The staff at the University of New Hampshire Psychological and Counseling Services believes that our role in a university setting is multifaceted. We see ourselves as specialists in developmental, clinical/remedial and preventative interventions with young adults and non-traditional age college students. As counselors, we facilitate student's further development of their strengths so that they can overcome their challenges.

We also aim to serve the community while being part of the community. As community members with specialized training in work with the university population, we are knowledgeable about the special needs of students, faculty, staff, and the systems of which we are a part. A large part of our community work focuses on prevention; we believe that increased awareness of healthy ways to cope with stress can help the UNH community and its individual members achieve their professional and personal goals.
