PRIMARY CARE FAMILY NURSE PRACTITIONER (POST MASTERS)

https://chhs.unh.edu/nursing/program/certificate/family-nurse-practitioner

Description

The Department of Nursing offers the Post-Master’s Primary Care Family Nurse Practitioner Certificate Program for students who completed a master of science degree in nursing. The certificate of advanced practice is designed for those individuals with a master’s degree in nursing who wish to expand their practice into the role of a primary care family nurse practitioner. The PM-PC-FNP specialty area prepares nurses to provide comprehensive care that includes health promotion, maintenance and restoration for persons across the life span.

Depending on educational background and previous coursework in master's program, students accepted into the PM-PC-FNP certificate program are required to take as few as three and as many as 12 courses or 12-39 credits. Successful completion of the required curriculum qualifies the RN to sit for the Family Nurse Practitioner Certification Examination.
