MCBS 895 - Special Topics
Credits: 1-4
Special topics course.
Grade Mode: Letter Grade

MCBS 899 - Master's Thesis
Credits: 1-10
May be repeated to a maximum of 10 credits. Cr/F.
Repeat Rule: May be repeated for a maximum of 10 credits.
Grade Mode:

MCBS 901 - Introduction to Research in the Life Sciences
Credits: 2
This two-credit graduate course is designed to acquaint first-year master's and doctoral students with facilities and tools for designing, conducting, and communicating research. Topics include: acquiring proper background information; the art of oral presentation; effective writing; data analysis and graphics using computers; ethics in science; and issues in research.
Grade Mode: Letter Grade

MCBS 905 - Contemporary Topics in Molecular, Cellular and Biomedical Sciences
Credits: 1
Presentation, discussion, and critical evaluation of current research literature in molecular/cellular life sciences and in biomedical sciences. Topics will vary each semester. Cr/F.
Repeat Rule: May be repeated for a maximum of 5 credits.
Grade Mode:

MCBS 910 - Cell Signaling Networks Across the Kingdoms
Credits: 3
This course is a survey of contemporary problems in microbial, plant, protozoan, and animal cell and biosystems signaling. Topics to be covered include: evolution of extracellular signals, receptor systems, and signal transduction pathways that govern cell proliferation, survival, and development; current technical approaches for discovery and characterization of signal transduction factor networks; corrupted signal transduction in disease; disease control or therapy. Students should have knowledge of cell biology, biochemistry, genetics and/or molecular biology.
Grade Mode: Letter Grade

MCBS 913 - Applied Bioinformatics
Credits: 3
Genome-enabled biology is the exploration of basic biological questions by combining high-throughput data gathering approaches, such as DNA sequencing, with computational skills in the area of Bioinformatics. Course is designed to provide an opportunity for graduate students in the life sciences to develop sophisticated methods of data analysis by participating in a collaborative project.
Repeat Rule: May be repeated for a maximum of 6 credits.
Grade Mode: Letter Grade

MCBS 995 - Special Topics
Credits: 1-4
Special topics course.
Grade Mode: Letter Grade

MCBS 997 - Seminar
Credits: 1
Graduate student and faculty presentations on current topics in the molecular life sciences and biomedical sciences. Graduate students are expected to present one seminar per year and attend all seminars each semester. Cr/F. (Offered both fall and spring).
Repeat Rule: May be repeated for a maximum of 8 credits.
Grade Mode:

MCBS 999 - Doctoral Thesis
Credits: 0
Cr/F.
Grade Mode:
