

# UNDERGRADUATE ACADEMIC CATALOG

## 2022-2023

Academic Calendar  
General Information  
University Academic Requirements  
College of Liberal Arts  
College of Engineering and Physical Sciences  
College of Health and Human Services  
College of Life Sciences and Agriculture  
Peter T. Paul College of Business and Economics  
Special University Programs  
Thompson School of Applied Science  
University of New Hampshire at Manchester  
Continuing Education, Summer Session and January Term  
Course Descriptions  
Faculty Listing

# TABLE OF CONTENTS

Undergraduate Academic Catalog .....	10	Asian Studies Minor .....	47
Academic Calendar 2022/2023 .....	10	Chinese (CHIN) .....	48
General Information .....	12	Chinese Minor .....	48
Accreditation .....	12	Cinema Studies .....	48
Admission .....	13	Cinema Studies Minor .....	48
Campus Life, Programs and Services for Students .....	15	Classics (CLAS) .....	49
Cross Campus Registration .....	19	Classics Major: Ancient Mediterranean Civilizations Option (B.A.) .....	50
Fees and Expenses .....	19	Classics Major: Classical Languages & Literatures Option (B.A.) .....	50
Financial Aid .....	21	Classics Major: Latin & Latin Teaching Option (B.A.) .....	51
Health & Wellness .....	21	Classics Minor .....	52
Library .....	22	Greek Minor .....	52
University Academic Requirements .....	24	Latin Minor .....	52
Academic Honesty .....	25	Cognates .....	52
Course Descriptions .....	25	Art History, Design, and Computer Sciences Cognate .....	53
Degrees .....	26	Digital Writing and Literature Cognate .....	53
Discovery Program .....	27	Intercultural Communication for the Professional World Cognate .....	53
Majors, Minors, and Options .....	30	Technical Writing and Public Speaking Cognate .....	54
University Writing Requirement .....	31	Communication (CMN) .....	54
College of Liberal Arts .....	33	Communication Major (B.A.) .....	55
Programs of Study .....	36	Communication Major: Business Applications Option (B.A.) .....	56
Africana and African American Studies (AFAM) .....	36	Communication Major: Media Practices Option (B.A.) .....	57
Africana and African American Studies Minor .....	36	Communication Minor .....	59
American Studies (AMST) .....	38	Education (EDUC) .....	59
American Studies Minor .....	38	Education Four-Year, Undergraduate Options .....	61
Anthropology (ANTH) .....	38	Educational Studies Dual Major .....	61
Anthropology Major (B.A.) .....	38	Educational Studies Major: Equity, Diversity & Inclusion (B.A.) .....	62
Anthropology Minor .....	40	Education Minor .....	63
Arabic (ARBC) .....	40	Special Education Minor .....	64
Arabic Minor .....	40	English (ENGL) .....	64
Art and Art History (ARTS) .....	40	English Literature Major (B.A.) .....	65
Arts Major: Art History Option (B.A.) .....	41	English Major (B.A.) .....	66
Arts Major: Studio Art Option (B.A.) .....	42	English Major: Text, Business Writing and Digital Studies Option (B.A.) .....	68
Arts Major: Studio Art/Art Education Option (B.A.) .....	43	English Major: Law 3+3 Option (B.A.) .....	70
Fine Arts Major (B.F.A.) .....	44	English Teaching Major (B.A.) .....	73
Architectural Studies Minor .....	45	English/Journalism Major (B.A.) .....	75
Art History Minor .....	46	English Minor .....	76
Art Minor .....	46		
Design Studies Minor .....	46		
Studio Arts Minor .....	47		
Asian Studies .....	47		

Writing Minor .....	77	Music Major: Composition Option (B.A.) .....	104
French (FREN) .....	77	Music Major: Music Liberal Studies Option (B.A.) .....	105
French Major (B.A.) .....	78	Music Major: Performance Study Option (B.A.) .....	106
French Minor .....	79	Composition Major (B.M.) .....	107
Geography (GEOG) .....	79	Music Education Major (B.M.) .....	108
Geography Major (B.A.) .....	79	Performance Major (B.M.) .....	110
Geography Minor .....	80	Pre-Teaching Major (B.M.) .....	111
German (GERM) .....	81	Music Minor .....	113
German Major (B.A.) .....	81	Native American and Indigenous Studies (NAIS) .....	113
German Minor .....	83	Native American and Indigenous Studies Minor .....	113
History (HIST) .....	83	Neuroscience and Behavior (NSB) .....	114
History Major (B.A.) .....	83	Neuroscience and Behavior Major (B.S.) .....	115
History Major: Law 3+3 Option (B.A.) .....	85	Philosophy (PHIL) .....	116
History Minor .....	88	Philosophy Major (B.A.) .....	117
Social Studies of Science and Technology Minor .....	88	Philosophy Major: Business, Innovation & Technology Option (B.A.) .....	118
Homeland Security .....	89	Philosophy Major: Ethics and Social Responsibility Option (B.A.) .....	120
Homeland Security Major (B.S.) .....	89	Philosophy Major: Political and Legal Philosophy Option (B.A.) .....	121
Humanities (HUMA) .....	91	Philosophy Minor .....	123
Humanities Dual Major .....	91	Philosophy of Business, Innovation, & Technology Cognate .....	123
Humanities Minor .....	91	Political and Legal Philosophy Cognate .....	124
International Affairs (IA) .....	92	Political Science (POLT) .....	124
International Affairs Dual Major .....	92	Political Science Major (B.A.) .....	125
International Affairs Minor .....	94	Political Science Minor .....	126
Italian Studies (ITAL) .....	95	Survey Research Minor .....	127
Italian Studies Major (B.A.) .....	95	Psychology (PSYC) .....	127
Italian Studies Minor .....	96	Psychology Major (B.A.) .....	128
Justice Studies (JUST) .....	97	Psychology Minor .....	129
Justice Studies Dual Major .....	97	Queer Studies .....	130
Justice Studies Minor .....	98	Queer Studies Minor .....	130
Forensics Minor .....	99	Race and Ethnic Studies (RES) .....	130
Latin American, Latinx and Caribbean Studies .....	99	Race and Ethnic Studies Minor .....	130
Latin American, Latinx and Caribbean Studies Minor .....	99	Religious Studies .....	131
Linguistics (LING) .....	100	Religious Studies Minor .....	131
Linguistics Major (B.A.) .....	100	Russian (RUSS) .....	132
Linguistics Minor .....	101	Russian Major (B.A.) .....	132
TESOL Minor .....	101	Russian Minor .....	133
Medical Humanities, Society & Ethics .....	102	Security Studies .....	133
Medical Humanities, Society & Ethics Minor .....	102	Security Studies Minor .....	133
Middle Eastern Studies .....	103	Sociology (SOC) .....	134
Middle Eastern Studies Minor .....	103		
Music (MUSI, MUED) .....	103		

Sociology Major (B.A.) .....	134	Chemistry Minor .....	168
Sociology Minor .....	136	Civil and Environmental Engineering (CEE) .....	169
Medical Sociology Cognate .....	136	Civil Engineering Major (B.S.) .....	171
Spanish (SPAN) .....	137	Environmental Engineering Major (B.S.) .....	174
Spanish Major (B.A.) .....	137	Environmental Engineering Minor .....	176
Spanish Minor .....	138	Computer Science (CS) .....	176
Theatre and Dance (THDA) .....	138	Analytics and Data Science Major: Analytics Option (B.S.) .....	177
Theatre Major (B.A.) .....	139	Analytics and Data Science Major: Data Science Option (B.S.) .....	178
Theatre Major: Acting and Directing Option (B.A.) .....	140	Analytics Minor .....	179
Theatre Major: Dance Option (B.A.) .....	141	Computer Programming Cognate .....	179
Theatre Major: Design & Theatre Technology Option (B.A.) .....	143	Computer Science Major (B.S.) .....	180
Theatre Major: Musical Theatre Option (B.A.) .....	144	Computer Science Major: Algorithms Option (B.A.) .....	182
Theatre Major: Secondary Theatre Education Option (B.A.) .....	145	Computer Science Major: Cybersecurity Option (B.A.) .....	183
Theatre Major: Youth Drama Option (B.A.) .....	147	Computer Science Major: Systems Option (B.A.) .....	184
Arts Administration Minor .....	148	Computer Science Minor .....	184
Dance Minor .....	148	Data Science Minor .....	185
Musical Theatre Minor .....	149	Information Technology Cognate .....	185
Theatre Minor .....	149	Information Technology Major (B.S.) .....	185
Youth Drama Minor .....	149	Information Technology Minor .....	187
Studies in the Design of Interior Space Cognate .....	149	Skills and Perspectives for the Digital World Cognate .....	188
Studies in Fashion and Design Cognate .....	150	Earth Sciences (ESCI) .....	188
Women's and Gender Studies (WS) .....	150	Earth Sciences Major (B.A.) .....	188
Women's and Gender Studies Major (B.A.) .....	151	Earth Sciences Major (B.S.) .....	190
Social Justice Leadership Minor .....	152	Earth Sciences Minor .....	194
Women's and Gender Studies Minor .....	153	Environmental Sciences Major: Geosystems Option (B.S.) .....	194
World Languages .....	154	Environmental Sciences Major: Hydrology Option (B.S.) .....	197
World Languages Dual Major .....	154	Oceanography Minor .....	199
College of Engineering and Physical Sciences .....	155	Electrical and Computer Engineering (ECE) .....	200
Programs of Study .....	157	Computer Engineering Major (B.S.) .....	201
Bioengineering (BENG) .....	158	Computer Engineering Major: Biomedical Engineering Option (B.S.) .....	203
Bioengineering Major (B.S.) .....	158	Electrical Engineering Major (B.S.) .....	205
Chemical Engineering (CHE) .....	160	Electrical Engineering Major: Biomedical Engineering Option (B.S.) .....	206
Chemical Engineering Major (B.S.) .....	160	Electrical and Computer Engineering Minor .....	208
Chemical Engineering Major: Bioengineering Option (B.S.) .....	162	Environmental Sciences .....	209
Chemical Engineering Major: Energy Option (B.S.) .....	163	Materials Science (MS) .....	209
Chemical Engineering Major: Environmental Engineering Option (B.S.) .....	164	Materials Science Minor .....	209
Chemistry (CHEM) .....	164		
Chemistry Major (B.A.) .....	165		
Chemistry Major (B.S.) .....	167		

Mathematics and Statistics (MATH) .....	210	Exercise Science Major (B.S.) .....	243
Applied Mathematics Major (B.S.) .....	210	Health and Physical Education .....	244
Applied Mathematics Major: Computation Option (B.S.) .....	212	Health and Physical Education Major (B.S.) .....	244
Applied Mathematics Major: Dynamics and Control Option (B.S.) .....	213	Lifetime Activity Programming and Leadership Minor .....	246
Applied Mathematics Major: Economics Option (B.S.) .....	214	Physical Education Teaching Minor .....	246
Applied Mathematics Major: Fluid Dynamics Option (B.S.) .....	215	Health Management and Policy (HMP) .....	246
Applied Mathematics Major: Solid Mechanics and Vibrations Option (B.S.) .....	217	Health Management and Policy Major (B.S.) .....	247
Math Education Major: Elementary/Middle School Education K-8 Option (B.S.) .....	218	Health Management Minor .....	249
Mathematics Education Major: Secondary Education Option (B.S.) .....	220	Public Health Minor .....	249
Mathematics Major (B.A.) .....	221	Health Sciences .....	249
Mathematics Major (B.S.) .....	222	Health Sciences Major B.S. ....	249
Statistics Major (B.S.) .....	224	Human Development and Family Studies (HDFS) .....	251
Applied Mathematics Minor .....	225	Human Development and Family Studies Major (B.S.) .....	252
Mathematics Minor .....	225	Adolescent and Youth Development Minor .....	255
Statistics Minor .....	226	Child Life Minor .....	256
Mechanical Engineering (ME) .....	226	Human Development and Family Studies Minor .....	256
Mechanical Engineering Major (B.S.) .....	227	Interdisciplinary Health .....	256
Mechanical Engineering Minor .....	229	Interdisciplinary Health Minor .....	256
Ocean Engineering (OE) .....	230	Kinesiology (KIN) .....	256
Ocean Engineering Major (B.S.) .....	230	Kinesiology Minor .....	257
Ocean Engineering Minor .....	232	Nursing (NURS) .....	257
Physics and Astronomy .....	232	Nursing Major (B.S.) .....	257
Engineering Physics Major (B.S.) .....	233	Occupational Therapy (OT) .....	259
Physics Major (B.A.) .....	235	Occupational Therapy Major (B.S.) .....	260
Physics Major (B.S.) .....	236	Disability Studies Minor .....	261
Astronomy Minor .....	238	Recreation Management and Policy (RMP) .....	262
Physics Minor .....	239	Recreation Management and Policy Major: Outdoor Leadership and Management Option (B.S.) .....	263
College of Health and Human Services .....	240	Recreation Management and Policy Major: Program and Event Management Option (B.S.) .....	264
Programs of Study .....	240	Recreation Management and Policy Major: Therapeutic Recreation Option (B.S.) .....	265
Applied Human Anatomy and Physiology .....	240	Adolescent and Youth Development Minor .....	266
Applied Human Anatomy and Physiology Minor .....	240	Outdoor Adventure Recreation Minor .....	267
Coaching .....	241	Recreation Management Minor .....	267
Coaching Minor .....	241	Social Work (SW) .....	268
Communication Sciences and Disorders (COMM) .....	241	Social Work Major (B.S.) .....	268
Communication Sciences and Disorders Major (B.S.) .....	242	Social Work Minor .....	269
Exercise Science .....	243	Gerontology Multidisciplinary Minor .....	269
		Sport Management and Leadership .....	270
		Sport Management and Leadership Major (B.S.) .....	270

Sport Management Minor .....	272	Environmental Sciences Major: Ecosystems Option (B.S.) .....	307
College of Life Sciences and Agriculture .....	273	Environmental Sciences Major: Soil and Watersheds Option (B.S.) .....	308
Programs of Study .....	274	Equine Studies .....	310
Agribusiness .....	274	Equine Studies Major: Equine Assisted Activities & Therapies Option (B.S.) .....	310
Agribusiness Minor .....	274	Equine Studies Major: Equine Industry and Management Option (B.S.) .....	312
Animal Science (ANSC) .....	274	Equine Studies Major: Equine Science Option (B.S.) .....	314
Animal Science Major (B.S.) .....	274	Equine Assisted Activities and Therapies Minor .....	317
Animal Science Major: Dairy Management Option (B.S.) .....	277	Equine Studies Minor .....	317
Animal Science Minor .....	279	Forestry .....	318
Dairy Management Minor .....	280	Forestry Major (B.S.F.) .....	318
Biochemistry, Molecular and Cellular Biology (BMCB) .....	280	Forestry Minor .....	320
Biochemistry, Molecular and Cellular Biology Major (B.S.) .....	281	Genetics (GEN) .....	321
Biochemistry, Molecular and Cellular Biology Minor .....	283	Genetics Major (B.S.) .....	321
Biology .....	283	Genetics Major: Genomics Option (B.S.) .....	324
Biology Major (B.S.) .....	284	Genetics Minor .....	327
Biology Minor .....	286	GeoSpatial Analysis .....	328
Plant Biology Minor .....	287	Geospatial Analysis Minor .....	328
Biomedical Science (BMS) .....	287	Green Real Estate .....	328
Biomedical Science Major: Medical and Veterinary Sciences Option (B.S.) .....	287	Green Real Estate Minor .....	328
Biomedical Science Major: Medical Laboratory Sciences Option (B.S.) .....	291	Marine, Estuarine, and Freshwater Biology (MEFB) .....	329
Biomedical Science Major: Medical Microbiology Option (B.S.) .....	294	Marine, Estuarine and Freshwater Biology Major (B.S.) .....	329
Biomedical Science Minor .....	296	Marine Biology Minor .....	332
Community and Environmental Planning (CEP) .....	297	Neuroscience and Behavior (NSB) .....	332
Community and Environmental Planning Major (B.S.) .....	297	Animal Behavior Minor .....	332
Community Planning Minor .....	299	Neuroscience and Behavior Major (B.S.) .....	332
Ecogastronomy .....	300	Nutrition (NUTR) .....	334
Ecogastronomy Dual Major .....	300	Nutrition Major (B.S.) .....	334
Environmental and Resource Economics (EREC) .....	301	Nutrition Major: Dietetics Option (B.S.) .....	335
Environmental and Resource Economics Major (B.S.) .....	301	Nutrition Major: Nutritional Sciences Option (B.S.) .....	337
Environmental and Resource Economics Minor .....	302	Nutrition Major: Nutrition and Wellness Option (B.S.) .....	338
Environmental Conservation and Sustainability .....	303	Nutrition Minor .....	340
Environmental Conservation and Sustainability Major (B.S.) .....	303	Culinary Nutrition and Food Studies Minor .....	340
Environmental Conservation and Sustainability Minor .....	306	Sustainable Agriculture and Food Systems (SAFS) .....	341
Environmental Sciences .....	306	Sustainable Agriculture and Food Systems Major (B.A.) .....	341
		Sustainable Agriculture and Food Systems Major (B.S.) .....	343

Brewing Minor .....	344	Economics Major: Public Policy and Sustainability Option (B.A.) .....	372
Environmental Horticulture Minor .....	345	Economics Minor .....	373
Sustainable Agriculture and Food Systems Minor ....	345	Entrepreneurship .....	374
Sustainable Energy .....	346	Entrepreneurship Minor .....	374
Sustainable Energy Minor .....	346	Hospitality Management (HMG)T .....	374
Tourism Management .....	347	Hotel and Hospitality Management Major (B.S.) .....	374
Tourism Management Minor .....	347	Hospitality Management Minor .....	376
Wildlife and Conservation Biology .....	347	Leadership .....	376
Wildlife and Conservation Biology Major (B.S.) .....	348	Leadership Minor .....	376
Wildlife and Conservation Biology Minor .....	349	Sales .....	377
Zoology (ZOOL) .....	350	Sales Minor .....	377
Zoology Major (B.A.) .....	350	Tourism Management .....	378
Zoology Major (B.S.) .....	352	Tourism Management Minor .....	378
Zoology Minor .....	353	Special University Programs .....	380
Peter T. Paul College of Business and Economics .....	355	Domestic Study Programs .....	380
Programs of Study .....	357	Fellowship Office .....	381
Business Administration (ADMN) .....	357	Hamel Center for Undergraduate Research .....	381
Business Administration Major (B.S.) .....	358	Health Professions Program .....	381
Business Administration Major: Accounting Option (B.S.) .....	359	Honors Program .....	382
Business Administration Major: Entrepreneurial Studies Option (B.S.) .....	360	Marine Policy Minor .....	383
Business Administration Major: Finance Option (B.S.) .....	361	Pre-law Advising .....	383
Business Administration Major: Information Systems and Business Analytics Option (B.S.) .....	362	Pre-Professional Health Advising .....	384
Business Administration Major: International Business and Economics Option (B.S.) .....	363	Reserve Officer Training Corps Programs (ROTC) .....	384
Business Administration Major: Management Option (B.S.) .....	364	Air Force Leadership Minor .....	384
Business Administration Major: Marketing Option (B.S.) .....	365	Study Abroad Programs .....	385
Business Administration Major: Student Designed Option (B.S.) .....	366	Sustainability .....	392
Business Administration Minor .....	367	Sustainability Dual Major .....	392
Ecogastronomy (ECOG) .....	367	Thompson School of Applied Science .....	395
Ecogastronomy Dual Major .....	368	Programs of Study .....	396
Economics (ECON) .....	368	Applied Animal Science (AAS) .....	396
Analytical Economics Major (B.S.) .....	369	Applied Animal Science (A.A.S.) .....	397
Economics Major (B.A.) .....	369	Forest Technology (FORT) .....	398
Economics Major: Global Trade and Finance Option (B.A.) .....	370	Forest Technology (A.A.S.) .....	398
Economics Major: Money and Financial Markets Option (B.A.) .....	371	Veterinary Technology (VTEC) .....	400
		Veterinary Technology (A.A.S.) .....	400
		University of New Hampshire at Manchester .....	403
		Programs of Study .....	403
		Analytics and Data Science .....	403
		Analytics and Data Science Major: Analytics Option (B.S.) Manchester .....	404
		Analytics and Data Science Major: Data Science Option (B.S.) Manchester .....	405

Analytics Minor (Manchester) .....	407	English Studies .....	440
Data Science Minor (Manchester) .....	407	English Studies: Literary Studies Major (B.A.) .....	441
ASL/English Interpreting .....	408	English Studies: Professional and Technical Communications Major (B.A.) .....	442
American Sign Language and Deaf Studies Minor ....	408	English Minor (Manchester) .....	443
ASL/English Interpreting Major (B.S.) .....	408	Professional Writing Minor .....	444
Biological Sciences .....	410	English Teaching .....	444

# UNDERGRADUATE ACADEMIC CATALOG

*The Academic Catalog is intended to provide general information about the University of New Hampshire and is accurate at the time of publishing. The University reserves the right to change, modify, or correct any information contained herein without prior notice, at any time.*

## UNH Affirmative Action and Equity Statement

We are a public institution with a long-standing commitment to equal employment and educational opportunity for all qualified persons. We do not discriminate on the basis of race, color, religion, sex, age, national origin, sexual orientation, gender identity or expression, disability, veteran status, marital status, genetic information, pregnancy, or political orientation. This applies to admission to, access to, treatment within, or employment in UNH programs or activities. Sexual harassment and sexual violence are types of sex discrimination. Inquiries regarding discriminatory harassment (including sexual harassment or violence) should be directed to Laura Buchs, Director & Title IX Coordinator, Affirmative Action and Equity, Room 305, Thompson Hall, 105 Main Street, Durham, N.H. 03824, [laura.buchs@unh.edu](mailto:laura.buchs@unh.edu), phone (603) 862-2930 (voice), 7-1-1 (Relay NH), (603) 862-2936 (fax); or to the Office for Civil Rights, U.S. Department of Education, 8th Floor, 5 Post Office Square, Boston, MA 02109-3921, phone (617) 289-0111, fax (617) 289-0150, e-mail [OCR.Boston@ed.gov](mailto:OCR.Boston@ed.gov).

See the [UNH Discrimination and Discriminatory Harassment Policy](https://www.unh.edu/main/student-life) and [Grievance and Complaint Procedures](https://www.unh.edu/main/student-life) (<https://www.unh.edu/main/student-life>) in [UNH Student Rights, Rules, and Responsibilities](https://www.unh.edu/main/student-life) for information about the resolution of complaints under UNH policy. Further information may be obtained at the Affirmative Action and Equity Office or via e-mail [affirmaction.equity@unh.edu](mailto:affirmaction.equity@unh.edu).

## About the Catalog

The University provides information pertaining to the Family Educational Rights and Privacy Act of 1974 (the "Buckley Amendment") in the annual student handbook. Information is also available from the office of the Senior Vice Provost for Student Life and Dean of Students. The annual student publication, [Student Rights, Rules, and Responsibilities](https://www.unh.edu/main/student-life), also contains University regulations and policies regarding student conduct.

The University will supply information about the employment of its graduates who have graduated from our degree and/or certificate programs. This information may be obtained upon request from the University's office of Career and Professional Success and is available by university, college, or school to current and prospective students. Information on employment outcomes depends on student self-reporting. The University does not guarantee employment to its graduates. Chances for employment are enhanced if students have begun career planning early in their degree programs.

Program descriptions may vary from the actual content or requirements because of advancements in the discipline or the active nature of academic planning and decision making. Accordingly, the University reserves the right to make whatever changes are deemed necessary in schedules, course content, requirements, academic programs (including their termination), calendar, tuition and fees, services, or any other aspect of the University's operations, giving whatever notice thereof

is reasonable under the circumstances. Therefore, the provisions of this catalog are not an irrevocable contract between the students and the University. The University is also not responsible for failure to provide or for delay in providing expected services and/or facilities when such failure arises from causes beyond the reasonable control of the University.

## Academic Calendar 2022/2023

### Fall

Classes Begin	August 29
Labor Day, University Holiday	September 5
Mid-Semester Break; no classes	October 10
Mid-Semester	October 14
Election Day - no exams scheduled	November 8
Classes follow Friday schedule	November 8
Veteran's Day, University holiday	November 11
Thanksgiving holiday	November 23-25
Classes resume	November 28
Last day of classes	December 12
Reading day, final exams begin at 6:00 p.m.	December 13
Final Exams end	December 20

### January Term

Online classes begin	December 28
New Year's Day holiday observed	January 2
On campus classes begin	January 3
Martin Luther King, Jr. Day; University Holiday	January 16
Last day of classes	January 20

### Spring

Classes Begin	January 24
Mid-Semester	March 10
Spring recess	March 13-17
Classes resume	March 20
Last day of classes	May 8

Reading Day or Curtailed Operation Make up Day	May 9
---	-------

Reading Day	May 10

Final exams begin	May 11
----------------------	--------

Final exams end	May 17
-----------------	--------

Commencement	May 20
--------------	--------

## Summer Session

Summer Session May 22 - August 11

## General Information

### The University

UNH offers 200-plus degree programs across 11 schools and colleges to some 15,000 undergraduate and graduate students. There are thousands of courses to choose from, and 84 percent of them enroll no more than 50 students, meaning experiential learning and thoughtful classroom discussions reign. What's more, with an 16:1 student-to-faculty ratio, UNH students have direct access to award-winning faculty.

The core academic experience for every UNH student is the Discovery program. It starts with an Inquiry course (analysis, writing, questioning), expands into an exploration across disciplines and ends with a senior capstone experience. The goal is to help each student become the kind of person the world most needs. And it's working: Despite graduating into a challenging environment, the UNH Class of 2020 boasts a 92 percent success rate, with 75 percent of students employed six months after graduation and another 17 percent seeking further education. And the good news isn't limited to UNH's youngest alumni; a Gallup study found that UNH graduates thrive in their professional and personal lives to a greater degree than their peers from other large public universities, and they're employed at a rate much higher than the national average.

UNH students and faculty have been collaborating to make the world a better place for more than 150 years, and not just in the classroom — from the uncharted ocean depths to the edge of our solar system to the Earth we call home, our research transforms lives and delivers solutions to global problems. Powered by nearly \$130 million in competitive external support, UNH is just one of 130 doctoral-granting universities in the country — and one of only 43 without a medical school — to earn the "very high research activity," or R1, designation from the Carnegie Classification of Institutions of Higher Education. Undergraduates in every academic discipline enjoy broad access to research experiences and can even get funding to pursue them through the university's Hamel Center for Undergraduate Research. Many conduct independent inquiries, an experience that gives them a leg up on graduate school and employment applications.

We know that students who graduate with hands-on, real-world experience are more likely to have successful careers, so in addition to all the classroom learning and research, UNH offers 500+ study abroad programs, a dedicated career and internship center and a dedicated fellowships office, all of which help students find opportunities that bolster their academic and career goals. Our entrepreneurship center helps aspiring business owners make their dreams reality.

Ready to dive in? We'll supply the world-class academics, the outstanding faculty and an atmosphere of limitless opportunity. You bring the burning desire to bend your mind on some of society's most pressing problems.

### Mission

UNH offers a broad array of undergraduate, graduate, professional and research programs. Nearly 90 percent of the full-time faculty hold doctoral or terminal degrees and many have earned national and international reputations.

The University of New Hampshire has a threefold mission of teaching, research and public service.

**Teaching.** All undergraduate programs of instruction at the university are built on a specialized program of general education known as Discovery. The objectives of the Discovery Program carry through the undergraduate subject major as students refine and apply their skills and discover the relationships among fields of study. At every level, students enjoy close contact with individual faculty members who are dedicated to research and scholarship; this is an advantage for students because active scholars and researchers teach by sharing their own learning.

**Research.** The activity of research embraces all the arts and sciences at the university, and it is an integral part of both undergraduate and graduate programs. In doctoral study and in many master's programs, thesis research is a primary mode of learning. As a land-, sea-, and space-grant institution, the University of New Hampshire has a particular obligation to conduct applied research in the areas of agriculture, marine sciences and engineering, and to disseminate the findings to the state and nation.

**Public Service.** The university fulfills its special responsibility for the welfare of the state through UNH Cooperative Extension, and through research and consultation on the particular needs of New Hampshire citizens. The university is dedicated to collaborative learning in and outside the classroom.

### University System of New Hampshire Trustees and Administrative Officers

<https://www.usnh.edu/trustees>

The University System of New Hampshire is governed by a 29-member board of trustees that includes the Governor of the State, the President of the Senate, the Speaker of the House, 10 members appointed by the Governor and Executive Council, 7 alumni-elected members, 2 student-elected members, the Commissioner of Education, the Commissioner of Agriculture, the presidents of the University System's four colleges and universities, and the Chancellor. The Chancellor is the chief executive officer of the University System.

### Accreditation

The University of New Hampshire is accredited by the New England Commission of Higher Education (formerly the Commission on Institutions of Higher Education of the New England Association of Schools and Colleges, Inc.).

Accreditation of an institution of higher education by the Commission indicates that it meets or exceeds criteria for the assessment of institutional quality periodically applied through a peer review process. An accredited college or university is one which has available the necessary resources to achieve its stated purposes through appropriate educational programs, is substantially doing so, and gives reasonable evidence that

it will continue to do so in the foreseeable future. Institutional integrity is also addressed through accreditation.

Accreditation by the Commission is not partial but applies to the institution as a whole. As such, it is not a guarantee of every course or program offered, or the competence of individual graduates. Rather, it provides reasonable assurance about the quality of opportunities available to students who attend the institution.

Inquiries regarding the accreditation status by the Commission should be directed to the administrative staff of the institution. Individuals may also contact:

New England Commission of Higher Education  
3 Burlington Woods Drive, Suite 100, Burlington, MA 01803-4514  
(781) 425 7785  
E-Mail: [info@neche.org](mailto:info@neche.org)

Specialized programs of study are also accredited by various professional organizations.

Veterans and their eligible dependents may apply for educational benefits before the start of each semester. For information, contact the UNH veterans coordinator at [UNH.Veterans@unh.edu](mailto:UNH.Veterans@unh.edu) or by phone at (603) 862-0643.

The University supports the efforts of secondary school officials and governing bodies to have their schools achieve regional accredited status to provide reliable assurance of the quality of the educational preparation of their applicants for admission.

## Admission

UNH welcomes campus visitors year-round. In-person campus tours are led by student admissions representatives who provide a general overview of academic programs and campus life opportunities. Professional staff members are available to provide information about the criteria used by the admissions committee in reviewing candidates and to address specific concerns. For further information or to schedule a campus and/or group information session, visit the Admissions website at <http://admissions.unh.edu/visit-campus>. Prior registration is required for all in-person visits and students are limited to two guests. More information about COVID-19 safety protocols can be on our [website](#). Complete information and instructions regarding the application process to UNH can be found on the following website <http://admissions.unh.edu/apply>.

## Admission Criteria

Admission to a bachelor's degree program is based upon successful completion of a strong secondary school program of college preparatory coursework. Primary consideration is given to the academic record, as demonstrated by the quality of the candidate's secondary school course selections, achievement in their secondary school courses and recommendation. Consideration is also given to character, initiative, leadership, and special talents. In fall 2020, UNH adopted a test-optional policy. Applicants are not be required to submit their SAT and/or ACT exam for consideration as part of their admissions application. Due to COVID-19, NCAA Eligibility Center also implemented the test-optional policy to students recruited by our intercollegiate athletic programs.

Candidates must, at a minimum, present at least four years of English, three years of mathematics (algebra I, geometry, and algebra II), two years of laboratory sciences (3 years preferred), two years of history or

social science, two years of a single world language is preferred and 2 additional full-year college preparatory courses to total 15 units. Some programs may have additional requirements for admission.

Students who plan to pursue a major in engineering, biological/physical sciences, mathematics, or forestry should present at least four years of mathematics including trigonometry, as well as laboratory coursework in chemistry and/or physics. Note that students are required to have a math and laboratory science in their senior year to be competitive for admission to a major in our College of Engineering & Physical Sciences and College of Life Sciences & Agriculture. Students pursuing business-related studies should complete four years of mathematics through their senior year, including trigonometry. For students planning to major in health-related disciplines, four years of math, as well as laboratory courses in biology and chemistry, are strongly recommended. Students interested in nursing must complete high school chemistry.

Applicants may indicate their first and second choice majors on the application for admission. An undecided applicant may apply for admission into a bachelor's program as an "undeclared" student to any one of the University's five college divisions in Durham or at UNH Manchester. For information concerning bachelor and associate degree programs offered through UNH Manchester, visit <http://manchester.unh.edu>; for information concerning the associate degree programs at the Thompson School of Applied Science, visit <https://colsa.unh.edu/tsas>.

UNH students may request a change in major during their undergraduate years. While most are approved, some majors are more restrictive than others and require the completion of specific coursework and an additional application. Change of major requests are considered after a student has been at the University for at least one semester and has permission from the appropriate college dean and department chairperson.

## Admission Test Requirements

Beginning fall 2020, first-year applicants have the option to submit SAT or ACT scores to be considered as a part of their admission application. It is not required to submit SAT or ACT scores for the application process at the University of New Hampshire. When submitting the admissions application, you will be asked "Would you like us to consider your standardized test scores in the admissions decision?" Please note, that once an admissions decision has been made on your application, you may not change your test score preference.

*\*If you enroll as a member of UNH's Class of 2026, you will be asked to submit your test scores after the May 1 deposit deadline for university research purposes only.*

International students whose primary language is not English must provide evidence of English proficiency by submitting the results of a Test of English as a Foreign Language (TOEFL), IELTS or Duolingo. The recommended minimum TOEFL score is 213 (computer version) or 550 (paper version) or 80 (Internet version). UNH also accepts the International English Language Testing System (IELTS) English Language proficiency examination in lieu of TOEFL; the minimum acceptable proficiency grade is 6.5; recommended Duolingo score is 105 or higher. International students who earn a 500 or higher on their ERBW (Evidence-Based Reading and Writing) section of the SAT will be waived the English proficiency test requirement.

## Music Candidates

Candidates applying for programs in the Department of Music must make arrangements with the department chairperson for an audition. Details regarding audition requirements may be obtained from the department, or may be found on the Department of Music website at <http://cola.unh.edu/music>.

## Admission Deadlines

The Office of Admissions welcomes high school students who are interested in being considered for admission to UNH as a first-year student in the fall to apply any time after August 1 at the start of their senior year. The application deadline for Early Action is November 15 and Regular Decision is February 1. Admission notifications are provided on a rolling basis as decisions become finalized through April 15.

Accepted candidates are required to confirm their intention to enroll with the payment of an enrollment deposit fee by May 1, National College Decision Day. An additional deposit to reserve on-campus housing is also required by May 1.

The review of first-year candidates begins in November for those applications that are complete. A complete application includes official transcript or grade reports through the end of junior year and a confirmed senior course schedule, the results of the SAT or ACT (for students who indicate on their admissions application that they would like have their test scores included in the application review process), and a letter of recommendation. To apply as an Early Action applicant, candidates must submit an admission application and supporting documents by November 15. In some cases, the admission committee will request senior mid-year grade reports in order to make a final admission decision. Students accepted to UNH through the Early Action program are not obligated to enroll at UNH and have until May 1 to submit their enrollment deposit to reserve their space at UNH.

All offers of admission are considered conditional and are subject to the verification of satisfactory senior year achievement when final high school transcripts with a confirmed date of graduation are reviewed by the admissions committee.

## Deferred Admission

The University considers applicants for deferred admission, which enables students to reserve their space at the University while taking a semester or academic year away from school for work or travel. With few exceptions, UNH will not approve deferral requests in which the student will be taking college coursework elsewhere. Requests for deferrals must be put in writing and sent to the Admissions Office ([admissions@unh.edu](mailto:admissions@unh.edu)). The University may not be able to offer deferred admission in certain program areas.

## Advanced Standing

The University recognizes outstanding secondary school work by means of advanced placement and credit for those who have taken enriched or accelerated courses before entering college. Applicants may qualify for such credit by successfully completing coursework for college credit and satisfactory achievement on University-approved placement examinations, including the College Board Advanced Placement (AP) Tests, International Baccalaureate (IB) Higher Level Examination Test Results, or through the College Level Examination Program (CLEP). Students should have official results sent directly to the Office of Admissions from the testing agency.

The University accepts AP Tests in many subject areas, with credit and course equivalency based on the score achieved. Visit [https://admissions.unh.edu/apply/first-year#collapse\\_4374](https://admissions.unh.edu/apply/first-year#collapse_4374) for further information.

The University awards 8 semester credits for each IB Higher Level Examination Test Result of 5, 6, or 7. The University recognizes up to 32 semester credits of CLEP General Examination tests, which may be applied as elective credit only. Scores must be 500 or better in the humanities, natural sciences, and social sciences-history exams. The minimum score for mathematics is 500 and for the English exam with essay, 500. Subject exams, when applicable, may be used to satisfy either departmental or general education requirements. UNH does not accept all CLEP subject exams.

Maximum credit accepted toward a bachelor's degree for all credit by exam and advanced placement testing is 64 semester hours.

## Associate Degree Candidacy

The University accepts candidates who have demonstrated ability and motivation for learning through academic achievement, work experience, and/or military service for associate in applied science degree programs.

Students may be considered for admission to associate in applied science degree programs offered by the University's Thompson School of Applied Science in Durham as well as associate in arts or science degrees at the Manchester campus. Candidates applying as high school seniors must submit the application and secondary school record. The submission of SAT and/or ACT exams are optional. Students granted first-year admission to the Thompson School are eligible to live in a University residence hall.

## Eligibility for Degree Candidacy

Applicants may be candidates for any undergraduate degree offered by the University. However, applicants having a bachelor of arts (B.A.) degree will not be admitted into a program of study that awards the same degree (e.g., B.A. History and B.A. Zoology). Applicants can earn more than one bachelor of science (B.S.) degree, provided that each degree is in a different field. Applicants may also be admitted into a program awarding a different degree (e.g., B.A. History and B.S. Biology; or B.A. History and A.A.S. Applied Animal Science).

## Readmission

An undergraduate who withdraws, does not register for UNH coursework in a given semester, or is suspended or dismissed from the University thereby terminates degree candidacy and must apply for readmission by the following deadlines: fall semester, June 1; spring semester, November 1. Readmission applications are processed in the Office of Admissions; however, decisions regarding readmission are made in consultation with the Division of Student and Academic Services and the dean's office of the University college division to which the student is applying.

Before seeking readmission, students on academic suspension must remain away from school for at least one semester. Suspended students should include a statement about their readiness to resume University work with their application.

Only under extraordinary circumstances will students be readmitted after dismissal for academic reasons. Applications submitted by dismissed students are reviewed by the University's Academic Standards and Advising Committee.

It may not be possible for readmission applicants to enroll in programs with established enrollment limitations.

## Transfer Students

UNH encourages applications from transfer students. Admission consideration includes review of course selection, academic achievement, and the extent to which that selection addresses the University's general education requirements. Transfer credit is awarded for completed courses taken at an institution that is fully accredited by one of the regional accrediting associations with a grade of C or better, provided those courses are comparable to courses offered at UNH. Each course must carry at least 3 semester credits and receive a letter grade to qualify for general education consideration.

The application deadline for fall semester admission is April 1; October 15 is the application deadline for spring semester. Some programs have enrollment limitations and may not be open to transfer students. Students enrolled in one of the University's associate degree programs who desire admission to a bachelor's degree program at UNH must apply as transfer students through the Office of Admissions.

Transfer students may contact the Department of Housing at (603) 862-2120 to determine the availability of on-campus housing. Please note that on-campus housing is not guaranteed to transfer students.

## New England Regional Student Program

The University participates in the New England Regional Student Program, in which each state college and university in New England offers certain undergraduate majors to students from other New England states. Under this program, admitted students from other New England states pay a reduced tuition rate. Students must indicate on their admissions application the specific major for which they are applying. Information about the curricula may be obtained from:

The New England Board of Higher Education  
45 Temple Place  
Boston, MA 02111  
[www.nebhe.org](http://www.nebhe.org), or (617) 357-9620.

Visit <http://admissions.unh.edu/tuitionfees/new-england-regional-student-program/> for available UNH majors through this program.

## Full-Time Special Student Status

UNH offers a special student classification for persons who wish to participate in University coursework on a full-time basis without entering a degree program. In evaluating requests for special full-time status, the Office of Admissions generally applies the same criteria used in the review of applicants for admission to degree candidacy. Full-time special students have full access to academic support services but are not eligible for University-based financial aid. Students must maintain satisfactory achievement to continue with University coursework. Full-time special (non-degree) students register for coursework through the Registrar's Office.

## Resident Status

All students attending any division of UNH in any capacity shall be charged tuition at a rate to be determined by their primary, legal domicile. Those domiciled within the state of New Hampshire pay the in-state rate. Those domiciled elsewhere pay the out-of-state rate.

Students are classified as residents or nonresidents for tuition purposes at the time of admission to the University. The decisions, made by the Office of Admissions, are based upon information furnished in students' applications and any other relevant information.

All enrolling students living in New Hampshire are required to submit an electronic NH residency statement to the effect that they, if financially independent, or their parents/guardians, if financially dependent, have been legally domiciled in New Hampshire continuously for a period of at least twelve months immediately prior to registering for the term for which the student is claiming in-state status. The electronic NH residency form will be emailed to students shortly after they confirm their enrollment at UNH. Should you need a copy of the NH residency form, please contact the Office of Admissions via email at [admissions@unh.edu](mailto:admissions@unh.edu). Students admitted from states other than New Hampshire or from foreign countries are considered nonresident throughout their attendance at the University unless they have acquired bona fide domicile in New Hampshire.

If students maintain residency apart from that of their parents/guardians, they must clearly establish that they are financially independent and that their residence in New Hampshire is for some purpose other than the temporary one of obtaining an education at the University. To qualify for in-state status, students must have been legally domiciled in New Hampshire continuously for a period of at least twelve months prior to registering for the term for which in-state status is claimed.

The burden of proof in all cases is upon the applicant. The University reserves the right to make the final decision concerning resident status for tuition purposes.

A copy of the rules governing residency may be obtained from the Office of Admissions and on the following website: <https://www.unh.edu/policy/bot/iv-financial-policies/e-classification-students-tuition-purposes-residency-rules>

## Campus Life, Programs and Services for Students

The University offers programs and services to help every student get the most out of their college experience.

## Advising Services

Every UNH student is assigned an academic advisor, who provides help in choosing courses and planning a program of study. Other sources of help, for academic or personal problems, are described below.

## Career and Professional Success (CaPS)

With an uncommon commitment to personal and professional development, Career and Professional Success (CaPS) empowers all UNH students to proactively build the knowledge and skills they need to adapt and succeed in an ever-changing future. We are coaches, connectors, and champions for students and alumni in the Wildcat community. In partnership with faculty, staff, employers, and our global alumni network, we orchestrate opportunities for students to build personal and career awareness, build a personal brand, build professional experiences, and build professional relationships, equipping all with the tools to thrive throughout their lives.

For more information about programs, services and opportunities, call (603) 862-2070, email [caps@unh.edu](mailto:caps@unh.edu), visit [www.unh.edu/career](http://www.unh.edu/career), or

follow UNH Career and Professional Success on all major social media platforms.

## Internships

Career and Professional Success supports students in locating pre-professional internships in settings ranging from traditional business and research facilities, to more uniquely tailored environments that reflect academic and career interests. Students who wish to engage in career-oriented work experiences for university credit should consult with an appropriate faculty sponsor in their department regarding established programs and the possibility of receiving academic credit. Many academic departments list internship opportunities and programs on the department website.

Additional paid and unpaid internship postings can be found through UNH's job and internship board, [Handshake](#).

For more information on internships at UNH, call (603) 862-2070 and/or visit [www.unh.edu/career](http://www.unh.edu/career).

## Center for Academic Resources (CFAR)

The Center for Academic Resources (CFAR) offers a holistic approach to our academic-related services for undergraduate students. Our dedicated team of professional educational counselors and student academic mentors are committed to enhancing students' educational experience and academic success. We coach students on how to study smarter in their classes focusing on note taking and reading strategies, exam preparation and taking skills, approaches to problem-solving and language learning, organizational skills, time management, and ability to access and utilize online portals. Using an individualized approach, we bring our valuable academic experiences and specialized training to our student meetings. Our services are easy to access. Students can drop-in Monday through Thursday from 11 to 3 and meet with an academic mentor or educational counselor. Appointments are available Monday through Friday from 9 to 5 through <https://unh.mywconline.com/>. Study tools and STEM resources can also be found on our website. For more information call (603) 862-3698, e-mail [cfar.sss@unh.edu](mailto:cfar.sss@unh.edu) or visit <http://www.unh.edu/cfar>

## TRIO Scholars - Student Support Services (SSS)

The TRIO Scholars (SSS) program is federally funded by the United States Department of Education to increase the retention and graduation rates of program participants. Students are eligible for TRIO Scholars (SSS) if they will be the first in their family to earn a bachelor's degree, if their family income is within program guidelines, or if they have a documented disability.

TRIO Scholars (SSS) participants work with a TRIO Educational Counselor to create individualized success plans focusing on academic development, financial literacy, personal development, and professional development to help translate personal goals into action. The TRIO Scholars (SSS) program also includes educational workshops, cultural events, and leadership development opportunities, as well as the opportunity to have access to free tutoring.

The [TRIO Scholars \(SSS\)](#) program is located in Smith Hall.

*\*UNH TRIO Student Support Services is funded by the US Department of Education and the University of New Hampshire. In 2021-22 federal funding totals \$379,979. The University of New Hampshire contributes an additional*

*\$85,897 in matching funds. The project is funded to serve 200 students in 2021-22.*

## Honor Societies

The University of New Hampshire has a long and strong/valued tradition of recognizing outstanding student academic achievement through election to a variety of honor societies. Some of these national societies recognize performance in any academic field while others are limited to specific disciplines.

Honor societies are most prevalent in colleges and universities. Based on varying criteria of high academic achievement and leadership, students are invited to join most commonly in their junior or senior year. Although initiated into the campus chapter, students become members of the national society for life. For more information visit <https://www.unh.edu/honors-program/national-honor-societies>.

# International Students and Scholars

The Office of International Students and Scholars (OISS) provides a wide range of services to international students, faculty, staff and exchange scholars. These services begin before the international visitors arrive on campus and often continue past the completion of their programs. OISS services include: Preparation of eligibility documents for visa issuance along with pre-arrival instructions and information; Preparation of applications to U.S. immigration offices to secure appropriate work authorization for international faculty and staff; In-depth and engaging orientation programs for new students and scholars covering a variety of issues such as immigration rights and responsibilities, adjusting to life in another culture, working in the U.S., adapting to the U.S. educational system, area attractions and services, and much more; A variety of workshops and seminars covering topics such as immigration and employment and career orientation seminars; Programming and events

such as International Education Week, international student and scholar lunches, presentation series, graduation receptions, trips, and much more.

All international students are encouraged to maintain contact with the OISS and are required by law to report changes of address, academic program, or source of educational funds.

OISS also serves as a key liaison between international students, faculty and staff and various other UNH offices and departments. For more information visit [www.unh.edu/global](http://www.unh.edu/global) or call (603) 862-1288.

# Military & Veteran Services

The mission of the Military & Veteran Services Office is to provide the highest quality service and support to Student Veterans, Service Members, and other military-affiliated students such as dependents, as outlined in the Veteran Administration's **Principles of Excellence** and **8 Keys of Success**. Furthermore, we strive every day to ensure that we exceed the University's inclusivity standards as laid out by the University Commission on Community, Equity, and Diversity.

**In order to achieve our mission, our services include:**

- **Processing** military educational benefits in an accurate, efficient, and timely manner in accordance with federal and state law, VA regulations, and USNH Board of Trustees policy
- **Providing** a comfortable space for student Veterans, Service Members, and other military-affiliated students to study and socialize, to include Veteran-only on-campus housing
- **Supporting** the UNH Student Armed Forces Association, the primary student organization for student Veterans, Service Members, and other military-affiliated students
- **Coordinating** a wide range of events for our students, including:
  - On-campus appointments with VA representatives
  - Veteran-specific informational sessions for opportunities such as the Fulbright program
  - Veteran-specific orientation for incoming Veterans and members of the National Guard or Reserves
  - Ice cream, hot chocolate, and pizza socials
- **Advising** students on how to use their military educational benefits, make the most of their time at UNH, transition from military to civilian employment, and plan for life after college
- **Ensuring** student Veterans achieve their academic and professional goals by providing priority course registration, meaning student Veteran register during the initial registration period of their class

We subscribe to and follow PL 113-146 Section 702, The Veterans Access, Choice and Accountability ACT of 2014. A summary of this act can be found here <https://www.va.gov/opa/choiceact/documents/Choice-Act-Summary.pdf>.

Veterans have priority registration. This means that Veteran students register during the initial registration period of their class.

For more information call (603) 862-0643, visit our website at [www.unh.edu/veterans](http://www.unh.edu/veterans), or email us at [UNH.Veterans@unh.edu](mailto:UNH.Veterans@unh.edu).

# Psychological and Counseling Services

Psychological and Counseling Services (PACS) is the primary mental health facility on campus. We are fully funded by student fees. Our

confidential services are designed to help students who are enrolled in full-time study to achieve their personal and academic goals. PACS utilizes a brief, solution-focused counseling model. We provide online interactive self-help therapy via WellTrack, individual and group therapy in person and via telehealth, workshops, and consultation with a psychiatrist. We offer crisis counseling in person, during business hours, and after hours, through ProtoCall. Students needing longer term service are offered referrals to other university and community agencies.

We also aim to serve the community while being part of the community. As community members with specialized training in working with the university population, we are knowledgeable about the special needs of students, faculty, staff. A large part of our community work focuses on prevention; we believe that increased awareness of healthy ways to cope with stress can help the UNH community and its individual members achieve their professional and personal goals.

All information about a student's visits to PACS is confidential and cannot be released without the written permission of the student. The University of New Hampshire Psychological and Counseling Services has been accredited by the International Association of Counseling Services since 1978.

For more information, call (603) 862-2090 or visit <http://www.unh.edu/pacs>.

## Student Accessibility Services

Student Accessibility Services (SAS) is committed to establishing a community that ensures full participation for students with disabilities by providing assistance that facilitates independence and academic progress. The office is responsible for determining a range of student supports, including but not limited to academic, housing and dining accommodations. In addition, we are a source of information and referral; a resource and collaborative partner for the campus community; and a point of support and advocacy regarding access issues in general.

All accommodation requests are considered through an interactive accommodations process. This consists of three important steps: (1) register with SAS, (2) submit documentation, and (3) meet with SAS. To learn more about our documentation requirements for both general and housing-only requests, please see our Documentation Guidelines pages on our website. There is no deadline to make contact, complete an intake, or provide documentation, but accommodations cannot be applied retroactively so timeliness of the request is important. Accommodations can also be reconsidered at any time. Should a student have the need to change their accommodations, students should contact SAS to discuss the request.

If you would like to request accommodations or would like to learn more about the services offered within SAS, please contact: For more information call (603) 862-2607 (voice), 711 (TTY) or 800-735-2964 (Relay NH); (603) 862-4043 (fax); e-mail [SAS.office@unh.edu](mailto:SAS.office@unh.edu); or visit <http://www.unh.edu/studentaccessibility>. Student Accessibility Services is located in Smith Hall, Room 201.

## General Information for Students with Disabilities

Students seeking academic or housing accommodations, services, and accessibility should contact Student Accessibility Services (SAS): voice (603) 862-2607; TTY Users: 711 or 800-735-2964 (Relay NH); e-mail [SAS.office@unh.edu](mailto:SAS.office@unh.edu).

Students with disabilities who need accessible UNH housing should contact SAS as early as possible to allow for identification of appropriate accommodation(s) and notification from SAS to Housing.

For information about dietary restrictions, visit <http://www.unh.edu/dining/nutrition>.

Most major buildings have ramps and many have elevators and adapted restroom facilities. Contact SAS, (603) 862-2607, or Affirmative Action, (603) 862-2930, with questions about building facilities.

No otherwise qualified individual may be excluded from or denied access to any program, course of study, or any other offering of the University solely on the basis of a disability. Concerns regarding the institution's compliance with the Americans with Disabilities Amendments Act (ADAA) of 2008, or Section 504 of the Rehabilitation Act of 1973 should be addressed to the ADA/504 Compliance Officer in the Affirmative Action Office at (603) 862-2930 (Voice/TTY).

## University Advising Center

The University Advising Center provides academic advising to undeclared students in the College of Liberal Arts. The center's professional staff provides assistance to students in clarifying their interests and skills as they relate to developing a program of study at the University and declaring a major, offering opportunities to explore career possibilities.

The center is the primary academic advising resource for non-degree students and assists all students in identifying and connecting with other resources across campus.

For more information call (603) 862-2064 or visit [www.unh.edu/uac](http://www.unh.edu/uac).

## University Writing Programs

The University Writing Programs (UWPs) were created to promote, support and assess writing at the University of New Hampshire. The UWPs are housed in Academic Affairs and report to the Senior Vice Provost for Academic Affairs. The UWPs are contained in a single unit that includes responsibility for the Writing Committee, Writing Across the Curriculum (WAC), the Connors Writing Center (CWC), and the Online Writing Lab (OWL). The curricular component of WAC, consisting of the writing-intensive (WI) courses, is situated within academic departments.

We work with academic units, departments, allied programs, individual faculty, and students to advance the culture of writing at UNH. This approach values and encourages writing as an "activity and subject of study,"<sup>1</sup> not only in writing intensive (WI) classes but wherever writing occurs. Through frequent guided practice, UNH students become accustomed to negotiating the writing process, are more self aware and able to transfer positive writing habits, and can adjust to differing genre conventions. We offer a wide array of services and resources to support students and faculty with their writing-based endeavors in the curriculum.

For more information call (603) 862-3272 or visit [www.unh.edu/writing](http://www.unh.edu/writing).

<sup>1</sup> Adler-Kassner, Linda, and Elizabeth Wardle, *Naming What We Know: Threshold Concepts of Writing Studies*. Boulder: UP Colorado. 2015. 15. Print.

## Connors Writing Center

The Connors Writing Center offers free, one-on-one writing conferences to members of the UNH community: students, faculty and staff. We work with writers from all disciplines on many different kinds of writing. Our

50 minute conferences are conducted by trained writing assistants, who are UNH undergraduate and graduate students.

We work with writers on all types of writing, from analysis essays to lab reports, conference proposals to dissertations. Our conferences are not limited to one specific type of writing or a single academic field—we collaborate with writers from across the university on a large range of academic writing.

Typically, the writers who visit are working on projects for courses. But we also see writers who are working on personal projects, statements of purpose and personal statements for graduate school, and so on.

For more information about resources and services available call (603) 862-3272 or visit [www.unh.edu/writing](http://www.unh.edu/writing).

## Cross Campus Registration

Students at the University of New Hampshire and the University of New Hampshire at Manchester may take courses on a space available basis at either campus. Students from either campus should consult with their advisor regarding which courses are appropriate for registration. Please note: students will need special approval to register for cross-campus courses which have campus, college or major restrictions or require special permission. Students can view a full listing of courses at each campus, including restrictions online at [courses.unh.edu](http://courses.unh.edu).

## Fees and Expenses

The expected cost for 2022-2023 at the University will average about \$32,000 for residents of New Hampshire and about \$51,000 for nonresidents. See the UNH Student Accounts (formerly known as Business Services) [website](#) for the most up-to-date listing of rates.

UNH bills are sent electronically only. Bills are posted to student [Webcat](#) accounts. Students are notified through UNH assigned e-mail addresses when new bills are posted.

## Tuition

Students are permitted to enroll for more than 20 credits only with the approval of their college or school dean. Persons carrying more than 20 credits will be billed a per-credit fee for each credit above 20 credits, whether or not a student has obtained the dean's approval. Courses taken for audit are charged at the same rates as for-credit registrations.

Undergraduates registering for fewer than 12 credits pay the per-credit hour charge, plus a registration fee of \$20 per semester. Undergraduates registered for fewer than 12 credits are charged 50 percent of the usual mandatory fees. Students registered for fewer than 5 credits pay the technology and registration fee but are not charged for the other mandatory fees. The minimum charge for any recorded course is the per-credit charge of 1 credit hour.

Tuition differential charges apply to some majors. Students in the College of Engineering and Physical Sciences (CEPS), including engineering and computer science, and the Peter T. Paul College of Business and Economics (PAUL) will be charged a tuition differential. The differential is the same rate for both N.H. residents and nonresident students. CEPS and PAUL students who register for fewer than 12 credits pay a differential per-credit hour. Music majors are charged an applied music fee of \$450 each semester.

All admitted students must pay an enrollment fee. The fee is \$400 for residents and nonresidents. If a student decides not to attend the

University, these payments may be refunded on a prorated basis until August 15, according to the guidelines set by the Office of Admissions.

Tuition and mandatory fee charges will be refunded to students withdrawing or dropping courses by the second Friday of the semester; one-half after the second Friday and until the fifth Friday; and none thereafter (see the University Calendar). Students receiving federal financial aid will have their return of unearned aid calculated in accordance with the U.S. Department of Education regulations in effect at the time of their withdrawal. For more information concerning withdrawal, call Student Accounts, (603) 862-2230. A degree candidate who withdraws from UNH and subsequently enrolls as a special student within the following year will be billed for tuition and fees on the same basis as degree candidates. Students with outstanding financial obligations to the University must clear their accounts before their registration will be confirmed.

## Fees

Expected mandatory fees for 2022-2023 include a Memorial Union fee for the use and administration of the student union; a recreational fee for support of recreational facilities; a student activity fee for support of the undergraduate newspaper, yearbook, student government, student radio station, and other student organizations; a technology fee; a student athletic fee to provide support for athletic programs; a health and counseling fee to provide general health care through University Health & Wellness; a career and professional success fee; and a transportation fee to provide student transportation services.

There are no waivers of these fees. The services and facilities are available to all—the extent to which each student uses them cannot be the factor by which assessment is determined. Students who withdraw or drop to part-time after classes begin are eligible for refund of fees at the same rate as tuition refunds listed previously.

As a condition of enrollment, all full-time UNH students will be required to carry health insurance. Students may elect coverage under the University's student health benefits plan, or may waive the requirement by providing proof of adequate coverage through another plan. International students with F1 or J1 visas are required to purchase the UNH-sponsored coverage. There are no exceptions to this policy.

## Mandatory Fees Include

### Recreation Fee

- Use of indoor pool at the field house
- Use of athletic facilities at the Whittemore Center, which includes:
  - Aerobics
  - Saunas
  - Locker rooms
- With an additional fee:
  - CPR/first aid course
  - Ballroom dancing
  - Lifeguard instruction

### Health & Wellness Fee

For information, see [Health & Wellness](#).

### Memorial Union Fee

For information, see [Memorial Union](#).

### Athletic Fee

- Admittance to all home games of organized sports at UNH
- Financial support for athletes and athletic teams

### Activity Fee

Support for the following organizations:

- The undergraduate newspaper
- Yearbook
- Student government
- Student radio station
- Movies at reduced rates

For more information, check the "Get Involved" guide available at the Memorial Union Building.

### Career and Professional Success

Helps prepare students for successful lives after graduation.

- internships
- career advising and resources
- assessments
- employer relations
- interview preparation
- mentoring

### Technology Fee

Support for the following:

- Student computing clusters
- Walk-in Help Desk services
- Technology-enhanced classroom infrastructure
- Academic technology liaisons
- Technology-enhanced learning

### Transportation Fee

Student transportation services:

- Campus Connector
- Wildcat Transit
- Safe Rides
- Amtrak Quik Ticket trip
- Non-emergency rides

## Room and Board

New first-year students accepting a space on campus must include a \$200 housing deposit with their housing application. If by Friday of the first week of fall class the student fails to occupy the assigned room or cancels the agreement by mutual consent, or if for disciplinary or nonrenewal actions the agreement is canceled, the student will receive a 75 percent refund of the semester's housing fee. Cancellation after the first Friday of fall classes and before 30 days after registration will result in a 50 percent refund of the semester's housing fee. Cancellation 30 days after registration will result in no refund of the housing fee. Students who check in or move into a hall or apartment, move out, and do not withdraw from the University are charged the full housing fee. If the agreement is canceled, any refund of the housing deposit will first be applied against any unpaid University charges.

For returning students, no deposit is required; instead, a cancellation fee will apply if the housing agreement is cancelled. Written notification of

cancellation of the assignment received by Housing before June 1 will result in a \$500 cancellation fee applied to the student's account. Written notification of cancellation received by Housing after June 1 will result in a cancellation fee of 100% of the fall semester housing rate.

## Rebates

Any amount owed to the University will be deducted from any rebate due to a student.

## Deposits and Course Fees

Refundable deposits may be required to cover locker keys or loss or breakage in certain departments. A semester charge will be made for individual lessons in music, as noted in the description of applied music courses. (Non-music majors taking music courses or sections will be charged an applied music fee). A charge will be made for riding lessons and SCUBA, as noted in the sections on animal sciences and physical education. Some courses carry special fees to cover the costs of special equipment, field trips, etc.; these are noted in the course descriptions.

Students will be charged a computer-use fee for courses requiring computer access and/or common access accounts. For certain courses, there are also lab fees.

## Other Expenses

Books and classroom supplies cost approximately \$800 to \$1,000 annually. These may be purchased at the University Bookstore.

Personal expenses vary considerably with individual students and include clothing, laundry, recreation, incidentals, and travel.

## Payment

All bills for tuition, fees, room and board, and other semester charges are due in full on the payment due date for each semester. A late fee may be assessed to student accounts not paid in full by the payment due date. Student accounts not paid in full within 30 days after the payment due date may be assessed additional late fees, default charges, interest and/or collection costs, and the student may be subject to deregistration from classes.

Parents and students who wish to make periodic payments for tuition, fees, room and board, and other semester charges should contact UNH Student Accounts well in advance of the semester payment due date for information on approved payment plans.

Undergraduate bills are sent electronically through posting to students' Webcat accounts. University bills are posted monthly starting on July 10th for the fall semester and December 10th for the spring semester. Monthly statements continue to be posted on the 10th of each month. E-mails are sent to students' UNH-assigned e-mail addresses notifying students when new bills have been posted. Students may set up Parent Portal accounts to allow parents or others to access their student accounts and receive billing notifications.

Through the online system, students can view a history of electronic bills and payments and access a real-time view of their accounts. Payment may be made online, or the bill may be printed and mailed with payment. Credit card transactions will be charged a non-refundable 2.75 percent service fee.

## VA Educational Benefit

In accordance with 38 USC §3679(e), students using VA Chapter 33 Post-9/11 GI Bill® or VA Chapter 31 Vocational Rehabilitation will not accrue late fees for unpaid bill items covered by their VA educational benefit while waiting for disbursement of the aforementioned funds to UNH. Furthermore, students certified as using these VA benefits will not be precluded from attending classes, utilizing library or other institutional facilities, or be required to borrow additional funds because of their inability to meet their financial obligations to UNH due to delayed disbursement of funds from VA under Chapters 31 or 33. However, students may accrue late fees as applicable to unpaid bill items other than tuition and fees covered by Chapters 31 or 33. Moreover, UNH reserves the right to impose a late fee if the difference between the amount of the student's financial obligation and the amount of the VA education benefit disbursement remains unpaid after student bills are due. Differences may be a result of, but not limited to, charges for housing, meal plans, parking permits, or if the student is not entitled to 100% of Chapter 33. GI Bill® is a registered trademark of the U.S. Department of Veterans Affairs (VA). More information about education benefits offered by VA is available at the official U.S. government Web site at <https://www.benefits.va.gov/gibill>.

## Financial Aid

The [University Financial Aid Office](#) assists students who are unable to meet educational expenses entirely from their own family resources. Aid is available in the form of grants and scholarships, loans, and part-time employment. The financial aid website gives program information, application procedures, and deadlines.

In many communities, scholarships and loans are available locally. School principals and guidance counselors have information about these sources of assistance, which are available to both high school seniors and adult students.

Before applicants may be considered for assistance by the University, they must submit the [Free Application for Federal Student Aid \(FAFSA\)](#).

The financial aid application priority consideration deadline for aid awarded by the University is March 1. In order to receive a timely award this is the date by which your fully completed FAFSA should be received by the federal processor.

It is the University's position that the student applicant is accountable for the accuracy and timely submission of the FAFSA. We realize that in most cases a student's parent(s) also participates in completing the form. However, it is the student who is ultimately responsible for monitoring the application process. Students should not wait until being admitted to the University before applying for financial aid.

In order to be considered for need-based assistance, students must submit a FAFSA each year.

Note: There is reference on the FAFSA to a "deadline" of June 30. Do not be misled by this date. It is not the financial aid deadline at UNH or most other colleges.

## Grants and Scholarships

Admitted undergraduate degree candidates who will attend UNH on a full- or part-time basis may be considered for tuition grants and University scholarships. The basic consideration is financial need, although some scholarships are awarded on the basis of scholastic attainment,

participation in extracurricular activities, or meeting specific requirements of a donor.

The University participates in the federally sponsored Federal Supplemental Educational Opportunity Grant Program, which is designed to assist needy students who are admitted degree candidates.

## Federal Pell Grant Program

Students may apply directly to the federal government for a Pell Grant using the FAFSA.

## Loan Programs

Matriculated students enrolled on a full- or part-time basis who have completed the financial aid process will be reviewed for the federal government's Direct Student Loan Program.

## Part-Time Employment

The Federal Work-Study Program, both academic year and summer, assists students who, as determined by the Financial Aid Office, need financial assistance for their educational expenses. Admitted undergraduate and graduate degree candidates attending at least half time are eligible for consideration.

Students who do not qualify for the Work-Study Program may find part-time employment on or near campus.

## ROTC Scholarships

Reserve Officer Training Corps scholarships are offered on a competitive basis by both the Army and the Air Force. Entering freshmen may compete for four-year scholarships during the last year of high school. A variety of scholarships are also available to students already attending the University.

Scholarships pay up to full tuition, all mandatory fees, and for required textbooks. In addition, all scholarship recipients receive a tax-free monthly subsistence allowance. Finally, students with a four-year or three-year ROTC scholarship compete for a room and board grant for the entire time they are on the scholarship.

For more information, contact the Admission Officer: Army ROTC at (603) 862-7075, or Air Force ROTC at (603) 862-1480.

## Health & Wellness

The University has a [nationally accredited](#) health and wellness program.

## Our Mission

[Health & Wellness](#) provides whole person-centered care and services, illness prevention and health promotion, co-curricular learning opportunities, and public health leadership and expertise. All are tailored to support our students' health, well-being, and personal development, the health of the campus community and the mission of our University. Health & Wellness is accredited by the Accreditation Association for Ambulatory Health Care (AAAH).

## Health & Wellness Fee

All UNH students who take five or more credit hours/semester are required to pay the [UNH Health & Wellness fee](#). This fee allows students to access services at Health & Wellness on campus, and covers many services at no or reduced cost. When combined with a student's health

insurance coverage, the Health & Wellness fee provides for a complete health care package. A student's health insurance is never billed for services covered by the UNH Health & Wellness fee.

## Health Insurance

UNH requires health insurance as a condition of enrollment for full-time degree students at its Durham, Manchester, and Concord campuses. Some students have the option of waiving this requirement if they present proof of adequate coverage; alternatively, students can acquire an affordable health benefits plan sponsored by the University. International students with F-1 and J-1 visas are required to purchase the UNH Student Health Benefits Plan (SHBP). [Learn more about the SHBP and the waiver process here.](#)

## Health Record Requirement

Undergraduate students who have been formally accepted to a degree program are required to have health information on file with UNH Health & Wellness. The three requirements to be completed and submitted by the student online are:

1. a physical assessment,
2. immunization form, and
3. a health history form.

Prior to matriculation at a member institution within the University System of New Hampshire (USNH), all undergraduate and graduate students are required to provide proof of immunization or demonstrate their immunity to specific vaccine-preventable diseases as outlined below.

Required\*:

- Measles, Mumps, Rubella (MMR): 2 doses at least 28 days apart, initiated after 12 months of age, or immune titers
- Meningococcal (ACWY): 1 dose required within 5 years of enrollment; a booster dose required if initial dose administered prior to age 16
- Tetanus, Diphtheria, Pertussis (Tdap): within 10 years, after completion of primary series
- Chicken Pox (Varicella): two doses of vaccine, separated by four to eight weeks, or immune titer

Strongly Recommended:

- Staying up-to-date on COVID-19 vaccination recommendations
- Influenza: annually
- Hepatitis B: series of 3 doses

Documentation of proof of vaccination or immunity (detailed below) is required ([UNH Academic Policy 02.14](#)) and is typically shown on the immunization form. It is the responsibility of students to provide the documentation before attending any classes. Any student failing to complete these requirements may be prevented from registering for future classes.

*These health forms are required before moving into residence halls and starting classes. Failure to submit forms may prohibit students from moving into their residence halls until they are compliant.*

[Learn more about incoming student health record requirements here.](#)

## Medical Services

UNH Health & Wellness provides comprehensive, student-focused, primary medical care through a team approach. The clinical staff consists of board-certified physicians, nurse practitioners, nurses, and medical assistants who are committed to prevention and holistic care. Primary medical care is provided for a variety of common concerns. Examples include respiratory illnesses (including asthma), infections, injuries, skin concerns, digestive disorders, allergy/immunization services and travel health consultation, mental health, and gender-affirming care. Sexual/reproductive health services include family planning/contraceptive services, cervical cancer (Pap smears) screening/prevention, testing and treatment for sexually transmitted infections, pregnancy testing and counseling, limited sexual assault services, and more. Health resource nurses provide chronic illness support and assist with problems arising from hospitalization.

Students may speak by telephone with a health resource nurse for advice at any time, and after-hours nurse consultation is available when UNH Health & Wellness is closed. On-site clinical support services include laboratory services, radiology, and pharmacy. Not all services are available during the summer or breaks. Read more [about medical services](#).

For [emergencies and after-hours care](#), well-staffed and well-equipped urgent care centers and community hospitals are nearby, and an emergency ambulance service is available in Durham at all times.

## Living Well Services

Living Well Services coordinates health promotion activities on campus. Services provided include educational programs, workshops, and classes; individual wellness counseling and coaching to promote healthy lifestyle choices, including alcohol and other drug counseling, nicotine cessation services, nutritional counseling, wellness coaching (e.g., stress, sleep, behavior change, etc.); and integrative mind-body services, including biofeedback, light therapy, and massage therapy. Read more about [Living Well Services](#).

## Library

The UNH Library supports the educational and research activities of the students, faculty, and staff of the University of New Hampshire as a research-level library. Experienced research assistance along with group and individual instruction helps students learn how to efficiently research and critically evaluate information. The Library provides access to an extensive collection of electronic resources (e-books, digital collections, an institutional repository, indexes in many subject areas, statistical data sets, and databases supplying full-text journal and newspaper articles) 24/7 at [library.unh.edu](http://library.unh.edu).

The Library has approximately 2.7 million print and electronic items and more than 140,000 print and electronic serial subscriptions and is active in digitizing, preserving, and making accessible materials in its collections. Dimond Library houses collections in the social sciences, humanities, business, health and human services, education, and earth sciences and is the regional depository for federal government publications (including maps). It is also home to the Connors Writing Center, the Academic Technology Support Center, and Zeke's Cafe. Special Collections and Archives collects rare books, manuscripts, and University publications and papers. In addition to the main Dimond Library, there are three branch libraries for physical sciences and

engineering that offer customized services for the UNH scientific and engineering communities.

The library's holdings are supplemented by access to the collections of Boston Library Consortium member libraries as well as library collections around the globe through interlibrary loan. The UNH Library shares resources with the campus library at the University of New Hampshire at Manchester and collaborates with the UNH School of Law library. All library locations offer wireless Internet access, computer workstations, individual study areas, and collaborative group work spaces. Dimond Library offers seating for more than 1,200 in a variety of settings.

For additional information about UNH Library resources, services, and expertise, please visit <https://www.library.unh.edu> and for the latest Library information and news, follow us on Instagram, Facebook or Twitter @unhlibrary.

# University Academic Requirements

## Degree Requirements

### Degree Requirements for Undergraduates

Requirements in this catalog apply to students who enter the University between July 1, 2022 and June 30, 2023. Students who entered the University at an earlier time but who wish to change to the requirements of this catalog must apply to the appropriate office for the change. Students will be held responsible for all work required for graduation and for the scheduling of all necessary courses.

## Credit Requirement

To be eligible for graduation from the University of New Hampshire, a student must obtain a passing grade in a minimum of 128 semester hours; for associate degree graduation, 64 semester hours. The student must also meet the curricular, departmental, scholastic, and other requirements that have been sanctioned by the proper authorities.

To be eligible for graduation, all baccalaureate, associate in applied science and associate in art students enrolling for academic year 2022/23 must fulfill four types of University requirements: Writing, Discovery (or General Education for associate degree students), degree, and major.

## Minimum Graduation Average

A cumulative grade-point average of 2.0 in University of New Hampshire courses is the minimum acceptable level for undergraduate work in the University and for graduation. In addition, some majors require a grade-point average greater than 2.0 in certain courses or combinations of courses. The Academic Standards and Advising Committee examines the records of students periodically and may place academically deficient or potentially deficient students on warning, or may exclude, suspend, or dismiss those who are academically deficient.

## Residence

"Residence" is being enrolled in University of New Hampshire courses after admission to and matriculation in a degree program. Students who are candidates for bachelor's and associate degrees must attain the last one-fourth of their credits toward the degree in residence unless granted permission by the Academic Standards and Advising Committee to transfer part of this work from other accredited institutions.

## Certification of candidate for graduation

Degrees are awarded three times a year: December, May and September. Candidates for graduation shall be certified as to their college requirements by the several college faculties to the Registrar, who shall recommend them to the president for their appropriate degrees provided they have satisfied all University requirements for graduation.

Modifications tend to occur in major programs during the period of students' undergraduate careers. Students are expected to conform to these changes insofar as they do not represent substantive alterations in their course of study.

Note: Although the University will try to provide sufficient facilities so that students may pursue any major or curriculum for which they meet the requirements, such a privilege cannot be guaranteed, since rapidly increasing enrollment sometimes results in the overcrowding of required specialized courses. On occasion, students may remain in a crowded

curriculum if they are willing to take certain courses during the summer session.

## Quota of Semester Credits

Students registering for more than 20 credits must receive the approval of the college dean. Additionally, students taking more than 20 credits in a single term will pay a per-credit surcharge.

Baccalaureate and associate in arts undergraduates are assigned class standing on the basis of semester credits of academic work completed with a passing grade, as follows: to be a sophomore, 26 credits; to be a junior, 58 credits; to be a senior, 90 credits. Associate in applied science undergraduates: to be a senior, 26 credits.

## Grades

Grading and honors policies as stated in this catalog apply to all undergraduate students.

Instructors assign grades as listed below; grade points per credit are indicated in parentheses. For all undergraduate courses, grading standards established by the Academic Senate are that a C indicates competent, acceptable performance and learning; B indicates superior performance and learning; and A indicates excellent performance and learning. These standards apply to all undergraduate courses, instructors, departments, subjects, and colleges. The University reserves the right to modify grading and honors practices.

- A (4.0) Excellent
- A- (3.67) Intermediate grade
- B+ (3.33) Intermediate grade
- B (3.0) Superior
- B- (2.67) Intermediate grade
- C+ (2.33) Intermediate grade
- C (2.0) Satisfactory, competent
- C- (1.67) Intermediate grade
- D+ (1.33) Intermediate grade
- D (1.0) Marginal grade
- D- (0.67) Intermediate grade
- F (0.0) Failure, academic performance so deficient in quality as to be unacceptable for credit
- AF (0.00) Administrative F (usually indicates student stopped attending without dropping the course); is included in grade-point average
- CR—Credit, given in specific courses having no letter grades, designated credit/fail
- P—Passing grade in a course taken under the student pass/fail grading alternative
- W—Withdrawal, assigned if withdrawal is later than fifth Friday of classes (but not after midsemester); is not included in grade-point average
- WP—Withdrawal, assigned if withdrawal is after mid-semester and if student is passing; is not included in grade-point average
- WF—Withdrawal, assigned if withdrawal is after mid-semester and if student is failing; is included in grade-point average
- AU—Audit, no credit earned
- IC—Grade report notation for student's incomplete coursework

- IA—Indicates "incomplete" in a thesis or continuing course of more than one semester; the grade earned will replace "IA" assigned in previous semesters
- IX—Grade not reported by instructor

Students earning a semester or cumulative grade-point average less than 2.00 are placed on "academic warning."

## Pass/Fail

While earning a bachelor's degree, students may choose the pass/fail grading alternative for a maximum of 4 credits per semester up to a total of 16 credits toward the degree.

Pass/fail cannot be used for Discovery requirements, for writing-intensive courses, for courses required by a student's major or second major, for option or minor requirements, for ENGL 401 First-Year Writing, or for repeated courses. In addition, B.A., B.F.A., and B.M. degree candidates may not use pass/fail for courses taken to meet the foreign language requirement, and no Paul College course may be taken on a pass/fail basis by a student majoring in administration, economics, or hospitality management.

The minimum passing grade for credit is a D- (0.67); any grade below this minimum is a fail. All grades will be recorded on the grade roster as A, B, C, D, F, or intermediate grades. The pass/fail marks will be placed on students' transcripts and grade reports by the Registrar's Office. The course will not be included in the grade-point calculation, but the pass or fail will be recorded, and in the case of a pass, the course credits will be counted toward degree requirements. Associate in arts students, see the University of New Hampshire at Manchester.

## Honors

An undergraduate degree student, after completion of at least 12 graded (not CR or P) credits in University of New Hampshire courses, is designated as an honor student for a given semester if the student has

1. completed at least 12 graded credits for that semester and earned at least a 3.50 semester grade-point average; or
2. earned at least a 3.50 cumulative grade-point average and at least a 3.50 semester grade-point average regardless of the number of graded credits that semester.

Bachelor's degree candidates who have earned honors for their entire work at the University will be graduated with honors based on the final cumulative grade-point average, provided that a minimum of 64 graded credits have been completed in University of New Hampshire courses. The Latin equivalent of the honors classification will appear on the student's academic record and diploma. The student's honors classification will be noted in the commencement program.

## UNH Credit Hour Policy

The University of New Hampshire is in compliance with the federal definition of credit hour. For each credit hour, the university requires, at a minimum, the equivalent of three hours of student academic work each week assuming a 15-week semester (student workload for shorter length terms must be increased proportionally per week to maintain required approximately 45 hours of work per credit per term) Student work reflects intended learning outcomes and is verified through evidence of student achievement.

## Academic Honesty

Academic honesty is a core value at the University of New Hampshire. The members of its academic community both require and expect one another to conduct themselves with integrity. This means that each member will adhere to the principles and rules of the University and pursue academic work in a straightforward and truthful manner, free from deception or fraud. The academic policy can be found in the annual publication, [Student Rights, Rules, and Responsibilities](#).

## Course Descriptions

### Credits

The University of New Hampshire is in compliance with the federal definition of a credit hour. For each credit hour, the university requires, at minimum, the equivalent of three hours of student academic work each week. Academic work includes, but is not limited to, direct faculty instruction, e-learning, recitation, laboratory work, studio work, field work, performance, internships and practica. Additional academic activities include, but are not limited to, readings, reflections, essays, reports, inquiry, problem solving, rehearsal, collaborations, theses, and electronic interactions. Student work reflects intended learning outcomes and is verified through evidence of student achievement.

The number of credits listed is the number of semester credits each course number will count toward graduation (except in the case of variable credit courses). Students must register for the number of credits shown or, if the course is variable credit, within the range of credits shown.

"Cr/F" following the course description indicates that no letter grade is given but that the course is graded Credit or Fail.

## Course Offerings

The pound sign "#" denotes any course which has not been offered in the past three academic years.

For up-to-date information about when a course is offered; who teaches the course; the number of recitations, lectures, labs, and such, students are referred to each semester's [Time and Room Schedule](#).

## Equivalent(s)

Courses are equivalent when the same course content is taught under different course subject prefixes and/or course numbers. Equivalent courses may be applied interchangeably to satisfy degree requirements, unless otherwise prohibited by program (major, minor, program) specific rules. The repeated course rule is applicable if a student takes two equivalent courses. Equivalent courses also include courses in the past taught under different subject prefixes, numbers, titles, or a writing intensive or honors course section.

## Labs

In courses that are not designated by title as laboratory courses, the notation "Lab" or "Course has a lab component" in the course description indicates that laboratory sessions are a part of the course. For example, CHEM 403 General Chemistry I.

## Mutual Exclusion

Courses are mutually exclusive when course content is too similar to earn credit for both. Students may not enroll if they have completed any mutually exclusive courses with a passing grade.

## Numeric System

The University of New Hampshire's system of numeric designation is as follows:

- 200–299 Courses in Thompson School of Applied Science.
- 300–399 Associate in arts /associate in science courses. Courses may be taken for credit only by associate's degree or nondegree students. Credits may not be applied to baccalaureate degrees.
- 400–499 Introductory courses generally not carrying prerequisites and courses generally falling within University and college requirements.
- 500–599 Intermediate-level courses for undergraduate credit only.
- 600–699 Advanced-level undergraduate courses. Entrance to courses numbered 600 and above normally requires junior standing.
- 700–799 Advanced-level undergraduate courses. Ordinarily not open to freshmen and sophomores.
- 800–999 Courses that carry graduate credit only and therefore are open only to admitted or special graduate students.

## Prerequisites and Corequisites

Prerequisites are courses that must be taken before another course. For example, SUST 401 Exploring Sustainability is a prerequisite of SUST 501 Sustainability in Action.

Corequisites are courses that must be taken in the same semester. For example, BMCB 658 General Biochemistry and BMCB 659 General Biochemistry Lab are corequisites.

## Degrees

### Bachelor of Arts

At least 128 credits in courses numbered 200-799, with a cumulative grade-point average of 2.0 for all courses taken at the University in which a grade is given.

Completion of [Discovery Program \(University core curriculum\) requirements](#) (p. 27).

Completion of the [University writing requirement](#) (p. 31).

Proficiency in a foreign language. This requirement may be fulfilled by completing the equivalent of a full-year elementary-level course in a language not previously studied, or by completing the equivalent of a semester of a course in a foreign language at the intermediate or higher level, or by earning credit through an approved Advanced Placement or College Board foreign language achievement test (minimum scores vary). The proficiency in a foreign language requirement must be satisfied by the end of the sophomore year. No credit is awarded for elementary year college coursework if the student has had two or more years of that language in high school. It is strongly advised that students check with academic departments to identify department-advised specific foreign language proficiency options.

Note: A student with a documented disability who wishes accommodation on the basis that the disability will prevent him or her

from successfully mastering a foreign language requirement, or whose foreign language requirement was waived in high school because of a documented disability, must contact Student Accessibility Services, Smith Hall, (603) 862-2607 (Voice/TDD).

An approved major.

For specific major requirements, check individual departmental or program listings.

### Bachelor of Fine Arts, Bachelor of Music

Requirements for the B.F.A. degree are outlined in the [Department of Art and Art History](#) (p. 40), College of Liberal Arts; for the B.M. degree, go to the [Department of Music](#) (p. 103), College of Liberal Arts.

### Bachelor of Science

At least 128 credits in courses numbered 200-799, with a cumulative grade-point average of 2.0 for all courses taken at the University in which a grade is given.

Completion of [Discovery Program \(University core curriculum\) requirements](#) (p. 27).

Completion of the [University writing requirement](#) (p. 31).

An approved major.

For specific major requirements, check individual departmental or program listings.

### Associate in Arts

For degree requirements, see the [University of New Hampshire at Manchester](#) (p. 403).

### Associate in Applied Science

For degree requirements, see the [Thompson School of Applied Science](#) (p. 395).

## Dual Degrees

The opportunity to pursue two undergraduate degrees simultaneously enhances and broadens the education of certain students. The program is only for those students who can adequately handle the requirements for two different degrees and who can reasonably allocate the additional time and effort needed for the program.

Except for specific five-year degree programs, a student may not pursue two different degree levels simultaneously.

### Requirements

Students desiring dual degrees must petition the college dean or deans involved for permission. Students must have a minimum 2.5 cumulative grade-point average. Students planning to take one degree in a highly prescribed curriculum should register as freshmen in the appropriate school or college for that curriculum. It is expected that candidates for two degrees will complete 32 credits beyond those required for the first degree. Students can earn more than one bachelor of science (B.S.) degree, provided that each degree is in a different field. Students cannot earn more than one bachelor of arts (B.A.) degree. Transfer students already holding a baccalaureate degree from another accredited institution may pursue an additional baccalaureate degree at the University of New Hampshire provided they fulfill the previously listed

requirements. The degree received at the first institution will be accepted by UNH as awarded by that institution.

## Supervision

As soon as a student is accepted as a candidate for two degrees, the appropriate dean(s) will appoint supervisors for each of the proposed majors. The supervisors and the student will work out a basic course plan for the two degrees and inform the appropriate dual degree dean(s) of the plan. The supervisors will maintain joint control over the student's academic program. The college offices and the supervisors will receive copies of grade reports and other records for students pursuing two degrees.

## Accelerated Master's Eligible Programs - Undergraduate Seniors

Qualified senior students at the University of New Hampshire may be admitted to the Graduate School provided they have followed normal application procedures. Students in the accelerated master's program must be admitted to the Graduate School before they may enroll in courses for graduate or dual credit. A 3.20 cumulative grade-point average is normally required to be considered for admission to the accelerated master's program.

Such seniors are normally admitted prior to the start of their last undergraduate semester, but may be eligible to apply for admission the first semester of their senior year. Seniors who have been admitted under early admission may register for a maximum of 12 credits of graduate-level courses prior to completing their bachelor's degree. Such courses may upon recommendation of the department and approval of the Graduate School count toward both a bachelor's and master's degree.

When seniors admitted to the accelerated master's program have registered for graduate courses, they must maintain a grade-point average of 3.20, complete their undergraduate degree as planned, and pass graduate courses taken for credit with a grade of B- or better. If these conditions are not met, admission is withdrawn.

Not all graduate programs participate; each program's faculty retain discretion regarding whether their program admits students under the accelerated master's program, as well as the maximum number of graduate credits permitted (not exceeding 12; e.g., some programs will accept one course, others two). Applicants are strongly encouraged to meet with the graduate coordinator in the program's faculty to discuss specifics. Dual-credit forms must be completed and approved by the dean of the Graduate School at the beginning of the semester for which dual credit is sought.

## Discovery Program

### Discovery Program (Core Curriculum Requirement)

The Discovery Program provides the intellectual framework for students in any major. It represents the faculty's collective belief in what constitutes and contributes to essential knowledge of the world. Together, students and faculty attempt to understand fully and use ethically that knowledge, both in the present and as a reservoir from which to draw in the future. These intellectual skills, knowledge, and ethical grounding will help prepare students to contribute to the creation of a more sustainable, healthy, just, and prosperous world.

*"He who learns but does not think is lost. He who thinks but does not learn is in great danger." Confucius.*

## Discovery Program Student Learning Outcomes

After completing the Discovery Program at UNH, students should be able to:

1. Communicate effectively by applying skills in reading, writing, speaking, and listening.
2. Acquire and use information appropriately and effectively to research, organize, and present knowledge.
3. Apply mathematical concepts and/or statistical models to understand phenomena and/or solve problems in multiple contexts.
4. Formulate and evaluate open-ended questions that lead to empirical/researchable investigations of complex problems and issues.
5. Analyze and synthesize ideas and perspectives from diverse traditions from around the world.
6. Analyze and synthesize ideas and perspectives from more than one academic or intellectual discipline.
7. Clarify connections between their academic learning and their own ethical values.
8. Demonstrate the integration of learning they have achieved in their major field of study.
9. Exercise imagination in grappling with complex problems of both the natural and human created worlds, and understand the centrality of imagination to all human endeavors.
10. Make connections among the various branches of human knowledge and endeavor.

## Discovery Program Requirements

### Discovery Foundation Skills

**Inquiry course.** This course may fulfill a Discovery category and/or a departmental requirement. It should be taken during a student's first or second year or prior to completion of 57 credits. For students who transfer in with 26 or more credits, the Inquiry requirement is waived automatically.

**One course in writing skills.** Most students will satisfy the first-year writing requirement with ENGL 401 First-Year Writing. This course should be taken during a student's first year or prior to completion of 32 credits.

**One course in quantitative reasoning.** This course is normally completed by the end of the first year or 32 credits.

### Discovery in the Disciplines

Students must take one course from each Discovery category at the 400-600 levels. Inquiry courses that carry Discovery category designations may be used to satisfy this requirement.

- One course in Biological Science (BS);<sup>1</sup>
- One course in Physical Science (PS);<sup>1</sup>
- One course in Environment, Technology, and Society (ETS);
- One course in Fine and Performing Arts (FPA);
- One course in Historical Perspectives (HP);
- One course in Humanities (HUMA);
- One course in Social Science (SS); and
- One course in World Cultures (WC) (also may be satisfied by approved study abroad programs).

<sup>1</sup> One of these courses must have a Discovery lab component (DLab).

## Discovery and Integrative Understanding

One senior capstone experience, supervised and approved within the major.

The capstone experience is typically completed by senior students within the major and is designed to elicit opportunities for educational reflection and synthesis of knowledge and skills; however, students who have completed 90 credits at the end of their junior year may complete their capstone during the summer prior to their senior year. The capstone may be met with an approved experience (as described below). It is not necessarily a course.

Suggested ways of meeting capstone may include: McNair research theses, Hamel Center Programs (IROP, SURF USA, SURF Abroad, URA, INCO 790 Advanced Research Experience), and senior honors theses. Examples of capstone experiences include courses, projects, independent research, internships, artistic expression, or community and service learning opportunities.

### The senior capstone experience must meet one or more of the following criteria:

The capstone synthesizes and applies disciplinary knowledge and skills. The capstone fosters reflection on undergraduate learning and experience. The capstone demonstrates emerging professional competencies. The capstone applies, analyzes, and/or interprets research or data or artistic expression. The capstone explores areas of interest based on the integration of prior learning. The capstone requirement will vary across departments and colleges and may be satisfied through a course, thesis, created work or product, mentored research project, or some form of experiential learning (e.g., fieldwork). The capstone should occur during the student's senior year. Departments designate capstones as appropriate to their respective disciplines following the usual administrative procedures for their college or school. Departments are responsible for certifying that graduating seniors have met the capstone requirement for their majors.

### Additional Information

Discovery Program requirements shall not be waived on the basis of special examinations or placement tests, except for the College Board Advanced Placement tests and the College Level Examination Program (CLEP) tests. All students transferring to UNH in academic year 2019-20 will come in under Discovery Program requirements. For students who transfer in with 26 or more credits, the Inquiry requirement is waived automatically.

*Note to Faculty: Students may petition the Discovery Committee to replace a requirement. The student's petition must be approved by the student's major adviser and forwarded to the Dean of the student's college.*

The required courses cannot be taken on a pass/fail basis. No single course may be counted in more than one Discovery discipline category. Academic departments may or may not permit Discovery courses to count toward requirements for a major. TSAS courses may not be used for general-education (1984-2009), writing-intensive, or foreign language requirements. TSAS courses that are 400-600 level and Discovery-approved may count for Discovery requirements. All Discovery courses carry 3-4 credits.

The most current list of Discovery courses may be found on the Registrar's Office website.

## Discovery Foundations Inquiry

All Inquiry courses must contain four individually necessary and collectively sufficient features:

Inspire curiosity: an Inquiry student will compose open-ended questions that lead to further investigation into increasingly focused problems and issues. Develop understanding and perspective: an Inquiry student will explain a central issue or question of the course using at least two unique perspectives. Clarify standards of thinking: an Inquiry student will be able to identify, compare, and evaluate different interpretations (hypotheses, explanations) of a given phenomenon. Create effective communicators: an Inquiry student will present in clearly organized form the results of the investigation into questions or problems the student has posed.

A complete list of Inquiry courses can be found on the Registrar's Office homepage.

### Writing Skills

Please refer to the [University Writing Requirement](#) section for complete information about this Discovery Foundation.

### Quantitative Reasoning

Quantitative reasoning refers to the ability to think critically and analytically using abstract formal methods with broad application. Mathematics is the foundation for the physical sciences and, increasingly, for the biological sciences. Its principles and processes illuminate significant aspects of the social sciences as well. In its most precise forms, it enables the design of bridges and the orbiting of satellites. Mathematics discloses invisible truths about the world, makes sense of patterns of which we may or may not be aware, and introduces some order to chaos. In its purest form, it creates its own world of beauty and logic. In its more applied forms, it attempts to make sense of individual and collective human behaviors and complex systems. Many courses listed under this category will help students appreciate the principles of mathematics and gain some skill in its applications to realistic situations, while other courses will introduce kindred subjects including symbolic logic, information theory, statistics, and computer science.

#### Student Learning Outcomes - Quantitative Reasoning

- Demonstrate proficiency in carrying out college-level mathematical procedures.
- Use college-level mathematical thinking to analyze situations and data and to solve

## Discovery in the Disciplines Biological Science

Biology is a branch of science that investigates the structure and function of living organisms. Scientists investigate ideas and observations that solidify our understanding of the diversity of life from single cells to complex organisms. Biology has deep relations with agriculture, chemistry, psychology, and many other fields of study, and it is the foundation of our knowledge of health and disease. Courses under this category deal with the basic structure and function of organisms, the interaction of organisms with their environment, human health, biotechnology, and the concepts and mechanisms of evolution as a fundamental biological paradigm. All courses will provide some

understanding of the methods of scientific inquiry and seek knowledge about the living world.

### Student Learning Outcomes - Biological Science (BS)

- Learn about aspects of the living world as described in the course description.
- Demonstrate an understanding of fundamental concepts in biological science.
  - [Additional Student Learning Outcomes for BS Discovery Lab \(DLAB\) courses](#)
- Communicate scientific material effectively in written and oral formats.
- Summarize, analyze, and evaluate scientific data.
- Explain how scientific hypotheses are tested or rejected.
- Master appropriate laboratory and field techniques commonly used in biology.

## Environment, Technology, and Society

The exponential growth of the sciences and engineering has bred an equally dramatic growth in technological advances. From the flint arrowhead to the latest communication device or weapon, human beings have been inventing things and transforming their lives, their societies, and their environments as they do. But they seldom foresee all the transformations and consequences their inventions bring about. This category stresses the interplay between at least two of these three realms: environment, technology, and society. Topics might include, but are not limited to, the history of a particular kind of technology (such as transport, fuel, writing, or weaponry), how technological change comes about in general, the scientific and/or social bases for a given technology, its impact for good or ill on human society and the natural environment, the effects of a changing environment on the arts and literature, and/or the ethical questions these topics raise.

### Student Learning Outcomes - Environment, Technology, and Society (ETS)

One or more of the following:

- Explore the social consequences of technological and/or environmental change.
- Master a technology described in the course description and evaluate its human impact.
- Consider the impact of various technologies on the environment.
- Understand the way the environmental challenges shape the development of technology.

## Fine and Performing Arts

The arts communicate through the intellect, the emotions, and the body, sometimes all at once, in ways simple and subtle, direct and subliminal, gentle and soul shaking. Understanding and appreciating the arts enriches our lives and preserves our cultural heritage for the future. Through its performances, publications, and exhibits, UNH offers many artistic experiences for students and the larger community, some of which are linked to courses under this category. Such courses, which may be about painting, sculpture, architecture, music, dance, theater, or film, will often include learning through practical experience.

### Student Learning Outcomes - Fine and Performing Arts (FPA)

One or more of the following:

- Develop an understanding and appreciation of differing forms of art expression such as music, visual art, theatre, or architecture.
- Develop skills in creative writing.
- Produce art in the studio, workshop, or theatre.

## Historical Perspectives

Even though we are faced daily with evidence of change in our social world and technology, we easily forget that how we live, where we live, and what we see around us are transient states of affairs. It is important to be able to look on one's own world with an imaginative grasp of its history and the forces behind that history. Courses under this category will give students the opportunity to learn about major historical developments and how these developments have shaped contemporary life in all its complexity. Through the study of particular periods and places, students will gain both "historical perspective" and some skill at the methods of historical inquiry. Common to all courses in historical analysis is the presumption that the categories of social analysis are themselves historical and historically contingent, and that to understand the past requires entering imaginatively into languages, institutions, and worldviews quite different from those of the present day.

### Student Learning Outcomes - Historical Perspectives (HP)

- Study the signature events that occurred within the time and geographical expanse specified in the course description.
- Explore the way primary sources reveal the ideas and values of people living in a different time and place.
- Appreciate human diversity through examination of class, race, and/or gender hierarchies of the past.
- Interpret the way past events and belief systems have contributed to and differed from the values and intuitions of the present.

## Humanities

The humanities arose in Renaissance universities as an alternative to theology and consisted mainly of Greek and Latin literature, which dealt with any and every aspect of human life; they became central to the liberal arts. Since the nineteenth century, the humanities also have embraced modern literature, the creative arts, philosophy, and history. They focus on questions about meaning, ethics, aesthetics, and the foundations of knowledge; they are as concerned with form as with content. Courses under this category explore major works, ideas, and traditions that have shaped our understandings of the world and our sense of self at different times and places while examining the distinctive methods of humanistic inquiry.

### Student Learning Outcomes - Humanities (HUMA)

- Engage with literary, philosophical, artistic and/or cinematic works that explore some aspect of the human condition.
- Pose questions about the nature of being, ethical imperatives, aesthetics, or epistemology.

- Write a critical essay investigating a focused question raised by a literary, philosophical, or artistic work.

## Physical Science

The physical sciences seek to discover the components, structures, properties, and laws of the material world from subatomic particles to the entire universe. Through them, we appreciate both the wondrous complexity of the world and its order. The traditional domains of chemistry, physics, astronomy, cosmology, and Earth sciences are the foundations of knowledge in numberless arenas of human activity, while the intersections between these domains and the biological sciences yield astonishing discoveries about living organisms. All courses will provide some understanding of the methods of scientific inquiry, seek knowledge about the physical universe, and evaluate claims in both technical literature and popular media.

### Student Learning Outcomes - Physical Science

- Learn about aspects of the physical world specified in the course description.
- Demonstrate an understanding of fundamental concepts in the physical sciences.
- Use mathematical models and computational thinking to understand the physical world.
- [Additional Student Learning Outcomes for PS DLAB courses](#)
- Communicate scientific information effectively in written and oral formats.
- Summarize, analyze, and evaluate scientific data.
- Explain how hypotheses are tested or rejected.
- Master appropriate laboratory and field techniques commonly used in physical science.

## Social Science

The social sciences investigate human beings and their societies from the smallest bands of hunter gatherers to huge nations and global institutions. Everything from marriage and kinship to law and crime, from ceremonial gift giving to mortgage derivatives, from witchcraft to health insurance, from ancient ritual to modern communication, is a subject of a social science. Courses under this category will explore different theories, methods, and data-gathering techniques as they apply to different social issues. They also will examine how individuals create, interact with, and are shaped by social groups and institutions, including those associated with politics, economics, religion, family, the arts, health, and education.

### Student Learning Outcomes - Social Science (SS)

- Apply quantitative and/or qualitative data to investigate the dynamics of social interactions.
- Develop testable hypotheses regarding the social and cultural world they examine.

## World Cultures

Living in a world of many cultures has created both cooperation and conflict across borders, between and within nations. This category, which includes intermediate language courses and approved study abroad programs, encourages students to become cosmopolitan citizens by gaining knowledge and understanding of cultures other than those of the United States. Students will learn to recognize others' values and, ultimately, accept the many ways in which we all are human. They are thus encouraged to see their own culture with fresh eyes and know the sheer diversity of human outlooks.

### Student Learning Outcomes - World Cultures (WC)

- Explore human diversity by studying societies and cultures outside the United States.
- Recognize the diversity and validity of unfamiliar cultural values.

## Discovery Lab (DLAB)

A course that fulfills the laboratory requirement in the Discovery Program should provide students with hands-on experience that reinforces, supports, and/or augments the material presented in other formats throughout the course. It should teach them how the discipline uncovers and validates knowledge; how phenomena are understood through observation, experimentation, and quantitative analysis; how data are collected and interpreted; and how hypotheses are created, tested, modified, confirmed, or invalidated. These experiences also are likely to provide insights into how scientific theories and models are constructed. A significant portion of specified course time must be devoted to laboratory and laboratory-related activities. For example, a conventional model for a 4-credit laboratory course consists of three 50-minute (or two 75-minute) weekly lecture periods plus one 80-minute weekly laboratory period. However, courses may include different and/or innovative laboratory experiences provided the total amount of course and laboratory time is comparable.

### Student Learning Outcomes - Discovery Lab (DLAB)

- Explain phenomena through observation, experimentation, and quantitative analysis.
- Collect and interpret data.
- Create, test, modify, confirm or invalidate hypotheses.
- Master appropriate laboratory and field techniques used in the biological and physical sciences.
- Communicate scientific material effectively in written and oral formats.

## Discovery Program courses

The complete list of Discovery courses can be found on the [Registrar's Office](#) website.

## Majors, Minors, and Options

Majors and interdisciplinary minors are described at the college and department locations in this catalog.

## Student-Designed Majors

Under special circumstances, students may design their own majors. This option is offered for highly motivated and self-disciplined students who seek a course of study that is not available through existing programs at the University. It allows students, with the close supervision of faculty members, to cross department and college lines and to create educational experiences on and off campus as part of individual programs of study.

Student-designed majors are administered by a committee of elected faculty that operates through the Office of the Provost and Vice President for Academic Affairs. Students who want to design their own majors are required to give the committee evidence of careful thought and planning in a proposal.

Fall submissions are due by October 15 of the student's junior year. Proposals are only reviewed once a semester. Spring submissions are due by February 25. The committee will convene soon after the deadline to review the proposals. Under no circumstances will the committee consider a senior year proposal.

Proposal guidelines are available in the Office of the Provost and Vice President for Academic Affairs and on the Academic Affairs website, <https://www.unh.edu/provost/student-designed-majors-sdm>.

## Second Majors

Bachelor's degree students may choose to fulfill the requirements of two dissimilar major programs, provided they obtain the approval of the second major department and the dean of the college in which the second major is offered, and comply as follows:

If the two majors are offered in different schools or colleges within the University, the admissions requirements of each must be satisfied.

If the two majors have two distinct degrees; e.g., B.A., B.S., or some other designated degree, students must choose which of the two degrees is to be awarded and fulfill all requirements for that degree.

No more than 8 credits used to satisfy requirements for one major may be used as requirements for the other major.

## Minors

Bachelor's degree students may earn a minor in any undergraduate discipline designated by the University. A list of minors is available from the advising coordinator in each college or school (or see the program descriptions for each college or school in this catalog). Students must consult with their major adviser and also the minor supervisor. A minor typically consists of 20 credits with C- or better and a 2.0 grade-point average in courses that the minor department approves. Courses taken on a pass/fail basis may not be used for a minor. No more than 8 credits used to satisfy major requirements may be used for the minor. During the student's final term, an application should be made to the dean to have the minor shown on the academic record.

## Options

Some degree programs offer a selection of options (e.g., Arts: Art History or Arts: Studio Art through the Department of Art and Art History). These options allow students to specialize within a discipline. The choice of option is recorded on the student's transcript.

## University Writing Requirement

In 1995, the Academic Senate established the Writing Program as an expression of the following fundamental values and goals for writing at UNH: *As the cornerstone of any higher education, academic and disciplinary literacy is the concern of the entire faculty and the whole University curriculum. Understanding that literacy is a long-term development process, the University community is committed to the following goals for student writing and learning:*

- *Students should use writing as an intellectual process to learn material and to discover, construct, and order meaning.*
- *Students should learn to write effectively in various academic and disciplinary genres for professional and lay audiences.*
- *Students should learn to display competence with the generic features and conventions of academic language.*

In order to help realize the above goals, writing intensive (WI) courses were established as well as the University Writing Requirement (UWR).

## Writing-Intensive (WI) Courses

WI courses are identified by "Writing Intensive Course" in the "Attributes" section of the course descriptions.

See CEP 795W below for an example:

### CEP 795W (01) - Investigations

**Credits:** 2.0 to 4.0

**Term:** Fall 2017 - Full Term (08/28/2017 - 12/08/2017)

**Class Size:** 5

**CRN:** 12453

Special assignments in readings, investigations, or field problems, or teaching experience. May be repeated. Prereq: permission. Writing intensive.

See instructor for permission then sign up in the dept office before registering through WEBCAT.

**Attributes:** Writing Intensive Course

**Instructors:** STAFF

Some courses have both writing-intensive and nonwriting-intensive versions, such as HIST 405 History of Early America and HIST 405W History of Early America. In these cases, only the sections with the "W" in the course number are writing intensive.

A periodically updated [master list of WI courses](#) is available. Course attributes can change, so students should make sure to consult the course description for real-time information on WI status when they enroll. Not all courses are offered every semester, so for advance course planning students should consult with their advisors or the owning department.

## University Writing Requirement (UWR)

All bachelor's degree candidates are required to complete four writing-intensive courses, which must include ENGL 401 First-Year Writing and three additional writing-intensive courses, one of which must be in the student's major, and one of which must be at the 600 level or above.

**Frequently Asked Question:** "Can the same course satisfy the course-in-the-major requirement and the 600-level or above requirement?"

**Answer:** Yes, one course can satisfy both of these requirements (see pattern B below), but the course would only count as one of the three WI courses needed. In this case, the student would need to take two other

WI courses (in addition to ENGL 401) to satisfy the requirement. Thus, a complete WI sequence would conform to one of the two generic patterns below:

**A) Separate Courses for the 600+ Level and in the Major Requirements**

1. ENGL 401
2. WI in the Major (any level)
3. WI @600+ level (any)
4. WI (any)

**B) The Same Course for the 600+ Level and in the Major Requirements**

1. ENGL 401
2. WI in the Major @600+ level
3. WI (any)
4. WI (any)

Note: the numbers in the above examples are for reference and don't reflect a required sequence. A particular major may have more specific requirements that may depart from the above models.

The Rationale for Writing and Learning at UNH acknowledges that the WI course structure provides a minimum framework for writing in the curriculum and that there will be writing in non WI-designated courses.

The Writing Committee's position is that WI Course Attributes are definitive and that only courses bearing the WI Attribute will count for the WI requirement. In short, students are expected to enroll in UNH WI-designated courses to satisfy the WI requirement.

<https://www.unh.edu/writing/>

# College of Liberal Arts

Michele Dillon, Dean

Jenni Cook, Associate Dean

Scott Weintraub, Faculty Fellow

It is the purpose of the College of Liberal Arts, as a center of learning and scholarship, to help students achieve an understanding of the heritage of civilization and to educate them in the tradition of the past and realities of the present so they may recognize and act upon their obligations to the future.

The college seeks to meet the educational needs of each student through the development of interests and skills, which, combined with the individual's potential, make possible a richer, more useful life.

## Degrees

### Bachelor of Arts

These programs primarily provide a broad liberal education along with depth in a major. Requirements for the bachelor of arts degree and information regarding the majors that lead to a bachelor of arts are presented under [Degrees](#) (p. 26) and [Programs of Study](#) (p. 36).

### Bachelor of Fine Arts

This curriculum provides training for students who plan to enter a professional graduate school. Requirements for the bachelor of fine arts degree are outlined under [Programs of Study/Art and Art History](#) (p. 44).

### Bachelor of Music

This curriculum provides professional training in performance, composition, music education, and music pre-teaching and allows students to develop their talent to a standard equivalent to the one achieved at conservatories of music. Requirements for the bachelor of music degree and information regarding the curriculum are presented in [Programs of Study/Music](#) (p. 103). Degrees include Music Education, Pre-Teaching, Performance and Composition.

### Bachelor of Science

This curriculum provides strong preparation for entry into graduate programs in neuroscience, behavior, pharmacology and medicine. Requirements for the bachelor of science degree and information regarding this major are presented under [Degrees](#) (p. 26) and [Programs of Study/Neuroscience and Behavior](#) (p. 114).

The [homeland security major](#) (p. 448), offered on both the Durham and Manchester campuses, also leads to a bachelor of science degree.

## Combined Programs of Study

In addition to pursuing a single major, students may combine programs of study as follows (See [University Academic Requirements](#) (p. 24) for details):

**Minors:** Students may pursue one or more minors, each typically comprised of 5 courses. Minors are available in nearly every discipline within the College of Liberal Arts.

**Cognates:** Students may pursue one or more cognates, each typically comprised of 3 courses and intended to develop career-oriented skills. The list of cognates and their requirements are found under [Cognates](#) (p. 52).

**Second majors:** Students may choose to fulfill the requirements of two dissimilar major programs.

**Dual majors:** Students may choose to fulfill the requirements of a dual major, typically comprised of 8 courses. Dual majors are designated programs that must be paired with another major of any discipline. Dual majors in the College of Liberal Arts are [educational studies](#) (p. 61), [humanities](#) (p. 91), [international affairs](#) (p. 92) and [justice studies](#) (p. 97).

See [Special University Programs](#) (p. 392) for information about the Sustainability dual major.

**Student-designed majors:** Under special circumstances, students may design their own majors.

**Dual-degree programs:** Students may choose to fulfill the requirements of two separate degrees, such as a B.A. and a B.S.

**Interdisciplinary opportunities:** See the [Interdisciplinary Studies](#) web page for the complete list of interdisciplinary programs within the College of Liberal Arts.

## Proficiency in a Foreign Language

Please see the explanation of this University requirement under [Degrees](#) (p. 26): Bachelor of Arts.

Within the College of Liberal Arts, only those students majoring in linguistics, psychology, sociology, theatre and dance, or women's and gender studies may use American Sign Language (ASL) to fulfill their foreign language proficiency requirement. English teaching majors who plan to pursue deaf studies may petition the English department to use ASL to fulfill their foreign language proficiency requirement.

## COLA Study Abroad

[cola.unh.edu/cola-study-abroad](http://cola.unh.edu/cola-study-abroad)

The College of Liberal Arts offers a number of managed study abroad programs that are administered by college faculty and the College of Liberal Arts. These programs provide opportunities for liberal arts students as well as students in other colleges to experience and learn about different cultures and, in non-English-speaking countries, to increase proficiency in a foreign language.

Because the college administers these programs, registration, finances, and other logistics are streamlined and simple. Students pay UNH tuition and a single program fee, which covers housing, excursions, and, in some cases, board. Most UNH student fees are waived with the exception of the technology fee, a study abroad administration fee, and an international travel insurance fee. Students are eligible for federal financial aid for the semester-long programs.

Please see the list of eligibility requirements under [Study Abroad Programs](#) (p. 385).

To learn more about any of the programs, contact the program director listed on the website for each program or Mike Merrill, the study abroad advisor at [michael.merrill@unh.edu](mailto:michael.merrill@unh.edu).

## Career and Professional Success

[cola.unh.edu/careers](http://cola.unh.edu/careers)

The College of Liberal Arts is committed to helping students achieve success in their career and professional endeavors. From one-on-one career counseling appointments to internship placements and employer visits to campus, the Career and Professional Success office supports students with the tools and resources to secure meaningful, impactful, and rewarding careers.

The Career and Professional Success office is located at 102 McConnell Hall.

## Research Centers

### Center for the Humanities

[cola.unh.edu/center-humanities](http://cola.unh.edu/center-humanities)

The Center for the Humanities fosters excellence in the humanities, broadly conceived, at the University of New Hampshire. Center resources and programs support faculty research, encourage reflection and inquiry across the University community and beyond, create interdisciplinary initiatives in many forms, and undertake special projects to raise the visibility of the humanities. To accomplish this, the center endeavors to support the highest quality work by UNH humanities faculty, to build productive collaboration among faculty, to create singular projects that advance its goals, and to be a center of innovation, planning and inspiration for the humanities at the University of New Hampshire. By pursuing its goals, the center supports the University's research mission in particular, as well as its academic plan.

The center is the sponsor of the Saul O Sidore Memorial Lectures and the James H. and Claire Short Hayes Chair in the Humanities.

### Crimes Against Children Research Center

[www.unh.edu/ccrc](http://www.unh.edu/ccrc)

The Crimes Against Children Research Center (CCRC) is concerned with all forms of crimes against children and adolescents, from birth through age 17, both within and outside the family, both known and unknown to law enforcement. These include criminal acts as defined by law, such as sexual assault, abduction, theft, robbery and aggravated assault against children. But it also includes child abuse in all its forms—physical, sexual, emotional—and child neglect, as well as child-to-child violence, such as peer and sibling assaults and bullying. It also includes indirect victimization, where children witness or are affected by the crime victimization of a family member or friend.

The CCRC, created in 1998, grew out of and expands upon the work of the UNH Family Research Laboratory, which has been devoted to the study of family violence and related topics since 1975. Associated with the center is an internationally recognized group of experts who have published numerous books and articles concerning the incidence and impact of violence against children.

CCRC staff has contributed to many pioneering national crime studies, including National Incidence Study of Missing, Abducted, Runaway and Thrownaway Children; National Family Violence Survey; National Youth Victimization Prevention Survey; National Survey of Sexual Abuse in Day Care; Developmental Victimization Survey; Youth Internet Safety Surveys; and Multisite Evaluation of Children's Advocacy Centers.

The CCRC is directed by David Finkelhor, who is also the director of the Family Research Laboratory and professor of sociology at the University of New Hampshire. Finkelhor has been researching criminal violence

against children since 1978 and is the author and editor of 12 books and more than 100 articles on the subject.

### Family Research Laboratory

[cola.unh.edu/family-research-laboratory](http://cola.unh.edu/family-research-laboratory)

Since 1975, the Family Research Laboratory (FRL) has devoted itself primarily to understanding family violence and the impact of violence in families. As public and professional interest in family violence has grown, so has the need for more reliable knowledge. The FRL seeks to fill that need through comprehensive literature reviews, new theories and methodologically sound studies. Researchers at the FRL pioneered many of the techniques that have enabled social scientists to estimate directly the scope of family violence. These efforts have brought international recognition to the FRL.

The FRL is unusual among research centers in the field because it addresses all aspects of the family, violence and abuse. Topics undertaken by the FRL include physical abuse of children, corporal punishment of children, sexual abuse of children, physical abuse of spouses, dating violence, abuse of the elderly, intra-family homicide, rape and marital rape, violence between siblings, peer victimization of children, pornography, and missing and abducted children. This variety of topics is a result of beliefs that have guided FRL research: that various forms of family problems are interrelated, that conflict is as basic to family life as are love and cooperation, and that much of the conflict and violence in the world outside the family can be traced to roots within the family. This holistic view of family violence has contributed both diversity and richness to the FRL's work.

The FRL's prominence in the field is in part a result of the large number, variety and scope of its publications. In a span of 10 years, FRL staff members have published more than 45 books and more than 740 articles on family violence.

The FRL is housed in a suite of offices in McConnell Hall. The FRL is directed by David Finkelhor, professor of sociology and director of the Crimes Against Children Research Center.

### The Survey Center

[cola.unh.edu/survey-center](http://cola.unh.edu/survey-center)

The UNH Survey Center is a full-scale, non-partisan academic survey research center, committed to providing university researchers, government and business leaders, and private organizations with reliable information about public attitudes concerning important policy matters. It is nationally known for its public opinion and political polling for CNN, Fox News and WMUR-TV.

The UNH Survey Center has conducted survey research projects at the University of New Hampshire since 1986: state, regional and national general population surveys based on probability sampling; surveys that target specific populations; surveys that utilize complex stratified sampling techniques; and panel studies. The Survey Center conducts telephone, mail and web surveys, as well as focus groups and other qualitative research projects.

The UNH Survey Center is located at 9 Madbury Road, Suite 401 and features a 41-station Computer-Assisted Telephone Interviewing (CATI) system. The Survey Center is directed by Andrew E. Smith, who is also associate professor of practice in political science.

## Related Research Centers

### Carsey School of Public Policy

[carsey.unh.edu](http://carsey.unh.edu)

The Carsey School of Public Policy at the University of New Hampshire is a nationally acclaimed resource for research, leadership development and engaged scholarship relevant to public policy. The school's activities address the most pressing challenges of the twenty-first century, striving for innovative, responsive and equitable solutions at all levels of government and in the for-profit and nonprofit sectors. Faculty and students throughout the College of Liberal Arts serve as staff, fellows, researchers and assistants in the school.

### Prevention Innovations Research Center

Prevention Innovations Research Center is a research center at the University of New Hampshire made up of researchers and practitioners who work collaboratively to develop and evaluate prevention strategies, evidence-based measures to document the problems of sexual and relationship violence, stalking and harassment, and comprehensive community tools to effectively address the causes of violence. The Prevention Innovations Research Center (PIRC) assists high schools, colleges and universities, the United States Military and federal, state and local researchers and practitioners to develop, evaluate and implement model policies, procedures and programs to end sexual and relationship violence, stalking and harassment. PIRC plays a prominent role in working with New Hampshire criminal justice, advocacy and crisis organizations and state offices.

The Prevention Innovations Research Center is recognized for its groundbreaking research in the field of sexual violence prevention and response. PIRC has conducted first-of-its-kind research on campus violence, LGBTQ+ victimization, the economic cost of sexual violence and community responsibility in violence prevention. The center's staff and fellows are nationally and internationally recognized leaders in prevention and response who design and provide cutting-edge contributions to evidence-based practices in prevention and make significant contributions to scholarship, programming and policy making in the field. Their efforts emphasize the importance of using a community bystander focus while examining the continuum of violence.

A cornerstone of PIRC's mission is to mentor the next generation of researchers and practitioners. The Susan Schechter Domestic and Sexual Violence Social Justice Laboratory (Schechter Lab) is an interdisciplinary research laboratory within the Prevention Innovations Research Center where undergraduate and graduate students earn academic credit for their role as research assistants and work with members of the staff on their research, report writing and publications. The Sharon B. Murphy Scholarship supports undergraduate and graduate student scholarship in the fields of domestic and sexual violence and stalking for work within the Schechter Lab.

PIRC works with practitioners and community partners to implement and refine approaches to prevention and response. This collaborative approach has contributed significantly to scholarly research, practice literature, institutional responses to sexual and relationship violence, sexual harassment and stalking, and technology transfer. PIRC provides effective, research-informed solutions to create safe, equitable environments.

## Academic and Cultural Centers

### Global Racial and Social inequality lab

[cola.unh.edu/global-racial-social-inequality-lab](http://cola.unh.edu/global-racial-social-inequality-lab)

The Global Racial and Social inequality lab (GRSIL) is a dynamic site of research, pedagogical and community engaged activity. Faculty and students (undergraduate and graduate) already working on or interested in projects that variously engage with racial and social inequality are invited and encouraged to participate in the GRSIL. Additionally, the Lab encourages faculty and student engagement on these thematic areas by incentivizing new and continuing research on such topics and with the intention to apply for external funding to support this research. The Lab provides pedagogical workshops on evolving best practices in creating inclusive syllabi and inclusive classrooms, as well as provides a venue for open discussion of complex issues. Additionally, the GRSIL serves as the administrative home of COLA's many interdisciplinary minors focused on inequality. The Lab uses its analytical expertise to facilitate community partnerships, develop internships and expand our collaborative relationships with community colleges and non-profit community organizations in the region.

### Museum of Art

[cola.unh.edu/museum-art](http://cola.unh.edu/museum-art)

The Museum of Art serves as the New Hampshire Seacoast's premier public art museum and, for more than 50 years, has remained a vital resource for the visual arts, serving the University, local, and regional communities. Visitors and members gather to enjoy a wide variety of changing exhibitions, as well as annual exhibitions featuring UNH studio faculty and student work. Exhibitions of outdoor sculpture by regional artists are shown regularly in the Mills Courtyard. Accompanying programs include gallery talks, lectures, concerts, family programs and special events. The museum's summer Art Camp provides K-12 students with quality hands-on visual arts and instruction.

The museum's diverse permanent collection includes more than 1,800 works of art, from prehistoric to contemporary. The works are exhibited in the galleries and the Collection Study Area on a regular basis and are also used by faculty, students and scholars for teaching, research and interdisciplinary study.

Located in the Paul Creative Arts Center, the museum is open to students, faculty, museum members and the general public free of charge. For more information, call (603) 862-3712 or visit [cola.unh.edu/museum-art](http://cola.unh.edu/museum-art).

## Africana and African American Studies Minor

<https://cola.unh.edu/interdisciplinary-studies/program/minor/africana-african-american-studies>

### Description

The Africana and African American studies minor (AFAM) encompasses the multidisciplinary, comparative and global study of peoples and cultures of Africa and its Diasporas. Diaspora is defined by dispersals and mobilities of populations, the result of exploration, migration and or coercion. African Diaspora communities exist everywhere, from Europe, the Middle East and Asia, to South and North America. We consider how Africana heritage and culture is shaped by these long-standing, long-range networks and connections between diverse places, making our focus importantly geographic and our content intrinsically cosmopolitan.

We foreground the experiences of African, African Diaspora and African American communities in our research, teaching and engagement. We consider how understanding exceptional experiences and histories of exclusion and communion can inform work for building a more sustainable, equitable and just world.

Blackness is a primary root for study and practice in the AFAM minor at UNH. Notwithstanding complex historic antecedents of race and racism, we consider how Blackness (/blackness) first consolidated as racial phenomena in the fifteenth century through global commodity capitalism. In this process, the modern enslavement and worldwide dispersal of African peoples arguably made up the first historic articulations of Blackness, the first major instance of globalization and one of the worst tragedies of human history with which we still reckon today. Throughout this history, the meanings and operations of race and racism in local contexts have not been altogether uniform but nonetheless reveal common dynamics of Black peoples' marginalization and structural dispossession of sociocultural, political and material resources.

In this root, AFAM students learn about varieties of historic and contemporary Blackness and what it means to be Black (/black): as lived experience, categorical attribution and aspect of intersecting identities; as creatively spiritual, aesthetic, and discursive expression and media; as antiracist reclamation and foundation for agency, activism and sociopolitical mobilization; and as a fount for queerness, love, joy and liberation. Our students and faculty consider how Blackness and or Black experiences are multidimensional and multivalent, subject to ongoing clarification within and among diverse communities worldwide, and differently and lyrically voiced and performed for multiple means and

ends. We consider how Blackness entails an existential and practical quest for freedom from oppressive orders and boundary-making.

The AFAM program has a strong focus on coursework and research on African American and or Black peoples in the United States, as their cultures and history have been integral to the development of the nation-state and also highlight the country's problems and promises. The program also offers many courses on the cultures and history of Africa and its other Diaspora communities. Our courses range from the humanities to the social and natural sciences, and our approaches and methods are applicable to virtually all areas of study at UNH. Students are encouraged to take courses from a variety of disciplines. The minor therefore is designed to serve the needs of all students, regardless of their background, and to complement their work in their major fields of study.

Our program faculty's interests lie in: histories and dynamics of enslavement; socioeconomic inequalities implicating class, race, ethnicity, gender, sexuality and age; Black women's livelihoods and social movements; critical and liberatory approaches to education and pedagogy; intertextual and sociohistorical approaches to Africana poetry and literature; kinship, family and human development studies in cultural and historic context; Africana spirituality and religions; and geographies and politics of African and Diaspora communities and nation-states.

We maintain close intellectual and practical solidarities with UNH's Center for the Humanities, Department of Women's and Gender Studies, and other interdisciplinary minor programs in American studies, Native American and Indigenous studies, queer studies, and race and ethnic studies. Our program faculty also maintain ties with Black educational and community organizations, such as the Seacoast African American Cultural Center, Black Heritage Trail of New Hampshire and others in the region.

AFAM consists of five, 4-credit courses (or any course combination for 20 credits total). These include (1) one 400 or 500 level introductory course taught by a program faculty member, (2) other approved elective courses related to the student's choice of concentration, and (3) one course at the 600 or 700 level, also taught by a program faculty member. Students must earn a C- or better in each course, and maintain a 2.0 grade-point average in courses taken for the minor.

The introductory course is meant to provide students with a general understanding of subjects and areas within the broader and related fields African, African Diaspora, African American and Black studies. Electives enable students to explore their interests and or develop greater understanding and synthesis of these subjects and areas. The program keeps a list of approved and consistently offered elective courses. Each semester the program coordinator and program assistant compiles and posts all courses that can count toward the minor on our webpage. Study abroad credits may also count with permission from the coordinator or other program faculty.

The upper-level course requirement is meant to be a culmination of a student's work in the minor and a key conversation point with program faculty about future research and graduate study, community engagement and career options. Students should arrange to meet with the faculty teaching this course early in the semester to establish goals for this culminating experience.

Students can also pursue independent study and internship options as well for their elective or upper-level course requirement, with on-campus or community organizations such as the UNH Bearegard Center or Black Students Union, Seacoast African American Cultural Center,

Black Heritage Trail of New Hampshire or local chapters of national organizations. These options are supervised by program faculty and may be taken under the AFAM or other departmental codes.

## Requirements

Code	Title	Credits
<b>Introductory Course</b>		<b>4</b>
Select from the following		
ANTH #450	Introduction to Race, Culture, and Power	
ANTH 500	Peoples and Cultures of the World (Only topic D: Sub-Saharan Africa)	
ENGL #517	Black Creative Expression	
ENGL 549	In the Groove: African American Music as Literature	
GEOG 550	Sub-Saharan Africa: Environmental Politics and Development	
HIST 444D	Slavery and Society in Pre-Colonial Africa	
HIST 505	African American History	
HIST #506	African American History	
HIST 588	History of Modern Africa: 1870 to the Present	
<b>Pre-Approved Elective Courses</b>		<b>12</b>
Select from the following		
CLAS 550B	Identities and Difference in the Ancient World: Slaves and Masters	
CLAS 551	Race, Ethnicity, Class & Classics	
CMN 567	Gender, Race, and Class in the Media	
EDUC 797	Special Topics in Education (Only topic: Teaching Race)	
ENGL 440A	On Race in Culture and Society	
or ENGL #441	On Race and Culture in Society	
ENGL 550	Introduction to the Literature and Culture of Race	
ENGL 581	Reading the Postcolonial Experience	
ENGL 681	Contemporary African Literature	
ENGL 693	Special Topics in Literature (Only topic: African American Writers)	
ENGL 774R	Modern & Contemporary British Literature: New Departures (Only topic: Black British Writing)	
ENGL 778	Race and Gender in Film and Popular Culture	
ENGL 787	English Major Seminar (Only topic: Slavery and Culture)	
FREN 765	Rebellion and Upheaval in 18th-Century Literature and Culture	
GEOG 402	World Regions: Asia and Africa	
HIST 440A	Martin Luther King, Jr., and the Struggle for Racial Justice	
HIST 440D	Honors/Citizens and Persons	
HIST 587	History of Africa from the Earliest Times to 1870	
HIST #611	Civil War Era	
HIST 690	Seminar: Historical Expl (Only topic: Race in 20th Century America)	
HDFS 757	Race, Class, Gender, and Families	
MUSI 460	Jazz Band <sup>1</sup>	
MUSI 463	Jazz Combo <sup>1</sup>	
MUSI 562	Jazz Piano <sup>1</sup>	
MUSI 563	Jazz Guitar <sup>1</sup>	
MUSI 762	Jazz Piano <sup>1</sup>	
MUSI 763	Jazz Guitar <sup>1</sup>	
PHIL 780	Special Topics (Only topic: Race, Gender and Social Justice)	
PSYC 791	Special Topics (Only topic: Race, Power and Culture)	
SOC 530	Race and Racism	
WS 401	Introduction to Women's Studies	
WS 405	Gender, Power and Privilege	
WS 444A	Race Matters	
WS 505	Survey in Women's Studies	
WS 798	Colloquium	
<b>One Upper-Level Course with Program Faculty <sup>2</sup></b>		<b>4</b>
Select from the following		
ANTH 680	Africana Religions: Mobility, Power, and Material Culture	
ANTH 685	Gender, Sexuality and HIV/AIDS in Sub-Saharan Africa	
ANTH 695	Globalization and Global Population Health	
ENGL 650	I Hear America Singing: Studying American Literature and Culture	
ENGL 787	English Major Seminar (Only topic: Black New England)	
GEOG 685	Population and Development	
HIST 600	Explorations (Only topic: Black and Indigenous NH)	
HIST 797	Colloquium (Only topic: Slavery, War and Emancipation)	
SOC 645	Class, Status and Power	

SOC 745	Race, Ethnicity, and Inequality
<b>Total Credits</b>	<b>20</b>

<sup>1</sup> May require audition with the Music Department

<sup>2</sup> Internship and other courses with program faculty may also apply here

## American Studies (AMST)

### Programs

- [American Studies Minor](#) (p. 38)

## American Studies Minor

<https://cola.unh.edu/interdisciplinary-studies/program/minor/american-studies>

### Description

American studies is the interdisciplinary examination of American life and culture at regional, national, and international scales. It integrates perspectives from a wide variety of disciplines, including history, English, communications, political science, geography, sociology and the arts.

At UNH, the American studies minor is an individualized program of study that allows each student to choose from a broad range of courses offered by several different departments that best match their interests and needs. It is intended to encourage students with particular interests in the United States to develop those interests and learn more about the country from a variety of perspectives.

### Requirements

To earn a minor in American studies, students must complete five courses approved to satisfy minor requirements. At least one of those courses must concentrate on issues of race, gender, or ethnicity. No more than three courses may be at the 400 or 500 level, and no more than two courses may be taken in the same department. Students must earn a C-minus or better for a course to count toward minor requirements and must maintain a 2.0 grade point average in all courses taken for the minor.

## Courses

Code	Title	Credits
ANTH 697	Special Topics	4
ARTH 693	American Art	4
CMN 505	Analysis of Popular Culture	4
CMN 607	Persuasion in American Politics	4
CMN #757	Public Address and the American Experience	4
EDUC #717	Growing up Male in America	4
ENGL #517	Black Creative Expression	4
ENGL 738	Asian American Studies	4
ENGL 739	American Indian Literature	4
HIST 405	History of Early America	4
HIST 406	History of the Modern United States	4
HIST 410	Historic Survey of American Civilization	4
HIST #506	African American History	4
HIST 600	Explorations	4
HIST 603	European Conquest of North America	4
HIST #611	Civil War Era	4

HIST 613	American Ways of War	4
HIST 618	American Environmental History	4
HIST #622	History of American Thought	4
HIST 620	Foreign Relations of the United States	4
ITAL 444A	Italians Come to America: Representing Emigration and Immigration on Both Sides of the Atlantic	4
MUSI 405	Survey of Music in America	4
NR #701	Ecological Sustainability and Values	4
POLT 402	American Politics and Government	4
POLT 403	United States in World Affairs	4
POLT 500	American Public Policy	4
POLT 508	Supreme Court and the Constitution	4
POLT 523	American Political Thought	4
RMP 511	Issues of Wilderness and Nature in American Society	4
THDA 450	History of Musical Theatre in America	4
WS 405	Gender, Power and Privilege	4

## Anthropology (ANTH)

Anthropology is a field of visionaries, makers and collaborators, taking a critical, creative and holistic approach to the study of humankind. Our faculty teach hands-on courses in archaeology and socio-cultural, applied, biological and forensic anthropology, reflecting our faculty members' research in the Americas, Europe, Africa, and Central and Southeast Asia. Through coursework, fieldwork and study-abroad experiences, students gain life-long learning skills that prepare them for success in cross-cultural understanding and communication, working for diverse organizations and tackling complex social issues in today's global world. Our students are employed in a range of areas such as public health, business, international development, museums and education.

## Anthropology Major (B.A.)

<https://cola.unh.edu/anthropology/program/ba/anthropology-major>

### Description

Anthropology asks the question: What does it mean to be human? We answer this fundamental query with a global perspective on the human condition as students explore both the similarity and diversity of human experience. Through courses that cover a wide range of societies throughout the world, we investigate the human condition, past and present. Introductory courses provide an overview of the fields of anthropology: social and cultural anthropology, archeology, physical anthropology and linguistics. More advanced courses provide the opportunity for students to pursue intensive study of particular topics in cross-cultural perspective. The department emphasizes critical thinking and writing skills and encourages close faculty/student contact in seminar courses and at the upper level. Students, in consultation with

their academic adviser, have the opportunity to take courses in other departments that complement specific foci in anthropology.

At this time of increasing globalization, anthropology provides students with a broad overview of diverse peoples and cultures. Majors are therefore well prepared to live in a rapidly changing world. The major both prepares students for graduate-level studies and serves as a foundation for a wide range of careers. With backgrounds in anthropology, our students become teachers, social workers, public policy experts, forensic investigators, health practitioners, primatologists, international business executives, and community and economic development specialists, as well as pursuing various other careers.

To declare a major in anthropology, students must have completed at least one introductory level anthropology course at the 400 or 500 level with a grade of C or better.

## Requirements

Majors must complete a minimum of 40 credits in anthropology with grades of C or better and in accordance with the following requirements:

Code	Title	Credits
<b>Required Courses</b>		
ANTH 411	Global Perspectives on the Human Condition: An Introduction to Anthropology	4
or ANTH 412	Broken Pots and Buried Cities: Introduction to World Archaeology	
or ANTH 415	The Human Story: Evolution, Fossils and DNA	
ANTH 500	Peoples and Cultures of the World	4
or ANTH 501	World Archaeological Cultures	
ANTH 511	Core Concepts in Anthropology	4
ANTH 513	Ethnographic Methods	4
or ANTH 514	Method and Theory in Archaeology	
ANTH 611	History of Anthropological Theory	4
<b>Electives</b>		
One additional course numbered 500 or above		4
Three additional courses numbered 600 or above		12
<b>Capstone Requirement</b>		
ANTH 750	Islam and Gender: Gendered Lives of Muslims	4
or ANTH 785	The Anthropology of Dreams and Dreaming	
or ANTH 797	Advanced Topics	
<b>Total Credits</b>		<b>40</b>

(Note: While 8 credits, ANTH 699 Senior Thesis and ANTH 699H Honors Senior Thesis count only as one ANTH 600-level course requirement.)

The Discovery Program capstone requirement may be fulfilled by completing one 700-level course (seminar format).

Other courses, internships, or experiences may be substituted with the permission of the student's adviser and anthropology department chair.

The required minimum overall GPA in major coursework is 2.0.

Anthropology majors may use one major-required course to satisfy one Discovery category requirement. Candidates for a degree must satisfy all of the University Discovery Program requirements in addition to satisfying the requirements of each individual major program. Bachelor of arts candidates must also satisfy the foreign language proficiency requirement. American Sign Language may not be applied toward the foreign language requirement.

Honors-in-major and senior thesis options are available.

Students who declare a major in anthropology are expected to make steady progress toward fulfillment of major requirements. Normally, this

means taking at least one anthropology course per semester until all of the requirements have been met. A student who has fulfilled most of the major requirements may request an exception to this policy from his or her adviser.

Students wishing to major in anthropology should consult with the anthropology chairperson.

## Degree Plan

Below is a general degree plan that we recommend anthropology majors follow as they plan their course schedules for their major course requirements over their four years at UNH. This general plan provides a recommended pace and appropriate order for the core courses offered in the major.

Course	Title	Credits
<b>First Year</b>		
ANTH 411	Global Perspectives on the Human Condition: An Introduction to Anthropology	4
or ANTH 412	Broken Pots and Buried Cities: Introduction to World Archaeology	
or ANTH 415	The Human Story: Evolution, Fossils and DNA	
ANTH 500	Peoples and Cultures of the World	4
or ANTH 501	World Archaeological Cultures	
ANTH 511	Core Concepts in Anthropology	4
<b>Credits</b>		<b>12</b>
<b>Second Year</b>		
ANTH 513	Ethnographic Methods	4
or ANTH 514	Method and Theory in Archaeology	
One ANTH 500-level or above course		4
One ANTH 600-level course		4
<b>Credits</b>		<b>12</b>
<b>Third Year</b>		
ANTH 611	History of Anthropological Theory	4
One ANTH 600-level or above course		4
One ANTH 600-level or above course		4
<b>Credits</b>		<b>12</b>
<b>Fourth Year</b>		
ANTH 699	Senior Thesis (optional)	4-8
ANTH 750	Islam and Gender: Gendered Lives of Muslims	4
or ANTH 785	The Anthropology of Dreams and Dreaming	
or ANTH 797	Advanced Topics	
<b>Credits</b>		<b>8-12</b>
<b>Total Credits</b>		<b>44-48</b>

## Student Learning Outcomes

- Demonstrate ability to conduct anthropological research: to collect primary and secondary source data in the observation, documentation, or excavation of human actions, languages, remains, and/or material artifacts.

- Master the ability to write with an anthropological lens: to critically analyze data with respect to historical and current anthropological theories and perspectives, and to construct persuasive arguments.
- Exhibit skills in presentation of anthropological research: in writing (ethnography, technical reports, and other genres), inter-personal and public speaking, and or data visualization (graphic illustration, exhibition, mapping, or modeling, for example).
- Demonstrate the knowledge or ability to collaborate with research partners and communities as part of a commitment to public, applied, engaged, or activist anthropology and archaeology.
- Demonstrate the ability to think comparatively about diversity and inequality across the global as well as within a specific social context, and to apply anthropological methods, perspectives, and theories to the world around them.

## Anthropology Minor

<https://cola.unh.edu/anthropology/program/minor/anthropology>

### Description

Anthropology asks the question: What does it mean to be human? Anthropologists, as scholars, collaborators, public figures and activists, take a critical, creative and holistic approach to the study of humankind. In our relatively small program in the College of Liberal Arts, students have the opportunity to take hands-on courses in archaeology and socio-cultural, applied, medical, biological and forensic anthropology, reflecting our faculty members' academic and applied research in the Americas, Europe, Africa, and Central and Southeast Asia.

Through coursework, fieldwork and study-abroad experiences, students gain life-long learning skills that prepare them for success in cross-cultural understanding and communication, as well as the ability to think comparatively about diversity and inequality on a local and global level.

A minor in anthropology provides many opportunities for cross-disciplinary collaboration, as students are encouraged to apply anthropological methods, perspectives and theories to the world around them, and to their other areas of study. Upon graduation, our majors and minors work for a diverse set of organizations, and are employed in a range of areas such as public health, business, law, international development, non-profit organizations, museums and education.

You do not need to declare a minor; however, it might be wise to meet with a faculty member from the Anthropology Department to discuss your minor plan.

At the beginning of your final semester of study, you should complete [a certification of completion of minor form](#), obtain the necessary signatures, and submit it to your Dean's Office.

### Requirements

A minor consists of five 4-credit courses (20 credits) in Anthropology, with a C or better in each course.

Code	Title	Credits
Select one ANTH course numbered 600 or above		4
Select four elective ANTH courses		16
<b>Total Credits</b>		<b>20</b>

## Arabic (ARBC)

### Programs

- [Arabic Minor](#) (p. 40)

## Arabic Minor

<https://cola.unh.edu/languages-literatures-cultures/program/minor/arabic>

### Description

There are 26 countries where Arabic is the official or co-official language, extending beyond the Middle East region. The Arabic minor facilitates students' acquisition of skills in this critical language (speaking, listening, reading and writing), as well as cross-cultural competence. The linguistic skills achieved in the successful completion of this minor will be at the Advanced or Intermediate-High Proficiency level in Arabic as defined and measured by the American Council on the Teaching of Foreign Languages (ACTFL) Proficiency Guidelines. This minor provides a strong complement to many majors and will prepare students to compete for national fellowship opportunities, graduate school, the job market – any opportunity in which proficiency in Arabic is required or preferred.

### Requirements

The Arabic minor consists of **5 courses (20 credits)** as follows:

Code	Title	Credits
<b>Required Courses</b>		
ARBC 503	Intermediate Arabic	4
ARBC 504	Intermediate Arabic	4
ARBC 631	Advanced Arabic I	4
ARBC 632	Advanced Arabic II	4
<b>Elective Courses</b>		
Select one of the following <sup>1</sup>		4
ARBC 425	Introduction to Arabic Culture	
ARBC 700	Arabic Media	
GEOG 540	Geography of the Middle East	
HIST 585	Medieval Islam	
HUMA 511A	Medieval Humanities: Rise of Global Empires <sup>2</sup>	
or HUMA 511B	Medieval Humanities: Rise of Global Empires	
or HUMA 511C	Medieval Humanities: Rise of Global Empires	
POLT 559	Comparative Politics of the Middle East	
<b>Total Credits</b>		<b>20</b>

<sup>1</sup> Or another course closely related to the minor area of study with approval of faculty.

<sup>2</sup> Please check with the contact for the minor to make sure that the topics covered are sufficiently relevant to Arabic studies.

Students may take equivalent courses while studying abroad to satisfy any of the courses required for the minor.

## Art and Art History (ARTS)

The courses offered by the Department of Art and Art History provide an opportunity, within the liberal arts framework, for students to acquire a thorough knowledge of the basic means of visual expression, to study intensively the history of art, or to prepare themselves for a career in

art teaching. In addition, these courses offer foundation experience for students who are interested in art but are majoring in other departments in the University. The Department of Art and Art History offers programs leading to a bachelor of arts degree in the arts with options in studio art, studio art/art education or art history and a bachelor of fine arts degree in studio art. Certification for art teaching in the public schools is offered in cooperation with the Department of Education (see Education, under Programs of Study).

The University reserves the right to retain selections from a student's work for a period of not more than two years.

## Double Option in The Arts

Students may earn a B.A. degree in the arts with both a studio art option and an art history option provided the requirements for each option are met. No more than 8 credits used for one option may be used for the second option. These 8 credits will be in Introductory Drawing and Introduction to Art History.

## Minors in the Department of Art and Art History

Students must receive a minimum grade of C- in all required courses. For art majors, only two courses from the art and art history major requirements can be applied toward the minor.

A maximum of two courses (8 credits) may be transferred from another accredited institution, provided UNH has accepted them as transfer credits. Transfer courses must be a minimum of three credits. Students with transfer courses that are accepted with less than four semester credits must still meet the credit requirement for completion of the minor.

## Faculty

<https://cola.unh.edu/art-art-history/faculty-staff-directory>

## Arts Major: Art History Option (B.A.)

<https://cola.unh.edu/art-art-history/program/ba/arts-major-art-history-option>

## Description

The art history curriculum provides a comprehensive, in-depth study of Western art from the ancient world to the present as well as some exposure to non-Western cultures and artistic traditions. All courses in the program teach basic skills of interpretation and critical analysis within the framework of broad cultural perspectives that connect the visual arts to larger historical developments. They also teach good writing and research skills. In addition, art history majors typically branch out into other fields, such as history, literature and foreign languages. By the time they graduate, most majors are well equipped to pursue such traditional careers in the field as museum and gallery work, teaching, publishing or librarianship. But because art historical education is so broad, it also prepares students for a variety of other, more flexible options, such as law, business or architecture.

## Requirements

Students must complete a minimum of 10 courses (40 credits). The following courses are required:

Code	Title	Credits
ARTH 480	Introduction to Art History	4
ARTS 532	Introductory Drawing	4
ARTH 795	Understanding Art History: An In-Depth Overview (Capstone)	4
ARTH 799	Seminar in Art History	4
<b>Art History Courses: Select six, 600/700-level courses from the areas below (one 500-level may be used):</b>		
Pre-Renaissance Courses (Select one)		4
ARTH 674	Greek Art and Architecture	
ARTH 675	Roman Art and Architecture	
ARTH 677	Early Medieval Art	
ARTH 678	Romanesque and Gothic Art	
Renaissance/Baroque Courses (Select one)		4
ARTH 583	Baroque Art: Realism, Caricature, Shock	
ARTH 679	Northern Renaissance Art I	
ARTH 680	Iconoclasm and Collecting: The Art of Early Modern Northern Europe	
ARTH 681	Early Renaissance Art	
ARTH 682	The High Renaissance	
ARTH 684	Baroque Art in Northern Europe	
ARTH 685	Graphic Art of the Renaissance and Baroque Periods	
Modern Art Courses (Select one)		4
ARTH 587	Art in an Age of Revolutions, c. 1715-1900	
ARTH 654	17th and 18th Century American Architecture	
ARTH 655	Nineteenth-Century Architecture: The Architecture of Empire	
ARTH 656	Twentieth-Century Architecture: Modern and Contemporary	
ARTH 686	Sex and Sensuality in 18th-Century Art	
ARTH 688	Histories of Late 19th & 20th Century European Modernism	
ARTH 689	Contemporary Art and Theory: 1945-2000	
ARTH 693	American Art	
ARTH 694	Vision and Modernity: From Panorama to Early Film	
Electives: Pre-Renaissance, Baroque or Modern Art (select three additional courses)		12
ARTH 583	Baroque Art: Realism, Caricature, Shock	
ARTH 587	Art in an Age of Revolutions, c. 1715-1900	
ARTH 654	17th and 18th Century American Architecture	
ARTH 655	Nineteenth-Century Architecture: The Architecture of Empire	
ARTH 656	Twentieth-Century Architecture: Modern and Contemporary	
ARTH 674	Greek Art and Architecture	
ARTH 675	Roman Art and Architecture	
ARTH 677	Early Medieval Art	
ARTH 678	Romanesque and Gothic Art	
ARTH 679	Northern Renaissance Art I	
ARTH 680	Iconoclasm and Collecting: The Art of Early Modern Northern Europe	
ARTH 681	Early Renaissance Art	
ARTH 682	The High Renaissance	

ARTH 684	Baroque Art in Northern Europe	
ARTH 685	Graphic Art of the Renaissance and Baroque Periods	
ARTH 686	Sex and Sensuality in 18th-Century Art	
ARTH 689	Contemporary Art and Theory: 1945-2000	
ARTH 693	American Art	
ARTH 694	Vision and Modernity: From Panorama to Early Film	
Total Credits		40

These courses must be completed with a minimum grade of C-. Art history students receive preferential placement in ARTS 532 Introductory Drawing. Students contemplating graduate school should learn German, and, if possible, either French, Italian, or another language relevant to their areas of interest.

The Discovery Program capstone requirement may be fulfilled by completing ARTH 795 Understanding Art History: An In-Depth Overview.

The required minimum overall GPA in major coursework is 2.0.

Candidates for a degree must satisfy all of the University Discovery Program requirements in addition to satisfying the requirements of each individual major program. Bachelor of arts candidates must also satisfy the foreign language proficiency requirement.

Art history majors may use two major-required courses to satisfy two Discovery category requirements.

## Student Learning Outcomes

- We expect our art history majors to become conversant with some of the major conventions artists and architects have subscribed to over the millenia, and with how these have been bent or broken and why.
- We expect them to learn to write cogently and clearly, and to be able to analyze orally on the spot what they see in a work of art or architecture, often by comparison and contrast with works they know well.

## Arts Major: Studio Art Option (B.A.)

<https://cola.unh.edu/art-art-history/program/ba/arts-major-studio-art-option>

## Description

The B.A. in art - studio art option provides a strong fine arts education and solid foundation that prepares students for a life in the arts, whether it be as a professional or commercial artist, a teacher, an architect, a designer or a museum director. We offer courses in painting, drawing, photography (both digital and wet lab techniques), printmaking, sculpture (all media: steel, aluminum, bronze casting, clay, and wood), furniture design and fabrication, ceramics and design. A degree in studio art provides a foundation for diverse professional achievement.

## Requirements

Students selecting to work toward a bachelor of arts degree in studio art must complete a minimum of 14 courses (56 credits), with a minimum grade of C in each course. The following courses are required:

Code	Title	Credits
Core Foundation (3 courses)		12
ARTS 510	Principles of Design	

ARTS 532	Introductory Drawing	
ARTS 567	Introductory Sculpture	
Core Supplemental (3 courses)		12
One additional 500/600-level 2D:		
ARTS 536	Introduction Printmaking: Intaglio	
ARTS 546	Painting Design I: Perceptual Painting and Color Theory	
ARTS 632	Intermediate Drawing	
ARTS 633	Life Drawing	
One additional 500-level 3D:		
ARTS 501	Introductory Ceramics	
ARTS 525	Introductory Woodworking	
One 500-level Photography:		
ARTS 551	Introduction to Darkroom Photography	
ARTS 552	Introductory Digital Photography	
4 Studio courses in a concentration at 500-600-700 level (see concentration courses below)		16
1 Studio Electives course (Jterm or summer course may be used):		4
Select from ARTS 455, ARTS 501, ARTS 525, ARTS 536, ARTS 546, ARTS 551, ARTS 552, ARTS 596, ARTS 598, ARTS 601, ARTS 610, ARTS 611, ARTS 612, ARTS 613, ARTS 614, ARTS 625, ARTS 632, ARTS 633, ARTS 636, ARTS 646, ARTS 651, ARTS 667, ARTS 696, ARTS 732, ARTS 746, ARTS 791, ARTS 792, ARTS 796		
Core Art History (3 courses)		12
ARTH 480	Introduction to Art History	
or ARTH 474	Introduction to Architectural History	
Two 600-level or above art history courses:		
Select from ARTH 654, ARTH 655, ARTH 656, ARTH 674, ARTH 675, ARTH 677, ARTH 678, ARTH 679, ARTH 680, ARTH 681, ARTH 682, ARTH 684, ARTH 685, ARTH 686, ARTH 688, ARTH 689, ARTH 693, ARTH 694, ARTH 695, ARTH 697, ARTH 795		
Total Credits		56

## Concentration Courses (4 courses)

Minimum of three 600-700 level studio courses. No more than one of the following: a 500-level studio course (select from ARTS 501, ARTS 525, ARTS 536, ARTS 546, ARTS 551, ARTS 552, ARTS 596), ARTS 598 An Artist's Life, a 600-700 level art history (see selection of courses in art history requirement above), or ARTS 600 Internship in Studio Art (with approval). Jterm and summer online courses cannot be used.

Code	Title	Credits
Ceramics Concentration		
ARTS 601	Ceramics Workshop (may be repeated)	
ARTS 796	Independent Study: Studio Art (J: Ceramics, may be repeated)	
Design Concentration		
ARTS 610	Principles of Typography	
ARTS 611	Animation and Motion Design	
ARTS 612	Interaction & Game Design	
ARTS 613	Design and Place	
ARTS 614	Design and People	
ARTS 796	Independent Study: Studio Art (G: Design, may be repeated)	
Drawing Concentration		
ARTS 632	Intermediate Drawing	
ARTS 633	Life Drawing	
ARTS 732	Advanced Drawing (may be repeated)	
ARTS 796	Independent Study: Studio Art (C: Drawing, may be repeated)	
Painting Concentration		
ARTS 646	Painting Design II: Perceptual Painting and the Individual Artist's Vision (may be repeated, must be taken twice before advancing to 746)	
ARTS 746	Painting Design III: Perceptual Painting and Narrative Themes (may be repeated)	
ARTS 796	Independent Study: Studio Art (D: Painting, may be repeated)	
Photography Concentration		
ARTS 651	Photography Workshop (may be repeated)	
ARTS 796	Independent Study: Studio Art (A: Photography, may be repeated)	
Printmaking Concentration		
ARTS 636	Printmaking Workshop (may be repeated)	
ARTS 796	Independent Study: Studio Art (E: Printmaking, may be repeated)	
Sculpture Concentration		
ARTS 667	Sculpture Workshop (may be repeated)	
ARTS 796	Independent Study: Studio Art (B: Sculpture, may be repeated)	

## Wood/Furniture Design Concentration

ARTS 625	Wood/Furniture Design Workshop (may be repeated)
ARTS 796	Independent Study: Studio Art (K: Wood Design, may be repeated)

While these courses represent the minimum departmental requirements for the studio art option, students may wish to plan a program involving greater depth in one or several of the studio areas.

The Discovery Program capstone requirement will be fulfilled by completing a capstone project that reflects the training received, and personal artistic growth made, throughout the student's years of study at UNH. The capstone project includes participation in the BA/BFA Senior Exhibition in the UNH Museum of Art in April-May. Students will submit a minimum of 5 (or the equivalent what would be the equivalent of 5) recent works for faculty to review and select for the exhibition. At the review a written artist statement and verbal explanation of the work must also be presented.

The required minimum overall GPA in major coursework is 2.0.

Candidates for a degree must satisfy all of the University Discovery Program requirements in addition to satisfying the requirements of each individual major program. Bachelor of arts candidates must also satisfy the foreign language proficiency requirement.

Studio art majors may use two major-required courses to satisfy two Discovery category requirements.

## Student Learning Outcomes

### Introductory (500) Level:

- Basic skillset in a particular arts discipline
- Working knowledge of the tools and materials used in a particular arts discipline
- Basic understanding of analytical thinking when making and talking about art
- Demonstrate development of artistry

### Intermediate (500/600) Level:

- Demonstrate development of artistry and skill set in a range of artistic disciplines
- Demonstrate knowledge of tools and materials beyond the basics
- Deeper ability to discuss and analyze works of art
- Ability to verbalize intent in a particular work of art
- Ability to research particular artists
- Ability to declare an area of concentration for advanced in a particular arts discipline

### Advanced (600/700) Level:

- Demonstrate a high level of artistry
- Ability to work independently
- Develop and Demonstrate an individual sensibility
- Ability to understand and verbalize intent in a work of art
- Ability to construct a professional capstone portfolio or thesis
- Demonstrate in-depth familiarity with a range of artistic movements both historical and contemporary

## Arts Major: Studio Art/Art Education Option (B.A.)

<https://cola.unh.edu/art-art-history/program/ba/arts-major-studio-art-art-education-option>

### Description

The program in art education is organized into a five-year, teacher-education sequence. This curriculum is designed to prepare teachers of art in the public schools. The satisfactory completion of the B.A. studio art curriculum for art education students and required education courses, in conjunction with the fifth-year internship, will satisfy the initial certification requirements for teachers of art in the public schools of New Hampshire and in most other states. These requirements may change by the time students apply for certification and the students are required to fulfill the then-current requirements. Art education students may take accredited crafts courses at other institutions as art electives.

A portfolio is required for acceptance to the studio art/art education option.

### Requirements

Students selecting to work toward a bachelor of arts degree in studio art/art education must complete a minimum of 14 courses (56 credits), with a minimum grade of C in each course. The following courses are required:

Code	Title	Credits
<b>Required Core Foundation (4 courses)</b>		<b>16</b>
ARTS 501	Introductory Ceramics	
ARTS 510	Principles of Design	
ARTS 532	Introductory Drawing	
ARTS 567	Introductory Sculpture	
<b>Required Core Supplemental (2 courses)</b>		<b>8</b>
One additional 500/600-level 2D:		
ARTS 536	Introduction Printmaking: Intaglio	
ARTS 546	Painting Design I: Perceptual Painting and Color Theory	
ARTS 632	Intermediate Drawing	
ARTS 633	Life Drawing	
One 500-level Photography:		
ARTS 551	Introduction to Darkroom Photography	
ARTS 552	Introductory Digital Photography (recommended)	
<b>Four courses in a studio concentration at the 500/600/700 levels (see concentration courses below)</b>		<b>16</b>
<b>One studio elective (Jterm or summer course can be used)</b>		<b>4</b>
Select from ARTS 455, ARTS 501, ARTS 525, ARTS 536, ARTS 546, ARTS 551, ARTS 552, ARTS 596, ARTS 598, ARTS 601, ARTS 610, ARTS 611, ARTS 612, ARTS 613, ARTS 614, ARTS 625, ARTS 632, ARTS 633, ARTS 636, ARTS 646, ARTS 651, ARTS 667, ARTS 696, ARTS 732, ARTS 746, ARTS 791, ARTS 792, 796		
<b>Three art history courses</b>		<b>12</b>
ARTH 480	Introduction to Art History	
or ARTH 474	Introduction to Architectural History	
600-level elective (select from ARTH 654, ARTH 655, ARTH 656, ARTH 674, ARTH 675, ARTH 677, ARTH 678, ARTH 679, ARTH 680, ARTH 681, ARTH 682, ARTH 684, ARTH 685, ARTH 686, ARTH 688, ARTH 689, ARTH 693, ARTH 694, ARTH 695, ARTH 697, ARTH 795)		
600-level elective with depth of content in 20th-21st Century art (select from ARTH 656, ARTH 688, ARTH 689, ARTH 693, ARTH 694)		
In addition to the above, other courses are required for teaching certification.		
<b>Total Credits</b>		<b>56</b>

### Concentration Courses (4 courses)

Minimum of three 600-700 level studio courses. No more than one of the following: a 500-level studio course (select from ARTS 501,

ARTS 525, ARTS 536, ARTS 546, ARTS 551, ARTS 552, ARTS 596), ARTS 598 An Artist's Life, a 600-700 level art history (see selection of courses in art history requirement above), or ARTS 600 Internship in Studio Art (with approval). Jterm and summer online courses cannot be used.

Code	Title	Credits
<b>Ceramics Concentration</b>		
ARTS 601	Ceramics Workshop (may be repeated)	
ARTS 796	Independent Study: Studio Art (J: Ceramics, may be repeated)	
<b>Design Concentration</b>		
ARTS 610	Principles of Typography	
ARTS 611	Animation and Motion Design	
ARTS 612	Interaction & Game Design	
ARTS 613	Design and Place	
ARTS 614	Design and People	
ARTS 796	Independent Study: Studio Art (G: Design, may be repeated)	
<b>Drawing Concentration</b>		
ARTS 632	Intermediate Drawing	
ARTS 633	Life Drawing	
ARTS 732	Advanced Drawing (may be repeated)	
ARTS 796	Independent Study: Studio Art (C: Drawing, may be repeated)	
<b>Painting Concentration</b>		
ARTS 646	Painting Design II: Perceptual Painting and the Individual Artist's Vision (may be repeated, must be taken twice before advancing to 746)	
ARTS 746	Painting Design III: Perceptual Painting and Narrative Themes (may be repeated)	
ARTS 796	Independent Study: Studio Art (D: Painting, may be repeated)	
<b>Photography Concentration</b>		
ARTS 651	Photography Workshop (may be repeated)	
ARTS 796	Independent Study: Studio Art (A: Photography, may be repeated)	
<b>Printmaking Concentration</b>		
ARTS 636	Printmaking Workshop (may be repeated)	
ARTS 796	Independent Study: Studio Art (E: Printmaking, may be repeated)	
<b>Sculpture Concentration</b>		
ARTS 667	Sculpture Workshop (may be repeated)	
ARTS 796	Independent Study: Studio Art (B: Sculpture, may be repeated)	
<b>Wood/Furniture Design Concentration</b>		
ARTS 625	Wood/Furniture Design Workshop (may be repeated)	
ARTS 796	Independent Study: Studio Art (K: Wood Design, may be repeated)	

The Discovery Program capstone requirement will be fulfilled by completing a capstone project that reflects the training received, and personal artistic growth made, throughout the student's years of study at UNH. The capstone project includes participation in the BA/BFA Senior Exhibition in the UNH Museum of Art in April-May. Students will submit a minimum of 5 (or the equivalent what would be the equivalent of 5) recent works for faculty to review and select for the exhibition. At the review a written artist statement and verbal explanation of the work must also be presented.

The required minimum overall GPA in major coursework is 2.0.

Candidates for a degree must satisfy all of the University Discovery Program requirements in addition to satisfying the requirements of each individual major program. Bachelor of arts candidates must also satisfy the foreign language proficiency requirement.

Studio art/art education majors may use two major-required courses to satisfy two Discovery category requirements.

## Student Learning Outcomes

### Introductory (500) Level:

- Basic skillset in a particular arts discipline
- Working knowledge of the tools and materials used in a particular arts discipline
- Basic understanding of analytical thinking when making and talking about art
- Demonstrate development of artistry

### Intermediate (500/600) Level:

- Demonstrate development of artistry and skill set in a range of artistic disciplines
- Demonstrate knowledge of tools and materials beyond the basics
- Deeper ability to discuss and analyze works of art
- Ability to verbalize intent in a particular work of art
- Ability to research particular artists
- Ability to declare an area of concentration for advanced in a particular arts discipline

### Advanced (600/700) Level:

- Demonstrate a high level of artistry
- Ability to work independently
- Develop and Demonstrate an individual sensibility
- Ability to understand and verbalize intent in a work of art
- Ability to construct a professional capstone portfolio or thesis
- Demonstrate in-depth familiarity with a range of artistic movements both historical and contemporary

## Fine Arts Major (B.F.A.)

<https://cola.unh.edu/art-art-history/program/bfa/fine-arts>

### Description

Incoming first-year and transfer applicants wishing to enter the bachelor of fine arts (B.F.A.) degree program must first apply for, and be admitted to, the bachelor of arts (B.A.) in the Arts: Studio Art option. Students may submit a B.F.A. portfolio **after** they begin their studies at UNH, as early as the spring semester of their first year. A full faculty review is held each spring semester.

The B.F.A. curriculum provides advanced training for students who plan to enter professional graduate school or pursue careers as professional artists.

### Requirements

Students selecting to work toward a B.F.A. degree must complete a minimum of 17 courses and 72 credits, with a minimum grade of C in each course. Transfer of 3-credit courses from other institutions will require additional course(s) to fulfill the major requirement of 72 credits. Transfer courses can fulfill only 8 requirements. The following courses are required:

Code	Title	Credits
<b>Core Foundation (3 courses)</b>		<b>12</b>
ARTS 510	Principles of Design	
ARTS 532	Introductory Drawing	
ARTS 567	Introductory Sculpture	
<b>Core Supplemental (3 courses)</b>		<b>12</b>

One additional 500/600 level 2D:		
ARTS 536	Introduction Printmaking: Intaglio	
ARTS 546	Painting Design I: Perceptual Painting and Color Theory	
ARTS 632	Intermediate Drawing	
ARTS 633	Life Drawing	
One additional 500-level 3D:		
ARTS 501	Introductory Ceramics	
ARTS 525	Introductory Woodworking	
One photography course:		
ARTS 551	Introduction to Darkroom Photography	
ARTS 552	Introductory Digital Photography	
<b>Core Seminars</b>		<b>12</b>
ARTS 598	An Artist's Life	
ARTS 798	Seminar/Senior Thesis (two-semester course)	
<b>5 Studio courses in a concentration (see concentration courses below)</b>		<b>20</b>
<b>One Studio Elective (Jterm and summer courses allowed)</b>		<b>4</b>
Select from ARTS 455, ARTS 501, ARTS 525, ARTS 536, ARTS 546, ARTS 551, ARTS 552, ARTS 596, ARTS 598, ARTS 601, ARTS 610, ARTS 611, ARTS 612, ARTS 613, ARTS 614, ARTS 625, ARTS 632, ARTS 633, ARTS 636, ARTS 646, ARTS 651, ARTS 667, ARTS 696, ARTS 732, ARTS 746, ARTS 791, ARTS 792, 796		
<b>Core Art History (3 courses)</b>		<b>12</b>
ARTH 480	Introduction to Art History	
or ARTH 474	Introduction to Architectural History	
2 600-level elective art history courses (select from ARTH 654, ARTH 655, ARTH 656, ARTH 674, ARTH 675, ARTH 677, ARTH 678, ARTH 679, ARTH 680, ARTH 681, ARTH 682, ARTH 684, ARTH 685, ARTH 686, ARTH 688, ARTH 689, ARTH 693, ARTH 694, ARTH 695, ARTH 697, ARTH 795)		
<b>Total Credits</b>		<b>72</b>

## Concentration Courses (5 courses)

Minimum of four 600-700 level studio courses and no more than one of the following: ARTS 600 Internship in Studio Art (with approval), a 600-700 level art history (see selection of courses in art history requirement above), or a 500-level studio course (select from ARTS 501, ARTS 525, ARTS 536, ARTS 546, ARTS 551, ARTS 552, ARTS 596). Jterm and summer courses cannot be used.

Code	Title	Credits
<b>Ceramics Concentration</b>		
ARTS 601	Ceramics Workshop (may be repeated)	
ARTS 796	Independent Study: Studio Art (J: Ceramics, may be repeated)	
<b>Design Concentration</b>		
ARTS 610	Principles of Typography	
ARTS 611	Animation and Motion Design	
ARTS 612	Interaction & Game Design	
ARTS 613	Design and Place	
ARTS 614	Design and People	
ARTS 796	Independent Study: Studio Art (G: Design, may be repeated)	
<b>Drawing Concentration</b>		
ARTS 632	Intermediate Drawing	
ARTS 633	Life Drawing	
ARTS 732	Advanced Drawing (may be repeated)	
ARTS 796	Independent Study: Studio Art (C: Drawing, may be repeated)	
<b>Painting Concentration</b>		
ARTS 646	Painting Design II: Perceptual Painting and the Individual Artist's Vision (may be repeated, must be taken twice before advancing to 746)	
ARTS 746	Painting Design III: Perceptual Painting and Narrative Themes (may be repeated)	
ARTS 796	Independent Study: Studio Art (D: Painting, may be repeated)	
<b>Photography Concentration</b>		
ARTS 651	Photography Workshop (may be repeated)	
ARTS 796	Independent Study: Studio Art (A: Photography, may be repeated)	
<b>Printmaking Concentration</b>		
ARTS 636	Printmaking Workshop (may be repeated)	
ARTS 796	Independent Study: Studio Art (E: Printmaking, may be repeated)	
<b>Sculpture Concentration</b>		
ARTS 667	Sculpture Workshop (may be repeated)	
ARTS 796	Independent Study: Studio Art (B: Sculpture, may be repeated)	
<b>Wood/Furniture Design Concentration</b>		

ARTS 625	Wood/Furniture Design Workshop (may be repeated)
ARTS 796	Independent Study: Studio Art (K: Wood Design, may be repeated)

The possible areas of concentration within the department are painting, sculpture, ceramics, design, drawing, printmaking, photography, and furniture design. Proposals for individualized programs are accepted only by permission of the departmental chairperson, the major adviser, and the departmental bachelor of fine arts committee. Candidates applying for the bachelor of fine arts program are required to submit a portfolio to the B.F.A. committee, which meets each spring semester.

The Discovery Program capstone requirement may be fulfilled by completing ARTS 798 Seminar/Senior Thesis.

The required minimum overall GPA in major coursework is 2.0.

Candidates for a degree must satisfy all of the University Discovery Program requirements in addition to satisfying the requirements of each individual major program.

Fine arts majors may use two major-required courses to satisfy two Discovery category requirements.

## Student Learning Outcomes

### Introductory (500) Level:

- Basic skillset in a particular arts discipline
- Working knowledge of the tools and materials used in a particular arts discipline
- Basic understanding of analytical thinking when making and talking about art
- Demonstrate development of artistry

### Intermediate (500/600) Level:

- Demonstrate development of artistry and skill set in a range of artistic disciplines
- Demonstrate knowledge of tools and materials beyond the basics
- Deeper ability to discuss and analyze works of art
- Ability to verbalize intent in a particular work of art
- Ability to research particular artists

- Demonstrate in-depth familiarity with a range of artistic movements both historical and contemporary

## Architectural Studies Minor

<https://cola.unh.edu/art-art-history/program/minor/architectural-studies>

## Description

The minor in architectural studies provides students with an interdisciplinary introduction to the history, theory and methods of architecture and its symbolism. The program allows students who are interested in this field to receive programmatic recognition of their work. It is designed to assist those who are contemplating enrollment at a school of architecture; are particularly interested in architectural history; want to supplement their technical majors (e.g., civil engineering) with strong academic minors; or plan to pursue careers in preservation, education, community service and public relations.

For more information, contact the minor coordinators: Ivo van der Graaff, [ivo.vandergraaff@unh.edu](mailto:ivo.vandergraaff@unh.edu), art and art history, or Raymond Cook, [ray.cook@unh.edu](mailto:ray.cook@unh.edu), civil engineering.

## Requirements

Five courses (18-20 credits), which consist of the following:

Code	Title	Credits
ARTS 532	Introductory Drawing	4
ARTH 474	Introduction to Architectural History	4
or ARTH/CLAS 501	Introduction to Mediterranean Archaeology	
Select one of the following:		4
ARTS 455	Architectural Design Studio	
ARTS 525	Introductory Woodworking	
ARTS 567	Introductory Sculpture	
Select two electives from the list below chosen in consultation with the minor coordinators:		6-8
ARTH 400	Topics in Art History (only with architectural papers)	
ARTS 510	Principles of Design	
ARTS 600	Internship in Studio Art (only topic C - Architecture)	
ARTS 625	Wood/Furniture Design Workshop	
ARTS 667	Sculpture Workshop (only topic: Kinetic)	
ARTH 654	17th and 18th Century American Architecture	
ARTH 655	Nineteenth-Century Architecture: The Architecture of Empire	
ARTH 656	Twentieth-Century Architecture: Modern and Contemporary	
ARTH 674	Greek Art and Architecture	
ARTH 675	Roman Art and Architecture	
ARTH 678	Romanesque and Gothic Art	
ARTS 796	Independent Study: Studio Art (only topic G: Architectural Design)	
CEE 402	2D Computer Aided Design	
CEE #444	Housing - Everyone Needs a Place to Live	
CEE 795	Independent Study	
CEE 700	Building Information Modeling	
CEE 719	Green Building Design	
CLAS 510	Building Rome (a J-term course)	
<b>Total Credits</b>		<b>18-20</b>

## Art History Minor

<https://cola.unh.edu/art-art-history/program/minor/art-history>

## Description

The art history minor offers those majoring in other fields (including studio art) the chance to gain a serious knowledge of aspects of the history and meanings of Western art from antiquity to the modern world. Particularly for those working in history and the humanities, a minor in art history will provide new interdisciplinary perspectives on their major fields.

## Requirements

The minor consists of five courses (20 credits).

Code	Title	Credits
One 400-level art history (ARTH 480 Introduction to Art History or ARTH 474 Introduction to Architectural History recommended but not required)		4
Select two additional art history courses at the 500-level or above		8
Select two additional art history courses at the 600-level or above		8
<b>Total Credits</b>		<b>20</b>

## Art Minor

<https://cola.unh.edu/art-art-history/program/minor/art>

## Description

The art minor is an appropriate option for students who do not want to take the specific requirements for the art history or studio art minors, but who are still interested in taking art history and/or studio classes.

## Requirements

The minor in art consists of five courses (20 credits) chosen from the offerings of the department. Courses can be all studio art, all art history, or a combination of both.

Code	Title	Credits
Select two ARTS/ARTH courses at the 500-level or above		8
Select three elective ARTS/ARTH courses		12
<b>Total Credits</b>		<b>20</b>

## Design Studies Minor

<https://cola.unh.edu/art-art-history/program/minor/design-studies>

## Description

Situated within the studio arts program, the interdisciplinary minor in design studies brings together the formal and conceptual principles of design in the visual expressions of the fine arts (painting, sculpture, photography, etc.), the commercial arts (graphic design, illustration, etc.), the industrial arts (engineering) and the performing arts (stage, costume and lighting design).

Course options in communication, marketing, English and art history offer the opportunity to contextualize the principles and products of design in a broader historical, sociological and cultural context.

Course requirements and options within the design studies minor enable students to develop a common skill set of literacy and fluency in a range of design software programs (Photoshop, InDesign, Light Box, Fuse, etc.), the utility of which has become increasingly more essential to a range of fields of study and vocations.

## Requirements

Five courses (20 credits) are required.<sup>1</sup>

Code	Title	Credits
<b>Applied/Studio Practice</b>		
ARTS 510	Principles of Design	4
Select two of the following:		8
ARTS 455	Architectural Design Studio	
ARTS 501	Introductory Ceramics	
ARTS 525	Introductory Woodworking	
ARTS 532	Introductory Drawing	
ARTS 536	Introduction Printmaking: Intaglio	
ARTS 546	Painting Design I: Perceptual Painting and Color Theory	
ARTS 551	Introduction to Darkroom Photography	
ARTS 567	Introductory Sculpture	
ARTS 610	Principles of Typography	
ARTS 613	Design and Place	
ARTS 614	Design and People	
THDA 460	Elements of Design	
THDA 546	Costume Design for the Theatre	
THDA #547	Stage Properties	
THDA 548	Stage Lighting Design and Execution	
<b>Technical Practice</b>		
Select one of the following:		4

<b>Historical/Theoretical Context</b>		
Select one of the following:		4
ARTH 480	Introduction to Art History	
ARTH 474	Introduction to Architectural History	
CMN 697	Seminar in Rhetorical Study (Rhetoric of the Photograph)	
CMN 756	Rhetorics of Display	
CMN 772	Seminar in Media Theory	
ENGL 533	Introduction to Film Studies	
ENGL 616A	Studies in Film/Genre	
ENGL 616B	Studies in Film/Authorship	
ENGL 616C	Studies in Film/Culture and Ideology	
ENGL 616D	Studies in Film/Narrative and Style	
MKTG 520	Topics in Marketing (Understanding Your Customer or Digital Marketing Communications)	
<b>Total Credits</b>		<b>20</b>

<sup>1</sup> 19 credits are required to complete the minor if CEE 402 or CEE 700 is selected.

Students must receive a **minimum grade of C** in all required courses.

A maximum of two courses (8 credits) may be transferred from another accredited institution, provided UNH has accepted them as transfer credits. Transfer courses must be a minimum of 3 credits. Students with 3 credit transfers must make up the credit shortage.

Only two courses from the student's area/department of concentration may be used to meet requirements towards a minor in design studies.

## Studio Arts Minor

<https://cola.unh.edu/art-art-history/program/minor/studio-arts>

## Description

The studio arts minor is for students who are interested in continuing on to the intermediate and advanced levels in a variety of mediums.

## Requirements

The minor in studio arts consists of five courses (20 credits) with a distribution that includes

Code	Title	Credits
ARTS 532	Introductory Drawing	4
Select two studio courses from the 600 level or above		8
Select two additional studio courses chosen from the offerings of the department		8

## Asian Studies

## Programs

- [Asian Studies Minor](#) (p. 47)

## Asian Studies Minor

<https://cola.unh.edu/interdisciplinary-studies/program/minor/asian-studies>

## Description

The aim of the interdisciplinary Asian studies minor program is to foster teaching and learning as well as research in all areas of Asia. The minor offers opportunities to develop proficiency in Asian languages and to study the histories, politics, literatures, cultures and religions of East Asia (China, Japan, Korea and others) and South Asia (India, Pakistan, Sri Lanka, Bhutan and others). Courses offered provide students the chance to explore a wide range of contemporary subjects such as foreign policy, language use, education, environment, the Asian-American experience, ethnic and religious conflict, literary and cultural production, and cross-border movements of industry and ideas.

For further information, please contact Lawrence C. Reardon, associate professor of political science, [chris.reardon@unh.edu](mailto:chris.reardon@unh.edu), (603) 862-1858.

## Requirements

To complete the minor in Asian Studies, students are required to take five courses (20 credits) or their equivalent, and no more than three can be counted from any one of the following disciplines:

- Anthropology (ANTH)
- Asian American or South Asian Literature (ENGL)
- Geography (GEOG)
- History (HIST)
- Languages, Literatures, and Cultures (either CHIN or JPN)
- Philosophy (PHIL)
- Political Science (POLT)

The following are a list of courses that count toward the minor. Please note additional courses may also count. Visit the program website for the most up-to-date information.

Code	Title	Credits
ANTH 500	Peoples and Cultures of the World (only topic D) Asia)	4
ANTH 501	World Archaeological Cultures (only topic F) Asia)	4
ARTH 697	Topics in Asian Art	4
CHIN #400	Conversational Chinese	4
CHIN 401	Elementary Chinese I	4
CHIN 402	Elementary Chinese II	4
CHIN 425	Introduction to Chinese Culture	4
CHIN 503	Intermediate Chinese I	4
CHIN 504	Intermediate Chinese II	4
CHIN 521	What does it Mean to be Modern? Lenses of Modern Chinese Literature and Film	4
CHIN 632	Advanced Chinese Conversation and Composition II	4
CHIN 795	Independent Study	1-4
CMN #770	From Pokemon to K-Pop: East Asian Media and Popular Culture	4
ENGL 581	Reading the Postcolonial Experience	4
ENGL 616C	Studies in Film/Culture and Ideology	4
ENGL 738	Asian American Studies	4
ENGL 777	The English Novel in the World	4
GEOG 530	China: People, Politics and Economy	4
HIST 425	Foreign Cultures	4
HIST #444G	Voices from Modern China	4
HIST 579	History of China in Modern Times	4
HIST 580	History of Japan in Modern Times	4
HIST 797	Colloquium (American Century in Asia)	4
HIST 797	Colloquium (Chinese-Western Encounters)	4
JPN 401	Elementary Japanese I	4
JPN 402	Elementary Japanese II	4
JPN 503	Intermediate Japanese I	4
JPN 504	Intermediate Japanese II	4
JPN #631	Advanced Japanese I	4
JPN 795	Independent Study	1-4
JPN 796	Independent Study	1-4
PHIL 520	Introduction to Eastern Philosophy	4
POLT 545	People and Politics in Asia	4
POLT 546	Wealth and Politics in Asia	4
POLT 556	Politics in China	4
POLT 569	The Rise of China	4
POLT 742	Politics of Afghanistan, Pakistan, and India	4
POLT 797E	Seminar in International Politics (US/China Decision Making)	4

## Chinese (CHIN)

### Programs

- [Chinese Minor](#) (p. 48)

## Chinese Minor

<https://cola.unh.edu/languages-literatures-cultures/program/minor/chinese>

### Description

The Chinese minor provides students with linguistic skills and cross-cultural competence that will complement their studies in many other disciplines, such as business, international affairs, education, hotel management and social service. It prepares students for future academic and professional opportunities in which proficiency in Chinese is required or preferred. Students who have studied Chinese at UNH have gone

on to use Chinese for a variety of career paths in both domestic and international settings.

## Requirements

**20 credits** which consist of the following:

Code	Title	Credits
Four language courses above the 500 level:		
CHIN 503	Intermediate Chinese I	4
CHIN 504	Intermediate Chinese II	4
CHIN 631	Advanced Chinese Conversation and Composition I	4
CHIN 632	Advanced Chinese Conversation and Composition II	4
Choose one of the following Chinese culture and literature courses: <sup>1</sup>		4
CHIN 425	Introduction to Chinese Culture	4
CHIN 521	What does it Mean to be Modern? Lenses of Modern Chinese Literature and Film	4
<b>Total Credits</b>		<b>20</b>

<sup>1</sup> Or another Chinese culture or literature course approved by the faculty.

At the beginning of your final semester of study, please complete a [Certification of Completion of Minor form](#), obtain the necessary signatures, and submit it to your Dean's Office.

## Cinema Studies

### Programs

- [Cinema Studies Minor](#) (p. 48)

## Cinema Studies Minor

<https://cola.unh.edu/interdisciplinary-studies/program/minor/cinema-studies>

### Description

The minor in cinema studies offers a variety of opportunities to study a predominant contemporary form of narrative, aesthetic and social discourse: the moving image. Film is the primary medium of study for the minor, but the cinematic practices of video and television also may be included as potential areas of interest. Courses consist of interdisciplinary approaches to the analysis of cinema, covering works from the early cinema to the present, from the U.S. and other nations. Students learn the aesthetics, history, technology, economics and theory of cinema, while also acquiring the language for analyzing its forms and practices. The minor allows for organized and meaningful study of the moving image from a wide range of scholarly interests and approaches that complement the increasingly significant place of cinema in many major disciplines and other programs. Students enrolled in the cinema studies minor will become articulate and critical spectators in the larger cultural contexts of film and media studies.

Cinema studies students are required to take five courses. Students must earn at least a C- in each course and maintain a 2.0 grade-point average in courses taken for the minor. "Double counting" of minor course credits with major course credits will be left to the discretion of existing major departments, with the exception that no more than eight credits, if approved, will "double count."

Interested students should contact the cinema minor coordinator, [Matt Konzett](mailto:matthias.konzett@unh.edu) ([matthias.konzett@unh.edu](mailto:matthias.konzett@unh.edu)), Department of English, (603) 862-0261.

## Requirements

Code	Title	Credits
<b>Introductory Course</b>		
ENGL 533	Introduction to Film Studies	4
<b>History and Theory of Film</b>		
LLC 540	Film History	4
or ENGL 618	Film Theory	
<b>Advanced and/or Focused Courses</b>		
Select two of the following:		8
ENGL 616A	Studies in Film/Genre	
ENGL 616B	Studies in Film/Authorship	
ENGL 616C	Studies in Film/Culture and Ideology	
ENGL 616D	Studies in Film/Narrative and Style	
ITAL 525	Italian Cinema	
<b>Elective Courses</b>		
Select one elective course <sup>1</sup>		4
<b>Total Credits</b>		<b>20</b>

<sup>1</sup> Electives are drawn from an approved list of courses for the minor, which is compiled and announced every semester. Students also may choose from the advanced and/or focused courses. Elective courses have a significant cinema studies component and may have another disciplinary focus as well. Contributing departments and/or programs include: American studies, anthropology, arts, communication, English, French, geography, German, history, humanities, Italian, music, philosophy, political science, psychology, Russian, sociology, Spanish, theatre and dance, and women's and gender studies. Students should check with the cinema minor coordinator each semester for approval of the elective.

## Classics (CLAS)

Classics encompasses the interdisciplinary study of the Greeks and Romans, as well as the ways in which the ancient world's influence extends to the Medieval Period, the Renaissance and the modern world. Studying classics, therefore, is to investigate several thousand years of material through the study of languages, literature, history, politics, law, archaeology, art, mythology and folklore, gender and sexuality, religious studies, philosophy and more—all with methods derived from a variety of humanistic and social science perspectives. This breadth provides an excellent liberal arts education that prepares students for a variety of careers, as well as for further study. Classics majors from UNH have gone on to law school, medical school, and graduate school in classics and many related disciplines and have taken up careers in teaching, government service, the military and business.

Classics majors have many opportunities at UNH to pursue their own interests in the ancient world while completing their requirements. In addition to Greek and Latin, program faculty may occasionally offer, on request, courses on other ancient languages, including Hittite, Hebrew, Egyptian Hieroglyphs, Syriac and Sanskrit. Students are encouraged to take courses offered outside the department that relate to the field of classics, such as those in ancient history, archaeology, ancient philosophy, classical art, modern languages, linguistics and English literature. Some of these courses can even count for major requirements; a current list of approved courses is available from any departmental adviser. Study abroad is another way that many majors broaden their

studies. Students have frequently spent semesters at many study abroad sites, including the Intercollegiate Center for the Classical Studies in Rome. (UNH is part of the consortium of Universities that supports this program.) The Department of Classics, Humanities and Italian Studies regularly runs its own popular January Term course in Rome and manages several other study abroad programs.

The program offers three different options for the classics major. In brief, the differences are:

- The Classical Languages and Literatures (CLL) option allows for the most in-depth study of the ancient languages and requires knowledge of both Ancient Greek and Latin. It thus provides the strongest preparation for students considering graduate study in classics or related areas, and can also be an appropriate choice (with careful planning) for those thinking about teaching Latin in secondary schools. At the same time, it is designed for any student who desires a solid liberal arts education.
- The Ancient Mediterranean Civilizations (AMC) option balances language study with the opportunity for students to select from a wide range of courses covering many aspects of the Greek and Roman worlds, as well as the neighboring peoples in Europe, North Africa and the Near East. The flexibility of this option makes it especially attractive for students who wish to double major in another subject. It is generally not suitable, however, for those who wish to pursue related graduate study or a career in teaching Latin. AMC majors can, however, supplement the requirements with additional coursework to keep these options open.
- The Latin and Latin Teaching (LLT) option is designed to provide a good foundational liberal arts education centered on Latin and the Roman world, but it also includes specific elements that make it particularly appropriate for students who are considering careers teaching Latin in secondary schools after graduation. This option does not lead directly to state certification, which can be pursued during a fifth year of study in the Department of Education.

## Classics Major: Ancient Mediterranean Civilizations Option (B.A.)

<https://cola.unh.edu/classics-humanities-italian-studies/program/ba/classics-major-ancient-mediterranean-civilizations-option>

### Description

The Ancient Mediterranean Civilizations (AMC) option balances language study with the opportunity for students to select from a wide range of courses covering many aspects of the Greek and Roman worlds, as well as the neighboring peoples in Europe, North Africa and the Near East. The flexibility of this option makes it especially attractive for students who wish to double major in another subject. It is generally not suitable, however, for those who wish to pursue related graduate study or a career in teaching Latin. AMC majors can, however, supplement the requirements with additional coursework to keep these options open.

### Requirements

To complete the AMC option of the classics major, a student must complete 10 courses (40 credits), distributed as follows:

Code	Title	Credits
<b>Language Proficiency</b>		
Demonstrate proficiency by taking at least 8 credits in GREK or LATN at the 503 level or above		8
<b>Other Courses</b>		
Select at least 32 additional credits in CLAS, GREK, or LATN courses, including: <sup>1</sup>		32
CLAS 403	Introduction to Greek Civilization	
or CLAS 404	Introduction to Roman Civilization	
At least 8 credits from courses at the 600 level or above		
<b>Capstone Experience</b>		
Select an approved capstone experience of the following:		
Senior thesis		
Honors thesis		
CLAS capstone course approved by the advisor at the 600 or 700 level		
At least 4 credits in 700-level LATN or GREK courses		
Approved internship		
Approved semester study abroad focused on the classical world		
<b>Total Credits</b>		<b>40</b>

<sup>1</sup> No more than 8 credits may come from CLAS courses at the 400 level, with up to an additional 8 credits from LATN and GREK courses at the 400 level. There are also courses taught outside of the program that are approved substitutes for CLAS courses, and the department will accept up to 8 credits from such courses. An up-to-date list of these courses is available from departmental advisers and additional exceptions are allowed with the written approval of the adviser.

Candidates for a degree must satisfy all of the University Discovery Program requirements in addition to satisfying the requirements of each individual major program. Bachelor of arts candidates must also satisfy the foreign language proficiency requirement.

Classics majors may use two major-required courses to satisfy two Discovery category requirements.

The required minimum overall GPA in major coursework is 2.0.

### Student Learning Outcomes

Classics: Student Learning Outcomes for Classics Major: Ancient Mediterranean Civilizations Option (B.A.)

Analyze and critique the cultural and historical importance of the ancient Greeks and Romans.

Recognize and assess the relative value, and to integrate, the distinct categories of evidence from antiquity: material and textual.

Demonstrate an understanding of the steps of the intellectual process as developed in classical antiquity, including:

- identifying and defining essential questions
- research in the best and fullest range of evidence
- reasoned critique of the evidence
- insightful synthesis of all relevant evidence
- critical evaluation and integration of previous interpretations
- creating an argument, including in essays or papers, which takes into account all the evidence
- Translate key Latin and/or Greek texts at the intermediate level and demonstrate a knowledge of Latin or Greek vocabulary, morphology, and syntax at an intermediate level.
- Show a familiarity with the essential literary sources from classical antiquity, and how they have been received in later periods.

## Classics Major: Classical Languages & Literatures Option (B.A.)

<https://cola.unh.edu/classics-humanities-italian-studies/program/ba/classics-major-classical-languages-literatures-option>

### Description

The Classical Languages and Literatures (CLL) option allows for the most in-depth study of the ancient languages and requires knowledge of both Ancient Greek and Latin. It thus provides the strongest preparation for students considering graduate study in classics or related areas, and can also be an appropriate choice (with careful planning) for those thinking about teaching Latin in secondary schools. At the same time, it is designed for any student who desires a solid liberal arts education.

### Requirements

To complete the CLL option of the classics major, a student must complete 10 courses (40 credits), distributed as follows:

Code	Title	Credits
<b>Language Courses <sup>1</sup></b>		
Select at least 12 credits at the 503 level or above <sup>2</sup>		12-24
Including:		
Select at least one class at the 700 level in the primary language (GREK or LATN)		
Select at least one class at the 504 level or above in the secondary language (LATN or GREK)		
<b>Non-Language Courses</b>		
Select at least 16 credits in CLAS courses. As many as 28 credits may be counted toward this option. <sup>3</sup>		16-28
<b>Capstone</b>		
Select an approved capstone experience of the following:		
Senior thesis		
Honors thesis		

CLAS capstone course at the 600 or 700 level
At least 8 credits in 700-level LATN or GREK courses
Approved internship
Approved semester study abroad focused on the classical world
<b>Total Credits</b>

40

- <sup>1</sup> No credits from language courses at the 400 level may be counted toward this option.
- <sup>2</sup> Students may count as many as 24 toward the CLL major option.
- <sup>3</sup> No more than 4 credits may come from courses at the 400 level. There are also courses taught outside of the program that are approved substitutes for CLAS courses, and the department will accept up to 8 credits from such courses. An up-to-date list of these courses is available from departmental advisers and additional exceptions are allowed with the written approval of the adviser.

Candidates for a degree must satisfy all of the University Discovery Program requirements in addition to satisfying the requirements of each individual major program. Bachelor of arts candidates must also satisfy the foreign language proficiency requirement.

Classics majors may use two major-required courses to satisfy two Discovery category requirements.

The required minimum overall GPA in major coursework is 2.0.

## Student Learning Outcomes

Student Learning Outcomes for Classics Major: Classical Languages and Literatures Option

- Translate, contextualize, and interpret key texts in their primary language (Greek or Latin) at the upper level.
- Translate, contextualize, and interpret intermediate-level texts in their secondary language (Greek or Latin).
- Demonstrate an accurate understanding of linguistic concepts related to Greek and Latin including the elements of phonetics, semantics, and morphology and syntax at an upper level for their primary language and at an intermediate level for their secondary language.
- Analyze and critique, including in essays or papers, the cultural, literary, and historical significance of the ancient Greeks and Romans, and how they have been received in later periods.

## Classics Major: Latin & Latin Teaching Option (B.A.)

<https://cola.unh.edu/classics-humanities-italian-studies/program/ba/classics-major-latin-latin-teaching-option>

### Description

The Latin and Latin Teaching (LLT) option is designed to provide a good foundational liberal arts education centered on Latin and the Roman world, but it also includes specific elements that make it particularly appropriate for students who are considering careers teaching Latin in secondary schools after graduation. This option does not lead directly to state certification, which can be pursued during a fifth year of study in the Department of Education.

## Requirements

To complete the LLT option of the classics major, a student must complete 10 courses (40 credits), distributed as follows:

Code	Title	Credits
<b>Latin Language Courses</b>		
Select at least 20 credits of LATN courses at the 504 level or above <sup>1</sup>		20
<b>Other Courses</b>		
Student must take at least three of the following courses in areas concerning mythology or Roman history:		12
CLAS 401	Classical Mythology	
CLAS 404	Introduction to Roman Civilization	
CLAS 601	Classical Myth II: The Power and Persistence of Myth	
CLAS 677	History of Ancient Rome	
CLAS 678	Topics in Ancient Roman History	
Select 8 credits of electives (which may include credits earned in a capstone experience) <sup>2</sup>		8
<b>Capstone Experience</b>		
Select an approved capstone experience of the following:		
Senior thesis		
Honors thesis		
CLAS capstone course at the 600 or 700 level		
At least 12 credits in 700-level LATN courses		
Approved external internship		
CLAS 694	Supervised Practicum (4-credit internal Latin teaching internship)	
Approved semester study abroad focused on the classical world		
<b>Total Credits</b>		<b>40</b>

- <sup>1</sup> At least 4 credits must come at the 700 level.
- <sup>2</sup> An up-to-date list of these courses is always available from department advisors, and advisors can also approve exceptions in writing. (At present, the following CLAS courses do not count: CLAS 403 Introduction to Greek Civilization, CLAS 525 Greek and Latin Origins of Medical Terms, and CLAS 694 Supervised Practicum.) Besides CLAS 401 Classical Mythology and CLAS 404 Introduction to Roman Civilization, no other 400-level courses may count. No Greek language courses are required for the LLT option, but students are encouraged to complete at least the introductory sequence (401–402).

There are also courses taught outside of the program that are approved substitutes for CLAS courses, and the department will accept up to 8 credits from such courses. An up-to-date list of these courses is available from departmental advisers and additional exceptions are allowed with the written approval of the advisor.

Candidates for a degree must satisfy all of the University Discovery Program requirements in addition to satisfying the requirements of each individual major program. Bachelor of arts candidates must also satisfy the foreign language proficiency requirement.

Classics majors may use two major-required courses to satisfy two Discovery category requirements.

The required minimum overall GPA in major coursework is 2.0.

Please note that the LLT option does not by itself meet New Hampshire state certification requirements. Those who intend to pursue this certification should enroll in EDUC 500 Exploring Teaching as early as possible and then apply early in the fall of their year of graduation for a fifth year of internship and study through UNH's Department of Education. Students are also encouraged strongly to consider taking some EDUC electives during their period of undergraduate study.

## Student Learning Outcomes

Student Learning Outcomes for Classics Major: Latin and Latin Teaching Option (B.A.)

- Ability to read major works of Latin authors in prose and poetry, and to translate Latin into idiomatic English.
- Ability to read aloud both prose and poetry in correct meter in Latin using an accepted standard of pronunciation.
- Knowledge of the morphology, phonology, and syntax of Latin; and of the historical development of Latin and the place of Latin in the etymology of English words.
- Ability to write short compositions in Latin.
- Knowledge, as demonstrated in essays or papers, of: a) major aspects of Greek and Roman history, cultural institutions and their connections to the western tradition and other world cultures b) the history and content of Greek and Roman literature, in translation or in the original c) classical mythology.

## Classics Minor

<https://cola.unh.edu/classics-humanities-italian-studies/program/minor/classics>

### Description

Classics encompasses the interdisciplinary study of the Greeks and Romans, as well as the ways in which the ancient world's influence extends to the Medieval Period, the Renaissance and the modern world. Studying classics, therefore, is to investigate several thousand years of material through the study of languages, literature, history, politics, law, archaeology, art, mythology and folklore, gender and sexuality, religious studies, philosophy and more—all with methods derived from a variety of humanistic and social science perspectives. This breadth provides an excellent liberal arts education that prepares students for a variety of careers, as well as for further study.

The coordinator is Scott Smith, Murkland Hall 301; Department of Classics, Humanities and Italian Studies; e-mail [scott.smith@unh.edu](mailto:scott.smith@unh.edu).

### Requirements

A minor in classics consists of five courses (20 credits).

Code	Title	Credits
Select five elective courses in classics, Greek and/or Latin		20
<b>Total Credits</b>		<b>20</b>

## Greek Minor

<https://cola.unh.edu/classics-humanities-italian-studies/program/minor/greek>

### Description

Explore the cultural foundations of Western civilization in the Greek minor, studying ancient and modern Greek and Greek history, literature, philosophy and religion. The minor complements studies in areas such as business, classics, history, the humanities, philosophy or international

affairs, and will help you prepare for a career at home or abroad, or for graduate studies.

The coordinator is Scott Smith, Murkland Hall 301; Department of Classics, Humanities and Italian Studies; e-mail [scott.smith@unh.edu](mailto:scott.smith@unh.edu).

## Requirements

A minor in Greek consists of five courses (20 credits).

Code	Title	Credits
Select five elective courses in Greek		20
<b>Total Credits</b>		<b>20</b>

## Latin Minor

<https://cola.unh.edu/classics-humanities-italian-studies/program/minor/latin>

### Description

In the Latin minor, you'll study Latin and the civilization, culture and mythology of the Roman world. You'll be able to improve your fluency and your composition skills, and read in the original such classics as Lucretius, Catullus, Vergil, Horace and Ovid.

The coordinator is Scott Smith, Murkland Hall 301; Department of Classics, Humanities and Italian Studies; e-mail [scott.smith@unh.edu](mailto:scott.smith@unh.edu).

## Requirements

A minor in Latin consists of five courses (20 credits).

Code	Title	Credits
Select five elective courses in Latin		20
<b>Total Credits</b>		<b>20</b>

## Cognates

- [Art History, Design, and Computer Sciences Cognate](#) (p. 53)
- [Digital Writing and Literature Cognate](#) (p. 53)
- [Intercultural Communication for the Professional World Cognate](#) (p. 53)
- [Medical Sociology Cognate](#) (p. 136)
- [Philosophy of Business, Innovation, & Technology Cognate](#) (p. 123)
- [Political and Legal Philosophy Cognate](#) (p. 124)
- [Skills and Perspectives for the Digital World Cognate](#) (p. 188)
- [Studies in Fashion and Design Cognate](#) (p. 150)
- [Studies in the Design of Interior Space Cognate](#) (p. 149)
- [Technical Writing and Public Speaking Cognate](#) (p. 54)
- [Philosophy of Business, Innovation, & Technology Cognate](#) (p. 123)

# Art History, Design, and Computer Sciences Cognate

<https://cola.unh.edu/art-art-history/program/cognate/art-history-design-computer-sciences>

## Description

The cognate is for students to develop basic skills in art history and design as well as computer programming. The aim is for them to be able to apply programming skills to develop projects related to museum collections management and visitor experience, research projects, website design for cultural institutions, and art market intelligence and data transparency. Students will be encouraged to learn the basic concepts of art history and design and combine them in creative ways with emerging technologies such as Augmented Reality, Virtual Reality, 3D modelling and more traditional website design. The aim is to give students a head start on how emerging technologies can come together with the art market as well as cultural heritage to help document, preserve, investigate and present it for future generations.

## Requirements

Students will need to complete the following three modules, preferably in order.

Code	Title	Credits
<b>1. Arts</b>		<b>4</b>
Select one of the following:		
ARTH 440A	From Digging to Digital: Preserving and Displaying the Past	
ARTH 474	Introduction to Architectural History	
ARTH 480	Introduction to Art History	
ARTS 510	Principles of Design	
<b>2. Computer Sciences</b>		<b>4</b>
Select one of the following:		
CS 405	Introduction to Applications Programming	
CS 408	Living in a Networked World: The Good, the Bad, and the Ugly	
CS 410P	Introduction to Scientific Programming/Python	
CS 414	From Problems to Algorithms to Programs	
CS 415	Introduction to Computer Science I	
CS 457	Introduction to Data Science and Analytics	
IT 403	Introduction to Internet Technologies	
After completion of the two required courses above:		
<b>3. Digital Applications <sup>1</sup></b>		<b>4</b>
Select one of the following:		
ARTH 674	Greek Art and Architecture	
ARTH 675	Roman Art and Architecture	
ARTH 699	Museum Studies	
HIST 771	Museum Studies	
Any other 600-level Art History course, by instruction permission (WI)		
<b>Total Credits</b>		<b>12</b>

<sup>1</sup> Students should aim to complete a project focused on digital applications.

## Digital Writing and Literature Cognate

<https://cola.unh.edu/english/program/cognate/digital-writing-literature>

## Description

Many jobs nowadays require not only solid reading and writing skills; but also the ability to deploy and adapt these skills in a variety of electronic, professional, public and semi-public platforms. This cognate builds students' ability to comprehend and interpret difficult texts (including complex instructions); to edit, proofread and frame their work for different audiences and contexts; and to navigate rudimentary markup (code) and varied electronic interfaces with confidence and independence.

In consultation with a program advisor, students may choose to pursue a "track": e.g., courses like ENGL 623 Creative Nonfiction and ENGL 712 Multimedia Storytelling may serve as a "creative" track for students interested in honing their digital storytelling and audio skills; while ENGL 693 Special Topics in Literature and ENGL 739 American Indian Literature may offer students a way in to cultural heritage management or nonprofit careers. Alternatively, students already focused on a particular course of study (e.g., journalism) may wish to learn how digital tools work in parallel fields (thus taking ENGL 631 Digital Reporting to enhance their digital reporting skills while also taking ENGL 739 American Indian Literature to learn how to edit Wikipedia).

Contact the Department of English, 230F Hamilton Smith Hall or (603) 862-1313, with questions.

## Requirements

Code	Title	Credits
ENGL 501	Introduction to Creative Nonfiction	4
or ENGL 502	Professional and Technical Writing	
Choose any two from the following:		8
ENGL 602	Advanced Professional and Technical Writing	
ENGL 620	English Major Internship (Digital Archiving and Editing)	
ENGL 623	Creative Nonfiction (see advisor for help in identifying appropriate section)	
ENGL 631	Digital Reporting	
ENGL 693	Special Topics in Literature (Topic N, Introduction to Digital Humanities)	
ENGL 712	Multimedia Storytelling	
ENGL 739	American Indian Literature	
ENGL 789	Special Topics in English Teaching (Teaching English in the 21st Century)	
<b>Total Credits</b>		<b>12</b>

Credit toward the cognate will only be given for courses passed with C- or better, and a 2.00 grade-point average must be maintained in courses for the cognate. Courses taken on the pass/fail basis may not be used for the cognate.

## Intercultural Communication for the Professional World Cognate

<https://cola.unh.edu/languages-literatures-cultures/program/cognate/intercultural-communication-professional-world>

## Description

This cognate is designed to provide students with the means to develop a global perspective, intermediate communication skills, and an understanding of the dynamics of intercultural communication. Research has linked study abroad experience with students' future employability, and "intercultural/global competence" in particular is a skill valued by employers in a wide range of fields. This cognate provides students a

means to attain these valuable, marketable skills, as well as a means to demonstrate this to potential employers.

Contact the Department of Languages, Literatures and Cultures with questions [LLC.dept@unh.edu](mailto:LLC.dept@unh.edu) or call (603) 862-4005.

## Requirements

Code	Title	Credits
<b>Professional Culture <sup>1</sup></b>		
Choose one of the following:		4
LLC 535A	Professional Culture in European Union - - Case Study: Germany	
LLC 535B	Professional Culture in Latin America - Case Study: Mexico and Brazil	
LLC #535C	Professional Culture in Asia - Case Study: China and Japan	
<b>Language Skills</b>		
Choose any modern language course numbered 503 or above (503, 631, 632) consistent with the region covered in the professional culture course above and the study abroad experience below		4
<b>Study Abroad Experience</b>		
Choose any program in country for 5 weeks or longer that involves coursework in the target or host language/ language other than English <sup>2</sup>		4
<b>Total Credits</b>		12

<sup>1</sup> Taught in English, fulfills WC Discovery, no prior knowledge assumed

<sup>2</sup> Students can petition for an alternate experience, such as The Washington Center Program, as long as the internship placement involves foreign language use. Preferably, this will relate to the same region covered in the professional culture course and the language skills course, but that is not required.

Credit toward the cognate will only be given for courses passed with C- or better, and a 2.00 grade-point average must be maintained in courses for the cognate. Courses taken on the pass/fail basis may not be used for the cognate.

## Technical Writing and Public Speaking Cognate

<https://cola.unh.edu/english/program/cognate/technical-writing-public-speaking>

### Description

The cognate in technical writing and public speaking (TWPS) offers students intensive instruction in oral and written communication as important means of addressing technical, professional or practical problems whose solutions require others' cooperation. Students learn practical precepts for analyzing those "communication situations" and for making informed, strategic decisions when composing oral and written responses in response to them. Students also undergo extensive practice creating standard and, thus, widely applicable forms of spoken and written communication. All students acquire a foundation in effective expression by taking introductory courses in public speaking and in professional and technical writing. Students then build upon that foundation and complete the cognate with one advanced course in either public speaking or professional and technical writing. This cognate is attractive to students who recognize that effective expression is valued in nearly any field of endeavor they are likely to pursue in their post-graduate lives.

Please contact the Liberal Arts Dean's Office for additional information, (603) 862-2062, 110 Murkland Hall.

## Requirements

Code	Title	Credits
<b>Introductory Courses</b>		
CMN 500	Public Speaking	4
ENGL 502	Professional and Technical Writing	4
<b>Advanced Course</b>		
Choose one of the following:		
CMN 600 or ENGL 602	Public Speaking as a Civic Art Advanced Professional and Technical Writing	4
<b>Total Credits</b>		12

Credit toward the cognate will only be given for courses passed with C- or better, and a 2.00 grade-point average must be maintained in courses for the cognate. Courses taken on the pass/fail basis may not be used for the cognate.

## Communication (CMN)

The Department of Communication at UNH emphasizes a range of studies in human communication, including rhetoric, media and interpersonal communication. Students are taught to analyze verbal, nonverbal and mediated messages from a variety of perspectives including historical, critical, interpretive and empirical approaches. Students explore connections and interrelationships among the people, environments, technologies and messages that comprise the social world.

The communication major prepares students well for a wide variety of careers in business, media, marketing, government, education, health, advocacy and social services. While offering access to a cutting-edge media lab and courses that teach students multi-media production skills, the department's primary focus is analytical rather than vocational. We do not train students to do specific communication tasks, such as managing social media profiles or creating promotional content. Rather, we help students develop an understanding of how communication works the way it does, and how different modes of communication shape understanding and social relations. Students grapple with such "how" and "why" questions as they study real-world political issues, news events, cultural phenomena and communication between friends, family members, colleagues, community members and strangers.

The department is committed to providing a strong liberal arts orientation that helps students develop their abilities to think — to describe, analyze, critique, explore, integrate, synthesize and create ideas. The department's faculty members believe that these are the skills and abilities that will be the most useful resources in students' professional, civic and personal lives after leaving UNH. The program trains students to understand, adapt to and participate in social change. These educational efforts lead to the kind of fundamental understanding that identifies the communication professional and also provides a firm foundation for advanced, graduate study in communication and related fields.

The department's faculty members have a strong national and international reputation for their research and publications. In addition, the department is recognized on campus for its commitment to teaching. About half of the department's tenure-track faculty members have won awards for teaching excellence. The faculty is also very active in university, community and professional service.

The department offers a business applications option for communication majors who want to augment the liberal arts focus of their major with

professional training in such areas as marketing, advertising and organizational behavior.

The department offers a media practices option for communication majors who want to augment their major with training in media production and applied media communication through courses at UNH-Manchester Communication Arts Department.

The department also offers internships, which are designed to integrate classroom study and supervised practical experience in a work setting. Internship credits do not count toward completion of the communication major, but they do contribute to the total number of credits needed for graduation.

## Communication Major (B.A.)

<https://cola.unh.edu/communication/program/ba/communication-major>

## Description

The purpose of the communication major is to prepare students to engage more knowingly with the communicative patterns, problems and practices that they will encounter in their personal, professional and civic lives. This purpose requires that students learn to move beyond commonplace and conventional understandings of "communication" and acquire sophisticated perspectives — workable orientations — for describing, analyzing, reflecting upon and engaging with those patterns, problems and practices. Accordingly, the major not only acquaints students with a variety of empirical, critical, historical, theoretical and pragmatic perspectives on communication phenomena, but encourages them to formulate workable orientations of their own for engaging with communication issues and questions. Students who graduate with a communication major are prepared to become thoughtful and proficient "communication decision-makers" during their postgraduate lives.

Students wishing to declare communication as a major should contact the department's academic adviser, [Andrew Sharp](#) ([andrew.sharp@unh.edu](mailto:andrew.sharp@unh.edu)), for application information and requirements.

## Requirements

Majors must complete ten courses (40 credits) with a 2.0 overall average in the major. The distribution of required courses for the major is as follows:

Code	Title	Credits
Complete the following three introductory courses: <sup>1</sup>		
CMN 455	Introduction to Media Studies	4
CMN 456	Propaganda and Persuasion	4
CMN 457	Introduction to Language and Social Interaction	4
Select three 500-level communication analysis courses <sup>2</sup>		12
Select four upper-division courses <sup>3</sup>		16
<b>Total Credits</b>		<b>40</b>

- Majors must earn a grade of C or better in each introductory course.
- Students must complete the 400-level prerequisite before taking a 500-level course.
  - At least two of the three 500-level courses must have different 400-level prerequisites.
  - Majors must earn a grade of C- or better in all three analysis courses.
  - CMN 500 Public Speaking, CMN 599 Internship, and CMN 575 Research Practicum cannot be used to fulfill an analysis course requirement.
- Students are eligible to take upper-division courses after successfully completing at least two of the 500-level analysis courses, each with a different 400-level prerequisite.
  - At least one of the student's four upper-division courses must be at the 700 level.
  - Majors must earn a grade of C- or better in all upper-division courses.
  - Up to four credits of CMN 795 can be used towards the major, but can only fulfill the capstone requirement with department approval.
  - CMN 796 Comm-Entary Journal cannot be used to fulfill the advanced-level requirement.

A maximum of 8 credits of independent study (CMN 795 Independent Study) may be counted toward the major. CMN 799H Honors Thesis and CMN 796 Comm-Entary Journal cannot be used to fulfill an advanced course requirement. The Discovery Program Capstone requirement may be fulfilled by completing any 700-level communication course except CMN 796 Comm-Entary Journal. CMN 795 Independent Study can only fulfill the capstone requirement with department approval and can be repeated for a maximum of 8 credits.

Transfer students must complete 20 credits of their communication coursework at UNH to complete the major satisfactorily. Exchange students may transfer no more than 10 approved credits from another institution to be applied toward completion of the communication major at UNH.

Candidates for a degree must satisfy all of the University Discovery Program requirements in addition to satisfying the requirements of each individual major program. Bachelor of arts candidates must also satisfy the foreign language proficiency requirement.

Major department courses may not be used to satisfy Discovery category requirements except in the case of a second or dual major.

## Student Learning Outcomes

1. Students will be able to describe the Communication discipline and its central questions. We expect students to be able to:

- Explain and synthesize the history of Communication theory.
- Articulate the differences between approaches within the discipline (media studies, language and social interaction, and rhetorical studies).
- Identify contemporary debates within the field.
- Distinguish Communication scholarship from other areas of study.
- Understand the role of Communication scholarship in society.
- Articulate the relevance of communication in civic life, including an ability to apply key concepts in the field to world events, situations, or problems.

2. Students will be able to think critically about communication processes by applying communication theories and concepts. We expect students to be able to:

- Identify theories, perspectives, principles, and concepts relevant to the discipline.
- Recognize academic writing, identify the work's thesis, explain its method, assess the evidence used, and determine its significance.
- Engage with communicative patterns, processes, problems, and practices that they encounter in their personal, professional and civic lives.
- Acquire effective frameworks for describing, analyzing, reflecting upon, and engaging with those patterns, processes, problems, and practices.

3. Prepare students to become thoughtful and proficient communicators. We expect students to be able to:

- Become critical consumers of messages.
- Understand how meanings are constructed by speakers and audiences.
- Evaluate claims and arguments, and to be able to explain how they are grounded.
- Recognize the collaborative construction of meaning and its relation to social change.
- Explore the ways in which various forms of communication constitute, maintain, and transform social life.
- Formulate coherent arguments/theses, provide support for their perspectives, and communicate them clearly and logically.
- Select creative and appropriate modalities and technologies to accomplish communicative goals.
- Adapt messages and coordinate communication with others recognizing the diverse needs.

## Communication Major: Business Applications Option (B.A.)

<https://cola.unh.edu/communication/program/ba/communication-major-business-applications-option>

## Description

The Department of Communication in collaboration with the Department of Marketing and the Department of Management in the Peter T. Paul College of Business and Economics offers a business applications option for communication students. The objective of the business applications option is to offer a select group of communication students the opportunity to augment the liberal arts focus of their major with professional training in such areas as marketing, advertising and organizational behavior. Qualified students who meet all requirements will graduate<sup>1</sup> with a B.A. degree in communication: business applications, an achievement which will be recorded on their official transcripts.

## Minimum Requirements for Option Eligibility

1. Declared communication major.
2. Completion of CMN 455 Introduction to Media Studies, CMN 456 Propaganda and Persuasion, and CMN 457 Introduction to Language and Social Interaction with a C or better.
3. Completion of at least one CMN 500-level course with a C- or better.
4. Maintain minimum in-major GPA of 2.5.
  - Student enrollment in the Business Applications Option will be contingent upon **space availability**.
  - Overall, total enrollment should **not exceed twenty students** in any given academic year.

<sup>1</sup> Students admitted to the option must earn a minimum 2.5 cumulative grade point average in major courses at graduation or they will, by default, graduate with a BA in Communication without the special option designation on their diplomas.

## Requirements

### Major Courses

Completion of all Communication major requirements.

Majors must complete ten courses (40 credits) with a 2.0 overall average in the major. The distribution of required courses for the major is as follows:

Code	Title	Credits
Complete the following three introductory courses: <sup>1</sup>		
CMN 455	Introduction to Media Studies	4
CMN 456	Propaganda and Persuasion	4
CMN 457	Introduction to Language and Social Interaction	4
Select three 500-level communication analysis courses <sup>2</sup>		12
Select four upper-division courses <sup>3</sup>		16
<b>Total Credits</b>		<b>40</b>

- <sup>1</sup>
  - Majors must earn a grade of C or better in each introductory course.
- <sup>2</sup>
  - Students must complete the 400-level prerequisite before taking a 500-level course.
  - At least two of the three 500-level courses must have different 400-level prerequisites.

- Majors must earn a grade of C- or better in all three analysis courses.
- CMN 500 Public Speaking, CMN 599 Internship, and CMN 575 Research Practicum cannot be used to fulfill an analysis course requirement.

- <sup>3</sup>
- Students are eligible to take upper-division courses after successfully completing at least two of the 500-level analysis courses, each with a different 400-level prerequisite.
  - At least one of the student's four upper-division courses must be at the 700 level.
  - Majors must earn a grade of C- or better in all upper-division courses.
  - Up to four credits of CMN 795 can be used towards the major, but can only fulfill the capstone requirement with department approval.
  - CMN 796 Comm-Entary Journal cannot be used to fulfill the advanced-level requirement.

## Option Courses and Internship

Code	Title	Credits
ADMN 400	Introduction to Business	4
CMN 599	Internship <sup>1</sup>	4
Choose two:		8
MGT 520	Topics in Management	
MKTG 520	Topics in Marketing	
MKTG 530	Survey of Marketing	
MGT 535	Organizational Behavior	
Total Credits		16

<sup>1</sup> Students undergo a business applications internship experience **that must be completed in one semester**. (Prerequisites: CMN 455, CMN 456, CMN 457)

A maximum of 8 credits of independent study (CMN 795 Independent Study) may be counted toward the major. CMN 799H Honors Thesis and CMN 796 Comm-Entary Journal cannot be used to fulfill an advanced course requirement. The Discovery Program Capstone requirement may be fulfilled by completing any 700-level communication course except CMN 796 Comm-Entary Journal. CMN 795 Independent Study can only fulfill the capstone requirement with department approval and can be repeated for a maximum of 8 credits.

Transfer students must complete 20 credits of their communication coursework at UNH to complete the major satisfactorily. Exchange students may transfer no more than 10 approved credits from another institution to be applied toward completion of the communication major at UNH.

Candidates for a degree must satisfy all of the University Discovery Program requirements in addition to satisfying the requirements of each individual major program. Bachelor of arts candidates must also satisfy the foreign language proficiency requirement.

Major department courses may not be used to satisfy Discovery category requirements except in the case of a second or dual major.

## Student Learning Outcomes

1. Students will be able to describe the Communication discipline and its central questions. We expect students to be able to:

- Explain and synthesize the history of Communication theory.
- Articulate the differences between approaches within the discipline (media studies, language and social interaction, and rhetorical studies).
- Identify contemporary debates within the field.
- Distinguish Communication scholarship from other areas of study.
- Understand the role of Communication scholarship in society.
- Articulate the relevance of communication in civic life, including an ability to apply key concepts in the field to world events, situations, or problems.

2. Students will be able to think critically about communication processes by applying communication theories and concepts. We expect students to be able to:

- Identify theories, perspectives, principles, and concepts relevant to the discipline.
- Recognize academic writing, identify the work's thesis, explain its method, assess the evidence used, and determine its significance.
- Engage with communicative patterns, processes, problems, and practices that they encounter in their personal, professional and civic lives.
- Acquire effective frameworks for describing, analyzing, reflecting upon, and engaging with those patterns, processes, problems, and practices.

3. Prepare students to become thoughtful and proficient communicators. We expect students to be able to:

- Become critical consumers of messages.
- Understand how meanings are constructed by speakers and audiences.
- Evaluate claims and arguments, and to be able to explain how they are grounded.
- Recognize the collaborative construction of meaning and its relation to social change.
- Explore the ways in which various forms of communication constitute, maintain, and transform social life.
- Formulate coherent arguments/theses, provide support for their perspectives, and communicate them clearly and logically.
- Select creative and appropriate modalities and technologies to accomplish communicative goals.
- Adapt messages and coordinate communication with others recognizing the diverse needs.

## Communication Major: Media Practices Option (B.A.)

<https://cola.unh.edu/communication/program/ba/communication-major-media-practices-option>

## Description

The Department of Communication in collaboration with the Communication Arts Department at the UNH Manchester campus offers the media practices option. This option is designed for qualified students who want to augment their communication major at Durham with training in media production and applied media communication through courses in the Communication Arts Department at the Manchester Campus.<sup>1</sup> Qualified students who meet all requirements will graduate with a B.A. degree in communication with a media practices option, an achievement which will be recorded on their official transcripts.

## Minimum Requirements for Option Eligibility

1. Declared Communication Major.
2. Completion of CMN 455 Introduction to Media Studies, CMN 456 Propaganda and Persuasion, and CMN 457 Introduction to Language and Social Interaction with a C or better.
3. Maintain minimum in-major GPA of 2.5.

<sup>1</sup> Students are responsible for their own travel arrangements between Durham and Manchester campuses.

## Requirements

## Major Courses

Completion of all Communication major requirements.

Majors must complete ten courses (40 credits) with a 2.0 overall average in the major. The distribution of required courses for the major is as follows:

Code	Title	Credits
Complete the following three introductory courses: <sup>1</sup>		
CMN 455	Introduction to Media Studies	4
CMN 456	Propaganda and Persuasion	4
CMN 457	Introduction to Language and Social Interaction	4
Select three 500-level communication analysis courses <sup>2</sup>		
Select four upper-division courses <sup>3</sup>		16
<b>Total Credits</b>		<b>40</b>

- <sup>1</sup>
  - Majors must earn a grade of C or better in each introductory course.
- <sup>2</sup>
  - Students must complete the 400-level prerequisite before taking a 500-level course.
  - At least two of the three 500-level courses must have different 400-level prerequisites.
  - Majors must earn a grade of C- or better in all three analysis courses.
  - CMN 500 Public Speaking, CMN 599 Internship, and CMN 575 Research Practicum cannot be used to fulfill an analysis course requirement.
- <sup>3</sup>
  - Students are eligible to take upper-division courses after successfully completing at least two of the 500-level analysis courses, each with a different 400-level prerequisite.

- At least one of the student's four upper-division courses must be at the 700 level.
- Majors must earn a grade of C- or better in all upper-division courses.
- Up to four credits of CMN 795 can be used towards the major, but can only fulfill the capstone requirement with department approval.
- CMN 796 Comm-Entary Journal cannot be used to fulfill the advanced-level requirement.

## Option Courses

Code	Title	Credits
Completion of two media practices courses (8 credits) in the Department of Communication Arts at Manchester campus from among the following: <sup>1</sup>		8
CA 500	Media Writing	
CA 502	Image and Sound	
CA 512	Screenwriting	
CA 514	Fundamentals of Video Production	
CA 515	Advanced Video Production	
CA 517	Fundamentals of Audio Prod	
CA #520	Special Topics in Applied Communication	

## Internship

Code	Title	Credits
Based on work experience at a site directly relevant to applied media practices or production for a minimum of 4 academic credits completed in one semester. Junior standing is required. <sup>2</sup>		4
CMN 599	Internship	

- <sup>1</sup> Students may arrange to take Media Practices (CA) courses at any time during the course of their academic programs after they have satisfactorily completed the three 400-level introductory courses. Thus, students may take the 500-level CA courses before, concurrently with, or after completion of CMN 500-level courses and/or CMN 600-level courses.
- <sup>2</sup> Visit our [Internships webpage](#) for procedures on how to arrange internships.

A maximum of 8 credits of independent study (CMN 795 Independent Study) may be counted toward the major. CMN 799H Honors Thesis and CMN 796 Comm-Entary Journal cannot be used to fulfill an advanced course requirement. The Discovery Program Capstone requirement may be fulfilled by completing any 700-level communication course except CMN 796 Comm-Entary Journal. CMN 795 Independent Study can only fulfill the capstone requirement with department approval and can be repeated for a maximum of 8 credits.

Transfer students must complete 20 credits of their communication coursework at UNH to complete the major satisfactorily. Exchange students may transfer no more than 10 approved credits from another institution to be applied toward completion of the communication major at UNH.

Candidates for a degree must satisfy all of the University Discovery Program requirements in addition to satisfying the requirements of each individual major program. Bachelor of arts candidates must also satisfy the foreign language proficiency requirement.

Major department courses may not be used to satisfy Discovery category requirements except in the case of a second or dual major.

## Student Learning Outcomes

1. Students will be able to describe the Communication discipline and its central questions. We expect students to be able to:

- Explain and synthesize the history of Communication theory.
- Articulate the differences between approaches within the discipline (media studies, language and social interaction, and rhetorical studies).
- Identify contemporary debates within the field.
- Distinguish Communication scholarship from other areas of study.
- Understand the role of Communication scholarship in society.
- Articulate the relevance of communication in civic life, including an ability to apply key concepts in the field to world events, situations, or problems.

2. Students will be able to think critically about communication processes by applying communication theories and concepts. We expect students to be able to:

- Identify theories, perspectives, principles, and concepts relevant to the discipline.
- Recognize academic writing, identify the work's thesis, explain its method, assess the evidence used, and determine its significance.
- Engage with communicative patterns, processes, problems, and practices that they encounter in their personal, professional and civic lives.
- Acquire effective frameworks for describing, analyzing, reflecting upon, and engaging with those patterns, processes, problems, and practices.

3. Prepare students to become thoughtful and proficient communicators. We expect students to be able to:

- Become critical consumers of messages.
- Understand how meanings are constructed by speakers and audiences.
- Evaluate claims and arguments, and to be able to explain how they are grounded.
- Recognize the collaborative construction of meaning and its relation to social change.
- Explore the ways in which various forms of communication constitute, maintain, and transform social life.
- Formulate coherent arguments/theses, provide support for their perspectives, and communicate them clearly and logically.
- Select creative and appropriate modalities and technologies to accomplish communicative goals.
- Adapt messages and coordinate communication with others recognizing the diverse needs.

## Communication Minor

<https://cola.unh.edu/communication/program/minor/communication>

### Description

Students who enroll in a communication minor have the flexibility of structuring their pathway of five courses to explore the ways in which various forms of communication constitute, maintain and transform

social life. The program trains students to understand, adapt to and participate in social change. We offer courses in media studies, rhetoric and face-to-face interaction. We'll encourage you to "learn how to learn," to become clear and precise writers, and to develop your abilities to think — to describe, analyze, critique, explore, integrate, synthesize and create ideas. The department's faculty members believe that these are the skills and abilities of a strong liberal arts education that will be the most useful resources in students' professional, civic and personal lives after leaving UNH.

The contact for the communication minor is the department's academic adviser, [Andrew Sharp \(andrew.sharp@unh.edu\)](mailto:andrew.sharp@unh.edu).

## Requirements

Students who pursue a communication minor must complete any five courses (20 credits) within the minor with a C or better at the 400 level and with a C- or better at the 500, 600, and 700 levels, and maintain a minimum grade-point average of 2.0.

## Required Courses

Code	Title	Credits
Select 5 communication courses		20
Total Credits		20

Any combination of five communication courses is acceptable. Please see exceptions below.

- Communication minor students are not able to count both CMN 500 Public Speaking and CMN 600 Public Speaking as a Civic Art toward the minor.
- CMN 575 Research Practicum and CMN 599 Internship do not count toward the minor
- No more than two transfer courses from other institutions can be applied to the minor and all transfers are contingent upon departmental approval.
- No more than 4 credits of independent study can count toward the minor.
- No pass/fail or credit/fail courses can count toward the minor.

## Education (EDUC)

### Basic Programs

Undergraduate course work in Education engages students in a diverse and varied collection of educational experiences that prepare them for present and future challenges as well as for a wide range of employment opportunities in education and professional settings engaged in education policy, community-based education, and advocacy.

Undergraduate students have the following options:

- Educational Studies Dual Major (first major + education major)
- Education Minor
- Special Education Minor
- Teacher Certification in Elementary Education & ESOL
- Teacher Certification in Other Content Areas

### Accelerated Master's Program

UNH undergraduate students with a 3.2 or higher cumulative grade-point average (GPA) can apply for "early admission" to the Graduate

School either one or two semesters prior to their final semester as an undergraduate. Admitted students may register for a maximum of 12 credits of dual-credit coursework (undergraduate & graduate level coursework) prior to completing their bachelor's degree. To receive graduate credit, students must be admitted to the Graduate School before the start of the semester in which the course(s) will be taken and need to maintain a 3.2 GPA or higher until their undergraduate degree is awarded. Applying for early admission involves the regular Graduate School application at [www.gradschool.unh.edu](http://www.gradschool.unh.edu).

### Program Philosophy

The following conceptual framework guides all of the programs that prepare professionals in education at the University of New Hampshire:

The professional education unit at the University of New Hampshire seeks to prepare practitioners who will become leaders in their own practice settings and within their profession, applying knowledge to improve education for all students and enrich the lives of clients. Immersion in subject matter, research, theory and field-based experience provide a base for our graduates to make well-reasoned judgments in complex situations, render informed decisions, model exemplary practice, and take initiative for planned change.

Students learn to establish caring and thoughtful environments that celebrate individual differences and backgrounds while fostering cooperation and educational improvement. We stress reflective critical inquiry as a mode of study and community-building as a means to promote change. We value and support both our students' local practice and their broader leadership within the profession.

### Mission Statement of Programs in Educator Preparation

The following mission statement gives direction to the basic and advanced programs in teacher education:

We seek to prepare beginning teachers who demonstrate excellence in classroom practice and who will become educational leaders. Our graduates will possess the knowledge, skills, and dispositions required for outstanding classroom practice and eventual leadership within the local school community and the larger education community.

### Undergraduate Work toward Teacher Certification in Elementary & Secondary Education

#### Step I. Enroll in Exploring Teaching: Education 500

Students are encouraged to take [EDUC 500: Exploring Teaching](#), as a sophomore, however, completion during junior or senior year also can leave enough time for other education course requirements.

#### Step II. Professional Coursework in Education at the Undergraduate Level

Education 500 is a prerequisite to further work in the teacher education program. An undergraduate receives a co-adviser in the Department of Education (usually the Exploring Teaching instructor). Along with the major adviser, this co-adviser works with the student to plan the undergraduate portion of the five-year teacher education program.

#### Step III. Admission to the Internship and Graduate Phase of our Educator Preparation Programs

Undergraduate students apply to the Graduate School second semester of their junior year or first semester of their senior year. As mentioned above, students admitted to the Accelerated Master's Program begin

their graduate degree coursework senior year, earning a maximum of 12 graduate credits over one or two semesters.

The final phase of the program includes a full-year internship, electives, and an inquiry research project. This phase normally takes an academic year, plus a few summer courses to complete.

The year-long internship and inquiry research project ([EDUC 900: Internship and Seminar in Teaching](#) / [EDUC 901: Internship and Seminar in Teaching](#)) comprises the final stage of the five-year program. The elementary internship also includes a two-course sequence in literacy instruction (EDUC 808 & 809, or ENGL 816 and EDUC 812 or ENGL 815).

The internship is a teaching and learning experience in which the intern works in an elementary or secondary school over the course of an entire school year. It typically begins in late August and runs through late April / early May. Due to the intensive time commitment, it is recommended that, at most, only one course be taken in addition to the internship each semester. Interns become a part of the school staff, sharing appropriate instructional tasks and often carrying the full instructional duties in one or more classes.

Interns are mentored and supervised by a school staff member who is designated as a "cooperating teacher" or "CT", along with a UNH faculty member who collaborates in intern supervision and conducts a weekly two-hour seminar for all interns with whom s/he is working.

Before the internship, students have completed a bachelor's degree with a major outside of education. Because of this, they possess depth of knowledge in a subject area and a broad general education, in addition to substantive course preparation for teaching. Secondary education candidates must have completed an approved major, or its equivalent, in the subject that they intend to teach. Elementary education candidates may pursue an undergraduate major in any area, though majors in the core disciplines taught in elementary schools are desirable.

Undergraduates apply for the internship in the fall of their senior year and participate in a school placement process early spring semester. Starting the process early will facilitate finding the best setting for students' needs and goals. The director of field experiences in Durham and the associate director of teacher education in Manchester play a major role in identifying internship sites and prospective CT's, and they consult regularly throughout the placement process.

Internship applications are available at the Department of Education, Durham, and the Office of Teacher Education, Manchester. Admission to the internship requires a completed application to the internship, admission to the UNH Graduate School, and a consultation with the director of field experiences.

- [Educational Studies Dual Major](#) (p. 61)
- [Educational Studies Major: Equity, Diversity & Inclusion \(B.A.\)](#) (p. 62)
- [Education Minor](#) (p. 63)
- [Special Education Minor](#) (p. 64)

## Faculty

<https://cola.unh.edu/education/faculty-staff-directory>

## Education Four-Year, Undergraduate Options

<https://cola.unh.edu/education/program/bs/education-four-year-undergraduate-options-ba-bm>

### Description

The Educational Studies Major: Equity, Diversity & Inclusion (B.A.) four-year program is for students interested in becoming teachers in elementary school settings. Graduates will be eligible for certification by the NH Department of Education in elementary education plus English to Speakers of Other Languages (ESOL).

- [Educational Studies Major: Equity, Diversity & Inclusion \(B.A.\)](#)

A bachelor's degree including a one-semester student-teaching requirement allows students to be recommended for licensure in certain specialized areas. Those areas are

- [Health and Physical Education Major \(B.S.\)](#)
- [Human Development and Family Studies Major \(B.S.\) - Child Development/Early Childhood Education](#)
- [Mathematics Education Major: Secondary Option \(B.S.\)](#)
- [Mathematics Education Major: Elementary/Middle School Education K-8 Option \(B.S.\)](#)
- [Music Education Major \(B.M.\)](#)
- [Theatre Major: Secondary Theatre Education Option \(B.A.\)](#)
- [Theatre Major: Dance Option \(B.A.\)](#)

### Requirements

See the [Educational Studies Major: Equity, Diversity & Inclusion \(B.A.\)](#) page for the requirements of this program.

For the specialized areas listed on the Description tab (i.e., health and physical education, human development and family studies, math education, music education, theatre and dance education), students must fulfill requirements for the major appropriate for the licensure being sought, in addition to the following core professional courses or their equivalent:

Code	Title	Credits
EDUC 500	Exploring Teaching	4
EDUC 605	Educational Perspectives in Critical Times	4
EDUC 701	Human Development & Learning: Cultural Perspectives	4
EDUC 751A or EDUC 751B	Inclusive Elementary Education: Literacies and Learning for Diverse Learners Methods of Inclusive Secondary Education: Literacies, Learning, and Transitions	4
EDUC 694	Courses in Supervised Teaching	8

A minimum 2.8 cumulative grade-point average at the time of application to student teaching is required. Students in music, mathematics, and physical education need to apply by March 1st of the junior year and October 15th of the senior year for spring semester to the Department of Education for student teaching. An unofficial transcript and a current resume must accompany the application. Return

applications to the Department of Education Office, 203 Morrill Hall or [Education.Department@unh.edu](mailto:Education.Department@unh.edu).

## Educational Studies Dual Major

<https://cola.unh.edu/education/program/educational-studies-dual-major>

### Description

The dual major in educational studies is designed for students who are interested in an education that integrates field-work and research in a range of educational settings, including classrooms, museums and non-profits whether they aspire to become educators, activists, policymakers or deepen their knowledge of education as informed citizens.

The dual major in educational studies is committed to deepening our understanding of educational institutions and the processes necessary to bring about systemic changes that lead to equity and access to a first-rate educational experience for all students. In addition to core courses and electives taught by educational studies faculty, our dual major benefits from a wide array of cross-referenced courses offered by other departments and programs, including Gender and Women's Studies, Anthropology, History, Economics, Political Science, Psychology, Sociology, Theatre and Dance and others. Although the interdisciplinary major does not lead to teacher certification, we do advise students from across the University on pathways to teaching.

### Requirements

The dual major in educational studies requires **(32 credits)** each completed with a **C+ or better**. Any education course to be applied for a future teacher licensure requirement must be completed with a grade of **B- or better**. The dual major cannot be declared until after a first major has been declared and students must have a UNH undergraduate GPA of a 2.50 or better at the time of declaring. The required minimum overall GPA in major coursework is 2.50.

### Required courses

Code	Title	Credits
<b>Foundations</b>		<b>4</b>

EDUC 520	Education, Poverty, and Development	
<b>Core Courses</b>		<b>8</b>
Two (2) core courses emphasizing interdisciplinary grounding in education and learning (All 700 level Ed courses are open to only Juniors and Seniors):		
EDUC 605	Educational Perspectives in Critical Times	
EDUC 701	Human Development & Learning: Cultural Perspectives	
<b>Elective Courses</b>		<b>12</b>
Choose three (3) elective courses, providing students with opportunities for focused inquiry in educational studies. Students may either emphasize a single cluster or take elective coursework in more than one cluster below:		
<b>Instructional Methods in Schools</b>		
EDUC 703C	Classroom Management: Creating Positive Learning Environments	
EDUC 703F	Teaching Elementary School Science	
EDUC 703M	Teaching Elementary Social Studies	
EDUC 706	Teaching & Learning Literacy in the Elementary Classroom	
EDUC 745	Math with Technology in Early Education	
MATH 601	Exploring Mathematics for Teachers I	
MATH 703	Teaching of Mathematics in Grades K-5	

<b>Language and Literacy</b>	
EDUC 506	Mentoring Readers and Writers in the Elementary Grades
EDUC 550	Language and Linguistic Diversity in Schools
EDUC 712	Teaching Multilingual Learners
EDUC 734	Critical Perspectives on Children's Literature
<b>Special Education</b>	
EDUC 556	Peer to Peer Mentoring for Students with Disabilities
EDUC 650	Introduction to Disability in Inclusive Schools and Communities
EDUC 656	Advocating for Diverse and Inclusive Family-School-Community Partnerships
EDUC 751A	Inclusive Elementary Education: Literacies and Learning for Diverse Learners
EDUC 751B	Methods of Inclusive Secondary Education: Literacies, Learning, and Transitions
EDUC 760	Introduction to Young Children with Special Needs
EDUC 761	Designing Curriculum for Inclusive, Equitable Settings for Young Children (birth-8)
<b>Critical and Diverse Perspectives</b>	
EDUC 444B	Public Issues, Democratic Schooling & Active Citizenship in a Global Context
EDUC 520	Education, Poverty, and Development
EDUC 525	Teaching Race
EDUC 718	Critical Social Justice in and Beyond Education
<b>Law and Educational Policy</b>	
EDUC 767	Students, Teachers, and the Law
<b>Capstone Course</b>	
EDUC 784	Educators as Community-Engaged Researchers
or Semester in the City if completed during senior year	
or INCO 790 Advanced Research Experience and URC Presentation	
or McNair Research Thesis	
or A capstone in their first major-if it's related to an Educational Studies project and approved by both advisors and the director of Undergraduate Studies.	
<b>Total Credits</b>	<b>32</b>

Candidates for a degree must satisfy all of the University Discovery Program requirements in addition to satisfying the requirements of each individual major program. Bachelor of arts candidates must also satisfy the foreign language proficiency requirement.

Students who are interested in a dual major in Educational Studies will need to file an *Intent to Dual Major Form*. The form is available from the program website at [cola.unh.edu/education](https://cola.unh.edu/education). For more information, please contact [education.department@unh.edu](mailto:education.department@unh.edu).

## Student Learning Outcomes

**GOAL ONE:** Our students effectively analyze the social dimensions of education, to include issues of culture, gender, equity, health, and economics. Specifically, students will:

- demonstrate understanding of the roles of gender, race, ethnicity, and economic class in effecting education in formal and informal settings.
- demonstrate understanding of the history and politics of education including the principles, assumptions and impacts of school reform initiatives, education, international development and economic globalization as well as alternatives for defining and pursuing diverse conceptions of education, quality of life, and equity.
- demonstrate understanding of how economics and markets shape private and public actions and outcomes with respect to education on local, regional, national and global scales.
- demonstrate understanding of the origins, similarities and differences among concepts of diversity, universality, pluralism, multiculturalism, and cosmopolitanism and their implications for education in formal and informal at a variety of scales.
- demonstrate cultural self-awareness and cultural sensitivity in analysis, synthesis, visioning, design and intervention related to studies in education.

- demonstrate an understanding of the role of public health related to education at various scales.

**GOAL TWO:** Our students engage diverse histories of education in the context of civic engagement, activism, and commitment to equity and justice for Social Good. Specifically, students will:

- demonstrate understanding of the relationship between awareness and action and be able to articulate theories of ethics and civic engagement in the context of educational initiatives on local, national and international levels.
- demonstrate understanding of the principles, assumptions and frameworks of educating for equity and justice from diverse perspectives.
- critique these issues based on their direct experience in "engaged learning" projects as well as in historical social movement analogues, including civil rights, abolition, environmental movements, and women's suffrage.

## Educational Studies Major: Equity, Diversity & Inclusion (B.A.)

<https://cola.unh.edu/education/program/ba/educational-studies-equity-diversity-inclusion>

### Description

The UNH major in educational studies: equity, diversity and inclusion (EDI) offers students committed to becoming teachers in elementary school settings opportunities to integrate knowledge and research methodologies from several academic disciplines and field sites into a focused examination of the interdisciplinary field of education. The four-year educational studies: EDI major program is designed for students who seek a rich understanding of education grounded in science, the arts and the humanities. The principles of equity, diversity and inclusion are woven throughout every course and field experience. All declared majors choose one of two strands of EDI: special education or multilingual learners. Graduates will be eligible for certification by the NH Department of Education in elementary education plus English to Speakers of Other Languages (ESOL).

The goal of the program is to graduate civically, globally and intellectually engaged students who understand the complexities of education, are capable of analyzing and evaluating complex problems influencing education from a variety of disciplinary perspectives, and are committed to becoming community teachers — teachers who are leaders and role-models in the communities in which they teach. Program graduates will be prepared for present and future challenges as well as for a wide range of employment opportunities in educational and professional settings engaged in educational policy, community-based education and educational advocacy.

### Requirements

The major in educational studies: equity, diversity, and inclusion requires **88-98 credits** with each course completed with a **B- or better**. The required minimum overall GPA in major coursework is **3.0**.

Code	Title	Credits
<b>Foundations (24 credits)</b>		
EDUC 402	Introduction to Educational Studies: Social Change and Education in Local and Global Contexts	4
EDUC 500	Exploring Teaching	4
EDUC 525	Teaching Race	4
or EDUC 520	Education, Poverty, and Development	
EDUC 605	Educational Perspectives in Critical Times	4
EDUC 656	Advocating for Diverse and Inclusive Family-School-Community Partnerships	4
EDUC 701	Human Development & Learning: Cultural Perspectives	4
or PSYC 581	Child Development	
<b>Curriculum and Methods (36 credits)</b>		
MATH 601	Exploring Mathematics for Teachers I	4
MATH 703	Teaching of Mathematics in Grades K-5	4
EDUC 703C	Classroom Management: Creating Positive Learning Environments	4
EDUC 703F	Teaching Elementary School Science	4
EDUC 703M	Teaching Elementary Social Studies	4
EDUC 706	Teaching & Learning Literacy in the Elementary Classroom	4
EDUC 733	Teaching Writing in the Elementary Grades	4
or EDUC 734	Critical Perspectives on Children's Literature

EDUC 761	Designing Curriculum for Inclusive, Equitable Settings for Young Children (birth-8)	4
<b>Field Experiences: Communities and Classrooms (2-6 credits)</b>		
(2-6 credits of one or more of the following 500/600 field experience courses)		
EDUC 506	Mentoring Readers and Writers in the Elementary Grades	4
EDUC 507	Mentoring Adolescents in Community Settings	2
EDUC 556	Peer to Peer Mentoring for Students with Disabilities	2
EDUC 610H	Field Experience in Educational Studies	1-8
<b>Choose ONE of the following two paths:</b>		
<b>PATH A: Inclusive Education for Students with Disabilities (12 credits)</b>		
EDUC 650	Introduction to Disability in Inclusive Schools and Communities	4
EDUC 739	Equitable Assessment and Individualized Educational Planning: Building Access and Agency	4
EDUC 740	Advanced Methods for Inclusive Curricular Design and Teaching: Building Access and Agency, Part II	4
<b>PATH B: Multilingual Learners (16 credits)<sup>1</sup></b>		
ENGL 405	Introduction to Linguistics	4
or ENGL 791	English Grammar	
EDUC 550	Language and Linguistic Diversity in Schools	4
or ENGL 719	Sociolinguistics Survey	
ENGL 715	Teaching English as a Second Language: Theory and Methods	4
or EDUC 712	Teaching Multilingual Learners	
ENGL 716	Curriculum, Materials and Assessment in English as a Second Language	4
<b>Culminating Experiences (16 credits)</b>		
EDUC 798	Internship and Seminar in Inclusive Teaching	4
EDUC 799	Internship and Seminar in Inclusive Teaching	8
EDUC 784	Educators as Community-Engaged Researchers	4

<sup>1</sup> Students may pursue a TESOL minor by completing 4 additional credits (see TESOL minor for course options).

Students are encouraged to complete a study away program or a robust cross-cultural experience such as Semester in the City or through the National Student Exchange.

Course selection for a B.A. in Educational Studies is designed in close consultation with a Department of Education advisor.

Candidates for a degree must satisfy all of the University Discovery Program requirements in addition to satisfying the requirements of each individual major program. Bachelor of arts candidates must also satisfy the foreign language proficiency requirement.

Major department courses may not be used to satisfy Discovery category requirements except in the case of a second or dual major.

## Student Learning Outcomes

- **GOAL ONE:** Our students effectively analyze the social dimensions of education, to include issues of culture, gender, equity, health and economics.
- **GOAL TWO:** Our students are able to recognize and respond to systematic and pervasive acts of marginalization that may percolate through schools and school communities and are situated within the contexts of more complex intersections among students' abilities, languages, races, ethnicities, religions, genders and sexualities, all of which impact student identity, motivation, interest and connection to education.
- **GOAL THREE:** Our students demonstrate depth of knowledge in their subjects; recognize how knowledge in their subjects is created, organized and linked to other disciplines; identify the organizing themes and central concepts necessary for understanding a subject; and identify associated content necessary for students to understand these themes and concepts.
- **GOAL FOUR:** Our students understand how students develop and learn; treat students equitably and work diligently to help each student reach his or her potential; and create and maintain an atmosphere conducive to learning.
- **GOAL FIVE:** Our students demonstrate specialized knowledge of how to teach subject matter to their students. They use multiple approaches to facilitate student learning. They create lessons that are engaging, appropriately challenging, and motivating for students. They involve students in thoughtful inquiry and reflection.
- **GOAL SIX:** Our students use multiple strategies to assess students, regularly assess student progress using appropriate measures, and demonstrate the ability to make informed decisions about students and their learning based on classroom, district and state assessments.
- **GOAL SEVEN:** Our students make well-reasoned choices and decisions within the complex and demanding conditions of teaching. They analyze the effects of their actions and make appropriate changes. They consider the moral and philosophical implications of educational decisions. They improve their practice by reflecting on their own experience, observing others, seeking advice and drawing upon educational research and scholarship.
- **GOAL EIGHT:** Our students assess the relative merits of educational reform efforts and determine their appropriateness to the classroom, school and broader societal contexts in which teaching and learning occur. They develop and articulate their own conceptual and philosophical perspective on teaching and learning based on professional experience and current theories and research in education. They understand the nature of educational change, the teacher's role in the change process, and are willing to take risks as advocates for the benefit of students, teachers and the profession.
- **GOAL NINE:** Our students are active members of learning and professional communities. They work with colleagues to enhance their own teaching, learning and professional development and work collaboratively with students, peers and community members to create and contribute to effective learning environments.

## Education Minor

<https://cola.unh.edu/education/program/minor/education>

## Description

Explore the field of education. Five courses (20 credits) comprise the minor in Education.

A Certification of Completion of Minor form needs to be completed at the beginning of a student's final undergraduate semester at UNH. Forms are available from the Registrar's Office or the Department of Education Office.

## Requirements

A minor consists of twenty (20) credits in Education Department courses.

Code	Title	Credits
Select five (5) education courses		20
<b>Total Credits</b>		<b>20</b>

A methods course located in another department may be counted for four (4) of these twenty (20) credits (e.g., ARTS 791 or ARTS 792, ENGL 792, MATH #708, MATH 709, etc.).

No more than eight (8) credits used by the student to satisfy major requirements may be used for the minor.

Courses used in obtaining a minor in special education cannot be used towards a minor in education.

EDUC 500 Exploring Teaching can only be counted once (four credits) towards the minor.

No more than two (2) transferred courses in Education or a closely-related area from another college or university may be used towards a minor in Education. A three-credit (3) course transferred from another school will count for three credits (3) at UNH, not four credits (4).

## Special Education Minor

<https://cola.unh.edu/education/program/minor/special-education>

## Description

Explore the field of special education. Five courses (20 credits) comprise the minor in Special Education.

A Certification of Completion of Minor form needs to be completed at the beginning of a student's final undergraduate semester at UNH. Forms are available from the Registrar's Office or the Department of Education Office.

## Requirements

A minor consists of 20 credits in Education Department courses. The specific courses required for the minor are:

Code	Title	Credits
<b>Required Courses</b>		
EDUC 650	Introduction to Disability in Inclusive Schools and Communities	4
EDUC 656	Advocating for Diverse and Inclusive Family-School-Community Partnerships	4
Choose one of the following: <sup>1</sup>		4
EDUC 751A	Inclusive Elementary Education: Literacies and Learning for Diverse Learners	
EDUC 751B	Methods of Inclusive Secondary Education: Literacies, Learning, and Transitions	

### Elective Courses

Choose two of the following:		8
EDUC 556	Peer to Peer Mentoring for Students with Disabilities <sup>2</sup>	
EDUC 720	Educational Technology	
EDUC 745	Math with Technology in Early Education	
EDUC #752	Contemporary Issues in Learning Disabilities	
EDUC #757	Contemporary Issues in Autism Spectrum Disorders	
EDUC 760	Introduction to Young Children with Special Needs	
EDUC 761	Designing Curriculum for Inclusive, Equitable Settings for Young Children (birth-8)	
EDUC 762	Curriculum for Young Children with Special Needs: Evaluation and Program Design	
One course taken at UNH in a closely related department		
<b>Total Credits</b>		<b>20</b>

<sup>1</sup> Section to be determined by the undergraduate major and future career interests

<sup>2</sup> May be taken twice as the content/readings are different each semester

No more than one required course or one elective may be a transfer course. A three-credit course taken transferred from another school will count for three credits at UNH, not four credits. A minor in Special Education does **NOT** lead to a teaching certification.

## English (ENGL)

The English department offers four majors: English, English literature, English teaching and English/journalism. A fifth undergraduate program is the interdepartmental linguistics major. We also offer the English/law 3+3 option for students interested in pursuing a JD after just 3 years of undergraduate study as an English major and the English major/text, business writing and digital studies option.

Though we offer several different programs in the English department, our shared focus is on studying the expressive possibilities of the English language in its myriad forms. Our classes pursue three teaching missions. First, we train students in professional study of the English language. Second, we offer students ways of understanding the various traditions of works written in English, with emphasis upon close reading and placing works in historical and cultural contexts. Third, and particularly important, we teach students to write with clarity, persuasiveness and elegance, and for a variety of audiences and situations. In all of our undergraduate English majors, we provide our students with critical thinking, writing and research skills that will enrich their personal and professional lives.

## Writing Programs

The Department of English offers courses for students interested in becoming writers. Writing workshops are offered in fiction, poetry and creative nonfiction. Intermediate-level courses may be taken more than once for credit, especially with two different instructors.

<https://cola.unh.edu/english>

## Programs

- [English Literature Major \(B.A.\)](#) (p. 65)
- [English Major \(B.A.\)](#) (p. 66)
- [English Major: Text, Business Writing and Digital Studies Option \(B.A.\)](#) (p. 68)
- [English Major: Law 3+3 Option \(B.A.\)](#) (p. 70)

- [English Teaching Major \(B.A.\)](#) (p. 73)

English Literature Major (B.A.)

<https://cola.unh.edu/english/program/ba/english-literature>

Description

The English literature major serves those students who want to focus particularly on the study of literature — its many forms and styles, its rich history and the range of approaches to its analysis. The English literature track is an especially attractive major for those who plan to go on to graduate school.

As an English literature major, a student will learn about various literary traditions, both British and American literature as well as traditions organized around other principles, such as post-colonial literature, women's literature, African-American literature and genres like poetry and drama. Courses are designed to expose students to many different sorts of works and to help them develop questions and strategies of critical thinking that will make all kinds of literary expression meaningful. And the works students will study will provide many ways of looking at the world and enrich their quality of life. What's more, students have many opportunities to hone critical writing and research skills and to practice the art of presenting research findings to a group, all skills in high demand in today's workplace. The English literature major is an excellent way to combine development of interpretive and writing skills with an exciting, in-depth encounter with some of the very best writing ever produced in the English language.

Requirements

As an English literature major, you must complete a minimum of 40 credits of major coursework with a grade of C- or better, with the exception of ENGL 419 How to Read Anything, which you must complete with a grade of C or better. You may not use ENGL 401 First-Year Writing, ENGL 415s, "Literature and..." courses, or ENGL 444 classes to satisfy major requirements.

A minimum of six courses must be completed at the 600 level or higher.

Code	Title	Credits
Coursework must meet the following distribution requirements (a single course may satisfy multiple requirements):		
ENGL 419	How to Read Anything <sup>1</sup>	
Select two 500-level literature courses (select from list below)		
Select two pre-1800 literature courses (select from list below)		
Select two post-1800 literature courses (select from list below)		
ENGL 714	Critical Skills	
Select one American literature course at the 600/700 level		
Select one British literature course at the 600/700 level		
Select one course that addresses race, the construction of race, and racial theories in a U.S. context (select from list below)		
Select one course that investigates Anglophone literature in a global or transnational context (select from list below)		

Select one course in a specific genre including, poetry, memoir, nonfiction, drama, fiction, and film with the exception of ENGL 533 (select from list below)

Capstone:	
ENGL 787	English Major Seminar

<sup>1</sup> This must be completed with a minimum grade of "C." *ENGL 419 How to Read Anything is the only 400-level class that may count towards the English literature major.*

Code	Title	Credits
500-level Courses		
ENGL/LING 405	Introduction to Linguistics	
ENGL 501	Introduction to Creative Nonfiction	
ENGL 502	Professional and Technical Writing	
ENGL 503	Persuasive Writing

ENGL 797R	Special Studies in Literature (Race & Racial Theories)	

<sup>1</sup> With the exception of ENGL 533 Introduction to Film Studies

Please see your advisor if you have questions about other courses that might fulfill these requirements.

Candidates for a degree must satisfy all of the University Discovery Program requirements in addition to satisfying the requirements of each individual major program. Bachelor of arts candidates must also satisfy the foreign language proficiency requirement.

The required minimum overall GPA in major coursework is 2.0.

English literature majors may use one major-required course to satisfy one Discovery category requirement.

Majors may only count one online course toward their English major requirements.

Students interested in majoring in English literature should consult Carla Cannizzaro, academic/career counselor, Department of English, 230F Hamilton Smith Hall, (603) 862-1313 or the director of the English literature program.

## Student Learning Outcomes

English Department Student Learning Outcomes: Undergraduate program Undergraduate students in the English Department at the University of New Hampshire have many options as they advance to degree. They can choose to complete a general English major or opt to follow one of several specialized tracks: English Literature, Journalism, English Teaching, and Linguistics. I. All undergraduate English majors acquire the same core skills. These include:

- Proficiency in analytical writing, critical thinking, and public-speaking.
- Knowledge of important literary genres and subgenres
- Fluency in literary terminology,
- A broad understanding of British-and-American literature, from the medieval period in England and the moment of first contact in America to the present day.
- Demonstrated proficiency in writing an analytical essay that offers a sophisticated close-reading or explication of a literary text. This essay will have a clear thesis and proceed in a logical fashion, with interpretive claims supported by evidence from the text.
- Demonstrated proficiency in literary research and in writing an extended thesis-driven research paper in which sources are correctly and responsibly cited.

Demonstrated understanding of how to read across the color line in the US and /or how to analyze literary works written in English from outside the UK and the US—from India, Africa, and the Caribbean, for example. II. Students in our major tracks acquire the following specialized skills.

## English Major (B.A.)

<https://cola.unh.edu/english/program/ba/english>

## Description

Our general English major has two objectives: provide our students with a common core of literary experience and expertise, and offer them opportunity to shape a course of study suited to their personal interests. By offering flexible requirements, we encourage students to devise a path through coursework that has an intelligent rationale. If

students have a special interest in writing, for example, they can take the minimum number of literature courses (five) and complete the major by taking offerings in fiction, creative nonfiction and poetry writing; if students' interests are in literary studies, they can focus on offerings in that arena; or they can match up courses from different arenas in the department (say, literature and writing courses focused on poetry). All the undergraduate courses we offer in the English department are open to English majors so students can sample a range of courses in literature, linguistics, creative or nonfiction writing, and English teaching, according to how particular interests may change and grow.

The guiding principle of the general English major, then, is that it is open and liberal by design. It allows students to sample a variety of courses in order to study the operation of language from many perspectives.

## Requirements

### Major Requirements

1. Students must complete a minimum of 40 credits of with a minimum grade of C-.
2. The required minimum overall GPA is 2.0.
3. ENGL 401, 415s, "Literature and..." courses, 444s, ENGL 620 and ENGL 788 may not be used to satisfy major requirements.
4. A total of six courses must be numbered 600 and above.
5. One major-required course may be used to satisfy one Discovery category requirement.
6. Only one online course may count toward major requirements.
7. Special Topics in Literature courses (e.g. ENGL 693, 787, 797) may be used to satisfy Pre-1800 or Post-1800 and/or Race Requirement areas if the designated topic is appropriate.
8. Capstone must be completed with a minimum grade of C. May not be double-counted toward major requirements. Submit a Capstone Declaration form indicating the English course to be taken at the time of registration.

Capstone (one 700-level ENGL course)		4

Please see your advisor if you have questions about other courses that might fulfill these requirements.

If you're interested in majoring in English please contact Carla Cannizzaro, academic/career counselor, Department of English, 230F Hamilton Smith Hall, (603) 862-1313.

## Student Learning Outcomes

Undergraduate students in the English Department at the University of New Hampshire have many options as they advance to degree. They can choose to complete a general English major or opt to follow one of several specialized tracks: English Literature, Journalism, English Teaching, and Linguistics. I. All undergraduate English majors acquire the same core skills. These include:

- Proficiency in analytical writing, critical thinking, and public-speaking.
- Knowledge of important literary genres and subgenres
- Fluency in literary terminology,
- A broad understanding of British-and-American literature, from the medieval period in England and the moment of first contact in America to the present day.
- Demonstrated proficiency in writing an analytical essay that offers a sophisticated close-reading or explication of a literary text. This essay will have a clear thesis and proceed in a logical fashion, with interpretive claims supported by evidence from the text.
- Demonstrated proficiency in literary research and in writing an extended thesis-driven research paper in which sources are correctly and responsibly cited.
- Demonstrated understanding of how to read across the color line in the US and /or how to analyze literary works written in English from outside the UK and the US—from India, Africa, and the Caribbean, for example.

## English Major: Text, Business Writing and Digital Studies Option (B.A.)

<https://cola.unh.edu/english/program/ba/english-major-text-business-writing-digital-studies-option>

### Description

The modern workplace requires that employees be adaptable. The Bureau of Labor Statistics conducted a long-term study that showed people held 11.7 jobs between the ages of 18 and 48, and those numbers are increasing with people moving between jobs more frequently every year. It is crucial that we prepare our students not just for one industry, but rather arm them with the transferable skills of critical reading, writing, analysis, production, theory and aesthetics of new forms in digital media and business. Students will leave this major option with the skills that are in the highest demand in all fields today.

This major option addresses the growing demand for graduates who are well-versed in a combination of humanistic and digital skills and able to work in a variety of professional environments. In particular, graduates of this option will be prepared for careers at cultural and historical institutions, as well as in emerging job markets of information management and online content delivery. This specialization complements areas requirements for the English major but it is not limited to English majors. Double majors are encouraged. Small classes, a great sense of community and a diversity of faculty specializations create an atmosphere that propels students toward success. Students will receive real-life work experience through our internship class, and they will also leave this major with a digital portfolio that contains a collection of professional projects that can be used on the job market.

In this English major option, students are trained in the critical reading, analysis, production, theory and aesthetics of new forms in media and business. These forms include but are not limited to social media, business writing conventions, modes of digital storytelling (i.e. audio and video essays, podcasts and wikis), digital archives, web design, and online communities and interaction. Students are also trained in analysis through traditional humanistic literature and they are expected to fulfill the core learning objectives shared by *all English major tracks*. These include:

- the ability to communicate and debate effectively with others, both orally and in writing,
- the ability to closely examine a variety of texts (including modern digital artifacts and archival materials)
- developing the ability to use a variety of media and communication platforms;
- experience and practice in dynamic critical thinking and creativity

### Requirements

#### Eleven courses (44 credits)

Completed with a **minimum grade of C-** (with the exception of ENGL 419, which must be completed with a grade of C or better).

Students must meet the following distribution requirements. **Note that any one course may satisfy more than one requirement:**

Code	Title	Credits
ENGL 419	How to Read Anything <sup>1</sup>	4
One 500-level Introductory Course. Select from the following:		4
ENGL 501	Introduction to Creative Nonfiction (Digital Essay version)	
ENGL 502	Professional and Technical Writing	
ENGL 503	Persuasive Writing (Text, Business Writing, Digital version)	
ENGL 510	Introduction to the Digital Humanities	4
ENGL 602	Advanced Professional and Technical Writing	4
Select three ENGL courses numbered 600 or above <sup>2</sup>		12
Select two pre-1800 literature courses (select from the list below)		8
Select two post-1800 literature courses (select from the list below)		8
Select one course that addresses race, the construction of race, and racial theories (select from the list below)		4
Capstone: <sup>3</sup>		4
ENGL 796	The Internship Experience	
Digital Portfolio		

<sup>1</sup> Must be completed with a minimum grade of “C” to count towards the major.

<sup>2</sup> Students may include any advanced-level ENGL courses in which **20% of student assessment/work includes a digital humanities, digital research, or digital production component** (even if taken to fulfill literature requirements). *ENGL 602 may NOT be double counted for this requirement. Look for the 'DH' designation in the course descriptions during registration.*

<sup>3</sup> **The Internship Experience:** Experiential learning course that allows students to apply all of the writing, speaking, and critical thinking skills into an on-the-job experience, enabling them first-hand practice with writing documents at work, peer collaboration, public speaking opportunities/presentations, and supervision and evaluation. Students must have JR or SR status to enroll in this course. Students should submit a Capstone Declaration form indicating the ENGL course taken for Capstone credit at time of registration. Capstone Declaration forms can be picked up in the main English office.

**Digital Portfolio:** A minimum of six polished projects represented in a digital portfolio started in ENGL 602 and expanded over your career at UNH. A reflective essay will accompany this portfolio. This is a non-credit degree requirement.

Please see your advisor if you have questions about other courses that might fulfill these requirements.

### Notes:

To graduate from UNH, a student must earn a total of 128 credits.

Majors may only count one online course towards their major requirements.

English 403 'Exploring Literature', English 415 'Literature and...' and English 444 classes may NOT be used to satisfy ENGL major or minor requirements.

English majors may use one major-required course to satisfy one Discovery category requirement.

If you're interested in majoring in English: Text, Business Writing and Digital Studies please contact Carla Cannizzaro, academic/career counselor, Department of English, 230F Hamilton Smith Hall, (603) 862-1313.

## Student Learning Outcomes

Undergraduate students in the English Department at the University of New Hampshire have many options as they advance to degree. They can choose to complete a general English major or opt to follow one of several specialized tracks: English Literature, Journalism, English Teaching, and Linguistics. I. All undergraduate English majors acquire the same core skills. These include:

- Proficiency in analytical writing, critical thinking, and public-speaking.
- Knowledge of important literary genres and subgenres
- Fluency in literary terminology,
- A broad understanding of British-and-American literature, from the medieval period in England and the moment of first contact in America to the present day.
- Demonstrated proficiency in writing an analytical essay that offers a sophisticated close-reading or explication of a literary text. This essay will have a clear thesis and proceed in a logical fashion, with interpretive claims supported by evidence from the text.
- Demonstrated proficiency in literary research and in writing an extended thesis-driven research paper in which sources are correctly and responsibly cited.
- Demonstrated understanding of how to read across the color line in the US and /or how to analyze literary works written in English from outside the UK and the US—from India, Africa, and the Caribbean, for example.

## English Major: Law 3+3 Option (B.A.)

<https://cola.unh.edu/english/program/ba/english-major-law-33-option>

### Description

The 3+3 program offers highly motivated UNH undergraduate students of English the possibility to earn both a bachelor's degree and a law degree in six, rather than seven, years of study. After completing three years as an undergraduate and gaining admission to the UNH Law School through the approved process, the 3+3 program participant will become a full-time first-year law student. Upon successful completion of the first year of law study, the credits earned will be counted toward the JD degree and as elective credits sufficient to complete UNH's requirements for the bachelor's degree.

## Eligibility and Admission Process

### STEP ONE: Application to the 3+3 English/Law B.A./JD option

Students apply to the program either when they submit their applications to UNH, selecting the English/JD option on the online application, *OR* after they are admitted to UNH, by applying directly to the English Department's "English/Law 3+3 Committee." In both cases, undergraduate applicants must fulfill the general requirements for admission to the English major.

**Students applying at the time of admission to UNH will typically present the following high school credentials:**

- A **3.5 GPA** in high school (UNH recalculates high school GPA's to a 4.0 weighted scale)
- A rigorous high school curriculum defined as the following:

- 4 years of college prep (CP) or higher English
- 4 years of CP or higher mathematics
- 4 years of CP or higher social studies/history
- Completed at least level 3 of a foreign language
- 3 or more years of CP or higher laboratory sciences.
- A recommended score of **1200** or better (combined Math and Verbal) on the SAT or a **29** on the ACT.

**Currently enrolled UNH students applying to the program must:**

- Have a **3.5 GPA** in college courses at the time of application. The English Department committee governing admission to the 3+3 program will also consider past SAT scores, maturity, and the ability to complete a highly demanding program of study based on performance thus far.
- For both groups, it is important to note that satisfying these requirements does not guarantee admission to this program. The review process is holistic (meaning all parts of the application carry weight and influence the final decision) and other components of the application will influence any admission decisions. Available space within the program will also influence who is admitted and how many students can be accepted.

## STEP TWO: Application to UNH Law school

To be eligible, students must:

- Complete all Discovery and major requirements, and accrue at least 98 credits before beginning law school in their Senior year.
- Maintain at least a **3.5 GPA** (including transfer credits) at time of application to law school, and at the end of their Junior year.
- Take the LSAT no later than December of the final undergraduate year (i.e. the Junior year) and earn a score of **157 or above**.
- Submit the law school application through the Law School Admissions Council by January of the calendar year in which the student wishes to enroll in law school.

## Requirements

Students in the English/law 3+3 option complete the requirements of the English major. See the Degree Plan for the recommended path through the English major.

**Participation requires that students:**

- Complete all discovery and major requirements and **at least 98 credits** before beginning law school
- Maintain a **3.5 or above** grade point average, including transfer credits
- Take the LSAT no later than December of the final undergraduate year and have a score of **157 or above**.
- Submit the law school application through the Law School Admissions by January 1 of the year in which the student wishes to enroll in law school.

## Major Requirements

1. Students must complete a minimum of 40 credits of with a minimum grade of C-.
2. The required minimum overall GPA is 2.0.

- ENGL 401, 415s, "Literature and..." courses, 444s, ENGL 620 and ENGL 788 may not be used to satisfy major requirements.
- A total of six courses must be numbered 600 and above.
- One major-required course may be used to satisfy one Discovery category requirement.
- Only one online course may count toward major requirements.
- Special Topics in Literature courses (e.g. ENGL 693, 787, 797) may be used to satisfy Pre-1800 or Post-1800 and/or Race Requirement areas if the designated topic is appropriate.
- Capstone must be completed with a minimum grade of C. May not be double-counted toward major requirements. Submit a Capstone Declaration form indicating the English course to be taken at the time of registration.

## Law School Requirements

The following summarizes the required curriculum and bar recommended curriculum. 85 credits are required for graduation.

### Required courses include:

Administrative Process  
Criminal Procedure  
Professional Responsibility  
Upper Level Writing Course  
Upper Level Skills Course

### Bar recommended courses include:

Personal Taxation  
Business Associations  
Wills, Trust & Estates  
Evidence

Questions about the English/law 3+3 undergraduate program should be directed to Carla Cannizzaro, academic/career counselor, Department of English, 230F Hamilton Smith Hall, (603) 862-1313.

Questions about UNH Law School entry should be directed to Kevin Sousa, UNH pre-law advisor, 110 Murkland Hall, (603) 862-2062.

## Degree Plan

## The Path Through the English Undergraduate Major

Below is a suggested course outline to help guide English undergraduate students participating in the English/Law 3+3 program through completion of their major and Discovery program requirements. Variations to this suggested path of courses may be undertaken with the approval of the student's English undergraduate advisor.

Course	Title	Credits
<b>First Year</b>		
<b>Fall</b>		
ENGL 401	First-Year Writing	4
Discovery Course		4
ENGL 419	How to Read Anything	4
Foreign Language Course		4
<b>Credits</b>		<b>16</b>
<b>Spring</b>		
Discovery Course		4
Discovery Course		4
ENGL 500-level Course (512, 513 count as pre-1800 lit courses; 514, 516 are post-1800 lit.)		4
Select one of the following:		
ENGL 512	British Literature I Age of Heroes: Beowulf to Dr. Faustus	

ENGL 513W	British Literature II Age of Revolutions: Shakespeare to Austen	
ENGL 514W	British Literature III: Revolts, Renewals, Migrations	
ENGL 516W	American Literature II Money, Migration, and Modernity: Huck Finn to Beloved	
Foreign Language or Elective (if FL is completed in one semester)		4
<b>Credits</b>		<b>16</b>

### Second Year

#### Fall

Discovery Course		4
Discovery Course		4
ENGL 500-level Course (512, 513 count as pre-1800 lit courses; 514, 516 are post-1800 lit.)		4

Select one of the following:

ENGL 512	British Literature I Age of Heroes: Beowulf to Dr. Faustus	
ENGL 513W	British Literature II Age of Revolutions: Shakespeare to Austen	
ENGL 514W	British Literature III: Revolts, Renewals, Migrations	
ENGL 516W	American Literature II Money, Migration, and Modernity: Huck Finn to Beloved	
Any 500-700 Level ENGL Course		4
LAW 475	Getting Ready to Succeed in Law School (Option: can instead be taken in second year spring or third year fall.)	2
<b>Credits</b>		<b>18</b>

#### Spring

Discovery Course		4
Discovery Course		4
ENGL 600-700 Pre-1800 Literature Course (such a Shakespeare, Chaucer, Literature of Early America)		4
ENGL 600-700 Post-1800 Literature Course (such as Victorian Novel, Contemporary American Literature, Postcolonial Literature)		4
LAW 475	Getting Ready to Succeed in Law School (If not previously taken.)	2

**Credits** **18**

### Third Year

#### Fall

Discovery Course		4
Discovery Course		4
ENGL 600-700 Pre-1800 Literature Course (if you took 512 or 513, this can be any 600-700-level ENGL course.)		4
ENGL 600-700 Post-1800 Literature Course (If you took 514, 515, or 516, this can be any 600-700-level ENGL course.)		4
LAW 475	Getting Ready to Succeed in Law School (If not previously taken.)	2

**Credits** **18**

#### Spring

ENGL 600-700 Race Course Requirement		4
ENGL 600-700-level Elective Course		4
ENGL 787	English Major Seminar	4

Elective Course	4
<b>Credits</b>	<b>16</b>
<b>Total Credits</b>	<b>102</b>

**TOTAL:** 98 Credits (40 Discovery, 44 English, 4-8 Foreign Language, 4-8 Elective)

**NEED:** Beyond ENGL 401 First-Year Writing, 3 more WI courses, one in major, one at 600 level.

**LAW 475:** Students should take LAW 475 Getting Ready to Succeed in Law School at some point during their Sophomore year but no later than the first semester of their Junior year. This course, taught by a UNH Law School faculty member, will teach students how to prepare for a legal education. The course will instruct students on the LSAT exam and offer valuable strategies on how to improve LSAT scores. Such instruction will include administration of practice test questions as well as explanations for answers. This two-credit course will also explain the necessary study skills to excel in law school.

**HONORS:** It is not necessary to complete the honors program, but it is possible: Honors in Discovery + Honors in Major with Thesis (See addendum I) .

**SEQUENCE:** With the exception of ENGL 419 How to Read Anything and ENGL 787 English Major Seminar, English courses don't need to be taken in any specific order; the guide above is only a suggestion. In general, 500-level courses should be taken before 600-700 level ones. However, a student could take a class that satisfies the Race Requirement in Semester I of Junior year rather than Semester II, or a pre-1800 600-700 level literature course in Semester II of Junior year. As long as all the categories listed above are met, students have the flexibility to choose the courses that best meet their interests and schedules. There are some writing and journalism courses that have prerequisites, and students should be careful to note these before choosing upper-level courses in those fields.

**ADVISING:** It is very important that students progressing through the 3+3 English/Law program maintain close contact with their degree advisor. This will help students remain "on track" to complete degree requirements, and the advisor will guide the student into the next phase of the program, admission to the Law school. Students who **plan early and work closely** with their advisor may find it possible to include study abroad and participation in other University programs, if desired, but only with careful planning.

All students participating in the English/Law 3+3 program are strongly encouraged to consult with the pre-law advisor on campus: **Kevin Sousa**, [kevin.sousa@unh.edu](mailto:kevin.sousa@unh.edu) ([paula.dinardo@unh.edu](mailto:paula.dinardo@unh.edu)); 603-862-2062, 110 Murkland Hall.

## The Path Through UNH Law School

This is a possible Law School course outline. Variations to this suggested path of courses may be undertaken with the approval of the student's Law school advisor.

### Senior/First Year Law (31 credits)

Course	Title	Credits
<b>Fourth Year</b>		
<b>Fall</b>		
LGP 920	Contracts	3

LGP 909	Civil Procedure	4
LGP 960	Torts	3
LSK 919	Legal Analysis and Writing 1	2
LSK 900	Legal Research and Information Literacy	2
LGP 900	The Legal Profession	1
<b>Credits</b>		<b>15</b>

### Spring

LGP 969	Article II Sales	2
LGP 916	Constitutional Law	4
LGP 952	Property	4
LSK 920	Legal Analysis and Writing 2	3
LIP 944 or LPI 912	Fundamentals of Intellectual Property or Fundamentals of Law Practice	3
<b>Credits</b>		<b>16</b>
<b>Total Credits</b>		<b>31</b>

The schedule and track of the second and third years of law school are directed by each student with careful advising from the law faculty.

## Student Learning Outcomes

Undergraduate students in the English Department at the University of New Hampshire have many options as they advance to degree. They can choose to complete a general English major or opt to follow one of several specialized tracks: English Literature, Journalism, English Teaching, and Linguistics. I. All undergraduate English majors acquire the same core skills. These include:

- Proficiency in analytical writing, critical thinking, and public-speaking.
- Knowledge of important literary genres and subgenres
- Fluency in literary terminology,
- A broad understanding of British-and-American literature, from the medieval period in England and the moment of first contact in America to the present day.
- Demonstrated proficiency in writing an analytical essay that offers a sophisticated close-reading or explication of a literary text. This essay will have a clear thesis and proceed in a logical fashion, with interpretive claims supported by evidence from the text.
- Demonstrated proficiency in literary research and in writing an extended thesis-driven research paper in which sources are correctly and responsibly cited.
- Demonstrated understanding of how to read across the color line in the US and /or how to analyze literary works written in English from outside the UK and the US—from India, Africa, and the Caribbean, for example.

## English Teaching Major (B.A.)

<https://cola.unh.edu/english/program/ba/english-teaching-major>

### Description

Are you passionate about serving your community? Do you enjoy reading, writing, creative thinking and imagination? Are you eager to shape the future? The English teaching major could be a wonderful choice for you!

English teaching majors synthesize knowledge across areas — literature, language, composition, speaking, listening, identity, linguistics and education, just to name a few. We think critically and collaborate. We spark learning and we study it. We evaluate texts and resources, examine literacy skills, consider appropriate media, and design reading and writing opportunities and instruction in a variety of contexts. In particular, the English teaching major focuses on preparing future teachers and educational leaders, but the skills students learn are valuable in many settings, from the classroom to the workplace to the broader world.

The goal of the English teaching major is to prepare informed, thoughtful, and skilled English teachers who will become educational leaders in their own communities and in the teaching profession. In the English Department, students learn about literature, cultural theories of race and identity, composition, grammar, a variety of textual and digital media, and instructional practices appropriate to grades five through twelve. In the Education Department, students learn about human development, the history of schooling, and many philosophical perspectives on learning and education.

The final steps to becoming a teacher are completing a Master's program in the Education Department and applying for New Hampshire teacher certification. Students who choose one of these programs will complete graduate-level coursework and undertake a year-long teaching internship where they will collaborate with a teacher to apply their knowledge in a classroom. Students who complete this program are uniquely well prepared to become leaders in the profession over the long term. State certification is transferable to most other states, and, after five years, 88.7% of UNH master's program graduates report that they are teaching or employed in an education-related job. Join the English teaching major and turn your passion for English into a fulfilling career serving your community!

## Requirements

Completion of the undergraduate teaching major does not in itself meet state certification requirements. Students should enroll in the undergraduate major and:

Pass the following courses with an average of 2.5 or better:

Code	Title	Credits
ENGL 419	How to Read Anything	4
ENGL 514W	British Literature III: Revolts, Renewals, Migrations	4
ENGL 516W	American Literature II Money, Migration, and Modernity: Huck Finn to Beloved	4
ENGL 657	Shakespeare	4
Select one of the following:		8
ENGL 725 & ENGL 726	Seminar in English Teaching and Seminar in English Teaching	
ENGL 710 & ENGL 792	Teaching Writing and Teaching Literature and Literacy	
ENGL 791	English Grammar	4
Two additional literature courses numbered 600 or above <sup>1</sup>		8
One course that addresses race, the construction of race, and radical theories (see list below) <sup>2</sup>		0-4
Any English department course in writing, linguistics, critical theory, film, or literature <sup>3</sup>		4
Complete the Discovery Program capstone for English Teaching majors:		
ENGL 789	Special Topics in English Teaching	4
EDUC 500	Exploring Teaching	4

<sup>1</sup> ENGL 512 British Literature I Age of Heroes: Beowulf to Dr. Faustus or ENGL 513W British Literature II Age of Revolutions: Shakespeare to Austen may be substituted for one of the two required literature courses numbered 600 or above

<sup>2</sup> Other courses may count, when relevant and with prior written approval of the student's advisor. The course used to fulfill this requirement may be double counted within the 'Two literature courses 600 or above' OR 'Any English Department course...' requirement area.

<sup>3</sup> Except ENGL 401 First-Year Writing, ENGL 415s, "Literature and..." courses, and ENGL 444s

Code	Title	Credits
<b>Race, the Construction of Race, and Racial Theory Courses</b>		
ENGL 440A	On Race in Culture and Society	
ENGL #441	On Race and Culture in Society	
ENGL #517	Black Creative Expression	
ENGL 549	In the Groove: African American Music as Literature	
ENGL 550	Introduction to the Literature and Culture of Race	
ENGL 560	Introduction to Latinx Literature and Culture	
ENGL 585R	Introduction to Women in Literature	
ENGL 609	Ethnicity in America: The African American Experience in the 20th Century	
ENGL 650R	I Hear America Singing: Studying American Literature and Culture	
ENGL 690	African American Literature	
ENGL 693	Special Topics in Literature (subtopic R)	
ENGL 693R	Special Topics in Literature	
ENGL 738	Asian American Studies	
ENGL 739	American Indian Literature	
ENGL 743R	American Literature, 1865-1915: The Birth of the American Empire	
ENGL 749R	Major American Authors	
ENGL 758R	Advanced Shakespeare	
ENGL 774R	Modern & Contemporary British Literature: New Departures	
ENGL 778	Race and Gender in Film and Popular Culture	
ENGL 787R	English Major Seminar	
ENGL 797R	Special Studies in Literature (Race & Racial Theories)	

English teaching majors should apply for the fifth-year teaching internship and master's degree program by fall or spring of their senior year (usually September 30 for the internship and November 1 or February 1 for the master's program). Students with a GPA of 3.2 or better can apply for the master's degree program in their junior year. If accepted early, the student can earn graduate credit for up to three undergraduate English or education courses.

Candidates for a degree must satisfy all of the University Discovery Program requirements in addition to satisfying the requirements of each individual major program. Bachelor of Arts candidates must also satisfy the foreign language proficiency requirement.

English teaching majors may use one major-required course to satisfy one Discovery category requirement.

Majors may only count one online course towards their English major requirements.

Students interested in majoring in English teaching should consult Carla Cannizzaro, academic/career counselor, Department of English, 230F Hamilton Smith Hall, (603) 862-1313, or the director of the English teaching program, Prof. Alecia Magnifico.

## Student Learning Outcomes

Students will have the opportunity to compare philosophies of English teaching and learning, and to develop their own approaches to writing and literacy instruction in unit plans and lesson plans. In class, we will discuss theoretical and pedagogical ideas centered on student writing, engage in reading and writing exercises, produce and practice instructional activities and assessments, evaluate approaches to teaching writing, and review state-level standards and tests. Overall,

the aim of the course is recognition of literacy skills (including reading, writing, listening, speaking, and viewing) and consideration of how they can be used for learning goals including comprehension, analysis, description, and evaluation. Students will:

- Design activities, lessons, and units to meet established standards and objectives in writing and language use.
- Adapt materials for a variety of students' needs, including exceptional learners.
- Identify teaching resources among mentors, professional literature, conferences, organizations (e.g., National Council of Teachers of English [NCTE]), technology, and websites.
- Reflect and write on the theoretical bases for instructional decisions, evaluating professional literature and using appropriate academic conventions.
- Deliver engaging, on-point writing and language instruction appropriate to audience and content; practice a variety of presentation and discussion strategies.

## English/Journalism Major (B.A.)

<https://cola.unh.edu/english/program/ba/englishjournalism-major>

### Description

In our digital age, the ability to evaluate, edit, package and communicate information has become crucial to many, if not most, careers. Founded on the study of literature, the oldest form of story-telling, our English/journalism major prepares students for success in the media or any vocation that requires strong research and communications skills. Learn the basics: interviewing, fact gathering, verification and writing in both news and feature styles. Then broaden your repertoire by producing stories for digital platforms using audio, photo, video and data visualization.

### Requirements

English/journalism majors must complete ENGL 401 First-Year Writing before taking the first journalism course, ENGL 534 21st Century Journalism: How the News Works. After completing ENGL 534 21st Century Journalism: How the News Works, majors may move on to ENGL 621 Newswriting. Journalism majors must complete classes taken for major credit with a grade of C- or better, with the exception of ENGL 419 How to Read Anything and the course taken for Capstone credit.

Code	Title	Credits
ENGL 401	First-Year Writing	4
ENGL 419	How to Read Anything <sup>1</sup>	4
Select one pre-1800 literature course (select from list below)		4
Select one post-1800 literature course (select from list below)		4
Select one course that addresses race, the construction of race, and racial theories (select from list below)		4
Select one additional ENGL course at the 500, 600 or 700 level. Any English course may be used to satisfy this requirement except courses with a journalism focus (see list of excluded courses in footnote) <sup>2</sup>		4
ENGL 534	21st Century Journalism: How the News Works	4
ENGL 621	Newswriting	4
Select three additional journalism courses from the following:		12
ENGL 623	Creative Nonfiction	
ENGL 631	Digital Reporting	
ENGL 703T	Travel Writing	
ENGL 711	Editing	
ENGL 712	Multimedia Storytelling	

ENGL 721	Advanced Reporting
ENGL 722	Feature Writing
ENGL 723	Issues in Journalism
ENGL 735	Entrepreneurial Journalism
Capstone: Any English course at the 700 level (except ENGL 795). <sup>3</sup>	

- <sup>1</sup> Must be completed with a minimum grade of C. ENGL 419 How to Read Anything is the only 400-level class that may count towards the English/Journalism major. ENGL 415s, "Literature and..." courses, and ENGL 444s will NOT count towards this major.
- <sup>2</sup> English courses with a journalism focus are ENGL 534, ENGL 621, ENGL 623, ENGL 631, ENGL 703T, ENGL 711, ENGL 712, ENGL 720, ENGL 721, ENGL 722, ENGL 723, ENGL 725.
- <sup>3</sup> Capstone course may not be double-counted towards other major requirement areas. **Minimum grade required:** C. ENGL 788 Senior Honors written as part of the English Honors in Major program may be used as a Capstone course. Students must submit a Capstone Declaration form at the time of registration. Capstone course credit may not be applied retroactively.

Code	Title	Credits
<b>Pre-1800 Literature Courses</b>

ENGL 778	Race and Gender in Film and Popular Culture	
ENGL 787R	English Major Seminar	
ENGL 797R	Special Studies in Literature (Race & Racial Theories)	

(Note: the course used to fulfill this requirement may be double counted as one of the pre-1800 and post-1800 literature courses required for this major.)

Please see your advisor if you have questions about other courses that might fulfill these requirements.

Certain courses publish student writing digitally, at times in collaboration with professional news outlets. Students are also encouraged to write and edit for student publications such as *The New Hampshire* and *Main Street Magazine*.

Candidates for a degree must satisfy all of the University Discovery Program requirements in addition to satisfying the requirements of each individual major program. Bachelor of arts candidates must also satisfy the foreign language proficiency requirement.

English/journalism majors may use one major-required course to satisfy one Discovery category requirement.

Majors may only count one online course toward their English major requirements.

Students interested in the English/journalism major should see Carla Cannizzaro, academic/career counselor, Department of English, 230F Hamilton Smith Hall, (603) 862-1313, or the director of the Journalism Program, Prof. Tom Haines.

## Student Learning Outcomes

English Department Student Learning Outcomes: Undergraduate program  
Undergraduate students in the English Department at the University of New Hampshire have many options as they advance to degree. They can choose to complete a general English major or opt to follow one of several specialized tracks: English Literature, Journalism, English Teaching, and Linguistics.

I. All undergraduate English majors acquire the same core skills. These include:

- Proficiency in analytical writing, critical thinking, and public-speaking.
- Knowledge of important literary genres and subgenres
- Fluency in literary terminology,
- A broad understanding of British-and-American literature, from the medieval period in England and the moment of first contact in America to the present day.
- Demonstrated proficiency in writing an analytical essay that offers a sophisticated close-reading or explication of a literary text. This essay will have a clear thesis and proceed in a logical fashion, with interpretive claims supported by evidence from the text.
- Demonstrated proficiency in literary research and in writing an extended thesis-driven research paper in which sources are correctly and responsibly cited.
- Demonstrated understanding of how to read across the color line in the US and /or how to analyze literary works written in English from outside the UK and the US—from India, Africa, and the Caribbean, for example.

II. Students in our major tracks acquire the following specialized skills.

(1) English / Journalism majors will be able to:

- Demonstrate proficiency in a wide range of reporting skills (i.e., finding trends, understanding context, editing, and so forth).
- Find and interview credible sources.
- Know how to write feature articles, profiles, and other kinds of news stories.

(2) English Teaching Majors will be able to:

- Design activities, lessons, and units to meet established standards and objectives in writing and language.

## English Minor

<https://cola.unh.edu/english/program/minor/english>

### Description

The English minor offers students the opportunity to develop critical thinking, writing and research skills that will enrich both their personal lives and their professional careers. Students draw upon courses in literature, creative writing, journalism and linguistics to craft their own course of study.

Students interested in minoring in English may contact Carla Cannizzaro, academic/career counselor, Department of English, 230F Hamilton Smith Hall, (603) 862-1313 with any questions.

### Requirements

To minor in English at UNH, students complete five courses (20 credits).

Code	Title	Credits
<b>Required course</b>		
ENGL 419	How to Read Anything	4
Electives <sup>1</sup>		16
<b>Total Credits</b>		<b>20</b>

<sup>1</sup> Elective courses: at least three courses at the 600 level or above.

ENGL 401 First-Year Writing and ENGL 415s, "Literature and..." courses and ENGL 444s cannot be applied toward the English minor. No more than two transfer courses may be applied toward the English minor.

The minimum acceptable grade for each course is C-.

## Writing Minor

<https://cola.unh.edu/english/program/minor/writing>

### Description

With employers stressing the importance of writing skills and the writing demands of all professions increasing, the writing minor is designed to serve students who want to demonstrate sustained work with writing. Students take a concentration of courses in creative writing or journalism, focusing on the creative and practical uses of writing. The completion of a writing minor will enhance the job prospects in fields where the demands for writing is higher than ever. The writing minor also serves students who want to use the imagination to develop stories, poems, essays and screenplays.

### Requirements

Students must complete at least five 4-credit courses (20 credits) from the list of approved courses. At least three of the courses must be at the 600 level or higher. ENGL 415s, "Literature and..." courses cannot be applied toward the English writing minor. The minimum acceptable grade for each course is C-. No more than two transfer courses can be applied toward the English writing minor. English literature and English teaching majors may declare a writing minor with the approval of their faculty adviser. A maximum of two English courses (8 credits) are allowed to double-count toward the literature or teaching major and writing minor. Other English Department majors are not eligible to declare a writing minor.

## Courses that Count Toward the Writing Minor

Code	Title	Credits
ENGL 419	How to Read Anything	4
ENGL 501	Introduction to Creative Nonfiction	4
ENGL 502	Professional and Technical Writing	4
ENGL 503	Persuasive Writing	4
ENGL 526	Introduction to Fiction Writing	4
ENGL 527	Introduction to Poetry Writing	4
ENGL 602	Advanced Professional and Technical Writing	4
ENGL 621	News Writing	4
ENGL 623	Creative Nonfiction	4
ENGL 625	Intermediate Fiction Writing Workshop	4
ENGL 625A	Intermediate Fiction Writing Workshop: Screenwriting	4
ENGL 627	Intermediate Poetry Writing Workshop	4
ENGL 631	Digital Reporting	4
ENGL 694	Special Topics in Creative Writing	4
ENGL 701	Advanced Fiction Writing Workshop	4
ENGL 703T	Travel Writing	4
ENGL 710	Teaching Writing	4
ENGL 711	Editing	4
ENGL 712	Multimedia Storytelling	4
ENGL 721	Advanced Reporting	4
ENGL 722	Feature Writing	4

ENGL 729	Special Topics in Composition Studies	4
ENGL 791	English Grammar	4

At the beginning of your final semester of study at UNH, please fill out a Certification of Completion of Minor form and obtain signatures from your major advisor, the English department coordinator, and the Dean of your college.

Students interested in minoring in English writing may contact Carla Cannizzaro, academic/career counselor, Department of English, 230F Hamilton Smith Hall, (603) 862-1313 with any questions.

## French (FREN)

### Study Abroad in Dijon

The department offers a junior year and semesters abroad at the University of Burgundy in Dijon, France (see FREN 690 Study Abroad in Dijon France). This program is open to all qualified students at the University of New Hampshire who have completed FREN 631 Advanced French: Reading and Writing and FREN 632 Advanced French: Listening and Speaking by the end of the semester preceding their departure. Early consultation with the director of the program is urged. Non-credit orientation meetings are required during the semester prior to departure.

### Summer Study in Dijon

This program is open to all students interested in an immersion program during the summer. It provides four to eight weeks of intensive courses in French at the CIEF (*Centre International des Etudes françaises*) at the *Université de Bourgogne* in Dijon, France. A minimum GPA of 2.5 is required. Special fee. 4 to 8 credits. No previous study of the language is necessary to participate. Study in Dijon can satisfy the language requirement. Consult faculty of the French program to ensure proper placement. For French majors, the summer course can only satisfy the study abroad requirement of those who have documented academic reasons preventing them from studying abroad for an entire semester. By petition only.

### Spring/Summer Study in Toulouse

This program is a half-semester spring course followed by a summer travel experience in southwestern France. Students enroll in a 2-credit version of FREN 595 French Practicum during the second half of the spring semester. On-campus class sessions will prepare students for travel and introduce them to the diversity of French cultural heritage. The program will culminate in a 2-week stay in Toulouse, France, with UNH faculty, facilitated by CIEE's Toulouse center staff.

## Teaching Assistantship in France (TAPIF)

Each year the French government offers teaching assistantships in French elementary or secondary schools for graduating students who have studied French. The application process begins during the fall semester of the senior year. Consultation with the advisor is recommended.

<https://cola.unh.edu/languages-literatures-cultures>

Faculty

<https://cola.unh.edu/languages-literatures-cultures/faculty-staff-directory>

French Major (B.A.)

<https://cola.unh.edu/languages-literatures-cultures/program/ba/french-major>

Description

The undergraduate major in French offered by the Department of Languages, Literatures and Cultures is centered on the study of the French language and the literatures and cultures of France and the French-speaking world. Students who complete the requirements for the major can expect to become proficient in French at a level that would allow them to communicate with native speakers, to develop an in-depth critical appreciation of French and Francophone cultures and literatures, and to be culturally sensitive members of society.

The program offers courses devoted to authors, works, and literary and cultural movements that span ten centuries and four continents. The curriculum also includes interdisciplinary courses on relations between literature and other areas of study such as history, law, religion, politics and the arts. All courses are conducted in French, and majors are expected to write papers and examinations in that language.

French can be taken either as a primary major or as one of two majors, in consultation with the director of undergraduate studies. Appropriate majors to combine with French might include, but are not limited to, international affairs, political science, English, education, film and media studies, history, music, philosophy, theater studies, women’s studies, business and communication.

The French major may interest students desiring a general humanistic education based on the language and literature of the French-speaking world; students planning to teach French at the elementary or secondary level; students who intend to pursue graduate work in preparation for teaching and research at the college level; and students preparing for careers in such areas as international law, business, journalism, international organizations, and public or government service, which require both training in a major foreign language and/or a general background in a humanistic discipline.

Requirements

All students must complete at least 10 classes (40 credits). All coursework required for the French major must be completed with a grade of C or better. Specific course requirements are:

Code	Title	Credits
Language courses <sup>1</sup>		
Students entering major at a higher language level will replace the language courses with additional electives		
FREN 503	Intermediate French I	

FREN 504	Intermediate French II
FREN 631	Advanced French: Reading and Writing
FREN 632	Advanced French: Listening and Speaking
Electives <sup>2</sup>	
Select a minimum of five courses from the following Culture, Linguistics, and Literature category	
FREN 525	A Road Trip Through France: Baguette, Brie, Bordeaux, and Beyond
FREN #525H	Honors/A Road Trip Through France: Baguette, Brie, Bordeaux, and Beyond
FREN 526	Introduction to Francophone Cultures
FREN 651	Love, War, and Power in French Literature
FREN 595	French Practicum
FREN #595A	A Culinary Exploration in Southern France
FREN 652	Greatest Hits of French
FREN 676	Topics in Francophone Culture
FREN #677	France in the European Union
FREN 765	Rebellion and Upheaval in 18th-Century Literature and Culture
FREN 775	Les Mis and their World
FREN 785	Francophonies Plurielles
FREN 790	Cultural Encounters: A View from Abroad
FREN 795	Special Studies in French Language and Literature
LLC 540	Film History
LLC #551	Comparative Literature: Masterpieces of World Literature I
LLC 552	Comparative Literature: Masterpieces of World Literature II
LLC 595	Language Practicum
LLC 791	Methods of Foreign Language Teaching
Capstone <sup>3</sup>	
LLC 790	World Languages Capstone
Study Abroad	
An approved foreign study experience in a French-speaking country is required, although an approved equivalent high-impact experience may be substituted for study abroad with a compelling justification	

- <sup>1</sup> While the major may start counting as early as the Intermediate I level (FREN 503), those who enter the major at a higher level (FREN 504, FREN 631, or FREN 632) will replace the courses they skip from the four in the intermediate and advanced language category with additional electives in the Culture, Linguistics, and Literature category.
- <sup>2</sup> More electives required if fewer language credits were completed due to proficiency level and placement.
- No limit on the number of classes in English allowed. Students taking no classes in the target language in a given semester will be strongly encouraged to enroll in one credit of conversation hour to maintain their language skills, and many of the courses taught in English will allow students the option to (or even require students to) do some work in the target language.
- <sup>3</sup> Or approved equivalent 700-level course taken at UNH, approved study abroad equivalent, or approved high-impact experience (such as internship with a robust target language/culture component).

Transfer students must earn a minimum of 12 major credits at the Durham campus.

The required minimum overall GPA in major coursework is 2.0.

Candidates for a degree must satisfy all of the University Discovery Program requirements in addition to satisfying the requirements of each individual major program. Bachelor of arts candidates must also satisfy the foreign language proficiency requirement.

French majors may use two major-required courses to satisfy two Discovery category requirements.

## Student Learning Outcomes

Upon completion of the French Major, our students are expected to master:

- **SLO 1: Communicative Proficiency** Students communicate in the target language, having mastered the four basic communicative skills at the advanced level according to the ACTFL Proficiency Guidelines. They are able to narrate and describe in past, present and future time, use a variety of communication strategies (such as circumlocution, paraphrasing), support their opinions and hypothesize. They can be understood without difficulty by a native interlocutor and carry conversations on a wide variety of topics. They are able to understand native speakers in a variety of situations (academic, everyday life, radio, television).
- **SLO 2: Intercultural Competence** During and after their experiences abroad, students are led to reflect on cultural differences and develop cross-cultural competencies. They develop awareness of what it means to interact appropriately and effectively within diverse social and cultural contexts.
- **SLO 3: Knowledge and Understanding** Students grasp complex or unfamiliar texts (literary, journalistic, etc.), have an awareness of the esthetic properties of language and literary style, and have developed tools to assess and analyze different linguistic registers. They are able to contextualize and have knowledge of a representative selection of figures, works, and tendencies in the literature and other cultural productions from the Francophone world.
- **SLO 4: Critical Thinking** Students are able to critically analyze texts and other cultural artifacts from various areas of the Francophone world, are able to define a position about them, and to substantiate it using research. They are able to establish connections between different areas of knowledge, and are able to collaborate to answer questions and solve problems through task-based activities.

## French Minor

<https://cola.unh.edu/languages-literatures-cultures/program/minor/french>

### Description

The minor in French provides students with the components of a well-rounded education: a solid understanding of grammar and pronunciation, intercultural awareness, exposure to Francophone literatures and cultures, and a sufficient command of the language to enhance their chosen field of study, and countless career opportunities across the public, private and nonprofit sectors, including government, international development, journalism, law, communications and business.

Students in the French minor program at UNH are encouraged to complete some portion of their undergraduate study abroad through the Study Abroad in Dijon. Given the increasing globalization of our world, living abroad enhances cross-cultural awareness, competency, and adaptability. Students find that living and studying abroad expands their perspective, improves critical thinking, increases independence and better prepares them for a career in an increasingly global marketplace.

## Requirements

A minor in French consists of 20 credits in French courses numbered FREN 503 Intermediate French I and above.

Code	Title	Credits
Select 5 French courses numbered 503 and above		20
<b>Total Credits</b>		<b>20</b>

- No fewer than three courses have to be taken at UNH.
- No more than one course conducted in English (e.g., FREN 525 A Road Trip Through France: Baguette, Brie, Bordeaux, and Beyond) will be counted toward the minor, although students may elect to take more than one such course provided they earn more than 20 credits.
- Those entering the minor at FREN 504 Intermediate French II or higher will be expected to complete FREN 651 Love, War, and Power in French Literature or FREN 652 Greatest Hits of French.
- After completing the five required courses, students submit a [Certification of Completion of Minor](#) form.

## Geography (GEOG)

Geography, as the study of place, space and environment, addresses the “why of where” by uniting social and biophysical sciences, humanities and technology to examine the factors that make a place or environment unique. Connecting academic inquiry to real-world problem solving, our courses teach critical thinking skills that prepare students to transfer classroom and field experience into a wide range of careers. With interests ranging from globalization to climate change and sustainability, urbanization to community development at home and abroad, geography majors gain the knowledge, techniques and perspectives needed to meet current and future challenges.

Geography at UNH is an undergraduate-only department offering both major and minor degree programs. With small class sizes, personalized advising by department faculty, and opportunities for independent study, our students receive a high degree of individual attention. UNH geography graduates are prepared to enter a variety of careers or professional and graduate degree programs.

<https://cola.unh.edu/geography>

### Programs

- [Geography Major \(B.A.\)](#) (p. 79)
- [Geography Minor](#) (p. 80)

### Faculty

<https://cola.unh.edu/geography/faculty-staff-directory>

## Geography Major (B.A.)

<https://cola.unh.edu/geography/program/ba/geography>

### Description

The geography major provides undergraduates with a solid foundation in geography by uniting social and biophysical sciences, humanities and

technology to examine the factors that make a place or environment unique. Connecting academic inquiry to real-world problem solving, you will develop critical thinking skills and be prepared to transfer classroom and field experience into a wide range of careers.

With interests ranging from globalization to climate change and sustainability, urbanization to community development at home and abroad, UNH geography graduates have gone on to careers in urban, regional and transportation planning, community development, environmental conservation and natural resources management, sustainability science, geographic information science, market research, locational analysis, population studies, foreign aid, international diplomacy and education.

## Requirements

To earn a bachelor of arts in geography, students must complete 10 geography courses with a minimum grade of C-minus:

Code	Title	Credits
Select three foundation courses.		
Select two skills courses.		
Select five elective courses.		

### Foundation Courses

Foundation courses are intended to provide students a basic understanding of human, physical, and world regional geography. It is recommended they be taken as early as possible in a student's program.

All geography majors must complete three foundation courses:

Code	Title	Credits
GEOG 401	World Regions: Europe and the Americas	4
or GEOG 402	World Regions: Asia and Africa	
GEOG 572	Geography of the Natural Environment	4
GEOG 581	Society, Environment and Justice	4
Total Credits		12

### sKills Courses

Skills courses are required of all majors. Skills courses provide students with basic analytical and technical skills used in geography.

Code	Title	Credits
Select two skills courses		
GEOG 590	Field Research	4
or GEOG #595	Statistics for Spatial Science	
GEOG 658	Introduction to Geographic Information Systems <sup>1</sup>	4
Total Credits		8

<sup>1</sup> Students are encouraged to complete GEOG #595 Statistics for Spatial Science, or another statistics course approved by their advisor before enrolling in GEOG 658 Introduction to Geographic Information Systems.

### Elective Courses

Code	Title	Credits
Select five elective courses		
Select four courses from the electives list below (may be any geography courses, excluding 401 or 402) <sup>2</sup>		
Discovery Program Capstone:		
Select one 600+ writing intensive course from electives list below (these are GEOG 670, GEOG 673, GEOG 685, GEOG #686)		
Total Credits		20

<sup>2</sup> Independent study courses including GEOG 695 Internship and GEOG 795 Special Project may be applied to the major elective requirement once if taken for a total of four credit hours.

### Electives List

Code	Title	Credits
GEOG 405	There Is No Planet B	4
GEOG 473	Elements of Weather	4
GEOG 530	China: People, Politics and Economy	4
GEOG 540	Geography of the Middle East	4
GEOG 550	Sub-Saharan Africa: Environmental Politics and Development	4
GEOG 560	Natural Hazards and Human Disasters	4
GEOG 572	Geography of the Natural Environment	4
GEOG 574	Global Landscapes and Environmental Processes	4
GEOG 581	Society, Environment and Justice	4
GEOG 582	Global Trade and Local Development	4
GEOG 584	Political Geography	4
GEOG 591	Making Maps: GIS Fundamentals	4
GEOG 670	Climate and Society	4
GEOG 673	Political Ecology	4
GEOG 685	Population and Development	4
GEOG #686	World Economy and Globalization	4
GEOG 757	Remote Sensing of the Environment	4
GEOG 759	Digital Image Processing for Natural Resources	4
GEOG #760	Geographic Information Systems in Natural Resources	4

### Geotechniques

Students interested in geographic information systems, remote sensing, locational analysis and other geographic techniques may specialize in Geotechniques by completing three 700-level methods courses in Geography (GEOG 750-769).

## Additional Requirements

Major department courses may be used to satisfy two Discovery category requirements excluding courses taken for foundation course credit and unlimited in the case of a second major.

The university's foreign language requirement may not be fulfilled by American Sign Language except by petition.

Students intending to major in geography should consult with the department chairperson.

## Student Learning Outcomes

- Integrate biophysical and socio-cultural disciplinary traditions to explain the complex interrelationships between and among human-natural systems spanning local to global scales.
- Communicate geographic concepts, research, and methods of analysis professionally and effectively through written products, oral presentations, and visualizations appropriate for the intended audience.

## Geography Minor

<https://cola.unh.edu/geography/program/minor/geography>

## Description

The geography minor allows undergraduates to explore one or more of the three main areas of geography — human geography, environmental

geography and geotechniques. Studying geography prepares students to pursue a wide variety of careers or enter graduate school.

## Requirements

To minor in geography, you must complete any **five geography courses (at least 20 credit hours)** with a grade of **at least C-**.

Code	Title	Credits
Select five geography courses		20
Total Credits		20

Courses taken Pass/Fail cannot be used for the minor. All minor courses can be used to fulfill Discovery Program requirements.

At the beginning of your final semester at UNH you should complete a Certification of Completion of Minor form. The minor must be approved by your major and minor supervisors. The completed form is then presented to the college dean for approval and, finally, forwarded to the Registrar.

Please direct questions about minoring in geography to the department chairperson.

## German (GERM)

German is the most widely spoken language in Europe, and Germany plays a leading role in a number of areas: EU and global trade and policy, fine arts, alternative energy and sustainability, engineering, philosophy. With their rich cultural and intellectual history, as well as one of the world's primary export-driven economies, the German-speaking countries offer unique career opportunities for globally minded students and citizens.

### Summer Study in Berlin, Germany

The UNH German Program manages a summer program in Berlin, Germany. During their study in Berlin, students can earn between 4 and 12 credits. The program provides students with an immersion experience in the German language and culture. Students receive language instruction at the appropriate level (elementary, intermediate, or advanced) at the BSI Private Language School in central Berlin. No prior German language study is required. On designated weekday afternoons, students participate in cultural excursions and discussions with the on-site UNH faculty member. Through the UNH Berlin summer program, students receive UNH credit and can fulfill the World Cultures Discovery requirement. In line with UNH's goals to educate students to become global citizens, this immersion program gives students insight into what it means to experience a different culture and language. For more information, contact Charles Vannette or visit the COLA Center for Study Abroad.

### Other Programs

The University allows students to attend approved study abroad programs for UNH credit at schools in Germany and Austria. Students may attend accredited one- or two-semester programs at universities in cities like Munich, Vienna, Berlin, Heidelberg, Freiburg or Salzburg. Most study abroad programs require a minimum of two years of college German. For details, see the coordinator of German or the foreign studies coordinator at the UNH Global Education Center. Internships with a German firm or organization may also be taken for credit (see GERM 595 Internship (p. 83)). Internships must be approved ahead of time

in collaboration with an advisor in the German program. Financial aid applies to all approved programs.

<https://cola.unh.edu/languages-literatures-cultures>

## Programs

- German Major (B.A.) (p. 81)
- German Minor (p. 83)

## Faculty

<https://cola.unh.edu/languages-literatures-cultures/faculty-staff-directory>

## German Major (B.A.)

<https://cola.unh.edu/languages-literatures-cultures/program/ba/german-major>

## Description

The German major is offered by the Department of Languages, Literatures and Cultures. This program is of interest to the following groups of students:

- Those who have a special interest in the German language, literature and culture.
- Those who intend to enter fields in which a background in foreign languages and cultures is desirable, such as business, engineering, the sciences, law, international affairs, government service and international service.
- Those who plan to teach German in secondary schools. Since most secondary schools require their teachers to teach more than one subject, students planning to enter teaching at this level should plan their programs carefully. They should combine a major in one culture and language with a minor or at least a meaningful sequence of courses in another subject. Dual majors also are possible. For certification requirements, see the section coordinator.

All German majors are strongly encouraged to double major or include a relevant minor in their studies.

## Requirements

All students must complete at least 10 classes (40 credits). All coursework required for German major must be completed with a grade C- or better. Specific course requirements are:

Code	Title	Credits
<b>Language Courses <sup>1</sup></b>		
Students entering major at a higher language level will replace the language courses with additional electives.		
GERM 401	Elementary German I	
GERM 402	Elementary German II	
GERM 503	Intermediate German I	
GERM 504	Intermediate German II	
GERM 631W	Advanced Communications Skills I	
GERM 632	Advanced Communications Skills II	
<b>Electives <sup>2</sup></b>		
Select a minimum of three courses from the following Culture, Linguistics, and Literature category		
GERM 521	Major German Authors in English	

GERM 525	Introduction to German Culture and Civilization
GERM 586	Study in Berlin
GERM 728	Modern German Literature
GERM 732	Public Discourse and Current Affairs
GERM 795	Independent Study
GERM 797	Special Studies in German Language and Literature
GERM 798	Special Studies in German Language and Literature
LLC 535A	Professional Culture in European Union - - Case Study: Germany
LLC 540	Film History
LLC #551	Comparative Literature: Masterpieces of World Literature I
LLC 552	Comparative Literature: Masterpieces of World Literature II
LLC 560	Divine Madness and Dangerous Minds! - Mental Health in Literature and Art
LLC 791	Methods of Foreign Language Teaching

**Capstone<sup>3</sup>**

LLC 790	World Languages Capstone
---------	--------------------------

**Study Abroad**

Study abroad is a requirement for the German major, although an approved equivalent high-impact experience may be substituted for study abroad with a compelling justification.

<sup>1</sup> While the major may start counting as early as the Elementary I level (GERM 401), those who enter the major at a higher level (GERM 503, GERM 504, GERM 631W or GERM 632) will replace the courses they skip from the elementary, intermediate and advanced language category with additional courses from the electives category.

<sup>2</sup> More electives required if fewer language credits were completed due to proficiency level and placement.

Students are encouraged to take as many of the culture, linguistics, and literature elective in the German language as possible, but there is no limit on the number of classes conducted in English from electives category. Students taking no classes in the target language in a given semester will be strongly encouraged to enroll in one credit of conversation hour to maintain their language skills, and many of the courses taught in English will allow students the option to (or even require students to) do some work in the target language.

<sup>3</sup> Or approved equivalent 700-level course taken at UNH, approved study abroad equivalent, or approved high-impact experience (such as internship with a robust target language/culture component).

The required minimum overall GPA in major coursework is 2.0.

Candidates for a degree must satisfy all of the University Discovery Program requirements in addition to satisfying the requirements of each individual major program. Bachelor of arts candidates must also satisfy the foreign language proficiency requirement.

German majors may use two major-required courses to satisfy two Discovery category requirements.

## Student Learning Outcomes

Specific outcomes for Linguistic Competency The German Program applies the ACTFL Proficiency Guidelines to evaluate the linguistic competency of its graduates.

- **Speaking Proficiency:** Graduates of the program achieve a speaking proficiency of Intermediate High to Advanced Mid, with the majority of students achieving the level of Advanced Low. Students demonstrate an ability to speak clearly and with precision about personal, professional, and academic topics.
- **Writing Proficiency:** Graduates of the program achieve a written proficiency of Intermediate High to Advanced Mid, with the majority of students achieving the level of Advanced Low. Students demonstrate an ability to write clearly about professional or

academic topics, including introductory research in the area of literature and culture studies.

- **Listening Proficiency:** Graduates of the program achieve a listening proficiency of Advanced Low to Advanced High, with the majority of students achieving the level of Advanced Mid. Students demonstrate an ability to understand conventional as well as complex narratives that may use uncommon vocabulary or address difficult topics, such as theater plays in the target language.
- **Reading Proficiency:** Graduates of the program achieve a reading proficiency of Advanced Low to Advanced Mid. Students demonstrate an ability to read and interpret conventional quotidian texts as well as complicated narratives from the 18th-21st centuries, addressing a wide range of topics and genres, including literary, scientific, and cultural theory.

II. Specific outcomes for Integrative Knowledge Accompanying the acquisition of German language skills is the study of cultural phenomena, which provides German majors with a breadth of knowledge as found in a traditional liberal arts program. The acquired knowledge helps students engage with various additional fields of study across the UNH campus. Through transferable practice in abstract reasoning, critical examination, and constructive articulation, students extend their intellectual curiosity and learn to aspire to life-long learning.

- **Interpretive Reasoning** Particularly in the advanced courses that analyze art in its various forms – literature, film, painting, performance art, et. al. -, we (students and faculty alike) wrestle with interpretation and contextualization. In these courses, we are invested in humanistic inquiry and address tough questions – those concerning value and meaning, realms of knowledge ungraspable by natural science alone. Patterns of narrative, traditions of rhetoric, and history all inform the analyses of the cultural artifacts under study. By fostering the skills of close reading and listening, German majors become more articulate (both in German and their native language) and more proficient in analyzing and synthesizing the various types of knowledge.
- **Critical-Constructive Thinking** In the analysis of cultural artifacts, students learn to consider a multitude of perspectives. In addition to critical thinking skills, German majors become better versed at the constructive synthesis. Term papers and presentations in the target language are the culmination of linguistic comprehension and production as well as of interpretation and critique. In assembling such larger projects, German majors learn to construct well-informed arguments that are based on interpretation and scholarly critique.
- **Interdisciplinarity** Language study entails a wide range of applications, both personal and professional. It opens up possibilities for travel, genuine encounter, and the fostering of diplomatic and business relationships. German is of particular interest for political, economic, historical, and cultural reasons. With strengths in engineering and heavy manufacturing, Germany is of vital political-economic importance. Our students are encouraged to explore the connections in various scientific fields, the business world, and the humanities at large.
- **Transformative Education** Close mentoring of our German majors leads to relevant study-abroad opportunities in which our students make tangible use of their intellectual skillsets in the target culture. Of equal importance, however, is the notion that the actual application of the skillsets during the study abroad experience (but also in our classrooms) offers an opportunity for students to achieve meaningful personal growth by realizing their own cultural underpinnings. As a result of their study of German, some students choose to go to or to

return to Germany for work or travel. Thus, the study of German can result in transformative moments in the lives of our students.

## German Minor

<https://cola.unh.edu/languages-literatures-cultures/program/minor/german>

### Description

The German minor is offered by the Department of Languages, Literatures and Cultures. This program is of interest to the following groups of students:

- Those who have a special interest in the German language, literature and culture.
- Those who intend to enter fields in which a background in foreign languages and cultures is desirable, such as business, engineering, the sciences, law, international affairs, government service and international service.

### Requirements

A minor consists of five courses in German numbered 503 and above.

Code	Title	Credits
Five electives selected from GERM 503 or above		20
<b>Total Credits</b>		<b>20</b>

The minor may include one course taught in English but not LLC 791 Methods of Foreign Language Teaching.

Students wishing to minor are expected to meet with a faculty member from the German program to discuss their course of study.

At the beginning of your final semester of study, you should fill out a [certification of completion of minor form](#), obtain the necessary signatures, and submit it to your Dean's Office.

## History (HIST)

The Department of History is one of the top history departments in the country, with an internationally recognized faculty in American, European, and World and Ancient history. History professors have won some of the most important prizes in the profession, and they often appear on television and other media outlets. But what really distinguishes the department's faculty is that we love to teach. Our courses cover a wide range of times, places and subjects, from ancient history to the history of the modern world.

History is a flexible major, which makes it a good choice for students who want to complete a double major in another discipline. Popular double majors include communication, justice studies, economics and international affairs.

The Education Department's 4+1 graduate program is also available to history majors. Students who complete that program receive their social studies teacher certification in five years and graduate with a B.A. and M.Ed. or M.A.T.

The Department offers a major and minor in history. We also administer an interdisciplinary minor, the social studies of science and technology.

The History Department at UNH has approximately 200 undergraduate majors; about 50 students graduate with a history major every year.

## Five-Year BA/MA Program

The History Department offers our majors an opportunity to complete an accelerated Master's Degree in history in as little as one additional year of study. Eligible seniors and juniors are able to take up to 12 credits in graduate history courses, which will count both toward the completion of the history B.A. requirements, and the history M.A. requirements. This accelerated option is available for both the standard track M.A. and the museum studies track.

To be eligible for the program students must have a GPA of 3.2 or higher. Students also must have completed 96 credits by the time they enter the accelerated M.A. program.

**Students should apply before April 10th of their junior year.** Students interested in applying must complete the [UNH graduate studies application](#). Applications will include two letters of recommendation, a cover letter, a writing sample and a UNH transcript. GRE scores are NOT required. Students should also submit a cover letter and an endorsement from a member of the History Department directly to the graduate director, Professor [David Bachrach](#) ([david.bachrach@unh.edu](mailto:david.bachrach@unh.edu)).

If you are interested in applying for the accelerated M.A. program, or would like additional information about the program, please contact Professor David Bachrach.

<https://cola.unh.edu/history>

### Programs

### Faculty

<https://cola.unh.edu/history/faculty-staff-directory>

## History Major (B.A.)

<https://cola.unh.edu/history/program/ba/history>

### Description

The study of history gives students the analytical and communication skills necessary to succeed in today's workplace. It is also essential for being an informed citizen. The history major covers an array of subjects: the Roman Empire, modern U.S. foreign policy, China's Cultural Revolution, medieval Islam, the American Revolution and many, many others. Every major takes an introductory seminar on historical writing and analysis, and the major concludes with a senior colloquium that allows students to conduct in-depth research on a topic of their choosing. History is a flexible major. That makes history an excellent choice for students who plan to study abroad or who want to complete a double major in another discipline.

Students sometimes ask, “what can you do with a history major?” The answer is practically anything you want. History majors have attended some of the top graduate programs in the country. Many become teachers, but history majors also go into law, medicine and business, as well as careers in technology, international relations, politics and the media. Majoring in history prepares students well for the intellectual flexibility and ability to think outside the box that today’s job market demands.

## Undergraduate Awards for Majors

The Philip M. Marston Scholarship, an award of \$500, is available to students who are interested in colonial or New England history and have demonstrated financial need. There are course requirements for this scholarship. More details are available from the history office.

Each spring, the members of the departmental undergraduate committee choose history majors to receive the following prizes in history:

- The William Greenleaf Prize is given for the best senior colloquium paper. Award candidates must have a minimum grade-point average of 3.2 in history courses. Individuals may nominate themselves or may be nominated by faculty members.
- The Allen Linden Prize for the best senior history thesis is funded by the Signal Fund.
- The Charles Clark Prize is for the best essay or research paper submitted by a history major and is funded by the Signal Fund.

Phi Alpha Theta, the history honor society, is an international scholastic organization dedicated to promoting historical study on the undergraduate and graduate levels. Admission to the UNH Psi Pi chapter is open to undergraduates with an overall grade-point average of 3.0, a grade-point average of 3.4 or better in history courses, and completion of HIST 500 Introduction to Historical Thinking.

## Five-Year BA/MA Program

The History Department offers our majors an opportunity to complete an accelerated Master’s Degree in history in as little as one additional year of study. Eligible seniors and juniors are able to take up to 12 credits in graduate history courses, which will count both toward the completion of the history B.A. requirements, and the history M.A. requirements. This accelerated option is available for both the standard track M.A. and the museum studies track.

To be eligible for the program students must have a GPA of 3.2 or higher. Students also must have completed 96 credits by the time they enter the accelerated M.A. program.

**Students should apply before April 10th of their junior year.** Students interested in applying must complete the [UNH graduate studies application](#). Applications will include two letters of recommendation, a cover letter, a writing sample and a UNH transcript. GRE scores are NOT required. Students should also submit a cover letter and an endorsement from a member of the History Department directly to the graduate director, Professor David Bachrach at [david.bachrach@unh.edu](mailto:david.bachrach@unh.edu).

If you are interested in applying for the accelerated M.A. program, or would like additional information about the program, please contact Professor David Bachrach.

## Requirements

To complete a major in history, students must take ten (10) 4-credit history courses or their equivalent. Students who enter the University as history majors, or who declare a major in history, should take the first required course, HIST 500 Introduction to Historical Thinking, as soon as possible. To declare a major in history, students must have completed or be enrolled in two history courses. HIST 500 Introduction to Historical Thinking is a prerequisite for the second required course, HIST 797 Colloquium, which fulfills the Discovery Program capstone requirement for history majors and is taken during the senior year. Students should consult the list of topics for HIST 797 Colloquium advertised each semester.

## History Major Requirements

Code	Title	Credits
HIST 500	Introduction to Historical Thinking	4
HIST 797	Colloquium	4
At least eight (8) additional courses, following the guidelines below. No more than two (2) may be at the 400-level and a minimum of three (3) must be at the 600-level or above.		32
<b>Total Credits</b>		<b>40</b>

A student’s program of study must include two parts:

1. An area of specialization. A student must select at least four courses to serve as an area of specialization within the major. Up to two courses (each four credits or their equivalent) in the area of specialization may be taken in other departments; such courses must be 500-level or above and have the approval of the student’s advisor. The area of specialization may be in a nation, region, a time period, global history, or one of the following:
  - \* ancient and pre-modern worlds
  - \* cultural and intellectual history
  - \* empires and colonialism
  - \* international and diplomatic history
  - \* politics, law, and government
  - \* race, gender, and sexuality
  - \* religion
  - \* revolution and social change
  - \* science, technology, medicine, and the environment
  - \* war and society
  - \* world economy
  - \* design your own (with advisor’s permission)
2. Complementary courses. A student must select, in consultation with his or her advisor, at least three history courses in fields outside the area of specialization, chosen to broaden his or her understanding of the range of history. Each major should take at least one course from each of Groups I, II, and III. Group I contains all American history courses, Group II contains all European history courses, and Group III contains all other history courses.

The program must be planned in consultation with an advisor. A copy of the program, signed by the advisor, must be placed in a student’s file no later than the second semester of the student’s junior year. Courses at the 700-level will be judged by the advisor as to their applicability for area of specialization. The program may be modified with the advisor’s approval.

Only one HIST 695 Independent Study may be used to fulfill the 600-level requirement, and no more than two Independent Study courses may count toward the ten-course requirement. No more than two 400-level courses may be counted toward the major requirements. Students must

receive at least a C in HIST 500 Introduction to Historical Thinking and at least a C- in the other nine courses. Majors must maintain a 2.0 or better in all history courses.

Candidates for a degree must satisfy all of the University Discovery Program requirements in addition to satisfying the requirements of each individual major program. Bachelor of Arts (B.A.) candidates must also satisfy the foreign language proficiency requirement.

History majors may use history courses to fulfill Discovery category requirements but may not double-count history courses for major and Discovery category requirements.

History majors must satisfy the language requirement for the B.A. degree in an international language that they could use for historical research. That list includes Arabic, Chinese, French, German, Greek, Italian, Japanese, Latin, Portuguese, Russian, and Spanish. Students may petition the department curriculum committee for exceptions.

For transfer students, a minimum of five (5) of the semester courses used to fulfill the major requirements must be taken at the University. One upper-level course may be transferred to satisfy the requirement that a major must take at least three courses numbered 600 or above. Transfer students must complete both HIST 500 Introduction to Historical Thinking (or its equivalent) and HIST 797 Colloquium.

Students intending further work in history beyond the bachelor's degree are urged to take HIST 775 Historical Methods.

Students intending to major in history should consult with the department administrative assistant. Suggested programs for students with special interests or professional plans are available in the department office.

## Student Learning Outcomes

History students can:

### Build historical knowledge.

- Gather and contextualize information in order to convey both the particularity of past lives and the scale of human experience.
- Recognize how humans in the past shaped their own unique historical moments and were shaped by those moments.
- Develop a body of historical knowledge with breadth of time and place—as well as depth of detail—in order to discern context.
- Distinguish the past from our very different present.

### Develop historical methods.

- Recognize history as an interpretive account of the human past—one that historians create in the present from surviving evidence.
- Collect, sift, organize, question, synthesize, and interpret complex material.
- Practice ethical historical inquiry that makes use of and acknowledges sources from the past as well as the scholars who have interpreted that past.
- Develop empathy toward people in the context of their distinctive historical moments.

**Recognize the provisional nature of knowledge, the disciplinary preference for complexity, and the comfort with ambiguity that history requires.**

- Welcome contradictory perspectives and data, which enable us to provide more accurate accounts and construct stronger arguments.
- Describe past events from multiple perspectives.
- Explain and justify multiple causes of complex events and phenomena using conflicting sources.
- Identify, summarize, appraise, and synthesize other scholars' historical arguments.

**Apply the range of skills it takes to decode the historical record because of its incomplete, complex, and contradictory nature.**

- Consider a variety of historical sources for credibility, position, perspective, and relevance.
- Evaluate historical arguments, explaining how they were constructed and might be improved.
- Revise analyses and narratives when new evidence requires it.

**Create historical arguments and narratives.**

- Generate substantive, open-ended questions about the past and develop research strategies to answer them.
- Craft well-supported historical narratives, arguments, and reports of research findings in a variety of media for a variety of audiences.

**Use historical perspective as central to active citizenship.**

- Apply historical knowledge and historical thinking to contemporary issues.
- Develop positions that reflect deliberation, cooperation, and diverse perspectives.

## History Major: Law 3+3 Option (B.A.)

<https://cola.unh.edu/history/program/ba/history-major-law-33-option>

### Description

The Law 3+3 option offers highly motivated UNH undergraduates the opportunity to complete their bachelor's degree (B.A.) with a history major and their law degree (J.D.) at UNH in six years, rather than the usual seven years. It promises significant savings in both time and money. Students apply to the UNH Law School in their junior year (by Jan. 1), following the approved process below, and after taking the LSAT exam. If admitted, undergraduates begin their first year of law school in their senior year. The credits earned upon successful completion of the law school courses will be applied to both the J.D. degree and as elective courses for the B.A. degree. After four years, students receive a B.A. with a history major. After six years, students, having completed all law school requirements successfully, will receive their J.D.

### Eligibility and Admission Process

1) **Phase I: applying to the Law 3+3 option.** Students apply to the program either when they submit their applications to UNH by selecting the History/J.D. option on the online application, or after they are admitted, applying directly to the History Department's History/Law 3+3 Committee. In both cases, undergraduate applicants must fulfill the general requirements for admission to the History major.

a. Students applying at time of admission to UNH will typically present the following high school (HS) credentials:

- a 3.5 GPA in HS
- a rigorous HS curriculum defined as the following:
  - 4 years of college prep (CP) or higher English
  - 4 years of CP or higher mathematics
  - 4 years of CP or higher social studies/history
  - Completed at least level 3 of a foreign language
  - 3 or more years of CP or higher laboratory sciences
- a score of 1200 or better (combined Math and Verbal) on the SAT or a 29 on the ACT)

b. Currently enrolled UNH students applying to the program must:

- have a 3.5 GPA in college courses at time of application.
- The History/Law 3+3 Committee governing admission to the program will also consider past SAT scores, maturity, and ability to complete a highly demanding program of study based on performance thus far.

For both groups, it is important to note that satisfying these requirements does not guarantee admission to this program. The review process is holistic (meaning all parts of the application carry weight and influence the final decision) and other components of the application will influence any admission decisions. Available space will also influence who is admitted to the program and how many students can be accepted.

2) **Phase 2: applying to UNH Law School.** To be eligible, students must:

- Complete all Discovery and major requirements, and accrue at least 98 credits before beginning law school in their senior year
- Maintain at least a 3.5 grade point average (including transfer credits) at time of application to law school, and at end of junior year
- Take the LSAT no later than December of the final undergraduate year (i.e. the junior year) and have a **score of 157 or above**
- Submit the law school application through the Law School Admissions Council by Jan. 1 of the calendar year in which the student wishes to enroll in law school
- If, for some reason, students are not admitted to UNH Law, they will complete their final, fourth year at UNH, following the typical undergraduate program.

## Requirements

Students in the History/Law 3+3 option complete the requirements of the history major. See the Degree Plan for the recommended path through the major.

To complete a major in history, students must take ten (10) 4-credit history courses or their equivalent. Students who enter the University as history majors, or who declare a major in history, should take the first required course, HIST 500 Introduction to Historical Thinking, as soon as possible. To declare a major in history, students must have completed or be enrolled in two history courses. HIST 500 Introduction to Historical Thinking is a prerequisite for the second required course, HIST 797 Colloquium, which fulfills the Discovery Program capstone requirement for history majors and is taken during the senior year. Students should consult the list of topics for HIST 797 Colloquium advertised each semester.

## History Major Requirements

Code	Title	Credits
HIST 500	Introduction to Historical Thinking	4
HIST 797	Colloquium	4
At least eight (8) additional courses, following the guidelines below. No more than two (2) may be at the 400-level and a minimum of three (3) must be at the 600-level or above.		32
<b>Total Credits</b>		<b>40</b>

A student's program of study must include two parts:

1. An area of specialization. A student must select at least four courses to serve as an area of specialization within the major. Up to two courses (each four credits or their equivalent) in the area of specialization may be taken in other departments; such courses must be 500-level or above and have the approval of the student's advisor. The area of specialization may be in a nation, region, a time period, global history, or one of the following:
  - \* ancient and pre-modern worlds
  - \* cultural and intellectual history
  - \* empires and colonialism
  - \* international and diplomatic history
  - \* politics, law, and government
  - \* race, gender, and sexuality
  - \* religion
  - \* revolution and social change
  - \* science, technology, medicine, and the environment
  - \* war and society
  - \* world economy
  - \* design your own (with advisor's permission)
2. Complementary courses. A student must select, in consultation with his or her advisor, at least three history courses in fields outside the area of specialization, chosen to broaden his or her understanding of the range of history. Each major should take at least one course from each of Groups I, II, and III. Group I contains all American history courses, Group II contains all European history courses, and Group III contains all other history courses.

The program must be planned in consultation with an advisor. A copy of the program, signed by the advisor, must be placed in a student's file no later than the second semester of the student's junior year. Courses at the 700-level will be judged by the advisor as to their applicability for area of specialization. The program may be modified with the advisor's approval.

Only one HIST 695 Independent Study may be used to fulfill the 600-level requirement, and no more than two Independent Study courses may count toward the ten-course requirement. No more than two 400-level courses may be counted toward the major requirements. Students must receive at least a C in HIST 500 Introduction to Historical Thinking and at least a C- in the other nine courses. Majors must maintain a 2.0 or better in all history courses.

Candidates for a degree must satisfy all of the University Discovery Program requirements in addition to satisfying the requirements of each individual major program. Bachelor of Arts (B.A.) candidates must also satisfy the foreign language proficiency requirement.

History majors may use history courses to fulfill Discovery category requirements but may not double-count history courses for major and Discovery category requirements.

History majors must satisfy the language requirement for the B.A. degree in an international language that they could use for historical research. That list includes Arabic, Chinese, French, German, Greek,

Italian, Japanese, Latin, Portuguese, Russian, and Spanish. Students may petition the department curriculum committee for exceptions.

For transfer students, a minimum of five (5) of the semester courses used to fulfill the major requirements must be taken at the University. One upper-level course may be transferred to satisfy the requirement that a major must take at least three courses numbered 600 or above. Transfer students must complete both HIST 500 Introduction to Historical Thinking (or its equivalent) and HIST 797 Colloquium.

## Degree Plan

### Undergraduate Courses

Below is a suggested course outline. There might be other possible plans.

**NOTE:** Students should **plan early and work closely with their advisors** if they want to pursue the fast track program. It may be possible to include study abroad and other programs, if desired, but only with careful planning. They are also strongly encouraged to consult with the pre-law advisor on campus (Paula DiNardo, [paula.dinardo@unh.edu](mailto:paula.dinardo@unh.edu), 603-862-2064.)

Course	Title	Credits
<b>First Year</b>

History 600-level Course		4
<b>Credits</b>		<b>16</b>
<b>Spring</b>		
Discovery Course		4
Discovery Course		4
History 500-level Course		4
History 600-level Course		4
PLUS one 2-credit course or two 1-credit courses. LAW 475 Getting Ready to Succeed in Law School is recommended (can be taken fall semester of junior year instead). <sup>1</sup>		2
<b>Credits</b>		<b>18</b>

### Third Year

#### Fall

Discovery Course	4
Discovery Course	4
History 600-level Course	4
History Course Elective any level (no more than two 400-level courses may be counted towards major)	4
If not taken sophomore year, one 2-credit course or two 1-credit courses must be taken. LAW 475 Getting Ready to Succeed in Law School is recommended. <sup>1</sup>	

**Credits** **16**

#### Spring

HIST 797 Colloquium	4
History Elective Course any level (no more than two 400-level courses may be counted towards major)	4
Elective Course	4
Elective Course	4

**Credits** **16**

**Total Credits** **98**

### TOTAL UNDERGRADUATE CREDITS REQUIRED - 98 cr.

40 total Discovery Program credits; 40 history credits; 4-8 foreign language credits; 8-12 elective credits; and two 1-credit courses OR one 2-credit course<sup>1</sup>. In addition to fulfilling the Discovery Program and history major requirements, students need to fulfill the Bachelor of Arts foreign language requirement and take four (4) writing intensive courses. HIST 500 Introduction to Historical Thinking and HIST 797 Colloquium fulfill two (2) WI courses.

<sup>1</sup> **Clarification:** to earn 98 credits in 3 years, **students will need to take one (1) 2-credit course or two (2) 1-credit courses**. The 2-credit course, LAW 475 Getting Ready to Succeed in Law School, is recommended and is best taken in the spring semester of sophomore year or the fall semester of the junior year as it will include LSAT prep. Other 2-credit options include JUST 550 Mock Trial and JUST 551 Mock Trial. For other possible 1-2 credit courses, see the Time & Room Schedule. The 1-2 credit courses can be completed at any point in your first 3 years at UNH-Durham. You can also complete them during the January term [see, e.g., THDA 531 The London Experience: Discovery, a 2-credit study abroad program] or in the summer.

## Law School Course Outline

LAW SCHOOL COURSES

After completing the first year courses (above), the schedule and track of the second and third years of law school are directed by each student with careful advising from the law faculty. The following summarizes the required curriculum and bar-recommended curriculum. 85 credits are required for graduation.

Required courses include:

- Administrative Process
- Criminal Procedure
- Professional Responsibility
- Upper Level Writing Course
- Upper Level Skills Course

Bar-recommended courses include:

- Personal Taxation
- Business Associations
- Wills, Trusts, and Estates
- Evidence

Student Learning Outcomes

History students can:

Build historical knowledge.

- Gather and contextualize information in order to convey both the particularity of past lives and the scale of human experience.
- Recognize how humans in the past shaped their own unique historical moments and were shaped by those moments.
- Develop a body of historical knowledge with breadth of time and place—as well as depth of detail—in order to discern context.
- Distinguish the past from our very different present.

Develop historical methods.

- Recognize history as an interpretive account of the human past—one that historians create in the present from surviving evidence.
- Collect, sift, organize, question, synthesize, and interpret complex material.
- Practice ethical historical inquiry that makes use of and acknowledges sources from the past as well as the scholars who have interpreted that past.
- Develop empathy toward people in the context of their distinctive historical moments.

Recognize the provisional nature of knowledge, the disciplinary preference for complexity, and the comfort with ambiguity that history requires.

- Welcome contradictory perspectives and data, which enable us to provide more accurate accounts and construct stronger arguments.

- Describe past events from multiple perspectives.
  - Explain and justify multiple causes of complex events and phenomena using conflicting sources.
  - Identify, summarize, appraise, and synthesize other scholars’ historical arguments.
- Apply the range of skills it takes to decode the historical record because of its incomplete, complex, and contradictory nature.

- Consider a variety of historical sources for credibility, position, perspective, and relevance.
- Evaluate historical arguments, explaining how they were constructed and might be improved.
- Revise analyses and narratives when new evidence requires it.

Create historical arguments and narratives.

- Generate substantive, open-ended questions about the past and develop research strategies to answer them.
- Craft well-supported historical narratives, arguments, and reports of research findings in a variety of media for a variety of audiences.

Use historical perspective as central to active citizenship.

- Apply historical knowledge and historical thinking to contemporary issues.
- Develop positions that reflect deliberation, cooperation, and diverse perspectives.

History Minor

<https://cola.unh.edu/history/program/minor/history>

Description

The study of history is an essential element of the liberal education. Studying history provides both an awareness of the past and the tools to evaluate and express one’s knowledge.

Requirements

A minor in history consists of 20 semester credits with C- or better and at least a 2.0 grade-point average in courses that the Department of History approves.

Code	Title	Credits
Five elective HIST courses		20
Total Credits		20

- Courses taken on a pass/fail basis may not be used for the minor.
- No more than 12 credits in 400-level courses may be used for this minor.
- For transfer students, no more than two transfer courses, or 8 transfer credits, may be used toward the minor.

Social Studies of Science and Technology Minor

<https://cola.unh.edu/history/program/minor/social-studies-science-technology>

## Description

How are our lives being changed by technology? Why is science so influential in our society? Is modern science superior to traditional ways of knowing nature? Are science and technology doing more harm than good? The minor in social studies of science and technology enables students to seek answers to such questions through the perspectives of the humanities and social sciences. In this minor, students select courses from a range of disciplines, including anthropology, history, communication, sociology and philosophy, all of which shed light on the role of science and technology in modern society.

The minor presupposes no specialized scientific background and may be combined with any undergraduate major. Students must pass five 4-credit courses, chosen from the list of approved courses, with a grade of C- or better. No more than three courses should be chosen from any one department.

Students interested in taking the minor should contact the coordinator, **Fredrik Meiton** ([Fredrik.Meiton@unh.edu](mailto:Fredrik.Meiton@unh.edu)), Department of History, Horton Social Science Center.

## Requirements

To complete a minor in social studies of science and technology, students must complete five courses (20 credits) with a grade of C- or better, choosing no more than three courses from a single department.

Code	Title	Credits
Select five courses from the following:		20
ANTH 440A	Honors/Medicine and Culture: Science, Technology and the Body	
BIOL 444A	Biotechnology and Society	
CEE 520	Environmental Pollution and Protection: A Global Context	
CHE 410	Energy and Environment

## Homeland Security

- [Homeland Security Major \(B.S.\)](#) (p. 89)

## Homeland Security Major (B.S.)

<https://manchester.unh.edu/program/bs/homeland-security-major>

## Description

Fully available on both Durham and Manchester campuses, the UNH Homeland Security program is built upon the expertise and advice of subject matter experts from around the Nation. Its proven curriculum includes practical experiences, service and experiential learning opportunities, and consulting opportunities that together empower students to manage programs and to lead people. HLS provides students with an impressive array of tools including how to do strategic planning, how to build emergency management and continuity plans, how to perform an organization-wide security and risk assessments, and how to design and evaluate exercises. The 4-year curriculum is flexible and incorporates the ability for students to take 40 credits of "breadth" as either two minors, a double major, or a dual degree. Students transferring with an associate's degree automatically satisfy the breadth requirement. Ultimately, the Homeland Security program empowers students to be successful on the job market or in graduate school.

Homeland security is a broad-field, applied liberal arts degree teaching students critical thinking, writing and analysis skills. As a result, HLS creates several graduate school opportunities and opens students to dozens of career paths in both the public sector (i.e., local, state or federal government), and the private sector or the military. Students will find diverse and rewarding career opportunities in cyber security/information assurance, intelligence analysis, civil or Foreign Service, diplomatic security, law enforcement at the local, state or federal levels, emergency and disaster management, immigration, border and transportation security, policy making, corporate security, risk management, critical infrastructure protection, human security and more.

## Requirements

Students must complete 128 credits to graduate. All courses within the major, fully available on both Durham and Manchester campuses, must be completed with a grade of C- or above and an overall GPA of 2.0 or above in major courses.

Code	Title	Credits
<b>Core Major Requirements</b>		
HLS 410	Introduction to Homeland Security	4
HLS 415	Fundamentals of Corporate Security	4
HLS 455	Introduction to Cybersecurity	4
HLS 480	Professional Skills in Homeland Security	4
HLS 505	Political Violence and Terrorism	4
HLS 510	Fundamentals of Emergency Management	4
HLS 515	Critical Infrastructure Security and Resilience	4
HLS 520	Homeland Security Law and Policy	4
HLS 580	Environmental and Human Security	4
JUST 501	Research Methods	4

or PSYC 502	Research Methods in Psychology	
or PS 595	Research for Political and Policy Action	
HLS 650	Intelligence Systems and Structures in Homeland Security	4
HLS 760	Strategic Planning and Decision Making	4
HLS 770	Internship in Homeland Security	4
or HLS 799	Senior Thesis in Homeland Security	
HLS 790	Capstone in Homeland Security	4
<b>Total Credits</b>		<b>56</b>

### Breadth Requirement

In addition to the core HLS courses, students must complete 40 additional credits from either Durham or Manchester campuses, or both, in one of five ways:

1. two minors;
2. a minor and a "coherent block"/self-designed concentration (i.e., ROTC credits, or credits earned from another major). The coherent block needs to be approved by the HLS coordinator;
3. a second major or a UNH dual degree;
4. an associate's degree transferred in to UNH;
5. some other combination of coursework with consent of the HLS program coordinator.

For additional information, contact [James Ramsay](mailto:james.ramsay@unh.edu) ([james.ramsay@unh.edu](mailto:james.ramsay@unh.edu)), HLS Program Coordinator, or the [UNH Manchester Office of Admissions](mailto:unhm.admissions@unh.edu) ([unhm.admissions@unh.edu](mailto:unhm.admissions@unh.edu)) at (603) 641-4150.

## Degree Plan

This degree plan is a sample and does not reflect the impact of transfer credit or current course offerings. Undergraduate students will develop individual academic plans with their professional advisor during the first year at UNH.

## Sample Course Sequence

Course	Title	Credits
<b>First Year</b>

## Student Learning Outcomes

- Conduct research and work collaboratively to deliver professional, written papers, presentations, and briefs.
- Demonstrate knowledge of contemporary or emergent threats, challenges or issues including natural manmade and technological hazards.
- Apply knowledge and tools gained throughout the HLS program to complete a capstone project.
- Complete an internship in HLS (or a senior thesis in HLS).
- Recognize the concepts of ethics and professionalism in the homeland security enterprise.

## Humanities (HUMA)

The humanities program examines the fundamental questions and issues of human civilization. Through studying diverse texts in the arts, music, literature, history, philosophy and science, students seek answers to questions that thoughtful human beings must address in the course of their lives. Whether these questions come from Socrates (What is justice?), from Sir Thomas More (What is obligation to God?), from Raphael (What is beauty?), from Newton (What are the laws of nature?) or from Martin Luther King, Jr. (What is freedom?), they direct our attention to enduring human concerns and to texts that have suggested or illustrated the most profound and powerful answers. The humanities program is housed in the Department of Classics, Humanities and Italian Studies.

- [Humanities Dual Major](#) (p. 91)
- [Humanities Minor](#) (p. 91)

### Faculty

<https://cola.unh.edu/classics-humanities-italian-studies/faculty-staff-directory>

## Humanities Dual Major

<https://cola.unh.edu/classics-humanities-italian-studies/program/ba/humanities-dual-major>

### Description

The dual major in humanities is structured in such a way that students can focus on a chosen primary major while taking advantage of the humanities program curriculum and its emphasis on analytical writing, critical thinking and well-rounded interdisciplinary cultural knowledge. Students combine our curriculum with another, disciplinary major that allows them to pursue a narrower field of study in some depth. The dual major in interdisciplinary humanities offers students a set of tools and skills so they can understand and forge our 21st century world. Its curriculum provides structure, progression, and rigor. Citizens of the 21st century need to know how to analyze texts and navigate cultures. That is why the humanities are essential to the lives of educated people.

### Requirements

The humanities dual major consists of a minimum of 32 credits of academic work, with a minimum grade of C-. Students cannot declare the dual major until they have declared a primary major. They must have a GPA of 2.75 to be accepted to the dual major program.

Code	Title	Credits
<b>Core Requirements: Four Core Courses (16 Credits)</b>		
HUMA 500	Critical Methods in the Humanities <sup>1</sup>	
Select EITHER two of the following team-taught courses		
HUMA 510A/510B/510C/510D	Ancient Humanities: Cultures and Empires	

HUMA 511A/511B/511C	Medieval Humanities: Rise of Global Empires
HUMA 512A/512B/512C/512D	Modern Humanities: Colonies, Constitutions, and Capital
HUMA 513A/513B/513C/513D	Global Humanities
OR one team-taught course PLUS	
HUMA 401/401W	Introduction to the Humanities
<b>Discovery Program Capstone</b>	
Select EITHER	
HUMA 700	Seminar (preferably during junior or senior year) <sup>2</sup>
OR	
HUMA 798 & HUMA 799	Research Seminar and Research Seminar <sup>3</sup>
<b>Additional Requirements (16 Credits)</b>	
Select four area courses in HUMA (500 level or above) from at least three of five areas of disciplinary focus <sup>4</sup>	

- <sup>1</sup> Students will be made acquainted with the methods and technology required for research in humanities.
- <sup>2</sup> This seminar provides an opportunity for in-depth reading, viewing, and/or listening to texts and artifacts. The emphasis is on the multiple perspectives and methodologies that can be brought to bear upon these works from several humanistic disciplines.
- <sup>3</sup> Each student participates in the research tutorial (for a total of 6 credits) throughout the senior year. The tutorial provides a context within which students may discuss and receive direction in the course of completing a major research paper, the senior thesis. At the end of the second semester, students present their research to the faculty and their fellow students.
- <sup>4</sup> Selected with the advice and approval of each student's major adviser or the program coordinator. These offerings should bear some relation to the student's particular interests and senior research paper, as seems appropriate in each individual case.

The required minimum overall GPA in major coursework is 2.0.

Candidates for a degree must satisfy all of the University Discovery Program requirements in addition to satisfying the requirements of each individual major program. Bachelor of arts candidates must also satisfy the foreign language proficiency requirement.

### Student Learning Outcomes

- Demonstrate the ability to find and evaluate primary and secondary source material necessary for humanistic research.
- Demonstrate the ability to propose, conduct, and present interdisciplinary humanistic research in a written, oral, or other forms. Identify and interpret creative and cultural forms from a given historical period.
- Compare and contrast the meanings of major texts and other significant cultural productions.

## Humanities Minor

<https://cola.unh.edu/classics-humanities-italian-studies/program/minor/humanities>

### Description

There has never been a more exciting time to be human—or has there? What exactly does it mean to be a human being in the twenty-first century? How can you get the most out of your humanity? Find out by

minoring in the humanities. It can help prepare you for a life you may not have considered, in ways you've never imagined.

## Requirements

The humanities minor consists of the following courses:

Code	Title	Credits
Select two courses (8 credits) of the following sequence:		
HUMA 510A/510B/510C/510D	Ancient Humanities: Cultures and Empires	8
HUMA 511A/511B/511C	Medieval Humanities: Rise of Global Empires	
HUMA 512A/512B/512C/512D	Modern Humanities: Colonies, Constitutions, and Capital	
HUMA 513A/513B/513C/513D	Global Humanities	
Select two courses (8 credits) from other humanities program courses, one of which should be at the 600 level		
HUMA 700	Seminar (or another approved course)	4
<b>Total Credits</b>		<b>20</b>

## International Affairs (IA)

The International Affairs Program offers undergraduate students the opportunity to pursue a dual major or a minor in international affairs (IA). The dual major and minor pair with any primary major in any college at UNH. The IA program adds an international dimension to the primary major and expands career opportunities in a global, interdependent world. IA core courses are interdisciplinary and are taught by faculty with expertise in international studies from around the university. Required IA courses and electives help students appreciate complex interconnections among nations and peoples and equip them with the analytical skills, cultural competence and global perspectives needed for careers in the public, private and nonprofit sectors.

<https://cola.unh.edu/international-affairs>

## Programs

- [International Affairs Dual Major](#) (p. 92)
- [International Affairs Minor](#) (p. 94)

## Faculty

<https://cola.unh.edu/international-affairs/people>

## International Affairs Dual Major

<https://cola.unh.edu/international-affairs/program/international-affairs-dual-major>

## Description

The international affairs (IA) dual major can complement and add a global dimension to any other major at UNH. The completion of the dual major requires no additional credits for graduation beyond the 128 required of all UNH students. All coursework required for international affairs must be completed with a grade of C or better. For more information, contact the [international affairs senior program assistant](#) ([michael.cole@unh.edu](mailto:michael.cole@unh.edu)).

Students who wish to declare the international affairs dual major must earn a C or better in [IA 401](#), have declared a primary major, and have a 2.5 cumulative grade-point average. Students are expected to maintain at least a 2.5 grade-point average, the minimum required for study abroad at UNH.

Note:

Participation in the international affairs dual major and minor is open to ALL students at UNH. For instance, the Department of Civil Engineering has developed a dual-major program in civil engineering and international affairs. Students do not need to have pre-existing skills in a foreign language before coming to UNH. For more information about the civil engineering/IA program, contact Ray Cook at [ray.cook@unh.edu](mailto:ray.cook@unh.edu).

## Requirements

Code	Title	Credits
<b>Required Core Courses</b>		
IA 401	International Perspectives	4
IA 501	Global Issues in International Affairs	4
IA 701	Exploring International Challenges and Opportunities	4
Select one of the following:		
ECON 401	Principles of Economics (Macro)	
ECON 402	Principles of Economics (Micro)	
EREC 411	Environmental and Resource Economics Perspectives	
International Affairs Language Requirement <sup>1</sup>		variable
International Experience - Study Abroad <sup>2</sup>		variable
<b>Electives - see list below</b>		
Select one course from each category list, plus one more course from either category (3 courses total):		12
Politics, Culture, & History		
Science, Environment, Economy, & Health		

### <sup>1</sup> International Affairs Language Requirement

IA majors must demonstrate functional reading, writing, and speaking ability equivalent to a second-year, second-semester college level (504). Students may take placement tests to establish proficiency. Native second language speakers are exempt from this requirement - speak to an IA advisor. Language study may be pursued at UNH; through study abroad in the summer, J-term, or academic year; or through transfer credits from other institutions with the permission of an IA advisor.

### <sup>2</sup> International Experience - Study Abroad

Minimum of eight weeks. The IA international experience is typically conducted in a country or region that uses the student's second language. Students may pursue their international experience elsewhere after consultation with an IA advisor.

The international experience (typically completed in the junior year) is completed before taking IA 701 in the senior year. Students may spend an academic year, semester, or summer in an academic institution, in an internship with a private or public organization, or in purposeful travel/research. Students must meet with the Study Abroad Advisors at the [Global Education Center](#) to plan their international experience, typically a year in advance of study abroad.

## Electives (three total)

IA Dual Majors take three electives, one course from each category list: Politics, Culture, and History and from Science, Environment, Economy and Health. IA dual majors choose their 3<sup>rd</sup> elective from either list.

IA electives are offered across the university and may be used to fulfill Discovery, Honors Program and/or other minor requirements. Up to 8 credits may be double counted between your primary major and IA. Additional courses taken in the primary major may count for IA if

these courses do not count toward your primary major requirements. Electives may be taken at UNH, on the international experience, or transferred from another university with the permission of your IA advisor.

<sup>1</sup> Check with IA Program Assistant

## Student Learning Outcomes

- Demonstrate intermediate level proficiency in a foreign language;
- Apply different disciplinary approaches to the study of international affairs, including key themes and theoretical frameworks employed in these disciplines;
- Use critical thinking skills to analyze and discuss important global issues;
- Engage with cultural diversity and complexity through the international experience;
- Demonstrate familiarity with different types of data and sources and their appropriate use in analyzing selected topics in international affairs;
- Demonstrate competence in research design. Students will develop inquiry-based research questions, conduct a literature review, employ appropriate methods and data collection, and interpret their findings accurately.

## International Affairs Minor

<https://cola.unh.edu/international-affairs/program/minor/international-affairs>

### Description

The international affairs (IA) minor adds a recognized distinction and global context to any primary major in any college at UNH. It was

developed for those students who, due to the demands of their primary majors, are unable to complete the more rigorous requirements of the IA dual major.

Students who wish to declare the international affairs minor must earn a C or better in all IA course requirements and have a 2.5 cumulative grade-point average. The minor is declared when the fifth course is being taken. The student should obtain the minor completion form from the [IA senior program assistant \(michael.cole@unh.edu\)](mailto:michael.cole@unh.edu).

## Requirements

Code	Title	Credits
<b>Required Core Courses</b>		
IA 401	International Perspectives	4
Select one of the following:		4
ECON 401	Principles of Economics (Macro)	
ECON 402	Principles of Economics (Micro)	
EREC 411	Environmental and Resource Economics Perspectives	
International Affairs Language Requirement <sup>1</sup>		4
International Experience - Study Abroad <sup>2</sup>		
<b>Electives</b>		
Choose one course from each category list (2 courses total): <sup>3</sup>		8
Politics, Culture, & History		
Science, Environment, Economy, & Health		
<b>Total Credits</b>		<b>20</b>

### <sup>1</sup> International Affairs Language Requirement

Functional reading, writing, and speaking ability equivalent to a first-year, second-semester college level (402). Students may take placement tests to establish equivalency, include language study during the international experience, or transfer credits from other institutions.

### <sup>2</sup> International Experience - Study Abroad

Minimum of three weeks (or 4 credits). The international experience may include study, directed research, internship or service/volunteer experience abroad. Students should plan with the [study abroad advisors \(study.abroad@unh.edu\)](mailto:study.abroad@unh.edu) to plan for their international experience well in advance.

<sup>3</sup> See elective category lists under the IA dual major heading. Elective courses may count toward Discovery, Honors, Writing Intensive and major requirements.

## Italian Studies (ITAL)

The Italian studies program offers courses in Italian language, culture, literature, history and cinema, as well as courses on Italian American culture. Italian courses can also be used to fulfill Discovery Program requirements and the bachelor of arts foreign language proficiency requirement. In addition to the Italian studies major, an Italian studies minor is available.

The program provides opportunities both to achieve high competence in Italian language and culture and to apply these knowledge skills to other disciplines. The Italian studies program encourages independent and innovative thinking and research so that students may pursue and achieve individualized goals while they prepare for the challenges of thriving in the world community.

## Study Abroad

The Italian studies program allows students to register for approved study abroad programs through the University.

<https://cola.unh.edu/classics-humanities-italian-studies>

## Italian Studies Major (B.A.)

<https://cola.unh.edu/classics-humanities-italian-studies/program/ba/italian-studies-major>

## Description

The Italian studies program offers courses in Italian language, culture, literature, history and cinema, as well as courses on Italian American culture. Italian courses can also be used to fulfill Discovery Program requirements and the Bachelor of Arts foreign language proficiency requirement. The program provides opportunities both to achieve high competence in Italian language and culture and to apply these knowledge skills to other disciplines. The Italian studies program encourages independent and innovative thinking and research so that students may pursue and achieve individualized goals while they prepare for the challenges of thriving in the world community.

## Requirements

The Italian studies major curriculum consists of 10 courses (40 credits) that include:

Code	Title	Credits
Select 16 credits at 600-level or above		16
Select 24 credits in ITAL course electives (up to two courses in Classics (CLAS), Humanities (HUMA) or from the list of approved electives may substitute for two of these courses.)		24
Select one of the following Discovery capstone requirements:		
Honors Thesis (ITAL 796)		
Senior Thesis (ITAL 795)		
ITAL course at the 700-level (ITAL 733 or ITAL 775)		
Advisor approved 4-credit internship (ITAL 595)		
Advisor approved semester immersion experience in Italy (INCO 685 or INCO 686)		
<b>Total Credits</b>		<b>40</b>

## Additional Requirements

- The minimum grade for each major course is a C.
- Once students declare the Italian studies major, they must maintain a 2.5 cumulative grade point average in order to fulfill the study abroad requirement.
- Italian studies majors may use two major-required courses to satisfy two Discovery category requirements.

## List of Elective Courses

All CLAS and HUMA courses are acceptable electives. Approved courses from other disciplines are listed below. Approval by the Italian studies advisor is required for courses not listed below.

Code	Title	Credits

## Student Learning Outcomes

- Demonstrate speaking proficiency in Italian: Students speak Italian at the Advanced Level per standard guidelines established by the American Council on the Teaching of Foreign Languages (ACTFL).
- Demonstrate listening proficiency in Italian: Students' aural comprehension is at the Advanced Level per standard guidelines established by ACTFL.
- Demonstrate reading proficiency in Italian: Students' read at the Advanced Level per standard guidelines established by ACTFL.
- Demonstrate writing proficiency in Italian: Students' write at the Advanced Level per standard guidelines established by ACTFL.
- Exhibit contemporary cultural competency: Demonstrate knowledge of contemporary aspects of Italian culture and the ability to interact appropriately and effectively within diverse social and cultural contexts.
- Exhibit historical cultural competency: Identify the major movements in Italian cultural history and analyze critically Italian cultural production from the 13th century to the present through close readings and audio and visual texts (e.g., literature, cinema, music, visual arts, traditional and social media) to provide critical insight on a range of topics in Italian culture.
- Exhibit intercultural competency: Present a global perspective through the articulation of cultural differences as well as shared values between cultures, societies, and nations.
- Exhibit research competency: Demonstrate ability to conduct research in both Italian and English: to produce coherent analyses utilizing primary and secondary sources, applying critical thinking and methodologies of argumentation, and integrating disparate areas of knowledge.

## Italian Studies Minor

<https://cola.unh.edu/classics-humanities-italian-studies/program/minor/italian-studies>

## Description

The Italian studies minor provides students with the opportunity to explore the language, culture, and society of Italy through an interdisciplinary program. The minor is advantageous for applicants to graduate and professional schools in Italian, modern languages, linguistics, film, history, theater, philosophy and law. It is also a valuable asset for careers in economics, international affairs, international business, fashion, teaching, communications, translation, interpretation, government and Foreign Service.

The Italian studies minor is offered by the Department of Classics, Humanities and Italian Studies.

## Requirements

The minor consists of five courses.

Code	Title	Credits
Five ITAL elective courses <sup>1</sup>		20
Demonstrate linguistic proficiency at the level of intermediate Italian (ITAL 504 Intermediate Italian II or equivalent).		
<b>Total Credits</b>		<b>20</b>

<sup>1</sup> One course from a related field of study may be counted towards the minor, subject to the approval of the Italian studies advisor.

- All courses for the Italian studies minor must be completed with a minimum grade of C.
- New students will be assigned to the proper course in consultation with the program coordinator.

## Justice Studies (JUST)

Justice studies students think critically about issues that are part of the national conversation concerning justice: race and policing, cybercrime, the opioid crisis, juvenile delinquency, sexual and interpersonal violence, immigrants and refugees, wrongful convictions and bullying. All majors do applied or research internships in New England or Washington, D.C. Many spend a semester studying in Budapest and participating in Mock Trial. Our graduates excel in various positions including FBI agents, federal probation and patrol, police officers from local to federal levels, victim/witness advocates, prison wardens, police prosecutors, attorneys and juvenile justice advocates.

### Faculty

<https://cola.unh.edu/justice-studies-program/faculty-staff-directory>

## Justice Studies Dual Major

<https://cola.unh.edu/justice-studies/program/justice-studies-dual-major>

### Description

The justice studies dual major is an interdisciplinary area that blends topics from humanities departments (e.g., philosophy), social science departments (e.g., psychology, sociology, women's and gender studies), departments that include both humanities and social science faculty (history, political science), and professionally oriented departments (education, family studies, social work). Topics studied include courts, family violence, rights, substance abuse, juvenile justice, school law, children as witnesses, hate crimes and community policing. Students will be required to choose a first major before they will be able to declare justice studies as a second major. The goal is to produce graduates who have a higher level of knowledge about law and justice in American society and in the world so that they will mature into more knowledgeable and effective citizens. The justice studies dual major is intended for students who are looking for careers in the justice system or who seek graduate training in law or social sciences and humanities related to the law.

Students are strongly encouraged to contact the Justice Studies Office and to declare the dual major as soon as they develop an interest in

majoring. Once a student has been accepted to the JS dual major, they will be assigned an advisor.

### Requirements

The dual major in justice studies requires students to take a minimum of eight courses (32 credits), each completed with a grade of a C- or better. Students are required to have a grade-point average of a 2.5 or better before they can be accepted into the program. The dual major cannot be declared until after a first major has been declared. Students can count no more than two courses for both the first major and dual major, and students are not allowed to take more than two courses from any one department (except for JUST). An unlimited number of dual major courses can be used to satisfy Discovery requirements.

Code	Title	Credits
<b>Required Courses</b>		
JUST 401	Introduction to Justice Studies	4
JUST 501	Research Methods	4
JUST 601 or JUST 602	Internship (seniors only for 601 and 602) Research Internship	4
JUST 701	Senior Seminar (writing-intensive course) <sup>1</sup>	4
Select one of the following:		
POLT 507	Politics of Crime and Justice	
POLT 508	Supreme Court and the Constitution	
SOC 515	Introductory Criminology	
<b>Elective Courses</b>		
Select three elective courses from the justice studies approved course list		12
<b>Total Credits</b>		<b>32</b>

<sup>1</sup> This course fulfills the program capstone requirement.

### Elective Courses

This list is approved and published yearly by the Justice Studies Executive Committee.

Code	Title	Credits
<b>Elective Courses</b>		
ACC 747	Business Law	4
ANTH 550	Introduction to Forensic Anthropology	4
ANTH 697	Special Topics (must be approved by Justice Studies)	4
BIOL 420	Introduction to Forensic Sciences	4
CMN 637	Controversy and Reasoning in Law	4
EDUC 767	Students, Teachers, and the Law	4
HDFS 776	Children, Adolescents and the Law	4
HDFS 794	Families and the Law	4
HIST 440A	Martin Luther King, Jr., and the Struggle for Racial Justice	4
HIST 440D	Honors/Citizens and Persons	4
HIST 498	Explorations of Historical Perspectives (must be approved by Justice Studies)	4
HIST 509	Law in American Life	4
HIST 609	Special Topics in American Legal History (must be approved by Justice Studies)	4
HIST 797	Colloquium (must be approved by Justice Studies)	4
HLS 410	Introduction to Homeland Security	4
HLS 415	Fundamentals of Corporate Security	4
HLS 580	Environmental and Human Security	4
HLS 760	Strategic Planning and Decision Making	4
HMG 625	Hospitality and Employment Law (only HMG majors allowed)	4
HUMA 444E	What is a Criminal?	4
HUMA 525	Humanities and the Law	4
HUMA 550	Budapest Spring Semester: Special Studies in Comparative Ideas	4
HUMA 551	Budapest Spring Semester: Field Studies in Art and Culture	6
JUST 405	Technology, Crime, and Society: A Forensic Exploration of High-Tech and Digital Crime	4
JUST 410	Sexual Harassment and Rape Prevention (SHARPP) Peer Advocacy	4
JUST 415	SHARPP Advocacy II	2

JUST 520	Girls Gone Bad: Delinquent Girls in Cultural Context	4
JUST 550 & JUST 551	Mock Trial and Mock Trial (must take 2 semesters to count as a JS elective)	4
JUST 591	Forensic Psychology	4
JUST 595	Special Topics (no more than two courses) <sup>2</sup>	4
JUST #650 & JUST #651	Special Studies in Comparative Justice Systems and Field Studies in the Hungarian Justice System	10
JUST 795	Reading and Research (variable credit/permission required)	1-4
LLC 540	Film History (Terrorism(s) A Humanistic and Cinematic Outlook)	4
LAW 460	Sports Law & Current Controversies	4
PHIL 420	Introduction to Philosophy of Law and Justice	4
PHIL 436	Social and Political Philosophy	4
PHIL #635	Advanced Topics in Philosophy of Law and Justice	4
PHIL 660	Law, Medicine, and Ethics	4
PHIL 701	Topics in Value Theory	4
POLT 440A	Honors/Global Justice (Global Justice)	4
POLT 444B	Cruel and Unusual in a Federal System	4
POLT 507	Politics of Crime and Justice	4
POLT 508	Supreme Court and the Constitution	4
POLT 513	Civil Rights and Liberties	4
POLT 520	Politics, Justice, and Morality	4
POLT 548	Drug Wars	4
POLT 568	International Security	4
POLT #701	Courts and Public Policy	4
POLT #765	Security Intelligence Study	4
POLT 798B	Seminar in American Politics (must be approved by Justice Studies )	4
PSYC 755	Psychology and Law	4
PSYC 756	Psychology of Crime and Justice	4
PSYC 791W	Special Topics (Psychology of Delinquency)	4
RMP 772	Law and Public Policy in Leisure Services (must have junior/senior status)	4
SOC #440A	Honors/Drug Addiction in American Society	4
SOC 515	Introductory Criminology	4
SOC 450	Contemporary Social Problems (only when taught by Professor Abbott)	4
SOC 525	Juvenile Crime and Delinquency	4
SOC 535	Homicide	4
SOC 620	Drugs and Society	4
SOC #655	Sociology of Law and Justice	4
SOC #656	Terrorism	4
or POLT #570	Counterterrorism: Nation states' responses to terrorist activity	
SOC 697	Special Topics (Social Psychology of Justice)	4
SOC #715	Criminological Theory	4
SOC 720	Sociology of Drug Use	4
SW 525	Social Welfare Policy: History of Social and Economic Justice	4
SW 705	Child and Adolescent Risks and Resiliency: Program, Policy and Practice	4

<sup>2</sup> Bill of Rights and Law & Society are allowed to count as the JS SOC/ POLT requirement.

The required minimum overall GPA in major coursework is 2.5.

Candidates for a degree must satisfy all of the University Discovery Program requirements in addition to satisfying the requirements of each individual major program. Bachelor of arts candidates must also satisfy the foreign language proficiency requirement.

Students who are interested in a dual major in justice studies will need to officially declare in Webcat (my.unh.edu). Program offices are located in Hamilton Smith Hall and are open Monday through Friday from 8 a.m. to 12 p.m. and 1 p.m. to 4:30 p.m. For more information, please contact Molly Dorsey at (603) 862-0703, e-mail [marion.girard.dorsey@unh.edu](mailto:marion.girard.dorsey@unh.edu); or Deb Briand at (603) 862-1716, e-mail [deborah.briand@unh.edu](mailto:deborah.briand@unh.edu).

## Student Learning Outcomes

- Demonstrate knowledge of fundamental theoretical approaches and key disciplinary concepts of Justice Studies.
- Demonstrate understanding of justice studies methods of research design, data gathering, and analysis.
- Exhibit critical thinking skills in evaluating justice studies research, including the background assumptions, appropriateness of methods used and the strength of explanatory evidence.
- Communicate justice studies knowledge in appropriate oral, written and graphic forms.
- Experience justice studies either in the real world through an internship or in a research lab through a research internship.

## Justice Studies Minor

<https://cola.unh.edu/justice-studies/program/minor/justice-studies>

## Description

The justice studies minor is an interdisciplinary program that blends topics from humanities departments (e.g., philosophy), social science departments (e.g., psychology, sociology, women's and gender studies), departments that include both humanities and social science faculty (history, political science) and professionally oriented departments (education, family studies, social work). Topics studied include courts, family violence, rights, substance abuse, juvenile justice, school law, children as witnesses, hate crimes and community policing.

## Requirements

The minor in justice studies requires students to take a total of five courses (20 credits) each with a grade of C- or better in order to complete the program. Students are allowed to "double count" no more than two courses toward their major and minor, and are not allowed to take more than two courses from any one department (except for justice studies).

In order to officially declare the minor in justice studies, students will need to submit an intent to minor form to Deb Briand in the Justice Studies Office. This form can be found on our website.

Code	Title	Credits
<b>Required Courses</b>		
JUST 401	Introduction to Justice Studies	4
Select one of the following:		
POLT 507	Politics of Crime and Justice	
POLT 508	Supreme Court and the Constitution	
SOC 515	Introductory Criminology	
<b>Elective Courses</b>		
Select three elective courses from the justice studies approved course list <sup>1</sup>		12
<b>Total Credits</b>		<b>20</b>

<sup>1</sup> This list is approved and published yearly by the Justice Studies Executive Committee. Departmental offerings that are currently accepted for the minor are listed on the [Justice Studies major page](#) (p. 97).

For program information on the forensics minor, see the Forensics Minor program page.

## Forensics Minor

<https://cola.unh.edu/justice-studies/program/minor/forensics>

### Description

The forensics minor provides students with the opportunity to explore the different components of forensics through the interdisciplinary study of biology, psychology, sociology and justice studies. This well-rounded curriculum will enable students to build upon their interests in justice studies by specializing in an area of increasing importance. Once students have decided to pursue the minor, they are required to meet with the coordinator, academic counselor or appropriate affiliated faculty adviser at least once per semester for regular review and assessment of their program, learning outcomes and progress toward the degree.

### Requirements

The forensic minor requires five courses (20 credits) drawn from a list of approved courses. Students must receive a grade of a C- or better for a course to count toward the minor requirements. The five courses include:

Code	Title	Credits
<b>Required Courses</b>		
JUST 401	Introduction to Justice Studies	4
BIOL 420	Introduction to Forensic Sciences	4
<b>Additional Courses</b>		
Select three of the following:		12
ANTH 550	Introduction to Forensic Anthropology	
ANTH 697	Special Topics (The only special topic allowed is Cold Cases)	
JUST 405	Technology, Crime, and Society: A Forensic Exploration of High-Tech and Digital Crime	
JUST 591	Forensic Psychology	
SOC 515	Introductory Criminology	
SOC 535	Homicide	
<b>Total Credits</b>		<b>20</b>

Two courses can double count toward your justice studies dual major. These courses are most commonly JUST 401 Introduction to Justice Studies, and SOC 515 Introductory Criminology.

In order to officially declare the forensic minor, students will need to submit an intent to minor form to Deb Briand in the Justice Studies Office. This form can be found on our website.

## Latin American, Latinx and Caribbean Studies

- [Latin American, Latinx and Caribbean Studies Minor](#) (p. 99)

## Latin American, Latinx and Caribbean Studies Minor

<https://cola.unh.edu/interdisciplinary-studies/program/minor/latin-american-latinx-caribbean-studies>

### Description

Latin American, Latinx and Caribbean studies is an interdisciplinary minor encompassing anthropology, communications, economics,

geography, history, linguistics, political science and Spanish. Knowledge of Latin America is especially valuable for students who plan to work in education, international organizations, government, social services, and business or for graduate studies related to Latin America.

For more information on the Latin American, Latinx and Caribbean studies minor (LALACS) contact [Lori Hopkins](#) ([lori.hopkins@unh.edu](mailto:lori.hopkins@unh.edu)).

### Requirements

Students can complete the minor by selecting any five courses (20 credits) representing at least three disciplines.

Code	Title	Credits
HIST 532	Modern Latin America <sup>1</sup>	4
SPAN 504	Intermediate Spanish II <sup>2</sup>	4
Elective courses (see list below)		12-16

<sup>1</sup> An equivalent course as approved by a LALACS advisor can replace HIST 532 Modern Latin America.

<sup>2</sup> Minimum of high-intermediate level proficiency in Spanish. Equivalent courses or equivalent testing may be counted here.

Enrollment in these five courses must follow the guidelines below to count for the minor:

1. At least three courses must be taken in residence.
2. All coursework required for the minor must be completed with a grade of C or better.
3. Courses for the minor may not be taken pass/fail.

Academic study in Latin America is strongly recommended: Speak with faculty to help you find the study abroad program that best fits your interests. UNH and its affiliates offer several short- and long-term programs throughout Latin America.

### Elective Course List

Students should consult with an advisor or the course instructor to ensure that the majority of this coursework concentrates on Latin America.

Code	Title	Credits
ANTH 500	Peoples and Cultures of the World (Topic: Latin America)	4
ANTH 501	World Archaeological Cultures (Topic: Mesoamerica)	4
ANTH 674	Archaeological Survey and Mapping in Belize	4
CMN 515	Analysis of News	4
ECON 668	Economic Development	4
ENGL 560	Introduction to Latinx Literature and Culture	4
ENGL 650	I Hear America Singing: Studying American Literature and Culture (Topic: Latina/o Literature)	4
HIST 425	Foreign Cultures (Topic: Women in Latin America)	4
HIST 532	Modern Latin America	4
HIST 632	Latin American History: Topics	4
LING 790	Special Topics in Linguistics Theory (Topic: Sustainable Languages)	4
POLT 403	United States in World Affairs	4
POLT 548	Drug Wars	4
POLT 565	United States Policy in Latin America	4
POLT 795	Advanced Study (Topic: The Politics of Poverty)	1-4
SPAN 526	Introduction to Latin American Cultures	4
SPAN 631	Advanced Conversation and Composition I	4
SPAN 632	Advanced Conversation and Composition II	4
SPAN 641	Spanish Language Variation & Change	4
SPAN 647	Topics in Hispanic Cultural Studies	4
SPAN 648	The Hispanic World Today	4

SPAN 650	Hispanic Literature and Popular Culture	4
SPAN 653	Introduction to Latin American Literature and Thought	4
SPAN 654	Introduction to Latin American Literature and Thought	4
SPAN 797	Topics in Hispanic Literary and Cultural Studies	4
SPAN 798	Topics in Hispanic Linguistics and Cultural Studies	4
SW 697	Special Topics in Social Welfare (Topic: Social Action in the Dominican Republic)	4
SW 797	Special Topics in Social Welfare (Topic: Social Action in the Dominican Republic)	4

## Linguistics (LING)

Linguistics is the study of one of the most important characteristics of human beings—language. It cuts across the boundaries between the sciences and the humanities. The program is an excellent liberal arts major or preprofessional major for education, law, medicine, clergy and others. It is a particularly appropriate major for students who want to teach English as a second language. Dual majors with a foreign language, international affairs, business administration and the like are quite feasible.

Students interested in the major or the minor should consult with the program coordinator or with any professor who teaches linguistics courses. To declare a major in linguistics, a student must meet with the linguistics coordinator to design a course of study. Information is available from the University Advising Center, 101 Hood House, and at [cola.unh.edu/linguistics](https://cola.unh.edu/linguistics).

<https://cola.unh.edu/linguistics>

### Programs

- [Linguistics Major \(B.A.\)](#) (p. 100)
- [Linguistics Minor](#) (p. 101)
- [TESOL Minor](#) (p. 101)

### Faculty

<https://cola.unh.edu/linguistics/faculty-staff-directory>

## Linguistics Major (B.A.)

<https://cola.unh.edu/linguistics/program/ba/linguistics>

### Description

Linguistics is the study of one of the most important characteristics of human beings—language. It cuts across the boundaries between the sciences and the humanities. The program is an excellent liberal arts major or preprofessional major for education, law, medicine, clergy and others. It is a particularly appropriate major for students who want to teach English as a second language. Dual majors with a foreign language, international affairs, business administration and the like are quite feasible.

Students interested in the major should consult with the program coordinator or with any professor who teaches linguistics courses. To declare a major in linguistics, a student must meet with the linguistics coordinator to design a course of study. Information is available from the University Advising Center, 101 Hood House, and at [cola.unh.edu/linguistics](https://cola.unh.edu/linguistics).

## Requirements

Code	Title	Credits
LING 405	Introduction to Linguistics	4
LING 605	Intermediate Linguistic Analysis	4
LING 793	Phonetics and Phonology	4
LING 794	Syntax	4
Select one course in historical linguistics or sociolinguistics from the following:		4
ENGL 752	History of the English Language	
ITAL 733	History and Development of the Italian Language	
LING/ENGL 719	Sociolinguistics Survey	
RUSS 733	History of Slavic Languages and Culture	
SPAN 798	Topics in Hispanic Linguistics and Cultural Studies (Subtopic A)	
Two years of college study (or equivalent) of one foreign language		4-16
Select one of the following cognate specialties:		8
One year study (or equivalent) of a second foreign language from a different language family or subfamily <sup>1</sup>		
PSYC 712	Psychology of Language <sup>2</sup>	
Select two elective courses from list below, one of which must be a 600- or 700- level LING or ENGL course <sup>3</sup>		8
Discovery Program Capstone Experience:		
LING 779	Linguistic Field Methods	4
or LING 695	Senior Honors	
<b>Total Credits</b>		<b>44-56</b>

- <sup>1</sup> Old English may count as the second foreign language if the first foreign language is not in the Germanic family.
- <sup>2</sup> With its prerequisite, either PSYC 512 Psychology of Primates or PSYC 513 Cognitive Psychology
- <sup>3</sup> History of the English Language or Sociolinguistics can be used as an elective if the other one is used for the Variation/Historical requirement.

## Elective Courses

Code	Title	Credits
<b>Anthropology</b>		
ANTH 795	Reading and Research (Subtopic B)	1-8
ANTH 796	Reading and Research (Subtopic B)	1-8
<b>Communication</b>		
CMN 572	Analysis of Language and Social Interaction	4
CMN 666	Conversation Analysis	4
<b>English</b>		
ENGL 606	Languages of the World	4
ENGL 715	Teaching English as a Second Language: Theory and Methods	4
ENGL 716	Curriculum, Materials and Assessment in English as a Second Language	4
ENGL 717	Languages in Contact	4
ENGL 718	Morphology	4
ENGL 719	Sociolinguistics Survey	4
ENGL 727	Issues in Second Language Writing	4
ENGL 728	Language and Gender	4
ENGL 752	History of the English Language	4
ENGL 790	Special Topics in Linguistics	4
ENGL 791	English Grammar	4
<b>LLC</b>		
LLC 791	Methods of Foreign Language Teaching	4
<b>Italian</b>		
ITAL 733	History and Development of the Italian Language	4
<b>Linguistics</b>		
LING 606	Languages of the World	4
LING 717	Languages in Contact	4
LING 718	Morphology	4
LING 719	Sociolinguistics Survey	4
LING 728	Language and Gender	4
LING 790	Special Topics in Linguistics Theory	4
LING 795	Independent Study	1-4
<b>Psychology</b>		

PSYC 512	Psychology of Primates <sup>1</sup>	4
PSYC 513	Cognitive Psychology <sup>1</sup>	4
PSYC 712	Psychology of Language	4
<b>Russian</b>		
RUSS 733	History of Slavic Languages and Culture	4
<b>Spanish</b>		
SPAN 641	Spanish Language Variation & Change	4
SPAN 645	Intro to Spanish Linguistics	4
SPAN 798	Topics in Hispanic Linguistics and Cultural Studies (Subtopic A)	4

<sup>1</sup> Students may count either PSYC 512 Psychology of Primates or PSYC 513 Cognitive Psychology toward the linguistics major or minor, but not both.

Other courses may be substituted, with the permission of the student's adviser and the linguistics committee, when they are pertinent to the needs of the student's program.

The required minimum overall GPA in major coursework is 2.0.

Candidates for a degree must satisfy all of the University Discovery Program requirements in addition to satisfying the requirements of each individual major program. Bachelor of arts candidates must also satisfy the foreign language proficiency requirement.

Linguistics majors may use one major-required course to satisfy one Discovery category requirement.

## Student Learning Outcomes

Students will understand and be able to deploy the analytical tools, modes of critical thinking, and types of writing that are used in studying languages and linguistics. Students will be able to analyze sets of data and make arguments concerning the theoretical analysis of those data. Core areas:

- **Phonetics:** Students will understand the acoustic and articulatory properties of speech sounds both for English and for other languages. Students will be able to transcribe and read the International Phonetic Alphabet.
- **Phonology:** Students will display knowledge of phonological analysis including identifying phonemes and allophones in languages, writing phonological rules using distinctive features, and understanding phonological processes such as assimilation, epenthesis, vowel harmony, etc.
- **Morphology:** Students will be able to analyze word structure (inflection, derivation, compounding) both in English and in unfamiliar languages. They will understand key concepts concerning the mental lexicon.
- **Syntax:** Students will be able to analyze the structural properties of sentences in English and in other languages and be familiar with the principles of generative grammar.
- **Sociolinguistics, Historical Linguistics, and Typology:** Students will understand processes of language change over time, language variation according to region, social class, gender, and education, and the effects of language contact.
- **Field Methods:** Students will be able to work with a native speaker of an unfamiliar language to collect and analyze data from that language. They will understand the ethical and logistical issues involved in documenting languages.
- **Applications:** Students will have an understanding of practical applications of linguistic knowledge to daily life, including political

issues regarding language (e.g., bilingual education, official languages), language acquisition, disorders that can affect language.

## Linguistics Minor

<https://cola.unh.edu/linguistics/program/minor/linguistics>

### Description

Linguistics is the study of one of the most important characteristics of human beings—language. It cuts across the boundaries between the sciences and the humanities. Students interested in the minor should consult with the program coordinator or with any professor who teaches linguistics courses.

### Requirements

Code	Title	Credits
LING/ENGL 405	Introduction to Linguistics	4
Select any four linguistics courses approved by the linguistics coordinator		16
<b>Total Credits</b>		<b>20</b>

## TESOL Minor

<https://cola.unh.edu/linguistics/program/minor/tesol>

### Description

The TESOL minor is a set of courses that are related to teaching English to speakers of other languages. This minor primarily is for students who are interested in teaching English to speakers of other languages, whether that be teaching English abroad or teaching ESL students in U.S. public schools (K-12). It is also appropriate for students who are going into social work or other professions that require regular interaction with nonnative English speakers.

The TESOL minor will not certify students to teach in New Hampshire public schools (K-12). For that purpose, students must complete the ESL certification program that is offered at the graduate level by the Education and English departments. However, the coursework in this minor will provide a very good foundation for students who want to later pursue ESL certification or an M.A. in TESOL at UNH or another institution. English Teaching majors may double-count ENGL 791 towards both their teaching major and the TESOL minor. Teaching majors who intend to later get dual certification in English and ESOL may use ENGL 719/LING 719 and its pre-requisite ENGL 405/LING 405 to satisfy their race requirement.

### Requirements

The TESOL minor requires the following five courses:

Code	Title	Credits
ENGL 715	Teaching English as a Second Language: Theory and Methods	4
ENGL 716	Curriculum, Materials and Assessment in English as a Second Language	4
Select one of the following courses on the structure of English:		4
ENGL 791	English Grammar	
ENGL/LING 405	Introduction to Linguistics	
Select two of the following approved TESOL electives:		8
EDUC 550	Language and Linguistic Diversity in Schools	
ENGL 791	English Grammar <sup>1</sup>	

ENGL/LING 405	Introduction to Linguistics <sup>1</sup>
ENGL/LING 719	Sociolinguistics Survey
ENGL 727	Issues in Second Language Writing (WI)
ENGL 752	History of the English Language (WI)
ENGL/LING 790	Special Topics in Linguistics (when offered on a TESOL-related topic (WI))
LLC 791	Methods of Foreign Language Teaching
Special topics courses that are related to TESOL <sup>2</sup>	
<b>Total Credits</b>	<b>20</b>

<sup>1</sup> Whichever was not taken before

<sup>2</sup> The TESOL coordinator can provide you with a list of available courses for a particular semester.

Students must receive a C- or better in each course and achieve a 2.0 GPA in the five courses.

No more than eight transfer credits will be accepted.

For more information about the TESOL minor, please contact Soo Hyon Kim, [soohyon.kim@unh.edu](mailto:soohyon.kim@unh.edu), 603-862-5290.

## Medical Humanities, Society & Ethics

- [Medical Humanities, Society & Ethics Minor](#) (p. 102)

## Medical Humanities, Society & Ethics Minor

<https://cola.unh.edu/interdisciplinary-studies/program/minor/medical-humanities-society-ethics>

### Description

As an interdisciplinary minor, medical humanities, society and ethics (MHSE) teaches students to use methods from the humanities and social sciences to examine issues related to illness, health, healthcare, the body and the mind in their social, cultural and historical contexts.

MHSE takes as its starting point the dual claim that the central human experiences of health and illness as well as the systems of knowledge that have emerged to classify them are culturally shaped phenomena. Bodies and minds experience illness; people suffer; they age; they die. But the meanings people attach to these processes are not givens in the natural world. They are rather forged within a particular society's attitudes, values, beliefs and practices expressed through language, behavior, ritual and art. They are, moreover, contingent on time and place. Even the modern scientific discipline of medicine, its truth claims, and its terms are embedded in historical cultural domains. They have as much to do with attitudes to gender, race, socioeconomic status, relations of power, structures of authority and social hierarchies as they do with biology.

MHSE aims to bridge the gulf that exists between science and experience, biology and culture by challenging students to examine critically the origins and nature of their beliefs and values about illness and health as well as the beliefs and values embedded in their society's social, cultural, educational, legal and political institutions.

MHSE students will learn that humanistic interpretive practices make cross-cultural and comparative studies of health and illness possible. The minor encourages students to take a broad community and global

perspective on experiences of health and illness that address equity, policy and resource allocation.

## Requirements

Students are required to take 20 credits in courses that are on the approved list (see below) or that are approved by the minor advisory committee through a petition process. Independent studies, practica and transfer credits may also count for the minor with the approval of the committee.

- At least 4 credits must be at the 600 or 700 level.
- No more than 12 credits may come from the same department.
- At least 12 credits must be taken in residence at UNH.
- No more than 4 credits may be taken from courses outside of the College of Liberal Arts.

## List of Approved Courses

Code	Title	Credits
ANTH 525	Anthropology of the Body: Fat, Fitness and Form	4
ANTH 610	Medical Anthropology: Illness and Healing	4
ANTH 685	Gender, Sexuality and HIV/AIDS in Sub-Saharan Africa	4
ANTH 695	Globalization and Global Population Health	4
CLAS 550C	Identities and Difference in the Ancient World: Sex and Desire in Greece and Rome	4
ENGL 415C	Literature and Medicine	4
ENGL 787	English Major Seminar (Only topic: Literature and Medicine)	4
GERM 798	Special Studies in German Language and Literature (Only topic: Narrating Madness in German Literature)	4
HIST 437H	Honors/The Mad Among Us: A Global History of Mental Disorder	4
HIST 440B	Honors/Medicine, Society, Science, and the Law: Who Makes Your Health Care Decisions?	4
HIST 498	Explorations of Historical Perspectives (Only topics: Pandemic! From the Black Death to Coronavirus or Childhood in Global History)	4
HIST 500	Introduction to Historical Thinking (Only topic: Landscape, Environment and Disease)	4
HUMA 526	Humanities and Science (Only topics: The Undead Humanities and Cognitive Science of Religion)	4
PHIL 410	Happiness, Well-Being, and a Good Life	4
PHIL 424	The Future of Humanity: Science, Technology, and Society	4
PHIL 440B	Honors/Who's Human Now?	4
PHIL 447	Artificial Intelligence, Robots, and People	4
PHIL 630	Neuroscience and Philosophy	4
PHIL 660	Law, Medicine, and Ethics	4
PHP 908	Public Health Ethics (undergrads allowed with special permission)	3
PSYC 531	Psychobiology	4
PSYC 733	Drugs and Behavior	4
PSYC 736	Attention Disorders	4
SOC 570	Sexual Behavior	4
SOC 620	Drugs and Society	4
SOC 625	Mental Health and Society	4
SOC 635W	Medical Sociology	4
SOC 720	Sociology of Drug Use	4
SOC 788	Advanced Medical Sociology	4

- Students must receive a grade of C- or better for a course to count toward the minor requirements.
- Once students have declared the minor, they are required to meet with the coordinator or appropriate core faculty advisor at least once per year for regular review and assessment of their program, learning outcomes and progress toward the degree.

# Middle Eastern Studies

## Programs

- [Middle Eastern Studies Minor](#) (p. 103)

## Middle Eastern Studies Minor

<https://cola.unh.edu/interdisciplinary-studies/program/minor/middle-eastern-studies>

## Description

The minor in Middle Eastern studies introduces students to the many facets of Middle Eastern cultures and societies through the interdisciplinary study of languages, history, politics, geography, and anthropology. Minor coursework enables students' understanding of the Middle East as a dynamic region in a global and comparative context. This minor therefore encompasses not only the study of the region itself, but also the flows and circulation of migration, diasporas, refugees, ideas, literatures, social movements, war and natural resources that make the region pivotal to world history and the global economy. In addition, participation in the minor prepares students for study abroad experiences, helps them acquire skills and qualifications for graduate study, and enhances employment opportunities.

Students interested in the minor should contact the coordinator and/or affiliated faculty to discuss their program of study.

## Requirements

The Middle Eastern studies minor requires five courses (20 credits) drawn from the list of approved courses or from exceptional courses and opportunities approved by the affiliate faculty in respective disciplines. The five-course requirement must include one non-language course.

Code	Title	Credits
<b>Elective Courses</b>		
Select five of the following:		20
ANTH 500	Peoples and Cultures of the World (only topic C)	
ANTH 640	Anthropology of Islam: Muslims' Everyday Lives in Contemporary Communities	
ANTH 700	Internship (only topic A: Preserving Cultural Heritage in Syria and Iraq)	
ANTH 750	Islam and Gender: Gendered Lives of Muslims	
ARBC 401	Elementary Arabic I	
ARBC 402	Elementary Arabic II	
ARBC 503	Intermediate Arabic	
ARBC 504	Intermediate Arabic	
ARBC 631	Advanced Arabic I	
ARBC 632	Advanced Arabic II	
GEOG 540	Geography of the Middle East	
HIST 425	Foreign Cultures	
HIST 575	Ancient Near East	
HIST 585	Medieval Islam	
HIST 586	Islam in the Modern Age, 15th Century to present	
HIST 640	Holy War in the Holy Land: The Medieval Crusades	
HUMA 444F	Travelers in the Premodern World	
HUMA 730	Special Studies (Symbols of Islam in America)	
POLT 559	Comparative Politics of the Middle East	
POLT #588	Selected Topics in Comparative Politics (Ethnic Violence, Politics, and Identity)	
POLT 740	States and Societies in the Middle East	

POLT #798C	Seminar in Comparative Politics (The Politics of Afghanistan, Pakistan, and India)
Total Credits	20

Students must receive a grade of C- or better for a course to count toward the minor. Courses for the minor may not be taken on a pass/fail basis.

**Foreign Language Study:** The study of a Middle Eastern language or language relevant to Middle Eastern studies is strongly encouraged but not required. Students are encouraged and permitted to count Arabic toward the five-course requirement. Students who have studied Hebrew, Turkish, Farsi, or other Middle Eastern languages at other institutions may apply for transfer of their credit toward the minor. Through petition to the minor coordinator and with support of affiliate faculty in the respective discipline, students may apply for European languages, such as French and Italian, to count toward minor requirements, provided these are relevant to their research and study interests in the region.

**Transfer or Articulation Agreements with other Institutions:** Transfer of credits may be approved by the coordinator to count toward the minor if the transfer is accepted by the University and fits within the scope of the minor.

Students interested in the minor should contact the coordinator and/or affiliated faculty to discuss their program of study. At the beginning of their final semester of study at UNH, students should fill out a completion of minor form and submit it to their Dean's Office.

## Music (MUSI, MUED)

The Department of Music offers two degree programs: the bachelor of arts in music and the bachelor of music.

The University of New Hampshire Department of Music is an accredited institutional member of the National Association of Schools of Music. All programs have final approval from NASM.

Prospective majors in music are advised to contact the department for information on acceptance into the major.

All music students must earn grades of C- or better in all required music and music education courses. The required minimum overall GPA in required music and music education coursework is 2.0.

## Bachelor of Arts in Music

The bachelor of arts in music program offers students an opportunity to major in music within the liberal arts curriculum. This program is intended for those who wish to pursue the serious study of music and to acquire at the same time a broad general education; it is recommended for those considering graduate study leading to master's or doctoral degrees.

To be admitted formally to the B.A. program, students must give evidence of satisfactory musical training by taking an admission audition. Students must declare music as a major before the beginning of the junior year, but it is highly recommended that they declare as early as possible, considering the large number of required courses.

The bachelor of arts degree is offered with three options: music liberal studies, performance study and composition.

## Bachelor of Music Degree Program

The bachelor of music degree program is offered to students who wish to develop their talent in performance, composition or music education

to a high professional level. The program is recommended to those considering graduate study leading to the M.M. or D.M.A. degrees. The music education option is part of the undergraduate certification program (see the Department of Education).

To be admitted to the B.M. program, students must demonstrate a high degree of musical competence or significant creative ability during an audition or examination. Selection is made on the professional requirements appropriate to each option. Students must formally declare the B.M. as a degree program before the beginning of the sophomore year. Continuation into the upper level of the program is subject to review by the department faculty.

Four degrees are offered in the bachelor of music curriculum: bachelor of music in music education; bachelor of music in performance; bachelor of music in composition, and bachelor of music pre-teaching.

# Music Major: Composition Option (B.A.)

<https://cola.unh.edu/music/program/ba/music-major-composition-option>

## Description

Students wanting to declare composition as their option must submit a music portfolio in addition to an audition on their major instrument.

The Discovery Program capstone requirement is fulfilled by a final project or a public performance given during the senior year. For students in the composition option, there is a choice of completing a half lecture, half lecture-recital or a half recital including at least one original composition.

Candidates for a degree must satisfy all of the University Discovery Program requirements in addition to satisfying the requirements of each individual major program. Bachelor of arts candidates must also satisfy the foreign language proficiency requirement.

Major department courses may not be used to satisfy Discovery category requirements except in the case of a second major. B.A. in music majors may use MUSI 502 Musics in Context (a required core course for the major) to satisfy the Inquiry Discovery requirement.

## Requirements

### Bachelor of Arts in Music Core Curriculum

Code	Title	Credits
MUSI 471 & MUSI 472	Theory I and Theory I	6

MUSI 541, MUSI 545, MUSI 546, MUSI 547, MUSI 548, MUSI 549, MUSI 550, MUSI 551, MUSI 552, MUSI 553, MUSI 554, MUSI 555, MUSI 556, MUSI 557, MUSI 558, MUSI 559, MUSI 560, MUSI 561, MUSI 562, MUSI 563, MUSI 564, MUSI 741, MUSI 745, MUSI 746, MUSI 747, MUSI 748, MUSI 749, MUSI 751, MUSI 752, MUSI 753, MUSI 754, MUSI 755, MUSI 756, MUSI 757, MUSI 758, MUSI 759, MUSI 760, MUSI 761, MUSI 762, MUSI 763, MUSI 764		
Performing Ensemble: select variable credits from the following courses <sup>2</sup>		
MUSI 441, MUSI 442, MUSI 448, MUSI 450, MUSI 451, MUSI 452, MUSI 453, MUSI 454, MUSI 455, MUSI 456, MUSI 457, MUSI 459, MUSI 460, MUSI 462, MUSI 463, MUSI 464		
<b>Total Credits</b>		<b>36</b>

<sup>1</sup> Students will be given the opportunity to test out of MUSI 475 Functional Piano I, MUSI 476 Functional Piano I and MUSI 575 Functional Piano II, MUSI 576 Functional Piano II.

<sup>2</sup> A maximum of 8 ensemble credits may count toward graduation for all bachelor of arts in music students.

## Music Composition Option Requirements

Degree program has final approval from the National Association of Schools of Music.

Code	Title	Credits
Select 6 credits of the following:		6
MUSI 771	Counterpoint	
MUSI 779	Reading and Writing Musical Scores	
MUSI 781W	Analysis: Form and Structure	
MUSI #782W	Analysis: Form and Structure	
Select 8 credits of the following:		8
MUSI 775	Composition	
MUSI 776	Composition	
MUSI 777	Advanced Composition	
MUSI 731	Conducting	
Performance Study (Applied Lessons): select from the following courses		4

MUSI 541, MUSI 545, MUSI 546, MUSI 547, MUSI 548, MUSI 549, MUSI 550, MUSI 551, MUSI 552, MUSI 553, MUSI 554, MUSI 555, MUSI 556, MUSI 557, MUSI 558, MUSI 559, MUSI 560, MUSI 561, MUSI 562, MUSI 563, MUSI 564, MUSI 741, MUSI 745, MUSI 746, MUSI 747, MUSI 748, MUSI 749, MUSI 751, MUSI 752, MUSI 753, MUSI 754, MUSI 755, MUSI 756, MUSI 757, MUSI 758, MUSI 759, MUSI 760, MUSI 761, MUSI 762, MUSI 763, MUSI 764

Performing Ensemble: select from the following courses 8

MUSI 441, MUSI 442, MUSI 448, MUSI 450, MUSI 451, MUSI 452, MUSI 453, MUSI 454, MUSI 455, MUSI 456, MUSI 457, MUSI 459, MUSI 460, MUSI 462, MUSI 463, MUSI 464

Total Credits 26

Students in the composition option, if not in a lesson studio, will attend composition seminar.

## Student Learning Outcomes

- Demonstrate the ability to perform a specialization instrument or voice at an appropriate solo level and/or in small ensemble and large ensemble.
- Aurally identify, analyze, and work conceptually with the elements of music in a variety of musical styles.
- Students will demonstrate familiarity with musical literature from the formal concert repertory and from musical traditions outside of that repertory.
- Demonstrate the ability to develop and defend musical judgments in writing and in oral presentation.
- Demonstrate collegiate-level skills in the English language, competence in written and oral communication in English, and fluency in communicating and synthesizing musical, historical and analytical concepts in writing.
- Demonstrate the ability to create substantial original compositions for solo instrument(s), chamber ensemble, or large ensemble.
- Present at least one substantial original composition in performance of a lecture, lecture-recital, or recital.

## Music Major: Music Liberal Studies Option (B.A.)

<https://cola.unh.edu/music/program/ba/music-major-music-liberal-studies-option>

### Description

Students enrolling in the B.A. music liberal studies program — a program that stresses the development of skills in analysis, writing and critical thinking about a wide variety of musics and the larger connection with history, culture and society — are required to submit a writing sample and interview with one of the music liberal studies program faculty members. The writing sample should be non-fiction, preferably an assignment for a course in English, history or a similar subject, 500 words or more in length.

The Discovery Program capstone requirement is fulfilled by a final project or a public performance given during the senior year. For students in the music liberal studies option, there is a choice of completing a half recital or comparable final project.

Candidates for a degree must satisfy all of the University Discovery Program requirements in addition to satisfying the requirements of each individual major program. Bachelor of arts candidates must also satisfy the foreign language proficiency requirement.

Major department courses may not be used to satisfy Discovery category requirements except in the case of a second major. B.A. in music majors may use MUSI 502 Musics in Context (a required core course for the major) to satisfy the Inquiry Discovery requirement.

or ITAL 401 & ITAL 402	Elementary Italian I and Elementary Italian II	
<b>Total Credits</b>		<b>38</b>

<sup>1</sup> 2 credits per semester

## Student Learning Outcomes

- Demonstrate the ability to perform a specialization instrument or voice at an appropriate solo level and/or in small ensemble and large ensemble.
- Aurally identify, analyze, and work conceptually with the elements of music in a variety of musical styles.
- Students will demonstrate familiarity with musical literature from the formal concert repertory and from musical traditions outside of that repertory.
- Demonstrate the ability to develop and defend musical judgments in writing and in oral presentation.
- Demonstrate collegiate-level skills in the English language, competence in written and oral communication in English, and fluency in communicating and synthesizing musical, historical and analytical concepts in writing.
- Demonstrate the ability to perform a specialization instrument or voice at the level of an advanced undergraduate student, or young professional, including a high level of technical and artistic competence, and to work independently in both solo practicing and small ensemble rehearsals.
- Demonstrate maturity in musical performance, using performance and liberal-arts tools and insights to create an artistic product.
- Students will plan, prepare, and perform a solo recital in collaboration with faculty and staff that includes both organizational elements and artistic preparation.

## Composition Major (B.M.)

<https://cola.unh.edu/music/program/bm/composition-major>

### Description

All bachelor of music students are required to give a public performance during their senior year, which fulfills the Discovery Program capstone requirement:

- For students in the composition option, a full lecture, lecture-recital or recital including at least one original composition is required.

Candidates for a degree must satisfy all of the University Discovery Program requirements in addition to satisfying the requirements of each individual major program. B.M. in music majors may use MUSI 502 Musics in Context (a required core course for the major) to satisfy the Inquiry Discovery category requirement, and MUSI 515 Music in World Cultures (a required core course for the major) to satisfy the World Cultures Discovery category requirement.

### Requirements

## Bachelor of Music Core Curriculum

Code	Title	Credits
MUSI 471 & MUSI 472	Theory I and Theory I	6
MUSI 473 & MUSI 474	Ear Training I and Ear Training I	2
MUSI 475 & MUSI 476	Functional Piano I and Functional Piano I <sup>1</sup>	2
MUSI 571 & MUSI 572	Theory II and Theory II	6
MUSI 573 & MUSI 574	Ear Training II and Ear Training II	2
MUSI 575 & MUSI 576	Functional Piano II and Functional Piano II <sup>1</sup>	2
MUSI 501 & MUSI 502	The Western Musical Canon and Musics in Context	6
MUSI 515	Music in World Cultures	4
MUSI 540	Recital Attendance	0
MUSI 731	Conducting	2
Select one of the following:		3
MUSI 703	Music of the Renaissance	
MUSI 705	Music of the Baroque	
MUSI 707	Music of the Classical Period	
MUSI 709W	Music of the Romantic Period	
MUSI 711	Music of the 20th and 21st Centuries	
MUSI 713	Art Song	
MUSI #715	Survey of Opera	
Select one of the following:		3
MUSI 771	Counterpoint	
MUSI 781W	Analysis: Form and Structure	
MUSI #782W	Analysis: Form and Structure	
Performance Study (Applied Lessons): select from the following courses		Variable
MUSI 541, MUSI 545, MUSI 546, MUSI 547, MUSI 548, MUSI 549, MUSI 550, MUSI 551, MUSI 552, MUSI 553, MUSI 554, MUSI 555, MUSI 556, MUSI 557, MUSI 558, MUSI 559, MUSI 560, MUSI 561, MUSI 562, MUSI 563, MUSI 564, MUSI 741, MUSI 745, MUSI 746, MUSI 747, MUSI 748, MUSI 749, MUSI 751, MUSI 752, MUSI 753, MUSI 754, MUSI 755, MUSI 756, MUSI 757, MUSI 758, MUSI 759, MUSI 760, MUSI 761, MUSI 762, MUSI 763, MUSI 764		Variable
Performing Ensemble: select from the following courses		Variable
MUSI 441, MUSI 442, MUSI 448, MUSI 450, MUSI 451, MUSI 452, MUSI 453, MUSI 454, MUSI 455, MUSI 456, MUSI 457, MUSI 459, MUSI 460, MUSI 462, MUSI 463, MUSI 464		
<b>Total Credits</b>		<b>38</b>

<sup>1</sup> Students will be given the opportunity to test out of MUSI 475 Functional Piano I, MUSI 476 Functional Piano I and MUSI 575 Functional Piano II, MUSI 576 Functional Piano II.

## Bachelor of Music in Composition

Degree program has final approval from the National Association of Schools of Music.

Code	Title	Credits
Select 9 credits of MUSI 771, MUSI 795 (Independent Study/Advanced Counterpoint), MUSI 781W, and MUSI #782W		9
Select 4 credits of MUSI 775, MUSI 776		4
Select 12 credits of MUSI 777		12
MUSI 779	Reading and Writing Musical Scores	3
MUSI 795	Special Studies (Advanced Music Theory) <sup>1</sup>	3
MUSI 795	Special Studies (Electronic Music)	2
Advanced Music History: select one of the following <sup>2</sup>		3
MUSI 703	Music of the Renaissance	
MUSI 705	Music of the Baroque	
MUSI 707	Music of the Classical Period	
MUSI 709W	Music of the Romantic Period	
MUSI 711	Music of the 20th and 21st Centuries	
MUSI 713	Art Song	
MUSI #715	Survey of Opera	
Performance Study (Applied Lessons): select from the following courses		8
MUSI 541, MUSI 545, MUSI 546, MUSI 547, MUSI 548, MUSI 549, MUSI 550, MUSI 551, MUSI 552, MUSI 553, MUSI 554, MUSI 555, MUSI 556, MUSI 557, MUSI 558, MUSI 559, MUSI 560, MUSI 561, MUSI 562, MUSI 563, MUSI 564, MUSI 741, MUSI 745, MUSI 746, MUSI 747, MUSI 748, MUSI 749, MUSI 751, MUSI 752, MUSI 753, MUSI 754, MUSI 755, MUSI 756, MUSI 757, MUSI 758, MUSI 759, MUSI 760, MUSI 761, MUSI 762, MUSI 763, MUSI 764		
Performing Ensemble: select from the following courses		8
MUSI 441, MUSI 442, MUSI 448, MUSI 450, MUSI 451, MUSI 452, MUSI 453, MUSI 454, MUSI 455, MUSI 456, MUSI 457, MUSI 459, MUSI 460, MUSI 462, MUSI 463, MUSI 464		
<b>Total Credits</b>		<b>52</b>

<sup>1</sup> This is in addition to the other 700-level theory classes outlined above.

<sup>2</sup> This is in addition to the core required 700-level music history class.

Students in the bachelor of music in composition degree program may use a maximum of 8 ensemble credits toward graduation.

Students in the bachelor of music in composition degree are required to attend 8 semesters of composition seminar.

## Student Learning Outcomes

- Students will exhibit the skills necessary for artistic expression at the highest possible level as defined by their particular area of concentration in solo and small ensemble (not conducted) and large ensemble (conducted) settings.
- Students will exhibit competency in musicianship and analysis through: their understanding of musical forms and processes aural, verbal and visual analyses skill in performance, academic, pedagogical, and compositional applications rudimentary ability to create derivative or original music.
- Students will demonstrate familiarity with musical literature from the formal concert repertory and from musical traditions outside of that repertory. Students will demonstrate the ability to place music in historical, cultural, and stylistic contexts.
- Students will demonstrate collegiate-level skill in the English language and competence in written and oral communication in English.

- Demonstrate the ability to use technologies current to their area of specialization for professional development and entrepreneurship, and career preparation and promotion.
- Demonstrate skill in the use of standard concepts, tools, techniques, and procedures to develop a composition from concept to finished product.
- Manage a formal performance of a finished product.

## Music Education Major (B.M.)

<https://cola.unh.edu/music/program/bm/music-education-major>

### Description

The B.M. music education is the traditional program of choice for students seeking a career as a school music teacher. The bachelor of music degree in music education provides a route to undergraduate certification leading to state of New Hampshire teacher certification in music, grades K-12 (cert. #612.13). New Hampshire also participates in a reciprocal agreement with many other states: the Interstate Certification Compact.

Successful applicants must demonstrate a high degree of musical competence and promise of future growth as a performer. A firm commitment to leading school musicians to artistic success is expected, as is a willingness to acquire the breadth of skills required for K-12 music certification. Continuation in the B.M. music education program is made with the recommendation of the appropriate faculty members and contingent upon personal commitment to the teacher licensure program.

Students interested in a five-year, bachelor/masters degree program typically complete the B.M pre-teaching (described elsewhere) as an undergraduate and apply to the UNH Department of Education for admission to the Master of Arts in Teaching (Secondary) degree program.

Students in music education must maintain an overall minimum 2.8 grade-point average at the time of application for student teaching (February 15 of junior year). Any education course taken for a teacher licensure requirement must be completed with a B- or better.

B.M. music education majors may use MUSI 501 The Western Musical Canon (a required core course for the major) to satisfy the Fine and Performing Arts Discovery category requirement. In addition, they may use MUSI 502 Musics in Context (a required core course for the major) to satisfy the Inquiry Discovery category requirement, and MUSI 515 Music in World Cultures (a required core course for the major) to satisfy the World Cultures Discovery category requirement.

All bachelor of music students are required to give a public performance during their senior year, which fulfills the Discovery Program capstone requirement:

- For students in the music education option, a half recital is required.

The four-year bachelor of music in music education curriculum is highly structured due to the number of required courses to complete. In the table below is the list of additional classes required to earn a degree and a certificate to teach. Students may elect a vocal/choral or instrumental emphasis. See curriculum chart for differing requirements.

## Requirements

### Bachelor of Music Core Curriculum

Code	Title	Credits
MUSI 471 & MUSI 472	Theory I and Theory I	6
MUSI 473 & MUSI 474	Ear Training I and Ear Training I	2
MUSI 475 & MUSI 476	Functional Piano I and Functional Piano I <sup>1</sup>	2

MUSI 541, MUSI 545, MUSI 546, MUSI 547, MUSI 548, MUSI 549, MUSI 550, MUSI 551, MUSI 552, MUSI 553, MUSI 554, MUSI 555, MUSI 556, MUSI 557, MUSI 558, MUSI 559, MUSI 560, MUSI 561, MUSI 562, MUSI 563, MUSI 564, MUSI 741, MUSI 745, MUSI 746, MUSI 747, MUSI 748, MUSI 749, MUSI 751, MUSI 752, MUSI 753, MUSI 754, MUSI 755, MUSI 756, MUSI 757, MUSI 758, MUSI 759, MUSI 760, MUSI 761, MUSI 762, MUSI 763, MUSI 764		
Performing Ensemble: select from the following courses		Variable
MUSI 441, MUSI 442, MUSI 448, MUSI 450, MUSI 451, MUSI 452, MUSI 453, MUSI 454, MUSI 455, MUSI 456, MUSI 457, MUSI 459, MUSI 460, MUSI 462, MUSI 463, MUSI 464		
<b>Total Credits</b>		<b>38</b>

<sup>1</sup> Students will be given the opportunity to test out of MUSI 475 Functional Piano I, MUSI 476 Functional Piano I and MUSI 575 Functional Piano II, MUSI 576 Functional Piano II.

### Bachelor of Music in Music Education Curriculum

Degree program has final approval from the National Association of Schools of Music.

Code	Title	Credits
MUED 741	Techniques and Methods in Choral Music	2
MUED 745	Techniques and Methods in String Instruments	2
MUED 747	Techniques and Methods in Woodwind Instruments <sup>1</sup>	2-3
MUED 749	Techniques and Methods in Brass Instruments	2
MUED 751	Techniques and Methods in Percussion Instruments	2
MUED 755	Vocal Pedagogy <sup>2</sup>	2
MUED 765	Instrumental Music Methods <sup>3</sup>	2
MUED 790	Teaching Elementary School Music	3
MUED 791	Teaching Secondary School Music	2
MUSI 520	Diction for Singers I <sup>4</sup>	2
MUSI 732	Conducting	2
MUSI 779	Reading and Writing Musical Scores	3

Performance Study (Applied Lessons): select from the following courses		8
MUSI 541, MUSI 545, MUSI 546, MUSI 547, MUSI 548, MUSI 549, MUSI 550, MUSI 551, MUSI 552, MUSI 553, MUSI 554, MUSI 555, MUSI 556, MUSI 557, MUSI 558, MUSI 559, MUSI 560, MUSI 561, MUSI 562, MUSI 563, MUSI 564, MUSI 741, MUSI 745, MUSI 746, MUSI 747, MUSI 748, MUSI 749, MUSI 751, MUSI 752, MUSI 753, MUSI 754, MUSI 755, MUSI 756, MUSI 757, MUSI 758, MUSI 759, MUSI 760, MUSI 761, MUSI 762, MUSI 763, MUSI 764		
Performing Ensemble: select from the following courses <sup>5</sup>		8
MUSI 441, MUSI 442, MUSI 448, MUSI 450, MUSI 451, MUSI 452, MUSI 453, MUSI 454, MUSI 455, MUSI 456, MUSI 457, MUSI 459, MUSI 460, MUSI 462, MUSI 463, MUSI 464		
EDUC 500	Exploring Teaching	4
EDUC 605	Educational Perspectives in Critical Times	4
EDUC 701	Human Development & Learning: Cultural Perspectives	4
EDUC 751B	Methods of Inclusive Secondary Education: Literacies, Learning, and Transitions	4
EDUC 694	Courses in Supervised Teaching	8
<b>Total Credits</b>		<b>66-67</b>

- <sup>1</sup> Vocal track students take 2 credits. Instrumental track students take 3 credits.
- <sup>2</sup> Required for Vocal track.
- <sup>3</sup> Required for Instrumental track.
- <sup>4</sup> Required for Vocal track.
- <sup>5</sup> Students in the bachelor of music in music education degree program may use a maximum of 8 ensemble credits toward graduation. Of the 8 credits in ensemble performance (MUSI 441 Concert Choir-MUSI 464 Guitar Ensemble) required during the course of study, it is required that at least 4 credits will be from the following: Concert Choir (MUSI 441 Concert Choir), Symphony (MUSI 450 Symphony), Wind Symphony (MUSI 452 Wind Symphony), Symphonic Band (MUSI 453 Symphonic Band), and/or Concert Band (MUSI 451 Concert Band). At least 1 credit of performance in a jazz ensemble (MUSI 460 Jazz Band) and 1 credit of Marching Band (MUSI 454 UNH Marching Band) are highly desirable.

### Junior Standing in Music Education

Recognition of adequate completion of fundamental academic and musical competencies shall earn students declared for the Bachelor of Music: Music Education the title Junior Standing. Students will not receive permission to register for the upper-level music education methods courses (MUED 765, MUED 790, MUED 791) without such recognition. Two of the steps required for recognition are the submission of passing scores on the PRAXIS: Core Academic Skills for Educators tests (scores will be sent directly to the Department of Education) and clearance of the Criminal Background Check as conducted by the State of New Hampshire Department of Safety. Results will be sent directly to the music education coordinator in the Department of Music. There is a charge for each of these steps assessed by the providers. Current students may follow the catalog corresponding to their matriculation year or follow the proposed changes.

#### Junior Standing Requirements

1. Criminal Background Check
2. Academic Standing
  - a. 2.8 overall grade point average
  - b. Pass PRAXIS Core Academic Skills for Educators Test
3. Aural Skills: Complete MUSI 574 Ear Training II with a grade of C- or better and a departmental followup assessment
4. Music Performance Skills
  - a. Pass Sophomore Performance Jury with a grade of C- or better
  - b. Perform for at least 3 semesters as a regular member of at least one of the designated core ensembles
  - c. Complete MUSI 576 Functional Piano II with a C- or better and a departmental followup assessment

5. Complete EDUC 500 Exploring Teaching and a departmental followup assessment

## Student Learning Outcomes

- Students will exhibit the skills necessary for artistic expression at the highest possible level as defined by their particular area of concentration in solo and small ensemble (not conducted) and large ensemble (conducted) settings.
- Students will exhibit competency in musicianship and analysis through: their understanding of musical forms and processes aural, verbal and visual analyses skill in performance, academic, pedagogical, and compositional applications rudimentary ability to create derivative or original music.
- Students will demonstrate familiarity with musical literature from the formal concert repertory and from musical traditions outside of that repertory. Students will demonstrate the ability to place music in historical, cultural, and stylistic contexts.
- Students will demonstrate collegiate-level skill in the English language and competence in written and oral communication in English.
- Demonstrate the ability to use technologies current to their area of specialization for professional development and entrepreneurship, and career preparation and promotion.
- Students demonstrate ability to lead students to increased musical knowledge and advancing musical performance.
- Students demonstrate knowledge of age-appropriate vocal and instrumental pedagogy.
- Students demonstrate an understanding of best practices and applicable learning theories in music education.
- Students demonstrate the ability to prepare classes and rehearsals via score study and lesson planning that includes awareness of needed modifications.
- Students aurally discern accuracy and expressive elements in student performances.
- Students demonstrate the ability to assess their pupils' learning and progress in conjunction with best educational practices.
- Students are able to assess the success of their own class teaching and rehearsals.

## Performance Major (B.M.)

<https://cola.unh.edu/music/program/bm/performance-major>

### Description

All bachelor of music students are required to give a public performance during their senior year, which fulfills the Discovery Program capstone requirement:

- For students in the performance option, a full recital is required. Students in the bachelor of music in performance degree program are required to perform a half junior recital.

Candidates for a degree must satisfy all of the University Discovery Program requirements in addition to satisfying the requirements of each individual major program. B.M. in music majors may use MUSI 502 Musics in Context (a required core course for the major) to satisfy the Inquiry Discovery category requirement, and MUSI 515 Music in World

Cultures (a required core course for the major) to satisfy the World Cultures Discovery category requirement.

## Requirements

<sup>1</sup> Students will be given the opportunity to test out of MUSI 475 Functional Piano I, MUSI 476 Functional Piano I and MUSI 575 Functional Piano II, MUSI 576 Functional Piano II.

### Bachelor of Music in Performance (Voice)

Degree program has final approval from the National Association of Schools of Music.

Code	Title	Credits
MUED 741	Techniques and Methods in Choral Music	2
MUED 755	Vocal Pedagogy	2
MUSI 520 & MUSI #521	Diction for Singers I and Diction for Singers II	4
MUSI 713 or MUSI #715	Art Song Survey of Opera	3
MUSI 545/745	Voice (voice lessons) <sup>1</sup>	25
Select 8 credits of the following:		8
MUSI 441	Concert Choir <sup>2</sup>	
MUSI 442	Chamber Singers	
MUSI 448	Vocal Arts Project	

Select one of the following:	8
ITAL 401 & ITAL 402	Elementary Italian I and Elementary Italian II
GERM 401 & GERM 402	Elementary German I and Elementary German II
FREN 401 & FREN 402	Elementary French I and Elementary French II
<b>Total Credits</b>	<b>52</b>

- <sup>1</sup> Three credits of lessons each semester until the student's senior recital semester; then it is 4 credits.
- <sup>2</sup> Four credits must be MUSI 441 Concert Choir; the remaining 4 credits must be MUSI 441 Concert Choir, MUSI 442 Chamber Singers, or MUSI 448 Vocal Arts Project.

## Bachelor of Music in Performance (Piano)

Degree program has final approval from the National Association of Schools of Music.

Code	Title	Credits
MUED 743	Materials and Methods in Piano Music	2
Select one of the following:	<sup>1</sup>	3
MUSI 771	Counterpoint	
MUSI 781W	Analysis: Form and Structure	
MUSI #782W	Analysis: Form and Structure	
Select 3 credits of the following:	<sup>2</sup>	3
MUSI 775	Composition	
MUSI 776	Composition	
MUSI 777	Advanced Composition	
MUSI 779	Reading and Writing Musical Scores	
Any 700-level advanced music history or advanced music theory course	<sup>2</sup>	3
MUSI 795	Special Studies (Topic V) advanced piano pedagogy)	2
MUSI 795	Special Studies (Topic E) piano literature)	1-2
MUSI 455	Collaborative Piano	<sup>3</sup> 4
MUSI 541/741	Piano (piano lessons)	<sup>4</sup> 25
Performing Ensemble: select from the following		4
MUSI 441, MUSI 442, MUSI 448, MUSI 450, MUSI 451, MUSI 452, MUSI 453, MUSI 454, MUSI 455, MUSI 456, MUSI 457, MUSI 459, MUSI 460, MUSI 462, MUSI 463, MUSI 464		
<b>Total Credits</b>		<b>47-48</b>

- <sup>1</sup> A B.M. piano performance major must take a total of two of these three courses: MUSI 771 Counterpoint, MUSI 781W Analysis: Form and Structure, and MUSI #782W Analysis: Form and Structure.
- <sup>2</sup> A B.M. piano performance major must take an additional 700-level music history or music theory course.
- <sup>3</sup> This course will be taken a total of 4 times.
- <sup>4</sup> Three credits of lessons each semester until the semester of the senior recital; then it is 4 credits.

## Bachelor of Music in Performance (All other Instruments)

Degree program has final approval from the National Association of Schools of Music.

Code	Title	Credits
Techniques & Methods: select from the following	<sup>1</sup>	2-3
MUED 745	Techniques and Methods in String Instruments	
MUED 747	Techniques and Methods in Woodwind Instruments	
MUED 749	Techniques and Methods in Brass Instruments	
MUED 751	Techniques and Methods in Percussion Instruments	
Select 3 credits of MUSI 700-level Advanced Music History or Advanced Music Theory	<sup>2</sup>	3
Performance Study (Applied Lessons): select from the following	<sup>3</sup>	25

MUSI 541, MUSI 545, MUSI 546, MUSI 547, MUSI 548, MUSI 549, MUSI 550, MUSI 551, MUSI 552, MUSI 553, MUSI 554, MUSI 555, MUSI 556, MUSI 557, MUSI 558, MUSI 559, MUSI 560, MUSI 561, MUSI 562, MUSI 563, MUSI 564, MUSI 741, MUSI 745, MUSI 746, MUSI 747, MUSI 748, MUSI 749, MUSI 751, MUSI 752, MUSI 753, MUSI 754, MUSI 755, MUSI 756, MUSI 757, MUSI 758, MUSI 759, MUSI 760, MUSI 761, MUSI 762, MUSI 763, MUSI 764	
Performing Ensemble: select from the following	12
MUSI 441, MUSI 442, MUSI 448, MUSI 450, MUSI 451, MUSI 452, MUSI 453, MUSI 454, MUSI 455, MUSI 456, MUSI 457, MUSI 459, MUSI 460, MUSI 462, MUSI 463, MUSI 464	
<b>Total Credits</b>	<b>42-43</b>

- <sup>1</sup> B.M. instrumental performance majors take one methods class in the appropriate instrumental family, e.g., a trumpet player would take MUED 749 Techniques and Methods in Brass Instruments, to fulfill this requirement.
- <sup>2</sup> This is in addition to the advanced music history and advanced music theory class already required.
- <sup>3</sup> Three credits of lessons are taken each semester until the student's senior recital semester; then it is 4 credits.

## Student Learning Outcomes

- Students will exhibit the skills necessary for artistic expression at the highest possible level as defined by their particular area of concentration in solo and small ensemble (not conducted) and large ensemble (conducted) settings.
- Students will exhibit competency in musicianship and analysis through: their understanding of musical forms and processes aural, verbal and visual analyses skill in performance, academic, pedagogical, and compositional applications rudimentary ability to create derivative or original music.
- Students will demonstrate familiarity with musical literature from the formal concert repertory and from musical traditions outside of that repertory. Students will demonstrate the ability to place music in historical, cultural, and stylistic contexts.
- Students will demonstrate collegiate-level skill in the English language and competence in written and oral communication in English.
- Demonstrate the ability to use technologies current to their area of specialization for professional development and entrepreneurship, and career preparation and promotion.
- Students will demonstrate an understanding of the fundamentals of pedagogy as required in the particular field of study.
- Students in vocal studies will demonstrate competencies in diction and language, as well as interpretive skills, physicality, and stage deportment.
- Students will plan, prepare, and perform a solo recital in collaboration with faculty and staff that includes both organizational elements and artistic preparation.

## Pre-Teaching Major (B.M.)

<https://cola.unh.edu/music/program/bm/pre-teaching-major>

### Description

The B.M. pre-teaching degree is the program of choice for most students seeking a five-year, combined bachelor's and master's degree program that includes certification to teach music in the public schools. Students will complete all of the skill and knowledge content requirements in

this undergraduate program leaving a year-long internship and some advanced study in music and education for the fifth year.

Students applying to the Master of Arts in Teaching program need a cumulative undergraduate grade point average of 3.2 or better to ensure admission to the graduate school. Therefore, students typically apply first to UNH as a B.M. music education major and switch to this B.M. pre-teaching degree in their junior or senior year.

Candidates for a degree must satisfy all of the University Discovery Program requirements in addition to satisfying the requirements of each individual major program. B.M. in music majors may use MUSI 502 Musics in Context (a required core course for the major) to satisfy the Inquiry Discovery category requirement, and MUSI 515 Music in World Cultures (a required core course for the major) to satisfy the World Cultures Discovery category requirement. Additionally, B.M. music education and pre-teaching majors may use MUSI 501 The Western Musical Canon to satisfy the Fine and Performing Arts Discovery category requirement.

All bachelor of music students are required to give a public performance during their senior year, which fulfills the Discovery Program capstone requirement:

- For students in the pre-teaching option, a half recital is required.

## Requirements

### Bachelor of Music Core Curriculum

Code	Title	Credits
MUSI 471 & MUSI 472	Theory I and Theory I	6
MUSI 473 & MUSI 474	Ear Training I and Ear Training I	2
MUSI 475 & MUSI 476	Functional Piano I and Functional Piano I <sup>1</sup>	2
MUSI 571 & MUSI 572	Theory II and Theory II	6
MUSI 573 & MUSI 574	Ear Training II and Ear Training II	2
MUSI 575 & MUSI 576	Functional Piano II and Functional Piano II <sup>1</sup>	2
MUSI 501 & MUSI 502	The Western Musical Canon and Musics in Context	6
MUSI 515	Music in World Cultures	4
MUSI 540	Recital Attendance	0
MUSI 731	Conducting	2
Select one of the following:		3
MUSI 703	Music of the Renaissance	Variable
MUSI 705	Music of the Baroque	
MUSI 707	Music of the Classical Period	
MUSI 709W	Music of the Romantic Period	
MUSI 711	Music of the 20th and 21st Centuries	
MUSI 713	Art Song	
MUSI #715	Survey of Opera	
Select one of the following:		3
MUSI 771	Counterpoint	Variable
MUSI 781W	Analysis: Form and Structure	
MUSI #782W	Analysis: Form and Structure	
Performance Study (Applied Lessons): select from the following courses		Variable
MUSI 541, MUSI 545, MUSI 546, MUSI 547, MUSI 548, MUSI 549, MUSI 550, MUSI 551, MUSI 552, MUSI 553, MUSI 554, MUSI 555, MUSI 556, MUSI 557, MUSI 558, MUSI 559, MUSI 560, MUSI 561, MUSI 562, MUSI 563, MUSI 564, MUSI 741, MUSI 745, MUSI 746, MUSI 747, MUSI 748, MUSI 749, MUSI 751, MUSI 752, MUSI 753, MUSI 754, MUSI 755, MUSI 756, MUSI 757, MUSI 758, MUSI 759, MUSI 760, MUSI 761, MUSI 762, MUSI 763, MUSI 764		
Performing Ensemble: select from the following courses		Variable

MUSI 441, MUSI 442, MUSI 448, MUSI 450, MUSI 451, MUSI 452, MUSI 453, MUSI 454, MUSI 455, MUSI 456, MUSI 457, MUSI 459, MUSI 460, MUSI 462, MUSI 463, MUSI 464
Total Credits 38

<sup>1</sup> Students will be given the opportunity to test out of MUSI 475 Functional Piano I, MUSI 476 Functional Piano I and MUSI 575 Functional Piano II, MUSI 576 Functional Piano II.

## Bachelor of Music Pre-Teaching Curriculum

Degree program has final approval from the National Association of Schools of Music.

Code	Title	Credits
MUED 741	Techniques and Methods in Choral Music	2
MUED 745	Techniques and Methods in String Instruments	2
MUED 747	Techniques and Methods in Woodwind Instruments <sup>1</sup>	2-3
MUED 749	Techniques and Methods in Brass Instruments	2
MUED 751	Techniques and Methods in Percussion Instruments	2
MUED 755	Vocal Pedagogy <sup>2</sup>	2
MUED 765	Instrumental Music Methods <sup>3</sup>	2
MUED 790	Teaching Elementary School Music	3
MUED 791	Teaching Secondary School Music	2
MUSI 520	Diction for Singers I <sup>4</sup>	2
MUSI 732	Conducting	2
MUSI 779	Reading and Writing Musical Scores	3
Performance Study (Applied Lessons): select from the following courses		8
MUSI 541, MUSI 545, MUSI 546, MUSI 547, MUSI 548, MUSI 549, MUSI 550, MUSI 551, MUSI 552, MUSI 553, MUSI 554, MUSI 555, MUSI 556, MUSI 557, MUSI 558, MUSI 559, MUSI 560, MUSI 561, MUSI 562, MUSI 563, MUSI 564, MUSI 741, MUSI 745, MUSI 746, MUSI 747, MUSI 748, MUSI 749, MUSI 751, MUSI 752, MUSI 753, MUSI 754, MUSI 755, MUSI 756, MUSI 757, MUSI 758, MUSI 759, MUSI 760, MUSI 761, MUSI 762, MUSI 763, MUSI 764		
Performing Ensemble: select from the following courses <sup>5</sup>		8
MUSI 441, MUSI 442, MUSI 448, MUSI 450, MUSI 451, MUSI 452, MUSI 453, MUSI 454, MUSI 455, MUSI 456, MUSI 457, MUSI 459, MUSI 460, MUSI 462, MUSI 463, MUSI 464		
EDUC 500	Exploring Teaching	4
EDUC 605	Educational Perspectives in Critical Times	4
EDUC 701	Human Development & Learning: Cultural Perspectives	4
EDUC 751B	Methods of Inclusive Secondary Education: Literacies, Learning, and Transitions	4
Total Credits		58-59

<sup>1</sup> Vocal track students take 2 credits. Instrumental track students take 3 credits.  
<sup>2</sup> Required for Vocal track.  
<sup>3</sup> Required for Instrumental track.  
<sup>4</sup> Required for Vocal track.  
<sup>5</sup> Students in the bachelor of music pre-teaching degree program may use a maximum of 8 ensemble credits toward graduation. Of the 8 credits in ensemble performance (MUSI 441 Concert Choir-MUSI 464 Guitar Ensemble) required during the course of study, it is required that at least 4 credits will be from the following: Concert Choir (MUSI 441 Concert Choir), Symphony (MUSI 450 Symphony), Wind Symphony (MUSI 452 Wind Symphony), Symphonic Band (MUSI 453 Symphonic Band), and/or Concert Band (MUSI 451 Concert Band). At least 1 credit of performance in a jazz ensemble (MUSI 460 Jazz Band) and 1 credit of Marching Band (MUSI 454 UNH Marching Band) are highly desirable.

## Student Learning Outcomes

- Students will exhibit the skills necessary for artistic expression at the highest possible level as defined by their particular area of concentration in solo and small ensemble (not conducted) and large ensemble (conducted) settings.

- Students will exhibit competency in musicianship and analysis through: their understanding of musical forms and processes aural, verbal and visual analyses skill in performance, academic, pedagogical, and compositional applications rudimentary ability to create derivative or original music.
- Students will demonstrate familiarity with musical literature from the formal concert repertory and from musical traditions outside of that repertory. Students will demonstrate the ability to place music in historical, cultural, and stylistic contexts.
- Students will demonstrate collegiate-level skill in the English language and competence in written and oral communication in English.
- Demonstrate the ability to use technologies current to their area of specialization for professional development and entrepreneurship, and career preparation and promotion.
- Students demonstrate ability to lead students to increased musical knowledge and advancing musical performance.
- Students demonstrate knowledge of age-appropriate vocal and instrumental pedagogy.
- Students demonstrate an understanding of best practices and applicable learning theories in music education.
- Students demonstrate the ability to prepare classes and rehearsals via score study and lesson planning that includes awareness of needed modifications.
- Students aurally discern accuracy and expressive elements in student performances.
- Students demonstrate the ability to assess their pupils' learning and progress in conjunction with best educational practices.
- Students are able to assess the success of their own class teaching and rehearsals.

## Music Minor

<https://cola.unh.edu/music/program/minor/music>

### Description

A music minor is a great option for students who are passionate about the discipline of music but choose to major in another field. The minor includes required coursework in music theory and literature.

### Requirements

All students wishing to receive a minor in music must complete a minimum of 20 credits of coursework in music, of which the following are required:

Code	Title	Credits
Select one of the following options:		8
Option A:		
MUSI 471 & MUSI 472 & MUSI 473 & MUSI 474	Theory I and Theory I and Ear Training I and Ear Training I	
Option B:		
MUSI 411 & MUSI 412	Fundamentals of Music Theory and Fundamentals of Music Theory	
Select two of the following:		8
MUSI 401	Introduction to Music	
MUSI 402	Historical Survey of Western Classical Concert Music	
MUSI 403	Roots of Rock	

MUSI 404	An Introduction to Music, Media, and the Moving Image	
MUSI 405	Survey of Music in America	
MUSI 444	Music and Social Change	
MUSI 501	The Western Musical Canon	
MUSI 502	Musics in Context	
MUSI 515	Music in World Cultures	
Select 4 credits of MUSI electives		4
Total Credits		20

## Native American and Indigenous Studies (NAIS)

### Programs

- [Native American and Indigenous Studies Minor](#) (p. 113)

## Native American and Indigenous Studies Minor

<https://cola.unh.edu/interdisciplinary-studies/program/minor/native-american-indigenous-studies>

### Description

As an interdisciplinary minor, Native American and Indigenous studies (NAIS) offers a broad understanding of the history, lands, culture, literature, language and artistic expression, science and technology, race and identity, and social organization and political statuses of Native American and Indigenous peoples within and beyond North America. The minor provides an introduction to Indigenous values and a basis for understanding broad Indigenous issues.

NAIS complements a range of majors, including anthropology, English, history, political science, health and human services, music, psychology, biology, botany, natural resources and sustainability. The UNH Education Abroad program offers a variety of opportunities to UNH students to explore the NAIS minor overseas.

The minor will help students acquire the necessary skills and qualifications for a variety of graduate study and employment opportunities and enhance competitiveness for federal scholarships and programs, such as the Peace Corps, Teach for America or the National Parks Service. Students with NAIS training will be prepared for work with Tribal and Indigenous leaders and officials, public health practitioners and administrators, and/or working with institutions that require employees with cultural and historical sensitivity to Indigenous issues, such as museums or other public institutions. NAIS graduates may also go on to careers with organizations with Indigenous interests in the areas of education, business, arts, government and law, nonprofit and advocacy, and healthcare and science (e.g., the Native American Rights Fund, Native American Arts Council, American Indian Science and Engineering Society).

## Requirements

20 credits (5 courses) are required for the minor. Students must receive a grade of C or better in each course in order for the course to count toward the minor requirements.

**Choose one** of the following two options to complete the minor requirements.

Code	Title	Credits
<b>Option 1</b>		
NAIS 400	Introduction to Native American and Indigenous Studies <sup>1</sup>	4
	4 elective courses chosen from the list of approved courses below	16
<b>Total Credits</b>		<b>20</b>

Code	Title	Credits
<b>Option 2</b>		
NAIS 400	Introduction to Native American and Indigenous Studies <sup>1</sup>	4
	3 elective courses chosen from the list of approved electives below <sup>2</sup>	12
	1 credit-bearing internship (ANTH 700 or other approved internship)	4
<b>Total Credits</b>		<b>20</b>

<sup>1</sup> Also fulfills World Cultures Discovery requirement

<sup>2</sup> 2 of these courses can be from a UNH-approved education abroad program (see below)

## Approved Electives

Code	Title	Credits
AMST 444C	Picturing America: The Arts & Social Change	4
ANTH 500	Peoples and Cultures of the World (A: North America and B: Latin America)	4
ANTH 501	World Archaeological Cultures (B: Mesoamerica)	4
ANTH 513	Ethnographic Methods	4
ANTH 514	Method and Theory in Archaeology	4
ANTH 700	Internship	1-4
ANTH 785	The Anthropology of Dreams and Dreaming	4
BIOL 408	Plants and Civilization	4
ENGL 440A	On Race in Culture and Society	4
ENGL 550	Introduction to the Literature and Culture of Race	4
ENGL 729	Special Topics in Composition Studies (on an approved topic)	4
ENGL 739	American Indian Literature	4
HIST 405	History of Early America	4
HIST 511	History of New Hampshire	4
HIST 532	Modern Latin America	4
HIST 603	European Conquest of North America	4
HIST 632	Latin American History: Topics	4
MUSI 515	Music in World Cultures	4
NR 660	Ecology and Biogeography of New Zealand	5
PSYC 581	Child Development	4

## NAIS UNH-Approved Study Abroad Programs

Thailand-TEAN-Chang Mai; CIEE Khon Kaew

USAC-Southwest Minzu University (Southwest Universities for Nationalities). Among the courses offered:

- Buddhism and Culture (ANTH/SOC)
- Tibetan Culture and Society (ANTH/SOC)
- Guizhou Field Study (ANTH/WLL, 200-level, 1 credit)

Morocco - IES & CIEE. Courses offered:

- Gender and Society in North Africa and Beyond
- North African Cultural Identities
- Internship/Social Action Seminar
- Islam In Morocco And North Africa (English-taught)
- Arab Media and Issues of Politics and Culture

New Zealand - Otago. Courses offered:

- Maori Studies

Peru - SIT: Indigenous Peoples and Globalization. Courses offered:

- History of Indigenous Cultures in Peru
- Indigenous Peoples in Motion: Changes, Resistance, and Globalization
- Quechua
- Research Methods and Ethics
- Independent Study Project

Senegal -CIEE. Courses offered:

- Contemporary Senegalese Society and Culture
- Intercultural Communication and Leadership (English)
- Environment and Development in Senegal and Sub-Saharan Africa (English)
- Public Health Issues and Challenges in West Africa

Tanzania-CIEE. Courses offered:

- Kiswahili
- Field Research Seminar
- Pre-History, Myths, Legends, and Beliefs of East Africa
- Contemporary Educational Issues in East Africa
- Gender and Development
- History of East Africa
- Poverty Analysis for Socio-economic Development

Bhutan -API at Royal Thimphu College with internship. Courses offered:

- Anthropology of the Himalayas
- Ethnography of Bhutan
- Anthropology of Identity
- Anthropology of Gender
- Kinship and Family
- ASC201: Anthropology of Globalization
- ASC301: Anthropology of Development
- ASC303: Applied Anthropology
- ASC304: Contemporary Issues in Anthropology
- ATH101: Ecological Anthropology
- ATH102: Medical Anthropology
- ATH203: History and Theory of Anthropology
- ATH204: Political Anthropology
- ATH305: Anthropology of Religion and Rituals

## Neuroscience and Behavior (NSB)

Neuroscience is one of the fastest-growing scientific fields, and the discoveries that are being made today are having an immediate and significant impact on our society. The importance of understanding

animal behavior is likewise increasing, particularly in the face of a rapidly-changing environment. The B.S. in Neuroscience and Behavior is a great way for students to combine interests in neurobiology and animal behavior. The curriculum prepares students for various post-graduate degrees, including medical, veterinary, and graduate school, and we offer students a variety of opportunities to get hands-on research experience.

<https://cola.unh.edu/psychology/program/bs/neuroscience-behavior-major>

## Programs

- [Neuroscience and Behavior Major \(B.S.\)](#) (p. 115)

### College of Life Sciences & Agriculture Faculty

<https://colsa.unh.edu/biological-sciences/people>

# Neuroscience and Behavior Major (B.S.)

<https://cola.unh.edu/psychology/program/bs/neuroscience-behavior-major>

## Description

The major in neuroscience and behavior (NSB) offers an interdisciplinary approach to human and non-human behavior, focusing on the evolution and adaptiveness of certain behaviors, as well as their underlying neural mechanisms. Students who have always been fascinated by how the brain functions will be well served by this major, as will those who love wild animals and wish to better understand their behavior. The B.S. in neuroscience and behavior is based on a solid foundation in biology, chemistry, physics, statistics, and genetics (foundation courses). These are followed by a two-semester course sequence that covers the fundamentals of neuroscience and behavior. Students can then pick five or more electives focusing on areas of interest.

NSB students are encouraged to take advantage of research experiences in the laboratories of the psychology and biology faculty in the program. This provides valuable experience with cutting-edge equipment and techniques. Some students may share aspects of a larger project, whereas others may be relatively independent and design their own project under supervision. In either case, important skills are gained by the discipline of gathering data, analyzing and interpreting it, and presenting it to a broader audience.

The curriculum provides most of the requirements and recommended courses for students seeking admission to graduate school and to professional schools in medicine and veterinary medicine. Students who might choose not to go on to advanced degrees are well-prepared for employment as skilled technicians in research laboratories or, if their interests are in animal behavior, as field research assistants or animal trainers. With additional courses in education, the B.S. in NSB

also qualifies graduates to teach at the elementary, junior high, and high school levels.

Faculty participating in the NSB major combine a love of teaching and student mentoring with a passion for research, and encourage student participation. Research facilities that students can use include the Integrative Animal Behavior and Ecoacoustics laboratory, the confocal imaging center, the Hubbard Center for Genomic Studies, and the many marine, freshwater, and estuarine laboratories associated with UNH programs. Students can also take summer courses at the Shoals Marine Laboratory.

## Requirements

Students majoring in NSB are required to take foundation courses in basic science, core courses, and five electives from an extensive list of courses, including some offered by other departments including biochemistry, molecular and cellular biology, and natural resources. Minimum grade of D- or better is required in CHEM 403, CHEM 404, CHEM 545/CHEM 546, and PHYS 401; minimum grade of C- or better is required in all other courses. Finally, a capstone experience is required. This may be independent research, an advanced seminar, or other special student activity. It is meant to integrate prior experience and take the student to a new level in an area of special interest.

Code	Title	Credits
<b>NSB Foundation courses</b>		
NSB 400	Topics Neuroscience & Behavior	1
BIOL 411 & BIOL 412	Introductory Biology: Molecular and Cellular and Introductory Biology: Evolution, Biodiversity and Ecology (2 semesters)	8
CHEM 403 & CHEM 404	General Chemistry I and General Chemistry II (2 semesters)	8
CHEM 545 & CHEM 546	Organic Chemistry and Organic Chemistry Laboratory	5
BMCB 658 & BMCB 659	General Biochemistry and General Biochemistry Lab	5
PHYS 401	Introduction to Physics I	4
PSYC 402 or BIOL 528	Statistics in Psychology Applied Biostatistics I	4
GEN 604	Principles of Genetics	4
NSB 500 & NSB 501	Fundamentals of Neuroscience and Behavior I and Fundamentals of Neuroscience and Behavior I Laboratory	5
NSB 502 & NSB 503	Fundamentals of Neuroscience and Behavior II/Systems Neuroscience and Fundamentals of Neuroscience and Behavior II Laboratory	5
<b>Electives (Choose 5)</b>		<b>20-22</b>
BIOL 541	Ecology	
BIOL 675	Medical Botany	
BIOL 714	Model Organisms in Biological and Medical Research	
BMCB 605	Principles of Cell Biology	
BMCB 760	Pharmacology	
BMS 507 & BMS 508	Human Anatomy and Physiology I and Human Anatomy and Physiology II <sup>1</sup>	
BMS 702	Endocrinology	
BMS 711	Toxicology	
BMS 718	Mammalian Physiology	
GEN 706	Human Genetics	
KIN 706 & KIN 707	Neurology and Neurology Lab <sup>1</sup>	
MEFB 714	Field Animal Behavior (SML, C)	
NSB 705	Molecular and Cellular Neurobiology (C)	
NSB 727	Animal Communication (C)	
NSB #728	Research Methods in Animal Behavior (C)	
PHIL 630	Neuroscience and Philosophy	
PSYC 511	Sensation and Perception	
PSYC 512	Psychology of Primates	
PSYC 513	Cognitive Psychology	
PSYC 521	Behavior Analysis	

PSYC 710	Visual Perception (C)
PSYC 716	Cognitive Neuroscience (C)
PSYC 720	Animal Cognition (C)
PSYC 731	Brain and Behavior (C)
PSYC 733	Drugs and Behavior (C)
PSYC 735	Neurobiology of Mood Disorders (C)
PSYC 736	Attention Disorders (C)
PSYC 737	Behavioral Medicine (C)
ZOOL 613	Animal Behavior
PSYC 741W	Special Topics (Neuroscience of Memory, Behavioral Neuroscience, Science of Daydreaming (C)
ZOOL 625 & ZOOL 626	Principles of Animal Physiology and Animal Physiology Laboratory (C) <sup>1</sup>
ZOOL 690	Evolution
ZOOL 726	Conservation Behavior (C)
ZOOL 733	Behavioral Ecology (C)
ZOOL 736	Genes and Behavior (C)
ZOOL 777	Neuroethology (C)
795/796 or 799 Independent Study, (C) <sup>2</sup>	
<b>Capstone</b> <sup>3</sup>	
Total Credits 69-71	

<sup>1</sup> Both must be taken to count as one of the 5 required major electives

<sup>2</sup> One experience totaling at least 4 credits, but can be earned over the course of two consecutive semesters provided the experience is with the same research mentor. Can only substitute for one elective.

<sup>3</sup> Courses that are eligible to fulfill the Capstone requirement are indicated with a (C) and must be taken senior year. You can: 1) designate a course as a Capstone course, with additional requirements as determined by the instructor; 2) complete one semester of Capstone Research (BIOL 795, PSYC 795, or INCO 790); 3) do an honors thesis in Neuroscience and Behavior (NSB 799H) or Biology or Psychology (BIOL 799 or PSYC 797/PSYC 799) or; 4) participate in an alternative activity with approval from the student's academic advisor.

NSB majors may use BIOL 411, BIOL 412, CHEM 403, CHEM 404, PHYS 401, PHYS 407 and either PSYC 402 or BIOL 528 to fulfill the Biological Sciences, Physical Sciences, Discovery Lab, and Quantitative Reasoning Discovery requirements. Students transferring into the NSB program from other UNH majors must hold a cumulative GPA of at least 3.2 at the time of requested major change.

## Student Learning Outcomes

Students demonstrate that they understand basic principles of neuroscience and behavior.

- Apply the core principles of biology, chemistry, physics, and statistics to more advanced concepts in neuroscience and behavior.
- Apply the principles of evolution and genetics to understand how genotype and phenotype affect the structure and function of animal nervous systems and behavior.
- Describe the basic features of animal nervous system development, organization, signaling, integration, and higher-level processing, and how these are altered in diseases of the nervous system.
- Explain the four levels of analysis emphasized in modern animal behavior research: causation, development, function, and evolution.
- Describe molecular and cellular approaches to the study of brain structure, function, and development, as well as behavioral and cognitive neuroscience approaches to studying higher level brain functions.

Students demonstrate that they can undertake scientifically valid methods of inquiry.

- Apply appropriate research methods, laboratory techniques, and statistical methods to investigate scientific questions in neuroscience and behavior.

Students demonstrate that they can think critically and analytically.

- Read and critique primary research literature related to the nervous system, how nervous system function generates behavior, and how behavior addresses fitness-related challenges across a diversity of species.

Students demonstrate that they can communicate effectively.

- Demonstrate scientific writing skills, and proficiency in delivering oral presentations related to both the primary literature and findings from student investigations in neuroscience and behavior.

Students practice science responsibly and ethically, and acknowledge the influence of cultural and historical biases in the sciences.

## Philosophy (PHIL)

Philosophy has always been at the heart of liberal education, deepening and enriching the lives of those who pursue it. The philosophy major provides students with the opportunity to confront a wide variety of questions, especially those that cannot be dealt with in the framework of other disciplines. Such questions include those about the ultimate nature of reality: Does God exist? Are minds distinct from bodies? Are there more things between heaven and Earth than are dreamed of in science? Other questions probe what it is to know: Do we know that material bodies external to our minds exist? What does it mean to justify a belief? Still other questions are about how we ought to be or act: What is a good person? Are there moral rules? How are they justified? Must we obey them?

Philosophy also concerns itself with other disciplines: What makes something a work of art? What distinguishes a scientific theory from a religious theory or myth? Is capitalism amoral? Is legal authority moral or political?

The Department of Philosophy offers a wide range of courses exposing students to the full scope of philosophical activity. Grappling with major primary texts from the history of philosophy is an important emphasis of the program, for philosophy today is the continuation of a conversation that extends back to the ancient Greeks and the Vedic scriptures. Philosophy also always has wrestled with cutting-edge topics emerging in the current culture. Some recent examples are: What are the prospects for machines with mental lives? What are the implications of new views in cosmology? How do we handle the pressing ethical dilemmas brought on by emerging medical technologies, or by the historically unparalleled rate of destruction of the Earth's environment? Are gender and race socially constructed concepts rather than biological concepts?

## Options in the Major

Students may select one of three options for the philosophy major, but are not required to do so. The options do not add additional requirements to the general philosophy major, but rather focus philosophy electives in a specific area.

- The [ethics and social responsibility \(ESR\) option](#) provides official recognition for those who choose to emphasize concern with moral

responsibility in personal and social contexts, including the political and corporate arenas. You will choose courses in environmental ethics, law, evolution, social and political philosophy, and feminism.

- The [business, innovation, and technology \(BIT\) option](#) provides official recognition for those who choose to emphasize the study of the relationships between markets, technology, and human well-being. You will choose courses in the philosophy of artificial intelligence, evolution, neuroscience, biotechnology, business ethics, economic policy, environmental ethics and other high-impact subjects.
- The [political and legal philosophy \(PLP\) option](#) provides official recognition for those who choose to emphasize the systematic study of the fundamental philosophical questions regarding politics, law and justice, and how they apply to contemporary issues. You will choose courses in the nature of justice, limits of state power, balancing liberty and equality, capitalism vs. socialism, authoritarian challenges to democracy, fascism and antifascism, privacy, freedom of expression, police ethics, justifications for punishment, racial and gender injustice, wealth inequality and crime, immigration, and other issues at the interface of ethics, justice, law and states.

## Research

Students are strongly encouraged to consider the possibility of presenting research at the [Philosophy Department Undergraduate Research Conference](#) and/or fulfilling an [undergraduate research grant](#). This is especially encouraged for students considering graduate school in philosophy.

## Graduate Preparatory Emphasis

This emphasis is strongly recommended for students who plan to do graduate work in philosophy. Beyond the ten (10) courses required for the major, such students should select, with their adviser's approval, two additional philosophy courses above the 400-level, for a total of twelve (12) courses. [Consult the Department of Philosophy website for additional graduate school planning information.](#)

## Honors in Philosophy

To graduate "With Honors" in philosophy, students will be expected to complete their philosophy capstone requirement; complete two additional 700-level PHIL courses (The 700-level course options will vary depending upon which departmental honors option [thesis or portfolio] the student fulfills; they will be expected to have an overall GPA of 3.5 or above; they will engage in independent study and research (under the supervision of a faculty member) beyond the requirements of their coursework; and, they will be expected to present and defend a culminating project to the department's faculty. [Consult the Department of Philosophy website for more details.](#)

## Distinction on Senior Thesis

Distinction on Senior Thesis is granted by a unanimous determination of the student's committee that the thesis exceeds A-level work and is worthy of special recognition.

<https://cola.unh.edu/philosophy>

## Programs

- [Philosophy Major \(B.A.\)](#) (p. 117)
- [Philosophy Major: Business, Innovation & Technology Option \(B.A.\)](#) (p. 118)
- [Philosophy Major: Ethics and Social Responsibility Option \(B.A.\)](#) (p. 120)
- [Philosophy Major: Political and Legal Philosophy Option \(B.A.\)](#) (p. 121)
- [Philosophy Minor](#) (p. 123)
- [Political and Legal Philosophy Cognate](#) (p. 124)

## Faculty

<https://cola.unh.edu/philosophy/faculty-staff-directory>

## Philosophy Major (B.A.)

<https://cola.unh.edu/philosophy/program/ba/philosophy-major>

## Description

UNH philosophy majors acquire the ability to think systematically and imaginatively about fundamental and enduring issues such as morality, justice, happiness, beauty, gender, race, nature, artificial intelligence, space, time, and the meaning of life and death. Our internationally-renowned professors emphasize discussion, debate and writing in our courses. Wrestling with the "big questions" from diverse and global perspectives will prepare you exceptionally well for a variety of fulfilling careers. A lively and nurturing community personally invested in the success of our high achieving students, we take pride in watching [our graduates excel in top law and graduate schools, innovative social justice programs, and various positions from Wall Street to Silicon Valley and beyond](#) that seek hard workers who can think rigorously and communicate clearly.

## Requirements

Majors must take a minimum of ten (10) philosophy courses, for a total of 40 credits. A single course can satisfy multiple requirements for the major. The required minimum overall GPA in major coursework is 2.00 and minimum grade of C- for all courses counting toward the major. Candidates for a degree must satisfy additional University requirements for graduation, such as:

1. University "Writing Intensive" Requirements,
2. Liberal Arts Foreign Language Requirement (B.A. candidates only),
3. minimum number of credits (128 credits for B.A. degree), and
4. University Discovery Requirements.

Consult with your adviser early and often to plan the optimal path for fulfilling major and University requirements.

Code	Title	Credits
Core Requirements		20
PHIL 412	Beginning Logic	
PHIL 500	Workshop	
PHIL 530	Ethics	

PHIL 570	Ancient Philosophy	
PHIL 580	Modern Philosophy from Descartes to Kant	
<b>Electives</b> <sup>1</sup>		12
Select three (3) additional philosophy courses of the student's choice.		
<b>Discovery Capstone Requirement</b>		8
Select two (2) 700-level philosophy courses (excluding PHIL 795, PHIL 798, and PHIL 799) of the student's choice, at least one of these should be taken in the senior year		
<b>Total Credits</b>		40

<sup>1</sup> PHIL 495 Tutorial Reading and PHIL 795 Independent Study normally do not count toward fulfilling major requirement credits; exceptions may be granted by special permission.

Note that it is in the nature of 700-level seminars to presuppose by default that students have completed the main 400-level and 500-level core requirements (PHIL 412 Beginning Logic, PHIL 500 Workshop, PHIL 530 Ethics, PHIL 570 Ancient Philosophy, PHIL 580 Modern Philosophy from Descartes to Kant) and so free reference is made to materials, views, techniques, etc. covered in those lower-level core requirements.

### Discovery Requirements

**For students majoring in only philosophy:** philosophy majors may "double count" any two courses toward the major and also to satisfy Discovery requirements. For example, a philosophy major can count (1) PHIL 412 Beginning Logic toward the major requirement as well as using this course to satisfy the Quantitative Reasoning Discovery Category and (2) they can also count PHIL 421 Philosophy and the Arts toward both the major and the Fine and Performing Arts Discovery Category. Because PHIL 412 Beginning Logic and PHIL 570 Ancient Philosophy are required for the major and also satisfy Quantitative Reasoning and Humanities Categories, respectively, all majors could simply count these two courses toward their Discovery requirements. In various circumstances—for instance if a student already satisfied those Discovery requirements before becoming a philosophy major—one might prefer to count other philosophy courses toward different Discovery Categories, and they are free to do so.

**For students double majoring with philosophy:** The Department sets no limits on how many courses students may "double count" toward both the philosophy major and Discovery categories if philosophy is your **second** major. A double major with philosophy as the second major could in principle count any of the following courses toward the major while satisfying five Discovery Categories:

1. **Quantitative Reasoning (QR)** Discovery Category could be satisfied by PHIL 412 Beginning Logic.
2. **Fine and Performing Arts (FPA)** Discovery Category could be satisfied by PHIL 421 Philosophy and the Arts.
3. **Humanities (HUMA)** Discovery Category could be satisfied by PHIL 401 Introduction to Philosophy, PHIL 405 Critical Thinking, PHIL 405W Critical Thinking, PHIL 410 Happiness, Well-Being, and a Good Life, PHIL 419 Race, Gender and Social Justice, PHIL 419W Race, Gender and Social Justice, PHIL 420 Introduction to Philosophy of Law and Justice, PHIL 430 Ethics and Society, PHIL 431 Business Ethics, PHIL 436 Social and Political Philosophy, PHIL #440 Just Business: The Ethics of Markets and Money, PHIL 440A Honors/Who Are You? Personal Identity and Humanity, PHIL 440B Honors/Who's Human Now?, PHIL #444A Who Am I? Concepts of Self, PHIL 510 Philosophy and Feminism, PHIL 525 Existentialism, PHIL 531 Topics in Professional and Business Ethics, or PHIL 570 Ancient Philosophy.

4. **World Cultures (WC)** Discovery Category could be satisfied by PHIL 440C Honors/The Copernican Lens: Finding a Place for Humanity or PHIL 520 Introduction to Eastern Philosophy.
5. **Environment, Technology, and Society (ETS)** Discovery Category could be satisfied by PHIL 424 The Future of Humanity: Science, Technology, and Society, PHIL 435 Human Nature and Evolution, PHIL 444 Remaking Nature/The Ethics and Politics of Genetic Engineering, PHIL 447 Artificial Intelligence, Robots, and People, or PHIL 450 Environmental Ethics.

## Student Learning Outcomes

UNH philosophy majors acquire the ability to think systematically and imaginatively about fundamental and enduring issues such as morality, justice, happiness, beauty, gender, race, nature, artificial intelligence, space, time, and the meaning of life and death. Our internationally-renowned professors emphasize discussion, debate and writing in our courses. Wrestling with the "big questions" from diverse and global perspectives prepares students exceptionally well for a variety of fulfilling careers. Cultivating a lively and nurturing community personally invested in the success of our high achieving students, we take pride in watching our graduates excel in top law and graduate schools, innovative social justice programs, and various positions from Wall Street to Silicon Valley.

More concretely, we monitor the following learning objectives.

- Students understand major philosophers and philosophical ideas accurately.
- Students apply their understanding of ideas in novel contexts.
- Students write effectively.
- Students speak effectively.
- Students argue with depth, precision, balance, and insight.
- Students understand the formal structure of arguments and understand rules of inference.
- Students read analytically, critically, and empathetically.
- Students critically assess their own preconceptions, commitments and ideas.

The main way we oversee student progress is through close mentorship, early on in our 2nd year orientation designed for new majors (PHIL 500 Workshop), and culminating in their presentation of research in two required 700-level seminars. We also strongly encourage participation in the annual [Philosophy Department Undergraduate Research Conference](https://cola.unh.edu/philosophy/program/ba/philosophy-major-business-innovation-technology-option).

## Philosophy Major: Business, Innovation & Technology Option (B.A.)

<https://cola.unh.edu/philosophy/program/ba/philosophy-major-business-innovation-technology-option>

### Description

While completing the philosophy major, students may select the option in Philosophy of Business, Innovation and Technology. This option provides official recognition for those who choose to emphasize the study of the relationships between markets, technology and human well-being. Students will choose courses in the philosophy of artificial

intelligence, evolution, neuroscience, biotechnology, business ethics, economic policy, environmental ethics and other high impact subjects.

## Requirements

Students must fulfill the requirements of the philosophy major **plus** the requirements of the option. Majors must take a minimum of ten (10) philosophy courses, for a total of 40 credits. A single course can satisfy multiple requirements for the major. The required minimum overall GPA in major coursework is 2.00 and the minimum grade for all courses counting toward the major is a "C-." Candidates for a degree must satisfy additional University requirements for graduation, such as:

1. University "Writing Intensive" Requirements,
2. Liberal Arts Foreign Language Requirement (B.A. candidates only),
3. minimum number of credits (128 credits for B.A. degree), and
4. University Discovery Requirements.

Consult with your adviser early and often to plan the optimal path for fulfilling major and University requirements.

Code	Title	Credits
<b>Core Requirements</b>		<b>20</b>
PHIL 412	Beginning Logic	
PHIL 500	Workshop	
PHIL 530	Ethics	
PHIL 570	Ancient Philosophy	
PHIL 580	Modern Philosophy from Descartes to Kant	
<b>Electives</b> <sup>1</sup>		<b>12</b>
Select three (3) additional philosophy courses of the student's choice.		
<b>Discovery Capstone Requirement</b>		<b>8</b>
Select two (2) 700-level philosophy courses (excluding PHIL 795, PHIL 798, and PHIL 799) of the student's choice, at least one of these should be taken in the senior year		
<b>Total Credits</b>		<b>40</b>

<sup>1</sup> PHIL 495 Tutorial Reading and PHIL 795 Independent Study normally do not count toward fulfilling major requirement credits; exceptions may be granted by special permission.

## Business, Innovation, and Technology Option Requirements

This option requires **four philosophy courses (for a total of 16 credits)** from those listed below. Students may "double count" these courses toward the general requirements of the philosophy major, for example, by counting three of these courses as the elective courses required for the major.

Code	Title	Credits
<b>Select four of the following courses:</b>		<b>16</b>
PHIL 405	Critical Thinking	
PHIL 405W	Critical Thinking	
PHIL 419	Race, Gender and Social Justice	
PHIL 419W	Race, Gender and Social Justice	
PHIL 420	Introduction to Philosophy of Law and Justice	
PHIL 421	Philosophy and the Arts	
PHIL 424	The Future of Humanity: Science, Technology, and Society	
PHIL 424H	Honors/The Future of Humanity: Science, Technology, and Society	
PHIL 430	Ethics and Society	
PHIL 430W	Ethics and Society	
PHIL 431	Business Ethics	
PHIL 435	Human Nature and Evolution	
PHIL 435H	Honors/Human Nature and Evolution	
PHIL 436	Social and Political Philosophy	

PHIL 436H	Honors/Social and Political Philosophy
PHIL 436W	Social and Political Philosophy
PHIL #440	Just Business: The Ethics of Markets and Money
PHIL 444	Remaking Nature/The Ethics and Politics of Genetic Engineering
PHIL 447	Artificial Intelligence, Robots, and People
PHIL 450	Environmental Ethics
PHIL 531	Topics in Professional and Business Ethics
PHIL #531W	Professional & Business Ethics
PHIL 630	Neuroscience and Philosophy
PHIL 660	Law, Medicine, and Ethics
PHIL 701	Topics in Value Theory
PHIL 730	Topics in Theories of Justice
PHIL 780	Special Topics <sup>1</sup>

<sup>1</sup> By permission because only some sections of this course will count toward the major option.

Note that it is in the nature of 700-level seminars to presuppose by default that students have completed the main 400-level and 500-level core requirements (PHIL 412 Beginning Logic, PHIL 500 Workshop, PHIL 530 Ethics, PHIL 570 Ancient Philosophy, PHIL 580 Modern Philosophy from Descartes to Kant) and so free reference is made to materials, views, techniques, etc. covered in those lower-level core requirements.

### Discovery Requirements

**For students majoring in only philosophy:** philosophy majors may "double count" any two courses toward the major and also to satisfy Discovery requirements. For example, a philosophy major can count (1) PHIL 412 Beginning Logic toward the major requirement as well as using this course to satisfy the Quantitative Reasoning Discovery Category and (2) they can also count PHIL 421 Philosophy and the Arts toward both the major and the Fine and Performing Arts Discovery Category. Because PHIL 412 Beginning Logic and PHIL 570 Ancient Philosophy are required for the major and also satisfy Quantitative Reasoning and Humanities Categories, respectively, all majors could simply count these two courses toward their Discovery requirements. ## Philosophy Major: Ethics and Social Responsibility Option (B.A.)

<https://cola.unh.edu/philosophy/program/ba/philosophy-major-ethics-social-responsibility-option>

### Description

While completing the philosophy major, students may select the option in ethics and social responsibility. This option provides official recognition for those who choose to emphasize concern with moral responsibility in

personal and social contexts, including the political and corporate arenas. Students will choose courses in environmental ethics, law, evolution, social and political philosophy, and feminism.

## Requirements

Students must fulfill the requirements of the philosophy major **plus** the requirements of the option. Majors must take a minimum of ten (10) philosophy courses, for a total of 40 credits. A single course can satisfy multiple requirements for the major. The required minimum overall GPA in major coursework is 2.00 and the minimum grade for all courses counting toward the major is a "C-." Candidates for a degree must satisfy additional University requirements for graduation, such as:

1. University "Writing Intensive" Requirements,
2. Liberal Arts Foreign Language Requirement (B.A. candidates only),
3. minimum number of credits (128 credits for B.A. degree), and
4. University Discovery Requirements.

Consult with your adviser early and often to plan the optimal path for fulfilling major and University requirements.

Introduction to Philosophy of Law and Justice, PHIL 430 Ethics and Society, PHIL 431 Business Ethics, PHIL 436 Social and Political Philosophy, PHIL #440 Just Business: The Ethics of Markets and Money, PHIL 440A Honors/Who Are You? Personal Identity and Humanity, PHIL 440B Honors/Who's Human Now?, PHIL #444A Who Am I? Concepts of Self, PHIL 510 Philosophy and Feminism, PHIL 525 Existentialism, PHIL 531 Topics in Professional and Business Ethics, or PHIL 570 Ancient Philosophy.

4. **World Cultures (WC)** Discovery Category could be satisfied by PHIL 440C Honors/The Copernican Lens: Finding a Place for Humanity or PHIL 520 Introduction to Eastern Philosophy.
5. **Environment, Technology, and Society (ETS)** Discovery Category could be satisfied by PHIL 424 The Future of Humanity: Science, Technology, and Society, PHIL 435 Human Nature and Evolution, PHIL 444 Remaking Nature/The Ethics and Politics of Genetic Engineering, PHIL 447 Artificial Intelligence, Robots, and People, or PHIL 450 Environmental Ethics.

## Student Learning Outcomes

UNH philosophy majors acquire the ability to think systematically and imaginatively about fundamental and enduring issues such as morality, justice, happiness, beauty, gender, race, nature, artificial intelligence, space, time, and the meaning of life and death. Our internationally-renowned professors emphasize discussion, debate and writing in our courses. Wrestling with the "big questions" from diverse and global perspectives prepares students exceptionally well for a variety of fulfilling careers. Cultivating a lively and nurturing community personally invested in the success of our high achieving students, we take pride in watching our graduates excel in top law and graduate schools, innovative social justice programs, and various positions from Wall Street to Silicon Valley.

More concretely, we monitor the following learning objectives.

- Students understand major philosophers and philosophical ideas accurately.
- Students apply their understanding of ideas in novel contexts.
- Students write effectively.
- Students speak effectively.
- Students argue with depth, precision, balance, and insight.
- Students understand the formal structure of arguments and understand rules of inference.
- Students read analytically, critically, and empathetically.
- Students critically assess their own preconceptions, commitments and ideas.

The main way we oversee student progress is through close mentorship, early on in our 2nd year orientation designed for new majors (PHIL 500 Workshop), and culminating in their presentation of research in two required 700-level seminars. We also strongly encourage participation in the annual [Philosophy Department Undergraduate Research Conference](https://cola.unh.edu/philosophy/program/ba/philosophy-major-political-legal-philosophy-option).

## Philosophy Major: Political and Legal Philosophy Option (B.A.)

<https://cola.unh.edu/philosophy/program/ba/philosophy-major-political-legal-philosophy-option>

## Description

The political and legal philosophy option in the philosophy major gives students interested in politics, law and justice the opportunity to focus their philosophy major courses around their interests in a systematic and rigorous way. Philosophy has long been a major for high-achieving students interested in law, and our graduates are admitted regularly to top law schools such as Harvard, Yale, Stanford, University of Chicago, NYU and Duke, among others. We are also a home for UNH students interested and active in political philosophy. Our faculty members have considerable expertise in both political and legal philosophy, with some serving on UNH's pre-law advisory committee.

## Requirements

Students must fulfill the requirements of the philosophy major **plus** the requirements of the option. Majors must take a minimum of ten (10) philosophy courses, for a total of 40 credits. A single course can satisfy multiple requirements for the major. The required minimum overall GPA in major coursework is 2.00 and the minimum grade for all courses counting toward the major is a "C-." Candidates for a degree must satisfy additional University requirements for graduation, such as:

1. University "Writing Intensive" Requirements,
2. Liberal Arts Foreign Language Requirement (B.A. candidates only),
3. minimum number of credits (128 credits for B.A. degree), and
4. University Discovery Requirements.

Consult with your adviser early and often to plan the optimal path for fulfilling major and University requirements.

## Major Requirements

Code	Title	Credits
<b>Core Requirements</b>		<b>20</b>
PHIL 412	Beginning Logic	
PHIL 500	Workshop	
PHIL 530	Ethics	
PHIL 570	Ancient Philosophy	
PHIL 580	Modern Philosophy from Descartes to Kant	
<b>Electives<sup>1</sup></b>		<b>12</b>
Select three (3) additional philosophy courses of the student's choice.		
<b>Discovery Capstone Requirement</b>		<b>8</b>
Select two (2) 700-level philosophy courses (excluding PHIL 795, PHIL 798, and PHIL 799) of the student's choice, at least one of these should be taken in the senior year		
<b>Total Credits</b>		<b>40</b>

<sup>1</sup> PHIL 495 Tutorial Reading and PHIL 795 Independent Study normally do not count toward fulfilling major requirement credits; exceptions may be granted by special permission.

## Political and Legal Philosophy Option Requirements

This option requires four philosophy courses (for a total of 16 credits) from those listed below. Students may "double count" these courses toward the general requirements of the philosophy major, for example, by counting three of these courses as the elective courses required for the major.

Code	Title	Credits
<b>Select four of the following courses:</b>		<b>16</b>
PHIL 405	Critical Thinking	
PHIL 419	Race, Gender and Social Justice	
PHIL 420	Introduction to Philosophy of Law and Justice	
PHIL 424	The Future of Humanity: Science, Technology, and Society	
PHIL 430	Ethics and Society	
PHIL 431	Business Ethics	
PHIL 436	Social and Political Philosophy	
PHIL #440	Just Business: The Ethics of Markets and Money	
PHIL 444	Remaking Nature/The Ethics and Politics of Genetic Engineering	
PHIL 450	Environmental Ethics	
PHIL 510	Philosophy and Feminism	
PHIL 531	Topics in Professional and Business Ethics	
PHIL #620	20th Century European Philosophy	
PHIL 630	Neuroscience and Philosophy	
PHIL #635	Advanced Topics in Philosophy of Law and Justice	
PHIL 660	Law, Medicine, and Ethics	
PHIL 701	Topics in Value Theory (by permission)	
PHIL 730	Topics in Theories of Justice	
PHIL 780	Special Topics (by permission)	

Note that it is in the nature of 700-level seminars to presuppose by default that students have completed the main 400-level and 500-level core requirements (PHIL 412 Beginning Logic, PHIL 500 Workshop, PHIL 530 Ethics, PHIL 570 Ancient Philosophy, PHIL 580 Modern Philosophy from Descartes to Kant) and so free reference is made to materials, views, techniques, etc. covered in those lower-level core requirements.

### Discovery Requirements

**For students majoring in only philosophy:** philosophy majors may "double count" any two courses toward the major and also to satisfy Discovery requirements. For example, a philosophy major can count (1) PHIL 412 Beginning Logic toward the major requirement as well as using this course to satisfy the Quantitative Reasoning Discovery Category and (2) they can also count PHIL 421 Philosophy and the Arts toward both the major and the Fine and Performing Arts Discovery Category. Because PHIL 412 Beginning Logic and PHIL 570 Ancient Philosophy are required for the major and also satisfy Quantitative Reasoning and Humanities Categories, respectively, all majors could simply count these two courses toward their Discovery requirements. In various circumstances—for instance if a student already satisfied those Discovery requirements before becoming a philosophy major—one might prefer to count other philosophy courses toward different Discovery Categories, and they are free to do so.

**For students double majoring with philosophy:** The Department sets no limits on how many courses students may "double count" toward both the philosophy major and Discovery categories if philosophy is your **second** major. A double major with philosophy as the second major could in principle count any of the following courses toward the major while satisfying five Discovery Categories:

1. **Quantitative Reasoning (QR)** Discovery Category could be satisfied by PHIL 412 Beginning Logic.
2. **Fine and Performing Arts (FPA)** Discovery Category could be satisfied by PHIL 421 Philosophy and the Arts.
3. **Humanities (HUMA)** Discovery Category could be satisfied by PHIL 401 Introduction to Philosophy, PHIL 405 Critical Thinking, PHIL 405W Critical Thinking, PHIL 410 Happiness, Well-Being, and a Good Life, PHIL 419 Race, Gender and Social Justice, PHIL 419W Race, Gender and Social Justice, PHIL 420 Introduction to Philosophy of Law and Justice, PHIL 430 Ethics and

Society, PHIL 431 Business Ethics, PHIL 436 Social and Political Philosophy, PHIL #440 Just Business: The Ethics of Markets and Money, PHIL 440A Honors/Who Are You? Personal Identity and Humanity, PHIL 440B Honors/Who's Human Now?, PHIL #444A Who Am I? Concepts of Self, PHIL 510 Philosophy and Feminism, PHIL 525 Existentialism, PHIL 531 Topics in Professional and Business Ethics, or PHIL 570 Ancient Philosophy.

4. **World Cultures (WC)** Discovery Category could be satisfied by PHIL 440C Honors/The Copernican Lens: Finding a Place for Humanity or PHIL 520 Introduction to Eastern Philosophy.
5. **Environment, Technology, and Society (ETS)** Discovery Category could be satisfied by PHIL 424 The Future of Humanity: Science, Technology, and Society, PHIL 435 Human Nature and Evolution, PHIL 444 Remaking Nature/The Ethics and Politics of Genetic Engineering, PHIL 447 Artificial Intelligence, Robots, and People, or PHIL 450 Environmental Ethics.

## Student Learning Outcomes

UNH philosophy majors acquire the ability to think systematically and imaginatively about fundamental and enduring issues such as morality, justice, happiness, beauty, gender, race, nature, artificial intelligence, space, time, and the meaning of life and death. Our internationally-renowned professors emphasize discussion, debate and writing in our courses. Wrestling with the “big questions” from diverse and global perspectives prepares students exceptionally well for a variety of fulfilling careers. Cultivating a lively and nurturing community personally invested in the success of our high achieving students, we take pride in watching our graduates excel in top law and graduate schools, innovative social justice programs, and various positions from Wall Street to Silicon Valley.

More concretely, we monitor the following learning objectives.

- Students understand major philosophers and philosophical ideas accurately.
- Students apply their understanding of ideas in novel contexts.
- Students write effectively.
- Students speak effectively.
- Students argue with depth, precision, balance, and insight.
- Students understand the formal structure of arguments and understand rules of inference.
- Students read analytically, critically, and empathetically.
- Students critically assess their own preconceptions, commitments and ideas.

The main way we oversee student progress is through close mentorship, early on in our 2nd year orientation designed for new majors (PHIL 500 Workshop), and culminating in their presentation of research in two required 700-level seminars. We also strongly encourage participation in the annual [Philosophy Department Undergraduate Research Conference](#).

## Philosophy Minor

<https://cola.unh.edu/philosophy/program/minor/philosophy>

### Description

UNH philosophy minors acquire the ability to think systematically and imaginatively about fundamental and enduring issues such as morality, justice, happiness, beauty, gender, race, nature, artificial intelligence,

space, time, and the meaning of life and death. Our internationally-renowned professors emphasize discussion, debate and writing in our courses. Wrestling with the “big questions” from diverse and global perspectives will prepare you exceptionally well for a variety of fulfilling careers. A lively and nurturing community personally invested in the success of our high achieving students, we take pride in watching our graduates excel in top law and graduate schools, innovative social justice programs, and various positions from Wall Street to Silicon Valley and beyond that seek hard workers who can think rigorously and communicate clearly.

## Requirements

A philosophy minor consists of **five (5) philosophy courses (for a total of 20 credits) with a grade of C- or above**. At least one of the philosophy courses must be at the 500-level or higher.

Code	Title	Credits
PHIL course at 500-level or higher		4
Four elective PHIL courses		16
<b>Total Credits</b>		<b>20</b>

PHIL 495 Tutorial Reading and PHIL 795 Independent Study may be used towards the minor only with special approval.

You do not need to declare a minor; however, it might be wise to meet with a faculty member from the Philosophy Department to discuss your minor plan.

At the beginning of your final semester of study, you should complete a [Minor Certification of Completion Form](#), email the completed form to [philosophy@unh.edu](mailto:philosophy@unh.edu) to request the Department Chair's signature as the Minor Advisor signature, obtain your advisor's signature, and submit it to your Dean's Office.

## Philosophy of Business, Innovation, & Technology Cognate

<https://cola.unh.edu/philosophy/program/cognate/philosophy-business-innovation-technology>

### Description

Our internationally renowned philosophy professors emphasize discussion, debate, and writing in our courses. Wrestling with big questions prepares our students exceptionally well for highly successful careers in business and cutting-edge technology. As a lively and nurturing faculty personally invested in the success of our high achieving students, we take pride in watching our graduates go on to excel in top law schools, elite graduate programs, and prestigious positions from Wall Street to Silicon Valley.

For students unable to major or minor in Philosophy, students may select the three course cognate in Philosophy of Business, Innovation, and Technology. This cognate provides official recognition for those who choose to emphasize the study of the relationships between markets, technology, and human well-being. Students will choose courses in the philosophy of artificial intelligence, evolution, neuroscience, biotechnology, business ethics, economic policy, environmental ethics and other high impact subjects.

Contact the Philosophy Department with questions at (603) 862-2060 or [philosophy@unh.edu](mailto:philosophy@unh.edu).

## Requirements

For a cognate in Philosophy of Business, Innovation, and Technology, a student must complete **three (3) philosophy courses (for a total of 12 credits) from the following list.**

Code	Title	Credits
Select three (3) philosophy courses		12
PHIL 421	Philosophy and the Arts	
PHIL 424	The Future of Humanity: Science, Technology, and Society	
PHIL 430	Ethics and Society	
PHIL 431	Business Ethics	
PHIL 435	Human Nature and Evolution	
PHIL 436	Social and Political Philosophy	
PHIL #440	Just Business: The Ethics of Markets and Money	
PHIL 444	Remaking Nature/The Ethics and Politics of Genetic Engineering	
PHIL 447	Artificial Intelligence, Robots, and People	
PHIL 450	Environmental Ethics	
PHIL 530	Ethics	
PHIL 531	Topics in Professional and Business Ethics	
PHIL 630	Neuroscience and Philosophy	
PHIL 660	Law, Medicine, and Ethics	
an approved 700-level philosophy seminar		

Students do not need to declare a cognate; however, we recommend that students meet with a faculty member from the Philosophy Department to discuss their plan. At the beginning of a student's final semester of study, the student should complete a [Certification of Completion of Cognate form](#), obtain the necessary signatures, and submit it to their Dean's Office.

Credit toward the cognate will only be given for courses passed with C- or better, and a 2.00 grade-point average must be maintained in courses for the cognate. Courses taken on the pass/fail basis may not be used for the cognate.

## Political and Legal Philosophy Cognate

<https://cola.unh.edu/philosophy/program/cognate/political-legal-philosophy>

### Description

For students unable to major or minor in philosophy, students may select the three-course cognate in political and legal philosophy (for a total of 12 credits). This option provides official recognition for those who choose to emphasize the study of political and legal philosophy.

## Requirements

Code	Title	Credits
Select THREE courses (12 credits) from the following list:		
PHIL 405	Critical Thinking	4
PHIL 419	Race, Gender and Social Justice	4
PHIL 420	Introduction to Philosophy of Law and Justice	4
PHIL 424	The Future of Humanity: Science, Technology, and Society	4
PHIL 430	Ethics and Society	4
PHIL 431	Business Ethics	4

PHIL 436	Social and Political Philosophy	4
PHIL #440	Just Business: The Ethics of Markets and Money	4
PHIL 444	Remaking Nature/The Ethics and Politics of Genetic Engineering	4
PHIL 450	Environmental Ethics	4
PHIL 510	Philosophy and Feminism	4
PHIL 531	Topics in Professional and Business Ethics	4
PHIL #620	20th Century European Philosophy	4
PHIL 630	Neuroscience and Philosophy	4
PHIL #635	Advanced Topics in Philosophy of Law and Justice	4
PHIL 660	Law, Medicine, and Ethics	4
Approved PHIL seminars, including seminars in neuroscience, happiness, economic philosophy, race and others		4

You do not need to declare a cognate; however, we recommend that you meet with a faculty member from the Philosophy Department to discuss your plan. At the beginning of your final semester of study, you should complete a certification of completion of cognate form, obtain the necessary signatures, and submit it to your Dean's Office.

Credit toward the cognate will only be given for courses passed with C- or better, and a 2.00 grade-point average must be maintained in courses for the cognate. Courses taken on the pass/fail basis may not be used for the cognate.

## Political Science (POLT)

The study of political science includes the study of politics, power and governance, from local municipalities to nation states and the international system. Students study both formal and informal institutions of government, political behavior, civil society, the role of the media, individuals and the factors that shape policy. Political science clarifies political involvement and contributes to informed citizenship. The course of study is particularly valuable to students planning to enter local, state or national government, the Foreign Service, those who intend to study law and enter the legal profession, as well as careers in the security/intelligence sector. The major also enhances cognitive abilities, writing, public speaking and analytical skills that translate into careers in journalism, international organizations, public affairs and the private sector.

## Internships and Advanced Study

In addition to the courses regularly offered, the department could have available selected topics, advanced study in political science and internships. Interested students should contact our department advisor, [Heather Austin](#) ([heather.austin@unh.edu](mailto:heather.austin@unh.edu)), to learn about the course offerings for a given semester.

The department also offers several internship opportunities that give students experience in various aspects of government, policy-making and the legal system at the local, state and national levels. Student must have taken certain course prerequisites for each kind of internship. In addition, students must have junior or senior standing and normally have a 3.2 grade point average (GPA) or higher to be eligible for consideration. Students desiring to undertake internships must fully comply with the departmental guidelines as stated on the application forms, which are available on the department website. Applications must be received by the first day of the preregistration period prior to the semester the course will be undertaken. Internships can only fulfill non-subfield requirements at the 500-level. Washington placements are made either through the Department of Political Science or through the Washington Center located in the National Student Exchange Office; major credit must be arranged through the department.

## Political Science Language Requirement

The bachelor of arts degree at the University of New Hampshire requires that a student satisfy the foreign language proficiency requirement. The requirement may be met by demonstrating language proficiency equal to a one-year college-level course (401 and 402, 403 and 503, or 503 and above in spoken language). See [University Requirements/Degrees](#) (p. 26) for the full description of this requirement.

The Department of Political Science does not allow American Sign Language (ASL) to count toward the language requirement.

Exceptions to this must be petitioned and approved by the Department of Political Science's undergraduate committee and the student's advisor.

## Five-year B.A./M.A. Program

The five-year political science B.A./M.A. program (also known as a "dual degree, early admission" program) aims to:

1. Improve opportunities for excellent undergraduates to prepare for competitive Ph.D. programs or add an additional credential before entering a competitive job market; and
2. Allow students interested in politics to advance and further specialize their political science education in only one additional year at UNH.

Students must fulfill all programmatic requirements for the current master's degree program, as well as fulfill all programmatic requirements for their bachelor's degree.

Interested students must submit a full graduate application by February 15 of their junior year. Minimum GPA required for admission is 3.2.

For additional information you may contact the graduate coordinator, Prof. Elizabeth Carter, (603) 862-4239, [elizabeth.carter@unh.edu](mailto:elizabeth.carter@unh.edu) or Heather Austin, (603) 862-1767, [heather.austin@unh.edu](mailto:heather.austin@unh.edu).

<https://cola.unh.edu/political-science>

## Programs

- [Political Science Minor](#) (p. 126)
- [Survey Research Minor](#) (p. 127)

## Faculty

<https://cola.unh.edu/political-science/faculty-staff-directory>

## Political Science Major (B.A.)

<https://cola.unh.edu/political-science/program/ba/political-science-major>

## Description

The study of government and politics, to which the courses and seminars of the Department of Political Science are devoted, includes the development of knowledge of political behavior by individuals and groups as well as knowledge about governments: their nature and functions,

their problems and behavior, and their interactions—at the national and international levels as well as local, state and regional levels.

Much of the learning offered by the Department of Political Science can also be regarded as essential for good citizenship, since political knowledge helps to explain the formal and informal institutions by which we are governed and the forces that lead to policy decisions, and also seeks to clarify the issues and principles that encourage people toward political involvement. In addition, such learning is especially valuable to students planning to enter local or national government or other public service related fields, including the Foreign Service, and it will be of great help to those who intend to study law and enter the legal profession. For teaching, particularly at the college level, and for many types of government service, graduate work may be indispensable. An undergraduate major in political science will provide a helpful foundation for any further study of politics and related fields in the social sciences and humanities. Such an emphasis will also be valuable for students seeking careers in journalism, international organizations, and the public affairs and administrative aspects of labor, financial and business organizations.

## Requirements

The major in political science consists of at least 10 courses (40 credits) and not more than 12 courses (48 credits). The minimum grade requirement is C- per course. Any grade lower than a C- will not count toward major. The required minimum overall GPA for major coursework is 2.0.

Code	Title	Credits
<b>Major Program Requirements</b> <sup>1</sup>		
POLT 401	Politics and Society	4
POLT 402	American Politics and Government	4
POLT 403	United States in World Affairs	4
<b>Six 500-level courses:</b>		<b>24</b>
Select 3 subfield courses, 1 from each of 3 different subfields below.		
Select 3 elective courses from any of the 5 subfields below. <sup>2</sup>		
<b>Subfield: American Politics</b>		
POLT 500	American Public Policy	
POLT 502	State and Local Government	
POLT 504	American Presidency	
POLT 505	American Congress	
POLT 506	Parties, Interest Groups, and Voters	
POLT 507	Politics of Crime and Justice	
POLT 508	Supreme Court and the Constitution	
POLT 509	Managing Bureaucracy in America	
POLT 510	Media and Politics	
POLT 511	Women & Politics	
POLT 512	Public Opinion in American Politics	
POLT 513	Civil Rights and Liberties	
POLT 580	Selected Topics Am Politics	
<b>Subfield: Political Thought</b>		
POLT 520	Politics, Justice, and Morality	
POLT 521	Rights and the Political Community	
POLT 522	Dissent and the Political Community	
POLT 523	American Political Thought	
POLT 524	Politics and Literature	
POLT #524W	Politics and Literature	
POLT 584	Selected Topics in Political Thought	
<b>Subfield: Comparative Politics</b>		
POLT 544	Of Dictators and Democrats

POLT #563	The Global Information Grid's Disruptive Impact on Government, Politics, and Society
POLT 565	United States Policy in Latin America
POLT 566	Asian Challenge to Global Order
POLT 568	International Security
POLT 569	The Rise of China
POLT #570	Counterterrorism: Nation states' responses to terrorist activity
POLT 592	Selected Topics in International Politics
<b>Subfield: Methods</b>	
POLT 595	Smart Politics
<b>Discovery Program Capstone</b>	
Select one 700-level POLT course	
<b>Total Credits</b>	
40	

<sup>1</sup> Once students declare the major, POLT 401, POLT 402, POLT 403 must be completed within the first calendar year.

Note: POLT #407, POLT 440A, POLT #444, POLT 444B do not count toward the major.

<sup>2</sup> Students can take any POLT course at the intermediate level or higher (500-799) to count toward elective credit. ECON 402 Principles of Economics (Micro) or ECON 605 Intermediate Microeconomic Analysis and ECON 401 Principles of Economics (Macro) or ECON 611 Intermediate Macroeconomic Analysis may also be used to fulfill the fifth or sixth elective in this sequence. Additional economics courses will be considered by petition. Only one economics course can count toward this requirement. If students substitute an economics course for a POLT 500-level course, the economics course cannot be used to satisfy Discovery Program category requirements.

Candidates for a degree must satisfy all of the University Discovery Program requirements in addition to satisfying the requirements of each individual major program. Bachelor of arts candidates must also satisfy the foreign language proficiency requirement.

Political Science majors may use one major-required course to satisfy one Discovery category requirement.

## Student Learning Outcomes

- **Knowledge Base:** a proficient knowledge base of the five subfields of Political Science including American Government, Political Theory, Comparative Politics, International Relations, and Methods. Areas of strength include the study of public opinion, comparative politics and international relations, political economy, environmental politics, Latin American politics, Middle Eastern politics, and Asian politics. In this regard, the program fosters the development of a strong empirical foundation through multiple levels of courses. Majors are required to complete each of the following: POLT 401 Politics and Society, POLT 402 American Politics and Government and POLT 403 United States in World Affairs.
- **Research Skills:** A second goal is to advance the students' abilities to understand and use basic political science research skills.

These include computer literacy, knowledge of credible sources of information, basic statistical applications, and support for foreign language proficiency. We also strive to help students identify interesting and important research questions clearly and concisely, gather and assess various types of information, and come to well-reasoned conclusions.

- **Critical Thinking:** The third objective involves enhancement of student cognitive abilities and critical thinking. We hone the ability to analyze, assess, and reconstruct findings in written, oral, and graphical form. We strive to promote students who are self-disciplined thinkers who understand the rigorous standards of research, are intelligent consumers of political information, and are able to understand and weigh multiple perspectives and interpretations.
- **Communication Skills:** Another aim is to enhance the written and oral communication skills of our students. We support the goals of the writing intensive requirement and expose students to different genres and conventions in academic writing. Most 500 and 700-level courses emphasize cultivating strong writing and reading skills, while at the 700-level, student engagement in sustained discussion becomes the centerpiece of instruction in many seminars. Writing instruction includes emphasis not only on research papers but on short analytical essays, précis, and reviews that ask students to synthesize complex information, develop arguments, and delve more deeply into interpretation. In some courses, part of this work includes iterated practice of grammar and stylistic choices through revision and proposal assignments.
- **Professional Socialization and Support for Post-Graduate Training and Placement:** The sixth aim of the program is to give students the requisite skills, preparation and knowledge base to become capable and responsible political actors in their chosen professional careers and future goals. We expect our students to be exposed to the ethics and organizational culture of political science specifically and the social sciences generally. We aim to provide a foundation of professionalism for students who enter both the private and public sectors upon graduation and for those who continue their studies beyond the B.A.
- **Inspire Curiosity and Enthusiasm for Inquiry:** A final goal is to foster a spirit of inquiry. Faculty in the Department hope to stimulate curiosity about the political world and inspire life-long learners who are engaged in the political process at the local, national and global levels.

## Political Science Minor

<https://cola.unh.edu/political-science/program/minor/political-science>

### Description

The study of government and politics, to which the courses and seminars of the Department of Political Science are devoted, includes the development of knowledge of political behavior by individuals and groups as well as knowledge about governments: their nature and functions; their problems and behaviors; and their interactions across all levels of governance.

Much of the learning offered by the Department of Political Science can also be regarded as essential for good citizenship, since political knowledge helps to explain the formal and informal institutions by which we are governed and the forces which lead to policy decisions, and also seeks to clarify the issues and principles that encourage people toward

political involvement. In addition, such learning is especially valuable to students planning to enter local or national government or other public service, including the Foreign Service, and it will be of great help to those who intend to study law and enter the legal profession.

## Requirements

The political science minor consists of five courses (20 credits total).

Code	Title	Credits
Five elective POLT courses, with no more than two at the 400 level		20
<b>Total Credits</b>		<b>20</b>

- These courses may be taken in any combination of the five subfields and levels (400-700) offered. The fields to choose from are: American politics, political thought, comparative politics, international politics and methods.
- The minimum grade requirement is C- per course. Any grade lower than a C- will not count toward the minor.

Students wishing to use transfer credits from abroad or other universities should meet with our political science advisor, [Heather Austin](mailto:heather.austin@unh.edu), ([heather.austin@unh.edu](mailto:heather.austin@unh.edu)) to determine eligibility toward the minor.

## Survey Research Minor

<https://cola.unh.edu/political-science/program/minor/survey-research>  
<https://cola.unh.edu/political-science/program/minor/survey-research>

## Description

The survey research minor will provide students with the skills necessary to design, conduct, analyze and present survey research in a variety of professional settings. This minor will enable students to gain a strong grounding in the theory and practice of survey research, as well as learn how public opinion forms and changes over time. Students will apply what they have learned at the UNH Survey Center, nationally recognized for its public opinion and political polling. Students who complete this minor will be poised to pursue an advanced degree in this subject and, ultimately, a career in the field.

## Requirements

The survey research minor requires five courses (20 credits), as follows:

Code	Title	Credits
<b>Core Course</b>		<b>4</b>
POLT 512	Public Opinion in American Politics	
<b>Introduction to Research Methods Course</b>		<b>4</b>
Select one (1) from the following:		
POLT 595	Smart Politics	
SOC 601	Methods of Social Research	
JUST 501	Research Methods	
<b>Statistics Course</b>		<b>4</b>
Select one (1) from the following:		
SOC 402	Statistics	
PSYC 402	Statistics in Psychology	
<b>Advanced Research Course Elective</b>		<b>4</b>
Select one (1) from the following:		
HMP 711	Health Systems Research I	
HMP 712	Health Analytics	

MKTG 752	Marketing Research	
PSYC 531	Psychobiology	
PSYC 552	Social Psychology	
SOC 620	Drugs and Society	
SOC 625	Mental Health and Society	
SOC 725	Social Demography	
SOC 797	Special Topics (Only topic: Survey Research in Practice)	
Other elective based on student's field of interest and approved by the coordinator		
<b>Capstone Practicum</b>		4
To be chosen in consultation with the coordinator		
<b>Total Credits</b>		20

- Students must receive a grade of C or better for a course to count toward the minor requirements.
- Once students have declared the minor, they are required to meet with the coordinator or appropriate affiliated faculty advisor at least once per semester for regular review and assessment of their program, learning outcomes, and progress toward the degree.

## Transfer or Articulation Agreements with Other Institutions

Transfer credits may be approved by the coordinator to count toward the minor. If the transfer credit is accepted by the university and fits within the scope of the minor, it will be considered.

## Psychology (PSYC)

The Department of Psychology focuses on the scientific study of human and non-human behavior. The program exposes students to the scientific study of behavior and encourages an increased understanding of the behavior in humans and animals. Our bachelor of arts program in psychology is broad, with an emphasis on technical skills and the opportunity to specialize in areas that interest you. Courses cover such topics as clinical and counseling, social psychology, personality, psychological development, cognition in humans and non-humans, neuroscience, sensory psychology and the history of psychology. Opportunities abound to gain research experience in a wide range of laboratories and/or to participate in clinically-oriented internships.

The program in neuroscience and behavior, shared between Liberal Arts and Life Sciences and Agriculture, focuses on the scientific study of the brain and its relationship to behavior. This Bachelor of Science program is structured around a rigorous core sequence of courses that incorporates an extensive laboratory experience, with the opportunity for specialization. Courses include such topics as endocrinology, genetics, neurology, animal behavior, neuroscience and philosophy, drugs, sensory systems, mood disorders and ecology. A large number of laboratories are available that routinely incorporate undergraduate students.

## Advising System

All students in the department will be assigned a professional advisor, either the department coordinator or the academic advisor. Academic advisors assist students in all phases of educational planning and decision making, including registration, long-range academic planning, degree and program requirements, and career selection and planning. Faculty advisors are available to consult with students about research and graduate school options.

## Undergraduate Awards for Majors

Each year the faculty chooses psychology undergraduates as the recipients of the following awards: the Herbert A. Carroll Award for an

outstanding senior in psychology, the George M. Haslerud Award for an outstanding junior in psychology, and the Fuller Foundation Scholarship for an outstanding junior in psychology with demonstrated interests in clinical psychology. Psychology majors with at least a 3.2 grade-point average are eligible for these awards. Faculty nominate students from the eligibility list and final selection of recipients is made by vote of the full-time psychology faculty.

## Honors Program in Psychology

The Department of Psychology sponsors an honors program for outstanding students in the major. Students may apply to the honors program in psychology in their sophomore or junior year.

### Eligibility criteria include

1. Overall grade-point average of 3.5 or above and 3.5 in major courses
2. Completion of PSYC 401 Introduction to Psychology, PSYC 402 Statistics in Psychology and PSYC 502 Research Methods in Psychology with a grade of B or above in each.

### Requirements of the program include

1. Designate three of the four 700-level psychology courses as honors or equivalent
2. PSYC 797 Senior Honors Tutorial (fall of senior year)
3. PSYC 799 Senior Honors Thesis (spring of senior year)

Students interested in applying to the honors program should contact the department coordinator by the end of their sophomore year.

## Undergraduate Research Conference

The Department of Psychology sponsors the annual George M. Haslerud Undergraduate Research Conference each spring. Undergraduate honors students present their theses at the conference. Contact the department coordinator for more information.

## Five-Year BA/MA Program

The five-year B.A./M.A. program in experimental psychology aims to

1. improve opportunities for excellent undergraduates to prepare for competitive Ph.D. programs or add an additional credential before entering a competitive job market; and
2. allow students interested in experimental psychology to advance and further specialize their psychology education in only one additional year at UNH.

The M.A./B.A. requires 30 credits. Twelve credits will count towards both the B.A. and M.A. degree. These three courses count as electives and do not go towards the undergraduate psychology major. Students must fulfill all programmatic requirements for the master's degree program, as well as fulfill all programmatic requirements for their bachelor's degree.

The first step toward applying to the program is to contact a faculty member whose research is in a topic that matches your interest in order to arrange support for your thesis or paper of publishable quality. Interested students must submit a full graduate application to the graduate school during their junior year.

For additional information, please contact Robin Scholefield at 603-862-2369 or at robin.scholefield@unh.edu.

## Psychology Major (B.A.)

<https://cola.unh.edu/psychology/program/ba/psychology-major>

## Description

The psychology major provides students with a broad education, while also allowing some specialization. The program exposes students to the scientific study of behavior and encourages an increased understanding of the behavior of humans and animals.

Students who wish to declare psychology as a major after enrolling in the University should consult with the department's academic counselor for application procedures and criteria.

## Requirements

Students majoring in psychology must complete 44 credits with a minimum grade of C- in each course and a 2.0 overall average in all major requirements.

Select two of the following courses from Group I:		8
PSYC 511	Sensation and Perception	
PSYC 512	Psychology of Primates	
PSYC 513	Cognitive Psychology	
PSYC 521	Behavior Analysis	
PSYC 522	Behaviorism (offered in Manchester only)	
PSYC 531	Psychobiology	
Select two of the following courses from Group II:		8
PSYC 552	Social Psychology	
PSYC 553	Personality	
PSYC 561	Abnormal Behavior	
PSYC 571	Pioneers of Psychology	
PSYC 581	Child Development	
<b>Depth (700-level) courses</b>		
Select two of the following courses from Group I:		8
PSYC 705	Tests and Measurement	
PSYC 710	Visual Perception	
PSYC 712	Psychology of Language	
PSYC 713	Psychology of Consciousness	
PSYC 716	Cognitive Neuroscience	
PSYC 720	Animal Cognition	
PSYC 722	Behaviorism, Culture, and Contemporary Society	

PSYC 731	Brain and Behavior
PSYC 733	Drugs and Behavior
PSYC 735	Neurobiology of Mood Disorders
PSYC 736	Attention Disorders
PSYC 737	Behavioral Medicine
PSYC 741W	Special Topics (examples: Fundamentals of Substance Abuse, Neuroscience of Memory)
Select two of the following courses from Group II:	
PSYC 705	Tests and Measurement
PSYC 755	Psychology and Law
PSYC 756	Psychology of Crime and Justice
PSYC 757	Psychology of Happiness
PSYC 758	Health Psychology
PSYC 762	Counseling
PSYC 780	Prenatal Development and Infancy
PSYC 783	Cognitive Development
PSYC 785	Social Development
PSYC 791	Special Topics (examples: Culture and Human Development, Race, Autobiographical Memory, Emotion & the Embodied Mind, Sport & Performance Psychology, Ecopsychology, Psychology of Delinquency)
or PSYC 791W	Special Topics
PSYC 793	Internship
<b>Total Credits</b>	<b>45</b>

Note: Most offerings have one or more prerequisite courses. Students (with the help of their adviser) are expected to select breadth courses that will later enable them to select depth courses appropriate to their interests and career goals.

The Discovery Program capstone requirement, taken during the senior year, may be fulfilled by completing one of the following options:

1. The honors-in-major program with an honors project; honors seminar, and research presentation (PSYC 799 Senior Honors Thesis);
2. a 4-credit capstone designated independent study project (PSYC 795 Independent Study);
3. PSYC 793 Internship;
4. Capstone-designated 700-level course.

The psychology department does not accept other departments' statistics courses toward the psychology major. Students who have taken a statistics course other than PSYC 402 Statistics in Psychology must pass a competency exam in order to declare the major and/or register for PSYC 402 Statistics in Psychology.

Major department courses may not be used to satisfy Discovery category requirements except for PSYC 402 Statistics in Psychology, which may be used to satisfy the QR Discovery requirement and the major requirement.

PSYC 401 Introduction to Psychology cannot be used to fulfill a Social Science; PSYC 571 Pioneers of Psychology cannot be used to fulfill a Historical Perspective. In the case that Psychology is a second major, major courses can be counted toward the Discovery requirements.

## Transfer Students

Transfer students who elect to major in psychology must complete at least 24 credits in the program at UNH to qualify for the degree in psychology. Transfer students must earn a total of 44 approved credits for completion of the psychology major. The distribution of these credits will be determined by the department's academic counselor. Transfer students should note that courses are allotted only the number of credits granted by the original institution (after adjustments for semester-hour equivalents). Thus, students transferring from an institution at which courses carry less than four credits each must make up for any credit deficit created by acceptance of transfer credits into the psychology major. Only courses taken in a psychology department can be transferred

into the psychology major. Of the four 700-level courses required for the major, at least three must be taken at UNH.

## Additional Notes

Specific course selections should be discussed with advisers. Exceptions to the requirements for the major require compelling circumstances and a petition to the department.

Psychology majors planning to go on to graduate study in psychology are advised to include PSYC 705 Tests and Measurement among their courses.

Candidates for a degree must satisfy all of the University Discovery Program requirements in addition to satisfying the requirements of each individual major program. Bachelor of arts candidates must also satisfy the foreign language proficiency requirement.

## Student Learning Outcomes

- Demonstrate fundamental knowledge and comprehension of the major concepts, theoretical perspectives, historical trends, and empirical findings in psychology.
- Understand basic research methods in psychology including design, data analysis, and interpretation; and utilize this knowledge to conduct their own psychological research, with an appreciation of the ethical issues involved in human and non-human research.
- Engage in scientific reasoning and problem solving so that they can evaluate the quality and implications of scientific research.
- Write empirical research reports and literature reviews in American Psychological Association style and present findings from scientific research.

## Psychology Minor

<https://cola.unh.edu/psychology/program/minor/psychology>

### Description

Psychology is the study of the mind and human and animal behavior – what motivates us to do the things that we do? In this program, you'll have the opportunity to learn scientific research and analysis methods while studying how we learn and develop, how we interact socially, how our minds affect the way we perceive things, and how we identify and define abnormal behavior.

### Requirements

Code	Title	Credits
PSYC 401	Introduction to Psychology	4
Two courses at the 500 level or higher		8
Two additional PSYC courses		8
<b>Total Credits</b>		<b>20</b>

- No more than 4 credits of PSYC 795 Independent Study may be applied to the minor.
- A maximum of 9 approved psychology transfer credits can be applied to the UNH psychology minor.

- Transfer courses must be evaluated for their equivalency. Only courses taken in a psychology department can be applied towards the minor.
- Three credit transfer courses can be applied as only three credits. Students must make up the credit deficit created by acceptance of transfer courses, with one exception: one three-credit course accepted in transfer may be applied for a total of 19 credits.
- AP Psychology transferred into UNH is equivalent as PSYC 401.

## Queer Studies

### Programs

- [Queer Studies Minor](#) (p. 130)

## Queer Studies Minor

<https://cola.unh.edu/womens-gender-studies/program/minor/queer-studies>

### Description

The queer studies minor provides students with opportunities to research and understand a rapidly growing field whose focus is the study of lesbian, gay, bisexual, trans and allied peoples, their histories and cultures. Queer studies is a method of inquiry that explores the role of same-sex desire and constructions of gender across and among cultures and histories. In these classes, students will consider sexualities and genders as identities and social statuses, as categories of knowledge, and as lenses that help to frame how we understand our world. The minor consists of interdisciplinary coursework in queer studies and is open to all students. Students who wish to pursue the queer studies minor should consult with [Holly Cashman](mailto:holly.cashman@unh.edu) ([holly.cashman@unh.edu](mailto:holly.cashman@unh.edu)).

### Requirements

The queer studies minor requires 5 courses (20 credits) from the queer studies course offerings list below. A grade of **C- or better** is required in all queer studies courses. One pre-approved elective from the electives list below may count toward the minor. Courses taken Pass/Fail may not be used for the minor. No more than 8 credits used to satisfy the requirements for a major may be used for the queer studies minor. If you wish to substitute a different course, consult with a queer studies faculty advisor.

## Queer Studies Course Offerings

Please note that additional courses may count. Please visit the program's website for the most up-to-date information.

Code	Title	Credits
ANTH 625	Sexuality in Cross-Cultural Perspectives	4
ANTH 685	Gender, Sexuality and HIV/AIDS in Sub-Saharan Africa	4
CMN 697	Seminar in Rhetorical Study	4

WS 798	Colloquium (Only topic Violence Against Women/Activism)	4

## Race and Ethnic Studies (RES)

### Programs

- [Race and Ethnic Studies Minor](#) (p. 130)

## Race and Ethnic Studies Minor

<https://cola.unh.edu/interdisciplinary-studies/program/minor/race-ethnic-studies>

### Description

The race and ethnic studies (RES) minor examines how racial and ethnic categories are created and maintained – politically, socially and culturally. RES uses critical, interdisciplinary and comparative approaches to study race relations as they intersect with factors including gender and sexuality, class, religion and immigration status. The minor prepares students for life and work in a world increasingly characterized by difference derived from racial and ethnic identities.

## Learning Outcomes

Facilitate understanding of how the social constructions of race affect the social fabric of our historical and contemporary world; enhance students' abilities to appreciate differences and to actively and critically engage in civic responsibilities, especially with respect to social justice; prepare students to negotiate an increasingly interconnected world and apply their education in a wide range of occupations; gain exposure to the theories and methods of ethnic studies; and compare representations

of borderlands, hybridity, migration and diaspora from different cultures to comprehend how national boundaries, as well as local, national, and transnational cultures and politics, affect the constitution of racial and ethnic categories.

Classes for the RES minor are housed in a variety of departments in the College of Liberal Arts, offering students a truly interdisciplinary experience. Please contact the [Global Racial and Social Inequality Lab \(GRSI.LAB@unh.edu\)](mailto:GRSI.LAB@unh.edu) for minor advising.

## Requirements

The race and ethnic studies minor consists of five courses or 20 credits. To complete a minor, students are required to:

1. Enroll in an introductory-level course. (These are listed on the minor website each semester.)
2. Enroll in at least one course at the 600/700-level.
3. Understand that no more than 8 credits used to satisfy the requirements for a major may be used for a minor.
4. Earn a C- or better in each course and maintain a 2.0 grade-point average in courses taken for the minor.

## List of Courses Approved for the Minor

Code	Title	Credits
ANTH 500	Peoples and Cultures of the World (when focus is Latin America, SubSaharan Africa or Middle East/North Africa)	4
ANTH 610	Medical Anthropology: Illness and Healing	4
ANTH #616	Religion, Culture, and Society	4
ANTH 625	Sexuality in Cross-Cultural Perspectives	4
ANTH 697/ENGL 693	Special Topics (American Roots Music)	4
ANTH 750	Islam and Gender: Gendered Lives of Muslims	4
CMN 515	Analysis of News	4
CMN 567	Gender, Race, and Class in the Media	4
CMN 696	Seminar in Media Studies (Topics in Film/Race, Class, Gender)	4
EDUC #717	Growing up Male in America	4
ENGL #517	Black Creative Expression	4
ENGL 550	Introduction to the Literature and Culture of Race	4
ENGL 581	Reading the Postcolonial Experience	4
ENGL 585	Introduction to Women in Literature	4
ENGL 595	Literary Topics (Intro/Caribbean Lit in English ONLINE)	4
ENGL 606	Languages of the World	4
ENGL 609	Ethnicity in America: The African American Experience in the 20th Century	4
ENGL 650	I Hear America Singing: Studying American Literature and Culture (Latino/A Literature, Comics & Graphic Narratives, Consumer Culture)	4
ENGL 714	Critical Skills (topic: On Race)	4
ENGL 739	American Indian Literature	4
ENGL 778/WS 798	Race and Gender in Film and Popular Culture	4
HIST 505	African American History	4
HIST #506	African American History	4
HIST 532	Modern Latin America	4
HIST 588	History of Modern Africa: 1870 to the Present	4
HIST 632	Latin American History: Topics	4
HUMA 730	Special Studies (Race Theory)	4
POLT 546	Wealth and Politics in Asia	4
POLT 565	United States Policy in Latin America	4
PSYC 571	Pioneers of Psychology	4
PSYC 791	Special Topics (Psychology and Race)	4
SPAN 526	Introduction to Latin American Cultures	4
SPAN 798	Topics in Hispanic Linguistics and Cultural Studies (Language & Id in Spanish)	4
SW 697	Special Topics in Social Welfare (Exploring Social Justice)	4
WS 401	Introduction to Women's Studies	4
WS 405	Gender, Power and Privilege	4
WS 444A	Race Matters	4
WS #444C	On the Roads to Equality	4

WS 444D	Cyborgs, Avatars, and Feminists: Gender in the Virtual World	4
WS 505	Survey in Women's Studies (Only topics: Leadership for Social Change, Queer Cinema, Queer Sustainability, Goba Sex Industry, Race, Gender and Enviromental Jutsice, Feminist Perspectives on Media)	4
WS 632	Feminist Thought	4
WS 798	Colloquium (Women in Prison)	4

## Additional Information

Courses taken pass/fail may not be used toward a minor. A relevant internship may be substituted for one of the electives.

After completing the 20-credit sequence, the student submits the Certification of Completion of Minor form, available online or from the RES coordinator. Once this certification is approved by the RES coordinator and major adviser, the form goes to the college dean and the registrar to be recorded on the transcript. The certification form must be completed by the beginning of the student's final semester at the University.

## Religious Studies

- [Religious Studies Minor](#) (p. 131)

## Religious Studies Minor

<https://cola.unh.edu/interdisciplinary-studies/program/minor/religious-studies>

## Description

The religious studies program at the University of New Hampshire currently offers an interdisciplinary minor, bringing together courses in several fields that address religion as a cross-cultural and experiential phenomenon. Topics include beliefs, rituals, texts and the meaning of life as explored in a variety of religious traditions. A religious studies major is available through the self-designed major program. For more information, consult the coordinator.

## Requirements

Code	Title	Credits
HIST 483	History of World Religions	4
HUMA/RS 505	Introduction to Religion	4
Select at least 3 additional courses from an approved semester list. See examples below.		12
<b>Total Credits</b>		<b>20</b>

## Examples of Approved Elective Courses

Code	Title	Credits
ANTH 640	Anthropology of Islam: Muslims' Everyday Lives in Contemporary Communities	4
ENGL 518W	Bible as Literature	4
HIST 585	Medieval Islam	4
HIST 642	Saints, Sinners, and Heretics: Europe in the Age of Religious Reform	4
HUMA 526	Humanities and Science (topic: Cognitive Science of Religion)	4
PHIL 417	God, Religion, and the Meaning of Life	4

Students especially interested in religious studies are encouraged to combine the minor with further pertinent coursework in one of the established departments contributing to the program: classics, humanities and Italian studies; history; philosophy; anthropology and English. The religious studies self-designed major includes the minor requirements of HUMA 505/RS 505 Introduction to Religion and HIST 483 as well as eight other relevant courses, which can include independent

studies. The program coordinator can aid in advising such a major program.

Courses ordinarily have some degree of focus on issues related to the academic study of religion, conceptualizing religion, or religious influences as a principal concern, asking comparative questions, and/or developing models of cross-cultural usefulness.

Interested students also should be alert for special topics courses in history (e.g. HIST 600 Explorations), English, anthropology (e.g. ANTH 500 Peoples and Cultures of the World), humanities, classics and other disciplines that might be relevant to the study of religion.

Students interested in the religious studies minor should see the coordinator to fill out an intent-to-minor form by the beginning of their junior year.

## Russian (RUSS)

The Russian program provides students with an opportunity to study one of the world's most important languages, its literature and its culture. In addition to the intrinsic value of Russian language, literature and culture as a liberal arts experience, the Russian major leads to a number of careers, such as teaching, translation and interpreting, government and the Foreign Service. It is also a valuable asset in preparing for careers in law, economics and international trade, and it can serve as a double major with business administration, international affairs, homeland security, the natural and physical sciences, and other liberal arts fields such as English, history, political science, sociology, philosophy, theatre, communication, linguistics and other foreign languages.

<https://cola.unh.edu/languages-literatures-cultures>

- [Russian Minor](#) (p. 133)

### Faculty

<https://cola.unh.edu/languages-literatures-cultures/faculty-staff-directory>

## Russian Major (B.A.)

<https://cola.unh.edu/languages-literatures-cultures/program/ba/russian-major>

### Description

The Russian program provides students with an opportunity to study one of the world's most important languages, its literature and its culture. In addition to the intrinsic value of Russian language, literature and culture as a liberal arts experience, majoring in Russian leads to a number of careers, such as teaching, translation and interpreting, government and the Foreign Service. The knowledge of the language and cultural proficiency is also a valuable asset in preparing you for careers in law, economics and international trade. All Russian majors are strongly encouraged to double major or include a relevant minor in their studies.

If you would like more information please contact [LLC.Dept@unh.edu](mailto:LLC.Dept@unh.edu).

## Requirements

New students will be assigned to the proper language level course after consultation with the Russian faculty.

All students must complete at least 10 classes (40 credits). The required minimum overall GPA in major coursework is 2.0. Specific course requirements are:

Code	Title	Credits
<b>Language Courses <sup>1</sup></b>		
Students entering major at a higher language level will replace the language courses with additional electives		
RUSS 401	Elementary Russian I	
RUSS 402	Elementary Russian II	
RUSS 503	Intermediate Russian I	
RUSS 504	Intermediate Russian II	
RUSS 631	Advanced Russian Conversation and Composition	
RUSS 632	Advanced Russian Conversation and Composition	
<b>Electives <sup>2</sup></b>		
Select a minimum of three courses from the following Culture, Linguistics, and Literature category:		
RUSS #425M	Topics in Russian Culture and Society in Moscow	
RUSS 521W	Devils, Deities, and Madness in Russian Literature	
RUSS 525	Russia: Mythology and Propaganda	
RUSS #525M	Russia: Mythology and Propaganda in Moscow	
RUSS #685	Study Abroad	
RUSS 691W	Readings in Russian Literature	
RUSS #725M	Topics in Russian Culture and Society in Moscow	
RUSS 733	History of Slavic Languages and Culture	
RUSS 790W	Advanced Language and Style	
RUSS 797	Special Studies in Russian Language, Literature, and Culture	
RUSS #798	Special Studies in Russian Language, Literature, and Culture	
LLC 540	Film History	
LLC #551	Comparative Literature: Masterpieces of World Literature I	
LLC 552	Comparative Literature: Masterpieces of World Literature II	
LLC 595	Language Practicum	
LLC 791	Methods of Foreign Language Teaching	
<b>Capstone <sup>3</sup></b>		
LLC 790	World Languages Capstone	
<b>Study Abroad</b>		
Study abroad is a requirement for the Russian major, although an approved equivalent high-impact experience may be substituted for study abroad with a compelling justification.		

<sup>1</sup> While the major may start counting as early as the Elementary I level (RUSS 401), those who enter the major at a higher level (RUSS 503, RUSS 504, RUSS 631, or RUSS 632) will replace the courses they skip from the elementary, intermediate and advanced language category with additional courses from the electives category.

<sup>2</sup> More electives required if fewer language credits were completed due to proficiency level and placement.

Students are encouraged to take as many of the culture, linguistics, and literature elective in the Russian language as possible, but there is no limit on the number of classes conducted in English from the electives category. Students taking no classes in the target language in a given semester will be strongly encouraged to enroll in one credit of conversation hour to maintain their language skills, and many of the courses taught in English will allow students the option to (or even require students to) do some work in the target language.

<sup>3</sup> Or approved equivalent 700-level course taken at UNH, approved study abroad equivalent, or approved high-impact experience (such as internship with a robust target language/culture component).

Candidates for a degree must satisfy all of the University Discovery Program requirements in addition to satisfying the requirements of each individual major program. Bachelor of arts candidates must also satisfy the foreign language proficiency requirement.

Russian majors may use two major-required courses to satisfy two Discovery category requirements. In addition, Russian majors may take RUSS 521W Devils, Deities, and Madness in Russian Literature to satisfy both a Discovery Inquiry requirement and a major requirement.

Transfer students must earn a minimum of 12 major credits at the Durham campus.

## Student Learning Outcomes

- Upon completion of a Russian major, students are able to express themselves orally and in writing on a variety of topics with accuracy, and they are able to support their opinions with evidence found in the media and scholarly reading. Students are able to articulate their ideas and defend their opinions.
- Throughout the language sequence students are expected to give oral presentations on a variety of topics, related to their interest, second major or minor.
- Students have spent at least 8 weeks-semester/year in Russia on a study abroad program, which strengthens their language skills, improves their proficiency, both in language and culturally, and which allows them to interact with native speakers. The major includes at least two courses on Russian literature (one in English and one in Russian), and students are familiar with the works of major Russian authors (i.e. Pushkin, Lermontov, Turgenev, Gogol, Dostoevsky, Tolstoy, Chekhov, Pasternak, Solzhenitsyn, Zoshchenko, Bulgakov, among others.) Students are able to understand the texts in the historical and literary movements of Russia, as well as analyze the works in and of themselves. Students study the cultural history of Russia/Soviet Union/Russia to understand the Russian perspective of itself and the world.

## Russian Minor

<https://cola.unh.edu/languages-literatures-cultures/program/minor/russian>

### Description

The Russian program provides students the opportunity to minor in Russian. The minor consists of 20 credits (beginning with Russian 503 Intermediate Russian I) where students develop language proficiency, a solid knowledge of grammar and pronunciation, and knowledge of Russian culture. Students with a Russian minor will have a sufficient command of the language to enhance their chosen field of study, and will have countless career opportunities, such as the public, private and nonprofit sectors, including government, education, journalism, law, communications, and business.

Students in the Russian minor program at UNH are strongly encouraged to study on the UNH Study Abroad Program in Russia. Students can earn credits toward the Russian minor as well as complete two Discovery categories on the program. Foreign language skills and cultural competencies will open doors for students that would not have been opened without the minor in Russian.

## Requirements

The minor in Russian consists of 20 credits in Russian courses above RUSS 402 Elementary Russian II; it must include:

Code	Title	Credits
RUSS 503 & RUSS 504	Intermediate Russian I and Intermediate Russian II	8
Select at least one of the following:		4
RUSS 631	Advanced Russian Conversation and Composition	
RUSS 632	Advanced Russian Conversation and Composition	
RUSS 691W	Readings in Russian Literature	
RUSS 790W	Advanced Language and Style	
Select two elective RUSS courses above RUSS 402		8
<b>Total Credits</b>		<b>20</b>

Students wishing to minor are expected to meet with a faculty member from the Russian program to discuss their course of study.

At the beginning of your final semester of study, you should fill out a [certification of completion of minor](#) form, obtain the necessary signatures, and submit it to your Dean's Office.

## Security Studies

### Programs

- [Security Studies Minor](#) (p. 133)

## Security Studies Minor

<https://cola.unh.edu/political-science/program/minor/security-studies>

### Description

The security studies minor will provide students with the opportunity to explore the many dimensions of security through the interdisciplinary study of political science, anthropology, communication, geography, history, humanities, justice studies, sociology, women's and gender studies, economics and aerospace studies. This well-rounded curriculum will enable students to build upon their interest in political science by specializing in an area of increasing importance — domestic and global security.

The field of security studies has always been important within the discipline of political science, but the concept of security has broadened and become more problematized in recent years. Following the terrorist attacks of 9/11, federal, state and local governments created thousands of jobs that require knowledge of security issues and the ability to conduct research. Leaders at all levels count on staff with analytical skills to design and conduct research to support decision-making, and communicate the results of this research effectively to policy-makers. Individuals who understand the national security environment and have the ability to design and conduct research are in critical demand in the public sector, private sector and not-for-profit entities.

For more information, contact [Madhavi Devasher](#) ([madhavi.devasher@unh.edu](mailto:madhavi.devasher@unh.edu)), 603-862-8020.

## Requirements

1. Five courses (20 credits)
2. Students must receive a grade of C or better for a course to count toward the minor requirements.
3. No more than 8 credits may double count between majors and minors. Thus, political science majors pursuing the security studies minor can only double count up to two of the three required political science courses below. The third required course must be taken in addition to courses taken to fulfill major requirements.

Code	Title	Credits
<b>Required Courses</b>		
Select one core POLT course of the following:		4
POLT 560	World Politics	
POLT 562	Strategy and National Security Policy	
POLT 568	International Security

POLT 797E	Seminar in International Politics	
<b>Electives</b>		
Select two electives from other disciplines (at least one must be in a humanities department or program)		8
<b>Total Credits</b>		20

<sup>1</sup> If not counted for core requirement.

### Electives within humanities departments and programs:

Code	Title	Credits
HIST 537	Espionage and History	4
HIST 619	Foreign Relations of the United States	4
HIST 620	Foreign Relations of the United States	4
HUMA 525	Humanities and the Law	4
PHIL #635	Advanced Topics in Philosophy of Law and Justice	4

### Electives outside humanities departments and programs:

Code	Title	Credits
CMN 456	Propaganda and Persuasion	4
JUST 405	Technology, Crime, and Society: A Forensic Exploration of High-Tech and Digital Crime	4
PSYC 756	Psychology of Crime and Justice	4
SOC 450	Contemporary Social Problems	4
SOC 515	Introductory Criminology	4
SOC #656	Terrorism	4
SOC 693	Global Social Change	4
Other POLT courses can be approved by the core faculty upon request.		

Once students have declared the minor, they are required to meet with the coordinator or appropriate affiliated faculty adviser at least once per semester for regular review and assessment of their program, learning outcomes, and progress toward the degree.

Transfer credits may be approved by the coordinator to count toward the minor. If the transfer credit is accepted by the University and fits within the scope of the minor, it will be considered.

## Sociology (SOC)

Sociology is the study of social life, social change, and the social causes and consequences of human behavior. Sociologists investigate the structure of groups, organizations and societies, and how people interact within these contexts.

Since human behavior is shaped by social factors, the subject matter of sociology ranges from the intimate family to the hostile mob; from organized crime to religious cults; from the divisions of race, gender and social class to the shared beliefs of a common culture.

## Sociology Major (B.A.)

<https://cola.unh.edu/sociology/program/ba/sociology>

## Description

Majoring in sociology provides a solid, multifaceted foundation in the liberal arts, including analytical thinking and writing, and skills in collecting and analyzing data. Students learn diverse theoretical approaches to the social world and acquire tools for conducting and understanding social science research. The wide range of substantive areas taught in the UNH Department of Sociology include courses concentrating on family and work; environmental sociology; social policy; inequalities of race, class and gender; criminology, social control and deviant behavior; medical sociology and mental health; and religion.

Undergraduate training in sociology is an excellent background for a variety of careers, including the business world, where majors might work

in marketing and sales or human resources; government and nonprofit services, where majors might work in education, health services, social welfare or criminal justice; and research. An undergraduate degree in sociology is also excellent preparation for graduate work in law, social work, criminal justice, counseling, public administration, public health, business administration, urban planning or further studies in sociology.

Students may declare a major in sociology in Webcat. New students who declare the major should enroll in SOC 400 Introductory Sociology during the next semester.

Conjoint minors (allowing double-counting of one or two courses) are available for justice studies; gerontology; American studies; race and ethnic studies; women's and gender studies; and other approved minors. Students also have the opportunity to pursue a second major, including justice studies. Students interested in social work or teaching can develop programs in conjunction with the appropriate departments. The departmental honors program is recommended for students with cumulative grade-point averages over 3.4, and especially for those anticipating graduate study.

## Requirements

Majors must complete a minimum of 40 semester credits in sociology courses with grades of C- or better in each course as well as maintain an overall GPA of 2.0 or better in all sociology courses.

Code	Title	Credits
<b>Required Core Courses</b>		
SOC 400	Introductory Sociology	4
SOC 402	Statistics	4
SOC 599	Sociological Analysis <sup>1</sup>	4
SOC 601	Methods of Social Research <sup>2</sup>	4
<b>Electives</b>		<b>20</b>

Select five sociology elective courses, at least two of which must be at the 600 or 700 level (upper-level electives).

SOC #440A	Honors/Drug Addiction in American Society
SOC 444A	Honors/Society in the Arctic
SOC 450	Contemporary Social Problems
SOC 515	Introductory Criminology
SOC 520	Family
SOC 525	Juvenile Crime and Delinquency
SOC 530	Race and Racism
SOC 535	Homicide
SOC 565	Environment and Society
SOC 570	Sexual Behavior
SOC 595	Independent Reading and Research
SOC 597	Special Topics
SOC 620	Drugs and Society
SOC 625	Mental Health and Society
SOC #640	Religion
SOC 645	Class, Status and Power
SOC 647	Sociology of Work and Well-Being
SOC #655	Sociology of Law and Justice
SOC #656	Terrorism
SOC 660	Urban Sociology
SOC 665	Environmental Sociology
SOC #656	Terrorism
SOC 693	Global Social Change
SOC 697	Special Topics
SOC #715	Criminological Theory
SOC 720	Sociology of Drug Use
SOC 725	Social Demography
SOC 730	Communities and the Environment
SOC 740	Sociology of Mental Health
SOC 745	Race, Ethnicity, and Inequality

SOC 773	Childhood and Social Policy
SOC 788	Advanced Medical Sociology
SOC 792	Internship Independent Study
SOC 797	Special Topics
SOC 799	Senior Thesis
Capstone Requirement	
SOC 611	Sociological Theory <sup>3</sup>
Total Credits	

<sup>1</sup> SOC 599 Sociological Analysis must be completed no later than the junior year and is a prerequisite for majors taking 600- and 700-level courses.

<sup>2</sup> SOC 402 Statistics is a prerequisite for SOC 601 Methods of Social Research.

<sup>3</sup> Complete SOC 611 Sociological Theory during senior year.

SOC 595 Independent Reading and Research can be used to fulfill one lower-level elective or SOC 799 Senior Thesis can be used to fulfill one upper-level elective. Sociology majors may use two major-required courses to satisfy two Discovery category requirements. In addition, SOC 599 Sociological Analysis can be used to satisfy both a major requirement and the Inquiry Discovery requirement. (Statistics courses taken in other disciplines are not acceptable as a substitute for SOC 402 Statistics.)

Candidates for a degree must satisfy all of the University Discovery Program requirements in addition to satisfying the requirements of each individual major program. B.A. candidates must also satisfy the foreign language proficiency requirement.

Students interested in majoring in sociology should consult with the director of undergraduate program in the sociology department for guidance. It is the responsibility of all sociology majors to obtain the latest information from the department office.

## Sociology Language Requirement

The bachelor of arts degree at the University of New Hampshire requires that students satisfy the foreign language proficiency requirement. The requirement may be met by demonstrating language proficiency equal to a one-year college-level course (401 and 402, 403 and 503, 501 [Latin only], or 503 and above in a spoken language). American Sign Language courses meet the foreign language proficiency requirement for sociology majors when ASL I and ASL II have been completed.

## Student Learning Outcomes

- Outcome 1: Students will learn to articulate and evaluate how individual biographies are shaped by social structures, social institutions, cultural norms, and multiple of dimensions of social stratification and inequality. (Sociological imagination)
- Outcome 2: Students will learn to analyze and evaluate multiple and competing arguments about high-profile social, political, and cultural current events; distinguish between evidence and opinions; and use reason and data to advance an argument. (Critical thinking)
- Outcome 3: Students will learn to use, evaluate, and apply classical and contemporary theoretical perspectives to historical and contemporary events. (Sociological theory)
- Outcome 4: Students will learn how to generate and interpret qualitative and quantitative data in a value-neutral way. (Data analysis)

- Outcome 5: Students will learn how to interpret and evaluate several of the major social science research methodologies, as well as the relationship between research questions and appropriate methods. (Research methods)
- Outcome 6: Students will learn to effectively communicate a sociological perspective both in writing and verbally. (Communication skills)
- Outcome 7: Students will learn to understand how people of different cultural, racial, ethnic, sex, gender, religious, and political identities interpret the world around them. (Diversity, Equity, and Inclusion)
- Outcome 8: Students will learn to work effectively and respectfully with people of different backgrounds, experiences, and perspectives. (Collaboration)

## Sociology Minor

<https://cola.unh.edu/sociology/program/minor/sociology>

### Description

Minor in sociology provides a foundation in analytical thinking and writing, and skills in collecting and analyzing data. Students learn diverse theoretical approaches to the social world and acquire tools for conducting and understanding social science research. Course topics include family and work; environmental sociology; social policy; inequalities of race, class and gender; criminology, social control and deviant behavior; medical sociology and mental health; and religion.

Undergraduate training in sociology is an excellent background for a variety of careers, including the business world, working in marketing and sales or human resources; government and nonprofit services, working in education, health services, social welfare or criminal justice; and research. A minor in sociology is also excellent preparation for graduate work in law, social work, criminal justice, counseling, public administration, public health, business administration, urban planning and other fields.

### Requirements

A minor consists of any five 4-credit courses in sociology with a C- or better in each course and a grade-point average of 2.0 or better in these courses.

Code	Title	Credits
Select five elective courses from the following:		
SOC 400	Introductory Sociology	4
SOC 402	Statistics	4
SOC #402H	Honors/Statistics	4
SOC #440A	Honors/Drug Addiction in American Society	4
SOC 444A	Honors/Society in the Arctic	4
SOC 450	Contemporary Social Problems	4
SOC 515	Introductory Criminology	4
SOC 520	Family	4
SOC 525	Juvenile Crime and Delinquency	4
SOC 530	Race and Racism	4
SOC 535	Homicide	4
SOC 565	Environment and Society	4
SOC 570	Sexual Behavior	4
SOC 595	Independent Reading and Research	2-8
SOC 597	Special Topics	4
SOC 599	Sociological Analysis	4
SOC 601	Methods of Social Research	4

SOC 611	Sociological Theory	4
SOC 620	Drugs and Society	4
SOC 625	Mental Health and Society	4
SOC 635W	Medical Sociology	4
SOC #640	Religion	4
SOC 645	Class, Status and Power	4
SOC 647	Sociology of Work and Well-Being	4
SOC #655	Sociology of Law and Justice	4
SOC #656	Terrorism	4
SOC 665	Environmental Sociology	4
SOC 693	Global Social Change	4
SOC 697	Special Topics	4
SOC #715	Criminological Theory	4
SOC 720	Sociology of Drug Use	4
SOC 725	Social Demography	4
SOC 730	Communities and the Environment	4
SOC 740	Sociology of Mental Health	4
SOC 745	Race, Ethnicity, and Inequality	4
SOC 773	Childhood and Social Policy	4
SOC 788	Advanced Medical Sociology	4
SOC 792	Internship Independent Study	2-8
SOC 797	Special Topics	4
SOC 799	Senior Thesis	4 or 8
SOC 799H	Senior Honors Thesis	4 or 8

## Medical Sociology Cognate

<https://cola.unh.edu/sociology/program/cognate/medical-sociology>

### Description

The medical sociology cognate provides students with an understanding of how social structure shapes the etiology of health and illness as well as the availability, effectiveness and choices around health care on micro and macro levels. It develops students' sociological imagination, fosters their application of a sociological perspective to the study of health, and allows them to gain the skills needed to be informed consumers of empirical health research. The focus on empirical literacy that is central to courses in sociology facilitates students' ability to communicate and apply research findings in their respective professional fields.

Although the sociological perspective will benefit students from all backgrounds, a cognate in medical sociology may be especially relevant for students majoring in biomedical science, neuroscience and behavior, psychology, gerontology, health and physical education, nursing, health policy and administration, business, human development and others.

### Requirements

- Any three courses in medical/health focused sociology courses (12 credits) with a grade of C- or better
- Submission of a completed "Certification of Completion of Cognate" form
- Courses taken pass/fail may NOT be used for the cognate.
- Sociology majors may count cognate classes as major electives.

Code	Title	Credits
Select three courses from the following:		
SOC #440A	Honors/Drug Addiction in American Society	4
SOC 570	Sexual Behavior	4
SOC 597	Special Topics (Topic: Death & Dying in America)	4
SOC 620	Drugs and Society	4

SOC 625	Mental Health and Society	4
SOC 635W	Medical Sociology	4
SOC 697	Special Topics (Topic: Work and Well-Being)	4
SOC 720	Sociology of Drug Use	4
SOC 740	Sociology of Mental Health	4
SOC 788	Advanced Medical Sociology	4
SOC 797	Special Topics (Topics: Global Health, Social Dimensions of COVID-19)	4
Total Credits		12

## Spanish (SPAN)

The Spanish program major and minor in the Department of Languages, Literatures and Cultures helps students develop Spanish language proficiency and enhanced knowledge of the cultural and literary achievements of Hispanic societies around the globe. This dual emphasis on communication and cultural analysis prepares students to live in communities where Spanish is increasingly important professionally and personally.

Students also have the option to complete honors in the major providing they complete the necessary classes and a senior thesis in Spanish.

The UNH study abroad program in Granada, Spain, open to majors and nonmajors, offers students the opportunity to live and study abroad for a spring semester. A six-week summer immersion program in Costa Rica also is available to students. Financial aid is available for eligible students. Visit [cola.unh.edu/granada](https://cola.unh.edu/granada), [cola.unh.edu/costa-rica](https://cola.unh.edu/costa-rica), or contact the departmental program directors for further information.

## Accelerated B.A./M.A. Program

The dual-degree B.A./M.A. program in Spanish in the Department of Languages, Literatures and Cultures offers high-achieving students the opportunity to earn both an undergraduate and a graduate degree during their time at UNH. Qualified students may be accepted into the program late in the first semester of their junior year and begin to take graduate courses in the spring of their senior year. Students graduate with a B.A. upon completion of 128 credits (including all University, College and Program requirements), and then complete graduate work (30 credits) the following year. After only five years of study, students earn both degrees.

- [Spanish Minor](#) (p. 138)

## Faculty

<https://cola.unh.edu/languages-literatures-cultures/faculty-staff-directory>

## Spanish Major (B.A.)

<https://cola.unh.edu/languages-literatures-cultures/program/ba/spanish-major>

## Description

When you major in Spanish you are opening your opportunities to a variety of fields in which proficiency in the Spanish language

and knowledge of Hispanic cultures are desirable or required. Such fields might include international relations, business administration, government, social service and communications. In addition, students can prepare to teach Spanish at the elementary and secondary level and in bilingual education programs through UNH's MAT in Secondary Education with a certification in World Languages. The undergraduate major also provides a basis for graduate study in preparation for scholarly research and teaching at the college level. When combined with coursework or a dual major in other disciplines, the major prepares students for work in Spanish-speaking areas of the world as well as in bilingual regions of the United States.

## Requirements

All students must complete at least 10 classes (40 credits). All coursework required for the Spanish major must be completed with a grade of C or better. Specific course requirements are:

Code	Title	Credits
<b>Language Courses <sup>1</sup></b>		
Students entering major at a higher language level will replace the language courses with additional electives		
SPAN 503	Intermediate Spanish I	
SPAN 504	Intermediate Spanish II	
SPAN 631	Advanced Conversation and Composition I	
SPAN 632	Advanced Conversation and Composition II	
<b>Electives <sup>2</sup></b>		
Select a minimum of five courses from the following Culture, Linguistics, and Literature category		
SPAN 525	Introduction to Spanish Cultures	
SPAN 526	Introduction to Latin American Cultures	
SPAN 535B	Professional Culture in Latin America - Case Study: Mexico and Brazil	
SPAN 641	Spanish Language Variation & Change	
SPAN 645	Intro to Spanish Linguistics	
SPAN 647	Topics in Hispanic Cultural Studies	
SPAN 648	The Hispanic World Today	
SPAN 650	Hispanic Literature and Popular Culture	
SPAN 651	Introduction to Spanish Literature and Thought	
SPAN #652	Introduction to Spanish Literature and Thought	
SPAN 653	Introduction to Latin American Literature and Thought	
SPAN 654	Introduction to Latin American Literature and Thought	
SPAN 790	Topics in Second Language Acquisition/Pedagogy/Methodology	
SPAN 797	Topics in Hispanic Literary and Cultural Studies	
SPAN 798	Topics in Hispanic Linguistics and Cultural Studies	
SPAN 799	Senior Honors	
LLC 535B	Professional Culture in Latin America - Case Study: Mexico and Brazil	
LLC 444H	Honors/Human Rights and the Disappeared in Latin American Culture	
LLC 540	Film History	
LLC #551	Comparative Literature: Masterpieces of World Literature I	
LLC 552	Comparative Literature: Masterpieces of World Literature II	
LLC 555	Discover Cuba: An Arts Experience	
LLC 791	Methods of Foreign Language Teaching	
<b>Capstone <sup>3</sup></b>		
LLC 790	World Languages Capstone	
<b>Study Abroad</b>		

An approved foreign study experience in a Spanish-speaking country is required, although an approved equivalent high-impact experience may be substituted for study abroad with a compelling justification

- <sup>1</sup> While the major may start counting as early as the Intermediate I level (SPAN 503), those who enter the major at a higher level (SPAN 504, SPAN 631, or SPAN 632) will replace the courses they skip from the four in the intermediate and advanced language category with additional electives in the Culture, Linguistics, and Literature category.
- <sup>2</sup> More electives required if fewer language credits were completed due to proficiency level and placement.  
No limit on the number of classes in English allowed. Students taking no classes in the target language in a given semester will be strongly

encouraged to enroll in one credit of conversation hour to maintain their language skills, and many of the courses taught in English will allow students the option to (or even require students to) do some work in the target language.

- <sup>3</sup> Or approved equivalent 700-level course taken at UNH, approved study abroad equivalent, or approved high-impact experience (such as internship with a robust target language/culture component).

Please note that the required minimum overall GPA for study abroad and the Spanish major coursework is 2.0.

Candidates for a degree must satisfy all of the University Discovery Program requirements in addition to satisfying the requirements of each individual major program. Bachelor of arts candidates must also satisfy the foreign language proficiency requirement.

Spanish majors may use two major-required courses to satisfy two Discovery category requirements.

## Student Learning Outcomes

**Linguistic proficiency** Students can demonstrate an Advanced level of proficiency (as defined in ACTFL Proficiency Guidelines) in the target language in speaking, writing, listening and reading.

- **Speaking:** students are able to handle a variety of communicative tasks. They are able to participate in most informal and formal conversations on topics related to school, home, academic, and other activities. They can also speak about topics related to employment, current events, and matters of public and community interest.
- **Writing:** students are able to meet work and/or academic writing needs. They demonstrate the ability to narrate, describe and express viewpoints about topics in major time frames with control of aspect.
- **Listening and Reading:** students are able to understand conventional narrative and descriptive texts (spoken and/or written). They can understand the main facts, tone and style, and supporting details.
- **Comprehension:** students may often develop understanding primarily from their particular situational and subject-matter knowledge(course materials, contextual knowledges, and study abroad experiences), but each student should be able to extend and expand their comprehension to most areas of specialized and non-specialized materials, especially as that directly relates to any of the student's other major and minor academic subjects of study.

**Intercultural and transcultural competence** Students will demonstrate knowledge and understanding of other cultures, and are able to think critically about and are able to recognize and accept culturally differences, and the uniqueness of other cultures and peoples. By the time they graduate from our program, they will be able to:

- Recognize and describe the historical, social, economic, and political forces that shape society in the various target cultures that they have directly studied (taking into account that they cannot be familiar with all the particular specificities of the 23+ nations of the Spanish-Speaking world).
- Analyze and critique the cultural and social products of the target culture(s)(film, literature, art, popular culture, media, etc.) within their context, including conducting basic research projects.
- On a broader level, each student should be able to begin to question the validity of their own cultural beliefs, behaviors and norms, by

contrasting and comparing them with those of the target culture (cross-cultural sensitivity and respect).

- Students should be able to perceive and value cultural diversity and reinterpret the place of the self as an individual culturally situated within the global context of the twenty-first century.

## Spanish Minor

<https://cola.unh.edu/languages-literatures-cultures/program/minor/spanish>

### Description

When you minor in Spanish you are expanding upon opportunities and opening doors to careers in your field of interest. Many other disciplines such as social service, nursing, teaching and business require Spanish as a second language since Spanish is the second most spoken language in the United States. Increasingly, employers in government at municipal, state and federal levels and business as well as related careers, are viewing such experience and language skills favorably.

### Requirements

At least three courses must be taken in residence at UNH. All coursework required for the Spanish minor must be completed with a grade of C or better and may not be taken pass/fail.

Code	Title	Credits
5 courses (20 credits) in SPAN 503 or above, which must include:		20
SPAN 631	Advanced Conversation and Composition I	
SPAN 632	Advanced Conversation and Composition II	
<b>Total Credits</b>		<b>20</b>

## Theatre and Dance (THDA)

There is no area of human endeavor that theatre does not touch. To study theatre is to learn a great deal about yourself and about the world in which you will live. No course of study will prepare you better for life in a rapidly changing world.

The award-winning faculty at the University of New Hampshire provide theatre and dance majors with superlative training within a broad liberal arts context. Students may take courses in acting; voice and movement; dialects; directing; choreography; design and theatre technology; the history, theory and criticism of drama and theatre; youth drama; secondary theatre education; playwriting; storytelling; puppetry; ballet; theatre dance (jazz and tap); aerial dance; and musical theatre. Students interested in performance, technical and historical aspects are trained to step into professional careers while still broadening the scope of their preparation through a rich liberal arts education. The program encourages students to explore their interests through independent studies and internships, special projects and active personal involvement in lecture and laboratory classes, with the possibility for integration with other departments. To assist with financial needs, the department awards scholarships to selected majors each spring.

The Department of Theatre and Dance offers over 25 performance opportunities every year in either musicals, plays or dance concerts. In addition to performing, students are given the opportunity to direct, stage manage, design, choreograph or write scripts for the work done in our department. We offer jazz, tap and ballet studies. In addition, UNH

was the first university to add Aerial Dance to course offerings. Students study with faculty who have worked locally, nationally and internationally.

In addition to comprehensive liberal arts preparation, six specific course sequences are available within the theatre major:

1. courses leading to a theatre major with an option in acting & directing;
2. courses leading to a theatre major with an option in dance: ballet, theatre dance (tap and jazz) and aerial dance. Students also have the option of pursuing dance education leading to K-12 dance teacher certification. You may achieve dance licensure in two different ways. You may pursue dance education/licensure through the undergraduate program. This leaves no room for double majors or minors. If you want to broaden your undergraduate education and need more space for classes outside of THDA, you may pursue the five-year program, beginning preparation for teaching at the undergraduate level and then pursuing a graduate degree to get dance certification. Students complete a baccalaureate degree in theatre with a dance option and move into a fifth year of study with a full-year internship, leading to either the Masters in Education (M.Ed.) or a Master of Arts in Teaching (M.A.T.) degree and licensure for teaching;
3. courses leading to a theatre major with an option in design & theatre technology;
4. courses leading to a theatre major with an option in musical theatre;
5. courses leading to a theatre major that, if desired, may be combined with requirements of the Department of Education to pursue a K-12 teacher's license. You may achieve theatre licensure in two different ways. You may pursue secondary theatre education/licensure through the undergraduate program. This leaves no room for double majors or minors. If you want to broaden your undergraduate education and need more space for classes outside of THDA, you may pursue the five-year program, beginning preparation for teaching at the undergraduate level and then pursuing a graduate degree to get theatre arts certification. Students complete a baccalaureate degree in theatre with a secondary theatre education option and move into a fifth year of study with a full-year internship, leading to either the Masters in Education (M.Ed.) or a Master of Arts in Teaching (M.A.T.) degree and licensure for teaching;
6. courses leading to a theatre major that, if desired, may be combined with requirements of the Department of Education, in conjunction with a fifth year master of education (M.Ed.) program, to prepare students for elementary school certification with an undergraduate option in youth drama.

Auditions are required for the acting, dance and musical theatre options. Interviews are strongly encouraged for all other areas. The audition session will last approximately three hours. In addition to the audition, students will take part in group acting exercises, do a dance call and have an opportunity to ask questions during a comprehensive department overview. Please note that entrance into Department of Theatre and Dance options is contingent upon acceptance into the University of New Hampshire. Prospective students who live more than 250 miles away may contact the department to discuss other audition options. Audition dates, as well as detailed entrance requirements, can be found at the Department of Theatre and Dance website.

## Minoring in Theatre and Dance

A minor acknowledges a level of competence and academic focus without the depth a major requires. Students may pursue a minor while

majoring in another subject when the demands of that major prevent the possibility of a double major.

## Faculty

<https://cola.unh.edu/theatre-dance/faculty-staff-directory>

## Theatre Major (B.A.)

<https://cola.unh.edu/theatre-dance/program/ba/theatre-major>

## Description

The comprehensive theatre major provides a well-rounded course of study which encourages inquisitive students who have a wide range of theatre/dance interests to tailor a program that will challenge but also broaden their intellectual horizons. Its lower required credit load also makes it ideally suited to students who want to combine their theatre studies with another major, such as business administration, international studies or social work. Contact [Raina Ames](mailto:raina.ames@unh.edu) ([raina.ames@unh.edu](mailto:raina.ames@unh.edu)), Paul Creative Arts Center, (603) 862-3044.

## Requirements

In the freshman and sophomore years, students should enroll for at least two major and two Discovery courses per semester. The minimum grade requirement for major courses is C- per course. Any grade lower than C- will not count toward the major. Under department policy, students who complete both COMM 401 American Sign Language I and COMM 502 American Sign Language II satisfy the bachelor of arts language proficiency requirement. All majors must take courses in the following areas: performance, design/theatre technology and theory/history as well as fulfill between four and eight practicums and complete a capstone course. Although timing will vary with each option, it is strongly suggested that all introductory courses be taken prior to the end of the student's sophomore year. Students must also complete a digital

portfolio that demonstrates fulfillment of student learning outcomes related to their area of study.

The required minimum overall GPA in major coursework is 2.0.

Candidates for a degree must satisfy all of the University Discovery Program requirements in addition to satisfying the requirements of each individual major program. Bachelor of arts candidates must also satisfy the foreign language proficiency requirement.

Theatre department majors may use one major-required course to satisfy one Discovery category requirement.

All UNH B.A. degrees require a minimum of 128 credit hours.

Elective 600-799 Level Courses <sup>2</sup>	8
Total Credits	46-50

- <sup>1</sup> The practicum ensures a breadth of experience in the major, including sets, costumes, lighting, props, box office, marketing, and performing. Students must register for practicum every semester. They are notified of their practicum assignment at the beginning of each semester.

<sup>2</sup> Includes those in Sections II, III, and IV

## Student Learning Outcomes

**Core Student Learning Outcomes for the Bachelor of Arts in Theatre major:** On completion of the B.A. in Theatre, students will:

- Recognize and distinguish between various styles and forms of theatre or dance that have shaped the evolution of these disciplines.
- Effectively communicate artistic ideas and/or critical analysis of theatre or dance works through appropriate oral, written or practical means.
- Demonstrate knowledge and fundamental skill level of the basic areas of theatre or dance production in areas related to performance, design, technology or management.
- Create and demonstrate informed and personal artistic choices in coursework and productions (i.e., design, dance, directing, acting).

## Theatre Major: Acting and Directing Option (B.A.)

<https://cola.unh.edu/theatre-dance/program/ba/theatre-major-acting-directing-option>

### Description

Created for students with a passion for acting and/or directing, this option is designed to develop the actor and the director as an interpretive, creative and self-sufficient artist. Award-winning faculty working in the profession challenge students to strive for excellence in the art and craft of acting and directing through highly challenging coursework, performance projects and productions, as well as special workshops with acclaimed guest artists.

Contact David Kaye ([david.kaye@unh.edu](mailto:david.kaye@unh.edu)), Paul Creative Arts Center, (603) 862-0667.

### Requirements

In the freshman and sophomore years, students should enroll for at least two major and two Discovery courses per semester. The minimum grade requirement for major courses is C- per course. Any grade lower than C- will not count toward the major. Under department policy, students who complete both COMM 401 American Sign Language I and COMM 502 American Sign Language II satisfy the bachelor of arts language proficiency requirement. All majors must take courses in the following areas: performance, design/theatre technology and theory/history as well as fulfill between four and eight practicums and complete a capstone course. Although timing will vary with each option, it is strongly suggested that all introductory courses be taken prior to the end of the student's sophomore year. Students must also complete a digital

portfolio that demonstrates fulfillment of student learning outcomes related to their area of study.

The required minimum overall GPA in major coursework is 2.0.

Candidates for a degree must satisfy all of the University Discovery Program requirements in addition to satisfying the requirements of each individual major program. Bachelor of arts candidates must also satisfy the foreign language proficiency requirement.

Theatre department majors may use one major-required course to satisfy one Discovery category requirement.

All UNH B.A. degrees require a minimum of 128 credit hours.

Code	Title	Credits
<b>Required Courses</b>		
THDA 436	History of Theatre I	4
THDA 438	History of Theatre II	4
THDA 459	Stagecraft	4

THDA 450	History of Musical Theatre in America	
THDA 632	Interpretation of Shakespeare in Theatre	
THDA #638	American Theatre: 1920-1970	
THDA 640W	Playwriting	
<b>Total Credits</b>		<b>58-62</b>

<sup>1</sup> The practicum ensures a breadth of experience in the major, including sets, costumes, lighting, props, box office, marketing, and performing. Students must register for practicum every semester. They are notified of their practicum assignment at the beginning of each semester.

## Student Learning Outcomes

**Core Student Learning Outcomes for the Bachelor of Arts in Theatre major:** On completion of the B.A. in Theatre, students will:

- Recognize and distinguish between various styles and forms of theatre or dance that have shaped the evolution of these disciplines.
- Effectively communicate artistic ideas and/or critical analysis of theatre or dance works through appropriate oral, written or practical means.
- Demonstrate knowledge and fundamental skill level of the basic areas of theatre or dance production in areas related to performance, design, technology or management.
- Create and demonstrate informed and personal artistic choices in coursework and productions (i.e., design, dance, directing, acting).

**Additional Student Learning Outcomes for Option in Acting and Directing:** In addition to the shared department learning outcomes for all THDA

students, upon completion of the major with an Option in Acting and Directing, students will:

- Achieve at minimum an intermediate proficiency in fundamental skills related to theatrical performance.
- Utilize critical thinking and writing skills to analyze plays for both the performance of roles and the direction of productions in a range of styles and genres.
- Effectively communicate and collaborate with all participants in the interactive and creative process of theatre.
- Form, communicate and defend verbally and in writing value judgments about quality and aesthetics of performance and directing in works of theatre.
- Demonstrate knowledge of basic terminology of acting and directing as well as leading practitioners and theorists of the acting and directing process.

## Theatre Major: Dance Option (B.A.)

<https://cola.unh.edu/theatre-dance/program/ba/theatre-major-dance-option>

### Description

The dance option offers a diverse program that is designed to give the dance teacher, choreographer and/or performer the skills needed to embark on a successful career. Technique courses in ballet, pointe, tap, jazz and the aerial arts are at the core of this program. Courses in history of dance, composition, choreography and dance pedagogy aid dancers in preparing for a variety of employment opportunities in the dance field. In addition, dancers are introduced to the technical aspects involved in staging a full-scale performance. Performance opportunities include yearly faculty-directed dance concerts and student-created dance showcases each semester. Dancers may focus on one or all dance forms.

If you are interested in teaching grades K-12, you could pursue dance education, either through NH Dance K-12 teacher undergraduate certification, or you could pursue a fifth-year master's in teaching program through the UNH Education Department. A Master's degree can raise your salary significantly when entering the workforce.

## State K-12 Teacher Certification

Certification in dance is part of the pre-service programs in teacher education, which seek to prepare teachers who demonstrate excellence in classroom practice and who will become educational leaders. You may achieve dance licensure in two different ways. You may pursue dance education/licensure through the undergraduate program. This leaves no room for double majors or minors. If you want to broaden your undergraduate education and need more space for classes outside of THDA, you may pursue the five-year program, beginning preparation for teaching at the undergraduate level and then pursuing a graduate degree to get dance certification. Students complete a baccalaureate degree

in theatre with a dance option and move into a fifth year of study with a full-year internship, leading to either the Masters in Education (M.Ed.) or a Master of Arts in Teaching (M.A.T.) degree and licensure for teaching. With a GPA of 3.2 or better, you may be eligible for early admission to the graduate program, allowing up to twelve credits to dual count for both undergraduate and graduate degrees. Successful completion of the Praxis Core test is required for UNH graduate school admission. To complete the work in five years, students must plan for dual admission to graduate school and also take multiple education courses during the undergraduate years.

The kindergarten through 12th grade certification in the dance education program provides the foundation for public school teaching certification. This program integrates a general education background with dance training in a variety of dance styles, dance history, choreography and dance pedagogy for the purpose of understanding content, process, and methodologies of dance as an art form. All five-year candidates must meet requirements for admission to graduate school. All K-12 education in dance students must receive a "C-" grade or better in all theatre and dance courses required in the program and a "B-" or better in the graduate level courses. New Hampshire also participates in a reciprocal agreement with many other states, the Interstate Certification Compact. For further clarification regarding undergraduate or graduate teacher certification options, contact Assaf Benchetrit, Paul Creative Arts Center, (603) 862-4485, [assaf.benchetrit@unh.edu](mailto:assaf.benchetrit@unh.edu).

## 4-Year Teacher Licensure B.A. Program

The 4-year teacher licensure B.A. program includes the same requirements as the B.A. dance option but with the following modifications.

- The THDA 551: Acting I requirement is waived.
- The THDA 798/799 requirement is replaced with EDUC 694 Courses in Supervised Teaching.
- The Performance requirement is reduced from 16 credits to 12 credits.
- The following requirements are added:

Code	Title	Credits
BMS 507	Human Anatomy and Physiology I	0 or 4
EDUC 500	Exploring Teaching	4
EDUC 605	Educational Perspectives in Critical Times	4
EDUC 694	Courses in Supervised Teaching	8
EDUC 701	Human Development & Learning: Cultural Perspectives	4
EDUC 751A or EDUC 751B	Inclusive Elementary Education: Literacies and Learning for Diverse Learners Methods of Inclusive Secondary Education: Literacies, Learning, and Transitions	4
NUTR 400	Nutrition in Health and Well Being	0 or 4
THDA 791	Internship in Theatre and Dance	2

## 5-Year Teacher Licensure M.A.T. or M.Ed. Program

The 5-year teacher licensure M.A.T. or M.Ed. program includes the same requirements as the B.A. dance option but with the following modifications.

- The following requirements are added:

Code	Title	Credits
BMS 507	Human Anatomy and Physiology I <sup>1</sup>	4
EDUC 500/935A	Exploring Teaching <sup>1</sup>	4
NUTR 400	Nutrition in Health and Well Being <sup>1</sup>	4
EDUC 605	Educational Perspectives in Critical Times <sup>1</sup>	4
EDUC 701/801	Human Development & Learning: Cultural Perspectives <sup>2</sup>	4

EDUC 751A/851A	Inclusive Elementary Education: Literacies and Learning for Diverse Learners <sup>1</sup>	4
or EDUC 751B/851B	Methods of Inclusive Secondary Education: Literacies, Learning, and Transitions	
EDUC 900A	Internship and Seminar in Teaching	6
EDUC 901A	Internship and Seminar in Teaching	6

<sup>1</sup> Must be taken before the teaching internship.

<sup>2</sup> May be taken at the undergraduate level or the graduate level.

## Student Learning Outcomes

### Core Student Learning Outcomes for the Bachelor of Arts in Theatre

**major:** On completion of the B.A. in Theatre, students will:

- Recognize and distinguish between various styles and forms of theatre or dance that have shaped the evolution of these disciplines.
- Effectively communicate artistic ideas and/or critical analysis of theatre or dance works through appropriate oral, written or practical means.
- Demonstrate knowledge and fundamental skill level of the basic areas of theatre or dance production in areas related to performance, design, technology or management.
- Create and demonstrate informed and personal artistic choices in coursework and productions (i.e., design, dance, directing, acting).

**Additional Student Learning Outcomes for Option in Dance:** In addition to the shared department learning outcomes for all THDA students, upon completion of the major with an Option in Dance, students will:

- Develop an awareness of proper dance technique, physical expression and kinesthetic exploration.
- Apply choreographic phrases and compositional skills through performance.
- Demonstrate a foundation in dance pedagogy.
- Demonstrate a reflective and critical awareness of dance history.
- Effectively apply dance principles to critical writing via journals, performance critiques, and research assignments.

## Theatre Major: Design & Theatre Technology Option (B.A.)

<https://cola.unh.edu/theatre-dance/program/ba/theatre-major-design-theatre-technology-option>

### Description

Design and theatre technology students who show significant progress and ability may earn the opportunity to demonstrate practical application of their studies through the department's main stage production design assignments. Through classwork, production assignments and problem-solving, this option prepares students for both practical skills and aesthetic sensibilities needed for the creation of visual and technical elements for the performing arts. The challenging coursework provides both fundamental knowledge and critical thinking practice, which are skills that help students pursue a successful profession in theatre and related fields; the core principles of hard work, problem-solving and creativity are transferable to other career paths as well. UNH-trained graduates hold careers across the nation as designers, technical

directors, stage managers, property masters, head electricians and scenic artists.

- Create and demonstrate informed and personal artistic choices in coursework and productions (i.e., design, dance, directing, acting).

**Additional Student Learning Outcomes for Option in Design and Theatre Technology:** In addition to the shared department learning outcomes for all THDA students, upon completion of the major with an Option in Design and Theatre Technology, students will:

- Exhibit an understanding of the general principles and practices for the design/tech area.
- Apply knowledge of design/tech skills and technologies to the production of theatrical creations.
- Demonstrate skills in script analysis, research, and critical thinking for design development.
- Demonstrate development of a creative process as well as practical problem-solving skills for artistic work.
- Effectively use communication and collaboration skills in writing, speaking, and visual presentation.
- Utilize critical assessment skills to evaluate the work of other students and to show improvement on their own work as a result of the collective feedback process.
- Develop a resume, portfolio, and interview skills that reflect professional standards.

## Theatre Major: Musical Theatre Option (B.A.)

<https://cola.unh.edu/theatre-dance/program/ba/theatre-major-musical-theatre-option>

### Description

The musical theatre option is designed to cultivate and nurture the creative artistry of those highly motivated students who wish to develop their combined talent as singers, actors and dancers. Students in the musical theatre option are trained as actors who sing and dance and will thrive in this intense and dynamic program of coursework, practical application, performance-based projects, departmental productions, and special workshops with guest artists and instructors. Students will be expected to fully integrate their rigorous training as actors, dancers and singers with the outstanding liberal arts education they will receive at UNH to become well-rounded and marketable musical theatre artists.

- Create and demonstrate informed and personal artistic choices in coursework and productions (i.e., design, dance, directing, acting).

**Additional Student Learning Outcomes for Option in Musical Theatre:**

In addition to the shared department learning outcomes for all THDA students, upon completion of the major with an Option in Musical Theatre, students will:

- Utilize a healthy vocal technique and demonstrate the ability to read music.
- Effectively analyze a dramatic script.
- Apply knowledge of theatre to write critically about both musical and non-musical theatre.
- Demonstrate the ability to perform dance choreography.
- Apply acting techniques both in writing and in practice.
- Utilize knowledge of musical theatre history and styles to select appropriate repertoire for class and auditions.
- Demonstrate the skills and create the elements necessary to compete in the professional theatrical world, including a professional resume and audition book.

## Theatre Major: Secondary Theatre Education Option (B.A.)

<https://cola.unh.edu/theatre-dance/program/ba/theatre-major-secondary-theatre-education-option>

### Description

Candidates interested in passing on their love of theatre to future generations will find that the secondary theatre education option offers practical and theoretical training for teachers. As one of a few programs in the country, UNH's Secondary Theatre Education option boasts a robust offering with six courses specifically focused on how to teach theatre. Through comprehensive course and laboratory work, students obtain hands-on theatre teaching experience, so that by the time they reach graduation, they have spent significant hours working with the K-12 age group. Students are provided with extensive training and practical teaching experience specifically geared towards the goal of being a theatre teacher, either in a traditional classroom or as a teaching artist. As you complete your studies, you will have the option to enter theatre education directly as a teaching artist at professional theatres, you could plan from your first year to pursue NH Theatre Arts K-12 teacher undergraduate certification, or you could pursue a fifth-year master's in teaching program through the UNH Education Department.

A master's degree can raise your salary significantly when entering the workforce. Whether pursuing the fifth year graduate certification program or entering the professional theatre education world directly after the undergraduate degree, students can expect to leave UNH prepared for the rigorous task of teaching.

THDA 546	Costume Design for the Theatre	
THDA 548	Stage Lighting Design and Execution	
<b>Education</b>		
EDUC 500	Exploring Teaching <sup>2</sup>	4
<b>Total Credits</b>		<b>64-68</b>

<sup>1</sup> Students are required to take at least one practicum for every semester they are a major in the Department of Theatre and Dance. In addition, each student must take each type of practicum at least once (Technical, Costume, Performance, Marketing and Promotion).

<sup>2</sup> May be taken at the undergraduate level or the graduate level.

NOTE: It is understood that students will fulfill 20 internship contact hours with theatre students in their option area: elementary, middle, or high school. Projects for THDA 729 Community Oriented Drama Programs cannot count as internship hours. Students may fulfill this requirement through a variety of teaching opportunities with the department's outreach program (both during the school year and in the summer), or they may work with local schools teaching, coaching actors, assistant directing, choreographing, or in some other capacity as specifically arranged with their theatre adviser.

It also is understood that students involved in the above course curriculum in order to get state theatre arts certification must apply to either the UNH Department of Education or another university for acceptance into a fifth-year master of arts in teaching (M.A.T.) or master of education (M.Ed.) degree program that fulfills state requirements for certification.

## State K-12 Teacher Certification

In order to obtain state theatre arts certification, students must either know from their first year that they are pursuing undergraduate Theatre Arts teacher certification or they must apply to the UNH Department of Education or another university for acceptance into a fifth-year master of arts in teaching (M.A.T.) or masters of education (M.Ed.) degree program, which fulfills state requirements for certification. Students who are accepted into early graduate admission may take up to 12 credits toward the 32 credit masters while finishing their undergraduate degree. For further clarification regarding both undergraduate and graduate certification options, contact Raina Ames, Paul Creative Arts Center, (603) 862-3044, [raina.ames@unh.edu](mailto:raina.ames@unh.edu).

## 4-Year Teacher Licensure B.A. Program

The 4-year teacher licensure B.A. program includes the same requirements as the B.A. secondary theatre education option but with the following modifications.

- The THDA 798/799 requirement is replaced with EDUC 694 Courses in Supervised Teaching
- The following requirements are added.

Code	Title	Credits
EDUC 605	Educational Perspectives in Critical Times	4
EDUC 694	Courses in Supervised Teaching	8
EDUC 701	Human Development & Learning: Cultural Perspectives	4
EDUC 751A	Inclusive Elementary Education: Literacies and Learning for Diverse Learners	4
or EDUC 751B	Methods of Inclusive Secondary Education: Literacies, Learning, and Transitions	
THDA 791	Internship in Theatre and Dance	2

## 5-Year Teacher Licensure M.A.T. or M.Ed. Program

The 5-year teacher licensure M.A.T. or M.Ed. Program includes the same requirements as the B.A. secondary theatre education option but with the following modifications:

- The following requirements are added.

Code	Title	Credits
EDUC 605	Educational Perspectives in Critical Times <sup>1</sup>	4
EDUC 701/801	Human Development & Learning: Cultural Perspectives <sup>2</sup>	4
EDUC 751A/851A	Inclusive Elementary Education: Literacies and Learning for Diverse Learners <sup>2</sup>	4
or EDUC 751B/851B	Methods of Inclusive Secondary Education: Literacies, Learning, and Transitions	
EDUC 900A	Internship and Seminar in Teaching	6
EDUC 901A	Internship and Seminar in Teaching	6
8 credits from THDA 700-level or EDUC #700/800-level elective courses. <sup>2</sup>		8

<sup>1</sup> Must be taken before the teaching internship.

<sup>2</sup> Must be taken before the teaching internship. May be taken at the undergraduate level or the graduate level.

## Student Learning Outcomes

### Core Student Learning Outcomes for the Bachelor of Arts in Theatre

**major:** On completion of the B.A. in Theatre, students will:

- Recognize and distinguish between various styles and forms of theatre or dance that have shaped the evolution of these disciplines.
- Effectively communicate artistic ideas and/or critical analysis of theatre or dance works through appropriate oral, written or practical means.
- Demonstrate knowledge and fundamental skill level of the basic areas of theatre or dance production in areas related to performance, design, technology or management.
- Create and demonstrate informed and personal artistic choices in coursework and productions (i.e., design, dance, directing, acting).

### Additional Student Learning Outcomes for Option in Secondary Theatre Education:

In addition to the shared department learning outcomes for all THDA students, upon completion of the major with an Option in Secondary Theatre Education, students will:

- Develop and compile effective lesson plans and teaching materials appropriate to student developmental levels and individual learning styles.
- Define a personal teaching philosophy.

- Demonstrate effective teaching strategies.
- Evaluate teaching abilities through analysis and reflection.
- Develop directing and production skills.
- Match to teaching materials the appropriate national educational standards for arts and non-arts subjects.

## Theatre Major: Youth Drama Option (B.A.)

<https://cola.unh.edu/theatre-dance/program/ba/theatre-major-youth-drama-option>

### Description

Anyone interested in teaching elementary-aged students would benefit from the youth drama option. Consider pairing this with family studies or early childhood education. Youth drama is for those students who wish to use dramatic arts as a teaching tool, either in the elementary classroom or as a teaching artist. Our comprehensive curriculum is specifically designed to train teachers to use storytelling and creative drama to enrich the classroom. Work with our master puppeteer to take Introduction to Puppetry as well as Advanced Puppetry. Through comprehensive class and laboratory work, students obtain hands-on theatrical teaching experience so that, by the time they reach graduation, they have spent significant hours teaching children. This program will give you hands-on teaching experience and the option to pursue a fifth-year master's degree in elementary teaching through the UNH Education Department. Whether pursuing the fifth year graduate certification program or entering the professional theatre education world directly after the undergraduate degree, students will leave UNH with sound theoretical training in addition to practical instruction on how to use drama to enhance learning outcomes, address classroom discipline issues and, of course, bring the arts to life in the classroom.

Contact [Raina Ames](mailto:raina.ames@unh.edu) ([raina.ames@unh.edu](mailto:raina.ames@unh.edu)), Paul Creative Arts Center, (603) 862-3044.

### Requirements

In the freshman and sophomore years, students should enroll for at least two major and two Discovery courses per semester. The minimum grade requirement for major courses is C- per course. Any grade lower than C- will not count toward the major. Under department policy, students who complete both COMM 401 American Sign Language I and COMM 502 American Sign Language II satisfy the bachelor of arts language proficiency requirement. All majors must take courses in the following areas: performance, design/theatre technology and theory/history as well as fulfill between four and eight practicums and complete a capstone course. Although timing will vary with each option, it is strongly suggested that all introductory courses be taken prior to the end of the student's sophomore year. Students must also complete a digital portfolio that demonstrates fulfillment of student learning outcomes related to their area of study.

The required minimum overall GPA in major coursework is 2.0.

Candidates for a degree must satisfy all of the University Discovery Program requirements in addition to satisfying the requirements of each

individual major program. Bachelor of arts candidates must also satisfy the foreign language proficiency requirement.

Theatre department majors may use one major-required course to satisfy one Discovery category requirement.

All UNH B.A. degrees require a minimum of 128 credit hours.

Code	Title	Credits
<b>Required Courses</b>		
THDA 459	Stagecraft	4
THDA 460	Elements of Design	4
THDA 463	Theatre Dance I	4
THDA #520	Creative Drama	4
THDA 522	Storytelling, Story Theatre, and Involvement Dramatics	4
THDA 583	Introduction to Puppetry	4
THDA 589	Practicum (A - D) <sup>1</sup>	4-8
THDA 624	Theatre for Young Audiences	4
THDA 683	Advanced Puppetry	4
THDA 721	Arts Integration	4
THDA 727	Methods of Teaching Theatre	4
THDA 729	Community Oriented Drama Programs	4
THDA 760	Teacher Planning for Theatre	4
THDA 799	Capstone Project (must be taken in senior year)	2
<b>Education</b>		
EDUC 500	Exploring Teaching <sup>2</sup>	4
<b>Total Credits</b>		<b>58-62</b>

- <sup>1</sup> The practicum ensures a breadth of experience in the major, including sets, costumes, lighting, props, box office, marketing, and performing. Students must register for practicum every semester. They are notified of their practicum assignment at the beginning of each semester.
- <sup>2</sup> Must be taken before student teaching internship.

## State Teacher Certification

Youth Drama options often pursue elementary education certification. In order to obtain state licensure, students must apply to either the UNH Department of Education or another university for acceptance into a fifth year masters of education (M.Ed.) degree program, which fulfills state requirements for certification. Students who are accepted into early graduate admission may take up to 12 credits toward the masters degree while finishing their undergraduate degree. For further clarification regarding fifth-year certification options, contact Raina Ames, Paul Creative Arts Center, (603) 862-3044, [raina.ames@unh.edu](mailto:raina.ames@unh.edu).

## 5-Year Teacher Licensure M.Ed. Program

The 5-year teacher licensure M.Ed. program includes the same requirements as the B.A. youth drama option but with the following modifications.

- The following requirements are added:

Code	Title	Credits
MATH 601	Exploring Mathematics for Teachers <sup>1</sup>	4
EDUC 605	Educational Perspectives in Critical Times <sup>1</sup>	4
EDUC 701/801	Human Development & Learning: Cultural Perspectives <sup>2</sup>	4
MATH 703	Teaching of Mathematics in Grades K-5 <sup>1</sup>	4
EDUC 703F/803F	Teaching Elementary School Science <sup>2</sup>	4
EDUC 703M/803M	Teaching Elementary Social Studies <sup>2</sup>	4
EDUC 706/806	Teaching & Learning Literacy in the Elementary Classroom <sup>2</sup>	4
EDUC 751A/851A	Inclusive Elementary Education: Literacies and Learning for Diverse Learners <sup>1</sup>	4
EDUC 808	Literacy Assessment for Elementary Classroom Teachers	4
Must be taken concurrently with EDUC 900A		
EDUC 809	Supporting Readers in Elementary Classrooms	4
Must be taken concurrently with EDUC 901A		

EDUC 900A	Internship and Seminar in Teaching	6
EDUC 901A	Internship and Seminar in Teaching	6
<b>Total Credits</b>		<b>52</b>

<sup>1</sup> Must be taken before student teaching internship.

<sup>2</sup> May be taken at undergraduate or graduate level.

## Student Learning Outcomes

**Core Student Learning Outcomes for the Bachelor of Arts in Theatre major:** On completion of the B.A. in Theatre, students will:

- Recognize and distinguish between various styles and forms of theatre or dance that have shaped the evolution of these disciplines.
- Effectively communicate artistic ideas and/or critical analysis of theatre or dance works through appropriate oral, written or practical means.
- Demonstrate knowledge and fundamental skill level of the basic areas of theatre or dance production in areas related to performance, design, technology or management.
- Create and demonstrate informed and personal artistic choices in coursework and productions (i.e., design, dance, directing, acting).

**Additional Student Learning Outcomes for Option in Youth Drama:** In addition to the shared department learning outcomes for all THDA students, upon completion of the major with an Option in Youth Drama, students will:

- Develop and compile effective lesson plans and teaching materials appropriate to student developmental levels and individual learning styles.
- Define a personal teaching philosophy.
- Demonstrate effective teaching strategies and established skills as a group leader in dramatic activities.
- Evaluate teaching abilities through analysis and reflection.
- Demonstrate technical skills in storytelling and puppetry performance techniques.
- Match to teaching materials the appropriate national educational standards for arts and non-arts subjects.

## Arts Administration Minor

<https://cola.unh.edu/theatre-dance/program/minor/arts-administration>

### Description

The minor in arts administration is designed to give students in the fine and performing arts a base knowledge and skill set that can be applied to a wide range of job opportunities related to arts management, administration and entrepreneurship in the creative economy. It has also been created for students enrolled in the Peter T. Paul School of Business, as well as majors in other disciplines, to expand their knowledge base in the fine and performing arts area of their greatest interest. These courses are combined with specific classes in arts administration to prepare students for opportunities within the nonprofit and for-profit arts sectors. Students who major in theatre or one of its theatre or dance options may minor in arts administration provided no more than 8 credits are used to satisfy both major and minor requirements.

## Requirements

Code	Title	Credits
<b>Required Courses</b>		
ACC 501	Survey of Accounting	4
or ADMN 502	Financial Accounting	
MKTG 530	Survey of Marketing	4
or ADMN 585	Marketing	
THDA 541	Arts Administration and Entrepreneurship	4
<b>Elective Courses</b>		<b>8</b>
For students pursuing majors in The Peter T Paul School of Business or the fine and performing arts division of COLA: Two elective courses from the following list (electives must be taken outside your home college unless indicated). For all other students, two elective courses from the following list. At least one elective course must be in the fine or performing arts.		
ARTH 400	Topics in Art History	
ARTH 480	Introduction to Art History	
ARTS 510	Principles of Design <sup>1</sup>	
ARTS 532	Introductory Drawing	
ARTS 552	Introductory Digital Photography	
MGT 520	Topics in Management (Thinking Like an Entrepreneur, Negotiations)	
MGT 540	Leadership in the 21st Century	
MGT 640	Human Resource Management	
MKTG 547	Promotion and Advertising	
MKTG 649	Foundations of Personal Selling	
MKTG 520	Topics in Marketing (Understanding Your Customer)	
PAUL 450	Personal Finance	
THDA 442	Introduction to the Art of Acting	
THDA 459	Stagecraft	
THDA 462	Ballet I	
THDA 463	Theatre Dance I	
THDA #547	Stage Properties	
THDA 548	Stage Lighting Design and Execution	
THDA 555	Acting The Song	
THDA 641	Stage Management	
THDA 791	Internship in Theatre and Dance <sup>2</sup>	
<b>Total Credits</b>		<b>20</b>

<sup>1</sup> This course can be taken by students pursuing majors in the fine and performing arts division of COLA. This course cannot also be used toward completion of any major in Art and Art History.

<sup>2</sup> This course can be taken by students pursuing majors in the fine and performing arts division of COLA. This course cannot also be used toward completion of the Theatre & Dance major. Course must be specifically focused on Arts Administration.

## Dance Minor

<https://cola.unh.edu/theatre-dance/program/minor/dance>

### Description

Students minoring in dance keep open the option of pursuing a career in dance by cultivating and maintaining a high level of dance skill while still having the opportunity to major in another area of interest outside the Department of Theatre and Dance. Minors are encouraged to audition for all performance opportunities including faculty-directed dance concerts as well as student-created dance showcases. In addition, students who major in theatre or one of its theatre options may minor in dance provided no more than 8 credits are used to satisfy both major and minor requirements.

Contact Michael Wood, (603) 862-3038, [mike.wood@unh.edu](mailto:mike.wood@unh.edu).

## Requirements

Code	Title	Credits
Select up to 16 credits from the following:		16
THDA 462	Ballet I	
THDA 562	Ballet II	
THDA 662	Ballet III	
THDA 463	Theatre Dance I	
THDA 563	Theatre Dance II	
THDA 663	Theatre Dance III	
THDA 665	Aerial Dance	
THDA 576	Pointe	
Select at least 4 credits from the following: <sup>1</sup>		4
THDA 633	Dance Composition	
THDA 564	Compocinema	
THDA 732	Choreography	
THDA 786	Dance Pedagogy	
<b>Total Credits</b>		<b>20</b>

<sup>1</sup> Courses in this section are taught on a rotational basis and are not offered every semester. Students are encouraged to fulfill this requirement by the end of their Junior year. Course substitutions in this section are not permitted.

## Musical Theatre Minor

<https://cola.unh.edu/theatre-dance/program/minor/musical-theatre>

### Description

The musical theatre minor offers the student basic knowledge of the history and canon of this uniquely American art form while providing for hands-on experience in training as actors who sing and dance. Students who major in theatre or one if its theatre or dance options may minor in musical theatre provided no more than 8 credits are used to satisfy both major and minor requirements.

Contact Michael Wood, (603) 862-3038, [mike.wood@unh.edu](mailto:mike.wood@unh.edu).

Select 4 credits of the Theory/History courses in the General Theatre Major Requirements		4
Select 4 credits of the Design/Theatre Technology courses in the General Theatre Major Requirements		4
Select 8 credits of any THDA course		8
<b>Total Credits</b>		<b>20</b>

## Youth Drama Minor

<https://cola.unh.edu/theatre-dance/program/minor/youth-drama>

### Description

Anyone with an interest in theatre for young audiences, either in acting or as a way to augment teaching strategies, will benefit from this minor, which utilizes activated and arts-infused methodology to enliven work with K-12 students. The youth drama minor is ideal for those who wish to explore the dramatic arts through an educational lens.

## Studies in the Design of Interior Space Cognate

<https://cola.unh.edu/theatre-dance/program/cognate/studies-design-interior-space>

### Description

The cognate provides students a pathway to enter the world of interior design. It aims to give students an overview of design creation and execution for space planning. From concept development to project execution, the cognate allows students to formulate design projects that

are both practical and aesthetically pleasing. Students will develop a comprehensive creative process through research, problem solving and project development. The cognate prepares students to apply critical thinking to the creation of interior environments utilizing a human-centered approach.

Students complete three courses, one in each of three groups:

1. **Design Development:** Helps students obtain the skills in design creation. Students will learn about concept development, research analysis, and psychological and physiological characteristics in space planning. It provides the students the ability to utilize knowledge in design elements and principles in 3D design creation and integrate this knowledge into design concepts as solutions for design projects.
2. **Historical Aspect:** Gives students an overview of architectural history. It will help students to identify the historical, political, social and economic elements that have influenced the evolution in interior architecture and decorative arts. Students will be able to apply the skill in research and their knowledge of historic design styles in their design creations.
3. **Design Skills:** Helps students to understand and apply skills related to design execution. It provides students with the option to gain craftsmanship in sketching, rendering, scaled design drawings, CAD (computer-aided drafting), graphic solutions or standards.

## Requirements

Student must complete three courses (12 credits), one course in each group listed below.

Code	Title	Credits
Design Development		4
Select one course from the following:		
THDA 548	Stage Lighting Design and Execution	4
THDA 652	Scene Design	
ARTS 455	Architectural Design Studio	
Historical Aspect		4
Select one course from the following:		
ARTH 474	Introduction to Architectural History	4
ARTH 480	Introduction to Art History	
ARTH 656	Twentieth-Century Architecture: Modern and Contemporary	
Design Skills		4
Select one course from the following:		
ARTS 613	Design and Place	4
THDA 549	Vectorworks Computer-Aided Design Drafting for the Theatre	
THDA 651	Rendering for the Theatre	
Total Credits		12

## Studies in Fashion and Design Cognate

<https://cola.unh.edu/theatre-dance/program/cognate/studies-fashion-design>

### Description

The studies in fashion and design cognate offers students a foundation for developing the basic skills to enter the field of fashion design. It introduces the art behind the creation of apparel and the basics of marketing strategy connected to fashion design. Students will be educated to develop their own creative process and design method while

learning the basic knowledge of marketing and personal business. The cognate prepares students with a means to combine their artistic vision with practical application and helps them become designers who have the skills to support their own artistries.

Students complete three courses, one in each of three groups:

1. **Design Creation:** Helps students to adapt their artistic skills to support conceptual ideas. It gives students the abilities in creating, analyzing, constructing and presenting works for costume creation. It aims to guide students in developing their own working process with a critical approach to problem solving. Students will be able to use terminology to communicate ideas in the fashion design industry.
2. **Design Skills:** Gives students the options to understand and apply a skill class of their choice to helps students articulate their design ideas visually and digitally. It aims to offer students with the options to create visual merchandising for their design works through rendering hand skills, graphic design software, or photography.
3. **Marketing:** Helps students to understand and incorporate the business aspect into their creative works. It aims to prepare students to promote and sustain their creative works independently as a personal business or within retail organizations.

## Requirements

Student must complete three courses (12 credits), one course in each group listed below.

Code	Title	Credits
Design Creation (select one of the following)		4
THDA 546	Costume Design for the Theatre	
THDA 458	Costume Construction	
Design Skills (select one of the following)		4
ARTS 510	Principles of Design	
ARTS 552	Introductory Digital Photography	
THDA 651	Rendering for the Theatre	
Marketing (select one of the following)		4
MKTG 530	Survey of Marketing	
MKTG 547	Promotion and Advertising	
MKTG 649	Foundations of Personal Selling	
Total Credits		12

## Women's and Gender Studies (WS)

Women's and gender studies provides students with an understanding of the status of women in various cultures and historical eras, in the nexus of race, class, sexuality, religious and disability studies. Students learn the use of gender as a category of analysis and increase their knowledge of women's contributions to many fields. Women's and gender studies courses offer students critical perspectives on such basic questions of the social order as assumptions about gender roles and gender identity.

As a relatively small department in the College of Liberal Arts, we provide students with a sense of community and opportunities to contribute directly to changing the campus climate. In a rigorous academic environment, women's and gender studies offers students a springboard for activism. Our internship program enables students to gain first-hand work experience across many fields.

A major or minor in women's and gender studies or social justice leadership prepares students for careers where the changing roles of women are having a perceptible impact. Women's studies graduates go on to law school and graduate school in a variety of disciplines. Some

have taken positions with social change or family service agencies, while others have found work in such fields as health care, journalism, education, human rights, social and environmental justice, and the arts.

<https://cola.unh.edu/womens-gender-studies>

- [Women's and Gender Studies Major \(B.A.\)](#) (p. 151)
- [Social Justice Leadership Minor](#) (p. 152)
- [Women's and Gender Studies Minor](#) (p. 153)

## Faculty

<https://cola.unh.edu/womens-gender-studies/faculty-staff-directory>

## Women's and Gender Studies Major (B.A.)

<https://cola.unh.edu/womens-gender-studies/program/ba/womens-gender-studies-major>

## Description

Women's and gender studies provides students with an understanding of the status of women in various cultures and historical eras, in the nexus of race, class, sexuality, religious and disability studies. Students learn the use of gender as a category of analysis and increase their knowledge of women's contributions to many fields. Women's and gender studies courses offer students critical perspectives on such basic questions of the social order as assumptions about gender roles and gender identity.

As a relatively small department in the College of Liberal Arts, we provide students with a sense of community and opportunities to contribute directly to changing the campus climate. In a rigorous academic environment, women's and gender studies offers students a springboard for activism. Our internship program enables students to gain first-hand work experience across many fields.

A major in women's and gender studies prepares students for careers where the changing roles of women are having a perceptible impact. Women's and gender studies graduates go on to law school and graduate school in a variety of disciplines. Some have taken positions with social change or family service agencies, while others have found work in such fields as health care, journalism, education, human rights, social and environmental justice, and the arts.

Students who wish to major in women's and gender studies should consult with the [department chair or coordinator](#).

## Requirements

The women's and gender studies major requires students to complete 40 credits of major-approved coursework with grades of C- or better and an overall grade point average in major courses of 2.00 or higher.

Code	Title	Credits
WS 401	Introduction to Women's Studies	4
or WS 405	Gender, Power and Privilege	
WS 632	Feminist Thought	4

### Discovery Program Capstone Requirement:

WS 798	Colloquium	4
or WS 799	Honors Thesis	
Select seven additional courses chosen in consultation with a WS academic advisor <sup>1</sup>		28
Total Credits		40

<sup>1</sup> At least two of the courses must be WS courses. The remaining courses may be either WS courses or WS-faculty-approved courses offered in departments or programs outside of WS (cross-counted courses). A list of cross-counted courses can be found each semester at: <https://cola.unh.edu/womens-gender-studies/cross-counted-courses-ws-schedule>.

At least five courses for the major must be taken at the 600 level or above. Only two 400-level courses may be used to satisfy major requirements.

WS topic courses include:

## 444 Inquiry Courses

Code	Title	Credits
WS 444	Trans/Forming Gender	4
WS 444A	Race Matters	4
WS #444C	On the Roads to Equality	4
WS 444D	Cyborgs, Avatars, and Feminists: Gender in the Virtual World	4

## 505 Surveys

WS 505 Survey in Women's Studies

Examples of course topics include:

- Sustainability & Spirituality
- Leadership for Social Change
- Fashion This!
- Intro to LGBTQ+ Studies
- Exploring Masculinities
- Queer Cinema
- Reproductive Justice
- Disability Justice

WS 510 Framing Feminism: Gender Politics in Film

## 798 Colloquiums

WS 798 Colloquium

Examples of course topics include:

- Feminist Studies in Film and Queer Cinema
- Jewish Feminism, Politics, and Culture
- Global Feminist Issues
- Transgender Feminism
- Theater as a Provocative Act
- #Metoo Movement
- Native and Indigenous Women
- Queer Sustainability
- Queer Theory

For a list of currently-approved cross-counted offerings from other departments, please check: [cola.unh.edu/womens-gender-studies/cross-counted-courses-ws-schedule](https://cola.unh.edu/womens-gender-studies/cross-counted-courses-ws-schedule).

A practicum, internship course, and/or research with faculty is strongly recommended.

Women's and gender studies majors may use two major-required courses to satisfy two Discovery category requirements. First and second majors may double count no more than two courses between the WS major and another major or minor.

Candidates for a degree must satisfy all of the University Discovery Program requirements in addition to satisfying the requirements of each individual major program. Bachelor of arts candidates must also satisfy the foreign language proficiency requirement. ASL: COMM 401 American Sign Language I and COMM 502 American Sign Language II may be used to satisfy the language competency requirement.

## Student Learning Outcomes

- Demonstrate the ability to think critically about categories of difference—including gender, sexuality, race, nation, class, religion—and explore the relationship between inequality and those categories of difference.
- Demonstrate understanding of how difference influences the values, beliefs, and experiences of individuals and groups in across historical, cultural, political and geographic contexts.
- Define and apply central concepts in Women's and Gender Studies and Queer Studies, including but not limited to sexuality, power, privilege, inequality, justice, violence, the body, reproductive health, and intersectionality (i.e., interlocking and simultaneous forms of oppression).
- Know the history of feminist thought and production, especially as it has been inflected by cultural difference.
- Demonstrate self-reflectiveness, cultural awareness, critical analysis, and the ability to effect personal and community change.
- Write and speak clearly, be able to construct persuasive arguments based on their experiences, the experiences of others, and on scholarship; be able to conduct research using feminist methodologies.

## Social Justice Leadership Minor

<https://cola.unh.edu/womens-gender-studies/program/minor/social-justice-leadership>

### Description

The minor in social justice leadership engages students in an exploration of policies, power dynamics, institutions and structures that promote and hinder equity and processes of change required for social justice. Students will examine various forms of injustice such as sexism, racism, classism, ableism and environmental degradation. The minor is grounded in three pillars — a theory component, a leadership component and experiential learning activities. The minor is interdisciplinary in nature, drawing on disciplines such as anthropology, education, English, history, philosophy, political science, social work and sociology. After completing the curriculum, students will have gained a historical perspective, theoretical understanding and applied leadership skills that are needed

for social justice work and activism. The minor certifies students' knowledge regarding, and commitment to, social justice leadership, which will be useful in postgraduate pursuits.

Students who wish to minor in social justice leadership should consult with the [department chair or coordinator](#).

## Requirements

Code	Title	Credits
<b>THEORY</b>

<b>Courses in the Women's and Gender Studies Department</b>		
WS 444	Trans/Forming Gender	4
WS 444A	Race Matters	4
WS #444C	On the Roads to Equality	4
WS 444D	Cyborgs, Avatars, and Feminists: Gender in the Virtual World	4
WS 505	Survey in Women's Studies (Leadership in the Real World)	4
WS 510	Framing Feminism: Gender Politics in Film	4
WS 632	Feminist Thought	4
WS 795	Independent Study	1-4
WS 796	Advanced Topics	4
WS 797	Internship	4
WS 798	Colloquium (such as Women in Prison)	4
<b>Courses in Other College of Liberal Arts Departments</b>		
ANTH 500	Peoples and Cultures of the World (Sub-Saharan Africa)	4
ANTH 625	Sexuality in Cross-Cultural Perspectives	4
ANTH 685	Gender, Sexuality and HIV/AIDS in Sub-Saharan Africa	4
ANTH 750	Islam and Gender: Gendered Lives of Muslims	4
CMN 505	Analysis of Popular Culture	4
CMN 567	Gender, Race, and Class in the Media	4
CMN #757	Public Address and the American Experience (Social Protest: Rhetoric of Resistance)	4
EDUC 444B	Public Issues, Democratic Schooling & Active Citizenship in a Global Context	4
EDUC 500	Exploring Teaching	4
EDUC #717	Growing up Male in America	4
ENGL 585	Introduction to Women in Literature (Dreamgirls: Studies in Beautiful Blackness)	4
ENGL 650	I Hear America Singing: Studying American Literature and Culture (Latina/o Literature, Playing in the Dark: Race & Sex in American Literature, American Literature & Consumer Culture)	4
ENGL 693	Special Topics in Literature (Literary Responses to the Holocaust)	4
ENGL 738	Asian American Studies	4
ENGL 739	American Indian Literature	4
HIST 566	Comparative Revolutions: How to Make a Revolution in the World before Marx	4
HIST 624	Topics in Modern US History (Reform Movements & Popular Protest)	4
HIST 665	Themes in Women's History (Gender & Politics)	4
HIST 690	Seminar: Historical Expl (Gay & Lesbian History: From the Victorian Era to Stonewall)	4
HIST 797	Colloquium (Citizenship & Inequality in the Americas)	4
HUMA #592	Special Topics in the Humanities (Women in Western Religion: Goddesses, Witches, Saints & Sinners)	2-8

HUMA 700	Seminar (Love & Ethics)	4
PHIL 430	Ethics and Society	4
PHIL 436	Social and Political Philosophy	4
PHIL 450	Environmental Ethics	4
PHIL 510	Philosophy and Feminism	4
POLT 548	Drug Wars	4
POLT 762	International Political Economy	4
<b>Courses in the College of Health and Human Services</b>		
HDFS 746	Human Sexuality	4
NURS 450	Making Babies: Technology, Nature, and Social Context	4
OT 513	Stressed Out: The Science and Nature of Human Stress	4
SW 697	Special Topics in Social Welfare (Exploring Social Justice & Cultural Competency)	4
SW 715	Affirming Practice with Lesbian, Gay, Bisexual, Transgender, Queer+ People	4

The women's and gender studies core faculty will consider approving other courses that include more than 50% of content related to social justice leadership.

Once students have declared the minor, they are required to meet with the coordinator at least once per semester for regular review of progress towards the degree.

Transfer credits may be approved by the coordinator to count towards the minor. If the transfer credit is accepted by the university and fits within the scope of the minor, it will be considered.

## Women's and Gender Studies Minor

<https://cola.unh.edu/womens-gender-studies/program/minor/womens-gender-studies>

### Description

Women's and gender studies provides students with an understanding of the status of women in various cultures and historical eras, in the nexus of race, class, sexuality, religious and disability studies. Students learn the use of gender as a category of analysis and increase their knowledge of women's contributions to many fields. Women's studies courses offer students critical perspectives on such basic questions of the social order as assumptions about gender roles and gender identity.

As a relatively small department in the College of Liberal Arts, we provide students with a sense of community and opportunities to contribute directly to changing the campus climate. In a rigorous academic environment, women's and gender studies offers students a springboard for activism. Our internship program enables students to gain first-hand work experience across many fields.

A major or minor in women's and gender studies prepares students for careers where the changing roles of women are having a perceptible impact. Alumni go on to law school and graduate school in a variety of disciplines. Some have taken positions with social change or family service agencies, while others have found work in such fields as health care, journalism, education, human rights, social and environmental justice, and the arts.

Students who wish to minor in women's and gender studies should consult with the [department chair or coordinator](#).

### Requirements

For the women's and gender studies minor, students must complete 20 credits of women's and gender studies courses with a grade of C-

or better. Courses taken pass/fail may not be used toward the minor.

No more than eight credits used to satisfy the requirements for another major may be used for the women's and gender studies minor. Students electing the women's and gender studies minor must complete:

Code	Title	Credits
Select one of the following:		
WS 401	Introduction to Women's Studies	4
or WS 405	Gender, Power and Privilege	
WS 798	Colloquium (normally taken at the end of the course sequence) <sup>1</sup>	4
Complete three other women's studies courses, either program courses or those that are cross-counted with other departments		12
<b>Total Credits</b>		<b>20</b>

<sup>1</sup> It may be possible to substitute WS 795 Independent Study, WS 796 Advanced Topics, WS 797 Internship, and WS 799 Honors Thesis for WS 798 Colloquium with permission from a women's studies adviser.

# World Languages

- [World Languages Dual Major](#) (p. 154)

## World Languages Dual Major

<https://cola.unh.edu/languages-literatures-cultures/program/world-languages-dual-major>

### Description

The world languages dual major is a 32-credit program that is paired with any major that leads to a B.S. degree. The major offers eight language options from which to choose as a focus: Arabic, Chinese, classics, French, German, Italian, Russian and Spanish. Study of a second language adds immense value to a student's academic experience by sharpening skills in communication, decision-making, critical thinking, listening, concentration and multitasking. It also provides excellent professional preparation for careers in business, healthcare, science, engineering and more. Mastering a second language and honing intercultural communication skills in a multicultural America and globalized world will add richness and flexibility to life beyond one's career, as well.

The global languages dual major is administered by the Department of Languages, Literatures and Cultures (LLC) but draws on languages and courses from both LLC and the Department of Classics, Humanities and Italian Studies.

### Requirements

The dual major in world languages consists of a total of 8 classes (32 credits), which may include the following, depending on your level/proficiency and language placement entering UNH. The minimum level of proficiency is noted below for each language. All coursework required for the world languages major must be completed with a grade of C or better.

Capstone

4

LLC 790 World Languages Capstone<sup>3</sup>

- <sup>1</sup> From 8 to 24 credits, depending on students' proficiency level and language placement on entry. All students must complete at least 8 classes (32 credits). While the major may start counting as early as the Elementary I level (401), those who enter the major at a higher level (e.g., 503, 504, or 631) will replace the lower level language courses with additional electives in the "Culture, Linguistics, Literature" category.
- <sup>2</sup> Minimum 4 credits up to 20 credits (depending on number required to get to 32 total)
- <sup>3</sup> Or approved equivalent 700-level course taken at UNH, approved study abroad equivalent, or approved high-impact experience (such as internship with a robust target language/culture component).

An experience such as study abroad, service learning, internship, or faculty-mentored, independent undergraduate research is encouraged but not required. Up to 16 credits toward the major may be earned in a semester-long study abroad program or summer study abroad program, depending on the individual language programs and their study abroad options. Students should consult with a faculty advisor regarding study abroad credits.

## Student Learning Outcomes

Linguistic proficiency. Students will demonstrate an Intermediate-Mid to Intermediate-High level of proficiency based on the ACTFL Performance Descriptors for Language Learners in the target language in three modes of communication: interpretive, interpersonal and presentational skills.

- Interpretive: Students are able to understand main ideas and some supporting details on familiar topics relevant to their immediate environment such as everyday life and particular interests. They have sufficient control of language (vocabulary, structure and conventional spoken and written language) to understand fully non-complex texts.
- Interpersonal: Students are able to participate in conversations on familiar topics, ask questions to initiate and sustain conversations, and communicate about self, others and everyday life.
- Presentational: Students are able to communicate information and express their thoughts about familiar topics using simple sentence structures. They are able to create messages in contexts relevant to themselves and others, and their immediate environment.

Intercultural and transcultural competence. Students will demonstrate knowledge and understanding of other cultures. They are able to think critically about and are able to recognize and accept culturally differences, and the uniqueness of other cultures and peoples. By the time they graduate from our program, they will be able to:

- Recognize and describe the target culture products and practices they have directly studied and interpret texts that are read, heard and viewed.
- Analyze and critique the cultural and social products of the target culture (film, literature, art, popular culture, media, etc.) within their context, including conducting basic research projects.
- Begin to question the validity of their own cultural beliefs, behaviors and norms, by contrasting and comparing them with those of the

target culture, and reflecting upon cultural differences related to spoken and written communication.

## College of Engineering and Physical Sciences

Cyndee Gruden, Dean

Sharon McCrone, Associate Dean for Academic Affairs

The College of Engineering and Physical Sciences (CEPS) provides an opportunity for students to achieve educational objectives appropriate to their interests in engineering, computer science, information technology, mathematics, the physical sciences, and the teaching of mathematics and physical sciences. The college offers an education in each of its primary disciplines leading to the bachelor of science, as well as bachelor of art degrees with majors in mathematics and each of the three physical sciences. All programs include an opportunity for study in the arts, humanities, and social sciences.

The key to an undergraduate program in the college is flexibility, with a strong emphasis on personal and individualized education. In addition to specific programs, a wide range of options within several majors are available. Special programs can be developed to meet the specific interests of individual students.

### Degree Requirements

MATH 425 Calculus I and MATH 426 Calculus II or the equivalent in transfer credits or advanced placement approved by the Department of Mathematics and Statistics are required by all departments of the college. The exceptions to this are the information technology major and the three computer science bachelor of arts majors, which only require MATH 425 Calculus I. The prerequisites for calculus are three years of college-preparatory mathematics, including a half-year of trigonometry. Before students can register for MATH 425 Calculus I, they are required to take the Mathematics Placement Test or to have taken MATH 418 Analysis and Applications of Functions (or its equivalent) and received a grade of C or better.

### Mathematics Placement

First-year students arrive with a wide range of mathematical skills based upon their high school preparation. The college wants students to have a solid mathematics foundation so that they will enjoy an enriched first-semester experience. A student's mathematics development will be assessed as part of the June orientation program. Based upon the Mathematics Placement Test, students are enrolled in the mathematics class that will allow them to continue that development. The initial mathematics entry course is MATH 418 Analysis and Applications of Functions. However, a student is placed into MATH 425 Calculus I if he or she demonstrated a certain level of proficiency in algebra and precalculus through the Mathematics Placement Test. Students with AP credit for Calculus I and/or Calculus II may elect to accept those credits and continue with a math course at the next level.

### Degrees OFFERED

The college offers two undergraduate degrees: the bachelor of arts and the bachelor of science. Some of the courses prescribed in these degree programs partially fulfill the University's Discovery requirements. There are entrance requirements in some programs, and it is not possible to guarantee all change-of-major requests. Students should see their advisers for specific information.

### Bachelor of Arts

Programs leading to a bachelor of arts degree are offered in the departments of chemistry, computer science, earth sciences, mathematics, and physics. These programs provide a broad liberal education along with a major in one of these fields. Students must accumulate 128 credits, attain a 2.0 cumulative grade-point average, satisfy Discovery requirements, and complete a foreign language requirement (see [University Academic Requirements](#) for specific B.A. language requirements). Check individual departmental listings for specific major requirements and minimum acceptable grades in major courses.

### Bachelor of Science

The programs leading to the bachelor of science degree, offered in each of the departments of the college, emphasize students' preparation for a professional career and continuing or graduate education. University requirements are the same as for the bachelor of arts degree, except that a foreign language is not required and minimum acceptable grades may differ in some programs. Check individual departmental or program listings for specific major requirements and minimum acceptable grades in major courses.

For more information on Degree requirements, see [University Academic Requirements > Degrees](#).

## INTERDISCIPLINARY PROGRAMS

### Bachelor of Science in Environmental Sciences

The Environmental Sciences program is offered jointly with the College of Life Sciences and Agriculture (COLSA).

### Architectural Studies Minor

The Architectural Studies Minor is managed jointly by the Civil Engineering Department, and Art & Art History Department in the College of Liberal Arts (COLA).

## OTHER Combined Programs of Study

In addition to pursuing a single major, students may combine programs of study as follows (See [University Academic Requirements > Majors, Minors, Options](#) for details):

**Minors:** Students may pursue one or more minors, each typically comprised of 5 courses. Minors enable students to obtain experience in a specialized area and to retain identification with their major professional area. Minors are available in nearly every discipline within the College of Engineering & Physical Sciences. For a comprehensive list of available minors, go to [Programs, Degrees & Majors](#).

**Cognates:** Students may pursue one or more cognates, each typically comprised of 3 courses and intended to develop career-oriented skills. Cognates in the College of Engineering & Physical Sciences are:

- [Computer Programming](#)
- [Information Technology](#)
- [Skills and Perspectives for the Digital World](#)

**Second majors:** Students may choose to fulfill the requirements of two dissimilar major programs.

**Dual majors:** Students may choose to fulfill the requirements of a dual major, typically comprised of 8 courses. Dual majors are designated programs that must be paired with another major of

any discipline. A list of dual majors can be found on the [Programs, Degrees & Majors page](#).

**Student-designed majors:** Under special circumstances, students may design their own majors. Proposal guidelines are available in the Office of the Provost and Vice President for Academic Affairs and on the Academic Affairs website, <https://www.unh.edu/provost/student-designed-majors-sdm>.

**Dual-degree programs:** Students may choose to fulfill the requirements of two separate degrees, such as a B.A. and a B.S. For more information, see [University Academic Requirements > Degrees](#).

**Accelerated Master's programs:** Students with senior standing and a minimum 3.20 cumulative grade-point average are eligible to take up to 12 credits of graduate level courses prior to completing their undergraduate degree, provided they have been admitted to the Graduate School. For more information on the process, see [University Academic Requirements > Degrees](#). For a comprehensive list of eligible accelerated master's programs through the College of Engineering & Physical Sciences, see [Programs, Degrees & Majors](#).

### Special Provisions

The requirement of a given topic/course prescribed to meet the requirements of major curriculum may be waived by the faculty of a student's department. This rule offers students the opportunity to develop a somewhat individualized plan of study with intellectual incentives and opportunities in addition to those found in a regular curriculum. The student's petition must be approved by his/her major adviser and the dean of the college. This power usually will be delegated by the faculty to the dean or to a committee (Senate Rule 05.21(s): Waiver of Requirements in a Prescribed Curriculum).

### Undeclared

Students who are uncertain about choosing a specific major may remain undeclared in the College of Engineering & Physical Sciences during their freshman and sophomore year. All first year undeclared students in the college will take the 1-credit seminar course, TECH 400 Introduction to CEPS Programs in their first semester in addition to their other required courses.

### Special Programs

#### Research Opportunities

The talents and expertise of the faculty in all departments are reflected in the number of ongoing research projects. Undergraduates are included in many of these research projects with the intent that they will discover and foster their creative talents. When involved with a funded research project, students may have an opportunity to receive pay while learning about the research area.

The college has world-class laboratories and computer facilities in many areas. A few of these are coastal and ocean mapping, space science, environmental engineering and science, fluid dynamics, wind turbulence, information systems, materials science, nanotechnology, sustainability, and medical imaging. These and other ongoing research areas within the college are described on the college's website: <https://ceps.unh.edu/research-facilities>.

Students have the opportunity to acquire applied experience by working with faculty members who undertake sponsored professional projects in

technical and managerial areas for business, industry, and federal, state, and local governments.

### Innovation Scholars Program

The Innovation Scholars program is a research driven introduction to the university for first-year students. Students will be part of a cohort of students under the direction of a faculty member that guides them through a year-long research experience culminating in a presentation of research results at the Undergraduate Research Conference or equivalent activity. Participants will develop skills that will open doors of opportunity at UNH and more broadly, and experience the interconnectedness of UNH scholarly activity with UNH Innovation and UNH Career and Professional Success.

There are currently four research topics, including advanced manufacturing; internet engineering; ocean and environmental sensing; and seacoast field science. Most cohorts work within a specific laboratory setting, including the Olson Advanced Manufacturing Center, Chase Ocean Engineering Laboratory and the UNH InterOperability Laboratory, to conduct their research. Students participating in the Innovation Scholars program will be enrolled in a 2-credit seminar both semesters of their first year for weekly cohort meetings.

### Independent Study and Projects

All departments within the college offer independent study opportunities and projects. The content of these courses varies and is based upon current scientific and technological needs in addition to the interests of the student and faculty involved.

Permission of the faculty member and/or department chairperson is required. One should review the course descriptions for the independent study and project courses for specific requirements. Students interested in working with a faculty member on a project or independent study should discuss this with the faculty member and their academic adviser prior to registering for the course.

### Preparing for Teaching

Degrees in mathematics education at the K-8 or secondary level are available through the department of Mathematics and Statistics.

Students interested in teaching chemistry, physics, or earth sciences should refer to the appropriate department advisors for program requirements.

### Study Abroad Programs

The College of Engineering and Physical Sciences and the Global Education Center work closely to support students and their Education Abroad experience. Students are able to take part in exchange programs including, but not limited to:

#### Scotland, Heriot-Watt University Exchange Program

College of Engineering and Physical Sciences students are eligible to participate in a spring semester exchange with Heriot-Watt University in Edinburgh, Scotland. The current program is designed for civil and environmental engineering majors. For more information, contact Ray Cook at (603) 862-1411 or the Global Education Center, Conant Hall. Details on the program can also be found at <https://www.unh.edu/global/exchange-program-heriot-watt-university>.

#### Global E3 Exchange Programs

All majors within the College of Engineering and Physical Sciences are eligible to participate in international exchange programs

through the Global E3 program. Programs are offered in the fall, spring, and summer, as well as for the full academic year. For more information on Global E3, please refer to [www.iie.org/programs/global-e3](http://www.iie.org/programs/global-e3). For more information on eligibility, contact Catherine D'Auteuil at [catherine.dauteuil@unh.edu](mailto:catherine.dauteuil@unh.edu).

To learn about additional study abroad programs available to students in the College of Engineering and Physical Sciences, contact Catherine D'Auteuil at [catherine.dauteuil@unh.edu](mailto:catherine.dauteuil@unh.edu). For a full list of international study abroad programs available to UNH students, see Study Abroad Programs.

Students interested in participating in a domestic exchange program should go to Domestic Study Programs.

### Accreditation

The baccalaureate-level programs in: Bioengineering; Chemical Engineering; Civil Engineering; Computer Engineering; Electrical Engineering; Environmental Engineering; Mechanical Engineering; and Ocean Engineering are accredited by the Engineering Accreditation Commission of ABET, Inc. The bachelor of science programs in Computer Science and Information Technology are accredited by the Computing Accreditation Commission of ABET, Inc. <https://www.abet.org>

The Department of Chemistry's undergraduate bachelor of science program is approved by the American Chemical Society.

<https://ceps.unh.edu/>

## Bioengineering (BENG)

Bioengineering, as defined by the NIH, is "the application of life sciences, mathematics, and engineering principles to define and solve problems in biology, medicine, health care, and other fields."

### Mission

Our Bioengineering program empowers students with broad preparation for pursuing careers related to biotechnology, biomedical and engineering fields.

### Program Educational Objectives

The bioengineering program seeks to provide an environment and opportunities that enable students to pursue their goals in an innovative program with a diversity of offerings that is rigorous and challenging.

The program has the following major educational objectives with the expectation that our alumni will have successful careers in the many diverse areas of bioengineering profession. Within a few years of obtaining a bachelor's degree in bioengineering, we expect our graduates to have the following attributes:

**Depth:** To be effective in applying life science concepts and bioengineering principles in engineering practice or for advanced study.

**Breadth:** To have productive careers in the many diverse areas of bioengineering or in pursuit of graduate studies in engineering, law, medicine or business.

**Professionalism:** To function effectively in the complex modern work environment with the ability to assume professional leadership roles.

## Faculty

<https://ceps.unh.edu/chemical-engineering/people>

## Bioengineering Major (B.S.)

<https://ceps.unh.edu/chemical-engineering/bioengineering-bs>

## Description

Bioengineering, as defined by the NIH, is "the application of life sciences, mathematics, and engineering principles to define and solve problems in biology, medicine, health care, and other fields."

The bioengineering program will train graduates in biology and physiology as well as engineering. The program will provide graduates with capabilities in advanced mathematics (including differential equations and statics), science, and engineering. Graduates will be conversant with solving problems at the interface of biology and engineering that may arise in the fields of biotechnology and pharmaceuticals, as well as medicine and biofuels. By graduation, students will have experience measuring and interpreting data from living

systems and addressing the interactions between living and non-living materials.

Students are required to obtain a minimum 2.0 grade-point average in CHE 501 Introduction to Chemical Engineering I/CHE 502 Introduction to Chemical Engineering II and in overall standing at the end of the sophomore year in order to continue in the major. Study abroad (Exchange) students are required to have a cumulative GPA of 3.0 or better in math, physics, chemistry, and other required courses at the end of the semester prior to their exchange semester.

For more information on the bioengineering program, please contact [Xiaowei Teng \(XW.Teng@unh.edu\)](mailto:XW.Teng@unh.edu), professor and chair.

## Requirements

### Major Requirements

Code	Title	Credits
BENG 763	Bioengineering Design I	2
BENG 764	Bioengineering Design II	4
BENG 766	Biomaterials	4
BMCB 658 & BMCB 659	General Biochemistry and General Biochemistry Lab	5
BMS 503	General Microbiology	3
BMS 504	General Microbiology Laboratory	2
BMS 508	Human Anatomy and Physiology II	4
BIOL 411	Introductory Biology: Molecular and Cellular	4
CHE 400	Chemical Engineering Lectures	1
CHE 501	Introduction to Chemical Engineering I	3
CHE 502	Introduction to Chemical Engineering II	3
CHE 601	Fluid Mechanics and Unit Operations	3
CHE 604	Chemical Engineering Thermodynamics	3
CHE 614	Separation Processes	3
CHE 761	Biochemical Engineering	4
CHE 762	Biomedical Engineering	4
CHEM 405	Chemical Principles for Engineers	4
CHEM 545 & CHEM 546	Organic Chemistry and Organic Chemistry Laboratory	5
GEN 604	Principles of Genetics	4
MATH 425	Calculus I	4
MATH 426	Calculus II	4
MATH 527	Differential Equations with Linear Algebra	4
MATH 644	Statistics for Engineers and Scientists	4
PHYS 407	General Physics I	4

### Electives

Select five courses from the following: <sup>1</sup>

BENG 725	Cell Phenotyping and Tissue Engineering Laboratory <sup>1</sup>
BENG 755	Computational Molecular Bioengineering <sup>1</sup>
BMCB 753	Cell Culture
BMS 507	Human Anatomy and Physiology I
BMS 702	Endocrinology
BMS 704	Pathologic Basis of Disease
BMS 706 & BMS 708	Virology and Virology Laboratory
CEE 502	Project Engineering <sup>1</sup>
CEE 705	Introduction to Sustainable Engineering <sup>1</sup>
CEE 724	Environmental Engineering Microbiology <sup>1</sup>
CHE 602	Heat Transfer and Unit Operations <sup>1</sup>
CHE 603	Applied Mathematics for Chemical Engineers <sup>1</sup>
CHE 651	Biotech Experience/Biomanufacturing <sup>1</sup>
CHE 703	Mass Transfer and Stagewise Operations <sup>1</sup>
CHE 707	Chemical Engineering Kinetics <sup>1</sup>
CHE 709	Fundamentals of Air Pollution and Its Control <sup>1</sup>
CHE 712	Introduction to Nuclear Engineering <sup>1</sup>
CHE 714	Chemical Sensors <sup>1</sup>
CHE #722	Introduction to Microfluidics <sup>1</sup>

CHE 752	Process Dynamics and Control <sup>1</sup>	
ECE 537	Introduction to Electrical Engineering <sup>1</sup>	
ECE 541	Electric Circuits <sup>1</sup>	
ECE 543	Introduction to Digital Systems <sup>1</sup>	
ECE 633	Signals and Systems I <sup>1</sup>	
ECE 633H	Honors/Signals and Systems I <sup>1</sup>	
ECE 717	Introduction to Digital Image Processing <sup>1</sup>	
ECE 784	Biomedical Instrumentation <sup>1</sup>	
GEN 711	Genomics and Bioinformatics	
or GEN 711W	Genomics and Bioinformatics	
GEN 712	Programming for Bioinformatics	
GEN 717	Molecular Microbiology	
GEN 771	Molecular Genetics	
GEN 774	Techniques in Plant Genetic Engineering and Biotechnology <sup>1</sup>	
TECH 780	Intellectual Property Law for Engineers & Scientists	
<b>Total Credits</b>		<b>85</b>

<sup>1</sup> At least four of the elective courses must be engineering.

<sup>1</sup> MATH 425 Calculus I satisfies the Discovery Foundation Quantitative Reasoning category.

<sup>2</sup> CHEM 405 Chemical Principles for Engineers satisfies the Discovery Physical Science (with lab) category.

<sup>3</sup> ENGL 401 First-Year Writing satisfies the Discovery Foundation Writing Skills category.

<sup>4</sup> BIOL 411 Introductory Biology: Molecular and Cellular satisfies the Discovery Biological Science (with lab) category.

<sup>5</sup> CHE 502 Introduction to Chemical Engineering II satisfies the Discovery Inquiry category.

The Discovery ETS category requirement is met upon receiving a passing grade in CHE 400 Chemical Engineering Lectures; CHE 761 Biochemical Engineering; CHE 762 Biomedical Engineering; BENG 763 Bioengineering Design I; BENG 764 Bioengineering Design II. Students who do not complete these courses must take a Discovery ETS course to fulfill the requirement.

34 credits engineering, 16 credits math, 14 credits chemistry, 16 credits life science

Five electives: 15 to 16 credits engineering; 4 credits science, math, or engineering

## Student Learning Outcomes

- The ability to apply knowledge of mathematics, physical and life science and engineering.
- The ability to design and safely conduct experiments on living cells and nonliving materials.

- The ability to analyze and interpret data The ability to identify, formulate and solve bioengineering problems.
- The ability to design a process or device that meets desired specifications with consideration of environmental, safety, economic and ethical criteria.
- An appreciation of contemporary issues relevant to bioengineering.
- Completed the Discovery program and obtained a broad education useful to understand the impact of engineering solutions in a global and societal context.
- The ability to use computers effectively for engineering practice.

## Chemical Engineering (CHE)

The Department of Chemical Engineering currently offers the undergraduate degree program in chemical engineering with options in bioengineering, energy engineering, and environmental engineering.

The B.S. program in chemical engineering is accredited by the:

Engineering Accreditation Commission of ABET  
111 Market Place  
Suite 1050  
Baltimore, MD 21202-4012  
(410) 347-7700

Chemical engineering is concerned with the analysis and design of processes that deal with the transfer and transformation of energy and material into products of high value.

The practice of chemical engineering includes the conception, development, design, and application of physicochemical processes and their products; the development, design, construction, operation, control, and management of plants for these processes; and activities relating to public service, education, and research.

The curriculum prepares students for productive careers in industry or government and provides a foundation for graduate studies. The college's program emphasizes chemical engineering fundamentals while offering opportunities for focused study in energy, environmental, or bio-engineering.

Traditional employment areas in the chemical process industries include industrial chemicals, petroleum and petrochemicals, plastics, pharmaceuticals, metals, textiles, and food. Chemical engineers are also working in increasing numbers in the areas of energy engineering, pollution abatement, and biochemical and biomedical engineering; in addition, they are employed by many government laboratories and agencies as well as private industries and institutions.

## Mission

The department strives to prepare students for productive careers in industry or government as well as to provide a foundation for graduate studies. The program emphasizes chemical engineering fundamentals while offering opportunities for focused study in energy, environmental, or bio-engineering.

## Program Educational Objectives

The chemical engineering program seeks to provide an environment that enables students to pursue their goals in an innovative, rigorous, and challenging program with a diversity of offerings.

The program has the following major educational objectives with the expectation that our alumni will have successful careers in the many diverse areas of the chemical engineering profession. Within a few years of obtaining a bachelor's degree in chemical engineering, we expect our graduates to have the following attributes:

**Depth.** To be effective in applying chemical engineering principles in engineering practice or for advanced study in chemical engineering.

**Breadth.** To have a productive career in the many diverse fields of chemical engineering such as bio-engineering, energy, and the environment, or in the pursuit of graduate education in disciplines such as chemical engineering, medicine, law, or business.

**Professionalism.** To function effectively in the complex modern work environment with the ability to assume professional leadership roles.

## Chemical Engineering Major (B.S.)

<https://ceps.unh.edu/chemical-engineering/program/bs/chemical-engineering-major>

## Description

Chemical engineering is concerned with the analysis and design of processes that deal with the transfer and transformation of energy and material.

The practice of chemical engineering includes the conception, development, design, and application of physicochemical processes and their products; the development, design, construction, operation, control, and management of plants for these processes; and activities relating to public service, education, and research.

The curriculum prepares students for productive careers in industry or government and provides a foundation for graduate studies. The program emphasizes chemical engineering fundamentals while offering opportunities for focused study in energy, environmental, or bio-engineering.

Traditional employment areas in the chemical process industries include industrial chemicals, petroleum and petrochemicals, plastics, pharmaceuticals, metals, textiles, and food. Chemical engineers also are working in increasing numbers in the areas of energy engineering, pollution abatement, and biochemical and biomedical engineering;

in addition, they are employed by many government laboratories and agencies as well as private industries and institutions.

Graduates from the program have the ability to apply knowledge of mathematics, science, and engineering to identify, formulate, and solve chemical engineering problems as well as to design and conduct experiments safely and analyze and interpret data. They are prepared to pursue advanced studies in chemical engineering. Program graduates gain a sense of professional and ethical responsibility with the ability to apply environmental, safety, economic, and ethical criteria in the design of engineering processes. They learn to function in individual and group working environments, and learn skills in written and oral communication and the effective use of computers for engineering practice, including information search in the library and on the Internet. They also understand the need for lifelong learning and the significance of societal and global issues relevant to chemical engineering.

A minimum of 129 credits is required for graduation with the degree of bachelor of science in chemical engineering. There are ten electives in the chemical engineering curriculum. Six of these are for the Discovery Program requirements. The remaining four electives should consist of three chemical engineering electives and one additional technical elective.

Students are required to obtain a minimum 2.0 grade-point average in CHE 501 Introduction to Chemical Engineering I-CHE 502 Introduction to Chemical Engineering II and in overall standing at the end of the sophomore year in order to continue in the major. Study abroad (Exchange) chemical engineering students are required to have a cumulative GPA of 3.0 or better in math, physics, chemistry, and CHE courses at the end of the semester prior to their exchange semester.

## Requirements

CHE 708	Chemical Engineering Design <sup>6</sup>	4
CHE Electives		4
Discovery Elective <sup>7</sup>		4
<b>Credits</b>		<b>15</b>
<b>Total Credits</b>		<b>129</b>

<sup>1</sup> ENGL 401 First-Year Writing satisfies the Discovery Foundation Writing Skills category.

<sup>2</sup> MATH 425 Calculus I satisfies the Discovery Foundation Quantitative Reasoning category.

<sup>3</sup> PHYS 407 General Physics I or CHEM 405 Chemical Principles for Engineers satisfies the Discovery Physical Science (with lab) category.

<sup>4</sup> CHE 502 Introduction to Chemical Engineering II satisfies the Discovery Inquiry requirement.

<sup>5</sup> MATH 740 Design of Experiments I or MATH 644 Statistics for Engineers and Scientists is the recommended technical elective.

<sup>6</sup> CHE 708 Chemical Engineering Design satisfies the Discovery Capstone Experience/Course.

<sup>7</sup> CHE students do not have to take a course in the Discovery ETS category since they satisfy this requirement through a combination of courses in the CHE curriculum.

- Completed the UNH general education/Discovery program and obtained a broad education useful to understand the impact of engineering solutions in a global and societal context.
- The ability to use computers effectively for engineering practice.
- An appreciation of professional and ethical responsibility.
- The ability to communicate effectively.
- Skills to search for information in the library and on the internet. These skills will be used in their pursuit of lifelong learning.
- The capacity to function and work effectively alone and in a team environment.

## Chemical Engineering Major: Bioengineering Option (B.S.)

<https://ceps.unh.edu/chemical-engineering/program/bsche/chemical-engineering-major-bioengineering-option>

### Description

Under this option, the required courses deal with the application of basic biological sciences and chemical engineering principles to the design and operation of large-scale bioprocesses for the production of high-value medicinal, food and beverage, pharmaceutical, biomedical, genetic engineering, and health care products. The elective courses permit the student to study topics of special interest in more depth or gain a broader perspective in bioengineering or some closely related subjects such as biochemistry or biotechnology experience in manufacturing or research. Three courses are required, and a minimum of two additional courses of at least three credits each should be selected from the electives list. Students interested in the bioengineering option should declare their intention to the department faculty during the sophomore year.

### Requirements

Code	Title	Credits
<b>Required Courses</b>		
CHE 400	Chemical Engineering Lectures	1
CHE 501	Introduction to Chemical Engineering I	3
CHE 502	Introduction to Chemical Engineering II	3
CHE 601	Fluid Mechanics and Unit Operations	3
CHE 602	Heat Transfer and Unit Operations	3
CHE 603	Applied Mathematics for Chemical Engineers	4
CHE 604	Chemical Engineering Thermodynamics	3
CHE 612	Chemical Engineering Laboratory I	3
CHE 614	Separation Processes	3
CHE 703	Mass Transfer and Stagewise Operations	3
CHE 707	Chemical Engineering Kinetics	3
CHE 708	Chemical Engineering Design	4
CHE 713	Chemical Engineering Laboratory II	3
CHE 752	Process Dynamics and Control	4
CHEM 405	Chemical Principles for Engineers	4

- An appreciation of professional and ethical responsibility.
- The ability to communicate effectively.
- Skills to search for information in the library and on the internet. These skills will be used in their pursuit of lifelong learning.
- The capacity to function and work effectively alone and in a team environment.

## Chemical Engineering Major: Energy Option (B.S.)

<https://ceps.unh.edu/chemical-engineering/energy-option>

### Description

This option covers the major areas of current interest in the energy field. The required courses provide students with a general background knowledge of fossil fuels, nuclear power, solar energy, and other alternative energy resources. The elective courses will permit the student to study topics of special interest in more depth or gain a broader perspective on energy and some closely related subjects. Three courses are required, and a minimum of two additional courses of at least three credits each should be selected from the electives list. Students interested in the energy option should declare their intention to the department faculty during the sophomore year.

Special Topics on Energy <sup>1</sup>		
<b>Total Credits</b>		<b>104-105</b>

<sup>1</sup> This requires approval of the department; students should check with their advisor. Courses offered in the past include Renewable Electrical Power, Renewable Energy, and Peak Oil.

## Student Learning Outcomes

- The ability to apply knowledge of mathematics, science and engineering.
- The ability to design and conduct experiments safely, as well as to analyze and interpret data.
- The ability to identify, formulate and solve chemical engineering problems.
- The ability to design a process that meets desired specifications with consideration of environmental, safety, economic and ethical criteria.
- An appreciation of contemporary issues relevant to chemical engineering.

- Completed the UNH general education/Discovery program and obtained a broad education useful to understand the impact of engineering solutions in a global and societal context.
- The ability to use computers effectively for engineering practice.
- An appreciation of professional and ethical responsibility.
- The ability to communicate effectively.
- Skills to search for information in the library and on the internet. These skills will be used in their pursuit of lifelong learning.
- The capacity of function and work effectively alone and in a team environment.

## Chemical Engineering Major: Environmental Engineering Option (B.S.)

<https://ceps.unh.edu/chemical-engineering/environmental-engineering-option>

### Description

The chemical engineering program, with its substantial requirements in chemistry, fluid dynamics, heat transfer, mass transfer, unit operations, and reaction kinetics, provides students with a unique preparation to deal with many aspects of environmental pollution problems. The option gives students a special focus on the application of chemical engineering principles and processes to the solution of problems relating to air pollution, water pollution, and the disposal of solid and hazardous waste. Three required courses must be selected, plus two electives from the electives list. Each course must carry a minimum of three credits. Students interested in the environmental engineering option should declare their intention to the department faculty during the sophomore year.

- Skills to search for information in the library and on the internet. These skills will be used in their pursuit of lifelong learning.
- The capacity of function and work effectively alone and in a team environment.

## Chemistry (CHEM)

Chemistry is a dynamic, an extremely creative, and yet also a practical discipline. Chemists *analyze* and *quantitate*, like when testing environmental or forensic samples; they *measure* specific characteristics of substances, like the defects present in a material, or the optical properties of atmospheric particles; they *design* and *synthesize* new substances, like antibiotics, catalysts for hydrogen production, and polymers for flexible electronics; they also generate *models* and *theories* that can explain what happens in the laboratory or in Nature. Chemistry is integral to modern science and, ultimately, most phenomena in biology, engineering, environmental science, geology, materials science, and medicine can be described in terms of the chemical and physical behavior of atoms and molecules—because of this, chemistry is often called “The Central Science”. Chemists are vital members of the interdisciplinary teams tackling the complicated problems facing our world, including issues in energy, health, security, and defense. Chemists are essential in developing the technologies and materials that support modern life!

The study of chemistry provides students with the critical thinking and problem-solving skills necessary to be successful in a wide variety of careers. You'll find chemists in many industries, including agricultural/food products, biotechnology, coatings, materials, paper, personal care products, petrochemicals, pharmaceuticals, plastics, renewable energy, semiconductors, and solar cells. Chemists are also involved in environmental and health-related sciences, making public policies, patent law and intellectual property, and educating future generations of scientists.

Students are also well-prepared for graduate-level work in chemistry, chemical biology, chemical physics, biochemistry, biophysics, materials chemistry, and other related fields. Students who excel in undergraduate chemistry coursework are often able to obtain funding for their graduate work through teaching or research assistantships and fellowships. Chemistry majors have also been successful in a variety of professional programs where they have studied medicine, pharmacy, dentistry, veterinary medicine, business, or law.

The chemistry program at The University of New Hampshire is small enough to be personal, but broad enough to provide excellent opportunities for challenge and growth. Students interested in pursuing chemistry as an undergraduate degree have two options available to them. These are the Bachelor of Science in Chemistry (B.S.) degree and a Bachelor of Arts (B.A.) degree. The B.S. Chemistry degree is certified by the American Chemical Society; the B.A. degree may also lead to ACS certification, depending on program plan. Since the required courses for each degree program are very similar in the first and second years, it is easy to change from one program to another. A chemistry faculty adviser is assigned to a student once she/he enters the program. The student's adviser provides academic guidance concerning the choice of courses to meet both major and university requirements.

- [Chemistry Major \(B.S.\)](#) (p. 167)
- [Chemistry Minor](#) (p. 168)

## Faculty

<https://ceps.unh.edu/chemistry/people>

## Chemistry Major (B.A.)

<https://ceps.unh.edu/chemistry/program/ba/chemistry-major>

## Description

### Chemistry Major (B.A.)

The B.A. degree exposes students to the major fields of chemistry but provides more flexibility in course selection than the B.S. degree. The curriculum offers a comprehensive introduction to chemistry's traditional subdisciplines (analytical, inorganic, organic, and physical chemistry) via foundational classroom and laboratory experiences. Undergraduate research is an option, but not a requirement for this degree. The B.A. degree is directed towards students who have interdisciplinary interests

and are not planning to either attend a traditional graduate program in chemistry or find immediate employment in the chemical industry. Instead, this degree is geared toward students who plan to attend graduate school in an interdisciplinary field where chemical knowledge will be beneficial, and students who are interested in chemistry but plan to pursue post-graduate degrees in the health sciences, education, business, or other pre-professional programs. With careful selection of elective courses, the B.A. degree may also lead to American Chemical Society certification.

## Requirements

### Required Courses

Code	Title	Credits
CHEM 400	Freshman Seminar	1
CHEM 403	General Chemistry I	4
CHEM 404	General Chemistry II	4
CHEM 517 & CHEM 518	Quantitative Analysis and Quantitative Analysis Laboratory	5
CHEM 547 & CHEM 549	Organic Chemistry I and Organic Chemistry Laboratory	5
CHEM 548 & CHEM 550	Organic Chemistry II and Organic Chemistry Laboratory	5
CHEM 574 & CHEM 576	Chemistry Across the Periodic Table and Experimental Inorganic Chemistry	6
CHEM 683 & CHEM 685	Physical Chemistry I and Physical Chemistry Laboratory	5
CHEM 684 & CHEM 686	Physical Chemistry II and Physical Chemistry Laboratory	5
CHEM 762 & CHEM 763	Instrumental Methods of Chemical Analysis and Instrumental Methods of Chemical Analysis Laboratory	5
CHEM 798	Senior Seminar <sup>1</sup>	1
MATH 425	Calculus I	4
MATH 426	Calculus II	4
PHYS 407 or PHYS 401 & PHYS 402	General Physics I Introduction to Physics I and Introduction to Physics II	4
Total Credits		58

<sup>1</sup> CHEM 798 Senior Seminar satisfies the Discovery Capstone experience requirement. Students work with the instructor to prepare presentations based on a research project or chemistry-related professional engagement. This is a Writing Intensive course.

## Degree Plan

This is the suggested degree plan for B.A. Chemistry majors. A student can alter this plan in consultation with an academic adviser.

## Student Learning Outcomes

At the time of graduate, a student should be able to:

- **Reason with Chemistry's anchoring concepts:** that matter consists of atoms that have internal structures that dictate their chemical and physical behavior; that atoms interact via electrostatic forces to form chemical bonds that chemical compounds have geometric structures that influence their chemical and physical behaviors; that intermolecular forces—electrostatic forces between molecules—dictate the physical behavior of matter; that matter changes, forming products that have new chemical and physical properties that energy is the key currency of chemical reactions in molecular scale systems as well as macroscopic systems; that chemical changes have a time scale over which they occur; that all chemical changes are, in principle, reversible, and chemical processes often reach a state of dynamic equilibrium; that Chemistry is generally advanced via experimental observations; and that Chemistry constructs meaning interchangeably at the particulate and macroscopic levels.
- **Use Chemistry's cross-cutting concepts to interrogate and explain phenomena:** chemical identity (how do we identify chemical substances?); structure-property relationships (how do we predict the properties of materials?); chemical causality (why do chemical processes occur?); chemical mechanism (how do chemical processes occur?); chemical control (how can we control chemical processes?); benefits-costs-risks (how do we evaluate the impacts of chemically transforming matter?)

- **Demonstrate the following general scientific practices when displaying knowledge of chemical ideas and concepts:** asking questions; developing and using models; constructing explanations; planning and carrying out investigations; engaging in argument from evidence; analyzing and interpreting data; using mathematics and computational thinking; obtaining, evaluating, and communicating information OR Demonstrate the following Chemistry core practices when displaying knowledge of chemical ideas and concepts (a) analysis: development and application of strategies for detecting, identifying, separating, and quantifying chemical substances (b) synthesis: the design of new substances and synthetic routes (c) transformation: controlling chemical processes for non-synthetic purposes.

## Chemistry Major (B.S.)

<https://ceps.unh.edu/chemistry/program/bs/chemistry-major>

### Description

#### Chemistry Major (B.S.)

The B.S. Chemistry degree is certified by the American Chemical Society and provides a deep, rigorous experience that prepares students for graduate work or a career in chemical industry and related fields. The curriculum offers thorough training in the major fields of chemistry, covering analytical, inorganic, organic, and physical chemistry, as well as biochemistry and chemical biology. Students gain laboratory experience in molecular synthesis and characterization, chemical biology, analytical and instrumental methods, physical chemical measurements and data analysis, and spectroscopy. At the same time, the program requires students to participate in scientific inquiry, via both advanced laboratory experiences and independent research.

### Requirements

#### Required Courses

Code	Title	Credits
CHEM 400	Freshman Seminar	1
CHEM 403	General Chemistry I	4
CHEM 404	General Chemistry II	4
CHEM 517 & CHEM 518	Quantitative Analysis and Quantitative Analysis Laboratory	5
CHEM 547 & CHEM 549	Organic Chemistry I and Organic Chemistry Laboratory	5
CHEM 548 & CHEM 550	Organic Chemistry II and Organic Chemistry Laboratory	5
CHEM 574 & CHEM 576	Chemistry Across the Periodic Table and Experimental Inorganic Chemistry	6
BMCB 658 or CHEM 740	General Biochemistry <sup>1, 3</sup> Chemical Biology	3
CHEM 683 & CHEM 685	Physical Chemistry I and Physical Chemistry Laboratory	5
CHEM 684 & CHEM 686	Physical Chemistry II and Physical Chemistry Laboratory	5
CHEM 755	Advanced Organic Chemistry	3
CHEM 762 & CHEM 763	Instrumental Methods of Chemical Analysis and Instrumental Methods of Chemical Analysis Laboratory	5
CHEM 774	Inorganic Chemistry	3
CHEM 776	Physical Chemistry III	3
CHEM 777	Advanced Synthesis and Characterization	3
CHEM 798	Senior Seminar	1
CHEM 799	Senior Thesis <sup>2</sup>	8
MATH 425	Calculus I	4

MATH 426	Calculus II	4
PHYS 407	General Physics I	4
PHYS 408	General Physics II	4
Total Credits		85

- <sup>1</sup> BMCB 658 General Biochemistry satisfies the Discovery Biological Sciences requirement (for BS Chem majors only)
- <sup>2</sup> CHEM 799 Senior Thesis is a year-long experience of 4 credits per semester and satisfies the Discovery Capstone Experience requirement.
- <sup>3</sup> **CHEM 740** Chemical Biology meets the ACS BIOCHEM requirement. Students can take CHEM 740 or BCMB 658. **CHEM 740 DOES NOT meet the Biological Sciences Discovery criteria. Students can meet this requirement with one of their discovery electives.**

### Degree Plan

## Student Learning Outcomes

- Reason with Chemistry's anchoring concepts: that matter consists of atoms that have internal structures that dictate their chemical and physical behavior; that atoms interact via electrostatic forces to form chemical bonds that chemical compounds have geometric structures that influence their chemical and physical behaviors; that intermolecular forces—electrostatic forces between molecules—dictate the physical behavior of matter; that matter changes, forming products that have new chemical and physical properties that energy is the key currency of chemical reactions in molecular scale systems as well as macroscopic systems; that chemical changes have a time scale over which they occur; that all chemical changes are, in principle, reversible, and chemical processes often reach a state of dynamic equilibrium; that Chemistry is generally advanced via experimental observations; and that Chemistry constructs meaning interchangeably at the particulate and macroscopic levels.
- Use Chemistry's cross-cutting concepts to interrogate and explain phenomena: chemical identity (how do we identify chemical substances?); structure-property relationships (how do we predict the properties of materials?); chemical causality (why do chemical processes occur?); chemical mechanism (how do chemical processes occur?); chemical control (how can we control chemical processes?); benefits-costs-risks (how do we evaluate the impacts of chemically transforming matter?).
- Demonstrate the following general scientific practices when displaying knowledge of chemical ideas and concepts: asking questions; developing and using models; constructing explanations; planning and carrying out investigations; engaging in argument from evidence; analyzing and interpreting data; using mathematics and computational thinking; obtaining, evaluating, and communicating information OR demonstrate the following Chemistry core practices when displaying knowledge of chemical ideas and concepts (a) analysis: development and application of strategies for detecting, identifying, separating, and quantifying chemical substances (b)synthesis: the design of new substances and synthetic routes (c)transformation: controlling chemical processes for non-synthetic purposes.

## Chemistry Minor

<https://ceps.unh.edu/chemistry/chemistry-minor>

## Description

If you are interested in obtaining a Chemistry Minor, please contact Cindi Rohwer, Academic Department Coordinator, Chemistry Department Office at (603) 862-1795 or [Cindi.Rohwer@unh.edu](mailto:Cindi.Rohwer@unh.edu). She will connect you to our Intent to Minor form and the Chemistry Department Undergraduate Coordinator so you can discuss your plans to minor in Chemistry.

## Requirements

1. Complete a total of 20 credit hours in Chemistry (CHEM) courses.
2. A minimum of 12 credit hours at the 500 level or higher are required.
3. Chemistry courses for the minor cannot be completed on a pass/fail basis.
4. Grade of C- or better is required in all chemistry minor coursework.
5. A cumulative GPA of 2.00 is required for all chemistry minor coursework.
6. Biochemistry (BMCB) courses do not count toward a chemistry minor.
7. Transfer credits can only be applied to the minor with permission of the Chemistry Department Undergraduate Coordinator or Chair. Maximum of 8 transfer credit hours. Transfer courses must meet minimum grade requirements.
8. The following courses can NOT be applied to the Chemistry minor: CHEM 400, CHEM 408, CHEM 409, CHEM 411, CHEM 413, CHEM 501, CHEM 502, CHEM 503 and CHEM 798.

## Civil and Environmental Engineering (CEE)

<https://ceps.unh.edu/civil-environmental-engineering>

### Overview

Civil and Environmental Engineering involves the sustainable planning, design, and construction of public works for the benefit of society while minimizing environmental impact. Civil Engineering concerns the design of buildings, bridges, roads, dams, water transmission systems, water treatment systems, tunnels, and more. Environmental Engineering specializes in environmental cleanup, drinking water systems, wastewater treatment systems, and solid and hazardous waste disposal systems, environmental remediation, all with consideration of people, planet, and profits - known as the triple bottom line. Resulting infrastructure facilities must provide efficient service, be cost effective, and be compatible with the environment. Moreover, civil and environmental engineers work under a code of ethics in which their primary, overriding responsibility, is to uphold the public's trust by working to plan, design, build, and restore safe, sustainable, and environmentally responsible public works.

The Department of Civil and Environmental Engineering has two degree programs: one resulting in a Bachelor of Science in Civil Engineering (the BSCIVE) and another resulting in a Bachelor of Science in Environmental Engineering (the BSENVE). Both programs are accredited by ABET.

As civil engineering is such a broad field, it is traditionally divided into sub-disciplines. At the University of New Hampshire, multiple courses are offered in six: transportation, environmental engineering, geotechnical engineering, structural engineering, sustainable engineering, and water resources engineering.

Environmental engineering focuses on environmental pollution and public health protection; water, wastewater, reuse and stormwater technology; solid and hazardous waste engineering and remediation; engineering

sustainability; environmental microbiology and chemistry; contaminant transport and fate, hydraulics, and hydrology.

Students may readily transfer between the BSCIVE and BSENVE programs within the first three semesters. Transferring between the two programs is also possible later on in the programs, but additional courses may result.

Both engineering degrees provide a firm base in mathematics and engineering, and all majors are expected to develop excellent communication and computer skills. Graduates are prepared to enter the profession and to pursue advanced study. Because of the broad technical background attained, some graduates also successfully pursue further education in business, architecture, education, and law.

### Mission

The mission of the Department of Civil and Environmental Engineering at the University of New Hampshire is fourfold:

- To pursue and disseminate knowledge through teaching, scholarship, outreach and public service.
- To provide excellent undergraduate and graduate education.
- To advance the state-of-the-art in science and engineering by conducting research.
- To enhance the quality of life for people in New Hampshire, New England, and beyond.

### BSCIVE Program Overview

Civil engineers work as private consultants, for large contracting firms, and for government agencies in a wide variety of indoor and outdoor settings around the world. There is a strong and constant market for civil engineers due to the demands placed on the profession to design, construct, maintain, and repair the infrastructure.

### Educational Objectives

In accordance with its University, College, and Department missions, the faculty of the Department of Civil & Environmental Engineering has established clear educational objectives for our BSCIVE graduates, five years after obtaining the degree:

1. Professional employment, primarily in the civil and environmental engineering disciplines.
2. Commitment to continuous learning through graduate and post-graduate education, coursework, and research.
3. Being resourceful in finding solutions, and retaining ownership and accountability for their work.
4. Positions of leadership, directing the work of others.
5. Professional licensure or certification in civil and environmental engineering disciplines and other professions.
6. Positions and active participation in community, public, and professional service.

### Student Outcomes

To enable our graduates to achieve our educational objectives, the BSCIVE program is designed to provide the following student outcomes at the time of graduation:

1. To have obtained a working knowledge<sup>1</sup> in the civil engineering areas of environmental, geotechnical, materials, structural, sustainability, and water resources.

2. To be able to locate, assess, and compile data, and to conduct experiments to gather data, and analyze and interpret data using engineering judgement to draw conclusions.
3. To have an ability to acquire and apply new knowledge, techniques, skills, and software necessary for engineering practice.
4. To be able to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, use project management skills to establish goals, plan tasks, and meet objectives.
5. To be able to effectively communicate and support ideas in documents and presentations to a range of audiences.
6. To be able to apply principles of mathematics, science, and engineering to identify, formulate, and solve complex engineering problems.
7. To have been prepared for the Fundamentals of Engineering examination and understand the importance of professional licensure.
8. To have an ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, social, economic, public policy, and environmental issues.
9. To recognize the roles and responsibilities of public institutions, private organization, and businesses in project development, management, and regulatory compliance.
10. To be able to apply engineering design to produce solutions<sup>2</sup> that meet specified needs with consideration of public health, safety, and welfare as well as global, cultural, social, environmental, and economic factors.

<sup>1</sup> A “working knowledge” is defined as understanding and being able to apply a sub-discipline in analysis and design as demonstrated by successful completion of two or more courses with a substantial focus in at least four sub-disciplines.

<sup>2</sup> “Solutions” consists of systems, components, or processes that may consider risk, uncertainty, sustainability, life-cycle principles, and environmental impacts.

## BSENV Program Overview

Environmental engineers work as private consultants, in industry and for government agencies in a wide variety of indoor and outdoor settings around the world. There is a strong and constant market for environmental engineers due to the demands placed on the profession to construct, maintain, and repair the drinking water, wastewater, water reuse and stormwater, and solid and hazardous waste management infrastructure. The curriculum prepares students to plan, using triple bottom line considerations, and design systems to minimize the impact of human activity on the environment and protect human health.

## Educational Objectives

In accordance with its University, College, and Department missions, the faculty of the Department of Civil & Environmental Engineering has established clear educational objectives for our BSENV graduates, five years after obtaining the degree:

1. Professional employment, primarily in the environmental engineering disciplines.
2. Commitment to continuous learning through graduate and post-graduate education, coursework, and research.

3. Being resourceful in finding solutions and retaining ownership and accountability for their work.

4. Positions of leadership, directing the work of others.

5. Professional licensure or certification in environmental engineering discipline and other professions.

6. Positions and active participation in community, public, and professional service.

## Student Outcomes

To enable our graduates to achieve our educational objectives, the BSENV program is designed to provide the following student outcomes at the time of graduation:

1. To have obtained a working knowledge<sup>1</sup> in the environmental engineering areas of water and wastewater treatment, environmental health and safety, solid and hazardous waste engineering, sustainability, and water resources.
2. To be able to locate, assess, and compile data, and to conduct experiments to gather data, and analyze and interpret data using engineering judgement to draw conclusions.
3. To have an ability to acquire and apply new knowledge, techniques, skills, and software necessary for engineering practice.
4. To be able to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, use project management skills to establish goals, plan tasks, and meet objectives.
5. To be able to effectively communicate and support ideas in documents and presentations to a range of audiences.
6. To be able to apply principles of mathematics, science, and engineering to identify, formulate, and solve complex engineering problems.
7. To have been prepared for the Fundamentals of Engineering examination and understand the importance of professional licensure.
8. To have an ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, social, economic, public policy, and environmental issues.
9. To recognize the roles and responsibilities of public institutions, private organization, and businesses in project development, management, and regulatory compliance.
10. To be able to apply engineering design to produce solutions<sup>2</sup> that meet specified needs with consideration of public health, safety, and welfare as well as global, cultural, social, environmental, and economic factors.

<sup>1</sup> A “working knowledge” is defined as understanding and being able to apply a sub-discipline in analysis and design as demonstrated by successful completion of two or more courses with a substantial focus in at least four sub-disciplines.

<sup>2</sup> “Solutions” consists of systems, components, or processes that may consider risk, uncertainty, sustainability, life-cycle principles, and environmental impacts.

## Programs

- [Environmental Engineering Major \(B.S.\)](#) (p. 174)
- [Environmental Engineering Minor](#) (p. 176)

## Faculty

<https://ceps.unh.edu/cee/faculty-staff-directory>

## Civil Engineering Major (B.S)

<https://ceps.unh.edu/civil-environmental-engineering/program/bs/civil-engineering-major>

## Description

Matriculating students should have strong aptitudes in mathematics and science along with imagination, spatial and graphic abilities, communication skills, and creativity. Students then follow a four-year program that conforms to the guidelines of, and is accredited by the Engineering Accreditation Commission of ABET, the global accreditor of college and university programs in applied and natural science, computing, engineering and engineering technology. ABET accreditation assures that programs meet standards to produce graduates ready to enter critical technical fields that are leading the way in innovation and emerging technologies, and anticipating the welfare and safety needs of the public.

The first two years of the program provide the necessary technical knowledge in mathematics, chemistry, and physics, while introducing and developing problem-solving techniques in eight courses tailored to civil engineering students. The junior year provides courses in each of the civil engineering sub-disciplines, providing students with skills in each and allowing students to determine which they wish to pursue further. The senior year is flexible, allowing students to choose where to focus attention by selecting from more than forty elective courses in civil and environmental engineering.

The required curriculum includes seven writing-intensive courses, thereby not only satisfying, but exceeding, the University's writing requirement. (See University Academic Requirements.)

Additional opportunities exist for study abroad, cognates, minors, and dual majors, a three-year accelerated track, and early admission into two masters of science degree programs.

## Requirements

More than half of the major's total credits and nearly all of the senior-level courses are elected by the student. Of these, there are Discovery Program electives required by the University and other electives required by the department in order to satisfy departmental objectives and accreditation requirements.

The Discovery Program is described in University Academic Requirements. Courses required by the BSCIVE program fulfill Discovery

requirements in Inquiry and Environment, Technology, and Society; Writing Skills; Quantitative Reasoning; Physical Sciences and Discovery Lab; and Capstone.

To graduate with a bachelor of science in civil engineering, a student must achieve the following: 129 or more credits, credit for the civil engineering program's major and elective courses, satisfaction of the University's Discovery Program requirements, satisfaction of the University's writing-intensive course requirements, a cumulative grade-point average of 2.0 or better for all courses, and a cumulative grade-point average of 2.0 or better in all CEE courses.

Code	Title	Credits
<b>Major Requirements</b>		
CEE 400	Introduction to Civil Engineering	4
CEE 402	2D Computer Aided Design	3
CEE 403	GIS for Civil and Environmental Engineering	3

<b>Electives</b>		
Choose seven courses from the "700-level CEE Electives Course List" below with the following restrictions:		
1. Courses must be taken in four of six different areas (sustainability, environmental, transportation, water resources, geotechnical, structural).		
2. At least three design courses; including one Project-based Design Elective PDE course.		
3. One of the seven 700-level courses is a senior technical elective.		
Design/Area Elective (Project-based Design Elective PDE)		3-4
Design/Area Elective		3-4
Design/Area Elective		3-4
Area Elective		3-4
CEE Elective		3-4
CEE Elective		3-4
Senior Technical Elective (choose a course from the "700-level CEE Electives Course List" below, CEPS 700-level course, GEOG 757, INCO 795, NR 757, TECH 750, or TECH 780).		3-4
<b>700-Level CEE Electives Course List</b>		
Project-based Design Elective (PDE) courses:		
CEE 733	Public Infrastructure Asset Management	
CEE #734	Bioenvironmental Engineering Design	
CEE 749 & CEE 748	Pavement Design and Analysis and Pavement Design Project	
CEE 755	Design of Pressurized Water Transmission Systems	
CEE 758	Stormwater Management Designs	
CEE 759	Stream Restoration	
CEE 778	Foundation Design I	

CEE 791	Reinforced Concrete Design
CEE 793	Structural Design in Steel
Additional Design courses:	
CEE 719	Green Building Design
CEE 730	Public Health Engineering for Rural and Developing Communities
CEE 731	Advanced Water Treatment Processes
CEE 732	Solid and Hazardous Waste Design
CEE 779	Foundation Design II
CEE 789	Timber Design
CEE 790	Structural Design in Masonry
CEE 792	Pre-stressed Concrete
CEE 794	Bridge Design
Structural Engineering (STR) area courses:	
CEE 735	Properties and Production of Concrete
CEE 780	Matrix Structural Analysis and Modeling
CEE 781	Dynamics of Structures
CEE 789	Timber Design
CEE 790	Structural Design in Masonry
CEE 791	Reinforced Concrete Design
CEE 792	Pre-stressed Concrete
CEE 793	Structural Design in Steel
CEE 794	Bridge Design
Geotechnical Engineering (GEO) area courses:	
CEE 765	Engineering Behavior of Soils
CEE 766	Introduction to Geotechnical Earthquake Engineering
CEE 767	Geological Engineering
CEE 768	Geo-Environmental Engineering
CEE 778	Foundation Design I
CEE 779	Foundation Design II
Transportation (TRA) area courses:	
CEE 704	Transportation Eng & Planning
CEE 733	Public Infrastructure Asset Management (PDE)
CEE 735	Properties and Production of Concrete
CEE 736	Asphalt Mixtures and Construction
CEE 737	Pavement Rehabilitation, Maintenance, and Management
CEE 749	Pavement Design and Analysis
Water Resources WAT area courses:	
CEE #750	Ecohydrology
CEE 751	Open Channel Flow
CEE 754	Engineering Hydrology
CEE 755	Design of Pressurized Water Transmission Systems
CEE #757	Coastal Engineering and Processes
CEE 758	Stormwater Management Designs
CEE 759	Stream Restoration
Environmental Engineering (ENV) area courses:	
CEE 720	Solid and Hazardous Waste Engineering
CEE 721	Environmental Sampling and Analysis
CEE 722	Introduction to Marine Pollution and Control
CEE 723	Environmental Water Chemistry
CEE 724	Environmental Engineering Microbiology
CEE 730	Public Health Engineering for Rural and Developing Communities
CEE 731	Advanced Water Treatment Processes
CEE 732	Solid and Hazardous Waste Design
CEE 733	Public Infrastructure Asset Management
CEE #734	Bioenvironmental Engineering Design (PDE)
CEE 768	Geo-Environmental Engineering
Sustainability (SUS) area courses:	
CEE 705	Introduction to Sustainable Engineering
CEE 706	Environmental Life Cycle Assessment
CEE 719	Green Building Design
Additional CEE Electives:	
CEE 700	Building Information Modeling
CEE #702	Issues in Engineering Practice and Management
CEE 703	Site Design and Project Development

## Program Policies and Requirements

To transfer into the BSCIVE major, a student must satisfy the following:

1. Be a CEPS major or have at least 12 credits of graded work at UNH along with Calculus I, and either chemistry or calculus-based physics.
2. Have an overall UNH grade-point average of 2.33 or greater.
3. Have an overall grade-point average of 2.33 or greater in all CEE courses taken to date;
4. Have a grade-point average of 2.33 or greater in courses taken to date at UNH of MATH 425, PHYS 407, CHEM 403 or CHEM 405, CEE 500 or ME 525 , and CEE 501 or ME 526 .
5. Have a grade-point average of 2.33 or greater in courses taken to date of CEE 500, CEE 501, ME 525, ME 526

At the time of transferring into the BSCIVE program, only CEE 600-level and CEE 700-level classes with a grade of C- or better may be transferred in.

BSCIVE majors wishing to participate in domestic or international exchange programs must achieve a cumulative grade-point average of 2.50 or better in all CEE courses taken to date at the time of application to the exchange program.

To begin taking the required CEE 600-level courses in the junior year, students must meet the following requirements:

1. MATH 425, PHYS 407, CHEM 403 or CHEM 405, CEE 500 or ME 525 , and CEE 501 or ME 526 must have been completed with passing grades.
2. The student must have a grade-point average of 2.00 or greater in all CEE courses.
3. The student must have a grade-point average of 2.00 or greater in MATH 425, PHYS 407, CHEM 403 or CHEM 405, CEE 500 or ME 525 , and CEE 501 or ME 526 .
4. The student must have a grade-point average of 2.00 or greater in CEE 500 or ME 525 and CEE 501 or ME 526 .

## Degree Plan

Course	Title	Credits
<b>First Year</b>		
<b>Fall</b>		
CEE 400	Introduction to Civil Engineering	4
CEE 520	Environmental Pollution and Protection: A Global Context	4
MATH 418	Analysis and Applications of Functions (if necessary, 0-4 credits)	
Elective AutoCAD <sup>3</sup>		3
Elective Discovery Program requirement <sup>1</sup>		4
<b>Credits</b>		<b>15</b>

Elective Spatial Metrics <sup>3</sup>		4
ENGL 401	First-Year Writing	4
<b>Credits</b>		<b>16</b>

**Second Year****Fall**

CEE 500	Statics for Civil Engineers	3
MATH 426	Calculus II	4
PHYS 408	General Physics II	4
Elective Technical Writing <sup>3</sup>		4
Elective Discovery Program requirement <sup>1</sup>		4
<b>Credits</b>		<b>19</b>

**Spring**

CEE 501	Strength of Materials	3
CEE 502	Project Engineering	3
CHEM 405	Chemical Principles for Engineers	4
MATH 527	Differential Equations with Linear Algebra	4
Elective Discovery Program requirement		4
<b>Credits</b>		<b>18</b>

**Third Year****Fall**

CEE 635	Engineering Materials	4
CEE 650	Fluid Mechanics	4
CEE 680	Classical Structural Analysis	3
Elective Discovery Program requirement <sup>1</sup>		4
<b>Credits</b>		<b>15</b>

**Spring**

CEE 620	Fundamental Aspects of Environmental Engineering	4
CEE 665	Soil Mechanics	4
Elective Statistics <sup>3</sup>		4
Elective Discovery Program requirement <sup>1</sup>		4
<b>Credits</b>		<b>16</b>

**Fourth Year****Fall**

CEE 797	Introduction to Project Planning and Design	2
Elective Project-Based Design Elective <sup>3</sup>		4
Elective Area Elective 2 <sup>3</sup>		3
Elective Civil Engineering <sup>3</sup>		3
Elective Discovery Program requirement <sup>1</sup>		4
<b>Credits</b>		<b>16</b>

**Spring**

CEE 798	Project Planning and Design	2
Elective Area Elective 3 <sup>3</sup>		3
Elective Area Elective 4 <sup>3</sup>		3
Elective Civil Engineering <sup>3</sup>		3
Elective Senior Technical Elective <sup>3</sup>		3
<b>Credits</b>		<b>14</b>
<b>Total Credits</b>		<b>129</b>

<sup>1</sup> A course satisfying one each of the Discovery Program categories of Biological Science, Humanities, Fine and Performing Arts, Historical Perspectives, Social Science and World Cultures, preferably taken in this order. The Discovery Social Science elective must be selected from CEP 415, CSL 401, ECON 401, ECON 402, ECON 444, EREC 411, GEOG 582, GEOG 584, or POLT 402.

<sup>2</sup> Satisfies capstone requirement for Discovery.

<sup>3</sup> Approved list available in the CEE office.

## Student Learning Outcomes

### BSCIVE Program Student Outcomes[3]

(What students are expected to know and be able to do by the time of graduation.)

- To have obtained a working knowledge[4] in the civil engineering areas of environmental, geotechnical, structural, sustainability, transportation, and water resources.
- To be able to locate, assess, and compile data, and to conduct experiments to gather data, and analyze and interpret data using engineering judgement to draw conclusions.
- To have an ability to acquire and apply new knowledge, techniques, skills, and software necessary for engineering practice.
- To be able to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, use project management skills to establish goals, plan tasks, and meet objectives.
- To be able to effectively communicate and support ideas in documents and presentations to a range of audiences.
- To be able to apply principles of mathematics, science, and engineering to identify, formulate, and solve complex engineering problems.
- To have been prepared for the Fundamentals of Engineering examination and understand the importance of professional licensure.
- To have an ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, social, economic, public policy, and environmental issues.
- To recognize the roles and responsibilities of public institutions, private organization, and businesses in project development, management, and regulatory compliance.
- To be able to apply engineering design to produce solutions [5] that meet specified needs with consideration of public health, safety, and welfare as well as global, cultural, social, environmental, and economic factors.

[1] Approved by the Faculty on 29 Oct 2013, Feb 2015, 12 Dec 2016, 2 Oct 2018, May 2019; 3 Sept 2019.

[2] Approved by the Faculty on 10 Oct 2013, 24 Feb 2015, 22 May 2015, 12 Dec 2016, 2 Oct 2018, May 2019, 3 Sept 2019.

[3] Approved by the Faculty on 17 Oct 2013, 24 Feb 2015, 22 May 2015, 12 Dec 2016, 27 Mar 2017, May 2019. Updated 3 Sept 2019.

[4] A "working knowledge" is defined as understanding and being able to apply a sub-discipline in analysis and design as demonstrated by successful completion of two or more courses with a substantial focus in at least four sub-disciplines.

[5] "Solutions" consists of systems, components, or processes that may consider risk, uncertainty, sustainability, life-cycle principles, and environmental impacts.

# Environmental Engineering Major (B.S.)

<https://ceps.unh.edu/civil-environmental-engineering/program/bs/environmental-engineering-major>

## Description

The Environmental Engineering program is accredited by the:

Engineering Accreditation Commission of ABET  
111 Market Place  
Suite 1050  
Baltimore, MD 21202-4012,  
(410) 347-7700  
<http://www.abet.org>

Environmental engineers graduating with a B.S. EnvE degree will plan, design, and construct public and private facilities to minimize the impact of human activity on the environment and to protect human health. For example, environmental engineers design and build drinking water treatment systems, municipal and industrial wastewater treatment plants, solid waste management facilities, contaminated ground water remediation systems, and hazardous waste remediation facilities. These facilities must meet regulatory requirements, be cost effective to build and maintain, be safe to operate, and have minimal environmental impact. EnvE students can also focus on sustainable engineering with a required course (CEE 705 Introduction to Sustainable Engineering) in junior year and two or three senior year electives, including design electives.

In CEE 420 Environmental Engineering Lectures I, students are introduced to the full spectrum of environmental engineering projects that they will subsequently explore in design teams during their degree program. In (CEE 520 Environmental Pollution and Protection: A Global Context), students tour field sites and through junior and senior year classes and student organizations (ASCE, EWRI, EWB), they interact with engineers who talk about engineering consulting and design practices applied to local projects. As part of these projects, students:

1. analyze treatment alternatives;
2. recommend a system that meets regulatory operational needs, and is sustainable; and
3. prepare an implementation schedule and project budget.

Design projects are performed in CEE 731 Advanced Water Treatment Processes and a minimum of two design electives. CEE 797 Introduction to Project Planning and Design/ and CEE 798 Project Planning and Design/ serve as a capstone design experience where students work on a multi-disciplinary environmental engineering project and apply skills learned in other courses while working with real-world problems/ clients. EnvE students do not have to take a course in the Discovery Biological Science category since they satisfy this category with CEE 724 Environmental Engineering Microbiology.

At the end of the sophomore year, students are required to have a minimum overall grade-point average of 2.00 and a minimum grade-point average of 2.00 in the following to be permitted to enroll in junior-level courses:

Code	Title	Credits
CEE 420	Environmental Engineering Lectures I	3
MATH 425	Calculus I	4
CHEM 405	Chemical Principles for Engineers	4
PHYS 407	General Physics I	4
MATH 426	Calculus II	4
CEE 500	Statics for Civil Engineers	3
CEE 520	Environmental Pollution and Protection: A Global Context	4

To qualify for graduation, an EnvE major must: have satisfied the previously specified course requirements, have satisfied the University's Academic Requirements, have a minimum cumulative grade-point average of 2.00, and have a minimum grade-point average of 2.00 in engineering courses.

## Requirements

These are the required major courses. For a full listing of the requirements within the four years of study please refer to the degree plan tab.

Code	Title	Credits
CEE 402	2D Computer Aided Design	3
CEE 420	Environmental Engineering Lectures I	3
CEE 500	Statics for Civil Engineers	3
CEE 502	Project Engineering	3
CEE 520	Environmental Pollution and Protection: A Global Context	4
CEE 620	Fundamental Aspects of Environmental Engineering	4
CEE 650	Fluid Mechanics	4
CEE 705	Introduction to Sustainable Engineering	3
CEE 720	Solid and Hazardous Waste Engineering	3
CEE 721	Environmental Sampling and Analysis	4
CEE 723	Environmental Water Chemistry	4
CEE 724	Environmental Engineering Microbiology	4
CEE 731	Advanced Water Treatment Processes	4
CEE 797	Introduction to Project Planning and Design	2
CEE 798	Project Planning and Design	2
CHEM 405	Chemical Principles for Engineers	4
or CHEM 403 & CHEM 404	General Chemistry I and General Chemistry II	
ENGL 502	Professional and Technical Writing	4
ESCI 654	Fate and Transport in the Environment	4
MATH 425	Calculus I	4
MATH 426	Calculus II	4
MATH 527	Differential Equations with Linear Algebra	4
MATH 644	Statistics for Engineers and Scientists	4
PHYS 407	General Physics I	4

### CEE Electives (lists are subject to change, check with advisor)

1. For Design and Non-Design, four courses are required, two of which must be Design, and total credits at least 12.
2. One course is required from each of the other sections.
3. Hydraulics, hydrology and public health electives cannot be used to cover more than one category.

### Design Electives:

Code	Title	Credits
CEE 719	Green Building Design	3
CEE 730	Public Health Engineering for Rural and Developing Communities	3
CEE 732	Solid and Hazardous Waste Design	4
CEE 733	Public Infrastructure Asset Management	4
CEE #734	Bioenvironmental Engineering Design	4
CEE 755	Design of Pressurized Water Transmission Systems	4

CEE 758	Stormwater Management Designs	3
CEE 759	Stream Restoration	4

## Non-Design Electives:

Code	Title	Credits
CEE 706	Environmental Life Cycle Assessment	3
CEE 722	Introduction to Marine Pollution and Control	4
CEE #750	Ecohydrology	3
CEE 751	Open Channel Flow	3
CEE 754	Engineering Hydrology	3
CEE #757	Coastal Engineering and Processes	3
CEE 768	Geo-Environmental Engineering	3
SAFS 632	Urban Agriculture	4
CHE 709	Fundamentals of Air Pollution and Its Control	4

## CEE Lab Electives: One course required

Code	Title	Credits
CEE 665	Soil Mechanics	4
CEE 721	Environmental Sampling and Analysis	4

## Geospatial Electives: One course required

Code	Title	Credits
CEE 403	GIS for Civil and Environmental Engineering	3
FORT 581	Applied Geospatial Techniques	4
NR 658	Introduction to Geographic Information Systems	4
NR 757	Remote Sensing of the Environment	4

## Hydraulics Electives: One course required

Code	Title	Credits
CEE 755	Design of Pressurized Water Transmission Systems	4
CEE 758	Stormwater Management Designs	3
CEE 759	Stream Restoration	4
CEE 751	Open Channel Flow	3
CEE 754	Engineering Hydrology	3
CEE #757	Coastal Engineering and Processes	3

## Hydrology Electives: One course required

Code	Title	Credits
CEE #750	Ecohydrology	3
CEE 754	Engineering Hydrology	3
ESCI 705	Principles of Hydrology	4
ESCI 710	Groundwater Hydrology	4

## Public Health Electives: One course required

Code	Title	Credits
HMP 403	Introduction to Public Health	4
HMP #444A	Global Public Health Issues	4
HMP 501	Epidemiology and Community Medicine	4
HMP 715	Environmental Health	4
CEE 730	Public Health Engineering for Rural and Developing Communities	3

## Degree Plan

The following schedule is a sample of a planned program for environmental engineering students completing the major.

Course	Title	Credits
<b>First Year</b>		
<b>Fall</b>		
CEE 420	Environmental Engineering Lectures I	3
ENGL 401	First-Year Writing	4

MATH 425	Calculus I <sup>1</sup>	4
CHEM 405	Chemical Principles for Engineers	4
Discovery Electives <sup>2</sup>		4
<b>Credits</b>		<b>19</b>

**Spring**

ENGL 502	Professional and Technical Writing	4
MATH 426	Calculus II <sup>1</sup>	4
PHYS 407	General Physics I	4
Discovery Electives <sup>2</sup>		4
<b>Credits</b>		<b>16</b>

**Second Year****Fall**

CEE 402	2D Computer Aided Design	3
CEE 500	Statics for Civil Engineers	3
CEE 520	Environmental Pollution and Protection: A Global Context	4
MATH 527	Differential Equations with Linear Algebra	4
Discovery Elective		4
<b>Credits</b>		<b>18</b>

**Spring**

MATH 644	Statistics for Engineers and Scientists	4
CEE 502	Project Engineering	3
Discovery Elective		4
Public Health Elective		4
Discovery or Geospatial Course		4
<b>Credits</b>		<b>19</b>

**Third Year****Fall**

CEE 650	Fluid Mechanics	4
CEE 705	Introduction to Sustainable Engineering	3
CEE 720	Solid and Hazardous Waste Engineering	3
ESCI 654	Fate and Transport in the Environment	4
<b>Credits</b>		<b>14</b>

**Spring**

CEE 620	Fundamental Aspects of Environmental Engineering	4
CEE 724	Environmental Engineering Microbiology	4
Hydrology Elective <sup>4</sup>		3-4
Discovery		4
<b>Credits</b>		<b>15-16</b>

**Fourth Year****Fall**

CEE 721	Environmental Sampling and Analysis	4
CEE 723	Environmental Water Chemistry	4
CEE 797	Introduction to Project Planning and Design	2
CEE Design Electives (2)		6-8
<b>Credits</b>		<b>16-18</b>

**Spring**

CEE 731	Advanced Water Treatment Processes	4
CEE 798	Project Planning and Design	2
CEE Electives (2)		6-8

Hydraulics Elective	3-4
<b>Credits</b>	<b>15-18</b>
<b>Total Credits</b>	<b>132-138</b>

<sup>1</sup> Students who are required to take MATH 418 Analysis and Applications of Functions because they did not pass the placement examination as determined by the Mathematics Department prior to the fall semester, will enroll in MATH 425 Calculus I during the spring semester. Subsequent MATH courses (MATH 426 Calculus II, MATH 527 Differential Equations with Linear Algebra, MATH 644 Statistics for Engineers and Scientists) will be taken one semester later than shown here.

<sup>2</sup> See Discovery Program requirements. The Discovery requirements for Writing, Quantitative Reasoning, and Physical Science are fulfilled by ENGL 401 First-Year Writing, MATH 425 Calculus I, and PHYS 407 General Physics I, respectively. CEE 520 Environmental Pollution and Protection: A Global Context fulfills the Environmental, Technology, and Society requirement. CEE 797 Introduction to Project Planning and Design and CEE 798 Project Planning and Design fulfill the Senior Capstone requirement. Environmental Engineering Microbiology fulfills the Biological Science requirement. Courses in the EnvE curriculum designated Discovery Electives can be selected from the University's approved Discovery Program courses in Fine and Performing Arts, Humanities, Historical Perspectives, World Cultures, and Social Science. One of these electives must have an Inquiry attribute.

<sup>3</sup> Approved lists of technical, hydrology, hydraulics, and design and non-design electives are available from the EnvE administrator, Paula Mouser. Students must take a minimum of four 700-level CEE electives totaling at least 12 credits. A minimum of two CEE elective courses must be from the design category.

The EnvE program requires a minimum of 132 total credits for graduation.

## Student Learning Outcomes

- To have obtained a working knowledge in the environmental engineering areas of water and wastewater treatment, environmental health and safety, solid and hazardous waste engineering, sustainability, and water resources.
- To be able to locate, assess, and compile data, and to conduct experiments to gather data, and analyze and interpret data using engineering judgement to draw conclusions.
- To have an ability to acquire and apply new knowledge, techniques, skills, and software necessary for engineering practice.
- To be able to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, use project management skills to establish goals, plan tasks, and meet objectives.
- To be able to effectively communicate and support ideas in documents and presentations to a range of audiences.
- To be able to apply principles of mathematics, science, and engineering to identify, formulate, and solve complex engineering problems.
- To have been prepared for the Fundamentals of Engineering examination and understand the importance of professional licensure.

- To have an ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, social, economic, public policy, and environmental issues.
- To recognize the roles and responsibilities of public institutions, private organization, and businesses in project development, management, and regulatory compliance.
- To be able to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare as well as global, cultural, social, environmental, and economic factors.

## Environmental Engineering Minor

<https://ceps.unh.edu/civil-environmental-engineering/program/minor/environmental-engineering>

### Description

The environmental engineering minor is intended primarily for students in engineering and physical sciences who are not in the chemical, civil, or environmental engineering degree programs. Students contemplating such a minor should plan on a strong background in the sciences and mathematics (including differential equations).

The minor provides a comprehensive introduction to major areas of interest in environmental protection through the three required courses. Further breadth in environmental engineering or depth in specific areas can be attained through the choice of appropriate elective courses.

### Requirements

The minor requires a minimum of five courses, as follows:

Code	Title	Credits
CEE 620	Fundamental Aspects of Environmental Engineering	4
CEE 705	Introduction to Sustainable Engineering	3
CEE 731	Advanced Water Treatment Processes	4
or CEE 721	Environmental Sampling and Analysis	
A minimum of two elective ENE courses.		

Choice of elective courses should be made in consultation with the minor area advisor, Nancy Kinner. Students normally start this program in the junior year and should declare their intention to enter the program as early as possible during the sophomore year. During the final semester, students must apply to the dean to have the minor appear on the transcript.

## Computer Science (CS)

Undergraduate students may choose from one of seven degree options: the B.S. in computer science, which is intended for students interested in the design and implementation of software systems; the B.A. in Computer Science- Algorithms Option, which focuses on fundamental concepts in the areas of algorithms, artificial intelligence and machine learning; the B.A. in Computer Science- Cybersecurity Option, which is designed for students who are interested in computer and network security; the B.A. in Computer Science- systems option, which focuses on fundamental concepts in the areas of computing systems and data communication; the B.S. in Information Technology, which focuses on the application of existing computing technologies to meet the information needs of organizations and individual computer users; or the either

of the two B.S. degrees in Analytics and Data Science: the analytics option, which emphasizes the application of data science in business and industry, or the data science option, which focuses on the theoretical and computational underpinnings of modern data science.

<https://ceps.unh.edu/computer-science/>

## Programs

## Faculty

<https://ceps.unh.edu/directory/all>

## Analytics and Data Science Major: Analytics Option (B.S.)

<https://ceps.unh.edu/computer-science/program/bs/analytics-data-science-major-analytics-option>

## Description

The option in Analytics is intended for students interested in either heading into industry immediately upon graduation, or pursuing graduate work in a professionally oriented program such as the Master of Science in Analytics at UNH. The option in Analytics places its emphasis on applications of data science in business and industry.

## Program Objectives

This program has been designed to prepare students for professional careers working with data, with an emphasis on the extraction of meaning from data. The program is not targeted to any one industry; rather, it provides a flexible, practical skillset that can be applied widely. This skillset includes elements of computer science, applied mathematics and statistics, communication skills, and business savvy. Graduates of the bachelor of science in analytics and data science program are expected to have:

- An understanding of the role of data in guiding decision-making in industry
- An understanding of how data is generated, stored, and accessed
- An understanding of data security

- An understanding of the ethical use of data
- An understanding of structured vs. unstructured data
- An understanding of the methods, statistical and other, used to derive actionable information from data
- Experience with multiple programming languages
- Experience with multiple statistical and data analysis software programs
- The ability to communicate detailed, technical information to a variety of audiences clearly and concisely, without the use of jargon
- The ability to work effectively, both as an individual or as a member of a team
- The ability to successfully lead a team
- The ability to adapt to a dynamic, rapidly changing work environment
- Completed projects and other work experiences on a larger scale than is typical in a bachelor's degree program.

During the course of the program, students will demonstrate their acquisition of these skills by successfully completing their program coursework, their internship experience, and their capstone project.

## Requirements

Successful completion of the program entails earning at least 128 credits, meeting the requirements of the University's Discovery program, completing all of the 24 required courses in the major as listed below, including the capstone course, the internship preparedness course, and a three-credit internship. In all major courses, the minimum allowable grade is a C-. The minimum overall GPA for graduation is 2.0. Transfer students may transfer up to a maximum of 32 credits to satisfy major requirements (not counting those courses used to satisfy Discovery requirements).

Select three electives <sup>2</sup>	12
<b>Total Credits</b>	<b>94</b>

<sup>1</sup> Or another suitable 700-level data science or data engineering course chosen in consultation with the program coordinator.

<sup>2</sup> Must be 600 or 700-level and approved by advisor.

For additional information about the Analytics and Data Science: Analytics Option, contact [Matt Magnusson](mailto:matt.magnusson@unh.edu) ([matt.magnusson@unh.edu](mailto:matt.magnusson@unh.edu)), program co-director (Durham campus), or [Jeremiah Johnson](mailto:jeremiah.johnson@unh.edu) ([jeremiah.johnson@unh.edu](mailto:jeremiah.johnson@unh.edu)), program co-director (Manchester campus), at (603) 641-4127.

## Student Learning Outcomes

- Analyze a complex computing problem and to apply principles of computing and other relevant disciplines to identify solutions.
- Design, implement, and evaluate a computing-based solution to meet a given set of computing requirements in the context of the program's discipline.
- Communicate effectively in a variety of professional contexts.
- Recognize professional responsibilities and make informed judgments in computing practice based on legal and ethical principles.
- Function effectively as a member or leader of a team engaged in activities appropriate to the program's discipline.
- Apply theory, techniques, and tools throughout the data analysis lifecycle and employ the resulting knowledge to satisfy stakeholders' needs.

## Analytics and Data Science Major: Data Science Option (B.S.)

<https://ceps.unh.edu/computer-science/program/bs/analytics-data-science-major-data-science-option>

### Description

The option in Data Science is intended for students interested in pursuing advanced degrees and conducting original research in data science. The option in data science places its emphasis on a rigorous introduction

to the theoretical mathematical and computational underpinnings of modern data science.

## Program Objectives

This program has been designed to prepare students for professional careers working with data, with an emphasis on the extraction of meaning from data. The program is not targeted to any one industry; rather, it provides a flexible, practical skillset that can be applied widely. This skillset includes elements of computer science, applied mathematics and statistics, communication skills, and business savvy. Graduates of the bachelor of science in analytics and data science program are expected to have:

- An understanding of the role of data in guiding decision-making in industry
- An understanding of how data is generated, stored, and accessed
- An understanding of data security
- An understanding of the ethical use of data
- An understanding of structured vs. unstructured data
- An understanding of the methods, statistical and other, used to derive actionable information from data
- Experience with multiple programming languages
- Experience with multiple statistical and data analysis software programs
- The ability to communicate detailed, technical information to a variety of audiences clearly and concisely, without the use of jargon
- The ability to work effectively, both as an individual or as a member of a team
- The ability to successfully lead a team
- The ability to adapt to a dynamic, rapidly changing work environment
- Completed projects and other work experiences on a larger scale than is typical in a bachelor's degree program.

During the course of the program, students will demonstrate their acquisition of these skills by successfully completing their program coursework, their internship experience, and their capstone project.

## Requirements

Successful completion of the program entails earning at least 128 credits, meeting the requirements of the University's Discovery program, completing all of the 20 required courses in the major as listed below, including the capstone course, the internship preparedness course, and a three-credit internship. In all major courses, the minimum allowable grade is a C-. The minimum overall GPA for graduation is 2.0. Transfer students may transfer up to a maximum of 32 credits to satisfy major requirements (not counting those courses used to satisfy Discovery requirements).

## Program Requirements

Code	Title	Credits
<b>Mathematics</b>		
MATH 425	Calculus I	4
MATH 426	Calculus II	4
MATH 528	Multidimensional Calculus	4
MATH 531	Mathematical Proof	4
MATH 539	Introduction to Statistical Analysis	4
or MATH 644	Statistics for Engineers and Scientists	
or COMP 570	Statistics in Computing and Engineering	

MATH 645	Linear Algebra for Applications	4
MATH 755	Probability with Applications	4
MATH 756	Principles of Statistical Inference	4
<b>Computer Science</b>		
CS 400	Introduction to Computing	2
CS 415	Introduction to Computer Science I	4
or CS 410P	Introduction to Scientific Programming/Python	
or COMP 424	Applied Computing 1: Foundations of Programming

ENGL 502	Professional and Technical Writing	4
<b>Analytics Course Capstone:</b>		
DATA #790	Capstone Project <sup>1</sup>	4
or CS 791	Senior Project I	
& CS 792	and Senior Project II	
or CS 799	Thesis	
<b>Select Approved Minor <sup>2</sup></b>		<b>20</b>
<b>Total Credits</b>		<b>102</b>

<sup>1</sup> Fulfills capstone requirement

<sup>2</sup> Minor must be approved by an academic advisor and must be in a discipline to which Analytics & Data Science can be applied (i.e. Economics or Applied Mathematics).

For additional information about the Analytics and Data Science: Analytics Option, contact [Matt Magnusson](mailto:Matt.Magnusson@unh.edu) ([mattthew.magnusson@unh.edu](mailto:mattthew.magnusson@unh.edu)), program co-director (Durham campus), or [Jeremiah Johnson](mailto:Jeremiah.Johnson@unh.edu) ([jeremiah.johnson@unh.edu](mailto:jeremiah.johnson@unh.edu)), program co-director (Manchester campus), at (603) 641-4127.

## Student Learning Outcomes

- Analyze a complex computing problem and to apply principles of computing and other relevant disciplines to identify solutions.
- Design, implement, and evaluate a computing-based solution to meet a given set of computing requirements in the context of the program's discipline.
- Communicate effectively in a variety of professional contexts.
- Recognize professional responsibilities and make informed judgments in computing practice based on legal and ethical principles.
- Function effectively as a member or leader of a team engaged in activities appropriate to the program's discipline.
- Apply theory, techniques, and tools throughout the data analysis lifecycle and employ the resulting knowledge to satisfy stakeholders' needs.

## Analytics Minor

<https://ceps.unh.edu/computer-science/program/minor/analytics>

### Description

The objective of this minor is to provide a basic background in analytics for those interested in applications.

### Requirements

Students must complete five courses (20 credits) with a cumulative minimum grade point average of 2.0 and with no grade below a C-grade. Transfer course approval for the minor is limited to at most, two relevant courses successfully completed at another accredited institution, subject to syllabi review and approval. Some preparation in [MATH 425](#): Calculus I and programming ([CS 415](#): Introduction to Computer Science I, or [COMP 425](#): Introduction to Programming) is required.

Code	Title	Credits
<b>Requirements</b>		
CS 417	From Programs to Computer Science (Durham Students)	4
or COMP 525	Data Structures Fundamentals	
CS 457	Introduction to Data Science and Analytics	4
or DATA 557	Introduction to Data Science and Analytics	
MATH 545	Introduction to Linear Algebra	4
MATH 645	Linear Algebra for Applications	4
Select one of the following:		4
DATA 674	Predictive and Prescriptive Analytics I	
DATA 675	Predictive and Prescriptive Analytics II	
DATA 750	Neural Networks	
DATA #757	Mining Massive Datasets	
<b>Total Credits</b>		<b>20</b>

For more information, contact Matthew Magnusson, program coordinator and minor supervisor, at [Matthew.Magnusson@unh.edu](mailto:Matthew.Magnusson@unh.edu) ([mattthew.magnusson@unh.edu](mailto:mattthew.magnusson@unh.edu)).

## Computer Programming Cognate

<https://ceps.unh.edu/computer-science/program/cognate/computer-programming>

### Description

The Cognate in Programming is designed so that students who wish to go beyond an introductory computer programming course are able to meet the challenges that technology imposes.

This cognate is for UNH students who are interested in acquiring skills beyond just a basic programming language. This cognate would be an alternative to students who are not going to pursue a minor in Computer Science or Information Technology but still want to have the opportunity to partake a coherent, if short, curriculum that gives them a foundation to participate in programming activities as applicable to their technical areas.

The cognate consists of three courses in total, with one required course and two courses selected from four different sequence options. The Cognate will appear on each student's transcript.

## Requirements

### Required Course:

Code	Title	Credits
IT 403	Introduction to Internet Technologies	4

### Choose one of the following two-course sequences:

Code	Title	Credits
Sequence one:		
CS 415	Introduction to Computer Science I	4
CS 416	Introduction to Computer Science II	4
or IT 505	Integrative Programming	

Code	Title	Credits
Sequence two:		
CS 414	From Problems to Algorithms to Programs	4
CS 417	From Programs to Computer Science	4
or IT 505	Integrative Programming	

Code	Title	Credits
Sequence three:		
CS 410P	Introduction to Scientific Programming/Python	4
or CS 410C	Introduction to Scientific Programming/C	
CS 417	From Programs to Computer Science	4
or IT 505	Integrative Programming	

Code	Title	Credits
Sequence four:		
CS 405	Introduction to Applications Programming	4
IT 505	Integrative Programming	4

## Computer Science Major (B.S.)

<https://ceps.unh.edu/computer-science/program/bs/computer-science>

## Description

Computer science focuses on problem solving with a particular emphasis on the design of computer-efficient solutions. Within a few years of obtaining a bachelor's degree alumni will have:

1. Engaged in successful careers in diverse areas of software development and will be pursuing advanced education in computer science or related fields;
2. Applied the full range of core computer science concepts and techniques to fill software development needs of an organization;
3. Adapted to changing directions of computing technology and used state-of-the-art techniques to confront new problems effectively;
4. Navigated the complex interconnections between software and the goals and constraints of the organization served;
5. Participated responsibly in the pervasive and changing role of computing technology in global society as both software engineers and citizens;
6. Operated collaboratively in a team environment and assumed leadership roles.

The B.S. in computer science program is accredited by the Computing Accreditation Commission of [ABET](#).

## Requirements

Computer science majors must complete the following coursework in computer science, mathematics, computer engineering, and science. (all courses are 4 credits unless indicated otherwise):

Code	Title	Credits
<b>Computer Science Courses</b>		
Select one of the following:		
CS 400	Introduction to Computing	2
CS 415	Introduction to Computer Science I	4
or CS 410C	Introduction to Scientific Programming/C	
or CS 410P	Introduction to Scientific Programming/Python	
CS 416	Introduction to Computer Science II	4
CS 420	Foundations of Programming for Digital Systems	4
IT 403	Introduction to Internet Technologies	4
CS 501	Professional Ethics and Communication in Technology-related Fields	4
CS 515	Data Structures and Introduction to Algorithms	4
CS 518	Introduction to Software Engineering	4
CS 520	Computer Organization and System-Level Programming	4
CS 527	Fundamentals of Cybersecurity	4
CS 619	Introduction to Object-Oriented Design and Development	4
CS 620	Operating System Fundamentals	4
CS 659	Introduction to the Theory of Computation	4
CS 758	Algorithms	4
CS 761	Programming Language Concepts and Features	4
CS 791 & CS 792	Senior Project I and Senior Project II	4
or CS 799	Thesis	
<b>Computer Science Electives:</b>		
Select one course from the following implementation electives:		4
CS 712	Compiler Design	
CS 720	Systems Programming	
CS 730	Introduction to Artificial Intelligence	
CS 735	Introduction to Parallel and Distributed Programming	
CS 770	Computer Graphics	
Select one course from the following theory electives:		4
CS 723	Performance Evaluation of Computer Systems	
CS 745	Formal Specifications and Verification of Software Systems	
CS 750	Machine Learning	
CS 755	Computer Vision	
CS 757	Mathematical Optimization for Applications	
Select two additional CS courses numbered 690-799 as general electives		8
<b>Professional Electives <sup>1</sup></b>		
Select one course from the following:		3-4
CS 700-level course		
IT 502	Intermediate Web Design	
IT 604	Server-side Web Development	
IT 605	Client-side Web Development	
IT 612	Scripting Languages	
IT 630	Data Science and Analytics	
IT 666	Cybersecurity Practices	
IT 705	Project Management for Information Technology	
IT 780	Topics in Information Technology	
MATH 525	Linearity I	
MATH 526	Linearity II	
MATH 527	Differential Equations with Linear Algebra	
MATH 528	Multidimensional Calculus	
MATH 545	Introduction to Linear Algebra	
MATH 645	Linear Algebra for Applications	
MATH 647	Complex Analysis for Applications	
MATH 736	Advanced Statistical Modeling	
MATH 737	Statistical Methods for Quality Improvement and Design	
MATH 739	Applied Regression Analysis	
MATH 740	Design of Experiments I	
MATH 741	Survival Analysis	
MATH 743	Time Series Analysis	

MATH 744	Design of Experiments II	
MATH 745	Foundations of Applied Mathematics I	
MATH 746	Foundations of Applied Mathematics II	
MATH 747	Introduction to Nonlinear Dynamics and Chaos	
MATH 753	Introduction to Numerical Methods I	
MATH 755	Probability with Applications	
MATH 756	Principles of Statistical Inference	
MATH 760	Geometry	
MATH 761	Abstract Algebra	
MATH 767	One-Dimensional Real Analysis	
MATH 776	Logic	
MATH 783	Set Theory	
MATH 784	Topology	
MATH 788	Complex Analysis	
ECE 562	Computer Organization	
ECE 649	Embedded Microcomputer Based Design	
ECE 700-level course		
ENGL 502	Professional and Technical Writing	
GEN 604	Principles of Genetics	
GEN 711	Genomics and Bioinformatics	
<b>Mathematics Courses</b>		
MATH 425	Calculus I	4
MATH 426	Calculus II	4
MATH 531	Mathematical Proof	4
MATH 539	Introduction to Statistical Analysis	4
or MATH 644	Statistics for Engineers and Scientists	
<b>Science courses<sup>2</sup></b>		
One Discovery Biological Science (BS) with Discovery Lab		4
One Discovery Physical Science (PS) with Discovery Lab		4
<b>Other Courses</b>		
Discovery requirements not already covered by required courses <sup>3</sup>		24
<b>Total Credits</b>		<b>129-130</b>

<sup>1</sup> Professional electives must either be chosen from the list of approved courses or another non-introductory CEPS course with significant science and/or engineering focus approved on a per-course basis by the undergraduate studies committee.

<sup>2</sup> Courses must carry the Discovery attributes of Biological Science or Physical Science and include Discovery lab (DLAB).

<sup>3</sup> One of these courses must be writing intensive.

Computer science majors must maintain an overall grade-point average of 2.0 or better in all required computer science, mathematics, and computer engineering courses in order to graduate. If at the end of any semester, including the first, a student's cumulative grade-point average in these courses falls below 2.0, the student may not be allowed to continue as a CS major.

In order to meet the CS major requirements, the following courses must be passed with a grade of C- or better CS 410C, CS 410P, CS 415, CS 416, CS 420, CS 515, CS 520, IT 403

If a student wishing to transfer into the computer science major has any coursework that is applicable to the major, the grades in those courses must satisfy the minimum grade requirements for the B.S. degree in computer science. The student must have an overall grade-point average of 2.0 or better in all courses taken at the university.

## Degree Plan

### Recommended Plan of Study

Course	Title	Credits
<b>First Year</b>		
<b>Fall</b>		
CS 400	Introduction to Computing	2
CS 415	Introduction to Computer Science I	4
IT 403	Introduction to Internet Technologies	4
MATH 425	Calculus I	4
Discovery I		4
<b>Credits</b>		<b>18</b>
<b>Spring</b>		
CS 416	Introduction to Computer Science II	4
CS 420	Foundations of Programming for Digital Systems	4
MATH 426	Calculus II	4
ENGL 401	First-Year Writing	4
<b>Credits</b>		<b>16</b>
<b>Second Year</b>		
<b>Fall</b>		
CS 515	Data Structures and Introduction to Algorithms	4
CS 518	Introduction to Software Engineering	4
or CS 527	or Fundamentals of Cybersecurity	
MATH 531	Mathematical Proof	4
or MATH 539	or Introduction to Statistical Analysis	
or MATH 644	or Statistics for Engineers and Scientists	
CS 501	Professional Ethics and Communication in Technology-related Fields (Or Discovery II)	4
<b>Credits</b>		<b>16</b>
<b>Spring</b>		
CS 520	Computer Organization and System-Level Programming	4
MATH 539	Introduction to Statistical Analysis	4
or MATH 644	or Statistics for Engineers and Scientists	
or MATH 531	or Mathematical Proof	
CS 527	Fundamentals of Cybersecurity	4
or CS 518	or Introduction to Software Engineering	
Discovery II (or CS 501)		4
<b>Credits</b>		<b>16</b>
<b>Third Year</b>		
<b>Fall</b>		
CS 619	Introduction to Object-Oriented Design and Development	4
CS 620	Operating System Fundamentals	4
CS 659	Introduction to the Theory of Computation (Or Professional Elective)	4
CS 761	Programming Language Concepts and Features (or Discovery III)	4
<b>Credits</b>		<b>16</b>
<b>Spring</b>		
Professional Elective (or CS 659)		4

Discovery III (or CS 761)	4
Discovery IV	4
CS 758      Algorithms (Or CS 700-level General Elective or Discovery V)	4

**Credits** **16**

#### Fourth Year

##### Fall

CS 791      Senior Project I	2
CS 700-level Implementation or Theory Elective	4
CS 700-level General Elective (or Discovery V)	4
Discovery V (or CS 758)	4
Discovery VI	4

**Credits** **18**

##### Spring

CS 792      Senior Project II	2
CS 700-level Implementation or Theory Elective	4
CS 700-level General Elective (or CS 758)	4
Discovery VII	4

**Credits** **14**

**Total Credits** **130**

Discovery (7): Historical Perspectives, Humanities, Fine and Performing Arts, Social Science, World Cultures, Physical Science Discovery Lab, Biological Science Discovery Lab with ONE mandatory course with Writing Intensive (WI) attribute

## Student Learning Outcomes

Graduates of the UNH BS CS program will have an ability to:

- Analyze a complex computing problem and to apply principles of computing and other relevant disciplines to identify solutions.
- Design, implement, and evaluate a computing-based solution to meet a given set of computing requirements in the context of the program's discipline.
- Communicate effectively in a variety of professional contexts.
- Recognize professional responsibilities and make informed judgments in computing practice based on legal and ethical principles.
- Function effectively as a member or leader of a team engaged in activities appropriate to the program's discipline.
- Apply computer science theory and software development fundamentals to produce computing-based solutions.
- Learn independently about new technologies, and develop the skills needed to understand them.

## Computer Science Major: Algorithms Option (B.A.)

<https://ceps.unh.edu/computer-science/program/ba/computer-science-major-algorithms-option>

## Description

The B.A. in Computer Science will allow students to combine the study of computer science with the study of another field. Given the emergence of computational approaches to virtually all areas of scholarship and creative expression, it is important to offer this flexibility. The three tracks in the B.A. program contain the same computer science core as the B.S. program, but give more control to the student to choose the complementary and advanced courses.

## Requirements

Code	Title	Credits
<b>Computer Science Courses</b>		
CS 400	Introduction to Computing	2
CS 415	Introduction to Computer Science I	4
or CS 410P	Introduction to Scientific Programming/Python	
or CS 410C	Introduction to Scientific Programming/C	
CS 416	Introduction to Computer Science II	4
IT 403	Introduction to Internet Technologies	4
CS 420	Foundations of Programming for Digital Systems	4
CS 501	Professional Ethics and Communication in Technology-related Fields	4
CS 515	Data Structures and Introduction to Algorithms	4
CS 520	Computer Organization and System-Level Programming	4
CS 527	Fundamentals of Cybersecurity	4
CS 619	Introduction to Object-Oriented Design and Development	4
CS 791 & CS 792	Senior Project I and Senior Project II	4
or CS 799	Thesis	
<b>Computer Science Electives</b>		
Select three courses from the advanced CS course pool <sup>1</sup>		12
<b>Mathematics Courses</b>		
MATH 425	Calculus I	4
MATH 531	Mathematical Proof	4
MATH 539	Introduction to Statistical Analysis	4
CS 659	Introduction to the Theory of Computation	4
<b>Science Courses <sup>2</sup></b>		
One Discovery Biological Science (BS) with Discovery Lab		4
One Discovery Physical Science (PS) with Discovery Lab		4
Discovery requirements not already covered by required courses		20
<b>Total Credits</b>		<b>98</b>

<sup>1</sup> Advanced CS course pool consists of the following:

- Any CS course at the 700-level
- One professional elective from the [list of B.S. in Computer Science Electives](#)

<sup>2</sup> Courses must carry the Discovery attributes of Biological Science or Physical Science and include Discovery lab (DLAB).

Computer science majors must maintain an overall grade-point average of 2.0 or better in all required computer science, mathematics, and computer engineering courses in order to graduate. If at the end of any semester, including the first, a student's cumulative grade-point average in these courses falls below 2.0, the student may not be allowed to continue as a CS major.

The following courses must be passed with a grade of C- or better: CS 410C, CS 410P, CS 415, CS 416, CS 420, CS 515, CS 520, IT 403

If a student wishing to transfer into the computer science major has any coursework that is applicable to the major, the grades in those courses must satisfy the minimum grade requirements for the B.S. degree in

computer science. The student must have an overall grade-point average of 2.0 or better in all courses taken at the university.

## Student Learning Outcomes

Graduates of the UNH B.A. CS programs will have an ability to:

- Analyze a complex computing problem and to apply principles of computing and other relevant disciplines to identify solutions.
- Design, implement, and evaluate a computing-based solution to meet a given set of computing requirements in the context of the program's discipline.
- Communicate effectively in a variety of professional contexts.
- Recognize professional responsibilities and make informed judgments in computing practice based on legal and ethical principles.
- Function effectively as a member or leader of a team engaged in activities appropriate to the program's discipline.
- Apply computer science theory and software development fundamentals to produce computing-based solutions.
- Learn independently about new technologies, and have the skills needed to understand them.

## Computer Science Major: Cybersecurity Option (B.A.)

<https://ceps.unh.edu/computer-science/program/ba/computer-science-major-cybersecurity-option>

### Description

The B.A. in Computer Science will allow students to combine the study of computer science with the study of another field. Given the emergence of computational approaches to virtually all areas of scholarship and creative expression, it is important to offer this flexibility. The three tracks in the B.A. program contain the same computer science core as the B.S. program, but give more control to the student to choose the complementary and advanced courses.

### Requirements

Code	Title	Credits
<b>Computer Science Classes</b>		
CS 400	Introduction to Computing	2
CS 415	Introduction to Computer Science I	4
or CS 410C	Introduction to Scientific Programming/C	
or CS 410P	Introduction to Scientific Programming/Python	
CS 416	Introduction to Computer Science II	4
IT 403	Introduction to Internet Technologies	4
CS 501	Professional Ethics and Communication in Technology-related Fields	4
CS 420	Foundations of Programming for Digital Systems	4
CS 515	Data Structures and Introduction to Algorithms	4
CS 520	Computer Organization and System-Level Programming	4

CS 791 & CS 792	Senior Project I and Senior Project II	4
or CS 799	Thesis	

### Computer Science Electives

Select one of the following:		4
CS 725	Computer Networks	
IT 609	Network/Systems Administration	
HLS 515	Critical Infrastructure Security and Resilience	
POLT 568	International Security	
<b>Mathematics Courses</b>		
MATH 425	Calculus I	4
MATH 539	Introduction to Statistical Analysis	4
Select two MATH or CS Theory Courses <sup>1</sup>		8
<b>Science Courses <sup>2</sup></b>		
One Discovery Biological Science (BS) with Discovery Lab		4
One Discovery Physical Science (PS) with Discovery Lab		4
Discovery requirements not already covered by required courses		20
<b>Total Credits</b>		<b>98</b>

<sup>1</sup> CS Theory courses

include: CS 659, CS 723, CS 745, CS 750, CS 755, CS 757, CS 758

<sup>2</sup> Courses must carry the Discovery attributes of Biological Science or Physical Science and include Discovery lab (DLAB).

Computer science majors must maintain an overall grade-point average of 2.0 or better in all required computer science, mathematics, and computer engineering courses in order to graduate. If at the end of any semester, including the first, a student's cumulative grade-point average in these courses falls below 2.0, the student may not be allowed to continue as a CS major.

The following courses must be passed with a grade of C- or better: CS 410C, CS 410P, CS 415, CS 416, CS 420, CS 515, CS 520, IT 403

If a student wishing to transfer into the computer science major has any coursework that is applicable to the major, the grades in those courses must satisfy the minimum grade requirements for the B.S. degree in computer science. The student must have an overall grade-point average of 2.0 or better in all courses taken at the university.

## Student Learning Outcomes

Graduates of the UNH B.A. CS programs will have an ability to:

- Analyze a complex computing problem and to apply principles of computing and other relevant disciplines to identify solutions.
- Design, implement, and evaluate a computing-based solution to meet a given set of computing requirements in the context of the program's discipline.
- Communicate effectively in a variety of professional contexts.
- Recognize professional responsibilities and make informed judgments in computing practice based on legal and ethical principles.
- Function effectively as a member or leader of a team engaged in activities appropriate to the program's discipline.
- Apply computer science theory and software development fundamentals to produce computing-based solutions.
- Learn independently about new technologies, and have the skills needed to understand them.

## Computer Science Major: Systems Option (B.A.)

<https://ceps.unh.edu/computer-science/program/ba/computer-science-major-systems-option>

### Description

The B.A. in Computer Science will allow students to combine the study of computer science with the study of another field. Given the emergence of computational approaches to virtually all areas of scholarship and creative expression, it is important to offer this flexibility. The three tracks in the B.A. program contain the same computer science core as the B.S. program, but give more control to the student to choose the complementary and advanced courses.

CS 791	Senior Project I	4
& CS 792	and Senior Project II	
or CS 799	Thesis	
<b>Computer Science Electives</b>		
Select two courses from the advanced CS course pool <sup>1</sup>		8
<b>Mathematics Courses</b>		
MATH 425	Calculus I	4
MATH 539	Introduction to Statistical Analysis	4
Select two MATH or CS Theory Courses <sup>2</sup>		8
<b>Science Courses <sup>3</sup></b>		
One Discovery Biological Science (BS) with Discovery Lab		4
One Discovery Physical Science (PS) with Discovery Lab		4
Discovery requirements not already covered by required courses		20
<b>Total Credits</b>		<b>98</b>

<sup>1</sup> Advanced CS course pool consists of the following:

- Any CS course at the 700-level
- One professional elective from the [list of B.S. in Computer Science Electives](#)

<sup>2</sup> CS Theory courses

include: CS 659, CS 723, CS 745, CS 750, CS 755, CS 757, CS 758

<sup>3</sup> Courses must carry the Discovery attributes of Biological Science or Physical Science and include Discovery lab (DLAB).

Computer science majors must maintain an overall grade-point average of 2.0 or better in all required computer science, mathematics, and computer engineering courses in order to graduate. If at the end of any semester, including the first, a student's cumulative grade-point average

in these courses falls below 2.0, the student may not be allowed to continue as a CS major.

The following courses must be passed with a grade of C- or better: CS 410C, CS 410P, CS 415, CS 416, CS 420, CS 515, CS 520, IT 403

If a student wishing to transfer into the computer science major has any coursework that is applicable to the major, the grades in those courses must satisfy the minimum grade requirements for the B.S. degree in computer science. The student must have an overall grade-point average of 2.0 or better in all courses taken at the university.

### Student Learning Outcomes

Graduates of the UNH B.A. CS programs will have an ability to:

- Analyze a complex computing problem and to apply principles of computing and other relevant disciplines to identify solutions.
- Design, implement, and evaluate a computing-based solution to meet a given set of computing requirements in the context of the program's discipline.
- Communicate effectively in a variety of professional contexts.
- Recognize professional responsibilities and make informed judgments in computing practice based on legal and ethical principles.
- Function effectively as a member or leader of a team engaged in activities appropriate to the program's discipline.
- Apply computer science theory and software development fundamentals to produce computing-based solutions.
- Learn independently about new technologies, and have the skills needed to understand them.

## Computer Science Minor

<https://ceps.unh.edu/computer-science/program/minor/computer-science>

### Description

The minor in computer science is designed for students in other majors who want to learn the fundamentals of designing and implementing computer software.

Credit toward the minor will be given only for courses passed with C- or better, and a 2.0 grade-point average must be maintained in courses for the minor. Courses taken on the pass/fail basis may not be used for the minor. Students should declare their intent to earn a minor as early as possible and no later than the end of the junior year. During the final term, an application should be made to the dean of the student's major college to have the minor shown on the academic record. Students must consult with their major adviser and also the minor supervisor.

### Requirements

Code	Title	Credits
<b>Requirements</b>		
CS 415	Introduction to Computer Science I	4
or CS 410C	Introduction to Scientific Programming/C	
or CS 410P	Introduction to Scientific Programming/Python	
CS 416	Introduction to Computer Science II	4

or CS 417	From Programs to Computer Science	
CS 420	Foundations of Programming for Digital Systems	4
CS 515	Data Structures and Introduction to Algorithms	4
<b>Other Courses</b>		
Select one of the following:		
CS 619	Introduction to Object-Oriented Design and Development	
CS 520	Computer Organization and System-Level Programming	
CS 620	Operating System Fundamentals	
CS 659	Introduction to the Theory of Computation <sup>1</sup>	
CS 761	Programming Language Concepts and Features	
An approved CS 700-level course		

<sup>1</sup> CS 659 Introduction to the Theory of Computation has mathematics prerequisites: MATH 425 Calculus I, MATH 426 Calculus II, and MATH 531 Mathematical Proof.

## Data Science Minor

<https://ceps.unh.edu/computer-science/program/minor/data-science>

### Description

The objective of this minor is to provide a basic background in data science for those who are more interested in the theoretical underpinnings of analytics and data science.

### Requirements

Students must complete five courses (20 credits) with a cumulative minimum grade point average of 2.0 and with no grade below a C-grade. Transfer course approval for the minor is limited to at most, two relevant courses successfully completed at another accredited institution, subject to syllabi review and approval. Some preparation in [MATH 425](#): Calculus I and programming ([CS 415](#): Introduction to Computer Science I, or [COMP 425](#): Introduction to Programming) is required.

Code	Title	Credits
<b>Requirements</b>		
CS 515	Data Structures and Introduction to Algorithms	4
Select one course from the following:		
CS 417	From Programs to Computer Science (Durham Students)	
CS 416	Introduction to Computer Science II	
COMP 525	Data Structures Fundamentals (Manchester Students)	
Select three courses from the following: <sup>1</sup>		
CS 730	Introduction to Artificial Intelligence	
CS 750	Machine Learning	
CS 753	Information Retrieval	
CS 757	Mathematical Optimization for Applications	
CS 775	Database Systems	
MATH 645	Linear Algebra for Applications	
MATH 736	Advanced Statistical Modeling	
MATH 738	Data Mining and Predictive Analytics	
MATH 739	Applied Regression Analysis	
DATA 750	Neural Networks	
DATA #757	Mining Massive Datasets	
<b>Total Credits</b>		<b>20</b>

<sup>1</sup> Must select at least one CS and one MATH course. Must select [CS 750](#): Machine Learning or [MATH 738](#): Data Mining and Predictive Analytics.

For more information, contact Matthew Magnusson, program coordinator and minor supervisor, at [matthew.magnusson@unh.edu](mailto:matthew.magnusson@unh.edu).

## Information Technology Cognate

<https://ceps.unh.edu/computer-science/program/cognate/information-technology>

### Description

The Toolbox Cognate in Information Technology is designed to provide students with knowledge and skills required by essentially any job today.

With introductory level options, including courses from outside the department, the cognate is of value to students who wish to get a firm foundation in areas related to computing and information technology. The cognate also gives students considering study of Information Technology or Computer Science an opportunity to sample a broad range of courses in the field.

The Cognate will appear on each student's transcript.

### Requirements

The cognate consists of three courses with no more than two courses to be taken from the same category (some courses may have pre-requisites).

Code	Title	Credits
<b>Computer Applications</b>

## Information Technology Major (B.S.)

<https://ceps.unh.edu/computer-science/program/bs/information-technology>

### Description

Information technology is concerned primarily with the application of existing computing technologies to the information needs of organizations and individual computer users. The IT program aims to provide graduates with the skills and knowledge to take on appropriate professional positions in information technology upon graduation and grow into leadership positions in the field. Potential careers include network administrator, database developer, system administrator, and webmaster.

The broad objectives for B.S. in information technology graduates are:

1. Apply the full range of core IT concepts and techniques to fill the IT needs of an organization and be prepared to assume managerial and other advanced responsibilities,
2. Confront new problems effectively and anticipate the changing directions of technology,
3. Communicate effectively with diverse stakeholders as well as function appropriately in a team environment,
4. Navigate within the complex relationships between IT and larger organizational goals, and
5. Understand the pervasive and changing role of computing technology in global society, and participate responsibly as both IT professional and citizen.

The B.S. in information technology program is accredited by the Computing Accreditation Commission of [ABET](#).

General Electives		6-8
<b>Minor, Second Major, or Dual Degree <sup>3</sup></b>		<b>20</b>
<b>Total Credits</b>		<b>129-131</b>

sequence. CS 414 From Problems to Algorithms to Programs will be discontinued starting Fall 2022.

- 2 Courses must carry the Discovery attributes of Biological Science or Physical Science and include Discovery lab (DLAB).
- 3 Students must complete a Minor (from an approved list) or a Second major or Dual degree

Information technology majors must maintain an overall grade-point average of 2.0 or better in all required information technology and computer science required courses in order to graduate. If at the end of any semester, including the first, a student's cumulative grade-point average in these courses falls below 2.0, the student may not be allowed to continue as an IT major. In order to meet the IT major requirements, the following courses must be passed with a grade of C- or better: CS 410P, CS 410C, CS 414, CS 415, CS 416, CS 417, IT 403, IT 505, IT 520.

If a student wishing to transfer into the information technology major has any coursework that is applicable to the major, the grades in those courses must satisfy the minimum grade requirements for the B.S. degree in information technology. The student must have an overall grade-point average of 2.0 or better in all courses taken at the University.

In addition to the core IT requirements, each student must complete a complementary set of courses in a particular domain outside of IT to which the student's IT skills can be applied. This set of courses can be completed in one of the following ways:

1. An approved minor\*\*.
2. A second major or UNH dual degree.

\*\*An [approved list of minors](#) is available from the CS Department and requires at least (5) courses to complete.

## Degree Plan

The following is a sample schedule depicting the necessary requirements and the layout of the curriculum. Students must consult with their advisers in order to come up with the proper schedule for themselves.

Course	Title	Credits
<b>First Year</b>		
<b>Fall</b>		
CS 400	Introduction to Computing	2
CS 415	Introduction to Computer Science I	0-4
IT 403	Introduction to Internet Technologies	4
MATH 425	Calculus I	4
Discovery		4
<b>Credits</b>		<b>14-18</b>
<b>Spring</b>		
CS 417	From Programs to Computer Science	4
ENGL 401	First-Year Writing (Discovery)	4
Discovery		4
Physical Science (DLAB)		4
<b>Credits</b>		<b>16</b>
<b>Second Year</b>		
<b>Fall</b>		
IT 505	Integrative Programming	4

<sup>1</sup> Starting in 2022-2023, all Information technology majors will be recommended to take CS 415 Introduction to Computer Science I and CS 417 From Programs to Computer Science as their two-semester

IT 520	Computer Architecture	4
CS 501	Professional Ethics and Communication in Technology-related Fields	4
Discovery		4
<b>Credits</b>		<b>16</b>
<b>Spring</b>		
CS 518	Introduction to Software Engineering	4
CS 527	Fundamentals of Cybersecurity	4
MATH 539	Introduction to Statistical Analysis	4
Biological Science (DLAB)		4
<b>Credits</b>		<b>16</b>
<b>Third Year</b>		
<b>Fall</b>		
IT 609	Network/Systems Administration	4
IT 705	Project Management for Information Technology	4
IT Elective (1 of 3)		4
Minor (1 of 5)		4
<b>Credits</b>		<b>16</b>
<b>Spring</b>		
IT 699	Internship	1
IT 775	Database Technology	4
Minor (2 of 5)		4
Discovery		4
Free Elective		4
<b>Credits</b>		<b>17</b>
<b>Fourth Year</b>		
<b>Fall</b>		
IT 791	Senior Project I	2
IT Elective (2 of 3)		4
Minor (3 of 5)		4
Discovery		4
Free Elective (optional)		
<b>Credits</b>		<b>14</b>
<b>Spring</b>		
IT 792	Senior Project II	2
IT Elective (3 of 3)		4
Minor (4 of 5)		4
Minor (5 of 5)		4
Free Elective or Fourth Writing Intensive		4
<b>Credits</b>		<b>18</b>
<b>Total Credits</b>		<b>127-131</b>

## Student Learning Outcomes

- Analyze a complex computing problem and to apply principles of computing and other relevant disciplines to identify solutions.
- Design, implement, and evaluate a computing-based solution to meet a given set of computing requirements in the context of the program's discipline.
- Communicate effectively in a variety of professional contexts.

- Recognize professional responsibilities and make informed judgments in computing practice based on legal and ethical principles.
- Function effectively as a member or leader of a team engaged in activities appropriate to the program's discipline.
- Identify and analyze user needs and to take them into account in the selection, creation, integration, evaluation, and administration of computing-based systems.
- Self-learning skills, exposure to technologies new to the students, practice in understanding those technologies on their own.

## Information Technology Minor

<https://ceps.unh.edu/computer-science/program/minor/information-technology>

### Description

The information technology (IT) minor is a way for students in non-technical majors to bridge the gap between a primarily non-technical education and a technical world. Graduates from a variety of fields are discovering that there is a great need to have computer competency in addition to the knowledge they gain in their major; the IT minor, which is tailored to grow students' understanding of computer and information technology applications, helps prepare students for the future.

Students who minor in IT must complete a minimum of 20 credits of IT courses. All students must take IT 520 Computer Architecture as well as an approved introductory programming course. The other three courses may be chosen from the list below.

Credit toward the minor will only be given for courses passed with C- or better, and a 2.00 grade-point average must be maintained in courses for the minor. Courses taken on the pass/fail basis may not be used for the minor. Students should declare their intent to earn a minor as early as possible and no later than the end of the junior year. During the final term, an application should be made to the dean (of the student's major college) to have the minor shown on their academic record. Students must consult with their major adviser and also the minor coordinator.

### Requirements

Code	Title	Credits
<b>Requirements</b>		
IT 520	Computer Architecture	4
One programming course chosen from the following list:		4
CS 410C	Introduction to Scientific Programming/C	
or CS 410P	Introduction to Scientific Programming/Python	
or CS 415	Introduction to Computer Science I	
Three courses chosen from the following list:		12
CS 417	From Programs to Computer Science	
CS 518	Introduction to Software Engineering	
CS 527	Fundamentals of Cybersecurity	
IT 403	Introduction to Internet Technologies	
IT 502	Intermediate Web Design	
IT 505	Integrative Programming	
IT 604	Server-side Web Development	
IT 605	Client-side Web Development	
IT 609	Network/Systems Administration	
IT 612	Scripting Languages	
IT 630	Data Science and Analytics	
IT 666	Cybersecurity Practices	

Other courses are eligible by permission of the minor coordinator

Total Credits

20

## Skills and Perspectives for the Digital World Cognate

<https://ceps.unh.edu/computer-science/program/cognate/skills-perspectives-digital-world>

### Description

Engage with and reflect on the technology associated with the digital world. This cognate provides a foundation for the development of technical and critical skills aligned with one of the 21st century's defining areas: information technology. A recent statement by General Electric's CEO asserts that if you join the company today, as opposed to 20 years ago, you're going to learn to code even though you may be in sales, finance or operations. This cognate gives students and future employees a fundamental introduction into technologies that are necessary for high functioning in today's world, both in the workplace and beyond.

The curriculum consists of three courses: one to strengthen understanding of the technologies that drive the World Wide Web, one course to explore computer programming, and one course to consider the impact of the technologies on society.

### Requirements

Code	Title	Credits
<b>Required Course</b>		
IT 403	Introduction to Internet Technologies	4
Select one course from the following:		
CS 405	Introduction to Applications Programming	4
CS 410C	Introduction to Scientific Programming/C	
or CS 410P	Introduction to Scientific Programming/Python	
CS 414	From Problems to Algorithms to Programs	
Select one course from the following:		
WS 444D	Cyborgs, Avatars, and Feminists: Gender in the Virtual World	4
CS 408	Living in a Networked World: The Good, the Bad, and the Ugly	
ENGL #415E	Literature and Cyberculture	
<b>Total Credits</b>		<b>12</b>

Credit toward the cognate will only be given for courses passed with C- or better, and a 2.00 grade-point average must be maintained in courses for the cognate. Courses taken on a pass/fail basis may not be used for the cognate.

## Earth Sciences (ESCI)

The courses offered in the Department of Earth Sciences cover the broad spectrum of geosciences, with emphases on climate, geochemistry, geology, geophysics, hydrology, and oceanography. The curriculum encompasses a group of related disciplines concerned with an understanding of Earth and its environment. Studies of the processes that shape the continents and oceans, drive the hydrologic cycle and ocean circulation, and affect climate change and the evolution of life are based on a foundation of basic mathematics, physics, and chemistry.

The need for well trained Earth and environmental scientists has been increasing in response to growing societal demands for sound environmental and resource management. Issues of particular concern

include global climate change impacts, management of water resources, development of energy and mineral resources, waste disposal, and assessments of natural hazards. In addition, the demand for well-trained secondary school teachers of Earth sciences has been steadily increasing.

The Department of Earth Sciences offers three majors: B.S. Earth Sciences, B.S. Environmental Sciences (interdisciplinary with the College of Life Sciences and Agriculture) and B.A. Earth Sciences. These programs prepare students for advanced study in the geosciences; for secondary-school teaching of Earth sciences; and for entry-level professional employment in public or private institutions concerned with environmental and resource management, including consulting firms, government agencies, energy- and resource-extraction firms, utilities, and nonprofit organizations; and for secondary-school teaching of Earth sciences.

The Department of Earth Sciences also offers a minor in Earth Sciences, as well as an interdisciplinary minor in oceanography.

Descriptions and requirements for the majors and minors are arranged alphabetically.

<https://ceps.unh.edu/earth-sciences>

### Programs

- [Earth Sciences Major \(B.A.\)](#) (p. 188)
- [Earth Sciences Major \(B.S.\)](#) (p. 190)
- [Earth Sciences Minor](#) (p. 194)
- [Environmental Sciences Major: Geosystems Option \(B.S.\)](#) (p. 194)
- [Environmental Sciences Major: Hydrology Option \(B.S.\)](#) (p. 197)
- [Oceanography Minor](#) (p. 199)

### Faculty

<https://ceps.unh.edu/earth-sciences/faculty-staff-directory>

## Earth Sciences Major (B.A.)

<https://ceps.unh.edu/earth-sciences/program/ba/earth-sciences-major>

### Description

The bachelor of arts in Earth sciences is offered through the Department of Earth Sciences. This program provides students an opportunity to obtain a broad education and a general background in the Earth sciences with a greater degree of freedom in choosing electives than in the bachelor of science programs. Through careful choice of electives, students can prepare for business, industry, public service, the non-profit sector, graduate school or, in combination with a M.Ed. or M.A.T. certification program, a career teaching in secondary schools.

### Requirements

Code	Title	Credits
Satisfy the Discovery Program Requirements <sup>1</sup>		
Satisfy the bachelor of arts degree requirements		
Complete (with a C- or better in each course) a minimum of eight courses in the department, including the following:		

ESCI 401	Dynamic Earth	4
or ESCI 409	Geology and the Environment	
ESCI 402	Earth History	4
ESCI 512	Principles of Mineralogy	4
CHEM 403	General Chemistry I	4
Five advanced-level courses, two of which must be 700-level or above		15-20
<b>Math Requirements</b>		
MATH 425	Calculus I	4
MATH 426	Calculus II	4
or MATH 539	Introduction to Statistical Analysis	
or BIOL 528	Applied Biostatistics I	
<b>Capstone</b>		
<b>Total Credits</b>		<b>39-44</b>

<sup>1</sup> Note that ESCI 401 Dynamic Earth, ESCI 402 Earth History, ESCI 405 Global Environmental Change, ESCI 409 Geology and the Environment, ESCI 420 Our Solar System, ESCI 501 Introduction to Oceanography cannot be taken to fulfill Discovery Program requirements for majors in the Department of Earth Sciences.

It is strongly advised that students complete, as early as possible, a year each of college chemistry and physics.

## Capstone Experience

A capstone experience is required of all undergraduate Earth sciences majors during their senior year. All capstone experiences at UNH must meet one or more of the following criteria:

1. The capstone synthesizes and applies disciplinary knowledge and skills.
2. The capstone fosters reflection on undergraduate learning and experience.
3. The capstone demonstrates emerging professional competencies.
4. The capstone applies, analyzes, and/or interprets research or data or artistic expression.
5. The capstone explores areas of interest based on the integration of prior learning.

Suggested ways of meeting the capstone requirement in the Department of Earth Sciences include approved INCO 790 Advanced Research Experience, ESCI 795 Topics/ESCI 796 Topics field courses, ESCI 799 Senior Thesis, URA/SURF/IROP projects, internships, environmental/geologic field camps, REU programs, or Earth Sciences education and outreach activities designed according to the above criteria. Capstone experiences must be equivalent to a minimum of 2 academic credits. Students should work closely with their faculty advisors to define the most appropriate capstone experience for their Earth Sciences degree program, although the capstone mentor can be someone other than their primary faculty advisor. All capstone experiences must be approved and certified by the faculty advisor and the capstone mentor. Presentation of projects or experiences developed for the capstone is encouraged at the annual UNH Undergraduate Research Conference or other appropriate venue.

## Degree Plan

<b>Credits</b>	<b>16</b>
<b>Total Credits</b>	<b>129</b>

<sup>1</sup> One course must be taken in each of the remaining Disciplinary Groups of the University Discovery Program (Biological Sciences; Environment Technology & Society; Historical Perspectives; World Culture; Fine & Performing Arts; Social Science; Humanities).

<sup>2</sup> The foreign language requirement may be fulfilled by a full year (8 UNH credits or equivalent) elementary course in any foreign language including American Sign Language, 1 semester (4 UNH credits or equivalent) of any foreign language beyond the elementary level, or by taking a College Board foreign language achievement test.

<sup>3</sup> Students should consider additional courses in Earth Sciences and other science and math courses.

## Student Learning Outcomes

- Recognize common Earth materials and structures.
- Describe how Earth scientists construct the geological time scale and apply geochronologic dating techniques.
- Describe the broad attributes of and interactions within the Earth System, as well as its geological history, how and why it is changing today, and how those changes impact society.
- Understand Earth processes and cycles.
- Perform simple calculations to process and evaluate quantitative Earth science data.
- Interpret a geologic map and cross section in terms of the sequence of geologic events and understand the processes that caused those events.
- Collect, interpret, and synthesize basic field observations and measurements to develop and test multiple working hypotheses to explain them.
- Become proficient in basic geological and Earth science laboratory skills.
- Describe the basic dynamics governing the evolution of the Earth's climate.
- Successfully apply basic calculus and chemistry to Earth science problems.
- Effectively communicate results of scientific inquiries orally, visually, and in writing.

## Earth Sciences Major (B.S.)

<https://ceps.unh.edu/earth-sciences/program/bs/earth-sciences-major>

### Description

The bachelor of science in Earth sciences is offered through the Department of Earth Sciences. The program represents a strong concentration in the Earth sciences, built upon a solid formation in mathematics, physics and chemistry. The B.S. degree is especially well-suited for students who wish a strong foundation for secondary teaching

or plan to continue their studies in graduate school. Beyond a central core of courses, there are several possible specializations (climate, geology, geophysics, oceanography) from which students must choose in order to develop depth in a particular area of Earth sciences. Students are encouraged to participate in research, field or internship experiences to round out their experiences in the degree program.

Oceanography		
<b>Science/Math Electives</b>		
Complete three additional approved science/math electives <sup>5</sup>		
<b>Capstone</b>		
Complete the capstone requirement		
<b>Total Credits</b>		<b>48</b>

<sup>1</sup> Some of these courses may also satisfy Discovery Program requirements.

<sup>2</sup> Or CHEM 405 Chemical Principles for Engineers if applicable

<sup>3</sup> ESCI 530 Geological Field Methods is required for the geology and geophysics specializations

<sup>4</sup> Geophysics track must select ESCI 701 Quantitative Methods in Earth Sciences

<sup>5</sup> The following should be considered: additional 700-level Earth sciences courses; additional chemistry, mathematics, and physics courses; courses in computer science, engineering, and the biological sciences; and an off-campus field camp.

## Specializations

### Climate

Code	Title	Credits
ESCI 514	Introduction to Climate	3
ESCI 561	Landscape Evolution	4
Select at least two of the following:		6-7
ESCI 758	Introductory Physical Oceanography	
ESCI 760	Paleoceanography	
ESCI 762	Glacial Geology	
ESCI 765	Paleoclimatology	

Select three advanced-level approved electives	9-12
<b>Total Credits</b>	<b>22-26</b>

## Geology

Code	Title	Credits
ESCI 561	Landscape Evolution	4
ESCI 614	Introduction to Petrology	4
ESCI 631	Structural Geology	4
ESCI #652	Paleontology	4
Two approved 700-level electives		6-8
<b>Total Credits</b>		<b>22-24</b>

## Geophysics

Code	Title	Credits
MATH 527	Differential Equations with Linear Algebra	4
MATH 528	Multidimensional Calculus	4
ESCI 561	Landscape Evolution	4
or ESCI 614	Introduction to Petrology	
ESCI 631	Structural Geology	4
Select at least two of the following:		8
ESCI #734	Geophysics	
ESCI 756	Geotectonics	
ESCI 759	Geological Oceanography	
One approved 700-level elective		3-4
<b>Total Credits</b>		<b>27-28</b>

## Oceanography

Code	Title	Credits
BIOL 411	Introductory Biology: Molecular and Cellular	4
ESCI 514	Introduction to Climate	3
Select at least three of the following:		10-11
ESCI 752	Chemical Oceanography	
ESCI 758	Introductory Physical Oceanography	
ESCI 759	Geological Oceanography	
MEFB 755	Biological Oceanography	
Complete three advanced-level approved electives		9-12
<b>Total Credits</b>		<b>26-30</b>

## Capstone Experience

A capstone experience is required of all undergraduate Earth sciences majors during their senior year. All capstone experiences at UNH must meet one or more of the following criteria:

1. The capstone synthesizes and applies disciplinary knowledge and skills.
2. The capstone fosters reflection on undergraduate learning and experience.
3. The capstone demonstrates emerging professional competencies.
4. The capstone applies, analyzes, and/or interprets research or data or artistic expression.
5. The capstone explores areas of interest based on the integration of prior learning.

Suggested ways of meeting the capstone requirement in the Department of Earth Sciences include approved INCO 790 Advanced Research Experience, ESCI 795 Topics/ESCI 796 Topics, ESCI 799 Senior Thesis, URA/SURF/IROP projects, internships, environmental/geologic field camps, REU programs, or Earth Sciences education and outreach activities designed according to the above criteria. Capstone experiences must be equivalent to a minimum of 2 academic credits. Students should work closely with their faculty advisors to define the most appropriate capstone experience for their Earth Sciences degree program, although the capstone mentor can be someone other than their primary faculty

advisor. All capstone experiences must be approved and certified by the faculty advisor and the capstone mentor. Presentation of projects or experiences developed for the capstone is encouraged at the annual UNH Undergraduate Research Conference or other appropriate venue.

<sup>1</sup> One course must be taken in each of the remaining Disciplinary Groups of the University Discovery Program (Biological Sciences; Environment

Technology & Society; Historical Perspectives; World Culture; Fine & Performing Arts; Social Science; Humanities).

<sup>2</sup> Three science electives must be approved in consultation with departmental advisor.

## Student Learning Outcomes

- Recognize common Earth materials and structures.
- Describe how Earth scientists construct the geological time scale and apply geochronologic dating techniques.
- Describe the broad attributes of and interactions within the Earth System, as well as its geological history, how and why it is changing today, and how those changes impact society.
- Understanding Earth processes and cycles.
- Perform simple calculations to process and evaluate quantitative Earth science data.
- Interpret a geologic map and cross section in terms of the sequence of geologic events and understand the processes that caused those events.
- Collect, interpret, and synthesize basic field observations and measurements to develop and test multiple working hypotheses to explain them.
- Become proficient in basic geological and Earth science laboratory skills.
- Describe the basic dynamics governing the evolution of the Earth's climate.
- Successfully apply basic calculus and chemistry to Earth science problems.
- Summarize, analyze, and evaluate student-generated scientific data and the primary Earth sciences literature.
- Effectively communicate results of scientific inquiries orally, visually, and in writing.

## Earth Sciences Minor

<https://ceps.unh.edu/earth-sciences/program/minor/earth-sciences>

### Description

The Department of Earth Sciences offers a minor in Earth Sciences available to all University students. The Earth Sciences minor provides an opportunity for students to complement their major field of study with foundational knowledge and essential skills in the geosciences. As with all minors offered at UNH, the Earth Sciences minor adheres to the following University requirements:

The minor consists of at least 20 semester hours of credit. For the Earth Sciences minor, the 20 credits typically come from five ESCI courses and may include research credits supervised by an Earth Sciences faculty member. A grade of C- or better must be earned in each course, and an overall 2.00 grade point average must be maintained for all courses applied toward the minor. Courses taken on a pass/fail basis may not be used for the minor. No more than two courses (8 credits) can be used to satisfy simultaneously requirements for a student's major and minor, or two minors. No more than two courses (8 credits) may be transferred from another accredited institution and applied toward the minor, provided UNH has accepted them as transfer credits.

## Requirements

Courses in the Earth Sciences minor must include both introductory and more advanced ESCI courses. Strongly recommended introductory courses include ESCI 401 Dynamic Earth or ESCI 409 Geology and the Environment (students may not receive credit for both ESCI 401 Dynamic Earth and ESCI 409 Geology and the Environment) and ESCI 402 Earth History. More advanced courses must include at least one at the 600 or 700 level. Specific courses in the program are selected in consultation with a minor adviser in the Department of Earth Sciences, with flexibility in approved courses to accommodate interests in different aspects of the geosciences. Interested students should contact the Department of Earth Sciences ([earth.sciences@unh.edu](mailto:earth.sciences@unh.edu)) to arrange to complete an Intent to Minor form no later than their junior year. Forms can be picked up in the Earth Sciences main office, 214 James Hall.

## Environmental Sciences Major: Geosystems Option (B.S.)

<https://ceps.unh.edu/earth-sciences/program/bs/environmental-sciences-major-geosystems-option>

### Description

The College of Engineering and Physical Sciences (CEPS) and the College of Life Science and Agriculture (COLSA) jointly offer a bachelor of science degree in environmental sciences. Environmental sciences, an interdisciplinary field, focuses on the interaction of biological, chemical, and physical processes that shape our natural environment. Students graduating with a degree in environmental sciences will have an understanding of these interacting processes, the ability to communicate effectively with both scientific and lay audiences, competency in field methods appropriate for entry-level environmental science positions, competency in the use and application of Geographic Information Systems (GIS), a basic understanding of environmental policy, and the ability to contribute to multidisciplinary teams. The University of New Hampshire is a recognized leader in environmental sciences research, and the environmental sciences program capitalizes on faculty expertise in this area. The full-time faculty members comprising this program have major teaching and research emphases in the areas of biogeochemical cycling, environmental chemistry, ecosystem science, geospatial science, global change, hydrology, plant ecology, soil science, and water resource management.

Employment opportunities include environmental consulting firms, educational facilities (e.g., science centers), environmental monitoring laboratories (e.g., water treatment plants; the Environmental Protection Agency), government agencies (e.g., the U.S. Geological Survey, Bureau of Land Management, Natural Resource Conservation Service), university and government research laboratories, and nongovernment environmental organizations. The environmental sciences program also constitutes an excellent preparation for graduate programs in several areas relating to the environment. Students should consult with their adviser early if their goals include further study.

The Program has four options, and specific course requirements for the major vary by option. The geosystems and hydrology options are both managed by the Department of Earth Sciences in CEPS, and the ecosystems and soils and watersheds options are both managed by the Department of Natural Resources and the Environment in the COLSA.

The geosystems option provides students with a solid grounding in quantitative reasoning, with an emphasis on geochemical and geospatial systems.

## Requirements

In addition to the Discovery Program and University writing requirements, all students will take Introduction to Environmental Science NR 403 Introduction to Environmental Science and Professional Perspectives in Natural Resources (NR 400 Professional Perspectives in Natural Resources), plus one other elective introductory environmental science course. Foundation courses include introductions to biology, physics, chemistry, geology, calculus, and statistics.

## INTRODUCTORY

Code	Title	Credits
NR 400	Professional Perspectives in Natural Resources	1
NR 403	Introduction to Environmental Science	4
Plus one other elective introductory environmental science course		4
<b>Total Credits</b>		<b>9</b>

## FOUNDATION

Code	Title	Credits
<b>Biology</b>		
BIOL 411	Introductory Biology: Molecular and Cellular	4

<b>Mineralogy</b>		
ESCI 512	Principles of Mineralogy	4
<b>Geomorphology</b>		
ESCI 561	Landscape Evolution	4
<b>Biogeosciences</b>		
ESCI 642	Biogeosciences in the Earth System	3
<b>Geochemistry</b>		
Approved Geochemistry Elective		4
ESCI 741	Geochemistry	
ESCI 745	Isotope Geochemistry	
ESCI 747	Aqueous Geochemistry	
ESCI 796	Topics (Biogeochemistry)	
or NR 744	Biogeochemistry	
A course in quantitative or spatial analysis		4
Select two or three approved electives		8-12
<b>Total Credits</b>		<b>27-31</b>

Some students enroll in the EcoQuest program (a study abroad opportunity in New Zealand), which satisfies the policy requirement, and capstone requirement if taken senior year.

Students must complete additional courses for the geosystems option to total 88 credits in the major.

For a list of approved elective courses and for further information about the geosystems option, students may contact [earth.sciences@unh.edu](mailto:earth.sciences@unh.edu). ([earth.sciences@unh.edu](mailto:earth.sciences@unh.edu))

## Capstone Experience

A capstone experience is required of all undergraduate Earth sciences majors during their senior year. All capstone experiences at UNH must meet one or more of the following criteria:

1. The capstone synthesizes and applies disciplinary knowledge and skills.
2. The capstone fosters reflection on undergraduate learning and experience.
3. The capstone demonstrates emerging professional competencies.
4. The capstone applies, analyzes, and/or interprets research or data or artistic expression.
5. The capstone explores areas of interest based on the integration of prior learning.

Suggested ways of meeting the capstone requirement in the Department of Earth Sciences include approved INCO 790 experiences, ESCI 795/796 field courses, senior thesis (ESCI 799/799H), URA/SURF/IROP projects, internships, environmental/geologic field camps, REU programs, or Earth Sciences education and outreach activities designed according to the above criteria. Capstone experiences must be equivalent to a minimum of 2 academic credits. Students should work closely with their faculty advisors to define the most appropriate capstone experience for their Earth Sciences degree program, although the capstone mentor can be someone other than their primary faculty advisor. All capstone experiences must be approved and certified by the faculty advisor and the capstone mentor. Presentation of projects or experiences developed for the capstone is encouraged at the annual UNH Undergraduate Research Conference or other appropriate venue.

Approved Technical Elective <sup>2</sup>	4
Elective	4
<b>Credits</b>	<b>16</b>
<b>Total Credits</b>	<b>128</b>

<sup>1</sup> One course must be taken in each of the remaining Disciplinary Groups of the University Discovery Program (Environment Technology & Society; Historical Perspectives; World Culture; Fine & Performing Arts; Social Science; Humanities).

<sup>2</sup> Three technical electives must be approved in consultation with departmental advisor.

All students must take four writing intensive courses, including ENGL 401, a course in the major, and a course at the 600/700 level.

## Student Learning Outcomes

- Recognize common Earth and environmental materials and dynamic processes in the Earth System and environment.
- Understand the Earth as a system and be able to describe the broad attributes of and interactions within the Earth System and the environment through both short- and long-term perspectives, evaluate how and why it is changing today, and assess coupled human and natural system interactions. Understand the ecological and chemical systems of the environment.
- Understand Earth processes and cycles using a strong foundation of physical, biological and chemical sciences.
- Perform field measurements and simple calculations to collect, evaluate and interpret quantitative environmental or geological data. Understand the role that spatially explicit data and time series play in understanding environmental and hydrological sciences.
- Collect, interpret, and synthesize basic field observations and measurements to develop and test multiple working hypotheses to explain them. Additionally, become comfortable with the use of technology and computational methods in processing a range of scientific data.
- Analyze, summarize, evaluate, and explain/present their own scientific data and the primary Earth and environmental sciences literature.
- Communicate results of scientific inquiries orally, visually, and in writing.

# Environmental Sciences Major: Hydrology Option (B.S.)

<https://ceps.unh.edu/earth-sciences/program/bs/environmental-sciences-major-hydrology-option>

## Description

The College of Engineering and Physical Sciences (CEPS) and the College of Life Science and Agriculture (COLSA) jointly offer a bachelor of science degree in environmental sciences. Environmental sciences, an interdisciplinary field, focuses on the interaction of biological, chemical, and physical processes that shape our natural environment. Students graduating with a degree in environmental sciences will have an understanding of these interacting processes, the ability to communicate effectively with both scientific and lay audiences, competency in field methods appropriate for entry-level environmental science positions, competency in the use and application of Geographic Information Systems (GIS), a basic understanding of environmental policy, and the ability to contribute to multidisciplinary teams. The University of New Hampshire is a recognized leader in environmental sciences research, and the environmental sciences program capitalizes on faculty expertise in this area. The full-time faculty members comprising this program have major teaching and research emphases in the areas of biogeochemical cycling, environmental chemistry, geospatial science, ecosystem science, global change, hydrology, plant ecology, soil science, and water resource management.

Employment opportunities include: environmental consulting firms, educational facilities (e.g., science centers), environmental monitoring laboratories (e.g., water treatment plants; the Environmental Protection Agency), government agencies (e.g., the U.S. Geological Survey, Bureau of Land Management, Natural Resource Conservation Service), university and government research laboratories, and nongovernment environmental organizations. The environmental sciences program also constitutes an excellent preparation for graduate programs in several areas relating to the environment. Students should consult with their adviser early if their goals include further study.

The Program has four options, and specific course requirements for the major vary by option. The geosystems and hydrology options are both managed by the Department of Earth Sciences in CEPS, and the ecosystems and soils and watersheds options are both managed by the Department of Natural Resources and the Environment in the COLSA. The hydrology option provides students with a solid grounding in fundamental hydrological principles and quantitative reasoning.

## Requirements

In addition to the Discovery Program and University writing requirements, all students will take Introduction to Environmental Science NR 403 Introduction to Environmental Science and Professional Perspectives in Natural Resources (NR 400 Professional Perspectives in Natural Resources), plus one other elective introductory environmental science course. Foundation courses include introductions to biology, physics, chemistry, geology, calculus, and statistics.

<b>Total Credits</b>		<b>32-36</b>

## CORE COURSES

Code	Title	Credits
ESCI 534	Techniques in Environmental Sciences	3
ESCI 654	Fate and Transport in the Environment	4
ESCI 777	GIS for Earth & Environmental Sciences	4
or NR 658	Introduction to Geographic Information Systems	
NR 602	Natural Resources and Environmental Policy	4
or NR 662	Environmental Policy, Planning and Sustainability in New Zealand	
Capstone Experience <sup>1</sup>		
<b>Total Credits</b>		<b>15</b>

<sup>1</sup> NR 791 Preparation for Capstone and an independent study or capstone course taken in the senior year and approved by their adviser and the program coordinator.

## HYDROLOGY

Code	Title	Credits
<b>Geomorphology</b>		
ESCI 561	Landscape Evolution	4
<b>Soils/Mineralogy</b>		
ESCI 512	Principles of Mineralogy	4
or NR 501	Studio Soils	
<b>Surface Water Hydrology</b>		
ESCI 705	Principles of Hydrology	4
or CEE 754	Engineering Hydrology	
<b>Groundwater Hydrology</b>		

ESCI 710	Groundwater Hydrology	4
<b>Select one Quantitative Analysis course from the following:</b>		<b>4</b>
CS 410P	Introduction to Scientific Programming/Python	
ESCI 701	Quantitative Methods in Earth Sciences	
ESCI 764	Spectral Analysis of Geophysical Time Series Data	
MATH 525	Linearity I	
MATH 527	Differential Equations with Linear Algebra	
MATH 528	Multidimensional Calculus	
MATH 645	Linear Algebra for Applications	
MATH 739	Applied Regression Analysis	
MATH 740	Design of Experiments I	
<b>Select two or three approved electives from the following:</b>		<b>8-12</b>
CEE 650	Fluid Mechanics	
CEE 721	Environmental Sampling and Analysis	
CEE 723	Environmental Water Chemistry	
CEE 724	Environmental Engineering Microbiology	
CEE #750	Ecohydrology	
CEE 751	Open Channel Flow	
CEE 758	Stormwater Management Designs	
CEE 759	Stream Restoration	
ESCI 642	Biogeosciences in the Earth System	
ESCI 741	Geochemistry	
ESCI 745	Isotope Geochemistry	
ESCI 747	Aqueous Geochemistry	
ESCI 762	Glacial Geology	
ESCI 778	Remote Sensing Earth & Environmental Sciences	
NR 660	Ecology and Biogeography of New Zealand	
NR 661	Restoration Ecology and Ecosystem Management in New Zealand	
NR 703	Watershed Water Quality Management	
NR 707	Environmental Modeling	
NR 744	Biogeochemistry	
NR 751	Aquatic Ecosystems	
NR 757	Remote Sensing of the Environment	
NR 759	Digital Image Processing for Natural Resources	
NR 761	Environmental Soil Chemistry	
<b>Total Credits</b>		<b>28-32</b>

Some students enroll in the EcoQuest program (a study abroad opportunity in New Zealand), which satisfies the policy requirement, and capstone requirement if taken senior year.

Students must complete additional courses for the hydrology option to total 88 credits in the major.

For further information about the hydrology option or to discuss alternative elective courses, students may contact [earth.sciences@unh.edu](mailto:earth.sciences@unh.edu). ([earth.sciences@unh.edu](mailto:earth.sciences@unh.edu))

## Capstone Experience

A capstone experience is required of all undergraduate Earth sciences majors during their senior year. All capstone experiences at UNH must meet one or more of the following criteria:

1. The capstone synthesizes and applies disciplinary knowledge and skills.
2. The capstone fosters reflection on undergraduate learning and experience.
3. The capstone demonstrates emerging professional competencies.
4. The capstone applies, analyzes, and/or interprets research or data or artistic expression.
5. The capstone explores areas of interest based on the integration of prior learning.

Suggested ways of meeting the capstone requirement in the Department of Earth Sciences include approved INCO 790 Advanced Research

Experience, ESCI 795 Topics/ESCI 796 Topics, ESCI 799 Senior Thesis, URA/SURF/IROP projects, internships, environmental/geologic field camps, REU programs, or Earth Sciences education and outreach activities designed according to the above criteria. Capstone experiences must be equivalent to a minimum of 2 academic credits. Students should work closely with their faculty advisors to define the most appropriate capstone experience for their Earth Sciences degree program, although the capstone mentor can be someone other than their primary faculty advisor. All capstone experiences must be approved and certified by the faculty advisor and the capstone mentor. Presentation of projects or experiences developed for the capstone is encouraged at the annual UNH Undergraduate Research Conference or other appropriate venue.

## Degree Plan

Course	Title	Credits
<b>First Year</b>		
<b>Fall</b>		
NR 400	Professional Perspectives in Natural Resources	1
NR 403	Introduction to Environmental Science	4
MATH 425	Calculus I	4
CHEM 403	General Chemistry I (and 403L)	4
ENGL 401	First-Year Writing	4
<b>Credits</b>		<b>17</b>
<b>Spring</b>		
ESCI 409	Geology and the Environment	4
MATH 426	Calculus II	4
CHEM 404	General Chemistry II (and 404L)	4

<b>Spring</b>		
ESCI 654	Fate and Transport in the Environment	4

NR 602	Natural Resources and Environmental Policy	4
NR 658	Introduction to Geographic Information Systems	4
NR 791	Preparation for Capstone	1
Quantitative analysis elective <sup>1</sup>		4
<b>Credits</b>		<b>17</b>

**Fourth Year****Fall**

ESCI 705	Principles of Hydrology	4
Senior Capstone (ESCI 799, INCO 790) or free-elective if capstone is otherwise satisfied		3-4
Approved Science Elective		4
Discovery Discipline Course <sup>1</sup>		4
<b>Credits</b>		<b>15-16</b>

**Spring**

ESCI 710	Groundwater Hydrology	4
Approved Science Elective		4
Free Elective		4
Discovery Discipline Course <sup>1</sup>		4
<b>Credits</b>		<b>16</b>
<b>Total Credits</b>		<b>128-129</b>

<sup>1</sup> One course must be taken in each of the remaining Disciplinary Groups of the University Discovery Program (Environment Technology & Society; Historical Perspectives; World Culture; Fine & Performing Arts; Social Science; Humanities).

<sup>2</sup> Three technical electives must be approved in consultation with departmental advisor.  
All students must take four writing intensive courses, including ENGL 401, a course in the major, and a course at the 600/700 level.

## Student Learning Outcomes

- Recognize common Earth and environmental materials and dynamic processes in the Earth System and environment.
- Understand the Earth as a system and be able to describe the broad attributes of and interactions within the Earth System and the environment through both short- and long- term perspectives, evaluate how and why it is changing today, and assess coupled human and natural system interactions. Understand the ecological and chemical systems of the environment.
- Understand Earth processes and cycles using a strong foundation of physical, biological and chemical sciences.
- Demonstrate knowledge of core concepts in the hydrologic sciences: stream flow, groundwater, water budgets, Darcy's Law, hydrologic fluxes such as evaporation, precipitation, infiltration, and transpiration, and physical factors that affect them, and a basic understanding of the uses and limitations of a hydrologic model.
- Perform field measurements and simple calculations to collect, evaluate and interpret quantitative environmental or geological data. Understand the role that spatially explicit data and time series play in understanding environmental and hydrological sciences.
- Collect, interpret, and synthesize basic field observations and measurements to develop and test multiple working hypotheses to explain them. Additionally, become comfortable with the use of

technology and computational methods in processing a range of scientific data.

- Analyze, summarize, evaluate, and explain/present their own scientific data and the primary Earth and environmental sciences literature.
- Communicate results of scientific inquiries orally, visually, and in writing.

## Oceanography Minor

<https://ceps.unh.edu/earth-sciences/program/minor/oceanography>

### Description

The minor in oceanography is available to all students in the University interested in obtaining a broad background in oceanography. The minor consists of a minimum of five courses with grades of C (2.00) or better and no pass/fail courses. No more than 8 major requirement credits may be used. All courses in the program are selected in consultation with the oceanography minor adviser, Dr. Jamie Pringle, (603) 862-5000, [jpringle@unh.edu](mailto:jpringle@unh.edu). Students must complete an Intent to Minor form no later than their junior year. Forms can be picked up in the Earth Sciences departmental office, 214 James Hall.

### Requirements

Code	Title	Credits
<b>Required Courses</b>		
ESCI 501	Introduction to Oceanography	4
Select two of the following:		6-8
ESCI 752	Chemical Oceanography	
ESCI 758	Introductory Physical Oceanography	
ESCI 759	Geological Oceanography	
MEFB 755	Biological Oceanography	
Select two of the following: <sup>1</sup>		6-8
MEFB 401	Marine Estuarine and Freshwater Biology: Freshmen Seminar	
MEFB 403	Investigative Marine Biology Laboratory	
MEFB 503	Introduction to Marine Biology	
MEFB 508	Marine Ecosystem Research and Management	
MEFB 530	Evolution and Marine Diversity	
MEFB 535	Marine Mammal Biology	
MEFB 625	Introduction to Marine Botany	
MEFB 674	Ecology and Marine Environment	
MEFB 702	Sustainable Marine Fisheries	
MEFB 725	Marine Ecology	
MEFB 754	Anatomy and Function of Marine Vertebrates	
CEE 722	Introduction to Marine Pollution and Control	
CEE #757	Coastal Engineering and Processes	
ESCI 502	Beaches and Coasts	
ESCI 514	Introduction to Climate	
ESCI 701	Quantitative Methods in Earth Sciences	
ESCI 720	Ocean Measurements Lab	
ESCI 747	Aqueous Geochemistry	
ESCI 754	Sedimentology	
ESCI 756	Geotectonics	
ESCI 765	Paleoclimatology	
ESCI/OE 771	Geodesy and Positioning for Ocean Mapping	
OE 490	Introduction to Ocean Engineering	
OE 610	Ocean Instrumentation Lab	
OE 753	Ocean Hydrodynamics	
OE 754	Ocean Waves and Tides	
OE 757	Coastal Engineering and Processes	
TECH 797	Undergraduate Ocean Research Project	
ZOOL 610	Principles of Aquaculture	

ZOOL 710	Sharks and Bony Fishes
MEFB 772	Fisheries Biology: Conservation and Management
MEFB 628	Marine Invertebrate Evolution and Ecology
MEFB 773	Physiology of Fishes
<b>Total Credits</b>	
	at least 18

<sup>1</sup> Or a suitable substitute approved by the minor advisor (at least one of these courses should be in the biological sciences).

## Electrical and Computer Engineering (ECE)

The Department of Electrical and Computer Engineering offers a B.S. in electrical engineering and a B.S. in computer engineering. Both degree programs are accredited by the:

Engineering Accreditation Commission of ABET  
415 N. Charles Street  
Baltimore, MD 21201  
Telephone (410) 347-7700

Electrical engineers design, develop, and produce the electrical and electronic systems upon which modern society has come to depend: basic infrastructure, such as the electric power grid and fiber optic communication lines; public conveniences, such as mag lev transporters and LED signs; consumer products, such as iPods and MP3 players; personal communication devices, such as smart phones; military systems, such as rail guns and laser weapons; instruments that can image the ocean floor or analyze the Earth's atmosphere from satellites; and medical diagnostic machines like CAT and MRI scanners. Almost every facet of modern life is touched by the work of electrical engineers. Students electing this major gain knowledge of advanced electronic circuit and system design through the use of computer-aided design tools, hardware circuit prototyping, and hands-on laboratory testing.

Computers have become embedded in virtually every engineering system, including everyday items ranging from watches to automobiles. Computer engineering, traditionally a subset of electrical engineering, is a rapidly growing field that emphasizes the design, interfacing, hardware/software tradeoffs, and real-time applications of embedded computers. Students who elect this major will gain a knowledge of both hardware and software concepts, and will learn to design, build, and test systems containing digital computers.

Embedded in both the electrical engineering and computer engineering programs is the biomedical engineering option. The option provides core knowledge expected of a computer and/or electrical engineer to provide engineering services in the biomedical field. Electrical and/or computer engineers with this option combine engineering principles with medical and biological sciences to design and create equipment, devices, computer systems, and software used in healthcare.

At UNH, the cornerstone of the electrical and computer engineering programs are the involvement of students in the solution of real-world problems.

## ECE Department Mission

The mission of the department is to foster and advance knowledge in electrical and computer engineering.

### *The mission involves:*

- teaching courses in electrical and computer engineering and related fields at the bachelor's, master's, and doctoral levels;
- advancing knowledge through research and scholarship;
- serving the state and nation by making the department's intellectual resources available to industry and government agencies. The undergraduate EE and CE programs shall provide a firm foundation in electrical and computer engineering theory and practice, with a mix of laboratory and design experiences. The programs also shall foster teamwork and project management skills.

The graduate ECE program shall lead to the degrees of master of science in electrical and computer engineering and the doctor of philosophy in electrical and computer engineering. Research and scholarship are core components of the department's mission and they directly impact undergraduate and graduate education. Success in obtaining funds to procure equipment and support research efforts is therefore an essential objective for the department.

The department recognizes the need to conduct periodic reviews and adjustments to meet the current and projected needs of the state and nation according to its mission objectives.

## Electrical Engineering and Computer Engineering Program Educational Objectives

The Department of Electrical and Computer Engineering has adopted a set of program educational objectives that consists of statements describing the expected accomplishments of graduates during the first several years following graduation from either program:

### Electrical Engineering Program Educational Objectives

*Depth:* To be effective in applying electrical engineering principles in engineering practice or for advanced study in electrical engineering.

*Breadth:* To have a productive career in the many diverse fields of electrical engineering such as analog engineering, bioengineering, communications, and electromagnetics and waves, or in the pursuit of graduate education in disciplines such as electrical engineering, medicine, law, or business.

*Professionalism:* To function effectively in the complex modern work environment with the ability to assume professional leadership roles.

### Computer Engineering Program Educational Objectives

*Depth:* To be effective in applying computer engineering principles in engineering practice or for advanced study in computer engineering.

*Breadth:* To have a productive career in the many diverse fields of computer engineering such as digital engineering, bioengineering, security, communications, and embedded systems, or in the pursuit of graduate education in disciplines such as computer engineering, medicine, law, or business.

*Professionalism:* To function effectively in the complex modern work environment with the ability to assume professional leadership roles.

The department recognizes the need to conduct periodic reviews and adjustments to our educational objectives.

## Electrical Engineering and Computer Engineering Program Educational Outcomes

The Department of Electrical and Computer Engineering has adopted a set of program educational outcomes that consists of statements describing what students are expected to know and be able to do by the time of graduation, the achievement of which indicates that the student is equipped to achieve the program objectives. The current electrical engineering program educational outcomes and computer engineering program educational outcomes are:

- An ability to apply knowledge of mathematics, science, and engineering.
- An ability to design and conduct experiments, as well as to analyze and interpret data.
- An ability to design a system, component, or process to meet desired needs within realistic constraints such as economic, environmental, social, political, ethical, health and safety, manufacturability, and sustainability.
- An ability to function on multidisciplinary teams an ability to identify, formulate, and solve engineering problems.
- An understanding of professional and ethical responsibility.
- An ability to communicate effectively.
- The broad education necessary to understand the impact of engineering solutions in a global, economic, environmental, and societal context.
- A recognition of the need for, and an ability to engage in life-long learning a knowledge of contemporary issues.
- An ability to use the techniques, skills, and modern engineering tools necessary for engineering practice.

The department recognizes the need to conduct periodic reviews and adjustments to our educational outcomes.

Students contemplating a decision between the electrical engineering and computer engineering degree programs should consider both the similarities and differences of the two programs. The two curricula require the same foundational courses in mathematics, physics, analog and digital electronic circuits, and a capstone senior design project. The computer engineering degree program requires additional fluency in software development and advanced computer system and hardware design. The electrical engineering degree program requires advanced study in analog and mixed-signal electronic circuit and system analysis and design. Discovery Program requirements are identical for both degree programs.

## Faculty

[Electrical and Computer Engineering Faculty](#)

## Computer Engineering Major (B.S.)

<https://ceps.unh.edu/electrical-computer-engineering/program/bs/computer-engineering-major>

## Description

In addition to the university's mandatory Discovery Program requirements, degree candidates must complete our core program (freshman through junior years). In the senior year, students select professional technical electives in the areas of their interest. They also carry out a student-designed project to acquire both breadth and depth of study and to integrate knowledge across course boundaries.

For a detailed semester by semester list of requirements for the four years of study, please refer to the Degree Plan tab.

## Requirements

In addition to Discovery Program requirements, the department has a number of grade-point average and course requirements:

1. Any computer engineering major whose cumulative grade-point average in ECE and computer science courses is less than 2.0 during any three semesters will not be allowed to continue as a computer engineering major.
2. Computer engineering majors must achieve a 2.0 grade-point average in all ECE and CS courses as a requirement for graduation.

To make an exception to any of these departmental requirements based on extenuating circumstances, students must petition the department's undergraduate committee. Mindful of these rules, students, with their adviser's assistance, should plan their programs based on the distribution of courses found in the Degree Plan tab.

## Required Courses

Code	Title	Credits
CS 410C	Introduction to Scientific Programming/C	4
CS 419	Computer Science for Engineers and Scientists	4
CS 515	Data Structures and Introduction to Algorithms	4
ECE 401	Perspectives in Electrical and Computer Engineering	4
ECE 541	Electric Circuits	4
ECE 543	Introduction to Digital Systems	4
ECE 548	Electronic Design I	4
ECE 562	Computer Organization	4
ECE 583	Designing with Programmable Logic	4
ECE 602	Engineering Analysis	3
ECE 603	Electromagnetic Fields and Waves I	3
ECE 633	Signals and Systems I	3
ECE 634	Signals and Systems II	3
ECE 647	Random Processes and Signals in Engineering	3

ECE 792	Senior Project II	3
<b>Credits</b>		<b>15</b>
<b>Total Credits</b>		<b>129</b>

<sup>1</sup> Students are required to take either ECON 402 Principles of Economics (Micro) or EREC 411 Environmental and Resource Economics Perspectives to fulfill the Social Science Category of the Discovery Program.

<sup>2</sup> Four professional electives must be selected as follows:

- Choose two ECE 7XX courses, one course could be ECE 652 Electronic Design II.
- Students are allowed to take only one as ECE 795 Electrical and Computer Engineering Projects or ECE 796 Special Topics.
- Remaining professional electives can include: CS 620 Operating System Fundamentals, CS 659 Introduction to the Theory of Computation, or any CS 7XX course.
- Honors students who complete ECE 791H Senior Honors Project I and ECE 792H Senior Honors Project II will satisfy one professional elective requirement as well as requirements for ECE 791 Senior Project I and ECE 792 Senior Project II

ECE 791 Senior Project I and ECE 792 Senior Project II fulfill Discovery Program Capstone Experience.

Fulfilling the CE program curriculum taking ECE 401, ECE 791, and ECE 792 will automatically meet Discovery Category, "Environment, Technology and Society."

## Student Learning Outcomes

The Program Educational Objectives for the Computer Engineering Program are as follows:

- An ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics.
- An ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental and economic factors.
- An ability to communicate effectively with a range of audiences.
- An ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts.
- An ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives.
- An ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions.
- An ability to acquire and apply new knowledge as needed, using appropriate learning strategies.

## Computer Engineering Major: Biomedical Engineering Option (B.S.)

<https://ceps.unh.edu/electrical-computer-engineering/program/bsceng/computer-engineering-biomedical-engineering-option>

## Description

The Biomedical Engineering (BME) Option is intended to provide the core of knowledge expected of a computer and/or electrical engineer to provide engineering services in the biomedical field. Electrical and/or computer engineers with this option in biomedical engineering combine engineering principles with medical and biological sciences to design and create equipment, devices, computer systems, and software used in healthcare. The BME option is embedded in both the Electrical Engineering (EE) program and the Computer Engineering (CE) program.

## Requirements

In addition to Discovery Program requirements, the department has a number of grade-point average and course requirements:

1. Any computer engineering major whose cumulative grade-point average in ECE and computer science courses is less than 2.0 during any three semesters will not be allowed to continue as a computer engineering major.

2. Computer engineering majors must achieve a 2.0 grade-point average in all ECE and CS courses as a requirement for graduation.

To make an exception to any of these departmental requirements based on extenuating circumstances, students must petition the department's undergraduate committee. Mindful of these rules, students, with their adviser's assistance, should plan their programs based on the distribution of courses found in the Degree Plan tab.

One Professional Elective <sup>2</sup>		4
Credits		15
Total Credits		129

<sup>1</sup> Students are required to take either ECON 402 Principles of Economics (Micro) or EREC 411 Environmental and Resource Economics Perspectives to fulfill the Social Science Category of the Discovery Program.

<sup>2</sup> Three professional electives must be selected as follows:

- Choose any two ECE 7XX courses.
- Students are allowed to take only one as ECE 795 Electrical and Computer Engineering Projects or ECE 796 Special Topics
- Select one course from: BENG 762 Biomedical Engineering, BENG 766 Biomaterials, CHE 714 Chemical Sensors
- Honors students who complete ECE 791H Senior Honors Project I and ECE 792H Senior Honors Project II will satisfy one professional elective requirement as well as requirements for ECE 791 Senior Project I and ECE 792 Senior Project II

ECE 791 Senior Project I and ECE 792H Senior Honors Project II fulfill Discovery Program Capstone Experience.

Fulfilling the EE Program curriculum taking ECE 401 Perspectives in Electrical and Computer Engineering, ECE 791 Senior Project I, and ECE 792 Senior Project II curriculum will automatically meet Discovery Category, "Environment, Technology and Society."

## Student Learning Outcomes

The Program Educational Objectives for the Computer Engineering Program are as follows:

- An ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics.
- An ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental and economic factors.
- An ability to communicate effectively with a range of audiences.
- An ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts.

- An ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives.
- An ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions.
- An ability to acquire and apply new knowledge as needed, using appropriate learning strategies.

## Electrical Engineering Major (B.S.)

<https://ceps.unh.edu/ece/electrical-engineering-bs>

### Description

In addition to the university's mandatory Discovery Program requirements, degree candidates must complete our core program (freshman through junior years). In the senior year, students select professional technical electives in the areas of their interest. They also carry out a student-designed project to acquire both breadth and depth of study and to integrate knowledge across course boundaries.

For a detailed semester by semester list of requirements for the four years of study, please refer to the Degree Plan tab.

### Requirements

In addition to Discovery Program requirements, the department has a number of grade-point average and course requirements.

1. Any electrical engineering major whose cumulative grade-point average in ECE courses is less than 2.0 during any three semesters will not be allowed to continue as an electrical engineering major.
2. Electrical engineering majors must achieve a 2.0 grade-point average in all ECE courses as a requirement for graduation.

To make an exception to any of these departmental requirements based on extenuating circumstances, students must petition the department's undergraduate committee. Mindful of these rules, students, with their adviser's assistance, should plan their programs based on the distribution of courses found in the Degree Plan tab.

#### Required Courses

Code	Title	Credits
CS 410C	Introduction to Scientific Programming/C	4

<sup>3</sup> ECE 791 Senior Project I and ECE 792 Senior Project II fulfill Discovery Program Capstone Experience.

<sup>4</sup> Math/Science Elective approved courses: MATH 644 Statistics for Engineers and Scientists, MATH 647 Complex Analysis for Applications, CHEM 405 Chemical Principles for Engineers, PHYS 605

Experimental Physics I PHYS 615 Classical Mechanics and Mathematical Physics I, MS 762 Electronic Materials Science

Fulfilling the EE Program curriculum taking ECE 401, ECE 791, and ECE 792 will automatically meet Discovery Category, "Environment, Technology and Society."

## Student Learning Outcomes

The Program Educational Objectives for the Electrical Engineering Program are as follows:

- An ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics.
- An ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental and economic factors.
- An ability to communicate effectively with a range of audiences.
- An ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts.
- An ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives.
- An ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions.
- An ability to acquire and apply new knowledge as needed, using appropriate learning strategies.

## Electrical Engineering Major: Biomedical Engineering Option (B.S.)

<https://ceps.unh.edu/electrical-computer-engineering/program/bsee/electrical-engineering-biomedical-engineering-option>

### Description

The Biomedical Engineering (BME) Option is intended to provide the core of knowledge expected of a computer and/or electrical engineer to provide engineering services in the biomedical field. Electrical and/or computer engineers with this option in biomedical engineering combine engineering principles with medical and biological sciences to design and create equipment, devices, computer systems, and software used in healthcare. The BME option is embedded in both the Electrical Engineering (EE) program and the Computer Engineering (CE) program.

### Requirements

In addition to Discovery Program requirements, the department has a number of grade-point average and course requirements.

1. Any electrical engineering major whose cumulative grade-point average in ECE courses is less than 2.0 during any three semesters will not be allowed to continue as an electrical engineering major.

2. Electrical engineering majors must achieve a 2.0 grade-point average in all ECE courses as a requirement for graduation.

To make an exception to any of these departmental requirements based on extenuating circumstances, students must petition the department's undergraduate committee. Mindful of these rules, students, with their adviser's assistance, should plan their programs based on the distribution of courses found in the Degree Plan tab.

<sup>3</sup> Three professional electives must be selected as follows:

- Choose any two ECE 7XX courses
- Students are allowed to take only one ECE 795 Electrical and Computer Engineering Projects or ECE 796 Special Topics
- Select one course from: BENG 762 Biomedical Engineering, BENG 766 Biomaterials, CHE 714 Chemical Sensors
- Honors students who complete ECE 791H Senior Honors Project I and ECE 792H Senior Honors Project II will satisfy one professional elective requirement as well as the requirements for ECE 791 Senior Project I and ECE 792 Senior Project II.

ECE 791 Senior Project I and ECE 792 Senior Project II fulfill Discovery Program Capstone Experience.

Fulfilling the EE Program Biomedical Option curriculum taking ECE 401 Perspectives in Electrical and Computer Engineering, ECE 791 Senior Project I, and ECE 792 Senior Project II will automatically meet Discovery Category, "Environment, Technology and Society."

## Student Learning Outcomes

The Program Educational Objectives for the Electrical Engineering Program are as follows:

- An ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics.
- An ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental and economic factors.

- An ability to communicate effectively with a range of audiences.
- An ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts.
- An ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives.
- An ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions.
- An ability to acquire and apply new knowledge as needed, using appropriate learning strategies.

## Electrical and Computer Engineering Minor

<https://ceps.unh.edu/electrical-computer-engineering/program/minor/electrical-computer-engineering>

### Description

The Department of Electrical and Computer Engineering encourages highly motivated students to consider a minor in Electrical and Computer Engineering. A university-wide GPA of at least 2.8 is required in all but the most compelling of cases, along with an appropriate reason for desiring the minor. Interested students should complete the [provided application](#) form and submit it to the ECE Undergraduate Curriculum Committee (Kingsbury W201) during his/her sophomore or, at the latest, junior year. After it is approved, the student will need to fill out an "Intent to Minor" form, available from the Associate Dean's office (Kingsbury W283) in order to make entry into the minor program official. It is also the student's responsibility to submit a "[Minor Certification of Completion](#)" form after all the minor courses have been taken, but before graduation. The ECE Minor Application Form can be [downloaded here](#) or obtained in the ECE office.

For additional information please contact the ECE Department. Our [ECE Minor Faculty Advisor](#) will be glad to answer any of your questions and help you select courses that best fit your career goals.

### Requirements

#### Requirements for the ECE Minor:

1. You must take a minimum of five ECE courses (at least 18 credits), each with a grade of C- or better.

Code	Title	Credits
ECE 541	Electric Circuits (or ECE 537 with grade of A/A-)	4
ECE 548	Electronic Design I	4
ECE 543	Introduction to Digital Systems	4
Two additional approved ECE courses (500 level or higher) approved by the ECE Undergraduate Curriculum Committee.		

2. You must achieve at least an overall 2.0 average in all courses taken for the minor.
3. Courses taken credit/fail may not be used for the minor.

4. No more than eight credits of courses used by the student to satisfy major requirements may be used for the ECE minor.

5. No more than two courses completed prior to acceptance into the ECE minor may be counted toward the minor.

## Environmental Sciences

The College of Engineering and Physical Sciences (CEPS) and the College of Life Sciences and Agriculture (COLSA) jointly offer a bachelor of science degree in environmental sciences. Environmental sciences, an interdisciplinary field, focuses on the interaction of biological, chemical, and physical processes that shape our natural environment. Students graduating with a degree in environmental sciences will have an understanding of these interacting processes, the ability to communicate effectively with both scientific and lay audiences, competency in field methods appropriate for entry-level environmental science positions, competency in the use and application of Geographic Information Systems (GIS), a basic understanding of environmental policy, and the ability to contribute to multidisciplinary teams. The University of New Hampshire is a recognized leader in environmental sciences research, and the environmental sciences program capitalizes on faculty expertise in this area. The full-time faculty members comprising this program have major teaching and research emphases in the areas of biogeochemical cycling, environmental chemistry, ecosystem science, geospatial science, global change, hydrology, plant ecology, soil science, and water resource management.

Employment opportunities include environmental consulting firms, educational facilities (e.g., science centers), environmental monitoring laboratories (e.g., water treatment plants; the Environmental Protection Agency), government agencies (e.g., the U.S. Geological Survey, Bureau of Land Management, Natural Resource Conservation Service), university and government research laboratories, and nongovernment environmental organizations. The environmental sciences program also constitutes an excellent preparation for graduate programs in several areas relating to the environment. Students should consult with their adviser early if their goals include further study.

The Program has four options, and specific course requirements for the major vary by option. The geosystems and hydrology options are both managed by the Department of Earth Sciences in CEPS, and the ecosystems and soil and watershed management options are both managed by the Department of Natural Resources and the Environment in COLSA.

## Programs

- [Environmental Sciences Major: Ecosystems Option \(B.S.\)](#) (p. 307)
- [Environmental Sciences Major: Geosystems Option \(B.S.\)](#) (p. 194)
- [Environmental Sciences Major: Hydrology Option \(B.S.\)](#) (p. 197)
- [Environmental Sciences Major: Soil and Watersheds Option \(B.S.\)](#) (p. 308)

## Faculty

COLSA faculty: <https://colsa.unh.edu/directory/all>

CEPS faculty: <https://ceps.unh.edu/directory/all>

## Materials Science (MS)

### Programs

- [Materials Science Minor](#) (p. 209)

## Materials Science Minor

<https://ceps.unh.edu/materials-science/program/minor/materials-science>

### Description

Materials science is an interdisciplinary field that involves the research, development, and design of new materials. In the past century, materials scientists have enabled major technological advances in areas such as electronic materials for semiconductors, new metal alloys for aircraft and automotive applications, and new polymers for a host of medical and consumer applications. In order to prepare students for continuing growth and innovation in materials science, the materials science program offers this minor, which is open to all students at UNH.

The minor offers a broad introduction to materials science, which reflects the interdisciplinary nature of the field. Students must complete at least 18 credits and a minimum of five courses, as described below, with C- or better and a minimum 2.0 grade-point average. No more than 8 credits used to satisfy the student's major requirements may be used toward the minor. Students interested in the minor should contact the director of the materials science program (Prof. James Krzanowski, [james.krzanowski@unh.edu](mailto:james.krzanowski@unh.edu)) as early as possible and preferably before the end of their sophomore year.

### Requirements

To complete the minor in materials science, students must take the following courses.

Code	Title	Credits
<b>Required</b>		
ME 561	Introduction to Materials Science <sup>1</sup>	4
<b>Group A: Thermodynamics, Kinetics and Structure of Materials</b>		
Select one of the following:		4-5
CHEM 683 & CHEM 685	Physical Chemistry I and Physical Chemistry Laboratory <sup>2</sup>	
PHYS 508	Thermodynamics and Statistical Mechanics <sup>2,3</sup>	
ME 795	Special Topics	1-4
ME #761	Diffraction and Imaging Methods in Materials Science	
<b>Group B: Materials Applications and Properties</b>		
Select one of the following:		4-5
CHEM 545 & CHEM 546	Organic Chemistry and Organic Chemistry Laboratory	
CHEM 547 & CHEM 549	Organic Chemistry I and Organic Chemistry Laboratory	
CHEM 651 & CHEM 653	Organic Chemistry I and Organic Chemistry Laboratory	
PHYS 718	Condensed Matter Physics	
ME 786	Introduction to Finite Element Analysis	
ME 735	Mechanics of Composite Materials	
ME 795	Special Topics	
Select two to three additional courses from either Group A or Group B <sup>4</sup>		4-6
<b>Total Credits</b>		<b>17-24</b>

- <sup>1</sup> It is strongly recommended that students take this course during their sophomore year.
- <sup>2</sup> Students cannot receive credit towards the minor for both PHYS 508 Thermodynamics and Statistical Mechanics and CHEM 683 Physical Chemistry I/CHEM 685 Physical Chemistry Laboratory.
- <sup>3</sup> Students cannot receive credit towards the minor for PHYS 508 Thermodynamics and Statistical Mechanics if they have taken ME 503 Thermodynamics.
- <sup>4</sup> As needed to reach the required 18 credits

## Mathematics and Statistics (MATH)

The Department of Mathematics and Statistics offers a variety of programs leading to five different degrees:

- B.A. degree: mathematics major;
- B.S. in mathematics degree;
- B.S. in applied mathematics degree;
- B.S. in mathematics education degree; and
- B.S. in statistics degree.

These programs provide flexibility through elective choices and are designed to maximize educational and employment opportunities. Each student must enroll in one specific program; however, changes between programs usually can be accommodated.

The first two years of all programs are similar. In the first year, students are expected to take MATH 425 Calculus I and MATH 426 Calculus II, as well as an introductory programming course (either MATH 445 Mathematics and Applications with MATLAB or CS 410C Introduction to Scientific Programming/C or CS 410P Introduction to Scientific Programming/Python). A sophomore typically takes follow-up calculus courses in MATH 527 Differential Equations with Linear Algebra and MATH 528 Multidimensional Calculus, MATH 539 Introduction to Statistical Analysis, and MATH 531 Mathematical Proof. The senior capstone experience is fulfilled by a variety of designated courses in each of the degree programs; specific details are given in each program's course listing below.

For more information about the department's undergraduate programs, visit <http://ceps.unh.edu/mathematics-statistics>

## Standards for Graduation

In all courses used to satisfy the requirements for its major programs, the Department of Mathematics and Statistics requires that a student earn a grade of C- or better and have an overall grade-point average of at least 2.00 in these courses.

## Minoring in Mathematics

The Department of Mathematics and Statistics offers three minor programs: mathematics, applied mathematics, and statistics. These programs, which are open to all students enrolled at the University, require a minimum of five MATH courses as detailed below. Students whose major program requires more than two courses required by the minor program must substitute additional courses from the list of elective courses to meet the five-course minimum.

<https://ceps.unh.edu/mathematics-statistics>

## Programs

- [Applied Mathematics Major \(B.S.\)](#) (p. 210)
- [Applied Mathematics Major: Computation Option \(B.S.\)](#) (p. 212)
- [Applied Mathematics Major: Dynamics and Control Option \(B.S.\)](#) (p. 213)
- [Applied Mathematics Major: Economics Option \(B.S.\)](#) (p. 214)
- [Applied Mathematics Major: Fluid Dynamics Option \(B.S.\)](#) (p. 215)
- [Applied Mathematics Major: Solid Mechanics and Vibrations Option \(B.S.\)](#) (p. 217)
- [Mathematics Education Major: Elementary/Middle School K-8 Option \(B.S.\)](#) (p. 218)
- [Mathematics Education Major: Secondary Option \(B.S.\)](#) (p. 220)
- [Mathematics Major \(B.A.\)](#) (p. 221)
- [Mathematics Major \(B.S.\)](#) (p. 222)
- [Statistics Major \(B.S.\)](#) (p. 224)
- [Applied Mathematics Minor](#) (p. 225)
- [Mathematics Minor](#) (p. 225)
- [Statistics Minor](#) (p. 226)

## Faculty

Visit <https://ceps.unh.edu/directory/all> for faculty.

## Applied Mathematics Major (B.S.)

### Description

This degree prepares students for careers in science, engineering, and industry by giving students broad exposure to both theoretical and computational models of physical systems in the physical, natural, and social sciences.

### Graduation Requirements

In all courses used to satisfy the requirements for its major programs, the Department of Mathematics and Statistics requires that a student earn a grade of C- or better and have an overall grade-point average of at least 2.00 in these courses.

## Requirements

Code	Title	Credits
<b>Required MATH Courses</b>		
MATH 425	Calculus I	4
MATH 426	Calculus II	4

MATH 528	Multidimensional Calculus <sup>1</sup>	4
MATH 531	Mathematical Proof	4
MATH 545 or MATH 645	Introduction to Linear Algebra <sup>2</sup> Linear Algebra for Applications	4
MATH 644	Statistics for Engineers and Scientists	4
MATH 647 or MATH 788	Complex Analysis for Applications Complex Analysis	4
MATH 745	Foundations of Applied Mathematics I	4
MATH 753	Introduction to Numerical Methods I	4
MATH 757	Mathematical Optimization for Applications	4

Capstone: Select one of the following		
MATH 797	Senior Seminar	4
MATH 798	Senior Project	4
MATH 799	Senior Thesis	2 or 4
Select TWO of the following electives		
MATH 746	Foundations of Applied Mathematics II	4
MATH 747	Introduction to Nonlinear Dynamics and Chaos	4
MATH 767	One-Dimensional Real Analysis	4
One approved CEPS course at the 700-level, selected in consultation with the academic advisor		4
Other Required Courses		
PHYS 407	General Physics I	4
PHYS 408	General Physics II	4
CS 414 & CS 417	From Problems to Algorithms to Programs and From Programs to Computer Science	8
or CS 415 & CS 416	Introduction to Computer Science I and Introduction to Computer Science II	
Total Credits		90-92

<sup>1</sup> The full Linearity sequence, MATH 525 & MATH 526, may be used to replace the MATH 527, MATH 528, and MATH 545 / MATH 645 requirements.

<sup>2</sup> MATH 525 may be used to replace the MATH 545 or MATH 645 requirement.

<b>Credits</b>		<b>16</b>
<b>Total Credits</b>		<b>129</b>

## Student Learning Outcomes

- Students recognize common mathematical notations and operations used in mathematics, science and engineering.
- Students can recognize and classify a variety of mathematical models including differential equations, linear and nonlinear systems of algebraic equations, and common probability distributions.
- Students have developed a working knowledge (including notation, terminology, foundational principles of the discipline, and standard mathematical models within the discipline) in at least one discipline outside of mathematics.
- Students are able to extract useful knowledge, both quantitative and qualitative, from mathematical models and can apply that knowledge to the relevant discipline.

# Applied Mathematics Major: Computation Option (B.S.)

<https://ceps.unh.edu/mathematics-statistics/program/bs/applied-mathematics-computation-option>

## Description

This degree program prepares students for employment and/or graduate study in a variety of fields and research specializations in which mathematics plays a critical role in the solution of important scientific and technological problems.

## Graduation Requirements

In all courses used to satisfy the requirements for its major programs, the Department of Mathematics and Statistics requires that a student earn a grade of C- or better and have an overall grade-point average of at least 2.00 in these courses.

## Requirements

## Major Requirements

Code	Title	Credits

## Applied Mathematics Major: Dynamics and Control Option (B.S.)

<https://ceps.unh.edu/mathematics-statistics/program/bs/applied-mathematics-dynamics-control-option>

### Description

*Beginning in the 2022/23 academic year, the Applied Mathematics Major: Dynamics and Control option will no longer be accepting new students. Current students will continue to have access to the same high-quality education and resources until they graduate.*

This degree program prepares students for employment and/or graduate study in a variety of fields and research specializations in which mathematics plays a critical role in the solution of important scientific and technological problems.

### Graduation Requirements

In all courses used to satisfy the requirements for its major programs, the Department of Mathematics and Statistics requires that a student earn a grade of C- or better and have an overall grade-point average of at least 2.00 in these courses.

- Students are able to extract useful knowledge, both quantitative and qualitative, from mathematical models and can apply that knowledge to the relevant discipline.

## Math Education Major: Elementary/Middle School Education K-8 Option (B.S.)

<https://ceps.unh.edu/mathematics-statistics/program/bs/mathematics-education-elementarymiddle-school-option>

### Description

*Beginning in the 2022/23 academic year, the Math Education Major: Elementary/Middle School Education K-8 option will no longer be accepting new students. Current students will continue to have access to the same high-quality education and resources until they graduate.*

This professional degree program prepares students for teaching mathematics at the elementary and/or middle school level. The program is coordinated with the education department's teacher certification programs. For the elementary option, full certification requires the five-year program. Students may complete the degree requirements for middle school option with full teacher certification in either four or five years.

Students electing the four-year option leading to middle school certification must plan for one semester of student teaching (EDUC 694C Supervised Teaching/Mathematics) in their senior year; this requires careful planning with your program adviser to accommodate the scheduling of required MATH courses. Requirements for admission to student teaching include receiving credit for EDUC 500 and a minimum cumulative 2.8 GPA.

The five-year program for either option includes a year-long teaching internship in the fifth year. The internship requires admission into a UNH Department of Education graduate program that leads to certification. See Education, College of Liberal Arts.

### Graduation Requirements

In all courses used to satisfy the requirements for its major programs, the Department of Mathematics and Statistics requires that a student earn a grade of C- or better and have an overall grade-point average of at least 2.00 in these courses.

For **teacher licensure** a grade of B- or better is required in all Education courses.

## Student Learning Outcomes

- Students recognize common mathematical notations and operations used in mathematics, science and engineering.
- Students can recognize and classify a variety of mathematical models including differential equations, linear and nonlinear systems of algebraic equations, and common probability distributions.
- Students have developed a working knowledge (including notation, terminology, foundational principles of the discipline, and standard mathematical models within the discipline) in at least one discipline outside of mathematics.

## Requirements

Code	Title	Credits
<b>Required MATH Courses</b>		
MATH 425	Calculus I	4
MATH 426	Calculus II	4
MATH 445	Mathematics and Applications with MATLAB	4
or CS 410P	Introduction to Scientific Programming/Python	
or CS 410C	Introduction to Scientific Programming/C	
MATH 531	Mathematical Proof	4
MATH 539	Introduction to Statistical Analysis	4
MATH 545	Introduction to Linear Algebra	4
or MATH 645	Linear Algebra for Applications	

MATH 621	Number Systems for Teachers	4
MATH 622	Geometry for Teachers	4
MATH 623	Probability and Statistics for Teachers	4
MATH 625	Functions and Algebra for Teachers	4
MATH 700	Introduction to Mathematics Education	4
MATH 703	Teaching of Mathematics in Grades K-5	4
or MATH 709	Teaching of Mathematics in Grades 6-12	
MATH 760	Geometry	4
MATH 790	Historical Foundations of Mathematics	4
<b>Capstone: Select one of the following</b>		
MATH 797	Senior Seminar	4
MATH 799	Senior Thesis	2 or 4
<b>Other Required Courses</b>		
PHYS 406	Introduction to Modern Astronomy	4
EDUC 500	Exploring Teaching	4
EDUC 605	Educational Perspectives in Critical Times	4
EDUC 701	Human Development & Learning: Cultural Perspectives	4
<b>Total Credits</b>		<b>78-80</b>

**Note:** EDUC 703F Teaching Elementary School Science, EDUC 703M Teaching Elementary Social Studies, EDUC 706 Teaching & Learning Literacy in the Elementary Classroom, and EDUC 751A Inclusive Elementary Education: Literacies and Learning for Diverse Learners are requirements for K-6 or K-8 certification.

EDUC 706 Teaching & Learning Literacy in the Elementary Classroom must be completed prior to the Internship (EDUC 900A Internship and Seminar in Teaching and EDUC 901A Internship and Seminar in Teaching).

## Student Learning Outcomes

Mathematics Concepts, Practices, and Curriculum. Well-prepared beginning teachers of mathematics:

- Demonstrate robust knowledge of mathematical and statistical concepts that underlie what they encounter in teaching of K-8 or secondary mathematics.
- Engage in appropriate mathematical and statistical practices, and use technological tools to solve mathematical problems, and incorporate educational technology in their teaching.

- Analyze and interpret mathematical curricula, assessments, and standards documents.
- Analyze and interpret students' mathematical work.

Pedagogical Knowledge and Practices for Teaching Mathematics. Well-prepared beginning teachers of mathematics:

- Demonstrate strong foundations of pedagogical knowledge, and effective and equitable mathematics teaching practices.
- Construct instructional explanations, develop tasks, lesson plans and unit plans, that advance students' mathematical understanding.
- Recognize common patterns of student thinking related to particular mathematical topics, and articulate ways of supporting students' mathematical thinking.

Productive dispositions. Well-prepared beginning teachers:

- Demonstrate positive and productive dispositions toward mathematics as a discipline, towards students as learners of mathematics and towards teaching mathematics in ways that support students' sense making, understanding, and reasoning.

## Mathematics Education Major: Secondary Education Option (B.S.)

<https://ceps.unh.edu/mathematics-statistics/program/bs/mathematics-education-secondary-education-option>

### Description

This professional degree program prepares students for teaching mathematics at the secondary level. The program is coordinated with the education department's teacher certification programs. Students may complete the degree requirements for the secondary option with full teacher certification in either four or five years.

Students electing the four-year option leading to secondary school certification must plan for one semester of student teaching (EDUC 694C Supervised Teaching/Mathematics) in their senior year; this requires careful planning with your program adviser to accommodate the scheduling of required MATH courses. Requirements for admission to student teaching include receiving credit for EDUC 500 and a minimum cumulative 2.8 GPA.

The five-year program includes a year-long teaching internship in the fifth year. The internship requires admission into a UNH Department of Education graduate program that leads to certification. See Education, College of Liberal Arts.

### Graduation Requirements

In all courses used to satisfy the requirements for its major programs, the Department of Mathematics and Statistics requires that a student earn a grade of C- or better and have an overall grade-point average of at least 2.00 in these courses.

For **teacher licensure** a grade of B- or better is required in all Education courses.

## Mathematics Major (B.A.)

<https://ceps.unh.edu/mathematics-statistics/program/ba/mathematics>

### Description

The bachelor of arts degree with the mathematics major may offer a broader liberal arts program than the bachelor of science degree programs. By a careful selection of electives, students can shape this major into a preparation for graduate school, business, or industry.

### Graduation Requirements

In all courses used to satisfy the requirements for its major programs, the Department of Mathematics and Statistics requires that a student earn a grade of C- or better and have an overall grade-point average of at least 2.00 in these courses.

### Requirements

Code	Title	Credits

## Student Learning Outcomes

- Students can explain core concepts from a range of different branches of mathematics, including analysis, algebra, calculus and statistics.
- Students can correctly interpret mathematical definitions and construct simple proofs which use definitions and logical arguments to establish properties of mathematical objects.
- Students are aware that mathematical objects may have multiple representations and are able to select representations which clarify problems and simplify calculations.
- Students can recognize valid and invalid mathematical arguments.

## Mathematics Major (B.S.)

<https://ceps.unh.edu/mathematics-statistics/mathematics-bs>

### Description

This program offers the strongest concentration in mathematics, requiring courses that are intended to prepare the student for graduate work in mathematics. Through a judicious choice of electives, students may design stronger pre-graduate programs, a program in applied mathematics, or slant the program toward a career in business or industry.

### Graduation Requirements

In all courses used to satisfy the requirements for its major programs, the Department of Mathematics and Statistics requires that a student earn a grade of C- or better and have an overall grade-point average of at least 2.00 in these courses.

## Statistics Major (B.S.)

<https://ceps.unh.edu/mathematics-statistics/program/bs/statistics>

### Description

This program prepares students for employment and/or graduate study in a variety of fields and research specializations in which statistical analysis and its applications play a critical role. In addition to its degree programs, the department has an active interest in the actuarial profession. Those interested in actuarial science should seek the advice of departmental coordinator of the actuarial program, Professor Linyuan Li.

### Graduation Requirements

In all courses used to satisfy the requirements for its major programs, the Department of Mathematics and Statistics requires that a student earn a grade of C- or better and have an overall grade-point average of at least 2.00 in these courses.

### Requirements

## Student Learning Outcomes

- Communicate theoretical foundations and principles of intermediate-level statistics to diverse audiences.
- Design an appropriate method of data collection for a variety of practical applications.
- Perform analyses using the established tools of applied statistics, including production of appropriate software output and its interpretation.

## Applied Mathematics Minor

<https://ceps.unh.edu/mathematics-statistics/program/minor/applied-mathematics>

### Description

This minor program introduces students to variety of fields and research specializations in which mathematics plays a critical role in the solution of important scientific and technological problems.

Credit toward the minor will be given only for courses passed with C- or better, and a 2.0 grade-point average must be maintained in courses for the minor. Courses taken on the pass/fail basis may not be used for the minor. Students should declare their intent to earn a minor as early as possible and no later than the end of the junior year. During the final term, an application should be made to the dean of the student's major college to have the minor shown on the academic record. Students must consult with their major adviser and also the minor supervisor.

It requires a minimum of five MATH courses as detailed in the minor requirements. No more than 8.0 credits (or two courses) used by the student to satisfy major requirements may be used for the minor. Additional courses from the list of course electives may be utilized to meet the five-course minimum.

For further information please contact Professor John McClain.

## Requirements

Code	Title	Credits
<b>Required</b>		
MATH 528	Multidimensional Calculus <sup>1</sup>	4
MATH 645	Linear Algebra for Applications <sup>1</sup>	4
MATH 745	Foundations of Applied Mathematics I	4
MATH 753	Introduction to Numerical Methods I	4
<b>Select ONE of the following electives</b>		<b>4</b>
MATH 647	Complex Analysis for Applications	
MATH 746	Foundations of Applied Mathematics II	
MATH 747	Introduction to Nonlinear Dynamics and Chaos	
MATH 755	Probability with Applications	
MATH 757	Mathematical Optimization for Applications	
<b>Total Credits</b>		<b>20</b>

<sup>1</sup> This requirement may be satisfied by MATH 525 Linearity I & MATH 526 Linearity II.

## Mathematics Minor

<https://ceps.unh.edu/mathematics-statistics/program/minor/mathematics>

### Description

The minor in mathematics is open to all students enrolled at the University of New Hampshire.

Credit toward the minor will be given only for courses passed with C- or better, and a 2.0 grade-point average must be maintained in courses for the minor. Courses taken on the pass/fail basis may not be used for the minor. Students should declare their intent to earn a minor as early as possible and no later than the end of the junior year. During the final term, an application should be made to the dean of the student's major college to have the minor shown on the academic record. Students must consult with their major adviser and also the minor supervisor.

It requires a minimum of five MATH courses as detailed in the minor requirements. No more than 8.0 credits (or two courses) used by the student to satisfy major requirements may be used for the minor. Additional courses from the list of course electives may be utilized to meet the five-course minimum.

For further details please contact Professor Junhao Shen.

MATH 760	Geometry	
MATH 761	Abstract Algebra	
MATH 763	Abstract Algebra II	
MATH 765	Introduction to Commutative Algebra and Algebraic Geometry	
MATH 767	One-Dimensional Real Analysis	
MATH 768	Real Analysis II	
MATH 769	Introduction to Differential Geometry	

MATH 770	Foundations of Number Theory	
MATH 772	Combinatorics	
MATH 776	Logic	
MATH 783	Set Theory	
MATH 784	Topology	
MATH 788	Complex Analysis	
Total Credits		20

<sup>1</sup> This requirement may be satisfied by MATH 525 Linearity I and MATH 526 Linearity II.

## Statistics Minor

<https://ceps.unh.edu/mathematics-statistics/program/minor/statistics>

### Description

The minor in statistics is designed for students in other majors who want to learn the fundamentals of statistical analysis and its applications.

Credit toward the minor will be given only for courses passed with C- or better, and a 2.0 grade-point average must be maintained in courses for the minor. Courses taken on the pass/fail basis may not be used for the minor. Students should declare their intent to earn a minor as early as possible and no later than the end of the junior year. During the final term, an application should be made to the dean of the student's major college to have the minor shown on the academic record. Students must consult with their major adviser and also the minor supervisor.

It requires a minimum of five MATH courses as detailed in the minor requirements. No more than 8.0 credits (or two courses) used by the student to satisfy major requirements may be used for the minor. Additional courses from the list of course electives may be utilized to meet the five-course minimum.

For further information please contact Professor Ernst Linder.

### Requirements

Code	Title	Credits
<b>Required</b>		
MATH 539	Introduction to Statistical Analysis	4
or MATH 644	Statistics for Engineers and Scientists	
MATH 645	Linear Algebra for Applications <sup>1</sup>	4
<b>Select THREE of the following electives</b>		<b>12</b>
MATH 736	Advanced Statistical Modeling	
MATH 737	Statistical Methods for Quality Improvement and Design	
MATH 739	Applied Regression Analysis	
MATH 740	Design of Experiments I	
MATH 741	Survival Analysis	
MATH 743	Time Series Analysis	
MATH 744	Design of Experiments II	
MATH 755	Probability with Applications	
MATH 756	Principles of Statistical Inference	
<b>Total Credits</b>		20

<sup>1</sup> This requirement may be satisfied by MATH 525 Linearity I.

## Mechanical Engineering (ME)

The Mechanical Engineering Program at UNH is accredited by the:

Engineering Accreditation Commission of ABET, <http://www.abet.org>

### Mission

In support of the University and college missions, the Department of Mechanical Engineering is dedicated to educating the highest quality engineering professionals and leaders. Graduates will be prepared to creatively solve engineering problems through the use of analysis, computation, and experimentation. Students completing the program should be well-informed citizens who have the ability to grow intellectually and are able to solve new, challenging problems with self-confidence. It is the department's intent to maintain a general and flexible curriculum that prepares students for both industrial practice and graduate education.

### Educational Objectives

The objective of the UNH Mechanical Engineering Program is to produce graduates who are ethical professionals and good citizens. As they progress in the first several years following graduation, they are expected to:

1. Use their engineering education and communication skills for success in:
  - a. Technical careers in industry, academia, government, or other organizations;
  - b. Graduate school in engineering or physical sciences;
  - c. Nontechnical careers or education in areas such as law, medicine, business, public policy, secondary education, service industries, etc.;
  - d. Careers involving management or entrepreneurship.
2. Exercise lifelong learning to:
  - a. Pursue professional development opportunities in their disciplines;
  - b. Develop new knowledge and skills;
  - c. Pursue new areas of expertise or careers.
3. Use their engineering background to:
  - a. Solve technical problems for societal benefit;
  - b. Develop new knowledge and products that will promote sustainable economic and environmental developments to improve the quality of life;
  - c. Promote the practice of engineering.

Mechanical engineering is a challenging profession and has two major emphases. The first is the general area of mechanical design, which involves all types of mechanical motion and the forces and energy that drive it. The other emphasis deals with energy generation and conversion and is grounded in the principles of the thermal and fluid sciences. Other subject areas, which support both emphases and are frequently part of designs and products, are the materials sciences, manufacturing, and control systems. All of these areas are included in the education and training of mechanical engineers. Ocean engineering is another focus area in our department which emphasizes solving engineering problems associated with the sustainable utilization of ocean resources and the scientific exploration and study of the ocean environment. Mechanical engineering requires significant study in mathematics, engineering computing, and basic sciences such as chemistry and physics, as well as basic engineering courses, before reaching the more specialized courses. Additional information can be found at the mechanical engineering website.

- [Mechanical Engineering Minor](#) (p. 229)

## Faculty

<https://ceps.unh.edu/directory/all>

## Mechanical Engineering Major (B.S.)

<https://ceps.unh.edu/mechanical-engineering/program/bs/mechanical-engineering-major>

## Description

The B.S.M.E. curriculum provides students with a solid engineering core and prepares students for professional engineering careers or for graduate study. The department has a four-course mechanics sequence, a four-course thermal/fluid sciences sequence, and a two-course systems and controls sequence. Modern experimental methods are taught in a two-course sequence starting in the junior year. The two-semester senior design project requires students to utilize the skills they have learned in their courses and function in an engineering team. The five technical electives required in the program give the students the opportunity to focus on advanced technical areas of their choice.

With their advisers' assistance, students should plan a program based on the following distribution of courses that totals not less than 128 credits. Note: mechanical engineering graduates typically exceed this requirement depending on what elective courses they select in the curriculum. The degree plan outlined below is typical only in format. Within the constraints of satisfying all the requirements and having all the necessary prerequisites, schedules may vary because of scheduling needs or student preference. Curriculum flexibility allows students to pursue a co-op experience or a minor, if interested which will potentially delay graduation. Some mechanical engineering elective courses may not be offered every year.

## Requirements

### Technical Elective Requirements:

Of the five technical elective courses, at least three of these courses must be taken in mechanical or ocean engineering, and these must be at least three credits and at the 600 or 700 level. At most, two may be selected from other 600- or 700-level courses in the College of Engineering and Physical Sciences (CEPS), which can include CS 410C Introduction to Scientific Programming/C, CS 410P Introduction to Scientific Programming/Python (equivalent to a 600 level technical elective), ESCI 501 Introduction to Oceanography, ECE 543 Introduction to Digital Systems, or a course approved by the department. Only one technical elective is allowed at the 400 or 500 level. Courses that cover nearly identical material to core mechanical and ocean engineering courses, but in another CEPS department, will not be accepted as technical electives, e.g.,

Code	Title	Credits
CHE 601	Fluid Mechanics and Unit Operations	3
CHE 602	Heat Transfer and Unit Operations	3
CHE 604	Chemical Engineering Thermodynamics	3
CEE 635	Engineering Materials	4
CEE 650	Fluid Mechanics	4
ECE 633	Signals and Systems I	3

Students should consult with their academic advisor before selecting technical electives outside of mechanical/ocean engineering. With departmental approval, the two technical electives outside of mechanical/ocean engineering can be used for studying a focused area/minor, with the restrictions that only one course can be at the 400 or 500 level and the focused area/minor must be in a bachelor's degree program.

### Discovery Program Requirements:

Students must satisfy the University's Discovery Program requirements. The following features are unique to students in the Mechanical Engineering Program:

As is the case across the University, all students are required to take an Inquiry course or an Inquiry Attributes course during their first two years. This can be satisfied with ME 441 Introduction to Engineering Design and Solid Modeling. Students who are exempt from ME 441 Introduction to Engineering Design and Solid Modeling due to prior engineering design and computer-aided design (CAD) experience must select an Inquiry 444 course or a course with an Inquiry Attribute and enroll in ME 477 Introduction to Solid Modeling. The Discovery Environment, Technology, and Society category requirement is met upon receiving a B.S. degree in mechanical engineering. The Discovery Social Science category must be satisfied with either ECON 402 Principles of Economics (Micro) or EREC 411 Environmental and Resource Economics Perspectives. The Discovery senior capstone experience is satisfied with either ME 755 Senior Design Project I and ME 756 Senior Design Project II or TECH 797 Undergraduate Ocean Research Project.

### Grade-Point Average Requirements:

In order to graduate with a mechanical engineering B.S. degree, students must have at least a 2.0 grade-point average in all engineering and science courses, including required technical electives, normally taken as department requirements after the start of the junior year as defined in the degree plan below.

**Predictor courses:** To enter the sophomore year, students must achieve a greater than (but not equal to) 2.00 GPA in PHYS 407 General Physics I and MATH 426 Calculus II with no grade below a C.

To enter the junior year, students must achieve a minimum GPA of 2.00 in ME 525 Statics, ME 526 Mechanics of Materials, and ME 503 Thermodynamics with only one C- grade allowed and no grades below C-.

Students are allowed two repeats of these predictor courses to achieve the predictor rule requirements before being removed from the Program. This can be a single class repeated twice or two classes repeated once. Students are also removed from the program if they obtain a semester GPA below 1.5 three times. Students may petition to be reinstated after one year out of the program.

### Transfer Policy for UNH Students into the Department of Mechanical Engineering:

CEPS Students: To transfer into the freshman or sophomore year, students must earn a combined GPA greater than (but not equal to) 2.00

in PHYS 407 General Physics I and MATH 426 Calculus II with no grade below a C in these two courses.

If students are enrolled in ME 525 Statics (or CEE 500 Statics for Civil Engineers), ME 526 Mechanics of Materials (or CEE 501 Strength of Materials), or ME 503 Thermodynamics, they must earn a combined GPA of 2.00 with no grade below a C- in two of these courses with only one C-grade allowed to transfer into Mechanical Engineering. Note: A combined GPA greater than (but not equal to) 2.00 in PHYS 407 General Physics I and MATH 426 Calculus II with no grade below a C is also required.

**Non-CEPS Students:** To transfer into the Department of Mechanical Engineering from another college at UNH, students have to satisfy the CEPS college transfer policy as well as the Department of Mechanical Engineering transfer policies listed above according to their status.

#### List of Required Courses:

Code	Title	Credits
CHEM 405	Chemical Principles for Engineers	0-8
or CHEM 403 & CHEM 404	General Chemistry I and General Chemistry II	
ECON 402	Principles of Economics (Micro)	4
or EREC 411	Environmental and Resource Economics Perspectives	
ECE 537	Introduction to Electrical Engineering	4
ENGL 401	First-Year Writing	4
IAM 550	Introduction to Engineering Computing	4

<b>Credits</b>		<b>15-18</b>
<b>Total Credits</b>		<b>129-134</b>

<sup>1</sup> ME 441 Introduction to Engineering Design and Solid Modeling satisfies the Discovery Inquiry requirement. Note: ME 477 does not satisfy the Discovery Inquiry requirement. An alternative Discovery Program Inquiry course or Inquiry Attributes course is required. Permission is required to take ME 477 in place of ME 441.

<sup>2</sup> CHEM 405 Chemical Principles for Engineers or CHEM 403 General Chemistry I and CHEM 404 General Chemistry II, or PHYS 407 General Physics I satisfies the Discovery Physical Science (with lab) category.

<sup>3</sup> MATH 425 Calculus I satisfies the Discovery Foundation Quantitative Reasoning category.

<sup>4</sup> ENGL 401 First-Year Writing satisfies the Discovery Foundation Writing Skills category.

<sup>5</sup> MATH 525 Linearity I and MATH 526 Linearity II also counts as a 600 level technical elective course typically completed in the senior year of the program. Permission is required to take Linearity I and II.

<sup>6</sup> ME 755, ME 756 and TECH 797 satisfy the Discovery Senior Capstone Experience category.

- J. knowledge of contemporary issues; (objective 4)
- K. the ability to use the techniques, skills and modern engineering tools necessary for engineering practice; (objective 2)

## Mechanical Engineering Minor

<https://ceps.unh.edu/mechanical-engineering/program/minor/mechanical-engineering>

### Description

The minor, administered by the Department of Mechanical Engineering, is open to all students of the University and offers a broad introduction to mechanical engineering.

### Requirements

Students must complete a minimum of six courses as follows:

Code	Title	Credits
ME 441	Introduction to Engineering Design and Solid Modeling	4
ME 503	Thermodynamics	3
ME 525	Statics	4
ME 526	Mechanics of Materials	3
ME 627	Dynamics	3
ME 608	Fluid Dynamics	3
<b>Total Credits</b>		<b>20</b>

**Electrical and Computer Engineering majors should take the following courses:**

Code	Title	Credits
ME 477	Introduction to Solid Modeling	1
ECE 633	Signals and Systems I <sup>1</sup>	3
ECE 634	Signals and Systems II <sup>1</sup>	3
ME 503	Thermodynamics	3
ME 525	Statics	4
ME 561	Introduction to Materials Science	4
<b>Select one of the following:</b> <sup>2</sup>		
ME 526	Mechanics of Materials	3
ME 608	Fluid Dynamics	3
ME 627	Dynamics	3

<sup>1</sup> ECE Major Required Courses.

<sup>2</sup> The total number of credits required is 21.

**Physics majors should take the following courses:**

Code	Title	Credits
PHYS 508	Thermodynamics and Statistical Mechanics <sup>1</sup>	4
PHYS 615	Classical Mechanics and Mathematical Physics I <sup>1</sup>	4
ME 477	Introduction to Solid Modeling	1
ME 526	Mechanics of Materials	3
ME 608	Fluid Dynamics	3
<b>Select one of the following:</b> <sup>2</sup>		
ME 643	Machine Design	3
ME 670	Systems Modeling, Simulation, and Control	4
ME 705	Thermal System Analysis and Design	4

<sup>1</sup> Physics Major Required Courses.

<sup>2</sup> The total number of credits to complete the Physics Minor will be either 18 or 19 depending on what course is selected.

## Student Learning Outcomes

- A. the ability to apply knowledge of mathematics, science and engineering; (objective 1)
- A.1 knowledge of chemistry and calculus-based physics with depth in at least one; (objective 1)
- A.2 the ability to apply advanced mathematics through multivariate calculus and differential equations; (objective 1)
- A.3 a familiarity with statistics and linear algebra; (objective 1)
- B. the ability to design and conduct experiments, as well as to analyze and interpret data; (objective 2)
- C. the ability to design a system, component, or process to meet desired needs; (objective 2)
- C.1 the ability to work professionally in mechanical systems areas including the design and realization of such systems; (objective 2)
- C.2 the ability to work professionally in thermal systems areas including the design and realization of such systems; (objective 2)
- D. the ability to function in multidisciplinary teams; (objective 2 & 3)
- E. the ability to identify, formulate and solve engineering problems; (objective 2)
- F. the understanding of professional and ethical responsibility; (objectives 4 & 6)
- G. the ability to communicate effectively; (objective 2)
- H. the broad education necessary to understand the impact of engineering solutions in a global and societal context; (objective 5)
- I. recognition of the need for and an ability to engage in life-long learning; (objective 4)

Interested students should contact the Mechanical Engineering Chair at (603) 862-1353 and file an intent to minor form. During the last semester, students must complete a completion of minor form for it to appear on their transcript.

## Ocean Engineering (OE)

### Mission

The undergraduate program in ocean engineering emphasizes ocean engineering fundamentals while offering interdisciplinary opportunities for focused study in civil, electrical, environmental, or mechanical engineering, as well as marine sciences.

### Program Educational Objectives

The ocean engineering program seeks to provide an environment that enables students to pursue their goals in an innovative, rigorous, and challenging program with a diversity of offerings. The program has the following major educational objectives, with the expectation that alumni will have successful careers in the many diverse areas of the ocean engineering profession. Within a few years of obtaining a bachelor's degree in ocean engineering, we expect our graduates to have the following attributes:

*Depth.* To be effective in applying ocean engineering principles in engineering practice or for advanced study in ocean engineering.

*Breadth.* To have a productive career in the many diverse fields of ocean engineering such as coastal engineering, ocean acoustics, offshore structures, and marine renewable energy, or in the pursuit of graduate education in disciplines that include marine science, engineering, medicine, law, or business.

*Professionalism.* To function effectively in the complex modern work environment with the ability to assume professional leadership roles.

## Ocean Engineering Major (B.S.)

<https://ceps.unh.edu/ocean-engineering/program/bs/ocean-engineering-major>

### Description

Ocean engineering is a field of study that seeks to solve engineering problems associated with the ocean, including those problems associated with the sustainable utilization of ocean resources and the scientific exploration and study of the ocean environment. Ocean engineering is an interdisciplinary field with roots in mechanical, electrical, civil, and environmental engineering, with strong ties to

physical, chemical, biological, and geological oceanography. Students of ocean engineering are best served when they are formally trained inside a framework that fuses the expertise of these often-disparate fields.

The BSOE curriculum provides students with a solid engineering core and prepares students for professional engineering careers or for graduate study. The BSOE starts with foundational classes in math, physics, chemistry, and engineering computing, along with introductions to ocean engineering through seminars and oceanography coursework. Students develop their engineering acumen through coursework and laboratory studies that are focused on analysis, experimentation, and design. Students proceed to increasingly advanced coursework in ocean instrumentation, waves and tides, the design of ocean structures, coastal engineering, ocean measurements, and ocean acoustics. Opportunities exist for at least four technical electives, which help students gain further competence in an area of their choice. Students finish their curriculum with a two-semester senior capstone design project. Elective courses in the arts, humanities, and the social sciences are included to provide a well-rounded education.

Students work with an advisor to plan a program that is based on the courses shown in the ocean engineering degree plan below that totals not less than 128 credits. The degree plan is considered a guideline and may be modified to suit student needs and desires within the constraints of meeting minimum credit hours, course prerequisites, and non-major elective course requirements. Some ocean engineering elective courses may not be offered every year.

### Requirements

#### Technical Elective Requirements:

The ocean engineering program curriculum requires four technical electives that are CEPS 600-level or higher courses that have been approved by the OE undergraduate curriculum committee. Sequences have been identified that will provide students more in-depth opportunities in one of the ocean engineering sub-areas. One of the technical electives needs to be a program-approved statistics course (OE 764 Spectral Analysis of Geophysical Time Series Data, MATH 644 Statistics for Engineers and Scientists, or ESCI 701 Quantitative Methods in Earth Sciences).

#### Discovery Program Requirements:

Students must satisfy the University's Discovery Program requirements. The following features are unique to students in the Ocean Engineering program:

As is the case across the University, all students are required to take an Inquiry course or an Inquiry Attribute course during their first two years. This is satisfied with ESCI 501 Introduction to Oceanography. The Discovery Environment, Technology, and Society category requirement is met upon receiving a B.S. degree in ocean engineering. The Discovery Social Science category must be satisfied with either ECON 402 Principles of Economics (Micro) or EREC 411 Environmental and Resource Economics Perspectives. The Discovery senior capstone experience is satisfied with TECH 797 Undergraduate Ocean Research Project.

#### Grade-Point Average Requirements:

In order to graduate with an ocean engineering B.S. degree, students must have at least a 2.0 grade-point average in all engineering and

science courses, including required technical electives, normally taken as department requirements after the start of the junior year as defined in the degree plan below.

**Predictor courses:** To enter the sophomore year, students must achieve a greater than (but not equal to) 2.00 GPA in PHYS 407 General Physics I and MATH 426 Calculus II with no grade below a C.

To enter the junior year, students must achieve a minimum GPA of 2.00 in ME 525 Statics, ME 526 Mechanics of Materials, and ME 503 Thermodynamics with only one C- grade allowed and no grades below C-.

Students are allowed two repeats of these predictor courses to achieve the predictor rule requirements before being removed from the program. This can be a single class repeated twice or two classes repeated once. Students are also removed from the program if they obtain a semester GPA <1.5 three times. Students may petition to be reinstated after one year out of the program.

#### Transfer Policy for UNH Students into the Department of Mechanical Engineering:

**CEPS Students:** To transfer into the freshman or sophomore year, students must earn a combined GPA greater than (but not equal to) 2.00 in PHYS 407 General Physics I and MATH 426 Calculus II with no grade below a C in these two courses.

If students are enrolled in ME 525 Statics (or CEE 500 Statics for Civil Engineers), ME 526 Mechanics of Materials (or CEE 501 Strength of Materials), or ME 503 Thermodynamics, they must earn a combined GPA of 2.00 with no grade below a C- in two of these courses with only one C- grade allowed to transfer in and advance to the junior year.

**Non-CEPS Students:** To transfer into the Department of Mechanical Engineering from another college at UNH, students have to satisfy the CEPS college transfer policy as well as the Department of Mechanical Engineering transfer policies listed above according to status.

#### List of Required Courses:

<sup>3</sup> ENGL 401 First-Year Writing satisfies the Discovery Foundation Writing Skills category.

<sup>4</sup> ESCI 501 Introduction to Oceanography satisfies the Discovery Inquiry requirement.

<sup>5</sup> MATH 525 Linearity I and MATH 526 Linearity II may be substituted for MATH 527 Differential Equations with Linear Algebra and MATH 528 Multidimensional Calculus. The MATH 525 and MATH 526 sequence will also count as one Technical Elective.

<sup>6</sup> Total technical elective credits must be at 14 credits or higher to meet the UNH required total of 128 credits for graduation

## Student Learning Outcomes

The Student Outcomes consist of the ABET 1-7 general requirements for all engineering programs with four additional outcomes specific to the Ocean Engineering program which are subsets of (1).

- (1) ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science and math. Knowledge of fluid mechanics and hydrostatics with depth in at least one. An ability to apply solid mechanics and dynamics through multivariate calculus and differential equations. Knowledge of oceanography, water waves, and underwater acoustics. Ability to apply probability and applied statistics.
- (2) ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety and welfare, as well as global, cultural, social, environmental and economic factors.

- (3) ability to communicate effectively with a range of audiences.
- (4) ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments which must consider the impact of engineering solutions in global, economic, environmental and societal contexts.
- (5) ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives.
- (6) ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions.
- (7) ability to acquire and apply new knowledge as needed, using appropriate learning strategies.

## Ocean Engineering Minor

<https://ceps.unh.edu/ocean-engineering/program/minor/ocean-engineering>

### Description

The ocean engineering minor allows undergraduate engineering students to acquire a nucleus of knowledge about engineering pertaining to the ocean and the coastal zone.

### Requirements

To meet the University minor requirement, students must satisfactorily complete a minimum of five courses from the following list:

Code	Title	Credits
Select five of the following:		
ESCI 501	Introduction to Oceanography	
ESCI 720	Ocean Measurements Lab	
ESCI 752	Chemical Oceanography	
ESCI 758	Introductory Physical Oceanography	
ESCI 759	Geological Oceanography	
OE 490	Introduction to Ocean Engineering	
OE 754	Ocean Waves and Tides	
OE 757	Coastal Engineering and Processes	
OE 765	Underwater Acoustics	
OE 771	Geodesy and Positioning for Ocean Mapping	
OE 795	Special Topics	
CEE 722	Introduction to Marine Pollution and Control	
TECH 797	Undergraduate Ocean Research Project	

Students typically take ESCI 501 Introduction to Oceanography, TECH 797 Undergraduate Ocean Research Project, and OE 490 Introduction to Ocean Engineering plus two additional engineering courses from the above list to complete the minor.

Students wishing to take the ocean engineering minor should indicate their interest to the ocean engineering minor advisor, Tom Lippmann, (603) 862-4450 or [t.lippmann@unh.edu](mailto:t.lippmann@unh.edu) no later than the beginning of the junior year and file an intent to minor form. During the final semester, students must complete a completion of minor form for it to appear on their transcript.

## Physics and Astronomy

Physics is concerned with the properties of matter and the laws that describe its behavior. As a fundamental science, its discoveries and laws

are basic to understanding in nearly all areas of science and technology. Advances in such diverse fields as medical instrumentation, solid state electronics, and space research have relied heavily on the application of basic physical laws and principles.

Students interested in the study of physics at the University of New Hampshire will find a strong interaction between research and academic programs. Undergraduates frequently participate in research studies ranging from nuclear scattering experiments at major particle accelerators to astrophysical studies of the solar system using space probes. These experiences have proven beneficial to engineering and physics students alike. The department is located in DeMeritt Hall (completed in 2008) and Morse Hall. Both buildings are equipped with state-of-the-art research facilities and laboratories. DeMeritt Hall also houses the physics library, classrooms, and a number of open and comfortable meeting areas, which provide an inviting atmosphere for study, interaction, and collaboration.

The suggested programs that follow are indicative of the flexibility available to students, whether they are preparing for graduate work in physics or astronomy, industrial opportunities, governmental research, secondary-level teaching, or a general education that might utilize the fundamental knowledge of physics.

Several undergraduate degree programs are offered through the department of physics. The B.S. degree is designed for students who wish to work as professional physicists or engineers. The B.A. degree is designed for students who want a strong background in physics but also want a broad liberal arts education. The department also offers a B.S. in engineering physics, which offers a deeper understanding of the physical principles needed to support careers in engineering. The BSEP program offers two tracks for students; aerospace and engineering research. Minors for astronomy and physics are also offered by the department.

Interested students are encouraged to contact the department for further information. More detailed information is also on the physics department website.

## Faculty

<https://physics.unh.edu/people/faculty>

## Engineering Physics Major (B.S.)

<https://ceps.unh.edu/physics/program/bs/engineering-physics-major>

## Description

The goal of the UNH BSEP program is to produce broadly-trained engineers who can provide solutions to today's challenging problems in

support of a technologically evolving society. The core of the program is based on interdisciplinary training, complemented with a deeper understanding of the physical principles needed to support careers in engineering, engineering research or, perhaps, further training in systems engineering. The program balances depth and breadth in skill development; flexibility and functionality are what drive the program in the sense that 1) the particular focus is based on the student's interests, and 2) the breadth of the course selection is guided by the post-graduation goals of the student (e.g., employment versus graduate school).

## Requirements

Code	Title	Credits
Discovery Program requirements		
Writing requirements		
Bachelor of Science requirements		
<b>Core Requirements for all tracks:</b>		
CHEM 403	General Chemistry I	4
or CHEM 405	Chemical Principles for Engineers	
CS 410P	Introduction to Scientific Programming/Python	4
or IAM 550	Introduction to Engineering Computing	
MATH 425	Calculus I	4
MATH 426	Calculus II	4
Choose one:		8-12
MATH 527 & MATH 528	Differential Equations with Linear Algebra and Multidimensional Calculus	
or MATH 525 & MATH 526	Linearity I and Linearity II	
PHYS 400	Physics Seminar I	1
PHYS 407	General Physics I	4
PHYS 408	General Physics II	4
PHYS 505	General Physics III	3
PHYS 506	General Physics III Laboratory	1
PHYS 508	Thermodynamics and Statistical Mechanics	4
PHYS 615	Classical Mechanics and Mathematical Physics I	4
PHYS 616	Classical Mechanics and Mathematical Physics II	4
PHYS 703	Electricity and Magnetism I	4
Capstone:		4
PHYS 797	Senior Design Project	
<b>Additional courses for Aerospace Track</b>		
ECE 541	Electric Circuits	4
ECE 548	Electronic Design I	4
ECE 651	Electronic Design II	4
ME 608	Fluid Dynamics	3
ME 743	Satellite Systems, Dynamics, and Control	3
<b>Electives in major: choose three from the following</b>		
ME 603	Heat Transfer	
ME 646	Experimental Measurement and Data Analysis	
ME 670	Systems Modeling, Simulation, and Control	
ME 705	Thermal System Analysis and Design	
ME 707	Analytical Fluid Dynamics	
ME 747	Experimental Measurement and Modeling of Complex Systems	
ME 786	Introduction to Finite Element Analysis	
PHYS 708	Optics	
PHYS 712	Space Plasma Physics	
<b>Additional Courses for the Engineering Research track</b>		
ECE 541	Electric Circuits	4
ECE 543	Introduction to Digital Systems	4
ECE 548	Electronic Design I	4
ECE 633	Signals and Systems I	3
ECE 647	Random Processes and Signals in Engineering	3
ECE 651	Electronic Design II	4
ME 608	Fluid Dynamics	3
PHYS 704	Electricity and Magnetism II	4
PHYS 708	Optics	4

Electives in major: choose three from the following		12
ECE 634	Signals and Systems II	
ME 561	Introduction to Materials Science	
ME 670	Systems Modeling, Simulation, and Control	
ME 706	Renewable Energy: Physical and Engineering Principles	
ME 712	Waves in Fluids	
ME 743	Satellite Systems, Dynamics, and Control	

A student must have a minimum grade of C in each 400- or 500-level courses that are part of the core requirements and an overall grade-point average of 2.33 in these courses in order to continue in the program.

- An ability to acquire and apply new knowledge as needed, using appropriate learning strategies.

## Physics Major (B.A.)

<https://ceps.unh.edu/physics/program/ba/physics-major>

### Description

This program provides an opportunity for a broad and liberal education, which in some cases may be sufficient for graduate work. This program can also be excellent preparation for middle and high school physics teachers, pre-med and pre-law students, and those wishing to pursue a technical career in industry. Because there are fewer required courses than for a B.S., you have time to pursue other academic interests. A judicious choice of electives may also prepare students for interdisciplinary programs that require proficiency in a specialized area of physics.

<b>Total Credits</b>		<b>66-76</b>

## Student Learning Outcomes

The Student Outcomes consist of the ABET general requirements for all engineering programs. Students are expected to achieve the outcomes below upon graduation.

- An ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics.
- An ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors.
- An ability to communicate effectively with a range of audiences.
- An ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts.

<sup>1</sup> Note that no physics course can satisfy these requirement for a physics major. The rationale behind this is that a course in physics does not broaden the education of a physics major.

<sup>2</sup> A capstone experience is required of all physics majors during their senior year. The Physics Department encourages students to write a senior thesis (PHYS 799 Thesis) for their capstone experience. Other options include independent study research projects (PHYS 795 Independent Study or INCO 590 Student Research Experience) or a special project as part of senior lab (PHYS 705 Experimental Physics II). All capstone experiences must be approved by the undergraduate committee during the student's penultimate semester.

## Degree Plan

### Suggested Curriculum for B.A. in Physics

In the following table, "other required courses" include Discovery courses, writing-intensive courses, language courses required for the B.A., and free-choice electives.

Course	Title	Credits
<b>First Year</b>		
<b>Fall</b>		
PHYS 400	Physics Seminar I	1
PHYS 407	General Physics I	4
MATH 425	Calculus I	4

<b>Credits</b>		<b>16</b>

#### Spring

Other Required Courses		12
Capstone		4
<b>Credits</b>		<b>16</b>
<b>Total Credits</b>		<b>132-136</b>

## Student Learning Outcomes

- Students will master the fundamentals of mechanics, electricity and magnetism, quantum mechanics, and thermodynamics.
- Students will have a solid understanding of calculus and differential equations and be able to use mathematics to solve physics problems.
- Students will be proficient at taking measurements in a physics lab and analyzing measurements to draw valid conclusions.
- Students will be able to integrate competently the knowledge and skills acquired in the major and have adequate preparation to succeed in post-undergraduate studies or a professional career.
- Students develop and execute plans for post-graduation to establish their careers. Student will understand the variety of career paths and opportunities that are open to students who have majored in physics.
- Students will be able to present scientific ideas effectively in both written and oral form.

## Physics Major (B.S.)

<https://ceps.unh.edu/physics/program/bs/physics-major>

## Description

The bachelor of science degree in physics prepares students for professional work as physicists, and is the first step toward graduate work in physics. It is also excellent preparation for graduate programs in medicine, law, or engineering, as well as for technical jobs in industry. The

required courses are those typically necessary for admission to graduate study in physics or astronomy.

## Requirements

Code	Title	Credits
<b>University Discovery requirements</b> <sup>1</sup>		
<b>Bachelor of Science requirements</b>		
<b>Minimum physics requirements:</b>		
PHYS 400	Physics Seminar I	1
PHYS 407	General Physics I	4
PHYS 408	General Physics II	4
PHYS 505 & PHYS 506	General Physics III and General Physics III Laboratory	4
PHYS 508	Thermodynamics and Statistical Mechanics	4
PHYS 601	Computational Physics Recitation I	1
PHYS 602	Computational Physics Recitation II	1
PHYS 605	Experimental Physics I	5
PHYS 615	Classical Mechanics and Mathematical Physics I	4
PHYS 616	Classical Mechanics and Mathematical Physics II	4
PHYS 701	Quantum Mechanics I	4
PHYS 702	Quantum Mechanics II	4
PHYS 703	Electricity and Magnetism I	4
PHYS 704	Electricity and Magnetism II	4
PHYS 705	Experimental Physics II	4
Select two electives from the following:		8
PHYS 708	Optics	
PHYS 710	Astrophysics I	
PHYS 712	Space Plasma Physics	
PHYS 718	Condensed Matter Physics	
PHYS 720	Nuclear Physics	
PHYS 764	General Relativity and Cosmology	
MATH 747	Introduction to Nonlinear Dynamics and Chaos	
MATH 753	Introduction to Numerical Methods I	
<b>Chemistry:</b>		
CHEM 403 or CHEM 405	General Chemistry I Chemical Principles for Engineers	4
<b>Mathematics:</b>		
MATH 425 & MATH 426	Calculus I and Calculus II	8
Select one of the following options: <sup>2</sup>		12
Option A:		
MATH 525 & MATH 526	Linearity I and Linearity II <sup>2</sup>	
Option B:		
MATH 528	Multidimensional Calculus	
MATH 527	Differential Equations with Linear Algebra	
MATH 545 or MATH 645	Introduction to Linear Algebra Linear Algebra for Applications	
<b>Computer Programming:</b>		
CS 410P or IAM 550	Introduction to Scientific Programming/Python Introduction to Engineering Computing	4
<b>Capstone:</b> <sup>3</sup>		2-8
PHYS 795 & PHYS 799 or INCO 790 & PHYS 799 or PHYS 798	Independent Study and Thesis Advanced Research Experience and Thesis Senior Project	
<b>Total Credits</b>		<b>90-96</b>

<sup>1</sup> Note that no physics course can satisfy these requirement for a physics major. The rationale behind this is that a course in physics does not broaden the education of a physics major.

<sup>2</sup> The Department generally recommends MATH 645 Linear Algebra for Applications over MATH 545 Introduction to Linear Algebra for physics majors.

<sup>3</sup> A capstone experience is required of all physics majors during their senior year. The Physics Department encourages students to write a senior thesis (PHYS 799 Thesis) for their capstone experience. Other options include independent study research projects (PHYS 795 Independent Study or INCO 590 Student Research Experience) or a special project as part of senior lab (PHYS 705 Experimental Physics II). All capstone experiences must be approved by the undergraduate committee during the student's penultimate semester.

By the end of the spring semester of the sophomore year, a student must have a minimum grade of C in each 400- or 500-level course specifically required for the B.S. degree and an overall grade-point average of at least 2.33 in these courses in order to continue in the B.S. program.

## Physics Electives

In the following table, "electives" include Discovery courses, writing-intensive courses, physics electives, and free-choice electives. Note that physics electives can only be taken in the junior or senior year because of prerequisites, and are in general offered every other year.

Code	Title	Credits
PHYS 708	Optics	4
PHYS 710	Astrophysics I	4
PHYS 712	Space Plasma Physics	4
PHYS 718	Condensed Matter Physics	4
PHYS 720	Nuclear Physics	4
PHYS 764	General Relativity and Cosmology	4

## Degree Plan

### Suggested Curriculum for B.S. in Physics

In this degree plan, "electives" include Discovery courses, Writing Intensive Courses, Physics electives, or electives required to meet 128 credit graduation requirement.

Course	Title	Credits
<b>First Year</b>		
<b>Fall</b>

Capstone		4
<b>Credits</b>		<b>16</b>
<b>Total Credits</b>		<b>128-132</b>

**Student Learning Outcomes**

- Students will master the fundamentals of mechanics, electricity and magnetism, quantum mechanics, and thermodynamics.

- Students will have a solid understanding of calculus, differential equations, and linear algebra and be able to use mathematics to solve physics problems.
- Students will be able to solve physics problems using computational methods.
- Students will be proficient at taking measurements in a physics lab and analyzing measurements to draw valid conclusions.
- Students will be well prepared for graduate study in physics and related disciplines.
- Students will be well prepared for technical careers.
- Students will be able to present scientific ideas effectively in both written and oral form.

**Astronomy Minor**

<https://ceps.unh.edu/physics/program/minor/astronomy>

**Description**

This minor program introduces students to the fundamentals of astronomy and astrophysics and also allows students some flexibility in their choice of more focused coursework. The required courses cover the following topics: planets, stars, galaxies, cosmology, and modern astronomical tools. We have two flavors of the minor, one for those also getting a physics degree, and another for students outside of the physics major.

Credit toward the minor will be given only for courses passed with C- or better, and a 2.0 grade-point average must be maintained in courses for the minor. Courses taken on the pass/fail basis may not be used for the minor. Students should declare their intent to earn a minor as early as possible and no later than the end of the junior year. During their final term, students must fill out an intent to minor and have it signed by the appropriate faculty.

The minor requires a minimum of five courses as detailed in the minor requirements. No more than 8.0 credits (or two courses) used by the student to satisfy major requirements may be used for the minor. Additional courses from the list of course electives may be utilized to meet the five-course minimum.

For further information please contact Professor Mark McConnell.

**Requirements**

Code	Title	Credits
<b>Required Courses</b>		
PHYS 406	Introduction to Modern Astronomy	4
PHYS 710	Astrophysics I	4
PHYS 711	Astrophysics II	4
PHYS 505	General Physics III (for non-physics majors only)	3
PHYS 506	General Physics III Laboratory (for non-physics majors only)	1

# Physics Minor

<https://ceps.unh.edu/physics/program/minor/physics>

## Description

This program allows students to become more deeply involved in physics without the commitment of a major.

- The minor consists of 5 four-credit courses in physics.
- At most only two minor courses can also fulfill a major requirement.
- The following courses may NOT be used to fulfill minor requirements: PHYS 400, PHYS 401, PHYS 402, PHYS 409, PHYS 501.
- Physics minors must take PHYS 407 General Physics I and PHYS 408 General Physics II or the equivalent. These two courses are prerequisites for all other physics courses.

To minor in physics, request a minor advisor at the physics office as soon as possible. Advisors assist in course selection to fit your interests, schedule, and help ensure you have met mathematical and physics prerequisites.

## Requirements

Code	Title	Credits
PHYS 407	General Physics I	4
PHYS 408	General Physics II	4
PHYS 505	General Physics III	3
Elective <sup>1</sup>		4
Elective <sup>1</sup>		4
<b>Total Credits</b>		<b>19</b>

<sup>1</sup> Select a four-credit physics course, chosen in consultation with the student's physics minor advisor.

Examples of course combinations used to fulfill minor requirements:

1. PHYS 407 General Physics I, PHYS 408 General Physics II, PHYS 505 General Physics III & PHYS 506 General Physics III Laboratory, PHYS 508 Thermodynamics and Statistical Mechanics, PHYS 615 Classical Mechanics and Mathematical Physics I
2. PHYS 407 General Physics I, PHYS 408 General Physics II, PHYS 406 Introduction to Modern Astronomy, PHYS 615 Classical Mechanics and Mathematical Physics I, PHYS 616 Classical Mechanics and Mathematical Physics II
3. PHYS 407 General Physics I, PHYS 408 General Physics II, PHYS 615 Classical Mechanics and Mathematical Physics I, PHYS 616 Classical Mechanics and Mathematical Physics II, PHYS 703 Electricity and Magnetism I

Note: many physics courses have mathematics prerequisites. Prerequisites are listed in the course descriptions.

## College of Health and Human Services

Kirsten N. Corazzini, Dean  
Erin Hiley Sharp, Associate Dean

The College of Health and Human Services (CHHS) prepares students for professional health-related careers, through hands-on, experiential learning. Taught by profession and field experts, CHHS provides undergraduate instruction that leads to the bachelor of science degree in communication sciences and disorders, health management and policy, human development and family studies, kinesiology (with majors in exercise science, health and physical education, health sciences and sport management and leadership), nursing, occupational therapy, recreation management and policy (with options in outdoor leadership and management, program and event management and therapeutic recreation), and social work. Each program enables students to acquire the knowledge and skills needed to practice in their chosen professions and to obtain a broad cultural background in the humanities and social sciences.

### Undeclared Major

A limited number of well-qualified first-year students who have expressed an interest in a health-related career but who are undecided about a specific major may enter the College of Health and Human Services as undeclared students.

### ACE First Year Experience Program

All CHHS students participate in our ACE (Academic and Career Engagement) First-Year Experience Program.

The ACE Program in the College of Health and Human Services provides our first year students with an environment that encourages academic success in the transition from high school to college. Through personalized academic and career coaching, this first-year experience program assists students with navigating academic and co-curricular resources, developing skills in active learning, reflection, and decision making, and exploring vast career options and alumni connections - all the while fostering a community of belonging and involvement within CHHS and UNH.

Members of the ACE Program participate in two ACE seminars during the first year. These seminars help students learn about CHHS majors and explore career choices, goals, and the resources and opportunities available to students at UNH, such as academic guidance and support for your personal well-being. Each CHHS student in the ACE Program has an ACE peer mentor and an ACE academic coach, who are available to meet on a regular basis. Each student is also assigned a faculty mentor within the major department.

### Degrees Offered

Bachelor of Science (B.S.)

### Degree Requirements

Candidates for the Bachelor of Science (B.S.) degree must satisfy all University requirements for graduation, earn at least 128 credits, successfully complete the courses required in one of the majors described in this section, and achieve the required minimum grade-point average in the chosen curriculum. Generally, courses are to be completed in the sequence in which they are arranged. Degree candidates must

satisfy all of the University and Discovery Program requirements in addition to satisfying the requirements of an individual major program, which includes a senior capstone course/experience.

- [Applied Human Anatomy and Physiology Minor](#) (p. 240)

## Applied Human Anatomy and Physiology Minor

<https://chhs.unh.edu/kinesiology/program/minor/applied-human-anatomy-physiology>

### Description

The minor is designed to provide students with an opportunity to develop knowledge and skills necessary for pursuing degrees in medicine and allied health.

Admission to the applied Human Anatomy & Physiology minor is based on successful completion of BMS 507 Human Anatomy and Physiology I & BMS 508 Human Anatomy and Physiology II or ANSC 511 Anatomy and Physiology and ANSC 512 Anatomy and Physiology (or equivalent

accepted by minor adviser) with a grade of C or better and a minimum GPA of 2.75.

## Requirements

### Minor Requirements

Code	Title	Credits
EXSC 620	Physiology of Exercise	4
KIN 652	Clinical Kinesiology	4
KIN 653A	Musculoskeletal Assessment	2
KIN 706 & KIN 707	Neurology and Neurology Lab	6
Select one of the following:		4
EXSC 527	Scientific Foundations of Health and Fitness	
EXSC 607	Biology of Aging	
KIN 505	Activity, Injuries and Disease	
<b>Total Credits</b>		<b>20</b>

## Coaching

- [Coaching Minor](#) (p. 241)

## Coaching Minor

<https://chhs.unh.edu/kinesiology/program/minor/coaching>

## Description

The Coaching Minor is an interdisciplinary curriculum designed to provide students interested in coaching at the youth, high school or college levels with basic knowledge and skills necessary for competence in coaching. The minor consists of courses offered by several options within the Department of Kinesiology and Recreation Management and Policy. The proposed coursework lays a theoretical and practical framework for students interested in coaching.

Admission into the minor is based on successful completion of SML 565 Principles of Coaching (grade of C- or better), and a minimum GPA of 2.0.

## Requirements

### Coaching Minor Requirements

Code	Title	Credits
SML 565	Principles of Coaching	4
SML 765	Advanced Topics in Coaching	4
SML 650D	Internship in Coaching	2-4
Select a minimum of two of the following courses:		4
SML 565A	Clinical Practice in Coaching	2
SML 521	Theory of Coaching Basketball	2
SML 522	Theory of Coaching Football	2
SML 523	Theory of Coaching Ice Hockey	2
SML 525	Theory of Coaching Soccer	2
SML 528	Theory of Coaching Track and Field	2
Select at least one of the following:		4
KIN 505	Activity, Injuries and Disease	4
EXSC 527	Scientific Foundations of Health and Fitness	4
SML 560	Sport Psychology	4
RMP 560	Recreational Sport Management	4
SML 562	Sport Media Relations	4
HPE 675	Motor Development and Learning	4
SML 740	Athletic Administration	4
SML 780	Psychological Factors in Sport	4

Students will not be permitted to enroll in SML 650D Internship in Coaching, until they have completed 10 Credits toward the minor to include: SML 565 Principles of Coaching; and one of the applicable courses/electives and at least one theory/practical coaching class.

To graduate with a coaching minor, individuals must earn a grade of C- or better in all courses associated with the minor.

Sport Management Leadership/Sport Studies majors are not permitted to minor in coaching.

## Communication Sciences and Disorders (COMM)

### WHAT IS COMMUNICATION SCIENCES AND DISORDERS?

Communication Sciences and Disorders is the profession devoted to assessing and treating disorders, delays, or differences in speech, language, and hearing. In this program, students learn how the ability to communicate develops—including how the brain and speech and hearing mechanisms function to support the acquisition of speech, language, social communication, and cognition. You'll review an array of communication disorders that can affect individuals across the lifespan, learning about assessment and treatment. This pre-professional degree will prepare you to successfully enter clinical or research graduate programs in areas such as audiology, speech-language pathology, cognitive science, and education.

### WHY STUDY COMMUNICATION SCIENCES AND DISORDERS AT UNH?

As a student in the communication sciences and disorders (CSD) program at UNH, you will learn about speech, language, and hearing through a unique educational model that includes classroom instruction, clinical observation, and research. Students observe at the on-campus Speech-Language-Hearing Center and Clinic for Neurogenic Communication Disorders, premier diagnostic and intervention centers in New Hampshire. In addition, you have the opportunity to participate in research activities in our state-of-the-art research laboratories. For students interested, a limited number of internships are available each semester.

Communication Sciences and Disorders (CSD) is devoted to helping people overcome disabilities of speech, language, and hearing. The study of Communication Sciences and Disorders may begin in the freshman or sophomore year. Students learn about speech, language, and hearing disorders in the classroom and are involved in clinical observation in the on-campus Speech-Language-Hearing Center and can participate in research projects. Students are encouraged to take elective courses in linguistics, human development, learning theory, early childhood, health administration, special education, and various aspects of rehabilitation.

As this is a pre-professional degree, students generally pursue graduate studies in speech-language pathology or audiology at colleges or universities offering graduate programs leading to a master's or doctoral degree and to subsequent certification by the American Speech-Language-Hearing Association (ASHA). Certified clinicians find employment opportunities in hospitals, schools, community speech and hearing clinics, and private practice. Candidates for a degree must satisfy all of the University Discovery Program requirements in addition to satisfying the requirements of the Communication Sciences and Disorders major.

\* Effective April 2022, the Accelerated Master's Program (AM) is under review and on hold.

# Communication Sciences and Disorders Major (B.S.)

<https://chhs.unh.edu/communication-sciences-disorders/program/bs/communication-sciences-disorders-major>

## Description

The Department of Communication Sciences and Disorders offers a Bachelor of Science degree in communication sciences and disorders. Communication Sciences and Disorders is the profession devoted to assessing and treating disorders, delays, or differences in speech, language, and hearing. In this program, students study how the ability to communicate develops as well as review an array of communication disorders that can affect individuals across the lifespan. Students learn about speech, language, and hearing through a unique model of education, observation, and research. This pre-professional degree will prepare you to successfully enter clinical or research graduate programs in areas such as audiology, speech-language pathology, cognitive science, or education.

Candidates for a bachelor's degree in Communication Sciences and Disorders must satisfy all departmental as well as UNH Discovery and Writing Intensive requirements.

## Requirements

Students must earn a grade of C or better in all COMM courses.

Code	Title	Credits
<b>Required Courses</b>		
COMM 401	American Sign Language I	4
PSYC 401	Introduction to Psychology	4
PSYC 402	Statistics in Psychology	4

COMM 724	Senior Capstone	4
COMM 741	Speech-Language Pathology I	4
COMM 742	Speech-Language Pathology II	4
<b>Total Credits</b>		<b>84</b>

CSD welcomes transfer students. We are committed to helping you keep to your intended graduation timeline; however, this is dependent upon what courses you have completed before transfer. UNH undergraduates who have not declared a major and/or are interested in transferring into communication sciences and disorders (CSD) should apply directly to the department by completing an internal transfer application. Transfer applications are accepted throughout the academic year. Acceptance into CSD is dependent upon space and the applicant's academic credentials.

Before applying, it is recommended that you review the CSD [suggested course schedule](#).

Internal Transfer students - [Apply Now](#)

For any questions regarding CSD curriculum please email the department at [csd.department@unh.edu](mailto:csd.department@unh.edu).

## Degree Plan

### Suggested Course Sequence

<b>Credits</b>		<b>8</b>
<b>Total Credits</b>		<b>76-84</b>

## Student Learning Outcomes

- The Communication Sciences and Disorders (CSD) undergraduate curriculum aligns with the American Speech Language Hearing Association (ASHA) standards.
- Students completing required COMM courses will have the foundational knowledge to meet ASHA standards.
- Students completing required COMM courses will have the academic preparation to apply to either SLP or Audiology graduate programs.
- All CSD students will have a capstone experience which will allow them to integrate academic experiences.
- Students will be introduced to evidence-based practice (EBP) as it relates to the professions of speech language pathology and audiology.

## Exercise Science

### Programs

- [Exercise Science Major \(B.S.\)](#) (p. 243)

## Exercise Science Major (B.S.)

<https://chhs.unh.edu/kinesiology/program/bs/exercise-science-major>

### Description

This curriculum prepares students for careers in health and fitness promotion and education programs in hospitals, sports medicine centers, wellness clinics, universities, and rehabilitation facilities. Students are also prepared for advanced degree programs in the health professions, basic biology fields, medicine, or other health-related fields. Students must earn a grade of C (2.0) or better in every required course. Successful completion of early and prerequisite courses is required before advancing to sequenced and higher-level coursework. All required courses must

be completed before enrolling in EXSC 650A Internship in Exercise Science. Interested students should consult with the undergraduate major coordinator, Summer Cook, Summer.Cook@unh.edu.

## Requirements

### Major Requirements

Code	Title	Credits
BMS 507 & BMS 508	Human Anatomy and Physiology I and Human Anatomy and Physiology II	8

<b>Total Credits</b>		<b>86-90</b>

Code	Title	Credits
<b>Students in exercise science complete the series of Capstone courses <sup>1</sup></b>		
EXSC 736	Fitness and Graded Exercise Testing	4
EXSC 737	Exercise Prescription and Leadership in Healthy and Special Populations	4
EXSC 650A	Internship in Exercise Science	4-8
<b>Total Credits</b>		<b>12-16</b>

<sup>1</sup> These courses give students practical experience in evaluating health and fitness and prescribing exercise to a wide range of clients. Specifically, students assess a number of disease risk factors, including blood pressure, blood chemistry, and body composition measures, and perform maximal graded exercise tests complete with electrocardiogram monitoring, as well as measure strength and flexibility. Students ultimately develop individualized exercise prescriptions for their clients and work with them one-on-one to improve their health and fitness. The internship experience is an off-campus, 10-week, 40-hours per week, full-time experience and can only be taken after all University and departmental courses are completed. Typically, this is taken during the summer after the student's senior spring academic term.

<b>Credits</b>		<b>4-8</b>
<b>Total Credits</b>		<b>126-130</b>

## Student Learning Outcomes

- Apply fundamental principles of anatomy & physiology, chemistry, nutrition, exercise physiology, psychology, math and physics to anticipate and understand physiologic responses to acute and chronic exercise.
- Evaluate empirical literature in terms of accuracy, authority, bias and relevance, and synthesize information from a variety of sources for presentation in written and oral forms.
- Demonstrate competency in health and fitness assessments and use them to prescribe evidence-based exercise interventions to improve health, athletic performance, physical function and quality of life in diverse populations.
- Display professionally appropriate behaviors, ethical standards, sensitivity, compassion, and tolerance of individual differences, and demonstrate the ability to work in an interprofessional healthcare team.

## Health and Physical Education

### Programs

- [Health and Physical Education Major \(B.S.\)](#) (p. 244)
- [Lifetime Activity Programming and Leadership Minor](#) (p. 246)
- [Physical Education Teaching Minor](#) (p. 246)

## Health and Physical Education Major (B.S.)

<https://chhs.unh.edu/kinesiology/program/bs/health-physical-education-major>

### Description

The health and physical education (HPE) major provides a foundation for teaching through a four-year program (BS), or the UNH Department of Education fifth-year program leading to a masters of arts in teaching (MAT). Graduates become certified to teach kindergarten through grade 12 (K-12) health and physical education in the state of New Hampshire. This licensure is transferable to all other states in the U.S. Extensive supervised practicum experiences that provide teaching skills, including adaptive physical education programming, offers an excellent foundation for preparing high-quality teachers. The combination of health with physical education and adaptive physical education makes graduates highly marketable.

Internal UNH undergraduate transfer candidates must have a minimum GPA of 2.67 before admission to the major. External UNH undergraduate transfers must have a minimum GPA of 2.75. The coursework for students choosing the four-year or five-year path to teaching certification is exactly the same until the final semester of the undergraduate program. The culminating experience for students in the four-year

teaching program is student teaching (EDUC 694D/HPE 694 Supervised Teaching in Health and Physical Education). Students choosing to do the fifth-year program complete a year-long internship, in lieu of student teaching. Students also have the option of completing a concentration in adapted physical education through additional coursework designed to enhance teaching strategies and the programmatic needs of students with disabilities.

Admission to the fifth year program requires a minimum GPA of 3.0. Students admitted early to the masters program (required GPA of 3.2 or greater) are eligible for dual credit at the undergraduate/graduate levels for up to 12 credit hours. This enables undergraduates to begin the masters program in their junior or senior year. For questions about the program, contact the undergraduate program coordinator, Holly Alperin at (603) 862-1211, or Holly.Alperin@unh.edu.

## Student Learning Outcomes

- Apply sound pedagogical practices that enable effective teaching of health education, physical education, and adapted physical education at all levels.
- Create a learning environment that allows each student to feel safe, challenged and valued by embracing the unique strengths each student brings into the classroom and gymnasium.
- Integrate foundational skills and knowledge from health and physical education disciplines that enhance teaching practices in the classroom and gymnasium.
- Design unit and lesson plans within an overall curriculum for health and physical education that supports the development of students' intellectual, physical, social and emotional well-being.
- Design and implement authentic assessments for health and physical education that will enhance and inform student learning.

## Lifetime Activity Programming and Leadership Minor

### Description

The minor in Lifetime Activity Programming and Leadership is for students with an interest in working with youth in out-of-school activity settings such as before or after school programs, summer camps, outdoor/adventure settings, etc. The majority of courses will engage students in purposeful movement and will be physically engaging. Each course will have a teaching component that prepares students to facilitate the various activities with young people in a wide-range of environments.

OUT #542	Sea Kayaking	
OUT 551	Adventure Programming: Backcountry Based Experience	
OUT 552	Adventure Programming: Water Based Experiences	
<b>Total Credits</b>		<b>21-23</b>

## Physical Education Teaching Minor

### Description

The minor in Physical Education Teaching is for students with an interest in pursuing a graduate degree to teach physical education after completing their undergraduate degree at UNH. The coursework and practicum experiences lay the foundation for understanding teaching via best practices in the physical education field. The two "Pedagogy" courses address the methods and effective teaching strategies to be incorporated when instructing elementary and secondary school-aged pupils, while the inclusion course focuses on teaching pupils with disabilities. The Team Sports course addresses seven sports with the goal of students being able to develop personal competency as players and also confident teachers of the sports, via a "tactical games approach". The culminating course/field-based experience will involve observing and teaching in a local school (Elementary or Middle/Secondary PE Practicum), to give students a true sense for what teaching physical education is all about. Upon completion of this minor, students will have the knowledge and experience to feel comfortable teaching physical education if they choose to pursue teaching certification at the graduate school level.

### Requirements

Code	Title	Credits
HPE 610	Elementary Physical Education Pedagogy	4
HPE 655	Middle School and Secondary Physical Education Pedagogy	4
HPE 781	Inclusion in Physical Education	4
HPE 603	Team Sports	3
KIN 501	First Aid: Responding to Emergencies	1
HPE 570	Elementary Physical Education Practicum	4
or HPE 666	Middle School and Secondary Physical Education Practicum	
<b>Total Credits</b>		<b>20</b>

## Health Management and Policy (HMP)

Health management and policy is an interdisciplinary program providing students with a broad view of health care organizational structure and health care policy, while developing analytical skills that are integrated within classes and computer laboratories throughout the curriculum. Students are prepared to pursue careers in a wide range of healthcare organizations focusing on the business aspects and public health aspects within healthcare. Graduates work in private practice, long-term care, rehabilitation facilities, hospitals, private practices, and other managed care organizations in such areas as finance, information systems, management, marketing, operations, project management, as well as public health departments, community health, community-based and home-health agencies, mental health facilities, regulatory bodies, consulting companies, and insurance companies.

The department's undergraduate program maintains full certification by the Association of University Programs in Health Administration (AUPHA). Students have the opportunity to become student members in the Medical Group Management Association (MGMA), American College of Healthcare Executives (ACHE), the Health Care Financial Management Association (HFMA), and the American Public Health Association (APHA), and the New Hampshire Public Health Association (NHPHA) to establish

a professional network and be informed on current issues within the field. The Health Management and Policy curriculum is approved under the New England Commission of Higher Education (NECHE).

# Health Management and Policy Major (B.S.)

<https://chhs.unh.edu/health-management-policy/program/bs/health-management-policy>

## Description

## Academic Program

The Health Management and Policy (HMP) curriculum includes a variety of healthcare courses, including finance, management, data, and policy courses. Students complete a core of introductory courses prior to their junior year in the HMP major. Upper-division (junior and senior) HMP courses are planned in a two-year sequence, (see course sequence) and includes a 400-hour three-credit internship. Along with completing major courses, students will be guided to complete the University requirements for writing intensive courses and Discovery courses to obtain the minimally required 128 credits to graduate. An academic advisor and faculty are available to assist with academic and career plans. This degree prepares students to be healthcare leaders in areas, including, but not limited to: analyst, consultant, epidemiologist, healthcare administrator, healthcare analyst, human resources, healthcare sales, lawyer, marketer, practice manager, and researcher.

It is important to note that internal or external transfer students may require an extra year due to the prescribed course sequence.

## Requirements

Code	Title	Credits
<b>Required Courses</b>		
HMP 401	United States Health Care Systems	4
HMP 403	Introduction to Public Health	4
HMP 501	Epidemiology and Community Medicine	4
ENGL 502	Professional and Technical Writing	4
MATH 420	Finite Mathematics	4
Statistics: choose one from the following <sup>1</sup>		
HHS 540	Statistics for Health and Human Service Professionals	
or MATH 439	Statistical Discovery for Everyone	
or PSYC 402	Statistics in Psychology	
or SOC 402	Statistics	
or ADMN 510	Business Statistics	
or EREC 525	Statistical Methods and Applications	

HMP 610	Survey of Health Information Systems	2
HMP 621	Pre-practicum Seminar	2
HMP 622	Field Practicum in Organizational and Project Analysis, and Management Skills Development	3
HMP 624	Post Practicum Seminar	2
HMP 631	Health Issues Seminar	2
HMP 635	Social Marketing Fundamentals	2
HMP 642	Health Economics	4
HMP 703	Translation of Health Data	4
HMP 711	Health Systems Research I	4
HMP 712	Health Analytics	4
HMP 721	Managing Health Care Organizations	4
HMP 723	Health Planning	4
HMP 740	Health Care Financial Management	4
HMP 742	Strategic Management for Health Care Organizations (HMP Track Course)	4
HMP 744	Health Ethics and Law	4
HMP 746	Health Policy	4
<b>Select Track</b>		<b>8</b>
<b>Public Health Track</b>		
HMP 669	Human Behavior and the Public Health	
HMP 715	Environmental Health	
or		
<b>Health Services Management Track</b>		
HMP 722	Health Care Management II	
HMP 741	Health Care Financial Management II	
<b>Honors in Major</b>		
HMP 798H	Honors Project/Research Design <sup>2</sup>	
HMP 799H	Honors Project/Research <sup>3</sup>	
<b>Total Credits</b>		<b>85</b>

<sup>1</sup> AP Statistics does not meet the statistics requirement.

<sup>2</sup> HMP 798H is taken for two credits Fall of senior year, if selected for Honors in Major.

<sup>3</sup> HMP 799H is taken for four credits Spring of senior year, if completing the Honors in Major thesis.

## Field Practicum

HMP 622 Field Practicum in Organizational and Project Analysis, and Management Skills Development is the required 400 hour 10-week field practicum, (or administrative internship), which constitutes an essential part of the HMP academic program. The field practicum occurs during the summer between junior and senior year, typically beginning in late May and ending in late August, requiring a full-time commitment of the student. Students must be an HMP major, in good academic standing in the major, and must retain a cumulative GPA of 3.00 or higher to be granted permission to enroll in the course.

This experience allows students to explore an area of special interest in depth that integrates class work with a supervised field experience. Given sufficient timing of student requests, efforts will be made to arrange practica at distant sites based on special needs. Field practicum sites are selected with student involvement. Typical sites are often concentrated in central and Northern New England, but the experience could also be elsewhere, including abroad.

## Academic Requirements

HMP majors must obtain a minimum of a B- in all HMP required courses and prerequisite courses. Majors must have an overall grade-point average of 3.00 to remain in the major. Students not continuing to make progress in the major, as evidenced by a low grades (below B-), incomplete courses, and/or administrative failures resulting in a cumulative GPA lower than 3.0 may, upon determination by the Health Management and Policy faculty, be excluded from the major and participation in the Field Practicum. An exclusion from the major may

also be necessary to resolve questions concerning major departmental requirements or University academic standards.

The academic action of *exclusion* could be a temporary action. Consideration for a temporary action requires that a petition is completed by the student detailing the *extenuating* circumstances and providing supportive documentation to the Health Management and Policy Department for review by faculty with a determination of approval. Should a petition be granted *approval to remain in the major* due to extenuating circumstances, the student must demonstrate academic progress (B- in HMP courses and 3.0 GPA) the following semester or they will be excluded from the major without the option to return. If the petition is not determined approved by the faculty, students will be required to change their major.

## Internal Applications for HMP Major

Students interested in additional information or in applying for admission to the health management and policy major should attend an HMP information session, and/or contact the academic department coordinator. Efforts should be made to complete this process during the freshman year or early in the sophomore year to ensure sufficient time to complete the required courses, HMP 401, HMP 403, HMP 501, MATH 420, ENGL 502, and Statistics. Admitted UNH students can apply to the major once the student meets the application requirements, a minimum cumulative GPA of 3.00 and at least two of the required courses completed with a B- or higher; however all HMP required courses must be completed with a B- or better to progress in the major.

## Honors in Major

The department offers an honors-in-major program. Students must meet the department's requirement of having an overall 3.7 grade-point average at UNH and a 3.7 grade-point average for required HMP courses taken by the end of the spring semester sophomore year to be invited to Honors-in-Major. Honors-in-major students take a total of three honors designated major courses during the junior year and senior year, as well as completing an honors thesis project during the senior year, HMP 798H and HMP 799H. Students work on the honors thesis with a faculty member within the HMP department who has knowledge in the specific topic. Students should contact the academic department coordinator for further information.

## Degree Plan

Suggested course sequence for major courses.

Course	Title	Credits
<b>First Year</b>

HMP 621	Pre-practicum Seminar	1
HMP 610	Survey of Health Information Systems	2
HMP 635	Social Marketing Fundamentals	2
HMP 711	Health Systems Research I	4
HMP 746	Health Policy	4
HMP 741 or HMP 669	Health Care Financial Management II or Human Behavior and the Public Health	4
<b>Credits</b>		<b>17</b>

#### Summer

HMP 622	Field Practicum in Organizational and Project Analysis, and Management Skills Development	3
<b>Credits</b>		<b>3</b>

### Fourth Year

#### Fall

HMP 624	Post Practicum Seminar	2
HMP 703	Translation of Health Data	4
HMP 712	Health Analytics	4
HMP 723	Health Planning	4
<b>Credits</b>		<b>14</b>

#### Spring

HMP 631	Health Issues Seminar	2
HMP 742	Strategic Management for Health Care Organizations	4
HMP 722 or HMP 715	Health Care Management II or Environmental Health	4
<b>Credits</b>		<b>10</b>
<b>Total Credits</b>		<b>85</b>

## Student Learning Outcomes

- The complexity of the health care delivery system, quality of care, and it relates to population health as well as the complexity of financing of the US healthcare delivery model.
- Analyze complex management situations, data and apply (appropriate) health management concepts, theories and models to develop recommendations, working within a team environment.
- Ability to describe and discuss the role of Human resource functions and the laws governing, the difference between management and leadership, organizational structures, mergers, acquisitions and affiliations and the role of governmental laws and regulations.
- Identify and prioritize organizational needs and market imperatives in design and development of business plans for health Programs and services in a variety of management settings to compile, present

and discuss data and its limitations related to specific managerial problems and ethics for organizational decision making based on regulations and principles that govern the domains and the role of management and leadership.

- Use of computer analysis tools for calculating, aggregating, presenting and discussing data and its analysis.
- Understand the importance of a Mission and Vision statements and Identification and involvement of stakeholders, recognizing political and legal implications of actions and decisions.
- Describe and generally assess key concepts and elements of health information systems selection and implementation of health care systems and regulatory requirements related to clinical and financial systems, and the role in HIT/HIM as it relates to cost, quality and access.
- Application of economic theory and current mechanisms for advanced financial knowledge to decision making and strategic thinking skills, ability to identify and target market segment and defined appropriate intervals to measure the time value of money, long-term debt, stocks and equity, and evaluation of capital projects.
- Communicate information, ideas and information effectively in a written and oral format using appropriate professional conventions.

## Health Management Minor

<https://chhs.unh.edu/health-management-policy/program/minor/health-management>

### Description

The department of Health Management and Policy (HMP) offers an integrated minor in health management designed for students in majors outside of HMP. All courses must be completed with a C- or higher to be counted toward the minor. Students seeking to minor in health management should meet with the academic department coordinator to discuss the requirements.

### Requirements

The health management minor includes the following courses:

Code	Title	Credits
<b>Required Courses</b>		
HMP 401	United States Health Care Systems	4
HMP 501	Epidemiology and Community Medicine	4
HMP 721	Managing Health Care Organizations	4
Must be taken before completing 600 and 700 level courses.		
<b>Select Two of the Following:</b> <sup>1</sup>		
HMP 642	Health Economics	4
HMP 669	Human Behavior and the Public Health	4
HMP 703	Translation of Health Data	4
HMP 711	Health Systems Research I	4
HMP 712	Health Analytics	4
HMP 722	Health Care Management II <sup>1</sup>	4
HMP 724	Long-Term Care Management	4
HMP 740	Health Care Financial Management	4
HMP 741	Health Care Financial Management II <sup>1</sup>	4
HMP 744	Health Ethics and Law	4

<sup>1</sup> Prerequisite courses must be completed for all HMP courses.

## Public Health Minor

<https://chhs.unh.edu/health-management-policy/program/minor/public-health>

### Description

The department of Health Management and Policy offers a minor in public health. Public health deals with the health of populations and focuses on health promotion and disease prevention, as well as access to the medical system. The minor introduces students to many of the foundation areas of public health and provides basic exposure to key concepts and skills in the five core disciplines of public health, as articulated by the Council on Education for Public Health. The minor is open to any baccalaureate student outside of the Health Management and Policy major at UNH. Students interested in this field may decide to continue their education with the Master of Public Health (MPH), which is also offered through HMP.

### Requirements

The public health minor includes the following courses:

Code	Title	Credits
<b>Required Courses</b>		
HMP 403	Introduction to Public Health	4
HMP 501	Epidemiology and Community Medicine	4
HMP 669	Human Behavior and the Public Health	4
HMP 715	Environmental Health	4
<b>Select one of the following:</b> <sup>1</sup>		
HMP 703	Translation of Health Data	4
HMP 746	Health Policy	4
HDFS 586	Families at Risk	4
HPE 702	Health Content and Youth Risk Behavior	4
OT 513	Stressed Out: The Science and Nature of Human Stress	4
RMP 490	Recreation & Tourism in Society	4
SW 525	Social Welfare Policy: History of Social and Economic Justice	4

<sup>1</sup> All prerequisite courses must be met for any listed courses.

<sup>2</sup> Other courses could be considered by submission of an academic petition.

## Health Sciences

- [Health Sciences Major B.S.](#) (p. 249)

## Health Sciences Major B.S.

<https://chhs.unh.edu/kinesiology/program/bs/health-sciences-major>

### Description

The Health Sciences program is for those students who are concerned with the health and well-being of others, possess a strong science aptitude, and plan to pursue a career in healthcare. As healthcare has evolved in the U.S., degree programs in the allied health professions (physical therapy, physician assistant, etc.) have moved to post-baccalaureate education. Individuals with career interests in allied health professions must first attain prerequisite knowledge to be prepared to study in these advanced degree programs. This rigorous academic program provides the foundational life science coursework and advanced

elective course offerings to prepare students for graduate programs in the allied health sciences.

Admission to graduate study in medical or allied health professions is very competitive and requires applicants to demonstrate exemplary academic performance for admission. Students are required to have earned a minimum, cumulative, GPA of 2.85 by the end of their Sophomore/2nd Year in the Health Sciences Major. Students are also required to achieve a C- or better in all required courses in the major. Students with a GPA below 2.85 will be excluded (removed) from the Health Sciences Major.

## Requirements

### Major Requirements

Core courses required of all Health Sciences concentrations are:

Code	Title	Credits
BIOL 411	Introductory Biology: Molecular and Cellular	4
BIOL 412	Introductory Biology: Evolution, Biodiversity and Ecology	4
BMS 507	Human Anatomy and Physiology I	4
BMS 508	Human Anatomy and Physiology II	4
CHEM 403	General Chemistry I	4
CHEM 404	General Chemistry II	4
HS 406	Introduction to Health Sciences	1
HS 501	Medical Terminology	2
HS 605	Exploration of Allied Health Professions	2
HS 656	Musculoskeletal Pathologies for Health Professions	4
HS 657	Musculoskeletal Pathologies for Health Professions Lab	1
HS 717	Cultural Considerations in Health Care	4
HS 767	Pharmacology for Health Professions	4
EXSC 620	Physiology of Exercise	4
KIN 585	Emergency Medical Responder	4
KIN 652	Clinical Kinesiology	4
NUTR 400	Nutrition in Health and Well Being	4
PHYS 401	Introduction to Physics I	4
PHYS 402	Introduction to Physics II	4
PSYC 401	Introduction to Psychology	4
PSYC 402	Statistics in Psychology <sup>1</sup>	4
or SOC 402	Statistics	
or HHS 540	Statistics for Health and Human Service Professionals	

<sup>1</sup> Any UNH statistics course satisfies the requirement with adviser approval.

### Required University Courses

Candidates for a degree must satisfy all of the University Discovery requirements in addition to satisfying the requirements of the Health Sciences curriculum and any pre-requisite coursework needed to apply to the graduate programs they plan to pursue.

### Recommended Electives

A student's plan of elective courses should align with post-baccalaureate pursuits, and be approved by a Health Sciences advisor.

Recommended electives for future health professionals that are external to the Health Sciences courses may include course work in Communication Sciences & Disorders, Human Development & Family Studies, Health & Human Services, Health Management & Policy, Kinesiology, Nursing, Occupational Therapy, Recreation Management & Policy, Social Work, and other coursework in the life sciences and health and human services.

Code	Title	Credits
BMCB 658/659W	General Biochemistry	3
BMS 503/504	General Microbiology	3
CHEM 545/546	Organic Chemistry	3
GEN 604	Principles of Genetics	4
KIN 684/685	Emergency Medical Care: Emergency Medical Technician (EMT)	3
HS 696W	Independent Study	2-4
HS 770	General Medical Conditions for Health Professions	4
KIN 706	Neurology	4
PSYC 561	Abnormal Behavior	4
PSYC 581	Child Development	4

## Human Development and Family Studies (HDFS)

### HUMAN DEVELOPMENT AND FAMILY STUDIES MAJOR (B.S.)

As a human development and family studies major at UNH, you'll learn to promote the health and well-being of children, adults, and families through research, teaching and service. The program curriculum embraces diversity and emphasizes service excellence and innovation, preparing you for a variety of in-demand careers in education, social services, and healthcare. Three separate concentrations allow students to focus on early childhood development and education, family support or lifespan development.

As a major public research university, UNH emphasizes hands-on experience and research opportunities. Students in the human development and family studies program have multiple opportunities to put theory into practice through the Child Study and Development Center, Family Connections Center and Marriage and Family Therapy Center. Students in the Child Development Concentration may apply to the Early Childhood Education Teaching Preparation Program, while students in the Family Support Concentration are encouraged to pursue provisional status as a Certified Family Life Educator, preparing them to work in areas such as social services, health services, family support, and youth program.

#### Human Development and Family Studies offer three areas of concentration

- **Family Support** - for students interested in working with children, adolescents, adults, and families
- **Lifespan Development** - for students with a broad interest in working with families
- **Child Development** - for students who have a broad interest in working with children ranging in age from birth to age eight.

#### Two optional full-year internship opportunities

Students can apply for either internship during their junior year

- **Early Childhood Education** teacher preparation (ECE) internship
- **Family Support** concentration offers an internship working in fields involving family, gender and cultural differences. This internships can also be taken by Lifespan Development students

#### Three Minors

The Human Development and Family Studies department offers three complementary undergraduate minors: Human Development and Family Studies, Adolescent and Youth Development, and Child Life. An undergraduate minor allows students to demonstrate a special area of interest, focus, or expertise and supports their academic major and future educational and career goals. Each HDFS minor highlights key aspects of individual and family development.

The Human Development and Family Studies minor is only available to non-HDFS majors; however, HDFS majors may choose to minor in Adolescent and Youth Development or Child Life. A completed minor at UNH typically consists of 20 credits, or 5 classes, completed with a C or better.

## Student Learning Outcomes

- Demonstrate understanding of core principles of biology, chemistry, physics, anatomy and physiology, psychology, and kinesiology.
- Demonstrate comprehension of musculoskeletal evaluation and assessment techniques.
- Demonstrate responsiveness to cultural considerations in healthcare.
  - Understand influence of age, race, ethnicity, gender, sexual orientation, spirituality, socioeconomic status, and other aspects of diversity on individual healthcare needs and health-related quality of life.
- Demonstrate an understanding of scientific research and writing.
  - Ability to identify and analyze scholarly literature.
  - Ability to synthesize and articulate research findings through writing.
- Demonstrate knowledge of behaviors, scopes of practice, and legal and ethical standards for health professions.
- Understand concepts of evidence-based practice and patient-centered care for health professions.

- **Child Life**
- **Adolescent and Youth Development**
- **Human Development and Family Studies**

Human Development and Family Studies The Child Life minor may also be taken by HDFS students interested in working with families and children in a hospital setting

<https://chhs.unh.edu/hdfs/>

## Programs

# Human Development and Family Studies Major (B.S.)

<https://chhs.unh.edu/human-development-family-studies/program/bs/human-development-family-studies-major>

## Description

## HUMAN DEVELOPMENT AND FAMILY STUDIES MAJOR (B.S.)

Human Development and Family Studies (HDFS) is an academic discipline focused on understanding the development of individuals and families over time and across the ecological contexts in which they live. HDFS is an applied field of study and a versatile undergraduate major for students interested in working to enhance the lives of individuals and families through in-demand careers in settings that include early childhood education, schools, hospitals, and social service agencies. The HDFS curriculum offers students the opportunity to take courses from child and adolescent development to adult development and aging; family, parenting, and interpersonal relationships; classroom curriculum, observation, and assessment; and family programming, policy, and law. Courses in the HDFS major emphasize diverse experiences across age, gender, race and ethnicity, nationality, and socioeconomic status and prepare students for inclusive programming and practice.

HDFS majors choose between three concentrations: [Child Development](#) (p. 252), [Family Support](#) (p. 253), and [Lifespan Development](#) (p. 253). There is some overlap in coursework and career opportunities across the three concentrations, but each offers unique areas of emphasis.

As a major public research university, UNH emphasizes hands-on experience and research opportunities for undergraduate students. Students in the Human Development and Family Studies program are provided with opportunities to put theory and research into practice through practicum and internship courses in the Child Study and Development Center, Family Connections Center, and many schools

and community-based organizations across the Seacoast region of New Hampshire. Students in the Child Development concentration who complete the Early Childhood Education Teacher Preparation Program will be prepared for certification to teach children from Preschool through 3rd Grade. Family Support students who complete the Family Internship Program will be eligible to pursue provisional status as a Certified Family Life Educator (CFLE) at graduation.

### HDFS Undergraduate Concentrations:

- [Child Development](#) (p. 252) focuses on infancy through childhood with an emphasis on learning, education, and developmentally-appropriate practices and activities.
- [Family Support](#) (p. 253) focuses on development within the context of families, close relationships, and communities.
- [Lifespan Development](#) (p. 253) focuses on understanding and supporting development across the entire lifespan.

### Internship Opportunities

Internships are not required for students to complete their degree in HDFS; however there are exciting opportunities to gain hands on experience. Students who want to take part in an internship apply during their junior year for an internship experience that spans their full senior year. An Early Childhood Education (ECE) Teacher Preparation internship is available for qualified students within the Child Development concentration. The Family Support and Lifespan concentrations offer an internship that introduces high-performing students to careers in human services, advocacy, and policy through placements in the Seacoast Region of New Hampshire.

### Undergraduate Minors

The HDFS department also offers three complementary undergraduate minors: Human Development and Family Studies, Adolescent and Youth Development, and Child Life. An undergraduate minor allows students to demonstrate a special area of interest, focus, or expertise and supports their academic major and future goals. Each HDFS minor highlights key aspects of individual and family development. Although the Human Development and Family Studies minor is only available to non-HDFS majors, HDFS majors may choose to minor in Adolescent and Youth Development or Child Life. A completed minor at UNH typically consists of 20 credits, or 5 classes, completed with a C- or better.

- [Human Development and Family Studies](#) minor complements undergraduate majors in the social sciences, health professions, and related disciplines by providing students with the opportunity to learn about individual and family development, interpersonal relationships, and the ecological contexts of development.
- [Adolescent and Youth Development](#) minor is an interdisciplinary minor that allows students to gain specialized knowledge and skills for working with adolescents and emerging adults in school, after-school, and community settings.
- [Child Life](#) minor introduces undergraduate students to the Child Life profession, which involves working with children, adolescents, and families facing challenges associated with hospitalization, medical procedures, illness, and disability.

## CHILD DEVELOPMENT CONCENTRATION

The Child Development concentration is intended for students who have a broad interest in working with children ranging in age from birth to age eight. The concentration has four major foci: child development, teaching methodology and curriculum development, developmentally appropriate

learning environments for young children, and home-school-community relations. This concentration prepares undergraduates for careers in early childhood education and related fields requiring in depth knowledge of early development and early childhood programs. Students in the Child Development concentration may apply to the Early Childhood Education (ECE) Teacher Preparation Program during their junior year.

### **Child Development: Early Childhood Education (ECE) Teacher Preparation Program**

The Early Childhood Education (ECE) Teacher Preparation program prepares students for a career in teaching young children. Course work for this program is designed to maximize in-classroom mentorship and to provide a broad range of exposure across the pre-kindergarten to 3rd-grade levels. This program within the Child Development concentration of the Human Development and Family Studies Department is approved by the New Hampshire State Board of Education. Juniors in the Child Development concentration who have maintained a minimum overall GPA of 3.2 and a departmental GPA of 3.2 are eligible to apply. Please note that this is a competitive program with limited enrollment. Those accepted into the program must maintain this level of academic achievement throughout the program. Students must be prepared to have their own transportation for off-campus internship placements as needed.

### **A Note about Obtaining State Teacher Certification**

Although students may graduate from UNH with a bachelor's degree in Human Development and Family Studies, having completed the ECE coursework along with all student teaching requirements, they will not be eligible to apply for the New Hampshire State Teaching Certification without the required set of passing test scores. This is a state of New Hampshire requirement; not a condition for graduation from UNH. In order to fulfill a teaching contract with a public-school district, a prospective teacher must be certified by the state in which he/she is to be employed.

### **Early Childhood Education (ECE) Internship Course Descriptions**

The ECE Internship course (HDFS 785 Seminar for Student Teachers) is a fall semester seminar-based course intended to prepare students, as teacher candidates, for the student teaching experience that takes place in the spring semester. This course emphasizes students' continued development as learners, researchers, and collaborators. Discussions and projects focus on the ways in which these three roles are developed within the classroom and school community. Students meet as a cohort in weekly/bi-weekly seminars on campus. Students should expect to spend a minimum of five hours per week in their assigned classroom (60+ hours). Other expectations for this course include but are not limited to: preparing a resume, observing at other sites, attending professional conferences, starting a professional portfolio to document their achievement of professional teaching standards, and completing additional assignments and readings.

HDFS 786 Seminar for Student Teachers and HDFS 788 Student Teaching Young Children: provide the student teaching experience in the spring semester of the senior year. Students should expect to spend a minimum of twenty-five hours per week (a minimum of 325+ hours total) in their assigned classrooms, gradually assuming increasing teaching responsibilities, culminating in the assumption of two to three lead-teaching weeks. Additional hours outside of actual classroom/program operation hours are expected for meeting and planning with cooperating teachers, preparing for teaching, and attending parent conferences and other school functions, as well as attending professional conferences.

Seminars provide continued opportunity for reflection on students' development as teacher candidates, reflecting on classroom practices, identifying teaching strengths and weaknesses, and planning their first professional appointment as teachers of young learners. Students should be prepared to meet weekly after school hours and to complete and present their professional portfolio to faculty and related professionals in the field.

[Back to Top \(p. 252\)](#)

## **FAMILY SUPPORT CONCENTRATION**

The Family Support concentration focuses on individuals, couples, and families within their social and cultural contexts. Students in this concentration develop knowledge and skills that prepare them to work with individuals and families as they support healthy development and well-being in schools, social service agencies, and non-profit organizations.

Students in this concentration can apply for the status of Provisional Certified Family Life Educator (CFLE) through the National Council on Family Relations (NCFR). Because our HDFS program is a CFLE-approved undergraduate academic program through NCFR, our students can become certified simply by demonstrating the completion of our curriculum along with completion of our full-year, senior internship.

### **Family Internship**

Students who plan to apply for Provisional CFLE certification are required to complete the Family Internship, in which students apply knowledge gained from their academic studies in a supervised environment. Students who do not plan to become CFLEs may also choose to complete the Family Internship. The internship involves a commitment of sixteen hours per week for two semesters, in addition to a three-hour seminar (HDFS 792 Family Internship Seminar) every other week. Students apply for the internship by March 1st of their junior year. Internship applicants must have completed a minimum of twenty credits of departmental coursework prior to their senior year with a minimum departmental GPA of 3.0.

### **Certified Family Life Educator**

Students in the Family Support concentration who are accepted to the Family Internship are encouraged to apply for provisional status as a Certified Family Life Educator (CFLE). Family life educators work in a variety of settings including social services, health services, child care, family support, youth programs, parent education, junior and senior high schools, and universities and colleges. The CFLE certification demonstrates expertise in a broad range of topics and increases professional credibility by validating students' education and experience. The National Council on Family Relations (NCFR) has approved the Department of Human Development and Family Studies' Family Support concentration as meeting the standards and criteria required for CFLE certification. Students may apply to NCFR for provisional CFLE designation upon completion of required coursework (see marked courses in the table below.) Upon meeting additional requirements listed on the NCFR website, students can apply for full certification after graduation.

[Back to Top \(p. 252\)](#)

## **LIFESPAN DEVELOPMENT CONCENTRATION**

The Lifespan Development concentration focuses on learning about developmental tasks and developmentally-appropriate practices across

the entire lifespan. Students in this concentration take courses in each of the developmental periods: childhood, adolescence, and adulthood. Students also gain expertise related to the social contexts impacting development, such as families and communities. Emphasis is placed on the impact of system dynamics, family systems, gender, and cultural differences on development. Students in the Lifespan Development concentration may also apply to take part in the [Family Internship program](#) during their senior year.

[Back to Top \(p. 252\)](#)

## Requirements

### Major Requirements

The core curriculum required of each Human Development and Family Studies student is designed to give a broad introduction to individual and family development and interpersonal relationships across the lifespan. Building off this curriculum, each student will select an area of concentration in Child Development, Family Support, or Lifespan Development that will guide further required coursework. With assistance from faculty advisors, students also choose supporting courses that allow them an individualized component to the major, tailored to their specific interests and career objectives. Lastly, the senior year culminates in the required capstone experience and optional internship opportunity.

Candidates for the Human Development and Family Studies degree must satisfy all of the [University Discovery requirements](#) in addition to satisfying the requirements of their HDFS concentration.

### Core Curriculum

Code	Title	Credits
HDFS 525	Human Development	4
HDFS 545	Intimate Relationships and Families	4
One Approved Statistics Course		4
Selected Concentration (Requirements listed below)		24
Capstone experience (Requirement listed by concentration below)		4
Supporting Courses (applies to all concentrations) <sup>1</sup>		20

<sup>1</sup> Supporting courses are intended to provide an individualized component to the HDFS curriculum. Because HDFS is interdisciplinary, this allows students to explore related areas that contribute to their academic and professional goals. A supporting course may be any course, inside or outside of the HDFS department, that is:

1. At the 500-level or above
2. Approved by an HDFS adviser

Any non-required HDFS courses (including internships) may serve as supporting coursework. Other classes meeting supporting course criteria are often found in the psychology, sociology, social work, women's studies, education, and communication sciences and disorders departments.

## Concentrations and Requirements (p. 254)

A supporting course may be any course, inside or outside of the HDFS department, that is:

1. At the 500-level or above
2. Approved by an HDFS advisor

Any non-required HDFS courses (including HDFS internships) may serve as supporting coursework. Other classes meeting supporting course criteria are often found in the psychology, sociology, social work, women's studies, education, and communication sciences and disorders departments.

<sup>3</sup> Required courses for provisional CFLE certification through NCFR. Plus HDFS 525 and HDFS 545.

Students who wish to become CFLEs are required to complete the Family Internship, including HDFS 782 Family Internship and HDFS 792 Family Internship Seminar.

The Certified Family Life Education designation acknowledges the preventive focus of family life education and assures the designate has met or exceeded the high standards and criteria needed to provide quality family life education.

shaped by diverse personal contexts and cultures. Understand and be aware of one's own biases, beliefs, and values.

- Understand ethical decision-making processes, and ethical standards and principles relevant to our discipline. Positively represent the profession in academic, professional and community settings.

## Adolescent and Youth Development Minor

<https://chhs.unh.edu/recreation-management-policy/program/minor/adolescent-youth-development>

### Description

The departments of Recreation Management and Policy and Human Development and Family Studies offer an interdisciplinary minor designed to give students an opportunity to develop knowledge and skills regarding adolescence and youth development. The two required courses offer a foundation in theory, research, and practice, and students choose three additional courses in order to better prepare students to work with this age group.

Interested? Contact one of the Minor Coordinators: [Dr. Cindy Hartman \(cindy.hartman@unh.edu\)](mailto:cindy.hartman@unh.edu) in Recreation Management and Policy or [Dr. Erin Hiley Sharp \(erin.sharp@unh.edu\)](mailto:erin.sharp@unh.edu) in Human Development and Family Studies.

### Requirements

The Adolescent and Youth Development minor requires students to complete 20 credits.

SML 565	Principles of Coaching	4
SW 705	Child and Adolescent Risks and Resiliency: Program, Policy and Practice	4
Other adolescent or youth-based courses as approved by minor coordinator.		

- RMP majors may use [RMP 668](#) Youth Culture and Programs to meet both major and minor requirements.
- The Adolescent and Youth Development Minor follows UNH's policy on minors. Following University policy, students must complete 20 semester hours with a grade of C- or better and a 2.00 grade point average.
- No more than 8 credits used by a student to satisfy major requirements may be used for the minor.
- Students must submit a *Certification of Completion of Minor form* during their final semester to one of the Minor Coordinators: [Dr.](#)

## Student Learning Outcomes

- Use theoretical frameworks and empirical research to understand and explain child/lifespan development, family process and the interaction of individuals and families with society.
- Recognize and respect a diversity of family forms and processes. Understand how human development and family interactions are

Cindy Hartman ([cindy.hartman@unh.edu](mailto:cindy.hartman@unh.edu)) in RMP or Dr. Erin Sharp ([erin.sharp@unh.edu](mailto:erin.sharp@unh.edu)) in HDFS.

## Child Life Minor

<https://chhs.unh.edu/human-development-family-studies/program/minor/child-life>

### Description

The department of Human Development and Family Studies offers a minor in Child Life. The minor introduces undergraduate students to the Child Life profession, which works with children, adolescents, and families facing challenges associated with hospitalization, medical procedures, illness, and disability. You will gain insight on how to support children and their families to effectively cope with the stress and anxiety of hospitalization using developmental play and normalized activities in their environment.

For students who wish to go on to become Child Life Specialists, the full list of UNH approved courses by the Association of Child Life Professionals can be found under HDFS Undergraduate Forms. [Click here to read more about ACLE certification.](#)

The Child Life minor may also be taken by HDFS students.

### Requirements

## Required Courses for Child Life Minor

Code	Title	Credits
HDFS 565	Introduction to Child Life <sup>2</sup>	4
or SW 565	Introduction to Child Life	
HDFS 623	Developmental Perspectives on Infancy and Early Childhood <sup>3</sup>	4
Select three courses from the following:		12
HDFS 624	Developmental Perspectives on Adolescence and Early Adulthood	
HDFS 635	Teaching and Learning in Early Childhood Settings	
HDFS 641	Parenting Across the Life Span <sup>2</sup>	
HDFS 697	Special Topics (Child Life Design and Programing) <sup>2</sup>	
HDFS 697	Special Topics (Learning Through Play)	
HDFS 707	Practicum <sup>1</sup>	
HDFS 709	Child Development Internship <sup>2</sup>	
HDFS 734	Curriculum for Young Children <sup>2</sup>	
NURS 535	Death and Dying <sup>2</sup>	

Note: Only 8 credits can count towards both your major and minor.

<sup>1</sup> Internship under the supervision of a CCLS. Contingent on approval from instructor and securing an internship site.

<sup>2</sup> Approved Child Life Certification course. These courses meet the Association of Child Life Professionals requirements to sit for the Exam. Note: Course work is only part of the ACLP requirements. Please visit the [ACLP Site by clicking here](#) for complete information.

## Human Development and Family Studies Minor

<https://chhs.unh.edu/human-development-family-studies/program/minor/human-development-family-studies>

### Description

The Human Development and Family Studies minor complements undergraduate majors in the social sciences, health professions, and related disciplines by providing students with the opportunity to learn about individual and family development, interpersonal relationships, and the ecological contexts of development.

### Requirements

Code	Title	Credits
HDFS 525	Human Development	4
HDFS 545	Intimate Relationships and Families	4
Select three additional courses chosen in consultation with a departmental adviser		12
<b>Total Credits</b>		<b>20</b>

Individual course grades must be C or above, and the overall grade-point average for the 20 human development and family studies credits must be at least 2.0.

## Interdisciplinary Health

- [Interdisciplinary Health Minor](#) (p. 256)

## Interdisciplinary Health Minor

<https://chhs.unh.edu/kinesiology/program/minor/interdisciplinary-health>

### Description

The Interdisciplinary Health Minor prepares future professionals to approach health and well-being through a culturally-responsive and trauma-informed lens across multiple dimensions of wellness. Students gain the knowledge and skills to promote, support, and affect behavior change in ways that positively impacts the health and well-being of individuals and communities. Those who complete this minor have the ability to apply their knowledge and skills in settings such as schools, before/after-school programs, clinical settings, community health centers, fitness centers, and/or corporate settings.

## Kinesiology (KIN)

The mission of the Department of Kinesiology is to create, share, and apply knowledge in the promotion of health, physical activity, sport, and well-being. We achieve this through high quality teaching and mentoring of our students, conducting scholarly activity, and engaging in community outreach. Our programs purposefully blend theory, research,

and practice to support the professional needs of our students in all stages of their careers.

The department offers five areas of study for majors: athletic training, exercise science, health and physical education, health sciences and sport management and leadership. Candidates for degree requirements in any of the department majors must satisfy all University Discovery Program requirements in addition to satisfying specific program requirements.

<https://chhs.unh.edu/kin>

## Faculty

<https://chhs.unh.edu/kinesiology/faculty-staff-directory>

## Kinesiology Minor

<https://chhs.unh.edu/kinesiology/program/minor/kinesiology>

## Description

The Department of Kinesiology offers an interdisciplinary curriculum for nonmajors, which is designed to provide students with the basic knowledge of human movement and sport sciences. The minor consists of courses offered by several options within the department.

## Requirements

### Kinesiology Minor Requirements

1. Complete a minimum of 20 credits approved by the department minor advisor. Credits towards the minor come from courses in AT, EXSC, HPE, KIN, and/or SML.
2. Must have a C- (or better) in all graded courses. Pass/Fail option may NOT be used. Courses designated Credit/Fail MAY be used.
3. No more than 8 credits may satisfy BOTH major and minor requirements.
4. No more than 6 of the 20 credits may be in activity or coaching courses.

**Please note:** The designation of the completed minor will be "Kinesiology" which means that you *cannot* minor in any of the majors (i.e. athletic training, exercise science, health and physical education or sport management and leadership). *However*, you may create an emphasis by carefully selecting appropriate courses so that anyone looking at your final UNH transcript will be able to see the emphasis.

## Nursing (NURS)

The undergraduate nursing program is nationally accredited by the Commission on Collegiate Nursing Education

Students in the College's Department of Nursing learn about relationship-based care, reflective thinking and clinical decision making while following guidelines for developing safe, quality clinical skills. Nursing students learn from faculty who serve as facilitators and mentors within a supportive, scholarly environment, and as graduates become part of the workforce that will help shape the future of healthcare.

<https://chhs.unh.edu/nursing>

## Programs

- [Nursing Major \(B.S.\)](#) (p. 257)

## Faculty

<https://chhs.unh.edu/directory/all>

## Nursing Major (B.S.)

<https://chhs.unh.edu/nursing/program/bs/nursing-major>

## Description

The nursing program faculty believe learning is a creative process wherein students are active participants in their education, growth, and development as professional nurses. Faculty members are facilitators and mentors to students within a supportive, scholarly environment.

The curricula are divided into biological, social sciences, and humanities as a foundation for courses in the major, and nursing courses, which emphasize relationship-based care, reflective thinking, clinical decision making, and the application of evidence-based guidelines to develop quality and safe clinical skills. Clinical experiences are offered in area health facilities, community health agencies, and a state-of-the-art simulation laboratory. The senior year culminates in a capstone practicum, NURS 721C Integrating Professional Nursing Practice Clinical, in which students apply curricular concepts in a precepted clinical experience. Candidates for the nursing degree must satisfy all of the University Discovery Program requirements in addition to satisfying major requirements. Discovery courses listed below require a C or better in the major.

A grade of C or better in high school chemistry is also required, as well as biology or physics.

Code	Title	Credits
ENGL 401	First-Year Writing	4
BMS 507 & BMS 508	Human Anatomy and Physiology I and Human Anatomy and Physiology II	8
PSYC 401	Introduction to Psychology	4
BMS 501	Microbes in Human Disease	4
<b>Total Credits</b>		<b>20</b>

A course in statistics (HHS 540, PSYC 402, SOC 402, MATH 439) must be completed prior to, or taken concurrent with, nursing research. The statistics course also requires a C or better in the major.

Prerequisite courses require grades of C or better and only one prerequisite course may be repeated one time in order to progress. Most of the prerequisite courses also meet Discovery requirements. Major courses require a minimum grade of C. Nursing courses may not be repeated. A cumulative grade-point average of 2.5 must be maintained throughout the program.

Students are responsible for their own transportation to clinical agencies, uniforms, professional equipment, health insurance coverage, yearly criminal background checks, drug screening, fingerprinting, yearly health assessment, and select immunizations and titers. Students must maintain certification in cardiopulmonary resuscitation at the American Heart Association Basic Life Support for Healthcare Professionals level. All clinical documents must be received by July 1st before the sophomore year, except flu vaccine, which is due by October 15th, and remain up to date until graduation. Clinical documents cannot expire during the academic year; documents that must be submitted yearly must be dated between May 1 and June 30. Students will be assessed a late fee if clinical documents are not received by the due date. Students will be dropped from nursing courses if documentation is not received by the first day of class. Additional costs associated with the program include, but are not limited to, simulation laboratory fees, fees associated with program requirements, and attendance at professional meetings.

### Honors-in-Major Program

The Honors-in-Major Program is offered to interested junior nursing students who achieve a minimum grade-point average of 3.75 in NURS courses and cumulative GPA of 3.4 at the end of the sophomore year in nursing and/or junior nursing students who are members of the University Honors Program. A total of 18 credits taken at the honors level is required for the Honors-in-Major Program. Orientation to the Honors-in-Major Program is held at the beginning of junior nursing year. Students must successfully complete with a grade of B or better 8 additional credits of honors coursework drawn from the following courses:

Code	Title	Credits
Select two courses from the following:		
NURS 612	Care of the Adult with Acute Illness II	4
NURS 627	Clinical Judgment in Nursing	4
NURS 704	Public Health Nursing	4
NURS 705	Contemporary Leadership within Health Care Systems	4

Honors-in-major students must also successfully complete with a grade of B or better:

Code	Title	Credits
NURS 648W	Nursing Honors Seminar I	1-4
NURS 748W	Nursing Honors Thesis I	1
NURS 749W	Nursing Honors Thesis II	4

These self-directed learning experiences, related to the student's interests, are designed to help students acquire advanced knowledge and skills to undertake inquiry or scholarly projects. Students must submit a project description to a faculty adviser at the beginning of the senior year. Students present the results of this study at the Nursing Inquiry Day.

## Student Learning Outcomes

The undergraduate student is prepared to:

- Synthesize core knowledge from the liberal arts, sciences, and nursing as the foundation of professional practice.
- Integrate knowledge and skills to assess, design, implement, and evaluate nursing care in a safe, compassionate, culturally sensitive, evidence-based manner.
- Engage clients, families, and communities in collaborative decision-making incorporating evidence-based knowledge and anticipatory guidance.
- Employ team leadership and collaborative skills with other health professionals to optimize client and system outcomes.
- Recognize the influence of complex health systems on health care practice and advocate for policies that promote a socially just, patient centered healthcare system.
- Engage in scholarly inquiry to identify, evaluate and integrate the best current practice.
- Integrates health promotion, clinical prevention strategies when providing care at the individual or population level.
- Incorporates principles of patient safety and risk mitigation when using healthcare technology and therapeutics in the provision of care.
- Uses effective written, verbal, and nonverbal communication strategies when engaged in professional practice.
- Embrace professional values embodied in the ANA code of ethics.

## Occupational Therapy (OT)

Occupational therapy enables individuals of all ages to engage in everyday activities in the areas of work, self-care, home management, school, and leisure/play. Occupational therapists support people to promote their participation in desired activities in natural contexts. This process often involves working on skill development or adapting tasks or an environment to optimize peoples' ability to fulfill their social roles and engage in activities that are meaningful and support health and well-being. A program of study in occupational therapy includes a foundation in the liberal arts; biological, behavioral, and health sciences; and discipline-specific studies in occupational science and occupational therapy.

The Professional Occupational Therapy Program is accredited by the Accreditation Council for Occupational Therapy Education (ACOTE), located at 6116 Executive Boulevard, Suite 200, North Bethesda, MD 20852-4929. Their phone number is 303-652-AOTA and their website is: [www.acoteonline.org](http://www.acoteonline.org)

Graduates from an accredited program are eligible to sit for the certification examination for the occupational therapist, administered by the National Board for Certification in Occupational Therapy (NBCOT). After successful completion of this exam, the individual will be a registered occupational therapist (OTR). All states require licensure in order to practice, however, state licenses are usually based on the results of the NBCOT certification examination. A felony conviction may affect a person's ability to sit for the NBCOT certification examination and/or obtain licensure.

## Occupational Therapy Major (B.S.)

<https://chhs.unh.edu/occupational-therapy/program/bs/occupational-therapy-major>

## Description

### Bachelor of Science to Advanced MS/OTD Program

The University of New Hampshire Department of Occupational Therapy offers a Bachelor's Degree leading to an entry with Advanced Standing into our MS or OTD program. Students in the Bachelor of Science (BS) program smoothly enter into one of the graduate programs by completing professional level OT courses as part of their BS degree. The BS and MS degree programs are completed in five and half years, while the BS and OTD programs require 6 years with two summer terms. Students declare their intent to graduate with an Advanced Standing MS or an Advanced Standing OTD at the end of their sophomore year. Students may enter the BS program as first-year students or apply to transfer within UNH into the BS program during the fall semester of their sophomore year, space permitting. Students interested in transferring into this program should contact the Department of Occupational Therapy for information about transfer requirements, the application process and deadlines.

Students' academic advisor guides them through a stream-lined application process to enter the Occupational Therapy: Advanced Standing MS or OTD Program during the senior year. Students must have a minimum of a 3.0 grade point average, earned a B- or above in all professional level OT courses (700 level or higher), with no more than 8 credits at B-, pass level I fieldwork, and meet professional behavioral standards, which are detailed in the *OT Department Policy and Procedure Manual*, available to all OT students on the department's learning platform, MyCourses.

The Accreditation Council for Occupational Therapy Education (ACOTE), located at 6116 Executive Boulevard, Suite 200, North Bethesda, MD 20852-4929; telephone: 301-652-AOTA; website: [www.acoteonline.org](http://www.acoteonline.org) grants accreditation to entry level MS and OTD programs in the United States. Our Master's degree program is currently accredited by ACOTE.

The OTD program at the University of New Hampshire has received candidacy for accreditation from the ACOTE. The program must have a pre-accreditation review, complete an onsite evaluation, and be granted Accreditation Status before its graduates will be eligible to sit for the National Certification examination.

After completing the Master's degree or OTD in occupational therapy, including 24 weeks of Level II Fieldwork, students will be eligible to sit for the national certification examination offered by the National Board for Certification in Occupational Therapy (NBCOT), which is required to

practice as an occupational therapist. Detailed information regarding the Occupational Therapy: Advanced Standing MS and OTD Program may be found in the UNH Graduate Catalog. A felony conviction may affect a graduate's ability to sit for the NBCOT certification examination or attain state licensure.

## Requirements

Students begin the BS curriculum with preprofessional courses, which include courses in biological and social sciences as well as occupational therapy. In addition to meeting the University Discovery Program requirements, students take the following courses during the first three years of the program.

## Core Curriculum

Code	Title	Credits
BMS 507	Human Anatomy and Physiology I	4
BMS 508	Human Anatomy and Physiology II	4
OT 500	Behavior and Development of Children	4
OT 501	Developmental Tasks of Adulthood	4
OT 510	Exploring Occupational Therapy and Occupation	4
OT 610	Occupation, Identity, Disability <sup>2</sup>	4
OT 685	Psychosocial Disorders and Everyday Life	4
KIN 652 & KIN 653A	Clinical Kinesiology and Musculoskeletal Assessment	6
KIN 706 & KIN 707	Neurology and Neurology Lab	6
OT 720	Medical Terminology	2
PSYC 401	Introduction to Psychology	4
Select one statistics course from the following:		4
HHS 540	Statistics for Health and Human Service Professionals	
PSYC 402	Statistics in Psychology	
SOC 402	Statistics	
Select one health or social policy course from the following:		4
HDFS 760	Family Programs and Policies	
HDFS 776	Children, Adolescents and the Law	
HDFS 794	Families and the Law	
HMP 401	United States Health Care Systems	
HMP 403	Introduction to Public Health	
HMP 744	Health Ethics and Law	
HMP 746	Health Policy	
POLT 500	American Public Policy	
RMP 663	Management and Finance in the Experience Industry	
SW 525	Social Welfare Policy: History of Social and Economic Justice	
SW 705	Child and Adolescent Risks and Resiliency: Program, Policy and Practice	
<b>Total Credits</b>		<b>54</b>

Details on satisfying these requirements are provided by the student's academic adviser and are outlined in the *OT Department Policy and Procedure Manual*. All students receive an electronic copy of the manual in their first year, and it is also available on the Occupational Therapy Student Resources site on the University learning platform.

Volunteer or work experience in a health and human service organization is recommended, although not required.

## Professional Curriculum

Students in the BS-MS or BS-OTD curriculum with a GPA of 3.0 or higher transition into the professional program and take professional level courses during their undergraduate education. The following courses are required.

Code	Title	Credits
<b>Required Courses BS-MS and BS-OTD</b>		
OT 710	OT Practice and Professional Roles	4
OT 715	Introduction to Group Process: Theory and Application	2
OT 744	Fieldwork and Professionalism - Level I	1
OT 750	Neuro-Occupation: The Relationship Between Occupation and the Brain <sup>1</sup>	3
OT #751	Mind Body Systems/Neurologically Based Function and Dysfunction	4
OT 752 & 752L	Human Movement and Environmental Effects on Everyday Occupations and Human Movement Lab	4
OT 763 & 763L & 763R	Occupational Therapy Evaluation and Intervention for Adults Lab and Occupational Therapy Evaluation and Intervention for Adults Recitation	4
OT 781	Introduction to Research and Evidence-Based Practice	3
OT 782	Research Methods and Application	3
OT 792	Level I Fieldwork	1
Select one of the following:		
OT 730 & 730L	Assistive Technology for Enhancing Occupational Performance and Assistive Technology for Enhancing Occupational Performance Lab	4-5
or OT 771 & 771L	Enabling Participation in Community Groups and Enabling Participation in Community Groups Lab	
Select one of the following:		
OT 760 & 760L & 760R	Psychosocial Evaluation and Intervention and Psychosocial Evaluation and Intervention Lab and Psychosocial Evaluation & Intervention Recitation	4
or OT 762 & 762L & 762R	Occupational Therapy Evaluation and Intervention for Children and Occupational Therapy Evaluation and Intervention for Children Lab and Occupational Therapy Evaluation and Intervention for Children Recitation	
Capstone:		
OT 741	Human Occupation <sup>2</sup>	4
<b>Total credits for BS-MS: 38-39</b>		
<b>Total Credits</b>		<b>41-42</b>

<sup>1</sup> This course is an elective for students advancing to the BS-MS program and a requirement for students advancing to the BS-OTD program. Total credits for BS-MS is 38-39.

<sup>2</sup> This course also fulfills the writing intensive in major course.

Students need to declare their choice for Advanced Standing MS or OTD by the end of their sophomore year. At the end of the senior year, students are awarded a Bachelor of Science Degree in Occupational Therapy. However, students must earn a graduate degree (MS or OTD) to become registered occupational therapists. Students apply to the Graduate School for Occupational Therapy: Advanced Standing MS or the OTD Program during their senior year. An overall minimum grade point of 3.0 is required for admission to the MS Program or OTD program, and students must earn a minimum grade of B- in all OT classes at the 700 level, with no more than 8 credits of B- in OT courses at the 700 level, pass Level I Fieldwork, and meet professional behavior expectations. Please refer to the Graduate Catalog for additional information about the Advanced Standing MS and OTD Programs and the graduate portion of the professional occupational therapy curriculum including Fieldwork Level II requirements.

Students entering as first-year undergraduate students complete both the BS degree and Advanced Standing MS degree in 5.5 academic years (11 semesters and one January-term), including Level II Fieldwork, while those opting for the Advanced Standing OTD will complete the degree in 6 academic years including two summer terms (14 semesters total), including Level II Fieldwork and a Capstone experience. Students completing either of the advanced standing programs will be eligible to sit for the certification examination administered by the National Board of Certification of Occupational Therapists (NBCOT). A felony conviction may affect a student's ability to complete fieldwork, sit for the NBCOT certification examination, and/or obtain state licensure.

Students are responsible for transportation to off-campus practicum and fieldwork locations.

Curriculum review and revision is undertaken annually. The department works closely with students during academic advising sessions and shares information about any policy and requirement changes during registration periods as well as throughout the academic year. Students also are expected to take an active role in verifying expectations and should check with their academic adviser each September for updated policies and requirements. Program requirements and policies for retention in the major are in the *OT Department Policy and Procedure Manual*, which is available online.

## Student Learning Outcomes

Student Learning Outcomes: BS in Occupational Therapy focuses on the study of human participation in life occupations and prepares students for an entry-level graduate degree to become registered occupational therapists. Occupations are the activities that people do every day across the lifespan, including but not limited to self-care, employment, volunteer work, leisure, and play. The aim of the BS program is to prepare students for employment in health services fields, or for graduate study in occupational therapy, or other varied fields and disciplines.

Upon graduation with a BS in OTS degree from UNH, students will:

- Critically evaluate biological, psychosocial, and educational theories that influence human behavior and occupational participation.
- Demonstrate an understanding of the value of human occupation in health and wellness.
- Demonstrate critical appraisal of how disease and disability influences health promotion and occupational well-being.
- Recognize the role of culture, socioeconomic status, abilities, and other factors on occupational performance and participation of all members of society.
- Demonstrate an understanding of concepts of occupational deprivation and occupational justice as related to health and well being for all people.
- Demonstrate competency in information and basic research literacy.
- Demonstrate professional behaviors and skills in written and oral communication.
- Be prepared to apply for graduate study in the field of occupational therapy or other disciplinary area of graduate study.

## Disability Studies Minor

<https://chhs.unh.edu/recreation-management-policy/program/minor/disabilities>

### Description

The minor in Disability Studies gives students the opportunity to explore the meaning, nature and consequences of disability from multiple perspectives. Ways of supporting people with disabilities and their families is addressed including the influences of disability policy, applications of technology, and societal and cultural attitudes and understanding related to persons with disability. This interdisciplinary program introduces topics such as exceptionality, the lived experience of disability and effects of stigma, disability policy, assistive technologies and universal design to enhance function and access, and health and

human services for supporting individuals with disability. Students select from a wide range of electives to support their individual areas of interest. Students may expand career options by combining the minor in Disability Studies with majors such as Education, Occupational Therapy, Recreation Management and Policy, Psychology, Human Development and Family Studies, Communication Sciences and Disorders, Kinesiology, and Social Work.

When you minor in Disability Studies at UNH, depending on how you design your program and your course selection, you may work collaboratively with faculty from the Departments of Occupational Therapy, Recreation Management and Policy, Communication Sciences and Disorders, Social Work, Nutrition, Kinesiology, Human Development and Family Studies, and Education. You'll also have the option of pursuing a faculty sponsored independent study or a small-scale research project.

## Requirements

Code	Title	Credits
<b>Required Course</b>		
One of the following courses is required from the student's major or any other disability related intensive course outside of the major with permission:		
OT 610	Occupation, Identity, Disability	4
OT 685	Psychosocial Disorders and Everyday Life	4
EDUC 650	Introduction to Disability in Inclusive Schools and Communities <sup>2</sup>	4
RMP 501	Recreation Services for Individuals with Disabilities	4
SW 712	Understanding Developmental Disabilities	4
<b>Electives</b>		
Select 16 credits from the course list below. Note that any of the courses in the required course list above may be used as an elective course if not taken as the required course		
OT 444	Living and Doing with Technology	4
INTR 438	A Socio-cultural Perspective on the Deaf Community	4
NUTR 740	Nutrition for Children with Special Needs	4
OT 730	Assistive Technology for Enhancing Occupational Performance	3
OT 733	Assistive Technology for Physical Access I: Electronic Technologies	2
OT 734	Assistive Technology for Physical Access II: Mobility, Seating, and Transportation	2
OT 735	Assistive Technology for Communication and Cognition	2
OT 736	Assistive Technology for Vision and Hearing	2
OT 520	Happy and Healthy at Work: Promoting Wellness, Diversity and Inclusion	4
HMG 520	Happy and Healthy at Work: Promoting Wellness, Diversity and Inclusion	4
EDUC 760	Introduction to Young Children with Special Needs	4
RMP 444A	Taking the "Dis" out of Disability	4
RMP 720	Adaptive Sport Facilitation for Recreation Therapy and Related Professions	4
SW 704	Adolescents with Emotional and Behavioral Challenges	4
HPE 781	Inclusion in Physical Education	4

SW, OT, EDUC, KIN, NUTR, RMP Independent Study with a disability focus <sup>1</sup>

- <sup>1</sup> The purpose of the independent study is to explore a topic that provides a detailed focus on an important issue related to individuals with disabilities. A student may also choose to engage in a small-scale research project to investigate an issue that affects individuals with disabilities. Each project will be negotiated with the student's departmental faculty adviser and the coordinator of the minor program.
- <sup>2</sup> Prerequisite courses EDUC 500 Exploring Teaching and EDUC 402 Introduction to Educational Studies: Social Change and Education in Local and Global Contexts are waived with permission for students in non-education majors.

Please note: Additional elective courses may be added in the future as deemed appropriate and approved by disabilities studies coordinator.

Also note: Students must achieve C- or better and a 2.00 grade-point average in courses that the minor department approves. Courses taken

on a pass/fail basis may not be used for a minor. No more than 8 credits used to satisfy major requirements may be used for a minor. There is no limit on the number of overlapping credits allowed between minors. Students should declare the intent to earn a minor as early as possible and no later than the end of the junior year. During the final term, an application should be made to the dean to have the minor show on the academic record.

## Recreation Management and Policy (RMP)

As the fabric of life in contemporary society grows in complexity, people are increasingly turning to leisure and recreation services to find meaning, renewal, and enrichment. Recreation services can improve public health and wellness, promote sustainable environments, develop a sense of community, and enhance the quality of life of all citizens. Recreation professionals work in diverse settings, including human services, health care, natural recreation resource areas such as parks, wilderness programs, and commercial recreation businesses. Population and economic projections suggest that recreation service industries will continue to expand and thereby continue to provide numerous professional career opportunities.

The Department of Recreation Management and Policy maintains three national accreditations. Our core is nationally accredited by the Council on Accreditation of Parks, Recreation, Tourism, and Related Professions (COAPRT). Our OLM option is accredited by the Association for Experiential Education (AEE). Further, our therapeutic recreation option is accredited by the Committee on Accreditation of Recreational Therapy Education (CARTE). CARTE is an approved accreditation program under the Commission on Accreditation of Allied Health Education Programs (CAAHEP). The Department's curriculum supports a broad-based education and an opportunity to acquire specialized professional knowledge and skills. Graduates are employed in a broad range of settings, such as community recreation agencies, resorts, conference centers, youth services agencies, state or national parks, government agencies, universities, hospitals, rehabilitation centers, and long-term care facilities.

## Curriculum Structure

Students entering the major may choose an option in Outdoor Leadership and Management ("OLM"), Program and Event Management ("PEM"), or Therapeutic Recreation ("TR"). The options include the professional core and required courses. Candidates for a degree in Recreation Management and Policy must satisfy all of the University Discovery Program requirements in addition to satisfying the requirements of each individual major option.

## Professional Internship

A supervised internship (RMP 764 Internship) is required of all majors and serves as their **major capstone requirement**. The internship is designed to create a bridge between theory and practical application. Students, working with their advisers and the internship coordinator, select an appropriate setting based on their professional and career interests. They must register for an 8 or 12 credit full-time internship that ranges from 10 to 16 weeks and is under the supervision of a qualified professional. Specific requirements are identified in the *Internship Manual* available from the Department of Recreation Management and Policy.

## Declaring a Major

First-year students entering UNH who wish to apply to the Bachelor of Science (B.S.) program in Recreation Management and Policy with an option in Outdoor Leadership and Management, Program and Event Management, or Therapeutic Recreation should contact the [Office of Admissions](#). The admissions web site contains complete campus visit information and an online visitor registration. It also contains admission criteria and important dates, as well as an online application form.

## How to apply for students transferring from within UNH

**Outdoor Leadership and Management:** UNH's outdoor leadership and management program prepares students for dynamic careers in outdoor education, adventure programming, outdoor recreation management, parks and protected areas management, youth and after-school programming, and conservation. Our curriculum combines experiential learning in urban, rural and backcountry landscapes with a classic liberal arts education. You'll gain a solid foundation in the theories, philosophies and methods of outdoor recreation leadership and management while gaining skills in outdoor activities such as climbing, canoeing and backpacking. Admission decisions are made after the student completes the [online internal transfer application](#) process and has a meeting with the OLM option coordinator. If you have questions about the program and event management option, please contact [Nate Fitch](#) ([nate.fitch@unh.edu](mailto:nate.fitch@unh.edu)). OLM applications are accepted throughout the year and decisions are made on a rolling admission basis.

**Program and Event Management:** This option prepares students for supervisory or middle management positions and emphasizes planning, leadership, and administrative concepts in settings such as youth sport organizations, recreation resource management, business and entrepreneurial recreation, municipal recreation, campus recreation, residential communities, festivals and events planning, employee services recreation, recreational sports agencies, youth service agencies, and resorts. Admission decisions are made after the student completes the [online internal transfer application](#) process and has a meeting with the PEM option coordinator. If you have questions about the program and event management option, please contact [Sean McLaughlin](#) ([sean.mclaughlin@unh.edu](mailto:sean.mclaughlin@unh.edu)). PEM applications are accepted throughout the year and decisions are made on a rolling admission basis.

**Therapeutic Recreation:** The Therapeutic Recreation option prepares students for work primarily in clinical, allied health facilities such as hospitals, rehabilitation centers, mental health programs, and extended care facilities as well as inclusive community recreation programs. Admission decisions are based upon the content of the online application as well as a personal interview with the therapeutic recreation option coordinator. Students must have a minimum cumulative grade point average of 2.75 to be considered for admission into the major and it is highly recommended that students have completed or are enrolled in BMS 507 Human Anatomy and Physiology I or BMS 508 Human Anatomy and Physiology II at the time of application. If you have questions about the therapeutic recreation option, please contact [Matt Frye](#) ([matt.frye@unh.edu](mailto:matt.frye@unh.edu)).

To apply, we ask students to go through a short informational meeting with the TR Option Coordinator [Matt Frye](#) ([matt.frye@unh.edu](mailto:matt.frye@unh.edu)) prior to completing the [online internal transfer application](#). TR applications are accepted throughout the year and decisions are made on a rolling admission basis.

## Recreation Management and Policy Major: Outdoor Leadership and Management Option (B.S.)

<https://chhs.unh.edu/recreation-management-policy/program/bs/recreation-management-policy-major-outdoor-leadership-management-option>

## Description

UNH's Outdoor Leadership and Management (OLM) Program is designed for students who want to study and work in outdoor programs, parks, and public or commercial recreation settings. Our graduates are guides, leaders, directors, and managers of agencies that provide healthy outdoor activities for people across their lifespan. Our curriculum combines experiential learning in urban, rural, and backcountry landscapes with a classic liberal arts education. You'll gain a solid foundation in the theories, philosophies, and methods of outdoor recreation leadership and management while gaining skills in outdoor activities, pursuits or disciplines such as climbing, canoeing, and backpacking. This program will prepare you for dynamic careers in outdoor education, adventure programming, outdoor recreation management, parks and protected areas management, youth and after-school programming, conservation, and other outdoor fields.

## Requirements

### Outdoor Leadership and Management Option Course Requirements:

Code	Title	Credits
<b>RMP Shared Core (24 credits)</b>		
RMP 490	Recreation & Tourism in Society	4
RMP 501	Recreation Services for Individuals with Disabilities	4
RMP 557	Program and Event Design	4
RMP 563	Recreation Management and Policy Practicum	2
RMP 654	Professional Development and Ethics	2
RMP 764	Internship	8

OLM Option Core (22 credits)		
RMP 411	Applied Recreation Risk Management	2
OUT 681	Foundations of Adventure Education	4
OUT 686	Wilderness Emergency Medical Care	4
RMP 711	Recreation Resource Management	4
RMP 772	Law and Public Policy in Leisure Services	4
RMP 776	Human Dimensions of Natural Environments	4
<b>Leadership or Management course - select one of the following:</b>		<b>4</b>
OUT 682	Experiential Teaching and Leadership	
RMP 661	Leadership in Recreation Services	
RMP 670	Venue Management Design & Operations	
<b>Field Leadership - select at least 2 of the following:</b>		<b>8</b>
OUT 540	Top Rope Rock Climbing	
OUT 551	Adventure Programming: Backcountry Based Experience	
OUT 552	Adventure Programming: Water Based Experiences	
<b>Electives minimum 10 credits (at least 4 credits of which must be selected from 2 credit outdoor LAP courses):</b>		<b>10</b>
Field Leadership course (OUT 540, OUT 551, OUT 552 not selected above can be selected as an Elective)		
LAP 501	Lifetime Activity Program (Select any applicable LAP course.)	
OUT 539	Artificial Climbing Wall Management	
OUT 541	Management of Challenge Courses	
OUT #542	Sea Kayaking	
OUT 543	Winter Adventure Programming	
OUT 545	High Angle Rescue	
OUT 546	Whitewater Canoeing	
OUT 547	Lead Rock Climbing	
OUT 549	Wilderness Navigation	
RMP 603	New Hampshire Ski Industry Management	
RMP 668	Youth Culture and Programs	
RMP 775	Entrepreneurial and Commercial Recreation	
Total Credits		68

### Professional Internship

A supervised internship (RMP 764) is required of all majors and serves as their **major capstone requirement**. The internship is designed to create a bridge between theory and practical application. Students, working with their advisers and the internship coordinator, select an appropriate setting based on their professional and career interests. They must register for an **8 credit or 12 credit, 400 hour internship** that is under the supervision of a qualified professional. Specific requirements are identified in the *Internship Manual* available from the Department of Recreation Management and Policy.

## Student Learning Outcomes

- Students will know and demonstrate the nature and scope of the outdoor industry, including outdoor education, adventure leadership, and parks and protected-areas management.
- Students will know and demonstrate the techniques and processes used by professionals and staff in the outdoor industry.
- Students will know and demonstrate the foundation of the outdoor industry in history, science, and philosophy.
- Students will be able to demonstrate the ability to design, implement, and evaluate services that facilitate targeted human experiences and that embrace personal and cultural dimensions of diversity in outdoor settings.
- Students will demonstrate entry-level knowledge about operations, strategic management, and administration in the outdoor industry.
- Students will demonstrate the potential to succeed as professionals at supervisory or higher levels in the outdoor industry through participation in structured practicum and internship experiences.

## Recreation Management and Policy Major: Program and Event Management Option (B.S.)

<https://chhs.unh.edu/recreation-management-policy/program/bs/recreation-management-policy-major-program-event-management-option>

### Description

This option prepares students for managerial positions in commercial, public, and nonprofit organizations that provide recreation and leisure services. Curriculum design emphasizes the effective and efficient planning, delivery, and evaluation of leisure-based programs, services, and enterprises. Applied experience is a component of most courses, in addition to a required practicum and the 10-16 week full-time internship under professional supervision. Depending upon the RMP electives and the career support emphasis or minor chosen, students may expect to find employment in a broad range of settings. Recent graduates have found employment in the areas of conference and event planning, municipal park and recreation services, recreational sports, commercial and entrepreneurial recreation businesses, youth-serving agencies, resorts, camps, and natural resource management positions in state and federal agencies.

### Requirements

## Core Requirements

All majors must complete a core curriculum of seven courses.

Code	Title	Credits
RMP 490	Recreation & Tourism in Society <sup>1</sup>	4
RMP 501	Recreation Services for Individuals with Disabilities	4
RMP 557	Program and Event Design	4
RMP 563	Recreation Management and Policy Practicum	2
RMP 654	Professional Development and Ethics	2
RMP 724	Research, Evaluation, and Data-Driven Decisions	4
RMP 764	Internship <sup>2</sup>	8-12

<sup>1</sup> RMP majors cannot count RMP 490 Recreation & Tourism in Society toward the University Social Sciences requirement.

<sup>2</sup> All RMP students must complete an 8 or 12 credit hour internship.

## Program and Event Management Option - Course Requirements:

Code	Title	Credits
RMP 559	Marketing the Recreation Experience	4
RMP 661	Leadership in Recreation Services	4
RMP 663	Management and Finance in the Experience Industry	4
RMP 772	Law and Public Policy in Leisure Services	4
<b>Statistics - select one of the following:</b>		<b>4</b>
PSYC 402	Statistics in Psychology	
SOC 402	Statistics	
MATH 439	Statistical Discovery for Everyone	
ADMN 510	Business Statistics	
<b>Community Recreation &amp; Sport - Career Support Electives - select two of the following: <sup>1</sup></b>		<b>8</b>
RMP 560	Recreational Sport Management	
RMP 668	Youth Culture and Programs	
RMP 670	Venue Management Design & Operations	
<b>Event Planning, Tourism &amp; Commercial Recreation - Career Support Electives - select two of the following: <sup>1</sup></b>		<b>8</b>

RMP 603	New Hampshire Ski Industry Management
RMP 680	Festival and Event Planning
RMP 775	Entrepreneurial and Commercial Recreation
RMP 780	Event and Experience Design
<b>Emphasis or Minor requirement</b>	
<b>18-20</b>	
Emphasis (minimum of 18 credits) or Minor (18-20 credits) with C- or better, approved by their advisor.	
<b>Total Credits</b>	
<b>84-92</b>	

<sup>1</sup> RMP courses completed to fulfill the elective course requirement may not be used to fulfill the emphasis area requirement; unless prior approval from the student's academic advisor is granted.

## Professional Internship

A supervised internship (RMP 764) is required of all majors and serves as their **major capstone requirement**. The internship is designed to create a bridge between theory and practical application. Students, working with their advisers and the internship coordinator, select an appropriate setting based on their professional and career interests. They must register for an **8 or 12 credit full-time internship** that ranges from 10 to 16 weeks and is under the supervision of a qualified professional. Specific requirements are identified in the *Internship Manual* available from the Department of Recreation Management and Policy.

## Student Learning Outcomes

- Students will know and demonstrate the nature and scope of the recreation, events, and tourism profession and their associated industries.
- Students will know and demonstrate the techniques and processes used by professionals and staff in the recreation, events, and tourism industry.
- Students will know and demonstrate the foundation of the recreation, events, and tourism profession in history, science, and philosophy.
- Students will demonstrate the ability to design, implement, and evaluate services that facilitate targeted human experiences and that embrace personal and cultural dimensions of diversity.
- Students will demonstrate knowledge about operations, strategic management, and administration in recreation, events, and tourism organizations.
- Students will demonstrate the potential to succeed as professionals at supervisory or higher levels in recreation, events, tourism, or related organizations through participation in structured practicum and internship experiences.

## Recreation Management and Policy Major: Therapeutic Recreation Option (B.S.)

<https://chhs.unh.edu/rmp/therapeutic-recreation-bs>

### Description

Therapeutic recreation utilizes recreation to assist people with disabilities or illnesses to develop and use their leisure in ways that enhance health, independence, and well-being. Therapeutic recreation recognizes the importance of quality of life and uses activities to remediate or rehabilitate functional abilities. Therapeutic recreation services are provided in a variety of settings, including hospitals, long-term care

facilities, residential treatment facilities, schools, home health care, community recreation, correctional facilities, rehabilitation centers, camp and outdoor education centers, and adult day programs. Observation and applied experience is a component of several courses. Students complete a 14-16-week full-time clinical internship under the supervision of a certified therapeutic recreation specialist (CTRS). The Bureau of Labor Statistics occupational outlook reports the "employment of recreational therapists is projected to grow 8 percent from 2019 to 2029, which is much faster than the average for all occupations. As the large baby-boom generation ages, they will need recreational therapists to help treat age-related injuries and illnesses, such as strokes. Recreational therapists will also be needed to help patients manage chronic conditions such as diabetes and obesity (Bureau of Labor Statistics). A CNN Money report identifies recreation therapy among the top ten "best jobs for saving the world." In particular, they note the profession's high benefit to society and high personal job satisfaction (CNN Money Magazine). On the job front, interested readers may also wish to review an article on Recreational Therapy published on Monster.com at <https://www.monster.com/career-advice/article/recreational-therapists-help-patients-play-to-win-0615> (2015).

Upon successful completion of this option, students are prepared to meet sitting requirements for the National Council for Therapeutic Recreation Certification Examination. Students/graduates who pass the NCTRC exam and attain the CTRS are eligible to seek licensure to practice in the state of New Hampshire.

Students may be required to submit to a criminal background check.

## Requirements

### Core Requirements

All majors must complete a core curriculum of seven courses.

Code	Title	Credits
RMP 490	Recreation & Tourism in Society <sup>1</sup>	4
RMP 501	Recreation Services for Individuals with Disabilities	4
RMP 557	Program and Event Design	4
RMP 563	Recreation Management and Policy Practicum	2
RMP 654	Professional Development and Ethics	2
RMP 724	Research, Evaluation, and Data-Driven Decisions	4
RMP 764	Internship <sup>2</sup>	8-12

<sup>1</sup> RMP majors cannot count RMP 490 Recreation & Tourism in Society toward the University Social Sciences requirement.

<sup>2</sup> All RMP students must complete an 8 or 12 credit hour internship.

### Therapeutic Recreation Option Course Requirements:

Code	Title	Credits
RMP 500	Therapeutic Recreation Methods in Physical Rehabilitation Settings	1
RMP 502	Foundations of Therapeutic Recreation	4
RMP 503	Therapeutic Recreation Rehabilitation Principles & Interventions	4
RMP 504	Therapeutic Recreation Mental Health Principles and Interventions	4
RMP 505	Therapeutic Recreation: Aging Services Principles & Interventions	4
RMP 612	Therapeutic Communication and Facilitation Techniques in Therapeutic Recreation	4
RMP 613	Interventions and Documentation in Therapeutic Recreation	3
RMP 614	Assessment and Treatment Planning in Therapeutic Recreation	4
RMP 615	Clinical Lab in Therapeutic Recreation	2
RMP 663	Management and Finance in the Experience Industry	4

TR Elective: Select one of the following <sup>3</sup>		4
RMP 720	Adaptive Sport Facilitation for Recreation Therapy and Related Professions	
RMP 740	Therapeutic Recreation Service Delivery in Community Settings	
Required Support Courses		
BMS 507	Human Anatomy and Physiology I	4
BMS 508	Human Anatomy and Physiology II	4
HDFS 525	Human Development	4
PSYC 561	Abnormal Behavior	4
Statistics - Select one of the following:		
PSYC 402	Statistics in Psychology	4
SOC 402	Statistics	
Total Credits		92-94

<sup>3</sup> Or other TR related courses as approved by Academic Advisor.

### Professional Internship

A supervised internship RMP 764 is required of all majors and serves as their **major capstone requirement**. The internship is designed to create a bridge between theory and practical application. Students, working with their advisers and the internship coordinator, select an appropriate setting based on their professional and career interests. They must register for an **8 or 12 credit full-time internship** that ranges from 14 to 16 weeks and is under the supervision of a Certified Therapeutic Recreation Specialist. Specific requirements are identified in the *Internship Manual* available from the Department of Recreation Management and Policy.

## Student Learning Outcomes

- Students will integrate an understanding of history, service models, theory/philosophy, ethics, credentials, professional conduct, evidence-based practice and professional development with Recreational Therapy (RT) practice.
- Students will develop competence to individually screen, assess and systematically collect comprehensive and accurate data about patients/clients in an efficient and effective manner and to analyze the data collected to determine the course of actions subsequent to an individualized treatment/program plan.
- Students will develop competence in the planning and development of individualized treatment plans that identify functional outcome goals, modalities, facilitation techniques and interventions based on assessment data collected and evidence regarding the diagnosis and treatment of specific medical, psychiatric and other disabling conditions.
- Students will know how to use structured, systematic and evidence-based treatment interventions and facilitation techniques to improve patient/client functioning and independence in life activities.
- Students will develop competence to implement the individualized treatment/program plan using appropriate evidence-based treatment interventions and programs to restore, remediate, or rehabilitate patient/client functioning as well as to reduce or eliminate the limitations to participation in life activities resulting from medical, psychiatric or other disabling conditions.
- Students will acquire specific modality/skills and facilitation techniques used as treatment interventions in Recreational Therapy practice.
- Students will systematically conduct evaluation and research to determine the effectiveness of treatment interventions and programs used to reach patient/client outcomes.

- Students will develop the competencies to manage a Recreational Therapy practice, department, and staff.
- Students will develop an understanding of human anatomy and physiology, growth/development, psychology, functioning in life activities and an understanding of health care services to serve as a foundation for Recreational Therapy practice.
- Students will develop entry-level clinical proficiency and professional behavior through field-based clinical opportunities in accordance with professional standards of practice in Recreational Therapy

## Adolescent and Youth Development Minor

<https://chhs.unh.edu/recreation-management-policy/program/minor/adolescent-youth-development>

### Description

The departments of Recreation Management and Policy and Human Development and Family Studies offer an interdisciplinary minor designed to give students an opportunity to develop knowledge and skills regarding adolescence and youth development. The two required courses offer a foundation in theory, research, and practice, and students choose three additional courses in order to better prepare students to work with this age group.

Interested? Contact one of the Minor Coordinators: [Dr. Cindy Hartman \(cindy.hartman@unh.edu\)](mailto:cindy.hartman@unh.edu) in Recreation Management and Policy or [Dr. Erin Hiley Sharp \(erin.sharp@unh.edu\)](mailto:erin.sharp@unh.edu) in Human Development and Family Studies.

### Requirements

The Adolescent and Youth Development minor requires students to complete 20 credits.

Code	Title	Credits
<b>Two (2) Required Courses:</b>		
RMP 668	Youth Culture and Programs	4
HDFS 624	Developmental Perspectives on Adolescence and Early Adulthood	4
<b>Select three supporting courses (12 credits) approved by a minor advisor.</b>		
EDUC 556	Peer to Peer Mentoring for Students with Disabilities	2
EDUC #717	Growing up Male in America	4
HDFS 444A	Children at Risk	4
HDFS 707	Practicum	1-6
HDFS 776	Children, Adolescents and the Law	4
RMP 563	Recreation Management and Policy Practicum	2
RMP 560	Recreational Sport Management	4
SOC 525	Juvenile Crime and Delinquency	4
CMN 714	Youth and Media	4
SML 565	Principles of Coaching	4
SW 705	Child and Adolescent Risks and Resiliency: Program, Policy and Practice	4
Other adolescent or youth-based courses as approved by minor coordinator.		

- RMP majors may use [RMP 668](#) Youth Culture and Programs to meet both major and minor requirements.
- The Adolescent and Youth Development Minor follows UNH's policy on minors. Following University policy, students must complete 20 semester hours with a grade of C- or better and a 2.00 grade point average.

- No more than 8 credits used by a student to satisfy major requirements may be used for the minor.
- Students must submit a *Certification of Completion of Minor form* during their final semester to one of the Minor Coordinators: Dr. Cindy Hartman ([cindy.hartman@unh.edu](mailto:cindy.hartman@unh.edu)) in RMP or Dr. Erin Sharp ([erin.sharp@unh.edu](mailto:erin.sharp@unh.edu)) in HDFS.

## Outdoor Adventure Recreation Minor

<https://chhs.unh.edu/recreation-management-policy/program/minor/outdoor-adventure-recreation>

### Description

The purpose of the minor in Outdoor Recreation Management is to complement major courses of study that prepare students for professional fields that work in outdoor environments across human service, natural resources, educational, or recreation sectors. It will provide an orientation to the technical, risk management, and leadership skills required for personal preparedness and program organization involving backcountry and facilities-based adventure activities. In addition, the minor seeks to improve the standards for fieldwork in professional fields that use the outdoors by offering high-quality training that employs current risk management principles that govern engagement in outdoor activities.

#### Program Objectives:

- Provide the highest quality professional preparation in outdoor technical skills
- Surpass national standards so students can pursue certifications if desired
- Cultivate life-long learners who are motivated to seek continuous improvement
- Improve quality and help to reduce risks across professional fields that depend on a common skillset
- Expand participation in outdoor activities both on campus and in public and private sectors
- Enhance the experiences of future participants by emphasizing best practices that validate a range of life experiences, identities, and goals

### Requirements

## Minor Requirements

Code	Title	Credits
<b>Three required courses:</b>		<b>12</b>
OUT/RMP 515	History of Outdoor Pursuits in North America	
or RMP 511	Issues of Wilderness and Nature in American Society	
Select two courses from the following:		
OUT 540	Top Rope Rock Climbing	
OUT 551	Adventure Programming: Backcountry Based Experience	
OUT 552	Adventure Programming: Water Based Experiences	
<b>Electives - Select at least 8 credits from the following:</b>		<b>8</b>
RMP 603	New Hampshire Ski Industry Management	
RMP 670	Venue Management Design & Operations	
RMP 711	Recreation Resource Management	
RMP 775	Entrepreneurial and Commercial Recreation	
RMP 776	Human Dimensions of Natural Environments	
OUT 539	Artificial Climbing Wall Management	
OUT #542	Sea Kayaking	

OUT 543	Winter Adventure Programming	
OUT 545	High Angle Rescue	
OUT 546	Whitewater Canoeing	
OUT 547	Lead Rock Climbing	
OUT 549	Wilderness Navigation	
OUT 681	Foundations of Adventure Education	
LAP 501	Lifetime Activity Program (Select from the following course sections: F- snowshoeing and hiking, G-fly fishing, I-standup paddleboarding, J-indoor rock climbing, K-introduction to canoeing)	
<b>Total Credits</b>		<b>20</b>

Following University policy, you must complete 20 semester hours with a grade of C- or better. At the beginning of his/her **final** semester, students must complete and submit a Certification of Completion of Minor form to their college dean's office.

## Recreation Management Minor

### Description

The recreation industry is a broad field including festival and event planning, non-profit administration, travel and tourism, sport, municipal recreation, and outdoor recreation. This industry is experiencing worldwide growth which is opening up tremendous workforce opportunities. The primary goal of the recreation management minor is to provide a basic understanding of the recreation industry and the variety of careers associated with this industry for students interested in staying on their existing academic pathway. The required core course for this minor, RMP 490 Recreation & Tourism in Society, provides a comprehensive overview of the recreation industry. Students will select four additional elective courses from a list of offerings that lend themselves to specific areas of knowledge and interest. In total, five courses (18-20 credits) will be required to complete this minor.

### Requirements

The minor requires students to complete 18-20 credits.

Code	Title	Credits
<b>Required Course</b>		
RMP 490	Recreation & Tourism in Society	4
<b>Electives</b>		
Select 4 courses from the following:		
RMP 501	Recreation Services for Individuals with Disabilities	4
RMP 557	Program and Event Design	4
RMP 560	Recreational Sport Management	4
RMP 603	New Hampshire Ski Industry Management	4
RMP 668	Youth Culture and Programs	4
RMP 670	Venue Management Design & Operations	4
RMP 680	Festival and Event Planning	4
RMP 711	Recreation Resource Management	4
RMP 720	Adaptive Sport Facilitation for Recreation Therapy and Related Professions	4
RMP 775	Entrepreneurial and Commercial Recreation	4
RMP 780	Event and Experience Design	4
LAP 501	Lifetime Activity Program (may be repeated for up to 4 credits)	2
<b>Suggested Areas of Emphasis (for 4 Electives)</b>		
<b>Event Planning</b>		
RMP 557	Program and Event Design	4
RMP 670	Venue Management Design & Operations	4
RMP 680	Festival and Event Planning	4
RMP 780	Event and Experience Design	4
<b>Community Recreation &amp; Sport</b>		
RMP 501	Recreation Services for Individuals with Disabilities	4
RMP 557	Program and Event Design	4

RMP 560	Recreational Sport Management	4
RMP 668	Youth Culture and Programs	4
Commercial Recreation		
RMP 603	New Hampshire Ski Industry Management	4
RMP 670	Venue Management Design & Operations	4
RMP 711	Recreation Resource Management	4
RMP 775	Entrepreneurial and Commercial Recreation	4

## Social Work (SW)

The Department of Social Work's undergraduate program is accredited by the Council on Social Work Education (CSWE) and must meet rigorous academic standards to retain this accreditation. Social work majors pursue a program that encompasses the professional social work competencies of professional identity, critical thinking, knowledge of diversity and human rights, social, environmental and economic justice, social welfare policy and services, social work practice with all client system sizes, human behavior in the social environment, research, and ethics.

According to the National Association of Social Workers (NASW), "The social work profession provides ethical, practical, and compassionate leadership to help people confront and resolve personal and social challenges" through their work with individuals, families, small groups, organizations, and communities. All social work majors complete a field internship under the direction of a qualified supervisor.

<https://chhs.unh.edu/sw>

## Social Work Major (B.S.)

<https://chhs.unh.edu/social-work/program/bs/social-work-major>

### Description

The Department of Social Work's undergraduate program is accredited by the Council on Social Work Education (CSWE) and must meet rigorous academic standards to retain this accreditation.

The Department of Social Work's undergraduate program offers both a major and a minor in social work. It is a specialized degree that prepares graduates for generalist social work practice with a solid foundation in the liberal arts and in the knowledge, skills, and value base of social work. Through the mastery of core competencies, social work graduates apply their education working with individuals, families, groups, organizations, and communities. In addition, the program prepares qualified students to pursue graduate education in schools of social work and related fields.

To connect the theoretical and conceptual content of the classroom with the practice world, students must complete:

- 40 hours of human service in an approved agency/program setting by the end of the semester when they apply to the field. Twenty of the forty hours must be in the same agency/program. The remaining hours may be across multiple sites/programs. This experience may be paid or volunteer and must be pre-approved by the student's faculty adviser. The service hours must be completed post high school and by the end of the semester when to field applications are due.
- Students complete a 450-hour internship over two semesters during the senior year. This is the senior capstone experience. The field placement in the final year of the baccalaureate program is arranged between the student and the field education coordinator. In compliance with CSWE accreditation standards, the B.S. in social work program does not grant social work course credit for life or work experience.

Social work majors earn a B.S. degree in social work. Graduates are eligible for practice in a variety of social work settings throughout the United States. In preparation for graduate school, the program offers an Accelerated Masters that qualified students can consider applying for their junior year. In addition, qualified graduates are eligible to apply for advanced standing in M.S.W. programs that offer advanced standing. Depending upon the program, this can mean earning the M.S.W. in one calendar year versus two academic years.

## Requirements

### Academic Program

Candidates for a degree must satisfy all of the University Discovery Program requirements in addition to satisfying the requirements of the social work major. Social work majors are required to take:

Code	Title	Credits
<b>Required Courses</b>		
SW 424	Introduction to Social Work	4
SW 525	Social Welfare Policy: History of Social and Economic Justice	4
SW 550	Human Behavior and Social Environment I	4
SW 551	Human Behavior and Social Environment II	4
SW 601	Research Methods in Social Work	4
SW 622	Social Work Practice: Interventions with Individuals and Families	4
SW 623	Social Work Practice: Interventions with Groups, Organizations and Communities	4
SW 625	Social Welfare Policy in a Global Context	4
SW 630	Race Equity in Health and Human Services	4
<b>Category I: Anthropology &amp; Sociology</b>		
Select one course from the following:		4
ANTH 411	Global Perspectives on the Human Condition: An Introduction to Anthropology	
ANTH 500	Peoples and Cultures of the World	
SOC 400	Introductory Sociology	
SOC 515	Introductory Criminology	
SOC 520	Family	
SOC 525	Juvenile Crime and Delinquency	
SOC 535	Homicide	
<b>Category II: Human Biology Requirement</b>		
Select one course from the following:		4
ZOOL 401	Human Biology	
BMS 507	Human Anatomy and Physiology I	
BMS 508	Human Anatomy and Physiology II	
<b>Category III: Diversity Requirement (1)</b>		
Select one of the following		4
ANTH #450	Introduction to Race, Culture, and Power	
ANTH 625	Sexuality in Cross-Cultural Perspectives	
CMN 567	Gender, Race, and Class in the Media	
ENGL 549	In the Groove: African American Music as Literature	
ENGL 550	Introduction to the Literature and Culture of Race	

GERO 500	I'm Old, So What! An introduction to aging in the United States
HIST 440A	Martin Luther King, Jr., and the Struggle for Racial Justice
HIST 505	African American History
HIST #506	African American History
HIST 532	Modern Latin America
INCO 505A	Semester in the City Becoming a Problem Solver
PHIL 510	Philosophy and Feminism
RMP 444A	Taking the "Dis" out of Disability
SOC 645	Class, Status and Power
SOC 745	Race, Ethnicity, and Inequality
SW 650	Exploring Social Justice and Cultural Competency Using an Experiential Learning Approach
SW 660	Exploring Issues in Housing and Homelessness
SW 697	Special Topics in Social Welfare
SW 706	Social Action in the Dominican Republic
SW 715	Affirming Practice with Lesbian, Gay, Bisexual, Transgender, Queer+ People
WS 401	Introduction to Women's Studies
WS 405	Gender, Power and Privilege
WS 444	Trans/Forming Gender
WS 444A	Race Matters
WS #444C	On the Roads to Equality
WS 632	Feminist Thought
<b>Senior Capstone Course Sequence</b>	
SW 740	Social Work Field Experience 4
SW 740A	Social Work Field Experience I: Seminar 4
SW 741	Social Work Field Experience II 4
SW 741A	Social Work Field Experience II: Seminar 4
<b>Total Credits</b>	<b>64</b>

Students must maintain a 2.0 and earn a C or better in the 13 social work major courses. In addition, students are expected to successfully complete three additional courses as part of a liberal arts foundation for the major. Students choose one course from an approved list of courses in two different categories: anthropology/sociology and zoology and then must choose an additional course from an approved list of diversity courses. These three courses may also satisfy University Discovery requirements. Lastly, students are required to complete 40 hours of advisor approved human service hours by end of first semester junior year.

## Student Learning Outcomes

- Student demonstrates ethical and professional behavior.
- Student engages diversity and difference in practice.
- Student advances human rights and social, economic and environmental justice.
- Engage in practice informed research and research-informed practice.
- Engages in policy practice.
- Engage with individuals, families, groups, organizations, and communities.
- Assess individuals, families, groups, organizations, and communities.
- Intervenes with individuals, families, groups, organizations, and communities.
- Evaluates practice with individuals, families, groups, organizations, and communities.

## Social Work Minor

<https://chhs.unh.edu/social-work/program/minor/social-work>

## Description

The department offers a minor in social work.

Students interested in a minor in social work should consult with the undergraduate program coordinator, Gretchen Bean, Pettee Hall, Room 241, (603) 862-4551.

## Requirements

Students wishing to minor in social work are required to take:

Code	Title	Credits
SW 424	Introduction to Social Work	4
SW 525	Social Welfare Policy: History of Social and Economic Justice	4
Select any three other courses offered by the department <sup>1</sup>		12
<b>Total Credits</b>		<b>20</b>

<sup>1</sup> Excluding SW 622, SW 623, SW 625, SW 740, SW 740A, SW 741, SW 741A.

SW 622, SW 623, and SW 625 are by permission only with program coordinator approval.

## Gerontology Multidisciplinary Minor

<https://chhs.unh.edu/social-work/program/minor/gerontology>

## Description

The gerontology multidisciplinary minor (GMM) provides students with the opportunity to examine and evaluate the aging process as it affects the individual and society within the United States and in the world. Through a multidisciplinary course selection, students develop an understanding of aging from a variety of perspectives with a focus on how people age physically, cognitively, emotionally, and socially. Students are encouraged to analyze the historical and philosophical foundation from which policies, programs, and professional activities affecting the aged are developed, implemented, and evaluated. The purpose of GMM is to prepare students as they enter their career fields on the effects that the growing elderly population will have in every component of modern life.

## Requirements

To complete a minor in gerontology students are required to take a minimum of 20 credits.

- Special Topic courses on aging-related topics can be used for GMM if approved by the GMM coordinator (e.g. SW 797 Special Topics in Social Welfare - End of Life Care)
- The GMM follows UNH's policy on minors. Following University policy, students must complete 20 credit hours with a grade of C- or better and a 2.00 grade point average.
- Students must submit a Certification of Completion of Minor form during their final semester to the GMM Coordinator: Dr. BoRin Kim in the Department of Social Work.

Code	Title	Credits
<b>Required courses:</b>		<b>8</b>
EXSC 607	Biology of Aging	
GERO 500	I'm Old, So What! An introduction to aging in the United States	

Select 3 additional courses from the following:		12
ANTH 695	Globalization and Global Population Health	
GERO #795	Independent Study <sup>2</sup>	
HDFS 625	Adult Development and Aging	
HDFS 707	Practicum <sup>1</sup>	
HHS #444	The Right to be Disabled in the Extreme Makeover Society	
HHS 798	Special Topics	
HPE 601	Lifetime Sports	
NURS 506	Human Development, Interaction and Learning Across the Lifespan	
NURS 535	Death and Dying	
NUTR 400	Nutrition in Health and Well Being	
NUTR 600	Field Experience in Nutrition <sup>1</sup>	
NUTR 650	Life Cycle Nutrition	
NUTR 773	Clinical Nutrition	
NURS 601	Function and Wellbeing of Older Adults	
OT 501	Developmental Tasks of Adulthood	
PHIL 660	Law, Medicine, and Ethics	
RMP 503	Therapeutic Recreation Rehabilitation Principles & Interventions	
RMP 563	Recreation Management and Policy Practicum <sup>1</sup>	
SOC 725	Social Demography	
SW 444	You've Got Your Troubles, I've Got Mine	
SW 702	Aging and Society	
SW 740	Social Work Field Experience <sup>1</sup>	
SW 741	Social Work Field Experience II <sup>1</sup>	
<b>Total Credits</b>		<b>20</b>

<sup>1</sup> Up to 4 credits from the practicum courses including HDFS 707 Practicum, NUTR 600 Field Experience in Nutrition, RMP 563 Recreation Management and Policy Practicum, SW 740 Social Work Field Experience or SW 741 Social Work Field Experience II can be used for GMM if a student did their internship at aging-related institutions.

<sup>2</sup> GERO #795 Independent Study is not a required course but up to 4 credits can be used toward GMM. GERO #795 is used by students and faculty as an option for creating an individual experience relating to aging. A faculty member must approve and oversee (mentor) the student's work. Additionally, the GMM coordinator must also approve of the proposal and retain a copy. A copy of the proposal and the final copy will be kept in the student's major academic folder.

## Sport Management and Leadership

- [Sport Management and Leadership Major \(B.S.\)](#) (p. 270)
- [Sport Management Minor](#) (p. 272)

## Sport Management and Leadership Major (B.S.)

<https://chhs.unh.edu/kinesiology/program/bs/sport-management-leadership-major>

### Description

The Sport Management and Leadership Major at UNH prepares students for successful careers in the sport industry. The SML major meets the needs of the ever-changing sport marketplace, by balancing academic preparation through related coursework with extensive opportunities to gain experience in the sport industry. Analyzing and integrating the context/culture of sport is embedded throughout our curriculum and grounds students' preparation for careers in interscholastic, intercollegiate, and professional sport including sport marketing, event management, coaching, administration, and sport media/communication.

SML also prepares students for graduate study in areas such as sport law, sport business, sport psychology, or sport communication.

Majors take a core of foundation courses, in addition to applied electives and choose one of three focus areas: Sport Marketing and Event Management, Coaching/Athletic Administration, or Sport Media/Communication. Majors must earn a grade of B- or better in SML 580 Sport Industry, and a grade of C or better in an approved statistics course as well as each required Sport Management and Leadership course. In addition, a targeted internship experience is required since it is critical to career development. Students in this major are expected to complete a minor, cognate or a double major in a related field (e.g. business, communication, english/journalism, psychology, education) that ensures breadth and depth as well as appropriate knowledge and skills for entry into a sport-related career. Interested students should consult with major coordinator, Gretchen Browne, [Gretchen.Browne@unh.edu](mailto:Gretchen.Browne@unh.edu).

SML 761	Senior Seminar Sport Management and Leadership <sup>2</sup>	4

<sup>1</sup> All students are required to complete an advisor approved minor, cognate or double major or 20 credits of coursework in a related field and approved in advance by faculty adviser.

<sup>2</sup> Majors must complete a minimum of 150 hours of industry experience before they can take SML 761 Senior Seminar Sport Management and Leadership. Students must be enrolled as a sport management and leadership major for one full semester before taking SML 761 Senior Seminar Sport Management and Leadership. See adviser for details.

<sup>3</sup> All students are required to have a minimum grade of C in Statistics, PSYC 402, SOC 402, ADMN 510 or HHS 540, or an approved Statistics course.

<sup>4</sup> Electives can include any courses listed within any focus area or the two additional courses listed below, including an additional 4 credits of internship. Credits applying to a declared focus area cannot also count as elective credits.

Internal transfer applicants to Sport Management and Leadership must have at least a 2.5 GPA as well as a minimum grade of C in Statistics (PSYC 402, SOC 402, ADMN 510 or HHS 540 or another approved statistics course) and a minimum grade of B- in SML 580 Sport Industry.

## Degree Plan

### Recommended Major Sequencing of Courses

This list only includes major classes. Students should be registered for, and take an average of 16 credits per semester to be 'on track' to graduate in 4 years. In most semesters, this means a student will be taking Discovery or elective courses, to meet this 16 credit 'load'.

Course	Title	Credits
<b>First Year</b>		
<b>Fall</b>		
ENGL 401	First-Year Writing	4
SML 580	Sport Industry	4
<b>Credits</b>		<b>8</b>

## Student Learning Outcomes

- SML students will understand the socio-cultural components of sport integrated throughout the curriculum while translating theory to practice in order to apply classroom knowledge in the sport setting.
- SML students will distinguish and employ effective leadership principles, management styles, and decision-making skills in sport organizations.
- SML students will identify and understand major issues in sport and how they can reflect as well as bring about change in society relative to diversity, equity, and inclusion.

- SML students will understand the importance of working collaboratively in order to effectively solve problems and reach organizational goals.
- SML students will be exposed to the basic operating principles in the sport industry in order to gain an understanding of the potential career paths.
- SML Students will be able to organize, apply and synthesize information and ideas while effectively expressing these in both oral and written form (critical and technical) through various contexts, technologies and platforms.
- SML students will develop, utilize and reflect on professional skills while demonstrating an ability to self-advocate in their career development.
- SML students will apply critical thinking and problem-solving skills to develop and analyze research data on issues related to the sport industry.

## Sport Management Minor

### Description

The Sport Management minor offers an opportunity for students outside of the major to strategically take classes in our SML curriculum, specifically designed to provide students with the basic knowledge of sport management. The minor consists of two required Sport Management courses and then a variety of options across our SML curriculum and within Paul College.

Admission into the minor is based on successful completion of SML 580 Sport Industry and a minimum GPA of 2.0

### Requirements

- To graduate with a sport management minor, individuals must earn a grade of C- or better in all courses associated with the minor.
- Sport Management and Leadership/Sport Studies majors are not permitted to minor in sport management.
- Please contact [Zachary.Scola@unh.edu](mailto:Zachary.Scola@unh.edu) for additional information.

Code	Title	Credits
<b>Two Required Courses</b>		
SML 580	Sport Industry <sup>1</sup>	4
SML 564	Introduction to Sport Marketing	4
<b>Select two courses from the following:</b>		
SML 630	Sport Facility and Event Management	4
SML 634	Sport Sponsorship and Sales	4
SML 738	Sport Finance	4
SML 740	Athletic Administration	4
SML 764	Advanced Sport Marketing <sup>2</sup>	4
<b>Select one course from the following:</b>		
PAUL 450	Personal Finance	4
MGT 535	Organizational Behavior	4
or ADMN 575	Behavior in Organizations	
MKTG 649	Foundations of Personal Selling	4
ECON 676	Economics of Sports	4

<sup>1</sup> SML 580 Sport Industry should be the first class students take in this minor. Additionally, enrolling in this class is when a student fills out the intent to minor form.

<sup>2</sup> If not taken as one of the two required courses.

## College of Life Sciences and Agriculture

Anthony S. Davis, Dean

Kimberly J. Babbitt, Associate Dean

Anton Bekkerman, Associate Dean

The College of Life Sciences and Agriculture (COLSA) provides students a fundamental education in the agricultural, biological, life, natural, and social sciences. Advanced technical and professional courses are offered to prepare students for graduate school or entry-level positions in their chosen field. Preparation can vary from fundamental studies of cancer cells to community service planning, resource protection to genetic engineering, and molecular biology to biotechnology.

A blend of Discovery and foundational science courses, careful selection of supportive upper level courses, and ample opportunities to engage in internships, research, and study abroad experiences ensures graduates develop the background and experiences necessary to be competitive in the job market. Potential employers include federal, state, and local governments, consulting firms and industrial organizations. Graduates are employed as watershed, soil, and natural resource managers, associates in biomedical and agricultural research laboratories, marketing analysts and extension specialists, nutrition supervisors and environmental regulators, and information educators and communication experts. Community governments employ graduates as service planners and land-use specialists, teachers in traditional education, public health technicians, and urban pest control specialists. Positions are available in private and commercial organizations in production agriculture, food processing, landscaping, agribusiness, sales, and private planning. Graduates may also pursue entrepreneurial careers.

Additionally, COLSA prepares students for advanced study in their chosen field of interest where graduate study is required for attaining their career goals.

## Degrees

The college offers three undergraduate degrees: the bachelor of arts, the bachelor of science, and the bachelor of science in forestry. Some of the courses prescribed in these degree programs partially fulfill the University's Discovery requirements. Students should see their advisers for specific information.

## General Science Certification

Students majoring in biochemistry, molecular and cellular biology, biomedical science, biology, environmental conservation and sustainability, environmental sciences, forestry, wildlife and conservation biology, or zoology may seek certification to teach science at the middle, junior, or high school level.

For further information, contact the coordinator of teacher education in the Department of Education.

## Academic Advising

A member of the faculty whose area of interest is closely related to the student's is appointed as an adviser to assist the undergraduate in planning his or her academic program. Further advising is also available in the dean's office, Rudman Hall.

## Undeclared Status

Students may select a major upon entering the college or wait until registration for the sophomore year. Students who are uncertain about choosing a specific major may remain undeclared during their freshman year. In most cases, they should take the following courses, after which they should be ready to declare a major.

Course	Title	Credits
<b>Fall</b>		
LSA 400	Freshman Academic Experience I	1
BIOL 412	Introductory Biology: Evolution, Biodiversity and Ecology	4
CHEM 403	General Chemistry I	4
Discovery Program requirement		4
Discovery Program Requirement or an introductory course in any department in the college		4
<b>Credits</b>		<b>17</b>
<b>Spring</b>		
LSA 402	Freshman Academic Experience II	1
BIOL 411	Introductory Biology: Molecular and Cellular	4
CHEM 404	General Chemistry II	4
MATH 424B	Calculus for Life Sciences	4
Discovery Program requirement		4
<b>Credits</b>		<b>17</b>
<b>Total Credits</b>		<b>34</b>

Undeclared freshmen should explore possible majors by taking courses in the areas or programs that interest them most. They should talk to faculty, students, and their adviser concerning requirements, job opportunities, etc. in the various programs and should be prepared to declare a major when they register for the first semester of the sophomore year.

## Bachelor of Arts

The bachelor of arts degree is available in Sustainable Agriculture and Food Systems, and Zoology. Students must accumulate 128 credits, attain a 2.0 cumulative grade-point average, satisfy Discovery requirements, and complete a foreign language requirement (see University Academic Requirements for specific B.A. language requirements). Check individual departmental listings for specific major requirements and minimum acceptable grades in major courses.

## Bachelor of Science

The bachelor of science degree is available in all departments or programs. University requirements are the same as for the bachelor of arts degree, except that a foreign language is not required and minimum acceptable grades may differ in some programs. Check individual departmental or program listings for specific major requirements.

## Agribusiness

### Programs

- [Agribusiness Minor](#) (p. 274)

## Agribusiness Minor

<https://colsa.unh.edu/natural-resources-environment/program/minor/agribusiness>

### Description

The agribusiness minor is designed to provide students in disciplines other than environmental and resource economics with training in the economics and management of agricultural and other natural resource business firms. This program prepares students to work for private companies, governmental agencies, or nonprofit, nongovernmental organizations. Students who are interested in operating their own businesses will also find this minor very useful. The courses in the agribusiness minor emphasize the applications of economic and business management principles.

### Requirements

Code	Title	Credits
<b>Required Courses</b>		
EREC 411	Environmental and Resource Economics Perspectives (or equivalent) <sup>1</sup>	4
ACC 501	Survey of Accounting	4
MKTG 530	Survey of Marketing	4

ANSC 548	Agricultural Business Management	4
EREC 606	Land Economics Perspectives: Uses, Policies, and Taxes	4
<b>Total Credits</b>		<b>20</b>

<sup>1</sup> EREC 411 cannot be taken for credit if credit has been earned for ECON 402.

For additional information, contact John M. Halstead, Environmental and Resource Economics Program Coordinator, 168 James Hall, (603) 862-3914.

## Animal Science (ANSC)

The undergraduate program in animal science is designed to prepare students for a variety of careers by providing strong fundamental and applied education in animal nutrition, reproduction, genetics, physiology, health, and animal management. On-campus animal facilities available to provide practical experience with agricultural animals include the Fairchild Dairy Teaching and Research Center, the Lou and Lutza Smith Equine Center, the nearby organic dairy housed at the Burley-Demeritt Farm, two high tunnels for small livestock species, and aquaculture facilities. Program graduates may be employed in animal business ownership, management, marketing, the pharmaceutical industry, agribusiness, finance, manufacturing, public relations, extension, vocational education, or consulting. Students who are considering continuing their studies through graduate school or veterinary school are advised to take the recommended additional courses in chemistry, math, and physics.

## Animal Science Major (B.S.)

<https://colsa.unh.edu/agriculture-nutrition-food-systems/program/bs/animal-science-major>

### Description

Animal Science is the study of the biology and management of animals that enhance human life and well-being. Completion of the Animal Science B.S. is designed to prepare students for a variety of animal-focused careers. The Animal Science B.S. is one of many pathways for admission to veterinary school. Because admission to veterinary school is highly competitive due to the limited number of available spaces and the high standards for admission, students are advised to choose an academic program that deeply interests them. Simply taking the

prerequisite courses required by veterinary schools without considering alternate career goals is not advisable.

## Requirements

### Major Requirements

ANSC 600	Field Experience
ANSC 603	Introduction to Livestock Management
ANSC 605	Poultry Production and Health Management
ANSC 698	Cooperative for Real Education in Agricultural Management (CREAM)
ANSC 727	Advanced Dairy Management I
ANSC 728	Advanced Dairy Management II
ANSC 750	Collaborative Farm Design and Development
ANSC 795	Investigations
ANSC 799	Honors Senior Thesis
<b>Total Credits</b>	<b>78</b>

<sup>1</sup> Students interested in graduate school should take 2 semesters of Organic Chemistry (CHEM 651/CHEM 653 and CHEM 652/CHEM 654) and one semester of General Biochemistry (BMCB 658/BMCB 659) in place of BMCB 501.

<sup>2</sup> ENGL 501 Introduction to Creative Nonfiction, ENGL 502 Professional and Technical Writing, ENGL 503 Persuasive Writing or ENGL 419 How to Read Anything

### Capstone Experience

The capstone requirement must be completed during the senior year, and may be satisfied through a course (e.g., ANSC 698 Cooperative for Real Education in Agricultural Management (CREAM), ANSC 728 Advanced Dairy Management II, ANSC 750 Collaborative Farm Design and Development, ANSC 797 Equine Capstone Experience, or ANSC 799 Honors Senior Thesis) or some form of experiential learning (e.g., mentored research projects and other special student activities).

## GPA Requirements for All Students in Animal Science

Students will be required to earn a C- or better in all required courses for the animal science major to receive credit toward graduation. Students failing to do this will need to retake the course in order to receive credit.

## Requirements for Animal Science Students Interested in Graduate/Veterinary School

Code	Title	Credits
BMCB 658 & BMCB 659	General Biochemistry and General Biochemistry Lab	5
CHEM 651 & CHEM 653	Organic Chemistry I and Organic Chemistry Laboratory	5
CHEM 652 & CHEM 654	Organic Chemistry II and Organic Chemistry Laboratory	5
MATH 424B	Calculus for Life Sciences	4
PHYS 401	Introduction to Physics I	4
PHYS 402	Introduction to Physics II	4

Students interested in veterinary medicine should consult the [pre-veterinary medicine program website](#).

## Student Learning Outcomes

Students will gain a fundamental knowledge of the animal science related disciplines of:

### Anatomy & physiology

- Students will be able to recognize the complimentary relationship of anatomic structure and function and accurately describe the basic physiologic processes of mammalian organ systems.

### Nutrition

- Students will be able to identify, compare, contrast, and link different concepts regarding animal feeding and metabolism of carbohydrates, lipids, and protein in major livestock species and equine. - Genetics o Students will understand basic principles and applications of inheritance, the difference between qualitative and quantitative genetics, and be able to discuss the various disciplines within genetics.

### Disease

- Students will understand the modes of transmission of infectious diseases, recognize signs of illness associated with notable diseases in livestock species, and be able to appropriately apply general concepts of disease prevention and biosecurity to a variety of management situations.

### Reproduction

- Students will comprehend the mechanisms and endocrine control of gametogenesis, fertilization, pregnancy, and lactation and understand the variety of factors that can influence reproductive success.

### Animal Ethics

- Students will recognize the numerous ways that humans use, benefit from, and conflict with non-human animals and have an awareness of the variety of motivations and influences that drive these relationships.

Students will be able to develop critical questions that facilitate their independent investigation of topics related to animal science and demonstrate an integration of discipline specific knowledge through engaging in experiential education opportunities.

Students will be able to conduct literature searches using relevant databases to critically evaluate both academic and popular press resources pertinent to the animal sciences.

Students will be able to construct well-supported, effectively organized written arguments to express informed perspectives on animal science related topics. These writings will demonstrate professional style, appropriate mechanics (grammar, punctuation, and spelling), and the correct use of citations.

## Animal Science Major: Dairy Management Option (B.S.)

<https://colsa.unh.edu/agriculture-nutrition-food-systems/program/bs/animal-science-major-dairy-management-option>

## Description

The ANSC: dairy management option is designed to provide students with solid training in areas important to the successful management of a dairy enterprise, for employment in related agribusinesses (e.g., pharmaceutical and feed industries), or for those wishing to pursue additional training leading to the M.S. or Ph.D. degree in dairy science or its related disciplines. Dairy management students receive training in areas such as nutrition, reproduction, diseases, genetics, lactation physiology, forages, agribusiness finance, personnel management, computer science, and public relations. The Fairchild Dairy Teaching

and Research Center and the Burley-DeMerritt Organic Dairy Research Farm are modern dairy facilities. The Fairchild Dairy houses 100 lactating Holstein cows plus a similar number of non-lactating animals. The Burley-DeMerritt Farm houses 50 lactating Jersey cows plus a small number of non-lactating animals. For additional information and answers to questions regarding the option in dairy management, email Dr. Peter Erickson.

Requirements

Major Requirements

Code	Title	Credits
Foundation Courses		
BIOL 411	Introductory Biology: Molecular and Cellular	4
BIOL 412	Introductory Biology: Evolution, Biodiversity and Ecology	4
CHEM 403	General Chemistry I	4
CHEM 404	General Chemistry II	4
BIOL 528	Applied Biostatistics I	4
BMS 503 & BMS 504	General Microbiology and General Microbiology Laboratory	5
Select from the following:		
BMCB 501 or BMCB 658 & BMCB 659	Biological Chemistry General Biochemistry and General Biochemistry Lab	4-5
Requirements for All Animal Science/Dairy Management Option Majors		
AAS 425	Introduction to Dairy Herd Management	4
AAS 439	Fundamentals of Animal Health	2
ANSC 406	Careers in Animal Science	1
ANSC 511	Anatomy and Physiology	4
ANSC 512	Anatomy and Physiology	4
ANSC 543	Technical Writing in Animal Sciences (or equivalent) <sup>1</sup>	2
ANSC 609	Principles of Animal Nutrition	4
ANSC 612	Genetics of Animals	4
Total Credits		54-55

<sup>1</sup> ENGL 501 Introduction to Creative Nonfiction, ENGL 502 Professional and Technical Writing, ENGL 503 Persuasive Writing or ENGL 419 How to Read Anything (WI)

Students are responsible for the completion of the animal science foundation courses and the requirements for all animal science majors (both lists of courses above).

Students interested in graduate school should take two semesters of Organic Chemistry and one semester of Biochemistry.

Animal Science: Dairy Management Option B.S. students must also complete:

Code	Title	Credits
AAS 423	Dairy Selection	2
AAS 432	Introduction to Forage and Grassland Management	3
ANSC 602	Animal Rights and Societal Issues	4
ANSC 627	Animal Health Applications	4
ANSC 650	Dairy Industry Travel Course	1
ANSC 698	Cooperative for Real Education in Agricultural Management (CREAM) (two-semester course)	4
ANSC 710	Dairy Nutrition	4
ANSC 715 or ANSC 724	Physiology of Lactation Reproductive Management and Artificial Insemination	4
ANSC 727	Advanced Dairy Management I	4
ANSC 728	Advanced Dairy Management II (will also fulfill the Capstone requirement)	4
EREC 411	Environmental and Resource Economics Perspectives	4
Total Credits		38

GPA Requirements for All Students in Animal Science

Students will be required to earn a C- or better in the foundation courses and all required courses for the animal science major to receive credit toward graduation. Students failing to do this will need to retake the course in order to receive credit.

Degree Plan

Sample Student Schedule by Semester: Dairy Management

Course	Title	Credits
First Year		
Fall		
AAS 425	Introduction to Dairy Herd Management	4
BIOL 411	Introductory Biology: Molecular and Cellular	4
CHEM 403	General Chemistry I	4
EREC 411 or ENGL 401	Environmental and Resource Economics Perspectives (SS DISC, ANSC elective) or First-Year Writing	4

**Spring**

ANSC 650	Dairy Industry Travel Course (repeated)	1
ANSC 627	Animal Health Applications	4
ANSC 728	Advanced Dairy Management II (WI)	4
Discovery Course		4
<b>Credits</b>		<b>13</b>

**Total Credits** **128**

<sup>1</sup> ENGL 419, ENGL 501, ENGL 502 and ENGL 503 may be substituted.

## Student Learning Outcomes

Students will gain a fundamental knowledge of the animal science related disciplines of:

**Anatomy & physiology**

- Students will be able to recognize the complimentary relationship of anatomic structure and function and accurately describe the basic physiologic processes of mammalian organ systems.

**Nutrition**

- Students will be able to identify, compare, contrast, and link different concepts regarding animal feeding and metabolism of carbohydrates, lipids, and protein in major livestock species and equine. - Genetics  
o Students will understand basic principles and applications of inheritance, the difference between qualitative and quantitative genetics, and be able to discuss the various disciplines within genetics.

**Disease**

- Students will understand the modes of transmission of infectious diseases, recognize signs of illness associated with notable diseases in livestock species, and be able to appropriately apply general concepts of disease prevention and biosecurity to a variety of management situations.

**Reproduction**

- Students will comprehend the mechanisms and endocrine control of gametogenesis, fertilization, pregnancy, and lactation and understand the variety of factors that can influence reproductive success.

**Animal Ethics**

- Students will recognize the numerous ways that humans use, benefit from, and conflict with non-human animals and have an awareness of the variety of motivations and influences that drive these relationships.
- Students will be able to develop critical questions that facilitate their independent investigation of topics related to animal science and demonstrate an integration of discipline specific knowledge through engaging in experiential education opportunities.
- Students will be able to conduct literature searches using relevant databases to critically evaluate both academic and popular press resources pertinent to the animal sciences.
- Students will be able to construct well-supported, effectively organized written arguments to express informed perspectives on animal science related topics. These writings will demonstrate professional style, appropriate mechanics (grammar, punctuation, and spelling), and the correct use of citations.

## Animal Science Minor

<https://colsa.unh.edu/agriculture-nutrition-food-systems/program/minor/animal-science>

### Description

A minor in Animal Science consists of a minimum of 20 credits of Animal Science (ANSC) courses. No more than 7 credits may be taken in the Thompson School of Applied Science (AAS) and at the 400- level. Students must receive a minimum grade of C- in any course used for the minor. Students failing to do this will need to retake the course in order to receive credit. No courses taken on a pass (credit)/fail basis may count toward the minor. Students who transfer from other institutions may petition the animal science program faculty for course approval. No more than eight credits used to satisfy major requirements may be used for the minor.

Students wanting to declare a minor in animal science must meet with animal science minor coordinator as early as possible and no later than first semester of their junior year.

Students must complete a minor completion form during their final semester at UNH.

### Requirements

Code	Title	Credits
<b>Choose one of the following introductory courses:</b>		<b>4</b>
AAS 425	Introduction to Dairy Herd Management	4
ANSC 401	Animals and Society	4
ANSC 421	Introduction to Animal Science	4
<b>Choose one of the following experiential courses:</b>		<b>4-12</b>
ANSC 600	Field Experience	4
ANSC 603	Introduction to Livestock Management	4
ANSC 605	Poultry Production and Health Management	4
ANSC 698	Cooperative for Real Education in Agricultural Management (CREAM) <sup>1</sup>	4
ANSC 727	Advanced Dairy Management I <sup>1</sup>	4
ANSC 728	Advanced Dairy Management II <sup>1</sup>	4

Choose one of the following courses:		4-12
ANSC 510	Integration of Culture and Agriculture in Ireland: Past, Present, and Future	4
ANSC 511	Anatomy and Physiology	4
ANSC 512	Anatomy and Physiology	4
ANSC 543	Technical Writing in Animal Sciences	2
ANSC 602	Animal Rights and Societal Issues	4
ANSC 609	Principles of Animal Nutrition	4
ANSC 612	Genetics of Animals	4
ANSC 625	Animal Diseases	4
ANSC 627	Animal Health Applications	4
ANSC 670	Exotic Companion Species Health and Management	4
ANSC 690	Livestock and Wildlife in Namibia: Challenges, Opportunities and Geography	4
ANSC 701	Physiology of Reproduction	4
ANSC 708	Ruminant Nutritional Physiology	3
ANSC 710	Dairy Nutrition	4
ANSC 715	Physiology of Lactation	4
ANSC 724	Reproductive Management and Artificial Insemination	4
ANSC 750	Collaborative Farm Design and Development	4
ANSC 795	Investigations	1-4

<sup>1</sup> Note that previous dairy course work is highly recommended for success in these upper level courses

## Dairy Management Minor

<https://colsa.unh.edu/agriculture-nutrition-food-systems/program/minor/dairy-management>

### Description

A minor in Dairy Management consists of 20 credits with C- or better and a 2.0 grade point average in subjects that the minor department approves. Courses taken on the pass/fail basis cannot be used for a minor. No more than 8 credits used to satisfy major requirements may be used for the minor.

### Requirements

Code	Title	Credits

AAS 425	Introduction to Dairy Herd Management	
ANSC 710	Dairy Nutrition	
ANSC 715	Physiology of Lactation	
<b>Select 8 credits from the following:</b>		<b>8</b>
AAS 423	Dairy Selection	
ANSC 650	Dairy Industry Travel Course	
ANSC 698	Cooperative for Real Education in Agricultural Management (CREAM) (must be taken for 2 semesters)	
ANSC 728	Advanced Dairy Management II	

## Biochemistry, Molecular and Cellular Biology (BMCB)

The field of biochemistry, molecular and cellular biology (BMCB) encompasses a wide range of life sciences, from biophysics and biochemistry to applied biology and medicine. The B.S. in biochemistry, molecular and cellular biology is designed for students to gain a solid foundation in biology, chemistry, physics, and mathematics, along with advanced knowledge in molecular biology, biochemistry, cell biology, and genetics. BMCB students have plenty of exposure to cutting-edge techniques and frontier research topics through inquiry-based learning and hands-on research opportunities. The program offers research

opportunities with program faculty in the areas of structural biology, cell signaling pathways, cancer biology, gene regulation, neurobiology, cellular structure and function, proteomics, glycomics, and lipid metabolism. Graduates are "profession-ready" and well-prepared for entry-level positions in biomedical research or in the biotechnology and pharmaceutical industries, for graduate education, or for post-baccalaureate professional programs (e.g., medical school, veterinary school, dental school, etc.).

The curriculum provides most of the required and recommended courses for students seeking admission to graduate schools and to professional schools in medicine, dentistry, veterinary medicine, or pharmacy. Students obtaining a B.S. in BMCB enjoy excellent job prospects immediately upon graduation, due to high demand for skilled research technicians in biotech and pharmaceutical companies, government agencies, academic research laboratories, and medical diagnostic laboratories. Graduates also have knowledge and skills that are valuable in the fields of management, sales, marketing, regulatory affairs, technical writing, and science journalism. Students who major in BMCB can also use their training in conjunction with advanced degrees in law and business. With additional courses in education, the B.S. degree in BMCB also qualifies graduates to teach at the elementary, junior high, or high school levels.

Faculty participating in the BMCB major combine a passion for teaching and student advising with strong expertise and achievements in their research areas. BMCB faculty are committed to providing independent research experiences for undergraduate students, and most faculty have active and well-funded research programs utilizing state-of-the-art techniques and instruments. On-campus facilities that students can use to enhance their research experience include the Hubbard Center for Genome Studies, the University Instrumentation Center, and the Center of Integrated Biomedical and Bioengineering Research.

## Pre-Professional Health Programs

Students interested in postgraduate education in healthcare occupations (e.g., medical, dental, physician assistant, pharmacy, etc.) should visit the [UNH Pre-Professional Health Programs Advising Office](#) website or in person (Rudman Hall, Room G02). Students interested in veterinary medicine should consult the [Pre-Veterinary Medicine Program](#). While many of the prerequisite courses required by professional schools are also requirements of the BMCB major, students should consult with their faculty adviser to create a plan of study that best prepares them for pursuing a career in one of these health professions.

# Biochemistry, Molecular and Cellular Biology Major (B.S.)

<https://colsa.unh.edu/molecular-cellular-biomedical-sciences/program/bs/biochemistry-molecular-cellular-biology-major>

## Description

The Biochemistry, Molecular & Cellular Biology (BMCB) major provides you with conceptual competence, analytical skills, and laboratory experiences to understand life at the molecular and cellular level. Your BMCB degree will prepare you for immediate employment as a research associate or for entry into graduate or professional programs in medicine, dentistry or other allied health professions, as well as other career tracks.

**The BMCB program offers advanced coursework and laboratories in diverse research areas of modern biology**

- Cancer biology
- Cell biology
- Cell culture & tissue engineering
- Endocrinology
- Molecular biology
- Pharmacology
- Physical biochemistry
- Protein structure, function & proteomics

**BMCB majors participate in experiential learning activities**

- Many courses have integrated laboratory experiences to foster inquiry-based learning and to train creative and critical thinkers
- Independent research experiences are available in faculty research laboratories
- Many courses provide exposure to cutting-edge techniques and instrumentation
- Job preparation can be enhanced by internships with regional biotechnology and pharmaceutical companies
- Summer undergraduate research fellowships at U.S. or international academic institutions combine travel with research opportunities outside UNH

**BMCB graduates have been successful in many careers**

- Research associates and laboratory technicians
  - Biotechnology and pharmaceutical companies
  - Government agencies
  - Forensics laboratories
  - Academic research laboratories
  - Hospitals
- Science journalists and technical writers
- Healthcare workers
- Pharmaceutical sales and marketing staff
- Regulatory agency staff
- Primary and secondary school educators (with additional coursework in education)

**BMCB graduates are well prepared for post-baccalaureate education**

- Masters and doctoral programs in a wide variety of disciplines
- Professional health programs
  - Medical
  - Dental
  - Pharmacy
  - Physician's Assistant and other allied health programs

**Note:** The BMCB major is designed so you can complete all of the prerequisite courses needed to seek admission to graduate schools or health professional schools in four years.

## Requirements

Students in the Biochemistry, Molecular and Cellular Biology (BMCB) major take eight Foundation courses, four Bioscience Core courses, five BMCB Core courses, one Laboratory Techniques course, and three Major Elective courses. One capstone experience, supervised and approved within the major, is required of all seniors. In addition, all other University academic requirements must be completed, including those for the [Discovery Program](#) and the [University Writing Requirement](#).

A grade of C-minus or better is required in Statistics and in all Bioscience Core, BMCB Core, Laboratory Techniques, and Major Elective courses.

Code	Title	Credits
<b>Foundation Core Courses</b>		
CHEM 403	General Chemistry I <sup>1</sup>	4
CHEM 404	General Chemistry II	4
CHEM 547 & CHEM 549	Organic Chemistry I and Organic Chemistry Laboratory <sup>2</sup>	5
CHEM 548 & CHEM 550	Organic Chemistry II and Organic Chemistry Laboratory <sup>2</sup>	5
MATH 424B	Calculus for Life Sciences <sup>3, 4</sup>	4
BIOL 528	Applied Biostatistics I <sup>4</sup>	4
PHYS 401	Introduction to Physics I <sup>5</sup>	4
PHYS 402	Introduction to Physics II <sup>5</sup>	4

<sup>1</sup> Fulfills Physical Science Discovery requirement

<sup>2</sup> CHEM 651/CHEM 653 & CHEM 652/CHEM 654 can be substituted for CHEM 547/CHEM 549 & CHEM 548/CHEM 550.

<sup>3</sup> Fulfills Quantitative Reasoning Discovery requirement

<sup>4</sup> MATH 425 and MATH 426 can be substituted for MATH 424B and BIOL 528

<sup>5</sup> PHYS 407 and PHYS 408 can be substituted for PHYS 401 and PHYS 402

### Bioscience Core Courses

Code	Title	Credits
BIOL 411	Introductory Biology: Molecular and Cellular <sup>6</sup>	4
BIOL 412	Introductory Biology: Evolution, Biodiversity and Ecology	4
BMS 503 & BMS 504	General Microbiology and General Microbiology Laboratory	5
GEN 604	Principles of Genetics	4

<sup>6</sup> BIOL 411 fulfills the Biological Science Discovery requirement, Discovery Laboratory requirement, and Discovery Inquiry requirement

### BMCB Core Courses

Code	Title	Credits
BMCB 401	Professional Perspectives in Biochemistry, Molecular and Cellular Biology	1
BMCB 605	Principles of Cell Biology	4
BMCB 751	Principles of Biochemistry	4

BMCB 752	Principles of Biochemistry	4
GEN 704	Genetics of Prokaryotic Microbes	4-5
or GEN 771	Molecular Genetics	

### Laboratory Techniques Courses (Pick one)

Code	Title	Credits
BMCB 753	Cell Culture	5
BMCB 754	Molecular Biology Research Methods	5
BMCB 755	Protein Biochemistry Laboratory	5
BMS 725	Cell Phenotyping and Tissue Engineering Laboratory	4

### BMCB Major Electives (Pick three)

A total of three unique major electives is required.

Code	Title	Credits
BMCB 750	Physical Biochemistry	3
BMCB 753	Cell Culture <sup>7</sup>	5
BMCB 754	Molecular Biology Research Methods <sup>7</sup>	5
BMCB 755	Protein Biochemistry Laboratory <sup>7</sup>	5
BMCB 760	Pharmacology	4
BMCB 763	Biochemistry of Cancer	4
BMCB 794	Protein Structure and Function	4
BMCB 795	Investigations in Molecular and Cellular Biology (4-credit minimum) <sup>8</sup>	1-4
BMCB 795W	Investigations in Molecular and Cellular Biology (4-credit minimum) <sup>8</sup>	1-4
BMCB 799	Senior Thesis (4-credit minimum) <sup>8</sup>	1-4
BMCB 799H	Honors Senior Thesis (4-credit minimum) <sup>8</sup>	1-4
ANSC 701	Physiology of Reproduction	4
ANSC 715	Physiology of Lactation	4
BIOL 706	Data Science with R for the Life Sciences	4
BMS 507 & BMS 508	Human Anatomy and Physiology I and Human Anatomy and Physiology II	8
BMS 702	Endocrinology	4
BMS 704	Pathologic Basis of Disease	4
BMS 705 & BMS 715	Immunology and Immunology Laboratory	5
BMS 706 & BMS 708	Virology and Virology Laboratory	5
BMS 718	Mammalian Physiology	4
BMS 725	Cell Phenotyping and Tissue Engineering Laboratory <sup>7</sup>	4
BMS 735	Molecular and Cellular Parasitology	4
CHEM 755	Advanced Organic Chemistry	3
GEN 704	Genetics of Prokaryotic Microbes <sup>7</sup>	5
GEN 705	Population Genetics <sup>9</sup>	3
GEN 706	Human Genetics	4
GEN 711	Genomics and Bioinformatics	4
GEN 713	Microbial Ecology and Evolution	4
GEN 715	Molecular Evolution	4
GEN 717	Molecular Microbiology	5
GEN 721	Comparative Genomics	4
GEN 771	Molecular Genetics <sup>7</sup>	4
NUTR 750	Nutritional Biochemistry	4
PSYC 731	Brain and Behavior	4
ZOOL 777	Neuroethology	4

<sup>7</sup> If course is used to fulfill BMCB Core or Laboratory Technique requirement, course cannot count as BMCB Major Elective.

<sup>8</sup> Choose no more than ONE of the following courses to fulfill a major elective: BMCB 795, BMCB 795W, BMCB 799, BMCB 799H

<sup>9</sup> Taking GEN 725 Population Genetics Lab is recommended, but not required.

### Approved BMCB Capstone Courses

The capstone explores areas of interest based on the integration of prior learning. The capstone requirement may be satisfied through a course, created work or product, or some form of experiential learning

(e.g., honors thesis, mentored research project, or other special student activity). Students may take more than one capstone course. Capstone completion is never displayed on Degree Works; your advisor will certify capstone completion at the time of graduation. Students must have 90 credits or more when completing their capstone requirement. See your advisor for questions about capstones.

Code	Title	Credits
BMCB 750	Physical Biochemistry	3
BMCB 760	Pharmacology	4
BMCB 763	Biochemistry of Cancer	4
BMCB 794	Protein Structure and Function	4
BMCB 795	Investigations in Molecular and Cellular Biology (4-credit minimum)	1-4
BMCB 795W	Investigations in Molecular and Cellular Biology (4-credit minimum)	1-4
BMCB 799	Senior Thesis (4-credit minimum)	1-4
BMCB 799H	Honors Senior Thesis (4-credit minimum)	1-4
INCO 790	Advanced Research Experience (4-credit minimum)	1-4

For a Capstone experience not listed above, such as an internship, submit a [Capstone Approval form](#) prior to beginning the experience.

<b>Total Credits</b>	<b>128-131</b>

## Student Learning Outcomes

SLO: Core Knowledge in Biochemistry, Molecular Biology, and Cell Biology.

- Students will be able to explain the structure and function of macromolecules, including key functional groups, higher order structure and function of macromolecules, catalysis and enzyme kinetics.
- Students will be able to explain matter and energy conversion, including thermodynamics, catalysis, biological energy, ATP and its function in metabolism.
- Students will be able to explain cellular homeostasis, including major metabolic pathways for carbohydrates, lipids, proteins and nucleic acids, key regulatory steps in these pathways and the organization of metabolic enzymes.
- Students will be able to explain the flow of biological information, including detailed replication, transcription and translation processes in the context of homeostasis and development.

SLO: Quantitative Literacy, Inquiry & Analysis

- Students will be able to apply the scientific method to examine experimental evidence and draw informed conclusions.
- Students will be able to use graphs to represent scientific data.
- Students will be able to apply statistical methods to interpret scientific data.

SLO: Critical Thinking & Problem Solving

- Students will be able to use data to troubleshoot an unexpected outcome.
- Students will be able to apply core knowledge to critically interpret scientific data.

SLO: Written Communication

- Students will demonstrate written skills to communicate scientific knowledge and experimental data.

SLO: Oral Communication

- Students will be able to demonstrate oral presentation skills to communicate scientific knowledge and experimental data.

## Biochemistry, Molecular and Cellular Biology Minor

<https://colsa.unh.edu/molecular-cellular-biomedical-sciences/program/minor/biochemistry-molecular-cellular-biology>

### Description

Students who wish to develop focused competencies in biochemistry, molecular biology, and/or cell biology can complement their major academic program with a minor in biochemistry, molecular and cellular biology (BMCB).

### Requirements

Complete 20 credits from the courses listed below, with a grade of C-minus or better. A C average (2.00) is required in courses that the minor program approves.

No more than 8 credits used to satisfy major requirements may be used for the minor.

4 credits of BMCB 795 Investigations in Molecular and Cellular Biology may be used toward the minor.

Pass/fail courses may not be used for the minor.

It is the student's responsibility to complete a Certification of Completion of Minor form during their final semester at UNH.

Code	Title	Credits
BMCB 605	Principles of Cell Biology	4
BMCB 750	Physical Biochemistry	3
BMCB 751	Principles of Biochemistry	4

BMCB 755	Protein Biochemistry Laboratory	5
BMCB 760	Pharmacology	4
BMCB 763	Biochemistry of Cancer	4
BMCB 794	Protein Structure and Function	4
BMCB 795	Investigations in Molecular and Cellular Biology (4-credit maximum)	1-4
GEN 704	Genetics of Prokaryotic Microbes	5
GEN 771	Molecular Genetics	4

## Biology

<https://colsa.unh.edu/biological-sciences>

Description

UNH's location and facilities provide unique opportunities for the study of biology due to its access to the seacoast, the [Shoals Marine Laboratory](#), the lakes region of NH, and White Mountain National Forest. The Biology faculty strongly believe in a hands-on approach to teaching and active involvement of undergraduates in research. We have a wide range of faculty expertise, including freshwater, estuarine, ecology, physiology, neurobiology, and behavior. A Biology degree provides the background for a variety of professional positions in the public and private sectors, and provides an excellent foundation for students seeking to apply for graduate, medical, or veterinary school.

Biology Major (B.S.)

<https://colsa.unh.edu/biological-sciences/program/bs/biology-major>

Description

Biology is one of the most popular science majors since it provides a broad background in the biological sciences while allowing flexibility and specialization within the major. It integrates theoretical and practical (hands-on laboratory and field work) courses in different aspects of the biology of multicellular life. It encompasses the study of structural and functional relationships of living organisms at the molecular, cellular, and organismal level, the interactions of living systems with the environment and with each other, and the evolutionary relationships of life. Our goal is to create an environment for those with a scholarly interest in the biological sciences, and to extend their understanding, awareness, and appreciation of the diversity inherent in the biological sciences. Our major is aimed at promoting an excellent education in biological sciences by involving undergraduate students in a strong interaction with faculty both in the classroom and in research laboratories.

The biology major prepares students for post graduate degrees in the biological and medical fields, and for job opportunities in industry (environmental, biomedical, pharmaceutical, and biotechnological) and governmental research, and secondary school teaching. Completion of the four-year undergraduate program plus a fifth-year internship will be necessary for biology teaching certification. Students who plan to enter medical, dental, or related professional schools are advised to confer with their faculty adviser to work the requirements for these programs into their academic majors.

Core courses in the biology major are from departments that contribute to the biological sciences community at UNH. The core curriculum consists of introductory and upper-level science courses plus seven

additional courses in the biological sciences; three of these must be selected from course lists in three broad categories.

While students are advised to declare the biology major as incoming first-year students to assure adequate program planning, transfer into this major at a later stage is also possible. Several of the other biological science majors share the same biology core curriculum. For the first to two years, it is quite easy to change to or from these other majors.

Requirements

Biology Core Curriculum

The biology courses in the core curriculum constitute an integrated sequence that train students in the basic skills and concepts of knowledge inherent to the biological sciences. The biology core allows a student to obtain a broad background in biology, and in the related physical sciences and math that provide a foundation for success in understanding biological principals.

Code	Title	Credits
Core Curriculum Courses		
BIOL 400	Professional Perspectives on Biology <sup>1</sup>	1
BIOL 412	Introductory Biology: Evolution, Biodiversity and Ecology	4
BIOL 411	Introductory Biology: Molecular and Cellular	4
BIOL 541	Ecology	4
BMS 503 & BMS 504	General Microbiology and General Microbiology Laboratory	5
GEN 604	Principles of Genetics	4
CHEM 403 & CHEM 404	General Chemistry I and General Chemistry II	8
MATH 424B or MATH 425	Calculus for Life Sciences Calculus I	4
BIOL 528	Applied Biostatistics I	4
PHYS 401 & PHYS 402	Introduction to Physics I and Introduction to Physics II	8
CHEM 545 & CHEM 546	Organic Chemistry and Organic Chemistry Laboratory <sup>2</sup>	5
BMCB 658 & BMCB 659	General Biochemistry and General Biochemistry Lab	5
BIOL 780	Capstone Companion Course	1
Total Credits		57

Biology Electives

In addition to the biology core curriculum, students must complete seven biology elective courses. One course must be taken from each of the three categories/disciplines; the other four electives can be chosen from the category lists or can be any other biological sciences course with approval of the student's adviser. At least two of these courses must have labs. All courses must be 500-level or above. There must be one animal-identified course (A) and one plant/fungal/algae course (FP). One capstone experience is required of all seniors; see subsequent section on capstones for detailed requirements. Corequisite lecture and lab courses count as one course.

Code	Title	Credits
Category 1: Form and Function (Morphology, Anatomy and Physiology)		
ANSC 511	Anatomy and Physiology (A)	4
ANSC 512	Anatomy and Physiology (A)	4
ANSC 701	Physiology of Reproduction (A)	4
BIOL 701	Plant Physiology (FP)	4
BIOL #702	Lab Techniques in Plant Physiology and Biochemistry (FP)	4
BIOL 709	Plant Stress Physiology (FP)	3
BMS 507	Human Anatomy and Physiology I (A)	4
BMS 508	Human Anatomy and Physiology II (A)	4

BMS 702	Endocrinology (A)	4
BMS 718	Mammalian Physiology (A)	4
MEFB 628	Marine Invertebrate Evolution and Ecology (A)	5
NR #625	Physiological Ecology	4
ZOOL 518	Comparative Morphology and Biology of Vertebrates (A)	4
ZOOL 625	Principles of Animal Physiology (A, ZOOL 626 Lab optional)	3
MEFB 773	Physiology of Fishes (A)	4
ZOOL 777	Neuroethology (A, C)	4
MEFB 754	Anatomy and Function of Marine Vertebrates (SML, A)	4
<b>Category 2: Genetics/Development (including molecular biology and bioinformatics)</b>		
ANSC 612	Genetics of Animals (A)	4
BMCB 605	Principles of Cell Biology	4
GEN 704	Genetics of Prokaryotic Microbes	5
GEN 705	Population Genetics (GEN 725 lab optional)	3
GEN 706	Human Genetics (A)	4
GEN 711	Genomics and Bioinformatics	4
GEN 721	Comparative Genomics	4
GEN 771	Molecular Genetics	4
GEN 772	Evolutionary Genetics of Plants (FP)	4
GEN 774	Techniques in Plant Genetic Engineering and Biotechnology (FP)	4
NSB 705	Molecular and Cellular Neurobiology (A, C)	4
ZOOL 529	Developmental Biology (A)	4
ZOOL 736	Genes and Behavior (A, C)	4
<b>Category 3: Evolution, Ecology and Biodiversity (including population biology)</b>		
BIOL 510	Mushrooms, Molds, and Mildews: Introduction to the Fungal Kingdom (FP)	4
BIOL #550	Mushroom Madness (FP)	3
BIOL 566	Systematic Botany (FP)	4
BIOL 601	Biology and Ecology of Plants (FP)	4
BIOL 704	Plant-Microbe Interactions (FP)	3
BIOL 720	Plant-Animal Interactions (FP, C)	4
BIOL 752	New England Mushrooms: a Field and Lab Exploration (FP)	4
GEN 715	Molecular Evolution	4
MEFB 503	Introduction to Marine Biology	4
MEFB 510	Field Ornithology (SML, A)	4
MEFB 530	Evolution and Marine Diversity (SML)	4
MEFB 625	Introduction to Marine Botany (FP)	5
MEFB #630	Biodiversity and Biology of Marine Invertebrates (SML, A)	4
MEFB 674	Ecology and Marine Environment (SML)	4
MEFB 714	Field Animal Behavior (SML, A)	4
MEFB 717	Lake Ecology	4
MEFB 725	Marine Ecology	4
MEFB 747	Aquatic Plants in Restoration/Management (FP, C)	4
NR 506	Forest Entomology (A)	4
MEFB 772	Fisheries Biology: Conservation and Management (A)	4
NR 642	Introduction to Biogeography	4
NR 660	Ecology and Biogeography of New Zealand	5
NR 663	Applied Directed Research in New Zealand	4
NR 712	Mammalogy (A)	4
NR 713	Quantitative Ecology	4
NR 765	Community Ecology	4
SAFS 651	Plant Pathology (FP)	4
ZOOL 542	Ornithology (A)	4
ZOOL 555	Introduction to Entomology (A)	4
ZOOL 566	Herpetology (A)	4
ZOOL 613	Animal Behavior (A)	5
ZOOL 690	Evolution	4
ZOOL 708	Stream Ecology	4
ZOOL 710	Sharks and Bony Fishes (A)	4
ZOOL 726	Conservation Behavior (A)	4
ZOOL 733	Behavioral Ecology (A, C)	4
<b>Other Elective Options</b>		
BIOL 600	Field Experience <sup>3</sup>	1-4
BIOL #633	Data Analysis for Life Science	4
BIOL 675	Medical Botany (FP)	4
BIOL 695	Biology Teaching Practices <sup>3</sup>	1-4
BIOL 700	Current and Controversial Issues in Biology (C)	4
BIOL 711	Experimental Design & Analysis	4
BIOL 770	Senior Seminar in Biology (C)	2

BIOL 795	Independent Investigations in Biology <sup>3</sup>	1-4
BIOL 799	Honors Senior Thesis <sup>3</sup>	2-8
BMCB 753	Cell Culture	5
BMCB 760	Pharmacology	4
BMS 602 & BMS 603	Pathogenic Microbiology and Pathogenic Microbiology Laboratory	5
BMS 655	Human and Animal Parasites (A)	3
BMS 703	Infectious Disease and Health	4
BMS 706 & BMS 708	Virology and Virology Laboratory	5
BMS 705	Immunology (BMS 715 optional lab)	3
BMS 711	Toxicology	4
GEN 717	Molecular Microbiology	5
HMP 501	Epidemiology and Community Medicine	4
MEFB 631	Ecotoxicology and Quantitative Reasoning	4
MEFB 741	Sharks: Biology and Conservation (A)	4
MEFB 755	Biological Oceanography (C)	3
NR 508	Communicating Science	4
NSB 727	Animal Communication (A, C)	4
NSB #728	Research Methods in Animal Behavior (A)	4
PSYC 531	Psychobiology	4
PSYC 716	Cognitive Neuroscience	4
PSYC 731	Brain and Behavior	4
PSYC 733	Drugs and Behavior	4
PSYC 737	Behavioral Medicine	4
SAFS 651	Plant Pathology (P)	4
TECH 797	Undergraduate Ocean Research Project (A, C) <sup>4</sup>	2
ZOOL 610	Principles of Aquaculture	4

<sup>1</sup> BIOL 400 Professional Perspectives on Biology is required only for first-year biology majors.

<sup>2</sup> Students exploring pre-health professions should take a full year of Organic Chemistry (CHEM 651/CHEM 653 and CHEM 652/CHEM 654).

<sup>3</sup> A 600, 695, 795, or 799 experience may substitute for one elective with academic advisor approval, but only if taken for at least four credits. These four credits may be spread over multiple semesters if they are consecutive and with the same faculty mentor.

<sup>4</sup> This class requires enrollment in both fall and spring sections, 2 credits/semester for a total of 4 credits.

A 600, 695, 795, or 799 experience may substitute for one elective in any category with academic advisor approval, but only if taken for at least four credits. These four credits may be spread over multiple semesters if they are consecutive and with the same faculty mentor.

Note: It is strongly recommended that students participate in an exchange semester at another university, or in a field-oriented program or internship. There are many exchange opportunities available in which a full semester of credits toward the major may be earned. It is further recommended that students explore possibilities of one or more semesters of independent investigation (research projects). For details, students should contact their adviser. Financial support is available for most of these programs. In addition, students can explore the courses at the Shoals Marine Laboratory (SML), which provides an excellent setting for several "field-oriented" courses during the summer. Often there is financial support available for the SML programs. (See the SML website at <https://marine.unh.edu/SML> or the Cornell website at <http://www.shoalsmarinelaboratory.org> for details.)

### Academic Requirements

To receive the B.S. degree in biology, students must complete 128 credit hours with at least a 2.0 cumulative grade-point average for completion of the degree. All UNH Discovery Program requirements, biology core curriculum requirements, plus seven additional courses from the biological sciences, and a capstone experience (see below). A

minimum grade of C- is required in all biological science courses that are counted toward the requirements for a degree in biology. Students who expect to compete successfully for post-baccalaureate programs should attain a cumulative GPA of 3.0 or higher by the end of the sophomore year and maintain it at that level.

## Capstone Experience

As part of the University of New Hampshire's Discovery Program requirements, all students must complete a capstone experience during their senior year (after earning at least 90 credits). **The capstone experience for students majoring in Biology consists of BOTH (1) an approved individual experience AND (2) the successful completion of the BIOL 780 Capstone Companion Course.** Students will not be approved for graduation until capstone certification has been granted.

### 1) The individual experience

The individual experience may be satisfied through various forms of experiential learning (e.g., Honors thesis, mentored research project, internship) or a course denoted with a "(C)" in the courses listed above. The individual experience must fulfill **at least one** of the University's capstone criteria:

- synthesizes and applies disciplinary knowledge and skills
- fosters reflection on undergraduate learning and experience
- demonstrates emerging professional competencies
- applies, analyzes, and/or interprets research, data, or artistic expression
- explores areas of interest based on the integration of the prior learning

**Before beginning any capstone individual experience, students MUST SUBMIT A COMPLETED CAPSTONE APPROVAL FORM to their Program Coordinator.**

Students can obtain this form on the Department's Capstone page or from their Program Coordinator. Here they will describe their proposed individual experience and how it fulfills at least one of the University's capstone criteria listed above. If the student is selecting a "C" course for their individual experience, they should obtain the course syllabus from the instructor for information about the course's content and learning objectives.

### 2) Enrollment in BIOL 780

Students will also be required to enroll in BIOL 780 Capstone Companion Course (1 cr.) **during the semester of their individual experience.** BIOL 780 is offered every Fall and Spring semester.

- If the individual experience is a two-semester thesis, BIOL 780 should be taken during the second semester.
- If the individual experience occurs during the summer (e.g., internship), BIOL 780 should be taken during the Fall semester that immediately follows.
- Note: Because BIOL 780 is not offered during the summer, students cannot complete their individual experience during the summer *and graduate during that same August*. Summer experiences could only be used as individual capstone experiences if completed the summer before the student's senior year.

## Student Learning Outcomes

- Students demonstrate that they understand basic principles of biology. Demonstrate a fundamental understanding of the relationships between structure, function, and process at the level of molecular, cellular, and organismal levels. Describe the principles and mechanisms of organismal evolution and genetics as the central unifying and explanatory concepts of biology. Explain the relationship between organisms and their physical, chemical, and biological environments. Explain what biodiversity is, its value in ecosystems, and the need for its conservation.
- Students demonstrate that they can undertake scientifically valid methods of inquiry. Demonstrate proficiency in searching, reading, and understanding scientific literature. Apply the scientific process, including the framework of initiation, designing, and conducting experiments, and the appropriate analysis and discussion based on the data gathered. Exhibit technical skills in the use of appropriate laboratory and field techniques commonly used in biology.
- Students demonstrate that they can think critically and analytically. Demonstrate an ability to critically and objectively evaluate data, develop hypotheses, interpret and or design biological experiments and studies.
- Students demonstrate that they can communicate effectively. Communicate scientific material effectively in written and oral formats.
- Students practice science responsibly and ethically, and acknowledge the influence of cultural and historical biases in the sciences.

## Biology Minor

<https://colsa.unh.edu/biological-sciences/program/minor/biology>

### Description

The Biology Minor is designed to give students a broad background in basic biological understanding of life processes, while providing experiences in ecology, evolution, and organismal diversity. Five courses are required for completion of the minor, of which no more than two can overlap with major requirements.

### Requirements

Code	Title	Credits
Required Courses		
BIOL 411	Introductory Biology: Molecular and Cellular	4
BIOL 412	Introductory Biology: Evolution, Biodiversity and Ecology	4
BIOL 541	Ecology (both are writing intensive)	4
or ZOOL 690	Evolution	
Select two courses in organismal surveys from the below: <sup>1</sup>		
Animal Survey: Select one course		4-5
MEFB 628	Marine Invertebrate Evolution and Ecology	
ZOOL 542	Ornithology	
ZOOL 710	Sharks and Bony Fishes	
NR 712	Mammalogy	
Plant or Fungus Survey: Select one course		4
Plant Survey Course:		
BIOL 566	Systematic Botany	
Fungus Survey Course:		
BIOL 752	New England Mushrooms: a Field and Lab Exploration	

<sup>1</sup> One course must focus on animals, and the other on plants or fungi.

## Plant Biology Minor

<https://colsa.unh.edu/biological-sciences/program/minor/plant-biology>

### Description

The Minor in Plant Biology is designed to provide a broad introduction to plant biology and why plants are important to humans, while providing a framework for understanding plant diversity, function, and behavior. Two electives allow the opportunity to choose a specialized area of plant biology that is of interest. Five courses are required for completion of the minor, of which no more than two can overlap with major requirements.

### Requirements

Code	Title	Credits
<b>Required courses:</b>		
BIOL 409	Green Life: Introducing the Botanical Sciences	4
BIOL 566	Systematic Botany	4
<b>Choose one of the following 400-level courses that focus on plant value to humans:</b>		
BIOL 408	Plants and Civilization	4
or SAFS 421	Introductory Horticulture	
<b>Choose two additional plant-based courses at the 500 level or higher.</b>		
BIOL 601	Biology and Ecology of Plants	4
BIOL 675	Medical Botany	4
BIOL 701	Plant Physiology	4
BIOL #702	Lab Techniques in Plant Physiology and Biochemistry	4
BIOL 704	Plant-Microbe Interactions	3
BIOL 709	Plant Stress Physiology	3
BIOL 720	Plant-Animal Interactions	4
BIOL 795	Independent Investigations in Biology (If taken for 4 credits)	1-4
GEN 772	Evolutionary Genetics of Plants	4
GEN 774	Techniques in Plant Genetic Engineering and Biotechnology	4
MEFB 500	Coastal Habitat Field Research Methods	4
MEFB 625	Introduction to Marine Botany	5
MEFB 747	Aquatic Plants in Restoration/Management	4
MEFB 795	Independent Investigations in Marine, Estuarine, and Freshwater Biology (If taken for 4 credits)	1-4
SAFS 651	Plant Pathology	4

The minimum acceptable grade in these courses is a C-; the average grade for these courses must be a C or better.

## Biomedical Science (BMS)

The Biomedical Science (BMS) major focuses on fundamental concepts in biological sciences as they apply to human and animal health, medicine, and disease. Students attracted to Biomedical Science have a profound interest in human and animal physiology and diseases. The BMS major encompasses three options: Medical Laboratory Sciences (MLS), Medical Microbiology (MM), and Medical and Veterinary Sciences (MVS). Each of the options in the BMS major is based on foundational and advanced courses in chemistry and the biological sciences. BMS:MLS focuses on the laboratory diagnosis of human disease, BMS:MM focuses on infectious agents and host response, and BMS:MVS focuses on health and manifestations of disease in animals, including humans.

Faculty in the BMS major have expertise in many areas of biomedical science, including physiology, cell biology, infectious diseases, veterinary

pathology, and laboratory medicine. The biomedical science faculty strongly encourage students to complement their academic courses with experiential learning opportunities through internships, field experience, and independent research projects conducted with biomedical research faculty. On-campus facilities include state-of-the-art research and teaching laboratories and the [New Hampshire Veterinary Diagnostic Laboratory](#) (NHVDL) that provide unique learning opportunities for students interested in veterinary medicine, pathobiology, and laboratory diagnostics.

There is high demand for skilled biomedical scientists as research assistants/technicians in biotechnology companies, pharmaceutical companies, government agencies, forensics, academic research laboratories, and hospitals, so BMS majors enjoy excellent job prospects upon graduation. The BMS curriculum also provides graduates with the required and recommended courses for admission to most graduate schools and professional schools of medicine, veterinary medicine, dentistry, public health, and pharmacy, as well as to physician assistant and pathologist's assistant programs. BMS graduates have a knowledge base that is valuable in the fields of sales, marketing, regulatory affairs, technical writing, patent law, and scientific journalism. With additional courses in education, the B.S. in biomedical science also qualifies graduates to teach at the elementary, junior high, or high school levels.

## Pre-Professional Health Programs

Students interested in postgraduate careers in the health care professions (e.g., physician, dentist, physician assistant, pharmacist, etc.) should visit the [Pre-Professional Health Programs Advising Office](#). Students interested in veterinary medicine should consult the [Pre-Veterinary Medicine Program](#). While many of the prerequisite courses required by professional schools are also requirements of the biomedical science major, students should consult with their faculty adviser to create a plan of study that best prepares them for pursuing a career in one of these human and animal health professions.

[Biomedical Science affiliated faculty.](#)

## Biomedical Science Major: Medical and Veterinary Sciences Option (B.S.)

<https://colsa.unh.edu/molecular-cellular-biomedical-sciences/program/bs/biomedical-science-major-medical-veterinary>

## Description

The **Biomedical Science: Medical and Veterinary Sciences (BMS:MVS)** program is informed by the principles of the [One Health Initiative](#), which unites human and veterinary medicine. This rigorous academic program meets requirements for entry into veterinary school, medical school, and graduate school in the area of biomedical science or for a career as a research scientist in either the biotechnology/pharmaceutical sector or government and academic research labs.

**You will select elective courses from three major areas of study:**

- biomedical systems
- pathobiology and disease
- health and environmental issues

**As a BMS:MVS major, you have many opportunities for career-relevant learning experiences including:**

- [NH Veterinary Diagnostic Laboratory](#) located on the UNH campus
- [UNH Agricultural Experiment Station](#) farm facilities
- independent research in laboratories of UNH biomedical science faculty
- experience in local hospitals
- internships in biotechnology and pharmaceutical companies in the Greater Boston area

**BMS:MVS graduates are prepared for post-baccalaureate education in:**

- **professional health programs**
  - [veterinary school](#)
  - [medical school](#)
  - allied health programs ([physician assistant](#) or [pathologist's assistant](#))
- **graduate programs**
  - biomedical science
  - pathology
  - public health
  - nursing

**Careers of previous Medical & Veterinary Sciences graduates include:**

- **research scientists/laboratory technicians**
  - biotechnology and pharmaceutical companies
  - academic biomedical research programs
  - forensic laboratories
  - hospitals/health clinics
- **state and federal government employment**
  - public health laboratories
  - health inspector (e.g., Food and Drug Administration)

## Requirements

Students in the Medical and Veterinary Sciences (MVS) option take eight Foundation courses, six Bioscience Core courses, three BMS-MVS Core courses, and six BMS-MVS Major Elective courses. One capstone experience, supervised and approved within the major, is required of all seniors. In addition, all other university academic requirements must be

completed, including those for the [Discovery Program](#) and the [University Writing Requirement](#).

A grade of C-minus or above is required in all courses within the major, which includes Foundation, Bioscience Core, and BMS-MVS Core courses, and BMS-MVS Major Electives.

Students applying to health profession schools need a full year of English. ENGL 415C, ENGL 419, ENGL 501, ENGL 502 or ENGL 503 should be taken in addition to ENGL 401. For further details, visit the [Pre-Professional Health Program Advising Office](#) on-line or in person (Rudman Hall, Room G02).

### Foundation Courses

Code	Title	Credits
CHEM 403	General Chemistry I <sup>1</sup>	4
CHEM 404	General Chemistry II	4
CHEM 651 & CHEM 653	Organic Chemistry I and Organic Chemistry Laboratory	5
CHEM 652 & CHEM 654	Organic Chemistry II and Organic Chemistry Laboratory	5
MATH 424B	Calculus for Life Sciences <sup>2</sup>	4
BIOL 528	Applied Biostatistics I	4
PHYS 401	Introduction to Physics I	4
PHYS 402	Introduction to Physics II	4

<sup>1</sup> CHEM 403 fulfills the Physical Science Discovery requirement

<sup>2</sup> MATH 424B fulfills the Quantitative Reasoning Discovery requirement

### Bioscience Core Courses

Code	Title	Credits
BIOL 411	Introductory Biology: Molecular and Cellular <sup>3</sup>	4
BIOL 412	Introductory Biology: Evolution, Biodiversity and Ecology	4
BMS 503 & BMS 504	General Microbiology and General Microbiology Laboratory	5
GEN 604	Principles of Genetics	4
BMCB 605	Principles of Cell Biology	4
BMCB 658 & BMCB 659	General Biochemistry and General Biochemistry Lab	5

<sup>3</sup> BIOL 411 fulfills the Biological Science Discovery requirement, Discovery Laboratory requirement, and the Discovery Inquiry requirement.

### BMS-MVS Core Courses

Code	Title	Credits
BMS 401	Professional Perspectives in Biomedical Sciences	1
BMS 507 or ANSC 511	Human Anatomy and Physiology I Anatomy and Physiology	4
BMS 508 or ANSC 512	Human Anatomy and Physiology II Anatomy and Physiology	4

### BMS-MVS Major Elective Courses

A total of six **unique** major elective courses are required. Two courses must be taken in each of the following subject areas: biomedical systems, pathobiology and disease, and health and environmental issues.

### Biomedical Systems Electives

#### Recommended Courses

Code	Title	Credits
BMS 702	Endocrinology	4
BMS 718	Mammalian Physiology	4

BMCB 760	Pharmacology	4
GEN 717	Molecular Microbiology	5
NUTR 750	Nutritional Biochemistry	4

BMS 735	Molecular and Cellular Parasitology	4
ANSC 627	Animal Health Applications	4
NUTR 773	Clinical Nutrition	4

### Health and Environmental Issues Electives

#### Recommended Courses

Code	Title	Credits
BMS #716	Public Health: Food- and Water-borne Diseases	4
BMS 730	Ethical Issues in Biomedical Science	4
ANSC 602	Animal Rights and Societal Issues	4
ANSC 750	Collaborative Farm Design and Development	4
ANTH 610	Medical Anthropology: Illness and Healing	4
BIOL 541	Ecology	4
HMP 401	United States Health Care Systems <sup>5</sup>	4
HMP 501	Epidemiology and Community Medicine	4
NR 435	Contemporary Conservation Issues and Environmental Awareness <sup>5</sup>	4
SOC 635W	Medical Sociology	4

<sup>5</sup> Only one 400-level course may be taken to fulfill a Major Elective requirement.

### Other Appropriate Courses

Code	Title	Credits
ANTH 685	Gender, Sexuality and HIV/AIDS in Sub-Saharan Africa	4
BIOL 706	Data Science with R for the Life Sciences	4
CLAS 525	Greek and Latin Origins of Medical Terms	4
HMP 642	Health Economics	4
HMP 669	Human Behavior and the Public Health	4
NR 650	Principles of Conservation Biology	4
PSYC 531	Psychobiology	4
PSYC 737	Behavioral Medicine	4

### BMS: MVS Capstone

The capstone explores areas of interest based on the integration of prior learning. The capstone requirement may be satisfied through a course, created work or product, or some form of experiential learning (e.g., honors thesis, mentored research project, or other special student activity). Students may take more than one capstone course. Capstone completion is never displayed on Degree Works; your advisor will certify capstone completion at the time of graduation. Students must have 90 credits or more when completing their capstone requirement. See your advisor for questions about capstones.

### Approved BMS:MVS Capstone Courses

Code	Title	Credits
BMS 635	Preceptorial in Prehospital Care (4-credit minimum)	2
BMS 702	Endocrinology	4
BMS 704	Pathologic Basis of Disease	4
BMS 711	Toxicology	4
BMS 712	Experiences in Applied Veterinary Diagnostics (4-credit minimum)	2
BMS 718	Mammalian Physiology	4
BMS 719	Host-Microbe Interactions	4
BMS 740	Human Microbiome	4
BMS 795	Investigations in Biomedical Science (4-credit minimum)	1-8
BMS 795W	Investigations in Biomedical Science (4-credit minimum)	1-8
BMS 799	Senior Thesis (4-credit minimum)	1-4
BMS 799H	Senior Honors Thesis (4-credit minimum)	1-4
BMCB 760	Pharmacology	4
BMCB 763	Biochemistry of Cancer	4
ANSC 605	Poultry Production and Health Management	4
ANSC 698	Cooperative for Real Education in Agricultural Management (CREAM)	4
BMCB 753	Cell Culture	5
INCO 790	Advanced Research Experience (4-credit minimum)	1-4
NUTR 750	Nutritional Biochemistry	4
Other 795 Investigations course in the biological sciences (4-credit minimum)		

For a Capstone experience not listed above, such as an internship, submit a [Capstone Experience Approval form](#) prior to beginning the experience.

## Degree Plan

### SAMPLE Course Sequence for Medical and Veterinary Sciences. Several courses are flexible in order of completion, as indicated by footnotes.

Course	Title	Credits
<b>First Year</b>		
<b>Fall</b>		
BMS 401	Professional Perspectives in Biomedical Sciences	1
BIOL 411	Introductory Biology: Molecular and Cellular	4
CHEM 403	General Chemistry I	4
ENGL 401	First-Year Writing	4
Discovery Course		4
<b>Credits</b>		<b>17</b>
<b>Spring</b>		
BIOL 412	Introductory Biology: Evolution, Biodiversity and Ecology	4
CHEM 404	General Chemistry II	4
MATH 424B	Calculus for Life Sciences	4
Discovery Course		4
<b>Credits</b>		<b>16</b>
<b>Second Year</b>		
<b>Fall</b>		
BMS 507 or ANSC 511	Human Anatomy and Physiology I or Anatomy and Physiology	4
BMCB 605	Principles of Cell Biology <sup>1</sup>	4
CHEM 651 & CHEM 653	Organic Chemistry I and Organic Chemistry Laboratory	5
Discovery Course		4
<b>Credits</b>		<b>17</b>
<b>Spring</b>		
BMS 508 or ANSC 512	Human Anatomy and Physiology II or Anatomy and Physiology	4
CHEM 652 & CHEM 654	Organic Chemistry II and Organic Chemistry Laboratory	5
BMS 503 & BMS 504	General Microbiology and General Microbiology Laboratory <sup>1</sup>	5
Discovery Course		4
<b>Credits</b>		<b>18</b>
<b>Third Year</b>		
<b>Fall</b>		
BIOL 528	Applied Biostatistics I	4
BMCB 658 & BMCB 659	General Biochemistry and General Biochemistry Lab	5
PHYS 401	Introduction to Physics I	4
GEN 604	Principles of Genetics <sup>1</sup>	4
<b>Credits</b>		<b>17</b>
<b>Spring</b>		
PHYS 402	Introduction to Physics II	4
Major Elective		4
Major Elective		4

Discovery Course	4
<b>Credits</b>	<b>16</b>
<b>Fourth Year</b>	
<b>Fall</b>	
Major Elective (Capstone)	4
Major Elective	4
Discovery Course	4

<b>Credits</b>	<b>16</b>
<b>Spring</b>	
Major Elective	4
Major Elective	4
Elective (any course)	4
<b>Credits</b>	<b>12</b>
<b>Total Credits</b>	<b>129</b>

<sup>1</sup> BMCB 605, BMS 503 & BMS 504, and GEN 604 and may be taken in other semesters, but all should be completed by the end of Fall semester in junior year.

## Student Learning Outcomes

### SLO: Core Knowledge

Students will demonstrate an understanding of core knowledge in biochemistry, molecular biology, cell biology, genetics & biomedical sciences.

### Biomedical Science: Medical & Veterinary Science option

- Students will be able to list the major organ systems in mammals and describe their basic structure and function.
- Students will be able to describe the differences between Gram-negative and Gram-positive bacteria.
- Students will be able to describe the structure and function of the major cellular organelles.
- Students will understand the principles of Mendelian genetics.
- Students will understand the pathogenesis of disease and effects on the major organ systems.
- Students will be able to describe the inter-relationships between health and disease, society, and the environment.

### SLO: Quantitative Literacy, Inquiry & Analysis

- Students will be able to apply the scientific method to examine experimental evidence and draw informed conclusions.
- Students will be able to use graphs to represent scientific data.
- Students will be able to apply statistical methods to interpret scientific data.

### SLO: Critical Thinking & Problem Solving

- Students will be able to use data to troubleshoot an unexpected outcome.
- Students will be able to apply core knowledge to critically interpret scientific data.

## SLO: Written Communication

- Students will demonstrate written skills to communicate scientific knowledge and experimental data.

## SLO: Oral Communication

- Students will be able to demonstrate oral presentation skills to communicate scientific knowledge and experimental data.

## Biomedical Science Major: Medical Laboratory Sciences Option (B.S.)

<https://colsa.unh.edu/molecular-cellular-biomedical-sciences/program/bs/biomedical-science-major-medical-laboratory>

### Description

The Biomedical Science: **Medical Laboratory Science (BMS:MLS) program** provides you with the medical knowledge and understanding of diagnostic testing needed for a fulfilling career in the biomedical sciences, including as an American College of Clinical Pathology-certified Medical Laboratory Scientist.

#### As a Biomedical Science: Medical Laboratory Science major, you will:

- learn to determine the presence, extent, or absence of human disease through understanding the diagnostic testing that medical professionals use to make these determinations (*70% of physician decisions are based on diagnostic testing results*)
- obtain hands-on experience by performing immunological, biochemical, molecular, and microbiological procedures that aid in the diagnosis, treatment, and prevention of disease

#### Unique features of the MLS option include:

- the only 4-year degree program in NH that includes a path for students to become certified as Medical Laboratory Scientists (MLS) by the American Society of Clinical Pathology (ASCP) and that is accredited by the National Accrediting Agency for Clinical Laboratory Sciences (NAACLS)
- Certified Medical Laboratory Scientists** are in high demand and easily find employment in hospitals and medical centers throughout the country
- the MLS program is affiliated with Dartmouth Hitchcock Medical Center and NorDx/Maine Medical Center

#### Careers or post-baccalaureate education of previous Medical Laboratory Science graduates include:

- certified medical laboratory scientists (ASCP) in diagnostic testing laboratories in hospitals and industry**
- research scientists/laboratory technicians**
  - biotechnology and pharmaceutical companies
  - biomedical research facilities
  - forensic laboratories
  - hospital reference laboratories
  - government public health laboratories
- secondary school educators** (with additional coursework in education)
- diagnostic product development**

- sales and marketing**
- state and federal government agencies** (e.g., U.S. Food and Drug Administration).
- professional health programs**
  - medical school
  - allied health programs (physician assistant, pathologists' assistant, pharmacy)
- graduate programs**
  - microbiology
  - biomedical science
  - biochemistry
  - nursing
  - public health
  - business administration

### Requirements

The Medical Laboratory Sciences (MLS) program is NAACLS accredited and follows accreditation requirements. Students in this option take four Foundation courses, five Bioscience Core courses, six BMS:MLS core courses, and five Major Elective courses. One capstone experience, supervised and approved within the major, is required of all seniors. The capstone explores areas of interest based on the integration of prior learning. In addition, all other University academic requirements must be completed, including those for Discovery Program and the University Writing Requirement.

A grade of C-minus or above is required in BMS:MLS Core Courses.

#### Foundation Courses

Code	Title	Credits
CHEM 403	General Chemistry I <sup>1</sup>	4
CHEM 404	General Chemistry II	4
CHEM 545 & CHEM 546	Organic Chemistry and Organic Chemistry Laboratory <sup>2</sup>	5
Select one of the following statistics courses: <sup>3</sup>		
BIOL 528	Applied Biostatistics I	4
or PSYC 402	Statistics in Psychology	
or SOC 402	Statistics	
or MATH 439	Statistical Discovery for Everyone	

#### Bioscience Core Courses

Code	Title	Credits
BMS 508	Human Anatomy and Physiology II	4
GEN 604	Principles of Genetics	4
BMCB 658 & BMCB 659	General Biochemistry and General Biochemistry Lab	5
Select one of the following:		
BMS 503 & BMS 504	General Microbiology and General Microbiology Laboratory	4-5
or BMS 501	Microbes in Human Disease	
Select one of the following:		
BMS 507	Human Anatomy and Physiology I	4
BIOL 411	Introductory Biology: Molecular and Cellular <sup>2, 4</sup>	0 or 4

<sup>1</sup> CHEM 403 fulfills the Physical Science Discovery requirement.

<sup>2</sup> Students applying to health profession schools need a full year of Organic Chemistry, a full year of Introductory Biology, and a full year of English. CHEM 651/CHEM 653 and CHEM 652/CHEM 654 should be taken in place of CHEM 545/CHEM 546; ENGL 502 or ENGL 503

is suggested in addition to ENGL 401. See [Pre-Professional Health Program Advising](#).

<sup>3</sup> Statistics fulfills the Quantitative Reasoning Discovery requirement.

<sup>4</sup> BIOL 411 fulfills the Biological Science Discovery requirement, Discovery Laboratory requirement, and the Discovery Inquiry requirement

### BMS-MLS Core Courses

Code	Title	Credits
BMS 401	Professional Perspectives in Biomedical Sciences	1
BMS 560 & BMS 561	Body Fluids and Body Fluids Laboratory	4
BMS 602 & BMS 603	Pathogenic Microbiology and Pathogenic Microbiology Laboratory	5
BMS 642 & BMS 643	Clinical Immunology and Serology and Clinical Serology Laboratory	4
BMS 650	Molecular Diagnostics	4
BMS 720	Mycology, Parasitology, and Virology <sup>5</sup>	3

<sup>5</sup> If BMS 721 is taken concurrently with BMS 720, it may count as one of the two required Laboratory Electives. However, BMS 721 is not a Major Elective course, so five Major Electives must still be completed, at least one of which includes a lab component, plus four additional Major Electives with or without lab.

### BMS-MLS Major Electives

A total of five **unique** Major Electives is required. Two courses must have a laboratory component.

Code	Title	Credits
Choose TWO Major Electives with a Laboratory		
BMS 623	Histology: Microscopic Cellular Structure and Function	4
BMS 644 & BMS 645	Clinical Hematology and Clinical Hematology Laboratory <sup>6</sup>	5
BMS 656 & BMS 657	Immunohematology and Blood Banking Laboratory <sup>6</sup>	4
BMS 658 & BMS 659	Medical Biochemistry and Clinical Chemistry Laboratory <sup>6</sup>	5
BMS 706 & BMS 708	Virology and Virology Laboratory	5
BMS 721	Mycology, Parasitology, and Virology Laboratory <sup>5,6</sup>	2
BMS 725	Cell Phenotyping and Tissue Engineering Laboratory	4
BMS 740	Human Microbiome	4
BMCB 753	Cell Culture	5

Code	Title	Credits
Choose THREE Major Electives from the list below (FOUR if BMS 721 is counted as a Laboratory course)		
BMS 610	Biomedical Lab Management <sup>6</sup>	4
BMS 623	Histology: Microscopic Cellular Structure and Function	4
BMS 635	Preceptorial in Prehospital Care	2
BMS 640	Phlebotomy Theory <sup>6</sup>	2
BMS 641	Phlebotomy Clinical Internship <sup>6</sup>	1-2
BMS 644	Clinical Hematology <sup>6</sup>	3
BMS 644 & BMS 645	Clinical Hematology and Clinical Hematology Laboratory <sup>6</sup>	5
BMS 644 & BMS 646	Clinical Hematology and Clinical Hemostasis <sup>6</sup>	4
BMS 656 & BMS 657	Immunohematology and Blood Banking Laboratory <sup>6</sup>	4
BMS 658 & BMS 659	Medical Biochemistry and Clinical Chemistry Laboratory <sup>6</sup>	5
BMS 702	Endocrinology	4
BMS 703	Infectious Disease and Health	4
BMS 704	Pathologic Basis of Disease	4
BMS 706 & BMS 708	Virology and Virology Laboratory	5
BMS 711	Toxicology	4

BMS 719	Host-Microbe Interactions	4
BMS 725	Cell Phenotyping and Tissue Engineering Laboratory	4
BMS 730	Ethical Issues in Biomedical Science	4
BMS 735	Molecular and Cellular Parasitology	4
BMS 740	Human Microbiome	4
BMS 749	Case Studies in Hematology and Immunology	2
BMS 750	Case Studies in Microbiology <sup>6</sup>	2
BMS 751	Advanced Clinical Microbiology Internship <sup>6</sup>	5
BMS 752	Advanced Hematology Internship <sup>6</sup>	5
BMS 753	Advanced Immunohematology Internship <sup>6</sup>	5
BMS 754	Advanced Clinical Chemistry Internship <sup>6</sup>	5
BMS 761	Clinical Microbiology Internship	20
BMS 790	Undergraduate Teaching Experience	1-4
BMS 795	Investigations in Biomedical Science	1-8
BMS 795W	Investigations in Biomedical Science	1-8
BMS 799	Senior Thesis (4-credit minimum)	1-4
BMS 799H	Senior Honors Thesis (4-credit minimum)	1-4
BMCB 605	Principles of Cell Biology	4
BMCB 753	Cell Culture	5
BMCB 760	Pharmacology	4
GEN 706	Human Genetics	4
GEN 721	Comparative Genomics	4
SOC 635W	Medical Sociology	4
Other Internships <sup>7</sup>		

<sup>6</sup> Required for students interested in MLS clinical generalist internship

<sup>7</sup> A 20 credit Clinical Hematology Internship covering advanced instruction in hematology and hemostasis at a local hospital or reference laboratory is also available. Please see your advisor for information.

### Approved BMS:MLS Capstone Courses

The capstone explores areas of interest based on the integration of prior learning. The capstone requirement may be satisfied through a course, created work or product, or some form of experiential learning (e.g., honors thesis, mentored research project, or other special student activity). Students may take more than one capstone course. Capstone completion is never displayed on Degree Works; your advisor will certify capstone completion at the time of graduation. Students must have 90 credits or more when completing their capstone requirement. See your advisor for questions about capstones.

Code	Title	Credits
BMS 635	Preceptorial in Prehospital Care	2
BMS 656	Immunohematology	3
BMS 658	Medical Biochemistry	3
BMS 719	Host-Microbe Interactions	4
BMS 725	Cell Phenotyping and Tissue Engineering Laboratory	4
BMS 740	Human Microbiome	4
BMS 747	Case Studies in Bloodbanking	1
BMS 748	Case Studies in Medical Biochemistry	1
BMS 749	Case Studies in Hematology and Immunology	2
BMS 750	Case Studies in Microbiology	2
BMS 751	Advanced Clinical Microbiology Internship	5
BMS 752	Advanced Hematology Internship	5
BMS 753	Advanced Immunohematology Internship	5
BMS 754	Advanced Clinical Chemistry Internship	5
BMS 761	Clinical Microbiology Internship	20
BMS 790	Undergraduate Teaching Experience (2 semesters, including lab presentation or instruction)	1-4
BMS 795	Investigations in Biomedical Science	1-8
BMS 795W	Investigations in Biomedical Science	1-8
BMS 799	Senior Thesis (4-credit minimum)	1-4
BMS 799H	Senior Honors Thesis (4-credit minimum)	1-4
BMCB 753	Cell Culture	5

INCO 790	Advanced Research Experience (4-credit minimum)	1-4
Other Internships <sup>7</sup>		

For a Capstone experience not listed above, such as an internship, submit a [Capstone Experience Approval form](#) prior to beginning the experience.

## Student Learning Outcomes

### SLO: Core Knowledge

Students will demonstrate an understanding of core knowledge in biochemistry, molecular biology, cell biology, genetics & biomedical sciences.

### Biomedical Science: Medical Laboratory Science option

- Students will be able to correlate patient history, symptoms and laboratory test results with the diagnosis and treatment of clinical disease state
- Students will be able to interpret, analyze, and identify clinical laboratory results.
- Students will be able to define the mechanisms that give rise to human diseases and/or organ system dysfunction, including hypersensitivity, renal disease, acid-base disorders, etc.
- Students will be able to recognize risk factors for the development of disease
- Students will be able to identify and explain the underlying principle(s) of appropriate testing methodologies and assays for diagnosis of clinical diseases and organ system dysfunction.

### SLO: Quantitative Literacy, Inquiry & Analysis

- Students will be able to apply the scientific method to examine experimental evidence and draw informed conclusions.
- Students will be able to use graphs to represent scientific data.
- Students will be able to apply statistical methods to interpret scientific data.

### SLO: Critical Thinking & Problem Solving

- Students will be able to use data to troubleshoot an unexpected outcome.
- Students will be able to apply core knowledge to critically interpret scientific data.

## SLO: Written Communication

- Students will demonstrate written skills to communicate scientific knowledge and experimental data.

## SLO: Oral Communication

- Students will be able to demonstrate oral presentation skills to communicate scientific knowledge and experimental data.

## Biomedical Science Major: Medical Microbiology Option (B.S.)

<https://colsa.unh.edu/molecular-cellular-biomedical-sciences/program/bs/biomedical-science-major-medical-microbiology-option>

### Description

The **Biomedical Science: Medical Microbiology (BMS:MM)** program explores the world of microorganisms and how they interact with both humans and animals. This major provides you with excellent academic training and laboratory experiences in the areas of microbiology, infectious disease, and public health. BMS:MM graduates are prepared for successful careers in biotechnology or public health, or entry into graduate school or health professional programs.

#### The BMS:MM program includes course work and laboratories in:

- infectious disease
- immunology
- epidemiology and community health
- molecular biology
- microbial ecology and evolution

#### Students in the BMS:MM program may participate in a variety of experiential learning activities including:

- independent research experiences in laboratories of UNH biomedical science faculty
- work at the NH Veterinary Diagnostic Laboratory located on the UNH campus
- internships at biotechnology companies in the Greater Boston area
- internships at the NH Department of Public Health Laboratories

#### BMS:MM graduates have been successful in attaining careers as:

- **research scientists/laboratory technicians**
  - biotechnology and pharmaceutical companies
  - academic biomedical research programs
  - brewing industry
- **primary and secondary school educators** (requires additional coursework in education)
- **state and federal government employees**
  - public health laboratories
  - regulatory agencies (e.g., U.S. Food and Drug Administration)

#### BMS:MM graduates are prepared for post-baccalaureate education in:

- **professional health programs**
  - medical school
  - dental school

- allied health programs (physician assistant, pharmacist, nursing, or pathologist's assistant programs)
- **graduate programs**
  - biomedical science
  - public health
  - forensic science

### Requirements

Students in the Medical Microbiology (MM) option take seven Foundation courses, six Bioscience Core courses, four BMS:MM Core courses, and five BMS:MM Major Elective courses. One capstone experience, supervised and approved within the major, is required of all seniors. In addition, all other University academic requirements must be completed, including those for the Discovery Program (p. 27) and the University Writing Requirement (p. 31).

A grade of C-minus or better is required in all Bioscience Core, BMS:MM Core, and Major Elective courses.

#### Foundation Courses

Code	Title	Credits
CHEM 403	General Chemistry I <sup>1</sup>	4
CHEM 404	General Chemistry II	4
CHEM 545 & CHEM 546	Organic Chemistry and Organic Chemistry Laboratory <sup>2</sup>	5
MATH 424B	Calculus for Life Sciences <sup>3</sup>	4
BIOL 528	Applied Biostatistics I <sup>4</sup>	4
PHYS 401	Introduction to Physics I	4
PHYS 402	Introduction to Physics II	4

#### Bioscience Core Courses

Code	Title	Credits
BIOL 411	Introductory Biology: Molecular and Cellular <sup>5</sup>	4
BIOL 412 or BMS 508	Introductory Biology: Evolution, Biodiversity and Ecology <sup>2</sup> Human Anatomy and Physiology II	4
BMS 503 & BMS 504	General Microbiology and General Microbiology Laboratory	5
GEN 604	Principles of Genetics	4
BMCB 605	Principles of Cell Biology	4
BMCB 658 & BMCB 659	General Biochemistry and General Biochemistry Lab	5

<sup>1</sup> CHEM 403 fulfills the Physical Science Discovery requirement

<sup>2</sup> Students applying to health profession schools need a full year of Organic Chemistry, a full year of Introductory Biology, and a full year of English. CHEM 651/CHEM 653 and CHEM 652/CHEM 654 should be taken in place of CHEM 545/CHEM 546; ENGL 502 or ENGL 503 is suggested in addition to ENGL 401.

<sup>3</sup> MATH 424B fulfills the Quantitative Reasoning Discovery requirement.

<sup>4</sup> PSYC 402 and SOC 402 are acceptable alternatives.

<sup>5</sup> BIOL 411 fulfills the Biological Science Discovery requirement, Discovery Laboratory requirement, and the Discovery Inquiry requirement.

#### BMS:MM Core Courses

Code	Title	Credits
BMS 401	Professional Perspectives in Biomedical Sciences <sup>6</sup>	1
BMS 602 & BMS 603	Pathogenic Microbiology and Pathogenic Microbiology Laboratory	5
BMS 705 & BMS 715	Immunology and Immunology Laboratory	5

BMS 706 & BMS 708	Virology and Virology Laboratory	5
----------------------	-------------------------------------	---

<sup>6</sup> Required for first-year students only.

### BMS-MM Major Elective Courses

A total of five **unique** major elective courses is required. At least one course must be taken in each of the following subject areas: Host-Microbe Interaction Electives, Molecular Biology Electives, and Community Electives. Two additional courses are taken from any of the major elective subject areas.

#### Host-Microbe Interaction Electives

Code	Title	Credits
BMS 655	Human and Animal Parasites <sup>7</sup>	3
BMS 703	Infectious Disease and Health	4
BMS 704	Pathologic Basis of Disease	4
BMS 719	Host-Microbe Interactions <sup>7</sup>	4
BMS 720	Mycology, Parasitology, and Virology	3
BMS 735	Molecular and Cellular Parasitology <sup>7</sup>	4
BMS 740	Human Microbiome <sup>7</sup>	4

#### Molecular Biology Electives

Code	Title	Credits
BMS 623	Histology: Microscopic Cellular Structure and Function	4
BMS 650	Molecular Diagnostics	4
BMS 655	Human and Animal Parasites <sup>7</sup>	3
BMS 711	Toxicology	4
BMS 719	Host-Microbe Interactions <sup>7</sup>	4
BMS 725	Cell Phenotyping and Tissue Engineering Laboratory	4
BMS 735	Molecular and Cellular Parasitology <sup>7</sup>	4
BMS 740	Human Microbiome <sup>7</sup>	4
BMCB 753	Cell Culture	5
BMCB 754	Molecular Biology Research Methods	5
BMCB 763	Biochemistry of Cancer	4
GEN 704	Genetics of Prokaryotic Microbes	5
GEN 705	Population Genetics <sup>8</sup>	3
GEN 713	Microbial Ecology and Evolution	4
GEN 717	Molecular Microbiology	5
GEN 721	Comparative Genomics	4

<sup>7</sup> Course may be used as either a Host-Microbe Interaction elective or Molecular Biology elective, but not both.

<sup>8</sup> Enrolling in GEN 725 concurrently is encouraged but not required

#### Community Electives

Code	Title	Credits
BMS #716	Public Health: Food- and Water-borne Diseases	4
BMS 730	Ethical Issues in Biomedical Science	4
ANSC 602	Animal Rights and Societal Issues	4
ANTH 685	Gender, Sexuality and HIV/AIDS in Sub-Saharan Africa	4
BIOL 706	Data Science with R for the Life Sciences	4
HMP 501	Epidemiology and Community Medicine	4

#### Other Major Electives

Code	Title	Credits
BMS 795	Investigations in Biomedical Science (4-credit minimum)	1-8
BMS 795W	Investigations in Biomedical Science (4-credit minimum )	1-8
BMS 799	Senior Thesis (4-credit minimum)	1-4
BMS 799H	Senior Honors Thesis (4-credit minimum)	1-4
INCO 790	Advanced Research Experience (4-credit minimum)	1-4

### BMS-MM Capstone

The capstone explores areas of interest based on the integration of prior learning. The capstone requirement may be satisfied through a course, created work or product, or some form of experiential learning (e.g., honors thesis, mentored research project, or other special student activity). Students may take more than one capstone course. Capstone completion is never displayed on Degree Works; your advisor will certify capstone completion at the time of graduation. Students must have 90 credits or more when completing their capstone requirement. See your advisor for questions about capstones.

#### Approved BMS-MM Capstone Courses

Code	Title	Credits
BMS 635	Preceptorial in Prehospital Care (4-credit minimum)	2
BMS #716	Public Health: Food- and Water-borne Diseases	4
BMS 719	Host-Microbe Interactions	4
BMS 730	Ethical Issues in Biomedical Science	4
BMS 740	Human Microbiome	4
BMS 795	Investigations in Biomedical Science (4-credit minimum)	1-8
BMS 795W	Investigations in Biomedical Science (4-credit minimum )	1-8
BMS 799	Senior Thesis (4-credit minimum)	1-4
BMS 799H	Senior Honors Thesis (4-credit minimum)	1-4
GEN 717	Molecular Microbiology	5
INCO 790	Advanced Research Experience (4-credit minimum)	1-4

For a Capstone experience not listed above, such as an internship, submit a [Capstone Experience Approval form](#) prior to beginning the experience.

**Credits** 14-16

**Spring**

Major Elective		4
Major Elective		4
Elective (any course)		3-5
Elective (any course)		3-5

**Credits** 14-18

**Total Credits** 131-137

- Students will be able to discuss basic metabolic pathways that allow microorganisms to grow, thrive, and survive in numerous environments
- Students will understand how genetic information is maintained and transferred, how mutation can affect viability and contribute to evolution, and how gene expression is regulated.
- Students will be able to discuss the role of microorganisms in human and animal health and explain, using specific examples, how microbes can be both harmful and beneficial.

SLO: Quantitative Literacy, Inquiry & Analysis

- Students will be able to apply the scientific method to examine experimental evidence and draw informed conclusions.
- Students will be able to use graphs to represent scientific data.
- Students will be able to apply statistical methods to interpret scientific data.

SLO: Critical Thinking & Problem Solving

- Students will be able to use data to troubleshoot an unexpected outcome.
- Students will be able to apply core knowledge to critically interpret scientific data.

SLO: Written Communication

- Students will demonstrate written skills to communicate scientific knowledge and experimental data.

SLO: Oral Communication

- Students will be able to demonstrate oral presentation skills to communicate scientific knowledge and experimental data.

## Biomedical Science Minor

<https://colsa.unh.edu/molecular-cellular-biomedical-sciences/program/minor/biomedical-science>

### Description

Students who wish to develop focused competencies in the broad area of the biomedical sciences can complement their major academic program with a minor in biomedical science (BMS).

### Requirements

The minor consists of a minimum of 20 credits, no more than 8 of which can also be used to fulfill major requirements. A grade of C-minus or better is required for all courses counted towards the minor.

A "C average" (2.00) is required in courses that the minor department approves. Pass/fail courses can not be used for the minor. It is the student's responsibility to file an Intent to Minor form with the BMS minor advisor by the end of the junior year and to complete a [Certification of Completion of Minor form](#) during their final semester at UNH.

#### Required Courses:

## Student Learning Outcomes

SLO: Core Knowledge

Students will demonstrate an understanding of core knowledge in biochemistry, molecular biology, cell biology, genetics & biomedical sciences.

Biomedical Science: Medical Microbiology option

- Students will be able to compare and contrast cellular and non-cellular microorganisms.
- Students will understand basic structure-function relationships of microorganism components, and explain how specific microbial components contribute to a microorganism's growth and survival.

Code	Title	Credits
BIOL 411	Introductory Biology: Molecular and Cellular	4
BMS 508	Human Anatomy and Physiology II	4
or ANSC 512	Anatomy and Physiology	

Choose courses from this list to reach a minimum of 20 credits (choice may be limited if student does not have the prereqs for certain courses):

Code	Title	Credits
BMS 501	Microbes in Human Disease	4
BMS 503 & BMS 504	General Microbiology and General Microbiology Laboratory	5
BMS 560 & BMS 561	Body Fluids and Body Fluids Laboratory	4
BMS 602 & BMS 603	Pathogenic Microbiology and Pathogenic Microbiology Laboratory	5
BMS 610	Biomedical Lab Management	4
BMS 623	Histology: Microscopic Cellular Structure and Function	4
BMS 635	Preceptorial in Prehospital Care	2
BMS 640	Phlebotomy Theory	2
BMS 644	Clinical Hematology	3
BMS 650	Molecular Diagnostics	4
BMS 655	Human and Animal Parasites	3
BMS 656	Immunohematology	3
BMS 658	Medical Biochemistry	3
BMS 702	Endocrinology	4
BMS 703	Infectious Disease and Health	4
BMS 704	Pathologic Basis of Disease	4
BMS 705	Immunology	3
BMS 706	Virology	3
BMS 711	Toxicology	4
BMS 712	Experiences in Applied Veterinary Diagnostics	2
BMS #716	Public Health: Food- and Water-borne Diseases	4
BMS 718	Mammalian Physiology	4
BMS 719	Host-Microbe Interactions	4
BMS 720	Mycology, Parasitology, and Virology	3
BMS 730	Ethical Issues in Biomedical Science	4
BMS 740	Human Microbiome	4
BMCB 605	Principles of Cell Biology	4
BMCB 753	Cell Culture	5
GEN 704	Genetics of Prokaryotic Microbes	5
GEN 717	Molecular Microbiology	5
HMP 501	Epidemiology and Community Medicine	4
NUTR 750	Nutritional Biochemistry	4

## Community and Environmental Planning (CEP)

Community and Environmental Planning students have an appreciation for communities designed for people to live, work and play. Our students study a diverse and interconnected number of topics including perspectives in community development, fundamentals of land use planning, community economics, and natural resource conservation issues. If you want to help communities deal with problems associated with the intersection of our built and natural environments, such as economic development, transportation, affordable housing, green space and local agriculture, than a degree in Community and Environmental Planning may be the right fit for you.

<https://colsa.unh.edu/natural-resources-environment>

## Programs

- [Community and Environmental Planning Major \(B.S.\)](#) (p. 297)
- [Community Planning Minor](#) (p. 299)

## Faculty

<https://colsa.unh.edu/natural-resources-environment/people>

## Community and Environmental Planning Major (B.S.)

<https://colsa.unh.edu/natural-resources-environment/program/bs/community-environmental-planning-major>

## Description

The Community and Environmental Planning (CEP) program is designed to provide students with the knowledge and skills to become effective community planners in the public or private sector. There are 16 courses required for the major. All of the courses are designed to give the student a diverse skill-set in planning for the sustainability of communities. CEP students are provided a solid planning background with planning courses covering local, state and regional planning topics and methods. CEP students also take foundational courses in natural resources, geographic information systems, economics, and statistics, as well as a political science course, and a social issues course. The internship requirement (CEP 794) allows the planning student to apply their knowledge in the real world for instrumental hands-on experience. Semester in the City is also an option for the internship experience. CEP students are encouraged to focus their remaining hours on skills that can enhance their CEP major such as a dual major, a minor, or study abroad.

Expected CEP Student Outcomes:

- The foundational education in planning, natural resources, economics and sustainability.
- The fundamental values of diversity, equity, justice, and protection of community and the environment.
- The ability to assess, discuss, and engage others in the problems and potential solutions associated with impacts of land use changes.
- The ability to work with community members and professionals in the design and implementation of community improvements in building and transportation while protecting natural and built resources.

Students may go on to work in the community development or community planning departments in local communities. They may also choose to work in regional planning agencies, or with a state or federal office. Other options include the private sector, such as architectural or development companies, or the non-profit sector, such as with community development corporations or conservation groups. The American Planning Association provides a certification process for the planning profession (American Institute of Certified Planners) after several years of planning experience. Students may also choose to go on to graduate studies in Community and Environmental Planning, Natural Resources Management, Public Administration, or a related field.

## Requirements

Courses with the prefix CEP must be completed with a C- or above (6 courses total). In addition to the CEP degree requirements (below), students must complete the University Discovery Program and the University Writing Requirements.

Code	Title	Credits
<b>Planning Courses:</b>		
CEP 415 or TOUR 510	Community Development Perspectives (Discovery Course) Tourism and Global Understanding	4
CEP 508	Applied Community Development	4
CEP 614	Fundamentals of Planning	4
CEP 673 or CEP 672	Green Real Estate Fundamentals of Real Estate	4
CEP 794 or INCO 505I	Community and Environmental Planning Internship <sup>1</sup> Semester in the City: Boston and SITC @ UNH Internship	4-12
CEP 777	Topics in Community Planning (Capstone for the major)	4
<b>Natural Resources Courses:</b>		
NR 435 or NR 502 or NR 507	Contemporary Conservation Issues and Environmental Awareness Forest Ecosystems and Environmental Change Introduction to our Energy System and Sustainable Energy	4
NR 602	Natural Resources and Environmental Policy	4
NR 658 or FORT 581	Introduction to Geographic Information Systems Applied Geospatial Techniques	4
NR 785 or NR 784	Systems Thinking for Sustainable Solutions Sustainable Living - Global Perspectives	4
TOUR 767 or NR 724	Social Impact Assessment Resolving Environmental Conflicts	4
<b>Economics and Statistics Courses:</b>		
EREC 411	Environmental and Resource Economics Perspectives	4
EREC 525 or BIOL 528	Statistical Methods and Applications Applied Biostatistics I	4
EREC 627	Community Economics	4
<b>Political Science Course:</b>		
POLT 502 or POLT 500 or POLT 523 or POLT 595	State and Local Government American Public Policy American Political Thought Smart Politics	4
<b>Social Issues Course:</b>		
SOC 450 or INCO 505B or SOC 565	Contemporary Social Problems Social Innovator's Toolbox Environment and Society	4
<b>Total Credits</b>		<b>64-72</b>

<sup>1</sup> INCO 505I Semester in the City: Boston and SITC @ UNH Internship and INCO 505A Semester in the City Becoming a Problem Solver are taken as a 12-credit internship along with INCO 505B Social Innovator's Toolbox, which fulfills the Social Issues course requirement.

CEP students are encouraged to have a study away/abroad experience, a dual degree, a minor, or focused area of study which add value to the CEP degree. Consider the following to complete the minimum of 128 credits:

- Semester in the City (if you have not done this in the CEP major)
- EcoQuest New Zealand (16 credits in electives - must qualify with EcoQuest)
- Study Away
- Study Abroad
- Minor as approved by the minor program
- Courses to round out a focus area. *It is recommended that you choose upper level courses in NR and EREC.*

## Degree Plan

### Sample Course Sequence for Community and Environmental Planning

Course	Title	Credits
<b>First Year</b>		
<b>Fall</b>		
CEP 415 or TOUR 510	Community Development Perspectives (Also counts as Discovery Social Science) or Tourism and Global Understanding	4
NR 435 or NR 502 or NR 507	Contemporary Conservation Issues and Environmental Awareness or Forest Ecosystems and Environmental Change or Introduction to our Energy System and Sustainable Energy	4
EREC 411	Environmental and Resource Economics Perspectives	4
ENGL 401	First-Year Writing (Counts as Discovery Writing)	4
<b>Credits</b>		<b>16</b>

### Spring

Choose any Discovery courses. Here are some suggestions:

Discovery Biological Science with Lab (Consider BIOL 430 or NR 433)	4
Discovery Historical Perspectives (Consider ARTS 574)	4
Discovery Humanities (Consider PHIL 430)	4
Inquiry Course (Choose any)	4
<b>Credits</b>	<b>16</b>

### Second Year

#### Fall

EREC 525	Statistical Methods and Applications (Also counts as Discovery Quantitative)	4
POLT 502 or POLT 500 or POLT 523 or POLT 595	State and Local Government or American Public Policy or American Political Thought or Smart Politics	4

Choose any Discovery course. Here are some suggestions:	4
Discovery Physical Science (Consider ESCI 409, ESCI 405, or NR 504)	
Discovery Fine and Performing Arts (Choose any)	4
<b>Credits</b>	<b>16</b>

### Spring

CEP 508	Applied Community Development	4
SOC 450 or SOC 565 or INCO 505B	Contemporary Social Problems or Environment and Society or Social Innovator's Toolbox	4
NR 602	Natural Resources and Environmental Policy	4
Discovery World Cultures (Choose any)		4
<b>Credits</b>		<b>16</b>

### Third Year

#### Fall

CEP 614	Fundamentals of Planning	4
---------	--------------------------	---

CEP 673 or CEP 672	Green Real Estate or Fundamentals of Real Estate	4
EREC 627	Community Economics	4
TOUR 767	Social Impact Assessment (Or NR 724 in Spring)	4

May consider CEP 794, Semester in the City, study away, or courses toward a minor.

**Credits** **16**

#### Spring

NR 658 or FORT 581	Introduction to Geographic Information Systems or Applied Geospatial Techniques	4
NR 724	Resolving Environmental Conflicts (or TOUR 767 in the fall)	4
Elective		4
Elective		4

May consider CEP 794, Semester in the City, study away, or courses toward a minor.

**Credits** **16**

#### Fourth Year

##### Fall

Elective		4
Elective		4
Elective		4
Elective		4

May consider CEP 794, Semester in the City, study away, or courses toward a minor.

**Credits** **16**

#### Spring

CEP 777	Topics in Community Planning	4
NR 785 or NR 784	Systems Thinking for Sustainable Solutions or Sustainable Living - Global Perspectives	4
CEP 794	Community and Environmental Planning Internship	4-12
Elective		4

**Credits** **16-24**

**Total Credits** **128-136**

## Student Learning Outcomes

- Functional fluency in the use of traditional and contemporary planning tools, methods, projects, programs, and regulatory tools.
- Analysis and articulation of social and environmental problems through the use of reliable and valid sources.
- Inventory, assessment, and documentation techniques of existing resources in the built and natural environment.
- Assessment methods of the consequences of proposed changes to the landscape at different scales, from local to regional.
- Communication strategies for a diverse population regarding social and environmental issues related to community planning and development.
- Engagement strategies for various stakeholders in the planning process through a variety of public engagement techniques.

- Development of the comprehensive master planning process and documentation with lay and professional planners.
- Skilled writing and public speaking in order to engage all stakeholders in the planning process.
- Creative thinking and scenario design development and use regarding possible futures.
- Networking with a variety of stakeholders for building a strong social network within and between communities and organizations.
- Ability to work with the various scales of planning – federal, state, regional, local, neighborhood, and site levels.
- Awareness of the opportunities for planning work in government, non-government, non-profit, Cooperative Extension, and the private sector in planning, environmental conservation, architecture, construction, and others.
- Advocacy focus for all residents, businesses, organizations and visitors regardless of income, gender, race, ethnicity, religion or other stratifications within society.
- Applied application of planning education and tangible experience through a community planning internship.

## Community Planning Minor

<https://colsa.unh.edu/nren/cep/community-planning-minor>

### Description

Planning is a multidisciplinary profession that requires an understanding of social, economic, and environmental connections to land use change. Students may supplement their major with the minor in community planning to enhance their skills to work with communities for improved sustainability.

### Requirements

- Required: 20 hours of credit
- A grade of C- or better in each of the 5 courses.
- No more than 8 credits used to satisfy major requirements may be used for the minor
- Credit/fail courses may not be used for the minor.

Code	Title	Credits
<b>Group I: Theory and Practice of Planning</b>		
All or equivalent of the following three courses:		
CEP 415	Community Development Perspectives	4
CEP 508	Applied Community Development	4
CEP 614	Fundamentals of Planning	4
<b>Group II: Tools and Applications in Planning</b>		
Select two of the following:		
CEP 673 or CEP 672	Green Real Estate Fundamentals of Real Estate	
CEP 777	Topics in Community Planning	
EREC 606	Land Economics Perspectives: Uses, Policies, and Taxes	
EREC 627	Community Economics	
EREC 756	Rural and Regional Economic Development	
NR 658	Introduction to Geographic Information Systems	
NR 724	Resolving Environmental Conflicts	
NR 785	Systems Thinking for Sustainable Solutions	
TOUR 767	Social Impact Assessment	
<b>Total Credits</b>		<b>20</b>

## Ecogastronomy

The Peter T. Paul College of Business and Economics and the College of Life Sciences and Agriculture offer undergraduate students the opportunity to pursue a dual major in EcoGastronomy. The dual major requires completion of the EcoGastronomy program and any other major.

The EcoGastronomy program prepares students for professions within our rapidly evolving food community—from farm to fork to nutrition and health outcomes—where ever-greater integration of agriculture, food, and nutrition requires a broad perspective and a specific blend of skills and knowledge. The dual major in EcoGastronomy is international by providing a context for studying "gastronomy" in Ascoli-Piceno, Italy.

## International Experience

All students who declare the dual major in EcoGastronomy spend a full semester abroad, most likely during their junior year. Students will study in Ascoli Piceno, Italy, (spring, summer or fall semester).

Dual majors will complete a series of upper-level core courses such as history of cuisine and gastronomy, history of food, aesthetics, food law, food technology processes, cross-cultural comparisons, and language.

The study abroad credit requirement is 12 credits.

## Portfolio

Students will be required to submit a portfolio annually to the director, and a cumulative portfolio to the instructor of their capstone course for final assessment.

The courses in the dual major program are multidisciplinary, taught by faculty from different departments in the University. They are designed to integrate UNH strengths in sustainable agriculture, hospitality management, and nutrition to offer a unique academic program emphasizing the interdisciplinary, international, and experiential knowledge that connects all three fields. The program is experiential by requiring students to work in the field growing food, in the kitchen preparing food, and developing the skills associated with both. They will also experience the local food cultures and get firsthand experience on the issues of food security locally, regionally, and globally.

Students who wish to declare a dual major in EcoGastronomy must have a cumulative grade-point average of 2.5; have declared, or be prepared to declare, a disciplinary major; and complete the Introduction to EcoGastronomy course (ECOG 401 Introduction to Ecogastronomy) with a grade of C or better.

ECOG 401 Introduction to Ecogastronomy is prerequisite for study abroad. All required classes and the elective are a pre/corequisite for the senior EcoGastronomy capstone course, ECOG 701 EcoGastronomy Capstone. Exceptions are possible with a late declaration of the dual major. All foreign experiences must be pre-approved by the EcoGastronomy director.

The completion of the dual major requires no additional credits for graduation beyond the 128 required of all UNH students. All coursework required for EcoGastronomy must be completed with a grade C or better. For information, contact the dual major in EcoGastronomy, PCBE 370Z, (603) 862-3327, [ecog.info@unh.edu](mailto:ecog.info@unh.edu).

## Ecogastronomy Dual Major

<https://www.unh.edu/ecogastronomy/curriculum>

## Description

**The Dual Major in EcoGastronomy** integrates UNH strengths in sustainable agriculture, hospitality management, and nutrition. EcoGastronomy offers a unique academic program emphasizing the interdisciplinary, international, and experiential knowledge that connects all three fields.

The EcoGastronomy Dual Major is a collaboration with the University of New Hampshire's College of Life Sciences and Agriculture, Peter T. Paul College of Business and Economics, and the Sustainability Institute.

## Requirements

Code	Title	Credits
<b>Required Courses:</b>		
ECOG 401	Introduction to Ecogastronomy	4
SAFS 405	Sustainable Agriculture and Food Production	4
HMG1 #403	Introduction to Food Management	0 or 4
NUTR 400	Nutrition in Health and Well Being	4
ECOG 685	EcoGastronomy Study Abroad <sup>1</sup>	0-20
ECOG 701	EcoGastronomy Capstone <sup>2</sup>	2-4
<b>Select one elective from the following courses:</b>		<b>4</b>
ANSC 602	Animal Rights and Societal Issues	
ANSC 698	Cooperative for Real Education in Agricultural Management (CREAM)	
EREC 680	Agricultural and Food Policy	
HIST 618	American Environmental History	
HMG1 771	International Wine and Beverage	
HMG1 570	International Food and Culture	
MGT 662	Exploration in Entrepreneurial Management	
NR 602	Natural Resources and Environmental Policy	
NR #701	Ecological Sustainability and Values	
NR 720	International Environmental Politics and Policies for the 21st Century	
NR 784	Sustainable Living - Global Perspectives	
NR 785	Systems Thinking for Sustainable Solutions	
NUTR 720	Community Nutrition	
NUTR 730	From Seed to Sea: Examining Sustainable Food Systems	
SAFS 679	Food Production Field Experience I	
SOC 665	Environmental Sociology	
ZOOL 610	Principles of Aquaculture	
MEFB 772	Fisheries Biology: Conservation and Management	
<b>Total Credits</b>		<b>18-44</b>

<sup>1</sup> ECOG 685 EcoGastronomy Study Abroad is a variable credit course. ECOG students must complete at least 12 credits of study abroad.

<sup>2</sup> Satisfies the capstone requirement of the Discovery Program for the EcoGastronomy major.

## Student Learning Outcomes

- Students will understand and be able to communicate the interconnected nature of the food system, taking into account the social, political, ethical, environmental, economic, and social justice issues that are intertwined in the system.
- Students will gain practical understanding of food system sustainability by engaging in experiential education opportunities.
- Students will be able to speak fluently in the language of sustainable food systems.
- Students will effectively analyze and evaluate the full lifecycle of a food, or food product, by identifying and applying reliable information.
- Students will demonstrate effective oral communication skills.
- Students will demonstrate effective written communication skills.
- Students will demonstrate effective presentation skills.

## Environmental and Resource Economics (EREC)

The Environmental and Resource Economics program offers training in areas that include public resource policy, resource management, natural resource and environmental economics, and community economics and finance. The curriculum emphasizes applied economics in the context of public policy. Training is also available in agricultural economics, including agribusiness, small business management, food marketing, agricultural policy, and world food supplies.

<https://colsa.unh.edu/natural-resources-environment>

## Programs

- [Environmental and Resource Economics Major \(B.S.\)](#) (p. 301)
- [Environmental and Resource Economics Minor](#) (p. 302)

## Faculty

<https://colsa.unh.edu/natural-resources-environment/people>

## Environmental and Resource Economics Major (B.S.)

<https://colsa.unh.edu/natural-resources-environment/program/bs/environmental-resource-economics-major>

## Description

Students majoring in environmental and resource economics will normally concentrate in one of the following three areas: environmental and natural resource economics, agricultural economics, or community economics. One capstone experience, supervised and approved within the major, is required of all seniors. The capstone explores areas of interest based on the integration of prior learning. The capstone requirement may be satisfied through a course, created work or product, or some form of experiential learning (e.g., honors thesis, mentored research project, and other special student activity). In addition, students

must satisfy University requirements, including those for the Discovery Program.

Upon graduation, students are qualified for a wide variety of opportunities. Private business, public institutions, and government agencies currently have a strong demand for specialists trained in natural resource development; land and water use policy; natural resource and small business management; agricultural, fisheries, and forestry marketing; and community development. In many cases, students may wish to improve their qualifications by pursuing more specialized graduate studies.

## Requirements

Code	Title	Credits
<b>Required Courses</b>		
ECON 401	Principles of Economics (Macro)	4
ECON 605	Intermediate Microeconomic Analysis	4
ECON 611 or ECON 635	Intermediate Macroeconomic Analysis Money and Banking	4
EREC 411	Environmental and Resource Economics Perspectives (or equivalent) <sup>1</sup>	4
EREC 525	Statistical Methods and Applications	4
MATH 420 or MATH 424B	Finite Mathematics Calculus for Life Sciences	4
<b>Select at least five of the following, two must be 700 level:</b>		
EREC 572	Introduction to Natural Resource Economics	4
EREC 606	Land Economics Perspectives: Uses, Policies, and Taxes	4
EREC 627	Community Economics	4
EREC 708	Environmental Economics	4
EREC 756	Rural and Regional Economic Development	4
ANSC 548	Agricultural Business Management	4
NR 602	Natural Resources and Environmental Policy	4
NR 643	Economics of Forestry	4
CEP 614	Fundamentals of Planning	4
CEP 777	Topics in Community Planning	4
TOUR 767	Social Impact Assessment	4
<b>Capstone</b>		

The capstone can be fulfilled through a course (EREC 708, EREC 756, EREC 760, CEP 777 or TOUR 767), or a created work or product, or some form of experiential learning (e.g., honors theses, mentored research projects in EREC 795, EREC 799, and other special student activities)

<sup>1</sup> EREC 411 cannot be used to satisfy the Social Science Discovery program requirement; or taken for credit if credit has been earned for ECON 402.

Students are encouraged to consider adding additional courses from the economics (ECON) department to their program. In special cases, students may petition to have these courses, particularly ECON 706 and ECON 726, substitute for major EREC electives.

<b>Total Credits</b>	<b>128</b>

<sup>1</sup> At least one Discovery course must have the Inquiry attribute.

<sup>2</sup> The student must take at least 2 Writing-Intensive courses in addition to any of the following: EREC 708 Environmental Economics, EREC 756 Rural and Regional Economic Development, and CEP 777 Topics in Community Planning.

<sup>3</sup> EREC 708 Environmental Economics, EREC 756 Rural and Regional Economic Development, EREC 760 Ecological-Economic Modeling for Decision Making, CEP 777 Topics in Community Planning, and TOUR 767 Social Impact Assessment satisfy the capstone requirement for the major.

## Student Learning Outcomes

Students will be able to:

- Evaluate the validity and limitations of scientific theories and claims about the environment;
- Describe and explain the interactions among physical, biological, chemical, and human components of the environment;
- Formulate tests of environmental questions, acquire data, and apply scientific methods to answer these questions;
- Characterize the various social drivers of environmental problems and the relative attributes of policy instrument solutions;
- Locate, evaluate, and summarize print and electronic media including peer-reviewed literature and then compose and deliver informed positions on current environmental problems to the public.
- Describe and explain the ecological and societal value of biodiversity, sustainability, and environmental stewardship;
- Master mathematical, statistical, and study design knowledge and skills, and use state-of-the-art software, hardware, and analytical techniques relevant to environmental conservation and sustainability;
- Use principles of ecology, economics, sustainability, and policy science to solve real-world environmental problems;
- Communicate effectively to peers within the environmental community and with audiences outside of the discipline.

## Environmental and Resource Economics Minor

<https://colsa.unh.edu/natural-resources-environment/program/minor/environmental-resource-economics>

### Description

The Environmental and Resource Economics minor aims to provide students majoring in other disciplines with an understanding of environmental and resource economics, and their uses in personal, social, business and government decision-making. Students learn how to apply economic analyses in evaluating environmental and resource problems, identifying their causes and examining alternative solutions. The minor also offers courses that teach techniques useful for decision making

by local and regional communities. Students also obtain skills in the management of agricultural and natural-resource business firms.

## Requirements

### Minor Requirements

- Complete 5 Courses with a minimum of 20 credits from the courses listed below, with a grade of C- or better.
- No more than 8 credits used to satisfy major requirements may be used for the minor.
- Pass/Fail courses may not be used for the minor

Code	Title	Credits
Select at least 5 courses from the following:		20
EREC 411	Environmental and Resource Economics Perspectives <sup>1</sup>	
EREC 444	The New Pirates of the Caribbean	
EREC 525	Statistical Methods and Applications	
ANSC 548	Agricultural Business Management	
EREC 572	Introduction to Natural Resource Economics	
EREC #600	Field Experience	
EREC 606	Land Economics Perspectives: Uses, Policies, and Taxes	
EREC 627	Community Economics	
EREC 708	Environmental Economics	
EREC 756	Rural and Regional Economic Development	
EREC 795	Investigations	
EREC 795W	Investigations	
Total Credits		20

<sup>1</sup> EREC 411 cannot be taken for credit if credit has been earned for ECON 402.

## Environmental Conservation and Sustainability

### Mission of the ECS Major

Graduates of the environmental conservation and sustainability major understand the complexity of social-ecological systems and meet environmental challenges in innovative ways. ECS students understand ecological principles and comprehend the connections between natural resource and social systems (history, economics, law, policy, international perspectives). They integrate scientific information and human values and articulate problems in ways that point to solutions leading to a sustainable future.

ECS graduates have the theoretical, methodological, technical, and practical skills necessary to solve complex problems. They work collaboratively and across disciplinary boundaries and at all scales from the local to the international. Their critical thinking and communication skills allow them to serve as liaisons among diverse interest groups and to design, implement, and facilitate policy and action toward a sustainable future.

ECS graduates are environmental citizens, sustainability advocates, and leaders for constructive change. They typically serve as policy analysts, sustainability officers, resource managers, journalists, scientists, and teachers in business, non-profit organizations, and government agencies, including the Peace Corps and Ameri-Corps. Many ECS graduates attend graduate or professional programs following graduation.

## Environmental Conservation and Sustainability Major (B.S.)

<https://colsa.unh.edu/natural-resources-environment/program/bs/environmental-conservation-sustainability-major>

## Description

### ECS Major Curriculum

The ECS major is comprised of 14 core requirements providing integrative courses in both environmental conservation and sustainability, along with a foundation in biology, ecology, physical and social science, and the basic tools and skills applied to problem solving. These core requirements are typically fulfilled in the first two years. Beginning in their junior year, ECS students, in consultation with their advisers, create a seven course focus area based on an ecological system or natural resource of their choosing. The focus area provides advanced study in ecology and natural resources; social sciences; tools, skills, and/or natural history and should reflect the student's interests and future goals. Additionally, each ECS student completes a practicum experience and a capstone option.

The ECS major provides the opportunity for students to gain a common foundation of knowledge and skills emphasizing integration and critical thinking, while allowing for sufficient flexibility to pursue their interests and passions within a large and complex field of study. The design of the curriculum will allow each student at least four, and as many as six, free electives, which they may fulfill as they choose. Many students pursue international experiences, such as the UNH EcoQuest program in New Zealand, add a minor or dual degree (such as the dual degree in international studies), and/or pursue research opportunities with our faculty or through another of UNH's undergraduate research opportunity programs.

## Requirements

### ECS Major Requirements

Code	Title	Credits
Degree Core Requirements		
Foundational Courses:		
NR 435	Contemporary Conservation Issues and Environmental Awareness	
NR 437	Principles of Sustainability	
Natural Science:		
Biology:		
BIOL 412	Introductory Biology: Evolution, Biodiversity and Ecology	
NR 439	Environmental Biology	
Ecological Principles: Select one of the following		

BIOL 541	Ecology	
NR 527	Forest Ecology	
SAFS 502	Agroecology	
Physical Science: Select one of the following		4
NR 403	Introduction to Environmental Science	
NR #458	The Science of Where	
CHEM 403	General Chemistry I	
CHE 410	Energy and Environment	
ESCI 409	Geology and the Environment	
CEE 520	Environmental Pollution and Protection: A Global Context	
PHYS 401	Introduction to Physics I	
<b>Social Science:</b>		
Resource Economics:		
EREC 411	Environmental and Resource Economics Perspectives	
Environmental Ethics and Values: Select one of the following		4
NR 784	Sustainable Living - Global Perspectives	
SOC 565	Environment and Society	
Natural Resources Policy: Select one of the following		4
NR 602	Natural Resources and Environmental Policy	
NR 662	Environmental Policy, Planning and Sustainability in New Zealand	
<b>Essential Tools and Skills:</b>		
Field Methods:		
NR 415	Natural Resources Field Methods	
Statistics: Select one of the following		4
BIOL 528	Applied Biostatistics I	
EREC 525	Statistical Methods and Applications	
Geospatial Analysis:		
NR 658	Introduction to Geographic Information Systems	
Writing Skills: Select one of the following		4
ENGL 502	Professional and Technical Writing	
ENGL 503	Persuasive Writing	
ENGL 521	Nature Writers	
Presentation Skills: Select one of the following		4
CMN 500	Public Speaking	
NR 508	Communicating Science	
THDA #520	Creative Drama	
THDA 583	Introduction to Puppetry	
THDA 522	Storytelling, Story Theatre, and Involvement Dramatics	
THDA 624	Theatre for Young Audiences	
<b>Focus Area</b>		
Select seven total courses to create a focus area addressing an environmental issue, ecological system, or natural resource (see below) <sup>1</sup>		28
<b>Ecology and Natural Resources:</b>		
Select one to four courses: no more than one course may be at the 400 or 500 level. Additional courses must be at the 600 or 700 levels.		
ESCI 405	Global Environmental Change	
MEFB 755	Biological Oceanography	
NR 433	Wildlife Ecology	
NR 501	Studio Soils	
NR 502	Forest Ecosystems and Environmental Change	
NR 504	Freshwater Resources	
NR 603	Landscape Ecology	
NR #625	Physiological Ecology	
NR 640	Wildlife Population Ecology	
NR 642	Introduction to Biogeography	
NR 650	Principles of Conservation Biology	
NR 660	Ecology and Biogeography of New Zealand	
NR 661	Restoration Ecology and Ecosystem Management in New Zealand	
NR 663	Applied Directed Research in New Zealand	
NR 664	Conservation Genetics	
NR 706	Soil Ecology	
NR 730	Terrestrial Ecosystems	
NR 734	Tropical Ecology	
NR 743	Ecology and Society in a Changing Arctic	
NR 744	Biogeochemistry	
NR 751	Aquatic Ecosystems	
NR 761	Environmental Soil Chemistry	
NR 765	Community Ecology	

NR 782	Forest Health in a Changing World	
MEFB 725	Marine Ecology	
MEFB 747	Aquatic Plants in Restoration/Management	
SAFS 760	Insect Pest Management	
MEFB 628	Marine Invertebrate Evolution and Ecology	
MEFB 674	Ecology and Marine Environment	
MEFB 702	Sustainable Marine Fisheries	
MEFB 772	Fisheries Biology: Conservation and Management	
<b>Social Sciences</b>		
Select two to five courses: no more than one course may be at the 400 or 500 level. Additional courses must be at the 600 or 700 levels.		
CEP 415	Community Development Perspectives	
CEP 508	Applied Community Development	
NR 507	Introduction to our Energy System and Sustainable Energy	
NR 606	International Energy Topics	
NR 643	Economics of Forestry	
NR 662	Environmental Policy, Planning and Sustainability in New Zealand	
NR 720	International Environmental Politics and Policies for the 21st Century	
NR 724	Resolving Environmental Conflicts	
NR 784	Sustainable Living - Global Perspectives	
NR 787	Advanced Topics in Sustainable Energy	
ANTH 695	Globalization and Global Population Health	
CEP 614	Fundamentals of Planning	
CEP 673	Green Real Estate	
ECON 605	Intermediate Microeconomic Analysis	
ECON 645	International Economics	
ECON 668	Economic Development	
ECON 706	Economics of Climate Change	
EREC 572	Introduction to Natural Resource Economics	
EREC 606	Land Economics Perspectives: Uses, Policies, and Taxes	
EREC 627	Community Economics	
EREC 680	Agricultural and Food Policy	
EREC 708	Environmental Economics	
EREC 756	Rural and Regional Economic Development	
GEOG 673	Political Ecology	
HIST 618	American Environmental History	
POLT 751	Comparative Environmental Politics and Policy	
SOC 665	Environmental Sociology	
SOC 730	Communities and the Environment	
TOUR 400	Introduction to Tourism	
<b>Advanced Tools &amp; Skills and Natural History</b>		
Select at least one course		
NR 425	Field Dendrology	
NR #655	Vertebrate Biology	
NR 703	Watershed Water Quality Management	
NR 707	Environmental Modeling	
NR 712	Mammalogy	
NR 713	Quantitative Ecology	
NR 729	Silviculture	
NR 745	Forest Management	
NR 749	Forest Inventory and Modeling	
NR 757	Remote Sensing of the Environment	
NR 759	Digital Image Processing for Natural Resources	
NR 760	Geographic Information Systems in Natural Resources	
NR 785	Systems Thinking for Sustainable Solutions	
SOC 601	Methods of Social Research	
BIOL 752	New England Mushrooms: a Field and Lab Exploration	
CEP 777	Topics in Community Planning	
TOUR 767	Social Impact Assessment	
MEFB 719	Field Studies in Lake Ecology	
MEFB #732	Lake Management	
ZOOL 542	Ornithology	
<b>Senior Capstone Options</b>		
The ECS major capstone experience may be filled by any one (1) of the following options:		4
Option 1:		
NR 786	Leadership for Sustainability	
Option 2: Both seminars must be scheduled. At least one must be taken in the senior year.		

NR 753 & NR 754	Critical Issues in Sustainability: Sustainability as an Abundance Paradigm and Critical Issues in Sustainability: Sense of Place
Option 3:	
NR 663	Applied Directed Research in New Zealand (NZ Directed projects, if taken in the senior year) <sup>2</sup>
Option 4:	
Directed projects fulfilling one of the following: McNair Research Theses, Hamel Center Programs (IROP, SURF USA, SURF Abroad, etc.) may be applied in consultation with the adviser and ECS program coordinator.	
<b>Work Experience</b>	
NR 600	Work Experience <sup>3</sup>
<b>Total Credits</b>	<b>60</b>

<sup>1</sup> The focus area is based upon at least one course in the ecology and natural resources category, along with a combination of courses in the social sciences; tools, skills, and natural history categories; and any additional courses from the ecology and natural resources category reflecting the student's interests and future direction. Focus areas should be designed in close consultation with the adviser. Courses used to fulfill core requirements may not be used in the focus area.

<sup>2</sup> If NR 663 Applied Directed Research in New Zealand is taken in the junior year or earlier, then one Critical Issues seminar (2cr) or Leadership for Sustainability must be taken in the senior year to fulfill the capstone requirement.

<sup>3</sup> Each ECS major will engage in a practical experience reflecting their interests and goals. The choice of the experience will be made in conjunction with the adviser and may occur any time beginning with the sophomore year.

## Degree Plan

**Sample** Course Sequence for Environmental Conservation and Sustainability

Course	Title	Credits
<b>First Year</b>		
<b>Fall</b>		
BIOL 412	Introductory Biology: Evolution, Biodiversity and Ecology (Inquiry, Disc BS)	4
NR 435	Contemporary Conservation Issues and Environmental Awareness (Disc ETS)	4
EREC 411	Environmental and Resource Economics Perspectives (or Discovery Course, not SS or ETS)	4
ENGL 401 or Discovery Course		4
<b>Credits</b>		<b>16</b>
<b>Spring</b>		
NR 437	Principles of Sustainability	4
NR 439	Environmental Biology	4
EREC 411	Environmental and Resource Economics Perspectives (or Discovery Course, not SS or ETS)	4
ENGL 401 or Discovery Course		4
<b>Credits</b>		<b>16</b>
<b>Second Year</b>		
<b>Fall</b>		
NR 415	Natural Resources Field Methods	2
Ecological Principles <sup>1</sup>		4
Physical Science (Disc PS) <sup>2</sup>		4

Presentation Skills (possible Disc FPA) <sup>2</sup>	4
Practicum <sup>3</sup>	0
Elective	4
<b>Credits</b>	<b>18</b>

### Spring

Statistics (Disc QR) <sup>2</sup>	4
Writing Skills (Univ. writing req.) <sup>2</sup>	4
NR 658 Introduction to Geographic Information Systems	4
NR 602 or Discovery Course	4
<b>Credits</b>	<b>16</b>

### Third Year

#### Fall

NR 602 or Discovery Course	4
Ethics/Values Requirement	4
Focus Area Courses	8
OR Electives	
OR any remaining Discovery or WI requirement	
OR Capstone <sup>4</sup>	
<b>Credits</b>	<b>16</b>

#### Spring

Focus Area Courses <sup>5</sup>	16
OR Electives	
OR any remaining Discovery or WI requirements	
OR Capstone <sup>4</sup>	
<b>Credits</b>	<b>16</b>

### Fourth Year

#### Fall

Capstone Requirement <sup>5</sup>	2-4
Focus Area Courses	12
OR Electives	
OR any remaining Discovery of WI requirements	
<b>Credits</b>	<b>14-16</b>

#### Spring

Capstone Requirement <sup>5</sup>	2-4
Focus Area Courses	12
OR Electives	
OR any remaining Discovery of WI requirements	
<b>Credits</b>	<b>14-16</b>
<b>Total Credits</b>	<b>126-130</b>

<sup>1</sup> All choices for the Ecological Principles requirement **except** for SAFS 502 are fall courses.

<sup>2</sup> The Statistics, Physical Science, Writing Skills and Presentation Skills requirements may be taken in either the Fall or Spring Semester of the second year.

<sup>3</sup> Work experience, internship, etc may be scheduled any time beginning in the second year.

<sup>4</sup> One of the 2 credit capstone seminars may be taken in either the fall or spring of the junior year.

<sup>5</sup> One 2 credit seminar may be taken in each of the Fall and Spring semesters of the Senior Year OR NR 786 may be taken in the Fall semester of the Senior Year.

# Student Learning Outcomes

- Students will be able to:
- Describe and explain the interactions among physical, biological, chemical, and human components of the environment;
  - Formulate tests of environmental questions, acquire data, and apply scientific methods to answer these questions;
  - Describe and explain the ecological and societal value of biodiversity, sustainability, and environmental stewardship;
  - Use principles of ecology, economics, sustainability, and policy science to solve real-world environmental problems;
  - Communicate effectively to peers within the environmental community and with audiences outside of the discipline.

## Environmental Conservation and Sustainability Minor

<https://colsa.unh.edu/natural-resources-environment/program/minor/environmental-conservation-sustainability>

### Description

The minor in Environmental Conservation and Sustainability allows students from diverse majors across all UNH colleges to incorporate the theory and practice of sustainable resource use into their 4-year baccalaureate studies. Students take required introductory courses in both conservation and sustainability and then can fill out their minor with choices from ecology, social science and management, and a range of advanced topics. As well, students who participate in the EcoQuest Study Abroad Program can apply their courses to the minor.

### Requirements

- 20 credits total required**
- A grade of C or better in each of the 5 courses.
  - No more than 8 credits used to satisfy major requirements may be used for the minor
  - Credit/fail courses may not be used for the minor.

Code	Title	Credits
<b>Required Courses</b>		
NR 435	Contemporary Conservation Issues and Environmental Awareness	4
NR 437	Principles of Sustainability	4
<b>Select one course from each of the following categories:</b>		
<b>Ecology (choose one):</b>		<b>4</b>
BIOL 541	Ecology	
NR 433	Wildlife Ecology	
NR 502	Forest Ecosystems and Environmental Change	
NR 527	Forest Ecology	
NR 660	Ecology and Biogeography of New Zealand	
SAFS 502	Agroecology	
<b>Social Science and Management (choose one):</b>		<b>4</b>
NR 507	Introduction to our Energy System and Sustainable Energy	
NR 602	Natural Resources and Environmental Policy	
NR 662	Environmental Policy, Planning and Sustainability in New Zealand	
NR 786	Leadership for Sustainability	
EREC 606	Land Economics Perspectives: Uses, Policies, and Taxes	
EREC 627	Community Economics	

<b>Advanced Topics in Conservation and Sustainability (choose one):</b>		<b>4</b>
NR 603	Landscape Ecology	
NR 606	International Energy Topics	
NR 650	Principles of Conservation Biology	
NR 661	Restoration Ecology and Ecosystem Management in New Zealand	
NR 720	International Environmental Politics and Policies for the 21st Century	
NR 724	Resolving Environmental Conflicts	
NR 784	Sustainable Living - Global Perspectives	
NR 785	Systems Thinking for Sustainable Solutions	
NR 787	Advanced Topics in Sustainable Energy	
NR 795	Investigations <sup>1</sup>	
MEFB 702	Sustainable Marine Fisheries	
EREC 708	Environmental Economics	
TOUR 767	Social Impact Assessment	
<b>Total Credits</b>		<b>20</b>

<sup>1</sup> NR 795 Investigations requires working with an individual ECS faculty member on a special problem/issue.

## Environmental Sciences

The College of Engineering and Physical Sciences (CEPS) and the College of Life Sciences and Agriculture (COLSA) jointly offer a bachelor of science degree in environmental sciences. Environmental sciences, an interdisciplinary field, focuses on the interaction of biological, chemical, and physical processes that shape our natural environment. Students graduating with a degree in environmental sciences will have an understanding of these interacting processes, the ability to communicate effectively with both scientific and lay audiences, competency in field methods appropriate for entry-level environmental science positions, competency in the use and application of Geographic Information Systems (GIS), a basic understanding of environmental policy, and the ability to contribute to multidisciplinary teams. The University of New Hampshire is a recognized leader in environmental sciences research, and the environmental sciences program capitalizes on faculty expertise in this area. The full-time faculty members comprising this program have major teaching and research emphases in the areas of biogeochemical cycling, environmental chemistry, ecosystem science, geospatial science, global change, hydrology, plant ecology, soil science, and water resource management.

Employment opportunities include environmental consulting firms, educational facilities (e.g., science centers), environmental monitoring laboratories (e.g., water treatment plants; the Environmental Protection Agency), government agencies (e.g., the U.S. Geological Survey, Bureau of Land Management, Natural Resource Conservation Service), university and government research laboratories, and nongovernment environmental organizations. The environmental sciences program also constitutes an excellent preparation for graduate programs in several areas relating to the environment. Students should consult with their adviser early if their goals include further study.

The Program has four options, and specific course requirements for the major vary by option. The geosystems and hydrology options are both managed by the Department of Earth Sciences in CEPS, and the ecosystems and soil and watershed management options are both managed by the Department of Natural Resources and the Environment in COLSA.

<https://colsa.unh.edu/natural-resources-environment>

## Programs

- [Environmental Sciences Major: Ecosystems Option \(B.S.\)](#) (p. 307)
- [Environmental Sciences Major: Geosystems Option \(B.S.\)](#) (p. 194)
- [Environmental Sciences Major: Hydrology Option \(B.S.\)](#) (p. 197)
- [Environmental Sciences Major: Soil and Watersheds Option \(B.S.\)](#) (p. 308)

## Faculty

COLSA faculty: <https://colsa.unh.edu/directory/all>

CEPS faculty: <https://ceps.unh.edu/directory/all>

## Environmental Sciences Major: Ecosystems Option (B.S.)

<https://colsa.unh.edu/natural-resources-environment/program/bs/environmental-sciences-major-ecosystems-option>

## Description

The College of Life Sciences and Agriculture (COLSA) and the College of Engineering and Physical Sciences (CEPS) jointly offer a bachelor of science degree in environmental sciences. Environmental science is an interdisciplinary field concerned with the interaction of biological, chemical, and physical processes that shape the environment, and control the response of natural systems to human activities. Students graduating with a degree in environmental sciences will have an understanding of these interacting processes, experience working in interdisciplinary teams to apply this understanding, and the ability to communicate effectively with both scientific and lay audiences. While in this program, students will acquire significant experience with field, laboratory and analytical methods appropriate for employment in professional environmental science positions as well as a basic understanding of environmental policy. The University of New Hampshire is a recognized leader in environmental sciences research, and the environmental sciences program capitalizes on faculty expertise in this area. Program faculty emphasize teaching and research in the areas of biogeochemical cycling, environmental chemistry, ecosystem science, global change, hydrology, plant ecology, soil science, and water resource management among many other fields.

Employment opportunities include environmental consulting firms; educational facilities (e.g., science centers), environmental monitoring laboratories (e.g., water treatment plants, the Environmental Protection Agency), government agencies (e.g., the U.S. Geological Survey, Bureau of Land Management, Natural Resource Conservation Service), university and government research laboratories, and nongovernment environmental organizations. The environmental sciences program also constitutes an excellent preparation for graduate programs in several areas relating to the environment.

The Program has four options, and specific course requirements for the major vary by option. The ecosystems and soils and watersheds options are both managed by the Department of Natural Resources and the Environment in COLSA, and the geosystems and hydrology options are both managed by Earth Sciences in CEPS.

## Requirements

Code	Title	Credits
<b>Scope of the Major (Introduction - 3 Courses)</b>		<b>9</b>
NR 400	Professional Perspectives in Natural Resources	
NR 403	Introduction to Environmental Science	
NR 435 or NR 437	Contemporary Conservation Issues and Environmental Awareness Principles of Sustainability	
<b>The Scientific Basis (Foundation - 7 Courses)</b>		<b>28</b>
<b>Biology I:</b>		
BIOL 412	Introductory Biology: Evolution, Biodiversity and Ecology	
<b>Biology II:</b>		
BIOL 411 or NR 439	Introductory Biology: Molecular and Cellular Environmental Biology	
<b>Chemistry I:</b>		
CHEM 403 or CHEM 405 or CHEM 411	General Chemistry I Chemical Principles for Engineers Introductory Chemistry for Life Sciences	
<b>Chemistry II:</b>		
NR 561 or CHEM 404	Chemistry of the Environment General Chemistry II	
<b>Physics:</b>		
PHYS 401 or PHYS 407	Introduction to Physics I General Physics I	
<b>Calculus:</b>		
MATH 424B or MATH 425	Calculus for Life Sciences Calculus I	
<b>Statistics:</b>		
BIOL 528 or EREC 525	Applied Biostatistics I Statistical Methods and Applications	
<b>Earth and its Systems (Core - 6 Courses)</b>		<b>24</b>
<b>Earth Science:</b>		
ESCI 401 or ESCI 402 or ESCI 409	Dynamic Earth Earth History Geology and the Environment	
<b>Aquatic Science:</b>		
NR 504	Freshwater Resources	
<b>Soils:</b>		
NR 501	Studio Soils	
<b>Climate/Weather:</b>		
ESCI 514 or GEOG 473 or GEOG 670	Introduction to Climate Elements of Weather Climate and Society	
<b>Ecology:</b>		
NR 527 or NR 660 or BIOL 541 or MEFB 530 or MEFB 674	Forest Ecology Ecology and Biogeography of New Zealand Ecology Evolution and Marine Diversity Ecology and Marine Environment	
<b>Human Dimensions:</b>		
NR 602 or NR 662 or NR 507 or NR 784 or MEFB 702	Natural Resources and Environmental Policy Environmental Policy, Planning and Sustainability in New Zealand Introduction to our Energy System and Sustainable Energy Sustainable Living - Global Perspectives Sustainable Marine Fisheries	
<b>Environmental Toolkit (Methods - 2 Courses)</b>		<b>7-8</b>
Select two courses from the following:		
ESCI 534	Techniques in Environmental Sciences	
NR 658 or ESCI 777 or FORT 581	Introduction to Geographic Information Systems GIS for Earth & Environmental Sciences Applied Geospatial Techniques	
NR 757 or ESCI 778	Remote Sensing of the Environment Remote Sensing Earth & Environmental Sciences	
NR 713	Quantitative Ecology	
MEFB 500	Coastal Habitat Field Research Methods	
<b>Ecosystem Integration (Advanced Topics - 4 Courses)</b>		<b>16</b>
Population and Community Ecology:		

NR 765	Community Ecology
or NR 734	Tropical Ecology
or NR 706	Soil Ecology
or NR 660	Ecology and Biogeography of New Zealand
or NR 640	Wildlife Population Ecology
or NR 642	Introduction to Biogeography
or NR 603	Landscape Ecology
or BIOL 720	Plant-Animal Interactions
Ecosystems:	
NR 730	Terrestrial Ecosystems
or NR 751	Aquatic Ecosystems
or NR 661	Restoration Ecology and Ecosystem Management in New Zealand
or MEFB 508	Marine Ecosystem Research and Management
Biogeochemistry:	
NR 744	Biogeochemistry
or NR 761	Environmental Soil Chemistry
or NR 703	Watershed Water Quality Management
or ESCI 642	Biogeosciences in the Earth System
Environmental Problem Solving:	
ESCI 654	Fate and Transport in the Environment
or NR 707	Environmental Modeling
or EREC 760	Ecological-Economic Modeling for Decision Making
or NR 749	Forest Inventory and Modeling
or NR 743	Ecology and Society in a Changing Arctic
Integration and Research (The Capstone Experience) 1-2	
Capstone:	
NR 663	Applied Directed Research in New Zealand
or NR 786	Leadership for Sustainability
or NR 795	Investigations
or NR 799	Honors Senior Thesis

Capstone: NR 663 (EcoQuestif Senior Year)(WI), or NR 786, or NR 795, or NR 799, or approved research experience, or approved internship. Every student must complete a capstone experience senior year, or during the summer before senior year,if at least 90 credit hours have been completed.

NR791 –Preparation for Capstone (1 credit, pass/no credit) is offered every spring. While not required for graduation, it is recommended for second semester juniors who need guidance in terms of developing a capstone project and completing the Capstone Contract.

- a. A Contract form provided by the Program must be completed and signed by the student, the adviser, the program coordinator, and the capstone mentor (faculty or off-campus) before the capstone experience,by the end of Junior Year.
- b. A signed Capstone Experience Evaluation form must be handed in to your advisor by the end of Senior year in order to graduate.

Individualizing Your Education (Electives)

One goal of this program is to allow students the opportunity to pursue minors, dual majors, research and study abroad opportunities, while still completing the degree in four years of full-time enrollment. To this end, the program requires a total of 85 credit hours. The University Discovery program includes 5 areas (20 credit hours) not covered by this major. These include English 401, Fine and Performing Arts, Humanities, Historical Perspectives, World Cultures (NOTE: The World Cultures category can be met by certain study abroad programs, including EcoQuest). Combined, Major and Discovery requirements total 105 credit hours. With a total of 128 credit hours required by the University for graduation, this leaves 23 credit hours that can be put towards minors, dual majors, study abroad, Directed Research, etc.

- <sup>1</sup> Many students enroll in the EcoQuest program (a study abroad opportunity in New Zealand), which satisfies the policy requirement, and capstone requirement if taken senior year.
- <sup>2</sup> NR 791 Preparation for Capstone - is offered every spring. While not required for graduation, it is recommended for second semester juniors who need guidance in terms of developing a capstone project and completing the Capstone Contract.

Student Learning Outcomes

Key Learning Objectives: The primary Learning Outcome for the Environmental Science Program will be that students will master the content offered in the courses specified in the curriculum as assessed by performance on exams, labs and written assignments. This will include an understanding of the physical, chemical and biological processes

central to the function of environmental systems, the mathematical concepts required to understand, explain and predict those processes, and the ability to determine the significance of results, both in terms of statistical probability and impact on the larger world.

The learning process leading to this mastery will require that students will have:

- Knowledge of how physical, chemical, and biological factors interact with human activities to shape the environment;
- Proficiency with environmental techniques including field, lab, GIS, or modeling;
- The ability to solve environmental problems;
- The ability to communicate orally or in writing about environmental dynamics.

Environmental Sciences Major: Soil and Watersheds Option (B.S.)

<https://colsa.unh.edu/natural-resources-environment/program/bs/environmental-sciences-major-soil-watersheds-option>

Description

The College of Life Sciences and Agriculture (COLSA) and the College of Engineering and Physical Sciences (CEPS) jointly offer a bachelor of science degree in environmental sciences. Environmental science is an interdisciplinary field concerned with the interaction of biological, chemical, and physical processes that shape the environment, and control the response of natural systems to human activities. Students graduating with a degree in environmental sciences will have an understanding of these interacting processes, experience working in interdisciplinary teams to apply this understanding, and the ability to communicate effectively with both scientific and lay audiences. While in this program, students will acquire significant experience with field, laboratory and analytical methods appropriate for employment in professional environmental science positions as well as a basic understanding of environmental policy. The University of New Hampshire is a recognized leader in environmental sciences research, and the environmental sciences program capitalizes on faculty expertise in this area. Program faculty emphasize teaching and research in the areas of biogeochemical cycling, environmental chemistry, ecosystem science, global change, hydrology, plant ecology, soil science, and water resource management among many other fields.

<b>Environmental Toolkit (Methods - 2 Courses)</b>		<b>7-8</b>
Select two courses from the following:		
ESCI 534	Techniques in Environmental Sciences	
NR 658 or ESCI 777 or FORT 581	Introduction to Geographic Information Systems GIS for Earth & Environmental Sciences Applied Geospatial Techniques	
NR 757 or ESCI 778	Remote Sensing of the Environment Remote Sensing Earth & Environmental Sciences	
NR 707	Environmental Modeling	
NR 713	Quantitative Ecology	
MEFB 500	Coastal Habitat Field Research Methods	

<b>Soil and Watershed Systems (Advanced Topics –5 courses –20 credits)</b>		<b>16</b>
Advanced Soils:		
NR 761 or NR 706	Environmental Soil Chemistry Soil Ecology	
Watersheds:		
NR 703	Watershed Water Quality Management	
Ecosystems:		
NR 730 or NR 751 or NR 661 or MEFB 508	Terrestrial Ecosystems Aquatic Ecosystems Restoration Ecology and Ecosystem Management in New Zealand Marine Ecosystem Research and Management	
Biogeochemistry:		
NR 744 or ESCI 642	Biogeochemistry Biogeosciences in the Earth System	
Advanced Soils and Watersheds:		
NR 743 or ESCI 654 or ESCI 705 or ESCI 710 or ESCI 747 or CEE 796 or CEE 754	Ecology and Society in a Changing Arctic <sup>1</sup> Fate and Transport in the Environment Principles of Hydrology Groundwater Hydrology Aqueous Geochemistry Special Topics Engineering Hydrology	
<b>Integration and Research (The Capstone Experience) 2-3</b>		
Capstone:		
NR 663 or NR 786 or NR 795 or NR 799	Applied Directed Research in New Zealand Leadership for Sustainability Investigations Honors Senior Thesis	4
Capstone: NR 663 (EcoQuestif Senior Year)(WI), or NR 786, or NR 795, or NR 799, or approved research experience, or approved internship. Every student must complete a capstone experience senior year, or during the summer before senior year,if at least 90 credit hours have been completed.		
NR791 –Preparation for Capstone (1 credit, pass/no credit) is offered every spring. While not required for graduation, it is recommended for second semester juniors who need guidance in terms of developing a capstone project and completing the Capstone Contract.		
a. A Contract form provided by the Program must be completed and signed by the student, the adviser, the program coordinator, and the capstone mentor (faculty or off-campus) before the capstone experience,by the end of Junior Year.		
b. A signed Capstone Experience Evaluation form must be handed in to your advisor by the end of Senior year in order to graduate.		
<b>Individualization Your Education (19 Credits)</b>		
Program Advisors will help students select additional coursesfrom across the campus that relate to that student's areas of intellectual interest, and assist with the completion of minors, dual majors, study abroad programs, research projects, internships, etc.		
<b>Total Credits</b>		<b>92-93</b>

- <sup>1</sup> NR706 or NR761 if not already taken.
- <sup>2</sup> Many students enroll in the EcoQuest program (a study abroad opportunity in New Zealand), which satisfies the policy requirement, and capstone requirement if taken senior year.
- <sup>3</sup> NR 791 Preparation for Capstone - is offered every spring. While not required for graduation, it is recommended for second semester juniors who need guidance in terms of developing a capstone project and completing the Capstone Contract.

## Student Learning Outcomes

**Key Learning Objectives:** The primary Learning Outcome for the Environmental Science Program will be that students will master the content offered in the courses specified in the curriculum as assessed by performance on exams, labs and written assignments. This will include an understanding of the physical, chemical and biological processes central to the function of environmental systems, the mathematical concepts required to understand, explain and predict those processes, and the ability to determine the significance of results, both in terms of statistical probability and impact on the larger world.

The learning process leading to this mastery will require that students will have:

- Knowledge of how physical, chemical, and biological factors interact with human activities to shape the environment;
- Proficiency with environmental techniques including field, lab, GIS, or modeling;
- The ability to solve environmental problems;
- The ability to communicate orally or in writing about environmental dynamics.

## Equine Studies

### Mission Statement

The mission of the UNH Equine Program is to produce highly sought-after and employable graduates for the diverse equine industry; to provide students with a comprehensive, well-rounded, science-based, hands-on curriculum; and to honor our land grant heritage through offering outreach programs for the state and regional equine community.

### B.S. in Equine Studies

The equine studies degree program at UNH offers a unique and well-rounded program of study to students pursuing a career in the horse industry. All students receive a background in science and business, as well as a common core of equine-specific courses that incorporate outstanding opportunities for experiential learning. Students then choose a specialization in one of three options: Equine Industry and Management, Equine Assisted Activities and Therapies, and Equine Science. This allows each student to focus on the courses most relevant to their individual educational and professional goals. Students in each option have a shared core of courses, and each student chooses 20 credits of approved electives, which allows them to further customize their studies to meet their individual needs and prepare for their personal career goals.

### Equine Industry and Management

This option is designed for:

- Students interested in a traditional equine career, such as riding instruction, training, or stable management
- Students interested in a career in equine business, such as competition management, sales, marketing, or equine business management

Courses for this option include business classes and hands-on equine classes, such as teaching, training, stable management, and facility management

### Equine-Assisted Activities & Therapies

This option is designed for:

- Students interested in teaching therapeutic riding or other equine-assisted activities and therapies
- Students interested in an administrative career at a center conducting equine-assisted activities and therapies, such as fundraising, volunteer coordination, or management for a therapeutic riding center

This option includes classes in equine studies, equine-assisted activities and therapies, non-profit organizations, and topics related to human

development and special needs. Students also prepare and test for PATH International instructor certification, which allows them to teach therapeutic riding at any PATH International operating center.

## Equine Science

This option is designed for:

- Students interested in a career in the scientific or technical fields within the equine industry, including nutrition, rehabilitation, reproduction, and research
- Students interested in pursuing graduate studies, including veterinary school

This option combines equine classes with a more intensive science curriculum, including animal behavior, reproduction, and nutrition.

## GPA Requirements for All Students in Equine Studies

All students enrolled in the equine studies major will be required to receive a minimum grade of C- in all classes required for the major. Students failing to do this will need to retake the course in order to receive credit.

<https://colsa.unh.edu/agriculture-nutrition-food-systems>

## Equine Studies Major: Equine Assisted Activities & Therapies Option (B.S.)

<https://colsa.unh.edu/agriculture-nutrition-food-systems/program/bs/equine-studies-major-therapeutic-riding-option>

### Description

*Beginning in the 2022/23 academic year (Spring 2023), the Equine Studies Major: Equine Assisted Activities & Therapies option will no longer be accepting new students. Current students will continue to have access to the same high-quality education and resources until they graduate.*

This option is designed for:

- Students interested in a teaching therapeutic riding or other equine-assisted activities and therapies.
- Students interested in an administrative career at a center conducting equine-assisted activities and therapies, such as fundraising, volunteer coordination, or management for a therapeutic riding center.

This option includes classes in equine studies, equine-assisted activities and therapies, non-profit organizations, and topics related to human development and special needs. Students also prepare and test for PATH International instructor certification, which allows them to teach therapeutic riding at any PATH International operating center.

In addition to the standard core courses for all Equine Studies majors, students in Equine Management take courses in human anatomy and physiology, agricultural business management and non-profit management, equine-assisted activities, therapeutic riding instruction, equine management, and equine conformation. Students then select 20 approved credits to allow them to focus in the areas most relevant to their desired career. Those courses may include classes in equine training, riding instruction, sign language, human development, and education.

## Requirements

A minimum grade of C-minus or better must be earned in all Equine Studies courses required by the major.

<sup>1</sup> 2+ cr above/Horsemanship Theory

- Explain guidelines for equine nutrition, feeding, and parasite management.
- Demonstrate technical proficiency with English tack, boots, bandages, and blankets.
- Demonstrate safe, competent longeing technique using a trained horse.
- Demonstrate an understanding of the principles of riding practices in equestrian sport.
- Communicate effectively, in written and verbal form, about professional topics in the equine industry.

Therapeutic Riding option:

- Demonstrate an applied understanding of equine assisted activities & therapies (EAAT) teaching techniques for a broad spectrum of disorders and disabilities.
- Provide documentation of successful completion of the PATH Intl. registered instructor certification program.
- Identify ideal conformation and movement faults as they relates to equine form and function and the therapeutic needs of clients with disabilities.
- Demonstrate proficiency with adaptive equipment, tack, and procedures used in an equine assisted activities & therapies (EAAT) setting.
- Demonstrate working knowledge of key elements of business planning, management, and development, as they relate to an equine assisted activities & therapies (EAAT) setting.

## Equine Studies Major: Equine Industry and Management Option (B.S.)

<https://colsa.unh.edu/agriculture-nutrition-food-systems/program/bs/equine-studies-major-equine-industry-management-option>

### Description

*Beginning in the 2022/23 academic year (Spring 2023), the Equine Studies Major: Equine Industry and Management option will no longer be accepting new students. Current students will continue to have access to the same high-quality education and resources until they graduate.*

This option is designed for:

- Students interested in a traditional equine career, such as riding instruction, training, or stable management.
- Students interested in a career in equine business, such as competition management, sales, marketing, or equine business management.

Courses for this option include business classes and hands-on equine classes, such as teaching, training, stable management, and facility management.

In addition to the standard core courses for all Equine Studies majors, students in Equine Management take courses in anatomy and physiology, agricultural business management, nutrition, and forages. Students then select 20 approved credits to allow them to focus in the areas most relevant to their desired career. Those courses may include classes in

## Student Learning Outcomes

All students who graduate from the B.S. in Equine Studies program will be able to:

- Identify, explain, and demonstrate safe, effective, and humane equine handling and stable management skills.
- Identify, explain, and demonstrate equine health management practices and basic equine first aid.

equipment and facility management, equine training, riding instruction, equine conformation, animal behavior, accounting, and marketing.

## Requirements

A minimum grade of C-minus or better must be earned in all Equine Studies courses required by the major.

## Student Learning Outcomes

All students who graduate from the B.S. in Equine Studies program will be able to:

- Identify, explain, and demonstrate safe, effective, and humane equine handling and stable management skills.
- Identify, explain, and demonstrate equine health management practices and basic equine first aid.
- Explain guidelines for equine nutrition, feeding, and parasite management.
- Demonstrate technical proficiency with English tack, boots, bandages, and blankets.
- Demonstrate safe, competent longeing technique using a trained horse.
- Demonstrate an understanding of the principles of riding practices in equestrian sport.
- Communicate effectively, in written and verbal form, about professional topics in the equine industry.

### Equine Industry & Management option:

- Analyze and identify both ideal conformation and movement faults as related to equine form and function.
- Demonstrate advanced handling, grooming, and longeing skills, beyond those required of all equine studies majors.

- Demonstrate knowledge of veterinary care beyond the basic level required of all equine studies majors, and demonstrate application of this knowledge to real-world emergency and management situations.
- Demonstrate knowledge of management practices for riding arenas, horse trailers, and large equipment.
- Demonstrate working knowledge of key elements in equine business planning, management, and development.

## Equine Studies Major: Equine Science Option (B.S.)

<https://colsa.unh.edu/agriculture-nutrition-food-systems/program/bs/equine-studies-major-equine-science-option>

### Description

*Beginning in the 2022/23 academic year (Spring 2023), the Equine Studies Major: Equine Science option will no longer be accepting new students. Current students will continue to have access to the same high-quality education and resources until they graduate.*

This option is designed for:

- Students interested in a career in the scientific or technical fields within the equine industry, including nutrition, rehabilitation, reproduction, and research.
- Students interested in pursuing graduate studies, including veterinary school.

This option combines equine classes with a more intensive science curriculum, which includes animal behavior, reproduction, and nutrition.

In addition to the standard core courses for all Equine Studies majors, students in Equine Management take courses in anatomy and physiology, chemistry, nutrition, reproduction, and statistics. Students then select 20 approved credits to allow them to focus in the areas most relevant to their desired career. Those courses may include classes in forages, equine training, animal behavior, animal rights, animal cognition, and infectious diseases. Students in this option may also use these 20 credits to take courses required to apply to veterinary school, including organic chemistry, microbiology, biochemistry, physics, and calculus.

### Requirements

A minimum grade of C-minus or better must be earned in all Equine Studies courses required by the major.

<b>Total Credits</b>		<b>139-142</b>

### Dairy Program Courses

Some students pursuing veterinary school admission are interested in enrolling in courses with the UNH Dairy Program. In particular, the Cooperative Real Education in Agricultural Management (CREAM) program is a popular enrichment course. CREAM is highly competitive to get into, and equine students must take it before their senior year due to conflicts with required equine courses.

It is suggested that interested students apply to the CREAM program in their freshman year, and that they plan to take AAS 425 Introduction to Dairy Herd Management, in the fall of their sophomore year. While it is unlikely that a freshman applicant to CREAM will be selected, priority in future semesters is given to students who have both previously applied and who have taken dairy courses. Students should then apply again to CREAM in their sophomore year to hopefully gain admission in their junior year. Advisors will work with effected students to modify the timeline for other courses in order to accommodate CREAM in the schedule.

### Sample Student Schedule by Semester - Equine Science - (Non Pre-Vet Intent)

Course	Title	Credits
<b>First Year</b>		
<b>Fall</b>		
ANSC 402	Horsemanship Lab	1
ANSC 411	Freshman Seminar in Equine Science	1
ANSC 437	Equine Husbandry Techniques	4
ANSC 522	Intermediate Horsemanship Theory	3
BIOL 411	Introductory Biology: Molecular and Cellular	4
CHEM 403	General Chemistry I	4
<b>Credits</b>		<b>17</b>
<b>Spring</b>		
ANSC 426	Equine Conformation and Lameness	4
BIOL 412	Introductory Biology: Evolution, Biodiversity and Ecology	4
CHEM 404	General Chemistry II	4
ENGL 401	First-Year Writing	4
<b>Credits</b>		<b>16</b>

### Second Year

#### Fall

AAS 432	Introduction to Forage and Grassland Management	3
ANSC 511	Anatomy and Physiology	4
ANSC 538	Equine Handling/Longeing	1
ANSC 547	Equine Stable Management	3
BMS 503 & BMS 504	General Microbiology and General Microbiology Laboratory (Elective)	5
Discovery Course		4
<b>Credits</b>		<b>20</b>

<b>Credits</b>	<b>16</b>
<b>Total Credits</b>	<b>140-143</b>

## Student Learning Outcomes

All students who graduate from the B.S. in Equine Studies program will be able to:

- Identify, explain, and demonstrate safe, effective, and humane equine handling and stable management skills.
- Identify, explain, and demonstrate equine health management practices and basic equine first aid.
- Explain guidelines for equine nutrition, feeding, and parasite management.
- Demonstrate technical proficiency with English tack, boots, bandages, and blankets.
- Demonstrate safe, competent longeing technique using a trained horse.
- Demonstrate an understanding of the principles of riding practices in equestrian sport.
- Communicate effectively, in written and verbal form, about professional topics in the equine industry.

Equine Science option:

- Demonstrate practical application of equine anatomy and an understanding of the equine limb beyond the requirements for all equine majors.
- Demonstrate knowledge of veterinary care beyond the basic level required of all equine studies majors, and demonstrate the ability to apply this knowledge to real-world emergency and management situations.
- Demonstrate proficiency with basic equine health procedures and equipment.
- Demonstrate knowledge of equine nutrition, feeding, and parasite management beyond the basic level required of all equine studies majors, and demonstrate the ability to apply this knowledge to real-world management situations.
- Demonstrate knowledge of equine dental care.
- Demonstrate knowledge of equine genetics and reproduction.

## Equine Assisted Activities and Therapies Minor

### Description

The minor in Equine-Assisted Activities and Therapies (EAAT) provides students with exposure to several disciplines within this diverse field. The required courses introduce students to key concepts in equine handling and EAAT, including equine skills and the opportunity to test for PATH International CTRI instructor certification in therapeutic riding.

The elective courses list for the proposed EAAT minor are designed to provide students with supporting knowledge of equine-specific topics and non-profit challenges necessary for professionals working in the EAAT field. Students in the EAAT minor will take a total of 20 credit hours. Students must receive a minimum grade of C- in any course used for the

minor. Students failing to do this will need to retake the course in order to receive credit. In accordance with University policy, up to 8 credit hours may count for both the minor as well as for the major, second major, or dual major. Students pursuing a degree in Equine Studies will NOT be eligible to complete the minor.

For more information, please contact [Cynthia Burke](mailto:Cynthia.Burke@unh.edu) (Cindy.Burke@unh.edu), Clinical Assistant Professor.

RMP 501	Recreation Services for Individuals with Disabilities	4

## Equine Studies Minor

<https://colsa.unh.edu/agriculture-nutrition-food-systems/program/minor/equine-studies>

### Description

A minor in equine studies consists of a minimum of 20 credits of equine-related animal science courses. ANSC 402 may be counted only once for minor credit. Students MUST take either ANSC 504 Equine Physiology or ANSC 437 Equine Husbandry Techniques. Students may count either ANSC 422 or ANSC 522 for minor credit, but they may not count both. Students may count either ANSC 548 or ANSC 635 for minor credit, but they may not count both. Students must receive a minimum grade of C- in any course used for the minor. Students failing to do this will need to retake the course in order to receive credit. No courses taken on a pass(credit)/fail basis may count toward the minor. No more than 12 credits at the 400-level may be used for the minor. See listing below for a list of courses approved for use towards the minor in equine studies. Students may petition equine faculty in their **junior year** to include a course that is not listed. Students must take at least one course at the 600- or 700-level. Students who transfer from other institutions may petition the equine program faculty for course approval. Students who choose both ANSC 500 and ANSC 643 as two of their courses toward the

minor in equine studies will be eligible for PATH International therapeutic riding instructor certification.

Students interested in the minor in equine studies should contact [Sarah Rigg](mailto:Sarah.Rigg@unh.edu) (Sarah.Rigg@unh.edu).

## Requirements

Code	Title	Credits
ANSC 437	Equine Husbandry Techniques	4
Select a minimum of 16 credits from the following electives:		16
AAS 434	Equipment and Facilities Management	
ANSC 402	Horsemanship Lab	
ANSC 405	Theory of Horsemanship

ANSC 799	Honors Senior Thesis <sup>1</sup>	
Total Credits		20

<sup>1</sup> Subject to approval. Must be equine-related.

## Forestry

Forests are central to meeting today's challenges of climate change, biodiversity, and the sustainability of rural communities and economies. The forestry program at the University of New Hampshire prepares its graduates with the scientific and managerial knowledge and skills to address these environmental and resource management problems at local, regional, and global scales.

Forestry is the art and science of managing and understanding forests, their use, and their conservation. It embraces both natural and human dimensions of sustainability. Forestry education at UNH focuses on sustainable management of forests for biodiversity, productivity, and health, based on a multidisciplinary approach. The program's goal is to provide a sound professional preparation, a broad general education, and the flexibility to cultivate special abilities and interests. Students are encouraged to develop an area of concentration or to complete a minor in consultation with their academic adviser. The Bachelor of Science in Forestry degree (B.S.F.) at UNH is accredited by the Society of American Foresters (SAF). The SAF is recognized by the Council on Postsecondary

Accreditation and the U.S. Department of Education as the accrediting body for forestry in the United States.

A UNH forestry degree can be the gateway to a rewarding profession. UNH forestry graduates manage forests to provide wildlife habitat and recreation opportunities, care for soil and water resources, protect and restore forest ecosystems, and assure a sustainable supply of forest products. They are employed by private industry, public agencies, public interest groups, education institutions, research organizations, and consulting firms. Many students enter graduate school for advanced study in forest biology or management while others have found exciting international opportunities

## Faculty

<https://colsa.unh.edu/natural-resources-environment/people>

## Forestry Major (B.S.F.)

<https://colsa.unh.edu/natural-resources-environment/program/bsf/forestry-major>

## Description

Forestry is an interdisciplinary profession, embracing the sustainable management of forest ecosystems for productivity, biodiversity, and health. The Forestry program's goals are to provide a solid professional preparation with a strong field component, founded in a broad general education, and with the flexibility to allow students to pursue special abilities and interests. The Bachelor of Science in Forestry (B.S.F.) degree is accredited by the **Society of American Foresters**.

Forestry graduates help manage and conserve public and private forests, addressing major environmental challenges including climate change, biodiversity protection, and sustainable resource management. They use science, planning, and geospatial technology to protect and restore forest ecosystems, ensure a sustainable forest product industry, provide wildlife habitat and recreational opportunities, and conserve soils and watersheds.

### ***Program Mission, Goals and Objectives***

The **mission** of UNH's Department of Natural Resources and the Environment, of which the Forestry Program is an integral part, is to serve as an educational center for the scholarly study of environmental and social sciences, and their application to the policy and management of natural resources from local to global scales. This is accomplished through education, research and outreach. This mission reflects UNH's larger mission to provide comprehensive, high-quality undergraduate programs and graduate programs of distinction, including a strong commitment to serving the public good and promoting the excitement of discovery among faculty and students.

The **goal** of the Forestry Program is to train natural resource professionals to sustainably manage forested landscapes for diverse objectives and in ways that balance changing social, cultural, economic, and environmental interests and priorities.

Our **educational objectives** are to:

1. Develop a strong knowledge base about the ecology and dynamics of forest ecosystems, including interactions between trees, wildlife, insects, soils, water, humans, and other ecosystem components.
2. Understand how different policies and management decisions affect forest dynamics over short to long time scales, and on different spatial scales.
3. Cultivate the necessary skills to manage forests for diverse objectives and to assess, respect, and balance the interests of different groups to achieve societal benefits.
4. Be able to critically evaluate scientific information and integrate this with professional experience and changing societal values to support adaptive management of forest resources.

<b>Total Credits</b>	<b>130</b>

All forestry majors must satisfy the B.S.F. requirements and all Discovery Program requirements. Students must satisfy the Inquiry requirement of the Discovery Program by completing an Inquiry or Inquiry-attribute course. Seniors must also satisfy the capstone experience requirement of the Discovery Program. The capstone explores areas of interest based on the integration of prior learning. The capstone requirement may be satisfied through a course (NR 745 Forest Management), created work or product, or some form of experiential learning (e.g., honors thesis, mentored research project, and other special student activity). Departments are responsible for certifying that graduating seniors have met the capstone requirement for their majors.

## Student Learning Outcomes

### Program Mission, Goals and Objectives

The mission of UNH's Department of Natural Resources and the Environment, of which the Forestry Program is an integral part, is to serve as an educational center for the scholarly study of environmental and social sciences, and their application to the policy and management of natural resources from local to global scales. This is accomplished through education, research and outreach. This mission reflects UNH's larger mission to provide comprehensive, high-quality undergraduate programs and graduate programs of distinction, including a strong commitment to serving the public good and promoting the excitement of discovery among faculty and students.

The goal of the Forestry Program is to train natural resource professionals to sustainably manage forested landscapes for diverse objectives and in ways that balance changing social, cultural, economic, and environmental interests and priorities.

Our educational objectives are to:

- Identify the major species of plants and wildlife and their distribution and habitat requirements.
- Understand the ecological concepts related to the structure, composition, and dynamics of forest ecosystems, including succession, competition, productivity, nutrient cycling, stand development, and wildlife populations.

- Understand soil properties, hydrology, water resources, and watershed functions.
- Understand how forest health and dynamics are impacted by different human and natural disturbances, including pests and diseases, climate change, pollutants, extreme climate events, management interventions.
- Design and conduct forest inventories using appropriate sampling methods and units of measurement.
- Analyze and interpret forest inventory data, and to use the information to project future forest stand development processes and tree conditions.
- Ability to use a variety of spatial analysis tools to assess landscape scale characteristics and produce maps of forest resources distribution.
- Explain forest development trajectories in both written and oral form and apply appropriate computer models and assessment techniques.
- Understand forest policy and the processes that influence policy development.
- Understand and apply economic principles to assessing the financial opportunities and risks of forestry operations.
- Understand how federal, state, and local laws and regulations govern the practice of forestry.
- Understand the administration, ownership, and organization of forest management enterprises.
- Integrate and effectively communicate the technical, financial, human resources, and legal aspects of administering public and private enterprises.
- Develop management plans that effectively integrate and balance multiple landowner (or stakeholder/societal) objectives and the ecological conditions and constraints of the biophysical system.
- Analyze the economic, environmental and social consequences of forest resource management strategies and decisions, and to evaluate their tradeoffs.
- Apply appropriate decision-making tools and techniques to evaluate alternative forest management practices and plans.
- Demonstrate effective problem-solving and teamwork skills, professional and ethical conduct, and respect for diverse values and interests.
- Describe and explain to different audiences in both written and oral form alternative options for managing forest resources to achieve multiple objectives.

## Forestry Minor

<https://colsa.unh.edu/natural-resources-environment/program/minor/forestry>

### Description

The minor in Forestry serves as a concentrated study, beyond a student's primary major, that allows students to explore their interest in forest ecology and management, and to build skills that can help launch a career in forest conservation.

Students interested in a minor in Forestry must complete a minimum of 5 courses and 20 credits with a grade of C- or better. Pass/Fail courses may not be used for the minor. Up to 8 credits can be used to satisfy both major and minor requirements.

## Requirements

Code	Title	Credits
<b>Required Courses</b>		
NR 425	Field Dendrology	4

<b>Total Credits</b>		<b>20</b>

## Genetics (GEN)

Genetics and genomics are central to all aspects of the life sciences. Genetics is the branch of biology that deals with heredity, variation of genes among individuals in a population, and the expression and regulation of genes. Genomics focuses on determining the structure and function of genomes and includes the mapping of genes, high-throughput DNA sequencing, and investigating the molecular mechanisms by which genetic and environmental factors contribute to phenotypes. Every day, scientists are using the tools of genetics and genomics to make exciting discoveries in fields such as molecular medicine, cancer research, biodiversity, and sustainability.

Within the Genetics (GEN) major, students may choose the Genomics option (Genetics:Genomics). Genetics provides a solid foundation in biology, biochemistry, microbiology, chemistry, physics, math, and cell biology. Students also take advanced courses in molecular genetics, bioinformatics, molecular evolution, and genomics. Genetics students receive additional training in wet lab techniques. The Genetics:Genomics option provides additional training in genomics, evolutionary genetics, and computer programming for bioinformatics.

There are many opportunities for interested students to gain research experience through formal or informal research projects in faculty members' laboratories. The genetics faculty conduct research on diverse topics such as evolution, gene structure and function, host-microbe interactions, genome sequencing and analysis, heredity, and diversity in populations. Faculty research areas encompass microbial, plant, and animal genetics. Genetics faculty are committed to mentoring undergraduate students in independent research experiences in their laboratories, which provide students with exposure to and training in cutting-edge research technologies.

Students with degrees in genetics or genomics are well prepared to apply to graduate schools (e.g., for training as genetic counselors or researchers) or professional schools, or to pursue careers in biotechnology companies, forensics labs, hospitals, university research laboratories, or government agencies. Two additional courses are needed for application to professional programs (e.g., medical or dental school). Graduates may also be employed in fields such as management, sales,

marketing, regulatory affairs, technical writing, or science journalism. With supplementary courses in education, graduates with a bachelor's degree in genetics or genomics can teach at the elementary, middle, or high school level.

## Pre-Professional Health Programs

Students interested in postgraduate careers in the health care professions should visit the [Pre-Professional Health Programs Advising](#) website or visit the office in person. Requirements for specific types of professional schools (e.g., medical, dental, physician assistant, pharmacy, etc.) are available from [Pre-Health Advising](#). Students interested in veterinary medicine should consult the [Pre-Veterinary Medicine Program](#). Many of the prerequisite courses required by professional schools are also requirements of the genetics major, but students should consult with their faculty adviser to create a plan of study that best prepares them for pursuing a career in one of these health professions.

[Genetics affiliated faculty.](#)

## Genetics Major (B.S.)

<https://colsa.unh.edu/molecular-cellular-biomedical-sciences/program/bs/genetics-major>

## Description

The **Genetics program (GEN)** explores the world of genetics and genomics in plants, animals, and microbes. Genetics majors are interested in understanding how DNA, along with the environment, specifies simple traits like hair color to more complex traits like high blood pressure, diabetes, and mental illness. The Genetics faculty strongly value hands-on learning and many GEN students conduct undergraduate research under the supervision of our faculty. GEN graduates are prepared for successful careers in the biotechnology fields or for entry into a variety of graduate school, genetic counseling, or health professional programs.

**The Genetics program offers course work and laboratories in:**

- molecular genetics
- bioinformatics
- human genetics
- comparative genomics
- plant genetics
- microbial genetics and evolution
- population and evolutionary genetics

**Students in the Genetics program may participate in a variety of experiential learning activities including:**

- independent research experiences in laboratories of UNH faculty
- work at the [Hubbard Center for Genome Studies](#) or [Research Computing Center](#)
- internships at biotechnology companies in the Greater Boston area
- internships with genetics counselors at area medical centers

**GEN graduates have been successful in attaining careers as:**

- research scientists and laboratory technicians in
  - biotechnology and pharmaceutical companies
  - academic research programs
  - forensics
  - biomedical research centers & medical schools
  - government agencies
- genetic counselors
- educators
- technical support associates

**GEN graduates are prepared for further education in:**

- professional health programs
  - genetic counseling
  - [medical school](#)
  - dental school
- allied health programs ([physician assistant](#), [pharmacist](#), [nursing](#) or [pathologist's assistant](#) programs)
- [veterinary school](#)
- graduate programs such as
  - Genetics and Genomics
  - Integrative Biology
  - Neurogenomics
  - Molecular Biology
  - Microbiology
  - Environmental Sciences
  - Public Health
  - Computer Science

## Requirements

Students majoring in genetics take seven Foundation courses, six Bioscience Core courses, four Genetics Core courses and four Major Elective courses. One capstone experience, supervised and approved within the major, is required of all seniors. In addition, all other University requirements must be completed, including those for the [Discovery Program](#) (p. 27) and the [University Writing Requirement](#) (p. 31).

A grade of C-minus or better is required in Statistics and all Bioscience Core, Genetics Core, and Major Elective courses.

### Foundation Courses

Code	Title	Credits
CHEM 403	General Chemistry I <sup>1</sup>	4
CHEM 404	General Chemistry II	4
CHEM 545 & CHEM 546	Organic Chemistry and Organic Chemistry Laboratory <sup>2</sup>	5
MATH 424B	Calculus for Life Sciences <sup>3</sup>	4

BIOL 528	Applied Biostatistics I	4
PHYS 401	Introduction to Physics I	4
PHYS 402	Introduction to Physics II	4

- <sup>1</sup> Fulfills Physical Science Discovery requirement
- <sup>2</sup> Students applying to health profession schools need a full year of Organic Chemistry, a full year of Introductory Biology, as well as a full year of English. CHEM 651/CHEM 653 and CHEM 652/CHEM 654 should be taken in place of CHEM 545/CHEM 546; ENGL 502 or ENGL 503 in suggested in addition to ENGL 401. See [Pre-Professional Health Program Advising](#).
- <sup>3</sup> Fulfills Quantitative Reasoning Discovery requirement

### Bioscience Core Courses

Code	Title	Credits
BIOL 411	Introductory Biology: Molecular and Cellular <sup>4</sup>	4
BIOL 412	Introductory Biology: Evolution, Biodiversity and Ecology	4
GEN 604	Principles of Genetics	4
BMS 503 & BMS 504	General Microbiology and General Microbiology Laboratory	5
BMCB 605	Principles of Cell Biology	4
BMCB 658 & BMCB 659	General Biochemistry and General Biochemistry Lab	5

- <sup>4</sup> Fulfills Biological Science Discovery requirement, Discovery Inquiry requirement, and Discovery laboratory requirement

### Genetics Core Courses

Code	Title	Credits
GEN 401	Professional Perspectives in Genetics	1
GEN 606	Genetics Lab	4
GEN 711	Genomics and Bioinformatics	4
<b>Select one of the following:</b>		
GEN 704	Genetics of Prokaryotic Microbes <sup>5</sup>	5
GEN 771	Molecular Genetics	4

## Major Electives

A total of four **unique** major electives is required: **one** course from the Laboratory-Based Major Elective group, **one** course from the Population Genetics or Evolutionary Genetics major elective group, and **two** courses from the Bioscience Major Electives group.

### Laboratory-Based Major Electives (Select One)

Code	Title	Credits
GEN 704	Genetics of Prokaryotic Microbes <sup>5</sup>	5
GEN 705 & GEN 725	Population Genetics and Population Genetics Lab <sup>5</sup>	5
GEN 717	Molecular Microbiology	5
GEN 774	Techniques in Plant Genetic Engineering and Biotechnology	4
GEN 795	Investigations in Genetics (4-credit minimum) <sup>6</sup>	1-4
GEN 795W	Investigations in Genetics (4-credit minimum) <sup>6</sup>	1-4
GEN 799	Senior Thesis (4-credit minimum) <sup>6</sup>	1-4
GEN 799H	Honors Senior Thesis (4-credit minimum) <sup>6</sup>	1-4
BMCB 753	Cell Culture	5
BMCB 754	Molecular Biology Research Methods	5
INCO 790	Advanced Research Experience (4-credit minimum) <sup>6</sup>	1-4

### Population or Evolutionary Genetics Major Electives (Select One)

Code	Title	Credits
GEN 705 & GEN 725	Population Genetics and Population Genetics Lab <sup>5</sup>	5

GEN 715	Molecular Evolution	4
GEN 772	Evolutionary Genetics of Plants	4

<sup>5</sup> Where listed, this course may fulfill another category (Genetics Core, Laboratory-Based Major Elective, or Population/Evolutionary Genetics Major Elective), IF students take one additional Bioscience Major Elective.

<sup>6</sup> Must be a research project with a genetics focus.

### Bioscience Major Electives (Select Two)

Code	Title	Credits
GEN 704	Genetics of Prokaryotic Microbes <sup>5</sup>	5
GEN 705 & GEN 725	Population Genetics and Population Genetics Lab <sup>5</sup>	5
GEN 706	Human Genetics	4
GEN 712	Programming for Bioinformatics	5
GEN 713	Microbial Ecology and Evolution	4
GEN 715	Molecular Evolution	4
GEN 717	Molecular Microbiology	5
GEN 721	Comparative Genomics	4
GEN 771	Molecular Genetics	4
GEN 772	Evolutionary Genetics of Plants	4
GEN 774	Techniques in Plant Genetic Engineering and Biotechnology	4
GEN 795	Investigations in Genetics (4-credit minimum) <sup>6</sup>	1-4
GEN 795W	Investigations in Genetics (4-credit minimum) <sup>6</sup>	1-4
GEN 799	Senior Thesis (4-credit minimum) <sup>6</sup>	1-4
GEN 799H	Honors Senior Thesis (4-credit minimum) <sup>6</sup>	1-4
ANSC 602	Animal Rights and Societal Issues	4
ANSC 701	Physiology of Reproduction	4
BIOL #702	Lab Techniques in Plant Physiology and Biochemistry	4
BIOL 704	Plant-Microbe Interactions	3
BIOL 706	Data Science with R for the Life Sciences	4
BIOL 711	Experimental Design & Analysis	4
BMCB 750	Physical Biochemistry	3
BMCB 753	Cell Culture	5
BMCB 754	Molecular Biology Research Methods	5
BMCB 760	Pharmacology	4
BMCB 763	Biochemistry of Cancer	4
BMCB 794	Protein Structure and Function	4
BMS 650	Molecular Diagnostics	4
BMS 702	Endocrinology	4
BMS 705	Immunology	3
BMS 706	Virology	3
BMS 718	Mammalian Physiology	4
BMS 719	Host-Microbe Interactions	4
BMS 735	Molecular and Cellular Parasitology	4
BMS 740	Human Microbiome	4
INCO 790	Advanced Research Experience (4-credit minimum)	1-4
MEFB #750	Marine Ecological Genomics	4
NR 706	Soil Ecology	4
ZOOL 625 & ZOOL 626	Principles of Animal Physiology and Animal Physiology Laboratory	5
ZOOL 690	Evolution	4
ZOOL 736	Genes and Behavior	4
ZOOL 777	Neuroethology	4

### Approved GEN Capstone Courses

The capstone explores areas of interest based on the integration of prior learning. The capstone requirement may be satisfied through a course, created work or product, or some form of experiential learning (e.g., honors thesis, mentored research project, or other special student activity). Students may take more than one capstone course. Capstone completion is never displayed on Degree Works; your advisor will certify capstone completion at the time of graduation. Students must have 90

credits or more when completing their capstone requirement. See your advisor for questions about capstones.

Code	Title	Credits
GEN 704	Genetics of Prokaryotic Microbes	5
GEN 705 & GEN 725	Population Genetics and Population Genetics Lab	5
GEN 715	Molecular Evolution	4
GEN 717	Molecular Microbiology	5
GEN 790	Undergraduate Teaching Experience (4 credit minimum; classroom presentation required)	1-4
GEN 795	Investigations in Genetics (4-credit minimum) <sup>6</sup>	1-4
GEN 795W	Investigations in Genetics (4-credit minimum) <sup>6</sup>	1-4
GEN 799	Senior Thesis (4-credit minimum) <sup>6</sup>	1-4
GEN 799H	Honors Senior Thesis (4-credit minimum) <sup>6</sup>	1-4
INCO 790	Advanced Research Experience (4-credit minimum) <sup>6</sup>	1-4

<sup>6</sup> Must be a research project with a genetics focus.

## Degree Plan

### SAMPLE Course Sequence for Genetics

Course	Title	Credits
<b>First Year</b>		
<b>Fall</b>		
GEN 401	Professional Perspectives in Genetics	1
BIOL 411	Introductory Biology: Molecular and Cellular	4
ENGL 401	First-Year Writing	4
CHEM 403	General Chemistry I	4
Discovery course		4
<b>Credits</b>		<b>17</b>

<b>Spring</b>		
BIOL 412	Introductory Biology: Evolution, Biodiversity and Ecology	4
MATH 424B	Calculus for Life Sciences	4
CHEM 404	General Chemistry II	4
Discovery course		4
<b>Credits</b>		<b>16</b>

<b>Second Year</b>		
<b>Fall</b>		
GEN 604	Principles of Genetics	4
BMCB 605	Principles of Cell Biology	4
BIOL 528	Applied Biostatistics I	4
Discovery course		4
<b>Credits</b>		<b>16</b>

<b>Spring</b>		
GEN 606	Genetics Lab	4
BMS 503 & BMS 504	General Microbiology and General Microbiology Laboratory	5
CHEM 545 & CHEM 546	Organic Chemistry and Organic Chemistry Laboratory	5
Discovery course		4
<b>Credits</b>		<b>18</b>

**Third Year****Fall**

BMCB 658 & BMCB 659	General Biochemistry and General Biochemistry Lab	5
PHYS 401	Introduction to Physics I	4
Discovery course		4
Elective (any course)		4
<b>Credits</b>		<b>17</b>

**Spring**

GEN 711	Genomics and Bioinformatics	4
PHYS 402	Introduction to Physics II	4
Major Elective (Population or Evolutionary Genetics)		4
Discovery course		4
<b>Credits</b>		<b>16</b>

**Fourth Year****Fall**

Genetics Core course		4
Major Elective (Laboratory based)		4-5
Major Elective (Bioscience/possible Capstone)		4-5
Elective (any course)		4
<b>Credits</b>		<b>16-18</b>

**Spring**

Major Elective (Bioscience)		4
Elective (any course)		4
Elective (any course)		4
<b>Credits</b>		<b>12</b>
<b>Total Credits</b>		<b>128-130</b>

- Students will be able to describe ethical issues related to modern genomics and implications for health care and insurance, interpersonal relationships, family planning, etc.
- Students will be able to describe high-throughput sequencing, and how it has changed the practice of modern genetics.

SLO: Quantitative Literacy, Inquiry &amp; Analysis

- Students will be able to apply the scientific method to examine experimental evidence and draw informed conclusions.
- Students will be able to use graphs to represent scientific data.
- Students will be able to apply statistical methods to interpret scientific data.

SLO: Critical Thinking &amp; Problem Solving

- Students will be able to use data to troubleshoot an unexpected outcome.
- Students will be able to apply core knowledge to critically interpret scientific data.

SLO: Written Communication

- Students will demonstrate written skills to communicate scientific knowledge and experimental data.

SLO: Oral Communication

- Students will be able to demonstrate oral presentation skills to communicate scientific knowledge and experimental data.

## Genetics Major: Genomics Option (B.S.)

<https://colsa.unh.edu/molecular-cellular-biomedical-sciences/program/bs/genetics-major-genomics-option>

### Student Learning Outcomes

SLO: Core Knowledge in Genetics

- Students will be able to describe DNA, its role, structure, how DNA is packaged in the chromosomes in terms of histones, nucleosomes, and chromatin, including its discovery, how has modern genomics influenced, and differences between prokaryotes and eukaryotes.
- Students will be able to describe the central dogma of molecular biology, including specific details related to replication, transcription, and translation.
- Students will be able to define and describe evolution, how drift, gene flow, mutation, natural selection, recombination, within a population genetic framework, may result in evolution.
- Students will be able to describe the differences between mitosis and meiosis and how errors in these processes may effect phenotype, cause disease, etc.
- Students will be able to evaluate how genes and the environment can interact to produce a phenotype, including allelic differences and changes in gene regulation.
- Students will be able to describe the concept of deep time, and how comparing genes and genomes allows us to understand evolution and relatedness between species.
- Students will be able to use pedigrees to determine mode of inheritance of a trait.

### Description

The **Genetics:Genomics program (GEN)** explores the world of genetics and genomics in plants, animals, and microbes. Genomics is the study of genomes and includes topics like DNA structure and function, high-throughput sequencing, and computational comparison of the genomes of different organisms. The Genetics faculty strongly value hands-on learning and many GEN students conduct undergraduate research under the supervision of our faculty. GEN graduates are prepared for successful careers in biotechnology fields or for entry into a variety of graduate school or health professional programs.

**The Genetics program offers course work and laboratories in:**

- molecular genetics
- bioinformatics
- human genetics
- comparative genomics
- plant genetics
- microbial genetics
- population and evolutionary genetics

**Students in the Genetics program may participate in a variety of experiential learning activities including:**

- independent research experiences in laboratories of UNH faculty
- work at the [Hubbard Center for Genome Studies](#) or [Research Computing Center](#)
- internships at biotechnology companies in the Greater Boston area
- internships with genetics counselors at area medical centers

#### GEN graduates have been successful in attaining careers as:

- research scientists and laboratory technicians in
  - biotechnology and pharmaceutical companies
  - academic research programs
  - forensics
  - biomedical research centers & medical schools
  - government agencies
- genetic counselors
- educators
- technical support associates

#### GEN graduates are prepared for further education in:

- professional health programs
  - genetic counseling
  - [medical school](#)
  - dental school
  - allied health programs ([physician assistant](#), [pharmacist](#), [nursing](#) or [pathologist's assistant](#))
  - [vet school](#)
- graduate programs such as
  - Genetics and Genomics
  - Integrative Biology
  - Neurogenomics
  - Molecular Biology
  - Microbiology
  - Environmental Sciences
  - Public Health
  - Computer Science

BIOL 528	Applied Biostatistics I	4
PHYS 401	Introduction to Physics I	4
PHYS 402	Introduction to Physics II	4

<sup>1</sup> Fulfills Physical Science Discovery requirement

<sup>2</sup> Students applying to health profession schools need a full year of Organic Chemistry, a full year of introductory Biology, and a full year of English. CHEM 651/CHEM 653 and CHEM 652/CHEM 654 should be taken in place of CHEM 545/CHEM 546; ENGL 502 or ENGL 503 is suggested in addition to ENGL 401. See [Pre-Professional Health Program](#) advising.

<sup>3</sup> Fulfills Quantitative Reasoning Discovery requirement

#### Bioscience Core Courses

Code	Title	Credits
BIOL 411	Introductory Biology: Molecular and Cellular <sup>4</sup>	4
BIOL 412	Introductory Biology: Evolution, Biodiversity and Ecology	4
GEN 604	Principles of Genetics	4
BMS 503 & BMS 504	General Microbiology and General Microbiology Laboratory	5
BMCB 605	Principles of Cell Biology	4
BMCB 658 & BMCB 659	General Biochemistry and General Biochemistry Lab	5

<sup>4</sup> Fulfills Biological Science Discovery requirement, Discovery Inquiry requirement, and Discovery laboratory requirement

#### Genetics Core Courses

Code	Title	Credits
GEN 401	Professional Perspectives in Genetics	1
GEN 606	Genetics Lab	4
GEN 711	Genomics and Bioinformatics	4
Select one of the following:		
GEN 704	Genetics of Prokaryotic Microbes	5
GEN 771	Molecular Genetics	4

#### Major Electives

A total of five **unique** major electives is required: GEN 712, GEN 721, two courses from the population or evolutionary genetics elective group, and one course from the bioscience major elective group.

#### Required

Code	Title	Credits
GEN 712	Programming for Bioinformatics	5
GEN 721	Comparative Genomics	4

#### Population or Evolutionary Genetics Major Electives (Select Two)

Code	Title	Credits
GEN 705 & GEN 725	Population Genetics and Population Genetics Lab <sup>5</sup>	5
GEN 713	Microbial Ecology and Evolution	4
GEN 715	Molecular Evolution	4
GEN 772	Evolutionary Genetics of Plants	4

#### Bioscience Major Electives (Select One)

Code	Title	Credits
GEN 704	Genetics of Prokaryotic Microbes <sup>5</sup>	5
GEN 705 & GEN 725	Population Genetics and Population Genetics Lab <sup>5</sup>	5
GEN 706	Human Genetics	4
GEN 713	Microbial Ecology and Evolution	4
GEN 715	Molecular Evolution	4

## Requirements

Students majoring in Genetics with the Genomics option take seven Foundation courses, six Bioscience Core courses, four Genetics Core courses and five Major Elective courses. One capstone experience, supervised and approved within the major, is required of all seniors. The capstone explores areas of interest based on the integration of prior learning. In addition, all other University requirements must be completed, including those for the [Discovery Program](#) and the [University Writing Requirement](#).

A grade of C-minus or better is required in statistics and all Bioscience Core, Genetics Core, and Major Elective courses.

#### Foundation Courses

Code	Title	Credits
CHEM 403	General Chemistry I <sup>1</sup>	4
CHEM 404	General Chemistry II	4
CHEM 545 & CHEM 546	Organic Chemistry and Organic Chemistry Laboratory <sup>2</sup>	5
MATH 424B	Calculus for Life Sciences <sup>3</sup>	4

GEN 717	Molecular Microbiology	5
GEN 771	Molecular Genetics	4
GEN 772	Evolutionary Genetics of Plants	4
GEN 774	Techniques in Plant Genetic Engineering and Biotechnology	4
GEN 795	Investigations in Genetics (4 credit minimum) <sup>6</sup>	1-4
GEN 795W	Investigations in Genetics (4 credit minimum) <sup>6</sup>	1-4
GEN 799	Senior Thesis (4 credit minimum) <sup>6</sup>	1-4
GEN 799H	Honors Senior Thesis (4-credit minimum) <sup>6</sup>	1-4
ANSC 602	Animal Rights and Societal Issues	4
ANSC 701	Physiology of Reproduction	4
BIOL #702	Lab Techniques in Plant Physiology and Biochemistry	4
BIOL 704	Plant-Microbe Interactions	3
BIOL 706	Data Science with R for the Life Sciences	4
BIOL 711	Experimental Design & Analysis	4
BIOL 752	New England Mushrooms: a Field and Lab Exploration	4

## Student Learning Outcomes

## SLO: Core Knowledge in Genetics

- Students will be able to describe DNA, its role, structure, how DNA is packaged in the chromosomes in terms of histones, nucleosomes, and chromatin, including its discovery, how has modern genomics influenced, and differences between prokaryotes and eukaryotes.
- Students will be able to describe the central dogma of molecular biology, including specific details related to replication, transcription, and translation.
- Students will be able to define and describe evolution, how drift, gene flow, mutation, natural selection, recombination, within a population genetic framework, may result in evolution.
- Students will be able to describe the differences between mitosis and meiosis and how errors in these processes may effect phenotype, cause disease, etc.
- Students will be able to evaluate how genes and the environment can interact to produce a phenotype, including allelic differences and changes in gene regulation.
- Students will be able to describe the concept of deep time, and how comparing genes and genomes allows us to understand evolution and relatedness between species.
- Students will be able to use pedigrees to determine mode of inheritance of a trait.
- Students will be able to describe ethical issues related to modern genomics and implications for health care and insurance, interpersonal relationships, family planning, etc.
- Students will be able to describe high-throughput sequencing, and how it has changed the practice of modern genetics.

## SLO: Quantitative Literacy, Inquiry &amp; Analysis

- Students will be able to apply the scientific method to examine experimental evidence and draw informed conclusions.
- Students will be able to use graphs to represent scientific data.
- Students will be able to apply statistical methods to interpret scientific data.

## SLO: Critical Thinking &amp; Problem Solving

- Students will be able to use data to troubleshoot an unexpected outcome .

- Students will be able to apply core knowledge to critically interpret scientific data.

## SLO: Written Communication

- Students will demonstrate written skills to communicate scientific knowledge and experimental data.

## SLO: Oral Communication

- Students will be able to demonstrate oral presentation skills to communicate scientific knowledge and experimental data.

## Genetics Minor

<https://colsa.unh.edu/molecular-cellular-biomedical-sciences/program/minor/genetics>

### Description

Students in other majors who wish to develop a focus in the area of genetics and genomics can complement their major academic program with a minor in genetics.

### Requirements

The minor consists of a minimum of 20 credits, completed with a grade of C-minus or better.

No more than 8 credits used to fulfill major requirements may be used for the minor.

A C average (2.00) is required in courses that the minor department approves.

A maximum of 4 credits of GEN 795 Investigations in Genetics may be used to fulfill minor requirements.

Pass/fail courses cannot be used for the minor.

It is the student's responsibility to file an [Intent to Minor](#) form with the GEN minor advisor by the end of the junior year and to complete a [Certification of Completion of Minor](#) form during their final semester at UNH.

### Required Course

Code	Title	Credits
GEN 604	Principles of Genetics	4

Choose at least **one** Transmission/Population Genetics course and **one** Molecular Genetics course. To reach the minimum of 20 credits for the minor, 4 credits of GEN 795 Investigations in Genetics may be used.

### Transmission/Population Genetics Courses (Choose at least One)

Code	Title	Credits
GEN 705	Population Genetics	3
GEN 725	Population Genetics Lab	2
GEN 706	Human Genetics	4
GEN 713	Microbial Ecology and Evolution	4
GEN 715	Molecular Evolution	4
GEN 772	Evolutionary Genetics of Plants	4
NR 664	Conservation Genetics	4

Molecular Genetics Courses (Choose at least One)

Code	Title	Credits
GEN 704	Genetics of Prokaryotic Microbes	5
GEN 711	Genomics and Bioinformatics	4
GEN 712	Programming for Bioinformatics	5
GEN 717	Molecular Microbiology	5
GEN 721	Comparative Genomics	4
GEN 771	Molecular Genetics	4
GEN 774	Techniques in Plant Genetic Engineering and Biotechnology	4
BMCB 754	Molecular Biology Research Methods	5

GeoSpatial Analysis

Programs

- [Geospatial Analysis Minor](#) (p. 328)

Geospatial Analysis Minor

<https://colsa.unh.edu/natural-resources-environment/program/minor/geospatial-analysis>

Description

The geospatial analysis minor is designed for students who wish to have more learning and experience using the tools of geospatial analysis such as statistics, aerial photography, satellite imagery, and geographic information systems (GIS) as they relate to their chosen field of study. Students interested in completing the geospatial analysis minor must complete a total of 20 credits. A grade of C- or better is required in each minor course and no course can be taken pass/fail. A total of not more than 8 credits from the student's major requirements can be counted toward the minor.

Requirements

Code	Title	Credits
<b>Basic Statistics</b>		
Select one of the following:		4
BIOL 528	Applied Biostatistics I	
PSYC 402	Statistics in Psychology	
SOC 402	Statistics	
Other basic statistics course as approved by minor advisor		
<b>Introductory/Field/or Overview</b>		
Select one of the following:		4
NR #458	The Science of Where	
CEE 404	Surveying and Mapping	
NR 415	Natural Resources Field Methods	
NR 603	Landscape Ecology	
GEOG 590	Field Research	
NR/GEOG 757	Remote Sensing of the Environment	
ANTH 674	Archaeological Survey and Mapping in Belize	
NR 795	Investigations (Field Methods in GIS)	
<b>GIS</b>		
Select one of the following:		4
NR/GEOG 658	Introduction to Geographic Information Systems	
NR/GEOG 760	Geographic Information Systems in Natural Resources	
CEE 796	Special Topics (GIS in Water Resources)	
FORT 581	Applied Geospatial Techniques	
ESCI 777	GIS for Earth & Environmental Sciences	
<b>Remote Sensing</b>		
Select one of the following:		4

NR/GEOG 757	Remote Sensing of the Environment	
NR/GEOG 759	Digital Image Processing for Natural Resources	
ESCI 778	Remote Sensing Earth & Environmental Sciences	
Advanced Analysis		
Select one of the following:		4
NR 707	Environmental Modeling	
NR 713	Quantitative Ecology	
NR 740	Inventory and Monitoring of Ecological Communities	
NR 749	Forest Inventory and Modeling	
NR 782	Forest Health in a Changing World	
EREC 760	Ecological-Economic Modeling for Decision Making	
Total Credits		20

Students with questions about the minor or who would like more information should contact [Dr. Russell G. Congalton](#) ([russ.congalton@unh.edu](mailto:russ.congalton@unh.edu)) in the Department of Natural Resources and the Environment, (603) 862-4644.

Green Real Estate

Programs

- [Green Real Estate Minor](#) (p. 328)

Green Real Estate Minor

<https://colsa.unh.edu/natural-resources-environment/program/minor/green-real-estate>

Description

The green real estate minor will include the basic fundamentals of real estate (a class which is accredited by the New Hampshire Real Estate Commission). Students will learn about local and regional planning, environmental economics and market forces, and environmental issues as they pertain to real estate. In addition, students may choose complementary classes, such as architecture, surveying, land design, soils, wetland delineation, law, etc. Students must complete five courses (18 to 20 credits), get a C- or better in each course, and maintain a 2.0 average or better.

Requirements

Code	Title	Credits
<b>Required Courses</b>		
CEP 672	Fundamentals of Real Estate	4
CEP 673	Green Real Estate	4
CEP 508	Applied Community Development	4
<b>Electives</b>		
Select two from one of the following groups:		8-9
Green Design and Building		
Land Conservation		
Finance and Law		
<b>Total Credits</b>		20-21

Green Design and Building

(Pick two 4-credit courses, or three 3-credit courses)  
Ideal for future architects and builders.

Code	Title	Credits
ARTS 455	Architectural Design Studio	4
CHE 410	Energy and Environment	4

CEE 404	Surveying and Mapping	4
CEE #444	Housing - Everyone Needs a Place to Live	4
CEE 703	Site Design and Project Development	3
CEE 706	Environmental Life Cycle Assessment	3
CEE 719	Green Building Design	3
NR 787	Advanced Topics in Sustainable Energy	4

## Land Conservation

Ideal for future conservation commission members, planners, and environmental advocates in general.

Code	Title	Credits
EREC 606	Land Economics Perspectives: Uses, Policies, and Taxes	4
NR 437	Principles of Sustainability	4
NR 507	Introduction to our Energy System and Sustainable Energy	4
NR 753 & NR 754	Critical Issues in Sustainability: Sustainability as an Abundance Paradigm and Critical Issues in Sustainability: Sense of Place	4
NR 785	Systems Thinking for Sustainable Solutions	4

## Finance and Law

Ideal for future green mortgage lenders and social choice investment portfolio managers.

NOTE: Business majors only

Code	Title	Credits
MGT 720	Topics in Management II	4
FIN 701	Financial Policy	4
FIN 702	Investments Analysis	4
FIN 708	Real Estate Finance	4

## Marine, Estuarine, and Freshwater Biology (MEFB)

The marine, estuarine, and freshwater biology (MEFB) B.S. program is designed to provide a broad background for undergraduates interested in marine, estuarine, and freshwater biology, aquaculture, and fisheries. The program integrates theoretical and practical (hands-on laboratory and field) courses. Students are encouraged to become involved in one or more of the numerous undergraduate research opportunities available in the marine, estuarine, and freshwater sciences.

UNH is located on a seacoast that provides an extraordinary diversity of marine and estuarine habitats. It is also only a short distance from mountain streams, rivers, marshes, bogs, ponds, and lakes. All of the habitats provide outstanding resources for field courses and research. The marine, estuarine, and freshwater faculty are spread across all four departments of the College of Life Sciences and Agriculture. UNH is a Sea Grant university and has an international reputation for teaching and research in aquatic sciences. UNH has aquaculture facilities, and coastal and estuarine research laboratories. In collaboration with Cornell, UNH jointly administers the summer undergraduate programs at the Shoals Marine Laboratory on Appledore Island, seven miles off the coast of New Hampshire and Maine.

## Marine, Estuarine and Freshwater Biology Major (B.S.)

<https://colsa.unh.edu/biological-sciences/program/bs/marine-estuarine-and-freshwater-biology>

## Description

The Major in Marine, Estuarine, and Freshwater Biology is intended to give students interested in the fields of marine and freshwater biology the background and direct hands-on experience needed to pursue productive careers, including potential advanced study. This strategically cross-disciplinary major builds on a broad set of science courses in high-impact areas of study for today's world, represented by a core curriculum in math, chemistry, physics, and biology. The core background is strengthened by a series of required and elective courses in a diverse range of aquatic sciences spanning watersheds to oceans, providing opportunities for study from organismal to ecosystem scales. Designed to provide a solid foundation of knowledge in freshwater, estuarine, and marine biology, the MEFB Major allows flexibility and encourages students to focus on particular areas of interest from molecular biology to ecosystem and policy studies. Students will have the opportunity to specialize in areas of their own interest, such as aquaculture and fisheries, animal behavior, ecological restoration, or management. While MEFB students must complete rigorous course requirements, our students are encouraged to tailor their elective courses within and across departments and colleges as needed to build their own, unique cross-disciplinary path.

The University of New Hampshire is uniquely located for the study of aquatic organisms and their habitats. We are centered between the Great Bay Estuary and the Gulf of Maine, with easy access to diverse marine environments as well as the freshwater habitats of New Hampshire's Lakes Region and the White Mountain National Forest. We boast three Marine Laboratories that provide exceptional opportunities for our student's research and educational needs, including Jackson Estuarine Laboratory (JEL), the Coastal Marine Lab (CML; part of the larger Judd Gregg Marine Research Center), and the Shoals Marine Laboratory (SML), as well as strong affiliations with the Great Bay National Estuarine Research Reserve. While JEL is located on Great Bay in Durham, CML is in nearby New Castle at the Seacoast, and SML is located seven miles off the coast. SML provides summer undergraduate programming with field-based marine courses that fulfill major electives, as well as internships and research opportunities for advanced study. In addition, UNH's campus maintains two fish aquaculture facilities, a world-class genomics laboratory, and the State Veterinary Diagnostic Laboratory, which provide hands-on opportunities for undergraduates. There is also an active diving program with courses at both beginner and advanced levels. A major strength of the MEFB program is the hands-on approach to learning combined with an emphasis on involving undergraduate students in mentored research opportunities.

## Requirements

Code	Title	Credits
<b>Biological Sciences Core</b>		
BIOL 412	Introductory Biology: Evolution, Biodiversity and Ecology	4
BIOL 411	Introductory Biology: Molecular and Cellular	4
BIOL 541	Ecology	4

ZOOL 733	Behavioral Ecology (C)	4
ZOOL 736	Genes and Behavior (C)	4
ZOOL 777	Neuroethology	4
Restoration Management and Policy		
MARI 405	Introduction to Marine Mammal Science and Policy	3
MARI 705	Introduction to Marine Policy: Understanding US Ocean, Coastal and Great Lakes Policy	3
MEFB #505	Introduction to Applied Science Communication (SML)	4
MEFB 702	Sustainable Marine Fisheries	4
MEFB 747	Aquatic Plants in Restoration/Management (C)	4
MEFB 772	Fisheries Biology: Conservation and Management	4
ZOOL 610	Principles of Aquaculture	4
Research and Special Projects <sup>2</sup>		
BIOL 795	Independent Investigations in Biology	1-4
BMS 795	Investigations in Biomedical Science	1-8
BIOL 799	Honors Senior Thesis	2-8
MEFB 403	Investigative Marine Biology Laboratory (SML)	2-4
MEFB 500	Coastal Habitat Field Research Methods (SML)	4
MEFB 600	Field Experience in Marine, Estuarine, and Freshwater Biology	1-4
MEFB #732	Lake Management	4
MEFB 730	Underwater Research (SML)	4
MEFB 751	Research in Marine Biology (SML)	4
MEFB 770	Senior Seminar in Marine, Freshwater, and Estuarine Biology (C)	2
MEFB 795	Independent Investigations in Marine, Estuarine, and Freshwater Biology	1-4
TECH 797	Undergraduate Ocean Research Project (C) <sup>3</sup>	2
MEFB 799H	Honors Senior Thesis in Marine, Estuarine, and Freshwater Biology	2-4

- <sup>1</sup> A single course cannot be used for both a core requirement and an elective (e.g., ZOOL 542 cannot be used to fulfill the animal survey requirement and as an elective).
- <sup>2</sup> Primary focus of the project must be Marine, Estuarine and/or Freshwater. A 600, 695, 795, or 799 experience may substitute for one elective with academic advisor approval, but only if taken for at least four credits. These four credits may be spread over multiple semesters if they are consecutive and with the same faculty mentor.
- <sup>3</sup> This class requires enrollment in both fall and spring sections, 2 credits/semester for a total of 4 credits.

A minimum grade of C- is required in all biological science courses that are counted toward the requirements for a degree in MEFB. Students who expect to compete successfully for post-baccalaureate programs should attain a cumulative GPA of 3.0 or higher by the end of the sophomore year and maintain it at that level.

## Capstone Experience

As part of the University of New Hampshire's Discovery Program requirements, all students must complete a capstone experience during their senior year (after earning at least 90 credits). The capstone experience for students majoring in MEFB consists of BOTH (1) an approved individual experience AND (2) the successful completion of the BIOL 780 Capstone Companion Course. Students will not be approved for graduation until capstone certification has been granted.

### 1) The individual experience

The individual experience may be satisfied through various forms of experiential learning (e.g., Honors thesis, mentored research project, internship) or a course denoted with a "(C)" in the courses listed above. The individual experience must fulfill at least one of the University's capstone criteria:

- synthesizes and applies disciplinary knowledge and skills
- fosters reflection on undergraduate learning and experience
- demonstrates emerging professional competencies
- applies, analyzes, and/or interprets research, data, or artistic expression
- explores areas of interest based on the integration of the prior learning

**Before beginning *any* capstone individual experience, students must submit a completed capstone approval form to their Program Coordinator.**

Students can obtain this form on the Department's Capstone page or from their Program Coordinator. Here they will describe their proposed individual experience and how it fulfills at least one of the University's capstone criteria listed above. If the student is selecting a "C" course for their individual experience, they should obtain the course syllabus from the instructor for information about the course's content and learning objectives.

### 2) Enrollment in BIOL 780 Capstone Companion Course

Students will also be required to enroll in BIOL 780 (1 cr.) during the semester of their individual experience. BIOL 780 is offered every Fall and Spring semester.

- If the individual experience is a two-semester thesis, BIOL 780 should be taken during the second semester.

- If the individual experience occurs during the summer (e.g., internship), BIOL 780 should be taken during the Fall semester that immediately follows.
- Note: Because BIOL 780 is not offered during the summer, students cannot complete their individual experience during the summer *and graduate during that same August*. Summer experiences could only be used as individual capstone experiences if completed the summer before the student's senior year.

## Off Campus Coursework and Study Abroad Opportunities

It is strongly recommended that students consider participating in a summer, semester, or year-long study abroad program. UNH's Shoals Marine Laboratory (<https://www.shoalsmarinelaboratory.org/>), in conjunction with Cornell University, offers a host of marine biology-related college level courses that meet many degree requirements of the MEFB major over the summer on our island campus in the Isles of Shoals. SML offers both Merit and Need-based Scholarships, multi-course discounts, as well as competitive Research Internships offering summer stipends. UNH Global is the definitive resource for Study Abroad opportunities for undergraduates (<https://www.unh.edu/global/education-abroad>). UNH Global can provide information on programs of study, while students' academic advisors can assist in course selection options that provide equivalencies to requirements in MEFB so progress toward degree is not compromised. In addition, Ecoquest, run by the Department of Natural Resources, offers summer and semester programs of environmentally oriented courses in New Zealand (<https://ecoquest.unh.edu/>). These are just some of the many opportunities available for MEFB students and we encourage you to explore more.

## Pre-health Professional Program

MEFB majors who wish to pursue postgraduate degrees in the health care professions should visit the premed advising website (<http://www.unh.edu/premed-advising>).

## Student Learning Outcomes

- Show the ability to synthesize diverse sources of information and communicate it effectively.
- Demonstrate a broad understanding of the unique characteristics, as well as the similarities, governing freshwater, estuarine and marine systems.
- Have a broad understanding of biology from the molecular to the ecosystem with a particular appreciation for the abiotic and biotic factors relating to diverse aquatic ecosystems.
- Demonstrate the ability to describe basic principles of scientific inquiry and the importance of scientific study for understanding the natural world.
- Demonstrate the ability to design and experiment, collect data, analyze and graph it appropriately, and summarize the significant findings.
- Demonstrate an ability to critically and objectively evaluate data, develop hypotheses, plus interpret biological experiments and studies.
- Demonstrate an ability to communicate clearly and explicitly, both orally and in writing, following conventional scientific formats.

- Demonstrate a broad understanding of major groups of prokaryotic and eukaryotic aquatic life.

## Marine Biology Minor

<https://colsa.unh.edu/biological-sciences/program/minor/marine-biology>

### Description

The Marine Biology minor is designed to provide a foundation in marine biology and related sciences to any UNH undergraduate student, with the exception of students majoring in marine, estuarine, and freshwater biology. It is offered through the Department of Biological Sciences. The minor consists of 20 credits with grades of C- or better and no pass/fail courses. No more than eight major requirement credits may be used to complete the minor. The minor consists of an introductory Marine Science course and 4 courses selected in consultation with the minor advisor.

### Requirements

#### Required

Five courses (20 credits); two of the five courses (eight credits) can count toward the student's major.

Code	Title	Credits
Select one of the following introductory courses in marine science:		4
MEFB 503	Introduction to Marine Biology	
ESCI 501	Introduction to Oceanography	
Four additional courses selected in consultation with the minor adviser		16
<b>Total Credits</b>		<b>20</b>

In addition, students are encouraged to become involved in a research project, either by working in a professor's laboratory or by participating in the Undergraduate Ocean Research Project (TECH 797 Undergraduate Ocean Research Project).

## Neuroscience and Behavior (NSB)

Neuroscience is one of the fastest-growing scientific fields, and the discoveries that are being made today are having an immediate and significant impact on our society. The importance of understanding animal behavior is likewise increasing, particularly in the face of a rapidly-changing environment. The B.S. in Neuroscience and Behavior is a great way for students to combine interests in neurobiology and animal behavior. The curriculum prepares students for various post-graduate degrees, including medical, veterinary, and graduate school, and we offer students a variety of opportunities to get hands-on research experience.

## Animal Behavior Minor

<https://colsa.unh.edu/biological-sciences/program/minor/animal-behavior>

### Description

This minor is designed for students who are interested in learning more about animal behavior, including the mechanisms that underlie behaviors and the evolutionary forces that may have shaped them. Students will also gain practical skills in the methods used to study animal behavior in laboratory and field settings.

### Requirements

Students must earn a grade of C- or better in all courses taken for the minor. No more than 8 credits taken for the minor may be used toward a student's major.

Code	Title	Credits
<b>Required</b>		
ZOOL 613	Animal Behavior	5
<b>Electives</b>		
Minimum of 15 additional credits; At least two of the four electives must come from the Category I list below; the remaining courses may be from either Category I or Category II.		
Category I:		
NSB 727	Animal Communication	4
PSYC 720	Animal Cognition	4
ZOOL 726	Conservation Behavior	4
ZOOL 733	Behavioral Ecology	4
ZOOL 736	Genes and Behavior	4
ZOOL 777	Neuroethology	4
ZOOL 795	Independent Investigations in Zoology	1-4
MEFB 714	Field Animal Behavior	4
Category II:		
AAS 421	Large Animal Behavior and Handling Techniques	2
BIOL 720	Plant-Animal Interactions	4
BMS 718	Mammalian Physiology	4
PSYC 512	Psychology of Primates	4
ZOOL 625	Principles of Animal Physiology	3
ZOOL 690	Evolution	4

## Neuroscience and Behavior Major (B.S.)

<https://colsa.unh.edu/biological-sciences/program/bs/neuroscience-and-behavior-major>

### Description

The major in neuroscience and behavior (NSB) offers an interdisciplinary approach to human and non-human behavior, focusing on the evolution and adaptiveness of certain behaviors, as well as their underlying neural

mechanisms. Students who have always been fascinated by how the brain functions will be well served by this major, as will those who love wild animals and wish to better understand their behavior. The B.S. in neuroscience and behavior is based on a solid foundation in biology, chemistry, physics, statistics, and genetics (foundation courses). These are followed by a two-semester course sequence that covers the fundamentals of neuroscience and behavior. Students can then pick five or more electives focusing on areas of interest.

NSB students are encouraged to take advantage of research experiences in the laboratories of the psychology and biology faculty in the program. This provides valuable experience with cutting-edge equipment and techniques. Some students may share aspects of a larger project, whereas others may be relatively independent and design their own project under supervision. In either case, important skills are gained by the discipline of gathering data, analyzing and interpreting it, and presenting it to a broader audience.

The curriculum provides most of the requirements and recommended courses for students seeking admission to graduate school and to professional schools in medicine and veterinary medicine. Students who might choose not to go on to advanced degrees are well-prepared for employment as skilled technicians in research laboratories or, if their interests are in animal behavior, as field research assistants or animal trainers. With additional courses in education, the B.S. in NSB also qualifies graduates to teach at the elementary, junior high, and high school levels.

Faculty participating in the NSB major combine a love of teaching and student mentoring with a passion for research, and encourage student participation. Research facilities that students can use include the Integrative Animal Behavior and Ecoacoustics laboratory, the confocal imaging center, the Hubbard Center for Genomic Studies, and the many marine, freshwater, and estuarine laboratories associated with UNH programs. Students can also take summer courses at the Shoals Marine Laboratory.

## Requirements

Students majoring in NSB are required to take foundation courses in basic science, core courses, and five electives from an extensive list of courses, including some offered by other departments including biochemistry, molecular and cellular biology, and natural resources. Minimum grade of D- or better is required in CHEM 403, CHEM 404, CHEM 545/CHEM 546, and PHYS 401; minimum grade of C- or better is required in all other courses. Finally, a capstone experience is required. This may be independent research, an advanced seminar, or other special student activity. It is meant to integrate prior experience and take the student to a new level in an area of special interest.

<b>Capstone <sup>3</sup></b>		
<b>Total Credits</b>		<b>69-71</b>

<sup>1</sup> Both must be taken to count as one of the 5 required major electives

<sup>2</sup> One experience totaling at least 4 credits, but can be earned over the course of two consecutive semesters provided the experience is with the same research mentor. Can only substitute for one elective.

<sup>3</sup> Courses that are eligible to fulfill the Capstone requirement are indicated with a (C) and must be taken senior year. You can: 1) designate a course as a Capstone course, with additional requirements as determined by the instructor; 2) complete one semester of Capstone Research (BIOL 795, PSYC 795, or INCO 790); 3) do an honors thesis in Neuroscience and Behavior (NSB 799H) or Biology or Psychology (BIOL 799 or PSYC 797/PSYC 799) or; 4) participate in an alternative activity with approval from the student's academic advisor.

NSB majors may use BIOL 411, BIOL 412, CHEM 403, CHEM 404, PHYS 401, PHYS 407 and either PSYC 402 or BIOL 528 to fulfill the Biological Sciences, Physical Sciences, Discovery Lab, and Quantitative

Reasoning Discovery requirements. Students transferring into the NSB program from other UNH majors must hold a cumulative GPA of at least 3.2 at the time of requested major change.

## Student Learning Outcomes

Students demonstrate that they understand basic principles of neuroscience and behavior.

- Apply the core principles of biology, chemistry, physics, and statistics to more advanced concepts in neuroscience and behavior.
- Apply the principles of evolution and genetics to understand how genotype and phenotype affect the structure and function of animal nervous systems and behavior.
- Describe the basic features of animal nervous system development, organization, signaling, integration, and higher-level processing, and how these are altered in diseases of the nervous system.
- Explain the four levels of analysis emphasized in modern animal behavior research: causation, development, function, and evolution.
- Describe molecular and cellular approaches to the study of brain structure, function, and development, as well as behavioral and cognitive neuroscience approaches to studying higher level brain functions.

Students demonstrate that they can undertake scientifically valid methods of inquiry.

- Apply appropriate research methods, laboratory techniques, and statistical methods to investigate scientific questions in neuroscience and behavior.

Students demonstrate that they can think critically and analytically.

- Read and critique primary research literature related to the nervous system, how nervous system function generates behavior, and how behavior addresses fitness-related challenges across a diversity of species.

Students demonstrate that they can communicate effectively.

- Demonstrate scientific writing skills, and proficiency in delivering oral presentations related to both the primary literature and findings from student investigations in neuroscience and behavior.

Students practice science responsibly and ethically, and acknowledge the influence of cultural and historical biases in the sciences.

## Nutrition (NUTR)

Nutrition is the study of how nutrients and food components function at molecular, cellular, and whole-body levels to impact human health and disease. Students are grounded in fundamental sciences as they develop nutrition-specific competencies in nutrition and health, foods, nutritional assessment, wellness, life cycle nutrition, and/or metabolic biochemistry.

The nutrition program prepares students for entry-level positions in health care, education, or the biotechnology industry, or entry into post-baccalaureate professional programs such as dietetic internship, medical school, dental school, or graduate school. Nutrition faculty have expertise in clinical nutrition, sports nutrition, and food science, as well as assessing risk factors of chronic disease risk (i.e. obesity, diabetes, cardiovascular, cognitive) in diverse populations (pediatric, young adult, older adult). Undergraduate students actively participate

in ongoing research projects in these areas. The College Health and Nutrition Assessment Survey (CHANAS) is one resource that supports nutrition research at the University of New Hampshire.

Students pursuing the B.S. degree in Nutrition choose from one of three areas of specialization: Dietetics, Nutrition and Wellness, or Nutritional Sciences options:

The curriculum for the Dietetics option is accredited by the Academic Council for Education in Nutrition and Dietetics (ACEND) of the Academy of Nutrition and Dietetics (AND). Students who complete the B.S. in Nutrition with the Dietetics option are eligible to apply for a dietetic internship, a prerequisite for becoming a registered dietitian.

Students who complete the Nutrition and Wellness option are prepared for jobs in agencies or businesses that have an emphasis on health and wellness, including schools, fitness centers, and non-profit or community organizations.

Students in the Nutritional Sciences option most often enroll in a post-graduate educational degree program (e.g., medical school, graduate school, physician assistant program, etc.) or enter the biomedical/biotechnology workplace.

## Pre-Professional Health Programs

Students interested in postgraduate careers in the health care professions should visit UNH's Pre-Professional Health Programs Advising Office. Requirements for specific types of professional schools (e.g., medical, dental, physician assistant, pharmacy, etc.) are also provided by the [Pre-Professional Health Advising Office](#). While many of the prerequisite courses required by professional schools are also requirements of the Nutrition major, you should consult with your faculty adviser to create a plan of study that best prepares you for pursuing a career in one of these health professions.

## Nutrition Major (B.S.)

<https://colsa.unh.edu/agriculture-nutrition-food-systems/program/bs/nutrition-major>

## Description

Nutrition is the study of food, the nutrients found in food, and the body's metabolism of these nutrients to maintain and promote health. Nutrition

is an interdisciplinary science based on biochemistry and physiology, but also integrates sociology, psychology, molecular biology, and genetics.

Students have three curriculum options within the major to pursue a bachelor's degree in nutrition. The option is declared within the nutrition major after their second semester in the program. Options include:

- **Dietetics option** - is the first step to becoming a registered dietitian. The Didactic Program in Dietetics (DPD) curriculum is accredited by The Accreditation Council for Education in Nutrition and Dietetics (ACEND). It prepares you for a dietetic internship.
- **Nutrition and Wellness option** - provides a foundation in chemistry, anatomy, physiology and microbiology and includes courses on stress, wellness and exercise science. Students gain real-world experience providing hands-on nutrition and health guidance.
- **Nutritional Sciences option** - provides a comprehensive background in biology, chemistry, physiology, nutrition, biochemistry and physics, and includes courses on nutritional assessment, life cycle nutrition, nutrition and health, and careers in nutrition.

The program prepares students for success by offering real-world learning opportunities throughout the curriculum. These opportunities include applied research, field experiences, internships, community engagement, and study abroad offerings. Our diverse group of faculty are dedicated to student success in and outside of the classroom. Coursework supports diverse postgraduate pathways including dietetic internships, allied health programs, medical and dental schools and graduate school. The rigorous curriculum is designed to offer a science-based foundation and foster critical-thinking and strong communication skills for future professional success of our students.

## Requirements

Students take 16-18 credits per semester. All students complete foundational courses in the sciences, nutrition core courses, and additional option-specific requirements as noted in the program descriptions (i.e. Dietetics, Nutrition and Wellness, and Nutritional Sciences). Discovery Program requirements (including the Inquiry requirement in the first two years) and elective courses are taken as well.

Code	Title	Credits
NUTR courses:

## Student Learning Outcomes

Student Learning Outcomes are listed within the Nutrition Major program options pages.

## Nutrition Major: Dietetics Option (B.S.)

<https://colsa.unh.edu/agriculture-nutrition-food-systems/program/bs/nutrition-major-dietetics-option>

### Description

Nutrition is the study of how nutrients and food components function at molecular, cellular, and whole-body levels to impact human health and disease. Students are grounded in fundamental sciences as they develop nutrition-specific competencies in nutrition and health, foods, nutritional assessment, wellness, life cycle nutrition, and/or metabolic biochemistry.

The nutrition program prepares students for entry-level positions in health care, education, or the biotechnology industry, or entry into post-baccalaureate professional programs. Nutrition faculty have expertise in clinical nutrition, sports nutrition, and food science, as well as assessing risk factors of chronic disease risk (i.e. obesity, diabetes, cardiovascular, cognitive) in diverse populations (pediatric, young adult, older adult).

The curriculum for the Dietetics option is accredited by the Academic Council for Education in Nutrition and Dietetics (ACEND) of the Academy of Nutrition and Dietetics (AND). Students who complete the B.S. in Nutrition with the Dietetics option are eligible to apply for a dietetic internship, a prerequisite for becoming a registered dietitian.

### Requirements

A grade of C-minus or better must be earned in all NUTR courses required by the major.

#### Foundation Courses

Code	Title	Credits

## Student Learning Outcomes

- Demonstrate how to locate, interpret, evaluate and use professional literature to make ethical, evidence-based practice decisions. Writing assignment
- Use current information technologies to locate and apply evidence-based guidelines and protocols.
- Apply critical thinking skills.
- Demonstrate effective and professional oral and written communication and documentation.
- Describe the governance of nutrition and dietetics practice, such as the Scope of Nutrition and Dietetics Practice and the Code of Ethics for the Profession of Nutrition and Dietetics; and describe interprofessional relationships in various practice settings.
- Assess the impact of a public policy position on nutrition and dietetics practice.

- Discuss the impact of health care policy and different health care delivery systems on food and nutrition services.
- Identify and describe the work of interprofessional teams and the roles of others with whom the registered dietitian nutritionist collaborates in the delivery of food and nutrition services.
- Demonstrate an understanding of cultural competence/sensitivity.
- Demonstrate identification with the nutrition and dietetics profession through activities such as participation in professional organizations and defending a position on issues impacting the nutrition and dietetics profession.
- Demonstrate an understanding of the importance and expectations of a professional in mentoring and precepting others.
- Use the Nutrition Care Process to make decisions, identify nutrition-related problems and determine and evaluate nutrition interventions.
- Develop an educational session or program/educational strategy for a target population.
- Demonstrate counseling and education methods to facilitate behavior change for and enhance wellness for diverse individuals and groups.
- Explain the processes involved in delivering quality food and nutrition services.
- Describe basic concepts of nutritional genomics.
- Apply management theories to the development of programs or services.
- Evaluate a budget and interpret financial data.
- Describe the regulation system related to billing and coding, what services are reimbursable by third party payers, and how reimbursement may be obtained.
- Apply the principles of human resource management to different situations.
- Describe safety principles related to food, personnel and consumers.
- Analyze data for assessment and evaluate data to be used in decision-making for continuous quality improvement.

## Nutrition Major: Nutritional Sciences Option (B.S.)

<https://colsa.unh.edu/agriculture-nutrition-food-systems/program/bs/nutrition-major-nutritional-sciences-option>

### Description

Nutrition is the study of how nutrients and food components function at molecular, cellular, and whole-body levels to impact human health and disease. Students are grounded in fundamental sciences as they develop nutrition-specific competencies in nutrition and health, foods, nutritional assessment, wellness, life cycle nutrition, and/or metabolic biochemistry.

The nutrition program prepares students for entry-level positions in health care, education, or the biotechnology industry, or entry into post-baccalaureate professional programs. Nutrition faculty have expertise in clinical nutrition, sports nutrition, and food science, as well as assessing risk factors of chronic disease risk (i.e. obesity, diabetes, cardiovascular, cognitive) in diverse populations (pediatric, young adult, older adult).

Students in the Nutritional Sciences option most often enroll in a post-graduate educational degree program (e.g., medical school, graduate

school, physician assistant program, etc.) or enter the biomedical/biotechnology workplace.

### Requirements

A minimum grade of C- or above is required in all NUTR courses required by the major.

- Demonstrate an understanding of the scientific method and how it is used to generate knowledge in nutrition science.
- Understand basic concepts of statistical analysis.

## Nutrition Minor

<https://colsa.unh.edu/agriculture-nutrition-food-systems/program/minor/nutrition>

### Description

The nutrition minor is particularly suited to students interested in pursuing professional careers related to human health and wellness. The minor consists of a minimum of 20 credits, no more than 8 of which can also be used to fulfill major requirements. A C average (2.00) is required in courses that the minor department approves; a grade of C-minus or better is required in all courses to be counted toward the minor. Courses taken on a Pass/Fail basis may not be used for a minor.

Students declare the nutrition minor by submitting the [Intent to Minor in Nutrition](#) form to the Nutrition minor advisor, preferably prior to the start of their junior year. Submission of the Intent to Minor form is required to gain registration preference in certain courses if space is available and by discretion of the instructor. To complete the minor, students submit a

[Certification of Completion of Minor](#) form during their final semester at UNH.

## Requirements

## Culinary Nutrition and Food Studies Minor

<https://colsa.unh.edu/agriculture-nutrition-food-systems/program/minor/culinary-nutrition-food-studies>

### Description

The Culinary Nutrition & Food Studies Minor provides students the ability to explore the foundation of nutritional sciences and gain a practical appreciation of the culinary arts while building an understanding of our food environment & culture as it applies to human health. The Minor offers students hands-on learning experiences in culinary arts and the flexibility to incorporate study abroad coursework via the UNH in Italy program.

The Minor may be of interest to students preparing for future careers in allied health or health promotion and who recognize the growing need for training in culinary nutrition. Dietitians, physicians, wellness coaches, nurses, and other health care providers with strong culinary skills will

likely be better equipped to empower clients to choose and prepare healthier food choices.

## Requirements

Requirements for the Culinary Nutrition & Food Studies Minor (20 credits).

<sup>1</sup> HMG1 #403 Introduction to Food Management will be considered an equivalent course to NUTR 403 Culinary Arts Skills Development

## Sustainable Agriculture and Food Systems (SAFS)

The sustainable agriculture and food systems (SAFS) program offers a flexible curriculum to students seeking integrated knowledge and experiences in modern agricultural and food systems to prepare for varied careers in these fields.

Students in this program will obtain knowledge in a variety of topics including sustainable agricultural practices, the science and management of working landscapes, locally produced foods, value-added agricultural products, and the promotion of healthy eating through sustainable food production and food policies. SAFS graduates will be prepared to pursue careers in a wide range of fields including the production of food, fiber, and agricultural services; management and marketing of agricultural operations; management of working lands, landscapes and ecosystems; agriculture/food/nutrition/natural resources-related research; policy-making; and other current and emerging professions.

The program offers both a bachelor of science (B.S.) degree and a bachelor of arts (B.A.) degree. The B.A. degree offers more flexibility to take courses from a variety of disciplines or pursuing a dual degree, second major, or minor. The B.S. degree best serves those seeking a strong foundation in scientific and technical knowledge and/or who envision pursuing an advanced degree.

## Sustainable Agriculture and Food Systems Major (B.A.)

<https://colsa.unh.edu/agriculture-nutrition-food-systems/program/ba/sustainable-agriculture-food-systems-major>

## Description

The Sustainable Agriculture & Food Systems B.A. provides students with a broad base of knowledge and experiences with modern agriculture and food systems. Sustainable Agriculture and Food Systems is an interdisciplinary field comprising the social, physical, and life sciences and beyond. Agriculture is key to solving many of the major challenges facing the world, such as producing food to meet the needs of an ever-growing population while conserving land, water, and soil resources.

Our students get hands-on experience in applied coursework, and we encourage our students to conduct research alongside faculty. Our students become practitioners and entrepreneurs of agricultural and food businesses, researchers and policy-makers at state/federal agencies and non-profit organizations, laboratory technicians, and agricultural educators. Some go on to obtain advanced degrees in the agricultural sciences.

## Requirements

The SAFS B.A. program structure includes FOUR major components: foundation courses, courses in a student-designed emphasis area, program elective courses, and a capstone. You must earn a minimum grade of C- in all courses required for the major.

**Foundation** courses include 36 credits, which satisfy 5 of the University Discovery requirements.

**Student-Designed Emphasis** courses include 20 credits that make up a cohesive emphasis or focus area. Courses may be selected from the *List of Approved Program Electives*, but do not need to be on that list. Each student will define their emphasis area in consultation with their advisor and submit it to the SAFS program committee for approval prior to the start of their 6<sup>th</sup> semester.

**Program Elective** courses include 16 credits, chosen from the *List of Approved Program Elective* courses.

A **Capstone** experience must take place during the senior year. There are two capstone options: SAFS 733 Advanced Topics in Sustainable Agriculture or ANSC 750 Collaborative Farm Design and Development. Your capstone *MAY NOT* be counted towards elective or emphasis credits.

Of the Student-Designed Emphasis and Program Elective courses, **at least 16 credits (not counting the capstone) must be earned at the 600-700 level.**

Code	Title	Credits
<b>B.A. Foundation Courses</b>		<b>36</b>
ANSC 421	Introduction to Animal Science	4
BIOL 528	Applied Biostatistics I	4

## University Requirements

In addition to meeting the SAFS major requirements, students must satisfy all University requirements including those that pertain to the minimum number of credits, grade-point average, writing-intensive courses, the Discovery Program, and foreign language (only for B.A. students).

## Student Learning Outcomes

- Students will demonstrate a working understanding of the interdisciplinary nature of agriculture and food systems and the basic principles underpinning sustainability including: economic viability, environmental stewardship, social responsibility, and the trade-offs between competing metrics of sustainability.
- Students will demonstrate in-depth knowledge, critical thinking and analysis, and effective written communication in a self-declared area of emphasis within the program.
- Students will gain an applied understanding of agriculture and food system sustainability by engaging in an experiential education opportunity.
- Students will be able to independently interpret, evaluate, and engage with research in the agricultural sciences, including its biological, physical, social, and/or economic aspects.

## Sustainable Agriculture and Food Systems Major (B.S.)

<https://colsa.unh.edu/agriculture-nutrition-food-systems/program/bs/sustainable-agriculture-food-systems-major>

## Description

The Sustainable Agriculture and Food Systems B.S. provides students with a strong foundation in biological sciences and a broad base of knowledge and experiences with modern agriculture and food systems. Sustainable Agriculture and Food Systems is an interdisciplinary field comprising the social, physical, and life sciences and beyond. Agriculture is key to solving many of the major challenges facing the world, such as producing food to meet the needs of an ever-growing population while conserving land, water, and soil resources.

Our students get hands-on experience in applied coursework, and we encourage our students to conduct research alongside faculty. Our students become practitioners and entrepreneurs of agricultural and food businesses, researchers and policy-makers at state/federal agencies and non-profit organizations, laboratory technicians, and agricultural educators. Some go on to obtain advanced degrees in the agricultural sciences.

## Requirements

The SAFS B.S. program structure includes FOUR major components: foundation courses, courses in a student-designed emphasis area, program elective courses, and a capstone. You must earn a minimum grade of C- in all courses required for the major.

**Foundation** courses include 36 credits, which satisfy 5 of the University Discovery requirements.

**Student-Designed Emphasis** courses include 20 credits that make up a cohesive emphasis or focus area. Courses may be selected from the *List of Approved Program Electives*, but do not need to be on that list. Each student will define their emphasis area in consultation with their advisor and submit it to the SAFS program committee for approval prior to the start of their 6<sup>th</sup> semester.

**Program Elective** courses include 16 credits, chosen from the *List of Approved Program Elective* courses.

A **Capstone** experience must take place during senior year. There are two capstone options: SAFS 733 Advanced Topics in Sustainable Agriculture or ANSC 750 Collaborative Farm Design and Development. Your capstone *MAY NOT* be counted towards elective or emphasis credits.

Of the Student-Designed Emphasis and Program Elective courses, **at least 16 credits (not counting the capstone) must be earned at the 600-700 level.**

## University Requirements

In addition to meeting the SAFS major requirements, students must satisfy all University requirements including those that pertain to the minimum number of credits, grade-point average, writing-intensive courses, and the Discovery Program.

## Student Learning Outcomes

- Students will demonstrate a working understanding of the interdisciplinary nature of agriculture and food systems and the basic principles underpinning sustainability including: economic viability, environmental stewardship, social responsibility, and the trade-offs between competing metrics of sustainability.
- Students will demonstrate in-depth knowledge, critical thinking and analysis, and effective written communication in a self-declared area of emphasis within the program.
- Students will gain an applied understanding of agriculture and food system sustainability by engaging in an experiential education opportunity.
- Students will be able to independently interpret, evaluate, and engage with research in the agricultural sciences, including its biological, physical, social, and/or economic aspects.

## Brewing Minor

<https://colsa.unh.edu/agriculture-nutrition-food-systems/program/minor/brewing>

## Description

Through completion of the brewing minor, students will gain a well-rounded knowledge of the brewing industry to complement their major field of study. This series of courses will encompass all aspects of beer brewing from agricultural production of raw ingredients to quality control and distribution of the final product. Undergraduates in any major field of study may minor in brewing.

Brewing is unique in that it requires a balanced knowledge of math, science, engineering, and business as well as an understanding of how and why the product plays an important role in society and culture. With this minor, you will learn how to integrate various fields of study together, a skill which can be applied to any career. You will also gain specific skills and knowledge for the brewing industry.

## Requirements

### Minor Requirements

- Complete 5 Courses with a minimum of 20 credits from the courses listed below, with a grade of C- or better.
- No more than 8 credits used to satisfy major requirements may be used for the minor.
- Pass/Fail courses may not be used for the minor.

Code	Title	Credits
<b>Required Courses:</b>		
SAFS 415	Introduction to Brewing Art and Science	4
SAFS 515	Technical Brewing	4
SAFS 517	Advanced Aspects of Brewing	4
<b>Elective in Business/Finance - Select one course:</b>		<b>4</b>
ACC 501	Survey of Accounting	
ADMN 502	Financial Accounting	
ADMN 585	Marketing

MGT 520	Topics in Management <sup>1</sup>	
MKTG 530	Survey of Marketing	
<b>Elective in Food/Culture - Select one course:</b>		<b>4</b>
HMG1 #403	Introduction to Food Management	
HMG1 405	Introduction to Food and Service Management	
HMG1 771	International Wine and Beverage	
HIST 425	Foreign Cultures <sup>2</sup>	
NUTR 550	Food Science: Principle and Practice	
<b>Total Credits</b>		<b>20</b>

<sup>1</sup> MGT 520 Topics in Management - fulfills this elective requirement.

<sup>2</sup> HIST 425 Foreign Cultures: Beer in World History

## Environmental Horticulture Minor

<https://colsa.unh.edu/agriculture-nutrition-food-systems/program/minor/environmental-horticulture>

## Description

By completing the minor in Environmental Horticulture, students will gain knowledge of several aspects of horticultural production systems. The required course provides theoretical and applied knowledge in plant science. Students will get more in-depth knowledge by taking additional

coursework focused on botany, various crop production systems, or integrated pest management strategies.

Our environmental horticulture students study the science and art of cultivating plants, and the many ways that plants enhance the human experience. The cultivation of fruits, vegetables and ornamental plants is key to solving many of the major challenges facing the world; such as producing food to meet the needs of an ever-growing population while conserving land, water, and soil resources. An understanding of these challenges and potential solutions can enhance any career. A minor in environmental horticulture may complement any major field of study.

Interested students should contact Andrew Ogden in the Department of Agriculture, Nutrition, and Food Systems, (603) 862-4893.

## Requirements

Code	Title	Credits
<b>Required Core Course</b>		
SAFS 421	Introductory Horticulture	4
<b>Electives</b>		
Select an 16 credits from the following courses:		16

## Sustainable Agriculture and Food Systems Minor

<https://colsa.unh.edu/agriculture-nutrition-food-systems/program/minor/sustainable-agriculture-food-systems>

## Description

By pursuing a minor in Sustainable Agriculture and Food Systems (SAFS), students will gain knowledge of several aspects of agricultural systems.

The required course (SAFS 405) provides an introduction to sustainable and organic agriculture practices, including an array of strategies to sustainably manage soil, nutrient, water, and genetic resources. Students will get more in-depth knowledge of additional aspects of sustainable agriculture by taking additional coursework focused on agricultural production, management, and/or policy.

Sustainable Agriculture and Food Systems encompasses a mixture of the natural sciences, social sciences, and business skills, plus much more. Agriculture is key to solving many of the major challenges facing the world; such as producing food to meet the needs of an ever-growing population while conserving land, water, and soil resources. An understanding of these challenges and potential solutions can enhance any career. Undergraduates in any major field of study (except SAFS) may minor in Sustainable Agriculture and Food Systems.

### Certificate of Minor

During the student's final semester, the student must fill out a Certification of Completion of Minor form and obtain the signatures of the student's major advisor, minor advisor, and the student's Dean's Office.

## Requirements

<https://colsa.unh.edu/natural-resources-environment/program/minor/sustainable-energy>

### Description

The Minor in Sustainable Energy provides the flexibility and focus that allows for students to expand their exposure to the topic within the context of their own major. The goal of the program is to match the developing nature of the field with the skills needed to understand sustainable energy in the greater context of its opportunities and challenges. Courses in the minor will build on existing competencies and

create an experience that provides an exposure to new the perspectives and conceptual framework that is at the core of the developing field of sustainable energy.

### Objectives

The objectives of the Minor in Sustainable Energy are to provide students with the educational experience necessary to participate in one of the fastest growing fields of employment. Coupled with an ability to focus on meaningful employment, is our challenge to confront a changing climate; students will be given an opportunity to be a part of the solution.

### Curriculum and Requirements

The curriculum and requirements for the minor are based on exposure to three competencies that reflect the exposure necessary to grasp the basic understanding of sustainable energy:

- **Technical** – Requires a basic understanding of the grid, energy flow, energy usage and the technologies of efficiency, generation and management of energy and generation sources.
- **Economics and Finance** – Requires a basic understanding of utility structure, energy markets and utility rate-making. An additional focus includes the business aspect of financing and projecting the cost-effectiveness of energy generation sources and fuels – including the development of innovative business models for deploying sustainable energy.
- **Policy** – Requires a basic understanding in policy-making and implementation, including a historic perspective of our utilities, incentives and subsidies and their impact on market forces. An additional focus includes the policy impacts of aspects related to sustainable energy deployment, including, interconnection, net metering and feed in tariffs and tax incentives.

### Contact Information

Students with questions about the minor or who would like more information should contact [Dr. Julia Novak Colwell](mailto:julia.colwell@unh.edu) ([julia.colwell@unh.edu](mailto:julia.colwell@unh.edu)) in the Department of Natural Resources and the Environment.

## Requirements

Code	Title	Credits
Required Courses		11-12
Introduction:		
NR 507	Introduction to our Energy System and Sustainable Energy	
Critical Thinking:		
NR 606	International Energy Topics	
or CEE 705	Introduction to Sustainable Engineering	
Competency:		
NR 787	Advanced Topics in Sustainable Energy	7-8
Select at least one course from each of the following categories:		
Technology/Engineering Category:		
CHE 410	Energy and Environment	
CEE 520	Environmental Pollution and Protection: A Global Context	
CEE 719	Green Building Design	
Social & Economic Policy Category:		
NR 602	Natural Resources and Environmental Policy	
CEP 673	Green Real Estate	
EREC 572	Introduction to Natural Resource Economics	
SOC 565	Environment and Society	
TOUR 767	Social Impact Assessment	
NR 606	International Energy Topics	
Total Credits		
		18-20

- Students must earn a grade of C- or better in order for a course to be counted for credit toward the minor.
- No pass/fail graded course shall count toward the minor.
- Up to 8 credits can be used to satisfy both major and minor requirements.
- Appropriate course substitutes from other study-abroad programs may also be used with permission.

## Tourism Management

### Programs

- [Tourism Management Minor](#) (p. 347)

## Tourism Management Minor

<https://paulcollege.unh.edu/hospitality-management/program/minor/tourism-management>

### Description

"Tourism" is the world's largest and most diverse industry. Tourism is a composite of activities, services, and industries delivering travel experiences through transportation, accommodations, eating and drinking establishments, shops, entertainment, activity facilities (parks, sports, and amusement parks), historic sites, natural resources, among others.

The faculty of Recreation Management and Policy [RMP], Hospitality Management [HMG], and Natural Resources and the Environment [NRE] Tourism [Tour] have bundled a number of courses for non-majors which, when combined with certain elective courses, can constitute a Minor in Tourism Management. Each of the courses offered for this minor are already offered in each of the three departments. These programs represent the three Colleges of College of Health and Human Services, Peter T. Paul College of Business and Economics, and the College of Life Science and Agriculture.

#### Questions about the minor may be directed to:

Recreation Management and Policy – Dr. Bob Barcelona,

[Bob.Barcelona@unh.edu](mailto:Bob.Barcelona@unh.edu)

Tourism Management – Dr. Rob Robertson, [Rob.Robertson@unh.edu](mailto:Rob.Robertson@unh.edu)

Hospitality Management – Dr. Markus Schuckert,

[Markus.Schuckert@unh.edu](mailto:Markus.Schuckert@unh.edu) ([markus.schuckert@unh.edu](mailto:markus.schuckert@unh.edu))

Approval of the Minor for Graduation, verification and sign-off must be coordinated with Dr. Rob Robertson.

### Requirements

Code	Title	Credits
<b>Required Courses</b>		
TOUR 400	Introduction to Tourism	4
HMG 401	Introduction to the Hospitality Industry	4
RMP 490	Recreation & Tourism in Society	4
The remaining two courses for the minor may be used to focus your study in an area of interest. One course must be an experiential learning course. Areas of interest, with sample course, include:		8
<b>Lodging and Resort Management:</b>		
HMG 681	Contemporary Resort Development and Management	
HMG 570	International Food and Culture <sup>1</sup>	
HMG 554	Lodging Operations Management	

HMG# 682	Private Club Management	
RMP 775	Entrepreneurial and Commercial Recreation <sup>1</sup>	
TOUR 767	Social Impact Assessment	
Event Planning and Management:		
HMG# 661	Event Design, Planning, and Management	
RMP 680	Festival and Event Planning	
RMP 560	Recreational Sport Management	
TOUR 767	Social Impact Assessment	
International Travel and Tourism:		
HMG# 570	International Food and Culture <sup>1</sup>	
TOUR 510	Tourism and Global Understanding <sup>1</sup>	
EREC 444	The New Pirates of the Caribbean	
ECOG 401	Introduction to Ecogastronomy	
TOUR 767	Social Impact Assessment	
HMG# 756	International Franchising	
RMP 711	Recreation Resource Management	
Total Credits		20

<sup>1</sup> Identification of experiential learning courses.

Courses taken during study abroad maybe considered as part of the minor; prior approval of an advisor is required.

#### Please Note:

The courses may be taken in any order, and you are responsible for checking pre-requisites for the elective courses.

Following University policy, you must complete 20 semester hours with a grade of C- or better and a 2.0 grade point average.

Courses taken on a Pass/Fail basis may not be used toward the minor.

No more than 8 credits used by the student to satisfy major requirements may be used for the minor.

No transfer courses may be used toward the minor.

## Wildlife and Conservation Biology

The Wildlife & Conservation Biology major provides students with the knowledge and tools to study, conserve, and manage wildlife and their habitats.

Our students combine science with their passion for nature and the outdoors. Our courses emphasize hands-on experience and place fundamental principles within an applied context. Students are encouraged to conduct research alongside faculty, and faculty actively assist students in obtaining internships.

Our students become research biologists and resource managers at state/federal agencies and non-profit organizations, conservation law officers, and environmental educators. Many go on to obtain an advanced degree.

# Wildlife and Conservation Biology Major (B.S.)

<https://colsa.unh.edu/natural-resources-environment/program/bs/wildlife-conservation-biology-major>

## Description

The Wildlife & Conservation Biology major provides students with the knowledge and tools to study, conserve, and manage wildlife and their habitats.

Our students combine science with their passion for nature and the outdoors. Our courses emphasize hands-on experience and place fundamental principles within an applied context. Students are encouraged to conduct research alongside faculty, and faculty actively assist students in obtaining internships.

Our students become wildlife biologists and resource managers at state/federal agencies and non-profit organizations, conservation law officers, and environmental educators. Many go on to obtain an advanced degree.

## Requirements

In addition to the Wildlife and Conservation Biology degree requirements (below), students must complete the University Discovery Program and the University Writing Requirements. Given the flexibility of this major, students may also complete a minor or dual major in a second area of interest, or apply for [certification by The Wildlife Society](#).

Code	Title	Credits
<b>Requirements</b>		
BIOL 411	Introductory Biology: Molecular and Cellular	4
BIOL 412	Introductory Biology: Evolution, Biodiversity and Ecology	4
EREC 411	Environmental and Resource Economics Perspectives	4
MATH 424B or MATH 420	Calculus for Life Sciences Finite Mathematics	4
NR 425	Field Dendrology	4
NR 433	Wildlife Ecology	4
CHEM 411	Introductory Chemistry for Life Sciences	4
BMCB 501	Biological Chemistry	4
NR 527 or BIOL 541	Forest Ecology Ecology	4
NR 415	Natural Resources Field Methods	2
NR 417	Sophomore Seminar: Wildlife and Conservation Biology	2
NR 658 or ESCI 777	Introduction to Geographic Information Systems GIS for Earth & Environmental Sciences	4
BIOL 528	Applied Biostatistics I	4
NR 602	Natural Resources and Environmental Policy	4
NR 650	Principles of Conservation Biology	4
NR 615 or NR 603	Wildlife Habitats Landscape Ecology	4
NR 640	Wildlife Population Ecology	4
NR 664 or ZOOL 690	Conservation Genetics Evolution	4
NR 740	Inventory and Monitoring of Ecological Communities	4
NR 750	Sustaining Biological Diversity (Capstone) <sup>1</sup>	4
Select one of the following Communication Skills courses:		
NR 508	Communicating Science	
ENGL 501	Introduction to Creative Nonfiction	
ENGL 502	Professional and Technical Writing	
ENGL 503	Persuasive Writing	
CMN 500	Public Speaking	

Select one of the following Vertebrate Ecology, Evolution, and Diversity courses:		4
NR 712	Mammalogy	
MEFB 510	Field Ornithology	
ZOOL 542	Ornithology	
ZOOL 566	Herpetology	
ZOOL 710	Sharks and Bony Fishes	
Select one of the following Physiology/Behavior courses:		3-5
NR #625	Physiological Ecology	
ZOOL 518	Comparative Morphology and Biology of Vertebrates	
ZOOL 625	Principles of Animal Physiology	
ZOOL 613	Animal Behavior	
Select one of the following additional Ecology courses:		4
NR 642	Introduction to Biogeography	
NR 765	Community Ecology	
NR 603	Landscape Ecology	
NR 713	Quantitative Ecology	
<b>Total Credits</b>		<b>91-93</b>

<sup>1</sup> Can also be met using NR 663 Applied Directed Research in New Zealand UNH EcoQuest (or similar) if taken as a senior. An Honors Thesis/UROP/URA/SURF/Independent Study (or similar) **cannot** count as a Capstone for this major.

## Degree Plan

### Sample Course Sequence for Wildlife and Conservation Biology

Course	Title	Credits
<b>First Year</b>		
BIOL 411	Introductory Biology: Molecular and Cellular	4
BIOL 412	Introductory Biology: Evolution, Biodiversity and Ecology	4
ENGL 401	First-Year Writing	4
EREC 411	Environmental and Resource Economics Perspectives	4
MATH 424B or MATH 420	Calculus for Life Sciences or Finite Mathematics	4
NR 425	Field Dendrology	4
NR 433	Wildlife Ecology	4
Discovery electives		
<b>Credits</b>		<b>28</b>
<b>Second Year</b>		
CHEM 411	Introductory Chemistry for Life Sciences	4
BMCB 501	Biological Chemistry	4
BIOL 528	Applied Biostatistics I	4
Select one of the following:		4
NR 508	Communicating Science	
ENGL 501	Introduction to Creative Nonfiction	
ENGL 502	Professional and Technical Writing	
ENGL 503	Persuasive Writing	
CMN 500	Public Speaking	
NR 527 or BIOL 541	Forest Ecology or Ecology	4
NR 415	Natural Resources Field Methods	2
NR 417	Sophomore Seminar: Wildlife and Conservation Biology	2
Select one of the following:		4

NR 712	Mammalogy	
MEFB 510	Field Ornithology	
ZOOL 542	Ornithology	
ZOOL 566	Herpetology	
ZOOL 710	Sharks and Bony Fishes	
Discovery electives		
<b>Credits</b>		<b>28</b>
<b>Third Year</b>		
NR 602	Natural Resources and Environmental Policy	4
NR 650	Principles of Conservation Biology	4
NR 615 or NR 603	Wildlife Habitats or Landscape Ecology	4
NR 640	Wildlife Population Ecology	4
NR 664 or ZOOL 690	Conservation Genetics or Evolution	4
NR 658 or ESCI 777	Introduction to Geographic Information Systems or GIS for Earth & Environmental Sciences	4
Select one of the following:		4-5
NR #625	Physiological Ecology	
ZOOL 518	Comparative Morphology and Biology of Vertebrates	
ZOOL 625	Principles of Animal Physiology	
ZOOL 613	Animal Behavior	
Discovery electives		
<b>Credits</b>		<b>28-29</b>
<b>Fourth Year</b>		
NR 750	Sustaining Biological Diversity (Capstone)	4
NR 740	Inventory and Monitoring of Ecological Communities	4
Select one of the following:		4
NR 642	Introduction to Biogeography	
NR 765	Community Ecology	
NR 603	Landscape Ecology	
NR 713	Quantitative Ecology	
Discovery electives		
<b>Credits</b>		<b>12</b>
<b>Total Credits</b>		<b>96-97</b>

## Student Learning Outcomes

Students will:

- Understand the ecological and societal value of biodiversity, sustainability, and environmental stewardship;
- learn/understand ecological concepts and fundamental principles and techniques to manage and conserve wildlife habitat and populations;
- know the taxonomy, ecology, and natural history of the majority of native flora and fauna in New England;
- locate, evaluate, and summarize information from both print and electronic media relevant to wildlife and conservation biology issues;

- effectively communicate scientific information in written and oral formats;
- master mathematical, statistical, and study design knowledge and skills, and use state-of-the-art software, hardware, and analytical techniques relevant to wildlife and conservation biology;
- be familiar with a variety of natural resource laws and regulations;
- understand how to integrate relevant social sciences and human dimensions approaches to address wildlife and conservation biology issues as part of multidisciplinary teams.

## Wildlife and Conservation Biology Minor

<https://colsa.unh.edu/natural-resources-environment/program/minor/wildlife-conservation-biology>

### Description

The minor in Wildlife and Conservation Biology serves as a concentrated study, beyond a student's primary major, that allows students to explore their interest in wildlife ecology and conservation and their passion for nature and the outdoors.

Students interested in a minor in Wildlife and Conservation Biology must complete a minimum of 5 courses and 20 credits. Up to 8 credits can be used to satisfy both major and minor requirements. A maximum of 2 EcoQuest courses may be used to satisfy requirements. Appropriate course substitutes from other study-abroad programs may also be used with permission.

### Requirements

Code	Title	Credits
<b>Category 1</b>		<b>4</b>
NR 650 or NR 433 or NR 661	Principles of Conservation Biology Wildlife Ecology Restoration Ecology and Ecosystem Management in New Zealand	
<b>Category 2</b>		
Select one of the following:		4
MEFB 628	Marine Invertebrate Evolution and Ecology	
NR 425	Field Dendrology	
NR 506	Forest Entomology	
NR 712	Mammalogy	
ZOOL 542	Ornithology	
ZOOL 566	Herpetology	
ZOOL 710	Sharks and Bony Fishes	
<b>Category 3</b>		
Remaining 12 credits may be chosen from the following:		12
NR 615	Wildlife Habitats <sup>2</sup>	
NR #625	Physiological Ecology	
NR 640	Wildlife Population Ecology	
NR 642 or NR 603 or NR 660	Introduction to Biogeography Landscape Ecology Ecology and Biogeography of New Zealand	
NR 650 or NR 661	Principles of Conservation Biology Restoration Ecology and Ecosystem Management in New Zealand	
NR 664	Conservation Genetics	
NR 713	Quantitative Ecology	
NR 734	Tropical Ecology	
NR 740 or NR 663	Inventory and Monitoring of Ecological Communities <sup>1</sup> Applied Directed Research in New Zealand	
NR 765	Community Ecology	

NR 795	Investigations <sup>2</sup>
ZOOL 613	Animal Behavior
or ZOOL 733	Behavioral Ecology
<hr/>	
Total Credits	20

<sup>1</sup> Enrollments are capped and admission is not guaranteed to those pursuing a minor.

<sup>2</sup> NR 795 requires working with an individual WCB faculty member on a special problem/issue.

## Zoology (ZOOL)

Zoology is a field within the biological sciences that is dedicated to the study of animals: their classification, evolution, and development along with their habits, behaviors, and relationships. The zoology majors (B.S. and B.A.) build on the core biology curriculum by including courses in comparative morphology, physiology, and a wide selection of animal survey classes. In the Bachelor of Science degree program, you will take a series of foundational courses in biology, chemistry, physics, statistics, and ecology while having the flexibility to specialize within the major and/or the pursuance of a minor. The Bachelor of Arts degree in zoology is designed as a flexible program, allowing you to pursue an interdisciplinary or dual major for a career in fields such as education, conservation, and public relations.

The University's location and facilities provide unique opportunities for the study of aquatic and terrestrial animals due to its access to the seacoast and the lakes region of New Hampshire, White Mountain National Forest, and the presence of two coastal marine laboratories, as well as estuarine and freshwater facilities. There is a strong teaching and research emphasis on ecological and physiological processes in aquatic animals and ecosystems. Major strengths of the program are the hands-on approach to teaching and emphasis on involving undergraduates in research.

<https://colsa.unh.edu/biological-sciences>

### Programs

- [Zoology Major \(B.A.\)](#) (p. 350)
- [Zoology Major \(B.S.\)](#) (p. 352)
- [Zoology Minor](#) (p. 353)

### Faculty

<https://colsa.unh.edu/biological-sciences/people>

## Zoology Major (B.A.)

<https://colsa.unh.edu/biological-sciences/program/ba/zoology-major>

### Description

Built upon the common background of the biology core curriculum, the Bachelor of Arts (B.A.) in Zoology is designed for students to create an interdisciplinary or dual major, particularly if they want to pursue public relations, teaching, or other careers in combination with a liberal arts background. Students have more flexibility when choosing courses from the biology core and may enter this program as freshmen or transfer in

from other liberal arts or science programs. Students must fulfill a foreign language requirement in lieu of one advanced elective.

## New England Regional Student Program

The bachelor's degree in zoology is one of the specialized curricula recognized by the New England Board of Higher Education and participates in the New England Regional Student Program. Under this program, students from any of the New England states pay the UNH in-state tuition rate plus 75 percent.

## General Science Certification

See [Department of Education](#)

### Requirements

Requirements for the Major: Minimum grade of D# or better is required in CHEM 411, PHYS 401, and MATH 424B (if taken); minimum grade of C# or better is required in all other courses. ZOOL 600, BIOL 695, ZOOL 795, or ZOOL 799 may substitute for one elective with academic advisor approval, but only if taken for at least four credits. These four credits may be spread over multiple semesters if they are consecutive and with the same faculty mentor.

Code	Title	Credits
<b>Core Curriculum Courses</b>		
BIOL 411	Introductory Biology: Molecular and Cellular	4
BIOL 412	Introductory Biology: Evolution, Biodiversity and Ecology	4
BIOL 528 or MATH 424B	Applied Biostatistics I Calculus for Life Sciences	4
BIOL 541	Ecology	4
BMCB 501	Biological Chemistry	4
CHEM 411	Introductory Chemistry for Life Sciences	4
GEN 604 or ANSC 612	Principles of Genetics Genetics of Animals	4
PHYS 401	Introduction to Physics I	4
ZOOL 400	Professional Perspectives in Zoology	1
ZOOL 518	Comparative Morphology and Biology of Vertebrates	4
ZOOL 625	Principles of Animal Physiology	3

ZOOL 600	Field Experience	1-4
ZOOL 613	Animal Behavior	5
ZOOL 690	Evolution	4
ZOOL 708	Stream Ecology	4
ZOOL 710	Sharks and Bony Fishes	0 or 4
ZOOL 726	Conservation Behavior	4
ZOOL 733	Behavioral Ecology (C)	0 or 4
ZOOL 736	Genes and Behavior (C)	4
ZOOL 770	Senior Seminar in Zoology	2
ZOOL 777	Neuroethology (C)	4
ZOOL 795	Independent Investigations in Zoology	1-4
ZOOL 799	Honors Senior Thesis	1-4
Shoals Courses:		
MEFB 500	Coastal Habitat Field Research Methods	4
MEFB #505	Introduction to Applied Science Communication	4
MEFB 506	Marine Parasitology and Disease	4
MEFB 510	Field Ornithology	4
MEFB 530	Evolution and Marine Diversity	4
MEFB 535	Marine Mammal Biology	4
MEFB #630	Biodiversity and Biology of Marine Invertebrates	4
MEFB 674	Ecology and Marine Environment	4
MEFB 702	Sustainable Marine Fisheries	4
MEFB 714	Field Animal Behavior	4
MEFB 730	Underwater Research	4
MEFB 741	Sharks: Biology and Conservation	4
MEFB 751	Research in Marine Biology	4
MEFB 754	Anatomy and Function of Marine Vertebrates	4
Study Abroad Courses:		
NR 660	Ecology and Biogeography of New Zealand	5
NR 661	Restoration Ecology and Ecosystem Management in New Zealand	4
NR 662	Environmental Policy, Planning and Sustainability in New Zealand	3
NR 663	Applied Directed Research in New Zealand	4

<sup>1</sup> A single course cannot be used for both a core requirement and an elective (e.g., ZOOL 542 cannot be used to fulfill the animal survey requirement and as an elective).

## Capstone Experience

As part of the University of New Hampshire's Discovery Program requirements, all students must complete a capstone experience during their senior year (after earning at least 90 credits). **The capstone experience for students majoring in Biology consists of BOTH (1) an approved individual experience AND (2) the successful completion of the BIOL 780 Capstone Companion Course.** Students will not be approved for graduation until capstone certification has been granted.

### 1) The individual experience

The individual experience may be satisfied through various forms of experiential learning (e.g., Honors thesis, mentored research project, internship) or a course denoted with a "(C)" in the courses listed above. The individual experience must fulfill **at least one** of the University's capstone criteria:

- synthesizes and applies disciplinary knowledge and skills
- fosters reflection on undergraduate learning and experience
- demonstrates emerging professional competencies
- applies, analyzes, and/or interprets research, data, or artistic expression
- explores areas of interest based on the integration of the prior learning

**Before beginning *any* capstone individual experience, students MUST SUBMIT A COMPLETED CAPSTONE APPROVAL FORM to their Program Coordinator.**

Students can obtain this form on the Department's Capstone page or from their Program Coordinator. Here they will describe their proposed individual experience and how it fulfills at least one of the University's capstone criteria listed above. If the student is selecting a "C" course for their individual experience, they should obtain the course syllabus from the instructor for information about the course's content and learning objectives.

### 2) Enrollment in BIOL 780 Capstone Companion Course

Students will also be required to enroll in BIOL 780 (1 cr.) **during the semester of their individual experience.** BIOL 780 is offered every Fall and Spring semester.

- If the individual experience is a two-semester thesis, BIOL 780 should be taken during the second semester.
- If the individual experience occurs during the summer (e.g., internship), BIOL 780 should be taken during the Fall semester that immediately follows.
- Note: Because BIOL 780 is not offered during the summer, students cannot complete their individual experience during the summer *and graduate during that same August*. Summer experiences could only be used as individual capstone experiences if completed the summer before the student's senior year.

## Student Learning Outcomes

Students demonstrate that they understand basic principles of Zoology.

- Understand the biodiversity and ecological roles of selected animal taxa.
- Demonstrate understanding of animal physiology and structure at the cellular and organismal levels.
- Describe and apply key principles and mechanisms of evolution and genetics.
- Comprehend the relationship between organisms and their environments.

Students demonstrate that they can undertake scientifically valid methods of inquiry.

- Demonstrate proficiency in searching, reading, and understanding scientific literature.

Students demonstrate that they can think critically and analytically.

- Analyze and present data using appropriate quantitative and graphical tools.

Students demonstrate that they can communicate effectively.

- Develop effective written and oral communication skills for conveying scientific information effectively to a wide audience.

Students practice science responsibly and ethically, and acknowledge the influence of cultural and historical biases in the sciences.

# Zoology Major (B.S.)

<https://colsa.unh.edu/biological-sciences/program/bs/zoology-major>

## Description

The Bachelor of Science (B.S.) in Zoology builds from the common background of the biology core curriculum to provide ample time for third- and fourth-year students to concentrate in specialized disciplines such as marine and freshwater biology, behavior, cell and developmental biology, ecology, evolution, fisheries, physiology, and neurobiology while giving students the foundation from which they can specialize in the area of zoology. Undergraduate students are encouraged to conduct field or lab-based research which helps determine advanced education disciplines for graduate studies. Many students ultimately work in the government, environmental agencies, education as well as agricultural, pharmaceutical, and biotechnology industries, where they conduct advanced research and/or teaching. Zoology majors had the second highest income and lowest unemployment rate according to data from the 2016 U.S. Census Bureau's American Community Survey.

### New England Regional Student Program

The bachelor's degree in zoology is one of the specialized curricula recognized by the New England Board of Higher Education and participates in the New England Regional Student Program. Under this program, students from any of the New England states pay the UNH in-state tuition rate plus 75 percent.

## Requirements

Requirements for the Major: Minimum grade of D# or better is required in CHEM 411, PHYS 401, and MATH 424B (if taken); minimum grade of C# or better is required in all other courses. ZOOL 600, BIOL 695, ZOOL 795, or ZOOL 799 may substitute for one elective with academic advisor approval, but only if taken for at least four credits. These four credits may be spread over multiple semesters if they are consecutive and with the same faculty mentor.

NR 661	Restoration Ecology and Ecosystem Management in New Zealand	4
NR 662	Environmental Policy, Planning and Sustainability in New Zealand	3
NR 663	Applied Directed Research in New Zealand	4

- <sup>1</sup> A single course cannot be used for both a core requirement and an elective (e.g., ZOOL 542 cannot be used to fulfill the animal survey requirement and as an elective).
- <sup>2</sup> This class requires enrollment in both fall and spring sections, 2 credits/semester for a total of 4 credits.
- <sup>3</sup> A 600, 695, 795, or 799 experience may substitute for one elective with academic advisor approval, but only if taken for at least four credits. These four credits may be spread over multiple semesters if they are consecutive and with the same faculty mentor.

## Capstone Experience

As part of the University of New Hampshire's Discovery Program requirements, all students must complete a capstone experience during their senior year (after earning at least 90 credits). **The capstone experience for students majoring in ZOOLOGY BS consists of BOTH (1) an approved individual experience AND (2) the successful completion of the BIOL 780 Capstone Companion Course.** Students will not be approved for graduation until capstone certification has been granted.

### 1) The individual experience

The individual experience may be satisfied through various forms of experiential learning (e.g., Honors thesis, mentored research project, internship) or a course denoted with a "(C)" in the courses listed above. The individual experience must fulfill **at least one** of the University's capstone criteria:

- synthesizes and applies disciplinary knowledge and skills
- fosters reflection on undergraduate learning and experience
- demonstrates emerging professional competencies
- applies, analyzes, and/or interprets research, data, or artistic expression
- explores areas of interest based on the integration of the prior learning

**Before beginning any capstone individual experience, students MUST SUBMIT A COMPLETED CAPSTONE APPROVAL FORM to their Program Coordinator.**

Students can obtain this form on the Department's Capstone page or from their Program Coordinator. Here they will describe their proposed individual experience and how it fulfills at least one of the University's capstone criteria listed above. If the student is selecting a "C" course for

their individual experience, they should obtain the course syllabus from the instructor for information about the course's content and learning objectives.

### 2) Enrollment in BIOL 780 Capstone Companion Course

Students will also be required to enroll in BIOL 780 Capstone Companion Course (1 cr.) **during the semester of their individual experience.** BIOL 780 is offered every Fall and Spring semester.

- If the individual experience is a two-semester thesis, BIOL 780 should be taken during the second semester.
- If the individual experience occurs during the summer (e.g., internship), BIOL 780 should be taken during the Fall semester that immediately follows.
- Note: Because BIOL 780 is not offered during the summer, students cannot complete their individual experience during the summer *and graduate during that same August*. Summer experiences could only be used as individual capstone experiences if completed the summer before the student's senior year.

## Student Learning Outcomes

Students demonstrate that they understand basic principles of Zoology.

- Understand the biodiversity and ecological roles of selected animal taxa.
- Demonstrate understanding of animal physiology and structure at the cellular and organismal levels.
- Describe and apply key principles and mechanisms of evolution and genetics.
- Comprehend the relationship between organisms and their environments.

Students demonstrate that they can undertake scientifically valid methods of inquiry.

- Demonstrate proficiency in searching, reading, and understanding scientific literature.

Students demonstrate that they can think critically and analytically.

- Analyze and present data using appropriate quantitative and graphical tools.

Students demonstrate that they can communicate effectively.

- Develop effective written and oral communication skills for conveying scientific information effectively to a wide audience.

Students practice science responsibly and ethically, and acknowledge the influence of cultural and historical biases in the sciences.

## Zoology Minor

<https://colsa.unh.edu/biological-sciences/program/minor/zoology>

### Description

The Zoology Minor is designed to provide a general introduction to animals and their ecology, while requiring in-depth knowledge of the diversity of at least one group (Animal Survey Course), a course dealing

with animal structure, behavior, or physiology, and an additional animal-focused course at the 600 or higher level of the student's choice.

## Requirements

The Zoology minor requires five courses.

Code	Title	Credits
<b>Required:</b>		
BIOL 412	Introductory Biology: Evolution, Biodiversity and Ecology	4
BIOL 541	Ecology	4
<b>Select one Animal Survey Course:</b>		<b>4-5</b>
MEFB 628	Marine Invertebrate Evolution and Ecology	
NR 712	Mammalogy	
ZOOL 542	Ornithology	
ZOOL 710	Sharks and Bony Fishes	
<b>Select one animal structure, behavior or physiology course:</b>		<b>4-5</b>
MEFB 628	Marine Invertebrate Evolution and Ecology	
ZOOL 518	Comparative Morphology and Biology of Vertebrates	
ZOOL 529	Developmental Biology	
ZOOL 613	Animal Behavior	
ZOOL 690	Evolution	
<b>Select one additional animal-focused course at the 600 level or higher chosen from the courses above</b>		<b>4-5</b>

College of Life Sciences and Agriculture students: two courses in the major may be used toward the minor, as long as selected from the courses listed above.

## Peter T. Paul College of Business and Economics

Lucy Gilson, Dean

Luciana Echazu, Associate Dean for Undergraduate Education

Victoria A. Parker, Associate Dean of Graduate Education and Faculty Administration

The Peter T. Paul College of Business and Economics (Paul College) empowers students to be mindful, dynamic leaders through rigorous academics and experiential-learning opportunities led by industry experts and researchers—creating an engaged academic and professional community. Paul College prepares students for careers in Business, Economics, and Hospitality Management. Each program has its unique disciplinary traditions and the simultaneous commitment to broad educational excellence in critical thought, communication, analytic skills, digital literacy, and ethical reasoning.

Paul College's undergraduate curricula combine a breadth of liberal education with specifics of professional education in business administration, economics, and hospitality management. In tandem with their studies at Paul College, undergraduates enrolled in Paul College programs take part of their coursework in other colleges in the University in order to fulfill the Discovery Program requirements. Beyond those requirements, students are encouraged to elect additional courses in the arts, social sciences, humanities, mathematics, and sciences. Thus, students who complete the Paul College programs in business administration, economics, and hospitality management develop an impressive portfolio of marketable skills and knowledge base that may be applied to a variety of fields.

### Accreditation

Peter T. Paul College of Business and Economics is accredited by the Association to Advance Collegiate Schools of Business (AACSB) for the degree programs of business administration and hospitality management.

### Degrees

- Bachelor of Arts (B.A.) in Economics
- Bachelor of Science (B.S) in Business Administration, Analytical Economics, or Hotel and Hospitality Management

For information concerning advanced degrees, see the Graduate Catalog.

### Degree Requirements

Paul College degree candidates must satisfy all of the University Discovery Program requirements for graduation as well as the particular requirements of their individual major programs. Modifications tend to occur in major(option) programs during the four-year period of a student's undergraduate career; Students are expected to conform to these changes. In addition, candidates must complete a math course (MATH 422 Mathematics for Business Applications, MATH 424A Calculus for Social Sciences, or equivalent) and an ethics course (PHIL 431 Business Ethics or equivalent). Bachelor of Science in Business Administration degree students are required to earn 134 credits. Economics majors must also satisfy specific requirements associated with the bachelor of arts degree (see bachelor of arts degree requirements).

In order to graduate, students must achieve a grade-point average of at least 2.3 (2.0 for the B.A. in economics) in the major courses and a minimum grade of C- (for ADMN 403 Computing Essentials for Business, students must obtain credit) in each major course. Course listings are provided by program, or in the case of business administration by department:

- Accounting and Finance (ACFI)
- Business Administration (ADMN)
- Decision Sciences (DS)
- EcoGastronomy (ECOG)
- Economics (ECON)
- Hospitality Management (HMGT)
- Management (MGT)
- Marketing (MKTG)

Prior to attaining junior rank, students will be considered "provisional Paul" students. Students are limited to Paul College major courses during this period and a minimum overall GPA of 2.3 at UNH must be maintained by all Paul students in order to remain in the College. If the minimum overall GPA drops below 2.3 during the provisional period, the student will be placed on Paul College probation for one (1) semester. Failure to achieve a minimum overall GPA of 2.3 after the probationary semester will require the student to change to a major outside Paul College.

Paul College courses may not be taken on a pass/fail basis by a student majoring in business administration, economics, or hospitality management. Any Paul College major required course (including ADMN 403 Computing Essentials for Business) in which a grade below C- is obtained must be repeated. No more than two Paul College courses may be repeated and each course may be repeated at most one time.

Students transferring into Paul College from other universities must have business, economics, and hospitality management courses reviewed and approved by the faculty through the Paul College Undergraduate Programs Office to be considered for major requirements. Transfer credit is normally granted only for 400- and 500-level courses, and normally only when the transferring institution is AACSB-accredited.

### Paul College Programs

#### FIRE (First-year Innovation and Research Experience)

FIRE is an integrated, team-based, and game-like experience, developed for first-year students. Launched in the 2015-2016 academic year and under the direction of the Undergraduate Programs and Advising Office, this program was designed to expand upon the principles and mission of the Peer Advising program by engaging first-year students in developing habits and strategies for success. Students complete a one-credit, credit/fail course each semester (PAUL 405 Freshman Academic Experience I/PAUL 406 Freshman Academic Experience II), guided by peer mentors (selected upper-class students) and alumni. Students collaborate and compete, both individually and in teams, through academic challenges, research, and game scenarios culminating in participation at the Undergraduate Research Conference (URC)

More information can be found on the [FIRE](#) webpage.

#### Independent Study/Internship

Juniors or seniors in high academic standing in the Paul College may elect the internship or independent study course for variable credit.

For either course, the student must secure a faculty sponsor in the area of interest and submit a written proposal prior to the start of the semester in which the project is to be undertaken. Independent study normally involves research, while internships are usually undertaken with cooperation of an off-campus organization and involve a non-routine but practical application of skills and concepts acquired in a student's program.

Independent studies and internships require considerable self-direction and self-monitoring on the part of the student, who must be in high academic standing. Careful prior review of requirements with the undergraduate adviser and faculty sponsor is necessary. Students may earn no more than 16 credits combined in internships, independent studies, field experience, and supervised student teaching experience.

The Washington Center internship, a semester of supervised work experience in Washington, D.C., as well as the Semester in the City internship, in Boston, are open to any major.

## International Programs

International education is a high priority of Paul College with many Education Abroad opportunities available. Through semester abroad and short-term programs, students have the ability to immerse themselves in a variety cultural environments to better prepare for a career in a globalized business industry. Paul College students may engage in a diverse array of opportunities:

- Study abroad in countries including, but not limited to: Australia, China, Hungary, Ireland, Italy, Korea, Portugal, and Spain
- Faculty-led programs to destinations such as Ascoli Piceno, Italy and Dominican Republic
- International internships
- Research grant programs
- Volunteer or non-profit work

Students are encouraged to begin planning their international experiences early on in their academic careers by visiting the Paul College Undergraduate Programs and Advising Office. In most cases, students are able to take a semester abroad without losing any time towards graduation. Paul College students are highly encouraged to study abroad at schools accredited by the AACSB (Association to Advance Collegiate Schools of Business) and/or EQUIS (European Quality Improvement System). More information about international experiences can be found on the Paul College website as well as by programs offered through UNH Global.

## Paul College Honors Program

The Paul College Honors Program is designed to provide high achieving students with an enhanced academic experience. Students in the University Honors Program or current students in Paul College have the opportunity to apply to the program at the beginning of the second semester sophomore year. The application process is competitive and based upon grade point average, extra-curricular experiences, and student interests.

*The Program consists of the following elements:*

**Designation and Designation Workshop** (PAUL 790 Honors/The Workshop) — Students pick a course to designate as honors and work with the professor to create a special honors project related to the course. The

Designation Workshop brings all honors students together to share, build upon, and ultimately present their designation work.

**Consulting Project** (PAUL 792 Honors/Seminar)—Designed to broaden perspective and build a bridge to the real world, the Honors Experience matches students with small businesses across New Hampshire. With the help of the Small Business Development Center, we will identify real-world projects and give students a chance to apply their learning.

**Research Seminar** (PAUL 794 Honors/The Research Process)—The Research Seminar is dedicated to preparing students to write their honors thesis. The thesis process is broken into steps, and students complete a thesis proposal. Students will attend and discuss faculty research presented at the Paul Scholars series.

**Thesis**—The culminating experience of Paul Honors is the thesis. Students apply what they have learned and undertake their own research with the help of a faculty mentor.

## Five-Year Programs

### Four-One Program: B.S.-M.B.A.

After completion of the bachelors degree program, students may apply to the Paul College masters of business administration full-time program. This innovative curriculum is designed specifically to accelerate your progress through this highly-ranked AACSB-accredited MBA program. Details are provided in the Programs of Study sections of this catalog and the Graduate Catalog.

### Four-One Program: B.S.-M.S.A.

The American Institute of Certified Public Accountants (AICPA), the national association of professional accountants, mandated that five years of university education be required for national certified public accountant (CPA) certification as of the year 2000. Most states have approved similar requirements for licensing/certification. The Paul College offers a five-year program designed for students who desire a professional accounting career. The program leads to the joint awarding of a bachelor of science in business administration and a master of science in accounting degree. Application for admission to this highly selective program is made in the senior year. Details are provided in the Programs of Study sections of this catalog and the Graduate Catalog.

## Paul College—Minors and Courses for Non-majors

### Minors

Paul College faculty has developed a group of courses for non-majors, which, when combined with certain other courses, can constitute a minor in business administration, economics, entrepreneurship, hospitality management, or leadership.

### Non-majors

Paul College also serves the needs of undergraduates elsewhere in the University, within the limits of its resources, for whom selected courses in business administration, economics, or hospitality management are desirable complements to their primary course of study. To the extent that space is available after majors have enrolled, a limited number of Paul College courses are open to non-majors who have the prerequisite preparation. A maximum of 32 credits in courses offered by the Peter T. Paul College of Business and Economics may be taken by non-Paul

College students. Students interested in these courses should contact the Paul College Undergraduate Programs and Advising Office.

## Advising System

Undergraduate advising in the Paul College is carried out jointly by dedicated academic advisers and faculty. The academic advisers are based in the [Paul College Undergraduate Programs and Advising Office](#), where student academic records are kept. The advisers assist students in program planning, preregistration, understanding and meeting general academic/degree requirements, and general career planning. In addition, the advisers coordinate study abroad and domestic exchange programs, as well as the honors programs.

Undergraduates are encouraged to develop an advisory relationship with one or more faculty members with whom they have mutual interests. By providing their own experience and expertise, faculty may provide additional support to students for course, program, and career selection. All students are urged to seek as much assistance as they need from appropriate sources, but are reminded that theirs is the ultimate responsibility for knowing and meeting the various academic requirements for a degree.

## Business Administration (ADMN)

The business administration program provides students with the pillars of a business education as well as specialized options to propel them on their career paths. The curriculum consists of fifteen core courses as well as option/major courses, which imparts students with expertise in one or two areas of business. At the same time, Paul College students achieve a well-rounded education by selecting courses in the liberal arts and the sciences from other colleges and schools in the University, including to complete University Discovery requirements. The Peter T. Paul College's program in business administration is accredited by the Association to Advance Collegiate Schools of Business (AACSB) and is separate from the business program at the UNH-Manchester campus.

## Core Curriculum

The business administration's core curriculum constitutes the fundamental theories, principles, concepts, and skill sets necessary for students to thrive in the professional business world. Each required core

course equips students with the knowledge and skills utilized in key areas of business, while building upon their social, competitive, and analytical intelligence. The business administration program also augments its core curriculum with math, ethics, and economics.

In order to graduate, students must achieve a grade-point average of at least 2.3 in the major courses and a minimum grade of C- (for [ADMN 403](#) Computing Essentials for Business, students must obtain credit) in each Paul College major course. Core courses are generally completed in the first five semesters of enrollment at Paul College, with the exception of [ADMN 775](#) Strategic Management: Decision Making (capstone course):

- [MATH 422](#) Mathematics for Business Applications, or [MATH 424A](#) Calculus for Social Sciences
- [PHIL 431](#) Business Ethics
- [ECON 401](#) Principles of Economics (Macro)
- [ECON 402](#) Principles of Economics (Micro)
- [ADMN 400](#) Introduction to Business
- [ADMN 403](#) Computing Essentials for Business (1 credit)
- [ADMN 410](#) Management Information Systems
- [ADMN 510](#) Business Statistics
- [ADMN 502](#) Financial Accounting
- [ADMN 503](#) Managerial Accounting
- [ADMN 570](#) Introduction to Financial Management
- [ADMN 575](#) Behavior in Organizations
- [ADMN 580](#) Quantitative Decision Making
- [ADMN 585](#) Marketing
- [ADMN 775](#) Strategic Management: Decision Making (Capstone course, satisfies capstone requirement for the University Discovery Program)

### Additional requirements:

- [PAUL 405](#) Freshman Academic Experience I
- [PAUL 406](#) Freshman Academic Experience II
- [PAUL 660](#) BiP-Social Intelligence Topics
- [PAUL 670](#) BiP-Analytical Intelligence Topics
- [PAUL 680](#) BiP-Competitive Intelligence Topics
- [PAUL 690](#) BiP-Professional Intelligence Topics

## Options in the Business Administration Program

As students advance, they must declare an option within the business administration program (students can complete two options by choice). Bachelor of Science in Business Administration requires the completion of 134 credits total. Declaration of an option occurs during their second semester sophomore year, thus focusing on a particular area of business during their last three semesters. The sophomore option declaration date is set by the Undergraduate Programs and Advising Office and usually by February of the sophomore year. Students are encouraged to discuss their interests with several faculty members and an academic adviser in this decision-making process. Options comprise a minimum of four courses, but requirements do vary by option and are determined by the nature of the career field. Current business administration options are:

- Accounting
- Entrepreneurial Studies
- Finance
- Information Systems and Business Analytics
- International Business and Economics
- Management
- Marketing
- Student-Designed

Due to the dynamic nature of the business world, the portfolio of options offered may change from time to time. Students are expected to stay attuned to these changes through Paul College Undergraduate Programs and Advising Office. A change of option/major may only be made once per semester.

## Business in Practice (BiP) Program

The Business in Practice (BiP) program enhances Paul College's rigorous academics by bridging the gap between theory and practical application. Through experiential learning projects, you work directly with industry leaders and companies to acquire a deeper grasp of real business issues and responsibilities, giving you the tools, skills and know-how to launch a successful and meaningful business career. The program is designed to be flexible and optimizes your skill level in key intelligence areas most valued by employers.

### BiP INTELLIGENCES AND LEARNING GOALS

You will take a minimum of four courses\*, one in each of the intelligence areas:

- PAUL 660 BiP-Social Intelligence Topics - ability to navigate complex social relationships and environments.
- PAUL 670 BiP-Analytical Intelligence Topics - ability to analyze and evaluate ideas, solve problems and make decisions.
- PAUL 680 BiP-Competitive Intelligence Topics - ability to gather, analyze and distribute information and ideas about products, customers, competitors or the external environment.
- PAUL 690 BiP-Professional Intelligence Topics - ability to achieve professional success.

\*Other Paul College courses or opportunities may be assigned with BiP Intelligence attributes and satisfy a BiP course requirement. Please check with Paul College Undergraduate Programs Office for other potential courses designated with a BiP Intelligence attribute.

## Faculty

<https://paulcollege.unh.edu/directory/all>

## Business Administration Major (B.S.)

<https://paulcollege.unh.edu/business-administration/program/bs/business-administration-major>

## Description

A Bachelor of Science in business administration will help you build the skills, knowledge and experience to land a job and thrive in today's evolving economy. Graduates are in demand in a variety of industries including accounting, finance, information systems and business analytics, management and marketing. Whether you aspire to work for a high-powered firm, start-up or non-profit or launch your own business, a business administration degree opens the doors to many career opportunities.

At Paul College, students in the business administration major take foundation courses in their freshman and sophomore years that cover the fundamental theories, principles, concepts and skill sets in key areas of business, while building upon their social, analytical, competitive and professional intelligence. These foundation courses prepare you to move into a variety of fields and companies. You also must declare an option within your major during the second semester of your sophomore year that provides deeper expertise in a specific business area to propel you on your career path. Many students choose more than one! Options within the major include: accounting, entrepreneurial studies, finance, information systems and business analytics, international business and economics, management, marketing, and student designed.

## Requirements

The following courses are major-required courses. Students take 16-18 credits per semester. Discovery Program requirements (including the Inquiry requirement in the first two years) and elective courses are taken as well. Students are expected to follow this course plan. In the first three semesters, students cannot take more than two major courses in a single semester. The options have additional requirements as noted in those program descriptions. For a detailed schedule/plan of study for each option, students should check with the Paul College Undergraduate Programs and Advising Office for specific recommendations.

A typical plan of study follows, showing the major-required courses. Students take 16-18 credits per semester. Discovery Program requirements (including the Inquiry requirement in the first two years) and elective courses are taken as well. Students are expected to follow this course plan. In the first three semesters, students cannot take more than two major courses in a single semester. The options have additional requirements as noted. For a detailed schedule/plan of study for each option, students should check with the Paul College Undergraduate Programs and Advising Office for specific recommendations.

Code	Title	Credits

PAUL 406	Freshman Academic Experience II	1
PAUL 660	BiP-Social Intelligence Topics <sup>2</sup>	2
PAUL 670	BiP-Analytical Intelligence Topics <sup>2</sup>	2
PAUL 680	BiP-Competitive Intelligence Topics <sup>2</sup>	2
PAUL 690	BiP-Professional Intelligence Topics <sup>2</sup>	2

<sup>1</sup> This is the capstone course in the business administration program, and satisfies the capstone requirement of the Discovery Program. Students may be required to concurrently enroll in ADMN 700 PAUL Assessment of Core Knowledge (zero credits) for AACSB accreditation purposes.

<sup>2</sup> Students may satisfy PAUL 660, PAUL 670, PAUL 680, PAUL 690 requirements through other courses/experiences with approved intelligence attributes assigned.

Depending of the choice of option and the specific requirements thereof, students may be able to take PAUL or non-PAUL electives in their junior or senior year.

## Student Learning Outcomes

- Students will demonstrate proficiency in the core content areas of business.
- Students will think critically to address business situations.
- Students will demonstrate communication skills to interact effectively in business situations.
- Students will identify and understand the ethical dimensions and implications of business decisions.
- Students will demonstrate the ability to analyze a business situation by applying a multiple stakeholder lens.
- Students will demonstrate an understanding of business practices as they relate to local, national and global competitiveness.

## Business Administration Major: Accounting Option (B.S.)

<https://paulcollege.unh.edu/business-administration/program/bs/business-administration-major-accounting-option>

## Description

**The Option in Accounting** prepares students for careers in a “recession proof profession” with excellent placement and salary statistics.

Accounting is referred to as the “language of business” because all businesses rely on accounting information for decision-making.

Because accounting is inherently subjective, accounting students learn the analytical skills necessary to make idiosyncratic decisions.

However, in contrast to other professions, accountants also learn a technical knowledge base that allows them to understand how accounting choices can affect the information used for decision-making in all disciplines. This deeper understanding of business data helps accounting professionals provide value to clients and employers.

Because every business relies on accounting information, accounting students can select an industry and position that aligns with their personal interests. Examples of commonly selected positions include audit, tax, financial consulting, and management. The Option provides students with the requisite knowledge to obtain certifications in a variety of areas, including accounting (CPA), management (CMA), internal auditing (CIA), forensics (CFE), and information systems (CISA). Students may also take advantage of the four-one (5 year) program to earn a M.S. in Accounting at Paul College, which can speed career progression. Irrespective of the position or educational pathway an individual student selects, the demand for accounting professionals exceeds supply, making accounting a great career choice.

## Requirements

A typical plan of study follows, showing the major-required courses. Students take 16-18 credits per semester. Discovery Program requirements (including the Inquiry requirement in the first two years) and elective courses are taken as well. Students are expected to follow this course plan. In the first three semesters, students cannot take more than two major courses in a single semester. The options have additional requirements as noted. For a detailed schedule/plan of study for each option, students should check with the Paul College Undergraduate Programs and Advising Office for specific recommendations.

## Student Learning Outcomes

- Students will demonstrate proficiency in the core content areas of business.
- Students will think critically to address business situations.
- Students will demonstrate communication skills to interact effectively in business situations.
- Students will identify and understand the ethical dimensions and implications of business decisions.
- Students will demonstrate the ability to analyze a business situation by applying a multiple stakeholder lens.
- Students will demonstrate an understanding of business practices as they relate to local, national and global competitiveness.

## Business Administration Major: Entrepreneurial Studies Option (B.S.)

<https://paulcollege.unh.edu/business-administration/program/bs/business-administration-major-entrepreneurial-studies-option>

### Description

The **Option in Entrepreneurial Studies** is designed for students interested in entrepreneurship and creativity and who seek to learn about starting high growth business, working for a new venture, investing in start-ups or becoming involved in a new venture creation within an established organization. The ES option fosters an entrepreneurial

culture throughout the program with a priority on applied learning in the dynamic environment of entrepreneurial ventures. Students apply what they've learned to a senior project and in conducting due diligence for investors. The ES option studies entrepreneurship from the entrepreneurs, employees and the investor's perspective.

## Requirements

A typical plan of study follows, showing the major-required courses. Students take 16-18 credits per semester. Discovery Program requirements (including the Inquiry requirement in the first two years) and elective courses are taken as well. Students are expected to follow this course plan. In the first three semesters, students cannot take more than two major courses in a single semester. The options have additional requirements as noted. For a detailed schedule/plan of study for each option, students should check with the Paul College Undergraduate Programs and Advising Office for specific recommendations.

## Business Administration Major: Finance Option (B.S.)

<https://paulcollege.unh.edu/business-administration/program/bs/business-administration-major-finance-option>

### Description

The **Option in Finance** provides students with the knowledge and analytical skills necessary to make informed financial decisions for themselves and their organizations. Business students interested in numbers, quantitative analysis, problem solving, utilizing creativity, and practical applications will appreciate this option. Opportunities exist in a variety of fields, including commercial and investment banking, insurance, corporate finance, money management, venture capital, risk management, and real estate.

The job outlook for finance students is strong, and starting and mid-career salaries are typically among the highest of all majors at a university. Many premier jobs in business, such as hedge fund manager, investment banker, and CFO, are in finance.

### Requirements

A typical plan of study follows, showing the major-required courses. Students take 16-18 credits per semester. Discovery Program requirements (including the Inquiry requirement in the first two years) and elective courses are taken as well. Students are expected to follow this course plan. In the first three semesters, students cannot take more than two major courses in a single semester. The options have additional requirements as noted. For a detailed schedule/plan of study for each option, students should check with the Paul College Undergraduate Programs and Advising Office for specific recommendations.

- Students will think critically to address business situations.
- Students will demonstrate communication skills to interact effectively in business situations.
- Students will identify and understand the ethical dimensions and implications of business decisions.
- Students will demonstrate the ability to analyze a business situation by applying a multiple stakeholder lens.
- Students will demonstrate an understanding of business practices as they relate to local, national and global competitiveness.

## Business Administration Major: Information Systems and Business Analytics Option (B.S.)

<https://paulcollege.unh.edu/business-administration/program/bs/business-administration-major-information-systems-business>

### Description

The Option in Information Systems and Business Analytics (ISBA) will appeal to students who wish to learn how to take advantage of contemporary technologies to solve complex business problems. Pivotal contributors to the success of any venture must be able to understand and communicate both the business needs as well as the technical details of solutions. The option prepares students for a career in a wide range of industries by helping them master the fundamentals of information systems and business analytics, as well as the ability to implement solutions or provide leading-edge, analytics-based solutions to real business problems. Students work on real-world industry projects and apply concepts and problem-solving skills learned in the classroom. All students in the option develop functional knowledge and skills in information systems and business analytics. Beyond the required courses in the option, students may choose between an emphasis in Information Systems or an emphasis in Business Analytics. The ISBA option can be completed as a single or dual option. In either case, the graduate will have tangible knowledge and skills. Regardless of one's interest area or degree, employers look for people that can help them solve problems efficiently and effectively. The ISBA option prepares students to do just that, and continue learning as technology and business continue to change.

### Requirements

A typical plan of study follows, showing the major-required courses. Students take 16-18 credits per semester. Discovery Program requirements (including the Inquiry requirement in the first two years) and elective courses are taken as well. Students are expected to follow this course plan. - Students will demonstrate an understanding of business practices as they relate to local, national and global competitiveness.

## Business Administration Major: International Business and Economics Option (B.S.)

<https://paulcollege.unh.edu/business-administration/program/bs/business-administration-major-international-business-economics>

### Description

The **Option in International Business and Economics** offers an interdisciplinary course of study, providing strong business training for students pursuing careers at organizations with an international focus, particularly in multinational corporations, international banks, and government agencies. It achieves this by combining general business training with in-depth knowledge in economics, finance, and management. Students are strongly encouraged to round out their education with either an internship at an international organization or by studying abroad for one semester.

### Requirements

A typical plan of study follows, showing the major-required courses. Students take 16-18 credits per semester. Discovery Program requirements (including the Inquiry requirement in the first two years) and elective courses are taken as well. Students are expected to follow this course plan. In the first three semesters, students cannot take more than two major courses in a single semester. The options have additional requirements as noted. For a detailed schedule/plan of study for each option, students should check with the Paul College Undergraduate Programs and Advising Office for specific recommendations.

ECON 668	Economic Development	
<b>Total Credits</b>		<b>20</b>

<sup>1</sup> Students should consult with their academic adviser and/or the faculty option coordinator in their selection of these courses according to their interests.

## Student Learning Outcomes

- Students will demonstrate proficiency in the core content areas of business.
- Students will think critically to address business situations.

- Students will demonstrate communication skills to interact effectively in business situations.
- Students will identify and understand the ethical dimensions and implications of business decisions.
- Students will demonstrate the ability to analyze a business situation by applying a multiple stakeholder lens.
- Students will demonstrate an understanding of business practices as they relate to local, national and global competitiveness.

## Business Administration Major: Management Option (B.S.)

<https://paulcollege.unh.edu/business-administration/program/bs/business-administration-major-management-option>

### Description

The **Option in Management** provides students with the knowledge and skills to assess organizational effectiveness, identify challenges, develop solutions, and implement changes in order to improve internal and external performance. Courses emphasize critical thinking, problem-solving, planning, interpersonal skills related to ethical leadership in the global economy, managing innovation and technology, organizational change and sustainability, and international and cross-cultural issues in organizations.

The option emphasizes the generalist's mindset in concert with a specialist's functional understanding of the firm. This is an excellent option for students who see themselves as "big picture" people. Future career paths include an array of management, supervisory, entrepreneurial, human resources, and other positions in for-profit and non-profit organizations. The option is also recommended for students considering graduate education in management or law.

### Requirements

A typical plan of study follows, showing the major-required courses. Students take 16-18 credits per semester. Discovery Program requirements (including the Inquiry requirement in the first two years) and elective courses are taken as well. Students are expected to follow this course plan. In the first three semesters, students cannot take more than two major courses in a single semester. The options have additional requirements as noted. For a detailed schedule/plan of study for each option, students should check with the Paul College Undergraduate Programs and Advising Office for specific recommendations.

- Students will demonstrate the ability to analyze a business situation by applying a multiple stakeholder lens.
- Students will demonstrate an understanding of business practices as they relate to local, national and global competitiveness.

## Business Administration Major: Marketing Option (B.S.)

<https://paulcollege.unh.edu/business-administration/program/bs/business-administration-major-marketing-option>

### Description

The **Option in Marketing** focuses on how to develop, establish, and maintain products and services of high value for customers as well as how to deliver and communicate them, from both digital and traditional perspectives. The option addresses key linkages critical to effective customer and brand management, from understanding customer needs and problems to delivering appropriate solutions and services. It further examines decision choices facing managers concerning market selection, entry timing, positional advantage to be pursued, targeting, and

executional approaches. The option emphasizes digital marketing and analytics across its courses.

## Requirements

A typical plan of study follows, showing the major-required courses. Students take 16-18 credits per semester. Discovery Program requirements (including the Inquiry requirement in the first two years) and elective courses are taken as well. Students are expected to follow this course plan. In the first three semesters, students cannot take more than two major courses in a single semester. The options have additional requirements as noted. For a detailed schedule/plan of study for each option, students should check with the Paul College Undergraduate Programs and Advising Office for specific recommendations.

ADMN 580	Quantitative Decision Making	4
ADMN 585	Marketing	4
ADMN 775	Strategic Management: Decision Making <sup>1</sup>	4
<b>Other subject code courses:</b>		
ECON 401	Principles of Economics (Macro)	4
ECON 402	Principles of Economics (Micro)	4
MATH 422	Mathematics for Business Applications	4
or MATH 424A	Calculus for Social Sciences	
PHIL 431	Business Ethics	4
PAUL 405	Freshman Academic Experience I	1
PAUL 406	Freshman Academic Experience II	1
PAUL 660	BiP-Social Intelligence Topics <sup>2</sup>	2
PAUL 670	BiP-Analytical Intelligence Topics <sup>2</sup>	2
PAUL 680	BiP-Competitive Intelligence Topics <sup>2</sup>	2
PAUL 690	BiP-Professional Intelligence Topics <sup>2</sup>	2

<sup>1</sup> This is the capstone course in the business administration program, and satisfies the capstone requirement of the Discovery Program. Students may be required to concurrently enroll in ADMN 700 PAUL Assessment of Core Knowledge (zero credits) for AACSB accreditation purposes.

<sup>2</sup> Students may satisfy PAUL 660, PAUL 670, PAUL 680, PAUL 690 requirements through other courses/experiences with approved intelligence attributes assigned.

Depending on the choice of option and the specific requirements thereof, students may be able to take PAUL or non-PAUL electives in their junior or senior year.

## Option in Marketing

Code	Title	Credits
<b>Required courses:</b>		
MKTG 752	Marketing Research	4
MKTG 753	Consumer/Buyer Behavior	4
MKTG 763	Marketing Analytics	4
MKTG 775	Marketing Workshop	4
<b>Select two of the following courses:</b>		<b>8</b>
MKTG 644	Retail Management in an Omnichannel World	

MKTG 649	Foundations of Personal Selling
MKTG 750	Marketing Strategy
MKTG 757	Integrated Marketing Communication
MKTG 760	International Marketing
MKTG 764	New Product Development
MKTG 765	Applications in Digital Marketing
MKTG 620	Topics in Marketing <sup>1</sup>
or MKTG 720	Topics in Marketing II
<b>Total Credits</b>	<b>24</b>

<sup>1</sup> Offerings will vary from semester to semester.

For additional courses, students are encouraged to meet with department faculty or with the Academic Advising Office for help in choosing a career track and additional courses.

## Student Learning Outcomes

- Students will demonstrate proficiency in the core content areas of business.
- Students will think critically to address business situations.
- Students will demonstrate communication skills to interact effectively in business situations.
- Students will identify and understand the ethical dimensions and implications of business decisions.
- Students will demonstrate the ability to analyze a business situation by applying a multiple stakeholder lens.
- Students will demonstrate an understanding of business practices as they relate to local, national and global competitiveness.

## Business Administration Major: Student Designed Option (B.S.)

<https://paulcollege.unh.edu/business-administration/program/bs/business-administration-major-student-designed-option>

### Description

A **Student-Designed Option (SDO)** in **Business Administration** is for highly motivated and disciplined students to pursue a course of study that is not available through any of the other current options in Paul College. The SDO should be different from any of the existing options and should serve to further the students' intellectual development and future career goals.

The SDO cannot be used to avoid portions of existing options that are presumed to be uninteresting or difficult. For example, the SDO cannot consist of all courses from an existing option with one or two substitutions.

The SDO will consist of courses from Paul College, and courses from outside of Paul College from existing disciplines (e.g., Psychology, Art, Homeland Security, etc.).

### Requirements

#### Student-Designed Option

A typical plan of study follows, showing the major-required courses. Students take 16-18 credits per semester. Discovery Program requirements (including the Inquiry requirement in the first two years)

and elective courses are taken as well. Students are expected to follow this course plan. In the first three semesters, students cannot take more than two major courses in a single semester. The options have additional requirements as noted. For a detailed schedule/plan of study for each option, students should check with the Paul College Undergraduate Programs and Advising Office for specific recommendations.

<sup>1</sup> This is the capstone course in the business administration program, and satisfies the capstone requirement of the Discovery Program. Students may be required to concurrently enroll in ADMN 700 PAUL Assessment of Core Knowledge (zero credits) for AACSB accreditation purposes.

<sup>2</sup> Students may satisfy PAUL 660, PAUL 670, PAUL 680, PAUL 690 requirements through other courses/experiences with approved intelligence attributes assigned.

Depending on the choice of option and the specific requirements thereof, students may be able to take PAUL or non-PAUL electives in their junior or senior year.

Code	Title	Credits
<b>Student Designed Option (SDO) Requirements</b>		
Students will work with a faculty advisor to draft a proposal to be submitted to the Undergraduate Curriculum Committee. Proposals must be submitted by fall of Junior Year. The option must consist of at least 5 courses and include: <sup>1</sup>		
At least two (2) courses from ACC, DS, FIN, MGT, or MKTG departments that meet approval		
At least two (2) other courses from outside of Paul College		
One (1) Additional Course chosen in consultation with your faculty advisor.		

<sup>1</sup> Students interested in the Student Designed Option must meet with their advisor to discuss their interest and obtain the proposal application.

## Student Learning Outcomes

- Students will demonstrate proficiency in the core content areas of business.

- Students will think critically to address business situations.
- Students will demonstrate communication skills to interact effectively in business situations.
- Students will identify and understand the ethical dimensions and implications of business decisions.
- Students will demonstrate the ability to analyze a business situation by applying a multiple stakeholder lens.
- Students will demonstrate an understanding of business practices as they relate to local, national and global competitiveness.

## Business Administration Minor

<https://paulcollege.unh.edu/business-administration/program/minor/business-administration>

### Description

The Minor in Business Administration offers students majoring in other disciplines the opportunity to develop a well-rounded business background. Students complete coursework in core business areas such as accounting, marketing, management, as well as economics. The minor enables students to enter their selected industries with skills and experience that distinguish them as professionals.

### Requirements

#### Business Administration Minor

Code	Title	Credits
<b>Required courses:</b>		
ECON 402	Principles of Economics (Micro)	4
ACC 501	Survey of Accounting	4
or ADMN 502	Financial Accounting	
MKTG 530	Survey of Marketing	4
MGT 535	Organizational Behavior	4
<b>One elective from the following courses:</b>		<b>4</b>
ADMN 510	Business Statistics	
ADMN 503	Managerial Accounting	
DS 520	Topics in Decision Sciences	
ECON 401	Principles of Economics (Macro)	
ECON 625	Economic History of the United States	
ECON 620	Topics in Economics	
FIN 620	Topics in Finance I	
MGT 620	Topics in Management	
MGT 640	Human Resource Management	
MGT 642	Talent Acquisition	
MGT 666	Judgment Days: Revelations for Negotiating in your Favor	
MKTG 520	Topics in Marketing	
MKTG 547	Promotion and Advertising	
MKTG 649	Foundations of Personal Selling	
PAUL 450	Personal Finance	
*Other courses may be approved by petition		

Please note:

- The courses may be taken in any order; you are responsible for checking pre-requisites for elective courses.
- Capacity in most courses may be limited.
- ACC 501, MKTG 530, and MGT 535 are for Business Administration minor only; they do not carry credit toward Paul College majors.
- The Business Administration minors must also follow UNH's policy on minors.

- Following University policy, you must complete 20 semester hours with a grade of C- or better and a 2.0 grade point average.
- Courses taken on a Pass/Fail basis may not be used for the minor.
- No more than 8 credits used by the student to satisfy major requirements may be used for the minor.
- No more than 8 credits or 2 courses of approved transfer courses may be used toward the minor.

## Ecogastronomy (ECOG)

The Peter T. Paul College of Business and Economics and the College of Life Sciences and Agriculture offer undergraduate students the opportunity to pursue a dual major in EcoGastronomy. The dual major requires completion of the EcoGastronomy program and any other major.

The EcoGastronomy program prepares students for professions within our rapidly evolving food community—from farm to fork to nutrition and health outcomes—where ever-greater integration of agriculture, food, and nutrition requires a broad perspective and a specific blend of skills and knowledge. The dual major in EcoGastronomy is international by providing a context for studying "gastronomy" in Ascoli-Piceno, Italy.

## International Experience

All students who declare the dual major in EcoGastronomy spend a full semester abroad, most likely during their junior year. Students will study in Ascoli Piceno, Italy, (spring, summer or fall semester).

Dual majors will complete a series of upper-level core courses such as history of cuisine and gastronomy, history of food, aesthetics, food law, food technology processes, cross-cultural comparisons, and language.

The study abroad credit requirement is 12 credits.

## Portfolio

Students will be required to submit a portfolio annually to the director, and a cumulative portfolio to the instructor of their capstone course for final assessment.

The courses in the dual major program are multidisciplinary, taught by faculty from different departments in the University. They are designed to integrate UNH strengths in sustainable agriculture, hospitality management, and nutrition to offer a unique academic program emphasizing the interdisciplinary, international, and experiential knowledge that connects all three fields. The program is experiential by requiring students to work in the field growing food, in the kitchen preparing food, and developing the skills associated with both. They will also experience the local food cultures and get firsthand experience on the issues of food security locally, regionally, and globally.

Students who wish to declare a dual major in EcoGastronomy must have a cumulative grade-point average of 2.5; have declared, or be prepared to declare, a disciplinary major; and complete the Introduction to EcoGastronomy course (ECOG 401 Introduction to Ecogastronomy) with a grade of C or better.

ECOG 401 Introduction to Ecogastronomy is prerequisite for study abroad. All required classes and the elective are a pre/corequisite for the senior EcoGastronomy capstone course, ECOG 701 EcoGastronomy Capstone. Exceptions are possible with a late declaration of the dual major. All foreign experiences must be pre-approved by the EcoGastronomy director.

The completion of the dual major requires no additional credits for graduation beyond the 128 required of all UNH students. All coursework required for EcoGastronomy must be completed with a grade C or better. For information, contact the dual major in EcoGastronomy, PCBE 370Z, (603) 862-3327, [ecog.info@unh.edu](mailto:ecog.info@unh.edu).

## Ecogastronomy Dual Major

<https://www.unh.edu/ecogastronomy/curriculum>

## Description

The **Dual Major in EcoGastronomy** integrates UNH strengths in sustainable agriculture, hospitality management, and nutrition. EcoGastronomy offers a unique academic program emphasizing the interdisciplinary, international, and experiential knowledge that connects all three fields.

The EcoGastronomy Dual Major is a collaboration with the University of New Hampshire's College of Life Sciences and Agriculture, Peter T. Paul College of Business and Economics, and the Sustainability Institute.

## Requirements

### EcoGastronomy Dual Major

Code	Title	Credits
<b>Required Courses:</b>		
ECOG 401	Introduction to Ecogastronomy	4
SAFS 405	Sustainable Agriculture and Food Production	4
HMG1 #403	Introduction to Food Management	0 or 4
NUTR 400	Nutrition in Health and Well Being	4
ECOG 685	EcoGastronomy Study Abroad <sup>1</sup>	0-20
ECOG 701	EcoGastronomy Capstone <sup>2</sup>	2-4
<b>Select one elective from the following courses:</b>		<b>4</b>
ANSC 602	Animal Rights and Societal Issues	
ANSC 698	Cooperative for Real Education in Agricultural Management (CREAM)	
EREC 680	Agricultural and Food Policy	
HIST 618	American Environmental History	
HMG1 771	International Wine and Beverage	
HMG1 570	International Food and Culture	
MGT 662	Exploration in Entrepreneurial Management	
NR 602	Natural Resources and Environmental Policy	
NR #701	Ecological Sustainability and Values	
NR 720	International Environmental Politics and Policies for the 21st Century	
NR 784	Sustainable Living - Global Perspectives	
NR 785	Systems Thinking for Sustainable Solutions	
NUTR 720	Community Nutrition	
NUTR 730	From Seed to Sea: Examining Sustainable Food Systems	
SAFS 679	Food Production Field Experience I	
SOC 665	Environmental Sociology	
ZOOL 610	Principles of Aquaculture	

MEFB 772	Fisheries Biology, Conservation and Management
Total Credits	18-44

- <sup>1</sup> ECOG 685 EcoGastronomy Study Abroad is a variable credit course. ECOG students must complete at least 12 credits of study abroad.
- <sup>2</sup> Satisfies the capstone requirement of the Discovery Program for the EcoGastronomy major.

## Student Learning Outcomes

- Students will understand and be able to communicate the interconnected nature of the food system, taking into account the social, political, ethical, environmental, economic, and social justice issues that are intertwined in the system.
- Students will gain practical understanding of food system sustainability by engaging in experiential education opportunities.
- Students will be able to speak fluently in the language of sustainable food systems.
- Students will effectively analyze and evaluate the full lifecycle of a food, or food product, by identifying and applying reliable information.
- Students will demonstrate effective oral communication skills.
- Students will demonstrate effective written communication skills.
- Students will demonstrate effective presentation skills.

## Economics (ECON)

Economics is the study of how societies organize themselves to produce goods and services and to distribute those products among the members of society. In the modern world, a combination of market forces, public policies, and social customs perform these basic economic tasks. Economists use concepts, models, and data to analyze efficiency of resource use, fairness of economic outcomes, and development of global and national economies. The economics programs are designed to introduce students to the tools of economic analysis and to show students how they can use those tools to analyze and better understand real-world situations.

Undergraduate training in economics is an excellent background for a variety of careers, including banking and financial services, journalism, international business, public service, the diplomatic corps, entrepreneurial ventures, and government administration. An undergraduate major in economics is also excellent preparation for those interested in graduate work in law, business administration, and international relations.

The department offers the choice of a B.A. degree in economics or a B.S. degree in analytical economics. The B.A. degree is designed to offer students maximum flexibility in designing a program of study. Students are encouraged to take a wide variety of courses, double major, and take advantage of study abroad programs. The B.S. degree differs from the B.A. degree in that it requires more quantitative and data analysis courses but does not require a foreign language. It provides more structure and direction than the B.A. degree and is more professionally focused. Please see Economics programs for further information.

Courses in economics are open to nonmajors on a space-available basis. An economics minor is also available, as students majoring in other programs have found that certain economics courses are useful supplements to their own majors and a help in gaining employment.

<https://paulcollege.unh.edu/economics>

## Programs

- [Analytical Economics Major \(B.S.\)](#) (p. 369)
- [Economics Major \(B.A.\)](#) (p. 369)

## Analytical Economics Major (B.S.)

<https://paulcollege.unh.edu/economics/program/bs/analytical-economics-major>

## Description

**B.S. in Analytical Economics** emphasizes the predictive and prescriptive modeling skills that are in high demand in today's labor market. Prescriptive modeling is quantitative and strategic decision analysis geared toward corporate decisions. Predictive modeling emphasizes data analysis skills used to develop the information needed to make these decisions.

B.S. analytical economics majors must complete eleven courses in economics with a grade of at least a C- (1.67) in each Paul College major course and an average grade of 2.3 or better in the major courses. In addition, majors must complete MATH 424A and ADMN 403, ADMN 410, ADMN 510, and an ethics course (PHIL 431 Business Ethics or equivalent). ECON 775 is the capstone course for the B.S. major and satisfies the capstone requirement of the University Discovery Program.

## Requirements

B.S. analytical economics majors must complete ten courses in economics with a grade of at least C- (1.67) in each course and an average grade of 2.3 or better in Paul College major courses.

### B.S. in Analytical Economics degree requirements:

Code	Title	Credits
ECON 401	Principles of Economics (Macro)	4
ECON 402	Principles of Economics (Micro)	4
ECON 501	Business and Economic History	4
ADMN 403	Computing Essentials for Business	1
PAUL 405	Freshman Academic Experience I	1
PAUL 406	Freshman Academic Experience II	1
MATH 424A	Calculus for Social Sciences	4
ADMN 410	Management Information Systems	4
ADMN 510	Business Statistics	4
PHIL 431	Business Ethics	4
ECON 565	Predictive Modeling: Data Driven Economic Analysis	4
ECON 606	Intermediate Microeconomics with Calculus <sup>1</sup>	4
ECON 611	Intermediate Macroeconomic Analysis <sup>1</sup>	4

ECON 726	Introduction to Econometrics	4
ECON 727	Advanced Econometrics <sup>2</sup>	4
<b>Electives:</b>		
At least two (2) Economics electives		8
<b>Capstone:</b>		
ECON 775	Applied Research Skills for Economists <sup>3</sup>	4
<b>Total Credits</b>		<b>63</b>

<sup>1</sup> Major credit toward ECON 606 Intermediate Microeconomics with Calculus and/or ECON 611 Intermediate Macroeconomic Analysis will be awarded to transfer students only if equivalent courses have been taken at the upper level. Transfer students must take at least five of their economics courses at UNH. All economics-related courses taken at other institutions must be approved by the economics department in order for them to count toward the major.

<sup>2</sup> Or other Department approved quantitative course

<sup>3</sup> ECON 775 Applied Research Skills for Economists is the capstone course for the B.S. major and satisfies the capstone requirement of the University Discovery Program.

Students may petition to substitute one business administration course for an economics elective if the course is at the 600 level or above and if a grade of C- or better is earned. Students may earn no more than 16 credits in internships, independent studies, field experience, and supervised student teaching experience. All Analytical Economics majors must satisfy the bachelor of science degree requirements, and all Discovery Program requirements. Students satisfy the Inquiry requirement of the Discovery Program before the end of their sophomore year by completing an Inquiry or Inquiry-attribute course within the Paul College, or another course offered by another college at the University.

## Student Learning Outcomes

- Students have core proficiency in microeconomics. They understand key concepts including opportunity cost, marginal analysis, voluntary exchange, diminishing marginal returns, equilibrium and market structure.
- Students have core proficiency in macroeconomics. They understand key concepts including GDP, inflation, interest rates, business cycles, exchange rates, financial institutions and fiscal and monetary policy.
- Students have strong oral communication skills. This includes fundamental skills in preparing and delivering presentations, as well as being able to explain technical material clearly and concisely.
- Students are able to apply a statistical model to an economic question and interpret the results.
- Students are proficient in applying a programming language to statistical analysis.

## Economics Major (B.A.)

<https://paulcollege.unh.edu/economics/program/ba/economics-major>

## Description

**Bachelor of Arts in Economics** is designed to offer students the maximum flexibility in tailoring a program of study and provides a powerful platform for launching careers in almost all walks of life. Students are encouraged to take a wide variety of courses, double major, and take advantage of study abroad programs.

B.A. economics majors may select to focus their major electives to satisfy the requirements of one of the three options defined by the Department of Economics: Money and Financial Markets, Global Trade and Finance, or Public Policy and Sustainability.

B.A. economics majors must complete ten (10) courses in economics, plus PAUL 405/PAUL 406, ADMN 403, ADMN 510, a math course (MATH 422, MATH 424A, or equivalent), and an ethics course (PHIL 431 or equivalent). Econometrics is highly recommended but not required.

## Requirements

### Economics Major (B.A.)

B.A. economics majors must complete nine courses in economics plus ADMN 510 Business Statistics with a grade of at least C- (1.67) in each Paul College major course and an average grade of 2.0 or better in major courses.

Code	Title	Credits
<b>Freshman Year</b>		
ECON 401	Principles of Economics (Macro)	4
ECON 402	Principles of Economics (Micro)	4
ECON 501	Business and Economic History	4
ADMN 403	Computing Essentials for Business	1
MATH 422 or MATH 424A	Mathematics for Business Applications Calculus for Social Sciences	4
PAUL 405	Freshman Academic Experience I	1
PAUL 406	Freshman Academic Experience II	1
PHIL 431	Business Ethics	4
<b>Sophomore Year</b>		
ADMN 510	Business Statistics	4
ECON 605 or ECON 606	Intermediate Microeconomic Analysis Intermediate Microeconomics with Calculus	4
ECON 611	Intermediate Macroeconomic Analysis	4
<b>Junior and Senior Years</b>		
ECON 774	Senior Economics Seminar <sup>1</sup>	4
Select four (4) additional ECON electives <sup>2</sup>		16
<b>Total Credits</b>		<b>55</b>

<sup>1</sup> ECON 774 Senior Economics Seminar is the capstone course for the B.A. major and satisfies the capstone requirement of the University Discovery Program.

<sup>2</sup> Specific electives for the BA Options must be chosen from an approved list of courses.

Coursework in accounting is recommended but not required. B.A. economics majors may choose to focus their major electives to satisfy the requirements of one of the three options defined by the Department of Economics.

## Student Learning Outcomes

- Students have core proficiency in microeconomics. They understand key concepts including opportunity cost, marginal analysis, voluntary exchange, diminishing marginal returns, equilibrium and market structure.
- Students have core proficiency in macroeconomics. They understand key concepts including GDP, inflation, interest rates, business cycles, exchange rates, financial institutions and fiscal and monetary policy.

- Students have strong oral communication skills. This includes fundamental skills in preparing and delivering presentations, as well as being able to explain technical material clearly and concisely.
- Students are able to use economic models to understand real-world issues relevant to business, public policy and society.
- Students are able to communicate economic concepts clearly in writing. This involves having strong fundamental writing skills as well as being able to explain technical material clearly and concisely.

## Economics Major: Global Trade and Finance Option (B.A.)

<https://paulcollege.unh.edu/economics/program/ba/economics-major-global-trade-finance-option>

## Description

**The Option in Global Trade and Finance** (B.A. degree) studies the global trade and financial systems and their importance for understanding macroeconomics and business activity, foreign direct investments and other international capital flows, globalization, economic growth and development, international financial markets, and currency fluctuations and risk.

Students will learn about the role of the World Trade Organization (WTO), the International Monetary Fund (IMF), and other institutions undergirding the global economy. Students will develop institutional knowledge and analytical skills to study some of the most hotly debated issues of our day, including free-trade policies such as the North American Free Trade Agreement (NAFTA) and WTO, global financial crises, Basel III and other financial reforms, European monetary union, and international policy coordination.

The option is designed for students interested in careers at international organizations such as the IMF, WTO, World Bank, and Organization for Economic Cooperation and Development (OECD). This option also prepares students for careers in the financial services sector, including commercial and investment banking, financial trading, security analysis, portfolio management, and financial advising, and in the government sector, especially at the Federal Reserve System, U.S. Trade Administration, and U.S. State Department.

## Requirements

### Economics Major (B.A.)

B.A. economics majors must complete nine courses in economics plus ADMN 510 Business Statistics with a grade of at least C- (1.67) in each Paul College major course and an average grade of 2.0 or better in major courses.

Code	Title	Credits
<b>Freshman Year</b>		
ECON 401	Principles of Economics (Macro)	4
ECON 402	Principles of Economics (Micro)	4
ECON 501	Business and Economic History	4
ADMN 403	Computing Essentials for Business	1
MATH 422 or MATH 424A	Mathematics for Business Applications Calculus for Social Sciences	4
PAUL 405	Freshman Academic Experience I	1
PAUL 406	Freshman Academic Experience II	1

PHIL 431	Business Ethics	4
<b>Sophomore Year</b>		
ADMN 510	Business Statistics	4
ECON 605	Intermediate Microeconomic Analysis	4
or ECON 606	Intermediate Microeconomics with Calculus	
ECON 611	Intermediate Macroeconomic Analysis	4
<b>Junior and Senior Years</b>		
ECON 774	Senior Economics Seminar <sup>1</sup>	4
Select four (4) additional ECON electives <sup>2</sup>		16
<b>Total Credits</b>		<b>55</b>

<sup>1</sup> ECON 774 Senior Economics Seminar is the capstone course for the B.A. major and satisfies the capstone requirement of the University Discovery Program.

<sup>2</sup> Specific electives for the BA Options must be chosen from an approved list of courses.

Coursework in accounting is recommended but not required. B.A. economics majors may choose to focus their major electives to satisfy the requirements of one of the three options defined by the Department of Economics.

## Global Trade and Finance Option Requirements

(Note: Some courses may have prerequisites that are not part of the option.)

Code	Title	Credits
<b>Required courses:</b>		
ECON 645	International Economics	4
<b>Select two of the following (at least one course must be an ECON course):</b>		<b>8</b>
ECON 635	Money and Banking	
ECON 655	Innovation in the Global Economy	
ECON 668	Economic Development	
ECON 726	Introduction to Econometrics	
ECON #746	International Finance	
FIN 703	International Financial Management	
POLT 546	Wealth and Politics in Asia <sup>1</sup>	
POLT #561	Introduction to International Political Economy <sup>1</sup>	
GEOG 582	Global Trade and Local Development <sup>1</sup>	
Other 600-level or 700-level course, must be approved by ECON department		
<b>Total Credits</b>		<b>12</b>

<sup>1</sup> Satisfies the requirement of the option, but does not count toward the four-elective requirement of the economics B.A. degree.

## Student Learning Outcomes

- Students have core proficiency in microeconomics. They understand key concepts including opportunity cost, marginal analysis, voluntary exchange, diminishing marginal returns, equilibrium and market structure.
- Students have core proficiency in macroeconomics. They understand key concepts including GDP, inflation, interest rates, business cycles, exchange rates, financial institutions and fiscal and monetary policy.
- Students have strong oral communication skills. This includes fundamental skills in preparing and delivering presentations, as well as being able to explain technical material clearly and concisely.
- Students are able to use economic models to understand real-world issues relevant to business, public policy and society.

- Students are able to communicate economic concepts clearly in writing. This involves having strong fundamental writing skills as well as being able to explain technical material clearly and concisely.

## Economics Major: Money and Financial Markets Option (B.A.)

<https://paulcollege.unh.edu/economics/program/ba/economics-major-money-financial-markets-option>

### Description

The **Option in Money and Financial Markets** (B.A. degree) explores the complex and interdependent nature of money and financial markets. Students will develop institutional knowledge and analytical skills to understand the role of the financial system in society, fluctuations and risk in asset markets, including those for bonds, stocks, and currency, and how financial derivatives, such as futures, options, and swaps contracts, can be used to hedge risk. Students will also study the conduct and implications of monetary policy, exploring the merits of quantitative easing, macroprudential policy aimed at reducing systemic risk, and other key issues involving the role of the state in the financial system.

The option is designed for students wanting careers in the financial services sector, including commercial and investment banking, financial trading, security analysis, portfolio management, and financial advising, and in the government sector, especially at the Securities and Exchange Commission (SEC), and the U.S. departments of Treasury, Commerce, and State.

### Requirements

## Economics Major (B.A.)

B.A. economics majors must complete nine courses in economics plus ADMN 510 Business Statistics with a grade of at least C- (1.67) in each Paul College major course and an average grade of 2.0 or better in major courses.

Code	Title	Credits

PAUL 406	Freshman Academic Experience II	1
PHIL 431	Business Ethics	4
<b>Sophomore Year</b>		
ADMN 510	Business Statistics	4
ECON 605	Intermediate Microeconomic Analysis	4
or ECON 606	Intermediate Microeconomics with Calculus	
ECON 611	Intermediate Macroeconomic Analysis	4
<b>Junior and Senior Years</b>		
ECON 774	Senior Economics Seminar <sup>1</sup>	4
Select four (4) additional ECON electives <sup>2</sup>		16
<b>Total Credits</b>		<b>55</b>

<sup>1</sup> ECON 774 Senior Economics Seminar is the capstone course for the B.A. major and satisfies the capstone requirement of the University Discovery Program.

<sup>2</sup> Specific electives for the BA Options must be chosen from an approved list of courses.

Coursework in accounting is recommended but not required. B.A. economics majors may choose to focus their major electives to satisfy the requirements of one of the three options defined by the Department of Economics.

## Money and Financial Markets Option Requirements

(Note: Some courses may have prerequisites that are not part of the option.)

Code	Title	Credits
Required course:		
ECON 635	Money and Banking	4
Select two of the following (at least one course must be an ECON course):		8
ECON 633	Microfinance	
ECON 645	International Economics	
ECON 726	Introduction to Econometrics	
ECON #746	International Finance	
FIN 702	Investments Analysis (by permission only) <sup>1</sup>	
FIN 703	International Financial Management (by permission only) <sup>1</sup>	
FIN 705	Financial Institutions (by permission only) <sup>1</sup>	
Other 600-level or 700-level course, must be approved by ECON Dept.		
Total Credits		12

<sup>1</sup> Satisfies the requirement of the option, but does not count toward the four-elective requirement of the economics B.A. degree. FIN courses have a pre-requisite of ADMN 570 Introduction to Financial Management.

## Student Learning Outcomes

- Students have core proficiency in microeconomics. They understand key concepts including opportunity cost, marginal analysis, voluntary exchange, diminishing marginal returns, equilibrium and market structure.
- Students have core proficiency in macroeconomics. They understand key concepts including GDP, inflation, interest rates, business cycles, exchange rates, financial institutions and fiscal and monetary policy.
- Students have strong oral communication skills. This includes fundamental skills in preparing and delivering presentations, as well as being able to explain technical material clearly and concisely.
- Students are able to use economic models to understand real-world issues relevant to business, public policy and society.
- Students are able to communicate economic concepts clearly in writing. This involves having strong fundamental writing skills as well as being able to explain technical material clearly and concisely.

## Economics Major: Public Policy and Sustainability Option (B.A.)

<https://paulcollege.unh.edu/economics/program/ba/economics-major-public-policy-sustainability-option>

### Description

The Option in Public Policy and Sustainability (B.A. degree) examines the factors that influence economic, social, and environmental outcomes, such as unemployment, poverty, economic inequality, health disparities, technological innovation, and pollution. Students will develop the institutional knowledge and theoretical perspective to understand the impact that decisions of individuals, firms, communities, and governments have on such outcomes. Students will analyze the impact of specific government policies and potential reforms, theoretically and empirically.

This option is designed for students seeking careers in policy analysis and research positions at government agencies; think tanks such as RAND Corporation, Urban Institute, and Mathematica Policy Research; consulting firms such as Abt Associates; and non-governmental organizations.

### Requirements

## Economics Major (B.A.)

B.A. economics majors must complete nine courses in economics plus ADMN 510 Business Statistics with a grade of at least C- (1.67) in each Paul College major course and an average grade of 2.0 or better in major courses.

Code	Title	Credits
Freshman Year		
ECON 401	Principles of Economics (Macro)	4
ECON 402	Principles of Economics (Micro)	4
ECON 501	Business and Economic History	4
ADMN 403	Computing Essentials for Business	1
MATH 422 or MATH 424A	Mathematics for Business Applications Calculus for Social Sciences	4
PAUL 405	Freshman Academic Experience I	1
PAUL 406	Freshman Academic Experience II	1
PHIL 431	Business Ethics	4
Sophomore Year		
ADMN 510	Business Statistics	4
ECON 605 or ECON 606	Intermediate Microeconomic Analysis Intermediate Microeconomics with Calculus	4
ECON 611	Intermediate Macroeconomic Analysis	4
Junior and Senior Years		
ECON 774	Senior Economics Seminar <sup>1</sup>	4
Select four (4) additional ECON electives <sup>2</sup>		16
Total Credits		55

<sup>1</sup> ECON 774 Senior Economics Seminar is the capstone course for the B.A. major and satisfies the capstone requirement of the University Discovery Program.

<sup>2</sup> Specific electives for the BA Options must be chosen from an approved list of courses.

Coursework in accounting is recommended but not required. B.A. economics majors may choose to focus their major electives to satisfy

the requirements of one of the three options defined by the Department of Economics.

## Public Policy and Sustainability Option Requirements

**Students must complete at least two required courses and at least three courses total. At least two courses must be ECON courses. (Note: Some courses may have prerequisites that are not part of the option.)**

Code	Title	Credits
<b>Required courses:</b>		
ECON 653	Law and Economics	4
or ECON 656	Labor Economics	
ECON 706	Economics of Climate Change	4
or EREC 572	Introduction to Natural Resource Economics	
<b>Select one of the following:</b>		<b>4</b>
ECON 625	Economic History of the United States	
ECON 633	Microfinance	
ECON 653	Law and Economics <sup>2</sup>	
ECON 654	Industrial Economics and Business Innovation	
ECON 656	Labor Economics <sup>2</sup>	
ECON 668	Economic Development	
ECON 706	Economics of Climate Change <sup>2</sup>	
EREC 572	Introduction to Natural Resource Economics <sup>1, 2</sup>	
EREC 606	Land Economics Perspectives: Uses, Policies, and Taxes <sup>1</sup>	
EREC 627	Community Economics <sup>1</sup>	
EREC 680	Agricultural and Food Policy <sup>1</sup>	
EREC 708	Environmental Economics <sup>1</sup>	
EREC 760	Ecological-Economic Modeling for Decision Making <sup>1</sup>	
GEOG 582	Global Trade and Local Development <sup>1</sup>	
HMP 746	Health Policy <sup>1</sup>	
SUST 501	Sustainability in Action <sup>1</sup>	
Other 600-level or 700-level course, with approval from ECON Dept.		
<b>Total Credits</b>		<b>12</b>

<sup>1</sup> Satisfies the requirement of the option, but does not count toward the four-elective requirement of the economics B.A. degree. Some courses may have pre-requisites; students are responsible for checking and meeting pre-requisite requirements.

<sup>2</sup> Course may not be used toward the option requirements more than once.

## Student Learning Outcomes

- Students have core proficiency in microeconomics. They understand key concepts including opportunity cost, marginal analysis, voluntary exchange, diminishing marginal returns, equilibrium and market structure.
- Students have core proficiency in macroeconomics. They understand key concepts including GDP, inflation, interest rates, business cycles, exchange rates, financial institutions and fiscal and monetary policy.
- Students have strong oral communication skills. This includes fundamental skills in preparing and delivering presentations, as well as being able to explain technical material clearly and concisely.
- Students are able to use economic models to understand real-world issues relevant to business, public policy and society.
- Students are able to communicate economic concepts clearly in writing. This involves having strong fundamental writing skills as well as being able to explain technical material clearly and concisely.

## Economics Minor

<https://paulcollege.unh.edu/economics/program/minor/economics>

### Description

Economics is a social science that studies how people coordinate their wants and desires, given the decision-making mechanisms, social customs, and political realities of the society. The key words in economics are coordination and incentives.

For business students, a minor in economics provides an understanding of the foundational issues in business such as agency concerns, for liberal arts majors a minor can provide a tool kit for understanding and critically evaluating public policy issues. Economics is an excellent background for many careers including banking and financial services, consulting, public service, NGOs, entrepreneurial ventures and government. It is also excellent preparation for further study in law, business, and international relations.

### Requirements

A minor in economics consisting of five courses is available. At least three of these courses must be taken at UNH. For more on the minor and options within the major, consult the Paul College Undergraduate Programs Office.

Code	Title	Credits
<b>Required courses:</b>		
ECON 401	Principles of Economics (Macro)	4
ECON 402	Principles of Economics (Micro)	4
<b>One of the following courses:</b>		<b>4</b>
ECON 605	Intermediate Microeconomic Analysis	
ECON 611	Intermediate Macroeconomic Analysis	
ECON 635	Money and Banking	
<b>Two electives from the following list:</b>		<b>8</b>
ECON 565	Predictive Modeling: Data Driven Economic Analysis	
ECON 605	Intermediate Microeconomic Analysis <sup>1</sup>	
ECON 611	Intermediate Macroeconomic Analysis <sup>1</sup>	
ECON 625	Economic History of the United States	
ECON 633	Microfinance	
ECON 635	Money and Banking <sup>1</sup>	
ECON 645	International Economics	
ECON 653	Law and Economics	
ECON 654	Industrial Economics and Business Innovation	
ECON 655	Innovation in the Global Economy	
ECON 656	Labor Economics	
ECON 668	Economic Development	
ECON 676	Economics of Sports	
ECON 706	Economics of Climate Change	
ECON 726	Introduction to Econometrics	
ECON #746	International Finance	
ECON 760	Game Theory	
ECON 620	Topics in Economics	
ECON 620W	Topics in Economics	
ECON 720	Economic Problems	
ECON 720W	Economic Problems	
Any 600 or 700 level ECON course		

<sup>1</sup> ECON 605, ECON 611, ECON 635, may only be applied towards the minor requirements once.

- Note that many of the elective courses have ECON 401 and ECON 402 as prerequisites.
- ECON 501 Business and Economic History cannot be used toward the minor.
- All transfer courses must be evaluated for equivalency. No more than 2 transfer courses may be applied to the minor.
- The ECON minor also follows UNH policy on requirements for minors.

## Entrepreneurship

- [Entrepreneurship Minor](#) (p. 374)

## Entrepreneurship Minor

<https://paulcollege.unh.edu/business-administration/program/minor/entrepreneurship>

### Description

The **Minor in Entrepreneurship** in the Peter T. Paul College of Business and Economics is for non-business majors. The minor provides non-business students with concepts, tools and techniques to become creative thinkers, conceptualize and articulate problem statements, construct innovative solutions, and explore and seek opportunities. The focus of the minor is not about creating startups, although this may be an ancillary outcome, rather on entrepreneurial thinking that make the students engage in successful careers in their respective disciplines.

The minor consists of three required courses offered by Paul and two courses from a selective list offered by the other UNH Colleges. The three Paul courses are designed to follow a proscribed sequence that take the student through the entrepreneurial process.

### Requirements

#### Entrepreneurship Minor

Code	Title	Credits
<b>Required Entrepreneurship sequence courses:</b>		
MGT 520	Topics in Management (Thinking like an Entrepreneur)	4
MKTG 520	Topics in Marketing (Understanding Your Customer)	4
DS 520	Topics in Decision Sciences (Realizing the Entrepreneurial Dream)	4
<b>Two courses from UNH Colleges (possible selections):</b>		<b>8</b>
HIST 522	Science in the Modern World	
HMP 721	Managing Health Care Organizations	
HMP 722	Health Care Management II	
RMP 775	Entrepreneurial and Commercial Recreation	
TECH 750	Intellectual Asset Management for Engineers and Scientists	

\*For other course options contact the Associate Dean for Undergraduate Education

Please note:

- The remaining two courses can be from Paul College or the student's home college, depending on suitability and availability of the courses as well as a student's interest to specialize in a specific area within the Minor, and subject to approval – please contact Undergraduate Programs and Advising Office to discuss approval process.
- Some of the listed courses are "special topics" (or equivalent). Please make sure that the course has the same title (not simply the same number) as the listed course in order for it to count for the minor.
- The Entrepreneurship Minor also follows UNH policy for minors

## Hospitality Management (HMGT)

The program in hotel and hospitality management is an integral part of the offerings of the Peter T. Paul College. It is one of only a few programs worldwide accredited by the Association to Advance Collegiate Schools of Business (AACSB). The hospitality management program at UNH provides a world-class education, personal attention and support, and real-world and international experience, setting students apart from the competition and ensuring they are well prepared for a successful and meaningful career.

The hospitality management program develops graduates to be senior executives. This is accomplished through personal attention and support, training on cutting-edge industry-specific software and technology, career development, mentoring and placement, and the network connection of seasoned alumni in top industry positions. Graduates have accepted management positions in lodging and resorts, food service beverage, event planning and design, software companies, tourism, travel and recreation, among the many potential opportunities.

An important aspect of the program is the required professional development, which includes practical work experiences, career development, mentoring, and placement, preparing students to be more competitive in the job market and for a successful and rewarding career. Employers look for individuals with relevant industry experience, and this is provided through the required 400 hours of an approved work experience.

The hotel and hospitality management program offers a wide range of international education options to study abroad. We have partnered with business schools in countries such as Spain, Australia, Croatia, United Kingdom, and Italy.

## Hotel and Hospitality Management Major (B.S.)

<https://paulcollege.unh.edu/hospitality-management/program/bs/hospitality-management-major>

### Description

Hotel and Hospitality Management is more than an area of study; it's a way of life. At the second-oldest four-year degree program in the country you will study and work using state-of-the-art technology and facilities, receiving relevant industry certifications.

The Hotel and Hospitality Management program curriculum comprises foundation courses in hospitality management, business administration courses, and a number of University Discovery Program courses. A

wide range of elective courses complement the foundation courses. To graduate, students must obtain a 2.3 grade-point average in all major required courses and a minimum grade of C- in each Paul College major course. A student must have a minimum of 400-hours of on-the-job, paid work experience in the hospitality industry, earned through a structured paid internship.

## Requirements

A typical plan of study is as follows, showing the requirements of the program. Students complete 16-18 credits per semester, which includes major requirements, electives for the major, Discovery Program requirements, and free electives offered across the college and university.

## Hotel and Hospitality Management Degree Requirements

Code	Title	Credits
<b>Hotel and Hospitality Management (HMG) Core Courses:</b>		
HMG 401	Introduction to the Hospitality Industry	4
HMG 405	Introduction to Food and Service Management	4
HMG 554	Lodging Operations Management	4
HMG 618	Uniform Systems for the Hospitality Industry	4
HMG 635	Hospitality Human Resource Management	4
HMG 655	Hospitality Finance and Development	4
HMG 703	Strategic Management in the Hospitality Industry <sup>1</sup>	4
or HMG 667	Advanced Food & Beverage Operations & Event Management	
Three(3) HMG Elective Courses <sup>2</sup>		12
Four Hundred(400) hours - paid practicum hours through pre-approved work experiences		
<b>Required Courses (Non-HMG):</b>		
ADMN 403	Computing Essentials for Business	1
ADMN 502	Financial Accounting	4
ADMN 510	Business Statistics	4
ADMN 585	Marketing	4
MATH 422	Mathematics for Business Applications	4
ECON 401	Principles of Economics (Macro)	4
PAUL 405	Freshman Academic Experience I	1
PAUL 406	Freshman Academic Experience II	1
Two(2) BiP courses: PAUL 660, PAUL 670, PAUL 680, or PAUL 690 <sup>3</sup>		4
PAUL 690	BiP-Professional Intelligence Topics (HMG specific BiP course titled HMG: Prep for Success) <sup>4</sup>	2
PHIL 431	Business Ethics	4
One Non-HMG Elective Course (approved list below)		4
<b>Total Credits</b>		<b>77</b>

## Additional Tracks in Hotel and Hospitality Management

Students may decide to concentrate their electives in a particular area and select one of two tracks (see below), or may combine courses from the two tracks to fulfill the elective requirement.

### Food Service and Event Management Track

Code	Title	Credits
<b>Required for Track:</b>		
HMG 661	Event Design, Planning, and Management	4
HMG 667	Advanced Food & Beverage Operations & Event Management (capstone)	4
Select two(2) of the following courses:		8
HMG 570	International Food and Culture	
HMG 681	Contemporary Resort Development and Management	
HMG 771	International Wine and Beverage	
HMG 777	Casino Management	

### Hotel Administration and Analytics Track

Code	Title	Credits
<b>Required for Track:</b>		
HMG 703	Strategic Management in the Hospitality Industry (capstone)	4
HMG 758	Revenue Management and Pricing	4
Select two(2) of the following courses:		8
HMG 750	Advanced Operations Management	
HMG 798	Topics (Hospitality Asset and Financial Management)	
HMG 798	Topics (Hospitality Operations and Financial Metrics)	
FIN 708	Real Estate Finance	

### Approved Non-HMG Electives List <sup>6</sup>

Code	Title	Credits
ADMN 410	Management Information Systems	
ADMN 575	Behavior in Organizations	
CMN 500	Public Speaking	
ECOG 401	Introduction to Ecogastronomy	
ECON 402	Principles of Economics (Micro)

IA 401	International Perspectives	
MKTG 520	Topics in Marketing (Understanding Your Customer)	
MKTG 649	Foundations of Personal Selling	
MKTG 752	Marketing Research	
MKTG 753	Consumer/Buyer Behavior	
PSYC 401	Introduction to Psychology	
RMP 490	Recreation & Tourism in Society	
RMP 501	Recreation Services for Individuals with Disabilities	
RMP 661	Leadership in Recreation Services	
RMP 680	Festival and Event Planning	
SUST 401	Exploring Sustainability	
TOUR 400	Introduction to Tourism	
TOUR 510	Tourism and Global Understanding	

- <sup>1</sup> HMG degree students must take HMG 703 or HMG 667 as their capstone course.
- <sup>2</sup> Students can not include their elected Capstone course (HMG 703 or HMG 667) as one of their three HMG elective course requirements. It may only apply to one degree requirement.
- <sup>3</sup> Students may take any combination of four(4) credits of BiP intelligence attribute courses: PAUL 660, PAUL 670, PAUL 680 or PAUL 690, or any course that has an assigned BiP intelligence attribute (BIPS, BIPA, BIPC, BIPP).  
Student may not apply the required HMG- PAUL 690 BiP (HMG: Prep for Success) course to fulfill this requirement.
- <sup>4</sup> HMG students must take the HMG designated BiP Professional PAUL 690 (HMG: Prep for Success) course. Please check with the Paul Undergraduate Programs and Advising Office if you have questions.
- <sup>5</sup> Please note: HMG 798 Topics and MKTG 520 Topics in Marketing are topics course designations; you must register for the specific Topics Course Title designated in the catalog.
- <sup>6</sup> Some courses have pre-requisites or major restrictions on sections. Students are responsible for checking pre-requisites and section permissions.

## Student Learning Outcomes

- Students will demonstrate the ability to solve complex problems.
- Students will demonstrate knowledge of the core content areas of the hospitality industry.
- Students will demonstrate effective oral communication skills.
- Students will demonstrate effective written communication skills.

- Students will identify and understand the ethical dimensions and implications of business decisions.
- Students will demonstrate a global awareness of challenges facing hospitality businesses.
- Students will engage in effective team behaviors.

## Hospitality Management Minor

<https://paulcollege.unh.edu/hospitality-management/program/minor/hospitality-management>

### Description

**Hospitality Management Minor** is offered as a professional educational opportunity for students as an entree to the world's largest industry, hospitality and tourism. Students pursuing the minor will have opportunities to interview with major hospitality companies for staff and management training positions. In addition, students will be better able to secure meaningful working experiences in the industry during their college career as they progress towards the minor.

The minor is comprised of five required courses. The courses have been selected to ensure all students have a well-rounded learning experience that will strengthen their ability to succeed.

### Requirements

#### Hospitality Management Minor

A minor in hospitality management is comprised of three required and two elective courses.

Code	Title	Credits
Required Courses		
HMG 401	Introduction to the Hospitality Industry	4
HMG 405	Introduction to Food and Service Management	4
HMG 554	Lodging Operations Management	4
Select two elective courses from the list below.		8
HMG 520	Happy and Healthy at Work: Promoting Wellness, Diversity and Inclusion	
HMG 570	International Food and Culture	
HMG 635	Hospitality Human Resource Management	
HMG 667	Advanced Food & Beverage Operations & Event Management (by permission only)	
HMG 750	Advanced Operations Management (by permission only)	
HMG 771	International Wine and Beverage	
HMG 777	Casino Management	
HMG 798	Topics	
ECOG 401	Introduction to Ecogastronomy	
ACC 501	Survey of Accounting	
or ADMN 502	Financial Accounting	
MKTG 530	Survey of Marketing	
or ADMN 585	Marketing	
<b>Total Credits</b>		<b>20</b>

#### Practicum Requirement:

Students completing the minor will work at one of the Gourmet Dinner weekends. This will typically happen the semester HMG 405; Intro to Food and Service Management is taken.

Please note:

- MKTG 530 Survey of Marketing and ACC 501 Survey of Accounting are for the minor only; they do not carry credit toward Paul College majors.

- Following University policy, you must complete 20 semester hours with a grade of C- or better and a 2.0 grade point average.
- Courses taken on a Pass/Fail basis may not be used for the minor.
- No more than 8 credits used by the student to satisfy major requirements may be used for the minor.
- All transfer courses must be evaluated for equivalency. No more than 2 transfer courses may be applied to the minor.

## Leadership

- [Leadership Minor](#) (p. 376)

## Leadership Minor

<https://paulcollege.unh.edu/business-administration/program/minor/leadership>

### Description

**The Minor in Leadership** at Paul College was designed for students motivated by a deep sense of passion and purpose. This program energizes them to mobilize resources which enable people to successfully fulfill their roles and responsibilities in their organizations. The Leadership minor course of study will help you to develop your leadership identity and skills such as effective communicating, inspiring and developing people, and awakening passion in others for great accomplishments.

The Leadership program combines coursework from management and social sciences, along with an experiential learning requirement in leadership. The minor also allows students to pursue their leadership passions through the selection of two elective courses.

### Requirements

The Minor in Leadership consists of specified courses: two(2) required management courses, one(1) behavior/society course, two(2) elective courses, one(1) leadership experience. Requirements and specified course options to satisfy the minor are listed below.

#### Leadership Minor

Code	Title	Credits
<b>Two Required Management Courses</b>		
<b>Business Administration Majors Only:</b>		
ADMN 575	Behavior in Organizations	
MGT 713	Leadership Assessment and Development	
<b>Non-Business Administration Majors Only:</b>		
MGT 535	Organizational Behavior	
MGT 540	Leadership in the 21st Century	
<b>One of the following Behavior/Society courses:</b>		
POLT 550	Comparative Government and Society	
PSYC 552	Social Psychology	
SOC 450	Contemporary Social Problems	
WS 505	Survey in Women's Studies (Leadership for Social Change)	
<b>Two electives from the following courses:</b>		
AERO 671	Leading People and Effective Communication I	
AERO 672	Leading People and Effective Communication II	
CEP 415	Community Development Perspectives	
CEP 508	Applied Community Development	
CMN 500	Public Speaking	
CMN 598	Special Topics in Interpersonal Studies (Collaborative Leadership)	
HLS 510	Fundamentals of Emergency Management	

HLS 760	Strategic Planning and Decision Making
LLC 535A	Professional Culture in European Union - - Case Study: Germany
LLC 535B	Professional Culture in Latin America - Case Study: Mexico and Brazil
LLC #535C	Professional Culture in Asia – Case Study: China and Japan
MGT 640	Human Resource Management
MGT 642	Talent Acquisition
MGT 666	Judgment Days: Revelations for Negotiating in your Favor
MGT 714	Organizational Changemaker Skills
MILT 602	Leading Small Organizations II
MILT 611	Seminar on Leadership and Management I

PSYC 553	Personality
RMP 661	Leadership in Recreation Services
RMP 663	Management and Finance in the Experience Industry
SOC 645	Class, Status and Power
RMP 593	Special Topics
SML 565	Principles of Coaching
SML 740	Athletic Administration
SML 765	Advanced Topics in Coaching
THDA 541	Arts Administration and Entrepreneurship
THDA 641	Stage Management
THDA 741	Directing
THDA 742	Directing II
WS 405	Gender, Power and Privilege
WS 796	Advanced Topics (Leadership for Social Change II)
Or, additional Behavior/Society Course from above	
Additional courses by petition	
<b>One required Leadership Experience from the following:</b>	
Orientation Leader	
Resident Assistant	
Spark Leader	
Teaching Assistant	
PAUL 660	BiP-Social Intelligence Topics (Leadership in Practice )
HHS 798	Special Topics (Student Development Peer Educator)
INCO 505B	Social Innovator's Toolbox
INCO #682	Washington Internship
INCO 795	Washington Center Course
AERO 301	Leadership Laboratory
AERO 541	Team and Leadership Fundamentals I
AERO 542	Team and Leadership Fundamentals II
JUST 410	Sexual Harassment and Rape Prevention (SHARPP) Peer Advocacy
MILT 401	Leadership Laboratory I
MILT 402	Leadership Laboratory II
PAUL 626	Supervised Student Teaching
PAUL 705	Supervised Student Teaching: Peer Advisor
RMP 593	Special Topics ( campus Recreation Applied Leadership)
Alternative leadership experience by petition	

Please note:

- You are responsible for checking pre-requisites for all courses listed
- Pre-requisites and permissions vary by course and department. Students are responsible for checking and meeting pre-requisite requirements. Some courses may be restricted to certain majors and require permission.
- All transfer courses must be evaluated for equivalency
- No more than 2 transfer courses may be applied to the minor
- Capacity in courses may be limited
- Several of the listed courses are "special topics" (or equivalent). Please make sure that the course has the same title (not simply the

same number) as the listed course in order for it to count for the minor.

- The Leadership Minor also follows UNH policy for minors

## Sales

- [Sales Minor](#) (p. 377)

## Sales Minor

<https://paulcollege.unh.edu/business-administration/program/minor/sales>

### Description

**Minor in Sales** – The modern sales professional helps customers solve business problems through active listening, insightful questions, deep empathy, domain competency, and the understanding and communicating of value. The Sales Minor will prepare you to start your career journey into sales by teaching you to sell yourself first and giving you the skills and experience to succeed in your first role. More college graduates will go into sales than any other profession. Why not be prepared and differentiate yourself for the best opportunities by earning a sales minor and developing skills that are transferrable to any profession.

### Requirements

The **Minor in Sales** is open to both Paul College and Non-Paul College students. Please reference the required courses depending on college. The minor consists of three required courses (marketing, sales level-one, sales level-two), two elective courses, and one sales experience. Please contact the Paul College Undergraduate Advising and Programs Office for an up-to-date list of approved elective courses or sales experiences.

## Non-Paul Students – Sales Minor Requirements

Code	Title	Credits
<b>Required Courses:</b>		
MKTG 530	Survey of Marketing	4
MKTG 649	Foundations of Personal Selling	4
MKTG 689	Advanced Sales	4
<b>One Sales Experience: <sup>1</sup></b>		
MKTG 650	Professional Sales Group	
Or qualifying sales internship		
<b>Two Electives from approved list (below)</b>		<b>8</b>

## Paul Student – Sales Minor Requirements

Code	Title	Credits
<b>Required Courses:</b>		
ADMN 585	Marketing	4
MKTG 649	Foundations of Personal Selling	4
MKTG 689	Advanced Sales	4
<b>One Sales Experience: <sup>1</sup></b>		
MKTG 650	Professional Sales Group	
or qualifying sales internship		
<b>Two Elective Courses from approved list (below)</b>		<b>8</b>

<sup>1</sup> **Sales Experience** (1 required):

MKTG 650 Professional Sales Group minimum of two semesters of the 2-credit course, PAUL 795 Internship or internship experience approved by Director, Sales Center.

Please note:

- You are responsible for checking pre-requisites for all courses listed
- All transfer courses must be evaluated for equivalency
- No more than 2 transfer courses may be applied to the minor
- Capacity in courses may be limited
- Some of the listed courses are "special topics" (or equivalent). Please make sure that the course has the same title (not simply the same number) as the listed course in order for it to count for the minor.
- The Sales Minor also follows UNH policy for minors

## Sales Minor – Approved Elective List

Code	Title	Credits
<b>College of Engineering &amp; Physical Sciences</b>

## Tourism Management

- [Tourism Management Minor](#) (p. 378)

## Tourism Management Minor

### Description

"Tourism" is the world's largest and most diverse industry. Tourism is a composite of activities, services, and industries delivering travel experiences through transportation, accommodations, eating and drinking establishments, shops, entertainment, activity facilities (parks, sports, and amusement parks), historic sites, natural resources, among others.

The faculty of Recreation Management and Policy [RMP], Hospitality Management [HMG], and Natural Resources and the Environment [NRE] Tourism [Tour] have bundled a number of courses for non-majors which, when combined with certain elective courses, can constitute a Minor in Tourism Management. Each of the courses offered for this minor are already offered in each of the three departments. These programs represent the three Colleges of College of Health and Human Services, Peter T. Paul College of Business and Economics, and the College of Life Science and Agriculture.

**Questions about the minor may be directed to:**

Recreation Management and Policy – Dr. Bob Barcelona, [Bob.Barcelona@unh.edu](mailto:Bob.Barcelona@unh.edu)

Tourism Management – Dr. Rob Robertson, [Rob.Robertson@unh.edu](mailto:Rob.Robertson@unh.edu)

Hospitality Management – Dr. Markus Schuckert, [Markus.Schuckert@unh.edu](mailto:Markus.Schuckert@unh.edu) ([markus.schuckert@unh.edu](mailto:markus.schuckert@unh.edu))

Approval of the Minor for Graduation, verification and sign-off must be coordinated with Dr. Rob Robertson.

### Requirements

Code	Title	Credits
<b>Required Courses</b>		
TOUR 400	Introduction to Tourism	4
HMG 401	Introduction to the Hospitality Industry	4
RMP 490	Recreation & Tourism in Society	4
The remaining two courses for the minor may be used to focus your study in an area of interest. One course must be and experiential learning course. Areas of interest, with sample course, include:		8
<b>Lodging and Resort Management:</b>		
HMG 681	Contemporary Resort Development and Management	
HMG 570	International Food and Culture <sup>1</sup>	
HMG 554	Lodging Operations Management	
HMG #682	Private Club Management	
RMP 775	Entrepreneurial and Commercial Recreation <sup>1</sup>	
TOUR 767	Social Impact Assessment	

## Event Planning and Management:

HMG 661	Event Design, Planning, and Management
RMP 680	Festival and Event Planning
RMP 560	Recreational Sport Management
TOUR 767	Social Impact Assessment

## International Travel and Tourism:

HMG 570	International Food and Culture <sup>1</sup>
TOUR 510	Tourism and Global Understanding <sup>1</sup>
EREC 444	The New Pirates of the Caribbean
ECOG 401	Introduction to Ecogastronomy
TOUR 767	Social Impact Assessment
HMG 756	International Franchising
RMP 711	Recreation Resource Management

**Total Credits****20**

<sup>1</sup> Identification of experiential learning courses.

Courses taken during study abroad maybe considered as part of the minor; prior approval of an advisor is required.

**Please Note:**

The courses may be taken in any order, and you are responsible for checking pre-requisites for the elective courses.

Following University policy, you must complete 20 semester hours with a grade of C- or better and a 2.0 grade point average.

Courses taken on a Pass/Fail basis may not be used toward the minor.

No more than 8 credits used by the student to satisfy major requirements may be used for the minor.

No transfer courses may be used toward the minor.

- [Study Abroad Programs](#) (p. 385)
- [Sustainability](#) (p. 392)

## Domestic Study Programs

### National Student Exchange Program

The University offers many opportunities for exchange study with other institutions within the U.S. and U.S. territories. The National Student Exchange (NSE) program provides an educational experience at another member college or university, within North America. Participating students will develop new ways of viewing the country and culture, and expand their knowledge of our complex society.

Through the National Student Exchange, UNH students can study at one of more than 180 colleges and universities throughout the United States, U.S. territories (Guam, Puerto Rico, and U.S. Virgin Islands), and Canada. Several Historically Black Colleges and Universities (HBCUs) are exchange members, as are Hispanic Serving Institutions (HSIs), Asian American Native American Pacific Island Serving Institutions (AANAPISI), and Council of Public Liberal Arts Colleges (COPLAC). For a full list of participating campuses, visit [www.nse.org](http://www.nse.org).

To qualify for exchange study, students must be full-time undergraduate degree candidates in good standing, at least a 2.5 grade-point average, have earned at least 32 credits (16 of which must be from UNH at the baccalaureate level), have declared a major, and receive approval from the UNH NSE coordinator.

NSE participants pay their usual UNH tuition, and pay housing costs to the host campus, if they utilize their housing. Participation in an exchange program does not disrupt the continuity of a student's educational process. Exchange program participants continue to maintain their status as full-time, matriculated UNH students, even while temporarily located at another university. Students do not have to withdraw from UNH and later be readmitted. Maintaining UNH student status also facilitates reentry into classes, on-campus housing, and many other dimensions of University life. Students return to UNH to complete their studies.

Interested students should contact the Study Away USA/Global Education office Conant Hall 310, (603) 862-3485, [National.Student.Exchange@unh.edu](mailto:National.Student.Exchange@unh.edu) ([national.student.exchange@unh.edu](mailto:national.student.exchange@unh.edu)), or visit [www.unh.edu/nse](http://www.unh.edu/nse).

## New Hampshire Consortium (NHCUC) Student Exchange Program

Under the Student Exchange Program of the New Hampshire College and University Council (NHCUC), UNH students may be eligible to enroll

for one course per semester, one full semester of courses, or a full year of coursework at a member school on a space-available basis. The NHCUC exchange allows matriculated undergraduates to use educational resources that are not available at the home campus and are considered appropriate for their degree programs. Approval of the UNH academic adviser and exchange coordinator is required, and students must meet all UNH Study Away eligibility standards. Institutions in the NHCUC consortium include Colby-Sawyer College, Franklin Pierce University, Hellenic American University, New England College, Southern New Hampshire University, Rivier University, Saint Anselm College, UNH Durham, UNH Manchester, Keene State College, and Plymouth State University. Students will remain as degree candidates and continue to pay normal UNH tuition and fees, but must make their own room and board arrangements if they plan to spend a full semester at another consortium school. For more information and application forms, students should contact the Study Away USA/Global Education office, Conant Hall 310, (603) 862-3485.

## New England Land-Grant Exchange Program

In order to provide students at the New England land-grant universities with expanded access to unique programs and faculty expertise, the institutions have agreed to encourage student exchanges of one, but not more than two, semesters. To qualify, students must identify a course or combination of courses related to their area of academic interest and not available on their home campus, be degree candidates in good standing with at least a 2.5 grade-point average, be at least first-semester sophomores, and receive permission from the appropriate university exchange authorities at both the home and host institutions. Interested students should contact the Study Away USA/Global Education office, Conant Hall 310, (603) 862-3485.

## Semester in the City

UNH offers eligible undergraduate students the opportunity to spend a semester in Boston in a rigorous 30+ hour per week internship with a leading social change organization (nonprofit, business, or public sector).

Students are matched with internships in community development, social justice, health, education, environment, and other areas dedicated to the public good. This 16-credit study away program includes an intensive evening course that examines the theory and practice of various social change approaches, and a series of Friday seminars and reflective workshops, thereby equipping a new generation of leaders who understand both direct and systemic approaches to social and environmental change. Participants pay their UNH tuition, and pay housing costs to the host organization if they utilize their housing.

In order to apply, students should contact the UNH Changemaker Collaborative, 603.862.3697 or visit [www.unh.edu/semesterinthecity](http://www.unh.edu/semesterinthecity).

## The Washington Center for Internships & Academic Seminars

Since 1976, UNH has affiliated with The Washington Center (TWC), to offer a rigorous full-time substantive internship and academic opportunities in Washington, D.C. Students enroll in 16-credits in fall or spring semester, or 12-credits in summer. Students intern 32-35 hours per week, enroll in one upper-level evening course, and attend a professional development seminar and speaker series on Friday. There are countless internship and networking opportunities for all majors, including in the law, government, media, public policy, international

affairs, the environment, health care, law enforcement, and much more. Participants pay their UNH tuition, and pay housing costs to The Washington Center, if they utilize their housing.

In order to apply, students must meet all UNH Study Away Eligibility Requirements including but not limited to being full-time undergraduate degree candidates in good standing with at least a 2.5 grade-point average (above 2.75 is strongly preferred). Interested students should contact the Study Away USA/Global Education office, Conant Hall 310, (603) 862-3485 or visit [www.unh.edu/washington](http://www.unh.edu/washington).

## Fellowship Office

The UNH Office of National Fellowships provides information, counseling, and editorial support to highly motivated and high-achieving students applying for national and international fellowships and scholarships. The office also assists faculty members who serve as mentors and recommenders, and arranges for members of the faculty to take part in interviews and serve on screening committees.

In recruiting, advising, and supporting students who excel in various areas, the office collaborates campus-wide with other offices and departments of the University, including the Beauregard Center, the McNair program, the Honors Program, the Global Education Center, and the Hamel Center for Undergraduate Research, in support of the University's Academic Plan.

The services of the Fellowships Office are available to undergraduates, graduate students, and alumni of the University. The Office of National Fellowships holds membership in the National Association of Fellowships Advisors. For more information, please contact [Jeanne Sokolowski](mailto:Jeanne.Sokolowski@unh.edu) ([Jeanne.Sokolowski@unh.edu](mailto:Jeanne.Sokolowski@unh.edu)), director, Office of National Fellowships Office, Conant 118A; (603) 862-0733.

## Hamel Center for Undergraduate Research

[www.unh.edu/undergrad-research/](http://www.unh.edu/undergrad-research/)

The **Hamel Center for Undergraduate Research** encourages students to design and carry out research, scholarly, or creative projects in collaboration with faculty mentors. To facilitate this, the Hamel Center offers a variety of competitive research awards and fellowships specifically for undergraduate students. Research may take place during the academic year, January term, or over the summer, with a wide range of programs available to suit each student's particular needs:

- **Research Experience and Apprenticeship Program (REAP)** offers high-achieving students the opportunity to apprentice with a UNH faculty mentor for ten weeks of full-time research in the summer after their first year.
- **Undergraduate Research Awards (URAs)** are available each semester (including January Term and summer) for students at all levels: first year through senior year. The research time commitment is flexible.
- **Summer Undergraduate Research Fellowships (SURFs)** for the U.S. offer support for ten weeks of full-time research in the summer following sophomore or junior year.
- **SURF Abroad and the International Research Opportunities Program (IROP)** offer support for rising seniors to conduct nine weeks of full-time summer research abroad.
- Also, by registering for INCO 590 Student Research Experience or INCO 790 Advanced Research Experience, students

at any level can work directly with faculty members while receiving academic credit and support for research expenses.

Once projects are completed, student researchers may receive further support from a [Research Presentation Grant](#) to present their work at a national or international conference. Students may also publish their research findings in UNH's online undergraduate research journal, [Inquiry](#) and/or present their research at UNH's [Undergraduate Research Conference \(URC\)](#).

**Hamel Center research opportunities are available to students across ALL disciplines.**

By conducting research at the undergraduate level, students gain professional skills, hands-on experience, and the opportunity to present and publish their findings in professional venues. Awards from the Hamel Center for Undergraduate Research open doors on real-world disciplinary practice, graduate school, post-baccalaureate fellowships, and professional careers. For information about undergraduate research awards and programs, the *Inquiry* journal, or the URC, contact the Hamel Center for Undergraduate Research at 118 Conant Hall, (603) 862-4323, or visit the website at [www.unh.edu/undergrad-research](http://www.unh.edu/undergrad-research).

## Health Professions Program

### Description

*Offered in Durham and Manchester.*

### WHAT IS THE HEALTH PROFESSIONS Continuing Education Program?

UNH's Health Professions Continuing Education Program, offered at both our Durham and Manchester campuses, is designed for individuals who have earned a bachelors from an accredited college or university but need to complete the prerequisite requirements for admission to a professional healthcare program. Some individuals may need to enhance their existing academic record by retaking some or all their prerequisite coursework to increase the competitiveness of their application. Other individuals may want to change careers and need to complete all their prerequisite coursework.

### WHY COMPLETE YOUR Program AT UNH?

You will complete a rigorous academic program and engage in hands-on learning through fieldwork supported by our state-of-the-art facilities. Our Pre-Professional Health Advising Office helps students interested in pursuing professional degrees make the right academic and extracurricular choices to prepare for the extremely competitive application process. Students who participate in the Health Professions Continuing Education Program will be provided with personalized advising from the Pre-Professional Health Programs Advisor to assist in course registration, answer questions about the application process, review application documents, and navigate other admissions requirements.

### WHAT CLASSES DO I NEED TO COMPLETE?

While most professional programs require similar courses, the classes you need to take depend on the type of program you are planning to apply to in the future. It also depends on what type of student you are.

Record enhancers may want to retake all their prerequisite courses to improve upon their grades or only retake the classes where they earned below B. Career changers, who may have taken some of the non-science

prerequisite courses, may want to retake these courses if they are over 5 years old.

Most students apply to medical, dental, and physician assistant programs; the commonly required courses are listed below:

Code	Title	Credits
<b>Medical &amp; Dental</b>		
BIOL 411 or BIOL 413	Introductory Biology: Molecular and Cellular Principles of Biology I	4
BIOL 412 or BIOL 414	Introductory Biology: Evolution, Biodiversity and Ecology Principles of Biology II	4
CHEM 403	General Chemistry I	4
CHEM 404	General Chemistry II	4
CHEM 651 & CHEM 653	Organic Chemistry I and Organic Chemistry Laboratory	5
CHEM 652 & CHEM 654	Organic Chemistry II and Organic Chemistry Laboratory	5
BMCB 658 & BMCB 659	General Biochemistry and General Biochemistry Lab	5
English - one year		8
Psychology - one semester		4
Sociology - one semester		4
Statistics		4
Calculus		4
<b>Physician Assistant</b>		
BIOL 411 or BIOL 413	Introductory Biology: Molecular and Cellular Principles of Biology I	4
BIOL 412 or BIOL 414	Introductory Biology: Evolution, Biodiversity and Ecology Principles of Biology II	4
CHEM 403	General Chemistry I	4
CHEM 404	General Chemistry II	4
CHEM 545 & CHEM 546	Organic Chemistry and Organic Chemistry Laboratory	5
BMS 503 & BMS 504	General Microbiology and General Microbiology Laboratory	5
BMS 507	Human Anatomy and Physiology I	4
BMS 508	Human Anatomy and Physiology II	4
Psychology - one semester		4
Statistics - one semester		4

## Honors Program

The University Honors Program (UHP), established by the Academic Senate in 1983, recognizes the achievements and capabilities of outstanding students. The program enriches undergraduate education by offering a personal, intensive approach to learning through small classes, engaged scholarship, and individualized collaborations with faculty.

There are various categories of Honors recognition awarded at graduation. The four-year University Honors curriculum is comprised of Discovery Honors courses plus either Departmental or Interdisciplinary Honors experiences. Departmental Honors is a two-year curriculum of enriched work in an academic department, and can be pursued either as a part of the University Honors Program or on its own. Interdisciplinary Honors is made up of three high-impact academic experiences plus a thesis. No award is given for completion of Discovery Honors courses alone; either Departmental Honors or Interdisciplinary Honors work is required to graduate with University Honors.

## Admissions

The Office of Admissions identifies a number of qualified incoming first-year students to be admitted to the Honors Program. Transfer students are also reviewed by the Admissions office for invitation to the Honors Program. After matriculating at UNH, first-years whose grades are in the top 10% of their year in each college are invited to join the program in

January. Students may also petition to join the program if they have a GPA of at least 3.5. Admission to Departmental Honors is determined by each department; many require no invitation or application.

## Required courses and experiences

- Discovery-level honors courses (16 credits)
  - At least 8 credits (usually 2 courses) must be Honors Seminars. Qualifying Honors Seminars have a cap of no more than 20 students, and use discussion as the primary mode of in-class instruction.
  - For the remaining 8 credits, students may choose any Honors course at the 400 or 500 level.
  - At most one course may be a self-designated Honors course, in which students create their own Honors course in collaboration with a faculty member. Self-designated courses will not count toward the honors seminar requirement.
- Departmental Honors OR Interdisciplinary Honors
  - Departmental Honors requirements differ by major.
  - Interdisciplinary Honors requires three approved high-impact academic experiences.
- Honors Thesis of at least 4 credits
  - Students must register for an Honors Thesis course of at least 4 credits supervised by a faculty member.
  - A grade of B or better is required for the Honors Thesis.

## Registering for Honors Discovery Courses

Honors courses can be found on the course schedule by selecting the attributes "Honors Courses" and "All Discovery Courses." Enrollment in these courses is restricted to members of the University Honors Program. Students who are not members of the University Honors Program, but who wish to take an Honors course, may email [honors.program@unh.edu](mailto:honors.program@unh.edu) to request permission.

## Departmental Honors

Currently, there are more than 50 different departments from all five of the University's undergraduate schools and colleges offering departmental honors programs. Academic work for Departmental Honors usually requires a minimum of 16 credits, at least four of which will be devoted to a senior thesis project. Students should familiarize themselves with their department's requirements and should meet with their departmental honors liaison.

## Interdisciplinary Honors

Interdisciplinary Honors recognizes students who seek academic experiences that extend beyond their course curricula. The distinction is earned by completing three approved high-impact academic experiences as well as a thesis.

Approved high-impact experiences that count toward Interdisciplinary Honors include:

- Study abroad in a UNH managed, exchange, or approved program of at least 8 weeks
- Completing the application process for a major national fellowship
- An IROP, SURF, or other approved research experience
- Named co-authorship on a publication in a peer-reviewed journal
- A presentation at a regional or national academic conference
- A UNH Sustainability Fellowship

- Study away at the Washington Center or Semester in the City
- Participation in the McNair Scholars Program (multiple high-impact experiences may be completed within the program)
- Participation in the NH Epscor Biomade URT Program
- Completing INCO 529 and serving as a Connors Writing assistant for one academic year
- Completing INCO 620: Facilitating Deliberative Democracy
- Other approved high-impact experience (by proposal)

Students should consult with Honors Program advisers before the beginning of Junior year to decide which track they will pursue.

## GPA minimum

Members entering in or after the Fall of 2017 must maintain a GPA of 3.2 in the Freshman year and 3.5 thereafter. Students who do not reach the required GPA by the end of each academic year will be notified and offered an opportunity to petition to remain in the program. Students must meet the required GPA in order to graduate with University Honors.

More information is available at the [University Honors Program](https://www.unh.edu/honors/) website. You may also email [honors.program@unh.edu](mailto:honors.program@unh.edu), call (603) 862-3928, or visit Conant Hall, Suite 115.

<https://www.unh.edu/honors/>

## Marine Policy Minor

<https://marine.unh.edu/marine-policy-minor>

### Description

Effective management of human activities in ocean, coastal, and Great Lakes areas is critical to our future. Effective management of human activities in ocean, coastal, and Great Lakes areas is critical to our future.

For more information contact Professor, Gregg Moore, (603)862-5138.

### Requirements

1. The minor requires five courses for a total of 20 credits.
2. Minimum of C- grade earned in each course.
3. No more than 8 credits in the Major can be counted toward the minor.

Code	Title	Credits
<b>Required</b>		
MARI 705	Introduction to Marine Policy: Understanding US Ocean, Coastal and Great Lakes Policy	3
Select two courses from the following:		
MARI 405	Introduction to Marine Mammal Science and Policy	3
CEE 520	Environmental Pollution and Protection: A Global Context	0 or 4
CEE 705	Introduction to Sustainable Engineering	3
MEFB #507	Examining Marine Climate Changes on Appledore Island, ME	2
MEFB 702	Sustainable Marine Fisheries	4
NR 437	Principles of Sustainability	4
NR 602	Natural Resources and Environmental Policy	4
NR #701	Ecological Sustainability and Values	4
NR 720	International Environmental Politics and Policies for the 21st Century	4
NR 754	Critical Issues in Sustainability: Sense of Place	2
NR 786	Leadership for Sustainability	4
PHIL 450	Environmental Ethics	4
NUTR 730	From Seed to Sea: Examining Sustainable Food Systems	4

POLT #444	Politics and Policy in a Warming World	4
Select at least one course from the following:		
ESCI 501	Introduction to Oceanography	4
ESCI 502	Beaches and Coasts	4
MEFB 503	Introduction to Marine Biology	0 or 4
MEFB 535	Marine Mammal Biology	4
MEFB 674	Ecology and Marine Environment	4
MEFB 725	Marine Ecology	4
OE 521	Power of the Sea: Scientific Discovery in the Ocean	4
Additional approved courses:		
ME 706	Renewable Energy: Physical and Engineering Principles	3
NR 403	Introduction to Environmental Science	4
NR 435	Contemporary Conservation Issues and Environmental Awareness	4
NR 784	Sustainable Living - Global Perspectives	4
NR 785	Systems Thinking for Sustainable Solutions	4
NR 795	Investigations	1-4
POLT 751	Comparative Environmental Politics and Policy	4
SOC 565	Environment and Society	4
SOC 665	Environmental Sociology	4

## Pre-law Advising

The faculty and staff advisors of the UNH Pre-law Advising Committee work closely with students and alumni to identify interests and explore opportunities within legal education. The committee helps students undertake the best possible preparation for legal education while also bringing the excitement of law to UNH students. The committee achieves this goal through careful consideration of the American Bar Association's (ABA) statement on preparation for legal education (found on the web at [www.americanbar.org/groups/legal\\_education/resources/pre\\_law.html](http://www.americanbar.org/groups/legal_education/resources/pre_law.html)).

In that statement, the ABA explains why no single major or course is required or recommended for students wishing to explore or prepare for legal study. The ABA does, however, describe certain skills and values that are essential to success in law school and to life as a lawyer. These include analytic and problem solving skills, critical reading abilities, writing skills, oral communication and listening abilities, general research skills, task organization and management skills, and the values of serving others and promoting justice.

Pre-law Advising implements the ABA statement by working with student interests and strengths to select UNH courses, internships, leadership opportunities, and experiences that will develop those skills and values. Programmatically, the committee offers individual appointments, sponsors visits to local law schools, and organizes discussions with law school students, admission and financial aid representatives, and with members of the legal community. The committee also provides advising support for LSAT preparation, law school search, writing personal statements, and the application and selection processes.

The Pre-law Advising Office is located in 110 Murkland Hall. Register with the [Pre-Law Office](https://cola.unh.edu/academics/pre-law-advising/schedule-appointment). Additional information is available at <https://cola.unh.edu/academics/pre-law-advising/schedule-appointment>.

## Accelerated Academic Programs

UNH offers two accelerated programs that allow students to earn both a bachelor's degree and a law degree at UNH in six years instead of seven:

- [English Major: Law 3+3 Option](#)
- [History Major: Law 3+3 Option](#)

## Pre-Professional Health Advising

The Pre-Professional Health Programs Advising Office in Rudman Hall provides advising for all students preparing for postgraduate careers in medicine, dentistry, chiropractic, naturopathic medicine, optometry, pharmacy, physical therapy, and physician assistant programs. There is no pre-health major at UNH. Health professional graduate programs do not evaluate based on undergraduate major. Interested UNH students should register with the Pre-Professional Health Programs Advising Office online to be added to an email list and be kept informed of important events, opportunities, and deadlines regarding preparation for application.

*Identifying as a pre-health student at UNH consists of the following:*

1. *Taking the prerequisite courses for admission.* A list of the specific prerequisite courses for each intended health profession can be found on the UNH Pre-Health website.
2. *Gaining volunteer and healthcare experience.* Applicants to health professional programs will be expected to demonstrate a sustained involvement in volunteer and community service. It is also expected that applicants have shadowed healthcare providers. Many students volunteer in various healthcare settings and some students seek out licensure and certificates to provide hands-on patient care. These experiences often include working as an EMT, LNA/CNA, or phlebotomist.
3. *Preparing for entrance exams.* Many professional healthcare programs require their applicants to take a standardized entrance exam prior to matriculation. Students applying to medical school are required to take the MCAT exam. Students applying to dental programs are required to take the DAT. Student applying to optometry programs must take the OAT, and student applying to pharmacy programs must take the PCAT. The MCAT, DAT, OAT, and PCAT are standardized, comprehensive exams that test students' knowledge of biological and physical sciences as well as verbal reasoning and writing skills. Exams are usually taken once the student has completed prerequisite coursework. Students applying for physician assistant and physical therapy programs may be required to take the GRE, a more general exam similar to the SAT in structure and content.

## Application Process

The Pre-Professional Health Programs Advising Office works with the Pre-Professional Health Advisory Committee, a group of 12-15 UNH faculty members and local healthcare providers, to provide students with comprehensive, confidential evaluation services at the time of application. An application information meeting is held each fall to outline the application process and establish timetables and deadlines. Students should note that the medical and dental school application process begins a full two years before matriculation; e.g., in the fall of a student's junior year if they wish acceptance following graduation. However, a delay of a year or more between graduation and admission is neither unusual nor detrimental, and in many cases, students can use this time to improve their credentials by taking additional courses and/or gaining exposure to the profession.

It is important that students understand that in order to gain admission to a health professional program they must not only satisfy the prerequisite requirements, they must satisfy these requirements at a high level of achievement. The Pre-Professional Health Programs Advising Office can provide students with information on competitive GPA and

entrance exam scores for each of the postgraduate health professional programs.

The Pre-Professional Health Programs Advising Office is located in Rudman Hall and can be contacted by phone at (603) 862-3831 or by email at [Premed.Advising@unh.edu](mailto:Premed.Advising@unh.edu). The office also has a website at <https://colsa.unh.edu/academics/pre-professional-health-advising>.

## Reserve Officer Training Corps Programs (ROTC)

Students attending the University of New Hampshire may enroll in the **Air Force Reserve Officer Training Corps** (AFROTC) or in the **Army Reserve Officer Training Corps** (AROTC) at the University.

The Army ROTC and Air Force ROTC offer programs leading to a commission as a second lieutenant in their respective services. Students in either ROTC program may pursue any University curriculum that leads to a baccalaureate or higher degree.

Two- and four-year programs are available. The four-year program is open to freshmen, sophomores, and transfer students. The two-year program is open to students who have at least two academic years remaining in their college/university degree program. In addition to on-campus course requirements, students must attend an officer-preparatory training session for a part of one summer.

ROTC scholarships are offered on a competitive basis by both the Army ROTC and Air Force ROTC. Entering freshmen may compete for four-year scholarships during their last year of high school. Additionally, incoming students may compete for scholarships while already in college if they meet specific ROTC requirements. Scholarships may pay up to full tuition, mandatory fees, and required textbooks for college courses. Incoming students with either a four-year or three-year ROTC scholarship may receive a full or partial room and board grant for the entire time they are on an ROTC scholarship. In addition, all scholarship recipients receive a tax-free monthly subsistence allowance. Non-scholarship students in the last two years of the ROTC program also receive the tax-free monthly subsistence allowance.

Both ROTC programs have administrative and medical requirements, which must be met to qualify for a scholarship and a commission.

More specific information about ROTC programs may be obtained by contacting [Army ROTC](#) at (603) 862-1078 or [Air Force ROTC](#) at (603) 862-1480.

## Air Force Leadership Minor

### Description

1. Minimum GPA of 3.20 in Aerospace Studies courses.
2. Successful completion of 8 semesters of AERO 301<sup>1</sup>.
3. Held at least two semester-long leadership positions, one of which was a leadership position in the AFROTC Group.
4. Successful completion of Field Training.

## Requirements

Code	Title	Credits
<b>Required Courses</b>		
AERO 415	Heritage and Values of the United States Air Force I <sup>1</sup>	2
AERO 416	Heritage and Values of the United States Air Force II <sup>1</sup>	2
AERO 541	Team and Leadership Fundamentals I	2
AERO 542	Team and Leadership Fundamentals II	2
AERO 671	Leading People and Effective Communication I	4
AERO 672	Leading People and Effective Communication II	4
AERO 681	National Security Affairs/Preparation for Active Duty I	4
AERO 682	National Security Affairs/Preparation for Active Duty II	4
<b>Total Credits</b>		<b>24</b>

<sup>1</sup> The program often has National Guard or Reserve men and women join the program to transition onto active duty with a commission. Students with this status are exempt from the first year of ROTC requirements because they have already gained this experience during their time in service. As such, AERO 415, AERO 416, and two semesters of AERO 301 are waived for these students in the pursuit of the minor.

## Study Abroad Programs

<http://www.unh.edu/global/education-abroad>

The University offers opportunities for full-time degree candidates meeting eligibility criteria to pursue a wide variety of education abroad experiences, including study, intern, service and research in many countries around the world. UNH-managed and exchange study programs are described in this section. Students may study abroad in other locations through UNH-approved programs by using the intercollegiate option (INCO). All students who study abroad pay a study abroad administration fee and an international travel insurance fee. For more information, contact the Global Education Center, (603) 862-2398 or visit <http://www.unh.edu/global/education-abroad> or the department identified in the UNH-managed program descriptions.

## Belize

### UNHM BSCI 620 Global Science Exploration

This 4-credits course includes a spring break trip to Belize investigating living organisms in their natural habitat. Students will participate in pre-trip seminars on the country, local flora, fauna and habitats they will visit. Students will design a project to integrate their personal interests and objections with in-country investigation. Post-trip seminar will focus on preparation of project and its presentation. Prereq: BIOL 413 and 414, or BIOL 411 and 412. Permission required. For more information contact the faculty director, [Patricia Halpin](mailto:Patricia.Halpin@unh.edu) ([Patricia.Halpin@unh.edu](mailto:Patricia.Halpin@unh.edu)).

### Archaeological Survey and Mapping in Belize

A January-term course, Archaeological Survey and Mapping in Belize (ANTH 674 Archaeological Survey and Mapping in Belize, 4 credits), offers students hands-on training in survey and mapping techniques, as well as digital cartography using ArcGIS mapping software. This program is also directed by Eleanor Harrison-Buck. For more information, visit [cola.unh.edu/belize-mapping](http://cola.unh.edu/belize-mapping).

## Brazil

### University of Sao Paulo Ribeirao preto Exchange Program

Focused studies in all aspects of music with immersion in Portuguese language and Brazilian culture. This exchange with University of Sao Paulo Ribeirao Preto grew out of collaborations between UNH's and USP-RP's Departments of Music, and offers small group interaction with professors and Brazilian students, and participation in extra-curricular activities, including Filarmonica, Jazz Band, Grupuri (percussion group), and several choirs. This is an ideal exchange for independent students wanting to travel abroad and continue work on their music major. Contact the Global Education Center, (603) 862-2398, email [international.exchange@unh.edu](mailto:international.exchange@unh.edu) or visit <http://www.unh.edu/global/outgoing-international-exchange-students>.

## Canada

### National Student Exchange

Students may spend one or two semesters at one of ten campuses in Canada, through the National Student Exchange (NSE) program. While having the opportunity to learn in a Canadian environment, participants maintain their status as UNH students, pay UNH tuition, and will be able to graduate from UNH on schedule. The exchange is open to students from all UNH majors. Participants must provide proof of proficiency in French for Francophone campuses in Quebec. Interested students should contact Paula DiNardo, Study Away USA office, Conant Hall 310G, (603) 862-3485, or visit [www.unh.edu/nse](http://www.unh.edu/nse).

## Caribbean

### Cruise Ship Management (HMGT #698 Topics)

Offered in January term, this 4-credit course explores through text and on-board experience key areas of cruise ship management: food and beverage, HR, finance, yield management, front office, housekeeping, safety, security, sanitation, and interoperating. Students will participate in a 12-14 day cruise that sails round trip from New York City, after brief class time in Durham during the fall semester. HMGT #698 Topics counts as an elective for majors and minors in hospitality management or any UNH student in proper standing. Students need to commit by the end of September with a deposit to satisfy Cruise Line requirements. For more information, contact [Carl E. Lindblade](mailto:Carl.Lindblade@unh.edu) ([Carl.Lindblade@unh.edu](mailto:Carl.Lindblade@unh.edu)), affiliate professor, Department of Hospitality Management.

### NATIONAL STUDENT EXCHANGE

Students may spend one or two semesters at one of several NSE campuses in the Caribbean (Puerto Rico & U.S. Virgin Islands), through the National Student Exchange (NSE) program. While having the opportunity to learn in a Caribbean environment, participants maintain their status as UNH students, pay UNH tuition, and will be able to graduate from UNH on schedule. All participating campuses in Puerto Rico are designated Hispanic Serving Institutions, where the language of instruction is Spanish. Participants must provide proof of proficiency in Spanish for all campuses in Puerto Rico. Both campuses in the U.S. Virgin Islands are designated Historically Black Colleges and Universities (HBCUs). National Student Exchange is open to full-time undergraduate students from all UNH majors. Interested students should contact Paula DiNardo, Study Away USA office, Conant Hall 310G, (603) 862-3485, or visit [www.unh.edu/nse](http://www.unh.edu/nse).

## China

### Chengdu University Exchange Program

Chengdu University in Chengdu, Sichuan Province, China, is UNH's partner in the Confucius Institute, a non-profit educational institution housed in the College of Liberal Arts that offers a full curriculum in Chinese language and culture. Out of this partnership grew an undergraduate exchange program in which UNH students have the opportunity to study Chinese language and culture in an immersive setting by directly enrolling at Chengdu University. Located in the Shiling Historical and Cultural Scenic Area, the large, gated campus is beautifully landscaped with gardens, ponds, and tree-lined passages with easy access to downtown Chengdu. For more information, contact the Global Education Center, (603) 862-2398, e-mail [international.exchange@unh.edu](mailto:international.exchange@unh.edu) or visit <http://www.unh.edu/global/outgoing-international-exchange-students>.

### Shanghai International Studies University Exchange program

Shanghai is the largest city in China and a major economic, financial, trade, and cultural metropolis. SISU is a prestigious institution that offers multinational and multicultural disciplines to train and prepare future global professionals for a wide range of international expertise. Courses available in Chinese language and culture, Business and Global Studies. Contact the Center for International Education and Global Engagement, (603) 862-2398, email [international.exchange@unh.edu](mailto:international.exchange@unh.edu) or visit <http://www.unh.edu/global/outgoing-international-exchange-students>.

## Costa Rica

### Costa Rica Summer Program (San Joaquin de Flores)

This six-week summer immersion program offers a variety of courses in language and culture taught by the Instituto San Joaquin de Flores. The program combines two Spanish courses, cultural field trips, and weekend trips. Classes meet daily Monday through Friday. Students live with Costa Rican families. Upon the completion of the program, students earn the equivalent of 8 credit hours. The program faculty director is Lina Lee. For more information, visit [cola.unh.edu/costa-rica](http://cola.unh.edu/costa-rica).

### SAFS 510 Agriculture and Development in the Neotropics

Course is designed as a three-week immersion into tropical agriculture and Costa Rican ecology and culture. Agriculture plays a pivotal role in Costa Rica's history and in shaping current events. Production of horticultural and agronomic crops occurs on a variety of scales ranging from large export-based systems, to mid-sized operations for domestic sales, and sustenance-based home gardens. Examples of all systems will be visited and discussions will focus on their overall sustainability. Sustainability is a broad concept and requires consideration of socio-cultural, environmental, and economic factors. Agriculture and agricultural products infuse the culture as seen by large participation in farmers markets and appreciation for a wide variety of fruits and vegetables prepared in myriad ways. An appreciation for nature also infuses the culture and is embodied by the country's extensive system of national parks and protected reserves along with the national philosophy of "Pura Vida." SAFS 510 Agriculture and Development in the Neotropics is open to all UNH students and fulfills elective credit for the Sustainable Agriculture and Food Systems major as well as dual major in Sustainability.

## Cuba

### Discover Cuba J-term

Discover first hand the rich cultural and artistic life of Cuba through this January-Term course. Led by Prof. Lina Lee, UNH Spanish Program, students will participate in an online academic component prior to a 10-day experiential learning trip to Cuba. The course (LLC 555 Discover Cuba: An Arts Experience, will illuminate the art, history, culture, music, and architecture of Cuba through lectures, tours, guided readings, and site visits. The program will be based in Havana in partnership with Spanish Studies Abroad and will include field trips to the colonial cities of Trinidad and Cienfuegos. All course and site work conducted in English - no knowledge of Spanish required. For more information, visit [cola.unh.edu/cuba](http://cola.unh.edu/cuba).

## Dominican Republic

### Perspectives on the Business Environment in the Dominican Republic

Offered in January term, MKTG 620 Topics in Marketing / MKTG 720 Topics in Marketing II, Perspectives on the Business Environment in the Dominican Republic, is a 4-credit course open to all UNH students. Students will participate in a 13-day visit to Santo Domingo in the Dominican Republic, one of the commercial hubs of the Caribbean. The course will include two pretrip classes held in the fall, in which the students will learn about the business culture of the country, as well as a brief introduction to its history and current demographics. The group will travel to Santo Domingo where three to four hours of each weekday (32 contact hours) will be devoted to meeting with business owners and managers from a variety of industries who will discuss business practices. Upon return to Durham, a final three-hour class will be held in the spring semester to wrap up, assess the learning outcomes, and conclude the experience. Contact [Audrey Ashton-Savage \(Audrey.Ashton-Savage@unh.edu\)](mailto:Audrey.Ashton-Savage@unh.edu), the instructor for this course.

### Social Action in the Dominican Republic: Exploring Culture, Poverty, Human Rights, and Social Justice in a Developing Caribbean Nation

### (SW 697 Special Topics in Social Welfare / SW 897 Special Topics in Social Work and Social Welfare)

This course examines issues of culture, poverty, social development, and social justice in the Dominican Republic through direct service learning work and preparatory and reflective class sessions and discussions. Students will have the opportunity to examine development issues that have plagued the island nation for years and current efforts to address these concerns. During spring break, students and a UNH faculty member embark on a service learning adventure to work in the bateyes of the Dominican Republic. Past projects have included the building of schools, clinics, community centers, and residential houses. Additionally, students will be working in local schools, and child welfare centers. Afternoons and evenings will be spent learning about social services in the DR from community leaders and activists, participating in cross-cultural activities with community members, learning about Dominican life and history, and reflecting upon the days' activities. Students will visit other local Haitian immigrant communities (bateyes), and spend an evening in Santo Domingo. Contact [Matthew Toms \(matthew.w.toms@gmail.com\)](mailto:matthew.w.toms@gmail.com).

## France

### Dijon Program

The Dijon Program offers students the chance to spend their junior year or a spring semester in Dijon, France. Students enroll directly in the Université de Bourgogne (University of Burgundy), where they will take courses alongside French students, or at the CIEF (Centre International d'Etudes Françaises), which hosts students from around the world. Students generally live with French families in the heart of this historic city. Credit for all work completed successfully, up to 16 credits, will be automatically transferred to UNH. Though exceptions can be made by the program faculty, the semester program is generally open to those French majors who have completed:

Code	Title	Credits
FREN 631 & FREN 632	Advanced French: Reading and Writing and Advanced French: Listening and Speaking	8
FREN 651 or FREN 652	Love, War, and Power in French Literature (or equivalent) Greatest Hits of French	4
<b>Total Credits</b>		<b>12</b>

and to French minors who have completed:

Code	Title	Credits
FREN 631 & FREN 632	Advanced French: Reading and Writing and Advanced French: Listening and Speaking	8
FREN 651 or FREN 652	Love, War, and Power in French Literature (or equivalent) Greatest Hits of French	4
<b>Total Credits</b>		<b>12</b>

The program faculty director is Ileana Chirila. For more information, visit [cola.unh.edu/dijon](http://cola.unh.edu/dijon).

### Dijon Summer Program

The Dijon Summer Program provides the opportunity to spend four or eight weeks in Dijon, France, taking the equivalent of one or two of the following courses at the Centre International d'Etudes Françaises (CIEF):

Code	Title	Credits
FREN 401	Elementary French I	4
FREN 402	Elementary French II	4
FREN 503	Intermediate French I	4
FREN 504	Intermediate French II	4
FREN 631	Advanced French: Reading and Writing	4
FREN 632	Advanced French: Listening and Speaking	4

An eight-week summer option is also available in the form of FREN 691 Summer Study in Dijon (8 weeks) to French majors who cannot spend a semester abroad for documented reasons. The pre-requisites for FREN 691 Summer Study in Dijon (8 weeks) are:

Code	Title	Credits
FREN 631	Advanced French: Reading and Writing	4
FREN 632	Advanced French: Listening and Speaking	4
FREN 651	Love, War, and Power in French Literature	4
FREN 652	Greatest Hits of French	4

This course is worth 8 credits and consists of eight weeks of intensive French language, literature, culture, and civilization courses at the CIEF at the Université de Bourgogne in Dijon, France. The program faculty director is Ileana Chirila. For more information, visit [cola.unh.edu/dijon](http://cola.unh.edu/dijon).

### Toulouse - A Culinary Exploration of Southern France

Experience first-hand the rich cultural, historical, and culinary heritage of France with a focus on its southwestern regional capital, Toulouse. Students enroll in a 2-credit version of FREN 595 French Practicum

during the second half of the spring semester. On-campus class sessions will prepare students for travel and introduce them to the diversity of French cultural heritage. The program will culminate in a 2-week stay in Toulouse. Students will engage in daily activities, site visits, lectures, and day trips. While much of the in-country portion of the program will focus on the region's culinary diversity, students will also discover the city and region's historic highlights and engage with contemporary social and cultural topics. The program faculty director is Ileana Chirila. For more information, visit [cola.unh.edu/toulouse](http://cola.unh.edu/toulouse).

## Germany & German speaking countries

Students may study for a semester or a full year through an approved study abroad program or, in special cases, by applying directly to universities in Germany, Austria, or Switzerland. Many programs require a minimum grade-point average of 3.0 and a B average in the major. Programs vary greatly in academic focus, size, language of instruction, living arrangements, services, and extra-curricular programming provided, and cost. Study abroad goals and requirements should be discussed with a German adviser as early as freshman year. Program and application materials may be obtained through the Global Education Center. For credit in the German major or minor, the program must be conducted in German. After consultation with the major adviser and the study abroad adviser to establish possible UNH course equivalents and fulfillment of major and/or Discovery Program requirements, students submit a planning form indicating the planned course of study abroad. To ensure proper credit transfer, especially if seeking to transfer credits directly from a university abroad without benefit of an Approved Program, students should keep syllabi, course descriptions, and all written work. Students planning study at a university in Germany, Austria, or Switzerland should note major differences in academic calendar (winter semester October-February, summer session April-July), which may be shortened by the Approved Program to accommodate U.S. academic calendars.

### Berlin Program

The Berlin Summer Program offers students the chance to spend five weeks in Berlin, Germany. Students earn 4 or 8 credits through GERM 586 Study in Berlin, designed to give students an immersion experience in the German language and culture. Students will receive eighty hours of intensive language instruction at the appropriate level (elementary, intermediate, or advanced) at the BSI Private Language School in central Berlin. No prior German language study is required. On designated weekday afternoons, students will gather for cultural excursions and discussions with the on-site UNH faculty member. Students enrolling for 4 credits can receive the UNH German Program language course equivalent of one semester of language study. Students enrolling for 8 credits will receive the UNH German Program language course equivalent of one semester of language study as well as engage in additional UNH faculty-guided cultural study, fulfilling GERM 525 Introduction to German Culture and Civilization (Discovery World Cultures) or other pre-approved courses. Students may fulfill the bachelor of arts language requirement by taking the equivalent of Intermediate German at the BSI Language School or by taking the equivalent of the first semester of Elementary German with the program and then independently continuing language instruction at the BSI for three weeks beyond the program study period, for a total of 8 weeks. Required pre-travel meetings at UNH will prepare students for the Berlin experience. In line with UNH's goals to educate students to become global citizens, this immersion experience will give students insight into what it means to experience a different culture and language. The program is administered by the COLA Center for

Study Abroad, and the faculty director is Charles Vannette. For more information, visit [cola.unh.edu/berlin](http://cola.unh.edu/berlin).

## Intensive Language Courses through the Goethe Institut

Students needing to advance rapidly in proficiency beginning at any level and at any time of year may enroll at a Goethe Institut center in Germany for courses ranging from eight to 16 weeks and receive UNH equivalent credit depending on level of exam passed upon completion of course. UNH's faculty contact is Charles Vannette, (603) 862-0063, or the Global Education Center, (603) 862-2398, or [study.abroad@unh.edu](mailto:study.abroad@unh.edu).

## German Internship

Students who have completed GERM 504 Intermediate German II or equivalent may apply for a 4-8 credit internship placement in a German-speaking firm or organization. The internship does not alone fulfill the study abroad requirement for the major, but may count toward the minor and may be coupled with academic course work through UNH or any study abroad program to fulfill the major study abroad requirement. The faculty contact person is Charles Vannette, (603) 862-4005.

## UNIVERSITY OF MANNHEIM EXCHANGE PROGRAM

Living and studying on a campus surrounding the **Schloss Mannheim** (Mannheim Palace) right at the heart of Europe. This is what students who opt for a semester at the University of Mannheim can expect. The **campus** really deserves to be called **international** – one in five students comes to Mannheim from abroad. Mannheim is very conveniently located: just a few train stops south of Frankfurt (which has a major international airport). For general information, please go to <https://www.uni-mannheim.de/en/academics/coming-to-mannheim/exchange-students/>. According to the 2019 QS World University Ranking by Subject, the University of Mannheim is the best German university in Social Sciences (which includes Business Administration and Economics) and has been ranked number 55 worldwide. The Mannheim Business School has the Triple Crown accreditation: AACSB, EQUIS and AMBA. Contact the Global Education Center, (603) 862-2398, email [international.exchange@unh.edu](mailto:international.exchange@unh.edu) or visit <http://www.unh.edu/global/outgoing-international-exchange-students>.

## Global E3 Engineering Exchange Program

Global E3 allows engineering students to enjoy a fulfilling study abroad experience at one of 31 international member institutions. Through participation in the program, Global E3 graduates gain the necessary foreign language ability, cross-cultural skills, and professional experience to excel in the multinational/multicultural business environment of the 21st century. Global E3 students pay tuition at their home institution, and enjoy the benefits of attending an overseas one. Students can study abroad for the fall semester, spring semester, or the entire school year. At some member universities, Global E3 students are able to take on a supplemental internship after their study abroad experience. Member institutions include some of the best universities in Argentina, Australia, Austria, China, Denmark, France, Germany, Indonesia, Italy, Japan, Malaysia, The Netherlands, Singapore, South Korea, Spain, Sweden, and United Kingdom. For more information contact the Global Education Center, (603) 862-2398, email [international.exchange@unh.edu](mailto:international.exchange@unh.edu) or visit <http://www.unh.edu/global/outgoing-international-exchange-students>.

## Greece

### UNH in GREECE SUMMER PROGRAM

The UNH-in-Greece Program is open to any undergraduate at UNH who is interested in the long history of civilization in Greece, from the classical

period to the present day. Athens is famous as the most important city-state in ancient times and as the site of some of the world's most famous and influential architecture and art, but it is also the vibrant capital of modern Greece (The Hellenic Republic), and that combination of antiquity and modernity, as well as the city's position between West and East, makes it an extraordinary location for on-site, experiential learning. Students earn a total of 10 credits from courses taught by both UNH and Hellenic American University faculty. The program faculty director is Stephen Trzaskoma. For more information, visit [cola.unh.edu/greece](http://cola.unh.edu/greece).

## Hungary

### Budapest spring justice studies and humanities program

The UNH Budapest Spring Program is open to any student interested to deepening their knowledge of modern European history, culture, and justice systems. Each spring semester a group of students, under the supervision of a UNH faculty member, study at [Károli Gáspár University](http://www.karoli-gaspár.hu) of Budapest. Situated along the Danube River, Budapest is an exciting and cosmopolitan city, close to other beautiful European cities such as Prague and Vienna. Under the supervision of a UNH faculty member also in residence, students carry a four-course load, two of which are taught by the UNH faculty member. The program satisfies Historical Perspectives, World Cultures, and, depending on course selection, Humanities and Fine & Performing Arts Discovery Program Requirements. All courses are taught in English. The program is faculty directors are Sue Siggelakis and Stephen Trzaskoma. For more information, visit [cola.unh.edu/budapest](http://cola.unh.edu/budapest).

## Ireland

### ANSC 510 Integration of Culture and Agriculture in Ireland: Past, Present, and Future

What was the worst natural disaster in 19th century Europe? What characterizes Ireland's agriculture in the 21st century? In this interdisciplinary course, students examine the cultural, historical, political, economic, and religious influences on Ireland's agriculture. The crowning experience of the course, a 10-day study abroad in late May, provides students with a window to the world as they experience the culture, agriculture, and topography of Ireland. Students will immerse themselves in local Irish history and culture as they tour working agricultural farms and significant landmarks. For more information, contact [Patty Bedker](mailto:Patty.Bedker@unh.edu) ([patty.bedker@unh.edu](mailto:patty.bedker@unh.edu)).

### Study Abroad in Athletic Training

This UNH study abroad program is open to athletic training majors who are interested in expanding and enhancing their athletic training education while also gaining an appreciation of a different culture. Students will be taking courses in the bachelor of science (honours) in sports rehabilitation and athletic therapy program at the Institute of Technology at Carlow. The increased emphasis on manual therapy application and skill by therapists in Ireland will provide the visiting UNH student with a unique opportunity to develop abilities far-beyond what they may learn in the U.S. Students may earn up to 16 credits applicable to their UNH graduation requirements. Students pay their normal UNH tuition (in-state or out-of-state as appropriate) as the tuition to study in Ireland. Interested students should contact [Daniel Sedory](mailto:Daniel.Sedory@unh.edu) ([Dan.Sedory@unh.edu](mailto:Dan.Sedory@unh.edu)), (603) 862-1831.

## SW 785 Study Abroad: Comparative Social Welfare Systems / SW 885 Study Abroad

Students studying abroad on SW 785 Study Abroad: Comparative Social Welfare Systems/SW 885 Study Abroad, examine the historical development of social welfare in another country, including an analysis of the underlying values and attitudes that direct practice and policy decisions. This 4-credit class includes agency site visits, lectures, themed readings, and visits to important cultural sites. Prerequisites are SW 424 Introduction to Social Work and SW 525 Social Welfare Policy: History of Social and Economic Justice. Previous programs have visited Ireland, England, Scotland, and Latvia.

## LITERARY DUBLIN: ENGL 565 Literary Dublin: Short-Term Study Abroad

This two-week UNH managed program allows students to re-imagine what we mean by "Irish" and "Irish American." It introduces a racially diverse side of Dublin specifically, and Ireland broadly, in concert with Irish Americanness as racially other at one time, and subsequently racially white. Through writing, reading, on-site visits and tours, and a host of lectures, students will gain an appreciation of Ireland's many challenges of self- and other identity related to its location, conquest, colonization, emigration, religions, and recent global immigration. The course will provide students who identify as Irish an opportunity to research their genealogy. Student will earn 4 credits for this course, ENGL 565 Literary Dublin: Short-Term Study Abroad. The experience begins in the U.S. via Zoom meetings for one week (Monday through Friday, three hours daily), then moves overseas to Dublin for 10 days.

## Italy

### UNH-in-Italy Program

*Semester & Summer Programs.* In partnership with the UNH Department of Agriculture, Nutrition & Food Systems, the UNH-in-Italy Program offers students the opportunity to experience living abroad in the medieval city of Ascoli Piceno, for either a four-course, 13-week semester or a two-course, 5-week summer session. The curriculum focuses on the links between food culture, sustainably-focused agriculture, and the policies and issues impacting the food system. Experiential activities, field trips, and group excursions encourage students to immerse themselves in the unique educational opportunity. Students live in apartments in the historic center of the city and take UNH courses taught in English. The program is open to all UNH students and fulfills the International Experience requirement of the EcoGastronomy Dual major. For more information, please contact [Jesse Stabile Morrell](mailto:Jesse.Stabile.Morrell@unh.edu) ([jesse.morrell@unh.edu](mailto:jesse.morrell@unh.edu)).

## EcoGastronomy International Experience, FALL Semester in ASCOLI PICENO, ITALY

All students who declare the dual major in EcoGastronomy spend a full semester abroad, most likely during their junior year. The table is set fall semester in Ascoli Piceno, Italy, where students will study the links between food cultures, sustainably-focused agriculture, and the policies and issues impacting the food system. EcoGastronomy study abroad programs are open to all UNH students.

### Rome J-Term Program

The Rome Program provides the opportunity to take a January term course in Rome, Italy. Students earn 4 credits and the Fine and Performing Arts Discovery requirement through CLAS 510 Building Rome or 4 credits and the World Cultures Discovery requirement through ITAL 510J Rome: The Eternal City in Italian Culture. Experience the

history, architecture, and art history of the ancient Romans the way they did—in Rome itself! Six days of study in the eternal city followed by two days in Pompeii and other sites will give students a sense of the majesty and miracle that was the ancient Roman Empire. A five-day online component prepares students for the on-site portion so that they will be ready to soak in the monuments of the past. The program faculty director is Scott Smith. For more information, visit [cola.unh.edu/rome](http://cola.unh.edu/rome).

## Japan

### Saitama University Exchange Program

Accelerated Japanese language learning on Saitama University's park-like campus, just outside Tokyo. With its moderate size (9,000 students), generous scholarship opportunities, dynamic student life and recreation facilities, Saitama is an ideal fit for UNH students interested in Japanese language and culture. The university also has a wide variety of courses taught in English, which draws students from around the world. Saitama is known as the "Oasis of Tokyo"—a historic city whose forests were planted centuries ago by peace-loving Samurai who nurtured the land instead of living by the sword. Saitama is the famous backdrop for Japanese animated films. Tokyo is less than an hour away by train. Contact the Global Education Center, (603) 862-2398, email [international.exchange@unh.edu](mailto:international.exchange@unh.edu) or visit <http://www.unh.edu/global/outgoing-international-exchange-students>.

### Waseda University Exchange Program

Study abroad at one of Japan's "Ivy League" universities while paying UNH tuition. Spend a semester or academic year studying in central Tokyo, with over 50,000 students, including 5,000 international students from more than 100 countries. UNH students can enroll in a wide range of courses in English in the liberal arts, business, social sciences, political science and economics, and of course, Japanese language and culture. Waseda has a unique volunteer center, which combines lectures with hands-on activities in the field. Contact the Global Education Center, (603) 862-2398, email [international.exchange@unh.edu](mailto:international.exchange@unh.edu) or visit <http://www.unh.edu/global/outgoing-international-exchange-students>.

## The Netherlands

### Radboud University Nijmegen Exchange program

Nijmegen is the oldest city in the Netherlands: it was founded by the Romans more than two thousand years ago. It is a vibrant, green, and safe student town of about 175,000 people, just a few miles from the German border. It only takes a little over an hour by train to get to Amsterdam, and it has great international train connections to Brussels, Paris and Berlin. The city has a very active student life and is also a host to countless festivals and sports activities like the Four Day Marches. Radboud University Nijmegen has about 23,000 students (about 11% of them are international). The campus is beautiful, with lots of green space, incredible buildings and has a state-of-the-art sports center. This semester exchange is open to all Majors. General info can be found at [www.ru.nl/exchangestudents](http://www.ru.nl/exchangestudents). Contact the Global Education Center, (603) 862-2398, email [international.exchange@unh.edu](mailto:international.exchange@unh.edu) or visit <http://www.unh.edu/global/outgoing-international-exchange-students>.

### Utrecht University Exchange Program

Open to undergraduate and graduate students in all fields, Utrecht University is one of the top research universities in Europe, with the largest undergraduate population and the largest research budget in the Netherlands. The size, status, and international population of the university ensure that courses in all areas of study are offered in English; these include the humanities, social and behavioral studies, law,

economics, governance, and geosciences. Utrecht is the fourth largest city in the Netherlands. It has a classically old-Dutch city center with 17th century buildings, a medieval church, several high-quality museums, and terraced canals that encircle the old city. A university town since the medieval period, Utrecht has long enjoyed a vibrant student culture. Utrecht is easily navigable by foot, bicycle, and bus; the center of the Dutch rail system, it enjoys easy access to other cities in the Netherlands and Europe (Amsterdam is 35 minutes away; Paris three hours; London a day trip by plane). Contact the Global Education Center, (603) 862-2398, e-mail [international.exchange@unh.edu](mailto:international.exchange@unh.edu), or visit <http://www.unh.edu/global/outgoing-international-exchange-students>.

## University College Utrecht Exchange Program

An honors exchange is available at the University College Utrecht (UCU), which is an international Liberal Arts and Sciences Honors College of Utrecht University. UCU's mission is to offer ambitious students an academic environment aimed at transforming their broad academic and social interests and their international orientation into academic excellence, intellectual independence, and world citizenship. UCU specializes in undergraduate education and students choose from courses in humanities, science, and social sciences. Among the special characteristics are the college's small classes and individual attention. Students have access to all academic, social, and recreational facilities that Utrecht University has to offer. Contact the Global Education Center, (603) 862-2398, email [international.exchange@unh.edu](mailto:international.exchange@unh.edu) or visit <http://www.unh.edu/global/outgoing-international-exchange-students>.

## New Zealand

### UNH-ECOQUEST: Ecology in action

In partnership with COLSA's Department of Natural Resources and the Environment, the EcoQuest Education Foundation offers an intensive program of applied field studies in ecology, resource management, and environmental policy. New Zealand offers an ideal context for multidisciplinary, field-oriented studies, with its rich cultural traditions, diverse ecosystems, expansive natural areas, and history of innovative approaches to resource management. EcoQuest students engage hands-on in New Zealand's restoration ecology and sustainable resource management initiatives. Semester participants have the opportunity to carry out team oriented, directed research projects while working closely with a faculty mentor and in association with New Zealand research partners. The rural seaside campus is located about an hour's drive southeast of Auckland. Students travel throughout New Zealand's North and South Islands, from the mountains to the sea, to learn more about the unique ecosystems and local culture.

Students may choose either a four-course, 15-week fall or spring term for 16 credit hours, or a two-course, five-week summer session for eight credit hours. The UNH-EcoQuest Academic Coordinator is Kimberly Babbitt, Associate Dean of Academic Affairs, COLSA. Contact Donna Dowal, EcoQuest Director of Admissions, at (603) 862-2036 or [Eco.Quest@unh.edu](mailto:Eco.Quest@unh.edu).

### UNH-EcoQuest: Sustainable Agriculture and Food Systems Aotearoa (SAFSA)

In partnership with COLSA's Department of Agriculture, Nutrition, & Food Systems, the EcoQuest Education Foundation offers an intensive field studies program in sustainable agriculture, land management, systems thinking, and food production. Students will gain an in-depth understanding of global trends in agricultural sustainability and the challenges and manifestations of these trends in Aotearoa New Zealand.

Students engage with various agribusinesses in New Zealand and consider agriculture in an ecosystems framework, aligning land use with land use capability, while examining the political, economic and cultural context. The Maori agribusiness sector is distinctive and offers unique opportunities for collaborative models. The integration of people, communities, and values with primary production systems can ultimately result in vibrant and multi-cultural approaches to food systems.

Four fully integrated courses focus on land use capability and sustainability, agroecology and sustainable land management, and pathways to sustainable agriculture and food systems. Each semester, students will spend time in farm or agricultural placements. These practical, hands-on experiences will allow students to gain transferable skills and develop a comprehensive understanding of sustainability initiatives and practices in food systems. Program participants will gain life and professional skills to engage with sustainable food systems as pro-active, solution-focused practitioners.

Students may choose either a four-course, 15-week fall or spring semester term for 16 credit hours. The UNH-EcoQuest Academic Coordinator is Kimberly Babbitt, Associate Dean of Academic Affairs, COLSA. Contact Donna Dowal, EcoQuest Director of Admissions, at (603) 862-2036 or [Eco.Quest@unh.edu](mailto:Eco.Quest@unh.edu).

## Russia

### Russia Program

This is a four-week summer program in Russian language, culture, mythology, and propaganda in Moscow, St. Petersburg, and on the Trans-Siberian Railway. Studying in the current and former capitals of Russia and the largest city in Europe gives students a profound image of the country, its language, and culture, as well as an overview of recent and ancient history. It is an opportunity for an intensive dose of authentic Russian culture. Prior to departure, students will work on Blackboard with readings and films. In Moscow and St. Petersburg, there will be field trip classes and special lectures. Upon return, students will complete their work on Blackboard and on a project. The program faculty director is Arna Bronstein. For more information, visit [cola.unh.edu/russia](http://cola.unh.edu/russia).

## South Korea

### Pusan National University Hong Kong Exchange Program

Study abroad in Busan, South Korea's beautiful second city, known for its beaches, mountains, and temples. Pusan National University is one of Korea's leading research universities and provides a full curriculum of 600 courses offered in English for UNH students of most majors. Pusan is particularly well known for business, STEM fields, and global studies, as well as its campus life and extra-curricular opportunities. Summer study is available. Contact the Global Education Center, (603) 862-2398, email [international.exchange@unh.edu](mailto:international.exchange@unh.edu) or visit <http://www.unh.edu/global/outgoing-international-exchange-students>.

## Spain

### Granada Program

The Granada Program is a spring semester program in Granada, Spain. The program is designed for those who have completed SPAN 631 Advanced Conversation and Composition I or its equivalent and have a B average in Spanish, but may be open to intermediate-level students by petition. Many of the courses taught by professors from the University of Granada fulfill requirements for the Spanish major and minor and UNH Discovery Program requirements. Students generally live with host

families and take courses at the Centro de Lenguas Modernas at the Universidad de Granada. The program faculty director is Lina Lee. For further information, visit [cola.unh.edu/granada](http://cola.unh.edu/granada).

## Universidad Carlos III de Madrid Exchange Program

Study abroad in Madrid, Spain's historic and artistic capital that never sleeps. Universidad Carlos III de Madrid, named after a former king of Spain, offers a dynamic campus of 18,000 students and the largest offering of courses taught in English in Spain. Courses are available in the areas of engineering, business (AACSB accredited), finance, accounting, economics, and political science. Contact the Global Education Center, (603) 862-2398, email [international.exchange@unh.edu](mailto:international.exchange@unh.edu) or visit <http://www.unh.edu/global/outgoing-international-exchange-students>.

## U.S. Territories (Puerto Rico, U.S. Virgin Islands, and Guam)

### NATIONAL STUDENT EXCHANGE

Students may spend one or two semesters at one of 12 campuses in the U.S. territories of Puerto Rico, U.S. Virgin Islands, and Guam through the National Student Exchange (NSE) program. Participants maintain their status as UNH students, pay UNH tuition, and will be able to graduate from UNH on schedule. The exchange is open to students from all UNH majors. Participants must provide proof of proficiency in Spanish for all campuses in Puerto Rico. For more information contact, Paula DiNardo, Study Away USA office, Conant Hall 310G, (603) 862-3485, or visit [www.unh.edu/nse](http://www.unh.edu/nse).

## United Kingdom England

### Lancaster University Exchange Program

Lancaster University is a comprehensive university similar to UNH in size, setting, and program offerings. The program allows students to spend a semester or a year in Lancaster while still making normal progress toward their UNH degree. Lancaster enjoys a diverse campus and is centrally located for travel to Scotland, Wales, Ireland, and London. Contact the Global Education Center, (603) 862-2398, e-mail [international.exchange@unh.edu](mailto:international.exchange@unh.edu), or visit <http://www.unh.edu/global/outgoing-international-exchange-students>.

### London Program

The London Program offers students the chance to spend the spring semester at Regent's University in the heart of London, choosing from courses in British studies, the arts, humanities, social sciences, business, and a wide range of other basic subjects. Taught by British and American faculty members, many of the courses are specifically concerned with British studies or have a special British emphasis. The program faculty director is Sue Hertz. For more information, visit [cola.unh.edu/london](http://cola.unh.edu/london).

### The London Experience

This course provides a wonderful opportunity to learn about one of the greatest cities in the world. Travel to the United Kingdom for nine nights/ten days during the January term. See the many amazing historical and cultural sights and take in some of the best theatre in the English-speaking world. The course offers insight into the politics, society, and culture of London and the United Kingdom as students walk, tube, and double-decker bus their way through 2000 years of history. The 4-credit class fulfills the Fine and Performing Arts Discovery requirement.

This program faculty director is David Kaye. For more information, visit [cola.unh.edu/london-experience](http://cola.unh.edu/london-experience).

## London Travel Writing

Travel writing is for the adventurous. In three weeks, students will learn to navigate London, one of the world's greatest cities, and craft compelling, vivid essays about what they've discovered. Through curiosity, research, and writing they will transcend from tourist to traveler, gaining a confidence in their ability to master the unfamiliar as well as pen publishable stories about place. Prerequisite of ENGL 501 Introduction to Creative Nonfiction or permission of instructor. This program faculty director is Susan Hertz. For more information, visit [cola.unh.edu/london-writing](http://cola.unh.edu/london-writing).

## Northern Ireland, Scotland (& the Highlands), York and London

### HLS 656 Comparative Homeland Security Systems Lab/ HIST 600 Explorations, Emergent Topics

All UNH students are invited to enjoy this trip where they can combine their interests in security studies, history and culture, justice studies, sustainability & resilience, intelligence, emergency preparedness or terrorism studies with our nearly 3-week study abroad course to 5 cities in the UK: Belfast, Edinburgh, Pitlochry in the Highlands, York and London. The 18-day trip will explore domestic/civilian security and resilience challenges facing the UK while you explore Northern Ireland, Scotland, and England's rich history, pubs, people and culture. The trip is specifically designed for UNH students and is open to all majors. Our time in Belfast and the Northern Irish Coast will include meetings with real IRA and Loyalist members, a guided tour of the Northern Irish Assembly, the Titanic Museum and a tour of the Antrim Coast including Carrick Fergus Castle, Giant's Causeway and the Rede Rope Bridge; then on to Edinburgh that will include a special guest pass to see the First Minister's Q&A at the Scottish Parliament, and time to enjoy the ancient city as well as a weekend in the Highlands (including hiking Ben Vrackie and a distillery tour). The group will view Alnwyck Castle en route to York, where we are special guests at the UK's Emergency Planning College. A day trip to Bletchley Park (home of the WWII code breakers) precedes our arrival in London, where activities include a custom guided spy walk and visiting the underground Churchill War Rooms. To travel with us, students approved to study abroad will enroll in HLS 656 for 1 credit in the summer (usually mid-May -mid-June). Note that interested students can also (but don't need to) take HLS 555 which is only offered in the spring semester and is designated as a World Cultures Discovery course. HLS 555 focuses on the Troubles in Northern Ireland during the late 20th century, including the struggle for Irish independence, and the broader responses of the UK to domestic security threats from World War II to present times in Ireland and Northern Ireland. Students do not need to take HLS 555 to participate on the study abroad. For more information contact [James Ramsay](mailto:James.Ramsay@unh.edu) ([james.ramsay@unh.edu?subject=summer%20study%20abroad](mailto:james.ramsay@unh.edu?subject=summer%20study%20abroad)), Homeland Security Program Coordinator and Professor of Security Studies, or [Sonic Woytonik](mailto:sonic.woytonik@unh.edu) ([sonic.woytonik@unh.edu](mailto:sonic.woytonik@unh.edu)), Security Studies lecturer.

## Scotland

### Heriot-Watt University Exchange Program

College of Engineering and Physical Sciences students are eligible to participate in a spring semester exchange with Heriot-Watt University in Edinburgh, Scotland. Heriot-Watt is one of the UK's leading universities for business and industry and has a reputation for innovative education,

enterprise, and leading-edge research in science, business, engineering, and design. Often referred to as Scotland's international University, a third of on-campus students in Scotland come from outside the UK, there are campuses in Dubai and Malaysia, and 50 international academic learning partners in 30 countries. The current program is designed for civil and environmental engineering majors. Contact the Global Education Center, (603) 862-2398, e-mail [international.exchange@unh.edu](mailto:international.exchange@unh.edu) or visit <http://www.unh.edu/global/outgoing-international-exchange-students>.

## Wales

### Cardiff University Exchange Program

Study abroad at one of the UK's "Ivy League" universities while paying UNH tuition. Founded in 1883, Cardiff University is recognized as one of the leading research and teaching universities in the UK and a member of the Russell Group, the UK's "Ivy League" of world-class universities. Spend a semester or academic year studying at Cardiff and benefit from learning with professors who are pioneers in their fields. Over 27,000 students have been drawn to Cardiff University, coming from Wales, the rest of the UK and more than 100 countries. UNH students can enroll in a wide range of courses and are guaranteed housing in student halls of residence, living among British and other international students. Cardiff is an excellent match for majors in music, computer science, communications, and journalism. The University boasts over one hundred clubs, sporting teams, and societies. Cardiff University is located in the center of the capital of Wales, an exciting and diverse city and the heart of Welsh history, culture, street life, and politics. There is something for everyone in the Welsh capital, with the excitement of the small city campus located just minutes from the beautiful coastlines, hills, walking trails, and green countryside for which Wales is famous. Contact the Global Education Center, (603) 862-2398, email [international.exchange@unh.edu](mailto:international.exchange@unh.edu) or visit <http://www.unh.edu/global/outgoing-international-exchange-students>.

## Sustainability

Sustainability is about balancing environmental stewardship, social well-being, and economic vitality to meet our present needs while ensuring the ability of future generations to meet their needs. At its core, sustainability is a collective commitment to valuing human dignity for all people and ensuring ecological integrity of places that support us.

Students from any UNH college or major can pair the Sustainability Dual Major with their primary major. You'll learn to analyze, evaluate, and create new ideas and models around sustainability. As an interdisciplinary and applied field of study and practice, you'll make connections across issues of science and ethics, policy and technology, and culture and history to better understand and take action on pressing issues of our time. Solving real-life problems requires the skills and perspectives of people from multiple disciplines and backgrounds. The Sustainability Dual Major provides the skills and knowledge needed to understand these systems, identify relevant environmental and social issues, and become agents of change in a complex world.

Sustainability Dual Major (SDM) students will:

#### Comprehend grand challenges

Students will gain knowledge of the fundamental aspects of sustainability challenges, such that they understand the problems and develop solutions to complex issues.

#### Think in systems

Students will have an ability to analyze and synthesize the interconnections among environmental, social, and economic aspects of complex systems, as well as how problems manifest at different scales (local to global) and at different times (connections between past, present, and future).

#### Advocate for values

Students will be able to identify, assess, respect, and navigate the diverse values, interests, and types of knowledge inherent in sustainability challenges, while simultaneously addressing power imbalances and promoting social justice.

#### Apply knowledge to a lifetime of action

Personal practice: Students will understand how sustainability impacts their lives and can assess how their actions impact sustainability at personal, institutional, and societal levels.

Professional practice: All students will, regardless of major, understand how their professional work contributes to sustainable communities, and can apply disciplinary and other forms of knowledge to contribute to sustainable solutions.

Interpersonal practice: Students will learn how to collaborate across disciplines and across stakeholder groups to jointly determine project goals, create knowledge, and develop solutions to sustainability challenges.

## Sustainability Dual Major

<https://sustainableunh.unh.edu/sdm>

## Description

Students from any UNH college or major can pair the sustainability dual major with their first major. From local to global, you'll learn to analyze, evaluate, and create new ideas and models around sustainability. As a cross-disciplinary and applied field of study and practice, you'll make connections across issues of science and ethics, policy and technology, and culture and history to better understand and take action on pressing issues of our time. Solving real-life problems requires the skills and perspectives of people from multiple disciplines and backgrounds. A sustainability dual major provides the skills and knowledge needed to understand these systems, identify relevant environmental and social issues, and become agents of change in a complex world.

## Requirements

## Requirements

SUST consists of 32 credits, including core and elective courses, and a capstone experience.

Code	Title	Credits
Complete the following SUST courses (in order):		
SUST 401	Exploring Sustainability	4
SUST 501	Sustainability in Action	4
SUST 750	Sustainability Capstone	4
Select 20 credits of elective courses <sup>1</sup>		20
<b>Total Credits</b>		<b>32</b>

<sup>1</sup> All SUST majors will take at least one (1) elective course from the natural & biological sciences list and at least one (1) elective course from the social science and humanities list.

## Approved Electives

Code	Title	Credits
<b>Natural Biological Systems</b>		
BIOL 541	Ecology	4
CEE 520	Environmental Pollution and Protection: A Global Context	4
CEE 705	Introduction to Sustainable Engineering	3
CEE 706	Environmental Life Cycle Assessment	3
CEE 719	Green Building Design	3
ECOG 401	Introduction to Ecogastronomy	4
ESCI 405	Global Environmental Change	4
ESCI 765	Paleoclimatology	3
GEOG 572	Geography of the Natural Environment	4
HLS 580	Environmental and Human Security	4
MARI 705	Introduction to Marine Policy: Understanding US Ocean, Coastal and Great Lakes Policy	3
MEFB 702	Sustainable Marine Fisheries	4
MEFB 772	Fisheries Biology: Conservation and Management	4
NR 435	Contemporary Conservation Issues and Environmental Awareness	4
NR 502	Forest Ecosystems and Environmental Change	4
NR 507	Introduction to our Energy System and Sustainable Energy	4
NR 650	Principles of Conservation Biology	4
NR 703	Watershed Water Quality Management	4
NR 785	Systems Thinking for Sustainable Solutions	4
NUTR 595	Mediterranean Diet and Culture	4
NUTR 730	From Seed to Sea: Examining Sustainable Food Systems	4
SAFS 405	Sustainable Agriculture and Food Production	4
SAFS 410	A Taste of the Tropics	4
SAFS 502	Agroecology	4
SAFS 510	Agriculture and Development in the Neotropics	4
SAFS 632	Urban Agriculture	4
SUST 600	Sustainability Independent Study	1-4
SUST 605	Sustainability Internship	1-4
<b>Social Systems &amp; Humanities</b>		
ADMN 444	Business for People, Planet, and Profits	4
ANTH 695	Globalization and Global Population Health	4
CLAS 540A	Environment, Technology and Ancient Society: Sustaining Ancient Rome Ecology and Empire	4
ECON 633	Microfinance	4
ECON 706	Economics of Climate Change	4
ENGL 521	Nature Writers	4
ENGL 736	Environmental Theory	4
ENGL 787	English Major Seminar	4
EREC 444	The New Pirates of the Caribbean	4
EREC 572	Introduction to Natural Resource Economics	4
EREC 760	Ecological-Economic Modeling for Decision Making	4
FIN 620	Topics in Finance I	2-4
Impact Finance		

GEOG 405	There Is No Planet B	4
GEOG 590	Field Research	4
GEOG 673	Political Ecology	4
GEOG 685	Population and Development	4
HMP 501	Epidemiology and Community Medicine	4
HMP 715	Environmental Health	4
INCO 505A	Semester in the City Becoming a Problem Solver	4
INCO 505B	Social Innovator's Toolbox	4
INCO 505I	Semester in the City: Boston and SITC @ UNH Internship	8
NAIS 400	Introduction to Native American and Indigenous Studies	4
NR 602	Natural Resources and Environmental Policy	4
NR 643	Economics of Forestry	4
NR #701	Ecological Sustainability and Values	4
NR 720	International Environmental Politics and Policies for the 21st Century	4
NR 724	Resolving Environmental Conflicts	4
NR 784	Sustainable Living - Global Perspectives	4
NR 787	Advanced Topics in Sustainable Energy	4
PHIL 431	Business Ethics	4
PHIL 450	Environmental Ethics	4

SOC 565	Environment and Society	4
SOC 665	Environmental Sociology	4
SOC 730	Communities and the Environment	4
SUST 600	Sustainability Independent Study	1-4
SUST 605	Sustainability Internship	1-4
TOUR 767	Social Impact Assessment	4
WS 505	Survey in Women's Studies	4
WS 798	Colloquium	4
SUST #401A	Surveying Sustainability	2
SUST #401B	Surveying Sustainability Lab	2

## Student Learning Outcomes

### • Comprehend grand challenges

Students gain knowledge of the fundamental aspects of complex sustainability challenges.

### • Think in systems

Students have an ability to analyze and synthesize the interconnections among environmental, social, and economic aspects of complex systems, as well as how problems manifest at different scales (local to global) and at different times (connections between past, present, and future).

### • Advocate for values

Students can identify, assess, respect, and navigate the diverse values, interests, and types of knowledge inherent in sustainability challenges, while simultaneously addressing power imbalances and promoting social justice.

### • Apply knowledge to a lifetime of action

*Personal practice: Students understand how sustainability impacts their lives and can assess how their actions impact sustainability at personal, institutional, and societal levels.*

*Professional practice: All students, regardless of major, understand how their professional work contributes to sustainable communities, can apply disciplinary and other forms of knowledge and skills to contribute to sustainable solutions.*

*Collaborative practice: Students learn how to collaborate across disciplines and across sectors to jointly determine project goals,*

*create knowledge, and develop innovative and effective solutions to sustainability challenges.*

## Thompson School of Applied Science
