

# TABLE OF CONTENTS

Undergraduate Academic Catalog .....	13	Military Accommodations .....	35
Academic Calendar 2023/2024 .....	13	Minors .....	36
Academic Policies and Procedures .....	15	Mutually Exclusive Courses .....	36
Academic Integrity .....	16	Pass/Fail Grading .....	36
Academic Petitions .....	16	Prerequisites .....	37
Academic Standing & Exclusion, Suspension or Dismissal .....	16	Prior Learning Assessment (PLA) .....	37
Accelerated Master's .....	17	Progress Reports .....	38
Adding Courses .....	17	Registration .....	38
Attendance .....	17	Repeated Courses .....	38
Auditing Courses .....	17	Residence Requirement .....	39
Change of College .....	17	Second (Double) Major .....	39
Change of Major .....	18	Student Designed Majors .....	39
Class Level .....	18	Study Away Eligibility .....	39
Cognate .....	18	Thompson School of Applied Science Courses .....	40
Commencement .....	18	Transcripts .....	40
Communications .....	18	Transfer Credit .....	40
Core Curriculums .....	18	Variable Credit .....	40
Corequisite .....	18	Withdrawal from the University .....	40
Course Numbering System .....	18	Writing Program & Requirements .....	41
Credit Hour Policy .....	19	General Information .....	48
Credit Load .....	19	Academic and Support Services .....	50
Cross Campus Registration .....	19	Accreditation .....	53
Degree Evaluation .....	19	Admissions .....	53
Degrees & Requirements .....	19	Fees and Expenses .....	56
Discovery Program & Requirements .....	20	Financial Aid .....	59
Dropping & Withdrawal from Course .....	30	Health & Wellness .....	60
Dual Degrees .....	30	Library .....	61
Dual Majors .....	30	College of Engineering and Physical Sciences .....	61
Educational Reprieve .....	30	Programs of Study .....	64
Enrollment Status .....	30	Chemical Engineering & Bioengineering .....	64
Enrollment Verification .....	31	Bioengineering Major (B.S.) .....	65
Equivalent Courses .....	31	Chemical Engineering Major (B.S.) .....	67
Examinations .....	31	Chemical Engineering Major: Bioengineering Option (B.S.) .....	69
Foreign Language Requirement .....	31	Chemical Engineering Major: Energy Option (B.S.) .....	70
General Education Program & Requirements .....	32	Chemical Engineering Major: Environmental Engineering Option (B.S.) .....	71
Grades .....	33	Chemistry .....	72
Graduation Certification .....	34	Chemistry Major (B.A.) .....	72
Honors .....	35	Chemistry Major (B.S.) .....	74
Leave of Absence .....	35	Chemistry Minor .....	76
Majors and Options .....	35	Civil and Environmental Engineering .....	76

Civil Engineering Major (B.S.) .....	77	Applied Mathematics Major: Dynamics and Control Option (B.S.) .....	120
Environmental Engineering Major (B.S.) .....	80	Applied Mathematics Major: Economics Option (B.S.) .....	122
Environmental Engineering Minor .....	83	Applied Mathematics Major: Fluid Dynamics Option (B.S.) .....	123
Computer Science .....	83	Applied Mathematics Major: Solid Mechanics and Vibrations Option (B.S.) .....	124
Analytics and Data Science Major: Analytics Option (B.S.) .....	83	Math Education Major: Elementary/Middle School Education K-8 Option (B.S.) .....	126
Analytics and Data Science Major: Data Science Option (B.S.) .....	84	Mathematics Education Major: Secondary Education Option (B.S.) .....	128
Analytics Minor .....	86	Mathematics Major (B.A.) .....	129
Computer Programming Cognate .....	86	Mathematics Major (B.S.) .....	130
Computer Science Major (B.S.) .....	86	Statistics Major (B.S.) .....	132
Computer Science Major: Algorithms Option (B.A.) .....	89	Applied Mathematics Minor .....	133
Computer Science Major: Cybersecurity Option (B.A.) .....	90	Mathematics Minor .....	133
Computer Science Major: Systems Option (B.A.) .....	90	Statistics Minor .....	134
Computer Science Minor .....	91	Mechanical Engineering .....	134
Data Science Minor .....	92	Mechanical Engineering Major (B.S.) .....	135
Information Technology Cognate .....	92	Mechanical Engineering Minor .....	138
Information Technology Major (B.S.) .....	93	Ocean Engineering .....	138
Information Technology Minor .....	94	Ocean Engineering Major (B.S.) .....	138
Earth Sciences .....	95	Ocean Engineering Minor .....	141
Earth Sciences Major (B.A.) .....	95	Physics and Astronomy .....	141
Earth Sciences Major (B.S.) .....	97	Engineering Physics Major (B.S.) .....	141
Earth Sciences Minor .....	101	Physics Major (B.A.) .....	144
Environmental Sciences Major: Geosystems Option (B.S.) .....	101	Physics Major (B.S.) .....	145
Environmental Sciences Major: Hydrology Option (B.S.) .....	104	Astronomy Minor .....	147
Oceanography Minor .....	106	Physics Minor .....	147
Electrical and Computer Engineering .....	107	College of Health and Human Services .....	148
Computer Engineering Major (B.S.) .....	108	Programs of Study .....	149
Computer Engineering Major: Biomedical Engineering Option (B.S.) .....	110	Applied Human Anatomy and Physiology .....	149
Electrical Engineering Major (B.S.) .....	112	Applied Human Anatomy and Physiology Minor .....	149
Electrical Engineering Major: Biomedical Engineering Option (B.S.) .....	114	Coaching .....	149
Electrical and Computer Engineering Minor .....	115	Coaching Minor .....	149
Environmental Sciences .....	116	Communication Sciences and Disorders (COMM) .....	150
Materials Science .....	116	Communication Sciences and Disorders Major (B.S.) .....	150
Materials Science Minor .....	116	Exercise Science .....	151
Mathematics and Statistics .....	117	Exercise Science Major (B.S.) .....	151
Applied Mathematics Major (B.S.) .....	117	Health and Physical Education .....	153
Applied Mathematics Major: Computation Option (B.S.) .....	119	Health and Physical Education Major (B.S.) .....	153
		Interdisciplinary Health Minor .....	155

Lifetime Activity Programming and Leadership Minor .....	155	American Studies (AMST) .....	187
Physical Education Teaching Minor .....	155	American Studies Minor .....	187
Health Management and Policy (HMP) .....	155	Anthropology (ANTH) .....	188
Health Management and Policy Major (B.S.) .....	156	Anthropology Major (B.A.) .....	188
Health Management Minor .....	158	Anthropology Minor .....	190
Public Health Minor .....	158	Arabic (ARBC) .....	190
Health Sciences .....	159	Arabic Minor .....	190
Health Sciences Major (B.S.) .....	159	Art and Art History (ARTS) .....	190
Human Development and Family Studies (HDFS) .....	160	Arts Major: Art History Option (B.A.) .....	191
Human Development and Family Studies Major (B.S.) .....	161	Arts Major: Studio Art Option (B.A.) .....	192
Adolescent and Youth Development Minor .....	164	Arts Major: Studio Art/Art Education Option (B.A.) ....	193
Child Life Minor .....	165	Fine Arts Major (B.F.A.) .....	194
Human Development and Family Studies Minor .....	165	Architectural Studies Minor .....	196
Kinesiology (KIN) .....	165	Art History Minor .....	196
Kinesiology Minor .....	166	Art Minor .....	196
Nursing (NURS) .....	166	Design Studies Minor .....	196
Nursing Major (B.S.) .....	166	Studio Arts Minor .....	197
Occupational Therapy (OT) .....	169	Asian Studies .....	197
Disability Studies Minor .....	169	Asian Studies Minor .....	197
Occupational Therapy Major (B.S.) .....	170	Chinese (CHIN) .....	198
Recreation Management and Policy (RMP) .....	172	Chinese Minor .....	198
Recreation Management and Policy Major: Outdoor Leadership and Management Option (B.S.) .....	173	Cinema Studies .....	198
Recreation Management and Policy Major: Program and Event Management Option (B.S.) .....	174	Cinema Studies Minor .....	198
Recreation Management and Policy Major: Therapeutic Recreation Option (B.S.) .....	175	Classics (CLAS) .....	199
Adolescent and Youth Development Minor .....	176	Classics Major: Ancient Mediterranean Civilizations Option (B.A.) .....	199
Outdoor Adventure Recreation Minor .....	176	Classics Major: Classical Languages & Literatures Option (B.A.) .....	200
Recreation Management Minor .....	177	Classics Major: Latin & Latin Teaching Option (B.A.) .....	201
Social Work (SW) .....	177	Classics Minor .....	202
Social Work Major (B.S.) .....	178	Greek Minor .....	202
Social Work Minor .....	179	Latin Minor .....	202
Gerontology Multidisciplinary Minor .....	179	Cognates .....	203
Sport Management and Leadership .....	180	Art History, Design, and Computer Sciences Cognate .....	203
Sport Management and Leadership Major (B.S.) .....	180	Digital Writing and Literature Cognate .....	203
Sport Management Minor .....	182	Intercultural Communication for the Professional World Cognate .....	204
College of Liberal Arts .....	182	Medical Sociology Cognate .....	204
Programs of Study .....	186	Philosophy of Business, Innovation, & Technology Cognate .....	204
Africana and African American Studies (AFAM) .....	186	Political and Legal Philosophy Cognate .....	205
Africana and African American Studies Minor .....	186		

Skills and Perspectives for the Digital World Cognate .....	205	Homeland Security (HLS) .....	242
Studies in Fashion and Design Cognate .....	206	Humanities (HUMA) .....	242
Studies in the Design of Interior Space Cognate .....	206	Humanities Dual Major .....	243
Technical Writing and Public Speaking Cognate .....	207	Humanities Minor .....	243
Communication (CMN) .....	207	Italian Studies (ITAL) .....	244
Communication Major (B.A.) .....	208	Italian Studies Major (B.A.) .....	244
Communication Major: Business Applications Option (B.A.) .....	209	Italian Studies Minor .....	245
Communication Major: Media Practices Option (B.A.) .....	210	Justice Studies (JUST) .....	245
Communication Minor .....	212	Justice Studies Dual Major .....	246
Education (EDUC) .....	212	Justice Studies Minor .....	247
Education Four-Year, Undergraduate Options .....	213	Forensics Minor .....	247
Educational Studies Dual Major .....	214	Latin American, Latinx and Caribbean Studies .....	248
Educational Studies Major: Equity, Diversity & Inclusion (B.A.) .....	215	Latin American, Latinx and Caribbean Studies Minor .....	248
Education Minor .....	216	Linguistics (LING) .....	249
Special Education Minor .....	217	Linguistics Major (B.A.) .....	249
English (ENGL) .....	217	Linguistics Minor .....	250
English Literature Major (B.A.) .....	217	TESOL Minor .....	250
English Major (B.A.) .....	219	Medical Humanities, Society & Ethics .....	251
English Major: Text, Business Writing and Digital Studies Option (B.A.) .....	221	Medical Humanities, Society & Ethics Minor .....	251
English Major: Law 3+3 Option (B.A.) .....	222	Middle Eastern Studies .....	252
English Teaching Major (B.A.) .....	226	Middle Eastern Studies Minor .....	252
English/Journalism Major (B.A.) .....	228	Music (MUSI, MUED) .....	252
English Minor .....	229	Music Major: Composition Option (B.A.) .....	253
Writing Minor .....	230	Music Major: Music Liberal Studies Option (B.A.) .....	254
French (FREN) .....	230	Music Major: Performance Study Option (B.A.) .....	255
French Major (B.A.) .....	231	Composition Major (B.M.) .....	257
French Minor .....	232	Music Education Major (B.M.) .....	258
Geography (GEOG) .....	232	Performance Major (B.M.) .....	260
Geography Major (B.A.) .....	232	Pre-Teaching Major (B.M.) .....	262
Geography Minor .....	233	Music Minor .....	263
German (GERM) .....	234	Native American and Indigenous Studies (NAIS) .....	264
German Major (B.A.) .....	234	Native American and Indigenous Studies Minor .....	264
German Minor .....	236	Neuroscience and Behavior (NSB) .....	265
History (HIST) .....	236	Neuroscience and Behavior Major (B.S.) .....	265
History Major (B.A.) .....	236	Philosophy (PHIL) .....	267
History Major: Law 3+3 Option (B.A.) .....	238	Philosophy Major (B.A.) .....	268
History Minor .....	242	Philosophy Major: Business, Innovation & Technology Option (B.A.) .....	269
Social Studies of Science and Technology Minor .....	242	Philosophy Major: Ethics and Social Responsibility Option (B.A.) .....	271
		Philosophy Major: Political and Legal Philosophy Option (B.A.) .....	273

Philosophy Minor .....	274	Theatre Minor .....	307
Political Science & International Affairs (POLT/IA) .....	275	Youth Drama Minor .....	307
Global Studies Dual Major .....	275	Studies in Fashion and Design Cognate .....	206
Global Studies Minor .....	278	Studies in the Design of Interior Space Cognate .....	206
International Affairs Major (B.A.) .....	278	Women's and Gender Studies (WS) .....	308
International Security Minor .....	280	Women's and Gender Studies Major (B.A.) .....	308
Political Science Major (B.A.) .....	281	Social Justice Leadership Minor .....	310
Political Science Major: International Security Option (B.A.) .....	282	Women's and Gender Studies Minor .....	311
Political Science Minor .....	284	World Languages .....	311
Survey Research Minor .....	284	World Languages Dual Major .....	311
Psychology (PSYC) .....	284	College of Life Sciences and Agriculture .....	313
Psychology Major (B.A.) .....	285	Programs of Study .....	315
Psychology Minor .....	287	Agribusiness .....	315
Queer Studies .....	287	Agribusiness Minor .....	315
Queer Studies Minor .....	287	Animal Science (ANSC) .....	315
Race and Ethnic Studies (RES) .....	288	Animal Science Major (B.S.) .....	315
Race and Ethnic Studies Minor .....	288	Animal Science Major: Dairy Management Option (B.S.) .....	318
Religious Studies .....	289	Animal Science Major: Equine Studies Option (B.S.) .....	320
Religious Studies Minor .....	289	Animal Science Minor .....	323
Russian (RUSS) .....	289	Dairy Management Minor .....	323
Russian Major (B.A.) .....	289	Equine Assisted Activities and Therapies Minor .....	324
Russian Minor .....	290	Equine Studies Minor .....	324
Sociology (SOC) .....	291	Biochemistry, Molecular and Cellular Biology (BMCB) .....	325
Sociology Major (B.A.) .....	291	Biochemistry, Molecular and Cellular Biology Major (B.S.) .....	325
Sociology Minor .....	292	Biochemistry, Molecular and Cellular Biology Minor .....	328
Medical Sociology Cognate .....	204	Biology .....	328
Spanish (SPAN) .....	293	Biology Major (B.S.) .....	329
Spanish Major (B.A.) .....	294	Biology Minor .....	331
Spanish Minor .....	295	Plant Biology Minor .....	332
Theatre and Dance (THDA) .....	295	Biomedical Science (BMS) .....	332
Theatre Major (B.A.) .....	296	Biomedical Science Major: Medical and Veterinary Sciences Option (B.S.) .....	332
Theatre Major: Acting and Directing Option (B.A.) .....	297	Biomedical Science Major: Medical Laboratory Sciences Option (B.S.) .....	336
Theatre Major: Dance Option (B.A.) .....	298	Biomedical Science Major: Medical Microbiology Option (B.S.) .....	338
Theatre Major: Design & Theatre Technology Option (B.A.) .....	300	Biomedical Science Minor .....	341
Theatre Major: Musical Theatre Option (B.A.) .....	301	Community and Environmental Planning (CEP) .....	342
Theatre Major: Secondary Theatre Education Option (B.A.) .....	302	Community and Environmental Planning Major (B.S.) .....	342
Theatre Major: Youth Drama Option (B.A.) .....	304		
Arts Administration Minor .....	306		
Dance Minor .....	306		
Musical Theatre Minor .....	306		

Community Planning Minor .....	344	Sustainable Agriculture and Food Systems Major (B.A.) .....	379
Ecogastronomy .....	345	Sustainable Agriculture and Food Systems Major (B.S.) .....	381
Environmental and Resource Economics (EREC) .....	345	Brewing Minor .....	383
Environmental and Resource Economics Major (B.S.) .....	345	Horticulture Minor .....	383
Environmental and Resource Economics Minor .....	347	Sustainable Agriculture and Food Systems Minor .....	384
Environmental Conservation and Sustainability .....	348	Sustainable Energy .....	384
Environmental Conservation and Sustainability Major (B.S.) .....	348	Sustainable Energy Minor .....	384
Environmental Conservation and Sustainability Minor .....	351	Tourism Management .....	385
Environmental Sciences .....	351	Tourism Management Minor .....	385
Environmental Sciences Major: Ecosystems Option (B.S.) .....	352	Wildlife and Conservation Biology .....	386
Environmental Sciences Major: Soil and Watersheds Option (B.S.) .....	353	Wildlife and Conservation Biology Major (B.S.) .....	386
Forestry .....	355	Wildlife and Conservation Biology Minor .....	388
Forestry Major (B.S.F.) .....	355	Zoology (ZOOL) .....	388
Forestry Minor .....	357	Zoology Major (B.A.) .....	388
Genetics (GEN) .....	358	Zoology Major (B.S.) .....	390
Genetics Major (B.S.) .....	358	Zoology Minor .....	392
Genetics Major: Genomics Option (B.S.) .....	361	College of Professional Studies (CPS) .....	393
Genetics Minor .....	364	Manchester .....	394
GeoSpatial Analysis .....	365	Programs of Study .....	394
Geospatial Analysis Minor .....	365	Analytics and Data Science .....	394
Green Real Estate .....	365	Analytics and Data Science Major: Analytics Option (B.S.) Manchester .....	395
Green Real Estate Minor .....	365	Analytics and Data Science Major: Data Science Option (B.S.) Manchester .....	396
Marine, Estuarine, and Freshwater Biology (MEFB) .....	366	Analytics Minor (Manchester) .....	398
Marine, Estuarine and Freshwater Biology Major (B.S.) .....	366	Data Science Minor (Manchester) .....	398
Marine Biology Minor .....	368	ASL/English Interpreting .....	399
Neuroscience and Behavior (NSB) .....	369	American Sign Language and Deaf Studies Minor .....	399
Animal Behavior Minor .....	369	ASL/English Interpreting Major (B.S.) .....	399
Neuroscience and Behavior Major (B.S.) .....	370	Biological Sciences .....	401
Nutrition (NUTR) .....	371	Biological Sciences (A.S.) .....	402
Nutrition Major (B.S.) .....	372	Biological Sciences Major (B.A.) .....	403
Nutrition Major: Dietetics Option (B.S.) .....	372	Biological Sciences Minor .....	405
Nutrition Major: Nutrition and Wellness Option (B.S.) .....	375	Biotechnology .....	406
Nutrition Major: Nutritional Sciences Option (B.S.) .....	376	Biotechnology Major (B.S.) .....	406
Nutrition Minor .....	378	Biotechnology Minor .....	408
Culinary Nutrition and Food Studies Minor .....	378	Business .....	409
Sustainable Agriculture and Food Systems (SAFS) .....	379	Accounting Minor (Manchester) .....	409
		Business Administration (A.S.) .....	409
		Business Major (B.A.) .....	411

Business Major: Accounting Option (B.A.) .....	413	History Minor (Manchester) .....	445
Business Minor .....	415	Homeland Security Minor .....	445
Entrepreneurship Minor (Manchester) .....	415	National Security Intelligence Minor .....	446
Forensic Accounting Minor .....	416	Terrorism Studies Minor .....	446
Political Economy Minor .....	416	Humanities .....	447
Communication Arts .....	417	Humanities Major (B.A.) Manchester .....	447

# UNDERGRADUATE ACADEMIC CATALOG

*The Academic Catalog is intended to provide general information about the University of New Hampshire and program requirements. It is accurate at the time of publishing. The University reserves the right to change, modify, or correct any information contained herein without prior notice, at any time.*

*Degree and program requirements in the 2023/2024 Academic Catalog apply to students who enter the University between July 1, 2023 and June 30, 2024.*

## UNH Affirmative Action and Equity Statement

We are a public institution with a long-standing commitment to equal employment and educational opportunity for all qualified persons. We do not discriminate on the basis of race, color, religion, sex, age, national origin, sexual orientation, gender identity or expression, disability, veteran status, marital status, genetic information, pregnancy, or political orientation. This applies to admission to, access to, treatment within, or employment in UNH programs or activities. Sexual harassment and sexual violence are types of sex discrimination. Inquiries regarding discriminatory harassment (including sexual harassment or violence) should be directed to Nadine Petty, Associate Vice President and Chief Diversity Officer, Division of Diversity, Equity and Inclusion, Room 305, Thompson Hall, 105 Main Street, Durham, N.H. 03824, [Nadine.Petty@unh.edu](mailto:Nadine.Petty@unh.edu) ([nadine.petty@unh.edu](mailto:nadine.petty@unh.edu)), phone (603) 862-2930 (voice), 7-1-1 (Relay NH), (603) 862-2936 (fax); or to the Office for Civil Rights, U.S. Department of Education, 8th Floor, 5 Post Office Square, Boston, MA 02109-3921, phone (617) 289-0111, fax (617) 289-0150, e-mail [OCR.Boston@ed.gov](mailto:OCR.Boston@ed.gov).

See the [UNH Discrimination and Discriminatory Harassment Policy](#) and [Student Code of Conduct & Student Rights, Rules, and Responsibilities](#) for information about the resolution of complaints under UNH policy. Further information may be obtained at the Civil Rights and Equity Office or via e-mail [unh.civilrights@unh.edu](mailto:unh.civilrights@unh.edu).

## About the Catalog

The University provides information pertaining to the Family Educational Rights and Privacy Act of 1974 (the "Buckley Amendment") in the annual student publication, [Student Rights, Rules, and Responsibilities](#). Information is also available from the office of the Senior Vice Provost for Student Life and Dean of Students. The annual student publication, [Student Rights, Rules, and Responsibilities](#), also contains University regulations and policies regarding student conduct.

The University will supply information about the employment of its graduates who have graduated from our degree and/or certificate programs. This information may be obtained upon request from the University's office of Career and Professional Success and is available by university, college, or school to current and prospective students. Information on employment outcomes depends on student self-reporting. The University does not guarantee employment to its graduates. Chances for employment are enhanced if students have begun career planning early in their degree programs.

Program descriptions may vary from the actual content or requirements because of advancements in the discipline or the active nature of academic planning and decision making. Accordingly, the University

reserves the right to make whatever changes are deemed necessary in schedules, course content, requirements, academic programs (including their termination), calendar, tuition and fees, services, or any other aspect of the University's operations, giving whatever notice thereof is reasonable under the circumstances. Therefore, the provisions of this catalog are not an irrevocable contract between the students and the University. The University is also not responsible for failure to provide or for delay in providing expected services and/or facilities when such failure arises from causes beyond the reasonable control of the University.

## Academic Calendar 2023/2024 Fall

Full Semester	August 28
Classes Begin	
Term 1 Classes Begin	August 28
Labor Day, University Holiday	September 4
Mid-Semester Break; no classes	October 9
Mid-Semester	October 13
Term 1 Last Day of Classes	October 20
Term 2 Classes Begin	October 30
Election Day - no exams scheduled	November 7
Classes follow Friday schedule	November 7
Veteran's Day, University holiday	November 10
Thanksgiving holiday	November 22-24
Classes resume	November 27
Full Semester	December 11
Last day of classes	
Reading day, final exams begin at 6:00 p.m.	December 12
Final Exams end	December 19
Term 2 Last Day of Classes	December 22

## January Term

Online classes begin	December 27
New Year's Day; University Holiday	January 1
On campus classes begin	January 2

Martin Luther King, Jr. Day; University Holiday	January 15
---	------------

Last day of classes	January 19

## V

- [Variable Credit](#) (p. 40)

## W

- [Withdrawal from the University](#) (p. 40)
- [Writing Program & Requirements](#) (p. 41)

## Academic Integrity

Academic integrity is a core value at the University of New Hampshire. The members of its academic community both require and expect one another to conduct themselves with integrity. This means that each member will adhere to the principles and rules of the University and pursue academic work in a straightforward and truthful manner, free from deception or fraud. The policy can be found in the annual publication of the [Student Rights, Rules, and Responsibilities](#).

## Academic Petitions

Waivers or variances of academic policies and procedures are rare and made for documented, compelling, non-academic reasons. Requests are considered through a petition process (e.g., a suspension, extension of incomplete, curriculum requirements, etc.)

## Academic Standing & Exclusion, Suspension or Dismissal

### Minimum Acceptable Level

A cumulative grade-point average of 2.00 is the minimum acceptable level for undergraduate coursework in the University and for graduation from the University.

The Academic Standards and Advising Committee or Associate Deans examine the records of students periodically and take academic actions to warn academically deficient or potentially deficient students, or may exclude, suspend, or dismiss those who are academically deficient.

### Academic Actions (Durham & Manchester Students)

#### Exclusion

Students whose academic progress is uncertain, as evidenced by a mixture of generally low grades, incomplete courses, and administrative failures, may, upon determination by the Academic Standards and Advising Committee or associate deans, be excluded from further attendance until such time as their academic standing can be clarified, usually by resolution of incomplete courses. In addition, exclusion may be necessary to resolve questions concerning major departmental requirements or University academic standards. Exclusion is a temporary action and will be changed to Degree Status Discontinued, suspension, or dismissal not later than mid-semester following the exclusion action unless the student resolves the situation. If exclusion is not promptly resolved, then the student's preregistration, registration, and University housing will be canceled.

#### Suspension

Students whose averages fall below the minimum required grade-point average for their class and/or who have demonstrated insufficient progress toward their degrees may be suspended. Students suspended from the University for academic reasons will not be readmitted as degree candidates until one regular UNH academic year semester (fall or spring) has elapsed from the time of suspension. Therefore, students will not be eligible to take courses in the regular session or through Continuing Education. In addition, students suspended in June may not enroll in any course in the Summer Session immediately following their suspension. Students on suspension for any reason will not earn transfer credit for courses taken while on suspension.

#### Dismissal

Students who have been suspended once and whose average remains substantially below the minimum grade-point average for their class and who continues to demonstrate insufficient progress toward their degree must be dismissed. Only under extraordinary circumstances will a student be readmitted after having been dismissed. However, students who are dismissed may take courses through Continuing Education after one regular UNH semester has elapsed.

#### Return after suspension or dismissal

Students who are suspended from the University and who wish to seek permission to return should request reactivation through the Office of the Registrar. When requesting reactivation, students must present reasons indicating that they can successfully resume college work. Suspension from the University shall be for not less than one semester. A second suspension is considered a dismissal. Only under extraordinary circumstances will a student be readmitted after having been dismissed for academic reasons.

### Academic Actions (College of Professional Studies-Online Students)

#### Academic Notification

A student who has completed at least 8 credits in a CPS-Online program and has a cumulative GPA below 2.0 is placed on academic notification.

#### Academic Warning

If a student who is on academic notification still has a cumulative GPA of less than 2.00 after 8 additional credits in a CPS-Online program (i.e., after earning a total of at least 16 graded credits at UNH), the student is placed on academic warning. A registration restriction is placed on the student's account and an academic success plan developed with their Academic Advisor is required to register for the next term.

#### Academic Probation

If a student who is on academic warning still has a cumulative GPA of less than 2.00 after earning an additional 8 credits in a CPS-Online program (i.e., after earning a total of at least 24 graded credits at UNH), the student is placed on academic probation. Again, a registration restriction is placed on the student's account and completion of an academic success plan with the respective Academic Advisor is required to register for the next term.

#### Academic Dismissal

If a student who is on academic probation still has a cumulative GPA of less than 2.00 after earning an additional 8 credits in a CPS-Online program (i.e., after earning a total of at least 32 graded credits at UNH), the student is academically dismissed from the College.

In most cases it is advisable for the student to [repeat a course](#) (p. 38) when a failing grade is earned.

#### Rescinding an Academic Standing Level

An academic standing level (i.e. academic warning) is in effect until it is rescinded or elevated to the point where the student is academically dismissed. The college rescinds the academic standing level in writing when the student's GPA returns to the good academic standing level. The Dean academically dismisses the student if the student's GPA does not return to a satisfactory level within the next 32 graded credits for the student.

## Accelerated Master's

Qualified senior students at the University of New Hampshire may be admitted to the Graduate School provided they have followed normal application procedures. Students in the accelerated master's program must be admitted to the Graduate School before they may enroll in courses for graduate or dual credit. A 3.20 cumulative grade-point average is normally required to be considered for admission to the accelerated master's program.

Such seniors are normally admitted prior to the start of their last undergraduate semester, but may be eligible to apply for admission the first semester of their senior year. Seniors who have been admitted under early admission may register for a maximum of 12 credits of graduate-level courses prior to completing their bachelor's degree. Such courses may upon recommendation of the department and approval of the Graduate School count toward both a bachelor's and master's degree.

When seniors admitted to the accelerated master's program have registered for graduate courses, they must maintain a grade-point average of 3.20, complete their undergraduate degree as planned, and pass graduate courses taken for credit with a grade of B- or better. If these conditions are not met, admission is withdrawn.

Not all graduate programs participate; each program's faculty retain discretion regarding whether their program admits students under the accelerated master's program, as well as the maximum number of graduate credits permitted (not exceeding 12; e.g., some programs will accept one course, others two). Applicants are strongly encouraged to meet with the graduate coordinator in the program's faculty to discuss specifics. Graduate course credit (800 level) form must be completed and approved at the beginning of the semester for which graduate credit is sought.

Accelerated Master's eligible programs

## Adding Courses

Students may add a course to their schedule through the end of the add period. The addition may be made in Webcat. Some courses may be restricted or require permission, in which case students should consult with their advisor or the department, on feasibility and process to add that course. A student may add a course after the add deadline only for compelling reasons, which must be presented in a petition for variance in academic policy signed by the course instructor and approved by the student's advisor and the student's academic dean or their designee.

All registration deadlines can be found on UNH's master academic calendar.

## Attendance

### General Policy

Students are expected to accept the responsibility for satisfactory attendance in each course for which they are registered. What constitutes satisfactory attendance shall be determined in each course by the instructor within the framework of rules below.

### Absences from examination and laboratory periods

Any student who is absent without excuse from an announced test, quiz, examination, or laboratory period may, at the discretion of the instructor, be penalized for such absence or be allowed to make up the work missed.

### Excused absences

The designation of excused absences and the assignment of any subsequent makeup work are the prerogative of the course instructor. It is expected that instructors will be reasonable in the exercise of this prerogative. In general, students may be excused for reasons such as (a) ill health, (b) participation in official intercollegiate events, (c) personal emergencies (d) instructional trips (e) jury duty (f) required military service and (g) important religious holidays and/or observances as discussed with the instructor, and they will then not be subject to academic penalty.

### Absence on voting day

In order that UNH students may fully exercise their constitutional right to vote in New Hampshire state and federal elections, no examinations will be scheduled on the first Tuesday of November, and such should be designated in the University calendars. Opportunities for makeup of other scheduled exercises on those days should be provided where necessary. Faculty are requested to cooperate to the fullest extent with students from communities scheduling elections at other times.

### Excessive absences

When students absent themselves from class to such extent that their own progress or that of the class or group is seriously impaired, they will be reported to the dean of their college by their instructor. When reports are received by a college dean, the dean will consider each student's class standing, academic record, and other pertinent factors; the dean may then a.) warn the student against continued absences by letter or by interview, b.) place the student on scholastic warning or c.) report the student to the Academic Standards and Advising Committee for a decision as to whether the student shall continue in the University.

## Auditing Courses

Any student of the University may, with the approval of their advisor and the continuing consent of the instructor, audit courses at the University.

- The deadline for designating a registered course to audit is the last day to drop without academic liability.
- The instructor will determine requirements for attendance, participation, and any written work.
- Audits appear on the academic record with a grade notation of 'AU'; no credits are earned.
- Students who do not meet the criteria set by the instructor will be dropped from the course.
- Subsequent requests for change to audit will be by petition for variance in academic policy signed by the course instructor and approved by the student's advisor and the student's academic dean or their designee.
- Tuition varies for audit courses; see Fees and Expenses for details.
- To request designation of a course to audit complete an Audit Course Form.

## Change of College

An undergraduate degree candidate may change from one college in the University to another only with the approval of the academic deans and departments of the colleges involved by submitting a request through the online change of major process or by submitting a change of campus request. This change must be approved by the academic department of the major to which the student wishes to transfer. Degree candidates

in undergraduate online programs and any associate degree candidate must apply through the Office of Admissions to change colleges.

## Change of Major

Students may change their curriculum or major to another within the same college by submitting a request through the [online change of major](#) process. This change must be approved by the academic department of the major to which the student wishes to transfer.

Students with dual majors must maintain a 2.5 grade point average to continue as dual majors.

Degree candidates in undergraduate online programs must initiate a change of major with their academic advisor.

## Class Level

University of New Hampshire undergraduate degree candidates are assigned class levels on the basis of credit hours of academic work completed with a passing grade as follows:

### Baccalaureate Degree Candidates:

- Freshman 0-25 credit hours
- Sophomore 26-57 credit hours
- Junior 58-89 credit hours
- Senior 90+ credit hours

### Associate Degree Candidates:

- Freshman 0-25 credit hours
- Senior Associate's 26+ credit hours

## Cognate

A cognate is a coherent set of courses in a discipline or interdisciplinary grouping aimed at enhancing career-oriented skills in high demand in the employment market. A cognate will typically consist of 12 or more credits with C or better and a 2.00 grade-point average in courses in the cognate.

[Cognate Programs](#)

## Commencement

Commencement refers to the formal annual event ceremony held in May. Commencement is organized by [University Ceremonies and Events](#). Walking in the Commencement ceremony does not mean your degree has been officially conferred.<sup>1</sup>

### Eligibility to Participate

- Must be within 8 credits of completing degree requirements. *If not within 8 credits, students may petition their college dean for permission to participate.*
- Must have [applied to graduate](#) for May, or the following September or December.
- Previous September and December graduates will be invited to participate by the Commencement office.

### Register to Participate

Students must [register to participate in Commencement](#) after [applying to graduate](#) with the Office of the Registrar.

All details and information is available from [University Ceremonies and Events](#).

<sup>1</sup>Degree Conferral refers to the official academic action processed by the Office of the Registrar after graduation certification confirming the successful completion of all degree requirements.

## Communications

### Communication to Students

University communications are sent to students through the following channels:

#### WEBCAT

Students receive billing statements, register, and view grades, student accounts, and financial aid awards through Webcat, a part of MyUNH.

#### UNIVERSITY E-MAIL

Important notifications are sent to students by many departments and offices via a UNH e-mail address that is assigned by the University. Students are responsible for checking this e-mail address on a regular basis.

#### MYUNH

Course material and University announcements are available through MyUNH, a student portal system.

#### MAIL TO PERMANENT ADDRESS

Some notifications are sent in the student's name to the permanent mailing address.

## Core Curriculums

[Discovery Program & Requirements](#) (p. 20)

[General Education Program & Requirements](#) (p. 32)

[Writing Program & Requirements](#) (p. 41)

## Corequisite

Corequisites are courses that must be taken together in the same semester/term.

## Course Numbering System

The University of New Hampshire's system of numeric designation is as follows:

- **200–299** Historical courses in Thompson School of Applied Science.
- **300–399** Reflected in Aerospace Studies (AERO) courses.
- **400–499** Introductory courses generally not carrying prerequisites and courses generally falling within University and college requirements.
- **500–599** Intermediate-level courses for undergraduate credit only.
- **600–699** Advanced-level undergraduate courses. Entrance to courses numbered 600 and above normally requires junior standing.

- **700–799** Advanced-level undergraduate courses. Ordinarily not open to freshmen and sophomores.
- **800–999** Courses that carry graduate credit only and therefore are open only to admitted or special graduate students.

## Credit Hour Policy

### Credit Hour Policy

The University of New Hampshire is in compliance with the federal definition of credit hour. For each credit hour, the University requires, at a minimum, the equivalent of three hours of student academic work each week assuming a 15-week semester (student workload for shorter length terms must be increased proportionally per week to maintain required approximately 45 hours of work per credit per term). Academic work includes, but is not limited to, direct faculty instruction, e-learning, recitation, laboratory work, studio work, fieldwork, performance, internships, and practica. Additional academic activities include, but are not limited to, readings, reflections, essays, reports, inquiry, problem solving, rehearsal, collaborations, theses, and electronic interactions. Student work reflects intended learning outcomes and is verified through evidence of student achievement.

## Credit Load

### Fall and Spring semesters

Undergraduate degree students may enroll for a maximum of 20 credits.

Students who wish to exceed 20 credits must petition their college dean and are subject to a [tuition overload surcharge](#) (p. 56).

Undergraduate degree student registration is limited to a maximum of 18 credits during the [priority registration period](#) (p. 38), except in majors requiring more than 18 credits. Students should consult with their academic advisor. Continuing students may add additional courses to register up to a maximum of 20 credits the Tuesday before classes begin. Minimum GPAs are required as follows PAUL 3.0, all other colleges 2.0.

Part-Time Students (enrolled in less than 12 credits): undergraduate degree students may attend on a part-time basis. No special permission is required, it is not necessary to withdraw or register through Continuing Education. Students must contact [Student Accounts](#) regarding billing adjustments.

### Summer Session

Undergraduate students may enroll for a maximum of 12 credits.

Students who wish to exceed 12 credits in the Summer must petition their college dean.

### January Term

All students are limited to registering for one course and a maximum of 4 credits. Exception: Students may register for more than one course provided the courses DO NOT meet concurrently and the total credits do not exceed the 4 credit maximum.

## Cross Campus Registration

Eligibility of undergraduate students to register for courses offered by a UNH campus other than the students affiliated campus follows the general rules below.

## General Rules

### • **Durham Students**

- May enroll in courses offered by the College of Professional Studies (CPS) Manchester campus.
- May not enroll in courses offered by the College of Professional Studies (CPS) Online campus.

### • **College of Professional Studies (CPS) - Manchester Students**

- May enroll in courses offered by the Durham campus.
- May enroll in courses offered by the CPS Online campus.

### • **College of Professional Studies (CPS) - Online Students**

- May enroll in courses offered by the CPS Manchester campus.
- May not enroll in courses offered by the Durham campus.

## Notes

- Affiliated campus is designated by the campus of the students primary major.
- Students should consult with their academic advisor to determine courses appropriate for cross campus registration.
- Cross campus registration is limited by space availability in courses.
- Courses may have additional campus, college, or major restrictions or require special permission to register.
- A comprehensive [schedule of course offerings](#) is published online and includes information about any additional registration restrictions.

## Degree Evaluation

[Degree Works](#) is the degree evaluation and audit tool available to students, faculty and advisors to view progress toward degree completion. It assists in planning coursework and includes a “what-if” feature to evaluate an academic record against other UNH majors when considering a change.

It is a student’s responsibility to monitor degree progress and ensure all requirements are met.

## Degrees & Requirements

*Requirements in this catalog apply to students who enter the University between July 1, 2023 and June 30, 2024.*

## Student Responsibility

A student is held responsible for all work required for graduation and for the scheduling of all the necessary courses. Either faculty or PAT (Professional, Administrative, and Technical) staff members may serve as academic advisors depending on departmental procedures. Academic advisors typically help students both schedule classes that meet university and departmental requirements and monitor their progress throughout their academic career. Either academic advisors or other staff of the associated department/college may assist students in various ways, for example to learn of internships and post-graduation opportunities, and they may direct students to relevant support services when appropriate.

## Academic Catalog Year

Students must follow the rules and policies of the academic catalog in effect at the time of their admission into a degree program for all University requirements. Students follow the major

requirements that are in effect during the academic catalog year the student entered the major program. A student may petition the academic department and dean's office to follow a prior or, if applicable, future set of major requirements. The student's Core Curriculum, Writing Program, and other graduation requirements remain in effect from the academic catalog year of matriculation. The Office of the Registrar will use the approved petition to update the student's major or core academic catalog year.

## Associate Degrees

- Associate in Applied Science (AAS)
- Associate in Arts (AA)
- Associate in Science (AS)

In addition to the particular requirements for specific degrees and the major, all candidates for an associate's degree must obtain a passing grade in a minimum of 60 or 64 credits as indicated in the program degree requirements in courses numbered 400-799, must maintain a cumulative grade-point average of at least 2.00 for all courses taken at the University in which a grade is given, and must successfully meet the designated core curriculum (Discovery or General Education Program), and residence requirements as indicated in the degree requirements for the program.

## Baccalaureate Degrees

- Bachelor of Arts (BA)
- Bachelor of Fine Arts (BFA)
- Bachelor of Music (BM)
- Bachelor of Science (BS)

In addition to the particular requirements for specific degrees and the major, all candidates for a bachelor's degree must obtain a passing grade in a minimum of 120 or 128 credits as indicated in the program degree requirements in courses numbered 400-799, must maintain a cumulative grade-point average of at least 2.00 for all courses taken at the University in which a grade is given, and must successfully meet the designated core curriculum (Discovery or General Education Program), writing program, foreign language (required for Bachelor of Arts) and residence requirements as indicated in the degree requirements for the program.

## Discovery Program & Requirements

### UNH Durham and Manchester Undergraduate Degree Programs

The Discovery Program provides the intellectual framework for students in any major. It represents the faculty's collective belief in what constitutes and contributes to essential knowledge of the world. Together, students and faculty attempt to understand fully and use ethically that knowledge, both in the present and as a reservoir from which to draw in the future. These intellectual skills, knowledge, and ethical grounding will help prepare students to contribute to the creation of a more sustainable, healthy, just, and prosperous world.

*"He who learns but does not think is lost. He who thinks but does not learn is in great danger." Confucius.*

### Discovery Program Student Learning Outcomes

After completing the Discovery Program at UNH, students should be able to:

1. Communicate effectively by applying skills in reading, writing, speaking, and listening.
2. Acquire and use information appropriately and effectively to research, organize, and present knowledge.
3. Apply mathematical concepts and/or statistical models to understand phenomena and/or solve problems in multiple contexts.
4. Formulate and evaluate open-ended questions that lead to empirical/researchable investigations of complex problems and issues.
5. Analyze and synthesize ideas and perspectives from diverse traditions from around the world.
6. Analyze and synthesize ideas and perspectives from more than one academic or intellectual discipline.
7. Clarify connections between their academic learning and their own ethical values.
8. Demonstrate the integration of learning they have achieved in their major field of study.
9. Exercise imagination in grappling with complex problems of both the natural and human created worlds, and understand the centrality of imagination to all human endeavors.
10. Make connections among the various branches of human knowledge and endeavor.

## Discovery Program Requirements

### Discovery Foundation Skills

Inquiry course. This course may fulfill a Discovery category and/or a departmental requirement. It should be taken during a student's first or second year or prior to completion of 57 credits. For students who transfer in with 26 or more credits, the Inquiry requirement is waived automatically.

One course in writing skills. Most students will satisfy the first-year writing requirement with ENGL 401 First-Year Writing. This course should be taken during a student's first year or prior to completion of 32 credits.

One course in quantitative reasoning. This course is normally completed by the end of the first year or 32 credits.

### Discovery in the Disciplines

Students must take one course from each Discovery category at the 400-600 levels. Inquiry courses that carry Discovery category designations may be used to satisfy this requirement.

- One course in Biological Science (BS);<sup>1</sup>
- One course in Physical Science (PS);<sup>1</sup>
- One course in Environment, Technology, and Society (ETS);
- One course in Fine and Performing Arts (FPA);
- One course in Historical Perspectives (HP);
- One course in Humanities (HUMA);
- One course in Social Science (SS); and
- One course in World Cultures (WC) (also may be satisfied by approved study abroad programs).

<sup>1</sup> One of these courses must have a Discovery lab component (DLab).

## Discovery and Integrative Understanding

One senior capstone experience, supervised and approved within the major.

The capstone experience is typically completed by senior students within the major and is designed to elicit opportunities for educational reflection and synthesis of knowledge and skills; however, students who have completed 90 credits at the end of their junior year may complete their capstone during the summer prior to their senior year. The capstone may be met with an approved experience (as described below). It is not necessarily a course.

Suggested ways of meeting capstone may include: McNair research theses, Hamel Center Programs (IROP, SURF USA, SURF Abroad, URA, INCO 790 Advanced Research Experience), and senior honors theses. Examples of capstone experiences include courses, projects, independent research, internships, artistic expression, or community and service learning opportunities.

### **The senior capstone experience must meet one or more of the following criteria:**

The capstone synthesizes and applies disciplinary knowledge and skills. The capstone fosters reflection on undergraduate learning and experience. The capstone demonstrates emerging professional competencies. The capstone applies, analyzes, and/or interprets research or data or artistic expression. The capstone explores areas of interest based on the integration of prior learning. The capstone requirement will vary across departments and colleges and may be satisfied through a course, thesis, created work or product, mentored research project, or some form of experiential learning (e.g., fieldwork). The capstone should occur during the student's senior year. Departments designate capstones as appropriate to their respective disciplines following the usual administrative procedures for their college or school. Departments are responsible for certifying that graduating seniors have met the capstone requirement for their majors.

### **Additional Information**

Discovery Program requirements shall not be waived on the basis of special examinations or placement tests, except for the College Board Advanced Placement tests and the College Level Examination Program (CLEP) tests. All students transferring to UNH in academic year 2019-20 will come in under Discovery Program requirements. For students who transfer in with 26 or more credits, the Inquiry requirement is waived automatically.

*Note to Faculty: Students may petition the Discovery Committee to replace a requirement. The student's petition must be approved by the student's major adviser and forwarded to the Dean of the student's college.*

The required courses cannot be taken on a pass/fail basis. No single course may be counted in more than one Discovery discipline category. Academic departments may or may not permit Discovery courses to count toward requirements for a major. TSAS courses may not be used for general-education (1984-2009), writing-intensive, or foreign language requirements. TSAS courses that are 400-600 level and Discovery-approved may count for Discovery requirements. All Discovery courses carry 3-4 credits.

The most current list of Discovery courses may be found on the [Registrar's Office](#) website.

## **Discovery Foundations**

### **Inquiry**

All Inquiry courses must contain four individually necessary and collectively sufficient features:

Inspire curiosity: an Inquiry student will compose open-ended questions that lead to further investigation into increasingly focused problems and issues. Develop understanding and perspective: an Inquiry student will explain a central issue or question of the course using at least two unique perspectives. Clarify standards of thinking: an Inquiry student will be able to identify, compare, and evaluate different interpretations (hypotheses, explanations) of a given phenomenon. Create effective communicators: an Inquiry student will present in clearly organized form the results of the investigation into questions or problems the student has posed.

A complete list of Inquiry courses can be found on the [Registrar's Office](#) homepage.

### **Writing Skills**

Please refer to the [University Writing Requirement](#) section for complete information about this Discovery Foundation.

### **Quantitative Reasoning**

Quantitative reasoning refers to the ability to think critically and analytically using abstract formal methods with broad application. Mathematics is the foundation for the physical sciences and, increasingly, for the biological sciences. Its principles and processes illuminate significant aspects of the social sciences as well. In its most precise forms, it enables the design of bridges and the orbiting of satellites. Mathematics discloses invisible truths about the world, makes sense of patterns of which we may or may not be aware, and introduces some order to chaos. In its purest form, it creates its own world of beauty and logic. In its more applied forms, it attempts to make sense of individual and collective human behaviors and complex systems. Many courses listed under this category will help students appreciate the principles of mathematics and gain some skill in its applications to realistic situations, while other courses will introduce kindred subjects including symbolic logic, information theory, statistics, and computer science.

#### **Student Learning Outcomes - Quantitative Reasoning**

- Demonstrate proficiency in carrying out college-level mathematical procedures.
- Use college-level mathematical thinking to analyze situations and data and to solve

## **Discovery in the Disciplines**

### **Biological Science**

Biology is a branch of science that investigates the structure and function of living organisms. Scientists investigate ideas and observations that solidify our understanding of the diversity of life from single cells to complex organisms. Biology has deep relations with agriculture, chemistry, psychology, and many other fields of study, and it is the foundation of our knowledge of health and disease. Courses under this category deal with the basic structure and function of organisms, the interaction of organisms with their environment, human health, biotechnology, and the concepts and mechanisms of evolution as a fundamental biological paradigm. All courses will provide some understanding of the methods of scientific inquiry and seek knowledge about the living world.

#### **Student Learning Outcomes - Biological Science (BS)**

- Learn about aspects of the living world as described in the course description.
- Demonstrate an understanding of fundamental concepts in biological science.

- Additional Student Learning Outcomes for BS Discovery Lab (DLAB) courses
- Communicate scientific material effectively in written and oral formats.
- Summarize, analyze, and evaluate scientific data.
- Explain how scientific hypotheses are tested or rejected.
- Master appropriate laboratory and field techniques commonly used in biology.

## Environment, Technology, and Society

The exponential growth of the sciences and engineering has bred an equally dramatic growth in technological advances. From the flint arrowhead to the latest communication device or weapon, human beings have been inventing things and transforming their lives, their societies, and their environments as they do. But they seldom foresee all the transformations and consequences their inventions bring about. This category stresses the interplay between at least two of these three realms: environment, technology, and society. Topics might include, but are not limited to, the history of a particular kind of technology (such as transport, fuel, writing, or weaponry), how technological change comes about in general, the scientific and/or social bases for a given technology, its impact for good or ill on human society and the natural environment, the effects of a changing environment on the arts and literature, and/or the ethical questions these topics raise.

### Student Learning Outcomes - Environment, Technology, and Society (ETS)

One or more of the following:

- Explore the social consequences of technological and/or environmental change.
- Master a technology described in the course description and evaluate its human impact.
- Consider the impact of various technologies on the environment.
- Understand the way the environmental challenges shape the development of technology.

## Fine and Performing Arts

The arts communicate through the intellect, the emotions, and the body, sometimes all at once, in ways simple and subtle, direct and subliminal, gentle and soul shaking. Understanding and appreciating the arts enriches our lives and preserves our cultural heritage for the future. Through its performances, publications, and exhibits, UNH offers many artistic experiences for students and the larger community, some of which are linked to courses under this category. Such courses, which may be about painting, sculpture, architecture, music, dance, theater, or film, will often include learning through practical experience.

### Student Learning Outcomes - Fine and Performing Arts (FPA)

One or more of the following:

- Develop an understanding and appreciation of differing forms of art expression such as music, visual art, theatre, or architecture.

- Develop skills in creative writing.

- Produce art in the studio, workshop, or theatre.

## Historical Perspectives

Even though we are faced daily with evidence of change in our social world and technology, we easily forget that how we live, where we live, and what we see around us are transient states of affairs. It is important to be able to look on one's own world with an imaginative grasp of its history and the forces behind that history. Courses under this category will give students the opportunity to learn about major historical developments and how these developments have shaped contemporary life in all its complexity. Through the study of particular periods and places, students will gain both "historical perspective" and some skill at the methods of historical inquiry. Common to all courses in historical analysis is the presumption that the categories of social analysis are themselves historical and historically contingent, and that to understand the past requires entering imaginatively into languages, institutions, and worldviews quite different from those of the present day.

### Student Learning Outcomes - Historical Perspectives (HP)

- Study the signature events that occurred within the time and geographical expanse specified in the course description.
- Explore the way primary sources reveal the ideas and values of people living in a different time and place.
- Appreciate human diversity through examination of class, race, and/or gender hierarchies of the past.
- Interpret the way past events and belief systems have contributed to and differed from the values and intuitions of the present.

## Humanities

The humanities arose in Renaissance universities as an alternative to theology and consisted mainly of Greek and Latin literature, which dealt with any and every aspect of human life; they became central to the liberal arts. Since the nineteenth century, the humanities also have embraced modern literature, the creative arts, philosophy, and history. They focus on questions about meaning, ethics, aesthetics, and the foundations of knowledge; they are as concerned with form as with content. Courses under this category explore major works, ideas, and traditions that have shaped our understandings of the world and our sense of self at different times and places while examining the distinctive methods of humanistic inquiry.

### Student Learning Outcomes - Humanities (HUMA)

- Engage with literary, philosophical, artistic and/or cinematic works that explore some aspect of the human condition.
- Pose questions about the nature of being, ethical imperatives, aesthetics, or epistemology.
- Write a critical essay investigating a focused question raised by a literary, philosophical, or artistic work.

## Physical Science

The physical sciences seek to discover the components, structures, properties, and laws of the material world from subatomic particles to

the entire universe. Through them, we appreciate both the wondrous complexity of the world and its order. The traditional domains of chemistry, physics, astronomy, cosmology, and Earth sciences are the foundations of knowledge in numberless arenas of human activity, while the intersections between these domains and the biological sciences yield astonishing discoveries about living organisms. All courses will provide some understanding of the methods of scientific inquiry, seek knowledge about the physical universe, and evaluate claims in both technical literature and popular media.

### Student Learning Outcomes - Physical Science

- Learn about aspects of the physical world specified in the course description.
- Demonstrate an understanding of fundamental concepts in the physical sciences.
- Use mathematical models and computational thinking to understand the physical world.
- [Additional Student Learning Outcomes for PS DLAB courses](#)
- Communicate scientific information effectively in written and oral formats.
- Summarize, analyze, and evaluate scientific data.
- Explain how hypotheses are tested or rejected.
- Master appropriate laboratory and field techniques commonly used in physical science.

## Social Science

The social sciences investigate human beings and their societies from the smallest bands of hunter gatherers to huge nations and global institutions. Everything from marriage and kinship to law and crime, from ceremonial gift giving to mortgage derivatives, from witchcraft to health insurance, from ancient ritual to modern communication, is a subject of a social science. Courses under this category will explore different theories, methods, and data-gathering techniques as they apply to different social issues. They also will examine how individuals create, interact with, and are shaped by social groups and institutions, including those associated with politics, economics, religion, family, the arts, health, and education.

### Student Learning Outcomes - Social Science (SS)

- Apply quantitative and/or qualitative data to investigate the dynamics of social interactions.
- Develop testable hypotheses regarding the social and cultural world they examine.

## World Cultures

Living in a world of many cultures has created both cooperation and conflict across borders, between and within nations. This category, which includes intermediate language courses and approved study abroad programs, encourages students to become cosmopolitan citizens by gaining knowledge and understanding of cultures other than those of the United States. Students will learn to recognize others' values and, ultimately, accept the many ways in which we all are human. They are

thus encouraged to see their own culture with fresh eyes and know the sheer diversity of human outlooks.

### Student Learning Outcomes - World Cultures (WC)

- Explore human diversity by studying societies and cultures outside the United States.
- Recognize the diversity and validity of unfamiliar cultural values.

## Discovery Lab (DLAB)

A course that fulfills the laboratory requirement in the Discovery Program should provide students with hands-on experience that reinforces, supports, and/or augments the material presented in other formats throughout the course. It should teach them how the discipline uncovers and validates knowledge; how phenomena are understood through observation, experimentation, and quantitative analysis; how data are collected and interpreted; and how hypotheses are created, tested, modified, confirmed, or invalidated. These experiences also are likely to provide insights into how scientific theories and models are constructed. A significant portion of specified course time must be devoted to laboratory and laboratory-related activities. For example, a conventional model for a 4-credit laboratory course consists of three 50-minute (or two 75-minute) weekly lecture periods plus one 80-minute weekly laboratory period. However, courses may include different and/or innovative laboratory experiences provided the total amount of course and laboratory time is comparable.

### Student Learning Outcomes - Discovery Lab (DLAB)

- Explain phenomena through observation, experimentation, and quantitative analysis.
- Collect and interpret data.
- Create, test, modify, confirm or invalidate hypotheses.
- Master appropriate laboratory and field techniques used in the biological and physical sciences.
- Communicate scientific material effectively in written and oral formats.

## Discovery Program Approved Courses Master List

### Biological Science (BS)

Code	Title	Credits
ANSC 401	Animals and Society	0,4
ANTH 415	The Human Story: Evolution, Fossils and DNA	4

## Writing Skills

Code	Title	Credits
ENGL 401	First-Year Writing	4
ENGL 401A	First Year Writing for Multi-Lingual Students	4
ENGL 401H	Honors/First-Year Writing	4

## Dropping & Withdrawal from Course Drop Period

During the drop period, a student may unenroll from a course through Webcat or by working with their advisor. A course dropped during the drop period will not appear on the student transcript.

## Withdrawal Period

Following the drop period, there is a withdrawal period. Withdrawal from a course during the withdrawal period will be recorded on a student transcript with a grade of W. The Withdrawal (W) grade is not included in GPA calculations.

## Exclusion from a Course After Enrollment

A student may be excluded from any course after enrollment, with or without penalty, upon recommendation of the instructor and with the approval of the dean of the college in which the student is registered, as soon as it becomes reasonably apparent that such student is unqualified to carry the course successfully.

## Refund Policies & Deadlines

For refund policies see [Student Accounts](#) and [Financial Aid](#).

Deadlines for the drop and withdrawal periods vary by course duration and are posted on the [UNH Master Academic Calendar](#). (Tip: filter by Event Type - Registration Deadlines)

## Dual Degrees

### General Policy <sup>1</sup>

The option to pursue two baccalaureate degrees simultaneously enhances and broadens the education of certain students at the undergraduate level. The program is only for those students who can adequately handle the requirements for two different degrees and who can reasonably allocate the additional time and effort needed for the program. Except for specific five-year degree programs, a student may not pursue two different degree levels simultaneously.

### Requirements

- Students must petition the college dean or deans involved for permission to pursue a dual degree.
- If the student is planning to take one degree in a highly prescribed curriculum, they should register as a freshman in the appropriate school or college for that curriculum.
- It is expected that a candidate for two degrees baccalaureate will complete 32 credits beyond those required for the first degree.
- It is expected that students will maintain a minimum 2.5 cumulative grade-point average.
- Students can earn more than one Bachelor of Science (B.S.) degree, provided that each degree is in a different field.
- Students cannot earn more than one Bachelor of Arts (B.A.) degree.

### Supervision

As soon as a student is accepted as a candidate for two degrees, the appropriate dean(s) will appoint supervisors for each of the proposed majors. The supervisors and the student will work out a basic course plan for the two degrees and inform the appropriate dual degree dean(s) of the plan. The supervisors will maintain joint control over the student's

academic program. The deans' offices and the supervisors will receive copies of the grade reports and other records for students pursuing two degrees.

### Transfer Students

Transfer students already holding a baccalaureate degree from another accredited institution may pursue an additional dissimilar baccalaureate degree at the University of New Hampshire, provided they fulfill the requirements for the dual degree listed in the undergraduate catalog. The degree received at the first institution will be accepted by the University of New Hampshire as awarded by that institution.

<sup>1</sup> College of Professional Studies-Online students: a student may only be fully accepted to one degree program at a time. Students nearing completion of an Associate Degree within CPS-Online and who have applied to graduate, may also apply for admission to one of the College's Bachelor's Degree programs. Students nearing completion of their Bachelor's degree may apply for admission to a Graduate level or Post Baccalaureate program within CPS-Online through the existing application process.

## Dual Majors

The University offers several designated [Dual Major](#) programs to students. Students that wish to pursue a dual major must declare a primary major first. A dual major cannot be a standalone major. One degree is awarded, that of the primary major.

Additionally, the University offers the opportunity for students to add a [Second \(Double\) Major](#) (p. 39).

## Educational Reprieve

Upon petition to the Academic Standards and Advising Committee, a former UNH student who has taken no courses for five or more consecutive years may, prior to readmission to UNH, request "educational reprieve." The procedure permits retention of the previous credit from all courses in which grades of C- or better were earned; but the former cumulative grade-point average, although retained for informational purposes on the academic record, will not be used. A new grade-point average will be started upon readmission. The notation "educational reprieve" will appear on the student's academic record.

Note: [Honors at graduation](#) (p. 35) will be based on the restarted grade-point average, and provided the minimum graded semester hours have been completed at the University of New Hampshire subsequent to the reprieve.

## Enrollment Status

### Undergraduate Students

#### Degree candidate

A student who has been formally admitted into a program leading to a degree awarded by the University of New Hampshire.

#### Part time status

Enrolled in fewer than 12 credits in a given semester.

#### Full time Status

Enrolled in 12 or more credits in a given semester.

## Special student status (Non-Degree Students)

A student who has not formally been admitted into a program leading to a degree awarded by the University of New Hampshire. Such students are usually restricted to part-time study unless permission is granted by the Office of Admissions.

## Enrollment Verification

An enrollment verification is a document indicating student enrollment status and includes: enrolled status of full or part-time, credit hours, and expected date of graduation.<sup>1</sup>

The University of New Hampshire has authorized the **National Student Clearinghouse** to act as its agent for verification of enrollment status. Enrollment data is sent to the National Student Clearinghouse soon after the standard add/drop period. Once the data has been processed by the Clearinghouse, students may obtain an enrollment verification pdf certificate by logging on to [Webcat](#) and linking to the National Student Clearinghouse website. Students may print a certification of enrollment to send to their health insurers and credit issuers. Students can view any electronic notification forms that the Clearinghouse has sent to their lenders, servicers, and guarantors, and may also link to real-time student loan information to determine outstanding balances and due date of their next payment.

[Ordering instructions](#) are available on the Office of the Registrar's website.

<sup>1</sup>For verification of a degree, order an official transcript.

## Equivalent Courses

Courses are equivalent when the same course content is taught under different course subject prefixes and/or course numbers.

Equivalent courses may be applied interchangeably to satisfy degree requirements, unless otherwise prohibited by program (major, minor, program) specific rules.

The [repeated course](#) (p. 38) rule is applicable if a student takes two equivalent courses. Equivalent courses also include courses in the past taught under different subject prefixes, numbers, titles, or a writing intensive or honors course section.

## Examinations

### Final Exams

Final Examinations at the end of each fall and spring full semester may be given in any course. All such final examinations must be scheduled during the designated final exam period on the academic calendar and given at the time scheduled.

No announced oral or written test/exam may be given during the last five days of classes preceding the designated final examination period. The following are exceptions:

- Practical examinations covering laboratory work may be given during the last five days of classes preceding the designated final exam period.
- In courses of a modular nature with several instructors, the instructor of the final module may schedule a final exam during the last five

days of classes preceding the designated final exam period. Approval must first be obtained from the college dean.

### Priority of Final Examinations and Scheduling Conflicts

Students scheduled for three final exams on the same day during the designated final exam period may choose to take only two final exams on the same day. The final exam scheduled in the middle (second) will be rescheduled. The instructor, in consultation with the student, will schedule a makeup final exam.

Students enrolled in a Term 2 or Term 4 course that conflicts with a final exam scheduled during the designated final exam period, the final exam has priority.

Two final exams scheduled at the same time during the designated final exam period should not occur. But, if such a conflict occurs the following priorities are applicable:

- Final exams in courses required by the students major have priority.
- If neither final exam is for a course required by the students major, the student works with both instructors to determine which final exam is rescheduled.
- If an online and in-person final exam are scheduled at the same time, the in-person final exam has priority.
- If a conflict between campuses occurs, the final exam scheduled on the campus of the students major has priority.

## Weekly Common Exam Hours

Weekly common exam hours are designated by the University as "free" hours, which are reserved for convocations or common exams for multi-section courses. Normally, classes and labs are not scheduled during these hours. The Registrar may allow some exceptions to this policy; however, any classes or labs scheduled during these hours must excuse without penalty all students whose attendance is also required for common exams.

### Designated Weekly Common Exam Hours:

Tuesday - 12:40pm to 2:00pm

Thursday - 12:40pm to 2:00pm and 7:10pm to 9:00pm

Weekly common exam hours are not applicable to the College of Professional Studies (Manchester & Online divisions).

## Foreign Language Requirement

The Bachelor of Arts degree requires proficiency in a foreign language. This requirement may be fulfilled by completing the equivalent of a full-year elementary-level course in a language not previously studied, or by completing the equivalent of a semester of a course in a foreign language at the intermediate or higher level, or by earning credit through an approved Advanced Placement or College Board foreign language achievement test (minimum scores vary). The proficiency in a foreign language requirement must be satisfied by the end of the sophomore year. No credit is awarded for elementary year college coursework if the student has had two or more years of that language in high school. It is strongly advised that students check with academic departments or academic centers to identify department-advised specific foreign language proficiency options.

A Student with a documented disability who wishes accommodation on the basis that the disability will prevent them from successfully

mastering a foreign language requirement, or whose foreign language requirement was waived in high school because of a documented disability, must contact [Student Accessibility Services](#), Smith Hall, (603) 862-2607 (Voice/TDD).

## General Education Program & Requirements

### UNH College of Professional Studies-Online Division, Undergraduate Degree Programs

The general education program is founded on fostering intellectual curiosity and preparing people to realize their full potential in a complex and changing world. Students explore major fields of knowledge and engage with ideas through action and application. With commitment to and respect for adults of all ages, the general education program will offer students opportunities to:

**Communicate**, particularly

- Write with clarity.
- Create digital or visual content.
- Communicate interpersonally.

**Think critically and comprehensively**, particularly

- Evaluate information.
- Reason with numbers.
- Think analytically.
- Define complex problems.

**Apply knowledge to workplace and community**, particularly

- Engage with diverse individuals, groups, and cultural frameworks.
- Participate in citizenship and community.
- Solve challenging problems using disciplinary knowledge.
- Reflect on learning to guide professional practice.

## Communicate

Three required courses.

In transfer, a minimum of 3 credits is required to meet each course requirement.

Code	Title	Credits
ENG 420	The Writing Process	4
COM 460	Interpersonal Communication and Group Dynamics	4
COM 480	Visual Communication	4
Total Credits		12

## Think Critically and Comprehensively

Three required courses.

In transfer, a minimum of 3 credits is required to meet each course requirement.

Code	Title	Credits
CRIT 501	Introduction to Critical Inquiry	4
CRIT 602	Advanced Critical Analysis and Strategic Thinking <sup>1</sup>	4
MTH 402	Math for Our World	4
or MTH 504	Statistics	

or MTH 510	Pre-Calculus
Total Credits	12

<sup>1</sup> CRIT 602 Advanced Critical Analysis and Strategic Thinking *is not required at the associate level*. CRIT 602 Advanced Critical Analysis and Strategic Thinking *will not be waived for transfer students holding associate degrees but will be waived for students with an earned bachelor's degree in another field*. CRIT 602 Advanced Critical Analysis and Strategic Thinking *must be taken at Granite State College and cannot be satisfied through transfer credit, testing, or other forms of prior learning assessment*.

## Apply Knowledge to Workplace and Community

Four required courses. Select one course from each of the below areas.

In transfer, a minimum of 3 credits is required to meet each course requirement.

### Knowledge of Human Behavior and Social Systems: Social Sciences Disciplines

Courses in this area recognize how changes occur in human development, behavior, social values, groups, and/or institutions.

Code	Title	Credits
CRIM 410	Introduction to Criminology	4
CRIM 425	Juvenile Justice	4
CRIM 555	The Criminal Justice System	4
CRIM 600	Crime Prevention and Control	4
CRIM 645	Crime Victim Rights and Remedies	4
CRIM 680	Corrections, Probation and Parole	4
CRIM 707	Constitutional Law	4
ECO 470	Principles of Economics	4
ECO 580	International Economics	4
ECO 635	Economics of Artificial Intelligence	4
POL 450	American Government and Politics	4
POL 554	Law and Society	4
POL 690	The US in World Affairs	4
PSY 410	Introduction to Psychology	4
PSY 470	Child Development	4
PSY 480	Infant and Toddler Development	4
PSY 525	Human Development	4
PSY 530	Social Psychology	4
PSY 602	Theories of Personality	4
PSY 603	Crisis Intervention	4
PSY 626	Educational Psychology	4
PSY 630	Psychology of Adulthood	4
PSY 646	Psychology of Occupational Stress	4
PSY 654	Counseling Theories	4
PSY 665	Principles of Assessment	4
PSY 685	Principles of Psychopathology	4
PSY 725	Cognitive Psychology	4
SLA 506	Language Acquisition	4
SOCI 410	Introduction to Sociology	4
SOCI 601	Society and the Individual	4
SOCI 603	Work and Society	4
SOCI 675	Child Abuse and Neglect	4
SOSC 445	Race & Diversity in the U.S.	4
SOSC 602	Men and Women in Cross-Cultural Perspectives	4
SOSC 630	Aspects of Aging in a Modern Society	4
SOSC 675	Dynamics of Family Relationships	4
SOSC 680	Stress and the Family	4
SOSC 710	Social Stratification and Inequality	4

## Knowledge of Human Thought and Expression: Humanities Disciplines

Courses in this area allow students to ask and explore a variety of questions about human thought and experience.

Code	Title	Credits
ART 401	Introduction to Drawing	4
ART 403	Introduction to Watercolor	4
ART 515	Digital Photography	4
ART 550	Art History: Western World	4
ENG 450	Introduction to Literature	4
ENG 505	Introduction to Language and Linguistics	4
ENG 545	The Media and Its Messages	4
ENG 555	Children's Literature	4
ENG 565	Modern American Writers 1865 to the Present	4
ENG 585	Short Fiction	4
ENG 604	Creative Writing	4
ENG 610	War Writing in the 21st Century	4
ENG 615	Young Adult Literature	4
ENG 620	Multicultural Perspectives through Literature	4
ENG 625	Readings in World Literature	4
ENG 645	Disability in Literature and Culture	4
ENG 675	Survey of Classic Literature Through Film	4
ENG 730	The Graphic Novel	4
HIS 402	Great Civilizations	4
HIS 410	United States History to 1865	4
HIS 411	United States History: 1865 to the Present	4
HIS 512	European History: Renaissance through the Industrial Revolution	4
HIS 590	Historical Methods	4
HIS 602	History of New England	4
HIS 611	Themes in World History	4
HIS 718	History of World War II	4
HIS 727	Vietnam War: An Historical Perspective	4
HUMN 470	World Religions	4
HUMN 480	Introduction to Ethics	4
HUMN 502	American Popular Culture	4
HUMN 560	Introductory Spanish	4
HUMN 625	Introduction to Cultural Theory	4

## Knowledge of Physical and Natural World: Natural Sciences Disciplines

Courses in this area allow students to develop an understanding of the basic facts, principles, theories, and methods of physical and/or biological science.

Code	Title	Credits
PSY 710	The Biology of Addiction	4
PSY 740	Biopsychology	4
SCI 412	Introduction to Astronomy	4
SCI 470	Physical Geography	4
SCI 480	Introduction to Oceanography	4
SCI 490	Human Biology	4
SCI 502	Nutrition and Health	4
SCI 508	Issues in Women's Health	4
SCI 509	Disease Prevention and Health Promotion	4
SCI 528	Natural History of Northern New England	4
SCI 541	Introduction to Environmental Science	4
SCI 550	Wellness and the Human Body	4
SCI 604	Principles of Exercise Science	4
SCI 610	Contemporary Issues in Personal and Global Health	4
SCI 615	Fitness and Health	4

## Interdisciplinary Seminar

This upper-level seminar's specific topic varies by individual course section.

Code	Title	Credits
IDIS 601	Interdisciplinary Seminar <sup>1</sup>	4

<sup>1</sup> **Note:** IDIS 601 Interdisciplinary Seminar *should be taken after all other general education requirements are completed*. IDIS 601 Interdisciplinary Seminar *is not required at the associate level*. IDIS 601 Interdisciplinary Seminar *will not be waived for transfer students holding associate degrees but will be waived for students with an earned bachelor's degree in another field*. IDIS 601 Interdisciplinary Seminar *must be taken at Granite State College and cannot be satisfied through transfer credit, testing, or other forms of prior learning assessment*.

## Grades

### General Grading Policy

Grading policies as stated apply to all undergraduate students.

An instructor may assign grades as listed below. In general, these are letter grades. The intermediate grades are designated by adding a plus or a minus to the letter grade. Grade points assigned to plus grades are 0.33 higher than those assigned to the letter grade without the plus. Grade points assigned to minus grades are 0.33 lower than those assigned to the letter grade without the minus. In certain cases, where the format of the course creates difficulties for this type of grading, the course will be designated "credit/fail" if authorized by the faculty of the department in which the course is taught, the dean of the appropriate school or college, and the provost and vice president for academic affairs.

Students earning a semester or cumulative grade-point average less than 2.00 are placed on academic warning.

In an attempt to keep evaluation as objective as possible, instructors will assign a letter grade to a student exercising the pass/fail grading alternative. The instructor will not know that the student is exercising this alternative.

The credit hours or other work units covered by the F grade shall be considered in full in figuring the average, except that the F awarded in a pass/fail grading alternative or in a credit/fail course shall not be figured in the average. Courses covered by the CR or P grades shall not be considered in figuring the average. The number of grade points for a course is determined by multiplying the numerical equivalent of the grade times the semester hours of the course. The grade-point average is determined by the sum total of grade points divided by the sum total of graded credits (courses taken under the pass/fail grading alternative or credit/fail courses are not included in the divisor). The grade-point average is calculated to two decimal places. It is not rounded.

No course taken from another institution will be used in figuring the grade-point average.

The Faculty Senate recognizes that grade inflation exists at the University of New Hampshire. The senate, therefore, states that throughout this University the grade of C shall indicate competent, acceptable performance and learning in undergraduate courses; the grade of B shall indicate superior performance and learning; the grade of A shall indicate excellent performance and learning. These standards shall apply equally to all undergraduate courses, instructors, departments, subjects, and colleges.

## Grading System

Letter Grade	Grade Points	Note
A	(4.00)	Excellent
A-	(3.67)	Intermediate Grade
B+	(3.33)	Intermediate Grade
B	(3.00)	Superior
B-	(2.67)	Intermediate Grade
C+	(2.33)	Intermediate Grade
C	(2.00)	Satisfactory, Competent
C-	(1.67)	Intermediate Grade
D+	(1.33)	Intermediate Grade
D	(1.00)	Marginal
D-	(0.67)	Intermediate Grade
F	(0.00)	Failure, No Credit
AF	(0.00)	Administrative Failure
CR		Credit: given in specific courses having no letter grades, designated credit/fail
P		Pass: given in a course taken under the student pass/fail grading alternative
W		Withdrawn
AU		Audit: no credit earned
IC		Incomplete Coursework: grade report notation for student's incomplete coursework
IA		Continuing Course or Thesis: indicates "incomplete" in a thesis or continuing course of more than one semester; the grade earned will replace "IA" assigned in previous semesters
IX		Grade not reported by instructor

### Administrative Failure (AF)

An AF grade is usually assigned to the student who stops participating in the course and has not completed course work sufficient for the assessment of course outcomes by the faculty member to issue a letter grade. The administrative failure is usually the result of a student's failure to officially drop or withdraw from a course they stopped attending. An AF counts as an F grade in the calculation of grade point averages.

An AF grade can have financial implications for students utilizing Federal Financial Aid programs as well as Veteran and/or Military benefits.

### Incomplete (IC)

A notation of incomplete (IC) shall be recorded on a student's record only if a major portion of the entire work of the course has been completed

and if the instructor approves the student's request for additional time to complete the coursework. The initiation and responsibility for finishing the incomplete work rests with the student.

When the work of the course has been completed, a final grade for the term will be submitted to the student's college dean. The form indicating completion of the work must be filed with the Registrar no later than the middle of the semester immediately following the one in which the incomplete was granted. A petition requesting an extension of time beyond mid-semester, if approved by the instructor, may be submitted to the dean of the student's college. An extension will be granted by the dean only under unusual circumstances.

If the work is not completed within the specified time, the grade will be recorded as F.

An Incomplete (IC) grade in a student's final semester will delay their graduation date even if the course is not required for graduation.

## Pass/Fail Grading

See detailed policy information about [Pass/Fail grading](#) (p. 36).

## Grade Appeals

Instructors must be prepared to discuss and to explain the basis for their evaluations of students. If, after consulting the instructor, students still believe that they were treated unfairly, they have the right to seek redress from the chairperson of the department or program in which the course is offered. Under exceptional circumstances, a final appeal may be made to the dean of the college in which the program is offered.

## Grade Changes

Requested grade changes submitted before the middle of the semester immediately following the one in which the grade was granted may be approved by the student's academic dean or their designee. After mid-semester, students must petition the Academic Standards and Advising Committee. Students in the College of Professional Studies Online Division petition the CPS Academic Exceptions Committee.

## Graduation Certification

The graduation certification process is managed by the Office of the Registrar. Degrees are awarded three times a year: December, May and September. Candidates for graduation shall be certified as to their college requirements by the several college faculties to the Registrar, who shall recommend them to the president for their appropriate degrees provided they have satisfied all university [degree requirements for graduation](#) (p. 19). Students must formally [apply to graduate](#) within the published deadlines on the [master academic calendar](#) to initiate the graduation certification process. Coursework must be complete and graded by the graduation date for which applied. Incomplete grades in the final semester will prevent graduation.

Modifications tend to occur in major programs during the period of students' undergraduate careers. Students are expected to conform to these changes insofar as they do not represent substantive alterations in their course of study.

Note: Although the University will try to provide sufficient facilities so that students may pursue any major or curriculum for which they meet the requirements, such a privilege cannot be guaranteed, since rapidly increasing enrollment sometimes results in the overcrowding of required

specialized courses. On occasion, students may remain in a crowded curriculum if they are willing to take certain courses during the summer session.

## Confirmation of Graduation

Approximately four weeks after the date of graduation, students may check their Academic Transcript on Webcat. View "Degrees Awarded", when the "Degree Date" displays the date of graduation, this confirms graduation. If no date of graduation is displayed, the Office of the Registrar will contact the student to resolve any issues.

## Honors

### Classification

An undergraduate degree student, after completion of at least 12 graded semester hours in University of New Hampshire courses, will be designated as an honor student for a given semester if the student has:

1. Completed at least 12 graded (not CR or P/F grades) semester hours for that semester and earned at least a 3.50 semester grade-point average or
2. Earned at least a 3.50 cumulative grade-point average and at least a 3.50 semester grade-point average regardless of the number of graded credits that semester.

## Honors at Graduation

### Baccalaureate degree candidates

Students who have earned honors for their entire work at the University will be graduated with honors based on the final cumulative grade-point average, provided that a minimum of 64 graded semester hours (30 for CPS-Online students) has been completed in University of New Hampshire courses. The Latin equivalent of the honors designation will appear on the student's academic record and diploma. The student's honors designation will be noted in the Commencement program.

#### Honors Designation & GPA required:

- Summa Cum Laude: 3.85-4.00
- Magna Cum Laude: 3.65-3.84
- Cum Laude: 3.50-3.64

### Associate degree candidates

Students who have earned honors for their entire work at the University will be graduated with honors based on the final cumulative grade-point average, provided that a minimum of 32 graded semester hours (16 for CPS-Online students) has been completed in University of New Hampshire courses. The English equivalent of the honors designation will appear on the student's academic record and diploma. The student's honors designation will be noted in the Commencement program.

#### Honors Designation & GPA required:

- Highest Honors: 3.85-4.00
- High Honors: 3.65-3.84
- Honors: 3.50-3.64

## Leave of Absence

Any student not subject to any academic or conduct action wishing to seek a leave of absence from their degree program may consult with their respective college dean's office or the Office of the University Registrar.

Reasons for requesting a leave of absence may include financial, academic, personal, or health reasons. Students who request a leave that begins while they are enrolled for a given semester will be subject to the rules governing refunds and the award of W. In most instances, however, leaves that are not health-related begin after the completion of a semester. Students on a Leave of Absence for any reason, except Military Leave of Absence, may not earn transfer credit for courses taken while on the leave of absence.

Any student taking a leave of absence from UNH for health reasons may consider the Health Leave of Absence process. More information about Health Leaves can be found at <https://www.unh.edu/health-leaves>. Students who are granted a Health Leave of Absence are prohibited from study away program participation during the duration of the leave, must remain on leave for one complete semester following the granting of the leave, and must submit a letter of support from a treatment provider to be reviewed by the Dean of Students prior to approval and reinstatement.

Students returning from a leave for a fall semester must notify the Registrar by June 1 of their intent to return and by November 1 when returning for spring semester. Students will be reinstated into the same major at the point of their leave's start. Normally, leaves of absence may not exceed three academic years or six semesters, exclusive of J-Term and Summer Session. Military students who are deployed for longer than one year will be allowed to reactivate into original program requirements as long as they can provide official orders corresponding with their absence from the college. Exceptions to the leave of absence policy will be granted by the University Academic Standards and Advising Committee and only in unusual circumstances.

Until mid-semester, students may take a Leave of Absence from the University without academic liability. Students withdrawing from the University after the drop period will receive a "W" in all courses. Failure to return from a leave of absence or to formally withdraw is considered a lapse in a student's degree status in the next semester after three academic years have elapsed and a transcript notation is recorded "degree status discontinued." The student must subsequently apply for readmission.

## Majors and Options

A student earns an undergraduate degree with at least one declared major. Students complete major, core curriculum (Discovery or General Education Program), Writing Program, and degree requirements.

Within majors of four-year programs, students often have choice among two or more 'options.' An option is generally a set of 15-24 required credit hours of related courses within a particular major.<sup>1</sup> The term 'option' is reserved for baccalaureate degrees. Options allow students to specialize within a discipline. The choice of option is recorded on the student's transcript.

<sup>1</sup> College of Professional Studies-Online bachelor's degrees require a minimum of 32 credits in the major/option.

## Military Accommodations

The University of New Hampshire recognizes the importance of supporting our military students who are called to serve this country. Military students who have received orders that will interrupt their enrollment may be eligible for accommodations as follows:

For students who receive notice of orders prior to the start of an enrollment period:

- Due to the potential uncertainties that may come from military service obligations, it is strongly recommended that students who receive notice of orders prior to the start of an enrollment period take a military leave of absence for that enrollment period. This can be completed by contacting their college dean's office or the Office of the Registrar.

For students who receive notice of orders after the start of an enrollment period:

- A student can elect to accept an incomplete grade, which will be recorded at the end of the term, provided that more than half of the class meetings have passed, and both the student and faculty agree to this option. A student selecting this option will have 90 days after the completion of their orders or the middle of the following semester, whichever is longer, to complete any missing assignments. Faculty of students electing the incomplete grade option must complete an incomplete grade contract that is an agreement of the terms and specifics about the deadlines and assignments. A student who does not complete the work within the 90-day period will need to repeat the course; in this case, the incomplete grade will be treated as an F and the student will not be refunded any tuition or fees. If completing course work within 90 days isn't possible, students have the option to submit a petition to finish at a later date.
- A student can elect to withdraw from one or more courses with a grade of "W" if the official add/drop period for the college has passed. A student electing this option will have their tuition and fees refunded or credited, whichever is deemed appropriate, without credits awarded.
- Students who are called to serve for longer than one year will be allowed to reactivate into original program requirements as long as they can provide official orders corresponding with their absence from the College.

It is strongly recommended that students seeking an accommodation under this policy contact the [Military and Veteran Services office](#), as well as their Academic Advisors, to discuss their options. A copy of military orders will be required to be submitted with any accommodation request.

## Minors

Bachelor's degree students may earn a minor in any undergraduate discipline designated by the University. Students must consult with their major advisor and also the minor supervisor. A minor typically consists of 20 credits with C- or better and a 2.0 grade-point average in courses that the minor department approves.<sup>1</sup>

- Courses taken on a pass/fail basis may not be used for a minor.
- No more than 8 credits used to satisfy major requirements may be used for the minor.
- No more than 2 courses or 8 credits may be from transfer coursework. For some minors, all courses must be taken at UNH. The department chair or coordinator is responsible for the minor and must approve any transfer coursework.
- Typically there is no limit on the number of overlapping credits allowed between minors.
- Some minors may have more restrictive requirements as indicated in the specific minors detailed information.

- UNH Durham students may not pursue a minor offered by the College of Professional Studies (CPS)-Online Division.

During the student's final term, an [application to declare a minor](#) should be made to the dean to have the minor included on the academic record.

<sup>1</sup>Departments can approve a minor when a student has earned only 18 or 19 credits, provided that the student has completed a minimum of 5 courses.

[View a list of all minors.](#)

## Mutually Exclusive Courses

Courses are mutually exclusive when course content is too similar to earn credit for both courses.

Students may not enroll if they have completed any mutually exclusive courses with a passing grade.

Petition for Variance in Academic Policy must be submitted for a mutually exclusive course to:

- Request permission to register due to exceptional circumstances.
- Request permission to exercise the [repeated course](#) (p. 38) rule.

*Note: credit will not be awarded for the most recent course completed, unless approved by petition.*

## Pass/Fail Grading

An undergraduate student working toward a bachelor's degree may elect to use the pass/fail grading alternative for a maximum of 4 credits per semester, not to exceed 16 credits during the student's matriculation.<sup>1,2</sup>

An undergraduate student working toward an associate's degree may elect to use the pass/fail grading alternative for a maximum of 4 credits per semester, not to exceed 8 credits during the student's matriculation.

Students in their first term at the University have the option to change up to 4 credits from graded to pass/fail at any point prior to the Friday of the 10th week of the semester and must obtain the approval of their advisor.<sup>1</sup>

All other students have the option to change up to 4 credits from graded to pass/fail prior to the end of the add period (the second Friday of classes) and must obtain the approval of their advisor.<sup>1</sup>

The pass/fail grading alternative may not be used for the following types of courses:

1. Core Curriculum requirements (Discovery Program or General Education Program Courses)
2. Writing Intensive requirements
3. Major and minor requirements
4. To repeat a course previously taken
5. Foreign language requirement

The minimum passing grade requirement for a course taken pass/fail is D- (0.67). The course grade of a pass/fail course will not be calculated into the grade-point average of the student, but the pass or fail will be recorded on the student's transcript. In the event of a pass, the student will receive the course credits (credit hours) toward degree requirements. The undergraduate student may elect the pass/fail grading

alternative without permission or knowledge of the faculty member (course instructor). Upon request, the Registrar shall inform the instructor of any course of the percentage of students enrolled as pass/fail.

<sup>1</sup> Peter T. Paul College of Business and Economics courses may NOT be taken on a pass/fail basis by a student majoring in business administration, economics, or hotel administration.

<sup>2</sup> Students in bachelor's degree programs within the College of Professional Studies, Online may not exceed 8 credits within a degree program. Advanced approval of the Assistant Dean of Curriculum or Dean of the School of Education is required prior to registration.

## Prerequisites

Course prerequisites are those courses that are required to have been successfully completed prior to enrolling in another course and must be so described in the University catalog.

Before registering for a course, students should check the course catalog to determine course prerequisites.

Students who fail a prerequisite to a course for which they are registered must drop the course. This policy applies to degree and non-degree students. It is the responsibility of the student to ensure all prerequisites or other requirements for a course have been met.

## Prior Learning Assessment (PLA)

### UNH College of Professional Studies (CPS) Online Students

In addition to previous college courses, prior learning acquired through workplace training and/or other life experiences is acknowledged and recognized as the foundation on which to build a degree program. The College provides options to demonstrate how prior learning may satisfy degree requirements.

### Preapproved PLA Options

#### National Training Programs

The American Council on Education (ACE) and the National College Credit Recommendation Service (NCCRS) have evaluated and made recommendations regarding college credit for many formal training programs from business and industry, government, and nonprofit agencies. Credit will be awarded based on the recommendations of the [ACE National Guide to Educational Credit for Training Programs](#) and the [College Credit Recommendations Directory of the National College Credit Recommendation Service](#). Students must request an official transcript from ACE or documentation of successful completion from the training sponsor. Official transcripts are sent directly to the College Undergraduate Admissions Office.

#### Workplace Training Programs Evaluated by CPS

CPS awards credit for college-equivalent learning gained through training. Training that the College has evaluated includes the NH Police Standards and Training Academy, the State of NH Division of Personnel Management, NH Fire Standards and Training, Primex, as well as other training programs. The student must provide official documentation of successful completion of the training program; documentation must be sent directly from the training sponsor to the college.

To pursue credit for preapproved prior learning, see [detailed information and FAQs](#) for preapproved prior learning options accepted by the College of Professional Studies-Online Division.

*Note: Students must be accepted and enrolled in an undergraduate online degree program with UNH College of Professional Studies-Online Division for prior learning credit to be awarded and transcribed.*

### Non-Collegiate Course Providers

Credit may also be earned for courses taken with non-collegiate course providers, such as Saylor Academy, Sophia.org, and StraighterLine, which have been evaluated by the American Council on Education (ACE) or the National College Credit Recommendation Service (NCCRS) and recommended for college credit. In order for credit to be awarded, the ACE or NCCRS-recommended score must be achieved on the proctored exam.

## Examination Programs

ACE and the NCCRS have also evaluated certain tests to demonstrate college-level knowledge and earn credit. The College recognizes competency demonstrated through Advanced Placement (AP), American Council on the Teaching of Foreign Languages (ACTFL) proficiency testing, College Level Examination Program (CLEP), DSST, NOCTI Business Solutions, and UExcel. Students are responsible for any fees associated with testing options.

The College will award the number of credits and the subject area recommended by ACE or NCCRS. For credit to be awarded, the content of the exam must meet an outstanding degree requirement. Credits acquired through testing cannot duplicate credits earned from other sources. The College limits on credit awarded for examination programs are for all of the sources listed combined.

Contact a CPS Academic Advisor prior to taking any standardized examination to ensure that the examination selected is not duplicative of course work completed or projected, or of other tests.

### CLEP (College Level Examination Program)

Students who take a CLEP exam and do not receive a passing score must wait 90 days before retaking the exam. Detailed information about exams, and list of available subjects is available on the [CLEP website](#).

### DSST Exams (Defense Subject Standardized Test)

Students who take a DSST exam and do not receive a passing score must wait 90 days before retaking the exam. List of [DSST exams and related fees](#), College Code: 8478.

### Excelsior College Examinations (UEXCEL)

UEXCEL exams must be taken with [Pearson VUE](#). There are limitations to the total number of times an exam can be retaken, as well as a waiting period between attempts. Cost varies depending on exam. Credit will be awarded based on the recommendation of the American Council on Education at the time the exam was taken. Upper level credit may be awarded for some exams. List of [Excelsior College Exams](#).

## Portfolio Assessment Options

Portfolio options are available to demonstrate college-level learning acquired through training and/or life experiences. Credit can be requested for specific College courses, or based on courses from other regionally-accredited institutions, or developed by the student with college-level learning outcomes. The following degree requirements are not eligible for

portfolio assessment: Integrative Capstones; CRIT 602 Advanced Critical Analysis and Strategic Thinking and IDIS 601 Interdisciplinary Seminar; culminating teaching experiences; and field-based courses.

Experiential learning portfolios are developed in CRIT 603 Critical Inquiry in Prior Learning Assessment. In the course, students will work closely with their instructor to develop a portfolio that demonstrates prior learning usually based on the learning outcomes of a specific course needed for a student's degree completion. The portfolio will then be assessed by a trained evaluator and they will determine if the student has displayed evidence of prior learning and if credit may be awarded. After successful completion of the course, students may submit additional credit requests for evaluation. If submitted within one year of completion of the course, no portfolio evaluation fees will apply. If submitted after one year of completion of the course, an evaluation fee of \$350 per course equivalent credit request will apply. All credit requests must be submitted within three years of successful completion of the course. CRIT 603 Critical Inquiry in Prior Learning Assessment can be repeated no more than once after withdrawal or failure. Portfolio assessment of prior learning is not available to students who are within 16 credits of degree completion.

If students have completed a prior learning portfolio and received credit at a regionally accredited college or university that isn't a member of the Consortium for the Assessment of College Equivalence (CACE), they may submit their portfolio to the College for assessment. Students choosing this option will be given information about the required portfolio components, evidence validity criteria, and the standards for college-level equivalence. Once the portfolio has been submitted to the College, the Director of Liberal Arts will provide an initial assessment of whether the portfolio meets the minimum requirements to be sent to a faculty evaluator. The student will assume responsibility for any further development of the portfolio based on this initial review prior to sending the portfolio for faculty assessment. The prior learning assessment fee will be charged at the point the student notifies the college that they want the portfolio to be sent for evaluation.

## Prior Learning Credit Limits

CPS will apply a maximum of 30 prior learning credits towards an Associate Degree and 60 credits towards a Bachelor's Degree for any combination of the prior learning credit options. These credits do not count in the residency requirement for degree programs. Prior learning credit requests should be made within six months of acceptance to maximize potential credit awarded.

## Fees

No fee is charged to award credit for standardized exams, training evaluated by the American Council on Education, or the National College Credit Recommendation Service or the Consortium on the Assessment of College Equivalents (CACE). A PLA fee of \$350 is charged for credit awarded for workplace training and occupational credentials that the College has previously evaluated and preapproved for credit. For up to one calendar year after admission to the College, the PLA fee covers multiple submissions of documentation. After one calendar year, a fee of \$350 per training experience or credential submitted will be charged.

Financial Aid may be used to pay the PLA fee if the student has financial aid eligibility, submits an Award Revision Request Form indicating their intent to use financial aid for this purpose, and completes the Federal Title IV Financial Aid Payment Authorization Form.

## Progress Reports

All undergraduates. In the week preceding the drop deadline, course instructors will provide early alert indicators on any students in their classes with below average performance as indicated through absences, missing/late assignments, or quiz/test results. Some faculty may not assess substantive progress until the Midterm Examination. Faculty members are able to issue an alert/referral on individual or groups of students by logging in to myWildcat Success anytime during the semester or term.

## Registration

Credit will be given only for those courses for which a student has properly registered.

## Priority Registration

Priority registration is the period before open registration in which undergraduate degree students may begin course registration for an upcoming fall/spring semester or term. Dates and deadlines for priority registration are designated by [class level](#) (p. 18) and posted on the [Academic Calendar](#). Registration access codes (RACs) are required to complete priority registration by Durham and Manchester undergraduate degree students.

### Early Priority Registration

- Veteran students are assigned early priority registration. This means that Veteran students register during the initial registration period of their designated class level.
- Student athletes are assigned early priority registration. This means that student athletes register during the initial registration period for their designated class level.

## Registration Access Code (RAC)

Registration access codes are assigned to avoid overloading the registration system during the high demand course registration periods for fall and spring courses. Registration access codes are assigned to eligible students based on their current [class level](#) (p. 18). RAC times are assigned randomly within class levels from earliest to latest and cannot be changed. RACs are released to students by their academic advisor.

- **Durham and Manchester** undergraduate degree students are assigned a RAC for fall and spring priority registration.

## Account Holds

Certain holds on accounts will prevent registration. View holds in Webcat under the Registration menu.

## Repeated Courses

Any student who is regularly registered for a course and who satisfies the requirements shall receive credit except that no student shall earn credit for the same course twice, unless otherwise noted in the catalog. When students repeat a course, the former credits and grade points shall be removed prior to the calculation of their cumulative grade point average and the repeated course information shall be added. Both grades are visible on the official transcript. A notation will be made on the student's record beside the grade received on the repeated course indicating that it

is a repeat. In order for a course to be considered "repeated", the course numbers and titles must match exactly. If the course numbers and titles do not match exactly, the student must obtain written permission from their academic advisor and the endorsement of their college dean on a Petition for Variance in Academic Policy form before the adjustment will be made to their transcript. Students may not use the pass/fail grading alternative to repeat a course. Both the original course and the repeated course must be UNH courses.

## Residence Requirement

"Residence" is being enrolled in University of New Hampshire courses after admission to and matriculation in a degree program. Students who are candidates for bachelor's and associate degrees must attain the last one-fourth of their credits toward the degree in residence unless granted permission by the Academic Standards and Advising Committee to transfer part of this work from other accredited institutions.<sup>1</sup>

<sup>1</sup>College of Professional Studies-Online students: academic residency begins on the date of application to a degree program. Prior Granite State College credits earned as a non-degree student will apply to the residency requirements if the credit is applicable to the student's approved plan of study. For an Associate Degree, residency is 16 credits. For a Bachelor's Degree, residency is 30 credits. A student who has completed a Granite State College Associate Degree must earn an additional 14 credits in residence in the Bachelor's program.

## Second (Double) Major

Bachelor's degree students may choose to fulfill the requirements of two dissimilar major programs, provided they obtain the approval of the second major department and the dean of the college in which the second major is offered and comply as follows:

- If the two majors are offered in different schools or colleges within the University, the admissions requirements of each must be satisfied.
- If the two majors have two distinct degrees; e.g., B.A., B.S., or some other designated degree, students must choose which of the two degrees is to be awarded and fulfill all requirements for that degree.
- No more than 8 credits used to satisfy requirements for one major may be used as requirements for the other major.
- UNH Durham students may not pursue a second major offered by the College of Professional Studies-Online.

## Student Designed Majors

Under special circumstances, students may design their own majors. This option is offered for highly motivated and self-disciplined students who seek a course of study that is not available through existing programs at the University. It allows students, with the close supervision of faculty members, to cross department and college lines and to create educational experiences on and off campus as part of individual programs of study.

Student-designed majors are administered by a committee of elected faculty that operates through the Office of the Provost and Vice Provost for Academic Affairs. Students who want to design their own majors are required to give the committee evidence of careful thought and planning in a proposal.

Proposals are only reviewed once a semester. Fall submissions are due by October 15 of the student's junior year. Spring submissions are due by February 25. The committee will convene soon after the deadline to review the proposals. Under no circumstances will the committee consider a senior year proposal.

Proposal guidelines are available in the [Office of the Provost](#).

The College of Professional Studies-Online, offers several bachelor's degree programs in Individualized Studies within designated areas. Individualized Studies majors develop an approved program of study leading to a specific educational or professional goal. Students interested in the Individualized Studies major should contact their academic advisor. The student will work with their advisor and the Director of Liberal Arts to determine if an Individualized Studies degree is feasible. Once the student's degree plan has been researched and finalized, the student must submit a proposal to Academic Affairs for approval.

## Study Away Eligibility

### Academic Eligibility

Students enrolled in UNH baccalaureate degree programs may participate in approved study away programs provided they meet the following eligibility criteria:

- Must have earned at least 32 credit hours, at least 12 of which must have been earned at the University of New Hampshire at the baccalaureate level.
- Must have a minimum 2.5 cumulative grade point average at the time of application to and at the time of departure for the study away program. Study Away Programs provided by UNH or approved institutions may have higher minimum GPA requirements.
- Must have a declared major.

Transfer students, including transfer students from Thompson School of Applied Science (TSAS) are not eligible to study away during the first semester of their baccalaureate program at UNH.

Students enrolled in the degree programs of the Thompson School of Applied Science may participate in approved study away programs appropriate for two-year degree candidates. TSAS students must meet the following eligibility criteria:

- Must have earned 32 credits, at least 12 of which must have been earned at the University of New Hampshire at the associate degree level.
- Must have a minimum 2.5 cumulative grade point average at the time of application to and at the time of departure for the study away program. Study Away Programs provided by UNH or other approved institutions may have higher minimum GPA requirements.

Special consideration will be given to those students who, although below the 2.5 cumulative GPA threshold, have demonstrated promise in the previous two semesters. Those who wish to be considered for academic variance must petition for an academic variance with the support of their advisor and their Dean's Office. Petitions for academic variance are subject to approval by the Academic Standards & Advising Committee (ASAC).

## Eligibility and Student Conduct Policy

Students sanctioned by the University Student Conduct System for a serious violation of the University of New Hampshire Student Rights,

Rules, and Responsibilities, including but not limited to academic dishonesty, repeated drunk and disorderly behavior, illegal drug activity, destruction or theft of property, or physical or sexual assault must satisfy the following conditions prior to consideration for participation in a UNH-managed or UNH-approved study away program:

- Students must have satisfied all conditions and/or sanctions imposed as a result of the infraction, including probation.
- Students must submit a statement for approval to the university's Academic Standards and Advising Committee (ASAC) explaining why the University can be confident that they will behave appropriately during the study away program.

These same conditions will apply in instances where the conduct issue has been addressed through the court system rather than through the University's Student Conduct system.

## Thompson School of Applied Science Courses

Baccalaureate and Associate in Arts degree candidates<sup>1</sup> may take 200-level Thompson School courses for credit with the following stipulations:

1. The TSAS course must be transferable to UNH at the time it is taken.<sup>2</sup>
2. Grades received in 200-level courses will be recorded on the student's transcript but will not affect or be included in the student's GPA. Baccalaureate degree candidates cannot register for COM 209.
3. TSAS courses may not be used for writing-intensive, or foreign language requirements. Only TSAS courses that are at 400 - 600 level and Discovery approved may count for Discovery requirements. TSAS courses may be used for major or minor requirements only if specifically approved on a course-by-course basis by the department granting the major or minor and when the student meets the usual minimum grade requirements of that program. Note: TSAS transfers to the four-year program, COM 209 is accepted to fulfill the WS requirement and is considered a Writing Intensive course.
4. AA/BA/BS students must earn a grade of C or better to receive credit for a Thompson School course.

<sup>1</sup>College of Professional Studies-Online students are not eligible.

<sup>2</sup>A list of transferable courses is available at the publicly accessible [UNH Transfer Credit Database](#) at the Office of the Registrar's website.

## Transcripts

Official academic records are maintained in the [Office of the Registrar](#) at the University of New Hampshire. A student is required to satisfy University accounts before the Registrar will issue an official transcript and/or diploma as evidence of work done at the University.

## Transfer Credit

Transfer credit is awarded for courses that have been completed with a grade of C or better at another institution accredited by an accreditation agency recognized by the U.S. Department of Education, provided those courses are comparable to courses offered at the University of New Hampshire.

A comparable course passed with a C grade or better at another accredited institution may be accepted for credit with the approval of the department concerned and the dean of the college in which the student is

registered.<sup>1</sup> UNH students whose status are withdrawn, leave of absence, or suspended due to academic performance may not transfer credits earned during the period of required separation. Any UNH Student whose status is suspended due to a conduct violation may not transfer credits earned during the first semester of their suspension.

UNH students who are ineligible for participation in a UNH-managed/ UNH-approved study away program due to their academic or conduct standing may not transfer credits earned in a study away program to their UNH degree. Students who are eligible must receive prior approval to transfer these credits from UNH Education Abroad/Away by the specified deadlines. Students should contact [UNH Education Abroad](#) for more information regarding eligibility.

Credits for a C grade or above are transferable from one institution to another within the University System (Keene State College, Plymouth State University, and the University of New Hampshire). Grades received in courses for which a student has been granted transfer credit will not appear on the UNH transcript and will not affect the student's grade-point average<sup>2</sup>.

<sup>1</sup>Students are advised to complete a [transfer credit prior approval form](#), before enrolling for such a course at another institution.

<sup>2</sup>Grades received in courses for which a student has been granted study away transfer credit will appear on the UNH transcript and will not affect the student's grade-point average.

## Variable Credit

Credits in a variable credit course are established either by the student with departmental approval or assigned by the department at the beginning of the semester. In either case, the student may make the change in Webcat by the end of the add period.

## Withdrawal from the University

A student may voluntarily withdraw from the University by obtaining, completing, and submitting a withdrawal form from the Registrar's Office through the withdrawal period.

Failure to register in any regular semester or to formally withdraw is considered a lapse in a student's degree status and a transcript notation is recorded "degree status discontinued." The student must subsequently apply for readmission.

If a student receiving federal financial aid officially (W) or unofficially (AF) withdraws from coursework in a term or from a degree program, return policies designated by the U.S. Department of Education will apply.

A prorated schedule is used to determine the amount of federal aid a student has earned at the time of the withdrawal up to the 60% point of a student's enrollment. Unearned aid will be returned to the U.S. Department of Education and the student is responsible to the college for the balance which results.

For students who unofficially withdraw from the term, federal financial aid regulations allow that a student's aid be prorated based on presumed attendance through the half-way point.

If a student withdraws from a course, but is registered for a late start course in the same term (and the drop date has not passed for the late start course), then written confirmation of the student's intent to

return is required to be provided to the Office of Financial Aid or a return calculation will be performed.

Students receiving aid through the Department of Defense's (DoD) Federal Tuition Assistance program are subject to the same prorated schedule of returning unearned aid if the student officially or unofficially withdraws from a course(s). The calculation will be based on the student's last date of attendance in the course(s). The unearned aid will be returned to the DoD. Students are responsible for any balances that results from the calculation. The only exception is when the student stops attending due to military obligation.

## Writing Program & Requirements

In 1995, the Academic Senate established the Writing Program as an expression of the following fundamental values and goals for writing at UNH: *As the cornerstone of any higher education, academic and disciplinary literacy is the concern of the entire faculty and the whole University curriculum. Understanding that literacy is a long-term development process, the University community is committed to the following goals for student writing and learning:*

- Students should use writing as an intellectual process to learn material and to discover, construct, and order meaning.
- Students should learn to write effectively in various academic and disciplinary genres for professional and lay audiences.
- Students should learn to display competence with the generic features and conventions of academic language.

In order to help realize the above goals, writing intensive (WI) courses were established as well as the University Writing Requirement (UWR).

## University Writing Program Requirements

All bachelor's degree candidates are required to complete four writing-intensive courses. In order to fulfill the University Writing Requirement, all undergraduates must complete the following four courses with a passing grade:<sup>1</sup>

- ENGL 401 First-Year Writing
- One Writing Intensive (WI) Course in the Major
- One Writing Intensive (WI) Course at the 600 Level or Above
- One Additional Writing Intensive (WI) Course (any other)

### <sup>1</sup> Exceptions to the Writing-Intensive (WI) Requirement

**Frequently Asked Question:** "Can the same course satisfy the course-in-the-major requirement and the 600-level or above requirement?"

**Answer:** Yes, one course can satisfy both of these requirements (see pattern B below), but the course would only count as one of the three WI courses needed. In this case, the student would need to take two other WI courses (in addition to ENGL 401) to satisfy the requirement. Thus, a complete WI sequence would conform to one of the two generic patterns below:

### A) Separate Courses for the 600+ Level and in the Major Requirements

1. ENGL 401 First-Year Writing
2. WI in the Major (any level)
3. WI @600+ level (any)
4. WI (any)

### B) The Same Course for the 600+ Level and in the Major Requirements

1. ENGL 401 First-Year Writing
2. WI in the Major @600+ level
3. WI (any)
4. WI (any)

Note: the numbers in the above examples are for reference and don't reflect a required sequence. A particular major may have more specific requirements that may depart from the above models.

The Rationale for Writing and Learning at UNH acknowledges that the WI course structure provides a minimum framework for writing in the curriculum and that there will be writing in non WI-designated courses.

The Writing Committee's position is that WI Course Attributes are definitive and that only courses bearing the WI Attribute will count for the WI requirement. In short, students are expected to enroll in UNH WI-designated courses to satisfy the WI requirement.

## Writing-Intensive (WI) Course Identification

WI courses are identified by "Writing Intensive Course" in the "Attributes" section of the course descriptions and/or a W following the course number.

Example:

### CEP 795W (01) - Investigations

Special assignments in readings, investigations, or field problems, or teaching experience. May be repeated.

**Attributes:** Writing Intensive Course

**Instructors:** STAFF

Some courses have both writing-intensive and nonwriting-intensive versions, such as HIST 405 History of Early America and HIST 405W History of Early America. In these cases, only the sections with the "W" in the course number are writing intensive.

## Writing-Intensive Courses Master List

Not all courses below are offered every semester. See the [course schedule](#) for course offerings by semester.

Code	Title	Credits
ACC 724	Auditing	4
ADMN 400	Introduction to Business	0,4
ADMN 444	Business for People, Planet, and Profits	4
ADMN 575	Behavior in Organizations	4
ADMN 720W	Topics in Business	4
ADMN 799	Honors Thesis/Project	4-8
AMST 444C	Picturing America: The Arts & Social Change	4
AMST 444D	Long-Ago Stories Behind Everyday Life	4
ANSC #510	Integration of Culture and Agriculture in Ireland: Past, Present, and Future	2,4
ANSC 522	Ethical Horsemanship - Considerations and Theory	3
ANSC 543	Technical Writing in Animal Sciences	2
ANSC 602	Animal Rights and Societal Issues	4
ANSC 640	Principles of Riding Instruction	4
ANSC 690	Livestock and Wildlife in Namibia: Challenges, Opportunities and Geography	4
ANSC 728	Advanced Dairy Management II	4
ANSC 750	Collaborative Farm Design and Development	4
ANSC 795W	Investigations	1-4
ANSC 799	Honors Senior Thesis	1-4
ANTH 411W	Global Perspectives on the Human Condition: An Introduction to Anthropology	4
ANTH #616	Religion, Culture, and Society	4
ANTH 620	Ritual and Religion of Ancient Mesoamerica	4

## General Information

### The University

UNH offers 275-plus degree programs across 11 schools and colleges to some 14,000 undergraduate and graduate students. There are thousands of courses to choose from, and most enroll no more than 50 students, helping create a 16:1 student-to-faculty ratio that gives UNH students direct access to award-winning faculty. With three out of four undergraduates also completing at least one internship, experiential learning and thoughtful classroom discussions are hallmarks of the UNH experience.

The goal is to help each student become the kind of person the world most needs. And it's working: The UNH Class of 2022 boasts a 94% success rate, with 77% of students employed within 12 months after graduation and another 17% seeking further education. Additionally, the significant majority of employed graduates — 89% — reported that their job was directly or somewhat related to their major. That kind of return on investment is what led UNH to be ranked the No. 1 best value public university in New England for the second consecutive year in 2022 and a top-10 best value public university in the country, according to the Best Value Schools rankings of National Universities by U.S. News & World Report.

UNH students and faculty have been collaborating to make the world a better place for more than 150 years, and not just in the classroom — from the uncharted ocean depths to the edge of our solar system to the Earth we all share, our research transforms lives and delivers solutions to global problems. Powered by more than \$190 million in competitive external support, UNH is one of just 146 doctoral-granting universities in the country — and one of only 47 without a medical school — to earn the "very high research activity," or R1, designation from the Carnegie Classification of Institutions of Higher Education. Undergraduates in every academic discipline enjoy broad access to research experiences — two out of three professors mentor undergraduates on research — and can even get funding to pursue them through the university's Hamel Center for Undergraduate Research. Many conduct independent inquiries, an experience that gives them a leg up on graduate school and employment applications.

We know that students who graduate with hands-on, real-world experience are more likely to have successful careers, so in addition to all the classroom learning and research, UNH offers 250+ study abroad programs, a robust career and internship center and a dedicated fellowships office, all of which help students find opportunities that bolster their academic and career goals. Our entrepreneurship center helps aspiring business owners make their dreams reality.

Academic excellence with an impact beyond the classroom. Top-ranked programs across a remarkable array of majors and disciplines. Inspiring professors who make a difference in the lives of their students. Research

innovation changing the world. Prepared, successful graduates. You'll find all of that and a lot more at UNH.

### Mission

The University of New Hampshire is the state's flagship public research university, providing comprehensive, high-quality undergraduate programs and graduate programs of distinction. Its primary purpose is learning: students collaborating with faculty in teaching, research, creative expression and service. UNH has a national and international agenda and holds land-grant, sea-grant and space-grant charters. From its main campus in Durham, its college in Manchester and the UNH Franklin Pierce School of Law in Concord, the university serves New Hampshire and the region through continuing education, cooperative extension, cultural outreach, economic development activities and applied research.

UNH is distinguished by its commitment to high quality undergraduate instruction, select excellence in graduate education, relatively small size, a location in a beautiful and culturally rich part of the seacoast of New England and a strong sense of responsibility for this special place, a commitment to serving the public good and our emergence over the past decade as a significant research institution. The dedication of our faculty to the highest academic standards infuses all we do with the excitement of discovery.

### Strategic Priorities

<https://www.unh.edu/leadership/future>

UNH President James W. Dean Jr. announced four strategic priorities in January 2019 that continue to guide UNH toward a bold, overarching aspiration — to be among the nation's top 25 public universities in the most important measures of academic performance. Drawing on input from thousands of UNH community members, each of the four priorities includes new and existing initiatives and metrics that will direct and measure progress in these important areas. The list of initiatives is not exhaustive. Rather, it brings attention to some of the leading efforts we are driving to move these strategic priorities forward.

#### Enhance Student Success and Well-Being

##### Aspiration

UNH will ensure that all students graduate on time and are engaged and ethical global citizens. They will be prepared to thrive in their first jobs and throughout their careers. UNH will become a national leader in designing the educational experience from the first year to graduation.

#### Expand Academic and Research Excellence

##### Aspiration

UNH will attract increasingly strong and diverse students and faculty from across the country and abroad. The university will be known and respected for the high caliber of teaching, research and advising in its academic programs. Its distinguished research, scholarship and doctoral

education will be recognized worldwide, including its contributions to global sustainability challenges.

### **Embrace New Hampshire**

#### **Aspiration**

UNH will work hard to make everyone in New Hampshire incredibly proud of their flagship public university. Students will grow up here wanting to come to UNH, and it will be the first choice for the best and brightest students from New Hampshire and around the world. UNH will build collaborations that support New Hampshire's economy and quality of life, sustainability and resilience and will be a trusted, valuable and consistent partner.

### **Build Financial Strength**

#### **Aspiration**

UNH will be a national leader in long-term cost management, sustainable investing and aligning its budget and resources with its strategic priorities. UNH will become more accessible and affordable for students by diversifying revenue sources and managing resource use and expenses. UNH will meet the full range of student needs by providing world-class faculty, facilities and organization.

## **University System of New Hampshire Trustees and Administrative Officers**

<https://www.usnh.edu/trustees>

The University System of New Hampshire is governed by a Board of Trustees comprising the Governor of the State, the President of the Senate, the Speaker of the House, members appointed by the Governor and Executive Council, alumni-elected members, student-elected members, the Commissioner of Education, the Commissioner of Agriculture, the presidents of the University System's colleges and universities, and the Chancellor. The Chancellor is the chief executive officer of the University System. The Board composition is stipulated by State law and is detailed in the USNH Charter, section 187- A: 13.

## Academic and Support Services

The University offers programs and services to help every student get the most out of their college experience.

### Advising Services

Every UNH student is assigned an academic advisor, who provides help in choosing courses and planning a program of study.

### Career and Professional Success (CaPS)

With an uncommon commitment to personal and professional development, Career and Professional Success (CaPS) empowers all UNH students to proactively build the knowledge and skills they need to adapt and succeed in an ever-changing future. We are coaches, connectors, and champions for students and alumni in the Wildcat community. In partnership with faculty, staff, employers, and our global alumni network, we orchestrate opportunities for experiential learning, mentoring, networking, and personal growth, equipping students with the tools to thrive throughout their lives.

For more information about programs, services and opportunities, call (603) 862-2070, email [caps@unh.edu](mailto:caps@unh.edu), visit <https://www.unh.edu/career>, or follow @unhcaps on all major social media platforms.

### Internships

Career and Professional Success supports students in locating pre-professional internships in settings ranging from traditional business and research facilities, to more uniquely tailored environments that reflect academic and career interests. Students who wish to engage in career-oriented work experiences for university credit should consult with an appropriate faculty sponsor in their department regarding established programs and the possibility of receiving academic credit. Many academic departments list internship opportunities and programs on the department website.

Additional paid and unpaid internship postings can be found through UNH's job and internship board, [Handshake](#).

For more information on internships at UNH, call (603) 862-2070 and/or visit <https://www.unh.edu/career>.

### Center for Academic Resources (CFAR)

The Center for Academic Resources (CFAR) offers a holistic approach to our academic-related services for undergraduate students. Our dedicated team of professional educational counselors and student academic mentors are committed to enhancing students' educational experience and academic success. We coach students on how to study smarter in their classes focusing on note taking and reading strategies, exam preparation and taking skills, approaches to problem-solving and language learning, organizational skills, time management, and ability to access and utilize online portals. Using an individualized approach, we bring our valuable academic experiences and specialized training to our student meetings. Our services are easy to access. Students can drop-in Monday through Thursday from 11 to 3 and meet with an academic mentor or educational counselor. Appointments are available Monday through Friday from 9 to 5 through <https://unh.mywconline.com/>. Study tools and STEM resources can also be found on our website. For more information call (603) 862-3698, e-mail [cfar.sss@unh.edu](mailto:cfar.sss@unh.edu) or visit <http://www.unh.edu/cfar>

## TRIO Scholars - Student Support Services (SSS)

The TRIO Scholars (SSS) program is federally funded by the United States Department of Education to increase the retention and graduation rates of program participants. Students are eligible for TRIO Scholars (SSS) if neither parent or guardian has earned a bachelor's degree, if their family income is within program guidelines, or if they have a documented disability.

TRIO Scholars (SSS) participants work with a TRIO Academic Coach to create individualized success plans focusing on academic development, financial literacy, personal development, and professional development to help translate personal goals into action. The TRIO Scholars (SSS) program also includes educational workshops, cultural events, leadership development opportunities, and access to free ongoing, comprehensive tutoring.

The TRIO Scholars (SSS) program is located on the second floor in Smith Hall.

\*UNH TRIO Student Support Services is funded by the US Department of Education and the University of New Hampshire. In 2022-23 federal funding totaled \$379,979. The University of New Hampshire contributed an additional \$88,636 in matching funds. The project was funded to serve 200 students in 2022-23.

## Honor Societies

The University of New Hampshire has a long and strong/valued tradition of recognizing outstanding student academic achievement through election to a variety of honor societies. Some of these national societies recognize performance in any academic field while others are limited to specific disciplines.

Honor societies are most prevalent in colleges and universities. Based on varying criteria of high academic achievement and leadership, students are invited to join most commonly in their junior or senior year. Although initiated into the campus chapter, students become members of the national society for life. For more information visit <https://www.unh.edu/honors-program/national-honor-societies>.

# International Students and Scholars

The Office of International Students and Scholars (OISS) provides a wide range of services to international students, faculty, staff and exchange scholars. These services begin before the international visitors arrive on campus and often continue past the completion of their programs. OISS services include: Preparation of eligibility documents for visa issuance along with pre-arrival instructions and information; Preparation of applications to U.S. immigration offices to secure appropriate work authorization for international faculty and staff; In-depth and engaging orientation programs for new students and scholars covering a variety of issues such as immigration rights and responsibilities, adjusting to life in another culture, working in the U.S., adapting to the U.S. educational system, area attractions and services, and much more; A variety of workshops and seminars covering topics such as immigration and employment and career orientation seminars; Programming and events such as International Education Week, international student and scholar lunches, presentation series, graduation receptions, trips, and much more.

All international students are encouraged to maintain contact with the OISS and are required by law to report changes of address, academic program, or source of educational funds.

OISS also serves as a key liaison between international students, faculty and staff and various other UNH offices and departments. For more information visit [www.unh.edu/global](http://www.unh.edu/global) or call (603) 862-1288.

# Military & Veteran Services

The mission of the Military & Veteran Services Office is to provide the highest quality service and support to Student Veterans, Service Members, and other military-affiliated students such as dependents, as outlined in the Veteran Administration's Principles of Excellence and 8 Keys of Success. Furthermore, we strive every day to ensure that we exceed the University's inclusivity standards as laid out by the University Commission on Community, Equity, and Diversity.

We subscribe to and follow PL 113-146 Section 702, The Veterans Access, Choice and Accountability ACT of 2014.

For more information, please contact:

- Durham Campus - [UNH.Veterans@unh.edu](mailto:UNH.Veterans@unh.edu), 603-862-0643
- College of Professional Studies, Manchester Division - [jennifer.hashem@unh.edu](mailto:jennifer.hashem@unh.edu), 603-641-4329
- College of Professional Studies, Online Division - [karie.thomson@granite.edu](mailto:karie.thomson@granite.edu), 603-513-1364

Or visit the Military & Veteran Services website.

# Psychological and Counseling Services

Psychological and Counseling Services (PACS) is the primary mental health facility on campus. We are fully funded by student fees. Our confidential services are designed to help students who are enrolled

in full-time study to achieve their personal and academic goals. PACS utilizes a brief, solution-focused counseling model. We provide online interactive self-help therapy via WellTrack, individual and group therapy in person and via telehealth, workshops, and consultation with a psychiatrist. We offer crisis counseling in person, during business hours, and after hours, through ProtoCall. Students needing longer term service are offered referrals to other university and community agencies.

We also aim to serve the community while being part of the community. As community members with specialized training in working with the university population, we are knowledgeable about the special needs of students, faculty, staff. A large part of our community work focuses on prevention; we believe that increased awareness of healthy ways to cope with stress can help the UNH community and its individual members achieve their professional and personal goals.

All information about a student's visits to PACS is confidential and cannot be released without the written permission of the student. The University of New Hampshire Psychological and Counseling Services has been accredited by the International Association of Counseling Services since 1978.

For more information, call (603) 862-2090 or visit <http://www.unh.edu/pacs>.

## Student Accessibility Services

Student Accessibility Services (SAS) is committed to establishing a community that ensures full participation for students with disabilities by providing assistance that facilitates independence and academic progress. The office is responsible for determining a range of student supports, including but not limited to academic, housing and dining accommodations. In addition, we are a source of information and referral; a resource and collaborative partner for the campus community; and a point of support and advocacy regarding access issues in general.

All accommodation requests are considered through an interactive accommodations process. This consists of three important steps: (1) register with SAS, (2) submit documentation, and (3) meet with SAS. To learn more about our documentation requirements for both general and housing-only requests, please see our Documentation Guidelines pages on our website. There is no deadline to make contact, complete an intake, or provide documentation, but accommodations cannot be applied retroactively so timeliness of the request is important. Accommodations can also be reconsidered at any time. Should a student have the need to change their accommodations, students should contact SAS to discuss the request.

If you would like to request accommodations or would like to learn more about the services offered within SAS, please contact: For more information call (603) 862-2607 (voice), 711 (TTY) or 800-735-2964 (Relay NH); (603) 862-4043 (fax); e-mail [SAS.office@unh.edu](mailto:SAS.office@unh.edu); or visit <http://www.unh.edu/studentaccessibility>. Student Accessibility Services is located in Smith Hall, Room 201.

## General Information for Students with Disabilities

Students seeking academic or housing accommodations, services, and accessibility should contact Student Accessibility Services (SAS): voice (603) 862-2607; TTY Users: 711 or 800-735-2964 (Relay NH); e-mail [SAS.office@unh.edu](mailto:SAS.office@unh.edu).

Students with disabilities who need accessible UNH housing should contact SAS as early as possible to allow for identification of appropriate accommodation(s) and notification from SAS to Housing. Please visit

[Accessibility & Disability Accommodations, Housing & Residential Life](#) to learn more including information about priority housing deadlines.

For information about dietary restrictions, visit [Nutrition, Dining](#). The UNH Hospitality Service Dietician can help students navigate the dining options and support access to inclusive services.

Most major buildings have ramps and many have elevators and adapted restroom facilities. Contact the [Civil Rights & Equity Office](#), (603) 862-2930, with questions about building facilities.

No otherwise qualified individual may be excluded from or denied access to any program, course of study, or any other offering of the University solely on the basis of a disability. Concerns regarding the institution's compliance with the Americans with Disabilities Amendments Act (ADAA) of 2008, or Section 504 of the Rehabilitation Act of 1973 should be addressed to the ADA/504 Compliance Officer in the [Civil Rights & Equity Office](#) at (603) 862-2930 (Voice/TTY).

## University Advising Center

The University Advising Center provides academic advising to undeclared students in the College of Liberal Arts. The center's professional staff provides assistance to students in clarifying their interests and skills as they relate to developing a program of study at the University and declaring a major, offering opportunities to explore career possibilities.

The center is the primary academic advising resource for non-degree students and assists all students in identifying and connecting with other resources across campus.

For more information call (603) 862-2064 or visit [www.unh.edu/uac](http://www.unh.edu/uac).

## University Writing Programs

The University Writing Programs (UWPs) were created to promote, support and assess writing at the University of New Hampshire. The UWPs are housed in Academic Affairs and report to the Senior Vice Provost for Academic Affairs. The UWPs are contained in a single unit that includes responsibility for the Writing Committee, Writing Across the Curriculum (WAC), the Connors Writing Center (CWC), and the Online Writing Lab (OWL). The curricular component of WAC, consisting of the writing-intensive (WI) courses, is situated within academic departments.

We work with academic units, departments, allied programs, individual faculty, and students to advance the culture of writing at UNH. This approach values and encourages writing as an "activity and subject of study,"<sup>1</sup> not only in writing intensive (WI) classes but wherever writing occurs. Through frequent guided practice, UNH students become accustomed to negotiating the writing process, are more self aware and able to transfer positive writing habits, and can adjust to differing genre conventions. We offer a wide array of services and resources to support students and faculty with their writing-based endeavors in the curriculum.

For more information call (603) 862-3272 or visit [www.unh.edu/writing](http://www.unh.edu/writing).

<sup>1</sup> Adler-Kassner, Linda, and Elizabeth Wardle, *Naming What We Know: Threshold Concepts of Writing Studies*. Boulder: UP Colorado. 2015. 15. Print.

## Connors Writing Center

The Connors Writing Center offers free, one-on-one writing conferences to members of the UNH community: students, faculty and staff. We work with writers from all disciplines on many different kinds of writing. Our

50 minute conferences are conducted by trained writing assistants, who are UNH undergraduate and graduate students.

We work with writers on all types of writing, from analysis essays to lab reports, conference proposals to dissertations. Our conferences are not limited to one specific type of writing or a single academic field—we collaborate with writers from across the university on a large range of academic writing.

Typically, the writers who visit are working on projects for courses. But we also see writers who are working on personal projects, statements of purpose and personal statements for graduate school, and so on.

For more information about resources and services available call (603) 862-3272 or visit [www.unh.edu/writing](http://www.unh.edu/writing).

## Accreditation

The University of New Hampshire is accredited by the New England Commission of Higher Education (formerly the Commission on Institutions of Higher Education of the New England Association of Schools and Colleges, Inc.).

Accreditation of an institution of higher education by the Commission indicates that it meets or exceeds criteria for the assessment of institutional quality periodically applied through a peer review process. An accredited college or university is one which has available the necessary resources to achieve its stated purposes through appropriate educational programs, is substantially doing so, and gives reasonable evidence that it will continue to do so in the foreseeable future. Institutional integrity is also addressed through accreditation.

Accreditation by the Commission is not partial but applies to the institution as a whole. As such, it is not a guarantee of every course or program offered, or the competence of individual graduates. Rather, it provides reasonable assurance about the quality of opportunities available to students who attend the institution.

Inquiries regarding the accreditation status by the Commission should be directed to the administrative staff of the institution. Individuals may also contact:

New England Commission of Higher Education  
3 Burlington Woods Drive, Suite 100, Burlington, MA 01803-4514  
(781) 425 7785  
E-Mail: [info@neche.org](mailto:info@neche.org)

Specialized programs of study are also accredited by various professional organizations.

Veterans and their eligible dependents may apply for educational benefits before the start of each semester. For information, contact the UNH veterans coordinator at [UNH.Veterans@unh.edu](mailto:UNH.Veterans@unh.edu) or by phone at (603) 862-0643.

The University supports the efforts of secondary school officials and governing bodies to have their schools achieve regional accredited status to provide reliable assurance of the quality of the educational preparation of their applicants for admission.

## Admissions

### Durham

[unh.edu/main/admissions](http://unh.edu/main/admissions)

## UNH Durham Campus Degree Programs

UNH welcomes campus visitors year-round. In-person campus tours are led by student admissions representatives who provide a general overview of academic programs and campus life opportunities. Professional admissions staff are available to provide information about the criteria used by the admissions committee in reviewing candidates and to address specific concerns. For further information or to schedule a campus and/or group information session, visit the Admissions website at <http://admissions.unh.edu/visit>. Prior registration is recommended for all in-person visits and students are limited to two guests. More information and requirements regarding the application process to UNH can be found on the following website <http://admissions.unh.edu/apply>.

## Admission Criteria

Admission to a bachelor's degree program is based upon successful completion of a strong secondary school program of college preparatory coursework. Primary consideration is given to the academic record, as demonstrated by the quality of the candidate's secondary school course selections, achievement in their secondary school courses and recommendation. Consideration is also given to character, initiative, leadership, and special talents. In fall 2020, UNH adopted a test-optional policy. Applicants are not be required to submit their SAT and/or ACT test scores for consideration as part of their admissions application. Due to COVID-19, NCAA Eligibility Center also implemented the test-optional policy to students recruited by our intercollegiate athletic programs.

Applicants for admission must, at a minimum, present at least four years of English, three years of mathematics (algebra I, geometry, and algebra II), two years of laboratory sciences (3 years preferred), two years of history or social science, two years of a single world language is preferred and 2 additional full-year college preparatory courses to total 15 units. Some programs may have additional requirements for admission.

Students who plan to pursue a major in engineering, biological/physical sciences, mathematics, or forestry should present at least four years of mathematics including trigonometry, as well as laboratory coursework in chemistry and/or physics. Note that students are required to have a math and laboratory science in their senior year to be competitive for admission to a major in our College of Engineering & Physical Sciences and College of Life Sciences & Agriculture. Students pursuing business-related studies should complete four years of mathematics through their senior year, including trigonometry. For students planning to major in health-related disciplines, four years of math, as well as laboratory courses in biology and chemistry, are strongly recommended. Students interested in nursing must complete high school chemistry.

Applicants may indicate their first and second choice majors on the application for admission. An undecided applicant may apply for admission into a bachelor's program as an "undeclared" student to any one of the University's five college divisions in Durham or at UNH Manchester. For information concerning bachelor and associate degree programs offered through UNH Manchester, visit <http://manchester.unh.edu>; for information concerning the associate degree

programs at the Thompson School of Applied Science, visit <https://colsa.unh.edu/tsas>.

UNH students may request a change in major during their undergraduate years. While most are approved, some majors are more restrictive than others and require the completion of specific coursework and an additional application. Change of major requests are considered after a student has been at the University for at least one semester and has permission from the appropriate college dean and department chairperson.

## Admission Test Requirements

Beginning fall 2020, first-year applicants have the option to submit SAT or ACT scores to be considered as a part of their admission application. Applicants are not required to submit SAT or ACT scores as part of the admissions application process at the University of New Hampshire. When submitting the admissions application, you will be asked "Would you like us to consider your standardized test scores in the admissions decision?" Please note, that once an admissions decision has been made on your application, you may not change your test score preference.

*\*If you enroll as a member of UNH's Class of 2027, you may be asked to submit your test scores after the May 1 deposit deadline for university research purposes only.*

International students whose primary language is not English must provide evidence of English proficiency by submitting the results of a Test of English as a Foreign Language (TOEFL), IELTS or Duolingo. The recommended minimum TOEFL score is 213 (computer version) or 550 (paper version) or 80 (Internet version). UNH also accepts the International English Language Testing System (IELTS) English Language proficiency examination in lieu of TOEFL; the minimum acceptable proficiency grade is 6.5; recommended Duolingo score is 105 or higher. International students who earn a 500 or higher on their ERBW (Evidence-Based Reading and Writing) section of the SAT will be waived the English proficiency test requirement.

## Music Candidates

Candidates applying for programs in the Department of Music must make arrangements with the department chairperson for an audition. Details regarding audition requirements may be obtained from the department, or may be found on the Department of Music website at <http://cola.unh.edu/music>.

## Admission Deadlines

The Office of Admissions welcomes high school students who are interested in being considered for admission to UNH as a first-year student in the fall to apply any time after August 1 at the start of their senior year. The application deadline for Early Action is November 15 and Regular Decision is February 1. Early Action applicants will receive an admissions decision prior to the end of January and Regular Decision applicants will receive an admissions decision prior to the end of March.

Students admitted to UNH are required to confirm their intention to enroll by submitting their enrollment deposit of \$600 by May 1, National College Decision Day. The \$600 enrollment deposit includes both the enrollment and housing fees. Undergraduate first-year and transfer students under the age of 21 are required to [live on campus](#) during their first two years.

The review of first-year candidates begins in November for those applications that are complete. A complete application includes official transcript or grade reports through the end of junior year and a confirmed

senior course schedule, the results of the SAT or ACT (for students who indicate on their admissions application that they would like have their test scores included in the application review process), and a letter of recommendation. To apply as an Early Action applicant, candidates must submit and select the Early Action option on their admissions application by November 15. In some cases, the admission committee will request senior mid-year grade reports in order to make a final admission decision. Students accepted to UNH through the Early Action program are not obligated to enroll at UNH and have until May 1 to submit their enrollment deposit to reserve their space at UNH.

All offers of admission are considered conditional and are subject to the verification of satisfactory senior year achievement when final high school transcripts with a confirmed date of graduation are reviewed by the admissions committee.

## Deferred Admission

Admitted students to the University may request to defer their admission for up to a year. Requests to defer admission enables students to reserve their space at the University while taking a semester or an academic year away from school for work or travel. With few exceptions, UNH will not approve deferral requests in which the student will be taking college coursework elsewhere. Requests for deferrals must be completed and submitted online using the form found on the [admitted student website](#) under the Deferral Information accordion on the bottom of the page. The University may not be able to offer deferred admission in certain program areas.

## Advanced Standing

The University recognizes outstanding secondary school work by means of advanced placement and credit for those who have taken enriched or accelerated courses before entering college. Applicants may qualify for such credit by successfully completing coursework for college credit and satisfactory achievement on University-approved placement examinations, including the College Board Advanced Placement (AP) Tests, International Baccalaureate (IB) Higher Level Examination Test Results, or through the College Level Examination Program (CLEP). Students should have official results sent directly to the Office of Admissions from the testing agency.

The University accepts AP Tests in many subject areas, with credit and course equivalency based on the score achieved. Visit [https://admissions.unh.edu/apply/first-year#collapse\\_4374](https://admissions.unh.edu/apply/first-year#collapse_4374) for further information.

The University awards 8 semester credits for each IB Higher Level Examination Test Result of 5, 6, or 7. The University recognizes up to 32 semester credits of CLEP General Examination tests, which may be applied as elective credit only. Scores must be 500 or better in the humanities, natural sciences, and social sciences-history exams. The minimum score for mathematics is 500 and for the English exam with essay, 500. Subject exams, when applicable, may be used to satisfy either departmental or general education requirements. UNH does not accept all CLEP subject exams.

Maximum credit accepted toward a bachelor's degree for all credit by exam and advanced placement testing is 64 semester hours.

## Associate Degree Candidacy

The University accepts candidates who have demonstrated ability and motivation for learning through academic achievement, work experience, and/or military service for associate in applied science degree programs.

Students may be considered for admission to associate in applied science degree programs offered by the University's Thompson School of Applied Science in Durham, as well as, associate in arts or science degrees at the Manchester campus. Candidates applying as high school seniors must submit the application and secondary school record. The submission of SAT and/or ACT exams are optional. Students granted first-year admission to the Thompson School are eligible to live in a University residence hall.

## Eligibility for Degree Candidacy

Applicants may be candidates for any undergraduate degree offered by the University. However, applicants having a bachelor of arts (B.A.) degree will not be admitted into a program of study that awards the same degree (e.g., B.A. History and B.A. Zoology). Applicants can earn more than one bachelor of science (B.S.) degree, provided that each degree is in a different field. Applicants may also be admitted into a program awarding a different degree (e.g., B.A. History and B.S. Biology; or B.A. History and A.A.S. Applied Animal Science).

## Readmission

An undergraduate who withdraws, does not register for UNH coursework in a given semester, or is suspended or dismissed from the University thereby terminates degree candidacy and must apply for readmission by the following deadlines: fall semester, June 1; spring semester, November 1. Readmission applications are processed in the Office of Admissions; however, decisions regarding readmission are made in consultation with the Division of Student and Academic Services and the dean's office of the University college division to which the student is applying.

Before seeking readmission, students on academic suspension must remain away from school for at least one semester. Students suspended for academic reasons should include a statement about their readiness to resume University work with their application.

Only under extraordinary circumstances will students be readmitted after dismissal for academic reasons. Applications submitted by dismissed students are reviewed by the University's Academic Standards and Advising Committee.

It may not be possible for readmission applicants to enroll in programs with established enrollment limitations.

## Transfer Students

UNH encourages applications from transfer students. Admission consideration includes review of course selection, academic achievement, and the extent to which that selection addresses the University's general education requirements. Transfer credit is awarded for completed courses taken at an institution that is fully accredited by one of the regional accrediting associations with a grade of C or better, provided those courses are comparable to courses offered at UNH. Each course must carry at least 3 semester credits and receive a letter grade to qualify for general education consideration.

The application deadline for fall semester admission is April 1; October 15 is the application deadline for spring semester. Some programs have enrollment limitations and may not be open to transfer students.

Students enrolled in one of the University's associate degree programs who desire admission to a bachelor's degree program at UNH must apply as transfer students through the Office of Admissions.

Transfer students over the age of 21 may contact the Department of Housing at (603) 862-2120 to determine the availability of on-campus housing. Please note that on-campus housing is not guaranteed to transfer students over the age of 21.

## New England Regional Student Program

The University participates in the New England Regional Student Program, in which each state college and university in New England offers certain undergraduate majors to students from other New England states. Under this program, admitted students from other New England states pay a reduced tuition rate. Students must indicate on their admissions application the specific major for which they are applying. Information about the curricula may be obtained from:

The New England Board of Higher Education  
45 Temple Place  
Boston, MA 02111  
[www.nebhe.org](http://www.nebhe.org), or (617) 357-9620.

Visit <http://admissions.unh.edu/tuitionfees/new-england-regional-student-program/> for available UNH majors through this program.

## Full-Time Special Student Status

UNH offers a special student classification for persons who wish to participate in University coursework on a full-time basis without entering a degree program. In evaluating requests for special full-time status, the Office of Admissions generally applies the same criteria used in the review of applicants for admission to degree candidacy. Full-time special students have full access to academic support services but are not eligible for University-based financial aid. Students must maintain satisfactory achievement to continue with University coursework. Full-time special (non-degree) students register for coursework through the Registrar's Office.

## Resident Status

All students attending any division of UNH in any capacity shall be charged tuition at a rate to be determined by their primary, legal domicile. Those domiciled within the state of New Hampshire pay the in-state rate. Those domiciled elsewhere pay the out-of-state rate.

Students are classified as residents or nonresidents for tuition purposes at the time of admission to the University. The decisions, made by the Office of Admissions, are based upon information furnished in students' applications and any other relevant information.

All enrolling students living in New Hampshire are required to complete an electronic NH residency statement to the effect that they, if financially independent, or their parents/guardians, if financially dependent, have been legally domiciled in New Hampshire continuously for a period of at least twelve months immediately prior to registering for the term for which the student is claiming in-state status. The electronic NH residency form can be found as a required checklist item in their [application portal](#) after they submit their admissions application to UNH. Should you have issues accessing the NH residency form in your application portal, please contact the Office of Admissions via email at [admissions@unh.edu](mailto:admissions@unh.edu). Students admitted from states other than New Hampshire or from foreign countries are considered nonresident throughout their attendance at

the University unless they have acquired bona fide domicile in New Hampshire.

If students maintain residency apart from that of their parents/guardians, they must clearly establish that they are financially independent and that their residence in New Hampshire is for some purpose other than the temporary one of obtaining an education at the University. To qualify for in-state status, students must have been legally domiciled in New Hampshire continuously for a period of at least twelve months prior to registering for the term for which in-state status is claimed.

The burden of proof in all cases is upon the applicant. The University reserves the right to make the final decision concerning resident status for tuition purposes.

A copy of the rules governing residency may be obtained from the Office of Admissions and on the following website: <https://www.usnh.edu/policy/bot/iv-financial-policies/e-classification-students-tuition-purposes-residency-rules>

## Manchester

[manchester.unh.edu/admissions](https://manchester.unh.edu/admissions)

## Manchester Campus Degree Programs First Year Students

*Individuals that have never enrolled at a college or university, or have earned less than 16 credits in college coursework.*

- [Admissions Criteria, Application Requirements and Deadlines](#)

### Transfer Students

*Individuals that have previously been enrolled at another college or university, or have earned more than 16 credits in college coursework.*

- [Admissions Criteria, Application Requirements and Deadlines](#)

### Additional Resources

- [Application forms and deadlines](#)
- [Military & Veteran Students](#)
- [International Students](#)
- [Previously Enrolled UNH Students](#)

## CPS Online

[cps.unh.edu/online/apply-register](https://cps.unh.edu/online/apply-register)

## College of Professional Studies (CPS) - Online Division Degree Programs

Applications to programs within CPS Online are free and reviewed on a rolling basis. Individuals can apply at any time and enroll in any term during the year.

### Admission Requirements

Admission to associate and bachelor's degree programs require a high school diploma, homeschool equivalent, or GED.

Students who have earned college credit at another institution and would like it evaluated for transfer credit should complete the appropriate

information on the application. Official transcripts are required for each college indicated.

Some majors offered by CPS Online have additional admissions criteria. These programs include the RN to BSN, Allied Health Leadership, Applied Studies, and Fire Service Administration. See program pages for more information on specific admissions criteria.

### Additional Resources

- [Military & Veteran Students](#)
- [International Students](#)
- [Transfer Credit Evaluation](#)
- [Teacher Certification Programs](#)

## Degree Status

### Inactivation and Withdrawal

CPS Online monitors the progress of degree candidates. A student who is not actively involved in learning experiences in a degree program for a period of three consecutive semesters (including summer) will be inactivated. A student may voluntarily withdraw from a degree program by notifying the College in writing. If requesting withdrawal from a degree program, a student will be considered inactive.

### Reactivation/Readmission

Students who have been inactivated for a period of less than one year will complete a Request for Reactivation Form with their Academic Advisor and will be readmitted under original degree requirements, following all policies and procedures in effect at the time of inactivation.

Students requesting readmission one year or more after the date of inactivation must submit a new application.

To protect the privacy of student data, CPS Online follows a record retention schedule and transcripts from other institutions are periodically destroyed in that process. Students who return after an extended absence may be asked to resubmit official transcripts from any previously attended institutions.

States occasionally change their rules and regulations regarding professional licensure and certifications, which may affect the College's authorization in a state. Students in professional licensure or certification degree programs may not be eligible to return to active status if the College is no longer authorized to offer a program in their state.

## Fees and Expenses

The expected cost for 2023-2024 at the University can be found on the UNH Student Accounts [website](#) for the most up-to-date listing of rates.

UNH bills are sent electronically only. Bills are posted to student [Webcat](#) accounts. Students are notified through UNH assigned e-mail addresses when new bills are posted.

## Tuition

Tuition and fees are established by a vote of the Board of Trustees. Approval normally occurs between April and July. The current academic year tuition rates are published annually on the University's [Tuition and Fees](#) page.

Students are charged based on full-time registration (12-20 credits). Students registering for fewer than 12 credits must contact

student accounts for tuition and fee adjustments by emailing [student.accounts@unh.edu](mailto:student.accounts@unh.edu). Undergraduates registering for fewer than 12 credits pay the per-credit hour charge, plus a registration fee per semester. Tuition can vary based on the program enrolled in and/or major. Please see the Student Accounts [Tuition and Fees](#) page for more information.

Courses taken for audit by degree students are charged at the same rates as for-credit registration. Undergraduate students who are already registered full time and are paying full time tuition may audit classes with no additional tuition charges (special fees will apply).

Students studying abroad are charged based on conditions outlined within their specific program. For more information see [UNH Global](#).

### **Tuition Overload**

Undergraduate students are permitted to enroll for more than 20 credits upon approval of their college or school dean. Persons carrying more than 20 credits thirty days after the semester has begun will be billed a per-credit fee for each credit above 20 credits unless auditing. For information, see [Tuition Surcharge](#).

### **Tuition Differential**

Tuition differential charges apply to some majors. Students in the College of Engineering and Physical Sciences (CEPS), including engineering and computer science, and the Peter T. Paul College of Business and Economics (PAUL) will be charged a tuition differential. The differential is the same rate for both N.H. residents and non-resident students. CEPS and PAUL students who register for fewer than 12 credits pay a differential per-credit hour. Music majors are charged an applied music fee each semester. Please see the Student Accounts [Tuition and Fees](#) page for more information.

### **Account Adjustments**

Students who withdraw or drop to part-time status may be eligible for a refund of tuition and fees. For most students refund is as follows; one hundred percent of tuition, mandatory fees and course fees will be refunded until the second Friday of the semester, one-half after the second Friday and until the fifth Friday; and none thereafter. Non-standard programs may have program specific refund deadlines, check the [UNH Academic Calendar](#). The refund policy also applies to students reducing their credit load from full to part-time. This refund policy does not apply to students who withdraw from off-campus programs or programs which use nonstandard semester calendars.

All registration, refund, and add/drop deadlines can be found on the [UNH Academic Calendar](#). Student accounts will be adjusted based on course registration. Students who withdraw or drop to part-time status after classes begin may be penalized based on the drop date of the course(s). Refund of tuition, fees, and other charges associated with the course(s) drop are dependent upon the drop date of the course(s). Students will not be refunded tuition, fees or associated charges for courses dropped after the refund period.

Financial Aid on the student account may also be adjusted due to adjustments in course registration. For information, contact [UNH Financial Aid Office](#). Students receiving federal financial aid will have their refund calculated in accordance with the U.S. Department of Education regulations in effect at the time of their withdrawal. Specific details regarding the regulations are available from the [UNH Financial Aid Office](#).

## **Fees**

Fees vary based on the program enrolled in and/or major. Students enrolled in courses on the Manchester campus are subject to campus based mandatory fees. For information see, [UNH Manchester tuition and fees](#).

Undergraduate online programs are charged per credit hour with fees associated. For more information see the [College of Professional Studies](#).

Continuing Education courses are charged per credit hour with fees associated. For information see [Continuing Education Tuition](#).

Mandatory fees are not charged for students registered for 4 credits or fewer. However, those students will be charged a technology fee per term. For information see the Student Accounts [Tuition and Fees](#) page.

Mandatory fees for students participating in UNH Study Abroad Programs are waived through the billing process, with noted exceptions.

### **Administration Fee**

New undergraduate students are charged a one-time administration fee which supports first-year initiatives, transfer student programming and related undergraduate initiatives to support new students' transition and success.

### **Registration Fee**

Undergraduates registering for fewer than 12 credits pay the per-credit hour charge, plus a registration fee of \$20 per semester.

### **Special Course Fee**

A special fee is charged to students to recover the extra costs of materials and supplies not normally covered by the instructional budget and fundamental to the special instructional activities associated with a specific course. This fee may include the cost of labs/studios, special equipment, and/or field trips. These fees are noted in the course descriptions and are assessed to all students enrolled in the course.

### **Student Health Benefit Requirement**

As a condition of enrollment, all full-time students will be required to carry health insurance, excluding those enrolled in a fully online program. Students may elect coverage under the University's student health benefits plan or may waive the requirement by providing proof of adequate coverage through another plan. International students with F1 or J1 visas are required to enroll in the UNH-sponsored coverage. There are no exceptions to this policy. Any exceptions to this policy are at the discretion of the UNH SHBP Coordinator.

## **Mandatory Fees**

The University assesses mandatory fees to support expenses associated with participation in an academic community. Mandatory fees are defined as fees that all students are assessed as a prerequisite for registration unless specifically exempt. Mandatory fees are not charged based on the extent of students' usage of the facilities or services supported by the fees. It is recognized that not all students will use the benefits and privileges made available by fee-supported activities to an equal extent. Mandatory fee charges are based on registration status: full-/part-time, depending on the number of credit hours registered.

### **MANDATORY FEES INCLUDE**

**Technology Fee-** for support of Informational Technology services

- Student computing clusters
- Walk-in Help Desk services
- Technology-enhanced classroom infrastructure
- Technology liaisons; Webcat, Student Email, Canvas
- Technology-enhanced learning

**Memorial Union Fee-** for the use and administration of the student union

For information, see [Memorial Union](#).

**Recreation Fee-** support of programs and facilities to support an active lifestyle.

- Programs include:
  - Group Exercise
  - Intramural Sports
  - Aquatics
  - Outdoor Adventures
  - Instructional Programs and Sports Clubs
- Facilities Include:
  - Hamel Recreation Center
  - Swasey Indoor Pool and Outdoor Pool
  - Tennis Courts and other Outdoor Fields

**Whittemore Center Fee-** for the use and administration of the Whittemore Center

For Information, see [Whittemore Center](#).

**Student Activity Fee-** for support of various undergraduate activities and events

- The undergraduate newspaper
- Yearbook
- Student government
- Student organizations
- Student radio station
- Movies at reduced rates

**Transportation Fee-** for support of student transportation via Wildcat Transit and Campus Connector.

**Student Athletic Fee-** for support of athletic programs

- Admittance to all home games of organized sports at UNH
- Financial support for athletes and athletic teams

**Health & Wellness Fee**

For information, see [Health and Wellness](#).

**Psychological & Counseling Services Fee (PACS)**

For information, see [PACS](#).

**Sexual Harassment and Rape Prevention Program (SHARPP)**

For Information, see [SHARPP](#).

**Career and Professional Success (CAPS)-** support for success after graduation

- Internships
- Career Advising and Resources
- Assessments
- Employer relations
- Interview preparation
- Mentoring

### Exceptions

Exceptions apply to only the fall and spring semesters. Exceptions do not apply to fees covering the following services: Technology Fee, Health and Wellness Fee, Career & Professional Success (CaPS) Fee, Psychological & Counseling Services (PACS)/Mental Health Fee, and SHARPP fee.

Students who are residing outside of the immediate geographic area for a semester and whose courses, fieldwork, internship(s), or other academic work are fully outside the immediate geographic area for a semester may petition for exception. The immediate geographic area referenced is defined as a 25-mile radius around the Durham or Manchester Campus. The University will use course registration information to verify remote status.

Students who meet criteria for exception must submit a Mandatory Petition Form each semester. The forms are available from UNH Student Accounts.

Any conflicts resulting from this procedure will be adjudicated by the Provost and Vice President for Academic Affairs and the Chief Financial Officer or their designee.

## Food and Housing

Charges placed on the student account are dependent on the student's housing agreement and housing and food selections. For more information, see [Housing & Residential Life](#) and [Dining](#).

For returning students, no deposit is required; instead, a cancellation fee will apply if the housing agreement is cancelled. For information on how to cancel your agreement, see [Housing & Residential Life](#).

Cancellation of the agreement due to failure to occupy, by mutual consent, by disciplinary, or non-renewal actions does not guarantee a refund. For information on how to cancel your agreement, see [Housing & Residential Life](#).

If the agreement is canceled, any refund generated from cancellation of the agreement will first be applied to any unpaid University charges.

For more information students should refer to their food and housing agreement, see [Housing & Residential Life](#).

## Rebates

Any amount owed to the University will be deducted from any rebate due to a student.

## Enrollment Deposit

New undergraduates in Durham and Manchester pay enrollment deposits. These funds will be applied to the first semester charges.

## Billing & Payment

Electronic billing statements are sent monthly. Bills are available in [Webcat](#). Students are notified through UNH assigned e-mail addresses

when new statements are posted. Students are responsible for monitoring their UNH email address for billing notifications. Designated Parent Portal contacts are also emailed when new statements are generated and are available to view online through the [Parent Portal](#).

Payment must be physically received (not postmarked) in full for tuition, fees, food, housing, and other semester charges by the due date. A late fee may be assessed to student accounts not paid in full by the payment due date. Student accounts not paid in full within thirty days after the payment due date may be assessed additional late fees, default charges, interest and/or collection costs, and the student may be disenrolled from classes.

UNH offers a monthly payment plan. Payment plans must be activated each semester; the payment plan does not extend to the following semester. An enrollment fee is required to participate in the payment plan. The first payment is due upon enrollment. Subsequent payments are due on the first of each month and are automatically deducted from the payment method designated. Adjustments to the payment plan are the responsibility of the plan holder, please check your monthly statement to determine if adjustments are required. Payment plans are accessible in Webcat and Parent Portal.

Students and Parent Portal users can view a history of electronic statements and payments and access a real-time view of their accounts online. Payment may be made online, or the bill may be printed and mailed with payment. Credit/Debit card transactions will be charged a nonrefundable service fee.

### New Hampshire Residency

Each student is classified as a resident or non-resident for tuition purposes at the time of admission to the University. The decision is based upon information furnished by the student's application and any other relevant information.

All applicants claiming New Hampshire residency are required to have been legally domiciled in New Hampshire continuously for at least twelve months immediately prior to registering for the term for which in-state status is claimed.

Students admitted from states other than New Hampshire or from foreign countries are considered nonresident throughout their entire attendance at the University unless they have acquired bona fide domicile in New Hampshire. Changes in residency for enrolled students as well as appeals are reviewed by the Registrar's Office and will only occur if the student can clearly establish that his or her residence in New Hampshire is for some purpose other than the temporary one of obtaining an education at the University.

The burden of proof in all cases lies upon the applicant. In all cases, the University reserves the right to make the final decision as to resident status for tuition purposes. The University rules governing tuition rates are fully set forth in the application for admission package; all students are bound by them.

### New England Regional Student Program

The University of New Hampshire participates in the New England Regional Student Program administered by the New England Board of Higher Education (NEBHE). Under this program, admitted students from New England may qualify for regional tuition rates.

To qualify, the program to which they are admitted must be one that is not available at any of their home state/public institutions. Inquiries about

the NER program may be directed to the [New England Board of Higher Education](#).

## VA Educational Benefit

In accordance with 38 USC §3679(e), students using VA Chapter 33 Post-9/11 GI Bill® or VA Chapter 31 Vocational Rehabilitation will not accrue late fees for unpaid bill items covered by their VA educational benefit while waiting for disbursement of the aforementioned funds to UNH. Furthermore, students certified as using these VA benefits will not be precluded from attending classes, utilizing library or other institutional facilities, or be required to borrow additional funds because of their inability to meet their financial obligations to UNH due to delayed disbursement of funds from VA under Chapters 31 or 33. However, students may accrue late fees as applicable to unpaid bill items other than tuition and fees covered by Chapters 31 or 33. Moreover, UNH reserves the right to impose a late fee if the difference between the amount of the student's financial obligation and the amount of the VA education benefit disbursement remains unpaid after student bills are due. Differences may be a result of, but not limited to, charges for housing, meal plans, parking permits, or if the student is not entitled to 100% of Chapter 33. GI Bill® is a registered trademark of the U.S. Department of Veterans Affairs (VA). More information about education benefits offered by VA is available at the official U.S. government Web site at <https://www.benefits.va.gov/gibill>.

## Financial Aid

The [University Financial Aid Office](#) assists students who are unable to meet educational expenses entirely from their own family resources. Aid is available in the form of grants and scholarships, loans, and part-time employment. The financial aid website gives program information, application procedures, and deadlines.

In many communities, scholarships and loans are available locally. School principals and guidance counselors have information about these sources of assistance, which are available to both high school seniors and adult students.

Before applicants may be considered for assistance by the University, they must submit the [Free Application for Federal Student Aid \(FAFSA\)](#).

The financial aid application priority consideration deadline for aid awarded by the University is March 1. In order to receive a timely award this is the date by which your fully completed FAFSA should be received by the federal processor.

It is the University's position that the student applicant is accountable for the accuracy and timely submission of the FAFSA. We realize that in most cases a student's parent(s) also participates in completing the form. However, it is the student who is ultimately responsible for monitoring the application process. Students should not wait until being admitted to the University before applying for financial aid.

In order to be considered for need-based assistance, students must submit a FAFSA each year.

Note: There is reference on the FAFSA to a "deadline" of June 30. Do not be misled by this date. It is not the financial aid deadline at UNH or most other colleges.

## Grants and Scholarships

Admitted undergraduate degree candidates who will attend UNH on a full- or part-time basis may be considered for tuition grants and University scholarships. The basic consideration is financial need, although some scholarships are awarded on the basis of scholastic attainment, participation in extracurricular activities, or meeting specific requirements of a donor.

The University participates in the federally sponsored Federal Supplemental Educational Opportunity Grant Program, which is designed to assist needy students who are admitted degree candidates.

## Federal Pell Grant Program

Students may apply directly to the federal government for a Pell Grant using the FAFSA.

## Loan Programs

Matriculated students enrolled on a full- or part-time basis who have completed the financial aid process will be reviewed for the federal government's Direct Student Loan Program.

## Part-Time Employment

The Federal Work-Study Program, both academic year and summer, assists students who, as determined by the Financial Aid Office, need financial assistance for their educational expenses. Admitted undergraduate and graduate degree candidates attending at least half time are eligible for consideration.

Students who do not qualify for the Work-Study Program may find part-time employment on or near campus.

## ROTC Scholarships

Reserve Officer Training Corps scholarships are offered on a competitive basis by both the Army and the Air Force. Entering freshmen may compete for four-year scholarships during the last year of high school. A variety of scholarships are also available to students already attending the University.

Scholarships pay up to full tuition, all mandatory fees, and for required textbooks. In addition, all scholarship recipients receive a tax-free monthly subsistence allowance. Finally, students with a four-year or three-year ROTC scholarship compete for a room and board grant for the entire time they are on the scholarship.

For more information, contact the Admission Officer: Army ROTC at (603) 862-7075, or Air Force ROTC at (603) 862-1480.

<https://www.unh.edu/financialaid/>

## Health & Wellness

The University has a nationally-accredited health and wellness program.

## Our Mission

Health & Wellness provides whole person-centered care and services, illness prevention and health promotion, co-curricular learning opportunities, and public health leadership and expertise. All are tailored to support our students' health, well-being, and personal development, the health of the campus community, and the mission of our University.

Health & Wellness is accredited by the Accreditation Association for Ambulatory Health Care (AAAHC).

## Health & Wellness Fee

All UNH students who take five or more credit hours/semester are required to pay the UNH Health & Wellness fee. This fee allows students to access services at Health & Wellness on campus and covers many services at no or reduced cost. When combined with a student's health insurance coverage, the Health & Wellness fee provides for a complete health care package. A student's health insurance is never billed for services covered by the UNH Health & Wellness fee.

## Health Insurance

University policy requires full-time degree students that are enrolled in at least one in-person course to have health insurance as a condition of enrollment. Some students have the option of waiving this requirement if they present proof of adequate coverage; alternatively, students can acquire an affordable health benefits plan sponsored by the University: the UNH Student Health Benefits Plan (SHBP). International students with F-1 and J-1 visas are required to purchase the SHBP. [Learn more about the SHBP and the waiver process.](#)

## Health Record Requirement

Undergraduate students who have been formally accepted to a degree program are required to have health information on file with UNH Health & Wellness. The three requirements to be completed and submitted by the student online are:

1. a physical assessment,
2. immunization form, and
3. a health history form.

## Immunizations

Prior to matriculation at UNH, all students that are enrolled in at least one in-person course at UNH are required to provide proof of immunization or demonstrate their immunity to specific vaccine-preventable diseases as outlined in the Student Rights, Rules, and Responsibilities [Immunization policy](#).

Documentation of proof of vaccination or immunity is required and is typically shown on the immunization form. It is the responsibility of students to provide the documentation before attending any classes. Any student failing to complete these requirements may be prevented from registering for future classes.

*These health forms are required before moving into residence halls and starting classes. Failure to submit forms may prohibit students from moving into their residence halls until they are compliant.*

[Learn more about incoming student health record requirements.](#)

## Medical Services

UNH Health & Wellness provides comprehensive, student-focused, primary medical care through a team approach. The clinical staff consists of board-certified physicians, nurse practitioners, nurses, and medical assistants who are committed to prevention and holistic care. Primary medical care is provided for a variety of common concerns. Examples include respiratory illnesses (including asthma), infections, injuries, skin concerns, digestive disorders, allergy/immunization services and travel health consultation, mental health, and gender-affirming care. Sexual/

reproductive health services include contraceptive services, cervical cancer (Pap smears) screening/prevention, testing and treatment for sexually transmitted infections, pregnancy testing and counseling, limited sexual assault services, and more. Health resource nurses provide chronic illness support and assist with problems arising from hospitalization.

Students may speak by telephone with a health resource nurse for advice at any time, and after-hours nurse consultation is available when UNH Health & Wellness is closed. On-site clinical support services include laboratory services, radiology, and pharmacy. Not all services are available during the summer or breaks. Read more [about medical services](#).

For [emergencies and after-hours care](#), well-staffed and well-equipped urgent care centers and community hospitals are nearby, and an emergency ambulance service is available in Durham at all times.

## Living Well Services

Living Well Services coordinates health promotion activities on campus. Services provided include educational programs, workshops, and classes; individual wellness counseling and coaching to promote healthy lifestyle choices, including alcohol and other drug counseling, nicotine cessation services, nutritional counseling, wellness coaching (e.g., stress, sleep, behavior change, etc.); and integrative mind-body services, including biofeedback, light therapy, and massage therapy. Read more about [Living Well Services](#).

## Library

The UNH Library supports the educational and research activities of the students, faculty, and staff of the University of New Hampshire as a research-level library. Experienced research assistance along with group and individual instruction helps students learn how to efficiently research and critically evaluate information. The Library provides access to an extensive collection of electronic resources (e-books, digital collections, an institutional repository, indexes in many subject areas, statistical data sets, and databases supplying full-text journal and newspaper articles) 24/7 at [library.unh.edu](http://library.unh.edu).

The Library has approximately 2.7 million print and electronic items and more than 140,000 print and electronic serial subscriptions and is active in digitizing, preserving, and making accessible materials in its collections. Dimond Library houses collections in the social sciences, humanities, business, health and human services, education, and earth sciences and is the regional depository for federal government publications (including maps). It is also home to the Connors Writing Center, the Academic Technology Support Center, and Zeke's Cafe. Special Collections and Archives collects rare books, manuscripts, and University publications and papers. In addition to the main Dimond Library, there are three branch libraries for physical sciences and engineering that offer customized services for the UNH scientific and engineering communities.

The library's holdings are supplemented by access to the collections of Boston Library Consortium member libraries as well as library collections around the globe through interlibrary loan. The UNH Library shares resources with the campus library at the University of New Hampshire at Manchester and collaborates with the UNH School of Law library. All library locations offer wireless Internet access, computer workstations, individual study areas, and collaborative group work spaces. Dimond Library offers seating for more than 1,200 in a variety of settings.

For additional information about UNH Library resources, services, and expertise, please visit <https://www.library.unh.edu> and for the latest Library information and news, follow us on Instagram, Facebook or Twitter @unhlibrary.

<https://www.library.unh.edu>

## College of Engineering and Physical Sciences

Cyndee Gruden, Dean

Sharon McCrone, Associate Dean for Academic Affairs

The College of Engineering and Physical Sciences (CEPS) provides an opportunity for students to achieve educational objectives appropriate to their interests in engineering, computer science, information technology, mathematics, the physical sciences, and the teaching of mathematics and physical sciences. The college offers an education in each of its primary disciplines leading to the bachelor of science, as well as bachelor of art degrees with majors in mathematics and each of the three physical sciences. All programs include an opportunity for study in the arts, humanities, and social sciences.

The key to an undergraduate program in the college is flexibility, with a strong emphasis on personal and individualized education. In addition to specific programs, a wide range of options within several majors are available. Special programs can be developed to meet the specific interests of individual students.

### Degree Requirements

MATH 425 Calculus I and MATH 426 Calculus II or the equivalent in transfer credits or advanced placement approved by the Department of Mathematics and Statistics are required by all departments of the college. The exceptions to this are the information technology major and the three computer science bachelor of arts majors, which only require MATH 425 Calculus I. The prerequisites for calculus are three years of college-preparatory mathematics, including a half-year of trigonometry. Before students can register for MATH 425 Calculus I, they are required to take the Mathematics Placement Test or to have taken MATH 418 Analysis and Applications of Functions (or its equivalent) and received a grade of C or better.

### Mathematics Placement

First-year students arrive with a wide range of mathematical skills based upon their high school preparation. The college wants students to have a solid mathematics foundation so that they will enjoy an enriched first-semester experience. A student's mathematics development will be assessed as part of the June orientation program. Based upon the Mathematics Placement Test, students are enrolled in the mathematics class that will allow them to continue that development. The initial mathematics entry course is MATH 418 Analysis and Applications of Functions. However, a student is placed into MATH 425 Calculus I if he or she demonstrated a certain level of proficiency in algebra and precalculus through the Mathematics Placement Test. Students with AP credit for Calculus I and/or Calculus II may elect to accept those credits and continue with a math course at the next level.

### Degrees OFFERED

The college offers two undergraduate degrees: the bachelor of arts and the bachelor of science. Some of the courses prescribed in these degree programs partially fulfill the University's Discovery requirements. There

are entrance requirements in some programs, and it is not possible to guarantee all change-of-major requests. Students should see their advisers for specific information.

### **Bachelor of Arts**

Programs leading to a bachelor of arts degree are offered in the departments of chemistry, computer science, earth sciences, mathematics, and physics. These programs provide a broad liberal education along with a major in one of these fields.

### **Bachelor of Science**

The programs leading to the bachelor of science degree, offered in each of the departments of the college, emphasize students' preparation for a professional career and continuing or graduate education.

## **INTERDISCIPLINARY PROGRAMS**

### **Bachelor of Science in Environmental Sciences**

The Environmental Sciences program is offered jointly with the College of Life Sciences and Agriculture (COLSA).

### **Architectural Studies Minor**

The Architectural Studies Minor is managed jointly by the Civil Engineering Department, and Art & Art History Department in the College of Liberal Arts (COLA).

## **OTHER Combined Programs of Study**

In addition to pursuing a single major, students may combine programs of study as follows:

*Minors:* Students may pursue one or more minors, each typically comprised of 5 courses. Minors enable students to obtain experience in a specialized area and to retain identification with their major professional area. Minors are available in nearly every discipline within the College of Engineering & Physical Sciences.

*Cognates:* Students may pursue one or more cognates, each typically comprised of 3 courses and intended to develop career-oriented skills. Cognates in the College of Engineering & Physical Sciences are:

- [Computer Programming](#)
- [Information Technology](#)
- [Skills and Perspectives for the Digital World](#)

*Second majors:* Students may choose to fulfill the requirements of two dissimilar major programs.

*Dual majors:* Students may choose to fulfill the requirements of a dual major, typically comprised of 8 courses. Dual majors are designated programs that must be paired with another major of any discipline.

*Student-designed majors:* Under special circumstances, students may design their own majors. Proposal guidelines are available in the Office of the Provost and Vice President for Academic Affairs and on the Academic Affairs website, <https://www.unh.edu/provost/student-designed-majors-sdm>.

*Dual-degrees:* Students may choose to fulfill the requirements of two separate degrees, such as a B.A. and a B.S.

*Accelerated Master's programs:* Students with senior standing and a minimum 3.20 cumulative grade-point average are eligible to take

up to 12 credits of graduate level courses prior to completing their undergraduate degree, provided they have been admitted to the Graduate School.

### **Special Provisions**

The requirement of a given topic/course prescribed to meet the requirements of major curriculum may be waived by the faculty of a student's department. This rule offers students the opportunity to develop a somewhat individualized plan of study with intellectual incentives and opportunities in addition to those found in a regular curriculum. The student's petition must be approved by their major advisor and the dean of the college.

### **Undeclared**

Students who are uncertain about choosing a specific major may remain undeclared in the College of Engineering & Physical Sciences during their freshman and sophomore year. All first year undeclared students in the college will take two 1-credit seminar courses, TECH 400 Introduction to CEPS Programs (fall) and TECH 402 Introduction to CEPS Career Exploration (spring) in addition to their other required courses.

## **Special Programs**

### **Research Opportunities**

The talents and expertise of the faculty in all departments are reflected in the number of ongoing research projects. Undergraduates are included in many of these research projects with the intent that they will discover and foster their creative talents. When involved with a funded research project, students may have an opportunity to receive pay while learning about the research area.

The college has world-class laboratories and computer facilities in many areas. A few of these are coastal and ocean mapping, space science, environmental engineering and science, fluid dynamics, wind turbulence, information systems, materials science, nanotechnology, sustainability, and medical imaging. These and other ongoing research areas within the college are described on the college's website: <https://ceps.unh.edu/research-facilities>.

Students have the opportunity to acquire applied experience by working with faculty members who undertake sponsored professional projects in technical and managerial areas for business, industry, and federal, state, and local governments.

### **Innovation Scholars Program**

The [Innovation Scholars program](#) is a research driven introduction to the university for first-year students. Students will be part of a cohort of students under the direction of a faculty member that guides them through a year-long research experience culminating in a presentation of research results at the Undergraduate Research Conference or equivalent activity. Participants will develop skills that will open doors of opportunity at UNH and more broadly, and experience the interconnectedness of UNH scholarly activity with UNH Innovation and UNH Career and Professional Success.

There are currently four research topics, including advanced manufacturing; internet engineering; ocean and environmental sensing; and biomaterials. Most cohorts work within a specific laboratory setting, including the Olson Advanced Manufacturing Center, Chase Ocean Engineering Laboratory and the UNH InterOperability Laboratory, to conduct their research. Students participating in the Innovation Scholars program will be enrolled in a

2-credit seminar both semesters of their first year for weekly cohort meetings.

### Independent Study and Projects

All departments within the college offer independent study opportunities and projects. The content of these courses varies and is based upon current scientific and technological needs in addition to the interests of the student and faculty involved.

Permission of the faculty member and/or department chairperson is required. One should review the course descriptions for the independent study and project courses for specific requirements. Students interested in working with a faculty member on a project or independent study should discuss this with the faculty member and their academic adviser prior to registering for the course.

### Preparing for Teaching

Degrees in mathematics education at the K-8 or secondary level are available through the department of [Mathematics and Statistics](#).

Students interested in teaching chemistry, physics, or earth sciences should refer to the appropriate department advisors for program requirements.

### Study Abroad Programs

The College of Engineering and Physical Sciences and the [Global Education Center](#) work closely to support students and their [Education Abroad](#) experience. Students are able to take part in exchange programs including, but not limited to:

#### Scotland, Heriot-Watt University Exchange Program

College of Engineering and Physical Sciences students are eligible to participate in a spring semester exchange with Heriot-Watt University in Edinburgh, Scotland. The current program is designed for civil and environmental engineering majors. For more information, contact Ray Cook at (603) 862-1411 or the Global Education Center, Conant Hall. Details on the program can also be found at <https://www.unh.edu/global/exchange-program-heriot-watt-university>.

#### Global E3 Exchange Programs

All majors within the College of Engineering and Physical Sciences are eligible to participate in international exchange programs through the Global E3 program. Programs are offered in the fall, spring, and summer, as well as for the full academic year. For more information on Global E3, please refer to [www.iie.org/programs/global-e3](http://www.iie.org/programs/global-e3). For more information on eligibility, contact Catherine D'Auteuil at [catherine.dauteuil@unh.edu](mailto:catherine.dauteuil@unh.edu).

To learn about additional study abroad programs available to students in the College of Engineering and Physical Sciences, contact Catherine D'Auteuil at [catherine.dauteuil@unh.edu](mailto:catherine.dauteuil@unh.edu). For a full list of international study abroad programs available to UNH students, see [Study Abroad Programs](#).

Students interested in participating in a domestic exchange program should go to [Domestic Study Programs](#).

### Accreditation

The baccalaureate-level programs in: Bioengineering; Chemical Engineering; Civil Engineering; Computer Engineering; Electrical Engineering; Environmental Engineering; Mechanical Engineering; and Ocean Engineering are accredited by the Engineering Accreditation Commission of ABET, Inc. The bachelor of science programs in Computer

Science and Information Technology are accredited by the Computing Accreditation Commission of ABET, Inc. <https://www.abet.org>

The Department of Chemistry's undergraduate bachelor of science program is approved by the American Chemical Society.

<https://ceps.unh.edu/>

## Chemical Engineering & Bioengineering

The Department of Chemical Engineering and Bioengineering currently offers two undergraduate degrees, B.S. in Bioengineering and B.S. in Chemical Engineering. In addition, B. S. in Chemical Engineering is offered with options in Bioengineering, Energy and Environmental Engineering. Both degree programs in Chemical Engineering and Bioengineering are accredited by the:

Engineering Accreditation Commission of ABET

415 North Charles St.

Baltimore, MD 21201

(410)-347-7700

### CHEMICAL ENGINEERING

Chemical engineering is concerned with the analysis and design of processes that deal with the transfer and transformation of energy and material into products of high value. The practice of chemical engineering includes the conception, development, design, and application of physicochemical processes and their products; the development, design, construction, operation, control, and management of plants for these processes; and activities relating to public service, education, and research.

The curriculum prepares students for productive careers in industry or government and provides a foundation for graduate studies. The college's program emphasizes chemical engineering fundamentals while offering opportunities for focused study in Bioengineering, Energy, and Environmental Engineering.

Traditional employment areas in the chemical process industries include industrial chemicals, petroleum and petrochemicals, plastics, pharmaceuticals, metals, textiles, and food. Chemical engineers are also working in increasing numbers in the areas of energy engineering, pollution abatement, and biochemical and biomedical engineering; in addition, they are employed by many government laboratories and agencies as well as private industries and institutions.

### Chemical Engineering Mission Statement

The Chemical Engineering program strives to prepare our students for productive careers in industry or government and also provides our students with a solid foundation for graduate studies. Our program emphasizes chemical engineering fundamentals while offering opportunities for focused studies in bioengineering, energy, and environmental engineering.

### Chemical Engineering Program Educational Objectives

The program has the following major educational objectives with the expectation that our alumni will have successful careers in the many diverse areas of chemical engineering profession. Within a few years of obtaining a bachelor's degree in chemical engineering, we expect our graduates to have the following attributes:

- (1) **Depth:** To be effective in applying chemical engineering principles in engineering practice or for advanced study in chemical engineering.
- (2) **Breadth:** To have a productive career in the many diverse fields of chemical engineering such as bioengineering, energy and the environment, or in the pursuit of graduate education in disciplines such as Chemical Engineering, Medicine, Law or Business.
- (3) **Professionalism:** To function effectively in the complex modern work environment with the ability to assume professional leadership roles.

### Chemical Engineering Student Outcomes

- (1) an ability to identify, formulate, and solve complex chemical engineering problems by applying principles of engineering, science, and mathematics.
- (2) an ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors.
- (3) an ability to communicate effectively with a range of audiences.
- (4) an ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts.
- (5) an ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives.
- (6) an ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions.
- (7) an ability to acquire and apply new knowledge as needed, using appropriate learning strategies.

### BIOENGINEERING

The Bioengineering program is tailored to students who want to use engineering principles to analyze problems and design solutions in the fields of healthcare, medicine and biology. It's a truly interdisciplinary program, with courses in both the College of Engineering and Physical Sciences and the College of Life Sciences and Agriculture. #Graduates from the bioengineering program solve problems at the interface

of biology and engineering in the fields of biotechnology and pharmaceuticals, as well as medicine and biofuels.

The curriculum prepares students by providing a solid foundation of biology and engineering principles through challenging courses and hands-on learning opportunities in our state-of-the-art laboratories. Our faculty have a broad background in modeling physiological and biochemical processes, enzyme kinetics, synthetic biology, biomaterials and biosensor development and related topics such as tissue engineering. Elective courses let you adapt your program to prepare for medical school, other graduate studies or careers in biomanufacturing, biotechnology or biomedical engineering.

### Bioengineering Mission Statement

Our Bioengineering program empowers students with broad preparation for pursuing careers related to biotechnology, biomedical and engineering fields.

### Bioengineering Program Educational Objectives

The program has the following major educational objectives with the expectation that our alumni will have successful careers in the many diverse areas of bioengineering profession. #Within a few years of obtaining a bachelor's degree in bioengineering, we expect our graduates to have the following attributes:

- (1) **Depth:** #To be effective in applying life science concepts and bioengineering principles in engineering practice or for advanced study.
- (2) **Breadth:** To have productive careers in the many diverse areas of bioengineering or in pursuit of graduate studies in engineering, law, medicine or business.
- (3) **Professionalism:** #To function effectively in the complex modern work environment with the ability to assume professional leadership roles.

### Bioengineering Student Outcomes

- (1) an ability to identify, formulate, and solve complex bioengineering problems by applying principles of engineering, science, and mathematics.
- (2) an ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors.
- (3) an ability to communicate effectively with a range of audiences.
- (4) an ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts.

## Bioengineering Major (B.S.)

<https://ceps.unh.edu/chemical-bioengineering/program/bs/bioengineering-major>

## Description

The Bioengineering program is tailored to students who want to use engineering principles to analyze problems and design solutions in the fields of healthcare, medicine and biology, biotechnology and pharmaceuticals, as well as biofuels.

The bioengineering program is truly interdisciplinary and will train graduates in biology and physiology as well as engineering. The program will provide graduates with capabilities in advanced mathematics (including differential equations and statistics), science, and engineering. Graduates will be conversant with solving problems at the interface of biology and engineering that may arise in a variety of fields. By graduation, students will have experience measuring and interpreting data from living systems and addressing the interactions between living and non-living materials.

For more information on the bioengineering program, please contact [Nivedita Gupta](mailto:Nivedita.Gupta@unh.edu) ([nivedita.gupta@unh.edu](mailto:nivedita.gupta@unh.edu)), Professor and Chair.

## Requirements

### Degree Requirements

**Minimum Credit Requirement:** 128 credits

**Minimum Residency Requirement:** 32 credits must be taken at UNH

**Minimum GPA:** 2.0 required for conferral\*

**Core Curriculum Required:** Discovery & Writing Program Requirements

**Foreign Language Requirement:** No

All Major, Option and Elective Requirements as indicated.

\*Major GPA requirements as indicated.

### Major Requirements

Students are required to obtain a minimum 2.0 grade-point average in CHBE 501 Material Balances and CHBE 502 Energy Balances and in

overall standing at the end of the sophomore year in order to continue in the major. Study abroad (Exchange) students are required to have a cumulative GPA of 3.0 or better in math, physics, chemistry, and other required courses at the end of the semester prior to their exchange semester.

Code	Title	Credits
CHBE 400	Chemical and Bioengineering Lectures	1
CHBE 501	Material Balances	3

<b>Total Credits</b>	<b>129</b>

- <sup>1</sup> MATH 425 Calculus I satisfies the Discovery Foundation Quantitative Reasoning category.
- <sup>2</sup> CHEM 405 Chemical Principles for Engineers satisfies the Discovery Physical Science (with lab) category.
- <sup>3</sup> ENGL 401 First-Year Writing satisfies the Discovery Foundation Writing Skills category.
- <sup>4</sup> BIOL 411 Introductory Biology: Molecular and Cellular satisfies the Discovery Biological Science (with lab) category.
- <sup>5</sup> CHBE 502 Energy Balances satisfies the Discovery Inquiry category.

The Discovery ETS category requirement is met upon receiving a passing grade in CHBE 400 Chemical and Bioengineering Lectures; CHBE 761 Biochemical Engineering; CHBE 762 Biomedical Engineering; CHBE 763 Bioengineering Design I; CHBE 764 Bioengineering Design II. Students who do not complete these courses must take a Discovery ETS course to fulfill the requirement.

34 credits engineering, 16 credits math, 14 credits chemistry, 16 credits life science

Five electives: 12 to 16 credits engineering; 3 to 4 credits science, math, or engineering

## Student Learning Outcomes

By the time of graduation, students will have:

- an ability to identify, formulate, and solve complex bioengineering problems by applying principles of engineering, science, and mathematics.
- an ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors.
- an ability to communicate effectively with a range of audiences.
- an ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts.

- an ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives.
- an ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions.
- an ability to acquire and apply new knowledge as needed, using appropriate learning strategies.

## Chemical Engineering Major (B.S.)

<https://ceps.unh.edu/chemical-bioengineering/program/bs/chemical-engineering-major>

### Description

Chemical engineering is concerned with the analysis and design of processes that deal with the transfer and transformation of energy and material. The practice of chemical engineering includes the conception, development, design, and application of physicochemical processes and their products; the development, design, construction, operation, control, and management of plants for these processes; and activities relating to public service, education, and research.

The curriculum prepares students for productive careers in industry or government and provides a foundation for graduate studies. The program emphasizes chemical engineering fundamentals while offering opportunities for focused study in bioengineering, energy or environmental engineering.

Traditional employment areas in the chemical process industries include industrial chemicals, petroleum and petrochemicals, plastics, pharmaceuticals, metals, textiles, and food. Chemical engineers also are working in increasing numbers in the areas of energy engineering, pollution abatement, and biochemical and biomedical engineering; in addition, they are employed by many government laboratories and agencies as well as private industries and institutions.

Graduates from the program have the ability to apply knowledge of mathematics, science, and engineering to identify, formulate, and solve chemical engineering problems as well as to design and conduct experiments safely and analyze and interpret data. They are prepared to pursue advanced studies in chemical engineering. Program graduates gain a sense of professional and ethical responsibility with the ability to apply environmental, safety, economic, and ethical criteria in the design of engineering processes. They learn to function as individuals or in a team and gain skills in written and oral communication and effectively use computers for engineering practice, including information search in the library and online. They also understand the need for lifelong learning and the significance of societal and global issues relevant to chemical engineering.

### Requirements

#### Degree Requirements

**Minimum Credit Requirement:** 128 credits

**Minimum Residency Requirement:** 32 credits must be taken at UNH

**Minimum GPA:** 2.0 required for conferral\*

Core Curriculum Required: Discovery & Writing Program Requirements

Foreign Language Requirement: No

All Major, Option and Elective Requirements as indicated.  
\*Major GPA requirements as indicated.

Major Requirements

A minimum of 129 credits is required for graduation with the degree of bachelor of science in chemical engineering. There are nine electives in the chemical engineering curriculum. Six of these are for the Discovery Program requirements. The remaining three electives are chemical engineering electives.

Students are required to obtain a minimum 2.0 grade-point average in CHBE 501 Material Balances and CHBE 502 Energy Balances and in overall standing at the end of the sophomore year in order to continue in the major. Study abroad (Exchange) chemical engineering students are required to have a cumulative GPA of 3.0 or better in math, physics, chemistry, and CHBE courses at the end of the semester prior to their exchange semester.

<sup>1</sup> ENGL 401 First-Year Writing satisfies the Discovery Foundation Writing Skills category.

<sup>2</sup> MATH 425 Calculus I satisfies the Discovery Foundation Quantitative Reasoning category.

<sup>3</sup> PHYS 407 General Physics I or CHEM 405 Chemical Principles for Engineers satisfies the Discovery Physical Science (with lab) category.

<sup>4</sup> CHBE 502 Energy Balances satisfies the Discovery Inquiry requirement.

<sup>5</sup> CHBE#708 Chemical Engineering Design satisfies the Discovery Capstone Experience/Course.

<sup>6</sup> Chemical Engineering students do not have to take a course in the Discovery ETS category since they satisfy this requirement through a combination of courses in the curriculum.

## Student Learning Outcomes

By the time of graduation, students will have

- an ability to identify, formulate, and solve complex chemical engineering problems by applying principles of engineering, science, and mathematics.
- an ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors.
- an ability to communicate effectively with a range of audiences.
- an ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts.
- an ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives.
- an ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions.
- an ability to acquire and apply new knowledge as needed, using appropriate learning strategies.

## Chemical Engineering Major: Bioengineering Option (B.S.)

<https://ceps.unh.edu/chemical-bioengineering/program/bsche/chemical-engineering-major-bioengineering-option>

### Description

Under this option, the required courses deal with the application of basic biological sciences and chemical engineering principles to the design and operation of large-scale bioprocesses for the production of high-value medicinal, food and beverage, pharmaceutical, biomedical, genetic engineering, and health care products. The elective courses permit the student to study topics of special interest in more depth or gain a broader perspective in bioengineering or some closely related subjects such as biochemistry or biotechnology experience in manufacturing or research. Three courses are required, and an additional course of at least three credits should be selected from the electives list. Students interested in the bioengineering option should declare their intention to the department faculty during the sophomore year.

### Requirements

#### Degree Requirements

**Minimum Credit Requirement:** 128 credits

**Minimum Residency Requirement:** 32 credits must be taken at UNH

**Minimum GPA:** 2.0 required for conferral\*

**Core Curriculum Required:** Discovery & Writing Program Requirements

**Foreign Language Requirement:** No

All Major, Option and Elective Requirements as indicated.

\*Major GPA requirements as indicated.

#### Major Requirements

Code	Title	Credits
<b>Required Courses</b>		
CHBE 400	Chemical and Bioengineering Lectures	1
CHBE 501	Material Balances	3
CHBE 502	Energy Balances	3
CHBE 601	Fluid Mechanics and Unit Operations	3

MATH 425	Calculus I	4
MATH 426	Calculus II	4
MATH 527	Differential Equations with Linear Algebra	4
MATH 644	Statistics for Engineers and Scientists	4
PHYS 407	General Physics I	4
PHYS 408	General Physics II	4
<b>Elective Courses</b>		
Select one of the following:		3-4
CHBE 695	Chemical Engineering Project	
CHBE 696	Independent Study	
CHBE 714	Chemical Sensors	
CHBE 725	Cell Phenotyping and Tissue Engineering Laboratory	
CHBE 755	Computational Molecular Bioengineering	
CHBE 762	Biomedical Engineering	
BMCB 750	Physical Biochemistry	
BMCB 751	Principles of Biochemistry	
BMCB 752	Principles of Biochemistry	
<b>Total Credits</b>		<b>104-105</b>

## Student Learning Outcomes

By the time of graduation, students will have

- an ability to identify, formulate, and solve complex chemical engineering problems by applying principles of engineering, science, and mathematics.
- an ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors.
- an ability to communicate effectively with a range of audiences.
- an ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts.
- an ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives.
- an ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions.
- an ability to acquire and apply new knowledge as needed, using appropriate learning strategies.

## Chemical Engineering Major: Energy Option (B.S.)

<https://ceps.unh.edu/chemical-bioengineering/program/bsche/chemical-engineering-major-energy-option>

### Description

This option covers the major areas of current interest in the energy field. The required courses provide students with a general background knowledge of fossil fuels, nuclear power, solar energy, and other alternative energy resources. The elective courses will permit the student to study topics of special interest in more depth or gain a broader perspective on energy and some closely related subjects. Three courses

are required, and one additional course of at least three credits should be selected from the electives list. Students interested in the energy option should declare their intention to the department faculty during the sophomore year.

## Requirements

### Degree Requirements

**Minimum Credit Requirement:** 128 credits

**Minimum Residency Requirement:** 32 credits must be taken at UNH

**Minimum GPA:** 2.0 required for conferral\*

**Core Curriculum Required:** Discovery & Writing Program Requirements

**Foreign Language Requirement:** No

All Major, Option and Elective Requirements as indicated.

\*Major GPA requirements as indicated.

CHBE 695	Chemical Engineering Project	
CHBE 696	Independent Study	
CHBE 761	Biochemical Engineering	
ME 705	Thermal System Analysis and Design	
ME 706	Renewable Energy: Physical and Engineering Principles	
NR 606	International Energy Topics	

<sup>1</sup> This requires approval of the department; students should check with their advisor. Courses offered in the past include Renewable Electrical Power, Renewable Energy, and Peak Oil.

## Student Learning Outcomes

By the time of graduation, students will have

- an ability to identify, formulate, and solve complex chemical engineering problems by applying principles of engineering, science, and mathematics.
- an ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors.
- an ability to communicate effectively with a range of audiences.
- an ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts.
- an ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives.
- an ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions.
- an ability to acquire and apply new knowledge as needed, using appropriate learning strategies.

## Chemical Engineering Major: Environmental Engineering Option (B.S.)

<https://ceps.unh.edu/chemical-bioengineering/program/bsche/chemical-engineering-major-environmental-engineering-option>

### Description

The chemical engineering program, with its substantial requirements in chemistry, fluid dynamics, heat transfer, mass transfer, unit operations, and reaction kinetics, provides students with a unique preparation to deal with many aspects of environmental pollution problems. The option gives students a special focus on the application of chemical engineering principles and processes to the solution of problems relating to air pollution, water pollution, and the disposal of solid and hazardous waste. Three required courses must be selected, plus one elective from the electives list. Each course must carry a minimum of three credits. Students interested in the environmental engineering option should declare their intention to the department faculty during the sophomore year.

## Requirements

### Degree Requirements

**Minimum Credit Requirement:** 128 credits

**Minimum Residency Requirement:** 32 credits must be taken at UNH

**Minimum GPA:** 2.0 required for conferral\*

## Student Learning Outcomes

By the time of graduation, students will have

- an ability to identify, formulate, and solve complex chemical engineering problems by applying principles of engineering, science, and mathematics.
- an ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors.
- an ability to communicate effectively with a range of audiences.
- an ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts.
- an ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives.
- an ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions.
- an ability to acquire and apply new knowledge as needed, using appropriate learning strategies.

## Chemistry

Chemistry is a dynamic, an extremely creative, and yet also a practical discipline. Chemists *analyze* and *quantitate*, like when testing environmental or forensic samples; they *measure* specific characteristics of substances, like the defects present in a material, or the optical properties of atmospheric particles; they *design* and *synthesize* new substances, like antibiotics, catalysts for hydrogen production, and polymers for flexible electronics; they also generate *models* and *theories* that can explain what happens in the laboratory or in Nature. Chemistry is integral to modern science and, ultimately, most phenomena in biology, engineering, environmental science, geology, materials science, and medicine can be described in terms of the chemical and physical behavior of atoms and molecules—because of this, chemistry is often called “The Central Science”. Chemists are vital members of the interdisciplinary teams tackling the complicated problems facing our world, including issues in energy, health, security, and defense. Chemists are essential in developing the technologies and materials that support modern life!

The study of chemistry provides students with the critical thinking and problem-solving skills necessary to be successful in a wide variety of careers. You'll find chemists in many industries, including agricultural/food products, biotechnology, coatings, materials, paper, personal care products, petrochemicals, pharmaceuticals, plastics, renewable energy, semiconductors, and solar cells. Chemists are also involved in environmental and health-related sciences, making public policies, patent law and intellectual property, and educating future generations of scientists.

Students are also well-prepared for graduate-level work in chemistry, chemical biology, chemical physics, biochemistry, biophysics, materials chemistry, and other related fields. Students who excel in undergraduate chemistry coursework are often able to obtain funding for their graduate work through teaching or research assistantships and fellowships. Chemistry majors have also been successful in a variety of professional programs where they have studied medicine, pharmacy, dentistry, veterinary medicine, business, or law.

The chemistry program at The University of New Hampshire is small enough to be personal, but broad enough to provide excellent opportunities for challenge and growth. Students interested in pursuing chemistry as an undergraduate degree have two options available to them. These are the Bachelor of Science in Chemistry (B.S.) degree and a Bachelor of Arts (B.A.) degree. The B.S. Chemistry degree is certified by the American Chemical Society; the B.A. degree may also lead to ACS certification, depending on program plan. Since the required courses for each degree program are very similar in the first and second years, it is easy to change from one program to another. A chemistry faculty adviser is assigned to a student once she/he enters the program. The student's adviser provides academic guidance concerning the choice of courses to meet both major and university requirements.

<https://ceps.unh.edu/chemistry>

### Programs

- [Chemistry Major \(B.A.\)](#) (p. 72)
- [Chemistry Major \(B.S.\)](#) (p. 74)
- [Chemistry Minor](#) (p. 76)

### Faculty

<https://ceps.unh.edu/chemistry/people>

## Chemistry Major (B.A.)

<https://ceps.unh.edu/chemistry/program/ba/chemistry-major>

### Description

The B.A. degree exposes students to the major fields of chemistry but provides more flexibility in course selection than the B.S. degree. The curriculum offers a comprehensive introduction to chemistry's traditional subdisciplines (analytical, inorganic, organic, and physical chemistry) via foundational classroom and laboratory experiences. Undergraduate research is an option, but not a requirement for this degree. The B.A. degree is directed towards students who have interdisciplinary interests and are not planning to either attend a traditional graduate program in chemistry or find immediate employment in the chemical industry. Instead, this degree is geared toward students who plan to attend graduate school in an interdisciplinary field where chemical knowledge will be beneficial, and students who are interested in chemistry but plan to pursue post-graduate degrees in the health sciences, education, business, or other pre-professional programs. With careful selection of elective courses, the B.A. degree may also lead to American Chemical Society certification.

### Requirements

## Degree Requirements

**Minimum Credit Requirement:** 128 credits

**Minimum Residency Requirement:** 32 credits must be taken at UNH

**Minimum GPA:** 2.0 required for conferral\*

**Core Curriculum Required:** Discovery & Writing Program Requirements**Foreign Language Requirement:** Yes

All Major, Option and Elective Requirements as indicated.

*\*Major GPA requirements as indicated.*

## Major Requirements

Code	Title	Credits
CHEM 400	Freshman Seminar	1
CHEM 403	General Chemistry I	4
CHEM 404	General Chemistry II	4

<b>Total Credits</b>	<b>129</b>

## Student Learning Outcomes

At the time of graduation, a student should be able to:

- Reason with Chemistry's anchoring concepts: that matter consists of atoms that have internal structures that dictate their chemical and physical behavior; that atoms interact via electrostatic forces to form chemical bonds that chemical compounds have geometric structures that influence their chemical and physical behaviors; that intermolecular forces—electrostatic forces between molecules—dictate the physical behavior of matter; that matter changes, forming products that have new chemical and physical properties that energy is the key currency of chemical reactions in molecular scale systems as well as macroscopic systems; that chemical changes have a time scale over which they occur; that all chemical changes are, in principle, reversible, and chemical processes often reach a state of dynamic equilibrium; that Chemistry is generally advanced via experimental observations; and that Chemistry constructs meaning interchangeably at the particulate and macroscopic levels.
- Use Chemistry's cross-cutting concepts to interrogate and explain phenomena: chemical identity (how do we identify chemical substances?); structure-property relationships (how do we predict the properties of materials?); chemical causality (why do chemical processes occur?); chemical mechanism (how do chemical processes occur?); chemical control (how can we control chemical processes?); benefits-costs-risks (how do we evaluate the impacts of chemically transforming matter?)
- Demonstrate the following general scientific practices when displaying knowledge of chemical ideas and concepts: asking questions; developing and using models; constructing explanations; planning and carrying out investigations; engaging in argument from evidence; analyzing and interpreting data; using mathematics and computational thinking; obtaining, evaluating, and communicating information OR Demonstrate the following Chemistry core practices when displaying knowledge of chemical ideas and concepts (a) analysis: development and application of strategies for detecting, identifying, separating, and quantifying chemical substances (b)synthesis: the design of new substances and synthetic routes (c)transformation: controlling chemical processes for non-synthetic purposes.

## Chemistry Major (B.S.)

<https://ceps.unh.edu/chemistry/program/bs/chemistry-major>

### Description

The B.S. Chemistry degree is certified by the American Chemical Society and provides a deep, rigorous experience that prepares students for graduate work or a career in chemical industry and related fields. The curriculum offers thorough training in the major fields of chemistry, covering analytical, inorganic, organic, and physical chemistry, as well as biochemistry and chemical biology. Students gain laboratory experience in molecular synthesis and characterization, chemical biology, analytical and instrumental methods, physical chemical measurements and data analysis, and spectroscopy. At the same time, the program requires

students to participate in scientific inquiry, via both advanced laboratory experiences and independent research.

## Requirements

### Degree Requirements

**Minimum Credit Requirement:** 128 credits

**Minimum Residency Requirement:** 32 credits must be taken at UNH

**Minimum GPA:** 2.0 required for conferral\*

**Core Curriculum Required:** Discovery & Writing Program Requirements

**Foreign Language Requirement:** No

All Major, Option and Elective Requirements as indicated.

\*Major GPA requirements as indicated.

### Major Requirements

Code	Title	Credits
CHEM 400	Freshman Seminar	1

 (c)transformation: controlling chemical processes for non-synthetic purposes.

## Chemistry Minor

<https://ceps.unh.edu/chemistry/chemistry-minor>

### Description

In this minor, you'll be introduced to the study of chemistry, providing you with the communication, critical-thinking and problem-solving skills necessary for success in many careers. The chemistry program offers a wide selection of courses in analytical, inorganic, organic and physical chemistry. You'll have the opportunity to participate in a variety of rigorous laboratory experiences and cutting-edge research. Combine the chemistry minor with a major such as business, education, engineering or a health-related field to enhance your options for a career or graduate studies.

If you are interested in obtaining a Chemistry Minor, please contact Cindi Rohwer, Academic Department Coordinator, Chemistry Department Office at (603) 862-1795 or [Cindi.Rohwer@unh.edu](mailto:Cindi.Rohwer@unh.edu). She will connect you to our Intent to Minor form and the Chemistry Department Undergraduate Coordinator so you can discuss your plans to minor in Chemistry.

### Requirements

1. Complete a total of 20 credit hours in Chemistry (CHEM) courses.
2. A minimum of 12 credit hours at the 500 level or higher are required.
3. Chemistry courses for the minor cannot be completed on a pass/fail basis.
4. Grade of C- or better is required in all chemistry minor coursework.
5. A cumulative GPA of 2.00 is required for all chemistry minor coursework.
6. Biochemistry (BMCB) courses do not count toward a chemistry minor.
7. Transfer credits can only be applied to the minor with permission of the Chemistry Department Undergraduate Coordinator or Chair. Maximum of 8 transfer credit hours. Transfer courses must meet minimum grade requirements.
8. The following courses cannot be counted toward the Chemistry minor: CHEM 400, CHEM 408, CHEM 409, CHEM 411, CHEM 413, CHEM 501, CHEM 502, CHEM 503 and CHEM 798.

## Civil and Environmental Engineering

<https://ceps.unh.edu/civil-environmental-engineering>

### Overview

Civil and Environmental Engineering involves the sustainable planning, design, and construction of public works for the benefit of society while minimizing environmental impact. Civil Engineering concerns the design of buildings, bridges, roads, dams, water transmission systems, water treatment systems, tunnels, and more. Environmental Engineering specializes in environmental cleanup, drinking water systems, wastewater treatment systems, and solid and hazardous waste disposal systems, environmental remediation, all with consideration

of people, planet, and profits - known as the triple bottom line. Resulting infrastructure facilities must provide efficient service, be cost effective, and be compatible with the environment. Moreover, civil and environmental engineers work under a code of ethics in which their primary, overriding responsibility, is to uphold the public's trust by working to plan, design, build, and restore safe, sustainable, and environmentally responsible public works.

The Department of Civil and Environmental Engineering has two degree programs: one resulting in a Bachelor of Science in Civil Engineering (the BSCIVE) and another resulting in a Bachelor of Science in Environmental Engineering (the BSENVE). Both programs are accredited by ABET.

As civil engineering is such a broad field, it is traditionally divided into sub-disciplines. At the University of New Hampshire, multiple courses are offered in six: transportation, environmental engineering, geotechnical engineering, structural engineering, sustainable engineering, and water resources engineering.

Environmental engineering focuses on environmental pollution and public health protection; water, wastewater, reuse and stormwater technology; solid and hazardous waste engineering and remediation; engineering sustainability; environmental microbiology and chemistry; contaminant transport and fate, hydraulics, and hydrology.

Students may readily transfer between the BSCIVE and BSENVE programs within the first three semesters. Transferring between the two programs is also possible later on in the programs, but additional courses may result.

Both engineering degrees provide a firm base in mathematics and engineering, and all majors are expected to develop excellent communication and computer skills. Graduates are prepared to enter the profession and to pursue advanced study. Because of the broad technical background attained, some graduates also successfully pursue further education in business, architecture, education, and law.

### Mission

The mission of the Department of Civil and Environmental Engineering at the University of New Hampshire is fourfold:

- To pursue and disseminate knowledge through teaching, scholarship, outreach and public service.
- To provide excellent undergraduate and graduate education.
- To advance the state-of-the-art in science and engineering by conducting research.
- To enhance the quality of life for people in New Hampshire, New England, and beyond.

### BSCIVE Program Overview

Civil engineers work as private consultants, for large contracting firms, and for government agencies in a wide variety of indoor and outdoor settings around the world. There is a strong and constant market for civil engineers due to the demands placed on the profession to design, construct, maintain, and repair the infrastructure.

### Educational Objectives

In accordance with its University, College, and Department missions, the faculty of the Department of Civil & Environmental Engineering has established clear educational objectives for our BSCIVE graduates, five years after obtaining the degree:

1. Professional employment, primarily in the civil and environmental engineering disciplines.
2. Commitment to continuous learning through graduate and post-graduate education, coursework, and research.
3. Being resourceful in finding solutions, and retaining ownership and accountability for their work.
4. Positions of leadership, directing the work of others.
5. Professional licensure or certification in civil and environmental engineering disciplines and other professions.
6. Positions and active participation in community, public, and professional service.

## Student Outcomes

To enable our graduates to achieve our educational objectives, the BSCIVE program is designed to provide the following student outcomes at the time of graduation:

1. To have obtained an ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics.
2. To have obtained an ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors.
3. To have obtained an ability to communicate effectively with a range of audiences.
4. To have obtained an ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts.
5. To have obtained an ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives.
6. To have obtained an ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions.
7. To have obtained an ability to acquire and apply new knowledge as needed, using appropriate learning strategies.

## BSENVE Program Overview

Environmental engineers work as private consultants, in industry and for government agencies in a wide variety of indoor and outdoor settings around the world. There is a strong and constant market for environmental engineers due to the demands placed on the profession to construct, maintain, and repair the drinking water, wastewater, water reuse and stormwater, and solid and hazardous waste management infrastructure. The curriculum prepares students to plan, using triple bottom line considerations, and design systems to minimize the impact of human activity on the environment and protect human health.

## Educational Objectives

In accordance with its University, College, and Department missions, the faculty of the Department of Civil & Environmental Engineering has established clear educational objectives for our BSENVE graduates, five years after obtaining the degree:

1. Professional employment, primarily in the environmental engineering disciplines.

2. Commitment to continuous learning through graduate and post-graduate education, coursework, and research.
3. Being resourceful in finding solutions and retaining ownership and accountability for their work.
4. Positions of leadership, directing the work of others.
5. Professional licensure or certification in environmental engineering discipline and other professions.
6. Positions and active participation in community, public, and professional service.

## Student Outcomes

To enable our graduates to achieve our educational objectives, the BSENVE program is designed to provide the following student outcomes at the time of graduation:

1. To have obtained an ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics.
2. To have obtained an ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors.
3. To have obtained an ability to communicate effectively with a range of audiences.
4. To have obtained an ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts.
5. To have obtained an ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives.
6. To have obtained an ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions.
7. To have obtained an ability to acquire and apply new knowledge as needed, using appropriate learning strategies

- [Environmental Engineering Major \(B.S.\)](#) (p. 80)
- [Environmental Engineering Minor](#) (p. 83)

## Faculty

<https://ceps.unh.edu/cee/faculty-staff-directory>

## Civil Engineering Major (B.S.)

<https://ceps.unh.edu/civil-environmental-engineering/program/bs/civil-engineering-major>

## Description

Matriculating students should have strong aptitudes in mathematics and science along with imagination, spatial and graphic abilities, communication skills, and creativity. Students then follow a four-year program that conforms to the guidelines of, and is accredited by the Engineering Accreditation Commission of ABET, the global accreditor of college and university programs in applied and natural science, computing, engineering and engineering technology. ABET accreditation assures that programs meet standards to produce graduates ready to enter critical technical fields that are leading the way in innovation and emerging technologies, and anticipating the welfare and safety needs of the public.

The first two years of the program provide the necessary technical knowledge in mathematics, chemistry, and physics, while introducing and developing problem-solving techniques in eight courses tailored to civil engineering students. The junior year provides courses in each of the civil engineering sub-disciplines, providing students with skills in each and allowing students to determine which they wish to pursue further. The senior year is flexible, allowing students to choose where to focus attention by selecting from more than forty elective courses in civil and environmental engineering.

Additional opportunities exist for study abroad, cognates, minors, and dual majors, a three-year accelerated track, and early admission into two masters of science degree programs.

## Requirements

### Degree Requirements

**Minimum Credit Requirement:** 128 credits

**Minimum Residency Requirement:** 32 credits must be taken at UNH

**Minimum GPA:** 2.0 required for conferral\*

**Core Curriculum Required:** Discovery & Writing Program Requirements

**Foreign Language Requirement:** No

All Major, Option and Elective Requirements as indicated.

\*Major GPA requirements as indicated.

### Major Requirements

More than half of the major's total credits and nearly all of the senior-level courses are elected by the student. Of these, there are Discovery Program electives required by the University and other electives required by the department in order to satisfy departmental objectives and accreditation requirements.

The Discovery Program is described in University Academic Requirements. Courses required by the BSCIVE program fulfill Discovery requirements in Inquiry and Environment, Technology, and Society; Writing Skills; Quantitative Reasoning; Physical Sciences and Discovery Lab; and Capstone.

To graduate with a bachelor of science in civil engineering, a student must achieve the following: 128 or more credits, credit for the civil engineering program's major and elective courses, satisfaction of the University's Discovery Program requirements, satisfaction of the

University's writing-intensive course requirements, a cumulative grade-point average of 2.0 or better for all courses, and a cumulative grade-point average of 2.0 or better in all CEE courses.

<b>Electives</b>		
Choose seven courses from the '700-level CEE Electives Course List' below with the following restrictions:		
1. Courses must be taken in four of six different areas (sustainability, environmental, transportation, water resources, geotechnical, structural).		
2. At least three design courses; including one Project-based Design Elective PDE course.		
3. One of the seven 700-level courses is a senior technical elective.		
Design/Area Elective (Project-based Design Elective PDE)		3-4
Design/Area Elective		3-4
Design/Area Elective		3-4
Area Elective		3-4
CEE Elective		3-4
CEE Elective		3-4
Senior Technical Elective (choose a course from the '700-level CEE Electives Course List' below, CEPS 700-level course, GEOG 757, INCO 795, NR 757, TECH 750, or TECH 780).		3-4
<b>700-Level CEE Electives Course List</b>		
Project-based Design Elective (PDE) courses:		
CEE 733	Public Infrastructure Asset Management	
CEE 749 & CEE 748	Pavement Design and Analysis and Pavement Design Project	
CEE 755	Design of Pressurized Water Transmission Systems	
CEE 758	Stormwater Management Designs	
CEE 759	Stream Restoration	
CEE 778	Foundation Design I	
CEE 791	Reinforced Concrete Design	
CEE 793	Structural Design in Steel	
Additional Design courses:		
CEE 719	Green Building Design	
CEE 730	Public Health Engineering for Rural and Developing Communities	
CEE 731	Advanced Water Treatment Processes	
CEE 732	Solid and Hazardous Waste Design	
CEE 779	Foundation Design II	
CEE 789	Timber Design	
CEE 790	Structural Design in Masonry	
CEE #792	Pre-stressed Concrete	

CEE 794	Bridge Design
Structural Engineering (STR) area courses:	
CEE 735	Properties and Production of Concrete
CEE 780	Matrix Structural Analysis and Modeling
CEE 781	Dynamics of Structures
CEE 789	Timber Design
CEE 790	Structural Design in Masonry
CEE 791	Reinforced Concrete Design
CEE #792	Pre-stressed Concrete
CEE 793	Structural Design in Steel
CEE 794	Bridge Design
Geotechnical Engineering (GEO) area courses:	
CEE 765	Engineering Behavior of Soils
CEE 766	Introduction to Geotechnical Earthquake Engineering
CEE #767	Geological Engineering
CEE 768	Geo-Environmental Engineering
CEE 778	Foundation Design I
CEE 779	Foundation Design II
Material (MAT) area courses:	
CEE 704	Transportation Eng & Planning
CEE 733	Public Infrastructure Asset Management (PDE)
CEE 735	Properties and Production of Concrete
CEE 736	Asphalt Mixtures and Construction
CEE 737	Pavement Rehabilitation, Maintenance, and Management
CEE 749	Pavement Design and Analysis
Water Resources WAT area courses:	
CEE 751	Open Channel Flow
CEE 754	Engineering Hydrology
CEE 755	Design of Pressurized Water Transmission Systems
CEE 758	Stormwater Management Designs
CEE 759	Stream Restoration
Environmental Engineering (ENV) area courses:	
CEE 720	Solid and Hazardous Waste Engineering
CEE 721	Environmental Sampling and Analysis
CEE 722	Introduction to Marine Pollution and Control
CEE 723	Environmental Water Chemistry
CEE 724	Environmental Engineering Microbiology
CEE 730	Public Health Engineering for Rural and Developing Communities
CEE 731	Advanced Water Treatment Processes
CEE 732	Solid and Hazardous Waste Design
CEE 733	Public Infrastructure Asset Management
CEE 768	Geo-Environmental Engineering
Sustainability (SUS) area courses:	
CEE 705	Introduction to Sustainable Engineering
CEE 706	Environmental Life Cycle Assessment
CEE 719	Green Building Design
Additional CEE Electives:	
CEE 700	Building Information Modeling
CEE 703	Site Design and Project Development

## Program Policies and Requirements

To transfer into the [BSCIVE](#) major, a student must satisfy the following:

1. Be a CEPS major or have at least 12 credits of graded work at UNH along with Calculus I, and either chemistry or calculus-based physics.
2. Have an overall UNH grade-point average of 2.33 or greater.
3. Have an overall grade-point average of 2.33 or greater in all CEE courses taken to date;
4. Have a grade-point average of 2.33 or greater in courses taken to date at UNH of MATH 425, PHYS 407, CHEM 403 or CHEM 405, CEE 500 [or ME 525](#) ; and CEE 501 [or ME 526](#) .
5. Have a grade-point average of 2.33 or greater in courses taken to date of CEE 500, CEE 501, ME 525, ME 526

At the time of transferring into the BSCIVE program, only CEE 600-level and CEE 700-level classes with a grade of C- or better may be transferred in.

[BSCIVE](#) majors wishing to participate in domestic or international exchange programs must achieve a cumulative grade-point average of 2.75 or better in all CEE courses taken to date at the time of application to the exchange program.

To begin taking the required CEE 600-level courses in the junior year, students must meet the following requirements:

1. MATH 425, PHYS 407, CHEM 403 or CHEM 405, CEE 500 [or ME 525](#) ; and CEE 501 [or ME 526](#) must have been completed with passing grades.
2. The student must have a grade-point average of 2.00 or greater in all CEE courses.
3. The student must have a grade-point average of 2.00 or greater in MATH 425, PHYS 407, CHEM 403 or CHEM 405, CEE 500 [or ME 525](#) , and CEE 501 [or ME 526](#) .
4. The student must have a grade-point average of 2.00 or greater in CEE 500 [or ME 525](#) and CEE 501 [or ME 526](#) .

## Degree Plan

Course	Title	Credits
<b>First Year</b>		
<b>Fall</b>		
CEE 400	Introduction to Civil Engineering	4
CEE 520	Environmental Pollution and Protection: A Global Context	4
MATH 418	Analysis and Applications of Functions (if necessary, 0-4 credits)	
Elective AutoCAD <sup>3</sup>		3
Elective Discovery Program requirement <sup>1</sup>		4
<b>Credits</b>		<b>15</b>
<b>Spring</b>		
MATH 425	Calculus I	4

Elective Area Elective 3 <sup>3</sup>	3
Elective Area Elective 4 <sup>3</sup>	3
Elective Civil Engineering <sup>3</sup>	3
Elective Senior Technical Elective <sup>3</sup>	3
<b>Credits</b>	<b>14</b>
<b>Total Credits</b>	<b>128</b>

<sup>1</sup> A course satisfying one each of the Discovery Program categories of Biological Science, Humanities, Fine and Performing Arts, Historical Perspectives, Social Science and World Cultures, preferably taken in this order. The Discovery Social Science elective must be selected from CEP 415, ECON 401, ECON 402, EREC 411, GEOG 582, GEOG 584, or POLT 402.

<sup>2</sup> Satisfies capstone requirement for Discovery.

<sup>3</sup> Approved list available in the CEE office.

## Student Learning Outcomes

By the time of graduation students are:

- To have obtained an ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics.
- To have obtained an ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors.

- To have obtained an ability to communicate effectively with a range of audiences.
- To have obtained an ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts.
- To have obtained an ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives.
- To have obtained an ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions.
- To have obtained an ability to acquire and apply new knowledge as needed, using appropriate learning strategies.

## Environmental Engineering Major (B.S.)

<https://ceps.unh.edu/civil-environmental-engineering/program/bs/environmental-engineering-major>

### Description

The Environmental Engineering program is accredited by the:

Engineering Accreditation Commission of ABET  
111 Market Place  
Suite 1050  
Baltimore, MD 21202-4012,  
(410) 347-7700  
<http://www.abet.org>

Environmental engineers graduating with a B.S. EnvE degree will plan, design, and construct public and private facilities to minimize the impact of human activity on the environment through sustainable approaches that protect human health. For example, environmental engineers design and build drinking water treatment systems, municipal and industrial wastewater treatment plants, solid waste management facilities, air pollution control systems, contaminated ground water remediation systems, and hazardous waste remediation facilities. These facilities must meet regulatory requirements, be cost effective to build and maintain, be safe to operate, and have minimal environmental impact.

In CEE 420 Environmental Engineering Lectures I, students are introduced to the full spectrum of environmental engineering projects that they will subsequently explore in design teams during their degree program. In CEE 505 Introduction to Sustainable Engineering, students learn tools to analyze life cycles and are exposed to global actions for sustainability.

In CEE 520 Environmental Pollution and Protection: A Global Context, students tour field sites and through junior and senior year classes and student organizations (ASCE, EWRI, EWB), they interact with engineers who talk about engineering consulting, environmental policy, and design practices applied to local and global projects. As part of these projects, students:

1. analyze treatment alternatives;
2. recommend a system that meets regulatory operational needs, and is sustainable; and
3. prepare an implementation schedule and project budget.

Students choose elective courses from areas of Sustainability, Water Resources, Environmental Engineering Design, and other relevant topics. Design projects are performed in a minimum of two design electives. In the capstone design experience courses students work on a multi-disciplinary environmental engineering project and apply skills learned in other courses while working with real-world problems and clients.

## Requirements

### Degree Requirements

**Minimum Credit Requirement:** 128 credits

**Minimum Residency Requirement:** 32 credits must be taken at UNH

**Minimum GPA:** 2.0 required for conferral\*

**Core Curriculum Required:** Discovery & Writing Program Requirements

**Foreign Language Requirement:** No

All Major, Option and Elective Requirements as indicated.

*\*Major GPA requirements as indicated.*

### Major Requirements

To qualify for graduation, an EnvE major must: have satisfied all specified course requirements, have satisfied the University's Academic Requirements, have a minimum cumulative grade-point average of 2.00, and have a minimum grade-point average of 2.00 in engineering courses.

At the end of the sophomore year, students are required to have a minimum overall grade-point average of 2.00 and a minimum grade-point average of 2.00 in CEE 420, MATH 425, CHEM 405, PHYS 407, MATH 426, CEE 500, CEE 520 to be permitted to enroll in junior-level courses.

EnvE students do not have to take a course in the Discovery Biological Science category since they satisfy this category with CEE 724

For a full listing of the requirements over four years of study please refer to the degree plan tab.

CEE 797	Introduction to Project Planning and Design	2
CEE Design Elective (1)		3-4
CEE Elective (1)		3-4
<b>Credits</b>		<b>16-18</b>
<b>Spring</b>		
CEE 731	Advanced Water Treatment Processes	4
CEE 798	Project Planning and Design	2
CEE Elective (1)		3-4
CEE Design Elective (1)		3-4
Water Resources Elective		3-4
<b>Credits</b>		<b>15-18</b>
<b>Total Credits</b>		<b>134-141</b>

The EnvE program requires a minimum of 130 total credits for graduation.

\*MATH 418 does not count toward this minimum number of credits.

<sup>1</sup> Students who passed the ALEKS placement examination as determined by the Mathematics Department may enroll in MATH 425 Calculus I. Subsequent MATH courses (MATH 426 Calculus II, MATH 527 Differential Equations with Linear Algebra Differential Equations with Linear Algebra, MATH 644 Statistics for Engineers and Scientists) will be taken one semester earlier than shown here.

<sup>2</sup> See Discovery Program requirements. The Discovery requirements for Writing, Quantitative Reasoning, and Physical Science are fulfilled by ENGL 401 First-Year Writing, MATH 425 Calculus I, and PHYS 407 General Physics I, respectively. CEE 520 Environmental Pollution and Protection: A Global Context fulfills the Environmental, Technology, and Society requirement. CEE 797 Introduction to Project Planning and Design and CEE 798 Project Planning and Design fulfill the Senior Capstone requirement. Environmental Engineering Microbiology fulfills the Biological Science requirement. Courses in the EnvE curriculum designated Discovery Electives can be selected from the University's approved Discovery Program courses in Fine and Performing Arts, Humanities, Historical Perspectives, World Cultures, and Social Science. One of these electives must have an Inquiry attribute.

<sup>3</sup> Approved lists of sustainability, water resources, design and Environmental/Civil electives are available from the EnvE undergraduate coordinator, Paula Mouser.

## Student Learning Outcomes

By the time of graduation students are:

- To have obtained an ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics.

- To have obtained an ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors.
- To have obtained an ability to communicate effectively with a range of audiences.
- To have obtained an ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts.
- To have obtained an ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives.
- To have obtained an ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions.
- To have obtained an ability to acquire and apply new knowledge as needed, using appropriate learning strategies.

## Environmental Engineering Minor

<https://ceps.unh.edu/civil-environmental-engineering/program/minor/environmental-engineering>

### Description

The environmental engineering minor is intended primarily for students in engineering and physical sciences who are not in the chemical, civil, or environmental engineering degree programs. Students contemplating such a minor should plan on a strong background in the sciences and mathematics (including differential equations).

The minor provides a comprehensive introduction to major areas of interest in environmental protection through the three required courses. Further breadth in environmental engineering or depth in specific areas can be attained through the choice of appropriate elective courses.

### Requirements

The minor requires a minimum of five courses, as follows:

Code	Title	Credits
CEE 620	Fundamental Aspects of Environmental Engineering	4
CEE 705	Introduction to Sustainable Engineering	3
CEE 731	Advanced Water Treatment Processes	4
or CEE 721	Environmental Sampling and Analysis	
A minimum of two elective ENE courses.		

Choice of elective courses should be made in consultation with the minor area advisor, Nancy Kinner. Students normally start this program in the junior year and should declare their intention to enter the program as early as possible during the sophomore year. During the final semester, students must apply to the dean to have the minor appear on the transcript.

## Computer Science

Undergraduate students may choose from one of seven degree options: the B.S. in computer science, which is intended for students interested in the design and implementation of software systems; the B.A. in

Computer Science- Algorithms Option, which focuses on fundamental concepts in the areas of algorithms, artificial intelligence and machine learning; the B.A. in Computer Science- Cybersecurity Option, which is designed for students who are interested in computer and network security; the B.A. in Computer Science- systems option, which focuses on fundamental concepts in the areas of computing systems and data communication; the B.S. in Information Technology, which focuses on the application of existing computing technologies to meet the information needs of organizations and individual computer users; or the either of the two B.S. degrees in Analytics and Data Science: the analytics option, which emphasizes the application of data science in business and industry, or the data science option, which focuses on the theoretical and computational underpinnings of modern data science.

## Analytics and Data Science Major: Analytics Option (B.S.)

<https://ceps.unh.edu/computer-science/program/bs/analytics-data-science-major-analytics-option>

### Description

The option in Analytics is intended for students interested in either heading into industry immediately upon graduation, or pursuing graduate work in a professionally oriented program such as the Master of Science in Analytics at UNH. The option in Analytics places its emphasis on applications of data science in business and industry.

## Program Objectives

Analytics and Data Science focuses on the extraction of meaning from data through the application of computer science, mathematics and business domain knowledge. Within a few years of obtaining a bachelor's degree in Analytics and Data Science, our alumni will have:

1. Engaged in successful career areas of analytics and data science and will already have, or be pursuing, advanced degrees in Analytics, Data Science, Computer Science, Mathematics or related fields
2. Applied the full range of core Data Science concepts and techniques to fill the analytics needs of an organization
3. Communicated effectively with diverse stakeholders as well as functioned appropriately in a team environment
4. Navigated the complex interconnections between data, computing technology, and the goals and constraints of the organization served
5. Understood the pervasive and changing role of data in global society, and participated responsibly as both an Analytics and Data Science professional and citizen

For additional information about the Analytics and Data Science: Analytics Option, contact **Matt Magnusson** ([matthew.magnusson@unh.edu](mailto:matthew.magnusson@unh.edu)), program co-director (Durham campus), or **Jeremiah Johnson** ([jeremiah.johnson@unh.edu](mailto:jeremiah.johnson@unh.edu)), program co-director (Manchester campus), at (603) 641-4127.

## Requirements

### Degree Requirements

**Minimum Credit Requirement:** 128 credits

**Minimum Residency Requirement:** 32 credits must be taken at UNH

**Minimum GPA:** 2.0 required for conferral\*

**Core Curriculum Required:** Discovery & Writing Program Requirements

**Foreign Language Requirement:** No

All Major, Option and Elective Requirements as indicated.

\*Major GPA requirements as indicated.

### Major Requirements

Successful completion of the program entails earning at least 128 credits, meeting the requirements of the University's Discovery program, completing all of the 24 required courses in the major as listed below, including the capstone course, the internship preparedness course, and a three-credit internship. In all major courses, the minimum allowable grade is a C-. The minimum overall GPA for graduation is 2.0. Transfer students may transfer up to a maximum of 32 credits to satisfy major requirements (not counting those courses used to satisfy Discovery requirements).

Code	Title	Credits
<b>Mathematics</b>		
MATH 425	Calculus I	4
MATH 426	Calculus II	4
MATH 644	Statistics for Engineers and Scientists	4
or COMP 570	Statistics in Computing and Engineering	
or MATH 539	Introduction to Statistical Analysis	
MATH 645	Linear Algebra for Applications	4
or MATH 545	Introduction to Linear Algebra	
MATH 739	Applied Regression Analysis	4
<b>Computer Science</b>		
CS 400	Introduction to Computing	2
CS 415	Introduction to Computer Science I	4
or CS 410P	Introduction to Scientific Programming/Python	
or COMP 424	Applied Computing 1: Foundations of Programming	
CS 416	Introduction to Computer Science II	4
or COMP 525	Data Structures Fundamentals	

CS 457	Introduction to Data Science and Analytics	4
or DATA 557	Introduction to Data Science and Analytics	
CS 515	Data Structures and Introduction to Algorithms	4
or COMP 625	Data Structures and Algorithms	
IT 505	Integrative Programming	4

or COMP 721	Big Data for Data Engineers	
<b>Capstone</b>		
DATA #790	Capstone Project	4
or CS 791	Senior Project I	
& CS 792	and Senior Project II	
or CS 799	Thesis	
Select three electives <sup>2</sup>		12
<b>Total Credits</b>		<b>91-94</b>

<sup>1</sup> Or another suitable 700-level data science or data engineering course chosen in consultation with the program coordinator.

<sup>2</sup> Must be 600 or 700-level and approved by advisor.

### Student Learning Outcomes

- Analyze a complex computing problem and to apply principles of computing and other relevant disciplines to identify solutions.
- Design, implement, and evaluate a computing-based solution to meet a given set of computing requirements in the context of the program's discipline.
- Communicate effectively in a variety of professional contexts.
- Recognize professional responsibilities and make informed judgments in computing practice based on legal and ethical principles.
- Function effectively as a member or leader of a team engaged in activities appropriate to the program's discipline.
- Apply theory, techniques, and tools throughout the data analysis lifecycle and employ the resulting knowledge to satisfy stakeholders' needs.

## Analytics and Data Science Major: Data Science Option (B.S.)

<https://ceps.unh.edu/computer-science/program/bs/analytics-data-science-major-data-science-option>

## Description

The option in Data Science is intended for students interested in pursuing advanced degrees and conducting original research in data science. The option in data science places its emphasis on a rigorous introduction to the theoretical mathematical and computational underpinnings of modern data science.

## Program Objectives

Analytics and Data Science focuses on the extraction of meaning from data through the application of computer science, mathematics and business domain knowledge. Within a few years of obtaining a bachelor's degree in Analytics and Data Science, our alumni will have:

1. Engaged in successful career areas of analytics and data science and will already have, or be pursuing, advanced degrees in Analytics, Data Science, Computer Science, Mathematics or related fields
2. Applied the full range of core Data Science concepts and techniques to fill the analytics needs of an organization
3. Communicated effectively with diverse stakeholders as well as functioned appropriately in a team environment
4. Navigated the complex interconnections between data, computing technology, and the goals and constraints of the organization served
5. Understood the pervasive and changing role of data in global society, and participated responsibly as both an Analytics and Data Science professional and citizen

<b>Select Approved Minor <sup>2</sup></b>		<b>20</b>
<b>Total Credits</b>		<b>102</b>

<sup>1</sup> Fulfills capstone requirement

<sup>2</sup> Minor must be approved by an academic advisor and must be in a discipline to which Analytics & Data Science can be applied (i.e. Economics or Applied Mathematics).

## Student Learning Outcomes

- Analyze a complex computing problem and to apply principles of computing and other relevant disciplines to identify solutions.
- Design, implement, and evaluate a computing-based solution to meet a given set of computing requirements in the context of the program's discipline.
- Communicate effectively in a variety of professional contexts.
- Recognize professional responsibilities and make informed judgments in computing practice based on legal and ethical principles.
- Function effectively as a member or leader of a team engaged in activities appropriate to the program's discipline.

- Apply theory, techniques, and tools throughout the data analysis lifecycle and employ the resulting knowledge to satisfy stakeholders' needs.

## Analytics Minor

<https://ceps.unh.edu/computer-science/program/minor/analytics>

### Description

The demand for data-savvy individuals has never been higher, and the analytics minor gives you an introduction to the tools you'll need for a career involving data science and analytics, focused on the application of data science in industry. In addition to courses in mathematics, computer science and analytics, you can study neural networks and big data. Combine this minor with a major in the sciences, computer science, business, marketing or social sciences to bring enhanced skills to your career or graduate studies. With the experience provided by this minor, you'll gain a competitive advantage in this rapidly growing field. The objective of this minor is to provide a basic background in analytics for those interested in applications.

For more information, contact Matthew Magnusson, program coordinator and minor supervisor, at [Matthew.Magnusson@unh.edu](mailto:Matthew.Magnusson@unh.edu) ([matthew.magnusson@unh.edu](mailto:matthew.magnusson@unh.edu)).

### Requirements

Students must complete five courses (20 credits) with a cumulative minimum grade point average of 2.0 and with no grade below a C-grade. Transfer course approval for the minor is limited to at most, two relevant courses successfully completed at another accredited institution, subject to syllabi review and approval. Some preparation in MATH 425: Calculus I and programming (CS 415: Introduction to Computer Science I, or COMP 425: Introduction to Programming) is required.

Code	Title	Credits
<b>Requirements</b>		
CS 417 or COMP 525	From Programs to Computer Science (Durham Students) Data Structures Fundamentals	4
CS 457 or DATA 557	Introduction to Data Science and Analytics Introduction to Data Science and Analytics	4
MATH 539	Introduction to Statistical Analysis	4
MATH 545	Introduction to Linear Algebra	4
Select one of the following:		
DATA 674	Predictive and Prescriptive Analytics I	4
DATA 675	Predictive and Prescriptive Analytics II	4
DATA 750	Neural Networks	4
DATA #757	Mining Massive Datasets	4
<b>Total Credits</b>		<b>20</b>

## Computer Programming Cognate

<https://ceps.unh.edu/computer-science/program/cognate/computer-programming>

### Description

The Cognate in Programming is designed so that students who wish to go beyond an introductory computer programming course are able to meet the challenges that technology imposes.

This cognate is for UNH students who are interested in acquiring skills beyond just a basic programming language. This cognate would be an alternative to students who are not going to pursue a minor in Computer Science or Information Technology but still want to have the opportunity to partake a coherent, if short, curriculum that gives them a foundation to participate in programming activities as applicable to their technical areas.

### Requirements

The cognate consists of three courses in total, with one required course and two courses selected from four different sequence options. The Cognate will appear on each student's transcript.

Code	Title	Credits
Required Course		
IT 403	Introduction to Internet Technologies	4
Select one of the following two-course sequences:		
Sequence one		
CS 415	Introduction to Computer Science I	4
CS 416	Introduction to Computer Science II	
or IT 505	Integrative Programming	
Sequence two		
CS 414	From Problems to Algorithms to Programs	4
CS 417	From Programs to Computer Science	
or IT 505	Integrative Programming	
Sequence three		
CS 410P	Introduction to Scientific Programming/Python	4
or CS 410C	Introduction to Scientific Programming/C	
CS 417	From Programs to Computer Science	4
or IT 505	Integrative Programming	
Sequence four		
CS 405	Introduction to Applications Programming	4
IT 505	Integrative Programming	

## Computer Science Major (B.S.)

<https://ceps.unh.edu/computer-science/program/bs/computer-science>

### Description

Computer science focuses on problem solving with a particular emphasis on the design of computer-efficient solutions. Within a few years of obtaining a bachelor's degree alumni will have:

1. Engaged in successful careers in diverse areas of software development and will be pursuing advanced education in computer science or related fields;
2. Applied the full range of core computer science concepts and techniques to fill software development needs of an organization;
3. Adapted to changing directions of computing technology and used state-of-the-art techniques to confront new problems effectively;
4. Navigated the complex interconnections between software and the goals and constraints of the organization served;

- Participated responsibly in the pervasive and changing role of computing technology in global society as both software engineers and citizens;
- Operated collaboratively in a team environment and assumed leadership roles.

The B.S. in computer science program is accredited by the Computing Accreditation Commission of [ABET](#).

## Requirements

### Degree Requirements

**Minimum Credit Requirement:** 128 credits

**Minimum Residency Requirement:** 32 credits must be taken at UNH

**Minimum GPA:** 2.0 required for conferral\*

**Core Curriculum Required:** Discovery & Writing Program Requirements

**Foreign Language Requirement:** No

All Major, Option and Elective Requirements as indicated.

\*Major GPA requirements as indicated.

### Major Requirements

Computer science majors must maintain an overall grade-point average of 2.0 or better in all required computer science, mathematics, and computer engineering courses in order to graduate. If at the end of any semester, including the first, a student's cumulative grade-point average in these courses falls below 2.0, the student may not be allowed to continue as a CS major.

In order to meet the CS major requirements, the following courses must be passed with a grade of C- or better CS 410C, CS 410P, CS 415, CS 416, CS 420, CS 515, CS 520, IT 403

If a student wishing to transfer into the computer science major has any coursework that is applicable to the major, the grades in those courses must satisfy the minimum grade requirements for the B.S. degree in computer science. The student must have an overall grade-point average of 2.0 or better in all courses taken at the university.

Computer science majors must complete the following coursework in computer science, mathematics, computer engineering, and science. (all courses are 4 credits unless indicated otherwise):

Code	Title	Credits
<b>Computer Science Courses</b>		
CS 400	Introduction to Computing	2
CS 415	Introduction to Computer Science I	4
or CS 410C	Introduction to Scientific Programming/C	
or CS 410P	Introduction to Scientific Programming/Python	
CS 416	Introduction to Computer Science II	4
CS 420	Foundations of Programming for Digital Systems	4
IT 403	Introduction to Internet Technologies	4
CS 501	Professional Ethics and Communication in Technology-related Fields	4
CS 515	Data Structures and Introduction to Algorithms	4
CS 518	Introduction to Software Engineering	4
CS 520	Computer Organization and System-Level Programming	4
CS 527	Fundamentals of Cybersecurity	4
CS 619	Introduction to Object-Oriented Design and Development	4
CS 620	Operating System Fundamentals	4
CS 659	Introduction to the Theory of Computation	4

CS 758	Algorithms	4
CS 761	Programming Language Concepts and Features	4
CS 791	Senior Project I	4
& CS 792	and Senior Project II	
or CS 799	Thesis	
<b>Computer Science Electives:</b>		
Select one course from the following implementation electives:		4
CS 712	Compiler Design	
CS 720	Systems Programming	
CS 730	Introduction to Artificial Intelligence	
CS 735	Introduction to Parallel and Distributed Programming	
CS 770	Computer Graphics	
Select one course from the following theory electives:		4
CS 723	Performance Evaluation of Computer Systems	
CS 745	Formal Specifications and Verification of Software Systems	
CS 750	Machine Learning	
CS 755	Computer Vision	
CS 757	Mathematical Optimization for Applications	
CS 759	Natural Language Processing	
Select two additional CS courses numbered 690-799 as general electives		8
<b>Professional Electives<sup>1</sup></b>		
Select one course from the following:		3-4
CS 700-level course		
IT 502	Intermediate Web Design	
IT 604	Server-side Web Development	
IT 605	Client-side Web Development	
IT 612	Scripting Languages	
IT 630	Data Science and Big Data Analytics	
IT 666	Cybersecurity Practices	
IT 705	Project Management for Information Technology	
IT 780	Topics in Information Technology	
MATH 525	Linearity I	
MATH 526	Linearity II	
MATH 527	Differential Equations with Linear Algebra	
MATH 528	Multidimensional Calculus	
MATH 545	Introduction to Linear Algebra	
MATH 645	Linear Algebra for Applications	
MATH 647	Complex Analysis for Applications	
MATH 736	Advanced Statistical Modeling	
MATH 737	Statistical Methods for Quality Improvement and Design	
MATH 739	Applied Regression Analysis	
MATH 740	Design of Experiments I	
MATH 741	Survival Analysis	
MATH 743	Time Series Analysis	
MATH 744	Design of Experiments II	
MATH 745	Foundations of Applied Mathematics I	
MATH 746	Foundations of Applied Mathematics II	
MATH 747	Introduction to Nonlinear Dynamics and Chaos	
MATH 753	Introduction to Numerical Methods I	
MATH 755	Probability with Applications	
MATH 756	Principles of Statistical Inference	
MATH 760	Geometry	
MATH 761	Abstract Algebra	
MATH 767	One-Dimensional Real Analysis	
MATH 776	Logic	
MATH 783	Set Theory	
MATH 784	Topology	
MATH 788	Complex Analysis	
ECE 562	Computer Organization	
ECE 649	Embedded Microcomputer Based Design	
ECE 700-level course		
ENGL 502	Professional and Technical Writing	
GEN 604	Principles of Genetics	
GEN 711	Genomics and Bioinformatics	
<b>Mathematics Courses</b>		
MATH 425	Calculus I	4
MATH 426	Calculus II	4
MATH 531	Mathematical Proof	4

MATH 539	Introduction to Statistical Analysis	4
or MATH 644	Statistics for Engineers and Scientists	
<b>Science courses</b> <sup>2</sup>		
One Discovery Biological Science (BS) with Discovery Lab		4
One Discovery Physical Science (PS) with Discovery Lab		4
<b>Other Courses</b>		
Discovery requirements not already covered by required courses <sup>3</sup>		24
<b>Total Credits</b>		<b>129-130</b>

<sup>1</sup> Professional electives must either be chosen from the list of approved courses or another non-introductory CEPS course with significant science and/or engineering focus approved on a per-course basis by the undergraduate studies committee.

<sup>2</sup> Courses must carry the Discovery attributes of Biological Science or Physical Science and include Discovery lab (DLAB).

<sup>3</sup> One of these courses must be writing intensive.

## Degree Plan

### Recommended Plan of Study

Course	Title	Credits
<b>First Year</b>		
<b>Fall</b>		
CS 400	Introduction to Computing	2
CS 415	Introduction to Computer Science I	4
IT 403	Introduction to Internet Technologies	4
MATH 425	Calculus I	4
Discovery I		4
<b>Credits</b>		<b>18</b>
<b>Spring</b>		
CS 416	Introduction to Computer Science II	4
CS 420	Foundations of Programming for Digital Systems	4
MATH 426	Calculus II	4
ENGL 401	First-Year Writing	4
<b>Credits</b>		<b>16</b>
<b>Second Year</b>		
<b>Fall</b>		
CS 515	Data Structures and Introduction to Algorithms	4
CS 518	Introduction to Software Engineering	4
or CS 527	or Fundamentals of Cybersecurity	
MATH 531	Mathematical Proof	4
or MATH 539	or Introduction to Statistical Analysis	
or MATH 644	or Statistics for Engineers and Scientists	
CS 501	Professional Ethics and Communication in Technology-related Fields (Or Discovery II)	4
<b>Credits</b>		<b>16</b>
<b>Spring</b>		
CS 520	Computer Organization and System-Level Programming	4

MATH 539	Introduction to Statistical Analysis	4
or MATH 644	or Statistics for Engineers and Scientists	
or MATH 531	or Mathematical Proof	
CS 527	Fundamentals of Cybersecurity	4
or CS 518	or Introduction to Software Engineering	
Discovery II (or CS 501)		4
<b>Credits</b>		<b>16</b>

#### Third Year

##### Fall

CS 619	Introduction to Object-Oriented Design and Development	4
CS 620	Operating System Fundamentals (Or Professional Elective)	4
CS 659	Introduction to the Theory of Computation	4
CS 761	Programming Language Concepts and Features (or Discovery III)	4
<b>Credits</b>		<b>16</b>

##### Spring

Professional Elective (or CS 620)		4
Discovery III (or CS 761)		4
Discovery IV		4
CS 758	Algorithms (Or CS 700-level General Elective or Discovery V)	4
<b>Credits</b>		<b>16</b>

#### Fourth Year

##### Fall

CS 791	Senior Project I	2
CS 700-level Implementation or Theory Elective		4
CS 700-level General Elective (or Discovery V)		4
Discovery V (or CS 758)		4
Discovery VI		4
<b>Credits</b>		<b>18</b>

##### Spring

CS 792	Senior Project II	2
CS 700-level Implementation or Theory Elective		4
CS 700-level General Elective (or CS 758)		4
Discovery VII		4
<b>Credits</b>		<b>14</b>
<b>Total Credits</b>		<b>130</b>

Discovery (7): Historical Perspectives, Humanities, Fine and Performing Arts, Social Science, World Cultures, Physical Science Discovery Lab, Biological Science Discovery Lab with ONE mandatory course with Writing Intensive (WI) attribute

## Student Learning Outcomes

Graduates of the UNH BS CS program will have an ability to:

- Analyze a complex computing problem and to apply principles of computing and other relevant disciplines to identify solutions.
- Design, implement, and evaluate a computing-based solution to meet a given set of computing requirements in the context of the program's discipline.

- Communicate effectively in a variety of professional contexts.
- Recognize professional responsibilities and make informed judgments in computing practice based on legal and ethical principles.
- Function effectively as a member or leader of a team engaged in activities appropriate to the program's discipline.
- Apply computer science theory and software development fundamentals to produce computing-based solutions.
- Learn independently about new technologies, and develop the skills needed to understand them.

## Computer Science Major: Algorithms Option (B.A.)

<https://ceps.unh.edu/computer-science/program/ba/computer-science-major-algorithms-option>

### Description

The B.A. in Computer Science will allow students to combine the study of computer science with the study of another field. Given the emergence of computational approaches to virtually all areas of scholarship and creative expression, it is important to offer this flexibility. The three tracks in the B.A. program contain the same computer science core as the B.S. program, but give more control to the student to choose the complementary and advanced courses.

### Requirements

#### Degree Requirements

**Minimum Credit Requirement:** 128 credits

**Minimum Residency Requirement:** 32 credits must be taken at UNH

**Minimum GPA:** 2.0 required for conferral\*

**Core Curriculum Required:** Discovery & Writing Program Requirements

**Foreign Language Requirement:** Yes

All Major, Option and Elective Requirements as indicated.

\*Major GPA requirements as indicated.

#### Major Requirements

Code	Title	Credits
<b>Computer Science Courses</b>		
CS 400	Introduction to Computing	2
CS 415	Introduction to Computer Science I	4
or CS 410P	Introduction to Scientific Programming/Python	
or CS 410C	Introduction to Scientific Programming/C	
CS 416	Introduction to Computer Science II	4
IT 403	Introduction to Internet Technologies	4
CS 420	Foundations of Programming for Digital Systems	4
CS 501	Professional Ethics and Communication in Technology-related Fields	4
CS 515	Data Structures and Introduction to Algorithms	4
CS 518	Introduction to Software Engineering	4
CS 520	Computer Organization and System-Level Programming	4
CS 527	Fundamentals of Cybersecurity	4
CS 619	Introduction to Object-Oriented Design and Development	4
CS 791 & CS 792	Senior Project I and Senior Project II	4

or CS 799	Thesis	
<b>Computer Science Electives</b>		
Select three courses from the advanced CS course pool <sup>1</sup>		12
<b>Mathematics Courses</b>		
MATH 425	Calculus I	4
MATH 531	Mathematical Proof	4
MATH 539	Introduction to Statistical Analysis	4
or MATH 644	Statistics for Engineers and Scientists	
CS 659	Introduction to the Theory of Computation	4
<b>Science Courses <sup>2</sup></b>		
One Discovery Biological Science (BS) with Discovery Lab		4
One Discovery Physical Science (PS) with Discovery Lab		4
Discovery requirements not already covered by required courses		20
<b>Total Credits</b>		<b>102</b>

<sup>1</sup> Advanced CS course pool consists of the following:

- Any CS course at the 700-level
- One professional elective from the [list of B.S. in Computer Science Electives](#)

<sup>2</sup> Courses must carry the Discovery attributes of Biological Science or Physical Science and include Discovery Lab (DLAB).

Computer science majors must maintain an overall grade-point average of 2.0 or better in all required computer science, mathematics, and computer engineering courses in order to graduate. If at the end of any semester, including the first, a student's cumulative grade-point average in these courses falls below 2.0, the student may not be allowed to continue as a CS major.

The following courses must be passed with a grade of C- or better: CS 410C, CS 410P, CS 415, CS 416, CS 420, CS 515, CS 520, IT 403

If a student wishing to transfer into the computer science major has any coursework that is applicable to the major, the grades in those courses must satisfy the minimum grade requirements for the B.S. degree in computer science. The student must have an overall grade-point average of 2.0 or better in all courses taken at the university.

### Student Learning Outcomes

Graduates of the UNH B.A. CS programs will have an ability to:

- Analyze a complex computing problem and to apply principles of computing and other relevant disciplines to identify solutions.
- Design, implement, and evaluate a computing-based solution to meet a given set of computing requirements in the context of the program's discipline.
- Communicate effectively in a variety of professional contexts.
- Recognize professional responsibilities and make informed judgments in computing practice based on legal and ethical principles.
- Function effectively as a member or leader of a team engaged in activities appropriate to the program's discipline.
- Apply computer science theory and software development fundamentals to produce computing-based solutions.
- Learn independently about new technologies, and have the skills needed to understand them.

# Computer Science Major: Cybersecurity Option (B.A.)

<https://ceps.unh.edu/computer-science/program/ba/computer-science-major-cybersecurity-option>

## Description

The B.A. in Computer Science will allow students to combine the study of computer science with the study of another field. Given the emergence of computational approaches to virtually all areas of scholarship and creative expression, it is important to offer this flexibility. The three tracks in the B.A. program contain the same computer science core as the B.S. program, but give more control to the student to choose the complementary and advanced courses.

The student must have an overall grade-point average of 2.0 or better in all courses taken at the university.

## Student Learning Outcomes

Graduates of the UNH B.A. CS programs will have an ability to:

- Analyze a complex computing problem and to apply principles of computing and other relevant disciplines to identify solutions.
- Design, implement, and evaluate a computing-based solution to meet a given set of computing requirements in the context of the program's discipline.
- Communicate effectively in a variety of professional contexts.
- Recognize professional responsibilities and make informed judgments in computing practice based on legal and ethical principles.
- Function effectively as a member or leader of a team engaged in activities appropriate to the program's discipline.
- Apply computer science theory and software development fundamentals to produce computing-based solutions.
- Learn independently about new technologies, and have the skills needed to understand them.

## Computer Science Minor

<https://ceps.unh.edu/computer-science/program/minor/computer-science>

## Description

The minor in computer science is designed for students in other majors who want to learn the fundamentals of designing and implementing computer software.

Students should declare their intent to earn a minor as early as possible and no later than the end of the junior year. During the final term, an

application should be made to the dean of the student's major college to have the minor shown on the academic record. Students must consult with their major adviser and also the minor supervisor.

# Requirements

Credit toward the minor will be given only for courses passed with C- or better, and a 2.0 grade-point average must be maintained in courses for the minor. Courses taken on the pass/fail basis may not be used for the minor.

Code	Title	Credits
Requirements		
CS 415	Introduction to Computer Science I	4
or CS 410C	Introduction to Scientific Programming/C	
or CS 410P	Introduction to Scientific Programming/Python	
CS 416	Introduction to Computer Science II	4
or CS 417	From Programs to Computer Science	
CS 420	Foundations of Programming for Digital Systems	4
CS 515	Data Structures and Introduction to Algorithms	4
Other Courses		
Select one of the following:		
CS 619	Introduction to Object-Oriented Design and Development	4
CS 520	Computer Organization and System-Level Programming	
CS 620	Operating System Fundamentals	
CS 659	Introduction to the Theory of Computation <sup>1</sup>	
CS 761	Programming Language Concepts and Features	
An approved CS 700-level course		

<sup>1</sup> CS 659 Introduction to the Theory of Computation has mathematics prerequisites: MATH 425 Calculus I, MATH 426 Calculus II, and MATH 531 Mathematical Proof.

# Data Science Minor

<https://ceps.unh.edu/computer-science/program/minor/data-science>

# Description

The objective of this minor is to provide a basic background in data science for those who are more interested in the theoretical underpinnings of analytics and data science.

For more information, contact Matthew Magnusson, program coordinator and minor supervisor, at [matthew.magnusson@unh.edu](mailto:matthew.magnusson@unh.edu).

# Requirements

Students must complete five courses (20 credits) with a cumulative minimum grade point average of 2.0 and with no grade below a C-grade. Transfer course approval for the minor is limited to at most, two relevant courses successfully completed at another accredited institution, subject to syllabi review and approval. Some preparation in MATH 425: Calculus I and programming (CS 415: Introduction to Computer Science I, or COMP 425: Introduction to Programming) is required.

Code	Title	Credits
Requirements		
CS 515	Data Structures and Introduction to Algorithms	4
Select one course from the following:		
CS 417	From Programs to Computer Science (Durham Students)	4

CS 416	Introduction to Computer Science II	
COMP 525	Data Structures Fundamentals (Manchester Students)	
Select three courses from the following: <sup>1</sup>		12
CS 730	Introduction to Artificial Intelligence	
CS 750	Machine Learning	
CS 753	Information Retrieval	
CS 757	Mathematical Optimization for Applications	
CS 775	Database Systems	
MATH 645	Linear Algebra for Applications	
MATH 736	Advanced Statistical Modeling	
MATH 738	Data Mining and Predictive Analytics	
MATH 739	Applied Regression Analysis	
DATA 750	Neural Networks	
DATA #757	Mining Massive Datasets	
Total Credits		20

<sup>1</sup> Must select at least one CS and one MATH course. Must select CS 750: Machine Learning or MATH 738: Data Mining and Predictive Analytics.

# Information Technology Cognate

<https://ceps.unh.edu/computer-science/program/cognate/information-technology>

# Description

The Toolbox Cognate in Information Technology is designed to provide students with knowledge and skills required by essentially any job today.

With introductory level options, including courses from outside the department, the cognate is of value to students who wish to get a firm foundation in areas related to computing and information technology. The cognate also gives students considering study of Information Technology or Computer Science an opportunity to sample a broad range of courses in the field.

The Cognate will appear on each student's transcript.

# Requirements

The cognate consists of three courses with no more than two courses to be taken from the same category (some courses may have pre-requisites).

Code	Title	Credits
Computer Applications		
CS #401	Computers and Their Applications	4

MATH 539	Introduction to Statistical Analysis	4

# Information Technology Major (B.S.)

<https://ceps.unh.edu/computer-science/program/bs/information-technology>

## Description

Information technology is concerned primarily with the application of existing computing technologies to the information needs of organizations and individual computer users. The IT program aims to provide graduates with the skills and knowledge to take on appropriate professional positions in information technology upon graduation and grow into leadership positions in the field. Potential careers include network administrator, database developer, system administrator, and webmaster.

The broad objectives for B.S. in information technology graduates are:

1. Apply the full range of core IT concepts and techniques to fill the IT needs of an organization and be prepared to assume managerial and other advanced responsibilities,
2. Confront new problems effectively and anticipate the changing directions of technology,
3. Communicate effectively with diverse stakeholders as well as function appropriately in a team environment,
4. Navigate within the complex relationships between IT and larger organizational goals, and
5. Understand the pervasive and changing role of computing technology in global society, and participate responsibly as both IT professional and citizen.

The B.S. in information technology program is accredited by the Computing Accreditation Commission of [ABET](#).

## Requirements

### Degree Requirements

**Minimum Credit Requirement:** 128 credits

**Minimum Residency Requirement:** 32 credits must be taken at UNH

**Minimum GPA:** 2.0 required for conferral\*

**Core Curriculum Required:** Discovery & Writing Program Requirements

**Foreign Language Requirement:** No

All Major, Option and Elective Requirements as indicated.

\*Major GPA requirements as indicated.

### Major Requirements

Code	Title	Credits
<b>Information Technology Courses</b>		
CS 400	Introduction to Computing	2
CS 415	Introduction to Computer Science I <sup>1</sup>	4

IT 791 & IT 792	Senior Project I and Senior Project II	4
<b>IT Electives (select three)</b>		<b>12</b>
IT 502	Intermediate Web Design	
IT 604	Server-side Web Development	
IT 605	Client-side Web Development	
IT 612	Scripting Languages	
IT 630	Data Science and Big Data Analytics	
IT 666	Cybersecurity Practices	
IT #704	Advanced Web Development	
IT 718	Cloud Computing Principles	
IT 725	Network Technology	
IT 780	Topics in Information Technology	
<b>Mathematics Courses</b>		
MATH 425	Calculus I	4
MATH 539	Introduction to Statistical Analysis	4
<b>Science Courses <sup>2</sup></b>		
One Discovery Biological Science (BS) with Discovery Lab		4
One Discovery Physical Science (PS) with Discovery Lab		4
<b>Other Courses</b>		
Discovery requirements not already covered by required courses		24
General Electives		6-8
<b>Minor, Second Major, or Dual Degree</b>		<b>20</b>
<b>Total Credits</b>		<b>129-131</b>

<sup>1</sup> Starting in 2022-2023, all Information technology majors will be recommended to take CS 415 Introduction to Computer Science I and CS 417 From Programs to Computer Science as their two-semester sequence. CS 414 From Problems to Algorithms to Programs will be discontinued starting Fall 2022.

<sup>2</sup> Courses must carry the Discovery attributes of Biological Science or Physical Science and include Discovery lab (DLAB).

Information technology majors must maintain an overall grade-point average of 2.0 or better in all required information technology and computer science required courses in order to graduate. If at the end of any semester, including the first, a student's cumulative grade-point average in these courses falls below 2.0, the student may not be allowed to continue as an IT major. In order to meet the IT major requirements, the following courses must be passed with a grade of C- or better: CS 410P, CS 410C, CS 414, CS 415, CS 416, CS 417, IT 403, IT 505, IT 520.

If a student wishing to transfer into the information technology major has any coursework that is applicable to the major, the grades in those courses must satisfy the minimum grade requirements for the B.S. degree in information technology. The student must have an overall grade-point average of 2.0 or better in all courses taken at the University.

In addition to the core IT requirements, each student must complete a complementary set of courses in a particular domain outside of IT to which the student's IT skills can be applied. This set of courses can be completed in one of the following ways:

1. An approved minor\*\*;
2. A second major or UNH dual degree.

\*\*A list of preapproved minors is available from the CS Department and requires at least (5) courses to complete.

## Degree Plan

The following is a sample schedule depicting the necessary requirements and the layout of the curriculum. Students must consult with their advisers in order to come up with the proper schedule for themselves.

Course	Title	Credits
<b>First Year</b>		
<b>Fall</b>		
CS 400	Introduction to Computing	2
CS 415	Introduction to Computer Science I	0-4
IT 403	Introduction to Internet Technologies	4
MATH 425	Calculus I	4
Discovery		4
<b>Credits</b>		<b>14-18</b>
<b>Spring</b>		
CS 417	From Programs to Computer Science	4
ENGL 401	First-Year Writing (Discovery)	4
Discovery		4
Physical Science (DLAB)		4
<b>Credits</b>		<b>16</b>
<b>Second Year</b>		
<b>Fall</b>		
IT 505	Integrative Programming	4
IT 520	Computer Architecture	4
CS 501	Professional Ethics and Communication in Technology-related Fields	4
Discovery		4
<b>Credits</b>		<b>16</b>
<b>Spring</b>		
CS 518	Introduction to Software Engineering	4
CS 527	Fundamentals of Cybersecurity	4
MATH 539	Introduction to Statistical Analysis	4
Biological Science (DLAB)		4
<b>Credits</b>		<b>16</b>
<b>Third Year</b>		
<b>Fall</b>		
IT 609	Network/Systems Administration	4
IT 705	Project Management for Information Technology	4
IT Elective (1 of 3)		4
Minor (1 of 5)		4
<b>Credits</b>		<b>16</b>
<b>Spring</b>		
IT 699	Internship	1
IT 775	Database Technology	4
Minor (2 of 5)		4
Discovery		4
Free Elective		4
<b>Credits</b>		<b>17</b>

## Fourth Year

### Fall

IT 791	Senior Project I	2
IT Elective (2 of 3)		4
Minor (3 of 5)		4
Discovery		4
Free Elective (optional)		
<b>Credits</b>		<b>14</b>

### Spring

IT 792	Senior Project II	2
IT Elective (3 of 3)		4
Minor (4 of 5)		4
Minor (5 of 5)		4
Free Elective or Fourth Writing Intensive		4
<b>Credits</b>		<b>18</b>
<b>Total Credits</b>		<b>127-131</b>

## Student Learning Outcomes

- Analyze a complex computing problem and to apply principles of computing and other relevant disciplines to identify solutions.
- Design, implement, and evaluate a computing-based solution to meet a given set of computing requirements in the context of the program's discipline.
- Communicate effectively in a variety of professional contexts.
- Recognize professional responsibilities and make informed judgments in computing practice based on legal and ethical principles.
- Function effectively as a member or leader of a team engaged in activities appropriate to the program's discipline.
- Identify and analyze user needs and to take them into account in the selection, creation, integration, evaluation, and administration of computing-based systems.
- Self-learning skills, exposure to technologies new to the students, practice in understanding those technologies on their own.

## Information Technology Minor

<https://ceps.unh.edu/computer-science/program/minor/information-technology>

### Description

The information technology (IT) minor is a way for students in non-technical majors to bridge the gap between a primarily non-technical education and a technical world. Graduates from a variety of fields are discovering that there is a great need to have computer competency in addition to the knowledge they gain in their major; the IT minor, which is tailored to grow students' understanding of computer and information technology applications, helps prepare students for the future.

### Requirements

Students who minor in IT must complete a minimum of 20 credits of IT courses.

Credit toward the minor will only be given for courses passed with C- or better, and a 2.00 grade-point average must be maintained in courses for the minor. Courses taken on the pass/fail basis may not be used for the minor. Students should declare their intent to earn a minor as early as possible and no later than the end of the junior year. During the final term, an application should be made to the dean (of the student's major college) to have the minor shown on their academic record. Students must consult with their major advisor and also the minor coordinator.

Code	Title	Credits
<b>Requirements</b>		
IT 520	Computer Architecture	4
One programming course chosen from the following list:		4
CS 410C	Introduction to Scientific Programming/C	
or CS 410P	Introduction to Scientific Programming/Python	
or CS 415	Introduction to Computer Science I	
Three courses chosen from the following list:		12
CS 417	From Programs to Computer Science	
CS 518	Introduction to Software Engineering	
CS 527	Fundamentals of Cybersecurity	
IT 403	Introduction to Internet Technologies	
IT 502	Intermediate Web Design	
IT 505	Integrative Programming	
IT 604	Server-side Web Development	
IT 605	Client-side Web Development	
IT 609	Network/Systems Administration	
IT 612	Scripting Languages	
IT 630	Data Science and Big Data Analytics	
IT 666	Cybersecurity Practices	
Other courses are eligible by permission of the minor coordinator		
<b>Total Credits</b>		<b>20</b>

## Earth Sciences

The courses offered in the Department of Earth Sciences cover the broad spectrum of geosciences, with emphases on climate, geochemistry, geology, geophysics, hydrology, and oceanography. The curriculum encompasses a group of related disciplines concerned with an understanding of Earth and its environment. Studies of the processes that shape the continents and oceans, drive the hydrologic cycle and ocean circulation, and affect climate change and the evolution of life are based on a foundation of basic mathematics, physics, and chemistry.

The need for well trained Earth and environmental scientists has been increasing in response to growing societal demands for sound environmental and resource management. Issues of particular concern include global climate change impacts, management of water resources, development of energy and mineral resources, waste disposal, and assessments of natural hazards. In addition, the demand for well-trained secondary school teachers of Earth sciences has been steadily increasing.

The Department of Earth Sciences offers three majors: B.S. Earth Sciences, B.S. Environmental Sciences (interdisciplinary with the College of Life Sciences and Agriculture) and B.A. Earth Sciences. These programs prepare students for advanced study in the geosciences; for secondary-school teaching of Earth sciences; and for entry-level professional employment in public or private institutions concerned with environmental and resource management, including consulting firms, government agencies, energy- and resource-extraction firms, utilities, and nonprofit organizations; and for secondary-school teaching of Earth sciences.

The Department of Earth Sciences also offers a minor in Earth Sciences, as well as an interdisciplinary minor in oceanography.

Descriptions and requirements for the majors and minors are arranged alphabetically.

<https://ceps.unh.edu/earth-sciences>

## Programs

- [Earth Sciences Major \(B.A.\)](#) (p. 95)
- [Earth Sciences Major \(B.S.\)](#) (p. 97)
- [Earth Sciences Minor](#) (p. 101)
- [Environmental Sciences Major: Geosystems Option \(B.S.\)](#) (p. 101)
- [Environmental Sciences Major: Hydrology Option \(B.S.\)](#) (p. 104)
- [Oceanography Minor](#) (p. 106)

## Faculty

<https://ceps.unh.edu/earth-sciences/faculty-staff-directory>

## Earth Sciences Major (B.A.)

<https://ceps.unh.edu/earth-sciences/program/ba/earth-sciences-major>

## Description

The bachelor of arts in Earth sciences is offered through the Department of Earth Sciences. This program provides students an opportunity to obtain a broad education and a general background in the Earth sciences with a greater degree of freedom in choosing electives than in the bachelor of science programs. Through careful choice of electives, students can prepare for business, industry, public service, the non-profit sector, graduate school or, in combination with a M.Ed. or M.A.T. certification program, a career teaching in secondary schools.

## Requirements

### Degree Requirements

**Minimum Credit Requirement:** 128 credits

**Minimum Residency Requirement:** 32 credits must be taken at UNH

**Minimum GPA:** 2.0 required for conferral\*

**Core Curriculum Required:** Discovery & Writing Program Requirements

**Foreign Language Requirement:** Yes

All Major, Option and Elective Requirements as indicated.

\*Major GPA requirements as indicated.

## Major Requirements

Code	Title	Credits
Complete (with a C- or better in each course) a minimum of eight courses in the department, including the following:		
ESCI 401	Dynamic Earth	4
or ESCI 409	Geology and the Environment	
ESCI 402	Earth History	4
ESCI 512	Principles of Mineralogy	4

CHEM 403	General Chemistry I	4
Five advanced-level courses, two of which must be 700-level or above		15-20
<b>Math Requirements</b>		
MATH 425	Calculus I	4
MATH 426	Calculus II	4
or MATH 539	Introduction to Statistical Analysis	
or BIOL 528	Applied Biostatistics I	
<b>Capstone</b>		
<b>Total Credits</b>		39-44

<sup>1</sup> Note that ESCI 401 Dynamic Earth, ESCI 402 Earth History, ESCI 405 Global Environmental Change, ESCI 409 Geology and the Environment, ESCI 420 Our Solar System, ESCI 501 Introduction to Oceanography cannot be taken to fulfill Discovery Program requirements for majors in the Department of Earth Sciences.

It is strongly advised that students complete, as early as possible, a year each of college chemistry and physics.

## Capstone Experience

A capstone experience is required of all undergraduate Earth sciences majors during their senior year. All capstone experiences at UNH must meet one or more of the following criteria:

1. The capstone synthesizes and applies disciplinary knowledge and skills.
2. The capstone fosters reflection on undergraduate learning and experience.
3. The capstone demonstrates emerging professional competencies.
4. The capstone applies, analyzes, and/or interprets research or data or artistic expression.
5. The capstone explores areas of interest based on the integration of prior learning.

Suggested ways of meeting the capstone requirement in the Department of Earth Sciences include approved INCO 790 Advanced Research Experience, ESCI 795 Topics/ESCI 796 Topics field courses, ESCI 799 Senior Thesis, URA/SURF/IROP projects, internships, environmental/geologic field camps, REU programs, or Earth Sciences education and outreach activities designed according to the above criteria. Capstone experiences must be equivalent to a minimum of 2 academic credits. Students should work closely with their faculty advisors to define the most appropriate capstone experience for their Earth Sciences degree program, although the capstone mentor can be someone other than their primary faculty advisor. All capstone experiences must be approved and certified by the faculty advisor and the capstone mentor. Presentation of projects or experiences developed for the capstone is encouraged at the annual UNH Undergraduate Research Conference or other appropriate venue.

## Degree Plan

Senior Capstone	4
<b>Credits</b>	<b>16</b>
<b>Total Credits</b>	<b>129</b>

- <sup>1</sup> One course must be taken in each of the remaining Disciplinary Groups of the University Discovery Program (Biological Sciences; Environment Technology & Society; Historical Perspectives; World Culture; Fine & Performing Arts; Social Science; Humanities).
- <sup>2</sup> The foreign language requirement may be fulfilled by a full year (8 UNH credits or equivalent) elementary course in any foreign language including American Sign Language, 1 semester (4 UNH credits or equivalent) of any foreign language beyond the elementary level, or by taking a College Board foreign language achievement test.
- <sup>3</sup> Students should consider additional courses in Earth Sciences and other science and math courses.

## Student Learning Outcomes

- Recognize common Earth materials and structures.
- Describe how Earth scientists construct the geological time scale and apply geochronologic dating techniques.
- Describe the broad attributes of and interactions within the Earth System, as well as its geological history, how and why it is changing today, and how those changes impact society.
- Understand Earth processes and cycles.
- Perform simple calculations to process and evaluate quantitative Earth science data.
- Interpret a geologic map and cross section in terms of the sequence of geologic events and understand the processes that caused those events.
- Collect, interpret, and synthesize basic field observations and measurements to develop and test multiple working hypotheses to explain them.
- Become proficient in basic geological and Earth science laboratory skills.
- Describe the basic dynamics governing the evolution of the Earth's climate.
- Successfully apply basic calculus and chemistry to Earth science problems.
- Effectively communicate results of scientific inquiries orally, visually, and in writing.

## Earth Sciences Major (B.S.)

<https://ceps.unh.edu/earth-sciences/program/bs/earth-sciences-major>

### Description

The bachelor of science in Earth sciences is offered through the Department of Earth Sciences. The program represents a strong concentration in the Earth sciences, built upon a solid formation in mathematics, physics and chemistry. The B.S. degree is especially well-suited for students who wish a strong foundation for secondary teaching or plan to continue their studies in graduate school. Beyond a central core of courses, there are several possible specializations (climate, geology, geophysics, oceanography) from which students must choose in order to develop depth in a particular area of Earth sciences. Students are

encouraged to participate in research, field or internship experiences to round out their experiences in the degree program.

## Requirements

### Degree Requirements

**Minimum Credit Requirement:** 128 credits

**Minimum Residency Requirement:** 32 credits must be taken at UNH

**Minimum GPA:** 2.0 required for conferral\*

**Core Curriculum Required:** Discovery & Writing Program Requirements

<sup>1</sup> One course must be taken in each of the remaining Disciplinary Groups of the University Discovery Program (Biological Sciences; Environment Technology & Society; Historical Perspectives; World Culture; Fine & Performing Arts; Social Science; Humanities).

<sup>2</sup> Three science electives must be approved in consultation with departmental advisor.

## Student Learning Outcomes

- Recognize common Earth materials and structures.
- Describe how Earth scientists construct the geological time scale and apply geochronologic dating techniques.
- Describe the broad attributes of and interactions within the Earth System, as well as its geological history, how and why it is changing today, and how those changes impact society.
- Understanding Earth processes and cycles.
- Perform simple calculations to process and evaluate quantitative Earth science data..
- Collect, interpret, and synthesize basic field observations and measurements to develop and test multiple working hypotheses to explain them.
- Become proficient in basic geological and Earth science laboratory skills.
- Successfully apply basic calculus and chemistry to Earth science problems.
- Summarize, analyze, and evaluate student-generated scientific data and the primary Earth sciences literature.
- Effectively communicate results of scientific inquiries orally, visually, and in writing.

## Earth Sciences Minor

<https://ceps.unh.edu/earth-sciences/program/minor/earth-sciences>

### Description

The Department of Earth Sciences offers a minor in Earth Sciences available to all University students. The Earth Sciences minor provides an opportunity for students to complement their major field of study with foundational knowledge and essential skills in the geosciences.

Interested students should contact the Department of Earth Sciences ([earth.sciences@unh.edu](mailto:earth.sciences@unh.edu)) to arrange to complete an Intent to Minor form no later than their junior year. Forms can be picked up in the Earth Sciences main office, 214 James Hall.

### Requirements

- The minor consists of at least 20 semester hours of credit.
- A grade of C- or better must be earned in each course, and an overall 2.00 grade point average must be maintained for all courses applied toward the minor.
- Courses taken on a pass/fail basis may not be used for the minor.

- No more than two courses (8 credits) can be used to satisfy simultaneously requirements for a student's major and minor, or two minors.
- No more than two courses (8 credits) may be transferred from another accredited institution and applied toward the minor, provided UNH has accepted them as transfer credits.

The Earth Sciences minor typically is completed with five ESCI courses and may include research credits supervised by an Earth Sciences faculty member.

Courses in the Earth Sciences minor must include both introductory and more advanced ESCI courses. Strongly recommended introductory courses include ESCI 401 Dynamic Earth or ESCI 409 Geology and the Environment (students may not receive credit for both ESCI 401 and ESCI 409) and ESCI 402 Earth History. More advanced courses must include at least one at the 600 or 700 level. Specific courses in the program are selected in consultation with a minor adviser in the Department of Earth Sciences, with flexibility in approved courses to accommodate interests in different aspects of the geosciences.

## Environmental Sciences Major: Geosystems Option (B.S.)

<https://ceps.unh.edu/earth-sciences/program/bs/environmental-sciences-major-geosystems-option>

### Description

The College of Engineering and Physical Sciences (CEPS) and the College of Life Science and Agriculture (COLSA) jointly offer a bachelor of science degree in environmental sciences. Environmental sciences, an interdisciplinary field, focuses on the interaction of biological, chemical, and physical processes that shape our natural environment. Students graduating with a degree in environmental sciences will have an understanding of these interacting processes, the ability to communicate effectively with both scientific and lay audiences, competency in field methods appropriate for entry-level environmental science positions, competency in the use and application of Geographic Information Systems (GIS), a basic understanding of environmental policy, and the ability to contribute to multidisciplinary teams. The University of New Hampshire is a recognized leader in environmental sciences research, and the environmental sciences program capitalizes on faculty expertise in this area. The full-time faculty members comprising this program have major teaching and research emphases in the areas of biogeochemical cycling, environmental chemistry, ecosystem science, geospatial science, global change, hydrology, plant ecology, soil science, and water resource management.

Employment opportunities include environmental consulting firms, educational facilities (e.g., science centers), environmental monitoring laboratories (e.g., water treatment plants; the Environmental Protection Agency), government agencies (e.g., the U.S. Geological Survey, Bureau of Land Management, Natural Resource Conservation Service), university and government research laboratories, and nongovernment environmental organizations. The environmental sciences program also constitutes an excellent preparation for graduate programs in several areas relating to the environment. Students should consult with their adviser early if their goals include further study.

The Program has four options, and specific course requirements for the major vary by option. The geosystems and hydrology options are both managed by the Department of Earth Sciences in CEPS, and the ecosystems and soils and watersheds options are both managed by the Department of Natural Resources and the Environment in the COLSA. The geosystems option provides students with a solid grounding in quantitative reasoning, with an emphasis on geochemical and geospatial systems.

# Requirements

## Degree Requirements

**Minimum Credit Requirement:** 128 credits

**Minimum Residency Requirement:** 32 credits must be taken at UNH

**Minimum GPA:** 2.0 required for conferral\*

**Core Curriculum Required:** Discovery & Writing Program Requirements

**Foreign Language Requirement:** No

All Major, Option and Elective Requirements as indicated.

*\*Major GPA requirements as indicated.*

## Major Requirements

In addition to the Discovery Program and University writing requirements, all students will take two required introductory courses, plus one other elective introductory environmental science course. Foundation courses include introductions to biology, physics, chemistry, geology, calculus, and statistics.

### INTRODUCTORY

Code	Title	Credits
NR 400	Professional Perspectives in Natural Resources	1

or NR 744	Biogeochemistry	
A course in quantitative or spatial analysis		4
Select two or three approved electives		8-12
<b>Total Credits</b>		27-31

Some students enroll in the EcoQuest program (a study abroad opportunity in New Zealand), which satisfies the policy requirement, and capstone requirement if taken senior year.

Students must complete additional courses for the geosystems option to total 88 credits in the major.

For a list of approved elective courses and for further information about the geosystems option, students may contact [earth.sciences@unh.edu](mailto:earth.sciences@unh.edu). ([earth.sciences@unh.edu](mailto:earth.sciences@unh.edu))

## Capstone Experience

A capstone experience is required of all undergraduate Earth sciences majors during their senior year. All capstone experiences at UNH must meet one or more of the following criteria:

1. The capstone synthesizes and applies disciplinary knowledge and skills.
2. The capstone fosters reflection on undergraduate learning and experience.
3. The capstone demonstrates emerging professional competencies.
4. The capstone applies, analyzes, and/or interprets research or data or artistic expression.
5. The capstone explores areas of interest based on the integration of prior learning.

Suggested ways of meeting the capstone requirement in the Department of Earth Sciences include approved INCO 790 Advanced Research Experience, ESCI 795 Topics, ESCI 796 Topics, ESCI 799 Senior Thesis, URA/SURF/IROP projects, internships, environmental/geologic field camps, REU programs, or Earth Sciences education and outreach activities designed according to the above criteria. Capstone experiences must be equivalent to a minimum of 2 academic credits. Students should work closely with their faculty advisors to define the most appropriate capstone experience for their Earth Sciences degree program, although the capstone mentor can be someone other than their primary faculty advisor. All capstone experiences must be approved and certified by the faculty advisor and the capstone mentor. Presentation of projects or experiences developed for the capstone is encouraged at the annual UNH Undergraduate Research Conference or other appropriate venue.

<sup>1</sup> One course must be taken in each of the remaining Disciplinary Groups of the University Discovery Program (Environment Technology & Society; Historical Perspectives; World Culture; Fine & Performing Arts; Social Science; Humanities).

<sup>2</sup> Three technical electives must be approved in consultation with departmental advisor.

All students must take four writing intensive courses, including ENGL 401, a course in the major, and a course at the 600/700 level.

## Student Learning Outcomes

- Recognize common Earth and environmental materials.
- Understand the Earth as a system and be able to describe the broad attributes of and interactions within the Earth System and the environment through both short- and long-term perspectives, evaluate how and why it is changing today, and assess coupled human and natural system interactions.
- Understand Earth processes and cycles.
- Perform field measurements and simple calculations to collect, evaluate and interpret quantitative environmental or geological data. Understand the role that spatially explicit data and time series play in understanding environmental and hydrological sciences.
- Collect, interpret, and synthesize basic field observations and measurements to develop and test multiple working hypotheses to explain them. Additionally, become comfortable with the use of

technology and computational methods in processing a range of scientific data.

- Analyze, summarize, evaluate, and explain/present their own scientific data and the primary Earth and environmental sciences literature.
- Communicate results of scientific inquiries orally, visually, and in writing.

# Environmental Sciences Major: Hydrology Option (B.S.)

<https://ceps.unh.edu/earth-sciences/program/bs/environmental-sciences-major-hydrology-option>

## Description

The College of Engineering and Physical Sciences (CEPS) and the College of Life Science and Agriculture (COLSA) jointly offer a bachelor of science degree in environmental sciences. Environmental sciences, an interdisciplinary field, focuses on the interaction of biological, chemical, and physical processes that shape our natural environment. Students graduating with a degree in environmental sciences will have an understanding of these interacting processes, the ability to communicate effectively with both scientific and lay audiences, competency in field methods appropriate for entry-level environmental science positions, competency in the use and application of Geographic Information Systems (GIS), a basic understanding of environmental policy, and the ability to contribute to multidisciplinary teams. The University of New Hampshire is a recognized leader in environmental sciences research, and the environmental sciences program capitalizes on faculty expertise in this area. The full-time faculty members comprising this program have major teaching and research emphases in the areas of biogeochemical cycling, environmental chemistry, geospatial science, ecosystem science, global change, hydrology, plant ecology, soil science, and water resource management.

Employment opportunities include: environmental consulting firms, educational facilities (e.g., science centers), environmental monitoring laboratories (e.g., water treatment plants; the Environmental Protection Agency), government agencies (e.g., the U.S. Geological Survey, Bureau of Land Management, Natural Resource Conservation Service), university and government research laboratories, and nongovernment environmental organizations. The environmental sciences program also constitutes an excellent preparation for graduate programs in several areas relating to the environment. Students should consult with their adviser early if their goals include further study.

The Program has four options, and specific course requirements for the major vary by option. The geosystems and hydrology options are both managed by the Department of Earth Sciences in CEPS, and the ecosystems and soils and watersheds options are both managed by the Department of Natural Resources and the Environment in the COLSA. The hydrology option provides students with a solid grounding in fundamental hydrological principles and quantitative reasoning.

## Requirements

### Degree Requirements

**Minimum Credit Requirement:** 128 credits

**Minimum Residency Requirement:** 32 credits must be taken at UNH

**Minimum GPA:** 2.0 required for conferral\*

**Core Curriculum Required:** Discovery & Writing Program Requirements

**Foreign Language Requirement:** No

All Major, Option and Elective Requirements as indicated.

*\*Major GPA requirements as indicated.*

### Major Requirements

In addition to the Discovery Program and University writing requirements, all students will take two required introductory courses, plus one other elective introductory environmental science course. Foundation courses include introductions to biology, physics, chemistry, geology, calculus, and statistics.

#### INTRODUCTORY

Code	Title	Credits
NR 400	Professional Perspectives in Natural Resources	1
NR 403	Introduction to Environmental Science	4
Select one elective introductory course from the following:		4
NR 504	Freshwater Resources	
CEE 520	Environmental Pollution and Protection: A Global Context	
ESCI 405	Global Environmental Change	
ESCI 501	Introduction to Oceanography	
ESCI 514	Introduction to Climate	
GEOG 473	Elements of Weather	
Total Credits		9

#### FOUNDATION

or BIOL 412	Introductory Biology: Evolution, Biodiversity and Ecology	
<b>Chemistry</b>		
Select one of the following:		4-8
CHEM 403	General Chemistry I	
& CHEM 404	and General Chemistry II	
or CHEM 405	Chemical Principles for Engineers	
<b>Physics</b>		
PHYS 407	General Physics I	4
PHYS 408	General Physics II	4
<b>Calculus</b>		
MATH 425	Calculus I	4
MATH 426	Calculus II	4
<b>Statistics</b>		
MATH 644	Statistics for Engineers and Scientists	
or BIOL 528	Applied Biostatistics I	
<b>Geology</b>		
Select one of the following:		4
ESCI 401	Dynamic Earth	
ESCI 402	Earth History	
ESCI 409	Geology and the Environment	
Total Credits		32-36

## CORE COURSES

Code	Title	Credits
ESCI 534	Techniques in Environmental Sciences	3
ESCI 654	Fate and Transport in the Environment	4
ESCI 777	GIS for Earth & Environmental Sciences	4
or NR 658	Introduction to Geographic Information Systems	
NR 602	Natural Resources and Environmental Policy	4
or NR 662	Environmental Policy, Planning and Sustainability in New Zealand	
Capstone Experience <sup>1</sup>		
<b>Total Credits</b>		<b>15</b>

<sup>1</sup> NR 791 Preparation for Capstone and an independent study or capstone course taken in the senior year and approved by their adviser and the program coordinator.

## HYDROLOGY

Code	Title	Credits
<b>Geomorphology</b>		
ESCI 561	Landscape Evolution	4
<b>Soils/Mineralogy</b>		
ESCI 512	Principles of Mineralogy	4
or NR 501	Studio Soils	
<b>Surface Water Hydrology</b>		
ESCI 705	Principles of Hydrology	4
or CEE 754	Engineering Hydrology	
<b>Groundwater Hydrology</b>		
ESCI 710	Groundwater Hydrology	4
<b>Select one Quantitative Analysis course from the following:</b>		<b>4</b>
CS 410P	Introduction to Scientific Programming/Python	
ESCI 701	Quantitative Methods in Earth Sciences	
ESCI 764	Spectral Analysis of Geophysical Time Series Data	
MATH 525	Linearity I	
MATH 527	Differential Equations with Linear Algebra	
MATH 528	Multidimensional Calculus	
MATH 645	Linear Algebra for Applications	
MATH 739	Applied Regression Analysis	
MATH 740	Design of Experiments I	
<b>Select two or three approved electives from the following:</b>		<b>8-12</b>
CEE 650	Fluid Mechanics	
CEE 721	Environmental Sampling and Analysis	
CEE 723	Environmental Water Chemistry	
CEE 724	Environmental Engineering Microbiology	
CEE 751	Open Channel Flow	
CEE 758	Stormwater Management Designs	
CEE 759	Stream Restoration	
ESCI 642	Biogeosciences in the Earth System	
ESCI 741	Geochemistry	
ESCI 745	Isotope Geochemistry	
ESCI 747	Aqueous Geochemistry	
ESCI 762	Glacial Geology	
ESCI 778	Remote Sensing Earth & Environmental Sciences	
NR 660	Ecology and Biogeography of New Zealand	
NR 661	Restoration Ecology and Ecosystem Management in New Zealand	
NR 703	Watershed Water Quality Management	
NR 707	Environmental Modeling	
NR 744	Biogeochemistry	
NR 751	Aquatic Ecosystems	
NR 757	Remote Sensing of the Environment	
NR 759	Digital Image Processing for Natural Resources	
NR 761	Environmental Soil Chemistry	
<b>Total Credits</b>		<b>28-32</b>

Some students enroll in the EcoQuest program (a study abroad opportunity in New Zealand), which satisfies the policy requirement, and capstone requirement if taken senior year.

Students must complete additional courses for the hydrology option to total 88 credits in the major.

For further information about the hydrology option or to discuss alternative elective courses, students may contact [earth.sciences@unh.edu](mailto:earth.sciences@unh.edu). ([earth.sciences@unh.edu](mailto:earth.sciences@unh.edu))

## Capstone Experience

A capstone experience is required of all undergraduate Earth sciences majors during their senior year. All capstone experiences at UNH must meet one or more of the following criteria:

1. The capstone synthesizes and applies disciplinary knowledge and skills.
2. The capstone fosters reflection on undergraduate learning and experience.
3. The capstone demonstrates emerging professional competencies.
4. The capstone applies, analyzes, and/or interprets research or data or artistic expression.
5. The capstone explores areas of interest based on the integration of prior learning.

Suggested ways of meeting the capstone requirement in the Department of Earth Sciences include approved INCO 790 Advanced Research Experience, ESCI 795 Topics/ESCI 796 Topics, ESCI 799 Senior Thesis, URA/SURF/IROP projects, internships, environmental/geologic field camps, REU programs, or Earth Sciences education and outreach activities designed according to the above criteria. Capstone experiences must be equivalent to a minimum of 2 academic credits. Students should work closely with their faculty advisors to define the most appropriate capstone experience for their Earth Sciences degree program, although the capstone mentor can be someone other than their primary faculty advisor. All capstone experiences must be approved and certified by the faculty advisor and the capstone mentor. Presentation of projects or experiences developed for the capstone is encouraged at the annual UNH Undergraduate Research Conference or other appropriate venue.

## Degree Plan

NR 791	Preparation for Capstone	1
Quantitative analysis elective <sup>1</sup>		4

**Credits** 17

**Fourth Year****Fall**

ESCI 705	Principles of Hydrology	4
Senior Capstone (ESCI 799, INCO 790) or free-elective if capstone is otherwise satisfied		3-4
Approved Science Elective		4
Discovery Discipline Course <sup>1</sup>		4

**Credits** 15-16

**Spring**

ESCI 710	Groundwater Hydrology	4
Approved Science Elective		4
Free Elective		4
Discovery Discipline Course <sup>1</sup>		4

**Credits** 16

**Total Credits** 128-129

All students must take four writing intensive courses, including ENGL 401, a course in the major, and a course at the 600/700 level.

## Student Learning Outcomes

- Recognize common Earth and environmental materials.
- Understand the Earth as a system and be able to describe the broad attributes of and interactions within the Earth System and the environment through both short- and long- term perspectives, evaluate how and why it is changing today, and assess coupled human and natural system interactions.
- Understand Earth processes and cycles.
- Demonstrate knowledge of core concepts in the hydrologic sciences: stream flow, groundwater, water budgets, hydrologic fluxes, and physical factors that affect them, and a basic understanding of the uses and limitations of a hydrologic model.
- Perform field measurements and simple calculations to collect, evaluate and interpret quantitative environmental or geological data. Understand the role that spatially explicit data and time series play in understanding environmental and hydrological sciences.
- Collect, interpret, and synthesize basic field observations and measurements to develop and test multiple working hypotheses to explain them. Additionally, become comfortable with the use of technology and computational methods in processing a range of scientific data.
- Analyze, summarize, evaluate, and explain/present their own scientific data and the primary Earth and environmental sciences literature.
- Communicate results of scientific inquiries orally, visually, and in writing.

## Oceanography Minor

<https://ceps.unh.edu/earth-sciences/program/minor/oceanography>

### Description

The minor in oceanography is available to students interested in obtaining a broad background in oceanography. All courses in the program are selected in consultation with the oceanography minor adviser, Dr. Jamie Pringle, (603) 862-5000, [jpringle@unh.edu](mailto:jpringle@unh.edu). Students must complete an Intent to Minor form no later than their junior year. Forms can be picked up in the Earth Sciences departmental office, 214 James Hall.

### Requirements

The minor consists of a minimum of five courses with grades of C (2.00) or better and no pass/fail courses. No more than 8 major requirement credits may be used.

Code	Title	Credits
<b>Required Courses</b>		
ESCI 501	Introduction to Oceanography	4
Select two of the following:		6-8
ESCI 752	Chemical Oceanography	
ESCI 758	Introductory Physical Oceanography	
ESCI 759	Geological Oceanography	
MEFB 755	Biological Oceanography	

<sup>1</sup> One course must be taken in each of the remaining Disciplinary Groups of the University Discovery Program (Environment Technology & Society; Historical Perspectives; World Culture; Fine & Performing Arts; Social Science; Humanities).

<sup>2</sup> Three technical electives must be approved in consultation with departmental advisor.

Select two of the following: <sup>1</sup>		6-8
MEFB 401	Marine Estuarine and Freshwater Biology: Freshmen Seminar	
MEFB 403	Investigative Marine Biology Laboratory	
MEFB 503	Introduction to Marine Biology	
MEFB 508	Marine Ecosystem Research and Management	
MEFB 530	Evolution and Marine Diversity	
MEFB 535	Marine Mammal Biology	
MEFB 625	Introduction to Marine Botany	
MEFB 674	Ecology and Marine Environment	
MEFB 702	Sustainable Marine Fisheries	
MEFB 725	Marine Ecology	
MEFB 754	Anatomy and Function of Marine Vertebrates	
CEE 722	Introduction to Marine Pollution and Control	
ESCI 502	Beaches and Coasts	
ESCI 514	Introduction to Climate	
ESCI 701	Quantitative Methods in Earth Sciences	
ESCI 720	Ocean Measurements Lab	
ESCI 747	Aqueous Geochemistry	
ESCI 754	Sedimentology	
ESCI 756	Geotectonics	
ESCI 765	Paleoclimatology	
ESCI/OE 771	Geodesy and Positioning for Ocean Mapping	
OE 490	Introduction to Ocean Engineering	
OE 610	Ocean Instrumentation Lab	
OE 753	Ocean Hydrodynamics	
OE 754	Ocean Waves and Tides	
OE 757	Coastal Engineering and Processes	
TECH 797	Undergraduate Ocean Research Project	
ZOOL 610	Principles of Aquaculture	
ZOOL 710	Sharks and Bony Fishes	
MEFB 772	Fisheries Biology: Conservation and Management	
MEFB 628	Marine Invertebrate Evolution and Ecology	
MEFB 773	Physiology of Fishes	
Total Credits		at least 18

<sup>1</sup> Or a suitable substitute approved by the minor advisor (at least one of these courses should be in the biological sciences).

## Electrical and Computer Engineering

The Department of Electrical and Computer Engineering offers a B.S. in electrical engineering and a B.S. in computer engineering. Both degree programs are accredited by the:

Engineering Accreditation Commission of ABET  
415 N. Charles Street  
Baltimore, MD 21201  
Telephone (410) 347-7700

Electrical engineers design, develop, and produce the electrical and electronic systems upon which modern society has come to depend: basic infrastructure, such as the electric power grid and fiber optic communication lines; public conveniences, such as mag lev transporters and LED signs; consumer products, such as smart appliances; personal communication devices, such as smart phones; military systems, such as rail guns and laser weapons; instruments that can image the ocean floor or analyze the Earth's atmosphere from satellites; and medical diagnostic machines like CAT and MRI scanners. Almost every facet of modern life is touched by the work of electrical engineers. Students electing this major gain knowledge of advanced electronic circuit and system design through the use of computer-aided design tools, hardware circuit prototyping, and hands-on laboratory testing.

Computers have become embedded in virtually every engineering system, including everyday items ranging from smart watches to electric vehicles. Computer engineering, is a rapidly growing field that emphasizes the design, interfacing, hardware/software tradeoffs, real-time applications of embedded computers, and IOT devices. Students who elect this major will gain a knowledge of both hardware and software concepts, and will learn to design, build, and test systems containing digital computers.

Embedded in both the electrical engineering and computer engineering programs is the biomedical engineering option. The option provides core knowledge expected of a computer and/or electrical engineer to provide engineering services in the biomedical field. Electrical and/or computer engineers with this option combine engineering principles with medical and biological sciences to design and create equipment, devices, computer systems, and software applications used in the healthcare field.

At UNH, the cornerstone of the electrical and computer engineering programs are the involvement of students in the solution of real-world problems.

## ECE Department Mission

The mission of the department is to foster and advance knowledge in electrical and computer engineering.

### *The mission involves:*

- teaching courses in electrical and computer engineering and related fields at the bachelor's, master's, and doctoral levels;
- advancing knowledge through research and scholarship;
- serving the state and nation by making the department's intellectual resources available to industry and government agencies. The undergraduate EE and CE programs shall provide a firm foundation in electrical and computer engineering theory and practice, with a mix of laboratory and design experiences. The programs also shall foster teamwork and project management skills.

The graduate ECE program shall lead to the degrees of master of science in electrical and computer engineering and the doctor of philosophy in electrical and computer engineering. Research and scholarship are core components of the department's mission and they directly impact undergraduate and graduate education. Success in obtaining funds to procure equipment and support research efforts is therefore an essential objective for the department.

The department recognizes the need to conduct periodic reviews and adjustments to meet the current and projected needs of the state and nation according to its mission objectives.

## Electrical Engineering and Computer Engineering Program Educational Objectives

The Department of Electrical and Computer Engineering has adopted a set of program educational objectives that consists of statements describing the expected accomplishments of graduates during the first several years following graduation from either program:

### Electrical Engineering Program Educational Objectives

*Depth:* To be effective in applying electrical engineering principles in engineering practice or for advanced study in electrical engineering.

**Breadth:** To have a productive career in the many diverse fields of electrical engineering such as analog engineering, bioengineering, communications, and electromagnetics and waves, or in the pursuit of graduate education in disciplines such as electrical engineering, medicine, law, or business.

**Professionalism:** To function effectively in the complex modern work environment with the ability to assume professional leadership roles.

## Computer Engineering Program Educational Objectives

**Depth:** To be effective in applying computer engineering principles in engineering practice or for advanced study in computer engineering.

**Breadth:** To have a productive career in the many diverse fields of computer engineering such as digital engineering, bioengineering, security, communications, and embedded systems, or in the pursuit of graduate education in disciplines such as computer engineering, medicine, law, or business.

**Professionalism:** To function effectively in the complex modern work environment with the ability to assume professional leadership roles.

The department recognizes the need to conduct periodic reviews and adjustments to our educational objectives.

## Electrical Engineering and Computer Engineering Program Educational Outcomes

The Department of Electrical and Computer Engineering has adopted a set of program educational outcomes that consists of statements describing what students are expected to know and be able to do by the time of graduation, the achievement of which indicates that the student is equipped to achieve the program objectives. The current program educational outcomes are:

1. An ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics.
2. An ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental and economic factors.
3. An ability to communicate effectively with a range of audiences.
4. An ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts.
5. An ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives.
6. An ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions.
7. An ability to acquire and apply new knowledge as needed, using appropriate learning strategies.

The department recognizes the need to conduct periodic reviews and adjustments to our educational outcomes.

Students contemplating a decision between the electrical engineering and computer engineering degree programs should consider both the

similarities and differences of the two programs. The two curricula EE and CE are identical for the first two years of either program requiring the same foundational courses.

## Faculty

[Electrical and Computer Engineering Faculty](#)

## Computer Engineering Major (B.S.)

<https://ceps.unh.edu/electrical-computer-engineering/program/bs/computer-engineering-major>

## Description

This program is tailored to students who want to understand and participate in the engineering discipline that merges electronics systems with software. Students learn the fundamental concepts of electrical circuits and how those circuits can be controlled by software, gaining skills and technological expertise needed to succeed in graduate studies or a variety of career fields.

In addition to the university's mandatory Discovery Program requirements, degree candidates must complete our core program (freshman through junior years). In the senior year, students select professional technical electives in the areas of their interest. They also carry out a student-designed project to acquire both breadth and depth of study and to integrate knowledge across course boundaries.

## Requirements

### Degree Requirements

**Minimum Credit Requirement:** 128 credits

**Minimum Residency Requirement:** 32 credits must be taken at UNH

**Minimum GPA:** 2.0 required for conferral\*

**Core Curriculum Required:** Discovery & Writing Program Requirements

**Foreign Language Requirement:** No

All Major, Option and Elective Requirements as indicated.

\*Major GPA requirements as indicated.

## Major Requirements

In addition to Discovery Program requirements, the department has a number of grade-point average and course requirements:

1. Any computer engineering major whose cumulative grade-point average in ECE and CS courses is less than 2.0 during any three semesters will not be allowed to continue as a computer engineering major.
2. Computer engineering majors must achieve a 2.0 grade-point average in all ECE and CS courses as a requirement for graduation.

To make an exception to any of these departmental requirements based on extenuating circumstances, students must petition the department's undergraduate committee. Mindful of these rules, students, with their adviser's assistance, should plan their programs based on the distribution of courses found in the Degree Plan tab.

**Fourth Year****Fall**

ECE 791	Senior Project I	3
Two Professional Electives <sup>2</sup>		8
Discovery Program Category		4
<b>Credits</b>		<b>15</b>

**Spring**

ECE 792	Senior Project II	3
Two Professional Electives <sup>2</sup>		8
Discovery Program Category		4
<b>Credits</b>		<b>15</b>
<b>Total Credits</b>		<b>125</b>

<sup>1</sup> Students are required to take either ECON 402 Principles of Economics (Micro) or EREC 411 Environmental and Resource Economics Perspectives to fulfill the Social Science Category of the Discovery Program.

<sup>2</sup> Four professional electives must be selected as follows:

- Choose two ECE 7XX courses, one course could be ECE 652 Electronic Design II.
- Students are allowed to take only one as ECE 795 Electrical and Computer Engineering Projects or ECE 796 Special Topics.
- Remaining professional electives can include: CS 619 Introduction to Object-Oriented Design and Development, CS 620 Operating System Fundamentals, CS 659 Introduction to the Theory of Computation, or any CS 7XX course.

ECE 791 Senior Project I and ECE 792 Senior Project II fulfill Discovery Program Capstone Experience.

Fulfilling the CE program curriculum taking ECE 401, ECE 791, and ECE 792 will automatically meet Discovery Category, "Environment, Technology and Society."

## Student Learning Outcomes

The Program Educational Objectives for the Computer Engineering Program are as follows:

- An ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics.
- An ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental and economic factors.
- An ability to communicate effectively with a range of audiences.
- An ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts.
- An ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives.
- An ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions.

- An ability to acquire and apply new knowledge as needed, using appropriate learning strategies.

## Computer Engineering Major: Biomedical Engineering Option (B.S.)

<https://ceps.unh.edu/electrical-computer-engineering/program/bsceng/computer-engineering-biomedical-engineering-option>

### Description

The Biomedical Engineering (BME) Option is intended to provide the core of knowledge expected of a computer and/or electrical engineer to provide engineering services in the biomedical field. Electrical and/or computer engineers with this option in biomedical engineering combine engineering principles with medical and biological sciences to design and create equipment, devices, computer systems, and software used in healthcare. The BME option is embedded in both the Electrical Engineering (EE) program and the Computer Engineering (CE) program.

### Requirements

#### Degree Requirements

**Minimum Credit Requirement:** 128 credits

**Minimum Residency Requirement:** 32 credits must be taken at UNH

**Minimum GPA:** 2.0 required for conferral\*

**Core Curriculum Required:** Discovery & Writing Program Requirements

**Foreign Language Requirement:** No

All Major, Option and Elective Requirements as indicated.

\*Major GPA requirements as indicated.

#### Major Requirements

In addition to Discovery Program requirements, the department has a number of grade-point average and course requirements:

1. Any computer engineering major whose cumulative grade-point average in ECE and CS courses is less than 2.0 during any three semesters will not be allowed to continue as a computer engineering major.
2. Computer engineering majors must achieve a 2.0 grade-point average in all ECE and CS courses as a requirement for graduation.

To make an exception to any of these departmental requirements based on extenuating circumstances, students must petition the department's undergraduate committee. Mindful of these rules, students, with their adviser's assistance, should plan their programs based on the distribution of courses found in the Degree Plan tab.

- An ability to acquire and apply new knowledge as needed, using appropriate learning strategies.

## Electrical Engineering Major (B.S.)

<https://ceps.unh.edu/ece/electrical-engineering-bs>

### Description

This program is tailored to students who want to understand and participate in the ever-growing world of electronics technology. Students learn the fundamental concepts related to the design, development, testing and modeling of a wide range of electrical systems. By gaining skills and technological expertise, students leave this program prepared to succeed in graduate studies or a variety of career fields.

In addition to the university's mandatory Discovery Program requirements, degree candidates must complete our core program (freshman through junior years). In the senior year, students select professional technical electives in the areas of their interest. They also carry out a student-designed project to acquire both breadth and depth of study and to integrate knowledge across course boundaries.

For a detailed semester by semester list of requirements for the four years of study, please refer to the Degree Plan tab.

## Requirements

### Degree Requirements

Perspectives to fulfill the Social Science Category of the Discovery Program.

<sup>2</sup> One professional elective must be selected as follows:

- Choose any one ECE 7XX courses.

ECE 791 Senior Project I and ECE 792 Senior Project II fulfill Discovery Program Capstone Experience.

Fulfilling the EE Program Biomedical Option curriculum taking ECE 401 Perspectives in Electrical and Computer Engineering, ECE 791 Senior Project I, and ECE 792 Senior Project II will automatically meet Discovery Category, "Environment, Technology and Society."

## Student Learning Outcomes

The Program Educational Objectives for the Electrical Engineering Program are as follows:

- An ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics.
- An ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental and economic factors.
- An ability to communicate effectively with a range of audiences.
- An ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts.
- An ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives.
- An ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions.
- An ability to acquire and apply new knowledge as needed, using appropriate learning strategies.

## Electrical and Computer Engineering Minor

<https://ceps.unh.edu/electrical-computer-engineering/program/minor/electrical-computer-engineering>

### Description

The Department of Electrical and Computer Engineering encourages highly motivated students outside of the ECE department are encouraged to consider a minor in Electrical and Computer Engineering. A university-wide GPA of at least 2.8 is required along with an appropriate reason for desiring the minor. Interested students should complete the provided application form and submit it to the ECE Undergraduate Curriculum Committee (Kingsbury W201) during their sophomore or, at the latest, junior year. After approval, the student will need to fill out an "Intent to Minor" form, available from the Associate Dean's office (Kingsbury W283) in order to make entry into the minor program official. It is also the

<sup>1</sup> Students are required to take either ECON 402 Principles of Economics (Micro) or EREC 411 Environmental and Resource Economics

student's responsibility to submit a "[Minor Certification of Completion](#)" form before graduation and after all the minor courses have been taken. The ECE Minor Application Form can be [downloaded here](#).

For additional information please contact the ECE Department. Our [ECE Minor Faculty Advisor](#) will be happy to answer any questions and help you select courses that best fit your career goals.

## Requirements

### Requirements for the ECE Minor:

1. You must take a minimum of five ECE courses (at least 18 credits), each with a grade of C- or better.

Code	Title	Credits
ECE 541	Electric Circuits (or ECE 537 with grade of A/A-)	4
ECE 548	Electronic Design I	4
ECE 543	Introduction to Digital Systems	4
Two additional approved ECE courses (500 level or higher) approved by the ECE Undergraduate Curriculum Committee.		

2. You must achieve at least an overall 2.0 average in all courses taken for the minor.
3. Courses taken credit/fail may not be used for the minor.
4. No more than eight credits of courses used by the student to satisfy major requirements may be used for the ECE minor.
5. No more than two courses completed prior to acceptance into the ECE minor may be counted toward the minor.

## Environmental Sciences

The College of Engineering and Physical Sciences (CEPS) and the College of Life Sciences and Agriculture (COLSA) jointly offer a bachelor of science degree in environmental sciences. Environmental sciences, an interdisciplinary field, focuses on the interaction of biological, chemical, and physical processes that shape our natural environment. Students graduating with a degree in environmental sciences will have an understanding of these interacting processes, the ability to communicate effectively with both scientific and lay audiences, competency in field methods appropriate for entry-level environmental science positions, competency in the use and application of Geographic Information Systems (GIS), a basic understanding of environmental policy, and the ability to contribute to multidisciplinary teams. The University of New Hampshire is a recognized leader in environmental sciences research, and the environmental sciences program capitalizes on faculty expertise in this area. The full-time faculty members comprising this program have major teaching and research emphases in the areas of biogeochemical cycling, environmental chemistry, ecosystem science, geospatial science, global change, hydrology, plant ecology, soil science, and water resource management.

Employment opportunities include environmental consulting firms, educational facilities (e.g., science centers), environmental monitoring laboratories (e.g., water treatment plants; the Environmental Protection Agency), government agencies (e.g., the U.S. Geological Survey, Bureau of Land Management, Natural Resource Conservation Service), university and government research laboratories, and nongovernment environmental organizations. The environmental sciences program also constitutes an excellent preparation for graduate programs in several

areas relating to the environment. Students should consult with their adviser early if their goals include further study.

The Program has four options, and specific course requirements for the major vary by option. The geosystems and hydrology options are both managed by the Department of Earth Sciences in CEPS, and the ecosystems and soil and watershed management options are both managed by the Department of Natural Resources and the Environment in COLSA.

<https://ceps.unh.edu/earth-sciences>

## Programs

- [Environmental Sciences Major: Ecosystems Option \(B.S.\)](#) (p. 352)
- [Environmental Sciences Major: Geosystems Option \(B.S.\)](#) (p. 101)
- [Environmental Sciences Major: Hydrology Option \(B.S.\)](#) (p. 104)
- [Environmental Sciences Major: Soil and Watersheds Option \(B.S.\)](#) (p. 353)

CEPS faculty: <https://ceps.unh.edu/directory/all>

## Materials Science

### Programs

- [Materials Science Minor](#) (p. 116)

## Materials Science Minor

<https://ceps.unh.edu/materials-science/program/minor/materials-science>

### Description

Materials science is an interdisciplinary field that involves the research, development, and design of new materials. In the past century, materials scientists have enabled major technological advances in areas such as electronic materials for semiconductors, new metal alloys for aircraft and automotive applications, and new polymers for a host of medical and consumer applications. In order to prepare students for continuing growth and innovation in materials science, the materials science program offers this minor, which is open to all students as UNH.

The minor offers a broad introduction to materials science, which reflects the interdisciplinary nature of the field. Students interested in the minor should contact the director of the materials science program (Prof. James Krzanowski, [james.krzanowski@unh.edu](mailto:james.krzanowski@unh.edu)) as early as possible and preferably before the end of their sophomore year.

## Requirements

To complete the minor in materials science, students must take the following courses.

Students must complete at least 18 credits and a minimum of five courses, as described below, with C- or better and a minimum 2.0 grade-point average. No more than 8 credits used to satisfy the student's major requirements may be used toward the minor.

Code	Title	Credits
<b>Required</b>		
ME 561	Introduction to Materials Science <sup>1</sup>	4
<b>Group A: Thermodynamics, Kinetics and Structure of Materials</b>		
Select one of the following:		4-5
CHEM 683 & CHEM 685	Physical Chemistry I and Physical Chemistry Laboratory <sup>2</sup>	
PHYS 508	Thermodynamics and Statistical Mechanics <sup>2,3</sup>	
ME 795	Special Topics	
ME #761	Diffraction and Imaging Methods in Materials Science	
<b>Group B: Materials Applications and Properties</b>		
Select one of the following:		4-5
CHEM 545 & CHEM 546	Organic Chemistry and Organic Chemistry Laboratory	
CHEM 547 & CHEM 549	Organic Chemistry I and Organic Chemistry Laboratory	
CHEM 651 & CHEM 653	Organic Chemistry I and Organic Chemistry Laboratory	
PHYS 718	Condensed Matter Physics	
ME 786	Introduction to Finite Element Analysis	
ME #735	Mechanics of Composite Materials	
ME 795	Special Topics	
Select two to three additional courses from either Group A or Group B <sup>4</sup>		4-6

<sup>1</sup> It is strongly recommended that students take this course during their sophomore year.

<sup>2</sup> Students cannot receive credit towards the minor for both PHYS 508 Thermodynamics and Statistical Mechanics and CHEM 683 Physical Chemistry I/CHEM 685 Physical Chemistry Laboratory.

<sup>3</sup> Students cannot receive credit towards the minor for PHYS 508 Thermodynamics and Statistical Mechanics if they have taken ME 503 Thermodynamics.

<sup>4</sup> As needed to reach the required 18 credits

## Mathematics and Statistics

The Department of Mathematics and Statistics offers a variety of programs leading to five different degrees:

- B.A. degree: mathematics major;
- B.S. in mathematics degree;
- B.S. in applied mathematics degree;
- B.S. in mathematics education degree; and
- B.S. in statistics degree.

These programs provide flexibility through elective choices and are designed to maximize educational and employment opportunities. Each student must enroll in one specific program; however, changes between programs usually can be accommodated.

The first two years of all programs are similar. In the first year, students are expected to take MATH 425 Calculus I and MATH 426 Calculus II, as well as an introductory programming course (either MATH 445 Mathematics and Applications with MATLAB or CS 410C Introduction to Scientific Programming/C or CS 410P Introduction to Scientific Programming/Python). A sophomore typically takes follow-up calculus courses in MATH 527 Differential Equations with Linear Algebra and MATH 528 Multidimensional Calculus, MATH 539 Introduction to Statistical Analysis, and MATH 531 Mathematical Proof. The senior

capstone experience is fulfilled by a variety of designated courses in each of the degree programs; specific details are given in each program's course listing below.

For more information about the department's undergraduate programs, visit <http://ceps.unh.edu/mathematics-statistics>

## Standards for Graduation

In all courses used to satisfy the requirements for its major programs, the Department of Mathematics and Statistics requires that a student earn a grade of C- or better and have an overall grade-point average of at least 2.00 in these courses.

## Minoring in Mathematics

The Department of Mathematics and Statistics offers three minor programs: mathematics, applied mathematics, and statistics. These programs, which are open to all students enrolled at the University, require a minimum of five MATH courses as detailed below. Students whose major program requires more than two courses required by the minor program must substitute additional courses from the list of elective courses to meet the five-course minimum.

<https://ceps.unh.edu/mathematics-statistics>

## Programs

- [Applied Mathematics Major \(B.S.\)](#) (p. 117)
- [Applied Mathematics Major: Computation Option \(B.S.\)](#) (p. 119)
- [Applied Mathematics Major: Dynamics and Control Option \(B.S.\)](#) (p. 120)
- [Applied Mathematics Major: Economics Option \(B.S.\)](#) (p. 122)
- [Applied Mathematics Major: Fluid Dynamics Option \(B.S.\)](#) (p. 123)
- [Applied Mathematics Major: Solid Mechanics and Vibrations Option \(B.S.\)](#) (p. 124)
- [Mathematics Education Major: Elementary/Middle School K-8 Option \(B.S.\)](#) (p. 126)
- [Mathematics Education Major: Secondary Option \(B.S.\)](#) (p. 128)
- [Mathematics Major \(B.A.\)](#) (p. 129)
- [Mathematics Major \(B.S.\)](#) (p. 130)
- [Statistics Major \(B.S.\)](#) (p. 132)
- [Applied Mathematics Minor](#) (p. 133)
- [Mathematics Minor](#) (p. 133)
- [Statistics Minor](#) (p. 134)

## Faculty

Visit <https://ceps.unh.edu/directory/all> for faculty.

## Applied Mathematics Major (B.S.)

### Description

This degree prepares students for careers in science, engineering, and industry by giving students broad exposure to both theoretical and computational models of physical systems in the physical, natural, and social sciences.

## Requirements

### Degree Requirements

**Minimum Credit Requirement:** 128 credits

**Minimum Residency Requirement:** 32 credits must be taken at UNH

**Minimum GPA:** 2.0 required for conferral\*

**Core Curriculum Required:** Discovery & Writing Program Requirements

**Foreign Language Requirement:** No

All Major, Option and Elective Requirements as indicated.

\*Major GPA requirements as indicated.

### Major Requirements

In all courses used to satisfy the requirements for its major programs, the Department of Mathematics and Statistics requires that a student earn a grade of C- or better and have an overall grade-point average of at least 2.00 in these courses.

Code	Title	Credits
<b>Required MATH Courses</b>		
MATH 425	Calculus I	4
MATH 426	Calculus II	4
MATH 445 or IAM 550	Mathematics and Applications with MATLAB Introduction to Engineering Computing	4
MATH 527	Differential Equations with Linear Algebra <sup>1</sup>	4
MATH 528	Multidimensional Calculus <sup>1</sup>	4
MATH 531	Mathematical Proof	4
MATH 545 or MATH 645	Introduction to Linear Algebra <sup>2</sup> Linear Algebra for Applications	4
MATH 644	Statistics for Engineers and Scientists	4
MATH 647 or MATH 788	Complex Analysis for Applications Complex Analysis	4
MATH 745	Foundations of Applied Mathematics I	4
MATH 753	Introduction to Numerical Methods I	4
MATH 757	Mathematical Optimization for Applications	4
<b>Capstone: Select one of the following</b>		
MATH 797	Senior Seminar	4
MATH 798	Senior Project	4
MATH 799	Senior Thesis	2 or 4
<b>Select TWO of the following electives</b>		
MATH 746	Foundations of Applied Mathematics II	4
MATH 747	Introduction to Nonlinear Dynamics and Chaos	4
MATH 767	One-Dimensional Real Analysis	4
One approved CEPS course at the 700-level, selected in consultation with the academic advisor		4
<b>Other Required Courses</b>		
PHYS 407	General Physics I	4
PHYS 408	General Physics II	4
CS 415 & CS 416 or CS 414 & CS 417	Introduction to Computer Science I and Introduction to Computer Science II From Problems to Algorithms to Programs and From Programs to Computer Science	8
<b>Total Credits</b>		<b>90-92</b>

<sup>1</sup> The full Linearity sequence, MATH 525 & MATH 526, may be used to replace the MATH 527, MATH 528, and MATH 545 / MATH 645 requirements.

<sup>2</sup> MATH 525 may be used to replace the MATH 545 or MATH 645 requirement.

<b>Total Credits</b>	<b>129</b>

## Student Learning Outcomes

- Students recognize common mathematical notations and operations used in mathematics, science and engineering.
- Students can recognize and classify a variety of mathematical models including differential equations, linear and nonlinear systems of algebraic equations, and common probability distributions.
- Students have developed a working knowledge (including notation, terminology, foundational principles of the discipline, and standard mathematical models within the discipline) in at least one discipline outside of mathematics.
- Students are able to extract useful knowledge, both quantitative and qualitative, from mathematical models and can apply that knowledge to the relevant discipline.

## Applied Mathematics Major: Computation Option (B.S.)

<https://ceps.unh.edu/mathematics-statistics/program/bs/applied-mathematics-computation-option>

### Description

This degree program prepares students for employment and/or graduate study in a variety of fields and research specializations in which mathematics plays a critical role in the solution of important scientific and technological problems.

### Requirements

#### Degree Requirements

**Minimum Credit Requirement:** 128 credits

In all courses used to satisfy the requirements for its major programs, the Department of Mathematics and Statistics requires that a student earn a grade of C- or better and have an overall grade-point average of at least 2.00 in these courses.

**Student Learning Outcomes**

- Students recognize common mathematical notations and operations used in mathematics, science and engineering.
- Students can recognize and classify a variety of mathematical models including differential equations, linear and nonlinear systems of algebraic equations, and common probability distributions.
- Students have developed a working knowledge (including notation, terminology, foundational principles of the discipline, and standard mathematical models within the discipline) in at least one discipline outside of mathematics.
- Students are able to extract useful knowledge, both quantitative and qualitative, from mathematical models and can apply that knowledge to the relevant discipline.

**Applied Mathematics Major: Fluid Dynamics Option (B.S.)**

<https://ceps.unh.edu/mathematics-statistics/program/bs/applied-mathematics-fluid-dynamics-option>

Code	Title	Credits
MATH 425	Calculus I	4

Applied Mathematics Major: Solid Mechanics and Vibrations Option (B.S.)

<https://ceps.unh.edu/mathematics-statistics/program/bs/applied-mathematics-solid-mechanics-vibrations-option>

Description

Beginning in the 2022/23 academic year, the Applied Mathematics Major: Solid Mechanics and Vibrations option will no longer be accepting new

**students. Current students will continue to have access to the same high-quality education and resources until they graduate.**

This degree program prepares students for employment and/or graduate study in a variety of fields and research specializations in which mathematics plays a critical role in the solution of important scientific and technological problems.

## Requirements

### Degree Requirements

**Minimum Credit Requirement:** 128 credits

**Minimum Residency Requirement:** 32 credits must be taken at UNH

**Minimum GPA:** 2.0 required for conferral\*

**Core Curriculum Required:** Discovery & Writing Program Requirements

**Foreign Language Requirement:** No

All Major, Option and Elective Requirements as indicated.

*\*Major GPA requirements as indicated.*

### Major Requirements

In all courses used to satisfy the requirements for its major programs, the Department of Mathematics and Statistics requires that a student earn a grade of C- or better and have an overall grade-point average of at least 2.00 in these courses.

## Math Education Major: Elementary/Middle School Education K-8 Option (B.S.)

<https://ceps.unh.edu/mathematics-statistics/program/bs/mathematics-education-elementarymiddle-school-option>

### Description

*Beginning in the 2022/23 academic year, the Math Education Major: Elementary/Middle School Education K-8 option will no longer be accepting new students. Current students will continue to have access to the same high-quality education and resources until they graduate.*

This professional degree program prepares students for teaching mathematics at the elementary and/or middle school level. The program is coordinated with the education department's teacher certification programs. For the elementary option, full certification requires the five-year program. Students may complete the degree requirements for

middle school option with full teacher certification in either four or five years.

Students electing the four-year option leading to middle school certification must plan for one semester of student teaching in their senior year; this requires careful planning with your program adviser to accommodate the scheduling of required MATH courses.

The five-year program for either option includes a year-long teaching internship in the fifth year. The internship requires admission into a UNH Department of Education graduate program that leads to certification. See Education, College of Liberal Arts.

## Requirements

### Degree Requirements

**Minimum Credit Requirement:** 128 credits

**Minimum Residency Requirement:** 32 credits must be taken at UNH

**Minimum GPA:** 2.0 required for conferral\*

**Core Curriculum Required:** Discovery & Writing Program Requirements

**Foreign Language Requirement:** No

All Major, Option and Elective Requirements as indicated.

\*Major GPA requirements as indicated.

### Major Requirements

In all courses used to satisfy the requirements for its major programs, the Department of Mathematics and Statistics requires that a student earn a grade of C- or better and have an overall grade-point average of at least 2.00 in these courses.

For **teacher licensure** a grade of B- or better is required in all Education courses.

Requirements for admission to student teaching include receiving credit for EDUC 500 and a minimum cumulative 2.8 GPA.

Code	Title	Credits

## Student Learning Outcomes

Mathematics Concepts, Practices, and Curriculum. Well-prepared beginning teachers of mathematics:

- Demonstrate robust knowledge of mathematical and statistical concepts that underlie what they encounter in teaching of K-8 or secondary mathematics.
- Engage in appropriate mathematical and statistical practices, and use technological tools to solve mathematical problems, and incorporate educational technology in their teaching.
- Analyze and interpret mathematical curricula, assessments, and standards documents.
- Analyze and interpret students' mathematical work.

Pedagogical Knowledge and Practices for Teaching Mathematics. Well-prepared beginning teachers of mathematics:

- Demonstrate strong foundations of pedagogical knowledge, and effective and equitable mathematics teaching practices.
- Construct instructional explanations, develop tasks, lesson plans and unit plans, that advance students' mathematical understanding.

- Recognize common patterns of student thinking related to particular mathematical topics, and articulate ways of supporting students' mathematical thinking.

Productive dispositions. Well-prepared beginning teachers:

- Demonstrate positive and productive dispositions toward mathematics as a discipline, towards students as learners of mathematics and towards teaching mathematics in ways that support students' sense making, understanding, and reasoning.

## Mathematics Education Major: Secondary Education Option (B.S.)

<https://ceps.unh.edu/mathematics-statistics/program/bs/mathematics-education-secondary-education-option>

### Description

This professional degree program prepares students for teaching mathematics at the secondary level. The program is coordinated with the education department's teacher certification programs. Students may complete the degree requirements for the secondary option with full teacher certification in either four or five years.

Students electing the four-year option leading to secondary school certification must plan for one semester of student teaching in their senior year; this requires careful planning with your program adviser to accommodate the scheduling of required MATH courses.

The five-year program includes a year-long teaching internship in the fifth year. The internship requires admission into a UNH Department of Education graduate program that leads to certification. [See Education, College of Liberal Arts.](#)

### Graduation Requirements

In all courses used to satisfy the requirements for its major programs, the Department of Mathematics and Statistics requires that a student earn a grade of C- or better and have an overall grade-point average of at least 2.00 in these courses.

For **teacher licensure** a grade of B- or better is required in all Education courses.

### Requirements

## Mathematics Major (B.A.)

<https://ceps.unh.edu/mathematics-statistics/program/ba/mathematics>

### Description

The bachelor of arts degree with the mathematics major may offer a broader liberal arts program than the bachelor of science degree programs. By a careful selection of electives, students can shape this major into a preparation for graduate school, business, or industry.

### Requirements

### Degree Requirements

**Minimum Credit Requirement:** 128 credits

**Minimum Residency Requirement:** 32 credits must be taken at UNH

**Minimum GPA:** 2.0 required for conferral\*

**Core Curriculum Required:** Discovery & Writing Program Requirements

**Foreign Language Requirement:** Yes

All Major, Option and Elective Requirements as indicated.

\*Major GPA requirements as indicated.

### Major Requirements

In all courses used to satisfy the requirements for its major programs, the Department of Mathematics and Statistics requires that a student earn a grade of C- or better and have an overall grade-point average of at least 2.00 in these courses.

## Student Learning Outcomes

- Students can explain core concepts from a range of different branches of mathematics, including analysis, algebra, calculus and statistics.
- Students can correctly interpret mathematical definitions and construct simple proofs which use definitions and logical arguments to establish properties of mathematical objects.
- Students are aware that mathematical objects may have multiple representations and are able to select representations which clarify problems and simplify calculations.
- Students can recognize valid and invalid mathematical arguments.

## Mathematics Major (B.S.)

<https://ceps.unh.edu/mathematics-statistics/mathematics-bs>

## Description

This program offers the strongest concentration in mathematics, requiring courses that are intended to prepare the student for graduate

work in mathematics. Through a judicious choice of electives, students may design stronger pre-graduate programs, a program in applied mathematics, or slant the program toward a career in business or industry.

## Requirements

Student Learning Outcomes

- Students can explain core concepts from a range of different branches of mathematics, including analysis, algebra, calculus and statistics.
- Students can correctly interpret mathematical definitions and construct simple proofs which use definitions and logical arguments to establish properties of mathematical objects.
- Students are aware that mathematical objects may have multiple representations and are able to select representations which clarify problems and simplify calculations.
- Students can recognize valid and invalid mathematical arguments.

Statistics Major (B.S.)

<https://ceps.unh.edu/mathematics-statistics/program/bs/statistics>

Description

This program prepares students for employment and/or graduate study in a variety of fields and research specializations in which statistical analysis and its applications play a critical role. In addition to its degree programs, the department has an active interest in the actuarial profession. Those interested in actuarial science should seek the advice of departmental coordinator of the actuarial program, Professor Linyuan Li.

Requirements

Degree Requirements

- Minimum Credit Requirement:** 128 credits
- Minimum Residency Requirement:** 32 credits must be taken at UNH
- Minimum GPA:** 2.0 required for conferral\*
- Core Curriculum Required:** Discovery & Writing Program Requirements
- Foreign Language Requirement:** No
- All Major, Option and Elective Requirements as indicated.

\*Major GPA requirements as indicated.

Major Requirements

In all courses used to satisfy the requirements for its major programs, the Department of Mathematics and Statistics requires that a student earn a grade of C- or better and have an overall grade-point average of at least 2.00 in these courses.

Code	Title	Credits
Required MATH Courses		
MATH 425	Calculus I	4
MATH 426	Calculus II	4
MATH 445	Mathematics and Applications with MATLAB	4

- Perform analyses using the established tools of applied statistics, including production of appropriate software output and its interpretation.

## Applied Mathematics Minor

<https://ceps.unh.edu/mathematics-statistics/program/minor/applied-mathematics>

### Description

This minor program introduces students to variety of fields and research specializations in which mathematics plays a critical role in the solution of important scientific and technological problems.

For further information, please contact the minor coordinator located on the department website.

### Requirements

Credit toward the minor will be given only for courses passed with C- or better, and a 2.0 grade-point average must be maintained in courses for the minor. Courses taken on the pass/fail basis may not be used for the minor. Students should declare their intent to earn a minor as early as possible and no later than the end of the junior year. During the final term, an application should be made to the dean of the student's major college to have the minor shown on the academic record. Students must consult with their major adviser and also the minor supervisor.

It requires a minimum of five MATH courses as detailed in the minor requirements. No more than 8.0 credits (or two courses) used by the student to satisfy major requirements may be used for the minor. Additional courses from the list of course electives may be utilized to meet the five-course minimum.

Code	Title	Credits
<b>Required</b>		
MATH 528	Multidimensional Calculus <sup>1</sup>	4
MATH 645	Linear Algebra for Applications <sup>1</sup>	4
MATH 745	Foundations of Applied Mathematics I	4
MATH 753	Introduction to Numerical Methods I	4
<b>Select ONE of the following electives</b>		<b>4</b>
MATH 647	Complex Analysis for Applications	
MATH 746	Foundations of Applied Mathematics II	
MATH 747	Introduction to Nonlinear Dynamics and Chaos	
MATH 755	Probability with Applications	
MATH 757	Mathematical Optimization for Applications	
<b>Total Credits</b>		<b>20</b>

<sup>1</sup> This requirement may be satisfied by MATH 525 Linearity I & MATH 526 Linearity II.

## Mathematics Minor

<https://ceps.unh.edu/mathematics-statistics/program/minor/mathematics>

### Description

The mathematics minor will introduce you to central fields of pure mathematics, such as algebra, analysis and geometry. You'll be able to

### Student Learning Outcomes

- Communicate theoretical foundations and principles of intermediate-level statistics to diverse audiences.
- Design an appropriate method of data collection for a variety of practical applications.

complement the core program requirements with an enticing selection of mathematics electives, including differential geometry, combinatorics, number and set theory, logic and topology. Tailor the minor to enhance a major such as business, economics, education or the sciences to prepare for your future career or graduate studies.

Students should declare their intent to earn a minor as early as possible and no later than the end of the junior year. During the final term, an application should be made to the dean of the student's major college to have the minor shown on the academic record. Students must consult with their major adviser and also the minor supervisor.

For further information, please contact the minor coordinator located on the department website.

## Requirements

The minor requires a minimum of five MATH courses as detailed in the requirements. No more than 8.0 credits (or two courses) used by the student to satisfy major requirements may be used for the minor. Additional courses from the list of course electives may be utilized to meet the five-course minimum.

Credit toward the minor will be given only for courses passed with C- or better, and a 2.0 grade-point average must be maintained in courses for the minor. Courses taken on the pass/fail basis may not be used for the minor.

Code	Title	Credits
<b>Required</b>		
MATH 528	Multidimensional Calculus <sup>1</sup>	4
MATH 531	Mathematical Proof	4
MATH 761	Abstract Algebra	4
or MATH 767	One-Dimensional Real Analysis

MATH 760	Geometry	
MATH 761	Abstract Algebra	
MATH 763	Abstract Algebra II	
MATH 765	Introduction to Commutative Algebra and Algebraic Geometry	
MATH 767	One-Dimensional Real Analysis	
MATH 768	Real Analysis II	
MATH 769	Introduction to Differential Geometry	
MATH 770	Foundations of Number Theory	
MATH 772	Combinatorics	
MATH 776	Logic	
MATH 783	Set Theory	
MATH 784	Topology	
MATH 788	Complex Analysis	
<b>Total Credits</b>		<b>20</b>

<sup>1</sup> This requirement may be satisfied by MATH 525 Linearity I and MATH 526 Linearity II.

## Statistics Minor

<https://ceps.unh.edu/mathematics-statistics/program/minor/statistics>

## Description

The minor in statistics is designed for students in other majors who want to learn the fundamentals of statistical analysis and its applications.

Students should declare their intent to earn a minor as early as possible and no later than the end of the junior year. During the final term, an application should be made to the dean of the student's major college to have the minor shown on the academic record. Students must consult with their major adviser and also the minor supervisor.

For further information, please contact the minor coordinator located on the department website.

## Requirements

Credit toward the minor will be given only for courses passed with C- or better, and a 2.0 grade-point average must be maintained in courses for the minor. Courses taken on the pass/fail basis may not be used for the minor. No more than 8.0 credits (or two courses) used by the student to satisfy major requirements may be used for the minor.

The minor requires a minimum of five MATH courses as detailed in the minor requirements. Additional courses from the list of course electives may be utilized to meet the five-course minimum.

Code	Title	Credits
<b>Required</b>

MATH 741	Survival Analysis	
MATH 743	Time Series Analysis	
MATH 744	Design of Experiments II	
MATH 755	Probability with Applications	
MATH 756	Principles of Statistical Inference	
<b>Total Credits</b>		<b>20</b>

<sup>1</sup> This requirement may be satisfied by MATH 525 Linearity I.

## Mechanical Engineering

The Mechanical Engineering Program at UNH is accredited by the: Engineering Accreditation Commission of ABET, <http://www.abet.org>

## Mission

In support of the University and college missions, the Department of Mechanical Engineering is dedicated to educating the highest quality engineering professionals and leaders. Graduates will be prepared to creatively solve engineering problems through the use of analysis, computation, and experimentation. Students completing the program should be well-informed citizens who have the ability to grow intellectually and are able to solve new, challenging problems with self-confidence. It is the department's intent to maintain a general and flexible curriculum that prepares students for both industrial practice and graduate education.

## Educational Objectives

The objective of the UNH Mechanical Engineering Program is to produce graduates who are ethical professionals and good citizens. As they

progress in the first several years following graduation, they are expected to:

1. Use their engineering education and communication skills for success in:
  - a. Technical careers in industry, academia, government, or other organizations;
  - b. Graduate school in engineering or physical sciences;
  - c. Nontechnical careers or education in areas such as law, medicine, business, public policy, secondary education, service industries, etc.;
  - d. Careers involving management or entrepreneurship.
2. Exercise lifelong learning to:
  - a. Pursue professional development opportunities in their disciplines;
  - b. Develop new knowledge and skills;
  - c. Pursue new areas of expertise or careers.
3. Use their engineering background to:
  - a. Solve technical problems for societal benefit;
  - b. Develop new knowledge and products that will promote sustainable economic and environmental developments to improve the quality of life;
  - c. Promote the practice of engineering.

Mechanical engineering is a challenging profession and has two major emphases. The first is the general area of mechanical design, which involves all types of mechanical motion and the forces and energy that drive it. The other emphasis deals with energy generation and conversion and is grounded in the principles of the thermal and fluid sciences. Other subject areas, which support both emphases and are frequently part of designs and products, are the materials sciences, manufacturing, and control systems. All of these areas are included in the education and training of mechanical engineers. Ocean engineering is another focus area in our department which emphasizes solving engineering problems associated with the sustainable utilization of ocean resources and the scientific exploration and study of the ocean environment. Mechanical engineering requires significant study in mathematics, engineering computing, and basic sciences such as chemistry and physics, as well as basic engineering courses, before reaching the more specialized courses. Additional information can be found at the mechanical engineering website.

<https://ceps.unh.edu/mechanical-engineering>

## Programs

- [Mechanical Engineering Major \(B.S.\)](#) (p. 135)
- [Mechanical Engineering Minor](#) (p. 138)

## Faculty

<https://ceps.unh.edu/directory/all>

## Mechanical Engineering Major (B.S.)

<https://ceps.unh.edu/mechanical-engineering/program/bs/mechanical-engineering-major>

## Description

The B.S.M.E. curriculum provides students with a solid engineering core and prepares students for professional engineering careers or for graduate study. The department has course sequences in mechanics, thermal/fluid sciences, and systems and controls. Modern experimental methods are taught in a course sequences starting in the junior year. The two-semester senior design project requires students to utilize the skills they have learned in their courses and function in an engineering team. The five technical electives required in the program give the students the opportunity to focus on advanced technical areas of their choice.

With their advisers' assistance, students should plan a program based on the following distribution of courses that totals not less than 128 credits. Note: mechanical engineering graduates typically exceed this requirement depending on what elective courses they select in the curriculum. Within the constraints of satisfying all the requirements and having all the necessary prerequisites, schedules may vary because of scheduling needs or student preference. Curriculum flexibility allows students to pursue a co-op experience or a minor, if interested which will potentially delay graduation. Some mechanical engineering elective courses may not be offered every year.

## Requirements

### Degree Requirements

**Minimum Credit Requirement:** 128 credits

**Minimum Residency Requirement:** 32 credits must be taken at UNH

**Minimum GPA:** 2.0 required for conferral\*

**Core Curriculum Required:** Discovery & Writing Program Requirements

**Foreign Language Requirement:** No

All Major, Option and Elective Requirements as indicated.

\*Major GPA requirements as indicated.

### Major Requirements

#### Grade-Point Average Requirements

In order to graduate with a mechanical engineering B.S. degree, students must have at least a 2.0 grade-point average in all engineering and science courses, including required technical electives, normally taken as department requirements after the start of the junior year as defined in the degree plan below.

**Predictor courses:** To enter the sophomore year, students must achieve a greater than (but not equal to) 2.00 GPA in PHYS 407 General Physics I and MATH 426 Calculus II with no grade below a C.

To enter the junior year, students must achieve a minimum GPA of 2.00 in ME 525 Statics, ME 526 Mechanics of Materials, and ME 503 Thermodynamics with only one C- grade allowed and no grades below C-.

Students are allowed two repeats of these predictor courses to achieve the predictor rule requirements before being removed from the Program. This can be a single class repeated twice or two classes repeated once. Students are also removed from the program if they obtain a semester

GPA below 1.5 three times. Students may petition to be reinstated after one year out of the program.

Code	Title	Credits
<b>Required Courses</b>		
CHEM 405	Chemical Principles for Engineers	0-8
or CHEM 403 & CHEM 404	General Chemistry I and General Chemistry II	
ECON 402	Principles of Economics (Micro)	4
or EREC 411	Environmental and Resource Economics Perspectives	
ECE 537	Introduction to Electrical Engineering	4
ENGL 401	First-Year Writing	4
IAM 550	Introduction to Engineering Computing	4
MATH 425	Calculus I	4
MATH 426	Calculus II	4
MATH 527	Differential Equations with Linear Algebra	4
or MATH 525	Linearity I	
MATH 528	Multidimensional Calculus	4
or MATH 526	Linearity II	
ME 441	Introduction to Engineering Design and Solid Modeling	4
or ME 477	Introduction to Solid Modeling	
ME 503	Thermodynamics	3
ME 525	Statics	4
ME 526	Mechanics of Materials	3
ME 561	Introduction to Materials Science	4
ME 603	Heat Transfer	3
ME 608	Fluid Dynamics	3
ME 627	Dynamics	3
ME 643	Machine Design	3
ME 646	Experimental Measurement and Data Analysis	4
ME 670	Systems Modeling, Simulation, and Control	4
ME 705	Thermal System Analysis and Design	4
ME 747	Experimental Measurement and Modeling of Complex Systems	4
ME 755	Senior Design Project I	2
or TECH 797	Undergraduate Ocean Research Project	
ME 756	Senior Design Project II	2
or TECH 797	Undergraduate Ocean Research Project	
PHYS 407	General Physics I	4
PHYS 408	General Physics II	4

## Technical Elective Requirements

Of the five technical elective courses, at least three of these courses must be taken in mechanical or ocean engineering, and these must be at least three credits and at the 600 or 700 level. At most, two may be selected from other 600- or 700-level courses in the College of Engineering and Physical Sciences (CEPS), which can include CS 410C Introduction to Scientific Programming/C, CS 410P Introduction to Scientific Programming/Python (equivalent to a 600 level technical elective), ESCI 501 Introduction to Oceanography, ECE 543 Introduction to Digital Systems, or a course approved by the department. Only one technical elective is allowed at the 400 or 500 level. Courses that cover nearly identical material to core mechanical and ocean engineering courses, but in another CEPS department, will not be accepted as technical electives, e.g.,

Code	Title	Credits
CHBE 601	Fluid Mechanics and Unit Operations	3
CHBE 602	Heat Transfer and Unit Operations	3
CHBE 604	Chemical Engineering Thermodynamics	3
CEE 635	Engineering Materials	4
CEE 650	Fluid Mechanics	4
ECE 633	Signals and Systems I	3

Students should consult with their academic advisor before selecting technical electives outside of mechanical/ocean engineering. With departmental approval, the two technical electives outside of

mechanical/ocean engineering can be used for studying a focused area/minor, with the restrictions that only one course can be at the 400 or 500 level and the focused area/minor must be in a bachelor's degree program.

## Discovery Program Requirements

Students must satisfy the University's Discovery Program requirements. The following features are unique to students in the Mechanical Engineering Program:

As is the case across the University, all students are required to take an Inquiry course or an Inquiry Attributes course during their first two years. This can be satisfied with ME 441 Introduction to Engineering Design and Solid Modeling. Students who are exempt from ME 441 Introduction to Engineering Design and Solid Modeling due to prior engineering design and computer-aided design (CAD) experience must select an Inquiry 444 course or a course with an Inquiry Attribute and enroll in ME 477 Introduction to Solid Modeling. The Discovery Environment, Technology, and Society category requirement is met upon receiving a B.S. degree in mechanical engineering. The Discovery Social Science category must be satisfied with either ECON 402 Principles of Economics (Micro) or EREC 411 Environmental and Resource Economics Perspectives. The Discovery senior capstone experience is satisfied with either ME 755 Senior Design Project I and ME 756 Senior Design Project II or TECH 797 Undergraduate Ocean Research Project.

## Transfer Policy for UNH Students into the Department of Mechanical Engineering

**CEPS Students:** To transfer into the freshman or sophomore year, students must earn a combined GPA greater than (but not equal to) 2.00 in PHYS 407 General Physics I and MATH 426 Calculus II with no grade below a C in these two courses.

If students are enrolled in ME 525 Statics (or CEE 500 Statics for Civil Engineers), ME 526 Mechanics of Materials (or CEE 501 Strength of Materials), or ME 503 Thermodynamics, they must earn a combined GPA of 2.00 with no grade below a C- in two of these courses with only one C-grade allowed to transfer into Mechanical Engineering. Note: A combined GPA greater than (but not equal to) 2.00 in PHYS 407 General Physics I and MATH 426 Calculus II with no grade below a C is also required.

**Non-CEPS Students:** To transfer into the Department of Mechanical Engineering from another college at UNH, students have to satisfy the CEPS college transfer policy as well as the Department of Mechanical Engineering transfer policies listed above according to their status.

Technical Elective	3-4
--------------------	-----

Technical Elective	3-4
Discovery Program Elective	4
<b>Credits</b>	<b>15-18</b>
<b>Total Credits</b>	<b>129-134</b>

- <sup>1</sup> ME 441 Introduction to Engineering Design and Solid Modeling satisfies the Discovery Inquiry requirement. Note: ME 477 does not satisfy the Discovery Inquiry requirement. An alternative Discovery Program Inquiry course or Inquiry Attributes course is required. Permission is required to take ME 477 in place of ME 441.
- <sup>2</sup> CHEM 405 Chemical Principles for Engineers or CHEM 403 General Chemistry I and CHEM 404 General Chemistry II, or PHYS 407 General Physics I satisfies the Discovery Physical Science (with lab) category.
- <sup>3</sup> MATH 425 Calculus I satisfies the Discovery Foundation Quantitative Reasoning category.
- <sup>4</sup> ENGL 401 First-Year Writing satisfies the Discovery Foundation Writing Skills category.
- <sup>5</sup> MATH 525 Linearity I and MATH 526 Linearity II also counts as a 600 level technical elective course typically completed in the senior year of the program. Permission is required to take Linearity I and II.
- <sup>6</sup> ME 755, ME 756 and TECH 797 satisfy the Discovery Senior Capstone Experience category.

## Student Learning Outcomes

- A. the ability to apply knowledge of mathematics, science and engineering; (objective 1)
- A.1 knowledge of chemistry and calculus-based physics with depth in at least one; (objective 1)
- A.2 the ability to apply advanced mathematics through multivariate calculus and differential equations; (objective 1)
- A.3 a familiarity with statistics and linear algebra; (objective 1)
- B. the ability to design and conduct experiments, as well as to analyze and interpret data; (objective 2)
- C. the ability to design a system, component, or process to meet desired needs; (objective 2)
- C.1 the ability to work professionally in mechanical systems areas including the design and realization of such systems; (objective 2)
- C.2 the ability to work professionally in thermal systems areas including the design and realization of such systems; (objective 2)
- D. the ability to function in multidisciplinary teams; (objective 2 & 3)
- E. the ability to identify, formulate and solve engineering problems; (objective 2)
- F. the understanding of professional and ethical responsibility; (objectives 4 & 6)
- G. the ability to communicate effectively; (objective 2)
- H. the broad education necessary to understand the impact of engineering solutions in a global and societal context; (objective 5)
- I. recognition of the need for and an ability to engage in life-long learning; (objective 4)
- J. knowledge of contemporary issues; (objective 4)
- K. the ability to use the techniques, skills and modern engineering tools necessary for engineering practice; (objective 2)

## Mechanical Engineering Minor

<https://ceps.unh.edu/mechanical-engineering/program/minor/mechanical-engineering>

### Description

The minor, administered by the Department of Mechanical Engineering and offers a broad introduction to mechanical engineering.

Interested students should contact the Mechanical Engineering Chair at (603) 862-1353 and file an intent to minor form. During the last semester, students must complete a completion of minor form for it to appear on their transcript.

### Requirements

Students must complete a minimum of six courses as follows:

Code	Title	Credits
ME 441	Introduction to Engineering Design and Solid Modeling	4
ME 503	Thermodynamics	3
ME 525	Statics	4
ME 526	Mechanics of Materials	3
ME 627	Dynamics	3
ME 608	Fluid Dynamics	3
Total Credits		20

Electrical and Computer Engineering majors should take the following courses:

Code	Title	Credits
ME 477	Introduction to Solid Modeling	1
ECE 633	Signals and Systems I <sup>1</sup>	3
ECE 634	Signals and Systems II <sup>1</sup>	3
ME 503	Thermodynamics	3
ME 525	Statics	4
ME 561	Introduction to Materials Science	4
Select one of the following: <sup>2</sup>		
ME 526	Mechanics of Materials	3
ME 608	Fluid Dynamics	3
ME 627	Dynamics	3

<sup>1</sup> ECE Major Required Courses.

<sup>2</sup> The total number of credits required is 21.

Physics majors should take the following courses:

Code	Title	Credits
PHYS 508	Thermodynamics and Statistical Mechanics <sup>1</sup>	4
PHYS 615	Classical Mechanics and Mathematical Physics I <sup>1</sup>	4
ME 477	Introduction to Solid Modeling	1
ME 526	Mechanics of Materials	3
ME 608	Fluid Dynamics	3
Select one of the following: <sup>2</sup>		
ME 643	Machine Design	3
ME 670	Systems Modeling, Simulation, and Control	4
ME 705	Thermal System Analysis and Design	4

<sup>1</sup> Physics Major Required Courses.

<sup>2</sup> The total number of credits to complete the Physics Minor will be either 18 or 19 depending on what course is selected.

## Ocean Engineering

### Mission

The undergraduate program in ocean engineering emphasizes ocean engineering fundamentals while offering interdisciplinary opportunities for focused study in civil, electrical, environmental, or mechanical engineering, as well as marine sciences.

### Program Educational Objectives

The ocean engineering program seeks to provide an environment that enables students to pursue their goals in an innovative, rigorous, and challenging program with a diversity of offerings. The program has the following major educational objectives, with the expectation that alumni will have successful careers in the many diverse areas of the ocean engineering profession. Within a few years of obtaining a bachelor's degree in ocean engineering, we expect our graduates to have the following attributes:

*Depth.* To be effective in applying ocean engineering principles in engineering practice or for advanced study in ocean engineering.

*Breadth.* To have a productive career in the many diverse fields of ocean engineering such as coastal engineering, ocean acoustics, offshore structures, and marine renewable energy, or in the pursuit of graduate education in disciplines that include marine science, engineering, medicine, law, or business.

*Professionalism.* To function effectively in the complex modern work environment with the ability to assume professional leadership roles.

## Ocean Engineering Major (B.S.)

<https://ceps.unh.edu/ocean-engineering/program/bs/ocean-engineering-major>

### Description

Ocean engineering is a field of study that seeks to solve engineering problems associated with the ocean, including those problems associated with the sustainable utilization of ocean resources and the scientific exploration and study of the ocean environment. Ocean engineering is an interdisciplinary field with roots in mechanical, electrical, civil, and environmental engineering, with strong ties to physical, chemical, biological, and geological oceanography. Students of ocean engineering are best served when they are formally trained inside a framework that fuses the expertise of these often-disparate fields.

The BSOE curriculum provides students with a solid engineering core and prepares students for professional engineering careers or for graduate study. The BSOE starts with foundational classes in math, physics, chemistry, and engineering computing, along with introductions to ocean engineering through seminars and oceanography coursework. Students develop their engineering acumen through coursework and laboratory studies that are focused on analysis, experimentation, and design. Students proceed to increasingly advanced coursework in ocean instrumentation, waves and tides, the design of ocean structures, coastal engineering, ocean measurements, and ocean acoustics. Opportunities exist for at least four technical electives, which help students gain further competence in an area of their choice. Students finish their curriculum with a two-semester senior capstone design project. Elective courses in the arts, humanities, and the social sciences are included to provide a well-rounded education.

Students work with an advisor to plan a program that is based on the required coursework for the degree. Some ocean engineering elective courses may not be offered every year.

## Requirements

### Degree Requirements

**Minimum Credit Requirement:** 128 credits

**Minimum Residency Requirement:** 32 credits must be taken at UNH

**Minimum GPA:** 2.0 required for conferral\*

**Core Curriculum Required:** Discovery & Writing Program Requirements

**Foreign Language Requirement:** No

All Major, Option and Elective Requirements as indicated.

\*Major GPA requirements as indicated.

### Major Requirements

#### Technical Electives

The ocean engineering program curriculum requires four technical electives that are CEPS 600-level or higher courses that have been approved by the OE undergraduate curriculum committee. Sequences have been identified that will provide students more in-depth opportunities in one of the ocean engineering sub-areas. One of the technical electives needs to be a program-approved statistics course (OE 764 Spectral Analysis of Geophysical Time Series Data, MATH 644 Statistics for Engineers and Scientists, or ESCI 701 Quantitative Methods in Earth Sciences).

#### Discovery Program

Students must satisfy the University's Discovery Program requirements. The following features are unique to students in the Ocean Engineering program: students are required to take an Inquiry course or an Inquiry Attribute course during their first two years. This is satisfied with ESCI 501 Introduction to Oceanography. The Discovery Environment, Technology, and Society category requirement is met upon receiving a B.S. degree in ocean engineering. The Discovery Social Science category must be satisfied with either ECON 402 Principles of Economics (Micro) or EREC 411 Environmental and Resource Economics Perspectives. The Discovery senior capstone experience is satisfied with TECH 797 Undergraduate Ocean Research Project.

#### Grade-Point Average

In order to graduate with an ocean engineering B.S. degree, students must have at least a 2.0 grade-point average in all engineering and science courses, including required technical electives, normally taken as department requirements after the start of the junior year as defined in the degree plan below.

**Predictor courses:** To enter the sophomore year, students must achieve a greater than (but not equal to) 2.00 GPA in PHYS 407 General Physics I and MATH 426 Calculus II with no grade below a C.

To enter the junior year, students must achieve a minimum GPA of 2.00 in ME 525 Statics, ME 526 Mechanics of Materials, and ME 503 Thermodynamics with only one C- grade allowed and no grades below C-.

Students are allowed two repeats of these predictor courses to achieve the predictor rule requirements before being removed from the program. This can be a single class repeated twice or two classes repeated once. Students are also removed from the program if they obtain a semester GPA <1.5 three times. Students may petition to be reinstated after one year out of the program.

#### Transfer Policy for UNH Students

**CEPS Students:** To transfer into the freshman or sophomore year, students must earn a combined GPA greater than (but not equal to) 2.00 in PHYS 407 General Physics I and MATH 426 Calculus II with no grade below a C in these two courses.

If students are enrolled in ME 525 Statics (or CEE 500 Statics for Civil Engineers), ME 526 Mechanics of Materials (or CEE 501 Strength of Materials), or ME 503 Thermodynamics, they must earn a combined GPA of 2.00 with no grade below a C- in two of these courses with only one C- grade allowed to transfer in and advance to the junior year.

**Non-CEPS Students:** To transfer into the Ocean Engineering B.S. from another college at UNH, students have to satisfy the CEPS college transfer policy as well as the Ocean Engineering program transfer policies listed above according to status.

Code	Title	Credits
<b>Required Courses</b>		
CHEM 405	Chemical Principles for Engineers	4
or CHEM 403 & CHEM 404	General Chemistry I and General Chemistry II	
ECON 402	Principles of Economics (Micro)	4
or EREC 411	Environmental and Resource Economics Perspectives	
ECE 537	Introduction to Electrical Engineering	4
ESCI 501	Introduction to Oceanography	4
ESCI 720	Ocean Measurements Lab	4
IAM 550	Introduction to Engineering Computing	4
MATH 425	Calculus I	4
MATH 426	Calculus II	4
MATH 525 & MATH 526	Linearity I and Linearity II	12
or MATH 527 & MATH 528	Differential Equations with Linear Algebra and Multidimensional Calculus	
ME 503	Thermodynamics	3
ME 525	Statics	4
ME 526	Mechanics of Materials	3
or CEE 501	Strength of Materials	
ME 608	Fluid Dynamics	3
ME 627	Dynamics	3
OE 400	Ocean Engineering Seminar	1
OE 401	Ocean Engineering Seminar	1
OE 490	Introduction to Ocean Engineering	4
OE 610	Ocean Instrumentation Lab	4
OE 754	Ocean Waves and Tides	4

OE 757	Coastal Engineering and Processes	3
OE 758	Design of Ocean Structures	3
OE 765	Underwater Acoustics	3
PHYS 407	General Physics I	4
PHYS 408	General Physics II	4
TECH 797	Undergraduate Ocean Research Project	2

Technical Electives: 600-level or higher, choose four electives; at least one of the four courses must be 4 credits.

## Degree Plan

The degree plan is considered a guideline and may be modified to suit student needs and desires within the constraints of meeting minimum credit hours, course prerequisites, and non-major elective course requirements.

Course	Title	Credits
<b>First Year</b>		
<b>Fall</b>		
MATH 425	Calculus I <sup>1</sup>	4
PHYS 407	General Physics I <sup>2</sup>	4
OE 400	Ocean Engineering Seminar	1
Discovery Program Elective		4
Discovery Program Elective		4
<b>Credits</b>		<b>17</b>
<b>Spring</b>		
ENGL 401	First-Year Writing <sup>3</sup>	4
MATH 426	Calculus II	4
OE 490	Introduction to Ocean Engineering	4
PHYS 408	General Physics II	4
Discovery Program Elective		4
<b>Credits</b>		<b>20</b>
<b>Second Year</b>		
<b>Fall</b>		
CHEM 405 or CHEM 403 and CHEM 404	Chemical Principles for Engineers <sup>2</sup> or General Chemistry I and General Chemistry II	4
ESCI 501	Introduction to Oceanography (satisfies the Discovery Inquiry requirement) <sup>4</sup>	4
MATH 528 or MATH 525	Multidimensional Calculus <sup>5</sup> or Linearity I	4
ME 525	Statics	4
<b>Credits</b>		<b>16</b>
<b>Spring</b>		
IAM 550	Introduction to Engineering Computing	4
MATH 527 or MATH 526	Differential Equations with Linear Algebra <sup>5</sup> or Linearity II	4
ME 503	Thermodynamics	3
ME 526 or CEE 501	Mechanics of Materials or Strength of Materials	3
OE 401	Ocean Engineering Seminar	1
<b>Credits</b>		<b>15</b>
<b>Third Year</b>		
<b>Fall</b>		
ECE 537	Introduction to Electrical Engineering	4
ME 608	Fluid Dynamics	3

ME 627	Dynamics	3
OE 754	Ocean Waves and Tides	4
<b>Credits</b>		<b>14</b>
<b>Spring</b>		
OE 610	Ocean Instrumentation Lab	4
OE 757	Coastal Engineering and Processes	3
OE 758	Design of Ocean Structures	3
Technical Elective <sup>6</sup>		4
<b>Credits</b>		<b>14</b>
<b>Fourth Year</b>		
<b>Fall</b>		
ESCI 720	Ocean Measurements Lab	4
OE 765	Underwater Acoustics	3
TECH 797	Undergraduate Ocean Research Project	2
Discovery Program Elective		4
Technical Elective <sup>6</sup>		4
<b>Credits</b>		<b>17</b>
<b>Spring</b>		
TECH 797	Undergraduate Ocean Research Project	2
Technical Elective <sup>6</sup>		3-4
Technical Elective <sup>6</sup>		3-4
Discovery Program Elective		4
Discovery Program Elective		4
<b>Credits</b>		<b>16-18</b>
<b>Total Credits</b>		<b>129-131</b>

<sup>1</sup> MATH 425 Calculus I satisfies the Discovery Foundation Quantitative Reasoning category.

<sup>2</sup> PHYS 407 General Physics I or CHEM 405 Chemical Principles for Engineers or CHEM 403 General Chemistry I and CHEM 404 General Chemistry II satisfies the Discovery Physical Science (with lab) category.

<sup>3</sup> ENGL 401 First-Year Writing satisfies the Discovery Foundation Writing Skills category.

<sup>4</sup> ESCI 501 Introduction to Oceanography satisfies the Discovery Inquiry requirement.

<sup>5</sup> MATH 525 Linearity I and MATH 526 Linearity II may be substituted for MATH 527 Differential Equations with Linear Algebra and MATH 528 Multidimensional Calculus. The MATH 525 and MATH 526 sequence will also count as one Technical Elective.

<sup>6</sup> Total technical elective credits must be at 14 credits or higher to meet the UNH required total of 128 credits for graduation

## Student Learning Outcomes

The Student Outcomes consist of the ABET 1-7 general requirements for all engineering programs with four additional outcomes specific to the Ocean Engineering program which are subsets of (1).

- (1) ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science and math. Knowledge of fluid mechanics and hydrostatics with depth in at least one. An ability to apply solid mechanics and dynamics through multivariate calculus and differential equations. Knowledge of oceanography, water waves, and underwater acoustics. Ability to apply probability and applied statistics.

- (2) ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety and welfare, as well as global, cultural, social, environmental and economic factors.
- (3) ability to communicate effectively with a range of audiences.
- (4) ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments which must consider the impact of engineering solutions in global, economic, environmental and societal contexts.
- (5) ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives.
- (6) ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions.
- (7) ability to acquire and apply new knowledge as needed, using appropriate learning strategies.

## Ocean Engineering Minor

<https://ceps.unh.edu/ocean-engineering/program/minor/ocean-engineering>

### Description

The ocean engineering minor allows undergraduate engineering students to acquire a nucleus of knowledge about engineering pertaining to the ocean and the coastal zone.

Students wishing to take the ocean engineering minor should indicate their interest to the ocean engineering minor advisor, Tom Lippmann, (603) 862-4450 or [t.lippmann@unh.edu](mailto:t.lippmann@unh.edu) no later than the beginning of the junior year and file an intent to minor form. During the final semester, students must complete a completion of minor form for it to appear on their transcript.

### Requirements

To meet the University minor requirement, students must satisfactorily complete a minimum of five courses from the following list:

Code	Title	Credits
Select five of the following:		
ESCI 501	Introduction to Oceanography	
ESCI 720	Ocean Measurements Lab	
ESCI 752	Chemical Oceanography	
ESCI 758	Introductory Physical Oceanography	
ESCI 759	Geological Oceanography	
OE 490	Introduction to Ocean Engineering	
OE 754	Ocean Waves and Tides	
OE 757	Coastal Engineering and Processes	
OE 765	Underwater Acoustics	
OE 771	Geodesy and Positioning for Ocean Mapping	
OE 795	Special Topics	
CEE 722	Introduction to Marine Pollution and Control	
TECH 797	Undergraduate Ocean Research Project	

Students typically take ESCI 501 Introduction to Oceanography, TECH 797 Undergraduate Ocean Research Project, and OE 490 Introduction to Ocean Engineering plus two additional engineering courses from the above list to complete the minor.

## Physics and Astronomy

Physics is concerned with the properties of matter and the laws that describe its behavior. As a fundamental science, its discoveries and laws are basic to understanding in nearly all areas of science and technology. Advances in such diverse fields as medical instrumentation, solid state electronics, and space research have relied heavily on the application of basic physical laws and principles.

Students interested in the study of physics at the University of New Hampshire will find a strong interaction between research and academic programs. Undergraduates frequently participate in research studies ranging from nuclear scattering experiments at major particle accelerators to astrophysical studies of the solar system using space probes. These experiences have proven beneficial to engineering and physics students alike. The department is located in DeMeritt Hall (completed in 2008) and Morse Hall. Both buildings are equipped with state-of-the-art research facilities and laboratories. DeMeritt Hall also houses the physics library, classrooms, and a number of open and comfortable meeting areas, which provide an inviting atmosphere for study, interaction, and collaboration.

The suggested programs that follow are indicative of the flexibility available to students, whether they are preparing for graduate work in physics or astronomy, industrial opportunities, governmental research, secondary-level teaching, or a general education that might utilize the fundamental knowledge of physics.

Several undergraduate degree programs are offered through the department of physics. The B.S. degree is designed for students who wish to work as professional physicists or engineers. The B.A. degree is designed for students who want a strong background in physics but also want a broad liberal arts education. The department also offers a B.S. in engineering physics, which offers a deeper understanding of the physical principles needed to support careers in engineering. The BSEP program offers two tracks for students; aerospace and engineering research. Minors for astronomy and physics are also offered by the department.

Interested students are encouraged to contact the department for further information. More detailed information is also on the physics department website.

## Engineering Physics Major (B.S.)

<https://ceps.unh.edu/physics/program/bs/engineering-physics-major>

Description

The goal of the UNH BSEP program is to produce broadly-trained engineers who can provide solutions to today’s challenging problems in support of a technologically evolving society. The core of the program is based on interdisciplinary training, complemented with a deeper understanding of the physical principles needed to support careers in engineering, engineering research or, perhaps, further training in systems engineering. The program balances depth and breadth in skill development; flexibility and functionality are what drive the program in the sense that 1) the particular focus is based on the student’s interests, and 2) the breadth of the course selection is guided by the post-graduation goals of the student (e.g., employment versus graduate school).

Requirements

Degree Requirements

Minimum Credit Requirement: 128 credits

Minimum Residency Requirement: 32 credits must be taken at UNH

Minimum GPA: 2.0 required for conferral\*

Core Curriculum Required: Discovery & Writing Program Requirements

Foreign Language Requirement: No

Student Learning Outcomes

Students are expected to achieve the outcomes below upon graduation.

- An ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics.
- An ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors.
- An ability to communicate effectively with a range of audiences.
- An ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts.
- An ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives.
- An ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions.
- An ability to acquire and apply new knowledge as needed, using appropriate learning strategies.

Physics Major (B.A.)

<https://ceps.unh.edu/physics/program/ba/physics-major>

Description

This program provides an opportunity for a broad and liberal education, which in some cases may be sufficient for graduate work. This program can also be excellent preparation for middle and high school physics teachers, pre-med and pre-law students, and those wishing to pursue a technical career in industry. Because there are fewer required courses than for a B.S., you have time to pursue other academic interests. A judicious choice of electives may also prepare students for interdisciplinary programs that require proficiency in a specialized area of physics.

- 1 Note that no physics course can satisfy these requirement for a physics major. The rationale behind this is that a course in physics does not broaden the education of a physics major.
- 2 A capstone experience is required of all physics majors during their senior year. The Physics Department encourages students to write a senior thesis (PHYS 799 Thesis) for their capstone experience. Other options include independent study research projects (PHYS 795 Independent Study or INCO 590 Student Research Experience) or a special project as part of senior lab (PHYS 705 Experimental Physics II). All capstone experiences must be approved by the undergraduate committee during the student's penultimate semester.

Degree Plan

Suggested Plan of Study

In the following table, "other required courses" include Discovery courses, writing-intensive courses, language courses required for the B.A., and free-choice electives.

Course	Title	Credits
First Year		
Fall		
PHYS 400	Physics Seminar I	1
PHYS 407	General Physics I	4
MATH 425	Calculus I	4

Other Required Courses	8
<b>Credits</b>	<b>17</b>
<b>Spring</b>	
PHYS 408	General Physics II 4
MATH 426	Calculus II 4
ENGL 401	First-Year Writing 4
CS 410P or IAM 550	Introduction to Scientific Programming/ Python or Introduction to Engineering Computing 4
<b>Credits</b>	<b>16</b>
<b>Second Year</b>	
<b>Fall</b>	
PHYS 505 & PHYS 506	General Physics III and General Physics III Laboratory 4
MATH 525 or MATH 527	Linearity I or Differential Equations with Linear Algebra 4-6
PHYS 601	Computational Physics Recitation I 1
Other Required Courses	8
<b>Credits</b>	<b>17-19</b>
<b>Spring</b>	
PHYS 615	Classical Mechanics and Mathematical Physics I 4
MATH 526 or MATH 528	Linearity II or Multidimensional Calculus 4-6
PHYS 602	Computational Physics Recitation II 1
Other Required Courses	8
<b>Credits</b>	<b>17-19</b>
<b>Third Year</b>	
<b>Fall</b>	
PHYS 616	Classical Mechanics and Mathematical Physics II 4
PHYS 701	Quantum Mechanics I 4
Other Required Courses	8
<b>Credits</b>	<b>16</b>
<b>Spring</b>	
PHYS 703	Electricity and Magnetism I 4
PHYS 605	Experimental Physics I 5
Other Required Courses	8
<b>Credits</b>	<b>17</b>
<b>Fourth Year</b>	
<b>Fall</b>	
PHYS 705	Experimental Physics II 4
PHYS 508	Thermodynamics and Statistical Mechanics 4
Other Required Courses	4
Capstone	4
<b>Credits</b>	<b>16</b>
<b>Spring</b>	
Other Required Courses	12

Capstone	4
<b>Credits</b>	<b>16</b>
<b>Total Credits</b>	<b>132-136</b>

## Student Learning Outcomes

- Students will master the fundamentals of mechanics, electricity and magnetism, quantum mechanics, and thermodynamics.
- Students will have a solid understanding of calculus and differential equations and be able to use mathematics to solve physics problems.
- Students will be proficient at taking measurements in a physics lab and analyzing measurements to draw valid conclusions.
- Students will be able to integrate competently the knowledge and skills acquired in the major and have adequate preparation to succeed in post-undergraduate studies or a professional career.
- Students develop and execute plans for post-graduation to establish their careers. Student will understand the variety of career paths and opportunities that are open to students who have majored in physics.
- Students will be able to present scientific ideas effectively in both written and oral form.

## Physics Major (B.S.)

<https://ceps.unh.edu/physics/program/bs/physics-major>

## Description

The bachelor of science degree in physics prepares students for professional work as physicists, and is the first step toward graduate work in physics. It is also excellent preparation for graduate programs in medicine, law, or engineering, as well as for technical jobs in industry. The required courses are those typically necessary for admission to graduate study in physics or astronomy.

## Requirements

### Degree Requirements

**Minimum Credit Requirement:** 128 credits

**Minimum Residency Requirement:** 32 credits must be taken at UNH

**Minimum GPA:** 2.0 required for conferral\*

**Core Curriculum Required:** Discovery & Writing Program Requirements

**Foreign Language Requirement:** No

All Major, Option and Elective Requirements as indicated.

\*Major GPA requirements as indicated.

### Major Requirements

Code	Title	Credits
<b>Required Courses</b>		
PHYS 400	Physics Seminar I	1
PHYS 407	General Physics I	4
PHYS 408	General Physics II	4
PHYS 505 & PHYS 506	General Physics III and General Physics III Laboratory	4
PHYS 508	Thermodynamics and Statistical Mechanics	4

PHYS 601	Computational Physics Recitation I	1
PHYS 602	Computational Physics Recitation II	1
PHYS 605	Experimental Physics I	5
PHYS 615	Classical Mechanics and Mathematical Physics I	4
PHYS 616	Classical Mechanics and Mathematical Physics II	4
PHYS 701	Quantum Mechanics I	4
PHYS 702	Quantum Mechanics II	4
PHYS 703	Electricity and Magnetism I	4
PHYS 704	Electricity and Magnetism II	4
PHYS 705	Experimental Physics II	4
Select two electives from the following:		8
PHYS 708	Optics	
PHYS 710	Astrophysics I	
PHYS 712	Space Plasma Physics	
PHYS 718	Condensed Matter Physics	
PHYS 720	Nuclear Physics	
PHYS 764	General Relativity and Cosmology	
MATH 747	Introduction to Nonlinear Dynamics and Chaos	
MATH 753	Introduction to Numerical Methods I	
<b>Chemistry:</b>		
CHEM 403	General Chemistry I	4
or CHEM 405		Chemical Principles for Engineers
<b>Mathematics:</b>		
MATH 425	Calculus I	8
& MATH 426	and Calculus II	
Select one of the following options: <sup>2</sup>		12
Option A:		
MATH 525	Linearity I	
& MATH 526	and Linearity II <sup>2</sup>	
Option B:		
MATH 528	Multidimensional Calculus	
MATH 527	Differential Equations with Linear Algebra	
MATH 545	Introduction to Linear Algebra	
or MATH 645		Linear Algebra for Applications
<b>Computer Programming:</b>		
CS 410P	Introduction to Scientific Programming/Python	4
or IAM 550		Introduction to Engineering Computing
<b>Capstone:</b> <sup>3</sup>		2-8
PHYS 795	Independent Study	
& PHYS 799	and Thesis	
or INCO 790		Advanced Research Experience
& PHYS 799		and Thesis
or PHYS 798		Senior Project
<b>Total Credits</b>		90-96

<sup>1</sup> Note that no physics course can satisfy these requirement for a physics major. The rationale behind this is that a course in physics does not broaden the education of a physics major.

<sup>2</sup> The Department generally recommends MATH 645 Linear Algebra for Applications over MATH 545 Introduction to Linear Algebra for physics majors.

<sup>3</sup> A capstone experience is required of all physics majors during their senior year. The Physics Department encourages students to write a senior thesis (PHYS 799 Thesis) for their capstone experience. Other options include independent study research projects (PHYS 795 Independent Study or INCO 590 Student Research Experience) or a special project as part of senior lab (PHYS 705 Experimental Physics II). All capstone experiences must be approved by the undergraduate committee during the student's penultimate semester.

By the end of the spring semester of the sophomore year, a student must have a minimum grade of C in each 400- or 500-level course specifically required for the B.S. degree and an overall grade-point average of at least 2.33 in these courses in order to continue in the B.S. program.

## Physics Electives

In the following table, "electives" include Discovery courses, writing-intensive courses, physics electives, and free-choice electives. Note that physics electives can only be taken in the junior or senior year because of prerequisites, and are in general offered every other year.

Code	Title	Credits
PHYS 708	Optics	4
PHYS 710	Astrophysics I	4
PHYS 712	Space Plasma Physics	4
PHYS 718	Condensed Matter Physics	4
PHYS 720	Nuclear Physics	4
PHYS 764	General Relativity and Cosmology	4

## Degree Plan

### Suggested Plan of Study

In this degree plan, "electives" include Discovery courses, Writing Intensive Courses, Physics electives, or electives required to meet 128 credit graduation requirement.

Course	Title	Credits
<b>First Year</b>		
<b>Fall</b>		
PHYS 400	Physics Seminar I	1
PHYS 407	General Physics I	4
MATH 425	Calculus I	4
ENGL 401	First-Year Writing	4
CHEM 403	General Chemistry I	4
or CHEM 405		or Chemical Principles for Engineers
<b>Credits</b>		<b>17</b>
<b>Spring</b>		
PHYS 408	General Physics II	4
MATH 426	Calculus II	4
CS 410P	Introduction to Scientific Programming/Python	4
or IAM 550		or Introduction to Engineering Computing
Discovery Elective		4
<b>Credits</b>		<b>16</b>
<b>Second Year</b>		
<b>Fall</b>		
PHYS 505	General Physics III	4
& PHYS 506	and General Physics III Laboratory	
PHYS 508	Thermodynamics and Statistical Mechanics	4
MATH 528	Multidimensional Calculus	0-6
or MATH 525		or Linearity I
PHYS 601	Computational Physics Recitation I	1
Discovery Elective		4
<b>Credits</b>		<b>13-19</b>
<b>Spring</b>		
PHYS 615	Classical Mechanics and Mathematical Physics I	4
PHYS 605	Experimental Physics I	5
PHYS 602	Computational Physics Recitation II	1

Select one of the following two options:

8 or 6

(1) For students who took MATH 528:

MATH 527 Differential Equations with Linear Algebra  
& MATH 645 and Linear Algebra for Applications

(2) For students who took MATH 525:

MATH 526 Linearity II

**Credits 18-16**

### Third Year

#### Fall

PHYS 616 Classical Mechanics and Mathematical Physics II 4

PHYS 701 Quantum Mechanics I 4

Discovery or Major Electives 8

**Credits 16**

#### Spring

PHYS 702 Quantum Mechanics II 4

PHYS 703 Electricity and Magnetism I 4

Discovery or Major Electives 8

**Credits 16**

### Fourth Year

#### Fall

PHYS 704 Electricity and Magnetism II 4

PHYS 705 Experimental Physics II 4

Discovery or Major Elective 4

Capstone 4

**Credits 16**

#### Spring

Electives 12

Capstone 4

**Credits 16**

**Total Credits 128-132**

## Student Learning Outcomes

- Students will master the fundamentals of mechanics, electricity and magnetism, quantum mechanics, and thermodynamics.
- Students will have a solid understanding of calculus, differential equations, and linear algebra and be able to use mathematics to solve physics problems.
- Students will be able to solve physics problems using computational methods.
- Students will be proficient at taking measurements in a physics lab and analyzing measurements to draw valid conclusions.
- Students will be well prepared for graduate study in physics and related disciplines.
- Students will be well prepared for technical careers.
- Students will be able to present scientific ideas effectively in both written and oral form.

## Astronomy Minor

<https://ceps.unh.edu/physics/program/minor/astronomy>

## Description

This minor program introduces students to the fundamentals of astronomy and astrophysics and also allows students some flexibility in their choice of more focused coursework. The required courses cover the following topics : planets, stars, galaxies, cosmology, and modern astronomical tools. We have two flavors of the minor, one for those also getting a physics degree, and another for students outside of the physics major.

For further information please contact Professor Mark McConnell.

## Requirements

Credit toward the minor will be given only for courses passed with C- or better, and a 2.0 grade-point average must be maintained in courses for the minor. Courses taken on the pass/fail basis may not be used for the minor. Students should declare their intent to earn a minor as early as possible and no later than the end of the junior year. During their final term, students must fill out an intent to minor and have it signed by the appropriate faculty.

The minor requires a minimum of five courses as detailed in the minor requirements. No more than 8.0 credits (or two courses) used by the student to satisfy major requirements may be used for the minor. Additional courses from the list of course electives may be utilized to meet the five-course minimum.

Code	Title	Credits
<b>Required Courses</b>		
PHYS 406	Introduction to Modern Astronomy	4
PHYS 710	Astrophysics I	4
PHYS 711	Astrophysics II	4
PHYS 505	General Physics III (for non-physics majors only)	3
PHYS 506	General Physics III Laboratory (for non-physics majors only)	1
<b>Select two courses (physics majors) or one course (non-physics majors) from the following:</b>		<b>8</b>
ESCI 420	Our Solar System	
ESCI 741	Geochemistry	
ESCI 745	Isotope Geochemistry	
The following courses have significant physics pre-requisites and so may not be practical for non-physics majors		
PHYS 708	Optics	
PHYS 712	Space Plasma Physics	
PHYS 764	General Relativity and Cosmology	
<b>Total Credits</b>		<b>24</b>

## Physics Minor

<https://ceps.unh.edu/physics/program/minor/physics>

## Description

This program allows students to become more deeply involved in physics without the commitment of a major.

To minor in physics, request a minor advisor at the physics office as soon as possible. Advisors assist in course selection to fit your interests, schedule, and help ensure you have met mathematical and physics prerequisites.

## Requirements

- The minor consists of 5 courses in physics.
- At most only two minor courses can also fulfill a major requirement.

The following courses may NOT be used to fulfill minor requirements: PHYS 400, PHYS 401, PHYS 402, PHYS 409, PHYS 501.

Physics minors must take PHYS 407 and PHYS 408 or the equivalent. These two courses are prerequisites for all other physics courses.

Code	Title	Credits
<b>Required Courses</b>		
PHYS 407	General Physics I	4
PHYS 408	General Physics II	4
PHYS 505	General Physics III	3
Elective <sup>1</sup>		4
Elective <sup>1</sup>		4
<b>Total Credits</b>		<b>19</b>

<sup>1</sup> Select a four-credit physics course, chosen in consultation with the student's physics minor advisor.

Examples of course combinations used to fulfill minor requirements:

1. PHYS 407, PHYS 408, PHYS 505 General Physics III & PHYS 506 General Physics III Laboratory, PHYS 508 Thermodynamics and Statistical Mechanics, PHYS 615 Classical Mechanics and Mathematical Physics I
2. PHYS 407 General Physics I, PHYS 408 General Physics II, PHYS 406 Introduction to Modern Astronomy, PHYS 615 Classical Mechanics and Mathematical Physics I, PHYS 616 Classical Mechanics and Mathematical Physics II
3. PHYS 407 General Physics I, PHYS 408 General Physics II, PHYS 615 Classical Mechanics and Mathematical Physics I, PHYS 616 Classical Mechanics and Mathematical Physics II, PHYS 703 Electricity and Magnetism I

Note: many physics courses have mathematics prerequisites. Prerequisites are listed in the course descriptions.

## College of Health and Human Services

Kirsten N. Corazzini, Dean

Erin Hiley Sharp, Associate Dean, Academic Affairs

Dain LaRoche, Associate Dean, Research

The College of Health and Human Services (CHHS) prepares students for professional health-related careers, through hands-on, experiential learning. Taught by profession and field experts, CHHS provides undergraduate instruction that leads to the bachelor of science degree in communication sciences and disorders, health management and policy, human development and family studies, kinesiology (with majors in exercise science, health and physical education, health sciences and sport management and leadership), nursing, occupational therapy, recreation management and policy (with options in outdoor leadership and management, program and event management and therapeutic recreation), and social work. Each program enables students to acquire the knowledge and skills needed to practice in their chosen professions

and to obtain a broad cultural background in the humanities and social sciences.

## Undeclared Major

A limited number of well-qualified first-year students who have expressed an interest in a health-related career but who are undecided about a specific major may enter the College of Health and Human Services as undeclared students.

## ACE First Year Experience Program

All CHHS students participate in our ACE (Academic and Career Engagement) First-Year Experience Program.

The ACE Program in the College of Health and Human Services provides our first year students with an environment that encourages academic success in the transition from high school to college. Through personalized academic and career coaching, this first-year experience program assists students with navigating academic and co-curricular resources, developing skills in active learning, reflection, and decision making, and exploring vast career options and alumni connections - all the while fostering a community of belonging and involvement within CHHS and UNH.

Members of the ACE Program participate in two ACE seminars during the first year. These seminars help students learn about CHHS majors and explore career choices, goals, and the resources and opportunities available to students at UNH, such as academic guidance and support for your personal well-being. Each CHHS student in the ACE Program has an ACE peer mentor and an ACE academic coach, who are available to meet on a regular basis. Each student is also assigned a faculty mentor within the major department.

## Degrees Offered

Bachelor of Science (B.S.)

## Degree Requirements

Candidates for the Bachelor of Science (B.S.) degree must satisfy all University requirements for graduation, earn at least 128 credits, successfully complete the courses required in one of the majors described in this section, and achieve the required minimum grade-point average in the chosen curriculum. Generally, courses are to be completed in the sequence in which they are arranged. Degree candidates must satisfy all of the University and Discovery Program requirements in addition to satisfying the requirements of an individual major program, which includes a senior capstone course/experience.

- [Applied Human Anatomy and Physiology Minor](#) (p. 149)

## Applied Human Anatomy and Physiology Minor

<https://chhs.unh.edu/kinesiology/program/minor/applied-human-anatomy-physiology>

### Description

The minor is designed to provide students with an opportunity to develop knowledge and skills necessary for pursuing degrees in medicine and allied health.

Admission to the applied Human Anatomy & Physiology minor is based on successful completion of BMS 507 Human Anatomy and Physiology I & BMS 508 Human Anatomy and Physiology II or ANSC 511 Anatomy and Physiology and ANSC 512 Anatomy and Physiology (or equivalent accepted by minor adviser) with a grade of C or better and a minimum GPA of 2.75.

### Requirements

Code	Title	Credits
<b>Required Courses</b>		
EXSC 620	Physiology of Exercise	4
KIN 652	Clinical Kinesiology	4
KIN 653A	Musculoskeletal Assessment	2
KIN 706 & KIN 707	Neurology and Neurology Lab	6
Select one of the following:		4
EXSC 527	Scientific Foundations of Health and Fitness	
EXSC 607	Biology of Aging	
KIN 505	Activity, Injuries and Disease	
<b>Total Credits</b>		<b>20</b>

## Coaching

- [Coaching Minor](#) (p. 149)

## Coaching Minor

<https://chhs.unh.edu/kinesiology/program/minor/coaching>

### Description

The Coaching Minor is an interdisciplinary curriculum designed to provide students interested in coaching at the youth, high school or college levels with basic knowledge and skills necessary for competence in coaching. The minor consists of courses offered by several options within the Department of Kinesiology and Recreation Management and Policy. The proposed coursework lays a theoretical and practical framework for students interested in coaching.

Admission into the minor is based on successful completion of SML 565 Principles of Coaching (grade of C- or better), and a minimum GPA of 2.0.

Sport Management Leadership/Sport Studies majors are not permitted to minor in coaching.

### Requirements

## Coaching Minor Requirements

To graduate with a coaching minor, individuals must earn a grade of C- or better in all courses associated with the minor.

Code	Title	Credits
SML 565	Principles of Coaching	4
SML 765	Advanced Topics in Coaching	4
SML 650D	Internship in Coaching <sup>1</sup>	2-4
Select a minimum of two of the following courses:		4
SML 565A	Clinical Practice in Coaching	2
SML 521	Theory of Coaching Basketball	2
SML 522	Theory of Coaching Football	2
SML 523	Theory of Coaching Ice Hockey	2
SML 525	Theory of Coaching Soccer	2
SML 528	Theory of Coaching Track and Field	2
Select at least one of the following:		4
KIN 505	Activity, Injuries and Disease	4
EXSC 527	Scientific Foundations of Health and Fitness	4
SML 560	Sport Psychology	4
RMP 560	Recreational Sport Management	4
SML 562	Sport Media Relations	4
HPE 675	Motor Development and Learning	4
SML 740	Athletic Administration	4
SML 780	Psychological Factors in Sport	4

<sup>1</sup> Students will not be permitted to enroll in SML 650D Internship in Coaching, until they have completed 10 Credits toward the minor to include: SML 565 Principles of Coaching; and one of the applicable courses/electives and at least one theory/practical coaching class.

## Communication Sciences and Disorders (COMM)

### WHAT IS COMMUNICATION SCIENCES AND DISORDERS?

Communication Sciences and Disorders is the profession devoted to assessing and treating disorders, delays, or differences in speech, language, and hearing. In this program, students learn how the ability to communicate develops—including how the brain and speech and hearing mechanisms function to support the acquisition of speech, language, social communication, and cognition. You'll review an array of communication disorders that can affect individuals across the lifespan, learning about assessment and treatment. This pre-professional degree will prepare you to successfully enter clinical or research graduate programs in areas such as audiology, speech-language pathology, cognitive science, and education.

### WHY STUDY COMMUNICATION SCIENCES AND DISORDERS AT UNH?

As a student in the communication sciences and disorders (CSD) program at UNH, you will learn about speech, language, and hearing through a unique educational model that includes classroom instruction, clinical observation, and research. Students observe at the on-campus Speech-Language-Hearing Center and Clinic for Neurogenic Communication Disorders, premier diagnostic and intervention centers in New Hampshire. In addition, you have the opportunity to participate in research activities in our state-of-the-art research laboratories. For students interested, a limited number of internships are available each semester.

Communication Sciences and Disorders (CSD) is devoted to helping people overcome disabilities of speech, language, and hearing. The study of Communication Sciences and Disorders may begin in the freshman or sophomore year. Students learn about speech, language, and hearing disorders in the classroom and are involved in clinical observation in the on-campus Speech-Language-Hearing Center and can participate in research projects. Students are encouraged to take elective courses in linguistics, human development, learning theory, early childhood, health administration, special education, and various aspects of rehabilitation.

As this is a pre-professional degree, students generally pursue graduate studies in speech-language pathology or audiology at colleges or universities offering graduate programs leading to a master's or doctoral degree and to subsequent certification by the American Speech-Language-Hearing Association (ASHA). Certified clinicians find employment opportunities in hospitals, schools, community speech and hearing clinics, and private practice. Candidates for a degree must satisfy all of the University Discovery Program requirements in addition to satisfying the requirements of the Communication Sciences and Disorders major.

The Department of Communication Sciences and Disorders' **Accelerated Master's** program provides CSD undergraduates with the opportunity to earn graduate credits during their senior year, shorten the length of their graduate studies, and jumpstart their careers. Learn more [here](#)!

## Communication Sciences and Disorders Major (B.S.)

<https://chhs.unh.edu/communication-sciences-disorders/program/bs/communication-sciences-disorders-major>

## Description

The Department of Communication Sciences and Disorders offers a Bachelor of Science degree in communication sciences and disorders. Communication Sciences and Disorders is the profession devoted to assessing and treating disorders, delays, or differences in speech, language, and hearing. In this program, students study how the ability to communicate develops as well as review an array of communication disorders that can affect individuals across the lifespan. Students learn about speech, language, and hearing through a unique model of education, observation, and research. This pre-professional degree will prepare you to successfully enter clinical or research graduate programs in areas such as audiology, speech-language pathology, cognitive science, or education.

## Requirements

### Degree Requirements

**Minimum Credit Requirement:** 128 credits

**Minimum Residency Requirement:** 32 credits must be taken at UNH

**Minimum GPA:** 2.0 required for conferral\*

**Core Curriculum Required:** Discovery & Writing Program Requirements

**Foreign Language Requirement:** No

All Major, Option and Elective Requirements as indicated.

\*Major GPA requirements as indicated.

### Major Requirements

Candidates for a bachelor's degree in Communication Sciences and Disorders must satisfy all departmental as well as UNH Discovery and Writing Intensive requirements.

Students must earn a grade of C or better in all COMM courses.

Code	Title	Credits
<b>Required Courses</b>		
COMM 401	American Sign Language I	4
PSYC 401	Introduction to Psychology	4
PSYC 402	Statistics in Psychology	4
LING 405	Introduction to Linguistics	4
PHYS 409	Investigating Physics	4
COMM 420	Survey of Communication Disorders	4

COMM 741	Speech-Language Pathology I	4
COMM 742	Speech-Language Pathology II	4
<b>Total Credits</b>		<b>84</b>

CSD welcomes transfer students. We are committed to helping you keep to your intended graduation timeline; however, this is dependent upon what courses you have completed before transfer. UNH undergraduates who have not declared a major and/or are interested in transferring into communication sciences and disorders (CSD) should apply directly to the department by completing an internal transfer application. Transfer applications are reviewed on October 15th and March 15th. Acceptance into CSD is dependent upon space and the applicant's academic credentials.

Before applying, it is recommended that you review the degree plan.

Internal Transfer students - [Apply Now](#)

For any questions regarding CSD curriculum please email the department at [csd.department@unh.edu](mailto:csd.department@unh.edu).

**Total Credits 76-84**

## Student Learning Outcomes

- The Communication Sciences and Disorders (CSD) undergraduate curriculum aligns with the American Speech Language Hearing Association (ASHA) standards.
- Students completing required COMM courses will have the foundational knowledge to meet ASHA standards.
- Students completing required COMM courses will have the academic preparation to apply to either SLP or Audiology graduate programs.
- All CSD students will have a capstone experience which will allow them to integrate academic experiences.
- Students will be introduced to evidence-based practice (EBP) as it relates to the professions of speech language pathology and audiology.

## Exercise Science

### Programs

- [Exercise Science Major \(B.S.\)](#) (p. 151)

## Exercise Science Major (B.S.)

<https://chhs.unh.edu/kinesiology/program/bs/exercise-science-major>

### Description

This curriculum prepares students for careers in health and fitness promotion and education programs in hospitals, sports medicine centers, wellness clinics, universities, and rehabilitation facilities. Students are

also prepared for advanced degree programs in the health professions, basic biology fields, medicine, or other health-related fields.

Interested students should consult with the undergraduate major coordinator, [Summer.Cook@unh.edu](mailto:Summer.Cook@unh.edu).

Requirements

Degree Requirements

Minimum Credit Requirement: 128 credits

Minimum Residency Requirement: 32 credits must be taken at UNH

Minimum GPA: 2.0 required for conferral\*

Core Curriculum Required: Discovery & Writing Program Requirements

Foreign Language Requirement: No

All Major, Option and Elective Requirements as indicated.  
\*Major GPA requirements as indicated.

Major Requirements

Students must earn a grade of C (2.0) or better in every required course. Successful completion of early and prerequisite courses is required before advancing to sequenced and higher-level coursework. All required courses must be completed before enrolling in EXSC 650A Internship in Exercise Science.

Code	Title	Credits
BMS 507 & BMS 508	Human Anatomy and Physiology I and Human Anatomy and Physiology II	8
CHEM 403 & CHEM 404	General Chemistry I and General Chemistry II	8
EXSC 520	Contemporary Perspectives in Exercise Science	4
EXSC 620	Physiology of Exercise	4
KIN 652	Clinical Kinesiology	4
EXSC 621	Exercise Laboratory Techniques	4
EXSC 650A	Internship in Exercise Science	4-8
EXSC 704	Electrocardiography	4
EXSC 705	Topics in Applied Physiology	4
EXSC 720	Science and Practice of Strength Training	4
EXSC 722	Applied Biomechanics	4
EXSC 724	Exercise Metabolism: Acute and Chronic Adaptations	4

Students in exercise science complete the series of Capstone courses <sup>1</sup>		
EXSC 736	Fitness and Graded Exercise Testing	4
EXSC 737	Exercise Prescription and Leadership in Healthy and Special Populations	4
EXSC 650A	Internship in Exercise Science	4-8
Total Credits		12-16

<sup>1</sup> These courses give students practical experience in evaluating health and fitness and prescribing exercise to a wide range of clients. Specifically, students assess a number of disease risk factors,

including blood pressure, blood chemistry, and body composition measures, and perform maximal graded exercise tests complete with electrocardiogram monitoring, as well as measure strength and flexibility. Students ultimately develop individualized exercise prescriptions for their clients and work with them one-on-one to improve their health and fitness. The internship experience is an off-campus, 10-week, 40-hours per week, full-time experience and can only be taken after all University and departmental courses are completed. Typically, this is taken during the summer after the student's senior spring academic term.

## Description

The health and physical education (HPE) major provides a foundation for teaching through a four-year program (BS), or the UNH Department of Education fifth-year program leading to a masters of arts in teaching (MAT). Graduates become certified to teach kindergarten through grade 12 (K-12) health and physical education in the state of New Hampshire. This licensure is transferable to all other states in the U.S. Extensive supervised practicum experiences that provide teaching skills, including adaptive physical education programming, offers an excellent foundation for preparing high-quality teachers. The combination of health with physical education and adaptive physical education makes graduates highly marketable.

### Fifth Year Program Admission

Admission to the fifth year program for the Master of Arts in Teaching (MAT) requires a minimum GPA of 3.0. Students admitted to the accelerated masters program (required GPA of 3.2 or greater and completion of 90 credits) are eligible for dual credit at the undergraduate/graduate levels for up to 12 credit hours. This enables undergraduates to begin the masters program in their junior or senior year.

### Transfer Student Admission

Internal UNH undergraduate transfer students must have a minimum GPA of 2.67.

External UNH undergraduate transfer students must have a minimum GPA of 2.75.

For questions about the program, contact the undergraduate program coordinator, Holly Alperin at (603) 862-1211, or [Holly.Alperin@unh.edu](mailto:Holly.Alperin@unh.edu).

## Requirements

### Degree Requirements

**Minimum Credit Requirement:** 128 credits

**Minimum Residency Requirement:** 32 credits must be taken at UNH

**Minimum GPA:** 2.0 required for conferral\*

**Core Curriculum Required:** Discovery & Writing Program Requirements

**Foreign Language Requirement:** No

All Major, Option and Elective Requirements as indicated.

\*Major GPA requirements as indicated.

### Major Requirements

Students must receive a minimum grade of C (2.0) or better in all major-required courses.

#### Teaching Licensure Program Requirements

In order to ensure full admittance to the teaching licensure program, all students are required to pass Praxis Core (Reading, Writing, Math) or equivalent prior to starting Elementary Practicum (HPE 610). Additionally students must earn a minimum grade of B- or better in the following major-required courses, HPE 570, HPE 675, HPE 781, and EDUC 605.

#### Culminating Experience

The coursework for students choosing the four-year or five-year path to teaching certification is exactly the same until the final semester of the undergraduate program. The culminating experience for students

## Student Learning Outcomes

- Apply fundamental principles of anatomy & physiology, chemistry, nutrition, exercise physiology, psychology, math and physics to anticipate and understand physiologic responses to acute and chronic exercise.
- Evaluate empirical literature in terms of accuracy, authority, bias and relevance, and synthesize information from a variety of sources for presentation in written and oral forms.
- Demonstrate competency in health and fitness assessments and use them to prescribe evidence-based exercise interventions to improve health, athletic performance, physical function and quality of life in diverse populations.
- Display professionally appropriate behaviors, ethical standards, sensitivity, compassion, and tolerance of individual differences, and demonstrate the ability to work in an interprofessional healthcare team.

in the four-year teaching program is student teaching (EDUC 694D /HPE 694). Students must maintain a GPA of 2.5 to be eligible to student teach. Students choosing the fifth-year program complete a year-long internship, in lieu of student teaching. Students also have the option of completing a concentration in adapted physical education through additional coursework designed to enhance teaching strategies and the programmatic needs of students with disabilities.

## Student Learning Outcomes

- Apply sound pedagogical practices that enable effective teaching of health education, physical education, and adapted physical education at all levels.
- Create a learning environment that allows each student to feel safe, challenged and valued by embracing the unique strengths each student brings into the classroom and gymnasium.
- Integrate foundational skills and knowledge from health and physical education disciplines that enhance teaching practices in the classroom and gymnasium.
- Design unit and lesson plans within an overall curriculum for health and physical education that supports the development of students' intellectual, physical, social and emotional well-being.
- Design and implement authentic assessments for health and physical education that will enhance and inform student learning.

to facilitate the various activities with young people in a wide-range of environments.

## Interdisciplinary Health Minor

<https://chhs.unh.edu/kinesiology/program/minor/interdisciplinary-health>

### Description

The Interdisciplinary Health Minor prepares future professionals to approach health and well-being through a culturally-responsive and trauma-informed lens across multiple dimensions of wellness. Students gain the knowledge and skills to promote, support, and affect behavior change in ways that positively impacts the health and well-being of individuals and communities. Those who complete this minor have the ability to apply their knowledge and skills in settings such as schools, before/after-school programs, clinical settings, community health centers, fitness centers, and/or corporate settings.

### Requirements

## Lifetime Activity Programming and Leadership Minor

### Description

The minor in Lifetime Activity Programming and Leadership is for students with an interest in working with youth in out-of-school activity settings such as before or after school programs, summer camps, outdoor/adventure settings, etc. The majority of courses will engage students in purposeful movement and will be physically engaging. Each course will have a teaching component that prepares students

## Physical Education Teaching Minor

### Description

The minor in Physical Education Teaching is for students with an interest in pursuing a graduate degree to teach physical education after completing their undergraduate degree at UNH. The coursework and practicum experiences lay the foundation for understanding teaching using best practices in the physical education field. The courses provide a foundation in how to teach physical education along with specific instruction on teaching pupils with disabilities. A combination of activity-based courses and field experiences at a local elementary, middle or high school give students a true sense for what teaching physical education is all about. Upon completion of this minor, students will have the baseline content knowledge and experience to teach physical education if they choose to pursue teaching certification at the graduate school level.

### Requirements

<b>Total Credits</b>		<b>20</b>

## Health Management and Policy (HMP)

Health Management and Policy is an interdisciplinary program providing students with a broad view of healthcare organizational structure and healthcare policy, while developing analytical skills that are integrated within courses and computer laboratories throughout the curriculum. Students are prepared to pursue careers in a wide range of healthcare organizations focusing on the business aspects and public health aspects within healthcare leadership. Graduates work in private practices, long-term care, rehabilitation facilities, hospitals, start-up organizations, urgent care centers, and other

managed care organizations in such areas as finance, information systems, management, marketing, operations, project management, as well as public health departments, community health, community-based and home-health agencies, mental health facilities, regulatory bodies, consulting companies, and insurance companies.

The department's undergraduate program maintains full certification by the Association of University Programs in Health Administration (AUPHA). Students have the opportunity to become student members in the Medical Group Management Association (MGMA), American College of Healthcare Executives (ACHE), the Health Care Financial Management Association (HFMA), the American Public Health Association (APHA), and the New Hampshire Public Health Association (NHPHA) to establish a professional network and be informed on current issues within the field. The Health Management and Policy curriculum is approved under the New England Commission of Higher Education (NECHE).

Health Management and Policy Major (B.S.)

<https://chhs.unh.edu/health-management-policy/program/bs/health-management-policy>

Description

The Health Management and Policy (HMP) curriculum includes a variety of healthcare courses, including finance, management, data, and policy courses. Students complete a core of introductory courses prior to their junior year in the HMP major. Upper-division (junior and senior) HMP courses are planned in a two-year sequence, (see course sequence) and includes a 400-hour summer internship. Along with required major courses, students will be guided to complete the University requirements, for writing intensive courses and Discovery courses, to obtain the minimally required 128 credits to graduate. A professional academic advisor and faculty are available to assist with academic and career plans. This degree prepares students to be healthcare leaders in areas, including, but not limited to: consultant, epidemiologist, healthcare administrator, healthcare analyst, human resources, healthcare sales, lawyer, marketer, practice manager, and researcher.

It is important to note that internal or external transfer students may require an extra year due to the prescribed course sequence.

Requirements

Degree Requirements

**Minimum Credit Requirement:** 128 credits

**Minimum Residency Requirement:** 32 credits must be taken at UNH

**Minimum GPA:** 2.0 required for conferral\*

**Core Curriculum Required:** Discovery & Writing Program Requirements

<sup>1</sup> AP Statistics does not meet the statistics requirement.

<sup>2</sup> HMP 798H is taken for two credits Fall of senior year, if selected for Honors in Major.

<sup>3</sup> HMP 799H is taken for four credits Spring of senior year, if completing the Honors in Major thesis.

## Field Practicum

HMP 622 Field Practicum in Organizational and Project Analysis, and Management Skills Development is the required 400 hour 10-week field practicum, (or administrative internship), which constitutes an essential part of the HMP academic program. The field practicum occurs during the summer between junior and senior year, typically beginning in late May and ending in late August, requiring a full-time commitment of the student. Students must be an HMP major, in good academic standing in the major, and must retain a cumulative GPA of 3.00 or higher to be granted permission to enroll in the course.

This experience allows students to explore an area of special interest in depth that integrates class work with a supervised field experience. Given sufficient timing of student requests, efforts will be made to arrange practica at distant sites based on special needs. Field practicum sites are selected with student involvement. Typical sites are often concentrated in central and Northern New England, but the experience could also be elsewhere, including abroad.

## Academic Requirements

HMP majors must obtain a minimum of a B- in all HMP required courses and prerequisite courses. Majors must have an overall grade-point average of 3.00 to remain in the major. Students not continuing to make progress in the major, as evidenced by a low grades (below B-), incomplete courses, and/or administrative failures resulting in a cumulative GPA lower than 3.0 may, upon determination by the Health Management and Policy faculty, be excluded from the major and participation in the Field Practicum. An exclusion from the major may also be necessary to resolve questions concerning major departmental requirements or University academic standards.

The academic action of *exclusion* could be a temporary action. Consideration for a temporary action requires that a petition is completed by the student detailing the *extenuating* circumstances and providing supportive documentation to the Health Management and Policy Department for review by faculty with a determination of approval. Should a petition be granted *approval to remain in the major* due to extenuating circumstances, the student must demonstrate academic progress (B- in HMP courses and 3.0 GPA) the following semester or they will be excluded from the major without the option to return. If the petition is not determined approved by the faculty, students will be required to change their major.

## Internal Applications for HMP Major

Students interested in additional information or in applying for admission to the health management and policy major should attend an HMP information session, and/or contact the academic department coordinator. Efforts should be made to complete this process during the freshman year or early in the sophomore year to ensure sufficient time to complete the required courses, HMP 401, HMP 403, HMP 501, MATH 420, ENGL 502, and Statistics. Admitted UNH students can apply to the major once the student meets the application requirements, a minimum cumulative GPA of 3.00 and at least two of the required courses completed with a B- or higher; however all HMP required courses must be completed with a B- or better to progress in the major.

## Honors in Major

The department offers an honors-in-major program. Students must meet the department's requirement of having an overall 3.7 grade-point average at UNH and a 3.7 grade-point average for required HMP courses taken by the end of the spring semester sophomore year to be invited to Honors-in-Major. Honors-in-major students take a total of three honors designated major courses during the junior year and senior year, as well as completing an honors thesis project during the senior year, HMP 798H and HMP 799H. Students work on the honors thesis with a faculty member within the HMP department who has knowledge in the specific topic. Students should contact the academic department coordinator for further information.

## Student Learning Outcomes

- The complexity of the health care delivery system, quality of care, and it relates to population health as well as the complexity of financing of the US healthcare delivery model.
- Analyze complex management situations, data and apply (appropriate) health management concepts, theories and models to develop recommendations, working within a team environment.
- Ability to describe and discuss the role of Human resource functions and the laws governing, the difference between management and leadership, organizational structures, mergers, acquisitions and affiliations and the role of governmental laws and regulations.
- Identify and prioritize organizational needs and market imperatives in design and development of business plans for health Programs and services in a variety of management settings to compile, present and discuss data and its limitations related to specific managerial problems and ethics for organizational decision making based on regulations and principles that govern the domains and the role of management and leadership.
- Use pf computer analysis tools for calculating, aggregating, presenting and discussing data and its analysis.
- Understand the importance of a Mission and Vision statements and Identification and involvement of stakeholders, recognizing political and legal implications of actions and decisions.
- Describe and generally assess key concepts and elements of health information systems selection and implementation of health care systems and regulatory requirements related to clinical and financial systems, and the role in HIT/HIM as it relates to cost, quality and access.

- Application of economic theory and current mechanisms for advanced financial knowledge to decision making and strategic thinking skills, ability to identify and target market segment and defined appropriate intervals to measure. the time value of money, long-term debt, stocks and equity, and evaluation of capital projects.
- Communicate information, ideas and information effectively in a written and oral format using appropriate professional conventions.

## Health Management Minor

<https://chhs.unh.edu/health-management-policy/program/minor/health-management>

### Description

The department of Health Management and Policy (HMP) offers an integrated minor in health management, designed for students in majors outside of Health Management and Policy who are interested in learning about the business leadership aspects of healthcare. Students seeking to minor in health management should meet with the academic department coordinator to discuss the requirements.

### Requirements

All courses must be completed with a C- or higher to be counted toward the minor.

The health management minor includes the following courses:

Code	Title	Credits
<b>Required Courses</b>		
HMP 401	United States Health Care Systems	4
HMP 501	Epidemiology and Community Medicine	4
Courses above must be taken before completing 600 and 700 level courses.		
HMP 721	Managing Health Care Organizations	4
<b>Select Two of the Following:</b> <sup>1</sup>		
HMP 642	Health Economics	4
HMP 669	Human Behavior and the Public Health	4
HMP 703	Translation of Health Data	4
HMP 711	Introduction to Healthcare Operations Analytics	4
HMP 712	Healthcare Operations Management	4
HMP 722	Health Care Management II <sup>1</sup>	4
HMP 724	Long-Term Care Management	4
HMP 740	Health Care Financial Management	4
HMP 741	Health Care Financial Management II <sup>1</sup>	4
HMP 744	Law and Ethics in Healthcare	4

<sup>1</sup> Prerequisite courses must be completed for all HMP courses.

## Public Health Minor

<https://chhs.unh.edu/health-management-policy/program/minor/public-health>

### Description

The department of Health Management and Policy offers a minor in public health. Public health deals with the health of populations and focuses on health promotion and disease prevention, as well as access to the medical system. The minor introduces students to many of the foundation areas of public health and provides basic exposure to

key concepts and skills in the five core disciplines of public health, as articulated by the Council on Education for Public Health. The minor is open to baccalaureate students outside of the Health Management and Policy major at UNH. Students interested in this field may decide to continue their education with the Master of Public Health (MPH), which is also offered through the Department of Health Management and Policy.

## Requirements

The public health minor includes the following courses:

Code	Title	Credits
<b>Required Courses</b>		
HMP 403	Introduction to Public Health	4
HMP 501	Epidemiology and Community Medicine	4
HMP 669	Human Behavior and the Public Health	4
HMP 715	Environmental Health	4
<b>Select one of the following:</b> <sup>1</sup>		
HMP 703	Translation of Health Data	4
HMP 746	Health Policy	4
HDFS 586	Families at Risk	4
HPE 702	Health Content and Youth Risk Behavior	4
OT 513	Stressed Out: The Science and Nature of Human Stress	4
RMP 490	Recreation & Tourism in Society	4
SW 525	Social Welfare Policy: History of Social and Economic Justice	4

<sup>1</sup> All prerequisite courses must be met for any listed courses.

<sup>2</sup> Other courses could be considered by submission of an academic petition.

## Health Sciences

- [Health Sciences Major \(B.S.\)](#) (p. 159)

## Health Sciences Major (B.S.)

<https://chhs.unh.edu/kinesiology/program/bs/health-sciences-major>

## Description

The Health Sciences program is for those students who are concerned with the health and well-being of others, possess a strong science aptitude, and plan to pursue a career in healthcare. As healthcare has evolved in the U.S., degree programs in the allied health professions (physical therapy, physician assistant, etc.) have moved to post-baccalaureate education. Individuals with career interests in allied health professions must first attain prerequisite knowledge to be prepared to study in these advanced degree programs. This rigorous academic program provides the foundational life science coursework and advanced elective course offerings to prepare students for graduate programs in the allied health sciences.

Admission to graduate study in medical or allied health professions is very competitive and requires applicants to demonstrate exemplary academic performance for admission.

## Requirements

## Degree Requirements

**Minimum Credit Requirement:** 128 credits

**Minimum Residency Requirement:** 32 credits must be taken at UNH

**Minimum GPA:** 2.0 required for conferral\*

**Core Curriculum Required:** Discovery & Writing Program Requirements

**Foreign Language Requirement:** No

All Major, Option and Elective Requirements as indicated.

\*Major GPA requirements as indicated.

## Major Requirements

Students are required to have earned a minimum, cumulative, GPA of 2.85 by the end of their Sophomore/2nd Year in the Health Sciences Major. Students are also required to achieve a C- or better in all required courses in the major. Students with a GPA below 2.85 will be excluded (removed) from the Health Sciences Major.

Core courses required of all Health Sciences concentrations are:

Code	Title	Credits
BIOL 411	Introductory Biology: Molecular and Cellular	4
BIOL 412	Introductory Biology: Evolution, Biodiversity and Ecology	4
BMS 507	Human Anatomy and Physiology I	4
BMS 508	Human Anatomy and Physiology II	4
CHEM 403	General Chemistry I	4
CHEM 404	General Chemistry II	4
HS 501	Medical Terminology	2
HS 605	Exploration of Allied Health Professions	2
HS 656	Musculoskeletal Pathologies for Health Professions	4
HS 657	Musculoskeletal Pathologies for Health Professions Lab	1
HS 717	Cultural Considerations in Health Care	4
HS 767	Pharmacology for Health Professions	4
EXSC 620	Physiology of Exercise	4
KIN 585	Emergency Medical Responder	4
KIN 652	Clinical Kinesiology	4
NUTR 400	Nutrition in Health and Well Being	4
PHYS 401	Introduction to Physics I	4
PHYS 402	Introduction to Physics II	4
PSYC 401	Introduction to Psychology	4
PSYC 402	Statistics in Psychology <sup>1</sup>	4
or SOC 402	Statistics	
or HHS 540	Statistics for Health and Human Service Professionals	

<sup>1</sup> Any UNH statistics course satisfies the requirement with adviser approval.

### Required University Courses

Candidates for a degree must satisfy all of the University Discovery requirements in addition to satisfying the requirements of the Health Sciences curriculum and any pre-requisite coursework needed to apply to the graduate programs they plan to pursue.

### Recommended Electives

A student's plan of elective courses should align with post-baccalaureate pursuits, and be approved by a Health Sciences advisor.

Recommended electives for future health professionals that are external to the Health Sciences courses may include course work in Communication Sciences & Disorders, Human Development & Family Studies, Health & Human Services, Health Management & Policy, Kinesiology, Nursing, Occupational Therapy, Recreation Management & Policy, Social Work, and other coursework in the life sciences and health and human services.

Code	Title	Credits
BMCB 658/659W	General Biochemistry	3
BMS 503/504	General Microbiology	3
CHEM 545/546	Organic Chemistry	3
GEN 604	Principles of Genetics	4
KIN 684/685	Emergency Medical Care: Emergency Medical Technician (EMT)	3
HS 696W	Independent Study	2-4
HS 770	General Medical Conditions for Health Professions	4
KIN 706	Neurology	4
PSYC 561	Abnormal Behavior	4
PSYC 581	Child Development	4

## Degree Plan

Course	Title	Credits
<b>First Year</b>

Credits		12
Total Credits		125

## Student Learning Outcomes

- Demonstrate understanding of core principles of biology, chemistry, physics, anatomy and physiology, psychology, and kinesiology.
- Demonstrate comprehension of musculoskeletal evaluation and assessment techniques.
- Demonstrate responsiveness to cultural considerations in healthcare. a.) Understand influence of age, race, ethnicity, gender, sexual orientation, spirituality, socioeconomic status, and other aspects of diversity on individual healthcare needs and health-related quality of life.
- Demonstrate an understanding of scientific research and writing. a.) Ability to identify and analyze scholarly literature. b.) Ability to synthesize and articulate research findings through writing.
- Demonstrate knowledge of behaviors, scopes of practice, and legal and ethical standards for health professions.
- Understand concepts of evidence-based practice and patient-centered care for health professions.

## Human Development and Family Studies (HDFS)

As a human development and family studies major at UNH, you'll learn to promote the health and well-being of children, adults, and families through research, teaching and service. The program curriculum embraces diversity and emphasizes service excellence and innovation,

preparing you for a variety of in-demand careers in education, social services, and healthcare. Three separate concentrations allow students to focus on early childhood development and education, family support or lifespan development.

As a major public research university, UNH emphasizes hands-on experience and research opportunities. Students in the human development and family studies program have multiple opportunities to put theory into practice through the Child Study and Development Center, Family Connections Center and Marriage and Family Therapy Center. Students in the Child Development Concentration may apply to the Early Childhood Education Teaching Preparation Program, while students in the Family Support Concentration are encouraged to pursue provisional status as a Certified Family Life Educator, preparing them to work in areas such as social services, health services, family support, and youth program.

### **Human Development and Family Studies offer three areas of concentration**

- **Family Support** - for students interested in working with children, adolescents, adults, and families
- **Lifespan Development** - for students with a broad interest in working with families
- **Child Development** - for students who have a broad interest in working with children ranging in age from birth to age eight.

### **Two optional full-year internship opportunities**

Students can apply for either internship during their junior year

- **Early Childhood Education** teacher preparation (ECE) internship
- **Family Support** concentration offers an internship working in fields involving family, gender and cultural differences. This internships can also be taken by Lifespan Development students

### **Three Minors**

The Human Development and Family Studies department offers three complementary undergraduate minors: Human Development and Family Studies, Adolescent and Youth Development, and Child Life. An undergraduate minor allows students to demonstrate a special area of interest, focus, or expertise and supports their academic major and future educational and career goals. Each HDFS minor highlights key aspects of individual and family development.

The Human Development and Family Studies minor is only available to non-HDFS majors; however, HDFS majors may choose to minor in Adolescent and Youth Development or Child Life. A completed minor at UNH typically consists of 20 credits, or 5 classes, completed with a C or better.

- **Child Life**
- **Adolescent and Youth Development**
- **Human Development and Family Studies**

Human Development and Family Studies The Child Life minor may also be taken by HDFS students interested in working with families and children in a hospital setting

<https://chhs.unh.edu/hdfs/>

## **Programs**

- [Human Development and Family Studies Major \(B.S.\)](#) (p. 161)
- [Adolescent and Youth Development Minor](#) (p. 164)
- [Child Life Minor](#) (p. 165)
- [Human Development and Family Studies Minor](#) (p. 165)

## **Faculty**

<https://chhs.unh.edu/directory/all>

## **Human Development and Family Studies Major (B.S.)**

<https://chhs.unh.edu/human-development-family-studies/program/bs/human-development-family-studies-major>

## **Description**

Human Development and Family Studies (HDFS) is an academic discipline focused on understanding the development of individuals and families over time and across the ecological contexts in which they live. HDFS is an applied field of study and a versatile undergraduate major for students interested in working to enhance the lives of individuals and families through in-demand careers in settings that include early childhood education, schools, hospitals, and social service agencies. The HDFS curriculum offers students the opportunity to take courses from child and adolescent development to adult development and aging; family, parenting, and interpersonal relationships; classroom curriculum, observation, and assessment; and family programming, policy, and law. Courses in the HDFS major emphasize diverse experiences across age, gender, race and ethnicity, nationality, and socioeconomic status and prepare students for inclusive programming and practice.

HDFS majors choose between three concentrations: [Child Development](#) (p. 162), [Family Support](#) (p. 162), and [Lifespan Development](#) (p. 163). There is some overlap in coursework and career opportunities across the three concentrations, but each offers unique areas of emphasis.

As a major public research university, UNH emphasizes hands-on experience and research opportunities for undergraduate students. Students in the Human Development and Family Studies program are provided with opportunities to put theory and research into practice through practicum and internship courses in the Child Study and Development Center, Family Connections Center, and many schools and community-based organizations across the Seacoast region of New Hampshire. Students in the Child Development concentration who complete the Early Childhood Education Teacher Preparation Program will be prepared for certification to teach children from Preschool through 3rd Grade. Family Support students who complete the Family Internship Program will be eligible to pursue provisional status as a Certified Family Life Educator (CFLE) at graduation.

### **HDFS Undergraduate Concentrations:**

- [Child Development](#) (p. 162) focuses on infancy through childhood with an emphasis on learning, education, and developmentally-appropriate practices and activities.

- Family Support (p. 162) focuses on development within the context of families, close relationships, and communities.
- Lifespan Development (p. 163) focuses on understanding and supporting development across the entire lifespan.

### Internship Opportunities

Internships are not required for students to complete their degree in HDFS; however there are exciting opportunities to gain hands on experience. Students who want to take part in an internship apply during their junior year for an internship experience that spans their full senior year. An Early Childhood Education (ECE) Teacher Preparation internship is available for qualified students within the Child Development concentration. The Family Support and Lifespan concentrations offer an internship that introduces high-performing students to careers in human services, advocacy, and policy through placements in the Seacoast Region of New Hampshire.

## CHILD DEVELOPMENT CONCENTRATION

The Child Development concentration is intended for students who have a broad interest in working with children ranging in age from birth to age eight. The concentration has four major foci: child development, teaching methodology and curriculum development, developmentally appropriate learning environments for young children, and home-school-community relations. This concentration prepares undergraduates for careers in early childhood education and related fields requiring in depth knowledge of early development and early childhood programs. Students in the Child Development concentration may apply to the Early Childhood Education (ECE) Teacher Preparation Program during their junior year.

### Child Development: Early Childhood Education (ECE) Teacher Preparation Program

The Early Childhood Education (ECE) Teacher Preparation program prepares students for a career in teaching young children. Course work for this program is designed to maximize in-classroom mentorship and to provide a broad range of exposure across the pre-kindergarten to 3rd-grade levels. This program within the Child Development concentration of the Human Development and Family Studies Department is approved by the New Hampshire State Board of Education. Juniors in the Child Development concentration who have maintained a minimum overall GPA of 3.2 and a departmental GPA of 3.2 are eligible to apply. Please note that this is a competitive program with limited enrollment. Those accepted into the program must maintain this level of academic achievement throughout the program. Students must be prepared to have their own transportation for off-campus internship placements as needed.

### State Teacher Certification

Although students may graduate from UNH with a bachelor's degree in Human Development and Family Studies, having completed the ECE coursework along with all student teaching requirements, they will not be eligible to apply for the New Hampshire State Teaching Certification without the required set of passing test scores. This is a state of New Hampshire requirement; not a condition for graduation from UNH. In order to fulfill a teaching contract with a public-school district, a prospective teacher must be certified by the state in which he/she is to be employed.

### Early Childhood Education (ECE) Internship Course Descriptions

The ECE Internship course (HDFS 785 Seminar for Student Teachers) is a fall semester seminar-based course intended to prepare students, as

teacher candidates, for the student teaching experience that takes place in the spring semester. This course emphasizes students' continued development as learners, researchers, and collaborators. Discussions and projects focus on the ways in which these three roles are developed within the classroom and school community. Students meet as a cohort in weekly/bi-weekly seminars on campus. Students should expect to spend a minimum of five hours per week in their assigned classroom (60+ hours). Other expectations for this course include but are not limited to: preparing a resume, observing at other sites, attending professional conferences, starting a professional portfolio to document their achievement of professional teaching standards, and completing additional assignments and readings.

HDFS 786 Seminar for Student Teachers and HDFS 788 Student Teaching Young Children: provide the student teaching experience in the spring semester of the senior year. Students should expect to spend a minimum of twenty-five hours per week (a minimum of 325+ hours total) in their assigned classrooms, gradually assuming increasing teaching responsibilities, culminating in the assumption of two to three lead-teaching weeks. Additional hours outside of actual classroom/program operation hours are expected for meeting and planning with cooperating teachers, preparing for teaching, and attending parent conferences and other school functions, as well as attending professional conferences. Seminars provide continued opportunity for reflection on students' development as teacher candidates, reflecting on classroom practices, identifying teaching strengths and weaknesses, and planning their first professional appointment as teachers of young learners. Students should be prepared to meet weekly after school hours and to complete and present their professional portfolio to faculty and related professionals in the field.

## FAMILY SUPPORT CONCENTRATION

The Family Support concentration focuses on individuals, couples, and families within their social and cultural contexts. Students in this concentration develop knowledge and skills that prepare them to work with individuals and families as they support healthy development and well-being in schools, social service agencies, and non-profit organizations.

Students in this concentration can apply for the status of Provisional Certified Family Life Educator (CFLE) through the National Council on Family Relations (NCFR). Because our HDFS program is a CFLE-approved undergraduate academic program through NCFR, our students can become certified simply by demonstrating the completion of our curriculum along with completion of our full-year, senior internship.

### Family Internship

Students who plan to apply for Provisional CFLE certification are required to complete the Family Internship, in which students apply knowledge gained from their academic studies in a supervised environment. Students who do not plan to become CFLEs may also choose to complete the Family Internship. The internship involves a commitment of sixteen hours per week for two semesters, in addition to a three-hour seminar (HDFS 792 Family Internship Seminar) every other week. Students apply for the internship by March 1st of their junior year. Internship applicants must have completed a minimum of twenty credits of departmental coursework prior to their senior year with a minimum departmental GPA of 3.0.

### Certified Family Life Educator

Students in the Family Support concentration who are accepted to the Family Internship are encouraged to apply for provisional status as a Certified Family Life Educator (CFLE). Family life educators work in a variety of settings including social services, health services, child care, family support, youth programs, parent education, junior and senior high schools, and universities and colleges. The CFLE certification demonstrates expertise in a broad range of topics and increases professional credibility by validating students' education and experience. The National Council on Family Relations (NCFR) has approved the Department of Human Development and Family Studies' Family Support concentration as meeting the standards and criteria required for CFLE certification. Students may apply to NCFR for provisional CFLE designation upon completion of required coursework (see marked courses in the table below.) Upon meeting additional requirements listed on the NCFR website, students can apply for full certification after graduation.

## LIFESPAN DEVELOPMENT CONCENTRATION

The Lifespan Development concentration focuses on learning about developmental tasks and developmentally-appropriate practices across the entire lifespan. Students in this concentration take courses in each of the developmental periods: childhood, adolescence, and adulthood. Students also gain expertise related to the social contexts impacting development, such as families and communities. Emphasis is placed on the impact of system dynamics, family systems, gender, and cultural differences on development. Students in the Lifespan Development concentration may also apply to take part in the [Family Internship program](#) during their senior year.

## Requirements

### Degree Requirements

**Minimum Credit Requirement:** 128 credits

**Minimum Residency Requirement:** 32 credits must be taken at UNH

**Minimum GPA:** 2.0 required for conferral\*

**Core Curriculum Required:** Discovery & Writing Program Requirements

**Foreign Language Requirement:** No

All Major, Option and Elective Requirements as indicated.

\*Major GPA requirements as indicated.

### Major Requirements

The core curriculum required of each Human Development and Family Studies student is designed to give a broad introduction to individual and family development and interpersonal relationships across the lifespan. Building off this curriculum, each student will select an area of concentration in Child Development, Family Support, or Lifespan Development that will guide further required coursework. With assistance from faculty advisors, students also choose supporting courses that allow them an individualized component to the major, tailored to their specific interests and career objectives. Lastly, the senior year culminates in the required capstone experience and optional internship opportunity.

Candidates for the Human Development and Family Studies degree must satisfy all of the [University Discovery requirements](#) in addition to satisfying the requirements of their HDFS concentration.

## Core Curriculum

Code	Title	Credits
HDFS 525	Human Development	4
HDFS 545	Intimate Relationships and Families	4
HDFS 555	Research Methods in HDFS	4
Selected Concentration (Requirements listed below)		24
Capstone experience (Requirement listed by concentration below)		4
Supporting Courses (applies to all concentrations) <sup>1</sup>		20

<sup>1</sup> Supporting courses are intended to provide an individualized component to the HDFS curriculum. Because HDFS is interdisciplinary, this allows students to explore related areas that contribute to their academic and professional goals. Students must complete at least 8 additional HDFS credits of (this can include internships) as supporting coursework. The remaining 12 credits of supporting coursework can include additional courses within HDFS or outside of HDFS as long as those taken outside of HDFS:

1. At the 500-level or above
2. Approved by an HDFS advisor

Classes outside of HDFS meeting supporting course criteria are often found in the psychology, sociology, social work, women's studies, education, and communication sciences and disorders departments.

2 Approved by an HDFS advisor

Classes outside of HDFS meeting supporting course criteria are often found in the psychology, sociology, social work, women's studies, education, and communication sciences and disorders departments.

Student Learning Outcomes

- Use theoretical frameworks and empirical research to understand and explain child/lifespan development, family process and the interaction of individuals and families with society.
- Recognize and respect a diversity of family forms and processes. Understand how human development and family interactions are shaped by diverse personal contexts and cultures. Understand and be aware of one's own biases, beliefs, and values.
- Understand ethical decision-making processes, and ethical standards and principles relevant to our discipline. Positively represent the profession in academic, professional and community settings.

Adolescent and Youth Development Minor

<https://chhs.unh.edu/recreation-management-policy/program/minor/adolescent-youth-development>

Description

The departments of Recreation Management and Policy and Human Development and Family Studies offer an interdisciplinary minor designed to give students an opportunity to develop knowledge and skills regarding adolescence and youth development. The two required courses offer a foundation in theory, research, and practice, and students choose

three additional courses in order to better prepare students to work with this age group.

For more information contact [Dr. Cindy Hartman](mailto:cindy.hartman@unh.edu) ([cindy.hartman@unh.edu](mailto:cindy.hartman@unh.edu)) in Recreation Management and Policy or [Sahitya Maiya](mailto:sahitya.maiya@unh.edu) ([sahitya.maiya@unh.edu](mailto:sahitya.maiya@unh.edu)) in Human Development and Family Studies.

## Requirements

The Adolescent and Youth Development minor requires students to complete 20 credits.

Code	Title	Credits
<b>Required Courses</b>		
RMP 668	Youth Culture and Programs	4
HDFS 624	Developmental Perspectives on Adolescence and Early Adulthood	4
<b>Select three courses from the below, approved by a minor advisor.</b>		<b>12</b>
EDUC 556	Peer to Peer Mentoring for Students with Disabilities	2
HDFS 444A	Youth Facing Adversity	4
HDFS 707	Practicum	1-6
HDFS 776	Children, Adolescents and the Law	4
RMP 563	Recreation Management and Policy Practicum	2
RMP 560	Recreational Sport Management	4
SOC 525	Juvenile Crime and Delinquency	4
CMN 714	Youth and Media	4
SML 565	Principles of Coaching	4
SW 705	Child and Adolescent Risks and Resiliency: Program, Policy and Practice	4
Other adolescent or youth-based courses as approved by minor coordinator.		

- RMP majors may use RMP 668 Youth Culture and Programs to meet both major and minor requirements.
- The Adolescent and Youth Development Minor follows UNH's policy on minors. Following University policy, students must complete 20 semester hours with a grade of C- or better and a 2.00 grade point average.
- No more than 8 credits used by a student to satisfy major requirements may be used for the minor.
- Students must submit a *Certification of Completion of Minor form* during their final semester to one of the Minor Coordinators: [Dr. Cindy Hartman](mailto:cindy.hartman@unh.edu) ([cindy.hartman@unh.edu](mailto:cindy.hartman@unh.edu)) in RMP or [Sahitya Maiya](mailto:sahitya.maiya@unh.edu) ([sahitya.maiya@unh.edu](mailto:sahitya.maiya@unh.edu)) in HDFS.

## Child Life Minor

<https://chhs.unh.edu/human-development-family-studies/program/minor/child-life>

### Description

The department of Human Development and Family Studies offers a minor in Child Life. The minor introduces undergraduate students to the Child Life profession, which works with children, adolescents, and families facing challenges associated with hospitalization, medical procedures, illness, and disability. You will gain insight on how to support children and their families to effectively cope with the stress and anxiety of hospitalization using developmental play and normalized activities in their environment.

For students who wish to go on to become Child Life Specialists, the full list of UNH approved courses by the Association of Child Life

Professionals can be found under HDFS Undergraduate Forms. [Click here to read more about ACLE certification.](#)

The Child Life minor may also be taken by HDFS students.

## Requirements

Code	Title	Credits
<b>Required Courses</b>		
HDFS 565	Introduction to Child Life <sup>2</sup>	4
or SW 565	Introduction to Child Life	
HDFS 623	Developmental Perspectives on Infancy and Early Childhood <sup>3</sup>	4
<b>Select three courses from the following:</b>		<b>12</b>
HDFS 590	Learning Through Play	
HDFS 624	Developmental Perspectives on Adolescence and Early Adulthood	
HDFS 635	Teaching and Learning in Early Childhood Settings	
HDFS 641	Parenting Across the Life Span <sup>2</sup>	
HDFS 697	Special Topics (Child Life Design and Programing) <sup>2</sup>	
HDFS 684	Curriculum for Young Children	
HDFS 707	Practicum <sup>1</sup>	
HDFS 709	Child Development Internship <sup>2</sup>	
NURS 535	Death and Dying <sup>2</sup>	

<sup>1</sup> Internship under the supervision of a CCLS. Contingent on approval from instructor and securing an internship site.

<sup>2</sup> Approved Child Life Certification course. These courses meet the Association of Child Life Professionals requirements to sit for the Exam. Note: Course work is only part of the ACLP requirements. Please visit the [ACLP Site by clicking here](#) for complete information.

## Human Development and Family Studies Minor

<https://chhs.unh.edu/human-development-family-studies/program/minor/human-development-family-studies>

### Description

The Human Development and Family Studies minor complements undergraduate majors in the social sciences, health professions, and related disciplines by providing students with the opportunity to learn about individual and family development, interpersonal relationships, and the ecological contexts of development.

## Requirements

Code	Title	Credits
HDFS 525	Human Development	4
HDFS 545	Intimate Relationships and Families	4
<b>Any three additional HDFS courses</b>		<b>12</b>
<b>Total Credits</b>		<b>20</b>

Individual course grades must be C- or above, and the overall grade-point average for the 20 human development and family studies credits must be at least 2.0.

## Kinesiology (KIN)

The mission of the Department of Kinesiology is to create, share, and apply knowledge in the promotion of health, physical activity, sport, and well-being. We achieve this through high quality teaching and

mentoring of our students, conducting scholarly activity, and engaging in community outreach. Our programs purposefully blend theory, research, and practice to support the professional needs of our students in all stages of their careers.

The department offers four areas of study for majors: exercise science, health and physical education, health sciences and sport management and leadership. Candidates for degree requirements in any of the department majors must satisfy all University Discovery Program requirements in addition to satisfying specific program requirements.

## Faculty

<https://chhs.unh.edu/kinesiology/faculty-staff-directory>

## Kinesiology Minor

<https://chhs.unh.edu/kinesiology/program/minor/kinesiology>

## Description

The Department of Kinesiology offers an interdisciplinary curriculum for nonmajors, which is designed to provide students with the basic knowledge of human movement and sport sciences. The minor consists of courses offered by several options within the department.

## Requirements

### Minor Requirements

Complete a minimum of 20 credits approved by the department minor advisor.

Credits towards the minor come from courses in EXSC, HPE, HS, KIN, and/or SML.

No more than 6 of the 20 credits may be in activity or coaching courses.

Must have a C- (or better) in all graded courses. Pass/Fail option may NOT be used. Courses designated Credit/Fail MAY be used.

No more than 8 credits may satisfy BOTH major and minor requirements.

**Please note:** The designation of the completed minor will be "Kinesiology" which means students may create an emphasis in a particular area (i.e. Exercise Science, Health Sciences, Health and Physical Education, Sport Management and Leadership) or take classes from multiple areas in Kinesiology. For other minors in the Kinesiology

area, please see here (<https://chhs.unh.edu/kinesiology/program/minor/kinesiology>).

## Nursing (NURS)

The undergraduate nursing program is nationally accredited by the Commission on Collegiate Nursing Education

Students in the College's Department of Nursing learn about relationship-based care, reflective thinking and clinical decision making while following guidelines for developing safe, quality clinical skills. Nursing students learn from faculty who serve as facilitators and mentors within a supportive, scholarly environment, and as graduates become part of the workforce that will help shape the future of healthcare.

<https://chhs.unh.edu/nursing>

## Faculty

<https://chhs.unh.edu/directory/all>

## Nursing Major (B.S.)

<https://chhs.unh.edu/nursing/program/bs/nursing-major>

## Description

The nursing program faculty believe learning is a creative process wherein students are active participants in their education, growth, and development as professional nurses. Faculty members are facilitators and mentors to students within a supportive, scholarly environment.

The curricula are divided into biological, social sciences, and humanities as a foundation for courses in the major, and nursing courses, which emphasize relationship-based care, reflective thinking, clinical decision making, and the application of evidence-based guidelines to develop quality and safe clinical skills. Clinical experiences are offered in area health facilities, community health agencies, and a state-of-the-art simulation laboratory. The senior year culminates in a capstone practicum in which students apply curricular concepts in a precepted clinical experience.

A grade of C or better in high school chemistry is required, as well as biology or physics.

Students are responsible for their own transportation to clinical agencies, uniforms, professional equipment, health insurance coverage, yearly criminal background checks, drug screening, fingerprinting, yearly health assessment, and select immunizations and titers. Students must maintain certification in cardiopulmonary resuscitation at the American Heart Association Basic Life Support for Healthcare Professionals level. All clinical documents must be received by July 1st before the sophomore year, except flu vaccine, which is due by October 15th, and remain up to date until graduation. Clinical documents cannot expire during the academic year; documents that must be submitted yearly must be dated between May 1 and June 30. Students will be assessed a late fee if clinical documents are not received by the due date. Students will be

dropped from nursing courses if documentation is not received by the first day of class. Additional costs associated with the program include, but are not limited to, simulation laboratory fees, fees associated with program requirements, and attendance at professional meetings.

## Honors-in-Major Program

The Honors-in-Major Program is offered to interested junior nursing students who achieve the required minimum cumulative GPA and minimum GPA in NURS courses at the end of the sophomore year in nursing and/or junior nursing students who are members of the University Honors Program. See Requirements tab for courses and more information.

## Requirements

### Degree Requirements

**Minimum Credit Requirement:** 128 credits

**Minimum Residency Requirement:** 32 credits must be taken at UNH

**Minimum GPA:** 2.0 required for conferral\*

**Core Curriculum Required:** Discovery & Writing Program Requirements

**Foreign Language Requirement:** No

All Major, Option and Elective Requirements as indicated.

\*Major GPA requirements as indicated.

### Major Requirements

Candidates for the nursing degree must satisfy all of the University Discovery Program requirements in addition to satisfying major requirements. Discovery courses listed below require a C or better in the major.

Prerequisite courses require grades of C or better and only one prerequisite course may be repeated one time in order to progress. Most of the prerequisite courses also meet Discovery requirements. Major courses require a minimum grade of C. Nursing courses may not be repeated. A cumulative grade-point average of 2.5 must be maintained throughout the program.

A course in statistics (HHS 540, PSYC 402, SOC 402, MATH 439) must be completed prior to, or taken concurrent with, nursing research. The statistics course requires a C or better in the major.

**Clinical Hours:** 814\*

Code	Title	Credits

NURS 516C, NURS 517C, NURS 611C, NURS 612C, NURS 616C,  
NURS 621C, NURS 702C, NURS 721C.

## Honors-in-Major Program

The Honors-in-Major Program is offered to interested junior nursing students who achieve a minimum grade-point average of 3.75 in NURS courses and cumulative GPA of 3.4 at the end of the sophomore year in nursing and/or junior nursing students who are members of the University Honors Program. A total of 18 credits taken at the honors level is required for the Honors-in-Major Program. Orientation to the Honors-in-Major Program is held at the beginning of the junior nursing year. Students must successfully complete with a grade of B or better 8 additional credits of honors coursework drawn from the following courses:

Code	Title	Credits
Select two courses from the following:		
NURS 612	Care of the Adult with Acute Illness II	4
NURS 627	Clinical Judgment in Nursing	4
NURS 704	Public Health Nursing	4
NURS 705	Contemporary Leadership within Health Care Systems	4

Honors-in-major students must also successfully complete with a grade of B or better:

Code	Title	Credits
NURS 648W	Nursing Honors Seminar I	1-4
NURS 748W	Nursing Honors Thesis I	1
NURS 749W	Nursing Honors Thesis II	4

These self-directed learning experiences, related to the student's interests, are designed to help students acquire advanced knowledge and skills to undertake inquiry or scholarly projects. Students must submit a project description to a faculty adviser at the beginning of the senior year. Students present the results of this study at the Nursing Inquiry Day.

## Student Learning Outcomes

The undergraduate student is prepared to:

- Synthesize core knowledge from the liberal arts, sciences, and nursing as the foundation of professional practice.
- Integrate knowledge and skills to assess, design, implement, and evaluate nursing care in a safe, compassionate, culturally sensitive, evidence-based manner.
- Engage clients, families, and communities in collaborative decision-making incorporating evidence-based knowledge and anticipatory guidance.
- Employ team leadership and collaborative skills with other health professionals to optimize client and system outcomes.
- Recognize the influence of complex health systems on health care practice and advocate for policies that promote a socially just, patient centered healthcare system.
- Engage in scholarly inquiry to identify, evaluate and integrate the best current practice.
- Integrates health promotion, clinical prevention strategies when providing care at the individual or population level.

- Incorporates principles of patient safety and risk mitigation when using healthcare technology and therapeutics in the provision of care.
- Uses effective written, verbal, and nonverbal communication strategies when engaged in professional practice.
- Embrace professional values embodied in the ANA code of ethics.

## Occupational Therapy (OT)

Occupational therapy enables individuals of all ages to engage in everyday activities in the areas of work, self-care, home management, school, and leisure/play. Occupational therapists support people to promote their participation in desired activities in natural contexts. This process often involves working on skill development or adapting tasks or an environment to optimize peoples' ability to fulfill their social roles and engage in activities that are meaningful and support health and well-being. A program of study in occupational therapy includes a foundation in the liberal arts; biological, behavioral, and health sciences; and discipline-specific studies in occupational science and occupational therapy.

The Professional Occupational Therapy Program is accredited by the Accreditation Council for Occupational Therapy Education (ACOTE), located at 6116 Executive Boulevard, Suite 200, North Bethesda, MD 20852-4929. Their phone number is 303-652-AOTA and their website is: [www.acoteonline.org](http://www.acoteonline.org)

Graduates from an accredited program are eligible to sit for the certification examination for the occupational therapist, administered by the National Board for Certification in Occupational Therapy (NBCOT). After successful completion of this exam, the individual will be a registered occupational therapist (OTR). All states require licensure in order to practice, however, state licenses are usually based on the results of the NBCOT certification examination. A felony conviction may affect a person's ability to sit for the NBCOT certification examination and obtain licensure.

## Disability Studies Minor

<https://chhs.unh.edu/recreation-management-policy/program/minor/disabilities>

### Description

The minor in Disability Studies gives students the opportunity to explore the meaning, nature and consequences of disability from multiple perspectives. Ways of supporting people with disabilities and their families is addressed including the influences of disability policy, applications of technology, and societal and cultural attitudes and understanding related to persons with disability. This interdisciplinary

program introduces topics such as exceptionality, the lived experience of disability and effects of stigma, disability policy, assistive technologies and universal design to enhance function and access, and health and human services for supporting individuals with disability. Students select from a wide range of electives to support their individual areas of interest. Students may expand career options by combining the minor in Disability Studies with majors such as Education, Occupational Therapy, Recreation Management and Policy, Psychology, Human Development and Family Studies, Communication Sciences and Disorders, Kinesiology, and Social Work.

When you minor in Disability Studies at UNH, depending on how you design your program and your course selection, you may work collaboratively with faculty from the Departments of Occupational Therapy, Recreation Management and Policy, Communication Sciences and Disorders, Social Work, Nutrition, Kinesiology, Human Development and Family Studies, and Education. You'll also have the option of pursuing a faculty sponsored independent study or a small-scale research project.

### Requirements

Code	Title	Credits
<b>Required Course</b>		
One of the following courses is required from the student's major or any other disability related intensive course outside of the major with permission:		
OT 610	Occupation, Identity, Disability	4
OT 685	Psychosocial Disorders and Everyday Life	4
EDUC 650	Introduction to Disability in Inclusive Schools and Communities <sup>2</sup>	4
RMP 501	Recreation Services for Individuals with Disabilities	4
SW 712	Understanding Developmental Disabilities	4
<b>Electives</b>		
Select 16 credits from the course list below. Note that any of the courses in the required course list above may be used as an elective course if not taken as the required course		
OT 444	Living and Doing with Technology	4
INTR 438	A Socio-cultural Perspective on the Deaf Community	4
NUTR 740	Nutrition for Children with Special Needs	4
OT 730	Assistive Technology for Enhancing Occupational Performance	3
OT 733	Assistive Technology for Physical Access I: Electronic Technologies	2
OT 734	Assistive Technology for Physical Access II: Mobility, Seating, and Transportation	2
OT 735	Assistive Technology for Communication and Cognition	2
OT 736	Assistive Technology for Vision and Hearing	2
OT 520	Happy and Healthy at Work: Promoting Wellness, Diversity and Inclusion	4
HMG 520	Happy and Healthy at Work: Promoting Wellness, Diversity and Inclusion	4
EDUC 760	Introduction to Young Children with Special Needs	4
RMP 444A	Taking the "Dis" out of Disability	4
RMP 720	Adaptive Sport Facilitation for Recreation Therapy and Related Professions	4
SW 704	Adolescents with Emotional and Behavioral Challenges	4
HPE 781	Inclusion in Physical Education	4
SW, OT, EDUC, KIN, NUTR, RMP Independent Study with a disability focus <sup>1</sup>		

- <sup>1</sup> The purpose of the independent study is to explore a topic that provides a detailed focus on an important issue related to individuals with disabilities. A student may also choose to engage in a small-scale research project to investigate an issue that affects individuals with disabilities. Each project will be negotiated with the student's departmental faculty adviser and the coordinator of the minor program.
- <sup>2</sup> Prerequisite courses EDUC 500 Exploring Teaching and EDUC 402 Introduction to Educational Studies: Social Change and Education in Local and Global Contexts are waived with permission for students in non-education majors.

Please note: Additional elective courses may be added in the future as deemed appropriate and approved by disabilities studies coordinator.

Also note: Students must achieve C- or better and a 2.00 grade-point average in courses that the minor department approves. Courses taken on a pass/fail basis may not be used for a minor. No more than 8 credits used to satisfy major requirements may be used for a minor. There is no limit on the number of overlapping credits allowed between minors. Students should declare the intent to earn a minor as early as possible and no later than the end of the junior year. During the final term, an application should be made to the dean to have the minor show on the academic record.

## Occupational Therapy Major (B.S.)

<https://chhs.unh.edu/occupational-therapy/program/bs/occupational-therapy-major>

### Description

## Bachelor of Science to Advanced MS/OTD Program

The University of New Hampshire Department of Occupational Therapy offers a Bachelor's Degree leading to entry with Advanced Standing into our MS or OTD program. Students in the Bachelor of Science (BS) program smoothly enter into one of the graduate programs by completing professional level OT courses as part of their BS degree. The BS and MS degree programs are completed in five and half years, while the BS and OTD programs require 6 years with two summer terms. Students declare their intent to graduate with an Advanced Standing MS or an Advanced Standing OTD at the end of their sophomore year. Students may enter the BS program as first-year students or apply to transfer within UNH into the BS program during the fall semester of their sophomore year, space permitting. Students interested in transferring into this program should contact the Department of Occupational Therapy for information about transfer requirements, the application process and deadlines.

Students' academic advisor guides them through a stream-lined application process to enter the Occupational Therapy: Advanced Standing MS or OTD Program during the senior year. Students must have a minimum of a 3.0 grade point average, earned a B- or above in all professional level OT courses (700 level or higher), with no more than 8 credits at B-, pass all competency (practical) exams as part of OT courses, pass level I fieldwork, and meet professional behavioral standards, which are detailed in the *OT Department Policy and Procedure Manual*, available to all OT students on the department's learning platform, MyCourses.

The Accreditation Council for Occupational Therapy Education (ACOTE), located at 6116 Executive Boulevard, Suite 200, North Bethesda, MD 20852-4929; (301)652-AOTA grants accreditation to entry level MS and OTD programs in the United States. Our Master's degree program is currently accredited by ACOTE.

The OTD program at the University of New Hampshire has received candidacy for accreditation from the ACOTE. The program must have a pre-accreditation review, complete an onsite evaluation, and be granted Accreditation Status before its graduates will be eligible to sit for the National Certification examination.

After completing the Master's degree or OTD in occupational therapy, including 24 weeks of Level II Fieldwork, students will be eligible to sit for the national certification examination offered by the National Board for Certification in Occupational Therapy (NBCOT), which is required to practice as an occupational therapist. Detailed information regarding the Occupational Therapy: Advanced Standing MS and OTD Program may be found in the UNH Graduate Catalog. A felony conviction may affect a graduate's ability to sit for the NBCOT certification examination or attain state licensure.

## Requirements

### Degree Requirements

**Minimum Credit Requirement:** 128 credits

**Minimum Residency Requirement:** 32 credits must be taken at UNH

**Minimum GPA:** 2.0 required for conferral\*

**Core Curriculum Required:** Discovery & Writing Program Requirements

**Foreign Language Requirement:** No

All Major, Option and Elective Requirements as indicated.

*\*Major GPA requirements as indicated.*

### Major Requirements

Students begin the BS curriculum with preprofessional courses, which include courses in biological and social sciences as well as occupational therapy. In addition to meeting the University Discovery Program requirements, students take the following courses during the first three years of the program.

Code	Title	Credits
Core Curriculum		
BMS 507	Human Anatomy and Physiology I	4
BMS 508	Human Anatomy and Physiology II	4
OT 500	Behavior and Development of Children	4
OT 501	Developmental Tasks of Adulthood	4
OT 510	Exploring Occupational Therapy and Occupation	4
OT 610	Occupation, Identity, Disability <sup>1</sup>	4
OT 620	Medical Terminology	2
OT 685	Psychosocial Disorders and Everyday Life	4
KIN 652 & KIN 653A	Clinical Kinesiology and Musculoskeletal Assessment	6
KIN 706 & KIN 707	Neurology and Neurology Lab	6
PSYC 401	Introduction to Psychology	4
Select one statistics course from the following:		4
HHS 540	Statistics for Health and Human Service Professionals	
PSYC 402	Statistics in Psychology	
SOC 402	Statistics	
Select one health or social policy course from the following:		4
HDFS 760	Family Programs and Policies	
HDFS 776	Children, Adolescents and the Law	
HDFS 794	Families and the Law	
HMP 401	United States Health Care Systems	
HMP 403	Introduction to Public Health	
HMP 744	Law and Ethics in Healthcare	
HMP 746	Health Policy	
POLT 500	American Public Policy	
RMP 663	Management and Finance in the Experience Industry	
SW 525	Social Welfare Policy: History of Social and Economic Justice	

SW 705	Child and Adolescent Risks and Resiliency: Program, Policy and Practice
<b>Total Credits</b>	<b>54</b>

Details on satisfying these requirements are provided by the student's academic adviser and are outlined in the *OT Department Policy and Procedure Manual*. All students receive an electronic copy of the manual in their first year, and it is also available on the Occupational Therapy Student Resources site on the University learning platform.

Volunteer or work experience in a health and human service organization is recommended, although not required.

## Professional Curriculum

Students in the BS-MS or BS-OTD curriculum with a GPA of 3.0 or higher transition into the professional program and take professional level courses during their undergraduate education. The following courses are required.

Code	Title	Credits
<b>Required Courses BS-MS and BS-OTD</b>		
OT 710	OT Practice and Professional Roles	4
OT 715	Introduction to Group Process: Theory and Application	2
OT 744	Fieldwork and Professionalism - Level 1	1
OT 750	Neuro-Occupation: The Relationship Between Occupation and the Brain	3
OT 751	Mind Body Systems/Neurologically Based Function and Dysfunction	4
OT 752 & 752L	Human Movement and Environmental Effects on Everyday Occupations and Human Movement Lab	4
OT 763 & 763L & 763R	Occupational Therapy Evaluation and Intervention for Adults and Occupational Therapy Evaluation and Intervention for Adults Lab and Occupational Therapy Evaluation and Intervention for Adults Recitation	4
OT 781	Introduction to Research and Evidence-Based Practice	3
OT 782	Research Methods and Application	3
OT 792	Level I Fieldwork	1
Select one of the following:		
OT 730 & 730L	Assistive Technology for Enhancing Occupational Performance and Assistive Technology for Enhancing Occupational Performance Lab	4-5
or OT 771 & 771L	Enabling Participation in Community Groups and Enabling Participation in Community Groups Lab	
Select one of the following:		
OT 760 & 760L & 760R	Psychosocial Evaluation and Intervention and Psychosocial Evaluation and Intervention Lab and Psychosocial Evaluation & Intervention Recitation	4
or OT 762 & 762L & 762R	Occupational Therapy Evaluation and Intervention for Children and Occupational Therapy Evaluation and Intervention for Children Lab and Occupational Therapy Evaluation and Intervention for Children Recitation	
Capstone:		
OT 741	Human Occupation <sup>1</sup>	4
<b>Total credits for BS-MS: 38-39</b>		
<b>Total Credits</b>		<b>41-42</b>

<sup>1</sup> This course also fulfills the writing intensive in major course.

Students need to declare their choice for Advanced Standing MS or OTD by the end of their sophomore year. At the end of the senior year, students are awarded a Bachelor of Science Degree in Occupational Therapy. However, students must earn a graduate degree (MS or OTD) to become registered occupational therapists. Students apply to the Graduate School for Occupational Therapy: Advanced Standing MS or the OTD Program during their senior year. An overall minimum grade point of 3.0 is required for admission to the MS Program or OTD program, and students must earn a minimum grade of B- in all OT classes at the 700 level, with no more than 8 credits of B- in OT courses at the 700 level, pass Level I Fieldwork, and meet professional behavior expectations. Please refer to the Graduate Catalog for additional information about the Advanced Standing MS and OTD Programs and the graduate portion of

the professional occupational therapy curriculum including Fieldwork Level II requirements.

Students entering as first-year undergraduate students complete both the BS degree and Advanced Standing MS degree in 5.5 academic years (11 semesters and one January-term), including Level II Fieldwork, while those opting for the Advanced Standing OTD will complete the degree in 6 academic years including two summer terms (14 semesters total), including Level II Fieldwork and a Capstone experience. Students completing either of the advanced standing programs will be eligible to sit for the certification examination administered by the National Board of Certification of Occupational Therapists (NBCOT). A felony conviction may affect a student's ability to complete fieldwork, sit for the NBCOT certification examination, and/or obtain state licensure.

Students are responsible for transportation to off-campus practicum and fieldwork locations.

Curriculum review and revision is undertaken annually. The department works closely with students during academic advising sessions and shares information about any policy and requirement changes during registration periods as well as throughout the academic year. Students also are expected to take an active role in verifying expectations and should check with their academic adviser each September for updated policies and requirements. Program requirements and policies for retention in the major are in the *OT Department Policy and Procedure Manual*, which is available online.

## Student Learning Outcomes

Student Learning Outcomes: BS in Occupational Therapy focuses on the study of human participation in life occupations and prepares students for an entry-level graduate degree to become registered occupational therapists. Occupations are the activities that people do every day across the lifespan, including but not limited to self-care, employment, volunteer work, leisure, and play. The aim of the BS program is to prepare students for employment in health services fields, or for graduate study in occupational therapy, or other varied fields and disciplines.

Upon graduation with a BS in OTS degree from UNH, students will:

- Critically evaluate biological, psychosocial, and educational theories that influence human behavior and occupational participation.
- Demonstrate an understanding of the value of human occupation in health and wellness.
- Demonstrate critical appraisal of how disease and disability influences health promotion and occupational well-being.
- Recognize the role of culture, socioeconomic status, abilities, and other factors on occupational performance and participation of all members of society.
- Demonstrate an understanding of concepts of occupational deprivation and occupational justice as related to health and well being for all people.
- Demonstrate competency in information and basic research literacy.
- Demonstrate professional behaviors and skills in written and oral communication.
- Be prepared to apply for graduate study in the field of occupational therapy or other disciplinary area of graduate study.

## Recreation Management and Policy (RMP)

As the fabric of life in contemporary society grows in complexity, people are increasingly turning to leisure and recreation services to find meaning, renewal, and enrichment. Recreation services can improve public health and wellness, promote sustainable environments, develop a sense of community, and enhance the quality of life of all citizens. Recreation professionals work in diverse settings, including human services, health care, natural recreation resource areas such as parks, wilderness programs, and commercial recreation businesses. Population and economic projections suggest that recreation service industries will continue to expand and thereby continue to provide numerous professional career opportunities.

The Department of Recreation Management and Policy maintains three national accreditations. Our core is nationally accredited by the Council on Accreditation of Parks, Recreation, Tourism, and Related Professions (COAPRT). Our OLM option is accredited by the Association for Experiential Education (AEE). Further, our therapeutic recreation option is accredited by the Committee on Accreditation of Recreational Therapy Education (CARTE). CARTE is an approved accreditation program under the Commission on Accreditation of Allied Health Education Programs (CAAHEP). The Department's curriculum supports a broad-based education and an opportunity to acquire specialized professional knowledge and skills. Graduates are employed in a broad range of settings, such as community recreation agencies, resorts, conference centers, youth services agencies, state or national parks, government agencies, universities, hospitals, rehabilitation centers, and long-term care facilities.

## Curriculum Structure

Students entering the major may choose an option in Outdoor Leadership and Management ("OLM"), Program and Event Management ("PEM"), or Therapeutic Recreation ("TR"). The options include the professional core and required courses. Candidates for a degree in Recreation Management and Policy must satisfy all of the University Discovery Program requirements in addition to satisfying the requirements of each individual major option.

## Professional Internship

A supervised internship (RMP 764 Internship) is required of all majors and serves as their **major capstone requirement**. The internship is designed to create a bridge between theory and practical application. Students, working with their advisers and the internship coordinator, select an appropriate setting based on their professional and career interests. They must register for an 8 or 12 credit full-time internship that ranges from 10 to 16 weeks and is under the supervision of a qualified professional. Specific requirements are identified in the *Internship Manual* available from the Department of Recreation Management and Policy.

## Declaring a Major

First-year students entering UNH who wish to apply to the Bachelor of Science (B.S.) program in Recreation Management and Policy with an option in Outdoor Leadership and Management, Program and Event Management, or Therapeutic Recreation should contact the [Office of Admissions](#). The admissions web site contains complete campus visit information and an online visitor registration. It also contains admission criteria and important dates, as well as an online application form.

## How to apply for students transferring from within UNH

**Outdoor Leadership and Management:** UNH's outdoor leadership and management program prepares students for dynamic careers in outdoor education, adventure programming, outdoor recreation management, parks and protected areas management, youth and after-school programming, and conservation. Our curriculum combines experiential learning in urban, rural and backcountry landscapes with a classic liberal arts education. You'll gain a solid foundation in the theories, philosophies and methods of outdoor recreation leadership and management while gaining skills in outdoor activities such as climbing, canoeing and backpacking. Admission decisions are made after the student completes the [online internal transfer application](#) process and has a meeting with the OLM option coordinator. If you have questions about the program and event management option, please contact [Nate Fitch](#) ([nate.fitch@unh.edu](mailto:nate.fitch@unh.edu)). OLM applications are accepted throughout the year and decisions are made on a rolling admission basis.

**Program and Event Management:** This option prepares students for supervisory or middle management positions and emphasizes planning, leadership, and administrative concepts in settings such as youth sport organizations, recreation resource management, business and entrepreneurial recreation, municipal recreation, campus recreation, residential communities, festivals and events planning, employee services recreation, recreational sports agencies, youth service agencies, and resorts. Admission decisions are made after the student completes the [online internal transfer application](#) process and has a meeting with the PEM option coordinator. If you have questions about the program and event management option, please contact [Sean McLaughlin](#) ([sean.mclaughlin@unh.edu](mailto:sean.mclaughlin@unh.edu)). PEM applications are accepted throughout the year and decisions are made on a rolling admission basis.

**Therapeutic Recreation:** The Therapeutic Recreation option prepares students for work primarily in clinical, allied health facilities such as hospitals, rehabilitation centers, mental health programs, and extended care facilities as well as inclusive community recreation programs. Admission decisions are based upon the content of the online application as well as a personal interview with the therapeutic recreation option coordinator. Students must have a minimum cumulative grade point average of 2.75 to be considered for admission into the major and it is highly recommended that students have completed or are enrolled in BMS 507 Human Anatomy and Physiology I or BMS 508 Human Anatomy and Physiology II at the time of application. If you have questions about the therapeutic recreation option, please contact [Matt Frye](#) ([matt.frye@unh.edu](mailto:matt.frye@unh.edu)).

To apply, we ask students to go through a short informational meeting with the TR Option Coordinator [Matt Frye](#) ([matt.frye@unh.edu](mailto:matt.frye@unh.edu)) prior to completing the [online internal transfer application](#). TR applications are accepted throughout the year and decisions are made on a rolling admission basis.

# Recreation Management and Policy Major: Outdoor Leadership and Management Option (B.S)

<https://chhs.unh.edu/recreation-management-policy/program/bs/recreation-management-policy-major-outdoor-leadership-management-option>

## Description

UNH's Outdoor Leadership and Management (OLM) Program is designed for students who want to study and work in outdoor programs, parks, and public or commercial recreation settings. Our graduates are guides, leaders, directors, and managers of agencies that provide healthy outdoor activities for people across their lifespan. Our curriculum combines experiential learning in urban, rural, and backcountry landscapes with a classic liberal arts education. You'll gain a solid foundation in the theories, philosophies, and methods of outdoor recreation leadership and management while gaining skills in outdoor activities, pursuits or disciplines such as climbing, canoeing, and backpacking. This program will prepare you for dynamic careers in outdoor education, adventure programming, outdoor recreation management, parks and protected areas management, youth and after-school programming, conservation, and other outdoor fields.

### Professional Internship

A supervised internship (RMP 764) is required of all majors and serves as their **major capstone requirement**. The internship is designed to create a bridge between theory and practical application. Students, working with their advisers and the internship coordinator, select an appropriate setting based on their professional and career interests. They must register for an **8 credit or 12 credit, 400 hour internship** that is under the supervision of a qualified professional. Specific requirements are identified in the *Internship Manual* available from the Department of Recreation Management and Policy.

## Student Learning Outcomes

- Students will know and demonstrate the nature and scope of the outdoor industry, including outdoor education, adventure leadership, and parks and protected-areas management.
- Students will know and demonstrate the techniques and processes used by professionals and staff in the outdoor industry.
- Students will know and demonstrate the foundation of the outdoor industry in history, science, and philosophy.
- Students will be able to demonstrate the ability to design, implement, and evaluate services that facilitate targeted human experiences and that embrace personal and cultural dimensions of diversity in outdoor settings.
- Students will demonstrate entry-level knowledge about operations, strategic management, and administration in the outdoor industry.

- Students will demonstrate the potential to succeed as professionals at supervisory or higher levels in the outdoor industry through participation in structured practicum and internship experiences.

# Recreation Management and Policy Major: Program and Event Management Option (B.S.)

<https://chhs.unh.edu/recreation-management-policy/program/bs/recreation-management-policy-major-program-event-management-option>

## Description

This option prepares students for managerial positions in commercial, public, and nonprofit organizations that provide recreation and leisure services. Curriculum design emphasizes the effective and efficient planning, delivery, and evaluation of leisure-based programs, services, and enterprises. Applied experience is a component of most courses, in addition to a required practicum and the 10-16 week full-time internship under professional supervision. Depending upon the RMP electives and the career support emphasis or minor chosen, students may expect to find employment in a broad range of settings. Recent graduates have found employment in the areas of conference and event planning, municipal park and recreation services, recreational sports, commercial and entrepreneurial recreation businesses, youth-serving agencies, resorts, camps, and natural resource management positions in state and federal agencies.

## Requirements

### Degree Requirements

**Minimum Credit Requirement:** 128 credits

**Minimum Residency Requirement:** 32 credits must be taken at UNH

**Minimum GPA:** 2.0 required for conferral\*

**Core Curriculum Required:** Discovery & Writing Program Requirements

**Foreign Language Requirement:** No

All Major, Option and Elective Requirements as indicated.  
\*Major GPA requirements as indicated.

### Major Requirements

All majors must complete a core curriculum of seven courses.

Code	Title	Credits
RMP 490	Recreation & Tourism in Society <sup>1</sup>	4
RMP 501	Recreation Services for Individuals with Disabilities	4
RMP 557	Program and Event Design	4
RMP 563	Recreation Management and Policy Practicum	2
RMP 654	Professional Development and Ethics	2
RMP 724	Research, Evaluation, and Data-Driven Decisions	4
RMP 764	Internship <sup>2</sup>	8-12

<sup>1</sup> RMP majors cannot count RMP 490 Recreation & Tourism in Society toward the University Social Sciences requirement.  
<sup>2</sup> All RMP students must complete an 8 or 12 credit hour internship.

## Program and Event Management Option - Course Requirements:

Code	Title	Credits
RMP 559	Marketing the Recreation Experience	4
RMP 661	Leadership in Recreation Services	4
RMP 663	Management and Finance in the Experience Industry	4
RMP 772	Law and Public Policy in Leisure Services	4
Statistics - select one of the following:		4
PSYC 402	Statistics in Psychology	
SOC 402	Statistics	
MATH 439	Statistical Discovery for Everyone	
ADMN 510	Business Statistics	
Electives: Choose any 4 of the following (16 credits total) <sup>1</sup>		16
RMP 560	Recreational Sport Management	
RMP 668	Youth Culture and Programs	
RMP 670	Venue Management Design & Operations	
RMP 603	New Hampshire Ski Industry Management	
RMP 680	Festival and Event Planning	
RMP 775	Entrepreneurial and Commercial Recreation	
RMP 780	Event and Experience Design	
Emphasis or Minor requirement		18-20
Emphasis (minimum of 18 credits) or Minor (18-20 credits) with C- or better, approved by their advisor.		
Total Credits		84-92

<sup>1</sup> RMP courses completed to fulfill the elective course requirement may not be used to fulfill the emphasis area requirement; unless prior approval from the student's academic advisor is granted.

### Professional Internship

A supervised internship (RMP 764) is required of all majors and serves as their **major capstone requirement**. The internship is designed to create a bridge between theory and practical application. Students, working with their advisers and the internship coordinator, select an appropriate setting based on their professional and career interests. They must register for an **8 or 12 credit full-time internship** that ranges from 10 to 16 weeks and is under the supervision of a qualified professional. Specific requirements are identified in the *Internship Manual* available from the Department of Recreation Management and Policy.

## Student Learning Outcomes

- Students will know and demonstrate the nature and scope of the recreation, events, and tourism profession and their associated industries.
- Students will know and demonstrate the techniques and processes used by professionals and staff in the recreation, events, and tourism industry.
- Students will know and demonstrate the foundation of the recreation, events, and tourism profession in history, science, and philosophy.
- Students will demonstrate the ability to design, implement, and evaluate services that facilitate targeted human experiences and that embrace personal and cultural dimensions of diversity.
- Students will demonstrate knowledge about operations, strategic management, and administration in recreation, events, and tourism organizations.
- Students will demonstrate the potential to succeed as professionals at supervisory or higher levels in recreation, events, tourism, or related organizations through participation in structured practicum and internship experiences.

# Recreation Management and Policy Major: Therapeutic Recreation Option (B.S.)

<https://chhs.unh.edu/rmp/therapeutic-recreation-bs>

## Description

Therapeutic recreation utilizes recreation to assist people with disabilities or illnesses to develop and use their leisure in ways that enhance health, independence, and well-being. Therapeutic recreation recognizes the importance of quality of life and uses activities to remediate or rehabilitate functional abilities. Therapeutic recreation services are provided in a variety of settings, including hospitals, long-term care facilities, residential treatment facilities, schools, home health care, community recreation, correctional facilities, rehabilitation centers, camp and outdoor education centers, and adult day programs. Observation and applied experience is a component of several courses. Students complete a 14-16-week full-time clinical internship under the supervision of a certified therapeutic recreation specialist (CTRS). The Bureau of Labor Statistics occupational outlook reports the "employment of recreational therapists is projected to grow 8 percent from 2019 to 2029, which is much faster than the average for all occupations. As the large baby-boom generation ages, they will need recreational therapists to help treat age-related injuries and illnesses, such as strokes. Recreational therapists will also be needed to help patients manage chronic conditions such as diabetes and obesity (Bureau of Labor Statistics). A CNN Money report identifies recreation therapy among the top ten "best jobs for saving the world." In particular, they note the profession's high benefit to society and high personal job satisfaction (CNN Money Magazine).

Upon successful completion of this option, students are prepared to meet sitting requirements for the National Council for Therapeutic Recreation Certification Examination. Students/graduates who pass the NCTRC exam and attain the CTRS are eligible to seek licensure to practice in the state of New Hampshire.

Students may be required to submit to a criminal background check.

## Requirements

<b>Required Support Courses</b>		
BMS 507	Human Anatomy and Physiology I	4
BMS 508	Human Anatomy and Physiology II	4
HDFS 525	Human Development	4
PSYC 561	Abnormal Behavior	4
Statistics - Select one of the following:		4
PSYC 402	Statistics in Psychology	
SOC 402	Statistics	
Total Credits		92-94

<sup>3</sup> Or other TR related courses as approved by Academic Advisor.

### Professional Internship

A supervised internship RMP 764 is required of all majors and serves as their **major capstone requirement**. The internship is designed to create a bridge between theory and practical application. Students, working with their advisers and the internship coordinator, select an appropriate setting based on their professional and career interests. They must register for an **8 or 12 credit full-time internship** that ranges from 14 to 16 weeks and is under the supervision of a Certified Therapeutic Recreation Specialist. Specific requirements are identified in the *Internship Manual* available from the Department of Recreation Management and Policy.

## Student Learning Outcomes

- Students will integrate an understanding of history, service models, theory/philosophy, ethics, credentials, professional conduct, evidence-based practice and professional development with Recreational Therapy (RT) practice.

- Students will develop competence to individually screen, assess and systematically collect comprehensive and accurate data about patients/clients in an efficient and effective manner and to analyze the data collected to determine the course of actions subsequent to an individualized treatment/program plan.
- Students will develop competence in the planning and development of individualized treatment plans that identify functional outcome goals, modalities, facilitation techniques and interventions based on assessment data collected and evidence regarding the diagnosis and treatment of specific medical, psychiatric and other disabling conditions.
- Students will know how to use structured, systematic and evidence-based treatment interventions and facilitation techniques to improve patient/client functioning and independence in life activities.
- Students will develop competence to implement the individualized treatment/program plan using appropriate evidence-based treatment interventions and programs to restore, remediate, or rehabilitate patient/client functioning as well as to reduce or eliminate the limitations to participation in life activities resulting from medical, psychiatric or other disabling conditions.
- Students will acquire specific modality/skills and facilitation techniques used as treatment interventions in Recreational Therapy practice.
- Students will systematically conduct evaluation and research to determine the effectiveness of treatment interventions and programs used to reach patient/client outcomes.
- Students will develop the competencies to manage a Recreational Therapy practice, department, and staff.
- Students will develop an understanding of human anatomy and physiology, growth/development, psychology, functioning in life activities and an understanding of health care services to serve as a foundation for Recreational Therapy practice.
- Students will develop entry-level clinical proficiency and professional behavior through field-based clinical opportunities in accordance with professional standards of practice in Recreational Therapy

## Adolescent and Youth Development Minor

<https://chhs.unh.edu/recreation-management-policy/program/minor/adolescent-youth-development>

### Description

The departments of Recreation Management and Policy and Human Development and Family Studies offer an interdisciplinary minor designed to give students an opportunity to develop knowledge and skills regarding adolescence and youth development. The two required courses offer a foundation in theory, research, and practice, and students choose three additional courses in order to better prepare students to work with this age group.

For more information contact [Dr. Cindy Hartman \(cindy.hartman@unh.edu\)](mailto:cindy.hartman@unh.edu) in Recreation Management and Policy or [Sahitya Maiya \(sahitya.maiya@unh.edu\)](mailto:sahitya.maiya@unh.edu) in Human Development and Family Studies.

## Requirements

The Adolescent and Youth Development minor requires students to complete 20 credits.

Code	Title	Credits
<b>Required Courses</b>		
RMP 668	Youth Culture and Programs	4
HDFS 624	Developmental Perspectives on Adolescence and Early Adulthood	4
<b>Select three courses from the below, approved by a minor advisor.</b>		<b>12</b>
EDUC 556	Peer to Peer Mentoring for Students with Disabilities	2
HDFS 444A	Youth Facing Adversity	4
HDFS 707	Practicum	1-6
HDFS 776	Children, Adolescents and the Law	4
RMP 563	Recreation Management and Policy Practicum	2
RMP 560	Recreational Sport Management	4
SOC 525	Juvenile Crime and Delinquency	4
CMN 714	Youth and Media	4
SML 565	Principles of Coaching	4
SW 705	Child and Adolescent Risks and Resiliency: Program, Policy and Practice	4

Other adolescent or youth-based courses as approved by minor coordinator.

- RMP majors may use RMP 668 Youth Culture and Programs to meet both major and minor requirements.
- The Adolescent and Youth Development Minor follows UNH's policy on minors. Following University policy, students must complete 20 semester hours with a grade of C- or better and a 2.00 grade point average.
- No more than 8 credits used by a student to satisfy major requirements may be used for the minor.
- Students must submit a *Certification of Completion of Minor form* during their final semester to one of the Minor Coordinators: [Dr. Cindy Hartman \(cindy.hartman@unh.edu\)](mailto:cindy.hartman@unh.edu) in RMP or [Sahitya Maiya \(sahitya.maiya@unh.edu\)](mailto:sahitya.maiya@unh.edu) in HDFS.

## Outdoor Adventure Recreation Minor

<https://chhs.unh.edu/recreation-management-policy/program/minor/outdoor-adventure-recreation>

### Description

The purpose of the minor in Outdoor Adventure Recreation is to complement major courses of study that prepare students for professional fields that work in outdoor environments across human service, natural resources, educational, or recreation sectors. It will provide an orientation to the technical, risk management, and leadership skills required for personal preparedness and program organization involving backcountry and facilities-based adventure activities. In addition, the minor seeks to improve the standards for fieldwork in professional fields that use the outdoors by offering high-quality training that employs current risk management principles that govern engagement in outdoor activities.

### Program Objectives:

- Provide the highest quality professional preparation in outdoor technical skills
- Surpass national standards so students can pursue certifications if desired
- Cultivate life-long learners who are motivated to seek continuous improvement

- Improve quality and help to reduce risks across professional fields that depend on a common skillset
- Expand participation in outdoor activities both on campus and in public and private sectors
- Enhance the experiences of future participants by emphasizing best practices that validate a range of life experiences, identities, and goals

## Requirements

### Minor Requirements

Code	Title	Credits
<b>Three required courses:</b>		<b>12</b>
OUT/RMP 515	History of Outdoor Pursuits in North America	
or RMP 511	Issues of Wilderness and Nature in American Society	
Select two courses from the following:		
OUT 540	Top Rope Rock Climbing	
OUT 551	Adventure Programming: Backcountry Based Experience	
OUT 552	Adventure Programming: Water Based Experiences	
<b>Electives - Select at least 8 credits from the following:</b>		<b>8</b>
RMP 603	New Hampshire Ski Industry Management	
RMP 670	Venue Management Design & Operations	
RMP 711	Recreation Resource Management	
RMP 775	Entrepreneurial and Commercial Recreation	
RMP 776	Human Dimensions of Natural Environments	
OUT 539	Artificial Climbing Wall Management	
OUT #542	Sea Kayaking	
OUT 543	Winter Adventure Programming	
OUT 545	High Angle Rescue	
OUT 546	Whitewater Canoeing	
OUT 547	Lead Rock Climbing	
OUT 549	Wilderness Navigation	
OUT 681	Foundations of Adventure Education	
LAP 500 Level Course		
<b>Total Credits</b>		<b>20</b>

Following University policy, you must complete 20 semester hours with a grade of C- or better. At the beginning of his/her **final** semester, students must complete and submit a Certification of Completion of Minor form to their college dean's office.

## Recreation Management Minor

### Description

The recreation industry is a broad field including festival and event planning, non-profit administration, travel and tourism, sport, municipal recreation, and outdoor recreation. This industry is experiencing worldwide growth which is opening up tremendous workforce opportunities. The primary goal of the recreation management minor is to provide a basic understanding of the recreation industry and the variety of careers associated with this industry for students interested in staying on their existing academic pathway. The required core course for this minor, provides a comprehensive overview of the recreation industry. Students select additional elective courses from a list of offerings that lend themselves to specific areas of knowledge and interest.

### Requirements

In total, five courses (18-20 credits) are required to complete this minor.

Code	Title	Credits
<b>Required Course</b>		
RMP 490	Recreation & Tourism in Society	4
<b>Electives</b>		
Select 4 courses from the following:		
RMP 501	Recreation Services for Individuals with Disabilities	4
RMP 557	Program and Event Design	4
RMP 560	Recreational Sport Management	4
RMP 603	New Hampshire Ski Industry Management	4

## Social Work (SW)

The Department of Social Work's undergraduate program is accredited by the Council on Social Work Education (CSWE) and must meet rigorous academic standards to retain this accreditation. Social work majors pursue a program that encompasses the professional social work competencies of professional identity, critical thinking, knowledge of diversity and human rights, social, environmental and economic justice, social welfare policy and services, social work practice with all client system sizes, human behavior in the social environment, research, and ethics.

According to the National Association of Social Workers (NASW), "The social work profession provides ethical, practical, and compassionate leadership to help people confront and resolve personal and social challenges" through their work with individuals, families, small groups, organizations, and communities. All social work majors complete a field internship under the direction of a qualified supervisor.

<https://chhs.unh.edu/sw>

### Programs

- Social Work Major (B.S.) (p. 178)
- Social Work Minor (p. 179)
- Gerontology Multidisciplinary Minor (p. 179)

## Faculty

<https://chhs.unh.edu/directory/all>

## Social Work Major (B.S.)

<https://chhs.unh.edu/social-work/program/bs/social-work-major>

### Description

The Department of Social Work's undergraduate program is accredited by the Council on Social Work Education (CSWE) and must meet rigorous academic standards to retain this accreditation.

The Department of Social Work's undergraduate program offers both a major and a minor in social work. It is a specialized degree that prepares graduates for generalist social work practice with a solid foundation in the liberal arts and in the knowledge, skills, and value base of social work. Through the mastery of core competencies, social work graduates apply their education working with individuals, families, groups, organizations, and communities. In addition, the program prepares qualified students to pursue graduate education in schools of social work and related fields.

Social work majors earn a B.S. degree in social work. Graduates are eligible for practice in a variety of social work settings throughout the United States. In preparation for graduate school, the program offers an Accelerated Masters that qualified students can consider applying for their junior year. In addition, qualified graduates are eligible to apply for advanced standing in M.S.W. programs that offer advanced standing. Depending upon the program, this can mean earning the M.S.W. in one calendar year versus two academic years.

### Requirements

## Degree Requirements

**Minimum Credit Requirement:** 128 credits

**Minimum Residency Requirement:** 32 credits must be taken at UNH

**Minimum GPA:** 2.0 required for conferral\*

**Core Curriculum Required:** Discovery & Writing Program Requirements

**Foreign Language Requirement:** No

All Major, Option and Elective Requirements as indicated.

\*Major GPA requirements as indicated.

## Major Requirements

Candidates for a degree must satisfy all of the University Discovery Program requirements in addition to satisfying the requirements of the social work major.

Students must maintain a GPA 2.0 and earn a C or better in the 13 social work major courses. In addition, students are expected to successfully complete three additional courses as part of a liberal arts foundation for the major. Students are required to complete 40 hours of advisor approved human service hours by end of first semester junior year.

To connect the theoretical and conceptual content of the classroom with the practice world, students must complete:

- 40 hours of human service related work in an approved agency/program setting by the end of the semester when they apply to the field. Twenty of the forty hours must be in the same agency/program. The remaining hours may be across multiple sites/programs. This experience may be paid or volunteer and must be pre-approved by the student's faculty adviser. The service hours must be completed post high school and by the end of the semester when to field applications are due.
- Students complete a 450-hour internship over two semesters during the senior year. This is the senior capstone experience. The field placement in the final year of the baccalaureate program is arranged between the student and the field education coordinator. In compliance with CSWE accreditation standards, the B.S. in social work program does not grant social work course credit for life or work experience.

Code	Title	Credits
<b>Required Courses</b>		
SW 424	Introduction to Social Work	4

<b>Total Credits</b>		<b>64</b>

## Student Learning Outcomes

- Student demonstrates ethical and professional behavior.
- Student engages diversity and difference in practice.
- Student advances human rights and social, economic and environmental justice.
- Engage in practice informed research and research-informed practice.
- Engages in policy practice.
- Engage with individuals, families, groups, organizations, and communities.
- Assess individuals, families, groups, organizations, and communities.
- Intervenes with individuals, families, groups, organizations, and communities.
- Evaluates practice with individuals, families, groups, organizations, and communities.

## Social Work Minor

<https://chhs.unh.edu/social-work/program/minor/social-work>

### Description

Social work is about helping individuals, families and community members with problems in their daily lives and advocating for those who need a voice. In the social work minor, you'll learn about the history, values and ethics of the social work profession and social welfare policy, and be introduced to human behavior and social work practices. Enhance your career opportunities by combining this minor with undergraduate study in areas such as education, healthcare, justice studies or sociology.

Students interested in a minor in social work should consult with the undergraduate program coordinator, Gretchen Bean, Pettee Hall, Room 241, (603) 862-4551.

### Requirements

Students must complete the following:

Code	Title	Credits
<b>Required Courses</b>		
SW 424	Introduction to Social Work	4
SW 525	Social Welfare Policy: History of Social and Economic Justice	4

<b>Total Credits</b>		<b>20</b>

<sup>1</sup> Excluding SW 622, SW 623, SW 625, SW 740, SW 740A, SW 741, SW 741A.

SW 622, SW 623, and SW 625 are by permission only with program coordinator approval.

## Gerontology Multidisciplinary Minor

<https://chhs.unh.edu/social-work/program/minor/gerontology>

### Description

The gerontology multidisciplinary minor (GMM) provides students with the opportunity to examine and evaluate the aging process as it affects the individual and society within the United States and in the world. Through a multidisciplinary course selection, students develop an understanding of aging from a variety of perspectives with a focus on how people age physically, cognitively, emotionally, and socially. Students are encouraged to analyze the historical and philosophical foundation from which policies, programs, and professional activities affecting the aged are developed, implemented, and evaluated. The purpose of GMM is to prepare students as they enter their career fields on the effects that the growing elderly population will have in every component of modern life.

### Requirements

To complete a minor in gerontology students are required to take a minimum of 20 credits.

- Special Topic courses on aging-related topics can be used for GMM if approved by the GMM coordinator
- The GMM follows UNH's policy on minors. Following University policy, students must complete 20 credit hours with a grade of C- or better and a 2.00 grade point average.
- Students must submit a Certification of Completion of Minor form during their final semester to the GMM Coordinator: Dr. BoRin Kim in the Department of Social Work.

<sup>1</sup> Up to 4 credits from the practicum courses including HDFS 707 Practicum, NUTR 600 Field Experience in Nutrition, RMP 563 Recreation Management and Policy Practicum, SW 740 Social Work Field Experience or SW 741 Social Work Field Experience II can be used for GMM if a student did their internship at aging-related institutions.

<sup>2</sup> GERO 795 Independent Study is not a required course but up to 4 credits can be used toward GMM. GERO 795 is used by students and faculty as an option for creating an individual experience relating to aging. A faculty member must approve and oversee (mentor) the student's work. Additionally, the GMM coordinator must also approve of the proposal and retain a copy. A copy of the proposal and the final copy will be kept in the student's major academic folder.

## Sport Management and Leadership

- [Sport Management and Leadership Major \(B.S.\)](#) (p. 180)
- [Sport Management Minor](#) (p. 182)

## Sport Management and Leadership Major (B.S.)

<https://chhs.unh.edu/kinesiology/program/bs/sport-management-leadership-major>

### Description

The Sport Management and Leadership Major at UNH prepares students for successful careers in the sport industry. The SML major meets the needs of the ever-changing sport marketplace, by balancing academic preparation through related coursework with extensive opportunities to gain experience in the sport industry. Analyzing and integrating the context/culture of sport is embedded throughout our curriculum and grounds students' preparation for careers in interscholastic, intercollegiate, and professional sport including sport marketing, event management, coaching, administration, and sport media/communication. SML also prepares students for graduate study in areas such as sport law, sport business, sport psychology, or sport communication.

Majors take a core of foundation courses, in addition to applied electives and choose one of three focus areas: Sport Marketing and Event Management, Coaching/Athletic Administration, or Sport Media/Communication. In addition, a targeted internship experience is required since it is critical to career development. Students in this major are expected to complete a minor, cognate or a double major in a related field (e.g. business, communication, english/journalism, psychology, education) that ensures breadth and depth as well as appropriate knowledge and skills for entry into a sport-related career. Interested students should consult with major coordinator, Gretchen Browne, [Gretchen.Browne@unh.edu](mailto:Gretchen.Browne@unh.edu).

SML 761	Senior Seminar Sport Management and Leadership <sup>2</sup>	4

<sup>1</sup> All students are required to complete an advisor approved minor, cognate or double major or 20 credits of coursework in a related field and approved in advance by faculty adviser.

<sup>2</sup> Majors must complete a minimum of 150 hours of industry experience before they can take SML 761 Senior Seminar Sport Management and Leadership. Students must be enrolled as a sport management and leadership major for one full semester before taking SML 761 Senior Seminar Sport Management and Leadership. See adviser for details.

<sup>3</sup> All students are required to have a minimum grade of C in Statistics, PSYC 402, SOC 402, ADMN 510 or HHS 540, or an approved Statistics course.

<sup>4</sup> Electives can include any courses listed within any focus area or the two additional courses listed below, including an additional 4 credits of internship. Credits applying to a declared focus area cannot also count as elective credits.

Internal transfer applicants to Sport Management and Leadership must have at least a 2.5 GPA as well as a minimum grade of C in Statistics (PSYC 402, SOC 402, ADMN 510 or HHS 540 or another approved statistics course) and a minimum grade of B- in SML 580 Sport Industry.

## Degree Plan

### Recommended Major Sequencing of Courses

This list only includes major classes. Students should be registered for, and take an average of 16 credits per semester to be 'on track' to graduate in 4 years. In most semesters, this means a student will be taking Discovery or elective courses, to meet this 16 credit 'load'.

Course	Title	Credits
<b>First Year</b>

## Student Learning Outcomes

- SML students will understand the socio-cultural components of sport integrated throughout the curriculum while translating theory to practice in order to apply classroom knowledge in the sport setting.
- SML students will distinguish and employ effective leadership principles, management styles, and decision-making skills in sport organizations.
- SML students will identify and understand major issues in sport and how they can reflect as well as bring about change in society relative to diversity, equity, and inclusion.
- SML students will understand the importance of working collaboratively in order to effectively solve problems and reach organizational goals.
- SML students will be exposed to the basic operating principles in the sport industry in order to gain an understanding of the potential career paths.

- SML Students will be able to organize, apply and synthesize information and ideas while effectively expressing these in both oral and written form (critical and technical) through various contexts, technologies and platforms.
- SML students will develop, utilize and reflect on professional skills while demonstrating an ability to self-advocate in their career development.
- SML students will apply critical thinking and problem-solving skills to develop and analyze research data on issues related to the sport industry.

## Sport Management Minor

<https://chhs.unh.edu/kinesiology/program/minor/sport-management>

### Description

The Sport Management minor offers an opportunity for students outside of the major to strategically take classes in our SML curriculum, specifically designed to provide students with the basic knowledge of sport management. The minor consists of two required Sport Management courses and then a variety of options across our SML curriculum and within Paul College.

Admission into the minor is based on successful completion of SML 580 Sport Industry and a minimum GPA of 2.0. Please contact [sophia.min@unh.edu](mailto:sophia.min@unh.edu) for additional information.

### Requirements

- To graduate with a sport management minor, individuals must earn a grade of C- or better in all courses associated with the minor.
- Sport Management and Leadership/Sport Studies majors are not permitted to minor in sport management.

Code	Title	Credits
<b>Two Required Courses</b>		
SML 580	Sport Industry <sup>1</sup>	4
SML 564	Introduction to Sport Marketing	4
<b>Select two courses from the following:</b>		
SML 630	Sport Facility and Event Management	4
SML 634	Sport Sponsorship and Sales	4
SML 738	Sport Finance	4
SML 740	Athletic Administration	4
SML 764	Advanced Sport Marketing <sup>2</sup>	4
<b>Select one course from the following:</b>		
PAUL 450	Personal Finance	4
MGT 535	Organizational Behavior	4
or ADMN 575	Behavior in Organizations	4
MKTG 649	Foundations of Personal Selling	4
ECON 676	Economics of Sports	4

<sup>1</sup> SML 580 Sport Industry should be the first class students take in this minor. Additionally, enrolling in this class is when a student fills out the intent to minor form.

<sup>2</sup> If not taken as one of the two required courses.

## College of Liberal Arts

Michele Dillon, Dean

Jenni Cook, Associate Dean

### Scott Weintraub, Faculty Fellow

It is the purpose of the College of Liberal Arts, as a center of learning and scholarship, to help students achieve an understanding of the heritage of civilization and to educate them in the tradition of the past and realities of the present so they may recognize and act upon their obligations to the future.

The college seeks to meet the educational needs of each student through the development of interests and skills, which, combined with the individual's potential, make possible a richer, more useful life.

## Degrees

### Bachelor of Arts

These programs primarily provide a broad liberal education along with depth in a major. Requirements for the bachelor of arts degree and information regarding the majors that lead to a bachelor of arts are outlined under [Programs of Study](#) (p. 186).

### Bachelor of Fine Arts

This curriculum provides training for students who plan to enter a professional graduate school. Requirements for the bachelor of fine arts degree are outlined under [Programs of Study/Art and Art History](#) (p. 194).

### Bachelor of Music

This curriculum provides professional training in performance, composition, music education, and music pre-teaching and allows students to develop their talent to a standard equivalent to the one achieved at conservatories of music. Requirements for the bachelor of music degree and information regarding the curriculum are presented in [Programs of Study/Music](#) (p. 252). Degrees include Music Education, Pre-Teaching, Performance and Composition.

### Bachelor of Science

This curriculum provides strong preparation for entry into graduate programs in neuroscience, behavior, pharmacology and medicine. Requirements for the bachelor of science degree and information regarding this major are outlined under [Programs of Study/Neuroscience and Behavior](#) (p. 265).

The [homeland security major](#) (p. 441), offered on both the Durham and Manchester campuses, also leads to a bachelor of science degree.

## Combined Programs of Study

In addition to pursuing a single major, students may combine programs of study as follows:

**Minors:** Students may pursue one or more minors, each typically comprised of 5 courses. Minors are available in nearly every discipline within the College of Liberal Arts.

**Cognates:** Students may pursue one or more cognates, each typically comprised of 3 courses and intended to develop career-oriented skills. The list of cognates and their requirements are found under [Cognates](#) (p. 203).

**Second (Double) majors:** Students may choose to fulfill the requirements of two dissimilar major programs.

**Dual majors:** Students may choose to fulfill the requirements of a dual major, typically comprised of 8 courses. Dual majors are designated

programs that must be paired with another major of any discipline. Dual majors in the College of Liberal Arts are [educational studies](#) (p. 214), [humanities](#) (p. 243), [global studies](#) (p. 275) and [justice studies](#) (p. 246).

See [Special University Programs](#) (p. 649) for information about the Sustainability dual major.

*Student-designed majors:* Under special circumstances, students may design their own majors.

*Dual-degree programs:* Students may choose to fulfill the requirements of two separate degrees, such as a B.A. and a B.S.

*Interdisciplinary opportunities:* See the [Interdisciplinary Studies](#) web page for the complete list of interdisciplinary programs within the College of Liberal Arts.

## Proficiency in a Foreign Language

Please see the explanation of this University requirement under [Foreign Language Requirement](#) (p. 31): Bachelor of Arts.

Within the College of Liberal Arts, only those students majoring in linguistics, philosophy, psychology, sociology, theatre and dance, or women's and gender studies may use American Sign Language (ASL) to fulfill their foreign language proficiency requirement. English teaching majors who plan to pursue deaf studies may petition the English department to use ASL to fulfill their foreign language proficiency requirement.

## COLA Study Abroad

[cola.unh.edu/cola-study-abroad](http://cola.unh.edu/cola-study-abroad)

The College of Liberal Arts offers a number of managed study abroad programs that are administered by college faculty and the College of Liberal Arts. These programs provide opportunities for liberal arts students as well as students in other colleges to experience and learn about different cultures and, in non-English-speaking countries, to increase proficiency in a foreign language.

Because the college administers these programs, registration, finances, and other logistics are streamlined and simple. Students pay UNH tuition and a single program fee, which covers housing, excursions, and, in some cases, board. Most UNH student fees are waived with the exception of the technology fee, a study abroad administration fee, and an international travel insurance fee. Students are eligible for federal financial aid for the semester-long programs.

Please see the list of eligibility requirements under [Study Abroad Programs](#) (p. 643).

To learn more about any of the programs, contact the program director listed on the website for each program or Mike Merrill, the study abroad advisor at [michael.merrill@unh.edu](mailto:michael.merrill@unh.edu).

## Career and Professional Success

[cola.unh.edu/careers](http://cola.unh.edu/careers)

The College of Liberal Arts is committed to helping students achieve success in their career and professional endeavors. From one-on-one career counseling appointments to internship placements and employer visits to campus, the Career and Professional Success office supports

students with the tools and resources to secure meaningful, impactful, and rewarding careers.

The Career and Professional Success office is located at 102 McConnell Hall.

## Research Centers Center for the Humanities

[cola.unh.edu/center-humanities](http://cola.unh.edu/center-humanities)

The Center for the Humanities fosters excellence in the humanities, broadly conceived, at the University of New Hampshire. Center resources and programs support faculty research, encourage reflection and inquiry across the University community and beyond, create interdisciplinary initiatives in many forms, and undertake special projects to raise the visibility of the humanities. To accomplish this, the center endeavors to support the highest quality work by UNH humanities faculty, to build productive collaboration among faculty, to create singular projects that advance its goals, and to be a center of innovation, planning and inspiration for the humanities at the University of New Hampshire. By pursuing its goals, the center supports the University's research mission in particular, as well as its academic plan.

The center is the sponsor of the Saul O Sidore Memorial Lectures and the James H. and Claire Short Hayes Chair in the Humanities.

## Crimes Against Children Research Center

[www.unh.edu/ccrc](http://www.unh.edu/ccrc)

The Crimes Against Children Research Center (CCRC) is concerned with all forms of crimes against children and adolescents, from birth through age 17, both within and outside the family, both known and unknown to law enforcement. These include criminal acts as defined by law, such as sexual assault, abduction, theft, robbery and aggravated assault against children. But it also includes child abuse in all its forms—physical, sexual, emotional—and child neglect, as well as child-to-child violence, such as peer and sibling assaults and bullying. It also includes indirect victimization, where children witness or are affected by the crime victimization of a family member or friend.

The CCRC, created in 1998, grew out of and expands upon the work of the UNH Family Research Laboratory, which has been devoted to the study of family violence and related topics since 1975. Associated with the center is an internationally recognized group of experts who have published numerous books and articles concerning the incidence and impact of violence against children.

CCRC staff has contributed to many pioneering national crime studies, including National Incidence Study of Missing, Abducted, Runaway and Thrownaway Children; National Family Violence Survey; National Youth Victimization Prevention Survey; National Survey of Sexual Abuse in Day Care; Developmental Victimization Survey; Youth Internet Safety Surveys; and Multisite Evaluation of Children's Advocacy Centers.

The CCRC is directed by David Finkelhor, who is also the director of the Family Research Laboratory and professor of sociology at the University of New Hampshire. Finkelhor has been researching criminal violence against children since 1978 and is the author and editor of 12 books and more than 100 articles on the subject.

## Family Research Laboratory

[cola.unh.edu/family-research-laboratory](http://cola.unh.edu/family-research-laboratory)

Since 1975, the Family Research Laboratory (FRL) has devoted itself primarily to understanding family violence and the impact of violence in families. As public and professional interest in family violence has grown, so has the need for more reliable knowledge. The FRL seeks to fill that need through comprehensive literature reviews, new theories and methodologically sound studies. Researchers at the FRL pioneered many of the techniques that have enabled social scientists to estimate directly the scope of family violence. These efforts have brought international recognition to the FRL.

The FRL is unusual among research centers in the field because it addresses all aspects of the family, violence and abuse. Topics undertaken by the FRL include physical abuse of children, corporal punishment of children, sexual abuse of children, physical abuse of spouses, dating violence, abuse of the elderly, intra-family homicide, rape and marital rape, violence between siblings, peer victimization of children, pornography, and missing and abducted children. This variety of topics is a result of beliefs that have guided FRL research: that various forms of family problems are interrelated, that conflict is as basic to family life as are love and cooperation, and that much of the conflict and violence in the world outside the family can be traced to roots within the family. This holistic view of family violence has contributed both diversity and richness to the FRL's work.

The FRL's prominence in the field is in part a result of the large number, variety and scope of its publications. In a span of 10 years, FRL staff members have published more than 45 books and more than 740 articles on family violence.

The FRL is housed in a suite of offices in McConnell Hall. The FRL is directed by David Finkelhor, professor of sociology and director of the Crimes Against Children Research Center.

## The Survey Center

[cola.unh.edu/survey-center](http://cola.unh.edu/survey-center)

The UNH Survey Center is a full-scale, non-partisan academic survey research center, committed to providing university researchers, government and business leaders, and private organizations with reliable information about public attitudes concerning important policy matters. It is nationally known for its public opinion and political polling for CNN, Fox News and WMUR-TV.

The UNH Survey Center has conducted survey research projects at the University of New Hampshire since 1986: state, regional and national general population surveys based on probability sampling; surveys that target specific populations; surveys that utilize complex stratified sampling techniques; and panel studies. The Survey Center conducts telephone, mail and web surveys, as well as focus groups and other qualitative research projects.

The UNH Survey Center is located at 9 Madbury Road, Suite 401 and features a 41-station Computer-Assisted Telephone Interviewing (CATI) system. The Survey Center is directed by Andrew E. Smith, who is also associate professor of practice in political science.

## Related Research Centers

### Carsey School of Public Policy

[carsey.unh.edu](http://carsey.unh.edu)

The Carsey School of Public Policy at the University of New Hampshire is a nationally acclaimed resource for research, leadership development and engaged scholarship relevant to public policy. The school's activities

address the most pressing challenges of the twenty-first century, striving for innovative, responsive and equitable solutions at all levels of government and in the for-profit and nonprofit sectors. Faculty and students throughout the College of Liberal Arts serve as staff, fellows, researchers and assistants in the school.

## Prevention Innovations Research Center

Prevention Innovations Research Center is a research center at the University of New Hampshire made up of researchers and practitioners who work collaboratively to develop and evaluate prevention strategies, evidence-based measures to document the problems of sexual and relationship violence, stalking and harassment, and comprehensive community tools to effectively address the causes of violence. The Prevention Innovations Research Center (PIRC) assists high schools, colleges and universities, the United States Military and federal, state and local researchers and practitioners to develop, evaluate and implement model policies, procedures and programs to end sexual and relationship violence, stalking and harassment. PIRC plays a prominent role in working with New Hampshire criminal justice, advocacy and crisis organizations and state offices.

The Prevention Innovations Research Center is recognized for its groundbreaking research in the field of sexual violence prevention and response. PIRC has conducted first-of-its-kind research on campus violence, LGBTQ+ victimization, the economic cost of sexual violence and community responsibility in violence prevention. The center's staff and fellows are nationally and internationally recognized leaders in prevention and response who design and provide cutting-edge contributions to evidence-based practices in prevention and make significant contributions to scholarship, programming and policy making in the field. Their efforts emphasize the importance of using a community bystander focus while examining the continuum of violence.

A cornerstone of PIRC's mission is to mentor the next generation of researchers and practitioners. The Susan Schechter Domestic and Sexual Violence Social Justice Laboratory (Schechter Lab) is an interdisciplinary research laboratory within the Prevention Innovations Research Center where undergraduate and graduate students earn academic credit for their role as research assistants and work with members of the staff on their research, report writing and publications. The Sharon B. Murphy Scholarship supports undergraduate and graduate student scholarship in the fields of domestic and sexual violence and stalking for work within the Schechter Lab.

PIRC works with practitioners and community partners to implement and refine approaches to prevention and response. This collaborative approach has contributed significantly to scholarly research, practice literature, institutional responses to sexual and relationship violence, sexual harassment and stalking, and technology transfer. PIRC provides effective, research-informed solutions to create safe, equitable environments.

## Academic and Cultural Centers

### Global Racial and Social inequality lab

[cola.unh.edu/global-racial-social-inequality-lab](http://cola.unh.edu/global-racial-social-inequality-lab)

The Global Racial and Social inequality lab (GRSIL) is a dynamic site of research, pedagogical and community engaged activity. Faculty and students (undergraduate and graduate) already working on or interested in projects that variously engage with racial and social inequality are invited and encouraged to participate in the GRSIL. Additionally, the Lab encourages faculty and student engagement on these thematic

areas by incentivizing new and continuing research on such topics and with the intention to apply for external funding to support this research. The Lab provides pedagogical workshops on evolving best practices in creating inclusive syllabi and inclusive classrooms, as well as provides a venue for open discussion of complex issues. Additionally, the GRSIL serves as the administrative home of COLA's many interdisciplinary minors focused on inequality. The Lab uses its analytical expertise to facilitate community partnerships, develop internships and expand our collaborative relationships with community colleges and non-profit community organizations in the region.

## Museum of Art

[cola.unh.edu/museum-art](http://cola.unh.edu/museum-art)

The Museum of Art serves as the New Hampshire Seacoast's premier public art museum and, for more than 50 years, has remained a vital resource for the visual arts, serving the University, local, and regional communities. Visitors and members gather to enjoy a wide variety of changing exhibitions, as well as annual exhibitions featuring UNH studio faculty and student work. Exhibitions of outdoor sculpture by regional artists are shown regularly in the Mills Courtyard. Accompanying programs include gallery talks, lectures, concerts, family programs and special events. The museum's summer Art Camp provides K-12 students with quality hands-on visual arts and instruction.

The museum's diverse permanent collection includes more than 1,800 works of art, from prehistoric to contemporary. The works are exhibited in the galleries and the Collection Study Area on a regular basis and are also used by faculty, students and scholars for teaching, research and interdisciplinary study.

Located in the Paul Creative Arts Center, the museum is open to students, faculty, museum members and the general public free of charge. For more information, call (603) 862-3712 or visit [cola.unh.edu/museum-art](http://cola.unh.edu/museum-art).

## Africana and African American Studies (AFAM)

### Programs

- [Africana and African American Studies Minor](#) (p. 186)

## Africana and African American Studies Minor

<https://cola.unh.edu/interdisciplinary-studies/program/minor/africana-african-american-studies>

### Description

The Africana and African American studies minor (AFAM) encompasses multidisciplinary, comparative and global research with and about peoples and cultures of Africa and its Diasporas. Diaspora is defined by dispersals and mobilities of communities, the result of exploration, migration and or coercion. African Diaspora communities exist everywhere, from Europe, the Middle East and Asia, to South and North America. We consider how Africana heritage and culture is shaped by these long-standing, long-range connections between diverse places, making our focus importantly geographic and our content intrinsically cosmopolitan.

We foreground the experiences of African, African Diaspora and African American communities in our research, teaching and engagement. We consider how understanding exceptional experiences and histories of exclusion and communion can inform work for building a more sustainable, equitable and just world.

Blackness is a primary root for study and practice in the AFAM minor at UNH. Notwithstanding complex historic antecedents of race and racism, we consider how Blackness (/blackness) first consolidated as racial phenomena in the fifteenth century through global commodity capitalism. In this process, the modern enslavement and worldwide dispersal of African peoples arguably made up the first historic articulations of Blackness, the first major instance of globalization and one of the worst tragedies of human history with which we still reckon today. Throughout this history, the meanings and operations of race and racism in local contexts have not been altogether uniform but nonetheless reveal common dynamics of Black peoples' marginalization and structural dispossession of sociocultural, political and material resources.

In this root, AFAM students learn about varieties of historic and contemporary Blackness and what it means to be Black (/black): as lived experience, categorical attribution and aspect of intersecting identities; as creatively spiritual, aesthetic, and discursive expression and media; as antiracist reclamation and foundation for agency, activism and sociopolitical mobilization; and as a fount for queerness, love, joy and liberation. Our students and faculty consider how Black experiences are multidimensional and multivalent, subject to ongoing clarification within and among diverse communities worldwide, and differently and lyrically voiced and performed for multiple means and ends. We consider how Blackness entails an existential and practical quest for freedom from oppressive orders and boundary-making.

The AFAM program has a strong focus on coursework and research on African American and or Black peoples in the United States, as their cultures and history have been integral to the development of the nation-state and also highlight the country's problems and promises. The program also offers many courses on the cultures and history of Africa and its other Diaspora communities. Our courses range from the humanities to the social and natural sciences, and our approaches and methods are applicable to virtually all areas of study at UNH. Students are encouraged to take courses from a variety of disciplines. The minor therefore is designed to serve the needs of all students, regardless of

their background, and to complement their work in their major fields of study.

We maintain close intellectual and practical solidarities with UNH's Center for the Humanities, Department of Women's and Gender Studies, and other interdisciplinary minor programs in American Studies, Native American and Indigenous Studies, Latin American, Latinx, and Caribbean Studies, Queer Studies, and Race and Ethnic Studies. Our program faculty also maintain ties with Black educational and community organizations, such as the Seacoast African American Cultural Center, Black Heritage Trail of New Hampshire and others in the region.

The introductory course is meant to provide students with a general understanding of subjects and areas within the broader and related fields African, African Diaspora, African American and Black studies. Electives enable students to explore their interests and or develop greater understanding and synthesis of these subjects and areas. The upper-level course requirement is meant to be a culmination of a student's work in the minor and a key conversation point with program faculty about future research and graduate study, community engagement and career options. Students should arrange to meet with faculty teaching this course early in the semester to establish goals for this culminating experience. Study abroad credits may also count with permission from the coordinator or other program faculty. A list of approved courses are posted each semester online.

Students can also pursue independent study and internship options as well for their elective or upper-level course requirement, with on-campus or community organizations such as the UNH Bearegard Center or Black Students Union, Seacoast African American Cultural Center, Black Heritage Trail of New Hampshire or local chapters of national organizations. These options are supervised by program faculty and may be taken under the AFAM or other departmental codes.

## Requirements

AFAM consists of five, 4-credit courses (or any course combination for 20 credits total). These include (1) a 400 or 500 level introductory course taught by an AFAM program faculty member, (2) two other approved elective courses related to the student's choice of concentration, and (3) a course at the 600 or 700 level, also taught by an AFAM program faculty member. Students must earn a C- or better in each course, and maintain a 2.0 grade-point average in courses taken for the minor.

Code	Title	Credits
<b>Introductory Course</b>		<b>4</b>
Select from the following		
ANTH #450	Introduction to Race, Culture, and Power	
ANTH 500	Peoples and Cultures of the World (Only topic D: Sub-Saharan Africa)	
ENGL #517	Black Creative Expression	
ENGL 549	In the Groove: African American Music as Literature	
GEOG 550	Sub-Saharan Africa: Environmental Politics and Development	
HIST 444D	Slavery and Society in Pre-Colonial Africa	
HIST 505	African American History	
HIST #506	African American History	
HIST 588	History of Modern Africa: 1870 to the Present	
<b>Pre-Approved Elective Courses</b>		<b>12</b>
Select from the following		
CLAS 550B	Identities and Difference in the Ancient World: Slaves and Masters	
CLAS 551	Race, Ethnicity, Class & Classics	
CMN 567	Gender, Race, and Class in the Media	
EDUC 797	Special Topics in Education (Only topic: Teaching Race)	
ENGL 440A	On Race in Culture and Society	
ENGL 550	Introduction to the Literature and Culture of Race	

ENGL 581	Reading the Postcolonial Experience
ENGL 681	Contemporary African Literature
ENGL 693	Special Topics in Literature (Only topic: African American Writers)
ENGL 774R	Modern & Contemporary British Literature: New Departures (Only topic: Black British Writing)
ENGL 778	Race and Gender in Film and Popular Culture
ENGL 787	English Major Seminar (Only topic: Slavery and Culture)
FREN 765	Rebellion and Upheaval in 18th-Century Literature and Culture
GEOG 402	World Regions: Asia and Africa
HIST 440A	Martin Luther King, Jr., and the Struggle for Racial Justice
HIST 440D	Honors/Citizens and Persons
HIST 587	History of Africa from the Earliest Times to 1870
HIST 611	Civil War Era
HIST 690	Seminar: Historical Expl (Only topic: Race in 20th Century America)
HDFS 757	Race, Class, Gender, and Families
MUSI 460	Jazz Band <sup>1</sup>
MUSI 463	Jazz Combo <sup>1</sup>
MUSI 562	Jazz Piano <sup>1</sup>
MUSI 563	Jazz Guitar <sup>1</sup>
MUSI 762	Jazz Piano <sup>1</sup>
MUSI 763	Jazz Guitar <sup>1</sup>
PHIL 780	Special Topics (Only topic: Race, Gender and Social Justice)
PSYC 791	Special Topics (Only topic: Race, Power and Culture)
SOC 530	Race and Racism
WS 401	Introduction to Women's Studies
WS 405	Gender, Power and Privilege
WS 444A	Race Matters
WS 505	Survey in Women's Studies
WS 798	Colloquium
One Upper-Level Course with Program Faculty <sup>2</sup>	
Select from the following	
ANTH 680	Africana Religions: Mobility, Power, and Material Culture
ANTH 685	Gender, Sexuality and HIV/AIDS in Sub-Saharan Africa
ANTH 695	Globalization and Global Population Health
ENGL 650	I Hear America Singing: Studying American Literature and Culture
ENGL 787	English Major Seminar (Only topic: Black New England)
GEOG 685	Population and Development
HIST 600	Explorations (Only topic: Black and Indigenous NH)
HIST 797	Colloquium (Only topic: Slavery, War and Emancipation)
SOC 645	Class, Status and Power
SOC 745	Race, Ethnicity, and Inequality
Total Credits	
20	

<sup>1</sup> May require audition with the Music Department

<sup>2</sup> Internship and other courses with program faculty may also apply here

## American Studies (AMST)

### Programs

- [American Studies Minor](#) (p. 187)

## American Studies Minor

<https://cola.unh.edu/interdisciplinary-studies/program/minor/american-studies>

### Description

American studies is the interdisciplinary examination of American life and culture at regional, national, and international scales. It integrates perspectives from a wide variety of disciplines, including history, English, communications, political science, geography, sociology and the arts.

At UNH, the American studies minor is an individualized program of study that allows each student to choose from a broad range of courses offered by several different departments that best match their interests and needs. It is intended to encourage students with particular interests in the United States to develop those interests and learn more about the country from a variety of perspectives.

## Requirements

To earn a minor in American studies, students must complete five courses approved to satisfy minor requirements. At least one of those courses must concentrate on issues of race, gender, or ethnicity. No more than three courses may be at the 400 or 500 level, and no more than two courses may be taken in the same department. Students must earn a C-minus or better for a course to count toward minor requirements and must maintain a 2.0 grade point average in all courses taken for the minor.

## Courses

Code	Title	Credits
ANTH 697	Special Topics	4
ARTH 693	American Art	4
CMN 505	Analysis of Popular Culture	4
CMN 607	Persuasion in American Politics	4
CMN #757	Public Address and the American Experience	4
ENGL #517	Black Creative Expression	4
ENGL 738	Asian American Studies	4
ENGL 739	American Indian Literature	4
HIST 405	History of Early America	4
HIST 406	History of the Modern United States	4
HIST 410	Historic Survey of American Civilization	4
HIST #506	African American History	4
HIST 600	Explorations	4
HIST 603	European Conquest of North America	4
HIST 611	Civil War Era	4
HIST 613	American Ways of War	4
HIST 618	American Environmental History	4
HIST 620	Foreign Relations of the United States	4
ITAL 444A	Italians Come to America: Representing Emigration and Immigration on Both Sides of the Atlantic	4
MUSI 405	Survey of Music in America	4
POLT 402	American Politics and Government	4
POLT 403	United States in World Affairs	4
POLT 500	American Public Policy	4
POLT 508	Supreme Court and the Constitution	4
POLT 523	American Political Thought	4

THDA 450	History of Musical Theatre in America	4
WS 405	Gender, Power and Privilege	4

## Anthropology (ANTH)

Anthropology is a field of visionaries, makers and collaborators, taking a critical, creative and holistic approach to the study of humankind. Our faculty teach hands-on courses in archaeology and socio-cultural, applied, biological and forensic anthropology, reflecting our faculty members' research in the Americas, Europe, Africa, and Central and Southeast Asia. Through coursework, fieldwork and study-abroad experiences, students gain life-long learning skills that prepare them for success in cross-cultural understanding and communication, working for diverse organizations and tackling complex social issues in today's global world. Our students are employed in a range of areas such as public health, business, international development, museums and education.

<https://cola.unh.edu/anthropology>

## Programs

- [Anthropology Minor](#) (p. 190)

## Faculty

<https://cola.unh.edu/anthropology/faculty-staff-directory>

## Anthropology Major (B.A.)

<https://cola.unh.edu/anthropology/program/ba/anthropology-major>

## Description

Anthropology asks the question: What does it mean to be human? We answer this fundamental query with a global perspective on the human condition as students explore both the similarity and diversity of human experience. Through courses that cover a wide range of societies throughout the world, we investigate the human condition, past and present. Introductory courses provide an overview of the fields of anthropology: social and cultural anthropology, archeology, physical anthropology and linguistics. More advanced courses provide the opportunity for students to pursue intensive study of particular topics in cross-cultural perspective. The department emphasizes critical thinking and writing skills and encourages close faculty/student contact in seminar courses and at the upper level. Students, in consultation with their academic adviser, have the opportunity to take courses in other departments that complement specific foci in anthropology.

At this time of increasing globalization, anthropology provides students with a broad overview of diverse peoples and cultures. Majors are therefore well prepared to live in a rapidly changing world. The major both prepares students for graduate-level studies and serves as a foundation for a wide range of careers. With backgrounds in anthropology, our students become teachers, social workers, public policy experts, forensic investigators, health practitioners, primatologists, international business executives, and community and economic development specialists, as well as pursuing various other careers.

To declare a major in anthropology, students must have completed at least one introductory level anthropology course at the 400 or 500 level with a grade of C or better.

## Requirements

### Degree Requirements

**Minimum Credit Requirement:** 128 credits

**Minimum Residency Requirement:** 32 credits must be taken at UNH

**Minimum GPA:** 2.0 required for conferral\*

**Core Curriculum Required:** Discovery & Writing Program Requirements

**Foreign Language Requirement:** Yes

All Major, Option and Elective Requirements as indicated.

\*Major GPA requirements as indicated.

## Major Requirements

Majors must complete a minimum of 40 credits in anthropology with grades of C or better and in accordance with the below requirements. The required minimum overall GPA in major coursework is 2.0.

Code	Title	Credits
<b>Required Courses</b>		
ANTH 411	Global Perspectives on the Human Condition: An Introduction to Anthropology	4
or ANTH 412	Broken Pots and Buried Cities: Introduction to World Archaeology	
or ANTH 415	The Human Story: Evolution, Fossils and DNA	
ANTH 500	Peoples and Cultures of the World	4
or ANTH 501	World Archaeological Cultures	
ANTH 511	Core Concepts in Anthropology	4
ANTH 513	Ethnographic Methods	4
or ANTH 514	Method and Theory in Archaeology	
ANTH 611	History of Anthropological Theory	4
<b>Electives</b>		
One additional course numbered 500 or above		4
Three additional courses numbered 600 or above		12
<b>Capstone Requirement</b>		
ANTH 750	Islam and Gender: Gendered Lives of Muslims	4
or ANTH 785	The Anthropology of Dreams and Dreaming	
or ANTH 797	Advanced Topics	
<b>Total Credits</b>		<b>40</b>

(Note: While 8 credits, ANTH #699 Senior Thesis and ANTH 699H Honors Senior Thesis count only as one ANTH 600-level course requirement.)

The Discovery Program capstone requirement may be fulfilled by completing one 700-level course (seminar format).

Other courses, internships, or experiences may be substituted with the permission of the student's adviser and anthropology department chair.

Anthropology majors may use one major-required course to satisfy one Discovery category requirement. Candidates for a degree must satisfy all of the University Discovery Program requirements in addition to satisfying the requirements of each individual major program. Bachelor of arts candidates must also satisfy the foreign language proficiency requirement. American Sign Language may not be applied toward the foreign language requirement.

Honors-in-major and senior thesis options are available.

Students declaring the major in anthropology are expected to make steady progress toward fulfillment of major requirements. Typically, this means taking at least one anthropology course per semester until all of the requirements have been met. A student who has fulfilled most of the major requirements may request an exception to this policy from their advisor.

## Degree Plan

Below is a general degree plan that we recommend anthropology majors follow as they plan their course schedules for their major course requirements over their four years at UNH. This general plan provides a recommended pace and appropriate order for the core courses offered in the major.

Course	Title	Credits
<b>First Year</b>		
ANTH 411	Global Perspectives on the Human Condition: An Introduction to Anthropology	4
or ANTH 412	or Broken Pots and Buried Cities: Introduction to World Archaeology	
or ANTH 415	or The Human Story: Evolution, Fossils and DNA	
ANTH 500	Peoples and Cultures of the World	4
or ANTH 501	or World Archaeological Cultures	
ANTH 511	Core Concepts in Anthropology	4
<b>Credits</b>		<b>12</b>
<b>Second Year</b>		
ANTH 513	Ethnographic Methods	4
or ANTH 514	or Method and Theory in Archaeology	
One ANTH 500-level or above course		4
One ANTH 600-level course		4
<b>Credits</b>		<b>12</b>
<b>Third Year</b>		
ANTH 611	History of Anthropological Theory	4
One ANTH 600-level or above course		4
One ANTH 600-level or above course		4
<b>Credits</b>		<b>12</b>
<b>Fourth Year</b>		
ANTH #699	Senior Thesis (optional)	4-8
ANTH 750	Islam and Gender: Gendered Lives of Muslims	4
or ANTH 785	or The Anthropology of Dreams and Dreaming	
or ANTH 797	or Advanced Topics	
<b>Credits</b>		<b>8-12</b>
<b>Total Credits</b>		<b>44-48</b>

## Student Learning Outcomes

- Demonstrate ability to conduct anthropological research: to collect primary and secondary source data in the observation, documentation, or excavation of human actions, languages, remains, and or material artifacts.
- Master the ability to write with an anthropological lens: to critically analyze data with respect to historical and current anthropological theories and perspectives, and to construct persuasive arguments.
- Exhibit skills in presentation of anthropological research: in writing (ethnography, technical reports, and other genres), inter-personal and public speaking, and or data visualization (graphic illustration, exhibition, mapping, or modeling, for example).
- Demonstrate the knowledge or ability to collaborate with research partners and communities as part of a commitment to public, applied, engaged, or activist anthropology and archaeology.
- Demonstrate the ability to think comparatively about diversity and inequality across the global as well as within a specific social context, and to apply anthropological methods, perspectives, and theories to the world around them.

# Anthropology Minor

<https://cola.unh.edu/anthropology/program/minor/anthropology>

## Description

Anthropology asks the question: What does it mean to be human? Anthropologists, as scholars, collaborators, public figures and activists, take a critical, creative and holistic approach to the study of humankind. In our relatively small program in the College of Liberal Arts, students have the opportunity to take hands-on courses in archaeology and socio-cultural, applied, medical, biological and forensic anthropology, reflecting our faculty members' academic and applied research in the Americas, Europe, Africa, and Central and Southeast Asia.

Through coursework, fieldwork and study-abroad experiences, students gain life-long learning skills that prepare them for success in cross-cultural understanding and communication, as well as the ability to think comparatively about diversity and inequality on a local and global level.

A minor in anthropology provides many opportunities for cross-disciplinary collaboration, as students are encouraged to apply anthropological methods, perspectives and theories to the world around them, and to their other areas of study. Upon graduation, our majors and minors work for a diverse set of organizations, and are employed in a range of areas such as public health, business, law, international development, non-profit organizations, museums and education.

You do not need to declare a minor; however, it might be wise to meet with a faculty member from the Anthropology Department to discuss your minor plan.

At the beginning of your final semester of study, you should complete a certification of completion of minor form, obtain the necessary signatures, and submit it to your Dean's Office.

## Requirements

A minor consists of five 4-credit courses (20 credits) in Anthropology, with a C or better in each course.

Code	Title	Credits
Select one ANTH course numbered 600 or above		4
Select four elective ANTH courses		16
Total Credits		20

# Arabic (ARBC)

## Programs

- [Arabic Minor](#) (p. 190)

# Arabic Minor

<https://cola.unh.edu/languages-literatures-cultures/program/minor/arabic>

## Description

There are 26 countries where Arabic is the official or co-official language, extending beyond the Middle East region. The Arabic minor facilitates students' acquisition of skills in this critical language (speaking, listening, reading and writing), as well as cross-cultural competence. The linguistic skills achieved in the successful completion of this minor will be at the Advanced or Intermediate-High Proficiency level in Arabic as defined and measured by the American Council on the Teaching of Foreign Languages (ACTFL) Proficiency Guidelines. This minor provides a strong complement to many majors and will prepare students to compete for national fellowship opportunities, graduate school, the job market – any opportunity in which proficiency in Arabic is required or preferred.

## Requirements

The Arabic minor consists of **5 courses (20 credits)** as follows:

Code	Title	Credits
Required Courses		
ARBC 503	Intermediate Arabic	4
ARBC 504	Intermediate Arabic	4
ARBC 631	Advanced Arabic I	4
ARBC 632	Advanced Arabic II	4
Elective Courses		
Select one of the following <sup>1</sup>		4
ARBC 425	Introduction to Arabic Culture	
ARBC 700	Arabic Media	
GEOG 540	Geography of the Middle East	
HIST 585	Medieval Islam	
HUMA 511A	Medieval Humanities: Rise of Global Empires <sup>2</sup>	
or HUMA 511B	Medieval Humanities: Rise of Global Empires	
or HUMA 511C	Medieval Humanities: Rise of Global Empires	
POLT 559	Comparative Politics of the Middle East	
Total Credits		20

<sup>1</sup> Or another course closely related to the minor area of study with approval of faculty.  
<sup>2</sup> Please check with the contact for the minor to make sure that the topics covered are sufficiently relevant to Arabic studies.

Students may take equivalent courses while studying abroad to satisfy any of the courses required for the minor.

# Art and Art History (ARTS)

The courses offered by the Department of Art and Art History provide an opportunity, within the liberal arts framework, for students to acquire a thorough knowledge of the basic means of visual expression, to study intensively the history of art, or to prepare themselves for a career in art teaching. In addition, these courses offer foundation experience for students who are interested in art but are majoring in other departments in the University. The Department of Art and Art History offers programs leading to a bachelor of arts degree in the arts with options in studio art, studio art/art education or art history and a bachelor of fine arts degree in studio art. Certification for art teaching in the public schools is offered in cooperation with the Department of Education (see Education, under Programs of Study).

The University reserves the right to retain selections from a student's work for a period of not more than two years.

## Double Option in The Arts

Students may earn a B.A. degree in the arts with both a studio art option and an art history option provided the requirements for each option are met. No more than 8 credits used for one option may be used for the second option. These 8 credits will be in Introductory Drawing and Introduction to Art History.

## Minors in the Department of Art and Art History

Students must receive a minimum grade of C- in all required courses. For art majors, only two courses from the art and art history major requirements can be applied toward the minor.

A maximum of two courses (8 credits) may be transferred from another accredited institution, provided UNH has accepted them as transfer credits. Transfer courses must be a minimum of three credits. Students with transfer courses that are accepted with less than four semester credits must still meet the credit requirement for completion of the minor.

## Arts Major: Art History Option (B.A.)

<https://cola.unh.edu/art-art-history/program/ba/arts-major-art-history-option>

### Description

The art history curriculum provides a comprehensive, in-depth study of Western art from the ancient world to the present as well as some exposure to non-Western cultures and artistic traditions. All courses in the program teach basic skills of interpretation and critical analysis within the framework of broad cultural perspectives that connect the visual arts to larger historical developments. They also teach good writing and research skills. In addition, art history majors typically branch out into other fields, such as history, literature and foreign languages. By the time they graduate, most majors are well equipped to pursue such traditional careers in the field as museum and gallery work, teaching, publishing or librarianship. But because art historical education is so

broad, it also prepares students for a variety of other, more flexible options, such as law, business or architecture.

### Requirements

#### Degree Requirements

**Minimum Credit Requirement:** 128 credits

**Minimum Residency Requirement:** 32 credits must be taken at UNH

**Minimum GPA:** 2.0 required for conferral\*

**Core Curriculum Required:** Discovery & Writing Program Requirements

**Foreign Language Requirement:** Yes

All Major, Option and Elective Requirements as indicated.

*\*Major GPA requirements as indicated.*

#### Major Requirements

Students must complete a minimum of 10 courses (40 credits). The following courses are required:

Code	Title	Credits
ARTH 400	Topics in Art History	4
or ARTH 440A	From Digging to Digital: Preserving and Displaying the Past	
or ARTH 444	Mona Lisa to Much Ado About Nothing: An Introduction to Renaissance Culture	
or ARTH 474	Introduction to Architectural History	
or ARTH 444B	Art and Money	
ARTS 532	Introductory Drawing	4
ARTH 795	Understanding Art History: An In-Depth Overview (Capstone)	4
ARTH 799	Seminar in Art History	4
<b>Art History Courses: Select six, 600/700-level courses from the areas below (one 500-level may be used):</b>		
Pre-Renaissance Courses (Select one)		4
ARTH 674	Greek Art and Architecture	
ARTH 675	Roman Art and Architecture	
ARTH 677	Early Medieval Art	
ARTH 678	Romanesque and Gothic Art	
Renaissance/Baroque Courses (Select one)		4
ARTH 501	Introduction to Mediterranean Archaeology	
ARTH 583	Baroque Art: Realism, Caricature, Shock	
ARTH 679	Northern Renaissance Art I	
ARTH 680	Iconoclasm and Collecting: The Art of Early Modern Northern Europe	
ARTH 681	Early Renaissance Art	
ARTH 682	The High Renaissance	
ARTH 684	Baroque Art in Northern Europe	
ARTH 685	Graphic Art of the Renaissance and Baroque Periods	
Modern Art Courses (Select one)		4
ARTH 587	Art in an Age of Revolutions, c. 1715-1900	
ARTH 654	17th and 18th Century American Architecture	
ARTH 655	Nineteenth-Century Architecture: The Architecture of Empire	
ARTH 656	Twentieth-Century Architecture: Modern and Contemporary	
ARTH 686	Sex and Sensuality in 18th-Century Art	
ARTH 688	Histories of Late 19th & 20th Century European Modernism	
ARTH 689	Contemporary Art and Theory: 1945-2000	
ARTH 693	American Art	
ARTH 694	Vision and Modernity: From Panorama to Early Film	
Electives: Pre-Renaissance, Baroque or Modern Art (select three additional courses)		12
ARTH 501	Introduction to Mediterranean Archaeology	
ARTH 583	Baroque Art: Realism, Caricature, Shock	
ARTH 587	Art in an Age of Revolutions, c. 1715-1900	
ARTH 654	17th and 18th Century American Architecture	
ARTH 655	Nineteenth-Century Architecture: The Architecture of Empire	
ARTH 656	Twentieth-Century Architecture: Modern and Contemporary	
ARTH 674	Greek Art and Architecture	

ARTH 675	Roman Art and Architecture	
ARTH 677	Early Medieval Art	
ARTH 678	Romanesque and Gothic Art	
ARTH 679	Northern Renaissance Art I	
ARTH 680	Iconoclasm and Collecting: The Art of Early Modern Northern Europe	
ARTH 681	Early Renaissance Art	
ARTH 682	The High Renaissance	
ARTH 684	Baroque Art in Northern Europe	
ARTH 685	Graphic Art of the Renaissance and Baroque Periods	
ARTH 686	Sex and Sensuality in 18th-Century Art	
ARTH 689	Contemporary Art and Theory: 1945-2000	
ARTH 693	American Art	
ARTH 694	Vision and Modernity: From Panorama to Early Film	
Total Credits		40

These courses must be completed with a minimum grade of C-. Art history students receive preferential placement in ARTS 532 Introductory Drawing. Students contemplating graduate school should learn German, and, if possible, either French, Italian, or another language relevant to their areas of interest.

The Discovery Program capstone requirement may be fulfilled by completing ARTH 795 Understanding Art History: An In-Depth Overview.

The required minimum overall GPA in major coursework is 2.0.

Candidates for a degree must satisfy all of the University Discovery Program requirements in addition to satisfying the requirements of each individual major program. Bachelor of arts candidates must also satisfy the foreign language proficiency requirement.

Art history majors may use two major-required courses to satisfy two Discovery category requirements.

## Student Learning Outcomes

- We expect our art history majors to become conversant with some of the major conventions artists and architects have subscribed to over the millenia, and with how these have been bent or broken and why.
- We expect them to learn to write cogently and clearly, and to be able to analyze orally on the spot what they see in a work of art or architecture, often by comparison and contrast with works they know well.

## Arts Major: Studio Art Option (B.A.)

<https://cola.unh.edu/art-art-history/program/ba/arts-major-studio-art-option>

## Description

The B.A. in art - studio art option provides a strong fine arts education and solid foundation that prepares students for a life in the arts, whether it be as a professional or commercial artist, a teacher, an architect, a designer or a museum director. We offer courses in painting, drawing, photography (both digital and wet lab techniques), printmaking, sculpture (all media: steel, aluminum, bronze casting, clay, and wood), furniture design and fabrication, ceramics and design. A degree in studio art provides a foundation for diverse professional achievement.

## Requirements

### Degree Requirements

**Minimum Credit Requirement:** 128 credits

**Minimum Residency Requirement:** 32 credits must be taken at UNH

**Minimum GPA:** 2.0 required for conferral\*

**Core Curriculum Required:** Discovery & Writing Program Requirements

**Foreign Language Requirement:** Yes

All Major, Option and Elective Requirements as indicated.

*\*Major GPA requirements as indicated.*

### Major Requirements

Students selecting to work toward a bachelor of arts degree in studio art must complete a minimum of 14 courses (56 credits), with a minimum grade of C in each course. The following courses are required:

Code	Title	Credits
Core Foundation (3 courses)		12
ARTS 510	Principles of Design	
ARTS 532	Introductory Drawing	
ARTS 567	Introductory Sculpture	
Core Supplemental (3 courses)		12
One additional 500/600-level 2D:		
ARTS 536	Introduction Printmaking: Intaglio	
ARTS 546	Painting Design I: Perceptual Painting and Color Theory	
ARTS 632	Intermediate Drawing	
ARTS 633	Life Drawing	
One additional 500-level 3D:		
ARTS 501	Introductory Ceramics	
ARTS 525	Introductory Woodworking	
One 500-level Photography:		
ARTS 551	Introduction to Darkroom Photography	
ARTS 552	Introductory Digital Photography	
4 Studio courses in a concentration at 500-600-700 level (see concentration courses below)		16
1 Studio Electives course (Jterm or summer course may be used):		4
Select from ARTS 501, ARTS 525, ARTS 536, ARTS 546, ARTS 551, ARTS 552, ARTS 596, ARTS 598, ARTS 601, ARTS 610, ARTS 611, ARTS 612, ARTS 613, ARTS 614, ARTS 625, ARTS 632, ARTS 633, ARTS 636, ARTS 646, ARTS 651, ARTS 667, ARTS 696, ARTS 732, ARTS 746, ARTS 791, ARTS 792, ARTS 796		
Core Art History (3 courses)		12
ARTH 480	Introduction to Art History	
or ARTH 474	Introduction to Architectural History	
Two 600-level or above art history courses:		
Select from ARTH 654, ARTH 655, ARTH 656, ARTH 674, ARTH 675, ARTH 677, ARTH 678, ARTH 679, ARTH 680, ARTH 681, ARTH 682, ARTH 684, ARTH 685, ARTH 686, ARTH 688, ARTH 689, ARTH 693, ARTH 694, ARTH 695, ARTH 697, ARTH 795		
Total Credits		56

### Concentration Courses (4 courses)

Minimum of three 600-700 level studio courses. No more than one of the following: a 500-level studio course (select from ARTS 501 , ARTS 525, ARTS 536, ARTS 546, ARTS 551, ARTS 552, ARTS 596), ARTS 598 An Artist's Life, a 600-700 level art history (see selection of courses in art history requirement above), or ARTS 600 Internship in Studio Art (with approval). Jterm and summer online courses cannot be used.

Code	Title	Credits
ARTS 601	Ceramics Workshop (may be repeated)	
ARTS 610	Principles of Typography	

ARTS 611	Animation and Motion Design
ARTS 612	Interaction & Game Design
ARTS 613	Design and Place
ARTS 614	Design and People
ARTS 625	Wood/Furniture Design Workshop (may be repeated)
ARTS 632	Intermediate Drawing
ARTS 633	Life Drawing
ARTS 636	Printmaking Workshop (may be repeated)
ARTS 646	Painting Design II: Perceptual Painting and the Individual Artist's Vision (may be repeated, must be taken twice before advancing to 746)
ARTS 651	Photography Workshop (may be repeated)
ARTS 667	Sculpture Workshop (may be repeated)
ARTS 732	Advanced Drawing (may be repeated)
ARTS 746	Painting Design III: Perceptual Painting and Narrative Themes (may be repeated)
ARTS 796	Independent Study: Studio Art (K: Wood Design, may be repeated)

While these courses represent the minimum departmental requirements for the studio art option, students may wish to plan a program involving greater depth in one or several of the studio areas.

The Discovery Program capstone requirement will be fulfilled by completing a capstone project that reflects the training received, and personal artistic growth made, throughout the student's years of study at UNH. The capstone project includes participation in the BA/BFA Senior Exhibition in the UNH Museum of Art in April-May. Students will submit a minimum of 5 (or the equivalent what would be the equivalent of 5) recent works for faculty to review and select for the exhibition. At the review a written artist statement and verbal explanation of the work must also be presented.

The required minimum overall GPA in major coursework is 2.0.

Candidates for a degree must satisfy all of the University Discovery Program requirements in addition to satisfying the requirements of each individual major program. Bachelor of arts candidates must also satisfy the foreign language proficiency requirement.

Studio art majors may use two major-required courses to satisfy two Discovery category requirements.

## Student Learning Outcomes

### Introductory (500) Level:

- Basic skillset in a particular arts discipline
- Working knowledge of the tools and materials used in a particular arts discipline
- Basic understanding of analytical thinking when making and talking about art
- Demonstrate development of artistry

### Intermediate (500/600) Level:

- Demonstrate development of artistry and skill set in a range of artistic disciplines
- Demonstrate knowledge of tools and materials beyond the basics
- Deeper ability to discuss and analyze works of art
- Ability to verbalize intent in a particular work of art
- Ability to research particular artists
- Ability to declare an area of concentration for advanced in a particular arts discipline

### Advanced (600/700) Level:

- Demonstrate a high level of artistry
- Ability to work independently
- Develop and Demonstrate an individual sensibility
- Ability to understand and verbalize intent in a work of art
- Ability to construct a professional capstone portfolio or thesis
- Demonstrate in-depth familiarity with a range of artistic movements both historical and contemporary

## Arts Major: Studio Art/Art Education Option (B.A.)

<https://cola.unh.edu/art-art-history/program/ba/arts-major-studio-art-art-education-option>

### Description

The program in art education is organized into a five-year, teacher-education sequence. This curriculum is designed to prepare teachers of art in the public schools. The satisfactory completion of the B.A. studio art curriculum for art education students and required education courses, in conjunction with the fifth-year internship, will satisfy the initial certification requirements for teachers of art in the public schools of New Hampshire and in most other states. These requirements may change by the time students apply for certification and the students are required to fulfill the then-current requirements. Art education students may take accredited crafts courses at other institutions as art electives.

A portfolio is required for acceptance to the studio art/art education option.

### Requirements

## Degree Requirements

**Minimum Credit Requirement:** 128 credits

**Minimum Residency Requirement:** 32 credits must be taken at UNH

**Minimum GPA:** 2.0 required for conferral\*

**Core Curriculum Required:** Discovery & Writing Program Requirements

**Foreign Language Requirement:** Yes

All Major, Option and Elective Requirements as indicated.

\*Major GPA requirements as indicated.

## Major Requirements

Students selecting to work toward a bachelor of arts degree in studio art/art education must complete a minimum of 14 courses (56 credits), with a minimum grade of C in each course. The following courses are required:

Code	Title	Credits
<b>Required Core Foundation (4 courses)</b>		<b>16</b>
ARTS 501	Introductory Ceramics	
ARTS 510	Principles of Design	
ARTS 532	Introductory Drawing	
ARTS 567	Introductory Sculpture	
<b>Required Core Supplemental (2 courses)</b>		<b>8</b>
One additional 500/600-level 2D:		
ARTS 536	Introduction Printmaking: Intaglio	

ARTS 546	Painting Design I: Perceptual Painting and Color Theory	
ARTS 632	Intermediate Drawing	
ARTS 633	Life Drawing	
One 500-level Photography:		
ARTS 551	Introduction to Darkroom Photography	
ARTS 552	Introductory Digital Photography (recommended)	
Four courses in a studio concentration at the 500/600/700 levels (see concentration courses below)		16
One studio elective (Jterm or summer course can be used)		4
Select from ARTS 501, ARTS 525, ARTS 536, ARTS 546, ARTS 551, ARTS 552, ARTS 596, ARTS 598, ARTS 601, ARTS 610, ARTS 611, ARTS 612, ARTS 613, ARTS 614, ARTS 625, ARTS 632, ARTS 633, ARTS 636, ARTS 646, ARTS 651, ARTS 667, ARTS 696, ARTS 732, ARTS 746, ARTS 791, ARTS 792, 796		
Three art history courses		12
ARTH 480	Introduction to Art History	
or ARTH 474	Introduction to Architectural History	
600-level elective (select from ARTH 654, ARTH 655, ARTH 656, ARTH 674, ARTH 675, ARTH 677, ARTH 678, ARTH 679, ARTH 680, ARTH 681, ARTH 682, ARTH 684, ARTH 685, ARTH 686, ARTH 688, ARTH 689, ARTH 693, ARTH 694, ARTH 695, ARTH 697, ARTH 795)		
600-level elective with depth of content in 20th-21st Century art (select from ARTH 656, ARTH 688, ARTH 689, ARTH 693, ARTH 694)		
In addition to the above, other courses are required for teaching certification.		
Total Credits		56

## Concentration Courses (4 courses)

Minimum of three 600-700 level studio courses. No more than one of the following: a 500-level studio course (select from ARTS 501 , ARTS 525, ARTS 536, ARTS 546, ARTS 551, ARTS 552, ARTS 596), ARTS 598 An Artist's Life, a 600-700 level art history (see selection of courses in art history requirement above), or ARTS 600 Internship in Studio Art (with approval). Jterm and summer online courses cannot be used.

- Demonstrate in-depth familiarity with a range of artistic movements both historical and contemporary

## Fine Arts Major (B.F.A.)

<https://cola.unh.edu/art-art-history/program/bfa/fine-arts>

## Description

Incoming first-year and transfer applicants wishing to enter the bachelor of fine arts (B.F.A.) degree program must first apply for, and be admitted to, the bachelor of arts (B.A.) in the Arts: Studio Art option. Students may submit a B.F.A. portfolio **after** they begin their studies at UNH, as early as the spring semester of their first year. A full faculty review is held each spring semester.

The B.F.A. curriculum provides advanced training for students who plan to enter professional graduate school or pursue careers as professional artists.

## Requirements

## Degree Requirements

**Minimum Credit Requirement:** 128 credits

**Minimum Residency Requirement:** 32 credits must be taken at UNH

**Minimum GPA:** 2.0 required for conferral\*

**Core Curriculum Required:** Discovery & Writing Program Requirements

**Foreign Language Requirement:** No

All Major, Option and Elective Requirements as indicated.

*\*Major GPA requirements as indicated.*

## Major Requirements

Students selecting to work toward a B.F.A. degree must complete a minimum of 17 courses and 72 credits, with a minimum grade of C in each course. Transfer of 3-credit courses from other institutions will require additional course(s) to fulfill the major requirement of 72 credits. Transfer courses can fulfill only 8 requirements. The following courses are required:

Code	Title	Credits
<b>Core Foundation (3 courses)</b>		<b>12</b>
ARTS 510	Principles of Design	
ARTS 532	Introductory Drawing	
ARTS 567	Introductory Sculpture	
<b>Core Supplemental (3 courses)</b>		<b>12</b>
One additional 500/600 level 2D:		
ARTS 536	Introduction Printmaking: Intaglio	
ARTS 546	Painting Design I: Perceptual Painting and Color Theory	
ARTS 632	Intermediate Drawing	
ARTS 633	Life Drawing	
One additional 500-level 3D:		
ARTS 501	Introductory Ceramics	
ARTS 525	Introductory Woodworking	
One photography course:		
ARTS 551	Introduction to Darkroom Photography	
ARTS 552	Introductory Digital Photography	
<b>Core Seminars</b>		<b>12</b>
ARTS 598	An Artist's Life	
ARTS 798	Seminar/Senior Thesis (two-semester course)	
<b>5 Studio courses in a concentration (see concentration courses below)</b>		<b>20</b>
<b>One Studio Elective (Jterm and summer courses allowed)</b>		<b>4</b>
Select from ARTS 501, ARTS 525, ARTS 536, ARTS 546, ARTS 551, ARTS 552, ARTS 596, ARTS 598, ARTS 601, ARTS 610, ARTS 611, ARTS 612, ARTS 613, ARTS 614, ARTS 625, ARTS 632, ARTS 633, ARTS 636, ARTS 646, ARTS 651, ARTS 667, ARTS 696, ARTS 732, ARTS 746, ARTS 791, ARTS 792, 796		
<b>Core Art History (3 courses)</b>		<b>12</b>
ARTH 480	Introduction to Art History	
or ARTH 474	Introduction to Architectural History	
2 600-level elective art history courses (select from ARTH 654, ARTH 655, ARTH 656, ARTH 674, ARTH 675, ARTH 677, ARTH 678, ARTH 679, ARTH 680, ARTH 681, ARTH 682, ARTH 684, ARTH 685, ARTH 686, ARTH 688, ARTH 689, ARTH 693, ARTH 694, ARTH 695, ARTH 697, ARTH 795)		
<b>Total Credits</b>		<b>72</b>

## Concentration Courses (5 courses)

Minimum of four 600-700 level studio courses and no more than one of the following: ARTS 600 Internship in Studio Art (with approval), a 600-700 level art history (see selection of courses in art history requirement above), or a 500-level studio course (select from ARTS 501, ARTS 525, ARTS 536, ARTS 546, ARTS 551, ARTS 552, ARTS 596). Jterm and summer courses cannot be used.

Code	Title	Credits
ARTS 601	Ceramics Workshop (may be repeated)	
ARTS 610	Principles of Typography	
ARTS 611	Animation and Motion Design	
ARTS 612	Interaction & Game Design	
ARTS 613	Design and Place	
ARTS 614	Design and People	
ARTS 625	Wood/Furniture Design Workshop (may be repeated)	

ARTS 632	Intermediate Drawing
ARTS 633	Life Drawing
ARTS 636	Printmaking Workshop (may be repeated)
ARTS 646	Painting Design II: Perceptual Painting and the Individual Artist's Vision (may be repeated, must be taken twice before advancing to 746)
ARTS 651	Photography Workshop (may be repeated)
ARTS 667	Sculpture Workshop (may be repeated)
ARTS 732	Advanced Drawing (may be repeated)
ARTS 746	Painting Design III: Perceptual Painting and Narrative Themes (may be repeated)
ARTS 796	Independent Study: Studio Art (K: Wood Design, may be repeated)

The possible areas of concentration within the department are painting, sculpture, ceramics, design, drawing, printmaking, photography, and furniture design. Proposals for individualized programs are accepted only by permission of the departmental chairperson, the major adviser, and the departmental bachelor of fine arts committee. Candidates applying for the bachelor of fine arts program are required to submit a portfolio to the B.F.A. committee, which meets each spring semester.

The Discovery Program capstone requirement may be fulfilled by completing ARTS 798 Seminar/Senior Thesis.

The required minimum overall GPA in major coursework is 2.0.

Candidates for a degree must satisfy all of the University Discovery Program requirements in addition to satisfying the requirements of each individual major program.

Fine arts majors may use two major-required courses to satisfy two Discovery category requirements.

## Student Learning Outcomes

### Introductory (500) Level:

- Basic skillset in a particular arts discipline
- Working knowledge of the tools and materials used in a particular arts discipline
- Basic understanding of analytical thinking when making and talking about art
- Demonstrate development of artistry

### Intermediate (500/600) Level:

- Demonstrate development of artistry and skill set in a range of artistic disciplines
- Demonstrate knowledge of tools and materials beyond the basics
- Deeper ability to discuss and analyze works of art
- Ability to verbalize intent in a particular work of art
- Ability to research particular artists
- Ability to declare an area of concentration for advanced in a particular arts discipline

### Advanced (600/700) Level:

- Demonstrate a high level of artistry
- Ability to work independently
- Develop and Demonstrate an individual sensibility
- Ability to understand and verbalize intent in a work of art
- Ability to construct a professional capstone portfolio or thesis
- Demonstrate in-depth familiarity with a range of artistic movements both historical and contemporary

# Architectural Studies Minor

<https://cola.unh.edu/art-art-history/program/minor/architectural-studies>

## Description

The minor in architectural studies provides students with an interdisciplinary introduction to the history, theory and methods of architecture and its symbolism. The program allows students who are interested in this field to receive programmatic recognition of their work. It is designed to assist those who are contemplating enrollment at a school of architecture; are particularly interested in architectural history; want to supplement their technical majors (e.g., civil engineering) with strong academic minors; or plan to pursue careers in preservation, education, community service and public relations.

For more information, contact the minor coordinators: Ivo van der Graaff, [ivo.vandergraaff@unh.edu](mailto:ivo.vandergraaff@unh.edu), art and art history, or Raymond Cook, [ray.cook@unh.edu](mailto:ray.cook@unh.edu), civil engineering.

## Requirements

Five courses (18-20 credits), which consist of the following:

Code	Title	Credits
ARTS 532	Introductory Drawing	4
ARTH 474	Introduction to Architectural History	4
or ARTH/CLAS 501	Introduction to Mediterranean Archaeology	
Select one of the following:		4
ARTS 525	Introductory Woodworking	
ARTS 567	Introductory Sculpture	
Select two electives from the list below chosen in consultation with the minor coordinators:		6-8
ARTH 400	Topics in Art History (only with architectural papers)	
ARTS 510	Principles of Design	
ARTS 600	Internship in Studio Art (only topic C - Architecture)	
ARTS 625	Wood/Furniture Design Workshop	
ARTS 667	Sculpture Workshop (only topic: Kinetic)	
ARTH 654	17th and 18th Century American Architecture	
ARTH 655	Nineteenth-Century Architecture: The Architecture of Empire	
ARTH 656	Twentieth-Century Architecture: Modern and Contemporary	
ARTH 674	Greek Art and Architecture	
ARTH 675	Roman Art and Architecture	
ARTH 678	Romanesque and Gothic Art	
ARTS 796	Independent Study: Studio Art (only topic G: Architectural Design)	
CEE 402	2D Computer Aided Design	
CEE 795	Independent Study	
CEE 700	Building Information Modeling	
CEE 719	Green Building Design	
CLAS #510	Building Rome (a J-term course)	
Total Credits		18-20

# Art History Minor

<https://cola.unh.edu/art-art-history/program/minor/art-history>

## Description

The art history minor offers those majoring in other fields (including studio art) the chance to gain a serious knowledge of aspects of the history and meanings of Western art from antiquity to the modern world. Particularly for those working in history and the humanities, a minor in

art history will provide new interdisciplinary perspectives on their major fields.

## Requirements

The minor consists of five courses (20 credits).

Code	Title	Credits
One 400-level art history (ARTH 480 Introduction to Art History or ARTH 474 Introduction to Architectural History recommended but not required)		4
Select two additional art history courses at the 500-level or above		8
Select two additional art history courses at the 600-level or above		8
Total Credits		20

# Art Minor

<https://cola.unh.edu/art-art-history/program/minor/art>

## Description

The art minor is an appropriate option for students who do not want to take the specific requirements for the art history or studio art minors, but who are still interested in taking art history and/or studio classes.

## Requirements

The minor in art consists of five courses (20 credits) chosen from the offerings of the department. Courses can be all studio art, all art history, or a combination of both.

Code	Title	Credits
Select two ARTS/ARTH courses at the 500-level or above		8
Select three elective ARTS/ARTH courses		12
Total Credits		20

# Design Studies Minor

<https://cola.unh.edu/art-art-history/program/minor/design-studies>

## Description

Situated within the studio arts program, the interdisciplinary minor in design studies brings together the formal and conceptual principles of design in the visual expressions of the fine arts (painting, sculpture, photography, etc.), the commercial arts (graphic design, illustration, etc.), the industrial arts (engineering) and the performing arts (stage, costume and lighting design).

Course options in communication, marketing, English and art history offer the opportunity to contextualize the principles and products of design in a broader historical, sociological and cultural context.

Course requirements and options within the design studies minor enable students to develop a common skill set of literacy and fluency in a range of design software programs (Photoshop, InDesign, Light Box, Fuse, etc.), the utility of which has become increasingly more essential to a range of fields of study and vocations.

## Requirements

Five courses (20 credits) are required.<sup>1</sup>

Code	Title	Credits
<b>Applied/Studio Practice</b>		
ARTS 510	Principles of Design	4
Select two of the following:		8
ARTS 501	Introductory Ceramics	
ARTS 525	Introductory Woodworking	
ARTS 532	Introductory Drawing	
ARTS 536	Introduction Printmaking: Intaglio	
ARTS 546	Painting Design I: Perceptual Painting and Color Theory	
ARTS 551	Introduction to Darkroom Photography	
ARTS 567	Introductory Sculpture	
ARTS 610	Principles of Typography	
ARTS 613	Design and Place	
ARTS 614	Design and People	
THDA 460	Elements of Design	
THDA 546	Costume Design for the Theatre	
THDA 548	Stage Lighting Design and Execution	
<b>Technical Practice</b>		
Select one of the following:		4
ARTS 552	Introductory Digital Photography	
ARTS 611	Animation and Motion Design	
ARTS 612	Interaction & Game Design	
CEE 402	2D Computer Aided Design <sup>1</sup>	
CEE 700	Building Information Modeling <sup>1</sup>	
CMN 596	Special Topics in Media Studies (Multi-media Communication)	
ENGL 712	Multimedia Storytelling	
IT 403	Introduction to Internet Technologies	
IT 502	Intermediate Web Design	
<b>Historical/Theoretical Context</b>		
Select one of the following:		4
ARTH 480	Introduction to Art History	
ARTH 474	Introduction to Architectural History	
CMN 697	Seminar in Rhetorical Study (Rhetoric of the Photograph)	
CMN 756	Rhetorics of Display	
CMN 772	Seminar in Media Theory	
ENGL 533	Introduction to Film Studies	
ENGL 616A	Studies in Film/Genre	
ENGL 616B	Studies in Film/Authorship	
ENGL 616C	Studies in Film/Culture and Ideology	
ENGL 616D	Studies in Film/Narrative and Style	
MKTG 520	Topics in Marketing (Understanding Your Customer or Digital Marketing Communications)	
<b>Total Credits</b>		<b>20</b>

<sup>1</sup> 19 credits are required to complete the minor if CEE 402 or CEE 700 is selected.

Students must receive a **minimum grade of C** in all required courses.

A maximum of two courses (8 credits) may be transferred from another accredited institution, provided UNH has accepted them as transfer credits. Transfer courses must be a minimum of 3 credits. Students with 3 credit transfers must make up the credit shortage.

Only two courses from the student's area/department of concentration may be used to meet requirements towards a minor in design studies.

## Studio Arts Minor

<https://cola.unh.edu/art-art-history/program/minor/studio-arts>

## Description

The studio arts minor is for students who are interested in continuing on to the intermediate and advanced levels in a variety of mediums.

## Requirements

The minor in studio arts consists of five courses (20 credits) with a distribution that includes

Code	Title	Credits
ARTS 532	Introductory Drawing	4
Select two studio courses from the 600 level or above		8
Select two additional studio courses chosen from the offerings of the department		8
<b>Total Credits</b>		<b>20</b>

## Asian Studies

### Programs

- [Asian Studies Minor](#) (p. 197)

## Asian Studies Minor

<https://cola.unh.edu/interdisciplinary-studies/program/minor/asian-studies>

## Description

The aim of the interdisciplinary Asian studies minor program is to foster teaching and learning as well as research in all areas of Asia. The minor offers opportunities to develop proficiency in Asian languages and to study the histories, politics, literatures, cultures and religions of East Asia (China, Japan, Korea and others) and South Asia (India, Pakistan, Sri Lanka, Bhutan and others). Courses offered provide students the chance to explore a wide range of contemporary subjects such as foreign policy, language use, education, environment, the Asian-American experience, ethnic and religious conflict, literary and cultural production, and cross-border movements of industry and ideas.

For further information, please contact Lawrence C. Reardon, associate professor of political science, [chris.reardon@unh.edu](mailto:chris.reardon@unh.edu), (603) 862-1858.

## Requirements

To complete the minor in Asian Studies, students are required to take five courses (20 credits) or their equivalent, and no more than three can be counted from any one of the following disciplines:

- Anthropology (ANTH)
- Asian American or South Asian Literature (ENGL)
- Geography (GEOG)
- History (HIST)
- Languages, Literatures, and Cultures (either CHIN or JPN)
- Philosophy (PHIL)
- Political Science (POLT)

The following are a list of courses that count toward the minor. Please note additional courses may also count. Visit the program website for the most up-to-date information.

Code	Title	Credits
ANTH 500	Peoples and Cultures of the World (only topic D) Asia)	4
ANTH 501	World Archaeological Cultures (only topic F) Asia)	4
CHIN 401	Elementary Chinese I	4
CHIN 402	Elementary Chinese II	4
CHIN 425	Introduction to Chinese Culture	4
CHIN 503	Intermediate Chinese I	4
CHIN 504	Intermediate Chinese II	4
CHIN 521	What does it Mean to be Modern? Lenses of Modern Chinese Literature and Film	4
CHIN 632	Advanced Chinese Conversation and Composition II	4
CHIN 795	Independent Study	1-4
ENGL 581	Reading the Postcolonial Experience	4
GEOG 530	China: People, Politics and Economy	4
PHIL 520	Introduction to Eastern Philosophy	4
POLT 546	Wealth and Politics in Asia	4
POLT 556	Politics in China	4
POLT 569	The Rise of China	4
POLT 742	Politics of Afghanistan, Pakistan, and India	4
POLT 797E	Seminar in International Politics (US/China Decision Making)	4

## Chinese (CHIN)

### Programs

- [Chinese Minor](#) (p. 198)

## Chinese Minor

<https://cola.unh.edu/languages-literatures-cultures/program/minor/chinese>

### Description

The Chinese minor provides students with linguistic skills and cross-cultural competence that will complement their studies in many other disciplines, such as business, international affairs, education, hotel management and social service. It prepares students for future academic and professional opportunities in which proficiency in Chinese is required or preferred. Students who have studied Chinese at UNH have gone on to use Chinese for a variety of career paths in both domestic and international settings.

### Requirements

20 credits which consist of the following:

Code	Title	Credits
Four language courses above the 500 level:		
CHIN 503	Intermediate Chinese I	4
CHIN 504	Intermediate Chinese II	4
CHIN 631	Advanced Chinese Conversation and Composition I	4
CHIN 632	Advanced Chinese Conversation and Composition II	4
Choose one of the following Chinese culture and literature courses: <sup>1</sup>		4
CHIN 425	Introduction to Chinese Culture	
CHIN 521	What does it Mean to be Modern? Lenses of Modern Chinese Literature and Film	
Total Credits		20

<sup>1</sup> Or another Chinese culture or literature course approved by the faculty.

At the beginning of your final semester of study, please complete a [Certification of Completion of Minor form](#), obtain the necessary signatures, and submit it to your Dean's Office.

## Cinema Studies

### Programs

- [Cinema Studies Minor](#) (p. 198)

## Cinema Studies Minor

<https://cola.unh.edu/interdisciplinary-studies/program/minor/cinema-studies>

### Description

The minor in cinema studies offers a variety of opportunities to study a predominant contemporary form of narrative, aesthetic and social discourse: the moving image. Film is the primary medium of study for the minor, but the cinematic practices of video and television also may be included as potential areas of interest. Courses consist of interdisciplinary approaches to the analysis of cinema, covering works from the early cinema to the present, from the U.S. and other nations. Students learn the aesthetics, history, technology, economics and theory of cinema, while also acquiring the language for analyzing its forms and practices. The minor allows for organized and meaningful study of the moving image from a wide range of scholarly interests and approaches that complement the increasingly significant place of cinema in many major disciplines and other programs. Students enrolled in the cinema studies minor will become articulate and critical spectators in the larger cultural contexts of film and media studies.

Interested students should contact the cinema minor coordinator, [Matt Konzett](#) ([matthias.konzett@unh.edu](mailto:matthias.konzett@unh.edu)), Department of English, (603) 862-0261.

### Requirements

Cinema studies students are required to take five courses. Students must earn at least a C- in each course and maintain a 2.0 grade-point average in courses taken for the minor. "Double counting" of minor course credits with major course credits will be left to the discretion of existing major departments, with the exception that no more than eight credits, if approved, will "double count."

Code	Title	Credits
Introductory Course		
ENGL 533	Introduction to Film Studies	4
History and Theory of Film		
LLC 540	Film History	4
or ENGL 618	Film Theory	
Advanced and/or Focused Courses		
Select two of the following:		8
ENGL 616A	Studies in Film/Genre	
ENGL 616B	Studies in Film/Authorship	
ENGL 616C	Studies in Film/Culture and Ideology	
ENGL 616D	Studies in Film/Narrative and Style	

ITAL 525	Italian Cinema
<b>Elective Courses</b>	
Select one elective course <sup>1</sup>	4
<b>Total Credits</b>	<b>20</b>

<sup>1</sup> Electives are drawn from an approved list of courses for the minor, which is compiled and announced every semester. Students also may choose from the advanced and/or focused courses. Elective courses have a significant cinema studies component and may have another disciplinary focus as well. Contributing departments and/or programs include: American studies, anthropology, arts, communication, English, French, geography, German, history, humanities, Italian, music, philosophy, political science, psychology, Russian, sociology, Spanish, theatre and dance, and women's and gender studies. Students should check with the cinema minor coordinator each semester for approval of the elective.

## Classics (CLAS)

Classics encompasses the interdisciplinary study of the Greeks and Romans, as well as the ways in which the ancient world's influence extends to the Medieval Period, the Renaissance and the modern world. Studying classics, therefore, is to investigate several thousand years of material through the study of languages, literature, history, politics, law, archaeology, art, mythology and folklore, gender and sexuality, religious studies, philosophy and more—all with methods derived from a variety of humanistic and social science perspectives. This breadth provides an excellent liberal arts education that prepares students for a variety of careers, as well as for further study. Classics majors from UNH have gone on to law school, medical school, and graduate school in classics and many related disciplines and have taken up careers in teaching, government service, the military and business.

Classics majors have many opportunities at UNH to pursue their own interests in the ancient world while completing their requirements. In addition to Greek and Latin, program faculty may occasionally offer, on request, courses on other ancient languages, including Hittite, Hebrew, Egyptian Hieroglyphs, Syriac and Sanskrit. Students are encouraged to take courses offered outside the department that relate to the field of classics, such as those in ancient history, archaeology, ancient philosophy, classical art, modern languages, linguistics and English literature. Some of these courses can even count for major requirements; a current list of approved courses is available from any departmental adviser. Study abroad is another way that many majors broaden their studies. Students have frequently spent semesters at many study abroad sites, including the Intercollegiate Center for the Classical Studies in Rome. (UNH is part of the consortium of Universities that supports this program.) The Department of Classics, Humanities and Italian Studies regularly runs its own popular January Term course in Rome and manages several other study abroad programs.

The program offers three different options for the classics major. In brief, the differences are:

- The Classical Languages and Literatures (CLL) option allows for the most in-depth study of the ancient languages and requires knowledge of both Ancient Greek and Latin. It thus provides the strongest preparation for students considering graduate study in classics or related areas, and can also be an appropriate choice (with careful planning) for those thinking about teaching Latin in secondary schools. At the same time, it is designed for any student who desires a solid liberal arts education.

- The Ancient Mediterranean Civilizations (AMC) option balances language study with the opportunity for students to select from a wide range of courses covering many aspects of the Greek and Roman worlds, as well as the neighboring peoples in Europe, North Africa and the Near East. The flexibility of this option makes it especially attractive for students who wish to double major in another subject. It is generally not suitable, however, for those who wish to pursue related graduate study or a career in teaching Latin. AMC majors can, however, supplement the requirements with additional coursework to keep these options open.
- The Latin and Latin Teaching (LLT) option is designed to provide a good foundational liberal arts education centered on Latin and the Roman world, but it also includes specific elements that make it particularly appropriate for students who are considering careers teaching Latin in secondary schools after graduation. This option does not lead directly to state certification, which can be pursued during a fifth year of study in the Department of Education.

## Classics Major: Ancient Mediterranean Civilizations Option (B.A.)

<https://cola.unh.edu/classics-humanities-italian-studies/program/ba/classics-major-ancient-mediterranean-civilizations-option>

### Description

The Ancient Mediterranean Civilizations (AMC) option balances language study with the opportunity for students to select from a wide range of courses covering many aspects of the Greek and Roman worlds, as well as the neighboring peoples in Europe, North Africa and the Near East. The flexibility of this option makes it especially attractive for students who wish to double major in another subject. It is generally not suitable, however, for those who wish to pursue related graduate study or a career in teaching Latin. AMC majors can, however, supplement the requirements with additional coursework to keep these options open.

Requirements

Degree Requirements

Minimum Credit Requirement: 128 credits

Minimum Residency Requirement: 32 credits must be taken at UNH

Minimum GPA: 2.0 required for conferral\*

Core Curriculum Required: Discovery & Writing Program Requirements

Foreign Language Requirement: Yes

All Major, Option and Elective Requirements as indicated.

\*Major GPA requirements as indicated.

Major Requirements

Candidates for a degree must satisfy all of the University Discovery Program requirements in addition to satisfying the requirements of each individual major program. Bachelor of arts candidates must also satisfy the foreign language proficiency requirement.

Classics majors may use two major-required courses to satisfy two Discovery category requirements.

The required minimum overall GPA in major coursework is 2.0.

To complete the AMC option of the classics major, a student must complete 10 courses (40 credits), distributed as follows:

Code	Title	Credits
Language Proficiency		
Demonstrate proficiency by taking at least 8 credits in GREK or LATN at the 503 level or above		8
Other Courses		
Select at least 32 additional credits in CLAS, GREK, or LATN courses, including: <sup>1</sup>		32
CLAS 403	Introduction to Greek Civilization	
or CLAS 404	Introduction to Roman Civilization	
At least 8 credits from courses at the 600 level or above		
Capstone Experience		
Select an approved capstone experience of the following:		
Senior thesis		
Honors thesis		
CLAS capstone course approved by the advisor at the 600 or 700 level		
At least 4 credits in 700-level LATN or GREK courses		
Approved internship		
Approved semester study abroad focused on the classical world		
Total Credits		40

<sup>1</sup> No more than 8 credits may come from CLAS courses at the 400 level, with up to an additional 8 credits from LATN and GREK courses at the 400 level. There are also courses taught outside of the program that are approved substitutes for CLAS courses, and the department will accept up to 8 credits from such courses. An up-to-date list of these courses is available from departmental advisers and additional exceptions are allowed with the written approval of the adviser.

Student Learning Outcomes

Students will be able to:

- Analyze and critique the cultural and historical importance of the ancient Greeks and Romans.

- Recognize and assess the relative value, and to integrate, the distinct categories of evidence from antiquity: material and textual.
- Demonstrate an understanding of the steps of the intellectual process as developed in classical antiquity, including:
  - identifying and defining essential questions
  - research in the best and fullest range of evidence
  - reasoned critique of the evidence
  - insightful synthesis of all relevant evidence
  - critical evaluation and integration of previous interpretations
  - creating an argument, including in essays or papers, which takes into account all the evidence
- Translate key Latin and/or Greek texts at the intermediate level and demonstrate a knowledge of Latin or Greek vocabulary, morphology, and syntax at an intermediate level.
- Show a familiarity with the essential literary sources from classical antiquity, and how they have been received in later periods.

Classics Major: Classical Languages & Literatures Option (B.A.)

<https://cola.unh.edu/classics-humanities-italian-studies/program/ba/classics-major-classical-languages-literatures-option>

Description

The Classical Languages and Literatures (CLL) option allows for the most in-depth study of the ancient languages and requires knowledge of both Ancient Greek and Latin. It thus provides the strongest preparation for students considering graduate study in classics or related areas, and can also be an appropriate choice (with careful planning) for those thinking about teaching Latin in secondary schools. At the same time, it is designed for any student who desires a solid liberal arts education.

Requirements

Degree Requirements

Minimum Credit Requirement: 128 credits

Minimum Residency Requirement: 32 credits must be taken at UNH

Minimum GPA: 2.0 required for conferral\*

All Major, Option and Elective Requirements as indicated.

\*Major GPA requirements as indicated.

Major Requirements

Candidates for a degree must satisfy all of the University Discovery Program requirements in addition to satisfying the requirements of each individual major program. Bachelor of arts candidates must also satisfy the foreign language proficiency requirement.

Classics majors may use two major-required courses to satisfy two Discovery category requirements.

The required minimum overall GPA in major coursework is 2.0.

To complete the CLL option of the classics major, a student must complete 10 courses (40 credits), distributed as follows:

Code	Title	Credits
<b>Language Courses</b> <sup>1</sup>		
Select at least 12 credits at the 503 level or above <sup>2</sup>		12-24
Including:		
Select at least one class at the 700 level in the primary language (GREK or LATN)		
Select at least one class at the 504 level or above in the secondary language (LATN or GREK)		
<b>Non-Language Courses</b>		
Select at least 16 credits in CLAS courses. As many as 28 credits may be counted toward this option. <sup>3</sup>		16-28
<b>Capstone</b>		
Select an approved capstone experience of the following:		
Senior thesis		
Honors thesis		
CLAS capstone course at the 600 or 700 level		
At least 8 credits in 700-level LATN or GREK courses		
Approved internship		
Approved semester study abroad focused on the classical world		
<b>Total Credits</b>		<b>40</b>

<sup>1</sup> No credits from language courses at the 400 level may be counted toward this option.

<sup>2</sup> Students may count as many as 24 toward the CLL major option.

<sup>3</sup> No more than 4 credits may come from courses at the 400 level. There are also courses taught outside of the program that are approved substitutes for CLAS courses, and the department will accept up to 8 credits from such courses. An up-to-date list of these courses is available from departmental advisers and additional exceptions are allowed with the written approval of the adviser.

## Student Learning Outcomes

Student Learning Outcomes for Classics Major: Classical Languages and Literatures Option

- Translate, contextualize, and interpret key texts in their primary language (Greek or Latin) at the upper level.
- Translate, contextualize, and interpret intermediate-level texts in their secondary language (Greek or Latin).
- Demonstrate an accurate understanding of linguistic concepts related to Greek and Latin including the elements of phonetics, semantics, and morphology and syntax at an upper level for their primary language and at an intermediate level for their secondary language.
- Analyze and critique, including in essays or papers, the cultural, literary, and historical significance of the ancient Greeks and Romans, and how they have been received in later periods.

## Classics Major: Latin & Latin Teaching Option (B.A.)

<https://cola.unh.edu/classics-humanities-italian-studies/program/ba/classics-major-latin-latin-teaching-option>

## Description

The Latin and Latin Teaching (LLT) option is designed to provide a good foundational liberal arts education centered on Latin and the Roman world, but it also includes specific elements that make it particularly appropriate for students who are considering careers teaching Latin in secondary schools after graduation. This option does not lead directly to state certification, which can be pursued during a fifth year of study in the Department of Education.

## Requirements

### Degree Requirements

**Minimum Credit Requirement:** 128 credits

**Minimum Residency Requirement:** 32 credits must be taken at UNH

**Minimum GPA:** 2.0 required for conferral\*

All Major, Option and Elective Requirements as indicated.

\*Major GPA requirements as indicated.

### Major Requirements

Candidates for a degree must satisfy all of the University Discovery Program requirements in addition to satisfying the requirements of each individual major program. Bachelor of arts candidates must also satisfy the foreign language proficiency requirement.

Classics majors may use two major-required courses to satisfy two Discovery category requirements.

The required minimum overall GPA in major coursework is 2.0.

To complete the LLT option of the classics major, a student must complete 10 courses (40 credits), distributed as follows:

Code	Title	Credits
<b>Latin Language Courses</b>		
Select at least 20 credits of LATN courses at the 504 level or above <sup>1</sup>		20
<b>Other Courses</b>		
Student must take at least three of the following courses in areas concerning mythology or Roman history:		12
CLAS 401	Classical Mythology	
CLAS 404	Introduction to Roman Civilization	
CLAS 601	Classical Myth II: The Power and Persistence of Myth	
CLAS 677	History of Ancient Rome	
CLAS 678	Topics in Ancient Roman History	
Select 8 credits of electives (which may include credits earned in a capstone experience) <sup>2</sup>		8
<b>Capstone Experience</b>		
Select an approved capstone experience of the following:		
Senior thesis		
Honors thesis		
CLAS capstone course at the 600 or 700 level		
At least 12 credits in 700-level LATN courses		
Approved external internship		
CLAS 694	Supervised Practicum (4-credit internal Latin teaching internship)	
Approved semester study abroad focused on the classical world		
<b>Total Credits</b>		<b>40</b>

<sup>1</sup> At least 4 credits must come at the 700 level.

<sup>2</sup> An up-to-date list of these courses is always available from department advisors, and advisors can also approve exceptions in writing. (At present, the following CLAS courses do not count: CLAS 403 Introduction to Greek Civilization, CLAS 525 Greek and Latin Origins of Medical Terms, and CLAS 694 Supervised Practicum.) Besides CLAS 401 Classical Mythology and CLAS 404 Introduction to Roman Civilization, no other 400-level courses may count. No Greek language courses are required for the LLT option, but students are encouraged to complete at least the introductory sequence (401–402).

There are also courses taught outside of the program that are approved substitutes for CLAS courses, and the department will accept up to 8 credits from such courses. An up-to-date list of these courses is available from departmental advisors and additional exceptions are allowed with the written approval of the advisor.

Please note that the LLT option does not by itself meet New Hampshire state certification requirements. Those who intend to pursue this certification should enroll in EDUC 500 Exploring Teaching as early as possible and then apply early in the fall of their year of graduation for a fifth year of internship and study through UNH's Department of Education. Students are also encouraged strongly to consider taking some EDUC electives during their period of undergraduate study.

## Student Learning Outcomes

Student Learning Outcomes for Classics Major: Latin and Latin Teaching Option (B.A.)

- Ability to read major works of Latin authors in prose and poetry, and to translate Latin into idiomatic English.
- Ability to read aloud both prose and poetry in correct meter in Latin using an accepted standard of pronunciation.
- Knowledge of the morphology, phonology, and syntax of Latin; and of the historical development of Latin and the place of Latin in the etymology of English words.
- Ability to write short compositions in Latin.
- Knowledge, as demonstrated in essays or papers, of: a) major aspects of Greek and Roman history, cultural institutions and their connections to the western tradition and other world cultures b) the history and content of Greek and Roman literature, in translation or in the original c) classical mythology.

## Classics Minor

<https://cola.unh.edu/classics-humanities-italian-studies/program/minor/classics>

### Description

Classics encompasses the interdisciplinary study of the Greeks and Romans, as well as the ways in which the ancient world's influence extends to the Medieval Period, the Renaissance and the modern world. Studying classics, therefore, is to investigate several thousand years of material through the study of languages, literature, history, politics, law, archaeology, art, mythology and folklore, gender and sexuality, religious studies, philosophy and more—all with methods derived from a variety of humanistic and social science perspectives. This breadth provides

an excellent liberal arts education that prepares students for a variety of careers, as well as for further study.

The coordinator is Scott Smith, Murkland Hall 301; Department of Classics, Humanities and Italian Studies; e-mail [scott.smith@unh.edu](mailto:scott.smith@unh.edu).

### Requirements

A minor in classics consists of five courses (20 credits).

Code	Title	Credits
Select five elective courses in classics, Greek and/or Latin		20
Total Credits		20

## Greek Minor

<https://cola.unh.edu/classics-humanities-italian-studies/program/minor/greek>

### Description

Explore the cultural foundations of Western civilization in the Greek minor, studying ancient and modern Greek and Greek history, literature, philosophy and religion. The minor compliments studies in areas such as business, classics, history, the humanities, philosophy or international affairs, and will help you prepare for a career at home or abroad, or for graduate studies.

The coordinator is Scott Smith, Murkland Hall 301; Department of Classics, Humanities and Italian Studies; e-mail [scott.smith@unh.edu](mailto:scott.smith@unh.edu).

### Requirements

A minor in Greek consists of five courses (20 credits).

Code	Title	Credits
Select five elective courses in Greek		20
Total Credits		20

## Latin Minor

<https://cola.unh.edu/classics-humanities-italian-studies/program/minor/latin>

### Description

In the Latin minor, you'll study Latin and the civilization, culture and mythology of the Roman world. You'll be able to improve your fluency and your composition skills, and read in the original such classics as Lucretius, Catullus, Vergil, Horace and Ovid.

The coordinator is Scott Smith, Murkland Hall 301; Department of Classics, Humanities and Italian Studies; e-mail [scott.smith@unh.edu](mailto:scott.smith@unh.edu).

### Requirements

A minor in Latin consists of five courses (20 credits).

Select five elective courses in Latin		20
<b>Total Credits</b>		<b>20</b>

## Cognates

- [Art History, Design, and Computer Sciences Cognate](#) (p. 203)
- [Digital Writing and Literature Cognate](#) (p. 203)
- [Intercultural Communication for the Professional World Cognate](#) (p. 204)
- [Medical Sociology Cognate](#) (p. 204)
- [Philosophy of Business, Innovation, & Technology Cognate](#) (p. 204)
- [Political and Legal Philosophy Cognate](#) (p. 205)
- [Skills and Perspectives for the Digital World Cognate](#) (p. 205)
- [Studies in Fashion and Design Cognate](#) (p. 206)
- [Studies in the Design of Interior Space Cognate](#) (p. 206)
- [Technical Writing and Public Speaking Cognate](#) (p. 207)
- [Philosophy of Business, Innovation, & Technology Cognate](#) (p. 204)

## Art History, Design, and Computer Sciences Cognate

<https://cola.unh.edu/art-art-history/program/cognate/art-history-design-computer-sciences>

### Description

The cognate is for students to develop basic skills in art history and design as well as computer programming. The aim is for them to be able to apply programming skills to develop projects related to museum collections management and visitor experience, research projects, website design for cultural institutions, and art market intelligence and data transparency. Students will be encouraged to learn the basic concepts of art history and design and combine them in creative ways with emerging technologies such as Augmented Reality, Virtual Reality, 3D modelling and more traditional website design. The aim is to give students a head start on how emerging technologies can come together with the art market as well as cultural heritage to help document, preserve, investigate and present it for future generations.

### Requirements

Students will need to complete the following three modules, preferably in order.

Code	Title	Credits
<b>1. Arts</b>		<b>4</b>
Select one of the following:		
ARTH 440A	From Digging to Digital: Preserving and Displaying the Past	
ARTH 474	Introduction to Architectural History	
ARTH 480	Introduction to Art History	
ARTS 510	Principles of Design	
<b>2. Computer Sciences</b>		<b>4</b>
Select one of the following:		
CS 405	Introduction to Applications Programming	
CS 408	Living in a Networked World: The Good, the Bad, and the Ugly	
CS 410P	Introduction to Scientific Programming/Python	
CS 414	From Problems to Algorithms to Programs	
CS 415	Introduction to Computer Science I	
CS 457	Introduction to Data Science and Analytics	

IT 403	Introduction to Internet Technologies	
After completion of the two required courses above:		
<b>3. Digital Applications</b> <sup>1</sup>		<b>4</b>
Select one of the following:		
ARTH 674	Greek Art and Architecture	
ARTH 675	Roman Art and Architecture	
ARTH 699	Museum Studies	
HIST 771	Museum Studies	
Any other 600-level Art History course, by instruction permission (WI)		
<b>Total Credits</b>		<b>12</b>

<sup>1</sup> Students should aim to complete a project focused on digital applications.

## Digital Writing and Literature Cognate

<https://cola.unh.edu/english/program/cognate/digital-writing-literature>

### Description

Many jobs nowadays require not only solid reading and writing skills; but also the ability to deploy and adapt these skills in a variety of electronic, professional, public and semi-public platforms. This cognate builds students' ability to comprehend and interpret difficult texts (including complex instructions); to edit, proofread and frame their work for different audiences and contexts; and to navigate rudimentary markup (code) and varied electronic interfaces with confidence and independence.

Contact the Department of English, 230F Hamilton Smith Hall or (603) 862-1313, with questions.

### Requirements

Credit toward the cognate will only be given for courses passed with C- or better, and a 2.00 grade-point average must be maintained in courses for the cognate. Courses taken on the pass/fail basis may not be used for the cognate.

In consultation with a program advisor, students may choose to pursue a "track": e.g., courses like ENGL 623 Creative Nonfiction and ENGL 712 Multimedia Storytelling may serve as a "creative" track for students interested in honing their digital storytelling and audio skills; while ENGL 693 Special Topics in Literature and ENGL 739 American Indian Literature may offer students a way in to cultural heritage management or nonprofit careers. Alternatively, students already focused on a particular course of study (e.g., journalism) may wish to learn how digital tools work in parallel fields (thus taking ENGL 631 Digital Reporting to enhance their digital reporting skills while also taking ENGL 739 American Indian Literature to learn how to edit Wikipedia).

Code	Title	Credits
<b>Required</b>		
ENGL 501	Introduction to Creative Nonfiction	4
or ENGL 502	Professional and Technical Writing	
Select two courses from the following:		8
ENGL 602	Advanced Professional and Technical Writing	
ENGL 620	English Major Internship (Digital Archiving and Editing)	
ENGL 623	Creative Nonfiction (see advisor for help in identifying appropriate section)	
ENGL 631	Digital Reporting	
ENGL 693	Special Topics in Literature (Topic N, Introduction to Digital Humanities)	
ENGL 712	Multimedia Storytelling	

ENGL 739	American Indian Literature
ENGL 789	Special Topics in English Teaching (Teaching English in the 21st Century)
Total Credits	

12

# Intercultural Communication for the Professional World Cognate

<https://cola.unh.edu/languages-literatures-cultures/program/cognate/intercultural-communication-professional-world>

## Description

This cognate is designed to provide students with the means to develop a global perspective, intermediate communication skills, and an understanding of the dynamics of intercultural communication. Research has linked study abroad experience with students’ future employability, and “intercultural/global competence” in particular is a skill valued by employers in a wide range of fields. This cognate provides students a means to attain these valuable, marketable skills, as well as a means to demonstrate this to potential employers.

Contact the Department of Languages, Literatures and Cultures with questions [LLC.dept@unh.edu](mailto:LLC.dept@unh.edu) or call (603) 862-4005.

## Requirements

Code	Title	Credits
<b>Professional Culture <sup>1</sup></b>		
Choose one of the following:		4
LLC 535A	Professional Culture in European Union - - Case Study: Germany	
LLC #535B	Professional Culture in Latin America - Case Study: Mexico and Brazil	
<b>Language Skills</b>		
Choose any modern language course numbered 503 or above (503, 631, 632) consistent with the region covered in the professional culture course above and the study abroad experience below		4
<b>Study Abroad Experience</b>		
Choose any program in country for 5 weeks or longer that involves coursework in the target or host language/ language other than English <sup>2</sup>		4
Total Credits		12

<sup>1</sup> Taught in English, fulfills WC Discovery, no prior knowledge assumed  
<sup>2</sup> Students can petition for an alternate experience, such as The Washington Center Program, as long as the internship placement involves foreign language use. Preferably, this will relate to the same region covered in the professional culture course and the language skills course, but that is not required.

Credit toward the cognate will only be given for courses passed with C- or better, and a 2.00 grade-point average must be maintained in courses for the cognate. Courses taken on the pass/fail basis may not be used for the cognate.

# Medical Sociology Cognate

<https://cola.unh.edu/sociology/program/cognate/medical-sociology>

## Description

The medical sociology cognate provides students with an understanding of how social structure shapes the etiology of health and illness as well as the availability, effectiveness and choices around health care on micro and macro levels. It develops students’ sociological imagination, fosters

their application of a sociological perspective to the study of health, and allows them to gain the skills needed to be informed consumers of empirical health research. The focus on empirical literacy that is central to courses in sociology facilitates students’ ability to communicate and apply research findings in their respective professional fields.

Although the sociological perspective will benefit students from all backgrounds, a cognate in medical sociology may be especially relevant for students majoring in biomedical science, neuroscience and behavior, psychology, gerontology, health and physical education, nursing, health policy and administration, business, human development and others.

## Requirements

- Any three courses in medical/health focused sociology courses (12 credits) with a grade of C- or better
- Submission of a completed "Certification of Completion of Cognate" form
- Courses taken pass/fail may NOT be used for the cognate.
- Sociology majors may count cognate classes as major electives.

Code	Title	Credits
Select three courses from the following:		
SOC #440A	Honors/Drug Addiction in American Society	4
SOC 555	Death and Dying in America	4
SOC 570	Sexual Behavior	4
SOC 597	Special Topics (Topic: Death & Dying in America)	4
SOC 620	Drugs and Society	4
SOC 625	Mental Health and Society	4
SOC 635W	Medical Sociology	4
SOC 647	Sociology of Work and Well-Being	4
SOC 697	Special Topics (Topic: Work and Well-Being)	4
SOC #720	Sociology of Drug Use	4
SOC 740	Sociology of Mental Health	4
SOC 788	Advanced Medical Sociology	4
SOC 797	Special Topics (Topics: Global Health, Social Dimensions of COVID-19)	4
Total Credits		12

# Philosophy of Business, Innovation, & Technology Cognate

<https://cola.unh.edu/philosophy/program/cognate/philosophy-business-innovation-technology>

## Description

Our internationally renowned philosophy professors emphasize discussion, debate, and writing in our courses. Wrestling with big questions prepares our students exceptionally well for highly successful careers in business and cutting-edge technology. As a lively and nurturing faculty personally invested in the success of our high achieving students, we take pride in watching our graduates go on to excel in top law schools, elite graduate programs, and prestigious positions from Wall Street to Silicon Valley.

For students unable to major or minor in Philosophy, students may select the three course cognate in Philosophy of Business, Innovation, and Technology. This cognate provides official recognition for those who choose to emphasize the study of the relationships between markets, technology, and human well-being. Students will choose courses in the philosophy of artificial intelligence, evolution, neuroscience,

biotechnology, business ethics, economic policy, environmental ethics and other high impact subjects.

Contact the Philosophy Department with questions at (603) 862-2060 or [philosophy@unh.edu](mailto:philosophy@unh.edu).

## Requirements

For a cognate in Philosophy of Business, Innovation, and Technology, a student must complete **three (3) philosophy courses (for a total of 12 credits) from the following list.**

Code	Title	Credits
<b>Select three (3) philosophy courses</b>		<b>12</b>
PHIL 421	Philosophy and the Arts	
PHIL 424	The Future of Humanity: Science, Technology, and Society	
PHIL 430	Ethics and Society	
PHIL 431	Business Ethics	
PHIL 435	Human Nature and Evolution	
PHIL 436	Social and Political Philosophy	
PHIL #440	Just Business: The Ethics of Markets and Money	
PHIL #444	Remaking Nature/The Ethics and Politics of Genetic Engineering	
PHIL 447	Artificial Intelligence, Robots, and People	
PHIL 450	Environmental Ethics	
PHIL 530	Ethics	
PHIL 531	Topics in Professional and Business Ethics	
PHIL 630	Neuroscience and Philosophy	
PHIL 660	Law, Medicine, and Ethics	
an approved 700-level philosophy seminar		

Students do not need to declare a cognate; however, we recommend that students meet with a faculty member from the Philosophy Department to discuss their plan. At the beginning of a student's final semester of study, the student should complete a [Certification of Completion of Cognate form](#), obtain the necessary signatures, and submit it to their Dean's Office.

Credit toward the cognate will only be given for courses passed with C- or better, and a 2.00 grade-point average must be maintained in courses for the cognate. Courses taken on the pass/fail basis may not be used for the cognate.

## Political and Legal Philosophy Cognate

<https://cola.unh.edu/philosophy/program/cognate/political-legal-philosophy>

### Description

For students unable to major or minor in philosophy. This option provides official recognition for students who choose to emphasize the study of political and legal philosophy.

You do not need to declare a cognate; however, we recommend that you meet with a faculty member from the Philosophy Department to discuss your plan. At the beginning of your final semester of study, you should complete a certification of completion of cognate form, obtain the necessary signatures, and submit it to your Dean's Office.

## Requirements

Credit toward the cognate will only be given for courses passed with C- or better, and a 2.00 grade-point average must be maintained in courses for the cognate. Courses taken on the pass/fail basis may not be used for the cognate.

Code	Title	Credits
<b>Select THREE courses (12 credits) from the following list:</b>		
PHIL 405	Critical Thinking	4
PHIL 419	Race, Gender and Social Justice	4
PHIL 420	Introduction to Philosophy of Law and Justice	4
PHIL 424	The Future of Humanity: Science, Technology, and Society	4
PHIL 430	Ethics and Society	4
PHIL 431	Business Ethics	4
PHIL 436	Social and Political Philosophy	4
PHIL #440	Just Business: The Ethics of Markets and Money	4
PHIL #444	Remaking Nature/The Ethics and Politics of Genetic Engineering	4
PHIL 450	Environmental Ethics	4
PHIL 510	Philosophy and Feminism	4
PHIL 531	Topics in Professional and Business Ethics	4
PHIL 620	20th Century European Philosophy	4
PHIL 630	Neuroscience and Philosophy	4
PHIL 660	Law, Medicine, and Ethics	4
Approved PHIL seminars, including seminars in neuroscience, happiness, economic philosophy, race and others		4

## Skills and Perspectives for the Digital World Cognate

<https://ceps.unh.edu/computer-science/program/cognate/skills-perspectives-digital-world>

### Description

Engage with and reflect on the technology associated with the digital world. This cognate provides a foundation for the development of technical and critical skills aligned with one of the 21st century's defining areas: information technology. A recent statement by General Electric's CEO asserts that if you join the company today, as opposed to 20 years ago, you're going to learn to code even though you may be in sales, finance or operations. This cognate gives students and future employees a fundamental introduction into technologies that are necessary for high functioning in today's world, both in the workplace and beyond.

The curriculum consists of coursework designed to strengthen understanding of the technologies that drive the World Wide Web, explore computer programming, and consider the impact of the technologies on society.

## Requirements

Code	Title	Credits
<b>Required Course</b>		
IT 403	Introduction to Internet Technologies	4
<b>Select one course from the following:</b>		
CS 405	Introduction to Applications Programming	4
CS 410C	Introduction to Scientific Programming/C	
or CS 410P	Introduction to Scientific Programming/Python	
CS 414	From Problems to Algorithms to Programs	
<b>Select one course from the following:</b>		
WS 444D	Cyborgs, Avatars, and Feminists: Gender in the Virtual World	4

CS 408	Living in a Networked World: The Good, the Bad, and the Ugly
Total Credits	12

Credit toward the cognate will only be given for courses passed with C- or better, and a 2.00 grade-point average must be maintained in courses for the cognate. Courses taken on a pass/fail basis may not be used for the cognate.

## Studies in Fashion and Design Cognate

<https://cola.unh.edu/theatre-dance/program/cognate/studies-fashion-design>

### Description

The studies in fashion and design cognate offers students a foundation for developing the basic skills to enter the field of fashion design. It introduces the art behind the creation of apparel and the basics of marketing strategy connected to fashion design. Students will be educated to develop their own creative process and design method while learning the basic knowledge of marketing and personal business. The cognate prepares students with a means to combine their artistic vision with practical application and helps them become designers who have the skills to support their own artistries.

Students complete coursework selected from three groups:

1. Design Creation: Helps students to adapt their artistic skills to support conceptual ideas. It gives students the abilities in creating, analyzing, constructing and presenting works for costume creation. It aims to guide students in developing their own working process with a critical approach to problem solving. Students will be able to use terminology to communicate ideas in the fashion design industry.
2. Design Skills: Gives students the options to understand and apply a skill class of their choice to helps students articulate their design ideas visually and digitally. It aims to offer students with the options to create visual merchandising for their design works through rendering hand skills, graphic design software, or photography.
3. Marketing: Helps students to understand and incorporate the business aspect into their creative works. It aims to prepare students to promote and sustain their creative works independently as a personal business or within retail organizations.

### Requirements

Student must complete three courses (12 credits), one course in each group listed below.

Code	Title	Credits
Design Creation (select one of the following)		4
THDA 546	Costume Design for the Theatre	
THDA 458	Costume Construction	
Design Skills (select one of the following)		4
ARTS 510	Principles of Design	
ARTS 552	Introductory Digital Photography	
THDA 651	Rendering for the Theatre	
Marketing (select one of the following)		4
MKTG 530	Survey of Marketing	
MKTG 547	Promotion and Advertising	

MKTG 649	Foundations of Personal Selling
Total Credits	12

## Studies in the Design of Interior Space Cognate

<https://cola.unh.edu/theatre-dance/program/cognate/studies-design-interior-space>

### Description

The cognate provides students a pathway to enter the world of interior design. It aims to give students an overview of design creation and execution for space planning. From concept development to project execution, the cognate allows students to formulate design projects that are both practical and aesthetically pleasing. Students will develop a comprehensive creative process through research, problem solving and project development. The cognate prepares students to apply critical thinking to the creation of interior environments utilizing a human-centered approach.

Students complete coursework selected from three groups:

1. Design Development: Helps students obtain the skills in design creation. Students will learn about concept development, research analysis, and psychological and physiological characteristics in space planning. It provides the students the ability to utilize knowledge in design elements and principles in 3D design creation and integrate this knowledge into design concepts as solutions for design projects.
2. Historical Aspect: Gives students an overview of architectural history. It will help students to identify the historical, political, social and economic elements that have influenced the evolution in interior architecture and decorative arts. Students will be able to apply the skill in research and their knowledge of historic design styles in their design creations.
3. Design Skills: Helps students to understand and apply skills related to design execution. It provides students with the option to gain craftsmanship in sketching, rendering, scaled design drawings, CAD (computer-aided drafting), graphic solutions or standards.

### Requirements

Student must complete three courses (12 credits), one course in each group listed below.

Code	Title	Credits
Design Development		4
Select one course from the following:		
THDA 548	Stage Lighting Design and Execution	
THDA 652	Scene Design	
ARTS 520	Principles of Architectural Design	
Historical Aspect		4
Select one course from the following:		
ARTH 474	Introduction to Architectural History	
ARTH 480	Introduction to Art History	
ARTH 656	Twentieth-Century Architecture: Modern and Contemporary	
Design Skills		4
Select one course from the following:		
ARTS 613	Design and Place	
THDA 549	Vectorworks Computer-Aided Design Drafting for the Theatre	

# Technical Writing and Public Speaking Cognate

<https://cola.unh.edu/english/program/cognate/technical-writing-public-speaking>

## Description

The cognate in technical writing and public speaking (TWPS) offers students intensive instruction in oral and written communication as important means of addressing technical, professional or practical problems whose solutions require others' cooperation. Students learn practical precepts for analyzing those "communication situations" and for making informed, strategic decisions when composing oral and written responses in response to them. Students also undergo extensive practice creating standard and, thus, widely applicable forms of spoken and written communication. All students acquire a foundation in effective expression by taking introductory courses in public speaking and in professional and technical writing. Students then build upon that foundation and complete the cognate with one advanced course in either public speaking or professional and technical writing. This cognate is attractive to students who recognize that effective expression is valued in nearly any field of endeavor they are likely to pursue in their post-graduate lives.

Please contact the Liberal Arts Dean's Office for additional information, (603) 862-2062, 110 Murkland Hall.

## Requirements

Code	Title	Credits
<b>Introductory Courses</b>		
CMN 500	Public Speaking	4
ENGL 502	Professional and Technical Writing	4
<b>Advanced Course</b>		
Choose one of the following:		
CMN #600	Public Speaking as a Civic Art	4
or ENGL 602	Advanced Professional and Technical Writing	
<b>Total Credits</b>		<b>12</b>

Credit toward the cognate will only be given for courses passed with C- or better, and a 2.00 grade-point average must be maintained in courses for the cognate. Courses taken on the pass/fail basis may not be used for the cognate.

## Communication (CMN)

The Department of Communication at UNH emphasizes a range of studies in human communication, including rhetoric, media and interpersonal communication. Students are taught to analyze verbal, nonverbal and mediated messages from a variety of perspectives including historical, critical, interpretive and empirical approaches. Students explore connections and interrelationships among the people, environments, technologies and messages that comprise the social world.

The communication major prepares students well for a wide variety of careers in business, media, marketing, government, education, health,

advocacy and social services. While offering access to a cutting-edge media lab and courses that teach students multi-media production skills, the department's primary focus is analytical rather than vocational. We do not train students to do specific communication tasks, such as managing social media profiles or creating promotional content. Rather, we help students develop an understanding of how communication shape understanding and social relations. Students grapple with such "how" and "why" questions as they study real-world political issues, news events, cultural phenomena and communication between friends, family members, colleagues, community members and strangers.

The department is committed to providing a strong liberal arts orientation that helps students develop their abilities to think — to describe, analyze, critique, explore, integrate, synthesize and create ideas. The department's faculty members believe that these are the skills and abilities that will be the most useful resources in students' professional, civic and personal lives after leaving UNH. The program trains students to understand, adapt to and participate in social change. These educational efforts lead to the kind of fundamental understanding that identifies the communication professional and also provides a firm foundation for advanced, graduate study in communication and related fields.

The department's faculty members have a strong national and international reputation for their research and publications. In addition, the department is recognized on campus for its commitment to teaching. About half of the department's tenure-track faculty members have won awards for teaching excellence. The faculty is also very active in university, community and professional service.

The department offers a business applications option for communication majors who want to augment the liberal arts focus of their major with professional training in such areas as marketing, advertising and organizational behavior.

The department offers a media practices option for communication majors who want to augment their major with training in media production and applied media communication through courses at UNH-Manchester Communication Arts Department.

The department also offers internships, which are designed to integrate classroom study and supervised practical experience in a work setting. Internship credits do not count toward completion of the communication major, but they do contribute to the total number of credits needed for graduation.

<https://cola.unh.edu/communication>

## Programs

- [Communication Major \(B.A.\)](#) (p. 208)
- [Communication Major: Business Applications Option \(B.A.\)](#) (p. 209)

- [Communication Minor](#) (p. 212)

## Faculty

<https://cola.unh.edu/communication/faculty-staff-directory>

# Communication Major (B.A.)

<https://cola.unh.edu/communication/program/ba/communication-major>

## Description

The purpose of the communication major is to prepare students to engage more knowingly with the communicative patterns, problems and practices that they will encounter in their personal, professional and civic lives. This purpose requires that students learn to move beyond commonplace and conventional understandings of "communication" and acquire sophisticated perspectives — workable orientations — for describing, analyzing, reflecting upon and engaging with those patterns, problems and practices. Accordingly, the major not only acquaints students with a variety of empirical, critical, historical, theoretical and pragmatic perspectives on communication phenomena, but encourages them to formulate workable orientations of their own for engaging with communication issues and questions. Students who graduate with a communication major are prepared to become thoughtful and proficient "communication decision-makers" during their postgraduate lives.

Students wishing to declare communication as a major should contact the department's academic adviser, [Andrew Sharp](#) ([andrew.sharp@unh.edu](mailto:andrew.sharp@unh.edu)), for application information and requirements.

## Requirements

### Degree Requirements

**Minimum Credit Requirement:** 128 credits

**Minimum Residency Requirement:** 32 credits must be taken at UNH

**Minimum GPA:** 2.0 required for conferral\*

**Core Curriculum Required:** Discovery & Writing Program Requirements

**Foreign Language Requirement:** Yes

All Major, Option and Elective Requirements as indicated.  
*\*Major GPA requirements as indicated.*

### Major Requirements

Majors must complete ten courses (40 credits) with a 2.0 overall average in the major. The distribution of required courses for the major is as follows:

Code	Title	Credits
Complete the following three introductory courses: <sup>1</sup>		
CMN 455	Introduction to Media Studies	4
CMN 456	Propaganda and Persuasion	4
CMN 457	Introduction to Language and Social Interaction	4
Select three 500-level communication analysis courses <sup>2</sup>		12
Select four upper-division courses <sup>3</sup>		16
Total Credits		40

<sup>1</sup> • Majors must earn a grade of C or better in each introductory course.

<sup>2</sup> • Students must complete the 400-level prerequisite before taking a 500-level course.

- At least two of the three 500-level courses must have different 400-level prerequisites.
  - Majors must earn a grade of C- or better in all three analysis courses.
  - CMN 500 Public Speaking, CMN 599 Internship, and CMN #575 Research Practicum cannot be used to fulfill an analysis course requirement.
- 3
- Students are eligible to take upper-division courses after successfully completing at least two of the 500-level analysis courses, each with a different 400-level prerequisite.
  - At least one of the student's four upper-division courses must be at the 700 level.
  - Majors must earn a grade of C- or better in all upper-division courses.
  - Up to four credits of CMN 795 can be used towards the major, but can only fulfill the capstone requirement with department approval.
  - CMN 796 Comm-Entary Journal cannot be used to fulfill the advanced-level requirement.

A maximum of 8 credits of independent study (CMN 795 Independent Study) may be counted toward the major. CMN 799H Honors Thesis and CMN 796 Comm-Entary Journal cannot be used to fulfill an advanced course requirement. The Discovery Program Capstone requirement may be fulfilled by completing any 700-level communication course except CMN 796 Comm-Entary Journal. CMN 795 Independent Study can only fulfill the capstone requirement with department approval and can be repeated for a maximum of 8 credits.

Transfer students must complete 20 credits of their communication coursework at UNH to complete the major satisfactorily. Exchange students may transfer no more than 10 approved credits from another institution to be applied toward completion of the communication major at UNH.

Candidates for a degree must satisfy all of the University Discovery Program requirements in addition to satisfying the requirements of each individual major program. Bachelor of arts candidates must also satisfy the foreign language proficiency requirement.

Major department courses may not be used to satisfy Discovery category requirements except in the case of a second or dual major.

## Student Learning Outcomes

Students will be able to describe the Communication discipline and its central questions. We expect students to be able to:

- Explain and synthesize the history of Communication theory.
- Articulate the differences between approaches within the discipline (media studies, language and social interaction, and rhetorical studies).
- Identify contemporary debates within the field.
- Distinguish Communication scholarship from other areas of study.
- Understand the role of Communication scholarship in society.
- Articulate the relevance of communication in civic life, including an ability to apply key concepts in the field to world events, situations, or problems.

Students will be able to think critically about communication processes by applying communication theories and concepts. We expect students to be able to:

- Identify theories, perspectives, principles, and concepts relevant to the discipline.
- Recognize academic writing, identify the work's thesis, explain its method, assess the evidence used, and determine its significance.
- Engage with communicative patterns, processes, problems, and practices that they encounter in their personal, professional and civic lives.
- Acquire effective frameworks for describing, analyzing, reflecting upon, and engaging with those patterns, processes, problems, and practices.

Prepare students to become thoughtful and proficient communicators. We expect students to be able to:

- Become critical consumers of messages.
- Understand how meanings are constructed by speakers and audiences.
- Evaluate claims and arguments, and to be able to explain how they are grounded.
- Recognize the collaborative construction of meaning and its relation to social change.
- Explore the ways in which various forms of communication constitute, maintain, and transform social life.
- Formulate coherent arguments/theses, provide support for their perspectives, and communicate them clearly and logically.
- Select creative and appropriate modalities and technologies to accomplish communicative goals.
- Adapt messages and coordinate communication with others recognizing the diverse needs.

## Communication Major: Business Applications Option (B.A.)

<https://cola.unh.edu/communication/program/ba/communication-major-business-applications-option>

### Description

The Department of Communication in collaboration with the Department of Marketing and the Department of Management in the Peter T. Paul College of Business and Economics offers a business applications option for communication students. The objective of the business applications option is to offer a select group of communication students the opportunity to augment the liberal arts focus of their major with professional training in such areas as marketing, advertising and organizational behavior. Qualified students who meet all requirements will graduate<sup>1</sup> with a B.A. degree in communication: business applications, an achievement which will be recorded on their official transcripts.

## Minimum Requirements for Option Eligibility

1. Declared communication major.

2. Completion of CMN 455 Introduction to Media Studies, CMN 456 Propaganda and Persuasion, and CMN 457 Introduction to Language and Social Interaction with a C or better.

3. Completion of at least one CMN 500-level course with a C- or better.

4. Maintain minimum in-major GPA of 2.5.

- Student enrollment in the Business Applications Option will be contingent upon **space availability**.
- Overall, total enrollment should **not exceed twenty students** in any given academic year.

<sup>1</sup> Students admitted to the option must earn a minimum 2.5 cumulative grade point average in major courses at graduation or they will, by default, graduate with a BA in Communication without the special option designation on their diplomas.

## Requirements

### Degree Requirements

**Minimum Credit Requirement:** 128 credits

**Minimum Residency Requirement:** 32 credits must be taken at UNH

**Minimum GPA:** 2.0 required for conferral\*

**Core Curriculum Required:** Discovery & Writing Program Requirements

**Foreign Language Requirement:** Yes

All Major, Option and Elective Requirements as indicated.

\*Major GPA requirements as indicated.

### Major Requirements

Completion of all Communication major requirements.

Majors must complete ten courses (40 credits) with a 2.0 overall average in the major. The distribution of required courses for the major is as follows:

Code	Title	Credits
Complete the following three introductory courses: <sup>1</sup>		
CMN 455	Introduction to Media Studies	4
CMN 456	Propaganda and Persuasion	4
CMN 457	Introduction to Language and Social Interaction	4
Select three 500-level communication analysis courses <sup>2</sup>		12
Select four upper-division courses <sup>3</sup>		16
<b>Total Credits</b>		<b>40</b>

- <sup>1</sup> Majors must earn a grade of C or better in each introductory course.
- <sup>2</sup>
  - Students must complete the 400-level prerequisite before taking a 500-level course.
  - At least two of the three 500-level courses must have different 400-level prerequisites.
  - Majors must earn a grade of C- or better in all three analysis courses.

- CMN 500 Public Speaking, CMN 599 Internship, and CMN #575 Research Practicum cannot be used to fulfill an analysis course requirement.
- <sup>3</sup>
- Students are eligible to take upper-division courses after successfully completing at least two of the 500-level analysis courses, each with a different 400-level prerequisite.
  - At least one of the student's four upper-division courses must be at the 700 level.
  - Majors must earn a grade of C- or better in all upper-division courses.
  - Up to four credits of CMN 795 can be used towards the major, but can only fulfill the capstone requirement with department approval.
  - CMN 796 Comm-Entary Journal cannot be used to fulfill the advanced-level requirement.

## Option in Business Applications Requirements

Code	Title	Credits
ADMN 400	Introduction to Business	4
CMN 599	Internship <sup>1</sup>	4
Choose two:		8
MGT 520	Topics in Management	
MKTG 520	Topics in Marketing	
MKTG 530	Survey of Marketing	
MGT 535	Organizational Behavior	
<b>Total Credits</b>		<b>16</b>

<sup>1</sup> Students undergo a business applications internship experience **that must be completed in one semester**. (Prerequisites: CMN 455, CMN 456, CMN 457)

A maximum of 8 credits of independent study (CMN 795 Independent Study) may be counted toward the major. CMN 799H Honors Thesis and CMN 796 Comm-Entary Journal cannot be used to fulfill an advanced course requirement. The Discovery Program Capstone requirement may be fulfilled by completing any 700-level communication course except CMN 796 Comm-Entary Journal. CMN 795 Independent Study can only fulfill the capstone requirement with department approval and can be repeated for a maximum of 8 credits.

Transfer students must complete 20 credits of their communication coursework at UNH to complete the major satisfactorily. Exchange students may transfer no more than 10 approved credits from another institution to be applied toward completion of the communication major at UNH.

Candidates for a degree must satisfy all of the University Discovery Program requirements in addition to satisfying the requirements of each individual major program. Bachelor of arts candidates must also satisfy the foreign language proficiency requirement.

Major department courses may not be used to satisfy Discovery category requirements except in the case of a second or dual major.

## Student Learning Outcomes

Students will be able to describe the Communication discipline and its central questions. We expect students to be able to:

- Explain and synthesize the history of Communication theory.
- Articulate the differences between approaches within the discipline (media studies, language and social interaction, and rhetorical studies).

## Communication Major: Media Practices Option (B.A.)

<https://cola.unh.edu/communication/program/ba/communication-major-media-practices-option>

### Description

The Department of Communication in collaboration with the Communication Arts Department at the UNH Manchester campus offers the media practices option. This option is designed for qualified students who want to augment their communication major at Durham with training in media production and applied media communication through courses in the Communication Arts Department at the Manchester Campus.<sup>1</sup>

Qualified students who meet all requirements will graduate with a B.A. degree in communication with a media practices option, an achievement which will be recorded on their official transcripts.

## Minimum Requirements for Option Eligibility

1. Declared Communication Major.
2. Completion of CMN 455 Introduction to Media Studies, CMN 456 Propaganda and Persuasion, and CMN 457 Introduction to Language and Social Interaction with a C or better.
3. Maintain minimum in-major GPA of 2.5.

<sup>1</sup> Students are responsible for their own travel arrangements between Durham and Manchester campuses.

## Requirements

### Degree Requirements

**Minimum Credit Requirement:** 128 credits

**Minimum Residency Requirement:** 32 credits must be taken at UNH

**Minimum GPA:** 2.0 required for conferral\*

**Core Curriculum Required:** Discovery & Writing Program Requirements

**Foreign Language Requirement:** Yes

All Major, Option and Elective Requirements as indicated.

\*Major GPA requirements as indicated.

### Major Requirements

Completion of all Communication major requirements.

Majors must complete ten courses (40 credits) with a 2.0 overall average in the major. The distribution of required courses for the major is as follows:

Code	Title	Credits
Complete the following three introductory courses: <sup>1</sup>		
CMN 455	Introduction to Media Studies	4
CMN 456	Propaganda and Persuasion	4
CMN 457	Introduction to Language and Social Interaction	4
Select three 500-level communication analysis courses <sup>2</sup>		12
Select four upper-division courses <sup>3</sup>		16
<b>Total Credits</b>		<b>40</b>

<sup>1</sup> Majors must earn a grade of C or better in each introductory course.

<sup>2</sup> Students must complete the 400-level prerequisite before taking a 500-level course.

- At least two of the three 500-level courses must have different 400-level prerequisites.
- Majors must earn a grade of C- or better in all three analysis courses.
- CMN 500 Public Speaking, CMN 599 Internship, and CMN #575 Research Practicum cannot be used to fulfill an analysis course requirement.

<sup>3</sup> Students are eligible to take upper-division courses after successfully completing at least two of the 500-level analysis courses, each with a different 400-level prerequisite.

- At least one of the student's four upper-division courses must be at the 700 level.
- Majors must earn a grade of C- or better in all upper-division courses.
- Up to four credits of CMN 795 can be used towards the major, but can only fulfill the capstone requirement with department approval.
- CMN 796 Comm-Entary Journal cannot be used to fulfill the advanced-level requirement.

### Option in Media Practices Requirements

Code	Title	Credits
Completion of two media practices courses (8 credits) in the Department of Communication Arts at Manchester campus from among the following: <sup>1</sup>		
CA 500	Media Writing	8
CA 502	Image and Sound	
CA 512	Screenwriting	
CA 514	Fundamentals of Video Production	
CA 515	Advanced Video Production	
CA 517	Fundamentals of Audio Prod	
CA 520	Special Topics in Applied Communication	

### Internship

Code	Title	Credits
Based on work experience at a site directly relevant to applied media practices or production for a minimum of 4 academic credits completed in one semester. Junior standing is required. <sup>2</sup>		
CMN 599	Internship	4

<sup>1</sup> Students may arrange to take Media Practices (CA) courses at any time during the course of their academic programs after they have satisfactorily completed the three 400-level introductory courses. Thus, students may take the 500-level CA courses before, concurrently with, or after completion of CMN 500-level courses and/or CMN 600-level courses.

<sup>2</sup> Visit our [Internships webpage](#) for procedures on how to arrange internships.

A maximum of 8 credits of independent study (CMN 795 Independent Study) may be counted toward the major. CMN 799H Honors Thesis and CMN 796 Comm-Entary Journal cannot be used to fulfill an advanced course requirement. The Discovery Program Capstone requirement may be fulfilled by completing any 700-level communication course except CMN 796 Comm-Entary Journal. CMN 795 Independent Study can only fulfill the capstone requirement with department approval and can be repeated for a maximum of 8 credits.

Transfer students must complete 20 credits of their communication coursework at UNH to complete the major satisfactorily. Exchange students may transfer no more than 10 approved credits from another institution to be applied toward completion of the communication major at UNH.

Candidates for a degree must satisfy all of the University Discovery Program requirements in addition to satisfying the requirements of each individual major program. Bachelor of arts candidates must also satisfy the foreign language proficiency requirement.

Major department courses may not be used to satisfy Discovery category requirements except in the case of a second or dual major.

## Student Learning Outcomes

Students will be able to describe the Communication discipline and its central questions. We expect students to be able to:

- Explain and synthesize the history of Communication theory.
- Articulate the differences between approaches within the discipline (media studies, language and social interaction, and rhetorical studies).
- Identify contemporary debates within the field.
- Distinguish Communication scholarship from other areas of study.
- Understand the role of Communication scholarship in society.
- Articulate the relevance of communication in civic life, including an ability to apply key concepts in the field to world events, situations, or problems.

Students will be able to think critically about communication processes by applying communication theories and concepts. We expect students to be able to:

- Identify theories, perspectives, principles, and concepts relevant to the discipline.
- Recognize academic writing, identify the work's thesis, explain its method, assess the evidence used, and determine its significance.
- Engage with communicative patterns, processes, problems, and practices that they encounter in their personal, professional and civic lives.
- Acquire effective frameworks for describing, analyzing, reflecting upon, and engaging with those patterns, processes, problems, and practices.

Prepare students to become thoughtful and proficient communicators. We expect students to be able to:

- Understand how meanings are constructed by speakers and audiences.
- Evaluate claims and arguments, and to be able to explain how they are grounded.
- Recognize the collaborative construction of meaning and its relation to social change.
- Explore the ways in which various forms of communication constitute, maintain, and transform social life.
- Formulate coherent arguments/theses, provide support for their perspectives, and communicate them clearly and logically.
- Select creative and appropriate modalities and technologies to accomplish communicative goals.
- Adapt messages and coordinate communication with others recognizing the diverse needs.

## Communication Minor

<https://cola.unh.edu/communication/program/minor/communication>

## Description

Students who enroll in a communication minor have the flexibility of structuring their pathway of five courses to explore the ways in which various forms of communication constitute, maintain and transform social life. The program trains students to understand, adapt to and participate in social change. We offer courses in media studies, rhetoric and face-to-face interaction. We'll encourage you to "learn how to learn," to become clear and precise writers, and to develop your abilities to think – to describe, analyze, critique, explore, integrate, synthesize and create ideas. The department's faculty members believe that these are the skills and abilities of a strong liberal arts education that will be the most useful resources in students' professional, civic and personal lives after leaving UNH.

The contact for the communication minor is the department's academic adviser, [Andrew Sharp \(andrew.sharp@unh.edu\)](mailto:andrew.sharp@unh.edu).

## Requirements

Students who pursue a communication minor must complete any five courses (20 credits) within the minor with a C or better at the 400 level and with a C- or better at the 500, 600, and 700 levels, and maintain a minimum grade-point average of 2.0.

## Required Courses

Code	Title	Credits
Select 5 communication courses		20
Total Credits		20

Any combination of five communication courses is acceptable. Please see exceptions below.

- Communication minor students are not able to count both CMN 500 Public Speaking and CMN #600 Public Speaking as a Civic Art toward the minor.
- CMN #575 Research Practicum and CMN 599 Internship do not count toward the minor
- No more than two transfer courses from other institutions can be applied to the minor and all transfers are contingent upon departmental approval.
- No more than 4 credits of independent study can count toward the minor.
- No pass/fail or credit/fail courses can count toward the minor.

## Education (EDUC)

Undergraduate course work in Education engages students in a diverse and varied collection of educational experiences that prepare them for present and future challenges as well as for a wide range of employment opportunities in education and professional settings engaged in education policy, community-based education, and advocacy.

Undergraduate students in Education have the following major and minor options:

- Educational Studies Dual Major (first major + education major)
- Educational Studies Major: Equity, Diversity, & Inclusion (B.A.)
- Education Minor

- Special Education Minor
- Teacher Certification in Other Content Areas

### Accelerated Master's Program

UNH undergraduate students with a 3.2 or higher cumulative grade-point average (GPA) can apply for "early admission" to the Graduate School either one or two semesters prior to their final semester as an undergraduate. Admitted students may register for a maximum of 12 credits of dual-credit coursework (undergraduate & graduate level coursework) prior to completing their bachelor's degree. To receive graduate credit, students must be admitted to the Graduate School before the start of the semester in which the course(s) will be taken and need to maintain a 3.2 GPA or higher until their undergraduate degree is awarded. Applying for early admission involves the regular Graduate School application at [www.gradschool.unh.edu](http://www.gradschool.unh.edu).

### Program Philosophy

The professional education unit at the University of New Hampshire seeks to prepare practitioners who will become leaders in their own practice settings and within their profession, applying knowledge to improve education for all students and enrich the lives of clients. Immersion in subject matter, research, theory and field-based experience provide a base for our graduates to make well-reasoned judgments in complex situations, render informed decisions, model exemplary practice, and take initiative for planned change.

Students learn to establish caring and thoughtful environments that celebrate individual differences and backgrounds while fostering cooperation and educational improvement. We stress reflective critical inquiry as a mode of study and community-building as a means to promote change. We value and support both our students' local practice and their broader leadership within the profession.

### Mission Statement of Programs in Educator Preparation

We seek to prepare beginning teachers who demonstrate excellence in classroom practice and who will become educational leaders. Our graduates will possess the knowledge, skills, and dispositions required for outstanding classroom practice and eventual leadership within the local school community and the larger education community.

<https://cola.unh.edu/education/faculty-staff-directory>

## Education Four-Year, Undergraduate Options

<https://cola.unh.edu/education/program/bs/education-four-year-undergraduate-options-ba-bm>

### Description

The Educational Studies Major: Equity, Diversity & Inclusion (EDI) four-year program (B.A.) is for students interested in becoming teachers in elementary school settings.

The EDI major offers a Teacher Preparation Program leading to a pathway to dual certifications in Elementary Education (K-6) and ESOL (English to Speakers of Other Languages, K-12). Interested EDI students must apply to the Teacher Preparation Program. Only those who submit the application materials by the deadline (April 15th) and meet all the admission requirements are accepted into the Teacher Preparation Program. Graduates of the EDI Teacher Preparation Program will be eligible for NH teacher certifications in Elementary Education and English to Speakers of Other Languages (ESOL).

- [Educational Studies Major: Equity, Diversity & Inclusion \(B.A.\)](#)

A bachelor's degree including a one-semester student-teaching requirement allows students to be recommended for licensure in certain specialized areas. Those areas are

- [Health and Physical Education Major \(B.S.\)](#)
- [Human Development and Family Studies Major \(B.S.\) - Child Development/Early Childhood Education](#)
- [Mathematics Education Major: Secondary Option \(B.S.\)](#)
- [Mathematics Education Major: Elementary/Middle School Education K-8 Option \(B.S.\)](#)
- [Music Education Major \(B.M.\)](#)
- [Theatre Major: Secondary Theatre Education Option \(B.A.\)](#)
- [Theatre Major: Dance Option \(B.A.\)](#)

### Requirements

See the [Educational Studies Major: Equity, Diversity & Inclusion \(B.A.\)](#) page for the requirements of this program.

For the specialized areas listed on the Description tab (i.e., health and physical education, human development and family studies, math education, music education, theatre and dance education), students must fulfill requirements for the major appropriate for the licensure being sought, in addition to the following core professional courses or their equivalent:

Code	Title	Credits
EDUC 500	Exploring Teaching	4
EDUC 605	Educational Perspectives in Critical Times	4
EDUC 701	Human Development & Learning: Cultural Perspectives	4
EDUC 751A	Inclusive Elementary Education: Literacies and Learning for Diverse Learners	4
or EDUC 751B	Methods of Inclusive Secondary Education: Literacies, Learning, and Transitions	
EDUC 694	Courses in Supervised Teaching	8

A minimum 2.8 cumulative grade-point average at the time of application to student teaching is required. Students in music, mathematics, and physical education need to apply by March 1st of the junior

year and October 15th of the senior year for spring semester to the Education Department for student teaching. An unofficial transcript and a current resume must accompany the application. Return applications to the Education Department Office, 203 Morrill Hall, or Education.Department@unh.edu.

## Educational Studies Dual Major

<https://cola.unh.edu/education/program/educational-studies-dual-major>

### Description

The Educational Studies Dual Major (ESDM) is designed for students who are interested in an education that integrates field-work and research in a range of educational settings, including classrooms, museums and non-profits, whether they aspire to become educators, activists, policymakers or deepen their knowledge of education as informed citizens.

The Educational Studies Dual Major (ESDM) is committed to deepening our understanding of educational institutions and the processes necessary to bring about systemic changes that lead to equity and access to a first-rate educational experience for all students. In addition to core courses and electives taught by educational studies faculty, our dual major benefits from a wide array of cross-referenced courses offered by other departments and programs, including Gender and Women's Studies, Anthropology, History, Economics, Political Science, Psychology, Sociology, Theatre and Dance, and others. Although the interdisciplinary major does not lead to teacher certification, we do advise students from across the University on pathways to teaching.

### Requirements

#### Degree Requirements

**Minimum Credit Requirement:** 128 credits

**Minimum Residency Requirement:** 32 credits must be taken at UNH

**Minimum GPA:** 2.0 required for conferral\*

**Core Curriculum Required:** Discovery & Writing Program Requirements

**Foreign Language Requirement:** Yes, if primary major is a Bachelor of Arts

**Declared Primary Major**

All Major, Option and Elective Requirements as indicated.

*\*Major GPA requirements as indicated.*

## Educational Studies Dual Major Requirements

The dual major in educational studies requires **(32 credits)** each completed with a **C+ or better**. Any education course to be applied for a future teacher licensure requirement must be completed with a grade of **B- or better**. The dual major cannot be declared until after a first major has been declared and students must have a UNH undergraduate GPA of a 2.50 or better at the time of declaring. The required minimum overall GPA in major coursework is 2.50.

Code	Title	Credits
<b>Foundations</b>		<b>4</b>
EDUC 402	Introduction to Educational Studies: Social Change and Education in Local and Global Contexts	
<b>Explorations in Learning and Teaching</b>		<b>4</b>
Choose one (1) 500-level exploration and applied experience course:		
EDUC 500	Exploring Teaching	
EDUC 520	Education, Poverty, and Development	
<b>Core Courses</b>		<b>8</b>
Two (2) core courses emphasizing interdisciplinary grounding in education and learning (All 700 level Ed courses are open to only Juniors and Seniors):		
EDUC 605	Educational Perspectives in Critical Times	
EDUC 701	Human Development & Learning: Cultural Perspectives	
<b>Elective Courses</b>		<b>12</b>
Choose three (3) elective courses, providing students with opportunities for focused inquiry in educational studies. Students may either emphasize a single cluster or take elective coursework in more than one cluster below:		
<b>Instructional Methods in Schools</b>		
EDUC 703C	Classroom Management: Creating Positive Learning Environments	
EDUC 703F	Teaching Elementary School Science	
EDUC 703M	Teaching Elementary Social Studies	
EDUC 706	Teaching & Learning Literacy in the Elementary Classroom	
EDUC 745	Math with Technology in Early Education	
MATH 601	Exploring Mathematics for Teachers I	
MATH 703	Teaching of Mathematics in Grades K-5	
<b>Language and Literacy</b>		
EDUC 506	Mentoring Readers and Writers in the Elementary Grades	
EDUC 550	Language and Linguistic Diversity in Schools	
EDUC 712	Teaching Multilingual Learners	
EDUC 734	Critical Perspectives on Children's Literature	
<b>Special Education</b>

EDUC 751B	Methods of Inclusive Secondary Education: Literacies, Learning, and Transitions	
EDUC 760	Introduction to Young Children with Special Needs	
EDUC 761	Designing Curriculum for Inclusive, Equitable Settings for Young Children (birth-8)	
<b>Critical and Diverse Perspectives</b>		
EDUC 444B	Public Issues, Democratic Schooling & Active Citizenship in a Global Context	
EDUC 520	Education, Poverty, and Development	
EDUC 525	Teaching Race	
EDUC 718	Critical Social Justice in and Beyond Education	
<b>Law and Educational Policy</b>		
EDUC #767	Students, Teachers, and the Law	
<b>Capstone Course</b>		<b>4</b>
EDUC 784	Educators as Community-Engaged Researchers	
or Semester in the City if completed during senior year		
or INCO 790 Advanced Research Experience and URC Presentation		
or McNair Research Thesis		
or A capstone in their first major-if it's related to an Educational Studies project and approved by both advisors and the director of Undergraduate Studies.		
<b>Total Credits</b>		<b>32</b>

Candidates for a degree must satisfy all of the University Discovery Program requirements in addition to satisfying the requirements of each individual major program. Bachelor of arts candidates must also satisfy the foreign language proficiency requirement.

Students who are interested in a dual major in Educational Studies will need to file an *Intent to Dual Major Form*. The form is available from the program website at [cola.unh.edu/education](https://cola.unh.edu/education). For more information, please contact [education.department@unh.edu](mailto:education.department@unh.edu).

## Student Learning Outcomes

GOAL ONE: Our students effectively analyze the social dimensions of education, to include issues of culture, gender, equity, health, and economics. Specifically, students will:

- demonstrate understanding of the roles of gender, race, ethnicity, and economic class in effecting education in formal and informal settings.
- demonstrate understanding of the history and politics of education including the principles, assumptions and impacts of school reform initiatives, education, international development and economic globalization as well as alternatives for defining and pursuing diverse conceptions of education, quality of life, and equity.
- demonstrate understanding of how economics and markets shape private and public actions and outcomes with respect to education on local, regional, national and global scales.
- demonstrate understanding of the origins, similarities and differences among concepts of diversity, universality, pluralism, multiculturalism, and cosmopolitanism and their implications for education in formal and informal at a variety of scales.
- demonstrate cultural self-awareness and cultural sensitivity in analysis, synthesis, visioning, design and intervention related to studies in education.
- demonstrate an understanding of the role of public health related to education at various scales.

GOAL TWO: Our students engage diverse histories of education in the context of civic engagement, activism, and commitment to equity and justice for Social Good. Specifically, students will:

- demonstrate understanding of the relationship between awareness and action and be able to articulate theories of ethics and civic engagement in the context of educational initiatives on local, national and international levels.
- demonstrate understanding of the principles, assumptions and frameworks of educating for equity and justice from diverse perspectives.
- critique these issues based on their direct experience in "engaged learning" projects as well as in historical social movement analogues, including civil rights, abolition, environmental movements, and women's suffrage.

## Educational Studies Major: Equity, Diversity & Inclusion (B.A.)

<https://cola.unh.edu/education/program/ba/educational-studies-equity-diversity-inclusion>

### Description

The UNH major in educational studies: equity, diversity and inclusion (EDI) offers students committed to becoming teachers in elementary school settings opportunities to integrate knowledge and research methodologies from several academic disciplines and field sites into a focused examination of the interdisciplinary field of education. The four-year educational studies: EDI major program is designed for students who seek a rich understanding of education grounded in science, the arts and the humanities. The principles of equity, diversity and inclusion are

woven throughout every course and field experience. All declared majors choose one of two strands of EDI: special education or multilingual learners. Graduates will be eligible for certification by the NH Department of Education in elementary education plus English to Speakers of Other Languages (ESOL).

The goal of the program is to graduate civically, globally and intellectually engaged students who understand the complexities of education, are capable of analyzing and evaluating complex problems influencing education from a variety of disciplinary perspectives, and are committed to becoming community teachers — teachers who are leaders and role-models in the communities in which they teach. Program graduates will be prepared for present and future challenges as well as for a wide range of employment opportunities in educational and professional settings engaged in educational policy, community-based education and educational advocacy.

## Requirements

### Degree Requirements

**Minimum Credit Requirement:** 128 credits

**Minimum Residency Requirement:** 32 credits must be taken at UNH

**Minimum GPA:** 2.0 required for conferral\*

**Core Curriculum Required:** Discovery & Writing Program Requirements

**Foreign Language Requirement:** Yes

All Major, Option and Elective Requirements as indicated.

\*Major GPA requirements as indicated.

### Major Requirements

The major in educational studies: equity, diversity, and inclusion requires **88-98 credits** with each course completed with a **B- or better**. The required minimum overall GPA in major coursework is **3.0**.

Code	Title	Credits
<b>Foundations (24 credits)</b>		
EDUC 402	Introduction to Educational Studies: Social Change and Education in Local and Global Contexts	4
EDUC 500	Exploring Teaching	4
EDUC 525 or EDUC 520	Teaching Race Education, Poverty, and Development	4
EDUC 605	Educational Perspectives in Critical Times	4
EDUC 656	Advocating for Diverse and Inclusive Family-School-Community Partnerships	4
EDUC 701 or PSYC 581	Human Development & Learning: Cultural Perspectives Child Development	4
<b>Curriculum and Methods (36 credits)</b>		
MATH 601	Exploring Mathematics for Teachers I	4
MATH 703	Teaching of Mathematics in Grades K-5	4
EDUC 703C	Classroom Management: Creating Positive Learning Environments	4
EDUC 703F	Teaching Elementary School Science	4
EDUC 703M	Teaching Elementary Social Studies	4
EDUC 706	Teaching & Learning Literacy in the Elementary Classroom	4
EDUC 733 or EDUC 734	Teaching Writing in the Elementary Grades Critical Perspectives on Children's Literature	4
EDUC 751A	Inclusive Elementary Education: Literacies and Learning for Diverse Learners	4
EDUC 761	Designing Curriculum for Inclusive, Equitable Settings for Young Children (birth-8)	4
<b>Field Experiences: Communities and Classrooms (2-6 credits)</b>		
(2-6 credits of one or more of the following 500/600 field experience courses)		
EDUC 506	Mentoring Readers and Writers in the Elementary Grades	4
EDUC 556	Peer to Peer Mentoring for Students with Disabilities	2

EDUC 610H	Field Experience in Educational Studies	1-8
Choose ONE of the following two paths:		
PATH A: Inclusive Education for Students with Disabilities (12 credits)		
EDUC 650	Introduction to Disability in Inclusive Schools and Communities	4
EDUC 739	Equitable Assessment and Individualized Educational Planning: Building Access and Agency	4
EDUC 740	Advanced Methods for Inclusive Curricular Design and Teaching: Building Access and Agency, Part II	4
PATH B: Multilingual Learners (16 credits)		
ENGL 405	Introduction to Linguistics	4
or ENGL 791	English Grammar	
EDUC 550	Language and Linguistic Diversity in Schools	4
or ENGL 719	Sociolinguistics Survey	
ENGL 715	Teaching English as a Second Language: Theory and Methods	4
or EDUC 712	Teaching Multilingual Learners	
ENGL 716	Curriculum, Materials and Assessment in English as a Second Language	4
Culminating Experiences (16 credits)		
EDUC 798	Internship and Seminar in Inclusive Teaching	4
EDUC 799	Internship and Seminar in Inclusive Teaching	8
EDUC 784	Educators as Community-Engaged Researchers	4

Course selection for a B.A. in Educational Studies is designed in close consultation with an Education Department advisor.

Candidates for a degree must satisfy all of the [University Discovery Program requirements](#) in addition to satisfying the requirements of each individual major program. Bachelor of arts candidates must also satisfy the [foreign language proficiency requirement](#).

## Student Learning Outcomes

- GOAL ONE: Our students effectively analyze the social dimensions of education, to include issues of culture, gender, equity, health and economics.
- GOAL TWO: Our students are able to recognize and respond to systematic and pervasive acts of marginalization that may percolate through schools and school communities and are situated within the contexts of more complex intersections among students’ abilities, languages, races, ethnicities, religions, genders and sexualities, all of which impact student identity, motivation, interest and connection to education.
- GOAL THREE: Our students demonstrate depth of knowledge in their subjects; recognize how knowledge in their subjects is created, organized and linked to other disciplines; identify the organizing themes and central concepts necessary for understanding a subject; and identify associated content necessary for students to understand these themes and concepts.
- GOAL FOUR: Our students understand how students develop and learn; treat students equitably and work diligently to help each student reach his or her potential; and create and maintain an atmosphere conducive to learning.
- GOAL FIVE: Our students demonstrate specialized knowledge of how to teach subject matter to their students. They use multiple approaches to facilitate student learning. They create lessons that are engaging, appropriately challenging, and motivating for students. They involve students in thoughtful inquiry and reflection.
- GOAL SIX: Our students use multiple strategies to assess students, regularly assess student progress using appropriate measures, and demonstrate the ability to make informed decisions about students and their learning based on classroom, district and state assessments.
- GOAL SEVEN: Our students make well-reasoned choices and decisions within the complex and demanding conditions of teaching.

They analyze the effects of their actions and make appropriate changes. They consider the moral and philosophical implications of educational decisions. They improve their practice by reflecting on their own experience, observing others, seeking advice and drawing upon educational research and scholarship.

- GOAL EIGHT: Our students assess the relative merits of educational reform efforts and determine their appropriateness to the classroom, school and broader societal contexts in which teaching and learning occur. They develop and articulate their own conceptual and philosophical perspective on teaching and learning based on professional experience and current theories and research in education. They understand the nature of educational change, the teacher’s role in the change process, and are willing to take risks as advocates for the benefit of students, teachers and the profession.
- GOAL NINE: Our students are active members of learning and professional communities. They work with colleagues to enhance their own teaching, learning and professional development, and work collaboratively with students, peers, and community members to create and contribute to effective learning environments.

## Education Minor

<https://cola.unh.edu/education/program/minor/education>

### Description

Explore the field of education. If you’d like to develop an understanding of the educational process and tools, the education minor is a great way to combine your interest with your major course of study. You’ll learn about the education system and current perspectives in education. In this highly flexible program, you’ll choose electives in areas ranging from teaching methods to language and literacy to special education.

A [Certification of Completion of Minor form](#) needs to be completed at the beginning of a student’s final undergraduate semester at UNH. Forms are available from the Registrar’s Office.

### Requirements

A minor consists of five courses, twenty (20) credits in Education Department courses.

Code	Title	Credits
Select five (5) education courses		20
Total Credits		20

A methods course located in another department may be counted for four (4) of these twenty (20) credits (e.g., ARTS 791 or ARTS 792, ENGL 792, MATH 709, etc.).

No more than eight (8) credits used by the student to satisfy major requirements may be used for the minor.

Courses used in obtaining a minor in special education cannot be used towards a minor in education.

EDUC 500 Exploring Teaching can only be counted once (four credits) towards the minor.

No more than two (2) transferred courses in Education or a closely-related area from another college or university may be used towards a

minor in Education. A three-credit (3) course transferred from another school will count for three credits (3) at UNH, not four credits (4).

## Special Education Minor

<https://cola.unh.edu/education/program/minor/special-education>

### Description

In the special education minor, you will engage in a critical examination of disability and study fundamental issues of values, purposes and practices in education systems. The concept of disability has a dual nature. It is an object of protection that recruits efforts and resources to develop all individuals' abilities, and to ensure their meaningful, full participation in society. Disability has also been a conduit for exclusion and inequity, with long-standing intersections with race, language, class and gender, among others. The minor can be combined with other majors, and provides a pathway to the Education Department's professional graduate preparation programs.

A Certification of Completion of Minor form needs to be completed at the beginning of a student's final undergraduate semester at UNH. Forms are available from the Registrar's Office or the Department of Education Office.

### Requirements

A minor consists of 20 credits in Education Department courses. The specific courses required for the minor are:

Code	Title	Credits
<b>Required Courses</b>		
EDUC 650	Introduction to Disability in Inclusive Schools and Communities	4
EDUC 656	Advocating for Diverse and Inclusive Family-School-Community Partnerships	4
Choose one of the following: <sup>1</sup>		4
EDUC 751A	Inclusive Elementary Education: Literacies and Learning for Diverse Learners	
EDUC 751B	Methods of Inclusive Secondary Education: Literacies, Learning, and Transitions	
<b>Elective Courses</b>		
Choose two of the following:		8
EDUC 556	Peer to Peer Mentoring for Students with Disabilities <sup>2</sup>	
EDUC 720	Educational Technology	
EDUC 745	Math with Technology in Early Education	
EDUC 760	Introduction to Young Children with Special Needs	
EDUC 761	Designing Curriculum for Inclusive, Equitable Settings for Young Children (birth-8)	
EDUC 762	Curriculum for Young Children with Special Needs: Evaluation and Program Design	
One course taken at UNH in a closely related department, such as a course from the disability studies minor from the Occupational Therapy Department.		
<b>Total Credits</b>		<b>20</b>

<sup>1</sup> Selection to be determined by the undergraduate major and future career interests

<sup>2</sup> May be taken twice as the content/readings are different each semester

No more than one required course or one elective may be a transfer course. A three-credit course taken transferred from another school will count for three credits at UNH, not four credits. A minor in Special Education does **NOT** lead to a teaching certification.

## English (ENGL)

The English department offers four majors: English, English literature, English teaching and English/journalism. A fifth undergraduate program is the interdepartmental linguistics major. We also offer the English/law 3+3 option for students interested in pursuing a JD after just 3 years of undergraduate study as an English major and the English major/text, business writing and digital studies option.

Though we offer several different programs in the English department, our shared focus is on studying the expressive possibilities of the English language in its myriad forms. Our classes pursue three teaching missions. First, we train students in professional study of the English language. Second, we offer students ways of understanding the various traditions of works written in English, with emphasis upon close reading and placing works in historical and cultural contexts. Third, and particularly important, we teach students to write with clarity, persuasiveness and elegance, and for a variety of audiences and situations. In all of our undergraduate English majors, we provide our students with critical thinking, writing and research skills that will enrich their personal and professional lives.

### Writing Programs

The Department of English offers courses for students interested in becoming writers. Writing workshops are offered in fiction, poetry and creative nonfiction. Intermediate-level courses may be taken more than once for credit, especially with two different instructors.

## English Literature Major (B.A.)

<https://cola.unh.edu/english/program/ba/english-literature>

### Description

The English literature major serves those students who want to focus particularly on the study of literature — its many forms and styles, its rich history and the range of approaches to its analysis. The English literature track is an especially attractive major for those who plan to go on to graduate school.

As an English literature major, a student will learn about various literary traditions, both British and American literature as well as traditions organized around other principles, such as post-colonial literature, women's literature, African-American literature and genres like poetry and drama. Courses are designed to expose students to many different sorts of works and to help them develop questions and strategies of critical thinking that will make all kinds of literary expression meaningful. And the works students will study will provide many ways of looking at the world and enrich their quality of life. What's more, students have many opportunities to hone critical writing and research skills and to practice the art of presenting research findings to a group, all skills in high demand in today's workplace. The English literature major is an excellent way to combine development of interpretive and writing skills with an exciting, in-depth encounter with some of the very best writing ever produced in the English language.

Students interested in majoring in English literature should consult Carla Cannizzaro, Senior Academic Advisor, Department of English, 230F Hamilton Smith Hall, (603) 862-1313 or the director of the English literature program.

Requirements

Degree Requirements

- Minimum Credit Requirement:** 128 credits
  - Minimum Residency Requirement:** 32 credits must be taken at UNH
  - Minimum GPA:** 2.0 required for conferral\*
  - Core Curriculum Required:** Discovery & Writing Program Requirements
  - Foreign Language Requirement:** Yes
- All Major, Option and Elective Requirements as indicated.  
\*Major GPA requirements as indicated.

Major Requirements

As an English literature major, you must complete a minimum of 40 credits of major coursework with a grade of C- or better, with the exception of ENGL 419 How to Read Anything, which you must complete with a grade of C or better. You may not use ENGL 401 First-Year Writing, ENGL 415s, "Literature and..." courses, or ENGL 444 classes to satisfy major requirements.

A minimum of six courses must be completed at the 600 level or higher.

Code	Title	Credits
Coursework must meet the following distribution requirements (a single course may satisfy multiple requirements):		
ENGL 419	How to Read Anything <sup>1</sup>	
Select two 500-level literature courses (select from list below)		
Select two pre-1800 literature courses (select from list below)		
Select two post-1800 literature courses (select from list below)		
ENGL 714	Critical Skills	
Select one American literature course at the 600/700 level		
Select one British literature course at the 600/700 level		
Select one course that addresses race, the construction of race, and racial theories in a U.S. context (select from list below)		
Select one course that investigates Anglophone literature in a global or transnational context (select from list below)		
Select one course in a specific genre including, poetry, memoir, nonfiction, drama, fiction, and film with the exception of ENGL 533 (select from list below)		

Capstone:	
ENGL 787	English Major Seminar

<sup>1</sup> This must be completed with a minimum grade of "C." ENGL 419 How to Read Anything is the only 400-level class that may count towards the English literature major.

Code	Title	Credits
500-level Courses		
ENGL/LING 405	Introduction to Linguistics	
ENGL 501	Introduction to Creative Nonfiction	
ENGL 502	Professional and Technical Writing	
ENGL 503	Persuasive Writing

ENGL 693R	Special Topics in Literature (if topic is appropriate)	
ENGL 778	Race and Gender in Film and Popular Culture	
ENGL 797R	Special Studies in Literature (Race & Racial Theories)	

<sup>1</sup> With the exception of ENGL 533 Introduction to Film Studies

Please see your advisor if you have questions about other courses that might fulfill these requirements.

Candidates for a degree must satisfy all of the University Discovery Program requirements in addition to satisfying the requirements of each

individual major program. Bachelor of arts candidates must also satisfy the foreign language proficiency requirement.

The required minimum overall GPA in major coursework is 2.0.

English Literature majors may use one major-required course to satisfy one Discovery category requirement.

Majors may only count one online course toward their English major requirements.

## Student Learning Outcomes

All undergraduate English majors acquire the same core skills. These include:

- Proficiency in analytical writing, critical thinking, and public-speaking.
- Knowledge of important literary genres and subgenres
- Fluency in literary terminology,
- A broad understanding of British-and-American literature, from the medieval period in England and the moment of first contact in America to the present day.
- Demonstrated proficiency in writing an analytical essay that offers a sophisticated close-reading or explication of a literary text. This essay will have a clear thesis and proceed in a logical fashion, with interpretive claims supported by evidence from the text.
- Demonstrated proficiency in literary research and in writing an extended thesis-driven research paper in which sources are correctly and responsibly cited.
- Demonstrated understanding of how to read across the color line in the US and /or how to analyze literary works written in English from outside the UK and the US—from India, Africa, and the Caribbean, for example.

## English Major (B.A.)

<https://cola.unh.edu/english/program/ba/english>

## Description

Our general English major has two objectives: provide our students with a common core of literary experience and expertise, and offer them the opportunity to shape a course of study suited to their personal interests. By offering flexible requirements, we encourage students to devise a path through coursework that has an intelligent rationale. Students whose primary interest is in literary studies can focus on our many offerings in that area; those who have a special interest in writing can take multiple writing courses in fiction, creative nonfiction and poetry writing (in addition to literature courses). Alternatively, they can match up courses from different areas in the department (say, literature and writing courses focused on poetry). Our major requirements encourage students to sample a range of courses in literature, linguistics, creative or nonfiction writing, and English teaching, so that students become familiar with the various strands of inquiry that compose contemporary English studies. The guiding principle of the general English major, then, is that it is open and liberal by design. It allows students to sample a variety of courses in order to study the operation of language from many perspectives.

If you're interested in majoring in English please contact Carla Cannizzaro, Senior Academic Advisor, Department of English, 230F Hamilton Smith Hall, (603) 862-1313.

- Knowledge of important literary genres and subgenres
- Fluency in literary terminology,
- A broad understanding of British-and-American literature, from the medieval period in England and the moment of first contact in America to the present day.
- Demonstrated proficiency in writing an analytical essay that offers a sophisticated close-reading or explication of a literary text. This essay will have a clear thesis and proceed in a logical fashion, with interpretive claims supported by evidence from the text.
- Demonstrated proficiency in literary research and in writing an extended thesis-driven research paper in which sources are correctly and responsibly cited.
- Demonstrated understanding of how to read across the color line in the US and /or how to analyze literary works written in English from outside the UK and the US—from India, Africa, and the Caribbean, for example.

## English Major: Text, Business Writing and Digital Studies Option (B.A.)

<https://cola.unh.edu/english/program/ba/english-major/text-business-writing-digital-studies-option>

### Description

The modern workplace requires that employees be adaptable. The Bureau of Labor Statistics conducted a long-term study that showed people held 11.7 jobs between the ages of 18 and 48, and those numbers are increasing with people moving between jobs more frequently every year. It is crucial that we prepare our students not just for one industry, but rather arm them with the transferable skills of critical reading, writing, analysis, production, theory and aesthetics of new forms in digital media and business. Students will leave this major option with the skills that are in the highest demand in all fields today.

This major option addresses the growing demand for graduates who are well-versed in a combination of humanistic and digital skills and able to work in a variety of professional environments. In particular, graduates of this option will be prepared for careers at cultural and historical institutions, as well as in emerging job markets of information management and online content delivery. This specialization complements areas requirements for the English major but it is not limited to English majors. Double majors are encouraged. Small classes, a great sense of community and a diversity of faculty specializations create an atmosphere that propels students toward success. Students will receive real-life work experience through our internship class, and they will also leave this major with a digital portfolio that contains a collection of professional projects that can be used on the job market.

In this English major option, students are trained in the critical reading, analysis, production, theory and aesthetics of new forms in media and business. These forms include but are not limited to social media, business writing conventions, modes of digital storytelling (i.e. audio and video essays, podcasts and wikis), digital archives, web design, and online communities and interaction. Students are also trained in analysis through traditional humanistic literature and they are expected to fulfill the core learning objectives shared by *all English major tracks*. These include:

- the ability to communicate and debate effectively with others, both orally and in writing,
- the ability to closely examine a variety of texts (including modern digital artifacts and archival materials)
- developing the ability to use a variety of media and communication platforms;
- experience and practice in dynamic critical thinking and creativity

If you're interested in majoring in English: Text, Business Writing and Digital Studies please contact Carla Cannizzaro, Senior Academic Advisor, Department of English, 230F Hamilton Smith Hall, (603) 862-1313.

## Requirements

### Degree Requirements

**Minimum Credit Requirement:** 128 credits

**Minimum Residency Requirement:** 32 credits must be taken at UNH

**Minimum GPA:** 2.0 required for conferral\*

**Core Curriculum Required:** Discovery & Writing Program Requirements

**Foreign Language Requirement:** Yes

All Major, Option and Elective Requirements as indicated.

\*Major GPA requirements as indicated.

### Major Requirements

- Eleven courses (44 credits) are required for the major.
- Completed with a **minimum grade of C-** (with the exception of ENGL 419, which must be completed with a grade of C or better).
- Students must meet the following distribution requirements. **Note that any one course may satisfy more than one requirement.**

Code	Title	Credits
ENGL 419	How to Read Anything <sup>1</sup>	4
One 500-level Introductory Course. Select from the following:		4
ENGL 501	Introduction to Creative Nonfiction (Digital Essay version)	
ENGL 502	Professional and Technical Writing	
ENGL 503	Persuasive Writing (Text, Business Writing, Digital version)	
ENGL 510	Introduction to the Digital Humanities	
ENGL 602	Advanced Professional and Technical Writing	
Select three ENGL courses numbered 600 or above <sup>2</sup>		12
Select two pre-1800 literature courses (select from the list below)		8
Select two post-1800 literature courses (select from the list below)		8
Select one course that addresses race, the construction of race, and racial theories (select from the list below)		4
Capstone: <sup>3</sup>		4
ENGL 796	The Internship Experience	
Digital Portfolio		

<sup>1</sup> Must be completed with a minimum grade of "C" to count towards the major.

<sup>2</sup> Students may include any advanced-level ENGL courses in which **20% of student assessment/work includes a digital humanities, digital research, or digital production component** (even it taken to fulfill literature requirements). *ENGL 602 may NOT be double counted for this requirement. Look for the 'DH' designation in the course descriptions during registration.*

<sup>3</sup> **The Internship Experience:** Experiential learning course that allows students to apply all of the writing, speaking, and critical thinking skills into an on-the-job experience, enabling them first-hand practice with writing documents at work, peer collaboration, public speaking opportunities/presentations, and supervision and evaluation. Students must have JR or SR status to enroll in this course.

**Digital Portfolio:** A minimum of six polished projects represented in a digital portfolio started in ENGL 602 and expanded over your career at UNH. A reflective essay will accompany this portfolio. This is a non-credit degree requirement. The Digital Portfolio is completed during enrollment in ENGL 796 'The Internship Experience'.

Code	Title	Credits
Pre-1800 Literature Courses		
ENGL 512 or ENGL 513W	British Literature I Age of Heroes: Beowulf to Dr. Faustus British Literature II Age of Revolutions: Shakespeare to Austen	
ENGL 595	Literary Topics (if topic is appropriate)	
ENGL 657	Shakespeare	
ENGL 693R	Special Topics in Literature (if topic is appropriate)	
ENGL 751	Medieval Romance	
ENGL 753	Old English	
ENGL 756	Chaucer	
ENGL 758	Advanced Shakespeare	
ENGL 758R	Advanced Shakespeare	
ENGL 759	Milton	
ENGL #767	Literature of the Restoration and Early 18th Century	
ENGL 780	Drama of Shakespeare's Contemporaries: Will and Company	
ENGL #783	English Novel of the Eighteenth Century	
ENGL 787	English Major Seminar (if topic is appropriate)	
ENGL 787R	English Major Seminar (if topic is appropriate)	

Code	Title	Credits
Post-1800 Literature Courses		
ENGL 514W or ENGL 516W	British Literature III: Revolts, Renewals, Migrations American Literature II Money, Migration, and Modernity: Huck Finn to Beloved	
ENGL 595	Literary Topics (if topic is appropriate)	
ENGL 609	Ethnicity in America: The African American Experience in the 20th Century	
ENGL 636	Literature and the Environment	
ENGL 650	I Hear America Singing: Studying American Literature and Culture	
ENGL 681	Contemporary African Literature	
ENGL 690	African American Literature	
ENGL 693R	Special Topics in Literature (if topic is appropriate)	
ENGL 738	Asian American Studies	
ENGL 739	American Indian Literature	
ENGL 743R	American Literature, 1865-1915: The Birth of the American Empire	
ENGL 749R	Major American Authors	
ENGL 773	Literary Modernisms: Return, Revolt, Recycle	
ENGL 774R	Modern & Contemporary British Literature: New Departures	
ENGL 775	Modern Irish Literature: A Changing Landscape	
ENGL #777	The English Novel in the World	
ENGL 782	Modern and Contemporary Drama	
ENGL 784	English Novel of the 19th Century	
ENGL 787	English Major Seminar (if topic is appropriate)	
ENGL 787R	English Major Seminar (if topic is appropriate)	
ENGL 797R	Special Studies in Literature (Race & Racial Theories) (if topic is appropriate)	

Code	Title	Credits
Race, the Construction of Race, and Racial Theory Courses		
ENGL 440A	On Race in Culture and Society	
ENGL #517	Black Creative Expression	

ENGL 549	In the Groove: African American Music as Literature
ENGL 550	Introduction to the Literature and Culture of Race
ENGL 560	Introduction to Latinx Literature and Culture
ENGL 585R	Introduction to Women in Literature
ENGL 609	Ethnicity in America: The African American Experience in the 20th Century
ENGL 650R	I Hear America Singing: Studying American Literature and Culture
ENGL 690	African American Literature
ENGL 693	Special Topics in Literature (subtopic R)
ENGL 693R	Special Topics in Literature
ENGL 738	Asian American Studies
ENGL 739	American Indian Literature
ENGL 743R	American Literature, 1865-1915: The Birth of the American Empire
ENGL 749R	Major American Authors
ENGL 758R	Advanced Shakespeare
ENGL 774R	Modern & Contemporary British Literature: New Departures
ENGL 778	Race and Gender in Film and Popular Culture
ENGL 787R	English Major Seminar
ENGL 797R	Special Studies in Literature (Race & Racial Theories)

Please see your advisor if you have questions about other courses that might fulfill these requirements.

Notes:

- To graduate from UNH, a student must earn a total of 128 credits.
- Majors may only count one online course towards their major requirements.
- English 403 'Exploring Literature', English 415 'Literature and...' and English 444 classes may NOT be used to satisfy ENGL major or minor requirements.
- English majors may use one major-required course to satisfy one Discovery category requirement.

Student Learning Outcomes

All undergraduate English majors acquire the same core skills. These include:

- Proficiency in analytical writing, critical thinking, and public-speaking.
- Knowledge of important literary genres and subgenres
- Fluency in literary terminology,
- A broad understanding of British-and-American literature, from the medieval period in England and the moment of first contact in America to the present day.
- Demonstrated proficiency in writing an analytical essay that offers a sophisticated close-reading or explication of a literary text. This essay will have a clear thesis and proceed in a logical fashion, with interpretive claims supported by evidence from the text.
- Demonstrated proficiency in literary research and in writing an extended thesis-driven research paper in which sources are correctly and responsibly cited.
- Demonstrated understanding of how to read across the color line in the US and /or how to analyze literary works written in English from outside the UK and the US—from India, Africa, and the Caribbean, for example.

English Major: Law 3+3 Option (B.A.)

<https://cola.unh.edu/english/program/ba/english-major-law-33-option>

## Description

The Law 3+3 program offers highly motivated UNH undergraduate students of English the possibility to earn both a bachelor's degree (B.A.) and a law degree (J.D.) in six, rather than seven, years of study. After completing three years as an undergraduate and gaining admission to the UNH Law School through the approved process, the 3+3 program participant will become a full-time first-year law student. Upon successful completion of the first year of law study, the credits earned will be counted toward the JD degree and as elective credits sufficient to complete UNH's requirements for the bachelor's degree.

## Eligibility and Admission Process

### STEP ONE: Application to the 3+3 English/Law B.A./JD option

Students apply to the program either when they submit their applications to UNH, selecting the English/J.D. option on the online application, *OR* after they are admitted to UNH, by applying directly to the English Department's "English/Law 3+3 Committee." In both cases, undergraduate applicants must fulfill the general requirements for admission to the English major.

**Students applying at the time of admission to UNH will typically present the following high school credentials:**

- A **3.5 GPA** in high school (UNH recalculates high school GPA's to a 4.0 weighted scale)
- A rigorous high school curriculum defined as the following:
  - 4 years of college prep (CP) or higher English
  - 4 years of CP or higher mathematics
  - 4 years of CP or higher social studies/history
  - Completed at least level 3 of a foreign language
  - 3 or more years of CP or higher laboratory sciences.
- A recommended score of **1200** or better (combined Math and Verbal) on the SAT or a **29** on the ACT.

**Currently enrolled UNH students applying to the program must:**

- Have a 3.5 GPA in college courses at the time of application. The English Department committee governing admission to the 3+3 program will also consider past SAT scores, maturity, and the ability to complete a highly demanding program of study based on performance thus far.
- For both groups, it is important to note that satisfying these requirements does not guarantee admission to this program. The review process is holistic (meaning all parts of the application carry weight and influence the final decision) and other components of the application will influence any admission decisions. Available space within the program will also influence who is admitted and how many students can be accepted.

### STEP TWO: Application to UNH Law school

To be eligible, students must:

- Complete all Discovery and major requirements, and accrue at least 98 credits before beginning law school in their 4th/"1L" year of academic study.
- Maintain at least a 3.5 GPA (including transfer credits) at time of application to law school, and at the end of their Junior year.

- Take the LSAT or the GRE no later than December of the final undergraduate year (i.e. the Junior year). Students opting to take the LSAT must earn a score of **157 or above**. Students opting to take the GRE must score in the 80% of concurrently tested students.
- Submit the law school application through the Law School Admissions Council by January 1 of the calendar year in which the student wishes to enroll in law school.
- If, for some reason, students are not admitted to UNH Law, they will complete their final, fourth year at UNH, following the typical undergraduate program.

Questions about the English/Law 3+3 undergraduate program should be directed to Carla Cannizzaro, Senior Academic Advisor, Department of English, 230F Hamilton Smith Hall, (603) 862-1313.

Questions about UNH Law School entry should be directed to Kevin Sousa, UNH pre-law advisor, 110 Murkland Hall, (603) 862-2062.

## Requirements

### Degree Requirements

**Minimum Credit Requirement:** 128 credits

**Minimum Residency Requirement:** 32 credits must be taken at UNH

**Minimum GPA:** 2.0 required for conferral\*

**Core Curriculum Required:** Discovery & Writing Program Requirements

**Foreign Language Requirement:** Yes

All Major, Option and Elective Requirements as indicated.

*\*Major GPA requirements as indicated.*

Students in the English/law 3+3 option fulfill the BA degree requirements and English major. See the Degree Plan for the recommended path through the English major.

**Participation requires that students:**

- Complete all discovery and major requirements and **at least 98 credits** before beginning law school
- Maintain a **3.5 or above** grade point average, including transfer credits
- Take the LSAT or the GRE no later than December of the final undergraduate year (i.e. the Junior year). Students opting to take the LSAT must earn a score of **157 or above**. Students opting to take the GRE must score in the 80% of concurrently tested students.
- Submit the law school application through the Law School Admissions by January 1 of the year in which the student wishes to enroll in law school.

### Major Requirements

1. Students must complete a minimum of 40 credits of with a minimum grade of C-.
2. The required minimum overall GPA is 2.0.
3. ENGL 401, 415s, "Literature and..." courses, 444s, ENGL 620 and ENGL 788 may not be used to satisfy major requirements.
4. A total of six courses must be numbered 600 and above.
5. One major-required course may be used to satisfy one Discovery category requirement.

- 6. Only one online course may count toward major requirements.
- 7. Special Topics in Literature courses (e.g. ENGL 693, ENGL 787, ENGL 797) may be used to satisfy Pre-1800 or Post-1800 and/or Race Requirement areas if the designated topic is appropriate.
- 8. Capstone must be completed with a minimum grade of C. May not be double-counted toward major requirements. Submit a Capstone Declaration form indicating the English course to be taken at the time of registration.

Code	Title	Credits

Select one additional 500-, 600-, or 700- level ENGL course		4
Capstone (one 700-level ENGL course)		4

Please see your advisor if you have questions about other courses that might fulfill these requirements.

# Law School Requirements

The following summarizes the required curriculum and bar recommended curriculum. 85 credits are required for graduation.

## Required courses include:

- Administrative Process
- Criminal Procedure
- Professional Responsibility
- Upper Level Writing Course

## Upper Level Skills Course

**Bar recommended courses include:**

Personal Taxation  
Business Associations  
Wills, Trust & Estates  
Evidence

## Degree Plan

### English Major Degree Plan

Below is a suggested course outline to help guide English undergraduate students participating in the English/Law 3+3 program through completion of their major and Discovery program requirements. Variations to this suggested path of courses may be undertaken with the approval of the student's English undergraduate advisor.

Course	Title	Credits
<b>First Year</b>		
<b>Fall</b>		
ENGL 401	First-Year Writing	4
Discovery Course		4
ENGL 419	How to Read Anything	4
Foreign Language Course		4
<b>Credits</b>		<b>16</b>
<b>Spring</b>		
Discovery Course		4
Discovery Course		4
ENGL 500-level Course (512, 513 count as pre-1800 lit courses; 514, 516 are post-1800 lit.)		4
Select one of the following:		
ENGL 512	British Literature I Age of Heroes: Beowulf to Dr. Faustus	
ENGL 513W	British Literature II Age of Revolutions: Shakespeare to Austen	
ENGL 514W	British Literature III: Revolts, Renewals, Migrations	
ENGL 516W	American Literature II Money, Migration, and Modernity: Huck Finn to Beloved	
Foreign Language or Elective (if FL is completed in one semester)		4
<b>Credits</b>		<b>16</b>
<b>Second Year</b>		
<b>Fall</b>		
Discovery Course		4
Discovery Course		4
ENGL 500-level Course (512, 513 count as pre-1800 lit courses; 514, 516 are post-1800 lit.)		4
Select one of the following:		
ENGL 512	British Literature I Age of Heroes: Beowulf to Dr. Faustus	
ENGL 513W	British Literature II Age of Revolutions: Shakespeare to Austen	
ENGL 514W	British Literature III: Revolts, Renewals, Migrations	

ENGL 516W	American Literature II Money, Migration, and Modernity: Huck Finn to Beloved	
Any 500-700 Level ENGL Course		4
LAW 475	Getting Ready to Succeed in Law School (Option: can instead be taken in second year spring or third year fall.)	2
<b>Credits</b>		<b>18</b>
<b>Spring</b>		
Discovery Course		4
Discovery Course		4
ENGL 600-700 Pre-1800 Literature Course (such a Shakespeare, Chaucer, Literature of Early America)		4
ENGL 600-700 Post-1800 Literature Course (such as Victorian Novel, Contemporary American Literature, Postcolonial Literature)		4
LAW 475	Getting Ready to Succeed in Law School (If not previously taken.)	2
<b>Credits</b>		<b>18</b>
<b>Third Year</b>		
<b>Fall</b>		
Discovery Course		4
Discovery Course		4
ENGL 600-700 Pre-1800 Literature Course (if you took 512 or 513, this can be any 600-700-level ENGL course.)		4
ENGL 600-700 Post-1800 Literature Course (If you took 514, 515, or 516, this can be any 600-700-level ENGL course.)		4
LAW 475	Getting Ready to Succeed in Law School (If not previously taken.)	2
<b>Credits</b>		<b>18</b>
<b>Spring</b>		
ENGL 600-700 Race Course Requirement		4
ENGL 600-700-level Elective Course		4
ENGL 787	English Major Seminar	4
Elective Course		4
<b>Credits</b>		<b>16</b>
<b>Total Credits</b>		<b>102</b>

**TOTAL:** 98 Credits (40 Discovery, 44 English, 4-8 Foreign Language, 4-8 Elective)

**NEED:** Beyond ENGL 401 First-Year Writing, 3 more WI courses, one in major, one at 600 level.

Students should take LAW 475 Getting Ready to Succeed in Law School at some point during their Sophomore year but no later than the first semester of their Junior year. This 2-credit course, taught by a UNH Law School faculty member, will teach students how to prepare for a legal education. If LAW 475 is not offered during the appropriate timeline for student progression to their "1L"/Senior year of study, other 2-credit options that are suitable preparation for law school study include JUST 550 Mock Trial and JUST 551 Mock Trial. For other possible 1-2 credit courses, see the Time & Room Schedule and consult with your academic advisor. The 1-2 credit courses can be completed at any point in your first 3 years at UNH-Durham. You can also complete them during the January term [see, e.g., THDA #531 The London Experience: Discovery, a 2-credit study abroad program] or in the summer.

**HONORS:** It is not necessary to complete the honors program, but it is possible: Honors in Discovery + Honors in Major with Thesis (See addendum I) .

**SEQUENCE:** With the exception of ENGL 419 How to Read Anything and ENGL 787 English Major Seminar, English courses don't need to be taken in any specific order; the guide above is only a suggestion. In general, 500-level courses should be taken before 600-700 level ones. However, a student could take a class that satisfies the Race Requirement in Semester I of Junior year rather than Semester II, or a pre-1800 600-700 level literature course in Semester II of Junior year. As long as all the categories listed above are met, students have the flexibility to choose the courses that best meet their interests and schedules. There are some writing and journalism courses that have prerequisites, and students should be careful to note these before choosing upper-level courses in those fields.

**ADVISING:** It is very important that students progressing through the 3+3 English/Law program maintain close contact with their degree advisor. This will help students remain "on track" to complete degree requirements, and the advisor will guide the student into the next phase of the program, admission to the Law school. Students who **plan early and work closely** with their advisor may find it possible to include study abroad and participation in other University programs, if desired, but only with careful planning.

## Law School Degree Plan

This is a sample Law School course planning outline. Variations to this suggested path of courses may be undertaken with the approval of the student's Law school advisor.

### Senior/First Year Law (31 credits)

The schedule and track of the second and third years of law school are directed by each student with careful advising from the law faculty.

Course	Title	Credits
<b>Fourth Year</b>

## Student Learning Outcomes

All undergraduate English majors acquire the same core skills. These include:

- Proficiency in analytical writing, critical thinking, and public-speaking.
- Knowledge of important literary genres and subgenres
- Fluency in literary terminology.
- A broad understanding of British-and-American literature, from the medieval period in England and the moment of first contact in America to the present day.
- Demonstrated proficiency in writing an analytical essay that offers a sophisticated close-reading or explication of a literary text. This essay will have a clear thesis and proceed in a logical fashion, with interpretive claims supported by evidence from the text.
- Demonstrated proficiency in literary research and in writing an extended thesis-driven research paper in which sources are correctly and responsibly cited.
- Demonstrated understanding of how to read across the color line in the US and /or how to analyze literary works written in English from outside the UK and the US—from India, Africa, and the Caribbean, for example.

## English Teaching Major (B.A.)

<https://cola.unh.edu/english/program/ba/english-teaching-major>

### Description

Are you passionate about serving your community? Do you enjoy reading, writing, creative thinking and imagination? Are you eager to shape the future? The English teaching major could be a wonderful choice for you!

English teaching majors synthesize knowledge across areas — literature, language, composition, speaking, listening, identity, linguistics and education, just to name a few. We think critically and collaborate. We spark learning and we study it. We evaluate texts and resources, examine literacy skills, consider appropriate media, and design reading and writing opportunities and instruction in a variety of contexts. In particular, the English teaching major focuses on preparing future teachers and educational leaders, but the skills students learn are valuable in many settings, from the classroom to the workplace to the broader world.

The goal of the English teaching major is to prepare informed, thoughtful, and skilled English teachers who will become educational leaders in their own communities and in the teaching profession. In the English Department, students learn about literature, cultural theories of race and identity, composition, grammar, a variety of textual and digital media, and instructional practices appropriate to grades five through twelve. In the Education Department, students learn about human development, the history of schooling, and many philosophical perspectives on learning and education.

The final steps to becoming a teacher are completing a Master's program in the Education Department and applying for New Hampshire teacher certification. Students who choose one of these programs will complete graduate-level coursework and undertake a year-long teaching internship where they will collaborate with a teacher to apply their knowledge in a classroom. Students who complete this program are uniquely well prepared to become leaders in the profession over the long term. State

certification is transferable to most other states, and, after five years, 88.7% of UNH master's program graduates report that they are teaching or employed in an education-related job. Join the English teaching major and turn your passion for English into a fulfilling career serving your community!

Students interested in majoring in English teaching should consult Carla Cannizzaro, Senior Academic Advisor, Department of English, 230F Hamilton Smith Hall, (603) 862-1313, or the director of the English teaching program, Prof. Alecia Magnifico.

## Requirements

### Degree Requirements

**Minimum Credit Requirement:** 128 credits

**Minimum Residency Requirement:** 32 credits must be taken at UNH

**Minimum GPA:** 2.0 required for conferral\*

**Core Curriculum Required:** Discovery & Writing Program Requirements

**Foreign Language Requirement:** Yes

All Major, Option and Elective Requirements as indicated.

*\*Major GPA requirements as indicated.*

### Major Requirements

Completion of the undergraduate teaching major does not in itself meet state certification requirements.

Students should enroll in the undergraduate major and pass the following courses with a GPA of 2.5 or better:

Code	Title	Credits
ENGL 419	How to Read Anything	4
ENGL 514W	British Literature III: Revolts, Renewals, Migrations	4
ENGL 516W	American Literature II Money, Migration, and Modernity: Huck Finn to Beloved	4
ENGL 657	Shakespeare	4
Select one of the following:		8
ENGL 725 & ENGL 726	Seminar in English Teaching and Seminar in English Teaching	
ENGL 710 & ENGL 792	Teaching Writing and Teaching Literature and Literacy	
ENGL 791	English Grammar	4
Two additional literature courses numbered 600 or above <sup>1</sup>		8
One course that addresses race, the construction of race, and radical theories (see list below) <sup>2</sup>		0-4
Any English department course in writing, linguistics, critical theory, film, or literature <sup>3</sup>		4
Complete the Discovery Program capstone for English Teaching majors:		
ENGL 789	Special Topics in English Teaching	4
EDUC 500	Exploring Teaching	4

<sup>1</sup> ENGL 512 British Literature I Age of Heroes: Beowulf to Dr. Faustus or ENGL 513W British Literature II Age of Revolutions: Shakespeare to Austen may be substituted for one of the two required literature courses numbered 600 or above

<sup>2</sup> Other courses may count, when relevant and with prior written approval of the student's advisor. The course used to fulfill this requirement may be double counted within the 'Two literature courses 600 or above' OR 'Any English Department course...' requirement area.

<sup>3</sup> Except ENGL 401 First-Year Writing, ENGL 415s, "Literature and..." courses, and ENGL 444s

Code	Title	Credits
<b>Race, the Construction of Race, and Racial Theory Courses</b>		
ENGL 440A	On Race in Culture and Society	
ENGL #517	Black Creative Expression	
ENGL 549	In the Groove: African American Music as Literature	
ENGL 550	Introduction to the Literature and Culture of Race	
ENGL 560	Introduction to Latinx Literature and Culture	
ENGL 585R	Introduction to Women in Literature	
ENGL 609	Ethnicity in America: The African American Experience in the 20th Century	
ENGL 650R	I Hear America Singing: Studying American Literature and Culture	
ENGL 690	African American Literature	
ENGL 693	Special Topics in Literature (subtopic R)	
ENGL 693R	Special Topics in Literature	
ENGL 738	Asian American Studies	
ENGL 739	American Indian Literature	
ENGL 743R	American Literature, 1865-1915: The Birth of the American Empire	
ENGL 749R	Major American Authors	
ENGL 758R	Advanced Shakespeare	
ENGL 774R	Modern & Contemporary British Literature: New Departures	
ENGL 778	Race and Gender in Film and Popular Culture	
ENGL 787R	English Major Seminar	
ENGL 797R	Special Studies in Literature (Race & Racial Theories)	

English teaching majors should apply for the fifth-year teaching internship and master's degree program by fall or spring of their senior year (usually September 30 for the internship and November 1 or February 1 for the master's program). Students with a GPA of 3.2 or better can apply for the master's degree program in their junior year. If accepted early, the student can earn graduate credit for up to three undergraduate English or education courses.

Candidates for a degree must satisfy all of the University Discovery Program requirements in addition to satisfying the requirements of each individual major program. Bachelor of Arts candidates must also satisfy the foreign language proficiency requirement.

English teaching majors may use one major-required course to satisfy one Discovery category requirement.

Majors may only count one online course towards their English major requirements.

## Student Learning Outcomes

Students will have the opportunity to compare philosophies of English teaching and learning, and to develop their own approaches to writing and literacy instruction in unit plans and lesson plans. In class, we will discuss theoretical and pedagogical ideas centered on student writing, engage in reading and writing exercises, produce and practice instructional activities and assessments, evaluate approaches to teaching writing, and review state-level standards and tests. Overall, the aim of the course is recognition of literacy skills (including reading, writing, listening, speaking, and viewing) and consideration of how they can be used for learning goals including comprehension, analysis, description, and evaluation.

Students will:

- Design activities, lessons, and units to meet established standards and objectives in writing and language use.
- Adapt materials for a variety of students' needs, including exceptional learners.

- Identify teaching resources among mentors, professional literature, conferences, organizations (e.g., National Council of Teachers of English [NCTE]), technology, and websites.
- Reflect and write on the theoretical bases for instructional decisions, evaluating professional literature and using appropriate academic conventions.
- Deliver engaging, on-point writing and language instruction appropriate to audience and content; practice a variety of presentation and discussion strategies.

## English/Journalism Major (B.A.)

<https://cola.unh.edu/english/program/ba/englishjournalism-major>

### Description

In our digital age, the ability to evaluate, edit, package and communicate information has become crucial to many, if not most, careers. Founded on the study of literature, the oldest form of story-telling, our English/journalism major prepares students for success in the media or any vocation that requires strong research and communications skills. Learn the basics: interviewing, fact gathering, verification and writing in both news and feature styles. Then broaden your repertoire by producing stories for digital platforms using audio, photo, video and data visualization.

Students interested in the English/journalism major should see Carla Cannizzaro, Senior Academic Advisor, Department of English, 230F Hamilton Smith Hall, (603) 862-1313, or the director of the Journalism Program, Prof. Tom Haines.

### Requirements

#### Degree Requirements

**Minimum Credit Requirement:** 128 credits

**Minimum Residency Requirement:** 32 credits must be taken at UNH

**Minimum GPA:** 2.0 required for conferral\*

**Core Curriculum Required:** Discovery & Writing Program Requirements

**Foreign Language Requirement:** Yes

All Major, Option and Elective Requirements as indicated.

*\*Major GPA requirements as indicated.*

#### Major Requirements

English/journalism majors must complete ENGL 401 First-Year Writing before taking the first journalism course, ENGL 534 21st Century Journalism: How the News Works. After completing ENGL 534 21st Century Journalism: How the News Works, majors may move on to ENGL 621 Newswriting. Journalism majors must complete classes taken for major credit with a grade of C- or better, with the exception of ENGL 419 How to Read Anything and the course taken for Capstone credit.

Code	Title	Credits
ENGL 401	First-Year Writing	4
ENGL 419	How to Read Anything <sup>1</sup>	4
Select one pre-1800 literature course (select from list below)		4

Select one post-1800 literature course (select from list below)		4
Select one course that addresses race, the construction of race, and racial theories (select from list below)		4
Select one additional ENGL course at the 500, 600 or 700 level. Any English course may be used to satisfy this requirement except courses with a journalism focus (see list of excluded courses in footnote) <sup>2</sup>		4
ENGL 534	21st Century Journalism: How the News Works	4
ENGL 621	Newswriting	4
Select three additional journalism courses from the following:		12
ENGL 623	Creative Nonfiction	
ENGL 631	Digital Reporting	
ENGL #703T	Travel Writing	
ENGL 711	Editing	
ENGL 712	Multimedia Storytelling	
ENGL 721	Advanced Reporting	
ENGL 722	Feature Writing	
ENGL #723	Issues in Journalism	
ENGL 735	Entrepreneurial Journalism	
Capstone: Any English course at the 700 level (except ENGL 795). <sup>3</sup>		4

- <sup>1</sup> Must be completed with a minimum grade of C. ENGL 419 How to Read Anything is the only 400-level class that may count towards the English/Journalism major. ENGL 415s, "Literature and..." courses, and ENGL 444s will NOT count towards this major.
- <sup>2</sup> English courses with a journalism focus are ENGL 534, ENGL 621, ENGL 623, ENGL 631, ENGL #703T, ENGL 711, ENGL 712, ENGL 720, ENGL 721, ENGL 722, ENGL #723, ENGL 725.
- <sup>3</sup> Capstone course may not be double-counted towards other major requirement areas. Minimum grade required: C. ENGL 788 Senior Honors written as part of the English Honors in Major program may be used as a Capstone course. Students must submit a Capstone Declaration form at the time of registration. Capstone course credit may not be applied retroactively.

Code	Title	Credits
Pre-1800 Literature Courses		
ENGL 512	British Literature I Age of Heroes: Beowulf to Dr. Faustus	
or ENGL 513W	British Literature II Age of Revolutions: Shakespeare to Austen	
ENGL 595	Literary Topics (if topic is appropriate)	
ENGL 657	Shakespeare	
ENGL 693R	Special Topics in Literature (if topic is appropriate)	
ENGL 751	Medieval Romance	
ENGL 753	Old English	
ENGL 756	Chaucer

ENGL 738	Asian American Studies	
ENGL 739	American Indian Literature	
ENGL 743R	American Literature, 1865-1915: The Birth of the American Empire	
ENGL 749R	Major American Authors	
ENGL 758R	Advanced Shakespeare	
ENGL 774R	Modern & Contemporary British Literature: New Departures	
ENGL 778	Race and Gender in Film and Popular Culture	
ENGL 787R	English Major Seminar	
ENGL 797R	Special Studies in Literature (Race & Racial Theories)	

(Note: the course used to fulfill this requirement may be double counted as one of the pre-1800 and post-1800 literature courses required for this major.)

Please see your advisor if you have questions about other courses that might fulfill these requirements.

Certain courses publish student writing digitally, at times in collaboration with professional news outlets. Students are also encouraged to write and edit for student publications such as *The New Hampshire* and *Main Street Magazine*.

Candidates for a degree must satisfy all of the University Discovery Program requirements in addition to satisfying the requirements of each individual major program. Bachelor of arts candidates must also satisfy the foreign language proficiency requirement.

English/journalism majors may use one major-required course to satisfy one Discovery category requirement.

Majors may only count one online course toward their English major requirements.

## Student Learning Outcomes

All undergraduate English majors acquire the same core skills. These include:

- Proficiency in analytical writing, critical thinking, and public-speaking.
- Knowledge of important literary genres and subgenres
- Fluency in literary terminology,

- A broad understanding of British-and-American literature, from the medieval period in England and the moment of first contact in America to the present day.
- Demonstrated proficiency in writing an analytical essay that offers a sophisticated close-reading or explication of a literary text. This essay will have a clear thesis and proceed in a logical fashion, with interpretive claims supported by evidence from the text.
- Demonstrated proficiency in literary research and in writing an extended thesis-driven research paper in which sources are correctly and responsibly cited.
- Demonstrated understanding of how to read across the color line in the US and /or how to analyze literary works written in English from outside the UK and the US—from India, Africa, and the Caribbean, for example.

Students in our major tracks acquire the following specialized skills. English /Journalism majors will be able to:

- Demonstrate proficiency in a wide range of reporting skills (i.e., finding trends, understanding context, editing, and so forth).
- Find and interview credible sources.
- Know how to write feature articles, profiles, and other kinds of news stories.

## English Minor

<https://cola.unh.edu/english/program/minor/english>

### Description

The English minor offers students the opportunity to develop critical thinking, writing and research skills that will enrich both their personal lives and their professional careers. Students draw upon courses in literature, creative writing, journalism and linguistics to craft their own course of study.

Students interested in minoring in English may contact Carla Cannizzaro, academic/career counselor, Department of English, 230F Hamilton Smith Hall, (603) 862-1313 with any questions.

### Requirements

To minor in English at UNH, students complete five courses (20 credits).

Code	Title	Credits
<b>Required course</b>		
ENGL 419	How to Read Anything	4
Electives <sup>1</sup>		16
<b>Total Credits</b>		<b>20</b>

<sup>1</sup> Elective courses: at least three courses at the 600 level or above.

ENGL 401 First-Year Writing and ENGL 415s, "Literature and..." courses and ENGL 444s cannot be applied toward the English minor.

No more than two transfer courses may be applied toward the English minor.

The minimum acceptable grade for each course is C-.

# Writing Minor

<https://cola.unh.edu/english/program/minor/writing>

## Description

With employers stressing the importance of writing skills and the writing demands of all professions increasing, the writing minor is designed to serve students who want to demonstrate sustained work with writing. Students take a concentration of courses in creative writing or journalism, focusing on the creative and practical uses of writing. The completion of a writing minor will enhance the job prospects in fields where the demands for writing is higher than ever. The writing minor also serves students who want to use the imagination to develop stories, poems, essays and screenplays.

Students interested in minoring in English writing may contact Carla Cannizzaro, Senior Academic Advisor, Department of English, 230F Hamilton Smith Hall, (603) 862-1313 with any questions.

## Requirements

Students must complete at least five 4-credit courses (20 credits) from the list of approved courses. At least three of the courses must be at the 600 level or higher. ENGL 415s, "Literature and..." courses cannot be applied toward the English writing minor. The minimum acceptable grade for each course is C-. No more than two transfer courses can be applied toward the English writing minor. English literature and English teaching majors may declare a writing minor with the approval of their faculty adviser. A maximum of two English courses (8 credits) are allowed to double-count toward the literature or teaching major and writing minor. Other English Department majors are not eligible to declare a writing minor.

# Courses that Count Toward the Writing Minor

Code	Title	Credits
ENGL 419	How to Read Anything	4
ENGL 501	Introduction to Creative Nonfiction	4
ENGL 502	Professional and Technical Writing	4
ENGL 503	Persuasive Writing	4
ENGL 526	Introduction to Fiction Writing	4
ENGL 527	Introduction to Poetry Writing	4
ENGL 602	Advanced Professional and Technical Writing	4
ENGL 621	Newsriting	4
ENGL 623	Creative Nonfiction	4
ENGL 625	Intermediate Fiction Writing Workshop	4
ENGL 625A	Intermediate Fiction Writing Workshop: Screenwriting	4
ENGL 627	Intermediate Poetry Writing Workshop	4
ENGL 631	Digital Reporting	4
ENGL 694	Special Topics in Creative Writing	4
ENGL 701	Advanced Fiction Writing Workshop	4
ENGL #703T	Travel Writing	4
ENGL 710	Teaching Writing	4
ENGL 711	Editing	4
ENGL 712	Multimedia Storytelling	4
ENGL 721	Advanced Reporting	4
ENGL 722	Feature Writing	4
ENGL 729	Special Topics in Composition Studies	4
ENGL 791	English Grammar	4

At the beginning of your final semester of study at UNH, please fill out a Certification of Completion of Minor form and obtain signatures from your major advisor, the English department coordinator, and the Dean of your college.

# French (FREN) Study Abroad in Dijon

The department offers a junior year and semesters abroad at the University of Burgundy in Dijon, France (see FREN 690 Study Abroad in Dijon France). This program is open to all qualified students at the University of New Hampshire who have completed FREN 631 Advanced French: Reading and Writing and FREN 632 Advanced French: Listening and Speaking by the end of the semester preceding their departure. Early consultation with the director of the program is urged. Non-credit orientation meetings are required during the semester prior to departure.

## Summer Study in Dijon

This program is open to all students interested in an immersion program during the summer. It provides four to eight weeks of intensive courses in French at the CIEF (*Centre International des Etudes françaises*) at the *Université de Bourgogne* in Dijon, France. A minimum GPA of 2.5 is required. Special fee. 4 to 8 credits. No previous study of the language is necessary to participate. Study in Dijon can satisfy the language requirement. Consult faculty of the French program to ensure proper placement. For French majors, the summer course can only satisfy the study abroad requirement of those who have documented academic reasons preventing them from studying abroad for an entire semester. By petition only.

## Spring/Summer Study in Toulouse

This program is a half-semester spring course followed by a summer travel experience in southwestern France. Students enroll in a 2-credit version of FREN 595 French Practicum during the second half of the spring semester. On-campus class sessions will prepare students for travel and introduce them to the diversity of French cultural heritage. The program will culminate in a 2-week stay in Toulouse, France, with UNH faculty, facilitated by CIEE's Toulouse center staff.

# Teaching Assistantship in France (TAPIF)

Each year the French government offers teaching assistantships in French elementary or secondary schools for graduating students who have studied French. The application process begins during the fall semester of the senior year. Consultation with the advisor is recommended.

<https://cola.unh.edu/languages-literatures-cultures>

## Programs

- [French Major \(B.A.\)](#) (p. 231)
- [French Minor](#) (p. 232)

## Faculty

<https://cola.unh.edu/languages-literatures-cultures/faculty-staff-directory>

## French Major (B.A.)

<https://cola.unh.edu/languages-literatures-cultures/program/ba/french-major>

## Description

The undergraduate major in French offered by the Department of Languages, Literatures and Cultures is centered on the study of the French language and the literatures and cultures of France and the French-speaking world. Students who complete the requirements for the major can expect to become proficient in French at a level that would allow them to communicate with native speakers, to develop an in-depth critical appreciation of French and Francophone cultures and literatures, and to be culturally sensitive members of society.

The program offers courses devoted to authors, works, and literary and cultural movements that span ten centuries and four continents. The curriculum also includes interdisciplinary courses on relations between literature and other areas of study such as history, law, religion, politics and the arts. All courses are conducted in French, and majors are expected to write papers and examinations in that language.

French can be taken either as a primary major or as one of two majors, in consultation with the director of undergraduate studies. Appropriate majors to combine with French might include, but are not limited to, international affairs, political science, English, education, film and media studies, history, music, philosophy, theater studies, women's studies, business and communication.

The French major may interest students desiring a general humanistic education based on the language and literature of the French-speaking world; students planning to teach French at the elementary or secondary level; students who intend to pursue graduate work in preparation for teaching and research at the college level; and students preparing for careers in such areas as international law, business, journalism, international organizations, and public or government service, which require both training in a major foreign language and/or a general background in a humanistic discipline.

## Requirements

### Degree Requirements

**Minimum Credit Requirement:** 128 credits

**Minimum Residency Requirement:** 32 credits must be taken at UNH

**Minimum GPA:** 2.0 required for conferral\*

**Core Curriculum Required:** Discovery & Writing Program Requirements

**Foreign Language Requirement:** Yes

All Major, Option and Elective Requirements as indicated.

\*Major GPA requirements as indicated.

## Major Requirements

All students must complete at least 10 classes (40 credits). All coursework required for the French major must be completed with a grade of C or better. Specific course requirements are:

Code	Title	Credits
<b>Language courses <sup>1</sup></b>		
Students entering major at a higher language level will replace the language courses with additional electives		
FREN 503	Intermediate French I	
FREN 504	Intermediate French II	
FREN 631	Advanced French: Reading and Writing	
FREN 632	Advanced French: Listening and Speaking	
<b>Electives <sup>2</sup></b>		
Select a minimum of five courses from the following Culture, Linguistics, and Literature category		
FREN 525	A Road Trip Through France: Baguette, Brie, Bordeaux, and Beyond	
FREN #525H	Honors/A Road Trip Through France: Baguette, Brie, Bordeaux, and Beyond	
FREN #526	Introduction to Francophone Cultures	
FREN 651	Love, War, and Power in French Literature	
FREN 595	French Practicum	
FREN #595A	A Culinary Exploration in Southern France	
FREN 652	Greatest Hits of French	
FREN 676	Topics in Francophone Culture	
FREN #677	France in the European Union	
FREN 765	Rebellion and Upheaval in 18th-Century Literature and Culture	
FREN 775	Les Mis and their World	
FREN #785	Francophonies Plurielles	
FREN #790	Cultural Encounters: A View from Abroad	
FREN 795	Special Studies in French Language and Literature	
LLC 540	Film History	
LLC 552	Comparative Literature: Masterpieces of World Literature II	
LLC 595	Language Practicum	
LLC 791	Methods of Foreign Language Teaching	
<b>Capstone <sup>3</sup></b>		
LLC 790	World Languages Capstone	
<b>Study Abroad</b>		
An approved foreign study experience in a French-speaking country is required, although an approved equivalent high-impact experience may be substituted for study abroad with a compelling justification		

<sup>1</sup> While the major may start counting as early as the Intermediate I level (FREN 503), those who enter the major at a higher level (FREN 504, FREN 631, or FREN 632) will replace the courses they skip from the four in the intermediate and advanced language category with additional electives in the Culture, Linguistics, and Literature category.

<sup>2</sup> More electives required if fewer language credits were completed due to proficiency level and placement.

No limit on the number of classes in English allowed. Students taking no classes in the target language in a given semester will be strongly encouraged to enroll in one credit of conversation hour to maintain their language skills, and many of the courses taught in English will allow students the option to (or even require students to) do some work in the target language.

<sup>3</sup> Or approved equivalent 700-level course taken at UNH, approved study abroad equivalent, or approved high-impact experience (such as internship with a robust target language/culture component).

Transfer students must earn a minimum of 12 major credits at the Durham campus.

The required minimum overall GPA in major coursework is 2.0.

Candidates for a degree must satisfy all of the University Discovery Program requirements in addition to satisfying the requirements of each

individual major program. Bachelor of arts candidates must also satisfy the foreign language proficiency requirement.

French majors may use two major-required courses to satisfy two Discovery category requirements.

## Student Learning Outcomes

Upon completion of the French Major, our students are expected to master:

- SLO 1: Communicative Proficiency Students communicate in the target language, having mastered the four basic communicative skills at the advanced level according to the ACTFL Proficiency Guidelines. They are able to narrate and describe in past, present and future time, use a variety of communication strategies (such as circumlocution, paraphrasing), support their opinions and hypothesize. They can be understood without difficulty by a native interlocutor and carry conversations on a wide variety of topics. They are able to understand native speakers in a variety of situations (academic, everyday life, radio, television).
- SLO 2: Intercultural Competence During and after their experiences abroad, students are led to reflect on cultural differences and develop cross-cultural competencies. They develop awareness of what it means to interact appropriately and effectively within diverse social and cultural contexts.
- SLO 3: Knowledge and Understanding Students grasp complex or unfamiliar texts (literary, journalistic, etc.), have an awareness of the esthetic properties of language and literary style, and have developed tools to asses and analyze different linguistic registers. They are able to contextualize and have knowledge of a representative selection of figures, works, and tendencies in the literature and other cultural productions from the Francophone world.
- SLO 4: Critical Thinking Students are able to critically analyze texts and other cultural artifacts from various areas of the Francophone world, are able to define a position about them, and to substantiate it using research. They are able to establish connections between different areas of knowledge, and are able to collaborate to answer questions and solve problems through task-based activities.

## French Minor

<https://cola.unh.edu/languages-literatures-cultures/program/minor/french>

### Description

The minor in French provides students with the components of a well-rounded education: a solid understanding of grammar and pronunciation, intercultural awareness, exposure to Francophone literatures and cultures, and a sufficient command of the language to enhance their chosen field of study, and countless career opportunities across the public, private and nonprofit sectors, including government, international development, journalism, law, communications and business.

Students in the French minor program at UNH are encouraged to complete some portion of their undergraduate study abroad through the Study Abroad in Dijon. Given the increasing globalization of our world, living abroad enhances cross-cultural awareness, competency, and adaptability. Students find that living and studying abroad expands

their perspective, improves critical thinking, increases independence and better prepares them for a career in an increasingly global marketplace.

## Requirements

A minor in French consists of 20 credits in French courses numbered FREN 503 Intermediate French I and above.

Code	Title	Credits
Select 5 French courses numbered 503 and above		20
Total Credits		20

- No fewer than three courses have to be taken at UNH.
- No more than one course conducted in English (e.g., FREN 525 A Road Trip Through France: Baguette, Brie, Bordeaux, and Beyond) will be counted toward the minor, although students may elect to take more than one such course provided they earn more than 20 credits.
- Those entering the minor at FREN 504 Intermediate French II or higher will be expected to complete FREN 651 Love, War, and Power in French Literature or FREN 652 Greatest Hits of French.
- After completing the five required courses, students submit a [Certification of Completion of Minor](#) form.

## Geography (GEOG)

Geography, as the study of place, space and environment, addresses the “why of where” by uniting social and biophysical sciences, humanities and technology to examine the factors that make a place or environment unique. Connecting academic inquiry to real-world problem solving, our courses teach critical thinking skills that prepare students to transfer classroom and field experience into a wide range of careers. With interests ranging from globalization to climate change and sustainability, urbanization to community development at home and abroad, geography majors gain the knowledge, techniques and perspectives needed to meet current and future challenges.

Geography at UNH is an undergraduate-focused department offering both major and minor degree programs. With small class sizes, personalized advising by department faculty, and opportunities for independent study, our students receive a high degree of individual attention. UNH geography graduates are prepared to enter a variety of careers or professional and graduate degree programs.

## Geography Major (B.A.)

<https://cola.unh.edu/geography/program/ba/geography>

## Description

The geography major provides undergraduates with a solid foundation in geography by uniting social and biophysical sciences, humanities and technology to examine the factors that make a place or environment unique. Connecting academic inquiry to real-world problem solving, you will develop critical thinking skills and be prepared to transfer classroom and field experience into a wide range of careers.

With interests ranging from globalization to climate change and sustainability, urbanization to community development at home and abroad, UNH geography graduates have gone on to careers in urban, regional and transportation planning, community development, environmental conservation and natural resources management, sustainability science, geographic information science, market research, locational analysis, population studies, foreign aid, international diplomacy and education.

Students intending to major in geography should consult with the department chairperson.

## Requirements

### Degree Requirements

**Minimum Credit Requirement:** 128 credits

**Minimum Residency Requirement:** 32 credits must be taken at UNH

**Minimum GPA:** 2.0 required for conferral\*

**Core Curriculum Required:** Discovery & Writing Program Requirements

**Foreign Language Requirement:** Yes

All Major, Option and Elective Requirements as indicated.

\*Major GPA requirements as indicated.

### Major Requirements

To earn a bachelor of arts in geography, students must complete 10 geography courses with a minimum grade of C- minus.

Students complete foundation courses intended to provide a basic understanding of human, physical, and world regional geography. It is recommended the courses be taken as early as possible in a student's program. Students also complete required skills courses, which provide the basic analytical and technical skills used in geography, electives and a capstone course.

Code	Title	Credits
<b>Foundation Courses</b>		
GEOG 401	World Regions: Europe and the Americas	4
or GEOG 402	World Regions: Asia and Africa	
GEOG 572	Geography of the Natural Environment	4
GEOG 581	Society, Environment and Justice	4
<b>Skills Courses</b>		
GEOG 590	Field Research	4
or GEOG #595	Statistics for Spatial Science	
GEOG 591	Making Maps: GIS Fundamentals	4
<b>Elective Courses</b>		
<i>Select four courses from the electives list below (may be any geography courses, excluding 401 or 402) <sup>1</sup></i>		
GEOG 405	There Is No Planet B	
GEOG 473	Elements of Weather	
GEOG 530	China: People, Politics and Economy	

GEOG 540	Geography of the Middle East
GEOG 550	Sub-Saharan Africa: Environmental Politics and Development
GEOG 560	Natural Hazards and Human Disasters
GEOG 572	Geography of the Natural Environment
GEOG 574	Global Landscapes and Environmental Processes
GEOG 581	Society, Environment and Justice
GEOG 582	Global Trade and Local Development
GEOG 584	Political Geography
GEOG 591	Making Maps: GIS Fundamentals
GEOG 670	Climate and Society
GEOG 673	Political Ecology
GEOG 685	Population and Development
GEOG #686	World Economy and Globalization
<b>Capstone</b>	<b>4</b>
<i>Select one 600-level Writing Intensive course from:</i>	
GEOG 670	Climate and Society
GEOG 673	Political Ecology
GEOG 685	Population and Development
GEOG #686	World Economy and Globalization
<b>Total Credits</b>	<b>40</b>

### Geotechniques

Students interested in geographic information systems, remote sensing, locational analysis and other geographic techniques may specialize in Geotechniques by completing three 700-level methods courses in Geography (GEOG 750-769).

<sup>1</sup> Independent study courses including GEOG 695 Internship and GEOG 795 Special Project may be applied to the major elective requirement once if taken for a total of four credit hours.

## Student Learning Outcomes

- Integrate biophysical and socio-cultural disciplinary traditions to explain the complex interrelationships between and among human-natural systems spanning local to global scales.
- Communicate geographic concepts, research, and methods of analysis professionally and effectively through written products, oral presentations, and visualizations appropriate for the intended audience.

## Geography Minor

<https://cola.unh.edu/geography/program/minor/geography>

## Description

The geography minor allows undergraduates to explore one or more of the three main areas of geography — human geography, environmental geography and geotechniques. Studying geography prepares students to pursue a wide variety of careers or enter graduate school.

## Requirements

To minor in geography, you must complete any **five geography courses (at least 20 credit hours)** with a grade of **at least C-**.

Code	Title	Credits
Select five geography courses		20
<b>Total Credits</b>		<b>20</b>

Courses taken Pass/Fail cannot be used for the minor. All minor courses can be used to fulfill Discovery Program requirements.

At the beginning of your final semester at UNH you should complete a [Certification of Completion of Minor form](#). The minor must be approved by your major and minor supervisors. The completed form is then presented to the college dean for approval and, finally, forwarded to the Registrar.

Please direct questions about minoring in geography to the department chairperson.

## German (GERM)

German is the most widely spoken language in Europe, and Germany plays a leading role in a number of areas: EU and global trade and policy, fine arts, alternative energy and sustainability, engineering, philosophy. With their rich cultural and intellectual history, as well as one of the world's primary export-driven economies, the German-speaking countries offer unique career opportunities for globally minded students and citizens.

### Summer Study in Berlin, Germany

The UNH German Program manages a summer program in Berlin, Germany. During their study in Berlin, students can earn between 4 and 12 credits. The program provides students with an immersion experience in the German language and culture. Students receive language instruction at the appropriate level (elementary, intermediate, or advanced) at the BSI Private Language School in central Berlin. No prior German language study is required. On designated weekday afternoons, students participate in cultural excursions and discussions with the on-site UNH faculty member. Through the UNH Berlin summer program, students receive UNH credit and can fulfill the World Cultures Discovery requirement. In line with UNH's goals to educate students to become global citizens, this immersion program gives students insight into what it means to experience a different culture and language. For more information, contact [Charles Vannette](#) or visit the [COLA Center for Study Abroad](#).

### Other Programs

The University allows students to attend approved [study abroad](#) programs for UNH credit at schools in Germany and Austria. Students may attend accredited one- or two-semester programs at universities in cities like Munich, Vienna, Berlin, Heidelberg, Freiburg or Salzburg. Most study abroad programs require a minimum of two years of college German. For details, see the coordinator of German or the foreign studies coordinator at the [UNH Global Education Center](#). Internships with a German firm or organization may also be taken for credit (see [GERM 595 Internship](#) (p. 236)). Internships must be approved ahead of time in collaboration with an advisor in the German program. Financial aid applies to all approved programs.

<https://cola.unh.edu/languages-literatures-cultures>

## Programs

- [German Major \(B.A.\)](#) (p. 234)
- [German Minor](#) (p. 236)

## Faculty

<https://cola.unh.edu/languages-literatures-cultures/faculty-staff-directory>

## German Major (B.A.)

<https://cola.unh.edu/languages-literatures-cultures/program/ba/german-major>

## Description

The German major is offered by the Department of Languages, Literatures and Cultures. This program is of interest to the following groups of students:

- Those who have a special interest in the German language, literature and culture.
- Those who intend to enter fields in which a background in foreign languages and cultures is desirable, such as business, engineering, the sciences, law, international affairs, government service and international service.
- Those who plan to teach German in secondary schools. Since most secondary schools require their teachers to teach more than one subject, students planning to enter teaching at this level should plan their programs carefully. They should combine a major in one culture and language with a minor or at least a meaningful sequence of courses in another subject. Dual majors also are possible. For certification requirements, see the section coordinator.

All German majors are strongly encouraged to double major or include a relevant minor in their studies.

## Requirements

### Degree Requirements

**Minimum Credit Requirement:** 128 credits

**Minimum Residency Requirement:** 32 credits must be taken at UNH

**Minimum GPA:** 2.0 required for conferral\*

**Core Curriculum Required:** Discovery & Writing Program Requirements

**Foreign Language Requirement:** Yes

All Major, Option and Elective Requirements as indicated.

*\*Major GPA requirements as indicated.*

### Major Requirements

All students must complete at least 10 classes (40 credits). All coursework required for German major must be completed with a grade C- or better. Specific course requirements are:

Code	Title	Credits
Language Courses <sup>1</sup>		
Students entering major at a higher language level will replace the language courses with additional electives.		
GERM 401	Elementary German I	
GERM 402	Elementary German II	
GERM 503	Intermediate German I	
GERM 504	Intermediate German II	

GERM 631W	Advanced Communications Skills I
GERM 632	Advanced Communications Skills II
<b>Electives <sup>2</sup></b>	
Select a minimum of three courses from the following Culture, Linguistics, and Literature category	
GERM 521	Major German Authors in English
GERM 525	Introduction to German Culture and Civilization
GERM 586	Study in Berlin
GERM 728	Modern German Literature
GERM #732	Public Discourse and Current Affairs
GERM #795	Independent Study
GERM 797	Special Studies in German Language and Literature
GERM 798	Special Studies in German Language and Literature
LLC 535A	Professional Culture in European Union -- Case Study: Germany
LLC 540	Film History
LLC 552	Comparative Literature: Masterpieces of World Literature II
LLC 560	Divine Madness and Dangerous Minds! - Mental Health in Literature and Art
LLC 791	Methods of Foreign Language Teaching
<b>Capstone <sup>3</sup></b>	
LLC 790	World Languages Capstone
<b>Study Abroad</b>	

Study abroad is a requirement for the German major, although an approved equivalent high-impact experience may be substituted for study abroad with a compelling justification.

<sup>1</sup> While the major may start counting as early as the Elementary I level (GERM 401), those who enter the major at a higher level (GERM 503, GERM 504, GERM 631W or GERM 632) will replace the courses they skip from the elementary, intermediate and advanced language category with additional courses from the electives category.

<sup>2</sup> More electives required if fewer language credits were completed due to proficiency level and placement.

Students are encouraged to take as many of the culture, linguistics, and literature elective in the German language as possible, but there is no limit on the number of classes conducted in English from electives category. Students taking no classes in the target language in a given semester will be strongly encouraged to enroll in one credit of conversation hour to maintain their language skills, and many of the courses taught in English will allow students the option to (or even require students to) do some work in the target language.

<sup>3</sup> Or approved equivalent 700-level course taken at UNH, approved study abroad equivalent, or approved high-impact experience (such as internship with a robust target language/culture component).

The required minimum overall GPA in major coursework is 2.0.

Candidates for a degree must satisfy all of the University Discovery Program requirements in addition to satisfying the requirements of each individual major program. Bachelor of arts candidates must also satisfy the foreign language proficiency requirement.

German majors may use two major-required courses to satisfy two Discovery category requirements.

## Student Learning Outcomes

Specific outcomes for Linguistic Competency The German Program applies the ACTFL Proficiency Guidelines to evaluate the linguistic competency of its graduates.

- **Speaking Proficiency:** Graduates of the program achieve a speaking proficiency of Intermediate High to Advanced Mid, with the majority of students achieving the level of Advanced Low. Students demonstrate an ability to speak clearly and with precision about personal, professional, and academic topics.

- **Writing Proficiency:** Graduates of the program achieve a written proficiency of Intermediate High to Advanced Mid, with the majority of students achieving the level of Advanced Low. Students demonstrate an ability to write clearly about professional or academic topics, including introductory research in the area of literature and culture studies.
- **Listening Proficiency:** Graduates of the program achieve a listening proficiency of Advanced Low to Advanced High, with the majority of students achieving the level of Advanced Mid. Students demonstrate an ability to understand conventional as well as complex narratives that may use uncommon vocabulary or address difficult topics, such as theater plays in the target language.
- **Reading Proficiency:** Graduates of the program achieve a reading proficiency of Advanced Low to Advanced Mid. Students demonstrate an ability to read and interpret conventional quotidian texts as well as complicated narratives from the 18th-21st centuries, addressing a wide range of topics and genres, including literary, scientific, and cultural theory.

II. Specific outcomes for Integrative Knowledge Accompanying the acquisition of German language skills is the study of cultural phenomena, which provides German majors with a breadth of knowledge as found in a traditional liberal arts program. The acquired knowledge helps students engage with various additional fields of study across the UNH campus. Through transferable practice in abstract reasoning, critical examination, and constructive articulation, students extend their intellectual curiosity and learn to aspire to life-long learning.

- **Interpretive Reasoning Particularly in the advanced courses** that analyze art in its various forms – literature, film, painting, performance art, et. al. -, we (students and faculty alike) wrestle with interpretation and contextualization. In these courses, we are invested in humanistic inquiry and address tough questions – those concerning value and meaning, realms of knowledge ungraspable by natural science alone. Patterns of narrative, traditions of rhetoric, and history all inform the analyses of the cultural artifacts under study. By fostering the skills of close reading and listening, German majors become more articulate (both in German and their native language) and more proficient in analyzing and synthesizing the various types of knowledge.
- **Critical-Constructive Thinking** In the analysis of cultural artifacts, students learn to consider a multitude of perspectives. In addition to critical thinking skills, German majors become better versed at the constructive synthesis. Term papers and presentations in the target language are the culmination of linguistic comprehension and production as well as of interpretation and critique. In assembling such larger projects, German majors learn to construct well-informed arguments that are based on interpretation and scholarly critique.
- **Interdisciplinarity** Language study entails a wide range of applications, both personal and professional. It opens up possibilities for travel, genuine encounter, and the fostering of diplomatic and business relationships. German is of particular interest for political, economic, historical, and cultural reasons. With strengths in engineering and heavy manufacturing, Germany is of vital political-economic importance. Our students are encouraged to explore the connections in various scientific fields, the business world, and the humanities at large.
- **Transformative Education** Close mentoring of our German majors leads to relevant study-abroad opportunities in which our students make tangible use of their intellectual skillsets in the target culture. Of equal importance, however, is the notion that the actual application

of the skillsets during the study abroad experience (but also in our classrooms) offers an opportunity for students to achieve meaningful personal growth by realizing their own cultural underpinnings. As a result of their study of German, some students choose to go to or to return to Germany for work or travel. Thus, the study of German can result in transformative moments in the lives of our students.

## German Minor

<https://cola.unh.edu/languages-literatures-cultures/program/minor/german>

### Description

The German minor is offered by the Department of Languages, Literatures and Cultures. This program is of interest to the following groups of students:

- Those who have a special interest in the German language, literature and culture.
- Those who intend to enter fields in which a background in foreign languages and cultures is desirable, such as business, engineering, the sciences, law, international affairs, government service and international service.

### Requirements

A minor consists of five courses in German numbered 503 and above.

Code	Title	Credits
Five electives selected from GERM 503 or above		20
Total Credits		20

The minor may include one course taught in English but not LLC 791 Methods of Foreign Language Teaching.

Students wishing to minor are expected to meet with a faculty member from the German program to discuss their course of study.

At the beginning of your final semester of study, you should fill out a [certification of completion of minor form](#), obtain the necessary signatures, and submit it to your Dean's Office.

## History (HIST)

The Department of History is one of the top history departments in the country, with an internationally recognized faculty in American, European, and World and Ancient history. History professors have won some of the most important prizes in the profession, and they often appear on television and other media outlets. But what really distinguishes the department's faculty is that we love to teach. Our courses cover a wide range of times, places and subjects, from ancient history to the history of the modern world.

History is a flexible major, which makes it a good choice for students who want to complete a double major in another discipline. Popular double majors include communication, justice studies, economics and international affairs.

The Education Department's 4+1 graduate program is also available to history majors. Students who complete that program receive their social

studies teacher certification in five years and graduate with a B.A. and M.Ed. or M.A.T.

The Department offers a major and minor in history. We also administer an interdisciplinary minor, the social studies of science and technology.

The History Department at UNH has approximately 200 undergraduate majors; about 50 students graduate with a history major every year.

## Five-Year BA/MA Program

The History Department offers our majors an opportunity to complete an accelerated Master's Degree in history in as little as one additional year of study. Eligible seniors and juniors are able to take up to 12 credits in graduate history courses, which will count both toward the completion of the history B.A. requirements, and the history M.A. requirements. This accelerated option is available for both the standard track M.A. and the museum studies track.

To be eligible for the program students must have a GPA of 3.2 or higher. Students also must have completed 96 credits by the time they enter the accelerated M.A. program.

**Students should apply before April 10th of their junior year.** Students interested in applying must complete the [UNH graduate studies application](#). Applications will include two letters of recommendation, a cover letter, a writing sample and a UNH transcript. GRE scores are NOT required. Students should also submit a cover letter and an endorsement from a member of the History Department directly to the graduate director, Professor [David Bachrach](#) ([david.bachrach@unh.edu](mailto:david.bachrach@unh.edu)).

If you are interested in applying for the accelerated M.A. program, or would like additional information about the program, please contact Professor David Bachrach.

<https://cola.unh.edu/history>

### Programs

- [History Major \(B.A.\)](#) (p. 236)
- [History Major: Law 3+3 Option \(B.A.\)](#) (p. 238)
- [History Minor](#) (p. 242)
- [Social Studies of Science and Technology Minor](#) (p. 242)

### Faculty

<https://cola.unh.edu/history/faculty-staff-directory>

## History Major (B.A.)

<https://cola.unh.edu/history/program/ba/history>

### Description

The study of history gives students the analytical and communication skills necessary to succeed in today's workplace. It is also essential for being an informed citizen. The history major covers an array of subjects: the Roman Empire, modern U.S. foreign policy, China's Cultural Revolution, medieval Islam, the American Revolution and many, many others. Every major takes an introductory seminar on historical writing and analysis, and the major concludes with a senior colloquium that

allows students to conduct in-depth research on a topic of their choosing. History is a flexible major. That makes history an excellent choice for students who plan to study abroad or who want to complete a double major in another discipline.

Students sometimes ask, "what can you do with a history major?" The answer is practically anything you want. History majors have attended some of the top graduate programs in the country. Many become teachers, but history majors also go into law, medicine and business, as well as careers in technology, international relations, politics and the media. Majoring in history prepares students well for the intellectual flexibility and ability to think outside the box that today's job market demands.

## Undergraduate Awards for Majors

The Philip M. Marston Scholarship, an award of \$500, is available to students who are interested in colonial or New England history and have demonstrated financial need. There are course requirements for this scholarship. More details are available from the history office.

Each spring, the members of the departmental undergraduate committee choose history majors to receive the following prizes in history:

- The William Greenleaf Prize is given for the best senior colloquium paper. Award candidates must have a minimum grade-point average of 3.2 in history courses. Individuals may nominate themselves or may be nominated by faculty members.
- The Allen Linden Prize for the best senior history thesis is funded by the Signal Fund.
- The Charles Clark Prize is for the best essay or research paper submitted by a history major and is funded by the Signal Fund.

Phi Alpha Theta, the history honor society, is an international scholastic organization dedicated to promoting historical study on the undergraduate and graduate levels. Admission to the UNH Psi Pi chapter is open to undergraduates with an overall grade-point average of 3.0, a grade-point average of 3.4 or better in history courses, and completion of HIST 500 Introduction to Historical Thinking.

## Five-Year BA/MA Program

The History Department offers our majors an opportunity to complete an accelerated Master's Degree in history in as little as one additional year of study. Eligible seniors and juniors are able to take up to 12 credits in graduate history courses, which will count both toward the completion of the history B.A. requirements, and the history M.A. requirements. This accelerated option is available for both the standard track M.A. and the museum studies track.

To be eligible for the program students must have a GPA of 3.2 or higher. Students also must have completed 96 credits by the time they enter the accelerated M.A. program.

**Students should apply before April 10th of their junior year.** Students interested in applying must complete the [UNH graduate studies application](#). Applications will include two letters of recommendation, a cover letter, a writing sample and a UNH transcript. GRE scores are NOT required. Students should also submit a cover letter and an endorsement from a member of the History Department directly to the graduate director, Professor David Bachrach at [david.bachrach@unh.edu](mailto:david.bachrach@unh.edu).

If you are interested in applying for the accelerated M.A. program, or would like additional information about the program, please contact Professor David Bachrach.

## Requirements

### Degree Requirements

**Minimum Credit Requirement:** 128 credits

**Minimum Residency Requirement:** 32 credits must be taken at UNH

**Minimum GPA:** 2.0 required for conferral\*

**Core Curriculum Required:** Discovery & Writing Program Requirements

**Foreign Language Requirement:** Yes

All Major, Option and Elective Requirements as indicated.

\*Major GPA requirements as indicated.

### Major Requirements

To complete a major in history, students must take ten (10) 4-credit history courses or their equivalent. Students who enter the University as history majors, or who declare a major in history, should take the first required course, HIST 500, as soon as possible. To declare a major in history, students must have completed or be enrolled in two history courses. HIST 500 is a prerequisite for the second required course, HIST 797, which fulfills the Discovery Program capstone requirement for history majors and is taken during the senior year. Students should consult the list of topics for HIST 797 advertised each semester.

Code	Title	Credits
HIST 500	Introduction to Historical Thinking	4
HIST 797	Colloquium	4
At least eight (8) additional courses, following the guidelines below. No more than two (2) may be at the 400-level and a minimum of three (3) must be at the 600-level or above.		32
<b>Total Credits</b>		<b>40</b>

A student's program of study must include two parts:

1. An area of specialization. A student must select at least four courses to serve as an area of specialization within the major. Up to two courses (each four credits or their equivalent) in the area of specialization may be taken in other departments; such courses must be 500-level or above and have the approval of the student's advisor. The area of specialization may be in a nation, region, a time period, global history, or one of the following:
  - \* ancient and pre-modern worlds
  - \* cultural and intellectual history
  - \* empires and colonialism
  - \* international and diplomatic history
  - \* politics, law, and government
  - \* race, gender, and sexuality
  - \* religion
  - \* revolution and social change
  - \* science, technology, medicine, and the environment
  - \* war and society
  - \* world economy
  - \* design your own (with advisor's permission)
2. Complementary courses. A student must select, in consultation with his or her advisor, at least three history courses in fields outside the area of specialization, chosen to broaden his or her understanding

of the range of history. Each major should take at least one course from each of Groups I, II, and III. Group I contains all American history courses, Group II contains all European history courses, and Group III contains all other history courses.

The program must be planned in consultation with an advisor. A copy of the program, signed by the advisor, must be placed in a student's file no later than the second semester of the student's junior year. Courses at the 700-level will be judged by the advisor as to their applicability for area of specialization. The program may be modified with the advisor's approval.

Only one HIST 695 Independent Study may be used to fulfill the 600-level requirement, and no more than two Independent Study courses may count toward the ten-course requirement. No more than two 400-level courses may be counted toward the major requirements. Students must receive at least a C in HIST 500 Introduction to Historical Thinking and at least a C- in the other nine courses. Majors must maintain a 2.0 or better in all history courses.

Candidates for a degree must satisfy all of the University Discovery Program requirements in addition to satisfying the requirements of each individual major program. Bachelor of Arts (B.A.) candidates must also satisfy the foreign language proficiency requirement.

History majors may use history courses to fulfill Discovery category requirements but may not double-count history courses for major and Discovery category requirements.

History majors must satisfy the language requirement for the B.A. degree in an international language that they could use for historical research. That list includes Arabic, Chinese, French, German, Greek, Italian, Japanese, Latin, Portuguese, Russian, and Spanish. Students may petition the department curriculum committee for exceptions.

For transfer students, a minimum of five (5) of the semester courses used to fulfill the major requirements must be taken at the University. One upper-level course may be transferred to satisfy the requirement that a major must take at least three courses numbered 600 or above. Transfer students must complete both HIST 500 Introduction to Historical Thinking (or its equivalent) and HIST 797 Colloquium.

Students intending further work in history beyond the bachelor's degree are urged to take HIST #775 Historical Methods.

Students intending to major in history should consult with the department administrative assistant. Suggested programs for students with special interests or professional plans are available in the department office.

## Student Learning Outcomes

History students can:

### Build historical knowledge.

- Gather and contextualize information in order to convey both the particularity of past lives and the scale of human experience.
- Recognize how humans in the past shaped their own unique historical moments and were shaped by those moments.

- Develop a body of historical knowledge with breadth of time and place—as well as depth of detail—in order to discern context.
- Distinguish the past from our very different present.

### Develop historical methods.

- Recognize history as an interpretive account of the human past—one that historians create in the present from surviving evidence.
- Collect, sift, organize, question, synthesize, and interpret complex material.
- Practice ethical historical inquiry that makes use of and acknowledges sources from the past as well as the scholars who have interpreted that past.
- Develop empathy toward people in the context of their distinctive historical moments.

### Recognize the provisional nature of knowledge, the disciplinary preference for complexity, and the comfort with ambiguity that history requires.

- Welcome contradictory perspectives and data, which enable us to provide more accurate accounts and construct stronger arguments.
- Describe past events from multiple perspectives.
- Explain and justify multiple causes of complex events and phenomena using conflicting sources.
- Identify, summarize, appraise, and synthesize other scholars' historical arguments.

### Apply the range of skills it takes to decode the historical record because of its incomplete, complex, and contradictory nature.

- Consider a variety of historical sources for credibility, position, perspective, and relevance.
- Evaluate historical arguments, explaining how they were constructed and might be improved.
- Revise analyses and narratives when new evidence requires it.

### Create historical arguments and narratives.

- Generate substantive, open-ended questions about the past and develop research strategies to answer them.
- Craft well-supported historical narratives, arguments, and reports of research findings in a variety of media for a variety of audiences.

### Use historical perspective as central to active citizenship.

- Apply historical knowledge and historical thinking to contemporary issues.
- Develop positions that reflect deliberation, cooperation, and diverse perspectives.

## History Major: Law 3+3 Option (B.A.)

<https://cola.unh.edu/history/program/ba/history-major-law-33-option>

### Description

The Law 3+3 option offers highly motivated UNH undergraduates the opportunity to complete their bachelor's degree (B.A.) with a history major and their law degree (J.D.) at UNH in six years, rather than the usual seven years. It promises significant savings in both time and money. Students apply to the UNH Law School in their junior year (by Jan. 1),

following the approved process below, and after taking the LSAT exam. If admitted, undergraduates begin their first year of law school in their senior year. The credits earned upon successful completion of the law school courses will be applied to both the J.D. degree and as elective courses for the B.A. degree. After four years, students receive a B.A. with a history major. After six years, students, having completed all law school requirements successfully, will receive their J.D.

## Eligibility and Admission Process

**1) Phase I: applying to the Law 3+3 option.** Students apply to the program either when they submit their applications to UNH by selecting the History/J.D. option on the online application, or after they are admitted, applying directly to the History Department's History/Law 3+3 Committee. In both cases, undergraduate applicants must fulfill the general requirements for admission to the History major.

a. Students applying at time of admission to UNH will typically present the following high school (HS) credentials:

- a 3.5 GPA in HS
- a rigorous HS curriculum defined as the following:
  - 4 years of college prep (CP) or higher English
  - 4 years of CP or higher mathematics
  - 4 years of CP or higher social studies/history
  - Completed at least level 3 of a foreign language
  - 3 or more years of CP or higher laboratory sciences
- a score of 1200 or better (combined Math and Verbal) on the SAT or a 29 on the ACT)

b. Currently enrolled UNH students applying to the program must:

- have a 3.5 GPA in college courses at time of application.
- The History/Law 3+3 Committee governing admission to the program will also consider past SAT scores, maturity, and ability to complete a highly demanding program of study based on performance thus far.

For both groups, it is important to note that satisfying these requirements does not guarantee admission to this program. The review process is holistic (meaning all parts of the application carry weight and influence the final decision) and other components of the application will influence any admission decisions. Available space will also influence who is admitted to the program and how many students can be accepted.

**2) Phase 2: applying to UNH Law School.** To be eligible, students must:

- Complete all Discovery and major requirements, and accrue at least 98 credits before beginning law school in their senior year
- Maintain at least a 3.5 grade point average (including transfer credits) at time of application to law school, and at end of junior year
- Take the LSAT no later than December of the final undergraduate year (i.e. the junior year) and have a **score of 157 or above**
- Submit the law school application through the Law School Admissions Council by Jan. 1 of the calendar year in which the student wishes to enroll in law school
- If, for some reason, students are not admitted to UNH Law, they will complete their final, fourth year at UNH, following the typical undergraduate program.

## Requirements

### Degree Requirements

**Minimum Credit Requirement:** 128 credits

**Minimum Residency Requirement:** 32 credits must be taken at UNH

**Minimum GPA:** 2.0 required for conferral\*

**Core Curriculum Required:** Discovery & Writing Program Requirements

**Foreign Language Requirement:** Yes

All Major, Option and Elective Requirements as indicated.

*\*Major GPA requirements as indicated.*

### Major Requirements

Students in the History/Law 3+3 option complete the requirements of the history major. See the Degree Plan for the recommended path through the major.

To complete a major in history, students must take ten (10) 4-credit history courses or their equivalent. Students who enter the University as history majors, or who declare a major in history, should take the first required course, HIST 500, as soon as possible. To declare a major in history, students must have completed or be enrolled in two history courses. HIST 500 is a prerequisite for the second required course, HIST 797, which fulfills the Discovery Program capstone requirement for history majors and is taken during the senior year. Students should consult the list of topics for HIST 797 advertised each semester.

Code	Title	Credits
HIST 500	Introduction to Historical Thinking	4
HIST 797	Colloquium	4
At least eight (8) additional courses, following the guidelines below. No more than two (2) may be at the 400-level and a minimum of three (3) must be at the 600-level or above.		32
<b>Total Credits</b>		<b>40</b>

A student's program of study must include two parts:

1. An area of specialization. A student must select at least four courses to serve as an area of specialization within the major. Up to two courses (each four credits or their equivalent) in the area of specialization may be taken in other departments; such courses must be 500-level or above and have the approval of the student's advisor. The area of specialization may be in a nation, region, a time period, global history, or one of the following:
  - \* ancient and pre-modern worlds
  - \* cultural and intellectual history
  - \* empires and colonialism
  - \* international and diplomatic history
  - \* politics, law, and government
  - \* race, gender, and sexuality
  - \* religion
  - \* revolution and social change
  - \* science, technology, medicine, and the environment
  - \* war and society
  - \* world economy
  - \* design your own (with advisor's permission)
2. Complementary courses. A student must select, in consultation with his or her advisor, at least three history courses in fields outside the area of specialization, chosen to broaden his or her understanding

of the range of history. Each major should take at least one course from each of Groups I, II, and III. Group I contains all American history courses, Group II contains all European history courses, and Group III contains all other history courses.

The program must be planned in consultation with an advisor. A copy of the program, signed by the advisor, must be placed in a student's file no later than the second semester of the student's junior year. Courses at the 700-level will be judged by the advisor as to their applicability for area of specialization. The program may be modified with the advisor's approval.

Only one HIST 695 Independent Study may be used to fulfill the 600-level requirement, and no more than two Independent Study courses may count toward the ten-course requirement. No more than two 400-level courses may be counted toward the major requirements. Students must receive at least a C in HIST 500 Introduction to Historical Thinking and at least a C- in the other nine courses. Majors must maintain a 2.0 or better in all history courses.

Candidates for a degree must satisfy all of the University Discovery Program requirements in addition to satisfying the requirements of each individual major program. Bachelor of Arts (B.A.) candidates must also satisfy the foreign language proficiency requirement.

History majors may use history courses to fulfill Discovery category requirements but may not double-count history courses for major and Discovery category requirements.

History majors must satisfy the language requirement for the B.A. degree in an international language that they could use for historical research. That list includes Arabic, Chinese, French, German, Greek, Italian, Japanese, Latin, Portuguese, Russian, and Spanish. Students may petition the department curriculum committee for exceptions.

For transfer students, a minimum of five (5) of the semester courses used to fulfill the major requirements must be taken at the University. One upper-level course may be transferred to satisfy the requirement that a major must take at least three courses numbered 600 or above. Transfer students must complete both HIST 500 Introduction to Historical Thinking (or its equivalent) and HIST 797 Colloquium.

## Degree Plan

### Undergraduate Courses

Below is a suggested course outline. There might be other possible plans.

**NOTE:** Students should **plan early and work closely with their advisors** if they want to pursue the fast track program. It may be possible to include study abroad and other programs, if desired, but only with careful planning. They are also strongly encouraged to consult with the pre-law advisor on campus (Paula DiNardo, [paula.dinardo@unh.edu](mailto:paula.dinardo@unh.edu), 603-862-2064.)

Course	Title	Credits
<b>First Year</b>		
<b>Fall</b>		
Discovery Course		4
Discovery Course		4
History 400-level Course		4

Foreign Language Course	4
<b>Credits</b>	<b>16</b>

#### Spring

Discovery Course	4
Discovery Course	4
History 500-level Course (may be taken in Sem. 1 of sophomore year)	4
Foreign Language or Elective Course (if Foreign Language is completed in one semester)	4

**Credits** **16**

#### Second Year

##### Fall

Discovery Course	4
Discovery Course	4
History 500-level Course	4
History 600-level Course	4

**Credits** **16**

##### Spring

Discovery Course	4
Discovery Course	4
History 500-level Course	4
History 600-level Course	4
PLUS one 2-credit course or two 1-credit courses. LAW 475 Getting Ready to Succeed in Law School is recommended (can be taken fall semester of junior year instead). <sup>1</sup>	2

**Credits** **18**

#### Third Year

##### Fall

Discovery Course	4
Discovery Course	4
History 600-level Course	4
History Course Elective any level (no more than two 400-level courses may be counted towards major)	4
If not taken sophomore year, one 2-credit course or two 1-credit courses must be taken. LAW 475 Getting Ready to Succeed in Law School is recommended. <sup>1</sup>	

**Credits** **16**

##### Spring

HIST 797	Colloquium	4
History Elective Course any level (no more than two 400-level courses may be counted towards major)		4
Elective Course		4
Elective Course		4

**Credits** **16**

**Total Credits** **98**

#### TOTAL UNDERGRADUATE CREDITS REQUIRED - 98 cr.

40 total Discovery Program credits; 40 history credits; 4-8 foreign language credits; 8-12 elective credits; and two 1-credit courses OR one 2-credit course<sup>1</sup>. In addition to fulfilling the Discovery Program and history major requirements, students need to fulfill the Bachelor of Arts foreign language requirement and take four (4) writing intensive courses. HIST 500 Introduction to Historical Thinking and HIST 797 Colloquium fulfill two (2) WI courses.

<sup>1</sup> **Clarification:** to earn 98 credits in 3 years, students will need to take one (1) 2-credit course or two (2) 1-credit courses. The 2-credit course, LAW 475 Getting Ready to Succeed in Law School, is recommended and is best taken in the spring semester of sophomore year or the fall semester of the junior year as it will include LSAT prep. Other 2-credit options include JUST 550 Mock Trial and JUST 551 Mock Trial. For other possible 1-2 credit courses, see the Time & Room Schedule. The 1-2 credit courses can be completed at any point in your first 3 years at UNH-Durham. You can also complete them during the January term [see, e.g., THDA #531 The London Experience: Discovery, a 2-credit study abroad program] or in the summer.

## Law School Course Outline

### Fourth Year/First Year Law (31 credits)

<b>Credits</b>		<b>16</b>
<b>Total Credits</b>		<b>31</b>

#### LAW SCHOOL COURSES

After completing the first year courses (above), the schedule and track of the second and third years of law school are directed by each student with careful advising from the law faculty. The following summarizes the required curriculum and bar-recommended curriculum. 85 credits are required for graduation.

#### Required courses include:

Administrative Process  
Criminal Procedure  
Professional Responsibility  
Upper Level Writing Course  
Upper Level Skills Course

#### Bar-recommended courses include:

Personal Taxation  
Business Associations  
Wills, Trusts, and Estates  
Evidence

## Student Learning Outcomes

History students can:

#### Build historical knowledge.

- Gather and contextualize information in order to convey both the particularity of past lives and the scale of human experience.
- Recognize how humans in the past shaped their own unique historical moments and were shaped by those moments.
- Develop a body of historical knowledge with breadth of time and place—as well as depth of detail—in order to discern context.
- Distinguish the past from our very different present.

#### Develop historical methods.

- Recognize history as an interpretive account of the human past—one that historians create in the present from surviving evidence.
- Collect, sift, organize, question, synthesize, and interpret complex material.
- Practice ethical historical inquiry that makes use of and acknowledges sources from the past as well as the scholars who have interpreted that past.
- Develop empathy toward people in the context of their distinctive historical moments.

#### Recognize the provisional nature of knowledge, the disciplinary preference for complexity, and the comfort with ambiguity that history requires.

- Welcome contradictory perspectives and data, which enable us to provide more accurate accounts and construct stronger arguments.
- Describe past events from multiple perspectives.
- Explain and justify multiple causes of complex events and phenomena using conflicting sources.
- Identify, summarize, appraise, and synthesize other scholars' historical arguments.

#### Apply the range of skills it takes to decode the historical record because of its incomplete, complex, and contradictory nature.

- Consider a variety of historical sources for credibility, position, perspective, and relevance.
- Evaluate historical arguments, explaining how they were constructed and might be improved.
- Revise analyses and narratives when new evidence requires it.

#### Create historical arguments and narratives.

- Generate substantive, open-ended questions about the past and develop research strategies to answer them.
- Craft well-supported historical narratives, arguments, and reports of research findings in a variety of media for a variety of audiences.

#### Use historical perspective as central to active citizenship.

- Apply historical knowledge and historical thinking to contemporary issues.
- Develop positions that reflect deliberation, cooperation, and diverse perspectives.

# History Minor

<https://cola.unh.edu/history/program/minor/history>

## Description

The study of history is an essential element of the liberal education. Studying history provides both an awareness of the past and the tools to evaluate and express one's knowledge.

## Requirements

A minor in history consists of 20 semester credits with C- or better and at least a 2.0 grade-point average in courses that the Department of History approves.

Code	Title	Credits
Five elective HIST courses		20
Total Credits		20

- Courses taken on a pass/fail basis may not be used for the minor.
- No more than 12 credits in 400-level courses may be used for this minor.
- For transfer students, no more than two transfer courses, or 8 transfer credits, may be used toward the minor.

# Social Studies of Science and Technology Minor

<https://cola.unh.edu/history/program/minor/social-studies-science-technology>

## Description

How are our lives being changed by technology? Why is science so influential in our society? Is modern science superior to traditional ways of knowing nature? Are science and technology doing more harm than good? The minor in social studies of science and technology enables students to seek answers to such questions through the perspectives of the humanities and social sciences. In this minor, students select courses from a range of disciplines, including anthropology, history, communication, sociology and philosophy, all of which shed light on the role of science and technology in modern society.

The minor presupposes no specialized scientific background and may be combined with any undergraduate major.

Students interested in taking the minor should contact the coordinator, [Fredrik Meiton](mailto:Fredrik.Meiton@unh.edu) (Fredrik.Meiton@unh.edu), Department of History, Horton Social Science Center.

## Requirements

To complete a minor in social studies of science and technology, students must complete five courses (20 credits) with a grade of C- or better, choosing no more than three courses from a single department.

Code	Title	Credits
Select five courses from the following:		20
ANTH 440A	Honors/Medicine and Culture: Science, Technology and the Body	

BIOL 444A	Biotechnology and Society	
CEE 520	Environmental Pollution and Protection: A Global Context	
CHBE 410	Energy and Environment	
CMN 696W	Seminar in Media Studies <sup>1</sup>	
CMN 772	Seminar in Media Theory (topic: Critical Approaches to New Media)	
ENGL 415C	Literature and Medicine	
GEOG 405	There Is No Planet B	
GEOG 590	Field Research <sup>1</sup>	
GEOG 670	Climate and Society	
HIST 425	Foreign Cultures (topic: Energy and Society: A Global History)	
HIST 440B	Honors/Medicine, Society, Science, and the Law: Who Makes Your Health Care Decisions?	
HIST 440G	Honors/Revolutions in Science	
HIST 498	Explorations of Historical Perspectives (topic: History of Animals)	
HIST 521	Origins of Modern Science	
HIST 522	Science in the Modern World	
HIST 595	Explorations <sup>1</sup>	
HIST 600	Explorations (topic: Oil and Water of the Middle East)	
HIST 618	American Environmental History	
HIST 621	History of American Thought <sup>1</sup>	
HIST 654	Topics in History of Science	
HIST 690	Seminar: Historical Expl <sup>1</sup>	
PHIL 424	The Future of Humanity: Science, Technology, and Society	
PHIL 435	Human Nature and Evolution	
PHIL 447	Artificial Intelligence, Robots, and People	
PHIL 450	Environmental Ethics	
PHIL 630	Neuroscience and Philosophy	
PHIL 780	Special Topics <sup>1</sup>	
POLT 444	Politics and Policy in a Warming World	
POLT 751	Comparative Environmental Politics and Policy	
PSYC 571	Pioneers of Psychology	
PSYC 791W	Special Topics <sup>1</sup>	
SOC 565	Environment and Society	
Total Credits		20

<sup>1</sup> with approval of topic by the coordinator

# Homeland Security (HLS)

[Homeland Security Major \(B.S.\)](#) (p. 441)

# Humanities (HUMA)

The humanities program examines the fundamental questions and issues of human civilization. Through studying diverse texts in the arts, music, literature, history, philosophy and science, students seek answers to questions that thoughtful human beings must address in the course of their lives. Whether these questions come from Socrates (What is justice?), from Sir Thomas More (What is obligation to God?), from Raphael (What is beauty?), from Newton (What are the laws of nature?) or from Martin Luther King, Jr. (What is freedom?), they direct our attention to enduring human concerns and to texts that have suggested or illustrated the most profound and powerful answers. The humanities program is housed in the Department of Classics, Humanities and Italian Studies.

<https://cola.unh.edu/classics-humanities-italian-studies>

## Programs

## Humanities Dual Major

<https://cola.unh.edu/classics-humanities-italian-studies/program/ba/humanities-dual-major>

## Description

The dual major in humanities is structured in such a way that students can focus on a chosen primary major while taking advantage of the humanities program curriculum and its emphasis on analytical writing, critical thinking and well-rounded interdisciplinary cultural knowledge. Students combine our curriculum with another, disciplinary major that allows them to pursue a narrower field of study in some depth. The dual major in interdisciplinary humanities offers students a set of tools and skills so they can understand and forge our 21st century world. Its curriculum provides structure, progression, and rigor. Citizens of the 21st century need to know how to analyze texts and navigate cultures. That is why the humanities are essential to the lives of educated people.

## Requirements

### Degree Requirements

**Minimum Credit Requirement:** 128 credits

**Minimum Residency Requirement:** 32 credits must be taken at UNH

**Minimum GPA:** 2.0 required for conferral\*

**Core Curriculum Required:** Discovery & Writing Program Requirements

**Foreign Language Requirement:** Yes, if primary major is a Bachelor of Arts

**Declared Primary Major**

All Major, Option and Elective Requirements as indicated.

*\*Major GPA requirements as indicated.*

### Humanities Dual Major Requirements

The humanities dual major consists of a minimum of 32 credits of academic work, with a minimum grade of C-. Students cannot declare the dual major until they have declared a primary major. They must have a GPA of 2.75 to be accepted to the dual major program.

Code	Title	Credits
<b>Core Requirements: Four Core Courses (16 Credits)</b>		
HUMA 500	Critical Methods in the Humanities <sup>1</sup>	
Select EITHER two of the following team-taught courses		
HUMA 510A/510B/510C/510D	Ancient Humanities: Cultures and Empires	
HUMA 511A/511B/511C	Medieval Humanities: Rise of Global Empires	
HUMA 512A/512B/512C/512D	Modern Humanities: Colonies, Constitutions, and Capital	
HUMA 513A/513B/513C/513D	Global Humanities	
OR one team-taught course PLUS		

HUMA 401/401W Introduction to the Humanities

#### Discovery Program Capstone

Select EITHER

HUMA 700 Seminar (preferably during junior or senior year) <sup>2</sup>

OR

HUMA 798 & HUMA 799 Research Seminar and Research Seminar <sup>3</sup>

#### Additional Requirements (16 Credits)

Select four area courses in HUMA (500 level or above) from at least three of five areas of disciplinary focus <sup>4</sup>

- <sup>1</sup> Students will be made acquainted with the methods and technology required for research in humanities.
- <sup>2</sup> This seminar provides an opportunity for in-depth reading, viewing, and/or listening to texts and artifacts. The emphasis is on the multiple perspectives and methodologies that can be brought to bear upon these works from several humanistic disciplines.
- <sup>3</sup> Each student participates in the research tutorial (for a total of 6 credits) throughout the senior year. The tutorial provides a context within which students may discuss and receive direction in the course of completing a major research paper, the senior thesis. At the end of the second semester, students present their research to the faculty and their fellow students.
- <sup>4</sup> Selected with the advice and approval of each student's major adviser or the program coordinator. These offerings should bear some relation to the student's particular interests and senior research paper, as seems appropriate in each individual case.

The required minimum overall GPA in major coursework is 2.0.

Candidates for a degree must satisfy all of the University Discovery Program requirements in addition to satisfying the requirements of each individual major program. Bachelor of arts candidates must also satisfy the foreign language proficiency requirement.

## Student Learning Outcomes

- Demonstrate the ability to find and evaluate primary and secondary source material necessary for humanistic research.
- Demonstrate the ability to propose, conduct, and present interdisciplinary humanistic research in a written, oral, or other forms. Identify and interpret creative and cultural forms from a given historical period.
- Compare and contrast the meanings of major texts and other significant cultural productions.

## Humanities Minor

<https://cola.unh.edu/classics-humanities-italian-studies/program/minor/humanities>

## Description

There has never been a more exciting time to be human—or has there? What exactly does it mean to be a human being in the twenty-first century? How can you get the most out of your humanity? Find out by minoring in the humanities. It can help prepare you for a life you may not have considered, in ways you've never imagined.

Requirements

The humanities minor consists of the following courses:

Code	Title	Credits
Select two courses (8 credits) of the following sequence:		8
HUMA 510A/510B/510C/510D	Ancient Humanities: Cultures and Empires	
HUMA 511A/511B/511C	Medieval Humanities: Rise of Global Empires	
HUMA 512A/512B/512C/512D	Modern Humanities: Colonies, Constitutions, and Capital	
HUMA 513A/513B/513C/513D	Global Humanities	
Select two courses (8 credits) from other humanities program courses, one of which should be at the 600 level		8
HUMA 700	Seminar (or another approved course)	4
Total Credits		20

Italian Studies (ITAL)

The Italian studies program offers courses in Italian language, culture, literature, history and cinema, as well as courses on Italian American culture. Italian courses can also be used to fulfill Discovery Program requirements and the bachelor of arts foreign language proficiency requirement. In addition to the Italian studies major, an Italian studies minor is available.

The program provides opportunities both to achieve high competence in Italian language and culture and to apply these knowledge skills to other disciplines. The Italian studies program encourages independent and innovative thinking and research so that students may pursue and achieve individualized goals while they prepare for the challenges of thriving in the world community.

Study Abroad

The Italian studies program allows students to register for approved study abroad programs through the University.

<https://cola.unh.edu/classics-humanities-italian-studies>

Italian Studies Major (B.A.)

<https://cola.unh.edu/classics-humanities-italian-studies/program/ba/italian-studies-major>

Description

The Italian studies program offers courses in Italian language, culture, literature, history and cinema, as well as courses on Italian American culture. The program provides opportunities both to achieve high competence in Italian language and culture and to apply these knowledge

skills to other disciplines. The Italian studies program encourages independent and innovative thinking and research so that students may pursue and achieve individualized goals while they prepare for the challenges of thriving in the world community.

Requirements

Degree Requirements

**Minimum Credit Requirement:** 128 credits

**Minimum Residency Requirement:** 32 credits must be taken at UNH

**Minimum GPA:** 2.0 required for conferral\*

**Core Curriculum Required:** Discovery & Writing Program Requirements

**Foreign Language Requirement:** Yes

All Major, Option and Elective Requirements as indicated.

*\*Major GPA requirements as indicated.*

Major Requirements

The Italian studies major curriculum consists of 10 courses (40 credits) that include:

Code	Title	Credits
Select 16 credits at 600-level or above		16
Select 24 credits in ITAL course electives (up to two courses in Classics (CLAS), Humanities (HUMA) or from the list of approved electives may substitute for two of these courses.)		24
Select one of the following Discovery capstone requirements:		
Honors Thesis (ITAL 796)		
Senior Thesis (ITAL 795)		
ITAL course at the 700-level (ITAL 733 or ITAL 775)		
Advisor approved 4-credit internship (ITAL 595)		
Advisor approved semester immersion experience in Italy (INCO 685 or INCO 686)		
Total Credits		40

Additional Requirements

- The minimum grade for each major course is a C.
- Once students declare the Italian studies major, they must maintain a 2.5 cumulative grade point average in order to fulfill the study abroad requirement.
- Italian studies majors may use two major-required courses to satisfy two Discovery category requirements.

List of Elective Courses

All CLAS and HUMA courses are acceptable electives. Approved courses from other disciplines are listed below. Approval by the Italian studies advisor is required for courses not listed below.

Code	Title	Credits
ANTH 411	Global Perspectives on the Human Condition: An Introduction to Anthropology	4

SUST 401	Exploring Sustainability	4
THDA 436	History of Theatre I	4
THDA 438	History of Theatre II	4

- Exhibit historical cultural competency: Identify the major movements in Italian cultural history and analyze critically Italian cultural production from the 13th century to the present through close readings and audio and visual texts (e.g., literature, cinema, music, visual arts, traditional and social media) to provide critical insight on a range of topics in Italian culture.
- Exhibit intercultural competency: Present a global perspective through the articulation of cultural differences as well as shared values between cultures, societies, and nations.
- Exhibit research competency: Demonstrate ability to conduct research in both Italian and English: to produce coherent analyses utilizing primary and secondary sources, applying critical thinking and methodologies of argumentation, and integrating disparate areas of knowledge.

## Italian Studies Minor

<https://cola.unh.edu/classics-humanities-italian-studies/program/minor/italian-studies>

### Description

The Italian studies minor provides students with the opportunity to explore the language, culture, and society of Italy through an interdisciplinary program. The minor is advantageous for applicants to graduate and professional schools in Italian, modern languages, linguistics, film, history, theater, philosophy and law. It is also a valuable asset for careers in economics, international affairs, international business, fashion, teaching, communications, translation, interpretation, government and Foreign Service.

The Italian studies minor is offered by the Department of Classics, Humanities and Italian Studies.

### Requirements

The minor consists of five courses.

Code	Title	Credits
Five ITAL elective courses <sup>1</sup>		20
Demonstrate linguistic proficiency at the level of intermediate Italian (ITAL 504 Intermediate Italian II or equivalent).		
<b>Total Credits</b>		<b>20</b>

<sup>1</sup> One course from a related field of study may be counted towards the minor, subject to the approval of the Italian studies advisor.

- All courses for the Italian studies minor must be completed with a minimum grade of C.
- New students will be assigned to the proper course in consultation with the program coordinator.

## Justice Studies (JUST)

Justice studies students think critically about issues that are part of the national conversation concerning justice: race and policing, cybercrime, the opioid crisis, juvenile delinquency, sexual and interpersonal violence, immigrants and refugees, wrongful convictions and bullying. All majors do applied or research internships in New England or Washington, D.C. Many spend a semester studying in Budapest and participating in Mock Trial. Our graduates excel in various positions including FBI agents,

## Student Learning Outcomes

- Demonstrate speaking proficiency in Italian: Students speak Italian at the Advanced Level per standard guidelines established by the American Council on the Teaching of Foreign Languages (ACTFL).
- Demonstrate listening proficiency in Italian: Students' aural comprehension is at the Advanced Level per standard guidelines established by ACTFL.
- Demonstrate reading proficiency in Italian: Students' read at the Advanced Level per standard guidelines established by ACTFL.
- Demonstrate writing proficiency in Italian: Students' write at the Advanced Level per standard guidelines established by ACTFL.
- Exhibit contemporary cultural competency: Demonstrate knowledge of contemporary aspects of Italian culture and the ability to interact appropriately and effectively within diverse social and cultural contexts.

federal probation and parole, police officers from local to federal levels, victim/witness advocates, prison wardens, police prosecutors, attorneys and juvenile justice advocates.

## Faculty

<https://cola.unh.edu/justice-studies-program/faculty-staff-directory>

## Justice Studies Dual Major

<https://cola.unh.edu/justice-studies/program/justice-studies-dual-major>

## Description

The justice studies dual major is an interdisciplinary area that blends topics from humanities departments (e.g., philosophy), social science departments (e.g., psychology, sociology, women's and gender studies), departments that include both humanities and social science faculty (history, political science), and professionally oriented departments (education, family studies, social work). Topics studied include courts, family violence, rights, substance abuse, juvenile justice, school law, children as witnesses, hate crimes and community policing. Students will be required to choose a first major before they will be able to declare justice studies as a second major. The goal is to produce graduates who have a higher level of knowledge about law and justice in American society and in the world so that they will mature into more knowledgeable and effective citizens. The justice studies dual major is intended for students who are looking for careers in the justice system or who seek graduate training in law or social sciences and humanities related to the law.

Students are strongly encouraged to contact the Justice Studies Office and to declare the dual major as soon as they develop an interest in majoring. Once a student has been accepted to the JS dual major, they will be assigned an advisor.

## Requirements

### Degree Requirements

**Minimum Credit Requirement:** 128 credits

**Minimum Residency Requirement:** 32 credits must be taken at UNH

**Minimum GPA:** 2.0 required for conferral\*

**Core Curriculum Required:** Discovery & Writing Program Requirements

**Foreign Language Requirement:** Yes, if primary major is a Bachelor of Arts

**Declared Primary Major**

All Major, Option and Elective Requirements as indicated.

\*Major GPA requirements as indicated.

## Justice Studies Dual Major Requirements

The dual major in justice studies requires students to take a minimum of eight courses (32 credits), each completed with a grade of a C- or better. Students are required to have a grade-point average of a 2.5 or better before they can be accepted into the program. The dual major cannot be declared until after a first major has been declared. Students can count no more than two courses for both the first major and dual major, and students are not allowed to take more than two courses from any one department (except for JUST). An unlimited number of dual major courses can be used to satisfy Discovery requirements.

Code	Title	Credits
<b>Required Courses</b>		
JUST 401	Introduction to Justice Studies	4
JUST 501	Research Methods	4
JUST 601	Internship (seniors only )	4
JUST 701	Senior Seminar (writing-intensive course) <sup>1</sup>	4
Select one of the following:		4
POLT 507	Politics of Crime and Justice	
POLT 508	Supreme Court and the Constitution	
SOC 515	Introductory Criminology

JUST 410	Sexual Harassment and Rape Prevention (SHARPP) Peer Advocacy	4
JUST 520	Girls Gone Bad: Delinquent Girls in Cultural Context	4
JUST 550	Mock Trial	4
& JUST 551	and Mock Trial (must take 2 semesters to count as a JS elective)	

JUST 591	Forensic Psychology	4
JUST 595	Special Topics (no more than two courses) <sup>2</sup>	4
JUST 650 & JUST 651	Special Studies in Comparative Justice Systems and Field Studies in the Hungarian Justice System	10
JUST 795	Reading and Research (variable credit/permission required)	1-4
LLC 540	Film History (Terrorism(s) A Humanistic and Cinematic Outlook)	4
LAW 460	Sports Law & Current Controversies	4
PHIL 420	Introduction to Philosophy of Law and Justice	4
PHIL 436	Social and Political Philosophy	4
PHIL 660	Law, Medicine, and Ethics	4
PHIL 701	Topics in Value Theory	4
POLT 440A	Honors/Global Justice (Global Justice)	4
POLT 444B	Cruel and Unusual in a Federal System	4
POLT 507	Politics of Crime and Justice	4
POLT 508	Supreme Court and the Constitution	4
POLT 513	Civil Rights and Liberties	4
POLT #520	Politics, Justice, and Morality	4
POLT 548	Drug Wars	4
POLT 568	International Security	4
POLT #765	Security Intelligence Study	4
PSYC 755	Psychology and Law	4
PSYC 756	Psychology of Crime and Justice	4
POLT 798B	Seminar in American Politics	4
PSYC 791W	Special Topics (Psychology of Delinquency)	4
RMP 772	Law and Public Policy in Leisure Services (must have junior/senior status)	4
SOC #440A	Honors/Drug Addiction in American Society	4
SOC 515	Introductory Criminology	4
SOC 450	Contemporary Social Problems (only when taught by Professor Abbott)	4
SOC 525	Juvenile Crime and Delinquency	4
SOC 535	Homicide	4
SOC 620	Drugs and Society	4
SOC #656	Terrorism	4
or POLT #570	Counterterrorism: Nation states' responses to terrorist activity	
SOC 697	Special Topics (Social Psychology of Justice)	4
SOC #715	Criminological Theory	4
SOC #720	Sociology of Drug Use	4
SW 525	Social Welfare Policy: History of Social and Economic Justice	4
SW 705	Child and Adolescent Risks and Resiliency: Program, Policy and Practice	4

<sup>2</sup> Bill of Rights and Law & Society are allowed to count as the JS SOC/ POLT requirement.

The required minimum overall GPA in major coursework is 2.5.

Candidates for a degree must satisfy all of the University Discovery Program requirements in addition to satisfying the requirements of each individual major program. Bachelor of arts candidates must also satisfy the foreign language proficiency requirement.

Students who are interested in a dual major in justice studies will need to officially declare in Webcat (my.unh.edu). Program offices are located in Hamilton Smith Hall and are open Monday through Friday from 8 a.m. to 12 p.m. and 1 p.m. to 4:30 p.m. For more information, please contact Molly Dorsey at (603) 862-0703, e-mail [marion.girard.dorsey@unh.edu](mailto:marion.girard.dorsey@unh.edu); or Deb Briand at (603) 862-1716, e-mail [deborah.briand@unh.edu](mailto:deborah.briand@unh.edu).

## Student Learning Outcomes

- Demonstrate knowledge of fundamental theoretical approaches and key disciplinary concepts of Justice Studies.
- Demonstrate understanding of justice studies methods of research design, data gathering, and analysis.

- Exhibit critical thinking skills in evaluating justice studies research, including the background assumptions, appropriateness of methods used and the strength of explanatory evidence.
- Communicate justice studies knowledge in appropriate oral, written and graphic forms.
- Experience justice studies either in the real world through an internship or in a research lab through a research internship.

## Justice Studies Minor

<https://cola.unh.edu/justice-studies/program/minor/justice-studies>

### Description

The justice studies minor is an interdisciplinary program that blends topics from humanities departments (e.g., philosophy), social science departments (e.g., psychology, sociology, women's and gender studies), departments that include both humanities and social science faculty (history, political science) and professionally oriented departments (education, family studies, social work). Topics studied include courts, family violence, rights, substance abuse, juvenile justice, school law, children as witnesses, hate crimes and community policing.

### Requirements

The minor in justice studies requires students to take a total of five courses (20 credits) each with a grade of C- or better in order to complete the program. Students are allowed to "double count" no more than two courses toward their major and minor, and are not allowed to take more than two courses from any one department (except for justice studies).

In order to officially declare the minor in justice studies, students will need to submit an intent to minor form to Deb Briand in the Justice Studies Office. This form can be found on our website.

Code	Title	Credits
<b>Required Courses</b>		
JUST 401	Introduction to Justice Studies	4
Select one of the following:		4
POLT 507	Politics of Crime and Justice	
POLT 508	Supreme Court and the Constitution	
SOC 515	Introductory Criminology	
<b>Elective Courses</b>		
Select three elective courses from the justice studies approved course list <sup>1</sup>		12
<b>Total Credits</b>		<b>20</b>

<sup>1</sup> This list is approved and published yearly by the Justice Studies Executive Committee. Departmental offerings that are currently accepted for the minor are listed on the [Justice Studies major page](#) (p. 246).

For program information on the forensics minor, see the Forensics Minor program page.

## Forensics Minor

<https://cola.unh.edu/justice-studies/program/minor/forensics>

Description

The forensics minor provides students with the opportunity to explore the different components of forensics through the interdisciplinary study of biology, psychology, sociology and justice studies. This well-rounded curriculum will enable students to build upon their interests in justice studies by specializing in an area of increasing importance. Once students have decided to pursue the minor, they are required to meet with the coordinator, academic counselor or appropriate affiliated faculty adviser at least once per semester for regular review and assessment of their program, learning outcomes and progress toward the degree.

Requirements

The forensic minor requires five courses (20 credits) drawn from a list of approved courses. Students must receive a grade of a C- or better for a course to count toward the minor requirements. The five courses include:

Code	Title	Credits
Required Courses		
JUST 401	Introduction to Justice Studies	4
BIOL 420	Introduction to Forensic Sciences	4
Additional Courses		
Select three of the following:		12
ANTH 550	Introduction to Forensic Anthropology	
ANTH 697	Special Topics (The only special topic allowed is Cold Cases)	
JUST 405	Technology, Crime, and Society: A Forensic Exploration of High-Tech and Digital Crime	
JUST 591	Forensic Psychology	
SOC 515	Introductory Criminology	
SOC 535	Homicide	
Total Credits		20

Two courses can double count toward your justice studies dual major. These courses are most commonly JUST 401 Introduction to Justice Studies, and SOC 515 Introductory Criminology.

In order to officially declare the forensic minor, students will need to submit an intent to minor form to Deb Briand in the Justice Studies Office. This form can be found on our website.

Latin American, Latinx and Caribbean Studies

• [Latin American, Latinx and Caribbean Studies Minor](#) (p. 248)

Latin American, Latinx and Caribbean Studies Minor

<https://cola.unh.edu/interdisciplinary-studies/program/minor/latin-american-latinx-caribbean-studies>

Description

Latin American, Latinx and Caribbean studies is an interdisciplinary minor encompassing anthropology, communications, economics, geography, history, linguistics, political science and Spanish. Knowledge of Latin America is especially valuable for students who plan to work in

education, international organizations, government, social services, and business or for graduate studies related to Latin America.

For more information on the Latin American, Latinx and Caribbean studies minor (LALACS) contact [Lori Hopkins](#) ([lori.hopkins@unh.edu](mailto:lori.hopkins@unh.edu)).

Requirements

Students can complete the minor by selecting any five courses (20 credits) representing at least three disciplines.

Enrollment in these five courses must follow the guidelines below to count for the minor:

- 1. At least three courses must be taken in residence.
- 2. All coursework required for the minor must be completed with a grade of C or better.
- 3. Courses for the minor may not be taken pass/fail.

Academic study in Latin America is strongly recommended: Speak with faculty to help you find the study abroad program that best fits your interests. UNH and its affiliates offer several short- and long-term programs throughout Latin America.

Code	Title	Credits
Required Courses		
HIST 532	Modern Latin America <sup>1</sup>	4
SPAN 504	Intermediate Spanish II <sup>2</sup>	4
Elective courses (see list below)		12-16

- <sup>1</sup> An equivalent course as approved by a LALACS advisor can replace HIST 532 Modern Latin America.
- <sup>2</sup> Minimum of high-intermediate level proficiency in Spanish. Equivalent courses or equivalent testing may be counted here.

Elective Course List

Students should consult with an advisor or the course instructor to ensure that the majority of this coursework concentrates on Latin America.

Code	Title	Credits
ANTH 500	Peoples and Cultures of the World (Topic: Latin America)	4
ANTH 501	World Archaeological Cultures (Topic: Mesoamerica)	4
ANTH #674	Archaeological Survey and Mapping in Belize	4
CMN #515	Analysis of News	4
ECON #668	Economic Development	4
ENGL 560	Introduction to Latinx Literature and Culture	4
ENGL 650	I Hear America Singing: Studying American Literature and Culture (Topic: Latina/o Literature)	4
HIST 425	Foreign Cultures (Topic: Women in Latin America)	4
HIST 532	Modern Latin America	4
HIST 632	Latin American History: Topics	4
LING 790	Special Topics in Linguistics Theory (Topic: Sustainable Languages)	4
POLT 403	United States in World Affairs	4
POLT 548	Drug Wars	4
POLT 565	United States Policy in Latin America	4
POLT 795	Advanced Study (Topic: The Politics of Poverty)	1-4
SPAN 526	Introduction to Latin American Cultures	4
SPAN 631	Advanced Conversation and Composition I	4
SPAN 632	Advanced Conversation and Composition II	4
SPAN 641	Spanish Language Variation & Change	4
SPAN 647	Topics in Hispanic Cultural Studies	4
SPAN 648	The Hispanic World Today	4
SPAN 650	Hispanic Literature and Popular Culture	4
SPAN #653	Introduction to Latin American Literature and Thought	4

SPAN 654	Introduction to Latin American Literature and Thought	4
SPAN 797	Topics in Hispanic Literary and Cultural Studies	4
SPAN 798	Topics in Hispanic Linguistics and Cultural Studies	4
SW 697	Special Topics in Social Welfare (Topic: Social Action in the Dominican Republic)	4
SW 797	Special Topics in Social Welfare (Topic: Social Action in the Dominican Republic)	4

## Linguistics (LING)

Linguistics is the study of one of the most important characteristics of human beings—language. It cuts across the boundaries between the sciences and the humanities. The program is an excellent liberal arts major or preprofessional major for education, law, medicine, clergy and others. It is a particularly appropriate major for students who want to teach English as a second language. Dual majors with a foreign language, international affairs, business administration and the like are quite feasible.

Students interested in the major or the minor should consult with the program coordinator or with any professor who teaches linguistics courses. To declare a major in linguistics, a student must meet with the linguistics coordinator to design a course of study. Information is available from the University Advising Center, 101 Hood House, and at [cola.unh.edu/linguistics](https://cola.unh.edu/linguistics).

<https://cola.unh.edu/linguistics>

## Linguistics Major (B.A.)

<https://cola.unh.edu/linguistics/program/ba/linguistics>

### Description

Linguistics is the study of one of the most important characteristics of human beings—language. It cuts across the boundaries between the sciences and the humanities. The program is an excellent liberal arts major or preprofessional major for education, law, medicine, clergy and others. It is a particularly appropriate major for students who want to teach English as a second language. Dual majors with a foreign language, international affairs, business administration and the like are quite feasible.

Students interested in the major should consult with the program coordinator or with any professor who teaches linguistics courses. To declare a major in linguistics, a student must meet with the linguistics coordinator to design a course of study. Information is available from the University Advising Center, 101 Hood House, and at [cola.unh.edu/linguistics](https://cola.unh.edu/linguistics). Students may also contact Prof. Rachel Burdin, Linguistics Program Coordinator, with questions about major or minor requirements: [Rachel.Burdin@unh.edu](mailto:Rachel.Burdin@unh.edu), (603) 862-1088.

## Requirements

### Degree Requirements

**Minimum Credit Requirement:** 128 credits

**Minimum Residency Requirement:** 32 credits must be taken at UNH

**Minimum GPA:** 2.0 required for conferral\*

**Core Curriculum Required:** Discovery & Writing Program Requirements

**Foreign Language Requirement:** Yes

All Major, Option and Elective Requirements as indicated.

\*Major GPA requirements as indicated.

### Major Requirements

Code	Title	Credits
LING 405	Introduction to Linguistics	4
LING 605	Intermediate Linguistic Analysis	4
LING 793	Phonetics and Phonology	4
LING 794	Syntax	4
Select one course in historical linguistics or sociolinguistics from the following:		4
ENGL 752	History of the English Language	
ITAL 733	History and Development of the Italian Language	
LING/ENGL 719	Sociolinguistics Survey	
RUSS 733	History of Slavic Languages and Culture	
SPAN 798	Topics in Hispanic Linguistics and Cultural Studies (Subtopic A)	
Two years of college study (or equivalent) of one foreign language		4-16
Select one of the following cognate specialties:		8
One year study (or equivalent) of a second foreign language from a different language family or subfamily <sup>1</sup>		
PSYC 712	Psychology of Language <sup>2</sup>	
Select two elective courses from list below, one of which must be a 600- or 700- level LING or ENGL course <sup>3</sup>		8
Discovery Program Capstone Experience:		
LING 779	Linguistic Field Methods	4
or LING 695	Senior Honors	
<b>Total Credits</b>		<b>44-56</b>

<sup>1</sup> Old English may count as the second foreign language if the first foreign language is not in the Germanic family.

<sup>2</sup> With its prerequisite, either PSYC 512 Psychology of Primates or PSYC 513 Cognitive Psychology

<sup>3</sup> History of the English Language or Sociolinguistics can be used as an elective if the other one is used for the Historical/Sociolinguistic requirement.

### Elective Courses

Code	Title	Credits
<b>Anthropology</b>		
ANTH 795	Reading and Research (Subtopic B)	1-8
ANTH 796	Reading and Research (Subtopic B)	1-8
<b>Communication</b>		
CMN 572	Analysis of Language and Social Interaction	4
CMN 666	Conversation Analysis	4
<b>English</b>		
ENGL 606	Languages of the World	4
ENGL 715	Teaching English as a Second Language: Theory and Methods	4
ENGL 716	Curriculum, Materials and Assessment in English as a Second Language	4
ENGL #717	Languages in Contact	4
ENGL 718	Morphology	4
ENGL 719	Sociolinguistics Survey	4
ENGL 728	Language and Gender	4
ENGL 752	History of the English Language	4

ENGL 790	Special Topics in Linguistics	4
ENGL 791	English Grammar	4
LLC		
LLC 791	Methods of Foreign Language Teaching	4
Italian		
ITAL 733	History and Development of the Italian Language	4
Linguistics		
LING 606	Languages of the World	4
LING 717	Languages in Contact	4
LING 718	Morphology	4
LING 719	Sociolinguistics Survey	4
LING 728	Language and Gender	4
LING 790	Special Topics in Linguistics Theory	4
LING #795	Independent Study	1-4
Psychology		
PSYC 512	Psychology of Primates <sup>1</sup>	4
PSYC 513	Cognitive Psychology <sup>1</sup>	4
PSYC 712	Psychology of Language	4
Russian		
RUSS 733	History of Slavic Languages and Culture	4
Spanish		
SPAN 641	Spanish Language Variation & Change	4
SPAN 645	Intro to Spanish Linguistics	4
SPAN 798	Topics in Hispanic Linguistics and Cultural Studies (Subtopic A)	4

<sup>1</sup> Students may count either PSYC 512 Psychology of Primates or PSYC 513 Cognitive Psychology toward the linguistics major or minor, but not both.

Other courses may be substituted, with the permission of the student’s adviser and the linguistics committee, when they are pertinent to the needs of the student’s program.

The required minimum overall GPA in major coursework is 2.0.

Candidates for a degree must satisfy all of the University Discovery Program requirements in addition to satisfying the requirements of each individual major program. Bachelor of arts candidates must also satisfy the foreign language proficiency requirement.

Linguistics majors may use one major-required course to satisfy one Discovery category requirement.

## Student Learning Outcomes

Students will understand and be able to deploy the analytical tools, modes of critical thinking, and types of writing that are used in studying languages and linguistics. Students will be able to analyze sets of data and make arguments concerning the theoretical analysis of those data. Core areas:

- **Phonetics:** Students will understand the acoustic and articulatory properties of speech sounds both for English and for other languages. Students will be able to transcribe and read the International Phonetic Alphabet.
- **Phonology:** Students will display knowledge of phonological analysis including identifying phonemes and allophones in languages, writing phonological rules using distinctive features, and understanding phonological processes such as assimilation, epenthesis, vowel harmony, etc.
- **Morphology:** Students will be able to analyze word structure (inflection, derivation, compounding) both in English and in unfamiliar

languages. They will understand key concepts concerning the mental lexicon.

- **Syntax:** Students will be able to analyze the structural properties of sentences in English and in other languages and be familiar with the principles of generative grammar.
- **Sociolinguistics, Historical Linguistics, and Typology:** Students will understand processes of language change over time, language variation according to region, social class, gender, and education, and the effects of language contact.
- **Field Methods:** Students will be able to work with a native speaker of an unfamiliar language to collect and analyze data from that language. They will understand the ethical and logistical issues involved in documenting languages.
- **Applications:** Students will have an understanding of practical applications of linguistic knowledge to daily life, including political issues regarding language (e.g., bilingual education, official languages), language acquisition, disorders that can affect language.

## Linguistics Minor

<https://cola.unh.edu/linguistics/program/minor/linguistics>

### Description

Linguistics is the study of one of the most important characteristics of human beings—language. It cuts across the boundaries between the sciences and the humanities. Students interested in the minor should consult with Prof. Rachel Burdin, [rachel.burdin@unh.edu](mailto:rachel.burdin@unh.edu), (603) 862-1088 the program coordinator, or with any professor who teaches linguistics courses.

### Requirements

Code	Title	Credits
LING/ENGL 405	Introduction to Linguistics	4
Select any four linguistics courses approved by the linguistics coordinator		16
Total Credits		20

## TESOL Minor

<https://cola.unh.edu/linguistics/program/minor/tesol>

### Description

The TESOL minor is a set of courses that are related to teaching English to speakers of other languages. This minor primarily is for students who are interested in teaching English to speakers of other languages, whether that be teaching English abroad or teaching ESL students in U.S. public schools (K-12). It is also appropriate for students who are going into social work or other professions that require regular interaction with nonnative English speakers.

The TESOL minor will not certify students to teach in New Hampshire public schools (K-12). For that purpose, students must complete the ESL certification program that is offered at the graduate level by the Education and English departments. However, the coursework in this minor will provide a very good foundation for students who want to later pursue ESL certification or an M.A. in TESOL at UNH or another institution.

For more information about the TESOL minor, please contact Soo Hyon Kim, [soohyon.kim@unh.edu](mailto:soohyon.kim@unh.edu), 603-862-5290.

## Requirements

The TESOL minor requires the following five courses:

Code	Title	Credits
<b>Required Courses</b>		
ENGL 715	Teaching English as a Second Language: Theory and Methods	4
ENGL 716	Curriculum, Materials and Assessment in English as a Second Language	4
Select one of the following courses on the structure of English:		4
ENGL 791	English Grammar	
ENGL/LING 405	Introduction to Linguistics	
Select two of the following approved TESOL electives:		8
EDUC 550	Language and Linguistic Diversity in Schools	
ENGL 791	English Grammar <sup>1</sup>	
ENGL/LING 405	Introduction to Linguistics <sup>1</sup>	
ENGL/LING 719	Sociolinguistics Survey	
ENGL 752	History of the English Language (WI)	
ENGL/LING 790	Special Topics in Linguistics (when offered on a TESOL-related topic (WI))	
LLC 791	Methods of Foreign Language Teaching	
Special topics courses that are related to TESOL <sup>2</sup>		
<b>Total Credits</b>		<b>20</b>

<sup>1</sup> Whichever was not taken before

<sup>2</sup> The TESOL coordinator can provide you with a list of available courses for a particular semester.

Students must receive a C- or better in each course and achieve a 2.0 GPA in the five courses.

No more than eight transfer credits will be accepted.

## Medical Humanities, Society & Ethics

- [Medical Humanities, Society & Ethics Minor](#) (p. 251)

## Medical Humanities, Society & Ethics Minor

<https://cola.unh.edu/interdisciplinary-studies/program/minor/medical-humanities-society-ethics>

### Description

As an interdisciplinary minor, medical humanities, society and ethics (MHSE) teaches students to use methods from the humanities and social sciences to examine issues related to illness, health, healthcare, the body and the mind in their social, cultural and historical contexts.

MHSE takes as its starting point the dual claim that the central human experiences of health and illness as well as the systems of knowledge that have emerged to classify them are culturally shaped phenomena. Bodies and minds experience illness; people suffer; they age; they die. But the meanings people attach to these processes are not givens in the natural world. They are rather forged within a particular society's attitudes, values, beliefs and practices expressed through language, behavior, ritual and art. They are, moreover, contingent on time and place. Even the modern scientific discipline of medicine, its truth claims, and its terms are embedded in historical cultural domains. They have as much to do with attitudes to gender, race, socioeconomic status, relations

of power, structures of authority and social hierarchies as they do with biology.

MHSE aims to bridge the gulf that exists between science and experience, biology and culture by challenging students to examine critically the origins and nature of their beliefs and values about illness and health as well as the beliefs and values embedded in their society's social, cultural, educational, legal and political institutions.

MHSE students will learn that humanistic interpretive practices make cross-cultural and comparative studies of health and illness possible. The minor encourages students to take a broad community and global perspective on experiences of health and illness that address equity, policy and resource allocation.

### Requirements

Students are required to take 20 credits in courses that are on the approved list (see below) or that are approved by the minor advisory committee through a petition process. Independent studies, practica and transfer credits may also count for the minor with the approval of the committee.

- At least 4 credits must be at the 600 or 700 level.
- No more than 12 credits may come from the same department.
- At least 12 credits must be taken in residence at UNH.
- No more than 4 credits may be taken from courses outside of the College of Liberal Arts.

## List of Approved Courses

Code	Title	Credits
ANTH 525	Anthropology of the Body: Fat, Fitness and Form	4
ANTH #610	Medical Anthropology: Illness and Healing	4
ANTH 685	Gender, Sexuality and HIV/AIDS in Sub-Saharan Africa	4
ANTH 695	Globalization and Global Population Health	4
CLAS 550C	Identities and Difference in the Ancient World: Sex and Desire in Greece and Rome	4
ENGL 415C	Literature and Medicine	4
ENGL 787	English Major Seminar (Only topic: Literature and Medicine)	4

- Students must receive a grade of C- or better for a course to count toward the minor requirements.
- Once students have declared the minor, they are required to meet with the coordinator or appropriate core faculty advisor at least once per year for regular review and assessment of their program, learning outcomes and progress toward the degree.

## Middle Eastern Studies

### Programs

- [Middle Eastern Studies Minor](#) (p. 252)

## Middle Eastern Studies Minor

<https://cola.unh.edu/interdisciplinary-studies/program/minor/middle-eastern-studies>

### Description

The minor in Middle Eastern studies introduces students to the many facets of Middle Eastern cultures and societies through the interdisciplinary study of languages, history, politics, geography, and anthropology. Minor coursework enables students' understanding of the Middle East as a dynamic region in a global and comparative context. This minor therefore encompasses not only the study of the region itself, but also the flows and circulation of migration, diasporas, refugees, ideas, literatures, social movements, war and natural resources that make the region pivotal to world history and the global economy. In addition, participation in the minor prepares students for study abroad experiences, helps them acquire skills and qualifications for graduate study, and enhances employment opportunities.

Students interested in the minor should contact the coordinator and/or affiliated faculty to discuss their program of study.

### Requirements

The Middle Eastern studies minor requires five courses (20 credits) drawn from the list of approved courses or from exceptional courses and opportunities approved by the affiliate faculty in respective disciplines. The five-course requirement must include one non-language course.

Code	Title	Credits
<b>Elective Courses</b>		
Select five of the following:		20
ANTH 500	Peoples and Cultures of the World (only topic C)	
ANTH 640	Anthropology of Islam: Muslims' Everyday Lives in Contemporary Communities	
ANTH 700	Internship (only topic A: Preserving Cultural Heritage in Syria and Iraq)	
ANTH 750	Islam and Gender: Gendered Lives of Muslims	
ARBC 401	Elementary Arabic I	
ARBC 402	Elementary Arabic II	
ARBC 503	Intermediate Arabic	
ARBC 504	Intermediate Arabic	
ARBC 631	Advanced Arabic I	
ARBC 632	Advanced Arabic II	
GEOG 540	Geography of the Middle East	
HIST 425	Foreign Cultures	
HIST 575	Ancient Near East	

HIST 585	Medieval Islam	
HIST #640	Holy War in the Holy Land: The Medieval Crusades	
HUMA 444F	Travelers in the Premodern World	
HUMA 730	Special Studies (Symbols of Islam in America)	
POLT 559	Comparative Politics of the Middle East	
POLT 588	Selected Topics in Comparative Politics (Ethnic Violence, Politics, and Identity)	
POLT 740	States and Societies in the Middle East	
<b>Total Credits</b>		<b>20</b>

Students must receive a grade of C- or better for a course to count toward the minor. Courses for the minor may not be taken on a pass/fail basis.

**Foreign Language Study:** The study of a Middle Eastern language or language relevant to Middle Eastern studies is strongly encouraged but not required. Students are encouraged and permitted to count Arabic toward the five-course requirement. Students who have studied Hebrew, Turkish, Farsi, or other Middle Eastern languages at other institutions may apply for transfer of their credit toward the minor. Through petition to the minor coordinator and with support of affiliate faculty in the respective discipline, students may apply for European languages, such as French and Italian, to count toward minor requirements, provided these are relevant to their research and study interests in the region.

**Transfer or Articulation Agreements with other Institutions:** Transfer of credits may be approved by the coordinator to count toward the minor if the transfer is accepted by the University and fits within the scope of the minor.

Students interested in the minor should contact the coordinator and/or affiliated faculty to discuss their program of study. At the beginning of their final semester of study at UNH, students should fill out a completion of minor form and submit it to their Dean's Office.

## Music (MUSI, MUED)

The Department of Music offers two degree programs: the bachelor of arts in music and the bachelor of music.

The University of New Hampshire Department of Music is an accredited institutional member of the National Association of Schools of Music. All programs have final approval from NASM.

Prospective majors in music are advised to contact the department for information on acceptance into the major.

All music students must earn grades of C- or better in all required music and music education courses. The required minimum overall GPA in required music and music education coursework is 2.0.

## Bachelor of Arts in Music

The bachelor of arts in music program offers students an opportunity to major in music within the liberal arts curriculum. This program is intended for those who wish to pursue the serious study of music and to acquire at the same time a broad general education; it is recommended for those considering graduate study leading to master's or doctoral degrees.

To be admitted formally to the B.A. program, students must give evidence of satisfactory musical training by taking an admission audition. Students must declare music as a major before the beginning of the junior year, but it is highly recommended that they declare as early as possible, considering the large number of required courses.

The bachelor of arts degree is offered with three options: music liberal studies, performance study and composition.

## Bachelor of Music Degree Program

The bachelor of music degree program is offered to students who wish to develop their talent in performance, composition or music education to a high professional level. The program is recommended to those considering graduate study leading to the M.M. or D.M.A. degrees. The music education option is part of the undergraduate certification program (see the Department of Education).

To be admitted to the B.M. program, students must demonstrate a high degree of musical competence or significant creative ability during an audition or examination. Selection is made on the professional requirements appropriate to each option. Students must formally declare the B.M. as a degree program before the beginning of the sophomore year. Continuation into the upper level of the program is subject to review by the department faculty.

Four degrees are offered in the bachelor of music curriculum: bachelor of music in music education; bachelor of music in performance; bachelor of music in composition, and bachelor of music pre-teaching.

## Faculty

<https://cola.unh.edu/music/faculty-staff-directory>

## Music Major: Composition Option (B.A.)

<https://cola.unh.edu/music/program/ba/music-major-composition-option>

## Description

If you want to develop your skills as a composer while also pursuing a broad liberal arts education, the Bachelor of Arts in music with an option in composition is the degree you should pursue. You'll study music theory and analysis, the history and literature of music, and world music and technical skills such as ear training and piano as you grow as a composer and performer.

Students wanting to declare composition as their option must submit a music portfolio in addition to an audition on their major instrument.

## Requirements

### Degree Requirements

**Minimum Credit Requirement:** 128 credits

**Minimum Residency Requirement:** 32 credits must be taken at UNH

**Minimum GPA:** 2.0 required for conferral\*

**Core Curriculum Required:** Discovery & Writing Program Requirements

**Foreign Language Requirement:** Yes

All Major, Option and Elective Requirements as indicated.

\*Major GPA requirements as indicated.

### Major Requirements

The Discovery Program capstone requirement is fulfilled by a final project or a public performance given during the senior year. For students in the composition option, there is a choice of completing a half lecture, half lecture-recital or a half recital including at least one original composition.

Candidates for a degree must satisfy all of the University Discovery Program requirements in addition to satisfying the requirements of each individual major program. Bachelor of arts candidates must also satisfy the foreign language proficiency requirement.

Major department courses may not be used to satisfy Discovery category requirements except in the case of a second major. B.A. in music majors may use MUSI 502 Musics in Context (a required core course for the major) to satisfy the Inquiry Discovery requirement.

Code	Title	Credits

Performing Ensemble: select from the following courses		8
MUSI 441, MUSI 442, MUSI 448, MUSI 450, MUSI 452, MUSI 453, MUSI 454, MUSI 455, MUSI 456, MUSI 457, MUSI 459, MUSI 460, MUSI 462, MUSI 463, MUSI 464		
Total Credits		26

Students in the composition option, if not in a lesson studio, will attend composition seminar.

## Student Learning Outcomes

- Demonstrate the ability to perform a specialization instrument or voice at an appropriate solo level and/or in small ensemble and large ensemble.
- Aurally identify, analyze, and work conceptually with the elements of music in a variety of musical styles.
- Students will demonstrate familiarity with musical literature from the formal concert repertory and from musical traditions outside of that repertory.
- Demonstrate the ability to develop and defend musical judgments in writing and in oral presentation.
- Demonstrate collegiate-level skills in the English language, competence in written and oral communication in English, and fluency in communicating and synthesizing musical, historical and analytical concepts in writing.
- Demonstrate the ability to create substantial original compositions for solo instrument(s), chamber ensemble, or large ensemble.
- Present at least one substantial original composition in performance of a lecture, lecture-recital, or recital.

## Music Major: Music Liberal Studies Option (B.A.)

<https://cola.unh.edu/music/program/ba/music-major-music-liberal-studies-option>

### Description

Students enrolling in the B.A. music liberal studies program — a program that stresses the development of skills in analysis, writing and critical thinking about a wide variety of musics and the larger connection with history, culture and society — are required to submit a writing sample and interview with one of the music liberal studies program faculty members. The writing sample should be non-fiction, preferably an assignment for a course in English, history or a similar subject, 500 words or more in length.

### Requirements

## Degree Requirements

<b>Total Credits</b>		<b>20</b>

<sup>1</sup> Any combination of advanced theory and history (12 credits) in addition to the core curriculum.

<sup>2</sup> Any combination of performance and/or ensemble study (8 credits total).

<sup>3</sup> MUSI 701 Topics in Music History is a rotational topics course and can be repeated.

## Student Learning Outcomes

- Demonstrate the ability to perform a specialization instrument or voice at an appropriate solo level and/or in small ensemble and large ensemble.
- Aurally identify, analyze, and work conceptually with the elements of music in a variety of musical styles.
- Students will demonstrate familiarity with musical literature from the formal concert repertory and from musical traditions outside of that repertory.
- Demonstrate the ability to develop and defend musical judgments in writing and in oral presentation.
- Demonstrate collegiate-level skills in the English language, competence in written and oral communication in English, and fluency in communicating and synthesizing musical, historical and analytical concepts in writing.
- Demonstrate the ability to conduct original research on music with faculty mentoring and independently.
- Demonstrate in writing the ability to integrate concepts from adjacent disciplines—history, aesthetics, sociology, cultural studies—with musical and stylistic analysis.

## Music Major: Performance Study Option (B.A.)

<https://cola.unh.edu/music/program/ba/music-major-performance-study-option>

### Description

The Bachelor of Arts in performance study degree is the program for you if you wish to develop your talent as a performer while also gaining a solid liberal arts education. You'll develop your musicianship through private study, chamber music and some of the best performing ensembles in the region. You'll be immersed in the study of music theory, history, literature and world music while sharpening your listening and performance skills. This program is recommended if you're considering graduate study leading to a master's or doctoral degree in music.

<sup>1</sup> 2 credits per semester

<sup>2</sup> Students in the Bachelor of Arts Performance program in the vocal track are required to complete 8 credits of ensemble; a maximum of 8 ensemble credits may be counted towards graduation. Students in this program are required to enroll in at least one ensemble in every semester of enrollment at UNH, including at least 4 credits of MUSI 441 Concert Choir, with the remaining ensemble credits as indicated drawn from MUSI 441 Concert Choir, MUSI 442 Chamber Singers, and MUSI 448 Vocal Arts Project.

Student Learning Outcomes

- Demonstrate the ability to perform a specialization instrument or voice at an appropriate solo level and/or in small ensemble and large ensemble.
- Aurally identify, analyze, and work conceptually with the elements of music in a variety of musical styles.
- Students will demonstrate familiarity with musical literature from the formal concert repertory and from musical traditions outside of that repertory.

- Demonstrate the ability to develop and defend musical judgments in writing and in oral presentation.
- Demonstrate collegiate-level skills in the English language, competence in written and oral communication in English, and fluency in communicating and synthesizing musical, historical and analytical concepts in writing.
- Demonstrate the ability to perform a specialization instrument or voice at the level of an advanced undergraduate student, or young professional, including a high level of technical and artistic competence, and to work independently in both solo practicing and small ensemble rehearsals.
- Demonstrate maturity in musical performance, using performance and liberal-arts tools and insights to create an artistic product.
- Students will plan, prepare, and perform a solo recital in collaboration with faculty and staff that includes both organizational elements and artistic preparation.

## Composition Major (B.M.)

<https://cola.unh.edu/music/program/bm/composition-major>

### Description

If you dream of writing inspiring music for bands, orchestras, choirs, films, video games or innovative chamber ensembles, then the Bachelor of Music in composition is for you. The music composition degree program at UNH builds on a core set of classes in music theory, analysis and history, and places heavy emphasis on composition and continuing to develop your skills as a performer. The major is recommended for students considering a professional career in composition or graduate study leading to an advanced degree.

### Requirements

## Degree Requirements

**Minimum Credit Requirement:** 128 credits

**Minimum Residency Requirement:** 32 credits must be taken at UNH

**Minimum GPA:** 2.0 required for conferral\*

**Core Curriculum Required:** Discovery & Writing Program Requirements

**Foreign Language Requirement:** No

All Major, Option and Elective Requirements as indicated.

\*Major GPA requirements as indicated.

## Major Requirements

All bachelor of music students are required to give a public performance during their senior year, which fulfills the Discovery Program capstone requirement:

- For students in the composition option, a full lecture, lecture-recital or recital including at least one original composition is required.

Candidates for a degree must satisfy all of the University Discovery Program requirements in addition to satisfying the requirements of each individual major program. B.M. in music majors may use MUSI 502 Musics in Context (a required core course for the major) to satisfy the

Inquiry Discovery category requirement, and MUSI 515 Music in World Cultures (a required core course for the major) to satisfy the World Cultures Discovery category requirement.

Performing Ensemble: select from the following courses		8

MUSI 441, MUSI 442, MUSI 448, MUSI 450, MUSI 452, MUSI 453, MUSI 454, MUSI 455, MUSI 456, MUSI 457, MUSI 459, MUSI 460, MUSI 462, MUSI 463, MUSI 464	
Total Credits	51-53

<sup>1</sup> This is in addition to the other 700-level theory classes outlined above.  
<sup>2</sup> This is in addition to the core required 700-level music history class.

Students in the bachelor of music in composition degree program may use a maximum of 8 ensemble credits toward graduation.

Students in the bachelor of music in composition degree are required to attend 8 semesters of composition seminar.

## Student Learning Outcomes

- Students will exhibit the skills necessary for artistic expression at the highest possible level as defined by their particular area of concentration in solo and small ensemble (not conducted) and large ensemble (conducted) settings.
- Students will exhibit competency in musicianship and analysis through: their understanding of musical forms and processes aural, verbal and visual analyses skill in performance, academic, pedagogical, and compositional applications rudimentary ability to create derivative or original music.
- Students will demonstrate familiarity with musical literature from the formal concert repertory and from musical traditions outside of that repertory. Students will demonstrate the ability to place music in historical, cultural, and stylistic contexts.
- Students will demonstrate collegiate-level skill in the English language and competence in written and oral communication in English.
- Demonstrate the ability to use technologies current to their area of specialization for professional development and entrepreneurship, and career preparation and promotion.
- Demonstrate skill in the use of standard concepts, tools, techniques, and procedures to develop a composition from concept to finished product.
- Manage a formal performance of a finished product.

## Music Education Major (B.M.)

<https://cola.unh.edu/music/program/bm/music-education-major>

### Description

The B.M. music education is the traditional program of choice for students seeking a career as a school music teacher. The bachelor of music degree in music education provides a route to undergraduate certification leading to state of New Hampshire teacher certification in music, grades K-12 (cert. #612.13). New Hampshire also participates in a reciprocal agreement with many other states: the Interstate Certification Compact.

Successful applicants must demonstrate a high degree of musical competence and promise of future growth as a performer. A firm commitment to leading school musicians to artistic success is expected, as is a willingness to acquire the breadth of skills required for K-12 music certification. Continuation in the B.M. music education program is

made with the recommendation of the appropriate faculty members and contingent upon personal commitment to the teacher licensure program.

Students interested in a five-year, bachelor/masters degree program typically complete the B.M pre-teaching (described elsewhere) as an undergraduate and apply to the UNH Department of Education for admission to the Master of Arts in Teaching (Secondary) degree program.

The four-year bachelor of music in music education curriculum is highly structured due to the number of required courses to complete. The requirements include a list of additional classes required to earn a degree and a certificate to teach. Students may elect a vocal/choral or instrumental emphasis.

## Requirements

### Degree Requirements

- Minimum Credit Requirement:** 128 credits
- Minimum Residency Requirement:** 32 credits must be taken at UNH
- Minimum GPA:** 2.0 required for conferral\*
- Core Curriculum Required:** Discovery & Writing Program Requirements

**Foreign Language Requirement:** No

All Major, Option and Elective Requirements as indicated.  
*\*Major GPA requirements as indicated.*

### Major Requirements

Students in music education must maintain an overall minimum 2.8 grade-point average at the time of application for student teaching (February 15 of junior year). Any education course taken for a teacher licensure requirement must be completed with a B- or better.

B.M. music education majors may use MUSI 501 The Western Musical Canon (a required core course for the major) to satisfy the Fine and Performing Arts Discovery category requirement. In addition, they may use MUSI 502 Musics in Context (a required core course for the major) to satisfy the Inquiry Discovery category requirement, and MUSI 515 Music in World Cultures (a required core course for the major) to satisfy the World Cultures Discovery category requirement.

All bachelor of music students are required to give a public performance during their senior year, which fulfills the Discovery Program capstone requirement:

- For students in the music education option, a half recital is required.

EDUC 701	Human Development & Learning: Cultural Perspectives	4
EDUC 751B	Methods of Inclusive Secondary Education: Literacies, Learning, and Transitions	4
EDUC 694	Courses in Supervised Teaching	8
<b>Total Credits</b>		<b>66-67</b>

<sup>1</sup> Vocal track students take 2 credits. Instrumental track students take 3 credits.

<sup>2</sup> Required for Vocal track.

<sup>3</sup> Required for Instrumental track.

<sup>4</sup> Required for Vocal track.

<sup>5</sup> Students in the Bachelor of Music Education program are required to complete 8 credits of ensemble; a maximum of 8 ensemble credits may be counted towards graduation. Students will enroll in one conducted ensemble (MUSI 450 Symphony, MUSI 452 Wind Symphony, MUSI 453 Symphonic Band, MUSI 441 Concert Choir, MUSI 442 Chamber Singers, MUSI 460 Jazz Band, MUSI 454 UNH Marching Band) in every semester of their enrollment at UNH except for their student-teaching semester. To compensate, they will enroll in two ensembles during a previous semester.

6 of these required ensembles must be on the student's primary instrument and 4 credits must be in a traditional conducted ensemble (MUSI 450 Symphony, MUSI 452 Wind Symphony, MUSI 453 Symphonic Band, MUSI 441 Concert Choir). For instrumentalists, at least 1 semester of participation in MUSI 454 UNH Marching Band) and MUSI 460 Jazz Band are highly desirable.

<sup>6</sup> Guitar music education majors will take four semesters of MUSI 464 Guitar Ensemble and four semesters of a traditional conducted ensemble (MUSI 450 Symphony, MUSI 452 Wind Symphony, MUSI 453 Symphonic Band, MUSI 441 Concert Choir). Therefore, guitarists have a minimum of only 4 semesters required on their primary instrument.

<sup>7</sup> Piano music education majors will take four semesters of MUSI 455 Collaborative Piano and four semesters of a traditional conducted ensemble (MUSI 450 Symphony, MUSI 452 Wind Symphony, MUSI 453 Symphonic Band, MUSI 441 Concert Choir). Therefore, pianists have a minimum of only 4 semesters required on their primary instrument.

## Junior Standing in Music Education

Recognition of adequate completion of fundamental academic and musical competencies shall earn students declared for the Bachelor of Music: Music Education the title Junior Standing. Students will not receive permission to register for the upper-level music education methods courses (MUED 765, MUED 790, MUED 791) without such recognition. Two of the steps required for recognition are the submission of passing scores on the PRAXIS: Core Academic Skills for Educators tests (scores will be sent directly to the Department of Education) and clearance of the Criminal Background Check as conducted by the State of New Hampshire Department of Safety. Results will be sent directly to the music education coordinator in the Department of Music. There is a charge for each of these steps assessed by the providers. Current students may follow the catalog corresponding to their matriculation year or follow the proposed changes.

### Junior Standing Requirements

1. Criminal Background Check
2. Academic Standing
  - a. 2.8 overall grade point average
  - b. Pass PRAXIS Core Academic Skills for Educators Test
3. Aural Skills: Complete MUSI 574 Ear Training II with a grade of C- or better and a departmental followup assessment
4. Music Performance Skills
  - a. Pass Sophomore Performance Jury with a grade of C- or better
  - b. Perform for at least 3 semesters as a regular member of at least one of the designated core ensembles
  - c. Complete MUSI 576 Functional Piano II with a C- or better and a departmental followup assessment
5. Complete EDUC 500 Exploring Teaching and a departmental followup assessment

Student Learning Outcomes

- Students will exhibit the skills necessary for artistic expression at the highest possible level as defined by their particular area of concentration in solo and small ensemble (not conducted) and large ensemble (conducted) settings.
- Students will exhibit competency in musicianship and analysis through: their understanding of musical forms and processes aural, verbal and visual analyses skill in performance, academic, pedagogical, and compositional applications rudimentary ability to create derivative or original music.
- Students will demonstrate familiarity with musical literature from the formal concert repertory and from musical traditions outside of that repertory. Students will demonstrate the ability to place music in historical, cultural, and stylistic contexts.
- Students will demonstrate collegiate-level skill in the English language and competence in written and oral communication in English.
- Demonstrate the ability to use technologies current to their area of specialization for professional development and entrepreneurship, and career preparation and promotion.
- Students demonstrate ability to lead students to increased musical knowledge and advancing musical performance.
- Students demonstrate knowledge of age-appropriate vocal and instrumental pedagogy.
- Students demonstrate an understanding of best practices and applicable learning theories in music education.
- Students demonstrate the ability to prepare classes and rehearsals via score study and lesson planning that includes awareness of needed modifications.
- Students aurally discern accuracy and expressive elements in student performances.
- Students demonstrate the ability to assess their pupils' learning and progress in conjunction with best educational practices.
- Students are able to assess the success of their own class teaching and rehearsals.

Performance Major (B.M.)

<https://cola.unh.edu/music/program/bm/performance-major>

Description

The Bachelor of Music in performance degree is the program for you if you wish to focus intensively on developing your skills as a performer. This program places heavy emphasis on performance study and is great preparation for master and doctoral degree programs. You'll develop your musicianship through private study, chamber music and some of the best performing ensembles in the region. You'll be immersed in the study of music theory, history, literature and world music while sharpening your listening and performance skills.

Requirements

Degree Requirements

Minimum Credit Requirement: 128 credits

Minimum Residency Requirement: 32 credits must be taken at UNH

- <sup>1</sup> Three credits of lessons each semester until the student's senior recital semester; then it is 4 credits.
- <sup>2</sup> Four credits must be MUSI 441 Concert Choir; the remaining 4 credits must be MUSI 441 Concert Choir, MUSI 442 Chamber Singers, or MUSI 448 Vocal Arts Project.
- <sup>3</sup> Students in the Bachelor of Music Performance program in the vocal track are required to complete 8 credits of ensemble. Students in this program are required to enroll in at least one ensemble in every semester of enrollment at UNH, including at least 4 credits of MUSI 441 Concert Choir, with the remaining credits coming from MUSI 441 Concert Choir, MUSI 442 Chamber Singers, and MUSI 448 Vocal Arts Project.

## Bachelor of Music in Performance (Piano)

Degree program has final approval from the National Association of Schools of Music.

Code	Title	Credits
MUSI 791	Music Internship II	2-4
MUED 743	Materials and Methods in Piano Music	2
Select one of the following: <sup>1</sup>		3
MUSI #771	Counterpoint	
MUSI 781W	Analysis: Form and Structure	
Select 3 credits of the following: <sup>2</sup>		3
MUSI 775	Composition	
MUSI 776	Composition	
MUSI 777	Advanced Composition	
MUSI 779	Reading and Writing Musical Scores	
Any 700-level advanced music history or advanced music theory course <sup>2</sup>		3
MUSI 795	Special Studies (Topic V) advanced piano pedagogy)	2
MUSI 795	Special Studies (Topic E) piano literature)	1-2
MUSI 455	Collaborative Piano <sup>3</sup>	4
MUSI 541/741	Piano (piano lessons) <sup>4</sup>	25

Performing Ensemble: select from the following <sup>5</sup>	4
MUSI 441, MUSI 442, MUSI 448, MUSI 450, MUSI 452, MUSI 453, MUSI 454, MUSI 455, MUSI 456, MUSI 457, MUSI 459, MUSI 460, MUSI 462, MUSI 463, MUSI 464	
<b>Total Credits</b>	<b>49-52</b>

- <sup>1</sup> A B.M. piano performance major must take both MUSI #771 Counterpoint and MUSI 781W Analysis: Form and Structure.
- <sup>2</sup> A B.M. piano performance major must take an additional 700-level music history or music theory course.
- <sup>3</sup> This course will be taken a total of 4 times.
- <sup>4</sup> Three credits of lessons each semester until the semester of the senior recital; then it is 4 credits.
- <sup>5</sup> Students in the Bachelor Music Performance program, Piano are required to complete 8 credits of ensemble: 4 of these credits in MUSI 455 Collaborative Piano and 4 of these credits in a conducted ensemble (MUSI 450 Symphony, MUSI 452 Wind Symphony, MUSI 453 Symphonic Band, MUSI 441 Concert Choir, MUSI 442 Chamber Singers, MUSI 460 Jazz Band, MUSI 454 UNH Marching Band).

## Bachelor of Music in Performance (All other Instruments)

Degree program has final approval from the National Association of Schools of Music.

Code	Title	Credits
MUSI 791	Music Internship II	2-4
Techniques & Methods: select from the following <sup>1</sup>		2-3
MUED 745	Techniques and Methods in String Instruments	
MUED 747	Techniques and Methods in Woodwind Instruments	
MUED 749	Techniques and Methods in Brass Instruments	
MUED 751	Techniques and Methods in Percussion Instruments	
Select 3 credits of MUSI 700-level Advanced Music History or Advanced Music Theory <sup>2</sup>		3
Performance Study (Applied Lessons): select from the following <sup>3</sup>		25
MUSI 541, MUSI 545, MUSI 546, MUSI 547, MUSI 548, MUSI 549, MUSI 550, MUSI 551, MUSI 552, MUSI 553, MUSI 554, MUSI 555, MUSI 556, MUSI 557, MUSI 558, MUSI 559, MUSI 560, MUSI 561, MUSI 562, MUSI 563, MUSI 564, MUSI 741, MUSI 745, MUSI 746, MUSI 747, MUSI 748, MUSI 749, MUSI 751, MUSI 752, MUSI 753, MUSI 754, MUSI 755, MUSI 756, MUSI 757, MUSI 758, MUSI 759, MUSI 760, MUSI 761, MUSI 762, MUSI 763, MUSI 764		
Performing Ensemble: select from the following <sup>4, 5</sup>		12
MUSI 441, MUSI 442, MUSI 448, MUSI 450, MUSI 452, MUSI 453, MUSI 454, MUSI 455, MUSI 456, MUSI 457, MUSI 459, MUSI 460, MUSI 462, MUSI 463, MUSI 464		
<b>Total Credits</b>		<b>44-47</b>

- <sup>1</sup> B.M. instrumental performance majors take one methods class in the appropriate instrumental family, e.g., a trumpet player would take MUED 749 Techniques and Methods in Brass Instruments, to fulfill this requirement.
- <sup>2</sup> This is in addition to the advanced music history and advanced music theory class already required.
- <sup>3</sup> Three credits of lessons are taken each semester until the student's senior recital semester; then it is 4 credits.
- <sup>4</sup> Students in the Bachelor of Music Performance program in the instrumental track for all instruments except piano are required to complete 12 credits of ensemble. Students in this program are required to enroll in at least one ensemble in every semester of enrollment at UNH, at least 6 of which must be on their primary instrument. Further, instrumentalists specializing in woodwind, brass, string, or percussion instruments should enroll in one credit of a conducted ensemble (MUSI 450 Symphony, MUSI 452 Wind Symphony, MUSI 453 Symphonic Band, MUSI 441 Concert Choir, MUSI 442 Chamber Singers, MUSI 460 Jazz Band, MUSI 454 UNH Marching Band) in every semester of enrollment.

Student Learning Outcomes

- Students will exhibit the skills necessary for artistic expression at the highest possible level as defined by their particular area of concentration in solo and small ensemble (not conducted) and large ensemble (conducted) settings.
- Students will exhibit competency in musicianship and analysis through: their understanding of musical forms and processes aural, verbal and visual analyses skill in performance, academic, pedagogical, and compositional applications rudimentary ability to create derivative or original music.
- Students will demonstrate familiarity with musical literature from the formal concert repertory and from musical traditions outside of that repertory. Students will demonstrate the ability to place music in historical, cultural, and stylistic contexts.
- Students will demonstrate collegiate-level skill in the English language and competence in written and oral communication in English.
- Demonstrate the ability to use technologies current to their area of specialization for professional development and entrepreneurship, and career preparation and promotion.
- Students will demonstrate an understanding of the fundamentals of pedagogy as required in the particular field of study.
- Students in vocal studies will demonstrate competencies in diction and language, as well as interpretive skills, physicality, and stage deportment.
- Students will plan, prepare, and perform a solo recital in collaboration with faculty and staff that includes both organizational elements and artistic preparation.

Pre-Teaching Major (B.M.)

<https://cola.unh.edu/music/program/bm/pre-teaching-major>

Description

The B.M. pre-teaching degree is the program of choice for most students seeking a five-year, combined bachelor's and master's degree program that includes certification to teach music in the public schools. Students will complete all of the skill and knowledge content requirements in this undergraduate program leaving a year-long internship and some advanced study in music and education for the fifth year.

Students applying to the Master of Arts in Teaching program need a cumulative undergraduate grade point average of 3.2 or better to ensure admission to the graduate school. Therefore, students typically apply first to UNH as a B.M. music education major and switch to this B.M. pre-teaching degree in their junior or senior year.

Requirements

Degree Requirements

Minimum Credit Requirement: 128 credits

Minimum Residency Requirement: 32 credits must be taken at UNH

Minimum GPA: 2.0 required for conferral\*

Core Curriculum Required: Discovery & Writing Program Requirements

Foreign Language Requirement: No

All Major, Option and Elective Requirements as indicated.  
\*Major GPA requirements as indicated.

Major Requirements

Candidates for a degree must satisfy all of the University Discovery Program requirements in addition to satisfying the requirements of the major. B.M. in music majors may use MUSI 502 Musics in Context to satisfy the Inquiry Discovery category requirement, and MUSI 515 Music in World Cultures to satisfy the World Cultures Discovery category requirement. Additionally, B.M. music education and pre-teaching majors may use MUSI 501 The Western Musical Canon to satisfy the Fine and Performing Arts Discovery category requirement.

All bachelor of music students are required to give a public performance during their senior year, which fulfills the Discovery Program capstone requirement: for students in the pre-teaching option, a half recital is required.

Code	Title	Credits
Core Curriculum		
MUSI 471 & MUSI 472	Theory I and Theory I	6
MUSI 473 & MUSI 474	Ear Training I and Ear Training I	2
MUSI 475 & MUSI 476	Functional Piano I and Functional Piano I <sup>1</sup>	2
MUSI 571 & MUSI 572	Theory II and Theory II	6
MUSI 573 & MUSI 574	Ear Training II and Ear Training II	2
MUSI 575 & MUSI 576	Functional Piano II and Functional Piano II <sup>1</sup>	2
MUSI 501 & MUSI 502	The Western Musical Canon and Musics in Context	6
MUSI 515	Music in World Cultures	4
MUSI 540	Recital Attendance	0
MUSI 691	Music Internship I	1-2
MUSI 731	Conducting	2
Select one of the following:		3
MUSI 701	Topics in Music History	
MUSI 713	Art Song	
MUSI #715	Survey of Opera	
Select one of the following:		3
MUSI #771	Counterpoint	
MUSI 781W	Analysis: Form and Structure	
Performance Study (Applied Lessons): select from the following courses		Variable
MUSI 541, MUSI 545, MUSI 546, MUSI 547, MUSI 548, MUSI 549, MUSI 550, MUSI 551, MUSI 552, MUSI 553, MUSI 554, MUSI 555, MUSI 556, MUSI 557, MUSI 558, MUSI 559, MUSI 560, MUSI 561, MUSI 562, MUSI 563, MUSI 564, MUSI 741, MUSI 745, MUSI 746, MUSI 747, MUSI 748, MUSI 749, MUSI 751, MUSI 752, MUSI 753, MUSI 754, MUSI 755, MUSI 756, MUSI 757, MUSI 758, MUSI 759, MUSI 760, MUSI 761, MUSI 762, MUSI 763, MUSI 764		
Performing Ensemble: select from the following courses		Variable
MUSI 441, MUSI 442, MUSI 448, MUSI 450, MUSI 452, MUSI 453, MUSI 454, MUSI 455, MUSI 456, MUSI 457, MUSI 459, MUSI 460, MUSI 462, MUSI 463, MUSI 464		
Total Credits		39-40

<sup>1</sup> Students will be given the opportunity to test out of MUSI 471 Theory I, MUSI 475 Functional Piano I, MUSI 476 Functional Piano I and MUSI 575 Functional Piano II, MUSI 576 Functional Piano II.

# Bachelor of Music Pre-Teaching Curriculum

Degree program has final approval from the National Association of Schools of Music.

Code	Title	Credits
MUED 741	Techniques and Methods in Choral Music	2

MUSI 541, MUSI 545, MUSI 546, MUSI 547, MUSI 548, MUSI 549, MUSI 550, MUSI 551, MUSI 552, MUSI 553, MUSI 554, MUSI 555, MUSI 556, MUSI 557, MUSI 558, MUSI 559, MUSI 560, MUSI 561, MUSI 562, MUSI 563, MUSI 564, MUSI 741, MUSI 745, MUSI 746, MUSI 747, MUSI 748, MUSI 749, MUSI 751, MUSI 752, MUSI 753, MUSI 754, MUSI 755, MUSI 756, MUSI 757, MUSI 758, MUSI 759, MUSI 760, MUSI 761, MUSI 762, MUSI 763, MUSI 764		
Performing Ensemble: select from the following courses <sup>5, 6, 7</sup>		8
MUSI 441, MUSI 442, MUSI 448, MUSI 450, MUSI 452, MUSI 453, MUSI 454, MUSI 455, MUSI 456, MUSI 457, MUSI 459, MUSI 460, MUSI 462, MUSI 463, MUSI 464		
EDUC 500	Exploring Teaching	4
EDUC 605	Educational Perspectives in Critical Times	4
EDUC 701	Human Development & Learning: Cultural Perspectives	4
EDUC 751B	Methods of Inclusive Secondary Education: Literacies, Learning, and Transitions	4
<b>Total Credits</b>		<b>58-59</b>

<sup>1</sup> Vocal track students take 2 credits. Instrumental track students take 3 credits.

<sup>2</sup> Required for Vocal track.

<sup>3</sup> Required for Instrumental track.

<sup>4</sup> Required for Vocal track.

<sup>5</sup> Students in the Bachelor of Music Education program are required to complete 8 credits of ensemble; a maximum of 8 ensemble credits may be counted towards graduation. Students will enroll in one conducted ensemble (MUSI 450 Symphony, MUSI 452 Wind Symphony, MUSI 453 Symphonic Band, MUSI 441 Concert Choir, MUSI 442 Chamber Singers, MUSI 460 Jazz Band, MUSI 454 UNH Marching Band) in every semester of their enrollment at UNH.

6 of these required ensembles must be on the student's primary instrument and 4 credits must be in a traditional conducted ensemble (MUSI 450 Symphony, MUSI 452 Wind Symphony, MUSI 453 Symphonic Band, MUSI 441 Concert Choir). For instrumentalists, at least 1 semester of participation in MUSI 454 UNH Marching Band) and MUSI 460 Jazz Band are highly desirable.

<sup>6</sup> Guitar music education majors will take four semesters of MUSI 464 Guitar Ensemble and four semesters of a traditional conducted ensemble (MUSI 450 Symphony, MUSI 452 Wind Symphony, MUSI 453 Symphonic Band, MUSI 441 Concert Choir). Therefore, guitarists have a minimum of only 4 semesters required on their primary instrument.

<sup>7</sup> Piano music education majors will take four semesters of MUSI 455 Collaborative Piano and four semesters of a traditional conducted ensemble (MUSI 450 Symphony, MUSI 452 Wind Symphony, MUSI 453 Symphonic Band, MUSI 441 Concert Choir). Therefore, pianists have a minimum of only 4 semesters required on their primary instrument.

## Student Learning Outcomes

- Students will exhibit the skills necessary for artistic expression at the highest possible level as defined by their particular area of concentration in solo and small ensemble (not conducted) and large ensemble (conducted) settings.
- Students will exhibit competency in musicianship and analysis through: their understanding of musical forms and processes aural, verbal and visual analyses skill in performance, academic, pedagogical, and compositional applications rudimentary ability to create derivative or original music.
- Students will demonstrate familiarity with musical literature from the formal concert repertory and from musical traditions outside of that repertory. Students will demonstrate the ability to place music in historical, cultural, and stylistic contexts.
- Students will demonstrate collegiate-level skill in the English language and competence in written and oral communication in English.
- Demonstrate the ability to use technologies current to their area of specialization for professional development and entrepreneurship, and career preparation and promotion.
- Students demonstrate ability to lead students to increased musical knowledge and advancing musical performance.
- Students demonstrate knowledge of age-appropriate vocal and instrumental pedagogy.
- Students demonstrate an understanding of best practices and applicable learning theories in music education.
- Students demonstrate the ability to prepare classes and rehearsals via score study and lesson planning that includes awareness of needed modifications.
- Students aurally discern accuracy and expressive elements in student performances.
- Students demonstrate the ability to assess their pupils' learning and progress in conjunction with best educational practices.
- Students are able to assess the success of their own class teaching and rehearsals.

## Music Minor

<https://cola.unh.edu/music/program/minor/music>

## Description

A music minor is a great option for students who are passionate about the discipline of music but choose to major in another field. The minor includes required coursework in music theory and literature.

## Requirements

All students wishing to receive a minor in music must complete a minimum of 20 credits of coursework in music, of which the following are required:

Code	Title	Credits
Select one of the following options:		8
Option A:		

MUSI 471 & MUSI 472 & MUSI 473 & MUSI 474	Theory I and Theory I and Ear Training I and Ear Training I
Option B:	
MUSI 411 & MUSI 412	Fundamentals of Music Theory and Fundamentals of Music Theory
Select two of the following:	
MUSI 401	Introduction to Music
MUSI 402	Historical Survey of Western Classical Concert Music
MUSI 403	Roots of Rock
MUSI 404	An Introduction to Music, Media, and the Moving Image
MUSI 405	Survey of Music in America
MUSI 444	Music and Social Change
MUSI 501	The Western Musical Canon
MUSI 502	Music in Context
MUSI 515	Music in World Cultures
Select 4 credits of MUSI electives	
Total Credits	

# Native American and Indigenous Studies (NAIS)

## Programs

- [Native American and Indigenous Studies Minor](#) (p. 264)

# Native American and Indigenous Studies Minor

<https://cola.unh.edu/interdisciplinary-studies/program/minor/native-american-indigenous-studies>

## Description

As an interdisciplinary minor, Native American and Indigenous studies (NAIS) offers a broad understanding of the history, lands, culture, literature, language and artistic expression, science and technology, race and identity, and social organization and political statuses of Native American and Indigenous peoples within and beyond North America. The minor provides an introduction to Indigenous values and a basis for understanding broad Indigenous issues.

NAIS complements a range of majors, including anthropology, English, history, political science, health and human services, music, psychology, biology, botany, natural resources and sustainability. The UNH Education Abroad program offers a variety of opportunities to UNH students to explore the NAIS minor overseas.

The minor will help students acquire the necessary skills and qualifications for a variety of graduate study and employment opportunities and enhance competitiveness for federal scholarships and programs, such as the Peace Corps, Teach for America or the National Parks Service. Students with NAIS training will be prepared for work with Tribal and Indigenous leaders and officials, public health practitioners and administrators, and/or working with institutions that require employees with cultural and historical sensitivity to Indigenous issues, such as museums or other public institutions. NAIS graduates may also go on to careers with organizations with Indigenous interests in the areas of education, business, arts, government and law, nonprofit and advocacy, and healthcare and science (e.g., the Native American

Rights Fund, Native American Arts Council, American Indian Science and Engineering Society).

## Requirements

20 credits (5 courses) are required for the minor. Students must receive a grade of C or better in each course in order for the course to count toward the minor requirements.

**Choose one** of the following two options to complete the minor requirements.

Code	Title	Credits
Option 1		
NAIS 400	Introduction to Native American and Indigenous Studies <sup>1</sup>	4
4 elective courses chosen from the list of approved courses below		16
Total Credits		20
Code	Title	Credits
Option 2		
NAIS 400	Introduction to Native American and Indigenous Studies <sup>1</sup>	4
3 elective courses chosen from the list of approved electives below <sup>2</sup>		12
1 independent study or credit-bearing internship (HIST 695 or ANTH 700 or other option approved by coordinator)		4
Total Credits		20

<sup>1</sup> Also fulfills World Cultures Discovery requirement  
<sup>2</sup> 2 of these courses can be from a UNH-approved education abroad program (see below)

## Approved Electives

Code	Title	Credits
AMST 444C	Picturing America: The Arts & Social Change	4
ANTH 500	Peoples and Cultures of the World (A: North America and B: Latin America)	4
ANTH 501	World Archaeological Cultures (A: North America B: Mesoamerica)	4
ANTH 513	Ethnographic Methods	4
ANTH 514	Method and Theory in Archaeology	4
ANTH 597	Special Topics (on an approved topic)	4
ANTH 620	Ritual and Religion of Ancient Mesoamerica	4
ANTH 785	The Anthropology of Dreams and Dreaming	4
BIOL 408	Plants and Civilization	4
ENGL 440A	On Race in Culture and Society	4
ENGL 550	Introduction to the Literature and Culture of Race	4
ENGL 729	Special Topics in Composition Studies (on an approved topic)	4
ENGL 739	American Indian Literature	4
HIST 405	History of Early America	4
HIST 511	History of New Hampshire	4
HIST 532	Modern Latin America	4
HIST 595	Explorations (on an approved topic)	1-4
HIST 600	Explorations (on an approved topic)	4
HIST 603	European Conquest of North America	4
HIST 632	Latin American History: Topics	4
MUSI 515	Music in World Cultures	4
NR 660	Ecology and Biogeography of New Zealand	5
NR 795	Investigations (on an approved topic)	1-4
PSYC 581	Child Development	4
PSYC 791W	Special Topics (on an approved topic)	4
WS 505	Survey in Women's Studies (on an approved topic)	4

## NAIS UNH-Approved Study Abroad Programs

Thailand-TEAN-Chang Mai; CIEE Khon Kaew

USAC-Southwest Minzu University (Southwest Universities for Nationalities). Among the courses offered:

- Buddhism and Culture (ANTH/SOC)
- Tibetan Culture and Society (ANTH/SOC)
- Guizhou Field Study (ANTH/WLL, 200-level, 1 credit)

Morocco - IES & CIEE. Courses offered:

- Gender and Society in North Africa and Beyond
- North African Cultural Identities
- Internship/Social Action Seminar
- Islam In Morocco And North Africa (English-taught)
- Arab Media and Issues of Politics and Culture

New Zealand - Otago. Courses offered:

- Maori Studies

Peru - SIT: Indigenous Peoples and Globalization. Courses offered:

- History of Indigenous Cultures in Peru
- Indigenous Peoples in Motion: Changes, Resistance, and Globalization
- Quechua
- Research Methods and Ethics
- Independent Study Project

Senegal -CIEE. Courses offered:

- Contemporary Senegalese Society and Culture
- Intercultural Communication and Leadership (English)
- Environment and Development in Senegal and Sub-Saharan Africa (English)
- Public Health Issues and Challenges in West Africa

Tanzania-CIEE. Courses offered:

- Kiswahili
- Field Research Seminar
- Pre-History, Myths, Legends, and Beliefs of East Africa
- Contemporary Educational Issues in East Africa
- Gender and Development
- History of East Africa
- Poverty Analysis for Socio-economic Development

Bhutan -API at Royal Thimphu College with internship. Courses offered:

- Anthropology of the Himalayas
- Ethnography of Bhutan
- Anthropology of Identity
- Anthropology of Gender
- Kinship and Family
- ASC201: Anthropology of Globalization
- ASC301: Anthropology of Development

- ASC303: Applied Anthropology
- ASC304: Contemporary Issues in Anthropology
- ATH101: Ecological Anthropology
- ATH102: Medical Anthropology
- ATH203: History and Theory of Anthropology
- ATH204: Political Anthropology
- ATH305: Anthropology of Religion and Rituals

## Neuroscience and Behavior (NSB)

Neuroscience is one of the fastest-growing scientific fields, and the discoveries that are being made today are having an immediate and significant impact on our society. The importance of understanding animal behavior is likewise increasing, particularly in the face of a rapidly-changing environment. The B.S. in Neuroscience and Behavior is a great way for students to combine interests in neurobiology and animal behavior. The curriculum prepares students for various post-graduate degrees, including medical, veterinary, and graduate school, and we offer students a variety of opportunities to get hands-on research experience.

<https://cola.unh.edu/psychology/program/bs/neuroscience-behavior-major>

### Programs

- [Neuroscience and Behavior Major \(B.S.\)](#) (p. 265)

### Faculty

**College of Life Sciences & Agriculture Faculty**

<https://colsa.unh.edu/biological-sciences/people>

## Neuroscience and Behavior Major (B.S.)

<https://cola.unh.edu/psychology/program/bs/neuroscience-behavior-major>

### Description

The major in neuroscience and behavior (NSB) offers an interdisciplinary approach to human and non-human behavior, focusing on the evolution and adaptiveness of certain behaviors, as well as their underlying neural mechanisms. Students who have always been fascinated by how the brain functions will be well served by this major, as will those who love wild animals and wish to better understand their behavior. The B.S. in neuroscience and behavior is based on a solid foundation in biology, chemistry, physics, statistics, and genetics (foundation courses). These are followed by a two-semester course sequence that covers the fundamentals of neuroscience and behavior. Students can then pick five or more electives focusing on areas of interest.

NSB students are encouraged to take advantage of research experiences in the laboratories of the psychology and biology faculty in the program. This provides valuable experience with cutting-edge equipment and techniques. Some students may share aspects of a larger project,

whereas others may be relatively independent and design their own project under supervision. In either case, important skills are gained by the discipline of gathering data, analyzing and interpreting it, and presenting it to a broader audience.

The curriculum provides most of the requirements and recommended courses for students seeking admission to graduate school and to professional schools in medicine and veterinary medicine. Students who might choose not to go on to advanced degrees are well-prepared for employment as skilled technicians in research laboratories or, if their interests are in animal behavior, as field research assistants or animal trainers. With additional courses in education, the B.S. in NSB also qualifies graduates to teach at the elementary, junior high, and high school levels.

Faculty participating in the NSB major combine a love of teaching and student mentoring with a passion for research, and encourage student participation. Research facilities that students can use include the Integrative Animal Behavior and Ecoacoustics laboratory, the confocal imaging center, the Hubbard Center for Genomic Studies, and the many marine, freshwater, and estuarine laboratories associated with UNH programs. Students can also take summer courses at the Shoals Marine Laboratory.

Requirements

Degree Requirements

Minimum Credit Requirement: 128 credits

Minimum Residency Requirement: 32 credits must be taken at UNH

Minimum GPA: 2.0 required for conferral\*

Core Curriculum Required: Discovery & Writing Program Requirements

Foreign Language Requirement: No

All Major, Option and Elective Requirements as indicated.  
\*Major GPA requirements as indicated.

Major Requirements

Students majoring in NSB are required to take foundation courses in basic science, core courses, and five electives from an extensive list of courses, including some offered by other departments including biochemistry, molecular and cellular biology, and natural resources. Minimum grade of D- or better is required in CHEM 403, CHEM 404, CHEM 545/CHEM 546, and PHYS 401; minimum grade of C- or better is required in all other courses. Finally, a capstone experience is required. This may be independent research, an advanced seminar, or other special student activity. It is meant to integrate prior experience and take the student to a new level in an area of special interest.

Code	Title	Credits
NSB Foundation courses		
NSB 400	Topics Neuroscience & Behavior	1
BIOL 411 & BIOL 412	Introductory Biology: Molecular and Cellular and Introductory Biology: Evolution, Biodiversity and Ecology (2 semesters)	8

795/796 or 799	Independent Study, (C) <sup>2</sup>	
Capstone <sup>3</sup>		
Total Credits		69-71

<sup>1</sup> Both must be taken to count as one of the 5 required major electives

<sup>2</sup> One experience totaling at least 4 credits, but can be earned over the course of two consecutive semesters provided the experience is with the same research mentor. Can only substitute for one elective.

<sup>3</sup> Courses that are eligible to fulfill the Capstone requirement are indicated with a (C) and must be taken senior year. You can: 1) designate a course as a Capstone course, with additional requirements as determined by the instructor; 2) complete one semester of Capstone Research (BIOL 795, PSYC 795, or INCO 790); 3) do an honors thesis in Neuroscience and Behavior (NSB 799H) or Biology or Psychology (BIOL 799H or PSYC 797/PSYC 799) or; 4) participate in an alternative activity with approval from the student’s academic advisor.

NSB majors may use BIOL 411, BIOL 412, CHEM 403, CHEM 404, PHYS 401, PHYS 407 and either PSYC 402 or BIOL 528 to fulfill the Biological Sciences, Physical Sciences, Discovery Lab, and Quantitative Reasoning Discovery requirements. Students transferring into the NSB program from other UNH majors must hold a cumulative GPA of at least 3.2 at the time of requested major change.

## Student Learning Outcomes

Students demonstrate that they understand basic principles of neuroscience and behavior.

- Apply the core principles of biology, chemistry, physics, and statistics to more advanced concepts in neuroscience and behavior.
- Apply the principles of evolution and genetics to understand how genotype and phenotype affect the structure and function of animal nervous systems and behavior.
- Describe the basic features of animal nervous system development, organization, signaling, integration, and higher-level processing, and how these are altered in diseases of the nervous system.
- Explain the four levels of analysis emphasized in modern animal behavior research: causation, development, function, and evolution.
- Describe molecular and cellular approaches to the study of brain structure, function, and development, as well as behavioral and cognitive neuroscience approaches to studying higher level brain functions.

Students demonstrate that they can undertake scientifically valid methods of inquiry.

- Apply appropriate research methods, laboratory techniques, and statistical methods to investigate scientific questions in neuroscience and behavior.

Students demonstrate that they can think critically and analytically.

- Read and critique primary research literature related to the nervous system, how nervous system function generates behavior, and how behavior addresses fitness-related challenges across a diversity of species.

Students demonstrate that they can communicate effectively.

- Demonstrate scientific writing skills, and proficiency in delivering oral presentations related to both the primary literature and findings from student investigations in neuroscience and behavior.

Students practice science responsibly and ethically, and acknowledge the influence of cultural and historical biases in the sciences.

## Philosophy (PHIL)

Philosophy has always been at the heart of liberal education, deepening and enriching the lives of those who pursue it. The philosophy major provides students with the opportunity to confront a wide variety of questions, especially those that cannot be dealt with in the framework of other disciplines. Such questions include those about the ultimate nature of reality: Does God exist? Are minds distinct from bodies? Are there more things between heaven and Earth than are dreamed of in science? Other questions probe what it is to know: Do we know that material bodies external to our minds exist? What does it mean to justify a belief? Still other questions are about how we ought to be or act: What is a good

person? Are there moral rules? How are they justified? Must we obey them?

Philosophy also concerns itself with other disciplines: What makes something a work of art? What distinguishes a scientific theory from a religious theory or myth? Is capitalism amoral? Is legal authority moral or political?

The Department of Philosophy offers a wide range of courses exposing students to the full scope of philosophical activity. Grappling with major primary texts from the history of philosophy is an important emphasis of the program, for philosophy today is the continuation of a conversation that extends back to the ancient Greeks and the Vedic scriptures. Philosophy also always has wrestled with cutting-edge topics emerging in the current culture. Some recent examples are: What are the prospects for machines with mental lives? What are the implications of new views in cosmology? How do we handle the pressing ethical dilemmas brought on by emerging medical technologies, or by the historically unparalleled rate of destruction of the Earth's environment? Are gender and race socially constructed concepts rather than biological concepts?

## Options in the Major

Students may select one of three options for the philosophy major, but are not required to do so. The options do not add additional requirements to the general philosophy major, but rather focus philosophy electives in a specific area.

- The [ethics and social responsibility \(ESR\) option](#) provides official recognition for those who choose to emphasize concern with moral responsibility in personal and social contexts, including the political and corporate arenas. You will choose courses in environmental ethics, law, evolution, social and political philosophy, and feminism.
- The [business, innovation, and technology \(BIT\) option](#) provides official recognition for those who choose to emphasize the study of the relationships between markets, technology, and human well-being. You will choose courses in the philosophy of artificial intelligence, evolution, neuroscience, biotechnology, business ethics, economic policy, environmental ethics and other high-impact subjects.
- The [political and legal philosophy \(PLP\) option](#) provides official recognition for those who choose to emphasize the systematic study of the fundamental philosophical questions regarding politics, law and justice, and how they apply to contemporary issues. You will choose courses in the nature of justice, limits of state power, balancing liberty and equality, capitalism vs. socialism, authoritarian challenges to democracy, fascism and antifascism, privacy, freedom of expression, police ethics, justifications for punishment, racial and gender injustice, wealth inequality and crime, immigration, and other issues at the interface of ethics, justice, law and states.

## Research

Students are strongly encouraged to consider the possibility of presenting research at the [Philosophy Department Undergraduate Research Conference](#) and/or fulfilling an [undergraduate research grant](#). This is especially encouraged for students considering graduate school in philosophy.

## Graduate Preparatory Emphasis

This emphasis is strongly recommended for students who plan to do graduate work in philosophy. Beyond the ten (10) courses required for the major, such students should select, with their adviser's approval,

two additional philosophy courses above the 400-level, for a total of twelve (12) courses. [Consult the Department of Philosophy website for additional graduate school planning information.](#)

## Honors in Philosophy

To graduate "With Honors" in philosophy, students will be expected to complete their philosophy capstone requirement; complete two additional 700-level PHIL courses (The 700-level course options will vary depending upon which departmental honors option [thesis or portfolio] the student fulfills; they will be expected to have an overall GPA of 3.5 or above; they will engage in independent study and research (under the supervision of a faculty member) beyond the requirements of their coursework; and, they will be expected to present and defend a culminating project to the department's faculty. [Consult the Department of Philosophy website for more details.](#)

## Distinction on Senior Thesis

Distinction on Senior Thesis is granted by a unanimous determination of the student's committee that the thesis exceeds A-level work and is worthy of special recognition.

<https://cola.unh.edu/philosophy>

## Programs

- [Philosophy Major \(B.A.\)](#) (p. 268)
- [Philosophy Major: Business, Innovation & Technology Option \(B.A.\)](#) (p. 269)
- [Philosophy Major: Ethics and Social Responsibility Option \(B.A.\)](#) (p. 271)
- [Philosophy Major: Political and Legal Philosophy Option \(B.A.\)](#) (p. 273)
- [Philosophy Minor](#) (p. 274)
- [Political and Legal Philosophy Cognate](#) (p. 205)

## Faculty

<https://cola.unh.edu/philosophy/faculty-staff-directory>

## Philosophy Major (B.A.)

<https://cola.unh.edu/philosophy/program/ba/philosophy-major>

## Description

UNH philosophy majors acquire the ability to think systematically and imaginatively about fundamental and enduring issues such as morality, justice, happiness, beauty, gender, race, nature, artificial intelligence, space, time, and the meaning of life and death. Our internationally-renowned professors emphasize discussion, debate and writing in our courses. Wrestling with the "big questions" from diverse and global perspectives will prepare you exceptionally well for a variety of fulfilling careers. A lively and nurturing community personally invested in the success of our high achieving students, we take pride in watching our graduates excel in top law and graduate schools, innovative social justice programs, and various positions from Wall Street to Silicon

Valley and beyond that seek hard workers who can think rigorously and communicate clearly.

## Requirements

### Degree Requirements

**Minimum Credit Requirement:** 128 credits

**Minimum Residency Requirement:** 32 credits must be taken at UNH

**Minimum GPA:** 2.0 required for conferral\*

**Core Curriculum Required:** Discovery & Writing Program Requirements

**Foreign Language Requirement:** Yes

All Major, Option and Elective Requirements as indicated.

*\*Major GPA requirements as indicated.*

### Major Requirements

Majors must take a minimum of ten (10) philosophy courses, for a total of 40 credits. A single course can satisfy multiple requirements for the major. The required minimum overall GPA in major coursework is 2.00 and minimum grade of C- for all courses counting toward the major. Candidates for a degree must satisfy additional University requirements for graduation, such as:

1. University "Writing Intensive" Requirements,
2. Philosophy majors must satisfy the language requirement for the B.A., as a part of their liberal arts education. See the UNH Advising Handbook for how students may satisfy this requirement. Students who would like to satisfy this requirement with a language not offered by COLA (such as American Sign Language) should speak with their advisor about how to petition for an exception,
3. minimum number of credits (128 credits for B.A. degree), and
4. University Discovery Requirements.

Consult with your adviser early and often to plan the optimal path for fulfilling major and University requirements.

Code	Title	Credits
Core Requirements		20
PHIL 412	Beginning Logic	
PHIL 500	Workshop	
PHIL 530	Ethics	
PHIL 570	Ancient Philosophy	
PHIL 580	Modern Philosophy from Descartes to Kant	
Electives <sup>1</sup>		12
Select three (3) additional philosophy courses of the student's choice.		
Discovery Capstone Requirement		8
Select two (2) 700-level philosophy courses (excluding PHIL 795, PHIL 798, and PHIL 799) of the student's choice, at least one of these should be taken in the senior year		
Total Credits		40

<sup>1</sup> PHIL 495 Tutorial Reading and PHIL 795 Independent Study normally do not count toward fulfilling major requirement credits; exceptions may be granted by special permission.

Note that it is in the nature of 700-level seminars to presuppose by default that students have completed the main 400-level and 500-level core requirements (PHIL 412 Beginning Logic, PHIL 500 Workshop, PHIL 530 Ethics, PHIL 570 Ancient Philosophy, PHIL 580 Modern

Philosophy from Descartes to Kant) and so free reference is made to materials, views, techniques, etc. covered in those lower-level core requirements.

### Discovery Requirements

**For students majoring in only philosophy:** philosophy majors may "double count" any two courses toward the major and also to satisfy Discovery requirements. For example, a philosophy major can count (1) PHIL 412 Beginning Logic toward the major requirement as well as using this course to satisfy the Quantitative Reasoning Discovery Category and (2) they can also count PHIL 421 Philosophy and the Arts toward both the major and the Fine and Performing Arts Discovery Category. Because PHIL 412 Beginning Logic and PHIL 570 Ancient Philosophy are required for the major and also satisfy Quantitative Reasoning and Humanities Categories, respectively, all majors could simply count these two courses toward their Discovery requirements. In various circumstances—for instance if a student already satisfied those Discovery requirements before becoming a philosophy major—one might prefer to count other philosophy courses toward different Discovery Categories, and they are free to do so.

**For students double majoring with philosophy:** The Department sets no limits on how many courses students may "double count" toward both the philosophy major and Discovery categories if philosophy is your **second** major. A double major with philosophy as the second major could in principle count any of the following courses toward the major while satisfying five Discovery Categories:

1. **Quantitative Reasoning (QR)** Discovery Category could be satisfied by PHIL 412 Beginning Logic.
2. **Fine and Performing Arts (FPA)** Discovery Category could be satisfied by PHIL 421 Philosophy and the Arts.
3. **Humanities (HUMA)** Discovery Category could be satisfied by PHIL 401 Introduction to Philosophy, PHIL 405 Critical Thinking, PHIL 405W Critical Thinking, PHIL 410 Happiness, Well-Being, and a Good Life, PHIL 419 Race, Gender and Social Justice, PHIL 419W Race, Gender and Social Justice, PHIL 420 Introduction to Philosophy of Law and Justice, PHIL 430 Ethics and Society, PHIL 431 Business Ethics, PHIL 436 Social and Political Philosophy, PHIL #440 Just Business: The Ethics of Markets and Money, PHIL 440A Honors/Who Are You? Personal Identity and Humanity, PHIL 440B Honors/Who's Human Now?, PHIL 510 Philosophy and Feminism, PHIL 525 Existentialism, PHIL 531 Topics in Professional and Business Ethics, or PHIL 570 Ancient Philosophy.
4. **World Cultures (WC)** Discovery Category could be satisfied by PHIL 440C Honors/The Copernican Lens: Finding a Place for Humanity or PHIL 520 Introduction to Eastern Philosophy.
5. **Environment, Technology, and Society (ETS)** Discovery Category could be satisfied by PHIL 424 The Future of Humanity: Science, Technology, and Society, PHIL 435 Human Nature and Evolution, PHIL #444 Remaking Nature/The Ethics and Politics of Genetic Engineering, PHIL 447 Artificial Intelligence, Robots, and People, or PHIL 450 Environmental Ethics.

## Student Learning Outcomes

UNH philosophy majors acquire the ability to think systematically and imaginatively about fundamental and enduring issues such as morality, justice, happiness, beauty, gender, race, nature, artificial intelligence, space, time, and the meaning of life and death. Our internationally-

renowned professors emphasize discussion, debate and writing in our courses. Wrestling with the "big questions" from diverse and global perspectives prepares students exceptionally well for a variety of fulfilling careers. Cultivating a lively and nurturing community personally invested in the success of our high achieving students, we take pride in watching our graduates excel in top law and graduate schools, innovative social justice programs, and various positions from Wall Street to Silicon Valley.

More concretely, we monitor the following learning objectives.

- Students understand major philosophers and philosophical ideas accurately.
- Students apply their understanding of ideas in novel contexts.
- Students write effectively.
- Students speak effectively.
- Students argue with depth, precision, balance, and insight.
- Students understand the formal structure of arguments and understand rules of inference.
- Students read analytically, critically, and empathetically.
- Students critically assess their own preconceptions, commitments and ideas.

The main way we oversee student progress is through close mentorship, early on in our 2nd year orientation designed for new majors (PHIL 500 Workshop), and culminating in their presentation of research in two required 700-level seminars. We also strongly encourage participation in the annual [Philosophy Department Undergraduate Research Conference](#).

## Philosophy Major: Business, Innovation & Technology Option (B.A.)

<https://cola.unh.edu/philosophy/program/ba/philosophy-major-business-innovation-technology-option>

### Description

While completing the philosophy major, students may select the option in Philosophy of Business, Innovation and Technology. This option provides official recognition for those who choose to emphasize the study of the relationships between markets, technology and human well-being. Students will choose courses in the philosophy of artificial intelligence, evolution, neuroscience, biotechnology, business ethics, economic policy, environmental ethics and other high impact subjects.

### Requirements

## Degree Requirements

**Minimum Credit Requirement:** 128 credits

**Minimum Residency Requirement:** 32 credits must be taken at UNH

**Minimum GPA:** 2.0 required for conferral\*

**Core Curriculum Required:** Discovery & Writing Program Requirements

**Foreign Language Requirement:** Yes

All Major, Option and Elective Requirements as indicated.

\*Major GPA requirements as indicated.

## Major Requirements

Students must fulfill the requirements of the philosophy major **plus** the requirements of the option. Majors must take a minimum of ten (10) philosophy courses, for a total of 40 credits. A single course can satisfy multiple requirements for the major. The required minimum overall GPA in major coursework is 2.00 and the minimum grade for all courses counting toward the major is a "C-." Candidates for a degree must satisfy additional University requirements for graduation, such as:

1. University "Writing Intensive" Requirements,
2. Philosophy majors must satisfy the language requirement for the B.A., as a part of their liberal arts education. See the UNH Advising Handbook for how students may satisfy this requirement. Students who would like to satisfy this requirement with a language not offered by COLA (such as American Sign Language) should speak with their advisor about how to petition for an exception,
3. minimum number of credits (128 credits for B.A. degree), and
4. University Discovery Requirements.

Consult with your adviser early and often to plan the optimal path for fulfilling major and University requirements.

Code	Title	Credits

PHIL 436H	Honors/Social and Political Philosophy
PHIL 436W	Social and Political Philosophy
PHIL #440	Just Business: The Ethics of Markets and Money
PHIL #444	Remaking Nature/The Ethics and Politics of Genetic Engineering
PHIL 447	Artificial Intelligence, Robots, and People
PHIL 450	Environmental Ethics
PHIL 531	Topics in Professional and Business Ethics
PHIL #531W	Professional & Business Ethics
PHIL 630	Neuroscience and Philosophy
PHIL 660	Law, Medicine, and Ethics
PHIL 701	Topics in Value Theory
PHIL #730	Topics in Theories of Justice
PHIL 780	Special Topics <sup>1</sup>

<sup>1</sup> By permission because only some sections of this course will count toward the major option.

Note that it is in the nature of 700-level seminars to presuppose by default that students have completed the main 400-level and 500-level core requirements (PHIL 412 Beginning Logic, PHIL 500 Workshop, PHIL 530 Ethics, PHIL 570 Ancient Philosophy, PHIL 580 Modern Philosophy from Descartes to Kant) and so free reference is made to materials, views, techniques, etc. covered in those lower-level core requirements.

### Discovery Requirements

**For students majoring in only philosophy:** philosophy majors may "double count" any two courses toward the major and also to satisfy Discovery requirements. For example, a philosophy major can count (1) PHIL 412 Beginning Logic toward the major requirement as well as using this course to satisfy the Quantitative Reasoning Discovery Category and (2) they can also count PHIL 421 Philosophy and the Arts toward both the major and the Fine and Performing Arts Discovery Category. Because PHIL 412 Beginning Logic and PHIL 570 Ancient Philosophy are required for the major and also satisfy Quantitative Reasoning and Humanities Categories, respectively, all majors could simply count these two courses toward their Discovery requirements. In various circumstances—for instance if a student already satisfied those Discovery requirements before becoming a philosophy major—one might prefer to count other philosophy courses toward different Discovery Categories, and they are free to do so.

**For students double majoring with philosophy:** The Department sets no limits on how many courses students may "double count" toward both the philosophy major and Discovery categories if philosophy is your **second** major. A double major with philosophy as the second major could in principle count any of the following courses toward the major while satisfying five Discovery Categories:

1. **Quantitative Reasoning (QR)** Discovery Category could be satisfied by PHIL 412 Beginning Logic.
2. **Fine and Performing Arts (FPA)** Discovery Category could be satisfied by PHIL 421 Philosophy and the Arts.
3. **Humanities (HUMA)** Discovery Category could be satisfied by PHIL 401 Introduction to Philosophy, PHIL 405 Critical Thinking, PHIL 405W Critical Thinking, PHIL 410 Happiness, Well-Being , and a Good Life, PHIL 419 Race, Gender and Social Justice, PHIL 419W Race, Gender and Social Justice, PHIL 420 Introduction to Philosophy of Law and Justice, PHIL 430 Ethics and Society, PHIL 431 Business Ethics, PHIL 436 Social and Political

Philosophy, PHIL #440 Just Business: The Ethics of Markets and Money, PHIL 440A Honors/Who Are You? Personal Identity and Humanity, PHIL 440B Honors/Who's Human Now?, PHIL 510 Philosophy and Feminism, PHIL 525 Existentialism, PHIL 531 Topics in Professional and Business Ethics, or PHIL 570 Ancient Philosophy.

4. **World Cultures (WC)** Discovery Category could be satisfied by PHIL 440C Honors/The Copernican Lens: Finding a Place for Humanity or PHIL 520 Introduction to Eastern Philosophy.
5. **Environment, Technology, and Society (ETS)** Discovery Category could be satisfied by PHIL 424 The Future of Humanity: Science, Technology, and Society, PHIL 435 Human Nature and Evolution, PHIL #444 Remaking Nature/The Ethics and Politics of Genetic Engineering, PHIL 447 Artificial Intelligence, Robots, and People, or PHIL 450 Environmental Ethics.

## Student Learning Outcomes

UNH philosophy majors acquire the ability to think systematically and imaginatively about fundamental and enduring issues such as morality, justice, happiness, beauty, gender, race, nature, artificial intelligence, space, time, and the meaning of life and death. Our internationally-renowned professors emphasize discussion, debate and writing in our courses. Wrestling with the "big questions" from diverse and global perspectives prepares students exceptionally well for a variety of fulfilling careers. Cultivating a lively and nurturing community personally invested in the success of our high achieving students, we take pride in watching our graduates excel in top law and graduate schools, innovative social justice programs, and various positions from Wall Street to Silicon Valley.

More concretely, we monitor the following learning objectives.

- Students understand major philosophers and philosophical ideas accurately.
- Students apply their understanding of ideas in novel contexts.
- Students write effectively.
- Students speak effectively.
- Students argue with depth, precision, balance, and insight.
- Students understand the formal structure of arguments and understand rules of inference.
- Students read analytically, critically, and empathetically.
- Students critically assess their own preconceptions, commitments and ideas.

The main way we oversee student progress is through close mentorship, early on in our 2nd year orientation designed for new majors (PHIL 500 Workshop), and culminating in their presentation of research in two required 700-level seminars. We also strongly encourage participation in the annual [Philosophy Department Undergraduate Research Conference](https://cola.unh.edu/philosophy/program/ba/philosophy-major-ethics-social-responsibility-option).

## Philosophy Major: Ethics and Social Responsibility Option (B.A.)

<https://cola.unh.edu/philosophy/program/ba/philosophy-major-ethics-social-responsibility-option>

### Description

While completing the philosophy major, students may select the option in ethics and social responsibility. This option provides official recognition

for those who choose to emphasize concern with moral responsibility in personal and social contexts, including the political and corporate arenas. Students will choose courses in environmental ethics, law, evolution, social and political philosophy, and feminism.

## Requirements

### Degree Requirements

**Minimum Credit Requirement:** 128 credits

**Minimum Residency Requirement:** 32 credits must be taken at UNH

**Minimum GPA:** 2.0 required for conferral\*

PHIL #440	Just Business: The Ethics of Markets and Money	
PHIL 440B	Honors/Who's Human Now?	
PHIL #444	Remaking Nature/The Ethics and Politics of Genetic Engineering	
PHIL 450	Environmental Ethics	
PHIL 510	Philosophy and Feminism	
PHIL 520	Introduction to Eastern Philosophy	
PHIL 525	Existentialism	
PHIL 530	Ethics	
PHIL 531	Topics in Professional and Business Ethics	
PHIL #531W	Professional & Business Ethics	
PHIL 660	Law, Medicine, and Ethics	
PHIL 701	Topics in Value Theory	
PHIL #730	Topics in Theories of Justice	
PHIL 780	Special Topics	

<sup>1</sup> By permission because only some sections of the course will count toward the major option.

Note that it is in the nature of 700-level seminars to presuppose by default that students have completed the main 400-level and 500-level core requirements (PHIL 412 Beginning Logic, PHIL 500 Workshop, PHIL 530 Ethics, PHIL 570 Ancient Philosophy, PHIL 580 Modern Philosophy from Descartes to Kant) and so free reference is made to materials, views, techniques, etc. covered in those lower-level core requirements.

## Discovery Requirements

**For students majoring in only philosophy:** philosophy majors may "double count" any two courses toward the major and also to satisfy Discovery requirements. For example, a philosophy major can count (1) PHIL 412 Beginning Logic toward the major requirement as well as using this course to satisfy the Quantitative Reasoning Discovery Category and (2) they can also count PHIL 421 Philosophy and the Arts toward both the major and the Fine and Performing Arts Discovery Category. Because PHIL 412 Beginning Logic and PHIL 570 Ancient Philosophy are required for the major and also satisfy Quantitative Reasoning and Humanities Categories, respectively, all majors could simply count these two courses toward their Discovery requirements. In various circumstances—for instance if a student already satisfied those Discovery requirements

before becoming a philosophy major—one might prefer to count other philosophy courses toward different Discovery Categories, and they are free to do so.

**For students double majoring with philosophy:** The Department sets no limits on how many courses students may "double count" toward both the philosophy major and Discovery categories if philosophy is your **second** major. A double major with philosophy as the second major could in principle count any of the following courses toward the major while satisfying five Discovery Categories:

1. **Quantitative Reasoning (QR)** Discovery Category could be satisfied by PHIL 412 Beginning Logic.
2. **Fine and Performing Arts (FPA)** Discovery Category could be satisfied by PHIL 421 Philosophy and the Arts.
3. **Humanities (HUMA)** Discovery Category could be satisfied by PHIL 401 Introduction to Philosophy, PHIL 405 Critical Thinking, PHIL 405W Critical Thinking, PHIL 410 Happiness, Well-Being , and a Good Life, PHIL 419 Race, Gender and Social Justice, PHIL 419W Race, Gender and Social Justice, PHIL 420 Introduction to Philosophy of Law and Justice, PHIL 430 Ethics and Society, PHIL 431 Business Ethics, PHIL 436 Social and Political Philosophy, PHIL #440 Just Business: The Ethics of Markets and Money, PHIL 440A Honors/Who Are You? Personal Identity and Humanity, PHIL 440B Honors/Who's Human Now?, PHIL 510 Philosophy and Feminism, PHIL 525 Existentialism, PHIL 531 Topics in Professional and Business Ethics, or PHIL 570 Ancient Philosophy.
4. **World Cultures (WC)** Discovery Category could be satisfied by PHIL 440C Honors/The Copernican Lens: Finding a Place for Humanity or PHIL 520 Introduction to Eastern Philosophy.
5. **Environment, Technology, and Society (ETS)** Discovery Category could be satisfied by PHIL 424 The Future of Humanity: Science, Technology, and Society, PHIL 435 Human Nature and Evolution, PHIL #444 Remaking Nature/The Ethics and Politics of Genetic Engineering, PHIL 447 Artificial Intelligence, Robots, and People, or PHIL 450 Environmental Ethics.

## Student Learning Outcomes

UNH philosophy majors acquire the ability to think systematically and imaginatively about fundamental and enduring issues such as morality, justice, happiness, beauty, gender, race, nature, artificial intelligence, space, time, and the meaning of life and death. Our internationally-renowned professors emphasize discussion, debate and writing in our courses. Wrestling with the “big questions” from diverse and global perspectives prepares students exceptionally well for a variety of fulfilling careers. Cultivating a lively and nurturing community personally invested in the success of our high achieving students, we take pride in watching our graduates excel in top law and graduate schools, innovative social justice programs, and various positions from Wall Street to Silicon Valley.

More concretely, we monitor the following learning objectives.

- Students understand major philosophers and philosophical ideas accurately.
- Students apply their understanding of ideas in novel contexts.
- Students write effectively.
- Students speak effectively.
- Students argue with depth, precision, balance, and insight.

- Students understand the formal structure of arguments and understand rules of inference.
- Students read analytically, critically, and empathetically.
- Students critically assess their own preconceptions, commitments and ideas.

The main way we oversee student progress is through close mentorship, early on in our 2nd year orientation designed for new majors (PHIL 500 Workshop), and culminating in their presentation of research in two required 700-level seminars. We also strongly encourage participation in the annual [Philosophy Department Undergraduate Research Conference](#).

## Philosophy Major: Political and Legal Philosophy Option (B.A.)

<https://cola.unh.edu/philosophy/program/ba/philosophy-major-political-legal-philosophy-option>

### Description

The political and legal philosophy option in the philosophy major gives students interested in politics, law and justice the opportunity to focus their philosophy major courses around their interests in a systematic and rigorous way. Philosophy has long been a major for high-achieving students interested in law, and our graduates are admitted regularly to top law schools such as Harvard, Yale, Stanford, University of Chicago, NYU and Duke, among others. We are also a home for UNH students interested and active in political philosophy. Our faculty members have considerable expertise in both political and legal philosophy, with some serving on UNH's pre-law advisory committee.

### Requirements

#### Degree Requirements

**Minimum Credit Requirement:** 128 credits

**Minimum Residency Requirement:** 32 credits must be taken at UNH

**Minimum GPA:** 2.0 required for conferral\*

**Core Curriculum Required:** Discovery & Writing Program Requirements

**Foreign Language Requirement:** Yes

All Major, Option and Elective Requirements as indicated.

\*Major GPA requirements as indicated.

#### Major Requirements

Students must fulfill the requirements of the philosophy major **plus** the requirements of the option. Majors must take a minimum of ten (10) philosophy courses, for a total of 40 credits. A single course can satisfy multiple requirements for the major. The required minimum overall GPA in major coursework is 2.00 and the minimum grade for all courses counting toward the major is a "C-." Candidates for a degree must satisfy additional University requirements for graduation, such as:

1. University "Writing Intensive" Requirements,
2. Philosophy majors must satisfy the language requirement for the B.A., as a part of their liberal arts education. See the UNH Advising Handbook for how students may satisfy this requirement. Students

who would like to satisfy this requirement with a language not offered by COLA (such as American Sign Language) should speak with their advisor about how to petition for an exception,

3. minimum number of credits (128 credits for B.A. degree), and
4. University Discovery Requirements.

Consult with your adviser early and often to plan the optimal path for fulfilling major and University requirements.

Code	Title	Credits
<b>Core Requirements</b>		<b>20</b>
PHIL 412	Beginning Logic	
PHIL 500	Workshop	
PHIL 530	Ethics	
PHIL 570	Ancient Philosophy	
PHIL 580	Modern Philosophy from Descartes to Kant	
<b>Electives</b> <sup>1</sup>		<b>12</b>
Select three (3) additional philosophy courses of the student's choice.		
<b>Discovery Capstone Requirement</b>		<b>8</b>
Select two (2) 700-level philosophy courses (excluding PHIL 795, PHIL 798, and PHIL 799) of the student's choice, at least one of these should be taken in the senior year		
<b>Total Credits</b>		<b>40</b>

<sup>1</sup> PHIL 495 Tutorial Reading and PHIL 795 Independent Study normally do not count toward fulfilling major requirement credits; exceptions may be granted by special permission.

## Political and Legal Philosophy Option Requirements

This option requires four philosophy courses (for a total of 16 credits) from those listed below. Students may "double count" these courses toward the general requirements of the philosophy major, for example, by counting three of these courses as the elective courses required for the major.

Code	Title	Credits
<b>Select four of the following courses:</b>		<b>16</b>
PHIL 405	Critical Thinking	
PHIL 419	Race, Gender and Social Justice	
PHIL 420	Introduction to Philosophy of Law and Justice	
PHIL 424	The Future of Humanity: Science, Technology, and Society	
PHIL 430	Ethics and Society	
PHIL 431	Business Ethics	
PHIL 436	Social and Political Philosophy	
PHIL #440	Just Business: The Ethics of Markets and Money	
PHIL #444	Remaking Nature/The Ethics and Politics of Genetic Engineering	
PHIL 450	Environmental Ethics	
PHIL 510	Philosophy and Feminism	
PHIL 531	Topics in Professional and Business Ethics	
PHIL 620	20th Century European Philosophy	
PHIL 630	Neuroscience and Philosophy	
PHIL 660	Law, Medicine, and Ethics	
PHIL 701	Topics in Value Theory (by permission)	
PHIL #730	Topics in Theories of Justice	
PHIL 780	Special Topics (by permission)	

Note that it is in the nature of 700-level seminars to presuppose by default that students have completed the main 400-level and 500-level core requirements (PHIL 412 Beginning Logic, PHIL 500 Workshop, PHIL 530 Ethics, PHIL 570 Ancient Philosophy, PHIL 580 Modern Philosophy from Descartes to Kant) and so free reference is made to materials, views, techniques, etc. covered in those lower-level core requirements.

Discovery Requirements

**For students majoring in only philosophy:** philosophy majors may "double count" any two courses toward the major and also to satisfy Discovery requirements. For example, a philosophy major can count (1) PHIL 412 Beginning Logic toward the major requirement as well as using this course to satisfy the Quantitative Reasoning Discovery Category and (2) they can also count PHIL 421 Philosophy and the Arts toward both the major and the Fine and Performing Arts Discovery Category. Because PHIL 412 Beginning Logic and PHIL 570 Ancient Philosophy are required for the major and also satisfy Quantitative Reasoning and Humanities Categories, respectively, all majors could simply count these two courses toward their Discovery requirements. In various circumstances—for instance if a student already satisfied those Discovery requirements before becoming a philosophy major—one might prefer to count other philosophy courses toward different Discovery Categories, and they are free to do so.

**For students double majoring with philosophy:** The Department sets no limits on how many courses students may "double count" toward both the philosophy major and Discovery categories if philosophy is your **second** major. A double major with philosophy as the second major could in principle count any of the following courses toward the major while satisfying five Discovery Categories:

- 1. **Quantitative Reasoning (QR)** Discovery Category could be satisfied by PHIL 412 Beginning Logic.
- 2. **Fine and Performing Arts (FPA)** Discovery Category could be satisfied by PHIL 421 Philosophy and the Arts.
- 3. **Humanities (HUMA)** Discovery Category could be satisfied by PHIL 401 Introduction to Philosophy, PHIL 405 Critical Thinking, PHIL 405W Critical Thinking, PHIL 410 Happiness, Well-Being, and a Good Life, PHIL 419 Race, Gender and Social Justice, PHIL 419W Race, Gender and Social Justice, PHIL 420 Introduction to Philosophy of Law and Justice, PHIL 430 Ethics and Society, PHIL 431 Business Ethics, PHIL 436 Social and Political Philosophy, PHIL #440 Just Business: The Ethics of Markets and Money, PHIL 440A Honors/Who Are You? Personal Identity and Humanity, PHIL 440B Honors/Who's Human Now?, PHIL 510 Philosophy and Feminism, PHIL 525 Existentialism, PHIL 531 Topics in Professional and Business Ethics, or PHIL 570 Ancient Philosophy.
- 4. **World Cultures (WC)** Discovery Category could be satisfied by PHIL 440C Honors/The Copernican Lens: Finding a Place for Humanity or PHIL 520 Introduction to Eastern Philosophy.
- 5. **Environment, Technology, and Society (ETS)** Discovery Category could be satisfied by PHIL 424 The Future of Humanity: Science, Technology, and Society, PHIL 435 Human Nature and Evolution, PHIL #444 Remaking Nature/The Ethics and Politics of Genetic Engineering, PHIL 447 Artificial Intelligence, Robots, and People, or PHIL 450 Environmental Ethics.

Student Learning Outcomes

The main way we oversee student progress is through close mentorship, early on in our 2nd year orientation designed for new majors (PHIL 500 Workshop), and culminating in their presentation of research in two required 700-level seminars. We also strongly encourage participation in the annual [Philosophy Department Undergraduate Research Conference](#).

Philosophy Minor

<https://cola.unh.edu/philosophy/program/minor/philosophy>

Description

UNH philosophy minors acquire the ability to think systematically and imaginatively about fundamental and enduring issues such as morality, justice, happiness, beauty, gender, race, nature, artificial intelligence, space, time, and the meaning of life and death. Our internationally-renowned professors emphasize discussion, debate and writing in our courses. Wrestling with the "big questions" from diverse and global perspectives will prepare you exceptionally well for a variety of fulfilling careers. A lively and nurturing community personally invested in the success of our high achieving students, we take pride in watching our graduates excel in top law and graduate schools, innovative social justice programs, and various positions from Wall Street to Silicon Valley and beyond that seek hard workers who can think rigorously and communicate clearly.

Requirements

A philosophy minor consists of **five (5) philosophy courses (for a total of 20 credits) with a grade of C- or above**. At least one of the philosophy courses must be at the 500-level or higher.

Code	Title	Credits
PHIL course at 500-level or higher		4
Four elective PHIL courses		16
Total Credits		20

PHIL 495 Tutorial Reading and PHIL 795 Independent Study may be used towards the minor only with special approval.

You do not need to declare a minor; however, it might be wise to meet with a faculty member from the Philosophy Department to discuss your minor plan.

At the beginning of your final semester of study, you should complete a [Minor Certification of Completion Form](#), email the completed form to [philosophy@unh.edu](mailto:philosophy@unh.edu) to request the Department Chair's signature as the Minor Advisor signature, obtain your advisor's signature, and submit it to your Dean's Office.

## Political Science & International Affairs (PSIA)

The study of political science includes the study of politics, power, and governance. Students have the opportunity to study both formal and informal institutions of government, political behavior, civil society, public policy, international relations, democratization, crime and punishment, political economy, and comparative political development. Political science provides a strong foundation for informed citizenship and civic engagement. The study of political science is particularly valuable to students planning to enter local, state, or national government; the Foreign Service; law school and the legal profession; non-governmental organizations; political campaigns; and careers in the security/intelligence sector. The major also enhances cognitive abilities, writing, public speaking, critical thinking, and analytical skills.

## Internships and Advanced Study

In addition to regularly scheduled courses, the department offers advanced study in Political Science and International Affairs, internships, and experiential learning. Interested students should contact our department advisor, [Heather Austin \(heather.austin@unh.edu\)](mailto:heather.austin@unh.edu), to learn about the course offerings for a given semester.

Students have engaged in exciting internship opportunities that explore various aspects of government, policy-making, the legal system, and interest groups. These internships provide students with the opportunity to engage with issues at the local, state, national, and international levels. Students must have junior or senior standing and normally have a 3.2 grade point average (GPA) or higher to be eligible for consideration. Students interested in internships should consult with faculty or our department advisor.

## Political Science Language Requirement

The bachelor of arts degree at the University of New Hampshire requires that a student satisfy the foreign language proficiency requirement. See [Foreign Language Requirement](#) (p. 31) for the full description of this requirement.

The Department of Political Science does not allow American Sign Language (ASL) to count toward the language requirement.

Exceptions to this must be petitioned and approved by the Department of Political Science and International Affairs' undergraduate committee and the student's advisor.

## Accelerated M.A. Degree Program

The Accelerated MA program aims to:

1. Improve opportunities for excellent undergraduates to prepare for competitive Ph.D. programs or add an additional credential before entering a competitive job market; and

2. Allow students interested in politics to advance and further specialize their political science education in only one additional year at UNH.

Students must fulfill all programmatic requirements for the current master's degree program, as well as fulfill all programmatic requirements for their bachelor's degree. Students may double-count up to 12 undergraduate credits (i.e., 3 courses) toward the completion of the MA degree.

Interested students must submit a full graduate application by February 15 of their junior year. Minimum GPA required for admission is 3.2.

For additional information you may contact the graduate coordinator, Prof. [Emily Baer \(Emily.Baer-Bositis@unh.edu\)](mailto:Emily.Baer-Bositis@unh.edu) or Heather Austin, (603) 862-1767, [heather.austin@unh.edu](mailto:heather.austin@unh.edu).

## Faculty

<https://cola.unh.edu/political-science/faculty-staff-directory>

## Global Studies Dual Major

<https://cola.unh.edu/interdisciplinary-studies/program/global-studies-dual-major>

## Description

The Global Studies (GS) dual major complements and adds a global dimension to any major at UNH. The completion of the dual major requires no additional credits for graduation beyond the 128 required of all UNH students.

Note: The Department of Civil Engineering has developed a dual-major program in civil engineering and Global Studies. Students do not need to have pre-existing skills in a foreign language before coming to UNH.

## Requirements

### Degree Requirements

**Minimum Credit Requirement:** 128 credits

**Minimum Residency Requirement:** 32 credits must be taken at UNH

**Minimum GPA:** 2.0 required for conferral\*

**Core Curriculum Required:** Discovery & Writing Program Requirements

**Foreign Language Requirement:** Yes, if primary major is a Bachelor of Arts

**Declared Primary Major**

All Major, Option and Elective Requirements as indicated.  
*\*Major GPA requirements as indicated.*

## Global Studies Dual Major Requirements

All coursework required for Global Studies must be completed with a grade of C or better.

Students who wish to declare the Global Studies dual major must earn a C or better in IA 401, have declared a primary major, and have a 2.5 cumulative grade-point average. Students are expected to maintain at least a 2.5 grade-point average, the minimum required for study abroad at UNH.

Code	Title	Credits
<b>Required Core Courses</b>		
IA 401	International Perspectives	4
IA 501	Global Issues in International Affairs	4
IA 701	Exploring International Challenges and Opportunities	4
Select one of the following:		4
ECON 401	Principles of Economics (Macro)	
ECON 402	Principles of Economics (Micro)	
EREC 411	Environmental and Resource Economics Perspectives	
Global Studies Language Requirement <sup>1</sup>		variable
International Experience - Study Abroad <sup>2</sup>		variable
<b>Electives - see list below</b>		
Select one course from each category list, plus one more course from either category (3 courses total):		12
Politics, Culture, & History		
Science, Environment, Economy, & Health		

- <sup>1</sup> **Global Studies Language Requirement**  
GS majors must demonstrate functional reading, writing, and speaking ability equivalent to a second-year, second-semester college level (504). Students may take placement tests to establish proficiency. Native second language speakers are exempt from this requirement - speak to an GS advisor. Language study may be pursued at UNH; through study abroad in the summer, J-term, or academic year; or through transfer credits from other institutions with the permission of an GS advisor.
- <sup>2</sup> **International Experience - Study Abroad**  
Minimum of eight weeks. The GS international experience is typically conducted in a country or region that uses the student's second language. Students may pursue their international experience elsewhere after consultation with an GS advisor.  
The international experience (typically completed in the junior year) is completed before taking IA 701 in the senior year. Students may spend an academic year, semester, or summer in an academic institution, in an internship with a private or public organization, or in purposeful travel/research. Students must meet with the Study Abroad Advisors at the Global Education Center to plan their international experience, typically a year in advance of study abroad.

### Electives (three total)

- Select one elective course from the Politics, Culture, and History category list.

- Select one elective course from the Science, Environment, Economy and Health category list.
- Select one additional elective course from either category list.

Electives are offered across the university and may be used to fulfill Discovery, Honors Program and/or other minor requirements. Up to 8 credits may be double counted between your primary major and the dual major. Additional courses taken in the primary major may count for the dual major if the courses are not counted toward the primary major requirements. Electives may be taken at UNH, during the international experience, or transferred from another university with the permission of the Global Studies advisor.

## Student Learning Outcomes

- Demonstrate intermediate level proficiency in a foreign language;
- Apply different disciplinary approaches to the study of international affairs, including key themes and theoretical frameworks employed in these disciplines;
- Use critical thinking skills to analyze and discuss important global issues;
- Engage with cultural diversity and complexity through the international experience;
- Demonstrate familiarity with different types of data and sources and their appropriate use in analyzing selected topics in international affairs;
- Demonstrate competence in research design. Students will develop inquiry-based research questions, conduct a literature review, employ appropriate methods and data collection, and interpret their findings accurately.

## Global Studies Minor

<https://cola.unh.edu/interdisciplinary-studies/program/minor/global-studies>

## Description

The Global Studies (GS) minor adds a recognized distinction and global context to your primary major at UNH. It was developed for those students who, due to the demands of their primary majors, are unable to complete the more rigorous requirements of the GS dual major.

The minor is declared when the fifth course is being taken. The student should obtain the minor completion form from the department.

## Requirements

Students who wish to declare the Global Studies minor must earn a C or better in all GS course requirements and have a 2.5 cumulative grade-point average.

Code	Title	Credits
<b>Required Core Courses</b>		
IA 401	International Perspectives	4
Select one of the following:		4
ECON 401	Principles of Economics (Macro)	
ECON 402	Principles of Economics (Micro)	
EREC 411	Environmental and Resource Economics Perspectives	
Global Studies Language Requirement <sup>1</sup>		4
International Experience - Study Abroad <sup>2</sup>		
<b>Electives</b>		
Choose one course from each category list (2 courses total): <sup>3</sup>		8
Politics, Culture, & History		
Science, Environment, Economy, & Health		
<b>Total Credits</b>		<b>20</b>

- <sup>1</sup> **Global Studies Language Requirement**  
Functional reading, writing, and speaking ability equivalent to a first-year, second-semester college level (402). Students may take placement tests to establish equivalency, include language study during the international experience, or transfer credits from other institutions.
- <sup>2</sup> **International Experience - Study Abroad**  
Minimum of three weeks (or 4 credits). The international experience may include study, directed research, internship or service/volunteer experience abroad. Students should plan with the study abroad advisors ([study.abroad@unh.edu](mailto:study.abroad@unh.edu)) to plan for their international experience well in advance.
- <sup>3</sup> See elective category lists under the Global Studies dual major heading. Elective courses may count toward Discovery, Honors, Writing Intensive and major requirements.

## International Affairs Major (B.A.)

<https://cola.unh.edu/political-science/program/ba/international-affairs-major>

## Description

International affairs is the focused study of global issues drawing on approaches from political science, history, economics, anthropology, and related fields. Students acquire the substantive knowledge, practical skills, and real-world experience to address critical issues in international affairs, such as war and diplomacy, climate change and biodiversity,

human rights and women's rights, refugees and migration, and inequality and poverty.

Students can focus their studies in one of the following thematic tracks: global development and environment; international security; global ethnic, race, and diversity studies; global health and education; regional or transnational studies in the Middle East, Latin America, Africa, or Asia. The major in IA thus provides students theoretical approaches grounded in the empirical study of places and peoples.

## Requirements

### Degree Requirements

**Minimum Credit Requirement:** 128 credits

**Minimum Residency Requirement:** 32 credits must be taken at UNH

**Minimum GPA:** 2.0 required for conferral\*

**Core Curriculum Required:** Discovery & Writing Program Requirements

**Foreign Language Requirement:** Yes

All Major, Option and Elective Requirements as indicated.

*\*Major GPA requirements as indicated.*

### Major Requirements

All majors must complete 40 hours of IA core courses and departmentally approved IA electives, with a grade of C or better and a grade point average of 2.5 or better.

Code	Title	Credits
<b>Core Courses</b>		
IA 401	International Perspectives	4
IA 501	Global Issues in International Affairs	4
IA 701	Exploring International Challenges and Opportunities	4
<b>Select one introductory course from the following:</b>		<b>4</b>
ANTH 411	Global Perspectives on the Human Condition: An Introduction to Anthropology	
EDUC 402	Introduction to Educational Studies: Social Change and Education in Local and Global Contexts	
GEOG 401	World Regions: Europe and the Americas	
GEOG 402	World Regions: Asia and Africa	
HIST 421	World History to the 16th Century	
HIST 422	World History in the Modern Era	
POLT 403	United States in World Affairs	
<b>Select two courses in a world language <sup>1</sup></b>		<b>8</b>
<b>OR</b>		
<b>One course in Quantitative Reasoning and one course in Economics</b>		<b>8</b>
Select one of the following Quantitative Reasoning Courses:

#### International Security

HIST 498	Explorations of Historical Perspectives
HIST 537	Espionage and History
HIST 609	Special Topics in American Legal History
HIST 620	Foreign Relations of the United States
HUMA 525	Humanities and the Law
POLT #545	People and Politics in Asia
POLT 559	Comparative Politics of the Middle East
POLT 560	World Politics
POLT 562	Strategy and National Security Policy
POLT 565	United States Policy in Latin America
POLT 566	Asian Challenge to Global Order
POLT 568	International Security
POLT 569	The Rise of China
POLT 592	Selected Topics in International Politics
POLT 740	States and Societies in the Middle East
POLT 742	Politics of Afghanistan, Pakistan, and India
POLT 760	Theories of International Relations
POLT 778	International Organization
POLT 797E	Seminar in International Politics

SOC #656	Terrorism
Global Health and Education	
ANTH 685	Gender, Sexuality and HIV/AIDS in Sub-Saharan Africa
ANTH 695	Globalization and Global Population Health
EDUC 444B	Public Issues, Democratic Schooling & Active Citizenship in a Global Context
EDUC 520	Education, Poverty, and Development
EDUC 525	Teaching Race
EDUC 550	Language and Linguistic Diversity in Schools
EDUC 605	Educational Perspectives in Critical Times
GEOG 685	Population and Development
HIST 437H	Honors/The Mad Among Us: A Global History of Mental Disorder
HIST 440E	Honors/Drugs and Addiction in World History
HIST 498	Explorations of Historical Perspectives
POLT 548	Drug Wars

<sup>1</sup> **International Affairs Language Requirement**  
IA majors must demonstrate functional reading, writing, and speaking ability equivalent to an intermediate II level (504). Students may take placement tests to establish proficiency. Native second language speakers are exempt from this requirement - speak to an IA advisor. Language study may be pursued at UNH; through study abroad in the summer, J-term, or academic year; or through transfer credits from other institutions with the permission of an IA advisor.

Student Learning Outcomes

- Apply different disciplinary approaches to the study of international affairs, including key themes and theoretical frameworks employed in these disciplines;
- Use critical thinking skills to analyze and discuss important global issues;
- Engage with cultural diversity and complexity through the international experience;
- Demonstrate familiarity with different types of data and sources and their appropriate use in analyzing selected topics in international affairs;
- Demonstrate competence in research design. Students will develop inquiry-based research questions, conduct a literature review, employ appropriate methods and data collection, and interpret their findings accurately.

## International Security Minor

<https://cola.unh.edu/political-science/program/minor/international-security>

Description

The international security minor will provide students with the opportunity to explore the many dimensions of international security through course work in political science, history, and other closely related disciplines. Students will work with and learn from faculty conducting novel research on topics such as: the arms trade, ethnic conflict, drug-related violence, human security, and conflicts in regions throughout the war.

Students who successfully complete this major will be well-versed in contemporary international security issues and will learn critical thinking and analysis skills applicable to a wide range of careers. Leaders at all levels count on staff with analytical skills who can communicate effectively with policy-makers. Career paths open to our graduates include: the foreign service, intelligence agencies, international

organizations, the UN, journalism, think tank research, law, risk analysis, and business.

For more information, contact Professor [Madhavi Devasher](mailto:madhavi.devasher@unh.edu) (madhavi.devasher@unh.edu), 603-862-8020.

Requirements

1. Five courses (20 credits)
2. Students must receive a grade of C or better for a course to count toward the minor requirements.
3. No more than 8 credits may double count between majors and minors. Thus, political science majors pursuing the security studies minor can only double count up to two of the three required political science courses below. The third required course must be taken in addition to courses taken to fulfill major requirements.

Code	Title	Credits
Required Courses		
Select one core POLT course of the following:		4

Global Social Change

Total Credits

20

<sup>1</sup> If not counted for core requirement.

Once students have declared the minor, they are required to meet with the coordinator or appropriate affiliated faculty adviser at least once per semester for regular review and assessment of their program, learning outcomes, and progress toward the degree.

Other courses, including transfer credits may be approved by the coordinator to count toward the minor. If the transfer credit is accepted by the University and fits within the scope of the minor, it will be considered.

## Political Science Major (B.A.)

<https://cola.unh.edu/political-science/program/ba/political-science-major>

### Description

The study of government and politics, to which the courses and seminars of the Department of Political Science are devoted, includes the development of knowledge of political behavior by individuals and groups as well as knowledge about governments: their nature and functions, their problems and behavior, and their interactions—at the national and international levels as well as local, state and regional levels.

Much of the learning offered by the Department of Political Science can also be regarded as essential for good citizenship, since political knowledge helps to explain the formal and informal institutions by which we are governed and the forces that lead to policy decisions, and also seeks to clarify the issues and principles that encourage people toward political involvement. In addition, such learning is especially valuable to students planning to enter local or national government or other public service related fields, including the Foreign Service, and it will be of great help to those who intend to study law and enter the legal profession. For teaching, particularly at the college level, and for many types of government service, graduate work may be indispensable. An undergraduate major in political science will provide a helpful foundation for any further study of politics and related fields in the social sciences and humanities. Such an emphasis will also be valuable for students seeking careers in journalism, international organizations, and the public affairs and administrative aspects of labor, financial and business organizations.

### Requirements

## Degree Requirements

**Minimum Credit Requirement:** 128 credits

**Minimum Residency Requirement:** 32 credits must be taken at UNH

**Minimum GPA:** 2.0 required for conferral\*

**Core Curriculum Required:** Discovery & Writing Program Requirements

**Foreign Language Requirement:** Yes

All Major, Option and Elective Requirements as indicated.

\*Major GPA requirements as indicated.

## Major Requirements

The major in political science consists of at least 10 courses (40 credits) and not more than 12 courses (48 credits). The minimum grade requirement is C- per course. Any grade lower than a C- will not count toward major. The required minimum overall GPA for major coursework is 2.0.

Candidates for a degree must satisfy all of the University Discovery Program requirements in addition to satisfying the requirements of the major program. Bachelor of arts candidates must also satisfy the foreign language proficiency requirement.

Political Science majors may use one major-required course to satisfy one Discovery category requirement.

<b>Subfield: Methods</b>		
POLT 595	Smart Politics	
<b>Discovery Program Capstone</b>		<b>4</b>
Select one 700-level POLT course		
<b>Total Credits</b>		<b>40</b>

<sup>1</sup> Once students declare the major, POLT 401, POLT 402, POLT 403 must be completed within the first calendar year.

Note: POLT #407, POLT 440A, POLT 444, POLT 444B do not count toward the major.

<sup>2</sup> Students can take any POLT course at the intermediate level or higher (500-799) to count toward elective credit. ECON 402 Principles of Economics (Micro) or ECON 605 Intermediate Microeconomic Analysis and ECON 401 Principles of Economics (Macro) or ECON 611 Intermediate Macroeconomic Analysis may also be used to fulfill the fifth or sixth elective in this sequence. Additional economics courses will be considered by petition. Only one economics course can count toward this requirement. If students substitute an economics course for a POLT 500-level course, the economics course cannot be used to satisfy Discovery Program category requirements.

## Student Learning Outcomes

- **Knowledge Base:** a proficient knowledge base of the five subfields of Political Science including American Government, Political Theory, Comparative Politics, International Relations, and Methods. Areas of strength include the study of public opinion, comparative politics and international relations, political economy, environmental politics, Latin American politics, Middle Eastern politics, and Asian politics. In this regard, the program fosters the development of a strong empirical foundation through multiple levels of courses.
- **Research Skills:** A second goal is to advance the students' abilities to understand and use basic political science research skills. These include computer literacy, knowledge of credible sources of information, basic statistical applications, and support for foreign language proficiency. We also strive to help students identify interesting and important research questions clearly and concisely, gather and assess various types of information, and come to well-reasoned conclusions.
- **Critical Thinking:** The third objective involves enhancement of student cognitive abilities and critical thinking. We hone the ability to analyze, assess, and reconstruct findings in written, oral, and graphical form. We strive to promote students who are self-disciplined thinkers who understand the rigorous standards of research, are intelligent consumers of political information, and are able to understand and weigh multiple perspectives and interpretations.
- **Communication Skills:** Another aim is to enhance the written and oral communication skills of our students. We support the goals of the writing intensive requirement and expose students to different genres and conventions in academic writing. Most 500 and 700-level courses emphasize cultivating strong writing and reading skills, while at the 700-level, student engagement in sustained discussion becomes the centerpiece of instruction in many seminars. Writing instruction includes emphasis not only on research papers but on short analytical essays, précis, and reviews that ask students to synthesize complex information, develop arguments, and delve more

deeply into interpretation. In some courses, part of this work includes iterated practice of grammar and stylistic choices through revision and proposal assignments.

- **Professional Socialization and Support for Post-Graduate Training and Placement:** The sixth aim of the program is to give students the requisite skills, preparation and knowledge base to become capable and responsible political actors in their chosen professional careers and future goals. We expect our students to be exposed to the ethics and organizational culture of political science specifically and the social sciences generally. We aim to provide a foundation of professionalism for students who enter both the private and public sectors upon graduation and for those who continue their studies beyond the B.A.
- **Inspire Curiosity and Enthusiasm for Inquiry:** A final goal is to foster a spirit of inquiry. Faculty in the Department hope to stimulate curiosity about the political world and inspire life-long learners who are engaged in the political process at the local, national and global levels.

## Political Science Major: International Security Option (B.A.)

<https://cola.unh.edu/political-science/program/ba/political-science-major-international-security-option>

### Description

The international security option in major allows students to focus the electives in their political science major on contemporary international security issues. Topics include: terrorism, ethnic conflict, nuclear weapons, drug-related violence, human security, technology and war, and much more.

Students who elect this option can highlight their focus on international security to potential employers and graduate schools. The option in major will appear on students' transcript. The option in major will allow students to develop a network with students who share a passion for international security, and to leverage this network at UNH and beyond.

### Requirements

#### Degree Requirements

**Minimum Credit Requirement:** 128 credits

**Minimum Residency Requirement:** 32 credits must be taken at UNH

**Minimum GPA:** 2.0 required for conferral\*

**Core Curriculum Required:** Discovery & Writing Program Requirements

## Student Learning Outcomes

- **Knowledge Base:** a proficient knowledge base of the five subfields of Political Science including American Government, Political Theory, Comparative Politics, International Relations, and Methods. The program fosters the development of a strong empirical foundation through multiple levels of courses. The option in major allows students to focus their elective coursework on critical international security issues.
- **Research Skills:** A second goal is to advance the students' abilities to understand and use basic political science research skills. These include knowledge of credible sources of information, basic statistical applications, and support for foreign language proficiency. We also strive to help students identify interesting and important research questions clearly and concisely, gather and assess various types of information, and come to well-reasoned conclusions.
- **Critical Thinking:** The third objective involves enhancement of student cognitive abilities and critical thinking. We hone the ability to analyze, assess, and reconstruct findings in written, oral, and graphical form. We strive to promote students who are self-disciplined thinkers who understand the rigorous standards of research, are intelligent consumers of political information, and are able to understand and weigh multiple perspectives and interpretations.
- **Communication Skills:** Another aim is to enhance the written and oral communication skills of our students. We support the goals of the writing intensive requirement and expose students to different genres and conventions in academic writing. Most 500 and 700-level courses emphasize cultivating strong writing and reading skills, while at the 700-level, student engagement in sustained discussion becomes the centerpiece of instruction in many seminars. Writing instruction includes emphasis not only on research papers but on short analytical essays, and reviews that ask students to synthesize complex information, develop arguments, and delve more deeply into interpretation. In some courses, part of this work includes iterated practice of grammar and stylistic choices through revision and proposal assignments.
- **Professional Socialization and Support for Post-Graduate Training and Placement:** The sixth aim of the program is to give students the requisite skills, preparation and knowledge base to become capable and responsible political actors in their chosen professional careers and future goals. We expect our students to be exposed to the ethics and organizational culture of political science specifically and the social sciences generally. We aim to provide a foundation of professionalism for students who enter both the private and public

- sectors upon graduation and for those who continue their studies beyond the B.A.
- **Inspire Curiosity and Enthusiasm for Inquiry:** A final goal is to foster a spirit of inquiry. Faculty in the Department hope to stimulate curiosity about the political world and inspire life-long learners who are engaged in the political process at the local, national and global levels.

## Political Science Minor

<https://cola.unh.edu/political-science/program/minor/political-science>

### Description

The study of government and politics, to which the courses and seminars of the Department of Political Science are devoted, includes the development of knowledge of political behavior by individuals and groups as well as knowledge about governments: their nature and functions; their problems and behaviors; and their interactions across all levels of governance.

Much of the learning offered by the Department of Political Science can also be regarded as essential for good citizenship, since political knowledge helps to explain the formal and informal institutions by which we are governed and the forces which lead to policy decisions, and also seeks to clarify the issues and principles that encourage people toward political involvement. In addition, such learning is especially valuable to students planning to enter local or national government or other public service, including the Foreign Service, and it will be of great help to those who intend to study law and enter the legal profession.

Students that would like to transfer credits from abroad or other universities should meet with our political science advisor, [Heather Austin](mailto:Heather.Austin@unh.edu), ([heather.austin@unh.edu](mailto:heather.austin@unh.edu)) to determine eligibility toward the minor.

### Requirements

The political science minor consists of five courses (20 credits total).

Code	Title	Credits
Five elective POLT courses, with no more than two at the 400 level		20
Total Credits		20

- These courses may be taken in any combination of the five subfields and levels (400-700) offered. The fields to choose from are: American politics, political thought, comparative politics, international politics and methods.
- The minimum grade requirement is C- per course. Any grade lower than a C- will not count toward the minor.

## Survey Research Minor

<https://cola.unh.edu/political-science/program/minor/survey-research><https://cola.unh.edu/political-science/program/minor/survey-research>

### Description

The survey research minor will provide students with the skills necessary to design, conduct, analyze and present survey research in a variety of

professional settings. This minor will enable students to gain a strong grounding in the theory and practice of survey research, as well as learn how public opinion forms and changes over time. Students will apply what they have learned at the UNH Survey Center, nationally recognized for its public opinion and political polling. Students who complete this minor will be poised to pursue an advanced degree in this subject and, ultimately, a career in the field.

### Requirements

The survey research minor requires five courses (20 credits), as follows:

Code	Title	Credits
Core Course		4
POLT 512	Public Opinion in American Politics	
Introduction to Research Methods Course		4
Select one (1) from the following:		
POLT 595	Smart Politics	
SOC 601	Methods of Social Research	
JUST 501	Research Methods	
Statistics Course		4
Select one (1) from the following:		
SOC 402	Statistics	
PSYC 402	Statistics in Psychology	
Advanced Research Course Elective		4
Select one (1) from the following:		
HMP 711	Introduction to Healthcare Operations Analytics	
HMP 712	Healthcare Operations Management	
MKTG 752	Marketing Research	
PSYC 531	Psychobiology	
PSYC 552	Social Psychology	
SOC 620	Drugs and Society	
SOC 625	Mental Health and Society	
SOC 725	Social Demography	
SOC 797	Special Topics (Only topic: Survey Research in Practice)	
Other elective based on student's field of interest and approved by the coordinator		
Capstone Practicum		4
To be chosen in consultation with the coordinator		
Total Credits		20

- Students must receive a grade of C or better for a course to count toward the minor requirements.
- Once students have declared the minor, they are required to meet with the coordinator or appropriate affiliated faculty advisor at least once per semester for regular review and assessment of their program, learning outcomes, and progress toward the degree.

## Transfer or Articulation Agreements with Other Institutions

Transfer credits may be approved by the coordinator to count toward the minor. If the transfer credit is accepted by the university and fits within the scope of the minor, it will be considered.

## Psychology (PSYC)

The Department of Psychology focuses on the scientific study of human and non-human behavior. The program exposes students to the scientific study of behavior and encourages an increased understanding of the behavior in humans and animals. Our bachelor of arts program in psychology is broad, with an emphasis on technical skills and the opportunity to specialize in areas that interest you. Courses cover such topics as clinical and counseling, social psychology, personality, psychological development, cognition in humans and non-humans,

neuroscience, sensory psychology and the history of psychology. Opportunities abound to gain research experience in a wide range of laboratories and/or to participate in clinically-oriented internships.

The program in neuroscience and behavior, shared between Liberal Arts and Life Sciences and Agriculture, focuses on the scientific study of the brain and its relationship to behavior. This Bachelor of Science program is structured around a rigorous core sequence of courses that incorporates an extensive laboratory experience, with the opportunity for specialization. Courses include such topics as endocrinology, genetics, neurology, animal behavior, neuroscience and philosophy, drugs, sensory systems, mood disorders and ecology. A large number of laboratories are available that routinely incorporate undergraduate students.

## Advising System

All students in the department will be assigned a professional advisor, either the department coordinator or the academic advisor. Academic advisors assist students in all phases of educational planning and decision making, including registration, long-range academic planning, degree and program requirements, and career selection and planning. Faculty advisors are available to consult with students about research and graduate school options.

## Undergraduate Awards for Majors

Each year the faculty chooses psychology undergraduates as the recipients of the following awards: the Herbert A. Carroll Award for an outstanding senior in psychology, the George M. Haslerud Award for an outstanding junior in psychology, the Fuller Foundation Scholarship for an outstanding junior in psychology with demonstrated interests in clinical psychology and the Peter S Fernald Scholarship for an undergraduate psychology major. Psychology majors with at least a 3.2 grade-point average are eligible for these awards. Faculty nominate students from the eligibility list and final selection of recipients is made by vote of the full-time psychology faculty.

## Honors Program in Psychology

The Department of Psychology sponsors an honors program for outstanding students in the major. Students may apply to the honors program in psychology in their sophomore or junior year.

### Eligibility criteria include

1. Overall grade-point average of 3.5 or above and 3.5 in major courses
2. Completion of PSYC 401 Introduction to Psychology, PSYC 402 Statistics in Psychology and PSYC 502 Research Methods in Psychology with a grade of B or above in each.

### Requirements of the program include

1. Designate three of the four 700-level psychology courses as honors or equivalent
2. PSYC 797 Senior Honors Tutorial (fall of senior year)
3. PSYC 799 Senior Honors Thesis (spring of senior year)

Students interested in applying to the honors program should contact the department coordinator by the end of their sophomore year.

## Undergraduate Research Conference

The Department of Psychology sponsors the annual George M. Haslerud Undergraduate Research Conference each spring. Undergraduate honors

students present their theses at the conference. Contact the department coordinator for more information.

## Five-Year BA/MA Program

The five-year B.A./M.A. program in experimental psychology aims to

1. improve opportunities for excellent undergraduates to prepare for competitive Ph.D. programs or add an additional credential before entering a competitive job market; and
2. allow students interested in experimental psychology to advance and further specialize their psychology education in only one additional year at UNH.

The M.A./B.A. requires 30 credits. Twelve credits will count towards both the B.A. and M.A. degree. These three courses count as electives and do not go towards the undergraduate psychology major. Students must fulfill all programmatic requirements for the master's degree program, as well as fulfill all programmatic requirements for their bachelor's degree.

The first step toward applying to the program is to contact a faculty member whose research is in a topic that matches your interest in order to arrange support for your thesis or paper of publishable quality. Interested students must submit a full graduate application to the graduate school during their junior year.

For additional information, please contact the department at 603-862-2360 or at [psychology.dept@unh.edu](mailto:psychology.dept@unh.edu).

<https://cola.unh.edu/psychology>

## Programs

- [Psychology Major \(B.A.\)](#) (p. 285)
- [Psychology Minor](#) (p. 287)
- [Neuroscience and Behavior Major \(B.S.\)](#) (p. 370)

## Faculty

<https://cola.unh.edu/psychology/faculty-staff-directory>

## Psychology Major (B.A.)

<https://cola.unh.edu/psychology/program/ba/psychology-major>

## Description

The psychology major provides students with a broad education, while also allowing some specialization. The program exposes students to the scientific study of behavior and encourages an increased understanding of the behavior of humans and animals.

Students who wish to declare psychology as a major after enrolling in the University should consult with the department's academic counselor for application procedures and criteria.

Requirements

Degree Requirements

Minimum Credit Requirement: 128 credits

Minimum Residency Requirement: 32 credits must be taken at UNH

Minimum GPA: 2.0 required for conferral\*

Core Curriculum Required: Discovery & Writing Program Requirements

Foreign Language Requirement: Yes

All Major, Option and Elective Requirements as indicated.

\*Major GPA requirements as indicated.

Major Requirements

Students majoring in psychology must complete 44 credits with a minimum grade of C- in each course and a 2.0 overall average in all major requirements.

Code	Title	Credits
PSYC 400	Psychology Freshmen Advising Seminar (Required for first semester freshmen)	1
Core Courses		
PSYC 401	Introduction to Psychology	4
PSYC 402	Statistics in Psychology	4
PSYC 502	Research Methods in Psychology	4
Breadth (500-level) courses		
Select two of the following courses from Group I:		8
PSYC 511	Sensation and Perception	
PSYC 512	Psychology of Primates	
PSYC 513	Cognitive Psychology	
PSYC 521	Behavior Analysis	
PSYC 522	Behaviorism (offered in Manchester only)	
PSYC 531	Psychobiology	
Select two of the following courses from Group II:		8
PSYC 552	Social Psychology	
PSYC 553	Personality	
PSYC 561	Abnormal Behavior	
PSYC 571	Pioneers of Psychology (offered in Manchester only)	
PSYC 581	Child Development	
Depth (700-level) courses		
Select two of the following courses from Group I:		8
PSYC 705	Tests and Measurement	
PSYC 710	Visual Perception	
PSYC 712	Psychology of Language	
PSYC 713	Psychology of Consciousness	
PSYC 716	Cognitive Neuroscience	
PSYC 720	Animal Cognition	
PSYC 722	Behaviorism, Culture, and Contemporary Society	
PSYC 731	Brain and Behavior	
PSYC 733	Drugs and Behavior	
PSYC 735	Neurobiology of Mood Disorders	
PSYC 736	Attention Disorders	
PSYC 737	Behavioral Medicine	
PSYC 741W	Special Topics (examples: Fundamentals of Substance Abuse, Neuroscience of Memory, Fundamentals of Cognitive Science, Neurobiology of Spatial Cognition & Memory)	
Select two of the following courses from Group II:		8
PSYC 705	Tests and Measurement	
PSYC 755	Psychology and Law	
PSYC 756	Psychology of Crime and Justice	
PSYC 757	Psychology of Happiness	
PSYC 758	Health Psychology	
PSYC 762	Counseling	
PSYC 780	Prenatal Development and Infancy	

PSYC 783	Cognitive Development	
PSYC 785	Social Development	
PSYC 791	Special Topics (examples: Culture and Human Development, Autobiographical Memory, Emotion & the Embodied Mind, Sport & Performance Psychology, Ecopsychology, Socio & Moral Judgement Development. Scientific Study of Groups & Bias)	
or PSYC 791W	Special Topics	
PSYC 793	Internship	
<b>Total Credits</b>		<b>45</b>

Note: Most offerings have one or more prerequisite courses. Students (with the help of their adviser) are expected to select breadth courses that will later enable them to select depth courses appropriate to their interests and career goals.

The Discovery Program capstone requirement, taken during the senior year, may be fulfilled by completing one of the following options:

- 1. The honors-in-major program with an honors project; honors seminar, and research presentation (PSYC 799 Senior Honors Thesis);
- 2. a 4-credit capstone designated independent study project (PSYC 795 Independent Study);
- 3. PSYC 793 Internship;
- 4. Capstone-designated 700-level course.

The psychology department does not accept other departments' statistics courses toward the psychology major. Students who have taken a statistics course other than PSYC 402 Statistics in Psychology must pass a competency exam in order to declare the major and/or register for PSYC 402 Statistics in Psychology.

Major department courses may not be used to satisfy Discovery category requirements except for PSYC 402 Statistics in Psychology, which may be used to satisfy the QR Discovery requirement and the major requirement.

PSYC 401 Introduction to Psychology cannot be used to fulfill a Social Science; PSYC 571 Pioneers of Psychology cannot be used to fulfill a Historical Perspective. In the case that Psychology is a second major, major courses can be counted toward the Discovery requirements.

Transfer Students

Transfer students who elect to major in psychology must complete at least 24 credits in the program at UNH to qualify for the degree in psychology. Transfer students must earn a total of 44 approved credits for completion of the psychology major. The distribution of these credits will be determined by the department's academic counselor. Transfer students should note that courses are allotted only the number of credits granted by the original institution (after adjustments for semester-hour equivalents). Thus, students transferring from an institution at which courses carry less than four credits each must make up for any credit deficit created by acceptance of transfer credits into the psychology major. Only courses taken in a psychology department can be transferred into the psychology major. Of the four 700-level courses required for the major, at least three must be taken at UNH.

Additional Notes

Specific course selections should be discussed with advisers. Exceptions to the requirements for the major require compelling circumstances and a petition to the department.

Psychology majors planning to go on to graduate study in psychology are advised to include PSYC 705 Tests and Measurement among their courses.

Candidates for a degree must satisfy all of the University Discovery Program requirements in addition to satisfying the requirements of each individual major program. Bachelor of arts candidates must also satisfy the foreign language proficiency requirement.

## Student Learning Outcomes

- Demonstrate fundamental knowledge and comprehension of the major concepts, theoretical perspectives, historical trends, and empirical findings in psychology.
- Understand basic research methods in psychology including design, data analysis, and interpretation; and utilize this knowledge to conduct their own psychological research, with an appreciation of the ethical issues involved in human and non-human research.
- Engage in scientific reasoning and problem solving so that they can evaluate the quality and implications of scientific research.
- Write empirical research reports and literature reviews in American Psychological Association style and present findings from scientific research.

## Psychology Minor

<https://cola.unh.edu/psychology/program/minor/psychology>

### Description

Psychology is the study of the mind and human and animal behavior – what motivates us to do the things that we do? In this program, you'll have the opportunity to learn scientific research and analysis methods while studying how we learn and develop, how we interact socially, how our minds affect the way we perceive things, and how we identify and define abnormal behavior.

### Requirements

Code	Title	Credits
PSYC 401	Introduction to Psychology	4
Two courses at the 500 level or higher		8
Two additional PSYC courses		8
<b>Total Credits</b>		<b>20</b>

- No more than 4 credits of PSYC 795 Independent Study may be applied to the minor.
- A maximum of 9 approved psychology transfer credits can be applied to the UNH psychology minor.
- Transfer courses must be evaluated for their equivalency. Only courses taken in a psychology department can be applied towards the minor.
- Three credit transfer courses can be applied as only three credits. Students must make up the credit deficit created by acceptance of transfer courses, with one exception: one three-credit course accepted in transfer may be applied for a total of 19 credits.
- AP Psychology transferred into UNH is equivalent as PSYC 401.

## Queer Studies

### Programs

- [Queer Studies Minor](#) (p. 287)

## Queer Studies Minor

<https://cola.unh.edu/womens-gender-studies/program/minor/queer-studies>

### Description

The queer studies minor provides students with opportunities to research and understand a rapidly growing field whose focus is the study of lesbian, gay, bisexual, trans and allied peoples, their histories and cultures. Queer studies is a method of inquiry that explores the role of same-sex desire and constructions of gender across and among cultures and histories. In these classes, students will consider sexualities and genders as identities and social statuses, as categories of knowledge, and as lenses that help to frame how we understand our world. The minor consists of interdisciplinary coursework in queer studies. Students who wish to pursue the queer studies minor should consult with [Holly Cashman](mailto:holly.cashman@unh.edu) ([holly.cashman@unh.edu](mailto:holly.cashman@unh.edu)).

### Requirements

The queer studies minor requires 5 courses (20 credits) from the queer studies course offerings list below. A grade of **C- or better** is required in all queer studies courses. One pre-approved elective from the electives list below may count toward the minor. Courses taken Pass/Fail may not be used for the minor. No more than 8 credits used to satisfy the requirements for a major may be used for the queer studies minor. If you wish to substitute a different course, consult with a queer studies faculty advisor.

## Queer Studies Course Offerings

Please note that additional courses may count. Please visit the program's website for the most up-to-date information.

Code	Title	Credits
ANTH 625	Sexuality in Cross-Cultural Perspectives	4

Race and Ethnic Studies (RES)

Programs

- [Race and Ethnic Studies Minor](#) (p. 288)

Race and Ethnic Studies Minor

<https://cola.unh.edu/interdisciplinary-studies/program/minor/race-ethnic-studies>

Description

The race and ethnic studies (RES) minor examines how racial and ethnic categories are created and maintained – politically, socially and culturally. RES uses critical, interdisciplinary and comparative approaches to study race relations as they intersect with factors including gender and sexuality, class, religion and immigration status. The minor prepares students for life and work in a world increasingly characterized by difference derived from racial and ethnic identities.

Learning Outcomes

Facilitate understanding of how the social constructions of race affect the social fabric of our historical and contemporary world; enhance students' abilities to appreciate differences and to actively and critically engage in civic responsibilities, especially with respect to social justice; prepare students to negotiate an increasingly interconnected world and apply their education in a wide range of occupations; gain exposure to the theories and methods of ethnic studies; and compare representations of borderlands, hybridity, migration and diaspora from different cultures to comprehend how national boundaries, as well as local, national, and transnational cultures and politics, affect the constitution of racial and ethnic categories.

Classes for the RES minor are housed in a variety of departments in the College of Liberal Arts, offering students a truly interdisciplinary

experience. Please contact the [Global Racial and Social Inequality Lab](#) (GRSI.LAB@unh.edu) for minor advising.

Requirements

The race and ethnic studies minor consists of five courses or 20 credits. To complete a minor, students are required to:

1. Enroll in an introductory-level course. (These are listed on the minor website each semester.)
2. Enroll in at least one course at the 600/700-level.
3. Understand that no more than 8 credits used to satisfy the requirements for a major may be used for a minor.
4. Earn a C- or better in each course and maintain a 2.0 grade-point average in courses taken for the minor.

List of Courses Approved for the Minor

Code	Title	Credits
ANTH 500	Peoples and Cultures of the World (when focus is Latin America, SubSaharan Africa or Middle East/North Africa)	4
ANTH #610	Medical Anthropology: Illness and Healing	4
ANTH #616	Religion, Culture, and Society	4
ANTH 625	Sexuality in Cross-Cultural Perspectives	4
ANTH 697/ENGL 693	Special Topics (American Roots Music)	4
ANTH 750	Islam and Gender: Gendered Lives of Muslims	4
CMN #515	Analysis of News	4
CMN 567	Gender, Race, and Class in the Media	4
CMN #696	Seminar in Media Studies (Topics in Film/Race, Class, Gender)	4
ENGL #517	Black Creative Expression	4
ENGL 550	Introduction to the Literature and Culture of Race	4
ENGL 581	Reading the Postcolonial Experience	4
ENGL 585	Introduction to Women in Literature	4
ENGL 595	Literary Topics (Intro/Caribbean Lit in English ONLINE)	4
ENGL 606	Languages of the World	4
ENGL 609	Ethnicity in America: The African American Experience in the 20th Century	4
ENGL 650	I Hear America Singing: Studying American Literature and Culture (Latino/A Literature, Comics & Graphic Narratives, Consumer Culture)	4
ENGL 714	Critical Skills (topic: On Race)	4
ENGL 739	American Indian Literature	4
ENGL 778/WS 798	Race and Gender in Film and Popular Culture	4
HIST 505	African American History	4
HIST #506	African American History	4
HIST 532	Modern Latin America	4
HIST 588	History of Modern Africa: 1870 to the Present	4
HIST 632	Latin American History: Topics	4
HUMA 730	Special Studies (Race Theory)	4
POLT 546	Wealth and Politics in Asia	4
POLT 565	United States Policy in Latin America	4
PSYC 571	Pioneers of Psychology	4
PSYC 791	Special Topics (Psychology and Race)	4
SPAN 526	Introduction to Latin American Cultures	4
SPAN 798	Topics in Hispanic Linguistics and Cultural Studies (Language & Id in Spanish)	4
SW 697	Special Topics in Social Welfare (Exploring Social Justice)	4
WS 401	Introduction to Women's Studies	4
WS 405	Gender, Power and Privilege	4
WS 444A	Race Matters	4
WS #444C	On the Roads to Equality	4
WS 444D	Cyborgs, Avatars, and Feminists: Gender in the Virtual World	4
WS 505	Survey in Women's Studies (Only topics: Leadership for Social Change, Queer Cinema, Queer Sustainability, Goba Sex Industry, Race, Gender and Environmental Jutsize, Feminist Perspectives on Media)	4
WS 632	Feminist Thought	4
WS 798	Colloquium (Women in Prison)	4

## Additional Information

Courses taken pass/fail may not be used toward a minor. A relevant internship may be substituted for one of the electives.

After completing the 20-credit sequence, the student submits the Certification of Completion of Minor form, available online or from the RES coordinator. Once this certification is approved by the RES coordinator and major adviser, the form goes to the college dean and the registrar to be recorded on the transcript. The certification form must be completed by the beginning of the student's final semester at the University.

## Religious Studies

- [Religious Studies Minor](#) (p. 289)

## Religious Studies Minor

<https://cola.unh.edu/interdisciplinary-studies/program/minor/religious-studies>

### Description

The religious studies program at the University of New Hampshire currently offers an interdisciplinary minor, bringing together courses in several fields that address religion as a cross-cultural and experiential phenomenon. Topics include beliefs, rituals, texts and the meaning of life as explored in a variety of religious traditions. A religious studies major is available through the self-designed major program. For more information, consult the coordinator.

### Requirements

Code	Title	Credits
<b>Required Courses</b>		
HIST 483	History of World Religions	4
HUMA/RS 505	Introduction to Religion	4
Electives: Select at least 3 additional courses from an approved semester list. See examples below.		12
<b>Total Credits</b>		<b>20</b>

## Examples of Approved Elective Courses

Code	Title	Credits
ANTH 640	Anthropology of Islam: Muslims' Everyday Lives in Contemporary Communities	4
ENGL 518W	Bible as Literature	4
HIST 585	Medieval Islam	4
HIST 642	Saints, Sinners, and Heretics: Europe in the Age of Religious Reform	4
HUMA 526	Humanities and Science (topic: Cognitive Science of Religion)	4
PHIL 417	God, Religion, and the Meaning of Life	4

Students especially interested in religious studies are encouraged to combine the minor with further pertinent coursework in one of the established departments contributing to the program: classics, humanities and Italian studies; history; philosophy; anthropology and English. The religious studies self-designed major includes the minor requirements of HUMA 505/RS 505 Introduction to Religion and HIST 483 as well as eight other relevant courses, which can include independent studies. The program coordinator can aid in advising such a major program.

Courses ordinarily have some degree of focus on issues related to the academic study of religion, conceptualizing religion, or religious

influences as a principal concern, asking comparative questions, and/or developing models of cross-cultural usefulness.

Interested students also should be alert for special topics courses in history (e.g. HIST 600 Explorations), English, anthropology (e.g. ANTH 500 Peoples and Cultures of the World), humanities, classics and other disciplines that might be relevant to the study of religion.

Students interested in the religious studies minor should see the coordinator to fill out an intent-to-minor form by the beginning of their junior year.

## Russian (RUSS)

The Russian program provides students with an opportunity to study one of the world's most important languages, its literature and its culture. In addition to the intrinsic value of Russian language, literature and culture as a liberal arts experience, the Russian major leads to a number of careers, such as teaching, translation and interpreting, government and the Foreign Service. It is also a valuable asset in preparing for careers in law, economics and international trade, and it can serve as a double major with business administration, international affairs, homeland security, the natural and physical sciences, and other liberal arts fields such as English, history, political science, sociology, philosophy, theatre, communication, linguistics and other foreign languages.

<https://cola.unh.edu/languages-literatures-cultures/faculty-staff-directory>

## Russian Major (B.A.)

<https://cola.unh.edu/languages-literatures-cultures/program/ba/russian-major>

### Description

The Russian program provides students with an opportunity to study one of the world's most important languages, its literature and its culture. In addition to the intrinsic value of Russian language, literature and culture as a liberal arts experience, majoring in Russian leads to a number of careers, such as teaching, translation and interpreting, government and the Foreign Service. The knowledge of the language and cultural proficiency is also a valuable asset in preparing you for careers in law, economics and international trade. All Russian majors are strongly encouraged to double major or include a relevant minor in their studies.

If you would like more information please contact [LLC.Dept@unh.edu](mailto:LLC.Dept@unh.edu).

Requirements

Degree Requirements

- Minimum Credit Requirement: 128 credits
- Minimum Residency Requirement: 32 credits must be taken at UNH
- Minimum GPA: 2.0 required for conferral\*
- Core Curriculum Required: Discovery & Writing Program Requirements
- Foreign Language Requirement: Yes

All Major, Option and Elective Requirements as indicated.  
\*Major GPA requirements as indicated.

Major Requirements

New students will be assigned to the proper language level course after consultation with the Russian faculty.

Candidates for a degree must satisfy all of the University Discovery Program requirements in addition to satisfying the requirements of each individual major program. Bachelor of arts candidates must also satisfy the foreign language proficiency requirement.

Russian majors may use two major-required courses to satisfy two Discovery category requirements. In addition, Russian majors may take RUSS 521W Devils, Deities, and Madness in Russian Literature to satisfy both a Discovery Inquiry requirement and a major requirement.

Transfer students must earn a minimum of 12 major credits at the Durham campus.

All students must complete at least 10 classes (40 credits). The required minimum overall GPA in major coursework is 2.0. Specific course requirements are:

Code	Title	Credits
Language Courses <sup>1</sup>		
Students entering major at a higher language level will replace the language courses with additional electives		
RUSS 401	Elementary Russian I	
RUSS 402	Elementary Russian II	
RUSS 503	Intermediate Russian I	
RUSS 504	Intermediate Russian II	
RUSS 631	Advanced Russian Conversation and Composition	
RUSS 632	Advanced Russian Conversation and Composition	
Electives <sup>2</sup>		
Select a minimum of three courses from the following Culture, Linguistics, and Literature category:		
RUSS #425M	Topics in Russian Culture and Society in Moscow	
RUSS 521W	Devils, Deities, and Madness in Russian Literature	
RUSS 525	Russia: Mythology and Propaganda	
RUSS #525M	Russia: Mythology and Propaganda in Moscow	
RUSS #685	Study Abroad	
RUSS 691W	Readings in Russian Literature	
RUSS #725M	Topics in Russian Culture and Society in Moscow	
RUSS 733	History of Slavic Languages and Culture	
RUSS 790W	Advanced Language and Style	
RUSS 797	Special Studies in Russian Language, Literature, and Culture	
LLC 540	Film History	
LLC 552	Comparative Literature: Masterpieces of World Literature II	
LLC 595	Language Practicum	
LLC 791	Methods of Foreign Language Teaching	
Capstone <sup>3</sup>		
LLC 790	World Languages Capstone	
Study Abroad		

Study abroad is a requirement for the Russian major, although an approved equivalent high-impact experience may be substituted for study abroad with a compelling justification.

- <sup>1</sup> While the major may start counting as early as the Elementary I level (RUSS 401), those who enter the major at a higher level (RUSS 503, RUSS 504, RUSS 631, or RUSS 632) will replace the courses they skip from the elementary, intermediate and advanced language category with additional courses from the electives category.
- <sup>2</sup> More electives required if fewer language credits were completed due to proficiency level and placement.  
Students are encouraged to take as many of the culture, linguistics, and literature elective in the Russian language as possible, but there is no limit on the number of classes conducted in English from the electives category. Students taking no classes in the target language in a given semester will be strongly encouraged to enroll in one credit of conversation hour to maintain their language skills, and many of the courses taught in English will allow students the option to (or even require students to) do some work in the target language.
- <sup>3</sup> Or approved equivalent 700-level course taken at UNH, approved study abroad equivalent, or approved high-impact experience (such as internship with a robust target language/culture component).

Student Learning Outcomes

- Upon completion of a Russian major, students are able to express themselves orally and in writing on a variety of topics with accuracy, and they are able to support their opinions with evidence found in the media and scholarly reading. Students are able to articulate their ideas and defend their opinions.
- Throughout the language sequence students are expected to give oral presentations on a variety of topics, related to their interest, second major or minor.
- Students have spent at least 8 weeks-semester/year in Russia on a study abroad program, which strengthens their language skills, improves their proficiency, both in language and culturally, and which allows them to interact with native speakers. The major includes at least two courses on Russian literature (one in English and one in Russian), and students are familiar with the works of major Russian authors (i.e. Pushkin, Lermontov, Turgenev, Gogol, Dostoevsky, Tolstoy, Chekhov, Pasternak, Solzhenitsyn, Zoshchenko, Bulgakov, among others.) Students are able to understand the texts in the historical and literary movements of Russia, as well as analyze the works in and of themselves. Students study the cultural history of Russia/Soviet Union/Russia to understand the Russian perspective of itself and the world.

Russian Minor

<https://cola.unh.edu/languages-literatures-cultures/program/minor/russian>

Description

The Russian program provides students the opportunity to minor in Russian. Students develop language proficiency, a solid knowledge of grammar and pronunciation, and knowledge of Russian culture. Students with a Russian minor will have a sufficient command of the language to enhance their chosen field of study, and will have countless career

opportunities, such as the public, private and nonprofit sectors, including government, education, journalism, law, communications, and business.

Students in the Russian minor program at UNH are strongly encouraged to study on the UNH Study Abroad Program in Russia. Students can earn credits toward the Russian minor as well as complete two Discovery categories on the program. Foreign language skills and cultural competencies will open doors for students that would not have been opened without the minor in Russian.

## Requirements

The minor in Russian consists of 20 credits in Russian courses above RUSS 402 Elementary Russian II; it must include:

Code	Title	Credits
RUSS 503 & RUSS 504	Intermediate Russian I and Intermediate Russian II	8
Select at least one of the following:		4
RUSS 631	Advanced Russian Conversation and Composition	
RUSS 632	Advanced Russian Conversation and Composition	
RUSS 691W	Readings in Russian Literature	
RUSS 790W	Advanced Language and Style	
Select two elective RUSS courses above RUSS 402		8
<b>Total Credits</b>		<b>20</b>

Students wishing to minor are expected to meet with a faculty member from the Russian program to discuss their course of study.

At the beginning of your final semester of study, you should fill out a [certification of completion of minor](#) form, obtain the necessary signatures, and submit it to your Dean's Office.

## Sociology (SOC)

Sociology is the study of social life, social change, and the social causes and consequences of human behavior. Sociologists investigate the structure of groups, organizations and societies, and how people interact within these contexts.

Since human behavior is shaped by social factors, the subject matter of sociology ranges from the intimate family to the hostile mob; from organized crime to religious cults; from the divisions of race, gender and social class to the shared beliefs of a common culture.

<https://cola.unh.edu/sociology>

## Programs

- [Sociology Major \(B.A.\)](#) (p. 291)
- [Sociology Minor](#) (p. 292)
- [Medical Sociology Cognate](#) (p. 204)

## Faculty

<https://cola.unh.edu/sociology/people>

## Sociology Major (B.A.)

<https://cola.unh.edu/sociology/program/ba/sociology>

## Description

Majoring in sociology provides a solid, multifaceted foundation in the liberal arts, including analytical thinking and writing, and skills in collecting and analyzing data. Students learn diverse theoretical approaches to the social world and acquire tools for conducting and understanding social science research. The wide range of substantive areas taught in the UNH Department of Sociology include courses concentrating on family and work; environmental sociology; social policy; inequalities of race, class and gender; criminology, social control and deviant behavior; medical sociology and mental health; and religion.

Undergraduate training in sociology is an excellent background for a variety of careers, including the business world, where majors might work in marketing and sales or human resources; government and nonprofit services, where majors might work in education, health services, social welfare or criminal justice; and research. An undergraduate degree in sociology is also excellent preparation for graduate work in law, social work, criminal justice, counseling, public administration, public health, business administration, urban planning or further studies in sociology.

Conjoint minors (allowing double-counting of one or two courses) are available for justice studies; gerontology; American studies; race and ethnic studies; women's and gender studies; and other approved minors. Students also have the opportunity to pursue a second major, including justice studies. Students interested in social work or teaching can develop programs in conjunction with the appropriate departments. The departmental honors program is recommended for students with cumulative grade-point averages over 3.4, and especially for those anticipating graduate study.

## Requirements

### Degree Requirements

**Minimum Credit Requirement:** 128 credits

**Minimum Residency Requirement:** 32 credits must be taken at UNH

**Minimum GPA:** 2.0 required for conferral\*

**Core Curriculum Required:** Discovery & Writing Program Requirements

**Foreign Language Requirement:** Yes

All Major, Option and Elective Requirements as indicated.

\*Major GPA requirements as indicated.

### Major Requirements

Majors must complete a minimum of 40 semester credits in sociology courses with grades of C- or better in each course as well as maintain an overall GPA of 2.0 or better in all sociology courses.

Code	Title	Credits
<b>Required Core Courses</b>		
SOC 400	Introductory Sociology	4
SOC 402	Statistics	4
SOC 599	Sociological Analysis <sup>1</sup>	4
SOC 601	Methods of Social Research <sup>2</sup>	4
<b>Electives</b>		<b>20</b>
Select five sociology elective courses, at least two of which must be at the 600 or 700 level (upper-level electives).		
SOC #440A	Honors/Drug Addiction in American Society	

SOC 444A	Honors/Society in the Arctic	
SOC 450	Contemporary Social Problems	
SOC 515	Introductory Criminology	
SOC 520	Family	
SOC 525	Juvenile Crime and Delinquency	
SOC 530	Race and Racism	
SOC 535	Homicide	
SOC 555	Death and Dying in America	
SOC 565	Environment and Society	
SOC 570	Sexual Behavior	
SOC 595	Independent Reading and Research	
SOC 597	Special Topics	
SOC 620	Drugs and Society	
SOC 625	Mental Health and Society	
SOC 627	Sociology of Fashion	
SOC 636	Sociology of Justice	
SOC 645	Class, Status and Power	
SOC 647	Sociology of Work and Well-Being	
SOC #656	Terrorism	
SOC #660	Urban Sociology	
SOC 665	Environmental Sociology	
SOC #656	Terrorism	
SOC 693	Global Social Change	
SOC 697	Special Topics	
SOC #715	Criminological Theory	
SOC #720	Sociology of Drug Use	
SOC 725	Social Demography	
SOC 730	Communities and the Environment	
SOC 740	Sociology of Mental Health	
SOC 745	Race, Ethnicity, and Inequality	
SOC #773	Childhood and Social Policy	
SOC 788	Advanced Medical Sociology	
SOC 792	Internship Independent Study	
SOC 797	Special Topics	
SOC 799	Senior Thesis	
<b>Capstone Requirement</b>		
SOC 611	Sociological Theory <sup>3</sup>	4
<b>Total Credits</b>		<b>40</b>

<sup>1</sup> SOC 599 Sociological Analysis must be completed no later than the junior year and is a prerequisite for majors taking 600- and 700-level courses.

<sup>2</sup> SOC 402 Statistics is a prerequisite for SOC 601 Methods of Social Research.

<sup>3</sup> Complete SOC 611 Sociological Theory during senior year.

SOC 595 Independent Reading and Research can be used to fulfill one lower-level elective or SOC 799 Senior Thesis can be used to fulfill one upper-level elective. Sociology majors may use two major-required courses to satisfy two Discovery category requirements. In addition, SOC 599 Sociological Analysis can be used to satisfy both a major requirement and the Inquiry Discovery requirement. (Statistics courses taken in other disciplines are not acceptable as a substitute for SOC 402 Statistics.)

Candidates for a degree must satisfy all of the University Discovery Program requirements in addition to satisfying the requirements of each individual major program. B.A. candidates must also satisfy the foreign language proficiency requirement.

Students interested in majoring in sociology should consult with the director of undergraduate program in the sociology department for guidance. It is the responsibility of all sociology majors to obtain the latest information from the department office.

## Sociology Language Requirement

The bachelor of arts degree at the University of New Hampshire requires that students satisfy the foreign language proficiency requirement. The requirement may be met by demonstrating language proficiency equal to a one-year college-level course (401 and 402, 403 and 503, 501 [Latin only], or 503 and above in a spoken language). American Sign Language courses meet the foreign language proficiency requirement for sociology majors when ASL I and ASL II have been completed.

## Student Learning Outcomes

- Outcome 1: Students will learn to articulate and evaluate how individual biographies are shaped by social structures, social institutions, cultural norms, and multiple of dimensions of social stratification and inequality. (Sociological imagination)
- Outcome 2: Students will learn to analyze and evaluate multiple and competing arguments about high-profile social, political, and cultural current events; distinguish between evidence and opinions; and use reason and data to advance an argument. (Critical thinking)
- Outcome 3: Students will learn to use, evaluate, and apply classical and contemporary theoretical perspectives to historical and contemporary events. (Sociological theory)
- Outcome 4: Students will learn how to generate and interpret qualitative and quantitative data in a value-neutral way. (Data analysis)
- Outcome 5: Students will learn how to interpret and evaluate several of the major social science research methodologies, as well as the relationship between research questions and appropriate methods. (Research methods)
- Outcome 6: Students will learn to effectively communicate a sociological perspective both in writing and verbally. (Communication skills)
- Outcome 7: Students will learn to understand how people of different cultural, racial, ethnic, sex, gender, religious, and political identities interpret the world around them. (Diversity, Equity, and Inclusion)
- Outcome 8: Students will learn to work effectively and respectfully with people of different backgrounds, experiences, and perspectives. (Collaboration)

## Sociology Minor

<https://cola.unh.edu/sociology/program/minor/sociology>

## Description

Minoring in sociology provides a foundation in analytical thinking and writing, and skills in collecting and analyzing data. Students learn diverse theoretical approaches to the social world and acquire tools for conducting and understanding social science research. Course topics include family and work; environmental sociology; social policy; inequalities of race, class and gender; criminology, social control and deviant behavior; medical sociology and mental health; and religion.

Undergraduate training in sociology is an excellent background for a variety of careers, including the business world, working in marketing and sales or human resources; government and nonprofit services, working in education, health services, social welfare or criminal justice; and research. A minor in sociology is also excellent preparation for graduate work in law, social work, criminal justice, counseling, public

administration, public health, business administration, urban planning and other fields.

## Requirements

A minor consists of any five 4-credit courses in sociology with a C- or better in each course and a grade-point average of 2.0 or better in these courses.

Code	Title	Credits
Select five elective courses from the following:		
SOC 400	Introductory Sociology	4
SOC 402	Statistics	4
SOC #402H	Honors/Statistics	4
SOC #440A	Honors/Drug Addiction in American Society	4
SOC 444A	Honors/Society in the Arctic	4
SOC 450	Contemporary Social Problems	4

SOC 799	Senior Thesis	4 or 8
SOC 799H	Senior Honors Thesis	4 or 8

## Medical Sociology Cognate

<https://cola.unh.edu/sociology/program/cognate/medical-sociology>

### Description

The medical sociology cognate provides students with an understanding of how social structure shapes the etiology of health and illness as well as the availability, effectiveness and choices around health care on micro and macro levels. It develops students' sociological imagination, fosters their application of a sociological perspective to the study of health, and allows them to gain the skills needed to be informed consumers of

empirical health research. The focus on empirical literacy that is central to courses in sociology facilitates students' ability to communicate and apply research findings in their respective professional fields.

Although the sociological perspective will benefit students from all backgrounds, a cognate in medical sociology may be especially relevant for students majoring in biomedical science, neuroscience and behavior, psychology, gerontology, health and physical education, nursing, health policy and administration, business, human development and others.

## Requirements

- Any three courses in medical/health focused sociology courses (12 credits) with a grade of C- or better
- Submission of a completed "Certification of Completion of Cognate" form
- Courses taken pass/fail may NOT be used for the cognate.
- Sociology majors may count cognate classes as major electives.

Code	Title	Credits
Select three courses from the following:		
SOC #440A	Honors/Drug Addiction in American Society	4
SOC 555	Death and Dying in America	4
SOC 570	Sexual Behavior	4
SOC 597	Special Topics (Topic: Death & Dying in America)	4
SOC 620	Drugs and Society	4
SOC 625	Mental Health and Society	4
SOC 635W	Medical Sociology	4
SOC 647	Sociology of Work and Well-Being	4
SOC 697	Special Topics (Topic: Work and Well-Being)	4
SOC #720	Sociology of Drug Use	4
SOC 740	Sociology of Mental Health	4
SOC 788	Advanced Medical Sociology	4
SOC 797	Special Topics (Topics: Global Health, Social Dimensions of COVID-19)	4
Total Credits		12

## Spanish (SPAN)

The Spanish program major and minor in the Department of Languages, Literatures and Cultures helps students develop Spanish language proficiency and enhanced knowledge of the cultural and literary achievements of Hispanic societies around the globe. This dual emphasis on communication and cultural analysis prepares students to live in communities where Spanish is increasingly important professionally and personally.

Students also have the option to complete honors in the major providing they complete the necessary classes and a senior thesis in Spanish.

The UNH study abroad program in Granada, Spain, open to majors and nonmajors, offers students the opportunity to live and study abroad for a spring semester. A six-week summer immersion program in Costa Rica also is available to students. Financial aid is available for eligible students. Visit [cola.unh.edu/granada](https://cola.unh.edu/granada), [cola.unh.edu/costa-rica](https://cola.unh.edu/costa-rica), or contact the departmental program directors for further information.

## Accelerated B.A./M.A. Program

The dual-degree B.A./M.A. program in Spanish in the Department of Languages, Literatures and Cultures offers high-achieving students the opportunity to earn both an undergraduate and a graduate degree during their time at UNH. Qualified students may be accepted into the program late in the first semester of their junior year and begin to take graduate courses in the spring of their senior year. Students graduate with a B.A.

upon completion of 128 credits (including all University, College and Program requirements), and then complete graduate work (30 credits) the following year. After only five years of study, students earn both degrees.

<https://cola.unh.edu/languages-literatures-cultures>

## Programs

- [Spanish Major \(B.A.\)](#) (p. 294)
- [Spanish Minor](#) (p. 295)

## Faculty

<https://cola.unh.edu/languages-literatures-cultures/faculty-staff-directory>

## Spanish Major (B.A.)

<https://cola.unh.edu/languages-literatures-cultures/program/ba/spanish-major>

## Description

When you major in Spanish you are opening your opportunities to a variety of fields in which proficiency in the Spanish language and knowledge of Hispanic cultures are desirable or required. Such fields might include international relations, business administration, government, social service and communications. In addition, students can prepare to teach Spanish at the elementary and secondary level and in bilingual education programs through UNH's MAT in Secondary Education with a certification in World Languages. The undergraduate major also provides a basis for graduate study in preparation for scholarly research and teaching at the college level. When combined with coursework or a dual major in other disciplines, the major prepares students for work in Spanish-speaking areas of the world as well as in bilingual regions of the United States.

## Requirements

### Degree Requirements

**Minimum Credit Requirement:** 128 credits

**Minimum Residency Requirement:** 32 credits must be taken at UNH

**Minimum GPA:** 2.0 required for conferral\*

**Core Curriculum Required:** Discovery & Writing Program Requirements

**Foreign Language Requirement:** Yes

All Major, Option and Elective Requirements as indicated.  
\*Major GPA requirements as indicated.

### Major Requirements

All students must complete at least 10 classes (40 credits). All coursework required for the Spanish major must be completed with a grade of C or better. Specific course requirements are:

Code	Title	Credits
<b>Language Courses <sup>1</sup></b>		
Students entering major at a higher language level will replace the language courses with additional electives		
SPAN 503	Intermediate Spanish I	
SPAN 504	Intermediate Spanish II	
SPAN 631	Advanced Conversation and Composition I	
SPAN 632	Advanced Conversation and Composition II	
<b>Electives <sup>2</sup></b>		
Select a minimum of five courses from the following Culture, Linguistics, and Literature category		
SPAN 525	Introduction to Spanish Cultures	
SPAN 526	Introduction to Latin American Cultures	
SPAN #535B	Professional Culture in Latin America - Case Study:Mexico and Brazil	
SPAN 641	Spanish Language Variation & Change	
SPAN 645	Intro to Spanish Linguistics	
SPAN 647	Topics in Hispanic Cultural Studies	
SPAN 648	The Hispanic World Today	
SPAN 650	Hispanic Literature and Popular Culture	
SPAN 651	Introduction to Spanish Literature and Thought

SPAN #653	Introduction to Latin American Literature and Thought	
SPAN 654	Introduction to Latin American Literature and Thought	
SPAN 790	Topics in Second Language Acquisition/Pedagogy/Methodology	
SPAN 797	Topics in Hispanic Literary and Cultural Studies	
SPAN 798	Topics in Hispanic Linguistics and Cultural Studies	
SPAN 799	Senior Honors	
LLC #535B	Professional Culture in Latin America - Case Study:Mexico and Brazil	
LLC 444H	Honors/Human Rights and the Disappeared in Latin American Culture	
LLC 540	Film History	
LLC 552	Comparative Literature: Masterpieces of World Literature II	
LLC #555	Discover Cuba: An Arts Experience	
LLC 791	Methods of Foreign Language Teaching	
<b>Capstone <sup>3</sup></b>		
LLC 790	World Languages Capstone	
<b>Study Abroad</b>		
An approved foreign study experience in a Spanish-speaking country is required, although an approved equivalent high-impact experience may be substituted for study abroad with a compelling justification		

<sup>1</sup> While the major may start counting as early as the Intermediate I level (SPAN 503), those who enter the major at a higher level (SPAN 504, SPAN 631, or SPAN 632) will replace the courses they skip from the four in the intermediate and advanced language category with additional electives in the Culture, Linguistics, and Literature category.

<sup>2</sup> More electives required if fewer language credits were completed due to proficiency level and placement.  
No limit on the number of classes in English allowed. Students taking no classes in the target language in a given semester will be strongly encouraged to enroll in one credit of conversation hour to maintain their language skills, and many of the courses taught in English will allow students the option to (or even require students to) do some work in the target language.

<sup>3</sup> Or approved equivalent 700-level course taken at UNH, approved study abroad equivalent, or approved high-impact experience (such as internship with a robust target language/culture component).

Please note that the required minimum overall GPA for study abroad and the Spanish major coursework is 2.0.

Candidates for a degree must satisfy all of the University Discovery Program requirements in addition to satisfying the requirements of each individual major program. Bachelor of arts candidates must also satisfy the foreign language proficiency requirement.

Spanish majors may use two major-required courses to satisfy two Discovery category requirements.

## Student Learning Outcomes

**Linguistic proficiency** Students can demonstrate an Advanced level of proficiency (as defined in ACTFL Proficiency Guidelines) in the target language in speaking, writing, listening and reading.

- **Speaking:** students are able to handle a variety of communicative tasks. They are able to participate in most informal and formal conversations on topics related to school, home, academic, and other activities. They can also speak about topics related to employment, current events, and matters of public and community interest.
- **Writing:** students are able to meet work and/or academic writing needs. They demonstrate the ability to narrate, describe and express viewpoints about topics in major time frames with control of aspect.
- **Listening and Reading:** students are able to understand conventional narrative and descriptive texts (spoken and/or written). They can understand the main facts, tone and style, and supporting details.
- **Comprehension:** students may often develop understanding primarily from their particular situational and subject-matter knowledge(course materials, contextual knowledges, and study abroad experiences), but each student should be able to extend and expand their comprehension to most areas of specialized and non-specialized materials, especially as that directly relates to any of the student's other major and minor academic subjects of study.

**Intercultural and transcultural competence** Students will demonstrate knowledge and understanding of other cultures, and are able to think critically about and are able to recognize and accept culturally differences, and the uniqueness of other cultures and peoples. By the time they graduate from our program, they will be able to:

- Recognize and describe the historical, social, economic, and political forces that shape society in the various target cultures that they have directly studied (taking into account that they cannot be familiar with all the particular specificities of the 23+ nations of the Spanish-Speaking world).
- Analyze and critique the cultural and social products of the target culture(s)(film, literature, art, popular culture, media, etc.) within their context, including conducting basic research projects.
- On a broader level, each student should be able to begin to question the validity of their own cultural beliefs, behaviors and norms, by contrasting and comparing them with those of the target culture (cross-cultural sensitivity and respect).
- Students should be able to perceive and value cultural diversity and reinterpret the place of the self as an individual culturally situated within the global context of the twenty-first century.

## Spanish Minor

<https://cola.unh.edu/languages-literatures-cultures/program/minor/spanish>

### Description

When you minor in Spanish you are expanding upon opportunities and opening doors to careers in your field of interest. Many other disciplines such as social service, nursing, teaching and business require Spanish as a second language since Spanish is the second most spoken language in the United States. Increasingly, employers in government at municipal,

state and federal levels and business as well as related careers, are viewing such experience and language skills favorably.

## Requirements

At least three courses must be taken in residence at UNH. All coursework required for the Spanish minor must be completed with a grade of C or better and may not be taken pass/fail.

Code	Title	Credits
5 courses (20 credits) in SPAN 503 or above, which must include:		
SPAN 631	Advanced Conversation and Composition I	20
SPAN 632	Advanced Conversation and Composition II	
Total Credits		20

## Theatre and Dance (THDA)

There is no area of human endeavor that theatre does not touch. To study theatre is to learn a great deal about yourself and about the world in which you will live. No course of study will prepare you better for life in a rapidly changing world.

The award-winning faculty at the University of New Hampshire provide theatre and dance majors with superlative training within a broad liberal arts context. Students may take courses in acting; voice and movement; dialects; directing; choreography; design and theatre technology; the history, theory and criticism of drama and theatre; youth drama; secondary theatre education; playwriting; storytelling; puppetry; ballet; theatre dance (jazz and tap); aerial dance; and musical theatre. Students interested in performance, technical and historical aspects are trained to step into professional careers while still broadening the scope of their preparation through a rich liberal arts education. The program encourages students to explore their interests through independent studies and internships, special projects and active personal involvement in lecture and laboratory classes, with the possibility for integration with other departments. To assist with financial needs, the department awards scholarships to selected majors each spring.

The Department of Theatre and Dance offers over 25 performance opportunities every year in either musicals, plays or dance concerts. In addition to performing, students are given the opportunity to direct, stage manage, design, choreograph or write scripts for the work done in our department. We offer jazz, tap and ballet studies. In addition, UNH was the first university to add Aerial Dance to course offerings. Students study with faculty who have worked locally, nationally and internationally.

In addition to comprehensive liberal arts preparation, six specific course sequences are available within the theatre major:

1. courses leading to a theatre major with an option in acting & directing;
2. courses leading to a theatre major with an option in dance: ballet, theatre dance (tap and jazz) and aerial dance. Students also have the option of pursuing dance education leading to K-12 dance teacher certification. You may achieve dance licensure in two different ways. You may pursue dance education/licensure through the undergraduate program. This leaves no room for double majors or minors. If you want to broaden your undergraduate education and need more space for classes outside of THDA, you may pursue the five-year program, beginning preparation for teaching at the undergraduate level and then pursuing a graduate degree to get dance certification. Students complete a baccalaureate degree in theatre with a dance option and move into a fifth year of study with a

full-year internship, leading to either the Masters in Education (M.Ed.) or a Master of Arts in Teaching (M.A.T.) degree and licensure for teaching;

3. courses leading to a theatre major with an option in design & theatre technology;
4. courses leading to a theatre major with an option in musical theatre;
5. courses leading to a theatre major that, if desired, may be combined with requirements of the Department of Education to pursue a K-12 teacher's license. You may achieve theatre licensure in two different ways. You may pursue secondary theatre education/licensure through the undergraduate program. This leaves no room for double majors or minors. If you want to broaden your undergraduate education and need more space for classes outside of THDA, you may pursue the five-year program, beginning preparation for teaching at the undergraduate level and then pursuing a graduate degree to get theatre arts certification. Students complete a baccalaureate degree in theatre with a secondary theatre education option and move into a fifth year of study with a full-year internship, leading to either the Masters in Education (M.Ed.) or a Master of Arts in Teaching (M.A.T.) degree and licensure for teaching;
6. courses leading to a theatre major that, if desired, may be combined with requirements of the Department of Education, in conjunction with a fifth year master of education (M.Ed.) program, to prepare students for elementary school certification with an undergraduate option in youth drama.

Auditions are required for the acting, dance and musical theatre options. Interviews are strongly encouraged for all other areas. The audition session will last approximately three hours. In addition to the audition, students will take part in group acting exercises, do a dance call and have an opportunity to ask questions during a comprehensive department overview. Please note that entrance into Department of Theatre and Dance options is contingent upon acceptance into the University of New Hampshire. Prospective students who live more than 250 miles away may contact the department to discuss other audition options. Audition dates, as well as detailed entrance requirements, can be found at the Department of Theatre and Dance website.

## Minoring in Theatre and Dance

A minor acknowledges a level of competence and academic focus without the depth a major requires. Students may pursue a minor while majoring in another subject when the demands of that major prevent the possibility of a double major.

## Theatre Major (B.A.)

<https://cola.unh.edu/theatre-dance/program/ba/theatre-major>

## Description

The comprehensive theatre major provides a well-rounded course of study which encourages inquisitive students who have a wide range of theatre/dance interests to tailor a program that will challenge but also broaden their intellectual horizons. Its lower required credit load also makes it ideally suited to students who want to combine their theatre studies with another major, such as business administration, international studies or social work. Contact [Szu-Feng Chen \(szu-feng.chen@unh.edu\)](mailto:Szu-Feng Chen (szu-feng.chen@unh.edu)), Paul Creative Arts Center, (603) 862-4445.

## Requirements

### Degree Requirements

**Minimum Credit Requirement:** 128 credits

**Minimum Residency Requirement:** 32 credits must be taken at UNH

**Minimum GPA:** 2.0 required for conferral\*

**Core Curriculum Required:** Discovery & Writing Program Requirements

**Foreign Language Requirement:** Yes

All Major, Option and Elective Requirements as indicated.

\*Major GPA requirements as indicated.

### Major Requirements

In the freshman and sophomore years, students should enroll for at least two major and two Discovery courses per semester. The minimum grade requirement for major courses is C- per course. Any grade lower than C- will not count toward the major. Under department policy, students who complete both COMM 401 American Sign Language I and COMM 502 American Sign Language II satisfy the bachelor of arts language proficiency requirement. All majors must take courses in the following areas: performance, design/theatre technology and theory/history as well as fulfill between four and eight practicums and complete a capstone course. Although timing will vary with each option, it is strongly suggested that all introductory courses be taken prior to the end of the student's sophomore year. Students must also complete a digital portfolio that demonstrates fulfillment of student learning outcomes related to their area of study.

The required minimum overall GPA in major coursework is 2.0.

Candidates for a degree must satisfy all of the University Discovery Program requirements in addition to satisfying the requirements of each

individual major program. Bachelor of arts candidates must also satisfy the foreign language proficiency requirement.

Theatre department majors may use one major-required course to satisfy one Discovery category requirement.

All UNH B.A. degrees require a minimum of 128 credit hours.

<sup>1</sup> The practicum ensures a breadth of experience in the major, including sets, costumes, lighting, props, box office, marketing, and performing. Students must register for practicum every semester. They are notified of their practicum assignment at the beginning of each semester.

<sup>2</sup> Includes those in Sections II, III, and IV

## Student Learning Outcomes

**Core Student Learning Outcomes for the Bachelor of Arts in Theatre major:** On completion of the B.A. in Theatre, students will:

- Recognize and distinguish between various styles and forms of theatre or dance that have shaped the evolution of these disciplines.
- Effectively communicate artistic ideas and/or critical analysis of theatre or dance works through appropriate oral, written or practical means.
- Demonstrate knowledge and fundamental skill level of the basic areas of theatre or dance production in areas related to performance, design, technology or management.
- Create and demonstrate informed and personal artistic choices in coursework and productions (i.e., design, dance, directing, acting).

## Theatre Major: Acting and Directing Option (B.A.)

<https://cola.unh.edu/theatre-dance/program/ba/theatre-major-acting-directing-option>

### Description

Created for students with a passion for acting and/or directing, this option is designed to develop the actor and the director as an interpretive, creative and self-sufficient artist. Award-winning faculty working in the profession challenge students to strive for excellence in the art and craft of acting and directing through highly challenging coursework, performance projects and productions, as well as special workshops with acclaimed guest artists.

## Student Learning Outcomes

**Core Student Learning Outcomes for the Bachelor of Arts in Theatre major:** On completion of the B.A. in Theatre, students will:

- Recognize and distinguish between various styles and forms of theatre or dance that have shaped the evolution of these disciplines.
- Effectively communicate artistic ideas and/or critical analysis of theatre or dance works through appropriate oral, written or practical means.
- Demonstrate knowledge and fundamental skill level of the basic areas of theatre or dance production in areas related to performance, design, technology or management.

- Create and demonstrate informed and personal artistic choices in coursework and productions (i.e., design, dance, directing, acting).

**Additional Student Learning Outcomes for Option in Acting and Directing:** In addition to the shared department learning outcomes for all THDA students, upon completion of the major with an Option in Acting and Directing, students will:

- Achieve at minimum an intermediate proficiency in fundamental skills related to theatrical performance.
- Utilize critical thinking and writing skills to analyze plays for both the performance of roles and the direction of productions in a range of styles and genres.
- Effectively communicate and collaborate with all participants in the interactive and creative process of theatre.
- Form, communicate and defend verbally and in writing value judgments about quality and aesthetics of performance and directing in works of theatre.
- Demonstrate knowledge of basic terminology of acting and directing as well as leading practitioners and theorists of the acting and directing process.

## Theatre Major: Dance Option (B.A.)

<https://cola.unh.edu/theatre-dance/program/ba/theatre-major-dance-option>

### Description

The dance option offers a diverse program that is designed to give the dance teacher, choreographer and/or performer the skills needed to embark on a successful career. Technique courses in ballet, pointe, tap, jazz and the aerial arts are at the core of this program. Courses in history of dance, composition, choreography and dance pedagogy aid dancers in preparing for a variety of employment opportunities in the dance field. In addition, dancers are introduced to the technical aspects involved in staging a full-scale performance. Performance opportunities include yearly faculty-directed dance concerts and student-created dance showcases each semester. Dancers may focus on one or all dance forms.

If you are interested in teaching grades K-12, you could pursue dance education, either through NH Dance K-12 teacher undergraduate certification, or you could pursue a fifth-year master's in teaching program through the UNH Education Department. A Master's degree can raise your salary significantly when entering the workforce.

Students who show mastery of aerial dance performance have the unique opportunity to receive Aerial Dance Teacher Training. Students may leave UNH with a certificate verifying they have completed a 75 hour training program focused on the fundamental skills needed to safely teach Aerial Dance.

## State K-12 Teacher Certification

Certification in dance is part of the pre-service programs in teacher education, which seek to prepare teachers who demonstrate excellence in classroom practice and who will become educational leaders. You may achieve dance licensure in two different ways. You may pursue dance education/licensure through the undergraduate program. This leaves no room for double majors or minors. If you want to broaden your undergraduate education and need more space for classes outside of THDA, you may pursue the five-year program, beginning preparation for teaching at the undergraduate level and then pursuing a graduate degree to get dance certification. Students complete a baccalaureate degree in theatre with a dance option and move into a fifth year of study with a full-year internship, leading to either the Masters in Education (M.Ed.) or a Master of Arts in Teaching (M.A.T.) degree and licensure for teaching. With a GPA of 3.2 or better, you may be eligible for early admission to the graduate program, allowing up to twelve credits to dual count for both undergraduate and graduate degrees. Successful completion of the Praxis Core test is required for UNH graduate school admission. To complete the work in five years, students must plan for dual admission to graduate school and also take multiple education courses during the undergraduate years.

The kindergarten through 12th grade certification in the dance education program provides the foundation for public school teaching certification. This program integrates a general education background with dance training in a variety of dance styles, dance history, choreography and dance pedagogy for the purpose of understanding content, process, and methodologies of dance as an art form. All five-year candidates must meet requirements for admission to graduate school. All K-12 education in dance students must receive a "C-" grade or better in all theatre and dance courses required in the program and a "B-" or better in the graduate level courses. New Hampshire also participates in a reciprocal agreement with many other states, the Interstate Certification Compact. For further clarification regarding undergraduate or graduate teacher certification options, contact Assaf Benchetrit, Paul Creative Arts Center, (603) 862-4485, [assaf.benchetrit@unh.edu](mailto:assaf.benchetrit@unh.edu).

## 4-Year Teacher Licensure B.A. Program

The 4-year teacher licensure B.A. program includes the same requirements as the B.A. dance option but with the following modifications.

- The THDA 551: Acting I requirement is waived.
- The THDA 798/799 requirement is replaced with EDUC 694 Courses in Supervised Teaching.

- The Performance requirement is reduced from 16 credits to 12 credits.
- The following requirements are added:

Code	Title	Credits
BMS 507	Human Anatomy and Physiology I	0 or 4
EDUC 500	Exploring Teaching	4
EDUC 605	Educational Perspectives in Critical Times	4
EDUC 694	Courses in Supervised Teaching	8
EDUC 701	Human Development & Learning: Cultural Perspectives	4
EDUC 751A or EDUC 751B	Inclusive Elementary Education: Literacies and Learning for Diverse Learners Methods of Inclusive Secondary Education: Literacies, Learning, and Transitions	4
NUTR 400	Nutrition in Health and Well Being	0 or 4
THDA 791	Internship in Theatre and Dance	2

5-Year Teacher Licensure M.A.T. or M.Ed. Program

The 5-year teacher licensure M.A.T. or M.Ed. program includes the same requirements as the B.A. dance option but with the following modifications.

- The following requirements are added:

Code	Title	Credits
BMS 507	Human Anatomy and Physiology I <sup>1</sup>	4
EDUC 500/935A	Exploring Teaching <sup>1</sup>	4
NUTR 400	Nutrition in Health and Well Being <sup>1</sup>	4
EDUC 605	Educational Perspectives in Critical Times <sup>1</sup>	4
EDUC 701/801	Human Development & Learning: Cultural Perspectives <sup>2</sup>	4
EDUC 751A/851A or EDUC 751B/851B	Inclusive Elementary Education: Literacies and Learning for Diverse Learners <sup>1</sup> Methods of Inclusive Secondary Education: Literacies, Learning, and Transitions	4
EDUC 900A	Internship and Seminar in Teaching	6
EDUC 901A	Internship and Seminar in Teaching	6

<sup>1</sup> Must be taken before the teaching internship.  
<sup>2</sup> May be taken at the undergraduate level or the graduate level.

Student Learning Outcomes

**Core Student Learning Outcomes for the Bachelor of Arts in Theatre major:** On completion of the B.A. in Theatre, students will:

- Recognize and distinguish between various styles and forms of theatre or dance that have shaped the evolution of these disciplines.
- Effectively communicate artistic ideas and/or critical analysis of theatre or dance works through appropriate oral, written or practical means.
- Demonstrate knowledge and fundamental skill level of the basic areas of theatre or dance production in areas related to performance, design, technology or management.
- Create and demonstrate informed and personal artistic choices in coursework and productions (i.e., design, dance, directing, acting).

**Additional Student Learning Outcomes for Option in Dance:** In addition to the shared department learning outcomes for all THDA students, upon completion of the major with an Option in Dance, students will:

- Develop an awareness of proper dance technique, physical expression and kinesthetic exploration.
- Apply choreographic phrases and compositional skills through performance.
- Demonstrate a foundation in dance pedagogy.

- Demonstrate a reflective and critical awareness of dance history.
- Effectively apply dance principles to critical writing via journals, performance critiques, and research assignments.

Theatre Major: Design & Theatre Technology Option (B.A.)

<https://cola.unh.edu/theatre-dance/program/ba/theatre-major-design-theatre-technology-option>

Description

Design and theatre technology students who show significant progress and ability may earn the opportunity to demonstrate practical application of their studies through the department’s main stage production design assignments. Through classwork, production assignments and problem-solving, this option prepares students for both practical skills and aesthetic sensibilities needed for the creation of visual and technical elements for the performing arts. The challenging coursework provides both fundamental knowledge and critical thinking practice, which are skills that help students pursue a successful profession in theatre and related fields; the core principles of hard work, problem-solving and creativity are transferable to other career paths as well. UNH-trained graduates hold careers across the nation as designers, technical directors, stage managers, property masters, head electricians and scenic artists.

- Create and demonstrate informed and personal artistic choices in coursework and productions (i.e., design, dance, directing, acting).

**Additional Student Learning Outcomes for Option in Design and Theatre Technology:** In addition to the shared department learning outcomes for all THDA students, upon completion of the major with an Option in Design and Theatre Technology, students will:

- Exhibit an understanding of the general principles and practices for the design/tech area.
- Apply knowledge of design/tech skills and technologies to the production of theatrical creations.
- Demonstrate skills in script analysis, research, and critical thinking for design development.
- Demonstrate development of a creative process as well as practical problem-solving skills for artistic work.
- Effectively use communication and collaboration skills in writing, speaking, and visual presentation.
- Utilize critical assessment skills to evaluate the work of other students and to show improvement on their own work as a result of the collective feedback process.
- Develop a resume, portfolio, and interview skills that reflect professional standards.

## Theatre Major: Musical Theatre Option (B.A.)

<https://cola.unh.edu/theatre-dance/program/ba/theatre-major-musical-theatre-option>

### Description

The musical theatre option is designed to cultivate and nurture the creative artistry of those highly motivated students who wish to develop their combined talent as singers, actors and dancers. Students in the musical theatre option are trained as actors who sing and dance and will thrive in this intense and dynamic program of coursework, practical application, performance-based projects, departmental productions, and special workshops with guest artists and instructors. Students will be expected to fully integrate their rigorous training as actors, dancers and singers with the outstanding liberal arts education they will receive at UNH to become well-rounded and marketable musical theatre artists.

Any grade lower than C- will not count toward the major. Under department policy, students who complete both COMM 401 American Sign Language I and COMM 502 American Sign Language II satisfy the bachelor of arts language proficiency requirement. All majors must take courses in the following areas: performance, design/theatre technology and theory/ history as well as fulfill between four and eight practicums and complete a capstone course. Although timing will vary with each option, it is strongly suggested that all introductory courses be taken prior to the end of the student's sophomore year. Students must also complete a digital portfolio that demonstrates fulfillment of student learning outcomes related to their area of study.

The required minimum overall GPA in major coursework is 2.0.

Candidates for a degree must satisfy all of the University Discovery Program requirements in addition to satisfying the requirements of each individual major program. Bachelor of arts candidates must also satisfy the foreign language proficiency requirement.

Theatre department majors may use one major-required course to satisfy one Discovery category requirement.

All UNH B.A. degrees require a minimum of 128 credit hours.

Code	Title	Credits

<sup>1</sup> The practicum ensures a breadth of experience in the major, including sets, costumes, lighting, props, box office, marketing, and performing. Students must register for practicum every semester. They are notified of their practicum assignment at the beginning of each semester.

Student Learning Outcomes

- Core Student Learning Outcomes for the Bachelor of Arts in Theatre major.** On completion of the B.A. in Theatre, students will:
- Recognize and distinguish between various styles and forms of theatre or dance that have shaped the evolution of these disciplines.
  - Effectively communicate artistic ideas and/or critical analysis of theatre or dance works through appropriate oral, written or practical means.
  - Demonstrate knowledge and fundamental skill level of the basic areas of theatre or dance production in areas related to performance, design, technology or management.
  - Create and demonstrate informed and personal artistic choices in coursework and productions (i.e., design, dance, directing, acting).

- Additional Student Learning Outcomes for Option in Musical Theatre:** In addition to the shared department learning outcomes for all THDA students, upon completion of the major with an Option in Musical Theatre, students will:
- Utilize a healthy vocal technique and demonstrate the ability to read music.
  - Effectively analyze a dramatic script.
  - Apply knowledge of theatre to write critically about both musical and non-musical theatre.
  - Demonstrate the ability to perform dance choreography.
  - Apply acting techniques both in writing and in practice.
  - Utilize knowledge of musical theatre history and styles to select appropriate repertoire for class and auditions.
  - Demonstrate the skills and create the elements necessary to compete in the professional theatrical world, including a professional resume and audition book.

Theatre Major: Secondary Theatre Education Option (B.A.)

<https://cola.unh.edu/theatre-dance/program/ba/theatre-major-secondary-theatre-education-option>

## Description

Candidates interested in passing on their love of theatre to future generations will find that the secondary theatre education option offers practical and theoretical training for teachers. As one of a few programs in the country, UNH's Secondary Theatre Education option boasts a robust offering with six courses specifically focused on how to teach theatre. Through comprehensive course and laboratory work, students obtain hands-on theatre teaching experience, so that by the time they reach graduation, they have spent significant hours working with the K-12 age group. Students are provided with extensive training and practical teaching experience specifically geared towards the goal of being a theatre teacher, either in a traditional classroom or as a teaching artist. As you complete your studies, you will have the option to enter theatre education directly as a teaching artist at professional theatres, you could plan from your first year to pursue NH Theatre Arts K-12 teacher undergraduate certification, or you could pursue a fifth-year master's in teaching program through the UNH Education Department.

A master's degree can raise your salary significantly when entering the workforce. Whether pursuing the fifth year graduate certification program or entering the professional theatre education world directly after the undergraduate degree, students can expect to leave UNH prepared for the rigorous task of teaching.

## Requirements

### Degree Requirements

**Minimum Credit Requirement:** 128 credits

**Minimum Residency Requirement:** 32 credits must be taken at UNH

**Minimum GPA:** 2.0 required for conferral\*

**Core Curriculum Required:** Discovery & Writing Program Requirements

**Foreign Language Requirement:** Yes

All Major, Option and Elective Requirements as indicated.

\*Major GPA requirements as indicated.

### Major Requirements

In the freshman and sophomore years, students should enroll for at least two major and two Discovery courses per semester. The minimum grade requirement for major courses is C- per course. Any grade lower than C- will not count toward the major. Under department policy, students who complete both COMM 401 American Sign Language I and COMM 502 American Sign Language II satisfy the bachelor of arts language proficiency requirement. All majors must take courses in the following areas: performance, design/theatre technology and theory/history as well as fulfill between four and eight practicums and complete a capstone course. Although timing will vary with each option, it is strongly suggested that all introductory courses be taken prior to the end of the student's sophomore year. Students must also complete a digital portfolio that demonstrates fulfillment of student learning outcomes related to their area of study.

The required minimum overall GPA in major coursework is 2.0.

Candidates for a degree must satisfy all of the University Discovery Program requirements in addition to satisfying the requirements of each individual major program. Bachelor of arts candidates must also satisfy the foreign language proficiency requirement.

Theatre department majors may use one major-required course to satisfy one Discovery category requirement.

All UNH B.A. degrees require a minimum of 128 credit hours.

<b>Total Credits</b>		<b>61</b>

<sup>1</sup> Students are required to take at least one practicum for every semester they are a major in the Department of Theatre and Dance. In addition, each student must take each type of practicum at least once (Technical, Costume, Performance, Marketing and Promotion).

<sup>2</sup> May be taken at the undergraduate level or the graduate level.

NOTE: It is understood that students will fulfill 20 internship contact hours with theatre students in their option area: elementary, middle, or high school. Projects for THDA 729 Community Oriented Drama Programs cannot count as internship hours. Students may fulfill this requirement through a variety of teaching opportunities with the department's outreach program (both during the school year and in the summer), or they may work with local schools teaching, coaching actors, assistant directing, choreographing, or in some other capacity as specifically arranged with their theatre adviser.

It also is understood that students involved in the above course curriculum in order to get state theatre arts certification must apply to either the UNH Department of Education or another university for acceptance into a fifth-year master of arts in teaching (M.A.T.) or master of education (M.Ed.) degree program that fulfills state requirements for certification.

### State K-12 Teacher Certification

In order to obtain state theatre arts certification, students must either know from their first year that they are pursuing undergraduate Theatre Arts teacher certification or they must apply to the UNH Department of Education or another university for acceptance into a fifth-year master

of arts in teaching (M.A.T.) or masters of education (M.Ed.) degree program, which fulfills state requirements for certification. Students who are accepted into early graduate admission may take up to 12 credits toward the 32 credit masters while finishing their undergraduate degree. For further clarification regarding both undergraduate and graduate certification options, contact Raina Ames, Paul Creative Arts Center, (603) 862-3044, [raina.ames@unh.edu](mailto:raina.ames@unh.edu).

4-Year Teacher Licensure B.A. Program

The 4-year teacher licensure B.A. program includes the same requirements as the B.A. secondary theatre education option but with the following modifications.

- The THDA 798/799 requirement is replaced with EDUC 694 Courses in Supervised Teaching
- The following requirements are added.

Code	Title	Credits
EDUC 605	Educational Perspectives in Critical Times	4
EDUC 694	Courses in Supervised Teaching	8
EDUC 701	Human Development & Learning: Cultural Perspectives	4
EDUC 751A or EDUC 751B	Inclusive Elementary Education: Literacies and Learning for Diverse Learners Methods of Inclusive Secondary Education: Literacies, Learning, and Transitions	4
THDA 791	Internship in Theatre and Dance	2

5-Year Teacher Licensure M.A.T. or M.Ed. Program

The 5-year teacher licensure M.A.T. or M.Ed. Program includes the same requirements as the B.A. secondary theatre education option but with the following modifications:

- The following requirements are added.

Code	Title	Credits
EDUC 605	Educational Perspectives in Critical Times <sup>1</sup>	4
EDUC 701/801	Human Development & Learning: Cultural Perspectives <sup>2</sup>	4
EDUC 751A/851A or EDUC 751B/851B	Inclusive Elementary Education: Literacies and Learning for Diverse Learners <sup>2</sup> Methods of Inclusive Secondary Education: Literacies, Learning, and Transitions	4
EDUC 900A	Internship and Seminar in Teaching	6
EDUC 901A	Internship and Seminar in Teaching	6
8 credits from THDA 700-level or EDUC #700/800-level elective courses. <sup>2</sup>		8

<sup>1</sup> Must be taken before the teaching internship.  
<sup>2</sup> Must be taken before the teaching internship. May be taken at the undergraduate level or the graduate level.

Student Learning Outcomes

**Core Student Learning Outcomes for the Bachelor of Arts in Theatre major:** On completion of the B.A. in Theatre, students will:

- Recognize and distinguish between various styles and forms of theatre or dance that have shaped the evolution of these disciplines.
- Effectively communicate artistic ideas and/or critical analysis of theatre or dance works through appropriate oral, written or practical means.
- Demonstrate knowledge and fundamental skill level of the basic areas of theatre or dance production in areas related to performance, design, technology or management.
- Create and demonstrate informed and personal artistic choices in coursework and productions (i.e., design, dance, directing, acting).

**Additional Student Learning Outcomes for Option in Secondary Theatre Education:** In addition to the shared department learning outcomes

for all THDA students, upon completion of the major with an Option in Secondary Theatre Education, students will:

- Develop and compile effective lesson plans and teaching materials appropriate to student developmental levels and individual learning styles.
- Define a personal teaching philosophy.
- Demonstrate effective teaching strategies.
- Evaluate teaching abilities through analysis and reflection.
- Develop directing and production skills.
- Match to teaching materials the appropriate national educational standards for arts and non-arts subjects.

Theatre Major: Youth Drama Option (B.A.)

<https://cola.unh.edu/theatre-dance/program/ba/theatre-major-youth-drama-option>

Description

Anyone interested in teaching elementary-aged students would benefit from the youth drama option. Consider pairing this with family studies or early childhood education. Youth drama is for those students who wish to use dramatic arts as a teaching tool, either in the elementary classroom or as a teaching artist. Our comprehensive curriculum is specifically designed to train teachers to use storytelling and creative drama to enrich the classroom. Work with our master puppeteer to take Introduction to Puppetry as well as Advanced Puppetry. Through comprehensive class and laboratory work, students obtain hands-on theatrical teaching experience so that, by the time they reach graduation, they have spent significant hours teaching children. This program will give you hands-on teaching experience and the option to pursue a fifth-year master's degree in elementary teaching through the UNH Education Department. Whether pursuing the fifth year graduate certification program or entering the professional theatre education world directly after the undergraduate degree, students will leave UNH with sound theoretical training in addition to practical instruction on how to use drama to enhance learning outcomes, address classroom discipline issues and, of course, bring the arts to life in the classroom.

**Core Student Learning Outcomes for the Bachelor of Arts in Theatre major:** On completion of the B.A. in Theatre, students will:

- Recognize and distinguish between various styles and forms of theatre or dance that have shaped the evolution of these disciplines.
- Effectively communicate artistic ideas and/or critical analysis of theatre or dance works through appropriate oral, written or practical means.
- Demonstrate knowledge and fundamental skill level of the basic areas of theatre or dance production in areas related to performance, design, technology or management.
- Create and demonstrate informed and personal artistic choices in coursework and productions (i.e., design, dance, directing, acting).

**Additional Student Learning Outcomes for Option in Youth Drama:** In addition to the shared department learning outcomes for all THDA students, upon completion of the major with an Option in Youth Drama, students will:

- Develop and compile effective lesson plans and teaching materials appropriate to student developmental levels and individual learning styles.
- Define a personal teaching philosophy.
- Demonstrate effective teaching strategies and established skills as a group leader in dramatic activities.
- Evaluate teaching abilities through analysis and reflection.
- Demonstrate technical skills in storytelling and puppetry performance techniques.

- Match to teaching materials the appropriate national educational standards for arts and non-arts subjects.

## Arts Administration Minor

<https://cola.unh.edu/theatre-dance/program/minor/arts-administration>

### Description

The minor in arts administration is designed to give students in the fine and performing arts a base knowledge and skill set that can be applied to a wide range of job opportunities related to arts management, administration and entrepreneurship in the creative economy. It has also been created for students enrolled in the Peter T. Paul School of Business, as well as majors in other disciplines, to expand their knowledge base in the fine and performing arts area of their greatest interest. These courses are combined with specific classes in arts administration to prepare students for opportunities within the nonprofit and for-profit arts sectors. Students who major in theatre or one of its theatre or dance options may minor in arts administration provided no more than 8 credits are used to satisfy both major and minor requirements.

Contact [Michael Wood](mailto:mike.wood@unh.edu) ([mike.wood@unh.edu](mailto:mike.wood@unh.edu)), (603) 862-3038.

### Requirements

Code	Title	Credits

THDA 462	Ballet I	
THDA 463	Theatre Dance I	
THDA 548	Stage Lighting Design and Execution	
THDA 555	Acting The Song	
THDA 641	Stage Management	
THDA 791	Internship in Theatre and Dance <sup>2</sup>	
<b>Total Credits</b>		<b>20</b>

<sup>1</sup> This course can be taken by students pursuing majors in the fine and performing arts division of COLA. This course cannot also be used toward completion of any major in Art and Art History.

<sup>2</sup> This course can be taken by students pursuing majors in the fine and performing arts division of COLA. This course cannot also be used toward completion of the Theatre & Dance major. Course must be specifically focused on Arts Administration.

## Dance Minor

<https://cola.unh.edu/theatre-dance/program/minor/dance>

### Description

Students minoring in dance keep open the option of pursuing a career in dance by cultivating and maintaining a high level of dance skill while still having the opportunity to major in another area of interest outside the Department of Theatre and Dance. Minors are encouraged to audition for all performance opportunities including faculty-directed dance concerts as well as student-created dance showcases.

Contact Michael Wood, (603) 862-3038, [mike.wood@unh.edu](mailto:mike.wood@unh.edu).

### Requirements

Students who major in theatre or one of its theatre options may minor in dance provided no more than 8 credits are used to satisfy both major and minor requirements.

Code	Title	Credits
Select up to 16 credits from the following:		16
THDA 462	Ballet I	
THDA 562	Ballet II	
THDA 662	Ballet III	
THDA 463	Theatre Dance I	
THDA 563	Theatre Dance II	
THDA 663	Theatre Dance III	
THDA 665	Aerial Dancell	
THDA 576	Pointe	
Select at least 4 credits from the following: <sup>1</sup>		4
THDA 633	Dance Composition	
THDA #564	Compocinema	
THDA 732	Choreography	
THDA 786	Dance Pedagogy	
<b>Total Credits</b>		<b>20</b>

<sup>1</sup> Courses in this section are taught on a rotational basis and are not offered every semester. Students are encouraged to fulfill this requirement by the end of their Junior year. Course substitutions in this section are not permitted.

## Musical Theatre Minor

<https://cola.unh.edu/theatre-dance/program/minor/musical-theatre>

### Description

The musical theatre minor offers the student basic knowledge of the history and canon of this uniquely American art form while providing for hands-on experience in training as actors who sing and dance.

Contact Michael Wood, (603) 862-3038, [mike.wood@unh.edu](mailto:mike.wood@unh.edu).

## Requirements

No more than 8 credits can be used to satisfy both major and minor requirements.

or THDA 460	Elements of Design	
Select 4 credits of the Theory/History courses in the General Theatre Major Requirements		4
Select 4 credits of the Design/Theatre Technology courses in the General Theatre Major Requirements		4
Select 8 credits of any THDA course		8
<b>Total Credits</b>		<b>20</b>

## Youth Drama Minor

<https://cola.unh.edu/theatre-dance/program/minor/youth-drama>

### Description

Anyone with an interest in theatre for young audiences, either in acting or as a way to augment teaching strategies, will benefit from this minor, which utilizes activated and arts-infused methodology to enliven work with K-12 students. The youth drama minor is ideal for those who wish to explore the dramatic arts through an educational lens.

## Studies in Fashion and Design Cognate

<https://cola.unh.edu/theatre-dance/program/cognate/studies-fashion-design>

### Description

The studies in fashion and design cognate offers students a foundation for developing the basic skills to enter the field of fashion design. It introduces the art behind the creation of apparel and the basics of marketing strategy connected to fashion design. Students will be educated to develop their own creative process and design method while learning the basic knowledge of marketing and personal business. The cognate prepares students with a means to combine their artistic vision with practical application and helps them become designers who have the skills to support their own artistries.

Students complete coursework selected from three groups:

1. Design Creation: Helps students to adapt their artistic skills to support conceptual ideas. It gives students the abilities in creating, analyzing, constructing and presenting works for costume creation. It aims to guide students in developing their own working process with a critical approach to problem solving. Students will be able to use terminology to communicate ideas in the fashion design industry.
2. Design Skills: Gives students the options to understand and apply a skill class of their choice to helps students articulate their design ideas visually and digitally. It aims to offer students with the options to create visual merchandising for their design works through rendering hand skills, graphic design software, or photography.
3. Marketing: Helps students to understand and incorporate the business aspect into their creative works. It aims to prepare students to promote and sustain their creative works independently as a personal business or within retail organizations.

### Requirements

Student must complete three courses (12 credits), one course in each group listed below.

Code	Title	Credits
<b>Design Creation (select one of the following)</b>		
THDA 546	Costume Design for the Theatre	4
THDA 458	Costume Construction

## Studies in the Design of Interior Space Cognate

<https://cola.unh.edu/theatre-dance/program/cognate/studies-design-interior-space>

### Description

The cognate provides students a pathway to enter the world of interior design. It aims to give students an overview of design creation and execution for space planning. From concept development to project execution, the cognate allows students to formulate design projects that are both practical and aesthetically pleasing. Students will develop a comprehensive creative process through research, problem solving and project development. The cognate prepares students to apply critical thinking to the creation of interior environments utilizing a human-centered approach.

Students complete coursework selected from three groups:

1. Design Development: Helps students obtain the skills in design creation. Students will learn about concept development, research analysis, and psychological and physiological characteristics in space planning. It provides the students the ability to utilize knowledge in design elements and principles in 3D design creation and integrate this knowledge into design concepts as solutions for design projects.
2. Historical Aspect: Gives students an overview of architectural history. It will help students to identify the historical, political, social and economic elements that have influenced the evolution in interior architecture and decorative arts. Students will be able to apply the skill in research and their knowledge of historic design styles in their design creations.
3. Design Skills: Helps students to understand and apply skills related to design execution. It provides students with the option to gain craftsmanship in sketching, rendering, scaled design drawings, CAD (computer-aided drafting), graphic solutions or standards.

### Requirements

Student must complete three courses (12 credits), one course in each group listed below.

Code	Title	Credits
<b>Design Development</b>		4
Select one course from the following:		
THDA 548	Stage Lighting Design and Execution	
THDA 652	Scene Design	
ARTS 520	Principles of Architectural Design	
<b>Historical Aspect</b>		4
Select one course from the following:		
ARTH 474	Introduction to Architectural History	
ARTH 480	Introduction to Art History	
ARTH 656	Twentieth-Century Architecture: Modern and Contemporary	
<b>Design Skills</b>		4
Select one course from the following:		
ARTS 613	Design and Place	

THDA 549	Vectorworks Computer-Aided Design Drafting for the Theatre
THDA 651	Rendering for the Theatre
Total Credits	

12

## Women's and Gender Studies (WS)

Women's and gender studies provides students with an understanding of the status of women in various cultures and historical eras, in the nexus of race, class, sexuality, religious and disability studies. Students learn the use of gender as a category of analysis and increase their knowledge of women's contributions to many fields. Women's and gender studies courses offer students critical perspectives on such basic questions of the social order as assumptions about gender roles and gender identity.

As a relatively small department in the College of Liberal Arts, we provide students with a sense of community and opportunities to contribute directly to changing the campus climate. In a rigorous academic environment, women's and gender studies offers students a springboard for activism. Our internship program enables students to gain first-hand work experience across many fields.

A major or minor in women's and gender studies or social justice leadership prepares students for careers where the changing roles of women are having a perceptible impact. Women's studies graduates go on to law school and graduate school in a variety of disciplines. Some have taken positions with social change or family service agencies, while others have found work in such fields as health care, journalism, education, human rights, social and environmental justice, and the arts.

## Women's and Gender Studies Major (B.A.)

<https://cola.unh.edu/womens-gender-studies/program/ba/womens-gender-studies-major>

### Description

Women's and gender studies provides students with an understanding of the status of women in various cultures and historical eras, in the nexus of race, class, sexuality, religious and disability studies. Students learn the use of gender as a category of analysis and increase their knowledge of women's contributions to many fields. Women's and gender studies courses offer students critical perspectives on such basic questions of the social order as assumptions about gender roles and gender identity.

As a relatively small department in the College of Liberal Arts, we provide students with a sense of community and opportunities to contribute directly to changing the campus climate. In a rigorous academic

environment, women's and gender studies offers students a springboard for activism. Our internship program enables students to gain first-hand work experience across many fields.

A major in women's and gender studies prepares students for careers where the changing roles of women are having a perceptible impact. Women's and gender studies graduates go on to law school and graduate school in a variety of disciplines. Some have taken positions with social change or family service agencies, while others have found work in such fields as health care, journalism, education, human rights, social and environmental justice, and the arts.

Students who wish to major in women's and gender studies should consult with the [department chair or coordinator](#).

## Requirements

### Degree Requirements

**Minimum Credit Requirement:** 128 credits

**Minimum Residency Requirement:** 32 credits must be taken at UNH

**Minimum GPA:** 2.0 required for conferral\*

**Core Curriculum Required:** Discovery & Writing Program Requirements

**Foreign Language Requirement:** Yes

All Major, Option and Elective Requirements as indicated.

\*Major GPA requirements as indicated.

### Major Requirements

The women's and gender studies major requires students to complete 40 credits of major-approved coursework with grades of C- or better and an overall grade point average in major courses of 2.00 or higher.

Code	Title	Credits
WS 401	Introduction to Women's Studies	4
or WS 405	Gender, Power and Privilege	
WS 632	Feminist Thought	4
<b>Discovery Program Capstone Requirement:</b>		
WS 798	Colloquium	4
or WS 799	Honors Thesis	
Select seven additional courses chosen in consultation with a WS academic advisor <sup>1</sup>		28
<b>Total Credits</b>		<b>40</b>

<sup>1</sup> At least two of the courses must be WS courses. The remaining courses may be either WS courses or WS-faculty-approved courses offered in departments or programs outside of WS (cross-counted courses). A list of cross-counted courses can be found each semester at: <https://cola.unh.edu/womens-gender-studies/cross-counted-courses-ws-schedule>.

At least five courses for the major must be taken at the 600 level or above. Only two 400-level courses may be used to satisfy major requirements.

WS topic courses include:

### 444 Inquiry Courses

Code	Title	Credits
WS 444	Trans/Forming Gender	4
WS 444A	Race Matters	4

WS #444C	On the Roads to Equality	4
WS 444D	Cyborgs, Avatars, and Feminists: Gender in the Virtual World	4

## 505 Surveys

WS 505 Survey in Women's Studies

Examples of course topics include:

- Sustainability & Spirituality
- Leadership for Social Change
- Fashion This!
- Intro to LGBTQ+ Studies
- Exploring Masculinities
- Queer Cinema
- Reproductive Justice
- Disability Justice

WS 510 Framing Feminism: Gender Politics in Film

## 798 Colloquiums

WS 798 Colloquium

Examples of course topics include:

- Feminist Studies in Film and Queer Cinema
- Jewish Feminism, Politics, and Culture
- Global Feminist Issues
- Transgender Feminism
- Theater as a Provocative Act
- #MeToo Movement
- Native and Indigenous Women
- Queer Sustainability
- Queer Theory

For a list of currently-approved cross-counted offerings from other departments, please check: [cola.unh.edu/womens-gender-studies/cross-counted-courses-ws-schedule](https://cola.unh.edu/womens-gender-studies/cross-counted-courses-ws-schedule).

A practicum, internship course, and/or research with faculty is strongly recommended.

Women's and gender studies majors may use two major-required courses to satisfy two Discovery category requirements. First and second majors may double count no more than two courses between the WS major and another major or minor.

Candidates for a degree must satisfy all of the University Discovery Program requirements in addition to satisfying the requirements of each individual major program. Bachelor of arts candidates must also satisfy the foreign language proficiency requirement. ASL: COMM 401 American Sign Language I and COMM 502 American Sign Language II may be used to satisfy the language competency requirement.

## Student Learning Outcomes

- Demonstrate the ability to think critically about categories of difference—including gender, sexuality, race, nation, class, religion—and explore the relationship between inequality and those categories of difference.

- Demonstrate understanding of how difference influences the values, beliefs, and experiences of individuals and groups in across historical, cultural, political and geographic contexts.
- Define and apply central concepts in Women's and Gender Studies and Queer Studies, including but not limited to sexuality, power, privilege, inequality, justice, violence, the body, reproductive health, and intersectionality (i.e., interlocking and simultaneous forms of oppression).
- Know the history of feminist thought and production, especially as it has been inflected by cultural difference.
- Demonstrate self-reflectiveness, cultural awareness, critical analysis, and the ability to effect personal and community change.
- Write and speak clearly, be able to construct persuasive arguments based on their experiences, the experiences of others, and on scholarship; be able to conduct research using feminist methodologies.

## Social Justice Leadership Minor

<https://cola.unh.edu/womens-gender-studies/program/minor/social-justice-leadership>

### Description

The minor in social justice leadership engages students in an exploration of policies, power dynamics, institutions and structures that promote and hinder equity and processes of change required for social justice. Students will examine various forms of injustice such as sexism, racism, classism, ableism and environmental degradation. The minor is grounded in three pillars — a theory component, a leadership component and experiential learning activities. The minor is interdisciplinary in nature, drawing on disciplines such as anthropology, education, English, history, philosophy, political science, social work and sociology. After completing the curriculum, students will have gained a historical perspective, theoretical understanding and applied leadership skills that are needed for social justice work and activism. The minor certifies students' knowledge regarding, and commitment to, social justice leadership, which will be useful in postgraduate pursuits.

Students who wish to minor in social justice leadership should consult with the [department chair or coordinator](#).

### Requirements

Code	Title	Credits
<b>THEORY</b>		
WS 401	Introduction to Women's Studies	4
or WS 405	Gender, Power and Privilege	
<b>LEADERSHIP</b>		
WS 505	Survey in Women's Studies (Leadership Part I)	4
or WS 796	Advanced Topics	
<b>APPLIED</b>		
Choose one capstone course from the following (normally taken at the end of the course sequence):		4
WS 795	Independent Study	
WS 796	Advanced Topics	
WS 797	Internship	
WS 798	Colloquium	
or other relevant approved capstone dealing with social justice leadership issues		
Choose two electives in Social Justice and/or Leadership (see list below)		8
<b>Total Credits</b>		<b>20</b>

HUMA #592	Special Topics in the Humanities (Women in Western Religion: Goddesses, Witches, Saints & Sinners)	2-8
HUMA 700	Seminar (Love & Ethics)	4
PHIL 430	Ethics and Society	4
PHIL 436	Social and Political Philosophy	4
PHIL 450	Environmental Ethics	4
PHIL 510	Philosophy and Feminism	4
POLT 548	Drug Wars	4
POLT 762	International Political Economy	4
<b>Courses in the College of Health and Human Services</b>		
HDFS 746	Human Sexuality	4
NURS 450	Making Babies: Technology, Nature, and Social Context	4
OT 513	Stressed Out: The Science and Nature of Human Stress	4
SW 697	Special Topics in Social Welfare (Exploring Social Justice & Cultural Competency)	4
SW 715	Affirming Practice with Lesbian, Gay, Bisexual, Transgender, Queer+ People	4

The women's and gender studies core faculty will consider approving other courses that include more than 50% of content related to social justice leadership.

Once students have declared the minor, they are required to meet with the coordinator at least once per semester for regular review of progress towards the degree.

Transfer credits may be approved by the coordinator to count towards the minor. If the transfer credit is accepted by the university and fits within the scope of the minor, it will be considered.

## Women's and Gender Studies Minor

<https://cola.unh.edu/womens-gender-studies/program/minor/womens-gender-studies>

### Description

Women's and gender studies provides students with an understanding of the status of women in various cultures and historical eras, in the nexus of race, class, sexuality, religious and disability studies. Students learn the use of gender as a category of analysis and increase their knowledge of women's contributions to many fields. Women's studies courses offer students critical perspectives on such basic questions of the social order as assumptions about gender roles and gender identity.

As a relatively small department in the College of Liberal Arts, we provide students with a sense of community and opportunities to contribute directly to changing the campus climate. In a rigorous academic environment, women's and gender studies offers students a springboard for activism. Our internship program enables students to gain first-hand work experience across many fields.

A major or minor in women's and gender studies prepares students for careers where the changing roles of women are having a perceptible impact. Alumni go on to law school and graduate school in a variety of disciplines. Some have taken positions with social change or family service agencies, while others have found work in such fields as health care, journalism, education, human rights, social and environmental justice, and the arts.

Students who wish to minor in women's and gender studies should consult with the [department chair or coordinator](#).

### Requirements

For the women's and gender studies minor, students must complete 20 credits of women's and gender studies courses with a grade of C- or better. Courses taken pass/fail may not be used toward the minor. No more than eight credits used to satisfy the requirements for another major may be used for the women's and gender studies minor. Students electing the women's and gender studies minor must complete:

Code	Title	Credits
Select one of the following:		
WS 401 or WS 405	Introduction to Women's Studies Gender, Power and Privilege	4
WS 798	Colloquium (normally taken at the end of the course sequence) <sup>1</sup>	4
Complete three other women's studies courses, either program courses or those that are cross-counted with other departments		12
<b>Total Credits</b>		<b>20</b>

<sup>1</sup> It may be possible to substitute WS 795 Independent Study, WS 796 Advanced Topics, WS 797 Internship, and WS 799 Honors Thesis for WS 798 Colloquium with permission from a women's studies adviser.

## World Languages

- [World Languages Dual Major](#) (p. 311)

## World Languages Dual Major

<https://cola.unh.edu/languages-literatures-cultures/program/world-languages-dual-major>

### Description

The world languages dual major program can be paired with majors that leads to a B.S. degree. The major offers eight language options from which to choose as a focus: Arabic, Chinese, classics, French, German, Italian, Russian and Spanish. Study of a second language adds immense value to a student's academic experience by sharpening skills in communication, decision-making, critical thinking, listening, concentration and multitasking. It also provides excellent professional preparation for careers in business, healthcare, science, engineering and more. Mastering a second language and honing intercultural communication skills in a multicultural America and globalized world will add richness and flexibility to life beyond one's career, as well.

The world languages dual major is administered by the Department of Languages, Literatures and Cultures (LLC) but draws on languages and courses from both LLC and the Department of Classics, Humanities and Italian Studies.

### Requirements

#### Degree Requirements

**Minimum Credit Requirement:** 128 credits

**Minimum Residency Requirement:** 32 credits must be taken at UNH

**Minimum GPA:** 2.0 required for conferral\*

**Core Curriculum Required:** Discovery & Writing Program Requirements

**Declared Primary Major**

All Major, Option and Elective Requirements as indicated.

*\*Major GPA requirements as indicated.*

## World Languages Dual Major Requirements

The dual major in world languages consists of a total of 8 classes (32 credits), which may include the following, depending on your level/proficiency and language placement entering UNH. The minimum level of proficiency is noted below for each language. All coursework required for the world languages major must be completed with a grade of C or better.

Code	Title	Credits
Language <sup>1</sup>		8-24
Choose ONE target language from below:		
Arabic Language Requirements		
ARBC 401	Elementary Arabic I	
ARBC 402	Elementary Arabic II	
ARBC 503	Intermediate Arabic	
ARBC 504	Intermediate Arabic	
ARBC 631	Advanced Arabic I	
ARBC 632	Advanced Arabic II (minimum level of proficiency required)	
Chinese Language Requirements		
CHIN 401	Elementary Chinese I	
CHIN 402	Elementary Chinese II	
CHIN 503	Intermediate Chinese I	

CHIN 504	Intermediate Chinese II
CHIN 631	Advanced Chinese Conversation and Composition I
CHIN 632	Advanced Chinese Conversation and Composition II (minimum level of proficiency required)

Classics Language Requirements

LATN 401	Elementary Latin I
or GREK 401	Elementary Classical Greek I
LATN 402	Elementary Latin II
or GREK 402	Elementary Classical Greek II
LATN 503	Intermediate Latin I
or GREK 503	Intermediate Classical Greek I
LATN 504	Intermediate Latin II (minimum level of proficiency required for LATN or GREK)
or GREK 504	Intermediate Classical Greek II

French Language Requirements

FREN 401	Elementary French I
FREN 402	Elementary French II
FREN 503	Intermediate French I
FREN 504	Intermediate French II
FREN 631	Advanced French: Reading and Writing
FREN 632	Advanced French: Listening and Speaking (minimum level of proficiency required)

German Language Requirements

GERM 401	Elementary German I
GERM 402	Elementary German II
GERM 503	Intermediate German I
GERM 504	Intermediate German II
GERM 631W	Advanced Communications Skills I
GERM 632	Advanced Communications Skills II (minimum level of proficiency required)

Italian Language Requirements

ITAL 401	Elementary Italian I
ITAL 402	Elementary Italian II
ITAL 503	Intermediate Italian I
ITAL 504	Intermediate Italian II
ITAL 631	Advanced Conversation and Composition I
ITAL 632	Advanced Conversation and Composition II (minimum level of proficiency required)

Russian Language Requirements

RUSS 401	Elementary Russian I
RUSS 402	Elementary Russian II
RUSS 503	Intermediate Russian I
RUSS 504	Intermediate Russian II
RUSS 631	Advanced Russian Conversation and Composition
RUSS 632	Advanced Russian Conversation and Composition (minimum level of proficiency required)

Spanish Language Requirements

SPAN 401	Elementary Spanish I
SPAN 402	Elementary Spanish II
SPAN 503	Intermediate Spanish I
SPAN 504	Intermediate Spanish II
SPAN 631	Advanced Conversation and Composition I
SPAN 632	Advanced Conversation and Composition II (minimum level of proficiency required)

Culture, Linguistics, Literature<sup>2</sup>4-20

Choose any 400-, 500-, 600- or 700-level courses in your target language program and/or in LLC from the lists below

Arabic:
ARBC 425, ARBC 595, ARBC 700, ARBC 795
Chinese:
CHIN #400, CHIN #410, CHIN #420, CHIN 425, CHIN 521, CHIN #686, CHIN 795
Classics:

<b>Capstone</b>	<b>4</b>
LLC 790	World Languages Capstone <sup>3</sup>

- <sup>1</sup> From 8 to 24 credits, depending on students’ proficiency level and language placement on entry. All students must complete at least 8 classes (32 credits). While the major may start counting as early as the Elementary I level (401), those who enter the major at a higher level (e.g., 503, 504, or 631) will replace the lower level language courses with additional electives in the “Culture, Linguistics, Literature” category.
- <sup>2</sup> Minimum 4 credits up to 20 credits (depending on number required to get to 32 total)
- <sup>3</sup> Or approved equivalent 700-level course taken at UNH, approved study abroad equivalent, or approved high-impact experience (such as internship with a robust target language/culture component).

An experience such as study abroad, service learning, internship, or faculty-mentored, independent undergraduate research is encouraged but not required. Up to 16 credits toward the major may be earned in a semester-long study abroad program or summer study abroad program, depending on the individual language programs and their study abroad options. Students should consult with a faculty advisor regarding study abroad credits.

## Student Learning Outcomes

Linguistic proficiency. Students will demonstrate an Intermediate-Mid to Intermediate-High level of proficiency based on the ACTFL Performance Descriptors for Language Learners in the target language in three modes of communication: interpretive, interpersonal and presentational skills.

- Interpretive: Students are able to understand main ideas and some supporting details on familiar topics relevant to their immediate environment such as everyday life and particular interests. They have sufficient control of language (vocabulary, structure and conventional spoken and written language) to understand fully non-complex texts.
- Interpersonal: Students are able to participate in conversations on familiar topics, ask questions to initiate and sustain conversations, and communicate about self, others and everyday life.
- Presentational: Students are able to communicate information and express their thoughts about familiar topics using simple sentence structures. They are able to create messages in contexts relevant to themselves and others, and their immediate environment.

Intercultural and transcultural competence. Students will demonstrate knowledge and understanding of other cultures. They are able to think critically about and are able to recognize and accept culturally differences, and the uniqueness of other cultures and peoples. By the time they graduate from our program, they will be able to:

- Recognize and describe the target culture products and practices they have directly studied and interpret texts that are read, heard and viewed.
- Analyze and critique the cultural and social products of the target culture (film, literature, art, popular culture, media, etc.) within their context, including conducting basic research projects.
- Begin to question the validity of their own cultural beliefs, behaviors and norms, by contrasting and comparing them with those of the target culture, and reflecting upon cultural differences related to spoken and written communication.

## College of Life Sciences and Agriculture

Anthony S. Davis, Dean

Kimberly J. Babbitt, Associate Dean

Anton Bekkerman, Associate Dean

The College of Life Sciences and Agriculture (COLSA) provides students a fundamental education in the agricultural, biological, life, natural, and social sciences. Advanced technical and professional courses are offered to prepare students for graduate school or entry-level positions in their chosen field. Preparation can vary from fundamental studies of cancer cells to community service planning, resource protection to genetic engineering, and molecular biology to biotechnology.

A blend of Discovery and foundational science courses, careful selection of supportive upper level courses, and ample opportunities to engage in internships, research, and study abroad experiences ensures graduates develop the background and experiences necessary to be competitive in the job market. Potential employers include federal, state, and local governments, consulting firms and industrial organizations. Graduates are employed as watershed, soil, and natural resource managers, associates in biomedical and agricultural research laboratories, marketing analysts and extension specialists, nutrition supervisors and environmental regulators, and information educators and communication experts. Community governments employ graduates as service planners and land-use specialists, teachers in traditional education, public health technicians, and urban pest control specialists. Positions are available in private and commercial organizations in production agriculture, food processing, landscaping, agribusiness, sales, and private planning. Graduates may also pursue entrepreneurial careers.

Additionally, COLSA prepares students for advanced study in their chosen field of interest where graduate study is required for attaining their career goals.

## Degrees

The college offers three undergraduate degrees: the bachelor of arts, the bachelor of science, and the bachelor of science in forestry. Some of the courses prescribed in these degree programs partially fulfill the University's Discovery requirements. Students should see their advisers for specific information.

## General Science Certification

Students majoring in biochemistry, molecular and cellular biology, biomedical science, biology, environmental conservation and sustainability, environmental sciences, forestry, wildlife and conservation biology, or zoology may seek certification to teach science at the middle, junior, or high school level.

For further information, contact the coordinator of teacher education in the Department of Education.

## Academic Advising

All students are provided both faculty and professional advising. Additional advising is provided to students pursuing a pre-professional health or veterinary track.

### Undeclared Status

Students may select a major upon entering the college or wait until registration for the sophomore year. Students who are uncertain about choosing a specific major may remain undeclared during their freshman year. In most cases, they should take the following courses, after which they should be ready to declare a major:

Course	Title	Credits
<b>Fall</b>		
LSA 400	Freshman Academic Experience I	1
BIOL 412	Introductory Biology: Evolution, Biodiversity and Ecology	4
CHEM 403	General Chemistry I	4
Discovery Program requirement		4
Discovery Program Requirement or an introductory course in any department in the college		4
<b>Credits</b>		<b>17</b>
<b>Spring</b>		
LSA 402	Freshman Academic Experience II	1
BIOL 411	Introductory Biology: Molecular and Cellular	4
CHEM 404	General Chemistry II	4
MATH 424B	Calculus for Life Sciences	4
Discovery Program requirement		4
<b>Credits</b>		<b>17</b>
<b>Total Credits</b>		<b>34</b>

Undeclared freshmen should explore possible majors by taking courses in the areas or programs that interest them most. They should talk to faculty, students, and their adviser concerning requirements, job opportunities, etc. in the various programs and should be prepared to declare a major when they register for the first semester of the sophomore year.

## Bachelor of Arts

The bachelor of arts degree is available in Sustainable Agriculture and Food Systems, and Zoology. Students must accumulate 128 credits, attain a 2.0 cumulative grade-point average, satisfy Discovery requirements, and complete a foreign language requirement (see University Academic Requirements for specific B.A. language requirements). Check individual departmental listings for specific major requirements and minimum acceptable grades in major courses.

## Bachelor of Science

The bachelor of science degree is available in all departments or programs. University requirements are the same as for the bachelor of arts degree, except that a foreign language is not required and minimum acceptable grades may differ in some programs. Check individual departmental or program listings for specific major requirements.

## Agribusiness

### Programs

- [Agribusiness Minor](#) (p. 315)

## Agribusiness Minor

<https://colsa.unh.edu/natural-resources-environment/program/minor/agribusiness>

### Description

The agribusiness minor is designed to provide students in disciplines other than environmental and resource economics with training in the economics and management of agricultural and other natural resource business firms. This program prepares students to work for private companies, governmental agencies, or nonprofit, nongovernmental organizations. Students who are interested in operating their own businesses will also find this minor very useful. The courses in the agribusiness minor emphasize the applications of economic and business management principles.

For additional information, contact John M. Halstead, Environmental and Resource Economics Program Coordinator, 168 James Hall, (603) 862-3914.

## Requirements

Code	Title	Credits
<b>Required Courses</b>		
ACC 501	Survey of Accounting	4
ANSC 548	Agricultural Business Management	4
EREC 411	Environmental and Resource Economics Perspectives (or equivalent) <sup>1</sup>	4
EREC 606	Land Economics Perspectives: Uses, Policies, and Taxes	4
MKTG 530	Survey of Marketing	4

<sup>1</sup> EREC 411 cannot be taken for credit if credit has been earned for ECON 402.

## Animal Science (ANSC)

The undergraduate program in animal science is designed to prepare students for a variety of careers by providing strong fundamental and applied education in animal nutrition, reproduction, genetics, physiology, health, and animal management. On-campus animal facilities available to provide practical experience with agricultural animals include the Fairchild Dairy Teaching and Research Center, the Lou and Lutz Smith Equine Center, the nearby organic dairy housed at the Burley-Demeritt Farm, two high tunnels for small livestock species, and aquaculture facilities. Program graduates may be employed in animal business ownership, management, marketing, the pharmaceutical industry, agribusiness, finance, manufacturing, public relations, extension, vocational education, or consulting. Students who are considering continuing their studies through graduate school or veterinary school are advised to take the recommended additional courses in chemistry, math, and physics.

- [Dairy Management Minor](#) (p. 323)
- [Equine Assisted Activities and Therapies Minor](#) (p. 324)
- [Equine Studies Minor](#) (p. 324)

## Faculty

<https://colsa.unh.edu/agriculture-nutrition-food-systems/faculty-staff-directory>

## Animal Science Major (B.S.)

<https://colsa.unh.edu/agriculture-nutrition-food-systems/program/bs/animal-science-major>

### Description

Animal Science is the study of the biology and management of animals that enhance human life and well-being. Completion of the Animal Science B.S. is designed to prepare students for a variety of animal-

focused careers. The Animal Science B.S. is one of many pathways for admission to veterinary school. Because admission to veterinary school is highly competitive due to the limited number of available spaces and the high standards for admission, students are advised to choose an academic program that deeply interests them. Simply taking the prerequisite courses required by veterinary schools without considering alternate career goals is not advisable.

# Requirements

## Degree Requirements

**Minimum Credit Requirement:** 128 credits

**Minimum Residency Requirement:** 32 credits must be taken at UNH

**Minimum GPA:** 2.0 required for conferral\*

**Core Curriculum Required:** Discovery & Writing Program Requirements

**Foreign Language Requirement:** No

All Major, Option and Elective Requirements as indicated.

*\*Major GPA requirements as indicated.*

## Major Requirements

Students will be required to earn a C- or better in all required courses for the animal science major to receive credit toward graduation. Students failing to do this will need to retake the course in order to receive credit.

Code	Title	Credits
<b>Foundation Courses</b>		
BIOL 411	Introductory Biology: Molecular and Cellular	4
BIOL 412	Introductory Biology: Evolution, Biodiversity and Ecology	4
CHEM 403	General Chemistry I	4

BIOL 528	Applied Biostatistics I	4
BMS 503 & BMS 504	General Microbiology and General Microbiology Laboratory	5
BMCB 501	Biological Chemistry <sup>1</sup>	4
<b>Requirements for All Animal Science Majors</b>		
AAS 439	Fundamentals of Animal Health	2
ANSC 406	Careers in Animal Science	1
ANSC 421	Introduction to Animal Science	4
ANSC 511	Anatomy and Physiology	4
ANSC 512	Anatomy and Physiology	4
ANSC 543	Technical Writing in Animal Sciences (or equivalent) <sup>2</sup>	2
ANSC 602	Animal Rights and Societal Issues	4
ANSC 609	Principles of Animal Nutrition	4
ANSC 612	Genetics of Animals	4
ANSC 625	Animal Diseases	4
<b>Reproduction Course</b>		
Select one of the following:		4
ANSC 701	Physiology of Reproduction	
ANSC 715	Physiology of Lactation	
ANSC 724	Reproductive Management and Artificial Insemination	
BMS 702	Endocrinology	
<b>Major Electives</b>		
Select 3 electives from the following list. At least 2 electives must be at the 500 level or above. Electives less than 3 credits must be combined to equal 3 credits or more to count as 1 elective. At least one elective must be from the Experiential category.		12
AAS 421	Large Animal Behavior and Handling Techniques	
AAS 423	Dairy Selection	
AAS 425	Introduction to Dairy Herd Management	
AAS 432	Introduction to Forage and Grassland Management	
AAS 434	Equipment and Facilities Management	

ADMN 502	Financial Accounting
ANSC 426	Equine Conformation and Lameness
ANSC 437	Equine Husbandry Techniques
ANSC 504	Equine Physiology
ANSC #507	Survey of Equine Training Techniques
ANSC #510	Integration of Culture and Agriculture in Ireland: Past, Present, and Future
ANSC 546	Animal Business Applications
ANSC 547	Equine Stable Management
ANSC 548	Agricultural Business Management
ANSC 600	Field Experience
ANSC 603	Introduction to Livestock Management
ANSC 605	Poultry Production and Health Management
ANSC 627	Animal Health Applications
ANSC 635	Nonprofit Management for Agriculture Business
ANSC 650	Dairy Industry Travel Course
ANSC 670	Exotic Companion Species Health and Management
ANSC 690	Livestock and Wildlife in Namibia: Challenges, Opportunities and Geography
ANSC 695	Supervised Teaching Experience (Course can only be used once for elective credit)
ANSC 698	Cooperative for Real Education in Agricultural Management (CREAM) (Each semester counts as 1 elective. However, if taken in the senior year >90 credits, 1 semester can count as the capstone and 1 as an elective.)
ANSC 701	Physiology of Reproduction
ANSC 708	Ruminant Nutritional Physiology
ANSC 710	Dairy Nutrition
ANSC 715	Physiology of Lactation
ANSC 724	Reproductive Management and Artificial Insemination
ANSC 725	Equine Sports Medicine
ANSC 727	Advanced Dairy Management I
ANSC 728	Advanced Dairy Management II
ANSC 750	Collaborative Farm Design and Development
ANSC 795	Investigations
ANSC 796	Equine Senior Seminar
ANSC 799	Honors Senior Thesis
BMCB 753	Cell Culture
BMS 602	Pathogenic Microbiology
BMS 623	Histology: Microscopic Cellular Structure and Function
BMS 655	Human and Animal Parasites
BMS 702	Endocrinology
BMS 703	Infectious Disease and Health
BMS 704	Pathologic Basis of Disease
BMS 705	Immunology
BMS 706	Virology
BMS 711	Toxicology
BMS 712	Experiences in Applied Veterinary Diagnostics
BMS 718	Mammalian Physiology
BUS #410	Introduction to Entrepreneurship
CMN 500	Public Speaking
CMN #600	Public Speaking as a Civic Art
EREC 411	Environmental and Resource Economics Perspectives
EREC 680	Agricultural and Food Policy
MEFB 773	Physiology of Fishes
MGT 535	Organizational Behavior
SAFS 632	Urban Agriculture
ZOOL 610	Principles of Aquaculture
ZOOL 613W	Animal Behavior
ZOOL 777W	Neuroethology
<b>Experiential Electives</b>	
ANSC 600	Field Experience
ANSC 603	Introduction to Livestock Management
ANSC 605	Poultry Production and Health Management
ANSC 698	Cooperative for Real Education in Agricultural Management (CREAM)
ANSC 727	Advanced Dairy Management I
ANSC 728	Advanced Dairy Management II
ANSC 750	Collaborative Farm Design and Development
ANSC 795	Investigations
ANSC 799	Honors Senior Thesis
<b>Total Credits</b>	<b>78</b>

<sup>1</sup> Students interested in graduate school should take 2 semesters of Organic Chemistry (CHEM 651/CHEM 653 and CHEM 652/CHEM 654) and one semester of General Biochemistry (BMCB 658/BMCB 659) in place of BMCB 501.

<sup>2</sup> ENGL 501 Introduction to Creative Nonfiction, ENGL 502 Professional and Technical Writing, ENGL 503 Persuasive Writing or ENGL 419 How to Read Anything

## Capstone Experience

The capstone requirement must be completed during the senior year, and may be satisfied through a course (e.g., ANSC 698 Cooperative for Real Education in Agricultural Management (CREAM), ANSC 728 Advanced Dairy Management II, ANSC 750 Collaborative Farm Design and Development, ANSC 797 Equine Capstone Experience, or ANSC 799 Honors Senior Thesis) or some form of experiential learning (e.g., mentored research projects and other special student activities).

### Requirements for Animal Science Students Interested in Graduate/Veterinary School

Code	Title	Credits
BMCB 658 & BMCB 659	General Biochemistry and General Biochemistry Lab	5
CHEM 651 & CHEM 653	Organic Chemistry I and Organic Chemistry Laboratory	5
CHEM 652 & CHEM 654	Organic Chemistry II and Organic Chemistry Laboratory	5
MATH 424B	Calculus for Life Sciences	4
PHYS 401	Introduction to Physics I	4
PHYS 402	Introduction to Physics II	4

Students interested in veterinary medicine should consult the [pre-veterinary medicine program website](#).

## Student Learning Outcomes

Students will gain a fundamental knowledge of the animal science related disciplines of:

- **Anatomy & physiology:** Students will be able to recognize the complimentary relationship of anatomic structure and function and accurately describe the basic physiologic processes of mammalian organ systems.
- **Nutrition:** Students will be able to identify, compare, contrast, and link different concepts regarding animal feeding and metabolism of carbohydrates, lipids, and protein in major livestock species and equine.
- **Genetics:** Students will understand basic principles and applications of inheritance, the difference between qualitative and quantitative genetics, and be able to discuss the various disciplines within genetics.
- **Disease:** Students will understand the modes of transmission of infectious diseases, recognize signs of illness associated with notable diseases in livestock species, and be able to appropriately apply general concepts of disease prevention and biosecurity to a variety of management situations.
- **Reproduction:** Students will comprehend the mechanisms and endocrine control of gametogenesis, fertilization, pregnancy, and lactation and understand the variety of factors that can influence reproductive success.
- **Animal Ethics:** Students will recognize the numerous ways that humans use, benefit from, and conflict with non-human animals and have an awareness of the variety of motivations and influences that drive these relationships.
- Students will be able to develop critical questions that facilitate their independent investigation of topics related to animal science and demonstrate an integration of discipline specific knowledge through engaging in experiential education opportunities.
- Students will be able to conduct literature searches using relevant databases to critically evaluate both academic and popular press resources pertinent to the animal sciences.
- Students will be able to construct well-supported, effectively organized written arguments to express informed perspectives on animal science related topics. These writings will demonstrate professional style, appropriate mechanics (grammar, punctuation, and spelling), and the correct use of citations.

## Animal Science Major: Dairy Management Option (B.S.)

<https://colsa.unh.edu/agriculture-nutrition-food-systems/program/bs/animal-science-major-dairy-management-option>

## Description

The ANSC: dairy management option is designed to provide students with solid training in areas important to the successful management of a dairy enterprise, for employment in related agribusinesses (e.g., pharmaceutical and feed industries), or for those wishing to pursue additional training leading to the M.S. or Ph.D. degree in dairy science or its related disciplines. Dairy management students receive training in areas such as nutrition, reproduction, diseases, genetics, lactation

physiology, forages, agribusiness finance, personnel management, computer science, and public relations. The Fairchild Dairy Teaching and Research Center and the Burley-DeMerritt Organic Dairy Research Farm are modern dairy facilities. The Fairchild Dairy houses 100 lactating Holstein cows plus a similar number of non-lactating animals. The Burley-DeMerritt Farm houses 50 lactating Jersey cows plus a small number of non-lactating animals.

## Requirements

## Degree Requirements

**Minimum Credit Requirement:** 128 credits

**Minimum Residency Requirement:** 32 credits must be taken at UNH

**Minimum GPA:** 2.0 required for conferral\*

**Core Curriculum Required:** Discovery & Writing Program Requirements

**Foreign Language Requirement:** No

All Major, Option and Elective Requirements as indicated.

*\*Major GPA requirements as indicated.*

## Major Requirements

GPA requirements for All Students in Animal Science: Students will be required to earn a C- or better in the foundation courses and all required courses for the animal science major to receive credit toward graduation. Students failing to do this will need to retake the course in order to receive credit.

Code	Title	Credits

## Student Learning Outcomes

Students will gain a fundamental knowledge of the animal science related disciplines of:

### Anatomy & physiology

- Students will be able to recognize the complimentary relationship of anatomic structure and function and accurately describe the basic physiologic processes of mammalian organ systems.

### Nutrition

- Students will be able to identify, compare, contrast, and link different concepts regarding animal feeding and metabolism of carbohydrates, lipids, and protein in major livestock species and equine. - Genetics

o Students will understand basic principles and applications of inheritance, the difference between qualitative and quantitative genetics, and be able to discuss the various disciplines within genetics.

### Disease

- Students will understand the modes of transmission of infectious diseases, recognize signs of illness associated with notable diseases in livestock species, and be able to appropriately apply general concepts of disease prevention and biosecurity to a variety of management situations.

### Reproduction

- Students will comprehend the mechanisms and endocrine control of gametogenesis, fertilization, pregnancy, and lactation and understand the variety of factors that can influence reproductive success.

### Animal Ethics

- Students will recognize the numerous ways that humans use, benefit from, and conflict with non-human animals and have an awareness of the variety of motivations and influences that drive these relationships.
- Students will be able to develop critical questions that facilitate their independent investigation of topics related to animal science and demonstrate an integration of discipline specific knowledge through engaging in experiential education opportunities.
- Students will be able to conduct literature searches using relevant databases to critically evaluate both academic and popular press resources pertinent to the animal sciences.
- Students will be able to construct well-supported, effectively organized written arguments to express informed perspectives on animal science related topics. These writings will demonstrate professional style, appropriate mechanics (grammar, punctuation, and spelling), and the correct use of citations.

## Animal Science Major: Equine Studies Option (B.S.)

<https://colsa.unh.edu/agriculture-nutrition-food-systems/program/bs/animal-science-equine-studies-option>

## Description

The Animal Science: Equine Studies option is designed to provide students with a foundation in the sciences, a breadth within the animal science discipline, and the depth to serve the equine industry. Through a hands-on curriculum, equine studies students receive training in areas important to pursuing a successful career in equine management and to pursue additional training leading to the M.S. or Ph.D. degree in equine science or its related disciplines. The UNH Equine facilities include a 40-stall barn, indoor and outdoor riding arenas, 3 regulation-size dressage competition arenas, an outdoor competition course, laboratory, and artificial insemination rooms as well as classrooms and conference space.

## Requirements

### Degree Requirements

**Minimum Credit Requirement:** 128 credits

**Minimum Residency Requirement:** 32 credits must be taken at UNH

**Minimum GPA:** 2.0 required for conferral\*

**Core Curriculum Required:** Discovery & Writing Program Requirements

**Foreign Language Requirement:** No

All Major, Option and Elective Requirements as indicated.

\*Major GPA requirements as indicated.

### Major Requirements

Students will be required to earn a C- or better in the foundation courses and all required courses for the animal science major to receive credit toward graduation. Students failing to do this will need to retake the course in order to receive credit.

ANSC 797	Equine Capstone Experience	4

#### D. Equine Elective Courses

All Equine Option students will complete  $\geq 8$  elective credits of the courses listed below. Some courses are not offered every academic year. Students will work with their advisor to plan accordingly and customize their course selection to support their career goals and interests.

Code	Title	Credits
AAS 434	Equipment and Facilities Management	3
ANSC 500	Equine Assisted Activities and Therapies	4
ANSC 536	Preparation and Competition Techniques for the Modern Sport Horse	4
ANSC 548	Agricultural Business Management	4
ANSC 622	Further Explorations in Horsemanship Theory	2
ANSC 640	Principles of Riding Instruction	4
ANSC 641	Principles of Dressage Instruction	2
ANSC 643	Principles of Therapeutic Riding Instruction	4
ANSC 695	Supervised Teaching Experience	2
ANSC 799	Honors Senior Thesis	1-4

#### E. Professional Internship or Related Work Experience

Equine Studies option students will demonstrate evidence of a substantive work or internship experience in the equine industry. In collaboration with their advisors, students will select an appropriate setting based on their professional and career interests. Students will document this work via either credit-based ANSC 600 Field Experience or no-credit AAS 597 Applied Animal Science Work Experience.

<sup>1</sup> Students interested in graduate school should take 2 semesters of Organic Chemistry (CHEM 651/CHEM 653 and CHEM 652/CHEM 654) and one semester of General Biochemistry (BMCB 658/BMCB 659) in place of BMCB 501.

<sup>2</sup> ENGL 501 Introduction to Creative Nonfiction, ENGL 502 Professional and Technical Writing, ENGL 503 Persuasive Writing or ENGL 419 How to Read Anything.

**Total Credits: 91**

## Degree Plan

Course	Title	Credits
<b>First Year</b>		
<b>Fall</b>		
ANSC 427	Introduction to Equine Science	4
BIOL 412	Introductory Biology: Evolution, Biodiversity and Ecology	4
CHEM 403	General Chemistry I	4
Discovery Course or Elective <sup>1</sup>		4
<b>Credits</b>		<b>16</b>

<b>Spring</b>		
ANSC 406	Careers in Animal Science	1
BIOL 412	Introductory Biology: Evolution, Biodiversity and Ecology	4
CHEM 404	General Chemistry II	4
ENGL 401	First-Year Writing	4
Discovery course		4
<b>Credits</b>		<b>17</b>

<b>Second Year</b>		
<b>Fall</b>		
AAS 432	Introduction to Forage and Grassland Management	3

ANSC 511	Anatomy and Physiology	4
ANSC 522	Ethical Horsemanship - Considerations and Theory	3
ANSC 538	Equine Handling/Longeing	1
Elective		4
<b>Credits</b>		<b>15</b>

**Spring**

AAS 439	Fundamentals of Animal Health	2
ANSC 512	Anatomy and Physiology	4
ANSC 526	Equine Conformation, Movement, and Performance	4
ANSC 543	Technical Writing in Animal Sciences	2
BIOL 528	Applied Biostatistics I	4
<b>Credits</b>		<b>16</b>

**Third Year****Fall**

ANSC 547	Equine Stable Management	3
ANSC 612	Genetics of Animals	4
ANSC 625	Animal Diseases	4
BMS 503 & BMS 504	General Microbiology and General Microbiology Laboratory	5
<b>Credits</b>		<b>16</b>

**Spring**

ANSC 609	Principles of Animal Nutrition	4
BMCB 501	Biological Chemistry	4
ANSC 665	Agricultural & Equine Event Design, Planning and Management	2
Discovery course		4
Elective		4
<b>Credits</b>		<b>18</b>

**Fourth Year****Fall**

ANSC 504	Equine Physiology	4
Discovery course		4
Elective		4
Discovery course		4
<b>Credits</b>		<b>16</b>

**Spring**

ANSC 602	Animal Rights and Societal Issues	4
ANSC 724	Reproductive Management and Artificial Insemination	4
ANSC 797	Equine Capstone Experience	4
Discovery course		4
<b>Credits</b>		<b>16</b>
<b>Total Credits</b>		<b>130</b>

<sup>1</sup> ANSC 402 Horsemanship is a popular elective for ANSC: EQU students; the course requires permission of the instructor.

## Student Learning Outcomes

As part of the foundation and core courses, all **Animal Science** students will gain a fundamental knowledge of the disciplines of:

**Anatomy & physiology**

- Students will be able to recognize the complimentary relationship of anatomic structure and function and accurately describe the basic physiologic processes of mammalian organ systems.

**Nutrition**

- Students will be able to identify, compare, contrast, and link different concepts regarding animal feeding and metabolism of carbohydrates, lipids, and protein in major livestock species and equine.

**Genetics**

- Students will understand basic principles and applications of inheritance, the difference between qualitative and quantitative genetics, and be able to discuss the various disciplines within genetics.

**Disease**

- Students will understand the modes of transmission of infectious diseases, recognize signs of illness associated with notable diseases in livestock species, and be able to appropriately apply general concepts of disease prevention and biosecurity to a variety of management situations.

**Reproduction**

- Students will comprehend the mechanisms and endocrine control of gametogenesis, fertilization, pregnancy, and lactation and understand the variety of factors that can influence reproductive success.

**Animal Ethics**

- Students will recognize the numerous ways that humans use, benefit from, and conflict with non-human animals and have an awareness of the variety of motivations and influences that drive these relationships.

**Critical Analysis & Communication**

- Students will be able to develop critical questions that facilitate their independent investigation of topics related to animal science and demonstrate an integration of discipline specific knowledge through engaging in experiential education opportunities.
- Students will be able to conduct literature searches using relevant databases to critically evaluate both academic and popular press resources pertinent to the animal sciences.
- Students will be able to construct well-supported, effectively organized written arguments to express informed perspectives on animal science related topics. These writings will demonstrate professional style, appropriate mechanics (grammar, punctuation, and spelling), and the correct use of citations.

By completing the **Equine Core**, students will be able to:

- Identify, explain, and demonstrate safe, effective, and humane equine handling and stable management skills.

- Identify, explain, and demonstrate equine health management practices and basic equine first aid.
- Explain guidelines for equine nutrition, feeding, and parasite management.
- Demonstrate technical proficiency with English tack, boots, bandages, and blankets.
- Demonstrate safe, competent longeing technique using a trained horse.
- Demonstrate an understanding of the principles of riding practices in equestrian sport.
- Communicate effectively, in written and verbal form, about professional topics in the equine industry.

## Animal Science Minor

<https://colsa.unh.edu/agriculture-nutrition-food-systems/program/minor/animal-science>

### Description

The study of animal science will provide you with an introduction to the biology and management of animal species. In this minor, you'll choose from a wide array of electives, with the potential to delve into topics such as animal genetics, diseases, and ethics, and gain hands-on equine, poultry and dairy experience. Your studies will prepare you for careers in various animal industries or further studies in veterinary medicine or graduate school.

Students wanting to declare a minor in animal science must meet with animal science minor coordinator as early as possible and no later than first semester of their junior year.

Students must complete [a](#) minor [completion](#) form [during](#) their final semester at UNH.

### Requirements

- [A minor in Animal Science consists of a minimum of 20 credits of Animal Science \(ANSC\) courses.](#)
- [No more than 7 credits may be taken in the Thompson School of Applied Science \(AAS\) and at the 400- level.](#)
- Students must receive a minimum grade of C- in any course used for the minor. Students failing to do this will need to retake the course in order to receive credit.
- No courses taken on a pass (credit)/fail basis may count toward the minor.
- Students who transfer from other institutions may petition the animal science program faculty for course approval.
- [No more than eight credits used to satisfy major requirements may be used for the minor.](#)

Code	Title	Credits
<b>Choose one of the following introductory courses:</b>		
AAS 425	Introduction to Dairy Herd Management	4
ANSC 401	Animals and Society	4
ANSC 421	Introduction to Animal Science	4
<b>Choose one of the following experiential courses:</b>		
ANSC 600	Field Experience	4
ANSC 603	Introduction to Livestock Management	4
ANSC 605	Poultry Production and Health Management	4

ANSC 698	Cooperative for Real Education in Agricultural Management (CREAM) <sup>1</sup>	4
ANSC 727	Advanced Dairy Management I <sup>1</sup>	4
ANSC 728	Advanced Dairy Management II <sup>1</sup>	4
<b>Choose one of the following courses:</b>		<b>4-12</b>
ANSC #510	Integration of Culture and Agriculture in Ireland: Past, Present, and Future	4
ANSC 511	Anatomy and Physiology	4
ANSC 512	Anatomy and Physiology	4
ANSC 543	Technical Writing in Animal Sciences	2
ANSC 602	Animal Rights and Societal Issues	4
ANSC 609	Principles of Animal Nutrition	4
ANSC 612	Genetics of Animals	4
ANSC 625	Animal Diseases	4
ANSC 627	Animal Health Applications	4
ANSC 670	Exotic Companion Species Health and Management	4
ANSC 690	Livestock and Wildlife in Namibia: Challenges, Opportunities and Geography	4
ANSC 701	Physiology of Reproduction	4
ANSC 708	Ruminant Nutritional Physiology	3
ANSC 710	Dairy Nutrition	4
ANSC 715	Physiology of Lactation	4
ANSC 724	Reproductive Management and Artificial Insemination	4
ANSC 750	Collaborative Farm Design and Development	4
ANSC 795	Investigations	1-4

<sup>1</sup> Note that previous dairy course work is highly recommended for success in these upper level courses

## Dairy Management Minor

<https://colsa.unh.edu/agriculture-nutrition-food-systems/program/minor/dairy-management>

### Description

Learn the fundamentals of running a dairy farm in this minor, from caring for the animals to managing the business end of the operation. In addition to courses in animal science, including biology, animal health, nutrition, genetics and reproduction, you'll be introduced to areas such as agribusiness finance, personnel management and public relations. Combine this minor with a major in animal science, biology or sustainable agriculture to enhance your career opportunities or prepare for future graduate studies.

### Requirements

A minor in Dairy Management consists of 20 credits with C- or better and a 2.0 grade point average in subjects that the minor department approves. Courses taken on the pass/fail basis cannot be used for a minor. No more than 8 credits used to satisfy major requirements may be used for the minor.

Code	Title	Credits
<b>Required Courses</b>		
AAS 425	Introduction to Dairy Herd Management	4
ANSC 710	Dairy Nutrition	4
ANSC 715	Physiology of Lactation	4
<b>Select 8 credits from the following:</b>		
AAS 423	Dairy Selection	2
ANSC 650	Dairy Industry Travel Course	1
ANSC 698	Cooperative for Real Education in Agricultural Management (CREAM) (must be taken for 2 semesters)	4
ANSC 728	Advanced Dairy Management II	4

# Equine Assisted Activities and Therapies Minor

<https://colsa.unh.edu/agriculture-nutrition-food-systems/program/minor/equine-assisted-activities-therapies>

## Description

The minor in Equine-Assisted Activities and Therapies (EAAT) provides students with exposure to several disciplines within this diverse field. The required courses introduce students to key concepts in equine handling and EAAT, including equine skills and the opportunity to test for PATH International CTRL instructor certification in therapeutic riding. The elective courses list for the proposed EAAT minor are designed to provide students with supporting knowledge of equine-specific topics and non-profit challenges necessary for professionals working in the EAAT field.

## Requirements

Students in the EAAT minor will take a total of 20 credit hours. Students must receive a minimum grade of C- in any course used for the minor. Students failing to do this will need to retake the course in order to receive credit. In accordance with University policy, up to 8 credit hours may count for both the minor as well as for the major, second major, or dual major. Students pursuing a degree in Equine Studies will NOT be eligible to complete the minor.

Code	Title	Credits
Required Courses		
ANSC 437	Equine Husbandry Techniques	4
or ANSC 426	Equine Conformation and Lameness	
ANSC 500	Equine Assisted Activities and Therapies	4
ANSC 643	Principles of Therapeutic Riding Instruction	4
Total Credits		12
Code	Title	Credits
Electives (Select at least 8 credits from the below)		
Choose 1:		2-4
ANSC 405	Theory of Horsemanship	2
or ANSC 422 & ANSC 402	Introduction to Horsemanship Theory and Horsemanship Lab	
or ANSC 522 & ANSC 402	Ethical Horsemanship - Considerations and Theory and Horsemanship Lab	
ANSC 426	Equine Conformation and Lameness	4
ANSC 437	Equine Husbandry Techniques	4
ANSC 635	Nonprofit Management for Agriculture Business	4
ANSC 640	Principles of Riding Instruction (W)	4
ANSC 641	Principles of Dressage Instruction	2
ANSC 744	Advanced Concepts in Therapeutic Riding Instruction	4
ANSC 795W	Investigations	1-4
OT 510	Exploring Occupational Therapy and Occupation	4
PSYC 561	Abnormal Behavior	4
RMP 501	Recreation Services for Individuals with Disabilities	4

# Equine Studies Minor

<https://colsa.unh.edu/agriculture-nutrition-food-systems/program/minor/equine-studies>

## Description

The equine studies minor at UNH will allow you to pursue your interest in horsemanship while also getting an introduction to equine science, equine industry and management, and equine-assisted activities and therapies. You'll be able to explore equine care and management, equine health, and equine anatomy while also working with horses to develop professional equine skills. Combine this minor with a major such as biology, business, agriculture, or human-service-related fields to expand your possibilities for an equine-related career or further studies.

Students interested in the minor in equine studies should contact [Sarah Rigg](mailto:Sarah.Rigg@unh.edu) ([Sarah.Rigg@unh.edu](mailto:Sarah.Rigg@unh.edu)).

## Requirements

A minor in equine studies consists of a minimum of 20 credits of equine-related animal science courses.

- ANSC 402 may be counted only once for minor credit.
- Students MUST take either ANSC 504 Equine Physiology or ANSC 437 Equine Husbandry Techniques.
- Students may count either ANSC 422 or ANSC 522 for minor credit, but they may not count both.
- Students may count either ANSC 548 or ANSC 635 for minor credit, but they may not count both.
- Students must receive a minimum grade of C- in any course used for the minor. Students failing to do this will need to retake the course in order to receive credit.
- No courses taken on a pass(credit)/fail basis may count toward the minor.
- No more than 12 credits at the 400-level may be used for the minor.
- Students may petition equine faculty in their **junior year** to include a course that is not listed.
- Students must take at least one course at the 600- or 700-level.
- Students who transfer from other institutions may petition the equine program faculty for course approval.
- Students who choose both ANSC 500 and ANSC 643 as two of their courses toward the minor in equine studies will be eligible for PATH International therapeutic riding instructor certification.

Code	Title	Credits
Required Course		
ANSC 437	Equine Husbandry Techniques	4
Electives		
Select a minimum of 16 credits from the following electives:		
AAS 434	Equipment and Facilities Management	3
ANSC 402	Horsemanship Lab	1
ANSC 405	Theory of Horsemanship	2
ANSC 419	Horse Power	4
ANSC 422	Introduction to Horsemanship Theory	3
or ANSC 522	Ethical Horsemanship - Considerations and Theory	
ANSC 426	Equine Conformation and Lameness	4
ANSC 500	Equine Assisted Activities and Therapies	4
ANSC 504	Equine Physiology	4
ANSC #507	Survey of Equine Training Techniques	3
ANSC 536	Preparation and Competition Techniques for the Modern Sport Horse	4
ANSC 538	Equine Handling/Longeing	1
ANSC 546	Animal Business Applications	4
ANSC 547	Equine Stable Management	3
ANSC 548	Agricultural Business Management	4

or ANSC 635	Nonprofit Management for Agriculture Business	
ANSC 640	Principles of Riding Instruction	4
ANSC 641	Principles of Dressage Instruction	2
ANSC 642	Principles of Jumping Instruction	2
ANSC 643	Principles of Therapeutic Riding Instruction	4
ANSC 665	Agricultural & Equine Event Design, Planning and Management	2
ANSC 695	Supervised Teaching Experience <sup>1</sup>	1-2
ANSC 724	Reproductive Management and Artificial Insemination	4
ANSC 725	Equine Sports Medicine	4
ANSC 744	Advanced Concepts in Therapeutic Riding Instruction	4
ANSC 795	Investigations <sup>1</sup>	1-4
ANSC 795W	Investigations <sup>1</sup>	1-4
ANSC 799	Honors Senior Thesis <sup>1</sup>	1-4
Total Credits		78-88

<sup>1</sup> Subject to approval. Must be equine-related.

## Biochemistry, Molecular and Cellular Biology (BMCB)

The field of biochemistry, molecular and cellular biology (BMCB) encompasses a wide range of life sciences, from biophysics and biochemistry to applied biology and medicine. The B.S. in biochemistry, molecular and cellular biology is designed for students to gain a solid foundation in biology, chemistry, physics, and mathematics, along with advanced knowledge in molecular biology, biochemistry, cell biology, and genetics. BMCB students have exposure to cutting-edge techniques and frontier research topics through inquiry-based learning and hands-on research opportunities. The program offers research opportunities with program faculty in the areas of structural biology, cell signaling pathways, cancer biology, gene regulation, neurobiology, cellular structure and function, and proteomics. Graduates are "profession-ready" and well-prepared for entry-level positions in biomedical research or in the biotechnology and pharmaceutical industries, for graduate education, or for post-baccalaureate professional programs (e.g., medical school, veterinary school, dental school, etc.).

The curriculum provides most of the required and recommended courses for students seeking admission to graduate schools and to professional schools in medicine, dentistry, veterinary medicine, or pharmacy. Students obtaining a B.S. in BMCB enjoy excellent job prospects immediately upon graduation, due to high demand for skilled research technicians in biotech and pharmaceutical companies, government agencies, academic research laboratories, and medical diagnostic laboratories. Graduates also have knowledge and skills that are valuable in the fields of management, sales, marketing, regulatory affairs, technical writing, and science journalism. Students who major in BMCB can also use their training in conjunction with advanced degrees in law and business. With additional courses in education, the B.S. degree in BMCB also qualifies graduates to teach at the elementary, junior high, or high school levels.

Faculty participating in the BMCB major combine a passion for teaching and student advising with strong expertise and achievements in their research areas. BMCB faculty are committed to providing independent research experiences for undergraduate students, and most faculty have active and well-funded research programs utilizing state-of-the-art techniques and instruments. On-campus facilities that students can use to enhance their research experience include the Hubbard Center for Genome Studies, the University Instrumentation Center, and the Center of Integrated Biomedical and Bioengineering Research.

## Pre-Professional Health Programs

Students interested in postgraduate education in healthcare occupations (e.g., medical, dental, physician assistant, pharmacy, etc.) should visit the [UNH Pre-Professional Health Programs Advising Office](#) website or in person (Rudman Hall, Room G02). Students interested in veterinary medicine should consult the [Pre-Veterinary Medicine Program](#). While many of the prerequisite courses required by professional schools are also requirements of the BMCB major, students should consult with their faculty adviser to create a plan of study that best prepares them for pursuing a career in one of these health professions.

## Biochemistry, Molecular and Cellular Biology Major (B.S.)

<https://colsa.unh.edu/molecular-cellular-biomedical-sciences/program/bs/biochemistry-molecular-cellular-biology-major>

### Description

The Biochemistry, Molecular & Cellular Biology (BMCB) major provides you with conceptual competence, analytical skills, and laboratory experiences to understand life at the molecular and cellular level. Your BMCB degree will prepare you for immediate employment as a research associate in industry, for entry into graduate or professional programs in medicine, dentistry or other allied health professions, and other career tracks.

**The BMCB program offers advanced coursework and laboratories in diverse research areas of modern biology**

- Cancer biology
- Cell biology
- Cell culture & tissue engineering
- Endocrinology
- Molecular biology
- Pharmacology
- Physical biochemistry
- Protein structure, function & proteomics

**BMCB majors participate in experiential learning activities**

- Many courses have integrated laboratory experiences to foster inquiry-based learning and to train creative and critical thinkers
- Independent research experiences are available in faculty research laboratories
- Many courses provide exposure to cutting-edge techniques and instrumentation

- Job preparation can be enhanced by internships with regional biotechnology and pharmaceutical companies
- Summer undergraduate research fellowships at U.S. or international academic institutions combine travel with research opportunities outside UNH

**BMCB graduates have been successful in many careers**

- Research associates and laboratory technicians
  - Biotechnology and pharmaceutical companies
  - Government agencies
  - Forensics laboratories
  - Academic research laboratories
  - Hospitals
- Science journalists and technical writers
- Healthcare workers
- Pharmaceutical sales and marketing staff
- Regulatory agency staff
- Primary and secondary school educators (with additional coursework in education)

**BMCB graduates are well prepared for post-baccalaureate education**

- Masters and doctoral programs in a wide variety of disciplines
- Professional health programs
  - Medical
  - Dental
  - Pharmacy
  - Physician's Assistant and other allied health programs

*Note:* The BMCB major is designed so you can complete all of the prerequisite courses needed to seek admission to graduate schools or health professional schools in four years.

Requirements

Degree Requirements

**Minimum Credit Requirement:** 128 credits

**Minimum Residency Requirement:** 32 credits must be taken at UNH

**Minimum GPA:** 2.0 required for conferral\*

**Core Curriculum Required:** Discovery & Writing Program Requirements

**Foreign Language Requirement:** No

All Major, Option and Elective Requirements as indicated.  
*\*Major GPA requirements as indicated.*

Major Requirements

Students in the Biochemistry, Molecular and Cellular Biology (BMCB) major take eight Foundation courses, four Bioscience Core courses, five BMCB Core courses, one Laboratory Techniques course, and three Major Elective courses. One capstone experience, supervised and approved within the major, is required of all seniors. In addition, all other University academic requirements must be completed, including those for the Discovery Program and the University Writing Requirement.

A grade of C-minus or better is required in Statistics and in all Bioscience Core, BMCB Core, Laboratory Techniques, and Major Elective courses.

Code	Title	Credits
Foundation Core Courses		
CHEM 403	General Chemistry I <sup>1</sup>	4
CHEM 404	General Chemistry II	4
CHEM 547 & CHEM 549	Organic Chemistry I and Organic Chemistry Laboratory <sup>2</sup>	5
CHEM 548 & CHEM 550	Organic Chemistry II and Organic Chemistry Laboratory <sup>2</sup>	5
MATH 424B	Calculus for Life Sciences <sup>3, 4</sup>	4
BIOL 528	Applied Biostatistics I <sup>4</sup>	4
PHYS 401	Introduction to Physics I <sup>5</sup>	4
PHYS 402	Introduction to Physics II <sup>5</sup>	4

- <sup>1</sup> Fulfills Physical Science Discovery requirement
- <sup>2</sup> CHEM 651/CHEM 653 & CHEM 652/CHEM 654 can be substituted for CHEM 547/CHEM 549 & CHEM 548/CHEM 550.
- <sup>3</sup> Fulfills Quantitative Reasoning Discovery requirement
- <sup>4</sup> MATH 425 and MATH 426 can be substituted for MATH 424B and BIOL 528
- <sup>5</sup> PHYS 407 and PHYS 408 can be substituted for PHYS 401 and PHYS 402

Bioscience Core Courses

Code	Title	Credits
BIOL 411	Introductory Biology: Molecular and Cellular <sup>6</sup>	4
BIOL 412	Introductory Biology: Evolution, Biodiversity and Ecology	4
BMS 503 & BMS 504	General Microbiology and General Microbiology Laboratory	5
GEN 604	Principles of Genetics	4

- <sup>6</sup> BIOL 411 fulfills the Biological Science Discovery requirement, Discovery Laboratory requirement, and Discovery Inquiry requirement

BMCB Core Courses

Code	Title	Credits
BMCB 401	Professional Perspectives in Biochemistry, Molecular and Cellular Biology	1
BMCB 605	Principles of Cell Biology	4
BMCB 751	Principles of Biochemistry	4
BMCB 752	Principles of Biochemistry	4
GEN 704 or GEN 771	Genetics of Prokaryotic Microbes Molecular Genetics	4-5

Laboratory Techniques Courses (Pick one)

Code	Title	Credits
BMCB 753	Cell Culture	5
BMCB 754	Molecular Biology Research Methods	5
BMCB 755	Protein Biochemistry Laboratory	5
BMS 725	Cell Phenotyping and Tissue Engineering Laboratory	4

BMCB Major Electives (Pick three)

A total of three unique major electives is required.

Code	Title	Credits
BMCB 750	Physical Biochemistry	3
BMCB 753	Cell Culture <sup>7</sup>	5
BMCB 754	Molecular Biology Research Methods <sup>7</sup>	5
BMCB 755	Protein Biochemistry Laboratory <sup>7</sup>	5
BMCB 760	Pharmacology	4
BMCB 763	Biochemistry of Cancer	4
BMCB 794	Protein Structure and Function	4

BMCB 795	Investigations in Molecular and Cellular Biology (4-credit minimum) <sup>8</sup>	1-4
BMCB 795W	Investigations in Molecular and Cellular Biology (4-credit minimum) <sup>8</sup>	1-4
BMCB 799	Senior Thesis (4-credit minimum) <sup>8</sup>	1-4
BMCB 799H	Honors Senior Thesis (4-credit minimum) <sup>8</sup>	1-4
ANSC 701	Physiology of Reproduction	4
ANSC 715	Physiology of Lactation	4
BIOL 706	Data Science with R for the Life Sciences	4
BMS 507 & BMS 508	Human Anatomy and Physiology I and Human Anatomy and Physiology II	8
BMS 702	Endocrinology	4
BMS 704	Pathologic Basis of Disease	4
BMS 705 & BMS 715	Immunology and Immunology Laboratory	5
BMS 706 & BMS 708	Virology and Virology Laboratory	5
BMS 718	Mammalian Physiology	4
BMS 725	Cell Phenotyping and Tissue Engineering Laboratory <sup>7</sup>	4
BMS 735	Molecular and Cellular Parasitology	4
CHBE 755	Computational Molecular Bioengineering	4
CHEM 740	Chemical Biology	3
CHEM 755	Advanced Organic Chemistry	3
GEN 704	Genetics of Prokaryotic Microbes <sup>7</sup>	5
GEN 705	Population Genetics <sup>9</sup>	3
GEN 706	Human Genetics	4
GEN 711	Genomics and Bioinformatics	4
GEN 713	Microbial Ecology and Evolution	4
GEN 715	Molecular Evolution	4
GEN 717	Molecular Microbiology	5
GEN 721	Comparative Genomics	4
GEN 771	Molecular Genetics <sup>7</sup>	4
NUTR 750	Nutritional Biochemistry	4
PSYC 731	Brain and Behavior	4
ZOOL 777W	Neuroethology	4

<sup>7</sup> If course is used to fulfill BMCB Core or Laboratory Technique requirement, course cannot count as BMCB Major Elective.

<sup>8</sup> Choose no more than ONE of the following courses to fulfill a major elective: BMCB 795, BMCB 795W, BMCB 799, BMCB 799H

<sup>9</sup> Taking GEN 725 Population Genetics Lab is recommended, but not required.

### Approved BMCB Capstone Courses

The capstone explores areas of interest based on the integration of prior learning. The capstone requirement may be satisfied through a course, created work or product, or some form of experiential learning (e.g., honors thesis, mentored research project, or other special student activity). Students may take more than one capstone course. Capstone completion is never displayed on Degree Works; your advisor will certify capstone completion at the time of graduation. Students must have 90 credits or more when completing their capstone requirement. See your advisor for questions about capstones.

Code	Title	Credits
BMCB 750	Physical Biochemistry	3
BMCB 760	Pharmacology	4
BMCB 763	Biochemistry of Cancer	4
BMCB 794	Protein Structure and Function	4
BMCB 795	Investigations in Molecular and Cellular Biology (4-credit minimum)	1-4
BMCB 795W	Investigations in Molecular and Cellular Biology (4-credit minimum)	1-4
BMCB 799	Senior Thesis (4-credit minimum)	1-4
BMCB 799H	Honors Senior Thesis (4-credit minimum)	1-4
INCO 790	Advanced Research Experience (4-credit minimum)	1-4

For a Capstone experience not listed above, such as an internship, submit a [Capstone Approval form](#) prior to beginning the experience.

## Degree Plan

Student Learning Outcomes

Core Knowledge in Biochemistry, Molecular Biology, and Cell Biology

- Students will be able to explain the structure and function of macromolecules, including key functional groups, higher order structure and function of macromolecules, catalysis and enzyme kinetics.
- Students will be able to explain matter and energy conversion, including thermodynamics, catalysis, biological energy, ATP and its function in metabolism.
- Students will be able to explain cellular homeostasis, including major metabolic pathways for carbohydrates, lipids, proteins and nucleic acids, key regulatory steps in these pathways and the organization of metabolic enzymes.
- Students will be able to explain the flow of biological information, including detailed replication, transcription and translation processes in the context of homeostasis and development.

Quantitative Literacy, Inquiry & Analysis

- Students will be able to apply the scientific method to examine experimental evidence and draw informed conclusions.
- Students will be able to use graphs to represent scientific data.
- Students will be able to apply statistical methods to interpret scientific data.

Critical Thinking & Problem Solving

- Students will be able to use data to troubleshoot an unexpected outcome.
- Students will be able to apply core knowledge to critically interpret scientific data.

Written Communication

- Students will demonstrate written skills to communicate scientific knowledge and experimental data.

Oral Communication

- Students will be able to demonstrate oral presentation skills to communicate scientific knowledge and experimental data.

Biochemistry, Molecular and Cellular Biology Minor

<https://colsa.unh.edu/molecular-cellular-biomedical-sciences/program/minor/biochemistry-molecular-cellular-biology>

Description

Students who wish to develop focused competencies in biochemistry, molecular biology, and/or cell biology can complement their major academic program with a minor in biochemistry, molecular and cellular biology (BMCB).

Requirements

- Complete 20 credits from the courses listed below, with a grade of C-minus or better.
- C average (2.00) is required in courses that the minor program approves.
- No more than 8 credits used to satisfy major requirements may be used for the minor.
- Pass/fail courses may not be used for the minor.
- It is the student's responsibility to complete a [Certification of Completion of Minor form](#) during their final semester at UNH.

Biology

<https://colsa.unh.edu/biological-sciences>

Description

UNH's location and facilities provide unique opportunities for the study of biology due to its access to the seacoast, the [Shoals Marine Laboratory](#), the lakes region of NH, and White Mountain National Forest. The Biology faculty strongly believe in a hands-on approach to teaching and active involvement of undergraduates in research. We have a wide range of faculty expertise, including freshwater, estuarine, ecology, physiology, neurobiology, and behavior. A Biology degree provides the background for a variety of professional positions in the public and private sectors, and provides an excellent foundation for students seeking to apply for graduate, medical, or veterinary school.

## Programs

- [Biology Major \(B.S.\)](#) (p. 329)
- [Biology Minor](#) (p. 331)
- [Plant Biology Minor](#) (p. 332)

## Faculty

<https://colsa.unh.edu/biological-sciences/people>

## Biology Major (B.S.)

<https://colsa.unh.edu/biological-sciences/program/bs/biology-major>

## Description

Biology is one of the most popular science majors since it provides a broad background in the biological sciences while allowing flexibility and specialization within the major. It integrates theoretical and practical (hands-on laboratory and field work) courses in different aspects of the biology of multicellular life. It encompasses the study of structural and functional relationships of living organisms at the molecular, cellular, and organismal level, the interactions of living systems with the environment and with each other, and the evolutionary relationships of life. Our goal is to create an environment for those with a scholarly interest in the biological sciences, and to extend their understanding, awareness, and appreciation of the diversity inherent in the biological sciences. Our major is aimed at promoting an excellent education in biological sciences by involving undergraduate students in a strong interaction with faculty both in the classroom and in research laboratories.

The biology major prepares students for post graduate degrees in the biological and medical fields, and for job opportunities in industry (environmental, biomedical, pharmaceutical, and biotechnological) and governmental research, and secondary school teaching. Completion of the four-year undergraduate program plus a fifth-year internship will be necessary for biology teaching certification. Students who plan to enter medical, dental, or related professional schools are advised to confer with their faculty adviser to work the requirements for these programs into their academic majors.

Core courses in the biology major are from departments that contribute to the biological sciences community at UNH. The core curriculum consists of introductory and upper-level science courses plus seven additional courses in the biological sciences; three of these must be selected from course lists in three broad categories.

While students are advised to declare the biology major as incoming first-year students to assure adequate program planning, transfer into this major at a later stage is also possible. Several of the other biological science majors share the same biology core curriculum. For the first to two years, it is quite easy to change to or from these other majors.

## Requirements

## Degree Requirements

**Minimum Credit Requirement:** 128 credits

**Minimum Residency Requirement:** 32 credits must be taken at UNH

**Minimum GPA:** 2.0 required for conferral\*

**Core Curriculum Required:** Discovery & Writing Program Requirements

**Foreign Language Requirement:** No

All Major, Option and Elective Requirements as indicated.

\*Major GPA requirements as indicated.

## Major Requirements

The biology courses in the core curriculum constitute an integrated sequence that train students in the basic skills and concepts of knowledge inherent to the biological sciences. The biology core allows a student to obtain a broad background in biology, and in the related physical sciences and math that provide a foundation for success in understanding biological principals.

To receive the B.S. degree in biology, students must complete 128 credit hours with at least a 2.0 cumulative grade-point average for completion of the degree. All UNH Discovery Program requirements, biology core curriculum requirements, plus seven additional courses from the biological sciences, and a capstone experience. A minimum grade of C- is required in all biological science courses that are counted toward the requirements for a degree in biology. Students who expect to compete successfully for post-baccalaureate programs should attain a cumulative GPA of 3.0 or higher by the end of the sophomore year and maintain it at that level.

Code	Title	Credits
<b>Core Curriculum Courses</b>		
BIOL 400	Professional Perspectives on Biology <sup>1</sup>	1
BIOL 412	Introductory Biology: Evolution, Biodiversity and Ecology	4

BIOL 780	Capstone Companion Course	1
<b>Total Credits</b>		<b>51-55</b>

## Biology Electives

In addition to the biology core curriculum, students must complete seven biology elective courses. One course must be taken from each of the three categories/disciplines; the other four electives can be chosen from the category lists or can be any other biological sciences course with approval of the student's adviser. All courses must be 500-level or above. There must be one animal-identified course (A) and one plant/fungal/algae course (FP). One capstone experience is required of all seniors; see subsequent section on capstones for detailed requirements. Corequisite lecture and lab courses count as one course.

ZOOL 610	Principles of Aquaculture	4

<sup>1</sup> BIOL 400 Professional Perspectives on Biology is required only for first-year biology majors.

<sup>2</sup> Students exploring pre-health professions should take a full year of Organic Chemistry (CHEM 651/CHEM 653 and CHEM 652/CHEM 654).

<sup>3</sup> A 600, 695, 795, or 799 experience may substitute for one elective with academic advisor approval, but only if taken for at least four credits. These four credits may be spread over multiple semesters if they are consecutive and with the same faculty mentor.

<sup>4</sup> This class requires enrollment in both fall and spring sections, 2 credits/semester for a total of 4 credits.

A 600, 695, 795, or 799 experience may substitute for one elective in any category with academic advisor approval, but only if taken for at least four credits. These four credits may be spread over multiple semesters if they are consecutive and with the same faculty mentor.

Note: It is strongly recommended that students participate in an exchange semester at another university, or in a field-oriented program or internship. There are many exchange opportunities available in which a full semester of credits toward the major may be earned. It is further recommended that students explore possibilities of one or more semesters of independent investigation (research projects). For details, students should contact their adviser. Financial support is available for

most of these programs. In addition, students can explore the courses at the Shoals Marine Laboratory (SML), which provides an excellent setting for several "field-oriented" courses during the summer. Often there is financial support available for the SML programs. (See the SML website at <https://marine.unh.edu/SML> or the Cornell website at <http://www.shoalsmarinelaboratory.org> for details.)

## Capstone Experience

As part of the University of New Hampshire's Discovery Program requirements, all students must complete a capstone experience during their senior year (after earning at least 90 credits). **The capstone experience for students majoring in Biology consists of BOTH (1) an approved individual experience AND (2) the successful completion of the BIOL 780 Capstone Companion Course.** Students will not be approved for graduation until capstone certification has been granted.

### 1) The individual experience

The individual experience may be satisfied through various forms of experiential learning (e.g., Honors thesis, mentored research project, internship) or a course denoted with a "(C)" in the courses listed above. The individual experience must fulfill **at least one** of the University's capstone criteria:

- synthesizes and applies disciplinary knowledge and skills
- fosters reflection on undergraduate learning and experience
- demonstrates emerging professional competencies
- applies, analyzes, and/or interprets research, data, or artistic expression
- explores areas of interest based on the integration of the prior learning

**Before beginning any capstone individual experience, students MUST SUBMIT A COMPLETED CAPSTONE APPROVAL FORM to their Program Coordinator.**

Students can obtain this form on the Department's Capstone page or from their Program Coordinator. Here they will describe their proposed individual experience and how it fulfills at least one of the University's capstone criteria listed above. If the student is selecting a "C" course for their individual experience, they should obtain the course syllabus from the instructor for information about the course's content and learning objectives.

### 2) Enrollment in BIOL 780

Students will also be required to enroll in BIOL 780 Capstone Companion Course (1 cr.) **during the semester of their individual experience.** BIOL 780 is offered every Fall and Spring semester.

- If the individual experience is a two-semester thesis, BIOL 780 should be taken during the second semester.
- If the individual experience occurs during the summer (e.g., internship), BIOL 780 should be taken during the Fall semester that immediately follows.
- Note: Because BIOL 780 is not offered during the summer, students cannot complete their individual experience during the summer *and graduate during that same August*. Summer experiences could only be used as individual capstone experiences if completed the summer before the student's senior year.

## Student Learning Outcomes

- Students demonstrate that they understand basic principles of biology. Demonstrate a fundamental understanding of the relationships between structure, function, and process at the level of molecular, cellular, and organismal levels. Describe the principles and mechanisms of organismal evolution and genetics as the central unifying and explanatory concepts of biology. Explain the relationship between organisms and their physical, chemical, and biological environments. Explain what biodiversity is, its value in ecosystems, and the need for its conservation.
- Students demonstrate that they can undertake scientifically valid methods of inquiry. Demonstrate proficiency in searching, reading, and understanding scientific literature. Apply the scientific process, including the framework of initiation, designing, and conducting experiments, and the appropriate analysis and discussion based on the data gathered. Exhibit technical skills in the use of appropriate laboratory and field techniques commonly used in biology.
- Students demonstrate that they can think critically and analytically. Demonstrate an ability to critically and objectively evaluate data, develop hypotheses, interpret and or design biological experiments and studies.
- Students demonstrate that they can communicate effectively. Communicate scientific material effectively in written and oral formats.
- Students practice science responsibly and ethically, and acknowledge the influence of cultural and historical biases in the sciences.

## Biology Minor

<https://colsa.unh.edu/biological-sciences/program/minor/biology>

### Description

The Biology Minor is designed to give students a broad background in basic biological understanding of life processes, while providing experiences in ecology, evolution, and organismal diversity. Five courses are required for completion of the minor, of which no more than two can overlap with major requirements.

### Requirements

Code	Title	Credits
<b>Required Courses</b>		
BIOL 411	Introductory Biology: Molecular and Cellular	4
BIOL 412	Introductory Biology: Evolution, Biodiversity and Ecology	4
BIOL 541W	Ecology	0 or 4
or ZOOL 690	Evolution	
<b>Select two courses in organismal surveys from the below:</b> <sup>1</sup>		
<b>Animal Survey: Select one course</b>		4-5
MEFB 628	Marine Invertebrate Evolution and Ecology	
ZOOL 542	Ornithology	
ZOOL 710	Sharks and Bony Fishes	
NR 712	Mammalogy	
<b>Plant or Fungus Survey: Select one course</b>		4
<b>Plant Survey Course:</b>		
BIOL 566	Systematic Botany	
<b>Fungus Survey Course:</b>		
BIOL 752	New England Mushrooms: a Field and Lab Exploration	

<sup>1</sup> One course must focus on animals, and the other on plants or fungi.

# Plant Biology Minor

<https://colsa.unh.edu/biological-sciences/program/minor/plant-biology>

## Description

The Minor in Plant Biology is designed to provide a broad introduction to plant biology and why plants are important to humans, while providing a framework for understanding plant diversity, function, and behavior. Electives allow the opportunity to choose a specialized area of plant biology that is of interest.

## Requirements

Five courses are required for completion of the minor, of which no more than two can overlap with major requirements.

The minimum acceptable grade in courses is a C-; the average grade for these courses must be a C or better.

Code	Title	Credits
Required Courses		
BIOL 409	Green Life: Introducing the Botanical Sciences	4
BIOL 566	Systematic Botany	4
Choose one of the following 400-level courses that focus on plant value to humans:		
BIOL 408	Plants and Civilization	4
or SAFS 421	Introductory Horticulture	
Choose two additional plant-based courses at the 500 level or higher.

SAFS 651	Plant Pathology	4

# Biomedical Science (BMS)

The Biomedical Science (BMS) major focuses on fundamental concepts in biological sciences as they apply to human and animal health, medicine, and disease. Students attracted to Biomedical Science have a profound interest in human and animal physiology and diseases. The BMS major encompasses three options: Medical Laboratory Sciences (MLS), Medical Microbiology (MM), and Medical and Veterinary Sciences (MVS). Each of the options in the BMS major is based on foundational and advanced courses in chemistry and the biological sciences. BMS:MLS focuses on the laboratory diagnosis of human disease, BMS:MM focuses on infectious agents and host response, and BMS:MVS focuses on health and manifestations of disease in animals, including humans.

Faculty in the BMS major have expertise in many areas of biomedical science, including physiology, cell biology, infectious diseases, veterinary pathology, and laboratory medicine. The biomedical science faculty strongly encourage students to complement their academic courses with experiential learning opportunities through internships, field experience, and independent research projects conducted with biomedical research faculty. On-campus facilities include state-of-the-art research and teaching laboratories and the [New Hampshire Veterinary Diagnostic Laboratory \(NHVDL\)](#) that provide unique learning opportunities for students interested in veterinary medicine, pathobiology, and laboratory diagnostics.

There is high demand for skilled biomedical scientists as research assistants/technicians in biotechnology companies, pharmaceutical companies, government agencies, forensics, academic research laboratories, and hospitals, so BMS majors enjoy excellent job prospects upon graduation. The BMS curriculum also provides graduates with the required and recommended courses for admission to most graduate schools and professional schools of medicine, veterinary medicine, dentistry, public health, and pharmacy, as well as to physician assistant and pathologist's assistant programs. BMS graduates have a knowledge base that is valuable in the fields of sales, marketing, regulatory affairs, technical writing, patent law, and scientific journalism. With additional courses in education, the B.S. in biomedical science also qualifies graduates to teach at the elementary, junior high, or high school levels.

## Pre-Professional Health Programs

Students interested in postgraduate careers in the health care professions (e.g., physician, dentist, physician assistant, pharmacist, etc.) should visit the [Pre-Professional Health Programs Advising Office](#). Students interested in veterinary medicine should consult the [Pre-Veterinary Medicine Program](#). While many of the prerequisite courses required by professional schools are also requirements of the biomedical science major, students should consult with their faculty adviser to create a plan of study that best prepares them for pursuing a career in one of these human and animal health professions.

- [Biomedical Science Minor](#) (p. 341)

## Faculty

[Biomedical Science affiliated faculty.](#)

## Biomedical Science Major: Medical and Veterinary Sciences Option (B.S.)

<https://colsa.unh.edu/molecular-cellular-biomedical-sciences/program/bs/biomedical-science-major-medical-veterinary>

## Description

The **Biomedical Science: Medical and Veterinary Sciences (BMS:MVS)** program is informed by the principles of the [One Health Initiative](#), which unites human and veterinary medicine. This rigorous academic program meets requirements for entry into veterinary school, medical school, and graduate school in the area of biomedical science or for a career as a research scientist in either the biotechnology/pharmaceutical sector or government and academic research labs.

**You will select elective courses from three major areas of study:**

- biomedical systems
- pathobiology and disease
- health and environmental issues

**As a BMS:MVS major, you have many opportunities for career-relevant learning experiences including:**

- [NH Veterinary Diagnostic Laboratory](#) located on the UNH campus
- [UNH Agricultural Experiment Station](#) farm facilities
- independent research in laboratories of UNH faculty in the biomedical and biological sciences
- experience in local hospitals
- internships in biotechnology and pharmaceutical companies in the Greater Boston area

**BMS:MVS graduates are prepared for post-baccalaureate education in:**

- **professional health programs**
  - [veterinary school](#)
  - [medical school](#)
  - allied health programs ([physician assistant](#) or [pathologist's assistant](#))
- **graduate programs**
  - biomedical science
  - pathology
  - public health
  - nursing

**Careers of previous Medical & Veterinary Sciences graduates include:**

- **research scientists/laboratory technicians**
  - biotechnology and pharmaceutical companies
  - academic biomedical research programs
  - forensic laboratories
  - hospitals/health clinics
- **state and federal government employment**
  - public health laboratories
  - health inspector (e.g., Food and Drug Administration)

## Requirements

### Degree Requirements

**Minimum Credit Requirement:** 128 credits

**Minimum Residency Requirement:** 32 credits must be taken at UNH

**Minimum GPA:** 2.0 required for conferral\*

**Core Curriculum Required:** Discovery & Writing Program Requirements

**Foreign Language Requirement:** No

All Major, Option and Elective Requirements as indicated.

*\*Major GPA requirements as indicated.*

### Major Requirements

Students in the Medical and Veterinary Sciences (MVS) option take eight Foundation courses, six Bioscience Core courses, three BMS-MVS Core courses, and six BMS-MVS Major Elective courses. One capstone experience, supervised and approved within the major, is required of all seniors. In addition, all other university academic requirements must be completed, including those for the [Discovery Program](#) and the [University Writing Requirement](#).

A grade of C-minus or above is required in all courses within the major, which includes Foundation, Bioscience Core, and BMS-MVS Core courses, and BMS-MVS Major Electives.

Students applying to health profession schools need a full year of English. ENGL 415C, ENGL 419, ENGL 501, ENGL 502 or ENGL 503 should be taken in addition to ENGL 401. For further details, visit the [Pre-Professional Health Program Advising Office](#) on-line or in person (Rudman Hall, Room G02).

#### Foundation Courses

Code	Title	Credits
CHEM 403	General Chemistry I <sup>1</sup>	4
CHEM 404	General Chemistry II	4
CHEM 651 & CHEM 653	Organic Chemistry I and Organic Chemistry Laboratory	5

Code	Title	Credits
BMS 401	Professional Perspectives in Biomedical Sciences	1
BMS 507	Human Anatomy and Physiology I	4

or ANSC 511	Anatomy and Physiology	
BMS 508	Human Anatomy and Physiology II	4
or ANSC 512	Anatomy and Physiology	

**BMS-MVS Major Elective Courses**

A total of six **unique** major elective courses are required. Two courses must be taken in each of the following subject areas: biomedical systems, pathobiology and disease, and health and environmental issues.

**Biomedical Systems Electives**

**Recommended Courses**

Code	Title	Credits
BMS 702	Endocrinology	4
BMS 718	Mammalian Physiology	4
BMCB 760	Pharmacology	4
GEN 717	Molecular Microbiology	5
NUTR 750	Nutritional Biochemistry	4

**Other Appropriate Courses**

Code	Title	Credits
BMS 623	Histology: Microscopic Cellular Structure and Function	4
BMS 740	Human Microbiome	4
ANSC 603	Introduction to Livestock Management	4
ANSC 605	Poultry Production and Health Management	4
ANSC 609	Principles of Animal Nutrition	4
ANSC 612	Genetics of Animals	4
ANSC 698	Cooperative for Real Education in Agricultural Management (CREAM)	4
ANSC 701	Physiology of Reproduction	4
ANSC 708	Ruminant Nutritional Physiology	3
ANSC 710	Dairy Nutrition	4
ANSC 715	Physiology of Lactation	4
ANSC 724	Reproductive Management and Artificial Insemination	4
BMCB 753	Cell Culture	5
BMCB 754	Molecular Biology Research Methods	5
BMCB 794	Protein Structure and Function	4
CHBE 762	Biomedical Engineering	4
GEN 704	Genetics of Prokaryotic Microbes	5
GEN 705	Population Genetics <sup>4</sup>	3
GEN 706	Human Genetics	4
GEN 711	Genomics and Bioinformatics	4
GEN 713	Microbial Ecology and Evolution	4
GEN 715	Molecular Evolution	4
GEN 721	Comparative Genomics	4
GEN 771	Molecular Genetics	4
KIN 684 & KIN 685	Emergency Medical Care: Emergency Medical Technician (EMT) and Emergency Medical Care: EMT Lab	5
ZOOL 613W	Animal Behavior	5
ZOOL 777W	Neuroethology	4

<sup>4</sup> Enrolling in GEN 725 concurrently is encouraged but not required

**Pathobiology and Disease Electives**

**Recommended Courses**

Code	Title	Credits
BMS 602	Pathogenic Microbiology	3
BMS 655	Human and Animal Parasites	3
BMS 704	Pathologic Basis of Disease	4
BMS 705	Immunology	3
BMS 711	Toxicology	4
BMS 719	Host-Microbe Interactions	4
BMCB 763	Biochemistry of Cancer	4

**Other Appropriate Courses**

Code	Title	Credits
BMS 644	Clinical Hematology	3
BMS 650	Molecular Diagnostics	4
BMS 656	Immunohematology	3
BMS 658	Medical Biochemistry	3
BMS 703	Infectious Disease and Health	4
BMS 706	Virology	3
BMS 712	Experiences in Applied Veterinary Diagnostics (4-credit minimum)	2
BMS 720	Mycology, Parasitology, and Virology	3
BMS 735	Molecular and Cellular Parasitology	4
ANSC 627	Animal Health Applications	4
NUTR 773	Clinical Nutrition	4

**Health and Environmental Issues Electives**

**Recommended Courses**

Code	Title	Credits
BMS 730	Ethical Issues in Biomedical Science	4
ANSC 602	Animal Rights and Societal Issues	4
ANSC 750	Collaborative Farm Design and Development	4
ANSC 690	Livestock and Wildlife in Namibia: Challenges, Opportunities and Geography	4
ANTH #610	Medical Anthropology: Illness and Healing	4
BIOL 541W	Ecology	0 or 4
HMP 401	United States Health Care Systems <sup>5</sup>	4
HMP 501	Epidemiology and Community Medicine	4
NR 435	Contemporary Conservation Issues and Environmental Awareness <sup>5</sup>	4
SOC 635W	Medical Sociology	4

<sup>5</sup> Only one 400-level course may be taken to fulfill a Major Elective requirement.

**Other Appropriate Courses**

Code	Title	Credits
ANTH 685	Gender, Sexuality and HIV/AIDS in Sub-Saharan Africa	4
BIOL 706	Data Science with R for the Life Sciences	4
CLAS 525	Greek and Latin Origins of Medical Terms	4
HMP 642	Health Economics	4
HMP 669	Human Behavior and the Public Health	4
NR 650	Principles of Conservation Biology	4
PSYC 531	Psychobiology	4
PSYC 737	Behavioral Medicine	4

**BMS: MVS Capstone**

The capstone explores areas of interest based on the integration of prior learning. The capstone requirement may be satisfied through a course, created work or product, or some form of experiential learning (e.g., honors thesis, mentored research project, or other special student activity). Students may take more than one capstone course. Capstone completion is never displayed on Degree Works; your advisor will certify capstone completion at the time of graduation. Students must have 90 credits or more when completing their capstone requirement. See your advisor for questions about capstones.

**Approved BMS:MVS Capstone Courses**

Code	Title	Credits
BMS 702	Endocrinology	4
BMS 704	Pathologic Basis of Disease	4
BMS 711	Toxicology	4
BMS 712	Experiences in Applied Veterinary Diagnostics (4-credit minimum)	2
BMS 718	Mammalian Physiology	4
BMS 719	Host-Microbe Interactions	4
BMS 740	Human Microbiome	4
BMS 795	Investigations in Biomedical Science (4-credit minimum)	1-8

BMS 795W	Investigations in Biomedical Science (4-credit minimum)	1-8
BMS 799	Senior Thesis (4-credit minimum)	1-4
BMS 799H	Senior Honors Thesis (4-credit minimum)	1-4
BMCB 760	Pharmacology	4
BMCB 763	Biochemistry of Cancer	4
ANSC 605	Poultry Production and Health Management	4
ANSC 698	Cooperative for Real Education in Agricultural Management (CREAM)	4
BMCB 753	Cell Culture	5
INCO 790	Advanced Research Experience (4-credit minimum)	1-4
NUTR 750	Nutritional Biochemistry	4

Other 795 Investigations course in the biological sciences (4-credit minimum)

For a Capstone experience not listed above, such as an internship, submit a [Capstone Experience Approval form](#) prior to beginning the experience.

## Degree Plan

### SAMPLE Course Sequence for Medical and Veterinary Sciences. Several courses are flexible in order of completion, as indicated by footnotes.

Course	Title	Credits
<b>First Year</b>		
<b>Fall</b>		
BMS 401	Professional Perspectives in Biomedical Sciences	1
BIOL 411	Introductory Biology: Molecular and Cellular	4
CHEM 403	General Chemistry I	4
ENGL 401	First-Year Writing	4
Discovery Course		4
<b>Credits</b>		<b>17</b>
<b>Spring</b>		
BIOL 412	Introductory Biology: Evolution, Biodiversity and Ecology	4
CHEM 404	General Chemistry II	4
MATH 424B	Calculus for Life Sciences	4
Discovery Course		4
<b>Credits</b>		<b>16</b>
<b>Second Year</b>		
<b>Fall</b>		
BMS 507 or ANSC 511	Human Anatomy and Physiology I or Anatomy and Physiology	4
BMCB 605	Principles of Cell Biology <sup>1</sup>	4
CHEM 651 & CHEM 653	Organic Chemistry I and Organic Chemistry Laboratory	5
Discovery Course		4
<b>Credits</b>		<b>17</b>
<b>Spring</b>		
BMS 508 or ANSC 512	Human Anatomy and Physiology II or Anatomy and Physiology	4
CHEM 652 & CHEM 654	Organic Chemistry II and Organic Chemistry Laboratory	5
BMS 503 & BMS 504	General Microbiology and General Microbiology Laboratory <sup>1</sup>	5
Discovery Course		4
<b>Credits</b>		<b>18</b>

### Third Year

#### Fall

BIOL 528	Applied Biostatistics I	4
BMCB 658 & BMCB 659	General Biochemistry and General Biochemistry Lab	5
PHYS 401	Introduction to Physics I	4
GEN 604	Principles of Genetics <sup>1</sup>	4
<b>Credits</b>		<b>17</b>

#### Spring

PHYS 402	Introduction to Physics II	4
Major Elective		4
Major Elective		4
Discovery Course		4
<b>Credits</b>		<b>16</b>

### Fourth Year

#### Fall

Major Elective (Capstone)		4
Major Elective		4
Discovery Course		4
Elective (any course)		4
<b>Credits</b>		<b>16</b>

#### Spring

Major Elective		4
Major Elective		4
Elective (any course)		4
<b>Credits</b>		<b>12</b>
<b>Total Credits</b>		<b>129</b>

<sup>1</sup> BMCB 605, BMS 503 & BMS 504, and GEN 604 may be taken in other semesters, but all should be completed by the end of Fall semester in junior year.

## Student Learning Outcomes

### Core Knowledge

- Students will demonstrate an understanding of core knowledge in biochemistry, molecular biology, cell biology, genetics & biomedical sciences.

### Biomedical Science: Medical & Veterinary Sciences option

- Students will be able to list the major organ systems in mammals and describe their basic structure and function.
- Students will be able to describe the differences between Gram-negative and Gram-positive bacteria.
- Students will be able to describe the structure and function of the major cellular organelles.
- Students will understand the principles of Mendelian genetics.
- Students will understand the pathogenesis of disease and effects on the major organ systems.
- Students will be able to describe the inter-relationships between health and disease, society, and the environment.

### Quantitative Literacy, Inquiry & Analysis

- Students will be able to apply the scientific method to examine experimental evidence and draw informed conclusions.
- Students will be able to use graphs to represent scientific data.
- Students will be able to apply statistical methods to interpret scientific data.

#### Critical Thinking & Problem Solving

- Students will be able to use data to troubleshoot an unexpected outcome.
- Students will be able to apply core knowledge to critically interpret scientific data.

#### Written Communication

- Students will demonstrate written skills to communicate scientific knowledge and experimental data.

#### Oral Communication

- Students will be able to demonstrate oral presentation skills to communicate scientific knowledge and experimental data.

## Biomedical Science Major: Medical Laboratory Sciences Option (B.S.)

<https://colsa.unh.edu/molecular-cellular-biomedical-sciences/program/bs/biomedical-science-major-medical-laboratory>

### Description

The Biomedical Science: **Medical Laboratory Science (BMS:MLS) program** provides you with the medical knowledge and understanding of diagnostic testing needed for a fulfilling career in the biomedical sciences, including as an American College of Clinical Pathology-certified Medical Laboratory Scientist.

#### As a Biomedical Science: Medical Laboratory Science major, you will:

- learn to determine the presence, extent, or absence of human disease through understanding the diagnostic testing that medical professionals use to make these determinations (*70% of physician decisions are based on diagnostic testing results*)
- obtain hands-on experience by performing immunological, biochemical, molecular, and microbiological procedures that aid in the diagnosis, treatment, and prevention of disease

#### Unique features of the MLS option include:

- the only 4-year degree program in NH that includes a path for students to become certified as Medical Laboratory Scientists (MLS) by the American Society of Clinical Pathology (ASCP) and that is accredited by the National Accrediting Agency for Clinical Laboratory Sciences (NAACLS)
- **Certified Medical Laboratory Scientists** are in high demand and easily find employment in hospitals and medical centers throughout the country
- the MLS program is affiliated with Dartmouth Hitchcock Medical Center and NorDx/Maine Medical Center

**Careers or post-baccalaureate education of previous Medical Laboratory Science graduates include:**

- **certified medical laboratory scientists (ASCP) in diagnostic testing laboratories in hospitals and industry**
- **research scientists/laboratory technicians**
  - biotechnology and pharmaceutical companies
  - biomedical research facilities
  - forensic laboratories
  - hospital reference laboratories
  - government public health laboratories
- **secondary school educators** (with additional coursework in education)
- **diagnostic product development**
- **sales and marketing**
- **state and federal government agencies** (e.g., U.S. Food and Drug Administration).
- **professional health programs**
  - medical school
  - allied health programs (physician assistant, pathologists' assistant, pharmacy)
- **graduate programs**
  - microbiology
  - biomedical science
  - biochemistry
  - nursing
  - public health
  - business administration

### Requirements

#### Degree Requirements

**Minimum Credit Requirement:** 128 credits

**Minimum Residency Requirement:** 32 credits must be taken at UNH

**Minimum GPA:** 2.0 required for conferral\*

**Core Curriculum Required:** Discovery & Writing Program Requirements

**Foreign Language Requirement:** No

All Major, Option and Elective Requirements as indicated.

\*Major GPA requirements as indicated.

#### Major Requirements

The Medical Laboratory Sciences (MLS) program is NAACLS accredited and follows accreditation requirements. Students in this option take four Foundation courses, five Bioscience Core courses, six BMS:MLS core courses, and five Major Elective courses. One capstone experience, supervised and approved within the major, is required of all seniors. The capstone explores areas of interest based on the integration of prior learning. In addition, all other University academic requirements must be completed, including those for Discovery Program and the University Writing Requirement.

A grade of C-minus or above is required in BMS:MLS Core Courses.

#### Foundation Courses

Code	Title	Credits
CHEM 403	General Chemistry I <sup>1</sup>	4
CHEM 404	General Chemistry II	4
CHEM 545 & CHEM 546	Organic Chemistry and Organic Chemistry Laboratory <sup>2</sup>	5
Select one of the following statistics courses: <sup>3</sup>		
BIOL 528	Applied Biostatistics I	4
or PSYC 402	Statistics in Psychology	
or SOC 402	Statistics	
or MATH 439	Statistical Discovery for Everyone	

### Bioscience Core Courses

Code	Title	Credits
BMS 508	Human Anatomy and Physiology II	4
GEN 604	Principles of Genetics	4
BMCB 658 & BMCB 659	General Biochemistry and General Biochemistry Lab	5
Select one of the following:		
BMS 503 & BMS 504	General Microbiology and General Microbiology Laboratory	4-5
or BMS 501	Microbes in Human Disease	
Select one of the following:		
BMS 507	Human Anatomy and Physiology I	4
BIOL 411	Introductory Biology: Molecular and Cellular <sup>2, 4</sup>	0 or 4

<sup>1</sup> CHEM 403 fulfills the Physical Science Discovery requirement.

<sup>2</sup> Students applying to health profession schools need a full year of Organic Chemistry, a full year of Introductory Biology, and a full year of English. CHEM 651/CHEM 653 and CHEM 652/CHEM 654 should be taken in place of CHEM 545/CHEM 546; ENGL 502 or ENGL 503 is suggested in addition to ENGL 401. See [Pre-Professional Health Program Advising](#).

<sup>3</sup> Statistics fulfills the Quantitative Reasoning Discovery requirement.

<sup>4</sup> BIOL 411 fulfills the Biological Science Discovery requirement, Discovery Laboratory requirement, and the Discovery Inquiry requirement

### BMS-MLS Core Courses

Code	Title	Credits
BMS 401	Professional Perspectives in Biomedical Sciences	1
BMS 560 & BMS 561	Body Fluids and Body Fluids Laboratory	4
BMS 602 & BMS 603	Pathogenic Microbiology and Pathogenic Microbiology Laboratory	5
BMS 642 & BMS 643	Clinical Immunology and Serology and Clinical Serology Laboratory	4
BMS 650	Molecular Diagnostics	4
BMS 720	Mycology, Parasitology, and Virology <sup>5</sup>	3

<sup>5</sup> If BMS 721 is taken concurrently with BMS 720, it may count as one of the two required Laboratory Electives. However, BMS 721 is not a Major Elective course, so five Major Electives must still be completed, at least one of which includes a lab component, plus four additional Major Electives with or without lab.

### BMS-MLS Major Electives

A total of five **unique** Major Electives is required. Two courses must have a laboratory component.

Code	Title	Credits
Choose TWO Major Electives with a Laboratory		
BMS 623	Histology: Microscopic Cellular Structure and Function	4

BMS 644 & BMS 645	Clinical Hematology and Clinical Hematology Laboratory <sup>6</sup>	5
BMS 656 & BMS 657	Immunohematology and Blood Banking Laboratory <sup>6</sup>	4
BMS 658 & BMS 659	Medical Biochemistry and Clinical Chemistry Laboratory <sup>6</sup>	5
BMS 706 & BMS 708	Virology and Virology Laboratory	5
BMS 721	Mycology, Parasitology, and Virology Laboratory <sup>5,6</sup>	2
BMS 725	Cell Phenotyping and Tissue Engineering Laboratory	4
BMS 740	Human Microbiome	4
BMCB 753	Cell Culture	5

Code	Title	Credits
Choose THREE Major Electives from the list below (FOUR if BMS 721 is counted as a Laboratory course)		
BMS 610	Biomedical Lab Management <sup>6</sup>	4
BMS 623	Histology: Microscopic Cellular Structure and Function	4
BMS 635	Preceptorial in Prehospital Care	2
BMS 640	Phlebotomy Theory <sup>6</sup>	2
BMS 641	Phlebotomy Clinical Internship <sup>6</sup>	1-2
BMS 644	Clinical Hematology <sup>6</sup>	3
BMS 644 & BMS 645	Clinical Hematology and Clinical Hematology Laboratory <sup>6</sup>	5
BMS 644 & BMS 646	Clinical Hematology and Clinical Hemostasis <sup>6</sup>	4
BMS 656 & BMS 657	Immunohematology and Blood Banking Laboratory <sup>6</sup>	4
BMS 658 & BMS 659	Medical Biochemistry and Clinical Chemistry Laboratory <sup>6</sup>	5
BMS 702	Endocrinology	4
BMS 703	Infectious Disease and Health	4
BMS 704	Pathologic Basis of Disease	4
BMS 706 & BMS 708	Virology and Virology Laboratory	5
BMS 711	Toxicology	4
BMS 719	Host-Microbe Interactions	4
BMS 725	Cell Phenotyping and Tissue Engineering Laboratory	4
BMS 730	Ethical Issues in Biomedical Science	4
BMS 735	Molecular and Cellular Parasitology	4
BMS 740	Human Microbiome	4
BMS 749	Case Studies in Hematology and Immunology	2
BMS 750	Case Studies in Microbiology <sup>6</sup>	2
BMS 751	Advanced Clinical Microbiology Internship <sup>6</sup>	5
BMS 752	Advanced Hematology Internship <sup>6</sup>	5
BMS 753	Advanced Immunohematology Internship <sup>6</sup>	5
BMS 754	Advanced Clinical Chemistry Internship <sup>6</sup>	5
BMS 761	Clinical Microbiology Internship	20
BMS 790	Undergraduate Teaching Experience	1-4
BMS 795	Investigations in Biomedical Science	1-8
BMS 795W	Investigations in Biomedical Science	1-8
BMS 799	Senior Thesis (4-credit minimum)	1-4
BMS 799H	Senior Honors Thesis (4-credit minimum)	1-4
BMCB 605	Principles of Cell Biology	4
BMCB 753	Cell Culture	5
BMCB 760	Pharmacology	4
GEN 706	Human Genetics	4
GEN 721	Comparative Genomics	4
SOC 635W	Medical Sociology	4
Other Internships <sup>7</sup>		

<sup>6</sup> Required for students interested in MLS clinical generalist internship

<sup>7</sup> A 20 credit Clinical Hematology Internship covering advanced instruction in hematology and hemostasis at a local hospital or reference laboratory is also available. Please see your advisor for information.

### Approved BMS:MLS Capstone Courses

The capstone explores areas of interest based on the integration of prior learning. The capstone requirement may be satisfied through a course, created work or product, or some form of experiential learning (e.g., honors thesis, mentored research project, or other special student activity). Students may take more than one capstone course. Capstone completion is never displayed on Degree Works; your advisor will certify capstone completion at the time of graduation. Students must have 90 credits or more when completing their capstone requirement. See your advisor for questions about capstones.

Code	Title	Credits
BMS 656	Immunohematology	3
BMS 658	Medical Biochemistry	3
BMS 719	Host-Microbe Interactions	4
BMS 725	Cell Phenotyping and Tissue Engineering Laboratory	4
BMS 740	Human Microbiome	4
BMS 747	Case Studies in Bloodbanking	1
BMS 748	Case Studies in Medical Biochemistry	1
BMS 749	Case Studies in Hematology and Immunology	2
BMS 750	Case Studies in Microbiology	2
BMS 751	Advanced Clinical Microbiology Internship	5
BMS 752	Advanced Hematology Internship	5
BMS 753	Advanced Immunohematology Internship	5
BMS 754	Advanced Clinical Chemistry Internship	5
BMS 761	Clinical Microbiology Internship	20
BMS 790	Undergraduate Teaching Experience (2 semesters, including lab presentation or instruction)	1-4
BMS 795	Investigations in Biomedical Science	1-8
BMS 795W	Investigations in Biomedical Science	1-8
BMS 799	Senior Thesis (4-credit minimum)	1-4
BMS 799H	Senior Honors Thesis (4-credit minimum)	1-4
BMCB 753	Cell Culture	5
INCO 790	Advanced Research Experience (4-credit minimum)	1-4
Other Internships <sup>7</sup>		

For a Capstone experience not listed above, such as an internship, submit a [Capstone Experience Approval form](#) **prior** to beginning the experience.

## Student Learning Outcomes

.

## Biomedical Science Major: Medical Microbiology Option (B.S.)

<https://colsa.unh.edu/molecular-cellular-biomedical-sciences/program/bs/biomedical-science-major-medical-microbiology-option>

## Description

The **Biomedical Science: Medical Microbiology (BMS:MM)** program explores the world of microorganisms and how they interact with both humans and animals. This major provides you with excellent academic training and laboratory experiences in the areas of microbiology, infectious disease, and public health. BMS:MM graduates are prepared for successful careers in biotechnology or public health, or entry into graduate school or health professional programs.

The BMS:MM program includes course work and laboratories in:

- infectious disease
- immunology
- epidemiology and community health
- molecular biology
- microbial ecology and evolution

Students in the BMS:MM program may participate in a variety of experiential learning activities including:

- independent research experiences in laboratories of UNH biomedical science faculty
- work at the NH Veterinary Diagnostic Laboratory located on the UNH campus
- internships at biotechnology companies in the Greater Boston area
- internships at the NH Department of Public Health Laboratories

BMS:MM graduates have been successful in attaining careers as:

- **research scientists/laboratory technicians**
  - biotechnology and pharmaceutical companies
  - academic biomedical research programs
  - brewing industry
- **primary and secondary school educators** (requires additional coursework in education)
- **state and federal government employees**
  - public health laboratories
  - regulatory agencies (e.g., U.S. Food and Drug Administration)

BMS:MM graduates are prepared for post-baccalaureate education in:

- **professional health programs**
  - [medical school](#)
  - [dental school](#)
  - allied health programs ([physician assistant](#), [pharmacist](#), nursing, or [pathologist's assistant](#) programs)
- **graduate programs**
  - biomedical science
  - public health
  - forensic science

**Minimum GPA:** 2.0 required for conferral\*

**Core Curriculum Required:** Discovery & Writing Program Requirements

**Foreign Language Requirement:** No

All Major, Option and Elective Requirements as indicated.

\*Major GPA requirements as indicated.

## Major Requirements

Students in the Medical Microbiology (MM) option take seven Foundation courses, six Bioscience Core courses, four BMS:MM Core courses, and five BMS:MM Major Elective courses. One capstone experience, supervised and approved within the major, is required of all seniors. In addition, all other University academic requirements must be completed, including those for the Discovery Program and the University Writing Requirement.

A grade of C-minus or better is required in all Bioscience Core, BMS:MM Core, and Major Elective courses.

### Foundation Courses

Code	Title	Credits
CHEM 403	General Chemistry I <sup>1</sup>	4
CHEM 404	General Chemistry II	4
CHEM 545 & CHEM 546	Organic Chemistry and Organic Chemistry Laboratory <sup>2</sup>	5
MATH 424B	Calculus for Life Sciences <sup>3</sup>	4
BIOL 528	Applied Biostatistics I <sup>4</sup>	4
PHYS 401	Introduction to Physics I	4
PHYS 402	Introduction to Physics II	4

### Bioscience Core Courses

Code	Title	Credits
BIOL 411	Introductory Biology: Molecular and Cellular <sup>5</sup>	4
BIOL 412 or BMS 508	Introductory Biology: Evolution, Biodiversity and Ecology <sup>2</sup> Human Anatomy and Physiology II	4
BMS 503 & BMS 504	General Microbiology and General Microbiology Laboratory	5
GEN 604	Principles of Genetics	4
BMCB 605	Principles of Cell Biology	4
BMCB 658 & BMCB 659	General Biochemistry and General Biochemistry Lab	5

<sup>1</sup> CHEM 403 fulfills the Physical Science Discovery requirement

<sup>2</sup> Students applying to health profession schools need a full year of Organic Chemistry, a full year of Introductory Biology, and a full year of English. CHEM 651/CHEM 653 and CHEM 652/CHEM 654 should be taken in place of CHEM 545/CHEM 546; ENGL 502 or ENGL 503 is suggested in addition to ENGL 401.

<sup>3</sup> MATH 424B fulfills the Quantitative Reasoning Discovery requirement.

<sup>4</sup> PSYC 402 and SOC 402 are acceptable alternatives.

<sup>5</sup> BIOL 411 fulfills the Biological Science Discovery requirement, Discovery Laboratory requirement, and the Discovery Inquiry requirement.

### BMS-MM Core Courses

Code	Title	Credits
BMS 401	Professional Perspectives in Biomedical Sciences <sup>6</sup>	1
BMS 602 & BMS 603	Pathogenic Microbiology and Pathogenic Microbiology Laboratory	5
BMS 705 & BMS 715	Immunology and Immunology Laboratory	5

## Requirements

### Degree Requirements

**Minimum Credit Requirement:** 128 credits

**Minimum Residency Requirement:** 32 credits must be taken at UNH

BMS 706 & BMS 708	Virology and Virology Laboratory	5
----------------------	-------------------------------------	---

<sup>6</sup> Required for first-year students only.

BMS-MM Major Elective Courses

A total of five **unique** major elective courses is required. At least one course must be taken in each of the following subject areas: Host-Microbe Interaction Electives, Molecular Biology Electives, and Community Electives. Two additional courses are taken from any of the major elective subject areas.

Host-Microbe Interaction Electives

Code	Title	Credits
BMS 655	Human and Animal Parasites <sup>7</sup>	3
BMS 703	Infectious Disease and Health	4
BMS 704	Pathologic Basis of Disease	4
BMS 719	Host-Microbe Interactions <sup>7</sup>	4
BMS 720	Mycology, Parasitology, and Virology	3
BMS 735	Molecular and Cellular Parasitology <sup>7</sup>	4
BMS 740	Human Microbiome <sup>7</sup>	4

Molecular Biology Electives

Code	Title	Credits
BMS 623	Histology: Microscopic Cellular Structure and Function	4
BMS 650	Molecular Diagnostics	4
BMS 655	Human and Animal Parasites <sup>7</sup>	3
BMS 711	Toxicology	4
BMS 719	Host-Microbe Interactions <sup>7</sup>	4
BMS 725	Cell Phenotyping and Tissue Engineering Laboratory	4
BMS 735	Molecular and Cellular Parasitology <sup>7</sup>	4
BMS 740	Human Microbiome <sup>7</sup>	4
BMCB 753	Cell Culture	5
BMCB 754	Molecular Biology Research Methods	5
BMCB 763	Biochemistry of Cancer	4
GEN 704	Genetics of Prokaryotic Microbes	5
GEN 717	Molecular Microbiology	5
GEN 721	Comparative Genomics	4

<sup>7</sup> Course may be used as either a Host-Microbe Interaction elective or Molecular Biology elective, but not both.

Community Electives

Code	Title	Credits
BMS 730	Ethical Issues in Biomedical Science	4
ANSC 602	Animal Rights and Societal Issues	4
ANTH 685	Gender, Sexuality and HIV/AIDS in Sub-Saharan Africa	4
BIOL 706	Data Science with R for the Life Sciences	4
GEN 705	Population Genetics <sup>8</sup>	3
GEN 713	Microbial Ecology and Evolution	4
HMP 501	Epidemiology and Community Medicine	4

<sup>8</sup> Enrolling in GEN 725 concurrently is encouraged but not required

Other Major Electives

Code	Title	Credits
BMS 795	Investigations in Biomedical Science (4-credit minimum)	1-8
BMS 795W	Investigations in Biomedical Science (4-credit minimum )	1-8
BMS 799	Senior Thesis (4-credit minimum)	1-4
BMS 799H	Senior Honors Thesis (4-credit minimum)	1-4
INCO 790	Advanced Research Experience (4-credit minimum)	1-4

BMS-MM Capstone

The capstone explores areas of interest based on the integration of prior learning. The capstone requirement may be satisfied through a course, created work or product, or some form of experiential learning (e.g., honors thesis, mentored research project, or other special student activity). Students may take more than one capstone course. Capstone completion is never displayed on Degree Works; your advisor will certify capstone completion at the time of graduation. Students must have 90 credits or more when completing their capstone requirement. See your advisor for questions about capstones.

Approved BMS-MM Capstone Courses

Code	Title	Credits
BMS 719	Host-Microbe Interactions	4
BMS 730	Ethical Issues in Biomedical Science	4
BMS 740	Human Microbiome	4
BMS 795	Investigations in Biomedical Science (4-credit minimum)	1-8
BMS 795W	Investigations in Biomedical Science (4-credit minimum )	1-8
BMS 799	Senior Thesis (4-credit minimum)	1-4
BMS 799H	Senior Honors Thesis (4-credit minimum)	1-4
GEN 717	Molecular Microbiology	5
INCO 790	Advanced Research Experience (4-credit minimum)	1-4

For a Capstone experience not listed above, such as an internship, submit a [Capstone Experience Approval form](#) prior to beginning the experience.

**Credits** 17

**Fourth Year****Fall**

Major Elective (possible Capstone course)		4
Major Elective		4
Elective (any course)		3-4
Elective (any course)		3-4

**Credits** 14-16

**Spring**

Major Elective		4
Major Elective		4
Elective (any course)		3-5
Elective (any course)		3-5

**Credits** 14-18

**Total Credits** 131-137

- Students will be able to discuss basic metabolic pathways that allow microorganisms to grow, thrive, and survive in numerous environments
- Students will understand how genetic information is maintained and transferred, how mutation can affect viability and contribute to evolution, and how gene expression is regulated.
- Students will be able to discuss the role of microorganisms in human and animal health and explain, using specific examples, how microbes can be both harmful and beneficial.

**Quantitative Literacy, Inquiry & Analysis**

- Students will be able to apply the scientific method to examine experimental evidence and draw informed conclusions.
- Students will be able to use graphs to represent scientific data.
- Students will be able to apply statistical methods to interpret scientific data.

**Critical Thinking & Problem Solving**

- Students will be able to use data to troubleshoot an unexpected outcome.
- Students will be able to apply core knowledge to critically interpret scientific data.

**Written Communication**

- Students will demonstrate written skills to communicate scientific knowledge and experimental data.

**Oral Communication**

- Students will be able to demonstrate oral presentation skills to communicate scientific knowledge and experimental data.

## Biomedical Science Minor

<https://colsa.unh.edu/molecular-cellular-biomedical-sciences/program/minor/biomedical-science>

### Description

Students who wish to develop focused competencies in the broad area of the biomedical sciences can complement their major academic program with a minor in biomedical science (BMS).

### Requirements

The minor consists of a minimum of 20 credits, no more than 8 of which can also be used to fulfill major requirements. A grade of C-minus or better is required for all courses counted towards the minor.

A "C average" (2.00) is required in courses that the minor department approves. Pass/fail courses can not be used for the minor. It is the student's responsibility to file an Intent to Minor form with the BMS minor advisor by the end of the junior year and to complete a [Certification of Completion of Minor form](#) during their final semester at UNH.

**Required Courses:**

## Student Learning Outcomes

**Core Knowledge**

- Students will demonstrate an understanding of core knowledge in biochemistry, molecular biology, cell biology, genetics & biomedical sciences.

**Biomedical Science: Medical Microbiology option**

- Students will be able to compare and contrast cellular and non-cellular microorganisms.
- Students will understand basic structure-function relationships of microorganism components, and explain how specific microbial components contribute to a microorganism's growth and survival.

Code	Title	Credits
BIOL 411	Introductory Biology: Molecular and Cellular	4
BMS 508	Human Anatomy and Physiology II	4
or ANSC 512	Anatomy and Physiology	

Choose courses from this list to reach a minimum of 20 credits (choice may be limited if student does not have the prereqs for certain courses):

NUTR 750	Nutritional Biochemistry	4

## Community and Environmental Planning (CEP)

Community and Environmental Planning students have an appreciation for communities designed for people to live, work and play. Our students study a diverse and interconnected number of topics including perspectives in community development, fundamentals of land use planning, community economics, and natural resource conservation issues. If you want to help communities deal with problems associated with the intersection of our built and natural environments, such as economic development, transportation, affordable housing, green space and local agriculture, than a degree in Community and Environmental Planning may be the right fit for you.

<https://colsa.unh.edu/natural-resources-environment>

## Programs

- [Community and Environmental Planning Major \(B.S.\)](#) (p. 342)
- [Community Planning Minor](#) (p. 344)

## Faculty

<https://colsa.unh.edu/natural-resources-environment/people>

## Community and Environmental Planning Major (B.S.)

<https://colsa.unh.edu/natural-resources-environment/program/bs/community-environmental-planning-major>

## Description

The Community and Environmental Planning (CEP) program is designed to provide students with the knowledge and skills to become effective community planners in the public or private sector. All of the courses are designed to give the student a diverse skill-set in planning for the sustainability of communities. CEP students are provided a solid planning background with planning courses covering local, state and regional planning topics and methods. CEP students also take foundational courses in natural resources, geographic information systems, economics, and statistics, as well as a political science course, and a social issues course. The internship requirement allows the planning student to apply their knowledge in the real world for instrumental hands-on experience. Semester in the City is also an option for the internship experience. CEP students are encouraged to focus their remaining hours on skills that can enhance their CEP major such as a dual major, a minor, or study abroad.

Expected CEP Student Outcomes:

- The foundational education in planning, natural resources, economics and sustainability.
- The fundamental values of diversity, equity, justice, and protection of community and the environment.
- The ability to assess, discuss, and engage others in the problems and potential solutions associated with impacts of land use changes.
- The ability to work with community members and professionals in the design and implementation of community improvements in building and transportation while protecting natural and built resources.

Students may go on to work in the community development or community planning departments in local communities. They may also choose to work in regional planning agencies, or with a state or federal office. Other options include the private sector, such as architectural or development companies, or the non-profit sector, such as with community development corporations or conservation groups. The American Planning Association provides a certification process for the planning profession (American Institute of Certified Planners) after several years of planning experience. Students may also choose to go on to graduate studies in Community and Environmental Planning, Natural Resources Management, Public Administration, or a related field.

## Requirements

### Degree Requirements

**Minimum Credit Requirement:** 128 credits

**Minimum Residency Requirement:** 32 credits must be taken at UNH

**Minimum GPA:** 2.0 required for conferral\*

**Core Curriculum Required:** Discovery & Writing Program Requirements

**Foreign Language Requirement:** No

All Major, Option and Elective Requirements as indicated.

\*Major GPA requirements as indicated.

### Major Requirements

Courses with the subject prefix CEP must be completed with a C- or above (6 courses total). In addition to the CEP degree requirements (below), students must complete the University Discovery Program and the University Writing Requirements.

Code	Title	Credits
<b>Planning Courses:</b>		
CEP 415	Community Development Perspectives (Discovery Course)	4
or TOUR 510	Tourism and Global Understanding	
CEP 508	Applied Community Development	4
CEP 614	Fundamentals of Planning	4
CEP 673	Green Real Estate	4
or CEP 672	Fundamentals of Real Estate	
CEP 794	Community and Environmental Planning Internship <sup>1</sup>	4-12
or INCO 505I	Semester in the City: Boston and SITC @ UNH Internship	
CEP 777	Topics in Community Planning (Capstone for the major)	4
<b>Natural Resources Courses:</b>		
NR 435	Contemporary Conservation Issues and Environmental Awareness	4
or NR 502	Forest Ecosystems and Environmental Change	
or NR 507	Introduction to our Energy System and Sustainable Energy	
NR 602	Natural Resources and Environmental Policy	4
NR 658	Introduction to Geographic Information Systems	4
or FORT 581	Applied Geospatial Techniques	
NR 785	Systems Thinking for Sustainable Solutions	4
or NR 784	Sustainable Living - Global Perspectives	
TOUR 767	Social Impact Assessment	4
or NR 724	Resolving Environmental Conflicts	
<b>Economics and Statistics Courses:</b>		
EREC 411	Environmental and Resource Economics Perspectives	4
EREC 525	Statistical Methods and Applications	4
or BIOL 528	Applied Biostatistics I	
EREC 627	Community Economics	4
<b>Political Science Course:</b>		
POLT 502	State and Local Government	4
or POLT 500	American Public Policy	
or POLT 523	American Political Thought	
or POLT 595	Smart Politics	
<b>Social Issues Course:</b>		
SOC 450	Contemporary Social Problems	4
or INCO 505B	Social Innovator's Toolbox	
or SOC 565	Environment and Society	
<b>Total Credits</b>		<b>64-72</b>

<sup>1</sup> INCO 505I Semester in the City: Boston and SITC @ UNH Internship and INCO 505A Semester in the City Becoming a Problem Solver are

taken as a 12-credit internship along with INCO 505B Social Innovator's Toolbox, which fulfills the Social Issues course requirement.

CEP students are encouraged to have a study away/abroad experience, a dual degree, a minor, or focused area of study which add value to the CEP degree. Consider the following to complete the minimum of 128 credits:

- Semester in the City (if you have not done this in the CEP major)
- EcoQuest New Zealand (16 credits in electives - must qualify with EcoQuest)
- Study Away
- Study Abroad
- Minor as approved by the minor program
- Courses to round out a focus area. *It is recommended that you choose upper level courses in NR and EREC.*

### Degree Plan

**Sample** Course Sequence for Community and Environmental Planning

Course	Title	Credits
<b>First Year</b>		
<b>Fall</b>		
CEP 415	Community Development Perspectives	4

CEP 794 Community and Environmental Planning Internship	4-12
Elective	4
<b>Credits</b>	<b>16-24</b>
<b>Total Credits</b>	<b>128-136</b>

## Student Learning Outcomes

- Functional fluency in the use of traditional and contemporary planning tools, methods, projects, programs, and regulatory tools.
- Analysis and articulation of social and environmental problems through the use of reliable and valid sources.
- Inventory, assessment, and documentation techniques of existing resources in the built and natural environment.
- Assessment methods of the consequences of proposed changes to the landscape at different scales, from local to regional.
- Communication strategies for a diverse population regarding social and environmental issues related to community planning and development.
- Engagement strategies for various stakeholders in the planning process through a variety of public engagement techniques.
- Development of the comprehensive master planning process and documentation with lay and professional planners.
- Skilled writing and public speaking in order to engage all stakeholders in the planning process.
- Creative thinking and scenario design development and use regarding possible futures.
- Networking with a variety of stakeholders for building a strong social network within and between communities and organizations.
- Ability to work with the various scales of planning – federal, state, regional, local, neighborhood, and site levels.
- Awareness of the opportunities for planning work in government, non-government, non-profit, Cooperative Extension, and the private sector in planning, environmental conservation, architecture, construction, and others.
- Advocacy focus for all residents, businesses, organizations and visitors regardless of income, gender, race, ethnicity, religion or other stratifications within society.
- Applied application of planning education and tangible experience through a community planning internship.

## Community Planning Minor

<https://colsa.unh.edu/nren/cep/community-planning-minor>

### Description

Planning is a multidisciplinary profession that requires an understanding of social, economic, and environmental connections to land use change. Students may supplement their major with the minor in community planning to enhance their skills to work with communities for improved sustainability.

### Requirements

- Required: 20 hours of credit
- A grade of C- or better in each of the 5 courses.
- No more than 8 credits used to satisfy major requirements may be used for the minor
- Credit/fail courses may not be used for the minor.

Code	Title	Credits
Group I: Theory and Practice of Planning		
All or equivalent of the following three courses:		
CEP 415	Community Development Perspectives	8
CEP 508	Applied Community Development	
CEP 614	Fundamentals of Planning	
Group II: Tools and Applications in Planning		
Select two of the following:		
CEP 673 or CEP 672	Green Real Estate Fundamentals of Real Estate	8
CEP 777	Topics in Community Planning	
EREC 606	Land Economics Perspectives: Uses, Policies, and Taxes	
EREC 627	Community Economics	
EREC 756	Rural and Regional Economic Development	
NR 658	Introduction to Geographic Information Systems	
NR 724	Resolving Environmental Conflicts	
NR 785	Systems Thinking for Sustainable Solutions	
TOUR 767	Social Impact Assessment	
Total Credits		8

## EcoGastronomy

The Peter T. Paul College of Business and Economics and the College of Life Sciences and Agriculture offer undergraduate students the opportunity to pursue a dual major in EcoGastronomy. The dual major requires completion of the EcoGastronomy program and any other major.

The EcoGastronomy program prepares students for professions within our rapidly evolving food community—from farm to fork to nutrition and health outcomes—where ever-greater integration of agriculture, food, and nutrition requires a broad perspective and a specific blend of skills and knowledge. The dual major in EcoGastronomy is international by providing a context for studying "gastronomy" in Ascoli-Piceno, Italy.

## International Experience

All students who declare the dual major in EcoGastronomy spend a full semester abroad, most likely during their junior year. Students will study in Ascoli Piceno, Italy, (spring, summer or fall semester).

Dual majors will complete a series of upper-level core courses such as history of cuisine and gastronomy, history of food, aesthetics, food law, food technology processes, cross-cultural comparisons, and language.

The study abroad credit requirement is 8 credits.

## Portfolio

Students will be required to submit a portfolio annually to the director, and a cumulative portfolio to the instructor of their capstone course for final assessment.

The courses in the dual major program are multidisciplinary, taught by faculty from different departments in the University. They are designed to integrate UNH strengths in sustainable agriculture, hospitality management, and nutrition to offer a unique academic program emphasizing the interdisciplinary, international, and experiential knowledge that connects all three fields. The program is experiential by requiring students to work in the field growing food, in the kitchen preparing food, and developing the skills associated with both. They will also experience the local food cultures and get firsthand experience on the issues of food security locally, regionally, and globally.

Students who wish to declare a dual major in EcoGastronomy must have a cumulative grade-point average of 2.5; have declared, or be prepared to declare, a disciplinary major; and complete the Introduction

to EcoGastronomy course (ECOG 401 Introduction to Ecogastronomy) with a grade of C or better.

ECOG 401 Introduction to Ecogastronomy is prerequisite for study abroad. All required classes and the elective are a pre/corequisite for the senior EcoGastronomy capstone course, ECOG 701 EcoGastronomy Capstone. Exceptions are possible with a late declaration of the dual major. All foreign experiences must be pre-approved by the EcoGastronomy director.

The completion of the dual major requires no additional credits for graduation beyond the 128 required of all UNH students. All coursework required for EcoGastronomy must be completed with a grade C or better. For information, contact the dual major in EcoGastronomy, PAUL 101E, (603) 862-3327, [ecog.info@unh.edu](mailto:ecog.info@unh.edu).

<https://www.unh.edu/ecogastronomy/>

## Programs

[Ecogastronomy Dual Major](#) (p. 626)

## Faculty

<https://www.unh.edu/ecogastronomy/faculty>

## Environmental and Resource Economics (EREC)

The Environmental and Resource Economics program offers training in areas that include public resource policy, resource management, natural resource and environmental economics, and community economics and finance. The curriculum emphasizes applied economics in the context of public policy. Training is also available in agricultural economics, including agribusiness, small business management, food marketing, agricultural policy, and world food supplies.

<https://colsa.unh.edu/natural-resources-environment>

- [Environmental and Resource Economics Minor](#) (p. 347)

## Faculty

<https://colsa.unh.edu/natural-resources-environment/people>

## Environmental and Resource Economics Major (B.S.)

<https://colsa.unh.edu/natural-resources-environment/program/bs/environmental-resource-economics-major>

## Description

Students majoring in environmental and resource economics will normally concentrate in one of the following three areas: environmental

and natural resource economics, agricultural economics, or community economics. One capstone experience, supervised and approved within the major, is required of all seniors. The capstone explores areas of interest based on the integration of prior learning. The capstone requirement may be satisfied through a course, created work or product, or some form of experiential learning (e.g., honors thesis, mentored research project, and other special student activity). In addition, students must satisfy University requirements, including those for the Discovery Program.

Upon graduation, students are qualified for a wide variety of opportunities. Private business, public institutions, and government agencies currently have a strong demand for specialists trained in natural resource development; land and water use policy; natural resource and small business management; agricultural, fisheries, and forestry marketing; and community development. In many cases, students may wish to improve their qualifications by pursuing more specialized graduate studies.

# Requirements

## Degree Requirements

- Minimum Credit Requirement:** 128 credits
- Minimum Residency Requirement:** 32 credits must be taken at UNH
- Minimum GPA:** 2.0 required for conferral\*
- Core Curriculum Required:** Discovery & Writing Program Requirements
- Foreign Language Requirement:** No

All Major, Option and Elective Requirements as indicated.  
\*Major GPA requirements as indicated.

## Major Requirements

Code	Title	Credits
<b>Required Courses</b>		
<i>Principles of Economics</i>		
ECON 401	Principles of Economics (Macro)	4
EREK 411	Environmental and Resource Economics Perspectives (or equivalent) <sup>1</sup>	4
<i>Intermediate Economic Theory</i>		
ECON 611	Intermediate Macroeconomic Analysis <sup>2</sup>	4
or ECON 635	Money and Banking	
ECON 605	Intermediate Microeconomic Analysis <sup>2</sup>	4
<i>Quantitative Methods</i>		
EREK 525	Statistical Methods and Applications	4
MATH 420	Finite Mathematics	4
or MATH 424B	Calculus for Life Sciences	
<b>Select at least five of the following, two must be 700 level:</b>		
EREK 572	Introduction to Natural Resource Economics	4
EREK 606	Land Economics Perspectives: Uses, Policies, and Taxes	4
EREK 627	Community Economics	4
EREK 708	Environmental Economics	4
EREK 756	Rural and Regional Economic Development	4

<b>Total Credits</b>	<b>128</b>

<sup>1</sup> At least one Discovery course must have the Inquiry attribute.

<sup>2</sup> The student must take at least 2 Writing-Intensive courses in addition to any of the following: EREC 708 Environmental Economics, EREC 756 Rural and Regional Economic Development, and CEP 777 Topics in Community Planning.

<sup>3</sup> EREC 708 Environmental Economics, EREC 756 Rural and Regional Economic Development, EREC #760 Ecological-Economic Modeling for Decision Making, CEP 777 Topics in Community Planning, and TOUR 767 Social Impact Assessment satisfy the capstone requirement for the major.

## Student Learning Outcomes

Students will be able to:

- Evaluate the validity and limitations of scientific theories and claims about the environment;
- Describe and explain the interactions among physical, biological, chemical, and human components of the environment;
- Formulate tests of environmental questions, acquire data, and apply scientific methods to answer these questions;
- Characterize the various social drivers of environmental problems and the relative attributes of policy instrument solutions;
- Locate, evaluate, and summarize print and electronic media including peer-reviewed literature and then compose and deliver informed positions on current environmental problems to the public.

- Describe and explain the ecological and societal value of biodiversity, sustainability, and environmental stewardship;
- Master mathematical, statistical, and study design knowledge and skills, and use state-of-the-art software, hardware, and analytical techniques relevant to environmental conservation and sustainability;
- Use principles of ecology, economics, sustainability, and policy science to solve real-world environmental problems;
- Communicate effectively to peers within the environmental community and with audiences outside of the discipline.

## Environmental and Resource Economics Minor

<https://colsa.unh.edu/natural-resources-environment/program/minor/environmental-resource-economics>

### Description

The Environmental and Resource Economics minor aims to provide students majoring in other disciplines with an understanding of environmental and resource economics, and their uses in personal, social, business and government decision-making. Students learn how to apply economic analyses in evaluating environmental and resource problems, identifying their causes and examining alternative solutions. The minor also offers courses that teach techniques useful for decision making by local and regional communities. Students also obtain skills in the management of agricultural and natural-resource business firms.

### Requirements

### Minor Requirements

- Complete 5 Courses with a minimum of 20 credits from the courses listed below, with a grade of C- or better.
- No more than 8 credits used to satisfy major requirements may be used for the minor.
- Pass/Fail courses may not be used for the minor

Code	Title	Credits
Select at least 5 courses from the following:		20
EREC 411	Environmental and Resource Economics Perspectives <sup>1</sup>	
EREC 444	The New Pirates of the Caribbean	
EREC 525	Statistical Methods and Applications	
EREC 572	Introduction to Natural Resource Economics	
EREC 606	Land Economics Perspectives: Uses, Policies, and Taxes	
EREC 627	Community Economics	
EREC 708	Environmental Economics	
EREC 756	Rural and Regional Economic Development	
EREC 795/795W	Investigations	
<b>Total Credits</b>		<b>20</b>

<sup>1</sup> EREC 411 cannot be taken for credit if credit has been earned for ECON 402.

# Environmental Conservation and Sustainability

## Mission of the ECS Major

Graduates of the environmental conservation and sustainability major understand the complexity of social-ecological systems and meet environmental challenges in innovative ways. ECS students understand ecological principles and comprehend the connections between natural resource and social systems (history, economics, law, policy, international perspectives). They integrate scientific information and human values and articulate problems in ways that point to solutions leading to a sustainable future.

ECS graduates have the theoretical, methodological, technical, and practical skills necessary to solve complex problems. They work collaboratively and across disciplinary boundaries and at all scales from the local to the international. Their critical thinking and communication skills allow them to serve as liaisons among diverse interest groups and to design, implement, and facilitate policy and action toward a sustainable future.

ECS graduates are environmental citizens, sustainability advocates, and leaders for constructive change. They typically serve as policy analysts, sustainability officers, resource managers, journalists, scientists, and teachers in business, non-profit organizations, and government agencies, including the Peace Corps and Ameri-Corps. Many ECS graduates attend graduate or professional programs following graduation.

# Environmental Conservation and Sustainability Major (B.S.)

<https://colsa.unh.edu/natural-resources-environment/program/bs/environmental-conservation-sustainability-major>

## Description

The ECS major curriculum is comprised of core requirements providing integrative courses in both environmental conservation and sustainability, along with a foundation in biology, ecology, physical and social science, and the basic tools and skills applied to problem solving. These core requirements are typically fulfilled in the first two years. Beginning in their junior year, ECS students, in consultation with their advisers, create a course focus area based on an ecological system or natural resource of their choosing. The focus area provides advanced study in ecology and natural resources; social sciences; tools, skills, and/or natural history and

should reflect the student's interests and future goals. Additionally, each ECS student completes a practicum experience and a capstone option.

The ECS major provides the opportunity for students to gain a common foundation of knowledge and skills emphasizing integration and critical thinking, while allowing for sufficient flexibility to pursue their interests and passions within a large and complex field of study. The design of the curriculum will allow each student at least four, and as many as six, free electives, which they may fulfill as they choose. Many students pursue international experiences, such as the UNH EcoQuest program in New Zealand, add a minor or dual degree (such as the dual degree in global studies), and/or pursue research opportunities with our faculty or through another of UNH's undergraduate research opportunity programs.

## Requirements

### Degree Requirements

**Minimum Credit Requirement:** 128 credits

**Minimum Residency Requirement:** 32 credits must be taken at UNH

**Minimum GPA:** 2.0 required for conferral\*

**Core Curriculum Required:** Discovery & Writing Program Requirements

**Foreign Language Requirement:** No

All Major, Option and Elective Requirements as indicated.

*\*Major GPA requirements as indicated.*

### Major Requirements

Code	Title	Credits
<b>Core Requirements</b>		
<b>Foundational Courses:</b>		
NR 435	Contemporary Conservation Issues and Environmental Awareness	
NR 437	Principles of Sustainability	
<b>Natural Science:</b>		
<b>Biology:</b>		
BIOL 412	Introductory Biology: Evolution, Biodiversity and Ecology	
NR 439	Environmental Biology	
Ecological Principles: Select one of the following		4
BIOL 541 W	Ecology	
NR 527	Forest Ecology	
SAFS 502	Agroecology	
Physical Science: Select one of the following		4
NR 403	Introduction to Environmental Science	
NR #458	The Science of Where	
CHEM 403	General Chemistry I	
CHBE 410	Energy and Environment	
ESCI 409	Geology and the Environment	
CEE 520	Environmental Pollution and Protection: A Global Context	
PHYS 401	Introduction to Physics I	
<b>Social Science:</b>		
<b>Resource Economics:</b>		
EREC 411	Environmental and Resource Economics Perspectives	
Environmental Ethics and Values: Select one of the following		4
NR 784	Sustainable Living - Global Perspectives	
SOC 565	Environment and Society	
Natural Resources Policy: Select one of the following		4
NR 602	Natural Resources and Environmental Policy	
NR 662	Environmental Policy, Planning and Sustainability in New Zealand	
<b>Essential Tools and Skills:</b>		
<b>Field Methods:</b>		
NR 415	Natural Resources Field Methods	
Statistics: Select one of the following		4

BIOL 528	Applied Biostatistics I	
EREC 525	Statistical Methods and Applications	
<b>Geospatial Analysis:</b>		
NR 658	Introduction to Geographic Information Systems	
<b>Writing Skills: Select one of the following</b>		4
ENGL 502	Professional and Technical Writing	
ENGL 503	Persuasive Writing	
ENGL 521	Nature Writers	
<b>Presentation Skills: Select one of the following</b>		4
NR 508	Communicating Science	
CMN 500	Public Speaking	
THDA 522	Storytelling, Story Theatre, and Involvement Dramatics	
THDA 583	Introduction to Puppetry	
THDA 624	Theatre for Young Audiences	
<b>Focus Area</b>		
Select seven total courses to create a focus area addressing an environmental issue, ecological system, or natural resource (see below) <sup>1</sup>		28
<b>Ecology and Natural Resources:</b>		
Select one to four courses: no more than one course may be at the 400 or 500 level. Additional courses must be at the 600 or 700 levels.		
NR 433	Wildlife Ecology	
NR 501	Studio Soils	
NR 502	Forest Ecosystems and Environmental Change	
NR 504	Freshwater Resources	
NR 603	Landscape Ecology	
NR #625	Physiological Ecology	
NR 640	Wildlife Population Ecology	
NR 642	Introduction to Biogeography	
NR 650	Principles of Conservation Biology	
NR 660	Ecology and Biogeography of New Zealand	
NR 661	Restoration Ecology and Ecosystem Management in New Zealand	
NR 663	Applied Directed Research in New Zealand	
NR 664	Conservation Genetics and Applied Evolution	
NR 706	Soil Ecology	
NR 730	Terrestrial Ecosystems	
NR 734	Tropical Ecology	
NR 743	Addressing Arctic Challenges	
NR 744	Biogeochemistry	
NR 751	Aquatic Ecosystems	
NR 761	Environmental Soil Chemistry	
NR #765	Community Ecology	
NR 782	Forest Health in a Changing World	
ESCI 405	Global Environmental Change	
MEFB 628	Marine Invertebrate Evolution and Ecology	
MEFB 674	Ecology and Marine Environment	
MEFB 702	Sustainable Marine Fisheries	
MEFB 725	Marine Ecology	
MEFB 772	Fisheries Biology: Conservation and Management	
MEFB 747	Aquatic Plants in Restoration/Management	
MEFB 755	Biological Oceanography	
SAFS 671	Agroecology and Sustainable Land Management in Aotearoa New Zealand	
SAFS 760	Insect Pest Management	
ZOOL 708	Stream Ecology	
ZOOL 726	Conservation Behavior	
<b>Social Sciences</b>		
Select two to five courses: no more than one course may be at the 400 or 500 level. Additional courses must be at the 600 or 700 levels.		
CEP 415	Community Development Perspectives	
CEP 508	Applied Community Development	
NR 507	Introduction to our Energy System and Sustainable Energy	
NR 606	International Energy Topics	
NR 643	Economics of Forestry	
NR 662	Environmental Policy, Planning and Sustainability in New Zealand	
NR 720	International Environmental Politics and Policies for the 21st Century	
NR 724	Resolving Environmental Conflicts	
NR 784	Sustainable Living - Global Perspectives	
NR 787	Advanced Topics in Sustainable Energy	
ANTH 695	Globalization and Global Population Health	
CEP 614	Fundamentals of Planning	

CEP 673	Green Real Estate	
ECON 605	Intermediate Microeconomic Analysis	
ECON 645	International Economics	
ECON #668	Economic Development	
ECON 706	Economics of Climate Change	
EREC 572	Introduction to Natural Resource Economics	
EREC 606	Land Economics Perspectives: Uses, Policies, and Taxes	
EREC 627	Community Economics	
EREC 680	Agricultural and Food Policy	
EREC 708	Environmental Economics	
EREC 756	Rural and Regional Economic Development	
GEOG 673	Political Ecology	
HIST 618	American Environmental History	
MARI 705	Introduction to Marine Policy: Understanding US Ocean, Coastal and Great Lakes Policy	
POLT 751	Comparative Environmental Politics and Policy	
SAFS 672	Pathways to Sustainable Agriculture and Food Systems in Aotearoa New Zealand	
SAFS 673	Agricultural Production and Business Practice in Aotearoa New Zealand	
SOC 665	Environmental Sociology	
SOC 730	Communities and the Environment	
TOUR 400	Introduction to Tourism	
<b>Advanced Tools &amp; Skills and Natural History</b>		
Select at least one course		
NR 425	Field Dendrology	
NR #655	Vertebrate Biology	
NR 703	Watershed Water Quality Management	
NR 707	Environmental Modeling	
NR 712	Mammalogy	
NR 713	Quantitative Ecology	
NR 729	Silviculture	
NR 745	Forest Management	
NR 749	Forest Inventory and Modeling	
NR 757	Remote Sensing of the Environment	
NR 759	Digital Image Processing for Natural Resources	
NR 760	Geographic Information Systems in Natural Resources	
NR 785	Systems Thinking for Sustainable Solutions	
BIOL 752	New England Mushrooms: a Field and Lab Exploration	
CEP 777	Topics in Community Planning	
SAFS 670	Systems Thinking: Land Use Capability and Sustainability in Aotearoa New Zealand	
SOC 601	Methods of Social Research	
TOUR 767	Social Impact Assessment	
ZOOL 542	Ornithology	
<b>Senior Capstone Options</b>		
The ECS major capstone experience may be filled by any one (1) of the following options:		4
Option 1:		
NR 786	Leadership for Sustainability	
Option 2: Both seminars must be scheduled. At least one must be taken in the senior year.		
NR 753	Critical Issues in Sustainability: Sustainability as an Abundance Paradigm	
& NR 754	and Critical Issues in Sustainability: Sense of Place	
Option 3:		
NR 663	Applied Directed Research in New Zealand (NZ Directed projects, if taken in the senior year) <sup>2</sup>	
Option 4:		
Directed projects fulfilling one of the following: NR 799, McNair Research Theses, Hamel Center Programs (IROP, SURF USA, SURF Abroad, etc.) may be applied in consultation with the adviser and ECS program coordinator.		
<b>Work Experience</b>		
NR 600	Work Experience <sup>3</sup>	
<b>Total Credits</b>		<b>60</b>

<sup>1</sup> The focus area is based upon at least one course in the ecology and natural resources category, along with a combination of courses in the social sciences; tools, skills, and natural history categories; and any additional courses from the ecology and natural resources category reflecting the student's interests and future direction. Focus areas should be designed in close consultation with the adviser. Courses used to fulfill core requirements may not be used in the focus area.

<sup>2</sup> If NR 663 Applied Directed Research in New Zealand is taken in the junior year or earlier, then one Critical Issues seminar (2cr) or Leadership for Sustainability must be taken in the senior year to fulfill the capstone requirement.

<sup>3</sup> Each ECS major will engage in a practical experience reflecting their interests and goals. The choice of the experience will be made in conjunction with the adviser and may occur any time beginning with the sophomore year.

## Degree Plan

### Sample Course Sequence

Course	Title	Credits
<b>First Year</b>		
<b>Fall</b>		
BIOL 412	Introductory Biology: Evolution, Biodiversity and Ecology (Inquiry, Disc BS)	4
NR 435	Contemporary Conservation Issues and Environmental Awareness (Disc ETS)	4
EREC 411	Environmental and Resource Economics Perspectives (or Discovery Course, not SS or ETS)	4
ENGL 401 or Discovery Course		4
<b>Credits</b>		<b>16</b>
<b>Spring</b>		
NR 437	Principles of Sustainability	4
NR 439	Environmental Biology	4
EREC 411	Environmental and Resource Economics Perspectives (or Discovery Course, not SS or ETS)	4
ENGL 401 or Discovery Course		4
<b>Credits</b>		<b>16</b>
<b>Second Year</b>		
<b>Fall</b>		
NR 415	Natural Resources Field Methods	2
Ecological Principles <sup>1</sup>		4
Physical Science (Disc PS) <sup>2</sup>		4
Presentation Skills (possible Disc FPA) <sup>2</sup>		4
Practicum <sup>3</sup>		0
Elective		4
<b>Credits</b>		<b>18</b>
<b>Spring</b>		
Statistics (Disc QR) <sup>2</sup>		4
Writing Skills (Univ. writing req.) <sup>2</sup>		4
NR 658	Introduction to Geographic Information Systems	4
NR 602 or Discovery Course		4
<b>Credits</b>		<b>16</b>
<b>Third Year</b>		
<b>Fall</b>		
NR 602 or Discovery Course		4
Ethics/Values Requirement		4
Focus Area Courses		8

OR Electives	
OR any remaining Discovery or WI requirement	
OR Capstone <sup>4</sup>	
<b>Credits</b>	
<b>16</b>	
<b>Spring</b>	
Focus Area Courses <sup>5</sup>	16
OR Electives	
OR any remaining Discovery or WI requirements	
OR Capstone <sup>4</sup>	
<b>Credits</b>	
<b>16</b>	
<b>Fourth Year</b>	
<b>Fall</b>	
Capstone Requirement <sup>5</sup>	2-4
Focus Area Courses	12
OR Electives	
OR any remaining Discovery of WI requirements	
<b>Credits</b>	
<b>14-16</b>	
<b>Spring</b>	
Capstone Requirement <sup>5</sup>	2-4
Focus Area Courses	12
OR Electives	
OR any remaining Discovery of WI requirements	
<b>Credits</b>	
<b>14-16</b>	
<b>Total Credits</b>	
<b>126-130</b>	

<sup>1</sup> All choices for the Ecological Principles requirement **except** for SAFS 502 are fall courses.

<sup>2</sup> The Statistics, Physical Science, Writing Skills and Presentation Skills requirements may be taken in either the Fall or Spring Semester of the second year.

<sup>3</sup> Work experience, internship, etc may be scheduled any time beginning in the second year.

<sup>4</sup> One of the 2 credit capstone seminars may be taken in either the fall or spring of the junior year.

<sup>5</sup> One 2 credit seminar may be taken in each of the Fall and Spring semesters of the Senior Year OR NR 786 may be taken in the Fall semester of the Senior Year.

## Student Learning Outcomes

Students will be able to:

- Describe and explain the interactions among physical, biological, chemical, and human components of the environment;
- Formulate tests of environmental questions, acquire data, and apply scientific methods to answer these questions;
- Describe and explain the ecological and societal value of biodiversity, sustainability, and environmental stewardship;
- Use principles of ecology, economics, sustainability, and policy science to solve real-world environmental problems;
- Communicate effectively to peers within the environmental community and with audiences outside of the discipline.

# Environmental Conservation and Sustainability Minor

<https://colsa.unh.edu/natural-resources-environment/program/minor/environmental-conservation-sustainability>

## Description

The minor in Environmental Conservation and Sustainability allows students from diverse majors across all UNH colleges to incorporate the theory and practice of sustainable resource use into their 4-year baccalaureate studies. Students take required introductory courses in both conservation and sustainability and then can fill out their minor with choices from ecology, social science and management, and a range of advanced topics. As well, students who participate in the EcoQuest Study Abroad Program can apply their courses to the minor.

## Requirements

### 20 credits total required

- A grade of C or better in each of the 5 courses.
- No more than 8 credits used to satisfy major requirements may be used for the minor
- Credit/fail courses may not be used for the minor.

Code	Title	Credits
<b>Required Courses</b>		
NR 435	Contemporary Conservation Issues and Environmental Awareness	4
NR 437	Principles of Sustainability	4
<b>Select one course from each of the following categories:</b>		
<b>Ecology (choose one):</b>		<b>4</b>
BIOL 541W	Ecology	
NR 433	Wildlife Ecology	
NR 502	Forest Ecosystems and Environmental Change	
NR 527	Forest Ecology	
NR 660	Ecology and Biogeography of New Zealand	
SAFS 502	Agroecology	
<b>Social Science and Management (choose one):</b>		<b>4</b>
NR 507	Introduction to our Energy System and Sustainable Energy	
NR 602	Natural Resources and Environmental Policy	
NR 662	Environmental Policy, Planning and Sustainability in New Zealand	
NR 786	Leadership for Sustainability	
EREC 606	Land Economics Perspectives: Uses, Policies, and Taxes	
EREC 627	Community Economics	
<b>Advanced Topics in Conservation and Sustainability (choose one):</b>		<b>4</b>
NR 603	Landscape Ecology	
NR 606	International Energy Topics	
NR 650	Principles of Conservation Biology	
NR 661	Restoration Ecology and Ecosystem Management in New Zealand	
NR 720	International Environmental Politics and Policies for the 21st Century	
NR 724	Resolving Environmental Conflicts	
NR 784	Sustainable Living - Global Perspectives	
NR 785	Systems Thinking for Sustainable Solutions	
NR 787	Advanced Topics in Sustainable Energy	
NR 795	Investigations <sup>1</sup>	
EREC 708	Environmental Economics	
MARI 705	Introduction to Marine Policy: Understanding US Ocean, Coastal and Great Lakes Policy	
MEFB 702	Sustainable Marine Fisheries	
TOUR 767	Social Impact Assessment	
<b>Total Credits</b>		<b>20</b>

<sup>1</sup> NR 795 Investigations requires working with an individual ECS faculty member on a special problem/issue.

## Environmental Sciences

The College of Engineering and Physical Sciences (CEPS) and the College of Life Sciences and Agriculture (COLSA) jointly offer a bachelor of science degree in environmental sciences. Environmental sciences, an interdisciplinary field, focuses on the interaction of biological, chemical, and physical processes that shape our natural environment. Students graduating with a degree in environmental sciences will have an understanding of these interacting processes, the ability to communicate effectively with both scientific and lay audiences, competency in field methods appropriate for entry-level environmental science positions, competency in the use and application of Geographic Information Systems (GIS), a basic understanding of environmental policy, and the ability to contribute to multidisciplinary teams. The University of New Hampshire is a recognized leader in environmental sciences research, and the environmental sciences program capitalizes on faculty expertise in this area. The full-time faculty members comprising this program have major teaching and research emphases in the areas of biogeochemical cycling, environmental chemistry, ecosystem science, geospatial science, global change, hydrology, plant ecology, soil science, and water resource management.

Employment opportunities include environmental consulting firms, educational facilities (e.g., science centers), environmental monitoring laboratories (e.g., water treatment plants; the Environmental Protection Agency), government agencies (e.g., the U.S. Geological Survey, Bureau of Land Management, Natural Resource Conservation Service), university and government research laboratories, and nongovernment environmental organizations. The environmental sciences program also constitutes an excellent preparation for graduate programs in several areas relating to the environment. Students should consult with their adviser early if their goals include further study.

The Program has four options, and specific course requirements for the major vary by option. The geosystems and hydrology options are both managed by the Department of Earth Sciences in CEPS, and the ecosystems and soil and watershed management options are both managed by the Department of Natural Resources and the Environment in COLSA.

## Programs

- [Environmental Sciences Major: Ecosystems Option \(B.S.\)](#) (p. 352)
- [Environmental Sciences Major: Geosystems Option \(B.S.\)](#) (p. 101)
- [Environmental Sciences Major: Hydrology Option \(B.S.\)](#) (p. 104)
- [Environmental Sciences Major: Soil and Watersheds Option \(B.S.\)](#) (p. 353)

## Faculty

COLSA faculty: <https://colsa.unh.edu/directory/all>

CEPS faculty: <https://ceps.unh.edu/directory/all>

# Environmental Sciences Major: Ecosystems Option (B.S.)

<https://colsa.unh.edu/natural-resources-environment/program/bs/environmental-sciences-major-ecosystems-option>

## Description

The College of Life Sciences and Agriculture (COLSA) and the College of Engineering and Physical Sciences (CEPS) jointly offer a bachelor of science degree in environmental sciences. Environmental science is an interdisciplinary field concerned with the interaction of biological, chemical, and physical processes that shape the environment, and control the response of natural systems to human activities. Students graduating with a degree in environmental sciences will have an understanding of these interacting processes, experience working in interdisciplinary teams to apply this understanding, and the ability to communicate effectively with both scientific and lay audiences. While in this program, students will acquire significant experience with field, laboratory and analytical methods appropriate for employment in professional environmental science positions as well as a basic understanding of environmental policy. The University of New Hampshire is a recognized leader in environmental sciences research, and the environmental sciences program capitalizes on faculty expertise in this area. Program faculty emphasize teaching and research in the areas of biogeochemical cycling, environmental chemistry, ecosystem science, global change, hydrology, plant ecology, soil science, and water resource management among many other fields.

Employment opportunities include environmental consulting firms; educational facilities (e.g., science centers), environmental monitoring laboratories (e.g., water treatment plants, the Environmental Protection Agency), government agencies (e.g., the U.S. Geological Survey, Bureau of Land Management, Natural Resource Conservation Service), university and government research laboratories, and nongovernment environmental organizations. The environmental sciences program also constitutes an excellent preparation for graduate programs in several areas relating to the environment.

The Program has four options, and specific course requirements for the major vary by option. The ecosystems and soils and watersheds options are both managed by the Department of Natural Resources and the Environment in COLSA, and the geosystems and hydrology options are both managed by Earth Sciences in CEPS.

## Ecosystems:

NR 730	Terrestrial Ecosystems
or NR 751	Aquatic Ecosystems
or NR 661	Restoration Ecology and Ecosystem Management in New Zealand
or MEFB 508	Marine Ecosystem Research and Management

## Biogeochemistry:

NR 744	Biogeochemistry
or NR 761	Environmental Soil Chemistry
or NR 703	Watershed Water Quality Management
or ESCI 642	Biogeosciences in the Earth System

## Environmental Problem Solving:

ESCI 654	Fate and Transport in the Environment
or NR 707	Environmental Modeling
or EREC #760	Ecological-Economic Modeling for Decision Making
or NR 749	Forest Inventory and Modeling
or NR 743	Addressing Arctic Challenges

**Integration and Research (The Capstone Experience)<sup>1-2</sup>**

## Capstone:

NR 663	Applied Directed Research in New Zealand
or NR 786	Leadership for Sustainability
or NR 795	Investigations
or NR 799	Honors Senior Thesis

Capstone: NR 663 (EcoQuestif Senior Year)(WI), or NR 786, or NR 795, or NR 799, or approved research experience, or approved internship. Every student must complete a capstone experience senior year, or during the summer before senior year, if at least 90 credit hours have been completed.

NR 791 –Preparation for Capstone (1 credit, pass/no credit) is offered every spring. While not required for graduation, it is recommended for second semester juniors who need guidance in terms of developing a capstone project and completing the Capstone Contract.

a. A Contract form provided by the Program must be completed and signed by the student, the adviser, the program coordinator, and the capstone mentor (faculty or off-campus) before the capstone experience, by the end of Junior Year.

b. A signed Capstone Experience Evaluation form must be handed in to your advisor by the end of Senior year in order to graduate.

**Individualizing Your Education (Electives)**

One goal of this program is to allow students the opportunity to pursue minors, dual majors, research and study abroad opportunities, while still completing the degree in four years of full-time enrollment. To this end, the program requires a total of 85 credit hours. The University Discovery program includes 5 areas (20 credit hours) not covered by this major. These include English 401, Fine and Performing Arts, Humanities, Historical Perspectives, World Cultures (NOTE: The World Cultures category can be met by certain study abroad programs, including EcoQuest). Combined, Major and Discovery requirements total 105 credit hours. With a total of 128 credit hours required by the University for graduation, this leaves 23 credit hours that can be put towards minors, dual majors, study abroad, Directed Research, etc.

**Total Credits****84-85**

- <sup>1</sup> Many students enroll in the EcoQuest program (a study abroad opportunity in New Zealand), which satisfies the policy requirement, and capstone requirement if taken senior year.
- <sup>2</sup> NR 791 Preparation for Capstone - is offered every spring. While not required for graduation, it is recommended for second semester juniors who need guidance in terms of developing a capstone project and completing the Capstone Contract.

concepts required to understand, explain and predict those processes, and the ability to determine the significance of results, both in terms of statistical probability and impact on the larger world.

The learning process leading to this mastery will require that students will have:

- Knowledge of how physical, chemical, and biological factors interact with human activities to shape the environment;
- Proficiency with environmental techniques including field, lab, GIS, or modeling;
- The ability to solve environmental problems;
- The ability to communicate orally or in writing about environmental dynamics.

## Environmental Sciences Major: Soil and Watersheds Option (B.S.)

<https://colsa.unh.edu/natural-resources-environment/program/bs/environmental-sciences-major-soil-watersheds-option>

### Description

The College of Life Sciences and Agriculture (COLSA) and the College of Engineering and Physical Sciences (CEPS) jointly offer a bachelor of science degree in environmental sciences. Environmental science is an interdisciplinary field concerned with the interaction of biological, chemical, and physical processes that shape the environment, and control the response of natural systems to human activities. Students graduating with a degree in environmental sciences will have an understanding of these interacting processes, experience working in interdisciplinary teams to apply this understanding, and the ability to communicate effectively with both scientific and lay audiences. While in this program, students will acquire significant experience with field, laboratory and analytical methods appropriate for employment in professional environmental science positions as well as a basic understanding of environmental policy. The University of New Hampshire is a recognized leader in environmental sciences research, and the environmental sciences program capitalizes on faculty expertise in this area. Program faculty emphasize teaching and research in the areas of biogeochemical cycling, environmental chemistry, ecosystem science, global change, hydrology, plant ecology, soil science, and water resource management among many other fields.

Employment opportunities include environmental consulting firms; educational facilities (e.g., science centers), environmental monitoring laboratories (e.g., water treatment plants, the Environmental Protection Agency), government agencies (e.g., the U.S. Geological Survey, Bureau of Land Management, Natural Resource Conservation Service), university and government research laboratories, and nongovernment environmental organizations. The environmental sciences program also constitutes an excellent preparation for graduate programs in several areas relating to the environment.

The Program has four options, and specific course requirements for the major vary by option. The ecosystems and soils and watersheds options are both managed by the Department of Natural Resources and the Environment in COLSA, and the geosystems and hydrology options are both managed by Earth Sciences in CEPS.

## Student Learning Outcomes

**Key Learning Objectives:** The primary Learning Outcome for the Environmental Science Program will be that students will master the content offered in the courses specified in the curriculum as assessed by performance on exams, labs and written assignments. This will include an understanding of the physical, chemical and biological processes central to the function of environmental systems, the mathematical

## Degree Requirements

Minimum Credit Requirement: 128 credits

Minimum Residency Requirement: 32 credits must be taken at UNH

Minimum GPA: 2.0 required for conferral\*

Core Curriculum Required: Discovery & Writing Program Requirements

Foreign Language Requirement: No

All Major, Option and Elective Requirements as indicated.

\*Major GPA requirements as indicated.

## Major Requirements

Code	Title	Credits
Scope of the Major (Introduction - 3 Courses)		9
NR 400	Professional Perspectives in Natural Resources	
NR 403	Introduction to Environmental Science	
NR 435 or NR 437	Contemporary Conservation Issues and Environmental Awareness Principles of Sustainability	
The Scientific Basis (Foundation - 7 Courses)		28
Biology I:		
BIOL 412	Introductory Biology: Evolution, Biodiversity and Ecology	
Chemistry I:		
CHEM 403 or CHEM 405 or CHEM 411	General Chemistry I Chemical Principles for Engineers Introductory Chemistry for Life Sciences	
Chemistry II:		
NR 561 or CHEM 404	Chemistry of the Environment General Chemistry II	
Physics:		
PHYS 401 or PHYS 407	Introduction to Physics I General Physics I	
Biology/Physics II:		
BIOL 411 or PHYS 402 or PHYS 408	Introductory Biology: Molecular and Cellular Introduction to Physics II General Physics II	4
Calculus:		
MATH 424B or MATH 425	Calculus for Life Sciences Calculus I	
Statistics:		
BIOL 528 or EREC 525	Applied Biostatistics I Statistical Methods and Applications	
Earth and its Systems (Core - 6 Courses)		24
Earth Science:		
ESCI 401 or ESCI 402 or ESCI 409	Dynamic Earth Earth History Geology and the Environment	
Aquatic Science:		
NR 504	Freshwater Resources	
Soils:		
NR 501	Studio Soils	
Climate/Weather:		
ESCI 514 or GEOG 473 or GEOG 670	Introduction to Climate Elements of Weather Climate and Society	
Ecology:		
BIOL 541W or NR 660 or NR 527 or MEFB 530 or MEFB 674	Ecology Ecology and Biogeography of New Zealand Forest Ecology Evolution and Marine Diversity Ecology and Marine Environment	

Human Dimensions:	
NR 602 or NR 662 or NR 507 or NR 784 or MEFB 702	Natural Resources and Environmental Policy Environmental Policy, Planning and Sustainability in New Zealand Introduction to our Energy System and Sustainable Energy Sustainable Living - Global Perspectives Sustainable Marine Fisheries
Environmental Toolkit (Methods - 2 Courses)	
7-8	
Select two courses from the following:	
ESCI 534 NR 658 or ESCI 777 or FORT 581 NR 757 or ESCI 778 NR 707 NR 713 MEFB 500	Techniques in Environmental Sciences Introduction to Geographic Information Systems GIS for Earth & Environmental Sciences Applied Geospatial Techniques Remote Sensing of the Environment Remote Sensing Earth & Environmental Sciences Environmental Modeling Quantitative Ecology Coastal Habitat Field Research Methods
Soil and Watershed Systems (Advanced Topics –5 courses –20 credits)	
16	
Advanced Soils:	
NR 761 or NR 706	Environmental Soil Chemistry Soil Ecology
Watersheds:	
NR 703	Watershed Water Quality Management
Ecosystems:	
NR 730 or NR 751 or NR 661 or MEFB 508	Terrestrial Ecosystems Aquatic Ecosystems Restoration Ecology and Ecosystem Management in New Zealand Marine Ecosystem Research and Management
Biogeochemistry:	
NR 744 or ESCI 642	Biogeochemistry Biogeosciences in the Earth System
Advanced Soils and Watersheds:	
NR 743 or ESCI 654 or ESCI 705 or ESCI 710 or ESCI 747 or CEE 796 or CEE 754	Addressing Arctic Challenges <sup>1</sup> Fate and Transport in the Environment Principles of Hydrology Groundwater Hydrology Aqueous Geochemistry Special Topics Engineering Hydrology
Integration and Research (The Capstone Experience) 2-3	
Capstone:	
NR 663 or NR 786 or NR 795 or NR 799	Applied Directed Research in New Zealand Leadership for Sustainability Investigations Honors Senior Thesis
4	
Capstone: NR 663 (EcoQuestif Senior Year)(WI), or NR 786, or NR 795, or NR 799, or approved research experience, or approved internship. Every student must complete a capstone experience senior year, or during the summer before senior year,if at least 90 credit hours have been completed.	
NR 791 –Preparation for Capstone (1 credit, pass/no credit) is offered every spring. While not required for graduation, it is recommended for second semester juniors who need guidance in terms of developing a capstone project and completing the Capstone Contract.	
a. A Contract form provided by the Program must be completed and signed by the student, the adviser, the program coordinator, and the capstone mentor (faculty or off-campus) before the capstone experience,by the end of Junior Year.	
b. A signed Capstone Experience Evaluation form must be handed in to your advisor by the end of Senior year in order to graduate.	
Individualization Your Education (19 Credits)	
Program Advisors will help students select additional coursesfrom across the campus that relate to that student’s areas of intellectual interest, and assist with the completion of minors, dual majors, study abroad programs, research projects, internships, etc.	

<sup>1</sup> NR 706 Soil Ecology or NR 761 Environmental Soil Chemistry if not already taken.

<sup>2</sup> Many students enroll in the EcoQuest program (a study abroad opportunity in New Zealand), which satisfies the policy requirement, and capstone requirement if taken senior year.

<sup>3</sup> NR 791 Preparation for Capstone - is offered every spring. While not required for graduation, it is recommended for second semester juniors

who need guidance in terms of developing a capstone project and completing the Capstone Contract.

## Student Learning Outcomes

**Key Learning Objectives:** The primary Learning Outcome for the Environmental Science Program will be that students will master the content offered in the courses specified in the curriculum as assessed by performance on exams, labs and written assignments. This will include an understanding of the physical, chemical and biological processes central to the function of environmental systems, the mathematical concepts required to understand, explain and predict those processes, and the ability to determine the significance of results, both in terms of statistical probability and impact on the larger world.

The learning process leading to this mastery will require that students will have:

- Knowledge of how physical, chemical, and biological factors interact with human activities to shape the environment;
- Proficiency with environmental techniques including field, lab, GIS, or modeling;
- The ability to solve environmental problems;
- The ability to communicate orally or in writing about environmental dynamics.

## Forestry

Forests are central to meeting today's challenges of climate change, biodiversity, and the sustainability of rural communities and economies.

The forestry program at the University of New Hampshire prepares its graduates with the scientific and managerial knowledge and skills to address these environmental and resource management problems at local, regional, and global scales.

Forestry is the art and science of managing and understanding forests, their use, and their conservation. It embraces both natural and human dimensions of sustainability. Forestry education at UNH focuses on sustainable management of forests for biodiversity, productivity, and health, based on a multidisciplinary approach. The program's goal is to provide a sound professional preparation, a broad general education, and the flexibility to cultivate special abilities and interests. Students are encouraged to develop an area of concentration or to complete a minor in consultation with their academic adviser. The Bachelor of Science in Forestry degree (B.S.F.) at UNH is accredited by the Society of American Foresters (SAF). The SAF is recognized by the Council on Postsecondary Accreditation and the U.S. Department of Education as the accrediting body for forestry in the United States.

A UNH forestry degree can be the gateway to a rewarding profession. UNH forestry graduates manage forests to provide wildlife habitat and recreation opportunities, care for soil and water resources, protect and restore forest ecosystems, and assure a sustainable supply of forest products. They are employed by private industry, public agencies, public interest groups, education institutions, research organizations, and consulting firms. Many students enter graduate school for advanced study in forest biology or management while others have found exciting international opportunities

- [Forestry Minor](#) (p. 357)

## Faculty

<https://colsa.unh.edu/natural-resources-environment/people>

## Forestry Major (B.S.F.)

<https://colsa.unh.edu/natural-resources-environment/program/bsf/forestry-major>

## Description

Forestry is an interdisciplinary profession, embracing the sustainable management of forest ecosystems for productivity, biodiversity, and health. The Forestry program's goals are to provide a solid professional preparation with a strong field component, founded in a broad general education, and with the flexibility to allow students to pursue special abilities and interests. The Bachelor of Science in Forestry (B.S.F.) degree is accredited by the **Society of American Foresters**.

Forestry graduates help manage and conserve public and private forests, addressing major environmental challenges including climate change, biodiversity protection, and sustainable resource management. They use science, planning, and geospatial technology to protect and restore forest ecosystems, ensure a sustainable forest product industry, provide wildlife habitat and recreational opportunities, and conserve soils and watersheds.

### ***Program Mission, Goals and Objectives***

The **mission** of UNH's Department of Natural Resources and the Environment, of which the Forestry Program is an integral part, is to serve as an educational center for the scholarly study of environmental and social sciences, and their application to the policy and management of natural resources from local to global scales. This is accomplished through education, research and outreach. This mission reflects UNH's larger mission to provide comprehensive, high-quality undergraduate programs and graduate programs of distinction, including a strong commitment to serving the public good and promoting the excitement of discovery among faculty and students.

The **goal** of the Forestry Program is to train natural resource professionals to sustainably manage forested landscapes for diverse objectives and in ways that balance changing social, cultural, economic, and environmental interests and priorities.

Our **educational objectives** are to:

1. Develop a strong knowledge base about the ecology and dynamics of forest ecosystems, including interactions between trees, wildlife, insects, soils, water, humans, and other ecosystem components.
2. Understand how different policies and management decisions affect forest dynamics over short to long time scales, and on different spatial scales.

- 3. Cultivate the necessary skills to manage forests for diverse objectives and to assess, respect, and balance the interests of different groups to achieve societal benefits.
- 4. Be able to critically evaluate scientific information and integrate this with professional experience and changing societal values to support adaptive management of forest resources.

All forestry majors must satisfy the B.S.F. requirements and all Discovery Program requirements. Students must satisfy the Inquiry requirement of the Discovery Program by completing an Inquiry or Inquiry-attribute course. Seniors must also satisfy the capstone experience requirement of the Discovery Program. The capstone explores areas of interest based on the integration of prior learning. The capstone requirement may be satisfied through a course (NR 745 Forest Management), created work or product, or some form of experiential learning (e.g., honors thesis, mentored research project, and other special student activity). Departments are responsible for certifying that graduating seniors have met the capstone requirement for their majors.

## Student Learning Outcomes

- Identify the major species of plants and wildlife and their distribution and habitat requirements.
- Understand the ecological concepts related to the structure, composition, and dynamics of forest ecosystems, including succession, competition, productivity, nutrient cycling, stand development, and wildlife populations.
- Understand soil properties, hydrology, water resources, and watershed functions.
- Understand how forest health and dynamics are impacted by different human and natural disturbances, including pests and diseases, climate change, pollutants, extreme climate events, management interventions.
- Design and conduct forest inventories using appropriate sampling methods and units of measurement.
- Analyze and interpret forest inventory data, and to use the information to project future forest stand development processes and tree conditions.
- Ability to use a variety of spatial analysis tools to assess landscape scale characteristics and produce maps of forest resources distribution.
- Explain forest development trajectories in both written and oral form and apply appropriate computer models and assessment techniques.
- Understand forest policy and the processes that influence policy development.

- Understand and apply economic principles to assessing the financial opportunities and risks of forestry operations.
- Understand how federal, state, and local laws and regulations govern the practice of forestry.
- Understand the administration, ownership, and organization of forest management enterprises.
- Integrate and effectively communicate the technical, financial, human resources, and legal aspects of administering public and private enterprises.
- Develop management plans that effectively integrate and balance multiple landowner (or stakeholder/societal) objectives and the ecological conditions and constraints of the biophysical system.
- Analyze the economic, environmental and social consequences of forest resource management strategies and decisions, and to evaluate their tradeoffs.
- Apply appropriate decision-making tools and techniques to evaluate alternative forest management practices and plans.
- Demonstrate effective problem-solving and teamwork skills, professional and ethical conduct, and respect for diverse values and interests.
- Describe and explain to different audiences in both written and oral form alternative options for managing forest resources to achieve multiple objectives.

## Forestry Minor

<https://colsa.unh.edu/natural-resources-environment/program/minor/forestry>

### Description

The minor in Forestry serves as a concentrated study, beyond a student's primary major, that allows students to explore their interest in forest ecology and management, and to build skills that can help launch a career in forest conservation.

### Requirements

Students interested in a minor in Forestry must complete a minimum of 5 courses and 20 credits with a grade of C- or better. Pass/Fail courses may not be used for the minor. Up to 8 credits can be used to satisfy both major and minor requirements.

## Genetics (GEN)

Genetics and genomics are central to all aspects of the life sciences. Genetics is the branch of biology that deals with heredity, variation of genes among individuals in a population, and the expression and regulation of genes. Genomics focuses on determining the structure and function of genomes and includes the mapping of genes, high-throughput DNA sequencing, and investigating the molecular mechanisms by which genetic and environmental factors contribute to phenotypes. Every day, scientists are using the tools of genetics and genomics to make exciting discoveries in fields such as molecular medicine, cancer research, biodiversity, and sustainability.

Within the Genetics (GEN) major, students may choose the Genomics option (Genetics:Genomics). Genetics provides a solid foundation in biology, biochemistry, microbiology, chemistry, physics, math, and cell biology. Students also take advanced courses in molecular genetics, bioinformatics, molecular evolution, and genomics. Genetics students receive additional training in wet lab techniques. The Genetics:Genomics option provides additional training in genomics, evolutionary genetics, and computer programming for bioinformatics.

There are many opportunities for interested students to gain research experience through formal or informal research projects in faculty members' laboratories. The genetics faculty conduct research on diverse topics such as evolution, gene structure and function, host-microbe interactions, genome sequencing and analysis, heredity, and diversity in populations. Faculty research areas encompass microbial, plant, and animal genetics. Genetics faculty are committed to mentoring undergraduate students in independent research experiences in their laboratories, which provide students with exposure to and training in cutting-edge research technologies.

Students with degrees in genetics or genomics are well prepared to apply to graduate schools (e.g., for training as genetic counselors or researchers) or professional schools, or to pursue careers in biotechnology companies, forensics labs, hospitals, university research laboratories, or government agencies. Two additional courses are needed for application to professional programs (e.g., medical or dental school). Graduates may also be employed in fields such as management, sales, marketing, regulatory affairs, technical writing, or science journalism. With supplementary courses in education, graduates with a bachelor's degree in genetics or genomics can teach at the elementary, middle, or high school level.

## Pre-Professional Health Programs

Students interested in postgraduate careers in the health care professions should visit the [Pre-Professional Health Programs Advising](#) website or visit the office in person. Requirements for specific types of professional schools (e.g., medical, dental, physician assistant, pharmacy, etc.) are available from [Pre-Health Advising](#). Students interested in veterinary medicine should consult the [Pre-Veterinary Medicine Program](#). Many of the prerequisite courses required by professional schools are also requirements of the genetics major, but students should consult with their faculty adviser to create a plan of study that best prepares them for pursuing a career in one of these health professions.

[Genetics affiliated faculty.](#)

## Genetics Major (B.S.)

<https://colsa.unh.edu/molecular-cellular-biomedical-sciences/program/bs/genetics-major>

## Description

The **Genetics program (GEN)** explores the world of genetics and genomics in plants, animals, and microbes. Genetics majors are interested in understanding how DNA, along with the environment, specifies simple traits like hair color to more complex traits like high blood pressure, diabetes, and mental illness. The Genetics faculty strongly value hands-on learning and many GEN students conduct undergraduate research under the supervision of our faculty. GEN graduates are prepared for successful careers in the biotechnology fields or for entry into a variety of graduate school, genetic counseling, or health professional programs.

**The Genetics program offers course work and laboratories in:**

- molecular genetics
- bioinformatics
- human genetics
- comparative genomics
- plant genetics
- microbial genetics and evolution
- population and evolutionary genetics

**Students in the Genetics program may participate in a variety of experiential learning activities including:**

- independent research experiences in laboratories of UNH faculty
- work at the [Hubbard Center for Genome Studies](#) or [Research Computing Center](#)
- internships at biotechnology companies in the Greater Boston area
- internships with genetics counselors at area medical centers

**GEN graduates have been successful in attaining careers as:**

- research scientists and laboratory technicians in
  - biotechnology and pharmaceutical companies
  - academic research programs
  - forensics
  - biomedical research centers & medical schools
  - government agencies
- genetic counselors

- educators
- technical support associates

#### GEN graduates are prepared for further education in:

- professional health programs
  - genetic counseling
  - medical school
  - dental school
  - allied health programs (physician assistant, pharmacist, nursing or pathologist's assistant programs)
  - veterinary school
- graduate programs such as
  - Genetics and Genomics
  - Integrative Biology
  - Neurogenomics
  - Molecular Biology
  - Microbiology
  - Environmental Sciences
  - Public Health
  - Computer Science

<sup>2</sup> Students applying to health profession schools need a full year of Organic Chemistry, a full year of Introductory Biology, as well as a full year of English. CHEM 651/CHEM 653 and CHEM 652/CHEM 654 should be taken in place of CHEM 545/CHEM 546; ENGL 502 or ENGL 503 in suggested in addition to ENGL 401. See [Pre-Professional Health Program Advising](#).

<sup>3</sup> Fulfills Quantitative Reasoning Discovery requirement

Capstone

The capstone explores areas of interest based on the integration of prior learning. The capstone requirement may be satisfied through a course, created work or product, or some form of experiential learning (e.g., honors thesis, mentored research project, or other special student activity). Students may take more than one capstone course. Capstone completion is never displayed on Degree Works; your advisor will certify capstone completion at the time of graduation. Students must have 90 credits or more when completing their capstone requirement. Contact your advisor for questions about capstones.

## Student Learning Outcomes

## SLO: Core Knowledge in Genetics

- Students will be able to describe DNA, its role, structure, how DNA is packaged in the chromosomes in terms of histones, nucleosomes, and chromatin, including its discovery, how has modern genomics influenced, and differences between prokaryotes and eukaryotes.
- Students will be able to describe the central dogma of molecular biology, including specific details related to replication, transcription, and translation.
- Students will be able to define and describe evolution, how drift, gene flow, mutation, natural selection, recombination, within a population genetic framework, may result in evolution.
- Students will be able to describe the differences between mitosis and meiosis and how errors in these processes may effect phenotype, cause disease, etc.
- Students will be able to evaluate how genes and the environment can interact to produce a phenotype, including allelic differences and changes in gene regulation.
- Students will be able to describe the concept of deep time, and how comparing genes and genomes allows us to understand evolution and relatedness between species.
- Students will be able to use pedigrees to determine mode of inheritance of a trait.
- Students will be able to describe ethical issues related to modern genomics and implications for health care and insurance, interpersonal relationships, family planning, etc.
- Students will be able to describe high-throughput sequencing, and how it has changed the practice of modern genetics.

## SLO: Quantitative Literacy, Inquiry &amp; Analysis

- Students will be able to apply the scientific method to examine experimental evidence and draw informed conclusions.
- Students will be able to use graphs to represent scientific data.
- Students will be able to apply statistical methods to interpret scientific data.

## SLO: Critical Thinking &amp; Problem Solving

- Students will be able to use data to troubleshoot an unexpected outcome .

- Students will be able to apply core knowledge to critically interpret scientific data.

## SLO: Written Communication

- Students will demonstrate written skills to communicate scientific knowledge and experimental data.

## SLO: Oral Communication

- Students will be able to demonstrate oral presentation skills to communicate scientific knowledge and experimental data.

## Genetics Major: Genomics Option (B.S.)

<https://colsa.unh.edu/molecular-cellular-biomedical-sciences/program/bs/genetics-major-genomics-option>

### Description

The **Genetics:Genomics program (GEN)** explores the world of genetics and genomics in plants, animals, and microbes. Genomics is the study of genomes and includes topics like DNA structure and function, high-throughput sequencing, and computational comparison of the genomes of different organisms. The Genetics faculty strongly value hands-on learning and many GEN students conduct undergraduate research under the supervision of our faculty. GEN graduates are prepared for successful careers in biotechnology fields or for entry into a variety of graduate school or health professional programs.

#### The Genetics program offers course work and laboratories in:

- molecular genetics
- bioinformatics
- human genetics
- comparative genomics
- plant genetics
- microbial genetics
- population and evolutionary genetics

#### Students in the Genetics program may participate in a variety of experiential learning activities including:

- independent research experiences in laboratories of UNH faculty
- work at the [Hubbard Center for Genome Studies](#) or [Research Computing Center](#)
- internships at biotechnology companies in the Greater Boston area
- internships with genetics counselors at area medical centers

#### GEN graduates have been successful in attaining careers as:

- research scientists and laboratory technicians in
  - biotechnology and pharmaceutical companies
  - academic research programs
  - forensics
  - biomedical research centers & medical schools
  - government agencies

- genetic counselors
- educators
- technical support associates

GEN graduates are prepared for further education in:

- professional health programs
  - genetic counseling
  - [medical school](#)
  - dental school
  - allied health programs ([physician assistant](#), [pharmacist](#), [nursing](#) or [pathologist's assistant](#))
  - [vet school](#)
- graduate programs such as
  - Genetics and Genomics
  - Integrative Biology
  - Neurogenomics
  - Molecular Biology
  - Microbiology
  - Environmental Sciences
  - Public Health
  - Computer Science

Requirements

Degree Requirements

Minimum Credit Requirement: 128 credits

Minimum Residency Requirement: 32 credits must be taken at UNH

Minimum GPA: 2.0 required for conferral\*

Core Curriculum Required: Discovery & Writing Program Requirements

Foreign Language Requirement: No

All Major, Option and Elective Requirements as indicated.

\*Major GPA requirements as indicated.

Major Requirements

Students majoring in Genetics with the Genomics option take seven Foundation courses, six Bioscience Core courses, four Genetics Core courses and five Major Elective courses. One capstone experience, supervised and approved within the major, is required of all seniors. The capstone explores areas of interest based on the integration of prior learning. In addition, all other University requirements must be completed, including those for the [Discovery Program](#) and the [University Writing Program](#).

A grade of C-minus or better is required in statistics and all Bioscience Core, Genetics Core, and Major Elective courses.

Code	Title	Credits
Foundation Courses		
CHEM 403	General Chemistry I <sup>1</sup>	4
CHEM 404	General Chemistry II	4
CHEM 545 & CHEM 546	Organic Chemistry and Organic Chemistry Laboratory <sup>2</sup>	5

## Student Learning Outcomes

SLO: Core Knowledge in Genetics

- Students will be able to describe DNA, its role, structure, how DNA is packaged in the chromosomes in terms of histones, nucleosomes, and chromatin, including its discovery, how has modern genomics influenced, and differences between prokaryotes and eukaryotes.
- Students will be able to describe the central dogma of molecular biology, including specific details related to replication, transcription, and translation.
- Students will be able to define and describe evolution, how drift, gene flow, mutation, natural selection, recombination, within a population genetic framework, may result in evolution.
- Students will be able to describe the differences between mitosis and meiosis and how errors in these processes may effect phenotype, cause disease, etc.
- Students will be able to evaluate how genes and the environment can interact to produce a phenotype, including allelic differences and changes in gene regulation.
- Students will be able to describe the concept of deep time, and how comparing genes and genomes allows us to understand evolution and relatedness between species.
- Students will be able to use pedigrees to determine mode of inheritance of a trait.
- Students will be able to describe ethical issues related to modern genomics and implications for health care and insurance, interpersonal relationships, family planning, etc.
- Students will be able to describe high-throughput sequencing, and how it has changed the practice of modern genetics.

SLO: Quantitative Literacy, Inquiry & Analysis

- Students will be able to apply the scientific method to examine experimental evidence and draw informed conclusions.
- Students will be able to use graphs to represent scientific data.
- Students will be able to apply statistical methods to interpret scientific data.

SLO: Critical Thinking & Problem Solving

- Students will be able to use data to troubleshoot an unexpected outcome .
- Students will be able to apply core knowledge to critically interpret scientific data.

SLO: Written Communication

- Students will demonstrate written skills to communicate scientific knowledge and experimental data.

SLO: Oral Communication

- Students will be able to demonstrate oral presentation skills to communicate scientific knowledge and experimental data.

## Genetics Minor

<https://colsa.unh.edu/molecular-cellular-biomedical-sciences/program/minor/genetics>

### Description

Students in other majors who wish to develop a focus in the area of genetics and genomics can complement their major academic program with a minor in genetics.

### Requirements

The minor consists of a minimum of 20 credits, completed with a grade of C-minus or better.

- No more than 8 credits used to fulfill major requirements may be used for the minor.
- Minimum grade of C (2.00) is required in courses that the minor department approves.
- Pass/fail courses cannot be used for the minor.

Students must file an [Intent to Minor](#) form with the GEN minor advisor by the end of the junior year and complete a [Certification of Completion of Minor](#) form during the final semester at UNH.

A maximum of 4 credits of GEN 795 Investigations in Genetics may be used to fulfill minor requirements.

Code	Title	Credits
Required Course		
GEN 604	Principles of Genetics	4

# GeoSpatial Analysis

## Programs

- [Geospatial Analysis Minor](#) (p. 365)

## Geospatial Analysis Minor

<https://colsa.unh.edu/natural-resources-environment/program/minor/geospatial-analysis>

## Description

The geospatial analysis minor is designed for students who wish to have more learning and experience using the tools of geospatial analysis such as statistics, aerial photography, satellite imagery, and geographic information systems (GIS) as they relate to their chosen field of study.

Students with questions about the minor or who would like more information should contact [Dr. Russell G. Congalton](#) ([russ.congalton@unh.edu](mailto:russ.congalton@unh.edu)) in the Department of Natural Resources and the Environment, (603) 862-4644.

## Requirements

Students must complete a total of 20 credits. A grade of C- or better is required in each minor course and no course can be taken pass/fail. A total of not more than 8 credits from the student's major requirements can be counted toward the minor.

Code	Title	Credits

## Green Real Estate

## Programs

- [Green Real Estate Minor](#) (p. 365)

## Green Real Estate Minor

<https://colsa.unh.edu/natural-resources-environment/program/minor/green-real-estate>

## Description

The green real estate minor will include the basic fundamentals of real estate (a class which is accredited by the New Hampshire Real Estate Commission). Students will learn about local and regional planning, environmental economics and market forces, and environmental issues as they pertain to real estate. In addition, students may choose complementary classes, such as architecture, surveying, land design, soils, wetland delineation, law, etc.

## Requirements

Students must complete five courses (18 to 20 credits), with a minimum grade of C- or better in each course, and maintain a 2.0 average or better.

Code	Title	Credits
<b>Required Courses</b>		
CEP 672	Fundamentals of Real Estate	
CEP 673	Green Real Estate	
CEP 508	Applied Community Development	
<b>Electives</b>		
Select two from one of the three groups below: (pick two 4-credit courses, or three 3-credit courses)		
<b>Green Design &amp; Building</b>		
Ideal for future architects and builders		
CHBE 410	Energy and Environment	
CEE 404	Surveying and Mapping	
CEE 703	Site Design and Project Development

NR 787	Advanced Topics in Sustainable Energy	
<b>Land Conservation</b>		
Ideal for future conservation commission members, planners, and advocates in general		
EREC 606	Land Economics Perspectives: Uses, Policies, and Taxes	
NR 437	Principles of Sustainability	
NR 507	Introduction to our Energy System and Sustainable Energy	
NR 753 & NR 754	Critical Issues in Sustainability: Sustainability as an Abundance Paradigm and Critical Issues in Sustainability: Sense of Place	
NR 785	Systems Thinking for Sustainable Solutions	
<b>Finance &amp; Law</b>		

Ideal for future green mortgage lenders and social choice investment portfolio managers

Note: Business Majors Only!

MGT 720	Topics in Management II
FIN 701	Financial Policy
FIN 702	Investments Analysis
FIN 708	Real Estate Finance

## Marine, Estuarine, and Freshwater Biology (MEFB)

The marine, estuarine, and freshwater biology (MEFB) B.S. program is designed to provide a broad background for undergraduates interested in marine, estuarine, and freshwater biology, aquaculture, and fisheries. The program integrates theoretical and practical (hands-on laboratory and field) courses. Students are encouraged to become involved in one or more of the numerous undergraduate research opportunities available in the marine, estuarine, and freshwater sciences.

UNH is located on a seacoast that provides an extraordinary diversity of marine and estuarine habitats. It is also only a short distance from mountain streams, rivers, marshes, bogs, ponds, and lakes. All of the habitats provide outstanding resources for field courses and research. The marine, estuarine, and freshwater faculty are spread across all four departments of the College of Life Sciences and Agriculture. UNH is a Sea Grant university and has an international reputation for teaching and research in aquatic sciences. UNH has aquaculture facilities, and coastal and estuarine research laboratories. In collaboration with Cornell, UNH jointly administers the summer undergraduate programs at the Shoals Marine Laboratory on Appledore Island, seven miles off the coast of New Hampshire and Maine.

## Marine, Estuarine and Freshwater Biology Major (B.S.)

<https://colsa.unh.edu/biological-sciences/program/bs/marine-estuarine-and-freshwater-biology>

### Description

The Major in Marine, Estuarine, and Freshwater Biology is intended to give students interested in the fields of marine and freshwater biology the background and direct hands-on experience needed to pursue productive careers, including potential advanced study. This strategically cross-disciplinary major builds on a broad set of science courses in high-impact areas of study for today's world, represented by a core curriculum in math, chemistry, physics, and biology. The core background is strengthened by a series of required and elective courses in a diverse range of aquatic sciences spanning watersheds to oceans, providing

opportunities for study from organismal to ecosystem scales. Designed to provide a solid foundation of knowledge in freshwater, estuarine, and marine biology, the MEFB Major allows flexibility and encourages students to focus on particular areas of interest from molecular biology to ecosystem and policy studies. Students will have the opportunity to specialize in areas of their own interest, such as aquaculture and fisheries, animal behavior, ecological restoration, or management. While MEFB students must complete rigorous course requirements, our students are encouraged to tailor their elective courses within and across departments and colleges as needed to build their own, unique cross-disciplinary path.

The University of New Hampshire is uniquely located for the study of aquatic organisms and their habitats. We are centered between the Great Bay Estuary and the Gulf of Maine, with easy access to diverse marine environments as well as the freshwater habitats of New Hampshire's Lakes Region and the White Mountain National Forest. We boast three Marine Laboratories that provide exceptional opportunities for our student's research and educational needs, including Jackson Estuarine Laboratory (JEL), the Coastal Marine Lab (CML; part of the larger Judd Gregg Marine Research Center), and the Shoals Marine Laboratory (SML), as well as strong affiliations with the Great Bay National Estuarine Research Reserve. While JEL is located on Great Bay in Durham, CML is in nearby New Castle at the Seacoast, and SML is located seven miles off the coast. SML provides summer undergraduate programming with field-based marine courses that fulfill major electives, as well as internships and research opportunities for advanced study. In addition, UNH's campus maintains two fish aquaculture facilities, a world-class genomics laboratory, and the State Veterinary Diagnostic Laboratory, which provide hands-on opportunities for undergraduates. There is also an active diving program with courses at both beginner and advanced levels. A major strength of the MEFB program is the hands-on approach to learning combined with an emphasis on involving undergraduate students in mentored research opportunities.

## Off Campus Coursework and Study Abroad Opportunities

It is strongly recommended that students consider participating in a summer, semester, or year-long study abroad program. UNH's Shoals Marine Laboratory (<https://www.shoalsmarinelaboratory.org/>), in conjunction with Cornell University, offers a host of marine biology-related college level courses that meet many degree requirements of the MEFB major over the summer on our island campus in the Isles of Shoals. SML offers both Merit and Need-based Scholarships, multi-course discounts, as well as competitive Research Internships offering summer stipends. UNH Global is the definitive resource for Study Abroad opportunities for undergraduates (<https://www.unh.edu/global/education-abroad>). UNH Global can provide information on programs of study, while students' academic advisors can assist in course selection options that provide equivalencies to requirements in MEFB so progress toward degree is not compromised. In addition, Ecoquest, run by the Department of Natural Resources, offers summer and semester programs of environmentally oriented courses in New Zealand (<https://ecoquest.unh.edu/>). These are just some of the many opportunities available for MEFB students and we encourage you to explore more.

## Pre-health Professional Program

MEFB majors who wish to pursue postgraduate degrees in the health care professions should visit the premed advising website (<http://www.unh.edu/premed-advising>).

## Requirements

### Degree Requirements

**Minimum Credit Requirement:** 128 credits

**Minimum Residency Requirement:** 32 credits must be taken at UNH

**Minimum GPA:** 2.0 required for conferral\*

**Core Curriculum Required:** Discovery & Writing Program Requirements

**Foreign Language Requirement:** No

All Major, Option and Elective Requirements as indicated.

\*Major GPA requirements as indicated.

### Major Requirements

A minimum grade of C- is required in all biological science courses that are counted toward the requirements for a degree in MEFB. Students who expect to compete successfully for post-baccalaureate programs should attain a cumulative GPA of 3.0 or higher by the end of the sophomore year and maintain it at that level.

Code	Title	Credits
<b>Biological Sciences Core</b>		
BIOL 412	Introductory Biology: Evolution, Biodiversity and Ecology	4
BIOL 411	Introductory Biology: Molecular and Cellular	4
BIOL 541W	Ecology	0 or 4

<i>Research and Special Projects</i> <sup>2</sup>		
BIOL 795	Independent Investigations in Biology	1-4
BMS 795	Investigations in Biomedical Science	1-8
BIOL 799H	Honors Senior Thesis	2-8
MEFB 403	Investigative Marine Biology Laboratory (SML)	2-4
MEFB 500	Coastal Habitat Field Research Methods (SML)	4
MEFB 600	Field Experience in Marine, Estuarine, and Freshwater Biology	1-4
MEFB 730	Underwater Research (SML)	4
MEFB 751	Research in Marine Biology (SML)	4
MEFB 770	Senior Seminar in Marine, Freshwater, and Estuarine Biology (C)	2
MEFB 795	Independent Investigations in Marine, Estuarine, and Freshwater Biology	1-4
TECH 797	Undergraduate Ocean Research Project (C) <sup>3</sup>	2
MEFB 799H	Honors Senior Thesis in Marine, Estuarine, and Freshwater Biology	2-4

<sup>1</sup> A single course cannot be used for both a core requirement and an elective (e.g., ZOOL 542 cannot be used to fulfill the animal survey requirement and as an elective).

<sup>2</sup> Primary focus of the project must be Marine, Estuarine and/or Freshwater. A 600, 695, 795, or 799 experience may substitute for one elective with academic advisor approval, but only if taken for at least four credits. These four credits may be spread over multiple semesters if they are consecutive and with the same faculty mentor.

<sup>3</sup> This class requires enrollment in both fall and spring sections, 2 credits/semester for a total of 4 credits.

## Capstone Experience

As part of the University of New Hampshire's Discovery Program requirements, all students must complete a capstone experience during their senior year (after earning at least 90 credits). The capstone experience for students majoring in MEFB consists of BOTH (1) an approved individual experience AND (2) the successful completion of the BIOL 780 Capstone Companion Course. Students will not be approved for graduation until capstone certification has been granted.

### 1) The individual experience

The individual experience may be satisfied through various forms of experiential learning (e.g., Honors thesis, mentored research project, internship) or a course denoted with a "(C)" in the courses listed above. The individual experience must fulfill at least one of the University's capstone criteria:

- synthesizes and applies disciplinary knowledge and skills
- fosters reflection on undergraduate learning and experience
- demonstrates emerging professional competencies
- applies, analyzes, and/or interprets research, data, or artistic expression
- explores areas of interest based on the integration of the prior learning

**Before beginning any capstone individual experience, students must submit a completed capstone approval form to their Program Coordinator.**

Students can obtain this form on the Department's Capstone page or from their Program Coordinator. Here they will describe their proposed individual experience and how it fulfills at least one of the University's

capstone criteria listed above. If the student is selecting a "C" course for their individual experience, they should obtain the course syllabus from the instructor for information about the course's content and learning objectives.

### 2) Enrollment in BIOL 780 Capstone Companion Course

Students will also be required to enroll in BIOL 780 (1 cr.) during the semester of their individual experience. BIOL 780 is offered every Fall and Spring semester.

- If the individual experience is a two-semester thesis, BIOL 780 should be taken during the second semester.
- If the individual experience occurs during the summer (e.g., internship), BIOL 780 should be taken during the Fall semester that immediately follows.
- Note: Because BIOL 780 is not offered during the summer, students cannot complete their individual experience during the summer *and graduate during that same August*. Summer experiences could only be used as individual capstone experiences if completed the summer before the student's senior year.

## Student Learning Outcomes

- Show the ability to synthesize diverse sources of information and communicate it effectively.
- Demonstrate a broad understanding of the unique characteristics, as well as the similarities, governing freshwater, estuarine and marine systems.
- Have a broad understanding of biology from the molecular to the ecosystem with a particular appreciation for the abiotic and biotic factors relating to diverse aquatic ecosystems.
- Demonstrate the ability to describe basic principles of scientific inquiry and the importance of scientific study for understanding the natural world.
- Demonstrate the ability to design and experiment, collect data, analyze and graph it appropriately, and summarize the significant findings.
- Demonstrate an ability to critically and objectively evaluate data, develop hypotheses, plus interpret biological experiments and studies.
- Demonstrate an ability to communicate clearly and explicitly, both orally and in writing, following conventional scientific formats.
- Demonstrate a broad understanding of major groups of prokaryotic and eukaryotic aquatic life.

## Marine Biology Minor

<https://colsa.unh.edu/biological-sciences/program/minor/marine-biology>

### Description

The Marine Biology minor is designed to provide a foundation in marine biology and related sciences to any UNH undergraduate student, with the exception of students majoring in marine, estuarine, and freshwater biology. It is offered through the Department of Biological Sciences.

## Requirements

The minor consists of five courses (20 credits) with grades of C- or better and no pass/fail courses. No more than eight major requirement credits may be used to complete the minor. The minor consists of an introductory Marine Science course and 4 courses selected in consultation with the minor advisor.

Code	Title	Credits
Required:		
MEFB 503	Introduction to Marine Biology	4
Take THREE of the following:		
MEFB 625	Introduction to Marine Botany	5
MEFB 628	Marine Invertebrate Evolution and Ecology	5
MEFB 725	Marine Ecology	4
MEFB 747	Aquatic Plants in Restoration/Management	4
MEFB 755	Biological Oceanography	3
MEFB 772	Fisheries Biology: Conservation and Management	4
MEFB 773	Physiology of Fishes	4
ESCI 501	Introduction to Oceanography	4
ESCI 502	Beaches and Coasts	4
ZOOL 610	Principles of Aquaculture	4
ZOOL 710	Sharks and Bony Fishes	0 or 4
MEFB 506	Marine Parasitology and Disease	4
MEFB 510	Field Ornithology	4
MEFB 530	Evolution and Marine Diversity	4
MEFB 535	Marine Mammal Biology	4
MEFB #630	Biodiversity and Biology of Marine Invertebrates	4
MEFB 674	Ecology and Marine Environment	4
MEFB 702	Sustainable Marine Fisheries	4
MEFB 714	Field Animal Behavior	4
MEFB 741	Sharks: Biology and Conservation	4
MEFB 754	Anatomy and Function of Marine Vertebrates	4
Take ONE of the following:		
MEFB 500	Coastal Habitat Field Research Methods	4
MEFB 508	Marine Ecosystem Research and Management	4
MEFB 730	Underwater Research	4
MEFB 751	Research in Marine Biology	4
BIOL 795	Independent Investigations in Biology	1-4
MEFB 795	Independent Investigations in Marine, Estuarine, and Freshwater Biology	1-4
ZOOL 795	Independent Investigations in Zoology	1-4
MARI #405	Introduction to Marine Mammal Science and Policy	3
MARI 533	Basic SCUBA	3
MARI 705	Introduction to Marine Policy: Understanding US Ocean, Coastal and Great Lakes Policy	3
MARI 730	Research Diving Technologies	4
MARI 735	Advanced SCUBA	4

In addition, students are encouraged to become involved in a research project, either by working in a professor's laboratory or by participating in the Undergraduate Ocean Research Project (TECH 797 Undergraduate Ocean Research Project).

## Neuroscience and Behavior (NSB)

Neuroscience is one of the fastest-growing scientific fields, and the discoveries that are being made today are having an immediate and significant impact on our society. The importance of understanding animal behavior is likewise increasing, particularly in the face of a rapidly-changing environment. The B.S. in Neuroscience and Behavior is a great way for students to combine interests in neurobiology and animal behavior. The curriculum prepares students for various post-graduate degrees, including medical, veterinary, and graduate school, and we offer students a variety of opportunities to get hands-on research experience.

## Animal Behavior Minor

<https://colsa.unh.edu/biological-sciences/program/minor/animal-behavior>

## Description

This minor is designed for students who are interested in learning more about animal behavior, including the mechanisms that underlie behaviors and the evolutionary forces that may have shaped them. Students will also gain practical skills in the methods used to study animal behavior in laboratory and field settings.

## Requirements

Students must earn a grade of C- or better in all courses taken for the minor. No more than 8 credits taken for the minor may be used toward a student's major.

Code	Title	Credits
Required		
ZOOL 613W	Animal Behavior	5
Electives		
Minimum of 15 additional credits; At least two of the four electives must come from the Category I list below; the remaining courses may be from either Category I or Category II.		
Category I:		
MEFB 714	Field Animal Behavior	4
NSB 727	Animal Communication	4
PSYC 720	Animal Cognition	4
ZOOL 726	Conservation Behavior	4
ZOOL 733W	Behavioral Ecology	0 or 4
ZOOL 736	Genes and Behavior	4
ZOOL 740	Acoustic Ecology	4
ZOOL 777W	Neuroethology	4
ZOOL 795	Independent Investigations in Zoology	1-4
Category II:		
AAS 421	Large Animal Behavior and Handling Techniques	2
BIOL 720	Plant-Animal Interactions	4
BMS 718	Mammalian Physiology	4
PSYC 512	Psychology of Primates	4
ZOOL 625	Principles of Animal Physiology	3
ZOOL 690	Evolution	4

# Neuroscience and Behavior Major (B.S.)

<https://colsa.unh.edu/biological-sciences/program/bs/neuroscience-and-behavior-major>

## Description

The major in neuroscience and behavior (NSB) offers an interdisciplinary approach to human and non-human behavior, focusing on the evolution and adaptiveness of certain behaviors, as well as their underlying neural mechanisms. Students who have always been fascinated by how the brain functions will be well served by this major, as will those who love wild animals and wish to better understand their behavior. The B.S. in neuroscience and behavior is based on a solid foundation in biology, chemistry, physics, statistics, and genetics (foundation courses). These are followed by a two-semester course sequence that covers the fundamentals of neuroscience and behavior. Students can then pick five or more electives focusing on areas of interest.

NSB students are encouraged to take advantage of research experiences in the laboratories of the psychology and biology faculty in the program. This provides valuable experience with cutting-edge equipment and techniques. Some students may share aspects of a larger project, whereas others may be relatively independent and design their own project under supervision. In either case, important skills are gained by the discipline of gathering data, analyzing and interpreting it, and presenting it to a broader audience.

The curriculum provides most of the requirements and recommended courses for students seeking admission to graduate school and to professional schools in medicine and veterinary medicine. Students who might choose not to go on to advanced degrees are well-prepared for employment as skilled technicians in research laboratories or, if their interests are in animal behavior, as field research assistants or animal trainers. With additional courses in education, the B.S. in NSB also qualifies graduates to teach at the elementary, junior high, and high school levels.

Faculty participating in the NSB major combine a love of teaching and student mentoring with a passion for research, and encourage student participation. Research facilities that students can use include the Integrative Animal Behavior and Ecoacoustics laboratory, the confocal imaging center, the Hubbard Center for Genomic Studies, and the many marine, freshwater, and estuarine laboratories associated with UNH programs. Students can also take summer courses at the Shoals Marine Laboratory.

## Requirements

### Degree Requirements

**Minimum Credit Requirement:** 128 credits

**Minimum Residency Requirement:** 32 credits must be taken at UNH

**Minimum GPA:** 2.0 required for conferral\*

**Core Curriculum Required:** Discovery & Writing Program Requirements

**Foreign Language Requirement:** No

All Major, Option and Elective Requirements as indicated.  
\*Major GPA requirements as indicated.

### Major Requirements

Students majoring in NSB are required to take foundation courses in basic science, core courses, and five electives from an extensive list of courses, including some offered by other departments including biochemistry, molecular and cellular biology, and natural resources. Minimum grade of D- or better is required in CHEM 403, CHEM 404, CHEM 545/CHEM 546, and PHYS 401; minimum grade of C- or better is required in all other courses. Finally, a capstone experience is required. This may be independent research, an advanced seminar, or other special student activity. It is meant to integrate prior experience and take the student to a new level in an area of special interest.

Code	Title	Credits
NSB Foundation courses		
NSB 400	Topics Neuroscience & Behavior	1
BIOL 411 & BIOL 412	Introductory Biology: Molecular and Cellular and Introductory Biology: Evolution, Biodiversity and Ecology (2 semesters)	8
CHEM 403 & CHEM 404	General Chemistry I and General Chemistry II (2 semesters)	8

ZOOL 613W	Animal Behavior	

PSYC 741W	Special Topics (Fundamentals of Substance Abuse, Neurobiology of Spatial Cognition, Fundamentals of Cognitive Science, Neuroscience of Memory, Behavioral Neuroscience, Science of Daydreaming C)
ZOOL 625 & ZOOL 626W	Principles of Animal Physiology and Animal Physiology Laboratory (C) <sup>1</sup>
ZOOL 690	Evolution
ZOOL 726	Conservation Behavior (C)
ZOOL 733W	Behavioral Ecology
ZOOL 736	Genes and Behavior (C)
ZOOL 777W	Neuroethology
795/796 or 799 Independent Study, (C) <sup>2</sup>	
Capstone <sup>3</sup>	
Total Credits	69-71

<sup>1</sup> Both must be taken to count as one of the 5 required major electives

<sup>2</sup> One experience totaling at least 4 credits, but can be earned over the course of two consecutive semesters provided the experience is with the same research mentor. Can only substitute for one elective.

<sup>3</sup> Courses that are eligible to fulfill the Capstone requirement are indicated with a (C) and must be taken senior year. You can: 1) designate a course as a Capstone course, with additional requirements as determined by the instructor; 2) complete one semester of Capstone Research (BIOL 795, PSYC 795, or INCO 790); 3) do an honors thesis in Neuroscience and Behavior (NSB 799H) or Biology or Psychology (BIOL 799H or PSYC 797/PSYC 799) or; 4) participate in an alternative activity with approval from the student's academic advisor.

NSB majors may use BIOL 411, BIOL 412, CHEM 403, CHEM 404, PHYS 401, PHYS 407 and either PSYC 402 or BIOL 528 to fulfill the Biological Sciences, Physical Sciences, Discovery Lab, and Quantitative Reasoning Discovery requirements. Students transferring into the NSB program from other UNH majors must hold a cumulative GPA of at least 3.2 at the time of requested major change.

## Student Learning Outcomes

Students demonstrate that they understand basic principles of neuroscience and behavior.

- Apply the core principles of biology, chemistry, physics, and statistics to more advanced concepts in neuroscience and behavior.
- Apply the principles of evolution and genetics to understand how genotype and phenotype affect the structure and function of animal nervous systems and behavior.
- Describe the basic features of animal nervous system development, organization, signaling, integration, and higher-level processing, and how these are altered in diseases of the nervous system.
- Explain the four levels of analysis emphasized in modern animal behavior research: causation, development, function, and evolution.
- Describe molecular and cellular approaches to the study of brain structure, function, and development, as well as behavioral and cognitive neuroscience approaches to studying higher level brain functions.

Students demonstrate that they can undertake scientifically valid methods of inquiry.

- Apply appropriate research methods, laboratory techniques, and statistical methods to investigate scientific questions in neuroscience and behavior.

Students demonstrate that they can think critically and analytically.

- Read and critique primary research literature related to the nervous system, how nervous system function generates behavior, and how behavior addresses fitness-related challenges across a diversity of species.

Students demonstrate that they can communicate effectively.

- Demonstrate scientific writing skills, and proficiency in delivering oral presentations related to both the primary literature and findings from student investigations in neuroscience and behavior.

Students practice science responsibly and ethically, and acknowledge the influence of cultural and historical biases in the sciences.

## Nutrition (NUTR)

Nutrition is the study of how nutrients and food components function at molecular, cellular, and whole-body levels to impact human health and disease. Students are grounded in fundamental sciences as they develop nutrition-specific competencies in nutrition and health, foods, nutritional assessment, wellness, life cycle nutrition, and/or metabolic biochemistry.

The nutrition program prepares students for entry-level positions in health care, education, or the biotechnology industry, or entry into post-baccalaureate professional programs such as dietetic internship, medical school, dental school, or graduate school. Nutrition faculty have expertise in clinical nutrition, sports nutrition, and food science, as well as assessing risk factors of chronic disease risk (i.e. obesity, diabetes, cardiovascular, cognitive) in diverse populations (pediatric, young adult, older adult). Undergraduate students actively participate in ongoing research projects in these areas. The College Health and Nutrition Assessment Survey (CHANAS) is one resource that supports nutrition research at the University of New Hampshire.

Students pursuing the B.S. degree in Nutrition choose from one of three areas of specialization: Dietetics, Nutrition and Wellness, or Nutritional Sciences options:

The curriculum for the Dietetics option is accredited by the Academic Council for Education in Nutrition and Dietetics (ACEND) of the Academy of Nutrition and Dietetics (AND). Students who complete the B.S. in Nutrition with the Dietetics option are eligible to apply for a dietetic internship, a prerequisite for becoming a registered dietitian.

Students who complete the Nutrition and Wellness option are prepared for jobs in agencies or businesses that have an emphasis on health and wellness, including schools, fitness centers, and non-profit or community organizations.

Students in the Nutritional Sciences option most often enroll in a post-graduate educational degree program (e.g., medical school, graduate school, physician assistant program, etc.) or enter the biomedical/biotechnology workplace.

## Pre-Professional Health Programs

Students interested in postgraduate careers in the health care professions should visit UNH's Pre-Professional Health Programs Advising Office. Requirements for specific types of professional schools (e.g., medical, dental, physician assistant, pharmacy, etc.) are also provided by the [Pre-Professional Health Advising Office](#). While many of the prerequisite courses required by professional schools are also requirements of the Nutrition major, you should consult with your faculty

adviser to create a plan of study that best prepares you for pursuing a career in one of these health professions.

<https://colsa.unh.edu/agriculture-nutrition-food-systems>

## Programs

- [Nutrition Major \(B.S.\)](#) (p. 372)

## Faculty

<https://colsa.unh.edu/agriculture-nutrition-food-systems/faculty-staff-directory>

## Nutrition Major (B.S.)

<https://colsa.unh.edu/agriculture-nutrition-food-systems/program/bs/nutrition-major>

## Description

Nutrition is the study of food, the nutrients found in food, and the body's metabolism of these nutrients to maintain and promote health. Nutrition is an interdisciplinary science based on biochemistry and physiology, but also integrates sociology, psychology, molecular biology, and genetics.

Students have three curriculum options within the major to pursue a bachelor's degree in nutrition. The option is declared within the nutrition major after their second semester in the program. Options include:

- **Dietetics option** - is the first step to becoming a registered dietitian. The Didactic Program in Dietetics (DPD) curriculum is accredited by The Accreditation Council for Education in Nutrition and Dietetics (ACEND). It prepares you for a dietetic internship.
- **Nutrition and Wellness option** - provides a foundation in chemistry, anatomy, physiology and microbiology and includes courses on stress, wellness and exercise science. Students gain real-world experience providing hands-on nutrition and health guidance.
- **Nutritional Sciences option** - provides a comprehensive background in biology, chemistry, physiology, nutrition, biochemistry and physics, and includes courses on nutritional assessment, life cycle nutrition, nutrition and health, and careers in nutrition.

The program prepares students for success by offering real-world learning opportunities throughout the curriculum. These opportunities include applied research, field experiences, internships, community engagement, and study abroad offerings. Our diverse group of faculty are dedicated to student success in and outside of the classroom. Coursework supports diverse postgraduate pathways including dietetic internships, allied health programs, medical and dental schools and graduate school. The rigorous curriculum is designed to offer a science-based foundation and foster critical-thinking and strong communication skills for future professional success of our students.

## Requirements

### Degree Requirements

**Minimum Credit Requirement:** 128 credits

**Minimum Residency Requirement:** 32 credits must be taken at UNH

**Minimum GPA:** 2.0 required for conferral\*

**Core Curriculum Required:** Discovery & Writing Program Requirements

**Foreign Language Requirement:** No

All Major, Option and Elective Requirements as indicated.

\*Major GPA requirements as indicated.

### Major Requirements

Students take 16-18 credits per semester. All students complete foundational courses in the sciences, nutrition core courses, and additional option-specific requirements as noted in the program descriptions (i.e. Dietetics, Nutrition and Wellness, and Nutritional Sciences). Discovery Program requirements (including the Inquiry requirement in the first two years) and elective courses are taken as well.

Code	Title	Credits
NUTR courses:		
NUTR 400	Nutrition in Health and Well Being	4
NUTR 401	Professional Perspectives on Nutrition	1
NUTR 476	Nutritional Assessment	4
NUTR 650	Life Cycle Nutrition	4
Foundation courses:

BMS 508	Human Anatomy and Physiology II	4
SOC 400	Introductory Sociology	4
or PSYC 401	Introduction to Psychology	
Statistics course		4

## Student Learning Outcomes

Student Learning Outcomes are outlined within the Nutrition Major program options pages, see:

- Nutrition: Dietetics Option (B.S.)
- Nutrition: Nutrition and Wellness Option (B.S.)
- Nutrition: Nutritional Sciences Option (B.S.)

## Nutrition Major: Dietetics Option (B.S.)

<https://colsa.unh.edu/agriculture-nutrition-food-systems/program/bs/nutrition-major-dietetics-option>

## Description

Nutrition is the study of how nutrients and food components function at molecular, cellular, and whole-body levels to impact human health and disease. Students are grounded in fundamental sciences as they develop nutrition-specific competencies in nutrition and health, foods, nutritional assessment, wellness, life cycle nutrition, and/or metabolic biochemistry.

The nutrition program prepares students for entry-level positions in health care, education, research, or the biotechnology industry, or entry into post-baccalaureate professional programs. Nutrition faculty have expertise in clinical nutrition, sports nutrition, telehealth, epidemiology, and food science, as well as assessing risk factors of chronic disease risk (i.e. obesity, diabetes, cardiovascular, cognitive) in diverse populations (pediatric, young adult, older adult).

The curriculum for the Dietetics option is accredited by the Academic Council for Education in Nutrition and Dietetics (ACEND) of the Academy of Nutrition and Dietetics (AND). Students who complete the B.S. in Nutrition with the Dietetics option are eligible to apply for a dietetic internship, a prerequisite for becoming a registered dietitian.

### Dietetics Capstone Experience

One capstone experience, supervised and approved within the major, is required of all seniors. The capstone explores areas of interest based on the integration of prior learning. The capstone requirement for Dietetics students is satisfied through the completion of NUTR 720 Community Nutrition or NUTR 780 Critical Issues in Nutrition during their senior year.

Both NUTR 720 and NUTR 780 are required courses; one of these courses must be taken during the student's senior year to fulfill the university's capstone requirement.

<b>Total Credits</b>	<b>128-132</b>

- Demonstrate cultural humility, awareness of personal biases and an understanding of cultural differences as they contribute to diversity, equity, and inclusion.
- Describe contributing factors to health inequity in nutrition and dietetics including structural bias, social inequities, health disparities and discrimination.
- Participate in a nutrition and dietetics professional organization and explain the significant role of the organization.
- Defend a position on issues impacting the nutrition and dietetics profession.
- Use the Nutrition Care Process and clinical workflow elements to assess nutritional parameters, diagnose nutrition related problems, determine appropriate nutrition interventions and develop plans to monitor the effectiveness of these interventions.
- Develop an educational session or program/educational strategy for a target population.
- Demonstrate counseling and education methods to facilitate behavior change and enhance wellness for diverse individuals and groups.
- Practice routine health screening assessments, including measuring blood pressure and conducting waived point-of-care laboratory testing (such as blood glucose or cholesterol).
- Describe concepts of nutritional genomics and how they relate to medical nutrition therapy, health, and disease.
- Develop nutritionally sound meals, menus and meal plans that promote health and disease management and meet client's/patient's needs.
- Apply management theories to the development of programs or services.
- Evaluate a budget/financial management plan and interpret financial data.
- Demonstrate an understanding of the regulation system related to billing and coding, what services are reimbursable by third party payers, and how reimbursement may be obtained.
- Apply the principles of human resource management to different situations.
- Apply safety and sanitation principles related to food, personnel, and consumers.
- Explain the processes involved in delivering quality food and nutrition services.
- Evaluate data to be used in decision-making for continuous quality improvement.
- Perform self-assessment that includes awareness in terms of learning and leadership styles and cultural orientation and develop goals for self-improvement.
- Identify and articulate one's skills, strengths, knowledge and experiences relevant to the position desired and career goals.
- Practice how to self-advocate for opportunities in a variety of settings (such as asking for needed support, presenting an elevator pitch).
- Practice resolving differences or dealing with conflict.
- Promote team involvement and recognize the skills of each member.
- Demonstrate an understanding of the importance and expectations of a professional in mentoring and precepting others.

## Student Learning Outcomes

- Demonstrate how to locate, interpret, evaluate and use professional literature to make ethical, evidence-based practice decisions.
- Select and use appropriate current information technologies to locate and apply evidence-based guidelines and protocols.
- Apply critical thinking skills.
- Demonstrate effective and professional oral and written communication and documentation.
- Describe the governance of nutrition and dietetics practice, such as the Scope of Practice for the Registered Dietitian Nutritionist and the Code of Ethics for the Profession of Nutrition and Dietetics.
- Assess the impact of a public policy position on nutrition and dietetics practice.
- Discuss the impact of health care policy and different health care delivery systems on food and nutrition services.
- Identify and describe the work of interprofessional teams and the roles of others with whom the registered dietitian nutritionist collaborates.

# Nutrition Major: Nutrition and Wellness Option (B.S.)

<https://colsa.unh.edu/agriculture-nutrition-food-systems/program/bs/nutrition-major-nutrition-wellness-option>

## Description

Nutrition is the study of how nutrients and food components function at molecular, cellular, and whole-body levels to impact human health and disease. Students are grounded in fundamental sciences as they develop nutrition-specific competencies in nutrition and health, foods, nutritional assessment, wellness, life cycle nutrition, and/or metabolic biochemistry.

The nutrition program prepares students for entry-level positions in health care, education, research, or the biotechnology industry, or entry into post-baccalaureate professional programs. Nutrition faculty have expertise in clinical nutrition, sports nutrition, telehealth, epidemiology, and food science, as well as assessing risk factors of chronic disease risk (i.e. obesity, diabetes, cardiovascular, cognitive) in diverse populations (pediatric, young adult, older adult).

Students who complete the Nutrition and Wellness option are prepared for jobs in agencies or businesses that have an emphasis on health and wellness, including schools, fitness centers, and non-profit or community organizations.

## Nutrition Major: Nutritional Sciences Option (B.S.)

<https://colsa.unh.edu/agriculture-nutrition-food-systems/program/bs/nutrition-major-nutritional-sciences-option>

### Description

Nutrition is the study of how nutrients and food components function at molecular, cellular, and whole-body levels to impact human health and disease. Students are grounded in fundamental sciences as they develop nutrition-specific competencies in nutrition and health, foods, nutritional assessment, wellness, life cycle nutrition, and/or metabolic biochemistry.

The nutrition program prepares students for entry-level positions in health care, education, research, or the biotechnology industry, or entry into post-baccalaureate professional programs. Nutrition faculty have expertise in clinical nutrition, sports nutrition, and food science, as well as assessing risk factors of chronic disease risk (i.e. obesity, diabetes, cardiovascular, cognitive) in diverse populations (pediatric, young adult, older adult), and populations that are underrepresented in research.

Students in the Nutritional Sciences option most often enroll in a post-graduate educational degree program (e.g., medical school, graduate school, physician assistant program, etc.) or enter the biomedical/ biotechnology workplace.

Student Learning Outcomes

- Locate, interpret, evaluate and use professional literature to make ethical, evidence-based conclusions and decisions.
- Apply critical thinking skills.
- Deliver effective and professional oral and written communication.
- Demonstrate cultural humility, awareness of personal biases and an understanding of cultural difference they contribute to diversity, equity, and inclusion.
- Articulate the nutritional requirements for various populations across the lifespan.
- Explain macronutrient and micronutrient metabolism.
- Demonstrate an understanding of the scientific method and how it is used to generate knowledge in nutrition science.

Nutrition Minor

<https://colsa.unh.edu/agriculture-nutrition-food-systems/program/minor/nutrition>

Description

The nutrition minor is particularly suited to students interested in pursuing professional careers related to human health and wellness.

Students declare the nutrition minor by submitting the [Intent to Minor in Nutrition](#) form online, preferably prior to the start of their junior year. Submission of the Intent to Minor form is required to gain registration preference in certain courses if space is available and by discretion of the instructor. To complete the minor, students submit a [Certification of Completion of Minor](#) form during their final semester at UNH.

Requirements

The minor consists of a minimum of 20 credits, no more than 8 of which can also be used to fulfill major requirements. A C average (2.00) is required in courses that the minor department approves; a grade of C-minus or better is required in all courses to be counted toward the minor. Courses taken on a Pass/Fail basis may not be used for a minor.

Code	Title	Credits

Culinary Nutrition and Food Studies Minor

<https://colsa.unh.edu/agriculture-nutrition-food-systems/program/minor/culinary-nutrition-food-studies>

Description

The Culinary Nutrition & Food Studies Minor provides students the ability to explore the foundation of nutritional sciences and gain a practical appreciation of the culinary arts while building an understanding of our food environment & culture as it applies to human health. The Minor offers students hands-on learning experiences in culinary arts and the flexibility to incorporate study abroad coursework via the UNH in Italy program.

The Minor may be of interest to students preparing for future careers in allied health or health promotion and who recognize the growing need for training in culinary nutrition. Dietitians, physicians, wellness coaches, nurses, and other health care providers with strong culinary skills will likely be better equipped to empower clients to choose and prepare healthier food choices.

## Requirements

Requirements for the Culinary Nutrition & Food Studies Minor (20 credits).

Code	Title	Credits
<b>Required Core Courses</b>		<b>8</b>
NUTR 400	Nutrition in Health and Well Being	
NUTR 403	Culinary Arts Skills Development	
<b>Food Studies Electives - Select two courses:</b>		<b>8</b>
NUTR 405	Food and Society	
NUTR 525	Food and Culture in Italy	
NUTR 530	Critical Analysis in Food Studies	
NUTR 550	Food Science: Principle and Practice	
HMG 570	International Food and Culture	
HMG 771	International Wine and Beverage	
NUTR 730	From Seed to Sea: Examining Sustainable Food Systems	
SAFS 415	Introduction to Brewing Art and Science	
SAFS 620	Food Systems & Community Resilience	
<b>Culinary Nutrition Practicum</b>		<b>4</b>
NUTR 628	Culinary Nutrition Practicum	

## Sustainable Agriculture and Food Systems (SAFS)

The sustainable agriculture and food systems (SAFS) program offers a flexible curriculum to students seeking integrated knowledge and experiences in modern agricultural and food systems to prepare for varied careers in these fields.

Students in this program will obtain knowledge in a variety of topics including sustainable agricultural practices, the science and management of working landscapes, locally produced foods, value-added agricultural products, and the promotion of healthy eating through sustainable food production and food policies. SAFS graduates will be prepared to pursue careers in a wide range of fields including the production of food, fiber, and agricultural services; management and marketing of agricultural operations; management of working lands, landscapes and ecosystems; agriculture/food/nutrition/natural resources-related research; policy-making; and other current and emerging professions.

The program offers both a bachelor of science (B.S.) degree and a bachelor of arts (B.A.) degree. The B.A. degree offers more flexibility to take courses from a variety of disciplines or pursuing a dual degree, second major, or minor. The B.S. degree best serves those seeking a strong foundation in scientific and technical knowledge and/or who envision pursuing an advanced degree.

## Sustainable Agriculture and Food Systems Major (B.A.)

<https://colsa.unh.edu/agriculture-nutrition-food-systems/program/ba/sustainable-agriculture-food-systems-major>

## Description

The Sustainable Agriculture & Food Systems B.A. provides students with a broad base of knowledge and experiences with modern agriculture and food systems. Sustainable Agriculture and Food Systems is an interdisciplinary field comprising the social, physical, and life sciences and beyond. Agriculture is key to solving many of the major challenges facing the world, such as producing food to meet the needs of an ever-growing population while conserving land, water, and soil resources.

Our students get hands-on experience in applied coursework, and we encourage our students to conduct research alongside faculty. Our students become practitioners and entrepreneurs of agricultural and food businesses, researchers and policy-makers at state/federal agencies and non-profit organizations, laboratory technicians, and agricultural educators. Some go on to obtain advanced degrees in the agricultural sciences.

## Requirements

### Degree Requirements

**Minimum Credit Requirement:** 128 credits

**Minimum Residency Requirement:** 32 credits must be taken at UNH

**Minimum GPA:** 2.0 required for conferral\*

**Core Curriculum Required:** Discovery & Writing Program Requirements

**Foreign Language Requirement:** Yes

All Major, Option and Elective Requirements as indicated.

\*Major GPA requirements as indicated.

### Major Requirements

The SAFS B.A. program structure includes FOUR major components: foundation courses, courses in a student-designed emphasis area, program elective courses, and a capstone. You must earn a minimum grade of C- in all courses required for the major.

**Foundation** courses include 36 credits, which satisfy 5 of the University Discovery requirements.

**Student-Designed Emphasis** courses include 20 credits that make up a cohesive emphasis or focus area. Courses may be selected from the *List of Approved Program Electives*, but do not need to be on that list. Each student will define their emphasis area in consultation with their advisor

and submit it to the SAFS program committee for approval prior to the start of their 6<sup>th</sup> semester.

**Program Elective** courses include 16 credits, chosen from the *List of Approved Program Elective* courses.

A **Capstone** experience must take place during the senior year. There are two capstone options: SAFS 733 Advanced Topics in Sustainable Agriculture or ANSC 750 Collaborative Farm Design and Development. Your capstone *MAY NOT* be counted towards elective or emphasis credits.

Of the Student-Designed Emphasis and Program Elective courses, **at least 16 credits (not counting the capstone) must be earned at the 600-700 level.**

Code	Title	Credits
<b>B.A. Foundation Courses</b>		<b>36</b>
ANSC 421	Introduction to Animal Science	4

## University Requirements

In addition to meeting the SAFS major requirements, students must satisfy all University requirements including those that pertain to the minimum number of credits, grade-point average, writing-intensive courses, the Discovery Program, and foreign language (only for B.A. students).

## Student Learning Outcomes

- Students will demonstrate a working understanding of the interdisciplinary nature of agriculture and food systems and the basic principles underpinning sustainability including: economic viability, environmental stewardship, social responsibility, and the trade-offs between competing metrics of sustainability.
- Students will demonstrate in-depth knowledge, critical thinking and analysis, and effective written communication in a self-declared area of emphasis within the program.
- Students will gain an applied understanding of agriculture and food system sustainability by engaging in an experiential education opportunity.
- Students will be able to independently interpret, evaluate, and engage with research in the agricultural sciences, including its biological, physical, social, and/or economic aspects.

## Sustainable Agriculture and Food Systems Major (B.S.)

<https://colsa.unh.edu/agriculture-nutrition-food-systems/program/bs/sustainable-agriculture-food-systems-major>

## Description

The Sustainable Agriculture and Food Systems B.S. provides students with a strong foundation in biological sciences and a broad base of knowledge and experiences with modern agriculture and food systems. Sustainable Agriculture and Food Systems is an interdisciplinary field comprising the social, physical, and life sciences and beyond. Agriculture is key to solving many of the major challenges facing the world, such as producing food to meet the needs of an ever-growing population while conserving land, water, and soil resources.

Our students get hands-on experience in applied coursework, and we encourage our students to conduct research alongside faculty. Our students become practitioners and entrepreneurs of agricultural and food businesses, researchers and policy-makers at state/federal agencies

and non-profit organizations, laboratory technicians, and agricultural educators. Some go on to obtain advanced degrees in the agricultural sciences.

## University Requirements

In addition to meeting the SAFS major requirements, students must satisfy all University requirements including those that pertain to the

minimum number of credits, grade-point average, writing-intensive courses, and the Discovery Program.

## Student Learning Outcomes

- Students will demonstrate a working understanding of the interdisciplinary nature of agriculture and food systems and the basic principles underpinning sustainability including: economic viability, environmental stewardship, social responsibility, and the trade-offs between competing metrics of sustainability.
- Students will demonstrate in-depth knowledge, critical thinking and analysis, and effective written communication in a self-declared area of emphasis within the program.
- Students will gain an applied understanding of agriculture and food system sustainability by engaging in an experiential education opportunity.
- Students will be able to independently interpret, evaluate, and engage with research in the agricultural sciences, including its biological, physical, social, and/or economic aspects.

## Brewing Minor

<https://colsa.unh.edu/agriculture-nutrition-food-systems/program/minor/brewing>

### Description

Through completion of the brewing minor, students will gain a well-rounded knowledge of the brewing industry to complement their major field of study. This series of courses will encompass all aspects of beer brewing from agricultural production of raw ingredients to quality control and distribution of the final product. Undergraduates in any major field of study may minor in brewing.

Brewing is unique in that it requires a balanced knowledge of math, science, engineering, and business as well as an understanding of how and why the product plays an important role in society and culture. With this minor, you will learn how to integrate various fields of study together, a skill which can be applied to any career. You will also gain specific skills and knowledge for the brewing industry.

## Requirements

### Minor Requirements

- Complete 5 courses with a minimum of 20 credits from the courses listed below, with a grade of C- or better.
- No more than 8 credits used to satisfy major requirements may be used for the minor.
- Pass/Fail courses may not be used for the minor.

Code	Title	Credits

<sup>1</sup> MGT 520 Topics in Management - fulfills this elective requirement.

<sup>2</sup> HIST 425 Foreign Cultures: Beer in World History

## Horticulture Minor

<https://colsa.unh.edu/agriculture-nutrition-food-systems/program/minor/horticulture>

### Description

By completing the minor in horticulture, students will gain knowledge of several aspects of horticultural production systems. The required course provides theoretical and applied knowledge in plant science. Students will get more in-depth knowledge by taking additional coursework focused on botany, various crop production systems, or integrated pest management strategies.

Our horticulture students study the science and art of cultivating plants, and the many ways that plants enhance the human experience. The cultivation of fruits, vegetables and ornamental plants is key to solving many of the major challenges facing the world; such as producing food to meet the needs of an ever-growing population while conserving land, water, and soil resources. An understanding of these challenges and potential solutions can enhance any career. A minor in horticulture may complement any major field of study.

Interested students should contact Andrew Ogden in the Department of Agriculture, Nutrition, and Food Systems, (603) 862-4893.

## Sustainable Agriculture and Food Systems Minor

<https://colsa.unh.edu/agriculture-nutrition-food-systems/program/minor/sustainable-agriculture-food-systems>

### Description

By pursuing a minor in Sustainable Agriculture and Food Systems (SAFS), students will gain knowledge of several aspects of agricultural systems. The required course provides an introduction to sustainable and organic agriculture practices, including an array of strategies to sustainably manage soil, nutrient, water, and genetic resources. Students will get more in-depth knowledge of additional aspects of sustainable agriculture by taking additional coursework focused on agricultural production, management, and/or policy.

Sustainable Agriculture and Food Systems encompasses a mixture of the natural sciences, social sciences, and business skills, plus much more. Agriculture is key to solving many of the major challenges facing the world; such as producing food to meet the needs of an ever-growing population while conserving land, water, and soil resources. An understanding of these challenges and potential solutions can enhance any career. Undergraduates in any major field of study (except SAFS) may minor in Sustainable Agriculture and Food Systems.

During the student's final semester, the student must fill out a Certification of Completion of Minor form and obtain the signatures of the student's major advisor, minor advisor, and the student's Dean's Office.

Total Credits	

20

<sup>1</sup> Electives - 16 credits of elective coursework, 8 credits must be at the 600/700 level, selected from the courses listed.

Students are encouraged to discuss their intent to minor with the minor advisor as early as possible, typically no later than the end of the junior year. Not all classes are offered every year.

## Sustainable Energy

- [Sustainable Energy Minor](#) (p. 384)

## Sustainable Energy Minor

<https://colsa.unh.edu/natural-resources-environment/program/minor/sustainable-energy>

### Description

The Minor in Sustainable Energy provides the flexibility and focus that allows for students to expand their exposure to the topic within the context of their own major. The goal of the program is to match the developing nature of the field with the skills needed to understand sustainable energy in the greater context of its opportunities and challenges. Courses in the minor will build on existing competencies and create an experience that provides an exposure to new the perspectives and conceptual framework that is at the core of the developing field of sustainable energy.

### Objectives

The objectives of the Minor in Sustainable Energy are to provide students with the educational experience necessary to participate in one of the fastest growing fields of employment. Coupled with an ability to focus on meaningful employment, is our challenge to confront a changing climate; students will be given an opportunity to be a part of the solution.

### Curriculum and Requirements

The curriculum and requirements for the minor are based on exposure to three competencies that reflect the exposure necessary to grasp the basic understanding of sustainable energy:

- Technical – Requires a basic understanding of the grid, energy flow, energy usage and the technologies of efficiency, generation and management of energy and generation sources.
- Economics and Finance – Requires a basic understanding of utility structure, energy markets and utility rate-making. An additional focus includes the business aspect of financing and projecting the cost-effectiveness of energy generation sources and fuels – including the development of innovative business models for deploying sustainable energy.
- Policy – Requires a basic understanding in policy-making and implementation, including a historic perspective of our utilities, incentives and subsidies and their impact on market forces. An additional focus includes the policy impacts of aspects related to sustainable energy deployment, including, interconnection, net metering and feed in tariffs and tax incentives.

### Contact Information

Students with questions about the minor or who would like more information should contact Dr. Julia Novak Colwell ([julia.colwell@unh.edu](mailto:julia.colwell@unh.edu)) in the Department of Natural Resources and the Environment.

## Requirements

Code	Title	Credits
<b>Required Courses</b>		<b>11-12</b>
Introduction:		
NR 507	Introduction to our Energy System and Sustainable Energy	
Critical Thinking:		
NR 606	International Energy Topics	
or CEE 705	Introduction to Sustainable Engineering	
Competency:		
NR 787	Advanced Topics in Sustainable Energy	
<b>Select at least one course from each of the following categories:</b>		<b>7-8</b>
Technology/Engineering Category:		
CHBE 410	Energy and Environment	
CEE 520	Environmental Pollution and Protection: A Global Context	
CEE 719	Green Building Design	
Social & Economic Policy Category:		
NR 602	Natural Resources and Environmental Policy	
CEP 673	Green Real Estate	
EREC 572	Introduction to Natural Resource Economics	
SOC 565	Environment and Society	
TOUR 767	Social Impact Assessment	
NR 606	International Energy Topics	
<b>Total Credits</b>		<b>18-20</b>

- Students must earn a grade of C- or better in order for a course to be counted for credit toward the minor.
- No pass/fail graded course shall count toward the minor.
- Up to 8 credits can be used to satisfy both major and minor requirements.
- Appropriate course substitutes from other study-abroad programs may also be used with permission.

## Tourism Management

### Programs

- [Tourism Management Minor](#) (p. 385)

## Tourism Management Minor

<https://colsa.unh.edu/natural-resources-environment/program/minor/tourism-management>

### Description

"Tourism" is the world's largest and most diverse industry. Tourism is a composite of activities, services, and industries delivering travel experiences through transportation, accommodations, eating and drinking establishments, shops, entertainment, activity facilities (parks, sports, and amusement parks), historic sites, natural resources, among others.

The faculty of Recreation Management and Policy [RMP], Hospitality Management [HMG], and Natural Resources and the Environment [NRE]

Tourism [Tour] have bundled a number of courses for non-majors which, when combined with certain elective courses, can constitute a Minor in Tourism Management. Each of the courses offered for this minor are already offered in each of the three departments. These programs represent the three Colleges of College of Health and Human Services, Peter T. Paul College of Business and Economics, and the College of Life Science and Agriculture.

### Questions about the minor may be directed to:

Recreation Management and Policy – Dr. Bob Barcelona, [Bob.Barcelona@unh.edu](mailto:Bob.Barcelona@unh.edu)

Tourism Management – Dr. Rob Robertson, [Rob.Robertson@unh.edu](mailto:Rob.Robertson@unh.edu)

Hospitality Management – Dr. Markus Schuckert, [Markus.Schuckert@unh.edu](mailto:Markus.Schuckert@unh.edu) ([markus.schuckert@unh.edu](mailto:markus.schuckert@unh.edu))

Approval of the Minor for Graduation, verification and sign-off must be coordinated with Dr. Rob Robertson.

## Requirements

- For the minor students must complete 20 credits (five courses) with a grade of C- or better and a 2.0 grade point average.
- Courses taken on a Pass/Fail basis may not be used toward the minor.
- No more than 8 credits used by the student to satisfy major requirements may be used for the minor.
- No transfer courses may be used toward the minor.
- The courses may be taken in any order, and students are responsible for checking pre-requisites for the elective courses.
- Courses taken during study abroad maybe considered as part of the minor; prior approval of an advisor is required.

Code	Title	Credits
<b>Required Courses</b>		
TOUR 400	Introduction to Tourism	4
HMG 401	Introduction to the Hospitality Industry	4
RMP 490	Recreation & Tourism in Society	4
Select Two additional courses. The remaining two courses for the minor may be used to focus studies in an area of interest. One course must be and experiential learning course.		8
Areas of interest, with sample courses, include:		
<i>Lodging and Resort Management</i>		
HMG 681	Contemporary Resort Development and Management	
HMG 570	International Food and Culture (Experiential Learning Course)	
HMG 554	Lodging Operations Management	
HMG #682	Private Club Management

RMP 560	Recreational Sport Management	
TOUR 767	Social Impact Assessment	
<i>International Travel and Tourism</i>		
HMG 570	International Food and Culture (Experiential Learning Course)	
TOUR 510	Tourism and Global Understanding (Experiential Learning Course)	
EREC 444	The New Pirates of the Caribbean	
ECOG 401	Introduction to Ecogastronomy	
TOUR 767	Social Impact Assessment	
HMG #756	International Franchising	
RMP 711	Recreation Resource Management	
<b>Total Credits</b>		<b>20</b>

# Wildlife and Conservation Biology

The Wildlife & Conservation Biology major provides students with the knowledge and tools to study, conserve, and manage wildlife and their habitats.

Our students combine science with their passion for nature and the outdoors. Our courses emphasize hands-on experience and place fundamental principles within an applied context. Students are encouraged to conduct research alongside faculty, and faculty actively assist students in obtaining internships.

Our students become research biologists and resource managers at state/federal agencies and non-profit organizations, conservation law officers, and environmental educators. Many go on to obtain an advanced degree.

# Wildlife and Conservation Biology Major (B.S.)

<https://colsa.unh.edu/natural-resources-environment/program/bs/wildlife-conservation-biology-major>

## Description

The Wildlife & Conservation Biology major provides students with the knowledge and tools to study, conserve, and manage wildlife and their habitats.

Our students combine science with their passion for nature and the outdoors. Our courses emphasize hands-on experience and place fundamental principles within an applied context. Students are encouraged to conduct research alongside faculty, and faculty actively assist students in obtaining internships.

Our students become wildlife biologists and resource managers at state/federal agencies and non-profit organizations, conservation law officers, and environmental educators. Many go on to obtain an advanced degree.

## Requirements

### Degree Requirements

**Minimum Credit Requirement:** 128 credits

**Minimum Residency Requirement:** 32 credits must be taken at UNH

**Minimum GPA:** 2.0 required for conferral\*

**Core Curriculum Required:** Discovery & Writing Program Requirements

**Foreign Language Requirement:** No

All Major, Option and Elective Requirements as indicated.

\*Major GPA requirements as indicated.

## Major Requirements

In addition to the Wildlife and Conservation Biology degree requirements (below), students must complete the University Discovery Program and the University Writing Requirements. Given the flexibility of this major, students may also complete a minor or dual major in a second area of interest, or apply for certification by The Wildlife Society.

Code	Title	Credits
Required Courses		
NR 433	Wildlife Ecology	4
BIOL 411	Introductory Biology: Molecular and Cellular	4
BIOL 412	Introductory Biology: Evolution, Biodiversity and Ecology	4
NR 425	Field Dendrology	4

NR 658	Introduction to Geographic Information Systems	4
BIOL 528	Applied Biostatistics I	4
Discovery Elective		4
Animal Morphology, Evolution and Ecology Elective		4
<b>Credits</b>		<b>18</b>

### Third Year

#### Fall

NR 615	Wildlife Habitats	4
ENGL 501	Introduction to Creative Nonfiction	4
ZOOL 690	Evolution	4
or ZOOL 690W	or Evolution	
Discovery Elective		4
<b>Credits</b>		<b>16</b>

#### Spring

NR 602	Natural Resources and Environmental Policy	4
NR 650	Principles of Conservation Biology	4
Discovery Elective		4
Elective		4
<b>Credits</b>		<b>16</b>

### Fourth Year

#### Fall

NR 642	Introduction to Biogeography	4
NR 740	Inventory and Monitoring of Ecological Communities	4
Elective		4
Elective		4
<b>Credits</b>		<b>16</b>

#### Spring

NR 640	Wildlife Population Ecology	4
NR 750	Sustaining Biological Diversity	4
Elective		4
Animal Morphology, Evolution and Ecology Elective		4
<b>Credits</b>		<b>16</b>
<b>Total Credits</b>		<b>129</b>

## Student Learning Outcomes

Students will:

- Understand the ecological and societal value of biodiversity, sustainability, and environmental stewardship;
- learn/understand ecological concepts and fundamental principles and techniques to manage and conserve wildlife habitat and populations;
- know the taxonomy, ecology, and natural history of the majority of native flora and fauna in New England;
- locate, evaluate, and summarize information from both print and electronic media relevant to wildlife and conservation biology issues;
- effectively communicate scientific information in written and oral formats;

- master mathematical, statistical, and study design knowledge and skills, and use state-of-the-art software, hardware, and analytical techniques relevant to wildlife and conservation biology;
- be familiar with a variety of natural resource laws and regulations;
- understand how to integrate relevant social sciences and human dimensions approaches to address wildlife and conservation biology issues as part of multidisciplinary teams.

## Wildlife and Conservation Biology Minor

<https://colsa.unh.edu/natural-resources-environment/program/minor/wildlife-conservation-biology>

### Description

The minor in Wildlife and Conservation Biology serves as a concentrated study, beyond a student's primary major, that allows students to explore their interest in wildlife ecology and conservation and their passion for nature and the outdoors.

### Requirements

Students interested in a minor in Wildlife and Conservation Biology must complete a minimum of 5 courses and 20 credits. Up to 8 credits can be used to satisfy both major and minor requirements. A maximum of 2 EcoQuest courses may be used to satisfy requirements. Appropriate course substitutes from other study-abroad programs may also be used with permission.

Code	Title	Credits
<b>Category 1</b>		<b>4</b>
NR 433 or NR 650	Wildlife Ecology <sup>1,2,6</sup> Principles of Conservation Biology	
<b>Category 2</b>		
Select one of the following:		4
NR 425	Field Dendrology	
NR 506	Forest Entomology	
NR 712	Mammalogy	
MEFB 628	Marine Invertebrate Evolution and Ecology	
ZOOL 542	Ornithology	
ZOOL 566	Herpetology	
ZOOL 710	Sharks and Bony Fishes	
<b>Category 3</b>		
Remaining 12 credits may be chosen from the following:		12
NR 615	Wildlife Habitats <sup>2,3</sup>	
NR 640	Wildlife Population Ecology <sup>2</sup>	
NR 642 or NR 603	Introduction to Biogeography <sup>3</sup> Landscape Ecology	
NR 650	Principles of Conservation Biology <sup>1,2,6</sup>	
NR 664	Conservation Genetics and Applied Evolution	
NR 713	Quantitative Ecology	
NR 734	Tropical Ecology	
NR 740	Inventory and Monitoring of Ecological Communities <sup>2,4</sup>	
NR #765	Community Ecology <sup>3</sup>	
NR 795	Investigations <sup>5</sup>	
ZOOL 613W or ZOOL 733W	Animal Behavior Behavioral Ecology	
<b>Total Credits</b>		<b>20</b>

<sup>1</sup> NR 661 is considered an appropriate equivalent for NR 650.

- <sup>2</sup> Enrollments are capped and admission is not guaranteed to those pursuing a minor.
- <sup>3</sup> NR 603 (at UNH-EcoQuest) can be used as a replacement for one of these courses in Category 3: NR 603, NR 615, NR 642, or NR #765.
- <sup>4</sup> NR 663 (at UNH-EcoQuest) is considered an appropriate equivalent for NR 740.
- <sup>5</sup> NR 795 requires working with an individual WCB faculty member on a special problem/issue.
- <sup>6</sup> NR 650 can only count towards *either* Category 1 *or* Category 3 (but not both).

## Zoology (ZOOL)

Zoology is a field within the biological sciences that is dedicated to the study of animals: their classification, evolution, and development along with their habits, behaviors, and relationships. The zoology majors (B.S. and B.A.) build on the core biology curriculum by including courses in comparative morphology, physiology, and a wide selection of animal survey classes. In the Bachelor of Science degree program, you will take a series of foundational courses in biology, chemistry, physics, statistics, and ecology while having the flexibility to specialize within the major and/or the pursuance of a minor. The Bachelor of Arts degree in zoology is designed as a flexible program, allowing you to pursue an interdisciplinary or dual major for a career in fields such as education, conservation, and public relations.

The University's location and facilities provide unique opportunities for the study of aquatic and terrestrial animals due to its access to the seacoast and the lakes region of New Hampshire, White Mountain National Forest, and the presence of two coastal marine laboratories, as well as estuarine and freshwater facilities. There is a strong teaching and research emphasis on ecological and physiological processes in aquatic animals and ecosystems. Major strengths of the program are the hands-on approach to teaching and emphasis on involving undergraduates in research.

<https://colsa.unh.edu/biological-sciences>

### Programs

- [Zoology Major \(B.A.\)](#) (p. 388)
- [Zoology Major \(B.S.\)](#) (p. 390)
- [Zoology Minor](#) (p. 392)

### Faculty

<https://colsa.unh.edu/biological-sciences/people>

## Zoology Major (B.A.)

<https://colsa.unh.edu/biological-sciences/program/ba/zoology-major>

### Description

Built upon the common background of the biology core curriculum, the Bachelor of Arts (B.A.) in Zoology is designed for students to create an interdisciplinary or dual major, particularly if they want to pursue public relations, teaching, or other careers in combination with a liberal arts background. Students have more flexibility when choosing courses from

the biology core and may enter this program as freshmen or transfer in from other liberal arts or science programs.

## New England Regional Student Program

The bachelor's degree in zoology is one of the specialized curricula recognized by the New England Board of Higher Education and participates in the New England Regional Student Program. Please refer to the Tuition Break Online Database for a list of eligible New England States.

## General Science Certification

See [Department of Education](#)

## Requirements

### Degree Requirements

**Minimum Credit Requirement:** 128 credits

**Minimum Residency Requirement:** 32 credits must be taken at UNH

**Minimum GPA:** 2.0 required for conferral\*

**Core Curriculum Required:** Discovery & Writing Program Requirements

**Foreign Language Requirement:** Yes

All Major, Option and Elective Requirements as indicated.

*\*Major GPA requirements as indicated.*

### Major Requirements

Minimum grade of D# or better is required in CHEM 411, PHYS 401, and MATH 424B (if taken); minimum grade of C# or better is required in all other courses. ZOOL 600, BIOL 695, ZOOL 795, or ZOOL 799H may substitute for one elective with academic advisor approval, but only if taken for at least four credits. These four credits may be spread over multiple semesters if they are consecutive and with the same faculty mentor. Students must fulfill a foreign language requirement in lieu of one advanced elective.

Code	Title	Credits
<b>Core Curriculum Courses</b>		
BIOL 411	Introductory Biology: Molecular and Cellular	4

<sup>1</sup> A single course cannot be used for both a core requirement and an elective (e.g., ZOOL 542 cannot be used to fulfill the animal survey requirement and as an elective).

<sup>2</sup> A 600, 695, 795, or 799 experience may substitute for one elective with academic advisor approval, but only if taken for at least four credits. These four credits may be spread over multiple semesters if they are consecutive and with the same faculty mentor

## Capstone Experience

As part of the University of New Hampshire's Discovery Program requirements, all students must complete a capstone experience during their senior year (after earning at least 90 credits). **The capstone experience for students majoring in Biology consists of BOTH (1) an approved individual experience AND (2) the successful completion of the BIOL 780 Capstone Companion Course.** Students will not be approved for graduation until capstone certification has been granted.

### 1) The individual experience

The individual experience may be satisfied through various forms of experiential learning (e.g., Honors thesis, mentored research project, internship) or a course denoted with a "(C)" in the courses listed above. The individual experience must fulfill **at least one** of the University's capstone criteria:

- synthesizes and applies disciplinary knowledge and skills
- fosters reflection on undergraduate learning and experience
- demonstrates emerging professional competencies
- applies, analyzes, and/or interprets research, data, or artistic expression
- explores areas of interest based on the integration of the prior learning

**Before beginning any capstone individual experience, students MUST SUBMIT A COMPLETED CAPSTONE APPROVAL FORM to their Program Coordinator.**

Students can obtain this form on the Department's Capstone page or from their Program Coordinator. Here they will describe their proposed individual experience and how it fulfills at least one of the University's capstone criteria listed above. If the student is selecting a "C" course for their individual experience, they should obtain the course syllabus from the instructor for information about the course's content and learning objectives.

### 2) Enrollment in BIOL 780 Capstone Companion Course

Students will also be required to enroll in BIOL 780 (1 cr.) **during the semester of their individual experience.** BIOL 780 is offered every Fall and Spring semester.

- If the individual experience is a two-semester thesis, BIOL 780 should be taken during the second semester.
- If the individual experience occurs during the summer (e.g., internship), BIOL 780 should be taken during the Fall semester that immediately follows.
- Note: Because BIOL 780 is not offered during the summer, students cannot complete their individual experience during the summer *and graduate during that same August*. Summer experiences could only be

used as individual capstone experiences if completed the summer before the student's senior year.

## Student Learning Outcomes

Students demonstrate that they understand basic principles of Zoology.

- Understand the biodiversity and ecological roles of selected animal taxa.
- Demonstrate understanding of animal physiology and structure at the cellular and organismal levels.
- Describe and apply key principles and mechanisms of evolution and genetics.
- Comprehend the relationship between organisms and their environments.

Students demonstrate that they can undertake scientifically valid methods of inquiry.

- Demonstrate proficiency in searching, reading, and understanding scientific literature.

Students demonstrate that they can think critically and analytically.

- Analyze and present data using appropriate quantitative and graphical tools.

Students demonstrate that they can communicate effectively.

- Develop effective written and oral communication skills for conveying scientific information effectively to a wide audience.

Students practice science responsibly and ethically, and acknowledge the influence of cultural and historical biases in the sciences.

## Zoology Major (B.S.)

<https://colsa.unh.edu/biological-sciences/program/bs/zoology-major>

### Description

The Bachelor of Science (B.S.) in Zoology builds from the common background of the biology core curriculum to provide ample time for third- and fourth-year students to concentrate in specialized disciplines such as marine and freshwater biology, behavior, cell and developmental biology, ecology, evolution, fisheries, physiology, and neurobiology while giving students the foundation from which they can specialize in the area of zoology. Undergraduate students are encouraged to conduct field or lab-based research which helps determine advanced education disciplines for graduate studies. Many students ultimately work in the government, environmental agencies, education as well as agricultural, pharmaceutical, and biotechnology industries, where they conduct advanced research and/or teaching. Zoology majors had the second highest income and lowest unemployment rate according to data from the 2016 U.S. Census Bureau's American Community Survey.

### New England Regional Student Program

The bachelor's degree in zoology is one of the specialized curricula recognized by the New England Board of Higher Education and participates in the New England Regional Student Program. Please refer

to the Tuition Break Online Database for a list of eligible New England States.

## Requirements

## Degree Requirements

**Minimum Credit Requirement:** 128 credits

**Minimum Residency Requirement:** 32 credits must be taken at UNH

**Minimum GPA:** 2.0 required for conferral\*

**Core Curriculum Required:** Discovery & Writing Program Requirements

**Foreign Language Requirement:** No

All Major, Option and Elective Requirements as indicated.

*\*Major GPA requirements as indicated.*

## Major Requirements

Minimum grade of D# or better is required in CHEM 403, CHEM 404, CHEM 545, CHEM 546, PHYS 401, PHYS 402, and MATH 424B (if taken); minimum grade of C# or better is required in all other courses. ZOOL 600, BIOL 695, ZOOL 795, or ZOOL 799H may substitute for one elective with academic advisor approval, but only if taken for at least four credits. These four credits may be spread over multiple semesters if they are consecutive and with the same faculty mentor.

Code	Title	Credits
<b>Core Curriculum Courses</b>		
BIOL 411	Introductory Biology: Molecular and Cellular	4
BIOL 412	Introductory Biology: Evolution, Biodiversity and Ecology	4
BIOL 528	Applied Biostatistics I	4
BIOL 541W	Ecology	0 or 4
BMCB 658A	General Biochemistry	3
CHEM 403	General Chemistry I	4
CHEM 404	General Chemistry II	4
CHEM 545 & CHEM 546	Organic Chemistry and Organic Chemistry Laboratory	5
GEN 604 or ANSC 612	Principles of Genetics Genetics of Animals	4
MATH 424B or BIOL 633 or BIOL 711	Calculus for Life Sciences Data Analysis for Life Science Experimental Design & Analysis	4
PHYS 401	Introduction to Physics I	4
PHYS 402	Introduction to Physics II	4
ZOOL 400	Professional Perspectives in Zoology	1
ZOOL 518	Comparative Morphology and Biology of Vertebrates	4
ZOOL 625 & ZOOL 626W	Principles of Animal Physiology and Animal Physiology Laboratory	5
ZOOL 690	Evolution	4
Capstone		
BIOL 780	Capstone Companion Course	1
<b>Zoology Electives</b>		
Animal Survey Courses (Choose 1)		4-5
ZOOL 542	Ornithology	
ZOOL 555	Introduction to Entomology	
ZOOL 566	Herpetology	
MEFB 628	Marine Invertebrate Evolution and Ecology	
ZOOL 710	Sharks and Bony Fishes	
NR 712	Mammalogy	
<b>Electives</b> <sup>1</sup>		
Select three courses <sup>1</sup>		
BIOL 695	Biology Teaching Practices	1-4

BIOL 706	Data Science with R for the Life Sciences	4
BIOL 720	Plant-Animal Interactions (C)	4
BMS 718	Mammalian Physiology	4
BMS 503/504	General Microbiology	3
MEFB 503	Introduction to Marine Biology	0 or 4
MEFB 504	Field Wildlife Forensics	2
MEFB 510	Field Ornithology	4
MEFB 628	Marine Invertebrate Evolution and Ecology	5
MEFB 717	Lake Ecology	4
MEFB 755	Biological Oceanography	3
MEFB 772	Fisheries Biology: Conservation and Management	4
MEFB 773	Physiology of Fishes	4
NR 615	Wildlife Habitats	4
NR 640	Wildlife Population Ecology	4
NR 642	Introduction to Biogeography	4
NR 650	Principles of Conservation Biology	4
NR 712	Mammalogy	4
NSB 705	Molecular and Cellular Neurobiology (C)	4
NSB 727	Animal Communication (C)	4
NSB #728	Research Methods in Animal Behavior	4
TECH 797	Undergraduate Ocean Research Project <sup>2</sup>	2
ZOOL 529	Developmental Biology	0 or 4
ZOOL 542	Ornithology	0 or 4
ZOOL 555	Introduction to Entomology	4
ZOOL 613W	Animal Behavior	5
ZOOL 566	Herpetology	4
ZOOL 600	Field Experience <sup>3</sup>	1-4
ZOOL 708	Stream Ecology	4
ZOOL 710	Sharks and Bony Fishes	0 or 4
ZOOL 726	Conservation Behavior (C)	4
ZOOL 733W	Behavioral Ecology (C)	0 or 4
ZOOL 736	Genes and Behavior (C)	4
ZOOL 740	Acoustic Ecology	4
ZOOL 770	Senior Seminar in Zoology	2
ZOOL 777W	Neuroethology (C)	4
ZOOL 795	Independent Investigations in Zoology <sup>3</sup>	1-4
ZOOL 799H	Honors Senior Thesis	1-4
<b>Shoals Courses:</b>		
MEFB 500	Coastal Habitat Field Research Methods	4
MEFB 505	Introduction to Applied Science Communication	4
MEFB 506	Marine Parasitology and Disease	4
MEFB 510	Field Ornithology	4
MEFB 530	Evolution and Marine Diversity	4
MEFB 535	Marine Mammal Biology	4
MEFB #630	Biodiversity and Biology of Marine Invertebrates	4
MEFB 674	Ecology and Marine Environment	4
MEFB 702	Sustainable Marine Fisheries	4
MEFB 714	Field Animal Behavior	4
MEFB 730	Underwater Research	4
MEFB 741	Sharks: Biology and Conservation	4
MEFB 751	Research in Marine Biology	4
MEFB 754	Anatomy and Function of Marine Vertebrates	4
<b>Study Abroad Courses:</b>		
NR 660	Ecology and Biogeography of New Zealand	5
NR 661	Restoration Ecology and Ecosystem Management in New Zealand	4
NR 662	Environmental Policy, Planning and Sustainability in New Zealand	3
NR 663	Applied Directed Research in New Zealand	4

<sup>1</sup> A single course cannot be used for both a core requirement and an elective (e.g., ZOOL 542 cannot be used to fulfill the animal survey requirement and as an elective).

<sup>2</sup> This class requires enrollment in both fall and spring sections, 2 credits/semester for a total of 4 credits.

<sup>3</sup> A 600, 695, 795, or 799 experience may substitute for one elective with academic advisor approval, but only if taken for at least four credits. These four credits may be spread over multiple semesters if they are consecutive and with the same faculty mentor.

## Capstone Experience

As part of the University of New Hampshire’s Discovery Program requirements, all students must complete a capstone experience during their senior year (after earning at least 90 credits). **The capstone experience for students majoring in ZOOLOGY BS consists of BOTH (1) an approved individual experience AND (2) the successful completion of the BIOL 780 Capstone Companion Course.** Students will not be approved for graduation until capstone certification has been granted.

### 1) The individual experience

The individual experience may be satisfied through various forms of experiential learning (e.g., Honors thesis, mentored research project, internship) or a course denoted with a “(C)” in the courses listed above. The individual experience must fulfill **at least one** of the University’s capstone criteria:

- synthesizes and applies disciplinary knowledge and skills
- fosters reflection on undergraduate learning and experience
- demonstrates emerging professional competencies
- applies, analyzes, and/or interprets research, data, or artistic expression
- explores areas of interest based on the integration of the prior learning

**Before beginning any capstone individual experience, students must submit a completed capstone approval form to their Program Coordinator.**

Students can obtain this form on the Department’s Capstone page or from their Program Coordinator. Here they will describe their proposed individual experience and how it fulfills at least one of the University’s capstone criteria listed above. If the student is selecting a “C” course for their individual experience, they should obtain the course syllabus from the instructor for information about the course’s content and learning objectives.

### 2) Enrollment in BIOL 780 Capstone Companion Course

Students will also be required to enroll in BIOL 780 Capstone Companion Course **during the semester of their individual experience.** BIOL 780 is offered every Fall and Spring semester.

- If the individual experience is a two-semester thesis, BIOL 780 should be taken during the second semester.
- If the individual experience occurs during the summer (e.g., internship), BIOL 780 should be taken during the Fall semester that immediately follows.
- Note: Because BIOL 780 is not offered during the summer, students cannot complete their individual experience during the summer *and graduate during that same August.* Summer experiences could only be used as individual capstone experiences if completed the summer before the student’s senior year.

## Student Learning Outcomes

Students demonstrate that they understand basic principles of Zoology.

- Understand the biodiversity and ecological roles of selected animal taxa.
- Demonstrate understanding of animal physiology and structure at the cellular and organismal levels.
- Describe and apply key principles and mechanisms of evolution and genetics.
- Comprehend the relationship between organisms and their environments.

Students demonstrate that they can undertake scientifically valid methods of inquiry.

- Demonstrate proficiency in searching, reading, and understanding scientific literature.

Students demonstrate that they can think critically and analytically.

- Analyze and present data using appropriate quantitative and graphical tools.

Students demonstrate that they can communicate effectively.

- Develop effective written and oral communication skills for conveying scientific information effectively to a wide audience.

Students practice science responsibly and ethically, and acknowledge the influence of cultural and historical biases in the sciences.

## Zoology Minor

<https://colsa.unh.edu/biological-sciences/program/minor/zoology>

### Description

The Zoology Minor is designed to provide a general introduction to animals and their ecology, while requiring in-depth knowledge of the diversity of at least one group (Animal Survey Course), a course dealing with animal structure, behavior, or physiology, and an additional animal-focused course of the student’s choice.

### Requirements

The Zoology minor requires five courses.

Code	Title	Credits
<b>Required:</b>		
BIOL 412	Introductory Biology: Evolution, Biodiversity and Ecology	4
<b>Select ONE from Category I (Animal Survey):</b>		<b>4-5</b>
MEFB 628	Marine Invertebrate Evolution and Ecology	5
MEFB 510	Field Ornithology	4
NR 712	Mammalogy	4
ZOOL 542	Ornithology	4
ZOOL 555	Introduction to Entomology	4
ZOOL 566	Herpetology	4
ZOOL 710	Sharks and Bony Fishes	4
<b>Select TWO from Category II (Animal Form, Function, Development &amp; Behavior):</b>		<b>4-5</b>
ZOOL 518	Comparative Morphology and Biology of Vertebrates	0 or 4

ZOOL 529	Developmental Biology	0 or 4
ZOOL 625	Principles of Animal Physiology	3
BMS 718	Mammalian Physiology	4
MEFB 773	Physiology of Fishes	4
NSB 727	Animal Communication	4
ZOOL 613W	Animal Behavior	5
ZOOL 690	Evolution	4
ZOOL 736	Genes and Behavior	4
<b>Select ONE from Category III (Ecology):</b>		<b>4-5</b>
BIOL 541W	Ecology	0 or 4
MEFB 717	Lake Ecology	4
MEFB 741	Sharks: Biology and Conservation	4
MEFB 772	Fisheries Biology: Conservation and Management	4
NR 660	Ecology and Biogeography of New Zealand	5
NR 661	Restoration Ecology and Ecosystem Management in New Zealand	4
ZOOL 708	Stream Ecology	4
ZOOL 733W	Behavioral Ecology	0 or 4
ZOOL 740	Acoustic Ecology	4

College of Life Sciences and Agriculture students: two courses in the major may be used toward the minor, as long as selected from the courses listed above.

## College of Professional Studies (CPS)

**Mike Decelle**, Dean

**Tamara Von George**, Associate Dean of Academic Affairs - College of Professional Studies Online

**TBA**, Associate Dean of Academic Affairs - College of Professional Studies Manchester

**Lisa Enright**, Assistant Dean of Student Success - College of Professional Studies Manchester

**Carina Self**, Assistant Dean of Academic Engagement and Assessment - College of Professional Studies Online

The University of New Hampshire College of Professional Studies expands access to students seeking a world-class UNH education, both online and on campus. Bringing together career-driven programs, outstanding faculty talent, and top-ranked online learning solutions, we prepare students for success in their chosen field — and connect them to the wealth of opportunities in the region.

The college features two divisions: Online and Manchester.

The Online division offers online undergraduate, post-baccalaureate, graduate, and certificate programs. The Manchester division offers in-person and hybrid undergraduate, post-baccalaureate, and both in-person and online graduate and certificate programs. Both divisions offer continuing and professional education in collaboration with UNH Extension.

### Faculty

The College of Professional Studies faculty is its greatest asset. Faculty members—both online and in-person—have earned reputations for excellent teaching, scholarly achievement in their fields, and service to the community. They are recognized scholars and have acquired national and international reputations. Adjunct faculty members bring applied experience and a commitment to teaching to the classroom. Most importantly, the college's dedicated faculty members are outstanding teachers who care about each individual student.

<https://cps.unh.edu/>

## Divisions

Manchester (p. 394)

Online (p. 457)

## Manchester

Welcome to the Manchester division of the College of Professional Studies, the university's campus in the heart of the Merrimack Valley. Our mission is to provide the world-class UNH education and degree in the state's business hub.

Here, we capitalize on our location in the revitalized millyard of New Hampshire's largest city. Our campus on the banks of the Merrimack River is a few blocks from the heart of the state's financial and corporate center and home to many of the region's non-profit and government offices. Led by faculty who are experts in their fields, our career-driven programs prepare students for the opportunities of tomorrow in the region's business, education, biotechnology, government, nonprofit, service and technology sectors.

We are uniquely equipped to support regional economic development, creating a campus environment in which students, faculty, business/industry, government and nonprofits collaborate on mutually beneficial projects and initiatives. As a community partner, we have a commitment to the region's economic vitality, respond to educational and economic opportunities and support innovation and student access to programs designed and delivered for the future.

Bringing together career-driven programs, faculty talent and a focus on experiential learning, the Manchester division of CPS prepares students for success in their chosen field — and connects them to the wealth of opportunities in the region and beyond.

### Accreditation

The University of New Hampshire at Manchester was established in 1985 as the sixth undergraduate college of the University of New Hampshire. UNH Manchester merged with Granite State College in 2023 to form the UNH College of Professional Studies, which expands online offerings across UNH and enhances support of online and on campus learners in the state and region. The University of New Hampshire is accredited by the New England Commission of Higher Education (formerly the Commission on Institutions of Higher Education of the New England Association of Schools and Colleges, Inc.), which accredits schools and colleges in the six New England states. Accreditation indicates that the institution has been carefully reviewed and found to meet or exceed standards agreed upon by nationally recognized educators.

### Faculty

The Manchester faculty is our greatest asset. Residential faculty members have earned reputations for excellent teaching, scholarly achievement in their fields and service to the community. They are recognized scholars and have acquired national and international reputations for their expertise. Adjunct faculty members bring applied experience and a commitment to teaching to the classroom. Most importantly, our dedicated faculty are not just teachers—they are mentors who are invested in the success of each student. Faculty members work closely with students as advisers to help define their goals, plan career objectives and develop an individualized program of study within their major to prepare them for success after graduation.

## Analytics and Data Science

With an explosion of big data initiatives in organizations worldwide, the demand for data-savvy individuals has never been higher. Our Analytics and Data Science programs are specifically designed to prepare the next generation of innovative data scientists and analysts.

The Analytics and Data Science programs in the Applied Engineering and Sciences Department at UNH Manchester prepare students with cutting-edge technical skills they need to manage, distill, and interpret data for all economic sectors, from finance to healthcare to marketing and advertising. Through experiential learning that include real-world course projects, internship experiences, and capstone courses, students master programming languages and techniques using modern platforms to derive actionable information from data.

## Analytics and Data Science Major: Analytics Option (B.S.) Manchester

<https://manchester.unh.edu/program/bs/analytics-data-science-major-analytics-option>

## Description

The option in Analytics is intended for students interested in either heading into industry immediately upon graduation, or pursuing graduate work in a professionally oriented program at UNH. The option in Analytics places its emphasis on applications of data science in industry.

This program has been designed to prepare students for professional careers working with data, with an emphasis on the extraction of meaning from data. The program is not targeted to any one industry; rather, it provides a flexible, practical skillset that can be applied widely. This skillset includes elements of computer science, applied mathematics and statistics, communication skills, and business savvy. During the course of the program, students will demonstrate their acquisition of these skills by successfully completing their program coursework, their internship experience, and their capstone project.

For additional information, contact program coordinator Jeremiah Johnson ([Jeremiah.Johnson@unh.edu](mailto:Jeremiah.Johnson@unh.edu)) or the UNH Manchester Office of Admissions ([unhm.admissions@unh.edu](mailto:unhm.admissions@unh.edu)), (603) 641-4150.

## Requirements

### Degree Requirements

**Minimum Credit Requirement:** 128 credits

**Minimum Residency Requirement:** 32 credits must be taken at UNH

**Minimum GPA:** 2.0 required for conferral\*

**Core Curriculum Required:** Discovery & Writing Program Requirements

**Foreign Language Requirement:** No

All Major, Option and Elective Requirements as indicated.

\*Major GPA requirements as indicated.

### Major Requirements

Successful completion of the program entails earning at least 128 credits, meeting the requirements of the University's Discovery program, completing all of the 21 required courses in the major as listed below, including the capstone course, the internship preparedness course, and an internship. In all major courses, the minimum allowable grade is a C-. The minimum overall GPA for graduation is 2.0. Transfer students may transfer up to a maximum of 32 credits to satisfy major requirements (not counting those courses used to satisfy Discovery requirements).

Code	Title	Credits
<b>Mathematics</b>

## Student Learning Outcomes

Analytics and Data Science focuses on the extraction of meaning from data through the application of computer science, mathematics and business domain knowledge. Within a few years of obtaining a bachelor's degree in Analytics and Data Science, our alumni will have:

- Engaged in successful career areas of analytics and data science and will already have, or be pursuing, advanced degrees in Analytics, Data Science, Computer Science, Mathematics or related fields
- Applied the full range of core Data Science concepts and techniques to fill the analytics needs of an organization
- Communicated effectively with diverse stakeholders as well as functioned appropriately in a team environment
- Navigated the complex interconnections between data, computing technology, and the goals and constraints of the organization served
- Understood the pervasive and changing role of data in global society, and participated responsibly as both an Analytics and Data Science professional and citizen

## Analytics and Data Science Major: Data Science Option (B.S.) Manchester

<https://manchester.unh.edu/program/bs/analytics-data-science-major-data-science-option>

## Description

The option in Data Science is intended for students interested in pursuing advanced degrees and conducting original research in data science. The option in data science places its emphasis on a rigorous introduction to the theoretical mathematical and computational underpinnings of modern data science.

During the course of the program, students will demonstrate their acquisition of these skills by successfully completing their program coursework, their internship experience, and their capstone project.

For additional information about the Analytics and Data Science: Data Science Option, contact program coordinator [Jeremiah Johnson](mailto:Jeremiah.Johnson@unh.edu) ([Jeremiah.Johnson@unh.edu](mailto:Jeremiah.Johnson@unh.edu)) or the [UNH Manchester Office of Admissions](#) ([unhm.admissions@unh.edu](mailto:unhm.admissions@unh.edu)) at (603) 641-4150.

CS 420	Foundations of Programming for Digital Systems	4
<b>Credits</b>		<b>16</b>
<b>Second Year</b>		
<b>Fall</b>		
MATH 645	Linear Algebra for Applications	4
MATH 531	Mathematical Proof	4
COMP 625 or CS 515	Data Structures and Algorithms or Data Structures and Introduction to Algorithms	4
ENGL 502	Professional and Technical Writing	4
<b>Credits</b>		<b>16</b>
<b>Spring</b>		
COMP 570 or MATH 644	Statistics in Computing and Engineering or Statistics for Engineers and Scientists	4
CS 659	Introduction to the Theory of Computation	4
MATH 528	Multidimensional Calculus	4
Discovery Course		4
<b>Credits</b>		<b>16</b>
<b>Third Year</b>		
<b>Fall</b>		
MATH 755	Probability with Applications	4
MATH 738	Data Mining and Predictive Analytics <sup>1</sup>	4
Minor Course		4
Discovery Course		4
<b>Credits</b>		<b>16</b>
<b>Spring</b>		
MATH 756	Principles of Statistical Inference	4

CS 750	Machine Learning <sup>1</sup>	4
CS 755	Computer Vision	4
Discovery Course		4
Credits		16
Fourth Year		
Fall		
CS 758	Algorithms	4
DATA #790	Capstone Project	4
Minor Course		
Discovery Course		
Credits		8
Spring		
Minor Course		4
Minor Course		4
Minor Course		4
Discovery Course		4
Credits		16
Total Credits		120

<sup>1</sup> Either MATH 738 and CS 750, or DATA 674 and DATA 675, or DATA 674 and CS 750.

## Student Learning Outcomes

Analytics and Data Science focuses on the extraction of meaning from data through the application of computer science, mathematics and business domain knowledge. Within a few years of obtaining a bachelor's degree in Analytics and Data Science, our alumni will have:

- Engaged in successful career areas of analytics and data science and will already have, or be pursuing, advanced degrees in Analytics, Data Science, Computer Science, Mathematics or related fields
- Applied the full range of core Data Science concepts and techniques to fill the analytics needs of an organization
- Communicated effectively with diverse stakeholders as well as functioned appropriately in a team environment
- Navigated the complex interconnections between data, computing technology, and the goals and constraints of the organization served
- Understood the pervasive and changing role of data in global society, and participated responsibly as both an Analytics and Data Science professional and citizen

## Analytics Minor (Manchester)

<https://manchester.unh.edu/program/minor/analytics>

### Description

The demand for data-savvy individuals has never been higher, and the analytics minor gives you an introduction to the tools you'll need for a career involving data science and analytics, focused on the application of data science in industry. In addition to courses in mathematics, computer science and analytics, you can study neural networks and big data. Combine this minor with a major in the sciences, computer science, business, marketing or social sciences to bring enhanced skills to your career or graduate studies. With the experience provided by this minor,

you'll gain a competitive advantage in this rapidly growing field. The objective of this minor is to provide a basic background in analytics for those interested in applications of data science.

For more information, contact [Jeremiah Johnson](mailto:Jeremiah.Johnson@unh.edu) ([Jeremiah.Johnson@unh.edu](mailto:Jeremiah.Johnson@unh.edu)), minor supervisor.

### Requirements

Students must complete five courses (20 credits) with a cumulative minimum grade point average of 2.0 and with no grade below a C- grade. Transfer course approval for the minor is limited to at most, two relevant courses successfully completed at another accredited institution, subject to syllabi review and approval. Some preparation in MATH 425 Calculus I and programming (COMP 424 Applied Computing 1: Foundations of Programming, CS 414 From Problems to Algorithms to Programs or CS 415 Introduction to Computer Science I) is required.

# Requirements<sup>1</sup>

Code	Title	Credits
DATA 557	Introduction to Data Science and Analytics	4
COMP 525	Data Structures Fundamentals	4
COMP 570	Statistics in Computing and Engineering	4
MATH 539	Introduction to Statistical Analysis	4
Select one of the following:		4
DATA 674	Predictive and Prescriptive Analytics I	
DATA 675	Predictive and Prescriptive Analytics II	
DATA 750	Neural Networks	
DATA #757	Mining Massive Datasets	
Total Credits		20

<sup>1</sup> See equivalent requirements for the minor if taken on the Durham campus

## Data Science Minor (Manchester)

<https://manchester.unh.edu/program/minor/data-science>

### Description

The objective of this minor is to provide a basic background in data science for those who are more interested in the theoretical underpinnings of analytics and data science.

For more information, contact [Jeremiah Johnson](mailto:Jeremiah.Johnson@unh.edu) ([Jeremiah.Johnson@unh.edu](mailto:Jeremiah.Johnson@unh.edu)), minor supervisor.

### Requirements

Students must complete five courses (20 credits) with a cumulative minimum grade point average of 2.0 and with no grade below a C- grade. Transfer course approval for the minor is limited to at most, two relevant courses successfully completed at another accredited institution, subject to syllabi review and approval. Some preparation in MATH 425 Calculus I and programming (COMP 424 Applied Computing 1: Foundations of Programming, CS 414 From Problems to Algorithms to Programs or CS 415 Introduction to Computer Science I) is required.

## Requirements

Code	Title	Credits
CS 515	Data Structures and Introduction to Algorithms	4
Select one of the following:		4
COMP 525	Data Structures Fundamentals	
CS 416	Introduction to Computer Science II	
Select three of the following: <sup>1</sup>		12
CS 730	Introduction to Artificial Intelligence	
CS 750	Machine Learning	
CS 753	Information Retrieval	
CS 775	Database Systems	
MATH 645	Linear Algebra for Applications	
MATH 736	Advanced Statistical Modeling	
MATH 738	Data Mining and Predictive Analytics	
MATH 739	Applied Regression Analysis	
DATA 750	Neural Networks	
DATA #757	Mining Massive Datasets	
<b>Total Credits</b>		<b>20</b>

<sup>1</sup> Must select at least one CS and one MATH course. Must select CS 750 Machine Learning or MATH 738 Data Mining and Predictive Analytics.

## ASL/English Interpreting Preparing skillful interpreters through interaction and immersion

In the nation's first accredited interpreting program and one of only 14 accredited programs in the country, you'll learn American Sign Language and the foundation of ASL/English interpreting from distinguished faculty, all of whom are native ASL signers and/or certified interpreters.

The demand for skilled interpreters is on the rise, with the Bureau of Labor Statistics projecting 18 percent growth in the interpreting field between 2016 and 2026. Our program prepares you to work with the Deaf community by teaching you the intricacies of American Sign Language and Deaf culture, as well as the skills you need to pursue a career as an ASL/English interpreter.

Members of the Deaf community are integrated with students into the learning experience, both inside and outside the classroom, which is a very unique feature of our ASL/English Interpreting program. During your senior year internship, you will be paired with a nationally certified mentor and use your interpretation and ASL skills within organizations throughout the state.

Our graduates have pursued careers in ASL/English interpreting, deaf education, rehabilitation, healthcare, audiology, social work, counseling and the media. From medicine to law, education to performing arts — your career opportunities as a bilingual and bicultural graduate are vast.

## American Sign Language and Deaf Studies Minor

<https://manchester.unh.edu/program/minor/american-sign-language-deaf-studies>

## Description

American Sign Language is a visual language that is predominately used by Deaf and hard of hearing communities in the United States and many parts of Canada. Developing fluency in American Sign Language and expertise in the community and culture provides a foundation for careers that work with the American Deaf community.

For more information, contact [Laurie Shaffer](mailto:Laurie.Shaffer@unh.edu) ([Laurie.Shaffer@unh.edu](mailto:Laurie.Shaffer@unh.edu)), minor supervisor.

## Requirements

To earn a minor in American Sign Language and Deaf Studies, students must complete 24 credits, with no individual grade lower than C-.

Code	Title	Credits
<b>Required Courses</b>		
ASL 435	American Sign Language I	4
ASL 436	American Sign Language II	4
INTR 438	A Socio-cultural Perspective on the Deaf Community	4
<b>Electives</b>		
Select three courses from the following:		12
ASL 531	American Sign Language III	
ASL 532	American Sign Language IV	
ASL 621	Advanced American Sign Language Discourse I	
ASL 622	Advanced American Sign Language Discourse II	
INTR 539	Comparative Linguistic Analysis for Interpreters	
<b>Total Credits</b>		<b>24</b>

## ASL/English Interpreting Major (B.S.)

<https://manchester.unh.edu/program/bs/aslenglish-interpreting-major>

## Description

The American Sign Language (ASL)/English Interpreting program at UNH Manchester is a specialized, in-depth program with a national reputation for quality. In 1999, the program became the first interpreting program in the country to be found in compliance with the National Interpreter Education Standards of the Conference of Interpreter Trainers (CIT). In 2007, the program became the first interpreting program in the nation to be accredited by the Commission on Collegiate Interpreter Education (CCIE), and, in 2017, the program became the first program to be re-accredited by CCIE. UNH Manchester also houses one of northern New England's most comprehensive collections of books and media materials on ASL/English Interpreting.

The program is guided by the premise that deaf people, as a linguistic minority, possess their own cultural values, literature, history, traditions,

and social conventions. Interpretation requires bilingual and bicultural competence in spoken English and American Sign Language. The ASL/English Interpreting program at UNH Manchester provides students with a strong theoretical foundation as generalists in ASL/English Interpreting and helps prepare students for either state-level interpreter screening or national Registry of Interpreters for the Deaf (RID) interpreter certification, depending on students' skill level and experience.

Graduates may go on to pursue specialty areas in interpretation or related fields of study.

Students who complete the bachelor of science degree in ASL/English Interpreting graduate with a varied and flexible academic base. Interpreting requires skills such as sustained powers of concentration, versatility in dealing with a variety of people and content areas, fast-thinking and excellent communication skills in the respective languages. Students seeking to become interpreters receive a foundation in American Sign Language, Deaf culture, and the interpreting process, and their programs of study often include elective courses examining specific specialized settings such as Healthcare or on special topics such as theater and translation. Students also gain a thorough grounding in the liberal arts through the University's Discovery program.

Graduates of the ASL/English Interpreting program may pursue careers in ASL/English interpreting, deaf education, rehabilitation, health care, audiology, social work, counseling, and the media. The program provides students with a varied and flexible academic base. Graduates are prepared for further study in such fields as psychology, communication, linguistics, sociology, and anthropology.

For more information, contact [Laurie Shaffer \(Laurie.Shaffer@unh.edu\)](mailto:Laurie.Shaffer@unh.edu), program director, or the [UNH Manchester Office of Admissions \(unhm.admissions@unh.edu\)](mailto:unhm.admissions@unh.edu) at (603) 641-4150.

## Requirements

### Degree Requirements

- Minimum Credit Requirement:** 128 credits
- Minimum Residency Requirement:** 32 credits must be taken at UNH
- Minimum GPA:** 2.0 required for conferral\*
- Core Curriculum Required:** Discovery & Writing Program Requirements
- Foreign Language Requirement:** No

All Major, Option and Elective Requirements as indicated.  
\*Major GPA requirements as indicated.

### Major Requirements

- Students must complete 64 credits in the major, 40 credits in the University's Discovery program, and 24 credits in elective courses.
- Students must complete 64 credits in the major with a grade of C or better. Students who earn less than a C on a particular course may repeat that course only once.
- Students must achieve a GPA of 2.5 or better in major courses and must pass both ASL 532 and INTR 630 with at least a B- (or successfully demonstrate competence in American Sign Language and consecutive interpretation, respectively).

- Transfer students must complete a minimum of eight ASL/English Interpreting courses at UNH Manchester.

Code	Title	Credits
Language Courses		
ASL 435	American Sign Language I	4
ASL 436	American Sign Language II	4
ASL 531	American Sign Language III	4
ASL 532	American Sign Language IV	4
ASL 621	Advanced American Sign Language Discourse I	4
ASL 622	Advanced American Sign Language Discourse II	4
Culture and Linguistics Courses		
INTR 438	A Socio-cultural Perspective on the Deaf Community <sup>1</sup>	4
INTR 539	Comparative Linguistic Analysis for Interpreters	4
Interpreting Courses		
INTR 430	Introduction to Interpretation	4
INTR 439	Ethics and Professional Standards for Interpreters	4
INTR 540	Translation	4
INTR 630	Consecutive Interpretation I	4
INTR 636	Consecutive Interpretation II	4
INTR 732	Simultaneous Interpretation	4
INTR 734	Field Experience and Seminar I	4
INTR 735	Field Experience and Seminar II	4
Total Credits		64

<sup>1</sup> ASL/English Interpreting majors cannot use this course to fulfill the SS Discovery Program requirement.

### Capstone Experience

The capstone experience in the bachelor of science degree program in ASL/English Interpreting is met by INTR 735 Field Experience and Seminar II, which is a senior-level course and the last in the sequence of courses required for the major. In addition, students participate in a research experience. Starting in INTR 636 Consecutive Interpretation II and continuing in INTR 732 Simultaneous Interpretation, students identify an area of interest, conduct a literature review, and design and complete a research project. At the end of INTR 732, students submit a completed paper and present on their findings. These courses meet the following two criteria of the capstone experience for this major:

- the capstone synthesizes and applies disciplinary knowledge and skills
- the capstone demonstrates emerging professional competencies.

## Degree Plan

### Sample Course Sequence

Course	Title	Credits
First Year		
Fall		
ASL 435	American Sign Language I	4
ENGL 401	First-Year Writing	4
INTR 438	A Socio-cultural Perspective on the Deaf Community	4
UMST 401	First Year Seminar	2
Discovery Course		4
Credits		18
Spring		
ASL 436	American Sign Language II	4

INTR 430	Introduction to Interpretation	4
Discovery Course		4
Quantitative Reasoning Course		4
<b>Credits</b>		<b>16</b>
<b>Second Year</b>		
<b>Fall</b>		
ASL 531	American Sign Language III	4
INTR 439	Ethics and Professional Standards for Interpreters	4
Discovery Course		4
Discovery Course		4
<b>Credits</b>		<b>16</b>
<b>Spring</b>		
ASL 532	American Sign Language IV	4
INTR 540	Translation	4
INTR 539	Comparative Linguistic Analysis for Interpreters	4
Discovery Course		4
<b>Credits</b>		<b>16</b>
<b>Third Year</b>		
<b>Fall</b>		
ASL 621	Advanced American Sign Language Discourse I	4
INTR 630	Consecutive Interpretation I	4
Discovery Course		4
Elective Course		4
<b>Credits</b>		<b>16</b>
<b>Spring</b>		
ASL 622	Advanced American Sign Language Discourse II	4
INTR 636	Consecutive Interpretation II	4
Discovery Course		4
Elective Course		4
<b>Credits</b>		<b>16</b>
<b>Fourth Year</b>		
<b>Fall</b>		
INTR 732	Simultaneous Interpretation	4
INTR 734	Field Experience and Seminar I	4
Elective Course		4
Elective Course		4
<b>Credits</b>		<b>16</b>
<b>Spring</b>		
INTR 735	Field Experience and Seminar II	4
Elective Course		4
Elective Course		4
Elective Course		4
<b>Credits</b>		<b>16</b>
<b>Total Credits</b>		<b>130</b>

## Student Learning Outcomes

- Development of language competency in both American Sign Language and English to foster entry into the field of interpreting.
- Development of competencies needed for meaning transfer.
- Development of skills for self-assessment for process and product of interpreting.
- Development of decision-making skills and critical thinking to assess an interpreted situation and the source language, target language, setting and participants.

## Biological Sciences

### Explore the living world through hands-on experience in the lab and in the field

Discover the inner workings of living organisms from molecules to ecosystems in our Biological Sciences program. As our largest and most popular major, the Biological Sciences program is designed to give you the degree you want — through self-designed concentrations, independent study, research projects, internships, job shadows, study abroad, and more.

You'll work with faculty mentors to customize your degree around your interests, allowing you to focus your learning in these diverse areas of study:

- Biology Teaching
- Biomaterials
- Cancer biology
- Ecology
- Genomics
- Microbiology
- Pre-Professional Health (Dental, Medical, Optometry, Pharmacy, Physician Assistant, Physical/Occupational Therapy, Veterinary, etc.)
