MECHANICAL ENGINEERING
(M.S.)

https://ceps.unh.edu/mechanical-engineering/mechanical-engineering-msmeng

Description

The department of Mechanical Engineering offers a master of science degree. The department offers studies leading to specialization in the following six concentrations:

- fluid and thermal science
- mechanics
- materials science
- design and manufacturing
- dynamic systems and control
- ocean engineering

1 The coursework must include at least two 900-level courses (3 or more credits each).

A “B” average (3.00 GPA) with no grade below “B–” is required in all the coursework. No more than 12 credit hours from UNH graduate courses (8 credit hours from non–UNH graduate courses) taken prior to admission to the Graduate School may be applied to the master’s degree. Note: an oral examination (thesis defense) covering the candidate's graduate work is conducted and a thesis is prepared in accordance with the Graduate School rules (http://www.unh.edu/grad-catalog).

All full-time graduate students are required to attend a weekly Mechanical Engineering Graduate Seminar and make one presentation per year.
