University of New Hampshire

CITIZEN AND COMMUNITY SCIENCE (GRADUATE CERTIFICATE)

https://marine.unh.edu/program/graduate-certificate/citizen-community-science

Description

The UNH Graduate Certificate in Citizen and Community Science offers students the opportunity to develop competencies in both the theory and practice behind robust and authentic citizen and community science projects in a natural resource management setting. This certificate is appropriate for a wide range of students and professionals with interests in developing competencies related to project design and implementation, best practices for effective projects and teams, volunteer engagement, methods for data sharing, and issues of social justice in citizen science. The certificate can be pursued as a stand-alone credential or in concert with another degree at UNH. Part-time and hybrid pathways through the certificate are available.

Requirements

The Citizen and Community Science Certificate requires a minimum of 12 credits made up of one required core class, a seminar requirement, at least six credits of electives, and one required practicum.

Select one natural science, social science, or engineering course from the following:

- CEE 822  Introduction to Marine Pollution and Control
- CEE 833  Public Infrastructure Asset Management
- CEE 858  Stormwater Management Designs
- ECON 968  Environmental Economics: Theory and Policy
- ECON 969  Environmental Valuation
- ESCI 871  Geodesy and Positioning for Ocean Mapping
- ME 817  Marine Robotics and Applications
- MEFB 825  Marine Ecology
- MEFB 872  Fisheries Biology Conservation and Management
- NR 843  Ecology and Society in a Changing Arctic
- OE 854  Ocean Waves and Tides
- OE 857  Coastal Engineering and Processes
- OE 858  Design of Ocean Structures
- PHP 902  Environmental Health
- PPOL 904  Economics for Public Policy
- PPOL 908  Quantitative Methods for Policy Research
- RAM 867  Social Impact Assessment
- RECO 808  Environmental Economics
- SOC 825  Social Demography
- SOC 830  Communities and the Environment
- SOC 901  Sociological Methods I: Intermediate Social Statistics
- SOC 904  Sociological Methods IV: Qualitative and Historical Research Methods

Select one resource management course from the following:

- BIOL 950  Scientific Communication
- DPP #911  Environmental Factors in Development Practice
- GRA844  Fundamentals of Stakeholder and Community Engagement in Natural Resource Management
