MUSIC (MUSI)

Degree Offered: M.A.

This program is offered in Durham.

The Department of Music offers programs leading to the degree of master of arts with options in composition, conducting, and musicology. Each program emphasizes a specific core curriculum that is complemented by a range of supportive courses that foster a broad knowledge of music. There is also enough room for electives (nearly a third of the degree) so that each student may tailor coursework to fit his or her personal interests and needs. Graduates have established successful careers in performance, conducting, public school teaching, college teaching, and research. The program also serves as excellent preparation for doctoral study.

Admission Requirements

For each option, a bachelor's degree in music or its equivalent from an accredited institution is required for admission. Graduate Record Exams are not required. Additional requirements for all applicants include:

- An entrance exam in music theory and music history, taken upon completion of your on-line application with the Graduate School. You are required to take the exam on campus or arrange for an instructor at your current institution or similarly qualified person to proctor the exam for you. Please contact the Department of Music graduate coordinator for details.
- A sample of academic writing, preferably on a musical subject, should be submitted to the Department of Music graduate coordinator, either electronically (pdf file via email) or in hard copy. This might be a paper that has been submitted for a course.

Other admission requirements specific to the three degree areas include:

Composition

- Applicants should submit a portfolio of compositions and arrange for an interview with Professor Christopher Kies or Professor Michael Annicchiarico.

Conducting

- Applicants must perform a live conducting audition with one of the university ensembles. Please contact the director of bands or director of choral activities for details and to schedule an audition.

Musicology

- A reading knowledge of both German and French is strongly recommended for candidates who intend to continue on for a Ph.D. in musicology.
