

NURSING: DIRECT ENTRY (M.S.)

<https://chhs.unh.edu/nursing/direct-entry-masters-nursing>

Description

The Direct Entry Master's in Nursing Program is a full-time, five-semester, program of study designed for non-RN students who hold a B.S. or B.A. or higher degree in a field other than nursing. The curriculum begins in January and includes two summer sessions. This program offers the American Association of Colleges of Nursing (AACN) Clinical Nurse Leader (CNL) track. The CNL is a role in the field of nursing designed to provide master's-prepared, point-of-care nurse leaders with the ability to manage and solve complex patient problems within a systems framework.

Students graduate as an advanced generalist with a master of science (MS) degree in nursing and upon passing certification examination, as a clinical nurse leader (CNL). Students take the CNL certification examination in their final semester. Students complete a clinical immersion experience in clinical nursing leadership, which includes 300 clinical hours. Students are admitted with the stipulation that they must pass NCLEX-RN prior to completion of the program. The stipulation is met once the RN license is received. Students are eligible to take the NCLEX-RN after completing a total of 57 credits of accelerated study. Students conclude their CNL master's preparation with a clinical nurse leader capstone course, which includes a project and 200 clinical hours and take the CNL certification examination in the final semester.

Admission Requirements

A grade point average of 3.0 or better is suggested. Previous course work and professional experience is taken into consideration. Experience in health care is not required. Prerequisite courses include Human Anatomy & Physiology I and II with lab, Microbiology at the cellular level, and Statistics with a grade of B or better. Students who have not completed all prerequisite courses at the time of application may be admitted with the stipulation that all prerequisite courses are completed with a B or better prior to starting the program.

Knowledge of the basic processes and methods of research is necessary for students entering the DEMN program. While many undergraduate programs include a research methods course, if a student does not have a background in research, he or she should enroll in an introductory research course or introductory nursing research textbooks may be used as self-study resources prior to matriculation in the DEMN program.

Letters of recommendation should be substantial with at least one academic reference and two references from current professionals with graduate education background. Letters of recommendation from family or friends are not acceptable.

Requirements

Degree Requirements

Students complete 63 total credits.

Clinical Hours: 860*

Code	Title	Credits
Required Courses		
NURS 801	Health Policy and Nursing Practice	3
NURS 807	Pathophysiology and Pharmacology	4
NURS 811	Clinical Reasoning Through Simulation	2
NURS 813	Health Assessment and Clinical Nursing Theory	4
NURS 813C	Health Assessment and Clinical Nursing (90 clinical hours)	2
NURS 822	Chronic Disease Management	3
NURS 826	Caring for People with Severe and Persistent Mental Illness	2
NURS 826C	Caring for People with Severe and Persistent Mental Illness Clinical (90 clinical hours)	2
NURS 827	Managing Acute and Complex Care of Individuals	4
NURS 827C	Managing Acute and Complex Care of Individuals Clinical (90 clinical hours)	2
NURS 831	Childbearing and Childrearing Families	2
NURS 831C	Childbearing and Childrearing Families Clinical (90 clinical hours)	2
NURS 835	Leadership in Healthcare	3
NURS 844	Population Health	3
NURS 902	Advanced Physical Assessment	2
NURS 908	Advanced Physiology & Pathophysiology Across the Lifespan	3
NURS 952	Clinical Nursing Leadership	2
NURS 952C	Clinical Nursing Leadership Clinical (300 clinical hours)	6
NURS 953	Promoting Quality Management	3
NURS 958	Clinical Nurse Leader Capstone (project plus 200 clinical hours)	6
NURS 968	Foundations of Evidence Based Practice	3
Total Credits		63

* Clinical hours are completed through the following required courses:
NURS 813C, NURS 826C, NURS 827C, NURS 952C, NURS 958.

Degree Plan

Plan of Study

First Year

Spring		Credits
NURS 801	Health Policy and Nursing Practice	3
NURS 807	Pathophysiology and Pharmacology	4
NURS 813	Health Assessment and Clinical Nursing Theory (plus lab)	4
NURS 813C	Health Assessment and Clinical Nursing	2
NURS 968	Foundations of Evidence Based Practice	3
Credits		16

Summer

NURS 822	Chronic Disease Management	3
NURS 826	Caring for People with Severe and Persistent Mental Illness	2
NURS 826C	Caring for People with Severe and Persistent Mental Illness Clinical	2
NURS 831	Childbearing and Childrearing Families	2
NURS 831C	Childbearing and Childrearing Families Clinical	2
NURS 902	Advanced Physical Assessment	2
NURS 908	Advanced Physiology & Pathophysiology Across the Lifespan	3
Credits		16

Fall

NURS 811	Clinical Reasoning Through Simulation	2
NURS 827	Managing Acute and Complex Care of Individuals	4

NURS 827C	Managing Acute and Complex Care of Individuals Clinical	2
NURS 835	Leadership in Healthcare	3
NURS 844	Population Health	3
Credits		14
Second Year		
Spring		
NURS 952	Clinical Nursing Leadership	2
NURS 952C	Clinical Nursing Leadership Clinical	6

Eligible for NCLEX-RN		
Credits		11
Summer		
NURS 958	Clinical Nurse Leader Capstone	6
Credits		6
Total Credits		63

Accelerated Master's

This graduate program is approved to be taken on an accelerated basis in articulation with certain undergraduate degree programs.

General Accelerated Master's policy, note that some programs have additional requirements (e.g. higher grade expectations) compared to the policy.

Please see the [Graduate School website](#) and contact the department directly for more information.

Accelerated Master's Program

The Direct Entry Master's in Nursing Program provides an opportunity for accelerated admission to the graduate program for full time undergraduate UNH students who are not current nursing students and meet admission criteria. Students may apply during the second semester of their junior year by the posted application deadline. Application review continues until all seats are filled. To be considered, undergraduate students must have completed all major requirements by the fall of their senior year. Direct entry courses taken during the spring of the senior year of undergraduate program will fulfill elective credits to complete B.A./B.S. degree requirements at UNH. A grade point average of 3.2 or better is required. Previous course work is taken into consideration. Prerequisite courses include Human Anatomy & Physiology I and II with lab, Microbiology at the cellular level, and Statistics with a grade of B or better. Applicants who are in the process of completing a prerequisite course spring semester must have instructor submit grade to date directly to the Department of Nursing by April 8. Students who have not completed all prerequisite courses at the time of application may be admitted with the stipulation that all prerequisite courses are completed with a B or better prior to starting the program.

Applicants are strongly encouraged to meet with the Graduate Program in Nursing coordinator and their discipline-specific adviser early on in their undergraduate program to plan this course of study.

Student Learning Outcomes

At the completion of the Master's nursing program, the graduate student is prepared to:

- Serve in a healthcare leadership and change agent role as part of a diverse, complex, and patient-centered health care system.
- Act as a practice scholar to design, direct and evaluate system changes to promote safe, timely, effective, efficient, equitable and patient-centered care.
- Use data analytic methods, information systems and technology to evaluate, integrate and apply knowledge that will improve programs of care, outcomes of care and care systems.
- Use translational science and analytic methods to develop, identify, implement, and evaluate best practices to improve health care and health care systems.
- Design and implement health promotion and clinical prevention strategies across the health/illness continuum to optimize health and disease management.
- Systematically use improvement methods to monitor and evaluate care processes and outcomes and applies data for continuous improvement and safety
- Advocate for social justice through policy, professional and political engagement.
- Applies leadership principles that support inter-professional practice.

In addition to the Master's Outcomes, the CNL graduate will:

- Act as lateral integrator to design, direct, and evaluate system changes to promote safe, timely, efficient, effective, equitable, patient centered care.
