MATHEMATICS EDUCATION (PH.D.)

https://ceps.unh.edu/mathematics-statistics/program/phd/mathematics-education

Description

The program is designed to provide students with depth and breadth in the fields of both mathematics education and mathematics; preparing students for educational and research leadership. The program is designed to advance forefront knowledge in mathematics education through world-class cutting-edge research.

Admission Requirement

Applicants to the Ph.D. in Mathematics Education degree must have BA or BS from an accredited college or university. Successful candidates typically have a bachelor's degree in mathematics or mathematics education and/or advanced coursework in mathematics.

Applying

Please visit the Graduate School website for detailed instructions about applying to the program.

Requirements

Students are advanced to candidacy after meeting the following requirements:

Code	Title	Credits
Required Courses		
Advanced Coursework in Mathematics		
MATH 951	Algebra I	3
MATH 952	Algebra II	3
MATH 953	Analysis I	3
MATH 954	Analysis II	3
MATH 955	Topology I	3
Advanced Coursework in the Major Field (Mathematics Education)		
MATH 958	Foundations of Math Education	1
MATH 968	Topics in Mathematics Education I (A)	3
MATH 968	Topics in Mathematics Education I (B)	3
MATH 978	Topics in Mathematics Education II (at least two semesters)	6
Advanced Coursework in Research Methods		
MATH 959	Introduction to Research Design in STEM Education	3
EDUC 904	Qualitative Inquiry in Research	4
MATH 835	Statistical Methods for Research	3

Successful completion of written comprehensive examinations in algebra, analysis, mathematics education and an elective subject.

Successful completion of a minor program of study (usually a related one, such as educational psychology or research methodology, but possibly in an area of mathematics) followed by the minor presentation.

Successful completion of a dissertation proposal defense in the major field of mathematics education.

Experience in teaching equivalent to at least half-time for one year typically through assistantship assignments.

Dissertation

Students must complete and submit a dissertation that involves original research in mathematics education.

Student Learning Outcomes

- Demonstrate deep knowledge of graduate level mathematics content: algebra, analysis, topology.
- Demonstrate competency in the minor field of study different from, but related to mathematics education (e.g., mathematics, statistics, linguistics, research methods, other sciences, STEM disciplines).
- Demonstrate the ability to communicate foundations of mathematics education research, theories of mathematics teaching and learning, and mathematics curriculum.
