

AGRICULTURAL SCIENCES

<https://colsa.unh.edu/agriculture-nutrition-food-systems>

Overview

Degrees offered: Master of Science (M.S.) and Doctor of Philosophy (Ph.D.)

These programs are offered in Durham.

The Department of Agriculture, Nutrition, and Food Systems offers advanced degrees in Agricultural Sciences at the Masters and Doctoral levels.

Emphasis is placed on acquiring basic and practical knowledge and research experience in one or more of the diverse components of plant and animal agriculture and food systems including: breeding and genetics, physiology, nutrition, environmental interactions, organismal health, field and greenhouse production, protected and precision agriculture, and the social and economic dimensions of food production and distribution systems. The agricultural sciences graduate programs prepare students to become highly knowledgeable and competent in professional fields related to agriculture and food systems, and leaders in collaborative and interdisciplinary efforts to address local, regional, national and/or global agricultural issues.

With a M.S. or Ph.D. in Agricultural Sciences, students may pursue careers in plant and animal agriculture, food production and distribution systems, teaching, public service, positions in federal, state, nonprofit, private organizations, and/or related fields.
