaching and government. Required for chemistry majors. Cr/F.  
Repeat Rule: May be repeated for a maximum of 2 credits.

CHEM 403 - General Chemistry I  
Credits: 4  
Fundamental laws and concepts applied to nonmetals, metals, and their compounds. For students who plan to take further chemistry courses. Previous chemistry recommended. Knowledge of algebra, exponentials, and logarithms required. Special fee. Lab. Cannot be taken for credit if credit received for CHEM 405. Required for chemistry majors.  
Attributes: Discovery Lab Course; Physical Science(Discovery)  
Equivalent(s): CHEM 405
CHEM 404 - General Chemistry II
Credits: 4
Fundamental laws and concepts applied to nonmetals, metals, and their compounds. For students who plan to take further chemistry courses. Previous chemistry recommended. Knowledge of algebra, exponents, and logarithms required. Required for chemistry majors. Special fee. Lab. Prereq: CHEM 403 and 403L.
Attributes: Discovery Lab Course; Physical Science(Discovery)
Equivalent(s): CHEM 404E, CHEM 404H, CHEM 405, CHEM 415, CHEM 416

CHEM 404H - Honors/General Chemistry II
Credits: 4
Fundamental laws and concepts applied to nonmetals, metals, and their compounds. For students who plan to take further chemistry courses. Previous chemistry recommended. Knowledge of algebra, exponents, and logarithms required. Required for chemistry majors. Special fee. Lab. Prereq: CHEM 403 and 403L. Honors course is designed for students who have enrolled in the honors degree program. Special fee. Lab. Cannot be taken for credit if credit received for CHEM 402. Prereq: CHEM 403.
Attributes: Discovery Lab Course; Physical Science(Discovery)
Equivalent(s): CHEM 402, CHEM 404, CHEM 405, CHEM 415, CHEM 416

CHEM 405 - Chemical Principles for Engineers
Credits: 4
Basic principles; atomic structure, bonding, equilibria, and thermodynamics. Prereq: one year of high school chemistry, algebra, and knowledge of logarithms. Cannot be taken for credit if credit received for CHEM 403 and CHEM 404. Required for chemical engineering, mechanical engineering, electrical and computer engineering, environmental engineering: industrial majors. Not applicable for credit for majors in chemistry or biochemistry.
Attributes: Discovery Lab Course; Physical Science(Discovery)
Equivalent(s): CHEM 401, CHEM 403, CHEM 404, CHEM 404H, CHEM 409, CHEM 413, CHEM 414

CHEM 408 - Green Goggles: Introduction to Green Chemistry
Credits: 4
In this course, we investigate the principles and practice of Green Chemistry as they connect to real world examples. Green Chemistry is the field of science that uses a principle-based approach to design chemical reactions and processes to make them more sustainable. In exploring green chemistry, many of the fundamental concepts of a general chemistry course are investigated. Some topics include use of renewable feedstocks, atom economy, catalysis, waste prevention, and design for degradation.
Attributes: Physical Science(Discovery)
Equivalent(s): CHEM 444G

CHEM 409 - Chemistry and Society
Credits: 4
Elementary survey of chemistry; integrates principles and applications. For students who do not intend to take any other chemistry courses and those interested in satisfying a general education science requirement. Not a prerequisite for any other chemistry courses. (Not offered every year.) Chemistry majors are excluded from taking this course.
Attributes: Physical Science(Discovery); Inquiry (Discovery)

CHEM 411 - Introductory Chemistry for Life Sciences
Credits: 4
Fundamental and pragmatic aspects of chemistry, particularly as foundation for nutritional biochemistry. Includes basics of bonding, acid/base behavior, reaction energy, intermolecular forces, stoichiometry, and equilibrium. High school chemistry not required. This course is not a replacement to CHEM 403 and is not an acceptable pre-requisite for CHEM 404. Special fee. Only open to the following majors: Dairy Management, Wildlife&Conservation Biology, Zoology, Nutrition, Nutr: Dietetics, Nutr: Nutrition & Wellness, Sust Agriculture& Food Systems, and Environmental Horticulture.
Attributes: Discovery Lab Course; Physical Science(Discovery)

CHEM 413 - General Chemistry Lecture I
Credits: 3
Fundamental laws and concepts applied to nonmetals, metals, and their compounds. For students who plan to take further chemistry courses. Previous chemistry recommended. Knowledge of algebra, exponents, and logarithms required. Special permission required. Not offered every summer. Cannot be taken for credit if credit received for CHEM 401, CHEM 403, CHEM 405, or CHEM 409.
Equivalent(s): CHEM 401, CHEM 403, CHEM 405, CHEM 409

CHEM 414 - General Chemistry Lab I
Credits: 1
Lab application of fundamental laws and concepts applied to nonmetals, metals and their compounds. Previous general chemistry lecture required. Special permission. Special fee. Not offered every summer. Cannot be taken for credit if credit received for CHEM 401, CHEM 403, CHEM 405, or CHEM 409. Not open to Chemistry majors.
Equivalent(s): CHEM 401, CHEM 403, CHEM 405, CHEM 409

CHEM 415 - General Chemistry Lecture II
Credits: 3
Fundamental laws and concepts applied to nonmetals, metals, and their compounds. For students who plan to take further chemistry courses. Previous chemistry recommended. Knowledge of algebra, exponents, and logarithms required. Cannot be taken for credit if credit received for CHEM 402 or CHEM 404. Prereq: CHEM 403 or CHEM 413.
Equivalent(s): CHEM 402, CHEM 404, CHEM 404H

CHEM 416 - General Chemistry Lab II
Credits: 1
Lab application of fundamental laws and concepts applied to nonmetals, metals and their compounds. Previous general chemistry lecture required. Special permission. Special fee. Not offered every summer. Cannot be taken for credit if credit received for CHEM 402 or CHEM 404. Prereq: CHEM 403 or CHEM 414. Not open to Chemistry majors.
Equivalent(s): CHEM 402, CHEM 404, CHEM 404H

CHEM #444A - Fire and Ice
Credits: 4
Embraces a focus on the perception, movement, creation, understanding, and everyday use of heat. Examines historical evolution and controversy regarding the concept of heat across physical and life sciences.
Attributes: Physical Science(Discovery); Inquiry (Discovery)
CHEM #444B - Symmetry in Nature, The Arts, and Daily Life
Credits: 4
The elements of symmetry and its occurrence and role in nature (bilateral symmetry in butterflies and animals; cylindrical symmetry in trees and volcanoes; helical symmetry in shells, proteins, and DNA; the role of symmetry in design of medicines); its role in art and design (textiles, advertising); and in our lives (design of houses, chairs, scissors).

 Attributes: Physical Science(Discovery); Inquiry (Discovery); Writing Intensive Course
 Equivalent(s): TECH 444

CHEM 4440 - The Story of Oxygen
Credits: 4
The course will deal with a single element - oxygen. We will examine the role that oxygen compounds play in the atmosphere, including the ozone layer, global warming, and smog. In addition, the history of oxygen can be seen as emblematic of the development of chemistry from the mystical philosophy of alchemy to a quantitative science. We will discuss the development of chemistry by considering the history of our understanding of the element.

 Attributes: Physical Science(Discovery); Inquiry (Discovery)

CHEM 496 - Freshman Independent Study
Credits: 1-8
Independent study for students who have not had organic chemistry. Designed for students who wish to pursue independent study topics, but do not have the experience to pursue lab research. Cannot be counted toward the major. (Not offered every year.)

CHEM 501 - Peer-led Team Learning in Chemistry
Credits: 2
Initial experience as peer instructional leader. Practical application of theories of cognition, group dynamics, learning, and motivation to helping other students learn chemistry in general chemistry.Requires one weekly meeting with students. Permission required. Prereq: CHEM 403 or CHEM 404.

CHEM 502 - Advanced Peer-led Team Leadership in Chemistry
Credits: 1
Development and assessment of leadership skills. Practical application of theories of cognition, group dynamics, learning, and motivation to helping other students learn chemistry in general chemistry. Requires one weekly meeting with students. Permission required. Prereq: CHEM 403 and CHEM 501.

CHEM 503 - Mentoring for Peer Team Learning
Credits: 1
Experienced leaders mentor a new leader in implementation of PLTL model, including initial co-leading and observational formative assessment. Mentors report on mentee development, visit other experienced leaders, and provide a final evaluation. Mentors lead their own weekly group and assist part-time in the PLTL leader meetings. Prereq: CHEM 501.

CHEM 517 - Quantitative Analysis
Credits: 4
Combines lecture, laboratory, and in-class problem solving to study solubility, acid-base, redux, and complexation reactions and their application for quantitative chemical measurements. Prereq: CHEM 404 or CHEM 405. Lab.

 Attributes: Physical Science(Discovery); Inquiry (Discovery)
 Equivalent(s): CHEM 518

CHEM 518 - Quantitative Analysis Laboratory
Credits: 1
Volumetric methods with an emphasis on technique; separations; and selected instrumental methods such as potentiometry, spectrophotometry, atomic absorption, and gas chromatography. Prereq: CHEM 404 or CHEM 405. Special fee.

 Co-requisite: CHEM 517
 Equivalent(s): CHEM 407

CHEM 545 - Organic Chemistry
Credits: 3
Introductory study of carbon compounds for those who desire a brief terminal course. This course is a one semester course only. CHEM 545 and 546 are not applicable for pre-med, pre-vet, pharmacological majors or minors requiring a year long course of organic. CHEM 545 and CHEM 546 cannot be used to meet semester 1 of the year-long organic course (CHEM 547 or CHEM 651). Prereq: CHEM 403 and CHEM 403L and CHEM 404 and CHEM 404L or CHEM 405. CHEM 545 and CHEM 546L are co-requisites and must be taken together.

 Co-requisite: CHEM 546
 Equivalent(s): CHEM 402, CHEM 547, CHEM 548, CHEM 651, CHEM 652

CHEM 546 - Organic Chemistry Laboratory
Credits: 2
Introductory study of carbon compounds for those who desire a brief terminal course. Prereq: CHEM 404 or CHEM 405. Lab.

 Co-requisite: CHEM 545

CHEM 547 - Organic Chemistry I
Credits: 3
Principal classes of organic compounds, aliphatic and aromatic; class reactions and structural theory. Intended primarily for chemistry and biochemistry majors. Prereq: CHEM 404; CHEM 405/OR permission. Students receiving credit for CHEM 547-548 may not receive credit for either CHEM 545 or CHEM 651 and CHEM 652.

 Co-requisite: CHEM 549
 Equivalent(s): CHEM 545, CHEM 651, CHEM 652

CHEM 548 - Organic Chemistry II
Credits: 3
Principal classes of organic compounds, aliphatic and aromatic; class reactions and structural theory. Intended primarily for chemistry and biochemistry majors. Prereq: CHEM 404; CHEM 405; and CHEM 547/OR permission. Students receiving credit for CHEM 547 and CHEM 548 may not receive credit for either CHEM 545 or CHEM 651 and CHEM 652. Only listed majors allowed: Chemistry (BS), Chemistry (BA), Bchmmolcebio, and Biochemistry.

 Co-requisite: CHEM 550
 Equivalent(s): CHEM 545, CHEM 651, CHEM 652

CHEM 549 - Organic Chemistry Laboratory
Credits: 2
Special fee. Lab.

 Co-requisite: CHEM 547
 Equivalent(s): CHEM 545, CHEM 546, CHEM 651, CHEM 652

CHEM 550 - Organic Chemistry Laboratory
Credits: 2
Special fee. Lab.

 Co-requisite: CHEM 548
 Equivalent(s): CHEM 564
CHEM 574 - Chemistry Across the Periodic Table
Credits: 4
Ninety-eight elements form the building blocks of every substance on Earth—they are elegantly organized into what we now call The Periodic Table. This course will discuss the structure/property/reactivity patterns inherent in The Periodic Table, their origins according to the quantum mechanical model of the atom, and how they are manifest in current research advancements and modern applications of main group element chemistry, transition metal chemistry, and the chemistry of solids and materials. Prereq: CHEM 404 or CHEM 405.
Attributes: Inquiry (Discovery)

CHEM 576 - Experimental Inorganic Chemistry
Credits: 2
This laboratory course is an introduction to synthetic methods in inorganic chemistry and the study of the elements across the periodic table. This course will emphasize the use of spectroscopic and analytical techniques specifically aimed at characterizing and identifying inorganic compounds, such as multi-nuclear NMR, UV/Vis, IR spectroscopy, X-ray diffraction and mass spectrometry. An introduction to scientific writing will be included. Special fee. CHEM 574 is a pre- or co-requisite.

CHEM 651 - Organic Chemistry I
Credits: 3
Principal classes of organic compounds, aliphatic and aromatic, class reactions and structural theory. Intended primarily for pre-healing arts, biological science, and health science students. Prereq: CHEM 404; CHEM 405; or permission. Students receiving credit for CHEM 651 and CHEM 652 may not receive credit for either CHEM 545 or CHEM 547 and CHEM 548.
Co-requisite: CHEM 653
Equivalent(s): CHEM 545, CHEM 547, CHEM 548

CHEM 652 - Organic Chemistry II
Credits: 3
Principal classes of organic compounds, aliphatic and aromatic, class reactions and structural theory. Intended primarily for pre-healing arts, biological science, and health science students. Prereq: CHEM 404; CHEM 405; and CHEM 651 or permission. Students receiving credit for CHEM 651 and CHEM 652 may not receive credit for either CHEM 545 or CHEM 547 and CHEM 548.
Co-requisite: CHEM 654
Equivalent(s): CHEM 545, CHEM 547, CHEM 548

CHEM 652A - Organic Chemistry II
Credits: 3
Principal classes of organic compounds, aliphatic and aromatic, class reactions, and structural theory. Intended primarily for pre-healing arts, biological science, and health science students. Prereq: CHEM 404; CHEM 405; and CHEM 651 or permission. Students receiving credit for CHEM 651 and CHEM 652 may not receive credit for either CHEM 545 or CHEM 547 and CHEM 548. This course is for Chemical Engineers only.

CHEM 653 - Organic Chemistry Laboratory
Credits: 2
Special fee. Lab.
Co-requisite: CHEM 651
Equivalent(s): CHEM 549

CHEM 654 - Organic Chemistry Laboratory
Credits: 2
Special fee. Lab.
Co-requisite: CHEM 652
Equivalent(s): CHEM 550

CHEM 658 - Physical Chemistry Laboratory
Credits: 2
Measurement of thermodynamic properties, chemical kinetics, and methods of determining the structure of matter. Prereq: CHEM 404 or 405; MATH 426. Pre- or Coreq: PHYS 402 or PHYS 407. Coreq: CHEM 683 and CHEM 684. Special fee.
Co-requisite: CHEM 685
Equivalent(s): CHEM 681, CHEM 682

CHEM 668 - Physical Chemistry Laboratory
Credits: 2
Measurement of thermodynamic properties, chemical kinetics, and methods of determining the structure of matter. Prereq: CHEM 404 or 405; MATH 426. Pre- or Coreq: PHYS 407 or PHYS 402. Coreq: CHEM 683 and CHEM 684. Special fee.
Co-requisite: CHEM 683

CHEM 682 - Physical Chemistry Laboratory
Credits: 3
Topics may be chosen from: properties of gases, liquids, and solids; thermochemistry, and thermodynamics; chemical equilibria; reaction rates; quantum chemistry and spectroscopy. Prereq: CHEM 404 or CHEM 405 and CHEM 683; MATH 426. Pre- or Coreq: PHYS 402 or PHYS 407.
Co-requisite: CHEM 686
Equivalent(s): CHEM 681, CHEM 682

CHEM 683 - Physical Chemistry I
Credits: 3
Topics may be chosen from: properties of gases, liquids, and solids; thermochemistry, and thermodynamics; chemical equilibria; reaction rates; quantum chemistry and spectroscopy. Prereq: CHEM 404 or CHEM 405; MATH 426. Pre- or Coreq: PHYS 402 or PHYS 407. Coreq: CHEM 685 and CHEM 686.
Co-requisite: CHEM 685
Equivalent(s): CHEM 681, CHEM 682

CHEM 684 - Physical Chemistry II
Credits: 3
Topics may be chosen from: properties of gases, liquids, and solids; thermochemistry, and thermodynamics; chemical equilibria; reaction rates; quantum chemistry and spectroscopy. Prereq: CHEM 404 or CHEM 405 and CHEM 683; MATH 426. Pre- or Coreq: PHYS 402 or PHYS 407.
Co-requisite: CHEM 686
Equivalent(s): CHEM 681, CHEM 682

CHEM 685 - Physical Chemistry Laboratory
Credits: 2
Measurement of thermodynamic properties, chemical kinetics, and methods of determining the structure of matter. Prereq: CHEM 404 or 405; MATH 426. Pre- or Coreq: PHYS 407 or PHYS 402. Coreq: CHEM 683 and CHEM 684. Special fee.
Co-requisite: CHEM 683

CHEM 686 - Physical Chemistry Laboratory
Credits: 2
Measurement of thermodynamic properties, chemical kinetics, and methods of determining the structure of matter. Prereq: CHEM 404 or 405; MATH 426. Pre- or Coreq: PHYS 407 or PHYS 402. Coreq: CHEM 683 and CHEM 684. Special fee.
Co-requisite: CHEM 684
Equivalent(s): CHEM 686W

CHEM 696 - Independent Study
Credits: 1-4
For exceptional students. Individual reading, writing, or laboratory work carried out under the tutelage of a faculty member. May be used to replace specific required courses in chemistry. Prereq: approval of the adviser and department chairperson. Credits to be arranged.

CHEM 708 - Spectroscopic Investigations of Organic Molecules
Credits: 3
Identification and structural analysis of chemical compounds by selected instrumental methods. Typical topics include proton and carbon-13 NMR spectroscopy, IR and UV spectroscopy, and mass spectrometry.

CHEM 755 - Advanced Organic Chemistry
Credits: 3
Methods of synthesis and determination of structure, including stereochemistry of complex organic compounds. Prereq: CHEM 548 or CHEM 652 or equivalent.

CHEM 756 - Advanced Organic Chemistry Laboratory
Credits: 2 or 3
Synthesis and structural determination of complex organic compounds, techniques for the separation, determination of purity, and identification of compounds by spectroscopic and chemical means. Coreq for CHEM majors: 755.
Co-requisite: CHEM 755
Equivalent(s): CHEM 756W
CHEM 762 - Instrumental Methods of Chemical Analysis
Credits: 3
Theory, instrumentation, and application of methods such as atomic absorption, coulometry, emission spectrography, gas and liquid chromatography, polarography, potentiometry, IR and UV-VIS absorption spectrophotometry, and mass spectrometry to chemical analysis. Prereq: CHEM 406 or CHEM 517; CHEM 684 as a pre- or co-requisite; or permission.
Co-requisite: CHEM 763

CHEM 763 - Instrumental Methods of Chemical Analysis Laboratory
Credits: 2 or 3
Experimental parameters, error analysis, and applications of the methods covered in CHEM 762. Special fee.
Co-requisite: CHEM 762
Equivalent(s): CHEM 763W

CHEM 774 - Inorganic Chemistry
Credits: 3
Basic theoretical concepts and their applications to inorganic reactions and compounds. Prereq: organic chemistry; physical chemistry; or permission.

CHEM 775 - Inorganic Chemistry Laboratory
Credits: 2
In-depth instruction of selected techniques of synthesis and characterization of inorganic compounds. Emphasis on the analysis and presentation of results and experiment planning. Includes open-ended and collaborative projects. Special fee.
Co-requisite: CHEM 774
Equivalent(s): CHEM 775W

CHEM 776 - Physical Chemistry III
Credits: 3
Application of quantum theory to atomic electron structure, molecular structure, and spectroscopy. Advanced topics in physical chemistry. Prereq: CHEM 683-684. Special fee.

CHEM 777 - Advanced Synthesis and Characterization
Credits: 3
This is an advanced laboratory course involving the synthesis and characterization of organic and inorganic compounds. Students will leave this course with sufficient proficiency to reproduce synthetic procedures and prepare compounds from the chemical literature. Special fee. Prereq: CHEM 550, CHEM 576.

CHEM 795 - Special Topics
Credits: 2-4
New or specialized topics not covered in regular course offerings. Prereq: permission.
Repeat Rule: May be repeated for a maximum of 4 credits.

CHEM 798 - Senior Seminar
Credits: 1
Student reports on topics of interest. Writing intensive. Prereq: CHEM 548 or CHEM 652, CHEM 684. Cr/F.
Attributes: Writing Intensive Course
Equivalent(s): CHEM 698

CHEM 799 - Senior Thesis
Credits: 4
Yearlong investigation in a selected topic, with background and experimental investigation. For chemistry majors who have completed CHEM 548, CHEM 694, and CHEM 762. Required for B.S. majors. Strongly recommended for B.A. chemistry majors. Prereq: 2.50 average and approval of department chairperson. Prereq: CHEM 548, CHEM 684, CHEM 762. Permission required. Lab. Two semesters of 4 credits each are required. Writing intensive.
Attributes: Writing Intensive Course
Repeat Rule: May be repeated up to 1 time.
Equivalent(s): CHEM 699

Chinese (CHIN)

# Course numbers with the # symbol included (e.g. #400) have not been taught in the last 3 years.

CHIN 400 - Conversational Chinese
Credits: 4
This course, for students with no previous training in Chinese, is designed to promote conversational skills in the target language. Communicative strategies are developed within the context of cultural components. Topics include those which enable students to function in China in everyday situations (e.g., food, leisure activities, transportation, business exchanges, tourism, and daily life). This course does not satisfy the foreign language requirement.
Repeat Rule: May be repeated for a maximum of 8 credits.

CHIN 401 - Elementary Chinese I
Credits: 4
Designed for students without previous knowledge of Chinese. Focuses on developing communicative proficiency in listening, speaking, reading, and writing. Students will learn basic vocabulary and sentence structures for use in essential everyday situations, as well as aspects of Chinese culture and society related to the course materials.

CHIN 402 - Elementary Chinese II
Credits: 4
Focuses on developing communicative proficiency in listening, speaking, reading, and writing. Students will learn basic vocabulary and sentence structures for use in essential everyday situations, as well as aspects of Chinese culture and society related to the course materials. CHIN 401 and CHIN 402 taken together satisfies the foreign language requirement.
Attributes: Foreign Language Requirement

CHIN 410 - Communicative Chinese for the Professions
Credits: 4
A skill-based course for students who wish to focus on the Chinese language in relation to the health fields, business, law, tourism, and social service. Helps students develop a practical understanding of China through communicative activities in specific fields. Does not satisfy the foreign language requirement.
Repeat Rule: May be repeated for a maximum of 8 credits.
CHIN 420 - Summer Experience in China
Credits: 4
This course is designed to let students experience the Chinese language and culture first hand. It is conducted in China each summer. Students first travel to Beijing, Xian, Chengdu and Shanghai for about a week with a faculty. They then need to learn the basic Chinese conversation for two and a half weeks at Chengdu University. Students can choose to take either elementary or intermediate Chinese in Chengdu.
Co-requisite: INCO 589
Repeat Rule: May be repeated for a maximum of 8 credits.

CHIN 425 - Introduction to Chinese Culture
Credits: 4
Conducted in English. This course offers a critical introduction to Chinese culture, including its three philosophical foundations, various branches of cultural production, and modern transformation. Explores the intellectual, literary, artistic, and socio-political issues that have shaped Chinese culture for the past two and a half millennia. Students can expect to gain in-depth knowledge of some major elements that define the Chinese tradition, and to develop critical skills of textual interpretation and analytical thinking.
Attributes: World Cultures(Discovery)

CHIN 503 - Intermediate Chinese I
Credits: 4
Focuses on developing communicative proficiency in listening, speaking, reading, and writing. Students will strengthen the language skills learned at previous levels, and acquire more advanced vocabulary and sentence patterns, as well as related cultural knowledge, to deal with more complicated everyday situations.
Attributes: World Cultures(Discovery)

CHIN 504 - Intermediate Chinese II
Credits: 4
Focuses on developing communicative proficiency in listening, speaking, reading, and writing. Students will strengthen the language skills learned at previous levels, and acquire more advanced vocabulary and sentence patterns, as well as related cultural knowledge, to deal with more complicated everyday situations.
Attributes: World Cultures(Discovery)

CHIN 521 - What does it Mean to be Modern? Lenses of Modern Chinese Literature and Film
Credits: 4
Conducted in English. This course explores various facets of the modern experience through the lenses of 20th and 21st century Chinese literature and film. We will discuss both the general intellectual, ethical, socio-political, historical and aesthetic issues that shape the global modernity, and the particular situations China faces as a non-Western culture with its own unique history. Major works from mainland China, Hong Kong, and Taiwan.
Attributes: Humanities(Disc); Writing Intensive Course

CHIN 631 - Advanced Chinese Conversation and Composition I
Credits: 4
Focuses on developing communicative proficiency in listening, speaking, reading, and writing at an advanced level. While students continue to consolidate their speaking and listening skills, more emphasis will be placed on reading and writing skills.

CHIN 632 - Advanced Chinese Conversation and Composition II
Credits: 4
Focuses on developing communicative proficiency in listening, speaking, reading, and writing at an advanced level. While students continue to consolidate their speaking and listening skills, more emphasis will be placed on reading and writing skills.

CHIN 686 - Spring Semester in Chengdu China
Credits: 16
*Discovery World Cultures fulfilled by length of time in county*. The program provides a unique opportunity to study abroad in Chengdu, China during the spring semester. It enables upper-level students in the Chinese language program as well as students in other colleges to spend a full semester immersed in another language and culture. Special fee.
Co-requisite: INCO 588
Attributes: World Cultures(Discovery)

CHIN 795 - Independent Study
Credits: 1-4
Open to highly qualified juniors and seniors. To be taken only with the permission of department chairperson and of the supervising faculty member or members. Barring duplication of subject, may be repeated for credit. Prereq: instructor permission.
Repeat Rule: May be repeated up to 4 times.

Civil & Environmental Engineering (CEE)

# Course numbers with the # symbol included (e.g. #400) have not been taught in the last 3 years.

CEE 400 - Introduction to Civil Engineering
Credits: 4
Introduction to the civil engineering profession: structural, geotechnical, water resources, materials, and environmental. Overviews the civil project process including the creative design process, teamwork, bidding and construction. The relationship between civil engineering works and society including ethics, earthquakes, failures, successful signature structures, current events, and professional licensure. The production of professional engineering documents including writing tasks and calculations sets. Campus resources, the University system, and relationship between required curriculum, student objectives, and the civil engineering profession. Introduction to spreadsheet software, data analysis, and probability and statistics.
Attributes: Environment,TechSociety(Disc); Inquiry (Discovery)
Equivalent(s): CIE 402

CEE 402 - 2D Computer Aided Design
Credits: 3
This course will serve as an introduction to some of the fundamental principles of building design and land planning. You will prepare plans representative of building construction and land development commonly used in the architectural, engineering, surveying and construction fields. The emphasis will be on the end result: Preparing complete and professional plans. Through this, you will acquire basic skills in designing and plan layout required by these industries. We will approach this material by designing and drafting using computer software (AutoCAD). Another end outcome is that you will gain a certain level of competency with this AutoCAD software, a program used by the majority of the firms in these professions.
Equivalent(s): TECH 564
CEE 403 - GIS for Civil and Environmental Engineering
Credits: 3
This course will serve as an introduction to some of the fundamental principles of Geographic Information Systems integral to Civil and Environmental Engineering. Students will develop an understanding of imagery and data acquisition; develop skills in identification, interpretation, and mapping of civil and land features, terrain analysis, and achieve an understanding of map projections; gain experience in GIS software to perform fundamental geoprocessing and mapping techniques.

CEE 404 - Surveying and Mapping
Credits: 4
Attributes: Writing Intensive Course
Equivalent(s): CIE 505

CEE 420 - Environmental Engineering Lectures I
Credits: 3
Introduces the profession, the environmental engineer as planner, designer, problem solver, and interdisciplinary team player; and the goals of the environmental engineering curriculum. Lectures by faculty and practitioners. Introduction to computer skills required for environmental engineering. Engineering ethics.
Equivalent(s): ENCV 400, ENE 400

CEE 444 - Housing - Everyone Needs a Place to Live
Credits: 4
A discussion of residential housing, whether from the larger societal view or from the viewpoint of an individual, involves more than just the concepts associated with engineering. In order for the discussion to be complete, one needs to include legislative issues, economic issues, land issue, energy issues and environmental issues along with a variety of engineering issues (construction, transportation, water, materials, environmental controls, etc.). Thus a major focus of the course will be to provide a student with an appreciation of breath and complexity of the issues associated with providing housing.
Attributes: Environment, Tech Society (Disc); Inquiry (Discovery)
Equivalent(s): CIE 444

CEE 500 - Statics for Civil Engineers
Credits: 3
Introduction to statics with emphasis on civil engineering topics; two and three dimensional force systems; static equilibrium; friction; analysis of trusses and beams; centroids; and moment and shear diagrams for flexural members. Prereq: PHYS 407. Pre- or Coreq: MATH 426.
Equivalent(s): CIE 525, CIE 529, ME 525

CEE 501 - Strength of Materials
Credits: 3
Strength of materials with emphasis on civil engineering applications. Virtual work; work and energy relationships; analysis of members subjected to flexure, torsion, and axial loads; stresses and strains; and stability of columns. Prereq: CEE 500 or ME 525.
Equivalent(s): CIE 526, CIE 529, ME 526

CEE 502 - Project Engineering
Credits: 3
Techniques for financial analysis, and operation and management of engineering systems, engineering economics, material take-offs, estimating, scheduling, modeling physical systems, and decision-making.
CEE major or permission.
Equivalent(s): CIE 533, CIE 633, CIE 733

CEE 520 - Environmental Pollution and Protection: A Global Context
Credits: 4
Introduces environmental science and engineering and the anthropogenic causes of environmental change. Emphasizes the causes, effects, and controls of air, water, and land pollution. The political, ecological, economic, ethical, and engineering aspects of environmental pollution and control are discussed. Field trips. Writing intensive.
Attributes: Environment, Tech Society (Disc); Writing Intensive Course
Equivalent(s): BIOL 520, ENCV 520, ENE 520

CEE 620 - Fundamental Aspects of Environmental Engineering
Credits: 4
Application of fundamental concepts of mass balance in treatment processes. Physical, chemical, and biological aspects of pollution control, and design concepts for operations and processes used in environmental engineering are discussed. Concepts of engineering ethics are presented. Students participate in a design project that involves an oral presentation and written report. Prereq: CHEM 404, CIE 650, CEE 520; or permission. Writing intensive.
Attributes: Writing Intensive Course
Equivalent(s): ENCV 645, ENE 645

CEE 626 - Field Experience
Credits: 1
Based on appropriate career-oriented work experience in environmental engineering. Student can get one credit for field experience. A written final report is required as well as permission of student’s adviser.
Equivalent(s): ENCV 696, ENE 696

CEE 627 - Internship
Credits: 2
Off-campus work in the environmental engineering field for on-the-job skill development. Needs to be supervised by an environmental engineering faculty member; and a proposal for the internship must be submitted and have permission of the ENE faculty prior to the start of the internship. Prereq: permission. IA (continuous grading).
Equivalent(s): ENCV 697, ENE 697

CEE 635 - Engineering Materials
Credits: 4
Structural properties and applications of the various materials used in civil engineering projects, including steel, cement, mineral aggregates, concrete, timber, and bituminous materials. Microstructure and properties of common metals, plastics, and ceramics. Prereq: CEE major or permission, CEE 501 or ME 526. Lab. Writing intensive.
Attributes: Writing Intensive Course
Equivalent(s): CIE 622
CEE 650 - Fluid Mechanics
Credits: 4
Properties of fluids, fluid statics, continuity, momentum and energy equations, resistance to flow, boundary layer theory, flow in open channels and piping systems, dimensional analysis, similitude, drag, and lift. Laboratory exercises on measurement of fluid properties, energy principles, flow resistance, discharge measurements, momentum, hydropower, groundwater flow, and settling of spheres. Prereq: PHYS 407, CEE Hydrology major; or permission. Lab. Writing intensive.
Attributes: Writing Intensive Course
Equivalent(s): CIE 642

CEE 665 - Soil Mechanics
Credits: 4
Soil classification and physical properties. Permeability, compressibility, consolidation, and shearing resistance are related to the behavior of soils subjected to various loading conditions. Prereq: CEE 695, CEE 650, CEE major; or permission.
Equivalent(s): CIE 665

CEE 680 - Classical Structural Analysis
Credits: 3
Analytical stress and deflection analysis of determinate and indeterminate structures under static and moving loads by classical methods. Prereq: CEE 501, CEE major; or permission.
Equivalent(s): CIE 681

CEE 700 - Building Information Modeling
Credits: 3
Building Information Modeling (BMI) is the process of generating and managing project data during its life cycle by integrating 3D multidisciplinary drawings with dynamic scheduling and visualization. BIM provides a digital representation of project data to facilitate the exchange of information beyond the standard two dimensional plan set. This course introduces students to the fundamentals of model creation, scheduling, material take-offs, visualizations, and animations that improve the communication of information to potential clients. Prereq: CEE 702, CEE major; or permission.
Equivalent(s): CIE 780

CEE 702 - Issues in Engineering Practice and Management
Credits: 3
Non-technical professional engineering topics including: participation in multidisciplinary teams, interpersonal and human resources skills, verbal and written communication skills, project management, marketing, ethics, professional licensure, professional liability, and contract administration. Prereq: seniors only; juniors with permission.
Equivalent(s): CIE 778

CEE 703 - Residential Construction
Credits: 3
Introduces innovations in residential design. Investigates heat loss, electrical usage, green energy alternatives, and construction procedures. Addresses private and subdivision construction and mortgage financing for residential properties. Considers planning, zoning and soil usage codes applicable to residential zoned areas. Each student prepares a set of construction drawings for a private home, and a subdivision layout.
Equivalent(s): CIE 753

CEE 704 - Transportation Eng & Planning
Credits: 3
Fundamental relationships of traffic speed, density, and flow applied to public and private modes of transport. Principles of demand forecasting and urban systems planning. Prereq: permission.
Equivalent(s): CIE 751, CIE 754

CEE 705 - Introduction to Sustainable Engineering
Credits: 3
This course begins with exploration of the precept that we live in, and must design engineering works for, a world with a finite supply of natural resources and with limited life support capacity. Tools for sustainability engineering are the focus of the course, which includes life cycle analysis and life cycle impact analysis, the metrics and mass and energy flow analyses used in the field of industrial ecology, and environmental management systems.

CEE 706 - Environmental Life Cycle Assessment
Credits: 3
This course teaches knowledge and hands-on-skills in conducting environmental life cycle assessment (LCA), which is a widely used technique by industries, academics, and governments. Students will learn to use popular LCA software (e.g. SimaPro), apply proper LCA techniques, critically analyze LCA results, and provide client-oriented suggestions during this course. Class time is primarily devoted to a combination of lectures and computer labs.
Equivalent(s): CIE 781

CEE 719 - Green Building Design
Credits: 3
This course gives an overview of green designs and sustainable practices in building construction. We will cover technical topics and requirements of a nationally recognized rating system (LEED), with a specific focus on Green Building Design and Construction. Students are introduced to basic building designs and systems related to sustainability. Additionally, they learn about green design topics such as site plans, water and energy efficiency, material and resources usage, environmental quality and renewable energy source. As an outcome of the course, students are able to assess and incorporate green technologies and designs into building projects.
Equivalent(s): CIE 781

CEE 720 - Solid and Hazardous Waste Engineering
Credits: 3
A thorough examination of the problems that exist in hazardous and solid waste management are presented in terms of the current regulations and engineering approaches used to develop solutions. Topics include risk-based decision making, transport and fate of contaminants, and the fundamental physical, chemical, and biological concepts, which make up the basis for technological solutions to these waste management problems. Case studies are used throughout the course to highlight key concepts and provide real-world examples.
Equivalent(s): ENCV 742, ENE 742

CEE 721 - Environmental Sampling and Analysis
Credits: 4
Theory of analytical and sampling techniques used in environmental engineering. Topics include potentiometry, spectroscopy, chromatography, automated analysis, quality control, sampling design, and collection methods. Methods discussed in lecture are demonstrated in labs. Prereq: CHEM 404 and CEE 620 or permission. Lab.
Equivalent(s): CEE 721W, ENCV 643, ENE 643, ENE 743, ENE 743W

CEE 722 - Introduction to Marine Pollution and Control
Credits: 4
Introduces the sources, effects, and control of pollutants in the marine environment. Dynamic and kinetic modeling; ocean disposal of on-shore wastes, shipboard wastes, solid wastes, dredge spoils, and radioactive wastes; and oil spills. Prereq: CEE 620 or permission.
Equivalent(s): ENCV 747, ENE 747
CEE 723 - Environmental Water Chemistry
Credits: 4
Emphasizes the use of chemical equilibrium principles and theory, calculations, and applications of ionic equilibrium stresses. Topics include thermodynamics, kinetics, acid/base, complexation, precipitation/dissolution, and redox equilibria. Computer equilibrium modeling is presented. Prereq: CHEM 404 or CHEM 405.
Equivalent(s): ENCV 749, ENE 749

CEE 724 - Environmental Engineering Microbiology
Credits: 4
Concepts of environmental engineering microbiology. Topics include taxonomy of species important in environmental engineering processes; microbial metabolism, interaction, and growth kinetics in environmental treatment processes; biogeochemical cycling in water; and effects of environmental parameters on environmental engineering microbial processes. Laboratories focus on microbiological methods and laboratory-scale biological treatment experiments. Prereq: CEE 520 and CEE 650 or permission. Lab. Writing intensive.
Attributes: Writing Intensive Course
Equivalent(s): ENCV 656, ENE 656, ENE 756

CEE 730 - Public Health Engineering for Rural and Developing Communities
Credits: 3
The application of environmental health engineering and sanitation principles in disease prevention and control are discussed. Special emphasis is given to areas of the world where communicable and related diseases have not yet been brought under control and to what can happen in more advanced countries when basic sanitary safeguards are relaxed. The following topics are covered: water-related diseases to include their transmission and control; safe water development, treatment, distribution and storage; and on-site wastewater treatment and disposal system.
Equivalent(s): ENCV 740, ENE 740

CEE 731 - Advanced Water Treatment Processes
Credits: 4
The primary objective of this course is to provide the environmental engineer with an overview of physical-chemical and biological unit water treatment processes. Major emphasis is placed on the analysis and design of both conventional and advanced water treatment unit processes/operations.
Equivalent(s): ENCV 744, ENE 744

CEE 732 - Solid and Hazardous Waste Design
Credits: 4
Selection, design, and evaluation of unit processes employed in the treatment of solid wastes and hazardous wastes will be studied. Topics include design of materials recovery facilities, landfills, waste-to-energy facilities and hazardous waste site remedial technologies. A group term project taken from a real-world project will be required. An oral presentation by the group and preparation of a final written engineering report including alternative evaluation, permits, scheduling and economic analysis will be required from each group. Prereq: CEE 720 or permission. Writing intensive.
Attributes: Writing Intensive Course
Equivalent(s): ENCV 748, ENE 748

CEE 733 - Public Infrastructure Asset Management
Credits: 4
The course provides a thorough examination of the growing engineering field of Public Infrastructure Assess Management (IAM). The course enables the student to design an IAM system. It touches upon all types of public infrastructure with a particular focus on water infrastructure for the semester design project. Students build upon their engineering economics and project engineering skills and use simple IAM software along with GIS applications. Practice leaders from the industry provide guest lectures throughout the semester. A focus on triple bottom line or the Societal, Environmental and Economic aspects of IAM are included. The format is a modified team base design learning experience providing practice in processing of technical lecture material, personal performance evaluation (frequent quizzes) and team based performance evaluation. Student groups will present their design to the class and provide a written engineering report. Pre- or Coreq: CEE 502 and CEE 620.
Equivalent(s): ENE 739

CEE 734 - Bioenvironmental Engineering Design
Credits: 4
Selection, design, and evaluation of unit processes employed in biological treatment of waters, wastewaters, and hazardous wastes. Preparation of engineering reports, including developing design alternatives and economic analysis, is required. Prereq: CEE 620 and CEE 724 or permission. Writing intensive.
Attributes: Writing Intensive Course
Equivalent(s): ENCV 747, ENE 746

CEE 735 - Properties and Production of Concrete
Credits: 3
Basic properties of hydraulic cements and mineral aggregates, and their interactions in the properties of plastic and hardened concrete; modifications through admixtures; production handling and placement problems; specifications; quality control and acceptance testing; lightweight, heavyweight, and other special concretes. Prereq: CEE 635 or permission.
Equivalent(s): CIE 722

CEE 736 - Asphalt Mixtures and Construction
Credits: 3
Specification of asphalt cements, aggregates and proportioning of mixture constituents for paving applications. Asphalt mixture design methods, production, construction, and quality control are discussed. Current new material production and construction technologies are introduced. Prereq: CEE 635.
Equivalent(s): CIE 723

CEE 737 - Pavement Rehabilitation, Maintenance, and Management
Credits: 3
This course covers the technical and financial strategies to extend the life of highway and airfield pavements. The course topics will include: Assessment of pavement functional and structural condition, suitability of pavement maintenance and repair techniques, use of pavement preservation processes, and application of asset management to extend the life of pavement infrastructure. Prereq: CEE 635.

CEE 748 - Pavement Design Project
Credits: 1
Semester long design project accompanying CEE 749 Pavement Design Analysis. The design project will require weekly meetings (either online or in person) for the duration of the semester. Meeting times will be arranged based on student schedules. This course, in combination with the 3-credit CEE 749 Pavement Design Analysis, will satisfy a senior level materials principal design elective in the CEE department.
Co-requisite: CEE 749
CEE 749 - Pavement Design and Analysis  
Credits: 3  
Introduction to flexible and rigid pavement design and analysis for highways and airports. Examines design inputs, materials, analysis methods, design tools, and maintenance treatments. This course satisfies a senior level materials design elective in the CEE department. This course, in combination with the 1-credit CEE 748 Pavement Design Project, will satisfy a senior level materials principal design elective in the CEE department. Prereq: CEE 635 and CEE 665.  
Equivalent(s): CIE 721

CEE 750 - Echidology  
Credits: 3  
Introduction to echidological concepts in terrestrial and riverine systems. Topics include the historical practices, resource management impacts, hydrologic variability, and the relationships among water and ecology, vegetation, biology, geomorphology, and water quality. Prereq: CEE 754 or CEE 705 or permission.  
Equivalent(s): CIE 750

CEE 751 - Open Channel Flow  
Credits: 3  
Energy and momentum principles in open channel flow; flow resistance; channel controls and transitions; unsteady flow concepts and dam failure studies. Modeling with HEC programs. Prereq: CEE 650 or permission.  
Equivalent(s): CIE 741

CEE 754 - Engineering Hydrology  
Credits: 3  
Hydrologic cycle, probability theory related to hydrology and the design of water resources structures, water law, flood discharge prediction, hydrograph development, hydraulic and hydrologic river routing, reservoir routing, theory of storage, reservoir operations, hydropower development, modeling of watershed hydrology with program HEC-1, HEC-HMS, multipurpose projects. Prereq: CEE 650 or permission.  
Equivalent(s): CIE 745

CEE 755 - Design of Pressurized Water Transmission Systems  
Credits: 4  
Theory developed for individual components to large complex systems. Analysis and designs of components and systems. Topics include: steady and unsteady closed conduit flow, values and meters, pump requirements, pump selection, system planning and layout, water hammer, and system operation and maintenance. Pressure system modeling with program EPANET. Prereq: CEE 650 or permission.  
Equivalent(s): CIE 755

CEE 757 - Coastal Engineering and Processes  
Credits: 3  
Introduction to small amplitude and finite amplitude wave theories. Wave forecasting by significant wave and wave spectrum method. Coastal processes and shoreline protection. Wave forces and wave-structure interaction. Design of coastal structures. Introduction to mathematical and physical modeling. Prereq: CEE 650 or permission.  
Equivalent(s): CIE 757, ME 757, OE 757

CEE 758 - Stormwater Management Designs  
Credits: 3  
Historic review of stormwater management leading up to the current regulatory framework. Overview of stormwater management strategies, strategy selection, and the targeting of specific contaminants, contaminant removal efficiencies, construction and site selection, and system maintenance. Hydrologic concepts including watershed and storm characteristics, design hydrology (peak flows, storm and treatment volumes), hydrograph routing, and critical review of hydrology and drainage reports. Design and sizing of treatment systems including: conventional, BMPs, low impact development, and manufactured devices. Rainfall runoff calculations with US SCS TR55 model. Prereq: CEE 650 or permission.  
Equivalent(s): CIE 758

CEE 759 - Stream Restoration  
Credits: 4  
The assessment, planning, design, engineering, and monitoring of stream and watershed practices intended to protect and restore the quality and quantity of flowing surface waters and stream corridors. Lecture material covers hydrology, geomorphology, and ecosystems, with the intent of understanding the variables associated with stream systems and their interplay. Students measure field variables and then are challenged with actual designs. Examples of stream restoration issues include: in-stream flow, dam removal, induced recharge, improvements to fish habitat, and channel stabilization. Prereq: CEE 650.  
Equivalent(s): CIE 759

CEE 765 - Engineering Behavior of Soils  
Credits: 4  
Equivalent(s): CIE 765

CEE 766 - Introduction to Geotechnical Earthquake Engineering  
Credits: 3  
Overviews earthquake source mechanisms; magnitude and intensity; seismicity of the United States. Dynamics of simple structures; response spectra. Selection of design parameters; source, magnitude, input records. Measurement of dynamic characteristics of soils; site response, liquefaction, and ground deformation. Prereq: CEE 778 or permission.  
Equivalent(s): CIE 766

CEE 767 - Geological Engineering  
Credits: 3  
Functional classification of rocks and rock masses, stereographic projection, engineering properties of rocks, and rock mechanics. The influence of geology in the design of underground excavations, tunneling foundations, and rock slope engineering. Prereq: ESCI 401 or permission.  
Equivalent(s): CIE 763
CEE 768 - Geo-Environmental Engineering  
Credits: 3  
Soil composition and structure; hydrogeology; attenuation and contaminant transport; containment design including landfills, geo-synthetics for liners and covers, leachate collection systems, vertical cutoff walls and stability analyses; geo-environmental site characterization and investigation using geotechnical and geophysical methods; ground water, soil and gas monitoring and sampling; remediation including in situ and ex situ techniques and treatment methods. Prereq: CEE 665 or permission.  
Equivalent(s): CIE 766

CEE 778 - Foundation Design I  
Credits: 4  
Foundation design based on subsurface investigation and characterization using current methods of laboratory and in situ testing. Use of consolidation theory and bearing capacity theory for the design of shallow foundations including footings and rafts. Basic design of pile foundations. Earth pressure theory applied to design of retaining walls. Slope stability theory and applications. Prereq: CEE 665 or permission.  
Equivalent(s): CIE 760

CEE 779 - Foundation Design II  
Credits: 3  
Advanced pile and pier design under vertical and lateral loads. Slope stability by circular and noncircular arc methods. Design of flexible bulkhead walls and mechanically stabilized walls. Excavation and dewatering. Soil and site improvement. Prereq: CEE 778 or permission.  
Equivalent(s): CIE 761

CEE 780 - Matrix Structural Analysis and Modeling  
Credits: 3  
Modeling and analysis of determinate and indeterminate structures by matrix computer methods. Creation of matrix elements using compatibility, equilibrium, and constitutive relationships. Plane trusses, beams, frames, and space trusses. Prereq: CEE 680 or permission.  
Equivalent(s): CIE 685, CIE 783

CEE 781 - Dynamics of Structures  
Credits: 3  
Equivalent(s): CIE 787

CEE 789 - Timber Design  
Credits: 3  
Introduces the design of timber structures. Structural properties of wood, determination of horizontal and vertical loads, horizontal and vertical load-resisting systems, and design of horizontal diaphragms, shear walls, beams, and columns. Bolted, screwed, and nailed connections. Prereq: CEE 680 or permission.  
Equivalent(s): CIE 782

CEE 790 - Structural Design in Masonry  
Credits: 3  
Introduces the design of reinforced masonry structural members by the stress and strength method and considering deflection and other serviceability performance criteria. Includes development of wind and seismic load, curtain wall, shear wall, lintels and columns. Prereq: CEE 635, CEE 680; or permission.  
Equivalent(s): CIE 776

CEE 791 - Reinforced Concrete Design  
Credits: 4  
Introduces the design of reinforced concrete structural members by the strength method and considering deflection performance. Includes loads, approximate analyses, slabs, beams, and columns. Prereq: CEE 635, CEE 680; or permission.  
Equivalent(s): CIE 774

CEE 792 - Pre-stressed Concrete  
Credits: 3  
Equivalent(s): CIE 791

CEE 793 - Structural Design in Steel  
Credits: 4  
Introduction to steel member design, including horizontal and vertical members for design and analysis of buildings. Examines design inputs, material choice, analysis methods and design and construction methodologies. Prereq: CEE 635 and CEE 680.  
Equivalent(s): CIE 792

CEE 794 - Bridge Design  
Credits: 3  
Pre- or Coreq: CIE 793.  
Equivalent(s): CIE 792

CEE 795 - Independent Study  
Credits: 1-4  
Seniors in good standing may pursue independent studies under faculty guidance. A written culminating report is required. Prereq: permission.  
Repeat Rule: May be repeated up to unlimited times.  
Equivalent(s): CIE 795

CEE 796 - Special Topics  
Credits: 1-4  
Advanced or specialized topics not normally covered in regular course offerings. May be repeated, but not in duplicate areas. Prereq: permission. Special Fee.  
Repeat Rule: May be repeated up to unlimited times.  
Equivalent(s): CIE 795

CEE 797 - Introduction to Project Planning and Design  
Credits: 1  
Part one of a two-part sequence. Student groups develop a project statement to address a large-scale civil engineering system design. Each team prepares a project plan to be executed in CEE 798, part two of this sequence. Cr/F.  
Equivalent(s): CIE 784

CEE 798 - Project Planning and Design  
Credits: 3  
Student groups are formed into design teams to prepare a design plan for a large-scale civil engineering system including consideration of budgetary constraints, building code criteria, and environmental impacts. Each team prepares a final written report and gives a formal presentation. Prereq: CEE 797; Civil Engineering and EnvEngr: Civil Engr majors only. Writing intensive.  
Attributes: Writing Intensive Course  
Equivalent(s): CIE 682, CIE 788
Civil Technology (CT)

CT 423 - Introduction to Surveying and Mapping
Credits: 3
An introduction to the field of surveying and mapping and its fundamental principles, theories and methods. Specifically: horizontal and vertical distance measurements, angle and direction measurements, determination of positions, areas and topographic contours. Includes mapping, geographic information systems and the Global Positioning System, measurement accuracy, and statistical analysis.
Co-requisite: CT 425
Equivalent(s): CT 224, CT 424

CT 425 - Surveying and Mapping Lab
Credits: 2
A series of labs and recitations that provide an introduction to the field of surveying and mapping and its fundamental principles, theories and methods. Specifically: horizontal and vertical distance measurements, angle and direction measurements, determination of positions, areas and topographic contours. Includes mapping, geographic information systems and the Global Positioning System, measurement accuracy, and statistical analysis.
Co-requisite: CT 423
Equivalent(s): CT 224, CT 424

CT 427 - 2D Computer Aided Design
Credits: 4
The student designs fundamental design project work including site work and buildings, prepares plans using computer software (AutoCAD). Emphasis is on learning the software, basic design and plan requirements. Students then apply this knowledge to produce presentation drawings and develop proficient skills with this software. The student also works concurrently on course projects. 2-hr lec/2-hr rec.
Equivalent(s): CT 222

CT 428 - 3D Design, Modeling and Visualization
Credits: 4
Provides foundational skills in critical thinking, design process and creative expression in three dimensions. Individual and group projects provide opportunities for enhancing spatial thinking, understanding and communication. Hand sketching, computer sketching, REVIT Building Information Modeling (BIM) software and ArcGIS Geographic Information System (GIS) software is utilized to develop a rich awareness of 3D spatial relationships in the natural and built environments.
Equivalent(s): CT 231

CT 429 - Construction Surveying
Credits: 3
A continuation of surveying topics not covered in CT 423 and CT 424, CT 442 and CT 541. Specifically: Geodesy, Map Projection Systems, State Plane Coordinates, Control Surveys, Static and Real Time Satellite Positioning, Astronomic Observations, Equipment Testing, Site Detail Mapping, Laser Scanning, Observation Adjustment Theory and 3D Least Squares Adjustment. Prereq: C- or better in CT 423 and CT 424. 3-hr lec/3-hr lab.
Equivalent(s): CT 243

CT 432 - Applied Environmental Technology
Credits: 4
The technical and administrative issues inherent to the management of our impact on the environment are covered. Topics to be covered include: examination of the evolution, design, and processes inherent to manage and treat stormwater, deliver potable water, collect and treat wastewater discharge, manage solid and hazardous waste, and promote recycling. Global climate change monitoring is also discussed when appropriate.
Equivalent(s): CT 232

CT 442 - Construction Surveying
Credits: 4
This course applies methods and techniques learned in CT 423/424 to real world situations. The student works as part of a project team on a proposed construction site. Tasks and materials covered include: setting control, mapping of sites, design and layout of roadways, site planning, building and infrastructure layout, area and volume calculations. Class expands on use of survey equipment such as data collectors, RTK/GPS and land design computer software. Prereq: CT 423 and CT 424 with a grade of C- or better. 2-hr lec/1-hr rec/2-hr lab.
Equivalent(s): CT 233

CT 483 - Mechanical and Electrical Systems
Credits: 4
Description, analysis and design application of conventional heating, ventilating, air conditioning, lighting and plumbing systems for residences. Electrical principles, laws, and installation with emphasis on the National Electrical Code. 2-hr lec/2-hr rec.
Equivalent(s): CT 227

CT 538 - Construction Contracting
Credits: 4
Overview of administrative skills required to manage a construction concern. Emphasis on project management through the entire construction and design process. Building codes and the ADA code included. 2-hr lec/2-hr rec.
Equivalent(s): CT 247

CT 541 - Legal Aspects of Surveying
Credits: 4
The legal issues involved when performing a property boundary survey are presented. Ownership of land, the search for boundary evidence, methods of performing research and resolving conflicting information and disputes are discussed. Other topics include: An introduction to legal principles, statutes, case law, terminology, liability, ethics and standards relating to surveying. A course-long project is undertaken whereby research, the search for evidence, a field survey, boundary determination and a plat are completed. Prereq: CT 423 and CT 424 with a grade of C- or better. 2-hr lec/2-hr rec.
Equivalent(s): CT 240

CT 542 - Advanced Surveying and Mapping
Credits: 4
A continuation of surveying topics not covered in CT 423 and CT 424, CT 442 and CT 541. Specifically: Geodesy, Map Projection Systems, State Plane Coordinates, Control Surveys, Static and Real Time Satellite Positioning, Astronomic Observations, Equipment Testing, Site Detail Mapping, Laser Scanning, Observation Adjustment Theory and 3D Least Squares Adjustment. Prereq: C- or better in CT 423 and CT 424. 3-hr lec/3-hr lab.
Equivalent(s): CT 243
CT 548 - Advanced Surveying Computation
Credits: 4
Emphasis on how to perform the typical surveying computations encountered in the field. Use of surveying and mapping software and plotters for topographic mapping and subdivision design. Advanced GIS theory and applications including Photogrammetry and Remote Sensing. Field equipment testing and adjustment. Prereq: CT 423 and CT 424, CT 442, CT 543, minimum grade of C- or better in all, or permission. 2-hr lec/2-hr rec.
Equivalent(s): CT 244

CT 551 - Statics and Materials
Credits: 4
Determining and evaluating physical properties of common building construction materials: wood, steel and non-ferrous metals, cement, concrete, brick, and bituminous materials. Application of materials to design of structural elements in beam and column applications, under various load conditions. Emphasis on appropriate material selection and optimization of design. Prereq: MTH 203. 2-hr lec/2-hr rec.
Equivalent(s): CT 230

CT 554 - Soils and Foundations
Credits: 4
Subsurface exploration, soil sampling, testing and evaluating subsurface materials, and their effect on foundations, site development, and construction. Hands-on laboratory component. Introduction to site excavation methods and foundation design. 2-hr lec/2-hr lab/rec.
Equivalent(s): CT 234

CT 557 - Land Design and Regulations
Credits: 4
Hydrology of drainage and storm water runoff, basic concepts of hydraulic flow in pipes and channels, and overview of pump systems. Technical and regulatory requirements of designing residential water supply and septic disposal systems. Review of federal, state, and local ordinances with respect to construction and land development. 2-hr lec/2-hr rec.
Equivalent(s): CT 237, CT 437

CT 558 - Building Science/Residential Construction
Credits: 4
The study of inter-relationship of physical principles that affect the functionality and life span of a building; foundations, floor and framing systems, roofing styles and options, siding and interior finish work, and fenestrations. The materials and methodologies of residential construction with an emphasis on energy efficiency, air quality management, and moisture control. Includes safe and efficient operation of industry-standard power tools in hands-on shop environment (table saw, jointer, miter saw, etc.).
Equivalent(s): AM 576

CT 581 - Architecture I History and Design
Credits: 4
Develops a basic understanding of American residential architectural history while developing architectural programming and design skills in a project based environment. Moderate CAD usage for project submissions 2-hr lec/2-hr rec.
Equivalent(s): CT 281

CT 582 - Architecture II
Credits: 4
Studio application of principles and skills developed in the architectural concentration. Design of a complete shelter system into the design development phase. Prereq: CT 581. 2-hr lec/2-hr rec.
Equivalent(s): CT 282

CT 591 - Studies
Credits: 1-4
Students who have the ability and adequate preparation to work independently may propose a contract to design a course or research project on a topic not available through existing course offerings. The purpose of this research is to explore new areas in the student's field of study or to pursue course material in greater depth. Work is supervised by an appropriate faculty/staff member and credit varies depending on the proposed project/research. Examples may include energy conservation, surveying, construction, or hydrographic surveying.
Equivalent(s): CT 291

CT 592 - Studies
Credits: 1-4
Students who have the ability and adequate preparation to work independently may propose a contract to design a course or research project on a topic not available through existing course offerings. The purpose of this research is to explore new areas in the student's field of study or to pursue course material in greater depth. Work is supervised by an appropriate faculty/staff member and credit varies depending on the proposed project/research. Examples may include energy conservation, surveying, construction, or hydrographic surveying.
Equivalent(s): CT 292

CT 597 - Work Experience
Credits: 0
Career-oriented work experience (10 weeks, full time) to include, but not limited to, architecture, construction, surveying, and mapping. Cr/F.
Equivalent(s): CT 297

Classics (CLAS)

# Course numbers with the # symbol included (e.g. #400) have not been taught in the last 3 years.

CLAS 400 - Exploring and Experiencing the Ancient World and its Legacy
Credits: 2
Covers aspects of the ancient world and its subsequent importance not found in the rest of the Classics curriculum or dealt with only briefly. Topics are chosen to be timely by connecting antiquity to current events, including pop culture, or to be enduring but under-appreciated. Emphasis on active and engaged learning and, where possible, experiential activities. May be repeated on different topics. Does not satisfy major requirements.
Repeat Rule: May be repeated for a maximum of 16 credits.

CLAS 401 - Classical Mythology
Credits: 4
Survey of myths and sagas of ancient Greece and Rome. No classical preparation necessary. Background course for majors in English, the arts, music, history, modern languages, classics. Special fee.
Attributes: Humanities(Disc)
Equivalent(s): CLAS 401H, CLAS 501, CLAS 501H

CLAS 401H - Honors/Classical Mythology
Credits: 4
Survey of myths and sagas of ancient Greece and Rome. No classical preparation necessary. Background course for majors in English, the arts, music, history, modern languages, classics. Special fee. Writing intensive.
Attributes: Humanities(Disc); Writing Intensive Course
Equivalent(s): CLAS 401, CLAS 501H
CLAS #402 - Hellenic and Roman Institutions
Credits: 4
Lecture, discussion. Introduction to ancient Greek and Roman literature. Emphasis on the institutions from the earliest period to the end of the classical age. Open to all students.
Equivalent(s): CLAS 502

CLAS 405 - Introduction to Greek Civilization
Credits: 4
A broad historical exploration of Greek civilization. Topics include: architecture, art, law, literature, philosophy, poetry, politics, religion, society, warfare, and the Greek's legacy to the modern world. Open to all students. No prior knowledge of the ancient world assumed; all readings are in English. Ideal background for students of English, philosophy, history, Latin, Greek, the arts, music, modern languages. Special fee. Attributes: Historical Perspectives(Disc)

CLAS 406 - Introduction to Roman Civilization
Credits: 4
A broad historical exploration of Roman civilization. Topics include: architecture, art, law, literature, philosophy, poetry, politics, religion, society, warfare, and their legacy to the modern world. Open to all students. No prior knowledge of the ancient world assumed; all readings are in English. Ideal background for students of English, philosophy, history, Latin, Greek, the arts, music, modern languages. Special fee. Attributes: Historical Perspectives(Disc)

CLAS 411 - Elementary Hittite I
Credits: 4
Elements of grammar, reading of simple prose. Special fee.

CLAS 412 - Elementary Hittite II
Credits: 4
Elements of grammar, reading of simple prose. Special fee.

CLAS #414 - Elementary Sanskrit II
Credits: 4
Elements of grammar, reading of simple prose. Special fee.

CLAS #421 - Major Greek Authors in English
Credits: 4
Major classical authors such as Homer, the Tragedians of Athens, Herodotus, Thucydides, and Plato in the context of their civilization, from which so much of our contemporary culture derives. For students unprepared to read Greek. Background for majors in English, history, Latin, Greek, the arts, music, philosophy, modern languages. Open to all students. Special fee. Writing intensive. Attributes: Humanities(Disc); Writing Intensive Course
Equivalent(s): CLAS 511

CLAS 444 - Individual and Society in the Ancient World
Credits: 4
This class examines one of the major issues faced by people throughout history, whether and under what circumstances an individual should act against the wishes of society. The great philosophical and historical works of the ancient world shed light not only on how the Greeks and Romans approached the idea of personal responsibility but also on the assumptions we today make about human nature and the relationships on which society depends. No prior knowledge of the ancient world required. All readings are in English. Writing intensive. Attributes: Humanities(Disc); Inquiry (Discovery); Writing Intensive Course

CLAS 444D - Athens, Rome, and the Birth of the United States
Credits: 4
What did Washington, Jefferson, Adams (John and Abigail), Madison and Paine have in common? They were all instrumental in shaping the US political system, but they were also educated in the classics. When building the framework of our democratic republic, they continually looked to Athens and Rome as models, inspirations and warnings. The course examines ancient political systems and how they helped fashion our founder's notion of the ideal government and continue to do so. Attributes: Historical Perspectives(Disc); Inquiry (Discovery); Writing Intensive Course

CLAS 500 - Classical Mythology: Topics in World Literature
Credits: 4
Topics are chosen to introduce students to major themes and genres. (Also offered as FREN 500, GERM 500, ITAL 500, PORT 500, RUSS 500, SPAN 500.) May be repeated for credit. Writing intensive. Attributes: Writing Intensive Course
Equivalent(s): FREN 500, GERM 500, ITAL 500, PORT 500, RUSS 500, RUSS 500W, SPAN 500, WLCE 500

CLAS #506 - Introduction to Comparative and Historical Linguistics
Credits: 4
Major language families (primarily Indo-European) and the relationships among the languages within a family. Diachronic studies, methods of writing, linguistic change, glottochronology, etymological studies. Some language training and LING 505 desirable. (Also offered as LING 506.) Attributes: Social Science (Discovery)
Equivalent(s): LING 506

CLAS 510 - Building Rome
Credits: 4
An introduction to the buildings and structures for which the Romans remain famous, such as the Pantheon, the Colosseum, and the aqueducts that allowed Rome to become a metropolis. A major focus is the connection between the changes in Roman society and the development of Roman architecture. Looks at both Rome and other important cities in the Roman Empire. All readings are in English. No prior knowledge of the ancient world required. Special fee. Co-requisite: INCO 589 Attributes: FinePerformingArts(Discovery)

CLAS 511 - Special Studies in Greek History
Credits: 4
The course uses historical and literary sources in conjunction with the city of Athens itself and its archaeological remains to explore the history of a particular theme, cultural practice or institution in ancient Greek civilization. The topics changes with different instructors but always takes a fundamentally historical orientation to the material and the city, even if interdisciplinary approaches are incorporated into the coursework. CLAS 511 is offered only as part of a study abroad program. Attributes: Historical Perspectives(Disc)

CLAS 520A - Classical Society, Politics and Ethics: Democracies and Republics
Credits: 4
We frequently use the terms "democracy" and "republic" to describe our own political system, but where did these words and ideas originally come from? This course examines the historical development of the original democracies in Greece (primarily Athens) and the Roman Republic, as well as the particular institutions and practices that were associated with each. Course will also cover the development of democratic and republican institutions in the modern world. No prerequisite. Open to all students. Attributes: Historical Perspectives(Disc)
CLAS 520B - Classical Society, Politics and Ethics: Happiness and Ancient Views of the Good Life
Credits: 4
How did the Greeks and Romans define happiness and was happiness considered an essential component of the "good life"? How do ancient concepts of the "good life" influence later views of human flourishing and how do specific historical circumstances alter utopian visions of a life well lived? This course traces the concept of the "good life" from ancient Greece to today and challenges students to create their own vision of a "good life".
Attributes: Historical Perspectives(Disc)

CLAS 520C - Classical Society, Politics and Ethics: Sports, Spectacle and Competition
Credits: 4
This course treats the details of athletic training and competition, but its primary focus is on investigating the importance of athletics to society and how athletics reflected the broader cultural values of the Greeks and Romans. Open to all students. All readings in English. Special fee.
Attributes: Historical Perspectives(Disc)

CLAS 520D - Classical Society, Politics and Ethics: Greek and Roman Religion
Credits: 4
This course traces the historical development of ancient Greek and Roman religion from its antecedents in Near Eastern, Minoan, and Mycenaean culture to the rise of Christianity in Rome's early imperial period. This course also introduces students to the methods and materials of historians of religion. Topics covered in this course include: changing conceptions of divinity, animal sacrifice, sanctuaries, festivals, death and the afterlife, divination, magic, and mystery cults.
Attributes: Historical Perspectives(Disc)
Equivalent(s): CLAS 520

CLAS 525 - Greek and Latin Origins of Medical Terms
Credits: 4
Study of medical terminology. Exercises in etymology and the development of vocabulary in a context at once scientific, historical, and cultural. No knowledge of Greek or Latin is required. Useful to premedical, pre-dental, pre-veterinary, nursing, medical technology, and other students in the biological and physical sciences. Open to all students. Special fee.

CLAS 530A - Classical Literary Performance Genres: War and Adventure in Ancient Epic
Credits: 4
Storytelling has long been one of the primary means to preserve and transmit cultural ideas and traditions. In this course students read and analyze the earliest epic tales from the Greek and Roman period with a view toward understanding the roots and nature of epic, the myths it told, and the influence it has had on subsequent literature. No credit earned if credit received for CLAS 444B.
Attributes: Humanities(Disc); Writing Intensive Course
Equivalent(s): CLAS 444B

CLAS 530B - Classical Literary and Performance Genres: Tragedy and Comedy on the Ancient Stage
Credits: 4
Investigations into the dramatic works of the Greek and Romans, the power of performance, and the cultural importance of stage productions. Readings include the tragedies of Aeschylus, Sophocles, and Euripides, and the comedies of Aristophanes, Menander, and Plautus. Ideal background for students of all theatrical and performance traditions. Open to all students. All readings in English. Special fee.
Attributes: Humanities(Disc)
Equivalent(s): CLAS 530

CLAS 540A - Environment, Technology and Ancient Society: Sustaining Ancient Rome Ecology and Empire
Credits: 4
This course examines the interplay between the ancient Roman environment, Roman technological innovations, and the values of Roman imperial society. Examining Roman innovations in water supply, building technology, mining, and more, this course explores the ethical questions that arise through the use of ancient Roman technology, evaluates the effects of these technologies on the environment and Roman society, and determines whether Roman values encouraged or discouraged a responsible approach to technology and the environment.
Attributes: Environment, TechSociety(Disc)
Equivalent(s): CLAS 515

CLAS 540B - Environment, Technology and Ancient Society: Roman Houses, Domestic Space and Public Life
Credits: 4
The Romans used the house as a communication technology for defining and expressing their identities in society and in the natural world. In this course, we examine literary and visual sources for Roman houses, apartments, villas, and palaces, and we compare and contrast the role of the house in the ancient world and in American society. We pay special attention to how domestic space shapes and is shaped by environment, politics, and culture.
Attributes: Environment, TechSociety(Disc)
Equivalent(s): CLAS 540C - Environment, Technology and Ancient Society: Tech, Tools and Engineering in the Ancient World
Credits: 4
This course examines positive and negative impacts of ancient technological advances: engineering (fire, metallurgy), writing technology (scripts, including the alphabet, the emergence of papyrus and vellum), military technology (shipbuilding, defensive and offensive technologies, and navigation), artistic (invention of dyes, lost-wax methods of bronze casting), infrastructure (roads, bridges, and aqueducts), and monumentality (Stonehenge, Greek temples, and the Roman Colosseum). Focus on the ways in which societal and environmental factors influenced technological development and vice versa.
Attributes: Environment, TechSociety(Disc)
Equivalent(s): CLAS 550A - Identities and Difference in the Ancient World: Greek and Roman Women
Credits: 4
The impact of women on society in Greece and Rome throughout Antiquity. The role of women in public, religious, and private life as well as their legal status through law codes. Men's views of women in different literary texts. Especially concentrating on the few existing texts written by women. All readings are in English. No prerequisite. Special fee. Writing intensive.
Attributes: Historical Perspectives(Disc)
Equivalent(s): CLAS 550

CLAS 550B - Identities and Difference in the Ancient World: Slaves and Masters
Credits: 4
Students explore the different ways slavery developed in the Greek and Roman worlds with an emphasis on the connections to other historical developments such as the practice of warfare, changes in political systems, and ancient views about human rights. To better understand the development of Greek and Roman slavery, we look at how the ancient systems compare to slavery in the American South and modern human trafficking.
Attributes: Historical Perspectives(Disc)
CLAS 550C - Identities and Difference in the Ancient World: Sex and Desire in Greece and Rome

Credits: 4

This course provides an introduction to ancient Greek and Roman conceptions of desire and sexuality, to how these conceptions developed and changed over time, and how they differ from modern ways of understanding sex, desire, and sexuality. Topics discussed include "romantic" love, attitudes towards homosexual practices, man-boy love, lesbianism, ancient views of "cross-dressing," and attitudes towards prostitution, among others.

Attributes: Historical Perspectives(Disc); Writing Intensive Course

CLAS #551 - Greeks and Barbarians: Culture, Identity and Difference in the Ancient World

Credits: 4

Exploration of how the ancient Greeks' conceptions of foreign ethnicities and cultures -- most notably a contrast between European Greeks and various peoples from Asia, especially the Persians--evolved and was expressed in ancient literary and historical sources. Course examines how the Greeks came to think of themselves as a distinct people with shared attributes amidst non-Greeks, to all of whom they applied the generic term "barbaroi," or barbarians.

Attributes: World Cultures(Discovery)

CLAS #560 - Sports, Spectacle, and Competition in the Ancient World

Credits: 4

This course treats the details of athletic training and competition, but its primary focus is on investigating the importance of athletics to society and how athletics reflected the broader cultural values of the Greeks and Romans. Open to all students. All readings in English. Students who have previously taken CLAS #402 cannot receive credit for CLAS 410A, although they may receive credit for CLAS 410B and CLAS 410C.

Attributes: Historical Perspectives(Disc)

CLAS 595 - Topics

Credits: 4

Introduction and elementary study related to linguistic study of Latin and Greek or relevant to Greco-Roman culture and history. Primarily for students unprepared to read Latin and Greek. Topics: A) Byzantine Heritage; B) Grammar: Comparative Study of English and the Classical Languages; C) Greek and Latin Origins of Legal Terms; D) Greek and Latin Origins within the English Language; E) Classical Backgrounds of Modern Literature; F) Classical Archaeology.

CLAS 596 - Topics

Credits: 4

Introduction and elementary study related to linguistic study of Latin and Greek or relevant to Greco-Roman culture and history. Primarily for students unprepared to read Latin and Greek. Topics: A) Byzantine Heritage; B) Grammar: Comparative Study of English and the Classical Languages; C) Greek and Latin Origins of Legal Terms; D) Greek and Latin Origins within the English Language; E) Classical Backgrounds of Modern Literature; F) Classical Archaeology.

CLAS 601 - Classical Myth II: The Power and Persistence of Myth

Credits: 4

An in-depth look at the myths of the Greeks and Romans, at the power of myth as a cultural force, and at the importance of myth both in the ancient period as well as the modern era. The focal point is on the myths of the Greeks and Romans, but the myths of other cultures are addressed. All readings are in English. Special fee. Writing intensive.

Attributes: Writing Intensive Course

CLAS 604 - Golden Age of Rome

Credits: 4

A study of the early Roman Empire as created by Augustus and his immediate successors; glorified by Vergil, Horace, and the poets of the Golden Age; and described by Tacitus, Suetonius, and the prose writers of the Silver Age. Open to all students. Prereq: any CLAS course or permission of instructor. Writing intensive.

Attributes: Writing Intensive Course

Equivalent(s): CLAS 504

CLAS 605 - Golden Age of Athens

Credits: 4

A study of the city of Athens in the classical age incorporating a variety of approaches, including literary, historical, philosophical and art historical methods. Students will study both ancient authors and modern scholarship on Athens. Prereq: any CLAS course of permission of instructor.

Attributes: Writing Intensive Course

Repeat Rule: May be repeated up to 8 times.

CLAS 686 - UNH in Greece Study Abroad

Credits: 6

Study abroad in Greece. Interested students should consult a Classics advisor. Prereq: must satisfy university requirements for studying abroad. Special fee. Cr/F. (IA grade will be assigned until official transcript is received from the foreign institution.) Contact James.Parsons@unh.edu at the COLA Center for Study Abroad or visit www.cola.unh.edu/greece for more information.

Co-requisite: CLAS 511, INCO 589

CLAS 694 - Supervised Practicum

Credits: 2 or 4

Participants earn credit for suitable pre-professional activities, including high school outreach, assisting in undergraduate courses and work with professional organizations, museum work. Enrollment limited to juniors and seniors who are Classics, Latin, or Greek majors or minors and have above-average G.P.A.s. Writing assignments are required. Prereq: permission of instructor and program coordinator. Course does not count toward Classics, Latin, or Greek major or minor requirements. Special fee. Cr/F.

Repeat Rule: May be repeated for a maximum of 8 credits.

CLAS 695 - Special Studies

Credits: 2 or 4

Advanced work in classics. Research paper. Not open to freshmen and sophomores.

CLAS 696 - Special Studies

Credits: 2 or 4

Advanced work in classics. Research paper. Not open to freshmen and sophomores. Special fee.

College of Liberal Arts (COLA)

# Course numbers with the # symbol included (e.g. #400) have not been taught in the last 3 years.
COLA 400 - Hired: A Career Boot Camp for Liberal Arts Majors
Credits: 2
This 7-week boot camp style course equips students with the tools and resources needed to land a job or internship. Students will learn how to effectively communicate their values, interests, strengths, and the transferable skills they have gained throughout their academic and cocurricular experience. Students will also explore career paths, learn to conduct a productive job/internship search, hone interview techniques, craft resumes and cover letters, and expand their professional network through alumni connections. Cr/F.

COLA 401 - Undeclared Liberal Arts Advising Seminar
Credits: 1
This course is an introduction to the nature of academic knowledge, academic standards, and academic management skills essential for success in the University. This course is the foundation of the Undeclared Liberal Arts Advising program. The course is focused on exploring majors, academic success, and building a 4 Year Plan. Cr/F.

COLA 500 - Pathfinder - Career Planning for Liberal Arts Majors
Credits: 2
Explore existing and emerging employment opportunities for liberal arts majors in fields including technology, health & wellness, marketing, education & training, sales, financial services, and consulting. Weekly panel conversations with industry experts, self-reflection exercises, and career assessments will facilitate this exploration. Ultimately, you will develop a tailored Career Development Plan based on your skills, values, and interests.

COLA 653 - Introduction to British Culture
Credits: 4
Why do the British say "Sorry" for everything? What is the role of the monarchy? Does the British class system still exist? What is it like being British-born of Indian parents? How many languages are spoken in London? What is a stiff upper lip anyway? These are only a tiny fraction of the questions that will surface during your stay in London. Through class discussions, readings, written ruminations, and excursions, you will in this course explore a range of cultural elements and challenges unique to the United Kingdom in general and London in particular, from the light (British etiquette) to the substantial (the impact of immigration). Co-requisite: COLA 655, COLA 670, INCO 588

COLA 654 - Intro to British Culture
Credits: 1
Students participating in the UNH London Program are required to take this course, whose purpose is to familiarize them with British culture and the city of London. Variable topics. Co-requisite: COLA 656, INCO 588

COLA 655 - London Program
Credits: 18
Enables students to pursue a semester or academic year of in UNH's programs in London, England. Students must be admitted before enrolling in the course. For information and application forms, consult program secretary, 53 Hamilton Smith Hall. Special fee. IA (continuous grading) grade will be assigned until official transcript is received. Program fee. Cr/F. Co-requisite: COLA 653, INCO 588 Attributes: World Cultures(Discovery) Equivalent(s): INCO 655

COLA 656 - London Program
Credits: 16
Enables students to pursue a semester or academic year of in UNH's programs in London, England. Students must be admitted before enrolling in the course. For information and application forms, consult program secretary, 53 Hamilton Smith Hall. Special fee. IA (continuous grading) grade will be assigned until official transcript is received. Program fee. Cr/F. Co-requisite: COLA 654, INCO 588 Attributes: World Cultures(Discovery) Equivalent(s): INCO 656

COLA 657 - Justice Studies Budapest Program
Credits: 16
This program is designed to introduce students interested in the field to a broader appreciation of the cross-cultural perspective. Each fall, fifteen UNH students spend the semester in residence at the Budapest University of Economic Sciences in Budapest, Hungary, where they have an opportunity to witness first hand the evolution of a criminal justice system within a context of significant cultural, political, economic, and social change. Situated along the Danube in one of Europe's oldest cities, the program offers a unique educational experience to students interested in the study of criminology, law and society, and the administration of justice. Under the supervision of a UNH faculty member also in residence, students carry a four course load, two of which are taught by the UNH faculty member. All courses are taught in English. Eligible students must hold sophomore standing, have completed either SOC 515 or POLT 507 and one other course in the Justice Studies curriculum, and have a minimum cumulative grade point average of 2.50. Special fee. Cr/F. Co-requisite: INCO 588 Attributes: World Cultures(Discovery) Equivalent(s): INCO 657

COLA 658 - Humanities Spring Budapest Program
Credits: 16
Enables students to pursue a spring semester in UNH's program in Budapest, Hungary. The program is designed to provide undergraduates with an intensive study abroad experience focusing on modern Hungarian and Central European history and culture. Students study at Corvinus University and take courses taught by Hungarian and University of New Hampshire faculty. Under the supervision of a UNH faculty member in residence, students carry a four course load, two of which (HUMA 550 and HUMA 551) are taught by the UNH faculty member. All courses are taught in English. Students must be admitted before enrolling in this course. For information and application forms, consult the COLA Study Abroad Coordinator. IA (Continuous grading) grade is assigned until official transcript of courses taken a Corvinus University is received. Cr/F. Attributes: World Cultures(Discovery)

COLA 659 - World Cultures(Discovery)
COLA 670 - The London Project
Credits: 4
The London Project will be one of the two UNH courses that UNH students participating in the UNH London Program will be required to take. This course will guide students through the research, writing/producing, and presentation of a project that explores one very narrow slice of London. The goal is to allow each student to gain insight and understanding of a subject that intrigues him/her and to present findings in a form that is appropriate for the subject and the talents of the author. Those forms could range from an academic research paper, a piece of creative writing, a multimedia slide show, a video, a podcast, or perhaps a Power Point presentation. By asking students to become fluent in one London issue, this course complements the other UNH course, Introduction to British Culture, which covers a range of British customs, challenges, and cultural elements.
Co-requisite: COLA 653

Communication (CMN)

# Course numbers with the # symbol included (e.g. #400) have not been taught in the last 3 years.

CMN 440A - Honors/Communication, Identity and Addiction
Credits: 4
Exploration of how diverse ways of talking about addiction contribute to our understanding – and ultimate approach toward – addictive behaviors. Focus will be on a relational approach to understanding the complex lives of human in their social contexts; it is an approach that challenges the dominant individualistic and scientific models of a person. Examination of the ways in which the moral, disease, and psychosocial models of addiction invite us to ignore larger social, cultural, and global issues that contribute to addiction.
Attributes: Social Science (Discovery)

CMN 455 - Introduction to Media Studies
Credits: 4
Nature, development, and the effects of mass media. Overview of mass communication history and theory.
Attributes: Social Science (Discovery)
Equivalent(s): CMN 455H

CMN 455H - Honors/Introduction to Mass Communication
Credits: 4
Nature, development, and the effects of mass media. Overview of mass communication history and theory.
Attributes: Social Science (Discovery)
Equivalent(s): CMN 455

CMN 456 - Propaganda and Persuasion
Credits: 4
Introduction to theories of propaganda and persuasion. Examination of symbolic strategies designed to secure or resist social and institutional change. Attention given to case studies of social, political, economic, and religious reformation. Special consideration of the ethical ramifications of such efforts.
Attributes: Humanities(Disc)
Equivalent(s): CMN 456H

CMN 456H - Honors/Propaganda and Persuasion
Credits: 4
Introduction to theories of propaganda and persuasion. Examination of symbolic strategies designed to secure or resist social and institutional change. Attention given to case studies of social, political, economic, and religious reformation. Special consideration of the ethical ramifications of such efforts.
Attributes: Humanities(Disc)
Equivalent(s): CMN 456

CMN 457 - Introduction to Language and Social Interaction
Credits: 4
An introduction to the study of the conversational basis of social reality. Presents an overview of interpersonal communication processes and the ways in which they influence the formation of identity, personal relationships, gender, interactional patterns, conflict, culture, and power. Readings and class material from a variety of authors in the communication discipline as well as related fields in the humanities and the social sciences.
Attributes: Social Science (Discovery)
Equivalent(s): CMN 502

CMN 500 - Public Speaking
Credits: 4
Performance course buttressed by practical theories of public discourse. Focus on analysis of speaking situations and audiences, message construction, presentation, and critical evaluation. Does not count towards the CMN major.
Equivalent(s): CA 450, CMN 403

CMN 504 - Introduction to Argumentation
Credits: 4
Persuasive discourse as inquiry and advocacy grounded in practical inductive and deductive reasoning. Discovery, analysis, and testing of practical arguments. The nature and function of proof. Some emphasis on applied presentation. Prereq: CMN 456 with C or better, or by permission. Writing intensive.
Attributes: Inquiry (Discovery); Writing Intensive Course
Equivalent(s): CMN 404

CMN 505 - Analysis of Popular Culture
Credits: 4
Locates the development of popular cultural artifacts and practices within the 20th-century social history of the U.S. Examines the political-economic forces that underpinned the commercialization of art, leisure, sports, and other elements of culture in industrial and postindustrial America. Prereq: CMN 456 with C or better, or by permission.
Attributes: Inquiry (Discovery)

CMN 507 - Introduction to Rhetorical Theory and Analysis
Credits: 4
Major precepts of rhetorical theory. Application of those precepts in analysis and understanding of a wide range of human communication. Consideration of how precepts and issues of rhetorical theory apply to contemporary issues and problems. Prereq: CMN 456 with C or better, or by permission.
Attributes: Inquiry (Discovery)
CMN 514 - Analysis of Online Identity  
**Credits:** 4  
This course will explore how digital media technologies inform strategies of self-presentation and practices of identity formation. We will situate contemporary practices of self-presentation within the historical development of the internet and sociological theories of identity. Students will be encouraged to examine how the internet and mobile technologies challenge existing understandings of concepts such as anonymity, authenticity, reputation, and privacy. Throughout the course, students will be asked to think critically about the ways in which traditional identity markers - such as race, gender, and class - are both challenged and reproduced in digital environments. Drawing on the current digital media landscape, we will explore several contemporary issues including privacy, self-branding and microcelebrity, online dating, and self-tracking. Throughout the semester, students will use academic literature to identify and address real-world problems.

**Attributes:** Inquiry (Discovery); Writing Intensive Course

CMN 515 - Analysis of News  
**Credits:** 4  
Explores the psychological, social, economic, political, and cultural factors that influence the definition and reporting of news. Prereq: CMN 455 with C or better, or by permission.

CMN 519 - Advertising as Social Communication  
**Credits:** 4  
Social role of advertising, public policy debates concerning advertising, influence of advertising on culture, and methods of analyzing advertising messages. Prereq: CMN 455 with C or better, or by permission.

CMN 535 - Digital Democracies  
**Credits:** 4  
This course explores how emerging digital technologies alternately enhance and obstruct the pursuit of democratic values, broadly conceived. We examine the history and meaning of terms like democracy and freedom in the context of both politics (campaigns, voting, legislation) and culture (music, entertainment, and the arts); the history of computers and the internet; and the impact of digital media on international politics and professional journalism. Prereq: CMN 455 with a C or better, or by permission.

CMN 545 - Media, Religion, and Culture  
**Credits:** 4  
This course examines the impact of media on religious belief, practice, and institutions in an American context. We cover the rise of evangelicalism; the development of religious denominations and political parties; the birth of religious broadcasting including the rise of televangelism; and the decline of institutional religion with the emergence of a "spiritual marketplace." We examine religious representations in popular film, music, and news, and ask whether digital technologies have become imbued with religious meaning. Prereq: CMN 455 with a grade of C or better, or by permission.

CMN 556 - Persuasion and Public Problems  
**Credits:** 4  
Examination of communication about public problems using major precepts from classical and contemporary rhetorical theory. Application of those precepts discloses how persuasive communication frames public problems and constrains responses to them. By the end of the course students will know how to conduct a rhetorical analysis of public discourse and how to use results from that analysis to criticize, improve, or participate in deliberations about public problems. Prereq: CMN 455; Communication, CMN: Media Practices, and CMN: Business Applications majors only. Writing intensive.

**Attributes:** Inquiry (Discovery); Writing Intensive Course

CMN 562 - Collaborative Leadership in the 21st Century  
**Credits:** 4  
This course grounds the study of interaction in groups via theories of inter-organizational collaboration. Students will leave this course with a very specific set of knowledge and skills related to dialogue, principled negotiation, constructive conflict, consensus decision making and appreciative inquiry. Lessons focus on the development of a responsible ethic regarding how to share power among diverse group members. This ethic prepares you to lead collaborative groups in organizations, communities, and as family members. Prereq: CMN 457 with a grade of C or better or permission.

CMN 567 - Gender, Race, and Class in the Media  
**Credits:** 4  
The purpose of this course is to introduce students to contemporary critical scholarship on the construction of gender, race, and class in the media - particularly popular media. Subjects such as the portrayal of ethnic groups, ideal body image, blue collar men, and gay, lesbian, bisexual, and transgender groups are case studies. This course is one that introduces students to performing communication analysis. Prereq: CMN 455; Communication, CMN: Media Practices, and CMN: Business Applications majors only.

CMN 568 - Analyzing Institutional Interaction  
**Credits:** 4  
Examinations of institutional interactions in emergency services, justice/law, medicine, family school encounters, journalism and politics. Shows how the work of society gets done through interaction. Students get hands-on experience analyzing persons' conduct in these interactions. This course is designed to develop students' analytic skills in studying social interaction in institutions, using recorded data in the form of naturally-occurring interactions in these settings. Prereq: CMN 457.

**Attributes:** Inquiry (Discovery)
CMN 596 - Special Topics in Media Studies  
Credits: 4  
Selected topics not covered by existing courses in media studies. Topics vary; course descriptions are available in department office during preregistration. May be repeated for credit if topics differ. Prereq: CMN 455 with C or better, or by permission.  
Equivalent(s): CMN 595

CMN 597 - Special Topics in Rhetorical Studies  
Credits: 4  
Selected topics not covered by existing courses in rhetorical studies. Topics vary; course descriptions are available in department office during registration. May be repeated for credit if topics differ. Prereq: CMN 456 with C or better, or by permission.  
Repeat Rule: May be repeated for a maximum of 8 credits.

CMN 598 - Special Topics in Interpersonal Studies  
Credits: 4  
Selected topics not covered by existing courses in interpersonal communication. Topics vary; course descriptions are available in department office during registration. May be repeated for credit if topics differ. Prereq: CMN 457 with C or better, or by permission.  
Repeat Rule: May be repeated for a maximum of 8 credits.

CMN 599 - Internship  
Credits: 1-4  
Internships are designed to integrate classroom study and supervised practical experience in a work setting. Each student is required to write a series of reports focusing on aspects of the work experience that are related to coursework in the Communications Department. These assignments are designed to enhance a student's ability to reflect critically on the internship experience and to merge theory and practice. Assignments are available, depending on the number of credits granted (1-4). Students are expected to hold the common exam time (TR, 1240-2) open for occasional meetings. Before starting the internship, students must submit a written proposal to both the work supervisor and the faculty sponsor. The proposal should include detailed information on the duties and responsibilities to be undertaken at the internship site and on the goals and learning objectives as relevant to the Communication Department curriculum. Prereq: CMN 455, CMN 456, CMN 457, or permission. Cr/F.  
Repeat Rule: May be repeated for a maximum of 8 credits.

CMN 600 - Public Speaking as a Civic Art  
Credits: 4  
Performance course buttressed by the traditional civic art of rhetoric. Focuses on analysis of speaking situations and audiences, message of construction, presentation, and critical evaluation using major precepts of rhetorical theory. Theoretical and critical issues in the context of rhetorical practices. Prereq for CMN majors: CMN 455, CMN 456, CMN 457, and 500-level courses, or permission; prereq for non-majors: junior or senior standing. Writing intensive.  
Attributes: Writing Intensive Course

CMN 602 - Theories of Interpersonal Communication  
Credits: 4  
Analysis and criticism of contemporary perspectives on interpersonal communication. Theories and concepts, issues, and research models are examined as they contribute to our understanding of social interaction. Prereq: CMN 455, CMN 456, CMN 457 and two 500-level courses, or permission. Writing intensive.  
Attributes: Writing Intensive Course

CMN 607 - Persuasion in American Politics  
Credits: 4  
Study of the forms and strategies of persuasive discourse employed by contemporary American political leaders. Analysis of important political addresses of the 20th century, with attention to theoretical and critical issues in political communication and public address. Discussion of the status of rhetoric in modern politics, and the impact of persuasive discourse on campaigns, policy decisions, crisis management, political scandal, and the national identity. Prereq: CMN 455, CMN 456, CMN 457 and two 500-level courses, or permission. Writing intensive.  
Attributes: Writing Intensive Course

CMN 614 - Gender and Technology  
Credits: 4  
Why were telephone operators primarily women? Why do Siri, Alexa, and Cortana all have women's voices? Does Silicon Valley have a gender problem? This course explores the influence of gender on the development, marketing, and use of information and communication technologies. Drawing on theories from communication, gender studies, and science and technology studies, this class will engage in a social examination of the technologies that influence everyday life. Readings and discussions will help students examine the historical relationship between gender, science, and technology; explore the media's role in shaping expectations about gender and technical skill; and understand how design decisions can influence the meanings and practices of communication tools. Prereq: CMN 455, CMN 456, CMN 457; two CMN 500 level courses.  
Attributes: Writing Intensive Course

CMN 619 - Histories of New Media  
Credits: 4  
New media are a defining feature of 21st-century society, from the internet to social networking sites. But what makes new media "new"? How do new media affect existing social norms, including notions of intimacy, privacy, community, and identity? This course considers the concept of new media from a historical and cultural perspective, examining the social construction of technology, the idea of technological progress, and comparative studies of both "old" and "new" media. Prereq: CMN 455, CMN 456, CMN 457; two 500-level CMN.  
Attributes: Writing Intensive Course

CMN 622 - Digital Rhetoric  
Credits: 4  
This course examines how traditional rhetorical theories and methods apply in contemporary digitized environments. It asks whether we can employ, as is, traditional theories and methods, many of which were developed centuries ago, or whether we need to develop new approaches in order to understand persuasion in online contests. As it explores these issues, this course tackles both rhetorical production and rhetorical analysis. That is, it asks students to both create and analyze digital rhetoric. Prereq: CMN 455, CMN 456, CMN 457; two 500-level CMN courses.  
Attributes: Writing Intensive Course
CMN 627 - Great Speakers and Speeches  
**Credits:** 4  
Historical and critical survey of masterpieces of oratory examining the rhetorical situation and artistic features of great works of spoken discourse. Demosthenes, Cicero, Edmund Burke, Daniel Webster, Frederick Douglass, Abraham Lincoln, and Elizabeth Cady Stanton may be among the orators studied. The course will engage students in critical assessment of eloquence by emphasizing study of historical circumstances, ethical choices, and artistic virtue of the most effective and admired public speakers in Western tradition. Prereq: CMN 455, CMN 456, CMN 457, and two 500-level courses, or permission. Writing intensive.  
**Attributes:** Writing Intensive Course  
**Equivalent(s):** CMN 557

CMN 630 - Psychology of Communication  
**Credits:** 4  
Recasts human psychology as a communicative accomplishment, offering a critique of the individualist tradition. Emphasis on the ways in which identity, knowledge, values, and beliefs are constructed in daily social engagements and the pragmatic, political, and moral implications of this view. Implications for our major cultural institutions such as education, health, and politics. Prereq: CMN 455, CMN 456, and CMN 457 with C or better and two 500-level courses with a C- or better, or by permission. Writing intensive.  
**Attributes:** Writing Intensive Course

CMN 634 - Media and Politics  
**Credits:** 4  
The goal of this course is to study the role of the media in American politics, and what media evolution means for future politics. Topics such as political campaigns, media effects, news reporting, framing terrorists, etc. are studied in depth. Timely topics such as “are the media liberal or conservative?” are debated in class. Research projects and papers study questions related to important social issues such as women in the media. Prereq: CMN 455, CMN 456, CMN 457 and two 500-level CMN courses; Only open to Communication, CMN: Media Practices, and CMN: Business Applications majors.  
**Attributes:** Writing Intensive Course

CMN 635 - Contemplative Media Studies  
**Credits:** 4  
Contemplative Media Studies involves the application of contemplative practices and principles to the critical analysis of media content, technology, and institutions. It links Media Studies to Contemplative Studies, which integrates empirical social-science research (neuroscience, psychology) to first-person practices like meditation, yoga, and art therapy. Through academic essays and arts-based assignments, students strive to become more mindful digital citizens-creative yet critical, hopeful yet judicious with regard to the current and future course of technical development. Prereq: CMN 455, CMN 456, CMN 457; two 500-level CMN courses, or by permission.  
**Attributes:** Writing Intensive Course

CMN 637 - Controversy and Reasoning in Law  
**Credits:** 4  
Uses rhetorical analysis and criticism to evaluate communication practices in courtroom disputes. Compares conventional American litigation to alternative methods. Explains how stages of a trial shape communication options and norms. Illustrates common subjects and forms for judicial reasoning. Prereq: CMN 455, CMN 456, CMN 457, and two CMN 500-level courses. Writing intensive.  
**Attributes:** Writing Intensive Course

CMN 647 - Rhetorical Criticism of Media  
**Credits:** 4  
Use of rhetorical approaches and methods in the analysis and criticism of contemporary forms of visual media culture. Students examine the social, political, and aesthetic implications of contemporary media forms from within a framework of rhetorical theory. Emphasis on practical analysis employing various rhetorical approaches with a goal of understanding persuasive elements in contemporary media (including television, film, print & broadcast advertising, internet, and social media). Prereq: CMN 455, CMN 456, CMN 457, and two 500-level communication courses.  
**Attributes:** Writing Intensive Course

CMN 650 - Critical Perspectives on Film  
**Credits:** 4  
Advanced, focused study of film theory as cultural practice. Topics vary from year to year and with instructor. May be repeated for different topics. Focus may range from general considerations of film theory, criticism, and history, to specific analyses of selected genres, directors, national cinemas, and periods. Course descriptions available in department office during preregistration. Prereq: CMN 455, CMN 456, CMN 457, CMN 550, ENGL 533, or permission. May be repeated for credit.  
**Repeat Rule:** May be repeated for a maximum of 12 credits.  
**Equivalent(s):** CMN 650W

CMN 650W - Critical Perspectives on Film  
**Credits:** 4  
Advanced, focused study of film theory as cultural practice. Topics vary from year to year and with instructor. May be repeated for different topics. Focus may range from general considerations of film theory, criticism, and history, to specific analyses of selected genres, directors, national cinemas, and periods. Course descriptions available in department office during preregistration. Prereq: CMN 455, CMN 456, CMN 457, CMN 550, ENGL 533, or permission. Special fee. Writing intensive. May be repeated for credit.  
**Attributes:** Writing Intensive Course  
**Repeat Rule:** May be repeated for a maximum of 12 credits.  
**Equivalent(s):** CMN 650

CMN 656 - Environmental Communication and Rhetoric  
**Credits:** 4  
Working from a rhetorical perspective toward communication as persuasive action, students learn to analyze environmental communication in public spheres. Communication about the environment is examined in visual and popular culture, print and digital news, advertising and marketing, science communication, corporate communication and advertising, and campaigns and movements. Special attention to issues of public engagement, citizen activism, and public advocacy. Students work on a semester long case study in which they analyze, evaluate, and respond to communication about an environmental problem in a local town. Prereq: two 500-level CMN courses or permission.  
**Attributes:** Writing Intensive Course
CMN 680 - Perspectives on Culture and Communication
Credits: 4
Critical interpretation of culture focused on the communication practices and resources of diverse groups. Examination of the reciprocal relationship between communication practices, forms of culture, and cultural identity. Exploration of the conditions necessary for dialogue between differing cultural groups. Emphasis on the role of communication in constructing race, power, cultural domination, and globalization. Prereq: CMN 455, CMN 456, and CMN 457 with C or better and two 500-level courses with a C- or better, or by permission. Writing intensive.
Attributes: Writing Intensive Course

CMN 685 - Gendered Rhetorics
Credits: 4
This course focuses on exploration of the social, rhetorical, and communicative construction of gender through contemporary contexts. We will examine popular and political discourse and discuss how such discourse structures and disciplines our everyday experiences of sex (male/female) and gender (how society shapes understanding of those categories). Prereq: CMN 456; CMN 455; CMN 457; two 500-level CMN courses.
Attributes: Writing Intensive Course

CMN 696 - Seminar in Media Studies
Credits: 4
Variable topics in media research, theory, and practice. May be repeated for different topics. Topic descriptions available in department office during preregistration. Prereq: CMN 455, CMN 456, CMN 457 and two 500-level courses, or permission.
Repeat Rule: May be repeated up to 1 time.
Equivalent(s): CMN 696W

CMN 696W - Seminar in Media Studies
Credits: 4
Variable topics in media research, theory, and practice. May be repeated for different topics. Topic descriptions available in department office during preregistration. Prereq: CMN 455, CMN 456, CMN 457 and two 500-level courses, or permission.
Attributes: Writing Intensive Course
Repeat Rule: May be repeated up to 1 time.
Equivalent(s): CMN 696

CMN 697 - Seminar in Rhetorical Study
Credits: 4
Variable topics in rhetorical research, theory, and practice. May be repeated for different topics. Topic descriptions available in department office during preregistration. Prereq: CMN 455, CMN 456, CMN 457 and two 500-level courses, or permission.
Attributes: Writing Intensive Course
Repeat Rule: May be repeated up to 1 time.
Equivalent(s): CMN 697H

CMN 697H - Honors/Seminar in Rhetorical Study
Credits: 4
Variable topics in rhetorical research, theory, and practice. May be repeated for different topics. Topic descriptions available in department office during preregistration. Prereq: CMN 455, CMN 456, CMN 457 and two 500-level courses, or permission. Writing intensive.
Attributes: Writing Intensive Course
Equivalent(s): CMN 697
CMN 698 - Seminar Interpersonal Studies
Credits: 4
Variable topics in interpersonal research, theory, and practice. May be repeated for different topics. Topic descriptions available in department office during preregistration. Prereq: CMN 455, CMN 456, CMN 457 and two 500-level courses, or permission.
Attributes: Writing Intensive Course
Repeat Rule: May be repeated up to 2 times.
Equivalent(s): CMN 695

CMN 702 - Seminar in Interpersonal Communication Theory
Credits: 4
In-depth concentration on a particular theoretical orientation in interpersonal communication. Original works are read. Theoretical orientation varies by semester. May be repeated for different topics. Prereq: CMN 455, CMN 456, and CMN 457 and two 500-level CMN courses.
 Attributes: Writing Intensive Course
Repeat Rule: May be repeated up to unlimited times.

CMN 703 - Seminar in Rhetorical Theory
Credits: 4
Focused study of problems in rhetorical theory construction through examination and criticism of selected theoretical frameworks used to explain or interpret rhetorical phenomena. May be repeated for different topics. Prereq: permission.
Attributes: Writing Intensive Course
Repeat Rule: May be repeated up to unlimited times.
Equivalent(s): CMN 703H, NR 725

CMN 714 - Youth and Media
Credits: 4
This course will situate contemporary debates about youth and media in historical and theoretical context by examining the ways in which media texts and technologies construct and reflect ideas about youth culture. With a focus on western societies, we will examine the cultural, economic, and political factors that contributed to the social construction of adolescence as a distinct lifecycle stage in the twentieth century. In particular, we will look at how media industries have worked to define and commodify this life stage, thereby creating expectations about what it means to "grow up" in western cultures. We will explore the importance of media texts - including music and fashion - in the construction of youth subcultures. Our investigation of subcultures will consider the role of race, class, and gender in academic theories about young people. We will examine how "moral panics" about youth culture and counter cultural movements are reflected and reproduced in current fears about the effects of media technologies and texts on teenagers. We will conclude by investigating how these various interventions play out in discussions about adolescents' media production, particularly in a digital environment in which young people are simultaneously constructed as savvy "digital natives" and vulnerable victims of media messages.
Attributes: Writing Intensive Course

CMN 719 - Surveillance and Society
Credits: 4
Surveillance is fundamentally concerned with social control. The course tracks the historical development of surveillance, from its origins in embodied experience and record keeping through the rise of computing, social media and big data. This history provides a backdrop against which critical theories of surveillance are introduced, drawing attention to how power is exercised through systems of identification, social classification, visibility, and statistical knowledge. Prereq: CMN 455, CMN 456, CMN 457; two 500-level CMN.
Attributes: Writing Intensive Course

CMN 730 - Family Communication
Credits: 4
Exploration of the patterned communication in families and the ways in which our understanding of these patterns can be utilized to understand and transform unwanted family interactions. Varying cultural discourses of family communication are used to explore the dialogic construction of family and self. Prereq: CMN 455, CMN 456, CMN 457, and two 500-level CMN courses, or permission. Writing intensive.
Attributes: Writing Intensive Course

CMN 735 - Media & Ethics
Credits: 4
This course asks how human beings can flourish (i.e. lead meaningful and purposeful lives) in the context of increasingly complex systems of digital media and information systems. We do so through the lens of virtue ethics, meaning that we place special emphasis on concepts like authenticity, wisdom, courage, and integrity. The course’s capstone project asks students to develop a clear and well-informed ethical framework for the mass-mediated aspects of their personal, professional, and civic lives. Prereq: CMN 455, CMN 456, CMN 457, three 500-level CMN courses, or permission. Writing intensive.
Attributes: Writing Intensive Course

CMN 737 - Principles of Rhetorical Crit
Credits: 4
Application of critical principles to message evaluation. Consideration of the varying roles, methods, and standards of rhetorical critics. Special attention to major perspectives on rhetorical criticism including Neo-Aristotelian, historical, dramatistic, generic, literary, and psychological. Prereq: CMN 455, CMN 456, CMN 457, and two 500-level CMN courses, or permission. CMN majors only. Writing intensive.
Attributes: Writing Intensive Course

CMN 742 - Dialogue and Teamwork
Credits: 4
This course is about team building, alternative conflict resolution, and creative problem solving. We will explore the idea that, contrary to prevailing cultural assumptions, a significant factor in our achievements at work and play can be traced not to our individual attributes but rather to the relationships that we develop in our conversations with others. We will examine the dialogic basis of these relationships, drawing on a range of philosophic traditions and practical activities that highlight the social basis of thought. Prereq: CMN 455, CMN 456, CMN 457, and two 500-level CMN courses, or permission. CMN majors only.
Attributes: Writing Intensive Course

CMN 756 - Rhetorics of Display
Credits: 4
This course examines a selection of displays with the goal of acquiring perspective for understanding and evaluating how they engage with people who come into contact with them. Displays examined range among oratory, photographs, advertisements, films, architecture, monuments, and statuary, public demonstrations, and presentations of self. Attention is given to questions about identity and belonging, authenticity and simulation, and public memory. Prereq: CMN 455, CMN 456, CMN 457, and two 500-level CMN courses, or permission. CMN majors only.
Attributes: Writing Intensive Course
CMN 757 - Public Address and the American Experience
Credits: 4
Study of persuasive texts set firmly in their historical and social contexts. Discussion of the impact of popular discourse on historically significant political and social events. Analysis of how leading persuasive speakers and writers responded to the fundamental questions confronting their age and articulated ideas in a manner that provoked or motivated their community, state, or nation. Historical period studied will vary. May be repeated when topic varies. Prereq: CMN 455, CMN 456, CMN 457 and two 500-level CMN course or permission. CMN majors only. Special fee. Attributes: Writing Intensive Course
Repeat Rule: May be repeated for a maximum of 12 credits.
Equivalent(s): CMN 657

CMN 760 - Mediation
Credits: 4
This course will explore different theories and models of mediation as they inform the broader topic of conflict resolution. Emphasis will be on models that examine relational processes as opposed to models that provide a list of skills or techniques for mediation. To that end, the course will focus on transformative dialogue as a mode of mediation and conflict resolution rather than on compromise or consensus models. Prereq: CMN 455, CMN 456, CMN 457, and two 500-level CMN courses, or permission. CMN majors only. Writing intensive. Attributes: Writing Intensive Course

CMN 762 - Organizational Communication and Society
Credits: 4
This course will demonstrate how communication is key to understanding how organizations work. Through such topics as culture, identity, structure, systems, globalization, and change, the course examines the ways individuals and society are shaped by interactions with the organizations. Through case studies, we examine the way people communicate in organizational contexts, and the social, ethical, and sometimes political implications. Prereq: CMN 455, CMN 456, CMN 457 and two 500-levels, or permission. Attributes: Writing Intensive Course

CMN 770 - From Pokemon to K-Pop: East Asian Media and Popular Culture
Credits: 4
From K-pop to Pokemon, from TV drama to video games, this course introduces you to the media and popular cultural scene in one of the most dynamic regions of the world economy today. It gives you the theoretical tool to understand and analyze these media and cultural phenomena. While acknowledging some common defining characteristics of East Asian societies, we will pay attention to the internal diversities, differences and transcultural flows within the region as well as East Asian nations. Prereq: CMN 455, CMN 456, CMN 457 & two 500-level CMN courses.
Attributes: Writing Intensive Course

CMN 772 - Seminar in Media Theory
Credits: 4
Detailed analysis of major theories related to the interaction of communication technologies and society. Application to current examples in politics, advertising, and entertainment. May be repeated for a different topic. Prereq: CMN 455, 456, 457 and two 500 level courses, or permission.
Attributes: Writing Intensive Course
Repeat Rule: May be repeated up to unlimited times.

CMN 778 - Opening Everyday Interaction
Credits: 4
Examination of how everyday human social interactions begin. Provides hands-on experience analyzing verbal and nonverbal social actions during naturally occurring interactions, including telephone conversations and especially face-to-face encounters between previously acquainted and unacquainted persons socializing and/or doing work. Explores how parties use the openings of interactions to (re)-create and maintain social relationships. Encourages students to develop intellectual curiosity about everyday social life. Prereq: CMN 455, CMN 456, CMN 457, (2)-CMN 500 levels or permission. Open to CMN majors only. Attributes: Writing Intensive Course

CMN 795 - Independent Study
Credits: 1-4
Advanced individual study in rhetoric, media, or interpersonal communication. Project to be developed with supervising instructor. Prereq: permission. Repeat Rule: May be repeated for a maximum of 8 credits. Equivalent(s): CMN 795W

CMN 795W - Independent Study
Credits: 1-4
Advanced individual study in rhetoric, media, or interpersonal communication. Project to be developed with supervising instructor. May be repeated up to a maximum of 8 credits. Prereq: permission. Attributes: Writing Intensive Course
Repeat Rule: May be repeated for a maximum of 8 credits. Equivalent(s): CMN 795

CMN 796 - Comm-Entry Journal
Credits: 1
Serve on the editorial board of student run communication journal. Elective credit which does not count toward the major. Prereq: CMN 455, CMN 456, CMN 457, or permission. CMN majors only. Cr/F.
Repeat Rule: May be repeated for a maximum of 2 credits.

CMN 799H - Honors Thesis
Credits: 4
Written thesis based on substantial and original research under the direction of a full-time member of the communication faculty. Thesis must be in the form and style of a publishable, scholarly work. Restricted to seniors seeking honors in major.

Communication Arts (CA)

# Course numbers with the # symbol included (e.g. #400) have not been taught in the last 3 years.

CA #444 - Manipulating Media: Exploring Image and Sound Aesthetics
Credits: 4
An introductory exploration of moving image and sound with an emphasis on discovering how aesthetic choices impact media messages. Students investigate aesthetic principles by finding, making, and working with digital media, animation, video, audio, and film. This is not a production class, but rudimentary, hands-on production is taught. No credit earned if credit received for CA 502. Special fee. Attributes: FinePerformingArts(Discovery); Inquiry (Discovery) Equivalent(s): CA 502
CA 450 - Introduction to Public Speaking
Credits: 4
Theories of rhetoric applied to the practice of speech composition, oral performance, and critical evaluation. Focus on student speeches for a variety of situations and audiences. Not for credit if credit earned for CMN 500.
Equivalent(s): CMN 403, CMN 500

CA 500 - Media Writing
Credits: 4
An introduction to business, creative and freelance writing for a variety of media. Writing, editing and rewriting in areas such as video scripts, short magazine articles, audio scripts, ads, press releases, news, short one-act plays, blogs and more. Prereq: ENG 401. Writing intensive.
Attributes: Writing Intensive Course

CA 501 - Internship/Communication in the Urban Community
Credits: 1-4
Field-based learning experiences. Connects students to the urban community and integrates their classroom education within a business or organizational setting. Students work under the direction of a faculty advisor and workplace supervisor to fulfill the obligations of the workplace internship plan and to complete individually-designed academic projects. Projects must be approved in advance by the faculty advisor. Open to matriculated students with a GPA of 2.50 or better and junior standing. Permission of instructor required. May be repeated, with 4 credits maximum accepted toward satisfaction of requirements for the CA major. Cr/F.
Repeat Rule: May be repeated for a maximum of 8 credits.

CA 502 - Image and Sound
Credits: 4
Image and Sound is a foundation course in the aesthetics of motion picture and sound production. This course explores the aesthetic principles that are used to communicate stories, emotions and messages in popular media. Students will study film, television and new media and survey production methods. This is not a production course per se, but is particularly helpful to students interested in video and film production. No credit for students who have completed CA #444.
Attributes: FinePerformingArts(Discovery)
Equivalent(s): CA #444

CA #503 - Techniques for News Reporting
Credits: 4
Focuses on the essential elements of fact-based reporting and discussion of the principles and ethics of independent journalism. Techniques include determining the different perspectives and voices that belong in a story, developing research skills for locating information, strategies for reconciling conflicting information, and procedures for effective interviewing. Prereq: ENGL 401 plus CMN 455; or permission.

CA #504 - Film Criticism
Credits: 4
An introduction to the practice of film criticism. Critique of film as both art form and medium of communication. Examines the process of film production, basic principles of film form, techniques of film style, and major approaches to film criticism. Prereq: ENGL 401 and CMN 455 or permission. Special fee.

CA 507 - Relational Violence
Credits: 4
This course explores relational violence and its impact on individuals, families, and communities. Topics include relational violence as a continuum, types of relational violence (domestic, gangs, hate crimes), causes of relational violence, PTSD, responding to relational violence, silencing, compassion fatigue, and restorative justice. Prereq: CMN 457 or permission of the instructor.

CA 508 - Conflict in Relational Communication
Credits: 4
Introduces communication theories relevant to the study of conflict interaction in interpersonal relationships. Considers interpersonal concerns contributing to conflict such as power, face-saving, and goals. Examines behaviors that affect our ability to resolve conflict, and strategies, such as mediation, to resolve conflict. Develops the ability to diagnose productive and destructive conflict patterns in relationships. The course is both theoretical and practical in orientation. A combination of lecture, discussion, case studies, and in-class group assignments are employed. Prereq: CMN 457.

CA 512 - Screenwriting
Credits: 4
Examines the preproduction phase of moving image media, focusing especially on the art and business of writing for the screen. Covers the process of developing student work from original story idea to completed first draft screenplay. Topics include script formats, narrative structure, plot development, characterization, style, and marketing strategies. Prereq: ENGL 401, CMN 455 or CMN 456; or permission. Cannot receive credit if credit received for CA 512 Scriptwriting. Writing intensive.
Attributes: Writing Intensive Course

CA 514 - Fundamentals of Video Production
Credits: 4
Beginning electronic field production using digital video and nonlinear editing formats. Covers basic aesthetic principles and practices of video communication. Introduces techniques for effective image and sound recording in the field, fundamentals of shot and sequence construction, and basic postproduction practices on nonlinear editing systems. Prereq: ENGL 401, CA 502 or CA #444, CMN 455, or permission. Preference given to CA majors. Special fee.

CA 515 - Advanced Video Production
Credits: 4
Advanced electronic field production and post production using digital video and nonlinear editing formats. Emphasizes original student work of increasing conceptual, formal, and technical complexity that begins to incorporate a wider range of images, sounds, and editing techniques. Prereq: CA 514 or permission. Preference given to CA majors. May be repeated with permission. Special fee.
Repeat Rule: May be repeated for a maximum of 8 credits.

CA #516 - Speechwriting
Credits: 4
The strategies of art and persuasion in the craft of professional speechwriting for a variety of modes, audiences, and exigencies. Examines a wide array of famous speeches from political, literary and cinematic sources to uncover the fundamental theories of rhetoric and persuasion at work in these texts. Application of these theories and strategies of persuasion in original speechwriting projects. Prereq: ENGL 401 plus CMN 456; or permission.
CA 517 - Fundamentals of Audio Prod
Credits: 4
This course provides students with an introduction to the history, principles, and techniques of audio production. Through hands-on experience, class projects, and homework assignments, student learn how to use voice, music, writing, sound effects, and audio hardware and software to design sound and tell a story. This class will also look at the radio industry and how sound design is being used by a variety of industries. Special fee.

CA 518 - Advanced Topics in Digital Media Production
Credits: 1-4
Advanced topics in digital media production not covered in depth in other course offerings. Topics vary and change. May be repeated if topics differ. Prereq: CA 514 or CIS 515 or permission.
Repeat Rule: May be repeated for a maximum of 12 credits.

CA 519 - Advanced Screenwriting
Credits: 4
Advanced examination of the preproduction phase of moving image media, focusing on the art and business of screenwriting. Develops student works from original idea through the numerous steps to completed, second draft screenplay. Advanced topics and genres may vary. Prereq: CA 512. May be repeated with permission. Cannot receive credit if credit earned for CA 520 Special Topics in Communication: Advanced Screenwriting.
Repeat Rule: May be repeated for a maximum of 8 credits.

CA 520 - Special Topics in Applied Communication
Credits: 1-4
New or specialized topics in applied communication not covered in regular course offerings. Topics vary; descriptions listing course content and any prerequisites are available during preregistration. May be repeated for credit if topics differ. Prereq: contingent on topic. Writing intensive when topic is advanced feature scriptwriting.
Repeat Rule: May be repeated for a maximum of 12 credits.

CA 522 - Graphic Design I
Credits: 4
Presents fundamentals of Graphic Design while touching on foundation art theories and vocabulary. Through examination and analysis of professional graphic design, students become familiar with the relationship between graphic design process, creative solutions and critical thinking. Students work with a variety of traditional and digital media, with an emphasis on the process of design, composition and typography. Class includes a significant amount of computer lab and creative studio time.

CA 523 - Graphic Design II
Credits: 4
Students explore the creative process that helps them communicate ideas and information to a target audience. Higher level, theoretical ideas related to communication, design and cognitive theories will be introduced. Students will engage in intermediate design projects through software and traditional media. Class includes a significant amount of computer lab and creative studio time. Prereq: CA 522, or permission of instructor.

CA #525 - Media Programming
Credits: 4
Process of program planning for electronic media. Covers the contexts – social, cultural, institutional, economic, technical, regulatory – within which decisions concerning program selection, form, content, and scheduling are made. Prereq: CMN 455 or permission.

CA #526 - Organization of Newswork
Credits: 4
Examines news as socially situated discourse. The professional norms, work routines, representational practices, ideologies, and ethics of news producing organizations. Prereq: CMN 455 or permission.

CA 527 - History of Film
Credits: 4
The history of film since 1948. Historical analysis of the development of cinema since the emergence of television, both in the United States and abroad. Selected topics include cinema and the cold war, international stylistic movements, film exhibition, the decline of the studio system, new technologies, third cinema, globalization and economic consolidation. Prereq: CMN 455 or permission. Special fee.

CA 531 - History and Organization of Advertising
Credits: 4
Examines the development of advertising in historical context, focusing on the evolving structure and function of advertising agencies, market research practices, advertising design, anthropological approaches to advertising and consumer culture, and contemporary policy issues. Prereq: CMN 455 or permission.

CA 532 - Typography I
Credits: 4
Typography is the formal study of letterforms. Students gain perspective into this important field by starting with a focus on early visual communication, symbols, handwritten letterforms, calligraphy and the development of movable type. Students explore ways to categorize type into families and identify and define similarities and subtle differences in classical typefaces. Class discussions, projects, critiques and lectures focus of typography terminology, as well as the aesthetic discipline of using type effectively as designer.

CA 533 - Typography II
Credits: 4
This course builds on skills learned in Typography I. The goal is to explore type as a two dimensional element and to explore the elements and components needed to design multiple page projects. Emphasis given to both the creative process and the production/printing process. Students learn to communicate with graphic design using page layout, hierarchy, grids, and the relationship of typography and imagery. Students learn how to use InDesign, Illustrator and Photoshop. Prereq: CA 532, or instructor permission.

CA 536 - LGBT Images and Perspectives
Credits: 4
This course explores the perspectives and images of lesbian, gay, bisexual, trans, and queer individuals, from antiquity through modern day. Topics include: history, aging, religion, the media, and the law. Prereq: CMN 457 or permission of the instructor; majors only.

CA #537 - Health Communication
Credits: 4
Introduces students to foundation concepts and theories in health communication, and their application to real-world settings. Explores how health communication is embedded in social, cultural, economic, political, technological, and historical contexts. Examines a range of issues, including the meaning of health and illness; physician-patient interactions; caregiving; the impact of illness on identity; media campaigns; popular cultural narratives; end of life; and ethics. Discusses healthcare careers. Prereq: CMN 457 or permission.
Equivalent(s): CA 550
CA 538 - Gender
Credits: 4
How gender is created, maintained, repaired, and transformed through communication in particular historical, cultural, and relational contexts. Examines a variety of topics including the relationship between sex and gender, language, cultural mythologies, identity, health care, sexuality, and strategies for resisting conventional gender definitions. May not be taken for credit if student has already taken CA 506: Gender. Prereq: CMN 457 or permission.
Equivalent(s): CA 506

CA 539 - Communicating in Families
Credits: 4
Explores the role of communication in the creation, maintenance, and transformation of family systems. Focus on how meanings of "family" are constructed through familial and popular discourses, and the consequences these communication practices have for lived experience. Prereq: CMN 457 or permission.

CA 540 - Public Relations
Credits: 4
This course provides students with an overview of the field of public relations, including its history, ethics, and current practices. Will include case studies of major public relations issues that have occurred both historically and in recent years; individual and class projects that enable students to determine how best to plan for and respond to public relations issues; and quest practitioners who work in various fields, including business, government, the non-profit sector, and education. Prereq: CMN 456 or CMN 455 or permission.

CA 542 - Social Media for Organizations and Business
Credits: 4
Focuses on the history, development and practical use of social media for organizational and business communications. A primary focus is on the latest social media tools and their use in developing social media campaigns. Hands-on student work is an important part of the course. Prereq: ENGL 401, CMN 455 or CA 500 - or permission. Cannot receive credit if earned for CA 520 Social Media for Organizations and Business.

CA 550 - Special Topics in Communication Organization, History, and Policy
Credits: 1-4
New or specialized topics in the organization, history, and policy of communication practices not covered in regular course offerings. Topics vary; descriptions of course content and any prerequisites are available during preregistration. May be repeated if topics differ. Prereq: contingent on topic.
Repeat Rule: May be repeated for a maximum of 12 credits.

CA #600 - Research Methods in Media
Credits: 4
Qualitative research practices for the study of mass communication. Tools for investigating the production contexts of media institutions, the cultural and ideological meanings of media texts, and the social dimensions of media consumption in home and family. Emphasis on how to review literature, develop a research question, define a unit of analysis, select and apply method, interpret data, and draw conclusions grounded in theory. Prereq: any two 500 level CA courses (excluding CA 501), one of which must have CMN 455 as prerequisite or permission. Writing intensive.
Attributes: Writing Intensive Course

CA 601 - Exploring Relationships
Credits: 4
Critically examines the myriad ways qualitative researchers approach the study of interpersonal communication. With an emphasis on the artistic practice of fieldwork, the course considers the process of research design, the relationship between researcher and researched, the moral and ethical aspects of research, issues of representation and audience, and evaluation strategies. Students design, conduct, and present original qualitative research projects. Prereq: any two 500 level CA courses (excluding CA 501), one of which must have CMN 457 as a prerequisite or permission. Writing intensive.
Attributes: Writing Intensive Course

CA 610 - Communication Technologies and Culture
Credits: 4
The role of communication technologies in shaping cultural meanings and human consciousness. Covers the work of Innis, McLuhan, Ong, Postman, Carey and others to understand the historical development of shifting communication technologies and patterns of culture from orality to computer communication. Also explores the dynamic between mass culture and sub-cultural appropriations of media forms and content. Prereq: any two CA courses (excluding CA 501), one of which must have CMN 455 as a prerequisite or permission. Writing intensive.
Attributes: Writing Intensive Course

CA #611 - Theories of Relational Communication
Credits: 4
Critically examines a variety of theories which seek to explain the dynamics of interpersonal relationships including performance theory, social construction theory, systems theory, feminist theory, and narrative theory. Prereq: any two 500 level courses (excluding CA 501), one of which must have CMN 457 as a prerequisite or permission. Writing intensive.
Attributes: Writing Intensive Course

CA 612 - Narrative
Credits: 4
Considers the ways humans make sense of experience through the stories we construct within particular relational, cultural, and historical contexts. Explores a variety of topics including narrative conventions, canonical stories, subjectivity and reflexivity, the relationship between story and audience, space and time, memory and imagination, and narrative truth. Each student will conduct an original narrative research project. Prereq: any two 500 level CA courses (excluding CA 501), one of which must have CMN 457 as a prerequisite or permission. Writing intensive.
Attributes: Writing Intensive Course

CA #614 - Communication and Power
Credits: 4
Critically examines the myriad ways qualitative researchers approach the study of interpersonal communication. With an emphasis on the artistic practice of fieldwork, the course considers the process of research design, the relationship between researcher and researched, the moral and ethical aspects of research, issues of representation and audience, and evaluation strategies. Students design, conduct, and present original qualitative research projects. Prereq: any two 500 level CA courses (excluding CA 501), one of which must have CMN 457 as a prerequisite or permission. Writing intensive.
Attributes: Writing Intensive Course

CA 616 - Communication Technologies and Culture
Credits: 4
The role of communication technologies in shaping cultural meanings and human consciousness. Covers the work of Innis, McLuhan, Ong, Postman, Carey and others to understand the historical development of shifting communication technologies and patterns of culture from orality to computer communication. Also explores the dynamic between mass culture and sub-cultural appropriations of media forms and content. Prereq: any two CA courses (excluding CA 501), one of which must have CMN 455 as a prerequisite or permission. Writing intensive.
Attributes: Writing Intensive Course

CA #616 - Communication Technologies and Culture
Credits: 4
The role of communication technologies in shaping cultural meanings and human consciousness. Covers the work of Innis, McLuhan, Ong, Postman, Carey and others to understand the historical development of shifting communication technologies and patterns of culture from orality to computer communication. Also explores the dynamic between mass culture and sub-cultural appropriations of media forms and content. Prereq: any two CA courses (excluding CA 501), one of which must have CMN 455 as a prerequisite or permission. Writing intensive.
Attributes: Writing Intensive Course

CA 620 - Special Topics in Communication (excluding CA 501), one of which must have CMN 455 as a prerequisite or permission. Writing intensive.
Attributes: Writing Intensive Course
CA 615 - Film History/Theory and Method
Credits: 4
Intensive study of philosophical, rhetorical, and methodological issues in film history research. Examines a series of selected historical problems in the areas of social, aesthetic, industrial, and technological film history up to 1948 and reviews existing historiography on these problems. Focus is on original student research. Prereq: any two 500 level CA courses (excluding CA 501), one of which must have CMN 455 as a prerequisite, or permission. Special fee. Writing intensive.
Attributes: Writing Intensive Course

CA 618 - Documentary
Credits: 4
Exploration of the historical development, ethics, funding, socio-cultural significance, and communication strategies of documentary film and video. May focus on a particular genre or genres. Prereq: any two 500 level CA courses (excluding CA 501), one of which must have CMN 455 as a prerequisite, or permission. Special fee. Writing intensive.
Attributes: Writing Intensive Course

CA 720 - Seminar
Credits: 4
Intensive readings and research course in a highly focused area of study. Topics vary. Descriptions of course content and any prerequisites are available during preregistration. May be repeated if topics differ. Prereq: contingent on topic.
Attributes: Writing Intensive Course
Repeat Rule: May be repeated for a maximum of 12 credits.

CA 795 - Independent Study
Credits: 1-4
Advanced individual study under the direction of a faculty member. Content area and research project to be developed in consultation with faculty supervisor. Prereq: permission. May be repeated, with 4 credits maximum accepted toward satisfaction of requirements for the CA major.
Repeat Rule: May be repeated for a maximum of 8 credits.

Communication Sciences & Disorders (COMM)

# Course numbers with the # symbol included (e.g. #400) have not been taught in the last 3 years.

COMM 401 - American Sign Language I
Credits: 4
American Sign Language I introduces students to American Sign Language (ASL) and its culture. The class is taught primarily in ASL and students develop basic receptive and expressive skills through immersion and the required online lab.
Equivalent(s): ASL 435, COMM 533

COMM 405 - Introduction to the Deaf World
Credits: 4
This course addresses various aspects of the Deaf community, including the value of American Sign Language and the culture it reflects, professions within the Deaf community, legislation affecting Deaf people, educational approaches and controversies, activities and events relating to the population, and hearing-related issues.
Equivalent(s): COMM 536

COMM 420 - Survey of Communication Disorders
Credits: 4
The use of language to communicate is a uniquely human capability. Language is part of our cultural identities and can be expressed through many modalities such as speech, sign and writing. Disorders of communication have profound effects on an individual's ability to function and impact family, friends, learning and professional choices. It has been said that "life without communication is scarcely better than death." This course provides an overview of human communication disorders across the life span. The course includes information about the various types of communication disorders and how they are diagnosed and treated.
Equivalent(s): COMM 520

COMM 475 - Have you Heard: Fundamentals of Hearing Loss
Credits: 4
This course will provide an overview of hearing loss including current issues and technology. Areas of study will focus on the incidence of hearing loss, terminology and definitions, service delivery models, educational trends, accessibility regulations and the impact of noise. Information about the various professionals, who work with individuals with hearing loss, and their respective roles, will also be provided. This 4 credit course is open to all undergraduates and it has no prerequisites.
Equivalent(s): COMM 575

COMM 502 - American Sign Language II
Credits: 4
This course is taught in American Sign Language and has an online lab requirement. There is an emphasis on active language use to improve speed and accuracy. Advanced linguistic principles of ASL as well as the cultural considerations are presented. Exploration of signed languages from around the world are included.
Equivalent(s): COMM 402

COMM 504 - Basic Audiology
Credits: 4
Normal hearing process and pathologies of the auditory system. Hearing screening, pure-tone testing, and speech audiometry. Prereq: COMM 521 or permission.
Equivalent(s): COMM 704

COMM 521 - Anatomy and Physiology of the Speech and Hearing Mechanisms
Credits: 4
Anatomy, physiology, neurology, and function of the mechanisms for the production and perception of speech.

COMM 522 - Language Acquisition
Credits: 4
This course is an introduction to typical language acquisition. The progression of language development is examined within a linguistic framework, phonology, morphology, syntax, semantics, and pragmatics. Theories of language acquisition overviewed. Prereq: COMM 524.

COMM 524 - Clinical Phonetics
Credits: 4
Application of the International Phonetic Alphabet to normal and clinical populations; use of broad and narrow transcriptions. Basic speech science, acoustic phonetics, and acoustic analysis of speech production.
COMM 605 - American Sign Language III  
Credits: 4  
Builds upon the information covered in Introductory ASL I and II. Development of basic grammatical rules, vocabulary, manual alphabet/numbers, visual-gestural communication, and information related to Deaf Culture are covered. All lectures, laboratory activities, outside assignments build upon rudimentary competency in receptive and expressive use of ASL and develop fluency and competency. Class is conducted using ASL only. Prereq: American Sign Language I and II. Equivalent(s): COMM 734

COMM 610 - Voodoo Science  
Credits: 4  
This course will allow students to develop an understanding of evidence-based practice in the modern health care arena. This course offers a unique opportunity to learn critical thinking skills, evaluate scientific inquiry and discern information that has evidence from that with no support. The ability to evaluate ideas, and in particular, distinguishing scientific evidence from fiction is critical to success in any scholarly discipline, different ideas, such as perpetual motion machines, cold fusion, homeopathy, the role of media in spreading voodoo and scientific misconduct will be explored. Many of these have started out as sincere attempts to understand various phenomena, but at some point were found to not be supported by evidence. Unfortunately, these ideas continued to be promoted for a variety of reasons including financial gain, professional name, or social prominence and as such became fraudulent. As part of this course, we will study evidence-based practice in health care in relation to Voodoo Science. Equivalent(s): COMM 510

COMM 634 - Conversational American Sign Language  
Credits: 4  
Builds upon the information covered in Introductory ASL I and II. Development of basic grammatical rules, vocabulary, manual alphabet/numbers, visual-gestural communication, and information related to Deaf Culture are covered. All lectures, laboratory activities, outside assignments build upon rudimentary competency in receptive and expressive use of ASL and develop fluency and competency. Class is conducted using ASL only. Prereq: American Sign Language I and II. Equivalent(s): COMM 734

COMM 636 - Speech and Hearing Science  
Credits: 4  
Physical, acoustical, and perceptual correlates of normal speech production and audition. Includes theoretical models with the generation, transmission, detection, and analysis of speech signals.

COMM 705 - Introduction to Aural Rehabilitation  
Credits: 4  
This course will include principles of habilitation/rehabilitation of communication challenges resulting from hearing loss or deafness across the lifespan. Management strategies related to early identification and intervention, educational services, vocational success and psychosocial impact will be provided.

COMM 723 - Observation Skills in Speech-Language Pathology  
Credits: 2  
This guided observation course is designed to acquaint students with intervention and assessment while providing opportunity to begin to develop systematic observation skills. Students successfully completing this course will accrue a minimum of 25 observation hours. Ct/F.

COMM 724 - Senior Capstone: Professional Issues in Speech-Language Pathology  
Credits: 4  
Introduction to the profession of speech-language pathology; review of issues related to scope of practice; professional ethics, certification/licensure, and current challenges facing the profession. Discussion of employment opportunities for speech-language pathologists. Prereq: COMM 420, 504, 521, 522, and 604. Seniors only. Writing intensive. Attributes: Writing Intensive Course Equivalent(s): COMM 635

COMM 725 - Cued Speech  
Credits: 4  
This course covers the fundamentals of the Cued Speech system, its applications and research as well as its relevance to other communication options for children who are deaf or hard of hearing. Various topics are covered, including CS and language development, reading, auditory and speech skill development, auditory processing, bilingualism, Down Syndrome, Autism, cochlear implants and transliteration.

COMM #735 - American Sign Language IV  
Credits: 4  
Builds upon the information covered in Introductory ASL I, II, and III. Development of basic grammatical rules, vocabulary, manual alphabet/numbers, visual-gestural communication and information related to Deaf Culture are covered. All lectures, laboratory activities, outside assignments build upon rudimentary competency in receptive and expressive use of ASL and develop fluency and competency. Class is conducted using ASL only. Prereq: American Sign Language I, II, and III.

COMM 738 - Linguistics of American Sign Language  
Credits: 4  
This course provides linguistic study of the major structural aspects of phonology, morphology, syntax, lexicology, and discourse in American Sign Language. Concepts of language variation, dialect, creolization, and bilingualism are studied. Taught primarily in ASL. Prerequisites/Proficiencies: COMM 402 - Elementary American Sign Language II Minimum grade of: C.

COMM 740 - Treatment of Adults with Acquired Brain Injury  
Credits: 4  
This "hands-on" interdisciplinary experience enables students to acquire clinical skills and professional competence in a community-based day program where they assist adults with acquired brain injury meet their physical, emotional, cognitive-linguistic, social, spiritual, recreational, and vocational needs. Permission required. CSD majors only.

COMM 741 - Speech-Language Pathology I  
Credits: 4  
Research, diagnosis, and therapy procedures as applied to articulation and language disorders. Prereq: BMS 507, KIN 706, COMM 521, and COMM 522. Equivalent(s): COMM 631, COMM 731

COMM 742 - Speech-Language Pathology II  
Credits: 4  
Neurologic bases, diagnoses and treatment of communication disorders; emphasis on motor speech disorders and aphasia from young adulthood to geriatrics. Prereq: BMS 507, KIN 706, COMM 741, COMM 604. Equivalent(s): COMM 630
COMM 779 - Community Based Learning for Deaf and Hard of Hearing Studies
Credits: 4
This internship will allow students in the Deaf and Hard of Hearing Minor to expand their knowledge about the needs, challenges and experiences of deaf and hard of hearing individuals. The internship opportunities will be varied and matched, as closely as possible, to the student’s particular interests. Potential placement opportunities include a school for the deaf, a public agency or vocational setting which provides services for deaf and hard of hearing individuals. Prereq: COMM 401, COMM 475; permission. Cr/F.
Repeat Rule: May be repeated for a maximum of 8 credits.

COMM 795 - Independent Study
Credits: 1-8
Individual or group projects involving directed study of an area of communication sciences and disorders that students wish to explore in greater depth than is covered in the required curriculum. Prereq: permission.
Repeat Rule: May be repeated for a maximum of 8 credits.

COMM 798 - Special Topics
Credits: 1-4
New or specialized topics not covered in regular course offerings. Special fee on some topics.
Repeat Rule: May be repeated for a maximum of 8 credits.

COMM 799 - Honors Thesis
Credits: 1-4
Supervised research leading to the completion of an honors thesis required for graduation from the university honors program in major. Permission required.
Repeat Rule: May be repeated for a maximum of 4 credits.

Community & Environmental Planning (CEP)
# Course numbers with the # symbol included (e.g. #400) have not been taught in the last 3 years.

CEP 415 - Community Development Perspectives
Credits: 4
Introduces students to a range of community development and environmental planning issues facing communities as they undergo social, economic, and environmental change. Through class discussion and examination of case studies, this course instills basic principles and processes of community development and environmental planning, formulation, and conflict resolution. Community and environmental planning topics covered in the course include land use conflict, urban/suburban sprawl, rural development, economic development, local food systems, community infrastructure, and environmental stewardship. Emphasis is placed on the roles and responsibilities of community development professionals, including land use planners, municipal administrators, and community leaders.
Attributes: Social Science (Discovery)
Equivalent(s): CD 415

CEP 508 - Applied Community Development
Credits: 4
Students work in an actual community, assisting individuals and groups to identify needs and problems, establish attainable and objective goals, assess requirements and resources, and formulate programs for development and methods of collection, analysis, and integration of pertinent primary and secondary economic, social, political, and physical data for community development. Prereq: CEP 415 or permission. Lab.
Equivalent(s): CD 508

CEP 614 - Fundamentals of Planning
Credits: 4
Community planning process in nonmetropolitan communities; practical application of planning techniques. Communities' components: housing, jobs, schools, recreation, transportation, community appearance, and the administrative structure for planning. Use of planning tools: data gathering and analysis, the master plan, zoning and subdivision regulations, community development programs. Prereq: EREC 411; CEP 415/or permission. (Offered every other year.) Writing intensive.
Attributes: Writing Intensive Course

CEP 672 - Fundamentals of Real Estate
Credits: 4
This course covers timely subjects in National and regional real estate, such as types of property ownership, easements, financing, contracts, appraisal, brokerage, property listings, commissions, fair housing, and property management. The goal of this class is to prepare students to pass the New Hampshire Real Estate Sales Agent License Exam and/or be knowledgeable real estate investors. Prereq: MATH 420 or higher.
Equivalent(s): CD 672, NR 672

CEP 673 - Green Real Estate
Credits: 4
This class covers issues related to existing and new real estate development with respect to history, law (state statutes and federal legislation), economics, and technology. The course looks at impacts of green development from an individual building level, and out to regional and global levels. We look at common problems and solutions, review case studies, and discuss emerging trends in "green development."

CEP 710 - Seminar
Credits: 2-4
Seminars arranged to students' needs and offered as demand warrants: in-depth treatment of area, including classic work. May be repeated.
Equivalent(s): CD 710

CEP 777 - Topics in Community Planning
Credits: 4
Advanced treatment of the concepts and tools required for effective local and regional planning to guide land use, capital investment in infrastructure, and organization for service delivery. Prereq: CEP 614 or permission. (Also listed as RAM 877.) (Offered every other year.) Writing intensive.
Attributes: Writing Intensive Course
Equivalent(s): CD 777, RAM 877
CEP 794 - Community and Environmental Planning Internship
Credits: 4-12
Fieldwork in a planning office for student’s professional development. Student must be supervised by a qualified planner or faculty-approved supervisor throughout the internship and remain in consultation with a faculty advisor. A Memorandum of Understanding between the student, the internship supervisor, and the faculty advisor, as well as midterm and final written reports are required. May be taken for 4 credits with 150 hours of internship up to a maximum of 12 credits for 450 hours of internship. Cr/F.
Repeat Rule: May be repeated for a maximum of 12 credits.
Equivalent(s): CD 794

CEP 795 - Investigations
Credits: 2-4
Special assignments in readings, investigations, or field problems, or teaching experience. May be repeated. Prereq: permission.
Equivalent(s): CD 795, CD 795W, CEP 795W

CEP 795W - Investigations
Credits: 2-4
Special assignments in readings, investigations, or field problems, or teaching experience. May be repeated. Prereq: permission. Writing intensive.
Attributes: Writing Intensive Course
Equivalent(s): CD 795, CD 795W, CEP 795

Community Leadership (CSL)
# Course numbers with the # symbol included (e.g. #400) have not been taught in the last 3 years.

CSL 202

CSL 203 - Organizing and Supervising Volunteers
Credits: 4
This course provides students with the knowledge and skills necessary to design, organize, and manage effective volunteer programs. Topics covered include: identifying organizational volunteer needs, recruiting, supervising, and motivating volunteers, integrating volunteers into the overall goals and services of an organization, and creating effective volunteer training programs. Students will explore resources available for creating a successful volunteer program and will research the variety of approaches to volunteer management that organizations currently use. All students also volunteer with a community organization.
Equivalent(s): CSL 203

CSL 402 - Introduction to Nonprofit Organizations
Credits: 4
This practical course provides an overview of the unique responsibilities and practices needed to effectively manage a community-based nonprofit organization. Topics include: issues of organizational structure and staffing, strategic planning, board effectiveness, financial management, leadership roles and responsibilities, and public accountability.
Equivalent(s): CSL 202

CSL 401 - Introduction to Community Service and Leadership
Credits: 4
Students are introduced to differing concepts of community and influence within communities, and to the challenges facing leaders within community organizations as they work to address key problems. All students participate in a significant community project which serves as the basis for both learning specific community organizing skills and for reflecting on the rewards and challenges of community leadership. Writing intensive.
Attributes: Social Science (Discovery); Writing Intensive Course
Equivalent(s): CSL 201

CSL 402 - Introduction to Nonprofit Organizations
Credits: 4
This practical course provides an overview of the unique responsibilities and practices needed to effectively manage a community-based nonprofit organization. Topics include: issues of organizational structure and staffing, strategic planning, board effectiveness, financial management, leadership roles and responsibilities, and public accountability.
Equivalent(s): CSL 202

CSL 403 - Organizing and Supervising Volunteers
Credits: 4
This course provides students with the knowledge and skills necessary to design, organize, and manage effective volunteer programs. Topics covered include: identifying organizational volunteer needs, recruiting, supervising, and motivating volunteers, integrating volunteers into the overall goals and services of an organization, and creating effective volunteer training programs. Students will explore resources available for creating a successful volunteer program and will research the variety of approaches to volunteer management that organizations currently use. All students also volunteer with a community organization.
Equivalent(s): CSL 203

CSL 404 - Organizing and Supervising Volunteers
Credits: 4
This course provides students with the knowledge and skills necessary to design, organize, and manage effective volunteer programs. Topics covered include: identifying organizational volunteer needs, recruiting, supervising, and motivating volunteers, integrating volunteers into the overall goals and services of an organization, and creating effective volunteer training programs. Students will explore resources available for creating a successful volunteer program and will research the variety of approaches to volunteer management that organizations currently use. All students also volunteer with a community organization.
Equivalent(s): CSL 203

CSL 405 - Communication Within Communities
Credits: 4
This course focuses on the ways we influence—and are influenced by—others within the communities in which we live and participate. Students have the opportunity to analyze how a specific “real life” community issue is presented, interpreted, and resolved through various written and oral mediums. Additional coursework involves frequent writing and speaking assignments, with particular emphasis on the forms of persuasion that most commonly shape “community opinion.” Students will also examine on-line forms of communication such as web sites and e-newsletters and contribute to at least one of these as a service to a community organization.
Equivalent(s): CSL 205

CSL 491 - Studies in Community Service and Leadership
Credits: 1-4
Students who have the ability and adequate preparation to work independently may propose a contract to design a course or research project on a topic not available through existing course offerings. The purpose of this research is to explore new areas in the student’s field of study or to pursue course material in greater depth. Work is supervised by an appropriate faculty/staff member and credit varies depending on the proposed project/research. Areas may include a specific community leadership/organizing topic. Prereq: CSL 401 or equivalent.
Equivalent(s): CSL 291

CSL 492 - Studies in Community Service and Leadership
Credits: 1-4
Students who have the ability and adequate preparation to work independently may propose a contract to design a course or research project on a topic not available through existing course offerings. The purpose of this research is to explore new areas in the student’s field of study or to pursue course material in greater depth. Work is supervised by an appropriate faculty/staff member and credit varies depending on the proposed project/research. Areas may include a specific community leadership/organizing topic. Prereq: CSL 401 or equivalent.
Equivalent(s): CSL 292

CSL 504 - Managing Change and Conflict in Communities
Credits: 4
This course examines a variety of approaches to promoting and responding to community change. Through active participation and analysis of specific community initiatives, students will explore such topics as issue-identification, planning for change, power dynamics and conflict within diverse groups, strategies for action, lobbying, and influencing political action. Prereq: CSL 401, permission.
Equivalent(s): CSL 204, CSL 404
CSL 506 - Literature of Family and Community
Credits: 4
Through a wide range of readings, primarily fiction, this course examines what it means to be an individual living in the context of family and community. Students use these readings both to examine differing concepts of community and to explore how individuals and groups respond to the challenges of creating as well as changing their communities. Coursework involves critical analysis, group-led discussions, and frequent short papers. Prereq: COM 211 or instructor permission.
Attributes: Humanities(Disc); Writing Intensive Course
Equivalent(s): CSL 406

CSL 508 - Essentials of Grant Writing for Community-Based Organizations
Credits: 2
The ability to raise funds is essential to all community-based and nonprofit organizations. This course is designed to provide students with the essential knowledge and skills to develop and execute a successful fundraising program. Topics covered include: prospect research, choosing fundraising strategies, common fundraising mistakes, maintaining relationships with donors, raising money by mail, personal solicitation, event planning, and other key approaches to raising money.
Equivalent(s): CSL 208

CSL 509 - Essentials of Grant Writing for Community-Based Organizations
Credits: 2
This course provides the information and skills necessary to research and apply for grants from government agencies, foundations, corporations, and other sources. Students will follow the process of grant-seeking from identifying need through application and follow up.
Equivalent(s): CSL 209

CSL 510 - Civic and Community Internship
Credits: 4
This internship is designed to promote experiential learning about community service and leadership through active involvement within a community organization. It provides students with an opportunity to build upon their skills and interests while developing an awareness of civic and community issues. In addition to participating in community projects, students are expected to reflect upon their experiences and to relate them to assigned reading. Each student will complete a research project based on a problem encountered at the service site. Prereq: CSL 401 or permission of instructor.
Repeat Rule: May be repeated for a maximum of 8 credits.
Equivalent(s): CSL 290, CSL 490

CSL 520 - Capstone Seminar
Credits: 4
This seminar provides the opportunity for students in their final semester to synthesize their learning and skills as they broaden their understanding of the political and social policy dimensions of community organizing and leadership. Each student will engage in a significant service project that will serve as the focal point for both skill application and issue analysis. Prereq: CSL 401, CSL #402, CSL #403, and CSL 405.
Equivalent(s): CSL 210

Computer Science (CS)

Course numbers with the # symbol included (e.g. #400) have not been taught in the last 3 years.

CS 400 - Introduction to Computing
Credits: 1
Initial exploration of computing, including comparison of the various subfields. A wide range of issues, including fundamental concepts, selected current topics and the role of both computing and computing professionals in organizations and in society are also discussed. Cr/F.

CS 401 - Computers and Their Applications
Credits: 4
Use of computers to manage and analyze information across a variety of settings and disciplines. Introduces major categories of computer software, including word processing, spreadsheets and database systems. Covers basic computer concepts and the computer’s role in today’s society. Significant hands-on work required outside of the class. Not open to CS majors. CEPS students should check with their major department for approval.
Attributes: Environment, TechSociety(Disc)
Equivalent(s): CIE 530, CS 401H, CS 495, DCE 491, DCE 492, INCO 495

CS 401H - Honors/Computers & Their Appl
Credits: 4
Use of computers to manage and analyze information across a variety of settings and disciplines. Introduces major categories of computer software, including word processing, spreadsheets and database systems. Covers basic computer concepts and the computer’s role in today’s society. Significant hands-on work required outside of the class. Not open to CS majors. CEPS students should check with their major department for approval.
Attributes: Environment, TechSociety(Disc)
Equivalent(s): CIS 411, CS 401, DCE 491, DCE 492

CS 404 - Do-It-Yourself Internet
Credits: 4
The objective of this course is to demystify the design process that leads to the evolution of the Internet. In doing so, we investigate the ways that technology changes to meet the needs of society, how society changes in response to these new technologies and how these societal changes create pressures that produce needs for new technologies.
Attributes: Environment, TechSociety(Disc)

CS 405 - Introduction to Applications Programming
Credits: 4
Introduces the concepts and techniques of computer programming. Particular emphasis on computer programming as a problem-solving technique for business applications. The basic software development process (modeling, algorithm design, programming, testing and debugging) is illustrated. CEPS students should check with their major department for approval. Not open to CS and IT majors.

CS 408 - Living in a Networked World: The Good, the Bad, and the Ugly
Credits: 4
The objective of this course is to explore the implications of living in a networked world. The course surveys the fundamental technologies and practices that make up the Internet and then ask the student to examine the ramifications of using the technologies. Users of the technologies should understand the technology in order to make educated decisions about how to use it safely and effectively. Students have the opportunity to self-publish by using various current technologies including blogs, discussion boards, email and creating web pages using xhtml.
Attributes: Environment, TechSociety(Disc)
CS 410 - Introduction to Scientific Programming
Credits: 4
Introduces the concepts and techniques of computer programming. Particular emphasis on computer programming as a problem-solving technique in science and engineering applications. Either the C language or Python is taught and used for assignments. Good programming style is stressed. Significant out-of-class programming required. Not open to students who have completed CS 407, 415, or the equivalent.
Equivalent(s): CS 410C, CS 411, CS 412, CS 415, CS 416

CS 410C - Introduction to Scientific Programming/C
Credits: 4
Introduces the concepts and techniques of computer programming. Particular emphasis on computer programming as a problem-solving technique in science and engineering applications. Good programming style is stressed. Significant out-of-class programming required. Not open to students who have completed CS 415 or equivalent.
Equivalent(s): CS 410, CS 415

CS 410P - Introduction to Scientific Programming/Python
Credits: 4
Introduces the concepts and techniques of computer programming. Particular emphasis on computer programming as a problem-solving technique in science and engineering applications. Good programming style is stressed. Significant out-of-class programming required. Not open to students who have completed CS 415 or the equivalent.
Equivalent(s): CS 410, CS 415

CS 414 - From Problems to Algorithms to Programs
Credits: 4
This course is an introduction to the design and implementation of computer programs. The basic software development process (modeling, algorithm design, programming, testing and debugging) is illustrated through problem examples. Programming techniques are introduced to allow students to implement and evaluate solutions as programs.
Attributes: Quantitative Reasoning(Disc)

CS 415 - Introduction to Computer Science I
Credits: 4
Theory and practice of computer science. Algorithm development and analysis; data abstraction techniques; elementary data structures; dynamic memory manipulation; debugging; and program design issues. Computer systems and applications. Intended for CS majors.
Equivalent(s): COMP 425

CS 416 - Introduction to Computer Science II
Credits: 4
Theory and practice of computer science. Algorithm development and analysis; data abstraction techniques; elementary data structures; dynamic memory manipulation; debugging; and program design issues. Computer systems and applications. Intended for CS majors. Prereq: CS 415.
Equivalent(s): COMP 425, CS 412, CS 512

CS 417 - From Programs to Computer Science
Credits: 4
Accelerated coverage of programming techniques for students with experience equivalent to CS410 or CS 414. Covers basic algorithm analysis. Topics include basics of classes, inheritance, and data abstraction; linear data structures (vectors, lists, stacks and queues); trees and simple graphs; hash tables; sorting and searching; recursion; and basic graph traversal algorithms. Numerous labs and programming assignments build skills in planning, problem solving, and debugging: this is a hands on course. Prereq: CS 410 or CS 414 or equivalent.

CS 501 - Professional Ethics and Communication in Technology-related Fields
Credits: 4
A mixed lecture/seminar course intended to improve both reasoning and ability to communicate effectively in front of an audience. Students learn basic forms of ethical argument, they read about ethical situations in which technology and technology professions play a key role, and they participate in student-led discussions about the reading. Students also make oral presentations about both ethical and technical topics, and evaluate each other’s presentations in order to improve their sense for what makes a good presentation. Prereq: ENGL 401.
Attributes: Environment, TechSociety(Disc); Inquiry (Discovery)

CS 515 - Data Structures and Introduction to Algorithms
Credits: 4
Reviews basic data structures; advanced data structures such as graphs, B-trees, and AVL trees; abstract data structure design and programming techniques; use of data abstraction language. Introduction to algorithm analysis. Prereq: CS 416 or CS 417.
Equivalent(s): COMP 525, CS 612

CS 520 - Assembly Language Programming and Machine Organization
Credits: 4
Assembly language programming and machine organization: program and data representation; registers, instructions, and addressing modes; assemblers and linkers. Impact of hardware on software and software on hardware. Prereq: CS 416 or CS 417.
Equivalent(s): CS 611

CS 580 - Introduction to Topics in Computing
Credits: 1-2
Introductory material not normally covered in regular course offerings, but of value to students prior to internships or senior-level courses. Repeat Rule: May be repeated for a maximum of 6 credits.

CS #595 - Professional Ethics and Communication in Computer Science
Credits: 2
A seminar course intended to improve both reasoning and ability to communicate effectively in front of an audience. Students learn basic forms of ethical argument, they read about ethical situations in which technology and technology professions play a key role, and they participate in student-led discussions about the reading. Students also make oral presentations about both ethical and technical topics, and evaluate each others’ presentations in order to improve their sense for what makes a good presentation.

CS 619 - Introduction to Object-Oriented Design and Development
Credits: 4
Principles of problem analysis and software design applied to the development cycle of a software system (i.e. from system requirements specification to design, implementation, and system test). Design and implementation using object-oriented principles, patterns, and tools. Experience in understanding and debugging software systems. Experience in working in groups. Prereq: CS 515.
Equivalent(s): CS 516

CS 620 - Operating System Fundamentals
Credits: 4
Introduces operating system concepts and design. Process and memory management; scheduling; file systems; storage devices; inter-process communication. Prereq: CS 520.
Equivalent(s): CS 610
CS 659 - Introduction to the Theory of Computation
Credits: 4

CS 671 - Programming Language Concepts and Features
Credits: 4
Explores the main features of modern, high-level, general purpose programming languages from the user (programmer) point of view. Provides students with an opportunity to use non-imperative programming paradigms, such as object-oriented, functional, and logical, and to learn how specific features of such languages can be used efficiently in solving programming problems. Prereq: CS 520.

CS 696 - Independent Study
Credits: 1-6
Individual projects developed and conducted under the supervision of a faculty member. Prereq: permission of faculty supervisor and department chairperson. May be repeated for credit.
Equivalent(s): CS 696W

CS 696W - Independent Study
Credits: 1-6
Individual projects developed and conducted under the supervision of a faculty member. Prereq: permission of faculty supervisor and department chairperson.
Attributes: Writing Intensive Course
Repeat Rule: May be repeated for a maximum of 8 credits. May be repeated up to 1 time.
Equivalent(s): CS 696

CS 699 - Internship
Credits: 1
Provides the opportunity to apply academic experience in settings associated with future professional employment. A written proposal for the internship must be approved by the instructor. The proposal must specify what the student will learn from the internship, why the student is properly prepared for the internship and what supervision is available during the internship. A mid-semester report and final report are required. Prereq: permission. Only open to Computer Science majors. Cr/F.
Repeat Rule: May be repeated for a maximum of 4 credits. May be repeated up to 3 times.
Equivalent(s): CS 600

CS 712 - Compiler Design
Credits: 4
Formal languages and formal techniques for syntax analysis and parsing; organization of the compiler and its data structures; code generation. LL and LR parsing; automatic generation of scanners and parsers from high level descriptions. Implementation of features from imperative and object-oriented languages. Students required to design and implement a compiler for a simple language. Prereq: CS 520.

CS #720 - Operating System Programming
Credits: 4
Detailed discussion of operating system concepts and features. Practical examples and exercises that utilize advanced operating system features, including inter-process communication, synchronization, client-server communication, shared memory, threads, remote procedure calls, and device-level I/O. Discussion of POSIX 1003.1 Part I Standards. Prereq: CS 520 and CS 619.

CS 723 - Performance Evaluation of Computer Systems
Credits: 4
Introduces the main concepts, techniques, and tools needed to evaluate the performance of computer systems under various configurations and workloads. The techniques allow one to perform capacity planning based on quality of service requirements of users and workload characteristics. Course is mainly based on the use of analytic queuing network models of computers systems. The performance techniques are applied to study the performance of centralized, distributed, parallel, and client/server systems. The course also discusses performance measuring tools for operating systems such as Unix and Windows NT. Prereq: CS 620 and (MATH 539 or MATH 644).

CS 725 - Computer Networks
Credits: 4
Introduction to fundamental concepts of computer networks and exploration of widely-used networking technologies. Topics include principles of congestion and error control; network routing; local, wireless and access networks; application protocol design; and network programming. In-depth discussion of the Internet suite of protocols. Prereq: CS 520.
Equivalent(s): IT 725

CS 727 - Computer Security
Credits: 4
Introductory course in the mechanism and implementation of techniques in computer security. Various fundamental security topics include cryptography, passwords, access control, protocols, software vulnerabilities and malware detection. Prereq: CS 520.

CS 730 - Introduction to Artificial Intelligence
Credits: 4
In-depth introduction to artificial intelligence, concentrating on aspects of intelligent problem-solving. Topics include situated agents, advanced search techniques, knowledge representation, logical reasoning techniques, reasoning under uncertainty, advanced planning and control, and learning. Prereq: CS 515.

CS 730W - Introduction to Artificial Intelligence
Credits: 4
In-depth introduction to artificial intelligence, concentrating on aspects of intelligent problem-solving. Topics include situated agents, advanced search techniques, knowledge representation, logical reasoning techniques, reasoning under uncertainty, advanced planning and control, and learning. Prereq: CS 671. Writing intensive.
Attributes: Writing Intensive Course

CS 733 - Mobile Robotics
Credits: 4
An introduction to the foundational theory and practices in mobile robotics. Topics include Kinematics of wheeled mobile robots, Sensors for mobile robots, Robot navigation and perception, Robot vision, Localization and mapping of mobile robots. Hands-on experience directed towards implementation with a real robot. Prereq: Programming course of Permission of instructor.

CS 735 - Introduction to Parallel and Distributed Programming
Credits: 4
Programming with multiple processes and threads on distributed and parallel computer systems. Introduces programming tools and techniques for building applications on such platforms. Course requirements consist primarily of programming assignments. Prereq: CS 520.
Equivalent(s): CS 735W
CS 745 - Formal Specifications and Verification of Software Systems  
Credits: 4
Course focuses on the formal specification and verification of reactive systems, most notably concurrent and distributed systems. Topics relevant to these systems, such as non-determinism, safety and liveness properties, asynchronous communication or compositional reasoning, as discussed. We rely on a notation (TLA+, the Temporal Logic of Actions) and a support tool (TLC, the TLA+ Model Checker). Prereq: CS 520 and CS 659.

CS 750 - Machine Learning  
Credits: 4
An introduction to fundamental concepts and common methods in machine learning. In addition to theoretical topics, the course involves hands-on experience in making predictions using synthetic and real-world datasets. Prereq: MATH 539 or MATH 644, and Programming course or Permission of instructor.

CS 753 - Information Retrieval  
Credits: 4
Fundamental algorithms and techniques for text processing and text-based information retrieval systems. Topics include how to build an end-to-end information retrieval system, such as a Web search engine. Prereq: CS 515.
Equivalent(s): MATH 753

CS 757 - Mathematical Optimization for Applications  
Credits: 4
This course introduces the foundations of mathematical optimization and reinforces them via applications. The content includes convex optimization, first and second-order methods, constrained problems, duality, linear and quadratic programming, as well as discrete and non-convex optimization. Applications will focus on machine learning methods but also include problems from engineering and operations research. Prereq: MATH 426; Programming proficiency in MATLAB, R, Java, C, Python, or equivalent.
Equivalent(s): MATH 757

CS 758 - Algorithms  
Credits: 4
An introduction to important concepts in the design and analysis of algorithms and data structures, including implementation, complexity analysis, and proofs of correctness. Prereq: CS 515 and CS 659.

CS 760W - Introduction to Human-Computer Interaction  
Credits: 4
Human-computer interaction is a discipline concerned with the design, evaluation, and implementation of interactive computing systems for human use and with the study of major phenomena surrounding them. Prereq: CS 619 and CS 620. Writing intensive.
Attributes: Writing Intensive Course
Equivalent(s): CS 760

CS #767 - Interactive Data Visualization  
Credits: 4
Detailed discussion of how an understanding of human perception can help us design better interactive displays of data. Topics include color, space perception, object perception and interactive techniques. Students write interactive programs, give presentations and undertake a project designing and evaluating a novel display technique. Prereq: instructor’s permission.
Equivalent(s): CS 767W

CS 767W - Interactive Data Visualization  
Credits: 4
Detailed discussion of how an understanding of human perception can help us design better interactive displays of data. Topics include color, space perception, object perception and interactive techniques. Students write interactive programs, give presentations and undertake a project designing and evaluating a novel display technique. Prereq: instructor’s permission. Writing intensive.
Attributes: Writing Intensive Course
Equivalent(s): CS #767

CS 770 - Computer Graphics  
Credits: 4
Input-output and representation of pictures from hardware and software points of view; interactive techniques and their applications; three-dimensional image synthesis techniques and their applications. Prereq: CS 671.
Equivalent(s): CS 770W

CS 771 - Web Programming Paradigms  
Credits: 4
In this course you will learn languages to program the Web. Languages integrated into browsers, like JavaScript, and languages invoked on the server, like Ruby. You will also learn about frameworks, like Rails, and various techniques used to support the programming process. In addition, you will learn languages you will need to create, modify, and process Web documents. Although we will learn how to read and write in these languages, our primary goal will be an understanding of how the design of these multi-paradigm dynamic languages support the process of developing Web applications. Prereq: CS 671.
Equivalent(s): IT 771

CS 775 - Database Systems  
Credits: 4
Introduction to database management systems --- design, implementation, and usage --- with focus on the relational model. Data description, manipulation, and query language in the context of MySQL. Schema design and normalization; indexes, transaction processing. Web access of databases (PHP); overview of XML and noSQL systems. No credit if credit earned for IT 775. Prereq: CS 515.
Equivalent(s): IT 775

CS 780 - Topics  
Credits: 1-4
Material not normally covered in regular course offerings. May be repeated for credit.

CS 791 - Senior Project I  
Credits: 2
The principal goal of CS 791 is to develop precise functional specifications for the senior projects as well as a complete software design specification. The course will review and expand upon design concepts presented in previous courses, including UML, and CRC approach, and design patterns. Students apply these concepts to the design of their own senior projects. A significant component of the design includes specifications of the testing methodology to be used. Prereq: CS 619. Computer Science and CS: Bioinformatics majors only.

CS 792 - Senior Project II  
Credits: 2
Continuation of CS 791: Senior Project I. Students complete the project by implementing their design. Students work in teams. Successful completion of this course fulfills the Capstone Experience requirement for Computer Science majors. Prereq: CS 791. Writing intensive.
Attributes: Writing Intensive Course
CS 799 - Thesis
Credits: 4
Students work under the direction of a faculty sponsor to plan and carry out independent research resulting in a written thesis. Required for honors-in-major. Prereq: Permission.
Attributes: Writing Intensive Course
Repeat Rule: May be repeated for a maximum of 8 credits.

Computing Technology (COMP)

COMP 405 - Introduction to Web Design and Development
Credits: 4
Students learn the fundamentals of how the Internet works, gain practice with foundational technologies that power websites and learn how to solve problems like a programmer. A significant portion of the course covers web front-end design and development; students create a website using HTML/CSS, and are introduced to JavaScript language and responsive web design techniques. Topics include Internet history and structure, legal and ethical issues. No prior programming experience is required.
Attributes: Environment,TechSociety(Disc)
Equivalent(s): CIS 405, CS 403

COMP 415 - Mobile Computing First and For Most
Credits: 4
This course examines how mobile computing is transforming our everyday lives and the society and environment in which we live. In this course the students will engage the mobile ecosystem by inventing apps and solving problems of personal, social, and environmental relevance. Students will learn computational thinking skills and create mobile apps using AppInventor, a free and open source visual blocks-based programming environment. Students will share their creative apps with peers and communities. They will also exercise inclusion, civic engagement, and peer learning in the context of innovating with free and open source software that empower individuals and communities.
Attributes: Environment,TechSociety(Disc)
Equivalent(s): CIS 415

COMP 424 - Applied Computing 1: Foundations of Programming
Credits: 4
Integrates three essential computing competencies: Problem solving, data analysis, and programming. Problems are chosen from data-driven real-world examples such as astronomy, cryptography, environmental simulation, image processing, and video games. Emphasis is on formulating problems, thinking creatively about how computations can solve problems, and expressing solutions clearly and accurately. Using Python, students learn design, implementation, testing, and analysis of algorithms and programs.

COMP 425 - Introduction to Programming
Credits: 4
An introduction to problem solving and object-oriented programming. Emphasis is on programming concepts and techniques and their application to software development. Students learn to write, review, document, share, and demonstrate interactive applications and participate in pair programming, peer-led tutoring, and collaborative learning throughout the course.
Equivalent(s): CIS 425, CS 415, CS 416, CS 505

COMP 430 - Systems Fundamentals
Credits: 4
The underlying hardware and software infrastructure upon which applications are constructed is collectively described by the term "computer systems." Computer systems broadly span the subdisciplines of operating systems, parallel and distributed systems, communications networks, and computer architecture. The class will present an integrative view of these fundamental concepts in a unified albeit simplified fashion, providing a common foundation for the different specialized mechanisms and policies appropriate to the particular domain area.
Equivalent(s): ECE 401

COMP 500 - Discrete Structures
Credits: 4
This course prepares students for understanding computational complexity; i.e., what makes a given task/problem hard and how hardness is measured. It accomplishes this through the study of algorithms, permutations, combinations, probability, graph theory, and trees.

COMP #505 - Advanced Web Authoring
Credits: 4
An introduction to web applications development. The course builds on introductory programming and web authoring. Emphasis is on dynamic web concepts and advanced programming techniques using markup languages and client-side and server-side scripting. Students learn to develop interactive web pages and integrate them with web-based systems. Students participate in real-world team projects. Prereq: COMP 405 and COMP 425, or permission.
Equivalent(s): CIS 503, CIS 505, CIS 599

COMP #515 - Multimedia: Introduction and Applications
Credits: 4
Examines the history and underlying theory behind computer integration of text, sound, video, and graphics. Topics include: hardware and software requirements, design criteria, analysis of current hypertext, and multimedia applications in education and business. Students gain practical experience in developing multimedia applications on the Macintosh platform.
Equivalent(s): CIS 515

COMP 520 - Database Design and Development
Credits: 4
An introduction to developing database applications with business users. Topics include fundamentals of the relational model, structured query language, data modeling and database design and implementation. Students use a variety of database management system tools to model, code, debug, document, and test database applications. Students complete real-world team projects. Prereq: COMP #505 and COMP 510, or permission.
Equivalent(s): CIS 520, IT 505

COMP 525 - Data Structures Fundamentals
Credits: 4
Data structures and algorithms are fundamental to developing solutions for computational problems. In this course students design and implement data and functional abstractions; analyze and select appropriate data structures to solve computational problems; practice programming and software development techniques to implement computational solutions. Prereq: COMP 425.
Equivalent(s): CS 515
COMP 530 - Machine and Network Architecture
Credits: 4
Examines the following topics. Machine organization: program and data representation; registers, instructions, and addressing modes; assemblers and linkers. Impact of hardware on software and software on hardware. Introduces the Internet protocol suite and network tools and programming and discusses various networking technologies.

COMP 550 - Networking Concepts
Credits: 4
Explores the fundamentals of data communications and networking requirements for an organization, including the standard layers of network organization; network technologies; and protocols for LANs, WANs, wireless networks, and switched and routed networks. Includes issues of security, topology, management, and future developments. Prereq: COMP 542 or permission.
Equivalent(s): CIS 550

COMP 560 - Ethics and the Law in the Digital Age
Credits: 4
Examines classical ethical and legal constructs as they pertain to current and topical issues. Students develop and articulate a personal point of view on a broad range of issues based on sound ethical principles and consider the impact of such views on co-workers, employers, and society in general. Topics also include: major social issues involving intellectual property, privacy, current U.S. and international relations relevant to ethical theories. The interplay between ethics and law is explored through current case studies and students formulate and support conclusions based on ethical constructs presented in class. Case study analysis is a major component in course delivery. Writing intensive.
Attributes: Humanities(Disc); Writing Intensive Course
Equivalent(s): CIS 560

COMP 570 - Statistics in Computing and Engineering
Credits: 4
An introduction to tools from probability and statistics that are needed by computing and engineering professionals. Exploratory data analysis including graphic data analysis, discrete and continuous probability distributions, inference, linear regression, and analysis of variance, with applications from artificial intelligence, machine learning, data mining, and related topics. Project work and use of statistical software are an integral part of the course. Prereq: MATH 425; MATH 424B; MATH 424A.

COMP 574 - Applied Computing 2: Foundations of Machine Learning
Credits: 4
Introduction to making informed, data-based decisions with machine learning, data representation and analysis tools, and programming. Emphasis is on the importance of gathering, cleaning, normalizing, visualizing and analyzing data to drive informed decision-making in any field of study. Students learn to use tools and techniques to work on real-world datasets using procedural and basic machine learning algorithms. Students also learn to ask good, exploratory questions and develop metrics to come up with a well-thought-out analysis. Prereq: COMP 424.

COMP 590 - Entrepreneurship Project
Credits: 4
This course requires the development of a conceptual business plan for a proposed real world project undertaken by a team of students. An iterative approach is used to incrementally address the project requirements while constructing and refining original proposed plan. Prereq: COMP 525.

COMP 625 - Data Structures and Algorithms
Credits: 4
An introduction to object-oriented design, analysis, and implementation of data structures and algorithms. Students apply concepts and techniques to develop information processing applications. Best programming practices of editing, debugging, documentation, testing, and code review are stressed. Familiarity with an object-oriented programming language and experience with application development are required. Prereq: COMP 425 and COMP #505, or permission.
Equivalent(s): CIS 630, ET #601

COMP 630 - Systems Software
Credits: 4
Today's organizations need to deliver applications and services by automating processes that develop and deploy software and manage scalable computing infrastructures. Students will learn how to integrate development, operations, and cloud computing and gain experience with design approaches, version control, continuous integration, cloud-based APIs, and monitoring metrics. Key to systems software tools and automation processes are increased communication and collaboration practiced in the course team projects. Students who took COMP 698 Sp/Topic Systems Software cannot repeat for credit.

COMP 640 - Human Computer Interaction
Credits: 4
This course familiarizes students with Human Computer Interaction and the significant role it plays in product design and development. The principles of HCI, examples of good and bad applications, and factors that determine a design's effectiveness are covered. Stages of the product development life cycle are discussed to understand the progression of a project from conception to delivery and the impact it has on HCI. No credit for students who took CIS 599 Special Topics: Human Computer Interaction.
Equivalent(s): CIS 640

COMP 650 - Network Administration and Maintenance
Credits: 4
Advances the understanding of networks through practical application of administering and maintaining and intranet and its servers. Students use a modern server operating system and network management tools. Routine tasks include: install and configure servers, setup directory services and access privileges, tune network services, understand and implement network security, perform routine maintenance, and practice troubleshooting techniques. Prereq: COMP 550 or permission.
Equivalent(s): CIS 620

COMP 660 - Internship Experience
Credits: 4
The internship provides field-based learning experience through placement in a computing field. Students gain practical computing experience in a business, non-profit, or government organization. Under the direction of a faculty advisor, the student is expected to contribute to the information technology products, processes, or services of the organization. Prereq: COMP 685 and instructor permission. Majors only. May be repeated up to 8 credits but no more than 4 credits may fill major requirements. Prereq: UMST 582 or instructor permission.
Repeat Rule: May be repeated for a maximum of 8 credits.
Equivalent(s): CIS 680, CIS 690
COMP 698 - Special Topics  
Credits: 1-4  
Course topics not offered in other courses. Topics covered vary depending on contemporary computing topics, programmatic need, and availability and expertise of faculty. Barring duplication of subject, may be repeated for credit. Prereq: permission.  
**Repeat Rule:** May be repeated for a maximum of 8 credits.  
**Equivalent(s):** CIS 599, CIS 698

COMP 705 - Full Stack Development  
Credits: 4  
Students work in teams and implement, test, document, demonstrate, and deploy web systems that solve organizational needs expressed by real clients. Emphasis is on advanced server-side and client-side programming and integration of web application with database and web server applications. Free and open source development and communication tools are used to carry out the course project. Prereq: Senior status or permission. No credit for students who have completed CIS 610.  
**Equivalent(s):** CIS 605, CIS 705

COMP 715 - Information Security  
Credits: 4  
Topics include general security principles and practices, network and system security, access control methodology, and cryptography. Students develop a simple cryptographic system based on sound mathematical principals, work to improve it, and find ways to attack it. Some programming required. Prereq: Senior status or permission. No credit for students who have completed CIS 615.  
**Equivalent(s):** CIS 615, CIS 715

COMP 720 - Database Application Development  
Credits: 4  
This is a project course that provides practical experience with developing a storage subsystem of a computer information system. Topics include data modeling, database design, system implementation, and integration with a target application. Emphasis is on implementation activities, database application development artifacts, project communication, and supporting system development and project management tools. Prereq: Senior status or permission. No credit for students who have completed CIS 660.  
**Equivalent(s):** CIS 660, CIS 720

COMP 721 - Big Data for Data Engineers  
Credits: 4  
In this course students gain practical experience developing data-oriented applications in modern infrastructure frameworks, also known as the cloud data solutions. Guided by what a data scientist profile is, students become familiar with the use cases of data oriented applications. They will apply key data modeling and data design concepts to meet business requirements. Students will also apply modern software development to iteratively construct solutions using established reference architectures. Project work will be based in Google Cloud Platform and Amazon Web Services. Prereq: COMP 525 and COMP 530 or equivalent. Special fee.

COMP 725 - Programming Languages  
Credits: 4  
Explores the main features of modern, high-level, general purpose programming languages from the user point of view. Provides students with an opportunity to use non-imperative programming paradigms, such as object-oriented, functional, and visual, and to learn how specific features of such languages can be used efficiently in solving problems. The purpose is to gain knowledge regarding the languages studied as well as providing the basis to conduct analysis related to comparisons and divergence in capabilities. Prereq: COMP 425 or equivalent. No credit earned if credit received for ET #647, CIS 698 Adv Perspectives on Programming, or COMP 698 Adv Perspectives on Programming.  
**Equivalent(s):** CIS 698, COMP 698, ET #647

COMP 730 - Object-Oriented Software Development  
Credits: 4  
Presents an iterative methodology for developing software systems. Development activities include requirements elicitation and analysis, system and object design, implementation and testing, project and configuration management, infrastructure maintenance, and system deployment to end user. Students work in team, assume developer roles, build models of a real-world system, and deliver a proof-of-concept or prototype. Prereq: Senior status or permission. No credit for students who have completed CIS 610. Writing intensive.  
**Attributes:** Writing Intensive Course  
**Equivalent(s):** CIS 610, CIS 710

COMP 740 - Machine Learning Applications and Tools  
Credits: 4  
Introduces students to practical approaches of machine learning. The course is an exploration of creative applications of artificial intelligence using modern machine learning components and tools. Different application domains are considered, such as computer vision, natural language processing, and cyber security. Students learn to evaluate machine learning systems as well as their potential prediction problems. Cannot receive credit if credit earned for COMP 780 AdvTop/ML Tools & Appl. Prereq: COMP 525, COMP 530 or equivalent.  

COMP 750 - Neural Networks  
Credits: 4  
Artificial neural networks power the recent advances in computer vision, speech recognition, and machine translation. This is a first course on neural networks with a focus on applications in computer vision and natural language processing. Topics will include generic feedforward neural networks, convolutional neural networks for computer vision tasks and recurrent neural networks with application to natural language processing, with other topics to be selected based on the interests of the instructor and the class. Prereq: MATH 425, MATH 545 or MATH 645, COMP 490, or permission of the instructor. Also listed as DATA 750.  
**Equivalent(s):** COMP 751, DATA 750, DATA 751

COMP 780 - Advanced Topics in Computing  
Credits: 1-4  
The course includes advanced topics and emerging areas in computing. Barring duplication of subject, the course may be repeated for credit. Prereq: Senior status or permission.  
**Equivalent(s):** CIS 780
Culinary Arts & Nutrition (CAN)

# Course numbers with the # symbol included (e.g. #400) have not been taught in the last 3 years.

CAN 401 - Food Preparation Fundamentals
Credits: 2 or 3
Preparation techniques, knife skills, measurements, food handling, selection, and classification. CAN majors only. 2hr lec. Students in both Restaurant Management and Dietetic Technician concentrations must also complete a lab. Practical application of skills and techniques utilized in a professional kitchen. 2hr lab.
Equivalent(s): CAN 201, FSM 201

CAN 402 - Quantity Food Practicum
Credits: 3
Students utilize cooking principles and food preparation techniques learned in CAN 401 to produce foods in a quantity food setting. Elements of food sanitation and workplace safety in the operation of commercial cooking equipment are stressed. Students operate Stacey's Express, open to the public and participate in various positions such as production manager, cashier, production cooks, and utility workers. Students standardize, cost, and assign selling prices for all menu items prepared for Stacey's Express. Prereq: CAN 401. Culinary Arts & Nutrition majors only.
Equivalent(s): CAN 202, FSM 202

CAN 404 - Baking and Pastry Fundamentals
Credits: 4
Baking and Pastry Fundamentals is an introductory-level baking course exploring the science and art of small-scale and high-volume commercial production of classical and modern pastries and baked goods. Students will gain an understanding of basic ingredients, equipment and techniques used in the production and presentation of plated desserts, as well as the display and storage of pastries and baked goods. Special fee. Co-requisite: CAN 401
Equivalent(s): CAN 204, FSM 204

CAN 405 - Retail Baking and Merchandising
Credits: 4
This course educates and exposes the students to quantity production of baked goods for retail sale. Students will gain understanding of basic ingredients, equipment and techniques used in the production of pastries and baked goods, as well as experience in the presentation, display and storage of baked goods for sale to customers. The student will experience the baker's contribution to a retail bakery, a restaurant, catering business, event businesses (wedding cakes), cottage industries, etc. Special fee. Prereq: CAN 401, 403, and 404.

CAN 407 - Hospitality Sanitation and Safety
Credits: 1
This course covers the responsibilities of food service operators for food safety and sanitation. Students learn safe food production policies and procedures, how to implement HACCP standards, pest control, and crisis management, with an overall focus on learning to take a proactive approach to maintaining a safe food environment. Students sit for the National Restaurant ServSafe Exam.
Equivalent(s): FSM 207, FSM 407

CAN #410 - Introduction to the Dietetic Technician Profession
Credits: 1
This course provides an introduction to the dietetics profession with an emphasis on dietetic technician practice. Topics include educational requirements, credentialing, nutrition resources and professional development. Students participate in a health and wellness project.
Equivalent(s): CAN 210, FSM 210

CAN 422 - Cuisine and Culture
Credits: 4
Focuses on the history of people by examining cuisines and cultures from the African savanna to the kitchens of California. Students study various cultures from around the world and learn how the same foods demonstrate profound differences in attitudes to those foods, nature, and the environment. Using this approach, students understand how historical events have affected and defined culinary traditions in different societies around the world.
Equivalent(s): FSM 222, FSM 422

CAN 426 - Dining Room Practicum
Credits: 3
A front-of-the-house supervised training experience with an emphasis on customer service and table service techniques in one of the TSAS restaurants. Students also take the Serve Safe Alcohol Examination and, upon successful completion of the exam, are awarded a certificate from the National Restaurant Association. Culinary Arts & Nutrition majors not allowed.
Equivalent(s): CAN 226, FSM 226

CAN 443 - Quantity Food Production and Display Cooking
Credits: 4
Students gain practical-based experiential learning in quantity food production working directly with chefs in the Holloway Commons (one of UNH's dining commons) facility. Students also prepare cooked-to-order menu items in front of customers while rotating through the eight culinary concepts at Holloway, including stir-fry, sushi, brick oven pizza, vegan, vegetarian and gluten free stations. 1 hr lec/6 hr lab.
Equivalent(s): CAN 243, FSM 243

COMP 790 - Capstone Project
Credits: 4
This course requires the development of a real world project that responds to an IT organizational need. The project is undertaken by a team of students. An iterative approach is used to incrementally address the project requirements while constructing a prototype of the IT solution to the original problem. Prereq: COMP 690 and CIS 610. Writing intensive.
Attributes: Writing Intensive Course
Equivalent(s): CIS 790

COMP 795 - Independent Study
Credits: 1-4
Advanced individual study under the direction of a faculty mentor. Content area to be determined in consultation with faculty mentor. Prereq: permission. May be repeated.
Equivalent(s): CIS 795
CAN 504 - Intermediate Baking  
Credits: 4  
This course builds upon the foundational baking courses through applications of American and International baking and pastry formulas with applications of yeast breads, lamination of doughs, pastry elements, pastry doughs, batters, sauces and creams. Students experience production of pastries and baked goods and restaurant finishing techniques for sale of goods through catering and retail operations, such as 180 Blue, the student-run restaurant that serves American Regional and International Cuisines. Special fee. Prereq: CAN 401, CAN 403, CAN 404, and CAN 405.

CAN 506 - Food and Beverage Cost Control  
Credits: 4  
Course places emphasis on methods used to solve mathematical problems that relate to food service operations as they apply to controls. Topics: weights and measures, recipe conversion, menu pricing, purchasing, food costs, inventories, break-even analysis, and financial statements.  
Equivalent(s): CAN 206, FSM 206

CAN 507 - Advanced Baking  
Credits: 4  
Advanced Pastry Arts expands upon the basics of piping learned in the introductory-level intermediate baking and pastry classes and delves further into the history of this intricate art, including instruction in celebrated traditions of advanced cake design from around the world. Students will also train in various methods of contemporary cake decorating from advanced sugar work, blown sugar and pastillage, to hand-sculpting, airbrushing, hand-painting and novelty cakes. Special fee. Prereq: CAN 401, CAN 403, CAN 404, CAN 405, and CAN 504.

CAN 508 - Baking and Pastry Externship  
Credits: 5  
This externship introduces the student to the activities of the professional pastry kitchen as they relate to the overall operation of a licensed food service establishment. Students participate in a variety of activities including, but not limited to proper sanitation and safety practices, baking preparation and scaling methods, working with standardized formulas, proper receiving, storage and inventory techniques, effective utilization of leftovers, and active participation as a contributing member of a professional culinary team. Prereq: CAN 401, CAN 403, CAN 404, CAN 405, and CAN 504.

CAN 525 - American and Regional Cuisine  
Credits: 5  
Students apply and enhance skills in advanced aspects of a la carte cooking. Course introduces students to foods available in the United States and prepare meals for service in 180 Blue restaurant. Students are also introduced to the art of pairing foods with fine wines for special events. Prereq: CAN 401, CAN 407, CAN 403, CAN 443. Majors only. 1 hour lecture/6 hour lab.  
Equivalent(s): CAN 245, CAN 445, FSM 245

CAN 535 - International Cuisine  
Credits: 5  
International Cuisine allows students to explore different cultures and cuisines of the world. Students study a different country or region each week and learn how history, geography, and main ingredients influence the different cuisines. Students prepare multi-course international menus one evening a week in the dining room at Cole Hall. Prereq: CAN 401, CAN 404, CAN 403, CAN 443. Majors only. Pre-or Coreq: CAN 544, CAN 525. 2 hr lec/6 hr lab. Culinary Arts & Nutrition majors only.  
Equivalent(s): CAN 235, FSM 235

CAN 544 - Catering and Garde Manger  
Credits: 4  
Students apply skills and techniques learned in prior courses and enhance skills in advanced aspects of culinary preparation and management such as garde manger, buffet presentation, event booking, scheduling, and buffet staging. Advanced techniques of garde manger include production of canapes, savory pastries, charcuterie, farces, and sculptured centerpieces. Prereq: CAN 401, CAN 407, CAN 403, CAN 443. CAN Major Only. 2 hours lecture, 4 hours lab.  
Equivalent(s): CAN 244, FSM 244

CAN 545 - American and Regional Cuisine  
Credits: 1-4  
Students who have the ability and adequate preparation to work independently may propose a contract to design a course or research project on a topic not available through existing course offerings. The purpose of this research is to explore new areas in the student’s field of study or to pursue course material in greater depth. Work is supervised by an appropriate faculty/staff member and credit varies depending on the proposed project/research.  
Equivalent(s): CAN 291, FSM 291

CAN 596 - Dietetic Technician Independent Study - Dietetic Technician Practicum  
Credits: 3-6  
For Dietetic Technician students who need to take practica at alternate times. There are two practica in the Dietetic Technician major: CAN 290 Clinical Nutrition Practicum 7 cr.; and CAN 250 Community Nutrition Practicum 5 cr. May be repeated for a maximum of 13 credits. Prereq: permission.  
Repeat Rule: May be repeated for a maximum of 13 credits.  
Equivalent(s): CAN 296, FSM 296
CPRM 740 - Cybersecurity Standards, Regulations, and Laws
Credits: 4
We survey laws, regulations, and standards for cybersecurity in the United States, including "soft law" and self-regulation. Topics include the pros and cons of regulatory solutions and market solutions; the different approach to data protection regulation in the European Union; and cybersecurity concerns and regulatory authorities in various U.S. industries and sectors. Students become familiar with key standards bodies involve in cybersecurity, and explore organizational processes for remaining current with industry best practices.

CPRM 750 - Security Measures II
Credits: 4
This course continues surveying common technologies and organizational measures for cybersecurity, with a focus on detection and organizational relationships. Topics include auditing and log records; monitoring and testing for threat detection; vulnerability scans; and the security of external services (e.g., cloud providers) an supply chains. We do not focus on how to technically implement these measures. Students assess organizational impacts and explore how best practices and standards can help manage such measures.

CPRM 790 - Organizations, Change Management, and Leadership
Credits: 4
This course examines both private and public institutions as systems whose effectiveness depends on how an organization adapts to opportunities, threats, and demands (external and internal). Students explore the design and leadership of ethical and socially responsible organizations. In course examples and exercises, students will apply this knowledge to their respective research interests (e.g., cybersecurity, analytics, criminal justice, public health, etc.).

Decision Sciences (DS)

# Course numbers with the # symbol included (e.g. #400) have not been taught in the last 3 years.

DS 444 - Meaning of Entrepreneurship
Credits: 4
This course explores the idea and ideals of entrepreneurship, the creating of value through individual initiative, creativity and innovation. The idea of entrepreneurship is of significant relevance in the highly dynamic and competitive 21st century global economy. It is an idea that is important for students to understand and to critically consider and apply. Encourages the development of multiple views of entrepreneurship, and uses a broad, not just business, approach to the study as it engages students in the subject matter. Open to all majors. (Also offered as MGT 444.) Writing intensive.
Attributes: Environment, TechSociety(Disc); Inquiry (Discovery); Writing Intensive Course
Equivalent(s): MGT 444

DS 562 - Business Applications Development
Credits: 4
The course focuses on topics related to designing and using information technology in a business setting. Students gain knowledge and skills in application design, development, deployment, and management. A hands-on approach is used, providing students with opportunities to develop and refine their knowledge and skills. The course introduces software engineering concepts using movie metaphors, and students develop fun, socially-relevant three-dimensional animations. Students also gain experience with object oriented programming using the Java programming language. Prereq: ADMN 410.
DS 598 - Topics in Decision Sciences
Credits: 4
Special topics.
Repeat Rule: May be repeated for a maximum of 8 credits.

DS 650 - The Mel Rines Student Angel Investment Fund
Credits: 2
The Mel Rines Student Angel Investment Fund is a cross-disciplinary, undergraduate, student-managed private equity fund. The fund allows students to learn angel and venture capital investment strategies through the first-hand experience of investing in start-up companies. Students evaluate entrepreneur pitches, conduct due diligence projects on potential investments, and work with angel partners. An officer corps is responsible for structuring and coordinating the class. Students in good standing may retake the course. Prereq: permission.
Repeat Rule: May be repeated for a maximum of 12 credits.

DS 698 - Topics
Credits: 1-4
Special topics. Prereq: permission.
Repeat Rule: May be repeated for a maximum of 12 credits.

DS 741 - Private Equity/Venture Capital
Credits: 4
This course will notably increase knowledge and understanding of the private equity financing market, develop analytical skills in evaluating private equity financing details, learn from the experience of market practitioners, and enhance oral and written presentation skills. Prereq: ADMN 570 and senior standing.

DS 742 - Internship in Entrepreneurial and Management Practice
Credits: 4
Involves working for leading companies and dynamic entrepreneurs, as well as classroom instruction. The priority experiential, real-world, and real-time learning in the high-growth environment of entrepreneurial ventures. Focus on several topic areas, including venture capital. Prereq: senior standing; permission.
Equivalent(s): MGT 742

DS 766 - Business Analytics and Spreadsheet Modeling
Credits: 4
The course focuses primarily on Descriptive and Prescriptive Analytics. Students gain modeling and analysis skills necessary to address a wide variety of business problems. Topics covered include general modeling and analysis principles, principles and practices of good spreadsheet model design, optimization, simulation, decision analysis, and Visual Basic for Applications. Students develop a decision support tool for a real-world problem. Prereq: ADMN 410, ADMN 420.

DS 768 - Forecasting Analytics
Credits: 4
The course focuses on Predictive Analytics. Businesses and organizations need to be able to forecast effectively in order to make decisions. Students learn the background necessary to develop forecasts for real-world business situations. An applied, hands-on approach is used in the course. Students learn and use SAS to analyze data and fit models. Topics include regression analysis in forecasting, model building, residual checking, analysis of seasonal and cyclical trends, and times series models. Prereq: ADMN 420.

DS 773 - Database Management and Systems Analysis
Credits: 4
Provides students with the skills necessary to understand the database environment of the firm and a background to develop moderately complex, stand-alone databases. Gives the foundation to study database development in multiuser, client/server environments. Prereq: ADMN 410 and junior standing.
Equivalent(s): ADMN 742

DS 774 - E-Business
Credits: 4
Covers the concepts, tools, and strategies for understanding the challenges and exploiting the opportunities associated with e-commerce/e-business. Provides an understanding of the technology platform and its components. Additional material covers various models of e-commerce/e-business and its impacts on the firm’s performance. Prereq: ADMN 410 and junior standing. DS 562 or CS 405 is strongly recommended.

DS 775 - Corporate Project Experience
Credits: 4
Provides real-life experience in organizations. Work in groups on information systems and/or projects identified by sponsoring organizations. Integrate concepts and skills learned in prior business and technology courses. Learn project management concepts, work with project management tools, and use presentation techniques. Prereq: senior standing, DS 773, two additional Information Systems & Business Analytics Option courses.

DS 798 - Topics
Credits: 4
Special topics; may be repeated.
Repeat Rule: May be repeated up to 4 times.

Digital Language Arts (DLA)

# Course numbers with the # symbol included (e.g. #400) have not been taught in the last 3 years.

DLA 501 - Digital Creative Writing
Credits: 4
This writing-intensive workshop teaches the basic principles of transmedia and multimedia creative writing. The course’s inductive, poetics-oriented approach to writing in virtual spaces allows for careful consideration of genre, hardware, software, accessibility, different compositional and dissemination models, emerging technology, post-internet cultural theory, and more. In addition to creative work, students will produce “white papers” outlining digital projects larger in size and scope than the workshop model can accommodate. No prior creative writing experience is required. May not be taken for credit if ENGL 595: Special Topics (Digital Creative Writing) has already been taken for credit.
Attributes: Writing Intensive Course

Earth Sciences (ESCI)

# Course numbers with the # symbol included (e.g. #400) have not been taught in the last 3 years.

ESCI 400 - Freshman Field Seminar
Credits: 1
A field introduction for new or prospective majors to New Hampshire’s mountains, rivers, estuaries, and beaches. Field excursions (approximately five) are scheduled on Friday afternoons. Special fee. Cr/F.
ESCI 401 - Dynamic Earth
Credits: 4
In this course we study the minerals, rocks and fluids which make up the Earth; the landforms on the surface of the Earth such as mountains, flood plains and stratovolcanoes; and processes such as volcanism, earthquakes, erosion and glaciation that create and alter them. The rock cycle and plate tectonics are used to integrate activity at the surface of the Earth with processes in the Earth's interior. Campus field exercises. Special fee. Lab. Students may not receive credit for both ESCI 401 and ESCI 409.
Attributes: Discovery Lab Course; Physical Science(Discovery)
Equivalent(s): ESCI 409

ESCI 402 - Earth History
Credits: 4
Course provides knowledge and skills necessary to interpret, understand, and appreciate the Earth's 4.6 billion-year history. The first third of the course introduces basic principles, including geological materials, plate tectonics, geological time, fossil preservation, and biological evolution. The remainder of the course tells the story of Earth history through case studies that illustrate scientific methods used to reconstruct critical events in our planet's evolution through time. Topics include the origin of the Earth, the Cambrian explosion of life, building of the Appalachians, assembly of Pangaea, the rise and fall of dinosaurs, the formation of the Rocky Mountains, mammalian evolution, human origins, and Pleistocene glaciation. Students gain experience in making geological observations through laboratory exercises and during one afternoon field trip. Special fee. Lab.
Attributes: Discovery Lab Course; Physical Science(Discovery)

ESCI 405 - Global Environmental Change
Credits: 4
Human activity rivals nature as an agent of change in the global environment. Explores evidence of environmental degradation in Earth's crust, hydrosphere, and atmosphere; considers prospects for future sustainable human health, diversity, and economic development. Problem solving through critical analysis of environmental variables. Special fee.
Attributes: Physical Science(Discovery)
Equivalent(s): EOS 405

ESCI 409 - Geology and the Environment
Credits: 4
Environmental impact of geologic processes; natural hazards, landslides, earthquakes, volcanoes, flooding, erosion, and sedimentation; land exploitation and site investigations; environmental considerations of water-supply problems; the recovery of energy and mineral resources.通过 for making geological observations through laboratory exercises and during one afternoon field trip. Special fee.
Attributes: Discovery Lab Course; Physical Science(Discovery)
Equivalent(s): ESCI 401

ESCI 410 - Earth Hazards
Credits: 4
Introductory-level physical science course concerning Earth processes that impact humanity, with special emphasis on understanding societal implications of Earth system processes. Topics include Earth's interior processes, volcanism, earthquakes, climate change, storms, tornadoes, and biological change. Students are expected to learn about Earth system processes and critique cinematic portrayal of such processes. Taken together this approach affords building a foundation in the natural sciences and provides insights into societal portrayal of scientific ideas.
Attributes: Physical Science(Discovery)

ESCI 420 - Our Solar System
Credits: 4
Course focuses on the nature and formation of our solar system and the planets associated bodies it contains, with emphasis on the physical and chemical processes significant in the system's origin and evolutionary history. Our approach provides the basis for understanding key differences between the Earth-like terrestrial planets and those farther out in the solar system (the gas giants). We also explore recent discoveries on Mars and moons of the gas giant planets and their implications for the search for life elsewhere in our solar system. Special fee.
Attributes: Discovery Lab Course; Physical Science(Discovery)

ESCI 444 - Water - How Much is Enough?
Credits: 4
The natural distribution of water is not adequate to sustain modern civilization. As water mining and redistribution projects continue to grow in number and size, do the concomitant stresses on the environment. Through a detailed look at the unique properties of water and the processes that drive the earth's hydrologic cycle; this course will explore the concepts of water stress, water scarcity, and safe yield.
Attributes: Physical Science(Discovery); Inquiry (Discovery)

ESCI 444A - Philosophy of Earth Science
Credits: 4
Course provides an introduction to the discipline of Philosophy of Science, but from an Earth Science perspective. Considers various philosophical perspectives on the nature of science and scientific progress, drawing from works by thinkers such as Aristotle, Popper, Kuhn and Lakatos. Particular attention is given to the following questions: What is scientific knowledge? Is the acquisition of scientific knowledge a rational process? And, what makes some scientific discoveries "revolutionary"? These questions are considered using examples from the history of scientific progress in the Earth Sciences, focusing on groundbreaking discoveries such as the age of the earth, the evolution of organisms as observed in the fossil record, sea-floor spreading, and modern-day global warming.
Attributes: Environment, TechSociety(Disc) ; Inquiry (Discovery)

ESCI 451 - Earth in Film
Credits: 4
Introductory-level focusing on interactions between Earth system and its inhabitants, with special emphasis on understanding societal implications of Earth system processes. Topics include Earth's interior processes, volcanism, earthquakes, climate change, storms, tornadoes, and biological change. Students are expected to learn about Earth system processes and critique cinematic portrayal of such processes. Taken together this approach affords building a foundation in the natural sciences and provides insights into societal portrayal of scientific ideas.
Attributes: Physical Science(Discovery)

ESCI 501 - Introduction to Oceanography
Credits: 4
Introduces students to the four oceanographic disciplines: the geology of the ocean basins, including the creation of oceans and continents. The physics of the seas, including the origin of the ocean currents and their effect on the Earth's climate. The chemistry of the ocean waters, including how the distribution of elements reflects circulation and biology. The life in the ocean, including animals, plants and microbes, and humanity's influence on them. Special fee. Lab.
Attributes: Discovery Lab Course; Physical Science(Discovery); Inquiry (Discovery)
ESCI 502 - Beaches and Coasts
Credits: 4
Introductory-level physical science course on ocean, air, and landform dynamics affecting beaches and coasts, with considerations of natural processes associated with waves and currents, wind and rain, sediments and rocks, and ecology. Emphasis is placed on impacts on ecosystem and human health, the economics of coastal industry, and consequences of pollution and engineering practices. Topics are approached via real world examples, small-group discussions, and field trips to local sites. No prerequisites. Recitation. Special fee.
Attributes: Physical Science(Discovery)

ESCI 512 - Principles of Mineralogy
Credits: 4
Minerals record variations in chemistry, pressure, temperature, and time in the Earth. This course emphasizes minerals and mineral assemblages in rocks, sediments and soils; their identification, symmetry, chemistry, equilibria, and physical properties. Introduction to x-ray diffraction and optical techniques. Prereq: CHEM 403 or CHEM 405. Special fee for field trips. Lab.

ESCI 514 - Introduction to Climate
Credits: 3
The climate as a system controlled by the fluid, chemical, geological, and biological dynamics of the earth. Investigation of natural and man-made climate change over the period of 100 to 100 million years, including the greenhouse effects, tectonic climate forcing, astronomical (Milankovitch) cycles, deep ocean circulation, and biological feedback. How past climate is measured. Prereq: one introductory course in Earth Sciences or permission.
Equivalent(s): ESCI 504

ESCI 530 - Geological Field Methods
Credits: 4
An introduction to basic geologic field mapping of bedrock and surficial materials using pace and compass, surveying and GPS techniques. Observational data plotted on topographic maps and/or aerial photographs, accompanied with stratigraphic measurements and sampling sites where appropriate, provide the basis for interpretative maps, cross sections and written reports and a field context for more advanced Earth sciences course work and independent research. One weekend field trip to western or northern New England. Prereq: ESCI 401 or ESCI 409, ESCI 402. Special fee. Writing intensive.
Attributes: Writing Intensive Course
Equivalent(s): ESCI 534

ESCI 534 - Techniques in Environmental Sciences
Credits: 3
Elementary mapping and monitoring methods. Map interpretation, preparation of maps; survey techniques including pace and compass, leveling, and global positioning systems; environmental monitoring. Field lab. Cannot receive credit if taken after receiving credit for ESCI 530 or NR #542. Special fee.
Attributes: Writing Intensive Course
Equivalent(s): ESCI 530, NR #542

ESCI 561 - Landscape Evolution
Credits: 4
Course focuses on the processes that shape the Earth’s surface. Lectures discuss the development of landscapes in a wide variety of climatic and geologic settings, with an emphasis on understanding the process mechanics that create landforms and surficial deposits. Labs involve topographic map interpretation, geomorphic data analysis, and short field exercises. Course incorporates one weekend field trip that explores the landscapes of Cape Cod. Students also gain practical experience in geomorphic research by teaming up and completing a required lab- or field-based project. Prereq: ESCI 401, ESCI 402, or permission. Lab. Special fee.

ESCI 595 - Introductory Investigations
Credits: 1-4
Special topics by means of lectures, conferences, assigned readings, and/or field or laboratory work in the areas of geology, hydrology, or oceanography.
Repeat Rule: May be repeated for a maximum of 8 credits.

ESCI 596 - Introductory Investigations
Credits: 1-4
Special topics by means of lectures, conferences, assigned readings, and/or field or laboratory work in the areas of geology, hydrology, or oceanography.
Repeat Rule: May be repeated for a maximum of 8 credits.

ESCI 614 - Introduction to Petrology
Credits: 4
Description, classification and formation of igneous, sedimentary, and metamorphic rocks in the field, hand specimen, and thin section. Prereq: ESCI 401, ESCI 409, or ESCI 501, and ESCI 512. Special fee. Lab and field trips.

ESCI 631 - Structural Geology
Credits: 4
Structural units of the Earth’s crust and mechanics of their formation. Prereq: ESCI 530. Special fee. Lab and fieldwork.
Equivalent(s): ESCI 531

ESCI 642 - Biogeosciences in the Earth System
Credits: 3
This interdisciplinary course applies concepts from chemistry, physics, biology and geology to understand biogeochemical cycles in the Earth system. Course topics includes terrestrial, ocean and freshwater environments; water and energy cycles; carbon, nitrogen, phosphorous and sulfur cycles; biogeochemical cycles through Earth history and a synthesis of how humans have impacted the Earth system. Students will use quantitative methods to explore relationships between causes and effects, positive and negative feedbacks, and thresholds in the Earth systems. Prereq: calculus, two semesters of chemistry or permission.

ESCI 652 - Paleontology
Credits: 4
Use of the fossil record to address current problems in Earth history, paleoecology, and evolutionary biology. Examples are drawn from both vertebrates and invertebrates. Lab combines analytical paleontological methods with a systematic survey of important fossil groups. Prereq: ESCI 402 or permission. Special fee. Lab.
ESCI 654 - Fate and Transport in the Environment  
Credits: 4  
An introduction to the basic processes controlling the migration and transformation of chemicals in surface water, groundwater, and the atmosphere, including advection, diffusion, dispersion, retardation, and chemical reaction. Extensive practice with quantitative problem solving in the environmental sciences, including constructing and using box models. Prereq: CHEM 404 or CHEM 405 or NR 561, MATH 425 or MATH 424B.

ESCI 701 - Quantitative Methods in Earth Sciences  
Credits: 4  
Introduces quantitative tools necessary for upper level Earth Science courses. Includes basic statistical descriptions of spatially and temporally varying data, curve fitting, and time-series analysis with emphasis on atmospheric, oceanic and terrestrial data sets. Students learn to construct simple numerical models of Earth Systems. Instruction in data and analysis and modeling in Matlab. Prereq: MATH 426, and ESCI 401, ESCI 402 or ESCI 501; or permission.

ESCI 705 - Principles of Hydrology  
Credits: 4  
Basic physical principles important in the land phase of the hydrologic cycle, including precipitation, snowmelt, infiltration and soil physics, evapotranspiration, and surface and subsurface flow to streams. Problems of measurement and aspects of statistical treatment of hydrologic data. Field trips. Prereq: ESCI 654. Special fee. Lab. Writing intensive.  
Attributes: Writing Intensive Course

ESCI 710 - Groundwater Hydrology  
Credits: 4  
Principles for fluid flow in porous media with emphasis on occurrence, location, and development of groundwater but with consideration of groundwater as a transporting medium. Major topics include well hydraulics, regional groundwater flow, exploration techniques, and groundwater modeling. Laboratory exercises involve use of fluid, electrical, and digital computer models to illustrate key concepts. Prereq: ESCI 654. Special fee. Lab.

ESCI 726 - Igneous and Metamorphic Petrology  
Credits: 4  
This course focuses on the origin and evolution of igneous and metamorphic rocks from field, petrographic mineral chemistry, experimental, and theoretical studies. Igneous systems include volcanic and plutonic suites, with emphasis on mineralogic records of magma chamber systematics. Metamorphic systems include pelitic, mafic, and calc silicate rocks, with special emphasis on closed- and open-system reactions, multi-systems, reaction space, and pressure-temperature-time paths. Prereq: ESCI 614; adequate calculus, chemistry, and physics. Field trips. Special fee. Lab.  
Attributes: Writing Intensive Course  
Equivalent(s): ESCI 725

ESCI #731 - Geodynamics  
Credits: 4  
Application of quantitative methods to geologically motivated problems, focusing on lithospheric deformation, topography, and fluid flow. Students acquire geophysical and geochemical techniques used to address dynamics in the Earth system. Includes biweekly recitation sessions for working through problem sets and facilitating discussions of relevant papers from the literature. Prereq: CHEM 404 or ESCI 512 and ESCI 658 or permission.

ESCI 734 - Geophysics  
Credits: 4  
The structure of the solid Earth, including the continental and oceanic lithosphere and the deep interior as revealed by investigations of seismic waves, the Earth's gravitational and magnetic fields, heat flow, and earthquakes. Prereq: ESCI 401; one year of calculus; one year of college physics; ESCI 658; or permission. Special fee. Lab.

ESCI #735 - Earthquakes and Faulting  
Credits: 4  
This course provides an introduction to the principles of brittle faulting and earthquake mechanics. We discuss classic theory and current topics in earthquake science based on observations from laboratory experiments, seismology, geodesy, and geology. Prereq: MATH 425 and MATH 426, PHYS 407, and ESCI 631 or permission. Writing intensive.  
Attributes: Writing Intensive Course

ESCI 741 - Geochemistry  
Credits: 4  
Course focuses on the application of chemical principles to solve problems in the Earth sciences. Students learn the chemical tools of thermodynamics and kinetics, element partitioning, conservation of mass, and isotope geochemistry. Explore geochemical properties/processes in the deep Earth and the Earth surface, atmosphere and marine systems, and cosmo-chemistry and investigate the interactions between these components of the Earth system. Prereq: MATH 426; CHEM 404 or permission. Lab. Writing intensive.  
Attributes: Writing Intensive Course

ESCI 745 - Isotope Geochemistry  
Credits: 4  
Course focuses on the application of radiogenic, radioactive and stable isotopes to improve students' knowledge about the processes and timescales relevant to the formation of the planet and solar system, the evolution of the Earth system and interactions in the hydrosphere and biosphere. Topics include geochronology, tracer applications, Earth surface applications, as well as applications in the hydrosphere and biosphere. Systems discussed include the classic radiogenic systems (K-Ar, Rb-Sr, Sm-Nd, Lu-Hf and U-Th-Pb), traditional (H, C, N, O) as well as nontraditional (e.g., Mg, Ca, Fe) stable isotope systems, and radioactive isotopes (e.g., radiocarbon). Course consists of lecture, where students are exposed to these applications, and a lab section to work through any questions on the homework assignments, discuss relevant papers from the literature, and carry out a project. Prereq: MATH 426, CHEM 404. Special fee. Lab.

ESCI 747 - Aqueous Geochemistry  
Credits: 4  
The chemical processes that determine the composition of aquatic systems such as rivers, lakes, groundwater and the ocean. The goal is to quantitatively understand the behavior of inorganic species such as carbon dioxide, nutrients, trace metals and inorganic pollutants in natural waters. Topics include, acid-based equilibria, carbonate chemistry, reduction-oxidation reactions, organic complexation and mineral precipitation and dissolution. Lab. Prereq: one year college chemistry or geochemistry or permission. Prereq: CHEM 404 and MATH 426.
ESCI 750 - Biological Oceanography
Credits: 4
Biological processes of the oceans, including primary and secondary production, trophodynamics, plankton diversity, zooplankton ecology, ecosystems and global ocean dynamics. Field trips on R/V Gulf Challenger and to the Jackson Estuarine Laboratory. Prereq: one year of biology or permission of the instructor. (Also offered as ZOOL 750.) Special fee. Lab. (Not offered every year.)
Equivalent(s): EOS 750, ZOOL 750

ESCI 752 - Chemical Oceanography
Credits: 3
This course investigates the physical and biogeochemical processes that determine the composition of seawater. Topics include biological effects on chemistry, ocean nutrient cycles, air-sea gas exchange, radiogenic and stable isotopes as tracers of ocean processes, sediment and trace-metal chemistry. Prereq: PHYS 407; ESCI 501;/or permission.

ESCI 754 - Sedimentology
Credits: 4
This course focuses on modern sedimentary processes and ancient sedimentary records through the examination, identification, and interpretation of sediments and sedimentary rocks. Topics such as sediment transport mechanisms, depositional environments, and time in sedimentary records will provide a strong framework for any student studying Earth processes and sedimentary systems. Prereq: ESCI 401 or ESCI 402 or ESCI 501, and ESCI 512; or permission. Special fee. Lab and field trips.

ESCI 756 - Geotectonics
Credits: 3
The geological record of plate tectonics past and present. The first part of the course focuses on modern tectonic settings with an emphasis on plate geometries, geodynamical processes, and sedimentary products. The second part of the course focuses on reconstructing ancient tectonic settings with an emphasis on methodology (paleomagnetism, basin analysis, provenance) and case studies (e.g. India-Asia collision). Field trip. Prereq: ESCI 614 or ESCI 631 or permission. Special fee. Writing intensive.
Attributes: Writing Intensive Course

ESCI 758 - Introductory Physical Oceanography
Credits: 3
Descriptive treatment of atmosphere-ocean interaction; general wind-driven and thermo-haline ocean circulation; waves and tides; continental shelf and near-shore processes; instrumentation and methods used in ocean research. Simplified conceptual models demonstrate the important principles. Prereq: PHYS 407; ESCI 501;/or permission.

ESCI 759 - Geological Oceanography
Credits: 4
Major geological features and processes of the ocean floor; geological and geophysical methods; composition of the earth, sedimentary processes, plate tectonics and paleoceanography. Prereq: Senior standing in Earth Science major or permission. Writing intensive.
Attributes: Writing Intensive Course

ESCI 760 - Paleoceanography
Credits: 3
This course introduces the basic principles of paleoceanography, such as the preservation of ocean history in sediment archives and the analysis/interpretation of paleoceanographic data. The course focuses on the capabilities and limitations of paleoceanographic techniques, and empowers students to critically assess the strengths and weaknesses of results presented in scientific journals. Topics include Milankovitch cycles, faunal assemblages, temperature and circulation proxies, linear and non-linear responses to climate forcings, abrupt climate events, atmospheric teleconnections and monsoons. Prereq: Introductory Chemistry, Introductory Geology.

ESCI 762 - Glacial Geology
Credits: 4
Course provides a survey of glacier dynamics and processes, with an emphasis on understanding the origin and significance of glacial deposits and landforms. The first half of the course examines the physics of glaciers, and the second half focuses on glacial geologic processes. Lectures discuss glaciers and ice sheets as key agents of large-scale geomorphic change, as well as their central role in the Earth's past and present climate system. Labs involve analysis of glaciological data, glacial-geologic map interpretation, and short field exercises. Course incorporates one mandatory weekend field trip that explores the glacial landscapes of New England. Prereq: ESCI 561 or permission. Special fee. Lab. Writing intensive.
Attributes: Writing Intensive Course

ESCI 764 - Spectral Analysis of Geophysical Time Series Data
Credits: 4
This course considers basic exploratory techniques and in-depth spectral analysis for estimation with geophysical time series data, including calculations of confidence intervals and significance testing. This course prepares students for interpreting time series data with science and engineering applications. Topics include sampling theory, filtering, statistics, probability, spectral analysis, and empirical orthogonal functions. Students gain experience in code-writing for the analysis of time series data. Prereq: MATH 426.
Equivalent(s): OE 764

ESCI 765 - Paleoclimatology
Credits: 3
Course reviews the study of past changes in the Earth's climate system. Main discussion topics include astronomical theories of ice ages, Quaternary dating methods, Antarctic and Greenland ice core records, greenhouse gases, marine-based climate proxies, glacial mega-floods, and linkages between ocean circulation and abrupt climate change. Emphasis on climate variability during the Quaternary period (the last approximately 2.6 million years), a time interval dominated by cycles of global glaciation. Lectures include discussion of recent and emerging scientific papers in order to keep pace with the latest findings in paleoclimatic research. Writing intensive.
Attributes: Writing Intensive Course
Equivalent(s): EOS 765
ESCI 766 - Volcanology
Credits: 4
Provides a comprehensive overview of volcanic processes and their influences on planetary evolution and modern-day Earth systems. Lectures discuss the generation and properties of magma, tectonic setting of volcanism, eruption styles, volcanic landforms and products, monitoring of active volcanoes, volcanic hazards, and volcanism on other planets. Laboratory topics include modeling volcanic processes, hand-sample observation, topographic map interpretation, volcanographical data analysis, and two afternoon field trips. As volcanology is a rapidly developing field of active research, the course incorporates discussions of recent and emerging scientific papers from the literature and student-led updates of ongoing volcanic activity. Prereq: one year of calculus and one ESCI course or permission. Special fee. Lab.
Attributes: Writing Intensive Course

ESCI 771 - Geodesy and Positioning for Ocean Mapping
Credits: 4
The science and technology of acquiring, managing, and displaying geographically-referenced information; the size and shape of the earth, datums and projections; determination of precise positioning of points on the earth and the sea, including classical terrestrial-based methods and satellite-based methods; shoreline mapping, nautical charting and electronic charts. Prereq: MATH 426, PHYS 408. (Also listed as OE 771.)
Equivalent(s): OE 771

ESCI 777 - GIS for Earth & Environmental Sciences
Credits: 4
Geospatial technologies provide insight into spatial and temporal aspects of environmental and earth systems. Students will master basic skills of a geographical information system. Weekly laboratory exercises will build upon a foundation of conceptual knowledge and data processing skills. Focus on applied research questions and projects will be addressed. The course will use the opensource program QGIS. Additional work will develop programming skills using the python language. Programming background is not a requirement but beneficial. Prereq: Undergraduate Science Course.

ESCI 778 - Remote Sensing Earth & Environmental Sciences
Credits: 4
Remote sensing provides insight into spatial and temporal aspects of environmental and Earth systems. Students will examine digital image processing techniques, different sensor and platform technologies, and new trends and frontiers in remote sensing science. Weekly laboratory exercises build upon conceptual knowledge, data processing skills, and development of programming skills. Applied research questions and projects will use Google Earth Engine. Hyperspectral, lidar, and unmanned aerial systems will be presented. Prereq: Undergraduate Science Course.

ESCI 795 - Topics
Credits: 1-4
Geologic, hydrologic, and oceanographic problems and independent studies by means of conferences, assigned readings, and field or laboratory work fitted by ESCI faculty to individual student needs; or new or specialized courses. Topics include geochemistry; geomorphology; geophysics; glaciology; groundwater; structural and regional geology; crystallography; mineralogy; petrology; thermodynamics; ore deposits; earth resource policy; paleontology; sedimentation; stratigraphy; water resources management; chemical, physical, and geological oceanography; earth systems. Also, senior synthesis and earth science teaching methods.
Repeat Rule: May be repeated for a maximum of 4 credits. May be repeated up to 3 times.
Equivalent(s): EOS 795

ESCI 796 - Topics
Credits: 1-4
Geologic, hydrologic, and oceanographic problems and independent studies by means of conferences, assigned readings, and field or laboratory work fitted by ESCI faculty to individual student needs; or new or specialized courses. Topics include geochemistry; geomorphology; geophysics; glaciology; groundwater; structural and regional geology; crystallography; mineralogy; petrology; thermodynamics; ore deposits; earth resource policy; paleontology; sedimentation; stratigraphy; water resources management; chemical, physical, and geological oceanography; earth systems. Also, senior synthesis and earth science teaching methods.
Repeat Rule: May be repeated for a maximum of 4 credits. May be repeated up to 3 times.
ECOG 696 - Supervised Student Teaching Experience  
Credits: 4  
Participants are expected to perform such functions as attending classes, leading discussion groups, assisting faculty, presenting information in undergraduate courses that they have successfully completed, holding office hours, grading papers and exams. Enrollment is limited to juniors and seniors who have had above average GPAs. Prereq: permission of instructor, program director, director of advising and ECOG 401.

ECOG 698 - Topics  
Credits: 1-4  
Special topics and developments in EcoGastronomy. Prereq: junior standing and permission. Course may be repeated when topics change. Repeat Rule: May be repeated for a maximum of 8 credits.

ECOG 701 - EcoGastronomy Capstone  
Credits: 2-4  
This is a one to two-semester course in which students will synthesize their EcoGastronomy experience with their undergraduate education, including their primary major, and will explore an integrated outlook on their professional future. Filed trips, guest lecturers, experimental activities, and related readings and research will provide the foundation for the completion of a portfolio. A research paper is presented at the Undergraduate Research Conference in the spring. Prereq: ECOG 401 & Study Abroad.  
Attributes: Writing Intensive Course

Economics (ECON)  
# Course numbers with the # symbol included (e.g. #400) have not been taught in the last 3 years.

ECON 401 - Principles of Economics (Macro)  
Credits: 4  
Basic functions of the United States economy viewed as a whole; policies designed to affect its performance. Economic scarcity, supply and demand, the causes of unemployment and inflation, the nature of money and monetary policy, the impact of government taxation and spending, the federal debt, and international money matters. ECON 401A emphasizes applications to the international economy. ECON 401H is open to students in the Honors Program. No credit for students who have received credit for ECON 401A, ECON 401H, ECN 411, or equivalent.  
Attributes: Social Science (Discovery)  
Equivalent(s): ECON 411, ECON 411W, ECON 401A, ECON 401H  
ECON 401H - Honors/Principles of Economics (Macro)  
Credits: 4  
Basic functions of the United States economy viewed as a whole; policies designed to affect its performance. Economic scarcity, supply and demand, the causes of unemployment and inflation, the nature of money and monetary policy, the impact of government taxation and spending, the federal debt, and international money matters. ECON 401A emphasizes applications to the international economy. ECON 401H is open to students in the Honors Program. No credit for students who have received credit for ECON 401, ECON 401A, ECN 411, or equivalent.  
Attributes: Social Science (Discovery); Inquiry (Discovery)  
Equivalent(s): ECON 411, ECON 401, ECON 401A

ECON 402 - Principles of Economics (Micro)  
Credits: 4  
Functions of component units of the economy and their interrelations. Units of analysis are the individual consumer, the firm, and the industry. Theory of consumer demand and elasticity, supply and costs of production, theory of the firm under conditions of perfect and imperfect competition, demand for and allocation of economic resources, general equilibrium, and basic principles and institutions of international trade. ECON 402A emphasizes applications to the international economy. ECON 402H is open to students in the Honors Program.  
Attributes: Social Science (Discovery)  
Equivalent(s): ECON 402A, ECON 402H  
Mutual Exclusion: No credit for students who have taken ECN 412, ECON 412W, EREC 411.

ECON 402H - Honors/Principles of Economics (Micro)  
Credits: 4  
Functions of component units of the economy and their interrelations. Units of analysis are the individual consumer, the firm, and the industry. Theory of consumer demand and elasticity, supply and costs of production, theory of the firm under conditions of perfect and imperfect competition, demand for and allocation of economic resources, general equilibrium, and basic principles and institutions of international trade. ECON 402A emphasizes applications to the international economy. ECON 402H is open to students in the Honors Program.  
Attributes: Social Science (Discovery); Inquiry (Discovery); Writing Intensive Course  
Equivalent(s): ECON 402, ECON 402A  
Mutual Exclusion: No credit for students who have taken ECN 412, ECON 412W, EREC 411.

ECON 501 - Business and Economic History  
Credits: 4  
This course studies the historical influence of business enterprises on the development of capitalist economies, with an emphasis on the United States. Topics include the rise of manufacturing, development of financial institutions and markets, innovation and new markets, the role of the entrepreneur, and the impact of government policy on business development. Because this is an Inquiry course, each student will pursue a major research project. Does not satisfy Economics Major or Minor requirements. DISC: HP and INQ.  
Attributes: Historical Perspectives(Disc); Inquiry (Discovery)  

ECON 551 - Careers in Economics - Seminar  
Credits: 2  
This career seminar is designed to provide economics majors with an opportunity to learn more about potential careers in the field. Students take a number of self-assessments and are exposed to the full depth of career opportunities. Prereq: ECON 401, ECON 402. Does not satisfy Economics Major requirements. Economics majors only. Cr/F.

ECON 552 - Careers in Economics - Field Experience  
Credits: 2  
This career seminar is the second course in the ECON 551/552 sequence. It is designed to give students an opportunity to observe real work environments and then share those experiences with other students enrolled in the course. Does not satisfy Economics Major requirements. Economics majors only. Prereq: ECON 401, ECON 402, ECON 551.
This course expands upon core topics in statistics through the study and practice of data management, data analysis, and statistical programming. Statistical programming and analytical skills are the key components of predictive modeling. Students will develop tools for collecting, organizing, interpreting, presenting, and analyzing business information. As an economics course an emphasis will be placed on how to use data to improve the information needed to make sound economic and business decisions based on marginal analysis. Prereq: ADMN 420; ECON 402.

ECON 605 - Intermediate Microeconomic Analysis
Credits: 4
Equivalent(s): ECON #605W

ECON 606 - Intermediate Microeconomics with Calculus
Credits: 4

ECON 611 - Intermediate Macroeconomic Analysis
Credits: 4
Macroeconomic measurement, theory, and public policy determination. Prereq: ECON 401 and ECON 402.

ECON 625 - Economic History of the United States
Credits: 4
This course studies the development of the U.S. economy from colonial times to the 21st century. The role that institutions, innovations and government policy play in economic development is a central theme of the course. Western settlement, slavery and abolition, the rise of manufacturing and the corporate business, emergence of affluence and consumer society, and the Great Depression are some of the topics addressed. Prereq: ECON 401 or ECON 402/or permission.
Equivalent(s): ECON 515, ECON 515W

ECON 633 - Microfinance
Credits: 4
Microfinance focuses on features of the informal economy in developing countries especially small-scale changes in finance, commerce, technology, and in social and environmental organization that have led to transformational economic breakthroughs. Besides financial services, the course examines innovative customer segments, market-based solutions, the role of government subsidies, a range of development issues, and how to measure success for projects, programs, and institutions.

ECON 635 - Money and Banking
Credits: 4
Study of how the financial sectors of globally interconnected economies impact real economic activity. It includes interrelationships of interest rates, exchange rates, expectations, financial markets, financial institutions, central banks, systemic crises, the supply and demand for money and other financial instruments, and an introduction to monetary theory, policy and regulation. Prereq: ECON 401 and ECON 402.

ECON 645 - International Economics
Credits: 4
Covers both international trade theory and open-economy macroeconomics. Some of the major issues include whether free trade is always preferred to restricted trade, the controversy over industrial policy and how best to structure the international financial system. Students gain an understanding of topics including currency exchange rate movements, and trade policy, among others. Prereq: ECON 401 and ECON 402.
Equivalent(s): ECON 645W

ECON 651 - Governmental Regulation of Business
Credits: 4
Mergers, competition, monopoly, and the regulated industries. Prereq: ECON 402.

ECON 653 - Law and Economics
Credits: 4
Introduces the field of Law and Economics. Focuses on the legal system and the economic consequences of property, contract, tort, criminal law and mediation. Prereq: ECON 402. Writing intensive.
Attributes: Writing Intensive Course

ECON 654 - Industrial Economics and Business Innovation
Credits: 4
This course will provide students with a survey of economic models in industrial organization, applied to innovation-related issues. The course is divided into three sections. In the first one, we introduce the concept of innovation, its measurement and how it is related to knowledge. In the second part, we look at innovation at the firm level. In particular, we delve into the "knowledge-creating" company and its strategies. Finally, we analyze the structure and evolution of several hi-tech industries, in terms of survival of existing firms and creation of new firms. Prereq: ECON 401 and ECON 402. Writing intensive.
Attributes: Writing Intensive Course

ECON 655 - Innovation in the Global Economy
Credits: 4
This course will provide students with a survey of economic models in international trade, applied to innovation-related issues. The course is divided into three sections. In the first one, we look at the role that industry, universities, and the government play in the national innovation system. In the second part, we look at innovation from an international perspective. In particular, we delve into the relationship between globalization and innovation. Finally, we analyze the role of externalities in the knowledge economy and particularly network effects in the diffusion of new technologies. Prereq: ECON 401 and ECON 402.
Attributes: Writing Intensive Course

ECON 656 - Labor Economics
Credits: 4
Functioning of labor markets from theoretical and policy perspectives. Labor demand and supply, wages and employment. Welfare programs, human capital, discrimination in the labor market, unions, wage differentials. Prereq: ECON 401; ECON 402; ECON 605 recommended.
ECON 668 - Economic Development  
Credits: 4  
An exploration of the theorizing (ways of seeing) and resulting policies (ways of doing) in Third World development. How the 'West' constructed the 'Rest'. Theories of development and underdevelopment. Development as industrialization with its urban bias. A planet of slums? The ambivalent effects of technological change in the Third World. An examination of agriculture (famines, green revolution, case study of opium cultivation in Afghanistan). International institutions' versus NGO's approaches to development. Grassroots development, participation and post-development. Prereq: ECON 401; ECON 402;/or permission.  
Attributes: Writing Intensive Course

ECON #669 - Women and Economic Development  
Credits: 4  
Examines the position, roles, and contributions of women in economic development as interpreted through different discourses (feminisms, modernity, post-modernity) and in theoretical conceptualizations (neoclassical integrationist, liberal feminism, class and gender, feminist ecology). Applied analyses on Africa, South Asia and Latin America. Writing intensive.  
Attributes: Writing Intensive Course

ECON 676 - Economics of Sports  
Credits: 4  
Focuses on the major economic aspects of North American professional and collegiate sports and special topics like the Olympics, discrimination, and tournament sports drawing from public finance, labor economics, and industrial organization. Prereq: ECON 402. Writing intensive.  
Attributes: Writing Intensive Course

ECON 685 - Study Abroad  
Credits: 1-16  
Open to students studying abroad in the discipline as approved by the economics program director. Cr/F.  

ECON 686 - Study Abroad  
Credits: 1-16  
Open to students studying abroad in the discipline as approved by the economics program director. Cr/F.  

ECON 695 - Independent Study  
Credits: 1-4  
Individual research projects that are student designed. Initial sponsorship of an economics faculty member must be obtained followed by approval of PAUL advisor and Dean's office. Special permission required to earn more than 4 credits in one semester. For Paul College juniors and seniors in with 3.0 or better cumulative GPA.  
Equivalent(s): ECON 695W

ECON 695W - Independent Study  
Credits: 1-4  
Individual research projects that are student designed. Initial sponsorship of an economics faculty member must be obtained followed by approval of PAUL advisor and dean's office. Special permission required to earn more than 4 credits in one semester. For Paul College juniors and seniors in with 3.0 or better cumulative GPA. Writing intensive.  
Attributes: Writing Intensive Course

ECON 696 - Supervised Student Teaching Experience  
Credits: 1-8  
Participants are expected to perform such functions as leading discussion groups, assisting faculty in undergraduate courses that they have successfully completed, or working as peer advisers in the advising center. Enrollment is limited to juniors and seniors who have above-average G.P.A.s. Reflective final paper is required. Prereq: permission of instructor, department chair, and director of undergraduate programs. No more than 4 credits may be earned as a teaching assistant in any one course. Cr/F.  
Repeat Rule: May be repeated for a maximum of 8 credits.

ECON 698 - Topics  
Credits: 4  
Special topics.  
Attributes: Writing Intensive Course  
Repeat Rule: May be repeated up to unlimited times.

ECON 706 - Economics of Climate Change  
Credits: 4  
Explores the economics and public policy of global climate change and develops the economic theory including the concepts of externalities, stock pollutant models, the social discount rate, and complicating factors such as information, uncertainty, technological progress, and risk. Students use economic analysis to compare different policy instruments such as administrative regulation, marketable permits, tax incentives, and direct subsidies. Also covers the political economy of international environmental agreements, including an analysis of the Kyoto Protocol. Prereq: ECON 401, ECON 605. Writing intensive.  
Attributes: Writing Intensive Course

ECON 726 - Introduction to Econometrics  
Credits: 4  
Introduces regression techniques as used in economics and management; estimation and statistical inference in the context of the general linear model; discussion of problems encountered and their solutions; extensions of the general linear model. Prereq: ADMN 420 or equivalent.  
Equivalent(s): DS 626, ECON 626

ECON 727 - Advanced Econometrics  
Credits: 4  

ECON 736 - Seminar in Monetary Theory and Policy  
Credits: 4  
Contemporary developments in monetary theory and the evaluation of policy measures. Prereq: ECON 635. Writing intensive.  
Attributes: Writing Intensive Course

ECON 745 - International Trade  
Credits: 4  
International trade theory and policy with applications to current trade controversies. Modern topics such as supply-claim and firm-specific analysis developed and debated. Prereq: ECON 605; ECON 645.

ECON 746 - International Finance  
Credits: 4  
International monetary mechanism; balance of payments, international investment, exchange rates, adjustment systems, international liquidity, foreign aid, multinational corporations. Prereq: ECON 611; ECON 645. Writing intensive.  
Attributes: Writing Intensive Course
ECON 747 - Multinational Enterprises
Credits: 4
Internationalization of economies. Growth and implications of multinational corporations at the level of systems. Theories of imperialism, international unity/rivalry; theories of direct investment, exercise of influence and conflict, technology transfer, bargaining with host country; effects on U.S. economy. Prereq: permission. Writing intensive.
Attributes: Writing Intensive Course

ECON 768 - Seminar in Economic Development
Credits: 4
Advanced reading seminar. Topics include methodologies underlying economic development theory, industrialization and post-import substitution, state capitalist development, stabilization policies, appropriate technologies, the capital goods sector, agricultural modernization schemes, and attempts at transition to socialism.

ECON 774 - Senior Economics Seminar
Credits: 4
Capstone experience for students enrolled in the Economics B.A. program. Topics and format of the course depend on the interests and expertise of the faculty member and students of the course. The course is organized around a "big" idea and focuses on an important topic that has broad interest and social consequences. Prereq: ECON 605, ECON 611. Writing intensive.
Attributes: Writing Intensive Course

ECON 775 - Applied Research Skills for Economists
Credits: 4
Capstone course for students enrolled in B.S. in analytical economics. Students conduct economic research by bringing their understanding of economic theory and empirical/analytical skills to investigate contemporary economic problems, issues, and phenomena. Presentations are calculus-based. The topics and course design vary depending on the instructor. Prereq: ECON 606, 611, 726. Writing intensive.
Attributes: Writing Intensive Course

ECON 795 - Internship
Credits: 1-16
On-the-job skill development through fieldwork in an organization (business, industry, health, public service, etc.). Normally, supervision is provided by a qualified individual in the organization, with frequent consultation by a faculty sponsor. Written report required. Internships may be part or full time, with course credits assigned accordingly. May not be used as a major elective. Cr/F.

ECON 798 - Economic Problems
Credits: 2 or 4
Special topics; may be repeated. Prereq: permission of adviser and instructor. Writing intensive.
Attributes: Writing Intensive Course

ECON 799 - Honors Thesis
Credits: 4-8
Supervised research leading to the completion of an honors thesis; required for graduation from the honors program in economics. Writing intensive.
Attributes: Writing Intensive Course

Economics-UNHM (ECN)

# Course numbers with the # symbol included (e.g. #400) have not been taught in the last 3 years.

ECN 410 - History of Literary Economics
Credits: 4
An examination of the contributions of fiction writers to the history of economic thought. Novels and short stories are analyzed in conjunction with studying influential and heterodox schools of economic thought. Fiction writers will vary by semester (e.g., Mark Twain, Edith Wharton, Charlotte Perkins Gilman, Theodore Dreiser, Jack London, Ayn Rand, F. Scott Fitzgerald and Louisa May Alcott). Schools of economic thought examined include critics as well as advocates of free market capitalism. Writing intensive.
Attributes: Humanities(Disc); Inquiry (Discovery); Writing Intensive Course

ECN 411 - Introduction to Macroeconomic Principles
Credits: 4
Studies how an economy functions. Develops measures and theories of economic performance to study such issues as unemployment, inflation, international trade and finance, and the level of national production. Examines government policies designed to correct for unemployment and inflation with close attention to the use of fiscal and monetary policies in the U.S. No credit for students who have received credit for ECON 401.
Attributes: Social Science (Discovery)
Equivalent(s): ECON 401, ECON 401H

ECN 411W - Introduction to Macroeconomic Principles
Credits: 4
Studies how an economy functions. Develops measures and theories of economic performance to study such issues as unemployment, inflation, international trade and finance, and the level of national production. Examines government policies designed to correct for unemployment and inflation with close attention to the use of fiscal and monetary policies in the U.S. No credit for students who have received credit for ECON 401.
Writing Intensive.
Attributes: Social Science (Discovery); Writing Intensive Course
Equivalent(s): ECON 411, ECON 401

ECN 412 - Introduction to Microeconomic Principles
Credits: 4
Studies how an economy functions. Develops measures and theories of economic performance to study such issues as unemployment, inflation, international trade and finance, and the level of national production. Examines government policies designed to correct for unemployment and inflation with close attention to the use of fiscal and monetary policies in the U.S. No credit for students who have received credit for ECON 401.
Attributes: Social Science (Discovery)
Equivalent(s): ECON 412W

ECN 412W - Introduction to Microeconomic Principles
Credits: 4
Studies the behavior and interaction of fundamental decision-making units in an economy, especially consumers and business firms. Applies such economic principles as scarcity, supply and demand, and elasticity to a variety of social issues. Topics include the resource allocation problems of households and business firms, economic theories of social problems (such as crime, divorce, and discrimination), and the economic implications of government policies affecting the environment, the workplace, and industrial organization.
Attributes: Social Science (Discovery)
Equivalent(s): ECON 412W
Mutual Exclusion: No credit for students who have taken ECON 402, ECON 402A, ECON 402H, EREC 411.
ECN 412W - Introduction to Microeconomic Principles  
**Credits: 4**  
Studies the behavior and interaction of fundamental decision-making units in an economy, especially consumers and business firms. Applies such economic principles as scarcity, supply and demand, and elasticity to a variety of social issues. Topics include the resource allocation problems of households and business firms, economic theories of social problems (such as crime, divorce, and discrimination), and the economic implications of government policies affecting the environment, the workplace, and industrial organization.  
**Attributes:** Social Science (Discovery); Writing Intensive Course  
**Equivalent(s):** ECN 412, ECN 412A  
**Mutual Exclusion:** No credit for students who have taken ECON 402, ECON 402A, ECON 402H, EREC 411.

ECN 505 - Contemporary Economic Issues  
**Credits: 4**  
The course applies microeconomic and macroeconomic principles to analyze current economic problems and issues with attention to developing an evaluating different economic policies for addressing the economic problems that are identified. The course includes a service learning component in which students will work with a community partner (e.g., local business, nonprofit organization or government agency) to identify an economic problem and help design and evaluate policy options to enact a solution to the problem. Topics will vary each semester but will include a cross-section of local, state, national and international economic issues with related readings. Prereq: ECN 411 and ECN 412 or permission of the instructor.

ECN 635 - Money, Banking and Macroeconomic Activity  
**Credits: 4**  
A study of the financial sector of the economy including commercial banks, thrifts, and other depository institutions. Examines the meaning and determinants of the money supply, credit and interest rates. Close attention paid to the role of the Federal Reserve and the economic effects of its monetary policy. Prereq: ECN 411, ECN 412.

ECN 640 - Business Law and Economics  
**Credits: 4**  
A study of the legal environment of business. Emphasis is on using economic analysis to examine laws of property, contract, and tort affecting business. Includes the ethical foundations of law and ethical issues involving business. Specific topics may include commercial free speech, white collar crime and managerial responsibility, product liability, cyberlaw, copyright, trademark and patent law. Prereq: ADM 400, ECN 412, and sophomore standing or permission of the instructor. Writing intensive.

**Attributes:** Writing Intensive Course  
**Equivalent(s):** ECN 540

ECN 650 - Economics for Managers  
**Credits: 4**  
Examines how economic principles can be applied to resource allocation problems confronted by managers in a variety of industry settings. Emphasis on both theory and application. Topics include cost analysis, production decisions, and pricing policies of business managers within perfectly competitive, monopolistic, oligopolistic, and monopolistically competitive environments. Prereq: ADM 400, ECN 412 and sophomore standing or permission of instructor.

### Education (EDUC)

**EDUC 400 - Careers in Education: Exploring Professional Contexts**  
**Credits: 1**  
Designed for students interested in learning about careers in education, this survey course explores professional opportunities in both formal and informal education settings within P-12 teaching and beyond (i.e., research, museum director, counseling, social work, educational software developer, etc.). Faculty from multiple disciplines and local professionals will present seminars and lead discussions about their role in addressing contemporary issues in education. Students will consider pathways that can be taken to pursue professional goals. Cr/F.

**EDUC 401 - Current Issues in Education**  
**Credits: 2**  
This survey course explores current issues in education through multiple professional lenses. Students will consider the relationship between their career pathways and key issues impacting educational settings including social media, poverty, curriculum, assessment and evaluation. Cr/F.

**EDUC 402 - Introduction to Educational Studies: Social Change and Education in Local and Global Contexts**  
**Credits: 4**  
This course introduces students in the Dual Major in Educational Studies to the social, cultural, and political factors that influence education outside of conventional school settings. We examine the relationship between education and social change in local and global contexts. Guiding questions include: How does schooling produce certain kinds of citizens? How do grassroots movements use education to resist colonial/colonizing agendas? What role does education play in promoting democracy, and social and economic equality? Prereq: Permission required for non-majors.

**EDUC 444B - Public Issues, Democratic Schooling & Active Citizenship in a Global Context**  
**Credits: 4**  
This is a first-year inquiry course intended primarily for students participating in the Common Purposes residential living program. The course offers multidisciplinary content focused on active citizenship in a pluralistic democracy. The primary organizing concept of the course is community; assignments focus on deliberative dialogue, public reasoning, collective action, and social justice. The course is taught as a seminar and includes on-campus and off-campus applied projects.  
**Attributes:** Social Science (Discovery); Inquiry (Discovery)

**EDUC 500 - Exploring Teaching**  
**Credits: 4**  
For students considering a teaching career. In-school experiences to develop introductory skills in teaching. On-site seminars for analysis and evaluation. Assessment and advising related to teaching as a career. Prerequisite for further work toward teacher licensure. Minimum of 7 hours a week, plus travel time, required. Prereq: permission. Special fee. Cr/F.

**Repeat Rule:** May be repeated for a maximum of 8 credits.
EDUC 506 - Literacy Tutoring at the Elementary School Level
Credits: 2
Supports students volunteering as reading and writing tutors in local elementary schools. Explores student-tutor relationships, student engagement, mentoring, literacy best-practices, and lesson-planning. Includes a weekly tutoring commitment through Seacoast Reads.
Repeat Rule: May be repeated for a maximum of 6 credits.

EDUC 507 - Mentoring Adolescents
Credits: 2
This seminar is intended for undergraduate men and women who are mentoring local middle-school students on a weekly basis. The mentoring involves minimally tutoring the mentees once a week at their schools. The seminar meets twice a month for two hours. Additionally, one tutoring session a month is reserved for a focus group discussion involving the mentors and their mentees at the school site. May be repeated for a maximum of 12 credits.
Repeat Rule: May be repeated for a maximum of 12 credits.

EDUC 520 - Education, Poverty, and Development
Credits: 4
An examination of the human and institutional relationships among education, poverty, and social development. This course will emphasize the ways in which access to universal, effective education is correlated with the incidence of childhood poverty and its reduction in the US and selected countries in the developed and developing world. Interactive, discussion-based classes. Prior coursework in social or political sciences, economics, international affairs, health sciences, or related fields suggested. Not open to freshmen.
Attributes: Social Science (Discovery)

EDUC 525 - Teaching Race
Credits: 4
This course examines the idea of race from the perspective of science, history, and lived experience to help the student properly evaluate inequalities of treatment (on the basis of race or any other marker) in various sectors of life in the United States. The course aims at helping the student a) perceive what is taught about race and what is communicated in our schools and colleges about the meaning of racial ascription, of color, and whiteness and b) to figure out how the power of educational institutions can best be used to promote equality and racial justice in society.

EDUC 550 - Language and Linguistic Diversity in Schools
Credits: 4
The course offers a broad examination of language and linguistic diversity, drawing from education, sociolinguistics, anthropology, child development, and related fields. Through the critical examination of the language environments of schools, assumptions of linguistic diversity are examined. Various educational system interventions, presenting successes, challenges, limitations, and controversies are considered. A minimum of 20hrs of fieldwork beyond classroom time is required. Students have the opportunity to identify age group preference for field placement. Prereq: permission.

EDUC 556 - Mentoring Adolescents with Disabilities in the Transition to Work
Credits: 2
This course introduces undergraduates to a mentoring experience with an adolescent with a disability in a supportive setting. Students develop a beginning understanding of disabilities and the impact those disabilities might have on learning; the development of work related skills; and the importance of natural supports within the work environment. Each mentor/mentee relationship will be individualized based on the needs of the participants.
Repeat Rule: May be repeated for a maximum of 12 credits.

EDUC 605 - Educational Perspectives in Critical Times
Credits: 4
In this course students inquire, reflect on and teach ethical dilemmas in the practice of education. Students will establish a foundation of knowledge on which to build philosophies of education in preparation for a career in which they face policies influenced by political agendas, fads, and economic interests. Through readings, discussions and field experiences, students will become more practiced and comfortable in having difficult discussions related to pressing issues of education and equity. Special Fee.
Attributes: Writing Intensive Course

EDUC 625 - Anthropological Thinking on Education
Credits: 4
Education is about, by, and for human beings. It takes place in a sociocultural context. It involves learning and, in many societies of the world, schooling. Education should, therefore, be understood from the viewpoint of what is known about human beings, i.e., from the viewpoint of anthropology. This course introduces the student to five key ideas in anthropology that help us think about education. The ideas are: Evolution, Culture, Structure, Function, and Relativism. The course is organized that the introduction of each idea is followed by select readings that illustrate how the idea bears on education. It is hoped that the course will provide the student with conceptual framework for analyzing educational policies and practices.

EDUC 694 - Courses in Supervised Teaching
Credits: 8

EDUC 694A - Supervised Teaching/Music
Credits: 8
Supervised Teaching of Music. Cr/F.

EDUC 694C - Supervised Teaching/Mathematics
Credits: 8
Supervised Teaching of Mathematics. Cr/F.

EDUC 694D - Supervised Teaching/Kinesiology
Credits: 4
Supervised Teaching of Kinesiology. Cr/F.

EDUC 700 - Educational Structure and Change
Credits: 4
To assume leadership roles, beginning teachers need to develop an informed understanding of how they can operate effectively as decision-makers and agents of change within educational institutions. Such understanding entails knowledge of the politics, history, organization, and function of schools from a variety of viewpoints: historical, sociological, political, and cross-cultural. This course focuses on the structure of public education, on the nature of educational change, and the teacher’s role in the change process.
EDUC 701 - Human Development and Learning: Educational Psychology
Credits: 4
Child development through adolescence, theories of learning (including Piaget, information processing, and Vygotsky), conceptions of intelligence, moral education, research in teaching and teacher effectiveness, cross-cultural variability, gender and sexual orientation, management and discipline, and assessment and grading -- all applied to problems of classroom and individual teaching and learning. Junior and Senior status.
Attributes: Writing Intensive Course

EDUC 703C - Classroom Management: Creating Positive Learning Environments
Credits: 4
This course is designed to help prospective and current teachers create and maintain caring, respectful classroom communities in which learners feel safe, valued, cared for, valued, and empowered. The course includes a strong emphasis on developing knowledge about the culture and backgrounds of children and families in order to establish positive interactions within the classroom community. The course addresses the challenges and opportunities in creating community in the increasingly diverse student populations in US schools. We will consider what it means to be culturally responsive in order to establish a classroom in which all students can succeed academically and socially.

EDUC 703D - Social Studies Methods for Middle and High School Teachers
Credits: 4
The social studies theory and methods course begins with an overview of the varied and, at times, competing goals and visions of the profession. Students examine these goals and their underlying rationales, and then develop their own philosophy of social studies teaching and learning. Students also examine state and national scope and sequence frameworks for the social studies, as well as the language arts Common Core standards. A variety of classroom strategies and methods are explored during the remainder of the course, including unit design, leading class discussions, how to approach controversial issues, teaching concepts and generalizations, increasing student engagement and empathy with the past, incorporating technology and the arts, management and discipline, and formats for assessment and grading.

EDUC 703F - Teaching Elementary School Science
Credits: 4
This course is designed to increase pre-service teachers' pedagogical content knowledge and enthusiasm with respect to teaching science at the elementary level. Throughout this course, students will familiarize themselves with reform-based approaches to elementary science instruction through inquiry, readings, and class discussions. Science will be explored not only as an important element of elementary education, but also as a means by which to support a diverse class of elementary students in literacy and mathematics learning. 703F has a special fee when taught in Manchester. Prereq: EDUC 500.

EDUC 703M - Teaching Elementary Social Studies
Credits: 4
Social Studies Methods explores practical teaching models, techniques of implementation, and relationships to curricula in elementary classroom instruction. The New Hampshire Social Studies Frameworks and Common Core Curriculum Standards for instruction are identified and implemented in creating lesson plans for a mini unit. Pre or Co-req: EDUC 500.

EDUC 705 - Contemporary Educational Perspectives
Credits: 4
Students formulate, develop, and evaluate their own educational principles, standards, and priorities. Writing intensive.
Attributes: Writing Intensive Course

EDUC 706 - Introduction to Reading in the Elementary School
Credits: 4
Methods in reading and writing instruction; current procedures and materials; diagnostic techniques. Course satisfies reading/language arts requirement for prospective elementary teachers in the five-year teacher education program. Special fee.

EDUC 707 - Teaching Reading through the Content Areas
Credits: 2
Approaches and methods for teaching reading through content materials; coursework includes practical applications through development of instructional strategies and materials. Required for candidates seeking certification in art, biology, chemistry, earth science, general science, physical science, physics, or social science.

EDUC 710E - Workshop in Adult and Occupational Education
Credits: 1-4
Modularized instruction of in-service education. Focus varies with the needs of the student. May be repeated for up to 8 credits.
Equivalent(s): AOE 700

EDUC 710F - Investigations
Credits: 1-4
Topics may include career education, secondary education, post-secondary education, adult education, extension education, exemplary education, cooperative education, disadvantaged and handicapped education, international agriculture, or teaching experience. Student selected in one of the areas listed. Elective after consultation with instructor. Hours arranged. May be repeated.
Equivalent(s): AOE 695, AOE 796, AOE 895, AOE 896

EDUC 710H - Field Experience
Credits: 2-16
Work with an agency, institution, or organization to gain technical and/or professional competence not otherwise available. Student plans experience with departmental adviser. Credit approval subject to recommendation of faculty members and performance of student. Prereq: permission.
Equivalent(s): AOE 696

EDUC 712 - Teaching Multilingual Learners
Credits: 4
This course is for people interested in teaching English to speakers of other languages (ESOL) in schools and communities in NH and the U.S. Topics include: theories of first and second language acquisition, policies and laws affecting language minority students, strategies for teaching academic content in the mainstream classroom, creating classroom/ school cultures that invite all students into learning, and the role of advocacy and professional collaboration in ESOL.

EDUC 717 - Growing up Male in America
Credits: 4
An integrative view of growing up male in the American culture from birth through adulthood. Analysis of major perspectives on male development and the implications in parenting with specific emphasis on male education. Participants are expected to develop awareness of their own development as a male or alongside males, using current male development perspectives as a guide. They also create an awareness of how this will affect their behavior toward boys in their classrooms.
EDUC 718 - Critical Social Justice in and Beyond Education  
Credits: 4  
Students will become familiar with key concepts and principles of critical theory, critical pedagogy, and social justice education so that they may use this body of work to inform their teaching, leadership, and scholarship. We will examine the role of a) schools in providing equity of educational access and outcomes, b) teacher agency to change unjust conditions, and c) micro experiences within schools and the macro layer of context (i.e., history, politics, economics, culture).

EDUC 720 - Integrating Technology into Classroom  
Credits: 4  
Participants gain practical experience that takes specific advantage of technology to enhance and extend student learning. State academic standards and national technology standards are used to make decisions about curriculum content and to plan technology-based activities. Participants use electronic management tools such as iMovie, Powerpoint, podcast, webcast, Comic Life, Audacity, and Garage Band are featured in this hands-on course.

EDUC 733 - Teaching Writing in the 21st Century  
Credits: 4  
An examination of the challenges to teaching writing in the present age of high stakes testing and audit culture. Course questions include 'best practices' for teaching writing in a complex society that values a range of expressive forms, including digital technologies, social media, film and video. Special emphasis on multi-modal literacies in K-12 classrooms. Exploration of language diversity, the relationship between reading, writing, and literacy development in content-specific areas, student centered assessments, and integrating the arts into the reading and writing workshop.

EDUC 734 - Children's Literature  
Credits: 4  
Interpretive and critical study of literature for children in preschool and elementary settings. Methods of using literature with children.

EDUC 741 - Exploring Mathematics with Young Children  
Credits: 4  
A laboratory course offering those who teach young children mathematics, and who are interested in children's discovery learning and creative thinking, offers a chance to experience exploratory activities with concrete materials, as well as mathematical investigations, on an adult level, that develop the ability to provide children a mathematically rich environment, to ask problem-posing questions, and to establish a rationale for doing so. Prereq: MATH 601.

EDUC 745 - Math with Technology in Early Education  
Credits: 2  
The primary goal of this course is that students gain knowledge of learning standards and teaching methods for the instruction of mathematics in early education settings with infants through 3rd grade. In addition, participants gain experience in applying their newfound knowledge in the areas of mathematics with technology through a combination of teaching and digital experiences. On-line course; no campus visits required. Please note the minimal technical requirements for a UNH e-course.

EDUC 750 - Introduction to Exceptionality  
Credits: 4  
A life span perspective of the social, psychological, and physical characteristics of individuals with exceptionalities including intellectual, sensory, motor, health, and communication impairments. Includes implications for educational and human service delivery.

EDUC 751A - Educating Exceptional Learners: Elementary  
Credits: 4  
Foundations of special education and an introduction to a variety of service delivery models with an emphasis on educating all learners in heterogeneous classrooms. Instructional strategies and supports for all students, particularly those with mild and moderate disabilities, will be the primary focus.

EDUC 751B - Educating Exceptional Learners: Secondary  
Credits: 4  
Foundations of special education and an introduction to a variety of service delivery models with an emphasis on educating all learners in heterogeneous classrooms. Instructional strategies and supports for all students, particularly those with mild and moderate disabilities, is the primary focus. Preparation for students' transitions to post-secondary life is included.

EDUC 751C - Educating Exceptional Learners: Related Services  
Credits: 4  
An overview of special education and related services in an educational setting. Focus on support services provided to general education and special education teachers, including laws relating to special populations, how related services interact with classroom and special educators, IEPs, and other topics that impact services provided to students with special needs.

EDUC 752 - Contemporary Issues in Learning Disabilities  
Credits: 4  
Critical analysis of current and historical conceptions of learning disability in the areas of definition, supporting theories, assessment practice, and teaching methodologies. Focus on contemporary issues in the field that relate to working with students labeled as learning disabled at both elementary and secondary levels.

EDUC 753 - Contemporary Issues in Behavioral Disabilities  
Credits: 4  
Nature and scope of emotional and behavioral disabilities in students for elementary through secondary levels. Theoretical perspectives, characteristics, assessment and educational intervention strategies are included.

EDUC 754 - Contemporary Issues in Developmental Disabilities  
Credits: 4  
The causal factors, physical and psychological characteristics, and educational and therapeutic implications of mental retardation, cerebral palsy, epilepsy, autism, and related conditions. A life span perspective is included, with major emphasis on the school-age population.

EDUC 756 - Supporting Families of Individuals with Exceptionalities  
Credits: 4  
An introduction to family system theory and the implications for families having members with exceptionalities. Issues addressed include diagnosis and prognosis, coping strategies, communication and team collaboration, cross-cultural competence, and agency and school delivery of services. Emphasis is on proactive collaboration with family members.

EDUC 757 - Contemporary Issues in Autism Spectrum Disorders  
Credits: 4  
The goal of this course is to enhance students' understanding of contemporary issues related to educating students with autism spectrum disorders (ASD). The course is grounded in a theoretical foundation that values the perspectives of individuals with ASD in academic, research, policy, and clinical endeavors. Learning outcomes focus on strategies for identifying opportunities for learning, communication, literacy, and social relationships in a variety of inclusive environments.
EDUC 760 - Introduction to Young Children with Special Needs  
Credits: 4  
Needs of children (birth to eight years) with developmental delays or who are at risk for disabilities. Strengths and special needs of such children; causes, identification, and treatment; current legislation; parent and family concerns; program models.

EDUC 761 - Inclusive Curriculum for Young Children with Special Needs  
Credits: 4  
Classroom applications of constructivist theory. Curriculum planning and implementation; overview of research and theory related to teaching and learning of specific content areas, with emphasis on integrated approach to early childhood curriculum. Stresses the reciprocal nature of student-teacher relationship.

EDUC 762 - Curriculum for Young Children with Special Needs: Evaluation and Program Design  
Credits: 4  
Overview of evaluation and intervention issues relevant to early childhood special education, focusing on ages three through eight. Norm-referenced and criterion-referenced assessment tools. Judgment-based evaluation and observation skills. Translation of evaluation information into goals and objectives for individual education programs. Developing appropriate programs in inclusive settings. 
Equivalent(s): EDUC 947

EDUC 767 - Students, Teachers, and the Law  
Credits: 4  
Our public schools play a vital role in our society. What shall be taught and who shall teach our children are perennial questions. This course explores how the law impacts the educational lives of students and teachers, including issues of church-state relations, free speech, dress codes, and search and seizure. (Also offered as JUST 767.) 
Equivalent(s): JUST 767

EDUC #776 - Reading for Learners with Special Needs  
Credits: 4  
Techniques and procedures for teaching reading to learners with special needs. Emphasis on providing reading instruction in the least restrictive alternative.

EDUC #780 - Belize/New Hampshire Teacher Program  
Credits: 4  
International course involving teams of teachers from Belize and New England. The program offers teachers in both countries the opportunity to work collaboratively on developing effective teaching practices, develop an understanding of each other's cultural and educational perspectives, extend the experience to other teachers and students upon return. Special fee. 
Co-requisite: INCO 589

EDUC 784 - Educators as Researchers  
Credits: 4  
With the guidance and support of the instructor, students work in collaborative teams to conduct a systematic inquiry into a current educational studies issue and present their findings and interpretations at a professional or community forum open to the public. Students are encouraged to conduct their research in non-formal education settings including but not limited to community agencies, museums, and after-school programs. Note: EDUC 784 is the principal option for the DMES capstone.

EDUC #785 - Educational Assessment  
Credits: 4  
Theory and practice of educational evaluation; uses of test results in classroom teaching and student counseling; introductory statistical techniques.

EDUC 791 - Methods of Teaching Secondary Science  
Credits: 4  
This course is designed to provide experiences and resources that will support individuals who are planning to teach middle or high school science. Through interactive activities, readings, and class discussions, the class explores key elements and challenges of secondary science teaching and provide a foundation for continued growth and reflection throughout the students' teaching careers. Some of the main topics discussed in this course are national and state science standards, reform-based approaches to instruction, the use of technology in science teaching, laboratory safety, curriculum evaluation, and assessment.

EDUC 795 - Independent Study  
Credits: 2 or 4  
Juniors and seniors only, with approval by appropriate faculty member. Neither course may be repeated.

EDUC 796 - Independent Study  
Credits: 2 or 4  
Juniors and seniors only, with approval by appropriate faculty member. Neither course may be repeated.

EDUC 797 - Special Topics in Education  
Credits: 1-4  
An experimental course for the purpose of introducing a new course or teaching a special topics for a semester in an area of specialization in Education. 
Repeat Rule: May be repeated up to 2 times.

Electrical & Computer Engineering (ECE)  
# Course numbers with the # symbol included (e.g. #400) have not been taught in the last 3 years.

ECE 401 - Perspectives in Electrical and Computer Engineering  
Credits: 4  
An introductory course for electrical and computer engineering majors that introduces incoming students to the fundamental concepts of analysis and design. Concepts are presented through an examination of real-world problems. Students are introduced to electrical and computer engineering problem solving and design through active learning techniques in lecture and in a laboratory setting. Provides a context for the electrical engineering and computer engineering curriculum and introduces the profession and activities of electrical and computer engineering. Lab. 
Attributes: Inquiry (Discovery)  
Equivalent(s): COMP 430, EE 401
ECE 537 - Introduction to Electrical Engineering
Credits: 4
Fundamentals of electrical engineering. Topics are circuit elements; signal waveforms; circuit laws and theorems; transfer functions; free, forced, and steady state responses; power calculations; amplifiers; and magnetic circuits. Non-ECE majors only. Prereq: PHYS 408. Pre- or Coreq: MATH 527. Lab.
Equivalent(s): EE 537

ECE 541 - Electric Circuits
Credits: 4
Linear passive circuits beginning with resistive circuits, power and energy relations, mesh and node analysis. Transient and steady-state behavior of simple circuits containing energy storage elements (capacitors, inductors). Introduction to linear active circuits using dependent source models and ideal op amps. Introduction to transfer function and frequency response concepts. For ECE majors only. Pre- or Coreq: MATH 426; PHYS 408. Lab.
Equivalent(s): EE 541

ECE 543 - Introduction to Digital Systems
Credits: 4
Fundamental analysis and design principles. Number systems, codes, Boolean algebra, and combinational and sequential digital circuits. Lab: student-built systems using modern integrated circuit technology and an introductory design session on a CAD workstation. Lab.
Equivalent(s): EE 543

ECE 548 - Electronic Design I
Credits: 4
Introduction to electronic design for analog signal processing. Linear op amp circuits for amplification and filtering. Use of Laplace techniques for filter specification; simple passive and op amp filter realizations. Discrete active devices (FET and BJT): operating characteristics, biasing considerations, canonical amplifier configurations including differential amplifiers. Prereq: ECE 541. Lab.
Equivalent(s): EE 548

ECE 562 - Computer Organization
Credits: 4
Basic computer structure, including arithmetic, memory, control, and input/output units; the trade-offs between hardware, instruction sets, speed, and cost. Laboratory experiments involving machine language programming and I/O interfacing using microcomputers. Prereq: CS 410 or CS 415; ECE 543. Lab.

ECE 583 - Designing with Programmable Logic
Credits: 4
Design methodologies for implementing digital systems in programmable logic. Covers topics related to the design, implementation, and testing of programmable logic devices. Students are introduced to the Very-High-Speed Hardware Description Language (VHDL) entry language and simulation procedures, along with common logic synthesis tools. Programmable logic families, device architectures, and testing procedures are covered in detail. Laboratory exercises lead the student through the complete programmable logic design cycle. Each student is required to prototype a digital system starting with VHDL entry, functional and timing simulations, logic synthesis, device programming, logic probing, and systems verification. Prereq: ECE 562. Lab.
Equivalent(s): ECE 523, EE 523

ECE 602 - Engineering Analysis
Credits: 4
Equivalent(s): ECE 544, EE 544

ECE 603 - Electromagnetic Fields and Waves I
Credits: 4
Maxwell's equations in integral and differential form with applications to static and dynamic fields. Uniform plane waves in free space and material media. Boundary conditions; simple transmission line theory; parallel plate and rectangular waveguides; simple radiating systems. Prereq: PHYS 408; ECE 602.
Equivalent(s): ECE 667, EE 603

ECE 617 - Junior Laboratory I
Credits: 4
Application of laboratory instrumentation to the investigation of active and passive circuit characteristics; introduction to computer-aided design, analysis, and testing; development of report writing and oral presentation skills. Pre- or Coreq: ECE 633; ECE 651. Writing intensive.
Attributes: Writing Intensive Course
Equivalent(s): EE 617

ECE 618 - Junior Laboratory II
Credits: 4
Laboratory exercises in the design and analysis of active circuits, techniques of signal processing, and the properties of distributed circuits. Continued development of report writing and oral presentation skills. Prereq: ECE 617. Pre- or Coreq: ECE 603. Writing intensive.
Attributes: Writing Intensive Course
Equivalent(s): EE 618

ECE 633 - Signals and Systems I
Credits: 3
Equivalent(s): ECE 633H, EE 633
ECE 633H - Signals and Systems I/Honors
Credits: 4
Mathematical characterization of continuous-time systems using time- and frequency-domain concepts. Properties of linear systems described by ordinary differential equations. Fourier analysis of signals and system frequency response functions. Applications to communication and control systems. Introduction to system simulation using computer methods. Honors students will attend an additional one-hour meeting each week. Prereq: MATH 527. Pre- Coreq: MATH 645. permission required. Equivalent(s): EE 633, EE 633H

ECE 634 - Signals and Systems II
Credits: 3
Transient response analysis of linear systems using Laplace transforms, application to feedback control systems. Introduction to discrete-time linear systems; system response determination using Z-transform; elementary design of digital filters and controllers. State variable formulation of dynamical systems. Prereq: ECE 633. Equivalent(s): EE 634

ECE 647 - Random Processes and Signals in Engineering
Credits: 3
Emphasis on applied engineering concepts such as component failure, quality control, noise propagation. Topics include random variables, probability distributions, mean and variance, conditional probability, correlation, power spectral density. Prereq: MATH 426; ECE 602. Equivalent(s): EE 647

ECE 647H - Random Processes and Signals/Honors
Credits: 4
Emphasis on applied engineering concepts such as component failure, quality control, noise propagation. Topics include random variables, probability distributions, mean and variance, conditional probability, correlation, power spectral density. Honors students attend an additional one-hour meeting each week. Prereq: MATH 426; ECE 602, permission required.

ECE 649 - Embedded Microcomputer Based Design
Credits: 4
An in-depth treatment of the design of embedded microcomputer systems. Topics include advanced architectures for embedded processors, hardware and software aspects of interfacing, handling interrupts, advanced programming including debugging of real time systems, embedded application implementations. Laboratory studies are required to reinforce theoretical and applied concepts in an actual embedded architecture. Prereq: ECE 583. Lab.

ECE 651 - Electronic Design II
Credits: 4
Design of fundamental circuit blocks in electronic systems. Multistage amplifiers; feedback systems and stability; power amplifiers. Nonlinear electronic circuits: oscillators, function generators; clippers and peak detectors; A/D and D/A conversion. Switching mode and logic circuits. Prereq: ECE 548. Equivalent(s): EE 651

ECE 681 - Teaching Experience
Credits: 1
Credit for assisting in the instruction of undergraduate laboratories. Available on a limited basis to students selected by the department chairperson. May be repeated for credit up to a total of 4 credits. Equivalent(s): EE 681

ECE 704 - Electromagnetic Fields and Waves II
Credits: 4
Provides an overview of electromagnetics modeling by covering commonly-used numerical solutions to electromagnetics problems. Computational approaches to be covered include the Method of Moments (MoM) for both static and dynamic fields, iterative solutions to Laplace's equations. Finite Element Methods, high-frequency solutions, and the Finite-Difference, Time-Domain techniques (FDTD). Prereq: ECE 603. Equivalent(s): EE 704

ECE 711 - Digital Systems
Credits: 4
Principles, procedures and tools related to the design, implementation and testing of microprocessor-based embedded systems. Students prototype a complete embedded system using CAD tools, application specific integrated circuits, printed circuit board technology, and modern diagnostic/testing procedures and tools. Projects are designed to introduce diverse digital technologies. Lab. Equivalent(s): EE 711

ECE 714 - Introduction to Digital Signal Processing
Credits: 4
Introduction to digital signal processing theory and practice, including coverage of discrete time signals and systems, frequency domain transforms and practical spectral analysis, digital filter terminology and design, and sampling and reconstruction of continuous time signals. Laboratory component providing an introduction to DSP design tools and real-time algorithm implementation. Prereq: ECE 633. Lab. Equivalent(s): EE 714H, EE 714

ECE 715 - Introduction to VLSI
Credits: 4
Principles of VLSI (Very Large Scale Integration) systems at the physical level. CMOS circuit and logic design, CAD tools, CMOS system case studies. Students exercise the whole development cycle of a VLSI chip: design and layout with the up-to-date commercial EDA tools. An IA (continuous grading) grade is given at the end of semester I. Lab.

ECE 717 - Introduction to Digital Image Processing
Credits: 4
Digital image representation; elements of digital processing systems; multidimensional sampling and quantization; image perception by humans, image transformations including the Fourier, the Walsh, and the Hough Transforms; image enhancement techniques including image smoothing, sharpening, histogram equalization, and pseudo color processing; image restoration fundamentals; image compression techniques, image segmentation and use of descriptors for image representation and classification. Prereq: ECE 633; ECE 647. Lab. Equivalent(s): EE 717

ECE 724 - Ubiquitous Computing Fundamentals
Credits: 4
Ubiquitous computing, or ubicomp, explores embedded, interconnected computing devices that are part of everyday objects and activities. This course takes an interdisciplinary look at the foundations of ubiquitous computing. Topics include software and hardware for ubicomp, human-computer interaction in ubicomp, and issues related to privacy and security in ubicomp. Students undertake a research project inspired by the material. Registration by permission only.
ECE 734 - Network Data Communications
Credits: 4
Introduces basic concepts related to data transmission equipment and physical interfaces, data communication protocols, and the Open System Interconnection (OSI) Reference Model. Includes physical layer hardware, signaling schemes, protocol packets, computer interfaces, error detection, signal integrity, and data transmission protocols relative to both wired and wireless networks. Introduces both logical and wide-area networks, and how a networking system is constructed, tested, and managed. Network design and testing exercises. Prereq: ECE 633; ECE 649. Lab. Electrical Engineering majors only.
Equivalent(s): ECE 734H, EE 734

ECE 757 - Fundamentals of Communication Systems
Credits: 4
Spectra of deterministic and random signals; baseband and bandpass digital and analog signaling techniques; transmitter and receiver architectures; performance analysis of digital and analog signaling in additive noise channels; carrier and symbol timing synchronization methods. Prereq: ECE 633; ECE 647. Lab.
Equivalent(s): EE 757

ECE 758 - Communication System Design
Credits: 4
System- and circuit-level design and implementation of communication hardware including: mixers, RF amplifiers, filters, oscillators and frequency synthesizers, modulators and detectors, carrier and symbol timing recovery subsystems. Issues in software-defined radio transmitter and receiver implementation. Communication link engineering including antenna selection and channel impairment effects. Prereq: ECE 651; ECE 757. Lab.
Equivalent(s): EE 758

ECE 760 - Introduction to Fiber Optics
Credits: 4
Basic physical and geometric optics; solution of Maxwell’s equations for slab waveguides and cylindrical waveguides, of both step index and graded index profiles; modes of propagation and cutoff; polarization effects; ground and phase velocity; ray analysis; losses; fabrication; sources; detectors; couplers; splicing; cabling; applications; system design. Prereq: ECE 603. Lab.
Equivalent(s): EE 760

ECE 772 - Control Systems
Credits: 4
Development of advanced control system design concepts such as Nyquist analysis; lead-lag compensation; state feedback; parameter sensitivity; controllability; observability; introduction to non-linear and modern control. Includes interactive computer-aided design and real-time digital control. Prereq: ECE 634. Lab. (Also offered as ME 772.)
Equivalent(s): EE 772, ME 772

ECE 775 - Applications of Integrated Circuits
Credits: 4
Equivalent(s): EE 775

ECE 777 - Collaborative Engineering
Credits: 4
Study of processes in which engineers from diverse disciplines cooperate to specify, design, manufacture, test, market, and maintain a product. Classes are organized in both technical and nontechnical flexible modules. Technical topics are advanced and relevant to project being developed, such as related research, technology, design methodology, and CAD tools. Nontechnical topics include ISO 9000 quality system, engineering management, budget considerations, building, communication and leadership skills, and concurrent engineering principles. The course utilizes collaborative engineering by team development of an engineering project, often a research oriented proof-of-concept prototype. Prereq: permission. Lab. Also listed as TECH 750.
Equivalent(s): EE 777

ECE 784 - Biomedical Instrumentation
Credits: 4
Principles of physiological and biological instrumentation design including transducers, signal conditioning, recording equipment, and patient safety. Laboratory includes the design and use of instrumentation for monitoring of electrocardiogram, electromyogram, electroencephalogram, pulse, and temperature. Current research topics, such as biotelemetry, ultrasonic diagnosis, and computer applications. Prereq: ECE 651. Lab.
Equivalent(s): EE 784

ECE 791 - Senior Project I
Credits: 2
First semester of the capstone design experience. Students develop project plans, and prepare and present written and oral project proposals. The project plans must include aspects of design, implementation and evaluation. At the end of the semester, students prepare a written progress report. Prereq: ECE 694; ECE senior standing. Writing intensive.
Attributes: Writing Intensive Course
Equivalent(s): ECE 791H

ECE 791H - Senior Honors Project I
Credits: 4
First semester of the capstone honors senior thesis research. Students develop research plans, prepare and present written and oral research proposals. The research plans must include aspects of design, implementation and evaluation, similar to ECE 791. However, honors thesis research must also include independent research beyond the normal scope of ECE 791. At the end of the semester students prepare a written progress report. Prereq: ECE 694; ECE senior standing, permission required. Writing intensive.
Attributes: Writing Intensive Course
Equivalent(s): ECE 791

ECE 792 - Senior Project II
Credits: 2
This course requires the completion of the capstone design experience begun in ECE 791. At the end of the semester students prepare written final project reports, and present their results in a research poster session. Prereq: ECE 791. Writing intensive.
Attributes: Writing Intensive Course
Equivalent(s): ECE 792H
Equivalent(s): engineering technology majors only.

Laplace transform technique, and probability and statistics. Prereq: calculus with applications and advanced topics, e.g., Fourier analysis, review of college-level mathematics including differential and integral calculus.

Credits:

ET 630 - Analytical Methods in Engineering Technology
Credits: 4
Review of college-level mathematics including differential and integral calculus with applications and advanced topics, e.g., Fourier analysis, Laplace transform technique, and probability and statistics. Prereq: engineering technology majors only.
Equivalent(s): ET 695

ET 635 - Fluid Technology and Heat Transfer
Credits: 4
Fundamental principles of fluid technology and basic principles of heat transfer, with applications in solving practical problems, and how these concepts are used in the HVAC area. Prereq: Thermodynamics; Mechanical Engineering Tech majors.

ET #639 - Heating, Ventilation and Air Conditioning I
Credits: 4
First in a two course sequence designed to familiarize the student with the design and operation of fluid thermal systems with specific applications in the heating, ventilating, and air conditioning of occupied spaces and some reference to industrial process control. Prereq: thermodynamics, calculus, or permission. Lab. Special fee.

ET 640 - Heating, Ventilation and Air Conditioning II
Credits: 4
Second in a two course sequence designed to acquaint the student with the fundamentals of fluid thermal system design with specific topics in solar loads on buildings, air conditioning system requirements, pump and fan selection, piping and duct system design, and an introduction to controls. Prereq: ET #639 or permission. Lab. Special fee.

ET 641 - Production Systems
Credits: 4
Market forecasting; waiting line theory; manufacturing inventories and their control; production scheduling; quality control. Prereq: differential and integral calculus.

ET 644 - Mechanical Engineering Technology Concepts in Analysis and Design
Credits: 4
Kinematics, kinetics, work and energy, fluids, heat transfer; application of these concepts to problems in mechanical design. Prereq: strength of materials and dynamics and ET 637.

ET #647 - Advanced Perspectives on Programming
Credits: 4
Several programming languages will be selected for study and analysis. Students will gain knowledge regarding the languages studied and conduct analysis related to comparisons and divergence in capabilities. Prereq: intermediate programming skills in three or more programming languages. Major suggested languages of interest are: Java, C++, Visual Basic, Visual C++ Windows, Visual Basic.Net and C# or permission.

ET #655 - Engineering Tech Seminar Series
Credits: 1
Five talks will be given that introduce the ET student to the softer issues of technology. Talks will be given in the areas of Ethics, Diversity, Lifelong Learning, Functioning in technical teams, and the importance of timeliness, scheduling and product improvement. For the most part talks are given by outside industrial personnel dealing in these specific areas. Students are required to write a short paper on three of the five topic areas. Class discussion of each talk takes place during regular class time. No prerequisites.

ET 671 - Digital Systems
Credits: 4
Digital systems design and application using TTL and CMOS devices, design of systems, and interfacing. Digital design project required. Prereq: introductory digital design. Special fee. Lab.

ECE 792H - Senior Honors Project II
Credits: 4
This course requires the completion of the capstone honors thesis research begun in ECE 791H. At the end of the semester students prepare honors theses, and present their research results in a research poster session. ECE 791H/792H fulfills the requirement of one professional elective. Prereq: ECE 791H, permission required. Writing intensive.
Attributes: Writing Intensive Course
Equivalent(s): ECE 792

ECE 795 - Electrical and Computer Engineering Projects
Credits: 1-4
Laboratory course. Student undertakes a project of mutual interest with an ECE faculty advisor. A written final report must be filed with the ECE Department. Prereq: permission.
Equivalent(s): EE 795

ECE 796 - Special Topics
Credits: 1-4
New or specialized courses and/or independent study. Prereq: permission. 1 to 4 credits some sections may use credit/fail grading.
Equivalent(s): EE 796

Engineering Technology (ET)

# Course numbers with the # symbol included (e.g. #400) have not been taught in the last 3 years.

ET 401 - Introduction to 3D Printing
Credits: 4
This project-based course introduces current methods in the design and fabrication of 3D models. Students will apply and integrate techniques from mathematics, engineering, and computing design #3D models and then manufacture them by the use of 3D printers. Credit cannot be earned by students who have completed UMST 599 SpcTop/Intro to 3D Printing. Special fee.
Attributes: Environment,TechSociety(Disc)

ET #601 - Data Structures and Data Bases
Credits: 4
A brief review of fundamental container classes; stacks, queues and link lists followed by more advanced data structures and concepts using search algorithms, iterators, and efficiency indicators. The second part of the course will include the development and use of relational databases using a commercial database engine. Java console applications and minimal Graphic User Interface applications will be used throughout the course to develop and test concepts.

ET 625 - Technical Communications
Credits: 4
Designed to improve students' capabilities to prepare and present technical information in written and oral form and through electronic means. ET majors should take this course early in their program of study so that proficiencies developed can be utilized in later courses. (Also listed as ENGL 502.) Writing intensive.
Attributes: Writing Intensive Course
Equivalent(s): ENGL 502, ENGL 502H

ET 630 - Analytical Methods in Engineering Technology
Credits: 4
Review of college-level mathematics including differential and integral calculus with applications and advanced topics, e.g., Fourier analysis, Laplace transform technique, and probability and statistics. Prereq: engineering technology majors only.
Equivalent(s): ET 695
ET 674 - Control Systems and Components
Credits: 4
Topics include linear systems analysis, the Laplace transform and its properties, controllers, root locus technique, transient response analysis, first- and second-order systems, error analysis, and control system design. Prereq: differential and integral calculus. Lab.

ET 675 - Electrical Technology
Credits: 4

ET 677 - Analog Systems
Credits: 4

ET 680 - Communications and Fields
Credits: 4
Topics include Fourier series analysis; the Fourier transform and its properties; convolution; correlation including PN sequences; modulation theory; encoding and decoding of digital data (NRZ-M, NRZ-S, RZ, Biphase-L, and Manchester); antennas and antenna pattern; Radar Range Equation; and an introduction to information theory. Prereq: differential and integral calculus. Lab.

ET 695 - Independent Study
Credits: 1-4
Individual reading, writing, or laboratory work carried out under the tutelage of a faculty member. Prereq: approval of the adviser. Repeat Rule: May be repeated for a maximum of 4 credits. Equivalent(s): ET 630, ET 696, ET 697

ET 696 - Topics in Mechanical Engineering
Credits: 4
New or specialized courses not covered in regular course offerings. Prereq: permission. Repeat Rule: May be repeated for a maximum of 4 credits. Equivalent(s): ET 695

ET 697 - Topics in Electrical Engineering Technology
Credits: 4
New or specialized courses not covered in regular course offerings. Prereq: permission. Repeat Rule: May be repeated for a maximum of 4 credits. Equivalent(s): ET 695C

ET 706 - Internship
Credits: 1-4
On-the-job skill development through fieldwork in industry. Normally, supervision is provided by a qualified individual in the organization with consultation by a faculty sponsor. Written report required. Internships may be part or full time, with course credits assigned accordingly. May be repeated to a maximum of 4 credits. Credit/Fail. Repeat Rule: May be repeated for a maximum of 4 credits.

ET 707 - Object Oriented Design and Documentation
Credits: 4
Current design techniques and strategies, including State Transition Diagrams (STD) and United Modeling Language (UML), provide the core of the course. Case studies of large programming projects will be developed. Group programming projects will be completed based upon case studies. Prereq: intermediate programming skills in one or more of the following OOP language: Java, C++, Visual C++, Windows, Visual Basic.Net and C# or by permission.

ET #717 - Network Security
Credits: 4
The technical, operational, and managerial issues of computer systems and network security in an operational environment. Addresses the threats to computer security including schemes for breaking security, and techniques for detecting and preventing security violations. Emphasis on instituting safeguards, examining different types of security systems, and applying the appropriate level of security for the perceived risk. Prereq: Java programming.

ET #727 - CT Software Development Project
Credits: 4
This course requires the development of a real world project that responds to an engineering focused organizational need. The project is undertaken by a team of students. An iterative approach is used to incrementally address the project requirements while constructing a prototype of the software engineering solution to the original problem. Electrical Engineering Tech and EET: Computer Technology majors only.

ET 733 - Business Organization and Law
Credits: 4
Corporations; proprietorships; product liability; contracts; federal agencies; commercial paper; conditions of employment; business ethics; bankruptcy; U.C.C. Special fee. Writing intensive. Attributes: Writing Intensive Course Equivalent(s): ET 633

ET 734 - Economics of Business Activities
Credits: 4
Elementary financial accounting; compound interest and time value of money; sources of capital; cost estimating; depreciation; risk and insurance; personal finance. Prereq: differential and integral calculus. Special fee. Equivalent(s): ET 634

ET 747 - User Interface Design
Credits: 4
This course familiarizes students with Human Computer Interaction and the significant role it plays in product design and development. The principles of HCI, examples of good and bad applications, and factors that determine a design’s effectiveness are covered. Stages of the product development life cycle are discussed to understand the progression of a project from conception to delivery and the impact it has on HCI. (Also listed as COMP 640.) Electrical Engineering Technology majors only.
ET 751 - Mechanical Engineering Technology Project  
Credits: 4 or 8  
Students are required to find solutions to actual technological problems in design, fabrication, and testing as posed by industry. Students define the problem, prepare a budget, and work with the client company to research, design, build, and test the software and/or hardware needed. Prereq: senior standing in E.T. A year-long course: 4 credits per semester; an IA grade (continuous course) given at the end of first semester. Withdrawal from course results in loss of credit.  
Repeat Rule: May be repeated for a maximum of 8 credits.  
Equivalent(s): ET 651

ET 781 - Introduction to Automation Engineering  
Credits: 4  
Students are introduced to the topics needed to develop a good understanding of the basic principles of Automation Engineering. This introductory course covers a wide variety of topics such as performance of sensors, actuators, motors and drives, PLC's and HMI, environmental controls, robots, machine vision systems, and controls and system integration. Prereq: ET 674 Control Systems and Components. Open to Electrical Engineering Technology, and Mechanical Engineering Technology majors only.

ET 788 - Introduction to Digital Signal Processing  
Credits: 4  
This course will deal with the topics of spectral representation of periodic and non-periodic analog signals followed by discrete sampling and aliasing and how it relates to Nyquist sampling theorem. The z-transform will be introduced as the required mathematical tool along with an introduction to MATLAB and its associated DSP tool box. Spectral analysis of digital signal will be accomplished using these tools. Convolution and digital filtering will also be covered. Lab. Prereq: ET 680 Communications and Fields or equivalent.

ET 790 - Microcomputer Technology  
Credits: 4  
Microcomputer systems design, including assembly language, interfacing, processor timing and loading, and inter-processor communications via local area networks. Hardware, software, and architecture of both Intel 80X86 and Motorola 68XX0 microprocessors. Microcomputer applications with emphasis on lab work using Motorola HCII microcontroller. Prereq: ET 671. Special fee. Lab.  
Equivalent(s): ET 690

ET 791 - Electrical Engineering Technology Project  
Credits: 4 or 8  
Students are required to find solutions to actual technological problems in design, fabrication, and testing, as posed by industry. Students define the problem, prepare a budget, and work with the client company to research, design, build, and test the software and/or hardware needed. Prereq: senior standing in E.T. Special fee. A year-long course: an IA grade (continuous course) given at end of first semester. Withdrawal from course results in loss of credit.  
Repeat Rule: May be repeated for a maximum of 8 credits.  
Equivalent(s): ET 691

English (ENGL)  
# Course numbers with the # symbol included (e.g. #400) have not been taught in the last 3 years.

ENGL 400 - English for International Students  
Credits: 1-4  
Designed for international students to provide additional support in course work. Students continue to develop skills in listening comprehension, speaking, reading, and writing in English. No letter grades. Course graded. Prereq: permission from ESL Institute. Cr/F.  
Attributes: Writing Intensive Course  
Repeat Rule: May be repeated for a maximum of 4 credits.  
Equivalent(s): ENGL 400A

ENGL 400A - Academic English for ESL  
Credits: 4  
Preparation for the reading, writing, and speaking assignments that students encounter in academic courses. Students complete reading, writing, and speaking assignments every week, with close guidance from the instructor. In addition to the time they spend in class, students also have frequent individual conferences with the instructor. No more than 16 combined credits for ENGL 400 and ENGL 400A may be counted toward a UNH degree. Special fee.  
Attributes: Writing Intensive Course  
Repeat Rule: May be repeated for a maximum of 8 credits.  
Equivalent(s): ENGL 400

ENGL 401 - First-Year Writing  
Credits: 4  
Training to write more skillfully and to read with more appreciation and discernment. Frequent individual conferences for every student.  
Attributes: Writing Skills(Discovery); Writing Intensive Course  
Equivalent(s): ENGL 401A, ENGL 401H

ENGL 401A - First Year Writing for Multi-Lingual Students  
Credits: 4  
A special section of first-year writing for students whose native language is not English. Training to write more skillfully and to read with more appreciation and discernment, with special attention to the challenges of non-native speakers of English. Supplemental work on listening and speaking as necessary. Frequent individual conferences for every student. Students may not take both ENGL 401 and ENGL 401A for credit.  
Attributes: Writing Skills(Discovery); Writing Intensive Course  
Equivalent(s): ENGL 401, ENGL 401H

ENGL 401H - Honors/First-Year Writing  
Credits: 4  
Training to write more skillfully and to read with more appreciation and discernment. Frequent individual conferences for every student.  
Attributes: Writing Skills(Discovery); Writing Intensive Course  
Equivalent(s): ENGL 401, ENGL 401A

ENGL 401S - Literacy Studio  
Credits: 2  
Develops college-level literacy skills through scaffolded instruction, necessary for success in English 401.  
Co-requisite: ENGL 401

ENGL 402 - Introduction to Literature for International Students  
Credits: 4  
The art of thoughtfully enjoying major literary works. This course is intended for students who are participating in the ESL program. Permission required from ESL Institute.  
Equivalent(s): ENGL 403

ENGL #403 - Exploring Literature  
Credits: 4  
The art of thoughtfully enjoying major literary works.  
Attributes: Humanities(Disc)  
Equivalent(s): ENGL 403W
ENGL 403W - Exploring Literature
Credits: 4
The art of thoughtfully enjoying major literary works. Writing intensive.
Attributes: Humanities(Disc); Writing Intensive Course
Equivalent(s): ENGL #403

ENGL 405 - Introduction to Linguistics
Credits: 4
Overview of the study of language: universal properties of human language, Chomsky's innateness of hypothesis, language acquisition in children, dialects and language variation, language change. Includes introduction to modern grammar (phonology, syntax, semantics) and to scientific linguistic methodology. (Also offered as LING 405.)
Attributes: Social Science (Discovery); Inquiry (Discovery)
Equivalent(s): ENGL 405H, ENGL 505, ENGL 505H, LING 405, LING 405H, LING 505, LING 505H

ENGL 405H - Honors/Introduction to Linguistics
Credits: 4
Overview of the study of language: universal properties of human language, Chomsky's innateness of hypothesis, language acquisition in children, dialects and language variation, language change. Includes introduction to modern grammar (phonology, syntax, semantics) and to scientific linguistic methodology. (Also offered as LING 405.)
Attributes: Social Science (Discovery); Inquiry (Discovery)
Equivalent(s): ENGL 405, ENGL 505, ENGL 505H, LING 405, LING 405H, LING 505, LING 505H

ENGL 415A - Literature and Law
Credits: 4
From the gritty mean streets to the marble columned courthouse, 'Literature and Law' addresses issues of interpretation and moral judgement. Students will examine the literary explorations of various facets of the legal system and criminality and address fundamental questions raised by the law. Writing intensive. Ideal for students interested in: Justice Studies, Sociology, Political Science, and Psychology. Prereq: ENGL 401 (B or better). Writing intensive.
Attributes: Humanities(Disc); Writing Intensive Course
Equivalent(s): ENGL 415B, ENGL 415C, ENGL #415D, ENGL 415E, ENGL 415G, ENGL #415J

ENGL 415B - Literature and Business
Credits: 4
Reading literature provides fresh ways to consider the purposes, benefits, strategies, ethics, and risks of business. Using a variety of literary forms (poetry, short fiction, novels, plays, and essays) this course serves as a reflective study of business practices and how they affect individuals and groups. This course asks students to consider how literature can help us think more broadly about the function business. Ideal for students interested in Business Administration, Marketing, and Economics. Prereq: ENGL 401 (with a B or better). Writing intensive.
Attributes: Humanities(Disc); Writing Intensive Course
Equivalent(s): ENGL 415A, ENGL 415C, ENGL #415D, ENGL 415E, ENGL #415F, ENGL 415G, ENGL #415J

ENGL 415C - Literature and Medicine
Credits: 4
Literary representations of medical practice are used to prompt discussion of broad issues concerning medical philosophy and medical ethics, the image of the medical professional in the media, differing conceptions of healing in various social contexts worldwide, and changes in biological science and medicine on the larger society. Ideal for students interested in: Health Care, Biomedical Sciences, Physical therapy, and Nutrition. Prereq: ENGL 401 (with a B or better). Writing intensive.
Attributes: Humanities(Disc); Writing Intensive Course
Equivalent(s): ENGL 415A, ENGL 415B, ENGL 415C, ENGL 415E, ENGL #415F, ENGL 415G, ENGL #415J

ENGL 415D - Literature and the Animal World
Credits: 4
Our ability to define what it is to be human, what essential struggles and dilemmas humans face, depends on our understanding of the relationship between human and animal identity. In this course students address questions fundamental for those engaged in animal-related professions. Ideal for students interested in: Equine Studies, Pre-Vet, Biology, and Zoology. Prereq: ENGL 401 (with a B or better). Writing intensive.
Attributes: Humanities(Disc); Writing Intensive Course
Equivalent(s): ENGL 415A, ENGL 415B, ENGL 415C, ENGL 415E, ENGL #415F, ENGL 415G, ENGL #415J

ENGL 415E - Literature and Cyberculture
Credits: 4
What is "cyberculture" and how has it been portrayed in various forms of literature? This course explores the very nature of what cyberculture is, and looks at various aspects of this culture - computers, coders and hackers, online communities, cyber-commerce, digitization, e-mail, and so on. Students study how essayists, novelists, and dramatists have raised fundamental questions about the nature and effects of digitization upon our society. Ideal for students interested in: Business, Communications, and Computer Science. Prereq: ENGL 401 (with a B or better). Writing intensive.
Attributes: Humanities(Disc); Writing Intensive Course
Equivalent(s): ENGL 415A, ENGL 415B, ENGL 415C, ENGL 415E, ENGL #415F, ENGL 415G, ENGL #415J

ENGL 415F - Literature and the Psyche
Credits: 4
What is "cyberculture" and how has it been portrayed in various forms of literature? This course explores the very nature of what cyberculture is, and looks at various aspects of this culture - computers, coders and hackers, online communities, cyber-commerce, digitization, e-mail, and so on. Students study how essayists, novelists, and dramatists have raised fundamental questions about the nature and effects of digitization upon our society. Ideal for students interested in: Business, Communications, and Computer Science. Prereq: ENGL 401 (with a B or better). Writing intensive.
Attributes: Humanities(Disc); Writing Intensive Course
Equivalent(s): ENGL 415A, ENGL 415B, ENGL 415C, ENGL 415E, ENGL #415F, ENGL 415G, ENGL #415J

ENGL 415G - Literature and the Animal World
Credits: 4
Our ability to define what it is to be human, what essential struggles and dilemmas humans face, depends on our understanding of the relationship between human and animal identity. In this course students address questions fundamental for those engaged in animal-related professions. Ideal for students interested in: Equine Studies, Pre-Vet, Biology, and Zoology. Prereq: ENGL 401 (with a B or better). Writing intensive.
Attributes: Humanities(Disc); Writing Intensive Course
Equivalent(s): ENGL 415A, ENGL 415B, ENGL 415C, ENGL 415E, ENGL #415F, ENGL 415G, ENGL #415J

ENGL 415H - Honors/Introduction to Linguistics
Credits: 4
Overview of the study of language: universal properties of human language, Chomsky's innateness of hypothesis, language acquisition in children, dialects and language variation, language change. Includes introduction to modern grammar (phonology, syntax, semantics) and to scientific linguistic methodology. (Also offered as LING 405.)
Attributes: Social Science (Discovery); Inquiry (Discovery)
Equivalent(s): ENGL 405, ENGL 505, ENGL 505H, LING 405, LING 405H, LING 505, LING 505H

ENGL 405H - Honors/Introduction to Linguistics
Credits: 4
Overview of the study of language: universal properties of human language, Chomsky's innateness of hypothesis, language acquisition in children, dialects and language variation, language change. Includes introduction to modern grammar (phonology, syntax, semantics) and to scientific linguistic methodology. (Also offered as LING 405.)
Attributes: Social Science (Discovery); Inquiry (Discovery)
Equivalent(s): ENGL 405, ENGL 505, ENGL 505H, LING 405, LING 405H, LING 505, LING 505H
ENGL 415G - Literature and the Visual Arts  
**Credits:** 4  
This course considers how the sister arts communicate with each other, how writers – sometimes sassy, sometimes ecstatic – talk back to paintings, and how painters – and artists in other mediums – find inspiration in myth, poetry, and the written word. Students discuss a range of questions that result from such an investigation. Ideal for students interested in: Art, Humanities, Communications, and Theater and Dance. Prereq: ENGL 401 (with a B or better).  
**Attributes:** Humanities(Disc); Writing Intensive Course  
**Equivalent(s):** ENGL 415A, ENGL 415B, ENGL 415C, ENGL #415D, ENGL 415E, ENGL #415F, ENGL #415J  

ENGL 415J - Literature and Religion  
**Credits:** 4  
Most major religions are founded on basic literary principles of "word" or "text", such as the Hebrew Torah, the Christian Bible, the Koran of Islam or the Vedas of Hinduism. While many people in our own time see literature as a "secular scripture" others see literature as a natural conduit for channeling the divine. Ideal for students interested in: Philosophy, Anthropology, Sociology, and History. Prereq: ENGL 401 (with a B or better). Writing intensive.  
**Attributes:** Humanities(Disc); Writing Intensive Course  
**Equivalent(s):** ENGL 415A, ENGL 415B, ENGL 415C, ENGL #415D, ENGL 415E, ENGL #415F, ENGL 415G  

ENGL 419 - Writing About Literature  
**Credits:** 4  
Critical analysis of fiction, poetry, drama, nonfiction, and a variety of other art forms, such as film and media. Developing fundamental research, writing, and critical skills. Frequent short papers. This course is a prerequisite with a minimum grade of C for those intending to declare one of the four majors offered in the English Department. Writing intensive.  
**Attributes:** Inquiry (Discovery); Writing Intensive Course  
**Equivalent(s):** ENGL 419H, ENGL 519, ENGL 519H, ENGL 529, ENGL 529H  

ENGL 419H - Honors/Writing about Literature  
**Credits:** 4  
Critical analysis of fiction, poetry, drama, nonfiction, and a variety of other art forms, such as film and media. Developing fundamental research, writing, and critical skills. Frequent short papers. This course is a prerequisite with a minimum grade of C for those intending to declare one of the four majors offered in the English Department. Writing intensive.  
**Attributes:** Inquiry (Discovery); Writing Intensive Course  
**Equivalent(s):** ENGL 419, ENGL 419H, ENGL 519H, ENGL 529, ENGL 529H  

ENGL 440 - On Race in Culture and Society  
**Credits:** 4  
Of our special concern will be the claim that race is a culturally or socially, not biologically, constructed category. The reading list will include literary texts (Toni Morrison's "Recitatif"), works of African American comedians (Bill Cosby, Richard Pryor, Eddie Murphy, etc.), philosophical text (Immanuel Kant, W.E.B. DuBois, K.A. Appiah, etc) as well as some legal documents (recent U.S. Supreme Court decisions concerning affirmative action). We will also do two case studies, one on the name of the Redskins and one on the Whiteness Project. The general goal of the course is to improve the student's ability to speak and think critically about race and race relations in the U.S. Writing intensive.  
**Attributes:** Humanities(Disc); Writing Intensive Course  

ENGL 440B - Honors/Seeing is Believing: How the Copernican Revolution Changed the Way We See Ourselves  
**Credits:** 4  
This course explores the various ways that scientists, philosophers, poets, novelists, and literary theorists have tried to reconcile what we see (or think we see) with what we know (or think we know), from the ancient past to the 21st century. Our special focus will be on how the Copernican Revolution prompted a wholesale reevaluation of perception and knowledge. We will explore how writers, artists, musicians, and philosophers embraced or lamented the enormous cultural and psychological changes that the Copernican evolution helped to introduce. We also will investigate how these changes continue to shape our worldview in the 21st-century.  
**Attributes:** Humanities(Disc)  

ENGL 441 - On Race and Culture in Society  
**Credits:** 4  
Of our special concern will be the claim that race is a culturally or socially, not biologically, constructed category. The reading list will include literary texts (Toni Morrison's "Recitatif"), works of African American comedians (Bill Cosby, Richard Pryor, Eddie Murphy, etc.), philosophical text (Immanuel Kant, W.E.B. DuBois, K.A. Appiah, etc) as well as some legal documents (recent U.S. Supreme Court decisions concerning affirmative action). We will also do two case studies, one on the name of the Redskins and one on the Whiteness Project. The general goal of the course is to improve the student's ability to speak and think critically about race and race relations in the U.S. Writing intensive.  
**Attributes:** Humanities(Disc); Writing Intensive Course  

ENGL 444D - Irish Identity  
**Credits:** 4  
Explores the historical causes and literary effects of emigration from Ireland to other regions in the North and South Atlantic. Considers the political and economic conditions of Ireland itself and asks how Irish identities are first formed dialectically through contact with indigenous others and then nostalgically constituted through the experience of migration. Writing intensive.  
**Attributes:** Humanities(Disc); Inquiry (Discovery); Writing Intensive Course  

ENGL 444G - Ethnic America: Readings in African American, Asian American, Native American and Latino/a Literature  
**Credits:** 4  
This course introduces students to literature by and about African Americans, Asian Americans, Natives, and Latino/as. It introduces approaches in American Studies that will guide students in understanding and appreciating what we call ethnic literature. Secondary sources might include readings in and about ideological criticism, historical analysis, race and ethnic studies, multicultural education, formal narrative, and genre analysis. Writing intensive.  
**Attributes:** Humanities(Disc); Inquiry (Discovery); Writing Intensive Course
ENGL 444K - People Stories: Investigating Identity as Literary Construction  
Credits: 4  
Plato's Republic, Shakespeare's As You Like It, Thoreau's Walden, Narrative of Frederick Douglass, Austen's Mansfield Park, Palahniuk's Fight Club, Eugenides' Middlesex, Satrapi's Perseopolis, Hall's Without a Map, poetry, and seminar texts in criticism are read as we complicate our notions of what shapes identity across time, race, cultures, genders, economic statuses, and through the media of dialogue, novel, drama, poetry, graphic novel, and memoir. Writing intensive.  
Attributes: Humanities(Discovery); Inquiry (Discovery); Writing Intensive Course  

ENGL 444M - Food and Class: America's Food Industry and the (Im)migrant Worker  
Credits: 4  
Students explore the implications of food production and labor in the US through the stories artists and writers have given us, specifically, those of migrant and immigrant food workers. Texts include Fast Food Nation, The Jungle, The Grapes of Wrath and Diary of an Undocumented Immigrant. Through writing, close reading, and collaboration, students map a path of inquiry for their study, culminating in one research and one multi-media project. Field trips to a local farm, the Dreams of Freedom Museum, and New York over spring break. Writing intensive.  
Attributes: Humanities(Discovery); Inquiry (Discovery); Writing Intensive Course  

ENGL 444N - Monsters!!!  
Credits: 4  
This course will introduce students to a number of critical thinking processes by examining one of the most symbolically significant human archetypes, Monsters. By engaging works of historical significance and popular texts, students will explore a familiar subject from historical, political, psychological, and literary points of view. Writing intensive.  
Attributes: Humanities(Discovery); Inquiry (Discovery); Writing Intensive Course  

ENGL 501 - Introduction to Creative Nonfiction  
Credits: 4  
A writing course that explores types of creative nonfiction such as nature writing, the profile, the memoir, and the personal essay. Extensive reading of contemporary authors to study the sources and techniques used in creative nonfiction. Regular papers, conferences, and workshops. Prereq: ENGL 401.  
Attributes: Fine Performing Arts(Discovery); Writing Intensive Course  
Equivalent(s): ENGL 501H  

ENGL 501H - Honors/Introduction to Creative Nonfiction  
Credits: 4  
A writing course that explores types of creative nonfiction such as nature writing, the profile, the memoir, and the personal essay. Extensive reading of contemporary authors to study the sources and techniques used in creative nonfiction. Regular papers, conferences, and workshops.  
Attributes: Fine Performing Arts(Discovery); Writing Intensive Course  
Equivalent(s): ENGL 501  

ENGL 502 - Professional and Technical Writing  
Credits: 4  
A writing course introducing students to the effective communication of technical information through various workplace documents including resumes, memos, business letters, reports, brochures, etc. Special emphasis on an introduction to professional conventions and genres and to the transferable skills of rhetorical and audience analysis, document design and collaborative work. Prereq: ENGL 401.  
Attributes: Writing Intensive Course  
Equivalent(s): ENGL 502H, ET 625  

ENGL 502H - Honors/Technical Writing  
Credits: 4  
A writing course introducing students to the effective communication of technical information through various workplace documents including resumes, memos, business letters, reports, brochures, etc. Special emphasis on an introduction to professional conventions and genres and to the transferable skills of rhetorical and audience analysis, document design and collaborative work. Special fee. Prereq: permission. Writing intensive.  
Attributes: Writing Intensive Course  

ENGL 503 - Persuasive Writing  
Credits: 4  
Writing of all types of persuasive nonfiction prose, including argumentative essays and position papers. Special attention to argumentative structures and analysis of audiences. Weekly papers of varying lengths and formats, frequent conferences. Prereq: ENGL 401.  
Attributes: Writing Intensive Course  

ENGL 504 - Resume Writing  
Credits: 2  
Write your resume now! Readings from recruiters, scholars, and managers reveal what employers want in resumes and cover letters, and what they don't want. Topics include: understanding ATS (applicant tracking systems); analyzing purpose and audience; learning cutting-edge designs; writing detailed and efficient content; tailoring your resume to the job advertisement; writing persuasive cover letters; and formatting and editing tips. Students will identify two job advertisements and write a resume and letter for each. Cr/F.  

ENGL 510 - Introduction to the Digital Humanities  
Credits: 4  
Digital methods can greatly intensify our understanding of literary works, non-fiction writing, film and many other modes of expression in the humanities. This course introduces students to the methods of thought, research and argumentation that digital technology makes possible. These may include identifying quantifiable language patterns, working with archival documents, mapping locations in written works, illuminating historical works, creating digital visualizations of texts, or working with translation tools and concordances. Prereq: ENGL 401.  
Attributes: Writing Intensive Course  
Repeat Rule: May be repeated for a maximum of 8 credits.  

ENGL 511 - Major Writers in English  
Credits: 4  
In-depth study and discussion of a few American and/or British writers. Topics and approaches vary depending on instructors. May be repeated for credit, barring duplication of topic.  
Attributes: Humanities(Discovery); Writing Intensive Course
ENGL 512 - British Literature I Age of Heroes: Beowulf to Dr. Faustus
Credits: 4
An introduction to the earliest poetry, prose and drama in English, considered in chronological order and in historical context. Examine important literary works such as the Old English epic Beowulf, Chaucer's entertaining collection Canterbury Tales, the Arthurian romance Sir Gawain and the Green Knight, the devotional autobiography The Book of Margery Kempe, the sermon in dramatic form Everyman, Edmund's Spenser's chivalric saga The Faerie Queen and the sonnets of Philip Sidney and William Shakespeare. Writing intensive.
Attributes: Humanities(Disc); Writing Intensive Course

ENGL 513 - British Literature II Age of Revolutions: Shakespeare to Austen
Credits: 4
An introduction to the English literary tradition from the Renaissance to the early Romantics, considered in chronological order and in historical context. Examine important literary works such as Shakespeare's Twelfth Night, the erotic poetry of John Donne, John Milton's Biblical epic Paradise Lost, Aphra Behn's roguish comedy The Rover, Margaret Cavendish's utopian fantasy the Blazing World, the satire of Jonathan Swift, and early Romantic works by Thomas Grey and Jane Austen. Writing intensive.
Attributes: Humanities(Disc); Writing Intensive Course
Equivalent(s): ENGL 513H, ENGL 513W

ENGL 513H - British Literature II Age of Revolutions: Shakespeare to Austen
Credits: 4
An introduction to the English literary tradition from the Renaissance to the early Romantics, considered in chronological order and in historical context. Examine important literary works such as Shakespeare's Twelfth Night, the erotic poetry of John Donne, John Milton's Biblical epic Paradise Lost, Aphra Behn's roguish comedy The Rover, Margaret Cavendish's utopian fantasy the Blazing World, the satire of Jonathan Swift, and early Romantic works by Thomas Grey and Jane Austen. Writing intensive.
Attributes: Humanities(Disc); Writing Intensive Course
Equivalent(s): ENGL 513

ENGL 513W - British Literature II Age of Revolutions: Shakespeare to Austen
Credits: 4
Selected works in poetry and prose considered in chronological order and historical context. Attention to the works and to the ideas and tastes of their periods. The Stuart Monarchy to the Age of Enlightenment. Writing intensive.
Attributes: Humanities(Disc); Writing Intensive Course
Equivalent(s): ENGL 513

ENGL 514 - British Literature III: Revolts, Renewals, Migrations
Credits: 4
Encounter the Romantic fantasies of John Keats's nature poetry and Mary Shelley's Frankenstein, the Victorian novels that brought us Jane Eyre, Ebenezer Scrooge and Mr. Hyde, the experiments of Modernists like Virginia Woolf and James Joyce, and Postmodern transformations by a shifting cast of contemporaries. We'll read these works in the context of imperial expansion and contraction, the crises of world wars, and the civil rights and independence struggles of the 20th and 21st centuries.
Attributes: Humanities(Disc)
Equivalent(s): ENGL 514H, ENGL 514W

ENGL 514H - Honors/British Literature III: Revolts, Renewals, Migrations
Credits: 4
Encounter the Romantic fantasies of John Keats's nature poetry and Mary Shelley's Frankenstein, the Victorian novels that brought us Jane Eyre, Ebenezer Scrooge and Mr. Hyde, the experiments of Modernists like Virginia Woolf and James Joyce, and Postmodern transformations by a shifting cast of contemporaries. We'll read these works in the context of imperial expansion and contraction, the crises of world wars, and the civil rights and independence struggles of the 20th and 21st centuries.
Attributes: Humanities(Disc); Writing Intensive Course
Equivalent(s): ENGL 514

ENGL 514W - British Literature III: Revolts, Renewals, Migrations
Credits: 4
Encounter the Romantic fantasies of John Keats's nature poetry and Mary Shelley's Frankenstein, the Victorian novels that brought us Jane Eyre, Ebenezer Scrooge and Mr. Hyde, the experiments of Modernists like Virginia Woolf and James Joyce, and Postmodern transformations by a shifting cast of contemporaries. We'll read these works in the context of imperial expansion and contraction, the crises of world wars, and the civil rights and independence struggles of the 20th and 21st centuries.
Attributes: Humanities(Disc); Writing Intensive Course
Equivalent(s): ENGL 514, ENGL 514H

ENGL #515 - American Literature I Conquest and Nation: First Contact to the Civil War
Credits: 4
Read texts from the English settlement of North America to the founding of the U.S. and to the national crisis of the Civil War. Encounter an astonishing range of voices in exploration accounts, sermons, captivity narratives, Native American writings, Revolutionary texts, autobiographies, fiction, nature writing, slave narratives, and poetry. The course offers students knowledge of the formative period of American literature and experience in textual analysis through reading and writing about multiple genres.
Attributes: Humanities(Disc)
Equivalent(s): ENGL 515H

ENGL 515H - Honors/American Literature I Conquest and Nation: First Contact to the Civil War
Credits: 4
Read texts from the English settlement of North America to the founding of the U.S. and to the national crisis of the Civil War. Encounter an astonishing range of voices in exploration accounts, sermons, captivity narratives, Native American writings, Revolutionary texts, autobiographies, fiction, nature writing, slave narratives, and poetry. The course offers students knowledge of the formative period of American literature and experience in textual analysis through reading and writing about multiple genres. Writing intensive.
Attributes: Humanities(Disc); Writing Intensive Course
Equivalent(s): ENGL #515

ENGL 515W - American Literature I Conquest and Nation: First Contact to the Civil War
Credits: 4
Read texts from the English settlement of North America to the founding of the U.S. and to the national crisis of the Civil War. Encounter an astonishing range of voices in exploration accounts, sermons, captivity narratives, Native American writings, Revolutionary texts, autobiographies, fiction, nature writing, slave narratives, and poetry. The course offers students knowledge of the formative period of American literature and experience in textual analysis through reading and writing about multiple genres. Writing intensive.
Attributes: Humanities(Disc); Writing Intensive Course
ENGL 516 - American Literature II Money, Migration, and Modernity: Huck Finn to Beloved
Credits: 4
Students will discuss novels, plays, poems, and essays that address the difficult issues of national rebuilding, the temptations of a new consumer culture, the devastations of numerous wars fought overseas, and encounters with European, Jewish, Latin American, and Asian immigrants. Whether comparing nineteenth-century Huckleberry Finn with twentieth-century Beloved or making sense of modern and postmodern literary playfulness, students will become thoughtful readers and writers.
Attributes: Humanities(Disc)
Equivalent(s): ENGL 516H, ENGL 516W

ENGL 516H - Honors/American Literature II Money, Migration, and Modernity: Huck Finn to Beloved
Credits: 4
Students will discuss novels, plays, poems, and essays that address the difficult issues of national rebuilding, the temptations of a new consumer culture, the devastations of numerous wars fought overseas, and encounters with European, Jewish, Latin American, and Asian immigrants. Whether comparing nineteenth-century Huckleberry Finn with twentieth-century Beloved or making sense of modern and postmodern literary playfulness, students will become thoughtful readers and writers. Writing intensive.
Attributes: Humanities(Disc); Writing Intensive Course
Equivalent(s): ENGL 516, ENGL 516W

ENGL 516W - American Literature II Money, Migration, and Modernity: Huck Finn to Beloved
Credits: 4
Students will discuss novels, plays, poems, and essays that address the difficult issues of national rebuilding, the temptations of a new consumer culture, the devastations of numerous wars fought overseas, and encounters with European, Jewish, Latin American, and Asian immigrants. Whether comparing nineteenth-century Huckleberry Finn with twentieth-century Beloved or making sense of modern and postmodern literary playfulness, students will become thoughtful readers and writers. Writing intensive.
Attributes: Humanities(Disc); Writing Intensive Course
Equivalent(s): ENGL 516H, ENGL 516W

ENGL 517 - Introduction to African American Literature and Culture
Credits: 4
An introduction to African American literature in the context of a variety of cultural perspectives. Course topics may include major writers, literary genres, historical periods, Harlem Renaissance, Black Arts Movement, fine and folk arts, religion, music, and film. (Also offered as AMST 502.) Writing intensive.
Attributes: Humanities(Disc); Inquiry (Discovery); Writing Intensive Course
Equivalent(s): AMST 502, ENGL 517H

ENGL 517H - Honors/Introduction to African American Literature and Culture
Credits: 4
An introduction to African American literature in the context of a variety of cultural perspectives. Course topics may include major writers, literary genres, historical periods, Harlem Renaissance, Black Arts Movement, fine and folk arts, religion, music, and film. (Also offered as AMST 502.) Writing intensive.
Attributes: Humanities(Disc); Writing Intensive Course
Equivalent(s): AMST 502, ENGL 517

ENGL 518 - Bible as Literature
Credits: 4
Literature of the Old and New Testaments and the Apocrypha, primarily in the King James version.
Attributes: Humanities(Disc)
Equivalent(s): ENGL 518H, ENGL 518W

ENGL 518H - Honors/Bible as Literature
Credits: 4
Literature of the Old and New Testaments and the Apocrypha, primarily in the King James version. Writing intensive.
Attributes: Humanities(Disc); Writing Intensive Course
Equivalent(s): ENGL 518

ENGL 518W - Bible as Literature
Credits: 4
Literature of the Old and New Testaments and the Apocrypha, primarily in the King James version. Writing intensive.
Attributes: Humanities(Disc); Writing Intensive Course
Equivalent(s): ENGL 518H

ENGL 520 - Literature and the History of Ideas: Dystopian and Post Apocalyptic Fiction
Credits: 4
Our survey of short stories and novellas spans historical periods and national literatures. Together these stories offer a context for literary terms, subgenres, and historical contexts, as well as diverse opportunities for close-reading. Writing assignments (blog posts and a range of analytical and creative writing options) will enable further investigations of these perennial and new classics.
Attributes: Humanities(Disc)

ENGL 521 - Nature Writers
Credits: 4
Literary writings on the natural environment by naturalists and observant others concerned about the environment. Readings include essays, selections, or book length works by such authors as Gilbert White, Henry David Thoreau, Ralph Waldo Emerson, John Muir, John Burroughs, Aldo Leopold, Rachel Carson, Wallace Stegner, Edward Abbey, Annie Dillard, Jamaica Kincaid, Terry Tempest Williams, Janisse Ray, Sandra Steingraber, and others. See detailed course description in the department and on the department website. Writing intensive.
Attributes: Humanities(Disc)

ENGL 521H - Honors/Nature Writers
Credits: 4
Literary writings on the natural environment by naturalists and observant others concerned about the environment. Readings include essays, selections, or book length works by such authors as Gilbert White, Henry David Thoreau, Ralph Waldo Emerson, John Muir, John Burroughs, Aldo Leopold, Rachel Carson, Wallace Stegner, Edward Abbey, Annie Dillard, Jamaica Kincaid, Terry Tempest Williams, Janisse Ray, Sandra Steingraber, and others. See detailed course description in the department and on the department website. Writing intensive.
Attributes: Writing Intensive Course
Equivalent(s): ENGL 521
ENGL 526 - Introduction to Fiction Writing  
Credits: 4  
Writing fiction asks us to say: who am I? What's happening in the world around me? Awakening to the story in your life, and thus to your own imagination, will change your life. Repeatedly, we see fiction writers find their power as creative people. You might become the head of a major corporation! You might just write a great novel or short story. Or just be happier. Join us: write stories, change your life. Prereq: ENGL 401.  
Attributes: FinePerformingArts(Discovery); Writing Intensive Course

ENGL 527 - Introduction to Poetry Writing  
Credits: 4  
Writing poetry is training for life - its practice deepens both the liveliness and rigor of the mind. This course is run in a workshop/discussion format - it uses innovative exercises, guided prompts, language games, and readings that teach the basics of craft, while showing you how to think like a writer, opening up to the pleasures and surprises of the creative process. No prior experience necessary. Prereq: ENGL 401.  
Attributes: FinePerformingArts(Discovery); Writing Intensive Course

ENGL 530 - Poetry  
Credits: 4  
Meaning, techniques and traditions of lyric (short) poetry (the history and variety of lyric poetry in English). See department course descriptions in particular term for more information about works studied. Not offered each semester. Prereq: ENGL 401.  
Attributes: Humanities(Disc); Writing Intensive Course

Repeat Rule: May be repeated for a maximum of 8 credits.

ENGL #531 - Introduction to Drama: How to Read a Play  
Credits: 4  
Theater, the first mass entertainment genre, has an illustrious history on which the film and television drama of our own day draws. This course introduces you to the pleasures of reading and analyzing stage plays. It surveys Western drama's beginnings in Greek tragedy, the glories of the English Renaissance stage, the psychological explorations of realist and Symbolist drama, the experimentalism of avant-garde drama and the political provocations of contemporary women playwrights and writers of color. Prereq: ENGL 401.  
Attributes: Writing Intensive Course

Equivalent(s): ENGL 630

ENGL 533 - Introduction to Film Studies  
Credits: 4  
A survey of the international development of the motion picture from the silent period to the present, emphasizing film's narrative practices. Introduces students to the study of the art, history, technology, economics, and theory of cinema. Films and film makers of various nations, periods, movements, and genres examined. Mandatory weekly screenings in addition to class. Students cannot receive credit for both ENGL 533 and CMN 550. Special fee. Writing intensive.  
Attributes: Humanities(Disc); Writing Intensive Course

Equivalent(s): CMN 553, CMN 550, ENGL 533, ENGL 533W, THEA 533

ENGL 533W - Introduction to Film Studies  
Credits: 4  
A survey of the international development of the motion picture from the silent period to the present, emphasizing film's narrative practices. Introduces students to the study of the art, history, technology, economics, and theory of cinema. Films and film makers of various nations, periods, movements, and genres examined. Mandatory weekly screenings in addition to class. Students cannot receive credit for both ENGL 533 and CMN 550. Special fee. Writing intensive.  
Attributes: Humanities(Disc); Writing Intensive Course

Equivalent(s): CMN 553, CMN 550, ENGL 533, ENGL 533W, THEA 533

ENGL 534 - 21st Century Journalism: How the News Works  
Credits: 4  
This class explores ways new technology, including social media, has affected the practice of journalism, and examines journalism past and present. Students discuss libel law, ethics and how to define plagiarism in the digital age. This survey is meant not only to lay a foundation for prospective journalists, but also to provide a broad understanding of the news media for those interested in how the news works.  
Attributes: Environment, TechSociety(Disc)

ENGL 549 - In the Groove: African American Music as Literature  
Credits: 4  
This is a music appreciation course that focuses on getting students into, behind, and under "the groove" of African American music and its intellectual traditions of black pride, power, and cultural expressivity. This course will contain a broad introduction to African American music origins but it will also consider the impact of cultural contexts such as slavery and Euro-American musical influences on African American culture. Students will gain new appreciation for the multi-faceted and wide-ranging ways in which African American music is performed how this music has helped unite one nation under its soulful groove.  
Attributes: FinePerformingArts(Discovery)

ENGL 550 - Introduction to the Literature and Culture of Race  
Credits: 4  
This course introduces students to readings across the field of ethnic literature and culture in order to form their capacity to speak and think critically about race relations in America. Readings will include those in race theory, racial construction and authenticity, histories of raced subjects in America, the rise of ethnic studies, white ignorance and whiteness studies, the intersectionality of race with gender, sexual orientation, economic class, religion, and faith. Includes Asian American, African American, Native, and Latino/a literature.  
Attributes: Humanities(Disc), Inquiry (Discovery); Writing Intensive Course

Repeat Rule: May be repeated for a maximum of 8 credits.
ENGL 555 - Science Fiction  
Credits: 4  
This course examines stories, novels, and film from the popular genre of science fiction. A variety of literary critical approaches are deployed to discuss a number of key authors and texts from the nineteenth century to the present.  
Attributes: Humanities(Disc)  
Equivalent(s): ENGL 555H

ENGL 557 - Crime and Espionage  
Credits: 4  
This course examines stories, novels, and film from the popular genre of Crime Fiction and Espionage. A variety of literary critical approaches are deployed to discuss a number of key authors and texts from the nineteenth century to the present.  
Attributes: Humanities(Disc)  
Equivalent(s): ENGL 555H

ENGL 560 - Introduction to Latinx Literature and Culture  
Credits: 4  
This course introduces students to the field of Latinx literature and culture in order to develop the ability to speak and think critically about race relations in the USA. Course readings will be drawn from texts produced primarily in English by individuals of Latin American descent. Readings may include immigration and borderlands discourse, art, music, television and film, histories of Latinx subjects in America, and the intersectionality of race with gender, sexual orientation, economic class and religion. Writing intensive.  
Attributes: Humanities(Disc); Inquiry (Discovery); Writing Intensive Course

ENGL 575 - Sex and Sensibility: The Rise of Chick Lit from Jane Austen to Bridget Jones  
Credits: 4  
This course focuses on the novel of manners, a literary tradition that began in the nineteenth century, but enjoys widespread popularity in the contemporary phenomenon dubbed as "chick lit". We will survey how this qualitative sociology negotiates the interplay between romantic and economic concerns. Texts may include works by major writers of this subgenre, e.g. Jane Austen, Edith Wharton, and Evelyn Waugh, as well as new incarnations like 'Bridget Jones Diary' and 'Sex and the City'.  
Attributes: Humanities(Disc)

ENGL 581 - Introduction to Postcolonial Literatures in English  
Credits: 4  
Survey of fictional and nonfictional prose, drama, and poetry by Asian and African writers (1950s to the present). Primary focus on how literary form and language respond to political, social, and environmental issues shaped by colonialism, nationalism, and globalization. Topics both globally relevant (migration, natural resource scarcity, health) and regionally unique to Asia/Africa (class, caste, civil conflict, urbanization). Regional focus may vary any given semester. Writing intensive.  
Attributes: World Cultures(Discovery); Writing Intensive Course  
Equivalent(s): ENGL 581H

ENGL 581H - Honors/Introduction to Postcolonial Literatures in English  
Credits: 4  
Survey of contemporary Asian, African, and Caribbean fiction, drama, travelogues, essays, and poetry from the 1950s to the present. Introduces political, historical, and cultural contexts within which these forms are produced. Writing intensive.  
Attributes: World Cultures(Discovery); Writing Intensive Course  
Equivalent(s): ENGL 581

ENGL 585 - Introduction to Women in Literature  
Credits: 4  
Survey of images of women in literature. Context and approach vary depending on instructor. Writing intensive.  
Attributes: Writing Intensive Course  
Equivalent(s): ENGL #585H

ENGL #585H - Honors/Introduction to Women in Literature  
Credits: 4  
Survey of images of women in literature. Context and approach vary depending on instructor. Writing intensive.  
Attributes: Writing Intensive Course  
Equivalent(s): ENGL 585

ENGL 595 - Literary Topics  
Credits: 4  
Various faculty members investigate topics of special interest at a level appropriate for non-majors. Past topics have included Irish literature, animals in literature, and literature of the Vietnam War. See department for details of current offerings. May be repeated for credit, barring duplication of topic.  
Attributes: Writing Intensive Course  
Repeat Rule: May be repeated for a maximum of 8 credits.  
Equivalent(s): ENGL 595H, ENGL 595W

ENGL 595H - Honors/Literary Topics  
Credits: 4  
Various faculty members investigate topics of special interest at a level appropriate for non-majors. Past topics have included Irish literature, animals in literature, and literature of the Vietnam War. See department for details of current offerings. May be repeated for credit, barring duplication of topic.  
Attributes: Writing Intensive Course  
Repeat Rule: May be repeated for a maximum of 8 credits.  
Equivalent(s): ENGL 595

ENGL 600 - English for International Students  
Credits: 1-4  
Designed for international students to provide additional support in course work. Students continue to develop skills in listening comprehension, speaking, reading, and writing in English. No letter grades. Prereq: permission from ESL Institute. Cr/F. Writing intensive. Credits received for this course can help satisfy the requirements for student visa, but they will normally not count towards a graduate degree. Students are encouraged to check with their individual academic advisors.  
Repeat Rule: May be repeated for a maximum of 4 credits.

ENGL 602 - Advanced Professional and Technical Writing  
Credits: 4  
An advanced writing course focusing on writing in a global and technological workplace. In addition to fluency in the documents of the workplace, students focus on visual rhetoric in a technological environment through web design and usability while studying the issues of globalization, ethics, and the environment that affect all professional writing today.  
Attributes: Writing Intensive Course
ENGL 605 - Intermediate Linguistic Analysis
Credits: 4
Introduces analysis methods and problem solving in phonology, morphology, and syntax using data from many languages. Emphasis will be both practical (learning how to describe the grammar and sound system of a language) and theoretical (understanding languages' behavior). Prereq: ENGL 405/LING 405, or permission. (Also offered as LING 605.)
Equivalent(s): LING 605

ENGL 606 - Languages of the World
Credits: 4
A survey of the languages of the world from genetic, areal, and typological perspectives. Students learn about the geographic and demographic distribution of language families and language isolates, as well as about structural characteristics of languages, language families and language areas. Additional topics include language endangerment and the question of linguistic universals. Students work collaboratively on a project investigating a particular language family, giving in class presentations and writing up a final project report. Some prior knowledge of phonetics, phonology, morphology, and syntax is necessary. Prereq: ENGL 605/LING 605 or ENGL 405/LING 405 and permission of the instructor.
Equivalent(s): LING 606

ENGL #609 - Ethnicity in America: The African American Experience in the 20th Century
Credits: 4
Investigation of the music, literature, and social history of African American America in the period of the Harlem Renaissance, in the Great Depression, World War II, and in the 1960s. Special attention to the theme of accommodation with and rejection of dominant white culture. (Also offered as AMST 609, HUMA 609.) Writing intensive.
Attributes: Writing Intensive Course
Equivalent(s): AMST 609, HUMA 609, MUSI 609

ENGL 616A - Studies in Film/Genre
Credits: 4
Advanced, focused study of the narrative, dramatic, and poetic practices of cinema, within one of four possible subject areas: A) Genre; B) Authorship; C) Culture and Ideology; D) Narrative and Style. Precise issues and methods may vary, ranging from general and specific considerations of how a given subject area involves film theory, criticism, and history, to its use in diverse analyses of selected national cinemas, periods, movements, and filmmakers. May be repeated for credit barring duplication of topic. Barring duplication of material taken for credit in CMN 650, course may be repeated for credit. Detailed course descriptions available in the English department office.
Attributes: Writing Intensive Course
Repeat Rule: May be repeated up to unlimited times.
Equivalent(s): AMST 605, ENGL 616

ENGL 616B - Studies in Film/Authorship
Credits: 4
Advanced, focused study of the narrative, dramatic, and poetic practices of cinema, within one of four possible subject areas: A) Genre; B) Authorship; C) Culture and Ideology; D) Narrative and Style. Precise issues and methods may vary, ranging from general and specific considerations of how a given subject area involves film theory, criticism, and history, to its use in diverse analyses of selected national cinemas, periods, movements, and filmmakers. May be repeated for credit barring duplication of topic. Barring duplication of material taken for credit in CMN 650, course may be repeated for credit. Detailed course descriptions available in the English department office.
Attributes: Writing Intensive Course
Repeat Rule: May be repeated up to unlimited times.
Equivalent(s): AMST 605, ENGL 616

ENGL 616C - Studies in Film/Culture and Ideology
Credits: 4
Advanced, focused study of the narrative, dramatic, and poetic practices of cinema, within one of four possible subject areas: A) Genre; B) Authorship; C) Culture and Ideology; D) Narrative and Style. Precise issues and methods may vary, ranging from general and specific considerations of how a given subject area involves film theory, criticism, and history, to its use in diverse analyses of selected national cinemas, periods, movements, and filmmakers. May be repeated for credit barring duplication of topic. Barring duplication of material taken for credit in CMN 650, course may be repeated for credit. Detailed course descriptions available in the English department office.
Attributes: Writing Intensive Course
Repeat Rule: May be repeated up to unlimited times.
Equivalent(s): AMST 605, ENGL 616

ENGL 616D - Studies in Film/Narrative and Style
Credits: 4
Advanced, focused study of the narrative, dramatic, and poetic practices of cinema, within one of four possible subject areas: A) Genre; B) Authorship; C) Culture and Ideology; D) Narrative and Style. Precise issues and methods may vary, ranging from general and specific considerations of how a given subject area involves film theory, criticism, and history, to its use in diverse analyses of selected national cinemas, periods, movements, and filmmakers. May be repeated for credit barring duplication of topic. Barring duplication of material taken for credit in CMN 650, course may be repeated for credit. Detailed course descriptions available in the English department office.
Attributes: Writing Intensive Course
Repeat Rule: May be repeated up to unlimited times.
Equivalent(s): AMST 605, ENGL 616

ENGL 618 - Film Theory
Credits: 4
Examines basic theories of film and their relationship to the practice of close analysis of film. Theories are meant to provide students with a vocabulary for critical analysis and stress the many ways of seeing film.
ENGL 620 - English Major Internship  
Credits: 1-4  
Open to all English majors. Internships allow students to use skills learned in the major in a supervised work setting. In addition to the job experience, the English major internship requires research and writing assignments overseen by a faculty sponsor. These supplementary assignments must be outlined in a written proposal describing the work involved in the internship and how it relates to the student's academic training. Registration requires permission from the employer, faculty sponsor, major advisor, and department chairperson. The employer must be an established organization approved by Career Services. This course does not count toward the English major or substitute for ENGL 720, the Journalism Internship. Cr/F.  
Repeat Rule: May be repeated for a maximum of 8 credits.

ENGL 621 - Newswriting  
Credits: 4  
Students get a strong journalistic foundation with hands-on experience reporting and writing compelling news stories for print and digital platforms. Skills taught include finding news stories and tracking down sources; conducting interviews and verifying facts; and drafting and revising stories. Prereq: ENGL 401, ENGL 534 and permission of the instructor. ENGL 621 may be taken more than once for credit with the approval of the Journalism Program Director, up to a maximum of 8.00 credits. Students must fill out a Permission to Repeat an English Course For Credit form, available in the department office.  
Attributes: Writing Intensive Course  
Repeat Rule: May be repeated for a maximum of 8 credits.

ENGL 623 - Creative Nonfiction  
Credits: 4  
Intensive writing course emphasizing the blend of basic elements that constitute creative nonfiction: research, observation, and personal experience. Also readings and discussion of some of the best published creative nonfiction. Prereq: ENGL 501, 526, 527 or permission of the instructor. May be taken more than once for credit, recommended with two different instructors.  
Attributes: Writing Intensive Course  
Repeat Rule: May be repeated for a maximum of 8 credits.

ENGL 625 - Intermediate Fiction Writing Workshop  
Credits: 4  
Students continue to explore the aspects of fiction writing. Through short exercises students learn to create visual scenes, integrate exposition with dramatic scene, and construct convincing characters in believable situations. We'll continue to explore the basic elements of what makes a short story, such as point of view, dialogue, dramatization, voice, meaning, language. Students write short stories and significantly revise them. Through discussion of student writing in a workshop format, as well as reading and responding to short stories by published authors, we'll address the questions: What is a short story? How do we create a world in which the reader is fully involved? Where does the story evoke emotion or meaning? Prereq: ENGL 501, 526, 527 or permission of the instructor. ENGL 625 may be taken more than once for credit, recommended with two different instructors.  
Attributes: Writing Intensive Course  
Repeat Rule: May be repeated for a maximum of 8 credits.

ENGL 625A - Intermediate Fiction Writing Workshop: Screenwriting  
Credits: 4  
In this course, intermediate creative writers will learn the craft of writing scripts for film and television. Students will continue to explore the elements of effective storytelling by writing and significantly revising loglines, outlines, and complete short screenplays. The course will combine in-depth analysis of classic and contemporary screenplays (including shorts, teleplays, and feature-length films) with lectures, writing exercises, and peer workshops. Topics will include dramatic structure, professional formatting and planning, and how to develop vividly compelling characters, scenes, conflict and dialogue. The aim of the course will not be to simply reinforce existing narrative principles but rather to test the validity of existing conventions. Throughout we will address the questions: What makes a story relevant, moving, thrilling, or meaningful? Why does this story need to be told visually? What makes a great script great? Prereq: ENGL 501, ENGL 526 or ENGL 527 or Permission of the Instructor. Course may be repeated up to a maximum of 8 credits.  
Attributes: Writing Intensive Course  
Repeat Rule: May be repeated for a maximum of 8 credits.

ENGL 627 - Intermediate Poetry Writing Workshop  
Credits: 4  
Workshop discussion of poems written by students, with focus on more complex techniques and forms. Individual conferences with instructor. Prereq: ENGL 501, 526, 527 or permission of the instructor. ENGL 627 may be taken more than once for credit, recommended with two different instructors.  
Attributes: Writing Intensive Course  
Repeat Rule: May be repeated for a maximum of 8 credits.

ENGL 631 - Digital Reporting  
Credits: 4  
This course immerses students in the digital news landscape and teaches them to report across multiple platforms. Students learn reporting tools and strategies for producing dynamic digital journalism. Prereq: ENGL 534, ENGL 621 with a 'B' or better and written permission of the instructor. Writing intensive.  
Attributes: Writing Intensive Course  
Repeat Rule: May be repeated for a maximum of 8 credits.

ENGL 636 - Literature and the Environment  
Credits: 4  
Literary and geographical approaches to place and space; readings and other materials exploring how cultures or authors represent nature. May be repeated for credit if topic differs.  
Attributes: Writing Intensive Course  
Repeat Rule: May be repeated for a maximum of 8 credits.

ENGL 649 - Studies in British Literature and Culture  
Credits: 4  
Special topics in British studies, varying from year to year. May be repeated for credit, barring duplication of topic. (Not offered every year.)  
Attributes: Writing Intensive Course  
Repeat Rule: May be repeated for a maximum of 8 credits.

ENGL 650 - Studies in American Literature and Culture  
Credits: 4  
Special topics in American studies, varying from year to year. May be repeated for credit, barring duplication of topic. (Not offered every year.)  
Attributes: Writing Intensive Course  
Equivalent(s): AMST 603, AMST #604
ENGL 651 - Comparative Literature
Credits: 4
Comparative studies of major authors representative of important periods of world literary achievement. Homer to Dante; common themes and the development of the epic tradition in early Western literature. Topics and approaches vary from semester to semester. Writing intensive.
Attributes: Writing Intensive Course

ENGL 657 - Shakespeare
Credits: 4
An introduction to the main periods of Shakespeare's playwriting career, addressing representative works from each of the genres in which he wrote (tragedy, comedy, history, romance). We will discuss such matters as a Renaissance theater architecture and performance conventions, Shakespeare's poetic language, the representation of women, commoners and minorities on stage, royal power and court politics, love, sex, religion, and revenge. Live and filmed performances will be included as available. Prereq: ENGL 401.
Attributes: Writing Intensive Course
Equivalent(s): ENGL 657H

ENGL 657H - Honors/Shakespeare
Credits: 4
An introduction to the main periods of Shakespeare's playwriting career, addressing representative works from each of the genres in which he wrote (tragedy, comedy, history, romance). We will discuss such matters as a Renaissance theater architecture and performance conventions, Shakespeare's poetic language, the representation of women, commoners and minorities on stage, royal power and court politics, love, sex, religion, and revenge. Live and filmed performances will be included as available. Prereq: ENGL 401.
Attributes: Writing Intensive Course
Equivalent(s): ENGL 657

ENGL 660 - Early English Drama: From Cycles to the Globe
Credits: 4
Where did English drama get its start? On what theatrical traditions did Shakespeare and his contemporaries draw, and how did they develop them? This course examines English drama from the great religious play cycles of the Middle Ages to the theater of Renaissance London. You'll sample folk plays, staging of Biblical stories, allegorical drama, tragedies of revenge, satirical and romantic comedies, plays about London life, and deliciously lurid dramas of court intrigue. Prereq: ENGL 401.

ENGL 681 - Introduction to African Literatures in English
Credits: 4
In-depth study of writers, literary movements, political contexts, and historical pressures that have shaped and continue to shape African literatures in the colonial and postcolonial periods. Primary focus on Angolophone texts but possibly some literature in translation. Writing intensive.
Attributes: Writing Intensive Course

ENGL #685 - Women's Literary Traditions
Credits: 4
Intensive study of themes, topics, and techniques in women's literature. Topics vary from year to year. May be repeated for credit, barring duplication of topic.
Equivalent(s): ENGL #685W

ENGL #685W - Women's Literary Traditions
Credits: 4
Intensive study of themes, topics, and techniques in women's literature. Topics vary from year to year. May be repeated for credit, barring duplication of topic. Writing intensive.
Attributes: Writing Intensive Course

ENGL 690 - Introduction to African American Literature in America
Credits: 4
Selected prose, fiction, drama, and poetry. Individual works and historical-cultural background. Course varies from year to year. Writing intensive.
Attributes: Writing Intensive Course

ENGL 693 - Special Topics in Literature
Credits: 4
Attributes: Writing Intensive Course
Repeat Rule: May be repeated up to 2 times.

ENGL 694 - Special Topics in Creative Writing
Credits: 4
Courses offered under this number feature a variety of topics having to do with creative writing. Barring duplication of subject, course may be repeated for credit. For details, see the course descriptions available in the English Department.
Attributes: Writing Intensive Course
Repeat Rule: May be repeated for a maximum of 8 credits.

ENGL 701 - Advanced Fiction Writing Workshop
Credits: 4
Students come to this course with a firm grasp of all the elements of fiction, ready to write short stories that construct convincing characters in believable situations. In a workshop format, students give and receive critiques on classmates' work. Significant revisions of short stories and thorough discussions of work by published authors will round out the course as students continue to explore the art of writing the short story. Students are responsible for leading discussion of published stories. Prereq: ENGL 625 with a grade of B or better. ENGL 701 may be taken more than once for credit, recommended with two different instructors.
Attributes: Writing Intensive Course
Repeat Rule: May be repeated for a maximum of 8 credits.

ENGL #703 - Travel Writing
Credits: 4
A workshop devoted to reading and writing and writing narratives of place. Travel writing requires the author to research and reflect, exploring both the external—the place—and the internal—the author's experience. Students write multiple travel pieces and read widely essays of place by writers such as John Steinbeck, Joan Didion, Pico Iyer and Eliza Griswold. Permission of instructor required. Prereq: ENGL 501, ENGL 621 or ENGL 623.
Attributes: Writing Intensive Course
ENGL 703T - Travel Writing
Credits: 4
A workshop devoted to reading and writing and writing narratives of place. Travel writing requires the author to research and reflect, exploring both the external—the place—and the internal—the author's experience. Students write multiple travel pieces and read widely essays of place by writers such as John Steinbeck, Joan Didion, Pico Iyer and Eliza Griswold. Permission of instructor required. Prereq: ENGL 501, ENGL 621 or ENGL 623.
Co-requisite: INCO 589
Attributes: Writing Intensive Course
Equivalent(s): ENGL #703

ENGL #705 - Advanced Poetry Writing Workshop
Credits: 4
Workshop discussion of advanced writing problems and submitted poems. Individual conferences with instructor. Prereq: ENGL 627 with a grade of B or better. ENGL #705 may be taken more than once for credit, especially with two different instructors. Student may be repeat ENGL #705 up to a maximum of 8 credits.
Attributes: Writing Intensive Course
Repeat Rule: May be repeated for a maximum of 8 credits.

ENGL #708 - Nonfiction: Form and Technique
Credits: 4
A writer's view of contemporary nonfiction, emphasizing the choices the writer faces in the process of research writing. (Not offered every year).
Attributes: Writing Intensive Course

ENGL #709 - Poetry: Form and Technique
Credits: 4
A writer's view of the problems, traditions, and structures of poetry. Writing intensive.
Attributes: Writing Intensive Course

ENGL 710 - Teaching Writing
Credits: 4
This course will introduce you both to the theories and practices of teaching writing in middle and high school at a time of increased accountability. The course is designed for students who are interested in exploring teaching as a possible career. In the course we will try out varied literacy activities and study teaching writing using a process approach. We discuss different approaches to planning instruction and various forms of writing assessment, including state-wide tests. Open to juniors and seniors only. Writing intensive.
Attributes: Writing Intensive Course

ENGL 711 - Editing
Credits: 4
Emphasis on newspaper editing but principles applicable to magazine and book editing are also covered. Prereq: B or better in ENGL 621 and written permission of instructor.
Attributes: Writing Intensive Course

ENGL 712 - Multimedia Storytelling
Credits: 4
In this course, students explore the theory and practice of visual storytelling – including composition, lighting, editing and more – to produce short yet vibrant journalistic video documentaries. Students learn to shoot and edit audio and video. They explore narrative techniques and structure. They broaden their reportorial range, bringing visual sensitivity to storytelling. Prereq: ENGL 621 and ENGL 631 and permission of the instructor.
Attributes: Writing Intensive Course
Equivalent(s): ENGL 721

ENGL 714 - Critical Approaches to Literature
Credits: 4
A follow-up to ENGL 419, this course provides training in critical analysis of various texts (literature, film, and media) using different theoretical approaches like feminism, post-colonial theory, deconstruction, research, writing, and analytic skills at an advanced level. Meets the Theory Requirement for the English Literature Major, may be taken for elective credit by English Teaching Majors. Prereq: ENGL 419 or equivalent. FR excluded.
Attributes: Writing Intensive Course

ENGL 715 - Teaching English as a Second Language: Theory and Methods
Credits: 4
A course on the linguistic, psychological, and sociological theories that inform our understanding of language acquisition and current best practices in the teaching of ESOL. Provides an overview of first and second language acquisition, bilingualism, learner individual differences (e.g., age, motivation, aptitude, learning strategies), and sociocultural contexts of ESL teaching and learning.
Attributes: Writing Intensive Course

ENGL 716 - Curriculum, Materials and Assessment in English as a Second Language
Credits: 4
A hands-on approach to developing curriculum and course material for teaching English as a Second Language. Students work on lesson plan development (needs analysis, objective writing, task sequencing, assessment of proficiency and objective), conduct ESL classroom observations, and engage in teaching demonstrations.
Attributes: Writing Intensive Course

ENGL 717 - Languages in Contact
Credits: 4
This course will explore topics related to languages in contact, including borrowing, code-switching, second language acquisition, bilingual mixed languages, language shift and maintenance, pidgins and creoles, and the linguistic and social factors which play a role in language contact. Prereq: ENGL 405 or LING 405.
Attributes: Writing Intensive Course

ENGL 718 - Morphology
Credits: 4
Morphology is the study of word formation and the mental lexicon. This course explores processes of derivation, compounding and inflection that allow us to form new words. Students will become proficient in analyzing word formation processes in English and other languages, including deploying terminology used by morphologists. Students will learn and practice the conversations of "writing like a linguist". Prereq: ENGL 405 or LING 405.
Attributes: Writing Intensive Course

ENGL 719 - Sociolinguistics Survey
Credits: 4
How language varies according to the characteristics of its speakers: age, sex, ethnicity, attitude, time, and class. Quantitative analysis methods; relationship to theoretical linguistics. Focus is on English, but some other languages are examined. Prereq: ENGL or LING 405 (previously numbered 505) or permission.
Equivalent(s): LING 719
ENGL 720 - Journalism Internship
Credits: 1-16
Students intending to pursue careers in journalism spend a semester working full or part time, reporting and writing, editing or producing content for a news organization. Prereq: ENGL 621 with a B or better, ENGL 631 and permission of the ENGL 631 instructor.
Attributes: Writing Intensive Course

ENGL 721 - Advanced Reporting
Credits: 4
While the theme of this course is teaching students advanced techniques of writing and reporting, each semester the course is offered it focuses on different areas of journalism. One semester, students may learn multimedia reporting - storytelling across multiple platforms, including video and audio - and in other semesters the course may focus on sportswriting. Yet in others, students will develop their news reporting skills. The course may be taken multiple times for credit with the approval of the Journalism Program Director. Prereq: 'B' or better in ENGL 621 and written permission of instructor.
Attributes: Writing Intensive Course
Repeat Rule: May be repeated for a maximum of 12 credits.

ENGL 722 - Feature Writing
Credits: 4
An intermediate workshop that asks students to report in greater depth and experiment with different storytelling methods. Prereq: B or better in ENGL 621 and permission of the instructor.
Attributes: Writing Intensive Course

ENGL 723 - Issues in Journalism
Credits: 4
This upper-level seminar focuses on the shifts in technology and public perception that are changing the definition of excellence in journalism. Special attention to legal and ethical issues reshaping journalism's public service role. Prereq: Grade of B in ENGL 621 and written permission. May be repeated once for credit with permission of the journalism director.
Attributes: Writing Intensive Course
Repeat Rule: May be repeated for a maximum of 8 credits.

ENGL 724 - Sports Writing
Credits: 4
This class immerses students in all aspects of professional sports writing. Using in-class and real-world assignments, the class exposes students to such practical applications as covering live events; feature writing; covering breaking news; column writing/blogging; and writing a running game story on a real-time deadline. Prereq: ENGL 621 Newswriting with a 'B' or better.

ENGL 725 - Seminar in English Teaching
Credits: 4
In this seminar on teaching English at the middle- and secondary-school levels, students meet the requirements for both English 710, Teaching Writing and English 792, Teaching Secondary School English. The two-semester course integrates the teaching of reading, writing, speaking, and listening, addressing both theoretical and practical issues. Through the study of different approaches, students develop their own philosophies of instruction. Writing intensive.
Attributes: Writing Intensive Course

ENGL 725L - Seminar in English Teaching: Lab
Credits: 2
Classroom and research lab experiences give English Teaching majors enrolled in the Seminar in English Teaching opportunities to put their pedagogical and theoretical readings into practice and grow as teachers. This Lab should be taken simultaneously with ENGL 725. Students must have JR or SR status at the start of the course. Permission of instructor required.
Co-requisite: ENGL 725
Equivalent(s): ENGL 810S

ENGL 726 - Seminar in English Teaching
Credits: 4
In this seminar on teaching English at the middle- and secondary-school levels, students meet the requirements for both English 710, Teaching Writing and English 792, Teaching Secondary School English. The two-semester course integrates the teaching of reading, writing, speaking, and listening, addressing both theoretical and practical issues. Through the study of different approaches, students develop their own philosophies of instruction. Writing intensive.
Attributes: Writing Intensive Course

ENGL 726L - Sem in English Teaching: Lab
Credits: 2
Classroom and research lab experiences give English Teaching majors enrolled in the Seminar in English Teaching opportunities to put their pedagogical and theoretical readings into practice and grow as teachers. This lab should be taken simultaneously with ENGL 726. Students must have JR or SR status at the start of the course. Permission of instructor required.
Co-requisite: ENGL 726
Equivalent(s): ENGL 892S

ENGL 727 - Issues in Second Language Writing
Credits: 4
Study of various issues in second language writing theory, research, instruction and administration. Topics include the characteristics and needs of second language writers, second language writing processes, contrastive rhetoric, grammar instruction, teacher and peer feedback, assessment, course design and placement. Writing intensive.
Attributes: Writing Intensive Course

ENGL 729 - Special Topics in Composition Studies
Credits: 4
Advanced course on a topic chosen by the instructor. Precise topics and methods of each section vary. Possible topics include alternative discourses and rhetorics, contrastive rhetoric, electronic discourse and digital rhetoric, women's rhetorics and feminist pedagogies, Montaigne and the essay tradition, theories of literacy, theories of persuasive writing, theories of transactional writing, and written discourse analysis. Barring duplication of subject, may be repeated for credit. For details see descriptions available in the English Department. Writing intensive when topic is studies in rhetoric and composition.

ENGL 730 - Practicum in Teaching English and the Language Arts
Credits: 1-6
A site-based course for practicing teachers that features in-class observations and demonstrations, individual consultation, and group meetings in the schools. Prereq: permission.
Repeat Rule: May be repeated for a maximum of 8 credits.
Equivalent(s): ENGL 921
ENGL #732 - Folklore and Folklife
Credits: 4
Examines the materials and methods used to study folklore, emphasizing the historical context and development of folklore studies in North America and Europe, field research, performance theory, and other topics. (Also offered as ANTH #698.) Writing intensive.
Attributes: Writing Intensive Course
Equivalent(s): ANTH #698

ENGL 733 - Special Studies in Film
Credits: 4
Specialized and advanced study in film and cinema studies. Topics vary and may include literature and film, Asian-American film, film genres, and advanced film theory. May be repeated once for credit as long as topics are different. Special fee.
Repeat Rule: May be repeated for a maximum of 8 credits.
Equivalent(s): ENGL 733W

ENGL 733W - Special Studies in Film
Credits: 4
Specialized and advanced study in film and cinema studies. Topics vary and may include literature and film, Asian-American film, film genres, and advanced film theory. May be repeated once for credit as long as topics are different. Special fee. Writing intensive.
Attributes: Writing Intensive Course
Repeat Rule: May be repeated for a maximum of 8 credits.
Equivalent(s): ENGL 733

ENGL 734 - Special Topics in Literary Theory
Credits: 4
Covers various topics dealing with diverse issues in literary and cultural theory. Prerequisite ENGL 619 or equivalent theory/philosophy class. Offered irregularly. For a specific description see English course offerings. Only open to English majors.

ENGL 735 - Entrepreneurial Journalism
Credits: 4
This course teaches journalism students to think like business people so they can compete in the exploding world of online publishing. Students work on ways to monetize good journalism practices by studying opportunities available and applying what they learn to a publishing project. Those who prefer print will find the course valuable as they learn to balance business objectives with quality journalism. Prereq: ENGL 621 with a B or better and written permission of the instructor. Writing intensive.
Attributes: Writing Intensive Course

ENGL 736 - Environmental Theory
Credits: 4
Theoretical approaches to nature writing. Topics vary but may include eco-memos, environmental rhetoric, native peoples and the land, land and national identity, animals in literature, and environmental activist non-fiction. May be repeated for credit if topic differs.
Attributes: Writing Intensive Course
Repeat Rule: May be repeated for a maximum of 8 credits.

ENGL 738 - Topics in Asian American Studies
Credits: 4
Study of the literature, history, scholarship, and current thought by and about Asian America. Representative works from among Japanese Americans, Chinese Americans, Korean Americans, Southeast Asian Americans, and South Asian Americans. (Also listed as AMST 615.) Writing intensive.
Attributes: Writing Intensive Course
Equivalent(s): AMST 615

ENGL 739 - American Indian Literature
Credits: 4
Close study of traditional and/or contemporary American Indian literature and folklore with historical and cultural background. Writing intensive.
Attributes: Writing Intensive Course

ENGL #740 - Indigenous New England
Credits: 4
An interdisciplinary introduction to the literatures, histories, and cultures of indigenous people located in what is now called New England. Course topics may include U.S. American Indian policy, tribal government structures and resistance, the history and forms of indigenous literacy, contemporary sovereignty struggles, popular culture, and film. Curricular activity with regional Native people required such as a visit to a Native community, work with tribal guest speakers, participation in a lecture or film series. (Also offered as AMST 611.) Writing intensive.
Attributes: Writing Intensive Course
Equivalent(s): AMST 611, AMST 650

ENGL 741 - Literature of Early America
Credits: 4
English writings from settlement through the early U.S. (up to 1800): the literature of exploration, conquest, and cross-cultural contact; Puritan sermons, poetry, and a trial; captivity narratives; Native American writings; Enlightenment-era autobiographies, slave narratives, political writing, and fiction. These texts raise crucial issues: religion and violence; settler colonialism; New World race and gender constructions; and the social/textual constructions of nationhood. Prereq: ENGL 401.
Attributes: Writing Intensive Course

ENGL 742 - American Literature, 1815-1865
Credits: 4
Antebellum writers tried to shape the nation through their texts, as they expressed the struggles over power and identity that led to the Civil War — and that continue to define U.S. discourses today. We encounter the genres — novels, oratory, poetry, appeals, slave narratives, essays, and nature writing — that authors used to grapple with slavery, social reform, environmental transformation, and aesthetics. Writers may include William Apess (Pequot), Margaret Fuller, Edgar Allan Poe, Frederick Douglass, and Emily Dickinson. Prereq: ENGL 401.
Attributes: Writing Intensive Course

ENGL #743 - American Literature, 1865-1915
Credits: 4
Fiction, nonfiction, and poetry in the period of realism, naturalism, industrialism, big money. Individual works and background. Writing intensive.
Attributes: Writing Intensive Course

ENGL #744 - American Literature, 1915-1945
Credits: 4
Fiction, poetry, and drama in the period of avant-garde and leftism, jazz age, and Depression. Individual works and cultural background. Writing intensive.
Attributes: Writing Intensive Course

ENGL 745 - Contemporary American Literature
Credits: 4
A gathering of forms, figures, and movements since 1945. Individual works and cultural background. Writing intensive.
Attributes: Writing Intensive Course
ENGL 746 - Studies in American Drama
Credits: 4
Topics vary from year to year. Examples: 20th-century American drama; contemporary playwrights; theatricality in American life. May be repeated for credit, barring duplication of topic. (Not offered every year.)
Attributes: Writing Intensive Course

ENGL 401. 

ENGL 771 - English Victorian Period
Credits: 4
Major literary trends and authors, 1798 to 1832. Focus on poetry but attention also to prose works and critical theories. Wordsworth, Coleridge, Lamb, Hazlitt, DeQuincey. (Not offered every year.) Writing intensive.
Attributes: Writing Intensive Course

ENGL 758 - Advanced Shakespeare
Credits: 4
This course offers an in-depth look at a few Shakespeare plays, which you'll study intensively through the lens of a single topic. Topics vary from semester to semester. Recent examples include Shakespeare on Screen, Shakespeare and Race, Shakespeare's History Plays, Unknown Shakespeare, and Shakespearean Tragedy. Live and filmed performances will be included as available. Prereq: ENGL 401.
Attributes: Writing Intensive Course

ENGL 759 - Milton
Credits: 4
Milton and his age. Generous selection of Milton's prose and poetry, with secondary readings of his sources and contemporaries. (Not offered every year.) Writing intensive.
Attributes: Writing Intensive Course

ENGL 767 - Literature of the Restoration and Early 18th Century
Credits: 4
The English "Restoration" (roughly 1660-1688) was a comparatively free-spirited time following a decade of dogmatic and intolerant evangelical Christian rule. This course studies a variety of literary genres and academic disciplines, the opening of theaters and women performing on stage for the first time, the beginnings of the media, and the rise of scientific Enlightenment. Works by John Dryden, Aphra Behn, Jonathan Swift, and others. Prereq: ENGL 401.
Attributes: Writing Intensive Course

ENGL 768 - Literature of the Later 18th Century
Credits: 4
Examines the economic, religious, and political preconditions necessary for the development of imperial Britain while analyzing how the material conditions of slavery and colonialism effectively underwrote the new British identity and literary world of the period. Explores the tension between reason and emotion characteristic of the Enlightenment. Works by Jane Austen, Olaudah Equiano, Mary Wollstonecraft, William Blake, Adam Smith, Edmund Burke, Thomas Paine, and others. Prereq: ENGL 401.
Attributes: Writing Intensive Course

ENGL 750 - Special Studies in American Literature
Credits: 4
Topics vary from year to year. Examples: the Puritan heritage, ethnic literatures in America, landscape in American literature, five American lives, pragmatism, American humor, transcendentalism, women regionalists. May be repeated for credit, barring duplication of topic.
Attributes: Writing Intensive Course

ENGL 751 - Medieval Epic and Romance
Credits: 4
The two major types of medieval narrative; comparative study of works from England, France, Germany, and Iceland, including Beowulf, Song of Roland, the Nibelungenlied, Njal's Saga, and Malory's Morte d'Arthur. All works read in modern English translations. (Not offered every year.) Writing intensive.
Attributes: Writing Intensive Course

ENGL 752 - History of the English Language
Credits: 4
Evolution of English from the Anglo-Saxon period to the present day. Relations between linguistic change and literary style. (Not offered every year.) Writing intensive.
Attributes: Writing Intensive Course

ENGL 753 - Old English
Credits: 4
Introduction to Old English language and literature through the reading of selected poetry and prose.

ENGL 756 - Chaucer
Credits: 4
The Canterbury Tales in its original language. Writing intensive.
Attributes: Writing Intensive Course
ENGL 773 - Literary Modernisms: Return, Revolt, Recycle
Credits: 4
This course focuses on modernist writers such as T.S. Eliot, who sought to revitalize modern culture by looking backward to the past; Virginia Woolf, who experimented with the form of the novel; and performance artist Kabê Wilson, who recycles texts of high modernism. We explore modernist literature in its geopolitical contexts with special attention to imperial expansion and contraction, the rise of fascism, world wars, and struggles for suffrage, and national belonging. Prereq: ENGL 401.
Attributes: Writing Intensive Course

ENGL 774 - Modern & Contemporary British Literature: New Departures
Credits: 4
This course celebrates the growing diversity of British literature over the past half century. These years witnessed the final breakup of the British empire, a civil war in Northern Ireland, the rise of Scottish nationalism, and an influx of immigrants from former colonies worldwide. Beginning with the "little Englander" attitudes of the postwar era, we will explore the emergence of postmodern and postcolonial Britain in fiction, graphic narrative, poetry, drama, film and performance. Prereq: ENGL 401.
Attributes: Writing Intensive Course

ENGL 775 - Modern Irish Literature: A Changing Landscape
Credits: 4
In this course we will explore Irish literature and culture from the Celtic Renaissance in the early twentieth century to the Celtic Tiger of the early twenty-first. Readings will trace Ireland's transformation from an inward-looking agricultural nation to one of the most globalized countries in the world. Recurring themes will include the status of the Church, changing gender roles, sectarian conflict, and Ireland's relation to the world. Prereq: ENGL 401.

ENGL 777 - The English Novel in the World
Credits: 4
Novels written in English from Asia and Africa during the mid-twentieth century to the present day. We will discuss shifts from realism to magical realism and back; domestic, historical and speculative fiction; narratives of the rise of new nations and nationalism; experiences of exile and migration; the 'global' city; transnational cultural exchanges and networks that dismantle assumed civilizational boundaries. Newer novels offer opportunities to understand how literary narratives grasp ecological destruction, animal extinction, and human responsibility.
Attributes: Writing Intensive Course

ENGL 778 - Race and Gender in Film and Popular Culture
Credits: 4
This course explores representations of race and gender in American cinema and popular culture and features weekly readings in contemporary race and gender theories. Topics include the black women's gaze; woman as object; the action hero and hyper-masculinity; hybridity; race/ethnicity and hypersexuality; the crisis of white masculinity; white privilege; sexual orientation; transsexual and transgender performance. This course is reading and Canvas intensive, requiring weekly writing assignments and papers. It is NOT writing intensive.
Attributes: Writing Intensive Course

ENGL 779 - Linguistic Field Methods
Credits: 4
Study of a non-Indo-European language by eliciting examples from an informant, rather than from written descriptions of the language. Students learn how to figure out the grammar of a language from raw data. Prereq: ENGL 405/LING 405. (Also offered as LING 779). (Not offered every semester).
Attributes: Writing Intensive Course
Equivalent(s): LING 779

ENGL 780 - Drama of Shakespeare's Contemporaries: Will and Company
Credits: 4
Who were Shakespeare's contemporaries in the London theater, his models and mentors, his competitors, compatriots and rivals? Read the plays of those who inspired, fought with, befriended, and followed Shakespeare in one of the great eras of English literature. We’ll discuss the development of revenge tragedy, histories and comedy, new styles of acting and theater buildings, presentations of court intrigue, the representation of women and "others," and the changing mores of early London. Prereq: ENGL 401.
Attributes: Writing Intensive Course

ENGL 781 - English Drama, 1660-1800
Credits: 4
Study of the selected plays, their performance and their publication. Works by such figures as William Wycherley, Thomas Otway, Mary Pix, George Lillo, Susanna Centlivre, Richard Sheridan, and Elizabeth Inchbald. Special attention to the new prominence of women in the drama of this period, changes in theatre architecture, forms of non-dramatic spectacle, and the political and social significance of drama. Writing intensive.
Attributes: Writing Intensive Course

ENGL 783 - English Novel of the 18th Century
Credits: 4
Study of the rise and development of the novel in the eighteenth century. Works by such figures as Daniel Defoe, Eliza Haywood, Samuel Richardson, Henry Fielding, Charlotte Lennox, Laurence Sterne, Frances Burney, and Jane Austen. Focus on writers who published their work in England but with examples from the colonial world and the continent (in translation) when appropriate. Writing intensive.
Attributes: Writing Intensive Course

ENGL 784 - English Novel of the 19th Century
Credits: 4
The highly popular novels of nineteenth-century Britain produced such memorable characters as Sherlock Holmes, Count Dracula, Alice in Wonderland, Frankenstein's monster, and Dr. Jekyll. The novel's literary engagements with science, love, and the city are entangled with cultural discourses on animals, monstrosity, supernaturalism, degeneration, empire, race, and crime. In this course, students will sample a set of novels that exemplify the distinct generic and thematic innovations of the period. Prereq: ENGL 401.
Attributes: Writing Intensive Course

ENGL 785 - Fabulous Feminists, Women Warriors, Women Worriers
Credits: 4
Literature and criticism by and about women writers, queer writers, gender issues, and literary history. Selection of writers and genres will vary by instructor and year (check English course description online at time of pre-registration). Prereq: ENGL 401.
Attributes: Writing Intensive Course
ENGL 787 - English Major Seminar
Credits: 4
Intensive study of specialized topics that vary from year to year. Enrollment in each seminar is limited to 15 so that all students can take an active part in discussion and work closely with the instructor on their papers. For details, see course description available in the department office. Prereq: ENGL 419 with a grade of B or better. This course may be repeated for credit with the approval of the English Department.
Attributes: Writing Intensive Course
Repeat Rule: May be repeated for a maximum of 8 credits.
Equivalent(s): ENGL 697, ENGL 698

ENGL 788 - Senior Honors
Credits: 4
Open to senior English majors who, in the opinion of the department, have demonstrated the capacity to do superior work; permission required. An honors project consists of supervised research leading to a substantial thesis or writing of poetry or fiction portfolio. Required of students in the honors in major program. (Not offered every year.) Writing intensive.
Attributes: Writing Intensive Course
Equivalent(s): ENGL 695, ENGL 696

ENGL 789 - Special Topics in English Teaching
Credits: 4
Advanced theories and practices course on English Teaching. Topics such as A) Teaching Young Adult Literature, C) Teaching English in Diverse Contexts, D) Teaching Drama, N) Teaching Nonfiction, R) English Teachers as Researchers, and T) Alternate Literacies and Teaching Technologies. Barring duplication of subject, course may be repeated for credit. For details see course descriptions available in the English department.
Attributes: Writing Intensive Course
Repeat Rule: May be repeated for a maximum of 8 credits.

ENGL 790 - Special Topics in Linguistics
Credits: 4
Advanced course on a topic chosen by the instructor. Inquire at the English department office for a full course description each time the course is offered. Topics such as word formation, dialectology, linguistic theory and language acquisition, history of linguistics, language and culture, cross-disciplinary studies relating to linguistics. Barring duplication of subject, may be repeated for credit. (Also offered as LING 790.) Writing intensive.
Attributes: Writing Intensive Course
Equivalent(s): ENGL 695, ENGL 696

ENGL 791 - English Grammar
Credits: 4
An introduction to the terminology and major concepts in English grammar. Covers descriptive vs. prescriptive grammar, parts of speech, phrase structure, clause types, and basic sentence patterns. Useful for pre-service teachers seeking to acquire the background knowledge needed to make informed decisions about teaching of English grammar.
Attributes: Writing Intensive Course

ENGL 792 - Teaching Literature and Literacy
Credits: 4
This course introduces theories and practices of teaching literature and literacy, including teaching reading and writing as well as teaching literary analysis at the secondary level. Students also learn to plan lessons, choose texts, and create learning activities for speaking, listening, and viewing in grade five through twelve. The course is designed for students who are interested in teaching as a possible career.
Attributes: Writing Intensive Course

ENGL 793 - Phonetics and Phonology
Credits: 4
The sound system of English and other languages as viewed from the standpoint of modern linguistic theory, including the following topics: the acoustic and articulatory properties of speech sounds, the phonemic repertoires of particular languages, phonological derivations, and prosodic phenomena such as stress and intonation. (Also offered as LING 793.) Prereq: a basic linguistics course or permission.
Equivalent(s): LING 793

ENGL 794 - Syntax
Credits: 4
Relationship of grammar and meaning as viewed from the standpoint of modern linguistic theory. Emphasizes the syntax and semantics of English, with special attention to the construction of arguments for or against particular analyses. (Also offered as LING 794.) Prereq: a basic linguistics course or permission of the instructor. Writing intensive.
Attributes: Writing Intensive Course
Equivalent(s): LING 794

ENGL 795 - Independent Study
Credits: 1-4
Open to highly qualified juniors and seniors. To be elected only with permission of the department chairperson and of the supervising faculty member or members. Barring duplication of subject, may be repeated.
Attributes: Writing Intensive Course
Repeat Rule: May be repeated for a maximum of 8 credits.

ENGL 796 - The Internship Experience
Credits: 4
Students will work with their peers to establish a personal definition of professionalism in their respective fields; they will read, critically analyze, and discuss articles covering a wide variety of topics, including writing at work, intended audiences, ethics in writing, navigating a difficult work environment or situation, and strategies for professional development. Class sessions in a discussion format, intended to be flexible and to directly support the changing needs of writing in the workplace. Students, along with their supervisors, will create their own learning objectives and evaluation tools. Students will write about their experiences at the end of term. Prereq: ENGL 419 and minimum GPA of 3.0. Not open to students with FR or SO status. Not open to English/Journalism or English Teaching majors.
Equivalent(s): ENGL 695

ENGL 797 - Special Studies in Literature
Credits: 4
Attributes: Writing Intensive Course
Repeat Rule: May be repeated for a maximum of 8 credits.
ENGL 799 - Study Abroad in Cambridge England  
Credits: 0  
UNH Cambridge Summer Program at Gonville & Caius College of Cambridge University in Cambridge, England. This course number is a place-holder. Students register for both this administrative course number and two of the courses being offered through the program. These courses will vary from year to year. To view the courses offered visit http://www.unh.edu/cambridge. Permission required. Special fee. Ct/F.  
Co-requisite: ENGL 799

Attributes: World Cultures(Discovery)

ENGL 799A - Study Abroad in Cambridge England Bonus Weekend  
Credits: 0  
UNH Cambridge Summer Program Bonus Weekend excursion. This course is a place-holder. Location may change from year to year. To view Bonus Weekend description and location visit http://www.unh.edu/cambridge. Permission required. Special fee.  
Co-requisite: ENGL 799

English/Speakers of Other Languages (ESL)

# Course numbers with the # symbol included (e.g. #400) have not been taught in the last 3 years.

ESL 410 - Elementary Reading, Writing, Grammar  
Credits: 4-12  
Intensive English, with a focus on reading and writing, for English language learners at an elementary level. Students will develop a basic vocabulary in English and sufficient proficiency in the language to conduct essential business in an English-speaking environment. Permission required.  
Repeat Rule: May be repeated for a maximum of 8 credits.

ESL 411 - Speaking and Listening, Elementary Level  
Credits: 2-8  
Intensive English, with a focus on speaking and listening, for English language learners at an elementary level. Students will develop a basic vocabulary in English and sufficient proficiency in the language to conduct essential business in an English-speaking environment. Permission required.  
Repeat Rule: May be repeated for a maximum of 8 credits.

ESL 420 - Intermediate Reading, Writing, Grammar  
Credits: 4-12  
Intensive English, with a focus on reading and writing, for English language learners at an intermediate level. Students will expand their vocabulary and develop sufficient English proficiency to communicate with English speakers who have little experience with English language learners. Permission required.  
Repeat Rule: May be repeated for a maximum of 8 credits.

ESL 421 - Intermediate Listening and Speaking  
Credits: 2-8  
Intensive English, with a focus on speaking and listening, for English language learners at an intermediate level. Students will expand their vocabulary and develop sufficient English proficiency to communicate with English speakers who have little experience with English language learners. Permission required.  
Repeat Rule: May be repeated for a maximum of 8 credits.

ESL 430 - Advanced Reading, Writing, Grammar  
Credits: 4-12  
Intensive English, with a focus on reading and writing, for English language learners at an advanced level. Students will develop an extensive vocabulary in English, facility with complex sentence structures, and an ability to write coherent, comprehensible essays in English. Permission required.  
Repeat Rule: May be repeated for a maximum of 8 credits.

ESL 431 - Advanced Listening and Speaking  
Credits: 2-8  
Intensive English, with a focus on speaking and listening, for English language learners at an advanced level. Students will develop an extensive vocabulary in English and sufficient English proficiency to function successfully in American university courses that do not rely heavily on language. Permission required.  
Repeat Rule: May be repeated for a maximum of 8 credits.

ESL 434 - High Advanced Integrated Skills  
Credits: 2-8  
Intensive English with a focus on incorporating, analyzing, and synthesizing information from lectures and readings into academic writing. This course is intended for students whose skills are uneven in the reading, writing, listening, and speaking modalities. Students enrolled in ESL 434/ESL 634 will be simultaneously enrolled in ESL 430/ESL 630 or ESL 431/ESL 631. Permission required. Special fee.  
Repeat Rule: May be repeated for a maximum of 8 credits.

ESL 440 - English as a Second Language Bridge Program  
Credits: 4-8  
This course is intended for speakers of other languages who have already achieved a 500 score on the TOEFL (or an equivalent score on another standardized test of English proficiency). Students will learn to read academic materials, write coherent essays on academic topics, and participate in group work and class discussion. Students enrolled in ESL 440/ESL 640 are also eligible to enroll in one University of New Hampshire course. Permission required.  
Repeat Rule: May be repeated for a maximum of 8 credits.

ESL 445 - Introduction to US Academic Culture  
Credits: 4  
This course will introduce students to the academic expectations, resources, policies and traditions of university life in the US and serve as an ongoing orientation to the University of New Hampshire. The course is designed to help new international students adjust to college life, establish skills that will help them be successful through their transition into their academic program and develop a sense of belonging and engagement with all the university has to offer.

ESL 450 - Academic English for English as a Second Language Students  
Credits: 4  
This course is intended for speakers of other languages who have already achieved a score of 525 or higher on the TOEFL (or an equivalent score on another standardized test of English language proficiency). Students will learn to read academic materials, do basic library research, write short papers in standard academic form, understand academic lectures, and participate in group work and class discussion. Writing Intensive. Students enrolled in ESL 450/ESL 650 are also eligible to enroll in two University of New Hampshire courses. Permission required. Special fee.  
Repeat Rule: May be repeated for a maximum of 8 credits.
ESL 430 - Advanced Reading, Writing, Grammar
Credits: 4-12
Intensive English, with a focus on reading and writing, for English language learners at an advanced level. Students will develop an extensive vocabulary in English, facility with complex sentence structures, and an ability to write coherent, comprehensible essays in English. Permission required.
Repeat Rule: May be repeated for a maximum of 8 credits.

ESL 431 - Advanced Listening and Speaking
Credits: 2-8
Intensive English, with a focus on speaking and listening, for English language learners at an advanced level. Students will develop an extensive vocabulary in English and sufficient proficiency in the language to conduct essential business in an English-speaking environment. Permission required.
Repeat Rule: May be repeated for a maximum of 8 credits.

ESL 434 - High Advanced Integrated Skills
Credits: 2-8
Intensive English with a focus on incorporating, analyzing, and synthesizing information from lectures and readings into academic writing. This course is intended for students whose skills are uneven in the reading, writing, listening, and speaking modalities. Students enrolled in ESL 434/634 will be simultaneously enrolled in ESL 430/ESL 630 or ESL 431/ESL 631. Permission required. Special fee.
Repeat Rule: May be repeated for a maximum of 8 credits.

ESL 630 - Advanced Reading, Writing, Grammar
Credits: 4-12
Intensive English, with a focus on reading and writing, for English language learners at an advanced level. Students will develop an extensive vocabulary in English, facility with complex sentence structures, and an ability to write coherent, comprehensible essays in English. Permission required.
Repeat Rule: May be repeated for a maximum of 8 credits.

ESL 631 - Advanced Listening and Speaking
Credits: 2-8
Intensive English, with a focus on speaking and listening, for English language learners at an advanced level. Students will develop an extensive vocabulary in English and sufficient English proficiency to communicate with English speakers who have little experience with English language learners. Permission required.
Repeat Rule: May be repeated for a maximum of 8 credits.

ESL 640 - English as a Second Language Bridge Program
Credits: 4-8
This course is intended for speakers of other languages who have already achieved a 500 score on the TOEFL (or an equivalent score on another standardized test of English proficiency). Students will learn to read academic materials, write coherent essays on academic topics, and participate in group work and class discussion. Students enrolled in ESL 440/ESL 640 are also eligible to enroll in one University of New Hampshire course. Permission required.
Repeat Rule: May be repeated for a maximum of 8 credits.

ESL 645 - Introduction to US Academic Culture
Credits: 4
This course will introduce students to the academic expectations, resources, policies and traditions of university life in the US and serve as an ongoing orientation to the University of New Hampshire. The course is designed to help new international students adjust to college life, establish skills that will help them be successful through their transition into their academic program and develop a sense of belonging and engagement with all the university has to offer.

ESL 650 - Academic English for English as a Second Language Students
Credits: 4
This course is intended for speakers of other languages who have already achieved a score of 525 or higher on the TOEFL (or an equivalent score on another standardized test of English language proficiency). Students will learn to read academic materials, do basic library research, write short papers in standard academic form, understand academic lectures, and participate in group work and class discussion. Writing Intensive. Students enrolled in ESL 450/ESL 650 are also eligible to enroll in two University of New Hampshire courses. Permission required. Special fee.
Repeat Rule: May be repeated for a maximum of 8 credits.

Environmental & Resource Economics (EREC)

# Course numbers with the # symbol included (e.g. #400) have not been taught in the last 3 years.

EREC 411 - Environmental and Resource Economics Perspectives
Credits: 4
Microeconomic theory and analysis in resource management and use decisions. Survey of significant resource problems from an economic perspective and the application of economic analysis.
Attributes: Social Science (Discovery)
Mutual Exclusion: No credit for students who have taken ECN 412, ECON 402, ECON 402A, ECON 402H.

EREC 444 - The New Pirates of the Caribbean
Credits: 4
Inquiry into many facets of tourism from the standpoint of tourists and tour destination. Economic and institutional factors affecting human well-being from the use of land and water resources; discussions of distributitional aspects of benefits from tourism activities; environmental impacts; ownership patterns and uses; cultural attributes; and local economies in small Caribbean island nations. Cruise ships, time-shares, all-inclusive resorts, hurricanes, casinos, bars, rum, sex, and drugs are investigated through extensive readings and web surfing.
Attributes: World Cultures(Discovery); Inquiry (Discovery); Writing Intensive
EREC 525 - Statistical Methods and Applications
Credits: 4
Applications of elementary statistical concepts and methods including probability, descriptive techniques, statistical inference and bivariate and multivariate statistical analysis. Orientation is toward analysis and interpretation of data commonly encountered in social science disciplines.
Attributes: Quantitative Reasoning(Disc)
Mutual Exclusion: No credit for students who have taken ADM 430, ADMN 420, BIOL 528, HHS 540, MATH 439, MATH 539, MATH 644, PSYC 402, PSYC 402H, SOC 402, SOC 402H, SOC 502, SOC 502H.

EREC 535 - Being a Locavore
Credits: 4
Explores the growth of the Locavore movement in the United States, starting with the evolution of the mainstream agricultural system. Topics such as the Agricultural Adjustment Act, farm subsidies, the development of mono-culture large scale farms, as well as the Magnuson-Stevens Act and the current state of fisheries. Ethical, economic, and social phenomenon will be discussed, followed by nutrition, and environmental impacts. Students will keep a food journal, which will be used as a basis to source, budget, and plan for years of eating local food. The class concludes with an investigation into the growing trend of local farmers’ markets, CSAs, and on farm sales. How and why more and more people are going local and perhaps becoming "Locavores".
Attributes: Social Science (Discovery)

EREC 572 - Introduction to Natural Resource Economics
Credits: 4
Introduces theory, methods of analysis, and current literature of natural resource economics and policy. Topics include multiple use, taxation, optimal harvest scheduling, market failure, property rights, public goods, benefit-cost analysis, amenity values, non-market resource services and natural resource policy. Topics applied to forests and forestry, wildlife management, outdoor recreation, public lands, agriculture, fisheries, water, energy and mining/nonrenewable resources.

EREC 595 - Problems in Natural and Agricultural Resources
Credits: 2-4
Students pursue field, laboratory, or library problems in natural and environmental resources that are not covered by other courses. Faculty consultant and study topic must be chosen before registration. In consultation with the faculty adviser, students select the problem area, create a bibliography for reflection, and pursue the topic. A professionally written paper is expected at termination of the study. May be repeated once for credit. Prereq: permission. Repeat Rule: May be repeated up to 1 time.
Equivalent(s): EREC 595W, RECO 595

EREC 595W - Problems in Natural and Agricultural Resources
Credits: 2-4
Students pursue field, laboratory, or library problems in natural and environmental resources that are not covered by other courses. Faculty consultant and study topic must be chosen before registration. In consultation with the faculty adviser, students select the problem area, create a bibliography for reflection, and pursue the topic. A professionally written paper is expected at termination of the study. May be repeated once for credit. Prereq: permission. Repeat Rule: May be repeated up to 1 time.
Equivalent(s): EREC 595W, RECO 595

EREC 596 - Problems in Natural and Agricultural Resources
Credits: 2-4
Students pursue field, laboratory, or library problems in natural and environmental resources that are not covered by other courses. Faculty consultant and study topic must be chosen before registration. In consultation with the faculty adviser, students select the problem area, create a bibliography for reflection, and pursue the topic. A professionally written paper is expected at termination of the study. May be repeated once for credit. Prereq: permission. Writing intensive.
Attributes: Writing Intensive Course
Repeat Rule: May be repeated up to 1 time.
Equivalent(s): EREC 596, RECO 596

EREC 596W - Problems in Natural and Agricultural Resources
Credits: 2-4
Students pursue field, laboratory, or library problems in natural and environmental resources that are not covered by other courses. Faculty consultant and study topic must be chosen before registration. In consultation with the faculty adviser, students select the problem area, create a bibliography for reflection, and pursue the topic. A professionally written paper is expected at termination of the study. May be repeated once for credit. Prereq: permission. Writing intensive.
Attributes: Writing Intensive Course
Repeat Rule: May be repeated up to 1 time.
Equivalent(s): EREC 596W, RECO 596

EREC 600 - Field Experience
Credits: 1-4
A supervised experience providing the opportunity to apply academic experience in settings associated with future professional employment and/or related graduate opportunities. Must be approved by a faculty advisor selected by the student. Prereq: permission. Cr/F.
Repeat Rule: May be repeated for a maximum of 8 credits.
Equivalent(s): EREC 600W, RECO 600

EREC 601 - Agribusiness Economics and Management
Credits: 4
Applications of economic and management principles in production, marketing, finance, and other operational decisions facing small agribusiness firms. Prereq: EREC 411 or ECON 402 or equivalent.

EREC 606 - Land Economics Perspectives: Uses, Policies, and Taxes
Credits: 4
Economic and institutional perspectives affecting human use of land resources; discussion of land ownership patterns and uses; land rent, location, and resource use; institutional constraints; partial ownership policies; and local planning for more efficient use of land. Real estate markets, transfers, valuation, and taxation. Prereq: EREC 411 or equivalent or permission.
Equivalent(s): RECO 606

Equivalent(s): EREC 595, RECO 595
ERECS #608 - Environmental Economics for Non-Economists
Credits: 4
This course will examine different aspects of natural resource allocation and protection of environmental quality from an economic standpoint. The course will examine the economic factors which lead to environmental problems such as air and water pollution, the common property problem, and other areas where existing markets do a less than satisfactory job of resource allocation. Economic incentives for alleviating these environmental problems will also be surveyed. Specific topics covered will include benefit cost analysis, valuation of "nonmarket" goods, policy tools which have economic bases, and sustainable development. Where possible, guest lecturers from other disciplines and selected films will be used to present alternative viewpoints and stimulate discussion. Class participation is encouraged and expected. Students completing this course will gain an overview of key issues in environmental economics, and how economics can be used as an aid in policy decisions regarding natural resources. Prereq: EREC 411, ECON 401 or their equivalents or permission. Does not count toward major requirements for EREC electives.

ERECS 627 - Community Economics
Credits: 4
Economic factors affecting community and local government decisions. Emphasizes use of economic theory for decision making and community problem solving. Prereq: EREC 411 or equivalent.
Equivalent(s): CD 627, RECO 627

ERECS 680 - Agricultural and Food Policy
Credits: 4
Analysis of issues that led to government involvement in the agricultural and food sector. Application of economic concepts and tools to the evaluation of public policies affecting agriculture and food. Prereq: EREC 411 or equivalent.
Equivalent(s): EREC 704

ERECS 708 - Environmental Economics
Credits: 4
Environmental pollution, the market economy, and optimal resource allocation; alternative control procedures; levels of environmental protection and public policy; property right issues. Prereq: ECON 605 or equivalent.
Attributes: Writing Intensive Course
Equivalent(s): EREC 708

ERECS 710 - Seminar
Credits: 2-4
Equivalent(s): RECO 710

ERECS #711 - Marine Resource Economics
Credits: 4
Economic overview of the marine environment; interactions/conflicts surrounding this multiple-use resource. Economics of fisheries; marine recreation; aquaculture; endangered species; non-market ecosystem services. Prereq: EREC 411, ECON 401 or ECON 402 or equivalent or permission. (Offered every other semester.)
Equivalent(s): EREC 611

ERECS 756 - Rural and Regional Economic Development
Credits: 4
Attributes: Writing Intensive Course
Equivalent(s): RECO 756

ERECS 760 - Ecological-Economic Modeling for Decision Making
Credits: 4
In this course, students will develop ecological-economic models and use them to inform economic decision making related to the management of natural resources. These models range from analytical models using algebra and calculus, to computational models using coding and simulations. The course will focus on spatial-dynamic computational bio-economic models because of their ability to capture economic decision making and ecological processes over time and space. Prereq: ECON 605 or equivalent; MATH 420, or equivalent.

ERECS 775 - Research Methods
Credits: 4
Study of the process, methods, and techniques of conducting scientific research in the social sciences. Includes problem identification, data collection and management, qualitative quantitative data analyses, and communicating scientific research. Prereq: EREC 411 or equivalent; EREC 525 or equivalent; junior/senior standing.
Equivalent(s): EREC 666

ERECS 795 - Investigations
Credits: 2-4
Special assignments in readings, investigations, or field problems. Topics may include agricultural marketing, agricultural production and farm management, community development, economics of human resources, economics of population and food, land economics, marine economics, rural economic development, regional economics, water economics, or teaching experience. Prereq: permission. May be repeated.
Equivalent(s): EREC 795W, RECO 795

ERECS 795W - Investigations
Credits: 2-4
Special assignments in readings, investigations, or field problems. Topics may include agricultural marketing, agricultural production and farm management, community development, economics of human resources, economics of population and food, land economics, marine economics, rural economic development, regional economics, water economics, or teaching experience. Prereq: permission. May be repeated. Writing intensive.
Attributes: Writing Intensive Course
Equivalent(s): EREC 795, RECO 795

ERECS 799 - Honors Senior Thesis
Credits: 1-4
Honor/thesis students conduct an independent research project, relevant to the student's area of specialization in the major, under the direction of a faculty sponsor. Students submit a research proposal, write a final report, and provide an oral presentation. One or two semester sequence. Restricted to Senior/Natural Resource Majors. Permission required.
Attributes: Writing Intensive Course
Repeat Rule: May be repeated for a maximum of 8 credits.
Equivalent(s): RECO 799
Exchange (EXCH)

EXCH 595 - Exchange
Credits: 18
Special fee. Cr/F.

Exercise Science (EXSC)

Course numbers with the # symbol included (e.g. #400) have not been taught in the last 3 years.

EXSC 520 - Contemporary Perspectives in Exercise Science
Credits: 4
This course is designed to introduce undergraduate students to the field of Exercise Science. Research studies, experiential learning and professional development will be used to explore the different aspects of Exercise Science including fitness, wellness, human performance, research and clinical exercise physiology. Students will discover the many ways exercise is used as a health and fitness intervention. Career options will be studied and evaluated giving students an informed exposure to potential areas of future.
Equivalent(s): KIN 520

EXSC 527 - Scientific Foundations of Health and Fitness
Credits: 4
Provides students with practical, scientific, entry-level information relative to physical conditioning, health, and wellness from childhood through adulthood. Students are given theoretical information that will be followed by practical, hands-on experiences offered through laboratories. No credit given if credit earned for NUTR 506.
Attributes: Biological Science(Discovery); Discovery Lab Course; Writing Intensive Course
Equivalent(s): KIN 527, NUTR 506

EXSC 507 - Biology of Aging
Credits: 4
Biological mechanisms of the aging process, with special emphasis on human aging; changes due to chronic disease.
Attributes: Biological Science(Discovery)
Equivalent(s): KIN 607

EXSC 620 - Physiology of Exercise
Credits: 4
Acute and chronic effects of exercise. Muscle physiology, respiration, cardiac function, circulation, energy metabolism, and application to training. Prereq: BMS 507 and BMS 508.
Equivalent(s): KIN 620

EXSC 621 - Exercise Laboratory Techniques
Credits: 4
Laboratory assessment of functional capacity, body composition, anaerobic power, anaerobic threshold, pulmonary function, blood pressure control, muscle strength, and temperature regulation. Field tests are used where appropriate. Extensive out-of-class time is required as each week a detailed lab report is submitted for grading. Prereq: EXSC 620. Exercise Science majors.
Attributes: Writing Intensive Course
Equivalent(s): KIN 621

EXSC 650A - Internship in Exercise Science
Credits: 4 or 8
Individualized experiential training in an external (off-campus) exercise science setting (hospital, health & fitness club, business, physical therapy, or medical (physician assistant) offices, research laboratory) offering programs of prevention, intervention, and/or rehabilitation. The internship requires 400 contact hours and is a full-time commitment (10 weeks at 40 hours per week) usually taken the summer following the senior academic year. Activities may include graded exercise testing, exercise prescription, and exercise leadership. Must have completed all requirements for the option or have permission from the instructor prior to starting the internship. The course may be repeated once with 4 credits taken each time for a total of 8 credits. Cr/F. (IA continuous grading). Only open to Exercise Science majors.
Repeat Rule: May be repeated for a maximum of 8 credits.
Equivalent(s): KIN 650A

EXSC 693 - Teaching Assistantship
Credits: 2
Students serve as teaching teaching assistants in assigned class activities. Assignments to be made by the class instructor may include teaching assistants’ and administrative duties. May be repeated up to a maximum of 4 credits. Prereq: junior or senior; departmental approval. Cr/F.
Repeat Rule: May be repeated for a maximum of 4 credits.

EXSC 696 - Independent Study
Credits: 2-4
An advanced, individual scholarly project under the direct supervision of a faculty member. Prereq: junior or senior; departmental approval.
Repeat Rule: May be repeated for a maximum of 8 credits.

EXSC 696W - Independent Study
Credits: 2-4
An advanced, writing-intensive, individual scholarly project under the direct supervision of a faculty member. Student and Faculty Adviser will prepare a written proposal that outlines: the research, the nature of the finished written product (e.g. case study, position paper, extended lab report). This proposal must be approved by major faculty and the department chair prior to the student’s registration for EXSC 696W. All EXSC 696W projects must include: Some forms of informal, ungraded writing such as a journal, reading summaries, draft chapters, or invention activities. Regular writing interaction between student and faculty adviser (i.e. at least weekly or biweekly), to include written feedback from the adviser. A finished product that is polished via revision. Faculty sponsors and students should consult the resources and guidelines of the UNH Writing Program. Prereq: junior or senior; departmental approval.
Attributes: Writing Intensive Course
Repeat Rule: May be repeated for a maximum of 8 credits.

EXSC 699H - Honors Project
Credits: 4
Project first involves tutorial sessions to introduce the student to the experimental design, after which a research question is developed. After an appropriate literature review, the student collects and analyzes data, forms conclusions, and prepares a written report on the findings.
EXSC 704 - Electrocardiography
Credits: 4
Designed to provide exposure to basic interpretation and identification of electrocardiograms (ECGs). Includes detailed heart anatomy, coronary circulation, cardiac conduction system, electrocardiogram development, and all aspects pertaining to normal and abnormal ECGs. Prereq: EXSC 621, Exercise Science majors.
Equivalent(s): KIN 704

EXSC 705 - Topics in Applied Physiology
Credits: 4
Advanced exercise physiology course dealing with topics both current and relevant to exercise science majors. Includes genetics, environmental influences, immune system, detraining and over-training, epidemiology, ergogenic acids, and the influence of age and gender. Prereq: EXSC 620, EXSC 621, EXSC 736. Exercise Science majors.
Equivalent(s): KIN 737

EXSC 720 - Science and Practice of Strength Training
Credits: 4
Designed to provide students exposure to the knowledge and practical experience necessary for establishing strength development programs in a variety of populations, including healthy, athletic, and higher risk individuals. Program design, correct lifting techniques, physiological adaptations, and organization and administration of programs are highlighted. Includes fundamentals regarding the selection of programs and equipment, spotting techniques, as well as ways to assess strength and power in humans without expensive equipment. Prereq: EXSC 620, EXSC 621, or instructor permission.
Equivalent(s): KIN 720

EXSC 722 - Applied Biomechanics
Credits: 4
This course provides students with a background in the fundamental biomechanical principles that describe and govern human movement. Topics of the course will include friction, linear and angular motion, tissue mechanical properties, conservation of energy, work and power, fluid mechanics, stability and center of gravity, walking and running gait analysis. These topics are taught by quantitatively analyzing human movements through the use of modern biomechanical analyses including dynamometry, electromyography, accelerometry, and optical motion analysis. Prereq: BMS 507, BMS 508, EXSC 621 or permission. Exercise Science, Athletic Training major or instructor permission.
Equivalent(s): KIN 722

EXSC 724 - Exercise Metabolism: Acute and Chronic Adaptations
Credits: 4
Overview of the metabolic processes that occur during exercise and metabolic changes that occur as a result of exercise training. Topics include glycolysis and pyruvate, lipid metabolism, metabolism of proteins and amino acids, and the influence of age and gender. Prereq: EXSC 621, CHEM 404, Exercise Science majors.
Equivalent(s): KIN 724

EXSC 736 - Fitness and Graded Exercise Testing
Credits: 4
Designed to provide students exposure to the knowledge and practical experience necessary for establishing exercise programs in apparently healthy populations. Topics include fitness testing, test interpretation, and exercise prescription. Prereq: EXSC 621, EXSC 704, Exercise Science majors.
Equivalent(s): KIN 736

EXSC 737 - Exercise Prescription and Leadership in Healthy and Special Populations
Credits: 4
Provides exposure to the knowledge and practical experience necessary for establishing exercise and health promotion programs in a variety of populations. Includes fundamentals regarding personal training and program selection, implementation and equipment, legal issues, and budget establishment. Strength training programs and special populations are highlighted. Prereq: EXSC 621, EXSC 736; Exercise Science majors.
Equivalent(s): KIN 794

EXSC 794 - Cardiopulmonary Pathologies
Credits: 4
Equivalent(s): KIN 794

EXSC 795 - Practicum in Cardiac Rehabilitation
Credits: 2
Provides students with practical and theoretical experience in all aspects involving cardiac rehabilitation programs. Prereq: EXSC 704, EXSC 794, Exercise Science majors.
Equivalent(s): KIN 795

Forest Technology (FORT)

FORT 461 - Dendrology
Credits: 3
Identification and nomenclature of forest trees and shrubs which are important to the ecology and economy of the Northeastern forest. The study of forested plant relationships with other plants, animals, soil, and site regimes. 1 lec/1 2-hr lab.
Equivalent(s): FORT 261

FORT 466 - Forest Surveying and Mapping
Credits: 4
Provides instruction and experience in running cruise lines and in the survey and identification of rural property lines. The focus is on field surveying techniques and problem solving of special importance to foresters. Use of magnetic survey data in rural property measurement. Skill and efficiency is developed in analyzing field survey data, plotting, lettering and finishing topographic and planimetric maps, and road plans, both manually and by Computer Assisted Drafting using multiple software applications. Special Fee.
Equivalent(s): FORT 266

FORT 470 - Applied Silviculture
Credits: 4
Silvicultural practices in the U.S. including reforestation systems. Improvement of forest stands employing the basic tending practices of weeding, thinning, and pruning. Marking of stands prior to logging operations. Prereq: permission of instructor or FORT 461 and FORT 463. 2 lec/1 4-hr lab. Special Fee.
Equivalent(s): FORT 270
FORT 490 - NH Sustainable Forest Resource
Credits: 4
An overview of forestry in New Hampshire and the northeast. History shows how our forests have been used in the past and how they developed into what we see today. Discover the science of Forest Ecology and Silviculture and how foresters use these to manage our forests sustainably for a variety of forest products. Learn how these products are harvested, processed and used. Understand how pathogens and pests can threaten our forests. On-line course.
Equivalent(s): FORT 290

FORT 527 - Forest Ecology
Credits: 4
Introduces basic and applied ecology of forests, with emphasis on ecosystem processes, including water, energy, and nutrient cycles; biological interactions, including biodiversity and plant-plant, plant-animal, and plant-microbe relationships; and human impacts, including forest management, land-use/land cover-change, and changes in atmospheric chemistry.
Equivalent(s): NR 527

FORT 564 - Arboriculture
Credits: 3
Tree selection, care, and maintenance in the urban environment. Includes climbing, safety practices, pruning, hazard tree assessment, and removals. Prereq: FORT 463 or permission. 1 lec/1 4-hr lab. Special Fee.
Equivalent(s): FORT 264, FORT 464

FORT 567 - Leadership, Supervision & Safety
Credits: 2
Fundamentals of leadership and supervision including effective communication in the workplace and public sector are explored. Project management, personnel training and motivation, plus problem-solving and conflict resolution applied through a practical community service forestry project. Accident prevention, first aid, and CPR instruction also included. 2 lec.
Equivalent(s): FORT 267

FORT 572 - Mensuration
Credits: 4
Field application of forest inventory and timber cruising techniques. Measurement of tree form, volume, quality, and defect. Growth prediction of individual trees and stands. Use of basic statistical methods as a tool in cruising. Prereq: FORT 461 or instructor permission. 2 lec/1 4-hr lab. Special Fee.
Equivalent(s): FORT 272

FORT 573 - Management Operation & Analysis
Credits: 3
Forest appraisal and valuation methods, timber sale contracts, depreciation and depletion calculations, forest taxation. Essentials of forest regulation and management planning. 2 lec/1 2-hr lab. Special Fee.
Equivalent(s): FORT 273

FORT 574 - Industrial Forest Management Tour
Credits: 1
Concentrated field experience and intensive observations of industrial, private, and federal forest holdings and facilities; emphasizing forest utilization and management operations as currently practiced in New England. One week of concentrated field study. Cr/F. Forest Technology majors only. Special Fee.

FORT 576 - Forest Products
Credits: 4
Basics of structure and properties of wood as a raw material. Conversion of logs to lumber at Thompson School sawmill. Lumber and log grading and measuring. Studies in processing efficiency, lumber drying, and physical plant operations. Introduction to paper, veneer, and chip products. Marketing of forest products. 2 lec/1 4-hr lab. Special Fee.
Equivalent(s): FORT 276, FORT 476

FORT 577 - Forest Harvesting Systems
Credits: 4
A study in harvesting methods and their relation to forest management and silviculture of the state and region. Theory and practice of conventional harvesting systems including hands-on application of techniques with a strong emphasis on protection of the environment and the safety and health of workers. Department permission for non-majors. 2 lec/4-hr lab. Special Fee.
Equivalent(s): FORT 277

FORT 578 - Forest Insects & Diseases
Credits: 2
An introduction to the role of forest insects and microorganisms in the context of managing woodlands. Students learn to recognize the signs and symptoms of insect and disease damage in forest trees and products. They study the life cycles and identify common forest insect and disease pests impacting North American tree species. Pest management methods are introduced. 1 lec/3-hr lab. Special Fee.
Equivalent(s): FORT 278

FORT 579 - Forest Fire Control and Use
Credits: 2
A study in basic fire ecology and instruction in forest fire suppression methods. Interactions of forest fuels, topography, and weather as they affect forest fire behavior. Use of controlled fire as a tool in forest and wildlife management. When appropriate, field work will include actual burning. Special Fee.
Equivalent(s): FORT 279, FORT 479

FORT 581 - Applied Geospatial Techniques
Credits: 4
Geographic Information Systems (GIS) are integral to natural resource management and these technologies/software have become widespread throughout various fields. Proficiency in fundamental GIS skills is imperative for resource managers. Students will 1) develop an understanding of imagery acquisition and remote sensing systems/technologies; 2) develop skills in identification, interpretation, and mapping of land/vegetation features, including an understanding of map projection; 3) gain experience in GIS software to perform fundamental geoprocessing and mapping techniques.
Equivalent(s): FORT 281

FORT 591 - Independent Studies in Forest Technology/Urban Tree Care
Credits: 1-4
Students who have the ability and adequate preparation to work independently may propose a contract to design a course or research project on a topic not available through existing course offerings. The purpose of this research is to explore new areas in the student’s field of study or to pursue course material in greater depth. Work is supervised by an appropriate faculty/staff member and credit varies depending on the proposed project/research. Examples include forest management, forest products, forest protection, wildlife management, or urban tree care. Permission required. Course may be repeated up to a maximum of 8 credits.
Equivalent(s): FORT 291
FORT 592 - Independent Studies in Forest Technology/Urban Tree Care
Credits: 1-4
Students who have the ability and adequate preparation to work independently may propose a contract to design a course or research project on a topic not available through existing course offerings. The purpose of this research is to explore new areas in the student's field of study or to pursue course material in greater depth. Work is supervised by an appropriate faculty/staff member and credit varies depending on the proposed project/research. Examples include forest management, forest products, forest protection, wildlife management, or urban tree care. Permission required. Course may be repeated up to a maximum of 8 credits.
Equivalent(s): FORT 292

FORT 597 - Work Experience
Credits: 0
Career-related employment (10 weeks, generally in the summer following freshman year) in a forestry, urban tree care, or other department-approved natural resources area. Cr/F.
Equivalent(s): FORT 297

French (FREN)
# Course numbers with the # symbol included (e.g. #400) have not been taught in the last 3 years.

FREN 401 - Elementary French I
Credits: 4
Conducted in French, the course introduces students to French language and culture through speaking, listening, reading, writing, labs and films. Designed for students without previous training in French. Credit only for students who have had less than two years of French in secondary school. FREN 401 - FREN 402 taken together satisfies the foreign language requirement.

FREN 402 - Elementary French II
Credits: 4
See description for FREN 401. FREN 401 is a prerequisite for this course. Cannot be taken separately except with permission of instructor.
Attributes: Foreign Language Requirement

FREN 403 - Review of French
Credits: 4
Conducted in French. Course emphasizes the active use of French through speaking, listening, reading, writing, labs, and films while providing a review of basic grammar. Designed for those students whose study of French has been interrupted for a significant amount of time or who have had two or more years of high school French. FREN 403 does not satisfy the foreign language requirement.
Equivalent(s): FREN 501

FREN 500 - Selected Topics in World Literature
Credits: 4
Topics will be chosen that introduce students to major themes and genres. (Also offered as CLAS 500, GERM 500, ITAL 500, PORT 500, RUSS 500, SPAN 500.) May be repeated for credit. Credit/Fail. Writing intensive.
Attributes: Writing Intensive Course
Equivalent(s): CLAS 500, FREN 600, GERM 500, ITAL 500, PORT 500, RUSS 500, RUSS 500W, SPAN 500, WLCE 500, WLCE 600

FREN 503 - Intermediate French I
Credits: 4
Conducted in French. Review of grammar with emphasis on the development of reading, writing, speaking, and listening skills. With modules on culture tailored to the needs of students in STEM disciplines as well as in agriculture, business, hospitality, and health and human services (among others). Prereq: one year of elementary French or equivalent.
Attributes: World Cultures(Discovery); Writing Intensive Course
Equivalent(s): FREN 503H, FREN 585

FREN 503H - Honors/Intermediate French I
Credits: 4
Conducted in French. Review of grammar with emphasis on the development of reading, writing, speaking, and listening skills, and on culture. Discussion in French of literary and cultural readings. Labs and films.
Attributes: World Cultures(Discovery); Writing Intensive Course
Equivalent(s): FREN 503H, FREN 585

FREN 503W - Intermediate French I
Credits: 4
Conducted in French. Review of grammar with emphasis on the development of reading, writing, speaking, and listening skills, and on culture. Discussion in French of literary and cultural readings. Labs and films.
Attributes: World Cultures(Discovery); Writing Intensive Course
Equivalent(s): FREN 503H, FREN 585

FREN 504 - Intermediate French II
Credits: 4
Conducted in French. Review of grammar with emphasis on the development of reading, writing, speaking, and listening skills, and on culture. Discussion in French of literary and cultural readings. Labs and films.
Attributes: World Cultures(Discovery); Writing Intensive Course
Equivalent(s): FREN 504H, FREN 586

FREN 504H - Honors/Intermediate French II
Credits: 4
Conducted in French. Review of grammar with emphasis on the development of reading, writing, speaking, and listening skills, and on culture. Discussion in French of literary and cultural readings. Labs and films.
Attributes: World Cultures(Discovery); Writing Intensive Course
Equivalent(s): FREN 504H, FREN 586

FREN 525 - A Road Trip Through France: Baguette, Brie, Bordeaux, and Beyond
Credits: 4
What makes France France, and how did it evolve from a mostly agricultural to a modern society? Using films, essays, newspaper articles, and television this course examines major social, political, and gastronomic trends, events, debates and personalities that help shed light on contemporary French culture. Taught in English. Not for major credit. May be repeated for credit barring duplication of materials. Offered in Spring.
Attributes: World Cultures(Discovery); Inquiry (Discovery); Writing Intensive Course
Equivalent(s): WLCE 525F
FREN 525H - Honors/A Road Trip Through France: Baguette, Brie, Bordeaux, and Beyond
Credits: 4
What makes France, France, and how did it evolve from a mostly agricultural to a modern society? Using films, essays, newspaper articles, and television this course examines major social, political, and gastronomic trends, events, debates and personalities that help shed light on contemporary French culture. Taught in English. Not for major credit. May be repeated for credit barring duplication of materials. Offered in the Spring.
Attributes: World Cultures(Discovery); Inquiry (Discovery); Writing Intensive Course

FREN 526 - Introduction to Francophone Cultures
Credits: 4
Taught in English. Focus on French-speaking cultures other than France. Includes historical, geographical, and artistic expressions of these cultures. Not for major credit. May be repeated for credit barring duplication of materials. (Not offered every year).
Attributes: World Cultures(Discovery); Inquiry (Discovery); Writing Intensive Course

FREN 595 - French Practicum
Credits: 2
Practical use of French language or cultural skills outside the classroom through special projects. Prereq: Permission. Cr/F.
Repeat Rule: May be repeated for a maximum of 4 credits.

FREN 595A - A Culinary Exploration in Southern France
Credits: 0
A 2-week long experience abroad intended to immerse students in French language and culture. The intensive and impactful in-country travel will augment on-campus instruction, and will provide a "living lab" experience for students who have taken FREN 595. Prereq: FREN 595.

FREN #625 - Cuisine, Culture, and the Creation of French Identity
Credits: 4
What makes France, France, and how did it evolve that way? How do strong regional identities complement and compete with national identity in a globalizing world? Using film, short stories, scholarly articles, and mass media, we examine the development of regional cuisine, literature, art, music, and folk traditions in light of broader French history and politics. Focus on Provence, Alsace, the Southwest, and Burgundy, emphasizing Dijon. Works by Varda, Berri, Zola, Colette, and Merimee.

FREN 631 - Advanced French: Reading and Writing
Credits: 4
This course is intended to refine students’ ability to write in French through the study and practice of stylistic techniques, pertinent grammatical structures, and vocabulary used in contemporary written French. Working with a variety of texts, students become familiar with, and practice different forms of French rhetoric and styles in creative, argumentative, and analytical writings. Revision and rewriting are an integral part of the course, with students’ own work providing a focus for in-class analysis and feedback. Prereq: FREN 504. Offered during the fall semester. The course sequence FREN 631- FREN 632 may be taken in any order.
Attributes: World Cultures(Discovery); Writing Intensive Course

FREN 632 - Advanced French: Listening and Speaking
Credits: 4
This course is intended to refine students’ ability to communicate in French, through the practice of debating and exchanging ideas, and a variety of pronunciation exercises. While reviewing and refining pertinent grammatical structures, students discuss current events and other material in class and on-line. Students also have the opportunity to actively practice their French during the weekly Zoom session with French students from Bordeaux. Prereq: FREN 504. Offered during the spring semester. FREN 631 and FREN 632 may be taken in any order.
Attributes: World Cultures(Discovery)

FREN 651 - Love, War, and Power in French Literature
Credits: 4
Reading and rigorous oral and written analysis of French literary texts that illustrate a variety of genres, with particular attention paid to the issues of love, war, and power. May be taken before or after FREN 652. Pre- or Co-Req: FREN 631, FREN 632. Required for majors.
Attributes: Humanities(Disc); Writing Intensive Course
Equivalent(s): FREN 651H

FREN 651H - Honors/Readings in French Literature
Credits: 4
Reading and rigorous oral and written analysis of French literary texts that illustrate a variety of genres, with particular attention paid to the issues of love, war, and power. May be taken before or after FREN 652. Pre- or Co-Req: FREN 631, FREN 632. Required for majors.
Attributes: Humanities(Disc); Writing Intensive Course
Equivalent(s): FREN 651

FREN 652 - Greatest Hits of French
Credits: 4
Reading and rigorous oral and written analysis of major French texts spanning 5 centuries of literature that illustrate a variety of genres, from the Chanson de Roland to Moliere's famous comedies. May be taken before or after FREN 651. Pre- or Co-Req: FREN 631, FREN 632. Required for majors.
Attributes: Humanities(Disc); Writing Intensive Course
Equivalent(s): FREN 652H

FREN 652H - Honors/Readings in French Literature
Credits: 4
Reading and rigorous oral and written analysis of major French texts spanning 5 centuries of literature that illustrate a variety of genres, from the Chanson de Roland to Moliere's famous comedies. May be taken before or after FREN 651. Pre- or Co-Req: FREN 631, FREN 632. Required for majors.
Attributes: Humanities(Disc); Writing Intensive Course
Equivalent(s): FREN 652

FREN 675 - Social Issues in French Literature
Credits: 4
Addresses social issues, such as gender, education, communication, social inequality, sustainability etc. as they appear in French literary texts and cultural productions of different periods. Focus will change each time course is offered. Prereq: FREN 631 and FREN 632. Coreq: FREN 651 or FREN 652. May be repeated for credit, barring duplication of materials. (Not offered every year).
Attributes: Writing Intensive Course
Repeat Rule: May be repeated for a maximum of 8 credits.
Equivalent(s): FREN 635
FREN 676 - Topics in Francophone Culture
Credits: 4
Topics drawn from all aspects and periods of French civilization. Prereq: FREN 631, FREN 632 and FREN 651 or FREN 652. May be repeated for credit barring duplication of materials. (Not offered every year.)
Attributes: Writing Intensive Course
Repeat Rule: May be repeated for a maximum of 8 credits.
Equivalent(s): FREN 565

FREN 677 - France in the European Union
Credits: 4
Topics drawn from all aspects of contemporary French culture in its relationship with the fifteen member states of the European Union, with emphasis on the role of France in the building of the European Union. Prereq: FREN 631-FREN 632. Coreq: FREN 651 or FREN 652. (Not offered every year.)
Attributes: Writing Intensive Course
Equivalent(s): FREN 645

FREN 683 - Summer Study in Dijon (4 weeks)
Credits: 4
This course offers four weeks of intensive study of French language at the Centre International d’Etudes Francaises (CIELF) in Dijon, France. The prerequisite is at least elementary French or equivalent and depends on the student’s level at the time of registration. Minimum GPA of 2.5 or better and permission. Special UNH fee. Student responsible for personal and travel expenses. Offered summers only.
Co-requisite: INCO 589

FREN 690 - Study Abroad in Dijon France
Credits: 16
Spring semester at the University of Burgundy (Dijon, France) for juniors. This one-semester program is open to majors who have completed with a B- or better FREN 631 and FREN 632 and FREN 651 or FREN 652, or equivalent. Non-majors need to speak with the program director to determine their eligibility. Non-credit orientation meetings are required during the fall semester prior to departure. The normal UNH requirements for studying abroad apply to this program. For further information, interested students should consult with the director in the French program. Special fee. Prereq: FREN 504 with a C or better and permission. Non-majors FREN 631, 632; FREN 651 or FREN 652, and travel expenses as well as tuition and other costs at CIELF. (Offered summer only.) Special fee.
Co-requisite: INCO 589

FREN 691 - Summer Study in Dijon (8 weeks)
Credits: 8
This course offers eight weeks of intensive study of French language at the Centre International d’Etudes Francaises (CIELF) in Dijon, France. The prerequisite is at least elementary French or equivalent and depends on the student’s level at the time of registration. This course is also open to French majors who cannot fulfill their semester-long study abroad requirement for documented academic reasons. By petition only. Minimum GPA of 2.5 or better and permission. Special UNH fee. Student responsible for personal and travel expenses. Offered summers only.
Co-requisite: INCO 589

FREN 695 - Special Advanced Language Study in France
Credits: 4
Four weeks of intensive language study at the Centre International d’Etudes Francaises (CIELF) in Dijon, France. Prereq: FREN 631 and FREN 632 with grade of B- or better and permission. Special UNH fee and DCE administrative fee. Student responsible for personal and travel expenses as well as tuition and other costs at CIELF. (Offered summer only.) Special fee.
Co-requisite: INCO 589

FREN 762 - The Age of Versailles
Credits: 4
Through the reading and analysis of the cultural and literary production of Louis XIV’s reign, the course examines the spectacle of royal power, the place of the individual vis-a-vis this power as well the critique of social norms. Prereq: FREN 651 and FREN 652. May be repeated for credit, barring duplication of materials. (Not offered every year.)
Attributes: Writing Intensive Course

FREN 765 - Rebellion and Upheaval in 18th-Century Literature and Culture
Credits: 4
This course presents different facets of the culture, literature, and history from Louis XIV’s death to the Napoleonic era, placing particularly emphasis on the intellectual productions that questioned the status quo and played a role in the unfolding of the French Revolution. May be repeated for credit, barring duplication of materials. Prereq: FREN 651, FREN 652.
Attributes: Writing Intensive Course
Repeat Rule: May be repeated for a maximum of 8 credits. May be repeated up to 2 times.

FREN 775 - Les Mis and their World
Credits: 4
Inspired by the very popular Victor Hugo’s novel Les Miserables, this course examines 19th-century society and many issues of importance during that period: romantic and familial love, the nature of law and justice, morals and religious faith, as well as the architecture and urban design of Paris. It will also consider some of the adaptations for film, television, and the stage. May be repeated for credit, barring duplication of materials. Prereq: FREN 651, FREN 652.
Attributes: Writing Intensive Course
Repeat Rule: May be repeated for a maximum of 8 credits. May be repeated up to 2 times.

FREN 782 - From Belle Epoque to Globalization
Credits: 4
This course presents important writers, poets, playwrights, and thinkers active between the period known as La Belle Epoque and the present. Focusing on the long lasting impact of historical ruptures on artistic production, it focuses on topics such as surrealism, social realism, the absurd, negritude, existentialism the new wave, the new novel, and feminism. Prereq: FREN 651 and FREN 652. May be repeated for credit, barring duplication of materials. (Not offered every year.)
Attributes: Writing Intensive Course
Repeat Rule: May be repeated for a maximum of 8 credits.
FREN 785 - Francophonies Plurielles
Credits: 4
Spoken in many countries around the world, French has a rich international literary tradition. This course presents the numerous facets of Francophone literature and film produced in Quebec, Western Africa, the Indian Ocean, and the Caribbeans. Focus will change each time the course is offered. May be repeated for credit, barring duplication of materials. Prereq: FREN 651, FREN 652.
Attributes: Writing Intensive Course
Repeat Rule: May be repeated up to 2 times.
Equivalent(s): FREN 653

FREN 790 - Cultural Encounters: A View from Abroad
Credits: 4
French major capstone course for students returning from studying in a French-speaking country. It provides the opportunity 1) to reflect on an international experience and cross cultural communication; 2) to fine tune their use of different styles and modes of expression; 3) to practice translation skills. Prereq: at least one course in French beyond 652 and academic work in French abroad.
Attributes: Writing Intensive Course

FREN 795 - Special Studies in French Language and Literature
Credits: 1-4
Individual guided study of the work of a major author, a genre, or specific topics in literature. Training in bibliography and organization of material. Prereq: permission. (Not offered every year).

FREN 796 - Special Studies in French Language and Literature
Credits: 1-4
Individual guided study of the work of a major author, a genre, or specific topics in literature. Training in bibliography and organization of material. Prereq: permission. (Not offered every year).

FREN 798 - Special Topics in French Translation
Credits: 4
Selected topics in language, literature, and culture, "hands on" training in translation of the student's target language and individual focus area. Translation from and into the target language. Pre- or Coreq: FREN 651, FREN 652, FREN 790, LLC 642.

FREN 799 - Honors Senior Thesis
Credits: 2
Yearlong course leading to an honors senior thesis. Open only to seniors seeking honors in major whose individually designed research projects have been approved by the department honors committee and who have been assigned an adviser. Students must enroll for both fall and spring semesters. Students defend the resulting written thesis in an oral presentation before department members and others. Prereq: permission. Special fee.

Genetics (GEN)

# Course numbers with the # symbol included (e.g. #400) have not been taught in the last 3 years.

GEN 401 - Professional Perspectives in Genetics
Credits: 1
Introduction to the fields of genetics and genomics and to the genetics faculty and their research. Careers and professional opportunities for genetic majors presented by invited speakers. Emphasis on skills needed for academic success and strategies for achieving professional goals. Cr/ F.

GEN 600 - Field Experience
Credits: 1-4
Supervised experience providing the opportunity to apply academic experience in settings associated with future professional employment and/or related graduate opportunities. Must be approved by a faculty advisor selected by the student. Permission required. Cr/F.
Repeat Rule: May be repeated for a maximum of 4 credits.
Equivalent(s): GEN 600W

GEN 604 - Principles of Genetics
Credits: 4
Chemical structure of genetic material, gene recombination, mutation, and chromosome mapping. Gene expression and regulation; recombinant DNA; evolutionary, quantitative, and population genetics. Prereq: BIOL 411 and BIOL 412 or equivalent; CHEM 403 and CHEM 404 or equivalent, or permission. College math or statistics suggested.
Equivalent(s): BIOL 604

GEN 606 - Genetics Lab
Credits: 4
Hands-on experience with some of the important model organisms used for research in genetics (fruit flies, bacteria, yeast, nematodes, and plants). Investigation of fundamental genetic concepts in the laboratory, experience with transmission and molecular genetic techniques, introduction to bioinformatics, analysis and interpretation of data. Prereq: GEN 604. Special fee.

GEN 704 - Genetics of Prokaryotic Microbes
Credits: 5
Maintenance, exchange, and expression of genetic material in bacteria and their viruses. Historical overview of the role microbial genetics played in development of modern molecular biology. Contemporary perspective on methods used to understand the function of genes and their applications to basic science, biomedical research, and biotechnology. Prereq: BMS 503 and BMS 504; GEN 604; or permission. Lab. Special fee. Writing intensive.
Attributes: Writing Intensive Course

GEN 705 - Population Genetics
Credits: 3
Exploration of the forces (mutations, selection, random drift, inbreeding, assortative mating) affecting the frequency and distribution of genetic variation in natural populations. Quantifying the structure of populations. Methods of analysis for theoretical and practical applications. Prereq: GEN 604 or equivalent; BIOL 528 or equivalent.
Equivalent(s): PBIO 705, ZOOL 665, ZOOL 705

GEN 706 - Human Genetics
Credits: 4
Genetic basis of human traits and diseases including both traditional methods of diagnosis and contemporary molecular genetic approaches stemming from the human genome project. Case studies exemplify common practices in human genetic counseling and integrate the scientific basis of diagnosis with the special ethical implications of human genetic analysis. Prereq: GEN 604 or permission.
Equivalent(s): ANSC 706, BCHM 706

GEN 711 - Genomics and Bioinformatics
Credits: 4
Equivalent(s): GEN 711W
GEN 711W - Genomics and Bioinformatics  
Credits: 4  
Methods, applications, and implications of genomics—the analysis of whole genomes. Microbial, plant and animal genomics are addressed, as well as medical, ethical and legal implications. The lab provides exposure and experience on a range of bioinformatics approaches—the computer applications used in genome analysis. Prereq: GEN 604. Lab. Writing intensive. Only offered in Manchester.  
Attributes: Writing Intensive Course  
Equivalent(s): BCHM 711, BCHM 715, GEN 711, MICR 711, MICR 715

GEN 712 - Programming for Bioinformatics  
Credits: 5  
Development of programming skills that enable life science students to ask fundamental biological questions that require computers to automate repetitive tasks and handle query results efficiently. Topics include: computer values of important parameters of biological sequence data; pattern search and motif discovery scripts; accessing, querying, manipulating, retrieving, parsing, analyzing, and saving data from local and remote databases. Prereq: GEN 604 and GEN 711. Computer Lab.

GEN 713 - Microbial Ecology and Evolution  
Credits: 4  
Evolutionary and ecological forces that generate the tremendous diversity of microbial life on Earth with emphasis on viruses, archaea and bacteria. Functional roles of microorganisms, their population dynamics and interactions, and their mechanisms of evolutionary change in a variety of environmental settings, including natural communities and laboratory microcosms. Prereq: GEN 604; BMS 503 and BMS 504; or permission. Writing intensive.  
Attributes: Writing Intensive Course  
Equivalent(s): MICR 713

GEN 714 - Personal Genomics  
Credits: 4  
Analysis and implications of personal genomic data is the focus of this course. Students understand and appreciate all aspects of the availability of personal genomic information and tools including scientific, medical, social, ethical and legal issues. Students have the opportunity to analyze their own individual genome to one of the publicly available genomes to learn about all various aspects of this emerging field. The course will be an entirely online format. Prereq: GEN 604. UNHM only.

GEN 715 - Molecular Evolution  
Credits: 4  
Equivalent(s): ZOOL 715

GEN 717 - Molecular Microbiology  
Credits: 5  
Fundamental physiological and metabolic processes of archaea, bacteria and fungi with a strong emphasis on prokaryotes. Literature-based course. Topics include regulation and coordination of microbial metabolism, bacterial cell cycle, global control of gene expression, signal transduction, and microbial cell differentiation. Prereq: BMS 503 and BMS 504; GEN 604; or permission. Special fee. Lab. Writing intensive.  
Attributes: Writing Intensive Course  
Equivalent(s): MICR 717

GEN 721 - Comparative Genomics  
Credits: 4  
Explores the central questions and themes in contemporary comparative genomics, including genome biology, phylogenomics, human origins, population genomics, and ecological genomics. Provides the conceptual framework required to evaluate new work in this fast-changing field. Prereq: GEN 604 or equivalent.

GEN 725 - Population Genetics Lab  
Credits: 2  
Hands-on approach to exploration of evolutionary forces affecting the frequency and distribution of genetic variation in natural populations. Wet lab techniques include DNA extraction, restriction enzyme digestion, PCR, DNA fragment size-selection. Computational skills include high-throughput sequencing data control, identifying allelic variants, and generation of population genetic summary statistics. Prereq: GEN 604 or equivalent; BIOL 528 or equivalent.  
Co-requisite: GEN 705

GEN 771 - Molecular Genetics  
Credits: 4  
Structure, organization, replication, dynamics, and expression of genetic information in eukaryotes. Focus on molecular genetic and epigenetic mechanisms of gene expression and its control; molecular genetic control of cell division and differentiation during development. Prereq: GEN 604 or permission.  
Equivalent(s): BCHM 771, BSCI 777

GEN 772 - Evolutionary Genetics of Plants  
Credits: 4  
Mechanisms of genetic change in plant evolution, both in nature and under human influence. Topics include neo-Darwinian theory; speciation and hybridization; origins and co-evolution of nuclear and organelle genomes; gene and genome evolution; transposable elements; chromosome rearrangements; polyploidy; genetic modification. Lab introduces methods in information gathering, bioinformatics, genome analysis, plant breeding, and genetic manipulation. Prereq: GEN 604 or equivalent. Lab. Writing intensive.  
Attributes: Writing Intensive Course  
Equivalent(s): PBIO 772

GEN 774 - Techniques in Plant Genetic Engineering and Biotechnology  
Credits: 4  
Theory and hands-on experience with techniques used in plant genetic engineering, including cell and tissue culture, gene cloning, and analysis of foreign gene expression. Discussion of role of plant biotechnology in sustainable agriculture and climate change; modifying plants for better nutrition and stress response, environmental remediation, and production of pharmaceuticals; controversies associated with this technology. Lab. Special fee. Prereq: GEN 604 or permission.  
Equivalent(s): PBIO 774, PBIO 775

GEN 790 - Undergraduate Teaching Experience  
Credits: 1-4  
Provide academic support to graduate teaching assistants or faculty in preparing, presenting, and executing Genetics lectures or labs. Permission required.  
Repeat Rule: May be repeated for a maximum of 4 credits.  
Equivalent(s): BMS 790, MICR 790
GEN 795 - Investigations in Genetics  
Credits: 1-4  
Advanced research or scholarly projects developed and conducted under the supervision of a faculty member. Provides the opportunity to apply advanced knowledge and techniques of the major to a specific problem or question. Permission required.  
Repeat Rule: May be repeated for a maximum of 4 credits.  
Equivalent(s): GEN 795W  

GEN 795W - Investigations in Genetics  
Credits: 1-4  
Advanced research or scholarly projects developed and conducted under the supervision of a faculty member. Provides the opportunity to apply advanced knowledge and techniques of the major to a specific problem or question. Permission required.  
Attributes: Writing Intensive Course  
Repeat Rule: May be repeated for a maximum of 4 credits.  
Equivalent(s): GEN 795  

GEN 799 - Senior Thesis  
Credits: 1-4  
Independent research project under the direction of a faculty sponsor for seniors in genetics. Final product is a written thesis. One or two semesters. Permission required.  
Attributes: Writing Intensive Course  
Repeat Rule: May be repeated for a maximum of 8 credits.  

GEN 799H - Honors Senior Thesis  
Credits: 1-4  
Independent research project under the direction of a faculty sponsor for seniors in genetics and in the Honors Program. Final product is a written thesis. One or two semesters. Permission required.  
Attributes: Writing Intensive Course  
Repeat Rule: May be repeated for a maximum of 8 credits.  

Geography (GEOG)  
# Course numbers with the # symbol included (e.g. #400) have not been taught in the last 3 years.  

GEOG 401 - Regional Geography of the Western World  
Credits: 4  
An introduction to the people, places, and problems of six Westernized regions of the world – Europe, Russia, Latin America, the Caribbean, North America, and Australia and Oceania. The course emphasizes five themes: environmental geography, population and settlement, cultural coherence and diversity, geopolitical framework, and economic and social development.  
Attributes: World Cultures(Discovery)  
Equivalent(s): GEOG 401H  

GEOG 401H - Honors/Regional Geography of the Western World  
Credits: 4  
An introduction to the people, places, and problems of six Westernized regions of the world – Europe, Russia, Latin America, the Caribbean, North America, and Australia and Oceania. The course emphasizes five themes: environmental geography, population and settlement, cultural coherence and diversity, geopolitical framework, and economic and social development.  
Attributes: World Cultures(Discovery)  
Equivalent(s): GEOG 401  

GEOG 402 - Regional Geography of the Non-Western World  
Credits: 4  
Major culture areas of the non-Western world and the unique interaction of human and physical phenomena that produces the distinctive character of these areas. Emphasizes the manner in which people of different cultures have made use of opportunities and solved problems existing in the major regions occupied by non-Western cultures: the Middle East and North Africa, Africa south of the Sahara, Oriental Asia and the Pacific Islands.  
Attributes: World Cultures(Discovery)  
Equivalent(s): GEOG 402H  

GEOG 402H - Honors/Regional Geography of the Non-Western World  
Credits: 4  
Major culture areas of the non-Western world and the unique interaction of human and physical phenomena that produces the distinctive character of these areas. Emphasizes the manner in which people of different cultures have made use of opportunities and solved problems existing in the major regions occupied by non-Western cultures: the Middle East and North Africa, Africa south of the Sahara, Oriental Asia and the Pacific Islands.  
Attributes: World Cultures(Discovery)  
Equivalent(s): GEOG 402  

GEOG 405 - Human-Environment Geography  
Credits: 4  
Introduces human-environment relations as a central focus of geography, spanning social and environmental sciences. Considers mapping, natural resource use, commons and markets, hazards, political ecology, and land use change. Case studies link core concepts with examples from local to international scales.  
Attributes: Environment,TechSociety(Disc)  

GEOG 473 - Elements of Weather  
Credits: 4  
Basic principles of weather phenomena and the physical processes underlying these phenomena. Emphasis on weather patterns of New England. Lab.  
Attributes: Discovery Lab Course; Physical Science(Discovery)  

GEOG 500 - Making Change: Environmental Justice Practicum  
Credits: 4  
Provides students with opportunities to link a personal philosophy and professional action plan for environmental justice, thereby bridging understandings of both social justice and environmental conservation. Spanning theoretical and practical perspectives, students will learn basic grant writing skills that are useful in a range of careers, particularly in the non-profit and government sectors.  

GEOG #514 - Geography of the United States and Canada  
Credits: 4  
An introduction to the physical and human geography of the United States and Canada, including landforms, climate and biogeography, environmental issues, population and settlement, culture and identity, political geography, urban patterns, natural resources and economic development. Course content alternates between topics that are large in scope and scale, and others that are more narrowly focused.
GEOG #520 - Geography of Latin America and the Caribbean
Credits: 4
Utilizes regional and topical approaches to explore the physical, cultural, and historical geography of Latin America and the Caribbean. Particular aspects of the economy, politics, language, religion, and ethnicity is examined. The goal of the course is to lay a foundation for critical analysis of historical and contemporary concerns such as environmental issues, uneven development and poverty, social conflict and violence, and international relations.

GEOG 530 - Geography of China
Credits: 4
This course will examine China's diverse physical environments, politics, economies, and cultures across her vast territory. Students will learn to adopt a relational and spatial perspective to study the contemporary issues in China.
Attributes: World Cultures(Discovery)
Equivalent(s): GEOG 530W

GEOG 530W - Geography of China
Credits: 4
This course will examine China's diverse physical environments, politics, economies, and cultures across her vast territory. Students will learn to adopt a relational and spatial perspective to study the contemporary issues in China. Writing intensive.
Attributes: World Cultures(Discovery); Writing Intensive Course
Equivalent(s): GEOG 530

GEOG 540 - Geography of the Middle East
Credits: 4
Environmental, cultural, political-geographic, and ecological foundations of the Middle East. Selected regional problems and issues, e.g., geographical dimensions of the Arab-Israeli conflict, oil, urbanization, population growth, and nomadism.
Attributes: World Cultures(Discovery)

GEOG 550 - Geography of Sub-Saharan Africa
Credits: 4
Overview of major physical features and human patterns, with an emphasis on the interaction between people and place and the dynamic issues and challenges facing contemporary African societies. Environmental and resource issues, historical impacts on development, culture and social characteristics, rural and urban organization, industrialization and trade, and prospects for the future.
Attributes: World Cultures(Discovery)

GEOG 560 - Natural Hazards and Human Disasters
Credits: 4
A survey of natural hazards, including earthquakes, volcanoes, tsunami, floods, drought, hurricanes and severe weather, and the human disasters they cause. The geography of community vulnerability to natural hazards and the factors that influence risk and recovery are also examined.
Attributes: Environment, TechSociety(Disc)

GEOG 572 - Geography of the Natural Environment
Credits: 4
Provides an introduction to geography of the natural environment, including landforms, weather and climate, water resources, and biogeography. Examines the processes that shape the different elements of the environment and the relationships between them.
Attributes: Physical Science(Discovery)

GEOG #573 - Biogeography
Credits: 4
Explores the introductory concepts of plant geography and biogeography, two interconnected disciplines that document and explain the changing distributions of plants and animals from both a spatial and temporal context. Gives equal emphasis to ecology (biomes, climates, soils), evolution (migration, speciation, dispersal), and applied biogeography and plant geography.
Equivalent(s): EC 740, GEOG 673, GEOG 740

GEOG 574 - Global Geomorphology
Credits: 4
A survey of earth's major landforms and the geographic factors that influence their development, distribution, and morphology. Topics include mountain building, river systems, desert migration and expansion, glacial and periglacial environments, and shoreline evolution. Emphasizes how these processes interact to form surface features that are unique to their geographic environment.
Attributes: Physical Science(Discovery)

GEOG 581 - Human Geography
Credits: 4
Differentiation of the world in terms of population, race, language, religion, political territory, and economic life. Collection and critical use of empirical data; emphasis on spatial and ecological analysis.
Attributes: Social Science (Discovery); Inquiry (Discovery)

GEOG 5810 - Human Geography
Credits: 4
Differentiation of the world in terms of population, race, language, religion, political territory, and economic life. Collection and critical use of empirical data; emphasis on spatial and ecological analysis.
Attributes: Social Science (Discovery)

GEOG 582 - Global Trade and Local Development
Credits: 4
This course examines the ways in which global trade interacts with local development across the world. It studies the special organization of economic activities through basic approaches in economic geography. It also studies the history and contemporary state of international competition and collaboration.
Attributes: Social Science (Discovery)

GEOG 582W - Global Trade and Local Development
Credits: 4
This course examines the ways in which global trade interacts with local development across the world. It studies the special organization of economic activities through basic approaches in economic geography. It also studies the history and contemporary state of international competition and collaboration. Writing intensive.
Attributes: Social Science (Discovery); Writing Intensive Course
Equivalent(s): GEOG 582

GEOG #583 - Urban Geography
Credits: 4
Spatial structure of cities and the city system. Emphasizes the North American city and its problems: land use, transportation, political fragmentation, physical environment, and residential patterns. Trends in urbanization in the developed and developing worlds. Global cities. (Not offered every year.)
GEOG 584 - Political Geography
Credits: 4
Interactions between geographic and political phenomena at the sub-national, national, and international levels. Emphasis on geographical aspects of current political problems within and between states. (Not offered every year.) Writing intensive.
Attributes: Writing Intensive Course

GEOG 590 - Field Research
Credits: 4
Explores a range of research methods, emphasizing collection and analysis of field data to understand human-environment dynamics and/or spatial relations. Topics include ethics, sample design, surveys, interviews, participant observation, and qualitative and quantitative analyses. Students complete hands-on research activities.
Equivalent(s): GEOG 650

GEOG 591 - Making Maps
Credits: 4
Introduces how to make a map from start to finish, designed for students with no background in computer technology. Covers basic knowledge and skills in geographic information system, graphic design, and computer visualization. Walks students through some of the most popular applications for map making.

GEOG 595 - Statistics for Spatial Science
Credits: 4
Introduces elementary statistics to students of social sciences from a spatial perspective. It is designed to help students approach introductory-level quantitative analysis using basic statistical problem-solving techniques with social and physical science data models. These elementary statistical tools and concepts will be explained during classroom lectures and proficiency obtained during practical exercises.

GEOG 658 - Introduction to Geographic Information Systems
Credits: 4
Introduces the use of geographic information systems (GIS) for natural resources and related fields. Data models/structures, map projections, data input/output/storage, data analysis/modeling, interpolation, and data quality/standards. Hands-on lab using ArcGIS software. Students are strongly encouraged to complete an introductory course in statistics before enrolling in course. Restricted to GEOG majors or permission. (Also offered as NR 658).
Equivalent(s): NR 658

GEOG 670 - Climate and Society
Credits: 4
An introduction to climate science and the interaction between humans and climate. Examines the processes that control climate, the mechanisms that drive climate change, and the impact of climate change on society. Writing intensive.
Attributes: Writing Intensive Course
Equivalent(s): GEOG 570

GEOG 671 - Weather Forecasting
Credits: 4
Examines in depth, the physical processes that govern the development and movement of weather systems. Topics include the relationship between surface and upper-level winds, vertical motion and pressure systems, storm development, and techniques used in weather forecasting.

GEOG 673 - Political Ecology
Credits: 4
Examines human-environment relations through the geographic subfield of political ecology, integrating social and biophysical sciences. Emphasizes cross-scalar relationships in resource decisions and community development, with substantial coverage of rural, non-US contexts. Seminar-style course with regular readings, writings and discussion. Writing intensive.
Attributes: Writing Intensive Course
Equivalent(s): GEOG #573

GEOG 685 - Population and Development
Credits: 4
A regional approach to the study of population geography with concern for the interaction between the focus of economic growth and the components of population change and development. Considers the environmental impact of developing trends in the developed and developing worlds and the relationship of these trends to sustainable growth and population patterns.
Attributes: Writing Intensive Course

GEOG 686 - World Economy and Globalization
Credits: 4
Emphasizes the spatial development of the world economy and the evolution into today’s “globalized” economy. Topical emphasis includes the processes of global economic production changes, the role of transnational corporations, and the role of the state in globalization. Writing intensive.
Attributes: Writing Intensive Course

GEOG #690 - Geography of Third World Development
Credits: 4
Explores the geography of development in the Third World (Africa, Asia, Latin America, and Oceania). Addresses factors that affect development spatially and temporarily. Emphasis on geographic scale (local, national, regional, and global). Students write and present critical thinking papers that address the interactions of development factors at different scales.

GEOG 695 - Internship
Credits: 1-4
Internships provide an opportunity for on-the-job skill development and practical experience in a closely supervised work setting. The student must provide a written proposal to a supervising faculty member before an internship program is approved. At the end of the semester, the student must make a presentation, provide work samples, or submit a detailed report, log, or portfolio describing the internship experience. Cr/F.
Repeat Rule: May be repeated for a maximum of 8 credits.

GEOG 757 - Remote Sensing of the Environment
Credits: 4
Practical and conceptual presentation of the use of remote sensing and other geospatial technologies for mapping the environment. The course begins with the use of aerial photographs (Photogrammetry and photo interpretation) and includes measures of photo scale and area, parallax and stereo viewing, object heights, flight planning, photo geometry, the electromagnetic spectrum, camera image analysis, global positioning systems (GPS), and geographic information systems (GIS). Conceptual lectures are augmented with practical homework assignments and hands-on lab exercises. Prereq: Algebra. Special fee. Lab. (Also offered as NR 757).
Equivalent(s): FOR 757, FORS 757, NR 757
GEOG 759 - Digital Image Processing for Natural Resources
Credits: 4
Introduces digital remote sensing including multispectral scanners (Landsat and SPOT) radar, and thermal imagery. Hands-on image processing including filtering, image display, ratios, classification, registration, and accuracy assessment. GIS as it applies to image processing. Discussion of practical applications. Use of ERDAS image-processing software. Knowledge of PCs required. Prereq: GEOG 757 or equivalent and permission. (Also offered as NR 759).
Equivalent(s): NR 759
GEOG 760 - Geographic Information Systems in Natural Resources
Credits: 4
This course in geographic information systems (GIS), covers advanced theory, concepts, and applications of GIS for natural resource and related disciplines. Discussion of database structures, data sources, spatial data manipulation/analysis/modeling, data quality and assessment. Students conduct a project of their design exploring aspects of GIS most useful to them. Lecture emphasizes concepts and applications through a text and selected peer reviewed articles. Lab uses the latest version of ArcGIS software and provides hands on experience. Prereq: Introductory GIS course. Permission required. (Also listed as NR 760).
Equivalent(s): NR 760
GEOG 795 - Special Project
Credits: 2 or 4
Attributes: Writing Intensive Course
GEOG 796 - Special Topics
Credits: 4
GEOG 797 - Seminar
Credits: 2
Exploration of geography as a research discipline. Definition and investigation of research problems. Primarily for geography seniors.
Repeat Rule: May be repeated for a maximum of 4 credits.
GEOG 799 - Honors Thesis
Credits: 4
Independent research project conducted under supervision of a faculty sponsor culminating in a written thesis. Students must also make a public presentation of their thesis. Required for all honors students. Open only to geography majors who are part of the honors program. Before registering for the course, students must secure a faculty sponsor, obtain approval for a thesis topic, and complete an honors thesis student/sponsor agreement. Only open to Geography majors.

German (GERM)

# Course numbers with the # symbol included (e.g. #400) have not been taught in the last 3 years.

GERM 401 - Elementary German I
Credits: 4
For students without previous training in German. Aural comprehension, speaking, writing, reading in a cultural context. No credit for those with two or more years of German in secondary school.

GERM 402 - Elementary German II
Credits: 4
See description for GERM 401.
Attributes: Foreign Language Requirement
GERM 500 - Selected Topics in World Literature
Credits: 4
Topics are chosen that introduce students to major themes and genres. May be repeated for credit. Credit/Fail.
Attributes: Writing Intensive Course
Repeat Rule: May be repeated up to 4 times.
Equivalent(s): FREN 500, PORT 500, RUSS 500, SPAN 500
GERM 503 - Intermediate German I
Credits: 4
Review of grammar; practice in oral and written expression; readings and cultural material. Prereq: GERM 401, GERM 402 or equivalent. Labs.
Attributes: World Cultures(Discovery); Foreign Language Requirement
GERM 504 - Intermediate German II
Credits: 4
Review of grammar; practice in oral and written expression; readings and cultural material. Labs. Prereq: GERM 503 or equivalent.
Attributes: World Cultures(Discovery)
GERM 521 - Major German Authors in English
Credits: 4
Selected masterpieces of the 18th, 19th, and 20th centuries by authors such as Goethe, Mann, Kafka, Hesse, Bachmann, Koeppen, Brecht, Frisch, Wolf, and Durrenmatt. Readings and discussions in English. May be taken for major or minor credit.
Attributes: Humanities(Disc); Writing Intensive Course
Equivalent(s): WLC 521G
GERM 524 - German Cinema
Credits: 4
Acquaints students with major German film texts. Using analytical and critical tools, students read film texts as aesthetic works (with a form and a narrative) and as historical works (with a social function). Through cinema, the course explores German society and history. The course is conducted in English. May be taken for Major or Minor credit.
Attributes: Humanities(Disc); Writing Intensive Course
Equivalent(s): GERM 524H, WLC 524G
GERM 525 - Introduction to German Culture and Civilization
Credits: 4
Aspects of the political, social, and cultural life of Germany, Austria, and Switzerland. Conducted in English. Strongly recommended for any students planning study abroad in a German-speaking country. Required for the major, can be taken for the minor.
Attributes: World Cultures(Discovery); Inquiry (Discovery)
Equivalent(s): GERM 525H, WLC 525G
GERM 525H - Honors/Introduction to German Culture and Civilization
Credits: 4
Aspects of the political, social, and cultural life of Germany, Austria, and Switzerland. Conducted in English. Strongly recommended for any students planning study abroad in a German-speaking country. Required for the major, can be taken for the minor.
Attributes: World Cultures(Discovery); Inquiry (Discovery)
Equivalent(s): GERM 525, WLC 525G
GERM 586 - Study in Berlin
Credits: 8
Gives students an immersion experience in the German language and culture. Students will study 5 weeks in Berlin, where they will take an intensive language course (80 hours) at the BSI Private Language School, receive cultural instruction from the on-site UNH faculty member, and pursue an individual research project. Permission required. Special fee.
Co-requisite: INCO 589
Repeat Rule: May be repeated for a maximum of 8 credits.

GERM 595 - Internship
Credits: 2-4
The German internship consists of placement in an approved business, social services or educational organization in a German-speaking context with on-site supervision. Student is responsible for keeping a journal to be evaluated by a UNH faculty mentor. Site supervisor evaluates intern's work on location in consultation with UNH mentor. May count up to 4 credits towards German Major or Minor and an additional 4 as graduation elective. Does not replace Study Abroad requirement for major. Prereq: GERM 504. Cr/F.
Repeat Rule: May be repeated for a maximum of 4 credits.

GERM 596 - Practicum
Credits: 2
Practical use of German language and culture through special projects outside the classroom. Permission. Cr/F.
Repeat Rule: May be repeated for a maximum of 4 credits.

GERM 631H - Honors/Advanced Communications Skills I
Credits: 4
Intensive practice in vocabulary building and developing a sense of appropriate style for various contexts of oral and written communication. Discussion and writing on topics of current interest, written and oral reports, role play, and simulation of everyday situations. Required for German majors and minor. Prereq: GERM 504.
Attributes: Writing Intensive Course
Equivalent(s): GERM 631, GERM 631W

GERM 631W - Advanced Communications Skills I
Credits: 4
Intensive practice in vocabulary building and developing a sense of appropriate style for various contexts of oral and written communication. Discussion and writing on topics of current interest, written and oral reports, role play, and simulation of everyday situations, reinforced by written work. Required for German major and minor. Prereq: GERM 504.
Attributes: Writing Intensive Course
Equivalent(s): GERM 631, GERM 631H

GERM 632 - Advanced Communications Skills II
Credits: 4
Intensive practice in vocabulary building and coherent expression in a variety of stylistic contexts. Special emphasis on writing skills, from expository prose to letter and resume writing, essays, journalistic reports, and creative writing, focusing on topics of current interest. Required for the German major. Prereq: GERM 504.

GERM 685 - Study Abroad
Credits: 16
A summer, semester, or year of study in one or a combination of the departmentally recognized programs, or any other appropriate, approved programs. Open to students of any major with GERM 504 or equivalent training. Financial aid applies to all approved programs. Interested students should inquire at department for program brochures and specific requirements and should apply in consultation with a German adviser. For information on other study abroad programs, students should contact the Global Education Center. Cr/F. An IA (continuous grading) grade will be assigned until an official transcript is received from the foreign institution. Special Fee.
Attributes: World Cultures(Discovery)

GERM 686 - Study Abroad
Credits: 16
A summer, semester, or year of study in one or a combination of the departmentally recognized programs, or any other appropriate, approved programs. Open to students of any major with GERM 504 or equivalent training. Financial aid applies to all approved programs. Interested students should inquire at department for program brochures and specific requirements and should apply in consultation with a German adviser. For information on other study abroad programs, students should contact the Global Education Center. Cr/F. An IA (continuous grading) grade will be assigned until an official transcript is received from the foreign institution. Special Fee.
Attributes: World Cultures(Discovery)

GERM 728 - Modern German Literature
Credits: 4
Major literary movements from 1872 to 1945. Reading and analysis of selected works. Conducted in German.
Attributes: Writing Intensive Course
Equivalent(s): GERM 728H

GERM 728H - Honors/Modern German Literature
Credits: 4
Major literary movements from 1872 to 1945. Reading and analysis of selected works. Conducted in German.
Attributes: Writing Intensive Course
Equivalent(s): GERM 728

GERM 732 - Public Discourse and Current Affairs
Credits: 4
Conducted in German. Public discourse and current affairs in German speaking societies. Analysis and interpretation of various media and contemporary events. Refinement of writing and stylistics with particular focus on grammatical accuracy and advanced composition.
Attributes: Writing Intensive Course

GERM 745 - Contemporary German Literature and Culture
Credits: 4
Literary and cultural trend in the German-speaking countries since 1945. Analysis and interpretation of works by major authors. Conducted in German. Prereq: GERM 504.
Attributes: Writing Intensive Course
Equivalent(s): GERM 645, GERM 645H

GERM 795 - Independent Study
Credits: 1-4
Open to highly qualified juniors and seniors. To be elected only with permission of the department chairperson and supervising faculty member(s). Barring duplication of subject, may be repeated for credit.
Repeat Rule: May be repeated up to 4 times.
Equivalent(s): GERM 795H
GERM 795H - Honors/Independent Study
Credits: 1-4
Open to highly qualified juniors and seniors. To be elected only with permission of the department chairperson and supervising faculty member(s). Barring duplication of subject, may be repeated for credit.
Repeat Rule: May be repeated up to 4 times.
Equivalent(s): GERM 796

GERM 796 - Independent Study
Credits: 1-4
Open to highly qualified juniors and seniors. To be elected only with permission of the department chairperson and supervising faculty member(s). Barring duplication of subject, may be repeated for credit.
Repeat Rule: May be repeated up to 4 times.
Equivalent(s): GERM 796

GERM 797 - Special Studies in German Language and Literature
Credits: 4
Selected topics in language, culture, and literature. Conducted in German.

GERM 798 - Special Studies in German Language and Literature
Credits: 2 or 4
Selected topics in language, culture, and literature. Conducted in German.

Gerontology (GERO)

# Course numbers with the # symbol included (e.g. #400) have not been taught in the last 3 years.

GERO 500 - I'm Old, So What! An introduction to aging in the United States
Credits: 4
This is the first of two mandatory courses for the GERO Minor, but any student may take it as an elective. It introduces the learner to the field of gerontology (the study of how people age). It explores the biological, psychosocial, and cognitive changes within the context of society. The history of ageism and its influence on how it has affected the individual, families, and society is presented. The range of independence among older people is examined. Various disciplines that work within the field of gerontology are reviewed. Lectures, novels, films and guest speakers help to examine growing old in the U.S. Writing intensive.
Attributes: Writing Intensive Course
Equivalent(s): GERO 600

GERO 795 - Independent Study
Credits: 1-6
Open to Gerontology Minor students only. Content area determined by student and faculty mentor, topic must have a major aging component. A proposal of work must be signed by both student and faculty mentor and given to the Gerontology Minor Coordinator for final approval. Proposals are filed in the student's declared major academic folder. Work may be completed over two semesters, especially if it involves thesis/internship work. Credits compensatory with work: 1 to 6. Prereq: GERO 500 and KIN 607.
Repeat Rule: May be repeated for a maximum of 6 credits.

Global Student Success Program (GSSP)

# Course numbers with the # symbol included (e.g. #400) have not been taught in the last 3 years.

GSSP 101 - Integrated Learning Skills
Credits: 0
GSSP 102 - Integrated Learning Skills
Credits: 0
GSSP 103 - Transition Orientation Program
Credits: 0
GSSP 401 - Navigating the Graduate Student Pathway
Credits: 3
This course was developed to assist international students in developing and enhancing skills needed for academic success at the University of New Hampshire. Students will be exposed to readings, individual and group work, class conversations and opportunities to interact with other graduate students, as well as faculty and staff. Additionally, students will visit various experts and facilities on campus that will support graduate student success. May not be taken for credit toward a graduate or bachelor's degree.

GSSP 402 - Academic Communication for Graduate Students
Credits: 3
This course provides international students with the communicative skills needed to successfully engage in the worlds of academia and professionalism. It includes skills in interpersonal communication, small group participation, graduate-level presentations and research discussions in various academic disciplines. Students are afforded opportunities to utilize the skills learned in this course. May not be taken for credit toward a graduate or bachelor's degree.

GSSP 403 - Research Methods for Graduate Students
Credits: 3
This course introduces international students to investigate skills needed to critically review and design research. It includes skills in using academic databases, synthesizing research and collecting and analyzing data, and presentations skills. May not be taken for credit toward a graduate or bachelor's degree.

GSSP 404 - Intercultural Issues for Graduate Students
Credits: 3
This course was developed to assist international students in developing and enhancing skills needed for academic success at the University of New Hampshire. Students will be exposed to readings, individual and group work, class conversations and opportunities to interact with other graduate students, as well as faculty and staff. Additionally, students will visit various experts and facilities on campus that will support graduate student success. May not be taken for credit toward a graduate or bachelor's degree.

Greek (GREK)

# Course numbers with the # symbol included (e.g. #400) have not been taught in the last 3 years.
GREK 400 - Grammar for Students of Greek
Credits: 1
A one-semester review of grammar provides a background in concepts for those students who have never studied Greek or who need review. Weekly meetings introduce topics; readings and assignments reinforce them. Enrollment is limited to students enrolled in GREK 401 and GREK 402. Course does not count toward major or minor requirements. May be repeated for up to 2 credits. Coreq: GREK 401 or GREK 402. Cr/F.
Repeat Rule: May be repeated for a maximum of 2 credits.
Equivalent(s): CLAS 400

GREK 401 - Elementary Classical Greek I
Credits: 4
Grammar, simple composition, and translation. For students without previous training in Greek. Special fee.

GREK 402 - Elementary Classical Greek II
Credits: 4
Grammar, simple composition, and translation. For students without previous training in Greek. Special fee.
Attributes: Foreign Language Requirement

GREK 403 - Elementary Modern Greek I
Credits: 4
Aural-oral practice and the study of fundamental speech patterns, reading, and writing to achieve a firm basis for an active command of the language. (No credit for students who have had two or more years of modern Greek in secondary school.) Special fee.

GREK 404 - Elementary Modern Greek II
Credits: 4
Aural-oral practice and the study of fundamental speech patterns, reading, and writing to achieve a firm basis for an active command of the language. (No credit for students who have had two or more years of modern Greek in secondary school.) Special fee.

GREK 500 - Intermediate Classical Greek I
Credits: 4
Attributes: World Cultures(Discovery)

GREK 501 - Intermediate Classical Greek II
Credits: 4
Attributes: World Cultures(Discovery)

GREK 502 - Intermediate Modern Greek I
Credits: 4
Short selections from modern Greek literature with grammar review and oral practice. Readings from such authors as Solomos, Cavafy, Palamas, Kazantzakis, Venezis, Myrivilis, Seferis, and Elytis. Prereq: GREK 404 or equivalent. Special fee.
Attributes: World Cultures(Discovery)

GREK 503 - Intermediate Modern Greek II
Credits: 4
Short selections from modern Greek literature with grammar review and oral practice. Readings from such authors as Solomos, Cavafy, Palamas, Kazantzakis, Venezis, Myrivilis, Seferis, and Elytis. Prereq: GREK 404 or equivalent. Special fee.
Attributes: World Cultures(Discovery)

GREK 504 - Intermediate Modern Greek II
Credits: 4
Attributes: World Cultures(Discovery)

GREK 505 - Intermediate Modern Greek I
Credits: 4
Short selections from modern Greek literature with grammar review and oral practice. Readings from such authors as Solomos, Cavafy, Palamas, Kazantzakis, Venezis, Myrivilis, Seferis, and Elytis. Prereq: GREK 404 or equivalent. Special fee.

GREK 506 - Intermediate Modern Greek II
Credits: 4
Short selections from modern Greek literature with grammar review and oral practice. Readings from such authors as Solomos, Cavafy, Palamas, Kazantzakis, Venezis, Myrivilis, Seferis, and Elytis. Prereq: GREK 404 or equivalent. Special fee.
Attributes: World Cultures(Discovery)

GREK 505 - Directed Reading in Greek
Credits: 2 or 4
Independent study of a classical, Byzantine, or modern Greek author. Prereq: GREK 503, GREK 504, GREK 505, and GREK 506, or equivalent. Special fee.
Repeat Rule: May be repeated for a maximum of 8 credits.

GREK 595 - Directed Reading in Greek
Credits: 2 or 4
Independent study of a classical, Byzantine, or modern Greek author. Prereq: GREK 503, GREK 504, GREK 505, and GREK 506, or equivalent. Special fee.
Repeat Rule: May be repeated for a maximum of 8 credits.

GREK 635 - Third Year Modern Greek I
Credits: 4
Rapid review of basic grammatical structures and in-depth study of more complex linguistic patterns. Vocabulary building. Frequent compositions and oral presentations using materials on contemporary culture and literary texts as well as various media. Students develop oral/aural skills in lab and class. Prereq: GREK 505 and GREK 506; or GREK 595 and GREK 596 (if approved) with a grade of C or better. Special fee.

GREK 636 - Third Year Modern Greek II
Credits: 4
Rapid review of basic grammatical structures and in-depth study of more complex linguistic patterns. Vocabulary building. Frequent compositions and oral presentations using materials on contemporary culture and literary texts as well as various media. Students develop oral/aural skills in lab and class. Prereq: GREK 505 and GREK 506; or GREK 595 and GREK 596 (if approved) with a grade of C or better.

GREK 751 - Homer and the Archaic Period
Credits: 4
Readings from the Iliad, the Odyssey, the Homeric hymns, Hesiod, Pindar, and the lyric poets. Prereq: permission.

GREK 753 - Advanced Study in Athenian Literature
Credits: 4
Repeat Rule: May be repeated for a maximum of 8 credits.

GREK 754 - Advanced Study in Athenian Literature
Credits: 4
Repeat Rule: May be repeated for a maximum of 8 credits.
GREQ 795 - Special Studies
Credits: 4
A) Pre-Socratic Philosophers; B) Hellenistic Greek Authors; C) Menander; D) Callimachus; E) Apollonius of Rhodes; F) Theocritus; G) Polybius; H) Greek Authors of the Roman Empire; I) Plutarch; J) Septuagint; K) New Testament; L) Greek Church Fathers; M) Byzantine Authors; N) Spoken Greek O) Advanced Greek Composition; P) Introduction to Classical Scholarship; Q) Greek Epigraphy; R) Greek Dialects; S) Comparative Grammar of Greek and Latin; T) Homer: A Linguistic Analysis; U) Greek Institutions; V) Paleography and Textual Criticism. Topics selected by instructor and student in conference. Prereq: permission. Each special topic may be repeated two times.
Attributes: Writing Intensive Course
Repeat Rule: May be repeated for a maximum of 8 credits.

GREQ 796 - Special Studies
Credits: 4
A) Pre-Socratic Philosophers; B) Hellenistic Greek Authors; C) Menander; D) Callimachus; E) Apollonius of Rhodes; F) Theocritus; G) Polybius; H) Greek Authors of the Roman Empire; I) Plutarch; J) Septuagint; K) New Testament; L) Greek Church Fathers; M) Byzantine Authors; N) Spoken Greek O) Advanced Greek Composition; P) Introduction to Classical Scholarship; Q) Greek Epigraphy; R) Greek Dialects; S) Comparative Grammar of Greek and Latin; T) Homer: A Linguistic Analysis; U) Greek Institutions; V) Paleography and Textual Criticism. Topics selected by instructor and student in conference. Prereq: permission. Each special topic may be repeated two times.
Attributes: Writing Intensive Course
Repeat Rule: May be repeated for a maximum of 8 credits.

Health & Human Services (HHS)

# Course numbers with the # symbol included (e.g. #400) have not been taught in the last 3 years.

HHS 401 - College of Health and Human Services Seminar
Credits: 1 or 2
This course is an introduction to the curricular and co-curricular aspects of the University and specifically the College of Health and Human Services. The course will focus on resource navigation, major and career exploration and fostering "knowledge for healthy living". Permission required.

HHS 444 - The Right to be Disabled in the Extreme Makeover Society
Credits: 4
Explores how society’s view of disability, its "construction," is influenced by a variety of cultural variables and the implications of that construction on institutions such as medicine and health care, education, the arts, the legal system, architecture and engineering, etc.
Attributes: Social Science (Discovery), Inquiry (Discovery)

HHS 540 - Statistics for Health and Human Service Professionals
Credits: 4
A conceptual and analytical approach to the use of statistics in the health and human service professions. Emphasizes the logic and purpose of statistics. Attention to special problems of statistical design such as random assignment, single subject trials, and the ethics of control groups. Basic computer skills for manipulating data.
Attributes: Quantitative Reasoning(Disc)
Mutual Exclusion: No credit for students who have taken ADM 430, ADMN 420, BIOL 528, EREC 525, MATH 439, MATH 539, MATH 644, PSYC 402, PSYC 402H, SOC 402, SOC 402H, SOC 502, SOC 502H.

HHS 598 - Special Topics
Credits: 2
Repeat Rule: May be repeated for a maximum of 4 credits.

HHS 698 - Special Topics
Credits: 1-4
Repeat Rule: May be repeated up to unlimited times.

HHS 798 - Special Topics
Credits: 1-4
Repeat Rule: May be repeated for a maximum of 8 credits. May be repeated up to 7 times.

HHS 798W - Special Topics
Credits: 1-4
Attributes: Writing Intensive Course
Repeat Rule: May be repeated for a maximum of 8 credits. May be repeated up to 7 times.

Health and Physical Education (HPE)

# Course numbers with the # symbol included (e.g. #400) have not been taught in the last 3 years.

HPE 500 - Introduction to Health and Physical Education
Credits: 2
This course is intended to lay the foundation for future Health and PE pedagogy courses. Topics of discussion will include the role of health and physical education in today's society, "old" versus "new" physical education and philosophy of education and physical education. Also, wellness and health promotion, teaching health via a skills-based approach, outcomes and assessments, career and professional considerations of teaching and future trends within the profession.
Equivalent(s): KIN 500
HPE 570 - Elementary Physical Education Practicum  
Credits: 4  
As a prospective teacher, you will be asked to examine, discuss, and implement teaching strategies learned in HPE 610 - Elementary Physical Education Pedagogy. Sixty hours of observation and teaching in the schools will be expected. As this is a "gateway" course to student teaching or the 5th year internship, it is expected that students invest efforts into the development of pedagogical skills needed for effective teaching. Prereq: HPE 610.  
Attributes: Writing Intensive Course  
Equivalent(s): KIN 570  
HPE 600 - Movement and Gymnastics Exploration  
Credits: 4  
This course is designed to enhance the students' knowledge of and ability to demonstrate, implement, and evaluate the movement fundamentals and gymnastics skills and progressions that forms the foundation of preschool, elementary, and secondary school physical education content. The course will combine the elements of movement education and gymnastics progressions to develop a basis for students to learn the fundamentals of movement and how to teach them.  
Equivalent(s): KIN 600  
HPE 601 - Lifetime Sports  
Credits: 3  
This course is designed to acquaint students with a variety of lifetime sports. The emphasis will be placed on students' ability to effectively participate in, teach and assess various activities. The following lifetime sports will be covered: cross country skiing, snowshoeing, badminton, pickle ball, tennis, fitness-related activities, weight training and golf.  
Equivalent(s): KIN 601  
HPE 603 - Team Sports  
Credits: 3  
This course is designed to expose students to the teaching of games through a tactical approach. This approach places a heavy emphasis on small-sided, modified games with subsequent question and answer sessions. The course will focus on instruction, game play, skill development, and analysis leading to playing competence and knowledge of teaching in soccer, ultimate Frisbee, basketball, handball, flag football, volleyball and softball.  
Equivalent(s): KIN 603  
HPE 610 - Elementary Physical Education Pedagogy  
Credits: 4  
This course is designed for future physical education teachers focusing primarily on "what" and "how" to teach elementary physical education. The class adopts a skill theme and movement concept approach to the curriculum. Teaching skills will be developed through readings, lecture/discussion, assignments, peer teaching and teaching children in the gymnasium.  
Equivalent(s): KIN 610  
HPE 648 - Current Issues in Teaching Health  
Credits: 4  
This course provides the background information and skills teachers need to implement a health education program in schools at the grade levels in which they are certified. Aligned with the CDC Characteristics for Effective Health Education the course introduces the National Health Education Standards and prepares students in the development of teaching skills needed for implementing effective health education while including functional information based on local data and student need.  
Equivalent(s): KIN 648  
HPE 653B - Biomechanics of Human Movement  
Credits: 2  
Principles and methodology of analyzing movement in sport and physical education using principles of biomechanics and physics. Uses videos and field-based methodology to facilitate students' understanding of movement analysis and applying analyses to teaching and coaching. Prereq: BMS 507 and BMS 508.  
Equivalent(s): KIN 653B  
HPE 655 - Middle School and Secondary Physical Education Pedagogy  
Credits: 4  
Course content will include concepts related to effective teaching such as: planning, organization, communication, management, modifications, and evaluation. Mosston's spectrum of teaching styles will be discussed in relationship to meeting the individual needs of students. Curriculum models will be discussed in order to show the range of content available to physical educators. Application of theoretical concepts will occur in peer teaching episodes.  
Equivalent(s): KIN 655  
HPE 666 - Middle School and Secondary Physical Education Practicum  
Credits: 4  
Students in this course will be given the opportunity to spend 60 hours in a middle or high school observing, assisting and teaching physical education classes. These experiences will be augmented by weekly seminars whereby issues pertaining to focused observations and thoughts related to teaching and learning will be discussed. A major culminating "I Believe" paper will be required.  
Attributes: Writing Intensive Course  
Equivalent(s): KIN 666  
HPE 671 - Health Education Pedagogy  
Credits: 4  
This course provides a foundation for teaching health education in K-12 settings. Aligned with the CDC Characteristics for Effective Health Education, the course builds on previous knowledge of the National Health Education Standards and other appropriate practices while preparing pre-service teachers to increase the health literacy and proficiency levels of their future students.  
Equivalent(s): KIN 671  
HPE 675 - Motor Development and Learning  
Credits: 4  
This class examines motor development throughout the life-span utilizing an ecological perspective that incorporates the individual, the environmental conditions and the required tasks. The class is divided into 4 modules. Modules include the theoretical underpinnings of motor development, elements of fitness, assessment, and individual constraints. The class concludes with peer teaching episodes.  
Equivalent(s): KIN 675  
HPE 676 - Adventure Activities  
Credits: 3  
This course provides for the acquisition of knowledge and skills for students to utilize adventure education methods and philosophies when teaching physical education through an experiential pedagogy. Students will be exposed to adventure methodologies: climbing, orienteering, initiatives, low ropes course and high ropes course. Students will realize facilitation and teaching strategies through peer and practice teaching with local students from Oyster River Middle School in Durham.  
Equivalent(s): KIN 676
HPE 693 - Teaching Assistantship in HPE  
Credits: 2  
This course provides the opportunity for a student to work with a member of the HPE faculty in an experience to be determined and agreed upon.  
Cr/F.  
Repeat Rule: May be repeated for a maximum of 4 credits.

HPE 694 - Supervised Teaching in Health and Physical Education  
Credits: 6  
Students in this course will be involved in observing, assisting and teaching health and physical education classes in local schools as their culminating experience in the HPE major. These experiences will be augmented by weekly seminars whereby issues pertaining to focused observations and thoughts related to teaching and learning will be discussed. Throughout the duration of this course, students will be asked to reflect on the teaching they observe as well as their own teaching.  
Co-requisite: EDUC 694D  
Equivalent(s): KIN 694

HPE 696 - Independent Study in Health and/or Physical Education  
Credits: 2-4  
An advanced, individual scholarly project under the direct supervision of a faculty member. Prereq: junior or senior; departmental approval.  
Repeat Rule: May be repeated for a maximum of 8 credits. May be repeated up to 4 times.

HPE 696W - Independent Study  
Credits: 2-4  
An advanced, writing-intensive, individual scholarly project under the direct supervision of a faculty member. Student and Faculty Adviser will prepare a written proposal that outlines: the questions to be pursued, the methods of investigation, the student’s qualifications to conduct the research, the nature of the finished written product (e.g. case study, position paper, extended lab report). This proposal must be approved by the major faculty and the department chair prior to the student’s registration for HPE 696 W1. All HPE 696 W1 projects must include: Some forms of informal, ungraded writing such as a journal, reading summaries, draft chapters, or invention activities. Regular writing interaction between student and faculty adviser (i.e. at least weekly or biweekly), to include written feedback from the adviser. A finished product that is polished via revision. Faculty sponsors and students should consult the resources and guidelines of the UNH Writing Program. Prereq: junior or senior; departmental approval.  
Attributes: Writing Intensive Course  
Repeat Rule: May be repeated for a maximum of 8 credits. May be repeated up to 4 times.

HPE 699H - Honors Project  
Credits: 4  
Project first involves tutorial sessions to introduce the student to the experimental design, after which a research question is developed. After an appropriate literature review, the student collects and analyzes data, forms conclusions, and prepares a written report on the findings.

HPE 702 - Health Content and Youth Risk Behavior  
Credits: 4  
Explore topics related to adolescent health, well-being, and risk behaviors that are relevant in the health education classroom today. Grounded in health behavior theories and behavior change, students explore ten dimensions of wellness: Cultural, Emotional, Environmental, Financial, Intellectual, Occupational, Physical, Sexual, Social, and Spiritual. Students develop a content base for teaching Standard 1 of the National Health Education Standards in coordination with the skill standards as outlined by the NH Health Education Curriculum Guidelines. Prereq: HPE 648.  
Equivalent(s): KIN 702

HPE 712 - Health Education Practicum  
Credits: 4  
This practicum provides prospective educators an opportunity to observe, develop and practice teaching skills in the health classroom. Students are expected to accumulate 60 hours of observing, assisting and teaching experience in schools. In addition, weekly seminars integrate field experience with lesson planning, school wellness policies and the Whole School, Whole Community, Whole Child approach. This serves as an opportunity for refinement and continued development of teacher skills and attributes for teaching health education. Prereq: HPE 648, HPE 671.  
Equivalent(s): KIN 712

HPE 731 - Inclusion in Physical Education  
Credits: 4  
This course examines the practical application of inclusion in physical education, recreation and sport through disability and Paralympic sports such as wheelchair basketball, sit volleyball, goalball, boccia and adapted sports.

HPE 742 - Physical Education Practicum for Students with Disabilities  
Credits: 4  
The purpose of the practicum is to provide the educators with opportunities to create, plan and manage physical education/activity experiences for individuals with disabilities within school and community settings.

Equivalent(s): KIN 742

HPE 781 - Inclusion in Physical Education  
Credits: 4  
As schools move towards inclusive settings, general physical education (GPE) teachers need the knowledge, skills, and dispositions for educating students with disabilities in general and adapted physical education (APE) settings. The course begins with an understanding of the term disability followed by the legal mandates that define school policy and student placement. Throughout the course an overview of disability will be analyzed with readings that include an analysis of the social medical models designed to challenge the social construction of disability and orientations for practice. Classroom time will include direct teaching of individuals with disabilities.  
Attributes: Writing Intensive Course  
Equivalent(s): KIN 781

Health Management & Policy (HMP)  
# Course numbers with the # symbol included (e.g. #400) have not been taught in the last 3 years.

HMP 401 - United States Health Care Systems  
Credits: 4  
Nature and functions of health care services and health professionals; impact of social, political, economic, ethical, professional, legal, and technological forces on health care systems. Current health policy issues. Does not count as Social Science Discovery for HMP majors.  
Attributes: Social Science (Discovery)  
Equivalent(s): HAP 401, HMP 401H, HMP 401W

HMP 401H - Honors/United States Health Care Systems  
Credits: 4  
Nature and functions of health care services and health professionals; impact of social, political, economic, ethical, professional, legal, and technological forces on health care systems. Current health policy issues. Does not count as Social Science Discovery for HMP majors.  
Attributes: Social Science (Discovery); Writing Intensive Course  
Equivalent(s): HMP 401, HMP 401W
HMP 401W - United States Health Care Systems
Credits: 4
Nature and functions of health care services and health professionals; impact of social, political, economic, ethical, professional, legal, and technological forces on health care systems. Current health policy issues. Does not count as Social Science Discovery for HMP majors.
Attributes: Social Science (Discovery); Writing Intensive Course
Equivalent(s): HMP 401, HMP 401H

HMP 403 - Introduction to Public Health
Credits: 4
This course describes and defines “what is public health” and seeks to convey its critical importance and relevance to both public and individual (personal) wellbeing. It presents an overview of the structure, function, and organization of the public health system/services (government, proprietary, and voluntary sectors) and how they operate, emphasizing core functions and major divisions (public health administration, epidemiology and biostatistics, environmental health, social and behavioral health). Addresses the social, ethical, issues; bioterrorism; epidemics; obesity; tobacco, alcohol, and opioid use; violence. Seeks to challenge students to think critically about existing and emerging U.S. and global public health issues. Introduces public health careers.
Equivalent(s): HAP 403

HMP 440A - Honors/Global Public Health Issues
Credits: 4
This course is designed to provide students with an introduction to and overview of the key areas of global health by addressing the major determinants of health and how health status is measured to determine the burden of disease in the developing world. This course is part of the Honors Symposium titled: Reinventing Healthy Communities Nationally and Globally: Medical, Legal, and Cultural Perspectives. This course is the same course as HMP 444A Honors/Global Public Health Issues, that was approved by the Discovery Program as an Inquiry, World Cultures Category course. HMP 440A will not be offered as an Inquiry course, but will maintain the World Cultures Category. Prereq: Permission.
Attributes: World Cultures(Discovery)
Equivalent(s): HMP 444A

HMP 444 - From Frankenstein to Dolly, and Beyond
Credits: 4
This course is an interdisciplinary introductory course designed specifically for first year students. It seeks to stimulate, provoke, and support student inquiry, discussion, and exploration of a wide variety of social and ethical issues associated with scientific research and advances, with an emphasis on ones related to the biomedical and health sciences. It explores the value-laden questions that they often precipitate, and their impact on individuals, population groups, and society at large.
Attributes: Environment, TechSociety(Disc); Inquiry (Discovery)

HMP 444A - Global Public Health Issues
Credits: 4
This course is designed to provide students with an introduction to and overview of the key areas of global health by addressing the major determinants of health and how health status is measured to determine the burden of disease in the developing world. Using the perspectives of public health, the course will cover factors associated with the development of health problems and efforts to prevent disease in impoverished areas. Students will also explore the role of social communication, politics, religion, economics, education and culture in contributing to global public health issues and will integrate these factors and values in developing solutions to the widespread public health issues impacting communities worldwide. Students will learn about the magnitude of disease in the developing world (e.g., communicable and non-communicable disease, women and child health, nutrition, and unintentional injuries), how health is assessed and how health systems effectively work together to improve global health.
Attributes: World Cultures(Discovery); Inquiry (Discovery)

HMP 501 - Epidemiology and Community Medicine
Credits: 4
The distribution and determinants of disease, illness, and health in the community. Community health and illness measures, health status, and source of data. Development of hypotheses and study designs to reduce community health problems using epidemiological reasoning, methods, and analyses. Lab.
Attributes: Biological Science(Discovery); Discovery Lab Course
Equivalent(s): HAP 402, HAP 501, HMP 501H

HMP 501H - Honors/Epidemiology and Community Medicine
Credits: 4
The distribution and determinants of disease, illness, and health in the community. Community health and illness measures, health status, and source of data. Development of hypotheses and study designs to reduce community health problems using epidemiological reasoning, methods, and analyses. Lab.
Attributes: Biological Science(Discovery); Discovery Lab Course
Equivalent(s): HMP 501

HMP 505 - Public Health: History and Practice
Credits: 4
Blends a broad overview of the historical development of public health with important areas of contemporary public health practice. Traces the history and practices of public health and disease prevention from classical times, through the Middle Ages, the Renaissance, and European Enlightenment, and more modern times. Special emphasis on the historical evolution, development, and future of public health in the U.S. The latter includes the organization of public health in the U.S., its major functions and practices, its infrastructure, its programs and services, and its future challenges. It examines the historical close interrelationships and influences of religion, culture, social determinants, environment, science, and politics on public health through the ages.
Attributes: Historical Perspectives(Disc)

HMP 600 - Special Topics
Credits: 1-4
A) Hospital Management, B) Long-term Care Management, C) Ambulatory Care Management, D) Clinical Services Management, E) Home Care Management, F) Mental Health Management, G-Z) Interdisciplinary. May repeat, but may not duplicate subject areas. Prereq: junior major or permission. Special fee on some sections.
Repeat Rule: May be repeated for a maximum of 12 credits.
Equivalent(s): HAP 600
HMP 611 - Introduction to Health Information Systems  
**Credits:** 4  
This course introduces the student to the nomenclature and foundations of health information technology and systems in health care delivery settings and the management and strategic uses for those systems. It is relevant for those studying health care management and those using clinical health information systems. It examines health care information flow, information systems, technology standards and information security, and presents relevant examples, practical applications and case studies.  
**Equivalent(s):** HMP 511

HMP 621 - Pre-practicum Seminar  
**Credits:** 1-2  
Preparation for field practicum experience, orientation to experiential learning and competency development.  
**Repeat Rule:** May be repeated for a maximum of 2 credits.  
**Equivalent(s):** HAP 621

HMP 622 - Field Practicum in Organizational and Project Analysis, and Management Skills Development  
**Credits:** 3  
Experiential learning in a health care organization; application of theories to practice. Planned learning objectives are accomplished through three distinct components. Organizational Analysis, Project Analysis and Management Skills Development, with Supervision by agency personnel. This will include analysis of assigned health care agency, from external and internal viewpoints, development of the basic quantitative and interpersonal skills required for a health services manager, and demonstration of knowledge and analysis of specific problem-solving skills. Prereq: HMP 621; GPA 3.0 or higher; Approved practicum site.  
**Equivalent(s):** HAP 622, HMP 622A, HMP 622B, HMP 622C

HMP 624 - Post Practicum Seminar  
**Credits:** 2  
Summary and conclusion from field practicum experience. Individual analysis and panel discussions to include site assessment, project description and methodologies employed, critique of individual skills and knowledge base in relation to internship. Major only. Prereq: HMP 621, HMP 622.

HMP 631 - Health Issues Seminar  
**Credits:** 2  
Discussion of current issues in the fields of health management, health policy and public health. Prereq: HMP 624, HMP 712, HMP 723, HMP 735, HMP Senior.

HMP 642 - Health Economics  
**Credits:** 4  
Theoretical and empirical analysis of the U.S. health care delivery sector. Topics include health insurance markets and their effects on patients demand, uninsured populations and their access to health care services, breakdowns in the principal/agent relationship between patients' and providers, competition in the medical sector, technology, pharmaceuticals and the scope and effect of government involvement in the delivery of health care. Prereq: HMP 624, HMP 712, HMP 723.

HMP 669 - Human Behavior and the Public Health  
**Credits:** 4  
Provides a grounding in fundamental concepts of the behavioral sciences as they illuminate public health. Individual and community responses to prevention, identification of symptoms, diagnoses, treatments, chronic ailments, and rehabilitation are discussed. In each of these areas, the course explores the interaction between community, family, patient, and health care provider.  
**Equivalent(s):** HMP 569

HMP 711 - Health Systems Research I  
**Credits:** 4  
Introduces intermediate techniques for data manipulation and analysis for the health care field. Also introduces methods for survey research and large data set manipulation and analysis. There is a lab section utilizing a statistical software package where students perform tasks from a large national data set. Prereq: HMP 401, Statistics.

HMP 712 - Health Analytics  
**Credits:** 4  
This course introduces students to the field of health analytics and data science. It expands upon introductory statistical and data manipulation methods to include data mining, predictive analytics, cluster analysis, trend and pattern recognition, and data visualization. It couples data skills with interpretive and communication skills. Students will also be exposed to basic statistical programming. There will be a graduate component of the course (812) where students will work on advanced concepts and complete a separate culminating project. Prereq: HMP 401, HHS 540 Health Statistics or Equivalent or Permission.

HMP 715 - Environmental Health  
**Credits:** 4  
This course offers a general introduction to environmental health from the community, regional, and global perspective by addressing fundamental topics and current controversies such as air pollution, water pollution, built environment/urban sprawl, food safety, waste disposal, and occupational health. Students learn about environmental health assessment methods. Major issues in environmental health and related regulatory efforts and public health policy reform are examined.

HMP 721 - Managing Health Care Organizations  
**Credits:** 4  
Organizational characteristics of ambulatory, acute, and long-term care facilities. Management issues and strategies involving governance, clinical services, human and fiscal resources, and community-based services. Prereq: HMP 401.  
**Equivalent(s):** HAP 721

HMP 722 - Health Care Management II  
**Credits:** 4  
A continuation of HMP 721 - Managing Health Care Organizations with specific lectures and assignments devoted to organizational behavior, leadership, and managerial skills. Case studies and examples will relate specifically to health care organizations. Prereq: HMP 721; HMP majors only.

HMP 723 - Health Planning  
**Credits:** 4  
Theoretical and historical foundations of health planning; the relationship of health planning and regulation; the application of planning methods; and the utilization of strategic planning and its relationships to marketing. Prereq: major or permission.  
**Equivalent(s):** HAP 723
HMP 735 - Social Marketing
Credits: 4
An introduction to the vocabulary and tools of social marketing. Expanding upon the traditional principles of marketing and consumer behavior, students are exposed to the challenges of trying to effect behavior change. Prereq: HMP 401, HMP 403, HMP 501, HMP 711, HMP 740, Statistics.
Equivalent(s): HMP 570

HMP 740 - Health Care Financial Management
Credits: 4
Equivalent(s): HAP 740

HMP 741 - Health Care Financial Management II
Credits: 4
This course focuses on issues related to effective financial management of health care organizations and programs, building upon material covered in HMP 740, Health Care Financial Management. Topics include the time value of money, long-term debt, stocks and equity, and evaluation of capital projects. Prereq: HMP 740, HMP Seniors or Permission.

HMP 742 - Strategic Management for Health Care Organizations
Credits: 4
Attributes: Writing Intensive Course
Equivalent(s): HAP 742

HMP 744 - Health Ethics and Law
Credits: 4
Ethical theories, core legal principles and cases, and decision-making models; patient's rights and professional responsibilities; social justice and resource allocation; critical ethical dilemma's facing health care managers, policy makers, and executives; managerial versus medical care conflicts. Prereq: HMP 401, HMP 403, HMP 501.

HMP 746 - Health Policy
Credits: 4
Analysis of the public policy process, the development of health policies in the U.S., and discussion of specific health policy issues. Prereq: HMP 401, HMP 403, HMP 501, HMP Junior or Senior, or permission.
Attributes: Writing Intensive Course

HMP #748 - Health Policy Analysis
Credits: 4
Public policy outputs analyzed for effectiveness, efficiency, and equity, focusing on public policies in the United States. Prereq: major or permission. Lab. Special fee.

HMP 796 - Independent Study
Credits: 1-4
In-depth study with faculty supervision. Prereq: permission of major adviser and faculty in the area concerned.

HMP 798H - Honors Project/Research Design
Credits: 2
Examines selected research designs and methods used in health services research/program evaluation. Establishes theoretical and methodological foundation for honors-in-major research project to be conducted during the subsequent semester under a faculty member's supervision. Prereq: senior honors-in-major status and permission.

HMP 799H - Honors Project/Research
Credits: 2-4
In-depth research project (conducting and analysis) under supervision of faculty member. Includes scholarly presentation of findings to faculty and other interested parties and preparation of manuscript suitable for publication in peer-viewed journal. Prereq: HMP 798H and permission. Writing intensive.
Attributes: Writing Intensive Course

History (HIST)

# Course numbers with the # symbol included (e.g. #400) have not been taught in the last 3 years.

HIST 405 - History of Early America
Credits: 4
America from the early era of European discovery through the American Civil War. Emphasizes the interaction of European, Native American, and African peoples; the separation of the English colonies from Great Britain; and the establishment and early history of the United States. Course meets the History major requirement for Group 1.
Attributes: Historical Perspectives(Disc)
Equivalent(s): HIST 405, HIST 405H, HIST 405W, HIST 503

HIST 405H - Honors/History Early America
Credits: 4
America from the early era of European discovery through the American Civil War. Emphasizes the interaction of European, Native American, and African peoples; the separation of the English colonies from Great Britain; and the establishment and early history of the United States. Writing intensive. Course meets the History major requirement for Group 1.
Attributes: Historical Perspectives(Disc); Writing Intensive Course
Equivalent(s): HIST 405, HIST 405W

HIST 406 - History of the Modern United States
Credits: 4
History of the United States since the mid-19th century. Political, social, and economic developments as well as relationships of the modern U.S. with other countries. Course meets the History major requirement for Group 1.
Attributes: Historical Perspectives(Disc)
Equivalent(s): HIST 404, HIST 406H, HIST #406W, HIST 504, HIST 510
HIST 406H - Honors/History of the Modern United States
Credits: 4
History of the United States since the mid-19th century. Political, social, and economic developments as well as relationships of the modern U.S. with other countries. Writing intensive. Course meets the History major requirement for Group 1.
Attributes: Historical Perspectives(Disc); Writing Intensive Course
Equivalent(s): HIST 406, HIST #406W

HIST #406W - History of the Modern United States
Credits: 4
History of the United States since the mid-19th century. Political, social, and economic developments as well as relationships of the modern U.S. with other countries. Writing intensive. Course meets the History major requirement for Group 1.
Attributes: Historical Perspectives(Disc); Writing Intensive Course
Repeat Rule: May be repeated for a maximum of 8 credits.
Equivalent(s): HIST 401, HIST 410H, HIST 504, HIST 510

HIST 410 - Historic Survey of American Civilization
Credits: 4
Topical survey, within broad chronological divisions, of the development of American civilization since 1600. Students may take the course up to two times as long as the topic for the two courses is different. Writing intensive. Course meets the History major requirement for Group 1.
Attributes: Historical Perspectives(Disc); Writing Intensive Course
Repeat Rule: May be repeated for a maximum of 8 credits.
Equivalent(s): HIST 401, HIST 410H, HIST 504, HIST 510

HIST 410H - Honors/Historic Survey of American Civilization
Credits: 4
Topical survey, within broad chronological divisions, of the development of American civilization since 1600. Writing intensive. Course meets the History major requirement for Group 1.
Attributes: Historical Perspectives(Disc); Writing Intensive Course
Equivalent(s): HIST 405, HIST 405H, HIST 405W, HIST 406, HIST 406H, HIST #406W, HIST 410

HIST 421 - World History to the 16th Century
Credits: 4
The global experience of human communities with special emphasis on the development of the major civilizations and their interactions. Comparisons of social, cultural, religious, and political life and the emergence of distinctive and diverse human societies are examined. Course meets the History major requirement for Group III.
Attributes: Historical Perspectives(Disc)

HIST 422 - World History in the Modern Era
Credits: 4
 Emergence of major global human interactions due to the growth of major civilizations. The global context for the rise of the modern West. The rise and decline of Western global domination and the emergence of new states and changing societies throughout the world. Course meets the History major requirement for Group III.
Attributes: Historical Perspectives(Disc)
Equivalent(s): HIST 422H

HIST 422H - Honors/World History in the Modern Era
Credits: 4
 Emergence of major global human interactions due to the growth of major civilizations. The global context for the rise of the modern West. The rise and decline of Western global domination and the emergence of new states and changing societies throughout the world. Course meets the History major requirement for Group III.
Attributes: Historical Perspectives(Disc)
Equivalent(s): HIST 422

HIST 425 - Foreign Cultures
Credits: 4
Introduces the culture of a particular nation or region; preparation for experiencing a foreign culture. Consult department for listing of topics. Course meets the History major requirement for Group II or III, depending on the topic.
Attributes: World Cultures(Discovery)
Equivalent(s): HIST 425H, HIST 425W

HIST 425H - Honors/Foreign Cultures
Credits: 4
Introduces the culture of a particular nation or region; preparation for experiencing a foreign culture. Consult department for listing of topics. Writing intensive. Course meets the History major requirement for Group II or III, depending on the topic.
Attributes: World Cultures(Discovery); Writing Intensive Course
Equivalent(s): HIST 425, HIST 425W

HIST 425W - Foreign Cultures
Credits: 4
Introduces the culture of a particular nation or region; preparation for experiencing a foreign culture. Consult department for listing of topics. Writing intensive. Course meets the History major requirement for Group II or III, depending on the topic.
Attributes: World Cultures(Discovery); Writing Intensive Course
Equivalent(s): HIST 425, HIST 425H

HIST 435 - Origins of European Society
Credits: 4
This course traces the contours of human experience in what has come to be called "Western Civilization," from its beginnings in the ancient Near East, Greece, and Rome, to the dawn of the modern global world in sixteenth-century Europe. Although topics will vary by instructor, all sections examine the myriad forms of social, political, religious, military, and economic organization that emerged in this rich tradition. Course meets the History major requirements for Group II.
Attributes: Historical Perspectives(Disc)
Equivalent(s): HIST 435H, HIST 435W

HIST 435H - Honors/Origins of European Society
Credits: 4
This course traces the contours of human experience in what has come to be called "Western Civilization," from its beginnings in the ancient Near East, Greece, and Rome, to the dawn of the modern global world in sixteenth-century Europe. Although topics will vary by instructor, all sections examine the myriad forms of social, political, religious, military, and economic organization that emerged in this rich tradition. Course meets the History major requirements for Group II. Writing intensive.
Attributes: Historical Perspectives(Disc); Writing Intensive Course
Equivalent(s): HIST 435, HIST 435W

HIST 435W - Origins of European Society
Credits: 4
This course traces the contours of human experience in what has come to be called "Western Civilization," from its beginnings in the ancient Near East, Greece, and Rome, to the dawn of the modern global world in sixteenth-century Europe. Although topics will vary by instructor, all sections examine the myriad forms of social, political, religious, military, and economic organization that emerged in this rich tradition. Course meets the History major requirements for Group II. Writing intensive.
Attributes: Historical Perspectives(Disc); Writing Intensive Course
Equivalent(s): HIST 435, HIST 435H

HIST 435H - Honors/Origins of European Society
Credits: 4
This course traces the contours of human experience in what has come to be called "Western Civilization," from its beginnings in the ancient Near East, Greece, and Rome, to the dawn of the modern global world in sixteenth-century Europe. Although topics will vary by instructor, all sections examine the myriad forms of social, political, religious, military, and economic organization that emerged in this rich tradition. Course meets the History major requirements for Group II. Writing intensive.
Attributes: Historical Perspectives(Disc); Writing Intensive Course
Equivalent(s): HIST 435, HIST 435W

HIST 435W - Origins of European Society
Credits: 4
This course traces the contours of human experience in what has come to be called "Western Civilization," from its beginnings in the ancient Near East, Greece, and Rome, to the dawn of the modern global world in sixteenth-century Europe. Although topics will vary by instructor, all sections examine the myriad forms of social, political, religious, military, and economic organization that emerged in this rich tradition. Course meets the History major requirements for Group II. Writing intensive.
Attributes: Historical Perspectives(Disc); Writing Intensive Course
Equivalent(s): HIST 435, HIST 435H
HIST 436 - Europe and the Modern World
Credits: 4
The course focuses on major encounters between Europe and its Global rivals from the Age of the Revolution to the rise of modern terrorism. While the topics covered will vary by instructor, all sections address the rise of Democracy, the birth of Capitalism, the apocalyptic destruction of the two World Wars, and the emergence of a diverse multi-cultural Europe in the years following World War II. Course meets the History major requirements for Group II.
Attributes: Historical Perspectives(Disc)
Equivalent(s): HIST 436H, HIST 436W

HIST 436H - Honors/Europe and the Modern World
Credits: 4
The course focuses on major encounters between Europe and its Global rivals from the Age of the Revolution to the rise of modern terrorism. While the topics covered will vary by instructor, all sections address the rise of Democracy, the birth of Capitalism, the apocalyptic destruction of the two World Wars, and the emergence of a diverse multi-cultural Europe in the years following World War II. Course meets the History major requirements for Group II. Writing intensive.
Attributes: Historical Perspectives(Disc); Writing Intensive Course
Equivalent(s): HIST 436, HIST 436W

HIST 436W - Europe and the Modern World
Credits: 4
The course focuses on major encounters between Europe and its Global rivals from the Age of the Revolution to the rise of modern terrorism. While the topics covered will vary by instructor, all sections address the rise of Democracy, the birth of Capitalism, the apocalyptic destruction of the two World Wars, and the emergence of a diverse multi-cultural Europe in the years following World War II. Course meets the History major requirements for Group II. Writing intensive.
Attributes: Historical Perspectives(Disc); Writing Intensive Course
Equivalent(s): HIST 436, HIST 436H

HIST 436A - Martin Luther King, Jr., and the Struggle for Racial Justice
Credits: 4
This course examines Martin Luther King’s life, philosophy, and career on the front lines of the civil rights movement. In our study of King as well as the larger black freedom struggle, we seek an understanding of how certain questions related to racial justice played out in American history. We focus on issues of civil disobedience, just and unjust laws, love and hate, violence and non-violence. Students will read many of King’s famous writings such as the Letter from Birmingham Jail, as well as his lesser-known speeches - among them king’s 1967 address denouncing the Vietnam War. More generally, this seminar introduces students to the rudiments of historical thinking and asks broader questions about the role of individuals in history and how social change happens. Course meets the History major requirement for Group I.
Attributes: Historical Perspectives(Disc)

Credits: 4
Every person interacts with the health care system – including you. In this class, students will study the interactions between law, society, science, and medicine to gain an understanding about how the American health care system developed and who has and does make decisions about health. Topics covered include vaccination, health care providers, discrimination, and epidemics. Course meets the History major requirement for Group I.
Attributes: Historical Perspectives(Disc)
Equivalent(s): HIST #604

HIST 440C - Honors/Collective Guilt and Collective Responsibility in History
Credits: 4
Most Americans recognize the Holocaust as an extraordinary crime, though there is less agreement about who was responsible, whether justice was rendered and appropriate compensation was awarded survivors. Things become more complicated when examining what might be considered crimes committed by Americans. This course concentrates both on the Holocaust and the underside of American history and poses questions about the connections between the past and the responsibility of citizenship in the present. Writing intensive. Course meets the History major requirement for Group I or II.
Attributes: Historical Perspectives(Disc); Writing Intensive Course
Equivalent(s): HIST 444F

HIST 440D - Honors/Citizens and Persons
Credits: 4
Definitions of citizenship have changed dramatically in the course of history. In this class, we will trace the evolution of expanding (and occasionally contracting) political and civil rights and responsibilities over time, with an emphasis on events in multicultural American nations and emphasizing how laws, social practices, unique historical contexts, and individuals’ understanding of self and other have mutually produced each other. The course is part of the Honors Symposium “Being Human” and will engage in an interdisciplinary conversation about personhood, humanity, rights and responsibilities, and dehumanization.
Attributes: Historical Perspectives(Disc)

HIST 440E - Honors/Drugs and Addiction in World History
Credits: 4
As drug addiction rates in the US are reaching epidemic proportions, new solutions and perspectives are becoming increasingly important. This course teaches students how a variety of cultures, including the Aztecs, Maya, Vedic India, China, and Greco-Roman antiquity, confronted the problems of drug use and addiction in their own societies. By examining these phenomena through the lens of other culture’s values, students will gain a valuable perspective by which to address these problems today.
Attributes: World Cultures(Discovery)

HIST 440F - Honors/Islam, Art, and the Past
Credits: 4
While the world is all too familiar with images of ISIS using explosives and frills to destroy ancient sites and artifacts in Iraq and Syria, there has been little attention given to the dynamic role of art within past and present Islamic societies. Yet, Islam has a rich and vibrant artistic tradition, one in which ancient civilizations played and continue to play a major role. This course introduces students to Islamic art and cultural heritage through a study of Islam’s engagement with past artistic traditions in the fields of architecture and the fine arts. It also addresses how the recent actions of ISIS have changed questions about cultural heritage and stewardship in the Middle East and the West. Finally, the course asks students what they can and should do to preserve cultural heritage.
Attributes: FinePerformingArts(Discovery)
HIST 440G - Honors/Revolutions in Science
Credits: 4
In this course, we study several examples of scientific revolutions, and consider whether a general model applies to them all. How have ideas about the universe and human beings' place in it changed dramatically at certain points in history? Do scientific revolutions have a common structure? Do they have any connection to political or social revolutions? Are we living through a scientific or technological revolution? These are among the questions we will examine.
Attributes: Historical Perspectives(Disc); Writing Intensive Course

HIST 444 - Through Their Eyes: The American Civil War from Primary Sources
Credits: 4
Introduces the nature of historical research through an intensive study of the Civil War era, including slavery, abolitionism, and political conflict before the war, as well as the military, social, and political history of the war itself. Use of primary sources such as newspapers, public documents, letters, and diaries, including unpublished manuscripts held in Special Collections, Dimond Library. Writing intensive. Course meets the History major requirement for Group I.
Attributes: Historical Perspectives(Disc); Inquiry (Discovery); Writing Intensive Course

HIST 444B - Revolutions Across the Atlantic
Credits: 4
An exploration of the Age of Revolution, 1776-1800 on both sides of the Atlantic. Beginning with Tom Paine's declaration "Tis Time to Part" that launched the American Revolution and ending with the spread of the French Revolution by bayonets into Switzerland, we investigate the clubs organized against the slave trade, we read the plays that projected imaginary revolutions onto desert islands, and we follow the rumors that spread news of Caribbean revolts to Philadelphia and Paris. This course will be primarily discussion, with some short writing assignments in the first half of the course. Students will research and write their own histories of some facet of revolutionary history in the second half of the course. Writing intensive. Course meets the History major requirements for Group I or II.
Attributes: Historical Perspectives(Disc); Inquiry (Discovery); Writing Intensive Course

HIST 444C - World War Propaganda in Britain and the United States
Credits: 4
Examines multi-media propaganda in World War I and World War II Britain and the U.S. to investigate the total war experience, the relationship between these two nations, and the workings of a critical weapon. Propaganda was a bloodless weapon in an era of high-tech tools, but it was also a feared and ubiquitous one. Some of the issues addressed in this course include: Who were some of the targets of propaganda? How were posters different from films or radio broadcasts? What were the messages of propaganda? What does propaganda say about these nations as cultures and societies as well as about their war efforts? We analyze multimedia primary sources as well as use secondary ones in our discussions. Writing intensive. Course meets the History major requirements for Group I or II.
Attributes: Historical Perspectives(Disc); Inquiry (Discovery); Writing Intensive Course

HIST 444D - Slavery and Society in Pre-Colonial Africa
Credits: 4
Examines the evolution and practice of the institution of slavery in Africa from the earliest times to the era of European colonialism. Using contemporary personal narratives by the slaves, the course examines specific historical contexts of various slave systems, continuity and change in the ideologies and practices of slavery, religion and slavery, race and slavery, gender and slavery, conditions of slaves, as well as the making and uses of slaves - as domestic slaves, enunchs, officials, soldiers, labor and capital. Using films, slide images, and a comparative approach, African slavery will be examined within the context of the early evolution of slavery in the Mediterranean and Islamic worlds as well as its later expressions in the Atlantic world of the Americas. Course meets the History major requirements for Group III.
Attributes: Historical Perspectives(Disc); Inquiry (Discovery); Writing Intensive Course

HIST 444E - American at War: Society, Culture, and the Home Front
Credits: 4
Course will examine how the preparation for war, war itself, and the legacy of war shape American society, culture, and national identity. Students explore the relationship of war to topics such as American politics, literature, music, visual arts, popular culture, as well as gender, ethics, and race relations. Primarily discussion with short writing assignments in the first part of the course. Students research topics of their choice in the second and third parts of the course. Writing intensive. Course meets the History major requirements for Group I.
Attributes: Historical Perspectives(Disc); Inquiry (Discovery); Writing Intensive Course

HIST 444G - Voices from Modern China
Credits: 4
Human voices--written or vocal--left records of history. Yet too often we hear only the voice of the statesman, which is too partial to bring to life a colorful history like China's. This seminar explores China's dramatic changes in modern times through revolution, reform, and war as experienced by a wide range of individuals who witnessed or participated in these huge events and left their voices in record. We will read and discuss the lived experiences of some iconic (well-known) political or cultural leaders, as well as working women, male and female revolutionaries, youthful rebels, a leading industrialist, and foreign observers during China's extraordinary transformations over the past two centuries. Writing intensive. Course meets History major requirement for Group III.
Attributes: Historical Perspectives(Disc); Inquiry (Discovery); Writing Intensive Course

HIST 444J - Honors/Global Citizenship: In Pursuit of Liberty
Credits: 4
What does it mean to be a global citizen? Are we? What are human rights? Are they universal? This honors discovery course will explore with the men and women who traveled and thought beyond the borders of their locality and their moment of time and who imagined themselves citizens of the world. We will start with early revolutions that traversed oceans and national borders. We'll read utopias that saw their world differently. In the end, we will investigate major global challenges of our own world. We will move backwards, but also forwards in history. We will read novels, and perform plays. We will listen to Beethoven and Berlioz, in class and discuss larger questions of our international community, from sustainability to diversity, as they echo through different disciplines. Course meets History major requirement for Group I or II.
Attributes: Historical Perspectives(Disc); Inquiry (Discovery); Writing Intensive Course
HIST 483 - History of World Religions
Credits: 4
Introduces the religions of the world in terms of historical development, relationship to society, belief system, central texts, and ritual practices. Begins with the religions of small and tribal societies (e.g., African, Native American), moves through religions of complex societies (e.g., Hinduism), and then studies the various traditions that emanated from ancient revelations: Zoroastrianism, Buddhism, Judaism, Christianity, Islam, and certain new forms of Christianity. Writing intensive. Course meets History major requirement for Group III.
Attributes: Historical Perspectives(Disc)
Equivalent(s): HIST 483W, RS 483, RS 483W

HIST 483W - History of World Religions
Credits: 4
Introduces the religions of the world in terms of historical development, relationship to society, belief system, central texts, and ritual practices. Begins with the religions of small and tribal societies (e.g., African, Native American), moves through religions of complex societies (e.g., Hinduism), and then studies the various traditions that emanated from ancient revelations: Zoroastrianism, Buddhism, Judaism, Christianity, Islam, and certain new forms of Christianity. Writing intensive. Course meets History major requirement for Group III.
Attributes: Historical Perspectives(Disc)
Equivalent(s): HIST 483W, RS 483, RS 483W

HIST 490 - Medieval History through Film
Credits: 4
This course is intended to give students an opportunity to come to grips with some of the central questions that historians ask, namely how do we know what we know (epistemology), and what image of the past are we trying to create (history). Students read (1) scholarly literature (2) contemporary narrative sources (3) and watch films that depict events that are described in these narrative sources. Course meets History major requirement for Group II.
Attributes: Historical Perspectives(Disc)

HIST 497 - Explorations in Historical Perspectives
Credits: 4
In-depth exploration of a particular historical question or topic: for example, the French Revolution, Chaucer’s England, or the New Deal. Students should consult with the Department of History for a list of topics and instructors. Course meets the History major requirements for Group I, II, or III, depending on the topic.
Attributes: Historical Perspectives(Disc)
Repeat Rule: May be repeated for a maximum of 8 credits.
Equivalent(s): HIST 400, HIST 497H, HIST 497W

HIST 498 - Explorations of Historical Perspectives
Credits: 4
In-depth exploration of a particular historical question or topic: for example, the French Revolution, Chaucer’s England, or the New Deal. Students should consult with the Department of History for a list of topics and instructors. Course meets the History major requirements for Group I, II, or III, depending on the topic.
Attributes: Historical Perspectives(Disc)
Repeat Rule: May be repeated for a maximum of 8 credits.

HIST 500 - Introduction to Historical Thinking
Credits: 4
Basic skills essential to the study of history: critical reading of historical literature, improvement of written and oral analysis of historical material, and use of library resources. Intensive study of books and documents from varying historical fields and periods. Required of history majors; open to other interested students. Writing intensive.
Attributes: Inquiry (Discovery); Writing Intensive Course

HIST 501 - Medieval Military History
Credits: 4
Western societies from the Roman Empire to the emerging nation states of early modern Europe spent an enormous proportion of their surplus wealth on war. This course introduces this crucial aspect of Western history and examines the period extending from the third century AD, to just before the extensive introduction into Europe of gunpowder weapons in the fifteenth century. Discussion of not only battlefield tactics and famous generals but also the effect that war had upon society as a whole and the economic ramifications of war, the Christianization of war, and the effect of war upon literature. Course meets the History major requirements for Group II.

HIST 505 - African American History
Credits: 4
Explores the forced integration of the Atlantic World through the African slave trade and the development of creole cultures in America, and takes the story of Black Americans’ “creative survival” and the evolution of African-American culture through the end of the Civil War. Writing intensive. Course meets the History major requirements for Group I.
Attributes: Historical Perspectives(Disc); Writing Intensive Course

HIST 506 - African American History
Credits: 4
Experiences, aspirations, and contributions of black Americans from their ethnic origins in Africa to the present American crisis in race relations; comparative study of cultures and institutions. Reconstruction to the present. Writing intensive. Course meets the History major requirements for Group I.
Attributes: Historical Perspectives(Disc); Inquiry (Discovery); Writing Intensive Course

HIST 509 - Law in American Life
Credits: 4
Investigates the role of law in American social, political, and economic life from the European settlements to the present. Traces the development of legal institutions, but focuses on the various functions of law (e.g., in structuring social relationships, allocating resources, defining governmental authority, expressing social and moral values, and as a mechanism for control). Course meets the History major requirements for Group I.
Attributes: Historical Perspectives(Disc)

HIST 511 - History of New Hampshire
Credits: 4
This course reconstructs the surprising past of the place we call New Hampshire. Beginning with the 17th-century encounter between English and Native people, it runs to the present. Literature, documents, photos and films provide access to New Hampshire’s changing natural environment, its rural life, industrialization, politics and recent struggles. Writing intensive. Course meets the History major requirements for Group I.
Attributes: Historical Perspectives(Disc)
HIST 515 - Game of Thrones: Power and Politics in Medieval and Renaissance Europe
Credits: 4
George R.R. Martin's popular medieval fantasy series, A Song of Ice and Fire better known from HBO's Game of Thrones brilliantly portrays the brutal dynastic wars that unfolded between noble houses for control of Westeros. But did you know that pre-modern European history was one of Martin's greatest inspirations? Join us as we explore a real "Game of Thrones", the gripping series of national and international struggles between actual noble European houses for supremacy from the eleventh through the sixteenth centuries that ultimately forged the modern European state system. Writing intensive.
Attributes: Writing Intensive Course

HIST 521 - Origins of Modern Science
Credits: 4
Development of scientific ideas in Europe from the Renaissance through the Scientific Revolution to the Enlightenment. Topics include themes in the physical and biological sciences and their relations to cultural and social contexts. No special science background is required. Course meets the History major requirements for Group II.
Attributes: Historical Perspectives(Disc)

HIST 522 - Science in the Modern World
Credits: 4
Development of science, particularly in Europe and North America, from the 18th century to the present. Themes including Darwinism, the growth of modern physical and biological sciences and science in the contemporary world. No special science background is required. Course meets the History major requirements for Group II.
Attributes: Historical Perspectives(Disc)

HIST 523 - Modern Latin America
Credits: 4
Provides a broad overview of Latin America from the 18th century to the present. It examines the breakdown of colonial rules, the establishment of independent countries, the formation of viable nation states, the importance of geography, the roles of the different elements of society. Social, political, and economic changes and continuities emphasized to give a sense of the ambiguities of the historical process. Cultural differences illustrated with slides and music. The effects of elite rule and of United States interventions studied. Writing intensive. Course meets the History major requirements for Group III.
Attributes: Historical Perspectives(Disc)

HIST 527 - Espionage and History
Credits: 4
Introduces the history and politics of espionage and intelligence organizations from the 20th century to the present. Special attention to intelligence work among the major powers in World War I, World War II, and the Cold War. Readings include autobiographical accounts and other primary sources as well as novels. Course meets the History major requirements for Group II.

HIST 538 - Modern European War and Society: The Napoleonic Wars to World War II
Credits: 4
This course is organized around three conflicts: the Napoleonic Wars, World War I, and World War II. As we study them, we'll discuss the evolution and impact of total war in order to understand how societies work in wartime and how these conflicts have shaped Europe. In our exploration of each war, we examine a range of participants from international alliances to individual soldiers and to civilians involved in the conflict. Total war, by its nature, incorporates most elements of society, so we will spend time looking at the homefronts as well as the battlefronts. We will survey the conflicts as a whole, but also devote time to some special events or elements. For example, we will look at the battle of Somme during the portion of the course dedicated to World War I. We will also study some of the art that arose out of the conflict. The core of the class will be lectures, but we will engage in some discussion almost every day and there are some classes that will be dedicated to discussion. Course meets the History major requirements for Group II.

HIST 540 - Foundations of Medieval History: 300-1300 CE
Credits: 4
Introduces the history of Western Europe from the end of the Roman Empire to the late twelfth century. Particular focus on the history of Christianity, social and economic structures, the role of women in medieval culture, and literacy and learning. Writing intensive. Course meets the History major requirements for Group II.
Attributes: Writing Intensive Course

HIST 560 - Modern Britain
Credits: 4
This course explores Great Britain from the American Revolution to the reign of Elizabeth II. We examine Britain's unparalleled Imperial power, the vibrancy of Victorian Culture, and the devastating impact of the two World Wars, which initiated Britain's post-war decline. During the Cold War, Britain rebuilt its position through cultural exports like rock-n'-roll music, royal pomp, and the mini-skirt, but has never fully recovered its status, despite its vibrant multi-cultural allure. Course meets the History major requirements for Group II.

HIST 563 - Introduction to Russian Culture and Civilization
Credits: 4
Interdisciplinary course on the development of Russian culture from its origins through the end of the 19th century. Historical documents, literary works, ethnographic materials, films, slides of Russian art, and music. Course meets the History major requirements for Group II.
Attributes: World Cultures(Discovery)
Equivalent(s): RUSS 525

HIST 564 - Russia and the Soviet Union in World War II
Credits: 4
This course examines World War II from the perspective of Russia and the Soviet Union. Readings, lectures, and discussions cover the major battles, Stalin's leadership, experiences of the soldiers (both men and women), life on the home front, the Holocaust on Soviet territory under German occupation, and propaganda. Students also read the most important Russian novel set in World War II. Midterm, final, short papers. Writing intensive. Course meets the History major requirements for Group II.
Attributes: Writing Intensive Course
HIST 565 - Women in Modern Europe  
Credits: 4  
A social history of women in Europe from 1700 to the present. Examines the development of the "modern nuclear family," transformations in women's work during the industrial revolution, and women's political evolution from bread rioters to hearth tenders to petitioners. Sources include published diaries, historiographical studies, and novels. Course meets the History major requirements for Group II.  
Attributes: Historical Perspectives(Disc)

HIST 566 - Comparative Revolutions: How to Make a Revolution in the World before Marx  
Credits: 4  
This course in HOW TO MAKE A REVOLUTION (if you lived more than 100 years ago) will ask why the Sea Beggars flooded Holland, the Levellers dug up the Commons, and Black Loyalists fled the independent Americans after their revolution. The class asks how slaves in Haiti defeated Napoleon's troops, utopian socialists built a railway around a cross at the center of Europe, and Marx rallied the workers of the world to unite. Course meets the History major requirements for Group II.

HIST 575 - Ancient Near East  
Credits: 4  
From the Neolithic revolution to the time of Alexander the Great. Rise of civilization; nature of human artistic and intellectual development in the earliest civilizations of Mesopotamia and Egypt; Judaism in its historical setting. Course meets the History major requirements for Group III.

HIST 579 - History of China in Modern Times  
Credits: 4  
This course introduces students to major historical developments in China from 1600 to the end of the twentieth century. Major themes include: ethnicity, alien rule, political reforms and revolution, industrialization, interactions with the rest of the world (such as cross-cultural relations and military conflict), social and cultural transformation. Readings for the course are a combination of secondary and primary sources in translation, including scholarly articles, memoirs, biography, fictions, and journalist reports, most of which are landmark works indispensable for the study of modern Chinese history. Course meets the History major requirements for Group III.  
Attributes: Historical Perspectives(Disc)

HIST 580 - History of Japan in Modern Times  
Credits: 4  
This course introduces students to major historical developments in Japan from 1600 to the end of the twentieth century. Major themes include: ethnicity, alien rule, political reforms and revolution, industrialization, interactions with the rest of the world (such as cross-cultural relations and military conflict), social and cultural transformation. Readings for the course are a combination of secondary and primary sources in translation, including scholarly articles, memoirs, biography, fictions, and journalist reports, most of which are landmark works indispensable for the study of modern Chinese history. Course meets the History major requirements for Group III.  
Attributes: Historical Perspectives(Disc)

HIST 586 - Islam in the Modern Age, 15th Century to present  
Credits: 4  
Emergence of modern Middle Eastern states and societies from the time of the Ottoman Empire to the present. A survey of major developments, including the emergence of nationalism, the Islamic resurgence, and social transformations. Course meets the History major requirements for Group III.

HIST 587 - History of Africa from the Earliest Times to 1870  
Credits: 4  
This survey course introduces students to the major landmarks in the making of African history and societies from the earliest times to 1870 AD. Beginning with the dual premises that Africa is the birthplace of both the human species as well as some of the oldest and most varied civilizations in the world, the course examines the early civilizations of both Egypt and the Nile Valley, the development and of the Swahili culture, the Sudanese and forest empires, religious beliefs and the moral order, gender and class, warfare and diplomacy, the advent and impact of Islam and Christianity, migrations and cultural formations in central and southern Africa, commerce, and encounters with Europe, slavery and the Trans-Atlantic slave trade, and the end of formal African independence. Films and other visuals are streamed to supplement the readings. No pre-requisite required. Course meets the History major requirements for Group III.

HIST 588 - History of Modern Africa: 1870 to the Present  
Credits: 4  
This survey course introduces students to the major forces and dynamics of change in the modern history of Africa, from the late 19th century to the present. The primary focus is on European imperialism and its aftermaths in Africa. Issues to be examined include: the scramble for and partition of Africa; resistance to colonization; the rise and fall of apartheid in Southern Africa; religion and society, music and culture, gender and sexuality, art and literature, pan-Africanism, military rule, HIV/AIDS, democratization, and nation building. Emphasis on African initiatives, and on an exploration of contemporary challenges and the major forces reshaping the history of this oldest, most diverse, and most fascinating continent. Feature films, drama skits, literary works, and guest lectures are utilized. No prerequisites required. Course meets the History major requirements for Group III.

HIST #589 - Islam in Africa  
Credits: 4  
Focuses on the advent, spread, and major consequences of Islam in Africa. Examines the major phases of Islamic expansion: early conquests in North Africa and the Iberian Peninsula, the spread of Islam across the Sahara into the Sudan, the jihadist and reformist movements of the 18th and 19th centuries and the development of Islam during the colonial and postcolonial era. Emphasizes the varieties of the practice of Islam, the role of Islam in states formation and the impact of Islam on the religious and social life of the African peoples. The intersections of Islam with the issues of trade, slavery, politics, gender, imperialism, and modernization, the rise of Islamic fundamentalism, the place of North Africa within the Mediterranean Islamic culture, as well as the relationships of Islam with indigenous religions and with Christianity in African history and societies explored. Course meets the History major requirement for Group III.

HIST 595 - Explorations  
Credits: 1-4  
See department listings for semester topic. Course meets History major requirement for Group I, II, or III depending on the topic.
HIST 596 - Explorations
Credits: 1-4
Repeat Rule: May be repeated for a maximum of 8 credits.

HIST 597 - Medicine and Society in Pre-Modern Europe
Credits: 4
Explores the history of medical theory and practice in Europe from the twelfth to the early seventeenth century. Themes include: 1) varieties of healing strategies, including naturalistic, magical, astrological, religious, and supernatural; 2) attitudes to the body, health and disease; 3) the broad range of healers who practiced healing arts, including learned physicians, surgeons, barbers, midwives, wise women, saints, and even charlatans; 4) the kinds of institutions devoted to promoting health, including the home, the hospital, and the monastery. Course meets the History major requirement for Group II.

HIST 600 - Explorations
Credits: 4
Advanced explorations in one of the fields listed below: A) American History, B) European History, C) World History, D) Ancient History. Barring duplication of subject, may be repeated. Course meets History major requirement for Group I, II, or III depending on the topic.
Repeat Rule: May be repeated for a maximum of 12 credits.

HIST 601 - Seminar in Religious Texts
Credits: 4
Close study of sacred text(s) from a particular religious tradition (Islam, Christianity, Buddhism, Judaism, etc.) or a thematic selection of texts across religions. (Also offered as RS 601.) Course meets History major requirement for Group I, II, or III depending on the topic.
Equivalent(s): RS 601

HIST #602 - Holocaust: The War on Europe's Jews
Credits: 4
The attempted destruction of European Jewry during the Third Reich is one of the pivotal events in the history of modern Western Civilization. Course explores the circumstances and behavior of the Jews (as victims, resisters, survivors), the perpetrators (German and non-German), bystanders (German, European, and American), and rescuers (German and non-German). Attention is also given to such post-1945 matters as justice, compensation, and memory. Course meets History major requirement for Group II.

HIST 603 - European Conquest of North America
Credits: 4
European Conquest of America explores many of the major issues relating to the creation and development of colonial North America. We will focus particularly on the extraordinary heterogeneous mixture of peoples who lived in North America and the Caribbean, and on the complexity and consequences of their interactions. Throughout the semester we will continually evaluate arguments among historians about whether or not it makes sense to understand the colonial period in terms of a conquest, or whether Native Americans retained enough power and resistance throughout the colonial period to make such an interpretation inaccurate. Course meets History major requirement for Group I.

HIST #604 - History of Medicine in the United States
Credits: 4
Have you been a patient, a nurse, or a holder of insurance? Almost everyone in the United States has a role in health care. We study the growth and development of the field of American medicine from colonial times to the present, examining the changing relationships between patients, health care professionals, technology, government, and others. The focus will be shifts in responsibility and authority over time from patients, to doctors, and even to businesses. Course meets History major requirement for Group I.
Equivalent(s): HIST 440B

HIST 605 - American Revolution, 1750-1800
Credits: 4
Examines the transformation of thirteen British colonies into the United States through the election of Thomas Jefferson as president in 1801. Topics include the revolution's origins, the social and political impact of war, the changing structure of the family, the role of religion, the drafting and ratification of the Constitution, and the revolution's consequences for Indians and African Americans. Course meets History major requirement for Group I.

HIST 606 - History of the Early Republic
Credits: 4
Explores the histories of the people and institutions that transformed the new United States from a coastal republic of largely independent freeholders to a transcontinental democracy increasingly driven by class. Topics include slavery, the family, reform movements, and the formation of national identity. Course meets History major requirement for Group I.

HIST 609 - Special Topics in American Legal History
Credits: 4
In-depth thematic exploration of law in American life. Topics include race and equality in America; community, pluralism, and American law; property, liberty, and law; gender and law. May be repeated for credit with instructor's permission. Consult department listings of topics. Course meets History major requirement for Group I.
Attributes: Writing Intensive Course
Repeat Rule: May be repeated for a maximum of 8 credits.
Equivalent(s): AMST 609, ENGL #609, MUSI 609

HIST 611 - Civil War Era
Credits: 4
Surveys the period from the presidency of Andrew Jackson to the end of the Reconstruction. Focuses on causes, course, and consequences of the Civil War. Topics include slavery in the Old South, antebellum reform movements, creation and breakdown of the Second Party System, social and economic (as well as military) events during the war and major developments during Reconstruction after the war. Course meets History major requirement for Group I.

HIST 612 - Emergence of Industrial America
Credits: 4
Investigates the economic transformation of 19th-century America from a rural, agricultural society to an urban, industrial one. Explores the sweeping economic changes and focuses on such topics as change in work and leisure, westward expansion and its effects on Native Americans, shifts in gender roles, growth of a consumer culture, rise of the labor unions, Populism, immigration, reform and regulation movements, growth of American imperialism, and intellectual developments. Course meets History major requirement for Group I.
HIST 613 - American Ways of War  
Credits: 4  
"Is there an American way of war?" This commonly asked question will be the focal point of the course. To answer that we will study the interactions of both war and society in the United States from the Civil War onwards, addressing such issues as the causes, courses, diplomacy, homefront, legacy, and the art of the great and small wars. Course meets the History major requirement for Group I.

HIST 615 - The Rise of Modern United States, 1900-1945  
Credits: 4  
By 1900, the United States had emerged as the world's leading industrial power and leading destination for millions of immigrants and had begun to become a major player in world affairs. Americans enjoyed unprecedented prosperity and became eager consumers of new inventions and popular culture: cars, radios, jazz records, and the "motion pictures." But they also experienced the worst depression the country had ever known and struggled to make sense of a world that went to war twice within a generation. Women, African Americans, immigrants - all struggled to carve out their place in the new political order. By World War II, the United States assumed many of its "modern" characteristics. Using novels, movies, photographs, sporting events, political speeches and political debates, we will explore both the domestic and the international aspects of the development of modern U.S. Course meets the History requirements for Group I.

HIST 616 - United States Since World War II  
Credits: 4  
This course presents a framework for understanding American history from 1945 to the present. We explore major events and themes, beginning with the Cold War and the domestic anti-communism crusade, and continuing with the civil rights movement, the Vietnam War, and the women's movement. In our study of national politics, we chart the rise of liberalism - focusing on the presidencies of John F. Kennedy and Lyndon Johnson - as well as the conservative response, punctuated by the "Reagan Revolution." We conclude with a brief study of the 21st century.

HIST #617 - Vietnam War  
Credits: 4  
An advanced interdisciplinary study of the American experience in Vietnam which utilizes fiction, film, music, and historical analysis to examine such matters as how and why the United States became involved in Vietnam, went to war there, and failed to win, as well as the consequences and legacies of that fateful conflict. It is strongly suggested that students first complete courses in modern American history. Course meets the History major requirement for Group I. 
Equivalent(s): HIST 520

HIST 618 - American Environmental History  
Credits: 4  
Examines how nature has been a factor in American history and how Americans have wrestled with the concepts of nature and culture. Topics include industrialization, evolution, conservatism, environmentalism, and environmental diplomacy. Course meets the History major requirement for Group I.

HIST 619 - Foreign Relations of the United States  
Credits: 4  
The history of American diplomacy from the colonial era to the present, with the dividing point at 1900. The focus will be on both the foreign and domestic influences that shaped American diplomacy. Course meets the History major requirement for Group I.

HIST 620 - Foreign Relations of the United States  
Credits: 4  
The history of American diplomacy from the colonial era to the present, with the dividing point at 1900. The focus will be on both the foreign and domestic influences that shaped American diplomacy. Course meets the History major requirement for Group I.

HIST 621 - History of American Thought  
Credits: 4  
Influential thinkers and ideas have shaped American politics, society, economy, and culture since the Civil War. Among the topics explored are American Victorianism, Social Darwinism, Pragmatism, Modernism and its opponents, gender and identity politics and post modernism. Mark Twain, Elizabeth Cady Stanton, Thorstein Veblen, W.E.B. DuBois, John Dewey, F. Scott Fitzgerald, Hannah Arendt, Thomas Kuhn, Malcolm X, Susan Sontag and William F. Buckley. Jr. will be among the thinkers explored. Course meets the History major requirement for Group I.

HIST 622 - History of American Thought  
Credits: 4  
Influential thinkers and ideas have shaped American politics, society, economy, and culture since the Civil War. Among the topics explored are American Victorianism, Social Darwinism, Pragmatism, Modernism and its opponents, gender and identity politics and post modernism. Mark Twain, Elizabeth Cady Stanton, Thorstein Veblen, W.E.B. DuBois, John Dewey, F. Scott Fitzgerald, Hannah Arendt, Thomas Kuhn, Malcolm X, Susan Sontag and William F. Buckley. Jr. will be among the thinkers explored. Course meets the History major requirement for Group I.

HIST 623 - History of American Thought  
Credits: 4  
Influential thinkers and ideas have shaped American politics, society, economy, and culture since the Civil War. Among the topics explored are American Victorianism, Social Darwinism, Pragmatism, Modernism and its opponents, gender and identity politics and post modernism. Mark Twain, Elizabeth Cady Stanton, Thorstein Veblen, W.E.B. DuBois, John Dewey, F. Scott Fitzgerald, Hannah Arendt, Thomas Kuhn, Malcolm X, Susan Sontag and William F. Buckley. Jr. will be among the thinkers explored. Course meets the History major requirement for Group I.

HIST 624 - Topics in Modern US History  
Credits: 4  
Advanced study of topics in U.S. history. Barring duplication of subject, may be repeated. Course meets the History major requirement for Group I.  
Repeat Rule: May be repeated for a maximum of 8 credits.

HIST #625 - Southern History and Literature since the Civil War  
Credits: 4  
Equal focus on the history and literature of the South since the Civil War. Topics include reconstruction, the age of segregation, and the Civil Rights Movement. Literary focus is on the period since 1920, including the "Southern Renaissance." Authors include William Faulkner, Robert Penn Warren, Flannery O'Connor, and Zora Neale Hurston. Course meets the History major requirement for Group I.  
Equivalent(s): AMST 613

HIST 632 - Latin American History: Topics  
Credits: 4  
Topics vary (see department listing for current semester). Seminar entails reading, discussion, and research on literature and documents related to the selected topic. Provides students with the opportunity to do research under close direction. Course meets the History major requirement for Group III. 
Repeat Rule: May be repeated for a maximum of 8 credits.
HIST 633 - Medieval England 800-1300
Credits: 4
This course provides students with an opportunity to gain an in-depth understanding of the history of medieval England from the beginning of the period of consolidation under the Wessex dynasty in the ninth-century through the end of the thirteenth century. In addition to obtaining a large corpus of information through the reading of a significant monographs dealing with England during this period, students will be challenged to develop the critical analytical skills necessary for the thorough understanding and practice of historical methodologies, with a particular focus on the practice of historical method in writing medieval history. Finally, students will be given the opportunity to improve their communications skills through extensive class discussions dealing with the scholarly works read for this course, and in writing assignments. Course meets the History major requirement for Group II.

HIST 634 - Medieval Empires
Credits: 4
This course will explore the intellectual and political foundations of imperial rule in the Middle Ages with a particular focus on the Carolingian, German, and byzantine empires of the early and high Middle Ages. The course will begin with the development of the idea of empire under Alexander the Great and then during the Roman empire. The course will then turn to an examination of how the rulers of the three great empires of the western Middle Ages adapted the classical ideas and practices of empire for their purposes. The course focuses on sources. Background material will be provided in short lectures. Course meets the History major requirement for Group II.

HIST 640 - Holy War in the Holy Land: The Medieval Crusades
Credits: 4
Survey of the medieval military expeditions organized by Christians to secure the Holy Land during the 12th and 13th centuries. Topics considered include the formulation of a "just war" theory; political, intellectual, religious, and military interactions between Christians, Jews, and Muslims; the Crusader State of Jerusalem; and the histories of individual crusades. Course meets the History major requirement for Group II.

HIST 641 - Europe after the Black Death
Credits: 4
Explores the dramatic changes that characterized Western Europe as it rebounded in the fifteenth through the seventeenth centuries from the ravages of the Black Death of 1348. Examines the social, political, and artistic developments in late medieval and Renaissance Italy before "crossing the Alps" to trace the expansion of Renaissance culture in Northern Europe. Topics include the humanist movement; new patterns of social organization; the revival of classical antiquity in the arts, architecture, religion, and political theory; the effects on European society of the encounter with the "New World"; shifting roles for men and women in early modern European societies; religious war and conflict. Course meets the History major requirement for Group II.

HIST 642 - Saints, Sinners, and Heretics: Europe in the Age of Religious Reform
Credits: 4
Examines the history of Western Christendom from roughly 1400 to 1600, a period of tumultuous religious change throughout Europe. We begin in the Middle Ages where the seeds of religious division were sown. We then tackle Martin Luther's challenge to the Catholic church, trace the diffusion of his message throughout Europe, and address the Catholic response to the evangelizing movements that he inspired. Finally we investigate some of the regional varieties of Protestantism that developed in the latter half of the sixteenth century with a particular focus on Switzerland, Germany, England, Scotland, France, and the Netherlands. Course meets the History major requirement for Group II.

HIST #644 - Victorian Britain
Credits: 4
The Victorian Era was a time of contrasts. Queen Victoria, a monarch known for her moral strictness, sexual probity and rigid sense of decorum ruled over a vast world Empire. The streets of London, however, teemed with prostitutes, pickpockets and impoverished immigrants from Ireland, Europe and beyond, whose lives seemed untouched by either the prosperity or moral stringency that characterized the age. In this class we explore the varieties of Victorian experience both at home and in the global empire. We will examine the glittering lives of the rich as well as the abject poverty of the working poor and explore our own fascination with the dress, the homes, and the lives of the Victorians. Examining sources such as novels, decorative arts, corsets & bustles, Parliamentary debates, architecture, and scientific writings, we will attempt to uncover the many-faceted culture, society and political life of Victorian Britain. Course meets the History major requirement for Group II.

HIST #645 - 19th Century European Great Powers - Diplomacy and International Law
Credits: 4
In this course, we will study power in Europe during the apogee of that region's strength. The long nineteenth century is a period during which Europe avoided major continent-wide (and world-wide) wars, despite constant upheavals. That is a remarkable accomplishment when one compares the events of the nineteenth century with those of the twentieth, despite the fact that the former influenced the latter. Focus is on those who wielded power internationally, including dealmakers, deal-breakers, manipulators, and idealists. To express, test, restrain, or leverage power, actors engaged in wars and negotiations that led to a range of contracts from treaties, such as the Treaty of Fontainebleau ending Napoleon's reign; to alliances, like the Anglo-Japanese Naval Alliance ending Britain's "splendid isolation" from international partnerships; to conferences, including the Hague Conventions regulating wars. In addition, it is important to look at statutes influencing foreign policy, as did the Second German Naval Law of 1900 which increased European tensions before World War I. Examining the relations of powerful nineteenth century states, therefore, illuminates international law as well as more traditional elements of diplomacy. Students learn about 19th century great powers of Europe and important pieces of international legal relationships as well as develop critical thinking and communication skills. Course meets the History major requirement for Group II.
HIST 652 - Topics in European Intellectual History
Credits: 4
Explores such major developments as the Enlightenment, Russian intellectual history, and the relationship between gender and intellectual history. Includes topics since the Renaissance. Since topics vary, students should check the department newsletter or office for course theme in any given term. May be repeated as topics change. Course meets the History major requirement for Group II.
Repeat Rule: May be repeated for a maximum of 12 credits.

HIST 654 - Topics in History of Science
Credits: 4
Advanced study of a selected topic in the history of European science since the Renaissance. Course meets the History major requirement for Group II.

HIST 656 - Twentieth Century Europe
Credits: 4
The Twentieth Century began with European nations at the apex of their global power. It ended with their world dominance in ruins. Two World Wars, the rise of Nazism, and communist revolutions had left Europe in the shadow of the United States. Examining European history from the birth of the automobile to the fall of the Berlin Wall, we explore the political, social and cultural forces that made the twentieth century the bloodiest epoch in world history. Course meets the History requirement for Group II.

HIST 662 - England in the Tudor and Stuart Periods
Credits: 4
England experienced great upheaval under the Tudor and Stuart dynasties. This course explores many of the key political, religious, social and economic changes that changed the face of England in the 16th and 17th centuries. We will study all of the Tudor and Stuart monarchs, and we will focus particularly on the following topics: Henry VIII, the English Reformation, Elizabeth I, Commons v. Nobility, the English Civil Wars and the execution of Charles I, the Restoration and the Glorious Revolution. Course meets the History requirement for Group II.

HIST 664 - Russia: Modernization through Soviet Empire
Credits: 4
The challenges of modernization, experience and legacy of Leninist and Stalinist revolutions. Soviet consolidation and decline through the Gorbachev era. Course meets the History requirement for Group II.

HIST 665 - Themes in Women's History
Credits: 4
In-depth examination of a selected topic in women's history. Topics may include Women and Health, Women in Modern European Political Theory, Comparative History of Women and Revolution. See Time and Room Schedule of history department newsletter for the specific topic. May be repeated for credit with permission of instructor. Course meets the History requirement for Group II.

HIST #669 - Germany from 1918 to Present
Credits: 4
Begins with the revolution of 1918 and then explores the political, social, and intellectual character of the Weimar Republic, the rise and nature of Nazism, the Holocaust, the foundation of both the German Democratic Republic and Federal Republic and their evolution in the shadow of the Cold War, and concludes with the unification of Germany after the fall of the Berlin Wall in 1989. Course meets the History requirement for Group II.

HIST 675 - Early History of Ancient Greece
Credits: 4
Greek history from the Minoan and Mycenaean eras through the Persian Wars of the early fifth century. Emphasis on original sources including the Homeric epics, Plutarch, Sappho, and Herodotus. Examination of the distinctive developments of political systems in Sparta and Athens, as well as issues of colonization, diplomacy, religion, and culture. Thorough discussion of types of available evidence and their integration into historical understanding. Course meets the History requirement for Group II.
Equivalent(s): HIST 576

HIST 676 - Classical and Hellenistic Greek Worlds
Credits: 4
Greek history from the Persian Wars of the early fifth century through the life of Alexander the Great and the creation of the Hellenistic world. Emphasizes original sources including Herodotus, Thucydides, the Athenian playwrights, and Plato. Examines the transformation from city-state political organization to large Hellenistic kingdoms, as well as discussion of Greek historiography, intellectual life, and social theory. Thorough discussion of types of available evidence and their integration into historical understanding. Course meets the History major requirements for Group II.

HIST 677 - Roman Republic
Credits: 4
Covers pre-Roman Italy, the Etruscans, and the foundation of the Republic, Rome's expansion through the Punic Wars, relations with the Hellenistic kingdoms, and disintegration and final collapse of the Republic. Includes discussions of Roman art, engineering, and political theory. Emphasis on Latin sources in philosophy, history, and literature. Course meets the History major requirements for Group II.

HIST 678 - Roman Empire
Credits: 4
Collapse of the Roman Republic and creation of the Augustan principate. History of the principate through the division of the empire, with discussion of the fall of Rome in the west and the eastern empire through Justinian. Discusses Roman art, literature, philosophy, and religious developments such as the proliferation of mystery religions and the rise of Christianity. Course meets the History major requirements for Group II.

HIST 679 - Rights Revolution
Credits: 4
It is all but impossible to think or talk about contemporary legal and moral controversies without invoking the idea of "rights." Yet few of us can claim a clear understanding of this pivotal concept. Historically, how have particular claims, preferences, and socio-economic interests attained the status of publicly-recognized "rights"? Are there other ways to conceptualize and prioritize rights, other forms of "rights talk," than the ones we currently employ? History 679 takes as its point of departure the enormous expansion in rights claimed by both individuals and groups in recent decades -- the "rights revolution." This development has elicited both praise and alarm, and we will examine the philosophical, moral, and political dimensions of each. Course meets the History major requirements for Group II.
Equivalent(s): HUMA 730, JUST 695
HIST 680 - Historical Geography
Credits: 4
Introduces major themes, important scholars, and commonly used research techniques in historical geography. Course is reading and research oriented. Focus is on North America. Writing intensive. (Also listed as GEOG 680.) Course meets the History major requirements for Group I.
Attributes: Writing Intensive Course
Equivalent(s): GEOG 586, GEOG 680, HIST 512

HIST 681 - Society and Culture in 20th-Century China
Credits: 4
Explores major aspects of social and cultural transformation in China from the beginning of the century, when the Qing dynasty was replaced by a Republic, to the age of globalization. Themes included the rise of citizenship and civic activism, mass culture in print media, commercial culture in advertisement and consumerism, European and Russian influences on cultural and political changes, war of resistance, refugee and social dislocation, rural transformation shaped by socialism and global market. Course meets the History major requirements for Group III.

HIST 684 - History of Southern Africa since 1652
Credits: 4
Examines the major themes in the history of a troubled sub-region of Africa. In-depth exploration of the nature and impact of socio-cultural formations, the evolution of centralized societies, the initiation and expansion of white settlements, and the Mfecane revolution. Analysis of the dynamics and consequences of European imperialism, economic competition and industrialization, European settler-nationalism, racial conflict, slavery, class and gender politics, Indian and African nationalism, democratization, and development in post-colonial and post-apartheid Southern Africa. Course meets the History major requirements for Group III.

HIST 690 - Seminar: Historical Expl
Credits: 4
Repeat Rule: May be repeated for a maximum of 8 credits.
Equivalent(s): HIST 701

HIST 691 - Internship
Credits: 1-4
Supervised internship with a governmental agency, private corporation, philanthropic institution, library, archives, museum, historical society, or other institution seeking individuals interested in historical research. Cr/F.
Repeat Rule: May be repeated for a maximum of 8 credits.

HIST 695 - Independent Study
Credits: 1-4
Repeat Rule: May be repeated for a maximum of 8 credits.

HIST 695W - Independent Study
Credits: 1-4

HIST 698 - Internship in Museum Studies
Credits: 4
Supervised position with a museum, historical society, archive, or other history related site. Cr/F.

HIST 770 - Seminar: Historical Expl
Credits: 4
Repeat Rule: May be repeated for a maximum of 8 credits.
Equivalent(s): HIST 701

HIST 771 - Museum Studies
Credits: 4
Introduction to theory, methods, and practice of museum studies. Examination of various museum functions, as well as contemporary historical controversies. May be repeated with departmental approval.
Repeat Rule: May be repeated for a maximum of 8 credits.

HIST 772 - Studies in Regional Material Culture
Credits: 4
Introduces the theory and methodology of material culture, that is, the study of history through the analysis of buildings, human-created landscapes, and artifacts made and used in the United States, particularly in New England. May be repeated for credit with permission of undergraduate adviser. Course meets the History major requirements for Group I.
Repeat Rule: May be repeated for a maximum of 8 credits.

HIST 774 - Historiography
Credits: 4
Analysis of ancient and modern historians. Open to undergraduates with permission. (Not offered every year.)

HIST 775 - Historical Methods
Credits: 4
Contemporary historical methods. Required of all entering Ph.D. candidates; open to undergraduate with permission. (Not offered every year.)
Equivalent(s): HIST 670
HIST 780 - Special Topics in Museum Studies/Material Culture
Credits: 4
Study of a selected topic related to museum studies or material culture. May be repeated for course credit with permission of the undergraduate adviser. Course meets the History major requirements for Group I.
Repeat Rule: May be repeated up to 3 times.

HIST 789 - Seminar in the History of Science
Credits: 4
In-depth examination of a selected topic in the history of science. Subject varies. Open to undergraduates with permission of the instructor. No special background in science required.

HIST 796 - Research Internship
Credits: 2-4
Intensive collaborative experience in research for undergraduate majors. Students gain professional skills while assisting a faculty member on a continuing research project. Permission Required.

HIST 797 - Colloquium
Credits: 4
Selected topics in American, European, and non-Western history. Required of history majors. Students must elect section in the department office at the time of registration. Prereq: HIST 500. Course meets the History major requirements for Group I, II, or III, depending on the topic.
Attributes: Writing Intensive Course
Repeat Rule: May be repeated for a maximum of 8 credits.

HIST 799 - Senior Thesis
Credits: 4
Supervised research leading to the presentation of a major research paper. Open only to history majors. Permission of department chairperson required. May not be used as a substitute for the required senior colloquium.

Homeland Security (HLS)

# Course numbers with the # symbol included (e.g. #400) have not been taught in the last 3 years.

HLS 410 - Introduction to Homeland Security
Credits: 4
The primary focus of HLS 410 is to describe the entirety of the homeland security enterprise in the US and to survey many of the major expressions of it, which can become careers in security. This includes a history of homeland security and emergency management disciplines, and the law and policy underpinnings for homeland security and specific units in emergency management, terrorism, intelligence, law and policy, critical infrastructure and risk analysis, corporate security, environmental/human security and cybersecurity.

HLS 415 - Fundamentals of Corporate Security
Credits: 4
HLS 415 will introduce the student to the fundamentals of corporate security including the nature, scope, history, and essential elements of organization (or enterprise) security in the workplace, with emphasis on the private sector. Specific areas include the operational aspects of security strategies for identifying and controlling security exposures, risk management strategies, applicable legal issues, personal protection, property protection, role of intelligence, and concepts of disaster planning and management.

HLS 455 - Introduction to Cybersecurity
Credits: 4
The primary focus of HLS 455 is to provide a survey of the broad field of cybersecurity and information security/assurance. Topics will include a definition of information security, the need for information security and cybersecurity in both the public and private sectors, ethical and legal issues revolving around cybersecurity, risk management and planning, and information/cyber security technology. The role of the U.S. Department of Homeland Security (DHS) in securing the cyberspace and the nation’s information-related infrastructures will also be explored.

HLS 480 - Professional Skills in Homeland Security
Credits: 4
HLS 480 prepares students to effectively enter the workforce via an internship or co-op experience. Students learn to prepare a resume and cover letter, practice interviewing, learn about how their personality matches job descriptions, search for internships, and develop an e-Portfolio that describes themselves, their professional aspirations, skills, etc. Professional ethics, decision making, organizational power, basic leadership and management principles and professionalism are discussed and illustrated.

HLS 510 - Fundamentals of Emergency Management
Credits: 4
This course includes thorough coverage of the historical background of emergency management (EM) in the United States as well as many of the most significant laws and policies that have defined and shaped the field, including HLSPD 5, HLSPD 8, the National Flood Insurance Act, and the Stafford Act. Topics include detailed coverage of FEMA’s all hazards approach, all phases of the EM cycle, including mitigation, preparation, response, and recovery; integrated emergency management systems, the incident command system, the National Incident Management System, emergency support functions, and risk communications. The course culminates with each student writing and formally presenting an integrated emergency management plan. Prereq: HLS 410 and HLS 415 or permission.

HLS 515 - Critical Infrastructure Security and Resilience
Credits: 4
HLS 515 includes an introduction to critical infrastructure security, resilience, and risk analysis as it is conceptualized, regulated and used in the homeland security enterprise. Topics include the history and evolution of critical infrastructure protection including the composition, characteristics and risks to critical infrastructures. Public-private partnerships and sector-specific plans are examined. Resilience in a global context and risk analysis as a means by which resources and assets are allocated to critical infrastructure(s) is presented. Prereq: HLS 410, HLS 415 and HLS 455 or consent of coordinator.

HLS 520 - Homeland Security Law and Policy
Credits: 4
This course is an overview of key legal, policy, and ethical issues in the context of Homeland Security policy and practice. Students examine legal concepts regarding constitutional rights of individuals, legal process, access to courts, the law of war, and national security principles as they relate to homeland security legislation and policy initiatives. Legal principles of due process, habeas corpus, search and seizure. Compulsory process, and international agreements are explored in greater depth. The law of war will be examined in the context of preemptive war and the current National Security Strategy, the status of combatants and detention, Elements of national security law, intelligence collection and sharing, the Patriot Act, and military-civilian relations, etc. Prereq: HLS 410 or consent of the instructor.
HLS 540 - Prevention and Detection of Fraud
Credits: 4
Fraud detection and prevention are a perpetual concern for organizations, individuals, and society. Course topics include fraud causes and behaviors of fraudsters, the fraud triangle, criminal and civil fraud, red flags, financial statement fraud, procurement fraud, bribery, pyramid schemes, money laundering, corporate governance, fraud risk management and responses. Real-world fraud schemes are explored and discussed. Required course for minor in Forensic Accounting. May not be repeated for credit if taken as BUS 460.
Equivalent(s): BUS 460

HLS 555 - Comparative Homeland Security Systems
Credits: 4
This course will encourage students to become cosmopolitan citizens by gaining knowledge and understanding of cultures other than those of the United States. Students will learn to recognize others’ values and, ultimately, accept the many ways in which we all are human. For example, using the Irish struggle for independence from Britain and the Troubles as examples, students will examine Anglo and Irish “culture” and how it is influenced by or how it can influence nation-state security, or conversely, the fight for civil liberties and independence. The main systems and structures in both the US and the UK’s domestic security enterprises will be discussed as well as the origins, typologies and goals of several terrorist groups, the basics of the intelligence community in both nations, and how intelligence informs the struggle to contain terrorism. In addition, for homeland security majors, this course can satisfy either the terrorism requirement or the intelligence systems requirement (see instructors). Although a major objective of the course is to prepare students to participate successfully in a managed study abroad program (as a separate course: HLS 656, 1 credit), participation in the study abroad trip is a not required component of this course.
Attributes: World Cultures(Discovery)

HLS 580 - Environmental and Human Security
Credits: 4
Students will learn how environmental issues may give rise to socio-political instability around the world which can become threats to US national/homeland security. This course will explore how U.S. domestic and foreign policy, and ultimately, U.S. national security, can be impacted by emergent threats to nations from environmental health issues, climate change, deforestation, infrastructure vulnerabilities, and natural resource shortages caused by rapid industrialization, population growth, and urbanization in less developed countries. In a seminar format, students and faculty will cover a variety of readings and discuss their conclusions and students will have the opportunity to lead class discussions on assigned readings.
Attributes: Environment,TechSociety(Disc)

HLS 595 - Independent Study in Homeland Security
Credits: 1-4
HLS 595 is an independent study in homeland security. Its main function will be to allow students to complete a 500 level homeland security course required in the major, but who are not able to take the required course when it is offered. HLS 595 can substitute for the required core course. In addition, students can also take HLS 595 as a sophomore level independent study as a variable credit course for students wanting to more deeply explore an area of interest. Prereq: Senior standing and permission. Cr/F.
Repeat Rule: May be repeated for a maximum of 8 credits.

HLS 610 - Exercise Design and Evaluation in Homeland Security
Credits: 4
HLS 610 studies the role and structure of exercise design as it is applied in homeland security and emergency management. Students are introduced to the nature and characteristics of discussion and operations-based exercises and the Homeland Security Exercise Evaluation Program. The legislative and policy background of national preparedness is presented. Students complete a project and presentation that demonstrates how exercises are designed, scripted, implemented (conducted) and evaluated. Prereq: HLS 510 and HLS 515 or consent of coordinator.

HLS 615 - Introduction to Fraud Investigation
Credits: 4
Fraud Investigation is a specific process including acquisition and verification of information that could lead to the confirmation of fraudulent activity and legal consequences. Course topics include various steps in the fraud investigation process, including identification of fraud, planning an investigation, interviewing, gathering of public and non-public evidence, analysis of data, legal considerations, confidentiality, and writing a fraud examination report. Real-world fraud cases are discussed and analyzed. Required course for minor in Forensic Accounting.

HLS 630 - Sports and Large Event Security Management
Credits: 4
This course will address the nature and scope of sport and large event security issues involved in securing the homeland from domestic and international threats to sports and other large events. Motives, methods, and impact of terrorism activity, natural disasters, and crowd management issues in sport and large event venues will be discussed. This course also includes an examination of the basic legislation and operations of the U.S. Department of Homeland Security; risk assessment; security planning options; emergency response and recovery, training and exercises. Prereq: HLS 410.

HLS 640 - Forensic Accounting for Non-Accountants
Credits: 4
Forensic accounting procedures uncover fraudulent schemes and misappropriation of assets. Course topics include review of the basics of financial accounting, Sarbanes-Oxley legislation, the forensic accounting profession, occupational fraud, financial analysis techniques, money laundering, investigative and interviewing processes, evidence gathering, inferential analysis, and documentation and presentation of the case. Real-life fraud cases solved by forensic accounting skills are analyzed. Pre-req: BUS 532 or ADMN 502 or equivalent. Required course for minor in Forensic Accounting.

HLS 650 - Intelligence Systems and Structures in Homeland Security
Credits: 4
Intelligence is a systematic process of collection, analysis, and dissemination of information in support of national, state, and/or local policy or strategy. HLS 650 will explore the varied expressions of the intelligence community as it exists in the US. In addition, students will explore the history and development of the IC in the US, major legislative acts that led to the development of intelligence as a major function of US national security strategy. Prereq: HLS 410 or permission of instructor.

HLS 656 - Comparative Homeland Security Systems Lab
Credits: 1
The study abroad component of its prerequisite course, HLS 555. Students go on a 3-week managed study abroad program designed and led by UNH faculty. Prereq: HLS 555 or consent instructor.
HLS 665 - Bioterrorism, Biosecurity, and Biodefense
Credits: 4
This course examines biowarfare, including biological, chemical, and radiological weapons. Historical, plausible, and novel weapons will be studied. Mechanisms of action, biological and societal impacts, detection, treatment and governmental strategies for biodefense will be investigated. Discussions will focus on surveillance and preparedness at the state and federal levels. Relevant aspects of the law will be presented and the bioethical challenges of anti-bioterror research will be explored. Prereq: HLS 410 or BMS 503.
Equivalent(s): BSCI 665

HLS 695 - Independent Study in Homeland Security
Credits: 1-4
HLS 695 is an independent study in homeland security. Its main function will be to allow students to complete a 600 level homeland security course required in the major, but who are not able to take the required course when it is offered. HLS 695 can substitute for the required core course. In addition, students can also take HLS 695 as a junior level independent study as a variable credit course for students wanting to more deeply explore an area of interest. Prereq: Senior standing and permission. Cr/F.
Repeat Rule: May be repeated for a maximum of 8 credits.

HLS 722 - International White Collar Crime
Credits: 4
It was Edwin Sutherland, an American sociologist of the early 20th century who first began to appreciate and understand white collar crime and distinguish it from other criminality. He was also the first to define it, calling it "crime committed by a person of respectability and high social status in the course of his occupation". Today, international white collar crime is a global phenomenon which reaches into the highest levels of transnational business and commercial behavior, government, and politics. It includes, but is not limited to, old-fashioned graft and corruption, tax evasion, money laundering, securities and market manipulation, banking and insurance violations and fraud, influence peddling and even election fixing. This course is intended to provide the ICLJ's advanced students with a thorough understanding of what white collar crime is, where it is, how it is executed, what is being done to combat it, and what dangers it presents to established and emerging nations. The course will examine the approaches to these problems used in countries that have a strong interest dealing with white collar criminal issues. In addition, international best practices and standards will be critically assessed.

HLS 724 - International Criminal Law Survey
Credits: 4
This course is a survey of the field of international criminal law. It asks students to consider foundational questions about what counts as an international crime; when an individual country may have jurisdiction over crimes that occur outside the country’s boundaries and when and over what crimes an international body may have jurisdiction. It introduces students to the international criminal court; the special tribunals; domestic and international efforts to combat terrorism and an array of transnational crimes like drug trafficking, cybercrimes, white-collar crimes etc.

HLS 726 - International Criminal Court & The Special Tribunals
Credits: 4
This course is about a new and exciting area of law, practice and procedure that in many respects is still in its infancy. During the course you will explore how International Criminal Law and the International Criminal Courts and Tribunals evolved. You will examine their jurisprudence, practice and procedure. Specifically, you will discover how the prosecution operates from the investigation of crimes through to their prosecution. You will look at the role of the defense and the common defenses raised in cases before the courts. An understanding of the full ramifications of International Criminal Law can be challenging because it disturbs some of the well-established concepts that you may have become accustomed to, such as sovereignty, military supremacy, and discrimination.

HLS 750 - Emergent Topics in Homeland Security/Homeland Defense
Credits: 4
HLS 750 will investigate the nature of strategic planning as it relates to homeland security and national security in the United States. In addition, students will explore how strategic planning relates to decision making in more stable environments as well as decision making under uncertainty. Relevant legislation and past decisions (such as the Bay of Pigs and the Cuban Missile Crisis) will be explored. In addition, the basic concepts of the techniques for strategic communication will be explored, developed, and related to decision making along with the characteristics of making high quality strategic decisions. Prereq: HLS 510 and HLS 515 or consent of instructor. Special Fee.
HLS 790 - Capstone in Homeland Security  
**Credits:** 4  
HLS 790 allows students to work collaboratively with an organization to identify and solve a homeland security, physical security, safety, cybersecurity or emergency management challenges. Each group performs a risk assessment in order to identify their client's primary security or preparedness challenges. Students then use their skill to identify and apply best practices as countermeasures. Students culminate their projects with presentations to their classmates and to their clients. The expectation of this class is to develop a professional example of the student's thinking and writing to solve real world security problems. Prereq: senior standing, HLS 610 and HLS 760 or consent of coordinator.

**Attributes:** Writing Intensive Course

HLS 795 - Independent Study in Homeland Security  
**Credits:** 1-4  
HLS 795 is an independent study in homeland security. Its main function will be to allow students to complete a 700 level homeland security course required in the major, but who are not able to take the required course when it is offered. HLS 795 can substitute for the required core course. In addition, students can also take HLS 795 as a senior level independent study as a variable credit course for students wanting to more deeply explore an area of interest. Prereq: Senior standing and permission. 

**Repeat Rule:** May be repeated for a maximum of 8 credits.

HLS 799 - Thesis in Homeland Security  
**Credits:** 4  
HLS 799 is an alternative professional experience required by the homeland security major. It is designed to be a substitute for HLS 770 (internship in HLS). Students function independently (but keep in regular contact with the instructor) as they devise a thesis topic and write a professional research paper in support of their thesis. The thesis is a research paper that uses either mostly secondary data collection methods with the expectation that the project be equivalent to the 180 hours interns are obligated to work. Cr/F.

**Horticultural Technology (HT)**

Course numbers with the # symbol included (e.g. #400) have not been taught in the last 3 years.

HT 404 - Plant Propagation  
**Credits:** 4  
Reproduction of plants for horticultural purposes by sexual and asexual methods. Seeds, cuttings, separation, division, layering, grafting, budding, and in vitro propagation. Special fee. Prereq: HORT 207 or permission. 2 lec/1 lab.

**Equivalent(s):** HT 204

HT 407 - Plant Structure and Function  
**Credits:** 4  
Morphology, anatomy, and physiology, with emphasis on the higher plants. Horticultural implications. Lab stresses observations and manipulations of the particulars of plant life. Special fee. 2 rec/1 lab.

**Equivalent(s):** HT 207

HT 415 - Soils and Land Use  
**Credits:** 2  
Introduction to soils with emphasis on physical, morphological, chemical, and biological characteristics and their applications in horticultural land use decisions. Includes soil genesis and classification and soil survey use. Special fee. 3 rec/1 lab/7 wks.

**Equivalent(s):** HT 215

HT 416 - Soils and Plant Nutrition  
**Credits:** 2  
Role of nutrition in plant health care. Macro- and micro-nutrient needs, nutrition deficiency symptoms, soil testing, and fertilizer application techniques in both soil and soil-less media. Special fee. 3 rec/1 lab/7 wks.

**Equivalent(s):** HT 217, HT 417

HT 427 - Greenhouse Operation and Design  
**Credits:** 2  
Designing, using, equipping and managing greenhouses for production and retail with a focus on structure and environment and how these pertain to plant production. Includes lab in our production greenhouse. Special fee.

**Equivalent(s):** HT 227, HT 227A

HT 428 - Plant Production Techniques  
**Credits:** 2  
Managing greenhouse infrastructure and crops for production and retail. This class will focus on irrigation, plant nutrition, pest and disease control and lighting. Labs and experience in our production greenhouse range from lectures in this hands-on course.

**Equivalent(s):** HT 227, HT 227B

HT 450 - Flower Show Design and Construction  
**Credits:** 1  
Design, construction, and maintenance of the Thompson School horticultural exhibit at a public flower show. May be repeated. Special fee. 1 rec.

**Equivalent(s):** HT 250

HT 454 - Irrigation Design  
**Credits:** 3  
Design, installation, and operation of irrigation systems in the greenhouse, nursery, field crops, and landscape. Special fee. 1 lec/1 lab.

**Equivalent(s):** HT 254

HT 459 - Winter Identification of Landscape Trees in the Northeast  
**Credits:** 2  
Winter landscape tree morphology and identification. This on-line course begins with introductory lectures on winter landscape tree morphology and Family characteristics. Students then learn how to identify more than 60 common deciduous landscape trees by watching videos which show each plant's winter identification characteristics. Students evaluated through on-line quizzes and a photographed twig collection. Digital camera required. No campus visit, but students need to be geographically located in the Northeast for access to trees. Prereq: FORT 461 or HT 557 or NR 425 or PBIO 566.

**Equivalent(s):** HT 259

HT 460 - Sustainable Plant Management  
**Credits:** 4  
Sustainable practices and principles in selecting, establishing and maintaining woody and herbaceous plants for optimum health. Topics include planting, pruning, fertilization, pest identification, plant culture and communities.
HT 493 - Field Operations
Credits: 1-3
Seven-week or fourteen-week modules of field experience in selected areas of horticulture under the supervision of an appropriate member of the faculty/staff. A student may enroll in two modules per term. A) Floriculture; B) Floral Design; C) Nursery and Garden; D) Landscape; E) Horticultural Therapy. Special fee. Prereq: permission of instructor and student's adviser.
Equivalent(s): HT 293

HT 494 - Field Operations
Credits: 1-3
Seven-week or fourteen-week modules of field experience in selected areas of horticulture under the supervision of an appropriate member of the faculty/staff. A student may enroll in two modules per term. A) Floriculture; B) Floral Design; C) Nursery and Garden; D) Landscape; E) Horticultural Therapy. Special fee. Prereq: permission of instructor and student's adviser.
Equivalent(s): HT 294

HT 529 - Horticultural Facilities Mgmt
Credits: 2
Layout, systems, construction, management principles, and horticultural techniques used in controlled growth structures, including greenhouses, propagation houses and beds, cold frames, hoop houses, and lath houses. Includes practicum in daily operation of Thompson School horticultural facilities, with second-year focus on scheduling and supervision. 2 lab.
Equivalent(s): HT 227, HT 227C

HT 530 - Horticultural Facilities Mgmt
Credits: 2
Layout, systems, construction, management principles, and horticultural techniques used in controlled growth structures, including greenhouses, propagation houses and beds, cold frames, hoop houses, and lath houses. Includes practicum in daily operation of Thompson School horticultural facilities, with second-year focus on scheduling and supervision. 2 lab.
Equivalent(s): HT 227, HT 227D

HT 551 - Introduction to Design Communication
Credits: 2
Introduction to methods of communicating garden and landscape design. Lab work covers selected 2-D and 3-D tools and techniques, including instrumental drawing, modeling, and computer-aided drafting and design (CADD). Special fee. Prereq: TSAS 205, Computers in the Workplace. 1 lec/1 lab.
Equivalent(s): FORT 251

HT 553 - "Pond-less" Water Feature Design and Installation
Credits: 2
A major trend in landscape design is the use of water features that range from simple recirculating pond to major waterfalls and fountains. Class starts with the design principles of "pond-less" features and expands to proper installation techniques. Determining water flow, recirculation rates, appropriate pump requirements and filter techniques are critical to a fully functioning feature. Explore differences between "pond-less" and eco-system ponds. Class culminates in the design and installation of a complete system.
Equivalent(s): HT 253

HT 554 - Sustainable Irrigation and Rain Harvesting
Credits: 3
As identifying water resources becomes ever more critical, students learn how to efficiently irrigate the landscape using low volume irrigation with harvested rainwater as the water source. Course focuses on proper design concepts of low volume irrigation as well as the design of rainwater storage systems. Includes developing site plans, identifying soil types and determining plant material to be irrigated. Learn about flow rates, water pressure and the technical components required for a complete system.

HT 555 - Landscape Lighting Design and Installation
Credits: 2
Creating outdoor "rooms" is a hot trend in landscaping. Class starts with design elements that are functional, aesthetically pleasing while minimizing light pollution and electrical usage. Learn various lighting options from LED to other low-voltage systems and their unique technical installation requirements plus how to prepare a good cost estimate. Landscape lighting provides exterior security, comfort and adds visually to the landscape canvas for both private and commercial properties.
Equivalent(s): HT 244, HT 252

HT 559 - Plants in the Horticulture Industry: Identification and Culture
Credits: 4
A comprehensive study of herbaceous and woody plants in the horticulture industry including morphology, classification, identification, and culture of common trees, shrubs, ground cover, perennials, annuals, ferns, ornamental grasses, and bulbs used in the Northeast.

HT 563 - Landscape Construction
Credits: 4
Equivalent(s): HT 263, HT 275

HT 565 - Turf Management
Credits: 4
An introductory look at turfgrass management; turfgrass culture and physiology; identifying cool-season grasses; identifying and controlling turf grass pests (insect, diseases and weeds); controlling pests using traditional, biological and integrated (IPM) practices; establishing cool-season grasses; seed and sod installation; fertilization practices will be covered.

HT 566 - Garden Design and Culture
Credits: 2
What makes a garden inviting and sustainable? Explore elements of design then learn how to design and install a variety of gardens that are attractive, integrate with the surrounding environment/ecosystem, and require minimal inputs of time, water, and nutrition. Course emphasizes the selection of native and low maintenance plants. Projects include residential landscape plantings and specialty gardens such as water, rock, rain and themed gardens. Cost estimation and business management considerations also introduced.
Co-requisite: HT 458
Equivalent(s): HT 266
HT 572 - Landscape Design Studio
Credits: 4
Principles of residential and commercial landscape design: site analysis, spatial organization, graphics and drafting, use of landscape fixtures and plant materials, final plans and specifications, cost estimates. Special fee. Prereq: HT 257 and HT 563. 2 lec/4-hr lab.
Equivalent(s): HT 272

HT 575 - Hydroponics
Credits: 2
Production of hydroponic crops in the greenhouse, focusing on systems management, plant nutritional management, crop types and production schedules. Includes lab in Thompson School production greenhouse range. Special fee. Prereq: HT 407 Plant Structure and Functioning or equivalent.
Equivalent(s): HT 275, HT 563

HT 576 - Greenhouse Crop Production
Credits: 2
All aspects of production of floriculture and food crops in the greenhouse for the spring season. Includes lab in our production greenhouse range. Special fee.
Equivalent(s): HT 258, HT 276

HT 585 - Fruit and Vegetable Production
Credits: 3
Tree fruits (apple, pear, and peaches) small fruits (strawberries, raspberries, grapes and blueberries) and vegetables grown in New England will be covered. Information will emphasize the growing, maintenance and the marketing of fruits and vegetables from the garden center perspective. Special fee. 2 lec/1 lab.
Equivalent(s): HT 286

HT 591 - Studies
Credits: 1-3
Students who have the ability and adequate preparation to work independently may propose a contract to design a course or research project on a new topic not available through existing course offerings. The purpose of this research is to explore new areas in the student’s field of study or to pursue course material in greater depth. Work is supervised by an appropriate faculty/staff member and credit varies depending on the proposed project/research. Areas may include floriculture, floral design, nursery, landscape, and horticultural therapy. Permission required. Course may be repeated up to a maximum of 6 credits.
Equivalent(s): HT 291

HT 592 - Studies
Credits: 1-3
Students who have the ability and adequate preparation to work independently may propose a contract to design a course or research project on a new topic not available through existing course offerings. The purpose of this research is to explore new areas in the student’s field of study or to pursue course material in greater depth. Work is supervised by an appropriate faculty/staff member and credit varies depending on the proposed project/research. Areas may include floriculture, floral design, nursery, landscape, and horticultural therapy. Permission required. Course may be repeated up to a maximum of 6 credits.
Equivalent(s): HT 292

HT 597 - Horticultural Work Experience
Credits: 0
A guided work experience in a student-selected area of horticulture, providing both a broad overview and a detailed understanding of work in the field. Contracting with an employer for 480 hours of career-oriented work, the student is assigned a wide variety of duties and responsibilities typical of that business or organization. Students maintain a detailed reflective journal of the experience, a portfolio-based summary report, and thorough self-evaluations. Cr/F.
Equivalent(s): HT 297

Hospitality Management (HMGT)

#  Course numbers with the # symbol included (e.g. #400) have not been taught in the last 3 years.

HMGT 401 - Introduction to the Hospitality Industry
Credits: 4
Review the broad spectrum of the hospitality industry from an historical perspective, in concert with current history, trends, and challenges presented by notable industry executives. Distinguished guests represent all segments of the hospitality industry plus selected allied support businesses. Industry segments include, but are not limited to, hotels and lodging, restaurant and food service, travel and tourism, conferences and conventions, casinos and gaming, clubs and resorts, health care and senior living, franchising and entrepreneurship, and technology support. Writing intensive.
Attributes: Writing Intensive Course

HMGT 403 - Introduction to Food Management
Credits: 4
Designed to introduce the student to the fundamental components of food production principles, nutrition and menu development, and to some basic management skills. The subject matter is presented through classroom lectures, interactive electronic instruction, guest lectures, and food production labels.

HMGT 404 - Professional Development I
Credits: 1
Development and integration of self-assessment, career planning, and academic work. Students design and produce an individual career action plan in preparation of a required summer internship. Through self-assessment instruments they develop an understanding of their personal values, interests, skills, and personality in relation to their vocational options, academic process, and career projections. Cr/F.

HMGT 405 - Introduction to Food and Service Management
Credits: 4
This course is designed to build knowledge and experience in food and service management. Basic principles of foodservice management and their application to menu development, food safety, procurement, equipment usage and identification, customer service, marketing, leadership, human resources, and finance are covered during this course. Laboratory experience in both front and back of the house will provide hands-on experience in basic understanding of how a kitchen operates and dining room service. Training in Safe Food Handling, and Alcohol Services leads to Certification.
HMGT 504 - Professional Development II  
Credits: 2  
Development and integration of self-assessment, career planning, and academic work. Students design and produce an individual career action plan in preparation of a required summer internship. Through self-assessment instruments they develop an understanding of their personal values, interests, skills, and personality in relation to their vocational options, academic process, and career projections.

HMGT 554 - Lodging Operations Management  
Credits: 4  
The course is designed to introduce the operational aspects of hotel and resorts as well as discuss current trends of the lodging industry, hotel organization, reservations, registration, guest services and communications, hotel security, front office accounting, housekeeping, night audit, planning for operations, sales techniques, revenue management, and human resources management. To achieve the learning objectives, lectures, labs, e-learning course, guest lectures, and individual assignments are employed. Training in hotel analytics leads to CHIA Certification. Pre- or Co-requisite: HMGT 401.  
Equivalent(s): HMGT 654

HMGT 570 - International Food and Culture  
Credits: 4  
This course explores multiple world cultures using food, language, religion, geography, communication, politics, among other attributes, and compares/contrasts with our own diverse cultures here in the United States. Learn why we eat what we eat, when, and how. Food is a critical component across the world’s many different cultures and this course will investigate how they are viewed by persons of different backgrounds. The course will leave you with an expanded understanding and appreciation of why and how persons from diverse cultures with varying backgrounds approach their food and beverage needs differently. Laboratory experience in cooking international cuisine. Inquiry Attribute, World Culture, Writing intensive.  
Attributes: World Cultures(Discovery); Inquiry (Discovery); Writing Intensive Course  
Equivalent(s): HMGT 670

HMGT 598 - Happy and Healthy at Work/Promoting Wellness, Diversity and Inclusion  
Credits: 4  
Offers improved understanding and ability to effectively manage a diverse and healthy workforce. Addresses key diversity, inclusion, and wellness issues in the workplace of a general, technical, and social nature with an emphasis on disability and health promotion. (Also listed as OT 598).  
Attributes: Social Science (Discovery); Inquiry (Discovery)  
Equivalent(s): OT 598

HMGT 600 - Hospitality Marketing Management  
Credits: 4  
Students apply basic marketing principles to the competitive environment of service businesses, such as hotels, restaurants, and other hospitality firms. Strong emphasis on consumer behavior, services management theory, and the hospitality marketing mix as they relate to service firms of all types. Course material is presented through a variety of techniques: case studies, lectures, guest speakers, team projects, and written assignments. Prereq: HMGT 401. Pre- or Coreq:HMGT 554. Writing intensive.  
Attributes: Writing Intensive Course  
Equivalent(s): HOTL 700, MKTG 651

HMGT 604 - Professional Development III  
Credits: 2  
Students design and produce an individual career action plan. Emphasis on identifying each individual’s marketable skills, locating job possibilities, writing resumes and correspondence, and interviewing for jobs. Career development workshops are used to enhance the learning experience. Pre- or Coreq: HMGT 504.

HMGT 618 - Uniform Systems for the Hospitality Industry  
Credits: 4  
Following a review of financial statements and an introduction to the Uniform System of Accounts for Hotels and Restaurants, students learn specific applications of managerial accounting and decision support systems for the hospitality industry. Topics include cash flow analysis, cost management, cost-volume-profit analysis, pricing models, budgeting, and forecasting. Students develop an understanding of computer software and back-and-front office computer systems as they relate specifically to the hospitality industry. Lectures, computer exercises, and papers. Prereq: ADMN 502.

HMGT 625 - Hospitality and Employment Law  
Credits: 4  
Tort and contract liability in the hospitality industry. Emphasizes a managerial approach to solving or avoiding potential problems including employment law issues that arise in any business environment: wrongful termination, compensation rules, affirmative action, employment discrimination, sexual harassment, and issues involving privacy in the workplace. Looks at numerous State and Federal Agencies with which Hospitality business must work. Examines key forms of ownership in terms of taxes, risks and rewards. Prereq: junior standing.

HMGT 635 - Hospitality Human Resource Management  
Credits: 4  
Addresses key hospitality resource management issues of a general, technical, and social nature including communication, motivation and leadership, job stress and safety, security, government regulations, discrimination, and substance abuse. Covers technical areas such as recruiting and selecting, placement, employment, training, performance appraisal, disciplining, and termination. Prereq: junior standing. Writing intensive.  
Attributes: Writing Intensive Course  
Equivalent(s): MGT 770

HMGT 655 - Hospitality Finance and Development  
Credits: 4  
Provides the advanced student with a familiarity of the principles and practices of development and acquisition of hotel, restaurant, and other hospitality businesses, and the real estate development process. Emphasizes market and financial evaluation and decision making relative to economic, ethical, legal, and social aspects of the organization’s environment. Group projects involving the preparation of a complete economic feasibility study for hotel or restaurant development or acquisition or repositioning are required. Prereq: HMGT 618.

HMGT 661 - Event Design, Planning, and Management  
Credits: 4  
Strategic and logistical considerations in managing the planning, development, marketing, and implementation of meetings, conventions, and events. Prereq: junior standing.
HMGT 662 - Convention Sales and Service Management  
Credits: 4  
Provides students with an understanding of the sales and service management aspects of the international and domestic convention, exhibition and meeting industries. Analyze the market potential of convention centers, resort hotels, convention hotels and independent venues. Consider the strategic and logistic aspects of the planning, development, coordination and execution of conventions, exhibitions and meetings. Introduction to and certification in numerous aspects of the DELPHI software system.

HMGT 667 - Adv Food/Bev Operations Mgt  
Credits: 4  
A project management course integrating management principles and techniques in the presentation of large scale gourmet dinners. Examines services operations management: planning and forecasting, marketing and sales, production delivery systems, service encounters, technology, purchasing and inventory management, human resources, scheduling, productivity and quality issues. Prereq: senior standing. Writing intensive. 
Attributes: Writing Intensive Course  
Equivalent(s): HMGT 681W

HMGT 668 - Private Club Management  
Credits: 4  
Examines the effective operation and management of private clubs including city clubs, country clubs and yacht clubs. Major topics include: the unique niche that clubs represent in the hospitality industry, organizational structure of clubs, role of the board of directors, membership requirements, differences between tax-exempt clubs and non-exempt clubs, government regulation, preparing for a career in the club field, trends in club management and the future of clubs. 

HMGT 685 - Study Abroad  
Credits: 1-16  
Open to students studying abroad in the discipline as approved by the hospitality management program director. Cr/F.  
Attributes: World Cultures(Discovery)

HMGT 686 - Study Abroad  
Credits: 1-16  
Open to students studying abroad in the discipline as approved by the hospitality management program director. Special fee. Cr/F.  
Attributes: World Cultures(Discovery)

HMGT 695 - Independent Analysis  
Credits: 2-12  
Study and research project for honor students to advance knowledge in lodging and food services fields. Prereq: junior standing and permission.  
Equivalent(s): HMGT 695W

HMGT 695W - Independent Analysis  
Credits: 2-12  
Study and research project for honor students to advance knowledge in lodging and food services fields. Prereq: junior standing and permission. Writing intensive.  
Attributes: Writing Intensive Course  
Equivalent(s): HMGT 695

HMGT 696 - Supervised Student Teaching Experience  
Credits: 1-8  
Participants are expected to perform such functions as attending classes, leading discussion groups, assisting faculty, presenting information in undergraduate courses that they have successfully completed, holding office hours, grading papers and exams. Enrollment is limited to juniors and seniors who have had above average GPAs. Cr/F.  
Repeat Rule: May be repeated for a maximum of 8 credits.

HMGT 698 - Topics  
Credits: 1-4  
Special topics and developments in lodging, food services, and other hospitality industries. Prereq: junior standing. Course may be repeated when topics change.  
Repeat Rule: May be repeated for a maximum of 8 credits.

HMGT 698T - Topics/Study Away  
Credits: 1-4  
Topics; Study Away. Special fee.  
Co-requisite: INCO 589

HMGT 700 - PAUL Assessment of Core Knowledge  
Credits: 0  
One of the learning objectives in the Hospitality Management Program is that all students will graduate with an understanding of these core knowledge assembled from various disciplines that contribute courses to the program. We assess this learning as part of our Assurance of Learning Program. This zero credit course provides an administrative mechanism for accomplishing this goal.  
Co-requisite: HMGT 703

HMGT 703 - Strategic Management in the Hospitality Industry  
Credits: 4  
Capstone course, interrelating and applying strategic management concepts to hospitality organizations. Cases from hotel companies, restaurant chains, and other hospitality-related businesses, supplemented by economic and other published information from the industry, are used as departure points for class discussion. Prereq: senior standing. Writing intensive.  
Co-requisite: HMGT 700  
Attributes: Writing Intensive Course

HMGT 750 - Advanced Operations Management  
Credits: 4  
Students travel to a major Boston hotel weekly to spend a day working in various departments. The course gives students an in-depth look at the operation of the individual departments, as well as learning how departments must function in an integral way for a successful hotel to operate. Students also experience areas not able to be covered in the on-campus curriculum including Receiving, Security, Maintenance and a day with a General Manager. Prereq: HMGT major and junior or senior status.

HMGT 756 - International Franchising  
Credits: 4  
Designed to help the student acquire an understanding of franchising as a system of distribution and business expansion. Franchising is studied from both the perspectives of the franchisee and the franchiser. In addition, economic, financial, and legal issues associated with franchising are covered. By the end of the course, students acquire the skills and sources of information that would permit sound assessment of the business opportunities available in franchising. Prereq: ADMN 585 or HMGT 600. (Also offered as MKTG 756.)
HMGT 758 - Revenue Management and Pricing  
Credits: 4  
This course covers two topics critical to today's hotel industry; the actual techniques of selling, converting inquiries from individuals and conventions into business. Revenue Management is the technique of evaluating a piece of business and determining its profitability over all departments. The course looks intently at past history as well as forecasting in order to determine the price to be charged based on demand and profitability sought.

HMGT 771 - International Wine and Beverage  
Credits: 4  
Explore the wide world of wine, beer and spirits, through lectures, sensory evaluations, and in-class tasting exercises. Also learn about how to purchase, store, and serve different beverages. Enrolled students must be at least 21 years old.

HMGT 777 - Casino Management  
Credits: 4  
Examines the history of the gaming industry and the development, organization and management of casinos. Investigates economics, moral and social issues of gaming including problem gambling. Covers gaming regulations, accounting and taxation of casinos, casino marketing, national and international gaming destinations, game probabilities and the interaction of the casino department with other divisions of mega casino resorts including lodging, food and beverage and meetings and conventions. A central focus will be on current trends and events. A field trip to a casino resort is required for those enrolled students at least 21 years old on the day the trip is scheduled. No credit will be given to students who have taken HMGT 777J.

Equivalent(s): HMGT 777J  

HMGT 777J - Casino Management  
Credits: 4  
Examines the history of the gaming industry and the development, organization and management of casinos. Investigates economics, moral and social issues of gaming including problem gambling. Covers gaming regulations, accounting and taxation of casinos, casino marketing, national and international gaming destinations, game probabilities and the interaction of the casino department with other divisions of mega casino resorts including lodging, food and beverage and meetings and conventions. A central focus will be on current trends and events. There is no age, other prerequisite, or field trips required. No credit will be given to students who have taken HMGT 777.

Equivalent(s): HMGT 777  

HMGT 795 - Internship II  
Credits: 1-4  
Off-campus work in the hospitality industry for on-the-job skill development. Normally supervision is provided by a qualified individual in the organization with frequent consultation by the faculty sponsor. Initial sponsorship of an Hospitality Management faculty member must be obtained followed by approval of Paul advisor and Dean's Office. Special permission required to earn more than 4 credits in one semester. For Paul College juniors and seniors with 3.0 or better cumulative GPA.

Repeat Rule: May be repeated for a maximum of 12 credits.

HMGT 798 - Topics  
Credits: 4  
Special Topics.

Repeat Rule: May be repeated for a maximum of 12 credits.

HMGT 799 - Honors Thesis/Project  
Credits: 4-8  
Supervised research leading to the completion of an honors thesis or project; required for graduation from the honors program in hospitality management. Prereq: permission of director of undergraduate programs and department chair. Writing intensive.

Attributes: Writing Intensive Course

Human Development & Family Studies (HDFS)  
# Course numbers with the # symbol included (e.g. #400) have not been taught in the last 3 years.

HDFS 444 - History of the Family  
Credits: 4  
This course provides an interdisciplinary examination of the family from multiple disciplines and lenses including history, anthropology, economics, state and national legislation and regulations, art, media, and literature. The course will use film, essays, newspaper articles, and television to shed light on the shifting meaning of family in North America and across the world.

Attributes: Historical Perspectives(Disc); Inquiry (Discovery); Writing Intensive Course

Equivalent(s): FS 444  

HDFS 444A - Children at Risk  
Credits: 4  
This course focuses on childhood risks such as poverty, family stress and dysfunction, social and emotional problems, and bullying, as well as how children cope with risk and demonstrate resilience. Students will learn about and visit a number of community programs in New Hampshire that support children and their families in times of stress. Site-visits will include introduction to a range of providers such as child advocates, counselors, social workers, juvenile detention workers, and teachers.

Attributes: Social Science (Discovery); Inquiry (Discovery); Writing Intensive Course

Equivalent(s): FS 444A  

HDFS 525 - Human Development  
Credits: 4  
This course provides an overview of human development from conception through death with an emphasis on the contexts in which development occurs, and a focus on thinking about ways to enhance the lives of individuals and families across the lifespan. The knowledge gained in this course will allow students to understand the needs of individuals across all life stages, and critically reflect on their own development.

Attributes: Social Science (Discovery)

Equivalent(s): FS 525, FS 525H, HDFS 525H  

HDFS 525H - Honors/Human Development  
Credits: 4  
This course focuses on childhood risks such as poverty, family stress and dysfunction, social and emotional problems, and bullying, as well as how children cope with risk and demonstrate resilience. Students will learn about and visit a number of community programs in New Hampshire that support children and their families in times of stress. Site-visits will include introduction to a range of providers such as child advocates, counselors, social workers, juvenile detention workers, and teachers.

Attributes: Social Science (Discovery); Inquiry (Discovery); Writing Intensive Course

Equivalent(s): FS 525, FS 525H, HDFS 525
HDFS 545 - Intimate Relationships and Families  
Credits: 4  
This course provides students with an overview of contemporary research and theory on intimate and family relationships. An historical overview of marriage, intimate partnering, and the family will be covered while also exploring diverse experiences. Emphasis will be placed on the cultural, societal, and political norms and tensions surrounding intimate and family relationships and related public policy. Students will also have an opportunity to reflect on their own attitudes, thoughts, and values.  
Attributes: Social Science (Discovery)  
Equivalent(s): FS 545, FS 645, HDFS 645  

HDFS 553 - Personal and Family Finance for Family Life Professionals  
Credits: 4  
This course focuses on applied financial management emphasizing teaching financial issues to a variety of audiences. Topics include savings, credit, insurance and retirement, and programs and resources available to facilitate financial education.  
Equivalent(s): FS 553  

HDFS 565 - Introduction to Child Life  
Credits: 4  
This course provides an introduction to the theory and practice of the child life profession and family centered care. Child life professionals work with children and adolescents facing acute, chronic, or life-threatening illness and traumatic injuries, and their families. Topics include children’s emotional reactions to hospitalization, use of play, preparation for medical procedures, family support, and designing healing environments.  
Equivalent(s): FS 565, RMP 595  

HDFS 586 - Families at Risk  
Credits: 4  
This course is designed to look at the challenging biological, cultural and situational factors that affect the contemporary family. Concerns such as immigration, terrorism, disease, and media influences will be discussed, along with global problems of climate change, war, violence, alcohol and drug abuse, and economic change. This class is about how families cope with the stress associated with these challenges, but also how they adapt, how to promote resilience, and how families can thrive in the face of adversity. Students will explore remedies, solutions and support networks that help families in crisis. Prereq: HDFS 545 or permission.  
Equivalent(s): FS 586  

HDFS 605 - Child Study and Development Center Field Experience  
Credits: 2 or 6  
This course involves supervised experience in the UNH Child Study and Development Center working with children infancy through kindergarten. Prereq: permission. Materials fee. May be repeated up to a total of 8 credits. Cr/F.  
Repeat Rule: May be repeated for a maximum of 8 credits.  
Equivalent(s): FS 605  

HDFS 623 - Developmental Perspectives on Infancy and Early Childhood  
Credits: 4  
This course provides an overview of the physical, cognitive, language, and social-emotional development of children from the prenatal period through early and middle childhood. Theories of development are discussed as well as research methodologies used in the study of child development. Special attention is given to landmark and current research findings regarding development during this period of the lifespan. Prereq: HDFS 525.  
Equivalent(s): FS 623  

HDFS 624 - Developmental Perspectives on Adolescence and Early Adulthood  
Credits: 4  
This course examines the normative changes adolescents experience in biological, social, emotional, and cognitive domains. Emphasis is on the contexts of adolescent development including family and peer relationships, school, work, leisure, and broader cultural influences. Students will learn about problematic and risky behaviors as well as the positive development outcomes associated with this period of the lifespan.  
Equivalent(s): FS 624  

HDFS 625 - Adult Development and Aging  
Credits: 4  
This course covers the general biological, psychological, and cultural theories and issues related to adult development and aging from emerging adulthood to the oldest old. The course emphasizes diversity in the process of aging and the influence of various contexts on that process. Designed for students who want to become more knowledgeable about successful aging as well as those who plan to work in adult and gerontological research or social services settings.  
Equivalent(s): FS 625  

HDFS 635 - Teaching and Learning in Early Childhood Settings  
Credits: 4  
This course covers the theoretical and developmentally-appropriate approaches to supporting young children’s physical, social, emotional, and cognitive development in early childhood settings. Weekly four-hour practicum experience working with preschool children at the UNH Child Study and Development Center is required. Prereq: HDFS 525, HDFS 623, or permission.  
Equivalent(s): FS 635  

HDFS 641 - Parenting Across the Life Span  
Credits: 4  
This course provides an overview of theory and current research on parenting in contemporary society. The course explores the challenges and changing nature of parenting across development, current parenting issues, and parenting in diverse family types. Students will also have an opportunity to reflect on their own attitudes, thoughts, and values in regards to parenting. Prereq: HDFS 525, HDFS 545, or permission.  
Equivalent(s): FS 641  

HDFS 695 - Independent Study  
Credits: 1-6  
Supervised in-depth scholarly experience relevant to any of the HDFS specializations: Child Development, Family Support, and Lifespan Development. Student must work directly with a supervising faculty member to develop and complete the project. Prereq: permission.  
Equivalent(s): FS 695  

HDFS 697 - Special Topics  
Credits: 1-6  
Focused examination of a particular theoretical, methodological, or policy issue. May be repeated to a maximum of 8 credits. Prereq: permission.  
Equivalent(s): FS 697, FS 697W, HDFS 697W  

HDFS 697W - Special Topics  
Credits: 1-6  
Focused examination of a particular theoretical, methodological, or policy issue. Prereq: permission.  
Attributes: Writing Intensive Course  
Repeat Rule: May be repeated for a maximum of 8 credits.  
Equivalent(s): FS 697, FS 697W, HDFS 697
HDFS 707 - Practicum
Credits: 1-6
Supervised in-depth experience in professional setting designed to increase the student's understanding of and experience working with children, adolescents, or families. Students must work with a supervising faculty member to identify a practicum site. 01) Child, 02) Family, 03) Adolescent. Prereq: permission. Cr/F.
Equivalent(s): FS 707

HDFS 709 - Child Development Internship
Credits: 4
Supervised teaching internship at the UNH Child Study and Development Center with children 6 wks-6 years old age for 9 hours each week. Internship experiences include teaching, documentation, and assessment. In addition students attend a weekly one-hour seminar for an in-depth reflection and analysis of the internship experience. Prereq: HDFS 525; HDFS 623; HDFS 635; and permission. Materials fees. May be repeated up to a total of 8 credits. Special fee.
Equivalent(s): FS 709, FS 790A, FS 790B

HDFS 710 - Child Life Internship
Credits: 1-12
Supervised in-depth experience designed to increase the student's understanding of and experience working with children and adolescents in clinical or hospital setting. Prereq: permission. Special Fee. Cr/F.
Equivalent(s): FS 710

HDFS 712 - Child Advocacy and Family Policy Internship
Credits: 4-8
Supervised experience working in state, federal, international, or statewide advocacy organization or agency that advocates for children and/ or families. Students spend a required number of hours per week in their selected program, based on the number of credit hours. (Spring semester, possibly Summer). Prereq: HDFS major; senior status; HDFS 525; HDFS 545; 28 credit hours of human development and family studies coursework; permission. May be taken for 4 to 8 credits. Cr/F.
Co-requisite: HDFS 714
Equivalent(s): FS 712

HDFS 714 - Seminar for Child Advocacy and Family Policy Interns
Credits: 2
This biweekly seminar focuses on issues of concern to child advocacy and family policy internship students, and develops students' professional skills. Prereq: HDFS major, senior status; permission. (Spring semester, possibly Summer).
Co-requisite: HDFS 712
Equivalent(s): FS 714

HDFS 733 - Supervising Programs for Young Children
Credits: 4
This course is designed for students interested in exploring the role of program directors or administrators in early childhood education settings. Program resources, supervision, finances, and regulations will be covered using philosophical bases, theoretical rationales, and real world examples. Prereq: permission.
Attributes: Writing Intensive Course
Equivalent(s): FS 733

HDFS 734 - Curriculum for Young Children
Credits: 4
This course focuses on the design, implementation, and evaluation of developmentally-appropriate activities in a classroom of young children. This course takes the stance that curriculum is not simply activities or plans, but a product of societal, school, and classroom culture as influenced by particular views of development. Special Fee. Prereq: HDFS 525; HDFS 623; HDFS 635. Only open to HDFS majors.
Attributes: Writing Intensive Course
Equivalent(s): FS 734

HDFS 743 - Families, Schools, and Community
Credits: 4
This course takes an ecological approach to emphasize the critical value of effective family-school-community partnerships in enhancing the education of young children. Models of family-school-community partnerships are explored. Practical knowledge regarding the experiences of those from diverse backgrounds to best prepare students to interact with, and support, all children and families is highlighted. Students actively engage within the community to build bridges between families, schools, and the greater community.
Attributes: Writing Intensive Course
Equivalent(s): HS 743

HDFS 746 - Human Sexuality
Credits: 4
This course addresses the biological, psychological, and cultural aspects of human sexuality and gender across the lifespan. Opinions, attitudes, and values affecting societal responses to sexual issues are explored in relation to scientific research and theory. Students will be better prepared to deal with sexual issues in their personal and professional lives.
Equivalent(s): FS 746

HDFS 757 - Race, Class, Gender, and Families
Credits: 4
This course explores the intersection of race, class, and gender in family life in the US. Theory, research, and other relevant literature is used to examine the variety of family configurations in our society today and the diverse experiences that individuals and families have as a result of existing social, political, and economic institutions.
Attributes: Writing Intensive Course
Equivalent(s): FS 757

HDFS 760 - Family Programs and Policies
Credits: 4
This course explores the relationship between family policy and legislation with programs, services, and family experiences at the local, state and national level. Course content includes concepts associated with planning for, implementing, and evaluating family policies and programs; as well as exploring the complexities of family policy and the policy-making process. Course assignments will challenge students to understand and evaluate family policies and programs that are compatible with their professional interests. Prereq: HDFS 545 or permission.
Attributes: Writing Intensive Course
Equivalent(s): FS 760, HDFS 760W

HDFS 771 - Observation and Assessment of Young Children
Credits: 4
Comprehensive view of various observation techniques for determining children's strengths and emerging skills. Exploration of issues regarding the use of formal assessments and testing with young children, retention and transitional placements, and the parent's role in testing. Prereq: HDFS 525; HDFS 623; HDFS 635. (Fall semester only.)
Equivalent(s): FS 771
HDFS 772 - Child and Family Advocacy  
Credits: 4  
This course provides an introduction to the roles of type of child and family advocacy. The course will enable students to develop strategies for analyzing and impacting existing policies, practices, and perceptions in relation to issues impacting children, youth, and families. Students will learn techniques for influencing decision makers, government and legislative leaders, and the media.  
Equivalent(s): FS 772

HDFS 773 - International Perspectives on Children and Families  
Credits: 4  
An investigation of historical and modern conceptions of children and families in selected African, Asian, European, and Latin countries. Emphasis is placed on the contribution of these populations to the changing ethnic portrait of America. Prereq: seniors only.  
Equivalent(s): FS 773, FS 773W, HDFS #773W

HDFS #773W - International Perspectives on Children and Families  
Credits: 4  
An investigation of historical and modern conceptions of children and families in selected African, Asian, European, and Latin countries. Emphasis is placed on the contribution of these populations to the changing ethnic portrait of America. Prereq: seniors only. Writing intensive.  
Attributes: Writing Intensive Course  
Equivalent(s): FS 773, HDFS 773

HDFS 776 - Children, Adolescents and the Law  
Credits: 4  
This course is designed to familiarize students with the specialized laws and legal systems that govern children and adolescents. Discussion will focus on society’s efforts to balance competing interests and goals. The course provides the chance to explore laws and processes that affect children and adolescents as they interact with the court system, their caregivers, families and society at large.  
Attributes: Writing Intensive Course  
Equivalent(s): FS 776

HDFS 782 - Family Internship  
Credits: 6  
Supervised experience working in human services agencies. Students spend a minimum of 16 hours per week in a selected community program. Application by admission only. A senior-level course with 6 credits being taken both fall and spring of the senior year. Prereq: HDFS major; senior status; HDFS 525; HDFS 545; 20 credit hours of HDFS course work; permission. Pre- or Coreq: HDFS 760. IA (continuous grading). Cr/F.  
Co-requisite: HDFS 792  
Repeat Rule: May be repeated up to 2 times.  
Equivalent(s): FS 782

HDFS 785 - Seminar for Student Teachers  
Credits: 2  
This seminar supplements the student teaching experience and provides a transition to the profession of teaching for those students admitted to the early childhood certification option. Students must apply during the spring semester of their junior year to be considered for the early childhood certification option. Prereq: HDFS major; senior status; HDFS 525; HDFS 545; HDFS 623; HDFS 635; permission. (Fall semester only).  
Equivalent(s): FS 786

HDFS 786 - Seminar for Student Teachers  
Credits: 2  
This seminar supplements the student teaching experience and provides a transition to the profession of teaching for those students admitted to the early childhood certification option. Students must apply during the spring semester of their junior year to be considered for the early childhood certification option. Prereq: HDFS major; senior status: HDFS 525; HDFS 545; HDFS 623; HDFS 635; permission. Coreq: HDFS 788. (Spring semester only).  
Co-requisite: HDFS 788  
Equivalent(s): FS 786

HDFS 788 - Student Teaching Young Children  
Credits: 8  
Supervised teaching experience. Students spend a minimum of 20 hours per week in a selected program for young children working with a cooperating teacher. Students must apply during the spring semester of their junior year to be considered for the early childhood certification option. Prereq: HDFS major; senior status: HDFS 525; HDFS 545; HDFS 623; HDFS 635; HDFS 785; permission. Coreq: HDFS 786. (Spring semester only). Special fee. Cr/F.  
Co-requisite: HDFS 786  
Equivalent(s): FS 788

HDFS 792 - Family Internship Seminar  
Credits: 2  
This biweekly seminar focuses on issues of concern to family internship students, provides advanced training in educational strategies for working with families, and develops students’ professional skills. This is a two-semester course with 2 credits being taken each semester. Prereq: HDFS major; admission to family internship program; permission. (Fall and spring semester.) IA (continuous grading).  
Co-requisite: HDFS 782  
Repeat Rule: May be repeated up to 2 times.  
Equivalent(s): FS 792, FS 792W

HDFS 794 - Families and the Law  
Credits: 4  
This course explores statutory law, case law and the judicial processes that affect families as members interact with each other and with society. Students will become familiarized with the family court system and its role in regulating the family.  
Attributes: Writing Intensive Course  
Equivalent(s): FS 794

HDFS 795 - Advanced Independent Study  
Credits: 1-6  
Students in the major may undertake advanced study in child development, lifespan development or family support in consultation with a HDFS faculty member. The result of the study is to be a significant written product of a quality comparable to a 700 level course. A learner/sponsor contract will be required. Prereq: permission.  
Equivalent(s): FS 797

HDFS 797 - Advanced Special Topics  
Credits: 1-6  
Focused examination of a particular theoretical, methodological, or policy issue. May be repeated to a maximum of 8 credits. Prereq: permission.  
Repeat Rule: May be repeated for a maximum of 8 credits.  
Equivalent(s): FS 797
HDFS 799 - Families and the Law
Credits: 2-4
Under direction of a faculty sponsor, students plan and carry out an independent investigative effort in an area of family, child, and/or consumer studies, resulting in a written thesis and an oral presentation before students and faculty. Prereq: majors only; senior standing; permission. Two-semester sequence as continuing course.
Equivalent(s): FS 799

Humanities (HUMA)

# Course numbers with the # symbol included (e.g. #400) have not been taught in the last 3 years.

HUMA 401 - Introduction to the Humanities
Credits: 4
Introduction to the interdisciplinary study of the humanities. Taking as its entry point a significant work, the course is organized by topics related to that work, selected and arranged to invoke lively intellectual debate among faculty and students alike. Group lectures by the four core humanities faculty members. The instructors teaching the course will provide material for smaller weekly discussion sections led by each of those faculty members. Requirements include lively discussions, papers, and examinations. Not repeatable.
Attributes: Humanities(Disc)
Equivalent(s): HUMA 401W

HUMA 401W - Introduction to Humanities
Credits: 4
Introduction to the interdisciplinary study of the humanities. Taking as its entry point a significant work, the course is organized by topics related to that work, selected and arranged to invoke lively intellectual debate among faculty and students alike. Group lectures by the three core humanities faculty members. The instructors teaching the course will provide material for smaller weekly discussion sections led by each of those faculty members. Requirements include lively discussions, papers, and examinations. Writing intensive. Not repeatable.
Attributes: Humanities(Disc); Writing Intensive Course
Equivalent(s): HUMA 401

HUMA 411 - Humanities I
Credits: 4
Introduction to the humanities and Western culture through literature, history, philosophy, music, art, and architecture. Examination of selected historical periods from classical Greece through the Renaissance through readings, films, slides, and field trips. Special fee. Writing intensive.
Attributes: Humanities(Disc); Inquiry (Discovery); Writing Intensive Course

HUMA 412 - Humanities II
Credits: 4
Introduction to the humanities and Western culture through literature, history, philosophy, music, art, and architecture. Examination of selected historical periods from the Enlightenment to the present through the use of readings, films, slides, and field trips. Writing intensive.
Attributes: Humanities(Disc); Inquiry (Discovery); Writing Intensive Course

HUMA 413 - Dramatic Art and Social Reality: The Many Meanings of Performance
Credits: 4
This course illuminates connections between the performed stories of drama and real aspects of our lives. It considers performances on stages, screen, and in everyday life—like social rituals, "scripted" because performers are expected to follow certain social roles. It examines those rituals, investigating how they were authored and whether participants have been appropriately cast. No credit if student has taken HUMA 412: Humanities II: Dramatic Art & Social Reality: The Many Meanings of Performance. Writing intensive.
Attributes: FinePerformingArts(Discovery); Inquiry (Discovery); Writing Intensive Course

HUMA 440A - Honors/Hooked: Narratives of Addiction, Recovery, and Redemption
Credits: 4
This course explores literature about addiction through both literary an psychological lenses. It focuses on the redemption narrative that structures the understanding of addiction for writers and readers alike. Readings include stories of religious redemption, short fiction, memoirs, self-help texts, and narrative and psychological theory. This course is part of the Honors Symposium "Engaging Addiction". The courses in the Symposium join several times during the semester for common meetings where perspectives can be compared and explored.
Attributes: Humanities(Disc)

HUMA 440B - Honors/That Belongs in a Museum! Museums and the Ownership of Antiquities
Credits: 4
Suppose you stumbled upon an artifact from an Indigenous Native American people in your backyard. Do you own it? Or do the heirs of those who produced it? Or does it belong in a museum for all to see? In a series of controversial case studies we will examine what it means to "own" the past, how it should be protected and preserved, and what role museums have had—and should have—in safeguarding that past.
Attributes: Humanities(Disc)

HUMA #444 - Idea of University
Credits: 4
An inquiry course that introduces first-year students to the history of the university and to the philosophical, artistic, and political crises it has undergone and continues to undergo today. HUMA #444 is an interdisciplinary course, team-taught by three professors from different fields. Writing intensive.
Attributes: Humanities(Disc); Inquiry (Discovery); Writing Intensive Course

HUMA #444C - Mozart and the Enlightenment: Social Norms and Sexual Behavior in the Age of Reason
Credits: 4
An interdisciplinary introduction to the European Enlightenment (approximately 1690-1790) as a cultural phenomenon, arising from developments in the natural sciences, that infused all areas of human endeavor with new ways of thinking and behaving, including social norms and sexual behavior, and how it was communicated and disseminated, not only through the written word but also through theater and music, especially in works of Mozart exploring the use and abuse of Human Reason in daily life.
Attributes: Humanities(Disc); Inquiry (Discovery); Writing Intensive Course
HUMA 444D - Plague/Literary Histories of Epidemics
Credits: 4
Explores the meanings of epidemics as represented in literature. Topics include mysterious ancient disasters, the Black Death, AIDS, and hypothetical diseases used as thought experiments, as well as current controversies about the spread and prevention of disease. How do disease and its control shape state and social structures? How have the meanings of disease, health, medicine, and the body changed over time? What kind of art does disease give rise to?
Attributes: Humanities(Disc); Inquiry (Discovery); Writing Intensive Course

HUMA 444E - What is a Criminal?
Credits: 4
Criminals are people who break the law – In theory. How do people become criminals (with regard to biological, cultural, and economic influences)? What happens to them in the criminal justice system, and how does the system shape the definition of “criminal”? We will also discuss “criminals of conscience” from Thoreau and Gandhi to Edward Snowden. The course will emphasize reading but will also engage with other media, including films, podcasts, and visual art.
Attributes: Humanities(Disc); Inquiry (Discovery); Writing Intensive Course

HUMA 444F - Travelers in the Premodern World
Credits: 4
Travel is a fundamental aspect of the human experience. This course explores the human experience of travel using materials originating from across premodern world. Students investigate materials ranging from maps and pilgrimage accounts, to poetry and stories to understand what has compelled people to undertake the often perilous road. In the process, they consider the role of travel in cultural contact, communication, exchange, and the generation of spread of knowledge. Writing intensive.
Attributes: World Cultures(Discovery); Inquiry (Discovery); Writing Intensive Course

HUMA #450 - The Pre-Modern Economy and the Origins of Capitalism
Credits: 4
This course provides a historical introduction to the development of the pre-modern economy from the earliest traces of capitalism in Ancient Greece to the Industrial Revolution. Special attention will be paid to commerce and finance in the Greco-Roman economy, the Commercial Revolution and invention of the firm in Renaissance Italy, early-modern Europe to the Industrial Revolution, and such fundamental thinkers as Karl Marx and Karl Polanyi.
Attributes: Historical Perspectives(Disc)

HUMA 500 - Critical Methods in the Humanities
Credits: 4
Critical analysis of works in the humanities. Focuses on major texts, evaluation of secondary literature, research writing, criticism. Required of all HUMA majors. Writing intensive.
Attributes: Humanities(Disc); Inquiry (Discovery); Writing Intensive Course
Equivalent(s): ECS #550

HUMA 510A - Ancient World: An Interdisciplinary Introduction
Credits: 4
What is a human being? How should we explain or understand what happens to us? How ought we to live? This team-taught course examines these important questions by focusing on the literature, art, philosophy, and science of ancient Greece and Rome. Writing intensive.
Attributes: FinePerformingArts(Discovery); Writing Intensive Course
Equivalent(s): HUMA 510B, HUMA 510C, HUMA 510D

HUMA 510B - Ancient World: An Interdisciplinary Introduction
Credits: 4
What is a human being? How should we explain or understand what happens to us? How ought we to live? This team-taught course examines these important questions by focusing on the literature, art, philosophy, and science of ancient Greece and Rome. Writing intensive.
Attributes: World Cultures(Discovery); Writing Intensive Course
Equivalent(s): HUMA 510A, HUMA 510C, HUMA 510D

HUMA 510C - Ancient World: An Interdisciplinary Introduction
Credits: 4
What is a human being? How should we explain or understand what happens to us? How ought we to live? This team-taught course examines these important questions by focusing on the literature, art, philosophy, and science of ancient Greece and Rome. Writing intensive.
Attributes: Historical Perspectives(Disc); Writing Intensive Course
Equivalent(s): HUMA 510A, HUMA 510B, HUMA 510D

HUMA 510D - Ancient World: An Interdisciplinary Introduction
Credits: 4
What is a human being? How should we explain or understand what happens to us? How ought we to live? This team-taught course examines these important questions by focusing on the literature, art, philosophy, and science of ancient Greece and Rome. Writing intensive.
Attributes: Historical Perspectives(Disc); Writing Intensive Course
Equivalent(s): HUMA 510A, HUMA 510B, HUMA 510C

HUMA 511A - Medieval World: An Interdisciplinary Introduction
Credits: 4
What is the soul and how is its health related to temptation and also to specifically Christian virtues? How closely does the medieval definition of an eternal God determine good and evil in daily life? To what extent does the hope of immortality affect the practice of writing literature, making art, studying philosophy, and investigating science? This team-taught course examines these important questions by focusing on the literature, art, philosophy, and science from the collapse of the classical world to the rise of capitalism. Writing intensive.
Attributes: FinePerformingArts(Discovery); Writing Intensive Course
Equivalent(s): HUMA 511B, HUMA 511C, HUMA 511D

HUMA 511B - Medieval World: An Interdisciplinary Introduction
Credits: 4
What is the soul and how is its health related to temptation and also to specifically Christian virtues? How closely does the medieval definition of an eternal God determine good and evil in daily life? To what extent does the hope of immortality affect the practice of writing literature, making art, studying philosophy, and investigating science? This team-taught course examines these important questions by focusing on the literature, art, philosophy, and science from the collapse of the classical world to the rise of capitalism. Writing intensive.
Attributes: World Cultures(Discovery); Writing Intensive Course
Equivalent(s): HUMA 511A, HUMA 511C, HUMA 511D

HUMA 511C - Medieval World: An Interdisciplinary Introduction
Credits: 4
What is the soul and how is its health related to temptation and also to specifically Christian virtues? How closely does the medieval definition of an eternal God determine good and evil in daily life? To what extent does the hope of immortality affect the practice of writing literature, making art, studying philosophy, and investigating science? This team-taught course examines these important questions by focusing on the literature, art, philosophy, and science from the collapse of the classical world to the rise of capitalism. Writing intensive.
Attributes: Historical Perspectives(Disc); Writing Intensive Course
Equivalent(s): HUMA 511A, HUMA 511B, HUMA 511D
HUMA 511D - Medieval World: An Interdisciplinary Introduction  
Credits: 4  
What is the soul and how is its health related to temptation and also to specifically Christian virtues? How closely does the medieval definition of an eternal God determine good and evil in daily life? To what extent does the hope of immortality affect the practice of writing literature, making art, studying philosophy, and investigating science? This team-taught course examines these important questions by focusing on the literature, art, philosophy, and science from the collapse of the classical world to the rise of capitalism. Writing intensive.  
Attributes: Humanities(Disc); Writing Intensive Course  
Equivalent(s): HUMA 511A, HUMA 511B, HUMA 511C

HUMA 512A - Renaissance and Early Modern: An Interdisciplinary Introduction  
Credits: 4  
Explores the interrelationship of art, literature, philosophy, and science from the High Renaissance into the 18th century. Study of the works and ideas of such influential figures as Shakespeare and Milton, Raphael and Rembrandt, Galileo, Descartes, Newton, and Hume. Writing intensive.  
Attributes: FinePerformingArts(Discovery); Writing Intensive Course  
Equivalent(s): HUMA 512B, HUMA 512C, HUMA 512D

HUMA 512B - Renaissance and Early Modern: An Interdisciplinary Introduction  
Credits: 4  
Explores the interrelationship of art, literature, philosophy, and science from the High Renaissance into the 18th century. Study of the works and ideas of such influential figures as Shakespeare and Milton, Raphael and Rembrandt, Galileo, Descartes, Newton, and Hume. Writing intensive.  
Attributes: World Cultures(Discovery); Writing Intensive Course  
Equivalent(s): HUMA 512A, HUMA 512C, HUMA 512D

HUMA 512C - Renaissance and Early Modern: An Interdisciplinary Introduction  
Credits: 4  
Explores the interrelationship of art, literature, philosophy, and science from the High Renaissance into the 18th century. Study of the works and ideas of such influential figures as Shakespeare and Milton, Raphael and Rembrandt, Galileo, Descartes, Newton, and Hume. Writing intensive.  
Attributes: Historical Perspectives(Disc); Writing Intensive Course  
Equivalent(s): HUMA 512A, HUMA 512B, HUMA 512D

HUMA 512D - Renaissance and Early Modern: An Interdisciplinary Introduction  
Credits: 4  
Explores the interrelationship of art, literature, philosophy, and science from the High Renaissance into the 18th century. Study of the works and ideas of such influential figures as Shakespeare and Milton, Raphael and Rembrandt, Galileo, Descartes, Newton, and Hume. Writing intensive.  
Attributes: Humanities(Disc); Writing Intensive Course  
Equivalent(s): HUMA 512A, HUMA 512B, HUMA 512C

HUMA 513A - Modern World: An Interdisciplinary Introduction  
Credits: 4  
Explores the central paradoxes of our culture in the modern age. Is there such a thing as "progress" and if so what is its nature? What is the relation of conscious and unconscious? Is the contemporary world devoid of meaning? Questions such as these are examined in relation to works since the 18th century in the fields of literature, history of science, philosophy, and art. Writing intensive.  
Attributes: FinePerformingArts(Discovery); Writing Intensive Course  
Equivalent(s): HUMA 513B, HUMA 513C, HUMA 513D

HUMA 513B - Modern World: An Interdisciplinary Introduction  
Credits: 4  
Explores the central paradoxes of our culture in the modern age. Is there such a thing as "progress" and if so what is its nature? What is the relation of conscious and unconscious? Is the contemporary world devoid of meaning? Questions such as these are examined in relation to works since the 18th century in the fields of literature, history of science, philosophy, and art. Writing intensive.  
Attributes: World Cultures(Discovery); Writing Intensive Course  
Equivalent(s): HUMA 513A, HUMA 513C, HUMA 513D

HUMA 513C - Modern World: An Interdisciplinary Introduction  
Credits: 4  
Explores the central paradoxes of our culture in the modern age. Is there such a thing as "progress" and if so what is its nature? What is the relation of conscious and unconscious? Is the contemporary world devoid of meaning? Questions such as these are examined in relation to works since the 18th century in the fields of literature, history of science, philosophy, and art. Writing intensive.

Attributes: Humanities(Disc); Writing Intensive Course  
Equivalent(s): HUMA 513A, HUMA 513B, HUMA 513C

HUMA #514A - 20th Century, 1900-1945: An Interdisciplinary Introduction  
Credits: 4  
This course examines the relationships of literature, art, philosophy, and science in the first half of the twentieth century. Topics include the rise of modernism in literature and the arts, the distinctive themes of 20th century philosophy, and crucial innovations in the sciences. Students study the works of such figures as Picasso, Woolf, Einstein, Freud, and Wittgenstein.  
Attributes: FinePerformingArts(Discovery); Writing Intensive Course  
Equivalent(s): HUMA #514B, HUMA #514C, HUMA 514D

HUMA #514B - 20th Century, 1900-1945: An Interdisciplinary Introduction  
Credits: 4  
This course examines the relationships of literature, art, philosophy, and science in the first half of the twentieth century. Topics include the rise of modernism in literature and the arts, the distinctive themes of 20th century philosophy, and crucial innovations in the sciences. Students study the works of such figures as Picasso, Woolf, Einstein, Freud, and Wittgenstein.  
Attributes: World Cultures(Discovery); Writing Intensive Course  
Equivalent(s): HUMA #514A, HUMA #514C, HUMA 514D
HUMA #514C - 20th Century, 1900-1945: An Interdisciplinary Introduction  
Credits: 4  
This course examines the relationships of literature, art, philosophy, and science in the first half of the twentieth century. Topics include the rise of modernism in literature and the arts, the distinctive themes of 20th century philosophy, and crucial innovations in the sciences. Students study the works of such figures as Picasso, Woolf, Einstein, Freud, and Wittgenstein.  
Attributes: Historical Perspectives(Disc); Writing Intensive Course  
Equivalent(s): HUMA #514A, HUMA #514B, HUMA #514D  

HUMA #514D - 20th Century, 1900-1945: An Interdisciplinary Introduction  
Credits: 4  
This course examines the relationships of literature, art, philosophy, and science in the first half of the twentieth century. Topics include the rise of modernism in literature and the arts, the distinctive themes of 20th century philosophy, and crucial innovations in the sciences. Students study the works of such figures as Picasso, Woolf, Einstein, Freud, and Wittgenstein.  
Attributes: Historical Perspectives(Disc); Writing Intensive Course  
Equivalent(s): HUMA #514A, HUMA #514B, HUMA #514C  

HUMA #514A - 20th Century, 1900-1945: An Interdisciplinary Introduction  
Credits: 4  
This course examines the relationships of literature, art, philosophy, and science since the middle of the twentieth century. Topics include the philosophical and literary implications of the Holocaust and nuclear weapons, movements in the arts and literature since World War II, the rise of the sciences of life and information, and postmodernism. Students study the works of such figures as Arendt, Turing, Beckett, and Pollock. Writing intensive.  
Attributes: Humanities(Disc); Writing Intensive Course  
Equivalent(s): HUMA #515A, HUMA #515B, HUMA #515C  

HUMA #519 - Classical Greece  
Credits: 4  
Examination of the culture of classical Greece through the history, drama, philosophy, and art of the period. Open to all students. Recommended for students in the humanities major. Special fee.  
Attributes: Humanities(Disc)  

HUMA #525 - Humanities and the Law  
Credits: 4  
This multidisciplinary course examines the nature of justice, legal systems and law in various historical contexts, including how these have been conceived, how they originated and the role of the professional judiciary, as well as the relationship between law and ethics. Consideration of how legal ideas have changed over time and built upon each other. May be repeated once if specific topic is different.  
Attributes: Historical Perspectives(Disc); Writing Intensive Course  
Repeat Rule: May be repeated for a maximum of 8 credits.  

HUMA #526 - Humanities and Science  
Credits: 4  
In this interdisciplinary course, students examine the ways in which scientific and technological understanding affects the development of cultural expression. Scientific, technological and environmental factors are sometimes discussed as if they are separate from human beings, but in this course we will consider the myriad direct, complex, and surprising ways that they drive cultural shifts and are then understood in evolving ways by cultures. Topics vary with instructor. May be repeated once if topics is different.  
Attributes: Humanities(Disc); Writing Intensive Course  
Repeat Rule: May be repeated for a maximum of 8 credits.  
Equivalent(s): HUMA 651  

HUMA #527 - Humanities and Religion  
Credits: 4  
This course examines the role of religion, religious ideas and religious practice in world cultures using a combination of methodologies drawn from different humanities disciplines, with a particular emphasis on comparative approaches and investigating how religion is used to create and express cultural identity around the globe.  
Attributes: World Cultures(Discovery); Writing Intensive Course  

HUMA #550 - Budapest Spring Semester: Special Studies in Comparative Ideas  
Credits: 4  
This course involves periodic offerings in literature, art, history, philosophy and political science designed to stimulate reflection on ideas and issues in Hungarian and Central European history and culture in a larger global context. Topics vary depending upon the expertise of the resident faculty. Special fee.  
Co-requisite: INCO 588
HUMA 551 - Budapest Spring Semester: Field Studies in Art and Culture
Credits: 6
This course is designed to provide students with first-hand experience of art, history, culture, folklore, and traditions of Hungary and Central Europe. The course combines preparatory readings with guided field trips to museums, historical sites, and culturally significant events and locations. Students maintain a weekly blog reflecting on field trip experiences. Co-requisite: INCO 588
Attributes: FinePerformingArts(Discovery)

HUMA 592 - Special Topics in the Humanities
Credits: 2-8
Special topics; offered occasionally. Repeat Rule: May be repeated for a maximum of 12 credits.
Equivalent(s): HUMA 592W

HUMA 592W - Special Topics
Credits: 2-8
Special topics; offered occasionally. Topic/Where Did They Come From? The Emergence of Judaism, Christianity, and Islam is Writing intensive. Attributes: Writing Intensive Course
Repeat Rule: May be repeated for a maximum of 12 credits.
Equivalent(s): HUMA 592

HUMA 622 - Studies of Freedom and Liberty
Credits: 4
Principles of freedom and liberty that helped to form Western culture from the Renaissance to the present. Topics include concepts of human nature, theories of government and society. Readings include Machiavelli, Locke, Paine, Mill, Marx, Freud, Sartre, and Marcuse.

HUMA #640 - Birth of Rock and Roll
Credits: 4
An interdisciplinary study of the cultural forces that brought the birth of rock and roll in the 1950's. This study of pre-rock music and culture will be further enriched by art, literature, and photography which focuses on the roots of rock and roll. Writing intensive. Attributes: Writing Intensive Course

HUMA 698 - Independent Study
Credits: 4
Independent study open only to highly qualified juniors and seniors who have completed at least four humanities courses above the 400 level. Requires original research and substantial writing projects under the direction of a member of the core faculty of the humanities. Prereq: HUMA junior or senior majors; four HUMA courses above the 400 level.

HUMA 700 - Seminar
Credits: 4
Provides an opportunity for in-depth reading, viewing, and/or listening to texts and artifacts. Emphasis on the multiple perspectives and methodologies that can be brought to bear upon these works from several humanistic disciplines. Attributes: Writing Intensive Course
Repeat Rule: May be repeated for a maximum of 8 credits.

HUMA 795 - Study of Creativity
Credits: 4
A study of human creativity through representative lives and works of such figures as daVinci, Einstein, Kathe Kollwitz, Bach, Dickens, and Freud. Lectures, class discussions, films, and slides supplemented by gallery tours plays, and concerts. Open to students with a background in humanities or by permission of the instructor. Special fee. (Normally offered every other year.) Writing intensive. Attributes: Writing Intensive Course
Equivalent(s): HUMA 690, HUMA 695

HUMA 796 - Study of Contemporary Issues
Credits: 4
Current social and political issues with focus on recent developments in public policy, science, and business, and their impact of social values. Prereq: junior status or permission. (Normally offered every other year.) Writing intensive. Attributes: Writing Intensive Course

HUMA 799 - Research Seminar
Credits: 1-2
Provides a context within which students may discuss and receive direction in the course of completing a major research paper. At the end of the seminar, students present their research to the faculty and their fellow students. Prereq: HUMA 500; senior standing; permission. HUMA majors only. Writing intensive. Attributes: Writing Intensive Course

HUMA 799 - Study of Creativity
Credits: 4
A study of human creativity through representative lives and works of such figures as daVinci, Einstein, Kathe Kollwitz, Bach, Dickens, and Freud. Lectures, class discussions, films, and slides supplemented by gallery tours plays, and concerts. Open to students with a background in humanities or by permission of the instructor. Special fee. (Normally offered every other year.) Writing intensive. Attributes: Writing Intensive Course
Equivalent(s): HUMA 690, HUMA 695

HUMA 799 - Study of Contemporary Issues
Credits: 4
Current social and political issues with focus on recent developments in public policy, science, and business, and their impact of social values. Prereq: junior status or permission. (Normally offered every other year.) Writing intensive. Attributes: Writing Intensive Course
Equivalent(s): HUMA 690, HUMA 695

HUMA 799 - Research Seminar
Credits: 1-2
Provides a context within which students may discuss and receive direction in the course of completing a major research paper. At the end of the seminar, students present their research to the faculty and their fellow students. Prereq: HUMA 500; senior standing; permission. HUMA majors only. Writing intensive. Attributes: Writing Intensive Course

HUMA 799 - Study of Creativity
Credits: 4
A study of human creativity through representative lives and works of such figures as daVinci, Einstein, Kathe Kollwitz, Bach, Dickens, and Freud. Lectures, class discussions, films, and slides supplemented by gallery tours plays, and concerts. Open to students with a background in humanities or by permission of the instructor. Special fee. (Normally offered every other year.) Writing intensive. Attributes: Writing Intensive Course
Equivalent(s): HUMA 690, HUMA 695

HUMA 799 - Study of Contemporary Issues
Credits: 4
Current social and political issues with focus on recent developments in public policy, science, and business, and their impact of social values. Prereq: junior status or permission. (Normally offered every other year.) Writing intensive. Attributes: Writing Intensive Course
Equivalent(s): HUMA 690, HUMA 695

Information Technology (IT)

# Course numbers with the # symbol included (e.g. #400) have not been taught in the last 3 years.

IT 403 - Introduction to Internet Technologies
Credits: 4
Introductory course exploring the fundamentals of Internet communications with an emphasis on the World Wide Web. Students develop an understanding of the Internet's underlying technologies and learn how to utilize them as contributing members of the Web community. Students become proficient with creating and publishing Web pages using HTML and CSS. No prior knowledge or experience is assumed. No credit if credit earned for CIS 405. (Note CIS 405 is offered at UNH Manchester, and is not related to CS 405 at UNH Durham.) Equivalent(s): CIS 405, CIS 410F, CIS 495, CS 403

IT 502 - Intermediate Web Design
Credits: 4
An intermediate level exploration of the theory and practice of Web design. Students learn the fundamentals of design theory applicable to the World Wide Web and examine tools and techniques for applying that knowledge to their projects. Additional topics include information architecture, usability, accessibility, optimization, typography, and market visibility. Working knowledge of XHTML and CSS required. Prereq: CS 403. Equivalent(s): CS 502
IT 505 - Database Programming  
**Credits:** 4  
Introduces database programming in the microcomputer environment. Students use a procedural programming language such as Visual Basic to manipulate data managed by a database management system. Emphasis is on the relational database model. Topics include connections, queries (including use of SQL), relations, constraints, transaction processing, concurrency issues, exception handling, and report generation. Prereq: a programming course. Computer Science majors not allowed.  
**Equivalent(s):** COMP 520, CS 505

IT 520 - Computer Architecture  
**Credits:** 4  
Fundamentals of computer organization, including binary systems, data representation (and compression), machine language, program execution, memory and process issues. Operating systems and networking basics. Not open to CS majors. Prereq: a programming course.

IT 600 - Internship  
**Credits:** 1  
Provides opportunity to apply academic experience in settings associated with future professional employment. A written proposal for the internship must be approved by the instructor. The proposal must specify what the student will learn from the internship, why the student is properly prepared for the internship, and what supervision will be available during the internship. A mid-semester report and a final report are required. Prereq: permission; majors only. Cr/F.  
**Repeat Rule:** May be repeated for a maximum of 4 credits.

IT 604 - Server-side Web Development  
**Credits:** 4  
An intermediate-level examination of the theory and practice of developing server-side applications for the World Wide Web. Students will learn practical techniques for designing and implementing data-driven Web sites through the use of server-side processing. Working knowledge of HTML, CSS, and some programming language is required. Prereq: IT 403 and a programming course.  
**Equivalent(s):** CS 504

IT 605 - Client-side Web Development  
**Credits:** 4  
An intermediate-level examination of the theory and practice of developing client-side applications for the World Wide Web. Students will learn practical techniques for designing and implementing dynamic Web sites through the use of client-side processing. Working knowledge of HTML, CSS, and some programming language is required. Prereq: IT 403 and a programming course.

IT 609 - Network/Systems Administration  
**Credits:** 4  
Introduces the central issues in administration of a networked computer system. Topics include the client-server model (including support of mail, FTP, Telnet, the Web), disk and file systems, backup and recovery, and security. Privacy and other legal/social issues will be discussed. Prereq: IT 520 and a programming course, or permission of the instructor.  
**Equivalent(s):** CS 509

IT 612 - Scripting Languages  
**Credits:** 4  
This course is a study of the class of programming languages and tools known as scripting languages. Topics include: a general discussion of language design and its relationship to the intended computing environment, introduction to the command-line environment, the role of scripts in controlling and connecting other programs and components, basic functionality of at least two scripting languages, and the syntax use of regular expressions. Programming projects in multiple languages will be required. Prereq: IT 505 or CS 515.

IT 630 - Data Science and Analytics  
**Credits:** 4  
An introduction to various disciplines that contribute to what is commonly known as Data Science. Students will learn how to gather, analyze, classify data utilizing various techniques. Study of tools and programming techniques to analyze data. Pre-requisite: CS 416 or CS 417 or permission of Instructor. No credit if currently registered for or credit already received for MATH 738 or CS 750.  
**Equivalent(s):** CS 750, MATH 738

IT 666 - Computer Security  
**Credits:** 4  
Provides students with the skills required to recognize and diagnose potential security issues in computer and network systems. Through readings, case studies, exercises, research papers, exams and personal experience, students will discuss and debate security policies and legislation, system procedures, security tools and techniques and the patterns that attackers use to foil security systems. Other topics include types of attacks, viruses, intrusion detection and tracking, firewalls, trust relationships and authentication, secure connections, and cryptography. At the conclusion of the course, student will have a heightened sense of security in the actions they take when using and maintaining computer systems. Prereq: IT 520 or permission of the instructor. No credit if credit earned for CIS 615.  
**Equivalent(s):** CIS 615

IT 666 - Computer Security  
**Credits:** 4  
Provides students with the skills required to recognize and diagnose potential security issues in computer and network systems. Through readings, case studies, exercises, research papers, exams and personal experience, students will discuss and debate security policies and legislation, system procedures, security tools and techniques and the patterns that attackers use to foil security systems. Other topics include types of attacks, viruses, intrusion detection and tracking, firewalls, trust relationships and authentication, secure connections, and cryptography. At the conclusion of the course, student will have a heightened sense of security in the actions they take when using and maintaining computer systems. Prereq: IT 520 or permission of the instructor. No credit if credit earned for CIS 615.  
**Equivalent(s):** CIS 615

IT 666 - Computer Security  
**Credits:** 4  
Provides students with the skills required to recognize and diagnose potential security issues in computer and network systems. Through readings, case studies, exercises, research papers, exams and personal experience, students will discuss and debate security policies and legislation, system procedures, security tools and techniques and the patterns that attackers use to foil security systems. Other topics include types of attacks, viruses, intrusion detection and tracking, firewalls, trust relationships and authentication, secure connections, and cryptography. At the conclusion of the course, student will have a heightened sense of security in the actions they take when using and maintaining computer systems. Prereq: IT 520 or permission of the instructor. No credit if credit earned for CIS 615.  
**Equivalent(s):** CIS 615

IT 696 - Independent Study  
**Credits:** 1-6  
Individual projects developed and conducted under the supervision of a faculty member. Prereq: permission of faculty supervisor and department chairperson. Only open to Information Technology majors.  
**Repeat Rule:** May be repeated for a maximum of 8 credits.

IT 699 - Internship  
**Credits:** 1  
Provides the opportunity to apply academic experience in settings associated with future professional employment. A written proposal for the internship must be approved by the instructor. The proposal must specify what the student will learn from the internship, why the student is properly prepared for the internship and what supervision is available during the internship. A mid-semester report and final report are required. Prereq: IT 505 and a programming course, or permission of the instructor.  
**Equivalent(s):** CS 509
IT 704 - Advanced Web Development
Credits: 4
An advanced exploration of various topics in Web development. Topics covered each semester will be chosen to reflect the current state of stable and accepted Web technologies, with a decided emphasis on open-source solutions. Both client-side and server-side technologies are likely to be included, with particular attention given to concepts and techniques used to facilitate efficient Web development. Prereq: IT 604.

IT 705 - Project Management for Information Technology
Credits: 4
This course focuses on a core set of project management essentials that can affect the bottom line of project technical and business performance. These are termed “best practices,” and those addressed are: formal risk management, agreement on interfaces, metrics based scheduling/tracking, frequent binary completion milestones, incremental development, people aware management style, and change management. The emphasis is on information technology projects; however, the basic principles are pertinent to a wider class of project domains. Prereq: Senior standing in IT or permission.

Attributes: Writing Intensive Course

IT 710 - Senior Project
Credits: 4
Students are organized into teams and work on a specific IT project. Utilizing the skills and concepts learned in IT 705 (as well as other previous academic and field experience), each team works with one or more stakeholders to provide all necessary project elements - from initial specification through design and development to delivery. Teams are expected to provide both interim and final written and/or oral reports for the project. Prereq: IT 705; Information Technology majors only.

IT 725 - Network Technology
Credits: 4
Introduction to fundamental concepts of computer networks and exploration of widely-used networking technologies. Topics include principles of congestion and error control; network routing; local, wireless and access networks; application protocol design; and network programming. In-depth discussion of the Internet suite of protocols. Prereq: IT 520.
Equivalent(s): CS 725

IT 775 - Database Technology
Credits: 4
Topics include database architecture, schema design and definition, entity-relationship diagrams, data retrieval and update, and indexing performance. Architectures for single-user, multi-user, client-server, and web access are introduced. The relational data model is emphasized but alternative database models, such as semi-structured and object models, are introduced. Database administration topics include examination of metadata information, data integrity, and management of users and privileges, performance tuning, transactions, isolation levels, and security. Ethics of data protection are introduced. Students develop skill in SQL. Not open to CS majors. No credit if credit earned for CS 775. Prereq: IT 505.
Equivalent(s): CS 775

IT 780 - Topics in Information Technology
Credits: 4
Material not normally covered in course offerings.

Repeat Rule: May be repeated for a maximum of 8 credits.

Integrated Agriculture Management (IAG)

# Course numbers with the # symbol included (e.g. #400) have not been taught in the last 3 years.

IAG 408 - Foundations for Living Sustainably in New England
Credits: 4
An introduction to the principles and practices of sustainable living in New England. Within the framework of human culture as an integral part of our ecosystem and focusing on the integration of site-scale applications, topics touched upon include ecology, site inventory and mapping, horticulture, forestry, animal science, architecture, food, regulatory issues, business concepts, and community integration. Special fee.

IAG 490 - Integrated Agriculture Management Capstone
Credits: 2
The capstone experience includes formal lectures and coursework. In addition there is a required pre-approved and mentored project, or other special project-based student activity accepted by the IAG program advisors. The students will be expected to present the project to freshman students in the Integrated Agriculture program and also in a public venue. The course occurs in the student’s final year at the Thompson School of Applied Sciences. Permission required.

IAG 597 - Integrated Agriculture Management Work Experience
Credits: 0
Career related employment for 400 hours, generally in the summer following the freshmen year. This is in an agricultural, forestry, or food related firm, farm or related business, department approval required. Student submits a monthly report, and a final report from employer required. Students are eligible to register for IAG 297 after completing at least one semester as an IAMT student.

Equivalent(s): AAS 597, FORT 597, HT 597, IAG 297

Integrated Applied Mathematics (IAM)

# Course numbers with the # symbol included (e.g. #400) have not been taught in the last 3 years.
IAM 550 - Introduction to Engineering Computing  
Credits: 4  
An application driven introduction to computer-aided problem solving leveraging foundational knowledge in engineering and the physical sciences. Engineering applications are used to motivate the computational methods needed in scientific and engineering disciplines. Numerical methods, including the basic LU algorithm, one-dimensional root finding methods, and numerical differentiation and integration, are introduced as useful computational tools for tackling a broad range of engineering and scientific and engineering disciplines. Numerical methods, including the basic LU algorithm, one-dimensional root finding methods, the numerical differentiation and integration, are introduced as useful computational tools for tackling a broad range of engineering and scientific applications and to provide concrete and contextual programming experiences. MATLAB is used, with topics including scripts, functions, logical expressions, conditional statements, looping, data visualization, plotting, and recursion presented within the framework provided by both the numerical methods and the scientific or engineering problems. Laboratory included. Pre- or Coreq: MATH 426. No credit earned if credit received for MATH 445.  
Equivalent(s): MATH 445  

IAM 751 - Introduction to High-Performance Computing  
Credits: 4  
Course gives an introduction to select areas of high-performance computing, providing a basis for writing and working with high-performance simulation codes. The three main topics are: 1) basic software engineering, 2) high-performance and parallel programming, and 3) performance analysis and modeling. Additional topics may include heterogeneous architectures like GPUs and data analysis/visualization. Prereq: MATH 753 and working knowledge of a programming language (C or Fortran), or by permission of instructor.  

Intercolleges (INCO)  
# Course numbers with the # symbol included (e.g. #400) have not been taught in the last 3 years.

INCO 400 - Graduate Preparation Seminar  
Credits: 1  
A survey seminar that explores issues related to graduate school preparation. Topics include graduate school culture, academic research, the role of multicultural scholars, faculty relations, the graduate record exam, resume/vita development, and financing graduate education. Prereq: Enrollment in McNair Scholars Program. Cr/F.  
Repeat Rule: May be repeated for a maximum of 2 credits.  

INCO 403 - Healthcare Professions Seminar  
Credits: 2  
This seminar is designed for students (primarily for sophomores; juniors and seniors may also take the course) who are in the initial phase of preparation to a career in allopathic or osteopathic medicine, dentistry, podiatry, optometry, physicians assistant, chiropractics, physical therapy, pharmacy, or naturopathic medicine. Through readings and discussion students will become informed about current topics in healthcare, and specifically about these professions, requirements for admission to degree programs, and about how to become a competitive applicant. Cr/F.  

INCO 405 - Introduction to Marine Mammal Science and Policy  
Credits: 3  
This course embarks on the scientific discovery of marine mammals through the intersection of marine policy, physics, biology, and societal value of the ocean. Marine mammal an human interactions will be related to specific marine laws protective of the major taxonomic groups. Students will receive an introduction to marine mammal evolution, morphological and physiological adaptations, ecology, and behavior. These foundational concepts will convey to students the intent of marine policy protective of marine mammals.  

INCO 410 - Introduction to College Teaching  
Credits: 2  
Evolving role and function of colleges and universities in American higher education. Issues involving the professorate including teaching, scholarship and service as the framework for an academic career.  

INCO 430 - Interdisciplinary Science  
Credits: 4  
Advanced topics in selected areas of science through interdisciplinary lectures, demonstrations, hands-on laboratory experience, and field trips; the use of mathematical and computer skills in science; social, economic, environmental, and ethical applications and implications of recent advances in the selected area of science; the process of research. Restricted to high school juniors and seniors by permission only.  

INCO 440A - Asking for It: The History and Law of Sexual Violence in the United States  
Credits: 4  
Sexual violence has been perpetrated since ancient times. The #MeToo movement is just one example of the multi-layered and complex prevalence of sexual assault in today's culture. This course addresses sexual assault, its history, and the laws that criminalize it. Through readings, small group discussion, practical applications including a mock trial, and speakers, students will gain insight into how the law shapes rape culture and how, in turn, rape culture affects law. 
Attributes: Social Science (Discovery)  
Equivalent(s): ANTH 450  

INCO 440 - Introduction to Race, Culture and Power  
Credits: 4  
Explores the ways in which the concept of "race" serves to justify global relationships of domination and inequality and is embedded in U.S. society. Examines how dominant powers use "culture" to maintain subordination and how subordinated peoples use "culture" to resist exploitation. (Also listed as ANTH 450.)  
Equivalent(s): ANTH 450  

INCO 490 - Introduction to the Research Process in the Biological Sciences  
Credits: 2  
This course introduces students to the process of research in the biological sciences - identifying a topic, narrowing that topic to a question, conducting literature searches - ultimately leading to writing a research proposal in the style of a Summer Undergraduate Research Fellowship. It is an ideal course for students hoping to conduct a summer research project, preparing for an independent or capstone research experience, or planning to complete a Senior or Honors Thesis. No seniors allowed.  
Equivalent(s): INCO 501, INCO 501H
INCO 505A - Semester in the City Becoming a Problem Solver
Credits: 4
This course will expose students to the concepts and practices associated with social innovation and social entrepreneurship – i.e., the development and growth of new, sustainable, and scalable approaches to the major social, economic, and environmental challenges facing society. Students will learn a variety of tools and methods used for the development, implementation, management, and assessment of social solutions that they will be able to use over the course of their careers. Taken concurrently with: INCO 505B and INCO 505I, for a total of 16 UNH credits.
Co-requisite: INCO 505A & INCO 505I

INCO 505B - Social Innovator’s Toolbox
Credits: 4
This course will expose students to the concepts and practices associated with social innovation and social entrepreneurship – i.e., the development and growth of new, sustainable, and scalable approaches to the major social, economic, and environmental challenges facing society. Students will learn a variety of tools and methods used for the development, implementation, management, and assessment of social solutions that they will be able to use over the course of their careers. Taken with INCO 505A & INCO 505I.

INCO 505I - Semester in the City Internship
Credits: 8
All Social Innovation Fellows will spend approximately 30 hours per week (Mon, Tues, Thurs, 9-5 and Wed 9-3 or similar) for 14 weeks at a nonprofit, a government agency or a social mission for-profit business. Fellows and host organizations are matched based on applications and interviews, with prioritization of issue alignment, skill/knowledge alignment or both. Additionally, the Semester in the City program is designed such that the internship experience is intimately intertwined with students’ other coursework and reflection. Taken concurrently with: INCO 505A and INCO 505B, for a total of 16 UNH credits.
Co-requisite: INCO 505A, INCO 505I

INCO 510 - McNair Introduction Seminar
Credits: 1-2
Course assists newly inducted student scholars in understanding the requirements of participation. Substantive reading and writing on the life of Dr. Ron McNair as the starting point from which to understand program expectations and begin sketching research and graduate school goals. Prereq: Enrollment in McNair Scholars Program and permission. Cr/F.

INCO 529 - Writing Consultation
Credits: 2
Includes instruction in philosophy and techniques of tutoring, theoretical and practical issues in collaborative learning and complex-skill formation, and cross disciplinary conventions of writing. In addition to the classroom portion of course, each student undertakes a supervised practicum experience in the University Writing Center. Permission required. Cr/F.
Equivalent(s): ENGL 728

INCO 530 - Writing Consultation Across the Curriculum
Credits: 2
This course provides the fundamental background for peer writing consultation serving as Writing Fellows in courses across the curriculum. Emphasis is on the application of theoretical assumptions about writing, tutoring, and discipline-specific discourse. Restricted to members of the Writing Fellows Program. Faculty recommendation required. May be repeated for credit. Prereq: ENGL 401, one other Writing intensive course.

INCO 555 - Peer Education
Credits: 1-3
Students serve as co-instructors for a section of INCO 444, First Year Seminar. Under the supervision of the course coordinator and their co-instructor (a University faculty member or Student Affairs professional), they prepare and present materials and exercises for their section. With their co-instructor, they also grade written and other exercises. Students attend weekly meetings with their section co-instructor and biweekly meetings of all section instructors. They also attend a two day workshop on teaching and course facilitation prior to the semester and a one day workshop at the end of the semester. Prereq: permission. Cr/F.
Repeat Rule: May be repeated for a maximum of 3 credits.

INCO 585 - Foreign Exchange
Credits: 16
Undergraduates who meet UNH Study Away Eligibility Requirements and the requirements set by the host institution, may participate in an international exchange program at one of UNH's partner institutions for a semester or academic year. Students must achieve the equivalent of a 'C' or above to receive international transfer credit. For more information contact the Coordinator of Student Programs at the Center for International Education. Special fee.
Attributes: World Cultures(Discovery)

INCO 586 - Foreign Exchange
Credits: 16
Undergraduates who meet UNH Study Away Eligibility Requirements and the requirements set by the host institution, may participate in an international exchange program at one of UNH's partner institutions for a semester or academic year. Students must achieve the equivalent of a 'C' or above to receive international transfer credit. For more information contact the Coordinator of Student Programs at the Center for International Education. Special fee. Cr/F.
Attributes: World Cultures(Discovery)

INCO 587 - International Exchange
Credits: 9
Undergraduates who meet UNH Study Away Eligibility Requirements and the requirements set by the host institution, may participate in an international exchange program at either Saitama University, Japan or Pusan National University, South Korea. Students must achieve the equivalent of a 'C' or above to receive international transfer credit. For more information contact the International Exchange Program Manager.
Repeat Rule: May be repeated for a maximum of 9 credits.

INCO 588 - Study Abroad Experience - Semester
Credits: 0
A Study Abroad Program co-requisite to enroll students in travel insurance and capture the mandatory study abroad fee.

INCO 589 - Study Abroad Experience Short
Credits: 0
For students enrolling in short term study abroad experiences in Fall and Spring semesters. Also for students enrolling in January term and Summer Session study abroad experiences.
INCO 590 - Student Research Experience  
Credits: 1-4  
Provides hands-on research experience to develop critical thinking, problem solving, and analytical skills. An entry-level research experience that introduces students to research theories, tools, and ethical issues. Each student completes a contract with a faculty mentor identifying the research activities the student will undertake.  
Repeat Rule: May be repeated for a maximum of 8 credits.

INCO 595 - Winterim Topics  
Credits: 1-4  
Concentrated interdisciplinary exposure to a particular culture or locale off camp during the winter term. Includes anthropological, artistic, biological, cultural, environmental, or geographical, historical, political, sociological, and other aspects of a culture, country or locale.  
Repeat Rule: May be repeated for a maximum of 8 credits.  
Equivalent(s): INCO 595W

INCO 595W - Winterim Topics  
Credits: 1-4  
Concentrated interdisciplinary exposure to a particular culture or locale off campus during the winter term. Includes anthropological, artistic, biological, cultural, environmental, or geographical, historical, political, sociological, and other aspects of a culture, country or locale.  
Repeat Rule: May be repeated for a maximum of 8 credits.  
Equivalent(s): INCO 595

INCO 596 - Summer Topics  
Credits: 1-4  
Provides a concentrated interdisciplinary exposure to a particular culture or locale off campus during the summer session. Includes anthropological, artistic, biological, cultural, environmental, geographical, historical, political, sociological, and other aspects of a culture, country or locale.  
Repeat Rule: May be repeated for a maximum of 8 credits.  
Equivalent(s): INCO 604H

INCO 604H - Honors Senior Thesis  
Credits: 4 or 8  
Final requirement for graduation with University Honors. Intended for honors students in majors that do not offer honors work. Open by special permission to other honors students. IA (continuous grading).  
Attributes: Writing Intensive Course  
Repeat Rule: May be repeated for a maximum of 8 credits.

INCO 610 - Research Inquiry Seminar  
Credits: 2-6  
With the notion of understanding self as the basis for investigating the world, this seminar focuses on exploring elementary concepts of academic research. Students are engaged in identifying strengths, discovering their passions, discerning the joys and frustrations of research, and developing a sketch of a research project. Prereq: Enrollment in McNair Scholars Program and permission. Cr/F.  
Repeat Rule: May be repeated for a maximum of 8 credits.

INCO 620 - Talk to Action: Facilitating Deliberative Democracy  
Credits: 2-4  
A theory-to-practice seminar that explores democratic theory from a deliberative perspective, dialogue and small group facilitation, civic engagement and social justice. Topics include moral disagreement, skills in public engagement and facilitation, creating social change, and moving from talk to action in the public sphere. Cr/F.  
Repeat Rule: May be repeated for a maximum of 6 credits.

INCO 650 - Study Abroad Seminar: Encountering Oneself/Encountering the World  
Credits: 1  
This seminar, which meets during the second half of each semester, seeks to prepare outgoing students for the Study Abroad experience. The course specifically engages the ways in which the international experience affects personal, academic, and career perspectives. Readings, discussions, and short written assignments will focus on cultural adaptation, cross-cultural communication, practical skills for international living, and especially the implications of global perspectives on a student’s major field(s) of study. Students are strongly encouraged to take INCO 651: Studying Abroad/Returning Home in the first half of the semester in which they return to UNH. Permission required. Cr/F.  
Repeat Rule: May be repeated for a maximum of 3 credits.  
Equivalent(s): INCO 650H

INCO 650H - Honors/Encountering Oneself/Encountering the World  
Credits: 1  
This seminar, which meets during the second half of each semester, seeks to prepare outgoing students for the Study Abroad experience. The course specifically engages the ways in which the international experience affects personal, academic, and career perspectives. Readings, discussions, and short written assignments will focus on cultural adaptation, cross-cultural communication, practical skills for international living, and especially the implications of global perspectives on a student’s major field(s) of study. Students are strongly encouraged to take INCO 651: Studying Abroad/Returning Home in the first half of the semester in which they return to UNH. Permission required. Cr/F.  
Repeat Rule: May be repeated for a maximum of 3 credits.  
Equivalent(s): INCO 650

INCO 651 - Study Abroad Seminar: Returning Home  
Credits: 1  
This seminar, which meets during the first half of each semester, offers returning students an opportunity to reflect on their Study Abroad experience. The course specifically engages the ways in which the international experience affects personal, academic, and career perspectives. Readings, discussions, and short written assignments will focus on the experience of re-entry: cultural (re)adaptation, cross-cultural communication, and especially the implications of global perspectives on a student’s major field(s) of study. Students should expect to have taken INCO 650: Encountering Oneself/Encountering the World in the second half of the semester before they left UNH. Permission required. Cr/F.  
Repeat Rule: May be repeated for a maximum of 3 credits.  
Equivalent(s): INCO 651H

INCO 651H - Honors/Study Abroad Seminar/Returning Home  
Credits: 1  
This seminar, which meets during the first half of each semester, offers returning students an opportunity to reflect on their Study Abroad experience. The course specifically engages the ways in which the international experience affects personal, academic, and career perspectives. Readings, discussions, and short written assignments will focus on the experience of re-entry: cultural (re)adaptation, cross-cultural communication, and especially the implications of global perspectives on a student’s major field(s) of study. Repeat Rule: May be repeated for a maximum of 3 credits.  
Equivalent(s): INCO 651
INCO 682 - Washington Internship

Credits: 12
Internship placements in Washington, D.C., through the Washington Center. Individual internships arranged with legislative and judicial offices, law firms, public interest organizations; in the arts, the media, labor, international affairs, business, consumer affairs. Supervision by agency personnel and faculty sponsor. Students should have above-average academic records before applying. Open to all majors. Applications available in the National Student Exchange Office, Hood House. Prereq: junior or senior. Student must also register for a graded, 4-credit independent study in the student's major. credit variable to 12 credits. Special fee. Cr/F.

Equivalent(s): SCSC 682

INCO 682A - The Washington Center LEAD Colloquium

Credits: 4
This weekly colloquium provides internship participants with professional development and career coaching necessary to guide students through transition from academic to professional. Assignments will be collected into final portfolio which will demonstrate integrative learning.

Co-requisite: INCO 682I

INCO 682I - Washington DC Internship

Credits: 4 or 8
Internship Placement in Washington DC through The Washington Center program. 32 hours per week, sites vary based on student major and interest.

Co-requisite: INCO 682A

INCO 685 - Study Abroad

Credits: 16
Enables students to pursue a semester, summer, or an academic year of foreign study in programs other than those offered by UNH. Students must provide the University Committee on Study Abroad with detailed information about the curriculum and must receive approval from that committee before registration. Credit awarded only upon successful completion of the course of study and after receipt by the committee of an official transcript. Interested students should consult the Center for International Education. Prereq: permission. Special fee. (Financial aid requires a minimum of 6 credits.) Cr/F.

Attributes: World Cultures(Discovery)

INCO 686 - Study Abroad

Credits: 16
Enables students to pursue a semester, summer, or an academic year of foreign study in programs other than those offered by UNH. Students must provide the University Committee on Study Abroad with detailed information about the curriculum and must receive approval from that committee before registration. Credit awarded only upon successful completion of the course of study and after receipt by the committee of an official transcript. Interested students should consult the Center for International Education. Prereq: permission. Special fee. (Financial aid requires a minimum of 6 credits.) Cr/F.

Attributes: World Cultures(Discovery)

INCO 687 - Study Abroad Experience

Credits: 16
Enables students to pursue a term of foreign study in programs other than those offered by UNH. Students must meet all university requirements and complete required forms. Credit awarded only upon successful completion of the course of study abroad and after receipt and processing of an official transcript. Interested students should consult the Center for International Education. Prereq: permission. Special fee. (Financial aid requires a minimum of 6 credits.) Cr/F.

INCO 688 - Study Abroad Insurance Program

Credits: 0

INCO 689 - Study Abroad Insurance - Short

Credits: 0

INCO 698 - Summer Research Project

Credits: 8
Guided independent research or student/faculty collaborative research. Open to recipients of summer undergraduate research fellowships or by permission of the Undergraduate Research Opportunities Program. (Summer only) Cr/F.

INCO 699 - McNair Summer Internship

Credits: 0
McNair Fellows; not graded; Summer only.

INCO 705 - Introduction to Marine Policy: Understanding US Ocean Coastal & Great Lakes Policy

Credits: 3
Effective management of human activities in ocean, coastal and Great Lakes areas is critical to our future. This course provides a foundation for students from various backgrounds to understand U.S. marine policy and how it relates to their future careers in research, policy, law, or management. While focused on U.S. marine policy, the course also provides international context, including the UN Law of the Sea and other related conventions on pollution, fisheries, and resource protection.

INCO 710 - Introduction to McNair Research

Credits: 2-4
An introduction to methods and techniques of research design within the social sciences, mathematics and natural sciences, and the humanities. Concepts are tailored to students' research thesis. Students design and construct a research project (execution of project may be allowed for additional credit). A comprehensive written proposal is required. Prereq: Enrollment in McNair Scholars Program. Special fee on Study Abroad sections.

Repeat Rule: May be repeated for a maximum of 8 credits.

INCO 720 - McNair Research Experience

Credits: 4
This independent study course allows students to work one-on-one with a faculty scholar to execute the research project. The course also provides a forum for faculty mentors and research supervisors to troubleshoot challenges and assist in the completion of the project. Prereq: Enrollment in McNair Scholars Program. Permission required.

INCO 730 - Writing Consultation Across the Curriculum

Credits: 2
This course provides the fundamental background for peer serving as Writing Fellows in courses across the curriculum. Emphasis is on the application of theoretical assumptions about writing, tutoring, and discipline-specific discourse. Restricted to members of the Writing Fellows Program. Faculty recommendation required. May be repeated for credit. Students will be asked to evaluate their discipline-specific writing experience and apply it to their Writing Fellows’ work. Prereq: ENGL 401, one other Writing intensive course.
INCO 740 - McNair Research Abroad
Credits: 1-6
This course focuses on the execution of a comprehensive undergraduate research project in a country other than the U.S. Students learn about the cultural elements entailed in conducting research in a foreign country. They grapple with ethical dilemmas, as well as with the joys and frustration of performing research. In addition, students are asked to identify and examine a particular aspect of the host nation's customs and traditions. Special fee.
Repeat Rule: May be repeated for a maximum of 12 credits.

INCO 790 - Advanced Research Experience
Credits: 1-4
Advanced research, scholarly or creative projects developed and conducted under the supervision of a faculty member. Provides students with the opportunity to apply advanced knowledge and techniques of their major to a specific problem or question. Prereq: INCO 590, significant preparatory course work for research, or other research experience approved by the INCO 790 faculty mentor. INCO 790 may be repeated alone or in combination with INCO 590 for a maximum of 8 credits. Graded.
Repeat Rule: May be repeated for a maximum of 8 credits.

INCO 791 - National Science Foundation Graduate Research Fellowship Preparation
Credits: 0
This course is designed to enable students to receive information, guidance, and support in applying for the National Science Foundation (NSF) Graduate Research Fellowship program (GRFP). Students will become familiar with the NSF, its mission, and the selection criteria for this fellowship. Through independent work and collaborative exercises, students will strengthen writing skills and develop a strong application.

INCO 795 - Washington Center Course
Credits: 4
Four-credit independent study in conjunction with The Washington Center program in Washington DC. May be offered as co-requisite with INCO 682 or as short term seminar class.
Repeat Rule: May be repeated for a maximum of 8 credits.
Equivalent(s): SCSC 795

INCO #796 - Touching the Limits of Knowledge: Cosmology and Our View of the World
Credits: 1
A seminar analyzing the paradoxes and limits of scientific knowledge and religious understanding, their compatibility or lack of it with respect to contemporary cosmology.

Italian (ITAL)
# Course numbers with the # symbol included (e.g. #400) have not been taught in the last 3 years.

ITAL 401 - Elementary Italian I
Credits: 4
For students without previous training in Italian. Aural comprehension, speaking, writing, reading. Labs. (No credit for students who have had two or more years of Italian in secondary school; however, any such students whose studies of Italian have been interrupted for seven years should consult the section coordinator about possibly receiving credit).

ITAL 402 - Elementary Italian II
Credits: 4
For students who have completed ITAL 401 or equivalent. Aural comprehension, speaking, writing, reading. Labs. (No credit for students who have had two or more years of Italian in secondary school; however, any such students whose studies of Italian have been interrupted for seven years should consult the section coordinator about possibly receiving credit).

Attributes: Foreign Language Requirement
ITAL 425 - Introduction to Italian Studies
Credits: 4
The double aim of this course is to provide a working knowledge of Italian cultural and political history and to examine, from a more general and theoretical standpoint, the role of Italian art, literature and history. Readings, slides, films, opera and lectures; along the way, they will be encouraged to analyze the interaction between culture and political thought in other countries, including their own.
Attributes: World Cultures(Discovery)
Equivalent(s): ITAL 425H, WLCE 425I

ITAL 425H - Honors/Introduction to Italian Studies
Credits: 4
Designed for honors students interested in exploring Italian language and culture. Culture learning by means of guest speakers and visuals. Prepares for ITAL 401 and ITAL 402. Taught in English. Does not satisfy foreign language proficiency requirement. (Offered summers only, Not offered every summer).
Attributes: World Cultures(Discovery); Writing Intensive Course
Equivalent(s): ITAL 425

ITAL 444A - Italians Come to America: Representing Emigration and Immigration on Both Sides of the Atlantic
Credits: 4
Course is designed around the phenomenon of emigration from Italy to the United States over the last century or so, with particular attention to the time period between the end of the nineteenth century and the mid-twentieth century. While core media under examination are literature and film, we also draw on historical, anthropological, political and sociological readings to help us consider the many issues involved. Writing intensive.
Attributes: Humanities(Disc); Inquiry (Discovery); Writing Intensive Course
Equivalent(s): LLC 444E

ITAL 444B - Mamma Mia! Italian Motherhood from the Virgin Mary to Carmela Soprano
Credits: 4
This course examines motherhood and the special role of the Italian mother - la mamma italiana - in past and present Italian society. Through readings from a wide variety of disciplines - theology, history, medicine, and literature - as well as an examination of art and film, we will analyze the origins and conflicted nature of Italian attitudes toward motherhood. Topics include: maternal love and self-sacrifice, beliefs about generation and their influence on maternal and paternal roles, Italian family structure. Mussolini's promotion of motherhood, the phenomenon of mammismo or "Mama's boys", and Italian-American mothers, including Carmela Soprano. Writing intensive.
Attributes: Humanities(Disc); Inquiry (Discovery); Writing Intensive Course

ITAL 500 - Selected Topics in World Literature
Credits: 4
Topics will be chosen which introduce students to major themes and genres. (Also offered as CLAS 500, FREN 500, GERM 500, PORT 500, RUSS 500, SPAN 500.) May be repeated for credit. Special fee. Writing intensive. Cr/F.
Attributes: Writing Intensive Course
Equivalent(s): CLAS 500, FREN 500, GERM 500, PORT 500, RUSS 500, RUSS 500W, SPAN 500, WLCE 500

ITAL 503 - Intermediate Italian I
Credits: 4
A complete review of the fundamentals of grammar and syntax. Selected readings as a general introduction to Italian civilization and culture. Labs and films.
Attributes: World Cultures(Discovery); World Cultures(Discovery); Inquiry (Discovery)
Equivalent(s): ITAL 503, FREN 503, GERM 503, PORT 503

ITAL 504 - Intermediate Italian II
Credits: 4
For students who have completed ITAL 503 or an equivalent. A complete review of the fundamentals of grammar and syntax. Selected readings as a general introduction to Italian civilization and culture. Labs and films.
Attributes: World Cultures(Discovery); Writing Intensive Course

ITAL 510J - Rome: The Eternal City in Italian Culture
Credits: 4
This course offers an interdisciplinary introduction to the Eternal City and its role in Italian culture from the Middle Ages to the present. Together, the online and on-site components of the course allow students to compare their theoretical historical, social and artistic knowledge of Italian culture (acquired through readings, films and online lectures) with experiential knowledge gained through first-hand exposure to contemporary Rome. All readings in English. Fulfills the World Cultures Discovery requirement. Special fee.
Attributes: World Cultures(Discovery)
Equivalent(s): ITAL 510J, LLC 510J

ITAL 521 - Medieval and Renaissance Italian Culture
Credits: 4
Major works of fiction and nonfiction, reflecting ideas and taste during the first three centuries of Italian history. Readings, discussions, papers in English. No more than one course in English may be counted toward the minor. (Not offered every year).
Attributes: Humanities(Disc); Inquiry (Discovery); Writing Intensive Course
Equivalent(s): ITAL 521, LLC 521

ITAL 522 - Modern and Contemporary Italian Culture
Credits: 4
Major trends in post-Renaissance thought and culture in Italy. Readings, discussions, papers in English. No more one course in English may be counted toward the minor. (Not offered every year).
Attributes: Humanities(Disc); Inquiry (Discovery); Writing Intensive Course
Equivalent(s): ITAL 522, LLC 522

ITAL 525 - Italian Cinema
Credits: 4
Acquaints students with major Italian film texts. Through cinema the course explores the culture, society, history, and politics of Italy. Students examine filmmakers, genres, periods, and movements. The course is conducted in English.
Attributes: FinePerformingArts(Discovery)
Equivalent(s): WLCE 525I

ITAL 595 - Practicum
Credits: 2
Practical use of Italian language and culture through special projects outside the classroom. Prereq: permission. Cr/F.
Repeat Rule: May be repeated for a maximum of 4 credits.
Equivalent(s): ITAL 595A
ITAL 595A - Practicum
Credits: 2 or 4
Practical use of Italian language and culture through special projects outside of the classroom. The Practicum consists of unpaid placement in an approved business, social service, or educational organization in an Italian-speaking context with on-site supervision. The course also includes a classroom component that incorporates readings and assignments pertinent to the Practicum experience. Permission. Letter Grade.
Repeat Rule: May be repeated for a maximum of 4 credits.
Equivalent(s): ITAL 595

ITAL 631 - Advanced Conversation and Composition I
Credits: 4
Rapid review of basic grammatical structures and in-depth study of more complex linguistic patterns. Vocabulary building. Frequent written compositions and oral presentations using materials on contemporary culture taken from the various media. Phonetics and oral/aural skills development in lab and class. Prereq: C or better in ITAL 504 or permission.
Attributes: World Cultures(Discovery); Writing Intensive Course

ITAL 632 - Advanced Conversation and Composition II
Credits: 4
Advanced spoken and written Italian to attain aural-oral fluency. Advanced reading and composition. Prereq: C or better in ITAL 631 or permission.
Attributes: World Cultures(Discovery); Writing Intensive Course

ITAL 635 - Food Aesthetics in Italy
Credits: 4
Food Aesthetics in Italy acquaints students with the principal of aesthetics as they pertain to our understanding of and relationship to food. It is offered by the UNH-in-Italy Program in Ascoli Piceno. The philosophical aspects of the course are complemented by the experiential components that emphasize the particularity of the Italian environment.
Attributes: Humanities(Disc)

ITAL 645 - Food Technology in Italy
Credits: 4
Food Technology in Italy introduces students to modern and traditional technologies employed in the Marches region in the industrial processing of foods. The course examines the environmental impact as well as sustainability in terms of the production of healthful quality food products. It is offered through UNH-in-Italy Program in Ascoli Piceno.

ITAL 651 - Introduction to Italian Culture and Civilization I: Middle Ages, Renaissance, Baroque
Credits: 4
Survey of major representative writers and artists, studied against the backdrop of social and cultural history. Dante, Petrarch, Boccaccio, Machiavelli, Marino. Pre- or Coreq: ITAL 631 or permission. (Not offered every year).
Attributes: Writing Intensive Course

ITAL 652 - Introduction to Italian Culture and Civilization II: Age of Enlightenment, Romanticism, Modernism
Credits: 4
Survey of major representative writers and artists, studied against a backdrop of social and cultural history. Parini, Goldoni, Leopardi, Manzoni, Pavese, Calvino. Pre- or co-req: ITAL 631 or permission. (Not offered every year).

Individual guided study. Prereq: permission.  

ITAL 796 - Independent Study in Italian Language and Literature  
Credits: 1-4  
Individual guided study. Prereq: permission.  

**Japanese (JPN)**  
# Course numbers with the # symbol included (e.g. #400) have not been taught in the last 3 years.  

JPN 401 - Elementary Japanese I  
Credits: 4  
Elements of Japanese grammar. Oral practice and written drills designed to achieve a mastery of basic grammatical patterns. Reading of graded exercises introducing the student to written Japanese (Hiragana and Katakana) and Chinese characters used in contemporary Japan. Labs. (No credit for students who have had two or more years of Japanese in secondary school; however, any such students whose studies of Japanese have been interrupted for a significant period of time should consult with the department chairperson about possibly receiving credit).  

JPN 402 - Elementary Japanese II  
Credits: 4  
Elements of Japanese grammar. Oral practice and written drills designed to achieve a mastery of basic grammatical patterns. Reading of graded exercises introducing the student to written Japanese (Hiragana and Katakana) and Chinese characters used in contemporary Japan. Labs. (No credit for students who have had two or more years of Japanese in secondary school; however, any such students whose studies of Japanese have been interrupted for a significant period of time should consult with the department chairperson about possibly receiving credit). Prereq: JPN 401.  
Attributes: Foreign Language Requirement  

JPN 425 - Introduction to Japanese Culture and Civilization  
Credits: 4  
Taught in English and designed for students interested in exploring Japanese culture and society. Learning by means of lectures, discussions, guest speakers, selected readings, and multimedia. Does not fulfill B.A. foreign language requirement, but does fulfill the Group 5 foreign culture general education requirement. Also counts toward the Asian Studies Minor.  
Attributes: World Cultures(Discovery); Writing Intensive Course  
Equivalent(s): JPN 425H, WLCE 425J  

JPN 425H - Honors/Introduction to Japanese Culture and Civilization  
Credits: 4  
Taught in English and designed for students interested in exploring Japanese culture and society. Learning by means of lectures, discussions, guest speakers, selected readings, and multimedia. Does not fulfill B.A. foreign language requirement, but does fulfill the Group 5 foreign culture general education requirement. Also counts toward the Asian Studies Minor. Special fee. Writing intensive.  
Attributes: World Cultures(Discovery); Writing Intensive Course  

JPN 503 - Intermediate Japanese I  
Credits: 4  
Review of Japanese grammar. Reading of prose and practice in oral and written expression. Labs. Prereq: JPN 402 with a grade of C (2.00) or better or permission of instructor.  
Attributes: World Cultures(Discovery)  

JPN 504 - Intermediate Japanese II  
Credits: 4  
Review of Japanese grammar. Reading of prose and practice in oral and written expression. Labs. Prereq: JPN 402 with a grade of C (2.00) or better or permission of instructor.  
Attributes: World Cultures(Discovery)  

JPN 631 - Advanced Japanese I  
Credits: 4  
Advanced spoken and written Japanese to attain aural-oral fluency. Advanced reading and composition. Prereq: JPN 504 with a grade of C or better or permission of instructor.  
Attributes: Writing Intensive Course  

JPN 795 - Independent Study  
Credits: 1-4  
Open to highly qualified juniors and seniors. To be elected only with the permission of department chairperson and of the supervising faculty member or members. Barring duplication of subject, may be repeated for credit.  
Equivalent(s): JAPN 695, JPN 695  

JPN 796 - Independent Study  
Credits: 1-4  
Open to highly qualified juniors and seniors. To be elected only with the permission of department chairperson and of the supervising faculty member or members. Barring duplication of subject, may be repeated for credit.  
Equivalent(s): JAPN 696, JPN 796  

**Justice Studies (JUST)**  
# Course numbers with the # symbol included (e.g. #400) have not been taught in the last 3 years.  

JUST 401 - Introduction to Justice Studies  
Credits: 4  
Overview of justice studies as the study of law and law-like systems. Includes literature from both the law and society, and criminology. Topics will include morality versus legality, the American legal civil and criminal system, torts, and adult versus juvenile justice.
JUST 405 - Technology, Crime, and Society: A Forensic Exploration of High-Tech and Digital Crime
Credits: 4
This course addresses the ways in which technology, crime, and law converge in the wider society in the twenty-first century. While emerging technologies bring great benefits, they also bring unintended and unforeseen consequences. This course uses a social science orientation to explore a new and evolving field of forensic technology.
Attributes: Environment, Tech Society (Disc)

JUST 410 - Sexual Harassment and Rape Prevention (SHARPP) Peer Advocacy
Credits: 2
Provide education and awareness around issues of sexual and intimate partner violence, sexual harassment, and stalking. This course teaches students the skills needed to support survivors and their allies, by providing resources and advocacy, including university systems, medical, legal advocacy, and Title IX issues. This course allows for privileged communication by NH law, and requires a 1 year commitment to SHARPP Peer Advocacy. All majors accepted. Permission required.

JUST 415 - SHARPP Advocacy II
Credits: 2
This course is a continuation of JUST 410. Advocates will demonstrate understanding of skills learned in JUST 410 by practical use of the skills on the Crisis Line. Prereq: JUST 410.

JUST 501 - Research Methods
Credits: 4
Overview of the various methodologies used in justice studies research: quantitative, qualitative, and legal. Topics include issues of design such as ethics, reliability, and validity measurement. Students will design and write up research proposals using one of the methods reviewed in the course. Prereq: PSYC 402 or SOC 502 or equivalent.
Attributes: Inquiry (Discovery)

JUST 520 - Girls Gone Bad: Delinquent Girls in Cultural Context
Credits: 4
This course explores the important and under-studied intersection between gender/girls and delinquency. Who is the typical female delinquent? What causes her to get into trouble? What happens to her if she is arrested? Topics include the extent and nature of adolescent girls’ delinquency and theoretical explanations for delinquency. Focus on social contexts (family, peers, school), developmental and social psychological factors and adolescent girls' experiences with the juvenile system.

JUST #530 - Inside the Courtroom: Torn from the Headlines
Credits: 4
JUST #530 provides students an overview of criminal law procedure. The course is expressly aimed to serve students in the humanities and social sciences who may work in law-related fields, pursue advanced course work in academic disciplines that focus on law-related phenomena or go to law school. The course uses a distance education model, which requires students to invest significant amounts of time and effort outside of "class" activities to master the salient concepts presented in the course. The course provides students with a thorough introduction to the major legal categories of crime. The course also provides students with an understanding of the importance and role of the law of criminal procedure through an exploration of current issues and controversies. From time to time the course touches upon comparative views of other legal traditions. Class discussions, readings, and assignments frequently use current New Hampshire law and criminal cases as points of reference.
Attributes: Humanities (Disc)

JUST 550 - Mock Trial
Credits: 2
Participation in American Mock Trial Association intercollegiate competition. Study and preparation for trial of national case (criminal or civil, alternate years). Year long course, 2 credit hours per semester. Special fee. Permission required.
Repeat Rule: May be repeated for a maximum of 8 credits.

JUST 551 - Mock Trial
Credits: 2
Participation in American Mock Trial Association intercollegiate competition. Study and preparation for trial of national case (criminal or civil, alternate years). Year long course, 2 credit hours per semester. Special fee. Permission required.
Repeat Rule: May be repeated for a maximum of 8 credits.

JUST 591 - Forensic Psychology
Credits: 4
Forensic psychology is one of the fastest growing sub-fields in psychology and in fact one of the fastest growing disciplines in the world of social science. Still, most people in the general population as well as many individuals within the study of psychology know very little about what forensic psychology actually is. This course is designed to cover the various roles and issues that constitute the science of forensic psychology and to help students deepen their understanding of the various roles forensic psychologists play in the real world. Needless to say, this course will not train you to be a forensic psychologist, but hopefully it will spark your interest about a very exciting topic and encourage you to study some of the issues we touch on, as you move on academically.

JUST 595 - Special Topics
Credits: 1-4
Special topics of advanced study in Justice Studies. Selected offerings reflect faculty expertise in teaching and research. May be repeated in different topic areas.
Repeat Rule: May be repeated for a maximum of 8 credits.
Equivalent(s): HIST #679, HUMA 730, JUST 695

JUST 601 - Internship
Credits: 4
Placement by the justice studies coordinator in a position related to the justice system (e.g., criminal courts, corrections, civil courts, law firms, policy-making agencies, law enforcement agencies); weekly class meetings. Prereq: permission; seniors only.

JUST 602 - Research Internship
Credits: 4
Independent research working with Justice Studies faculty on their projects. Includes working with faculty at such research centers as Crimes against Children, Family Research Lab, and Justiceworks. Student-supervisor contract required. Minimum time commitment: 12 hours per week. Prereq: JUST 401, 501; or permission.

JUST 650 - Special Studies in Comparative Justice Systems
Credits: 4
This course will involve periodic offerings in comparative analysis of justice systems in an international context. May be repeated provided both course offerings are substantially different. Must be taken with JUST 651 for those students participating in the Justice Studies Budapest Program. Prereq: POLT 507 and/or SOC 515.
Co-requisite: COLA 657, INCO 588, JUST 651
Repeat Rule: May be repeated for a maximum of 8 credits.
JUST 651 - Field Studies in the Hungarian Justice System  
Credits: 6  
This course is designed to provide Justice Studies Budapest Program  
students with first-hand experience with the workings of the Hungarian  
justice system. Weekly field trips to agencies in law enforcement,  
the courts, and correctional facilities in the Budapest area will be  
arranged, and periodic lectures by Hungarian criminal justice professionals  
and scholars will complement these visits. Must be taken with JUST 650 for  
those students participating in the Justice Studies Budapest Program.  
Prereq: POLT 507 and/or SOC 515. Cr/F.  
Co-requisite: COLA 657, INCO 588, JUST 650  

JUST 701 - Senior Seminar  
Credits: 4  
Advanced material in which the instructor has specialized knowledge  
through research and study. Topics may include the death penalty,  
terrorism, psychology of the jury, ethics and morality, immigration,  
therapeutic jurisprudence, and juveniles tried as adults. Prereq: JUST 401,  
501.  
Attributes: Writing Intensive Course  

JUST 765 - Special Topics  
Credits: 4  
New or specialized courses are presented under this listing. Staff present  
material not normally covered by the course offerings. Cross-listed  
courses. May be repeated but not duplicate content.  
Equivalent(s): JUST 765W  

JUST 765W - Special Topics  
Credits: 4  
New or specialized courses are presented under this listing. Staff present  
material not normally covered by the course offerings. Cross-listed  
courses. May be repeated but not duplicate content.  
Attributes: Writing Intensive Course  
Equivalent(s): JUST 765  

JUST 795 - Reading and Research  
Credits: 1-4  
An independent study that is arranged by the student and supervised  
by a Justice Studies faculty member. Course requirements include:  
assembling and reading a substantial bibliography in the field;  
completing several written assignments and in some cases participating  
in hands-on experiences such as data collection and analysis. This  
course is by permission only and requires a signed agreement/proposal  
prior to registration. May be taken for 1-4 credits and includes a minimum  
of 3 hours of coursework per week per credit hour. Writing intensive in  
some select cases.  

Kinesiology (KIN)  

# Course numbers with the # symbol included (e.g. #400) have not  
been taught in the last 3 years.  

KIN 501 - First Aid: Responding to Emergencies  
Credits: 1  
Covers the American Heart Association HeartSaver First Aid/CPR/AED:  
Adult, Child, Infant curriculum, the National Association of EMTs Bleeding  
Control for the Injured (BCon) curriculum which meets the Department  
of Homeland Security’s Stop the Bleed initiative, and training for civilian  
responses to critical incidents. Special fee. Cr/F.  
Repeat Rule: May be repeated for a maximum of 2 credits.  

KIN 505 - Activity, Injuries and Disease  
Credits: 4  
Sports and exercise are a part of American society and are used as  
entertainment, leisure activity as well as a means to better health.  
Unfortunately while we partake in these activities few individuals are  
aware of the risks they are exposing themselves to. In addition as more  
women engage in sports and exercise medical science is realizing  
that many conditions and injuries are gender specific. It is well known  
that women athletes deal with reproductive, orthopedic and nutritional  
issues that differ greatly from men. Also we know that individuals with  
varying diseases benefit greatly from exercise. This course will join,  
musculoskeletal anatomy, injuries, gender and special problems together  
to explain how an individual can enjoy activities safely. In addition this  
course addresses the interpretation of current medical literature and how  
to utilize new information.  
Attributes: Biological Science(Discovery)  
Equivalent(s): KIN 506  

KIN 533 - Basic Scuba  
Credits: 3  
Full semester in the fundamentals of scuba diving. Through a progressive  
series of classroom lectures and pool sessions, students gain the  
knowledge and skill necessary to conduct themselves with competence  
derwater. Emphasizes safety and problem prevention. Once the  
students are ready, further training takes place in an open ocean  
environment. NAUI Certification for successful completion of all course  
requirements and at least five open-water dives. Strong swimming ability  
required. Special fee. Lab. Credit/Fail.  

KIN 585 - Emergency Medical Responder  
Credits: 4  
Standards of practice that conform to the content of the US Department  
of Transportation curriculum for Emergency Medical Responder (EMR).  
Initial evaluation and stabilization of patients at the scene of medical  
emergencies, CPR, and other basic medical care for illness and injury.  
Prepares the student for the National Registry of EMT (NREMT) EMR  
certifications exams. (Note: this is a different level of certification than  
Emergency Medical Technician (EMT). KIN 684/685 prepares students  
for EMT certification) Prereq: Athletic training; Exercise Science; HHS:  
declared. Lab. Special Fee.  

KIN 652 - Clinical Kinesiology  
Credits: 4  
The science of human movement from biomechanical, neuromuscular,  
and anatomical perspectives; human muscular, joint, and connective  
tissue anatomy; and actions of skeletal muscles are detailed. Prereq:  
BMS 507 and BMS 508.  

KIN 653A - Musculoskeletal Assessment  
Credits: 2  
Principles and methodology of joint range of motion, body mechanics,  
and muscle strength evaluation. Uses muscle palpation, goniometry,  
manual muscle testing, hand-held dynamometry to facilitate  
understanding of musculoskeletal anatomy and assessment. Special fee.  
Prereq: BMS 507 and BMS 508.
KIN 684 - Emergency Medical Care: Emergency Medical Technician (EMT)
Credits: 3
Based on the curriculum established by the U.S. Department of Transportation for Emergency Medical Technician, and authorized by the State of New Hampshire-Bureau of Emergency Medical Services (EMS). Topics covered include trauma; medical, environmental and psychiatric emergencies; childbirth; hazardous materials; and infection control procedures. Students participate in clinical observations in one of the region's hospital emergency departments. Students have the option to take the state of NH-EMS Practical Examination and the National Registry Written Examination for EMT. Passage of both these examinations leads to national certification as an EMT. Pre- or Coreq: ANSC 511 and ANSC 512, ZOOL 401, BMS 507 and BMS 508.
Co-requisite: KIN 685

KIN 685 - Emergency Medical Care: EMT Lab
Credits: 2
Basic emergency health care, including trauma patients, medical and environmental emergencies, and childbirth. Includes clinical experience with a local hospital and ambulance service. Prepares the student for the National Registry of EMT's Examination. Pre- or Coreq: ANSC 511 and ANSC 512, ZOOL 401, BMS 507 and BMS 508.
Co-requisite: KIN 684

KIN 690 - Study Abroad in Kinesiology
Credits: 16
A) Foreign study in, or related to, athletic training. Interested students should contact Program Director, Kinesiology Athletic Training Option. Prereq: KIN: Athletic Training majors only. special fee. Cr/F. Permission.
B) Foreign study in, or related to, exercise science. Interested students should contact Program Director, Kinesiology Exercise Science Option. Prereq: KIN: Exercise Science majors only. special fee. Cr/F. Permission.
C) Foreign study in, or related to, outdoor education. Interested students should contact Program Director, Kinesiology Outdoor Education Option. Prereq: KIN: Outdoor Education majors only. special fee. Cr/F. Permission.
D) Foreign study in, or related to, physical education. Interested students should contact Program Director, Kinesiology Physical Education Option. Prereq: KIN: Physical Education majors only. special fee. Cr/F. Permission.
E) Foreign study in, or related to, sports studies. Interested students should contact Program Director, Kinesiology Sports Studies Option. Prereq: KIN: Sports Studies majors only. special fee. Cr/F. Permission.
Co-requisite: INCO 588
Attributes: World Cultures (Discovery)

KIN 693 - Teaching Assistantship
Credits: 2
A) Physical Education Pedagogy; B) Exercise Leader; C) Outdoor Education; D) Science Labs; E) Cardiac Rehabilitation; F) Coaching. Students serve as teaching assistants in assigned class activities. Assignments to be made by the class instructor include teaching assistants’ and administrative duties. May take two different sections. Prereq: junior standing; departmental approval. Cr/F.
Repeat Rule: May be repeated for a maximum of 4 credits.

KIN 696 - Independent Study
Credits: 2-4
An advanced, individual scholarly project under the direct supervision of a faculty member. Prereq: junior or senior; departmental approval. Special fee.
Repeat Rule: May be repeated for a maximum of 8 credits.

KIN 696W - Independent Study
Credits: 2-4
An advanced, writing-intensive, individual scholarly project under the direct supervision of a faculty member. Student and Faculty Adviser will prepare a written proposal that outlines: the questions to be pursued, the methods of investigation, the student's qualifications to conduct the research, the nature of the finished written product (e.g. case study, position paper, extended lab report). This proposal must be approved by major faculty and the department chair prior to the student's registration for KIN 696 WI. All KIN 696 WI projects must include: Some forms of informal, ungraded writing such as a journal, reading summaries, draft chapters, or invention activities. Regular writing interaction between student and faculty adviser (i.e. at least weekly or biweekly), to include written feedback from the adviser. A finished product that is polished via revision. Faculty sponsors and students should consult the resources and guidelines of the UNH Writing Program. Prereq: junior or senior; departmental approval.
Attributes: Writing Intensive Course
Repeat Rule: May be repeated for a maximum of 8 credits.

KIN 699H - Honors Project
Credits: 4
Project first involves tutorial sessions to introduce the student to the experimental design, after which a research question is developed. After an appropriate literature review, the student collects and analyzes data, forms conclusions, and prepares a written report on the findings.

KIN 705 - Neurology
Credits: 4
Development, morphology, internal configuration, physiology, histology, function, and pathology of the human nervous system. Prereq: BMS 507-508 or equivalent.
Co-requisite: KIN 707

KIN 706 - Neurology
Credits: 2
Basic histology, neuroanatomy and neurophysiology of the human nervous system. Use of brain specimens, videos and pathology case studies to elucidate cell structure, sensory and motor systems, and spinal cord, brainstem and cortical organization and anatomy. Prereq: BMS 507-508 or COMM 521 or equivalent. Special fee. Cr/F.
Co-requisite: KIN 706

KIN 730 - Research Diving Techniques
Credits: 4
Takes previously certified divers with the need to assist, or conduct research underwater, and trains them in the methods and specific techniques of scientific diving programs. Progressively builds upon the basic diving skills until the student is knowledgeable and competent. Culminates with a small research project formulated and implemented by the students. Prereq: SCUBA certification, department approval. Special fee. (Also offered as ZOOL 730.)
Equivalent(s): ZOOL 730

KIN 735 - Advanced Scuba
Credits: 4
Classroom, pool, and open-water "hands-on" application in advanced diving techniques. The student’s diving ability progresses to become safer and highly educated in a variety of diving disciplines. Topics covered are navigation, search and recovery, low visibility/night diving, surface supplied diving, boat diving, accident management hyperbaric medicine, and physiology and scientific research methods for divers. Special fee. Lab.
KIN 798 - Special Topics
Credits: 1-4
New or specialized courses not normally covered in regular course offerings. Special fee on some sections.
Repeat Rule: May be repeated for a maximum of 8 credits.

Languages, Literatures & Cultures (LLC)

# Course numbers with the # symbol included (e.g. #400) have not been taught in the last 3 years.

LLC #444C - World of Salvador Dali
Credits: 4
Students investigate essential components of modern culture and Western tradition through the mind, art and writing of Salvador Dali. This interdisciplinary course poses fundamental, universal questions about human existence including death, rebirth, eternity and God, sexuality and love as well as the irrational dark side of our psyche. Certain cultural movements such as the Surrealist movement, Freudian psychoanalysis, the Gothic tradition and modern scientific discoveries and concepts are also explored.
Attributes: Humanities(Disc); Inquiry (Discovery); Writing Intensive Course

LLC 535 - Professional Culture in the European Union - Case Study/ Germany
Credits: 4
Conducted in English. No previous German required. Conducting business with countries of the European Union, with a particular emphasis on Germany. The course focuses on the central role played by professional culture and business practices in the global marketplace.
Attributes: World Cultures(Discovery)

LLC 535A - Professional Culture in European Union - Case Study: Germany
Credits: 4
No previous German required. Conducting business with countries of the European Union, with a particular emphasis on Germany. The course focuses on the central role played by professional culture and business practices in the global marketplace. Special fee.
Attributes: World Cultures(Discovery)

LLC 535B - Professional Culture in Latin America - Case Study: Mexico and Brazil
Credits: 4
Conducted in English. No previous Spanish or Portuguese required. Conducting business with countries in Latin America with a particular emphasis on Mexico and Brazil. The course focuses on the central role played by professional culture and business practices in the global marketplace. Special fee.
Attributes: World Cultures(Discovery)
Equivalent(s): SPAN 535B

LLC 535C - Professional Culture in Asia -- Case Study: China and Japan
Credits: 4
Conducted in English. No previous Chinese or Japanese required. Conducting business with countries in Asia, with a particular emphasis on China and Japan. The course focuses on the central role played by professional culture and business practices in the global marketplace.
Attributes: World Cultures(Discovery)

LLC 540 - Film History
Credits: 4
Examines the historical development of film from a global perspective and the emergence of national cinemas as well as the cross-cultural influences that have produced the modern transnational film industry.
Attributes: Historical Perspectives(Disc)

LLC 551 - Comparative Literature: Masterpieces of World Literature I
Credits: 4
Comparative studies of major authors representative of important periods of literary achievement. Common themes and development of epic and lyric traditions in early Western and non-Western literatures. Introduction to various concepts of literature and genre. Topics and approaches may vary from semester to semester.
Attributes: Humanities(Disc); Writing Intensive Course

LLC 552 - Comparative Literature: Masterpieces of World Literature II
Credits: 4
Comparative studies of major authors representative of important periods of literary achievement. Renaissance to modern. Studies the age of empires through the colonial and post colonial periods. Introduction to various concepts of literature and genre. Topics and approaches may vary from semester to semester.
Attributes: Humanities(Disc); Writing Intensive Course

LLC 555 - Discover Cuba: An Arts Experience
Credits: 4
This discovery course is designed to provide students with first-hand experience of the art, history, culture, music and visual arts of Cuba. The course combines an online academic class with on-site experiential learning though a fourteen day trip to Cuba. The course takes a highly contextual approach, locating the artwork in its historical, social, economic and cultural context for students to analyze and understand the complexities of modern Cuba. Special fee.
Attributes: FinePerformingArts(Discovery)

LLC 595 - Language Practicum
Credits: 2-4
Practical use of language skills outside the classroom through special projects. Prereq: LLC 504 or its equivalent. Cr/F.
Repeat Rule: May be repeated for a maximum of 4 credits.

LLC 642 - Theory and Practice of Translation
Credits: 4
This course is designed both as an introduction to various theories and philosophies of translation and as an intensive workshop on different types of translation (literary, technical, professional, business, and health related, etc.). Translation is both a simple matter of transferring content and an intensely complex process of adapting linguistic, tonal, and cultural components of communication. The course works extensively on the craft of translation while developing detailed analyses of the theoretical and philosophical implications of choices made. Students complete various translation exercises and develop a significant final project. It is open to students at different levels of language ability but requires at least an intermediate competency. Students work at their own level. Taught in English. Prereq: Intermediate language or permission.
Latin (LATN)

# Course numbers with the # symbol included (e.g. #400) have not been taught in the last 3 years.

LATN 400 - Grammar for Students of Latin
Credits: 1
A one-semester review of grammar provides a background in concepts for those students who have never studied Latin or who need review. Weekly meetings introduce topics; readings and assignments reinforce them. Enrollment is limited to students enrolled in LATN 401, LATN 402, or LATN 403. Course does not count toward major or minor requirements. May be repeated for up to 2 credits. Coreq: LATN 401 or LATN 402 or LATN 403. Cr/F.

Repeat Rule: May be repeated for a maximum of 2 credits.
Equivalent(s): CLAS 400

LATN 401 - Elementary Latin I
Credits: 4
Elements of grammar, reading of simple prose. (No credit for students who have had two or more years of Latin in secondary school; however, any such students whose studies of Latin have been interrupted for a significant period of time should consult the section supervisor about possibly receiving credit).

LATN 402 - Elementary Latin II
Credits: 4
Elements of grammar, reading of simple prose. (No credit for students who have had two or more years of Latin in secondary school; however, any such students whose studies of Latin have been interrupted for a significant period of time should consult the section supervisor about possibly receiving credit).

Attributes: Foreign Language Requirement
Equivalent(s): ARBC 402

LATN 403 - Review of Latin
Credits: 4
Intensive review of Latin grammar and vocabulary. Preparation for LATN 503. Designed primarily for those whose study of Latin has been interrupted for a year or more and for those who have had only two years of high school Latin.
Equivalent(s): LATN 501

LATN 503 - Intermediate Latin I
Credits: 4
Review. Readings from Cicero, Caesar, Sallust, Livy, Catullus, Horace, Ovid, Plautus, Terence, and Seneca. Prereq: LATN 402 or equivalent.
Attributes: World Cultures(Discovery)

LATN 504 - Intermediate Latin II
Credits: 4
Review. Readings from Cicero, Caesar, Sallust, Livy, Catullus, Horace, Ovid, Plautus, Terence, and Seneca. Prereq: LATN 402 or equivalent.
Attributes: World Cultures(Discovery)

LATN 595 - Directed Reading
Credits: 2 or 4
Independent study of a classical or medieval Latin author. Prereq: LATN 503, LATN 504, or equivalent. Cr/F.
Repeat Rule: May be repeated for a maximum of 8 credits.

LATN 596 - Directed Reading
Credits: 2 or 4
Independent study of a classical or medieval Latin author. Prereq: LATN 503, LATN 504, or equivalent. Cr/F.
Repeat Rule: May be repeated for a maximum of 8 credits.

LATN 605 - Readings in Latin Literature
Credits: 4
Reading and analysis of major works of Latin literature. Focus on improving translation skills and comprehension of Latin grammar and Latin language. Introduction to the critical analysis of Latin literature in the context of Roman civilization and culture. Prereq: Latin 504 or equivalent with a grade of C or better. Satisfies foreign language requirement.
Attributes: Foreign Language Requirement

LATN 606 - Readings in Latin Literature
Credits: 4
Reading and analysis of major works of Latin literature. Focus on improving translation skills and comprehension of Latin grammar and Latin language. Introduction to the critical analysis of Latin literature in the context of Roman civilization and culture. Prereq: Latin 504 or equivalent with a grade of C or better. Satisfies foreign language requirement.

LATN 631 - Latin Prose Composition
Credits: 4
Grammar review; study of Latin prose style; English to Latin translation. Prereq: permission.

LATN 753 - Advanced Studies in the Literature of the Golden Age
Credits: 4
A) Lucretius; B) Catullus; C) Caesar; D) Sallust; E) Vergil; F) Horace; G) Tibullus; H) Propertius; I) Ovid; J) Livy. Major Roman authors from the dictatorship of Sulla to the death of Augustus. Prereq: permission. Each special topic may be repeated two times for up to eight credits.
Attributes: Writing Intensive Course
Repeat Rule: May be repeated for a maximum of 8 credits. May be repeated up to 1 time.

LATN 754 - Advanced Studies in the Literature of the Golden Age
Credits: 4
A) Lucretius; B) Catullus; C) Caesar; D) Sallust; E) Vergil; F) Horace; G) Tibullus; H) Propertius; I) Ovid; J) Livy. Major Roman authors from the dictatorship of Sulla to the death of Augustus. Prereq: permission. Each special topic may be repeated two times.
Attributes: Writing Intensive Course
Repeat Rule: May be repeated for a maximum of 8 credits.
LATN 755 - Advanced Studies in the Literature of the Silver Age
Credits: 4
A) Seneca the Younger; B) Persius; C) Petronius; D) Lucan; E) Statius; F) Quintilian; G) Martial; H) Juvenal; I) Tacitus; J) Pliny the Younger. Major Roman authors from the reign of Nero to the death of Trajan. Prereq: permission. Each special topic may be repeated two times.
Attributes: Writing Intensive Course
Repeat Rule: May be repeated for a maximum of 8 credits.

LATN 756 - Advanced Studies in the Literature of the Silver Age
Credits: 4
A) Seneca the Younger; B) Persius; C) Petronius; D) Lucan; E) Statius; F) Quintilian; G) Martial; H) Juvenal; I) Tacitus; J) Pliny the Younger. Major Roman authors from the reign of Nero to the death of Trajan. Prereq: permission. Each special topic may be repeated two times.
Attributes: Writing Intensive Course
Repeat Rule: May be repeated for a maximum of 8 credits.

LATN 795 - Special Studies
Credits: 4
A) Minor Authors of the Republic; B) Plautus; C) Terence; D) Minor Authors of the Empire; E) Suetonius; F) Latin Church Fathers; G) Medieval Latin; H) Advanced Latin Composition; I) Introduction to Classical Scholarship; J) Latin Epigraphy; K) Italic Dialects; L) Comparative Grammar of Greek and Latin; M) Roman Law. Topics selected by instructor and student in conference. Prereq: permission. Each special topic may be repeated two times.
Attributes: Writing Intensive Course
Repeat Rule: May be repeated for a maximum of 8 credits.

LATN 796 - Special Studies
Credits: 4
A) Minor Authors of the Republic; B) Plautus; C) Terence; D) Minor Authors of the Empire; E) Suetonius; F) Latin Church Fathers; G) Medieval Latin; H) Advanced Latin Composition; I) Introduction to Classical Scholarship; J) Latin Epigraphy; K) Italic Dialects; L) Comparative Grammar of Greek and Latin; M) Roman Law. Topics selected by instructor and student in conference. Prereq: permission. Each special topic may be repeated two times.
Attributes: Writing Intensive Course
Repeat Rule: May be repeated for a maximum of 8 credits.

Life Sciences & Agriculture (LSA)

# Course numbers with the # symbol included (e.g. #400) have not been taught in the last 3 years.

LSA 400 - Freshmen Seminar
Credits: 1
Assistance to the undeclared student in identifying a major within the College of Life Sciences and Agriculture, including the biological, natural, and social sciences. The goal of this seminar is to support students in developing a sound academic program and assist them in making a successful transition from high school to college. The seminar also covers strategies for being a successful college student. Guest speakers from departments and programs lead discussions on career opportunities. Required for all first-semester LSA undeclared students. Cr/F.

LSA 401 - Scientific Research Exploration
Credits: 2
This course introduces incoming freshmen to the scientific research process via a hands-on approach, which includes case studies, group work, and a two-week research immersion experience under the guidance of the College of Life Sciences and Agriculture (COLSA) faculty. Course readings, discussions, and active participation in local research will facilitate the student's exploration of experimental design, hypothesis testing, data collection and analysis, interpretation of results, and effective communication of research findings. In the context of a group research project, students begin thinking like scientists, as well as strengthening their math, writing, an oral communication skills. Prereq: permission. Open to incoming freshmen only.

LSA 500 - College of Life Sciences and Agriculture Career Development
Credits: 1
Deciding on a career path? This course will provide an opportunity for students to explore career trajectories, learn about a variety of industries in the labor market, understand the importance of and plan for experiential learning opportunities, and develop a career action strategy and marketing plan in preparation for post-graduation plans.

LSA 699 - Special Topics
Credits: 1-2
Seminar on new or specialized topics that involve two or more disciplines in the College of Life Sciences and Agriculture and are not covered in regular course offerings.
Repeat Rule: May be repeated for a maximum of 4 credits.

LSA 700 - COLSA Capstone Experience
Credits: 0
Course for COLSA majors completing their capstone requirement with a non-course experience. Must receive advisor's permission and sign up in department office. Cr/F.
Equivalent(s): LSA 798

LSA 798 - Who's on First? Interprofessional Colloquium
Credits: 2
Students engage with other professions on teams working through health care situations across the continuum. Students collaborate with faculty mentors to learn effective strategies in team-based care and develop competencies in ethics, responsibility, communication and teamwork. (Also listed as HHS 798.) Cr/F.
Equivalent(s): HHS 798

Linguistics (LING)

# Course numbers with the # symbol included (e.g. #400) have not been taught in the last 3 years.

LING 405 - Introduction to Linguistics
Credits: 4
Overview of the study of language: universal properties of human language, Chomsky's innateness hypothesis, language acquisition in children, dialects and language variation, language change. Includes an introduction to modern grammar (phonology, syntax, and semantics) and to scientific linguistic methodology. (Also offered as ENGL 405.)
Attributes: Social Science (Discovery); Inquiry (Discovery)
Equivalent(s): ENGL 505, ENGL 505H, LING 405H, LING 505, LING 505H
LING 405H - Honors/Introduction to Linguistics
Credits: 4
Overview of the study of language: universal properties of human language, Chomsky's innateness hypothesis, language acquisition in children, dialects and language variation, language change. Includes an introduction to modern grammar (phonology, syntax, and semantics) and to scientific linguistic methodology. (Also offered as ENGL 405.)
Attributes: Social Science (Discovery); Inquiry (Discovery)
Equivalent(s): ENGL 505, ENGL 505H, LING 405, LING 505, LING 505H

LING 605 - Intermediate Linguistic Analysis
Credits: 4
Analysis and problem solving in phonology, morphology, and syntax using data from many languages. Emphasis is both practical (learning how to describe grammar and sound system of a language) and theoretical (understanding languages' behavior). Prereq: LING/ENGL 405, or permission. (Also offered as ENGL 605.)
Equivalent(s): ENGL 605

LING 606 - Languages of the World
Credits: 4
A survey of the languages of the world from genetic, areal, and typological perspectives. Students learn about the geographic and demographic distribution of language families and language isolates, as well as about structural characteristics of languages, language families and language areas. Additional topics include language endangerment and the question of linguistic universals. Students work collaboratively on a project investigating a particular language family, giving in class presentations and writing up a final project report. Some prior knowledge of phonetics, phonology, morphology, and syntax is necessary. Prereq: ENGL 605/LING 605 or ENGL 405/LING 405 and permission of the instructor.
Equivalent(s): ENGL 606

LING 620 - Applied Experience in Linguistics
Credits: 1-4
Students who have an opportunity for appropriate career-oriented work experience may arrange with a faculty sponsor to add an academic component. The work must be related to the linguistics major, and nonacademic employers must normally be an established organization approved by Career Services. Research and writing required in addition to the job experience. Registration requires permission of employer, faculty sponsor, and major adviser. May be repeated with permission. Up to 4 credits may count toward the linguistics major requirements, with permission of the program coordinator. Prereq: LING 505; permission. Cr/ F.
Repeat Rule: May be repeated for a maximum of 8 credits.

LING 695 - Senior Honors
Credits: 4
Open to senior LING majors who, in the opinion of the department, have demonstrated the capacity to do superior work. Prereq: permission.

LING 717 - Languages in Contact
Credits: 4
This course will explore topics related to languages in contact, including borrowing, code-switching, second language acquisition, bilingual mixed languages, language shift and maintenance, pidgins and creoles, and the linguistic and social factors which play a role in language contact. Prereq: ENGL 405 or LING 405.
Attributes: Writing Intensive Course
Equivalent(s): ENGL 717

LING 718 - Morphology
Credits: 4
Morphology is the study of word formation and the mental lexicon. This course explores processes of derivation, compounding and inflection that allow us to form new words. Students will become proficient in analyzing word formation processes in English and other languages, including deploying terminology used by morphologists. Students will learn and practice the conventions of "writing like a linguist". Prereq: ENGL 405 or LING 405.
Attributes: Writing Intensive Course
Equivalent(s): ENGL 718

LING 719 - Sociolinguistics Survey
Credits: 4
How language varies according to the characteristics of its speakers: age, sex, ethnicity, attitude, time, and class. Quantitative analysis methods; relationships to theoretical linguistics. Focus is on English, but some other languages are examined. Prereq: ENGL or LING 405 (previously numbered 505) or permission. (Also offered as ENGL 719.)
Equivalent(s): ENGL 719

LING 779 - Linguistic Field Methods
Credits: 4
Study of a non-Indo-European language by eliciting examples from an informant, rather than written descriptions of the language. Students learn how to work out the grammar of a language from raw data. Prereq: ENGL 405/LING 405. (Also offered as ENGL 779.) (Not offered every semester).
Attributes: Writing Intensive Course

LING 790 - Special Topics in Linguistics Theory
Credits: 4
Advanced course on a topic chosen by the instructor. Inquire at the English department office for a full course description each time the course is offered. Topics such as word formation, dialectology, linguistic theory, and language acquisition, history of linguistics, language and culture, cross-disciplinary studies relating to linguistics. Barring duplication of subject, may be repeated for credit. (Also offered as ENGL 790.) Writing intensive.
Attributes: Writing Intensive Course
Equivalent(s): ENGL 790

LING 793 - Phonetics and Phonology
Credits: 4
Sound system of English and of other languages viewed from the standpoint of modern linguistic theory, including the following topics: the acoustic and articulatory properties of speech sounds, the phonemic repertoires of particular languages, phonological derivations, and prosodic phenomena such as stress and intonation. Prereq: a basic linguistics course or permission. (Also offered as ENGL 793.)
Equivalent(s): ENGL 793

LING 794 - Syntax
Credits: 4
Relationship of grammar and meaning viewed from the standpoint of modern linguistic theory. Emphasis on the syntax and semantics of English, with special attention to the construction of arguments for or against particular analyses. Prereq: a basic linguistics course or permission of the instructor. (Also offered as ENGL 794.) Writing intensive.
Attributes: Writing Intensive Course
Equivalent(s): ENGL 794
LING 795 - Independent Study
Credits: 1-4
A) Synchronic Linguistics, B) Diachronic Linguistics, C) Linguistic Theory. For students showing a special aptitude for linguistics who desire to pursue a line of inquiry for which no appropriate course is offered. All requests must be forwarded by the faculty sponsor to the director of the Inter-departmental Linguistics Committee.

LING 796 - Independent Study
Credits: 1-4
A) Synchronic Linguistics, B) Diachronic Linguistics, C) Linguistic Theory. For students showing a special aptitude for linguistics who desire to pursue a line of inquiry for which no appropriate course is offered. All requests must be forwarded by the faculty sponsor to the director of the Inter-departmental Linguistics Committee.

Management (MGT)

Course numbers with the # symbol included (e.g. #400) have not been taught in the last 3 years.

MGT 444 - Meaning of Entrepreneurship
Credits: 4
This course explores the idea and ideals of entrepreneurship, the creating of value through individual initiative, creativity, and innovation. The idea of entrepreneurship is of significant relevance in the highly dynamic and competitive 21st century global economy. It is an idea that is important for students to understand and to critically consider and apply. The course encourages the development of multiple views of entrepreneurship, and uses a broad, not just business, approach to the study as it engages students in the subject matter. Open to freshmen from all majors. (Also offered as DS 444 in alternating terms). Writing intensive.

Attributes: Environment, TechSociety(Disc); Inquiry (Discovery); Writing Intensive Course
Equivalent(s): DS 444

MGT 580 - Introduction to Organizational Behavior
Credits: 4
Application of behavioral science concepts to work settings in profit and nonprofit organizations. Individual settings behavior, interpersonal relations, work groups, relations among groups studied in the context of organizational goals and structure. Experiential focus. For non-business administration majors and minors. No credit for students who have had ADMN 575.

Equivalent(s): ADMN 575, BUS 620

MGT 585 - Leadership in the 21st Century
Credits: 4
This course provides students with the opportunity to explore leadership through multiple modes of inquiry and learning experiences. The emphasis is on students' development of their own philosophies of leadership through self-reflection, peer-to-peer dialogue, and experiential learning opportunities. This multi-modal learning experience better prepares students to take on 21st century leadership challenges. No credit for Business Admin Majors.

MGT 598 - Topics
Credits: 4
Special topics; may be repeated.
Repeat Rule: May be repeated for a maximum of 12 credits.

MGT 614 - Organizational Leadership and Structure
Credits: 4
How structural characteristics in an organization (e.g., the design of roles, reporting relationships, coordinating mechanisms, communication systems, and processes, etc.) affect whether leader actions and choices enable or prevent high performance. An open systems framework is used to assess how reactions to change occurring inside and outside an organization determine whether individuals, groups, and organizations position themselves to adapt, grow and develop, or decline. Examination of individual roles in organizations. Prereq: ADMN 575.

Equivalent(s): ADMN 614

MGT 647 - Business Law I
Credits: 4
Law of contracts, agency, sales, negotiable instruments, real and personal property, partnership and corporations, with application of the Uniform Commercial Code. Prereq: Junior standing, ECON 401, ECON 402, and ADMN 420.

Equivalent(s): ADMN 647

MGT 701 - Business, Government, and Society
Credits: 4
Managerial problem solving and decision making relative to economic, ethical, legal, political, social, and technological aspects of an organization's environment. Case discussion, stakeholder analysis, managerial values and ethics, and social issues management are important course components. Open to PAUL majors only. Prereq: ADMN 575; at least two of ADMN 570 or ADMN 580 and ADMN 585.

Equivalent(s): ADMN 701

MGT 713 - Leadership Assessment and Development
Credits: 4
Activities and exercises to help students determine their ideal job upon graduation as well as their career goals for the next three to five years. Students learn a matrix of key leadership behaviors and skills that distinguish high-performing managers and executives. Each student's behavior is assessed using this model so that students can determine the leadership behaviors and skills they most need to develop to meet their early career goals. Faculty assist students in developing a personal leadership development plan to focus professional energy, efforts, and achievements over the next three to five years. Prereq: ADMN 575.

MGT 732 - Exploration in Entrepreneurial Management
Credits: 4
Examines the management of change and innovation, especially the role of entrepreneur in managing new ventures. Uses case analysis, guest speakers, and business plan preparation to study the characteristic behavioral, organizational, financial, and marketing problems of entrepreneurs and new enterprises. Prereq: ADMN 570, ADMN 575, and ADMN 585. Writing intensive.

Attributes: Writing Intensive Course
Equivalent(s): ADMN 732

MGT 742 - Internship in Entrepreneurial and Management Practice
Credits: 4
Involves working for leading companies and dynamic entrepreneurs, as well as classroom instruction. The priority experiential, real-world, and real-time learning in the high growth environment of entrepreneurial ventures. Focuses on several topic areas, including venture capital. Prereq: senior standing; permission. (Also listed as DS 742.)

Equivalent(s): DS 742
MGT 755 - International Management  
Credits: 4  
Develops an understanding of international ventures and partnerships from the viewpoint of management, leadership, human resource management, and organizational structure and strategy. Emphasizes the impact of culture on business practices and on interpersonal skills and global perspectives needed for personal effectiveness in international and multicultural environments. Prereq: ADMN 575. Writing intensive.  
Attributes: Writing Intensive Course  
MGT 798 - Topics  
Credits: 4  
Special topics; may be repeated.  
MGT 798W - Topics  
Credits: 4  
Special topics; may be repeated. Prereq: permission. Writing intensive.  
Attributes: Writing Intensive Course  
Equivalent(s): MGT 798A  

Marine, Estuarine and Freshwater Biology (MEFB)  

# Course numbers with the # symbol included (e.g. #400) have not been taught in the last 3 years.  

MEFB 400 - Marine Estuarine and Freshwater Biology: Freshmen Seminar  
Credits: 1  
The purpose of this course is threefold: First to acquaint freshmen MEFB majors to the wide range of topics that are included in the broad area of marine, estuarine and freshwater biology. Second, to introduce new UNH students to many of the MEFB faculty at UNH and give them the opportunity to become aware of the types of research that is being conducted at UNH. Finally, to begin teaching freshmen how to read the primary literature, write concise summaries of papers they read, give oral presentations to their peers, and understand how scientific knowledge is acquired and disseminated. Students attend a series of seminars presented by a wide range of MEFB faculty. The topics presented vary from year to year depending on the faculty that agree to participate. In addition students are required to read the current literature, write short papers and give presentations to the class. Cr/F.  

MEFB 403 - Investigative Marine Biology Laboratory  
Credits: 2-4  
This course in an intensive marine-based introduction to the scientific method and experimental biology taught a Shoals Marine Laboratory. The course takes advantage of the unique learning opportunities afforded by the pristine marine environment (especially the intertidal) around Appledore Island. The overall course philosophy is to allow students to learn the scientific method by doing it themselves under the guidance of veteran marine biologists. The course is structured around two class projects that are designed to expose students to concepts and techniques in marine ecophysiology and biomechanics. Permission required. Special fee.  

MEFB 410 - Marine Immersion  
Credits: 2  
An intensive 2-credit course for incoming freshmen, surveying a range of marine-related fields (with an emphasis on biology and ecology), research approaches, and organisms. The course is based at the Shoals Marine Laboratory on Appledore Island, where students, and some faculty, will be in residence. "Marine Immersion" introduces students to the breadth, excitement, and challenges of marine sciences through lectures, demonstrations, and field experiences offered by a cohort of UNH faculty, and through short research projects carried out on the island. It also introduces them to resources and opportunities available at UNH, provides an opportunity to get to know some of their professors, and lets them begin building a network among their peers even before they arrive in Durham. Special fee.  
Equivalent(s): ZOOL 410  

MEFB 500 - Coastal Habitat Field Research Methods  
Credits: 4  
This two-week intensive field based course is intended for students who wish to explore and gain proficiency in various research and assessment methods of terrestrial and aquatic plant communities of the Isles of Shoals and nearby coastal habitats of the Seacoast and Great Bay Estuary. Topics covered will include quantitative surveys methods, GIS based an aerial (UAV) mapping of plant communities, taxonomy and systematics of major vascular taxa, island biogeography, rare species ecology and conservation, and the management of invasive species. Through both field and classroom exercises, we will use a variety of sampling protocols to document the existing plant communities, contribute to ongoing plant community studies, investigate the floristic changes that the Isles of Shoals have experienced from past to present, and use these data to predict trends into the future to help preserve their unique flora. Student will use skills developed in class to design and implement brief field research project in a related topic of their choice. Prereq: BIOL 411 or BIOL 412. Permission required. Special fee.  

MEFB 503 - Introduction to Marine Biology  
Credits: 4  
Emphasizes the organization of marine biological communities. Various marine environments pelagic, benthic, temperate, tropical, and their characteristic communities. Major emphasis on the approaches (e.g., analysis of energy flow and predator-prey interactions) used to analyze marine communities as well as the sampling techniques employed for each approach and the characteristic habitat type. Prereq: BIOL 411 and BIOL 412. Special fee.  
Equivalent(s): BOT 503, PBIO 503, ZOOL 503  

MEFB 504 - Field Wildlife Forensics  
Credits: 2  
Introduction to forensic science and the utilization of marine biology within the justice system. Comprehensive instruction concerning the recognition, documentation, collection, and preservation of physical evidence. Students develop practical incident response, scene management, and forensic teamwork skills. Prereq: BIOL 411 or BIOL 412. Special fee. Permission required.
MEFB 505 - Introduction to Applied Science Communication
Credits: 4
In this course students develop the capacity to solve increasingly challenging problems with greater independence. Students fill their science communication "tool box," learning how to engage a non-scientist audience. They will be introduced to video production, podcasts, Wikipedia editing, public science events, social media platforms, blogging and press release writing. After gaining basic skills with these communication platforms and tools, students will apply their skills to a topic of their own research interest on the island. Students will actively participate in a local public science event (Rock talks) and learn how to start a science cafe on their own. Students will receive feedback from their peers and their instructors, and by the end of this course they will become more effective science communicators. Skills gained in this course in this unique environment can be applied to any research field and are essential for every scientist. Prereq: BIOL 411, BIOL 412. Special Fee.

MEFB 506 - Marine Parasitology and Disease
Credits: 2
This course will focus on one of the most diverse and fascinating groups of marine organisms: parasites. The course will explore marine parasites and pathogens at multiple levels, including: (1) the evolutionary perspective with an emphasis on coevolutionary relationships; (2) parasitic diseases and life cycles (from simple to complex); (3) taxonomic and phylogenetic understanding of parasite and host groups (with a focus on metazoan parasites and hosts); (4) ecological implications of parasitism in marine systems at the population, community, and ecosystem levels; and (5) the effects of human induced global change on parasitism in marine communities. Prereq: Biol 411, BIOL 412. Special Fee.

MEFB 507 - Examining Marine Climate Changes on Appledore Island, ME
Credits: 4
Marine climatic changes will severely impact ocean-based ecosystems, coastlines, and human communities. Hands-on inquiry research in this course at the Shoals Marine Laboratory located on Appledore Island, ME will involve students in examining alterations to the marine environment due to global climatic changes. Students will use the Columbia University-National Aeronautics and Space Administration (NASA) Goddard Institute for Space Studies (GISS) Educational Global Climate Model (EdGCM) and smartphone applications to envision future shorelines. Guest lectures and fieldwork will be led by marine and climate scientists from University of New Hampshire and the Woods Hole Oceanographic Institution and involve examination of changes to the littoral zone, Gulf of Maine, and the world’s oceans more broadly. Topics covered in this one-week field course include: Examining the evidence that the Earth’s climate is changing, the greenhouse effect and natural forcings on global climate, climate change and sea-level rise, sea-levels and coasts of the geologic past, alterations to ocean chemistry and temperature, marine ecological impacts, human coastal impacts, and possible policy solutions. This course is targeted toward early and mid-career students with backgrounds in Earth and environmental science, marine science, or environmental policy. Prereq: BIOL 411, BIOL 412. Special Fee.

MEFB 508 - Integrated Ecosystem Research and Management
Credits: 4
The Gulf of Maine is experiencing rapid ecological change as a result of multiple stressors. Students will explore current issues and engage in solutions integrating science into conservation & management goals. They will use integrated ecosystem research tools through field and laboratory exercises and then apply them in the Isles of Shoals and the Gulf of Maine. Each student will conduct independent research on a topic of choice to make recommendations to an outside panel of experts. Prereq: BIOL 412, BIOL 541. Special Fee.

MEFB 510 - Field Ornithology
Credits: 4
Introduces field ornithology focusing on the biology, ecology, and behavior of avifauna on the Isles of Shoals. Includes such ornithological field methods as censuring techniques, territory mapping, banding, behavioral observation, and creating a field notebook. Fieldwork is designed to supplement many classroom concepts, including territoriality, breeding biology, and survivorship. Prereq: one year of college-level biology. Lab. (Summers only at Shoals Marine Lab.) Special fee. Permission required.
Equivalent(s): ZOOL 510

MEFB 515 - Marine Environmental Science and Conservation
Credits: 4
Focuses on the major principles of conservation biology and methods to bring human communities into a better relationship with natural resources: Coastal ecosystem processes; coastal biodiversity; threats to coastal ecosystems; species conservation; conserving ecosystem function and services. Projects: construct management goals/actions for local land owners. Prereq: BIOL 411 or BIOL 412. Special fee. Permission required.

MEFB 530 - Evolution and Marine Diversity
Credits: 4
Patterns of diversity and processes of evolution. Topics include the diversity of life, the fossil record, macro-evolutionary patterns, the genetics and developmental basis of evolutionary change, processes at the population level, evolution by natural selection, modes of speciation, long-term trends in evolution, and human evolution. Prereq: BIOL 411 or BIOL 412. Special fee. Permission required.

MEFB 535 - Marine Mammal Biology
Credits: 4
This course explores the biology and conservation of the whales and seals, with a particular focus on species of the Gulf of Maine. Lectures examine many facets of marine mammal science including: taxonomy and species diversity, morphological and physiological adaptations for life in the sea, foraging ecology and behavior, reproductive cycles, bio-acoustics, anthropogenic interactions, and management of threatened species. Land and open water observations of whale and seal behavior give students hands on opportunities to study marine mammals in the field. Prereq: BIOL 411 or BIOL 412. Special fee. Permission required.

MEFB 540 - Introductory Field Oceanography
Credits: 2 or 4
Over 70% of the earth's surface is covered by oceans. Students in this course will gain familiarity with the basic concepts and field techniques (and equipment) used by biological oceanographers as we explore the Gulf of Maine waters using the Isles of Shoals as our base. Minimal lecture time, maximum boat time is the theme of this field immersion course. Special fee. Prereq: BIOL 411 or BIOL 412. Permission required.
MEFB #609 - Biology of the Lobster
Credits: 3
An introduction to the biology of the American lobster, Homarus americanus. The course includes an overview of this ecologically and economically important species, and covers several major topics in depth, each taught by a lobster biologist expert in that field. Topics may include life history, larval development and metamorphosis, anatomy, physiological adaptation, fisheries and fishing methods, feeding mechanisms, ecology, and behavior. Lecture, laboratory, discussion, and field work. Special fee. (Summers only at Shoals Marine Lab.) Prereq: one year college level biology.
Equivalent(s): ZOOL 609

MEFB #615 - Field and Experiment Oceanography
Credits: 3
Intended for mid-upper division undergrads, this course provides a foundation in oceanography (the four oceanographic disciplines: geological, chemical, physical, and biological) applied in experimental and field settings. Includes two oceanographic trips in the Gulf of Maine. Student groups develop a small oceanographic project while on Appledore Island, carry it out, and present their study to the Shoals academic community. The course integrates investigative, practical, and theoretical aspects of oceanography. Prereq: one term college biology or permission. Special fee.

MEFB 625 - Introduction to Marine Botany
Credits: 4
Life history, classification, and ecology of micro- and macroscopic marine plants, including phytoplankton, seaweed, and salt marsh plants, and the interactions between humans and marine plant communities. Occasional Saturday morning field trips. Prereq: BIOL 412 or BIOL 409 or permission. Special fee. Lab.
Equivalent(s): BOT 625, PBIO 625

MEFB 630 - Biodiversity and Biology of Marine Invertebrates
Credits: 4
An introduction to the biology and evolution of the major invertebrate phyla, concentrating on marine representatives. Emphasis placed on the evolution of form and function, and the ecology, behavior, physiology, chemical ecology, and natural history of invertebrates. Appledore Island's unique location provides an excellent venue for the study of freshly collected and in situ representatives of most of the major phyla. Special fee. (Summers only at Shoals Marine Lab.) Prereq: one year college level biology. Permission required. Special Fee.
Equivalent(s): ZOOL 628, ZOOL 630

MEFB 631 - Ecotoxicology and Quantitative Reasoning
Credits: 4
An introduction to the field of ecotoxicology through hands-on laboratory research on the impact of biotoxins on wildlife, humans and ecosystems. Focus of the course is on development of the students ability to design and carry out actual research projects using modern technique in this field. Concepts and application of quantitative thinking and biostatistics are integrated throughout the course. Results are communicated through oral and written reports, publications and posters. Pre- or Co-reqs: BIOL 411, BIOL 412, CHEM 403, CHEM 404.

MEFB 674 - Ecology and Marine Environment
Credits: 4
Introduces the marine sciences with an emphasis on field work in natural habitats. Examines aspects of the systematics, morphology, physiology, behavior, and ecology of marine organisms, including intertidal plants and invertebrates, fishes, marine mammals and birds; fisheries biology; oceanography, marine geology; and human impacts on the marine environment. Sessions include lectures, discussions, field work, experience aboard a coastal research vessel, and excursions to distinctive habitats. Offered in cooperation with Cornell University. Students may not take Field Marine Science after taking Field Marine Biology and Ecology. Prereq: one full year of college-level biology/or permission. (Summers only at Shoals Marine Lab.) Permission required. Special Fee.
Equivalent(s): ZOOL 674, ZOOL 675

MEFB 702 - Sustainable Marine Fisheries
Credits: 4
An intensive course for undergraduate students that introduces students to the complex challenges facing today's fishing industry, which is being asked to simultaneously sustain the livelihood of fishermen while meeting long-term conservation goals. The course is held both at the UNH Campus and at the Shoals Marine Laboratory. New England fisheries are used as a case-study for this course through global fishing management, trends, and issues are also discussed. Special fee. Permission required.

MEFB 714 - Field Animal Behavior
Credits: 4
An animal's behavioral patterns represent its abilities to deal with the environment dynamically. Course focuses on ecological and evolutionary significance of behavioral patterns found in all organisms, particularly those animals that inhabit coastal marine environments. Strong emphasis on methods of behavioral research and interpretation of behavioral patterns using field observations of diverse fauna of Appledore Island and surrounding waters. Prereq: one year college biology or permission. Special fee. (Summers only at Shoals Marine Lab.) Permission required.
Equivalent(s): ZOOL 714

MEFB 717 - Lake Ecology
Credits: 4
Introduces the ecology of freshwater systems with emphasis on lakes. Origins of lakes and the effects of watersheds on lake chemistry and nutrient cycling are explored. Other topics include the impact of human disturbances on productivity and aquatic food webs and methods used for the management and restoration of lakes. Comparisons are made of the structure and functions of lake ecosystems found in temperate, tropical and arctic regions. Prereq: general biology.
Equivalent(s): BOT 717, PBIO 717, ZOOL 717
MEFB 719 - Field Studies in Lake Ecology
Credits: 4
Ecology of lakes and other freshwater habitats examined through field studies. Emphasizes modern methods for studying lakes; analysis and interpretation of data; and writing of scientific papers. Seminars on research papers and student presentations of class studies. Field trips to a variety of lakes, from the coastal plain to White Mountains; investigate problems, such as eutrophication, acidification, biodiversity and biotoxins. Capstone experiences include interaction with state agencies, lake stakeholders and the submission of written manuscripts for publication. Prereq: introductory biology. Special fee. Writing intensive.
Attributes: Writing Intensive Course
Equivalent(s): BOT 719, PBIO 719, ZOOL 719

MEFB 725 - Marine Ecology
Credits: 4
Marine environment and its biota, emphasizing intertidal and estuarine habitats. Includes field, laboratory exercises, and independent research project. Prereq: general ecology; permission. Marine invertebrate zoology, oceanography, and statistics are desirable. Special fee. (Offered alternate years.)
Equivalent(s): PBIO 725, ZOOL 725

MEFB 730 - Underwater Research
Credits: 4
Hypothesis testing and experimental design, theoretical and practical aspects of sampling, and critiques of current research papers. Includes special problems of conducting research underwater (diving physics and physiology, theory and use of diving tables, hyperbaric medicine) and underwater techniques (underwater photography and video, photo quadrates, tagging and marking, cages and enclosures). Students must supply their own equipment. Students with special research interests are encouraged to enroll in an additional third week of independent underwater research. Prereq: recognized scuba certification, a medical examination, one year of biology or other supporting science. (Summers only at Shoals Marine Lab.) Special fee. Permission required.
Equivalent(s): KIN 730, ZOOL 730

MEFB 732 - Lake Management
Credits: 4
Lectures and seminars on interpreting lake water quality, developing a natural history inventory for lakes, the process of creating a lake management plan, and resolution of conflicting uses of lakes. Students develop lake management plans in cooperation with governmental agencies and lake associations. Guest speakers from state agencies and non-governmental organizations. Introduces use of GIS (Geographic Information Systems) methods for the analysis of lakes and watersheds. Presents lake management issues from scientific and social science points of view. Open to students from all disciplines. (Also offered as ZOOL 732.) Special fee. Lab.
Equivalent(s): BOT 732, PBIO 732, ZOOL 732

MEFB #734 - Diversity of Fishes
Credits: 3
Emphasizes the diversity of fishes in two aspects: diversity of evolutionary solutions to problems faced by fishes and the great diversity of different types of fishes that inhabit the world. Prereq: one full year of college level biology; background in vertebrate biology is recommended, but not required. Special fee. (Summers only at Shoals Marine Lab.)
Equivalent(s): ZOOL 710, ZOOL 734

MEFB 741 - Sharks: Biology and Conservation
Credits: 4
The last 30 years have produced an explosion of new information on the biology of the approximately 1,000 living species of sharks, skates, rays, and chimaeras, which collectively make up the group Chondrichthyes. This course will cover advanced topics in the evolution, diversity, anatomy, functional morphology, physiology, sensory systems, behavior, reproduction, development, and conservation of cartilaginous fishes. Prereq: BIOL 411, BIOL 412; ZOOL 518 or ZOOL 625. Special Fee.

MEFB 747 - Aquatic Plants in Restoration/Management
Credits: 4
A field-intensive class focusing upon freshwater and marine vascular plants with an emphasis on species commonly associated with ecological restoration, the identification and conservation of rare species, and the adaptations and management of invasive species of aquatic habitats in New England. Field trips emphasize the flora of various wetland habitats, including open water and vegetated fresh water wetlands, as well as coastal and estuarine habitats. Lectures and readings examine the current trends in research and management focusing upon specific taxa and pertinent facets of their taxonomy, physiology, and natural history. Prereq: BIOL 566 or permission. Special fee.
Equivalent(s): BOT 747, PBIO 747

MEFB 750 - Marine Ecological Genomics
Credits: 4
This course combines fieldwork for sample collection with extensive training in marine genomics research approaches including next generation sequence analysis, phylogenomics, differential gene expression and population genomics. Prereq: BIOL 411 and BIOL 412. Special fee.

MEFB 751 - Research in Marine Biology
Credits: 4
Introduces the adaptations of organisms to marine environments and the role these adaptations have in structuring marine communities using an experimental approach. Emphasizes experimental design, implementation, data analysis, and scientific presentations. Prereq: one year of college-level biology or permission. Additional experience in biology, ecology or physiology is recommended. Prereq: BIOL 411, BIOL 412. Special fee. (Summers only at Marine Lab.)
Equivalent(s): ZOOL 751

MEFB 754 - Anatomy and Function of Marine Vertebrates
Credits: 4
The course is designed to introduce students to a comparative study of the principal organ systems of vertebrates (i.e., fishes, sea turtles, marine birds, marine mammals) that are specifically adapted to the marine environment. Rather than focusing only on description of anatomical structure, the anatomy of structures are investigated with function, biological role, and evolutionary relationships. Laboratory exercises cover osteology, dissection, behavior and biomechanics. Special fee. (Summers only at Shoals Marine Lab.) Prereq: one year college biology or permission. Permission required.
Equivalent(s): ZOOL 753, ZOOL 754
MEFB 795 - Investigations in Marine, Estuarine, Freshwater Biology
Credits: 1-4
This course provides a mentored independent research opportunity for highly motivated undergraduate students to explore data and/or research interests with a faculty member. Research goals must be articulated by the student and approved by faculty prior to enrollment. Through weekly meetings faculty and subsequent independent work/study, successful students will engage in related activities that may include one or more of the following: conduct intensive literature review, conduct hands-on lab or work approved by the faculty mentor. Students will be required to complete weekly progress reporting and a final written report, formal presentation (such as a poster or talk for a professional conference or UNH Undergraduate Research Conference), or a draft manuscript for publication.

Marketing (MKTG)

MKTG 550 - Survey of Marketing
Credits: 4
Focuses on marketing as the process of planning and executing the conception, pricing, promotion, and distribution of ideas, goods and services to create exchanges that satisfy individual and organizational objectives. For business administration minors and non-business administration majors. No credit for students who have had ADMN 585 or HMGT 600. Equivalent(s): ADMN 550, ADMN 651, MKTG 651

MKTG 557 - Promotion and Advertising
Credits: 4
Focuses on advertising and promotions while providing coverage of other marketing communication tools (direct marketing, point-of-purchase, personal selling, public relations). Examines both traditional and electronic/online/digital approaches to advertising and promotions as means to reach audiences with messages that support the organization's goals. Prereq: MKTG 550.

MKTG 559 - Foundations of Personal Selling
Credits: 4
The Foundations of Personal Selling combines heavy experiential learning with the academic principles of relationship selling to prepare students for the professional world. Students learn personal selling as they develop an understanding of, and appreciation for, applying the consultative sales process through partnering with customers. This course is ideal for those exploring a career in sales or simply interested in knowing how to sell their own strengths.

MKTG 598 - Topics in Marketing
Credits: 1-4
Special topics covering a variety of marketing principles. Topics may include promotion and advertising; retail and retail management; sales and sales management. Certain topics may have pre- or co-requisite courses. Certain topics may have a special fee. Repeat Rule: May be repeated for a maximum of 12 credits.

MKTG 598T - Topics in Marketing/Study Away
Credits: 1-4
Study away. May be repeated up to 12 credits. Special fee. Co-requisite: INCO 589

MKTG 750 - Marketing Strategy
Credits: 4
An integrative marketing course designed to provide the student with a cohesive understanding of marketing decision making through the exploration of marketing problems with an emphasis on qualitative analysis as well as strategy formulation. Through the use of case studies, the course is designed for students who want to learn and apply what they learn, and thus emphasizes both the understanding and the application of concepts and practices in marketing strategy. Prereq: ADMN 585. MKTG 752 and/or MKTG 753 are recommended. Equivalent(s): ADMN 750

MKTG 752 - Marketing Research
Credits: 4
Understanding fundamental concepts, tools, and methods used in conducting a marketing research study. Taking general managerial problems and structuring them in terms of specific questions amenable to research. Developing a competence in designing and conducting common qualitative and quantitative research (e.g., survey research). Students will learn various statistic techniques commonly used in marketing research and be able to use these analyses to provide managerial recommendations. Prereq: ADMN 585 or HMGT 600. Writing intensive. Attributes: Writing Intensive Course

MKTG 753 - Consumer/Buyer Behavior
Credits: 4
Covers concepts, models, and theories from the behavioral sciences applied to consumer decision making and purchasing behavior. Examines consumer behavior from economic, psychological, sociological, and anthropological perspectives. Topic coverage includes discussion of marketing strategies and tactics to understand and influence consumer choice. Prereq: ADMN 585 or HMGT 600. Writing intensive.

MKTG 756 - International Franchising
Credits: 4
Designed to provide an understanding of franchising as a system of distribution and business expansion. Franchising is studied from both the perspectives of the franchise and the franchiser. In addition, economic, financial, and legal issues associated with franchising are covered. By the end of the course, students have skills and sources of information that permit sound assessment of the business opportunities available in franchising. Prereq: ADMN 585 or HMGT 600. (Also offered as HMGT 756.)

MKTG 757 - Integrated Marketing Communication
Credits: 4
Provides balanced coverage of all marketing communication tools: advertising, sales promotion, public relations, direct marketing, personal selling, POP, packaging, sponsorships, licensing, and customer service. Emphasizes the integration of these tools to send target audiences a consistent, persuasive message that promotes the organization's goals. Prereq: ADMN 585 or HMGT 600.

MKTG 759 - The Business of Sales
Credits: 4
The Business of Sales combines heavy experiential learning with the academic principles of relationship selling to prepare students for the professional world. Students learn personal selling skills as they develop an understanding of, and appreciation for, applying the consultative sales process through partnering with customers. This course builds on the core business curriculum to help shape and present compelling value proposals. It is ideal for those exploring a career in sales or simply interested in knowing how to sell their own strengths.
MKTG 760 - International Marketing
Credits: 4
Environmental factors affecting international trade: culture and business customs, political and legal factors and constraints, economic and technological development, and the international monetary system. Integration of these with the marketing management functions of market research and segmentation; product, promotion, distribution, and pricing decisions. Prereq: ADMN 585 or HMGT 600.
Equivalent(s): ADMN 760

MKTG 762 - Marketing Workshop
Credits: 4
This course is open only to senior marketing option students and serves as their capstone learning experience. Students work in small teams on a real-world marketing problem given them by outside businesses, non-profits, or government agencies. The teams conduct extensive field research, formulate strategy, and then implement, or test marketing campaign ideas and programs. Prereq: Senior standing; at least two of MKTG 752, MKTG 753, and MKTG 763. Writing intensive.
Attributes: Writing Intensive Course
Equivalent(s): ADMN 762

MKTG 763 - Marketing Analytics
Credits: 4
Marketing Analytics introduces students to the fascinating world of marketing analytics. It provides a broad perspective on product, consumer, marketing-mix, and digital analytics areas. It blends the art and science of marketing and orients students to the systematic use of data and empirical models, which enhance the decision-making of a company about its customers, competitors, and the industry. Prereq: ADMN 585 or HMGT 600. Pre- or Coreq: ADMN 580.

MKTG 764 - New Product Development
Credits: 4
Tactical and strategic issues concerned with the development and marketing of product and service innovations. Equips students with the concepts, tools, and approaches useful in the development, management, and marketing of products and services. Provides an integrated experience of the process of uncovering customer problems, understanding these problems, and providing superior solutions. Prereq: ADMN 585 or HMGT 600.

MKTG 765 - Applications in Digital Marketing
Credits: 4
This class will introduce students to the different disciplines that make up digital marketing in order to better prepare them for roles as either digital marketing generalists (where they will need to appreciate and possess a broad understanding of these disciplines), or as digital marketing specialists, (where they will need to focus on and master one of these disciplines). Prereq: ADMN 585.

MKTG 798 - Topics
Credits: 4
Special topics; may be repeated. Prereq: ADMN 585 OR HMGT 600. Special fee on some topics.
Repeat Rule: May be repeated up to 3 times.
Equivalent(s): ADMN 798, ADMN 798W, MKTG 798

MKTG 798T - Topics/Study Away
Credits: 4
Special topics study away; may be repeated. Prereq: ADMN 585 or HMGT 600. Special fee.
Co-requisite: INCO 589

MKTG 798W - Topics
Credits: 4
Special topics; may be repeated. Prereq: ADMN 585 or HMGT 600. Writing intensive.
Attributes: Writing Intensive Course
Repeat Rule: May be repeated up to 3 times.
Equivalent(s): ADMN 798, ADMN 798W, MKTG 798

Materials Science (MS)

Course numbers with the # symbol included (e.g. #400) have not been taught in the last 3 years.

MS 401 - Science of Stuff
Credits: 4
Materials Science is a relatively new and fast growing field that studies all types of materials, including metals, ceramics, polymers, semiconductors, and composites. Material Science explores how stuff is put together, how to change stuff and make it better, the properties and applications of stuff, and even how to make totally brand new stuff. This course explores materials from various topic areas, including sports, forensics, medicine and health, fashion, architecture and construction, and music and art. Food and transportation from the perspective of materials science. Students explore additional materials independently as well as practice the process of science through simple experimentation and data analysis. Special fee.
Attributes: Physical Science(Discovery)

MS 402 - Nanoscience in Energy
Credits: 4
An introduction to nanomaterials, or matter with important structural features that are nanometers in size. A nanometer is very small—a billionth of a meter; a sugar molecule is only about 1 nm wide. Scientists and engineers are now building materials by manipulating atoms or groups of atoms. The course explores how materials with nanoscale features demonstrate novel and beneficial properties for energy applications. The growing energy demands of the planet require timely, if not urgent, innovative multidisciplinary solutions. These solutions require an informed citizenry knowledgeable about the various perspectives related to powering our planet. This course is a means to inform the non-scientist student about the physical science aspects of energy, nanomaterial solutions for our energy needs, along with some historical, economic, and environmental perspectives. The energy discussion provides a backdrop for our exploration of the structure and properties of nanomaterials. Special fee.
Attributes: Physical Science(Discovery)

MS #762 - Electronic Materials Science
Credits: 4
Provides students with a foundation in the materials science of modern electronic devices. Examples are taken primarily from the fields of semiconductor electronics and nanotechnology. Prereq: PHYS 408, MATH 527.
Equivalent(s): ME 762

Mathematics & Statistics (MATH)

Course numbers with the # symbol included (e.g. #400) have not been taught in the last 3 years.
MATH 301 - Elementary Math I
Credits: 4
Beginning algebra including integer operations, solving linear equations, graphing linear functions, solving linear inequalities, systems of linear equations, polynomials, rational expressions and equations, and exponents and radicals. May not be taken for credit toward a bachelor's degree.
Equivalent(s): MATH 401

MATH 302 - Elementary Math II
Credits: 4
Review of elementary algebra, exponents, polynomials, factoring, rational exponents, and absolute value. Solving linear and quadratic equations and inequalities; systems of equations; radical equations. Linear functions and related notions; quadratic functions. May not be taken for credit toward a bachelor's degree. Prereq: MATH 301 or the equivalent.
Equivalent(s): MATH 402

MATH 400 - Freshman Seminar
Credits: 1
A seminar experience that presents a mathematical culture associated with first-year college mathematics, including the ideas of abstraction, theorem and proof, ad that provides a perspective of the diversity of mathematical areas of research and their interrelationships. Emphasis is on reading and writing mathematics. Cr/F.

MATH 418 - Analysis and Applications of Functions
Credits: 4
Analysis and applications of algebraic and transcendental functions, with special emphasis on exponential, logarithmic, and trigonometric functions. Graphical analysis. Written projects are required on some or all of the following topics: rates of change, optimization, logarithmic or exponential modeling, and trigonometric functions. Intended for students planning to take MATH 425. Prereq: MATH 302 or equivalent. Not offered for credit if credit is received for MATH 424 or MATH 425.
Equivalent(s): MATH 305, MATH 405

MATH 420 - Finite Mathematics
Credits: 4
Topics selected from probability, systems of linear equations, matrix algebra, linear programming, mathematics of finance. Not a preparation for calculus. Prereq: MATH 302 or the equivalent. Not offered for credit to mathematics majors.
Attributes: Quantitative Reasoning(Disc)

MATH 421 - Pathways between Mathematics and the Arts
Credits: 4
Exploration of the interaction between mathematics and the arts on numerous levels. The course builds on basic knowledge of elementary number systems to illuminate such topics symmetry, fractals, light, color, sound structures and musical materials. Students immediately apply new knowledge and techniques to make computer generated 2-D and 3-D images, animations and sound/music.
Attributes: Quantitative Reasoning(Disc)

MATH 422 - Mathematics for Business Applications
Credits: 4
Functions, sets and their use in mathematical models in business, economics and finance, including probability, linear systems and mathematics of finance; basic concepts of differential calculus and relevant applications.
Attributes: Quantitative Reasoning(Disc)
Equivalent(s): MATH 420

MATH 424A - Calculus for Social Sciences
Credits: 4
Rational, exponential and logarithmic functions; associated derivatives and their applications; associated antiderivatives and their applications. Applications focus on contexts relevant to majors in the College of Liberal Arts and the Paul College. Not offered for credit to CEPS majors. Repeat rule applies for MATH 425 and MATH 424B. Students wanting a two-semester calculus course are strongly advised to take MATH 425-426. Those students who successfully complete MATH 424A and subsequently wish to continue their study of mathematics with MATH 426 are encouraged to complete supplementary modules available from the Mathematics Center (MaC).
Attributes: Quantitative Reasoning(Disc)
Equivalent(s): MATH 424B, MATH 425

MATH 424B - Calculus for Life Sciences
Credits: 4
Rational, exponential and logarithmic functions; associated with derivatives and their applications; associated with antiderivatives and their applications. Applications focus on contexts relevant to majors in the College of Life Sciences and Agriculture. Not offered for credit to CEPS majors. Repeat rule applies for MATH 425 and MATH 424A. Students wanting a two-semester calculus course are strongly advised to take MATH 425-426. Those students who successfully complete MATH 424B and subsequently wish to continue their study of mathematics with MATH 426 are encouraged to complete supplementary modules available from the Mathematics Center (MaC).
Attributes: Quantitative Reasoning(Disc)
Equivalent(s): MATH 424A, MATH 425

MATH 425 - Calculus I
Credits: 4
Calculus of one variable covering limits, derivatives of algebraic, trigonometric, exponential, and logarithmic functions; applications include curve sketching, max-min problems, related rates, and volume and area problems. Prereq: completing MATH 418 with a grade of C or better or qualifying with the placement evaluation. Beginning in Spring 2019 students who have taken MATH 418 may not take the placement test as a means of entry into MATH 425. (Repeat rule applies for MATH 424A and MATH 424B).
Attributes: Quantitative Reasoning(Disc)
Equivalent(s): MATH 424A, MATH 424B, MATH 425H

MATH 425H - Honors/Calculus I
Credits: 4
Calculus of one variable covering limits, derivatives of algebraic, trigonometric, exponential, and logarithmic functions; applications include curve sketching, max-min problems, related rates, and volume and area problems. Prereq: completing MATH 418 with a grade of C or better or qualifying with the placement evaluation. (Not offered for credit if credit is received for MATH 424.) Enrollment in MATH 425H requires concurrent enrollment in PHYS 407H.
Attributes: Quantitative Reasoning(Disc)
Equivalent(s): MATH 424A, MATH 424B, MATH 425H

MATH 426 - Calculus II
Credits: 4
Second course in calculus of one argument, techniques and applications of integration, polar coordinates, and series. Prereq: MATH 425.
Equivalent(s): MATH 426H
MATH 426H - Honors/Calculus II
Credits: 4
Second course in calculus of one argument, techniques and applications of integration, polar coordinates, and series. Prereq: MATH 425.
Enrollment in MATH 426H requires concurrent enrollment in PHYS 408H.
Equivalent(s): MATH 426

MATH 439 - Statistical Discovery for Everyone
Credits: 4
Introduces the framework and concepts for learning with data. Emphasis on statistical discovery in everyday life and on drawing valid conclusion from data. Topics include: good and bad data, data ethics, how to conduct a valid survey, how to describe a population distribution; when to believe a poll; how to design an experimental study; how to avoid ambiguous results caused by "lurking" variables; how to make inference about an entire population based on a sample; how to describe relationships among variables; an understanding of the question of causation and chance in everyday life and in scientific studies, as well as the use and misuse of statistics in explaining what is statistical significance. This course has an activity-based learning component with lab exercises using statistical software for calculations without assuming a calculus background. The course may be used as a preparation for a more technical introductory statistics course. Science and Engineering students should take MATH 539 or MATH 644 according to their programs.
Attributes: Quantitative Reasoning(Disc)
Mutual Exclusion: No credit for students who have taken ADM 430, ADMN 420, BIOL 528, EREC 525, HHS 540, MATH 539, MATH 644, PSYC 402, PSYC 402H, SOC 402, SOC 402H, SOC 502, SOC 502H.

MATH 444 - Excursions in Quantitative Reasoning
Credits: 4
Problems involving quantitative reasoning (most are nontraditional, some are fun, while others are interdisciplinary) designed to inspire curiosity encourages students to formulate and evaluate questions, all the while slowly drawing them into the process of scholarly investigation. In this regard, in addition to traditional mathematics homework, students need to do research outside of class to write and present projects.
Attributes: Quantitative Reasoning(Disc); Inquiry (Discovery)

MATH 445 - Mathematics and Applications with MATLAB
Credits: 4
Through the use of the MATLAB computation software, this course reinforces and builds on a student's mathematics foundation and previews more advanced mathematical concepts. The power and limitations of modern computational algorithms to solve real world problems are introduced and shown to influence nearly every aspect of modern society. The state-of-the-art computational tools afforded by MATLAB provide the student with a strategy for enhancing their knowledge and comprehension in subsequent Science, Engineering, or Technology themed courses. Prereq: MATH 418 or permission.
Attributes: Environment, TechSociety(Disc)

MATH 525 - Linearity I
Credits: 6
Examines the fundamental role that linear models play in science and engineering; and the role of linearization in understanding nonlinear phenomena. Models are considered along several conceptual axes: discrete to continuous, one-dimensional to multidimensional, and static to dynamic, with an emphasis on the former. Mathematical areas of coverage include matrix algebra, concepts from calculus of several variables, difference equations, and linear transformations. Prereq: MATH 426, permission. Lab.

MATH 526 - Linearity II
Credits: 6
Continuation of study of linear models and the process of linearization begun in MATH 525, with an emphasis on models of dynamic phenomena. Additional mathematical areas of coverage include differential equations, eigenvalue and eigenvector analysis, phase plane analysis, and additional concepts from vector calculus. Prereq: MATH 525, permission. Lab.

MATH 527 - Differential Equations with Linear Algebra
Credits: 4
Fundamental methods of solving first-order equations, essentials of matrix algebra; higher-order linear equations, and linear systems; series solutions; Laplace transforms; selected applications. Prereq: MATH 426.
Equivalent(s): MATH 527H

MATH 528 - Multidimensional Calculus
Credits: 4
Partial differentiation; composite functions and chain rules; maximum and minimum; transformations; vector algebra; vector functions; gradient, divergence, and curl; curves and surfaces; multiple, line, and surface integrals; divergence, Green's and Stoke's theorem. Prereq: MATH 426.

MATH 531 - Mathematical Proof
Credits: 4
Introduces reading and writing proofs in mathematics. The basic language of mathematics common to all branches of the subject, especially set theory and basic logic. Prereq: MATH 425; or permission. Writing intensive.
Attributes: Writing Intensive Course

MATH 539 - Introduction to Statistical Analysis
Credits: 4
A first course introducing concepts of probability and scientific methods for data analysis. Exploratory data analysis, survey sampling, probability, discrete and continuous distributions, confidence intervals, hypothesis testing, comparing samples, linear regression, analysis of variance. Statistical software is used. Prereq: MATH 425; or permission. Offered primarily for mathematics majors; engineering majors should take MATH 644.
Mutual Exclusion: No credit for students who have taken ADM 430, ADMN 420, BIOL 528, COMP 490, EREC 525, HHS 540, MATH 439, MATH 644, PSYC 402, PSYC 402H, SOC 402, SOC 402H, SOC 502, SOC 502H.

MATH 545 - Introduction to Linear Algebra
Credits: 4
Designed to reinforce ideas seen throughout the mathematics curriculum. Centered on a study of vector spaces and linear systems, beginning with a brief focus on systems of linear equations and progressing to a full discussion of linear transformation and vector spaces. The course includes a survey of properties of matrices, such as rank, kernel, eigenvalues, eigenvectors, and diagonalization. Prereq: MATH 426 Writing intensive. No credit offered if credit is received for MATH 645 or MATH 762.
Attributes: Writing Intensive Course
Equivalent(s): MATH 645, MATH 645H, MATH 762
MATH 601 - Exploring Mathematics for Teachers I
Credits: 4
Provides prospective elementary teachers with the opportunity to explore and master concepts involving number systems and operations, data analysis and probability. Additional topics may include geometry, measurement, and algebraic thinking. Mathematical reasoning, problem solving, and the use of appropriate manipulatives and technology are integrated throughout the course. Readings, class discussions, and assignments focus on mathematics content as well as applicable theories of learning, curriculum resources, and state and national recommendations. The course models instructional techniques that can be adapted to the elementary curricula. (Not offered for credit if credit is received for MATH 621 or MATH 623; not offered for credit to CEPS majors.)

MATH 621 - Number Systems for Teachers
Credits: 4
Ways of representing numbers, relationships between numbers, number systems, the meanings of operations and how they relate to one another, and computation within the number system as a foundation for algebra; episodes in history and development of the number system; and examination of the developmental sequence and learning trajectory as children learn number concepts. Prereq: permission.

MATH 622 - Geometry for Teachers
Credits: 4
Explorations of the foundations of informal measurement and geometry in one, two and three dimensions. The van Hiele model for geometric learning is used as a framework for how children build their understanding of length, area, volume, angles and geometric relationships. Visualization, spatial reasoning and geometric modeling are stressed. As appropriate, transformational geometry, congruence, similarity and geometric constructions will be discussed. Prereq: permission.

MATH 623 - Probability and Statistics for Teachers
Credits: 4
An introduction to probability, descriptive statistics and data analysis; exploration of randomness, data representation and modeling. Descriptive statistics will include measures of central tendency, dispersion, distributions and regression. Analysis of experiments requiring hypothesizing, experimental design and data gathering. Prereq: permission.

MATH 624 - Analysis of Secondary School Mathematics
Credits: 4
Examines concepts from calculus and pre-calculus mathematics with an emphasis on connecting and logically refining the concepts of function, limit, sequences, series, and probability. Includes a deeper analysis of problems and topics drawn from secondary school mathematics with the kind of mathematical knowledge and sophistication that the student has gained from other collegiate mathematics courses. Proofs for many of the theorems that are typically introduced in a non-rigorous fashion in calculus are studied. Prereq: EDUC 500, MATH 425 and 545 (or equivalent); or permission. Offered in alternate years in the spring semester following MATH 623.

MATH 625 - Functions and Algebra for Teachers
Credits: 4
Representation and analysis of mathematical situations and structures using generalization and algebraic symbols and reasoning. Attention is given to the transition from arithmetic to algebra, working with quantitative change, and the description of and prediction of change. Prereq: MATH 621. The course is offered in alternative years in spring semester.

MATH 632 - Financial Mathematics
Credits: 4
A mathematical introduction to interest theory and an overview of mathematical models used to analyze and price standard financial instruments including: interest bearing accounts, stocks and bonds. Introduction to basic concepts used in mathematical finance including: random variables, mathematics of arbitrage, risk and diversification. Includes a substantive introduction to all aspects of the financial mathematics actuarial exam.

MATH 644 - Statistics for Engineers and Scientists
Credits: 4
Introduces the design of controlled experiments and the collection and analysis of scientific data. Use of a statistical software package is an integral part of the course; interpreting and drawing conclusions from standard software output is emphasized. Graphical data analysis, statistical process control, regression and correlation, multifactored experimental designs, confidence intervals, hypothesis testing. Prereq: MATH 426.

MATH 645 - Linear Algebra for Applications
Credits: 4
Fundamental notions of vector space theory, linear independence, basis, span, scalar product, orthogonal bases. Includes a survey of matrix algebra, solution of systems linear equations, rank, kernel, eigenvalues and eigenvectors, the LU- and QR-factorizations, and least squares approximation. Selected applications in mathematics, science, engineering and business. Prereq: MATH 426. (Not offered for credit if credit is received for MATH 545 or MATH 762.)

MATH 647 - Complex Analysis for Applications
Credits: 4
Complex numbers, analytic functions, Cauchy-Riemann equations, conformal mapping, contour integration, Cauchy's integral formula, infinite series, residue calculus, Fourier and Laplace transforms. Prereq: MATH 528. (Not offered for credit if credit is received for MATH 788.)

MATH 656 - Introduction to Number Theory
Credits: 4
Unique factorization, arithmetic functions, linear and quadratic congruence's, quadratic reciprocity law, quadratic forms, introduction to algebraic numbers. Prereq: MATH 531. Offered in alternate years.

MATH 658 - Topics in Geometry
Credits: 4
Topics selected from among projective geometry, finite geometrics, convexity, transformational geometry, non-Euclidean geometry, and other areas of elementary geometry within the framework of modern mathematics. Prereq: MATH 657. Offered in alternate years.
MATH 696 - Independent Study
Credits: 1-4
Individual projects of study developed by the student and a faculty sponsor. Intended for students with superior scholastic achievement. May be taken as writing intensive. Prereq: a written proposal, including goals and assessment, endorsed by a faculty sponsor and approved by the department chairperson.
Repeat Rule: May be repeated for a maximum of 8 credits.
Equivalent(s): MATH 696W

MATH 696W - Independent Study
Credits: 1-4
Individual projects of study developed by the student and a faculty sponsor. Intended for students with superior scholastic achievement. May be taken as writing intensive. Prereq: a written proposal, including goals and assessment, endorsed by a faculty sponsor and approved by the department chairperson.
Repeat Rule: May be repeated for a maximum of 8 credits.
Equivalent(s): MATH 696

MATH 699 - Internship Experience
Credits: 1
Provides the opportunity to apply and enhance knowledge in a setting associated with future professional employment. A written mid-semester report is required as well as a final report along with an oral presentation that is open to other undergraduates. Prereq: A written proposal, endorsed by a faculty sponsor and approved by the department chairperson (or designee), that outlines the goals, academic merit and assessment of the work experience. Only open to Math majors. Cr/F.
Repeat Rule: May be repeated for a maximum of 4 credits.

MATH 700 - Introduction to Mathematics Education
Credits: 4
General background information about mathematics education, such as theories of learning and teaching mathematics, mathematics curricula, classroom management, and techniques for the teaching and learning of mathematics that are common to all levels of mathematics education K-12. Prereq: MATH 426 and EDUC 500; or permission.

MATH 703 - Teaching of Mathematics in Grades K-5
Credits: 4
Methods of teaching mathematics at the elementary school level; uses of technology, manipulatives, models, and diagrams; developing unit and lesson plans; assessment; instructional formats; teaching reading and writing in mathematics. Prereq: MATH 621 (or MATH 601); or permission.

MATH 708 - Teaching Mathematics in Grades K-8
Credits: 4
Methods of teaching mathematics in grades K-8, uses of technology, manipulatives, models, and diagrams; developing unit and lesson plans; investigating instructional formats. Prereq: MATH 700 or permission. Offered in alternate years in the spring semester.
Equivalent(s): MATH 780

MATH 709 - Teaching of Mathematics in Grades 6-12
Credits: 4
Methods of teaching mathematics at the middle and high school levels; uses of technology, manipulatives, models, and diagrams; developing unit and lesson plans; assessment; instructional formats; teaching reading and writing in mathematics. Prereq: MATH 700; or permission.
Equivalent(s): MATH 791

MATH 736 - Advanced Statistical Methods for Research
Credits: 4
An introduction to multivariate statistical methods, including principal components, discriminant analysis, cluster analysis, factor analysis, multidimensional scaling, and MANOVA. Additional topics include generalized linear models, general additive models, depending on the interests of class participants. The use of statistical software, such as JMP, S PLUS, or R, is fully integrated into the course. Prereq: MATH 739.

MATH 737 - Statistical Methods for Quality Improvement and Design
Credits: 4
Six Sigma is a popular, data-focused methodology used worldwide by organizations to achieve continuous improvement of their existing processes, products and services or to design new ones. This course provides a thorough introduction to the Six Sigma principles, methods, and applications for continuous improvement (DMAIC process) and an overview of Design for Six Sigma (DFSS). Both manufacturing and non-manufacturing (transactional Six Sigma) applications are included. Emphasis is placed on the use of case studies to motivate the use of, as well as the proper application of, the Six Sigma methodology. Formal Six Sigma Green Belt certification from UNH may be attained by successfully completing TECH 696. Prereq: MATH 539,MATH 644; or permission.

MATH 738 - Data Mining and Predictive Analytics
Credits: 4
An introduction to supervised and unsupervised methods for exploring large data sets and developing predictive models. Unsupervised methods include: market basket analysis, principal components, clustering, and variables clustering. Important statistical and machine learning methods (supervised learning) include: Classification and Regression Trees (CART), Random Forests, Neural Nets, Support Vector Machines, Logistics Regression and Penalized Regression. Additional topics focus on metamodeling, validation strategies, bagging and boosting to improve prediction or classification, and ensemble prediction from a set of diverse models. Required case studies and projects provide students with experience in applying these techniques and strategies. The course necessarily involves the use of statistical software and programming languages. Undergraduate students are required to have junior or senior status to enroll in this course. Prereq: MATH 539 (or MATH 644); or permission.

MATH 739 - Applied Regression Analysis
Credits: 4
Attributes: Writing Intensive Course

MATH 740 - Design of Experiments I
Credits: 4
Course in design of experiments with applications to quality improvement in industrial manufacturing, engineering research and development, or research in physical and biological sciences. Experimental factor identification, statistical analysis and modeling of experimental results, randomization and blocking, full factorial designs, random and mixed effects models, replication and sub-sampling strategies, fractional factorial designs, response surface methods, mixture designs, and screening designs. Focuses on various treatment structures for designed experimentation and the associated statistical analyses. Use of statistical software. Prereq: MATH 539 (or 644); or permission.
MATH 741 - Survival Analysis
Credits: 4
Explorations of models and data-analytic methods used in medical, biological, and reliability studies. Event-time data, censored data, reliability models and methods, Kaplan-Meier estimator, proportional hazards, Poisson models, loglinear models. The use of statistical software, such as SAS, JMP, or R, is fully integrated into the course. Prereq: MATH 739. (Offered in alternate years in the spring semester.)

MATH 743 - Time Series Analysis
Credits: 4
An introduction to univariate time series models and associated methods of data analysis and inference in the time domain and frequency domain. Topics include: auto-regressive (AR), moving average (MA), ARMA and ARIMA processes, stationary and non-stationary processes, seasonal ARIMA processes, auto-correlation and partial auto-correlation functions, identification of models, estimation of parameters, diagnostic checking of fitted models, forecasting, spectral density function, periodogram and discrete Fournier transform, linear filters, parametric spectral estimation, dynamic Fournier analysis. Additional topics may include wavelets and long memory processes (FARIMA) and GARCH Models. The use of statistical software, such as JMF; or R, is fully integrated into the course. Prereq: MATH 739. Offered in alternate years in the spring semester.

MATH #744 - Design of Experiments II
Credits: 4
A second course in design of experiments, with applications in quality improvement and industrial manufacturing, engineering research and development, research in physical and biological sciences. Covers experimental design strategies and issues that are often encountered in practice: complete and incomplete blocking, partially balanced incomplete blocking (PBIB), partial confounding, intra and inter block information, split plotting and strip plotting, repeated measures, crossover designs, Latin squares and rectangles, Youden squares, crossed and nested treatment structures, variance components, mixed effects models, analysis of covariance, optimizations, space filling designs, and modern screening design strategies. Prereq: MATH 740; or permission.

MATH 745 - Foundations of Applied Mathematics I
Credits: 4
An introduction to Partial Differential Equations (PDEs) and associated mathematical methods and the analytical foundation for applied mathematics. Topics include: PDE classification, superposition, separation of variables, orthonormal functions, completeness, convergence, Fourier Series, Sturm-Liouville eigenvalue problems, and eigenfunctions. Methods are introduced for the analysis and solution of boundary value problems, in particular, the Heat, Wave, and Laplace equations. Prereq: MATH 527 and MATH 528; or equivalent.

MATH 746 - Foundations of Applied Mathematics II
Credits: 4
An introduction to special functions, asymptotic analysis, and transform methods applied to partial differential equations. Topics include: Boundary value problems in cylindrical coordinates, the Bessel equation and Bessel functions, Fourier-Bessel expansions in cylindrically symmetric spatial domains, the Fourier Transform, the Hilbert Transform, Cosine and Sine Transforms, problems on semi-infinite intervals, and Asymptotic Analysis. Prereq: MATH 527 and MATH 528; or equivalent.

MATH 747 - Introduction to Nonlinear Dynamics and Chaos
Credits: 4
The mathematics of chaos and nonlinear dynamics. Topics include linear and nonlinear systems of ordinary differential equations, discrete maps, chaos, phase plane analysis, bifurcations and computer simulations. Prereq: MATH 527, MATH 528, and MATH 645.

MATH 753 - Introduction to Numerical Methods I
Credits: 4
Introduces mathematical algorithms and methods of approximation. Topics include a wide survey of approximation methods. Methods examined include polynomial interpolation, root finding, numerical linear algebra, numerical integration, and the approximation of differential equations. Included in each case is a study of the accuracy and stability of a given technique, as well as its efficiency. Prereq: MATH 426; MATH 445 (or CS 410 or IAM 550).

MATH 755 - Probability with Applications
Credits: 4
Introduces the theory, methods, and applications of randomness and random processes. Probability concepts, random variable, expectation, discrete and continuous probability distributions, joint distributions, conditional distributions; moment-generating functions, convergence of random variables. Prereq: MATH 528 and MATH 539 (or MATH 644).

MATH 756 - Principles of Statistical Inference
Credits: 4
Introduces the basic principles and methods of statistical estimation and model fitting. One- and two-sample procedures, consistency and efficiency, likelihood methods, confidence regions, significance testing, Bayesian inference, nonparametric and re-sampling methods, decision theory. Prereq: MATH 755, or permission.

MATH 757 - Mathematical Optimization for Applications
Credits: 4
This course introduces the foundations of mathematical optimization and reinforces them via applications. The content includes convex optimization, first and second-order methods, constrained problems, duality, linear and quadratic programming, as well as discrete and non-convex optimization. Applications will focus on machine learning methods but also include problems from engineering and operations research. Prereq: MATH 426; Programming proficiency in MATLAB, R, Java, C, Python, or equivalent.

MATH 759 - Introduction to the R Software
Credits: 1
This course provides a basic introduction to the open-sources statistical software R for students who have never used this software or have never formally learned the basics of it. Topics include: Numeric calculations, simple and advanced graphics, object management and work-flow, RStudio, user-contributed packages, basic programming, writing of functions, statistical modeling and related graphs, distributed computing, reproducible research and document production via markup language. Cr/F.

MATH 760 - Geometry
Credits: 4
Advanced approach to fundamental properties of Euclidean and other geometries through deductive reasoning and proof. Prereq: MATH 531. Writing intensive.

Attributes: Writing Intensive Course
Equivalent(s): MATH 657
MATH 761 - Abstract Algebra
Credits: 4
This course establishes the axiomatic framework that underlies number systems and similar mathematical structures, investigating basic properties of groups, rings, fields and their homomorphisms. Prereq: MATH 531. Writing intensive.
Attributes: Writing Intensive Course

MATH 762 - Linear Algebra
Credits: 4
Vector spaces over arbitrary fields, linear transformations and their relationship with matrices, eigenvalues and eigenvectors, the rational and Jordan canonical forms for linear transformations. Prereq: MATH 761.
Equivalent(s): MATH 645

MATH 763 - Abstract Algebra II
Credits: 4
This course extends the investigations of MATH 761 into more specialized situations related to old and new problems in mathematics, such as the nature of solutions of polynomial equations. It presents advanced properties of groups, rings, fields and their applications. Prereq: MATH 761.

MATH 765 - Introduction to Commutative Algebra and Algebraic Geometry
Credits: 4
Methods of determining solution sets of polynomial systems; affine varieties and their ideals; the 'algebra-geometry correspondence'; theory and applications of Grobner bases. Prereq: MATH 531, MATH 761 or permission of instructor.

MATH 767 - One-Dimensional Real Analysis
Credits: 4
Attributes: Writing Intensive Course

MATH 768 - Real Analysis II
Credits: 4
Theory of integration; series; power series and uniform convergence of power series. Prereq: MATH 767.

MATH 769 - Introduction to Differential Geometry
Credits: 4
Introduction to the study of geometric properties of curves and surfaces in 3-dimensional space. Prereq: MATH 527, MATH 528, MATH 645.

MATH 770 - Foundations of Number Theory
Credits: 4
Factorization and prime numbers, arithmetic functions, congruences, reciprocity laws, quadratic forms, Diophantine equations, computational number theory. Prereq: MATH 531. Offered in alternate years.

MATH 772 - Combinatorics
Credits: 4
Graph theory (including planar graphs, graph coloring, Hamiltonian circuits, trees); counting principles (including permutations, combinations, pigeonhole principle, inclusion-exclusion principle); and related topics. Prereq: MATH 531.

MATH 776 - Logic
Credits: 4
Examination of the basic notions of soundness and completeness, first for sentential and then for propositional logic. Turning to the question of decision procedures for logical formulae, the concept of recursive function, which emerges in the work of Church and Turning, provides the essential link between logic and theory of computation. The course culminates with Godel's Incompleteness Theorems, which demonstrate the intrinsic limitations of the logical method. Prereq: MATH 531. Offered in alternate years.

MATH 783 - Set Theory
Credits: 4
Axiomatic set theory, including its history. Cantor's theory of infinite cardinal and ordinal numbers seemed laden with contradictions and paradoxes. A satisfactory treatment of these difficulties came with the axiomatic set theory of Zermelo and Fraenkel. This course develops the Zermelo-Fraenkel axioms and examines cardinal and ordinal arithmetic in the context they provide. The course then investigates the consequences of various additional axioms extending Zermelo-Fraenkel, such as the Axiom of Choice, the Continuum Hypothesis, large cardinal axioms of determinacy. Prereq: MATH 531. Offered in alternate years.

MATH 784 - Topology
Credits: 4
Open sets, closure, base, and continuous functions; connectedness, compactness, separation axioms, and metrizability. Prereq: MATH 767/ MATH 867 or permission.
Attributes: Writing Intensive Course

MATH 788 - Complex Analysis
Credits: 4
Complex functions, sequences, limits, differentiation and Cauchy-Riemann equations, elementary functions, Cauchy's theorem and formula, Taylor's and Laurent's series, residues, conformal mapping. Prereq: MATH 767. Not offered for credit if credit is received for MATH 647.
Equivalent(s): MATH 647

MATH 790 - Historical Foundations of Mathematics
Credits: 4
Historical development of number theory, geometry, probability, algebra, and analysis. Study of the significant mathematical contributions to these topics made by prominent mathematicians spanning several historical periods. Prereq: MATH 531 or MATH 545. Writing intensive.
Attributes: Writing Intensive Course
Equivalent(s): MATH 619

MATH 796 - Topics
Credits: 1-4
New or specialized courses not covered in regular course offerings. Prereq: permission of instructor.
Repeat Rule: May be repeated up to unlimited times.

MATH 797 - Senior Seminar
Credits: 4
Exploration of mathematical topics beyond the student's previous coursework in the seminar format. The course focus is on independent research, collaborative work and classroom engagement; oral presentations and written work are required. Prereq: senior standing.
Equivalent(s): MATH 698
MATH 798 - Senior Project
Credits: 4
Students work either individually or as a group under the direction of a faculty sponsor to plan and carry out an independent research project resulting in a written report and presentation to the department. Prereq: Senior standing in the department; a written proposal approved by a faculty sponsor and by the department chairperson (or designee).

MATH 799 - Senior Thesis
Credits: 2 or 4
Students work under the direction of a faculty sponsor to plan and carry out independent research resulting in a written thesis. Required for honors-in-major. Prereq: senior standing; a written proposal endorsed by a faculty sponsor and approved by the department chairperson (or designee).
Attributes: Writing Intensive Course
Repeat Rule: May be repeated for a maximum of 4 credits.

Mechanical Engineering (ME)

Course numbers with the # symbol included (e.g. #400) have not been taught in the last 3 years.

ME 441 - Introduction to Engineering Design and Solid Modeling
Credits: 4
Why are some products better than others? What is the definition of "better"? This course uses an inquiry-guided approach to explore the product design process via team design projects and laboratory exercises. Everyday products are examined from historical, societal, design, safety and manufacturing perspectives. Topics include ideation, sketching, design constraints, solid modeling, decision making, statistical quality control, manufacturing methods and engineering analysis. Students develop an appreciation for good design and the ability to communicate design ideas via 3-D solid models, written and oral reports. Prereq: MATH 418 or equivalent.
Attributes: Inquiry (Discovery); Writing Intensive Course

ME 477 - Introduction to Solid Modeling
Credits: 1
Introduction to solid modeling and engineering drawings using computer-aided design software. For Mechanical Engineering students, this course can only be taken with permission as an alternative to the required ME 441. Introduction to Engineering Design and Solid Modeling for students with extensive engineering design experience (e.g., high school or another university course), an engineering project based program (e.g., FIRST Robotics or Project Lead the Way), or similar experience (e.g., working in the industry). Students should not take both ME 441 and ME 477. Lecture and Lab.

ME 503 - Thermodynamics
Credits: 3
Properties of a pure substance, work and heat, laws of thermodynamics, entropy, thermodynamic relations, cycles. Prereq: PHYS 407. Pre- or Coreq: CHEM 405; MATH 528.

ME 523 - Introduction to Statics and Dynamics
Credits: 3
Overview of statics and dynamics applying concepts to particles then to rigid bodies. Topics include two- and three-dimensional force systems; laws of equilibrium; analyses of trusses and frames; friction; relative motion; impulse-momentum principles; work-energy relationships. Prereq: MATH 426, PHYS 407. Not for ME majors.

ME 525 - Statics
Credits: 4
Introduces statics. Two- and three-dimensional force systems, the concept of equilibrium, analysis of trusses and frames, centroids, bending moment and shear force diagrams, and friction. Prereq: PHYS 407 and MATH 426.
Equivalent(s): CEE 500, CIE 525, CIE 528

ME 526 - Mechanics of Materials
Credits: 3
Introduces strength of materials. Analysis of members under torsion, axial, shear and bending stresses, superposition of stresses, stability of columns. Prereq: ME 525. Writing intensive.
Attributes: Writing Intensive Course
Equivalent(s): CEE 501, CIE 526, CIE 529

ME 561 - Introduction to Materials Science
Credits: 4
The concepts of materials science and the relation of structure of material properties. Atomic structure, bonding material transport, mechanical properties of materials, solidification, phase diagrams, solid state transformations, and corrosion and oxidation. Laboratory exercises are carried out to demonstrate the basic concepts of the course. Prereq: one semester of introductory chemistry with a lab or equivalent; MATH 425. Writing intensive.
Attributes: Writing Intensive Course
Equivalent(s): ME 661

ME 603 - Heat Transfer
Credits: 3
Analysis of phenomena; steady-state and transient conduction, radiation, and convection; engineering applications. Prereq: MATH 527, ME 608.

ME 608 - Fluid Dynamics
Credits: 3
Dynamics and thermodynamics of compressible and incompressible fluid flow; behavior of fluids as expressed by hydrostatic, continuity, momentum, and energy equations. Prereq: ME 503. Pre- or Coreq: MATH 527, IAM 550.
Co-requisite: ME 627
Equivalent(s): ME 508

ME 627 - Dynamics
Credits: 3
Introduction to particle and rigid body dynamics. Rectilinear and curvilinear motion, translation and rotation, momentum and impulse principles, and work-energy relationships. Prereq: ME 525 or permission. Writing intensive.
Attributes: Writing Intensive Course
Equivalent(s): CIE 527, ME 527

ME 643 - Machine Design
Credits: 3
Analysis, synthesis, and design of machine elements and systems. Development of engineering judgment; selection of materials stress and failure analysis; kinematic arrangement design for finite and infinite life. Open-ended design problems unify course topics. Prereq: ME 526, ME 561, ME 627. Writing intensive.
Attributes: Writing Intensive Course
ME 646 - Experimental Measurement and Data Analysis
Credits: 4
Basic and advanced techniques of engineering and scientific parameter measurement including statistical data and error analysis, curve fitting, calibration and application of transducers, and technical writing. Laboratory experiments draw on concepts from mechanics, thermodynamics, and fluid mechanics. Prereq: ME 526. Prereq or Co-req: ME 608. Writing intensive.
Attributes: Writing Intensive Course

ME 670 - Systems Modeling, Simulation, and Control
Credits: 4
Lumped parameter models for mechanical, electrical, thermal, fluid, and mixed systems. Matrix representation, eigenvalues, eigenvectors, time domain solutions, frequency response plots, and computer simulations are used to explore system response. Design of system for desired responses. Introduces feedback control, stability, and performance criteria. Prereq: ECE 537, ME 627, MATH 527. Writing intensive.
Attributes: Writing Intensive Course

ME 695 - Special Topics
Credits: 2-4
Course topics not offered in other courses. May be repeated for credit. Lab. Prereq: permission.

ME 696 - Projects
Credits: 1-4
Analytical, experimental, or design projects undertaken individually or in teams under faculty guidance. May be repeated for credit.

ME 699 - Engineering Internship
Credits: 1
Internship experience provides on-the-job reinforcement of academic programs in mechanical engineering. Contact the Mechanical Engineering department office for guidelines. Prereq: appropriate class standing in major, 2.5 grade point average, and permission. Cr/F.
Repeat Rule: May be repeated for a maximum of 3 credits.

ME 705 - Thermal System Analysis and Design
Credits: 4
Engineering design of thermal systems that involve real problems and analysis of performance of the design. Design criteria include function, performance, optimization, economy, safety, and others as appropriate for the system. Required for ME seniors. Prereq: ME 503. Writing intensive.
Co-requisite: ME 608
Attributes: Writing Intensive Course
Equivalent(s): ME 605

ME 706 - Renewable Energy, Physical and Engineering Principles
Credits: 3
The goal of this course is to become "Fluent in energy" and to learn about the engineering fundamentals of renewable energy technologies. The course will begin by giving an overview of U.S. energy usage and sources, as well as history and trends. Various renewable energy topics will then be discussed. Where applicable, topics will be discussed in detail from a fluid and thermal sciences point of view. Guest lecturers and a field trip may be included. This course is open to all engineering seniors. Prereq: ME 503 - Thermodynamics, ME 608 - Fluid Dynamics, or equivalent, or instructor permission.

ME 707 - Analytical Fluid Dynamics
Credits: 4
Kinematics of flow; constitutive relationships; development of the Navier-Stokes equations; vorticity theorems; potential flow. Prereq: ME 608.

ME 709 - Computational Fluid Dynamics
Credits: 3
Conservation of mass, momentum, and energy, discretization schemes, boundary and initial conditions, turbulence and turbulence models, two-equation models, CFD software such as OpenFOAM, best practice guidelines for CFD. The class incorporates the use and creation of Open Educational Resources (OER).

ME 712 - Waves in Fluids
Credits: 3
Linear and nonlinear dynamics of hyperbolic and dispersive wave systems with application to acoustic waves, surface and internal gravity waves, Rossby waves, and capillary waves. Key physical concepts include wave-generation mechanisms, wavelength and amplitude dispersion, group velocity and energy propagation, steady streaming, and mode interactions. Prereq: ME 608 or equivalent.

ME 724 - Vibration Theory and Applications
Credits: 4
Discrete vibrating systems. Linear system concepts; single-degree-of-freedom system with general excitation. Matrix theory and eigenvalue problems. Many degrees of freedom, normal mode theory for free and forced vibration. Numerical methods; introduction to continuous systems; applications to structural and mechanical systems. Prereq: ME 526; ME 627 or permission.

ME 727 - Advanced Mechanics of Solids
Credits: 4
Stress, strain, stress-strain relations, anisotropic behavior, introduction to elasticity, plane stress/strain, bending and torsion of members with general cross-sections introduction to thin plates and shells, energy methods. Prereq: ME 526 or permission.

ME 730 - Mechanical Behavior of Materials
Credits: 4
Elastic and inelastic behavior of materials in terms of micro- and macro-mechanics. Stress, strain, and constitutive relations related to recent developments in dislocation theory and other phenomena on the atomic scale and to the continuum mechanics on the macroscopic scale. Elasticity, plasticity, visoelasticity, creep, fracture, and damping. Anisotropic and heterogeneous materials. Prereq: ME 526; 561 or permission.

ME 731 - Fracture and Fatigue Engineering Material
Credits: 4
Reviews fundamentals of linear elastic fracture mechanics and strain energy release rate analyses. Discusses basic methods of design for prevention of failure by fast fracture and fatigue for metals, ceramics, and polymers with attention to the effect of material properties and subsequent property modification on each design approach. Prereq: ME 526; ME 561 or permission.

ME 735 - Mechanics of Composite Materials
Credits: 4
ME 743 - Satellite Systems, Dynamics, and Control
Credits: 3
General satellite systems with emphasis on spacecraft dynamics and control. Topics include general satellite information such as types of satellites, missions, and orbits, as well as satellite subsystems. Basic spacecraft dynamics and orbital mechanics topics are covered. Advanced topics include attitude and orbit estimation, and automatic attitude control. Prereq: ME 670 or permission.

ME 747 - Experimental Measurement and Modeling of Complex Systems
Credits: 4
Experimental measurements for evaluation, design, and control of mechanical, electrical, and thermal-fluid phenomena. Emphasizes the dynamic response of both sensors and systems and the interactions between physical processes. Experimental examples are drawn from mechanics, material science, thermal-fluid science and controls. Prereq: ME 646; ME 670. Writing intensive.

Attributes: Writing Intensive Course

ME 755 - Senior Design Project I
Credits: 2
Part I of this two-part sequence emphasizes problem definition, analysis, development of alternative concepts, decision-making processes, synthesis of an optimum solution and the development of a conceptual design. Lectures on these and other topics are combined with seminars given by professionals from industry, government, and academia. Related topics include ISO9000 quality systems, engineering management, design review process, engineering economics, team building and communications. Students are organized into project teams to develop a conceptual design. Formal design reviews are conducted. A formal proposal documents the semester’s work. Prereq: Senior standing in ME. Lab. Writing intensive.

Attributes: Writing Intensive Course

Equivalent(s): ME 656

ME 756 - Senior Design Project II
Credits: 2
Continuation of Senior Design Project I, in which the proposal submitted in the previous course is developed into a prototype system. Part II emphasizes the development, assembly, testing and evaluation of the system designed in Part I. Lectures and seminars focus on the prototype development process, design verification and industry practices. A formal report documents the semester’s work. Prereq: ME 755. Writing intensive.

Attributes: Writing Intensive Course

Equivalent(s): ME 656

ME 757 - Coastal Engineering and Processes
Credits: 3
Introduces small amplitude and finite amplitude wave theories. Wave forecasting by significant wave method and wave spectrum method. Coastal processes and shoreline protection. Wave forces and wave structure interaction. Introduces mathematical and physical modeling. Prereq: ME 608 or permission. (Also offered as CIE 757 and OE 757.)

Equivalent(s): CIE 757, OE 757

ME #760 - Physical Metallurgy I
Credits: 4
Introduction to physical metallurgy; dislocations; thermodynamics of materials, diffusion, phase transformations, and strengthening mechanisms in solids. Prereq: ME 561 or permission. Lab.

ME 761 - Diffraction and Imaging Methods in Materials Science
Credits: 4
Introduces X-ray diffraction and electron microscopy. Basic crystallography, reciprocal lattice, X-ray and electron diffraction, X-ray methods, transmission and scanning electron microscopy. Prereq: CHEM 403; PHYS 408 or permission. Lab.

ME #770 - Design with Microprocessors
Credits: 4
Basic operation of microprocessors and micro-controllers is explained, and interfacing these devices to sensors, displays and mechanical systems is explored. Topics include: number systems, architecture, registers, memory mapping, interrupts and interfacing for system design. Methods of programming and interfacing with mechanical/electrical systems are covered in class, and then implemented in lab. Prereq: ECE 537 or permission. Lab.

ME 772 - Control Systems
Credits: 4
Development of advanced control system design concepts such as Nyquist analysis, lead-lag compensation, state feedback, parameter sensitivity, controllability, observability, introduction to non-linear and modern control. Includes interactive computer-aided design and real-time digital control. Prereq: ME 747 or permission. (Also offered as ECE 772.) Lab.

Equivalent(s): ECE 772, EE 772

ME 773 - Electromechanical Analysis and Design
Credits: 4
Analysis and design of electromechanical systems using lumped parameter models and magnetic finite element analysis (FEA). Electrostatic and magnetic field equations are discussed and used to derive magnetic and electric lumped model elements. Brushless dc motor is analyzed using lumped models and FEA. Various drive types are discussed and the motor system analyzed to obtain torque-speed curves. Design principles are given and utilized in a design project. Prereq: ME 670 or permission.

ME 777 - Computer Aided Engineering
Credits: 4
In this course, modules of Solid Works (beyond its basic solid modeling capabilities) and other software is used to demonstrate how computer based tools can be used in engineering practice, in particular design analysis and optimization. Emphasis placed on using knowledge from past engineering courses to obtain theoretical calculations to compare with the results from the computer software package. Prereq: ME 526 Strength of Materials; ME 627 Mechanics III; ME 603 Heat Transfer; and ME 608 Fluid Dynamics (or equivalent).

Attributes: Writing Intensive Course

ME 782 - Industrial Skills and Engineering
Credits: 3
In this course, the principles of Lean Manufacturing and Value Stream Mapping (VSM) as pioneered by Toyota and now utilized by most leading manufacturers will be studied and applied. Lean Manufacturing principles will be taught with classroom instruction and a structured model factory exercise. Instruction on the theory of Value Stream Mapping (VSM) will be followed with an actual industrial VSM activity where a process will be studied and a Desired Future State defined with VSM methods. This factory floor activity will be done collaboratively with employees from a manufacturing company.
ME 785 - Solid Mechanics in Manufacturing
Credits: 4
Characterization of material properties are studied with emphasis on plastic deformation. Also, numerical approaches to solve for the forces, stresses, and strains in manufacturing processes are covered. In particular, two prominent mass production manufacturing areas, metal forming and cutting, are examined. Prereq: ME 561; ME 627.

ME 786 - Introduction to Finite Element Analysis
Credits: 4
Topics include basic matrix theory, potential energy approach, direct stiffness method, calculus of variations, development of finite element theory, and modeling techniques. Applications in solid mechanics, heat transfer, fluids, and electromagnetic devices, via both commercially available codes and student-written codes. Prereq: ME 526 or permission. Lab.
Equivalent(s): CIE 786

ME 795 - Special Topics
Credits: 1-4
New or specialized courses and/or independent study.
Repeat Rule: May be repeated for a maximum of 20 credits.

ME 797 - Honors Seminar
Credits: 1
Course enrichment and/or additional independent study in subject matter pertaining to a 600- or 700-level ME course other than ME 695, ME 696, ME 697, or ME 795.

Military Science (MILT)

# Course numbers with the # symbol included (e.g. #400) have not been taught in the last 3 years.

MILT 401 - Leadership Laboratory I
Credits: 0
Open only to students taking another Military Science class, with different roles offered for students at different levels of the program. Involves leadership responsibilities for the planning, coordination, execution, and evaluation of various training programs. Students develop, practice and refine leadership skills by serving and being evaluated in a variety of supervisory positions. Specific events include team-building leader reaction course, orientation to military weapons, basic tactical movement, and land navigation. Cr/F.

MILT 402 - Leadership Laboratory II
Credits: 0
Open only to students taking another Military Science class, with different roles offered for students at different levels of the program. Involves leadership responsibilities for the planning, coordination, execution, and evaluation of various training programs. Students develop, practice and refine leadership skills by serving and being evaluated in a variety of supervisory positions. Specific events include basic marksmanship, advanced tactical movement, orienteering and land navigation. Cr/F.

MILT 403 - United States Army History
Credits: 3
Develops an understanding of the effects the US military and society have on each other through the establishment and background of the United States Army. Presented in the context of broader US military history and military strategy and global involvement. Through readings, oral and written presentations, and exams, students describe the role of the US Army, its evolution and its impact on society and technology; and critically analyze an armed conflict using the principles of war. This is a pre-commissioning requirement for professional military education (PME) required by the United States Army Cadet Command. It is open to non-ROTC students.
Repeat Rule: May be repeated for a maximum of 6 credits.

MILT 413 - Introduction to ROTC
Credits: 2
Make your first new peer group at college one committed to performing well and enjoying the experience. Increase self-confidence through team study and activities in physical fitness, rappelling, first aid, basic marksmanship, and basic drill. Learn fundamental concepts of leadership in both classroom and outdoor laboratory environments. One hour and a required leadership lab (MILT 401L) plus optional (mandatory for scholarship cadets) participation in three one-hour sessions of physical fitness per week. Participation in one weekend exercise is also required for all cadets. Open to all college students, no military commitment required.

MILT 414 - Introduction to ROTC II
Credits: 2
Learn and apply principles of effective leadership. Reinforce self-confidence through participation in physically and mentally challenging exercises with other ROTC cadets. Continued activities in basic drill, physical fitness, rappelling, first aid, and basic marksmanship. Develop communication skills to improve individual performance and group interaction. One hour and a required leadership lab (MILT 402L) plus optional (mandatory for scholarship cadets) participation in three one-hour sessions for physical fitness per week. Participation in one weekend exercise is also required for all cadets. Open to all college students; no military commitment required.

MILT 501 - Self/Team Development I
Credits: 2
Learn and apply ethics-based leadership skills that develop individual abilities and contribute to the building of effective teams of people. Develop skills in oral presentations, planning of events, advanced first aid, physical fitness, and land navigation. Learn techniques for training others as an aspect of continued leadership development. Two hours and a required leadership lab (MILT 401L), plus optional participation (mandatory for scholarship cadets) in three one-hour sessions of physical fitness per week. Participation in one weekend exercise is required. Additional weekend exercises may be offered for optional participation. Open to all college students, no military commitment required.
Co-requisite: MILT 401
Equivalent(s): MILT 502
MILT 502 - Individual/Team Military Tactics
Credits: 2
Introduces individual and team aspects of military tactics in small unit operations. Includes use of radio communications, making safety assessments, movement techniques, planning for team safety/security, and methods of pre-execution checks. Practical exercises with other ROTC students. Learn techniques for training others as an aspect of continued leadership development. Two hours and a required leadership lab (MILT 402L), plus optional participation (mandatory for scholarship cadets) in three one-hour sessions of physical fitness per week. Participation in one weekend exercise is required. Additional weekend exercises may be offered for optional participation. Open to all college students, no military commitment required.
Co-requisite: MILT 402
Equivalent(s): MILT 501

MILT 550 - Camp Challenge
Credits: 4
Five-week leadership training course at Fort Knox, Kentucky during the summer that exposes students to intensive leadership evaluation and development. Students learn fundamental military skills such as land navigation using a map and compass, principles of leadership, first aid, drill and ceremony, team building exercises, etc. in preparation for future training as ROTC cadets. Students gain professional knowledge in management and organization and experience group interaction and interpersonal communications through total immersion in a military type environment. Open only to students who have not completed all of the following: MILT 401, MILT 402, MILT 501, and MILT 502. Airfare, lodging, and expenses are paid by the Army. Student incurs no military obligation; program offers opportunities to earn a two-year scholarship and qualifies students to take MILT 601.

MILT 601 - Leading Small Organizations I
Credits: 4
Series of practical opportunities to lead small groups, receive personal assessments and encouragement, and lead again in situations of increasing complexity. Plan and conduct training for other ROTC students in small unit offensive and defensive operations. Three hours and required leadership lab (MILT 401L) plus required participation in three one-hour sessions of physical fitness per week. Participation in one weekend exercise is also required. Required leadership labs are offered for optional participation. Prereq: MILT 501.

MILT 602 - Leading Small Organizations II
Credits: 4
Continues the methodology from MILT 601. Analyze tasks; prepare written and oral guidance for team members to accomplish tasks. Delegate tasks and supervise. Plan for and adapt to the unexpected in organizations under stress. Examine and apply lessons from leadership studies. Examine importance of ethical decision making in setting a positive climate that enhances team performance. Three hours and a required leadership lab (MILT 402L) plus required participation in three one-hour sessions for physical fitness per week. Participation in one weekend exercise is also required, and one or two more weekend exercises may be offered for optional participation.

MILT 611 - Seminar on Leadership and Management I
Credits: 4
Plan, conduct and evaluate activities of the ROTC cadet organization. Articulate goals and put plans into action to attain them. Assess organizational cohesion and develop strategies to improve it. Develop confidence in skills to lead people and manage resources. Learn/apply various Army policies and programs in this effort. Three hours and a required leadership lab (MILT 401L) plus required participation in three one-hour sessions for physical fitness per week. Participation in one weekend exercise is also required, and one or two more weekend exercises may be offered for optional participation. Prereq: MILT 601 and MILT 602.

MILT 612 - Transition to Lieutenant
Credits: 4
Continues the methodology from MILT 611. Identify and resolve ethical dilemmas. Refine counseling and motivating techniques. Examine aspects of tradition and law as related to leading as an officer in the Army. Prepare for a future as a successful Army lieutenant. Three hours and a required leadership lab (MILT 402L) plus required participation in three one-hour sessions for physical fitness per week. Participation in one weekend exercise is also required, and one or two more weekend exercises may be offered for optional participation. Prereq: MILT 611.

MILT 695 - Officer Internship
Credits: 1-4
Experiential learning through fieldwork in a military-type unit. Written analysis required. Prereq: MILT 611 (may be taken concurrently). By permission only. Coreq: MILT 401.
Repeat Rule: May be repeated for a maximum of 8 credits.

Music (MUSI)

# Course numbers with the # symbol included (e.g. #400) have not been taught in the last 3 years.

MUSI 401 - Introduction to Music
Credits: 4
Fundamental approach to analytical listening with attention to learning how to aurally recognize and apply the basic elements of music to a wide variety of specific musical works in oral and written contexts. Critical thinking and listening skills will be developed through study of music in a variety of cultural and historical perspectives. Some participation in musical life of the University may be required, unless this is the fully online version. This course does not fulfill a music major program requirement nor does it satisfy the Fine and Performing Arts Discovery requirement for any music major program.
Attributes: FinePerformingArts(Discovery)
Equivalent(s): MUSI 401H

MUSI 401H - Honors/Introduction to Music
Credits: 4
Fundamental approach to perceptive listening based on a detailed study of several masterpieces representing different periods and forms. Historical perspective, but main emphasis is on confronting significant works of musical art on their own terms. Some participation in musical life of the University required. This course does not fulfill a music major program requirement nor does it satisfy the Fine and Performing Arts Discovery requirement for any music major program.
Attributes: FinePerformingArts(Discovery)
Equivalent(s): MUSI 401
MUSI 402 - Historical Survey of Western Classical Concert Music  
Credits: 4  
The study of the development of musical styles and idioms of Western European classical concert music in the context of selected historical and cultural aspects of Western civilization. Some participation in musical life of the University may be required. This course does not fulfill a music major program requirement nor does it satisfy the Fine and Performing Arts Discovery requirement for any music major program.  
Attributes: FinePerformingArts(Discovery)  
Equivalent(s): MUSI 402H

MUSI 402H - Honors/Survey of Music History  
Credits: 4  
The study of the development of musical styles and idioms in the context of selected historical and cultural aspects of Western civilization. This course does not fulfill a music major program requirement nor does it satisfy the Fine and Performing Arts Discovery requirement for any music major program.  
Attributes: FinePerformingArts(Discovery)  
Equivalent(s): MUSI 402

MUSI 403 - Roots of Rock  
Credits: 4  
Focuses on the musical styles, traditions, and social circumstances that led to a distinctive form of American popular music in the 1950’s and ‘60’s. In addition to developing critical listening skills to discern subtle distinctions among such styles and sub-styles as blues, folk, jazz, and country, the course also considers the diverse social trends that helped drive changes and developments in the various styles and genres covered. While some attention will be devoted to rock music of the mid-late sixties, the course emphasizes the various musical styles that preceded rock.  
Attributes: FinePerformingArts(Discovery)  
MUSI 404 - An Introduction to Music, Media, and the Moving Image  
Credits: 4  
Through selected readings, attentive listening, viewing, and discussion of a variety of films and multi-media productions, students develop a common vocabulary for analyzing music accompanying moving images. Students develop an understanding of the western and non-western musical conventions that work, often at a subconscious level, in conjunction with images to shape and cue audience responses to, and interaction with, visual cues. Media includes canonic Hollywood films, independent and foreign cinema, with explorations of non-Western films, video game scoring, television, and animation. This course does not fulfill a music major program requirement nor does it satisfy the Fine and Performing Arts Discovery requirement for any music major program.  
Attributes: FinePerformingArts(Discovery)

MUSI 405 - Survey of Music in America  
Credits: 4  
From colonial times to the present, including various European influences, the quest for an American style, and the emergence of such indigenous phenomena as jazz. This course does not fulfill a music major program requirement nor does it satisfy the Fine and Performing Arts Discovery requirement for any music major program. (Formerly MUSI 511).  
Attributes: FinePerformingArts(Discovery)  
Equivalent(s): MUSI 511

MUSI 406 - Country Music  
Credits: 4  
This course surveys the rich musical, cultural, and economic history of country music in the United States. Since its inception, country music has embodied a tension between tradition and progress. Country music thereby reflects a basic feature of the American story, valorizing our history while valuing social and technological development. Throughout the course, we consider this tension as it affects the musical content and cultural meaning of country music.  
Attributes: FinePerformingArts(Discovery)

MUSI 411 - Fundamentals of Music Theory  
Credits: 4  
Elements of music theory for the non-music major; principles of musical structure, analysis, elementary written counterpoint and harmony, and ear training. May not be counted for credit toward a music major. Prereq: ability to read music and permission of the instructor.

MUSI 412 - Fundamentals of Music Theory  
Credits: 4  
Elements of music theory for the non-music major; principles of musical structure, analysis, elementary written counterpoint and harmony, and ear training. May not be counted for credit toward a music major. Prereq: ability to read music and permission of the instructor. Prereq: MUSI 411 or permission of instructor.

MUSI 441 - Concert Choir  
Credits: 1  
Large, non-auditioned, SATB chorus specializing in the performance of choral art-song, masterworks, and symphonic choral repertoire. Open to all students. Pre-registration is encouraged. This class requires two concerts outside of the normal class meeting times.  
Repeat Rule: May be repeated for a maximum of 8 credits.

MUSI 442 - Chamber Singers  
Credits: 1  
Auditioned SATB chorus specializing in unaccompanied choral repertoire. Choral experience and strong skills in musicianship are recommended. Students who register for MUSI 442 must also register for MUSI 441. Auditions are open to all students and conducted the first week of the semester. Contact the instructor for further information. This class requires a number of concerts outside of the normal class meeting times; a schedule is included in the syllabus.  
Co-requisite: MUSI 441  
Repeat Rule: May be repeated for a maximum of 8 credits.

MUSI 444 - Music and Social Change  
Credits: 4  
The connections between music and social change with a twofold goal: 1) to heighten critical listening skills so as to become more aware of ways in which music can express social attitudes; and 2) to introduce the social, cultural, and political issues surrounding the music being studied. Course work consists of listening to selected repertoires, reading scholarly and popular essays about those repertories, and extensive in-class (and on-line) discussion about issues raised by the listening and reading. This course does not fulfill a music major program requirement nor does it satisfy the Fine and Performing Arts Discovery requirement for any music major program. Writing intensive.  
Attributes: FinePerformingArts(Discovery); Inquiry (Discovery); Writing Intensive Course
MUSI 448 - Vocal Arts Project  
Credits: 1  
This vocal performance course explores and prepares singers for a diverse and inclusive range of vocal repertory including but not limited to opera, music theatre, jazz, folk, country, contemporary commercial music, and original songs.  
Repeat Rule: May be repeated for a maximum of 8 credits.

MUSI 450 - Symphony  
Credits: 1  
Presents several concerts during the year of repertoire ranging from the great, standard symphonic literature to large modern works. Prereq: audition.  
Repeat Rule: May be repeated for a maximum of 8 credits.

MUSI 451 - Concert Band  
Credits: 1  
The Concert Band performs serious, concert music, ranging from transcriptions of works for other mediums, to the 20th century "classics" of the wind band repertoire and music written for wind band. Anyone with previous band experience is welcome. Auditions are for chair placement only.  
Repeat Rule: May be repeated for a maximum of 12 credits.

MUSI 452 - Wind Symphony  
Credits: 1  
Select wind ensemble which performs difficult classical and contemporary literature. Prereq: audition.  
Repeat Rule: May be repeated for a maximum of 8 credits.

MUSI 453 - Symphonic Band  
Credits: 1  
Original band music, transcription, marches, etc. For students whose program does not permit music as a major interest, but who are interested in maintaining their playing proficiency and continuing their study of music. Prereq: audition.  
Repeat Rule: May be repeated for a maximum of 8 credits.

MUSI 454 - UNH Marching Band  
Credits: 1  
Open to all students; performs during football games. Rehearsals conclude at the end of the football season.  
Repeat Rule: May be repeated for a maximum of 8 credits.

MUSI 455 - Piano Ensemble  
Credits: 1  
Drawing from available student instrumentalists and singers, pianists learn the art of performing in trios, duo sonatas, and two-piano works, and gain experience in Lieder accompaniment.  
Repeat Rule: May be repeated for a maximum of 8 credits.

MUSI 456 - String Ensemble  
Credits: 1  
Groups of instrumentalists gain experience in the performance of literature for the smaller ensemble. Prereq: permission.  
Repeat Rule: May be repeated for a maximum of 8 credits.

MUSI 457 - Woodwind Ensemble  
Credits: 1  
Groups of instrumentalists gain experience in the performance of literature for the smaller ensemble. Prereq: permission.  
Repeat Rule: May be repeated for a maximum of 8 credits.

MUSI 458 - Brass Ensemble  
Credits: 1  
Groups of instrumentalists gain experience in the performance of literature for the smaller ensemble. Prereq: permission.  
Repeat Rule: May be repeated for a maximum of 8 credits.

MUSI 459 - Percussion Ensemble  
Credits: 1  
Groups of instrumentalists gain experience in the performance of literature for the smaller ensemble. Prereq: permission.  
Repeat Rule: May be repeated for a maximum of 8 credits.

MUSI 460 - Jazz Band  
Credits: 1  
Two jazz bands perform a wide spectrum of big band literature. Prereq: audition.  
Repeat Rule: May be repeated for a maximum of 8 credits.

MUSI 461 - Vocal Jazz Ensemble  
Credits: 1  
Singers perform a wide spectrum of vocal jazz literature. Open to all students pending an audition during the first week of the semester. Contact the Department of Music for further information.  
Repeat Rule: May be repeated for a maximum of 8 credits.

MUSI 462 - Pep Band  
Credits: 1  
Rehearsal and performance of a broad range of band music at hockey and basketball games.  
Repeat Rule: May be repeated for a maximum of 8 credits.

MUSI 463 - Jazz Combo  
Credits: 1  
Groups of instrumentalists gain experience in the performance of literature for the smaller jazz ensemble. Prereq: permission.  
Repeat Rule: May be repeated for a maximum of 9 credits.

MUSI 464 - Guitar Ensemble  
Credits: 1  
Groups of instrumentalists gain experience in the performance of literature for the smaller ensemble. Prereq: permission.  
Repeat Rule: May be repeated for a maximum of 9 credits.

MUSI 471 - Theory I  
Credits: 3  
Introduces the tonal system; species counterpoint; principles of voice leading and harmonic progression through the analysis, realization, and composition of one-, two- and four-voiced textures. Concept of triad inversion and consonant diatonic harmonies of the major and minor modes. Students should register for MUSI 473 and MUSI 474 concurrently. Prereq: permission.

MUSI 472 - Theory I  
Credits: 3  
Introduces the tonal system; species counterpoint; principles of voice leading and harmonic progression through the analysis, realization, and composition of one-, two- and four-voiced textures. Concept of triad inversion and consonant diatonic harmonies of the major and minor modes. Students should register for MUSI 473 and MUSI 474 concurrently. Prereq: permission. Prereq: MUSI 471.

MUSI 473 - Ear Training I  
Credits: 1  
Laboratory exercises to develop aural skills; sight-singing and dictation. Students should register for MUSI 471 and MUSI 472 concurrently. Prereq: permission.
MUSI 474 - Ear Training I  
Credits: 1  
Laboratory exercises to develop aural skills; sight-singing and dictation. Students should register for MUSI 471 and MUSI 472 concurrently. Prereq: permission. Prereq: MUSI 473.

MUSI 475 - Functional Piano I  
Credits: 1  
Basic instruction for music majors with no previous keyboard training. Piano technique, keyboard harmony geared to the practical harmonization of simple melodies, sight reading, transposition, and modulation. May involve both class instruction and periodic short individual lessons. Prereq: permission.  
Co-requisite: MUSI 471, MUSI 473  
Equivalent(s): MUSI 467

MUSI 476 - Functional Piano I  
Credits: 1  
Basic instruction for music majors with no previous keyboard training. Piano technique, keyboard harmony geared to the practical harmonization of simple melodies, sight reading, transposition, and modulation. May involve both class instruction and periodic short individual lessons. Prereq: permission. Prereq: MUSI 475.  
Co-requisite: MUSI 472, MUSI 474  
Equivalent(s): MUSI 467

MUSI 501 - History and Literature of Music  
Credits: 3  
Styles, forms, and techniques of composition in Western music. Prereq: completion of MUSI 472 or MUSI 412; permission.

MUSI 502 - History and Literature of Music  
Credits: 3  
Styles, forms, and techniques of composition in Western music. Prereq: completion of MUSI 472 or MUSI 412; permission.  
Attributes: Inquiry (Discovery)

MUSI 515 - Music in World Cultures  
Credits: 4  
An introduction to musicking (participating in any way, including listening, in musical performance) beyond the Western tradition; this course offers students an opportunity to explore the music and culture of diverse regions from an ethnomusicological perspective. Through listening to and analyzing music, readings, lecture, discussion, and individual fieldwork projects, students discover how music functions within different world cultures and gain understanding of the ways people "make music meaningful and useful in their lives," as, through musicking, they articulate, resist, and transform cultural norms.  
Attributes: World Cultures (Discovery)

MUSI 520 - Diction for Singers I  
Credits: 2  
Application of International Phonetic Alphabet (IPA) to English, French, German, and Italian. Emphasizes both written and spoken performance.

MUSI 521 - Diction for Singers II  
Credits: 2  
Application of International Phonetic Alphabet (IPA) to English, French, German, and Italian. Emphasizes both written and spoken performance. Prereq: MUSI 520.

MUSI 536 - Early Wind Instruments  
Credits: 1-4  
Private instruction in Renaissance and Baroque wind instruments. Special fee.  
Repeat Rule: May be repeated for a maximum of 99 credits.

MUSI 540 - Recital Attendance  
Credits: 0  
This course is a requirement for all undergraduate music majors in the Department of Music. Students are required to attend at least twelve approved recitals or concerts during each semester they are enrolled. This course must be completed six times with a grade of Credit (Satisfactory) for zero credit each time.

MUSI 541 - Piano  
Credits: 1-4  
Private instruction in piano. Special fee for non-majors.  
Repeat Rule: May be repeated for a maximum of 99 credits.

MUSI 545 - Voice  
Credits: 1-4  
Private instruction in voice. Special fee for non-majors.  
Repeat Rule: May be repeated for a maximum of 99 credits.  
Equivalent(s): MUSI 546, MUSI 547, MUSI 746, MUSI 747

MUSI 546 - Violin  
Credits: 1-4  
Private instruction in violin. Special fee for non-majors.  
Repeat Rule: May be repeated for a maximum of 99 credits.  
Equivalent(s): MUSI 549, MUSI 550

MUSI 547 - Viola  
Credits: 1-4  
Private instruction in viola. Special fee for non-majors.  
Repeat Rule: May be repeated for a maximum of 99 credits.

MUSI 549 - String Bass  
Credits: 1-4  
Private instruction in string bass. Special fee for non-majors.  
Repeat Rule: May be repeated for a maximum of 99 credits.

MUSI 550 - Classical Guitar  
Credits: 1-4  
Private instruction in classical guitar. Special fee.  
Repeat Rule: May be repeated for a maximum of 99 credits.  
Equivalent(s): MUSI 544

MUSI 551 - Flute  
Credits: 1-4  
Private instruction in flute. Special fee for non-majors.  
Repeat Rule: May be repeated for a maximum of 99 credits.  
Equivalent(s): MUSI 536, MUSI 537

MUSI 552 - Clarinet  
Credits: 1-4  
Private instruction in clarinet. Special fee for non-majors.  
Repeat Rule: May be repeated for a maximum of 99 credits.

MUSI 553 - Saxophone  
Credits: 1-4  
Private instruction in saxophone. Special fee for non-majors.  
Repeat Rule: May be repeated for a maximum of 99 credits.

MUSI 554 - Oboe  
Credits: 1-4  
Private instruction in oboe. Special fee for non-majors.  
Repeat Rule: May be repeated for a maximum of 99 credits.
MUSI 555 - Bassoon
Credits: 1-4
Private instruction in bassoon. Special fee for non-majors.
Repeat Rule: May be repeated for a maximum of 99 credits.

MUSI 556 - French Horn
Credits: 1-4
Private instruction in French horn. Special fee for non-majors.
Repeat Rule: May be repeated for a maximum of 99 credits.

MUSI 557 - Trumpet
Credits: 1-4
Private instruction in trumpet. Special fee for non-majors.
Repeat Rule: May be repeated for a maximum of 99 credits.

MUSI 558 - Trombone
Credits: 1-4
Private instruction in trombone. Special fee for non-majors.
Repeat Rule: May be repeated for a maximum of 99 credits.

MUSI 559 - Euphonium
Credits: 1-4
Private instruction in euphonium. Special fee for non-majors.
Repeat Rule: May be repeated for a maximum of 99 credits.

MUSI 560 - Tuba
Credits: 1-4
Private instruction in tuba. Special fee for non-majors.
Repeat Rule: May be repeated for a maximum of 99 credits.

MUSI 561 - Percussion
Credits: 1-4
Private instruction in percussion. Special fee for non-majors.
Repeat Rule: May be repeated for a maximum of 99 credits.

MUSI 562 - Jazz Piano
Credits: 1-4
Private instruction in jazz piano. Special fee for non-majors. Permission required.
Repeat Rule: May be repeated for a maximum of 99 credits.

MUSI 563 - Jazz Guitar
Credits: 1-4
Private instruction in jazz guitar. Special fee for non-majors.
Repeat Rule: May be repeated for a maximum of 99 credits.

MUSI 564 - Drum Set
Credits: 1-4
Private instruction in drum set. Special fee for non-majors.
Repeat Rule: May be repeated for a maximum of 99 credits.

MUSI 571 - Theory II
Credits: 3
Continuation of MUSI 471- MUSI 472. Compositional and analytical work stresses the treatment of dissonance within the tonal system; accessory tones, seventh chords, tonicization, modulation, basic principles of chromatic harmony, and harmonization of chorale melodies are covered. Students should register for MUSI 573 and MUSI 574 concurrently. Prereq: MUSI 472; MUSI 474.

MUSI 572 - Theory II
Credits: 3
Continuation of MUSI 471- MUSI 472. Compositional and analytical work stresses the treatment of dissonance within the tonal system; accessory tones, seventh chords, tonicization, modulation, basic principles of chromatic harmony, and harmonization of chorale melodies are covered. Students should register for MUSI 573 and MUSI 574 concurrently. Prereq: MUSI 472; MUSI 474. Prereq: MUSI 571.

MUSI 573 - Ear Training II
Credits: 1
Laboratory exercises to develop aural skills further. Students should register for MUSI 571-572 concurrently. Prereq: MUSI 472; 474; permission.

MUSI 574 - Ear Training II
Credits: 1
Laboratory exercises to develop aural skills further. Students should register for MUSI 571-572 concurrently. Prereq: MUSI 472; 474; permission.

MUSI 575 - Functional Piano II
Credits: 1
Basic instruction for music majors with no previous keyboard training. Piano technique, keyboard harmony geared to the practical harmonization of simple melodies, sight reading, transposition, and modulation. May involve both class instruction and periodic short individual lessons. Prereq: permission. Prereq: MUSI 476.
Co-requisite: MUSI 571, MUSI 573
Equivalent(s): MUSI 467

MUSI 576 - Functional Piano II
Credits: 1
Basic instruction for music majors with no previous keyboard training. Piano technique, keyboard harmony geared to the practical harmonization of simple melodies, sight reading, transposition, and modulation. May involve both class instruction and periodic short individual lessons. Prereq: permission. Prereq: MUSI 575.
Co-requisite: MUSI 572, MUSI 574
Equivalent(s): MUSI 467

MUSI 595 - Special Topics in Music Literature
Credits: 1-4
Open to music majors and non-majors; topics in areas not easily covered in historical courses. Prereq: permission. May be repeated for credit.

MUSI 610 - Popular Music and Rebellion in the 1960's
Credits: 4
Examines the ways in which popular music helped form the youth culture, was used as an act of rebellion, and came to be a focal point of generational conflict and protest in the United States during the 1960s.

MUSI 703 - Music of the Renaissance
Credits: 3
Works of the 15th- and 16th-century composers from Dunstable to Palestrina. Prereq: MUSI 501 and MUSI 502 or permission. Writing intensive.
Attributes: Writing Intensive Course

MUSI 705 - Music of the Baroque
Credits: 3
Music of Europe from de Rore to Bach. Prereq: MUSI 501 and MUSI 502 or permission. Writing intensive.
Attributes: Writing Intensive Course

MUSI 707 - Music of the Classical Period
Credits: 3
Growth of musical styles and forms from early classicism through the high classicism of Haydn, Mozart, and the young Beethoven. Prereq: MUSI 501 and MUSI 502 or permission. Writing intensive.
Attributes: Writing Intensive Course
MUSI 709 - Music of the Romantic Period
Credits: 3
A survey of romanticism in music from Beethoven's late period to the end of the 19th century. The works of Schubert, Berlioz, Schumann, Mendelssohn, Chopin, Wagner, Verdi, Brahms, Austrian symphonists, French pre-impressionists, and national styles in European music. Prereq: MUSI 501 and MUSI 502 or permission.
Equivalent(s): MUSI 709W

MUSI 709W - Music of the Romantic Period
Credits: 3
A survey of romanticism in music from Beethoven's late period to the end of the 19th century. The works of Schubert, Berlioz, Schumann, Mendelssohn, Chopin, Wagner, Verdi, Brahms, Austrian symphonists, French pre-impressionists, and national styles in European music. Prereq: MUSI 501 and MUSI 502 or permission. Writing intensive.
Attributes: Writing Intensive Course
Equivalent(s): MUSI 709

MUSI 711 - Music of the 20th and 21st Centuries
Credits: 3
Styles and techniques of composers from Debussy to the present. Special emphasis on tonal music before World War I, neoclassical trends, the emergence of atonality and serial techniques, electronic music. Prereq: MUSI 501 and MUSI 502 or permission. Writing intensive.
Attributes: Writing Intensive Course

MUSI 713 - Art Song
Credits: 3
History and literature of the solo song with piano accompaniment. Survey of national styles of the 19th and 20th centuries and deeper study of the central core of the art song--the German Lied. Prereq: MUSI 501 and MUSI 502 or permission. Writing intensive.
Attributes: Writing Intensive Course

MUSI 715 - Survey of Opera
Credits: 3
History of the genre from Monteverdi to the present. Prereq: MUSI 501 and MUSI 502 or permission. Writing intensive.
Attributes: Writing Intensive Course

MUSI 731 - Conducting
Credits: 2
Physical aspects, equipment of conductor, fundamental gestures and beats, baton techniques. Reading and analysis of full and condensed scores, study of transposition, psychology of rehearsal. Prereq: MUSI 571.

MUSI 732 - Conducting
Credits: 2
Physical aspects, equipment of conductor, fundamental gestures and beats, baton techniques. Reading and analysis of full and condensed scores, study of transposition, psychology of rehearsal. Prereq: MUSI 571. Prereq: MUSI 731.

MUSI 736 - Early Wind Instruments
Credits: 1-4
Private instruction in Renaissance and Baroque wind instruments. Special fee.
Repeat Rule: May be repeated for a maximum of 99 credits.

MUSI 740 - Voice
Credits: 1-4
Private instruction in voice. Special fee for non-majors.
Repeat Rule: May be repeated for a maximum of 99 credits.

MUSI 745 - Voice
Credits: 1-4
Private instruction in voice. Special fee for non-majors.
Repeat Rule: May be repeated for a maximum of 99 credits.

MUSI 746 - Violin
Credits: 1-4
Private instruction in violin. Special fee for non-majors.
Repeat Rule: May be repeated for a maximum of 99 credits.

MUSI 747 - Viola
Credits: 1-4
Private instruction in viola. Special fee for non-majors.
Repeat Rule: May be repeated for a maximum of 99 credits.

MUSI 748 - Violoncello
Credits: 1-4
Private instruction in violoncello. Special fee for non-majors.
Repeat Rule: May be repeated for a maximum of 99 credits.

MUSI 749 - String Bass
Credits: 1-4
Private instruction in string bass. Special fee for non-majors.
Repeat Rule: May be repeated for a maximum of 99 credits.

MUSI 750 - Classical Guitar
Credits: 1-4
Private instruction in classical guitar. Special fee.
Repeat Rule: May be repeated for a maximum of 99 credits.

MUSI 751 - Flute
Credits: 1-4
Private instruction in flute. Special fee for non-majors.
Repeat Rule: May be repeated for a maximum of 99 credits.

MUSI 752 - Clarinet
Credits: 1-4
Private instruction in clarinet. Special fee for non-majors.
Repeat Rule: May be repeated for a maximum of 99 credits.

MUSI 753 - Saxophone
Credits: 1-4
Private instruction in saxophone. Special fee for non-majors.
Repeat Rule: May be repeated for a maximum of 99 credits.

MUSI 754 - Oboe
Credits: 1-4
Private instruction in oboe. Special fee for non-majors.
Repeat Rule: May be repeated for a maximum of 99 credits.

MUSI 755 - Bassoon
Credits: 1-4
Private instruction in bassoon. Special fee for non-majors.
Repeat Rule: May be repeated for a maximum of 99 credits.

MUSI 756 - French Horn
Credits: 1-4
Private instruction in French horn. Special fee for non-majors.
Repeat Rule: May be repeated for a maximum of 99 credits.

MUSI 757 - Trumpet
Credits: 1-4
Private instruction in trumpet. Special fee for non-majors.
Repeat Rule: May be repeated for a maximum of 99 credits.

MUSI 758 - Trombone
Credits: 1-4
Private instruction in trombone. Special fee for non-majors.
Repeat Rule: May be repeated for a maximum of 99 credits.
MUSI 759 - Euphonium
Credits: 1-4
Private instruction in euphonium. Special fee for non-majors.
Repeat Rule: May be repeated for a maximum of 99 credits.

MUSI 760 - Tuba
 Credits: 1-4
Private instruction in tuba. Special fee for non-majors.
Repeat Rule: May be repeated for a maximum of 99 credits.

MUSI 761 - Percussion
Credits: 1-4
Private instruction in percussion. Special fee for non-majors.
Repeat Rule: May be repeated for a maximum of 99 credits.

MUSI 762 - Jazz Piano
Credits: 1-4
Private instruction in jazz piano. Special fee for non-majors. Permission required.
Repeat Rule: May be repeated for a maximum of 99 credits.

MUSI 763 - Jazz Guitar
Credits: 1-4
Private instruction in jazz guitar. Special fee for non-majors.
Repeat Rule: May be repeated for a maximum of 99 credits.

MUSI 764 - Drum Set
Credits: 1-4
Private instruction in drum set. Special fee for non-majors.
Repeat Rule: May be repeated for a maximum of 99 credits.

MUSI 771 - Counterpoint
Credits: 3
Contrapuntal techniques of tonal music. Melodic construction and dissonance treatment through work in species counterpoint and studies in harmonic elaboration and prolongation. Analysis of selected compositions emphasizes the connection between fundamental contrapuntal techniques and the voice-leading of composition. Prereq: MUSI 572 or permission.

MUSI 775 - Composition
Credits: 1-4
Studies in composition and score preparation resulting in the creation of original compositions to be performed on a student composers’ concert in the Music Department. Prereq: MUSI 572 or permission.

MUSI 776 - Composition
Credits: 1-4
Studies in composition and score preparation resulting in the creation of original compositions to be performed on a student composers’ concert in the Music Department. Prereq: MUSI 572, MUSI 775 or permission.

MUSI 777 - Advanced Composition
Credits: 1-4
Continuation of MUSI 776. Individual compositional projects. Prereq: MUSI 776 and permission. May be repeated for credit.

MUSI 778 - Topics in Electronic Music
Credits: 1-4
Introduces and develops skills in the fundamentals of musical acoustics, and the principal compositional resources of digital/electronic music. Permission required.

MUSI 779 - Orchestration
Credits: 3
Characteristics of band and orchestral instruments both individually and in small (homogeneous) and large mixed groupings. Students study scores, write assignments, and have arrangements performed if possible. Prereq: MUSI 572 or permission.

MUSI 781W - Analysis: Form and Structure
Credits: 3
Introduces analytical techniques through the study of representative masterworks: formal and structural elements and their interrelationships. Analysis of 18th- and 19th century works. Prereq: MUSI 572 or permission. Special fee. Writing intensive.
Attributes: Writing Intensive Course

MUSI 782W - Analysis: Form and Structure
Credits: 3
Introduction to analytical techniques through the study of representative masterworks: formal and structural elements and their interrelationships. Analysis of 20th- and 21st-century works. Prereq: MUSI 572 or permission. Writing intensive.
Attributes: Writing Intensive Course
Equivalent(s): MUSI 782

MUSI 795 - Special Studies
Credits: 1-4
Repeat Rule: May be repeated up to 4 times.
Equivalent(s): MUSI 795

MUSI 795W - Special Studies/Cardiff
Credits: 1-3
Advanced Music History or Advance Music Theory for Cardiff U. Study Abroad. Prereq: permission.
Attributes: Writing Intensive Course
Equivalent(s): MUSI 795

Music Education (MUED)
# Course numbers with the # symbol included (e.g. #400) have not been taught in the last 3 years.

MUED 595 - Special Projects
Credits: 1-4
Individual investigation, research, or study. Creative projects may be included. Prereq: permission.
MUED 741 - Techniques and Methods in Choral Music
Credits: 2
Methods for teaching choral music in 5-12th grade schools, the developing voice, vocal modeling, repertoire selection, choral conducting, rehearsal technique, sequencing and feedback, piano skills for choral rehearsal, in-school fieldwork. This class requires a fieldwork component. Students will conduct rehearsals at Oyster River Middle School 7:00am-7:50am at least once per week for a portion of the semester. Prereq: EDUC 500; MUSI 731; MUSI 732.

MUED 743 - Materials and Methods in Piano Music
Credits: 2
Gives potential piano teachers a coherent but flexible approach to the instruction of students of different ages and levels of talent through evaluation of methods and materials and discussion of the role of the private teacher.

MUED 745 - Techniques and Methods in String Instruments
Credits: 2
Class and individual instruction. Intensive training on the violin, viola, cello, and double bass. Classroom procedures, establishment of string programs, and evaluation of available methods materials. Permission required.

MUED 747 - Techniques and Methods in Woodwind Instruments
Credits: 2 or 3
Basic course in embouchure formation, tone production, tonguing, fingering and instrument care as applied to each of the woodwinds: flute, oboe, clarinet, bassoon and saxophone. Methods, studies, solos and ensembles most useful with school players of woodwind instruments. Permission required.

MUED 749 - Techniques and Methods in Brass Instruments
Credits: 2
Basic course in embouchure formation, tone, tonguing, fingering, flexibility, accuracy, and range development as applied to the trumpet or baritone horn, French horn, and trombone. Methods, studies, solos, and ensembles most likely to be useful with school players of brass instruments. Permission required.

MUED 751 - Techniques and Methods in Percussion Instruments
Credits: 2
Basic performance skills on snare drum, timpani, mallet instruments, and other percussion instruments used in bands and orchestras. Materials and methods of instruction. Permission required.

MUED 755 - Vocal Pedagogy
Credits: 1 or 2
A study of vocal anatomy, vocal function, and teaching methods, with an emphasis on application for singers and voice teachers.

MUED #763 - Jazz Music Methods
Credits: 2
Organization and delivery of instruction in jazz. Historical development of jazz styles and the role of each instrument/voice in jazz combos and large ensembles. Reading jazz notation and teaching improvisation. Examination of appropriate literature. Prereq: piano proficiency. Permission required.

MUED 765 - Instrumental Music Methods
Credits: 2
Organization and delivery of instruction to groups of instrumental music students. Examination of appropriate curricula and materials, application of instrumental and conducting techniques, structure of rehearsals, assessment of student progress. Prereq: junior standing.

MUED 771 - Marching Band Methods
Credits: 2
Role of marching band in the school music program. Design and execution of field shows and parade marching. Understanding of marching percussion and auxiliary units. Examination of appropriate music. Prereq: MUSI 454 and MUSI 571.

MUED 790 - Teaching Elementary School Music
Credits: 3
Experiential approach toward learning creative strategies for teaching elementary school music. Includes various curricula and methods; philosophy and psychology of music; demonstration of materials and instruments. Observation and teaching in schools. Prereq: piano proficiency.
Equivalent(s): MUED 787

MUED 791 - Teaching Secondary School Music
Credits: 2
Assembling, managing, and teaching junior/senior high school music curriculum. Academic issues of philosophy, curriculum building, application of learning theories, administration, evaluation, motivation, and classroom management combined with field experience in lesson planning and teaching/rehearsal techniques. Prereq: piano proficiency; MUSI 731 and MUSI 732.

MUED 795 - Special Studies
Credits: 1-4
Allows upper-level students to explore individually or in groups areas related to their specific professional interests. Prereq: permission.

Natural Resources (NR)

Course numbers with the # symbol included (e.g. #400) have not been taught in the last 3 years.

NR 400 - Professional Perspectives in Natural Resources
Credits: 1
Lectures by departmental faculty provide an informal look at the various natural resource disciplines and professions represented by the Department of Natural Resources. These presentations acquaint students with our faculty and inform them of some of the exciting research being undertaken in the department. Students also learn of opportunities for professional involvement. Required for all first-semester Natural Resources majors. Cr/F.

NR #401 - Introduction to Natural Resources
Credits: 4
Overview of the history, politics, economics, ethics, and ecology involved with the conservation and management of living and non-living natural resources. Sets the stage for subsequent natural resource courses by introducing the scientific basis for natural resource conservation and management. Labs build confidence in map and compass work and provide hands on field experience within the various natural resource disciplines. Debates and discussions of natural resource related hot topics provide opportunities to practice public speaking, problem solving, and critical thinking skills. Restricted to NR majors or by Permission. Lab. Special fee.
Attributes: Inquiry (Discovery)
Equivalent(s): FORS 401
NR 403 - Introduction to Environmental Science
Credits: 4
A multi-disciplinary introduction to Environmental Sciences, presenting basic concepts and controversies in geology, meteorology/hydrology, global biology and biogeochemistry, integrated through the study of the Earth as system. Intended primarily for declared or perspective majors in Environmental Sciences and related programs. Combines lecture and discussion with discovery and presentation experiences to address the history of ideas, and major questions and controversies, both settled and active.
Attributes: Inquiry (Discovery)

NR 410 - Insects and Society
Credits: 4
Insects have had a major impact on human culture throughout the centuries as source of food, an inspiration in literature and art, and a driving force behind social relationships. We study basic insect biology and ecology with a focus on their relationships to humans. Special fee. Lab.
Attributes: Biological Science(Discovery); Discovery Lab Course Equivalent(s): ENTO 400

NR 415 - Natural Resources Field Methods
Credits: 2
This course is intended to serve first or second year students in Forestry, Wildlife and Conservation Biology, and Environmental Conservation and Sustainability. After taking this course, students are able to navigate successfully in wild terrain using pacing, map, compass, GPS; can conduct a simple planar survey including cartography; and can sample a forest in order to characterize the abundance and quality of forest resources. Moreover, students know the fundamental principles of navigation, surveying, and field sampling.

NR 417 - Sophomore Seminar: Wildlife and Conservation Biology
Credits: 2
This course provides a professional foundation and orientation for second-year Wildlife & Conservation Biology (WCB) students. Through readings, seminars, guest speakers, and conservation, students will explore the range of what it means to be a professional Wildlife & Conservation Biologist. After taking this course, students will be better able to navigate and critique the scientific literature, synthesize and communicate information, and understand and articulate the diverse field of Wildlife & Conservation Biology.

NR 425 - Field Dendrology
Credits: 4
Students study forest trees in natural communities and urban settings. Identification and nomenclature of important North American trees and shrubs is emphasized. Environmental factors influencing tree growth, combined with study of disturbance history, provide the context for understanding why tree species grow where they do. Students are introduced to the major forest regions of North America. Restricted to NR majors; others by permission. Special fee.
Equivalent(s): EC 410, FOR 425, NR 420

NR 433 - Wildlife Ecology
Credits: 4
Historical, biological, ecological, and sociological factors influencing the wildlife resource and its management. Concepts in populations, communities, habitat, and contemporary wildlife issues. Special fee. Lab.
Attributes: Biological Science(Discovery); Discovery Lab Course Equivalent(s): WILD 433

NR 435 - Contemporary Conservation Issues and Environmental Awareness
Credits: 4
Explores the impacts of technology and human activity on our environment and natural resources. Key conservation issues are used as examples of past and present biological, social, and environmental conflicts.
Attributes: Environment,TechSociety(Disc) Equivalent(s): EC 435, NR 435H, NR 435W, NR 535

NR 435H - Honors/Contemporary Conservation Issues and Environmental Awareness
Credits: 4
Explores the impacts of technology and human activity on our environment and natural resources. Key conservation issues are used as examples of past and present biological, social, and environmental conflicts.
Attributes: Environment,TechSociety(Disc) Equivalent(s): NR 435

NR 437 - Principles of Sustainability
Credits: 4
In this course, we investigate the foundational principles of the concept of sustainability. Our objectives include: understanding the many integrated dimensions of sustainability; examining illustrations of unsustainable human-environment relations; recognizing the complexity of sustainability problems and the challenges to finding solutions; comprehending that human-environment relations are a multi-level, complex and dynamic system, and appreciating that the sustainability of ecosystems is necessarily embedded in social, cultural and historical trends.

NR 439 - Environmental Biology
Credits: 4
Environmental biology focuses on the origins, functions, and interactions of populations, communities, species and ecosystems in relation to dynamic environmental processes. The main course objective is to provide a basic understanding of ecosystem function and the ecological, evolutionary, and genetic principles necessary to understand biological diversity and its distribution. Special fee.

NR 444B - The Real Dirt
Credits: 4
Explores sustainable agriculture, regional and local food supply and systems, land ethics and agrarian thought as a natural resource and environmental conservation issue. Focusing on northern and central New England, the course uses the teaching of Aldo Leopold and includes hands-on study of UNH's new initiatives in sustainable and organic agriculture and the on-campus food system. A visit to University farms is included. Writing intensive.
Attributes: Environment,TechSociety(Disc); Inquiry (Discovery); Writing Intensive Course

NR 444E - Eye of Newt and Toe of Frog: The World of Poisonous Animals
Credits: 4
Course examines a variety of animal poisons and venoms in different contexts. Historical, cultural, physiological, pharmacological, and evolutionary viewpoints are explored. Readings, guest lectures, and peer blog entries are used to refine critical thinking skills and form the basis of in-class discussions.
Attributes: Biological Science(Discovery); Inquiry (Discovery)
NR 444F - Does Extinction Matter
Credits: 4
This course examines the causes and potential consequences of biodiversity loss. By considering ecological, economic, and ethical perspectives students will be asked to develop an informed personal answer to the question Does extinction matter? Development of critical thinking as well as written and oral communication skills will be stressed through a variety of in-class and outside class activities.
Attributes: Humanities(Disc); Inquiry (Discovery)

NR 458 - The Science of Where
Credits: 4
This online course introduces the principles and practices of spatial thinking through lectures, readings, discussions, and hands-on laboratory exercises. Students learn not only to think spatially, but also how to apply this knowledge in their own fields of study.
Attributes: Discovery Lab Course; Physical Science(Discovery)

NR 501 - Studio Soils
Credits: 4
An overview of physical, chemical, and biological properties of soil. Sub-disciplines of soil chemistry, soil physics, soil microbiology, soil genesis, and classification. Special fee. Lab.
Equivalent(s): SOIL 501

NR 502 - Forest Ecosystems and Environmental Change
Credits: 4
Forest ecosystems cover a large fraction of the Earth's land surface and account for most of its terrestrial biological productivity. This course introduces forest ecosystems around the world and explores both the natural processes that regulate them and the environmental factors that cause change over time. Topics include tree growth strategies, successional change, nutrient cycling, and human-induced stressors such as air pollution and climate change. Special fee.
Attributes: Environment, TechSociety(Disc)
Equivalent(s): FOR 502, NR 502W

NR 504 - Freshwater Resources
Credits: 4
Major determinants of freshwater resources including hydrologic cycle and water balance, precipitation, stream-flow measurement, pollution, water supply and sewage treatment, water resource management and regulation. Special fee. Lab/field trips.
Attributes: Discovery Lab Course; Physical Science(Discovery)
Equivalent(s): WARM 504

NR 506 - Forest Entomology
Credits: 4
Insects are among the most diverse and abundant organisms on the planet and play a crucial role in forest ecosystems. Insects from the base of the consumer food web in forests and are key drivers of nutrient cycling, pollination, etc. This course surveys common and important insect orders, families, and species found in forest systems and provides the tools for basic identification and biological study of these fascinating creatures. Special fee.
Equivalent(s): FOR 506

NR 507 - Introduction to our Energy System and Sustainable Energy
Credits: 4
This course introduces students to our domestic energy system and the expanding efforts to develop our use and acceptance of sustainable energy. It provides a historical context of our system that explains where we are today in terms of the grid, technologies, energy use and production and energy markets, primarily for electricity and building use. The course examines how our current impedes and enhances opportunities for innovation in renewable technologies and financing.
Attributes: Environment, TechSociety(Disc)

NR 527 - Forest Ecology
Credits: 4
Introduces basic and applied ecology of forests, with emphasis on ecosystem processes, including water, energy, and nutrient cycles; biological interactions, including biodiversity and plant-plant, plant-animal, and plant-microbe relationships; and human impacts, including forest management, land-use/land cover-change, and changes in atmospheric chemistry. Prereq: BIOL 409 or BIOL 411. Restricted to NR majors or by Permission. Special fee. Lab.
Equivalent(s): FORT 527

NR #542 - Forestland Measurement and Mapping
Credits: 1
Elementary measuring equipment and techniques; preparation of maps; public land survey; court-house deed search. (Forestry and Wildlife majors only.) Special fee.
Equivalent(s): ESCI 534, FOR 542

NR 561 - Chemistry of the Environment
Credits: 4
The course is designed for students who desire a deeper understanding of chemical principles in environmental and ecology-related disciplines. This course will focus on understanding key principles that underlie many of the important chemical processes that influence the functioning and health of environmental systems. These include reaction rates, oxidation-reduction, kinetics and enzyme dynamics, pH and acid-base equilibria, organic transformations, colloids and particulate behavior, and analytical approaches to understanding environmental chemistry. Prereq: CHEM 403, CHEM 405 or CHEM 411.

NR 600 - Work Experience
Credits: 0
As part of their degree program, students are expected to engage in a work experience or internship under professional supervision and approved by natural resources faculty. This experience may occur at any time during their sophomore through senior years. Students are responsible for arranging their own experience in consultation with their advisor and NREN faculty members. Permission. Cr/F.
Equivalent(s): NR 599

NR 601 - Environmental Conservation and Sustainable Living Internship
Credits: 4
Practical internship and field experience in a location removed from the University milieu to give the environmental conservation student a dimension and insight into sustainable resource management systems not available in the campus experience. Prereq: permission. Cr/F.
Equivalent(s): EC 601
NR 602 - Natural Resources and Environmental Policy
Credits: 4
Contemporary natural resource and environmental policy problems/issues are addressed from a policy sciences perspective with emphasis on domestic policy solutions. Critical assessment of major policy initiatives and their implementation toward sustainable resource use and a healthy environment. Public policies are analyzed to determine the extent to which their implementation strategies have succeeded, and to assess their adequacy within a bioregional or ecosystem approach, and/or capacity to integrate economic and environmental decisions. Cases include national and local policies in their global context. Students apply public policy analysis and decision tools in laboratory sessions. Prereq: junior/senior; Restricted to NR majors or by Permission. Special fee. Writing intensive.
Attributes: Writing Intensive Course
Equivalent(s): EC 702

NR 603 - Landscape Ecology
Credits: 4
This course focuses on the relationships between scale, spatial patterns and ecological processes. Through lecture, discussion and lab exercises students learn about scale and scaling techniques, the abiotic and biotic processes creating landscape patterns, how landscape patterns are characterized, and the application of landscape ecology theory to contemporary issues in conservation and management. Emphasis placed on landscape perspectives and practices as they relate to understanding and managing populations and communities. Prereq: BIOL 541, NR 527 or permission of instructor.

NR 606 - International Energy Topics
Credits: 4
This course introduces students to international energy topics. Students will be exposed to a historical context and current status of several energy-related issues from an international perspective. Topics range from energy poverty, energy and climate change and global fossil fuel subsidies. Studies of specific technologies will be delivered through the context of international leaders, Iceland and geothermal, the UK and offshore wind and solar in Germany.

NR 615 - Wildlife Habitats
Credits: 4
Introduces animal-habitat associations, including an examination of spatial and temporal features of wildlife habitat, the evolution of habitat selection, and how habitat suitability/productivity is evaluated. Prereq: woody plant identification; limited to wildlife management majors and minors. Permission. Special fee. Writing intensive.
Attributes: Writing Intensive Course
Equivalent(s): WILD 615

NR 620 - Farm to Table: A Case Study in the Northern Beauce Region of France
Credits: 4
Course provides students a unique study abroad experience that blends the study of agroecology with an on-farm stay that allows them to see how food moves from the field to table. Students participate in lectures, field trips, readings, and discussions on topics including agricultural sustainability, agriculture and environmental health (soil/water quality, biodiversity), the influence of agriculture on the local ecology, and the relationship between French agriculture and the current local food movement in the U.S. They also get practical, on-farm experience by assisting with the harvest and transport of vegetables and edible flowers for the Paris market. Permission required. Special fee.

NR #621 - Field Description of Soils
Credits: 3
Description of soils in the field. Application of soils properties to forestry, plant science, and community planning. Special orientation to fieldwork. Special fee. Lab.
Equivalent(s): SOIL 601

NR 625 - Physiological Ecology
Credits: 4
Course examines the physiological mechanisms and adaptive responses of organisms that facilitate their survival in changing natural environments. Following an introduction to homeostasis and general physiological principles, topics focus on adaptations to the marine and freshwater environments, to estuarine challenges, and the specific requirements of terrestrial and aerial environments. Additional topics center on adaptations to extreme habitats and to parasitic life styles. Furthermore, the physiological bases of migrations, sleep, and mating/life history strategies are also explored. Examples are drawn from invertebrates, vertebrates, and plants. Prereq: one year college level biology.

NR 637 - Practicum in Environmental Conservation
Credits: 4
Independent participation in an environmental conservation activity in the area of the student's specialization. Individual or group projects may be developed under the supervision of any faculty member within or outside natural resources or with supervisors in public and private agencies, upon approval of the course instructor. Research projects not acceptable. Prereq: senior standing in the environmental conservation program. Cr/F.
Equivalent(s): EC 637, NR 637H

NR 640 - Wildlife Population Ecology
Credits: 4
An overview of the mechanisms that influence the characteristics of terrestrial wildlife populations. Lecture covers concepts and theory, with a central focus on population growth, how it is influenced by demographic rates of survival, recruitment, immigration/emigration, with additional consideration given to predation and competition, and how population status is monitored for wildlife, including occupancy, abundance, and viability. Lab provides hands-on exercises, often using computer software, with analysis and interpretation of data from local case studies. Prereq: BIOL 412, BIOL 541 or NR 527.

NR 642 - Introduction to Biogeography
Credits: 4
Biogeography is an integrative field of inquiry that unites concepts and information from evolutionary biology, ecology, systematics, geology, and physical geography. Students are introduced to the distribution patterns of wild animals and plants and to the factors that determine these patterns. In this course, the emphasis is on evolutionary aspects of biogeography, biodiversity, and implications for conservation issues.

NR 643 - Economics of Forestry
Credits: 4
Intermediate-level analysis of supply and demand for forest-based goods and services, managerial economics, taxation, capital investments. Prereq: EREC 411 or ECON 402.
Equivalent(s): FOR 643
NR 650 - Principles of Conservation Biology
Credits: 4
Examines the major issues relevant to conservation of biodiversity from the genetic to the ecosystem level. In addition to addressing ecological and biological principles, the interdisciplinary nature and challenges of managing for conservation biology, including the role of economic and social factors are examined. Prereq: one semester of biology, botany, or zoology. Special fee.
Equivalent(s): EC 502

NR 655 - Vertebrate Biology
Credits: 4
Introduces the diversity and evolution of vertebrates. Topics span the morphological, physiological, behavioral, and ecological diversity among the major vertebrate taxa. Labs stress identification of vertebrate taxa based on specimens and morphological structures. Permission. Prereq: BIOL 411 and BIOL 412; or equivalent. Special fee. Lab.
Equivalent(s): NR 655H, WILD 655, WILD 655H

NR 658 - Introduction to Geographic Information Systems
Credits: 4
Introduces the use of geographic information systems (GIS) for natural resources and related fields. Data models/structures, map projections, data input/output/storage, data analysis/modeling, interpolation, and data quality/standards. Hands-on lab using ArcGIS software. Restricted to NR majors or permission. (Also offered as GEOG 658.)
Equivalent(s): GEOG 658

NR 660 - Ecology and Biogeography of New Zealand
Credits: 5
Covers the principles of ecology and biogeography, with a distinct focus on New Zealand. Students investigate the processes that have shaped the New Zealand landmass and its biota. Impact of human settlement on New Zealand's ecosystems is explored in-depth. Methods and techniques of scientific research are incorporated in this course. Field exercises focus on topical case studies in a variety of ecosystems and are designed to strengthen students' conceptual knowledge, enable students to apply this knowledge, as well as develop field skills including classification systems, mapping, habitat assessment, field identification, and sampling techniques. Prereq: junior/senior; permission. Coreq: NR 661, NR 662, and NR 663. Special fee.
Co-requisite: INCO 588, NR 661, NR 662, NR 663
Equivalent(s): EC 660

NR 661 - Restoration Ecology and Ecosystem Management in New Zealand
Credits: 4
Current restoration projects and strategies for management of natural resources in New Zealand form the framework for this course. Solving problems related to introduced species, changes in habitat, the preservation of ecological processes and watershed management are the major foci of this course. Management of resources for multiple uses, as well as primary and extractive industries is included. Field exercises focus on topical case studies in a variety of terrestrial and coastal-marine ecosystems and include the identification of habitats and communities, stresses on the environment, and risk analysis. Prereq: junior/senior; permission. Coreq: NR 660, NR 662, and NR 663.
Co-requisite: NR 660, NR 662, NR 663
Equivalent(s): EC 661

NR 662 - Environmental Policy, Planning and Sustainability in New Zealand
Credits: 3
Introduces students to politics in New Zealand. Investigating policy pathways and planning forms part of the curriculum. Students assess scope of legislation, including the Resource Management Act (1991), for the economic and socio-political environment in New Zealand. Government obligations to the Treaty of Waitangi, and customary uses of resources are included as part of this course. Students are exposed to diverse perspectives of local authority planners and policy makers, local iwi (tribes), the Department of Conservation, and community groups. Students examine case studies involving the resource consent process at several levels of decision-making. Case studies provide a comprehensive overview of the interactions between the environment and people and their cultural and socio-economic needs. Prereq: junior/senior; permission. Coreq: NR 660, NR 661, and NR 663.
Co-requisite: NR 660, NR 661, NR 663
Equivalent(s): EC 662

NR 663 - Applied Directed Research in New Zealand
Credits: 4
Working closely with faculty, student teams investigate selected ecological, resource management or policy issues. All projects have scientific and societal relevance, and contribute to ongoing/existing projects in the region. Students use the scientific method to design and carry out their projects. Development of rigorous field investigations, experimental design, data analysis, and scientific writing are emphasized. Students prepare a research report and present their findings in a seminar that includes stakeholders and people from the local community. Prereq: junior/senior; permission. Coreq: NR 660, NR 661, and NR 662. Writing intensive.
Co-requisite: NR 660, NR 661, NR 662
Attributes: Writing Intensive Course
Equivalent(s): EC 663

NR 664 - Conservation Genetics
Credits: 4
Conservation genetics is the application of genetics to preserve species as dynamic entities capable of coping with environmental change. Includes genetic management of small populations, resolution of taxonomic uncertainties, defining management units within species, and the use of molecular genetic analyses to forensics and the understanding of the biology of species. Topics include methods of measuring genetic diversity in populations, identification of the units of biodiversity to which conservation efforts are directed, genetics of population fragmentation, genetic management of wild and captive populations, reintroduction of organisms back into the wild, and the role of forensics in enforcement and development of species recovery plans. Recitation. No credit if credit received for GEN 705 or ZOOL 705.
Equivalent(s): GEN 705, ZOOL 665, ZOOL 705

NR 701 - Ecological Sustainability and Values
Credits: 4
Deeper more fundamental philosophical questions, including spiritual values questions, are being asked concerning the ecological/environmental challenge of our time; its causes and resolution. Aspects of this challenge—environmental education, energy, food, agriculture, and natural resources—are analyzed with ethics and values approaches. Students develop ways of responding to problem identification and resolution. Writing intensive
Attributes: Writing Intensive Course
Equivalent(s): EC 702
NR 702 - Workshops
Credits: 1-4
Short-term courses (generally a few days to two weeks) offered off campus, covering a broad variety of environmental and natural resource topics. May be repeated. Special fee required depending on topic. Prereq: permission required.

NR 703 - Watershed Water Quality Management
Credits: 4
Principles of land use as they relate to water quality and quantity. Lectures focus on biogeochemical cycles and the watershed approach to land and water resource management. Labs and field trips focus on methods of water sampling and analysis. One year of chemistry is recommended. Prereq: NR 504 or NR 604 or permission. Special fee. Lab/field trips.
Equivalent(s): WARM 703

NR 706 - Soil Ecology
Credits: 4
Examines the ecological relationships between soil microorganisms and their biotic and abiotic environment, with emphasis on the role of soil microorganisms in biogeochemical cycling. Specific objectives are to examine the biodiversity present in soil systems, factors controlling microbial community composition and diversity, and linkages between soil microbial communities, soil physical properties, and soil organic matter and nutrient cycling dynamics. Prereq: BIOL 412 or BIOL 409, CHEM 403, or equivalent, or permission. Special fee. Lab. Writing intensive.
Attributes: Writing Intensive Course
Equivalent(s): SOIL 706

NR 707 - Environmental Modeling
Credits: 4
Environmental Modeling introduces students to a range of key mathematical and computer modeling concepts and the ways they can be used to address important scientific questions. The course is divided into four topical sections: Population and Community Ecology, Hydrology, Biogeochemistry, and Ecosystems. In each section, modeling concepts and skills are presented together with environmental information to emphasize the linkage between quantitative methods and relevant scientific results. Prereq: MATH 425.

NR 710 - Endangered Species Seminar
Credits: 2
Provides students with an interactive class of student presentations and guest lectures by endangered-species biologists. Emphasizes on biological, sociological, economic, and political factors that influence endangered-species policy. Prereq: basic ecology/biology; permission. Special fee.
Equivalent(s): WILD 710

NR 711 - Wetland Ecology and Management
Credits: 4
Analysis of the natural resources of coastal and inland wetlands and environmental problems caused by human use and misuse of these ecosystems. Groups collect field data to summarize the structure and function of four wetland types within a management context. Special fee. Lab. Prereq: BIOL 541, or NR 703, or permission. Writing intensive.
Attributes: Writing Intensive Course
Equivalent(s): FOR 711, FORS 711, WARM 711

NR 712 - Mammalogy
Credits: 4
Evolution, ecology, behavior, physiology and diversity of mammals. The focus of the course is on conceptual issues, such as the relation of structure, function, physiology and ecology of species; reproductive physiology and life history strategies; and the evolution of mating systems and social structure. Familiarity of mammalian groups to the family level and identification of local fauna to species will be required. Prereq: BIOL 411 and BIOL 412 or equivalent. Lab. (Not offered every year.) Special fee.

NR 713 - Quantitative Ecology
Credits: 4
Basic quantitative concepts applied to ecological systems including: population and community dynamics, experimental design, spatial patterns, species abundance and diversity, community organization, metapopulations, and landscapes. Prereq: intro. courses in statistics, and ecology.
Equivalent(s): FORS 713

NR 718 - Law of Natural Resources and Environment
Credits: 3
Federal and state environment statutory and administrative law, its application, strengths and weaknesses, and options for future amendment.
Equivalent(s): EC 718

NR #719 - Wetlands Restoration and Mitigation
Credits: 3
Assesses the problems of wetlands loss and learning how to repair the damage. Asks what steps can be taken. Does restoration work, can habitat value be replaced, what constitutes equivalent mitigation? Field experience and theoretical background in restoring marine and freshwater environments. First half of course involves field trips to visit and sample mitigation and restoration sites. Second half focuses on student projects using the scientific method to address wetlands issues. Prereq: NR 711 or permission. Special fee. Lab/field trips. (Not offered every year.)
Equivalent(s): WARM 719

NR 720 - International Environmental Politics and Policies for the 21st Century
Credits: 4
Students examine policies for managing human activities to sustain the health of regional ecosystems and planetary life-support systems. Selected problems of the international commons (oceans, marine resources, atmosphere, migratory species); global and regional carrying capacity (population, resource consumption), internationally shared ecosystems (transboundary watersheds and waterbodies, tropical forests); and the relevant international institutions and politics for policy formation, conflict resolution, and implementation. Using a policy-analytic framework, students develop case studies to assess international policies and institutional arrangements to achieve the objectives of Agenda 21—Earth Summit Strategy to Save the Planet. Prereq: permission. Writing intensive.
Attributes: Writing Intensive Course
Equivalent(s): EC 720
NR 724 - Resolving Environmental Conflicts
Credits: 4
Theories and practices of environmental dispute settlement. Roles of public, non-governmental and governmental organizations. Effectiveness of public participation initiatives in influencing public policy decisions and/or resolving environmental conflicts. Alternative approaches to consensus (policy dialogues, joint problem solving; strategic planning; negotiation, mediation) as well as litigation. Specific cases are critiqued and evaluated; conflict resolution skills are developed. Students observe and/or participate in ongoing local decision processes. Prereq: second-semester juniors, seniors; permission. Lab. Special fee. Writing intensive.
Attributes: Writing Intensive Course
Equivalent(s): EC 724

NR 729 - Silviculture
Credits: 4
The science and art of establishing, growing, and tending forests to meet multiple objectives. Basics of forest stand dynamics applied to the problems of timber management, wildlife habitat, water quality, and carbon sequestration. Prereq: NR 425 and NR 527 or permission. Special fee.

NR 730 - Terrestrial Ecosystems
Credits: 4
Processes controlling the energy, water, and nutrient dynamics of terrestrial ecosystems; concepts of study at the ecosystem level, controls on primary production, transpiration, decomposition, herbivory; links to earth-system science, acid deposition, agriculture. Prereq: NR 527 and BIOL 409 or BIOL 411, or permission.
Equivalent(s): EOS 730, FOR 730, FORS 730

NR 734 - Tropical Ecology
Credits: 4
This course introduces students to the ecology of different tropical ecosystems, and involves students in analyzing and interpreting ecological field data and remotely sensed data. An important emphasis is to understand patterns and processes across scales - from individual plants to ecosystems and landscapes. The course also addresses important global issues in the tropics, including climate change, land use change, diverse ecosystem services, and sustainable resource management. Prereq: NR 527, BIOL 541, or equivalent.
Equivalent(s): FOR 734

NR #735 - Land Conservation Principles and Practices
Credits: 4
Students gain practical knowledge, understanding and experience in land conservation planning and implementation of options for land protection based on current practice in New Hampshire. By interacting with practitioners, students learn what it takes to implement successful land conservation projects, and conservation stewardship requirements and practices. Prereq: senior standing in the Department of Natural Resources and permission. Special fee. Lab. Writing intensive.
Attributes: Writing Intensive Course

NR 736 - Tropical Ecology and Conservation
Credits: 4
This intensive field course in Costa Rica introduces students to the science and practice of tropical ecology and conservation. The course includes visits to major tropical biomes, including cloud forest, rainforest, dry forest, and diverse agroecosystems. A focus is on understanding how ecological information is scaled from trees to ecosystems and landscapes, and the impact of climate change and land management. Students conduct a project on a topic of interest, involving data collection, analysis, and interpretation. Special fee.

NR #738 - Wildlife Policy and Management
Credits: 4
Local, regional, and national issues and strategies in policy and administration. Contemporary issues including land management, commercialization of wildlife, overpopulation, endangered species, wildlife diseases, and professionalism. Prereq: senior wildlife majors or permission. Special fee. Lab. Writing intensive.
Attributes: Writing Intensive Course
Equivalent(s): WILD 738

NR 740 - Inventory and Monitoring of Ecological Communities
Credits: 4
Provides an introduction to the major concepts associated with monitoring change in ecological communities. Students develop an appreciation for such issues as: identification of appropriate baselines for comparison; use of indicator species; the tools used to inventory common, rare, and secretive species; how trend data are analyzed; and the implications of failing to detect an indicator species. Restricted to senior wildlife majors others by permission. Special fee. Lab.
Attributes: Writing Intensive Course

NR 744 - Biogeochemistry
Credits: 4
Examines the influence of biological and physical processes on elemental cycling and geochemical transformations from the molecular to the global scale, involving microorganisms, higher plants and animals and whole ecosystems; factors that regulate element cycles including soils, climate, disturbance and human activities; interactions among the biosphere, hydrosphere, lithosphere, and atmosphere; transformations of C, N, S, and trace elements. Prereq: one semester biology and two semesters of chemistry or permission.

NR 745 - Forest Management
Credits: 4
Forest land ownership, management objectives, forest inventory regulation and policy, forest administration, professional responsibilities and opportunities. Restricted to Natural Resources majors. Lab. Special fee.
Attributes: Writing Intensive Course
Equivalent(s): FOR 745

NR 749 - Forest Inventory and Modeling
Credits: 4
Applied sampling and statistical techniques for assessing current forest conditions and predicting future growth, yield, and structure. Topics include plot and point sampling, ecological inventory, and evaluation of site quality and stand density. Prereq: MATH 420 and BIOL 528. Special fee.

NR 750 - Sustaining Biological Diversity
Credits: 4
This course examines the approaches to recover and restore declining populations and at-risk communities. Major concepts addressed include: population viability analysis; use of simulation models to explore conservation alternatives; integrating the political, economic, and social realities that affect natural resource management; the adaptive nature of any restoration of rare organisms and communities; and preparing for the challenges associated with invasive organisms and climate change. Prereq: NR 650 and BIOL 528. Only open to Wildlife & Conservation Biology majors.
NR 751 - Aquatic Ecosystems  
Credits: 4  
Energy flow and nutrient cycling in streams, rivers and lakes, with an emphasis on understanding the control of primary productivity, decomposition and community structure by both hydrologic and biotic drivers. Role of aquatic ecosystems in carbon and nitrogen budgets at watershed, regional, and global scales. Impacts of environmental changes such as global climate change and suburbanization on aquatic ecosystems. Prereq: General Ecology. Lab. Special fee.

NR 753 - Critical Issues in Sustainability: Sustainability as an Abundance Paradigm  
Credits: 2  
After 30 years in common parlance, the success of "Sustainability" still seems far from its goal. In part, this is because sustainability is typically applied as another way to manage scarcity, a paradigm informing economic and social policy for well over a century. Underlying this dominant view of sustainability, an increasing number of approaches to sustainability projects, some of longstanding are entering the mainstream as pieces of an identifiable, and distinctly novel, paradigm based on the assumption of abundance, rather than scarcity. These include ideas of the Natural Step and Natural Capital, as well as Cradle to Cradle and Biomicry. The goals of this seminar are (1) to survey and discuss this growing literature and its application to the solution of sustainability problems; and (2) research and analysis towards transforming scarcity-based to abundance-based solutions. To be considered as a capstone option for majors in Environmental and Conservation Sustainability, students must also register for NR 754 in the Spring semester.

NR 754 - Critical Issues in Sustainability: Sense of Place  
Credits: 2  
Costa Rica is the happiest country on Earth. Bhutan is a living laboratory for education. Bolivia has a Law of Mother Earth in its constitution. Cities and towns in the US create local solutions to problems of resource sustainability while the national dialogue stagnates. What drives some places to lay the foundations for sustainable futures, while others do not? Sense of Place is a powerful lens through which to view the relative achievements of places and organizations toward creating a sustainable future. The goals of this seminar are (1) to survey the Sense of Place literature and to analyze case studies of the role of Sense of Place in the success of sustainability efforts nationally and internationally; and (2) to research the role of Sense of Place in our local community environment and to relate it to stated goals in existing sustainability plans. To be considered as a capstone option for majors in Environmental and Conservation Sustainability, students must also register for NR 753 in the Fall semester.

NR 757 - Remote Sensing of the Environment  
Credits: 4  
Practical and conceptual presentation of the use of remote sensing and other geospatial technologies for mapping and monitoring the environment. This course begins with the use of aerial photographs (photogrammetry, and photo interpretation) and includes measures of photo scale and area, parallax and stereo viewing, object heights, flight planning, photo geometry, the electromagnetic spectrum, camera systems and vegetation/land cover mapping. The course concludes with an introduction to other geospatial technologies including digital image analysis, global positioning (GPS), and geographic information systems (GIS). Conceptual lectures are augmented with practical homework assignments and hands-on lab exercises. Prereq: algebra. Special fee. Lab. (Also offered as GEOG 757.)  
Equivalent(s): FOR 757, FORS 757, GEOG 757

NR 759 - Digital Image Processing for Natural Resources  
Credits: 4  
Introduces digital remote sensing including multispectral scanners (Landsat and SPOT) radar, and thermal imagery. Hands-on image processing including filtering, image display, ratios, classification, registration, and accuracy assessment. GIS as it applies to image processing. Discussion of practical applications. Use of ERDAS image-processing software. Knowledge of PCs required. Prereq: NR 757 or equivalent and permission. (Also offered as GEOG 759.)  
Equivalent(s): FOR 759, FORS 759, GEOG 759

NR 760 - Geographic Information Systems in Natural Resources  
Credits: 4  
This course in geographic information systems (GIS), covers advanced theory, concepts, and applications of GIS for natural resource and related disciplines. Discussion of database structures, data sources, spatial data manipulation/analysis/modeling, data quality and assessment. Students conduct a project of their design exploring aspects of GIS most useful to them. Lecture emphasizes concepts and applications through a text and selected peer-reviewed articles. Lab uses the latest version of ArcGIS software and provides hands-on experience. Prereq: introductory GIS course. Permission required.  
Equivalent(s): FOR 760, FORS 760, GEOG 760

NR 761 - Environmental Soil Chemistry  
Credits: 4  
Chemical transformations in soils are the basis for soil fertility and plant productivity in natural and managed ecosystems, and also influence key ecosystem processes including soil organic matter turnover and soil-atmosphere exchange of trace gases. This class will explore soil chemistry processes and transformations related to soil nutrient cycling, plant nutrient acquisition, and other critical environmental services. Prereq: a course in soil science or instructor permission.

NR 765 - Community Ecology  
Credits: 4  
Properties of biotic communities, especially biodiversity. Effects of physical stress, disturbance, competition, predation, positive interactions, and dispersal on community properties. Community dynamics, including succession and stability. Prereq: applied biostatistics and general ecology. Lecture and discussion.

NR 782 - Forest Health in a Changing World  
Credits: 4  
Forests cover over 30% of the land surface of the Earth and are incredibly important ecologically, economically, and to the health of the planet. While forests show great capacity to withstand disturbance, these ecosystems are increasingly threatened worldwide by climate change, native and introduced insects and disease, poor management practices, land clearing, drought, fire, and pollution. This course offers an overview of the dominant threats to forests, their causes and consequences, and options for monitoring, management, and mitigation. Special fee.

NR #783 - Forest Communities of New Hampshire  
Credits: 4  
A hands-on field course designed to introduce students to the diverse forest community types of New Hampshire. Topics include 1) field identification of forest types using different classification systems and keys; 2) identification of characteristic plant and animal species; 3) the roles of climate, geology, soils, natural disturbance, forest management, and biotic factors in determining forest community type; 4) primary and secondary succession, including old-growth. Prereq: one course in ecology or environmental biology or permission. Special fee.
NR 784 - Sustainable Living - Global Perspectives  
Credits: 4  
The pursuit of sustainable solutions to living in our contemporary world is a global endeavor. In this course, the concept of living sustainably is explored from a broad international perspective. Global scale issues impacting sustainable resource use are considered, including population growth, economic globalization and development, social equity, and cultural values. We will expand our awareness of alternatives to those current practices that impede the sustainability of human societies as part of the earth’s natural systems. We will also pursue an understanding of the interrelated socio-economic conditions, combined with social and personal ethics and values necessary to move toward a more sustainable future. And each of us will come to value what sustainable living means for our own lives. Prereq: NR 437 or NR 435.  
Equivalent(s): EC 784

NR 785 - Systems Thinking for Sustainable Solutions  
Credits: 4  
This course applies systems thinking as a problem-solving approach aimed at exploring possibilities for creating a future based on sustainable relationships between healthy human societies and their natural environments. Types of systems and systems tools are utilized to describe human-environment relationships and to emphasize their resiliency or vulnerability to future unsustainable events and/or practices. We explore how systems may be restructured to create more sustainable outcomes. Pre- or Coreq: NR 437 or NR 435.  
Equivalent(s): EC 785

NR 786 - Leadership for Sustainability  
Credits: 4  
In this course we review and evaluate current knowledge and practice regarding the attainment of sustainability in social and environmental relations. We particularly focus on the meaning and qualities of leadership for achieving a sustainable future. Along the way, we also reflect on our own leadership styles and qualities. Topics include the role of leaders and leadership practices in government, business, academia etc.; concepts and theories for achieving social change; and case studies exemplifying a range of leaders and approaches toward sustainability. Prereq: NR 437 or NR 435. Writing intensive.  
Attributes: Writing Intensive Course

NR 787 - Advanced Topics in Sustainable Energy  
Credits: 4  
This course engages students in advanced topics in sustainable energy. Course reviews basic structures of our energy system, energy markets and economics, and the environmental, economic and technological of energy landscape. Focus is on electricity and building use with introductions to the transportation system. Students gain the knowledge to evaluate innovations in technology, policy and financing necessary to implement sustainable energy goals from conservation and efficiency to renewables and energy storage. Special fee.

NR 791 - Preparation for Capstone  
Credits: 1  
This class will require that students develop a proposal for their senior capstone experience, seek approval for that proposal from a faculty sponsor, and be prepared to complete the capstone senior year. Students will also work on resume development, on writing text introducing themselves to prospective employers, and on interviewing strategies. Cr/ F.

NR 795 - Investigations  
Credits: 1-4  
Investigations in Natural Resources may include topics in environmental conservation, forestry, soil and watershed management, ecosystems, and wildlife management. Permission required. Special fee on some topics.

NR 795W - Investigations  
Credits: 1-4  
Investigations in Natural Resources may include topics in environmental conservation, forestry, soil and watershed management, ecosystems, and wildlife management. Permission required. Writing intensive.  
Attributes: Writing Intensive Course

NR 797 - Special Topics  
Credits: 1-4  
An experimental course for the purpose of introducing a new course or teaching a special topic for a semester in an area of specialization in natural resources. Permission required. Special fee on some sections.

NR 799 - Honors Senior Thesis  
Credits: 1-4  
Honor/thesis students conduct an independent research project, relevant to the student’s area of specialization in the major, under the direction of a faculty sponsor. Students submit a research proposal, write a final report, and provide an oral presentation. One or two semester sequence. Restricted to Senior/Natural Resource Majors. Permission required.  
Attributes: Writing Intensive Course  
Repeat Rule: May be repeated for a maximum of 8 credits.

Equivalent(s): EC 799, FOR 799, WARM 795, WILD 799

Neuroscience and Behavior (NSB)  

# Course numbers with the # symbol included (e.g. #400) have not been taught in the last 3 years.

NSB 400 - Topics Neuroscience & Behavior  
Credits: 1  
This seminar type course is designed as an introductory experience for incoming first-year students, although it may be taken by students transferring into the major. Topics covered will include sensory biology, learning and memory, homing and navigation, neuromodulators and stress, reproductive behaviors. The format will rely heavily on discussion, prompted either by assigned readings or presentations by program faculty on their areas of expertise. Credit/No Credit. 1 cr.

NSB 500 - Fundamentals of Neuroscience and Behavior I  
Credits: 3  
The course will introduce students to the fundamental neural processes underlying behavior. It will begin with a detailed examination of the properties of individual neurons and then move on to demonstrate how neurons can communicate together to produce complex behaviors. Some of the basic concepts that will be covered will include: the molecular basis of electrical and chemical communication, sensory transduction and processing, neuropharmacology, the neural basis of reflexes and simple behavior, development of the nervous system and the influence of external stimuli on neural processing. Prereq: BIOL 411 and BIOL 412 and CHEM 403 and CHEM 404.

Co-requisite: NSB 501
NSB 501 - Fundamentals of Neuroscience and Behavior I Laboratory
Credits: 2
The course is designed to expose students to some of the classic experiments in cellular and molecular Neurobiology. They will record from sensory and motor neurons, stain and view neurons, carry out simple behavior experiments and record from muscles in freely behaving animals. The laboratory exercises will run parallel with the concepts taught in lecture and complement the lecture material in many ways. Students will conduct actual experiments, analyze the results and write lab reports as well. Prereq: BIOL 411 and BIOL 412 and CHEM 403 and CHEM 404. Special fee.
Co-requisite: NSB 500

NSB 502 - Fundamentals of Neuroscience and Behavior II/Systems Neuroscience
Credits: 3
This course is an introduction to the questions addressed by scientists who aim to understand the biological basis of behavior and cognition. This semester we will review the major organization of the central nervous system and how these systems interact with each other to produce behavior and cognition. Major topics will include: the development and emergence of behavior; movement; the neural basis of cognition, and language, thought, affect and learning. Prereq: BIOL 411 and BIOL 412 CHEM 403 and CHEM 404, NSB 500 and NSB 501.
Co-requisite: NSB 503

NSB 503 - Fundamentals of Neuroscience and Behavior II Laboratory
Credits: 2
This laboratory class with compliment the material being taught in NSB 502. The laboratory will focus on behavioral and cognitive neuroscience experiments. Students will learn about neuroanatomy and neuroscience research methods, including experimental design, data collection, statistical analysis, data interpretation, and manuscript preparation through conducting actual experiments. Students will write research reports describing their experiments and will receive some basic computer programming and research ethics training. Prereq: NSB 500, NSB 501.
Co-requisite: NSB 502

NSB 600 - Field Experience
Credits: 1-4
A supervised experience providing the opportunity to apply academic experience to settings associated with future professional employment or graduate opportunities. Must be approved by supervising faculty. Cr/F.
Repeat Rule: May be repeated for a maximum of 8 credits.
Equivalent(s): NSB 600W

NSB 705 - Molecular and Cellular Neurobiology
Credits: 4
The overarching goal of this course is to examine the molecular and cellular mechanisms underlying neuronal function. This course builds on fundamental knowledge in neuroscience. Students will be exposed to primary literature regarding how different model organisms have been used to understand neurons. Prereq: BIOL 411 and BIOL 412. CHEM 403 and CHEM 404. NSB 500 and NSB 502.

NSB 727 - Animal Communication
Credits: 4
This course examines the principles underlying how animals communicate with each other and why they communicate the way they do by using perspectives drawn from a broad range of disciplines including physics, chemistry, ecology, psychology, economics, and behavioral ecology. Students will explore the primary literature, and work in teams to conduct independent research. The course is intended for advanced undergraduate or graduate students interested in neuroscience and behavior, evolution, wildlife and conservation biology, or zoology. Prereq: BIOL 412.

NSB 728 - Research Methods in Animal Behavior
Credits: 4
This course provides hands-on experience with modern methods for studying animal behavior in the field and laboratory, and immersion in the primary literature. Animal behavior research projects will be complemented with a sequence of technical training sessions, the goals of which are to provide students with practical expertise in modern ethological techniques. The course takes a ‘learn by doing’ approach, with student research teams building relevant methodological proficiencies in the context of an investigation of their own design. Special fee. Prereq: BIOL 412 Pre- or Coreq: ZOOL 613.

NSB 795 - Special Investigations
Credits: 1-4
Independent research with any member of the NSB faculty in various areas including, but not limited to, neuroscience, neuroendocrinology, animal behavior. Prereq: Permission of faculty concerned. 795W is writing intensive.
Repeat Rule: May be repeated for a maximum of 8 credits.
Equivalent(s): NSB 795W

NSB 795W - Special Investigations
Credits: 1-4
Independent research with any member of the NSB faculty in various areas including but not limited to neuroscience, neuroendocrinology, animal behavior. Prereq: Permission of faculty concerned. Attributes: Writing Intensive Course
Repeat Rule: May be repeated for a maximum of 8 credits.
Equivalent(s): NSB 795

NSB 798 - Capstone
Credits: 0
This is a 0 credit course to indicate on the transcript that capstone requirement is fulfilled. Permission required.

NSB 799 - NSB Senior Thesis
Credits: 2-4
Working under the direction of a faculty sponsor, the student plans and executes independent research resulting in a written thesis and public presentation. Limited to students entering their senior year. Prereq: permission. A two-semester sequence 2-4 credits each semester. IA (continuous grading) given first semester.
Repeat Rule: May be repeated for a maximum of 8 credits.
NSB 799H - Honors Senior Thesis  
Credits: 2-4  
Working under the direction of a faculty sponsor, the student plans and executes independent research resulting in a written thesis and public presentation. Limited to student entering their senior year or under exceptional circumstances their junior year. Required for students working toward University Honors or Honors-in-Major. Prereq: permission. A two-semester sequence 2-4 credits each semester. IA (continuous grading) given first semester.  
Attributes: Writing Intensive Course  
Repeat Rule: May be repeated for a maximum of 8 credits.

Nursing (NURS)

# Course numbers with the # symbol included (e.g. #400) have not been taught in the last 3 years.

NURS #400 - Nursing Continuing Enrollment  
Credits: 0   RN-BS students are required to maintain continuous enrollment each semester of the academic year until their degree is formally awarded by registering for course credit at the University of New Hampshire Durham or Manchester or registering for NURS #400, Continuing Enrollment. Students registering to NURS #400 will pay a continuing enrollment fee. No credit. Special fee. Nursing majors only.

Credits: 4  
Examines the process of human birth focusing on the emergent technologies of human genetics, assisted fertility technologies, prenatal diagnosis and treatment, as well as the appropriate and inappropriate use of technology through the labor, delivery, and post-partum experience. The social, cultural, political, and historical context for the development and application of these technologies is explored.  
Attributes: Environment,TechSociety(Disc)  
Equivalent(s): HHS 450

NURS 500 - Introduction to Professional Nursing  
Credits: 2  
The course provides an overview of professional nursing with a focus on reflective thinking. A synthesis of current and projected trends in nursing practice and education, with an introduction to topics on ethical, social, and legislative issues, are explored. This course is divided into five modules: nursing as a career, nursing as a profession, nursing as art and science, nursing as communication, and nursing and relationship-centered care. Prereq: BMS 507-508; majors only. Pre- or Coreq: BMS 501. Special fee.  
Co-requisite: NURS 504  
Equivalent(s): NURS 501

NURS 504 - Disease and Drugs I  
Credits: 4  
The two semester course advances knowledge of human physiology and the pathophysiological variations in selected global disease states in adults and children. Students explore how the human body uses its adaptive powers to maintain a steady state and how alterations affect normal processes. Pharmacological agents used on these alterations are examined. Prereq: BMS 507 and BMS 508; majors only. Pre- or Coreq: BMS 501.  
Co-requisite: NURS 500  
Equivalent(s): NURS 502

NURS 505 - Diseases and Drugs II  
Credits: 4  
The two semester course advances knowledge of human physiology and the pathophysiological variations in selected global disease states in adults and children. Students explore how the human body uses its adaptive powers to maintain a steady state and how alterations affect normal processes. Pharmacological agents used on these alterations are examined. Prereq: NURS 500; majors only.  
Co-requisite: NURS 506, NURS 601  
Equivalent(s): NURS 502

NURS 506 - Human Development, Interaction and Learning Across the Lifespan  
Credits: 4  
The course emphasizes human development, interaction and learning across the lifespan as essential to safe, effective relationship-centered care. An exploration of selected theoretical perspectives on human development, education and learning and group development prepares students to engage in professional practice. Prereq: NURS 500; or by permission.  
Co-requisite: NURS 505, NURS 601

NURS 516 - Health Assessment and Nursing Fundamentals  
Credits: 4  
Focuses on the acquisition of psychomotor and assessment skills required for the delivery of safe nursing care. Students begin by learning clinical skills in the simulation setting and then using those skills with supervision in the clinical setting. An additional focus of this course is understanding fundamental nursing concepts as they pertain to providing safe, effective care. Prereq: majors only.  
Co-requisite: NURS 516C

NURS 516C - Health Assessment and Nursing Fundamentals Clinical  
Credits: 2  
This clinical course is designed to provide experiences to apply the knowledge to the skills required to perform a systematic examination of a healthy adult, to perform basic psychomotor skills and to record findings appropriately. Students implement the nursing process by obtaining health histories, performing physical and psychosocial assessments, establishing a database, and formulating initial nursing plans. Students become familiar with the nursing simulation lab. Prereq: majors only. Special fee.  
Co-requisite: NURS 516

NURS 517C - Clinical Integration  
Credits: 2  
This course focuses on continued development of nursing skills necessary for promoting health in adults. Clinical practicum focuses on restorative care by providing supervised professional nursing practice for development of multidimensional assessment skills, decision-making processes, and evidence-based strategies and interventions for patients transitioning across the health care continuum. Application of evidence-based practice may include rehabilitative, end of life and palliative care. Prereq: majors only. Special fee.

NURS 535 - Death and Dying  
Credits: 4  
Encompasses peoples’ responses to death throughout the lifecycle. Theories of death, dying, and grieving discussed. Students explore cultural influences, legal, and ethical dilemmas; the biopsychosocial needs of people facing life-threatening situations; resources for care of the dying; death rituals; and surviving a major loss. Writing intensive.  
Attributes: Social Science (Discovery); Inquiry (Discovery); Writing Intensive Course
NURS #595 - Women's Health
Credits: 4
Examines women's health and women's health care from historical, political, and social perspectives. Discussion of societal and health-care constraints that hinder women from achieving their full health potential. Also presents information on women's health care practices, including the concept of self-care, and relates this to development of educated consumerism in the health-care system. Writing intensive. 
Attributes: Writing Intensive Course

NURS 601 - Function and Wellbeing of Older Adults
Credits: 2
This course focuses on developing knowledge necessary for promoting healthy aging and wellness across the lifespan. Multidimensional assessment skills are utilized to develop appropriate evidence-based interventions to assist individuals and families to maintain wellness and promote healthy lifestyles, and enhance the quality of life for older adults with acute and chronic conditions. Students will explore nursing issues and principles of promoting wellness across the health care continuum including end of life and palliative care. Prereq: majors only.

NURS 611 - Care of the Adult with Acute Illness I
Credits: 4
The first of two courses focused on adult health nursing of clients with commonly occurring disease states in the acute care setting. Course builds on previously learned knowledge of physical assessment and technical skills to focus on key components of acute care nursing. Special emphasis placed on the etiology, clinical evaluation and use of evidence-based nursing interventions to manage specific health problems related to cardiovascular, hematologic, pulmonary, endocrine and renal systems. The advanced skills and techniques required to care for clients with commonly occurring disease states is included. Prereq: majors only.
Co-requisite: NURS 611C
Equivalent(s): NURS 615

NURS 611C - Care of the Adult with Acute Illness I Clinical
Credits: 2
Designed to provide the student with opportunities to apply the nursing process and clinical judgment within an acute care setting to clients with commonly occurring disease states. The experience focuses on the application of knowledge and skills, evidence-based practice, clinical judgment and relationship-centered care. Prereq: NURS 505; majors only. Special fee.
Co-requisite: NURS 611, NURS 641
Equivalent(s): NURS 615C

NURS 612 - Care of the Adult with Acute Illness II
Credits: 4
This is the second of two courses focused on adult health nursing of clients with commonly occurring disease states in acute care nursing. The course builds on previously learned knowledge of physical assessment and technical skills to focus on key components of acute care nursing. Special emphasis is placed on the etiology, clinical evaluation and use of evidence-based nursing interventions to manage specific health problems related to gastrointestinal, neurological, musculoskeletal systems and clients undergoing surgery. Complex client issues related to oncologic, immunologic and shock states are introduced. The advanced skills and interventions required to care for clients with commonly occurring disease states and those undergoing surgery are included. Prereq: NURS 611; majors only.
Co-requisite: NURS 612C, NURS 627
Equivalent(s): NURS 615

NURS 612C - Care of the Adult with Acute Illness II Clinical
Credits: 2
Course is designed to provide the student with opportunities to apply the nursing process and clinical judgment within an acute care setting to clients with commonly occurring disease states and those undergoing surgery. The experience focuses on the application of knowledge and skills, evidence-based practice, clinical judgment and relationship-centered care. Prereq: NURS 611; majors only. Special fee.
Co-requisite: NURS 612, NURS 627
Equivalent(s): NURS 615C

NURS 616 - Living with Mental Illness
Credits: 2
This course is designed to provide an understanding of the concepts of mental health and major factors affecting human behavior and interaction. Specific theoretical concepts guiding nurse-client interactions are utilized as a vehicle for supporting the person's and family's optimum state of well-being. Prereq: majors only.
Co-requisite: NURS 616C
Equivalent(s): NURS 618

NURS 616C - Living with Mental Illness Clinical
Credits: 2
In this psychiatric nursing clinical course the nursing process and a situation-based interpretive approach serve as framework for professional nursing action. A special focus is placed on the integration of personal knowledge, therapeutic use of self and communication skills inherent in nurse-client relationships. Through a variety of clinical experiences, the student applies mental health concepts and principles of therapeutic communication in caring for people and families with alterations in mental health. Prereq: majors only.
Co-requisite: NURS 616

NURS 621 - Maternal and Newborn Nursing
Credits: 2
The course allows students an opportunity to develop necessary knowledge, attitudes and skills required for the provision of safe care to child bearing women and their families. Childbirth is viewed as part of the life cycle with emphasis on women and family-centered care, normal physiological childbirth, client advocacy and the provision of therapeutic nursing practice. Prereq: majors only.
Co-requisite: NURS 621C
Equivalent(s): NURS 620

NURS 621C - Maternal Newborn Nurs Clin
Credits: 2
This clinical component of NURS 621, a course that has family as the focus for nursing practice, introducing the student to the care of young families throughout pregnancy, birth, and child-rearing periods. The health needs of the young family are discussed in terms of major morbidity/ mortality and contemporary issues. This clinical course offers students experiences in various clinical settings in order to provide opportunities for the development of professional practice roles in maternal health. Prereq: majors only. Special fee.
Co-requisite: NURS 621

NURS 627 - Clinical Judgment in Nursing
Credits: 4
This course is designed to apply and analyze clinical reasoning and judgement in a variety of situations, focusing on the ability to prioritize and individualize evidence-based nursing interventions. Prereq: majors only. Writing intensive.
Co-requisite: NURS 612, NURS 612C
Attributes: Writing Intensive Course
NURS 641 - Translating Research for Practice
Credits: 4
The course focuses on the translation of current evidence into nursing practice through the identification of practice issues, appraisal and application of evidence, and the evaluation of outcomes. Development of evidence is examined using the research process. Concepts explored include research ethics and legal precepts, clinical judgment in knowledge development and application, and the integration of client values and preferences. Students learn to use reliable evidence to inform practice and make clinical judgments to promote nursing best practice. Prereq: majors only.
Co-requisite: NURS 611, NURS 611C
Equivalent(s): NURS 645

NURS 694 - Special Topics
Credits: 1-4
Specialized courses covering information not normally presented in regular course offerings. Description of topics will vary. May be repeated but not duplicate areas of content. Prereq: permission. (Not offered every year.)

NURS 695 - Independent Study
Credits: 2-4
In-depth study with faculty supervision. Prereq: junior standing and approval of adviser and faculty of the area concerned. May be repeated for different topics.

NURS 702 - Child Health Nursing
Credits: 2
The course considers the child in the context of family as the focus for nursing practice, introducing the student to the care of children using a developmental approach. Commonly occurring health transitions and alterations occurring from infancy through adolescence are examined. A survey of child health explores both professional practice roles of the pediatric nurse in health promotion and illness as well as acute and chronic conditions that impact children at various stages of development. Prereq: majors only.
Equivalent(s): NURS 620

NURS 702C - Child Health in the Community Clinical
Credits: 2
Semester long clinical course focused on the practice of pediatric nursing in the community. Prereq: majors only.
Co-requisite: NURS 702

NURS 704 - Public Health Nursing
Credits: 4
This course prepares the student for population-focused practice. Emphasis is placed on the synthesis of concepts, theories, knowledge and practice from nursing and public health sciences. Students explore the concepts of: community as client, community assessment, health promotion, health protection, illness prevention and vulnerability from a public health nursing perspective. Prereq: majors only.
Equivalent(s): NURS 624

NURS 704P - Public Health Nursing Project
Credits: 2
Semester long experience working in teams with a community organization to address a current public health issue. Learning focuses on working in teams to develop a strategic understanding of the identified public health issue and to design, implement, and evaluate a targeted intervention project. Prereq: majors only.

NURS 705 - Contemporary Leadership within Health Care Systems
Credits: 4
The course explores the dynamic nature of the healthcare system and practice environments that impact nursing. Emphasis is placed on relationship of ethics, power, change, conflict, communication and politics in health care systems. Focus is placed on the use of models of leadership and management to effectively negotiate change, provided safe quality care, and promote professional practice in the delivery of relationship-centered care. Prereq: majors only.
Co-requisite: NURS 703, NURS 705W
Equivalent(s): NURS 721

NURS 711 - Clinical Judgment in Complex Illness
Credits: 2
This course further develops and refines critical thinking skills by student participation in clinical scenarios and de-briefings. Students prepare for the care of patients with complex illness and engage in health assessment, psychomotor skills, and implementing the nursing process to develop a plan of care. May be waived with special circumstances. Prereq: majors only. Special fee.

NURS 721 - Integrating Professional Nursing Practice
Credits: 2
Weekly seminar provides an opportunity for the analysis, synthesis, refinement and integration of nursing knowledge. Standardized testing provides timely feedback to facilitate transition to professional practice. Prereq: majors only.
Co-requisite: NURS 721C
Equivalent(s): NURS 720

NURS 721C - Integrating Professional Nursing Practice Clinical
Credits: 6
Clinical synthesis experience to refine and integrate previously learned knowledge and skills into professional practice through a cooperatively designed learning experience. Students plan, deliver and manage care under the supervision of a licensed preceptor. Prereq: majors only.
Co-requisite: NURS 721

NURS 794 - Special Topics
Credits: 1-4
Specialized courses covering information not normally presented in regular course offerings. Description of topics varies. May be repeated but not in duplicate areas of content. Prereq: permission. Special fee on some sections.

NURS 794T - Special Topics/Study Away
Credits: 1-4
Study Away course. Special fees. Permission required.
Co-requisite: INCO 589

NURS 794W - Special Topics
Credits: 1-4
Specialized courses covering information not normally presented in regular course offerings. Description of topics varies. May be repeated but not in duplicate areas of content. Prereq: permission. Special fee on some sections. Writing intensive.
Attributes: Writing Intensive Course
Equivalent(s): NURS 794
NUTR 401 - Professional Perspectives on Nutrition
Credits: 4
Examines the many opportunities for dietitians and nutrition science professionals, from farm to fork, to health and nutrition outcomes. Students meet and interact with faculty and explore career paths and nutrition strategies in the food and nutrition science fields. Legal and ethical considerations for these professionals are discussed. Content areas for specialization in nutritional sciences, dietetics, health and wellness are reviewed, as well as the Ecogastronomy dual major. Cr/F. Prereq: freshmen, sophomore standing or permission.

NUTR 403 - Culinary Arts Skills Development
Credits: 4
This laboratory class explores classical culinary and basic cooking techniques. Classical recipes for stocks, mother sauces, soups and pie crust, quick and yeast breads are featured with hands-on experiential learning using common practices and techniques of the food service industry. Students will gain an understanding of basic ingredients, fabrication, storage, cooking, hygiene and sanitation, equipment usage in modern culinary through demonstration, practice and evaluation. Special Fee.
Equivalent(s): CAN 403

NUTR 405 - Food and Society
Credits: 4
Consideration of the cultural significance of food, emphasizing historical, psychological, social, political, and economic aspects. (Spring semester only.)
Attributes: Social Science (Discovery)
Equivalent(s): ANSC 405, NUTR 405W

NUTR 405W - Food and Society
Credits: 4
Consideration of the cultural significance of food, emphasizing historical, psychological, social, political, and economic aspects. (Spring semester only.) Writing intensive.
Attributes: Social Science (Discovery); Writing Intensive Course
Equivalent(s): NUTR 405

NUTR 476 - Nutritional Assessment
Credits: 4
Designed for the student who plans to enter the health care profession. Introduces the concepts of nutritional assessment and the practical application of these concepts in the nutritional care of clients in clinical, community, and research settings. Prereq: NUTR 400. Special fee.
Equivalent(s): NUTR 751

NUTR 404 - Managerial Skills in Dietetics
Credits: 4
Emphasis on the basic principles of managing clinical, community, and food service operations, including personnel management, in-service and on-the-job training, policy and procedure development, negotiation techniques, facilities, equipment selection, and financial management.
Equivalent(s): NUTR 503

NUTR 504 - Managerial Skills in Dietetics
Credits: 4
Emphasis on the basic principles of managing clinical, community, and food service operations, including personnel management, in-service and on-the-job training, policy and procedure development, negotiation techniques, facilities, equipment selection, and financial management.
Equivalent(s): NUTR 503

NUTR 400 - Nutrition in Health and Well Being
Credits: 4
Addresses scientific principles of human nutrition to promote health and well-being. Overview of the biological significance of food and nutrition, specific nutrient functions, and how the supply and demand of food impacts physical health and well-being. Emphasis on scientific literacy and an appreciation of the ways in which we gain scientific knowledge and understanding. Special fee. Lab.
Attributes: Biological Science(Discovery); Discovery Lab Course
Equivalent(s): ANSC 400, NUTR 400H, NUTR 475

NUTR 400H - Honors/Nutrition in Health and Well Being
Credits: 4
This course is designed to teach the scientific principles of human biology using nutritional concepts to promote personal health and well being. Special fee. Students cannot earn credit for this course if they have taken ANSC 400 or NUTR 475.
Attributes: Biological Science(Discovery); Discovery Lab Course
Equivalent(s): NUTR 400

NUTR 403 - Culinary Arts Skills Development
Credits: 4
This laboratory class explores classical culinary and basic cooking techniques. Classical recipes for stocks, mother sauces, soups and pie crust, quick and yeast breads are featured with hands-on experiential learning using common practices and techniques of the food service industry. Students will gain an understanding of basic ingredients, fabrication, storage, cooking, hygiene and sanitation, equipment usage in modern culinary through demonstration, practice and evaluation. Special Fee.
Equivalent(s): CAN 403

NUTR 405 - Food and Society
Credits: 4
Consideration of the cultural significance of food, emphasizing historical, psychological, social, political, and economic aspects. (Spring semester only.)
Attributes: Social Science (Discovery)
Equivalent(s): ANSC 405, NUTR 405W

NUTR 405W - Food and Society
Credits: 4
Consideration of the cultural significance of food, emphasizing historical, psychological, social, political, and economic aspects. (Spring semester only.) Writing intensive.
Attributes: Social Science (Discovery); Writing Intensive Course
Equivalent(s): NUTR 405

NUTR 476 - Nutritional Assessment
Credits: 4
Designed for the student who plans to enter the health care profession. Introduces the concepts of nutritional assessment and the practical application of these concepts in the nutritional care of clients in clinical, community, and research settings. Prereq: NUTR 400. Special fee.
Equivalent(s): NUTR 751

NUTR 504 - Managerial Skills in Dietetics
Credits: 4
Emphasis on the basic principles of managing clinical, community, and food service operations, including personnel management, in-service and on-the-job training, policy and procedure development, negotiation techniques, facilities, equipment selection, and financial management.
Equivalent(s): NUTR 503

NUTR 505 - ServSafe
Credits: 1
Food safety training and certificate program administered by the National Restaurant Association. ServSafe certification required when working in a variety of food service establishments. Special fee.

NUTR 506 - Nutrition and Wellness
Credits: 4
Course assists students in making informed decisions affecting personal and societal wellness. Emphasis on the dimensions of wellness, including the impact of psychological, emotional and physical health, as well as environmental influences that affect behavior. Prereq: NUTR 400 or equivalent.
Equivalent(s): KIN 527
NUTR 525 - Food and Culture in Italy
Credits: 4
Students will be introduced to the Italian culture and its traditions, with a special focus on food. Part of the course will involve out-of-class activities and tasting experiences in the city of Ascoli Piceno, Italy. Only open to students studying abroad in the UNH-in-Italy Program. Permission required.
Attributes: World Cultures(Discovery)

NUTR 530 - Critical Analysis in Food Studies
Credits: 4
The course aims to investigate concepts and ideas that are essential to food studies. The philosophical aspects of the course are complemented by the experiential components that emphasize the particularity of the Italian environment. Only open to students studying abroad in the UNH-in-Italy Program. Permission required.
Attributes: Humanities(Disc)

NUTR 535 - History of Food in Italy
Credits: 4
Students will examine the history of food in Italy and explore the interconnected sociological, cultural, political and environmental histories. Only open to students studying abroad in the UNH-in-Italy Program. Permission required.
Attributes: Historical Perspectives(Disc)

NUTR 546 - Nutrition in Exercise and Sports
Credits: 4
Advanced nutritional strategies to optimize health, fitness, and athletic performance. Emphasis is on nutrition before, during, and after exercise for fitness, training, and competitions. Topics include healthy strategies for building muscle and losing body fat, as well as dietary manipulation in an effort to gain a competitive advantage. Prereq: NUTR 400 or equivalent.
Equivalent(s): NUTR 646

NUTR 550 - Food Science: Principle and Practice
Credits: 4
Application of scientific principles associated with the study of foods. Topics include: food composition, food additives and regulations, food safety, food biotechnology, product development and sensory evaluation. Principles of scientific inquiry as food ingredients are manipulated in a kitchen lab environment. Prereq: HMGT 403; NUTR 400; CHEM 411 or CHEM 403 and CHEM 404. Special fee. Lab.
Equivalent(s): NUTR 500, NUTR 501

NUTR 560 - Introduction to Research in Nutrition
Credits: 2
Introduction to research methods in nutritional assessment. Students gain both conceptual knowledge and hands-on experience in a collaborative setting while working with the College Health and Nutrition Assessment Project. Prereq: NUTR 400 or equivalent.

NUTR 595 - Mediterranean Diet and Culture
Credits: 4
Is there a diet that allows one to eat, drink, and still be healthy? While Americans struggle with rising rates of obesity and related health conditions, inhabitants of the Mediterranean region enjoy relatively low rates of heart disease, cancer, and obesity. Offers a unique on-site experience in Ascoli Piceno, Italy to investigate the cultural and scientific importance of the Mediterranean Diet. Students review basic nutrition concepts as well as the history and evolution of the Mediterranean diet. Combining lecture, discussion, and experiential activities, NUTR 595 is offered through the UNH Italy Study Abroad Program during the summer session.
Co-requisite: INCO 589

NUTR 600 - Field Experience in Nutrition
Credits: 1-4
Supervised field experience in public and private agencies with planned learning objectives related to clinical and community nutrition and food service management. Students are responsible for their own transportation; faculty member coordinates arrangements with fieldwork sites. Prereq: NUTR 400 or equivalent. Cr/F.
Repeat Rule: May be repeated for a maximum of 6 credits.

NUTR 610 - Nutrition Education and Counseling
Credits: 4
The principles, methods and materials needed to provide nutrition education and counseling services. Emphasis on motivational interviewing, behavior change and developing skills needed to be an effective nutrition educator and counselor. Prereq: NUTR 400 and NUTR 476.
Equivalent(s): NUTR 510

NUTR 625 - From Farm to the Italian Table
Credits: 4
Students will gain an appreciation for food production (harvesting, processing), culinary preparation, and tasting. Hands-on experience will be emphasized through field trips and will provide a broad, informed perspective on farming and sustainable agriculture. Only open to students studying abroad in the UNH-in-Italy Program. Permission required.

NUTR 628 - Culinary Nutrition Practicum
Credits: 4
This course builds on basic cooking techniques learned in NUTR 403 with an emphasis on the study and use of whole food ingredients to prepare and critically evaluate healthy recipes/meals. Techniques such as recipe modification and menu development will be addressed. The course culminates with the development of a multi-course menu developed, prepared and presented by the students in the class.

NUTR 650 - Life Cycle Nutrition
Credits: 4
Comprehensive review of the nutritional issues related to the life cycle. Nutrient requirements of each life cycle stage are analyzed in the context of their metabolic functions. Practical application of theory at each stage of the life cycle through projects and discussion. Prereq: NUTR 400 or equivalent. Recommended BMS 507 and BMS 508.

NUTR 686 - UNH-in-Italy Study Abroad
Credits: 0
Provides a unique opportunity to study abroad in Ascoli Piceno, Italy during the semester. Open only to students studying abroad in the UNH-in-Italy Program. Permission required. Cr/F. Special fee.
NUTR 699 - Independent Study
Credits: 1-4
Scholarly research project in an area of the nutritional sciences under the guidance of a faculty adviser. May be repeated. Prereq: permission. Cr/F.
Repeat Rule: May be repeated for a maximum of 8 credits. May be repeated up to 4 times.
Equivalent(s): NUTR 699W

NUTR 700 - Career Development in Dietetics
Credits: 1
Preparation for applying to dietetic internship programs and/or graduate school. Topics include writing resumes and personal statements, interviewing, professional skills, and navigating the online internship application.

NUTR 709 - Nutritional Epidemiology
Credits: 4
This course introduces basic concepts and methods in key areas of nutritional epidemiology, and discusses practical considerations related to designing, analyzing, and evaluating population-based nutrition studies. Research methods used in nutritional epidemiology will be taught to provide students with the ability to critically evaluate the nutritional epidemiological evidence. Learning will be enhanced by practical experiences in the collection, management, and analysis of nutritional epidemiological data during lab and in-class activities. Prereq: an introductory nutrition course and statistics course. Permission required.

NUTR 720 - Community Nutrition
Credits: 4
Identification of causes of complex public health nutrition problems (such as food insecurity and escalating obesity rates) and cost-effective community-based interventions required to solve them. Provides skills and tools needed to assess design, and evaluate community nutrition and wellness interventions. Prereq: NUTR 400 or equivalent. Writing intensive.
Attributes: Writing Intensive Course
Equivalent(s): ANSC 610, ANSC 720

NUTR 730 - From Seed to Sea: Examining Sustainable Food Systems
Credits: 4
Integration of diverse human and natural system interactions in a seminar-based course to understand issues in food system sustainability. Examination of food system structure and function from coupled human and natural systems perspectives. Current and topical issues of food and agriculture include: exploration of using natural resources to meeting growing population demands; conflicting views on meeting food and nutrition requirements; impacts of increased stress on natural resources; inequities and discrimination in the food system; impact on dietary guidelines on the environment. Prereq: NUTR 400 or NUTR 405 or by permission.

NUTR #733 - Inv Diet Supplements & Herbs
Credits: 4
Investigations into the potential benefits to human health of medicinal herbs and other dietary supplements. Students critically evaluate the potential effectiveness of dietary supplements by relying on peer-reviewed nutrition and medical journals. Safety, efficacy, and legality of dietary supplements are critically evaluated, as well as governmental regulations and industry marketing approaches. Several exemplary dietary supplements are examined in detail. Recommended for students in the health sciences (nutrition, nursing, biomedical sciences). Students are expected to attend live sessions of this synchronous online course at the regularly scheduled class times, and all exams will take place in a UNH classroom at the regularly-scheduled class times on the dates indicated in the syllabus. Prereq: NUTR 400. Attributes: Online with some campus visits, EUNH.

NUTR 740 - Nutrition for Children with Special Needs
Credits: 4
Nutritional assessment and care of children with special needs resulting in feeding difficulties requiring medical nutrition therapy. Prereq: NUTR 400.

NUTR 750 - Nutritional Biochemistry
Credits: 4
Digestion, absorption, transport, and utilization of food nutrients. Role of macro- and micro-nutrients as substrates and catalysts for metabolic pathways, and the role of these pathways in maintaining human health at the cellular, organ, and whole body levels. Prereq: BMS 507 and BMS 508 or ANSC 511 and ANSC 512; BMCB 658 or equivalents. Writing intensive.
Attributes: Writing Intensive Course
Equivalent(s): ANSC 750, ANSC 750W, NUTR 750W

NUTR 751 - Nutritional Biochemistry of Micronutrients
Credits: 4
Investigation of the nutritional and biochemical aspects of micronutrient metabolism. All essential vitamins and minerals, as well as some phytonutrients and quasi-nutrients, are explored in depth. Nutrients are examined for their molecular, cellular, metabolic and biomedical functions, as well as the biochemical and clinical consequences of their deficiency or excess. Prereq: NUTR 750 or equivalent.

NUTR 755 - Treatment of Adult Obesity
Credits: 3
Overview of the risk factors associated with obesity; evidence-based recommendations for assessment and treatment of obesity. Counseling skills important to successful weight management and non-diet approaches are also explored. Prereq: NUTR 400, 476, and NUTR 610.
Co-requisite: NUTR 758
Equivalent(s): NUTR 756

NUTR 758 - Practicum in Weight Management
Credits: 2
Assist clients in making lifestyle and dietary changes over a 10-week period and develop skills in marketing, advertising, counseling, an oral communication related to weight management. Prereq: NUTR 400 or equivalent; NUTR 476; and NUTR 610. Special fee.
Co-requisite: NUTR 755
Repeat Rule: May be repeated for a maximum of 4 credits.
Equivalent(s): NUTR 680
NUTR 760 - Research Experience Nutrition I  
*Credits*: 2  
Review scientific literature, formulation of research questions, testing hypotheses, analysis and interpretation of research data, and formal presentation of findings. Students gain conceptual knowledge and hands-on experience while working with established research projects. NUTR 760 focuses on the review of scientific literature and the development and testing of a research question. Prereq: NUTR 560.

NUTR 761 - Research Experience Nutrition II  
*Credits*: 2  
Review scientific literature, formulation of research questions, testing hypotheses, analysis and interpretation of research data, and formal presentation of findings. Students gain conceptual knowledge and hands-on experience while working with established research projects. NUTR 761 focuses on understanding and communicating research findings in a collaborative setting. Prereq: NUTR 760.

NUTR 765 - Geriatric Nutrition  
*Credits*: 4  
Overview of the physiological changes associated with aging and their impact on preparing, consuming, digesting, absorbing, and metabolizing food. Role of routine nutritional assessment in the promotion of health to prevent and manage chronic disease, with a social focus on the influence of polypharmacy on nutritional status. Prereq: NUTR 400 or equivalent; NUTR 650.

NUTR 773 - Clinical Nutrition  
*Credits*: 4  
Principles and mechanisms of disease that result in altered nutrient requirements in humans. Prereq: NUTR 400, BMS 507 and BMS 508.  
*Equivalent(s):* ANSC 773, ANSC 774, NUTR 774

NUTR 775 - Practical Applications in Medical Nutrition Therapy  
*Credits*: 4  
Combination of lecture and supervised practical experience in medical nutrition therapy in a New England hospital. Emphasizes nutritional counseling, assessment, and instruction of patients with nutrition-related disorders. Prereq: NUTR 400; BMS 507 and BMS 508 or ANSC 511 and ANSC 512; BMCB 658. Special fee.  
*Equivalent(s):* ANSC 775

NUTR 780 - Critical Issues in Nutrition  
*Credits*: 4  
Critical review and analysis of controversial topics in nutrition; emphasis on developing oral and written communication skills and critical thinking skills. Writing intensive. Prereq: NUTR 773 or permission.  
*Attributes: Writing Intensive Course*  
*Equivalent(s):* ANSC 780

NUTR 790 - Undergraduate Teaching Experience  
*Credits*: 1-2  
Assist graduate teaching assistants or faculty in preparing, presenting, and executing NUTR courses/laboratories.  
*Repeat Rule: May be repeated for a maximum of 4 credits.*

NUTR 795 - Investigations  
*Credits*: 1-4  
Prereq: permission.  
*Equivalent(s):* NUTR 795W

NUTR 795W - Investigations  
*Credits*: 1-4  
Prereq: permission. Writing intensive.  
*Attributes: Writing Intensive Course*  
*Equivalent(s):* NUTR 795

NUTR 799 - Senior Thesis  
*Credits*: 1-4  
A special project conducted under faculty supervision and resulting in a written honors thesis. Students must initiate discussion of the project with an appropriate faculty member. Offered both semesters. Prereq: Junior or Senior major with cum. GPA of 3.20; permission. Writing intensive.  
*Attributes: Writing Intensive Course*  

**Occupational Therapy (OT)**  
# Course numbers with the # symbol included (e.g. #400) have not been taught in the last 3 years.

OT 444 - Living and Doing with Technology  
*Credits*: 4  
This course draws upon the knowledge from emerging product design concepts and principals and advocates for inclusiveness of all consumers regardless of their age, abilities, disabilities, and personal affinities. Students will apply critical thinking and hands-on learning to evaluate day-to-day technologies by use of various design criteria, identify usability problems, and design technology solutions. Course work will include readings, interactive activities, discussions, quizzes, and group projects.  
*Attributes: Environment, TechSociety(Disc); Inquiry (Discovery)*

OT 500 - Behavior and Development of Children  
*Credits*: 4  
Introduces the biological, psychosocial, and cultural aspects of human development from birth through adolescence. Emphasizes theories that help explain human behavior; discusses implications of developmental research.  

OT 501 - Developmental Tasks of Adulthood  
*Credits*: 4  
Includes the biological and psychosocial context of development for adults. Developmental tasks relate to the accomplishment of prior tasks, physiological change, socioeconomic status, and psychosocial development. Prereq: child development course or permission.  
*Equivalent(s):* OT 600

OT 510 - Exploring Occupational Therapy and Occupation  
*Credits*: 4  
Occupational therapy is introduced as a human service profession through experiential and academic activities, which illustrate the personal and professional skills required to practice in a variety of settings and roles. Basic concepts of human occupation and the therapeutic use of occupation are explored. Comparisons are made to related human service careers. Students are encouraged to do a personal assessment of their interest and potential for further study of occupational therapy.
OT 513 - Stressed Out: The Science and Nature of Human Stress
Credits: 4
The human stress response system, research investigating the sequelae of stress on health, protective strategies for stress, managing personal stress effectively, and strategizing stress modulation as an intervention technique. Course format includes two hours of weekly lecture/discussion followed by one hour of experiential laboratory in which students research and/or apply new information. Special Fee.
Attributes: Biological Science(Disclosure); Discovery Lab Course

OT 520 - Happy and Healthy at Work: Promoting Wellness, Diversity and Inclusion
Credits: 4
Offers improved understanding and ability to effectively manage a diverse and healthy workforce. Addresses key diversity, inclusion, and wellness issues in the workplace of a general, technical, and social nature with an emphasis on disability and health promotion. Special Fee.
Attributes: Social Science (Discovery); Inquiry (Discovery)
Equivalent(s): HMGT 598, OT 598

OT 595 - Special Topics
Credits: 4
Explores areas related to occupational therapy theory, practice, and/or research. Special fee on topic: College as Transition.

OT 610 - Occupation, Identity, Disability
Credits: 4
Students develop skills and knowledge for analyzing daily existence, patterns of activity and the occupational choices pursued by humans. Students explore how the self-identity of individuals with and without disability is influenced by participation in everyday activities, and contextual factors: Through reading, reflective writing and collecting personal narratives of individuals with disability, students examine the relations among engagement in daily occupations and the orchestration of routines and social participation with self identity and well-being. Majors only. Writing intensive.
Attributes: Writing Intensive Course

OT 685 - Psychosocial Disorders and Everyday Life
Credits: 4
The study of abnormal behavior in the context of its effect on everyday function. Provides background information on adult psychosocial disorders commonly seen by service providers in the mental health system. Students learn to observe and describe behavior in terms of functional impairment, diagnostic criteria, and causative factors. General psychosocial and biological treatments are studied. This course or its equivalent is a prerequisite for entry to the professional master's degree program in occupational therapy. Students are expected to bring to this course a basic knowledge of psychosocial aspects of human development. Prereq: PSYC 401. Majors only.
Equivalent(s): OT 683

OT 695 - Independent Study
Credits: 2-4
In-depth study with faculty supervision. Prereq: junior standing in OT major; approval of major adviser and faculty of area concerned.
Repeat Rule: May be repeated for a maximum of 8 credits.

OT 710 - OT Practice and Professional Roles
Credits: 4
Students are introduced to foundation knowledge, values and philosophy of occupational therapy practice. Students learn skills to apply professional behaviors and skills required to be ethical practitioners. They learn about various practice settings and systems within which occupational therapists practice to prepare them to begin to make decisions regarding their fieldwork site selections. They are introduced to models of OT practice. Only open to OT majors. Special fee.

OT 722 - Introduction to Assistive Technology
Credits: 4
Hands on course provides participants with an overview of the application of assistive technology in all life settings for individuals affected by physical, sensory, or cognitive limitations. Methods, materials, and resources for obtaining and providing assistive technology services will also be discussed. Special fee.

OT 724 - Assistive Technology and Physical Disabilities
Credits: 4
An advanced course that focuses on the specialized assistive technology needs of persons with physical impairments. Topics include seating and positioning needs, prosthetic devices, manual powered mobility devices, ergonomics and computer access. Special fee.

OT 726 - Assistive Technology and Sensory, Communicative, and Cognitive Disabilities
Credits: 4
Explores the application of various technologies for individuals with visual, auditory, cognitive and communication impairments. Included are: blind and low vision aids, assistive listening devices, alternative and augmentative communication devices, memory aides, and prompting aides. Special fee.

OT 730 - Assistive Technology for Enhancing Occupational Performance
Credits: 3
This course provides instruction on how occupational therapy practitioners use and apply assistive technology in the context of client evaluation and intervention, to improve quality of life and functional capacities. Students learn and apply clinical reasoning skills related to the selection, procurement, modification and training in the use of assistive technology solutions. OT majors only.
Co-requisite: OT 730L

OT 730L - Assistive Technology for Enhancing Occupational Performance Lab
Credits: 2
Co-Requisite Laboratory for OT 730 and OT 830 Assistive Technology for Enhancing Occupational Performance. Students are provided hands-on learning experiences regarding the fabrication, identification, adaptation and training in the use of assistive technology for individuals with functional problems associated with disability or impairment. OT evaluation and interventions related to the application of assistive technology are addressed. OT majors only.
Co-requisite: OT 730

OT 731 - Introduction to Assistive Technology Principles
Credits: 2
This course presents an overview of the various assistive technology service delivery models, assessment tools, legislation, funding, and assistive technology across the lifespan.
OT 732 - Introduction to Assistive Technology Practices
Credits: 2
This course presents an overview of the various service delivery models, assessment tools and teaches students how to create and modify devices. Students will conduct device demonstrations, training, reuse, and repair while acquiring skills using various fabrication tools, materials and techniques. Students will receive a materials kit they will use to fabricate eight assistive technology solutions. They will also be required to submit video clips and photos demonstrating their skills providing device demonstrations, loans and customer training. Special Fee.

OT 733 - Assistive Technology and Physical Disabilities for Electronic Devices
Credits: 2
This course focuses on switch and computer access solutions; programming switch interfaces for computers and iPads; alternative mice and keyboards; switch access recipes; iPad mounting solutions; electronic aids for daily living, voice controlled solutions for the phone, computer, and activation of household appliances. Students will learn how to make, modify, and mount various switches an electronic devices. Intensive hands-on AT exploration will be completed on campus or virtual evidence provided will be accepted.

OT 734 - Assistive Technology and Physical Disabilities for the Home, Community and Employment
Credits: 2
This course focuses on assistive technology solutions to maximize independence at home, in the community, and on the job for individuals who experience physical disabilities. Students will acquire skills in conducting accessibility assessments, Topics explored include wheelchair seating and mobility; ergonomic hand tools, independent living aids; ramps and lifts; vehicle modifications; and modifications for canes, crutches, walkers, and wheelchairs. Intensive hands-on AT exploration will be completed on campus or virtual evidence provided will be accepted.

OT 735 - Assistive Technology for Communication and Cognitive Impairments
Credits: 2
This course focuses on alternative and augmentative communication devices and devices that benefit individuals who experience cognitive impairments. This course explores assistive technology solutions for note taking, devices and apps for self-regulation, organization, and reminders. Students will learn how to conduct cognitive demand analysis for devices and apps to help users select appropriate accommodations and assistive technology solutions. Intensive hands-on AT exploration will be completed on campus or virtual evidence provided will be accepted.

OT 736 - Assistive Technology and Vision and Hearing Impairments
Credits: 2
This course focuses on assistive technology for blind and low vision; deaf and hard of hearing; and deaf/blindness. Students will use an assortment of magnification devices; amplification systems; and assistive listening devices as well as learn how to create a variety of approaches to accommodate for vision and hearing impairments. Intensive hands-on AT exploration will be completed on campus or virtual evidence provided will be accepted.

OT 741 - Human Occupation
Credits: 4
This course introduces students to the broad concept of occupation by exploring ways people acquire skills for occupational performance. Students develop an understanding of the relations between health and occupation, disability and occupation, and explore how humans find meaning in their lives through occupational engagement. Writing intensive.

Attributes: Writing Intensive Course

OT 744 - Fieldwork and Professionalism - Level 1
Credits: 1
This course prepares students to enter level 1 fieldwork with confidence and working knowledge of expectations for a full-time two-week level 1 fieldwork experience. Cr/F. Special Fee.

Equivalent(s): OT 736

OT 745 - Administration and Management for Occupational Therapy Practice
Credits: 4
This course aims to increase the student's understanding of systems of practice, and to business fundamentals associated with occupational therapy service delivery. Specific topics covered include and analysis of practice settings, reimbursement, supervision of professional and non-professional staff, program evaluation methods, ethics, OT management practices, marketing, health policy including medicare, Human Rights and Education Legislation, and the impact of policy decisions for the delivery of OT services. OT majors only.

OT 746 - Fieldwork & Prof Level II
Credits: 1
This course is designed to deepen understanding of professionalism needed for success on Level II fieldwork. We will explore role changes that accompany leaving the academic world and entering the larger realm of professional practice. Students analyze factors that contribute to successful professional development and ethical practice. Students use the results of their analyses to plan their individual transition to fieldwork and entry-level practice. Prereq: OT 744 & OT 792.

OT 751 - Mind Body Systems/Neurologically Based Function and Dysfunction
Credits: 4
Students study most significant occupational-related disorders commonly seen by occupational therapists. A self-directed method is used to examine the perceptual, cognitive, biopsychosocial basis of these disorders. A basic overview of human body-mind systems is provided with an emphasis on pathology, the recognition of symptoms, their causes and the occupational implications of the disorders. The course is a prerequisite for courses in specific occupational therapy assessment and intervention. OT majors only.

OT 752 - Human Movement and Environmental Effects on Everyday Occupations
Credits: 4
Integrates the student's prerequisite knowledge of occupation. Develops skills required for interpretation of biomechanical analysis for creating successful occupational performance for individuals with varied musculoskeletal, cardiac and respiratory dysfunction. Integration of the occupational therapy clinical reasoning process and the use of occupations as a therapeutic mechanism for change are emphasized. The analysis of environment as it relates to human movement and participation in desired occupations is explored. Special fee.

Co-requisite: OT 752L
OT 752L - Human Movement Lab
Credits: 1
OT majors only. Cr/F.
Co-requisite: OT 752

OT 753 - Mind Body Systems: Neurologically-based Function and Dysfunction--Pediatric Conditions
Credits: 4
This course applies an occupational science perspective to study disease, illness, medical conditions, and impairments to human body structures and functions that typically emerge and/or present themselves in childhood. The emphasis is on how disease, and impairments in physical and mental functioning interact with the human condition, the uniqueness of individuals, and the environments within which they live to impact occupational performance, and one's overall health, well-being, and life quality. This course is a prerequisite for all occupational therapy assessment and intervention courses including OT 762/OT 862, OT 763/OT 863, and OT 760/OT 860.

OT 757 - Mind Body Systems: Neurologically-based Function and Dysfunction--Adult Conditions
Credits: 4
This course is the second course in a two-part course sequence that uses a life span approach, drawing on occupational science perspectives to study conditions typically diagnosed during adulthood (ages 21 and up). The emphasis is on the interaction of the individual (the mind), the body and the psychosocial environment as related to occupational performance. Students will work in pairs to examine selected disorders, and will further develop their presentation skills. This course is a prerequisite for courses in occupational therapy assessment and intervention for adults. Prereq: KIN 706; OT 753/OT 853.

OT 760 - Psychosocial Evaluation and Intervention
Credits: 4
Examines the evaluation of psychosocial and psycho-emotional areas of occupational performance and the planning and implementation of occupation-based interventions across domains of practice and client populations. Course addresses developing a client’s occupational profile, narrative reasoning and therapeutic use of self, behavioral change, illness representation, and adjustment to chronic disorders. A specific focus of the course is evaluation of and intervention for clients’ presenting with mental health disorders. Open to OT majors only.
Co-requisite: OT 760L

OT 760L - Psychosocial Evaluation and Intervention Lab
Credits: 1
This is the co-requisite lab for OT 760. Lab provides hands-on experiences regarding the evaluation and intervention of psychological and psycho-emotional areas of occupational performance. Course focuses on the evaluation and intervention for clients presenting with mental health disorders and also addresses narrative reasoning, therapeutic use of self, behavioral change, illness representation and adjustment to chronic disorders. Special fee. OT majors only. Cr/F.
Co-requisite: OT 760

OT 762 - Occupational Therapy Evaluation and Intervention for Children
Credits: 3
In this course, students will develop entry-level practice skills for conducting occupational therapy (OT) evaluations and interventions for children. Organized around the OT Practice Framework, students will learn how to collaborate with families and other professionals, develop clinical observation skills, and learn frequently used standardized assessments. Additionally, students will use primary OT frames of reference to plan and implement interventions. Students will apply their understanding of typical and atypical child development, and extend their clinical reasoning skills in order to develop competencies for providing OT services for children and with a variety of conditions across common practice settings.
Co-requisite: OT 762L, OT 762R
Repeat Rule: May be repeated up to 0 times.

OT 762L - Occupational Therapy Evaluation and Intervention for Children Lab
Credits: 1
The co-requisite labs provide hands-on experiences to compliment lecture material from OT 762, and to provide opportunities for the practical application of knowledge. Special fee. Cr/F.
Co-requisite: OT 762

OT 762R - Occupational Therapy Evaluation and Intervention for Children Recitation
Credits: 0
The recitation provides hands-on experiences to compliment lecture material from OT 762 and OT 762L, and to provide opportunities for the practical application of knowledge. Cr/F.

OT 763 - Occupational Therapy Evaluation and Intervention for Adults
Credits: 3
Students will develop entry-level practice skills related to the synthesis of evaluation, intervention planning and goal writing. The student will be introduced to a variety of standardized evaluation tools and implement OT interventions within various contexts of practice through case studies. Specific intervention techniques based on accepted frames of reference and research evidence that helps clients engage successfully in the daily occupations will be emphasized. Prereq: OT 752, OT 757.
Co-requisite: OT 763L

OT 763L - Occupational Therapy Evaluation and Intervention for Adults Lab
Credits: 2
This lab is a co-requisite course to accompany OT 863 Occupational Therapy Evaluation and Intervention for Adult Dysfunction. The lab course provides opportunity for the students to engage in experiential learning and application of principles and techniques learned in the lecture course. Special fee. Cr/F.
Co-requisite: OT 763

OT 763R - Occupational Therapy Evaluation and Intervention for Adults Recitation
Credits: 0
The recitation provides hands-on experiences to compliment lecture material from OT 763 and OT 763L, and to provide opportunities for the practical application of knowledge. Cr/F.
Co-requisite: OT 763, OT 763L
OT 766 - AMPS Training  
Credits: 4  
The Assessment of Motor and Process Skills (AMPS) provides a client-centered, occupation-based assessment of a person's ADL ability. The course supports occupation-based intervention. Students learn to reliably administer the AMPS and use it in the context of occupational therapy practice. Cr/F.

OT 771 - Enabling Participation in Community Groups  
Credits: 2 or 3  
Students will work in an organization, learn about the people served by this organization, and conduct therapeutic groups within the organization. Emphasis of content includes group process, clinical documentation, intervention planning and OT services with adults with cognitive impairments. Special Fee.

OT 771L - Enabling Participation in Community Groups Lab  
Credits: 2  
Students will work in an organization, learn about the people served by this organization and conduct therapeutic groups. This lab serves as a Level I Fieldwork placement. OT majors only. Special fee.

OT 785 - Research Methods and Application to Practice  
Credits: 4  
Qualitative, quantitative, and mixed methods types of research are introduced and applied to relevant occupational therapy questions. Students acquire the fundamental skills of conducting research such as formulating research questions and identifying appropriate research designs and/or methods. Students also develop the ability to critically analyze research studies and apply the outcome to evidence-based practice in occupational therapy. OT majors only.

OT 789 - Using iPads to Support Children with Disabilities  
Credits: 3  
The iPad is changing the way we teach and learn. This technology embraces Universal design principles (UDL) and enables children with significant disabilities to learn in ways never thought possible five years ago. It is a tool for delivering multimedia content and embraces the use of Multi modal learning. This technology finally levels the playing field to support all students including students with disabilities.

OT 791 - Senior Honors Thesis  
Credits: 4  
Completion of a research proposal based on a topic of relevance to the occupational therapy profession. Development of knowledge and skills in receiving and critiquing research and professional literature; research design and methodology; and the development of a research proposal. Required for graduation with honors in the major. Prereq: Completion of OT 741. Open to OT majors only. 
Equivalent(s): OT 691

OT 792 - Level I Fieldwork  
Credits: 1  
Provides occupational therapy students an opportunity to experience occupational therapy in a clinical setting. Students attend a seminar prior to beginning their placement. The Level I placement is scheduled between the fall and spring semesters of the senior year. During fieldwork, students observe an occupational therapist as well as participate in the planning and implementing of the occupational therapy assessment or intervention process for a client. OT majors only. Cr/F.

OT 795 - Special Topics  
Credits: 2-4  
Explores areas related to occupational therapy theory, practice, and/or research. May repeat but not in duplicate subject areas. Prereq: permission. Special fee on some sections. Cr/F.  
Repeat Rule: May be repeated for a maximum of 12 credits. 
Equivalent(s): OT 795W

Ocean Engineering (OE)  
# Course numbers with the # symbol included (e.g. #400) have not been taught in the last 3 years.

OE 400 - Ocean Engineering Seminar  
Credits: 1  
A seminar based course considering contemporary topics involved in ocean exploration. Faculty and guest speakers will describe thematic ocean engineering subareas through weekly presentations. The presentations will provide examples of engineering applications and ocean exploration. Class participation credit can be earned through oral discussions, presentation of contemporary OE topics, or hands on projects.  
Repeat Rule: May be repeated for a maximum of 2 credits.

OE 490 - Introduction to Ocean Engineering  
Credits: 4  
Survey of engineering applications in the ocean environment. Topics vary an include hydrodynamics, waves, tides, underwater sound, instrumentation, marine geomechanics, and naval architecture. Includes guest lectures by faculty members from the Engineering departments. Prereq: PHYS 407.

OE 521 - Power of the Sea: Scientific Discovery in the Ocean  
Credits: 4  
This course considers the struggle to understand the physics of the sea to help predict when the sea will unleash its fury. The scientific discovery of ocean engineering topics such as tides, waves, and tsunamis are introduced through their human historical introduction. The historical significance and preliminary resolution of each physical mechanism provide context for the fundamental formulations and contemporary predictive models. The course also considers the role of ocean disasters and geopolitical conflict in motivating scientific exploration of the oceans. 
Attributes: Physical Science(Discovery)
OE 610 - Ocean Instrumentation Lab
Credits: 4
An investigation of the discrete and integrated electronics typically used in the design and implementation of ocean instruments. Topics include both passive and active analog electronic elements typically used for signal conditioning of common oceanographic sensors (e.g., thermistors, pressure sensors, acoustic transducers); A/D and D/A conversion, sensor sampling criteria and rules, with examples from contemporary ocean instruments; embedded micro-controller/microcomputer modules for autonomous or remote sensing in ocean environments; inter-instrument communications methods typically used in ocean instruments (e.g., serial and network communications). Laboratory time will be used to develop practical experience in specification, design, development and testing of various ocean instrument components based on the material presented. Prereq: MATH 527; MATH 528; ECE 537; IAM 550.

OE 677 - Seawamanship and Marine Weather for Ocean Engineers and Scientists
Credits: 2
A survey of basic principles of seawamanship and marine weather intended for ocean engineers and ocean scientists. Reviews ship and vessel nomenclature, shipboard safety, techniques for equipment handling and instrument deployment, common shipboard evolutions associated with scientific cruises, navigation principles, and marine weather phenomena and products. Includes field trips and practical applications.

OE 710 - Ocean Measurements Lab
Credits: 4
Measurements of fundamental ocean processes and parameters. Emphasizes understanding typical offshore measurements, their applications, and the use of acquired data, in terms of the effects on structures and processes in the ocean.

OE 744 - Corrosion
Credits: 4
Three-part course. First part reviews and develops basic concepts of electrochemistry, kinetics, and measurement methods. Second part covers details of specific corrosion mechanisms and phenomena including passivity, galvanic corrosion, concentration cell corrosion, pitting and crevice corrosion, and environmentally induced cracking. Third part focuses on the effects of metallurgical structure on corrosion, corrosion in selected environments, corrosion prevention methods, and materials selection and design. Prereq: CHEM 404 or 405; ME 561 or permission. Special fee. Lab. (Also listed as CHE 744 and ME 744.) Equivalent(s): CHE 744, ME 744

OE 753 - Ocean Hydrodynamics
Credits: 3
Fundamental concepts of fluid mechanics as applied to the ocean, continuity, Euler and Navier-Stokes equations, Bernoulli equation, stream function, potential function, moment theorem, turbulence and boundary layers are developed with ocean applications. Prereq: MATH 527; CEE 650 or ME 608.

OE 754 - Ocean Waves and Tides
Credits: 4
Small amplitude, linear wave theory, standing and propagating waves, wave energy, refraction, diffraction, transformation in shallow water, statistics of random seas, spectral energy density, generating wave time series using the random phase methods forces on structures, Froude scaling of wave tank experiments, nonlinear effects. Description of tides as long waves, equilibrium tide, mathematical modeling including friction, nonlinear effects, and Coriolis forces, tidal analysis, the Great Bay Estuarine System as a case study. Prereq: PHYS 407; MATH 527, and MATH 528. Equivalent(s): EOS 754

OE #756 - Principles of Naval Architecture and Model Testing
Credits: 4
Fundamentals of naval architecture presented, including hydrostatics, basics of resistance and propulsion, sea keeping and scaling. Concepts applied in experiments utilizing the tow/wave tank and associated instrumentation. Prereq: ME 608 or equivalent; ME 627 or equivalent.

OE 757 - Coastal Engineering and Processes
Credits: 3
Introduces small amplitude and finite amplitude wave theories. Wave forecasting by significant wave method and wave spectrum method. Coastal processes and shoreline protection. Wave forces and wave structure interaction. Introduction to mathematical and physical modeling. Prereq: fluid dynamics or permission.

Equivalent(s): CEE 757, CIE 757, ME 757

OE 758 - Design of Ocean Structures
Credits: 3
The foundational information necessary for the design of ocean structures. Topics include analysis and design of floating body, fixed body and moored line hydrostatics; wave forces on small and large bodies; dynamic response of floating bodies; and pile and gravity foundation geotechnics. Prereq: ME 526; ME 608; ME 627, OE 754; MATH 527; or permission.

OE 759 - Estuarine and Coastal Modeling
Credits: 4
Theory and application of coastal and estuarine numerical models for hydrodynamics and transport/fate of natural and pollutant substances. The course will be organized around the development/addition to a numerical model applied to the Great Bay Estuarine System. Theory and course organization will be covered in the lecture component. The full set of steps required to apply, test, use and document a numerical model will be completed in the laboratory component. Prereq: MATH 527; MATH 528, OE 754 or permission.

OE 764 - Spectral Analysis of Geophysical Time Series Data
Credits: 4
This course considers basic exploratory techniques and in-depth spectral analysis for estimation with geophysical time series data, including calculations of confidence intervals and significance testing. This course prepares students for interpreting time series data with science and engineering applications. Topics include sampling theory, filtering, statistics, probability, spectral analysis, and empirical orthogonal functions. Students gain experience in code-writing for the analysis of time series data. Prereq: MATH 426. Equivalent(s): ESCI 764
OE 765 - Underwater Acoustics
Credits: 3
An introduction to acoustics in the ocean. Fundamental acoustic concepts including the simple harmonic oscillator, waves on strings, and the acoustic wave equation; the sonar equation; sound generation and reception by underwater acoustic transducers and arrays; basics of sound propagation; reflection and scattering from ocean boundaries. Spring semester offered every year; satisfies core course requirement in Ocean Engineering. Prereq: PHYS 407/408, MATH 527 or equivalent.

OE 771 - Geodesy and Positioning for Ocean Mapping
Credits: 4
The science and technology of acquiring, managing, and displaying geographically-referenced information; the size and shape of the earth, datums and projections; determination of precise positioning of points on the earth and the sea, including classical terrestrial-based methods and satellite-based methods; shoreline mapping, nautical charting and electronic charts. Prereq: MATH 426, PHYS 408. (Also listed as ESCI 771.) Equivalent(s): ESCI 771

OE 774 - Integrated Seabed Mapping Systems
Credits: 4
Overview of typical applications that involve mapping the sediment-water interface in the ocean and adjacent waters. Emphasis on defining the task-specific resolution and accuracy requirements. Fundamentals of acoustics relevant to seabed mapping. Progression through typical configurations involving single beam, sidescan, phase differing and multibeam systems. Integration of asynchronous 3D position, orientation and sound speed measurements with sonar-relative acoustic travel time and angles. Analysis of impact of offsets, mis-alignments and latency in all integrated sensors.

OE 795 - Special Topics
Credits: 2-4
New or specialized courses and/or independent study. May be repeated for credit.

OE 797 - Honors Seminar
Credits: 1
Course enrichment and/or additional independent study in subject matter pertaining to 600- or 700-level OE courses. Repeat Rule: May be repeated for a maximum of 3 credits.

Outdoor Education (OUT)

OUT 407B - Introduction to Outdoor Education & Leadership - Three Season Experiences
Credits: 2
An exploration of three-season adventure programs and career opportunities in the outdoor field. Students will be introduced to a variety of on-campus outdoor pursuits programming in spring, summer, and fall, including hiking, orienteering, climbing, and watersports. An emphasis on experiential teaching and learning will help students understand essential elements in program planning, administration and risk management. You will examine current trends in public participation in three-season outdoor activities and employment in the outdoor field. No experience required. Equivalent(s): KIN 407B

OUT 444A - Risk and the Human Experience
Credits: 4
Explores the construct of risk in two phases: 1) knowledge building, focusing on the historical development of risk and its current manifestations in contemporary society; and 2) knowledge application, which focuses on applying conceptions of risk to various case study examples. The second phase of the course employs a problem-based learning approach with four distinct modules that ask students to apply, experience, and evaluate risk in a variety of contexts. Each module includes: a) a case study description, b) an experiential exercise, and c) a collaborative debriefing of the experience and reflective application to broader societal issues. Attributes: Social Science (Discovery); Inquiry (Discovery) Equivalent(s): KIN 444A

OUT 444C - AMPED UP: Social and Psychological Perspectives on Adventure
Credits: 4
Interest in the topic of adventure has exploded in recent years; with enough money, almost any adventure is available to anyone. The widespread rise in popularity of adventure brings questions, however. What is the role of adventure in modern society? What is its value to individuals? Through lectures, written assignments, group projects, multimedia, and experiential learning, this course surveys psychological, sociological, and anthropological perspectives on these and students’ own questions. Special fee. Attributes: Social Science (Discovery); Inquiry (Discovery); Writing Intensive Course Equivalent(s): KIN 444C

OUT 515 - History of Outdoor Pursuits in North America
Credits: 4
Voluntary pursuits in the outdoors have defined American culture since the early 17th century. Over the past 400 years, activities in outdoor recreation an education have reflected Americans’ spiritual aspirations, imperial ambitions, social concerns, and demographic changes. This course will give students the opportunity to learn how Americans’ experiences in the outdoors have influenced and been influenced by major historical developments of the 17th, 18th, 19th and 20th, and early 21st centuries. This course is cross-listed with RMP 515. Attributes: Historical Perspectives(Disc) Equivalent(s): KIN 515, RMP 515

OUT 539 - Artificial Climbing Wall Management
Credits: 2
The primary purpose of this course is an introduction to the procedures, methods, and techniques of artificial climbing wall management. Within the scope of this course, students will be introduced to operations, supervision, equipment and facility use/maintenance, risk management strategies, routesetting, individual an group programming/facilitation/teaching, technical skills and rescues/emergency procedures. A variety of teaching styles will be used to familiarize students with each topic area. Special fee. Optional certification fee. Lab. Equivalent(s): KIN 539
OUT 540 - Top Rope Rock Climbing
Credits: 4
Provides students with an understanding of the equipment, techniques, and procedures necessary for the setup and management of top rope rock climbing and rappelling sites, including advanced rescue skills. Students also develop basic climbing movement techniques and skills, an understanding of the pedagogical techniques used in climbing, and the requisite knowledge/skill development to conduct safe top rope experiences in multiple settings. The format of this course is a combination of demonstration/lecture and "hands-on" learning with the emphasis upon student interaction and practical skill development. Special fee. Lab. Equivalent(s): KIN 540

OUT 541 - Management of Challenge Courses
Credits: 4
Provides students with an introduction to the basic facilitation/technical skills to manage a challenge course program. Exposure to intermediate technical skills usually required for lead facilitators. Specific topics include group process, framing, and sequencing, belay methods, participant and instructor equipment, operating procedures for low and high challenge course elements, and industry standards. Special fee. Lab. Equivalent(s): KIN 541

OUT 542 - Sea Kayaking
Credits: 2
An introduction to the technical, teaching, and leadership skills required to lead inland kayaking programs and to assist with coastal canoeing programs. Emphasis on individual kayaking skills, self- and group-assisted rescues, safety and group management in a marine environment, and tactics for ocean travel and navigation. Special fee. Lab. Equivalent(s): KIN 542

OUT 543 - Winter Adventure Programming
Credits: 2
An introduction to winter programming and back country travel, including snowshoeing and skiing, winter interpretation activities, backpacking, and winter camping. Emphasis on teaching of introductory winter programs and trips. Prereq: OUT 551 or instructor permission. Special fee. Lab. Equivalent(s): KIN 543

OUT 544 - High Angle Rescue
Credits: 2
Provides students with the skills necessary to perform self and group rescues in a variety of steep terrain and high angle environments. Students also gain the basic skills necessary for the implementation of self- and partner-rescues while in a technical climbing environment. The skills learned from this class will adapt readily to climber rescue, crevasse rescue, big wall rescue, cave rescue, and vertical urban rescue. Prereq: OUT 547 or instructor permission. Special fee. Lab. Equivalent(s): KIN 545

OUT 546 - Whitewater Canoeing
Credits: 3
Introduces white water canoeing skills. Students gain a basic understanding of the equipment, techniques, and procedures to conduct canoeing activities in flat water, moving water, and white water environments. Emphasizes development of individual paddling skills, safe and conscientious paddling, and group management on moving water and white water. Prereq: Previous canoeing experience or OUT 552. Special fee. Lab. Equivalent(s): KIN 546

OUT 547 - Lead Rock Climbing
Credits: 3
Advanced climbing course designed to provide students with a structured environment to transition from top rope rock climbing or sport climbing to multi-pitch traditional lead climbing. Focuses on the development of the technical skills and judgment associated with leading in a multi-pitch environment. Specific topics include use of artificial protection, belay anchor construction, multi-pitch rappelling, knots, rope/belay station management, climbing technique, and multi-pitch leading considerations. Prereq: OUT 540 or instructor permission. Special fee. Lab. Equivalent(s): KIN 547

OUT 548 - Winter Expedition Programming
Credits: 4
Introduces methods and techniques of winter expedition travel including camping, snowshoeing, alpine climbing skills, technical skiing and ice climbing skills. A variety of teaching styles are used to familiarize students with each topic area, and occur in classroom, basecamp, and wilderness settings. Prereq: OUT majors, OUT 551. Special fee. Lab. Equivalent(s): KIN 548

OUT 549 - Wilderness Navigation
Credits: 4
Introduces the methods and techniques of wilderness navigation. Topics include map interpretation, compass use, global positioning systems, and other navigation methods. A variety of teaching styles are used to familiarize the students with each topic area, and occur in both classroom and wilderness settings. Special fee. Lab. Equivalent(s): KIN 549

OUT 550 - Outdoor Education Philosophy and Methods
Credits: 4
Explores the philosophical basis for experiential and outdoor education. Experiential exercises and readings focus on risk, traditional vs. progressive education, role of nature, ethics, models of learning and facilitation, and developing a personal philosophy of outdoor education. Includes full-day outdoor education laboratory experiences. Attributes: Inquiry (Discovery); Writing Intensive Course Equivalent(s): KIN 550

OUT 551 - Adventure Programming: Backcountry Based Experience
Credits: 4
Introduces the leadership of land-based backpacking programs. Students develop an understanding of backpacking equipment, trip planning and organization, instruction of basic camping skills, implementation of safety procedures and group management on backpacking trips. Special fee. Lab. Equivalent(s): KIN 551

OUT 552 - Adventure Programming: Water Based Experiences
Credits: 4
Introduces the leadership of canoe expeditions. Students develop an understanding of necessary canoeing equipment, trip planning and organization, instruction of basic canoeing strokes, implementation of safety procedures, and group management on canoe expeditions. Special fee. Lab. Equivalent(s): KIN 552
OUT 650B - Internship in Outdoor Education & Leadership
Credits: 4-8
Experiential learning in a setting appropriate to the student's objectives. A 4 credit internship requires a minimum of 400 hours experience. Provides an appropriate transition from undergraduate education to future employment in the field of outdoor education. Generally done after students have completed all other requirements for the option. Prereq: permission. Cr/F. (IA continuous grading).
Repeat Rule: May be repeated for a maximum of 8 credits.
Equivalent(s): KIN 650B

OUT 681 - Theory of Adventure Education
Credits: 4
Provides an in-depth investigation of the theories that underpin professional practice and research in adventure education. Students examine program applications in different settings, analyze pertinent outdoor education and social science research, and independently complete a research or applied project. Prereq: OUT 550 or permission of the instructor. Special fee.
Attributes: Writing Intensive Course
Equivalent(s): KIN 681

OUT 682 - Experiential Teaching and Leadership
Credits: 4
This class is an orientation to experiential learning, teaching, and leadership in an interactive environment. Students develop and implement lesson and program plans for internal and external agencies. Emphasis on learning methods, teaching and leadership styles, and risk management for youth and adult programs. Prereq: OUT 541, OUT 550, OUT 686.
Equivalent(s): KIN 682

OUT 686 - Wilderness Emergency Medical Care
Credits: 4
Standards of practice for professional providing emergency medical care in remote areas. Consideration of prolonged transport times, severe environments, and the use of portable and improvised equipment. Topics include wilderness trauma and illness, search and rescue operations, and environmental emergencies.
Equivalent(s): KIN 686

OUT 687 - Career and Professional Development Practicum
Credits: 4
Explores professional competencies required in long-term careers in the outdoors. Includes job shadowing, teaching, and leadership experiences at external agencies. Students focus their learning experience in areas of the field that interest them and develop professional identity through self-assessment, resume development, job search processes, interview techniques, and negotiation strategies. Students co-design and focus their learning in specific areas of the field.
Equivalent(s): KIN 687

OUT 693 - Teaching Assistantship
Credits: 2
Students serve as teaching teaching assistants in assigned class activities. Assignments to be made by the class instructor may include teaching assistants’ and administrative duties. May take two different sections. Prereq: junior standing. Cr/F.
Repeat Rule: May be repeated for a maximum of 4 credits.

OUT 696 - Independent Study
Credits: 2-4
An advanced, individual scholarly project under the direct supervision of a faculty member. Prereq: junior or senior; departmental approval.
Repeat Rule: May be repeated for a maximum of 8 credits.

OUT 696W - Independent Study
Credits: 2-4
An advanced, writing-intensive, individual scholarly project under the direct supervision of a faculty member. Student and Faculty Adviser will prepare a written proposal that outlines: the questions to be pursued, the methods of investigation, the student's qualifications to conduct the research, the nature of the finished written product (e.g. case study, position paper, extended lab report). This proposal must be approved by major faculty and the department chair prior to the student's registration for OUT 696 WI. All OUT 696 WI projects must include: Some forms of informal, ungraded writing such as a journal, reading summaries, draft chapters, or invention activities. Regular writing interaction between student and faculty adviser (i.e. at least weekly or biweekly), to include written feedback from the adviser. A finished product that is polished via revision. Faculty sponsors and students should consult the resources and guidelines of the UNH Writing Program. Prereq: junior or senior; departmental approval.
Attributes: Writing Intensive Course
Repeat Rule: May be repeated for a maximum of 8 credits.

OUT 699H - Honors Project
Credits: 4
Project first involves tutorial sessions to introduce the student to the experimental design, after which a research question is developed. After an appropriate literature review, the student collects and analyzes data, forms conclusions, and prepares a written report on the findings.

OUT 782 - Therapeutic Applications of Adventure Programming
Credits: 4
A study of theory, practice, and research of adventure experiences in therapeutic settings. Incorporates theoretical seminars and associated practical experiences.
Equivalent(s): KIN 782

OUT 786 - Organization and Administration of Outdoor Education Programs
Credits: 4
Study of administration of outdoor education programs using a variety of organizational models. Students use simulated exercises and work with outdoor agencies on special projects to learn key factors necessary to manage a program. Outdoor Education majors. Special Fee.
Attributes: Writing Intensive Course
Equivalent(s): KIN 786

Paul College Business & Economics (PAUL)

# Course numbers with the # symbol included (e.g. #400) have not been taught in the last 3 years.

PAUL 405 - Freshman Academic Experience I
Credits: 1
This course is an introduction to the nature of academic knowledge, academic standards and academic management skills essential for success in the University and the Paul College. This course, along with PAUL 406 which follows in the spring term, provides academic foundation for the FIRE (First-year Innovation and Research Experience Program). PAUL 405 and 406 are required of all first-year students in Paul College.
Equivalent(s): ADMN 405
PAUL 406 - Freshman Academic Experience II
Credits: 1
This course is the second part of Freshman Academic Experience for all first-year students in Paul College. The second part of the course reviews academic skills and begins to focus on the student's academic career as a student in Paul College including: major choices, opportunities for enrichment, networking, internships and career paths as well as grand challenge research and presentations. This course, along with PAUL 405 which follows the spring term, provides the academic foundation for the FIRE (First-year Innovation and Research Experience Program). PAUL 405 and 406 are required of all first-year students in Paul College.
Equivalent(s): ADMN 406

PAUL 407 - Paul Scholars Seminar
Credits: 1
Weekly seminar curriculum is designed to guide academically talented students to achieve their full potential, enhancing their overall educational experience at UNH. The course will expose the Paul Scholars to the high-impact opportunities available at UNH (study abroad, study away, research, etc.) and guide students in evaluating current and desired skillsets leading to the identification of experiences to close their skills gap. Students are responsible for attending and participating in all class sessions and other activities as assigned throughout the course.

PAUL 440A - Honors/Design Thinking for Social Justice, Change, and Innovation
Credits: 4
Utilizing the powerful, application-oriented methodology of human-centered design (design thinking), the course will enable students to become change makers and transformational leaders, by helping them understand the context and develop creative solutions to problems characterized by multiple forms of inequality (economic, social, racial, and gender-based), thus working toward social justice, change, and innovation.
Attributes: Social Science (Discovery)

PAUL 450 - Personal Finance
Credits: 4
This course will provide an overview of the personal financial planning process, including the establishment of goals and objectives, forecasting of lifetime income and expenditures, evaluation of investment options, money management, and understanding of all the many ways a person can achieve their financial goals through various strategies. The course covers the concepts, theories and analytical methods used in professional personal financial planning. Students analyze the effects of inflation, changing interest rates and taxation (high level taxation) on their investment decisions. The course is designed to expose students to all of the directly applicable mathematical formulas involved in the finance world that we utilize on a daily basis.
Attributes: Quantitative Reasoning (Disc)

PAUL 535A - Professional Culture in the European Union - Case Study: Germany
Credits: 4
This English-language course will provide an introduction to doing business with the countries of the European Union, with an emphasis not only on political and economic issues of Europe, but also on the varied professional values that constitute it. Professional culture will be the primary focus of this course. The second half of the course will take Germany as a case study for an in-depth analysis of professional culture. We will compare German and American business practices, and will investigate various aspects of the German professional world. Of primary importance will be a study of communication with potential German business partners, employers, and customers. Also listed as LLC 535A.
Attributes: World Cultures (Discovery)
Equivalent(s): LLC 535A

PAUL 535C - Professional Culture in Asia - Case Study: China and Japan
Credits: 4
This course, taught in English, will provide students with an introduction to doing business in Asia, with an emphasis not only on political and economic issues of the region, but also on the varied professional value systems and interactional styles that characterize it. This course will take China and Japan as case studies for an in-depth analysis of professional culture. We will compare Chinese, Japanese, and American business practices, and will investigate various aspects of the Asian professional world. Of primary importance will be a study of communication with potential Asian business partners, employers, and customers. In addition, the growing influence of Asian companies in the U.S. and the so-called Asian Market will be examined.
Attributes: World Cultures (Discovery)
Equivalent(s): LLC 535C

PAUL 598 - Topics
Credits: 1-4
Special topics course. Cr/F.

PAUL 660 - BiP-Social Intelligence Topics
Credits: 2
Business in Practice: Social Intelligence develops students’ abilities to navigate complex social relationships and environments. An emphasis is placed on experiential learning and instruction from business professionals. Rotating topic courses are offered to meet the needs of the ever-changing business environment. Cr/F.
Repeat Rule: May be repeated for a maximum of 8 credits.

PAUL 670 - BiP-Analytical Intelligence Topics
Credits: 2
Business in Practice: Analytical Intelligence develops students’ abilities to analyze ideas, solve problems and make decisions. An emphasis is placed on experiential learning and instruction from business professionals. Rotating topic courses are offered to meet the needs of the ever-changing business environment. Cr/F.
Repeat Rule: May be repeated for a maximum of 8 credits.

PAUL 680 - BiP-Competitive Intelligence Topics
Credits: 2
Business in Practice: Competitive Intelligence develops students’ abilities to gather, analyze, and distribute information and ideas about products, customers, competitors or the external environment. An emphasis is placed on experiential learning and instruction from business professionals. Rotating topic courses are offered to meet the needs of the ever-changing business environment. Cr/F.
Repeat Rule: May be repeated for a maximum of 8 credits.
PAUL 690 - BiP-Professional Intelligence Topics  
Credits: 2  
Business in Practice: Professional Intelligence develops students’ abilities to achieve professional success. An emphasis is placed on experiential learning and instruction from business professionals. Rotating topic courses are offered to meet the needs of the ever-changing business environment. Cr/F.  
Repeat Rule: May be repeated for a maximum of 8 credits.  
PAUL 695 - Independent Study  
Credits: 1-4  
Individual research projects that are student designed. Initial sponsorship of a Paul College faculty member must be obtained followed by approval of Paul advisor and Dean’s Office. Special permission required to earn more than 4 credits in one semester. For Paul College Juniors and Seniors with 3.0 or better cumulative GPA.  
Equivalent(s): ADMN 695, ADMN 695W, PAUL 695W  
PAUL 695W - Independent Study  
Credits: 1-4  
Individual research projects that are student designed. Initial sponsorship of a Paul College faculty member must be obtained followed by approval of Paul advisor and Dean’s Office. Special permission required to earn more than 4 credits in one semester. For Paul College Juniors and Seniors with 3.0 or better cumulative GPA. Writing intensive.  
Attributes: Writing Intensive Course  
Equivalent(s): ADMN 695, ADMN 695W, PAUL 695  
PAUL 696 - Supervised Student Teaching Experience  
Credits: 2-4  
Participants are expected to perform such functions as leading discussion groups, assisting faculty in undergraduate courses that they have successfully completed or serving as peer advisors through the Undergraduate Programs Office. For Paul College juniors and seniors with 3.0 or better cumulative GPA. No more than four credits may be earned as a teaching assistant in any one course. Prereq: permission of instructor, department chair, undergraduate programs office or dean’s office.  
Repeat Rule: May be repeated for a maximum of 16 credits.  
Equivalent(s): ADMN 696  
PAUL 697 - Supervised Student Teaching: Peer Advisor  
Credits: 2  
Training course for peer advisors to prepare for leading student FIRE Teams. For Paul College juniors and seniors with 3.0 or better cumulative GPA. Prereq: permission from Undergraduate Programs Office. Cr/F.  
Repeat Rule: May be repeated for a maximum of 12 credits.  
PAUL 698 - Paul Topics  
Credits: 4  
Special topics course.  
Repeat Rule: May be repeated for a maximum of 12 credits.  
PAUL 790 - Honors/The Workshop  
Credits: 2  
Open to students enrolled in the Paul Honors Program, this workshop is specifically designed for honors students starting the program in their junior year. It is designed to enable students to share the work they are doing for the honors designated course. The workshop will also include guest speakers and other programming of interest to Paul Honors Students. Permission required. Cr/F.  
Equivalent(s): ADMN 790  
PAUL 792 - Honors/The Consulting Project  
Credits: 2  
Open to students enrolled in the Paul Honors Program, this course is designed to broaden perspectives and build bridges to the external business community. Students will work across all of the disciplines offered by Paul College on consulting projects developed in conjunction with the NH SBDC (Small Business Development Center). Permission required. Cr/F.  
Equivalent(s): ADMN 792  
PAUL 794 - Honors/The Research Process  
Credits: 2  
Open to students enrolled in the Paul Honors Program, this course is designed to help students formulate a thesis topic, learn the skills needed to write a thesis and serve as a mechanism for pairing students with a faculty thesis advisor. In addition, students will be expected to attend several research seminars. Permission required. Cr/F.  
Equivalent(s): ADMN 794  
PAUL 795 - Internship  
Credits: 1-4  
The internship is designed to provide practical experience in a major related field (organizations may include: business, industry, health, public service, non-profit), Supervision to be provided by a qualified individual in the organization, with student consultation by a faculty sponsor. Written report required. Initial sponsorship of an Paul College faculty member must be obtained followed by approval of PAUL advisor and Dean's Office. Special permission required to earn more than 4 credits in one semester. For Paul College Juniors and Seniors with 3.0 or better cumulative GPA.  
Equivalent(s): ADMN 795  
PAUL 796 - International Internship  
Credits: 1-4  
The International Internship is designed to provide practical experience in a major related field (organizations may include: business, industry, health, public service, non-profit). Supervision to be provided by a qualified individual/program in the organization, with student consultation by a faculty sponsor. Written report required. Initial sponsorship of an Paul College faculty member must be obtained followed by approval of PAUL advisor and Dean's Office. Special permission required to earn more than 4 credits in one semester. Must also register for INCO 588 (co-requisite). For Paul College Juniors and Seniors with 3.0 or better cumulative GPA.  
Co-requisite: INCO 588  
Repeat Rule: May be repeated for a maximum of 12 credits.  
PAUL 798 - Paul Topics  
Credits: 4  
Special topics course. May be repeated.  
Repeat Rule: May be repeated for a maximum of 12 credits.  

Philosophy (PHIL)  

# Course numbers with the # symbol included (e.g. #400) have not been taught in the last 3 years.  

PHIL 401 - Introduction to Philosophy  
Credits: 4  
This course gives a basic grounding in Philosophy. We explore enduring questions that we have all grappled with: Does God exist? Do we have free will? How can we lead fulfilling lives? No background in philosophy is needed, only an open and inquiring mind.  
Attributes: Humanities(Disc)  
Equivalent(s): PHIL 401H, PHIL 401W
PHIL 401H - Honors/Introduction to Philosophy
Credits: 4
This course gives a basic grounding in Philosophy. We explore enduring questions that we have all grappled with: Does God exist? Do we have free will? How can we lead fulfilling lives? No background in philosophy is needed, only an open and inquiring mind.
Attributes: Humanities(Disc); Writing Intensive Course
Equivalent(s): PHIL 401, PHIL 401W

PHIL 401W - Introduction to Philosophy
Credits: 4
This course gives a basic grounding in Philosophy. We explore enduring questions that we have all grappled with: Does God exist? Do we have free will? How can we lead fulfilling lives? No background in philosophy is needed, only an open and inquiring mind. Writing intensive.
Attributes: Humanities(Disc); Writing Intensive Course
Equivalent(s): PHIL 401, PHIL 401H

PHIL 410 - Happiness, Well-Being , and a Good Life
Credits: 4
A sustained exploration of happiness, well-being, and a good life. Are they the same? If not, do any include the others, and can they conflict? What sorts of things might contribute to or detract from happiness, well-being, and having a good life? Comparing work on these topics in philosophy and psychology will be a key theme in the course.
Attributes: Humanities(Disc); Inquiry (Discovery)

PHIL 412 - Beginning Logic
Credits: 4
Principles of reasoning and development of symbolic techniques for evaluating arguments.
Attributes: Quantitative Reasoning(Disc)
Equivalent(s): PHIL 412H

PHIL 412H - Honors/Beginning Logic
Credits: 4
Principles of reasoning and development of symbolic techniques for evaluating arguments.
Attributes: Quantitative Reasoning(Disc)
Equivalent(s): PHIL 412

PHIL 417 - God, Religion, and the Meaning of Life
Credits: 4
An introductory philosophical exploration of the relationship between reason and religious experience, particularly as this relationship has developed in and in response to, the great world religions.
Attributes: Humanities(Disc); Writing Intensive Course

PHIL 421 - Philosophy and the Arts
Credits: 4
Contemporary philosophic concerns and perspectives as reflected in one or more of the arts (literature, theatre, film, music, plastic art). Writing intensive.
Attributes: FinePerformingArts(Discovery); Inquiry (Discovery); Writing Intensive Course
Equivalent(s): PHIL 421H

PHIL 421H - Honors/Philosophy and the Arts
Credits: 4
Contemporary philosophic concerns and perspectives as reflected in one or more of the arts (literature, theatre, film, music, plastic art). Writing intensive.
Attributes: FinePerformingArts(Discovery); Inquiry (Discovery); Writing Intensive Course
Equivalent(s): PHIL 421

PHIL 424 - Science, Technology, and Society
Credits: 4
Consideration of the scientific endeavor and its social import from a philosophical perspective.
Attributes: Environment,TechSociety(Disc)
Equivalent(s): PHIL 424H

PHIL 424H - Honors/Science, Technology and Society
Credits: 4
Consideration of the scientific endeavor and its social import from a philosophical perspective.
Attributes: Environment,TechSociety(Disc)
Equivalent(s): PHIL 424

PHIL 430 - Ethics and Society
Credits: 4
Critical study of principles and arguments advanced in discussion of current moral and social issues. Possible topics: violence, rules of warfare, sexual morality, human rights, punishment, abortion.
Attributes: Humanities(Disc)
Equivalent(s): PHIL 430H, PHIL 430W

PHIL 430H - Honors/Ethics and Society
Credits: 4
Attributes: Humanities(Disc); Writing Intensive Course
Equivalent(s): PHIL 430, PHIL 430W

PHIL 431 - Business Ethics
Credits: 4
An interdisciplinary study of ethical issues in business. This course, taught collaboratively by business school and philosophy department faculty, applies philosophical perspectives, critical thinking, and analysis to ethical decision-making and implementation in the workplace as well as the broader context of other businesses, customers, society, and the environment.
Attributes: Humanities(Disc)

PHIL 435 - Human Nature and Evolution
Credits: 4
Philosophy of biology and the evolutionary process. Readings of scientists and philosophers' commentary on scientists. Examination of the differences between scientific debate and philosophic debate. Philosophical study of scientific theory stressing humans' place in the natural world and the ethical implication of humans as natural beings in the evolutionary process.
Attributes: Environment,TechSociety(Disc)
Equivalent(s): PHIL 435H
PHIL 435H - Human Nature and Evolution
Credits: 4
Philosophy of biology and the evolutionary process. Readings of scientists and philosophers' commentary on scientists. Examination of the differences between scientific debate and philosophic debate. Philosophical study of scientific theory stressing humans' place in the natural world and the ethical implication of humans as natural beings in the evolutionary process.
Attributes: Humanities(Disc); Inquiry (Discovery); Writing Intensive
Equivalent(s): PHIL 435

PHIL 436 - Social and Political Philosophy
Credits: 4
Examines social and political thought that may include texts from ancient through contemporary times, addressing topics such as natural rights, revolution, law, freedom, justice, power. Questions may include: What is a community, and how are individuals related to communities? Can any particular form of government be morally justified, and if so, what kind of government? Can anarchism work? Is there something wrong with a society in which there is private ownership of property? What is oppressive? What is freedom, and are we free? What roles should different forms of power play in a society? Could and should there be a genderless society? Is ethnic diversity valuable?.
Attributes: Humanities(Disc); Inquiry (Discovery)
Equivalent(s): PHIL 436H, PHIL 436W, PHIL #437

PHIL 436H - Honors/Social and Political Philosophy
Credits: 4
Examines social and political thought that may include texts from ancient through contemporary times, addressing topics such as natural rights, revolution, law, freedom, justice, power. Questions may include: What is a community, and how are individuals related to communities? Can any particular form of government be morally justified, and if so, what kind of government? Can anarchism work? Is there something wrong with a society in which there is private ownership of property? What is oppressive? What is freedom, and are we free? What roles should different forms of power play in a society? Could and should there be a genderless society? Is ethnic diversity valuable?.
Attributes: Humanities(Disc); Inquiry (Discovery); Writing Intensive
Equivalent(s): PHIL 436, PHIL 436W, PHIL #437

PHIL 436W - Social and Political Philosophy
Credits: 4
Examines social and political thought that may include texts from ancient through contemporary times, addressing topics such as natural rights, revolution, law, freedom, justice, power. Questions may include: What is a community, and how are individuals related to communities? Can any particular form of government be morally justified, and if so, what kind of government? Can anarchism work? Is there something wrong with a society in which there is private ownership of property? What is oppressive? What is freedom, and are we free? What roles should different forms of power play in a society? Could and should there be a genderless society? Is ethnic diversity valuable?.
Attributes: Humanities(Disc); Inquiry (Discovery); Writing Intensive
Equivalent(s): PHIL 436, PHIL 436H, PHIL #437

PHIL 437 - Social and Political Philosophy
Credits: 4
This course is the same as PHIL 436 Social and Political Philosophy but without the Inquiry designation. Examines social and political thought that may include texts from ancient through contemporary times, addressing topics such as natural rights, revolution, law, freedom, justice, power. Questions may include: What is a community, and how are individuals related to communities? Can any particular form of government be morally justified, and if so, what kind of government? Can anarchism work? Is there something wrong with a society in which there is private ownership of property? What is oppressive? What is freedom, and are we free? What roles should different forms of power play in a society? Could and should there be a genderless society? Is ethnic diversity valuable?.
Attributes: Humanities(Disc)
Equivalent(s): PHIL 436, PHIL 436H, PHIL 436W

PHIL 440 - Just Business: The Ethics of Markets and Money
Credits: 4
Critical study of business ethics and scandals. Questions may include: Is ethics irrelevant in the cutthroat world of money making? How can one be a good person - for example honest, loyal, and caring - while attempting to maximize profits? Must employers treat workers with dignity? Does anything have more value than money? Is money closer to the "root of all evil" or the "root of all good"? Should everything be for sale? To what extent are unregulated markets fair? How should we punish corporate wrongdoers?.
Attributes: Humanities(Disc)

PHIL 440A - Honors/Who Are You? Personal Identity and Humanity
Credits: 4
What makes you you? Are you the same person over time? What does it mean to be a person? How is being a person related to being a human being? This course is part of an Honors Symposium on the nature of personhood and humanity. We will explore a number of philosophical questions related to personal identity over time, the social construction of the self, and the relationship between being a member of homo sapiens and being a person.
Attributes: Humanities(Disc)

PHIL 440B - Honors/Humanism and Dehumanization
Credits: 4
When we call someone human or a person, what do we mean, and what are we trying to do? How has the concept of personhood expanded or contracted to include more or fewer beings and why? Are fetuses persons? Are corporations persons? Are chimps persons? Who counts as a person now, and who will count as a person in the future? How and why are human persons subject to dehumanization? This course is the same as PHIL 440A.
Attributes: Humanities(Disc)
Equivalent(s): PHIL 780

PHIL 440C - Honors/The Copernican Lens: Finding a Place for Humanity
Credits: 4
How do humans fit into the cosmos? Once, we thought we were central players; most human societies believed they played a starring role, second only to the gods. Developments in the sciences have led modern humanity to a far more modest view: our existence is full of contingency and without cosmic significance. Humanity's self-conception is now recognized to be deeply culturally conditioned: is an objective view of humanity's place even possible?.
Attributes: World Cultures(Discovery); Writing Intensive Course
PHIL 444 - Remaking Nature/The Ethics and Politics of Genetic Engineering
Credits: 4
Examines the biological, ethical, social, and political issues raised by genetic engineering and by human enhancement techniques. Issues may include: cloning humans, selection of embryos on the basis of lack of genetic defects, genetic modification of plants and animals for food, gene therapy on humans, cognitive and athletic enhancement. Depending on instructor other topics may include human modification of the environment and engineering responses to global warming. Writing intensive.
Attributes: Environment,TechSociety(Disc); Inquiry (Discovery); Writing Intensive Course

PHIL 444A - Who Am I? Concepts of Self
Credits: 4
An inquiry into the nature of the self and into the conditions under which it may best flourish. Is the self fundamentally biological, spiritual, or social?. Draws on a variety of perspectives in an attempt to answer these questions, including East Asian as well as Western philosophical ideas, feminist theory, Existentialism, and others. Writing intensive.
Attributes: Humanities(Disc); Inquiry (Discovery); Writing Intensive Course

PHIL 447 - Artificial Intelligence, Robots, and People
Credits: 4
The historical origins of the science of computation. The implications of the nature of information-processing for understanding the mind-body relation. Examines the possible social, economic, and educational consequences of the computer revolution.
Attributes: Environment,TechSociety(Disc)
Equivalent(s): PHIL 447H

PHIL 447H - Honors/Artificial Intelligence, Robots, and People
Credits: 4
The historical origins of the science of computation. The implications of the nature of information-processing for understanding the mind-body relation. Examines the possible social, economic, and educational consequences of the computer revolution.
Attributes: Environment,TechSociety(Disc)
Equivalent(s): PHIL 447

PHIL 450 - Environmental Ethics
Credits: 4
Thoughtful people cannot help escape considering hard questions about our relationship to the natural world and what it means for the future of life on earth. In this course we think philosophically about these crucial concerns. We try to answer questions about our responsibilities to the environment and to future generations.
Attributes: Environment,TechSociety(Disc)
Equivalent(s): PHIL 450H

PHIL 450H - Honors/Environmental Ethics
Credits: 4
Thoughtful people cannot help escape considering hard questions about our relationship to the natural world and what it means for the future of life on earth. In this course we think philosophically about these crucial concerns. We try to answer questions about our responsibilities to the environment and to future generations.
Attributes: Environment,TechSociety(Disc)
Equivalent(s): PHIL 450

PHIL 495 - Tutorial Reading
Credits: 1-4
Basic introductory reading under faculty direction on topics of philosophical importance. Books offered for tutorial reading may be in any area the instructor chooses or on independent study basis. Prereq: permission.
Repeat Rule: May be repeated for a maximum of 8 credits.

PHIL 496 - Topics
Credits: 4
Introductory-level seminar in specific topics or problems considered from a philosophic point of view.

PHIL 500 - Workshop
Credits: 4
Introduces methods of studying philosophical texts. Emphasizes reading philosophical texts and arguments for comprehension, and on writing philosophically with accuracy and clarity. Open to PHIL majors (PHIL minors may enroll if they receive permission). Writing intensive.
Attributes: Writing Intensive Course

PHIL 510 - Philosophy and Feminism
Credits: 4
Focuses on philosophical issues in feminism primarily through the work of historical and contemporary philosophers. Topics include the question of the nature of women, feminism as an ethical and political theory, feminism as an exploration and transformation of the self, feminism as a philosophical methodology, and the institutions of marriage and motherhood. Writing intensive.
Attributes: Humanities(Disc), Writing Intensive Course

PHIL 520 - Introduction to Eastern Philosophy
Credits: 4
Major Eastern traditions of philosophy. Concentration on Indian, Chinese, and Japanese systems may vary from semester to semester.
Attributes: World Cultures(Discovery)

PHIL 525 - Existentialism
Credits: 4
Readings from existential philosophy and literature. Selections may be drawn from the works of Kierkegaard, Nietzsche, Heidegger, Sartre, Camus, de Beauvoir, Buber, Bultman, Merleau-Ponty, Tillich, Kafka, and others.
Attributes: Humanities(Disc); Inquiry (Discovery)
Equivalent(s): PHIL 475, PHIL 525H

PHIL 525H - Honors/Existentialism
Credits: 4
Readings from existential philosophy and literature. Selections may be drawn from the works of Kierkegaard, Nietzsche, Heidegger, Sartre, Camus, de Beauvoir, Buber, Bultman, Merleau-Ponty, Tillich, Kafka, and others.
Attributes: Humanities(Disc); Inquiry (Discovery)
Equivalent(s): PHIL 475, PHIL 525

PHIL 530 - Ethics
Credits: 4
Critical examination of the development of philosophical thinking regarding human values, rights, and duties.
Attributes: Writing Intensive Course
PHIL 531 - Topics in Professional and Business Ethics  
Credits: 4  
Content variable. Examines a topic or topics related to ethical issues in professional and business situations. Some variations of the course will look in-depth at a specific issue, such as consumer behavior, medical ethics, discrimination, or the theory of the film. Alternatively, the course may examine, from one or more ethical perspectives, a wide range of issues related to business activity, workplace culture, regulation, and economic practices. 
Attributes: Humanities(Disc)  

PHIL 531W - Professional & Business Ethics  
Credits: 4  
Content variable. Examines a topic or topics related to ethical issues in professional and business situations. Some variations of the course will look in-depth at a specific issue, such as consumer behavior, medical ethics, discrimination, or the theory of the film. Alternatively, the course may examine, from one or more ethical perspectives, a wide range of issues related to business activity, workplace culture, regulation, and economic practices. 
Attributes: Humanities(Disc); Writing Intensive Course  

PHIL 560 - Philosophy Through Fiction  
Credits: 4  
Philosophical implications of representative literary works, read in tandem with philosophical literature. The content will vary. The literary works explored may be drawn from ancient times through modern times. For example, the classic Greek tragedy "Antigone" might be explored for its implications regarding moral, political, and feminist philosophy, or the philosophical implications of an anti-utopian contemporary work like "Brave New World" might be explored, or short stories drawn from science fiction and other speculative fiction might be used to explore the possibility of time travel or of machines with mental lives. Writing intensive. 
Attributes: Inquiry (Discovery); Writing Intensive Course  
Equivalent(s): PHIL 600  

PHIL 565 - Philosophy Through Film  
Credits: 4  
Philosophical exploration of film as a medium for developing philosophical ideas and for stimulating philosophical thinking about various issues reflected in film, from traditional philosophical issues to the pressing social and cultural issues of our time. The content will vary. Philosophical texts are read in tandem with screenings of a range of movies from Hollywood blockbusters and art house films to films made for TV. Philosophical issues such as the nature of consciousness, appearance and reality, God and evil, the good life, and time and memory might be explored. Film might also be used to examine representations of race and gender or violence in society; and the power of movies to influence society might be explored through documentaries and propaganda films. Required evening film screenings in addition to regular class meetings. Writing intensive. 
Attributes: Writing Intensive Course  

PHIL 570 - Ancient Philosophy  
Credits: 4  
Development of Western philosophy from its beginnings in Greece to the Roman period, with particular emphasis on the thought of Plato and Aristotle. Attention is paid to the historical context and the development of ideas in culture. 
Attributes: Humanities(Disc)  
Equivalent(s): PHIL 570H  

PHIL 570H - Honors/Ancient Philosophy  
Credits: 4  
Development of Western philosophy from its beginnings in Greece to the Roman period, with particular emphasis on the thought of Plato and Aristotle. 
Equivalent(s): PHIL 570  

PHIL 580 - Modern Philosophy from Descartes to Kant  
Credits: 4  
The birth and development of distinctively modern philosophy in the thought of such creative minds as Galileo, Descartes, Hobbes, Leibniz, Spinoza, Locke, Berkeley, Hume, Rousseau, Reid, Kant, and others. Prereq: PHIL 570 or permission.  

PHIL 610 - Topics in History of Philosophy  
Credits: 4  
In-depth examination of a major figure or philosophical movement in the history of philosophy. Content will vary. Consult the Time and Room Schedule for topics. Prereq: one course in history of philosophy or permission. 
Attributes: Writing Intensive Course  
Repeat Rule: May be repeated for a maximum of 12 credits.  
Equivalent(s): PHIL 735  

PHIL 620 - 20th Century European Philosophy  
Credits: 4  
Major figures or philosophical movements such as phenomenology, existentialism, critical social theory, and post-modernism. Content will vary. Consult Time and Room Schedule for topics. 
Attributes: Writing Intensive Course  
Repeat Rule: May be repeated for a maximum of 8 credits.  

PHIL 630 - Neuroscience and Philosophy  
Credits: 4  
This course has a double focus. It investigates theories concerning the nature of the mind/brain relation, especially in light of recent work in the neurosciences. It also considers the particular presuppositions of and methodological challenges endemic to the neurosciences, along with the relations neuroscience bears to neighboring disciplines. Prereq: Sophomore standing or better. Writing intensive. 
Attributes: Writing Intensive Course  

PHIL 631 - Topics in the Philosophy of Science  
Credits: 4  
Philosophical problems raised by the physical, biological, and social sciences. Content will vary. Topics may include the nature of scientific explanation, the role of mathematics in science, the relations of science to common sense, the relation of theory to observation, the nature of historical changes in scientific world view, claim to objectivity in the natural and social sciences, the role of values in scientific research, the relation of the logic of science to the philosophy and history of science. Prereq: Sophomore standing or better or permission. Writing intensive. 
Attributes: Writing Intensive Course  
Equivalent(s): PHIL 725  

PHIL 635 - Philosophy of Law  
Credits: 4  
Systematic study of salient features of legal systems. Possible topics: nature of law; concept of legal validity; law and morality; individual liberty and the law; legal punishment; legal responsibility and related concepts (for example, legal cause, harm, mens rea, negligence, strict liability, legal insanity). Writing intensive. 
Attributes: Writing Intensive Course
PHIL 660 - Law, Medicine, and Ethics  
Credits: 4  
Critical examination of the diverse legal and moral issues facing the profession of health care. Variable topics may include: duty to provide care; nature of informed consent to treatment; problems of allocating limited health-care resources (e.g., withdrawal of life-support systems, quality-of-life decisions, etc.); patient’s right to confidentiality. Problems relating to involuntary preventive care (e.g., involuntary sterilization, psycho-surgery, etc.). Writing intensive.  
Attributes: Writing Intensive Course  

PHIL 701 - Topics in Value Theory  
Credits: 4  
Philosophical inquiry into the nature of value. Topics may include the grounds of right and wrong, various conceptions of morality, the nature of good and evil, theories about the meaning of life, the nature of the beautiful. Content will vary. Consult the Time and Room Schedule for topics. Course may be taken twice for credit (a third time with permission of the chair of the department) so long as the topic is different. May not be repeated to improve grade without approval from the department chair. Prereq: PHIL 500 one course in history of philosophy, or permission. Repeatable with permission.  
Attributes: Writing Intensive Course  
Repeat Rule: May be repeated up to 2 times.  

PHIL 702 - Topics in Metaphysics and Epistemology  
Credits: 4  
Advanced study in one or more of the following topics: nature of reality, relationship of thought and reality, nature of knowledge and perception, theories of truth. Content will vary. Consult the Time and Room Schedule for topics. Course may be taken twice for credit (a third time with permission of the chair of the department) so long as the topic is different. May not be repeated to improve grade without approval of the chair of the department. Prereq: PHIL 500 and one course in history of philosophy, or permission. Writing intensive. Repeatable with permission.  
Attributes: Writing Intensive Course  

PHIL 730 - Topics in Theories of Justice  
Credits: 4  
The idea of justice is central to social, political, and legal theory. Considerations of justice are appealed to in assessing the legitimacy of governments, and the fair distributions of goods, and opportunities both with nation-states and globally, and to address specific social concerns such as racial or gender discrimination or access to health care. Examine both historical sources and contemporary debates about the nature of justice. Prereq: PHIL 500, PHIL 530, or permission.  

PHIL 740 - Advanced Topics in the Philosophy of Law  
Credits: 4  
Content variable. In-depth examination of special topics (constitutional law, crime and punishment, international human rights and gender, sexual orientation, race and class in the law) or a major figure in the philosophy of law (Dworkin, Habermas and Rawls). Prereq: PHIL 635 or permission. Repeatable with permission.  
Attributes: Writing Intensive Course  
Repeat Rule: May be repeated for a maximum of 8 credits.  

PHIL 795 - Independent Study  
Credits: 1-8  
For students who are adequately prepared to do independent, advanced philosophical work; extensive reading and writing. Before registering, students must formulate a project and secure the consent of a department member who will supervise the work. Conferences and/or written work as required by the supervisor. Prereq: permission.  
Attributes: Writing Intensive Course  
Repeat Rule: May be repeated for a maximum of 8 credits.  

PHIL 798 - Senior Thesis  
Credits: 4  
Two-course sequence (798, then 799) open only to senior philosophy majors in the University Honors Program, the philosophy department honors-in-major program, or by special permission from the department. All senior thesis candidates must have a proposal approved in the spring of their junior year and a thesis adviser assigned by the chair of the department before registering for 798. Students must orally defend their theses before the department. (See department guidelines for further details.) Prereq: PHIL 500. Writing intensive.  
Attributes: Writing Intensive Course  

PHIL 799 - Senior Thesis  
Credits: 4  
Two-course sequence (798, then 799) open only to senior philosophy majors in the University Honors Program, the philosophy department honors-in-major program, or by special permission from the department. All senior thesis candidates must have a proposal approved in the spring of their junior year and a thesis adviser assigned by the chair of the department before registering for 799. Students must orally defend their theses before the department. (See department guidelines for further details.) Prereq: B- or above in PHIL 798. Writing intensive.  
Attributes: Writing Intensive Course  

PHYS 400 - Freshman Seminar  
Credits: 1  
An informal reading and discussion course to introduce students to the general culture of physics, including career possibilities, historical and philosophical aspects of physics, current research at UNH and elsewhere, and physics in the news. Topics vary based on interests of the class. Students in their first year as physics majors (either as freshmen or transfers) are strongly encouraged to take this class. Cr/F.  
Repeat Rule: May be repeated for a maximum of 2 credits.  

PHYS 401 - Introduction to Physics I  
Credits: 4  
Broad survey of classical and modern physics. Designed to enable students to appreciate the role of physics in today's society and technology. Emphasizes the fundamental laws of nature on which all science is based, with some examples of interest to biologists. Knowledge of high school algebra, geometry, and trigonometry essential. Lab.  
Attributes: Discovery Lab Course; Physical Science(Discovery)  
Equivalent(s): PHYS 407, PHYS 407H
PHYS 401J - Introductory Physics Review I
Credits: 4
This course is for those who want to improve their understanding and their grade from Physics 401 before taking PHYS 402. Students must have passed the lab in PHYS 401 at UNH. This course will review all the topics from PHYS 401: motion, forces, energy, momentum, rotation, and fluids. Pre-req: PHYS 401.
Attributes: Discovery Lab Course; Physical Science(Discovery)
Equivalent(s): PHYS 401

PHYS 402 - Introduction to Physics II
Credits: 4
Broad survey of classical and modern physics. Designed to enable students to appreciate the role of physics in today's society and technology. Emphasizes the fundamentals of nature on which all science is based, with some examples of interest to biologists. Knowledge of high school algebra, geometry, and trigonometry essential. Prereq: PHYS 401 or the equivalent. Special fee. Lab.
Attributes: Discovery Lab Course; Physical Science(Discovery)
Equivalent(s): PHYS 408, PHYS 408H

PHYS 405 - Intro to Modern Astronomy
Credits: 4
Starting with a survey of the night sky and the daily motions of the stars and planets, this course surveys our current understanding of the Universe. It traces the development of the tools of the modern astronomer and how those tools have led to our theories of the solar system, the life cycle of stars, the formation of elements, the formation of galaxies and the evolution of the universe. Students explore in depth an astronomical topic of their choice through a term paper. The course includes direct experience with astronomical techniques and concepts through the use of the UNH Observatory and Small Radio Telescope, and a visit to a planetarium. Recommended for liberal arts and beginning science students. Knowledge of high school algebra is assumed. Note that this is the same course as PHYS 406, except for the substitution of a term paper instead of a lab. Cannot be taken for credit if credit received for PHYS 406. Special fee.
Attributes: Physical Science(Discovery)
Equivalent(s): PHYS 406

PHYS 406 - Introduction to Modern Astronomy
Credits: 4
Descriptive coverage of contemporary astronomical and astrophysical techniques with a review of current knowledge and theories concerning the solar system, galaxies, and the universe. Recommended for liberal arts and beginning science students. Knowledge of high school algebra is assumed. Note that this is the same course as PHYS 405, except for the substitution of a lab instead of a term paper. Cannot be taken for credit if credit received for PHYS 405. Lab.
Attributes: Discovery Lab Course; Physical Science(Discovery)
Equivalent(s): PHYS 406H

PHYS 406H - Introduction to Modern Astronomy/Honors
Credits: 4
Descriptive coverage of contemporary astronomical and astrophysical techniques with a review of current knowledge and theories concerning the solar system, galaxies, and the universe. Recommended for liberal arts and beginning science students. Knowledge of high school algebra is assumed. Note that this is the same course as PHYS 405, except for the substitution of a lab instead of a term paper. Cannot be taken for credit if credit received for PHYS 405. Special fee. Lab. Permission required.
Attributes: Discovery Lab Course; Physical Science(Discovery)
Equivalent(s): PHYS 406

PHYS 407 - General Physics I
Credits: 4
Introductory course emphasizing motion, forces, energy, momentum, rotation, and oscillations. Recommended for the student specializing in science and engineering. This version is the traditional format with three lectures, one recitation (problem solving section), and one lab each week. Students in this version must also register for a particular recitation and lab. Prereq: thorough knowledge of algebra, geometry, and trigonometry. May not receive credit for both PHYS 401 and PHYS 407. Pre- or Coreq: MATH 425. Special fee. Lab.
Attributes: Discovery Lab Course; Physical Science(Discovery)
Equivalent(s): PHYS 401, PHYS 407H, PHYS 407S

PHYS 407H - Honors/General Physics I
Credits: 4
Introductory course emphasizing motion, forces, energy, momentum, rotation, and oscillations. Recommended for the student specializing in science and engineering. The honors version covers the same material as the traditional lecture course, but with three two-hour classes per week, most of which is spent working on activities in groups (rather than lecture). Students in the Honors section must be co-enrolled in MATH 425H so that strong connections can be made between math and physics. 407H students work in groups in every class meeting. Students in this version do not register for a recitation or lab, since these activities are integrated into the regular class meetings. Prereq: thorough knowledge of algebra, geometry, and trigonometry. May not receive credit for both PHYS 401 and PHYS 407. Pre- or Coreq: MATH 425. Special fee. Lab.
Co-requisite: MATH 425H
Attributes: Discovery Lab Course; Physical Science(Discovery)
Equivalent(s): PHYS 401, PHYS 407, PHYS 407S

PHYS 407J - General Physics Review I
Credits: 4
This course is for those students who want to improve their understanding and their grade from PHYS 407 before taking PHYS 408. Students must have passed the lab in PHYS 407 at UNH. This course will review all the topics from PHYS 407: motion, forces, energy, momentum, rotation, and oscillations. Pre-req: PHYS 407.
Attributes: Discovery Lab Course; Physical Science(Discovery)
Equivalent(s): PHYS 407

PHYS 407S - General Physics I Studio
Credits: 4
Introductory course emphasizing motion, forces, energy, momentum, rotation, and oscillations. Recommended for the student specializing in science and engineering. The Studio version covers the same material as the traditional lecture course, but with three two-hour classes per week, most of which is spent working on activities in groups (rather than lecture). Students in this version do not register for a recitation or lab, since these activities are integrated into the regular class meetings. Prereq: thorough knowledge of algebra, geometry, and trigonometry. May not receive credit for both PHYS 401 and PHYS 407. Pre- or coreq: MATH 425. Special fee. Lab.
Attributes: Discovery Lab Course; Physical Science(Discovery)
Equivalent(s): PHYS 407

PHYS 407S - General Physics I Studio
Credits: 4
Introductory course emphasizing motion, forces, energy, momentum, rotation, and oscillations. Recommended for the student specializing in science and engineering. The Studio version covers the same material as the traditional lecture course, but with three two-hour classes per week, most of which is spent working on activities in groups (rather than lecture). Students in this version do not register for a recitation or lab, since these activities are integrated into the regular class meetings. Prereq: thorough knowledge of algebra, geometry, and trigonometry. May not receive credit for both PHYS 401 and PHYS 407. Pre- or coreq: MATH 425. Special fee. Lab.
Attributes: Discovery Lab Course; Physical Science(Discovery)
Equivalent(s): PHYS 407
PHYS 408 - General Physics II
Credits: 4
Introductory course emphasizing waves, sound, heat, electricity and magnetism. Recommended for students specializing in science and engineering. This version is the traditional format with three lectures, one recitation (problem solving section), and one lab each week. Students in this version must also register for a particular recitation and lab. Prereq: PHYS 407. May not receive credit for both PHYS 402 and PHYS 408. Pre-or Coreq: MATH 426. Special fee. Lab. 
Attributes: Discovery Lab Course; Physical Science(Discovery) 
Equivalent(s): PHYS 402, PHYS 408H, PHYS 408S

PHYS 408H - Honors/General Physics II
Credits: 4
Introductory course emphasizing waves, sound, heat, electricity and magnetism. Recommended for students specializing in science and engineering. The honors version covers the same material as the traditional lecture course, but with three two-hour classes per week, most of which is spent working on activities in groups (rather than lecture). Students in the Honors section must be co-enrolled in MATH 426H so that strong connections can be made between math and physics. 408H students work in groups in every class meeting. Students in this version do not register for a recitation or lab, since these activities are integrated into the regular class meetings. Prereq: PHYS 407H, MATH 426H. May not receive credit for both PHYS 402 and PHYS 408. Special fee. Lab. 
Co-requisite: MATH 426H
Attributes: Discovery Lab Course; Physical Science(Discovery) 
Equivalent(s): PHYS 402, PHYS 408, PHYS 408S

PHYS 408S - General Physics II Studio
Credits: 4
Introductory course emphasizing waves, sound, heat, electricity and magnetism. Recommended for students specializing in science and engineering. The Studio version covers the same materials as the traditional lecture course, but with three two-hour classes per week, most of which is spent working on activities in groups (rather than lecture). Students in this version do not register for a recitation or lab since these activities are integrated into the regular class meetings. Prereq: PHYS 407. May not receive credit for both PHYS 402 and PHYS 408. Pre-or coreq: MATH 426. Special fee. Lab. 
Attributes: Discovery Lab Course; Physical Science(Discovery) 
Equivalent(s): PHYS 402, PHYS 408, PHYS 408H

PHYS 409 - Investigating Physics
Credits: 4
Elementary physics course where students develop a conceptual understanding of topics such as the solar system, phases of the moon, seasons, electrical circuits, electromagnets, light and color, sound and simple machines. The course is based on hands-on-activities, small groups, and discussions. This course is intended for students with little or no previous experience in physics who do not intend to take any other physics course. Cannot be taken for credit if credit received for PHYS 401, 402, 407 or 408. Not open to Physics majors. 
Attributes: Discovery Lab Course; Physical Science(Discovery); Inquiry (Discovery) 
Equivalent(s): PHYS 401, PHYS 402, PHYS 407, PHYS 408

PHYS 440A - Hon/Search for Our Place in the Universe: Foundation and Limits of Certainty in Physical Science
Credits: 4
We explore models of the universe and our place in it. We discuss the foundation of ideas about motion on Earth and in space, as well as the history of modern physics and astronomy, which have changed how we understand space and time. We consider the sources and limitations of human knowledge concerning the origin of the universe, the mystery of the origin of life and evidence that our description of reality is incomplete. 
Attributes: Physical Science(Discovery); Writing Intensive Course

PHYS 444 - Myths and Misconceptions about Nuclear Science
Credits: 4
The discoveries of nuclear physics have spawned the nuclear power plant and bomb, but also many far reaching, though less recognized applications of nuclear science in medicine, research, and our everyday lives. This course examines the underlying physics of nuclear science, the resulting technological applications and dangers, and some of the implications for public policy. In the process, we dispel many of the popular myths and misconceptions that surround nuclear science and radiation in the public’s mind and the media. You may be surprised! Topics are wide ranging and inherently interdisciplinary. They include nuclear stability and radioactivity, natural sources of radioactivity, the effects of radiation on living things, particularly people, nuclear medicine, nuclear science in fields such as biology, archeology, geology and engineering, nuclear chain reactions, nuclear reactors and energy, nuclear accidents, radioactive waste, nuclear weapons and proliferation, nuclear energy in stars, and the origin of the elements. Be prepared to actively participate. 
Attributes: Environment, Tech, Society (Disc); Inquiry (Discovery); Writing Intensive Course

PHYS 444B - Into the Final Frontier: America's Journey into Space
Credits: 4
One of the greatest accomplishments of the twentieth century is the human advance into space. For the first time ever, travel beyond the Earth is more than just the subject of adventurous science fiction tales - it is a reality. The purpose of this course is to trace the development of space flight from the late 1800's to the present time and to discuss the future of the United States human space flight program. 
Attributes: Environment, Tech, Society (Disc); Inquiry (Discovery); Writing Intensive Course

PHYS 501 - Peer-Led Team Learning in Physics
Credits: 1
This course provides students with their initial experience as a peer instruction leader. In this course peer leaders will deepen their knowledge of introductory physics, be introduced to pedagogical theories. Pedagogical topics covered include questioning techniques, learning theory, cooperative learning, student epistemologies, and the nature of science. Students in this course are asked to reflect on their work as peer leaders through the lens of the required readings. Prereq: PHYS 401/PHYS 402 or PHYS 407/PHYS 408. Permission required. Cr/F.

PHYS 502 - Advanced Peer-Led Team Leadership in Physics
Credits: 1
This course provides students with their second experience as a peer instruction leader. In this course peer leaders read more deeply about issues in teaching and learning science in general, and physics in particular. Topics include naive conceptions in physics, cooperative learning strategies, theories of cognition, and classroom assessment. Prereq: PHYS 501. Permission required. Cr/F.
PHYS 505 - General Physics III
Credits: 3
Electromagnetic waves, geometrical and physical optics, relativity, atomic physics, elementary quantum mechanics, molecular physics, and nuclear physics. Prereq: PHYS 408.

PHYS 506 - General Physics III Laboratory
Credits: 1
Co-requisite: PHYS 505

PHYS 508 - Thermodynamics and Statistical Mechanics
Credits: 4
Classical and statistical approach to thermodynamics, kinetic theory. Pre- or Coreq: PHYS 505. MATH 525 or MATH 527.

PHYS 601 - Computational Physics Recitation I
Credits: 1
This course bridges students’ computer science class and their physics classes by applying computational tools to basic physics problems. Students will write, check, and document two physics codes. This course focuses on solving differential equations. The course will support students as they work on computational assignments from their core physics courses. Prereq: CS 410 or IAM 550. Coreq: PHYS 505 or PHYS 508.

PHYS 602 - Computational Physics Recitation II
Credits: 1
This course bridges students’ computer science class and their physics classes by applying computational tools to basic physics problems. Students will write, check, and document two physics codes. This course focuses on data processing. The course will support students as they work on computational assignments from their core physics courses. Prereq: CS 410 or IAM 550; PHYS 601. Coreq: PHYS 605 or PHYS 615.

PHYS 605 - Experimental Physics I
Credits: 5
Circuit design with passive and active elements including transistors and operational amplifiers; electrical measurements for experimental physics; digital electronics, microprocessors, and interfacing techniques. Prereq: PHYS 408. MATH 525 or 527. Lab. Special fee.

PHYS 615 - Classical Mechanics and Mathematical Physics I
Credits: 4
Analytical treatment of classical mechanics covering the dynamics of particles and rigid bodies at an intermediate level. Advanced mathematical analysis (complex numbers, differential equations, Fourier series, multiple integrals) are reviewed or introduced as needed to analyze physical situations. Prereq: PHYS 407, MATH 527 and MATH 528, or MATH 525 and MATH 526. Pre- or Coreq: MATH 527 and MATH 528 or MATH 525 and MATH 526.

PHYS 616 - Classical Mechanics and Mathematical Physics II
Credits: 4
Analytical treatment of classical mechanics covering the dynamics of particles and rigid bodies, at an intermediate level. Advanced mathematical analysis (complex numbers, differential equations, Fourier series, multiple integrals) are reviewed or introduced as needed to analyze physical situations. Prereq: PHYS 615 and PHYS 505.

PHYS 701 - Quantum Mechanics I
Credits: 4
Non-relativistic Schroedinger equation, the hydrogen atom, applications to atomic and nuclear structure. Prereq: PHYS 505, PHYS 615, PHYS 616.

PHYS 702 - Quantum Mechanics II
Credits: 4
Non-relativistic Schroedinger equation, the hydrogen atom, applications to atomic and nuclear structure. Prereq: PHYS 701.

PHYS 703 - Electricity and Magnetism I
Credits: 4
Foundation of electromagnetic theory; electrostatics, dielectric theory, electromagnetism, magnetic properties of matter, alternating currents, Maxwell’s field theory. Prereq: PHYS 408, PHYS 615, MATH 527 and MATH 528 or MATH 525 and MATH 526.

PHYS 704 - Electricity and Magnetism II
Credits: 4
Foundation of electromagnetic theory; electrostatics, dielectric theory, electromagnetism, magnetic properties of matter, alternating currents, Maxwell’s field theory. Prereq: PHYS 703.

PHYS 705 - Experimental Physics II
Credits: 4
Modern physics experiments and special project problems assigned to individual students. Prereq: PHYS 605, PHYS 505, CS 410P or IAM 550. Lab.
Attributes: Writing Intensive Course

PHYS 708 - Optics
Credits: 4
Geometrical optics, electromagnetic theory of light, interference, diffraction, polarization, relations phenomena and nonlinear optics. Prereq: PHYS 505, PHYS 615, PHYS 616. Lab.
Equivalent(s): PHYS 607

PHYS 710 - Astrophysics I
Credits: 4
A comprehensive review of modern astrophysics. Topics covered include the celestial sphere, celestial mechanics, the tools of the modern astronomer (including different types of telescopes for studying the electromagnetic radiation from space), stellar spectra, stellar atmospheres, stellar interiors, the formation of stars, stellar evolution, and the stellar graveyard (white dwarfs, neutron stars, and black holes). Prereq: MATH 525/MATH 526 or MATH 527/MATH 528, PHYS 505/PHYS 506.

PHYS 711 - Astrophysics II
Credits: 4
A continuation of the comprehensive review of modern astrophysics. Topics covered include the degenerate stellar remnants (white dwarfs, neutron stars, black holes), the interstellar medium, the Milky Way Galaxy, the nature of galaxies, the evolution of galaxies, the structure of the Universe, active galaxies, cosmology, and the early Universe. Prereq: MATH 525/MATH 526 or MATH 527/MATH 528, PHYS 505/PHYS 506.

PHYS 712 - Space Plasma Physics
Credits: 4
Introduces space plasma physics, including solar physics, heliospheric physics, magnetospheric physics, and ionospheric physics. An overview of the basic phenomena and processes (e.g., particle acceleration and transport, shock formation, magnetic structures and reconnection, wave propagation, wave-particle interactions, instabilities), theoretical techniques (e.g., single-particle orbits, kinetic and fluid descriptions), and experimental techniques. (Alternate years only.). Prereq: PHYS 408, PHYS 508, PHYS 507. Equivalent(s): EOS 712
PHYS 718 - Condensed Matter Physics
Credits: 4

PHYS 720 - Nuclear Physics
Credits: 4
Nuclear phenomenology, reactions, models, radiation, interaction of radiation with matter; accelerators; properties and interactions of elementary particles; symmetries and symmetry breaking; standard model. Pre- or Co-req: PHYS 702, PHYS 703.

PHYS 764 - General Relativity and Cosmology
Credits: 4
Review of special relativity, and the motivation for considering gravity in terms of curvature of space time. Introduction to Riemannian geometry, general relativity and Einstein's equations. Application of general relativity in the study of black holes, gravitational waves, cosmology, as well as recent results on inflation and quantum gravity. (Alternate years only). Prereq: PHYS 505, PHYS 508, PHYS 616, CS 410P or IAM 550, MATH 645 or MATH 545 or MATH 525.

PHYS 791 - Special Topics
Credits: 4
Any selected topics not covered sufficiently in a general course may be studied.
Repeat Rule: May be repeated for a maximum of 8 credits.

PHYS 795 - Independent Study
Credits: 1-8
Individual project under direction of a faculty adviser. Prereq: department permission.

PHYS 797 - Senior Design Project
Credits: 2
Four credits of this course is the required Senior Design Project for BSEP majors and fulfills their capstone requirement; the course is taken for two credits in each of the last two semesters before graduation. Students work under the direction of a faculty sponsor on the design aspect of a specific project, which might include trade studies, design reviews, cost-benefit analyses, etc. all leading to an optimal design solution. Acceptable designs can include detailed hardware aspects of a system or sub-system, numerical modeling of a system, or paper studies of a system concept. Students are required to submit a final report and to present their work at a public forum. Restricted to BSEP seniors. Writing intensive.
Attributes: Writing Intensive Course
Repeat Rule: May be repeated for a maximum of 4 credits.

PHYS 798 - Senior Project
Credits: 2-4
Students complete an independent project and submit a written report. Students can choose from a range of projects, including (but not limited to)a research or numerical project, and extensive literature review on an advanced physics topic, building an apparatus, or developing a new or existing experiment in Physics 705. A student intending to take Physics 798 must arrange to have a faculty advisor for the project and should work with this advisor to develop a one-page project proposal. The student must submit this proposal to the Physics Undergraduate Curriculum Committee by the tenth week of the semester preceding the semester in which the student takes Physics 798. This course satisfies the capstone requirement in Physics.

PHYS 799 - Thesis
Credits: 4
Students work under the direction of a faculty sponsor to plan and carry out independent research resulting in a written thesis. Required for honors-in-major. Restricted to seniors. Prereq: PHYS 795 or INCO 790.
Attributes: Writing Intensive Course
Repeat Rule: May be repeated for a maximum of 8 credits.

Political Science (POLT)

# Course numbers with the # symbol included (e.g. #400) have not been taught in the last 3 years.

POLT 401 - Politics and Society
Credits: 4
Introduces the nature of politics and political institutions. Emphasizes political behavior and continuing issues of modern politics, such as power, authority, legitimacy, freedom, and order.
Attributes: Humanities(Disc)
Equivalent(s): POLT 401H

POLT 401H - Honors/Politics and Society
Credits: 4
Introduces the nature of politics and political institutions. Emphasizes political behavior and continuing issues of modern politics, such as power, authority, legitimacy, freedom, and order.
Attributes: Humanities(Disc)
Equivalent(s): POLT 401

POLT 402 - American Politics and Government
Credits: 4
Foundational course to help students understand the institutions and actors of American politics and government, the decision-making process of government, and the political considerations that drive American government.
Attributes: Social Science (Discovery)
Equivalent(s): POLT 402H
Mutual Exclusion: No credit for students who have taken PS 402.

POLT 402H - Honors/American Politics and Government
Credits: 4
Foundational course to help students understand the institutions and actors of American politics and government, the decision-making process of government, and the political considerations that drive American government.
Attributes: Social Science (Discovery)
Equivalent(s): POLT 402
POLT 403 - United States in World Affairs
Credits: 4
Introduces students to key concepts, actors, and events in U.S. foreign policy. After examining the early foundations of American foreign policy, this course concentrates on the United States' international engagement from the Cold War to the present. Students develop the analytical skills they need to form their own opinions on contemporary issues in U.S. foreign policy, and defend these opinions articulately based on a solid knowledge of historic and current events.
Attributes: Historical Perspectives(Disc)
Equivalent(s): POLT 403H, POLT 403W

POLT 403H - Honors/United States in World Affairs
Credits: 4
Introduces students to key concepts, actors, and events in U.S. foreign policy. After examining the early foundations of American foreign policy, this course concentrates on the United States' international engagement from the Cold War to the present. Students develop the analytical skills they need to form their own opinions on contemporary issues in U.S. foreign policy, and defend these opinions articulately based on a solid knowledge of historic and current events. Writing intensive.
Attributes: Historical Perspectives(Disc); Writing Intensive Course
Equivalent(s): POLT 403, POLT 403W

POLT 403W - United States in World Affairs
Credits: 4
Introduces students to key concepts, actors, and events in U.S. foreign policy. After examining the early foundations of American foreign policy, this course concentrates on the United States' international engagement from the Cold War to the present. Students develop the analytical skills they need to form their own opinions on contemporary issues in U.S. foreign policy, and defend these opinions articulately based on a solid knowledge of historic and current events. Writing intensive.
Attributes: Historical Perspectives(Disc); Writing Intensive Course
Equivalent(s): POLT 403, POLT 403H

POLT 407 - Law and Society
Credits: 4
Introduces the ways in which law operates in modern society: its forms, functions, underlying values, and the consequences of its application in particular regimes. Topics include the psychological bases for legal obligation, the evolution of particular legal doctrines, the philosophical underpinnings of legal responsibility, the relationship of law to social structures, the relationship of law to morality, the nature of legal reasoning, and critiques of law.
Equivalent(s): POLT 407H, PS 407

POLT 407H - Honors/Law and Society
Credits: 4
Introduces the ways in which law operates in modern society: its forms, functions, underlying values, and the consequences of its application in particular regimes. Topics include the psychological bases for legal obligation, the evolution of particular legal doctrines, the philosophical underpinnings of legal responsibility, the relationship of law to social structures, the relationship of law to morality, the nature of legal reasoning, and critiques of law.
Equivalent(s): POLT 407

POLT 440A - Honors/Global Justice
Credits: 4
The course exposes students to different understandings of global justice and the institutions and approaches used to address genocide and mass human suffering. Students explore several modern conflicts and different cultural understandings of these conflicts and views on justice. The class also examines the political dynamics of international and domestic institutions, power politics, and international activism. Students also examine the globalization of accountability and post-conflict transitions from violence to peace.
Attributes: World Cultures(Discipline)

POLT 444 - Politics and Policy in a Warming World
Credits: 4
Uses the issue of climate change to explore the relationships between scientific and technical research and debate, policymaking at the international and domestic (U.S.) levels, and public understanding and interpretation of complex technical issues. The course is interdisciplinary. Writing intensive.
Attributes: Environment,TechSociety(Disc); Inquiry (Discovery); Writing Intensive Course

POLT 444A - Democracy: Its Character and Its Characters
Credits: 4
An examination of the spirit of a modern democracy and its influence on the thoughts and actions of those who live within it. Includes selections from Tocqueville's Democracy in America and an examination of characters in the works of major and contemporary authors.
Attributes: Humanities(Disc); Inquiry (Discovery); Writing Intensive Course

POLT 444B - Cruel and Unusual in a Federal System
Credits: 4
This course is an exploration of the US/state constitutional language of 'cruel and unusual' as an important limitation on governmental power. Students study its historical origins, interpretations, and applications across time periods and types of regimes. Particular attention will be paid to its association with the death penalty in the contemporary United States.
Attributes: Social Science (Discovery); Inquiry (Discovery); Writing Intensive Course

POLT 500 - American Public Policy
Credits: 4
Foundational public policy course examining policy choices and conflicts, how policy decisions are made, how policies are assessed, the development of potential policy solutions, and the politics of policy making. Students engage in a task force project that simulates public policy processes and culminates in a policy recommendation at the end of the semester. Writing intensive.
Attributes: Writing Intensive Course
Mutual Exclusion: No credit for students who have taken PS 500.

POLT 502 - State and Local Government
Credits: 4
Examines power, policies, political culture, and constitutional settings of state and local governments in the United States. Students study how state legislatures, governors, courts, political parties, and interest groups interact to shape political outcomes at the state and local levels.
POLT 504 - American Presidency
Credits: 4
The President as administrator, policy maker, and political leader. The relationship between the President and the public, the media, and other governmental institutions. Historical and constitutional background of the Presidency, role, and powers of the President in domestic and foreign affairs.

POL 505 - American Congress
Credits: 4
Role and powers of Congress as national lawmaker and check on the executive branch: committee structure, concepts of representation, legislative oversight and party cleavage, federal budget control, and foreign policy involvement.

POL 506 - Parties, Interest Groups, and Voters
Credits: 4
Role of political parties as organizers and managers of social conflict. Role of voters in controlling parties and government. Influence of interest groups in the electoral process and in governmental decision making.

POL 507 - Politics of Crime and Justice
Credits: 4
Criminal justice in theory and practice; contemporary role of police, prosecutors, judges, juries, counsel, and interest groups in the administration of criminal justice. Writing intensive.
Attributes: Writing Intensive Course
Equivalent(s): PS 508

POL 508 - Supreme Court and the Constitution
Credits: 4
Supreme Court treated as a political institution whose historic mission is to decide all controversies arising under the Constitution between the nation and the states, the President and Congress; the role of the judiciary in defining its own powers, rights, and duties. Writing intensive.
Attributes: Writing Intensive Course
Equivalent(s): PS 508

POL 509 - Managing Bureaucracy in America
Credits: 4
Growth and development of the bureaucratic state. Roles and powers of administrative officials, decision making in bureaucratic settings, citizen participation, and the influence of interest groups on bureaucratic policymaking.

POL 510 - Media and Politics
Credits: 4
Contemporary review of media in politics; major roles of media today in providing news, setting public agenda, influencing public opinion; government regulations vs. media responsibility; future developments and consequences for American democracy.
Equivalent(s): POLT 610

POL 512 - Public Opinion in American Politics
Credits: 4
Relationship of mass and elite opinion within the context of American political culture. Impact of public opinion on American governmental policies, especially with respect to major issues facing the President and Congress. Appraisal of responsiveness to influence and responsibility to lead.
Attributes: Social Science (Discovery)

POL 513 - Civil Rights and Liberties
Credits: 4
Analysis of four major areas of constitutional rights and liberties, political freedom, equal protection of the laws, and due process with particular attention to their impact on such problems as political protest, discrimination, school segregation, students' rights and the relationship between government and religion.

POL 520 - Politics, Justice, and Morality
Credits: 4
Origin of the idea of justice; relationship between politics, justice, and morality; selections from Plato, Aristotle, Roman, Islamic, and Christian political philosophers.

POL 521 - Rights and the Political Community
Credits: 4
Human rights and the quality of communities as expressed in Hobbes, Locke, Mandeville, Rousseau, and others.

POL 522 - Dissent and the Political Community
Credits: 4
Current political ideologies and controversies in America and abroad; liberal democracy and its critics since the 19th century.

POL 523 - American Political Thought
Credits: 4
Introduces the student to the key questions about politics and government asked and answered by American thinkers and actors, as well as the ways in which those "answers" have shaped our institutions and political processes. Emphasizes the idea of property. Writing intensive.
Attributes: Writing Intensive Course
Equivalent(s): POLT 623

POL 524 - Politics and Literature
Credits: 4
This course examines classical and contemporary works of literature to explore perennial issues in the study of politics, such as: exceptionalism, individualism, justice, and equality.
Attributes: Humanities(Disc)

POL 524W - Politics and Literature
Credits: 4
This course examines classical and contemporary works of literature to explore perennial issues in the study of politics, such as: exceptionalism, individualism, justice, and equality. Writing intensive.
Attributes: Humanities(Disc); Writing Intensive Course

POL 525 - Multicultural Theory
Credits: 4
Issues of concern generated from an attention to and appreciation of our diverse cultural identities. As a theory course in political framework, we approach multiculturalism as a new attempt to respond to the challenges that difference poses in democratic theory.

POL 543 - The Politics of Costa Rica
Credits: 4
While the rest of the Central American region has struggled to overcome authoritarian legacies, Costa Rica has been a trailblazer on the path to democracy. The successful establishment of democratic political institutions and political culture have been coupled with other innovations including the abolition of the military, investments in human capital, and eco-friendly economic development. This course is designed to explore the many facets of Costa Rican exceptionalism onsite in Costa Rica during the J term. Special fee.
Attributes: World Cultures(Discovery)
POL 544 - Of Dictators and Democrats
Credits: 4
Why are some countries democratic, while others are ruled by dictators? This course addresses this question by examining leading theories of democratization, then testing these theories empirically through case studies of ancient Greece, the United States, Germany, Chile, and South Africa. The course concludes with an overview of contemporary political change in the Middle East, and the potential for popular protest to culminate into democratic practices.
Attributes: Writing Intensive Course
Equivalent(s): POLT 644

POL 545 - People and Politics in Asia
Credits: 4
This course is an introduction to Northeast Asia, with special emphasis on the politics of the region’s major actors. Will China be the next global hegemon? Is Japan moribund? Is Taiwan an independent country? Is Hong Kong a democratic bastion? Why does Kim Jong-un keep threatening to attack the United States? This is a mid-level, writing intensive course that will prepare students for more advanced courses on the nations and issues of the Asia-Pacific rim.
Attributes: Writing Intensive Course

POLT 546 - Wealth and Politics in Asia
Credits: 4
Different paths to modernization, industrialization, and development in nations of the Asia-Pacific Rim. In-depth examinations of the challenges faced by Japan, China, Hong Kong/Macao, Taiwan, and the Koreas in their search for the correct path to economic growth and prosperity, with special emphasis on each nation’s distinct society and history. Companion course to POLT 545, but either may be taken separately. Writing intensive.
Attributes: Writing Intensive Course

POL 547 - Race and Justice in the Americas: Insights from Film, Literature, and Politics
Credits: 4
Throughout the Americas many democracies have been built on foundations of racial and ethnic inequality, yet have managed to transcend these imperfect foundations. To understand how democracy has thrived despite the challenges of racial and ethnic inequality, this course examines how the justice system has addressed inequality in select cases throughout the Americas. Through comparative analysis of film, literature, and politics, students improve their knowledge and understanding of other cultures while exploring the evolution of similar issues in the United States.
Attributes: World Cultures(Discovery)

POL 548 - Drug Wars
Credits: 4
The Americas have hosted several wars against drugs, but these militarized campaigns have not curtailed the global consumption of opiates, cocaine, and cannabis. Perhaps even more sobering, the drug wars have coincided with spiraling rates of violent crime. Given this track record, policymakers have begun to reevaluate drug policies in the US and abroad. This course evaluates these contemporary changes, particularly in light of the successes and failures of past drug control policies.

POL 549 - The Politics of Markets
Credits: 4
This course surveys some major debates in comparative political economy, focusing especially on the creation, evolution, and reform of market institutions. The course emphasizes the ways in which the market is embedded in social and political institutions. Main topics include: 1) Theoretical foundations of political economy, 2) Patterns of industrialization, 3) Capitalist institutions in contemporary industrialized countries, 4) Challenges of development, 5) Transitions from communism to a market economy, and current challenges facing capitalism.

POL 550 - Comparative Government and Society
Credits: 4
Introduces students to key concepts and themes in comparative politics through the study of revolutions, ideologies, institutions, and/or social movements. This course compares interactions between citizens and their governments in various types of democracies as well as authoritarian regimes, and spans industrialized and developing countries. Attributes: World Cultures(Discovery)

POL 551 - Comparative Identity Politics: Ethnic Diversity, Democracy, and Conflict
Credits: 4
What is ethnic identity and why do ethnic differences result in violence? Are diverse societies prone to conflict? The course provides a broad perspective to these questions by examining diversity and conflict in the Middle East, Europe, Africa, Asia, Latin America and the US. Racial and ethnic politics in the US, while not a primary focus, are compared to identity and conflict in other countries. Students will understand how identity evolves and shapes the world.

POL 552 - Contemporary European Politics
Credits: 4
Analyzes politics, governments, and societies in contemporary Europe; focuses on basic characteristics of political life in different countries as well as pressing economic, political, and social issues.
Attributes: Writing Intensive Course

POL 554 - Revolution and Protest in Latin America
Credits: 4
Throughout Latin American history, economic and political models have been heavily contested. Advocates of state intervention in the economy have clashed with free market forces, and these clashes have often spilled into the political arena where they have been further complicated by divisions between dictators and democrats. This course examines these twin processes in Latin American politics, tracing economic and political development from the time of independence to the present. Writing intensive.
Attributes: Writing Intensive Course

POL #555W - Politics in Russia
Credits: 4
Russia provides an ideal case study for learning comparative political concepts - a developed state that continues to undergo a political and economic revolution, if not yet a social revolution. Additionally, it remains a major force in international relations. Beginning with a survey of its history and geography, the course provides a basis for understanding the behavior of the Russian Federation domestically and in international affairs. Writing intensive.
Attributes: Writing Intensive Course
Equivalent(s): POLT 555
POLT 556 - Politics in China
Credits: 4
Dynamics of China's domestic political and economic policy processes - from massive starvation of the Great Leap Forward and the ideological upheavals of the Great Proletarian Cultural Revolution to the "Opening of China to the Outside World." Writing intensive.
Attributes: Writing Intensive Course

POLT 558 - Government and Politics of Canada
Credits: 4
This course examines the political culture, partisan dynamics, political institutions and processes of modern Canada. Selected policy issues as well as U.S. - Canadian relations are also discussed. Writing intensive.
Attributes: Writing Intensive Course

POLT 559 - Comparative Politics of the Middle East
Credits: 4
Examines the dynamics of political and economic change in states and societies of the Middle East. Covers state formation, nationalism and colonialism, authoritarianism and opposition movements, and the origins of the Israeli-Palestinian conflict.

POLT 560 - World Politics
Credits: 4
The course explores the primary issues of world politics with a focus on conflict, cooperation and development. Students are introduced to the principal theories and concepts in the analysis of world politics and encouraged to apply these theories and concepts to contemporary global issues. Writing intensive.
Attributes: Social Science (Discovery); Writing Intensive Course

POLT 561 - Introduction to International Political Economy
Credits: 4
Designed for students with little or no knowledge of economics; the course develops the relationships between political and economic policy and behavior in international affairs. A major focus is on the conflict between the primary values of the international economic system (efficiency and growth) and other societal and political values. Among the topics are: international trade and finance, economic and non-economic globalization, growth and human development, illicit trade, and economic governance.
Attributes: Writing Intensive Course

POLT 562 - Strategy and National Security Policy
Credits: 4
This course develops an understanding of: 1) strategy and its relationship to national security policy and 2) American national security issues and the process of creating and implementing American national security policies. A primary theoretical and practical consideration is the relationship between the use of force and diplomacy. Among the specific issues are: the nuclear world, the U.S. defense posture, military interventions, and the broadening definition of security.
Attributes: Writing Intensive Course

POLT 563 - The Global Information Grid's Disruptive Impact on Government, Politics, and Society
Credits: 4
Disruptive networking technologies, collectively called the Global Information Grid or GIG, are facilitating revolutionary changes in government, politics, and society. The course is designed to provide students with a framework for understanding and addressing issues that spring from the application of technology.
Equivalent(s): POLT 592B

POLT 565 - United States Policy in Latin America
Credits: 4
Frequently U.S. policymakers portray the United States as a benevolent neighbor, seeking to help the countries in their "backyard". Many Latin Americans disagree with this view, and think more critically about the motivations and legacies of U.S. intervention in the Western Hemisphere. To understand these disagreements, this course applies theories of international relations to analyze pivotal events in the history of U.S. - Latin American relations from the time of independence to the present, including Spanish-American War, creation of Panama Canal, Cuban Missile Crisis, Iran Contra Affair, War Against Drugs, Washington Consensus.
Equivalent(s): POLT 665

POLT 566 - Asian Challenge to Global Order
Credits: 4
Asian international relations continue to challenge global power structures. As the world's most vital region, Asia is characterized by explosive economic growth, diverse political systems, modernizing militaries, and advanced technologies. This course explores the regional political and economic dilemmas, starting with the breakdown of the old imperialist order, Japan's expansion, the Asian Cold War, Korean and Chinese unification, China's post-1978 emergence, North Korea nuclear weapons, and the growing conflict over the Pacific Ocean's marginal seas. Writing intensive.
Attributes: Writing Intensive Course

POLT 567 - Politics of Global Resources
Credits: 4
International politics from the perspective of the exhaustibility of global resources and the expansion of global demand. Concentrates on issues including population, food, energy, the environment, security, and human rights. Global interdependence and the appearance of new institutional frameworks of global public policymaking. Writing intensive.
Attributes: Writing Intensive Course

POLT 568 - Introduction to Intelligence
Credits: 4
The purpose and practice of intelligence in the national security process. Concentration on the role of intelligence in the United States involving the C.I.A., military intelligence agencies, and the practice of intelligence in other countries.
Equivalent(s): POLT 568W

POLT 568W - Introduction to Intelligence
Credits: 4
The purpose and practice of intelligence in the national security process. Concentration on the role of intelligence in the United States involving the C.I.A., military intelligence agencies, and the practice of intelligence in other countries. Writing intensive.
Attributes: Writing Intensive Course
Equivalent(s): POLT 568

POLT 569 - The Rise of China
Credits: 4
Analysis of China's struggle for political and economic power in Asia and the world. Examines the legacy of China's historical encounters with the outside world, interactions with the international system since 1949, domestic determinants of foreign political and economic policies, and theories of decision making. Writing intensive.
Attributes: Writing Intensive Course
Equivalent(s): POLT 660
POL 570 - Counterterrorism: Nation states’ responses to terrorist activity
Credits: 4
This course explores nation states’ responses to terrorism or "counterterrorism." Students learn to define terrorism and use models to understand responses. Case studies are used to highlight the challenges and successes resulting from different response strategies. Students analyze questions facing government counterterrorism decision makers. For example, what is the risk of a terrorist organization acquiring and detonating a nuclear weapon and what response could governments deliver following such an event?

POL 580 - Selected Topics Am Politics
Credits: 4
Special topics such as politics and public affairs in New Hampshire, women in politics, and civil liberties. Not offered every semester. See departmental listings for semester offerings. Writing intensive. 4 cr.
Attributes: Writing Intensive Course
Repeat Rule: May be repeated for a maximum of 12 credits.
Equivalent(s): POLT 600

POL 584 - Selected Topics in Political Thought
Credits: 4
Special issues in political theory, such as liberalism and conservatism, radical political thought, the American character, and others. Not offered every semester. See departmental listings for semester offerings. Writing intensive. 4 cr.
Attributes: Writing Intensive Course

Equivalent(s): POLT 620

POL 588 - Selected Topics in Comparative Politics
Credits: 4
Attributes: Writing Intensive Course
Equivalent(s): POLT 651

POL 592 - Selected Topics in International Politics
Credits: 4
Examines specialized issues in international politics. Topics may include ethnic conflict, non-proliferations and global security, economic and political globalization, etc. Not offered every semester. See departmental listings for semester offerings. Writing intensive. 4 crs.
Attributes: Writing Intensive Course
Equivalent(s): POLT 660

POL 595 - Smart Politics
Credits: 4
An introduction to empirical research methods in political science, both qualitative and quantitative. Students study all aspects of the research process, including hypothesis-building, concepts and variables, measurement, research design, sampling, and empirical observations. Special attention paid to the use of statistical software. Writing intensive.
Attributes: Inquiry (Discovery); Writing Intensive Course
Mutual Exclusion: No credit for students who have taken PS 595.

POL 602A - Internship
Credits: 4
Field experience in a governmental or nongovernmental organization at the local, state, national, or international level. Arrangements must be made through the political science department. Open to juniors and seniors with at least a 3.2 GPA. Permission of the undergraduate curriculum committee of the department is required prior to the internship.

POL 602B - Washington Center Internship
Credits: 4
A four-credit independent study designed to work in conjunction with the University's Washington Center Internship program. Requirements: major in political science. Junior or senior research component to be discussed with faculty sponsor. For details on the Washington Center Internship, please contact Paula DiNardo, Coordinator National Student Exchange and Washington Center Internships, 114 Hood House, 603-862-3485 (V/TTY 862-2607), email: paula.dinaro@unh.edu. Prereq: POLT 402.

POL 602C - Concord Internship Program
Credits: 12
Provides students with field experience in state government in Concord (State Senate, House of Representatives, Office of the Governor, etc.). Students will spend three days weekly in Concord and attend a weekly practicum in Durham. Open to juniors and seniors with a 3.2 or better GPA. Applications accepted in the fall semester and can be found on department's website. Permission required. Students may sign up any four (4) credit course along with 602C for a total of 16 credits. Cr/F.

POL 602D - Internship
Credits: 2-12
Field experience in governmental or nongovernmental organization at the local, state, national, or international level. Arrangements must be made through the political science department. Open to juniors and seniors with at least 3.2 GPA. Permission from the undergraduate curriculum committee of the department is required. From 2 to 12 credits maybe taken. Cr/F.

POL 695 - Independent Study
Credits: 2-4
Designed to meet special interests of students and instructors in exploring issues in political science. Upon satisfying eligibility requirements set forth by departmental guidelines (in departmental office and online), students must have the approval of a faculty sponsor. Students submit the form and all supporting evidence by mid-semester prior to the planned semester of independent study for departmental approval. Does not meet the major's four field-course requirement; maximum of eight (8) credits can be counted toward the non-field major requirements. Prereq: at least one upper-level course in field of independent study. Majors only.
Repeat Rule: May be repeated for a maximum of 8 credits.

POL 696 - Independent Study
Credits: 2-4
Designed to meet special interests of students and instructors in exploring issues in political science. Upon satisfying eligibility requirements set forth by departmental guidelines (in departmental office and online), students must have the approval of a faculty sponsor. Students submit the form and all supporting evidence by mid-semester prior to the planned semester of independent study for departmental approval. Does not meet the major's four field-course requirement; maximum of eight (8) credits can be counted toward the non-field major requirements. Prereq: at least one upper-level course in field of independent study. Only open to Political Science majors.
Repeat Rule: May be repeated for a maximum of 8 credits.

POL 701 - Courts and Public Policy
Credits: 4
Impact of judicial decisions on public policy and influences on judicial decision making at the federal, state, and local levels. Writing intensive.
Attributes: Writing Intensive Course
POLT #706 - State and Local Government  
Credits: 4  
Advanced study of powers, politics, political cultures, and constitutional settings of American state and local government. Writing intensive.  
Attributes: Writing Intensive Course  

POLT 711 - Public Opinion and Survey Research  
Credits: 4  
Examines the role of public opinion in democracy. Research, design, implementation, and analysis of a public opinion survey.  

POLT 721 - Feminist Political Theory  
Credits: 4  
Explores various strands of feminist political theory, taking a specifically political view of the challenges of feminist activism and philosophy. Addresses issues of the public space, power, social transformation, and democracy. Writing intensive.  
Attributes: Writing Intensive Course  

POLT 725 - Politics and Literature  
Credits: 4  
Seminar: Advanced work in exploring classical and contemporary works of literature to illustrate perennial issues in political philosophy. Writing intensive.  
Attributes: Writing Intensive Course  

POLT 740 - States and Societies in the Middle East  
Credits: 4  
This seminar explores the comparative politics of selected countries and conflicts in the contemporary Middle East and North Africa. We focus on understanding the causes and consequences of popular uprisings, civil wars, and protracted conflicts. The class is taught through discussion, with students taking active, participatory roles. Themes include changing forms of governance, changing practices of warfare, gender and minority rights, economic and environmental problems, protest and activism, state-society relations, and migration and refugees. Students read memoir, journalistic accounts, and theoretical articles in comparative politics to understand important developments. Specific country and issue cases change each year; recent seminars have addressed Israel-Palestine, Syria, Egypt, Iran, and Iraq. Writing, reading, and discussion intensive class. Designed as follow-on course to POLT 559, Comparative Politics of the Middle East, counts as capstone course for the Middle East Minor. Writing intensive.  
Attributes: Writing Intensive Course  

POLT 742 - Politics of Afghanistan, Pakistan, and India  
Credits: 4  
Afghanistan, Pakistan, and India are strategically important states and potential flashpoints of conflict. Nuclear neighbors, India and Pakistan have been in conflict for 70 years while Afghanistan remains internally unstable. The politics of these countries are also intimately involved with each other. The class will focus both on the internal politics of these states and their foreign relations with each other and the United States. Students will develop expertise in a crucial world region.  
Attributes: Writing Intensive Course  

POLT 748 - Food and Wine Politics  
Credits: 4  
Food and wine politics provides a lens through which to analyze contrasting perspectives on production organization, market structures, quality constructs, consumer preferences, and health and safety regulation. This course draws upon texts from economic history, political economy, economic sociology, and public policy to shed light on comparative political and market organization across Europe, the United States, and emerging market economies. Writing intensive.  
Attributes: Writing Intensive Course  

POLT 750 - Politics of Poverty  
Credits: 4  
Why are some countries rich while others are so poor? This course answers this question by examining several theories of economic development: political culture, modernization, dependency, regime types, urban bias, rent-seeking institutions, and international aid. The immediate goal of this course is for students to understand the causes of international inequality in the distribution of wealth. Students also improve their ability to evaluate theoretical arguments and empirical evidence critically, and develop reading and writing skills. Writing intensive.  
Attributes: Writing Intensive Course  

Mutual Exclusion: No credit for students who have taken PS 750.  

POLT 751 - Comparative Environmental Politics and Policy  
Credits: 4  
Environmental politics and policy across national boundaries and at different levels of governance. Comparison of the U.S. and European Union environmental policies to build a foundation for comparisons across national boundaries and sub-national authorities. Students improve their understanding of how and why comparative methods are used to gain insight into politics and policymaking. Central concepts and debates addressed include the roles of expertise, sustainability, precautionary principle, the use of market mechanisms in policy, environmental justice, policy devolution and flexibility, environmental performance assessment, NGO roles, activism, and social movements. Using a range of theoretical approaches and historical and contemporary events and case studies, evaluating the claims and explanatory power of various concepts and theories. Includes ethical issues emerging from the theory and practice of environmental politics. Writing intensive.  
Attributes: Writing Intensive Course  

POLT 760 - Theories of International Relations  
Credits: 4  
Theoretical approaches of international politics, international organization, and international political economy with particular emphasis on systems theories, domestic determinants of foreign policy and theories of decision making. Writing intensive.  
Attributes: Writing Intensive Course  

POLT 762 - International Political Economy  
Credits: 4  
This course has been designed to introduce advanced undergraduates and graduate students to the current theoretical discussions in international political economy. The course analyzes the development of current international economic regimes, as well as looks at systemic theories (interdependence, hegemonic stability), domestic determinants (bureaucratic, interest group), and decision-making theories (rational choice). By monitoring current economic and political news, students are challenged to apply these ideas to explain the current problems in political economy.  
Attributes: Writing Intensive Course
POLT 765 - Security Intelligence Study
Credits: 4
The goal of the Security Intelligence Study course is to provide an opportunity for students to apply research and analysis models used by intelligence professionals to a real world problem. Using unclassified public sources, students research and present an analytical product to help limit risk for a government decision maker. Participants learn about and use publicly available data and intelligence analysis models. Writing intensive.
Attributes: Writing Intensive Course

POLT 778 - International Organization
Credits: 4
This course is about cooperation at the international level. With a focus on international organizations, we examine what roles international institutions (both IGOS and NGOS) play in global governance and their effects in various issue areas. We examine their historical origins, functions, and the international and domestic political forces that impact their effectiveness. The course also considers the role of international organizations on world order including conflict resolution, peacekeeping, development, and human rights. Writing intensive.
Attributes: Writing Intensive Course

POLT 780 - International Environmental Politics, Policy, and Law
Credits: 4
Explores international/global environmental politics and policymaking, multilateral negotiations, the role of science and technology in policymaking, state capacity, the making of international law, implementation, and compliance. Other issues include climate change, marine pollution, long-range air pollution, United States leadership in the global political arena, North-South divisions in global politics, environmental justice, sustainable development, and the role of the United Nations and other international organizations. Writing intensive.
Attributes: Writing Intensive Course

POLT 795 - Advanced Study
Credits: 1-4
Senior POLT majors, with a cumulative average of 3.20 or greater, may undertake advanced study (political science), in an area of their choice, in consultation with member(s) of the faculty. Normally, the result of the project is a significant written product of a quality comparable to that done at the 700 course level. Student must initiate the project discussion and obtain approval of the undergraduate curriculum committee of the department before undertaking the project. Writing intensive.
Attributes: Writing Intensive Course

POLT 796 - Advanced Study
Credits: 4
Senior POLT majors, with a cumulative average of 3.20 or greater, may undertake advanced study (political science), in an area of their choice, in consultation with member(s) of the faculty. Normally, the result of the project is a significant written product of a quality comparable to that done at the 700 course level. Student must initiate the project discussion and obtain approval of the undergraduate curriculum committee of the department before undertaking the project. Writing intensive.
Attributes: Writing Intensive Course

POLT 797B - Seminar in American Politics
Credits: 4
Advanced analysis and individual research. Prereq: senior standing. Writing intensive.
Attributes: Writing Intensive Course

POLT 797C - Seminar in Comparative Politics
Credits: 4
Advanced analysis focusing on government and politics in foreign nations or regions. Areas of interest may include: constitutional structures, political parties and interest groups, legislatures, bureaucracy, and public policy. Topics address such concerns as religion and politics, patterns of economic development, ethnic strife, and political leadership. Prereq: senior standing. Writing intensive.
Attributes: Writing Intensive Course

POLT 797E - Seminar in International Politics
Credits: 4
Advanced analysis focusing on problems of theory and contemporary issues in international politics. Areas of interest may include: democratic norms in international relations, NATO expansion and European security, the peace process in the Middle East, etc. See department listings for semester offerings. Prereq: senior standing. Writing intensive.
Attributes: Writing Intensive Course

POLT 797F - Seminar in Public Administration
Credits: 4
Advanced analysis and individual research, including opportunities for direct observation of governmental administration. Prereq: senior standing. Writing intensive.
Attributes: Writing Intensive Course

POLT 797I - Seminar in Political Thought
Credits: 4
Advanced treatment and individual research. Prereq: senior or graduate standing. Writing intensive.
Attributes: Writing Intensive Course

POLT 798B - Seminar in American Politics
Credits: 4
Advanced analysis and individual research. Prereq: senior standing. Writing intensive.
Attributes: Writing Intensive Course

POLT 798C - Seminar in Comparative Politics
Credits: 4
Advanced analysis focusing on government and politics in foreign nations or regions. Areas of interest may include constitutional structures, political parties and interest groups, legislatures, bureaucracy, and public policy. Topics address such concerns as religion and politics, patterns of economic development, ethnic strife, and political leadership. Prereq: senior standing. Writing intensive.
Attributes: Writing Intensive Course

POLT 798E - Seminar in International Politics
Credits: 4
Advanced analysis focusing on problems of theory and contemporary issues in international politics. Areas of interest may include: democratic norms in international relations, NATO and European security, the peace process in the Middle East, etc. See department listings for semester offerings. Prereq: senior standing. Writing intensive.
Attributes: Writing Intensive Course

POLT 798F - Seminar in Public Administration
Credits: 4
Advanced analysis and individual research, including opportunities for direct observation of governmental administration. Prereq: senior standing. Writing intensive.
Attributes: Writing Intensive Course
POLT 798I - Seminar in Political Thought  
Credits: 4  
Advanced treatment and individual research. Prereq: senior or graduate standing. Writing intensive.  
Attributes: Writing Intensive Course  

POLT 799 - Honors Thesis  
Credits: 4  
Senior POLT honors-in-major students (see department for honors-in-major requirements), with a cumulative average of 3.20 or greater, may undertake a special honors project in an area of their choice. The result of this special project is a significant written product constituting an honors thesis, under the supervision of a faculty sponsor. Students must initiate the project discussion and obtain approval of the undergraduate curriculum committee before undertaking the project. The honors thesis constitutes the tenth course in the major. Writing intensive.  
Attributes: Writing Intensive Course  

Politics and Society (PS)  

PS 402 - Practical Politics  
Credits: 4  
With particular attention to the development and evolution of US political institutions over time, this course seeks to help students understand how national politics affects them and their communities and how they can, in turn, use that insight to affect national politics. We will work to develop not just new knowledge, but to foster tools and practices of civic engagement.  
Attributes: Historical Perspectives(Disc)  
Mutual Exclusion: No credit for students who have taken POLT 402.  

PS 407 - Politics, Law and Contemporary Society  
Credits: 4  
This course examines the foundation and structure of the American legal system and the complex relationship between law, politics, and contemporary social structures, including the philosophical and historical origins of law and the concept of sovereignty. Using case studies and United States Supreme Court decisions, the course considers the philosophical, historical, economic, environmental, and sociological underpinnings of contemporary legal and politics issues.  
Attributes: Social Science (Discovery)  
Equivalent(s): POLT 407, POLT 407H  

PS 500 - Wicked Problems: Puzzles in Public Policy  
Credits: 4  
Meaningful change in the US is difficult under the best of circumstances, and it’s almost never the best of circumstances. As a result, the richer your understanding of the complex and often irrational US policy-making system, the better the chance that you will be able to understand why certain policies are made (or not made), why they take the form that they do, and how to alter them.  
Attributes: Social Science (Discovery); Writing Intensive Course  
Mutual Exclusion: No credit for students who have taken POLT 500.  

PS 501 - Social and Political-Economic Theory  
Credits: 4  
Classics of sociological and political economic theory, as well as contemporary thinking in conservative, classical liberal, modern liberal, and radical political economy. Emphasis on the historical context in which these ideas emerge, and the links among them. Readings and discussions include such thinkers as Comte, Spencer, Weber, Durkheim, Locke, Marx, Smith, Riccardo, J. S. Mill, Shumpeter, Keynes, Hayek.  
Attributes: Historical Perspectives(Disc)  

PS 502 - Political Psychology  
Credits: 4  
Political opinion, identity, and belief-formation and reinforcement. The roles of cognition and emotion in how political identities, opinions and beliefs form, change and resist change. The implications of idea-framing in the acceptance and rejection of political concepts and ideologies. The role of social contexts and the media in creating conceptual boundaries in contemporary politics.  
Attributes: Social Science (Discovery); Writing Intensive Course  

PS #503 - Political Theory and Historical and Social Context  
Credits: 4  
Course analyzes and evaluates the roles of political philosophy and historical circumstances in politics through the readings of selected works by political philosophers and political leaders whose writings combine political philosophy with historical analysis. Special attention given to the nature of argument, choice, and leadership in political behavior. Authors studied include Machiavelli, Madison, Marx, and Lincoln. Writing intensive.  
Attributes: Historical Perspectives(Disc); Social Science (Discovery)  

PS #504 - Empire, Democracy and War  
Credits: 4  
The United States, the world's oldest and most prominent constitutional democracy, is frequently characterized as an American empire, and empire maintained not only by its political ideals and its economic strength, but also by war. Through the reading of selected ancient and modern works by major political philosophers, historians, and political leaders, this course examines empire, democracy, and war as recurrent political concerns and as the actual experience of different regimes throughout history, including the United States. Works by, among others, Aristotle, Thucydides, Machiavelli, Hobbes, Kant, Clausewitz, and Lincoln are supplemented by selected historical studies and by analyses of American policy since World War II.  
Attributes: Humanities(Disc)  

PS 505 - Political Violence and Terrorism  
Credits: 4  
This course provides an interdisciplinary approach to the study of political violence and terrorism. It covers the psychological and sociological roots of terrorism, the organizational patterns of cells, groups and networks, and the role of ideology and identity in shaping goals, targets, and tactics. No credit for students who have previously taken PS 651 Special Topics: Political Violence and Terrorism.  
Attributes: Social Science (Discovery)
PS 506 - Civil Society and Public Policy
Credits: 4
Explores how grassroots advocacy organizations and social movements mobilize human and material resources in order to shape public policy and what tactics and organizational and communication strategies lead to success. Provides students with hand-on learning through service learning project at a local organization. Policy areas may include immigration, environmental conservation, women's issues and more.

PS 507 - Justice Law and Politics
Credits: 4
This course examines the relationships among law, politics, and social structures and how much relationships shape our conceptions of justice. We explore philosophical and historical origins of US law and such concepts as due process and sovereignty. We examine the foundations of economic, environmental, and sociological underpinnings of contemporary legal and political issues.
Attributes: Social Science (Discovery)

PS 508 - Supreme Court in US Society
Credits: 4
This course examines Supreme Court legal holdings from the creation of the American Republic to the present, with attention to the social and historical contexts in which holdings have been made. We examine Constitutional issues, the process by which the Court examines such issues, the ways in which political and social context has framed and influenced Court decisions, as well as how the Court has influenced politics and the broader society.
Attributes: Historical Perspectives(Disc)
Equivalent(s): POLT 508

PS 509 - Political and Social Change in Developing Countries
Credits: 4
Overview of the pressing social, political, and economic issues in the developing world. Analysis includes: political development, including different forms of authoritarianism and democracy, international political economy and models of macro-economic development; international and national aid programs aimed at reducing poverty. Case studies include China, India, Iraq and more.
Attributes: World Cultures(Discovery)
Equivalent(s): POLT 553

PS 510 - Politics of Food
Credits: 4
This course examines the politics of how food is produced, marketed and distributed in the United States, with attention to how the American food system has changed since World War II. The ethics and nutritional and public health implications of current agricultural policies and practices are looked at carefully, as are the environmental impacts of current practices. The impact on international food prices and markets and world hunger are also examined.
Attributes: Environment, TechSociety(Discovery)

PS 511 - Women and War
Credits: 4
Explores impact of war on women as both victims (i.e. refugees, rape victims) and participants (i.e. warriors). Covers issues such as women in combat as soldiers and terrorists, women's rights, sexual violence and rape during warfare, women's roles during peace-building etc. Case studies include Bosnia, Liberia, Afghanistan, USA, Colombia, and more.
Attributes: World Cultures(Discovery)

PS #512 - People on the Move: Immigration and Refugee Policy in Global Perspective
Credits: 4
Migration affects nearly every country in the world. It is an important dimension of globalization and compels us to reflect on notions of state sovereignty, nationhood, citizenship, human rights, tolerance and international relations. This course offers a multi-disciplinary, comparative overview of current issues in the field of international migration, including refugee policy. It aims to help students develop the knowledge and analytical tools to participate in today's often contentious debates about people on the move.

PS 513 - Politics of Red Tape: Bureaucracy & Policy
Credits: 4
Bureaucrat, someone is reported to have once said, is the only word in the English language that can be hissed even though it has no "s." The labyrinthine workings of government itself--the bureaucracy--are a seemingly constant source of fear, anger, frustration and indignation. Why does the public sector seem to generate such antipathy? We will explore this question, and examine how administrative agencies can be effectively and democratically managed. No credit if taken POLT 509.

PS 514 - Model United Nations
Credits: 4
The highlight of this experiential learning course is a trip to participate in a Model United Nations conference. Students will develop solutions to contemporary global problems (including human rights, terrorism, climate change, etc.), and will learn the art of debate and compromise. The class will serve as a particular country's delegation during a simulation of the United Nations, where it will promote the UN, the issues before the UN, and the assigned country's role in global affairs. Open to students of all majors. Instructor permission required. Contact Prof. Negron-Gonzales, melinda.negron@unh.edu. Special fee.

PS 515 - New Hampshire Politics in Action
Credits: 4
A hands-on course on New Hampshire politics and policymaking, in which students will identify a Bill currently active in the NH General Court and develop and execute a step-by-step plan for helping get it enacted or defeated. Periodic travel to the State Capitol in Concord will be required. Writing intensive.
Attributes: Inquiry (Discovery); Writing Intensive Course

PS 520 - Globalization: Politics, Economics and Culture
Credits: 4
Globalization is a complex web of interwoven processes that affect virtually all facets of our daily lives, from pop culture to economics to politics and everything in between. But what exactly is globalization, anyway? And does increased interconnectedness and interdependence do more harm than good? What are the effects of globalization on our society and on others around the world? How can we solve problems, such as climate change, that transcend national boundaries? This course covers different dimensions of globalization, exploring everything from free trade and global supply chains in business to the global hip-hop phenomenon to the problem of international terrorism, and many other issues.
Attributes: World Cultures(Discovery)
PS 595 - Research for Political and Policy Action
Credits: 4
This course offers an overview of how the social sciences–political science especially–decide which questions to ask and how to design the research projects that will help them develop answers to those questions. As we explore these methods of inquiry and analysis, students undertake their own multi-methods research project to better understand something that interests or puzzles them while experiencing first hand the challenges inherent in sound research.
Attributes: Inquiry (Discovery); Writing Intensive Course
Mutual Exclusion: No credit for students who have taken POLT 595.

PS 651 - Selected Topics: Public Service
Credits: 4
Interdisciplinary treatment of selected topics in politics and society. Topics may include democracy, empire and war, gender roles in electoral process, the sociology and psychology of terrorism, the political economy of hunger and poverty, the social origins of dictatorship and democracy, and others. Topic: Empire, Democracy, and War is Writing intensive.
Repeat Rule: May be repeated for a maximum of 8 credits.

PS 651W - Selected Topics Politics and Society
Credits: 4
Interdisciplinary treatment of selected topics in politics and society. Topics may include democracy, empire and war, gender roles in electoral process, the sociology and psychology of terrorism, the political economy of hunger and poverty, the social origins of dictatorship and democracy, and others. Topic: Empire, Democracy, and War is Writing intensive.
Attributes: Writing Intensive Course
Repeat Rule: May be repeated for a maximum of 8 credits.

PS 695 - Public Service Independent Study
Credits: 1-4
Independent study on specific topics in Politics and Society. Project must be approved by the project supervisor Politics and Society Program.
Repeat Rule: May be repeated for a maximum of 12 credits.

PS 701 - Senior Seminar/Internship in Public Service
Credits: 4
Students undertake internships or other approved field projects with organizations such as political campaigns, media organizations, government offices, business or community groups. The seminar component enables students to share and analyze these experiences, employing readings, discussions, collective behavior games, and speakers. Permission required. Writing intensive.
Attributes: Writing Intensive Course

PS 702 - International Relations: Interdisciplinary Approach
Credits: 4
This course explores International Relations Theory as developed by political scientists, subjected to critical insights from other disciplines, including psychology, anthropology, political economy and history. Course first surveys the historical development of International Relations Theory, beginning with Thucydides and Machiavelli, and proceeding through 20th and 21st century realist, liberal, Marxist and constructivist theories. These theories are then examined critically in the light of insights from psychology, anthropology and political economy. Pre or Coreq: PS 501 or PS 401 or permission of instructor. Special fee.
Attributes: Writing Intensive Course

PS #703 - Dictatorship and Democracy
Credits: 4
This course examines the theoretical debates in comparative politics and political sociology regarding the social and economic bases of dictatorship and democracy, as well as the transition from authoritarianism to democracy. The course considers different conceptualizations of democracy, as well as competing theoretical arguments regarding the causes of democratization. Readings draw on case studies from different regions, including Europe, Latin America, Africa, and Asia.
Equivalent(s): POLT 798C

PS 750 - Poverty & Inequality Past and Present
Credits: 4
This course will help students develop the knowledge and tools, using the best available data and research from across disciplines, to describe the scale and scope of need in the US. It will also help you develop understanding of the causes of poverty, inequality, and homelessness, and the consequences of them too – not just upon individuals and families, but ultimately upon entire neighborhoods, communities, and the nation as a whole.
Attributes: Writing Intensive Course
Mutual Exclusion: No credit for students who have taken POLT 750.

Portuguese (PORT)

# Course numbers with the # symbol included (e.g. #400) have not been taught in the last 3 years.

PORT 401 - Elementary Portuguese I
Credits: 4
Conducted in Portuguese, this immersive introduction to Portuguese and the cultures of the Portuguese-speaking world (Brazil, Lusophone Africa, and Portugal) is intended for students without previous exposure to the language. Focuses on conversational and cultural competence while presenting fundamentals of grammar. Students who have taken Portuguese in secondary school must contact the program regarding placement. Students possessing advanced proficiency in Spanish or another Romance language may seek instructor permission to enroll directly in PORT 402. PORT 401 and PORT 402 jointly satisfy the foreign language requirement for the Bachelor of Arts degree.

PORT 402 - Elementary Portuguese II
Credits: 4
Conducted in Portuguese, this course introduces Portuguese and the cultures of the Portuguese-speaking world. Focuses on conversational and cultural competence while presenting fundamentals of grammar. Students with prior exposure to Portuguese must contact the program regarding placement. Students possessing advanced proficiency in Spanish or another Romance language may seek instructor permission to enroll directly in PORT 402. PORT 401 and PORT 402 jointly satisfy the foreign language requirement. Prereq: PORT 401.
Attributes: Foreign Language Requirement

PORT 500 - Selected Topics in World Literature
Credits: 4
Topics are chosen that introduce students to major themes and genres. (Also offered as CLAS 500, FREN 500, GERM 500, ITAL 500, RUSS 500, SPAN 500) May be repeated for credit. Cr/F. Writing intensive.
Attributes: Writing Intensive Course
Equivalent(s): CLAS 500, FREN 500, GERM 500, ITAL 500, RUSS 500, RUSS 500W, SPAN 500, WLCE 500
PORT 503 - Intermediate Portuguese I  
Credits: 4  
Conducted in Portuguese, this course emphasizes development of reading, writing, speaking, and listening skills, essential grammar, and continued exploration of Portuguese-speaking cultures. Students who have taken Portuguese in secondary school are encouraged to contact the program regarding placement. Satisfies the foreign language requirement. Counts as an elective for the major in Spanish.  
Attributes: World Cultures(Disc)

PORT 504 - Intermediate Portuguese II  
Credits: 4  
Conducted in Portuguese, this course emphasizes development of reading, writing, speaking, and listening skills, advanced grammar, and continued exploration of Portuguese-speaking cultures. Students who have taken Portuguese in secondary school are encouraged to contact the program regarding placement. Satisfies the foreign language requirement. Counts as an elective for the major in Spanish.

PORT 526 - Introduction to Portuguese-speaking Cultures through Film  
Credits: 4  
Narrative and documentary films will provide an introduction to the diversity of Brazilian, Lusophone African, and Portuguese cultures. Themes include colonialism and post-coloniality; social inequity and social justice; national identities in formation and transformation; burying, unearthing, and resurrecting the past; migration (including Portuguese-speaking communities in New England with roots in Brazil, Cape-Verde, and Portugal). Conducted in English. Counts as an elective for the major in Spanish.

PORT 595 - Portuguese Practicum  
Credits: 2  
Practical use of Portuguese language or cultural skills outside the classroom through special projects. Prereq: PORT 401 and PORT 402 and permission. Cr/F.  
Repeat Rule: May be repeated for a maximum of 4 credits.

PORT 795 - Independent Study in Portuguese  
Credits: 1-4  
Guided individual study in language, literature, and culture from the Portuguese-speaking world. Topics selected by instructor and student in conference. Barring duplication of content, may be repeated. Prereq: permission of instructor.  
Repeat Rule: May be repeated for a maximum of 8 credits.

Professional and Technical Communication (PTC)

# Course numbers with the # symbol included (e.g. #400) have not been taught in the last 3 years.

PTC 500 - Business Communication  
Credits: 4  
This course focuses on writing skills used in the business world. Frequent writing assignments include letters, emails, reports and resumes. The drafting, feedback and revision method is used. Required for the BUS degree and should be taken within the first 2 semesters. No credit if ENGL 595 "Literary Topics: Business Communications" taken.  
Attributes: Writing Intensive Course

Psychology (PSYC)

# Course numbers with the # symbol included (e.g. #400) have not been taught in the last 3 years.

PSYC 401 - Introduction to Psychology  
Credits: 4  
Psychology as a behavioral science; its theoretical and applied aspects. Includes research methods, behavioral neuroscience, sensation and perception, cognition, learning, development, personality, psychopathology, and social psychology. To experience actively the nature of psychological research students have an opportunity to participate in a variety of studies as part of a laboratory experience.  
Attributes: Social Science (Discovery)  
Equivalent(s): PSYC 401H

PSYC 401H - Honors/Introduction to Psychology  
Credits: 4  
Psychology as a behavioral science; its theoretical and applied aspects. Includes research methods, behavioral neuroscience, sensation and perception, cognition, learning, development, personality, psychopathology, and social psychology. To experience actively the nature of psychological research students have an opportunity to participate in a variety of studies as part of a laboratory experience.  
Attributes: Social Science (Discovery)  
Equivalent(s): PSYC 401

PSYC 402 - Statistics in Psychology  
Credits: 4  
Design, statistical analysis, and decision making in psychological research. Probability, hypothesis-testing, and confidence intervals. Conceptualization, computation, interpretation, and typical applications for exploratory data analysis (including measures of central tendency, variability), t-tests, correlations, bivariate regression, one-way analysis of variance, and chi square. Introduction to computer methods of computation.  
Attributes: Quantitative Reasoning(Disc)  
Equivalent(s): PSYC 402H  
Mutual Exclusion: No credit for students who have taken ADM 430, ADMN 420, BIOL 528, EREC 525, HHS 540, MATH 439, MATH 539, MATH 644, SOC 402, SOC 402H, SOC 502, SOC 502H.

PSYC 402H - Honors/Statistics in Psychology  
Credits: 4  
Design, statistical analysis, and decision making in psychological research. Probability, hypothesis-testing, and confidence intervals. Conceptualization, computation, interpretation, and typical applications for exploratory data analysis (including measures of central tendency, variability), t-tests, correlations, bivariate regression, one-way analysis of variance, and chi square. Introduction to computer methods of computation. Special fee.  
Attributes: Quantitative Reasoning(Disc)  
Equivalent(s): PSYC 402  
Mutual Exclusion: No credit for students who have taken ADM 430, ADMN 420, BIOL 528, EREC 525, HHS 540, MATH 439, MATH 539, MATH 644, SOC 402, SOC 402H, SOC 502, SOC 502H.
PSYC 440A - Honors/Understanding the Human Brain
Credits: 4
First, we will examine the evolution of the brains of hominids to understand what are characteristics are uniquely human and what are conserved across species. We then explore selected topics in neuroscience that alter neural functioning, for example, the impact of neuro-prosthetics, cognitive enhancement, racial discrimination. Finally, we will discuss the benefit and limitations of using animal models to understand human neural functioning.
Attributes: Biological Science (Discovery)
PSYC 502 - Research Methods in Psychology
Credits: 4
Research design, including experimental and correlation design; internal versus external validity; measurement; writing a research report; graphic and statistical methods for summarizing data; sampling; and special problems such as experimenter effects, reactivity of measurement, and others. The use of hypothesis testing and data analysis in research. Prereq: PSYC 401 and PSYC 402.
Attributes: Inquiry (Discovery); Writing Intensive Course
Equivalent(s): SOC 601, SW 601, SW 601W
PSYC 511 - Sensation and Perception
Credits: 4
The study of how humans (and some other animals) sense and perceive their environment. Topics include seeing (vision), hearing (audition), tasting (gustation), smelling (olfaction), feeling (somatosensation), and the variety of state-of-the-art methods used by psychologists to study these senses. Illusions and other sensory and perceptual phenomena are treated. Prereq: PSYC 401.
PSYC 512 - Psychology of Primates
Credits: 4
A comparative analysis of primate cognitive, linguistic, and social processes. The origins of human behavior are explored from the perspectives of history, evolution, and contemporary work in neuropsychology, linguistic, sociobiology, and related fields. Prereq: PSYC 401.
PSYC 513 - Cognitive Psychology
Credits: 4
The study of human cognition, its basic concepts, methods, and major findings. Human knowledge acquisition and use. Attention, perception, memory, imagery, language, reading, problem solving, and decision making. Prereq: PSYC 401.
PSYC 521 - Behavior Analysis
Credits: 4
PSYC 522 - Behaviorism
Credits: 4
Introduction to behaviorism as a philosophy of science. Some historical background, but concentration on modern behaviorism as exemplified in the works of B. F. Skinner. No credit for students who have completed PSYC 722. Offered only in Manchester. Prereq: PSYC 401.
PSYC 531 - Psychobiology
Credits: 4
Introduces the behavioral neurosciences. Surveys research conducted by psychologists to learn about the biological basis of behavior: development, sensation, perception, movement, sleep, feeding, drinking, hormones, reproduction, stress, emotions, emotional disorders, learning, and memory. Prereq: PSYC 401.
PSYC 552 - Social Psychology
Credits: 4
Behavior of individuals as affected by other individuals, groups, and society. Topics include attitude change and social influence, conformity, social interaction, interpersonal attraction, impression formation, research. Prereq: PSYC 401.
PSYC 553 - Personality
Credits: 4
PSYC 561 - Abnormal Behavior
Credits: 4
Causes, diagnosis, and treatment of abnormal behavior. Implications of varying theoretical viewpoints. Prereq: PSYC 401.
Equivalent(s): PSYC 761
PSYC 571 - Pioneers of Psychology
Credits: 4
An introduction to the development and evolution of psychology as an academic discipline and applied science. The lives and works of innovators in psychology are placed in socio-political context.
Attributes: Historical Perspectives (Disc)
Equivalent(s): PSYC 571H
PSYC 571H - Honors/Pioneers of Psychology
Credits: 4
An introduction to the development and evolution of psychology as an academic discipline and applied science. The lives and works of innovators in psychology are placed in socio-political context.
Attributes: Historical Perspectives (Disc)
Equivalent(s): PSYC 571
PSYC 581 - Child Development
Credits: 4
The developing child in the context of his/her society. Current problems in, and influences on, development of the child. Personality and cognitive development; exceptional children. Prereq: PSYC 401.
PSYC #582 - Adult Development and Aging
Credits: 4
A life-span developmental framework for the study of growth, decline, and stability on adult development. Developmental methods in adult development research; biological basis for aging; patterns of change and stability in diverse domains of psychological functioning, e.g., perception, cognition, intellectual performance, and personality organization. Prereq: PSYC 401. (Offered only in Manchester.)
PSYC 591 - Special Topics
Credits: 4
New or specialized courses are presented under this listing. Staff present material not normally covered in regular course offerings. May repeat but not duplicate content. Prereq: PSYC 401.
PSYC 595 - Applications of Psychology
Credits: 1-4
Arranged by the student or offered by psychology faculty for supervised field, academic, or research experience related to psychology. A) Field experience: supervised internship at a business or human services setting, B) Academic experience: specialized classroom experience or supervised teaching assistance, C) Research experience: supervised research experience or laboratory work. Psychology instructors sponsor academic credit for appropriate experience combined with a relevant academic component. Requires a signed learning agreement prior to registration. Prereq: permission. May be taken for 1-4 credits in a semester. Cr/F.
Repeat Rule: May be repeated for a maximum of 8 credits.

PSYC 702 - Advanced Statistics and Research Methodology
Credits: 4
A review of basic statistics from Psychology 402 and 502. Covers partial correlation, factorial ANOVA, and other analyses that include multiple predictor variables. Appropriate for students who plan to apply to research-oriented graduate programs, those who use statistics in honors thesis research, and those who plan to work in areas such as marketing or survey research. Topics covered are appropriate for use in psychology, sociology, education, medicine, and other research areas. Prereq: PSYC 402; PSYC 502; or permission. (Not offered every year.) Writing intensive.
Attributes: Writing Intensive Course

PSYC 707 - Tests and Measurement
Credits: 4
Testing intelligence, creativity, achievement, interests, and personality. Test construction; evaluation; relation to psychological theory, research, and practice. Prereq: PSYC 402; PSYC 502; or permission.
Equivalent(s): PSYC 705H

PSYC 705H - Honors/Tests and Measurements
Credits: 4
Testing intelligence, creativity, achievement, interests, and personality. Test construction; evaluation; relation to psychological theory, research, and practice. Prereq: PSYC 402; PSYC 502; or permission.
Equivalent(s): PSYC 705

PSYC 710 - Visual Perception
Credits: 4
The study of how humans (and some other animals) see. Topics include color vision, depth perception, form and pattern vision, visual learning and development, eye movements, diseases of the visual system, illusions, and other visual phenomena. Prereq: PSYC 402, PSYC 502, PSYC 511, or PSYC 531; or permission.
Attributes: Writing Intensive Course

PSYC 712 - Psychology of Language
Credits: 4
Theories of language structure, functions of human language, meaning, relationship of language to other mental processes, language acquisition, indices of language development, speech perception, reading. Prereq: PSYC 402; PSYC 502; PSYC 512; or PSYC 513; or permission.
Equivalent(s): PSYC 712W

PSYC 712W - Psychology of Language
Credits: 4
Theories of language structure, functions of human language, meaning, relationship of language to other mental processes, language acquisition, indices of language development, speech perception, reading. Prereq: PSYC 402; PSYC 502; PSYC 512; or PSYC 513; or permission. Special fee. Writing intensive.
Attributes: Writing Intensive Course
Equivalent(s): PSYC 712

PSYC 713 - Psychology of Consciousness
Credits: 4
Explores questions of consciousness. What is it? How does it develop? Are infants and animals conscious? Why did consciousness evolve? Includes a review of historical background, including the ideas of Jaynes, Piaget, James, Freud, and others. Contemporary topics may include the role of language and other representational systems, blindsight, subliminal perception, priming and other implicit cognitive phenomena, hypnosis, confabulation and attribution, dreaming, multiple personality and conceptions of self and free will, from simultaneous perspectives of phenomenology, behavior, and neuroscience. Specific topics governed by class interests. Prereq: PSYC 402; PSYC 502; PSYC 513.
Equivalent(s): PSYC 713H

PSYC 713W - Psychology of Consciousness
Credits: 4
Explores questions of consciousness. What is it? How does it develop? Are infants and animals conscious? Why did consciousness evolve? Includes a review of historical background, including the ideas of Jaynes, Piaget, James, Freud, and others. Contemporary topics may include the role of language and other representational systems, blindsight, subliminal perception, priming and other implicit cognitive phenomena, hypnosis, confabulation and attribution, dreaming, multiple personality and conceptions of self and free will, from simultaneous perspectives of phenomenology, behavior, and neuroscience. Specific topics governed by class interests. Prereq: PSYC 402; PSYC 502; PSYC 513.
Attributes: Writing Intensive Course
Equivalent(s): PSYC 713, PSYC 713H

PSYC 716 - Cognitive Neuroscience
Credits: 4
Cognitive Neuroscience is a rapidly expanding scientific discipline that probes classical questions of human cognitive psychology via a broad array of cutting-edge methodological approaches, which include but are not limited to brain imaging (e.g., functional MRI and electroencephalography), lesion studies, single-cell recording, and examinations of brain injuries and other neurological disorders. This course will survey the results of these approaches, which have thus far generated fundamental insights about how the brain supports motor control, attention, memory, emotion processing, social cognition, language, executive function and decision making. Prereq: PSYC 402, PSYC 502, PSYC 513, or PSYC 531; or permission.
Attributes: Writing Intensive Course
PSYC 720 - Animal Cognition  
Credits: 4  
Do animals use language or have a culture? Can birds count? Do animals use tools and understand how they function? How do ants navigate their environment to find food and then return to their nest? How animals perceive, attend to, process, store, and represent information from their environment. Research on animal learning and behavior as a framework for investigating cognitive processes in animal learning. Quantitative versus qualitative nature of differences between people and non-human animals. Multidisciplinary approach including the fields of anthropology, physiology, philosophy and biology. Prereq: PSYC 401; PSYC 402; PSYC 502; PSYC 513 or PSYC 521; or permission. Writing intensive.

Attributes: Writing Intensive Course

PSYC 722 - Behaviorism, Culture, and Contemporary Society  
Credits: 4  
Introduces behaviorism as a philosophy of science. Concentration on modern behaviorism as exemplified in the works of B.F. Skinner. Implications of behaviorism for the development and evolution of cultures. Consideration of societal issues (for example pollution, overpopulation, conflict, drug abuse) from a behavioral framework. Prereq: PSYC 402; PSYC 502; PSYC 521;/or permission. No credit for students who have completed PSYC 522. Writing intensive.

Attributes: Writing Intensive Course

Equivalent(s): PSYC 522

PSYC 731 - Brain and Behavior  
Credits: 4  
Neuropsychology, the study of brain/behavior relationships including clinical topics related to the analysis of neurological diseases in humans and more basic experimental topics related to integrative functions of the brain. The main focus is on cerebral cortex and functions related to perception, movement, attention, memory, and language. Prereq: PSYC 402; PSYC 502; PSYC 531;/or permission. Special fee. Writing intensive.

Attributes: Writing Intensive Course

PSYC 733 - Drugs and Behavior  
Credits: 4  
Introduces the principles of psychopharmacology and the effects of psychoactive substances on behavior. Focuses on the therapeutic and recreational use of drugs and the mechanisms of drug action, that is how the drugs affect the brain. Neuropsychiatric function and dysfunction are discussed as they relate to the use or abuse of particular drugs. Prereq: PSYC 402; PSYC 502; PSYC 531;/or permission. Writing intensive.

Attributes: Writing Intensive Course

PSYC 735 - Neurobiology of Mood Disorders  
Credits: 4  
Neurobiological and neurochemical substrates underlying various psychopathologies, using both animal models and human data. Study of disorders from the field of biological psychiatry including aggression, anxiety, panic disorder, obsessive-compulsive disorder, unipolar depression, bipolar affective disorder, schizophrenia, and post-traumatic stress disorder. The effectiveness of current behavioral and pharmacological therapy. Prereq: PSYC 402; PSYC 502; PSYC 531; or permission. Writing intensive.

Attributes: Writing Intensive Course

PSYC 736 - Attention Disorders  
Credits: 4  
Attention encompasses several cognitive functions including, but not limited to, the ability to select relevant from irrelevant stimuli, to maintain goal-directed behavior over time, and to process multiple streams of information at once. This course explores how the normal brain "attends", and the consequences of dysfunction in neurochemical systems hypothesized to mediate these abilities including dementia, attention-deficit hyperactivity disorder (ADHD) and schizophrenia. Prereq: PSYC 402; PSYC 502; PSYC 531;/or permission.

Attributes: Writing Intensive Course

PSYC 737 - Behavioral Medicine  
Credits: 4  
Behavioral, physiological, and neurochemical alterations, associated with health-promoting behaviors (low-fat diet, exercise) as well as health-impairing behaviors (eating disorders, smoking, excessive alcohol consumption). Topics include stress, coping, type-A behavior, hypertension, and the interface of brain, behavior, and immunity (psychoimmunology, cancer, AIDS). Treatment/therapy are discussed from behavioral and pharmacological perspectives. Prereq: PSYC 402; PSYC 502; PSYC 531;/or permission.

Attributes: Writing Intensive Course

PSYC 741 - Advanced Topics  
Credits: 4  
Advanced material in which instructor has specialized knowledge through research and study. May be repeated for different offerings. Topics under this listing may be used to fulfill a major requirement in category CI. A) Psychology as a Natural Science, B) Cognition, C) Behavior Analysis, D) Biological/Sensory. Prereq: PSYC 402; PSYC 502; plus other prerequisites when offered; or permission.

Equivalent(s): PSYC 741A, PSYC 741B, PSYC 741C, PSYC 741D, PSYC 741W

PSYC 741W - Advanced Topics  
Credits: 4  
Advanced material in which instructor has specialized knowledge through research and study. May be repeated for different offerings. Topics include: Behavioral Neuroscience. Prereq: PSYC 402; PSYC 502; plus other prerequisites when offered; or permission.

Attributes: Writing Intensive Course

Repeat Rule: May be repeated up to unlimited times.

Equivalent(s): PSYC 741, PSYC 741A, PSYC 741B, PSYC 741C, PSYC 741D

PSYC 755 - Psychology and Law  
Credits: 4  
Applications of psychology to the study of the law, including theories of legal and moral judgment, participants in the legal system (judges, police, victims, witnesses), the trial process, and plea bargaining. Special focus on the death penalty, the insanity plea, and child witnesses. Prereq: PSYC 402; PSYC 502;/or permission. Writing intensive.

Attributes: Writing Intensive Course

Equivalent(s): PSYC 755H

PSYC 756 - Psychology of Crime and Justice  
Credits: 4  
Examines the psychological aspects of crime and justice, including the following origins and causes of crime: developmental, biological, biopsychological, learning, and mental disorder. Focuses on issues related to homicide, profiling, and serial killers. Examines aggression and violence as well as causes and consequences of criminal homicides. Discussion of the future of crime. Prereq: PSYC 402; PSYC 502; or permission. Writing intensive.

Attributes: Writing Intensive Course
PSYC 757 - Psychology of Happiness
Credits: 4
Overview of empirical research in Positive Psychology. We will discuss factors that may influence happiness and subjective well-being; and effects that well-being may have on other life outcomes such as physical health. Learning involves reading and writing about evidence from research and also experimental exercises (such as doing an act of kindness). Prereq: PSYC 402, PSYC 502 or permission.
Attributes: Writing Intensive Course

PSYC 758 - Health Psychology
Credits: 4
Survey of current topics in health psychology, including social stress and the etiology of disease, Type A and other personality factors related to health, modification of risk factors, the practitioner-patient relationship, chronic pain, and the emotional impact of life-threatening illness. Prereq: PSYC 402, PSYC 502; or permission. Writing intensive.

PSYC 762 - Counseling
Credits: 4
Theories of counseling, ethical considerations, professional and paraprofessional activities in a variety of work settings. Prereq: PSYC 402; PSYC 502; PSYC 553; or PSYC 561; or permission. Writing intensive.
Attributes: Writing Intensive Course

PSYC 763 - Community Psychology
Credits: 4
Examines the sub-field of community psychology, which grew out of clinical psychology but is different from it. Theoretical and research perspectives on prevention, diversity, empowerment, resilience, community intervention, and ecological understandings of behavior. Causes of and interventions in social issues such as interpersonal and community violence and homelessness. Prereq: PSYC 401; PSYC 402; PSYC 502; PSYC 552; PSYC 553, or PSYC 561; or permission. Writing intensive.
Attributes: Writing Intensive Course

PSYC 775 - Madness in America
Credits: 4
Examines how popular and professional concepts of mental illness are shaped by historical events as well as scientific and medical research. Writings of former psychiatric patients, therapists, researchers, social critics, and historians of psychology and psychiatry. Cultural values, public attitudes, and popular views of mental health and illness as expressed through motion pictures, documentaries, novels, autobiographies, and biographies. The impact of WWI and WWII on how people thought about madness and how it was treated. The 1973 removal of homosexuality from the diagnostic manual of the American Psychological Association; the rise and fall of the lobotomy; feminist criticisms of psychiatry and psychology. Prereq: PSYC 402; PSYC 502; PSYC 561; or permission.
Attributes: Writing Intensive Course

PSYC 780 - Prenatal Development and Infancy
Credits: 4
Psychological development of infants from conception through second year of life. Factors and potential influences on reproductive health and prenatal physical and behavioral development. Transition to parenthood, infant temperament and parent-infant relationships. Developmental patterns of specific capabilities. Prereq: PSYC 402; PSYC 502; PSYC 581 or FS 525; or permission. Writing intensive.
Attributes: Writing Intensive Course

PSYC 783 - Cognitive Development
Credits: 4
Theories of cognitive development. Comparison among major theorists on how knowledge, thought, and development are defined and studied. Current research, including cognitive development; memory; perceptual processes; language. Prereq: PSYC 402; PSYC 502; PSYC 581; or permission. Writing intensive.
Attributes: Writing Intensive Course

PSYC 785 - Social Development
Credits: 4
Examines development of social interactions. Emphasizes important social relationships for the child (e.g., attachment to parents and friendships with peers). Considers other topics of relevance to social developmentalists, such as temperament, aggression, social cognition, and sex roles. Prereq: PSYC 402, PSYC 502, PSYC 581; or permission. Writing intensive.
Attributes: Writing Intensive Course

PSYC 791 - Advanced Topics
Credits: 4
Advanced material in which instructor has specialized knowledge through research and study. May be repeated for different offerings. Topics under this listing may be used to fulfill a major requirement in category CII. A) Psychology as a Social Science, B) Social Psychology, C) Personality, D) Abnormal/Counseling, E) History of Psychology, F) Child Development, G) Adult Development. Prereq: PSYC 402; PSYC 502; plus other prerequisites when offered, or permission. Special fee with some topics.
Repeat Rule: May be repeated up to 4 times.
Equivalent(s): PSYC 791W

PSYC 791W - Advanced Topics
Credits: 4
Advanced material in which instructor has specialized knowledge through research and study. May be repeated for different offerings. Topics include: Close Relationships. Prereq: PSYC 402, PSYC 502; plus other prerequisites when offered, or permission.
Attributes: Writing Intensive Course
Repeat Rule: May be repeated up to 4 times.
Equivalent(s): PSYC 791

PSYC 793 - Internship
Credits: 4-8
Supervised practicum in one of several cooperating New Hampshire mental health/rehabilitation facilities. Coursework knowledge applied to meaningful work and team experience. Commitment includes a negotiated number of weekly work hours and weekly seminars. Supervision by institution personnel and the instructor. A maximum of 4 credits may be applied to the Psychology major. Course applications accepted beginning in March for fall term and October for spring term. Prereq: permission; PSYC major; PSYC 402; 502; 561 Pre- or coreq: PSYC 762.

PSYC 794 - Advanced Internship
Credits: 1-8
Supervised advanced practicum experience in co-operating New Hampshire mental health/rehabilitation facilities. Expands and builds on experiences and skills acquired in PSYC 793. Commitment includes a negotiated number of hours of work per week and participation in weekly seminars. Supervision done by institution personnel and instructor. Prereq: PSYC 793; permission. 1 to 8 credits.
PSYC 795 - Independent Study  
Credits: 1-4  
Repeat Rule: May be repeated for a maximum of 4 credits.  
Equivalent(s): PSYC 795H, PSYC 795W

PSYC 797 - Senior Honors Tutorial  
Credits: 4  
For senior psychology honors students. Students propose honors theses under the supervision of psychology faculty. Theses proposed and begun in this course are completed in PSYC 799. Prereq: admission to psychology honors program. (Typically offered in fall.)

PSYC 798 - Capstone  
Credits: 0  
This is a zero credit course to indicate on the transcript that the capstone requirement is fulfilled. PSYC majors only.

PSYC 799 - Senior Honors Thesis  
Credits: 4  
Under supervision of psychology department faculty members, students complete the honors projects proposed and begun in PSYC 797. The honors project, which should be empirical in nature, culminates in an oral presentation at the end of the semester. Prereq: admission to psychology honors program; PSYC 797. (Typically offered in spring.)

Public Administration (PA)  
# Course numbers with the # symbol included (e.g. #400) have not been taught in the last 3 years.

PA 700 - Foundations and Theories of Public Administration  
Credits: 4  
The foundations and Theories of Public Administration will explore the theoretical foundations of public administration and their practical applications. It will look to the early literature that helped shape the field along with a contemporary perspective of public administration. Students will understand the theoretical foundations of public administration, understand the different roles of the public sector, understand the historical roots of public administration, and understand the applied aspects of public administration.

PA 709 - Organization and Management in Public and Nonprofit Sectors  
Credits: 4  
This course is about management theory and practice. It provides the opportunity to acquire the theoretical knowledge as well as the practical methods necessary to manage organizations in the public and nonprofit sectors. Embedded in this idea of management learning is the proposition that theory and practice of management are closely connected.

PA 718 - Nonprofit Management  
Credits: 4  
Nonprofits play a major role in our lives although we may not be aware of their influence. The nonprofit sector in the United States has grown exponentially over the past twenty-five years, more rapidly than the government and for-profit sectors, making it the fastest growing segment of our economy. This course provides students with a practical hands-on approach to the non-profit sector, its governance and management including finance, fundraising, personnel management, strategic planning, and risk management.

Public Policy (PPOL)  
# Course numbers with the # symbol included (e.g. #400) have not been taught in the last 3 years.

PPOL 706 - Fundamentals of Policy Analysis  
Credits: 4  
This foundational course in public policy analysis will introduce students to the policymaking process. Students will learn about the connection between research and policy, and develop fundamental skills in research design. Tools and techniques for policy analysis will be explored. The importance of effectively conveying results to stakeholders will be discussed, and students will work in teams to design and present a substantial policy research and analysis project.

PPOL 712 - Strategies for Policy Impact  
Credits: 4  
This course explores how to develop and implement strategies that drive policy change. You will learn how to analyze various approaches to changing policy, consider context for the change (timing, climate for change, opposition) and then identify the most viable option to use to influence policy change. This class is about influencing change versus the mechanics of designing policy. Students will review different influence models, discuss which ones work best in various situations, and identify how influence models connect to campaigns that influence legislative and institutional policy. You will better understand policy change efforts by reviewing examples and learning the central elements of a successful endeavor. Finally, students, in teams, will choose their own adventure and create their own policy change strategy.

PPOL 722 - Media Strategy and Communication  
Credits: 4  
In this course, we will introduce contemporary media strategies and learn how to use them to influence public policy. We will focus on: Recognizing the dynamics of the news cycle and how to identify opportunities in a saturated media landscape; Developing a message and a strategy to convey the message; Writing to advance a message in different media; Verbal skills to deliver a policy message via TED talk, panel or news conference; Nuance and differences when interacting with TV, radio, print, and social social; Introducing and practicing interview skills for TV, video, radio, print, and online media; and Understanding the power of image and authenticity.

PPOL 797 - Advanced Special Topics  
Credits: 4  
Occasional or experimental offerings.

Race & Ethnic Studies (RES)  
# Course numbers with the # symbol included (e.g. #400) have not been taught in the last 3 years.
RES 795 - Independent Study
Credits: 1-8
Open to qualified sophomores, juniors, and seniors. May include research project or fieldwork. To be elected only with permission of the coordinator and with qualified supervision.
Repeat Rule: May be repeated for a maximum of 8 credits.
Equivalent(s): RCP 795

Recreation Management & Policy (RMP)

RMP 400 - Recreation Management and Policy Continuing Enrollment
Credits: 0
This course enables BS students to maintain continuous enrollment in RMP as part of their matriculation plan until after their degree is formally awarded. Students registering for RMP 400 will pay a continuous enrollment fee. No credit. Special fee. RMP majors only.
Repeat Rule: May be repeated up to 2 times.

RMP #444 - Building a Culture of Peace
Credits: 4
Peace is more than just the absence of war. A culture of peace incorporates respect and dignity for all persons, stewardship of natural resources, a striving toward justice and equality, the non-violent resolution of conflicts, non-hierarchical decision-making and participatory community life. Students in this course explore the origins and concepts of peace culture. Students experience the elements of a culture of peace as they are empowered to create a peace culture within the classroom and as they share peace culture with a broader community through service learning projects.
Attributes: Social Science (Discovery); Inquiry (Discovery)

RMP 444A - Taking the "Dis" out of Disability
Credits: 4
In contrast to the traditional view of disability as a defect, students learn how disability provides a unique vantage point on our world and can be perceived as an ordinary part of the twists and turns of life. Examines the history of social responses to disability, with an emphasis on the present day concepts of inclusion and self-determination. Students explore expressions of the disability experience through print and visual media. Writing intensive.
Attributes: Social Science (Discovery); Inquiry (Discovery); Writing Intensive Course
Equivalent(s): RMP 550

RMP 490 - Recreation and Leisure in Society
Credits: 4
Examines the historical and philosophical foundation of recreation and leisure. Emphasizes concepts, theories, and the interrelationships between factors (social, economic, political, and environmental), which influence people’s leisure attitudes and behavior. Explores implications of leisure for holistic and balanced living. Classes not allowed in section: Senior.
Attributes: Social Science (Discovery)
Equivalent(s): LMT 490, RMP 490H

RMP 500 - Therapeutic Recreation Methods in Physical Rehabilitation Settings
Credits: 4
This course introduces students to a variety of assistive techniques, devices and equipment used in Therapeutic Recreation settings that allow individuals with illnesses and disabilities achieve maximum independence and functional capacity to maintain optimal health and leisure functioning. Students learn and apply skills in anatomical orientation and positioning, universal precautions, assistive technology and adapted equipment for recreation including manual, power, sports, and all-terrain wheelchairs, wheelchair mobility skills, proper body mechanics, transfer and lifting techniques, ambulation assists, and sighted guide techniques. Prereq: RMP 490, 501, 502, permission.
Co-requisite: RMP 503

RMP 501 - Recreation Services for Individuals with Disabilities
Credits: 4
Presents and discusses issues that concern the delivery of quality leisure services to individuals with disabilities in community settings. Classroom activities provide opportunities for practical experience.
Equivalent(s): LMT 501

RMP 502 - Foundations of Therapeutic Recreation
Credits: 4
History and professional concepts of therapeutic recreation and the roles and functions of the therapeutic recreation specialist.
Equivalent(s): LMT 502

RMP 503 - Therapeutic Recreation Rehabilitation Principles & Interventions
Credits: 4
Introduces the rehabilitation principles and recreational therapy interventions used by therapeutic recreation specialists to improve functioning for people with physical and cognitive impairments. Students learn and apply fundamental processes of clinical reasoning and treatment program planning to improve quality of life. A lab provides students with the opportunity to use a variety of assistive techniques, adaptive devices, and equipment to support individuals and achieve maximum independence and promote a healthy leisure lifestyle. Special fee. Prereq: RMP 490, RMP 501, RMP 502.
Co-requisite: RMP 500
Equivalent(s): RMP 606

RMP 504 - Therapeutic Recreation Mental Health Principles and Interventions
Credits: 4
Introduces mental health principles and recreational therapy interventions to improve functioning for people with emotional, social, and behavioral impairments. Students will learn and apply fundamental processes of clinical reasoning and treatment program planning to improve quality of life for persons with emotional, social, and behavioral impairments. Restricted to RMP majors.

RMP 505 - Therapeutic Recreation Aging Services Principles & Interventions
Credits: 4
This course is designated to introduce the student to the field of therapeutic recreation and its nexus with the older adult population. We will explore the role leisure and recreation, in concert with the recreational therapist, plays in the well-being of older adults. Topics of study will include: Health Promotion and Prevention; Geriatric Syndromes, Chronic Health Conditions; Roles of Recreational Therapist in Geriatrics; Common Illness, Health Settings; and Interventions.
RMP 511 - Issues of Wilderness and Nature in American Society
Credits: 4
Provides students with an overview of the evolving relationship between wilderness/nature and American society. Examines the philosophy, ethics, and societal values in American society and its relationship to our natural wilderness. Recent issues are used as case studies in order for students to articulate, defend, and critique the ethical issues presented. Students are responsible for understanding and applying philosophical approaches developed by philosophers, writers, and activists associated with the wilderness, sustainability, biodiversity, hunting, suburban sprawl, environmental activism, endangered species, organic foods, and genetic engineering.
Attributes: Humanities(Disc)

RMP 515 - History of Outdoor Pursuits in North America
Credits: 4
Voluntary pursuits in the outdoors have defined American culture since the early 17th century. Over the past 400 years, activities in outdoor recreation an education have reflected Americans' spiritual aspirations, imperial ambitions, social concerns, and demographic changes. This course will give students the opportunity to learn how Americans' experiences in the outdoors have influenced and been influenced by major historical developments of the 17th, 18th, 19th and 20th, and early 21st centuries. This course is cross-listed with KIN 515.
Attributes: Historical Perspectives(Disc)
Equivalent(s): KIN 515

RMP 557 - Program and Event Design
Credits: 4
This course introduces students to a range of approaches to recreation program and event design, and focuses on providing leisure experiences for all populations. Course topics include foundations of programming, program theories, needs assessment techniques, vision, mission, goals, and objectives, processes of group planning, public relations, program promotion, and program evaluation. Students will design and deliver a recreation program using a team approach. Prereq: RMP 490. Permission required.
Equivalent(s): LMT 557

RMP 559 - Program and Event Marketing
Credits: 4
This course prepares students to apply marketing principles and strategies to recreation programs and events, including procedures for developing marketing plans for recreation and event organizations. Course content includes planning the marketing mix, with a focus on the recreation or event product, price, place, and promotion. The course covers the application of marketing and communication strategies delivered through social and audio-visual media. The culminating project consists of a marketing and communication plan for a recreation/leisure service agency. Prereq: RMP 490. Permission required. RMP Majors Only.
Equivalent(s): RMP 665

RMP 560 - Recreational Sport Management
Credits: 4
Explores and examines the theoretical foundations and basic skill methods, and techniques necessary for the effective and efficient delivery of recreational sport programs within a variety of collegiate, public, quasi-public, and private settings, agencies and/or organizations.
Equivalent(s): LMT 560

RMP 563 - Recreation Management and Policy Practicum
Credits: 2
Designed to provide first and second year RMP majors the opportunity to observe and practice leadership skills in clinical and community-based settings. Students complete a 40-45 hour practicum at an approved site. Successful completion of a practicum is prerequisite to the professional internship, RMP 664. Students are responsible for transportation and housing. Prereq: RMP 490. Permission required. Cr/F.
Repeat Rule: May be repeated for a maximum of 4 credits.

RMP 565 - Introduction to Child Life
Credits: 4
When facing acute, chronic or life-threatening illness and traumatic injuries, children and families have unique needs within the medical system. The purpose of this course is to provide an introduction to the theory and practice of the child life profession and family centered care. Topics include children's emotional reactions to hospitalization, use of play, preparation, and family support, designing healing environments, and specializations within the field. Permission required. (Also listed as HDFS 565).
Equivalent(s): HDFS 565

RMP 593 - Special Topics
Credits: 2-4
Equivalent(s): LMT 593, RMP 593W

RMP 593W - Special Topics
Credits: 2-4
Attributes: Writing Intensive Course
Equivalent(s): LMT 593, RMP 593

RMP 603 - New Hampshire Ski Industry Management
Credits: 4
This course examines the New Hampshire ski and snowboard industry from several distinct but interrelated perspectives: social, technological, environmental, historical, economic, and operational. Students will explore skiing as a holistic and fulfilling segment of the outdoor recreation field, while gaining an understanding of its interdependence with the state’s economy, the natural environment, and New Hampshire’s unique cultural history. The influence of New Hampshire’s ski industry on the history and growth of the American ski industry will be examined, and the impacts of climate change and other environmental issues will be investigated in light on ongoing societal shifts and relevant technological advancements.
RMP 612 - Therapeutic Communication and Facilitation Techniques in Therapeutic Recreation
Credits: 4
Addresses specific clinical knowledge and skills essential to therapeutic recreation service delivery including clinical interviewing, group process, leisure education, treatment approaches, and intervention techniques. Prereq: RMP 490. Permission required.
Equivalent(s): RMP 604

RMP 613 - Interventions and Documentation in Therapeutic Recreation
Credits: 3
This course emphasizes theory and concepts in clinical intervention within therapeutic recreation settings. Students learn to identify and select appropriate facilitation techniques for a variety of client needs. Students also learn to write and interpret practice-based documentation. Students are afforded the opportunity to practice and apply concepts learned. Prereq: RMP 490. Permission required. Only open to RMP: Therapeutic Recreation majors.
Equivalent(s): RMP 605

RMP 614 - Assessment and Treatment Planning in Therapeutic Recreation
Credits: 4
Addresses the principles of activity analysis, client assessment, documentation, individualized program planning, selection of interventions, and collaboration with a treatment team. Prereq: RMP 612/ RMP 613. Permission required. Writing intensive.
Attributes: Writing Intensive Course
Equivalent(s): RMP 603

RMP 615 - Clinical Lab in Therapeutic Recreation
Credits: 2
A clinical lab that provides students with the opportunity to apply principles central to the effective delivery of therapeutic recreation individualized treatment planning, client assessment, documentation, and activity analysis with members of one of two community sites located in the Seacoast region. Students are required to participate in weekly sessions (five to six hours per week) for a total of 15 weeks. Prereq: RMP 612/RMP 613. Permission required. Ctr/F.
Equivalent(s): RMP 602

RMP 654 - Professional Development and Ethics
Credits: 2
Focuses on preparing students for the internship experience through the identification of career goals and the selection of an approved internship site. A portfolio emphasizing process skills in resume construction, interviewing techniques, establishing internship goals and objectives, and self-assessment is developed. Securing Certification in Basic First Aid and CPR (infant, child, adult) is a component of this course. Majors only. Prereq: permission. Letter Grade/A (continuous grading).
Equivalent(s): LMT 564, LMT 654

RMP 661 - Recreation and Event Leadership
Credits: 4
This course is designed to expose students to fundamental principles of leadership, communication, group facilitation, motivation, employee management, conflict resolution, and development of professional ethics. Students will develop techniques for the exercise of leadership in group and organizational settings associated with recreational programs and events. Students are expected to apply the leadership principles, theories, and techniques to small group exercises and activity leadership requirements. Prereq: RMP 490, RMP Majors only; permission required.
Equivalent(s): RMP 558

RMP 663 - Recreation and Event Management
Credits: 4
This course introduces students to various management processes. These processes include fiscal and budget development and management; policy development and implementation; recreational facility design, operation, and functions. Students gain insight into key areas of management through visitation to recreation and event venues and facilities. RMP Majors Only. Prereq: RMP 490 permission required.
Equivalent(s): LMT 663

RMP 668 - Youth Culture and Programs
Credits: 4
Emphasizes the identification of community and personal issues youth face in growing up as well as institutional and programmatic support available to assist youth. The course also examines the leadership, administrative, financial, and marketing tools necessary to develop successful youth programs and services. Service learning fieldwork and the completion of a background check are required. Prereq: RMP; RMPA or RMP:TR Majors Only or by permission of the instructor. Writing intensive.
Attributes: Writing Intensive Course

RMP 670 - Management and Design of Recreation and Parks Facilities
Credits: 4
Provides students with an orientation to the theories, design, operation, and functions of recreational facilities. Topics include facility development, operational considerations, and auxiliary functions that impact the manager's role. Students gain insight into key areas of facility management through visitations to actual facilities.

RMP 680 - Festival and Event Planning
Credits: 4
Introduces the planning, marketing, management, and evaluation of festivals and special events. Explores the theories and practices relevant to successful event planning for host community residents and visitors. Prereq: RMP 557 (majors); or by instructor permission (non-majors).Sophomores, Juniors, and Seniors only.

RMP 700H - Senior Honors Project
Credits: 4-6
Under the direction of an RMP faculty member, students complete either a supervised research or applied field study project that builds on their honors coursework. Students submit a written proposal for approval and present the results at the completion of their project. Applied studies address a specific need or problem of a local agency or organization. Prereq: permission required.

RMP 705 - Management and Policy in Therapeutic Recreation
Credits: 4
Addresses National Council for Therapeutic Recreation Certification knowledge areas concerning management competency. Students acquire knowledge of current principles and procedures for assuming an administrative role in the therapeutic recreation profession. Issues and practices related to budgeting, reimbursement, quality improvement programs, and comprehensive program planning. Prereq: RMP 612, RMP 613.RMP:TR majors only.
RMP 711 - Recreation Resource Management  
Credits: 4  
Examines the supply and demand of natural resources for outdoor recreation uses, with emphasis on relationships between public and private roles and responsibilities. Social, environmental, and economic impacts of outdoor recreation use are discussed. Current principles and techniques of recreation resource planning and management are outlined. Prereq: seniors or permission.  
Equivalent(s): LMT 711

RMP 720 - Adaptive Sports and Recreation Facilitation  
Credits: 4  
This course takes a strengths-based approach to examining adaptive sports and recreation, with a focus on best practices and risk management in community-based settings. This is an experiential learning course, whereby students will learn how to design, plan, and facilitate a variety of adaptive sports for people with disabilities. Students will learn and apply processes for selecting, fitting, and adjusting adaptive sports and recreation equipment for individuals with disabilities. A special course fee will apply.

RMP 724 - Grantsmanship, Evaluation, and Research  
Credits: 4  
Emphasizes understanding and application of grantsmanship, research techniques, and research writing. Addresses the process of program planning and grant proposal development. Examines research methodologies and the evaluation processes as applied to recreation and allied health settings. Critical assessment of uses and limitations of research for recreation. Prereq: RMP 557, and junior or senior RMP major or permission. Writing intensive.  
Attributes: Writing Intensive Course

RMP #730 - Camp Administration and Leadership  
Credits: 4  
Provides students with an understanding of administrative and organizational practices in structured camp settings. Students are exposed to the theory, practice, and challenges of program planning for youth and adult development within the recreation context of camping. Explores current sociological, environmental, economical, and legislative trends influencing contemporary camp management. Permission required.

RMP 740 - Therapeutic Recreation Service Delivery in Community Settings  
Credits: 4  
This course provides specialized knowledge and skills related to the practice of Recreational Therapy in a community setting. The course will encourage students to expand their understanding of philosophical constructs, public policy, and professional programs. Specific facilitation techniques and treatment modalities will be introduced as well as information specific to the therapeutic process as it is observed in these settings. Prereq: RMP 490, RMP 502.

RMP 750 - Aging, Advocacy, and Active Learning  
Credits: 4  
This course explores the impact of advocacy and social action programs for the aging adult. Course content is explored through the lens of active living emphasizing how leisure and recreation contribute to optimal experiences in later adulthood. Course content includes facilitating the learners' understanding of later life issues within the broader context of health and well-being at the local, state, and national levels. There is an applied action component to this course using a service learning framework.

RMP 760 - Program Administration in Recreational Sport  
Credits: 4  
This course focuses on the administration and development of participant-based community sport and recreation programs. The course emphasizes the organizational, administrative, and planning competencies to effectively manage these programs. A focus on problems, and the development of research-oriented solutions related to the administration of community sport and recreation programs will also be emphasized.

RMP 764 - Internship  
Credits: 10-16  
Supervised professional work experience in an approved recreation, park, tourism or health care agency. Students participate in a 10-16-week, 400-640 hour internship experience after receiving approval from their Professional Mentor and the Internship Coordinator. Prereq: majors only; permission. Cr/F.

RMP #768 - Theories and Philosophies of Youth Development  
Credits: 4  
This course provides students with a foundation in the theories and philosophies associated with the field of youth development. In this course, students critically analyze the strengths, limitations, and potential applications of various theories, philosophies, and ideas. Examples include: Developmental Systems Theory, Ecological Systems Theory, protective factors, and developmental assets. Students work or volunteer with a youth program for the duration of the semester in order to facilitate application of course concepts.

RMP 772 - Law and Public Policy in Leisure Services  
Credits: 4  
Topics including the law of torts, contracts, property, civil rights, risk management, and legal research are addressed in the context of leisure services and recreation resources. Public policy and professional advocacy implications are examined in relation to legislative and judicial systems. Prereq: RMP 557, RMP 663, and senior RMP major or permission. Writing intensive.  
Attributes: Writing Intensive Course  
Equivalent(s): LMT 772

RMP 775 - Entrepreneurial and Commercial Recreation  
Credits: 4  
Principles of business planning and development as applied to the private sector leisure services industry. Emphasizes knowledge of key commercial leisure services profiles and their intersection with allied professions such as hospitality and tourism. Course topics include entrepreneurship, business planning, needs assessment, product development, selling, financing, legal designations, and business operations leading to the development of a business plan for a new entrepreneurial recreation enterprise.

Equivalent(s): RMP 675

RMP 793 - Advanced Topics  
Credits: 2-4  
A) Area and Site Planning, B) Concepts and Trends in Therapeutic Recreation, and C) Conference Planning. Topics presented by instructors with specialized knowledge gained through professional practice, research, and study. Descriptions of topics available in department office during preregistration. May be repeated but not in duplicate areas. 2 to.

Equivalent(s): LMT 793
RMP 796 - Independent Study
Credits: 1-4
Individual study and/or research relating to leisure-oriented topics. Prereq: permission.
Repeat Rule: May be repeated for a maximum of 8 credits.
Equivalent(s): LMT 796, RMP 796W

RMP 796W - Independent Study
Credits: 1-4
Individual study and/or research relating to leisure-oriented topics. Prereq: permission. Writing intensive.
Attributes: Writing Intensive Course
Equivalent(s): RMP 796

Religious Studies (RS)

# Course numbers with the # symbol included (e.g. #400) have not been taught in the last 3 years.

RS 483W - History of World Religions
Credits: 4
Introduces the religions of the world in terms of historical development, relationship to society, belief system, central texts, and ritual practices. (Also offered as HIST 483.) Writing intensive.
Attributes: Historical Perspectives(Disc); Writing Intensive Course
Equivalent(s): HIST 483, HIST 483W, RS 483

RS 600 - Special Topics
Credits: 4
Studies of particular religious traditions, or periods within those traditions, or special topics and issues of concern within religious studies such as mythology, ritual, mysticism, etc. May be repeated up to a maximum of 12 credits.
Repeat Rule: May be repeated for a maximum of 12 credits.
Equivalent(s): RS 599

RS 601 - Seminar in Religious Texts
Credits: 4
Close study of sacred text(s) from a particular religious tradition (Islam, Christianity, Buddhism, Judaism, etc.) or a thematic selection of texts across religions. (Also offered as HIST 601.)
Equivalent(s): HIST 601

RS 699 - Seminar in Religious Studies
Credits: 4
Advanced discussion of a particular theme in religious studies, meant both to give students a solid foundation in classic theories of religion and to explore new authors and ideas. Past topics have included ritual, possession, magic, and apocalypticism. Classes are in seminar format and culminate in a final research paper. (Priority to minors in Religious Studies.) Prereq: permission.

Repeat Rule: May be repeated once.
Equivalent(s): RS 695

RS 796 - Independent Study
Credits: 2 or 4
Independent study of traditions, topics, or figures within the scope of Religious Studies. Before registration, student must formulate a project and secure consent of a cooperating program/faculty member who will supervise the independent study.
Equivalent(s): RS 696

Russian (RUSS)

# Course numbers with the # symbol included (e.g. #400) have not been taught in the last 3 years.

RUSS 401 - Elementary Russian I
Credits: 4
For students without previous training in Russian. An introduction to contemporary standard Russian. Includes a cultural component. Topics include those which enable students to function in Russian in everyday situations (i.e. food, leisure activities, literature, transportation, music, sports, daily life).

RUSS 402 - Elementary Russian II
Credits: 4
For students without previous training in Russian. An introduction to contemporary standard Russian. Includes a cultural component. Topics include those which enable students to function in Russian in everyday situations (i.e. food, leisure activities, literature, transportation, music, sports, daily life.) Prereq: RUSS 401 or equivalent. Cannot be taken separately except with permission of instructor.
Attributes: Foreign Language Requirement

RUSS #425 - Introduction to Russia: Contemporary Society and Culture
Credits: 4
Introduction to contemporary Russian society and culture in English. Examines the "Russian mind" (as it was before 1917), the "Soviet mind," and how the two have clashed. Attributes: Humanities(Disc); Inquiry (Discovery); Writing Intensive Course
Equivalent(s): RUSS 521, WLCE 521R

RUSS #522W - Morality, Sex and Revolution in Russian Literature
Credits: 4
Introduces Russian literature from a variety of perspectives. Selected works by famous and lesser known Russian writers on themes of morality, sex, and revolution. Literary texts, as well as film versions of literary texts, are considered in their historical and cultural contexts. Lectures, readings, and discussions in English. Open to all students, including freshmen. No prerequisites.
Attributes: Humanities(Disc); Inquiry (Discovery); Writing Intensive Course
Equivalent(s): RUSS 522, WLCE 522R

RUSS 525 - Russia: Mythology and Propaganda
Credits: 4
Exploration of the relationship between mythology and culture as a part of the cultural identity of the Russian people, before the 1917 Revolution, during the Communist period, and since the fall of the Soviet Union. Focus on pre 1917 Slavic pagan, Christian, and folk mythology vis-a-vis Western mythology, on 20C propaganda and control of the "public mind" designed to reshape national identity and on the current deconstruction, reform, and rebirth of the old mythology.
Attributes: Historical Perspectives(Disc)

RUSS 525M - Russia: Mythology and Propaganda in Moscow
Credits: 4
Exploration of the relationship between mythology and culture as a part of the cultural identity of the Russian people, before the 1917 Revolution, during the Communist period, and since the fall of the Soviet Union. Focus on pre 1917 Slavic pagan, Christian, and folk mythology vis-a-vis Western mythology, on 20C propaganda and control of the "public mind" designed to reshape national identity and on the current deconstruction, reform, and rebirth of the old mythology. Course conducted on location in Russia and on line. Special fee.
Co-requisite: INCO 589
Attributes: Historical Perspectives(Disc)

RUSS 531 - Russian Language for Heritage Speakers
Credits: 4
Intensive 5 week on-line course for Russian heritage speakers. Learn cursive Cyrillic; spelling rules, language structure. Build vocabulary to achieve a higher level of language expression. Grammar topics based on culture related text. Course is fully on line (quizzes, tests, video, supporting materials, on line meetings.) For students who can speak Russian, but who have not formally learned Russian. Special fee.

RUSS #593 - Myths, Visions and Issues in Russian Literature and Society
Credits: 4
Discussion and analysis of topics and authors in Russian literature, film, and culture. A variety of different topics or authors is covered each semester. (A) the Giants of Russian Literature: Dostoevsky and Tolstoy, (B) Dostoevsky, (C) Tolstoy, (D) Jewish Voices in the Russian Empire, (E) The Devil in Russian Literature, (F) the Myth of St. Petersburg, (G) Death and Revolution, (H) Russian Fairy Tales, (I) Drama, (J) Women's Voices, etc. Lectures, readings, and films with English subtitles, and discussions in English. Open to all students.
Equivalent(s): RUSS 593W, WLCE 593R

RUSS 595 - Russian Practicum
Credits: 2
Participants earn credit for approved, uncompensated, pre-professional activities and special projects, including K-12 outreach, assisting in undergraduate courses, work with professional organizations, businesses, social services, non-profits, NGOs or educational organizations in a Russian context and with on-site supervision. Writing assignments are required and vary depending upon the project. Enrollment limited to sophomores, juniors and seniors who are Russian majors and have a B or above average in Russian language courses. Cr/F.
Repeat Rule: May be repeated for a maximum of 4 credits.

RUSS 601 - Russian Conversation and Phonetics
Credits: 4
Practical application of fundamental phonetic theory of spoken Russian. Designed to increase fluency and accuracy in conversation. Special attention is paid to enhancing vocabulary skills in everyday situations. Prereq: RUSS 504 with a grade C or better. Permission.
RUSS 631 - Advanced Russian Conversation and Composition
Credits: 4
Advanced spoken and written Russian designed to include all four language skills (speaking, reading, writing, listening.) Readings on contemporary cultural topics and vocabulary building. Composition and conversation based on Russian-language media and literature.

RUSS 632 - Advanced Russian Conversation and Composition
Credits: 4
Advanced spoken and written Russian designed to include all four language skills (speaking, reading, writing, listening.) Readings on contemporary cultural topics and vocabulary building. Composition and conversation based on Russian-language media and literature.

RUSS 660 - UNH Russia Summer Study Abroad
Credits: 0
Summer study abroad program facilitated by the UNH Russia Program. This course is a placeholder for the study abroad program fee. Students register for both this administrative course number and two Russian courses offered on the program.
Co-requisite: INCO 589

RUSS 685 - Study Abroad
Credits: 16
Studies at a Russian institution of higher learning. Interested students should consult with a Russian advisor. Special fee. Cr/F. (IA grade will be assigned until official transcript is received from the foreign institution.)

RUSS 686 - Study Abroad
Credits: 4-16
Studies at a Russian institution of higher learning. Interested students should consult with a Russian advisor. Special fee. Cr/F. (IA grade will be assigned until official transcript is received from the foreign institution.)

RUSS 691W - Readings in Russian Literature
Credits: 1-4
Linguistic and stylistic characteristics of one of the major works in Russian literature. Study of the epoch when the work was written, as well as reading the literary work and discussing it. Students learn to analyze a literary work in the target language. Readings, class discussions, and papers conducted entirely in Russian.
Attributes: Writing Intensive Course
Equivalent(s): RUSS 691

RUSS #693 - Myths, Visions and Issues in Russian Literature and Society
Credits: 4
Same as RUSS #593, except that in addition majors are required to do selected readings in Russian and/or conduct research assignments in English on a specified topic. Final project required. Writing intensive option.
Equivalent(s): RUSS 693W

RUSS 721W - Topics in Contemporary Russian Literature: From Chekhov to Post-Modernism
Credits: 4
Reading, discussion, and close analysis of works of prose fiction and/or poetry from post-19th-century Russian literature within various contexts (literary-historical, socio-political, cultural, artistic, etc.) of the given period. All readings, written assignments, and class discussion in Russian. Prereq: RUSS 691 or equivalent by permission. Special fee. Writing intensive.
Attributes: Writing Intensive Course
Equivalent(s): RUSS 721W

RUSS 721 - Topics in Contemporary Russian Literature
Credits: 4
Historical, geographical, social, political, intellectual and artistic developments in Russia that have influenced contemporary Russian society and culture. Readings, class discussions, and films. Conducted entirely in Russian. Special fee. Writing intensive.
Attributes: Writing Intensive Course
Equivalent(s): RUSS 725M, RUSS 725T, RUSS 725W

RUSS 725 - Topics in Russian Culture and Society
Credits: 4
Historical, social, political, intellectual and artistic developments in Russia that have influenced contemporary Russian society and culture. Designed to give a deeper introspection into Modern Russian and its society, and a firsthand dialogue with the most significant sites in Russian civilization. Through pre-departure readings and on location, each cultural and historical topic is taught on site during field trips and after field trip discussions. Readings, class discussions, and films. Conducted entirely in Russian. A focus topic is explored on location with pre and post program research. Prereq: RUSS 504 or equivalent.
Equivalent(s): RUSS 725, RUSS 725T, RUSS 725W

RUSS 725M - Topics in Russian Culture and Society in Moscow
Credits: 4
Historical, geographical, social, political, intellectual and artistic developments in Russia that have influenced contemporary Russian society and culture. Through pre-departure readings and on location, each cultural and historical topic is taught on site during field trips and after field trip discussions. Readings, class discussions, and films. Conducted entirely in Russian. A focus topic is explored on location with pre and post program research. Prereq: RUSS 504 or equivalent.
Equivalent(s): RUSS 725, RUSS 725T, RUSS 725W

RUSS 733 - History of Slavic Languages and Culture
Credits: 4
Students look at modern Russian (standard and dialects) through the perspective of the history of the language. Focuses on the evolution of phonetics and grammar as well as etymology. Russian’s relation to other Slavic languages is discussed. Students look at the language through the lens of history, culture, and politics.
Equivalent(s): RUSS 533, RUSS 790

RUSS 790W - Advanced Language and Style
Credits: 4
For students who have a strong, active control of grammar. The most difficult problems of Russian grammar and syntax in poetry and prose. Develops confidence in expression both in everyday situations and in abstract concepts (emphasis on the latter). The course is tailored to students’ major and interest (such as international affairs, history, political science, etc) so they can use the language towards their research in Russian. Prereq: grade of C or better in last Russian language course taken. May be repeated for credit, barring duplication of material.
Attributes: Writing Intensive Course
Repeat Rule: May be repeated for a maximum of 8 credits.
Equivalent(s): RUSS 790

RUSS 795 - Independent Study
Credits: 1-4
Open to highly qualified juniors and seniors. To be elected only with permission of the Russian program coordinator and the supervising faculty member or members. Barring duplication of subject, may be repeated for credit.
Repeat Rule: May be repeated up to 4 times.

RUSS 796 - Independent Study
Credits: 1-4
Open to highly qualified juniors and seniors. To be elected only with permission of the Russian program coordinator and the supervising faculty member or members. Barring duplication of subject, may be repeated for credit.
Repeat Rule: May be repeated up to 4 times.
RUSS 797 - Special Studies in Russian Language, Literature, and Culture
Credits: 2 or 4
Selected topics in language, literature, and culture. Barring duplication of subject, may be repeated for credit.
Attributes: Writing Intensive Course
Repeat Rule: May be repeated for a maximum of 8 credits.

RUSS 798 - Special Studies in Russian Language, Literature, and Culture
Credits: 2 or 4
Selected topics in language, literature, and culture. Barring duplication of subject, may be repeated for credit.
Attributes: Writing Intensive Course
Repeat Rule: May be repeated up to 4 times.

**Sign Language Interpreting (INTR)**

Course numbers with the # symbol included (e.g. #400) have not been taught in the last 3 years.

**INTR 430 - Introduction to Interpretation**
Credits: 4
A survey of traditional and contemporary perspectives on interpretation and interpreters; introduces the cognitive processes involved in interpretation and factors that influence those processes. Several models of interpretation explored. Particular attention given to interpretation as an intercultural, as well as inter-lingual, process. Students engage in a research project related to course content.

**INTR 438 - A Socio-cultural Perspective on the Deaf Community**
Credits: 4
Introduction to the deaf community and deaf culture. Discussion of similarities to, and differences from, mainstream hearing culture. Supplemental videotapes focus on aspects of culture including deaf education, autobiographical sketches, deaf norms and values, and deaf literature and folklore. Theoretical issues of culture and linguistics applied to deaf culture, American Sign Language, and the variety of cultural perspectives of the deaf community. Students engage in a research project related to course content. Pre- or Coreq: ENGL 401. Writing intensive.
Attributes: Social Science (Discovery); Writing Intensive Course

**INTR 439 - Ethics and Professional Standards for Interpreters**
Credits: 4
Seminar course using readings, theory, and discussion of hypothetical situations and role plays to explore ethical standards and dilemmas in ASL-English interpretation. Covers personal and professional values, ethics, and morality; professional principles; power, responsibility, and group dynamics; the interpreter’s role; cross-cultural issues; and the decision-making process. Students engage in a research project related to course content. Pre- or Coreq: INTR 430. Writing intensive.
Attributes: Writing Intensive Course

**INTR 539 - Comparative Linguistic Analysis for Interpreters**
Credits: 4
Examines the basic similarities and differences between the linguistic structure of American Sign Language and spoken English; focuses on each language’s communication functions and how they serve these functions. Students engage in a research project related to course content. Pre- or Coreq: ASL 532.

**INTR 540 - Translation**
Credits: 4
Introduction to theory and practice of translation. Students analyze pre-prepared interpretations and translations to discover how expert interpreters and translators construct meaning in the alternate language. Particular attention paid to the form/meaning distinction. Students prepare translations from texts of their choosing. Pre- or Coreq: ASL 532. Lab.

**INTR 599 - Special Topics**
Credits: 1-4
Occasional offerings dependent on availability and interest of faculty. Barring duplication of subject, may be repeated.
Repeat Rule: May be repeated for a maximum of 8 credits.

**INTR 630 - Consecutive Interpretation I**
Credits: 4
Introduction to the theory and practice of consecutive interpretation. Analyzes and integrates specific subtasks of the interpreting process culminating in the performance of prepared and spontaneous consecutive interpretations. Students work with a variety of texts, language models, and settings with the goal of engaging in the consecutive interpreting process by chunking information and constructing meaning in the alternate language. Prereq: INTR 540. Lab.

**INTR 636 - Consecutive Interpretation II**
Credits: 4
Continues and advances the theory and practice of consecutive interpretation and introduces simultaneous interpretation. The focus of this course is on interactive discourse (dialogues). Particular attention is given to processes involved in the transition from consecutive to simultaneous interpreting, and determining when to use each mode of interpretation. The advantages and limitations of both types of interpreting are compared. Students apply theoretical information to the process of simultaneous interpreting. Students also engage in a research project related to course content. Prereq: INTR 630. Lab.

**INTR 732 - Simultaneous Interpretation**
Credits: 4
Focuses on simultaneous interpretation of expository discourse (presentations). Students further explore and apply theory learned in INTR 636 to a variety of texts, language models, and settings. Students engage in a research project related to course content. Pre- or Coreq: INTR 636. Lab. Writing intensive.
Attributes: Writing Intensive Course

**INTR 734 - Field Experience and Seminar I**
Credits: 4
Gives students the opportunity to observe professional working interpreters, with some direct interpreting experience as deemed appropriate. Students integrate knowledge, theoretical understanding, and skills acquired in the interpreting program by working closely with on-site supervisors (interpreters) in addition to attending a bi-weekly seminar with the UNHM field experience coordinator. Pre- or Coreq: INTR 732.

**INTR 735 - Field Experience and Seminar II**
Credits: 4
Gives students the opportunity to gain supervised interpreting experience. Students engage in actual interpreting assignments and receive support and mentorship from a professional interpreter, enabling them to integrate knowledge, theoretical understanding, and skills acquired in the interpreting program. Students work closely with on-site supervisors (interpreters) in addition to attending biweekly seminar with the UNHM field coordinator. Prereq: INTR 734.
INTR 798 - Special Topics  
Credits: 4  
Selected topics that vary by semester. Possible course topics are interpreting in educational settings, working with specific populations, or other topics of importance to interpretation. Descriptions available in departmental office during preregistration. Students engage in a research project related to course credit. Prereq: INTR 636; permission. May be repeated for credit if topics differ.  
Repeat Rule: May be repeated up to unlimited times.

Social Work (SW)

# Course numbers with the # symbol included (e.g. #400) have not been taught in the last 3 years.

SW 424 - Introduction to Social Work  
Credits: 4  
Introduces the learner to the field of social work with emphasis on the "person-in-environment" and attention to a range of practice approaches to understanding and assisting of the human condition. An overview of the history, values, and ethics of the profession. Includes various fields of practice in which social workers are employed. Special fee.  
Equivalent(s): SW 524

SW 440A - Honors/Healthy Communities: Personal Accountability and Social Change  
Credits: 4  
This course utilizes theory and concepts from biology, sociology, psychology, political science, history, urban planning as well as social work to examine and promote healthy communities. Students will develop an interdisciplinary knowledge of community health and a value-based understanding of social advocacy in the community context. Important course topics include: social-economic-environmental justice, sustainable communities, community organization, community capital, and empowerment. Prereq: permission.  
Attributes: Social Science (Discovery)

SW 444 - You've Got Your Troubles, I've Got Mine  
Credits: 4  
A seminar for traditional first- or second-year students. Examines the many personal losses typical for students leaving home for the first time. Guest speakers from various disciplines (e.g., social work, therapeutic recreation, nursing, family studies). The various ways one may find and give informal support to others dealing with loss are explored. In addition, the personal responses allowing one to better cope with adversity and ways of expressing grief are explored. Group work brings the class together as an informal support network. Students exchange ideas in techniques used to deal with personal loss and develop an informal support network to use after the course has ended.  
Attributes: Social Science (Discovery), Inquiry (Discovery), Writing Intensive Course

Credits: 4  
An overview of the history and current status of social welfare policy in the United States. Considers the origins, development, and analysis of significant policies, values, attitudes and other issues related to the social welfare system and the delivery of service. Focuses on policy analysis from a social and economic justice perspective.  
Attributes: Historical Perspectives(Disc)

SW 550 - Human Behavior and Social Environment I  
Credits: 4  
Introduces human behavior and development as it influences and is influenced by multiple factors in the social environment, including individual genetic and biological composition, race, gender, age, socioeconomic status, ethnicity, geographic location, physical appearance, and ability. How these factors operate throughout the life cycle. Provides a knowledge base and perspective to understand a client’s behavior, attitude, and values in relation to the attitudes and values of the social work professional and the larger society.  
Attributes: Social Science (Discovery)

SW 551 - Human Behavior and Social Environment II  
Credits: 4  
Agents of socialization that most significantly affect family, group, and organizational development and behavior within an ecosystems framework. Particular attention is paid to the influence of class, gender, race, ethnicity, religion, age, sexual orientation and other aspects of diversity on development and behavior of larger systems.  
Attributes: Social Science (Discovery)

SW 556 - Introduction to Child Life  
Credits: 4  
When facing acute, chronic, or life-threatening illness and traumatic injuries, children and families have unique needs within the medical system. The purpose of this course is to provide an introduction to the theory and practice of the child life profession and family centered care. Topics include children's emotional reactions to hospitalization, use of play, preparation, and family support, designing healing environments, and specializations within the field.  
Equivalent(s): HDFS 565

SW 601 - Research Methods in Social Work  
Credits: 4  
Introduces students to practitioner-researcher role in social work. Critical evaluation of, and introduction to research including project design, survey and evaluative methodologies. Introduction to statistics used in research process. Each student completes an individual research project. Cannot be taken for credit after SOC 601 or PSYC 502. Prereq: SW 424 and junior or senior standing or permission. Writing intensive.  
Attributes: Writing Intensive Course  
Equivalent(s): PSYC 502, SOC 601, SOC 601W

SW 622 - Social Work Practice: Interventions with Individuals and Families  
Credits: 4  
Introduces methods and practice. Basic principles, values, and ethics, interviewing skills, problem assessment, and contracting of social work practice with individuals and families are studied. Skills training in lab sessions. Prereq: SW 424 or permission of instructor. Must have junior or senior status. Writing intensive.  
Attributes: Writing Intensive Course

SW 623 - Social Work Practice: Interventions with Groups, Organizations and Communities  
Credits: 4  
Continuation of SW 622. Delineation and study of intervention and change strategies differentiated with individuals, groups, and communities. Prereq: SW 622. Writing intensive.  
Attributes: Writing Intensive Course
SW 625 - Social Welfare Policy in a Global Context
Credits: 4
Builds on the curricular content covered in Introduction to Social Welfare Policy (SW 525). Both courses view social welfare policy as the framework from which social work services are developed and delivered. This course examines the macroeconomic context for policy analysis and advocacy and integrates policy and practice through student research and analysis of specific social problems. Policymaking is analyzed in legislative, community, organizational, and global environments emphasizing advocacy in the pursuit of social and economic justice. Prereq: SW 424, SW 525. Special fee.

SW 640 - Social Work Field Experience I
Credits: 5
Majors are placed in a social welfare setting for a minimum of 225 hours; individual arrangements with faculty coordinator. Prereq: SW 622. Special fee. (No credit toward a minor.) Cr/F.
Co-requisite: SW 640A

SW 640A - Social Work Field Experience I: Seminar
Credits: 3
This weekly seminar, held concurrently with Social Welfare Experience I, integrates the field experience with social work theory and concepts learned throughout the curriculum by class discussion, exercises, readings and written assignments. Seminar I provides an opportunity for orientation to field, an overview of field requirements, review of the Code of Ethics, and use of small group discussion for problem solving. Students learn to use supervision effectively, to participate in the helping process, and to manage their own stress. Students learn to assess the impact of policy on the client system, agency and worker and to use research to inform practice. Prereq: SW 622.
Co-requisite: SW 640

SW 641 - Social Work Field Experience II
Credits: 5
A continuation of SW 640 with a minimum of 225 hours. Prereq: SW 640. (No credit toward a minor.) Cr/F.
Co-requisite: SW 641A

SW 641A - Social Work Field Experience II: Seminar
Credits: 3
This is a continuation of Social Welfare Field Experience I: SW 640A and builds upon the concepts presented in the student’s first field practice seminar. This seminar meets weekly for one and a half hours and is held concurrently with the field placement. It is designed to integrate the field experience with social work concepts through class discussion, reading and written assignments. Topics include but are not limited to, understanding and using agency structure to enhance client interactions, preparing client assessment and other documents, enhancing the client-worker therapeutic interaction, effective use of supervision, effective use of self in practice, prevention of burn-out, termination with clients and with agency staff, and values and ethics. Prereq: SW 640/SW 640A.
Co-requisite: SW 641

SW 650 - Exploring Social Justice and Cultural Competency Using an Experimental Learning Approach
Credits: 4
This course explores the use of experiential activities to address social justice issues and cultural competency. Students will experience an interactive activity-based approach to build self-awareness and techniques for working with specific client groups. The course focuses on methods and activities using metaphoric development an facilitation to promote dialogue and reflection. (can be used to satisfy SW Distribution Requirement).

SW 660 - Exploring Issues in Housing and Homelessness
Credits: 4
This course examines the meaning we attach to shelter in our society, and will examine multiple perspectives on the issues of housing and homelessness. The course will begin with a macro perspective and will draw on economic, humanistic, and historical perspectives to respond to this question, is housing a right? Students will also examine community development approaches to housing and their neighborhood effects. The course will conclude with an in-depth look at the complexities of homelessness.

SW 697 - Special Topics in Social Welfare
Credits: 4
Seminar for advanced majors. Topics may include: Alcohol and Alcoholism, Drugs and Chemical Dependency, Income Maintenance, Health Care, Child Welfare, Aging, Mental Health, or Developmental Disabilities. or study travel experiences. May be repeated for different topics. Prereq: permission. Special fee for course trip.
Repeat Rule: May be repeated up to 1 time.

SW #701 - Women and Aging
Credits: 4
Analysis of the major theories about social conditioning of aging women and its effects in contemporary society. Human service response, psychosocial, biological, legal, and economic implications. Prereq: junior, senior status or permission.

SW 705 - Child and Adolescent Risks and Resiliency: Program, Policy and Practice
Credits: 4
Examination of the major policy and program questions of child welfare with a focus on child care and protection, adoption and foster care, juvenile delinquency, service delivery, and concepts of treatment in public and private programs. Prereq: junior, senior status or permission.

SW 706 - Social Action in the Dominican Republic
Credits: 4
This course examines issues of culture, poverty, social development and social justice in the Dominican Republic through both service learning work and through preparatory and reflective class sessions and discussions. Students will examine social and economic development issues within a global framework and will explore efforts to improve conditions on this island nation. The service learning component includes working on a designated construction project and volunteering in a local elementary school. Students will also collaborate with community leaders to learn more about social, cultural and historical issues and will engage in a variety of cross-cultural activities. Students will engage with the local Haitian immigrant community, tour local schools and orphanages, and visit historical areas including the Zona Colonial of Santo Domingo. The primary part of the class will take place during March spring break. Special fee.
Co-requisite: INCO 589

SW 711 - Understanding Mental Illness
Credits: 4
An overview of the public mental health system focusing on people affected by severe and persistent mental illness. Reviews the current service system and its history; major mental illness, psychosocial rehabilitation, and treatment; and community support systems. Prereq: junior, senior status or permission.
SW 712 - Understanding Developmental Disabilities
Credits: 4
Analysis of the complex social contexts of people with developmental disabilities. Explores and questions traditional approaches and the current system. Examines family and community services and resources. Prereq: junior, senior status or permission.

SW 713 - School Social Work
Credits: 4
The course examines the school as a social institution that serves to educate and socialize children into US society and the role of the social worker in the school setting. Readings, activities, and discussions provide practical skills and theory for school social work practice. The course content addresses the history of school social work integrating social work values into a school setting, systemic needs within school settings, the importance of networking and professional collaboration, and working with diverse and at-risk youth and their families. Students also examine the role of school social workers in helping students, schools and families adjust to and cope with trauma, special education needs, and related topics.

SW 714 - Drugs and Alcohol: Use, Misuse and Addiction
Credits: 4
This course examines a) historical, cultural, social aspects of alcohol, b) impact of alcohol on body and behavior, c) progression of drinking and the treatment and prevention of alcoholism, d) impact of addiction on families. Prereq: junior, senior status or permission.

SW 715 - Practice with Gay, Lesbian, Bisexual, and Transgender People
Credits: 4
Sexual minorities constitute the minority group social workers most consistently encounter wherever they work. Addresses practice with gay, lesbian, and bisexual people on both professional and personal levels for the social worker. The readings include theoretical, experimental, clinical, counseling, and personal perspectives, as well as providing an introduction to the gay/lesbian/bisexual subculture. A unit on gender minorities is included. Students are also required to explore and examine their own attitudes and assumptions about gays, lesbians, bisexuals, and gender minorities. Prereq: junior, senior status or permission. (Also offered as SW 815.)

SW 785 - Study Abroad: Comparative Social Welfare Systems
Credits: 4
Students examine the historical development of social welfare in another country including an analysis of the underlying values and attitudes that dictate practice and policy decisions. Includes agency site visits, lectures, themed readings, and visits to important cultural sites. Prereq: SW 424 and SW 525; junior, senior status or permission. Special fee.
Co-requisite: INCO 589

SW 795 - Independent Study in Social Service
Credits: 1-6
Independent work under department faculty guidance. Enrollment by permission only through arrangement with specific faculty. May be repeated with a different focus. Prereq: 12 hours social service coursework; permission. Cr/F. Special fee.
Repeat Rule: May be repeated for a maximum of 8 credits.

SW 796 - Independent Study: Teaching Assistantship
Credits: 1-6
Participating students provide leadership and supervision for small groups of social work majors in social work practice simulations. Student teaching assistants work closely with, and under the direction of, department faculty. Prereq: senior status; 16 hours in social work; and permission. Cr/F.
Repeat Rule: May be repeated for a maximum of 8 credits.

SW 797 - Special Topics in Social Welfare
Credits: 4
Seminar for advanced majors cross-listed with SW 897. Topics may include: alcohol and alcoholism, drugs and chemical dependency, income maintenance, health care, child welfare, aging, mental health, or developmental disabilities or study travel experiences. May be repeated for different topics. Prereq: permission.
Repeat Rule: May be repeated for a maximum of 8 credits.

SW 797H - Honors Thesis
Credits: 2-4
Working with an assigned faculty adviser, students propose and develop a thesis project for both oral and written presentation before the end of the semester. Prereq for 797H: admission to the SW honors program; senior status, 16 hours in social work and permission.
Repeat Rule: May be repeated for a maximum of 6 credits.

SW 798H - Honors Thesis
Credits: 2-4
Working with an assigned faculty adviser, students propose and develop a thesis project for both oral and written presentation before the end of the semester. Prereq: satisfactory completion of 797H; senior status, 16 hours in social work and permission.
Repeat Rule: May be repeated for a maximum of 6 credits.

Sociology (SOC)

# Course numbers with the # symbol included (e.g. #400) have not been taught in the last 3 years.

SOC 400 - Introductory Sociology
Credits: 4
Overview of sociology as the scientific study of human social and cultural relationships. Social theory, methods and techniques of research, and current research findings on a wide range of social issues.
Attributes: Social Science (Discovery)
Equivalent(s): SOC 400H, SOC 400W
SOC 400H - Honors/Introductory Sociology
Credits: 4
Overview of sociology as the scientific study of human social and cultural relationships. Social theory, methods and techniques of research, and current research findings on a wide range of social issues. Writing intensive.
Attributes: Social Science (Discovery); Writing Intensive Course
Equivalent(s): SOC 400, SOC 400W
SOC 400W - Introductory Sociology
Credits: 4
Overview of sociology as the scientific study of human social and cultural relationships. Social theory, methods and techniques of research, and current research findings on a wide range of social issues. Writing intensive.
Attributes: Social Science (Discovery); Writing Intensive Course
Equivalent(s): SOC 400, SOC 400H
SOC 402 - Statistics
Credits: 4
Elementary applied statistical techniques; tables, graphs, cross-classifications; central tendency and dispersion; correlation and linear regression; confidence intervals and hypothesis testing. Other statistical classes including ADM 430, BIOL 528, ADMN 420, EREC 525, HHS #540, MATH 439, MATH 539, PHIL 412, MATH 644, PSYC 402 cannot be used to satisfy the major requirement. This is, all majors must take SOC 402 even if they have taken an introductory statistics course in another department. A student can, however, petition to receive eight credits for two introductory statistics courses, if and only if, SOC 402 is taken after the student became a sociology major and took their first statistics course prior to declaring SOC as their major. Majors cannot receive credit for statistics courses taken after they have declared SOC.
Attributes: Quantitative Reasoning(Disc)
Equivalent(s): SOC 402H, SOC 502, SOC 502H
Mutual Exclusion: No credit for students who have taken ADM 430, ADMN 420, BIOL 528, EREC 525, HHS 540, MATH 439, MATH 539, MATH 644, PSYC 402, PSYC 402H.

SOC 402H - Honors/Statistics
Credits: 4
Elementary applied statistical techniques; tables, graphs, cross-classifications; central tendency and dispersion; correlation and linear regression; confidence intervals and hypothesis testing. No credit for students who have completed ADMN 430, BIOL 528, ADMN 420, EREC 525, HHS #540, MATH 439, MATH 539, MATH 644, PSYC 402, but petitions for acceptance of such courses to fulfill the sociology major requirement in statistics will be entertained.
Attributes: Quantitative Reasoning(Disc)
Equivalent(s): SOC 402, SOC 502, SOC 502H
Mutual Exclusion: No credit for students who have taken ADM 430, ADMN 420, BIOL 528, EREC 525, HHS #540, MATH 439, MATH 539, MATH 644, PSYC 402, PSYC 402H.

SOC 440A - Honors/Drug Addiction in American Society
Credits: 4
This course will introduce students to interdisciplinary topics in the study of drug addiction, drug panics, and the U.S. war on drugs. It will draw on scholarly and journalistic research to consider sociological theories, methods, and data gathering techniques in the study of addiction, and it will explore ways in which individuals create, interact with, and are shaped by social groups and institutions, including those associated with politics, health, economics, family, and the legal system.
Attributes: Social Science (Discovery)

SOC 440A - Honors/Society in the Arctic
Credits: 4
Introduction to societies of the far North today, from Alaska and Canada through Greenland, Iceland, northern Scandinavia and Russia. Reviews interconnected issues of social change, environment, sustainable development, local control, and modernization vs. traditions. Arctic dilemmas highlight some basic questions facing all societies in the 21st century. Writing intensive.
Attributes: Environment, TechSociety(Disc); Inquiry (Discovery); Writing Intensive Course

SOC 450 - Contemporary Social Problems
Credits: 4
This course introduces students to the study of major social problems in contemporary society, including poverty, discrimination, inequality, crime, violence, and environmental degradation. Explores how and why people come to view certain social conditions as problematic. Also explores the consequences of and possible solutions to contemporary social problems.
Attributes: Social Science (Discovery)
Equivalent(s): SOC 540

SOC 515 - Introductory Criminology
Credits: 4
Introduces the scientific study of crime. Reviews the different forms of criminal behavior, theories of crime, and strategies of crime control.
Equivalent(s): SOC 615

SOC 520 - Family
Credits: 4
Sociological study of marriage and the family in American society. Following a life-cycle approach, topics include gender roles, communication and conflict, dating and mate selection, work and family economics, the transition to parenthood, middle- and late-life family, divorce, and remarriage.
Equivalent(s): SOC 520H

SOC 525 - Juvenile Crime and Delinquency
Credits: 4
Crime, violence, and the criminal justice system as it affects children and youth in the role of both perpetrators and victims.

SOC 535 - Homicide
Credits: 4
An introduction to theory and research in homicide studies, including a review of the origins of and social responses to homicide.

SOC 540 - Sexualized Violence
Credits: 4
Students examine the spectrum of sexualized violence in contemporary society. Topics include theoretical and methodological issues inherent in researching gender-based violence in the U.S. and in Europe. Students study sexualized violence in historical context, with particular attention to war, conflict, and military settings as well as examples of the impact of sexualized violence in everyday life. Finally, we explore how the pornography industry normalizes sexualized violence.

SOC 565 - Environment and Society
Credits: 4
Environment and Society focuses on the complex interactions between human communities and the natural world. The course considers the interconnected ways that social systems, the built environment, and related technologies produce environmental changes, and in turn how shifts in resources, air, water quality, climate, biodiversity, and ecosystems force societies to adapt. This course fulfills in the Environment, Technology, and Society category of UNH's Discovery Program.
Attributes: Environment, TechSociety(Disc)
This course approaches sexuality as a social phenomenon. We examine variability in sexual practices, sexual identities, and sexual behaviors throughout history, across cultures, and throughout the life course of individuals. Particularly, we focus on the social control of sexuality and the extent to which sexualities are socially constructed. We consider the media and other cultural influences on a diverse range of sexual experiences and take a straightforward, non-stigmatizing approach to tackling controversial issues.

**SOC 595 - Independent Reading and Research**
**Credits:** 2-8
Independent study of advanced or specialized topics in sociology requiring extensive reading and writing. Before registering, students must develop a project in consultation with a faculty supervisor and submit a proposal to the undergraduate committee. Prereq: 12 sociology credits and permission.

**SOC 597 - Special Topics**
**Credits:** 4
Occasional or experimental offerings. May be repeated for different topics.

**SOC 599 - Sociological Analysis**
**Credits:** 4
Basic skills essential to sociological study, including: development of critical reading skills; evaluation of theory construction and evidence; analysis of classic and contemporary works, research, writing, and use of library resources. To be taken by sociology majors no later than the junior year. Writing intensive.

**Attributes:** Inquiry (Discovery); Writing Intensive Course
**Equivalent(s):** SOC 599W

**SOC 601 - Methods of Social Research**
**Credits:** 4
Overview of major research methods: survey analysis, personal interview, participant observation, content analysis, and experimental design. Each student designs and completes a research project. Prereq: SOC 402 or equivalent; juniors and seniors only.

**Attributes:** Writing Intensive Course
**Equivalent(s):** PSYC 502, SW 601, SW 601W

**SOC 611 - Sociological Theory**
**Credits:** 4
Analysis of the origins and development of sociological theory. Includes the classical works of Marx, Weber, and Durkheim and their connections to the major strands of present day research. Writing intensive.

**Attributes:** Writing Intensive Course

**SOC 620 - Drugs and Society**
**Credits:** 4
Provides students with an overview of drug using behavior as viewed from a sociological perspective. Highlights historical and current drug use trends, examines the social correlates of drug use, considers societal responses to drug use including treatment, prevention, and policy, and engages students in key controversial debates confronting U.S. citizens and policymakers. Provides a foundation for understanding of drugs and society.

**SOC 625 - Mental Health and Society**
**Credits:** 4
This course introduces students to sociological approaches for studying and understanding mental health and illness in society. With an emphasis on the importance of social stress, we examine the distribution of mental illness in the United States and identify the factors that help to explain mental health differences across social roles and statuses.

**SOC 630 - Sociology of Gender**
**Credits:** 4
Gender examined as (1) socially constructed differences between the sexes, and (2) a system of social relations, which are part of the fabric of our social institutions. Topics include gender socialization, gender and education, gender and employment, and work-family intersections. Attention paid to the issue of gender inequalities and to the intersection of class, culture, race-ethnicity, age, and sexual orientation with gendered experience and gendered institutions. Focuses primarily on the contemporary United States.

**SOC #635 - Medical Sociology**
**Credits:** 4
Health and Illness are considered as a sociocultural phenomenon. Meanings are attached to health and illness as they are influenced by our social values and our cultural beliefs, which to a large degree are influenced by available medical technologies. People's experiences of health and illness are shaped by a range of social factors (e.g., race, class, gender) and follow clear patterns of social inequality. A critical approach is taken to examine topics such as the social determinants of health, illness and healthcare; the social construction of illness; the medicalization of society; and the social organization of health care.

**Equivalent(s):** SOC 635W

**SOC 635W - Medical Sociology**
**Credits:** 4
Health and Illness are considered as a sociocultural phenomenon. Meanings are attached to health and illness as they are influenced by our social values and our cultural beliefs, which to a large degree are influenced by available medical technologies. People's experiences of health and illness are shaped by a range of social factors (e.g., race, class, gender) and follow clear patterns of social inequality. A critical approach is taken to examine topics such as the social determinants of health, illness and healthcare; the social construction of illness; the medicalization of society; and the social organization of health care. Writing intensive.

**Attributes:** Writing Intensive Course
**Equivalent(s):** SOC #635

**SOC 640 - Religion**
**Credits:** 4
The continuing significance of religion in society is a central area of sociological inquiry. Examines the historical and cultural explanations for the persistence of religion and apply diverse sociological perspectives to explaining the personal, institutional, and cultural relevance of religion with a focus on contemporary American society. Topics studied include religious authority, identity, violence, and the impact of religion on various domains of social life including gender relations, family, politics, and economy. Writing intensive.

**Attributes:** Writing Intensive Course

**SOC 645 - Class, Status and Power**
**Credits:** 4
Focuses on the major dimensions of inequality, including class, gender, and race, by exploring the distribution of economic, political, and social resources within contemporary societies.

**Equivalent(s):** SOC 645W
SOC 655 - Sociology of Law and Justice
Credits: 4
Systematic study of how social factors, such as inequality, differentiation, culture, and organization influence the justice process. Historical and cross-cultural focus on the behavior of the police, courts, and other legal institutions. Prereq: SOC 515 or permission; juniors and seniors only.

SOC 656 - Terrorism
Credits: 4
This course provides a global assessment of the definition and nature of terrorism, trends in terrorism over the course of the past several decades, perspectives concerning the degree to which cultural, economic, and political conflict contribute to terrorism, and alternative means for dealing with terrorism in the age of globalization.

SOC 660 - Urban Sociology
Credits: 4
Urban Sociology focuses on urban communities, urbanization, and urban social issues. Covers the historical development of cities; the difference between urban, suburban, and rural communities; urban life styles; and the significance of poverty and race for understanding contemporary American cities. Emphasizes American cities, with some consideration to world patterns of urbanization and the growth, development, and role of global cities.
Attributes: Writing Intensive Course
Equivalent(s): SOC 560, SOC 660W

SOC 665 - Environmental Sociology
Credits: 4
Interactions between society and the physical environment, including environmental constraints, population and economic growth, social impacts of resource development, large-scale environmental change, and the social bases of environmental attitudes, behavior, and politics. Writing intensive.
Attributes: Writing Intensive Course
Equivalent(s): SOC 665W

SOC #680W - Sociology of the Holocaust
Credits: 4
Examines the origins, realities, and consequences of the Holocaust as an all-embracing European phenomenon. Topics include the genocidal policies and procedures of the Nazis and Soviets with respect to indigenous populations as well as the role of collaborators. This course is normally offered only at UNH-Manchester. Writing intensive.
Attributes: Writing Intensive Course
Equivalent(s): SOC 680

SOC #685 - Work and Occupations
Credits: 4
Examines the changes in workplace organizations and workers' lives, the emergence of new service and financial occupations, and how globalization, technology, and the increased presence of women in the labor force are impacting work and individuals' experiences of work.

SOC 693 - Global Social Change
Credits: 4
This course explores the causes and consequences of social change in societies around the world. Case studies of important social trends such as the diffusion of culture, international migration, health pandemics, changing status of women, environmental degradation, and promoting more equitable development enable investigation of the broad social implications of the process of globalization. Writing intensive.
Attributes: Writing Intensive Course

SOC #695 - Research on Family Violence in World Perspective
Credits: 4
The nature, frequency, causes, and consequences of family violence, including physical, verbal, material, and sexual abuse of children; of partners in dating, cohabitating, and marital relationships; and of the elderly; and also neglect of children and the elderly. Includes data analysis projects to provide experience with cross-national comparative research to test theories about social causes of family violence and the effects of family violence on society as a whole. Prereq: SOC 502 (or equivalent), SOC 601.

SOC 697 - Special Topics
Credits: 4
Occasional or experimental offerings. May be repeated for different topics.
Attributes: Writing Intensive Course
Repeat Rule: May be repeated up to 2 times.

SOC 715 - Criminological Theory
Credits: 4
Introduces graduate students and advanced undergraduates to the major theoretical literature in crime and delinquency. Covers both classical and contemporary theory, with empirical assessments of theories, including macro- and micro-level control, strain, and learning theories, as well as recent developments in biosocial, deterrence, labeling, and critical/feminist theories. Permission required.

SOC 720 - Sociology of Drug Use
Credits: 4
Examines licit and illicit drug use from a sociological perspective. Draws primarily from the sociology of mental health and criminology to explore a variety of drug-related topics including historical and current U.S. drug trends, dominant theoretical approaches about the initiation into, and continued use of drugs, drug-related crime, therapeutic use of drugs, prevention and treatment of drug problems, and drug-related policies. Permission required.

SOC 725 - Social Demography
Credits: 4
Social demography examines the linkages between changes in the size, composition and distribution of the population and changes in social, environmental, economic and political factors. The course examines demographic methods and the materials and the analytical techniques used by demographers to analyze population redistribution, fertility, work, marriage, migration and mortality. The policy implications of demographic change will be examined with attention to the U.S. as well as the developed and developing world. Permission required.
SOC 730 - Communities and the Environment
Credits: 4
People and the natural environments in which they live fundamentally structure communities around the globe. Economic change, expanding development, and human migration are transforming social and environmental conditions in both rural and urban settings, altering the identities of many communities as well as their relationships with the natural world. The importance of these emerging social and environmental issues has made them a focus for social science inquiry. This course exposes students to a range of sociological concepts, theories, and research approaches related to the study of communities and environmental issues. Some of the substantive themes that are covered include: population dynamics and environmental change; social capital and social networks; political economy and community development; collective action and social movements; science, technology, and environmental risks; and environmental racism and justice. The principal assignment for the course will be a research project where students investigate a community or environmental issue of their own interest. Permission required.

SOC 733 - Gender-Based Violence: US and International Perspectives
Credits: 4
Students examine the spectrum of gender-based violence occurring in the United States and Europe. Four main areas are examined: (1) Theoretical and methodological issues inherent in researching gender-based violence. (2) Different types of gender-based violence including sexual and relationship violence, harassment, pornography, and human trafficking. (3) The historical economic, and cultural contexts that facilitate gender-based violence. (4) Prevention and intervention efforts to reduce gender-based violence. Permission required.

SOC #735 - Sociology of Community
Credits: 4
This course analyzes “community” from a sociological perspective. Community is one of the fundamental concepts in the sociological literature; this course covers those aspects of the concept that are concerned with geographic communities: neighborhoods, communities, cities, etc. It considers how American communities have changed over time and what the current characteristics are, and how these characteristics are related to the “quality of life” in the communities. Students study theoretical and empirical approaches to studying communities, particularly but not exclusively American communities. Among specific areas of community research covered are: spatial inequality and concentrated poverty; what housing research shows about the importance of community to outcomes for families and children; the impact of community on health; and community development as a strategy for community change. Permission required.

SOC 740 - Sociology of Mental Health
Credits: 4
Introduces students to different sociological approaches for studying and understanding mental health and illness. Students examine the social distribution of mental illness in the United States and the social-structural factors that help to explain mental health variations. Also addresses issues surrounding mental health treatment, systems, and policies for the mentally ill. Permission required.

SOC #742 - Sociology and Social Policy
Credits: 4
Social policy and public policy defined: description of the policy making process. The political sociology of the policy-making process; who makes policy and who influences policy, under what conditions and with what effect. Definition of social policy research and the various roles social scientists can adopt for policy-relevant work. Students are responsible for critiquing the readings and for preparing a substantial research paper. Permission required.

SOC 745 - Race, Ethnicity, and Inequality
Credits: 4
Sociological perspectives on race and ethnic relations for graduate and advanced undergraduate students. Topics include the creation of racial and ethnic identities, the nature and extent of segregation, education, employment, and wealth inequalities, and the effects of state policy. The course emphasizes both theoretical and empirical assessments. Permission required.

SOC 773 - Childhood and Social Policy
Credits: 4
Exposes students to a variety of sociological perspectives about childhood in American society. Stimulates analysis about how social institutions, like the modern family, school, economic system, justice system and communications media affect children. Assumes prior understanding of important sociological concepts, critical thinking skills and social science writing ability. Permission required. Writing intensive.
Attributes: Writing Intensive Course

SOC 780 - Social Conflict
Credits: 4
Analysis of the social conditions associated with the major forms of conflict management in human societies: discipline, rebellion, vengeance, negotiation, mediation, law, therapy, supernaturalism, and avoidance. Permission required. Writing intensive.
Attributes: Writing Intensive Course

SOC 788 - Advanced Medical Sociology
Credits: 4
This course is intended to provide an in-depth introduction to the major theoretical frameworks of medical sociology and empirical research examining social factors that influence individual’s health and illness. We will take a critical approach in our examination of: the distribution of health and illness (by socioeconomic status, sex/gender, and race/ethnicity); medicalization and social control; and the social construction of health and illness. Most of the learning in this course will take place through shared facilitation of class discussions based on the reading. Writing intensive
Attributes: Writing Intensive Course

SOC 792 - Internship Independent Study
Credits: 2-8
Provides upper level sociology majors with an opportunity to apply what they have learned in the classroom to the real world. This will provide the opportunity for students to work individually with a faculty member on an Internship with the option of variable credit. There is no formal class time required. Students will arrange meetings with supervising faculty to plan assigned readings, update internship progress and complete semester projects. Project ideas are developed with faculty and internship site supervisor. Permission required.
Repeat Rule: May be repeated for a maximum of 8 credits.
Spanish (SPAN)

# Course numbers with the # symbol included (e.g. #400) have not been taught in the last 3 years.

SPAN 401 - Elementary Spanish I
Credits: 4
Conducted in Spanish. For students with no previous knowledge of Spanish. Development of listening comprehension, speaking, reading, and writing skills, as well as cultural awareness of the Hispanic world. No credit for students who have had two or more years of Spanish in secondary school; however, any such students whose studies of Spanish have been interrupted for 5 years or more should consult the coordinator of elementary Spanish. SPAN 401-402 taken together satisfy the foreign language requirement.

SPAN 402 - Elementary Spanish II
Credits: 4
Conducted in Spanish. Development of listening comprehension, speaking, reading, and writing skills, as well as cultural awareness of the Hispanic world. SPAN 401 is a prerequisite for this course. Cannot be taken separately without permission of the instructor. SPAN 401-402 taken together satisfy the foreign language requirement.
Attributes: Foreign Language Requirement

SPAN 403 - Review of Spanish
Credits: 4
Conducted in Spanish. Accelerated elementary Spanish course, designed for those who have had only 2 years of High school Spanish. Does not satisfy the foreign language requirement. Preparation for Spanish 503.
Equivalent(s): SPAN 501

SPAN 500 - Selected Topics in World Literature
Credits: 4
Topics chosen that introduce students to major themes and genres. (Also offered as FREN 500, GERM 500, PORT 500, RUSS 500.) May be repeated for credit.
Attributes: Writing Intensive Course
Repeat Rule: May be repeated up to unlimited times.
Equivalent(s): CLAS 500, FREN 500, GERM 500, ITAL 500, PORT 500, RUSS 500, RUSS 500W, WLCE 500

SPAN 503 - Intermediate Spanish I
Credits: 4
Conducted in Spanish. Further development of reading, writing, speaking, and listening skills. Development of intercultural awareness through discussion and short papers in Spanish based on authentic texts from the Hispanic world. No credit toward the major; counts towards the minor in Spanish. Satisfies the foreign language requirement.
Attributes: World Cultures(Discovery)
Equivalent(s): SPAN 503H

SPAN 503H - Honors/Intermediate Spanish I
Credits: 4
Conducted in Spanish. Further development of reading, writing, speaking, and listening skills. Development of intercultural awareness through discussion and short papers in Spanish based on authentic texts from the Hispanic world. No credit toward the major; counts towards the minor in Spanish. Satisfies the foreign language requirement.
Attributes: World Cultures(Discovery)
Equivalent(s): SPAN 503

SPAN 504 - Intermediate Spanish II
Credits: 4
Conducted in Spanish. Further development of reading, writing, speaking, and listening skills. Development of intercultural awareness through discussion and short papers in Spanish based on authentic texts from the Hispanic world. No credit toward the major; counts towards the minor in Spanish. Satisfies the foreign language requirement.
Attributes: World Cultures(Discovery)
Equivalent(s): SPAN 504H

SPAN 504H - Honors/Intermediate Spanish II
Credits: 4
Conducted in Spanish. Further development of reading, writing, speaking, and listening skills. Development of intercultural awareness through discussion and short papers in Spanish based on authentic texts from the Hispanic world. No credit toward the major; counts towards the minor in Spanish. Satisfies the foreign language requirement.
Attributes: World Cultures(Discovery)
Equivalent(s): SPAN 504
SPAN 525 - Introduction to Spanish Cultures
Credits: 4
Historical, geographical, and artistic expressions of Spanish cultures that have formed the character of contemporary Spanish culture. Majors may take either SPAN 525 or SPAN 526 or another English language course with advisor approval, but only one can be counted for major credit.
Attributes: World Cultures(Discovery)
Equivalent(s): SPAN 525H, WLCE 525S

SPAN 526 - Introduction to Latin American Cultures
Credits: 4
Significant historical, geographical, and artistic expressions of pre-Colombian and Latin American cultures. Conducted in English. Majors may take either SPAN 525 or SPAN 526, but both may not be counted for major credit.
Attributes: World Cultures(Discovery)
Equivalent(s): SPAN 526H, WLCE 526S

SPAN 535B - Professional Culture in Latin America - Case Study: Mexico and Brazil
Credits: 4
Conducted in English. No previous Spanish or Portuguese required. Conducting business with countries in Latin America with a particular emphasis on Mexico and Brazil. The course focuses on the central role played by professional culture and business practices in the global marketplace.
Attributes: World Cultures(Discovery)
Equivalent(s): LLC 535B

SPAN 595 - Practicum
Credits: 2-4
Practical use of Spanish language or cultural skills outside the classroom through special projects. Prereq: SPAN 504.
Repeat Rule: May be repeated for a maximum of 4 credits.

SPAN 631 - Advanced Conversation and Composition I
Credits: 4
Emphasis on presentational, interpersonal, written or spoken Spanish through in-class and online discussions and frequent out of class assignments based on cultural and literary readings and films. May include service learning option. Prereq: SPAN 504 or equivalent. Satisfies the foreign language requirement. Required for Spanish major and minor.
Attributes: World Cultures(Discovery); Writing Intensive Course
Equivalent(s): SPAN 631H

SPAN 631H - Honors/Advanced Conversation and Composition I
Credits: 4
Emphasis on presentational, interpersonal, written or spoken Spanish through in-class and online discussions and frequent out of class assignments based on cultural and literary readings and films. May include service learning option. Prereq: SPAN 504 or equivalent. Satisfies the foreign language requirement.
Attributes: World Cultures(Discovery); Writing Intensive Course
Equivalent(s): SPAN 631

SPAN 632 - Advanced Conversation and Composition II
Credits: 4
Emphasis on presentational, interpersonal, written or spoken Spanish through in-class and online discussions and frequent out of class assignments based on cultural and literary readings and films. May include service learning option. Satisfies the foreign language requirement.
Attributes: World Cultures(Discovery); Writing Intensive Course
Equivalent(s): SPAN 632H

SPAN 632H - Honors/Advanced Conversation and Composition II
Credits: 4
Emphasis on presentational, interpersonal, written or spoken Spanish through in-class and online discussions and frequent out of class assignments based on cultural and literary readings and films. May include service learning option. Satisfies the foreign language requirement.
Attributes: World Cultures(Discovery); Writing Intensive Course
Equivalent(s): SPAN 632

SPAN 641 - Spanish Phonetics
Credits: 4
Practical application of fundamental phonetic theory to spoken Spanish. Development of listening skills at the advanced level, and introduction of dialects and linguistic variation in the Spanish-speaking world. Conducted in Spanish. Prereq: SPAN 631 and/or SPAN 632.
Equivalent(s): SPAN 601

SPAN 645 - Intro to Spanish Linguistics
Credits: 4
Establishes the basis for future application of linguistic principles. Explores different areas of linguistics including morphology, word formation and verbal inflection. Issues in syntax and semantics are analyzed both in isolation and in terms of their relationship to each other. Students will be equipped with the skills necessary to apply these linguistic concepts to actual Spanish language data and to achieve a better understanding of the structures governing the language they are studying. Conducted in Spanish. Prereq: SPAN 631 and/or SPAN 632 (or equivalent).

SPAN 647 - Hispanic Cultural Studies
Credits: 4
Contemporary approaches to the study of Hispanic cultural practices and perspectives that examine the intersections of politics, art, religion and the forces of globalization with the aim of further development of intercultural competence. Conducted in Spanish. Prereq: SPAN 631 or SPAN 632 (or equivalent).

SPAN 648 - The Hispanic World Today
Credits: 4
This course focuses on researching and discussing contemporary issues in Spain and/or Latin America while improving reading and oral performance. Primary sources include newspapers, resources from the internet, and/or archival materials. Prereq: SPAN 631 or SPAN 631 (or equivalent).
Equivalent(s): SPAN 691, SPAN 692

SPAN 650 - Hispanic Literature and Popular Culture
Credits: 4
The study of literary texts and popular literary art forms. Prereq: SPAN 621 and/or SPAN 632 (or equivalent).
Attributes: Writing Intensive Course

SPAN 651 - Introduction to Spanish Literature and Thought
Credits: 4
Reading and analysis of major works within the historical, cultural, and social background of the Iberian peninsula. Emphasis on works from medieval to Golden Age Spain. Conducted in Spanish. Prereq: SPAN 631 and/or SPAN 632 (or equivalent).
Attributes: Humanities(Disc); Writing Intensive Course
SPAN 652 - Introduction to Spanish Literature and Thought
Credits: 4
Reading and analysis of major works within the historical, cultural, and social background of the Iberian peninsula. Emphasis on works from 19th century to contemporary works in Spain. Conducted in Spanish. Prereq: SPAN 631 and/or SPAN 632 (or equivalent).
Attributes: Humanities(Disc); Writing Intensive Course

SPAN 653 - Introduction to Latin American Literature and Thought
Credits: 4
Reading and analysis of thematic focus on historical, cultural, and social backgrounds of Precolombian, colonial, and modern cultures in Latin America. Conducted in Spanish. Prereq: SPAN 631 and/or SPAN 632 (or equivalent).
Attributes: Humanities(Disc); Writing Intensive Course

SPAN 654 - Introduction to Latin American Literature and Thought
Credits: 4
Reading and analysis of major works within the historical, cultural, and social background of Latin America. Emphasis on works in the 20th-21st century. Conducted in Spanish. Prereq: SPAN 631 and/or SPAN 632 (or equivalent).
Attributes: Humanities(Disc); Writing Intensive Course

SPAN 683 - Summer Study in Costa Rica
Credits: 8
Studies in San Joaquin de Flores, Costa Rica. Six week summer immersion program for undergraduate students. Prereq: a minimum of 32 credit hours with an overall GPA of 2.5. Interested students should contact the program director. Spanish majors only. Special fee. Cr/F.
Co-requisite: INCO 589

SPAN 685 - Study Abroad/Granada
Credits: 16
Studies at a Spanish or Latin American university. Prereq: primarily for juniors and seniors who have passed SPAN 503-504 or equivalent with a grade of B (3.00) or better. Noncredit orientation meetings required during semester prior to departure. Interested students should consult with the program directors. Special fee. Cr/F. (An IA [continuous grading] grade will be assigned until official transcript is received from the foreign institution.)
Attributes: World Cultures(Discovery)

SPAN 686 - Study Abroad/Granada
Credits: 20
Studies in Granada, Spain. Prereq: primarily for juniors and seniors who have passed SPAN 503-SPAN 504 or equivalent with a grade of B (3.00) or better. Noncredit orientation meetings required during semester prior to departure. Interested students should consult with the program directors. Special fee. Cr/F. (An IA [continuous grading] grade will be assigned until official transcript is received from the foreign institution.)
Co-requisite: INCO 588
Attributes: World Cultures(Discovery)

SPAN 790 - Topics in Second Language Acquisition/Pedagogy/Methodology
Credits: 4
A) Introduction to Second Language Acquisition, B) Internet Technologies and Second Language Learning. Prereq: permission of instructor. May be taken more than once if no duplication of content.
Repeat Rule: May be repeated up to unlimited times.

SPAN 791 - Methods of Foreign Language Teaching
Credits: 4
Objectives, methods and techniques in teaching foreign languages from elementary grades through college. Discussion, demonstration, preparation of instructional materials, micro-teaching of the language skills, including developments in computer-aided instruction.
Equivalent(s): LLC 791

SPAN 795 - Independent Study
Credits: 1-4
Guided individual study with training in bibliography and organization of materials. Topics selected by instructor and student in conference. Barring duplication of content, may be repeated for credit. Prereq: permission of instructor.
Repeat Rule: May be repeated up to unlimited times.
Equivalent(s): SPAN 797

SPAN 797 - Topics in Hispanic Literary and Cultural Studies
Credits: 4
A) Medieval Spanish Literature, B) Spanish Literature of the Renaissance and the Golden Age, C) Spanish Literature of the 18th and 19th Centuries, D) Contemporary Spanish Literature, E) Contemporary Spanish Literature, F) Spanish Cultural Studies, G) Latin American Literature of the 16th and 17th Centuries, H) Latin American Literature of the 18th and 19th Centuries, I) 20th Century Latin American Literature (Poetry/Theater/Prose), J) Contemporary Latin American Literature, K) Cyberliterature and Cyberculture, L) Transatlantic Studies, M) Spanish and Latin American Philosophy and Essay, N) Indigenous Cultural Expression of the Americas, O) Hispanic Film Studies, P) U.S. Hispanic Cultural Studies, Q) Latin American Cultural Studies, R) Senior Seminar, S) Other. Prereq: permission of instructor. May be taken more than once for credit if no duplication of content. Any course in this category can be counted as your major discover capstone. Consult with your advisor.
Attributes: Writing Intensive Course
Repeat Rule: May be repeated up to 2 times.
Equivalent(s): SPAN 799

SPAN 798 - Topics in Hispanic Linguistics and Cultural Studies
Credits: 4
A) History of the Spanish Language, B) Study of Spanish Mood and Aspect, C) Sociolinguistics of Spanish, D) Discourse Analysis, E) Politeness and Pragmatics, F) Bilingualism and Spanish in the U.S., G) Spanish Pronouns, Agreement and Modifiers, H) Regional and Social Variation in Spanish Phonetics, I) Other. Prereq: permission of instructor. May be taken more than once for credit if no duplication of content. Any course in this category can be counted as your major discovery capstone. Consult with your advisor.
Repeat Rule: May be repeated up to unlimited times.
Equivalent(s): SPAN 796

SPAN 799 - Senior Honors
Credits: 4
For senior Spanish majors with a minimum cumulative grade-point average of 3.40 and the same or better average in the major who want to undertake a special honors project in an area of Spanish language or literature of their choice. Prereq: permission of advisor and departmental approval necessary.

Sport Studies (SPST)
# Course numbers with the # symbol included (e.g. #400) have not been taught in the last 3 years.
SPST 521 - Theory of Coaching Basketball
Credits: 2
Individual and team offense and defense; rules of the game. Problems in team handling and conditioning. Permission. Pre- or Co-req: SPST 565.
Equivalent(s): KIN 521

SPST 522 - Theory of Coaching Football
Credits: 2
Systems of play; team and individual offensive and defensive fundamentals; theory and strategy of team play; coaching methods, physical conditioning; rules. Pre- or Co-req: SPST 565.
Equivalent(s): KIN 522

SPST 523 - Theory of Coaching Ice Hockey
Credits: 2
Basic hockey skills. Fundamentals of individual and team offense and defense; coaching methods; rules. Prereq: student must have basic skating skills prior to taking course. Special fee. Pre- or Co-req: SPST 565.
Equivalent(s): KIN 523

SPST 525 - Theory of Coaching Soccer
Credits: 2
Fundamental and advanced skills and techniques; offensive and defensive principles of team play; tactical formations and strategy; methods of training and practicing; rules. Pre- or Co-req: SPST 565.
Equivalent(s): KIN 525

SPST 528 - Theory of Coaching Track and Field
Credits: 2
Starting, sprinting, middle-distance and distance running, relay, hurdling, high and broad jumping, pole vault, shot putting, discus, hammer, and javelin. Methods of training and practicing. Pre- or Co-req: SPST 565.
Equivalent(s): KIN 528

SPST 560 - Sport Psychology
Credits: 4
Introduction to the discipline of sport psychology. Explores behavioral, cognitive, and social psychology in relation to elite, collegiate, and high school athletes, as well as recreational sport participants.
Equivalent(s): KIN 560

SPST 561 - History of American Sport and Physical Culture
Credits: 4
Major individuals, organizations, and trends that influenced the development of an American industry in sports, active recreation, and physical fitness. Readings, discussions, and research projects provide experience in the craft and utility of history.
Attributes: Historical Perspectives(Disc)
Equivalent(s): KIN 561, KIN 561W, SPST 561W

SPST 561W - History of American Sport and Physical Culture
Credits: 4
Major individuals, organizations, and trends that influenced the development of an American industry in sports, active recreation, and physical fitness. Readings, discussions, and research projects provide experience in the craft and utility of history.
Attributes: Historical Perspectives(Disc); Writing Intensive Course
Equivalent(s): KIN 561, KIN 561W, SPST 561

SPST 562 - Sport Media Relations
Credits: 4
A survey of basic concepts of sports media relations for students considering careers in school or college sports coaching or administration, media or related fields. The focus is on developing necessary skills, techniques and recommended media relations practices as well as social implications of the media in sports public relations including print, radio, television, the World Wide Web, and social media.
Equivalent(s): KIN 562

SPST 565 - Principles of Coaching
Credits: 4
Overviews current theory and practice in coaching education, including sport pedagogy, physiology, psychology, administration, and risk management. Issues of performance and competition specific to child, youth, and collegiate coaching are addressed.
Equivalent(s): KIN 565

SPST 580 - Sport Industry
Credits: 4
Overviews the various segments that make up the sport industry, including governing bodies, the mass media, sporting goods firms, players' and coaches' associations, public regulatory agencies, and secondary and higher education. Readings and discussions consider the development and structure of each segment, interaction between segments, legal issues, and policy implications. While the course will focus on the United States, there is some comparison to other countries.
Equivalent(s): KIN 580

SPST 630 - Sport Facility and Event Management
Credits: 4
Students learn the principles and processes involved in effective sport facility and event management. In terms of facilities, students explore the concepts of facility design, planning, systems, risk management, marketing, and ownership. In terms of events, students explore the concepts of creation, impact(s) on host communities, marketing/ sponsorship, and the potential positive and negative outcomes of sport events. Special fee.
Equivalent(s): KIN 630

SPST 631 - Sport Media Production
Credits: 4
Sport media professionals are expected to write their own scripts, produce their own content, and distribute that content on multiple digital platforms. Sport Media Production is designed to combine media management with production work in digital media, video, podcasting and website design. This course examines many of the current distribution platforms (Twitter, Facebook, Youtube, blogs, mobile applications) and the tools to create media for these outlets. In this course, students will create media using Adobe Creative Cloud and current video-editing systems. Prereq: SPST 562 or by approval.

SPST 643 - Social Media Marketing in Sport
Credits: 4
Students examine the use of social media as a tool in the marketing of sport and sport-related products. They are expected to effectively analyze and prescribe different ways in which social media can enhance the marketing profile of such products upon course completion. Student work should facilitate a deep understanding of social media in its constituent forms as they apply to sport and students should be able to examine such use critically.
Equivalent(s): KIN 643
SPST 650C - Internship in Sport Studies  
Credits: 1-8  
Experiential learning in a setting appropriate to the major option and to student's objectives. An 8 credit internship requires a minimum of 600 hours experience; fewer credits will require proportionally fewer hours. Sport Studies: May be on- or off-campus with an approved organization. Student must participate in securing the internship. A journal, bi-weekly reports, and a final paper required. Prereq: junior/senior major; permission. May be repeated, with no more than 8 credits taken in any given semester. 
Repeat Rule: May be repeated for a maximum of 12 credits.  
Equivalent(s): KIN 650C 

SPST 650D - Internship in Coaching  
Credits: 2-4  
Experiential learning in a setting appropriate to student's learning objectives in coaching. May be on- or off-campus with an approved organization. Student must participate in securing the assistantship. A journal, bi-weekly reports, and final report required. Prereq: SPST 565. (IA continuous grading).  
Repeat Rule: May be repeated for a maximum of 12 credits.  
Equivalent(s): KIN 650D 

SPST 693 - Teaching Assistantship  
Credits: 2  
A) Physical Education Pedagogy; B) Exercise Leader; C) Outdoor Education; D) Science Labs; E) Cardiac Rehabilitation; F) Coaching. Students serve as teaching assistant in assigned class activities. Assignments to be made by the class instructor may include teaching assistants’ and administrative duties. May take two different sections. Prereq: junior standing; departmental approval. Cr/F.  
Repeat Rule: May be repeated for a maximum of 4 credits. 

SPST 696 - Independent Study  
Credits: 2-4  
An advanced, individual scholarly project under the direct supervision of a faculty member. Prereq: junior or senior; departmental approval. Special fee.  
Repeat Rule: May be repeated for a maximum of 8 credits. 

SPST 696W - Independent Study  
Credits: 2-4  
An advanced, writing-intensive, individual scholarly project under the direct supervision of a faculty member. Student and Faculty Adviser will prepare a written proposal that outlines: the questions to be pursued, the methods of investigation, the student's qualifications to conduct the research, the nature of the finished written product (e.g. case study, position paper, extended lab report). This proposal must be approved by the major faculty and the department chair prior to the student's registration for SPST 696 WI. All SPST 696 WI projects must include: Some forms of informal, ungraded writing such as a journal, reading summaries, draft chapters, or invention activities. Regular writing interaction between student and faculty adviser (i.e. at least weekly or biweekly), to include written feedback from the adviser. A finished product that is polished via revision. Faculty sponsors and students should consult the resources and guidelines of the UNH Writing Program. Prereq: junior or senior; departmental approval. 
Attributes: Writing Intensive Course  
Repeat Rule: May be repeated for a maximum of 8 credits. 

SPST 699H - Honors Project  
Credits: 4  
Project first involves tutorial sessions to introduce the student to the experimental design, after which a research question is developed. After an appropriate literature review, the student collects and analyzes data, forms conclusions, and prepares a written report on the findings. 

SPST 740 - Athletic Administration  
Credits: 4  
Introduces basic management components and processes used in the successful administration of school and college athletic programs. Topics include planning, organizing, and managing sports programs, personnel, and policies; game scheduling; finances and facilities; equipment and event management; student support services; and key legal issues.  
Equivalent(s): KIN 740 

SPST 741 - Social Issues in Contemporary Sport  
Credits: 4  
Investigation of interrelationships among sport, culture, and society in an attempt to understand the role and function of sport in contemporary society. Overview of selected socio-cultural factors that influence and result from participation in sports. 
Equivalent(s): KIN 741 

SPST 743 - Sport Marketing  
Credits: 4  
Survey of concepts and processes used in the successful marketing of sport programs and events. Special emphasis on the unique or unusual aspects of sport products, markets, and consumers. Prereq: MKTG 550 or permission. 
Equivalent(s): KIN 743 

SPST 761 - Senior Seminar in Sport Studies  
Credits: 4  
Discussions of sport studies topics, such as gambling, aggression, media, gender, race, class. Students consider different disciplinary approaches to these topics and develop projects to advance knowledge related to their interests. Prereq: Sport Studies majors; students must accumulate an aggregate total of 150 hours of work (paid or unpaid) in four approved sport organizations before they are allowed to register for SPST 761. 
Attributes: Writing Intensive Course 
Equivalent(s): KIN 761 

SPST 765 - Advanced Topics in Coaching  
Credits: 4  
This course goes beyond the basic principles of coaching and addresses advanced topics in coaching (talent identification, talent development) from both the science and the art of coaching technique and strategies. This course is structured as an upper division course in Sport Studies. Content includes topics related to the development of the field of coaching. The class makes extensive use of case studies and analysis of practical coaching situations for the betterment of coach development. This course combines lecture, small group discussion and practical application of material. Prereq: SPST 565. 
Equivalent(s): KIN 765 

SPST 780 - Psychological Factors in Sport  
Credits: 4  
Factors of outstanding athletic achievement; psychological variables in competition; the actions and interactions of sport, spectator, and athlete. Special attention directed to strategies for coaches, teachers, and athletic trainers to utilize sport psychology in their professional practice. Prereq: PSYC 401. 
Equivalent(s): KIN 780
Sustainability (SUST)

Course numbers with the # symbol included (e.g. #400) have not been taught in the last 3 years.

SUST 401 - Surveying Sustainability
Credits: 4
This interdisciplinary and transdisciplinary course explores the history of sustainability and the varied and changing meanings of the concept. It focuses on the principles and challenges of sustainability in support of the long-term welfare of humans and the earth system. Students discuss and debate a set of global grand challenges, their local and national ramifications, and how to connect knowledge to action. Sustainability is explored through case studies, experiential learning, individual research and team projects.

SUST 401A - Surveying Sustainability Lab
Credits: 2
This course explores the history of sustainability and the varied and changing meanings of the concept. It focuses on the principles of sustainability in support of the long-term welfare of humans and the earth system. Students discuss and debate a set of global grand challenges, their local and national ramifications, and how to connect knowledge to action. To count towards the SDM, it must be followed by SUST 401B at Shoals Marine Lab.
Co-requisite: SUST 401B

SUST 401B - Surveying Sustainability Lab
Credits: 2
This week long intensive course takes place at the Shoals Marine Laboratory, and must be preceded by SUST 401A. This course is focused on using the Isles of Shoals archipelago as a case study of the ecological, economic, and social aspects of sustainability, as explored through a systems framework.

SUST 501 - Sustainability Perspectives and Methods
Credits: 4
Sustainability Perspectives and Methods will explore the multiple ways in which we measure, assess and use concepts of sustainability. We begin by establishing the cross-cutting perspectives and methods that run throughout sustainability science including transdisciplinarity, systems thinking, stakeholder-driven research, and solutions-based projects. The course builds on this foundational knowledge to delve more deeply into sustainability challenges as examined through specific perspectives including the humanities, social sciences, and natural sciences. Prereq: SUST 401.
Attributes: Writing Intensive Course

SUST 600 - Sustainability Independent Study
Credits: 1-4
SUST 600 will provide an independent study to students who are interested in studying of a topic in sustainability in depth. Due to the highly personalized nature of SUST 600, the specific readings, activities and assignments will vary based on student interests and disciplinary backgrounds. At a minimum, students will be guided in how to prepare a project proposal, place their work within the current literature on the topic, and complete a final project. Prereq: SUST 401. Permission required.
Repeat Rule: May be repeated for a maximum of 8 credits.

SUST 605 - Sustainability Internship
Credits: 1-4
SUST 605 will provide credit for practical work or a project experience in sustainability. The purpose of SUST 605 is to gain practical experience working in a sustainability field while simultaneously achieving specific learning goals pre-identified by the student and faculty mentor. Prereq: SUST 401. Permission required.
Repeat Rule: May be repeated for a maximum of 8 credits.

SUST 750 - Sustainability Capstone
Credits: 4
The Sustainability Capstone is the culminating experience in a series of three core courses for the Sustainability Dual Major. The objective of SUST 750 is to synthesize the knowledge obtained in other core and elective courses taken for the Sustainability Dual Major and apply it to a project. In doing so, students will explore areas of interest, reflect on undergraduate learning experiences, and experience the interdisciplinary aspects of sustainability issues. Prereq: SUST 401, SUST 501. Permission required. Writing intensive.
Attributes: Writing Intensive Course

Sustainable Agriculture & Food Systems (SAFS)

Course numbers with the # symbol included (e.g. #400) have not been taught in the last 3 years.

SAFS 405 - Sustainable Agriculture and Food Production
Credits: 4
This course introduces the fundamental concepts that define sustainable and organic agriculture. We will explore the scientific and biological principles that underlie sustainable and organic farming techniques and methods, and each student will explore research-based evidence surrounding the sustainability of different practices within the agricultural and food system. We will study the environmental, social and economic impacts of different food production systems, with an emphasis on systems common in the U.S. Finally, we will look at the role each of us has in influencing how food is grown, either as producer or as a consumer.
Attributes: Environment,TechSociety(Disc)
Equivalent(s): PBIO 405

SAFS 410 - A Taste of the Tropics
Credits: 4
This course will expose students to the exciting world of tropical agriculture and the ways that people in the tropics utilize a diverse array of food crops. Our lives as consumers in the developed world are touched by tropical products every single day. Whether it’s the cinnamon in your tea, the vanilla in your cookies, the black pepper on your salad, or your cup of hot coffee, you likely consume tropical crops whether you know it or not. Ever stop to wonder where these items are from and how they are produced? We will examine agriculture and food culture throughout the tropical world’s four principle areas: Latin America, Tropical Asia, Tropical Africa, and the South Pacific. Production systems ranging from large scale modern high input operations to home subsistence gardens are explored. Tropical crops are examined in five major groups: grains and legumes, starchy roots, exotic vegetables, tropical fruit, and herbs, spices, medicinal plants. Cultural uses of these crops throughout the tropical world are given special emphasis.
Attributes: World Cultures(Discovery)
SAFS 415 - Introduction to Brewing Art and Science
Credits: 4
Introduction to the scientific foundations of beer brewing. Topics covered will include beer styles; ingredient sourcing; industrial production from nano to macro scale; current trends and topics; quality control; safety and sustainability.

SAFS 421 - Introductory Horticulture
Credits: 4
This course will introduce the disciplines of plant science and horticulture. Students will learn the fundamentals of plant structure and function, and how cells, tissues, organs and whole plants develop and function. Students will then explore how environmental factors affect growth and development, and how humans manipulate them to produce horticultural crops: fruits, vegetables, flowers and landscape plants. Labs are designed to emphasize and reinforce the principles covered in lecture and will give students a hands-on introduction to horticulture. Special Fee. Lab.
Attributes: Biological Science(Discovery); Discovery Lab Course
Equivalent(s): PLSC 421

SAFS 502 - Agroecology
Credits: 4
This course introduces students to the discipline and practice of agroecology, with an emphasis on relevant ecological theory within the context of production agriculture. Students are exposed to key ecological principles from population, community, and ecosystem ecology and agronomy. Students learn about the history and consequences of industrial agricultural systems and the need for more sustainable management practices that consider ecological interactions.

SAFS 510 - Agriculture and Development in the Neotropics
Credits: 4
Course is designed as a three week immersion into tropical agriculture and Costa Rica's ecology and culture. Agriculture plays a pivotal role in Costa Rica's history and in shaping current events. Production of horticultural and agronomic crops occurs on a variety of scales ranging from large export based systems, to mid-sized operations for domestic sales, and sustenance based home gardens. Examples of all systems are visited and discussions focus on their overall sustainability. Sustainability is a broad concept and requires consideration of socio-cultural, environmental, and economic factors. Agriculture and agricultural products infuse the culture as seen by large participation in farmers markets and appreciation for a wide variety of fruits and vegetables prepared in myriad of ways. An appreciation for nature also infuses the culture and is embodied by the country's extensive system of national parks and protected reserves along with the national philosophy of 'Pura Vida'. Special fee.
Attributes: World Cultures(Discovery)

SAFS 515 - Technical Brewing
Credits: 4
Technical brewing will focus on learning skills needed in the brewing industry. This hands-on class will focus on sensory, the brewing process, quality control, safety, and sanitation in the brew house. Must be 21 to enroll in the course. Prereq: SAFS 415. Special fee.

SAFS 517 - Advanced Aspects of Brewing
Credits: 4
In Advanced Aspects of Brewing, we will examine five specific aspects of the brewing industry: microbiology, waste products, sustainability, engineering, and analytical chemistry. We will utilize the UNH brewery to make a series of unique products that will serve as the testing basis for each module. Prereq: SAFS 415.

SAFS 500 - Field Experience
Credits: 0
As part of their degree program, students are expected to engage in a work experience or internship under professional supervision and approved by sustainable agriculture faculty. Provides the opportunity to apply academic knowledge in settings associated with future professional employment and/or related graduate opportunities. Must be approved by a faculty advisor selected by the student. Permission required. Cr/F.
Equivalent(s): SAFS 600W

SAFS 601 - Fruit Crop Production
Credits: 4
This course explores the origin, distribution, botany, and cultural practices of fruit crops. Fruit crops represent an important component of both our dietary needs and many agricultural production systems. Emphasis is given to temperate fruit crops suitable for New England growing conditions. Other topics explored include integrating fruit crops into landscapes, organic and conventional cultural practices, and post-harvesting handling. Prereq: SAFS 421 or permission.

SAFS 632 - Urban Agriculture
Credits: 4
Urban agricultural systems play an important role in local food production. Production systems range from community gardens to completely controlled production environments. Urban farmers face unique challenges developing sustainable business models due to high land costs, waste management, post-harvest storage, and limited technical experience. This course provides a practical, hands-on understanding of urban agricultural production systems. Emphasis is placed on controlled environmental agriculture from an urban farmer's perspective through classroom discussion and production systems operation.

SAFS #642 - Team Experience in Agroecosystems Management (TEAM - Organic)
Credits: 4
TEAM - Organic is a 2-semester experiential course where students are actively engaged in the operation of the COLSA/NHAES Organic Dairy Research Farm. Building on principles of agro-ecology and sustainable agriculture, students explore and practice the environmental, economic, social and production strategies needed for organic food production. Organic dairy farming methods and best practices are presented and applied. The organic food chain is addressed along with marketing and value-added strategies for organic dairy products. Instruction permission. Two semesters of SAFS #642 are required.
Repeat Rule: May be repeated for a maximum of 8 credits.

SAFS 651 - Plant Pathology
Credits: 4
Plant pathology explores the nature, impact and management of plant diseases. Topics covered include organisms and environmental causes of plant diseases and disorders, how plant pathogens interact with host plants and the environment to cause disease, types of diseases, disease development and spread, the human environmental costs of plant diseases, diagnosis, and prevention and management. Students learn to diagnose diseases and disorders through the recognition of symptoms and signs. Laboratory exercises explore the casual agents of plant diseases, symptom and signs, and diagnosis. Prereq: BIOL 409 or SAFS 421, or instructor permission. Lab.
Equivalent(s): BOT 651, PBIO 651
SAFS 670 - Systems Thinking: Land Use Capability and Sustainability
Credits: 4
This course establishes a conceptual framework in systems thinking to critically examine New Zealand and global examples of the challenges that have arisen between the mismatch between land use and land use capability. Students investigate downstream effects of the rural-urban divide (food-justice), on people, health, services and the environment. Food security, ethical foods, as well as the influence of climate change on food supply and the viability of agribusiness are included. Special Fee.
Co-requisite: INCO 588, SAFS 671, SAFS 672, SAFS 673

SAFS 671 - Agroecology and Sustainable Land Management
Credits: 4
Agroecology is a way of thinking and acting. Using this lens, students investigate the interface of agriculture and the natural environment. Through first-hand experiences with agribusiness, students explore enduring solutions for sustainable food systems. The emphasis will be on dimensions of agroecology that are relevant in a framework of sustainable land management; and on gaining confidence in evaluating processes and science associated with the biological an physical process in agroecosystems. Special Fee.
Co-requisite: INCO 588, SAFS 670, SAFS 672, SAFS 673

SAFS 672 - Pathways to Sustainable Agriculture and Food Systems
Credits: 4
This course empowers students to pursue knowledge and understanding of food systems around the interface of policy, practice, and science to build pathways toward technically robust, economically sound and viable solutions which enable transformation in the rural landscape. Topics include: value systems, socio-cultural benefits of re-thinking food systems at sale, carbon-forestry, carbon offsets, nutrient cap-and-trade models, (Integrated) Catchment Management and Climate Smart Agriculture. Critical thinking and risk assessment tools are integral components. Special Fee.
Co-requisite: INCO 588, SAFS 670, SAFS 671, SAFS 673

SAFS 673 - Agricultural Production and Business Practice
Credits: 4
In this experiential course students will spend time in farm or agribusiness placements. Practical, hands-on experience of the workings of agribusiness provides students with opportunities to enhance their autonomy and capacity as active learners. Students will gain transferable skills, increase competency and develop a comprehensive understanding of sustainability initiatives and practices of food systems. Students can transfer insights from classroom work to a practical setting and bring previously developed skills to a new context. Special Fee.
Co-requisite: INCO 588, SAFS 670, SAFS 671, SAFS 673

SAFS 679 - Food Production Field Experience I
Credits: 4
This is part of a two course series to be taken during spring semester. Course provides students with hands-on experience in growing food and managing a small farm business. We will be growing fresh vegetables and some fruits for the UNH Dairy Bar. Lectures, readings, and hands-on activities in part I focus on all aspects of production: propagation, crop establishment, irrigation, crop management, soil considerations, and pest and disease practices. Prereq: SAFS 405 or permission of instructor.

SAFS 680 - Food Production Field Experience II
Credits: 4
This is part of a two course series to be taken during fall semester. Course provides students with hands-on experience in growing food and managing a small farm business. We will be growing fresh vegetables and some fruits for the UNH Dairy Bar. Lectures, readings, and hands-on activities in part II focus on crop harvesting and maturity, post-harvest considerations, marketing, special event planning and execution, record keeping, and small farm business management. Prereq: SAFS 405, SAFS 679 or permission of instructor.

SAFS 689 - Greenhouse Management and Operation
Credits: 4
Course provides introduction to greenhouse construction, design, environmental control, and current trends in the industry. Fundamentals of starting a greenhouse business including safety and labor, marketing, and post-harvest considerations also covered. Efforts towards making the greenhouse industry more sustainable are explored alongside with certification options and procedures. Crops representative of current major New England crops are grown during lab. Students learn about crop selection and practices including IPM, irrigation, and fertility management. Prereq: SAFS 421 or permission of the instructor. Lab. Special fee. (Offered alternate years). Writing intensive.
Attributes: Writing Intensive Course
Equivalent(s): PBIO 689

SAFS 729 - Agricultural Waste Management
Credits: 4
The management of agricultural wastes is crucial in the development of sustainable agricultural practices. This course covers principles of managing, handling, treating, and applying animal manures and organic byproducts from an agricultural system perspective. Topics include waste characterization, descriptions of systems and technology, utilization of wastes as resources (land application, composting electricity generation, fertilization, etc.), land application principles, preparations of waste management plans, and potential impacts to the environment. Prereq: SAFS 502 or permission of instructor.

SAFS #731 - Sustainable Landscape Design and Management
Credits: 4
Students examine principles and trends in sustainable sites development and apply knowledge of ecological and biological systems in the design and maintenance of residential and commercial landscapes. Understanding woody plant structure and function and plant responses to environmental factors and horticultural practices are included as an integral part of sustainable landscape establishment. Each student completes a sustainable landscape renovation plan that creates an attractive human habitat and provides ecosystem services such as biodiversity and wildlife habitat, soil and water quality protection, nutrient recycling and microclimate modification. Prereq: SAFS 421.
Equivalent(s): PBIO 679
SAFS 733 - Advanced Topics in Sustainable Agriculture
Credits: 4
In this writing-intensive, capstone course, SAFS juniors and seniors engage in critical, student-led discussion of instructor-chosen and student-selected works related to food systems sustainability across scales, local to global. With these discussions as context, students pursue individual, semester-long projects to practically address a specific issue of interest. The course aims to improve critical reading, writing, discussion, and presentation skills; build cohort cohesiveness; and challenge students’ beliefs and working assumptions about agriculture and food systems sustainability. Pre- or Coreq: Must be SAFS junior or senior, or by permission. Writing intensive.
Attributes: Writing Intensive Course

SAFS 740 - Aquaponics
Credits: 4
Aquaponics integrates aquaculture and hydroponic systems producing fish and plants. The integration of these systems first requires an understanding of the needs for each system. The experiential course will dive into the concept of turning wastes into resources with hands-on growing and management experience in aquaponic food production systems. We will cover the fundamentals, and challenges of integrating recirculating aquaculture and hydroponic systems. Students are required to sign up for one farm day per week.

SAFS 760 - Insect Pest Management
Credits: 4
Students learn the principles of integrated pest management, as they apply to insects (and some other arthropods). Additionally, they learn to recognize the major orders of insects, and some insect families that are important as natural enemies of pests. Course incorporates a significant amount of writing, plus learning to search the scientific literature. Prereq: BIOL 411 and BIOL 412 or equivalent. Writing intensive.
Attributes: Writing Intensive Course
Equivalent(s): PBIO 760

SAFS 795 - Investigations
Credits: 1-4
With faculty guidance, students work on individual projects related to sustainable agriculture and food systems. Permission required.
Repeat Rule: May be repeated for a maximum of 8 credits.
Equivalent(s): SAFS 795W

SAFS 795W - Investigations
Credits: 1-4
With faculty guidance, students work on individual projects related to sustainable agriculture and food systems. Permission required.
Attributes: Writing Intensive Course
Repeat Rule: May be repeated for a maximum of 8 credits.
Equivalent(s): SAFS 795

SAFS 799 - Honors Senior Thesis
Credits: 1-4
Independent research requiring a written proposal, thesis, and presentation of research results to an audience of faculty and/or students. Intended for students completing SAFS Honors-in-Major requirements. Contact SAFS Program coordinator prior to senior year to arrange supervision and obtain permission. Two-semester sequence; students typically register for 5 credits over two semesters. IA grade (continuous course) given at end of first semester. Writing intensive.
Attributes: Writing Intensive Course
Repeat Rule: May be repeated for a maximum of 8 credits.

Technology (TECH)

# Course numbers with the # symbol included (e.g. #400) have not been taught in the last 3 years.

TECH 400 - Introduction to CEPS Programs
Credits: 1
An overview of programs offered by the College of Engineering and Physical Sciences with an emphasis on skills needed to be successful academically, career opportunities and professional development. Required course of all undeclared majors in CEPS. Cr/F.

TECH 401 - Scientific Research Exploration
Credits: 2
This course introduces incoming freshmen to the scientific research process via a hands-on approach, which includes case studies, group work, and a two-week immersion experience under the guidance of the College of Engineering and Physical Sciences (CEPS) faculty. Course readings, discussions, and active participation in local research will facilitate the student’s exploration of experimental design, hypothesis testing, data collection and analysis, interpretation of results, and effective communication of research findings. In the context of a group research project, students begin thinking like scientists, as well as strengthening their math, writing, an oral communication skills. Prereq: permission. Open to incoming freshmen only.

TECH 411 - Innovation Scholars I
Credits: 2
A cohort-based research experience for first year students. Students, acting as a cohort, will undertake research projects under the direction of faculty members in CEPS. The two-semester research project will be supplemented by a weekly cohort meeting/seminar program, which will be used to organize research activity and present topics relevant to professional development of scientists and engineers. Activities will conclude with a research presentation at the completion of the second semester.

TECH 412 - Innovation Scholars II
Credits: 2
A cohort-based research experience for first year students. Students, acting as a cohort, will undertake research projects under the direction of faculty members in CEPS. The two semester research project will be supplemented by a weekly cohort meeting/seminar program, which will be used to organize research activity and present topics relevant to professional development of scientists and engineers. Activities will conclude with a research presentation at the completion of the second semester.

TECH 500 - Integrated CEPS Seminar I
Credits: 2
The seminar course is intended for students transferring to CEPS. The course focuses on building an interdisciplinary community among students; introducing the STEM disciplines as fields of study and professions, discussing the nature of scientific knowledge and ethics; learning how to learn, and engaging with CEPS student organizations, and with other campus academic support structures. Students are evaluated on their participation in class activities, written assignments, presentations, and posting/commenting to/on topical online blogs, which promote out-of-class discussion. Permission required. Cr/F.
TECH 501 - Integrated CEPS Seminar II
Credits: 1
The seminar course is intended for students transferring to CEPS. The course focuses on building an interdisciplinary community among students, advancing topics from TECH 500, and professional development via engagement in undergraduate research and career development activities. Students are required to be simultaneously involved in a research project with a faculty member of their choosing. Students are evaluated on their participation in class activities, written assignments, presentations, and posting/commenting to/on topical online blogs, which promote out-of-class discussion. Permission required. Cr/F.

TECH 601 - Fundamentals Examination Review
Credits: 1
A ten-week review course for those interested in taking the fundamentals examination to be certified as an engineer-in-training (EIT). Cr/F.

TECH 602 - Machine Shop Training
Credits: 1
In this course, the operation of the basic metal-cutting machine tools (e.g., engine lathe, milling machine, drill press, band saw, cut-off saw, etc.) are demonstrated. The students receive introductory training on the safe operation of these machines as well as on safe practices in the machine shop. Two small projects are completed to demonstrate basic machine shop abilities by the end of the course. Prereq: no course prerequisites, but students must successfully complete an online shop safety quiz prior to the first day of the course. Offered spring and fall semesters only. Special fee. Cr/F.
Equivalent(s): TECH 602A

TECH 602A - Machine Shop Training
Credits: 1
In this course, the operation of the basic metal-cutting machine tools (e.g., engine lathe, milling machine, drill press, band saw, cut-off saw, etc.) are demonstrated. The students receive introductory training on the safe operation of these machines as well as on safe practices in the machine shop. Two small projects are completed to demonstrate basic machine shop abilities by the end of the course. Prereq: no course prerequisites, but students must successfully complete an online shop safety quiz prior to the first day of the course. Offered January term and summer session only. Special fee. Tuition waived. Cr/F.
Equivalent(s): TECH 602

TECH #685 - Budapest Program
Credits: 16
Enables students to pursue a semester of study at the Technical University of Budapest. For information, contact the Dean's Office, College of Engineering and Physical Sciences. Prereq: CEPS students only. Special fee. Cr/F.
Co-requisite: INCO 588
Attributes: World Cultures(Discovery)

TECH 696 - Independent Study
Credits: 1-4
Open to all qualified students pursuing studies that do not fall within existing departmental areas. Special fee when the topic is chemistry for engineers.

TECH 697 - CEPS Industrial Experience
Credits: 1
Students in the CEPS Industrial Experience must register for TECH 697 during each semester (fall and/or spring) in which they are participating in their industrial work experience. Student in the minor must get permission from the minor advisor in order to register for this course. Repeat Rule: May be repeated for a maximum of 2 credits.
Equivalent(s): TECH 797

TECH 750 - Intellectual Asset Management for Engineers and Scientists
Credits: 4
This course provides an introduction to the most important topic in the 21st century—intellectual assets. Students will receive an overview in practical, real-world aspects of managing intellectual assets (copyright, patents, trademarks, trade secrets, etc.). Students taking this course will be exposed to lectures, guest presentations, and case studies aimed at increasing their understanding of intellectual property strategies and related legal issues; technology assessment; technology valuation; licensing issues, strategies and negotiation techniques; business planning and start-up company development; and strategies for attracting investment for new ideas. The instructors and guest speakers for the course are involved in managing, protecting, investing in, or commercializing intellectual property assets in real world settings such as university technology transfer offices, patent law firms, venture capital firms, start-up companies, and related settings.

TECH 780 - Intellectual Property Law for Engineers & Scientists
Credits: 3
This course will cover the major doctrines of trade secrets, patents, copyrights, and trademarks, including what kinds of information qualify for protection, what must be done to obtain that protection, what rights owners and others have to use the information, and the underlying policy choices made by legislators and courts.

TECH 797 - Undergraduate Ocean Research Project
Credits: 2
Students work as members of interdisciplinary project teams on contemporary ocean-related problems under the guidance of a faculty adviser. Student team defines problem, prepares a budget, conducts literature surveys, engages in dialogue with experts in the community, gathers and analyzes scientific data or conducts a comprehensive study, makes interim reports, and defends the results before a jury of experts. Prereq: normally senior standing and permission of the program director. A yearlong effort: 2 credits each semester, 4 credits total, an IA (continuous course) grade given at the end of the first semester. Writing intensive.
Attributes: Writing Intensive Course
Repeat Rule: May be repeated up to 1 time.
Equivalent(s): TECH 697

Theatre & Dance (THDA)

# Course numbers with the # symbol included (e.g. #400) have not been taught in the last 3 years.
THDA 401 - Freshman Seminar
Credits: 1
This course is an introduction to being a theatre and dance major. Students will examine academic standards expected in our department as well as management skills essential for success in balancing rehearsal and practicum schedules with academic responsibilities for all classes. This course is focused on helping majors understand expectations of being a Theatre and Dance major along with ways to cope with the stress.

THDA 435 - Introduction to Theatre
Credits: 4
Introduces all aspects of theatrical production: play writing, acting, directing, design, technical theatre and construction, and theatre management. Cultural and social context of theatre in our time and through the ages. Introduces major classical and modern types of theatre. Selected plays are read and discussed, and attendance at theatrical production is required.
Attributes: FinePerformingArts(Discovery); Writing Intensive

THDA 436 - History of Theatre I
Credits: 4
The history of theatre and its drama is introduced through close study of the world's greatest plays from the Greeks through the end of the 17th century -- How these plays were performed then, how they are performed now, their political, social, and cultural urgencies. Writing intensive.
Attributes: FinePerformingArts(Discovery); Writing Intensive Course
Equivalent(s): THDA 436H, THEA 436H

THDA 436H - Honors/History of Theatre I
Credits: 4
The history of theatre and its drama is introduced through close study of the world's greatest plays from the Greeks through the end of the 17th century -- How these plays were performed then, how they are performed now, their political, social, and cultural urgencies. Writing intensive.
Attributes: FinePerformingArts(Discovery); Writing Intensive Course
Equivalent(s): THDA 436, THEA 436

THDA 438 - History of Theatre II
Credits: 4
The history of theatre and its drama is introduced through close study of the world's greatest plays of the 19th, 20th, and 21st centuries -- How these plays were performed then, how they are performed now, their political, social and cultural urgencies.
Attributes: FinePerformingArts(Discovery); Writing Intensive Course
Equivalent(s): THDA 438H, THEA 438H

THDA 438H - Honors/History of Theatre II
Credits: 4
The history of theatre and its drama is introduced through close study of the world's greatest plays of the 19th, 20th, and 21st centuries -- How these plays were performed then, how they are performed now, their political, social and cultural urgencies. Writing intensive.
Attributes: FinePerformingArts(Discovery); Writing Intensive Course
Equivalent(s): THDA 438, THEA 438, THEA 438H

THDA 439 - In Bed with the Bard: Shakespearean Seduction from Romeo and Juliet to Leonardo and Claire
Credits: 4
Introduces the imaginative process by which actors and directors bring Shakespeare's plays to life on the stage. Detailed study of eight plays.
Attributes: FinePerformingArts(Discovery)

THDA 440A - Honors/Theatre and Social Justice
Credits: 4
This course that will examine to what degree dramatic literature and theatre art has affected socio-political change in the past, and in the present, through an in-depth exploration of texts, artistic methods and theatrical techniques. Students will create theatrical art related to various sociopolitical issues. Absolutely no experience in theatre is necessary, as this course is built around the premise that we all have the ability to create art and affect politics and society.
Attributes: FinePerformingArts(Discovery)
Equivalent(s): THDA 444

THDA 441 - Exploring Musical Theatre
Credits: 4
This is an introductory course designed to enhance the student's enjoyment and understanding of musical theatre. Course content and internet exploration as well as play attendance are designed to acquaint students with and nurture an appreciation for musical theatre. This course is intended for introductory students of all majors who are interested in studying musical theatre elements, styles, and significance.
Attributes: FinePerformingArts(Discovery)
Equivalent(s): THDA 440

THDA 442 - Introduction to the Art of Acting
Credits: 4
Designed for non-THDA major students interested in the art of acting. Students broaden and deepen their own creativity, gain a deeper understanding of human behavior and interaction, and strengthen analytical skills through class work and projects. Focuses on the basic skills of acting: the ability to effectively communicate, to gain access to the full spectrum of human emotions, and increase spontaneity. Important innovators and theorists in the field of theatre and acting are covered, such as Sanford Meisner, Constantine Stanislavski, Bertolt Brecht, Jerzy Grotowsky, Agusto Boal, and Jacques Lacocq. Additional topics include contemporary plays and playwrights, an historical perspective of the art of acting, and the current state of live theatrical performance. Theatre majors not allowed.
Attributes: FinePerformingArts(Discovery)
Equivalent(s): THDA 551, THEA 551

THDA 444A - What's Old Becomes New: Threading Theatrical Themes into Societal Truths
Credits: 4
To what degree does updating theatrical themes contribute to societal norms and relevant commentary? This course will examine how enduring dramatic ideas evolve by comparing plays that are written in reaction to or as an extension of a provocative piece, both carrying on similar themes but told in updated ways. Students also will investigate the role these adaptations play in theatre history, why they are done and whether they are justified as quality art.
Attributes: FinePerformingArts(Discovery); Inquiry (Discovery)

THDA 444B - Famous Dancers of the 20th Century
Credits: 4
The purpose of this course is to provide an introduction to the dancers of the twentieth century whose contributions to the art form have made dance an important cultural necessity. This includes examining how their style of dance and unique personalities has had a major influence on our perceptions of dance and how they have had an effect on society. Writing intensive.
Attributes: FinePerformingArts(Discovery); Inquiry (Discovery); Writing Intensive Course

</table>
THDA 522 - Storytelling, Story Theatre, and Involvement Dramatics
Credits: 4
This course actively explores storytelling techniques based on individual needs. An examination of story theatre and involvement styles leads to practical experience in individual performances. Participants will actively develop performance techniques that reflect a variety of styles and approaches for storytelling. We will examine the historical significance of storytelling in Eastern and Western civilizations and develop a perspective on its role in culture and religion. Applications for both educational and entertainment purposes will be explored through acting and vocal techniques, games, media, felt board, and puppetry. This course will include an examination of story theatre and involvement styles and the development of the ensemble for performance. The projects will include individual performances and group collaboration of selected stories appropriate for a wide range of audiences. The final project will reflect the participant's individual needs and utilize storytelling techniques developed in the course. Special fee.
Attributes: FinePerformingArts(Discovery)
Equivalent(s): THCO 589
THDA 531 - The London Experience: Discovery
Credits: 4
Learn about one of the greatest cities in the world during this 10-day trip to London. This Discovery class begins as a two-week, on-line course and then packs in a busy schedule visiting amazing sights and taking in some of the best theatre in the English speaking world. The course offers an insight into the history, politics, society and culture of London through the lens of art, architecture, music, and of course, theatre. Special fee.
Co-requisite: INCO 589
Attributes: FinePerformingArts(Discovery)
THDA 532 - The London Experience
Credits: 2
Exploration of the culture and history of London while enhancing study of live theatre prior to active study in the country. IA (continuous grading). Special fee.
Co-requisite: INCO 589
Repeat Rule: May be repeated for a maximum of 4 credits.
Equivalent(s): THDA 592C, THEA 592C
THDA 541 - Art and Theatre Administration
Credits: 4
Administration practices applied to arts, music, and theatre management. Fund raising, public relations, business and box office management, audience development and long range planning.
Attributes: Inquiry (Discovery)
THDA 546 - Costume Design for the Theatre
Credits: 4
How to design costumes for the theatre, not figure drawing, although drawing techniques are taught. Script analysis and research and presentational techniques for costume design explored and implemented. Special fee. Prereq: THDA 460 or permission of instructor.
THDA 547 - Stage Properties
Credits: 4
Research and manufacture of period and modern stage, trim, and hand properties. Prereq: THDA 459. Special fee.
THDA 548 - Stage Lighting Design and Execution
Credits: 4
This class is designed for students who are interested in theatrical lighting design. The class meets 3 hours per week. It is a project-based course taught in various formats including lectures, hands-on practices, class discussions, and presentations. The class will help students develop the skills for lighting design and creative thinking that are essential for a critical thinker.
Attributes: FinePerformingArts(Discovery)
THDA 550 - Actor’s Voice Through Text
Credits: 4
Continuing development of the actor's techniques for creating increased vocal expressiveness. Addresses the methods of varying vocal style and presentation through in-depth analysis and interpretation of the text. Prereq: THDA 470.
THDA 551 - Acting I
Credits: 4
Development of fundamental vocal and physical stage techniques for actors and directors through exercises, improvisation and theatre games. Special fee.
Attributes: Inquiry (Discovery)
Equivalent(s): THDA 442
THDA 552 - Acting II
Credits: 4
Focuses on strengthening the actor's ability to achieve a higher level of truth, presence, and spontaneity on stage. Building on the approach devised by Sanford Meisner, this highly intensive class creates a bridge to connect these developing skills to various forms of text. Prereq: THDA 551. Special fee.
THDA 554 - Stage Combat
Credits: 4
This course actively explores stage combat techniques for unarmed combat as well as basic rapier swordplay. Students are expected to prepare hand-to-hand acting projects as well as a final rapier fight project which demonstrates proper stage combat techniques learned during the semester. Special fee.
THDA 555 - Musical Theatre I
Credits: 4
Foundations of solo musical theatre performance, including the development of the speaking and singing voice, stage movement, and character analysis explored through exercises, improvisation, theatre games, in-class performance, and written assignments. Lab. Special fee.
THDA 556 - Ballet II
Credits: 2
This dance technique class is taught at an intermediate level and is an extension of Ballet I with a focus on developing ballet vocabulary and artistry. Open to both majors and non-majors. Repeat Rule: May be repeated for a maximum of 16 credits.
Equivalent(s): THCO 562, THEA 562
THDA 557 - Theatre Dance II
Credits: 2
This dance technique class is an extension of THDA 463. Students will become versatile in a variety of dance styles, including contemporary and musical theatre style jazz and tap dance. Technical execution, artistry and improvisation will be explored. Open to both majors and non-majors. Prereq: THDA 463 or permission of instructor. Special fee.
Repeat Rule: May be repeated for a maximum of 16 credits.
Equivalent(s): THCO 563, THEA 563
THDA 564 - Compocinema  
Credits: 4  
Compocinema examines dance/movement as an interdisciplinary form that integrates the human body, digital video camera, the computer program, and site-specific and/or collaborative formats. Emphasizing conceptual and practical approaches, students (individually and in groups) will take turns developing and performing movement as well as planning, designing, shooting, editing, observing, describing, analyzing, and revising video of dance/movement as artistic expression. Prereq: THDA 442 or THDA 462 or THDA 463 or THDA 551 or permission.

THDA 565 - Beginning Aerial Dance  
Credits: 2  
This class focuses on beginning aerial dance language and skills as well as body conditioning. Apparatuses including fabric, trapeze and lyra are introduced.  
Repeat Rule: May be repeated for a maximum of 16 credits.

THDA 576 - Pointe  
Credits: 2  
This class is taught at an intermediate level focusing on developing pointe technique and artistry. Classical variations are incorporated to study the history of ballet through practical application. 1-2 years of pointe technique required. If interested in beginning the study of pointe technique, contact the instructor. Open to both majors and non-majors.  
Repeat Rule: May be repeated for a maximum of 16 credits.  
Equivalent(s): THCO 576, THEA 576

THDA 583 - Introduction to Puppetry  
Credits: 4  
Introduces the art of puppetry for general appreciation, entertainment, application in the classroom, and as a therapeutic tool. Emphasis on constructing a variety of puppets (e.g., hand, rod, shadow, and scarf) and adapting literary sources for scripts and performance. Special fee.  
Attributes: FinePerformingArts(Discovery)

THDA 589 - Practicum  
Credits: 1  
The practicum ensures a breadth of experience in the major, including sets, costumes, lighting, props, box office, marketing, and performing. Students must register for practicum every semester. They are notified of their practicum assignment at the beginning of each semester. Ctr/F.  
Repeat Rule: May be repeated for a maximum of 8 credits.  
Equivalent(s): THDA 689

THDA 592A - Special Topics  
Credits: 1-4  
Special topics, projects in theatre and dance. Content varies according to needs and interests of students and faculty. Course descriptions are available in department office. May be repeated for credit. Special fee.  
Repeat Rule: May be repeated for a maximum of 16 credits.  
Equivalent(s): THDA 592

THDA 600 - Musical Theatre Voice II  
Credits: 1  
This course is a continuation of THDA 500: Musical Theatre Voice I. Students build on the groundwork in vocal technique, analysis, and performance established in Musical Theatre Voice I and continue to explore and develop these skills.

THDA 624 - Theatre for Young Audiences  
Credits: 4  
Introduces coaching and directing techniques for classical and contemporary acting styles in theatre for young audiences. Historical contents leads into practical exploration of actor training and coaching, production and design, choreography, and business management for theatre and for youth programs. Students develop teaching strategies for young performers and participate in a culminating project. Prereq: THDA 551 and THDA 436 or THDA 438. Special fee.  
Equivalent(s): THDA 624A, THDA 624B, THEA 624A, THEA 624B

THDA 632 - Interpretation of Shakespeare in Theatre  
Credits: 4  
Increases understanding of Shakespeare’s language and action, and improves ability to speak his verse and prose with clarity and verve. Students achieve insights into Shakespeare’s plays through the medium of performance. Weekly oral and written assignments. Prereq: THDA 551 and THDA 552; or permission of instructor.

THDA 633 - Dance Composition  
Credits: 4  
Practical, developmental approach to process of creating dances. Prereq: THDA 561; 562; 563;/or permission. Special fee.  
Equivalent(s): THCO 633, THEA 633

THDA 638 - American Theatre: 1920-1970  
Credits: 4  
A survey of American plays from O'Neill onward. Students read and analyze two plays a week. Oral, written, and theatrical assignments. Prereq: (one of the following) THDA 436, THDA 438, THDA 450 or permission of the instructor.

THDA 640 - Playwriting  
Credits: 4  
To illuminate and guide each student through the art and craft of writing for performance. This course explores the fundamental principles needed to build a realistic play that is intended to be produced upon the stage. Though the course is built around the construction of plays, the principles, writing exercises, readings, and other assignments serve as a solid base for any form of dialogue driven writing. Special fee.  
Equivalent(s): THDA 540W, THDA 640W, THDA 750, THEA 750

THDA 640W - Playwriting  
Credits: 4  
To illuminate and guide each student through the art and craft of writing for performance. This course explores the fundamental principles needed to build a realistic play that is intended to be produced upon the stage. Though the course is built around the construction of plays, the principles, writing exercises, readings, and other assignments serve as a solid base for any form of dialogue driven writing. Special fee. Writing intensive.  
Attributes: Writing Intensive Course  
Equivalent(s): THDA 540, THDA 540W, THDA 750, THEA 750

THDA 641 - Stage Management  
Credits: 4  
Introduces the concepts and skills needed for stage management. Stage managers perform a central role in the theatrical production, coordinating artistic and technical elements. They need a thorough understanding of the script, strong management skills, and a solid background in all aspects of the theatre. Prepares students to function as a stage manager in productions at any theatre. Special fee.  
Equivalent(s): THDA 592B
THDA 650 - Scene Painting for the Theatre
Credits: 2
Scene painting analyzed. Techniques and media to create a larger-than-life approach to scale, equipment for conversion, and appropriate stylistic techniques for enlargement reviewed. Employs basic painting techniques and methods of paint application, but scale conversion technique extend the training of easel painters. Prereq: THDA 459. Special fee.
Equivalent(s): THDA 592F

THDA 651 - Rendering for the Theatre
Credits: 2
Theatrical rendering is a presentational arrangement of given items in perspective appropriate to a set or in a costume at a frozen moment during the production, indicating appropriate mood, atmosphere, and depth. For the theatre, this is generally done in watercolor, but many other media are possible and are explored. Special fee.
Equivalent(s): THDA 592F

THDA 652 - Scene Design
Credits: 4
Scene design from script to finished design. Both aesthetic and practical viewpoints considered. Emphasis on presentational techniques: study of perspective and finished rendering. Prereq: THDA 460 or permission of instructor. Special fee.

THDA 655 - Musical Theatre Scene Study
Credits: 4
Builds on and expands the techniques learned in Acting I and Musical Theatre Voice I, with a special emphasis on partner work and scene study. Prereq: THDA 551 or permission of instructor. Special fee.
Attributes: Writing Intensive Course

THDA 657 - Play Reading
Credits: 4
A high-volume reading course that introduces a breadth of dramatic literature from ancient times to the present. Reading lists vary according to interests and needs of students. Students read and analyze three plays/week.

THDA 662 - Ballet III
Credits: 2
Advanced-level course in technique. Prereq: THDA 562 or permission. Open to both majors and non-majors.
Repeat Rule: May be repeated for a maximum of 16 credits.

THDA 663 - Theatre Dance III
Credits: 2
This dance technique class is an extension of THDA 563. Students will become seasoned in contemporary jazz, musical theatre style jazz and tap dance. Technical execution, choreographic artistry and improvisation will be explored. Class open to both majors and non-majors. Prereq: THDA 563 or permission of instructor. Special Fee.
Repeat Rule: May be repeated for a maximum of 16 credits.
Equivalent(s): THCO 663, THEA 663

THDA 665 - Musical Theatre Voice III
Credits: 2-4
This course is a continuation of THDA 600: Musical Theatre Voice II. Students continue to develop their skills of vocal technique, analysis, and performance established in Musical Theatre Voice II, while focusing these skills towards their application in auditioning for, and performing in, professional theatre.
Repeat Rule: May be repeated for a maximum of 3 credits.

THDA 670 - Dialects
Credits: 4
Study and practice in basic dialect acquisition for performers. Prereq: THDA 470, THDA 551. Permission required. Special fee.

THDA 672 - Audition
Credits: 4
Business aspects of creating and maintaining a performance career, including resumes, photos, agents, casting directors, website building, networking, unions, trade publications, audition material, cold-reading, camera acting, and voice over. Prereq: THDA 551 and THDA 552, or permission.

THDA 683 - Advanced Puppetry
Credits: 4
In-depth study of the theory and practice of puppetry for the advanced student. Students develop skills in manipulation and construction of selected puppet forms and apply these skills in performance. Examines historical perspectives and the application of puppetry in the classroom and as a therapeutic tool. Prereq: THDA 583 or permission. Special fee.
Equivalent(s): THEA 592D

THDA 691 - Internship
Credits: 2-8
Fieldwork with a regional or touring theatre. This advanced level internship allows the student to experience a professional theatre setting prior to graduation. Normally supervised by a qualified theatre professional, with frequent consultation with a faculty sponsor. A written report is required. May be part- or full-time with credits assigned accordingly. Permission required. Student must also register for a graded 4-credit independent study. Cr/F.
Repeat Rule: May be repeated for a maximum of 12 credits.

THDA 700 - Musical Theatre Voice III
Credits: 1
This course is a continuation of THDA 600: Musical Theatre Voice II. Students continue to develop their skills of vocal technique, analysis, and performance established in Musical Theatre Voice II, while focusing these skills towards their application in auditioning for, and performing in, professional theatre.
Repeat Rule: May be repeated for a maximum of 3 credits.

THDA 721 - Arts Integration
Credits: 4
This course examines the value and practical application of incorporating the arts into non-arts educational settings. From the perspective of multiple intelligences and varied learning styles, students investigate how the arts can enhance teaching methodology by developing and implementing lesson plans for a variety of non-arts subject areas. Active theatre involvement is limited; the focus is on practicing teaching methods. Special fee. Writing intensive.
Attributes: Writing Intensive Course
Equivalent(s): THDA 621, THEA 621

THDA 727 - Methods of Teaching Theatre
Credits: 2-4
The capstone of the theatre education major's studies. Designed for students who are preparing to enter student teaching. Provides practical information, skills, and lesson plans that theatre teachers use as source material for the secondary classroom. Covers a wide range of teaching models. Students define and articulate a personal teaching philosophy, write comprehensive semester curricula and course syllabi, and create an extracurricular program plan and philosophy. Prereq: THDA 520. Special fee. Writing intensive.
Attributes: Writing Intensive Course
Equivalent(s): THDA 627, THEA 627
THDA 729 - Community Oriented Drama Programs
Credits: 1-4
Advanced practicum in designing, developing, and producing drama programs for the school and community. Includes audience analysis and marketing skills as well as adapting spaces, soliciting volunteers, and working with a limited budget. Special fee.
Repeat Rule: May be repeated for a maximum of 12 credits.

THDA 732 - Choreography
Credits: 4
Theoretical and practical consideration of the creative and aesthetic aspects of ballet, modern, and theatre dance. Prereq: THDA 633. Special fee.
Equivalent(s): THCO 732, THEA 732

THDA 741 - Directing
Credits: 4
A process-oriented approach to the art of stage directing. The course begins with an in-depth focus on script analysis. Students then develop their skills as the "master storyteller" through imagination, interpretation, communication, and style. Prereq: THDA 551 and THDA 552. Special fee.

THDA 742 - Directing II
Credits: 4
In-depth study of the theory and practice of stage direction for the advanced student. Builds on 741, Directing. Students strengthen and expand their existing knowledge of the subject area. Exploration focuses on three areas of directorial communication: application to periods and styles, exploration of avant-garde theory, and directorial technique. Concludes with a major project mounted for public performance. Prereq: THDA 741. Special fee.

THDA 755 - Advanced Musical Theatre
Credits: 4
Students learn to integrate and expand on techniques in previous acting, musical theatre, and voice classes, with special emphasis given to audition techniques, repertoire expansion and specialization, and in-depth analysis of the business and personal requirements necessary to be a successful artist in the professional theatre. Prereq: THDA 551 and THDA 655, or permission of the instructor. Special fee.

THDA 756 - Teacher Planning for Theatre
Credits: 4
Focuses on lesson and unit planning for the areas of high school theatre history, play analysis, and play writing. Students will practice various methods of teaching these areas of drama. Prereq: THDA 436 and THDA 438. Special fee.

THDA 760 - Teacher Planning for Theatre
Credits: 4
Focuses on lesson and unit planning for the areas of high school theatre history, play analysis, and play writing. Students will practice various methods of teaching these areas of drama. Prereq: THDA 436 and THDA 438. Special fee.

THDA 762 - Women in 20th and 21st Century American Theatre
Credits: 4
A high-volume reading course which introduces a sampling of American female playwrights starting with the 20th century. Focus is on the evolution of female theatre artists and how roles of women are portrayed in various dramatic works. Reading lists may vary according to the interests and needs of students. Students read and analyze two to three plays/week. Prereq: THDA 436, 438, 450 or a History Gen. Ed., or permission of instructor.

THDA 786 - Dance Pedagogy
Credits: 4
Methods course that focuses on the art and science of teaching the movement forms of ballet, modern, jazz and tap. Designed to prepare students who are seeking dance certification with a M.Ed. or a M.A.T., or who wish to open their own studio. Provides background into the nature of teaching, standards that make up good teaching, awareness of National/State standards, and study and practice of lesson plans in K-12 school curricula or private studios. Prereq: THDA 462 and THDA 562, or THDA 463 and THDA 563, or permission of the instructor.

THDA 791 - Internship in Theatre and Dance
Credits: 2-8
Fieldwork with a regional or touring theatre or with a theatre education program. This advanced-level internship allows the student to experience a professional theatre/theatre education setting prior to graduation. Normally supervised by a qualified theatre professional, with frequent consultation with a faculty sponsor. Written report required. May be part- or full-time with credits assigned accordingly. Permission required.
Repeat Rule: May be repeated for a maximum of 12 credits.

THDA 795 - Independent Study
Credits: 1-8
Advanced individual study. Specific independent study opportunities are sometimes posted in the Theatre and Dance Department Office. Project, which includes a substantial piece of writing, must be developed with supervising instructor.
Repeat Rule: May be repeated for a maximum of 8 credits.
Equivalent(s): THCO 795, THDA 795W

THDA 795W - Independent Study
Credits: 1-8
Advanced individual study. Specific independent study opportunities are sometimes posted in the Theatre and Dance Department Office. Project, which includes a substantial piece of writing, must be developed with supervising instructor.
Attributes: Writing Intensive Course
Repeat Rule: May be repeated for a maximum of 8 credits.
Equivalent(s): THCO 795, THDA 795, THEA 795

THDA 796 - Independent Study
Credits: 1-8
Advanced individual study. Specific independent study opportunities are sometimes posted in the Theatre and Dance Department Office. Project, which includes a substantial piece of writing, must be developed with supervising instructor.
Repeat Rule: May be repeated for a maximum of 8 credits.
Equivalent(s): THCO 796, THDA 796W
THDA 796W - Independent Study
Credits: 1-8
Advanced individual study. Specific independent study opportunities are sometimes posted in the Theatre and Dance Department Office. Project, which includes a substantial piece of writing, must be developed with supervising instructor.
Attributes: Writing Intensive Course
Repeat Rule: May be repeated for a maximum of 8 credits.
Equivalent(s): THCO 796, THDA 796, THEA 796

THDA 798 - Senior Thesis
Credits: 2
Supervised research leading to the presentation of a major research paper. Prereq: permission, majors only, senior standing. Writing intensive.
Attributes: Writing Intensive Course

THDA 798H - Honors Senior Thesis
Credits: 4
Supervised research leading to the presentation of a major research paper; the resulting paper is defended in an oral presentation before department faculty. Required for graduation from the honors program in Theatre and Dance. Prereq: permission, majors only, and senior standing. Writing intensive.
Attributes: Writing Intensive Course

THDA 799 - Capstone Project
Credits: 2 or 4
This required course incorporates and tests the knowledge that majors have learned over their careers in the Department of Theatre and Dance. Capstone experiences are tailored to each student through conference with their adviser in their specific Theatre and Dance track. Writing intensive.
Attributes: Writing Intensive Course
Equivalent(s): THDA 799H

TOUR 400 - Introduction to Tourism
Credits: 4
Provides an informational foundation in tourism and gives a more extensive knowledge of the tourism industry. Examines historical perspectives, tourism organization, and supply and demand of the tourism industry. Discusses the dynamic and pluralistic nature of the tourism industry.
Equivalent(s): RECO 400

TOUR 510 - Tourism and Global Understanding
Credits: 4
Introduces ways in which tourism can act as a vehicle to understanding foreign cultures. Responsible tourism, has the potential to help bridge cultural and psychological distances that separate people of different races, religions, and socio-economic classes. Through responsible tourism we can learn to appreciate, trust, and respect the human diversity that our world has to offer. Helps students gain an informed acquaintance with other cultures and customs, and to understand the central role of tourism in international and cross-cultural understanding. Cr/F option.

TOUR #615 - Tourism Planning and Development
Credits: 4
The planning and development of tourist resources and programs within a geographic region. Planning models are reviewed and analyzed. The relationship among tourists, tourist developments, and the planning of tourist attractions and services is examined. A strategic planning process is applied to the development of a regional tourism plan in New Hampshire. Prereq: TOUR 400.

TOUR #705 - Ecotourism: Managing for the Environment
Credits: 4
Ecotourism embraces both the environment and economics. Provides a comprehensive framework for planning and managing ecotourism in order to both maximize potential benefits and minimize potential costs for people and the environment. Seminar format. Case studies used to assess the role of ecotourism in the sustainable development of natural resources. Prereq: TOUR 400, juniors or seniors only.

TOUR 767 - Social Impact Assessment
Credits: 4
Provides a cross-disciplinary perspective on the issues, problems, and methods of Social Impact Assessment (SIA). Provides analytic approach and theoretical framework for the assessment of diverse events, including changes in the natural environment, the local economy, or dominant technology. SIA is required of most U.S. and Canadian federal- and state-sponsored projects that come under the National Environmental Protection Act, as well as all projects funded by international donor agencies. (Juniors and seniors only.) Writing intensive.
Attributes: Writing Intensive Course

TSAS Communication (COM)

# Course numbers with the # symbol included (e.g. #400) have not been taught in the last 3 years.
COM 209 - Expository Writing and Reading
Credits: 4
The main course goal is to produce inquisitive capable and confident writers for written communication challenges in higher education and future careers. Particular focus is paid to practice in visual description, research, argument, revision and analytical reading. Instructors focus on writing as a process of learning, not a product of learning. Includes individual conferences with students to discuss their writing and drafts. Class sessions are driven by open discussion and group activities.
Attributes: Writing Skills(Discovery); Writing Intensive Course

COM 210 - Public Speaking
Credits: 3
In a recent Graduate Management Admissions Council (GMAC) survey, 86% of recruiters for major employers claimed "communication skills" as the first trait they seek in new employees. That said, building confidence and practicing public communication is a way to stand out in both social situations and the workplace. In COM 210, we practice persuading, instructing and storytelling in an active atmosphere, all with an effort to build confidence in oratory, analyzing audiences and generating quality ideas.

COM 212 - Writing in the Workplace
Credits: 3
Practice in various forms of technical and professional writing: technical instructions and descriptions, reports, proposals, business letters, and more. Applications relate to employees/employers, suppliers, customers, and others. The course emphasizes the importance of layout and design to effective communication.
Equivalent(s): ABM 202

COM 292 - Studies in Communications
Credits: 1-3
Students who have the ability and adequate preparation to work independently may propose a contract to design a course or research project on a topic not available through existing course offerings. The purpose of this research or scholarly endeavor is to explore new areas in the student's field of study or to pursue course materials in greater depth. Work is supervised by an appropriate faculty/staff member and credit varies depending on the proposed project/research. Areas may include the art of persuasive speaking, writing, literature, or technical reporting. Permission required.

COM 591 - Studies in Communication
Credits: 1-3
Students who have the ability and adequate preparation to work independently may propose a contract to design a course or research project on a topic not available through existing course offerings. The purpose of this research or scholarly endeavor is to explore new areas in the student's field of study or to pursue course materials in greater depth. Work is supervised by an appropriate faculty/staff member and credit varies depending on the proposed project/research. Areas may include the art of persuasive speaking, writing, literature, or technical reporting. Permission required.
Repeat Rule: May be repeated up to 3 times.
Equivalent(s): COM 291

TSAS Mathematics (MTH)

# Course numbers with the # symbol included (e.g. #400) have not been taught in the last 3 years.

MTH 202 - College Algebra
Credits: 3
Review of elementary algebra, coordinate system, inequalities, roots, polynomials, factoring, radicals, and functions. A significant amount of class time is spent on problem solving in all concept areas. The course provides a solid foundation of algebraic topics including, logarithmic functions, exponential function, matrices, inverse functions and non-linear systems. Placement is based on satisfactory score on math assessment.

MTH 203 - Algebra and Trigonometry
Credits: 3
Basic algebra topics, radicals, exponents, introduction to functions and graphs, simple applications of algebra. Trigonometric functions of angles; applications of right triangles, identities, and equations. 3 lec.

TSAS Social Science (SSCI)

# Course numbers with the # symbol included (e.g. #400) have not been taught in the last 3 years.

SSCI 201 - Human Relations
Credits: 4
Learn theories of human behavior and develop skills for applying these concepts in the creation of more effective interpersonal and professional relationships.

SSCI 202 - Social Issues
Credits: 4
Study of social problems in today's world. Particular emphasis on various viewpoints of their causes and solutions. Issues covered range from individual to worldwide.

SSCI 292 - Studies
Credits: 1-4
Students who have the ability and adequate preparation to work independently may propose a contract to design a course or research project on a topic not available through existing course offerings. The purpose of this research is to explore new areas in the student's field of study or to pursue course material in greater depth. Work is supervised by an appropriate faculty/staff member and credit varies depending on the proposed project/research. Areas may include a specific social science topic.
Repeat Rule: May be repeated for a maximum of 8 credits.

SSCI 403 - Environmental Issues & Society
Credits: 2
Course focuses on contemporary environmental problems and their relationship to society. Students examine the nature and extent of specific problems, such as pollution or global warming, and review current thinking about causes, possible interrelationships, and proposed solutions. 2 lec.
Equivalent(s): SSCI 203

SSCI #404 - Leadership Effectiveness Grp P
Credits: 2
By studying various theories of group development and leadership approaches, students explore the ways leaders influence group behavior and goal attainment. Students practice applying theories to specific situations and explore their own individual strengths and weaknesses as both leaders and group members.
Equivalent(s): SSCI 204
**UNHM Independent Study (UMIS)**

# Course numbers with the # symbol included (e.g. #400) have not been taught in the last 3 years.

**UMIS 599 - Independent Study**
*Credits: 1-4*
Independent study with the approval and sponsorship of UNHM faculty of material not covered in regular course offerings. Barring duplication of subject, may be repeated.

**Repeat Rule:** May be repeated for a maximum of 8 credits.

**UNHM Special Topics (UMST)**

# Course numbers with the # symbol included (e.g. #400) have not been taught in the last 3 years.

**UMST 401 - First Year Seminar**
*Credits: 1*
The focus of this seminar in not on a specific academic subject or field of study; instead, the focus is on the student. This course is intentionally designed and proactively delivered for the purpose of promoting personal success-in college and in life after college--by fostering the development of skills or strategies that are both applicable and valuable across subjects. The course focuses on the following topics: college expectations and opportunities, campus resources, learning styles and strategies including lecture note-taking, test taking, memory and concentration; life management, goal setting, educational planning, career decision-making, health maintenance, diversity and instructor/student relationships. The course integrates personal growth, academic and career success with problem solving, critical and creative thinking.

**UMST 402 - Transfer Seminar**
*Credits: 1*
The Transfer Seminar focuses on students' adjustment to being at UNH Manchester. By incorporating topics such as campus resources, financial literacy, internship and career planning, self-reflection, and information literacy, the goal of this course is to foster the development of skills or strategies that are both applicable and valuable across disciplines as well promoting personal success during and after college.

**UMST 472 - Beyond Google: An Introduction to Information Literacy**
*Credits: 2*
Beyond Google is a 2-credit introduction to the six frameworks of information literacy for high education created by the Association of College and Research Libraries. Students learn the critical thinking skills necessary to identify, evaluate, and use diverse information sources to meet varied information needs.

**UMST 500 - Internship**
*Credits: 1-4*
The UNHM internship places students in a variety of business and organizational settings under the direction of a faculty adviser and workplace supervisor. Students fulfill the obligations of the workplace internship plan, as well as complete individually-designed projects of academic merit under the direction of UNH faculty. Open to matriculated students with a 2.5 GPA or better. Students must receive approval of the UNHM internship coordinator. May be taken from 1-4 elective credits per semester. Credit/Fail.

**Repeat Rule:** May be repeated for a maximum of 8 credits.
UMST #501 - Money and Independence
Credits: 1
This course provides students with an objective, neutral and current introduction to personal financial literacy. Students develop the skills necessary to establish good financial habits and a healthy financial future. This course helps students to become familiar with fundamental financial concepts including budgeting, credit, contracts, student loans, identity theft and planning for the future. No credit for students who have completed UMST 599 Financial Literacy and Advocacy or UMST 599 Money Management and Independence.

UMST 521 - Tutor Development
Credits: 3
This interdisciplinary course, team-taught by the Director and Assistant Director of the Learning Center, is intended to prepare undergraduates for working as peer tutors. Students will study theories of adult development, learn several approaches to tutoring in their discipline(s), and practice their tutoring and communication skills. Cannot be repeated. Prereq: permission of instructor is required.
Attributes: Writing Intensive Course

UMST 523 - Shared Learning
Credits: 2
Shared Learning aims to teach students about theories of collaborative learning, tutoring, and mentoring and to provide opportunities for the students to apply the theories. Students discuss ethical issues, conflict resolution, and differences in styles or goals. They develop and practice effective communication skills, including reflective listening and constructive feedback.

UMST 525 - Exploring Leadership
Credits: 1
Exploring Leadership seminar is an introductory course on the foundations of student development and leadership. There is a particular focus on student leadership with an emphasis on mentoring new students. The seminar is designed to enable students to formulate and articulate their own personal philosophy of leadership and a leadership action plan. This course is applicable to any student already involved or interested in college leadership. No credit for students who have completed UMST 599: Exploring Leadership.

UMST 526 - Social Justice and Student Leadership
Credits: 1
An exploration of social justice through personal and institutional lenses to analyze power and privilege, discrimination and prejudice, inclusion and equity though the intersections of multiple identities of race, gender, sexual orientation, class, nationality, ethnicity, ability and religion to develop student leaders who will also promote an equitable and inclusive environment and serve as social change agents at the college, on the campus, and in a diverse global society.

UMST 531 - Engaging in the Community: Learning through Service
Credits: 1-4
Students provide service to the community while engaging in meaningful experiences that build upon their skills and interests and help develop an awareness of civic issues and community needs. The primary purpose of the course is to work in the community to meet a community need. Student critically reflect on their experiences in a bi-weekly seminar through in-class discussions, readings, and journaling. Cr/F.
Repeat Rule: May be repeated for a maximum of 8 credits.

UMST 572 - Knowledge in Action: Research in the Workplace
Credits: 2
This 2-credit course guides students toward critical thinking competencies and evaluative skills necessary for successful information-seeking strategies in workplace settings. By discovering and assessing a variety of career-specific information sources, students will explore how professional organizations develop questions to address problems of practice. Students will interrogate the contexts in which professionals create and disseminate knowledge; engage in fact-checking and other assessment activities; and address workplace issues through the effective use of relevant professional information sources.

UMST 581 - Exploring Your Career Options
Credits: 1
This course is designed to teach students how to make informed decisions about their career aspirations. Students will learn to identify essential resources that will assist them in gaining a better understanding of opportunities available to them. Career choice is very personal, therefore each student will identify a minimum of two paths of interest to research. By comparing and contrasting options, participants will be better prepared to accomplish and own their academic and career goals. Letter grades are assigned. This course cannot be repeated for credit. Students who enrolled in UMST 599 Internship and Career Planning Seminar previously are not eligible to take this course for credit.

UMST 582 - Internship and Career Planning Seminar
Credits: 1
This course is strongly encouraged for any student seeking internship and/or employment opportunities. Participants will research and evaluate opportunities related to their career interests, conduct informational interviews, create tailored resumes and cover letters, use LinkedIn as a networking and job search resource, and participate in employer-based resume reviews and mock interviews. This course is open to all students in all majors and is suited for students interning and/or seeking employment within the next six months. Letter grades are assigned. This course cannot be repeated for credit. Students who enrolled in UMST 599 Internship and Career Planning Seminar previously are not eligible to take this course for credit.

UMST 599 - Special Topics
Credits: 1-4
Occasional offerings dependent on availability and interest of faculty, barring duplication of subject, may be repeated for credit.
Repeat Rule: May be repeated up to unlimited times.

UMST 701 - Student Leadership Academy Capstone
Credits: 1
In this Student Leadership Academy course, students will articulate and translate their career/leadership competencies they have developed throughout their undergraduate career. These competencies include communication, teamwork, leadership, professionalism, and self-awareness. Students will take steps toward being career ready by learning about industries and employers, building their professional portfolio, developing relationships with leaders, and growing their leadership experiences. Students will complete the final requirements for the Student Leadership Academy, including their required project, portfolio, and presentation. Prereq: UMST 525.
Repeat Rule: May be repeated for a maximum of 1 credit.

UMST 799 - Pre-Pharmacy Concurrent Enrollment
Credits: 1-20
Registration place-holder for students completing the fourth year of their B.A. Biology Program at Massachusetts College of Pharmacy and Health Studies in the Pre-Pharmacy articulation program.
Veterinary Technology (VTEC)

Course numbers with the # symbol included (e.g. #400) have not been taught in the last 3 years.

VTEC 424 - Introduction to Veterinary Technology
Credits: 2
An overview of the veterinary technology field. Topics in veterinary office practice management are covered, including appointment scheduling, inventory control, financial transactions, client communication and regulatory, legal, and ethical aspects of veterinary practice. Other topics include veterinary technician and animal science career options, professional development and domestic animal management including breed identification, terminology, and husbandry.

VTEC 430 - Companion Animal Behavior and Handling Techniques
Credits: 4
Overview of the development, selection, genetics, and function of specific breeds of companion animals. Canine and feline handling and restraint skills will be demonstrated and practiced. General dog and cat, as well as breed-specific, behavior is included. Other companion animals such as parrots, rabbits, and pigs are reviewed as time allows.

VTEC 435 - Animal Health and Laboratory Diagnostics
Credits: 4
Covers the principles of maintaining animal health by preventing and managing disease via husbandry, immunization, and diagnostic testing. Focus is on domestic species; primarily dogs, cats, horses and cows. Topics include parasitology, microbiology, immunology, and clinical, gross and histopathology. Laboratory activities include fecal flotation, urinalysis, complete blood count and blood chemistry, bacterial culture and sensitivity testing, gram staining, serology, laboratory safety, and principles of sample collection and quality control. VTEC and AAS majors only.

Attributes: Biological Science(Discovery); Discovery Lab Course

VTEC 449 - Clinical Animal Nursing Techniques I
Credits: 4
Essential skills and knowledge for the care of small animals, focusing on companion animal species. Wellness protocols on basic nursing skills (medication administration, nail trimming, ear cleaning, anal gland expression, wound care, injections, phlebotomy, electrocardiogram, blood pressure measurement) will be discussed and practiced. VTEC majors only.

Equivalent(s): AAS 449

VTEC 497 - Veterinary Technology Work Experience
Credits: 0
Provides students supervised introductory hands-on experience in a veterinary medical facility. Students apply skills learned in animal handling and nursing, laboratory methods, client communication and practice management courses. Students are responsible for obtaining a position in an approved veterinary facility and need to complete a minimum of 80 hours of work to fulfill course requirements. Must have rabies vaccine series completed prior to the start of the semester. Open to veterinary technology students only. Prereq: AAS 449.

VTEC 550 - Clinical Animal Nursing Techniques II
Credits: 4
Builds on materials presented in VTEC 449, Clinical Animal Nursing Techniques I. Covers veterinary imaging modalities including radiographic and ultrasonographic techniques and safety; nursing care of hospitalized patients, dentistry, emergency, laboratory, and exotic animal medicine. VTEC majors only.

Equivalent(s): AAS 550

VTEC 565 - Pharmacology for Veterinary Technicians
Credits: 4
This course provides study in the area of veterinary medicines emphasizing classes and actions of drugs, calculating dosages, proper administration, and dispensing of drugs. Topics include general pharmacology, calculating dosages, pharmacy regulation guidelines and record keeping. Case-based learning is utilized to correlate common diseases in companion animals with associated pharmacological agents. Specifically, disease pathogenesis, diagnosis, and treatment options are discussed along with pertinent technician interventions and evaluations. Prereq: AAS 428.

Equivalent(s): VTEC 265

VTEC 575 - Veterinary Anesthesia and Surgical Assisting
Credits: 4
This course provides the theoretical knowledge and practical experience necessary to provide safe and effective anesthesia and analgesia to veterinary patients; including providing nursing care and assistance in all aspects of veterinary surgery and anesthesia. This course must be taken along with or after the completion of VTEC 565. VTEC majors only. Prereq: VTEC 449, AAS 428.

Equivalent(s): VTEC 275

VTEC 579 - Small Animal Practicum I
Credits: 4
This course provides veterinary technology students service learning opportunities. Students manage a wellness clinic for pets, developing staffing/appointment schedules, and performing appropriate procedures on pets. Additionally, students travel off-campus to provide medical, husbandry, and behavioral care for shelter animals. Successful ascertainment and use ofcorrect veterinary terminology is required. A surgical rotation is conducted to introduce techniques in anesthesia, surgical nursing, and dentistry. This is a four-credit course offered for VTEC majors only, and by permission only. Prereq: VTEC 430, VTEC 449.

VTEC 580 - Small Animal Practicum II
Credits: 4
Students manage a wellness clinic for pets, developing staffing/appointment schedules, and perform appropriate procedures on pets. Additionally, students travel off campus to provide medical care for shelter animals. A surgical rotation is conducted to reinforce techniques in anesthesia/surgical nursing and dentistry. Nursing care assignments are due throughout the semester to aid students in the integration of knowledge gain during their academic coursework. This is a four-credit course offered for VTEC majors only, and by permission only. Prereq: VTEC 579.

VTEC 583 - Large Animal Practicum
Credits: 2
An applied large animal class covering basic veterinary nursing care and procedures, focusing on horses and cows. The majority of class time is spent practicing hands-on skills with animals. Restricted to veterinary technology students only. Prereq: AAS 421, AAS 250.

Equivalent(s): VTEC 283
**VTEC 595 - Veterinary Technology Internship**

**Credits:** 3  
Provides students supervised hands-on experience in a veterinary medical facility within a clinical setting, students apply skills learned in animal handling and nursing, diagnostics and laboratory, client communication and practice management courses. Students are responsible for obtaining a position in an approved veterinary facility prior to the start of the semester. Open to veterinary technology students only.  
**Prereq:** AAS 550, AAS 579.  
**Equivalent(s):** VTEC 295

**VTEC 599 - Comprehensive VTNE Review**

**Credits:** 4  
Course will prepare veterinary technology students for the Veterinary Technician National Examination (VTNE). Topics include VRNE qualification and registration procedures and standardized test-taking strategies, but will primarily focus on a systematic review of the nine knowledge domains covered on the VTNE. Specific course content will vary based on yearly changes to VTNE content and based on students' performance on a VTNE readiness assessment at the start of the course.  
**Prereq:** AAS 439, AAS 579, AAS 550, VTEC 565. Special fee.

**Women's Studies (WS)**

# Course numbers with the # symbol included (e.g. #400) have not been taught in the last 3 years.

**WS 401 - Introduction to Women's Studies**

**Credits:** 4  
Interdisciplinary survey of the major areas of women's studies: women's history, cross-cultural perspectives, women in literature, psychology of women, etc. Basic principles and concepts fundamental to more advanced women's studies research. Topics vary. Required for major and minor. Writing intensive.  
**Attributes:** Social Science (Discovery); Inquiry (Discovery); Writing Intensive Course  
**Equivalent(s):** WS 401H

**WS 401H - Honors/Introduction to Women's Studies**

**Credits:** 4  
Interdisciplinary survey of the major areas of women's studies: women's history, cross-cultural perspectives, women in literature, psychology of women, etc. Basic principles and concepts fundamental to more advanced women's studies research. Topics vary. Required for major and minor. Writing intensive.  
**Attributes:** Social Science (Discovery); Writing Intensive Course  
**Equivalent(s):** WS 401

**WS 403 - Gender Interactions in College Sports Culture**

**Credits:** 2  
An integrative view of growing up as an athlete in American culture. Analysis of major perspectives on human development and implications in sports and education. With emphasis on gender, sexual assault, and racism.

**WS 405 - Gender, Power and Privilege**

**Credits:** 4  
This course explores the diversity of women's lives through the dynamics of status, power, privilege, and inequality in contemporary United States. Students will examine women's diverse experiences by using the theoretical framework of the social construction of race, gender, economic class, and sexual orientation in historical context. We will examine categories of difference and the processes, philosophical developments, institutions, and conditions that lead to and rely on power and privilege in modern American society.  
**Attributes:** Humanities(Disc)

**WS 444 - Trans/Forming Gender**

**Credits:** 4  
Using a social construction approach, students explore the multiple ways in which gender is constructed within the lives of children, women, men, and transgender people. Specific attention focuses on the social institutions and systems that encourage both the construction and reproduction of gender identity and expression across the lifespan. Students actively participate in identifying historical and current day factors and institutions that shape gender. Students explore the roles of families, schools, educational settings, media, the workplace, recreation activities, the medical system, religion, laws, and the laws and the legal system in the construction of gender.  
**Attributes:** Social Science (Discovery); Inquiry (Discovery)

**WS 444A - Race Matters**

**Credits:** 4  
Class examines race categories in the United States and how these historically changing categories shape our diverse realities across racial, ethnic, gendered, classed, and national identities. Students examine race as a category of difference and explore the multiple ways that individuals claim racial identities. Specific attention focuses on how diverse women have made history in their own lives and in the lives of others by resisting the interlocking systems of oppression.  
**Attributes:** Historical Perspectives(Disc); Inquiry (Discovery)

**WS 444B - Score!: Gender and Diversity in Sports**

**Credits:** 4  
Utilizing guest lectures, films, readings, projects and discussion, this writing intensive course provides first-year students with the opportunity to investigate the social, historic, economic and political factors that shape sports opportunities for girls and women in the United States. Students examine the extent to which sports experiences are the same for all girls and women in their diversity, as well as comparable to males across their differences.  
**Attributes:** Social Science (Discovery); Inquiry (Discovery); Writing Intensive Course

**WS 444C - On the Roads to Equality**

**Credits:** 4  
Looking beyond what is traditionally thought of as the women's rights movement in the United States, this course remaps women's history and activism to include a diversity of women's experiences. A multicultural examination of history focuses on women's leadership and participation in immigrant rights, labor, the Black Women's Club, economic justice, reproductive rights, self determination and feminist movements during the 19th and early 20th centuries. Writing intensive.  
**Attributes:** Historical Perspectives(Disc); Inquiry (Discovery); Writing Intensive Course
WS 444D - Cyborgs, Avatars, and Feminists: Gender in the Virtual World
Credits: 4
Utilizing feminist theoretical and critical investigations of gender and techno culture, students explore women's popular and theoretical conceptions of cyberspace. Students explore numerous digital communication systems within cyberspace and examine how and why a diversity of women utilize these systems. This course provides students with the opportunity to investigate the impact that advancements in virtual technology have in the lives of women.
Attributes: Environment, Tech Society (Disc); Inquiry (Discovery)

WS 505 - Survey in Women's Studies
Credits: 4
In-depth study of topics not covered in regular course offerings. The course explores the breadth and depth of Women's Studies from a historical perspective. In order to understand Women's Studies currently, students look at the historical foundations that contribute social, political, and economic influences on the topics. Barring duplication of topic, may be repeated for credit.
Attributes: Historical Perspectives (Disc); Inquiry (Discovery)
Repeat Rule: May be repeated for a maximum of 8 credits.

WS 505O - Survey in Women's Studies
Repeat Rule: May be repeated for a maximum of 8 credits.

WS 510 - Framing Feminism: Gender Politics in Film
Credits: 4
This course examines the history of feminist struggle in the U.S. by critically viewing and analyzing diverse films from the 1970s to the present. Students learn about the three waves of feminism and the various sociocultural, economic, sexual and political issues faced by women in the long and ongoing quest to achieve gender equality. Students explore methods of historical inquiry and film criticism to enable complex analyses of historical developments and contemporary arrangements of power. Attention is paid to how multiple identities and forms of oppression intersect in women's diverse lived experiences.
Attributes: Historical Perspectives (Disc)
Equivalent(s): WS 505

WS 515 - Game Girl: The Social Construction of Gender Identities in Video Games
Credits: 4
This course examines the representations of girls and women in digital gaming environments and patterns of digital game play. Students explore how gender intersects with the broader contexts of digital games and the game industry. Specific attention focuses on the Girl's Game Movement and the extent to which females are influenced by female characters in video games and how they are influencing the creation of new representations of females in video games.
Attributes: Social Science (Discovery)

WS 595 - Special Topics
Credits: 1-4
In-depth study of topics not covered in regular course offerings. Prereq: permission; WS 401.
Repeat Rule: May be repeated up to 2 times.
Equivalent(s): WS 595W

WS 595W - Special Topics
Credits: 1-4
In-depth study of topics not covered in regular course offerings. Prereq: permission; WS 401. Writing intensive.
Attributes: Writing Intensive Course
Equivalent(s): WS 595

WS 632 - Feminist Thought
Credits: 4
Theories of women's oppression and emancipation explored from various historical, political, cultural, and social perspectives. A major goal of the course is to increase awareness of historical and contemporary feminist approaches to understanding women's experiences, representations, and relative positions in societies. The course also considers the interrelation of theory and practice and the impact of past feminist theories on feminist movements. Prereq: WS 401 or WS 405. Writing intensive.
Attributes: Writing Intensive Course

WS 795 - Independent Study
Credits: 1-4
For advanced students who have the preparation to carry out an individual project of supervised research on a specific women's studies topic. Preparation should include WS 401 or equivalent, and/or other women's studies courses. Barring duplication of topic, may be repeated. Prereq: permission of instructor and women's studies coordinator.
Repeat Rule: May be repeated for a maximum of 8 credits.

WS 796 - Advanced Topics
Credits: 4
Advanced or specialized topics not normally covered in regular course offerings. May be repeated, but not in duplicate areas. Prereq: permission.
Repeat Rule: May be repeated up to 2 times.
Equivalent(s): WS 796W

WS 796W - Advanced Topics
Repeat Rule: May be repeated up to 2 times.

WS 797 - Internship
Credits: 4
Students gain practical experience in a woman-focused agency or organization. Plan of study and requirements are developed together with a faculty adviser and the student's workplace adviser. Bi-monthly seminar with all internship students and instructor. Prereq: permission. WS majors or minors.
Repeat Rule: May be repeated up to 2 times.

WS 798 - Colloquium
Credits: 4
Intensive study of specialized topic for advanced students. Topics vary with instructor. Barring duplication of topic, may be repeated for credit. Required for WS majors.
Attributes: Writing Intensive Course
Repeat Rule: May be repeated up to 8 times.

WS 799 - Honors Thesis
Credits: 4-8
With a faculty sponsor, students enrolled in the honors-in-major program develop an independent, investigative project in women's studies. Written thesis. Prereq: permission, majors only.
Zoology (ZOOL)

# Course numbers with the # symbol included (e.g. #400) have not been taught in the last 3 years.

ZOOL 400 - Professional Perspectives in Zoology
Credits: 1
Presentations by departmental faculty provide an informal overview of various zoological topics and professional opportunities. The course acquaints students with faculty, provides information on departmental research projects, and facilitates early research involvement for students. Required for all first-year zoology majors. (Fall only). Cr/F.

ZOOL 401 - Human Biology
Credits: 4
How does the human body function in the face of constant flux? In this introductory biology course you will explore the molecules, cells, and organ systems that keep you healthy through the multidisciplinary lenses of chemistry, genetics, and homeostasis. Hands-on experimentation allows you to investigate common health-related questions such as the effects of caffeine on reaction time and the effects of handwashing on bacterial growth and transmission. Cannot be taken for credit after BMS 507 and BMS 508. Special Fee. Lab.
Attributes: Biological Science(Discovery); Discovery Lab Course
Equivalent(s): ZOOL 507, ZOOL 508

ZOOL 406 - Evolution of Human Behavior
Credits: 4
Have you ever wondered why women and men often have different criteria when looking for sexual partners? Why do we feel compelled to help people in some situations, but not others? This course explores the evolutionary effects on our most basic impulses, abilities, and failings, and illuminates the social and ecological pressures that made us who we are. Fair warning: this course may forever change how you think about your friends, your dates, and yourself!
Attributes: Biological Science(Discovery)

ZOOL 406H - Honors/Evolution of Human Behavior
Credits: 4
All species are subject to evolutionary forces, and humans, including our vast array of behaviors, are no exception. We will therefore explore human behavior in the context of evolution by natural selection, with a focus on current research in this field. By understanding the behavioral adaptations that allowed our human ancestors to better navigate the challenges of survival and reproduction, we can hope to understand our own actions on a more integrative, comprehensive level.
Attributes: Biological Science(Discovery)

ZOOL #412 - Biology of Animals
Credits: 4
Fundamentals of modern animal biology from cells to organisms, including structure, function, genetics, development, ecology, and the diversity produced by animal evolution. Weekly demonstrations and virtual e-labs provide a hands-on introduction to the animal kingdom. Special fee. Lab. (Fall semester only.)
Attributes: Biological Science(Discovery); Discovery Lab Course
Equivalent(s): ZOOL 412H

ZOOL #444 - Dogs to Dragons: Origins of Species
Credits: 4
A freshman "inquiry" seminar introducing fundamental evolutionary concepts and mechanisms, as well as examining the nature of science, and the ways in which scientists use imagination and inference to better understand the natural world. Through evolutionary case studies ranging from the very real to the purely imaginary, students learn to compare and assess explanatory hypotheses, and to use creative, scientifically-disciplined inference as working scientists do. They also develop their abilities to decide what is or isn't science, and to judge the relevance and adequacy of evidence claimed to support hypotheses. The course begins by introducing the mechanism of natural selection through the engaging example of dog domestication, move from there to broader discussions of speciation (including species definitions, and case studies of speciation in progress). The central portion of the course focuses on issues of definitions (what is a "hypothesis" anyway?), and developing increasingly sophisticated and well-informed judgments about different sorts of biological information. In the final section, we explore proper and improper roles of imagination and creativity in science: how (and why) real scientists use fictional species, and how to tell the difference between fictions and frauds while leaving room for humor and invention. Writing intensive.
Attributes: Biological Science(Discovery); Inquiry (Discovery); Writing Intensive Course

ZOOL 518 - Vertebrate Morphology
Credits: 5
Why are vertebrates so successful on Earth? In this hands-on comparative biology course you will systematically examine the evolutionary history of form and function by exploring key adaptations that allowed vertebrates to diversify and thrive in the aquatic, terrestrial, and arboreal habitats they occupy today. In lab you will hone your dissection skills as you track ancestral and derived characteristics in 5 representative species on the vertebrate tree of life. Prereq: BIOL 411 and BIOL 412 or equivalent. Special fee. Lab.
Equivalent(s): ANSC 511, ANSC 512

ZOOL 529 - Developmental Biology
Credits: 4
Developmental biology explores how organisms construct themselves in each generation, and how those processes interact with ecological and evolutionary forces. The course examines development in various phyla, with an overarching focus on the design and interpretation of experiments using both classical and modern techniques. Labs include student-designed experiments and observation of development in several species of vertebrate embryos. Special fee. Lab. Prereq: BIOL 411 & BIOL 412, or equivalent.
Equivalent(s): ZOOL 629

ZOOL 542 - Ornithology
Credits: 4
Identification and biology of birds, especially those of northeastern United States. Involves field trips, laboratory work, and lectures. Prereq: one semester of biology. (Spring semester only.)
ZOOL 555 - Introduction to Entomology
Credits: 4
This course is about insects, the animal taxon that represents 50% of all life forms on Earth. During this course students will explore this incredible diversity by studying insects from inside out and learning about major evolutionary events in the last 500 million years that shaped this incredible diversity. This course will also highlight the beneficial and detrimental roles insects play in human society; students will gain insights into medical and veterinary entomology, coastal entomology, principles of sustainable pest management and insect conservation. Throughout the course, students will broadly apply online tools for insect identification and will be exposed to community driven nature conservation and monitoring efforts using online applications, such as iNaturalist and BugGuide. Prereq: BIOL 412.

ZOOL 600 - Field Experience
Credits: 1-4
A supervised experience providing the opportunity to apply academic experience in settings associated with future professional employment and/or related graduate opportunities. Must be approved by a faculty advisor selected by the student. Prereq: permission. Cr/F.
Repeat Rule: May be repeated for a maximum of 8 credits.

ZOOL 610 - Principles of Aquaculture
Credits: 4
Introduces the culture practices employed for production of aquatic organisms. Topics include ecological and environmental considerations, selective breeding, nutrition, diseases, processing, and marketing. Emphasis on finfish. Prereq: BIOL 411 and BIOL 412 or equivalent.

ZOOL 611 - Principles of Aquaculture Lab
Credits: 2
Laboratory exercises in aquaculture covering the use of chemical reagents to monitor water quality; brood stock feeding and management; use of anesthesia and fish handling; spawning marine finfish; culturing algae, rotifers and Artemia for marine larviculture; larviculture of marine finfish; assessing fish growth; hatchery hygiene. Includes site visits to local production facilities. Prereq: BIOL 411 and BIOL 412 or equivalent. Coreq: ZOOL 610.
Co-requisite: ZOOL 610

ZOOL 613 - Animal Behavior
Credits: 5
In this course we will first investigate the mechanisms of behavior--how do animals behave the way they do? We'll then spend the bulk of the semester exploring the ecology and evolution of behavior--why do animals behave the way they do? In lab, we will use hands-on activities to complement material from class, and you'll gain first-hand research experience when you design and conduct your own animal behavior study. Special fee. Lab. Prereq: BIOL 412 or equivalent. Attributes: Writing Intensive Course
Equivalent(s): ZOOL 713

ZOOL 625 - Principles of Animal Physiology
Credits: 3
Introduces the principles of animal function. The major systems (digestion, metabolism, respiration, circulation, osmotic and ionic regulation, nerve-muscle function, endocrine control) are covered with emphasis on functional mechanisms at the cell and tissue levels. Prereq: one year of introductory biology is required.
Equivalent(s): ANSC 627, ANSC 717, ZOOL 519, ZOOL 627

ZOOL 626 - Animal Physiology Laboratory
Credits: 2
Basic training in the measurement of function in animals, data analysis and expression, and the development of scientific communication skills. Special fee. Writing intensive.
Co-requisite: ZOOL 625
Attributes: Writing Intensive Course

ZOOL 628 - Marine Invertebrate Evolution and Ecology
Credits: 4
Stresses the rich diversity of marine invertebrates by integrating phylogenetic trends with physiological and behavioral adaptation, and with ecological and symbiotic interactions. Offers a comparative survey of invertebrates from protozoans to protocorals; deals with aspects of form and function, development, evolution, classification, ecology, and natural history. Students work with live and preserved animals. Extensive dissections and a field component are required. Prereq: BIOL 411 and BIOL 412. Special fee. Lab. (Not offered every year.)
Equivalent(s): ZOOL 528

ZOOL 690 - Evolution
Credits: 4
Evolutionary biology is about uncovering the past, understanding the present, and predicting the future of animals, plants, and microbes. It also offers insight into how scientific ideas change through time. This course covers natural selection and adaptation, phylogeny, population genetics and structure, origins and extinction of species, domestication, and evolutionary medicine. Additional topics may include human evolution and evolutionary impacts, biogeography, and social evolution, as well as the intersections between evolution, ecology and development.
Attributes: Writing Intensive Course

ZOOL 708 - Stream Ecology
Credits: 4
Ecological relationships of organisms in flowing water; streams as ecosystems. Lectures on physical and chemical features of streams, floral and faunal communities, and factors controlling populations and behavior of stream organisms. Lab exercises employ both field and laboratory experimental techniques. Special fee. Lab. (Not offered every year.)

ZOOL 710 - Elasmobranchs and Bony Fishes
Credits: 4
Some fish swimming today are hundreds of years old, whereas others complete their life cycle in two months! This course provides an introduction to the diversity of fishes found across the globe, including elasmobranchs (sharks, skates, and rays) and teleosts (bony fishes). Particular attention will be paid to fishes local to New Hampshire and New England. Students will learn about fish anatomy, physiology, and ecology. Prereq: BIOL 411, BIOL 412, or equivalent. Lab. (Offered in alternative years.) Special Fee.
Equivalent(s): ZOOL 734

ZOOL #721 - Aquatic Invasive Species
Credits: 4
Capstone course for a limited number of biological science majors to work closely with and help teach a Discovery course for non-majors in biology. Involves lectures, discussions, and laboratory and field exercises and write-ups focusing on managing aquatic invasive species based on an understanding of their ecology. Special fee.
What’s the best way to deter an elephant from raiding crops? Is it with chili peppers? Bees? This is one example from the new interdisciplinary field of “conservation behavior,” which uses the study of animal behavior to inform how we manage wildlife populations. This course targets students well-versed in either animal behavior or wildlife ecology who wish to learn more about the other side. We will focus heavily on reading, writing, discussion, and career preparation. Prereq: ZOOL 613, NR 433, or NR 640.

ZOOL 733 - Behavioral Ecology

Credits: 4

Behavioral ecology is the evolution of animal behavior played out on the stage of ecology—why might a certain behavior be adaptive in a certain context? In this course, we will pursue in-depth, high-level explorations of the central topics of animal behavior, all through the lens of evolution. We will also focus heavily on improving reading, writing, and presentation skills. Prereq: ZOOL 613.

ZOOL 736 - Genes and Behavior

Credits: 4

Genes and behavior examines the genetic underpinnings of animal behavior, and how behavior evolves on a genetic level. The course primarily relies on readings from the primary literature, using examples from laboratory model organisms, animals in their natural habitats, and humans. Topics include aggressiveness, social behavior, personality, parental care, communication, mating behavior, novelty seeking behavior, and foraging. This interdisciplinary course examines these behaviors at multiple levels, including genomics, population genetics, molecular genetics, epigenetics, endocrinology, and neurobiology. Prereq: GEN 604 and ZOOL 713 or equivalent.

ZOOL 750 - Biological Oceanography

Credits: 4

Biological processes of the oceans, including primary and secondary production, trophodynamics, plankton diversity, zooplankton ecology, ecosystems and global ocean dynamics. Field trips on R/V Gulf Challenger and to the Jackson Estuarine Laboratory. Prereq: one year of biology or permission of the instructor. (Also offered as ESCI 750.) Special fee. Lab. (Not offered every year.)

ZOOL 772 - Fisheries Biology: Conservation and Management

Credits: 3

Globally, many fished populations are declining, but 3.2 billion people eat fish and the average human eats >40 pounds of fish a year. This course identifies what biological characteristics are important to management and how they are measured. The course also explores quantitative methods describing fishery-population interactions and other management tools. Lastly, students will learn about the impacts of fishing on ecosystems. Prereq: ZOOL 710 or equivalent; permission. (Not offered every year.)

ZOOL 777 - Neuroethology: The Neural Basis of Animal Behavior

Credits: 3

The focus of this course is on the neural basis of animal behavior, with a focus on the most recent discoveries in the field. Topics include animal communication, navigation, sensory physiology, pharmacology and learning. Prereq: BIOL 411 and BIOL 412, or permission. Physiology (ZOOL 625), or another introductory neurobiology course, also desirable.

ZOOL 795 - Special Investigations

Credits: 1-4

Independent study in various areas including but not limited to animal behavior, developmental biology, ecology, endocrinology, evolution, ichthyology, genetics, history of biology, invertebrate biology, neurobiology and behavior, protozoology, teaching practices, underwater research, vertebrate biology, and biological techniques. Course sections for advanced work, individual or group seminar. May include reading, laboratory work, organized seminars, and conferences. Prereq: permission of instructor needed.

Repeat Rule: May be repeated for a maximum of 12 credits.

ZOOL 795W - Special Investigations

Credits: 1-4

Independent study in various areas including but not limited to animal behavior, developmental biology, ecology, endocrinology, evolution, ichthyology, genetics, history of biology, invertebrate biology, neurobiology and behavior, protozoology, teaching practices, underwater research, vertebrate biology, and biological techniques. Course sections for advanced work, individual or group seminar. May include reading, laboratory work, organized seminars, and conferences. Prereq: permission of instructor needed.

Attributes: Writing Intensive Course

Repeat Rule: May be repeated for a maximum of 12 credits.

ZOOL 799 - Honors Senior Thesis

Credits: 1-4

Working under the direction of a faculty sponsor, the student plans and carries out independent research resulting in a written thesis. Limited to students entering their senior year; required for students in the honors program or working toward honors-in-major. Prereq: permission. A two-semester sequence. 2-4 credits each semester. IA (continuous grading) given at the end of the first semester.

Attributes: Writing Intensive Course

Repeat Rule: May be repeated for a maximum of 8 credits.
The faculty listing in the catalogs are static and updated annually in the Fall. The 2019-2020 faculty listing in the catalogs will be updated in Fall 2019. The Fall 2018 faculty listing will appear in the 2019-2020 catalogs until that time.

LECTURER
Masters in Public Administration
B.S., Syracuse University, 2001
M.P.A., University of Southern Maine, 2006
M.S., 2011, Ph.D., University of Massachusetts - Boston, 2014

Armenti, Karla R
RESEARCH ASSISTANT PROFESSOR
Institute on Disability
B.A., Norwich University, 1981
M.S., 1995, Ph.D., University of Massachusetts - Lowell, 2001

Armstrong, Jennifer K
PRINCIPAL LECTURER
Philosophy
A.B., Colby College, 1985
MTS, Harvard Divinity School, 1987
M.A., University of Massachusetts - Amherst, 1991

Arnold, Gretchen
CLINICAL ASSISTANT PROFESSOR
Agriculture, Nutrition, & Food System
B.S., University of New Hampshire, 1993
M.S., University of New Haven, 2002

Arnoldy, Roger L
PROFESSOR EMERITUS
B.S., Saint Mary'S Coll (Minn), 1956
M.S., 1959, Ph.D., University of Minnesota, 1962

Aronson-Shore, Carol
PROFESSOR
B.F.A., Boston University, 1963
M.A., University of Chicago, 1965

Arredondo, Robert
SENIOR LECTURER
Applied Engineering & Sciences
AAS, NH Vocational Technical College, 1978
B.S., 1989, M.S., University of Massachusetts - Lowell, 1993
Ph.D., University of New Hampshire, 2015

Arthanat, Sajay
ASSOCIATE PROFESSOR
Occupational Therapy
B.S., Santosh College Occupational Therapy, India, 1997

Asbjornsen, Heidi
ASSOCIATE PROFESSOR
Natural Resources & The Environment
B.A., Carleton College, 1989
M.S., 1993, Ph.D., Yale University, 1999

Ashcraft, Catherine M
ASSISTANT PROFESSOR
Natural Resources & The Environment
B.A., University of Pennsylvania, 1998
M., Yale University, 2002
Ph.D., Massachusetts Institute of Technology, 2011
Ashley, Charles H
ASSOCIATE PROFESSOR EMERITUS
A.B., Dartmouth College, 1957
M.Ed., University of New Hampshire, 1960
Ed.D., Boston University, 1969

Ashline, David J
RESEARCH ASSISTANT PROFESSOR
Molecular, Cellular, & Biomedical
B.S., State University of New York at Plattsburgh, 1993
Ph.D., University of Massachusetts - Lowell, 2003

Ashton-Savage, Audrey
PRINCIPAL LECTURER
Marketing

Ashwell, Thomas W
PRINCIPAL LECTURER EMERITUS

Atallah, Shady S
ASSISTANT PROFESSOR
Natural Resources & The Environment
B.A., Holy Spirit University of Kaslik, Lebanon, 2003
M.S., American University of Beirut, 2006
M.S., University of California, 2009
Ph.D., Cornell University, 2014
MENGR, Holy Spirit University of Kaslik, Lebanon,

Auger, Philip A
EXTENSION EDUCATOR EMERITUS
B.S.F., University of New Hampshire, 1974

Aydelott, Kathrine C
ASSISTANT PROFESSOR
Research Learning Services
B.A., Colby College, 1990
M.A., 1995, Ph.D., University of Connecticut, 2005
M.L.I.S., Simmons College, 2006

Aytur, Semra A
ASSOCIATE PROFESSOR
Health Management & Policy
B.A., Brown University, 1991
M.P.H., Boston University, 1996
Ph.D., University of North Carolina, 2005

B

Babbitt, Kimberly J
ASSOCIATE DEAN
Dean’s Office - LS & A
B.S., University of New Hampshire, 1984
M.S., Texas A & M University, 1988
Ph.D., University of Florida, 1996

Baker, Alan L
ASSOCIATE PROFESSOR EMERITUS
B.A., State University of New York at Binghamton, 1965
Ph.D., University of Minnesota, 1973

Banach, Mary
ASSOCIATE PROFESSOR
Social Work
B.A., University of Wisconsin - Milwaukee, 1975
M.S.W., New York University, 1978
D.S.W., Columbia University in the City of New York, 1995

Bao, Xiaoyan
ASSISTANT PROFESSOR
Accounting and Finance
B.A., Dongbei University, China, 1977
M.Acc., Southern Illinois University, 2003
Ph.D., University of Nebraska, 2012
Barber, Heather
ASSOCIATE PROFESSOR
Kinesiology
B.S., St. Lawrence University, 1978
M.S., Pennsylvania State University, 1982
Ph.D., University of Oregon, 1992

Barcelona, Robert J
ASSOCIATE PROFESSOR
Recreation Management & Policy
B.A., University of Mississippi, 1993
M.S., 1995, Ph.D., Indiana University - Bloomington, 2001

Barkey, Dale P
PROFESSOR
Chemical Engineering
B.A., Clark University, 1979
M.S., University of Cincinnati, 1982
Ph.D., University of California - Berkeley, 1987

Barksdale, Pamela J
PRINCIPAL LECTURER EMERITA

Barnaby, Roland T
EXTENSION EDUCATOR EMERITUS
B.Ed., Plymouth State University, 1963
M.Ed., University of New Hampshire, 1970

Barnett, Carole K
ASSOCIATE PROFESSOR
Management

Barney, Dwight
ASSOCIATE PROFESSOR EMERITUS
B.S., 1967, M.S., University of New Hampshire, 1972

Barretto, Timothy E
PROFESSOR EMERITUS
B.A., 1974, M.A., University of New Hampshire, 1982

Barrows, Clayton W
PROFESSOR
Hospitality Management

Barstow, Thomas R
ASSISTANT PROFESSOR EMERITUS
B.S., 1961, M.Ed., St. Lawrence University, 1965

Barth, Brian M
ASSISTANT PROFESSOR
Molecular, Cellular, & Biomedical
B.S., 2004, M.S., Colorado State University, 2005
Ph.D., University of Alaska, 2009

Bartlett, David S
RESEARCH PROFESSOR EMERITUS
B.A., Amherst College, 1971
M.S., 1976, Ph.D., University of Delaware, 1979

Bartos, Radim
PROFESSOR
Computer Science
M.S., Czech Technical University, Czech Republic, 1987
M.S., 1996, Ph.D., University of Denver, 1997

Bartow, Ann M
PROFESSOR
UNHL FP IP Center
B.S., Cornell University, 1985
J.D., University of Pennsylvania, 1990
LL.M., Temple University, 1997

Basterra, Maria
PROFESSOR
Mathematics & Statistics
B.S., University of Texas at Austin, 1992
M.S., 1993, Ph.D., University of Chicago, 1998

Bauer, Christopher F
PROFESSOR
Chemistry
B.A., Drew University, 1996
M.A., 1999, Ph.D., Syracuse University, 2001

Baum, William M
PROFESSOR EMERITUS
A.B., 1961, Ph.D., Harvard University, 1966

Baumgartner, Kabilia S
ASSISTANT PROFESSOR
English
B.A., 2003, M.A., University of California - Los Angeles, 2005
Ph.D., University of Massachusetts - Amherst, 2011

Baxter, Charlene F
STATE EXTENSION SPECIALIST EMERITA
B.S., 1974, M.S., Cornell University, 1982

Bean, Gretchen H
CLINICAL ASSISTANT PROFESSOR
Social Work
B.A., University of New Hampshire, 1995
M.A., University of Chicago, 2002

Beasley, Joan B
RESEARCH ASSOCIATE PROFESSOR
Institute on Disability
B.A., City University of New York, 1976
M.Ed., Northeastern University, 1981
Ph.D., Brandeis University, 2000

Bechtell, Homer
PROFESSOR EMERITUS
B.S., Grove City College, 1951
M.A., 1956, Ph.D., University of Wisconsin, 1963
Becker, Mimi Larsen  
ASSOCIATE PROFESSOR EMERITUS  
B.A., Carleton College, 1957  
M.A., 1989, Ph.D., Duke University, 1993

Bedker, Patricia D  
ASSOCIATE PROFESSOR  
Biological Sciences  
B.S., University of Massachusetts - Amherst, 1976  
M.S., University of New Hampshire, 1980  
Ph.D., Cornell University, 1985

Beemer, Cristy A  
ASSOCIATE PROFESSOR  
English  
B.A., Hofstra University, 1993  
Ph.D., Miami University - Ohio, 2008

Beemer, Lawrence W  
LECTURER  
English  
B.A., State University of New York at Purchase, 1996  
M.A., State University of New York at New Paltz, 2002  
Ph.D., Ohio University, 2011

Begis, Maggie D  
CLINICAL ASSOCIATE PROFESSOR  
Agriculture, Nutrition & Food System  
Ph.D., Boston University, 2009

Begum, Momotaz  
ASSISTANT PROFESSOR  
Computer Science  
B.S., Bangladesh University of Engineering and Technology, 2003  
M.S., Memorial University - Canada, 2005  
Ph.D., Univ of Waterloo, 2010

Belair, Ethan P  
LECTURER  
Natural Resources & The Environment  
M.S., Purdue University, 2014

Belford, Mary K  
SENIOR LECTURER EMERITA  
B.S., California State College, 1970  
M.A., West Virginia University, 1972

Bell, Brent J  
ASSOCIATE PROFESSOR  
Kinesiology  
B.A., University of New Hampshire, 1989  
M.S., New England College, 1997  
Ph.D., University of New Hampshire, 2005

Bell, Erin S  
PROFESSOR  
Civil and Environmental Engineering  
B.C.E., Georgia Institute of Technology, 1996  
M.S., 1998, Ph.D., Tufts University, 2003

Beller-McKenna, Daniel  
ASSOCIATE PROFESSOR  
Music  
Ph.D., Harvard University, 1994

Bellinger, Christina  
ASSOCIATE PROFESSOR EMERITA  
B.A., Windham College, 1975  
M.S., Simmons College, 1978  
M.A., University of New Hampshire, 1997

Benassi, Victor A  
PROFESSOR EMERITUS  
B.S., California State College, 1969  
M.A., City University of New York, 1973  
Ph.D., City College of New York, 1974

Benchetrit, Assaf  
ASSISTANT PROFESSOR  
Theatre & Dance  
M.F.A., Hollins College, 2014

Benedetto, David A  
LECTURER  
Computer Science  
B.S., University of New Hampshire, 2006  
NH Experienced Educator Cert, 2012, NH Experienced Educator Cert,  
Plymouth State University/NH Technical Institute, 2015  
M.S., University of New Hampshire, 2015

Bennett, Albert B  
PROFESSOR EMERITUS  
B.S., Maine Maritime Academy, 1954  
B.S., 1958, M.A., University of Maine, 1959  
Ed.D., University of Michigan, 1966

Bennett, Jessie L  
ASSISTANT PROFESSOR  
Recreation Management & Policy  
B.S., Green Mountain College, 2004  
M.S., Brigham Young University, 2010  
Ph.D., Indiana University - Bloomington, 2013

Bennett, Karen Patricia  
FULL EXTENSION STATE SPECIALIST/PROFESSOR  
Natural Resources  
B.S., 1979, M.S., University of New Hampshire, 1992

Benoit, Jean  
PROFESSOR  
Civil and Environmental Engineering  
B.S., University of Montreal, Canada, 1977  
M.S., 1980, Ph.D., Stanford University, 1984

Benson, David F  
LECTURER  
Mathematics & Statistics  
B.S., Ursinus College, 2009  
M.S., 2012, Ph.D., University of New Hampshire, 2016
Berda, Erik B
PROFESSOR
Chemistry
B.S., Pennsylvania State University, 2003
Ph.D., University of Florida, 2008

Berenguier, Nadine S
PROFESSOR
Languages, Literatures, & Cultures
D.E.U.G., University of Paris IV Sorbonne, France, 1976
M.A., University of Pittsburgh, 1983
Ph.D., Stanford University, 1988

Bergeron, R Daniel
PROFESSOR EMERITUS
B.S., 1966, Ph.D., Brown University, 1973

Berglund, Per
PROFESSOR
Physics
B.S., Lund University, Sweden, 1988
Ph.D., University of Texas at Austin, 1993

Berlinsky, David L
PROFESSOR
Agriculture, Nutrition,& Food Systm
B.S., Michigan State University, 1977
M.S., University of New Hampshire, 1981
Ph.D., University of Rhode Island, 1989

Berndtson, William E
PROFESSOR EMERITUS
B.S., University of Connecticut, 1966
Ph.D., Cornell University, 1971

Berst, John R
ASSISTANT PROFESSOR
Theatre & Dance
B.A., State University of New York, 1989
M.F.A., Purdue University, 1999

Berube, Scott R
PRINCIPAL LECTURER
Accounting and Finance

Bigornia, Sherman J
ASSISTANT PROFESSOR
Agriculture, Nutrition,& Food Systm
M.A., Boston University, 2004
Ph.D., Boston University School of Medicine, 2012
B.S., University of California - San Diego,

Birch, Francis S
PROFESSOR EMERITUS
A.B., Harvard University, 1958
M.S., University of Wisconsin, 1964
Ph.D., Princeton University, 1969

Birch, Thomas D
PROFESSOR
Business,Politics & Security Studie
B.A., Kenyon College, 1977
M.A., 1980, Ph.D., Indiana University - Bloomington, 1983

Blakemore, Richard P
PROFESSOR EMERITUS
B.S., 1964, M.S., University at Albany, 1965
Ph.D., University of Massachusetts - Amherst, 1975

Bobick, Melvin T
PROFESSOR EMERITUS
A.B., 1949, M.A., 1982, Ph.D., University of Illinois at Chicago, 1958

Bochtler, Mark L
PRINCIPAL LECTURER
Computer Science
B.A., University of Southern Maine, 1986
Ph.D., 1995, M.S., University of New Hampshire, 2004

Boettcher, Margaret S
ASSOCIATE PROFESSOR
Earth Sciences
B.S., Brown University, 1998
Ph.D., Massachusetts Institute of Technology, 2005

Bolander, Steven F
DEAN AND PROFESSOR EMERITUS
B.S., Wesleyan College, 1966
M.B.A., University of Colorado at Boulder, 1967
Ph.D., Kent State University, 1972

Bolian, Charles E
ASSOCIATE PROFESSOR EMERITUS
B.A., Mississippi State University, 1965
Ph.D., University of Illinois at Urbana-Champaign, 1975

Bolker, Jessica A
PROFESSOR
Biological Sciences
B.S., Yale University, 1986
Ph.D., University of California - Berkeley, 1993

Bolster, W Jeffrey
PROFESSOR EMERITUS
B.A., Trinity College - Conn, 1976
M.A., Brown University, 1984
Ph.D., Johns Hopkins University, 1992

Bonaparte-Krogh, Paul M
EXTENSION SPECIALIST EMERITUS
B.A., University of Connecticut, 1977
M.Ed., Cambridge College, 1983

Bonica, Mark J
ASSISTANT PROFESSOR
Health Management & Policy
B.A., University of Massachusetts - Amherst, 1992
M.S., Univ Colorado/Denver, 1999
M.B.A., University of Massachusetts - Amherst, 2000
Ph.D., George Mason University, 2013

Bonnice, William E
ASSOCIATE PROFESSOR EMERITUS
B.E., Syracuse University, 1951
M.S., 1960, Ph.D., University of Washington, 1962
Bonzani, Paul  
CLINICAL ASSISTANT PROFESSOR  
Occupational Therapy  
B.S., New York University, 1979  
M.H.S., University of Florida, 2007

Boozer-Blasco, Claudia Ruth  
EXTENSION EDUCATOR EMERITA  
B.S., University of Rhode Island, 1972  
M.Ed., University of New Hampshire, 1988

Borda, Jennifer L  
ASSOCIATE PROFESSOR  
Communication  
B.A., Villanova University, 1995  

Borror, Arthur C  
PROFESSOR EMERITUS  
B.S., 1956, M.S., Ohio State University, 1958  
Ph.D., Florida State University, 1961

Bostic, Heidi L  
ACADEMIC ADMINISTRATOR  
Dean’s Office - Liberal Arts  
B.A., University of Nebraska, 1993  
M.A., 1994, Ph.D., Purdue University, 2000

Bothner, Wallace A  
PROFESSOR EMERITUS  
B.A., State University of New York at Binghamton, 1963  
Ph.D., University of Wyoming, 1967

Boucher, Adam N  
SENIOR LECTURER  
Mathematics & Statistics  

Boucher, Kelsey  
CLINICAL ASSISTANT PROFESSOR  
Social Work  
M.S.W., 2007, B.S., University of New Hampshire,

Boucher, Ronald J  
LECTURER  
Hospitality Management  
A.O.S., Culinary Institute of America, 1978

Boudreau, Marc A  
ASSISTANT PROFESSOR  
Chemistry  
B.S., Mount Allison University, 1997  
B.S., University of Victoria, Canada, 2001  
Ph.D., University of Alberta, Canada, 2007

Boudreau, Scott D  
LECTURER  
Civil and Environmental Engineering  
B.S.F., University of New Hampshire, 1999

Boulton, Elizabeth P  
ASSOCIATE PROFESSOR EMERITA  
D.V.M., University of Georgia, 1980

Boylan, Amy  
ASSOCIATE PROFESSOR  
Classics, Humanities & Ital Studies  
B.A., University of California - Los Angeles, 1992  
M.A., San Francisco State University, 1997  
M.A., 2000, Ph.D., University of California - Los Angeles, 2007

Boysen, Andrew A  
PROFESSOR  
Music  
B.M., University of Iowa, 1991  
M.M., Northwestern University, 1993  

Bozak, John C  
PROFESSOR EMERITUS  
B.S., University of Connecticut, 1962  
M.F., Yale University, 1963

Bradt, Shane R  
ASSOCIATE STATE SPECIALIST/PROFESSOR  
Natural Resources  
B.S., Nazareth College, 1996  
M.S., 2000, Ph.D., University of New Hampshire, 2012

Braswell, Angela M  
CLINICAL ASSISTANT PROFESSOR  
Nursing  
A.D.N., New Hampshire Community Techni, 1999  
M.S., University of New Hampshire, 2006  
Certificate, Metropolitan St Col, 2013  
B.A., University of New Hampshire,

Bresnahan, Megan M  
ASSISTANT PROFESSOR  
Academic and Community Engagement  
B.A., University of Arizona, 2004  
M.S., University of Michigan School of Information, 2007

Bressett, Lauren L  
ASSISTANT EXTENSION EDUCATOR EMERITA  
B.S., Keene State College (Nh), 1975

Brettschneider, Maria A  
PROFESSOR  
Political Science  
B.A., State University of New York at Binghamton, 1986  
M.A., 1988, Ph.D., New York University, 1993

Brewer, Jennifer F  
ASSOCIATE PROFESSOR  
Geography  
B.A., University of Michigan, 1989  
M.S., University of Maine, 2002  
Ph.D., Clark University, 2007

Brewer, Kathryn B  
ASSISTANT PROFESSOR  
Social Work  
M.S.W., Fordham University, 2008  
M.Phil., 2013, Ph.D., Columbia University in the City of New York, 2017
Brick, Danielle J  
ASSISTANT PROFESSOR  
Marketing  
B.A., Amherst College, 2008  
Ph.D., Duke University, 2016

Briggs, Janet C  
ASSISTANT PROFESSOR EMERITUS  
B.S., University of Massachusetts - Amherst, 1962

Brito, Andre Fonseca De  
ASSOCIATE PROFESSOR  
Agriculture, Nutrition, & Food Systems  
D.V.M., 1996, M.S., Federal University of Minas Gerais, Brazil, 1999  
Ph.D., University of Wisconsin - Madison, 2004

Britton, Dennis A  
ASSOCIATE PROFESSOR  
English  
B.A., University of Southern California, 1998  
M.A., 2000, Ph.D., University of Wisconsin, 2007

Brock, Wendy L  
EXTENSION STATE SPECIALIST EMERITA  
B.S., State University of New York at Plattsburgh, 1971  
M.S., University of Nebraska, 1977

Brockmann, Stephanie A  
Assistant Professor  
Economics  
B.S., Baker University, 2010  
M.A., Western Kentucky University, 2011  
Ph.D., University of Wyoming, 2019

Bromberg, Daniel E  
ASSOCIATE PROFESSOR  
Political Science  
B.A., University at Albany, 2001  
M.P.A., University of Vermont, 2006  
Ph.D., Rutgers University, 2009

Bronstein, Arna B  
ASSOCIATE PROFESSOR  
Languages, Literatures, & Cultures  
B.A., Colgate University, 1975  

Brooks, Courtney E Q  
CLINICAL ASSOCIATE PROFESSOR  
UNHL JD Instruction  
B.A., University of Massachusetts - Amherst, 1998  
J.D., Univ of San Francisco, 2001

Broussard, C Anne  
ASSOCIATE DEAN  
Dean's Office - Health & Human Svcs  
B.A., University of Texas at Austin, 1974  
M.S.W., Louisiana State University, 1977  
Ph.D., Washington State University, 1986

Brown, Benjamin Cliff  
ASSOCIATE PROFESSOR  
Sociology  
B.A., Earlham College, 1987  
M.A., 1992, Ph.D., Emory University, 1996

Brown, Bonnie L  
PROFESSOR  
Biological Sciences  
B.S., University of Alabama Birmingham, 1981  
Ph.D., Old Dominion University, 1989

Brown, Deborah G  
PROFESSOR EMERITA  
B.A., Wellesley College, 1963  
M.Ed., 1975, Ph.D., University of New Hampshire, 1976  

Brown, Roger S  
ASSOCIATE PROFESSOR EMERITUS  
A.B., Emory University, 1966  
M.A., 1969, Ph.D., University of Kansas, 1971

Brown, Warren R  
ASSOCIATE PROFESSOR EMERITUS  
B.A., Willamette University, 1966  
M.A., 1972, Ph.D., Claremont Graduate University, 1977

Browne, Gretchen S  
CLINICAL ASSISTANT PROFESSOR  
Kinesiology  
B.S., Georgia Southern University, 1985  
M.Ed., Valdosta State College, 1995

Bruce, Analena Beate  
ASSISTANT PROFESSOR  
Agriculture, Nutrition, & Food Systems  
Ph.D., The State University of New Jersey, 2016

Brucker, Debra L  
Research Associate Professor  
Institute on Disability  
Ph.D., Rutgers University, 2007

Brunet, Stephen A  
ASSOCIATE PROFESSOR  
Classics, Humanities & Ital Studies  
B.A., Pomona College, 1976  
M.A., University of Pittsburgh, 1978  
Ph.D., University of Texas at Austin, 1998

Bryce, Julia G  
PROFESSOR  
Earth Sciences  
B.A., University of Virginia, 1993  
Ph.D., University of California - Santa Barbara, 1998

Bstieler, Ludwig A  
PROFESSOR  
Marketing  
Ph.D., 1997, M.S., University of Innsbruck, Austria,
Buchbinder, Orly
ASSISTANT PROFESSOR
Mathematics & Statistics

Buckley, Louise A
ASSOCIATE PROFESSOR
Research Learning Services
B.A., 1979, M.A., St. John's University - New York, 1981
M.L.S., Rutgers University, 1992

Budd, Jordan C
PROFESSOR
UNHL JD Instruction
B.A., Harvard University, 1983
J.D., Harvard Law School, 1986

Buob, Thomas Edward
EXTENSION EDUCATOR EMERITUS
B.S., Christian Brothers University, 1970
M.S., University of New Hampshire, 1979

Burakowski, Elizabeth A
RESEARCH ASSISTANT PROFESSOR
Earth Systems Research Center
M.S., 2007, Ph.D., University of New Hampshire, 2013

Burdick, David M
RESEARCH ASSOCIATE PROFESSOR
Natural Resources & The Environment
B.S., Hobart and William Smith College, 1977
Ph.D., Louisiana State University, 1988

Burdin, Rachel S
ASSISTANT PROFESSOR
English
B.A., University of North Carolina at Chapel Hill, 2010
M.A., 2014, Ph.D., Ohio State University, 2016

Burger, John F
PROFESSOR EMERITUS
B.A., Grinnell College, 1962
M.S., 1965, Ph.D., University of Arizona, 1971

Burke, Cynthia A
CLINICAL ASSISTANT PROFESSOR
Agriculture, Nutrition,& Food Systm
B.S., 1990, M.B.A., University of New Hampshire,

Burke, Joanne D
CLINICAL PROFESSOR
Agriculture, Nutrition,& Food Systm
B.S., University of Rhode Island, 1975
M.Ed., Tufts University, 1977
Ph.D., University of New Hampshire, 2001

Burns, Carol
PROFESSOR EMERITUS
B.S., Syracuse University, 1963
Diploma, American Academy of Art, 1965
M.F.A., University of Utah, 1969

Burrows, Dorothy M
ASSISTANT EXTENSION EDUCATOR EMERITA
B.A., University of Massachusetts - Amherst, 1970

Burvikova, Ekaterina V
LECTURER
Languages, Literatures, & Cultures

Buse, Judith J
EXTENSION EDUCATOR EMERITA
B.S., Oregon State University, 1963
M.A., University of Connecticut, 1965

Buteau, Sue Manah
EXTENSION EDUCATOR EMERITA
B.S., University of Maine, Farmingto, 1971
M.S., Wageningen Agric University, T, 1977
M.B.A., Plymouth State University, 1992
B.S., Granite State College, 1999

Butkiewicz, Thomas J
RESEARCH ASSISTANT PROFESSOR
Center for Coastal & Ocean Mapping
B.S., Ithaca College, 2005
M.S., 2007, Ph.D., University of North Carolina, 2010

Byam, Martha A
CLINICAL ASSOCIATE PROFESSOR
Social Work
B.A., University of New Hampshire, 1975
M.S.W., University of Utah, 1979

C

Cacarillo, Aimee L
SENIOR LECTURER
Theatre & Dance
A., Edith Cowan University, Australia, 2003
Diploma, Western Australia Academy of Performing Arts, Australia, 2003
Diploma, Edith Cowan University, Australia, 2003

Calarco, John R
PROFESSOR EMERITUS
B.S., George Washington University, 1963
M.S., 1965, Ph.D., University of Illinois at Urbana-Champaign, 1969

Calculator, Stephen N
PROFESSOR EMERITUS
B.A., State University of New York at Oswego, 1974
M.S., State University of New York at Geneseo, 1975
Ph.D., University of Wisconsin, 1980

Calder, Brian R
RESEARCH PROFESSOR
Center for Coastal & Ocean Mapping
M.S., 1994, Ph.D., Heriot-Watt University, Scotland, 1997

Caldwell, Elizabeth E
LECTURER
Psychology
B.S., University of Iowa, 1995
M.A., 2000, Ph.D., Kent State University, 2004
Came, Rosemarie E
ASSOCIATE PROFESSOR
Earth Sciences
M.A., 2002, Ph.D., Massachusetts Institute of Technology, 2005

Campagna, Rachel L
ASSISTANT PROFESSOR
Management
B.A., Allegheny College, 2000
M., Ohio State University, 2005
Ph.D., Washington University - St Louis, 2011

Campbell, Molly C
SENIOR LECTURER
English

Capozzoli, Michelle Hopkins
LECTURER
Mathematics & Statistics
B.S., Bridgewater State University, 1992
M.S., 1995, Ph.D., University of New Hampshire, 1999

Cappiello, Joyce D
ASSOCIATE PROFESSOR
Nursing
B.S., Marycrest College, 1971
M.S., Boston College, 1977
Ph.D., Swansea University, United Kingdom, 2010

Caputo, Christine A
ASSISTANT PROFESSOR
Chemistry
B.S., Carleton University, 2001
M.S., Mcgill University, Canada, 2004
Ph.D., University of Western Ontario, Canada, 2009

Caramihalis, Charles A
PROFESSOR
Agriculture, Nutrition,& Food Systm
B.S., 1981, M.O.E., University of New Hampshire, 1987

Cardinali, Michael C
LECTURER
Art and Art History
B.F.A., State University of New York at Purchase, 2001
M.F.A., Mass College of Art, 2006

Carey, Gale B
PROFESSOR EMERITA
B.S., University of Massachusetts - Amherst, 1974
M.S., University of Wisconsin, 1976
Ph.D., University of California - Davis, 1981

Carey, Tomasaen M
SENIOR LECTURER
English

Carriens, Benjamin S
ASSOCIATE PROFESSOR
Art and Art History
B.A., College of William and Mary, 1991
M.F.A., Boston University, 1993
MTS, Harvard University, 1999

Carnaelli, Thomas A
PROFESSOR EMERITUS
A.B., Princeton University, 1958
M.A., 1960, Ph.D., Harvard University, 1966

Caron, Rosemary M
PROFESSOR
Health Management & Policy
B.A., Regis College, 1990
Ph.D., Dartmouth College, 1996
M.P.H., Boston University, 1998

Carr, Russell T
PROFESSOR
Chemical Engineering
B.S., Brigham Young University, 1980
M.S., 1983, Ph.D., University of Rochester, 1984

Carroll, John E
PROFESSOR EMERITUS
A.B., La Tech Univ, 1966
M.A., Western Michigan University, 1968
Ph.D., Michigan State University, 1974

Carson, Jessica A
RESEARCH ASSISTANT PROFESSOR
Carsey School

Carter, Elizabeth A
ASSISTANT PROFESSOR
Political Science
B.A., Whitman College, 1997

Carter, Michael J
ASSOCIATE PROFESSOR
Electrical & Computer Eng Dept
B.S.E., University of Michigan, 1975
M.S., Stanford University, 1976
Ph.D., University of Michigan, 1984

Carter, Vernon B
ASSOCIATE PROFESSOR
Social Work
A.A., Orange County Community College, 1968
B.A., State University of New York, 1970
M.S.W., University of New Hampshire, 1998
Ph.D., Boston College, 2003

Cashman, Holly R
ASSOCIATE PROFESSOR
Languages, Literatures, & Cultures
B.A., Hood College, 1994
M.A., 1997, Ph.D., University of Michigan, 2001

Ph.D., University of California - San Francisco, 2004

Chummun Leader, Divisha  
LECTURER  
Languages, Literatures, & Cultures  
B.A., Mount Holyoke College, 2012  
M.A., 2016, Ph.D., Boston University, 2018

Churchard, Timothy J  
PRINCIPAL LECTURER EMERITUS  
B.A., University of New Hampshire, 1967  
M.Ed., Salem State College, 1973  

Churchill, Joan W  
ASSOCIATE PROFESSOR EMERITA  
B.A., Ripon College, 1966  

Ciccone, Stephen J  
ASSOCIATE PROFESSOR  
Accounting and Finance  
B.S., 1994, M.S., University of Florida, 1994  
Ph.D., Florida State University, 2000

Clairmont, Richard E  
PRINCIPAL LECTURER  
Classics, Humanities & Ital Studies  
B.A., University of New Hampshire, 1971  
M.A., University of Virginia, 1973  
Ph.D., Univ of Chicago-Loyola, 1983

Clark, Mary M  
PROFESSOR EMERITA  
B.A., University of New Hampshire, 1962  
Ph.D., University of Massachusetts - Amherst, 1978

Clark, Maryann  
LECTURER  
Decisions Sciences  
B.S., Bryant University, 1988

Clark, Ronald R  
PROFESSOR EMERITUS  
B.S.E.E., University of New Hampshire, 1956  
M.S., Yale University, 1957  
Ph.D., Syracuse University, 1963

Clarke, Stephanie L  
CLINICAL ASSISTANT PROFESSOR  
Molecular, Cellular, & Biomedical  
B.S., University of New Hampshire, 2007  
M.S., Saint Josephs Coll, 2015

Clement, Bruce A  
EXTENSION EDUCATOR EMERITUS  
B.S., University of New Hampshire, 1968  
M.S., University of Connecticut, 1980

Clemmons, James H  
PROFESSOR  
Physics - Joint Positions  
B.S., University of Illinois at Urbana-Champaign, 1982  
M.A., 1983, Ph.D., University of California - Berkeley, 1992
Clifford, Virginia W
EXTENSION EDUCATOR EMERITA
B.S., 1956, M.S., University of New Hampshire, 1958

Clyde, William C
PROFESSOR
Earth Sciences
B.A., Princeton University, 1990
M.S., 1993, Ph.D., University of Michigan, 1997

Coffin, Jaed M
ASSISTANT PROFESSOR
English
B.A., Middlebury College, 2002
M.F.A., University of Southern Maine, 2009

Cohn, Ellen S
PROFESSOR
Psychology
B.A., Clark University, 1974
M.A., 1976, Ph.D., Temple University, 1978

Colbert, Jay CL
UNH Library

Cole, Chantal J
Nursing
M.S., Rivier College, 2011

Coleman, Betsy S
LECTURER
Computer Science
B.S., 1984, M.S., University of New Hampshire, 2013

Collins, John J
ASSOCIATE PROFESSOR
Molecular, Cellular, & Biomedical
B.A., Colgate University, 1976
Ph.D., University of Wisconsin, 1984

Collins, Karen E
ASSOCIATE PROFESSOR
Kinesiology
A.B., Princeton University, 1994
M.S., University of New Hampshire, 1998
Ph.D., University of North Carolina, 2002

Collins, Michael Robin
PROFESSOR
Civil and Environmental Engineering
B.S., 1970, M.S., Virginia Polytechnic Institute and State University, 1972
Ph.D., University of Arizona, 1985

Colwell, Julia Marie Novak
Natural Resources & The Environment

Conaway, Carol B
ASSOCIATE PROFESSOR EMERITA
A.B., Bryn Mawr College, 1970
S.M., 1981, Ph.D., Massachusetts Institute of Technology, 1994

Cook, Jenni Carbaugh
ASSOC DEAN-LIBERAL ARTS
Music
B.M., Bradley University, 1995

Cook, Raymond A
ASSOCIATE PROFESSOR
Civil and Environmental Engineering
A.B., 1981, B.S., University of Illinois at Urbana-Champaign, 1981
M.S., 1991, Ph.D., Cornell University, 1992

Condon, Patricia B
ASSISTANT PROFESSOR
Techolog//Scholarship/Publishing
M.A., 2005, M.L.I.S., University of Southern Mississippi, 2005
Ph.D., Simmons College, 2015

Congalton, Russell G
PROFESSOR
Natural Resources & The Environment
B.S., Rutgers University, 1979
M.S., 1981, Ph.D., Virginia Polytechnic Institute and State University, 1984

Connell, James J
ASSOCIATE PROFESSOR
Physics - Joint Positions

Connelly, Vincent J
ASSOCIATE PROFESSOR
Education
B.A., Loyola University - Maryland, 1988
M.S.Ed., 1993, Ed.D., Johns Hopkins University, 2004

Conroy, Andrew B
PROFESSOR
Agriculture, Nutrition & Food Systm
B.S., University of New Hampshire, 1986
M.S., Northwest Missouri State University, 1987
Ph.D., University of New Hampshire, 2001

Contarino, Michael
ASSOCIATE PROFESSOR EMERITUS
B.A., Connecticut College, 1976
Ph.D., Harvard University, 1984

Contosta, Alexandra R
RESEARCH ASSISTANT PROFESSOR
Earth Systems Research Center
B.A., Villanova University, 1998
Ph.D., University of New Hampshire, 2001
M.S., Antioch New England, 2005

Conway, Karen Smith
PROFESSOR
Economics
B.A., Eastern Illinois University, 1982
Ph.D., University of North Carolina at Chapel Hill, 1987

Cook, Jenni Carbaugh
ASSOC DEAN-LIBERAL ARTS
Music
B.M., Bradley University, 1995

Cook, Raymond A
ASSOCIATE PROFESSOR
Civil and Environmental Engineering
A.B., 1981, B.S., University of Illinois at Urbana-Champaign, 1981
M.S., 1991, Ph.D., Cornell University, 1992
Cook, Summer B
ASSOCIATE PROFESSOR
Kinesiology
B.S., East Stroudsburg University, 1999
M.S., 2002, Ph.D., Syracuse University, 2009

Cooke, Suzanne M
LECTURER
Life Sciences
B.A., Smith College, 2008
M.A., College of William and Mary, 2012

Cooper, Barbara T
PROFESSOR EMERITA

Coppens, Andrew D
ASSISTANT PROFESSOR
Education
B.S., University of New Hampshire, 2004
M.S., 2010, Ph.D., University of California, 2015

Corcoran, Ellen P
ASSOCIATE PROFESSOR EMERITA
B.A., Bryn Mawr College, 1962
M.A.T., 1968, Ph.D., New York University, 1972

Corvey, Candace R
VICE PRESIDENT EMERITA
B.S., Wake Forest University, 1970
M.Ed., North Carolina State University, 1972
M.B.A., Harvard University, 1980

Cote, Richard H
PROFESSOR
Molecular, Cellular, & Biomedical
B.S., Tufts University, 1974
Ph.D., University of Wisconsin, 1980

Couse, Leslie J
EXECUTIVE DIRECTOR-ENGAGEMENT & FACULTY DEVELOPMENT
Engagement and Faculty Development
B.S.Ed., State University of New York at Cortland, 1980
M.Ed., State University of New York at Brockport, 1985
M.S., Russell Sage College, 1993
Ph.D., Syracuse University, 2001

Cowen, Sharon B
FULL EXT FIELD SPECIALIST EMERITA
B.S., 1975, M.S., Ohio State University, 1981

Cox, Patricia H
CLINICAL ASSISTANT PROFESSOR
Social Work
B.S., Trinity College - Conn, 1995
M.S.Ed., Bank Street College of Education, 2000
M.S.W., University of New Hampshire, 2008

Craig, Patricia J
ASSOCIATE PROFESSOR
Recreation Management & Policy
B.S., University of Scranton, 1987
M.Ed., Temple University, 1997
Ph.D., University of New Hampshire, 2010

Crepeau, Elizabeth L
PROFESSOR EMERITA

Croce, Ronald V
PROFESSOR
Kinesiology
B.S., Brooklyn College of the City University of New York, 1973
M.Ed., Temple University, 1975
Ph.D., University of New Mexico, 1983

Crosby, Peter R
LECTURER EMERITUS
B.A., Keene State College (Nh), 1971
AMLS, University of Michigan, 1974
A.A.S., University of New Hampshire, 1977

Cross, Charlotte W
FULL EXTENSION STATE SPECIALIST/PROFESSOR EMERITA
B.S., University of Maine, 1970
M.S., Oregon State University, 1978

Crow, Garrett E
PROFESSOR EMERITUS
A.B., Taylor University, 1965
M.S., 1968, Ph.D., Michigan State University, 1974

Cui, Wenjin
ASSISTANT PROFESSOR
Languages, Literatures, & Cultures
B.A., Renmin University of China, 2002
M.A., Peking University, China, 2005
Ph.D., New York University, 2013

Culligan, Kevin M
RESEARCH ASSISTANT PROFESSOR
Molecular, Cellular, & Biomedical
B.S., University of California - San Diego, 1994
Ph.D., Oregon State University, 2000

Curran-Celentano, Joanne
PROFESSOR EMERITA
B.S., 1976, M.S., Rutgers University, 1978
Ph.D., University of Illinois at Urbana-Champaign, 1982

Curren, Leslie J
SENIOR LECTURER
Biological Sciences
B.A., Amherst College, 2005
Ph.D., Michigan State University, 2012

Curry, Susan A
SENIOR LECTURER
Classics, Humanities & Ital Studies
B.A., Grinnell College, 1998
M.A., University of Kansas, 2001
M.A., 2007, Ph.D., Indiana University, 2009

D

Daley, Patrick J
ASSOCIATE PROFESSOR EMERITUS
B.A., University of North Dakota, 1972
M.A., 1975, Ph.D., University of Iowa, 1983
Damon, John F  
EXTENSION EDUCATOR EMERITUS  
M.S., North Carolina State University, 1973

Danko, Thomas  
ASSOCIATE EXTENSION EDUCATOR EMERITUS  
M.S., University of New Hampshire, 1965

Dave, Eshan V  
ASSOCIATE PROFESSOR  
Civil and Environmental Engineering  
B.E., Sardar Patel University, India, 2001  
M.S., 2003, Ph.D., University of Illinois at Urbana-Champaign, 2009

Davis, Christie L  
CLINICAL ASSISTANT PROFESSOR  
Social Work  
M.S.W., University of New Hampshire, 2009

Davis, Jennifer M  
SENIOR LECTURER  
UNHL Graduate Instruction  
B.A., University of Massachusetts - Amherst, 1990  
J.D., Suffolk University, 1996

Davis, John Matthew  
ASSOCIATE PROFESSOR  
Earth Sciences  
B.S., Montana State University, 1987  
M.S., 1990, Ph.D., New Mexico Institute of Mining and Technology, 1994

Davis, Thomas M  
PROFESSOR  
Agriculture, Nutrition & Food System  
B.S., California Polytechnic State University - San Luis Obispo, 1980  
Ph.D., University of California - Davis, 1985

Dawson, John F  
PROFESSOR EMERITUS  
B.S., Antioch College, 1958  
Ph.D., Stanford University, 1963

Day, Melissa  
LECTURER  
Sociology  
B.A., Central Connecticut State University, 2008  
M.S., Illinois State University, 2010  
Ph.D., University of New Hampshire, 2019

Deen, Phillip D  
SENIOR LECTURER  
Communication Arts and Science  
B.A., Texas A & M University, 1994  
M.A., 1996, Ph.D., Southern Illinois University - Carbondale, 2004

DeJoie, John  
LECTURER  
Social Work  
M.S.W., Simmons College, 1985

Del Hierro, Marcos J  
ASSISTANT PROFESSOR  
English  
B.A., Baylor University, 2006  
M.A., University of Texas at El Paso, 2009  
Ph.D., Texas A & M University, 2014

DeMitchell, Todd A  
PROFESSOR  
Education  
B.A., 1969, M.A.T., University of La Verne, 1973  
Ed.D., University of Southern California, 1979  
M.A., University of California - Davis, 1990

Denis, Clyde L  
PROFESSOR EMERITUS  
B.S., University of Illinois at Urbana-Champaign, 1973  
M.S., 1976, Ph.D., University of Washington, 1982

Denman, Margaret-Love G  
ASSOCIATE PROFESSOR EMERITA  
B.A., 1961, M.A., University of Mississippi, 1967

Desmond, Cecile G  
CLINICAL ASSISTANT PROFESSOR  
Psychology  
B.A., Randolph-Macon Woman’s College, 1993  
M.Div., 1998, Ph.D., Boston University, 2012

DeSoye, Caitlin A  
SENIOR LECTURER  
Accounting and Finance  
B.S., Bentley College, 2005  
J.D., Suffolk University, 2012

Desrosiers, Denise S  
SENIOR LECTURER  
English as a Second Language  
B.A., Mount Holyoke College, 2003  
M.A., University of California - Los Angeles, 2009

Desrosiers, Richard V  
ASSOCIATE PROFESSOR EMERITUS  
A.B., Boston College, 1960  
M.A., University of Wisconsin, 1961  
Ph.D., University of North Carolina, 1969

DeTurk, Mark S  
ASSOCIATE PROFESSOR  
Music  
B.S.E., Princeton University, 1972  
B.M., University of Wisconsin, 1975  
M.M., Ohio State University, 1982  
Ph.D., University of Wisconsin, 1988

Devasher, Divya Madhavi  
ASSISTANT PROFESSOR  
Political Science  
B.A., Stanford University, 2006  
Ph.D., Yale University, 2014
deVries, Willem A  
PROFESSOR  
Philosophy  
B.A., Haverford College, 1972  
M.A., 1975, Ph.D., University of Pittsburgh, 1981

Dibb, Jack E  
RESEARCH ASSOCIATE PROFESSOR  
Earth Systems Research Center  
B.S., University of Puget Sound, 1981  

Dickinson, Joseph  
PROFESSOR EMERITUS

Diefendorf, Jeffry M  
PROFESSOR EMERITUS  
A.B., Stanford University, 1967  
M.A., 1968, Ph.D., University of California - Berkeley, 1975

Dietz, Laura M  
ASSISTANT PROFESSOR  
Computer Science  
B.S., 2002, M.S., J.W. Goethe Universitaet, Germany, 2002  
Ph.D., Max Planck Institute, 2011

Dijkstra, Jennifer A  
RESEARCH ASSISTANT PROFESSOR  
Center for Coastal & Ocean Mapping  
B.A., University of New Brunswick, C, 1995  
M.S., University of Bremen, Germany, 2000  
Ph.D., University of New Hampshire, 2007

Diller, Ann  
PROFESSOR EMERITA  
B.A., Maryville College -TN, 1960  
M.A., Univ of Tulsa, 1962  
Ed.D., Harvard University, 1971

Diller, Karl C  
PROFESSOR EMERITUS  
B.A., University of Pittsburgh, 1961  
M.Ed., 1964, Ph.D., Harvard University, 1967

Dillon, Michele M  
DEAN, COLLEGE OF LIBERAL ARTS  
Dean's Office - Liberal Arts  

Dinapoli, Pamela P  
ASSOCIATE PROFESSOR  
Nursing  
B.S.N., Thomas Jefferson University of, 1981

Ph.D., University of Massachusetts - Lowell, 2000

Dingman, S Lawrence  
PROFESSOR EMERITUS  
A.B., Dartmouth College, 1960  
M.A., 1961, Ph.D., Harvard University, 1970

Dion, Maeve L  
ASSISTANT PROFESSOR  
Business,Politics & Security Studie  
B.A., Eckerd College, 1996  
J.D., George Mason University, 2006

Dobbins, Lori E  
PROFESSOR  
Music  
B.A., San Jose State University, 1980  
M.F.A., California Institute of the Arts, 1982  
Ph.D., University of California - Berkeley, 1990

Dodge, Arthur G  
EXTENSION EDUCATOR EMERITUS  
M.S.F., Harvard University, 1960

Dodge, Peter  
ASSOCIATE PROFESSOR EMERITUS  
B.A., Swarthmore College, 1948  
M.A., 1950, Ph.D., Harvard University, 1961

Dolan, Elizabeth M  
ASSOCIATE PROFESSOR EMERITA  
B.A., University of California - Santa Barbara, 1971  
M.A., Michigan State University, 1973  
Ph.D., Virginia Polytechnic Institute and State University, 1980

Dole, Sumner A  
EXTENSION EDUCATOR EMERITUS  
M.P.A., University of New Hampshire, 1987

Donahue, Ann Elizabeth  
ASSOCIATE PROFESSOR  
UNHM Degree Programs  
B.A., University of New Hampshire, 1994  
M.L.S., Southern Connecticut State University, 1995  
ALM, Harvard University, 2005

Dorsey, Kurk  
PROFESSOR  
History  
B.A., Cornell University, 1987  
M.A., Northwestern University, 1989  
Ph.D., Yale University, 1994

Dorsey, Marion Girard  
ASSOCIATE PROFESSOR  
History  
B.A., Stanford University, 1993  
J.D., Harvard University, 1997  
M.A., 1999, M.Phil., 2001, Ph.D., Yale University, 2002

Doucet, Lorraine D  
ASSOCIATE PROFESSOR EMERITA  
B.A., Notre Dame College, 1961  
M.A., Rivier College, 1968  
Ph.D., Clark University, 1974

Dowd, Eleanne Solorzano  
ASSOCIATE PROFESSOR  
Decisions Sciences  
B.S., 1993, M.S., University of Florida, 1995  
Ph.D., University of South Carolina, 1999
Dowd, Matthew J  
SENIOR LECTURER  
Philosophy  
Ph.D., Southern Illinois University, 2016  

Drake, Allen D  
ASSOCIATE PROFESSOR EMERITUS  
B.S., University of Rhode Island, 1967  
S.M., Massachusetts Institute of Technology, 1968  
A.M., Harvard University, 1971  
Ph.D., Tufts University, 1978  

Draper, Nora R A  
ASSISTANT PROFESSOR  
Communication  
B.P.A., 2007, M.A., Carleton University, 2009  
M.A., 2011, Ph.D., University of Pennsylvania, 2014  

Draper, Ralph W  
ASSOCIATE PROFESSOR EMERITUS  
B.S., 1965, M.S.M.E., University of Maine, 1970  

Drugan, Robert C  
PROFESSOR  
Psychology  
B.A., Susquehanna University, 1979  
M.A., 1981, Ph.D., University of Colorado at Boulder, 1984  

Drumheller, Grant H  
PROFESSOR EMERITUS  

Druskan, Vanessa G U  
ASSOCIATE PROFESSOR  
Management  
B.A., Indiana University - Bloomington, 1982  
M.A., Columbia University in the City of New York, 1988  
Ph.D., Boston University, 1996  

Drysdale, Alasdair Duncan  
PROFESSOR EMERITUS  
B.A., 1971, M.A., University of Durham, United Kingdom, 1972  
Ph.D., University of Michigan, 1977  

Du, Shuili  
ASSOCIATE PROFESSOR  
Marketing  
B.A., Tsinghua University, China, 1996  
M.A., Fudan University, China, 2002  
D.B.A, Boston University, 2007  

Dubnick, Melvin J  
PROFESSOR  
Political Science  
B.S., Colorado State University, 1968  
M.A., 1969, Ph.D., University of Colorado at Boulder, 1974  

Ducey, Mark J  
PROFESSOR  
Natural Resources & The Environment  

Duncan, Cynthia M  
PROFESSOR EMERITA  
B.A., Stanford University, 1970  
M.A., 1981, Ph.D., 1985, Ph.D., University of Kentucky, 1985  

Durakis-Stokes, Jessica M  
SENIOR LECTURER  
UNHL Graduate Instruction  
B.A., University of New Hampshire, 2000  
J.D., Vermont Law School, So Royalto, 2004  

Dusek, R Valentine  
PROFESSOR EMERITUS  
B.A., Yale University, 1963  
Ph.D., University of Texas at Austin, 1972  

Dutta, Devkamal  
ASSOCIATE PROFESSOR  
Management  
B.Eng., Birla Institute of Technology and Science, 1986  
Certificate, University of Western Ontario, Canada, 1986  
M.A.F., Indian Institute of Finance, 1991  
Ph.D., University of Western Ontario, Canada, 2007  

Dwyer, Joseph Richard  
PROFESSOR  
Physics - Joint Positions  
B.S., University of California, 1986  
Ph.D., 1994, M.S., University of Chicago, 1998  

E  

Earle, Andrew G  
ASSISTANT PROFESSOR  
Management  
B.A., Western Washington University, 2002  
M.A., Washington State University, 2006  
M.B.A., 2008, Ph.D., University of Oregon, 2013  

Earle, Sarah E  
LECTURER  
English as a Second Language  
B.A., Concordia University, Canada, 2005  
M.F.A., University of New Hampshire, 2014  

Eaton, Alan T  
EXTENSION STATE SPECIALIST/PROFESSOR EMERITUS  
B.S., University of Massachusetts - Amherst, 1972  
M.S., Virginia Polytechnic Institute and State University, 1975  
Ph.D., North Carolina State University, 1978  

Ebadi, Alireza  
LECTURER  
Mechanical Engineering  
B.S., Shariff University of Technology, Iran, 2010  
Ph.D., University of New Hampshire, 2016  

Echt, Olof E  
PROFESSOR EMERITUS  
Diploma, Free University of Berlin, Germany, 1975  
Ph.D., University of Konstanz, Germany, 1979
Eckert, Robert T  
PROFESSOR EMERITUS  
B.S., 1967, M.S., SUNY College of Environmental Science and Forestry, 1974  
Ph.D., Ohio State University, 1978  

Eckstein, Robert P  
SENIOR LECTURER  
Psychology  
B.A., City University of New York, 1998  
M.S., Loyola University - Maryland, 2000  

Edmonds, Robert Lee  
PROFESSOR EMERITUS  
B.S., 1965, M.S., SUNY College of Environmental Science and Forestry, 1969  

Edwards, Ruth S  
ASSOCIATE PROFESSOR EMERITA  
B.M., 1949, M.M., Northwestern University, 1950  

Eggers, Walter F  
PROFESSOR EMERITUS  
B.A., Duke University, 1964  
Ph.D., University of North Carolina at Chapel Hill, 1971  

Eke Rubini, Burcu  
LECTURER  
Decisions Sciences  
B.S., Middle East Tech Univ, 2002  
M.A., Southern Illinois University, 2004  
M.S., 2006, Ph.D., Arizona State University, 2010  

Elmslie, Bruce T  
PROFESSOR  
Economics  
B.S., Westminster College - Utah, 1983  
Ph.D., University of Utah, 1988  

Elsawa, Sherine F  
ASSOCIATE PROFESSOR  
Molecular, Cellular, & Biomedical  
B.S., Alexandria University, 1992  
M.S., Florida Intl University, 1998  
Ph.D., University of North Carolina, 2003  

Elson, Jean  
LECTURER EMERITA  
M.A., 1996, Ph.D., Brandeis University, 2000  
B.A.,, M.Ed., Boston University.  

Emison, Patricia A  
PROFESSOR  
Art and Art History  
B.A., Bryn Mawr College, 1978  
M.A., 1980, M.Phil., 1982, Ph.D., Columbia University in the City of New York, 1985  

Endrizzi, Susan I  
SENIOR LECTURER  
Theatre & Dance  
B.F.A., Butler University, 1994  

England, Richard W  
PROFESSOR EMERITUS  
B.A., Oakland University, 1965

Ph.D., University of Illinois, 1989  

Ernakovich, Jessica G  
ASSISTANT PROFESSOR  
Natural Resources & The Environment  
B.S., California State Polytechnic University, 2002  
Ph.D., Colorado State University, 2014  

Eshbach, Robert W  
ASSOCIATE PROFESSOR  
Music  
B.A., Yale University, 1973  

Estes, George O  
PROFESSOR EMERITUS  
B.S., 1958, M.S., University of Maine, 1960  
Ph.D., Oregon State University, 1969  

Etebari, Ahmad  
PROFESSOR  
Accounting and Finance  
B.A., Teheran Business College, Iran, 1973  
M.B.A., Texas A & M University, 1975  
Ph.D., University of North Texas, 1979  

Evans, Elizabeth J  
CLINICAL ASSISTANT PROFESSOR  
Nursing  

Evans, Risa  
SENIOR LECTURER  
UNHL JD Instruction  
B.A., Barnard College, 1986  
J.D., Yale Law School, 1993  

Evans, Tonya M  
ASSOC DEAN ACAD AFFAIRS-UNHL  
UNHL Assoc Dean, Academic Affairs  
B.S., Northwestern University, 1991  
J.D., Howard University, 1998
Exline, Eleta C
ASSOCIATE PROFESSOR
Technolog//Scholarship/Publishing
B.A., Smith College, 1995
C.A.S., 2005, M.S., Syracuse University, 2005
M.A., University of New Hampshire, 2014

Fabrizio, Richard F
EXTENSION EDUCATOR EMERITUS
MVA, University of Massachusetts - Amherst, 1959

Fagerberg, Wayne R
PROFESSOR EMERITUS
B.S., University of Wyoming, 1967
M.A., 1972, Ph.D., University of South Florida, 1975

Fairchild, Elizabeth A
RESEARCH ASSOCIATE PROFESSOR
Biological Sciences

Falvey, Janet E
PROFESSOR EMERITA
B.S., University of Maryland, 1977
M.A., University of New Hampshire, 1980
Ph.D., Pennsylvania State University, 1983

Fan, Stephen S T
PROFESSOR EMERITUS
B.S., 1957, M.S., 1960, Ph.D., Stanford University, 1962

Farag, Ihab H
PROFESSOR EMERITUS
B.S., Cairo University, Egypt, 1967
M.S., 1970, D.Sc., Massachusetts Institute of Technology, 1976

Farrell, James M
PROFESSOR
Communication
B.A., Bridgewater State University, 1979
M.A., University of Maine, 1982
Ph.D., University of Wisconsin - Madison, 1988

Farrugia, Charles J
RESEARCH PROFESSOR
Space Science Center
B.S., University of Malta, 1966
Diploma, University of London, United Kingdom, 1978
M.S., University of Bern, Switzerland, 1978
Diploma, University of Munich, Germany, 1982
Ph.D., University of Bern, Switzerland, 1984

Favazza, Alex T
LECTURER
Music
B.M., Middle Tennessee State University, 2009
M.M., University of Southern Mississippi, 2015
Ph.D., Florida State University, 2018

Feldman, David V
ASSOCIATE PROFESSOR
Mathematics & Statistics
B.A., Yale University, 1977
Ph.D., Wesleyan University, 1987

Fensom, Gail A
ASSOCIATE PROFESSOR
Communication Arts and Science
B.A., University of Rhode Island, 1970
M.A., Oklahoma State University, 1973
Ph.D., University of New Hampshire, 2007

Ferber, Michael K
PROFESSOR EMERITUS
B.A., Swarthmore College, 1966
M.A., 1969, Ph.D., Harvard University, 1975

Ferguson, Lauren A
LECTURER
Recreation Management & Policy
B.S., Colorado State University, 2008
M.S., 2015, Ph.D., Pennsylvania State University, 2018

Ferguson, Michael D
ASSISTANT PROFESSOR
Recreation Management & Policy
B.S., 2009, M.S., West Virginia University, 2012
Ph.D., Pennsylvania State University, 2016

Fernald, Peter S
PROFESSOR EMERITUS
A.B., Amherst College, 1958
M.S., Springfield College, 1959
Ph.D., Purdue University, 1963

Ferrara, Michael
DEAN
Dean's Office - Health & Human Svcs
B.S., Ithaca College, 1980
M.A., Michigan State University, 1983
Ph.D., Pennsylvania State University, 1990

Fertik, Harriet H
ASSISTANT PROFESSOR
Classics, Humanities & Ital Studies
B.A., University of Chicago, 2008
Ph.D., University of Michigan, 2014

Field, Thomas G
PROFESSOR OF LAW EMERITA

Fink, Stephen L
PROFESSOR EMERITUS
B.S., Union College - New York, 1954
Ph.D., Case Western Reserve University, 1959

Finkelhor, David
PROFESSOR
Sociology
B.A., 1968, M.Ed., Harvard University, 1971
Ph.D., University of New Hampshire, 1978
Fischer, Shawna M  
ASSISTANT PROFESSOR  
Physics  
B.S., Occidental College, 2005  
M.S., 2008, Ph.D., Brown University, 2013

Fisher, Carol J  
PRINCIPAL LECTURER  
Theatre & Dance  
B.A., University of South Florida, 1979  
M.A., Arizona State University, 1981

Fisher, George T  
ASSOCIATE PROFESSOR EMERITUS

M.A., University of Kent, United Kingdom, 1969
Freedman, Diane P
PROFESSOR
English
M.A., Boston University, 1982
Ph.D., University of Washington, 1989

Frey, Serita D
PROFESSOR
Natural Resources & The Environment
B.A., 1988, M.S., University of Virginia, 1992
Ph.D., Colorado State University, 1999

Friedman, Mary Adamo
PRINCIPAL LECTURER
Natural Resources & The Environment
B.S., Western Illinois University, 1981
M.S., University of Illinois, 1990
Ph.D., University of New Hampshire, 2010

Frieron, Cathy A
PROFESSOR
History
B.A., University of North Carolina at Chapel Hill, 1975
A.M., 1978, Ph.D., Harvard University, 1985

Frolking, Stephen E
RESEARCH PROFESSOR
Earth Systems Research Center

Frost, Lauryn
CLINICAL ASSISTANT PROFESSOR
Nursing
Associate, 2007, BS, University of New England, 2010
MS, University of New Hampshire, 2012
DNP, Northeastern University, 2017

Frye, Jennifer M
CLINICAL ASSISTANT PROFESSOR
Recreation Management & Policy

Frye, Matthew S
CLINICAL ASSISTANT PROFESSOR
Recreation Management & Policy
B.S., 2002, M.S., University of New Hampshire, 2012

Fuld, Kenneth
DEAN AND PROFESSOR EMERITUS
B.A., Northeastern University, 1971
Ph.D., Dartmouth College, 1976

Furey, Nathaniel B
ASSISTANT PROFESSOR
Biological Sciences
B.S., University of New England, 2009
M.S., Texas A & M University, 2012
Ph.D., University of British Columbia, 2016

Fussell, Barry K
PROFESSOR
Mechanical Engineering
B.S., 1975, M.S., 1980, Ph.D., Ohio State University, 1987

G

Galvin, Antoinette B
RESEARCH PROFESSOR
Space Science Center
B.S., Purdue University, 1974
Ph.D., 1976, M.S., University of Maryland, 1982

Gamso, Carolyn B
ASSOCIATE PROFESSOR
Library & Media Services
B.A., College of The Holy Cross, 1989
M.A., Indiana University, 1991
M.L.I.S., University of Rhode Island, 1997

Garcia-Rasilla, Carmen
PROFESSOR
Languages, Literatures, & Cultures
Licent, 1985, Ph.D., Universidad de Valladolid, Spain, 1990

Gardner, James V
RESEARCH PROFESSOR
Center for Coastal & Ocean Mapping
B.S., San Diego State Univ, 1967
M.A., 1969, Ph.D., Columbia University in the City of New York, 1973

Gardner, Kevin H
VICE PROVOST FOR RESEARCH PROFESSOR
Research Office Central Operations
B.S., Union College, 1989
M.S., 1991, Ph.D., Clarkson University, 1996

Garland, Lynn B
EXTENSION EDUCATOR EMERITA
M.S., University of New Hampshire, 1979

Garland, Virginia E
ASSOCIATE PROFESSOR EMERITA
B.A., University of South Carolina, 1969
M.A.T., Harvard University, 1972
Ph.D., University of Connecticut, 1981

Garnas, Jeffrey R
ASSISTANT PROFESSOR
Natural Resources & The Environment
B.A., University of Colorado at Boulder, 1999
M.S., University of Maine, 2005
Ph.D., University of Connecticut, 2009

Garofalo, Piero
PROFESSOR
Classics, Humanities & Ital Studies
B.A., University of Wisconsin - Madison, 1988

Garvey, John B
PRINCIPAL LECTURER
UNHL Daniel Webster Scholars Progra
A.B., Harvard University, 1974
J.D., Suffolk University, 1978
Gass, Michael A  
PROFESSOR  
Kinesiology  
B.A., St. Olaf College, 1978  
M.A., University of Northern Colorado, 1979  
Ph.D., University of Colorado at Boulder, 1986

Gaudard, Marie A  
PROFESSOR EMERITA  
A.B., Mount Holyoke College, 1973  
Ph.D., University of Massachusetts - Amherst, 1977

Gaudette, Henri E  
PROFESSOR EMERITUS  
B.A., University of New Hampshire, 1959  
M.S., 1962, Ph.D., University of Illinois at Chicago, 1963

Ge, Liming  
PROFESSOR  
Mathematics & Statistics  
B.S., Beijing University, China, 1984  
M.S., Qufu Normal University, China, 1987  
Ph.D., University of Pennsylvania, 1995

Gerard, Jeanne G  
LECTURER  
Business, Politics & Security Studies  
B.A., University of Massachusetts - Amherst, 1972  
M.S., Bank Street College of Education, 1976  
M.S., University at Albany.

Gercke, Nicole T  
LECTURER  
Classics, Humanities & Ital Studies  
B.A., Dartmouth College, 1998  
M.A., Middlebury College, 2008  
Ph.D., Brown University, 2015

Gerhard, Glen C  
PROFESSOR EMERITUS  
B.S.E.E., Syracuse University, 1956  
M.S., 1958, Ph.D., Ohio State University, 1963

Germaschewski, Kai K  
ASSOCIATE PROFESSOR  
Physics  
Diploma, 1998, Ph.D., Heinrich Heine University Düsseldorf, Germany, 2001

Germaschewski, Yin  
ASSISTANT PROFESSOR  
Economics  
B.A., Wuhan University, China, 2003  
M.A., University of New Hampshire, 2005  

Ghayoomi, Majid  
ASSOCIATE PROFESSOR  
Civil and Environmental Engineering  
B.S., University of Tehran, Iran, 2004  
M.S., Sharif University of Technology, Iran, 2006  
Ph.D., University of Colorado at Boulder, 2011

Gibbons, Michelle G  
ASSISTANT PROFESSOR  
Communication  
B.A., Vassar College, 2000  
M.A., 2007, Ph.D., University of Pittsburgh, 2010

Gibson, Brett M  
ASSOCIATE DEAN  
Dean's Office - Liberal Arts  
B.A., University of Minnesota, 1991  
M.S., Bucknell University, 1995  
Ph.D., University of Nebraska, 1999

Gibson, John F  
ASSOCIATE PROFESSOR  
Mathematics & Statistics  
B.A., St. John's College, 1988  
Ph.D., Cornell University, 2002

Gilbert, Joseph P  
LECTURER  
English as a Second Language  

Gildersleeve, A Michael  
PRINCIPAL LECTURER  
Computer Science  
B.A., Dartmouth College, 1989  
M.S., University of New Hampshire, 2002

Gillespie, Maureen  
SENIOR LECTURER  
Psychology  
B.A., University of New Hampshire, 2006  
M.A., 2008, Ph.D., Northeastern University, 2011

Gingras, Rene J  
PROFESSOR  
Agriculture, Nutrition & Food Systems  
B.S., University of New Hampshire, 1975  
M.S., Virginia Polytechnic Institute and State University, 1997

Giordano, Jennifer A  
ASSOCIATE PROFESSOR  
Resource Acquisition and Discovery  
B.A., University of New Hampshire, 1991  
M.L.S., Simmons College, 1998  
M.B.A., University of New Hampshire, 2005

Giraud, Kelly L  
ASSOCIATE PROFESSOR  
Natural Resources & The Environment  
B.A., Ithaca College, 1992  
M.S., West Virginia University, 1996  
Ph.D., Colorado State University, 1999

Girdner, Shelley R  
PRINCIPAL LECTURER  
English  
B.A., University of Virginia, 1997  
M.A., University of New Hampshire, 2000

Gire, Judith Ann  
LECTURER EMERITUS
Goodridge, Lyndon E
PROFESSOR EMERITUS
B.S., 1965, M.S., University of Georgia, 1966
Ph.D., Purdue University, 1971

Goodspeed, Charles H
ASSOCIATE PROFESSOR EMERITUS
Ph.D., University of Cincinnati, 1972

Goodwin, Casey S
SENIOR LECTURER
Music

Gordon, Bernard K
PROFESSOR EMERITUS
Ph.D., University of Chicago, 1959

Gottel, Debra A
CLINICAL ASSISTANT PROFESSOR
Nursing
M.H.S., Keene State College (Nh), 1990
M.S.N., Western Governor’s University, 2012

Gottwald, Sheryl R
CLINICAL ASSISTANT PROFESSOR
Communication Sciences & Disorders
B.S., Northeastern University, 1976
M.S., Pennsylvania State University, 1977
Ph.D., Temple University, 1990

Gough, Robert A
LECTURER
Management
A.B., Bates College, 1968
M.A., 1971, Ph.D., Duke University, 1975

Gould, Eliga H
PROFESSOR
History
A.B., University of North Carolina, 1948
M.A., University of North Carolina, 1950
Ph.D., University of North Carolina, 1954

Grady, James Edward
ASSOCIATE DIRECTOR EMERITUS
B.S., University of New Hampshire, 1972

Graham, Karen J
PROFESSOR
Mathematics & Statistics
B.A., State University of New York at Cortland, 1975
M.S., University of New Hampshire, 1983
Ph.D., University of New Hampshire, 1986

Graham, Suzanne E
ASSOCIATE PROFESSOR
Education
B.S., Brown University, 1985
Grandy, Andrew Stuart
ASSOCIATE PROFESSOR
Natural Resources & The Environment
B.S., The Evergreen State College, O, 1995

Ph.D., Michigan State University, 2005

Gravink, Jill K
CLINICAL ASSISTANT PROFESSOR
Recreation Management & Policy
M.S., 2007, B.S., University of New Hampshire,

Greabe, John M
PROFESSOR
UNHL JD Instruction
B.A., Dartmouth College, 1985
J.D., Harvard Law School, 1988

Greenberg, Arthur
PROFESSOR
Chemistry
B.S., Fairleigh Dickinson University, 1967
M.A., 1970, Ph.D., Princeton University, 1971

Greenslade, Kathryn J
ASSISTANT PROFESSOR
Communication Sciences & Disorders
B.S., Vanderbilt University, 2001
M.S., University of Arizona, 2007
Ph.D., University of Washington, 2015

Greenslade, Margaret E
ASSOCIATE PROFESSOR
Chemistry
B.A., Bryn Mawr College, 1998
Ph.D., University of Pennsylvania, 2005

Gregory, Paula J
EXTENSION EDUCATOR EMERITA
B.Ed., 1971, M.O.E., Keene State College (Nh), 1977

Grenier, Michelle A
ASSOCIATE PROFESSOR
Kinesiology
B.S., University of Massachusetts - Amherst, 1978
M.S., 1995, Ph.D., University of New Hampshire, 2004

Gress, David L
PROFESSOR EMERITUS
A.S., Vincennes University, 1963
B.S., 1966, M.S., 1968, Ph.D., Purdue University, 1976

Griffin, Jennifer A
ASSISTANT PROFESSOR
Management

Grinde, Roger B
ASSOCIATE PROFESSOR
Decisions Sciences
B.A., Carroll College, 1984
M.S., Oregon State University, 1986
Ph.D., Pennsylvania State University, 1993

Griswold, Lou Ann
ASSOCIATE PROFESSOR
Occupational Therapy
B.S., 1979, M.S., Colorado State University, 1986
Ph.D., University of New Hampshire, 1995

Grizzle, Raymond Edward
RESEARCH PROFESSOR
Biological Sciences
B.S., Florida State University, 1972
M.S., University of Central Florida, 1981
Ph.D., Rutgers University, 1988

Gross, Charles W
PROFESSOR EMERITUS
Ph.D., University of Colorado at Boulder, 1972

Gross, Todd Stuart
PROFESSOR
Mechanical Engineering
B.S., Carnegie Mellon University, 1975
Ph.D., Northwestern University, 1981

Gruen, Thomas W
PROFESSOR
Marketing
B.A., Gordon College, 1977
M.B.A., 1980, M.S., Indiana University, 1995
M.A., Gordon College, 1997
Ph.D., Indiana University, 1997

Grunkemeyer, Vanessa L
LECTURER
Agriculture, Nutrition, & Food Systm
B.S., Rutgers University, 2003
D.V.M., Cornell University, 2007

Guerdat, Kate G
ASSOCIATE STATE SPECIALIST
Youth and Family
B.A., Fordham University, 2002

Guerdat, Todd C
ASSISTANT PROFESSOR
Agriculture, Nutrition, & Food Systm
B.S., University of North Carolina, 1999
M.S., 2008, Ph.D., North Carolina State University, 2012

Gullace, Nicoletta F
ASSOCIATE PROFESSOR
History
B.A., University of Rochester, 1983
M.A., 1987, Ph.D., University of California - Berkeley, 1993

Gullion, Laurie
CLINICAL ASSOCIATE PROFESSOR EMERITA
B.S., 1976, M.S., University of Massachusetts - Amherst, 1991
Gunlogson, Elizabeth M
ASSOCIATE PROFESSOR
Music
B.A., Luther College, 1993
M.M., Indiana University, 1996
D.M., Florida State University, 2006

Gunn, John Steven
RESEARCH ASSISTANT PROFESSOR
Natural Resources & The Environment
B.S., University of Maine, 1991
M.F.S., Yale University, 1996
Ph.D., University of New Brunswick, C, 2004

Guo, Lin
ASSOCIATE PROFESSOR
Marketing
M.A., Renmin University of China, 1995
Ph.D., University of Arizona, 2010
B.A., Renmin University of China,

Gupta, Nivedita Ranbir
PROFESSOR
Chemical Engineering
B.S.E.T., Indian Institutes of Technology, India, 1993
Ph.D., Pennsylvania State University, 1999

Gutman, Jonathan
PROFESSOR EMERITUS
B.A., Pomona College, 1960
M.S., Purdue University, 1962
Ph.D., University of South Carolina, 1967

Gwebu, Kholekile L
ASSOCIATE PROFESSOR
Decisions Sciences
M.B.A., 2002, Ph.D., Kent State University, 2006
B. Com., National University of Lesotho, South Africa,

Gyory, Joanna
Analytics & Data Science

Hackett, Robin Michelle
ASSOCIATE PROFESSOR
English
B.A., University of California - Davis, 1986
M.A., Sonoma State University, 1993
Ph.D., City University of New York, 2000

Hadwin, Donald W
PROFESSOR
Mathematics & Statistics
B.S., Michigan State University, 1967
M.A., University of Wisconsin, 1968
Ph.D., Indiana University - Purdue University Fort Wayne, 1975

Haebler, Peter
ASSOCIATE DEAN EMERITUS
Ph.D., University of New Hampshire, 1976

Hageman, Elizabeth H
PROFESSOR EMERITA
B.S., Simmons College, 1963
M.A., Barnard College, 1964
Ph.D., University of North Carolina, 1971

Hagen, Margaret Pratt
EXTENSION SPECIALIST EMERITUS
B.S., Brown University, 1977
M.S., Colorado State University, 1986

Haines, Thomas W
ASSOCIATE PROFESSOR
English
B.A., Dartmouth College, 1990
M.J., University of California - Berkeley, 1994

Hale, Iago L
ASSOCIATE PROFESSOR
Agriculture, Nutrition, & Food Systems
B.A., Dartmouth College, 1997
M.S., 2007, Ph.D., University of California - Davis, 2011

Haley, Lauren K
Management
B.A., University of New Hampshire, 2004
M.A., American University, 2007
Ed.D., Plymouth State University, 2018

Hall, Carrie L
ASSISTANT PROFESSOR
Biological Sciences
A.A., Community College of the Air Force, 2002
B.S., 2006, M.S., Univ of Tulsa, 2008
Ph.D., Idaho State University, 2011

Hall, Francine S
PROFESSOR EMERITA
B.A., Boston University, 1965
M.S., Southern Connecticut State University, 1968
Ph.D., University of Toronto, Canada, 1975

Hall, Meredith A
LECTURER EMERITA
B.A., Bowdoin College, 1993
M.A., University of New Hampshire, 1995

Halliday, Aria S
ASSISTANT PROFESSOR
Women's and Gender Studies
M.A., Purdue University, 2004
B.A., Davidson College, 2014
Ph.D., Purdue University, 2017

Halpern, Jeffrey M
ASSISTANT PROFESSOR
Chemical Engineering
B.S., 2003, Ph.D., Case Western Reserve University, 2010

Halpin, Patricia A
ASSOCIATE PROFESSOR
Life Sciences
B.S., Old Dominion University, 1983
M.S., 1995, Ph.D., University of Connecticut, 1996
Halstead, John M
PROFESSOR
Natural Resources & The Environment
B.A., University of Notre Dame, 1976
M.S., University of Massachusetts - Amherst, 1981
Ph.D., Virginia Polytechnic Institute and State University, 1989

Hambacher, Elyse L
ASSOCIATE PROFESSOR
Education
B.A., University of Florida, 2005
M.A., Columbia University in the City of New York, 2006
Ph.D., University of Florida, 2013

Hamilton, Lawrence C
PROFESSOR
Sociology
B.A., University of California - Santa Barbara, 1970
M.A., 1974, Ph.D., University of Colorado at Boulder, 1978

Haney, James F
PROFESSOR
Biological Sciences
B.A., 1961, M.A., Miami University - Ohio, 1963
Ph.D., University of Toronto, Canada, 1970

Hanlon, Michael J
LECTURER
Accounting and Finance
B.S., Bentley College, 1997
M.B.A., University of New Hampshire, 2005

Hansen, Larry James
ASSOCIATE PROFESSOR EMERITUS
B.S., 1968, M.S., Brigham Young University, 1971
Ph.D., Florida State University, 1973

Hanson, Mary Katharine
PROFESSOR EMERITA
B.A., Connecticut College, 1973
M.Ed., University of New Hampshire, 1976

Hart, John L
PROFESSOR EMERITUS
B.A., New College, 1969
M.S., University of Michigan, 1974
M., University of Massachusetts - Amherst, 1994

Harter, Robert D
PROFESSOR EMERITUS
B.S., 1961, M.S., Ohio State University, 1962
Ph.D., Purdue University, 1966

Hartman, Cindy L
ASSISTANT PROFESSOR
Recreation Management & Policy
M.S., 2011, Ph.D., Clemson University, 2015
B.S., Texas A & M University, 1994

Harvey, Elizabeth Lucas
ASSISTANT PROFESSOR
Biological Sciences
Ph.D., University of Rhode Island, 2013

Harvey, N Paul
PROFESSOR
Management
B.S., University of Connecticut, 2000
M.B.A., State University of New York at Binghamton, 2002
Ph.D., Florida State University, 2006

Harzewski, Stephanie
SENIOR LECTURER
English
B.A., Vassar College, 1996
M.A., Rutgers University, 1998
Ph.D., 2006, C.A.S., University of Pennsylvania,
Haskins, Robert C  
PROFESSOR  
Music  
Diploma, Guildhall School Music & Drama, England, 1986  
M.M., Johns Hopkins University, 1992  
M.M., Johns Hopkins University,  

Hasseldine, David J  
PROFESSOR  
Accounting and Finance  
B. Com., University of Canterbury, New Zealand, 1995  
Ph.D., Indiana University, 1997  
M. Com., University of Canterbury, New Zealand,  

Hassey, William A  
PRINCIPAL LECTURER  
Management  
B.S., Univ of Lowell, 1966  
M.S., Keene State College (Nh), 1973  
Ed.D., Boston University, 1979  

Hatcher, Philip John  
PROFESSOR EMERITUS  
B.S., 1978, M.S., Purdue University, 1979  
Ph.D., Illinois Institute of Technology, 1985  

Hausner, Alejandro  
SENIOR LECTURER  
Computer Science  
B.S., 1988, M.S., McGill University, Canada, 1991  
M.S., Queen's University- Ca, 1993  
Ph.D., Princeton University, 2001  
Ph.D., Brown University, 2013  

He, Zhaozhao  
ASSISTANT PROFESSOR  
Accounting and Finance  
B.S., Shanghai University of International Business and Economics, China, 2008  
M.B.A., University of Central Arkansas, 2009  
Ph.D., University of Kansas, 2016  

Healey, Kevin  
ASSOCIATE PROFESSOR  
Communication  
B.A., Drew University, 1996  
M.A., The New School, 2005  
Ph.D., University of Illinois at Urbana-Champaign, 2011  

Heath, Renee G  
PRINCIPAL LECTURER  
Communication  
B.S., Oregon State University, 1990  
M.A., Washington State University, 1997  
Ph.D., University of Colorado at Boulder, 2005  

Hebert, David J  
PROFESSOR EMERITUS  
B.S., University of Maine, 1962  
M.Ed., Duquesne University, 1964  
Ph.D., Kent State University, 1967  

Heisenberg, Jochen H  
PROFESSOR EMERITUS  
O, University of Munich, Germany, 1961  
Diploma, University Heidelberg, Germany, 1964  
Ph.D., University of Hamburg, Germany, 1966  

Henn, Mark J  
PRINCIPAL LECTURER  
Psychology  
B.A., College of Wooster, 1983  
M.A., 1986, Ph.D., University of New Hampshire, 1993  

Hennessey, Barry J  
ASSOCIATE PROFESSOR EMERITUS  
A.B., University of Wisconsin, 1967  
Ph.D., Harvard University, 1972  
M.L.S., Simmons College, 1974  

Hennessey, William  
PROFESSOR EMERITUS  

Henny, Karen N  
SENIOR LECTURER  
Kinesiology  
B.S., University of New Hampshire, 1988  
A.S., N H Technical Inst, 1993  

Henry, Robert M  
ASSOCIATE PROFESSOR  
Civil and Environmental Engineering  

Herold, Marc W  
ASSOCIATE PROFESSOR  
Economics  
M.Sc., University of Zurich, Switzerland, 1966  
M.B.A., Swiss Federal Institute of Technology, Switzerland, 1967  
M.B.A., 1968, Ph.D., University of California - Berkeley, 1979  

Hersman, F William  
PROFESSOR  
Physics  
B.S., University of Cincinnati, 1977  
Ph.D., Massachusetts Institute of Technology, 1982  

Hertz, Susan M  
ASSOCIATE PROFESSOR  
English  
B.A., University of New Hampshire, 1978  

Hess, Susan M  
LECTURER  
Psychology  
B.S., St. Lawrence University, 1978  
M.Ed., Harvard University, 1983  
Ed.D., Boston University, 1990  

Hesse, Richard A  
PROFESSOR EMERITUS  
B.S., Indiana University of Pennsylvania, 1959  
M.A., Temple University, 1964  
Ph.D., Georgetown University, 1968
Hibschweiler, Rita A  
PROFESSOR  
Mathematics & Statistics  
Ph.D., University at Albany, 1988  

Higginbotham, Thomas E  
LECTURER  
Education  
B.S., SUNY College of Environmental Science and Forestry, 1992  
M.S., State University of New York at Potsdam, 1995  
Ph.D., Boston College, 2006  

Higgs, Kathleen J  
CLINICAL ASSISTANT PROFESSOR  
Nursing  
Nursing Asst Cert, Angley College, 2003  
Associate, NHCTC, Stratham, 2006  
M.S., Western Governor's University, 2015  

Hight, Eleanor M  
PROFESSOR EMERITA  
B.A., Skidmore College, 1970  

Hiley, David R  
PROFESSOR EMERITUS  
B.A., Auburn University, 1966  
M.A., 1969, Ph.D., University of Georgia, 1972  

Hiller, Marc D  
ASSOCIATE PROFESSOR  
Health Management & Policy  
B.S., 1972, M.P.H., 1974, Ph.D., University of Pittsburgh, 1978  

Hinson, Edward K  
ASSOCIATE PROFESSOR  
Mathematics & Statistics  
B.S., University of Florida, 1979  
M.S., 1982, Ph.D., Northwestern University, 1985  

Hobbie, Erik A  
RESEARCH PROFESSOR  
Earth Systems Research Center  
B.S., Yale University, 1987  
M.S., 1994, Ph.D., University of Virginia, 1997  

Hochgraf, Frederick G  
ASSOCIATE PROFESSOR EMERITUS  
B., Rensselaer Polytechnic Institute, 1954  
M.S., Cornell University, 1958  

Hojjat, Seyed Ali  
ASSISTANT PROFESSOR  
Decisions Sciences  
B.S., Shariff University of Technology, Iran, 2009  
M.B.A., UMass- Dartmouth, 2011  
Ph.D., University of California - Irvine, 2016  

Holcombe, Julee Ann  
ASSOCIATE PROFESSOR  
Art and Art History  
B.F.A., University of New Mexico, 1998  
M.F.A., Maryland Institute, 2004  

Hollis, Eileen H  
CLINICAL ASSISTANT PROFESSOR  
Nursing  
B.S., University of New England, 2008  
M.S., University of New Hampshire, 2010  

Hollweg, Joseph V  
PROFESSOR EMERITUS  
B.S., 1965, M.S., 1965, Ph.D., Massachusetts Institute of Technology, 1968  

Holtrop, Maurik W  
PROFESSOR  
Physics  
B.S., University of New Hampshire, 1987  
Ph.D., Massachusetts Institute of Technology, 1995  

Holznienkemper, Alex  
LECTURER  
Languages, Literatures, & Cultures  
Ph.D., Ohio State University, 2014  

Hood, Craig A  
PROFESSOR EMERITUS  
B.A., Boston University, 1975  
B.A., Pennsylvania State University, 1979  
M.F.A., Indiana University - Bloomington, 1981  

Hopkins, Lori J  
ASSOCIATE PROFESSOR  
Languages, Literatures, & Cultures  
B.A., University of Virginia, 1984  
M.A., 1987, Ph.D., University of Wisconsin - Madison, 1993  

Horvath, Jaroslav  
ASSISTANT PROFESSOR  
Economics  
B.S., East Carolina University, 2010  
M.A., Ohio State University, 2011  
M.S., East Carolina University, 2011  
Ph.D., Ohio State University, 2016  

Hoskin, Marilyn B  
DEAN AND PROFESSOR EMERITA  
B.A., Mount Holyoke College, 1967  
M.A., 1968, Ph.D., University of California - Los Angeles, 1973  

Hossain, Md Safayat  
ASSISTANT PROFESSOR  
Accounting and Finance  
BBA, 2007, MBA, University of Dhaka, 2009  
M.S., Clark University, 2013  
Ph.D., Florida International University, 2019  

Houle, James J  
RESEARCH ASSISTANT PROFESSOR  
Civil and Environmental Engineering  
B.S., University of New Hampshire, 1995  
M.A., School for International Train, 2003  
Ph.D., University of New Hampshire, 2015  

Houston, Barbara E  
PROFESSOR EMERITA  
Houston, Robert E
PROFESSOR EMERITUS
B.S., 1949, M.S., Michigan State University, 1951
Ph.D., Pennsylvania State University, 1954

Houtenville, Andrew James
Center Director, CMDR
Institute on Disability
B.A., Stockton University, 1988

Howard, Daniel R
ASSISTANT PROFESSOR
Biological Sciences
A.A., College of The Sequoias, 1999
M.S., Northeastern State University, 2004
Ph.D., Univ of Tulsa, 2007

Howard, Theodore E
ASSOCIATE DEAN
Dean’s Office - LS & A
B.S., University of Maine, 1972
M.F., Duke University, 1974
Ph.D., Oregon State University, 1982

Howe, Gerald W
EXTENSION SPECIALIST EMERITUS
M., Vermont Law School, So Royalto, 1983

Howell, David L
PROFESSOR EMERITUS
B.S., Michigan State University, 1964
M.Ed., Pennsylvania State University, 1968
Ph.D., Ohio State University, 1973

Howell, William H
PROFESSOR EMERITUS
B.A., Otterbein College, 1969
M.S., 1975, Ph.D., University of Rhode Island, 1980

Howey, Meghan L
PROFESSOR
Anthropology
B.A., University of Delaware, 2000
M.A., 2002, Ph.D., University of Michigan, 2006

Hoza, Jack E
PROFESSOR
Communication Arts and Science
B.S., University of Northern Colorado, 1978
M.S., McDaniel College, 1991
Ph.D., Boston University, 2001

Hrabak, Estelle M
ASSOCIATE PROFESSOR
Molecular, Cellular, & Biomedical
B.S., Michigan State University, 1978
Ph.D., University of Wisconsin, 1992

Huang, Chia-Lin
RESEARCH ASSISTANT PROFESSOR
Space Science Center
Ph.D., Boston University, 2007

Huang, Ju-Chin
PROFESSOR
Economics
B.S., National Taiwan University, Taiwan, 1985
M.S., 1988, Ph.D., North Carolina State University, 1994

Hubbard, Colin D
PROFESSOR EMERITUS
B.S.Chem., 1961, Ph.D., Univ of Sheffield Eng, 1964

Huddleston, Mark W
UNH PRESIDENT EMERITUS
B.A., State University of New York at Buffalo, 1972

Hugh Clarke, John E
PROFESSOR
Earth Sciences - Joint Positions
B.A., Oxford Univ-Eng, 1983
M.S., Southampton University, UK, 1984
Ph.D., Dalhousie University, Canada, 1988

Humphreys, Elizabeth P
RESEARCH ASSISTANT PROFESSOR
Institute on Disability
A.A., Cape Cod Community College, 1976
B.A., Westfield State College, 1979
M.Ed., University of New Hampshire, 1997
Ph.D., University of North Carolina at Chapel Hill, 2013

Hupper, Veronica P
LECTURER
Mathematics & Statistics
B.A., Caldwell Coll for Women, 1996
M.S., 1999, Ph.D., University of New Hampshire, 2005

Hurn, Marcus B
PROFESSOR
UNHL JD Instruction
B.S., Missouri State University, 1974
J.D., Univ of Missouri-Kansas City, 1977

Hutson, John D
DEAN EMERITUS

Ikegami, Pamela B
SENIOR LECTURER
Languages, Literatures, & Cultures
B.A., University of Colorado at Boulder, 1987
M.A., University of Hawaii Manoa, 1994
M.B.A., University of New Hampshire, 2016

Ingram, Lionel R
PRINCIPAL LECTURER EMERITUS
B.S., United States Military Academy, 1963
M.P.A., 1966, Ph.D., Harvard University, 1995
Innis, Daniel E  
PROFESSOR  
Hospitality Management  
B.B.A., Ohio University, 1985  
M.B.A., Miami University - Ohio, 1986  
Ph.D., Ohio State University, 1991

Irwin, Manley R  
PROFESSOR EMERITUS  
A.B., Michigan State University, 1950  
M.A., University of Michigan, 1954  
Ph.D., Michigan State University, 1963

Jablonski, Kathleen E  
EXTENSION EDUCATOR EMERITA  
B.S., State University of New York at Plattsburgh, 1973  
M.A., University of Maine, 1987

Jackman, Krista Law  
PRINCIPAL LECTURER  
English  
B.A., University of New Hampshire, 1991  
M.A.T., Rivier College, 1993

Jackson, Robert Michael  
SENIOR LECTURER  
Communication  
B.A., Univ of Arkansas, 1986  
M.A., Central Washington University, 1993  
Ph.D., Rensselaer Polytechnic Institute, 2002

Jacobs, Jennifer M  
PROFESSOR  
Civil and Environmental Engineering  
B.S., Brown University, 1987  
M.S., Tufts University, 1993  
Ph.D., Cornell University, 1997

Jago, Barbara J  
ASSOCIATE PROFESSOR  
Communication Arts and Science  
B.A., Smith College, 1981  
M.A., New York University, 1993  
M.A., Ph.D., University of South Florida, 1998

Jahnke, Leland S  
PROFESSOR EMERITUS  

James, Beverly A  
PROFESSOR EMERITA  
B.A., Florida Atlantic University, 1979  
Ph.D., University of Iowa, 1983

Jamieson, Anne L  
LECTURER  
Health Management & Policy  
J.D., Mass School of Law, Andover MA, 2000  
B.S.Ed., Worcester State College,  

Jamison, Tyler B  
ASSISTANT PROFESSOR  
Human Development & Family Studies  
B.A., Miami University - Ohio, 2006  
M.S., 2008, Ph.D., University of Missouri - Columbia, 2012

Jansen, Edmund F  
PROFESSOR EMERITUS  
B.S., University of Illinois at Chicago, 1960  
M.S., 1964, Ph.D., Nc State University, 1966

Janson-Sand, Colette H  
ASSOCIATE PROFESSOR EMERITA  
B.A., Bridgewater State University, 1967  
M.S., 1970, Ph.D., University of New Hampshire, 1980

Jarema, Patricia M  
LECTURER  
Biological Sciences  
A.A., Greenfield Community College, 1995  
B.S., University of Massachusetts - Amherst, 2000  
M.S., 2008, Ph.D., University of New Hampshire, 2013

Jefferis, Victoria  
ASSISTANT PROFESSOR  
Molecular, Cellular, & Biomedical  
Ph.D., Heidelberg University, 2010

Jeong, Kyung Jae  
ASSOCIATE PROFESSOR  
Chemical Engineering  
B.S., Seoul National University, Korea, 2001  
Ph.D., Purdue University, 2008

Jerard, Robert B  
PROFESSOR EMERITUS  
B.S., University of Vermont, 1969  
M.S., Massachusetts Institute of Technology, 1970  
Ph.D., University of Utah, 1977

Jin, Hong  
ASSISTANT PROFESSOR  
Applied Engineering & Sciences  
B.S., Shanghai University, China, 1997  
M.S., 2001, Ph.D., University of Windsor, Ontario, Canada, 2010

Johnson, Elizabeth O  
LECTURER  
Agriculture, Nutrition & Food System  
B.S., University of New Hampshire, 2006  
M.S., Granite State College, 2014

Johnson, Jeremiah W  
ASSISTANT PROFESSOR  
Applied Engineering & Sciences  
B.S., 2000, M.S., 2002, Ph.D., University of New Hampshire, 2010

Johnson, Joel E  
PROFESSOR  
Earth Sciences  
B.S., University of Minnesota Duluth, 1996  
M.S., University of Illinois at Urbana-Champaign, 1998  
Ph.D., Oregon State University, 2004
Johnson, Kenneth M
PROFESSOR
Sociology
B.A., University of Michigan, 1972
M.A., 1975, Ph.D., University of North Carolina, 1980

Johnson, Kristen C
ASSISTANT PROFESSOR
Life Sciences
A.B., Dartmouth College, 1998
Ph.D., Massachusetts Institute of Technology, 2003

Johnson, Linda B
ASSOCIATE PROFESSOR EMERITUS
M.A., Santa Clara University, 1988

Johnson, Nancy M
PROFESSOR EMERITA
B.S., University of New Hampshire, 1979
M.Ed., University of Maine, 1984

Johnson, Paul C
ASSOCIATE PROFESSOR EMERITUS
B.S., Emory and Henry College, 1968
Ph.D., Cornell University, 1974

Johnson, Richard P
PROFESSOR
Chemistry
B.S., 1972, Ph.D., Syracuse University, 1976

Joiner, Sarah L
LECTURER
Chemistry
B.S., Gannon University, 2010
Ph.D., University of New Hampshire, 2015

Jolley, Robert E
ASSOCIATE PROFESSOR EMERITUS
B.A., Allegheny College, 1966
M.S.W., Boston University, 1972
Ph.D., Smith College, 1982

Jonas, Michael
ASSOCIATE PROFESSOR
Applied Engineering & Sciences
B.S., 1987, M.S., College of William and Mary, 1989
Ph.D., Tufts University, 2003

Jones, Lisa M
RESEARCH ASSOCIATE PROFESSOR
Psychology
B.A., University of Virginia, 1992
M.A., 1997, Ph.D., University of Rhode Island, 1999

Jones, Stephen H
RESEARCH ASSOCIATE PROFESSOR
Natural Resources & The Environment
B.S., University of Maine, 1976
M.S., 1980, Ph.D., University of Wisconsin, 1983

Jones, Wayne E
PROVOST & VICE PRESIDENT FOR ACADEMIC AFFAIRS
Provost Office
Ph.D., University of North Carolina, 1991
B.S., Saint Michael’s College, 1997

Jonsson, Bror F
ASSISTANT PROFESSOR
Ocean Process Analysis Lab
M.S., University of Alexandria, Alexandria, Egypt, 1998
M.S., 1999, Ph.D., Stockholm University, 2005

Jorgensen, Nathan A
ASSISTANT PROFESSOR
Music
B.M., University of Kansas, 1999
M.M., University of Missouri - Columbia, 2003
D.M.A., University of Kansas, 2010

Jusseaume, Sarah B
SENIOR LECTURER
English as a Second Language
B.S., University of New Hampshire, 2001
M.A., University of Massachusetts - Boston, 2012

K

Kaen, Fred R
PROFESSOR EMERITUS
B.S., Lehigh University, 1963
M.B.A., 1968, Ph.D., University of Michigan, 1972

Kalargyrou, Valentini
ASSOCIATE PROFESSOR
Hospitality Management
B.S., Athens University of Economics and Business, 1987

Kalinowski, Michael
ASSOCIATE PROFESSOR EMERITUS
B.A., Bennington College, 1970
M.Ed., 1972, Ed.D., University of Massachusetts - Amherst, 1976

Kallmerten, Pamela S
CLINICAL ASSOCIATE PROFESSOR
Nursing
B.S., Colby-Sawyer College, 1989
M.S., Northeastern University, 1997
DNP, University of New Hampshire, 2016

Kang, Jae O
ASSOCIATE PROFESSOR EMERITUS
B.S., Salve Regina University, 1973
M.S., 1977, Ph.D., University at Albany, 1984

Karaivanova, Katerina D
LECTURER
Psychology
B.A., Kenyon College, 2010
Karkour, Islam R M H
LECTURER
Languages, Literatures, & Cultures
B.S., Al-Azhar University, Egypt, 2005
M.A., University of Manchester, England, 2011
Ph.D., University of New Hampshire, 2018

Karson, Marvin J
PROFESSOR EMERITUS
B.A., City College of New York, 1959
M.A., Johns Hopkins University, 1961
Ph.D., Nc State University, 1967

Kaufmann, Richard L
PROFESSOR EMERITUS
B.S., California Institute of Technology, 1957
M.S., 1958, Ph.D., Yale University, 1960

Kayaalp, Mehmet
ASSISTANT PROFESSOR
Electrical & Computer Eng Dept
B.S., 2008, M.S., TOBB Univer of Econ & Engineer, 2010
Ph.D., State University of New York at Binghamton, 2015

Kaye, David J
PROFESSOR
Theatre & Dance
B.S., Castleton State College, 1984
M.F.A., Brandeis University, 1993

Kayser, John R
ASSOCIATE PROFESSOR EMERITUS
B.A., University of New Hampshire, 1962
M.A., Ohio State University, 1964
Ph.D., Claremont Graduate University, 1969

Kazura, Kerry
ASSOCIATE PROFESSOR
Human Development & Family Studies
B.A., University of Southern Maine, 1989
M.S., 1992, Ph.D., Auburn University, 1995

Keese, Amy M
ASSOCIATE PROFESSOR
Physics - Joint Positions
B.S., Davidson College, 2000
M.S., 2003, Ph.D., West Virginia University, 2006

Keim, Christina J
SENIOR LECTURER
Agriculture, Nutrition,& Food Systm

Kelley, Ann M
ASSOCIATE PROFESSOR EMERITA
Diploma, Peter Bent Brigham Hosp, 1955
B.S., 1959, M.S., Boston University, 1966

Kerns, Georgia M
ASSOCIATE PROFESSOR EMERITA
B.S.E., 1969, M.Ed., University of Delaware, 1975
M.Ed., University of New Hampshire, 1983
Ph.D., University of Kansas, 1987

Kertzer, Robert
PROFESSOR EMERITUS
B.S., Brooklyn College of the City University of New York, 1960
M.S., University of Illinois at Urbana-Champaign, 1961
Ph.D., Michigan State University, 1965

Khanlari, Moein
ASSISTANT PROFESSOR
Marketing
B.S., Shariff University of Technology, Iran, 2005
M.B.A., University of Tehran, Iran, 2009
Ph.D., University of Alberta, Canada, 2016

Khleif, Bud B
PROFESSOR EMERITUS
B.A., Hebrew University, 1952
M.A., University of Michigan, 1954
Ph.D., Johns Hopkins University, 1957

Kidambi, Phani N
LECTURER
Analytics & Data Science
B.A., University of California - Santa Cruz, 1986

Kidwell, Mardi J
ASSOCIATE PROFESSOR
Communication
B.A., University of California - Santa Cruz, 1986

Kieronski, Roberta P
ASSISTANT PROFESSOR EMERITA
B.S., Southern Connecticut State University, 1969
M.S., University of New Hampshire, 1971

Kies, Christopher R
PROFESSOR
Music
M.F.A., 1977, Ph.D., Brandeis University, 1984

Kilbride, Richard C
SENIOR LECTURER
Accounting and Finance
B.A., Colorado College, 1978
M.B.A., Dartmouth College, 1980

Kilcrease, Kelly
ASSOCIATE PROFESSOR
Business,Politics & Security Studie
B.A., University of Florida, 1986
M.B.A., Tampa College, 1988
Ph.D., Union Institute & University, 1992

Kim, Bo Rin
ASSISTANT PROFESSOR
Social Work
B.A., Yonsei University, Seoul, Kore, 2003
M.A., Seoul National University, Korea, 2005
M.S.W., 2007, Ph.D., University of Michigan, 2014
Kim, Inchan
ASSISTANT PROFESSOR
Decisions Sciences
B.B.A., Hyupsung University, S Korea, 2006
M.S., Yonsei University, Seoul, Kore, 2009
Ph.D., University of Oklahoma, 2015

Kim, Soo Hyon
ASSISTANT PROFESSOR
English
B.A., Korea University, Seoul, 2005
M.A., University of Illinois at Urbana-Champaign, 2008
Ph.D., Michigan State University, 2013

Kim, Young Jo
ASSISTANT PROFESSOR
Chemical Engineering
B.S., Sogang University - South Korea, 2004
Ph.D., University of Missouri - Columbia, 2010

Kimball, Robert O
ASSOCIATE PROFESSOR EMERITUS
B.S., 1941, M.A., University of New Hampshire, 1952

Kingham, Deborah A
PROFESSOR
Theatre & Dance
B.A., SUNY College at Fredonia, 1976
M.F.A., Trinity University - Texas, 1981

Kinner, Nancy E
PROFESSOR
Civil and Environmental Engineering
B.A., Cornell University, 1976
M.S., 1980, Ph.D., University of New Hampshire, 1983

Kinsey, Brad L
PROFESSOR
Mechanical Engineering
B.S., University of Michigan, 1992
M.S., 1998, Ph.D., Northwestern University, 2001

Kirkpatrick, John T
SENIOR VICE PROVOST & DEAN OF STUDENTS
Dean of Students
B.A., Colby College, 1977
M.A., 1979, Ph.D., University of New Hampshire, 1983

Kirsch, Nicholas J
ASSOCIATE PROFESSOR
Electrical & Computer Eng Dept
B.S., University of Wisconsin - Madison, 2003
M.S., 2006, Ph.D., Drexel University, 2009

Kislat, Fabian
ASSISTANT PROFESSOR
Physics
M.S., 2008, Ph.D., Humboldt-Universität zu Berlin, Germany, 2011

Kistler, Lynn M
PROFESSOR
Physics - Joint Positions
B.S., Harvey Mudd College, 1981
M.S., 1983, Ph.D., University of Maryland, 1987

Klein, Anita S
ASSOCIATE PROFESSOR
Biological Sciences
B.A., University of Rochester, 1975
Ph.D., Michigan State University, 1981

Klenotic, Jeffrey F
ASSOCIATE PROFESSOR
Communication Arts and Science
B.A., Pennsylvania State University, 1985
M.A., 1988, Ph.D., University of Massachusetts - Amherst, 1996

Knezevic, Marko
ASSOCIATE PROFESSOR
Mechanical Engineering
B.S., 2004, M.S., University of Novi Sad, Serbia, 2004
Ph.D., Drexel University, 2009

Knight, Lewis
ASSOCIATE PROFESSOR EMERITUS
B.A., Amherst College, 1957
M.A.T., Harvard University, 1961
Ed.D., Stanford University, 1971

Knight, Suzann E
EXTENSION PROFESSOR AND SPECIALIST EMERITA
B.S., University of Massachusetts - Amherst, 1972
M.A., Keene State College (Nh), 1978
M.S., University of New Hampshire, 1991

Knowles, Clark E
PRINCIPAL LECTURER
English
B.A., George Mason University, 1988
M.A., University of New Hampshire, 1998
M.F.A., Bennington College, 2005

Knowles, William F
PRINCIPAL LECTURER
Accounting and Finance
B.S., University of New Hampshire, 1985
M.S., University of Massachusetts - Amherst,

Komonchak, Bernadette
ASSOCIATE PROFESSOR EMERITA
B.S., State University of New York at Plattsburgh, 1954
M.A., 1967, Ph.D., University of Arizona, 1974

Konen, Ian M
LECTURER
Chemistry
B.A., Northwestern University, 1995
Ph.D., Stanford University, 2003

Konzett, Delia C
PROFESSOR
English
B.A., Georgia State University, 1989
Konzett, Matthias B  
SENIOR LECTURER  
English  
M.A., University of Innsbruck, Austria, 1985  
M.A., 1988, Ph.D., Emory University, 1991  
Ph.D., University of Chicago, 1995  

Kovach, Adrienne I  
ASSOCIATE PROFESSOR  
Natural Resources & The Environment  
B.S., University of Kansas, 1990  
Ph.D., North Carolina State University, 1998  

Kowalski, Stanley P  
SENIOR LECTURER  
UNHL Intl Tech Transfer Institute  
B.S., Pennsylvania State University, 1975  
B.S., University of Pittsburgh, 1980  
Ph.D., Cornell University, 1989  
J.D., Franklin Pierce Law Center, 2005  

Kraft, L Gordon  
PROFESSOR EMERITUS  
B.S., University of Pennsylvania, 1971  
M.S., University of New Hampshire, 1973  
Ph.D., University of Connecticut, 1977  

Krasner, James N  
PROFESSOR  
English  
B.A., Hampshire College, 1983  
M.A., University of Pennsylvania, 1985  
Ph.D., University of Pittsburgh, 1989  

Kraus, John D  
DIRECTOR EMERITUS  
B.A., Norwich University, 1964  
Q, 1976, Ph.D., University of Iowa, 1978  

Krzanowski, James E  
PROFESSOR  
Mechanical Engineering  
B.E., Stevens Institute of Technology, 1978  
M.S., 1981, Ph.D., Massachusetts Institute of Technology, 1983  

Kucharek, Harald A  
RESEARCH PROFESSOR  
Space Science Center  
Ph.D., Technical University of Munich, 1984  
M.S., University of Regensburg, Germany, 1986  
Ph.D., Technical University of Munich, 1989  

Kukenberger, Michael R  
ASSISTANT PROFESSOR  
Management  
B.A., University of Maine, 1998  
M.B.A., University of New Hampshire, 2005  
Ph.D., University of Connecticut, 2012  

Kun, Andrew L  
PROFESSOR  
Electrical & Computer Eng Dept  

Kushner, Richard  
SENIOR LECTURER EMERITUS  
B.A., American International College, 1969  
Ph.D., 1974, M.A., University of New Hampshire, 1974  

Kwiatkowski, Kyle P  
ASSISTANT PROFESSOR  
Civil and Environmental Engineering  
B.S., Syracuse University, 2009  
M.S., University of Colorado at Boulder, 2015  

Kwiatkowski, Kyle P  
ASSISTANT PROFESSOR  
Civil and Environmental Engineering  
B.S., Syracuse University, 2009  
M.S., University of Colorado at Boulder, 2015  

Labbe, Michelle Marie  
CLINICAL ASSISTANT PROFESSOR  
Molecular, Cellular, & Biomedical  
B.S., University of New Hampshire, 1996  
M.B.A., Southern New Hampshire University, 2011  

Lachance, Rachel A  
SENIOR LECTURER  
English as a Second Language  

LaCourse, John R  
PROFESSOR  
Electrical & Computer Eng Dept  

Laflamme, David J  
RESEARCH ASSISTANT PROFESSOR  
Inst for Health Policy & Practic  
B.S., Plymouth State University, 1989  
M.P.H., Tulane University, 1997  
Ph.D., Johns Hopkins University, 2003  

Lahiri, Smita  
LECTURER  
Anthropology  
B.A., Bryn Mawr College, 1992  
M.A., 1997, Ph.D., Cornell University, 2002  

Laird, Jo  
ASSOCIATE PROFESSOR  
Earth Sciences  
B.A., University of California - San Diego, 1969  
Ph.D., California Institute of Technology, 1977  

Lambert, Robert H  
PROFESSOR EMERITUS  
B.S., St. Lawrence University, 1952  
M.A., 1954, Ph.D., Harvard University, 1963  

Lammers, Richard B  
RESEARCH ASSISTANT PROFESSOR  
Earth Systems Research Center  
B.S., 1989, M.S., 1990, Ph.D., University of Toronto, Canada, 1998  

Lamper, Kari D  
SENIOR LECTURER  
Psychology  
B.A., University of New Hampshire, 2000  
M.S.W., Boston College, 2002  
Lan, Tu  
ASSISTANT PROFESSOR  
Geography  
B.S., Peking University, China, 2006  
M.S., Chinese University of Hong Kong, 2007  
Ph.D., University of North Carolina, 2014  

Landau, Cynthia  
VISITING PROFESSOR EMERITA  
J.D., Franklin Pierce Law Center, 1980  

Lane, Peter J  
PROFESSOR  
Management  
B.A., University of New Hampshire, 1981  
M.B.A., University of Massachusetts - Amherst, 1992  
Ph.D., University of Connecticut, 1996  

Lanier, Douglas M  
PROFESSOR  
English  
B.A., Stetson University, 1977  
M.A., 1980, Ph.D., Duke University, 1988  

Lannamann, John W  
ASSOCIATE PROFESSOR  
Communication  
B.S., Babson College, 1977  
M.A., 1980, Ph.D., University of Massachusetts - Amherst, 1983  

Larkin, Edward T  
PROFESSOR  
Languages, Literatures, & Cultures  
B.A., Saint Peter's University, 1971  
M.A., St. John’s College, 1980  
Ph.D., University of Pennsylvania, 1986  

LaRoche, Dain P  
PROFESSOR  
Kinesiology  
B.S., University of New Hampshire, 1996  
M.S., University of Massachusetts - Amherst, 1998  
Ph.D., University of Utah, 2004  

Larson, Barbara K  
ASSOCIATE PROFESSOR EMERITA  
B.A., Stanford University, 1962  
M.A., Harvard University, 1964  
M.Phil., 1974, Ph.D., Barnard College, 1975  

Laudano, Andrew P  
ASSOCIATE PROFESSOR EMERITUS  
B.S., 1974, M.S., Southern Connecticut State University, 1976  
Ph.D., University of California - San Diego, 1981  

Laue, Thomas M  
PROFESSOR EMERITUS  
B.A., Johns Hopkins University, 1971  
Ph.D., University of Connecticut, 1981  

Lauer, Josh C  
ASSOCIATE PROFESSOR  
Communication  
B.A., Indiana University of Pennsylvania, 1992  
M.L.I.S., University of Pittsburgh, 1997  

LaValley, Kenneth J  
V Provost, Univ Outreach & Engmt Administration  
B.S., University of New Hampshire, 1993  
M.S., 1996, Ph.D., University of Rhode Island, 2005  

Lazdowski, Yvette J  
ASSISTANT PROFESSOR  
Business, Politics & Security Studies  
B.S., Franklin Pierce College, 1984  
M.B.A., Plymouth State University, 2004  
D.B.A, Argosy University-CA, 2007  

LeBlanc, Christopher D  
ASSISTANT PROFESSOR  
Applied Engineering & Sciences  
B.S., University of Massachusetts - Amherst, 1997  
B.S., University of Massachusetts - Lowell, 1997  
M.S., University of Vermont, 2007  

LeBlanc, Ronald D  
PROFESSOR EMERITUS  
B.S., United States Air Force Academy, 1971  

Lee, Jade C  
ASSISTANT PROFESSOR  
Education  
B.A., Stanford University, 2000  
M.A., Brooklyn College of the City University of New York, 2002  
Ph.D., Emory University, 2011  

Lee, Lina  
PROFESSOR  
Languages, Literatures, & Cultures  
B.A., Fu Jen Catholic University, China, 1979  
M.A., University of North Texas, 1986  
Ph.D., University of Texas at Austin, 1992  

Lee, Martin A  
PROFESSOR EMERITUS  
B.S., Stanford University, 1966  
Ph.D., University of Chicago, 1971  

Lee, Noele P  
LECTURER  
Decisions Sciences  
B.S., 1990, MBA, Rensselaer Polytechnic Institute, 1992  

Lee, Thomas D  
ASSOCIATE PROFESSOR EMERITUS  
B.S., SUNY College of Environmental Science and Forestry, 1973  
M.S., University of Alberta, Canada, 1976  
Ph.D., University of Illinois at Urbana-Champaign, 1980

Lieber, Rochelle
PROFESSOR
English
A.B., Vassar College, 1976
Ph.D., Massachusetts Institute of Technology, 1980

Lightbody, Anne F
ASSOCIATE PROFESSOR
Earth Sciences
B.S., 1999, M.S., Yale University, 1999
M.S., 2004, Ph.D., Massachusetts Institute of Technology, 2007

Liguori, Thomas J
LECTURER
Political Science

Lin, Dacheng
RESEARCH ASSISTANT PROFESSOR
Space Science Center
B.E., 2002, B.S., University of Science and Technology, 2003
Ph.D., Massachusetts Institute of Technology, 2009

Linden, Allen B
ASSOCIATE PROFESSOR EMERITUS
B.A., Wayne State University, 1957
M.A., 1960, Ph.D., Barnard College, 1969

Linder, Ernst
PROFESSOR
Mathematics & Statistics
Diploma, University of Zurich, Switzerland, 1978
M.S., Union College - New York, 1980
Ph.D., Pennsylvania State University, 1987

Lindsay, Bruce E
PROFESSOR EMERITUS
B.A., King's College - Pennsylvania, 1971
M.S., 1973, Ph.D., University of Massachusetts - Amherst, 1976

Lippmann, Thomas C
ASSOCIATE PROFESSOR
Earth Sciences
B.A., Linfield College, 1985
M.S., 1989, Ph.D., Oregon State University, 1992

Litvaitis, John A
PROFESSOR EMERITUS
B.S., University of New Hampshire, 1975
M.S., Oklahoma State University, 1978
Ph.D., University of Maine, 1984

Litvaitis, Marianne K
PROFESSOR
Natural Resources & The Environment
B.S., 1980, M.S., Clemson University, 1982
Ph.D., University of Maine, 1985

Liu, Ningyu
PROFESSOR
Physics
B.S., 1998, M.S., Zhejiang University, China, 2001
Ph.D., Pennsylvania State University, 2006

Liu, Yixin
ASSOCIATE PROFESSOR
Accounting and Finance
B.A., Nankai University, China, 1998
M.S., Southern Illinois University, 2000
Ph.D., University of Iowa, 2007

Lockwood, Mary Katherine K
CLINICAL ASSOCIATE PROFESSOR
Molecular, Cellular, & Biomedical
B.S., Davidson College, 1977
M.S., Pennsylvania State University, 1981
Ph.D., University of California, 1989

Loder, Theodore Charles
PROFESSOR EMERITUS
B.A., University of Rochester, 1962
M.S., Lehigh University, 1965
Ph.D., University of Alaska, 1971

Lofty, John
PROFESSOR EMERITUS
B.Ed., University of London, United Kingdom, 1969
M.A., Tennessee State University, 1978
Ph.D., University of Michigan, 1986

Lonergan, Judith E
EXTENSION SPECIALIST EMERITA
M.O.E., University of New Hampshire, 1979

Long, Elena A
ASSISTANT PROFESSOR
Physics
B.S., Juniata College, 2006
M.A., 2008, Ph.D., Kent State University, 2012

Long, Valerie A
EXTENSION PROFESSOR AND SPECIALIST EMERITA
B.S., University of Maine, 1979
M.O.E., University of New Hampshire, 1981

Lopate, Clifford
RESEARCH ASSOCIATE PROFESSOR
Space Science Center
B.A., Swarthmore College, 1982
Ph.D., 1983, M.S., University of Chicago, 1988

Lord, Susan A
CLINICAL ASSOCIATE PROFESSOR
Social Work
B.A., 1975, B.S.W., University of New Hampshire, 1975
M.S.W., Smith College, 1979
Ph.D., University of New Hampshire, 2004

Lord, William G
EXTENSION PROFESSOR AND SPECIALIST EMERITUS
M.S., University of Massachusetts - Amherst, 1972
Lovell, Michele S  
CLINICAL ASSISTANT PROFESSOR  
Nursing  
B.S., 1990, M.S., University of New Hampshire, 2006

Loy, James Brent  
PROFESSOR EMERITUS  
B.S., Oklahoma State University, 1963  
M.S., 1965, Ph.D., Colorado State University, 1967

Lu, Yan  
ASSOCIATE PROFESSOR  
History  
B.A., Fudan University, China, 1982  
M.A., Michigan State University, 1989  
M.A., 1993, Ph.D., Cornell University, 1996

Lugalla, Joe L P  
PROFESSOR EMERITUS  
Diploma, University of Kassel, Germany, 1990  
Ph.D., University of Bremen, Germany, 1990

Lugaz, Noe E  
RESEARCH ASSOCIATE PROFESSOR  
Space Science Center  
M.S., 2003, Ph.D., University of Michigan, 2007

Lukens, Edithanna N  
PROFESSOR EMERITA  
B.A., College of Wooster, 1967  
M.A., 1968, Ph.D., University of Chicago, 1973

Luppold, Deborah  
EXTENSION STATE SPECIALIST/PROFESSOR EMERITA  
B.S., University of Massachusetts - Amherst, 1975  
M.S., Boston University, 1979

Lusenhop, Richard W  
CLINICAL ASSISTANT PROFESSOR  
Social Work  
B.A., University of Wisconsin, 1992  
M.S.W., Smith College, 1995  
M.A., 2003, Ph.D., Brandeis University, 2010

Lyon, Alynna J  
PROFESSOR  
Political Science  
Ph.D., University of South Carolina, 1999

Lyon, Mark E  
ASSOCIATE PROFESSOR  
Mathematics & Statistics  
B.S., 2002, M.S., Brigham Young University, 2003  
Ph.D., California Institute of Technology, 2009

Lyons, Anthony P  
RESEARCH PROFESSOR  
Center for Coastal & Ocean Mapping  
B.S., Henderson State University, 1988  
M.S., 1991, Ph.D., Texas A & M University, 1995

MacFarlane, Lisa  
PROFESSOR  
English  
A.B., Princeton University, 1979  
M.A., 1983, Ph.D., University of Michigan, 1987

MacHardy, William E  
PROFESSOR EMERITUS  
B.S., 1958, M.Ed., University of Maine, 1965  
M.S., Univ of Nebraska Omaha, 1966  
Ph.D., University of Rhode Island, 1970

MacLea, Kyle S  
ASSOCIATE PROFESSOR  
Life Sciences  
A.B., Cornell University, 1997  
Ph.D., Dartmouth College, 2003

MacManes, Matthew D  
ASSOCIATE PROFESSOR  
Molecular, Cellular, & Biomedical  
A.A.S., Broome Comm College, 1999  
B.S., University of Michigan, 2005  
Ph.D., University of California - Berkeley, 2011

Macpherson, Andrew M  
ASSISTANT PROFESSOR  
Business, Politics & Security Studie  
B.A., Mercyhurst College, 1999  
M.A., London School of Economics, 2000

Madigan, Sean W  
LECTURER  
English  

Maes, Deborah B  
EXTENSION FIELD SPECIALIST EMERITUS  
B.S., Keene State College (Nh), 1975  
M.Ed., Plymouth State University, 1987

Magnifico, Alecia M  
ASSOCIATE PROFESSOR  
English  
B.A., Swarthmore College, 2000  
M.S., 2007, Ph.D., University of Wisconsin - Madison, 2010

Magnusson, Matthew F  
LECTURER  
Computer Science  
B.S., 1997, M.B.A., University of New Hampshire, 2005  
M.S., Georgia Institute of Technology, 2017

Mahmud, MD Shaad  
ASSISTANT PROFESSOR  
Electrical & Computer Eng Dept  
B.S., American International University Bangladesh (AIUB), 2012  
M.S., 2016, Ph.D., University of Massachusetts - Dartmouth, 2018
Mahoney, Lise L
RESEARCH ASSISTANT PROFESSOR
Agriculture, Nutrition,& Food Systm
M.S., 2007, Ph.D., University of New Hampshire, 2014

Mair, Robert G
PROFESSOR
Psychology

Malarte-Feldman, Claire L
PROFESSOR EMERITA
Ph.D., University of California - Davis, 1984

Malley, James P
PROFESSOR
Civil and Environmental Engineering
B.S., Rutgers University, 1980
M.S., 1984, B.S., 1987, Ph.D., University of Massachusetts - Amherst, 1988

Malloy, Bruce L
PROFESSOR EMERITUS
Ph.D., George Peabody College of Vanderbilt University, 1979

Malloy, Joanne M
RESEARCH ASSOCIATE PROFESSOR
Institute on Disability
B.A., University of Massachusetts - Amherst, 1976
M.S., Univ of Tenn Knoxville, 1981
Ph.D., University of New Hampshire, 2011

Malone, Mary Frances
ASSOCIATE PROFESSOR
Political Science
B.A., Saint Joseph's University, 1995
M.A., 2000, Ph.D., 2004, Ph.D., University of Pittsburgh, 2004

Manalo, Alberto B
ASSOCIATE PROFESSOR
Natural Resources & The Environment
B.S., University of The Philippines, Philippines, 1976
M.S., 1978, Ph.D., Kansas State University, 1985

Mangan, Michael A
PRINCIPAL LECTURER
Psychology
B.A., Oregon State University, 1985
M.A., Humboldt State University, 1994
M.A., 1997, Ph.D., University of New Hampshire, 2000

Manseau, Melissa A
LECTURER
Theatre & Dance
B.A., University of New Hampshire, 1996
M.M., University of Northern Iowa, 1999

March, Thomas A
PROFESSOR EMERITUS
B.S., 1974, M.A., Cornell University, 1977

Margolin, Davida L
LECTURER
Molecular, Cellular, & Biomedical

Marino, Mary B
SENIOR LECTURER
Theatre & Dance
B.A., University of New Hampshire, 1999

Marone, Adele J
CLINICAL ASSOCIATE PROFESSOR
Molecular, Cellular, & Biomedical
B.S., Adelphi University, 1985

Marschner, Sarah Jane
PRINCIPAL LECTURER EMERITA
B.A., 1972, B.A., University of Rhode Island, 1972

Marshall, Grover E
ASSOCIATE PROFESSOR EMERITUS
A.B., Bowdoin College, 1951
M.A., 1954, Ph.D., Princeton University, 1971

Marti-Olivella, Jaume
ASSOCIATE PROFESSOR
Languages, Literatures, & Cultures
Licenciatura, Univ of Barcelona, 1976
M.A., University of Illinois at Urbana-Champaign, 1978
Licenciatura, Univ of Barcelona, 1983
Ph.D., University of Illinois at Urbana-Champaign, 1988

Martin, Mary E
RESEARCH ASSISTANT PROFESSOR
Earth Systems Research Center

Martins Lima, Marta Raquel
ASSISTANT PROFESSOR
Agriculture, Nutrition,& Food Systm
B.S., 2003, Ph.D., University of Minho, Portugal, 2009
M.S., University of Porto, Portugal, 2010

Marx, Jerry D
ASSOCIATE PROFESSOR
Social Work
B.S., University of Southern Maine, 1981
M.S.W., 1984, D.S.W., Boston College, 1994

Masetti, Giuseppe
RESEARCH ASSISTANT PROFESSOR
Center for Coastal & Ocean Mapping
M., University of Pisa, Italy, 2003
M., University of Trieste, Italy, 2004
M., University of Genoa, Italy, 2008
M.S., University of New Hampshire, 2012
Ph.D., University of Genoa, Italy, 2013
Masucci, Peter F  
PRINCIPAL LECTURER  
Marketing  
B.S., Boston University, 1970  
M.B.A., Clark University, 1984

Mathieson, Arthur C  
EMERITUS PROFESSOR  
B.S., 1960, M.S., University of California - Los Angeles, 1961  
Ph.D., University of British Columbia, Canada, 1965

Mathur, Virendra K  
PROFESSOR EMERITUS  
B.S., Angra University, India, 1949  
B.S., Banaras Hindu University, 1953  
M.S., 1961, Ph.D., University of Missouri - Rolla, 1970

Matteucci, Ann-Marie E  
ASSISTANT PROFESSOR  
Health Management & Policy  
M.A., 2013, Ph.D., Brandeis University, 2015

Mattingly, David M  
ASSISTANT PROFESSOR  
Physics  
B.A., Dartmouth College, 1996  
Ph.D., University of Maryland, 2003

Mautz, William W  
PROFESSOR EMERITUS  
B.S., Wisconsin Conservatory of Music, 1965  
M.S., 1967, Ph.D., Michigan State University, 1969

Mawson, Julia Steed  
EXTENSION EDUCATOR EMERITA  
M.A.T., University of New Hampshire, 1978

Mayer, John D  
PROFESSOR  
Psychology  
B.A., University of Michigan, 1975  
M.A., 1979, Ph.D., Case Western Reserve University, 1982

Mayer, Larry A  
PROFESSOR  
Earth Sciences - Joint Positions  
B.S., University of Rhode Island, 1973  
Ph.D., University of California, 1979

Mayne, Howard R  
PROFESSOR  
Chemistry  
B.S., 1974, M.S., 1975, Ph.D., University of Manchester, England, 1977

McBride, Mekeel D  
PROFESSOR  
English  
B.A., Mills College (Calif), 1972

McCann, Francis D  
PROFESSOR EMERITUS  
A.B., Niagara University, 1960  
M.A., Kent State University, 1962  
Ph.D., Indiana University - Bloomington, 1967

McCann, Michael A  
PROFESSOR  
UNH JD Instruction  
B.A., Georgetown University, 1998  
J.D., University of Virginia, 2002  
LL.M., Harvard Law School, 2005

McClain, John F  
LECTURER  
Mathematics & Statistics  
B.S., Rutgers University, 2003  
M.A., University of Texas, 2007  
Ph.D., University of New Hampshire, 2015

McConnell, Mark L  
PROFESSOR  
Physics - Joint Positions  
B.S., Case Western Reserve University, 1980  
Ph.D., University of New Hampshire, 1987

McConnell, Maryse Searls  
ASSOCIATE PROFESSOR EMERITUS  
B.F.A., Cleveland Institute of Art, 1971  
M.F.A., Alfred University, 1973

McCrone, Sharon M  
INTERIM ASSOCIATE DEAN  
Dean's Office - CEPS  
A.B., Dartmouth College, 1988  
M.S., 1992, Ph.D., University of New Hampshire, 1997

McCurdy, Kathryn J  
CLINICAL ASSISTANT PROFESSOR  
Education  
B.A., University of Kansas, 2004  
M.A., University of Michigan, 2005  
Ph.D., University of New Hampshire, 2016

McDowell, William H  
PROFESSOR  
Natural Resources & The Environment  
B.A., Amherst College, 1975  
Ph.D., Cornell University, 1982

McGaughy, Jill A  
PROFESSOR  
Psychology  
B.A., Bradley University, 1991  
M.A., 1993, Ph.D., Ohio State University, 1998

McGrath, Robert J  
ASSOCIATE PROFESSOR  
Health Management & Policy  
B.S., University of New Hampshire, 1996  
M.S., Harvard University, 1998  
M.A., 2000, Ph.D., Brandeis University, 2006
McHugh, John P
ASSOCIATE PROFESSOR
Mechanical Engineering
B.S., 1978, Ph.D., University of Michigan, 1986

Mclroy, James M
LECTURER
Marketing

McIntosh, Edward D
CAPTAIN EMERITUS

McIntyre, Gayle R
LECTURER
English as a Second Language
B.A., Laval University, Quebec, 1991
M.A., University of Manitoba, Canada, 2001
B.A., Laval University, Quebec,

McKinsey, Martin S
ASSOCIATE PROFESSOR
English
B.A., Hampshire College, 1977
M.A., Syracuse University, 1990
M.A., 1998, Ph.D., University of Virginia, 2001

McLamon, Christopher R
LECTURER
Chemical Engineering

McLaughlin, Kevin W
SENIOR LECTURER
Accounting and Finance
B.S.B.A., Northeastern University, 1994
M.S., Boston College, 1999

McLaughlin, Sean R
LECTURER
Recreation Management & Policy
B.A., Chico State College, 1995
M.S., University of New Hampshire, 2007

McMahon, Gregory
ASSOCIATE PROFESSOR
Classics, Humanities & Ital Studies
B.A., University of Kansas, 1975
M.A., Miami University - Ohio, 1979
Ph.D., University of Chicago, 1988

McNamara, Paul F
ASSOCIATE PROFESSOR
Philosophy
B.A., City University of New York, 1976
M.A., University of Missouri - Columbia, 1980
Ph.D., University of Massachusetts - Amherst, 1990

McNamee, Sheila
PROFESSOR
Communication

McPhee, Pamela Kerr
CLINICAL ASSISTANT PROFESSOR
Browne Center
B.S., University of New Hampshire, 1983
M.S.W., University of Connecticut, 1987

Meadows, Dennis L
PROFESSOR EMERITUS
B.A., Carleton College, 1964
Ph.D., Massachusetts Institute of Technology, 1969

Meeker, Bonnie Sharon
EXTENSION SPECIALIST EMERITA
B.S., Oregon State University, 1957
M.S., University of New Hampshire, 1977

Meeker, David
PROFESSOR EMERITUS
B.A., 1959, B.S., Oregon State University, 1959
M.S., 1962, Ph.D., Stanford University, 1965
M.S., Univ of Aston-England, 1969

Meitson, Fredrik A
ASSISTANT PROFESSOR
History
B.A., Lund University, Sweden, 2006
M.Phil., Oxford Univ-Eng, 2008
Ph.D., New York University, 2015

Melanson, Leigh Anne
ASSOCIATE PROVOST EMERITA
M.A., University of New Hampshire, 2003

Mellyn, Elizabeth W
ASSOCIATE PROFESSOR
History
B.A., University of Chicago, 1999
M.A., 2002, Ph.D., Harvard University, 2007

Melvin, Donald W
ASSOCIATE PROFESSOR EMERITUS
B.S., University of New Hampshire, 1955
MENGR, Yale University, 1957
Ph.D., Syracuse University, 1971

Mennel, Robert M
PROFESSOR EMERITUS
B.A., Denison University, 1960
M.A., 1965, Ph.D., Ohio State University, 1969

Meredith, Dawn C
PROFESSOR
Physics
B.A., St. John's College, 1980
M.S., 1984, Ph.D., California Institute of Technology, 1987
Merenda, Michael J
PROFESSOR
Management
M.B.A., Northeastern University, 1972
Ph.D., University of Massachusetts - Amherst, 1978
B.S., Northeastern University.

Merton, Andrew H
PROFESSOR EMERITUS
B.A., University of New Hampshire, 1967

Messner, Richard A
ASSOCIATE PROFESSOR
Electrical & Computer Eng Dept
B.S., 1979, M.S., Clarkson College, 1981
Ph.D., Clarkson University, 1984

Metcalf, Theodore G
PROFESSOR EMERITUS
B.S., Mass Coll Pharmacy, 1940
Ph.D., University of Kansas, 1950

Mettling, Fred B
PROFESSOR EMERITUS
B.S., Ohio University, 1968
M.A., Kent State University, 1970
Ph.D., University of New Hampshire, 1976

Meyrowitz, Joshua
PROFESSOR EMERITUS
B.A., 1972, M.A., City University of New York, 1974
Ph.D., New York University, 1978

Mian, Nicholas D
ASSISTANT PROFESSOR
Life Sciences
A.B., Bowdoin College, 2002
M.A., Boston University, 2007
M.A., 2009, Ph.D., University of Massachusetts - Boston, 2013

Michael, Amy Rachel
LECTURER
Anthropology
B.A., University of Iowa, 2006
M.A., 2009, Ph.D., Michigan State University, 2016

Michaud, Michelle M H
SENIOR LECTURER
Communication
B.A., 2001, M.A., University of Maine, 2004

Miksis-Olds, Jennifer L
RESEARCH PROFESSOR
Center for Acoustics Res. And Educ.
B.A., Harvard University, 1996
M.S., UMass- Dartmouth, 2000
Ph.D., University of Rhode Island, 2006

Miles, Russell A
SENIOR LECTURER
Decisions Sciences

Miletkov, Mihail K
ASSOCIATE PROFESSOR
Accounting and Finance
B.B.A., 2002, Ph.D., University of Georgia, 2008

Miller, Brian C
CLINICAL ASSISTANT PROFESSOR
Social Work
B.A., Boston University, 1980
M.S.W., University of New Hampshire, 2000

Miller, Edmund G
PROFESSOR EMERITUS
A.B., Dartmouth College, 1943
M.A., 1948, Ph.D., Barnard College, 1955

Miller, Glen P
PROFESSOR
Chemistry
B.S.Chem., 1987, Ph.D., Clarkson University, 1991

Miller, John P
ASSOCIATE PROFESSOR
Kinesiology
B.S., Brooklyn College of the City University of New York, 1981
M.S., Long Island University, 1983
Ph.D., University of Maryland, 1992

Miller, Lisa C
ASSOCIATE PROFESSOR
English

Miller, W Thomas
PROFESSOR EMERITUS
B.S., 1972, M.S., 1974, Ph.D., Pennsylvania State University, 1977

Mills, Caitlin S
ASSISTANT PROFESSOR
Psychology
B.S., Christian Brothers University, 2010

Mills, Richard L
ASSOCIATE PROFESSOR EMERITUS
B.S., Rose Polytechnic Inst, 1962
M.A., 1964, Ph.D., Indiana University - Bloomington, 1967

Minocha, Subhash C
PROFESSOR
Biological Sciences
B.S., 1968, M.S., Panjab University, India, 1969
Ph.D., University of Washington, 1974

Mitchell, Clayton R
LECTURER
Natural Resources & The Environment
B.A., University of Arizona, 1991
J.D., 1996, M.S., Vermont Law School, So Royalto, 1996
Ph.D., University of New Hampshire, 2008

Mitchell, Frank S
EXTENSION PROFESSOR AND SPECIALIST EMERITUS
A.A.S., 1974, B.S., 1976, M.S., University of New Hampshire, 1979
Mitchell, James R  
ASSOCIATE PROFESSOR EMERITUS  
B.S., University of New Hampshire, 1957  
M.S., 1960, Ph.D., Pennsylvania State University, 1969

Mittal, Prashant  
CLINICAL ASSISTANT PROFESSOR  
Health Management & Policy  
B.S., 1996, M.S., University of Delhi, India, 1998  
M.S., University of Southern Maine, 2000

Mizusawa, Diane D  
SENIOR LECTURER  
Marketing  
M.B.A., New York University, 1981  
B.A., Rowan University,

Mizusawa, Leroy R  
SENIOR LECTURER  
Management  
B.A., Yale University, 1975  
M.B.A., Stanford University, 1980

Mo, Weiwei  
ASSISTANT PROFESSOR  
Civil and Environmental Engineering  
B.S., Shanghai Jiao Tong University, China, 2008  
M.S., 2011, Ph.D., University of South Florida, 2012

Moebius, Eberhard S  
PROFESSOR EMERITUS  
Diploma, 1973, Ph.D., Ruhr University Bochum, Germany, 1977

Mohr, Robert D  
ASSOCIATE PROFESSOR  
Economics  
B.A., University of Virginia, 1993  
M.S., 1998, Ph.D., University of Texas at Austin, 2001

Moinfar, Amena  
LECTURER  
Languages, Literatures, & Cultures  
Maitrise, Paris Nanterre University, France, 1999  
M.A., Michigan State University, 2003  
M.A., 2005, Ph.D., University of Texas, 2010  
M.A., University of Massachusetts - Amherst, 2018

Monahan, Colleen F  
CLINICAL ASSISTANT PROFESSOR  
Molecular, Cellular, & Biomedical  
DACVP, Michigan State Univ, College of Veterinary Medicine, 2018  
Ph.D., University of Tennessee College of Veterinary Medicine,

Montas, Lucia M  
LECTURER  
Languages, Literatures, & Cultures  
M.A., 2016, Ph.D., University of Kentucky, 2018

Montminy, Timothy P  
SENIOR LECTURER  
Molecular, Cellular, & Biomedical  
B.S., University of Rochester, 2001  
Ph.D., Tufts University, 2009

Mooney, Robert E  
INSTRUMENTATION SCIENTIST EMERITUS  
B.A., University of New Hampshire, 1972

Moore, Berrien  
DIRECTOR AND PROFESSOR EMERITUS  
B.S., University of North Carolina, 1963  
Ph.D., University of Virginia, 1969

Moore, Gregg E  
RESEARCH ASSOCIATE PROFESSOR  
Biological Sciences  
B.S., Tufts University, 1994  
M.S., 1997, Ph.D., Boston University, 2003

Moore, Joseph J  
CLINICAL PROFESSOR EMERITUS  
B.S., Trinity College - Conn, 1966  
D.V.M., University of Pennsylvania, 1970

Moore, Sean D  
ASSOCIATE PROFESSOR  
English  
B.A., University of Massachusetts - Amherst, 1991  
M.A., Georgetown University, 1995  
Ph.D., Duke University, 2003

Moran, Catherine L  
PRINCIPAL LECTURER  
Sociology  
B.A., University of New England, 1994  
M.Sc., London School of Economics, 1996  
Ph.D., University of New Hampshire, 2004

Morgan, Ann L  
ASSOCIATE PROFESSOR EMERITA  
B.A., Hanover College, 1974  
M.S., Pennsylvania State University, 1976

Morrell, Jesse Stabile  
PRINCIPAL LECTURER  
Agriculture, Nutrition,& Food Systm  

Morrison, James D  
PROFESSOR EMERITUS  
B.S., Franklin Marshall College, 1958  
Ph.D., Northwestern University, 1963

Mortensen, David A  
PROFESSOR  
Agriculture, Nutrition,& Food Systm  
B.A., Drew University, 1978  
M.S., Duke University, 1983  
Ph.D., North Carolina State University, 1987

Morton, Cory M  
ASSISTANT PROFESSOR  
Social Work  
B.A., University of Tennessee, 2000  
M.S.W., East Tennessee State University, 2007  
Ph.D., Rutgers University, 2012
Moses, Jennifer K
PROFESSOR
Art and Art History
B.F.A., Temple University, 1983
M.F.A., Indiana University - Bloomington, 1987

Moses, Mark D
CLINICAL ASSOCIATE PROFESSOR
Human Development & Family Studies
B.A., Northeastern University, 1971
M.Ed., Springfield College, 1972
C.A.G.S., University of New Hampshire, 1977
Ph.D., Ohio University, 1979

Mosher, David C
PROFESSOR
Earth Sciences - Joint Positions
B.S., Acadia University, 1983
M.S., Memorial University - Canada, 1987
Ph.D., Dalhousie University, Canada, 1993

Mouser, Paula J
ASSOCIATE PROFESSOR
Civil and Environmental Engineering
B.S., Utah State University, 1998
M.S., 2003, Ph.D., University of Vermont, 2006

Moyer, Judith N
RESEARCH ASSISTANT PROFESSOR EMERITA

Moynihan, Robert G
PROFESSOR EMERITUS
B.S., University of New Hampshire, 1968
M.B.A., University of Akron, 1973

Mulligan, Shelley E
ASSOCIATE PROFESSOR
Occupational Therapy
B.S., University of Western Ontario, Canada, 1985
M.S., Colorado State University, 1990
Ph.D., University of Washington, 1997

Munoz Pina, Margarita
LECTURER
Languages, Literatures, & Cultures
B.A., Monterey Institute, 1989
M.A., University of Salamanca, Spain, 2007

Murphy, Sharon A
ASSOCIATE PROFESSOR EMERITA
B.A., State University of New York at Plattsburgh, 1973
M., Adelphi University, 1985
Certificate, University of Wisconsin - Madison, 1997
Ph.D., Arizona State University, 1998

Murphy, William J
PROFESSOR
UNHL JD Instruction
B.A., Denison University, 1971
J.D., Pennslyvania State University, 1974

Musinsky, Ellen J
VISITING PROFESSOR EMERITA
B.A., University of Vermont, 1972
J.D., Northeastern University, 1975

N

Nahin, Paul J
PROFESSOR EMERITUS
B.S.E.E., Stanford University, 1962
M.S.E.E., California Institute of Technology, 1963
Ph.D., University of California - Irvine, 1972

Narayan, Arvind
PRINCIPAL LECTURER
Computer Science
B.S., University of Mysore, India, 1985
M.S., University of Massachusetts - Lowell, 1990

Nardone, H Gay
PROFESSOR
Theatre & Dance

Nash, Jonathan D
ASSISTANT PROFESSOR
Accounting and Finance
B.S.B.A., Rogers State University, 2008
M.S., University of Connecticut, 2010
Ph.D., Florida State University, 2016

Naumes, William
ASSOCIATE PROFESSOR EMERITUS
Ph.D., Stanford University, 1971

Nedyalkov, Ivaylo P
LECTURER
Mechanical Engineering
B.S., Technical University of Sofia, 2007
M.S., Chalmers University of Technology, Sweden, 2013
Ph.D., University of New Hampshire, 2015

Needle, David B
CLINICAL ASSISTANT PROFESSOR
Molecular, Cellular, & Biomedical

Neefus, Christopher D
PROFESSOR
Biological Sciences
B.A., Boston University, 1971
Ph.D., University of New Hampshire, 1982

Negron-Gonzales, Melinda
ASSOCIATE PROFESSOR
Business,Politics & Security Studie

Nesbitt, Kimberly T
ASSISTANT PROFESSOR
Human Development & Family Studies
B.A., University of Kansas, 2003
M.S., 2007, Ph.D., North Carolina State University, 2010
Newkirk, Thomas R
PROFESSOR EMERITUS
B.A., Oberlin College, 1970
M.Ed., University of Massachusetts - Boston, 1973
Ph.D., University of Texas, 1977

Newman, Anna C
SENIOR LECTURER
Classics, Humanities & Ital Studies
Lizenziat, University of Zurich, Switzerland, 1981

Newman, Tarkington
ASSISTANT PROFESSOR
Social Work
BS, Central Michigan University, 2009
MSW, University of Michigan, 2013
MS, The Ohio State University, 2016

Newman, Tarkington J
ASSISTANT PROFESSOR
Social Work
PhD, The Ohio State University, 2019

Nicoloff, Philip L
PROFESSOR EMERITUS
B.A., University of California - Los Angeles, 1949
M.A., 1952, Ph.D., Barnard College, 1959

Nikshych, Dmitri
PROFESSOR
Mathematics & Statistics
B.S., 1994, M.S., National Technical University, Ukraine, 1996
Ph.D., University of California - Los Angeles, 2001

Niland, Karen Sue
SENIOR LECTURER
Nursing
B.S., 1989, M.S., University of New Hampshire, 1999

Niman, Neil B
ASSOCIATE DEAN
Dean’s Office
B.A., University of California - Santa Cruz, 1978
M.A., University of California - Riverside, 1980
Ph.D., University of Texas, 1985

Nisbet, Jane A
PROFESSOR
Research Office Central Operations
B.S., Simmons College, 1977
M.S., 1980, Ph.D., University of Wisconsin, 1983

Nolte, Kerry L
ASSISTANT PROFESSOR
Nursing
B.S., Northeastern University, 2006
M.S., University of New Hampshire, 2009
Ph.D., Northeastern University, 2016

Nordgren, Eric A
PROFESSOR EMERITUS
B.S.Ch.E., California Polytechnic State University - San Luis Obispo, 1956
Ph.D., University of Michigan, 1964

Nute, Jonathan W
EXTENSION PROFESSOR AND SPECIALIST EMERITUS
B.A., University of New Hampshire, 1973
M.F., Yale University, 1985

O’Brien, Alyssa J
ASSISTANT PROFESSOR
Nursing
B.S., 2003, M.S., University of New Hampshire, 2008
Ph.D., University of California, 2015

O’Brien, Edward J
PROFESSOR
Psychology
B.A., Framingham State College, 1978
M.A., State University of New York at Oswego, 1980
Ph.D., University of Massachusetts - Amherst, 1984

O’Brien, Jennifer E
ASSISTANT PROFESSOR
Social Work
B.A., 2006, B.S., University of Texas at Austin, 2006
M.S.W., Smith College, 2010
Ph.D., University of North Carolina, 2017

O’Connell, Lawrence W
ASSOCIATE PROFESSOR
Marketing
B.A., Grinnell College, 1990
Ph.D., University of Wisconsin, 2009

O’Keefe, Christine Marie
PRINCIPAL LECTURER
English
B.A., Rivier College, 1993
M.A., Midwestern State University, 1996
M.F.A., Emerson College, 2004

O’Sullivan, Jeanne H
CLINICAL ASSOCIATE PROFESSOR
Communication Sciences & Disorders
B.A., Bates College, 1976
M.Ed., Northeastern University, 1979

Ogden, Andrew B
SENIOR LECTURER
Agriculture, Nutrition,& Food Systm
B.A., University of North Carolina at Chapel Hill, 1998
M.S., University of Georgia, 2009

Oja, Sharon N
PROFESSOR EMERITUS
B.A., Macalester College, 1966
M.A., 1971, Ph.D., University of Minnesota, 1977
Ollinger, Scott V
PROFESSOR
Natural Resources & The Environment
B.S., State University of New York at Purchase, 1989
M.S., 1992, Ph.D., University of New Hampshire, 2000

Olson, David P
PROFESSOR EMERITUS
B.S., University of Minnesota, 1954
M.S., University of Maine, 1958
Ph.D., University of Minnesota, 1964

Onosko, Joseph J
ASSOCIATE PROFESSOR
Education
B.S., 1979, M.S., 1984, Ph.D., University of Wisconsin - Madison, 1988

Opuda, Eugenia C
ASSISTANT PROFESSOR
Research Learning Services
M.L.S., State University of New York at Buffalo, 2014
B.A., Georgia State University,

Orcutt, John L
PROFESSOR
UNHL JD Instruction
B.A., 1990, J.D., University of California - Berkeley, 1993

Orhon, Mehmet
SENIOR LECTURER
Mathematics & Statistics
B.Sc., Newcastle University, England, 1965
Ph.D., Swansea University, United Kingdom, 1969

Orliac, Pascal
LECTURER
Management
M.S., Univ Paris, 1978

Ormechi Matoglu, Melda
ASSISTANT PROFESSOR
Decisions Sciences
B.S., Bogazici University, Turkey, 1999
M.S., 2001, Ph.D., Georgia Institute of Technology, 2006

Orovich, Nicholas N
PROFESSOR EMERITUS
B.A., University of Wisconsin - Madison, 1976

Ortmeier, Christina M
ASSOCIATE PROFESSOR
English
B.A., University of Massachusetts - Amherst, 1995

Ossenbruggen, Paul J
PROFESSOR EMERITUS
B.S.C.E., Syracuse University, 1963
M.S., University of Connecticut, 1967
Ph.D., Carnegie Mellon University, 1970

Owens, Charles W
PROFESSOR EMERITUS
B.S., Colorado College, 1957
Ph.D., University of Kansas, 1963

Ozabaci, Deniz
ASSISTANT PROFESSOR
Economics
B.S., Istanbul Tech U Turkey, 2007
B.S., State University of New York at New Paltz, 2007

Padhye, Nikhil
ASSISTANT PROFESSOR
Mechanical Engineering
BS/MS (dual), Indian Institute of Technology Kanpur, 2010
Ph.D., Massachusetts Institute of Technology, 2015

Paglia, Alison Kolbe
ASSOCIATE PROFESSOR
Life Sciences

Palace, Michael W
ASSOCIATE PROFESSOR
Earth Sciences - Joint Positions
B.A., 1992, M.S., University of Virginia, 1995
Ph.D., University of New Hampshire, 2006

Parker, Victoria A
ASSOCIATE DEAN
Dean's Office
A.B., Brown University, 1981
Ed.M., Harvard University, 1988
D.B.A, Boston University, 1997

Parr, Northam D
EXTENSION EDUCATOR EMERITUS
B.S., 1979, M.S., University of New Hampshire, 1982

Parssinen, Toimi Antero
ASSISTANT PROFESSOR EMERITUS
B.S.M.E., University of New Hampshire, 1960

Paterson, Susanne F
ASSOCIATE PROFESSOR
Communication Arts and Science
B.A., University of East Anglia, United Kingdom, 1989
M.A., Purdue University, 1992
Ph.D., University of Texas at Austin, 2001

Patmos, R Marshall
LECTURER EMERITUS
B.S., University of New Hampshire, 1966
M.B.A., Plymouth State University, 1980

Payne, Thomas L
ASSOCIATE PROFESSOR
English
B.A., Princeton University, 1984
M.F.A., Columbia University in the City of New York, 1996
M.F.A., Princeton University, 2006
Pearson, David A
EVERETT SACKETT PROFESSOR EMERITUS
B.S., University at Albany, 1956
M.P.H., University of Michigan, 1961
Ph.D., Yale University, 1970

Peck, Benjamin S
CONTRACT LIBRARIAN
Research Learning Services
B.A., Bates College, 2005
M.L.S., Indiana University, 2008

Peirce, Lincoln C
PROFESSOR EMERITUS
B.S., Cornell University, 1952
Ph.D., University of Minnesota, 1958

Pekins, Peter J
PROFESSOR
Natural Resources & The Environment
B.A., State University of New York at Plattsburgh, 1976
M.S., University of New Hampshire, 1981
Ph.D., Utah State University, 1988

Pelletier, Donna M
CLINICAL ASSOCIATE PROFESSOR
Nursing
B.S., University of Massachusetts - Amherst, 1977
M.S., University of New Hampshire, 2000
DNP, University of Massachusetts - Amherst, 2011

Peracchi, Kelly Ann
 SENIOR LECTURER
Psychology
B.A., Saint Anselm'S College, 1999
M.A., 2001, Ph.D., University of New Hampshire, 2004

Perkins, Donna M
CLINICAL ASSOCIATE PROFESSOR
Justice Studies Program
B.A., University of Southern Maine, 1997

Pescosolido, Anthony T
ASSOCIATE PROFESSOR
Management
B.A., Harvard University, 1991
Ph.D., Case Western Reserve University, 2001

Peshkova, Svetlana A
ASSOCIATE PROFESSOR
Anthropology
M.A., Moscow State Linguistic University, Russia, 1996
MTS, Emory University, 1999
M.A., 2002, Ph.D., Syracuse University, 2006

Petillo, Juliette D
ASSOCIATE PROFESSOR EMERITUS
B.S.N., Saint Anselm'S College, 1961
M.S., Boston University, 1973

Petrik, Marek
ASSISTANT PROFESSOR
Computer Science
B.S., Univerzita Komenskeho, Bratislava, Slovakia, 2005
M.S., University of Massachusetts - Amherst, 2008
M.S., University of Massachusetts - Boston, 2008
Ph.D., University of Massachusetts - Amherst, 2010

Petruccelli, Gabrielle E
CLINICAL ASSISTANT PROFESSOR
Occupational Therapy
B.S., Green Mountain College, 1995
M.A., Tufts University, 2004

Petty, Guy
PROFESSOR EMERITUS
B.A., Pennsylvania State University, 1969

Pfeiffer, Bruce E
ASSOCIATE PROFESSOR
Marketing
B.S., University of Colorado at Boulder, 1991
M.B.A., Rockhurst University, 1997
M.S., University of Colorado at Boulder, 2005
Ph.D., University of Cincinnati, 2008

Phillips, Kimberly G
RESEARCH ASSISTANT PROFESSOR
Institute on Disability

Pietro, Kevin J
CLINICAL ASSISTANT PROFESSOR
Agriculture, Nutrition,& Food Systm

Pike, John E
DEAN AND DIRECTOR EMERITUS

Pilar, Frank L
PROFESSOR EMERITUS
B.S., 1951, M.S., University of Nebraska, 1953
Ph.D., University of Cincinnati, 1957

Pillemer, David B
PROFESSOR
Psychology
B.A., University of Chicago, 1972
Ed.D., Harvard University, 1979

Pillet-Shore, Danielle M
ASSOCIATE PROFESSOR
Communication
Pimpare, Stephen
PRINCIPAL LECTURER
Business, Politics & Security Studies
B.S., State University of New York, 1998
Ph.D., City University of New York, 2002

Piotrowski, Thaddeus M
PROFESSOR EMERITUS
B.A., Saint Francis University, 1963
M.A., 1969, Ph.D., University of Pennsylvania, 1972

Pistole, Thomas G
PROFESSOR EMERITUS
Ph.D., 1964, M.S., Wayne State University, 1966
Ph.D., University of Utah, 1969

Plachetzki, David C
ASSISTANT PROFESSOR
Molecular, Cellular, & Biomedical
B.S., 1996, M.S., Northern Michigan Univ, 2000
Ph.D., University of California - Santa Barbara, 2009

Planalp, Roy P
ASSOCIATE PROFESSOR
Chemistry
B.S., Massachusetts Institute of Technology, 1979
Ph.D., University of California - Berkeley, 1983

Plante, Amy Solomon
CLINICAL ASSOCIATE PROFESSOR
Communication Sciences & Disorders
B.S., 1980, M.S., University of New Hampshire, 1982

Plante, Catherine Craycraft
ASSOCIATE PROFESSOR
Accounting and Finance
B.A., University of Cincinnati, 1983
M.A., University of Missouri - Columbia, 1985
Ph.D., Ohio State University, 1991

Plante, Donald J
SENIOR LECTURER
Applied Engineering & Sciences
B.S., 2005, M.S., University of Rhode Island, 2007
Ph.D., Tufts University, 2012

Plumlee, Matthew D
SENIOR LECTURER
Computer Science
B.S., 1995, Ph.D., University of New Hampshire, 2004

Plunkett, Leah A W
LECTURER
UNNH Academic Success Program
A.B., 2001, J.D., Harvard University, 2006

Pohl, Karsten
PROFESSOR
Physics
Diploma, Ludwig Maximilian University of Munich, Germany, 1990
Ph.D., University of Pennsylvania, 1997

Pohl, Peter W
EXTENSION EDUCATOR EMERITUS
M.S., University of New Hampshire, 1978

Pokoski, John L
PROFESSOR EMERITUS
B.S.E.E., Saint Louis University, 1959
M.S.E.E., Arizona State University, 1965
Ph.D., Montana State University, 1967

Polsky, Janet L
PROFESSOR
History
B.A., Carleton College, 1973
M.A., 1974, Ph.D., Stanford University, 1978

Poleatewich, Anissa M
ASSISTANT PROFESSOR
Agriculture, Nutrition & Food System
B.A., Wheaton College (Mass), 2002
M.S., 2005, Ph.D., Pennsylvania State University, 2010

Polk, Keith
PROFESSOR EMERITUS
B.A., San Diego State Univ, 1956
M.M., University of Wisconsin, 1958
Ph.D., University of California - Berkeley, 1968

Pollard, James E
ASSOCIATE PROFESSOR EMERITUS
A.B., Duke University, 1965
Ph.D., University of Florida, 1969

Poltak, Steffen R
LECTURER
Molecular, Cellular, & Biomedical
B.A., Saint Anselm'S College, 2003
Ph.D., University of New Hampshire, 2010

Porter, John C
EXTENSION PROFESSOR EMERITUS
B.S., University of New Hampshire, 1971
M.S., Cornell University, 1973

Pothier, Wendy G
ASSISTANT PROFESSOR
Research Learning Services
B.A., Pennsylvania State University, 2004
M.L.S., Clarion University, 2007
M.S., Maine Maritime Academy, 2016

Potter, Sharyn J
PROFESSOR
Women's and Gender Studies
B.S., State University of New York, 1989
M.P.H., 1994, Ph.D., Emory University, 1998

Powell, Lou G
PROFESSOR EMERITA
B.S., Winthrop University, 1972
M.S., Florida State University, 1975
O, Indiana University, 1981
Poworznek, Emily LeViness
ASSOCIATE PROFESSOR
Research Learning Services
B.A., State University of New York at Purchase, 1982
M.S., University of New Hampshire, 1986
M.L.S., University of Rhode Island, 1993

Prelli, Lawrence J
PROFESSOR
Communication
B.S., State University of New York at Brockport, 1977
M.A., University at Albany, 1979
Ph.D., Pennsylvania State University, 1984
M.S., University of New Hampshire, 1998

Prescod-Weinstein, Chanda R S
ASSISTANT PROFESSOR
Physics
M.S., University of California, Santa Cruz, 2005
Ph.D., University of Waterlo/Perimeter Institute, 2011

Prescott, Sarah Grace
ASSOCIATE PROFESSOR
Life Sciences
B.S., Worcester Polytechnic Institute, 1993

Prince, Allan B
PROFESSOR EMERITUS
B.S., 1947, Ph.D., Rutgers University, 1950

Pringle, James M
PROFESSOR
Earth Sciences - Joint Positions
B.S., Dartmouth College, 1990
Ph.D., Massachusetts Institute of Technology, 1998

Proctor, Sarah E
CLINICAL ASSOCIATE PROFESSOR
Thompson School of Applied Science
B.S., University of New Hampshire, 1996
D.V.M., Cornell University, 2000
M.P.H., University of New Hampshire, 2016

Pruiksma, Rose A
LECTURER
Music
B.A., Calvin College, 1989
M.M., 1992, M.A., 1994, Ph.D., University of Michigan, 1999

Puccilli, Patricia A
CLINICAL ASSOCIATE PROFESSOR
Nursing

Pugh, Stephen R
ASSOCIATE PROFESSOR
Life Sciences
B.A., Ripon College, 1976
M.S., University of North Dakota, 1980
Ph.D., Boston University, 1989

Pulecio-Pulgarin, Jairo M
LECTURER
Languages, Literatures, & Cultures
M.A., Pontifical Javeriana University, Colombia, 2010
M.A., 2014, Ph.D., University of Pittsburgh, 2017
LLB, National University of Columbia, Colombia,

Purrenhage, Jennifer L
SENIOR LECTURER
Natural Resources & The Environment
B.S., University of Wisconsin, 1998
M.S., University of Akron, 2004
Ph.D., Miami University - Ohio, 2009
Certificate, University of Akron,

Puth, Robert C
PROFESSOR EMERITUS
B.A., Carleton College, 1958
M.A., 1965, Ph.D., Northwestern University, 1967

Putnam, Charles T
CLINICAL PROFESSOR
Dean’s Office - Liberal Arts
B.A., Yale University, 1979
J.D., University of Connecticut, 1985

Quigley, Donald W
PROFESSOR EMERITUS

Quin, Langdon C
ASSOCIATE PROFESSOR EMERITUS
B.A., Washington and Lee University, 1970
M.F.A., Yale University, 1976

Quinn, Timothy J
ASSOCIATE PROFESSOR
B.S., Bradley University, 1979
M.A., 1983, Ph.D., Michigan State University, 1987

R
Rader, Samantha C
LECTURER
Life Sciences
B.A., 2007, B.S., Winthrop University, 2007
Ph.D., Dartmouth College, 2012

Raeder, Joachim
PROFESSOR
Physics - Joint Positions
Diploma, 1985, Ph.D., University of Cologne, Germany, 1989

Ragland, Linda G
ASSOCIATE PROFESSOR
Accounting and Finance
B.S., 1993, M.Acc., University of Tennessee, 1999
Ph.D., University of South Florida, 2011
Ramadanovic, Petar
PROFESSOR
English
B.A., University of Belgrade, Serbia, 1989

Ramage, Amy E
ASSISTANT PROFESSOR
Communication Sciences & Disorders
B.S., Texas Tech University, 1993
Ph.D., 1995, M.S., University of Arizona, 1995

Ramsay, James D
PROFESSOR
Business, Politics & Security Studies
B.S., 1984, Ph.D., 2014, M.A., University of Wisconsin, 1992

Ramsey, David L
PROFESSOR
Theatre & Dance
B.A., Plymouth State University, 1973
M.F.A., University of North Carolina, 1977

Ramsey, Philip J
PRINCIPAL LECTURER
Mathematics & Statistics
B.A., University of New Hampshire, 1974
M.S., Southern Ill Univ-Edwardsville, 1986
Ph.D., Virginia Polytechnic Institute and State University, 1989

Ranfos, Lisa M
CLINICAL ASSISTANT PROFESSOR
Human Development & Family Studies
M.S., Wheelock College, 2007
B.S., University of New Hampshire,
A.S., New Hampshire Technical Instit,

Raymond, Daniel J
SENIOR LECTURER EMERITUS
B.A., Beloit College, 1971
M.A.T., University of New Hampshire, 1979

Raymond, Kristin L
SENIOR LECTURER
English as a Second Language

Reagan, Emilie N
ASSOCIATE PROFESSOR
Education
B.S., Georgetown University, 2003
M.S., Saint Joseph’s University, 2005
Ph.D., Boston College, 2011

Reardon, Lawrence C
ASSOCIATE PROFESSOR
Political Science
B.A., Johns Hopkins University, 1979

Rebellon, Cesar J
PROFESSOR
Sociology
B.A., Rice University, 1996
M.A., 1999, Ph.D., Emory University, 2002

Redfield, Sarah E
PROFESSOR EMERITA/ASSOCIATE PROFESSOR
B.A., Mount Holyoke College, 1970
LL.M., Harvard University, 1983

Reid, R Dan
ASSOCIATE PROFESSOR EMERITUS
B.A., University of Maryland, 1976
M.B.A., Angelo State University, 1978
Ph.D., Ohio State University, 1987

Reilly, Ruth A
CLINICAL ASSOCIATE PROFESSOR EMERITA
B.S., Florida State University, 1965
M.O.E., 1989, Ph.D., University of New Hampshire, 1998

Reinhold, Vernon
RESEARCH PROFESSOR
Molecular, Cellular, & Biomedical
B.S., 1959, M.S., University of New Hampshire, 1961
Ph.D., University of Vermont, 1965

Reitz, Hannah
LECTURER
Music
B.M., St. Olaf College, 2010
M.M., University of Nebraska, Lincoln, 2013
M.A., University of New Hampshire, 2019

Resch, John P
PROFESSOR EMERITUS
B.A., Denison University, 1962
M.A., 1965, Ph.D., Ohio State University, 1969

Reyna, Stephen P
PROFESSOR EMERITUS
A.B., 1965, Ph.D., Barnard College, 1972

Reynolds, Edward J
LECTURER
Communication
B.A., 2000, M.A., Australian National University, 2009
Ph.D., University of Queensland, Bris, 2013

Rhiel, Mary E
ASSOCIATE PROFESSOR EMERITA
B.S., University of Wisconsin - River Falls, 1971

Richards, Harry J
DEAN AND ASSOCIATE PROFESSOR EMERITUS
B.A., State University of New York at Potsdam, 1968
M.S., University at Albany, 1969
Ph.D., Florida State University, 1978
Richardson, Roy L  
LECTURER  
Molecular, Cellular, & Biomedical  
B.S., Univ of Maryland at Baltimore, 2006  
Ph.D., University of New Hampshire, 2013

Richey, Susan M  
PROFESSOR OF LAW EMERITA  
B.S., College of William and Mary, 1973  
B.A., University of Baltimore, 1977  
J.D., University of Maryland, 1980

Richman, David M  
PROFESSOR  
Theatre & Dance  
B.A., Harvard University, 1972  
Ph.D., Stanford University, 1979

Rigg, Sarah H  
PRINCIPAL LECTURER  
Agriculture, Nutrition, & Food Systems  
B.S., University of New Hampshire, 1998

Rioux, James M  
LECTURER  
English  
B.A., University of New Hampshire, 1992  
M.F.A., Georgia State University, 1997

Ripley, David K  
PROFESSOR  
Music  
B.A., Harvard University, 1970  

Rivard, David A  
PROFESSOR  
English  
B.A., University of Massachusetts - Dartmouth, 1975  
M.F.A., University of Arizona, 1982  
M.F.A., University of Massachusetts - Dartmouth, 1983

Robb, Judith A  
ASSOCIATE PROFESSOR EMERITA  
A.B., Connecticut College, 1967  
M.A., University of South Florida, 1969  
Ed.D., University of Rochester, 1982

Roberts, Alexandra J  
ASSOCIATE PROFESSOR  
UNHL JD Instruction  
A.B., Dartmouth College, 2002  
A.M., Stanford University, 2003  
J.D., Yale University, 2008

Roberts, Betty H  
PROFESSOR EMERITA  
B.A., 1953, M.S.W., West Virginia University, 1970  
Ph.D., Brandeis University, 1975

Roberts, John M  
ASSOCIATE PROFESSOR EMERITUS  
B.S., Washington State University, 1974  
M.S., 1975, Ph.D., Purdue University, 1977

Rodriguez, Julia E  
ASSOCIATE PROFESSOR  
History  
M.Phil., 1995, Ph.D., Columbia University in the City of New York, 2000

Rogers, Frank G  
PROFESSOR EMERITUS  
B.S., 1969, Ph.D., University of Surrey, United Kingdom, 1977  
M.S., Institute of Biology, London, United Kingdom, 1977

Rodgers, Melissa S  
CLINICAL ASSISTANT PROFESSOR  
Kinesiology  
B.S., Pennsylvania State University, 2003  
M.Ed., University of Alabama, 2006

Rodriguez, Julia E  
ASSOCIATE PROFESSOR  
History  
M.Phil., 1995, Ph.D., Columbia University in the City of New York, 2000

Rogers, Shannon H  
Community and Economic Development  
B.A., Dartmouth College, 2004  
M.S., 2007, Ph.D., University of New Hampshire, 2011

Rojo, Juan U  
CLINICAL ASSISTANT PROFESSOR  
Molecular, Cellular, & Biomedical  
B.S., University of Texas, 2012  
Ph.D., Texas Tech University, 2017
Root, Kelly J
LECTURER
Accounting and Finance
B.S., 2006, M.S., University of New Hampshire, 2007

Ross, Robert S
ASSOCIATE PROFESSOR
Psychology
B.A., Fairleigh Dickinson University, 1997
M.A., 1999, Ph.D., Boston University, 2006

Ross, William E
PROFESSOR
Special Collections and Archives
B.A., East Carolina University, 1977
Ph.D., American University, 1992

Rossi, Maria I
SENIOR LECTURER EMERITA
B.A., Univ De Costa Rica, San Jose, 1976
M.A., University of New Hampshire, 2007

Rothwell, Kenneth J
PROFESSOR EMERITUS
B.A., 1949, M.A., University of Western Australia, Australia, 1954
Ph.D., Harvard University, 1960

Rouman, John C
PROFESSOR EMERITUS
B.A., Carleton College, 1950
M.A., Barnard College, 1951
Ph.D., University of Wisconsin, 1965

Rowe, Rebecca J
ASSOCIATE PROFESSOR
Natural Resources & The Environment
B.A., Bowdoin College, 1997
Ph.D., University of Chicago, 2006

Royce, Peter W
LECTURER EMERITUS

Ruane, Nicole J
LECTURER
Classics, Humanities & Ital Studies
B.A., Hamilton College, 1992
M.A., 1995, Ph.D., Union Theological Seminary, 2005

Rubini, Loris
ASSISTANT PROFESSOR
Economics
Ph.D., Arizona State University, 2010

Rucinski, Andrzej
PROFESSOR EMERITUS
M.S., Odessa College, 1973
Ph.D., Gdansk University of Technology, Poland, 1982
B.S., Xi’an Jiaotong University, China, 2002

Ruml, Wheeler
PROFESSOR
Computer Science
A.S./B.S., 1993, Ph.D., Harvard University, 2002

Rupp, Nancy C
ASSISTANT PROFESSOR EMERITA
B.S., Boston University, 1950
M.A., University of Iowa, 1955

Rush, Lee Pozzi
CLINICAL ASSOCIATE PROFESSOR
Social Work
B.S.W., Syracuse University, 1980
M.S.W., Boston College, 1982

Russell, Robert D
ASSOCIATE PROFESSOR EMERITUS
B.A., Yale University, 1965
M.S., 1967, Ph.D., Stanford University, 1972

Ryan, James M
PROFESSOR
Physics
B.S., University of California - Riverside, 1970
M.S., University of California - San Diego, 1974
Ph.D., University of California - Riverside, 1978

Ryan, Joelle R
SENIOR LECTURER
Women's and Gender Studies
B.A., University of New Hampshire, 1996
M.A., University of Northern Iowa, 2000
M.A., University of New Hampshire, 2002
Ph.D., Bowling Green State University, 2009

Rzhanov, Yuri
RESEARCH PROFESSOR
Center for Coastal & Ocean Mapping
M.S., Novosibirsk State University, 1978
Ph.D., Russian Academy of Sciences, Russia, 1983

Sabin, Mihaela C
PROFESSOR
Applied Engineering & Sciences
B.S., 1984, M.S., Politehnica University of Bucharest, Romania, 1984
M.S.T., 2003, Ph.D., University of New Hampshire, 2003

Sable, Janet R
PROFESSOR EMERITA
B.A., University of Michigan, 1975
M.S., Northeastern University, 1981
Ed.D., Boston University, 1989

Safford, Thomas G
ASSOCIATE PROFESSOR
Sociology
B.A., University of North Carolina at Chapel Hill, 1989
M.A., Stanford University, 1995
Ph.D., Cornell University, 2004
Sager, Lauren B M  
LECTURER  
Mathematics & Statistics  
B.S., Gordon College, 2011  
Ph.D., University of New Hampshire, 2017

Saglam, Aziz I  
SENIOR LECTURER  
Economics  
B.S., Middle East Tech Univ, 1996  
M.A., Bilkent University, 1996  
M.A., University of Pittsburgh, 1998  
Ph.D., West Virginia University, 2006

Salisbury, Joseph E  
RESEARCH ASSOCIATE PROFESSOR  
Ocean Process Analysis Lab  
B.A., 1980, M.S., University of Southern Maine, 1990  
Ph.D., University of New Hampshire, 2003

Salloway, Jeffrey Colman  
PROFESSOR EMERITUS  
B.A., Tufts University, 1963  
M.A., 1965, Ph.D., Boston University, 1969

Salvio, Paula M  
PROFESSOR  
Education  
B.A., Fordham University, 1981  
M.A., Wesleyan University, 1983  
Ph.D., University of Rochester, 1989

Salyer, Lucy E  
PROFESSOR  
History  
B.A., University of California - San Diego, 1979  

Sample, Ruth J  
ASSOCIATE PROFESSOR  
Philosophy  
B.A., Oberlin College, 1986  
Ph.D., University of Pittsburgh, 1995

Samuels, Joanne G  
ASSOCIATE PROFESSOR EMERITA  
B.S.N., Northeastern University, 1978  
M.S., Boston University, 1984  
Ph.D., University of Massachusetts - Amherst, 2007

Saputo, Michael A  
Emeritus  
B.A., 1979, M.A., Suny at Stonybrook, 1981

Sasner, John J  
PROFESSOR EMERITUS  
B.A., 1957, M.S., University of New Hampshire, 1959  
Ph.D., University of California - Los Angeles, 1965

Savage, Terry M  
ASSOCIATE PROFESSOR EMERITUS  
B.A., University of New Hampshire, 1969  
M.A., 1975, Ph.D., Boston University, 1978

Scala, Dante J  
PROFESSOR  
Political Science  
B.A., Villanova University, 1990  
M.A., 1993, Ph.D., University of Chicago, 2000

Scharff, Robert C  
PROFESSOR EMERITUS  
A.B., University of Illinois at Urbana-Champaign, 1961  
M.A., 1965, Ph.D., Northwestern University, 1970

Schefer, Donna L  
PRINCIPAL LECTURER  
Communication Sciences & Disorders  
B.S., Trenton State College, 1984  
M.Ed., Boston University, 1991

Scherr, Albert E  
PROFESSOR  
UNHL JD Instruction  
B.A., Yale University, 1976  
J.D., Vermont Law School, So Royalto, 1981

Schibanoff, Susan  
PROFESSOR EMERITA  
B.A., Cornell University, 1966  
M.A., 1967, Ph.D., University of California - Los Angeles, 1971

Schiller, Nina K  
PROFESSOR EMERITA  
B.A., New York University, 1966  
Ph.D., Columbia University in the City of New York, 1975

Schilling, Anthony  
LECTURER  
Business,Politics & Security Studie  
BS, St. John's University, 1979  
MS, Oklahoma City University, 1991  
Graduate Certificate, Univ. of Southern Mississippi, 2015

Schneff, Scott K  
PROFESSOR EMERITUS  
B.A., Augustana College (Sd), 1975  
M.F.A., Kansas State University, 1981

Schofield, Janet L  
SENIOR LECTURER EMERITA  
B.A., 1975, M.A., University of New Hampshire, 1977  
M.F.A., University of Iowa, 1979

Schram, Thomas H  
ASSOCIATE PROFESSOR  
Education  
B.A., Dartmouth College, 1978  
B.A., University of Wyoming, 1982  
M.Ed., 1987, Ph.D., University of Oregon, 1990

Schroeder, Calvin E  
EXTENSION EDUCATOR EMERITUS  
M.O.E., University of New Hampshire, 1980
Schubert, Ashley
LECTURER
Anthropology
B.A., Wake Forest University, 2007
M.A., University of Michigan, 2011

Schuh, Mary Clare
RESEARCH ASSOCIATE PROFESSOR
Institute on Disability
B.A., State University of New York at Geneseo, 1984
M.A., Syracuse University, 1987
M.F.A., 1987, Ph.D., University of New Hampshire, 2002

Schwab, Charles George
PROFESSOR EMERITUS
B.S., 1969, M.S., 1970, Ph.D., University of Wisconsin, 1974

Schwadron, Nathan A
PROFESSOR
Physics - Joint Positions
B.A., Oberlin College, 1990
Ph.D., University of Michigan, 1997

Schweickart, Patrocinio P
PROFESSOR EMERITUS
B.S., University of The Phillipines, Philippines, 1963
M.S., 1965, M.A., University of Virginia, 1969
M.A., 1974, Ph.D., Ohio State University, 1979

Sciabarrasi, Michael R
EXTENSION PROFESSOR AND SPECIALIST EMERITUS
B.S., University of Massachusetts - Lowell, 1976
M.S., Virginia Polytechnic Institute and State University, 1978

Scogland, Elissa
LECTURER
English as a Second Language
B.A., Bentley College, 1992
M.Ed., Harvard University, 1993

Scola, Zachary T
ASSISTANT PROFESSOR
Kinesiology
BS, University of Wisconsin-La Crosse, 2015
MSE, University of Kansas, 2016
PhD, University of Kansas, 2019

Scott, Michelle P
PROFESSOR EMERITA
B.A., Wellesley College, 1961
M.A., 1980, Ph.D., Harvard University, 1984

Scott, William
PROFESSOR EMERITUS
B.S., Drexel University, 1961
M.Ed., University of New Hampshire, 1973

Seal, Andrew R
LECTURER
Economics
B.A., Dartmouth College, 2007
M.A., 2012, M.Phil., 2012, Ph.D., Yale University, 2017

Seal, Samantha L
ASSISTANT PROFESSOR
English
B.A., Washington University - St Louis, 2006
M.A., 2010, M.Phil., 2010, Ph.D., Yale University, 2012

Seaman, Jayson O
ASSOCIATE PROFESSOR
Kinesiology
B.A., New England College, 1994
M.S., 1999, Ph.D., University of New Hampshire, 2006

Seavey, David Charles
EXTENSION EDUCATOR EMERITUS
A.A., University of New Hampshire, 1963
B.A., University of Rhode Island, 1966
M.A., University of New Hampshire, 1969

Seavey, John W
PROFESSOR EMERITUS
A.B., Bates College, 1966
M.A., 1968, Ph.D., University of Arizona, 1973
M.P.H., Harvard University, 1979

Sedory, Daniel R
CLINICAL PROFESSOR
Kinesiology
B.S., University of Pittsburgh, 1982
M.S., University of Arizona, 1984

Seichepine, Daniel R
ASSISTANT PROFESSOR
Life Sciences
B.A., California State University, 2002

Seidel, Alice C
ASSOCIATE PROFESSOR EMERITUS
B.S., University of Wisconsin, 1963
M.P.H., University of Michigan, 1972
Ed.D., Vanderbilt University, 1994

Seidel, Lee F
PROFESSOR EMERITUS
A.B., Hobart and William Smith College, 1967
M.P.A., 1972, Ph.D., Pennsylvania State University, 1976

Seiler, David E
PROFESSOR EMERITUS

Seitz, William Rudolf
PROFESSOR
Chemistry
A.B., Princeton University, 1965
Ph.D., Massachusetts Institute of Technology, 1970

Sell, Nancy L
SENIOR LECTURER
English as a Second Language
B.A., Michigan State University, 1983
M.A., Eastern Michigan University, 1990
M.P.H., University of New Hampshire, 2011
Semenova, Oksana V
SENIOR LECTURER
English as a Second Language
B.A., Kramatorsk Inst Econ to Humani, 1997

Senier, Siobhan
PROFESSOR
English
A.B., Bowdoin College, 1987
M.A., 1992, Ph.D., University of Illinois at Urbana-Champaign, 1997

Shaffer, Laurie R
LECTURER
Communication Arts and Science
B.A., Hamilton College, 1983

Shannon, Patrick
ASSOCIATE PROFESSOR
Social Work
B.A., 1990, M.S.W., State University of New York at Buffalo, 1993
Ph.D., University of Virginia, 2000

Sharkey, Judith A
PROFESSOR
Education
B.A., Franklin Pierce College, 1984
M.A.T., School for International Training, 1990
Ph.D., Pennsylvania State University, 2000

Sharp, Dayle B
CLINICAL ASSOCIATE PROFESSOR
Nursing
B.S.N., University of New Hampshire, 1992
M.S.N., Idaho State University, 1999
Ph.D., University of Texas at El Paso, 2005
M.P.H., Univ of Texas Houston, 2008
DNP, University of Texas at El Paso, 2014

Sharp, Erin H
ASSOCIATE PROFESSOR
Human Development & Family Studies
B.S., Virginia Commonwealth University, 1999
M.S., 2003, Ph.D., Pennsylvania State University, 2006

Sharpe, Sheree T
ASSISTANT PROFESSOR
Mathematics & Statistics
B.A., Wesleyan College, 2004
M.A., University of Georgia, 2007
Ph.D., University of Miami, 2011

Shea, Christine M
PROFESSOR
Decisions Sciences
Ph.D., University of Western Ontario, Canada, 1995

Sheehan, Alice E
LECTURER
Decisions Sciences
Ph.D., University of Alabama, 2019

Shen, Junhao
PROFESSOR
Mathematics & Statistics
B.S., 1993, M.S., Nanjing University, China, 1996
Ph.D., University of Pennsylvania, 2004

Shepard, Harvey K
PROFESSOR EMERITUS
B.S., University of Illinois at Urbana-Champaign, 1960
M.S., 1962, Ph.D., California Institute of Technology, 1966

Shepard, Margaret P
CLINICAL ASSOCIATE PROFESSOR
Nursing

Sheriff, Robin E
ASSOCIATE PROFESSOR
Anthropology
B.A., Bard College, 1984
Ph.D., City University of New York, 1997

Sherman, Jill M
ASSISTANT PROFESSOR
Human Development & Family Studies
B.S., 2007, M.A., Central Michigan University, 2009
Ph.D., Purdue University, 2014

Sherman, Sarah W
PROFESSOR EMERITA
B.A., Marlboro College, 1972
Ph.D., Brown University, 1983

Shetty, Sandhya
ASSOCIATE PROFESSOR
English
B.A., 1977, M.A., University of Poona, India, 1979
M.A., 1982, Ph.D., University of Rochester, 1987

Shiklomanov, Alexander I
RESEARCH ASSISTANT PROFESSOR
Earth Systems Research Center

Shippee-Rice, Raelene V
ASSOCIATE PROFESSOR EMERITA
B.S., Fitchburg State College, 1960
Diploma, Cook County School of Nursing, 1960
B.S.N., Carroll College, 1964
M.S., University of Rochester, 1979
Ph.D., Brandeis University, 1990

Shore, Barry
PROFESSOR EMERITUS
B.S., Tufts University, 1960
M.B.A., University of Massachusetts - Amherst, 1963
Ph.D., University of Wisconsin, 1968

Shore, Samuel D
PROFESSOR EMERITUS
B.S., Juniata College, 1959
M.A., 1961, Ph.D., Pennsylvania State University, 1964
Short, Frederick T
RESEARCH PROFESSOR EMERITUS
B.A., Plymouth State University, 1972
M.S., University of Rhode Island, 1976
Ph.D., University of Alaska, 1981

Short, Kevin M
PROFESSOR
Mathematics & Statistics
B.A., 1985, B.S., University of Rochester, 1985
Ph.D., Imperial College London, United Kingdom, 1988

Shubov, Marianna A
PROFESSOR
Mathematics & Statistics
M.S., 1972, Ph.D., Saint Petersburg State University, Russia, 1985

Sias, Jo E
PROFESSOR
Civil and Environmental Engineering
B.S., University of New Hampshire, 1994
M.S., 1996, Ph.D., North Carolina State University, 2001

Sideman, Rebecca G
FULL EXTENSION STATE SPECIALIST/PROFESSOR
Food and Agriculture
B.A., Dartmouth College, 1994
Ph.D., Cornell University, 1999

Sidor, Inga F
CLINICAL ASSOCIATE PROFESSOR
Molecular, Cellular, & Biomedical
B.A., Reed College, 1992
D.V.M., Tufts University, 1999
M.S., University of Connecticut, 2004

Siggelakis, Susan J
ASSOCIATE PROFESSOR
Political Science
B.A., Rutgers University, 1979
M.A., 1983, Ph.D., Johns Hopkins University, 1988

Silva, Bethany A
RESEARCH ASSISTANT PROFESSOR
Education
B.A., Middlebury College, 1998
M.F.A., Vermont College of Fine Arts, 2005
Ed.D., University of Pennsylvania, 2017

Silva, J. Donald
PROFESSOR EMERITUS

Silverman, Daniel S
LECTURER
Decisions Sciences
B.A., State University of New York, 1994
M.B.A., University of New Hampshire, 2007

Simons, Michael J
LECTURER
Natural Resources & The Environment

Simon, Mitchell M
VISITING PROFESSOR EMERITA
B.S., Hofstra University, 1973
J.D., Boston University, 1977

Simonton, Deborah L
CLINICAL ASSISTANT PROFESSOR
Nursing
B.S., 1983, M.S., University of New Hampshire, 1998

Simos, Evangelos O
PROFESSOR
Economics
B.S., National and Kapodistrian University of Athens, Greece, 1972
M.A., 1974, Ph.D., Northern Illinois University, 1977

Simpson, Robert E
PROFESSOR EMERITUS
B.S., University of Rochester, 1955
M.A., 1956, Ph.D., Harvard University, 1960

Sir, Walter Niel
ASSOCIATE PROFESSOR EMERITUS
B.A., University of Chicago, 1952

Sitkoff, Harvard I
PROFESSOR EMERITUS
A.B., Queens College of the City University of New York, 1961
M.A., 1962, Ph.D., Columbia University School of General Studies, 1975

Sivaprasad, Kondagunta
PROFESSOR EMERITUS
B.S.E.E., University of Madras, India, 1956
M.S., 1958, Ph.D., Harvard University, 1963

Slauson, Margaret W
ASSOCIATE PROFESSOR EMERITUS
B.S.N., Massachusetts Institute of Technology, 1952
M.S., Univ of Lowell, 1979
Ed.D., Vanderbilt University, 1985

Slifer, Karl J
ASSOCIATE PROFESSOR
Physics
B.S., 1995, Ph.D., Temple University, 2004

Slomba, Elizabeth A
PROFESSOR
Dean's Office/Administration
B.A., Mount Holyoke College, 1991
M.A., University of Virginia, 1993
M.L.S., University of Maryland, 1998

Smick-Attisano, Regina A
ASSOCIATE PROFESSOR
Provost Office
B.S., 1982, M.S., University of Maryland, 1984
Ed.D., Virginia Polytechnic Institute and State University, 1988
Smiley, William A
ASSISTANT PROFESSOR
Classics, Humanities & Ital Studies
B.S., Hillsdale College, 2005
M.A., University of Utah, 2008
Ph.D., University of Cambridge, England, 2012
J.D., Yale Law School, 2014

Smith, Allan B
CLINICAL ASSOCIATE PROFESSOR
Communication Sciences & Disorders
B.S., Florida State University, 1986
M.S., Mass Gen Hosp Sch of Nur, 1996
Ph.D., University of Connecticut, 2002

Smith, Charles W
RESEARCH PROFESSOR
Space Science Center
B.S., University of Maryland, 1977
Ph.D., 1979, M.S., College of William and Mary, 1981

Smith, Cheryl A
FULL EXTENSION STATE SPECIALIST/PROFESSOR
Food and Agriculture
B.A., Plymouth State University, 1978
M.S., University of Rhode Island, 1983
Ph.D., University of New Hampshire, 1992

Smith, Henry M
LECTURER EMERITUS
B.A., Wofford College, 1963
M.A., Yale University, 1964
M.A., Middlebury College, 1987

Smith, Laura A
SENIOR LECTURER
English
B.A., Grove City College, 1992
M.S.T., 2001, Ph.D., University of New Hampshire, 2007

Smith, Mark R
PROFESSOR EMERITUS
B.A., Northwestern University, 1960

Smith, Nicholas J
PROFESSOR
Philosophy
B.A., Vassar College, 1994
J.D., State University of New York at Buffalo, 1997
Ph.D., Vanderbilt University, 2002

Smith, Richard G
ASSOCIATE PROFESSOR
Natural Resources & The Environment
B.S., University of New Mexico, 1996
Ph.D., Michigan State University, 2005

Smith, Robert Scott
PROFESSOR
Classics, Humanities & Ital Studies
B.A., Mary Wash Coll (Univ Va), 1993
A.M., 1996, Ph.D., University of Illinois at Urbana-Champaign, 2000

Smith, Samuel C
PROFESSOR EMERITUS
B.S., 1955, M.S., 1958, Ph.D., Pennsylvania State University, 1962

Smith, Sarah L
ASSISTANT PROFESSOR
Occupational Therapy
B.S., Colorado State University, 1997
D.Sc., University of Oklahoma, 2015

Smith, Sarah Shea
EXTENSION PROFESSOR AND SPECIALIST EMERITUS
B.S.F., 1978, M.O.E., University of New Hampshire, 1989

Smith, Subrena E
ASSISTANT PROFESSOR
Philosophy
B.A., University of London, United Kingdom, 2005
M.A., 2011, Ph.D., Cornell University, 2013

Smith, Wayne J
SENIOR LECTURER
Electrical & Computer Eng Dept

Soha, Michael L
SENIOR LECTURER
Communication
B.A., University of New Hampshire, 2008
M.A., University of Massachusetts - Amherst, 2012

Sohl, Jeffrey E
PROFESSOR
Decisions Sciences
B.A., Villanova University, 1972
M.A., 1974, Ph.D., University of Maryland, 1983

Sokol, Jason C
ASSOCIATE PROFESSOR
History
B.A., Oberlin College, 1999

Solomon, Alvin Maingi
LECTURER
Geography
B.Ed., Egerton University, Kenya, 2007
Ph.D., West Virginia University, 2015

Song, Edward
ASSISTANT PROFESSOR
Electrical & Computer Eng Dept
B.S., Queen’s University- Ca, 2004
M.S., University of Alberta, Canada, 2007
Ph.D., Louisiana State University, 2014

Sonnenmeier, Rae M
CLINICAL ASSOCIATE PROFESSOR
Communication Sciences & Disorders
Sorensen, David C
EXTENSION EDUCATOR EMERITUS
M.S., University of Rhode Island, 1967

Sower, Stacia
PROFESSOR EMERITA
B.A., University of Utah, 1973
M.S., 1978, Ph.D., Oregon State University, 1980

Sowers, Jeannie
ASSOCIATE PROFESSOR
Political Science
B.A., Harvard University, 1989

Spang, Linda A
CLINICAL ASSOCIATE PROFESSOR
Health Management & Policy
B.A., Purdue University, 1985
J.D., Western Michigan University, 1999
M.S., Union Graduate School, 2013

Spar, T M
PROFESSOR EMERITUS
B.A., Ohio Wesleyan University, 1963
M.S., 1969, Ph.D., Texas A & M University, 1972

Sparrow, John E
ASSOCIATE PROFESSOR
Life Sciences
B.S., State University of New York at Oswego, 1983
M.A., 1986, Ph.D., University of New Hampshire, 1990

Sparrow, Sophie M
PROFESSOR
UNHL JD Instruction
B.A., Harvard University, 1982
J.D., Harvard Law School, 1986

Spence, Harlan
DIRECTOR
EOS Administration
B.A., Boston University, 1983
M.S., 1985, Ph.D., University of California, 1989

Sprout, Otis J
PROFESSOR EMERITUS
B.S., 1952, M.S., University of Maine, 1957
D.Sc., Washington University, 1961

Stampone, Mary D
ASSOCIATE PROFESSOR
Geography
B.A., Albion College, 1998
M.S., 2002, Ph.D., University of Delaware, 2009

Staneva, Viktoriya B
ASSISTANT PROFESSOR
Accounting and Finance
B.S., Ramapo College Nj, 2010
M.Phil., 2014, Ph.D., CUNY Baruch College, 2017

Stibler, Robert J
PROFESSOR EMERITUS
B.S., Susquehanna University, 1970

Stine, William W
ASSOCIATE PROFESSOR
Psychology
B.S., 1977, Ph.D., 1983, M.S., Georgia Institute of Technology, 1983

Stoddard, Samuel
EXTENSION EDUCATOR EMERITUS
B.A., University of Maine, 1968
M.S., Iowa State University, 1976

Stone, Joyce R
LECTURER EMERITA
B.A., Northeastern University, 1971

Stoykovich, Elisa F
LECTURER EMERITA
B.A., Univ of Barcelona, 1967
M.A., 1972, M.A., University of New Hampshire, 1974

Stracuzzi, Nena F
SENIOR LECTURER
Sociology
B.A., University of California - Irvine, 1996
M.A., 1998, Ph.D., University of New Hampshire, 2005

Straussfogel, Debra L
PRINCIPAL LECTURER EMERITA
B.S., 1979, M.S., 1983, Ph.D., Pennsylvania State University, 1987

Sukhu, Anupama
ASSISTANT PROFESSOR
Hospitality Management
B.A., University of Calicut, India, 2008
M.S., Plymouth Business School, Plymouth University, Plymouth England, 2010
Ph.D., Ohio State University, 2015

Sullivan, Judith A
PROFESSOR EMERITUS
B.S., 1970, M.S., Boston University, 1972
M.S., Case Western Reserve University, 1973

Sullivan, Mary Jane
CLINICAL ASSOCIATE PROFESSOR
Communication Sciences & Disorders
AUD, Arizona School of Health Sciences, 2003

Sundar, Vidyalakshmi
ASSISTANT PROFESSOR
Occupational Therapy
B.S., The Tamil Nada Dr M.G.R Medical University, India, 1979
Ph.D., University at Buffalo, State University of New York, 2007
Sundberg, Donald C
PROFESSOR EMERITUS
B.S., Worcester Polytechnic Institute, 1965
M.S., 1968, Ph.D., University of Delaware, 1970

Sussenberger, Barbara B
ASSOCIATE PROFESSOR EMERITUS
B.S., 1961, Certificate, Tufts University, 1961
M.S., Boston University, 1979

Swack, Michael E
RESEARCH PROFESSOR
Carsey School
B.S., University of Wisconsin, 1975
M.S., Harvard University, 1979
Ph.D., Columbia University in the City of New York, 1990

Swann, Kristen R
SENIOR LECTURER
Classics, Humanities & Ital Studies
M.Phil., 2007, Ph.D., Columbia University in the City of New York, 2012

Swier, Stanley R
EXTENSION PROFESSOR AND SPECIALIST EMERITUS
B.S., Syracuse University, 1969
M.S., Northern Az University, 1974
Ph.D., Ohio State University, 1976

Swift, M Robinson
PROFESSOR
Mechanical Engineering
B.S., 1971, Ph.D., University of New Hampshire, 1974

T

Taetzsch, Amy
CLINICAL ASSISTANT PROFESSOR
Agriculture, Nutrition,& Food Systm
Ph.D., Tufts University, 2019

Taft, Charles K
PROFESSOR EMERITUS
B.A., Amherst College, 1951
B.S., Massachusetts Institute of Technology, 1953
M.S., 1956, Ph.D., Case Western Reserve University, 1960

Tagliaferro, Anthony R
PROFESSOR EMERITUS
B.A., Boston College, 1968
M.S., Lehigh University, 1972
Ph.D., Cornell University, 1978

Talay, Melike Billur
ASSOCIATE PROFESSOR
Marketing
B.A., 2002, M.B.A., Bogazici University, Turkey, 2004
Ph.D., Michigan State University, 2009

Tarr, Matthew D
FULL EXTENSION STATE SPECIALIST/PROFESSOR
Natural Resources

Tavares, Theodore S
ASSISTANT PROFESSOR
Applied Engineering & Sciences

Taylor, James Thomas
PROFESSOR
Natural Resources & The Environment
B.S., 1966, M.S., University of Tennessee, 1968
Ph.D., Oregon State University, 1976

Tebbetts, Diane R
PROFESSOR EMERITA
B.A., University of New Hampshire, 1965
M.S., Simmons College, 1972
M.L.S., Boston University, 1978
D.L.S., Simmons College, 1985

Tenczar, Anthony
ASSOCIATE PROFESSOR
Communication Arts and Science
B.A., University of Massachusetts - Amherst, 1978
M.F.A., University of Texas, 1996

Teng, Xiaowei
PROFESSOR
Chemical Engineering
B.S., 2001, M.S., East China University of Science and Technology, 2001
Ph.D., University of Rochester, 2006

Terry, Joseph L
LECTURER
Communication
B.S., University of Illinois at Urbana-Champaign, 2000
M.A., University of Georgia, 2004
Ph.D., University of Colorado at Boulder, 2013

Theimer, Sarah H
ASSISTANT PROFESSOR
Resource Acquisition and Discovery
B.A., Carleton College, 1984
M.L.S., University of Maryland, 1986

Thein, May-Win L
ASSOCIATE PROFESSOR
Mechanical Engineering
B.S., 1991, M.S., Lehigh University, 1992
Ph.D., Oklahoma State University, 1999

Thomas, William K
PROFESSOR
Molecular, Cellular, & Biomedical
B.S., University of Redlands, 1981
M.S., 1984, Ph.D., Simon Fraser University, Canada, 1988

Thompson, Thelma B
ASSOCIATE PROFESSOR EMERITA
B.S., 1970, M.S.T., University of Vermont, 1972
M.A., University of Iowa, 1988
Thomsen, Linda Jean
PRINCIPAL LECTURER
Languages, Literatures, & Cultures
B.A., University of Connecticut, 1975
M.A., University of New Hampshire, 1988

Thorson, Jill C
ASSISTANT PROFESSOR
Communication Sciences & Disorders
M.S., 2012, Ph.D., Brown University, 2015

Tillinghast, Edward K
PROFESSOR EMERITUS
B.S., 1955, M.S., University of Rhode Island, 1959
Ph.D., Duke University, 1966

Tisa, Louis S
PROFESSOR
Molecular, Cellular, & Biomedical
B.S., 1976, M.S., University of Windsor, Ontario, Canada, 1979
Ph.D., University of Wisconsin, 1987

Tomar, Nikhil
ASSISTANT PROFESSOR
Occupational Therapy
B.S., Chaudhary Charan Singh University, India, 2010
M.S., University of Wisconsin, 2013
Ph.D., University of North Carolina, 2018

Tomellini, Sterling A
PROFESSOR
Chemistry
B.S., University of Rhode Island, 1979
Ph.D., Rutgers University, 1985

Tooch, David E
PROFESSOR EMERITUS
A.A.S., 1976, B.S.F., University of New Hampshire, 1978
M.B.A., Plymouth State University, 1981

Torbert, Roy B
PROFESSOR
Physics
B.A., Princeton University, 1971
Ph.D., University of California - Berkeley, 1979

Tornick, Jan K
SENIOR LECTURER
Psychology
B.S., Ramapo College Nj, 2003

Towne, Benjamin M
CLINICAL ASSISTANT PROFESSOR
Kinesiology
B.S., Lyndon State College, 1999
M.A., Western Michigan University, 2001

Triplett, Timm A
ASSOCIATE PROFESSOR
Philosophy
B.A., Antioch College, 1972
M.A., 1980, Ph.D., University of Massachusetts - Amherst, 1982

Trolley-Hanson, Alexa R
CLINICAL ASSISTANT PROFESSOR
Occupational Therapy
B.S., 2003, M.S., University of New Hampshire, 2004

Troy, William F
SENIOR LECTURER
Business, Politics & Security Studies
B.A., University of Massachusetts - Amherst, 1976
M.B.A., Cornell University, 1983

Trubowitz, Rachel J
PROFESSOR
English
B.A., Barnard College, 1976

Trzaskoma, Stephen Michael
PROFESSOR
Classics, Humanities & Ital Studies
A.B., Stanford University, 1991
A.M., 1993, Ph.D., University of Illinois at Urbana-Champaign, 1998

Tsang, Paul C
PROFESSOR
Molecular, Cellular, & Biomedical
B.A., Cornell University, 1978
Ph.D., Boston University, 1986

Tsavalas, John G
ASSOCIATE PROFESSOR
Chemistry
B.S., University of Virginia, 1996
M.S., 1998, Ph.D., Georgia Institute of Technology, 2001

Tsukrov, Igor I
PROFESSOR
Mechanical Engineering
B/M, Dnipropetrovsk National University, Ukraine, 1986
M.S., 1993, Ph.D., Tufts University, 1996

Tucker, Anita R
PROFESSOR
Social Work
B.A., Dartmouth College, 1992
M.S.W., University of Michigan, 1997
Ph.D., Boston College, 2006

Tucker, Corinna J
PROFESSOR
Human Development & Family Studies
B.A., Clark University, 1992
M.S., 1995, Ph.D., Pennsylvania State University, 1998

Tucker, James E
ASSOCIATE PROFESSOR EMERITUS
Turner, Heather A
PROFESSOR
Sociology
B.A., University of Western Ontario, Canada, 1985
Ph.D., University of California - San Francisco, 1990

Turner, Penelope C
EXTENSION EDUCATOR EMERITA
A.A.S., Westbrook Junior College, 1960
M.Ed., Cambridge College, 1992

Tuttle, Steven D
ASSOCIATE PROFESSOR EMERITUS

Ulrich, Gael Dennis
PROFESSOR EMERITUS
B.S., 1959, M.S., University of Utah, 1962
D.Sc., Massachusetts Institute of Technology, 1964

Upham, David Michael
ASSISTANT PROFESSOR
Music
B.A., Luther College, 1992
M.M., University of Northern Colorado, 1995
D.M.A., University of Washington, 2007

Upham, Elsa M
SENIOR LECTURER
English as a Second Language
B.A., Academy of Monpellier, France, 1992
M.A., Paul Valery University, France, 1996
M.A., University of British Columbia, 1999

Urban, Willard E
PROFESSOR EMERITUS
B.S., Virginia Polytechnic Institute and State University, 1958
M.S., 1960, Ph.D., Iowa State University, 1963

Urquhart, Peter W
ASSOCIATE PROFESSOR
Music
A.B., Princeton University, 1974
M.M., Westminster Choir College, 1978
M.A., Smith College, 1982
Ph.D., Harvard University, 1988

Van, V.

Vacca, Ryan G
PROFESSOR
UNHL JD Instruction
B.A., Amherst College, 2001
J.D., University of Missouri - Columbia, 2004
LL.M., New York University, 2008

Vagts, Peggy A
PROFESSOR
Music
B.A., Morningside College, 1976
M.M., University of Wisconsin - Madison, 1978

Valdez, Charli G
SENIOR LECTURER
English
A.B., Cornell University, 1992
A.M., Brown University, 1999
Ph.D., University of Houston, 2004

Valenza, Daniel L
PROFESSOR EMERITUS

Van der Graaff, Ivo
ASSISTANT PROFESSOR
Art and Art History
B.A., 2006, M.A., University of Amsterdam, the Netherlands, 2006
Ph.D., University of Texas at Austin, 2013

Van Gundy, Karen T
PROFESSOR
Sociology
B.S., Virginia Polytechnic Institute and State University, 1994
M.A., University of Cincinnati, 1998
Ph.D., University of Miami, 2001

Van Zandt, Cynthia J
ASSOCIATE PROFESSOR
History
B.A., University of Virginia, 1984

VanCamp, Amy B
CLINICAL ASSISTANT PROFESSOR
Occupational Therapy
B.S., University of New Hampshire, 2001
Ph.D., Quinnipiac University, 2016

Vandemark, Douglas C
RESEARCH PROFESSOR
Ocean Process Analysis Lab
B.S., Hope College, 1986
M.S., University of Massachusetts - Amherst, 1988
Ph.D., University of New Hampshire, 2005

Vannette, Charles M
ASSISTANT PROFESSOR
Languages, Literatures, & Cultures
B.A., University of Arizona, 2001
M.A., 2005, Ph.D., Ohio State University, 2011

Vanosdol, Donovan H
PROFESSOR EMERITUS
A.B., Earlham College, 1964
M.A., University of Illinois at Urbana-Champaign, 1966
Ph.D., University of Illinois at Chicago, 1969

Varga, Krisztina
ASSOCIATE PROFESSOR
Molecular, Cellular, & Biomedical
B.S., 1996, M.S., St. John's University - New York, 1998
Ph.D., Columbia University in the City of New York, 2015
Varki, Elizabeth
ASSOCIATE PROFESSOR
Computer Science
B.S., 1985, M.A., University of Delhi, India, 1988
M.S., Villanova University, 1992
Ph.D., Vanderbilt University, 1997

Varn, James S
ASST PROVOST EMERITUS
B.A., University of New Hampshire, 1976
M.P.A., Harvard University, 1984
C.A.G.S., University of New Hampshire, 2001

Varner, Ruth K
PROFESSOR
Earth Sciences - Joint Positions
B.A., Hartwick College, 1991
M.S., 1993, Ph.D., University of New Hampshire, 2000

Vashisth, Harish
ASSOCIATE PROFESSOR
Chemical Engineering
B.Tech., National Instit of Tech India, 2005
Ph.D., Drexel University, 2010

Vasquez, Bernard J
RESEARCH PROFESSOR
Space Science Center
B.S., Rensselaer Polytechnic Institute, 1987
Ph.D., University of Maryland, 1992

Vasudevan, Palligarnai T
SENIOR VICE PROVOST
Provost Office
B.S.E.T., University of Madras, India, 1974
M.S., State University of New York at Buffalo, 1984
Ph.D., Clarkson University, 1988

Veal, Larry J
ASSOCIATE PROFESSOR EMERITUS
B.S., 1974, M.M., University of Illinois at Urbana-Champaign, 1976

Vellucci Leaver, Sherry L
PROFESSOR EMERITA
B.A., Rutgers University, 1972
M.S., Drexel University, 1983
D.L.S., 1995, Ph.D., Columbia University in the City of New York, 1995

Vincenzi, Marco
LECTURER
Economics
Ph.D., M.S., Carnegie Mellon University,

Violette, Catherine A
FULL EXTENSION STATE SPECIALIST/PROFESSOR EMERITA
B.S., 1974, B.S., 1975, M.S., University of Maine, 1977
Ph.D., Pennsylvania State University, 2002

Vogel, Karla E
ASSISTANT PROFESSOR EMERITA

Vorenberg, Amy
CLINICAL PROFESSOR
UNHL Legal Skills
B.A., Hamilton College, 1979
J.D., Northeastern University, 1984

Vroman, Kerryleen G
ASSOCIATE VICE PROVOST FOR INTERNATIONAL PROGRAMS
Education Abroad
B.A., Massey University, New Zealand, 1990
M.S., McMaster University, Canada, 1992
Ph.D., Massey University, New Zealand, 2006

W

Wager, Susan M
ASSISTANT PROFESSOR
Art and Art History

Wainwright, Anna F
ASSISTANT PROFESSOR
Classics, Humanities & Ital Studies
B.A., University of Chicago, 2005
M.A., 2014, Ph.D., New York University, 2017

Wake, Cameron P
RESEARCH PROFESSOR
Earth Systems Research Center
B.S., University of Ottawa, Canada, 1984
Ph.D., University of New Hampshire, 1993
M.A., Wilfrid Laurier University, Canada, 1993

Walker, Charles W
PROFESSOR EMERITUS
B.A., Miami University, 1969
M.S., 1973, Ph.D., Cornell University, 1976

Walker, Sarah R
ASSISTANT PROFESSOR
Molecular, Cellular, & Biomedical
B.S., Rensselaer Polytechnic Institute, 2001
Ph.D., Harvard University, 2006

Walsh, Susan A
ASSOCIATE PROFESSOR
Communication Arts and Science
B.A., Kenyon College, 1979
M.A., 1980, Ph.D., Duke University, 1988

Wang, Jing
ASSOCIATE PROFESSOR
Decisions Sciences
B.A., Nankai University, China, 1994
M.A., Bowling Green State University, 2001
M.B.A., 2003, Ph.D., Kent State University, 2007

Wang, Rosemary Y
ASSOCIATE PROFESSOR EMERITUS
Diploma, Good Samaritan Hospital, 1957
B.S., College of Mount Saint, 1959
Wansart, William L
ASSOCIATE PROFESSOR EMERITUS
B.S., State University of New York at Buffalo, 1972
M.A., 1975, Ed.D., Colorado State University, 1984

Ward, Judith D
ASSOCIATE PROFESSOR EMERITA
M.O.E., 1976, B.S., University of New Hampshire, 1978
Ph.D., University of Minnesota, 1997

Ward, Larry G
RESEARCH ASSOCIATE PROFESSOR
Center for Coastal & Ocean Mapping
B.A., University of New Hampshire, 1972
M.S., 1974, Ph.D., University of South Carolina, 1978

Ward, Sally K
PROFESSOR EMERITA
B.A., University of Maryland, 1970
M.A., 1974, Ph.D., Brown University, 1977

Warner, Rebecca M
PROFESSOR EMERITA
B.A., Carnegie Mellon University, 1973
Ph.D., Harvard University, 1978

Watson, Deborah E
ASSOCIATE PROFESSOR EMERITA
M.S., Simmons College, 1972

Watson, Winsor H
PROFESSOR EMERITUS
B.A., Wesleyan University, 1972
Ph.D., University of Massachusetts - Amherst, 1978

Watters, David H
PROFESSOR EMERITUS
A.B., Dartmouth College, 1972
Ph.D., Brown University, 1978

Watts, Alison W
RESEARCH ASSISTANT PROFESSOR
Civil and Environmental Engineering
B.A., Mount Holyoke College, 1984
M.S., University of Arizona, 1992
Ph.D., University of New Hampshire, 2006

Weathersby, Rita
ASSOCIATE PROFESSOR EMERITA
B.A., University of California - Berkeley, 1965

Webb, W Dwight
ASSOCIATE PROFESSOR EMERITUS
B.A., 1955, M.A., University of Redlands, 1956
Ph.D., Stanford University, 1967

Weber, Thomas C
ASSOCIATE PROFESSOR
Mechanical Engineering
B.S., 1997, M.S., University of Rhode Island, 2000
Ph.D., Pennsylvania State University, 2006

Webster, Penelope E
ASSOCIATE PROFESSOR EMERITA
B.S., Northeastern University, 1976
M.A., State University of New York at Geneseo, 1977
Ed.D., Boston University, 1984

Weiland, Walter E
ASSOCIATE PROFESSOR EMERITUS
B.S., State University of New York at Cortland, 1957
M.S., 1959, Ph.D., Pennsylvania State University, 1964

Weiner, James L
ASSOCIATE PROFESSOR
Computer Science
B.S., University of Massachusetts - Amherst, 1973
M.S., University of Wisconsin, 1975
Ph.D., University of California - Los Angeles, 1979

Weintraub, Scott E
ASSOCIATE PROFESSOR
Languages, Literatures, & Cultures
A.B., Dartmouth College, 2001
Ph.D., Emory University, 2006

Weisman, Gary R
PROFESSOR EMERITUS
B.S., University of Kentucky, 1971
Ph.D., University of Wisconsin, 1976

Wells, Melissa
PROFESSOR
Social Work
B.A., University of New Hampshire, 1991
M.S.W., University of Minnesota, 1995
Ph.D., University of New Hampshire, 2003

Wells, Otho S
PROFESSOR EMERITUS
B.S., Nc State University, 1961
M.S., Michigan State University, 1963
Ph.D., Rutgers University, 1966

Wells, Roger E
CLINICAL PROFESSOR EMERITUS
D.V.M., Ohio State University, 1972
M.S., Michigan State University, 1980

West, Natalie K
LECTURER
Kinesiology
B.A., Simmons College, 2009
M.S., Northeastern University, 2011

Wharton-McDonald, Ruth M
ASSOCIATE PROFESSOR
Education
A.B., Brown University, 1985
Ed.M., Harvard University, 1989
Ph.D., University at Albany, 1996

Wheeler, Douglas L
PROFESSOR EMERITUS
A.B., Dartmouth College, 1959
M.A., 1960, Ph.D., Boston University, 1963
Whistler, Cheryl A
PROFESSOR
Molecular, Cellular, & Biomedical
B.A., University of California - San Diego, 1991
Ph.D., Oregon State University, 2000

White, Barbara Prudhomme
ASSOCIATE PROFESSOR
Occupational Therapy
B.S., 1978, Ph.D., University of Minnesota, 1999

White, Christopher M
PROFESSOR
Mechanical Engineering
B.S., 1994, M.S., State University of New York, 1996
Ph.D., Yale University, 2001

White, Melinda M
SENIOR LECTURER
English
B.S., 2005, M.S., Utah State University, 2007
Ph.D., Virginia Commonwealth University, 2012

White, Susan O
PROFESSOR EMERITA
A.B., Bryn Mawr College, 1958
M.A., 1966, Ph.D., University of Minnesota, 1970

Whitehead, Tamsin A
SENIOR LECTURER
Women's and Gender Studies
B.A., University of London, United Kingdom, 1978
M.F.A., Vermont College of Fine Arts, 2005

Whitehouse, Nancy L
RESEARCH ASSISTANT PROFESSOR
Agriculture, Nutrition, & Food Systems

Wible, James R
PROFESSOR
Economics
A.B., Wheaton College, 1973
Ph.D., Pennsylvania State University, 1980

Wilburn, Reginald A
ASSOCIATE DEAN
Dean's Office - Liberal Arts
B.A., University of the District of Columbia, 1999
M.A., 2001, Ph.D., University of Connecticut, 2009

Wilcox, John M
CLINICAL ASSOCIATE PROFESSOR
Occupational Therapy
B.S., Syracuse University, 1999
M.S., San Jose State University, 2007
D, Rocky MT Univ of Health Prof, 2010

Wilder, Allison
ASSOCIATE PROFESSOR
Recreation Management & Policy
B.S., Ithaca College, 1984
M.S., State University of New York at Cortland, 1992
Ph.D., Virginia Commonwealth University, 2008

Wiley, Mark R
ASSOCIATE STATE SPECIALIST/PROFESSOR
Youth and Family
B.A., Dartmouth College, 1975
M.S., University of New Hampshire, 1980

Wiley, Mary K
LECTURER
Thompson School of Applied Science
B.S., Mount Ida Jr Coll, 2005

Williams, Ann J
ASSOCIATE PROFESSOR
English
M.F.A., University of Iowa, 1997

Williams, Charles H
EXTENSION SPECIALIST EMERITUS
B.S., Pennsylvania State University, 1956
M.S., Michigan State University, 1967

Williams, Daniel
ASSOCIATE PROFESSOR EMERITUS
B.A., Northwestern University, 1966
Ph.D., University of California - Santa Barbara, 1970
B.A., University of California, 1970

Williams, Donald M
SENIOR LECTURER
Art and Art History
B.F.A., University of New Hampshire, 1977

Williams-Barnard, Carol
ASSOCIATE PROFESSOR EMERITA
A.S., Vermont College of Fine Arts, 1970
B.S.N., 1972, M.S.N., 1975, D.N.Sc., Catholic University of America, 1979

Wilkomm, Therese
CLINICAL ASSOCIATE PROFESSOR
Occupational Therapy
B.S., University of Wisconsin, 1982
M.S., Drake University, 1984

Winans, Daniel R
LECTURER
Hospitality Management
B.S., University of New Hampshire, 1993
A.O.S., Culinary Institute of America, 1999
M.A., University of Gastronomic Science, Italy, 2007

Winans, Katharine A
SENIOR LECTURER
Chemistry
B.A., Williams College, 1989
M.A., University of Houston, 1995
Ph.D., University of California - Berkeley, 2001

Windgaetter, Nina S
LECTURER
Philosophy
Ph.D., 2017, M.A., University of Michigan, 2019
Wing, Barbara H
ASSOCIATE PROFESSOR EMERITUS
B.A., Middlebury College, 1955
M.A.T., Harvard University, 1956
M.A., Middlebury College, 1971
Ph.D., Ohio State University, 1980

Winslow, Deborah
ASSOCIATE PROFESSOR EMERITA
B.A., Brandeis University, 1968
M.A., 1970, Ph.D., Stanford University, 1982

Winslow, Reka
Space Science Center
D, University of British Columbia, 2014

Wirth, Clifford Joseph
ASSOCIATE PROFESSOR EMERITUS
B.A., Muhlenberg College, 1969
M.P.A., San Diego State Univ, 1971
Ph.D., Southern Illinois University - Carbondale, 1975

Withers, Sara A
SENIOR LECTURER
Anthropology
B.A., Bowdoin College, 1999
B.A., 2002, Ph.D., Brandeis University, 2009

Witt, Charlotte E
PROFESSOR
Philosophy
B.A., Swarthmore College, 1975
M.A., 1978, Ph.D., Georgetown University, 1980

Witzling, Mara R
PROFESSOR EMERITA
B.A., Queens College of the City University of New York, 1967
M.A., 1970, Ph.D., Cornell University, 1978

Wojchowski, Don M
PROFESSOR
Molecular, Cellular, & Biomedical
B.A., Colby College, 1978
Ph.D., University of Massachusetts - Amherst, 1984

Wollheim, Wilfred M
ASSOCIATE PROFESSOR
Natural Resources & The Environment
B.S., Cornell University, 1989
M.S., University of Wyoming, 1994
Ph.D., University of New Hampshire, 2005

Wolper, Ethel S
ASSOCIATE PROFESSOR
History
B.A., 1982, M.A., University of Chicago, 1984
Ph.D., University of California - Los Angeles, 1994

Wong, Edward H
PROFESSOR EMERITUS
B.S., University of California - Berkeley, 1968
Ph.D., Harvard University, 1975

Wood, Craig H
ASSOCIATE PROFESSOR EMERITUS
A.B., Stanford University, 1972
M.B.A., University of Chicago, 1974
Ph.D., Ohio State University, 1991

Wood, Deanna D
ASSOCIATE PROFESSOR EMERITUS
B.A., Reed College, 1969
M.A., University of Denver, 1972
M.P.A., University of New Hampshire, 1995

Wood, Dorothy
ASSOCIATE EXTENSION EDUCATOR EMERITA
B.S., Boston University, 1949

Wood, Stephen A
ASSISTANT EXTENSION EDUCATOR EMERITUS
B.S., University of Maine, 1973

Woodman, Betty
LECTURER
Management
B.S., University of Massachusetts - Amherst, 1982
M.A., Georgia State University, 2003
Ph.D., Emory University, 2012

Woods, Leah K
ASSOCIATE PROFESSOR
Art and Art History
B.A., Depaul University, 1994
M.F.A., Rochester Institute of Technology, 2000

Woodward, Robert S
FD MCKERLEY PROFESSOR EMERITUS
B.S., Haverford College, 1965
Ph.D., Washington University - St Louis, 1972

Woodward, William R
PROFESSOR
Psychology
B.A., Harvard University, 1967
M.A., Princeton University, 1969
M.A., 1973, Ph.D., Yale University, 1975

Wormwood, Jolie B
ASSISTANT PROFESSOR
Psychology
B.A., Ithaca College, 2007
Ph.D., Northeastern University, 2012

Wosnik, Martin M
ASSOCIATE PROFESSOR
Mechanical Engineering
B.S., Technical University of Darmstadt, Germany, 1992
M.S., 1994, Ph.D., State University of New York at Buffalo, 2000

Woytonik, Kristen A
LECTURER
Communication Arts and Science
B., Smith College, 2008
Wraith, Jon M
DEAN
Dean’s Office - LS & A
A.A., Butte Community College, 1981
B.S., Humboldt State University, 1984
M.S., 1986, Ph.D., Utah State University, 1989

Wright, John J
PROFESSOR EMERITUS
B.S., Worcester Polytechnic Institute, 1965
Ph.D., University of New Hampshire, 1969

Wright, Peter S
PROFESSOR
UNHL Clinic
B.A., Pennsylvania State University, 1976
J.D., Franklin Pierce Law Center, 1980

Wright, Steven C
PROFESSOR
Kinesiology
B.S., St. Lawrence University, 1979

Wrightsman, Dwayne
PROFESSOR EMERITUS
B.S., Manchester College, 1958
M.B.A., Indiana University - Bloomington, 1959
Ph.D., Michigan State University, 1964

Wu, Kang
ASSOCIATE PROFESSOR
Chemical Engineering
B.S., Tianjin University, China, 2003
M.S., 2008, Ph.D., University of Illinois at Urbana-Champaign, 2010

Wymore, Adam S
RESEARCH ASSISTANT PROFESSOR
Natural Resources & The Environment
Ph.D., Northern Arizona University, 2013

Xiao, Jingfeng
RESEARCH ASSOCIATE PROFESSOR
Earth Systems Research Center
B.S., Lanzhou University, China, 1997
M.S., Beijing University, China, 2000
Ph.D., University of North Carolina at Chapel Hill, 2006

Xie, Wenjuan
ASSOCIATE PROFESSOR
Accounting and Finance
B.B.A., 2000, M.A., Peking University, China, 2002
Ph.D., University of Wisconsin - Madison, 2008

Xu, Dongpeng
ASSISTANT PROFESSOR
Computer Science
B.E., Jilin University in P.R. China, 2009
MENGR, University of Science and Technology, 2013
Ph.D., Pennsylvania State University, 2018

Xu, Le
ASSOCIATE PROFESSOR
Accounting and Finance
B.S., Beijing University, China, 1999
Ph.D., University of Massachusetts - Amherst, 2003

Yalcinkaya, Goksel
PROFESSOR
Marketing
B.S., Ege University, 1993
M.B.A., Suffolk University, 1998
M.S., Northeastern University, 2003
Ph.D., Michigan State University, 2007

Yamamoto, Yutaka
ASSOCIATE PROFESSOR EMERITUS
B.S., University of California - Berkeley, 1957
M.A., 1967, Ph.D., University of Michigan, 1973

Yarensky, Peter
PRINCIPAL LECTURER EMERITUS
B.A., Univ of Hartford, 1972
M.A., 1974, Ph.D., University of New Hampshire, 1983

Yi, Nan
ASSISTANT PROFESSOR
Chemical Engineering
B.S., Qingdao University of Science and Technology, 2000
M.S., Fudan University, China, 2005
Ph.D., Tufts University, 2012

Yoon, Hyewon
LECTURER
Art and Art History
B.A., Seoul National University, Korea, 2005
M.A., 2009, Ph.D., Harvard University, 2016

Yoon, Se Young
ASSISTANT PROFESSOR
Electrical & Computer Eng Dept
B.S., 2005, M.S., Washington University - St Louis, 2005
Ph.D., University of Virginia, 2011

Yost, Israel J
PRINCIPAL LECTURER EMERITUS
B.A., Upsala College, 1968
M.S., University of New Hampshire, 1991

Yount, Janet A
PROFESSOR EMERITA
B.A., Grinnell College, 1968
M.S., University of New Hampshire, 1972

Yount, John A
PROFESSOR EMERITUS
B.A., Vanderbilt University, 1960
M.F.A., University of Iowa, 1962
Yu, Lih-Hwa
LECTURER
Theatre & Dance
M.F.A., University of Texas, 2010
B.F.A., Tapei National University of the Arts, Taiwan, 2010

Yu, Qiaoyan
ASSOCIATE PROFESSOR
Electrical & Computer Eng Dept
B.S., Xidian University, China, 2002
M.S., Zhejiang University, China, 2005
M.S., 2007, Ph.D., University of Rochester, 2011

Z
Zabarsky, Melvin J
PROFESSOR EMERITUS
B.F.A., Boston University, 1958
M.F.A., University of Cincinnati, 1960

Zago, Susan D
PROFESSOR
UNHL Library
B.A., Westfield State College, 1991
M.L.I.S., Simmons College, 1995
J.D., Western New England Univ, 2001

Zahabi, Liese L
ASSISTANT PROFESSOR
Art and Art History
B.F.A., Eastern Michigan University, 2000
MGD, North Carolina State University, 2010

Zaimes, Peter J
LECTURER
Decisions Sciences
M.B.A., Boston University, 2002

Zambon, Kate
ASSISTANT PROFESSOR
Communication
B.A., Vassar College, 2007
M.A., 2012, Ph.D., University of Pennsylvania, 2017

Zang, Jiadong
ASSISTANT PROFESSOR
Physics
B.S., 2007, Ph.D., Fudan University, China, 2012

Zang, Richard A
EMERITUS
Ed.D., Rutgers University, 1994

Zaso, Gus C
ASSOCIATE PROFESSOR EMERITUS
A.B., Syracuse University, 1957
M.A., Central Michigan University, 1962
O, Indiana University - Bloomington, 1965

Zercher, Charles Kent
DEAN OF COLLEGE OF ENGINEERING
Dean's Office - CEPS
B.A., Messiah College, 1981
M.S., State University of New York at Buffalo, 1984
Ph.D., University of Notre Dame, 1989

Zezula, Jerilee A
ASSOCIATE PROFESSOR EMERITA
B.S., 1970, D.V.M., Michigan State University, 1971

Zhang, Lin
ASSISTANT PROFESSOR
Communication
B.A., Beijing Foreign Studies University, China, 2007
M.A., New York University, 2009
M.Phil., The Chinese University of Hong, 2011
Ph.D., University of Southern California, 2017

Zielinski, Mark D
SENIOR LECTURER
Music
M.M., 1998, B.M.Ed., Indiana University, 1999

Ziervogel, Kai
RESEARCH ASSISTANT PROFESSOR
Ocean Process Analysis Lab
Pre-diploma, Kaiserslautern Technical University, Germany, 1995
M.S., 2000, Ph.D., University of Rostock, Germany, 2005

Zifla, Ermira
ASSISTANT PROFESSOR
Decisions Sciences
BBA, Istanbul University, 2008
M.S., Sabanci University, 2009
Ph.D., Temple University, 2018

Zimmerman, Dawn R
CLINICAL ASSISTANT PROFESSOR
Communication Sciences & Disorders
B.A., Baldwin-Wallace College, 1994
M.S.P., University of South Carolina, 1998

Zimo, Ann E
ASSISTANT PROFESSOR
Classics, Humanities & Ital Studies
B.A., University of Chicago, 2005
M.A., Cardiff University, Wales, 2007
Ph.D., University of Minnesota, 2016

Zunz, Sharyn J
ASSOCIATE PROFESSOR EMERITA
B.A., University of Wisconsin, 1970
M.S.W., New York University, 1972
Ph.D., Fordham University, 1993
