

ACCOUNTING AND FINANCE (ACFI)

Degree Offered: Master of Science (M.S.)

Programs are offered in Durham.

The Department of Accounting and Finance within the Peter T. Paul College of Business and Economics offers two master's programs: the Master of Science in Accounting and the Master of Science in Finance. Both master's programs emphasize strong analytical and communication skills while fostering an awareness of ethical issues. The Paul College is accredited by the Association to Advance Collegiate Schools of Business (AACSB).

The Master of Science in Accounting provides students with range and depth in accounting while developing their ability to become innovative problem solvers in public accounting firms, large corporations, non-profits, and small businesses. Students with undergraduate accounting degrees can complete the program in one year of full-time study or three years of part-time study. Students without an undergraduate degree in accounting can apply but will need to take additional undergraduate foundation courses prior to beginning the graduate program. The program satisfies the 150-credit hour requirement of most Certified Public Accounting state licensing boards, including the state of New Hampshire.

The Master of Science in Finance provides students with the analytical, programming, and problem-solving skills necessary to succeed in a complex financial environment. Upon graduation, these skills can be utilized in a variety of institutions, including investment banks, commercial banks, corporations, and asset management firms. Applicants must have an undergraduate degree but can come from any background. The program can be completed full-time in 10 months.
