All students, in consultation with their advisor, develop a self-designed concentration where they select a group of upper-level courses that represents their interest.

Research is central to this program, empowering you to explore, question and invent. Side-by-side with your classmates and professors, you'll conduct experiments in our state-of-the-art labs: general biology, advanced biology, microbiology, general chemistry and organic chemistry, as well as the cell culture research lab, microbiology research lab, and molecular biology research lab.

You'll also have the opportunity to apply your skills in the real world through experiential learning, including:

- robust job shadows at the Elliot Hospital Laboratory and other local medical facilities
- internships at Manchester Water Works, ARMI (Advanced Regenerative Manufacturing Institute), and biotechnology firms on campus in our Biotechnology Innovation Center as well as in the nearby Millyard
- summer research courses at Shoals Marine Laboratory
- study away opportunities such as investigating biological diversity in Belize or microbial ecology in Iceland

Through diverse areas of study, faculty experts and hands-on experience, you'll be prepared for success in graduate, medical or professional studies, and careers in industries from healthcare to agriculture to education.

## Biological Sciences (A.S.)

<https://manchester.unh.edu/program/as/biological-sciences>

## Description

Biology is the study of living organisms in both laboratory and field conditions. It concerns itself with questions of understanding the living world, its complex interrelationships, and the role of human beings within it.

The associate of science in biological sciences program at UNH Manchester is designed to serve either as a terminal degree or as a springboard for students interested in the life sciences, which include majors in biology, biotechnology, microbiology, zoology, plant biology, wildlife management, environmental conservation, biochemistry, and animal sciences. Employment opportunities in the public and private sectors include education; food, water, wastewater and other industrial laboratories; clinical laboratories; biotechnology; environmental research and monitoring; and health careers.

For more information, contact [Kyle MacLea](mailto:Kyle.MacLea@unh.edu) ([Kyle.MacLea@unh.edu](mailto:Kyle.MacLea@unh.edu)), program coordinator, or contact the [Office of Admissions](mailto:unhm.admissions@unh.edu) ([unhm.admissions@unh.edu](mailto:unhm.admissions@unh.edu)), (603) 641-4150.

## Requirements

### Degree Requirements

**Minimum Credit Requirement:** 64 credits

**Minimum Residency Requirement:** 16 credits must be taken at UNH

**Minimum GPA:** 2.0 required for conferral\*

**Core Curriculum Required:** Discovery Program

Major, Option, and Elective Requirements as indicated.

\*Major GPA requirements as indicated.

## Major Requirements

Students must complete a minimum of 64 credits to graduate. There are two tracks in the A.S. degree program at UNH Manchester: biology and microbiology.

## Biology Track Requirements

Code	Title	Credits
MATH 425 or MATH 424B	Calculus I Calculus for Life Sciences	4
PSYC 402	Statistics in Psychology <sup>1</sup>	4
BIOL 413	Principles of Biology I	4
BIOL 414	Principles of Biology II	4
CHEM 403	General Chemistry I	4
CHEM 404	General Chemistry II	4
BMS 503 & BMS 504	General Microbiology and General Microbiology Laboratory	5
CHEM 545 & CHEM 546	Organic Chemistry and Organic Chemistry Laboratory	5
BMCB 658 & BMCB 659	General Biochemistry and General Biochemistry Lab	5
BIOL 541W	Ecology	4
GEN 604	Principles of Genetics	4
<b>Total Credits</b>		<b>47</b>

<sup>1</sup> Other statistics courses such as BIOL 528 Applied Biostatistics I or BUS 430 Introduction to Business Statistics may be used to satisfy this requirement.

## Microbiology Track Requirements

Students opting for the microbiology track must complete all courses listed in the biological sciences program with the exception of BIOL 541W Ecology. In addition, students must complete the following courses. From time to time, other microbiology courses may be offered. With approval of the Program Coordinator, they may substitute for courses within the Microbiology Track.

Code	Title	Credits
BMS 602 & BMS 603	Pathogenic Microbiology and Pathogenic Microbiology Laboratory	5
<b>Total Credits</b>		<b>5</b>

Note: Students preparing for professional or graduate programs may need to complete: CHEM 651 Organic Chemistry I/CHEM 653 Organic Chemistry Laboratory and CHEM 652 Organic Chemistry II/CHEM 654 Organic Chemistry Laboratory. These courses may substitute for CHEM 545 Organic Chemistry/CHEM 546 Organic Chemistry Laboratory and BMCB 658 General Biochemistry/BMCB 659 General Biochemistry Lab. Please consult your academic advisor.

## Degree Plan

This degree plan is a sample and does not reflect the impact of transfer credit or current course offerings. UNH Manchester undergraduate students will develop individual academic plans with their professional advisor during the first year at UNH.

## Sample Course Sequence

Course	Title	Credits
<b>First Year</b>		
<b>Fall</b>		
UMST 401 or UMST 402	First Year Seminar or Transfer Seminar	1-2
ENGL 401	First-Year Writing	4
BIOL 413	Principles of Biology I	4

HUMA 411 or HUMA 412	Humanities I or Humanities II	4
<b>Credits</b>		<b>17</b>
<b>Spring</b>		
BMCB 658 & BMCB 659	General Biochemistry and General Biochemistry Lab	5
BMS 503 & BMS 504	General Microbiology and General Microbiology Laboratory	5
GEN 604	Principles of Genetics	4
Discovery Course		4
<b>Credits</b>		<b>18</b>
<b>Total Credits</b>		<b>68-69</b>

with adequate controls to test hypotheses, interpret and evaluate data, and draw conclusions.

- Gather, analyze, organize, evaluate, and present scientific data, including the use of technology to solve problems and communicate information.
- Demonstrate the ability to function as a member of a team.
- Compete effectively for entry-level employment and for admission to baccalaureate schools in their chosen area and be successful in these endeavors.

## Biological Sciences Major (B.A.)

<https://manchester.unh.edu/program/ba/biological-sciences-major>

### Description

Biology is the study of living organisms in both laboratory and field conditions. It concerns itself with questions of understanding the living world, its complex interrelationships, and the role of human beings within it.

The B.A. in biological sciences at UNH Manchester is designed to:

- allow students to earn a baccalaureate degree in biology at UNH Manchester;
- allow students to combine study in biology with other programs and disciplines by completing a second major, a minor, or a self-designed set of elective courses along with their biology degree;
- provide an opportunity for students to complete a baccalaureate degree in biology while preparing to pursue a Master's degree in biology, biotechnology, or other fields. These degree programs could be undertaken after completion of the B.A. Alternatively, UNH offers several accelerated Master's programs where excellent senior students in the Biological Sciences major can complete coursework towards their undergraduate and graduate degrees at the same time;
- allow students to complete a major in biology while taking required courses in education in preparation for the five-year M.A.T. or M.Ed. programs and state certification in secondary science education; or alternative state certification pathway;
- provide an opportunity for students to complete a baccalaureate degree in biology while completing the required courses for admission to medical, dental, veterinary, physician assistant, pharmacy, physical therapy, optometry, and other professional or graduate programs.

Employment opportunities in the public and private sectors include education; industrial, clinical, and research laboratories; biotechnology; and environmental field research.

For more information, contact [Kyle MacLea \(Kyle.MacLea@unh.edu\)](mailto:Kyle.MacLea@unh.edu), Program Coordinator, or contact the [Office of Admissions](#) ([unhm.admissions@unh.edu](mailto:unhm.admissions@unh.edu)), (603) 641-4150.

### Requirements

## Degree Requirements

**Minimum Credit Requirement:** 128 credits

**Minimum Residency Requirement:** 32 credits must be taken at UNH

## Student Learning Outcomes

A student successfully completing the Biological Sciences program will be able to:

- Understand the fundamentals of basic biological principles, concepts, and theories.
- Demonstrate the ability to evaluate, apply, and synthesize biological information and ideas.
- Be competent in basic biology and chemistry laboratory skills and with the use of common laboratory equipment and instrumentation.
- Demonstrate the ability to communicate technical information related to biological sciences related topics in scientific writing and oral presentations.
- Understand, analyze, and evaluate primary research literature involving biological sciences related topics.
- Understand and apply the process of the scientific method, including being able to formulate hypotheses, design and conduct experiments

Minimum GPA: 2.0 required for conferral\*

Core Curriculum Required: Discovery & Writing Program Requirements

Foreign Language Requirement: Yes

All Major, Option and Elective Requirements as indicated.

\*Major GPA requirements as indicated.

## Major Requirements

Each course required in the major must be completed with a minimum grade of C-. Students must attain a minimum GPA in the major of 2.0. Transfer students must complete at least 24 credits in the major at UNH. BIOL 413 Principles of Biology I, BIOL 414 Principles of Biology II may be used to satisfy the biological sciences Discovery requirement and CHEM 403 General Chemistry I, CHEM 404 General Chemistry II may be used to satisfy the Physical Sciences Discovery requirement. PSYC 402 Statistics in Psychology may be used to satisfy the Quantitative Reasoning Discovery requirement; however, students interested in graduate or professional programs are encouraged to take MATH 425 Calculus I, or MATH 424B Calculus for Life Sciences, to satisfy the Quantitative Reasoning requirement.

The UNH Manchester B.A. in biological sciences program is structured with three levels of coursework.

Code	Title	Credits
<b>Biology Courses</b>		
BIOL 411 or BIOL 413	Introductory Biology: Molecular and Cellular Principles of Biology I	4
BIOL 412 or BIOL 414	Introductory Biology: Evolution, Biodiversity and Ecology Principles of Biology II	4
BMS 503 & BMS 504	General Microbiology and General Microbiology Laboratory	5
BIOL 541W	Ecology	4
GEN 604	Principles of Genetics	4
<b>Chemistry Courses</b>		
CHEM 403 & CHEM 404	General Chemistry I and General Chemistry II	8
<b>Mathematics Courses</b>		
Select one of the following:		4
MATH 418	Analysis and Applications of Functions	
MATH 425	Calculus I	
MATH 424B	Calculus for Life Sciences	
<b>Statistics Course</b>		
PSYC 402 or BIOL 528 or BUS 430	Statistics in Psychology Applied Biostatistics I Introduction to Business Statistics	4
<b>Total Credits</b>		37

## Self-Designed Concentration in Biology

Students will select, in consultation with their advisor, four biology courses at the 600-700 level to be taken at UNH Manchester or UNH Durham.

## Capstone Experience

Code	Title	Credits
BSCI 701	Senior Seminar I (during either semester of senior year) <sup>1</sup>	1
In consultation with your academic advisor, select a capstone experience:		4
BSCI 792	Research	
BSCI 793	Internship	
BSCI #794	Clinical Microbiology Internship	
BSCI 795	Independent Study	
<b>Total Credits</b>		5

<sup>1</sup> BSCI 701 will meet weekly during either semester of the senior year in a seminar format. Students will share information about capstone experiences, listen to presentations on timely issues in biology, develop career preparation skills, and receive training in poster production. Other methods of oral presentation and scientific writing are explored as students prepare to present the results of their capstone activities at the Undergraduate Research Conference or other venues.

In addition, all students will take elective courses to fulfill the 128-credit requirement for a B.A. degree. These elective courses could fulfill the requirements for a major or minor in another program or they could fulfill a self-designed interdisciplinary concentration. Where appropriate, a student could include some of the biology-related supporting science courses listed above. These courses would be selected in consultation with the advisor and the appropriate faculty advisor in another program.

Depending on specific academic and career goals, in particular, students preparing for professional or graduate programs, may, in consultation with their advisor, elect to take additional supporting science courses such as:

Code	Title	Credits
CHEM 545 & CHEM 546	Organic Chemistry and Organic Chemistry Laboratory (one semester)	5
CHEM 651 & CHEM 653	Organic Chemistry I and Organic Chemistry Laboratory (two semesters)	5
CHEM 652 & CHEM 654	Organic Chemistry II and Organic Chemistry Laboratory (two semesters)	5
BMCB 658 & BMCB 659	General Biochemistry and General Biochemistry Lab	5
MATH 426	Calculus II	4
PHYS 401	Introduction to Physics I	4
PHYS 402	Introduction to Physics II	4

These courses are often required for admission to medical, professional, and other graduate programs. Medical and dental graduate schools also require PSYC 401 Introduction to Psychology and SOC 400 Introductory Sociology.

## Degree Plan

## Sample Course Sequence

- Be competent in basic biology and chemistry laboratory skills and with the use of common laboratory equipment and instrumentation.
- Demonstrate the ability to communicate technical information related to biological sciences related topics in scientific writing and oral presentations.
- Understand, analyze, and evaluate primary research literature involving biological sciences related topics.
- Understand and apply the process of the scientific method, including being able to formulate hypotheses, design and conduct experiments with adequate controls to test hypotheses, interpret and evaluate data, and draw conclusions.
- Gather, analyze, organize, evaluate, and present scientific data, including the use of technology to solve problems and communicate information.
- Demonstrate the ability to function as a member of a team.
- Compete effectively for entry-level employment and for admission to graduate or professional schools in their chosen area and be successful in these endeavors.

## Biological Sciences Minor

<https://manchester.unh.edu/program/minor/biological-sciences>

### Description

The minor in biological sciences will introduce students to the field of biological sciences in a five-course sequence that will provide substantial education and training in scientific concepts, science communication, and laboratory skills, as well as the central content areas of biology, including biomolecules, cell biology, genetics, metabolism, physiology, phylogenetics, ecology, and evolution. Students adding the biological sciences minor will be adding a valuable credential to their major indicating a substantial additional skillset in the biosciences.

To ensure a course counts in the minor, it is required that students consult the minor coordinator, [Dr. Patricia Halpin](mailto:Dr. Patricia Halpin), ([Patricia.Halpin@unh.edu](mailto:Patricia.Halpin@unh.edu)) before enrolling in the course.

### Requirements

The minor requires students to complete five courses (20-21 credits, depending on the courses chosen). The minimum acceptable grade in these courses is a C-, and the average grade for these courses must be a C or better.

Courses for non-majors (for example, BMS 507 Human Anatomy and Physiology I/BMS 508 Human Anatomy and Physiology II; BIOT 422 Biotechnology and Society, BSCI 410 Contemporary Health Issues, BSCI 421 Diseases of the 21st Century, BSCI 432 Medical Terminology; BIOL 520 Our Changing Planet) will not count towards the minor.

Students are advised that to take some upper-level courses; BMS 503 General Microbiology/BMS 504 General Microbiology Laboratory and GEN 604 Principles of Genetics are frequently prerequisite courses.

Code	Title	Credits
<b>Required courses</b>		
Select one of the following		8
BIOL 411 & BIOL 412	Introductory Biology: Molecular and Cellular and Introductory Biology: Evolution, Biodiversity and Ecology	

## Student Learning Outcomes

A student successfully completing the Biological Sciences program will be able to:

- Understand the fundamentals of basic biological principles, concepts, and theories.
- Demonstrate the ability to evaluate, apply, and synthesize biological information and ideas.

BIOL 413 & BIOL 414	Principles of Biology I and Principles of Biology II

BMS 503 & BMS 504	General Microbiology and General Microbiology Laboratory	
GEN 604	Principles of Genetics	
Select two courses <sup>1</sup>		8
Total Credits		20-21

<sup>1</sup> Must be majors-level courses in the biological sciences

## Biotechnology

### Channeling scientific curiosity to fuel discovery and innovation

You're a scientist at heart — curious about how everything works, right down to the smallest detail. Exploring topics like biochemistry, molecular biology and genetics, our Biotechnology program puts you at the heart of one of the newest and fastest-growing scientific fields.

Whatever your scientific passion, studying biotechnology can bring you to its doorstep — preparing you to create advancements that can change lives and improve the world around you.

## Biotechnology Major (B.S.)

<https://manchester.unh.edu/program/bs/biotechnology-major>

#### Description

Biotechnology is the use of living organisms, biological systems, and small chemicals and biomolecules in technology. Biotechnology has applications in the treatment of diseases, the production of food, the protection of ecosystems, and the generation of energy, as well as in the basic science study of many biological questions.

The B.S. in biotechnology at UNH Manchester is designed to:

- allow students to earn a baccalaureate degree in biotechnology at UNH;
- allow students to combine study in biotechnology with other programs and disciplines by completing a minor, or a self-designed set of elective courses along with their biotechnology degree;
- provide an opportunity for students to complete a baccalaureate degree in biology while preparing to pursue a Master's degree in biology, biotechnology, or other fields. These degree programs could be undertaken after completion of the B.A. Alternatively, UNH

offers several accelerated Master's programs where excellent senior students in the Biological Sciences major can complete coursework towards their undergraduate and graduate degrees at the same time;

- allow students to complete a major in biotechnology while taking required courses in education in preparation for the five-year M.A.T. or M.Ed. programs and state certification in secondary science education; or alternative state certification pathway;
- provide an opportunity for students to complete a baccalaureate degree in biotechnology while completing the required courses for admission to medical, dental, veterinary, physician assistant, pharmacy, physical therapy, optometry, and other professional or graduate programs.
- allow students to complete a baccalaureate degree in biotechnology while completing the required courses for admission to graduate research programs (M.S. or Ph.D.) in the life sciences and related fields.

Employment opportunities in the public and private sectors include biotechnology research, development, and manufacturing; education; research laboratories; clinical laboratories; forensic laboratories; jobs in diverse areas from research to quality control to sales in the pharmaceutical industry; industrial positions in the food industry; water and wastewater laboratories and facilities; and environmental research and monitoring.

For more information, contact [Kyle MacLea](#) ([Kyle.MacLea@unh.edu](mailto:Kyle.MacLea@unh.edu)), program coordinator, or the [Office of Admissions](#) ([unhm.admissions@unh.edu](mailto:unhm.admissions@unh.edu)), (603) 641-4150.

## Requirements

### Degree Requirements

### Student Learning Outcomes

- A student successfully completing the Biotechnology program will be able to:
- Understand the fundamentals of basic biological principles, concepts, and theories.
  - Demonstrate the ability to evaluate, apply, and synthesize biological information and ideas.
  - Be competent in basic biology and chemistry laboratory skills and with the use of common laboratory equipment and instrumentation.
  - Be competent in advanced laboratory techniques and microbiological methods.
  - Understand the professional and ethical responsibilities involved with current and emerging topics in biology.
  - Demonstrate the ability to communicate technical information related to biological sciences and biotechnology related topics in scientific writing and oral presentations.
  - Understand, analyze, and evaluate primary research literature involving biological sciences and biotechnology related topics.

- Understand and apply the process of the scientific method, including being able to formulate hypotheses, design and conduct experiments with adequate controls to test hypotheses, interpret and evaluate data, and draw conclusions.
- Gather, analyze, organize, evaluate, and present scientific data, including the use of technology to solve problems and communicate information.
- Demonstrate the ability to function as a member of a team.
- Understand current and emerging topics in biotechnology.
- Compete effectively for entry-level biotechnology industry employment and for admission to graduate or professional schools in their chosen area and be successful in these endeavors.

### Biotechnology Minor

<https://manchester.unh.edu/program/minor/biotechnology>

#### Description

The Minor in Biotechnology will introduce students to the field of biotechnology in a five-course sequence that will provide substantial education and training in bioethics, as well as the central content areas of biology and biotechnology, with a focus on modern genetics and laboratory techniques. Students adding the biotechnology minor will be adding a valuable credential to their major, indicating a substantial additional skill set in the laboratory-focused and forward-looking field of biotechnology.

To ensure a course counts in the minor, it is required that students consult the minor coordinator, [Dr. Kristen Johnson](mailto:Dr.Kristen.Johnson@unh.edu) ([Kristen.Johnson@unh.edu](mailto:Kristen.Johnson@unh.edu)), before enrolling in the course.

#### Requirements

Students must complete five courses (20-21 credits, depending on the courses chosen). The minimum acceptable grade in these courses is a C-, and the average grade for these courses must be a C or better. Transfer course approval for the minor is limited to, at most, two relevant courses successfully completed at another accredited institution, subject to syllabi review and approval. Courses for non-majors will not count towards the minor.

Required Courses		
BIOT 501	Ethical Issues in Biology	4
GEN 604	Principles of Genetics <sup>1, 3</sup>	4
Biotechnology lab techniques course <sup>1, 2</sup>		4-5
Select one of the following:		8
BIOL 411 & BIOL 412	Introductory Biology: Molecular and Cellular and Introductory Biology: Evolution, Biodiversity and Ecology	
or BIOL 413 & BIOL 414	Principles of Biology I and Principles of Biology II	
Total Credits		20-21

<sup>1</sup> Biotechnology majors-level course.  
<sup>2</sup> BMS 503 General Microbiology/BMS 504 General Microbiology Laboratory may be an additional pre-requisite course.  
<sup>3</sup> Students in majors with 3+ course overlap (e.g., Neuropsychology) will need a different course than GEN 604 Principles of Genetics within the

Biotechnology major. BMS 503 General Microbiology/BMS 504 General Microbiology Laboratory is a recommended alternative.

## Business

### Leadership Through Innovation, Collaboration and Real-World Experience.

Located in the economic heart of New Hampshire, our Business program gives you the skills, resources and connections to become a successful, innovative leader. Small class sizes offer you individualized attention from faculty, while our vast network of business partners gets you the practical experience employers want. Courses include a focus on learning sought-after business skills such as the use of Microsoft Office Suite and data analytics tools.

Our faculty members bring years of industry experience to the classroom, and this approach means you'll apply concepts and theories to real, hands-on work. Senior capstone experience brings your learning to life through: an internship or project at a local business, case studies, business ethics study, and developing your professional self. Another internship is required to be taken junior or senior year to support career decision-making.

This highly interdisciplinary program is designed to explore your interests and prepare you for a lucrative career, offering areas of focus in:

- accounting & finance
- business economics
- management and human resources
- marketing and sales
- self-designed in business

Working hand-in-hand with local businesses through internships, capstone experience, and involvement in our Students Consulting Organizations program, you'll get the real-world experience and leadership skills that today's employers look for.

### Accounting Minor (Manchester)

<https://manchester.unh.edu/program/minor/accounting>

## Description

Opportunities for growth in the field of accounting continue at an impressive rate, with solid employment opportunities for anyone who qualifies for, and wants a job in the field of accounting. Students will find value in adding this minor to a major of their choice. Upon completion of the Accounting Minor, students should be able to:

- demonstrate an understanding of skills and techniques to be able to recognize transactions and how to record them
- explain and analyze the impact of transactions on an entity's status
- pursue an expanded use of the UNH degree with options to specialize in financial recording and the ability to understand financial statements
- consider the pursuit of certifications that supplement their career potentials, such as the Certified Public Accountant (CPA) or Certified Management Accountant (CMA)

The Accounting Minor can also be used to gain financial skills in all career paths or entrepreneurial aspirations. While the minor is not all-inclusive to train or qualify students to take the CPA exam, it can be used to expose students to the basics of accounting, and may lead to further study of specialization areas in accounting. Faculty assigned to these courses offer expertise and/or certifications in the specific content areas, adding a professional distinction to the program.

For more information, contact Jeanne Gerard, minor supervisor, at [Jeanne.Gerard@unh.edu](mailto:Jeanne.Gerard@unh.edu). ([jeanne.gerard@unh.edu](mailto:jeanne.gerard@unh.edu))

## Requirements

All five courses (20 credits) applied to the minor must be completed with a minimum grade of C- and an overall GPA of 2.0.

### Business Administration (A.S.)

<https://manchester.unh.edu/program/as/business-administration>

## Description

The Associate in Science degree in Business Administration is designed to provide students with a stepping stone to a career. Graduates of the program are prepared for entry-level employment opportunities or to continue their education at the baccalaureate level.

For more information, contact [Yvette Lazdowski](#) ([yvette.lazdowski@unh.edu](mailto:yvette.lazdowski@unh.edu)), program coordinator, or contact the [Office of Admissions](#) ([unhm.admissions@unh.edu](mailto:unhm.admissions@unh.edu)), (603) 641-4150.

# Requirements

## Degree Requirements

**Minimum Credit Requirement:** 64 credits

**Minimum Residency Requirement:** 16 credits must be taken at UNH

**Minimum GPA:** 2.0 required for conferral\*

**Core Curriculum Required:** Discovery Program

Major, Option, and Elective Requirements as indicated.  
\*Major GPA requirements as indicated.

## Major Requirements

Students must complete a minimum of 64 credits to graduate with an associate of science degree in business administration. A minimum cumulative GPA of 2.0 is required for graduation. In addition to completing eight Discovery Program courses and one Inquiry or Inquiry-attribute course within their first 48 earned credits, students must complete six courses (24 credits) in the major and one elective course.

## Student Learning Outcomes

- At the conclusion of the Business program, students should be able to demonstrate:
- Breadth of knowledge about business, accounting, and economic concepts, theories and methodologies.
  - Ability to apply business concepts to case based and situations in order to craft workable solutions that will yield to increased success for the company.
  - Information literacy (ability to find, retrieve and analyze information) in the fields of business, economics, and accounting/finance through use of proven and reliable private and public sector resources, including: articles, studies and research reports using UNH library resources such as ebscohost.
  - Ability to lead discussion groups and project teams to effective conclusions – written and oral, delivered in or out of the classroom.
  - Adeptness at multiple kinds of qualitative and quantitative analysis of data, particularly data found in, but not limited to, private and public sector reports.

- Effective writing skills in all types of business and professional writing: memoranda, case studies, analytical and project reports.
- Essential grasp of cogent presentation methods and techniques in the classroom, in front of visitors and peers.
- Sensitivity to cultural differences and an appreciation for the diversity of human experience and perspectives.
- An understanding of the importance of engaged citizenship in building healthy communities at every level (local, national and global).

## Business Major (B.A.)

<https://manchester.unh.edu/program/ba/business-major>

### Description

The bachelor of arts in business has a strong interdisciplinary focus. The curriculum adheres to a philosophy that effective decision making requires a broad understanding of the institutional and cultural climate within which businesses are operating. The program uses the resources of Manchester's business community and its economic strengths to provide students with skills, knowledge, and opportunities.

The business program offers areas of focus in business economics, management (including human resources), and marketing/sales. Students with a unique interest can create a self-designed concentration with approval of their advisor and the coordinator of the business program.

The culminating capstone experience enables students to apply their knowledge in the form of an internship or applied senior project. Because this is a bachelor of arts program, students fulfill the foreign language requirement. Students have the opportunity to enhance their knowledge through community experiences and internships. Graduates of UNH Manchester's business program are in demand because they offer future employers a portfolio of practical skills and theoretical knowledge, coupled with applied experiences through internships, leading to effective communication and leadership.

For more information, contact [Yvette Lazdowski](mailto:yvette.lazdowski@unh.edu) (yvette.lazdowski@unh.edu), program coordinator or the [Office of Admissions](mailto:unhm.admissions@unh.edu) (unhm.admissions@unh.edu), (603) 641-4150.

## Student Learning Outcomes

At the conclusion of the Business program, students should be able to demonstrate:

- Breadth and depth of knowledge about business and economic concepts, theories and methodologies, especially in the sub-field concentrations of: accounting/finance (full option), management/organizational behavior/ human relations, marketing/sales, and business economics, and how these varying fields are inter-related and complementary.
- Ability to analyze the effects of economic, social and political forces on changing local, national and global business by employing a multidisciplinary and interdisciplinary approach rooted in the social sciences and ethics.
- Ability to apply business and economic social science research to real-world, case based, situations in order to craft workable solutions that will yield to increased success and profit.
- Information literacy (ability to find, retrieve and analyze information) in the fields of business, economics, accounting/finance, marketing through use of proven and reliable private and public sector resources, including: articles, studies and research reports using UNH library resources such as ebscohost.
- Ability to lead discussion groups and project teams to effective conclusions – written and oral, delivered in or out of the classroom.
- Adeptness at multiple kinds of qualitative and quantitative analysis of data, particularly data found in, but not limited to, private and public sector reports.
- Effective writing skills in all types of business and professional writing: memoranda, case studies, analytical and project reports.

- Sensitivity to cultural differences and an appreciation for the diversity of human experience and perspectives.
- An understanding of the importance of engaged citizenship in building healthy communities at every level (local, national and global).
- Display professionalism in the workplace, in both service learning and internship contexts.

## Business Major: Accounting Option (B.A.)

<https://manchester.unh.edu/program/ba/business-major-accounting-option>

### Description

The Accounting Option is offered in response to the growing demand for accounting graduates in public accounting firms as well as in industry. Many local public accounting firms have expressed that with an expected high retirement rate among “baby boomers”, there appears to be a need for graduates with robust accounting credentials. Representatives from well-known CPA exam prep course firms expressed the opinion that accountants are in high demand and the unemployment rate in this industry is very low.

The Accounting Option offers students the necessary courses to enable them to sit for the CPA exam, which is one of the major steps in obtaining a CPA license. The requirements for sitting for the CPA exam in the State of New Hampshire are a bachelor's degree, 24 credits in business subjects, and 30 credits in accounting subjects. The Accounting Option within the Business program provides these required credits.

This program also provides the students an opportunity to seek professional accounting positions in corporate environments. Students would be encouraged to take the CMA (Certified Management Accountant) exam, leading to this desirable certification.

For more information, contact [Yvette Lazdowski](mailto:yvette.lazdowski@unh.edu) ([yvette.lazdowski@unh.edu](mailto:yvette.lazdowski@unh.edu)), program coordinator or contact the [Office of Admissions](mailto:unhm.admissions@unh.edu) ([unhm.admissions@unh.edu](mailto:unhm.admissions@unh.edu)), (603) 641-4150.

- Display professionalism in the workplace, in both service learning and internship contexts.

## Business Minor

<https://manchester.unh.edu/program/minor/business>

### Description

The minor in business allows students to pursue their interests in the liberal arts and sciences while building a foundation of business skills and adding a valuable credential to their portfolio and resume. The minor in business requires successful completion of five business courses or 20 credit hours from the courses listed in the requirements.

For more information, contact **Bill Troy** ([Bill.Troy@unh.edu](mailto:Bill.Troy@unh.edu)), minor supervisor.

## Requirements

Students must complete five courses (20 credits) with a cumulative minimum grade point average of 2.0 and with no grade below a C- grade. Transfer course approval for the minor is limited to at most, two relevant courses successfully completed at another accredited institution, subject to syllabi review and approval. Students must complete a minimum of 20 credits for the minor, with a maximum of 8 credits transferred from accredited institutions and a minimum of 12 credits completed in residence at UNH.

Code	Title	Credits
<b>Required Courses</b>		
BUS 400	Introduction to Business	4

BUS 610	Marketing Principles and Applications	
BUS 620	Organizational Behavior	
<b>Total Credits</b>		<b>20</b>

Other 600- or 700-level courses in business (BUS) or economics (ECN) may be substituted for courses listed above with permission of the business program coordinator. This may include an Internship course (BUS 690 Business Program Internship), Special Topics courses (BUS 675 Special Topics in Business Administration/BUS #685 Applications in Business Management), or an Independent Study in Business (BUS 695 Independent Study in Business).

## Entrepreneurship Minor (Manchester)

<https://manchester.unh.edu/program/minor/entrepreneurship>

### Description

The entrepreneurship minor is designed for those students who are interested in starting their own business or enhancing a business in which they are currently working.

The course content of the minor is designed to meet the objective of developing the mindset, skills, competencies, and experiential learning that enable students to function as entrepreneurs or as productive members of emerging, entrepreneurial firms.

The entrepreneurship program integrates the knowledge and experiences gained in other disciplines, as well as from the field of entrepreneurship, into an understanding of the process of new venture creation and the management of entrepreneurial businesses. With the minor presenting entrepreneurial concepts from a generalist perspective, students will acquire knowledge to conceive, develop, and launch new ventures and to turn innovative ideas into products that can be brought to market. Emphasis is placed on the managerial, legal, and marketing aspects of start-up businesses. The program culminates with a juried business plan competition for financial backing and start-up funding support.

*Ethical and legal*—In addition to exploring legal issues associated with a small business, students will examine their own personal values and aspirations to help guide their entrepreneurial careers.

*Knowing the numbers*—Entrepreneurs must be intimately familiar with the financial health of their businesses, particularly in regard to cash flow and other limited resource management and forecasting.

*Business model*—Students will be expected to develop a full understanding of how to create and utilize a business model and transform it into a fundable business plan.

*Selling the idea*—Students must not only understand how to identify and evaluate potential investors, but also how to sell their business idea when the opportunity presents itself.

*Managing growth in entrepreneurial companies*—Students will learn the unique set of leadership and communication skills necessary to guide a company through its most perilous time period: rapid growth.

For more information, contact [Bill Troy \(Bill.Troy@unh.edu\)](mailto:Bill.Troy@unh.edu), minor supervisor.

## Requirements

### Required Courses

Code	Title	Credits
BUS #410	Introduction to Entrepreneurship	4
BUS 453	Leadership for Managers	4
BUS 565	Selling and Sales Management	4
ECN 640	Business Law and Economics	4
BUS 600 Level Course		4
Total Credits		20

Students will be encouraged to take advantage of internship opportunities through the [Career and Professional Success \(CaPS\) office](#).

## Forensic Accounting Minor

<https://manchester.unh.edu/program/minor/forensic-accounting>

## Description

Opportunities for growth in the field of Forensic Accounting continue at an impressive rate. Career options for students who add the minor in Forensic Accounting can include investigative and litigation support to accounting firms, banks, police departments, government agencies and other organizations. The knowledge attained in this minor can help a homeland security expert or accountant investigate the rampant fraud that is often tied to homeland security or business threats, including non-accounting fraud issues.

In addition to following the knowledge content of the Certified Fraud Examiner (CFE) certification exam offered by the Association of Certified Fraud Examiners, the skills attained in the Forensic Accounting minor will augment the students’ potential in a variety of career opportunities in homeland security and fraud investigation. The CFE consists of four parts: Fraud Prevention and Deterrence, Financial Transactions and Fraud Schemes, Investigation, and Law. This credential is highly regarded in the security industry, corporate risk management, law offices, and in government agencies such as the Federal Bureau of Investigation.

The Forensic Accounting minor will appeal to students who would like to add specialized skills to their Homeland Security degree. In addition, the Forensic Accounting minor can be used as a minor in other degree paths (except for the B.A. in Business, Accounting option). While it is not training students to pursue the CPA or careers more focused in traditional accounting, it can be used to expose students to the field of accounting.

For more information, contact [Yvette Lazdowski \(yvette.lazdowski@unh.edu\)](mailto:yvette.lazdowski@unh.edu), minor supervisor.

## Requirements

All five courses applied to the Forensic Accounting minor must be completed with a minimum grade of C- and an overall GPA of 2.0. Students must take at least three 500-level or above courses to complete the minor.

Code	Title	Credits
Required Courses		
BUS 532 or ADMN 502	Introduction to Financial Accounting Financial Accounting	4
ECN 640 or HLS 520	Business Law and Economics <sup>1</sup> Homeland Security Law and Policy	4
HLS #540	Prevention and Detection of Fraud	4
HLS 615	Introduction to Fraud Investigation	4
HLS 640	Forensic Accounting	4

<sup>1</sup> ECN 640 Business Law and Economics for Business majors; HLS 520 Homeland Security Law and Policy for Homeland Security majors

## Political Economy Minor

<https://manchester.unh.edu/program/minor/political-economy>

## Description

Students interested in pursuing a career in government, business, communications, or the law can add a breadth of perspective through the political economy minor.

For more information, contact minor supervisor [Tom Birch \(Tom.Birch@unh.edu\)](mailto:Tom.Birch@unh.edu).

## Requirements

The political economy minor consists of five courses (20 credits total). The minimum grade requirement is C- per course. Any grade lower than a C- will not count toward the minor.

Code	Title	Credits
Select five courses from the following: <sup>1</sup>		
ECN 410	History of Literary Economics	
ECN 411	Introduction to Macroeconomic Principles	
ECN 412	Introduction to Microeconomic Principles	
ECN #505	Contemporary Economic Issues	
ECN 640	Business Law and Economics	
ECN 650	Economics for Managers	
POLT 403	United States in World Affairs	
PS 500	Wicked Problems: Puzzles in Public Policy	
PS 501	Social and Political-Economic Theory	
PS 509	Political and Social Change in Developing Countries	

PS 510	Politics of Food
PS 520	Globalization: Politics, Economics and Culture
PS 750	Poverty & Inequality Past and Present
Total Credits	

20

<sup>1</sup> No more than three courses from the same subject prefix area and no more than three 400-level courses may count towards the minor.

Substitutions are permitted with permission of the minor supervisor.

## Communication Arts

### Shaping skilled communicators through creativity, technology and hands-on experience

With expert faculty, state-of-the-art studios and a vast network of internship opportunities, our Communication Arts program gives you the skills and experience to turn your passion into a profession. Our highly adaptable program opens doors to limitless career possibilities — shaping the next generation of filmmakers, journalists, HR specialists, marketers and beyond.

Recent data from the American Academy of Arts & Sciences shows that Communication Arts is the largest and most popular of the humanities disciplines. Part of this interest is because we live in a world where communication is a vital part of daily life, regardless of career or industry. But another part, potentially even more important, is the inherent flexibility that students find — not only during college, but in the job market after graduation.

Your interests inspire what you study, allowing you to focus your degree in areas like [Advertising and Public Relations](#), [Cinema and Media Arts](#), [Digital Media](#), and [Human Relations](#). Students can also further their professional and creative interests by doing real-world internships for credit.

Through hands-on learning in our classrooms, in the field and in our audio, video and editing studios, you'll shape the social, creative, analytical, and technical communication skills you need for success in industries from media to business, healthcare, education, and more.

## Communication Arts Major (B.A.)

<https://manchester.unh.edu/program/ba/communication-arts-major>

### Description

Communication Arts majors explore the creativity, artistry, and impact of human communication. The program offers a rich variety of learning experiences, including:

- Working with cutting-edge digital media in state-of-the-art sound and video production studios and a high-definition editing suite with full Adobe creative cloud access.
- Discovering how communication theories and practices shape personal identity, social skills, professional relationships, and human relations.
- Enhancing your media writing, social media, public relations, and strategic communication skills.
- Exploring the history of media using a super-tech screening room with surround sound.
- Developing hands-on research activities, creative media projects, and internship experiences that link students with businesses, nonprofits, and the community.

To complete the major, students can take courses from across the Communication Arts curriculum, or they may choose to focus their coursework in one of four suggested areas of study: [Advertising and Public Relations\\*](#), [Cinema and Media Arts\\*](#), [Digital Media\\*](#), or [Human Relations\\*](#).

A degree in Communication Arts prepares students for today's communication-driven society. The program offers students the knowledge and skills they need to succeed as professional communicators, media artists, and entrepreneurs working in a variety of careers. Our alumni have gone on to work in fields such as radio, television, film, web, digital video, corporate communications, journalism, public relations, social media, advertising, sales, strategic communication, audience research, counseling, conflict mediation, human resources, and more. A Communication Arts degree also creates pathways to careers in government, social services, public education, and community affairs, where employers seek graduates who can think creatively and communicate effectively to a variety of audiences and constituents.

Communication Arts faculty bring exceptional expertise to the classroom and are actively engaged in their own creative and scholarly work. They regularly share their knowledge with audiences around the state, the country, and the world. Some are also experienced professionals who bring current, real-world knowledge from the workplace to the classroom. In addition to classroom instruction, the program also provides students with exceptional access to experiential learning opportunities (internships, community-based research, service learning, and media production projects) that occur within real-life settings.

For more information, contact [Jeff Klenotic \(jeffrey.klenotic@unh.edu\)](mailto:jeffrey.klenotic@unh.edu), program coordinator or contact the [UNH Manchester Office of Admissions \(unhm.admissions@unh.edu\)](#), (603) 641-4150.

\* Advertising and Public Relations, Cinema and Media Arts, Digital Media, and Human Relations are **Degree Options** that appear on the official UNH transcript and diploma. The specific requirements for each Degree Option are presented elsewhere in this catalog. Students are encouraged to contact the Communication Arts program coordinator or their academic advisor to discuss whether a Degree Option is the right choice for them.

# Requirements

## Degree Requirements

**Minimum Credit Requirement:** 128 credits

**Minimum Residency Requirement:** 32 credits must be taken at UNH

**Minimum GPA:** 2.0 required for conferral\*

**Core Curriculum Required:** Discovery & Writing Program Requirements

**Foreign Language Requirement:** Yes

All Major, Option and Elective Requirements as indicated.  
*\*Major GPA requirements as indicated.*

## Major Requirements

Students must complete a minimum of 128 credits and satisfy the University's Discovery Program and foreign language requirements. Communication Arts (CA) majors must complete 10 courses (40 credits) and maintain a minimum overall grade point average of 2.0 in the major. Transfer students must complete at least 20 credits in the Communication Arts major at UNH. Communication Arts majors may use up to two CMN and/or CA courses toward both the Communication Arts major and UNH Discovery Program requirements.

Code	Title	Credits
<b>I. Required Core Courses</b> <sup>1</sup>		
CMN 455	Introduction to Media Studies	4
CMN 456	Propaganda and Persuasion	4
CMN 457	Introduction to Language and Social Interaction	4
<b>II. Selected Coursework</b>		
Select three courses from area A, two from area B, two from area C <sup>2</sup>		28
<b>Total Credits</b>		<b>40</b>

<sup>1</sup> Students must earn a "C" or better in each course to satisfy CA degree requirements.  
<sup>2</sup> Students must earn a "C-" or better in each course to satisfy CA degree requirements.

## A. Communication Practices

Code	Title	Credits
Select three of the following:		12
CA 450	Introduction to Public Speaking	
CA 500	Media Writing	
CA 501	Internship/Communication in the Urban Community	
CA 502	Image and Sound	
CA 507	Relational Violence	
CA 508	Conflict in Relational Communication	
CA 512	Screenwriting	
CA 514	Fundamentals of Video Production	
CA 515	Advanced Video Production	
CA 517	Fundamentals of Audio Prod	

CA 518	Advanced Topics in Digital Media Production	
CA 519	Advanced Screenwriting	
CA 520	Special Topics in Applied Communication	
CA 522	Graphic Design I	
CA 523	Graphic Design II	
PSYC 762	Counseling	
<b>Total Credits</b>		<b>12</b>

## B. Communication Practices: Organization, History, and Policy

Code	Title	Credits
Select two of the following:		8
CA 527	History of Film	
CA 531	History and Organization of Advertising	
CA 532	Typography I	
CA 536	LGBT Images and Perspectives	
CA 538	Gender	
CA 539	Communicating in Families	
CA 540	Public Relations	
CA 542	Social Media for Organizations and Business	
CA 550	Special Topics in Communication Organization, History, and Policy	
COMP 560	Ethics and the Law in the Digital Age	
ENGL 534	21st Century Journalism: How the News Works	
PHIL 565	Philosophy Through Film	
Total Credits		8

## C. Communication Practices: Theory and Research

Code	Title	Credits
Select two of the following:		8
CA 610	Communication Technologies and Culture	
CA 612	Narrative	
CA 615	Film History/Theory and Method	
CA 618	Documentary	
CA 720	Seminar	
CA 795	Independent Study	
Total Credits		8

## Capstone Requirement

The capstone requirement will be satisfied in a student's senior year by completion of a specific four-credit capstone course at the 600 or 700 levels. Students may not enroll in a capstone course until they have completed all three CA program core courses (CMN 455 Introduction to Media Studies, CMN 456 Propaganda and Persuasion, and CMN 457 Introduction to Language and Social Interaction) and at least one Area A course and one Area B course. Students must also have completed the prerequisites for the particular capstone course they seek to take. Exceptions to this rule must be approved by the student's academic advisor and CA program coordinator. The capstone course can also fulfill an Area C course requirement.

The capstone experience offers seniors an opportunity to synthesize and apply knowledge and skills gained throughout their communication arts major coursework. The capstone course requires students to conduct an original research study, a creative media project, an internship, community-based research, or an advanced service learning project in communication arts under the close supervision of a communication arts faculty member. Students are strongly encouraged to share their capstone projects with the larger UNH community through participation in the Undergraduate Research Conference, a presentation in the Brown Bag lunch series, publication in the UNH undergraduate journal *Inquiry*, or presentation in some other public venue. Students should work closely with their advisors to make sure the capstone requirement has been satisfied.

Courses that satisfy this requirement include, but are not limited to:

Code	Title	Credits
<b>Capstone Courses</b>		
CA 612	Narrative	4
CA 615	Film History/Theory and Method	4
CA 720	Seminar	4
CA 795	Independent Study	4

## Student Learning Outcomes

Upon completion of the Communication Arts program, students will be able to:

- Analyze how creativity, artistry, narrative, identity, persuasion, and ethics shape messages and relationships produced within a variety of social, organizational, and industry contexts.
- Demonstrate knowledge and skills that give them expertise and proficiency in areas such as human relations, social media, digital video, audio production, graphic design, writing, and speaking.
- Know the history of communication practices and understand how media technologies and messages have impacted societies, cultures, organizations, and businesses.
- Effectively research and creatively explore communication practices, experiences, and trends using high quality sources of information, multiple modes of inquiry, and multiple presentation formats.
- Identify professional interests or career paths by working with the Internship and Career Planning Office and by engaging with communication settings outside the classroom through internships, service learning, field trips, and independent studies.

## Communication Arts Major: Advertising and Public Relations Option (B.A.)

<https://manchester.unh.edu/program/ba/communication-arts-major-advertising-public-relations-option>

## Description

Students in the Advertising and Public Relations option develop knowledge and skills relating to the use of strategic communication practices within a variety of settings such as ad agencies, commercial

businesses, and nonprofit organizations. A dynamic mix of historical, social, ethical, organizational, creative, analytical, and experiential perspectives is used to create a strong foundation for professional success and graduate study. Coursework covers topics such as earned and paid media, social media, graphic design, media writing, data analytics, and audience research. Some courses use field trips and guest speakers to keep students up-to-date with current trends. An internship in advertising and public relations is required.

For more information, contact [Jeff Klenotic \(jeffrey.klenotic@unh.edu\)](mailto:jeffrey.klenotic@unh.edu), program coordinator or contact the [UNH Manchester Office of Admissions \(unhm.admissions@unh.edu\)](mailto:unhm.admissions@unh.edu) at (603) 641-4150.

## Communication Arts Major: Cinema and Media Arts Option (B.A.)

<https://manchester.unh.edu/program/ba/communication-arts-major-cinema-media-arts-option>

### Description

Students choosing the Cinema & Media Arts Option study the creative media industries with a focus on developing professional skills and knowledge relating to careers in film, television and radio. Courses cover topics such as narrative, screenwriting, audio and video production, film

history and criticism, documentary, and audience research methods.

Students may elect to take an internship in the area of cinema and media arts to help fulfill requirements for the Option.

Communication Arts Major: Digital Media Option (B.A.)

<https://manchester.unh.edu/program/ba/communication-arts-major-digital-media-option>

Description

Students choosing the Digital Media option use coursework and hands-on learning to explore the intersections of technology, creativity and artistry with a focus on audio, video and web-based media. Students gain a comprehensive overview of the different stages of a digital media project, from writing and pre-production through production and post-production. Courses cover topics such as web authoring and multimedia, audio and video production, social media and public relations, ethics and

law in the digital age, and motion graphics. An internship in the area of digital media is required.

For more information, contact [Jeff Klenotic \(jeffrey.klenotic@unh.edu\)](mailto:jeffrey.klenotic@unh.edu), program coordinator or contact the [UNH Manchester Office of Admissions \(unhm.admissions@unh.edu\)](mailto:unhm.admissions@unh.edu), (603) 641-4150.

Student Learning Outcomes

- Upon completion of the Communication Arts program, students will be able to:
- Analyze how creativity, artistry, narrative, identity, persuasion, and ethics shape messages and relationships produced within a variety of social, organizational, and industry contexts.
  - Demonstrate knowledge and skills that give them expertise and proficiency in areas such as human relations, social media, digital video, audio production, graphic design, writing, and speaking.
  - Know the history of communication practices and understand how media technologies and messages have impacted societies, cultures, organizations, and businesses.
  - Effectively research and creatively explore communication practices, experiences, and trends using high quality sources of information, multiple modes of inquiry, and multiple presentation formats.
  - Identify professional interests or career paths by working with the Internship and Career Planning Office and by engaging with communication settings outside the classroom through internships, service learning, field trips, and independent studies.

Communication Arts Major: Human Relations Option (B.A.)

<https://manchester.unh.edu/program/ba/communication-arts-major-human-relations-option>

Description

Students choosing the Communication Arts Human Relations option explore practical, theoretical, and historical perspectives on the study of human relationships in professional and personal contexts. With so many of today's employers emphasizing the value of human communication skills in potential employees, the Human Relations Option offers students the knowledge and hands-on learning they need to develop their oral and written communication skills, as well as their ability to work in teams. Coursework covers topics such as verbal and nonverbal communication, perception, identity, conflict, human resource management, power, health, social psychology, human development, and counseling. An internship in the area of human relations is required.

For more information, contact Jeff Klenotic ([jeffrey.klenotic@unh.edu](mailto:jeffrey.klenotic@unh.edu)), program coordinator or contact the UNH Manchester Office of Admissions ([unhm.admissions@unh.edu](mailto:unhm.admissions@unh.edu)), (603) 641-4150.

Requirements

Degree Requirements

- Minimum Credit Requirement:** 128 credits
- Minimum Residency Requirement:** 32 credits must be taken at UNH
- Minimum GPA:** 2.0 required for conferral\*
- Core Curriculum Required:** Discovery & Writing Program Requirements
- Foreign Language Requirement:** Yes

All Major, Option and Elective Requirements as indicated.  
\*Major GPA requirements as indicated.

Major Requirements

Students must complete all of the [Communication Arts major requirements](#) (p. 418) and will work with their academic advisor to select courses that also satisfy option requirements.

Human Relations Option Requirements

The option in Human Relations consists of 24 credits as distributed below. Note that some courses may also be used to fulfill the requirements of the Communication Arts major. Courses applied to the option must be completed with a minimum grade of C- and overall GPA of 2.0. Transfer students must complete a minimum of 12 credits, including the Human Relations Internship, at UNH Manchester.

Code	Title	Credits
Select four of the following courses: <sup>1</sup>		16
ANTH 411	Global Perspectives on the Human Condition: An Introduction to Anthropology	
BUS 455	Management of Human Resources	
CA 507	Relational Violence	
CA 508	Conflict in Relational Communication	
CA 520	Special Topics in Applied Communication <sup>2</sup>	
CA 538	Gender	
CA 539	Communicating in Families	
CA 542	Social Media for Organizations and Business

- Identify professional interests or career paths by working with the Internship and Career Planning Office and by engaging with communication settings outside the classroom through internships, service learning, field trips, and independent studies.

## Communication Arts Minor

<https://manchester.unh.edu/program/minor/communication-arts>

### Description

The communication arts minor allows students in other majors to broaden their understanding of human communication while also developing deeper knowledge and practical skills that can enhance their professional lives and complement their major field of study.

For more information, contact [Jeff Klenotic \(Jeffrey.Klenotic@unh.edu\)](mailto:Jeffrey.Klenotic@unh.edu), minor supervisor.

### Requirements

The communication arts minor requires completion of five courses (20 credits), according to the requirements below. A minimum GPA of 2.0 in minor courses is required, with no individual grade lower than a C-. Courses taken on a pass/fail basis may not be used for the minor.

Students should work with their advisor to ensure that any prerequisites for CA courses have been met, or that permission to enter the course has been granted by the course instructor. Courses used to satisfy Discovery Program requirements may be used to satisfy CA minor requirements. No more than 8 credits used by a student to satisfy major requirements may be used for the minor. At the discretion of the minor coordinator, transfer credits may be used to satisfy minor requirements, but no more than 8 credits (or 2 of 5 classes) should be transfer credits.

Code	Title	Credits
I. Breadth Courses		
Select any two of the following, as long as they are NOT from the same category:		8
Category A:		
CMN 457	Introduction to Language and Social Interaction	
Category B:		
CMN 455	Introduction to Media Studies	
CA 502	Image and Sound	
Category C:		
CMN 456	Propaganda and Persuasion	
CA 450	Introduction to Public Speaking	
II. Depth Courses		
Select any three 500-level (or above) CA courses: <sup>1</sup>		12
Total Credits		20

<sup>1</sup> Except CA 501 Internship/Communication in the Urban Community

Note: Students who use CA 502 Image and Sound as a "breadth" course may not use it as a "depth" course.

## Computing

The undergraduate computing programs in the Applied Engineering and Sciences Department at UNH Manchester prepare students for successful careers in computer science and information technology and further education in computing-related graduate studies. In our computing programs, students learn computing principles and computational practices to understand how computing machineries, including networks and clouds, work; design and build efficient systems; and apply computations and tools to develop and operate next generation of computing applications.

### Programs

- [Applied Computing Minor](#) (p. 426)
- [Computer Information Systems Major \(B.S.\)](#) (p. 426)
- [Computer Science Major \(B.A.\)](#) (p. 428)

### Faculty

[Computing Faculty](#)

## Applied Computing Minor

<https://manchester.unh.edu/program/minor/applied-computing>

### Description

Fusing the theory and application of computer science, the applied computing minor develops technical knowledge and real-world skills in IT, programming languages, web development and more. Applied computing

focuses on critical thinking and problem solving, which prepares students from all majors with skills that can contribute to the mission of virtually any organization.

For more information, contact [Michael Jonas \(michael.jonas@unh.edu\)](mailto:michael.jonas@unh.edu), minor supervisor.

### Requirements

The minor requires five COMP courses (20 credit hours). Students must earn grades of at least C- in each course and maintain an overall GPA of 2.0 in minor courses. Transfer students may transfer up to two courses, subject to the approval of the minor supervisor. Courses taken on a pass/fail basis may not be used for the minor. No more than 8 credits used by the student to satisfy major requirements may be used in the minor.

Code	Title	Credits
Required Courses		
COMP 405	Introduction to Web Design and Development	4
or COMP 415	Mobile Computing First and For Most	
COMP 424	Applied Computing 1: Foundations of Programming	4
COMP 574	Applied Computing 2: Foundations of Machine Learning	4
Select two of the following		8
COMP 430	Systems Fundamentals	
COMP 500	Discrete Structures	
COMP 520	Database Design and Development	
COMP 525	Data Structures Fundamentals	
COMP 530	Machine and Network Architecture	
COMP 625	Data Structures and Algorithms	
Total Credits		20

## Computer Information Systems Major (B.S.)

<https://manchester.unh.edu/program/bs/computer-information-systems-major>

### Description

The computer information systems (CIS) or information technology (IT) field, in its broadest sense, encompasses all aspects of computing technology. During their program of study, students develop a strong skillset to effectively select, develop, apply, integrate, and administer secure computing technologies to accomplish user goals.

The bachelor of science degree in Computer Information Systems prepares graduates with knowledge, skills, and professional practices to work in the highly integrated field of computing and to grow into leadership positions. The program also enables graduates to further their studies at the graduate level and pursue research in a computing-related discipline.

Career opportunities for students with an undergraduate CIS degree are varied, but may include such areas as software applications developer, data security specialist, database developer/administrator, e-commerce analyst/programmer, help desk manager, multimedia developer, network/system administrator, technical writer, technology trainer, user support specialist, testing and quality assurance specialist, or web developer. Career options exist in a wide range of organizations as all businesses, industries, and nonprofits continue to use, develop, and integrate information technology solutions.

## Program Educational Objectives

Within five years of graduation, a CIS student should be able to:

- Apply knowledge and skills in core and advanced information technologies to help an organization achieve its goals.
- Advocate for users of information technologies, whether they are end users of information systems, managers of enterprise applications, developers of IT solutions, or customers of IT-reliant work systems.
- Develop, manage, and evaluate computing and communication systems and services.
- Live and work as contributing, well-rounded members of society.

For additional information about the computer information systems program, contact [Michael Jonas \(michael.jonas@unh.edu\)](mailto:michael.jonas@unh.edu) or the [UNH Manchester Office of Admissions \(unhm.admissions@unh.edu\)](mailto:unhm.admissions@unh.edu), (603) 641-4150.

## Requirements

### Degree Requirements

**Minimum Credit Requirement:** 128 credits

**Minimum Residency Requirement:** 32 credits must be taken at UNH

**Minimum GPA:** 2.0 required for conferral\*

**Core Curriculum Required:** Discovery & Writing Program Requirements

**Foreign Language Requirement:** No

All Major, Option and Elective Requirements as indicated.

\*Major GPA requirements as indicated.

### Major Requirements

Students majoring in computer information systems must complete 128 credits to graduate, satisfy the University's Discovery Program, and complete 81 credits in the major with a minimum of C- in each course. Students must maintain an overall cumulative GPA of 2.0 or better.

Transfer students who elect to major in computer information systems must earn 81 approved credits for completion of the their major, of which at least 24 credits must be completed at UNH Manchester.

Code	Title	Credits
<b>Required Mathematics Course</b> <sup>1</sup>		
Select one of the following:		
MATH 420	Finite Mathematics	4
MATH 422	Mathematics for Business Applications	
MATH 424B	Calculus for Life Sciences	
MATH 425	Calculus I	
COMP 500	Discrete Structures	
<b>Computing Core</b>		
COMP 405	Introduction to Web Design and Development	4
COMP 424	Applied Computing 1: Foundations of Programming	4
COMP 430	Systems Fundamentals	4
COMP 520	Database Design and Development	4
COMP 525	Data Structures Fundamentals	4

COMP 715	Information Security	4
COMP 730	Software Development	4

UMST 582	Internship and Career Planning Seminar	1
COMP 690	Internship Experience	4
COMP 790	Capstone Project	4
or COMP 791	Senior Thesis	
<b>Computing Topics</b> <sup>3</sup>		
Select three computing courses		12
<b>Concentration to Broaden and Advance Student Learning of Computing Innovations</b> <sup>4</sup>		
Select four courses		16
<b>Total Credits</b>		<b>81</b>

<sup>1</sup> Any of these courses, except for COMP 500 Discrete Structures, may be used to satisfy the Quantitative Reasoning Discovery requirement.

<sup>2</sup> The program prepares students for the workforce and further education in a holistic way by emphasizing communication, collaboration, team work, initiative, appreciation for diversity, and self-direction and responsibility.

<sup>3</sup> Advisor permission required.

<sup>4</sup> Majors can creatively design a concentration of courses that meet their academic and professional goals and career plans. Four courses can be selected across a wide university curriculum, reflecting majors' interests in a liberal arts, scientific, engineering, interdisciplinary, or professional area of study. The concentration must be approved by the student's advisor before the student's junior year.

## Student Learning Outcomes

- Analyze a complex computing problem and apply principles of computing and other relevant disciplines to identify solutions.
- Design, implement, and evaluate a computing-based solution to meet a given set of computing requirements in the context of the program's discipline.
- Communicate effectively in a variety of professional contexts.
- Recognize professional responsibilities and make informed judgments in computing practice based on legal and ethical principles.
- Function effectively as a member or leader of a team engaged in activities appropriate to the program's discipline.
- Use systemic approaches to select, develop, apply, integrate, and administer secure computing technologies to accomplish user goals.

The student learning outcomes are aligned with criteria for accrediting information technology programs as recommended by the ABET

Computing Accreditation Commission and the ACM Computing Curricula – IT 2017 Information Technology guidelines.

## Computer Science Major (B.A.)

<https://manchester.unh.edu/program/ba/computer-science-major>

### Description

The computer science program combines a solid foundation in computing necessary to succeed in today's start-up and high-tech environments. The program is designed in response to market demand for students proficient in computer science.

Students in the computer science program gain real-world experience through extensive project work and opportunities to interact with industry experts through internships and sponsored research.

Career prospects for students with an undergraduate computer science degree are varied, and may include such areas as applications developer, computer and information research scientist, data security specialist, database administrator, database developer, multimedia developer, network architect, product development manager, quality assurance analyst, software systems developer, user experience designer, or web developer.

### Program Educational Objectives

Within five years of graduation, a CS student should be able to:

- Demonstrate mastery of the core areas of computer science
- Invent, develop, manage, and evaluate computing systems and services
- Exercise professional responsibility and have appreciation of the social, legal, ethical, and cultural issues inherent in the computing field.

For additional information about the computer science program, contact [Michael Jonas \(michael.jonas@unh.edu\)](mailto:michael.jonas@unh.edu) or the [UNH Manchester Office of Admissions \(unhm.admissions@unh.edu\)](mailto:unhm.admissions@unh.edu), (603) 641-4150.

### Requirements

## Education

### Programs

- [Education Minor \(Manchester\)](#) (p. 430)

## Education Minor (Manchester)

<https://manchester.unh.edu/program/minor/education>

### Description

Explore the field of education. If you'd like to develop an understanding of the educational process and tools, but do not plan to pursue a certificate to teach in public schools, the education minor is a great way combine your interest with another course of study. You'll learn about the education system and current perspectives in education, then choose electives in areas ranging from teaching methods to language and literacy to special education.

A [Certification of Completion of Minor form](#) needs to be completed at the beginning of a student's final undergraduate semester at UNH.

For more information, contact the Education Department at [education.department@unh.edu](mailto:education.department@unh.edu)

### Requirements

A minor consists of five courses, twenty (20) credits in Education Department courses.

Code	Title	Credits
Select five (5) education courses		20
Total Credits		20

A methods course located in another department may be counted for four of these 20 credits, e.g., ARTS 791 Art Education (Elementary) or ARTS 792 Art Education (Secondary), ENGL 792 Teaching Literature and Literacy, MATH 709 Teaching of Mathematics in Grades 6-12.

No more than eight (8) credits used to satisfy major requirements may be used for the minor.

Courses used in obtaining a minor in Special Education cannot be used towards a minor in Education.

EDUC 500 Exploring Teaching can only be counted once (four credits) towards the minor.

No more than two (2) transferred courses in Education or a closely-related area from another college or university may be used towards a minor in Education. A three-credit course transferred from another school will count for three credits at UNH, not four credits.

## Engineering Technology

With topics including communications theory, digital signal processing, analog systems, and digital systems. The ABET-accredited **Electrical Engineering Technology** program gives you the practical experience to meet both industry demand and your career goals. Small class sizes mean opportunities to collaborate with faculty who are industry experts, giving you one-on-one attention to excel in the dynamic, highly rewarding field of electronics.

From advanced manufacturing concepts to complex machine design, the ABET-accredited **Mechanical Engineering Technology** program will ignite your fascination with how things work. You'll work alongside faculty experts to learn mechanical design, fluid/thermal technology, production systems, automation engineering and more.

Through hands-on experience in the classroom and in the field, this applied degree program gives you the practical experience to turn your passion into a career.

<https://manchester.unh.edu/program/bs/electrical-engineering-technology-major>

### Description

Engineering technology requires the application of engineering and scientific knowledge and methods combined with technical skills in support of engineering activities. Graduates may work in a variety of areas including engineering design, manufacturing, field service, testing, and sales and may work in management positions related to engineering, manufacturing, and computer technology.

The UNH Manchester BS in Electrical Engineering Technology is accredited by the Engineering Technology Accreditation Commission (ETAC) of ABET, [www.abet.org](http://www.abet.org).

The programs at UNH Manchester are designed to meet the needs of both full- and part-time students with a mix of classes scheduled during the day and in the evening.

For information about the electrical engineering technology program (EET), contact the B.S. engineering technology program coordinator, [Sean Tavares \(sean.tavares@unh.edu\)](mailto:Sean.Tavares@unh.edu). For admissions information, contact the [Office of Admissions \(unhm.admissions@unh.edu\)](mailto:unhm.admissions@unh.edu) at (603) 641-4150.

## Requirements

### Degree Requirements

**Minimum Credit Requirement:** 128 credits

**Minimum Residency Requirement:** 32 credits must be taken at UNH

**Minimum GPA:** 2.0 required for conferral\*

**Core Curriculum Required:** Discovery & Writing Program Requirements

**Foreign Language Requirement:** No

All Major, Option and Elective Requirements as indicated.

\*Major GPA requirements as indicated.

### Major Requirements

Each course required in the major must be completed with a minimum grade of C-. Students must attain a minimum GPA in the major of 2.0.

Code	Title	Credits
CHEM 405	Chemical Principles for Engineers	4
COMP 424	Applied Computing 1: Foundations of Programming	4

## Student Learning Outcomes

Engineering Technology program, the student outcomes must include, but are not limited to, the following learned capabilities:

- An ability to apply knowledge, techniques, skills and modern tools of mathematics, science, engineering, and technology to solve broadly-defined engineering problems appropriate to the discipline;
- An ability to design systems, components, or processes meeting specified needs for broadly-defined engineering problems appropriate to the discipline;
- An ability to apply written, oral, and graphical communication in broadly-defined technical and non-technical environments; and an ability to identify and use appropriate technical literature;
- An ability to conduct standard tests, measurements, and experiments and to analyze and interpret the results to improve processes; and
- An ability to function effectively as a member as well as a leader on technical teams.

## Mechanical Engineering Technology Major (B.S.)

<https://manchester.unh.edu/program/bs/mechanical-engineering-technology-major>

### Description

Engineering technology requires the application of engineering and scientific knowledge and methods combined with technical skills in support of engineering activities. Graduates may work in a variety of areas including engineering design, manufacturing, field service, testing, and sales and may work in management positions related to engineering, manufacturing, and technology.

The UNH Manchester BS in Mechanical Engineering Technology is accredited by the Engineering Technology Accreditation Commission (ETAC) of [ABET](#).

The programs at UNH Manchester are designed to meet the needs of both full- and part-time students with a mix of classes scheduled during the day and in the evening.

## Student Learning Outcomes

The Engineering Technology program student outcomes include, but are not limited to, the following learned capabilities:

- An ability to apply knowledge, techniques, skills and modern tools of mathematics, science, engineering, and technology to solve broadly-defined engineering problems appropriate to the discipline;
- An ability to design systems, components, or processes meeting specified needs for broadly-defined engineering problems appropriate to the discipline;
- An ability to apply written, oral, and graphical communication in broadly-defined technical and non-technical environments; and an ability to identify and use appropriate technical literature;
- An ability to conduct standard tests, measurements, and experiments and to analyze and interpret the results to improve processes; and
- An ability to function effectively as a member as well as a leader on technical teams.

## English Studies

The majors in English Studies offer students a digital-age curriculum that focuses on the five skills considered most important for success on the job market: critical thinking, creative thinking, written communication, oral communication, and the ability to collaborate as part of a team. Our English Studies majors help students develop these critical skill sets by offering a regionally distinctive, transmedia curriculum that is innovative and cross-disciplinary. As part of their studies in one of our two majors—either Professional and Technical Communications or Literary Studies—students will complete advanced work including a capstone project and/or an internship tailored to their career ambitions.

## English Minor (Manchester)

<https://manchester.unh.edu/program/minor/english>

## Description

With a minor in English, you can complement your major with five classes from our areas of study. We think you'll find that even subjects that seem far apart have an uncanny way of intersecting.

In our literature courses, you might read and research a novel about bioengineering, even as our writing classes give you an opportunity to study the many genres of creative and occupational writing. English

study expands your portfolio of transferable skills while keeping your imaginative faculties in high gear.

Employers from across the professional spectrum are looking for employees with skill sets that include those of an English minor—for instance, the ability to think critically, parse challenging texts, and express new ideas persuasively and creatively. You'll be amazed at what an English minor can do for you both personally and professionally.

For more information, contact [Susanne Paterson](mailto:Susanne.Paterson@unh.edu) ([Susanne.Paterson@unh.edu](mailto:Susanne.Paterson@unh.edu)), Associate Professor, Program Coordinator, and minor supervisor.

## Requirements

To minor in English at UNH Manchester, students must complete five courses (20 credits).

Code	Title	Credits
Required Courses		
ENGL 419	How to Read Anything	4
Electives <sup>1</sup>		16
Total Credits		20

<sup>1</sup> ENGL 401 First-Year Writing and ENGL 415s, "Literature and..." courses and ENGL 444s cannot be applied toward the English minor. No more than two transfer courses may be applied toward the English minor. The minimum acceptable grade for each course is C-.

## English Studies: Literary Studies Major (B.A.)

<https://manchester.unh.edu/program/ba/literary-studies-major>

## Description

Students in the English Studies: Literary Studies program advance their power to analyze keenly and write incisively by studying leading-edge and foundational literary works in print, graphic and digital forms. Gaining a mastery of aesthetics and genre, literary theory and cultural history, our students learn to see how language shapes the world on every scale. English Studies: Literary Studies students take an array of literature classes as well as core courses in digital creative writing and professional and technical communication, making them just the sort of versatile, critically aware graduates prized in workplaces today.

For more information, contact Susanne Paterson, Associate Professor and Program Coordinator, at [Susanne.Paterson@unh.edu](mailto:Susanne.Paterson@unh.edu) ([susanne.paterson@unh.edu](mailto:susanne.paterson@unh.edu)) or the UNH Manchester Office of Admissions ([unhm.admissions@unh.edu](mailto:unhm.admissions@unh.edu)) at (603) 641-4150.

## Requirements

### Degree Requirements

**Minimum Credit Requirement:** 128 credits

**Minimum Residency Requirement:** 32 credits must be taken at UNH

**Minimum GPA:** 2.0 required for conferral\*

**Core Curriculum Required:** Discovery & Writing Program Requirements

**Foreign Language Requirement:** Yes

All Major, Option and Elective Requirements as indicated.  
*\*Major GPA requirements as indicated.*

## Major Requirements

For the English Studies: Literary Studies program at UNH Manchester, students must complete a minimum of 128 credits and satisfy the University's Discovery Program and foreign language requirements, and complete a minimum of 40 credits in major coursework with a minimum grade of C-. The major requirements consist of a minimum of 10 courses. These 10 courses (40 credits) must include the capstone requirement.

Students must earn C or higher in ENGL 419 How to Read Anything, ENGL 502 Professional and Technical Writing, and ENGL 595 Literary Topics in order for these classes to count towards the major.

Code	Title	Credits
Core Courses		
ENGL 419	How to Read Anything	4
ENGL 502	Professional and Technical Writing	4
ENGL 595	Literary Topics (Digital Creative Writing)	4
Development/Extension <sup>1</sup>		
Select three courses of the following:		12
Any 500 or 600-level ENGL courses in literature, literary theory, poetics, or narrative		
Specialization/Practice <sup>1</sup>		
ENGL 787	English Major Seminar <sup>2</sup>	4
ENGL 797	Special Studies in Literature <sup>3</sup>	4
Select two courses of the following:		8
Any 600 or 700 level ENGL electives in literature, literary theory, poetics, or narrative		
Total Credits		40

<sup>1</sup> Students must take *two* pre-1800 literature courses in the major. These courses can be taken either in Development/Extension OR Specialization/Practice categories OR from both categories.  
<sup>2</sup> Capstone course. Students must have earned 90 credits before taking the course.  
<sup>3</sup> Variable topic seminar colloquium.

## Degree Plan

This degree plan is a sample and does not reflect the impact of transfer credit or current course offerings. UNH Manchester undergraduate students will develop individual academic plans with their professional advisor during the first year at UNH.

## Student Learning Outcomes

### English Studies Program Learning Outcomes

Students will be able to:

- Produce clear, compelling, contextually appropriate and well-supported writing.
- Engage with writing as a rhetorical, collaborative, and recursive process from invention to product.
- Demonstrate versatility in writing and speaking within a variety of academic and professional contexts and platforms (including professional and vocational contexts in the form of internships and/or capstone projects).
- Expertly read and analyze texts—literary and non-literary—from diverse time periods, genres, and authorial perspectives.
- Recognize language as culturally, historically, and socially constructed.
- Adeptly use information literacy and technology skills.

## English Studies: Professional and Technical Communications Major (B.A.)

<https://manchester.unh.edu/program/ba/professional-technical-communications-major>

## Description

Students in the English Studies: Professional and Technical Communications program study to become accomplished digital-age communicators. You'll develop transferable skill sets in oral and written communication that prepare you to excel in any professional environment. In addition, you'll learn to communicate and collaborate in specializations of your choice — including, among others, new media journalism, creative nonfiction, business writing, and technical writing.

For more information, contact [Susanne Paterson](mailto:susanne.paterson@unh.edu) ([susanne.paterson@unh.edu](mailto:susanne.paterson@unh.edu)), Associate Professor and Program Coordinator or the [UNH Manchester Office of Admissions](mailto:unhm.admissions@unh.edu) ([unhm.admissions@unh.edu](mailto:unhm.admissions@unh.edu)) at (603) 641-4150.

## Requirements

### Degree Requirements

**Minimum Credit Requirement:** 128 credits

- Recognize language as culturally, historically, and socially constructed.
- Adeptly use information literacy and technology skills.

## Professional Writing Minor

<https://manchester.unh.edu/program/minor/professional-writing>

### Description

The interdisciplinary minor in professional writing introduces you to the many genres of professional writing, providing opportunities to practice your skills in an internship setting.

Courses span the areas of English, Communication Arts, and Computing, and include classes such as Media Writing, Screenwriting, Professional and Technical Writing, Social Media for Organizations and Business, Introduction to Computer Applications, Mobile Computing, as well as others.

For more information, contact [Susanne Paterson](mailto:Susanne.Paterson@unh.edu) ([Susanne.Paterson@unh.edu](mailto:Susanne.Paterson@unh.edu)), Associate Professor, Program Coordinator, and minor supervisor.

### Requirements

Students must complete 22-24 credits for the minor. Courses must be completed with a minimum grade of C- unless otherwise specified, and a 2.0 overall GPA in courses used for the minor is required. A maximum of two transfer courses (3 or 4 credits each) may be applied to the minor. No more than 8 credits used by the student to satisfy major requirements may be used in the minor.

Students should select courses from the following subject areas:

Code	Title	Credits
<b>English Courses</b>		
Select three of the following: <sup>1</sup>		12
ENGL 501	Introduction to Creative Nonfiction	
ENGL 502	Professional and Technical Writing	
ENGL 534	21st Century Journalism: How the News Works	
ENGL 621	Newsriting	

ENGL 631	Digital Reporting	
<b>Communication Arts Courses</b>		
Select at least one of the following:		4
CA 500	Media Writing	
CA 512	Screenwriting	
CA 514	Fundamentals of Video Production	
CA 542	Social Media for Organizations and Business	
<b>Computing Courses</b>		
Select one of the following: <sup>1</sup>		4
COMP 415	Mobile Computing First and For Most	
<b>Internship</b>		
Select one of the following:		2-4
UMST 500	Internship	
Another discipline-based internship approved by the minor supervisor		
<b>Total Credits</b>		<b>22-24</b>

<sup>1</sup> Other courses may fulfill the requirement by permission of the minor supervisor.

## English Teaching

### Shaping skilled English educators through creativity and real-world experience

Inspire others to share your love of reading and writing with our English Teaching program. Considered one of the region's best, our program gives you the tools, guidance and real-world experience for a rewarding career in English education.

Our faculty are not only master teachers, but thoughtful advisors and mentors to those who see themselves as educators. They offer a diverse spectrum of expertise—from Shakespeare to African literature, from 21st century journalism to deep knowledge of standards-based literacy education.

The Accelerated Master's program in Durham allows you to work on requirements for your Master of Arts in Teaching degree while still in the bachelor's program. You'll spend the fifth year interning at an area school, preparing you to become state-certified to teach English Language Arts.

Combine your passion for reading and writing with theories of learning and teaching literacy—leading you to a career helping students develop the skills they need for a lifetime of learning.

## English Teaching Major (B.A.) Manchester

<https://manchester.unh.edu/program/ba/english-teaching-major>

Description

Shaping skilled English educators through creativity and real-world experience

Inspire others to share your love of reading and writing with our English Teaching program. Considered one of the region's best, our program gives you the tools, guidance and real-world experience for a rewarding career in English education.

Our faculty are not only master teachers but also thoughtful mentors to those seeking to become educators. They offer a diverse spectrum of expertise—from Shakespeare to 21<sup>st</sup>-century literature and media, from philosophies of teaching to deep knowledge of standards-based literacy instruction.

The Accelerated Master's program in Durham allows you to work on requirements for your Master of Arts in Teaching degree while still in the bachelor's program. Upon acceptance into the master's program, you can apply 12 undergraduate credits to the advanced degree. Once you've finished your B.A., you'll complete graduate-level coursework in the master's program and undertake a year-long teaching internship where you'll collaborate with a teacher to apply your knowledge in a classroom.

Students who complete the master's program are uniquely well prepared to become leaders in the profession over the long term. State certification is transferable to most other states, and, after five years, 88.7% of UNH master's program graduates report that they are teaching or employed in an education-related job. Join the English Teaching major and turn your passion for English into a fulfilling career serving your community!

For more information, contact [Susanne Paterson](mailto:susanne.paterson@unh.edu) ([susanne.paterson@unh.edu](mailto:susanne.paterson@unh.edu)), Associate Professor and Program Coordinator or the [UNH Manchester Office of Admissions](mailto:unhm.admissions@unh.edu) ([unhm.admissions@unh.edu](mailto:unhm.admissions@unh.edu)) at (603) 641-4150.

Requirements

Degree Requirements

Minimum Credit Requirement: 128 credits

Minimum Residency Requirement: 32 credits must be taken at UNH

Minimum GPA: 2.0 required for conferral\*

Core Curriculum Required: Discovery & Writing Program Requirements

Foreign Language Requirement: Yes

All Major, Option and Elective Requirements as indicated.

\*Major GPA requirements as indicated.

Major Requirements

All English Teaching majors must complete 10 courses (40 credits). Six of 10 courses must be at the 600-level or above. The English Teaching major prepares prospective teachers of middle- and high-school English (grades 5-12). This degree does not provide state certification. Students who wish to be certified must apply for admission to graduate study within the Education Department. Certification requires an additional year of course work and internship at the graduate level. The graduate

coursework and internship can typically be completed in the 12 months following completion of the B.A. in English Teaching.

- Prospective English Teaching majors should enroll in EDUC 500 Exploring Teaching in their sophomore year, or, if a transfer student, as soon as possible thereafter.
- ENGL 419 How to Read Anything must be completed with a minimum grade of C. All other major courses must be completed with a minimum grade of C-.
- English Teaching majors must have a 2.5 GPA in the following program requirements:

Code	Title	Credits
ENGL 419	How to Read Anything	4
ENGL 514W	British Literature III: Revolts, Renewals, Migrations <sup>1</sup>	4
ENGL 516W	American Literature II Money, Migration, and Modernity: Huck Finn to Beloved	4
Select an additional 500/600/700-level English course		4
Select two literature courses 600/700 level		8
ENGL 657	Shakespeare	4
ENGL 710	Teaching Writing	4
ENGL 791	English Grammar	4
ENGL 792	Teaching Literature and Literacy	4
Total Credits		40

Diversity Requirement

Students must take one course that focuses on diversity in race, ethnicity, religion, gender or class, and theories concerning them. This course counts toward the ten courses described above. Consult with your advisor about courses that will fulfill this requirement.

Capstone Requirement

Students must take one capstone course during their senior year from any approved ENGL 700-level course in the major. Students must have earned 90 credits before taking the course. Consult with the program coordinator about courses that will fulfill this requirement.

<sup>1</sup> Cannot be repeated under different course title.

Degree Plan

This degree plan is a sample and does not reflect the impact of transfer credit or current course offerings. UNH Manchester undergraduate students will develop individual academic plans with their professional advisor during the first year at UNH.

writing, engage in reading and writing exercises, produce and practice instructional activities and assessments, evaluate approaches to teaching writing, and review state-level standards and tests. Overall, the aim of the course is recognition of literacy skills (including reading, writing, listening, speaking, and viewing) and consideration of how they can be used for learning goals including comprehension, analysis, description, and evaluation.

Students will:

- Design activities, lessons, and units to meet established standards and objectives in writing and language use.
- Adapt materials for a variety of students' needs, including exceptional learners.
- Identify teaching resources among mentors, professional literature, conferences, organizations (e.g., National Council of Teachers of English [NCTE]), technology, and websites.
- Reflect and write on the theoretical bases for instructional decisions, evaluating professional literature and using appropriate academic conventions.
- Deliver engaging, on-point writing and language instruction appropriate to audience and content; practice a variety of presentation and discussion strategies.

## TESOL Minor (Manchester)

<https://manchester.unh.edu/program/minor/tesol>

### Description

The Teaching English to Speakers of Other Languages (TESOL) Minor is a set of courses designed to prepare students interested in teaching and/or working with multilingual learners. The minor is primarily for students pursuing careers in teaching but is also appropriate for students interested in a range of professions that require regular interaction with a multilingual population (e.g. social work, work force development, public health, and management). It also benefits students who want to later pursue K-12 ESOL certification or a graduate degree in education or linguistics at UNH or another institution. As the cultural and linguistic diversity in PK-16 schools continues to increase, the TESOL Minor is an excellent choice for any student interested in public school teaching.

Additionally, the TESOL Minor may appeal to students who are interested in teaching English to bi-/ multilingual learners in non-K-12 settings, either in the US or abroad. In the U.S. this includes teaching at the post-secondary level, e.g. community colleges, academic enrichment centers at Institutions of Higher Education (IHEs) and at adult learning centers. For students wishing to teach abroad, the TESOL Minor provides a competitive edge over other B.S./B.A. candidates applying for prestigious opportunities such as the Fulbright English Teaching Assistant Program. The minor is also beneficial for students pursuing overseas opportunities (e.g., Peace Corps, World Teach), and, in addition, opens up new international job-seeking possibilities.

For more information, contact [Judy Sharkey \(judy.sharkey@unh.edu\)](mailto:judy.sharkey@unh.edu), Professor of Education or [Susanne Paterson \(susanne.paterson@unh.edu\)](mailto:susanne.paterson@unh.edu), Associate Professor and Program Coordinator.

### Student Learning Outcomes

Students will have the opportunity to compare philosophies of English teaching and learning, and to develop their own approaches to writing and literacy instruction in unit plans and lesson plans. In class, we will discuss theoretical and pedagogical ideas centered on student

Requirements

For the Teaching English to Speakers of Other Languages (TESOL) Minor at UNH Manchester, students must complete 20 credits with a minimum 2.0 grade-point average in these courses overall and with no individual grade lower than a C-. No more than 8 transfer credits will be accepted.

Code	Title	Credits
Required courses		
EDUC 712	Teaching Multilingual Learners <sup>1</sup>	4
ENGL 716	Curriculum, Materials and Assessment in English as a Second Language	4
ENGL 791	English Grammar	4
Select two of the following <sup>2</sup>		8
EDUC 500	Exploring Teaching (with an ESOL placement)	
EDUC 797	Special Topics in Education (related to TESOL) <sup>3</sup>	
ENGL 719	Sociolinguistics Survey	
Total Credits		20

- <sup>1</sup> Since 1998, EDUC 712 Teaching Multilingual Learners has been recognized by the Durham English Department as the equivalent of ENGL 715 Teaching English as a Second Language: Theory and Methods.
- <sup>2</sup> Students may petition to have a TESOL-related course from another major (e.g., English, Communication Arts) serve as an elective.
- <sup>3</sup> Special topics in the past have included: "Language and Culture in Schools & Schooling"; "The Immigrant Experience in Film and Literature"; and "Sociolinguistics and Socioliteracies." Students may petition to have a TESOL- related course from another major (e.g., English, Communication Arts) fulfill the EDUC special topics requirement.

General Studies

The Associate in Arts in General Studies offers students academic flexibility in a program that combines the foundations of a liberal arts education and elective courses that satisfy personal interests.

General Studies (A.A.) Manchester

<https://manchester.unh.edu/program/aa/general-studies>

Description

The associate of arts in general studies offers students academic flexibility in a program that combines the foundations of a liberal arts education and elective courses that satisfy personal interests. The A.A. in general studies is the first two years of a baccalaureate program, and all 400-level courses transfer to and fulfill the University's Discovery requirements. Students who earn an A.A. in general studies have a foundation for continued study in any major while they develop problem-

solving skills, cognitive skills, and learning techniques that are vital to a lifetime of learning. Many students begin their college study in the A.A. general studies program. Depending on personal interests and academic goals, students may choose to apply to a baccalaureate degree program prior to completion of the A.A. degree.

For more information, contact the [UNH Manchester Office of Admissions](#) ([unhm.admissions@unh.edu](mailto:unhm.admissions@unh.edu)) at (603) 641-4150.

Requirements

Degree Requirements

**Minimum Credit Requirement:** 64 credits

**Minimum Residency Requirement:** 16 credits must be taken at UNH

**Minimum GPA:** 2.0 required for conferral\*

**Core Curriculum Required:** Discovery Program

Major, Option, and Elective Requirements as indicated.  
*\*Major GPA requirements as indicated.*

Major Requirements

To graduate with an associate of arts degree in general studies, students must complete 64 credits, earn a minimum cumulative GPA of 2.0, and fulfill two types of requirements: University Discovery Program and degree requirements. The program includes nine courses from the Discovery Program core curriculum. Working with their advisors, students enhance their program of study with elective courses where they can explore their interests and possible baccalaureate degree majors. The last 16 credit hours must be UNH courses completed following admission and matriculation, unless permission is granted to transfer coursework from another institution.

Code	Title	Credits
Discovery Foundations		
Two writing-intensive courses, one of which must be:		8
ENGL 401	First-Year Writing	
One course in quantitative reasoning (must be completed within the first 32 credits)		4

## Homeland Security

### Preparing innovative, dynamic problem-solvers for a safer tomorrow

Today's threat environment is complex and dynamic and includes catastrophic natural disasters such as hurricanes, wildfires, tornadoes and earthquakes, small- to large-scale attacks of violence or terrorism, cybersecurity, climate change, and pandemics. Fully available to students on both campuses (Durham and Manchester), the Homeland Security (HLS) program will give students the tools to help organizations and the nation be safe and resilient.

## Homeland Security Major (B.S.)

<https://manchester.unh.edu/program/bs/homeland-security-major>

## Description

Fully available on both Durham and Manchester campuses, the UNH Homeland Security program is built upon the expertise and advice of subject matter experts from around the Nation. Its proven curriculum includes practical experiences, service and experiential learning opportunities, and consulting opportunities that together empower students to manage programs and to lead people. HLS provides students with an impressive array of tools including how to do strategic planning, how to build emergency management and continuity plans, how to perform an organization-wide security and risk assessments, and how to design and evaluate exercises. The 4-year curriculum is flexible and incorporates the ability for students to complete coursework of "breadth" as either two minors, a double major, or a dual degree. Students transferring with an associate's degree automatically satisfy the breadth requirement. Ultimately, the Homeland Security program empowers students to be successful on the job market or in graduate school.

Homeland security is a broad-field, applied liberal arts degree teaching students critical thinking, writing and analysis skills. As a result, HLS creates several graduate school opportunities and opens students to dozens of career paths in both the public sector (i.e., local, state or federal government), and the private sector or the military. Students will find diverse and rewarding career opportunities in cyber security/information assurance, intelligence analysis, civil or Foreign Service, diplomatic security, law enforcement at the local, state or federal levels, emergency and disaster management, immigration, border and transportation security, policy making, corporate security, risk management, critical infrastructure protection, human security and more.

For additional information, contact [Terrence O'Sullivan](#) ([terrence.osullivan@unh.edu](mailto:terrence.osullivan@unh.edu)), HLS Program Coordinator, or the [UNH Manchester Office of Admissions](#) ([unhm.admissions@unh.edu](mailto:unhm.admissions@unh.edu)) at (603) 641-4150.

Requirements

HLS 770	Internship in Homeland Security	4
or HLS 799	Senior Thesis in Homeland Security	
HLS 790	Capstone in Homeland Security	4
Total Credits		56

Breadth Requirement

In addition to the core HLS courses, students must complete 40 additional credits from either Durham or Manchester campuses, or both, in one of five ways:

- two minors;
- a minor and a "coherent block"/self-designed concentration (i.e., ROTC credits, or credits earned from another major). The coherent block needs to be approved by the HLS coordinator;
- a second major or a UNH dual degree;
- an associate's degree transferred in to UNH;
- some other combination of coursework with consent of the HLS program coordinator.

Degree Plan

This degree plan is a sample and does not reflect the impact of transfer credit or current course offerings. Undergraduate students will develop

individual academic plans with their professional advisor during the first year at UNH.

## Student Learning Outcomes

- Conduct research and work collaboratively to deliver professional, written papers, presentations, and briefs.
- Demonstrate knowledge of contemporary or emergent threats, challenges or issues including natural manmade and technological hazards.
- Apply knowledge and tools gained throughout the HLS program to complete a capstone project.
- Complete an internship in HLS (or a senior thesis in HLS).
- Recognize the concepts of ethics and professionalism in the homeland security enterprise.

## Corporate Security Minor

<https://manchester.unh.edu/program/minor/corporate-security>

### Description

Security threats are all around us. Modern society has demonstrated that all organizations face risks from natural disasters, to disgruntled employees, to foreign terrorists groups such as the Islamic State or Al Qaeda, to domestic terrorists/criminals, to active shooters, cyber-attacks, bioterror threats such as EBOLA, SARS, and anthrax. Further, weather-related events such as Hurricanes Katrina and Sandy, or massive snow storms causing extended shut downs of businesses, tornadoes, earthquakes and potential flood and rain events are always possible and can be devastating to the financial solvency of any organization. Consequently, threats like these have changed how employers evaluate and manage risk.

The relatively rapid rise of the Corporate Security Officer (CSO) in the private sector indicates the deep commitment many organizations now have to enterprise risk management of security threats across all industrial sectors. Corporate security professionals (not “security guards”) plan for future potential events, develop and implement risk management, preparedness and resilience strategies that avoid, transfer or reduce the risk to the organization posed by these threats. The need for corporate security expertise has likely never been greater.

For more information about the Homeland Security minor on either campus, contact [Anthony Schilling \(Anthony.Schilling@unh.edu\)](mailto:Anthony.Schilling@unh.edu), minor supervisor.

## Requirements

The corporate security minor requires students to complete five courses (20 credits).

All five courses applied to the corporate security minor must be completed with a minimum grade of C- and an overall GPA of 2.0.

Students must take at least three 500-level or above courses to complete the minor, noting no more than two courses (8 credits) may also be used in the HLS major.

Code	Title	Credits
<b>Required courses</b>		<b>16</b>
HLS 415	Fundamentals of Corporate Security

HLS 640	Forensic Accounting	
<b>Total Credits</b>		<b>20</b>

## Cybersecurity Policy Minor

<https://manchester.unh.edu/program/minor/cybersecurity-policy>

### Description

The Minor in Cybersecurity Policy introduces students to the basics of cybersecurity, as well as to societal and business mandates for incorporating cybersecurity into an organization's policies and governance structures. We study techniques for communicating about cybersecurity, and we explore solutions for sustaining cybersecurity within a variety of organizations.

This minor is available to both UNH Durham and Manchester students. Students must be accepted into a participating accelerated master's program to complete this minor.

Some courses may be taken at any time, but other courses may be taken only *after a student is accepted into one of the participating accelerated master's programs*, which currently include:

- Master of Science in Cybersecurity Policy and Risk Management (MS CPRM)
- Master in Public Policy (MPP)
- Master of Public Administration (MPA)

For more information, contact [Professor Maeve Dion \(Maeve.Dion@unh.edu\)](mailto:Maeve.Dion@unh.edu), minor coordinator.

## Requirements

Some courses may be taken at any time, but other courses may be taken only after a student is accepted into one of the participating accelerated master's programs.

The minor requires at least five courses, and all courses must be completed with a minimum grade of C- and an overall GPA of 2.0. (Note

that you may need higher minimum grades and GPA for these courses to count toward your undergraduate major or your master's degree.)

No more than two courses used to satisfy undergraduate major requirements may be used for the minor.

If a student is enrolled in both sections of a dual-listed course, only one will be counted toward the courses needed to achieve the minor.

**IMPORTANT:** Pursuant to Graduate School policy for accelerated master's, **students must complete 90 credits before taking 800-level courses** (thus, you may apply to the accelerated master's program in your junior year, and once admitted, you would take the 800-level courses in your senior year). Read more about accelerated master's programs here: <https://gradschool.unh.edu/academics/accelerated-masters-program>.

Code	Title	Credits

<b>Total Credits</b>		<b>16-19</b>

<sup>1</sup> An unlisted elective may only be included with prior approval from the minor coordinator.

# Emergency Management Minor

<https://manchester.unh.edu/program/minor/emergency-management>

## Description

The objective of the academic minor in Emergency Management (EM) is to allow students to achieve one half of the HLS breadth requirement in a discipline closely related to Homeland Security. The Federal Emergency Management Agency (FEMA) defines Emergency Management (EM) as “the managerial function charged with creating the framework within which communities reduce vulnerability to hazards and cope with disasters.”

Students completing this minor will have a composite view of emergency management, and its integral role in Homeland Security and resilience, as well as how to design emergency management plans, continuity of operations plans and how to design and evaluate exercises in both the public and private sectors. As such, the minor in EM formalizes an academic credential in an area vital to Homeland Security and of

interest to several other disciplines and professions such as business, law enforcement, the government, the military, etc.

For more information about the Emergency Management minor on either campus, contact Terrence O’Sullivan, minor supervisor, at [Terrence.O’Sullivan@unh.edu](mailto:Terrence.O’Sullivan@unh.edu) ([terrence.osullivan@unh.edu](mailto:terrence.osullivan@unh.edu)).

## Requirements

The Minor in Emergency Management will require five courses (20 credits). Two courses are also required by the Homeland Security major (Department of Security Studies) which provides the foundation for the minor and two from the Geography Department. One additional course from a list of electives is required to complete the minor. Students may take an unlisted course as an elective but only with prior approval by the minor coordinator.

Code	Title	Credits

# Global Studies Minor (Manchester)

<https://manchester.unh.edu/program/minor/global-studies>

## Description

Globalization is a complex web of interwoven processes that affect virtually all facets of our daily lives, from pop culture to economics, politics to climate and everything in between. Many of the pressing problems of the 21st Century – climate change, environmental sustainability, terrorism, pandemics, etc. – transcend national boundaries and will need to be solved as a global community. The Global Studies minor explores the challenges and opportunities that arise from living in an increasingly inter-connected world and also cultivates cross-cultural awareness by encouraging students to view issues from different cultural perspectives.

The Global Studies minor has four thematic pillars: culture & society, governance & conflict, economics & interdependence, and environment & health.

**Governance & Conflict:** explores the challenges of global governance in an increasingly inter-connected world of societies with different political and economic systems; analyzes the causes and effects of conflict and examines techniques for conflict resolution

**Culture & Society:** explores the values, norms, art and literature of different cultures around the world and throughout history, and their inter-relatedness

**Environment & Health:** explores human security issues, such as food security, health and disease, environmental sustainability and climate change

**Economics & Interdependence:** explores the politics, policies and practices of international trade and finance, and the development and effects of economic interdependence

For more information, contact [Melinda Negron-Gonzales](mailto:Melinda.Negron-Gonzales@unh.edu) ([Melinda.Negron@unh.edu](mailto:Melinda.Negron@unh.edu)), minor supervisor.

## Requirements

All five courses applied to the Global Studies minor must be completed with a minimum grade of C- and an overall GPA of 2.0. The five courses must span at least two different thematic pillars. Students must take at least three 500-level or above courses to complete the minor. Students wishing to use transfer credits from other universities should meet with the minor supervisor to determine eligibility toward the minor.

Students in the accelerated master's track in [Global Conflict & Human Security](#) may use up to three courses or nine credits of approved 800-level courses in the GCHS master's degree toward the minor.

Students in the accelerated master's tracks in Public Policy or Public Administration may use up to two courses or six credits of approved 800-level PPOL and PA courses toward the minor.

In total, students may use up to 12 credits of 800-level courses toward the global studies minor.

Code	Title	Credits
Select five approved courses in at least two of the four pillars:		16-20
<b>I. Governance &amp; Conflict</b>		
POLT 403	United States in World Affairs	
HLS 505	Political Violence and Terrorism	
HLS 555	Comparative Homeland Security Systems	
HLS 580	Environmental and Human Security	
HLS 656	Comparative Homeland Security Systems Lab	
PS 509	Political and Social Change in Developing Countries	
PS 511	Women and War

## History Minor (Manchester)

<https://manchester.unh.edu/program/minor/history>

## Description

An excellent complement to any degree, a History minor helps you build a foundational understanding of the political, social, economic and cultural forces that influence human life.

For more information, contact [Sonic Woytonik](mailto:Sonic.Woytonik@unh.edu) ([Sonic.Woytonik@unh.edu](mailto:Sonic.Woytonik@unh.edu)), minor supervisor.

## Requirements

To earn a minor in history, students must complete 20 credits with no individual grade lower than C- and a 2.0 grade-point average in minor courses. Up to 8 transfer credits may be used toward the history minor.

Code	Title	Credits
Any five history (HIST) courses <sup>1</sup>		20

<sup>1</sup> Two must be 500 level or above

## Homeland Security Minor

<https://manchester.unh.edu/program/minor/homeland-security>

## Description

Today's threat environment is complex and dynamic and includes threats from small- to large-scale attacks of violence or terrorism, to cybersecurity to catastrophic natural disasters such as hurricanes, wildfires, tornadoes and earthquakes. Fully available to students on both campuses (Durham and Manchester), the Homeland Security (HLS) minor

will give students an excellent glimpse at what it takes to keep the nation safe and resilient.

The minor in Homeland Security (HLS) is designed to provide a professional experience to students *not* majoring in Homeland Security, but who are interested in aspects of the homeland security profession. Students will see how Homeland Security issues, challenges, and tools are related to their specific major and how Homeland Security can be used to embellish their careers.

For more information about the Homeland Security minor on either campus, contact Terrence O'Sullivan, HLS program coordinator and minor supervisor, at [Terrence.O'Sullivan@unh.edu](mailto:Terrence.O'Sullivan@unh.edu) ([terrence.osullivan@unh.edu](mailto:terrence.osullivan@unh.edu)).

## Requirements

The minor in homeland security requires five courses (20 credits). Students must earn grades of at least C- in each course and an overall GPA of 2.0 in minor courses. Transfer students may transfer up to two courses, subject to the approval of the HLS program coordinator. Courses taken on a pass/fail basis may not be used for the minor. Homeland Security majors cannot use the HLS minor as a breadth area.

Code	Title	Credits
Required courses		
HLS 410	Introduction to Homeland Security	4
HLS 455	Introduction to Cybersecurity	4
or HLS 415	Fundamentals of Corporate Security	
Select three of the following:		12
HLS 505	Political Violence and Terrorism	
HLS 510	Fundamentals of Emergency Management	
HLS 515	Critical Infrastructure Security and Resilience	
HLS 520	Homeland Security Law and Policy	
HLS 555	Comparative Homeland Security Systems	
HLS 580	Environmental and Human Security	
HLS 650	Topics in National Security Intelligence	
HLS 760	Strategic Planning and Decision Making	
Total Credits		20

## National Security Intelligence Minor

<https://manchester.unh.edu/program/minor/national-security-intelligence>

### Description

The objective of this academic minor is to allow students to study intelligence issues and challenges related to US national security.

National Security Intelligence may be defined as a secret nation state activity to understand, influence, or defend against adversarial entities. Students may take courses in multiple disciplines across UNH while pursuing the national security intelligence minor. Students completing this minor will have a composite view of national security intelligence and related topics that may support career path in the government, private sector, and not for profit realms.

For more information about the National Security Intelligence minor on either campus, contact [Andrew Macpherson](mailto:Andrew.Macpherson@unh.edu) ([andrew.macpherson@unh.edu](mailto:andrew.macpherson@unh.edu)), minor supervisor.

## Requirements

The Minor in National Security Intelligence requires five courses. Student completing the minor must take three courses originating in the Department of Security Studies which provide the foundation for the minor. Students will build upon this foundation with two additional intermediate course electives from the Department of Security Studies or other departments across UNH.

Code	Title	Credits
Required courses		
HLS 550	History and Structure of the U.S. Intelligence Community	4
HLS 650	Topics in National Security Intelligence	4
Select one of the following required courses:		4

Total Credits		18

## Terrorism Studies Minor

<https://manchester.unh.edu/program/minor/terrorism-studies>

### Description

Terrorism is often a top priority of US national and homeland security agencies such as the Department of Defense, Intelligence Community, FBI, CIA, Department of Homeland Security, and State Department. The terrorism studies minor explores the causes, dynamics, and prevention of violent extremism at home and abroad. Courses explore different types of violent extremism and the range of counterterrorism strategies used in the US and other countries. Courses offer both a multidisciplinary and interdisciplinary perspective. This means that some courses will explore phenomena primarily through one disciplinary lens whereas others will weave together different disciplinary perspectives.

For more information about the Terrorism Studies minor on either campus, contact [Melinda Negron-Gonzales](mailto:Melinda.Negron-Gonzales@unh.edu) ([melinda.negron@unh.edu](mailto:melinda.negron@unh.edu)), minor supervisor and Global Conflict & Human Security graduate program coordinator.

## Requirements

The terrorism studies minor requires students to complete five courses (18-20 credits). All five courses applied to the terrorism studies minor must be completed with a minimum grade of C- and an overall GPA of 2.0. Students must take at least three 500-level or above courses to complete the minor. Transfer students may transfer up to two courses, subject to the approval of the Homeland Security program coordinator. Courses taken on a pass/fail basis may not be used for the minor. No more than eight credits to satisfy major requirements may be used in the minor. Students in accelerated [Global Conflict and Human Security](#) master's programs may use up to six credits of 800-level courses.

Code	Title	Credits
<b>Required courses</b>		
HLS 505	Political Violence and Terrorism	4
HLS 555	Comparative Homeland Security Systems	4
HLS 650	Topics in National Security Intelligence	4
<b>Select two of the following:</b>		<b>6-8</b>

## Humanities

### Shaping insightful thinkers through liberal arts exploration

Channel your curiosity about the human condition with our highly interdisciplinary Humanities program. With self-designed concentrations and faculty mentorship, you'll develop the intellectual, analytical and communication skills that will set you apart in any industry.

As a Humanities major, you'll sharpen your abilities in analysis and critical thinking through exploration of diverse works of art, music, literature, history, philosophy and the sciences. Let your interests fuel your studies with self-designed concentrations, from the social and ethical implications of genetic engineering to the examination of a historical period through literature, the arts and more.

With the personalization to tailor your degree to the future you want, the skills and knowledge you'll gain will help you reach your career goals.

## Humanities Major (B.A.) Manchester

<https://manchester.unh.edu/program/ba/humanities-major>

## Description

The UNH Manchester Humanities program focuses on the world's great cultures and how humans interact with the world. Students take an interdisciplinary approach in studying works from an array of regions and time periods, exploring how cultural productions emerge from a rich social environment. Drawing from history, literature, art, philosophy, politics, and the sciences, the Humanities program not only provides foundational skills in the true liberal arts tradition but also gives students the flexibility to design a program of study keyed to their own interests.

The program attracts highly motivated students who wish to assume significant responsibility for the content and direction of their studies. Individually designed programs may cover the full range of student interests: for example, the social and ethical implications of genetic engineering or the examination of a historical period through study of its literature, arts, history, philosophy, and sciences. Humanities students develop skills of analysis, critical assessment, and effective communication, completing their major with two capstone seminars. The first seminar, explores the nature of creativity through the lives and works of individuals such as Leonardo da Vinci, Kathe Kollwitz, Mozart, Freud, Einstein, and Georgia O'Keeffe. The second seminar, explores current social and political issues with a focus on developments in public policy, science, and business, and their impact on social values.

A Humanities major or minor can complement work in other majors such as English Teaching, Business, Communication Arts, Psychology, or Computing Information Systems. Humanities majors find employment in a wide range of fields or pursue graduate study in subjects such as law or education. The skills and knowledge developed through the major are important in virtually all social and career responsibilities.

For more information, contact Phillip Deen ([phillip.deen@unh.edu](mailto:phillip.deen@unh.edu)), program coordinator or the [UNH Manchester Office of Admissions](#) ([unhm.admissions@unh.edu](mailto:unhm.admissions@unh.edu)) at (603) 641-4150.

## Requirements

### Degree Requirements

**Minimum Credit Requirement:** 128 credits

**Minimum Residency Requirement:** 32 credits must be taken at UNH

**Minimum GPA:** 2.0 required for conferral\*

**Core Curriculum Required:** Discovery & Writing Program Requirements

Foreign Language Requirement: Yes

All Major, Option and Elective Requirements as indicated.  
\*Major GPA requirements as indicated.

Major Requirements

For the Humanities major at UNH Manchester, students must complete a minimum of 128 credits and satisfy the University's Discovery Program and foreign language requirements, and students must complete 40 credits with a minimum grade of C in each course in the major.

Code	Title	Credits
Core Courses		
HIST 500 or ENGL 419	Introduction to Historical Thinking How to Read Anything	4
HUMA 411	Humanities I	4
HUMA 412	Humanities II	4
Self-Designed Concentration <sup>1</sup>		20
Capstone Seminar Courses		
HUMA 795	Study of Creativity	4
HUMA 796	Study of Contemporary Issues	4
Total Credits		40

<sup>1</sup> This is an approved program of study designed by the student in consultation with a faculty advisor. In addition to courses available on the Manchester campus, students may, with prior approval, use courses from area colleges and the University's Durham campus. The concentration is made up of two Humanities courses (HUMA prefix) at the 600 or 700 level and three courses from any relevant discipline at any level.

Degree Plan

This degree plan is a sample and does not reflect the impact of transfer credit or current course offerings. UNH Manchester undergraduate students will develop individual academic plans with their professional advisor during the first year at UNH.

Student Learning Outcomes

- Students will be able to:
- Think critically, and across disciplines, in analyzing and comparing works produced within given cultures or historical periods.
  - Conduct and present multidisciplinary research in written, oral, or other forms.
  - Identify and evaluate primary and secondary sources appropriate for research within the humanities.

Humanities Minor (Manchester)

<https://manchester.unh.edu/program/minor/humanities>

## Description

The Humanities minor is an interdisciplinary program where students can combine Humanities courses and courses from other disciplines that form a multidisciplinary theme or topic. The minor in Humanities is an excellent way to add breadth of perspective to specialized study in particular disciplines. Many professions encourage students to develop skills and knowledge outside their area of professional interest. The Humanities minor can meet this objective and make college education a more enlightening and rewarding experience. Students selecting a minor in Humanities should, in consultation with a faculty advisor in Humanities, identify a general theme or topic for the minor.

For more information, contact [Phillip Deen](mailto:phillip.deen@unh.edu) ([phillip.deen@unh.edu](mailto:phillip.deen@unh.edu)), minor supervisor.

## Requirements

To earn a minor in Humanities, students must complete 20 credits with no individual grade lower than C in minor courses.

Code	Title	Credits

ENGL 419	How to Read Anything	4
Select at least two courses in the Humanities (HUMA)		8
Select more courses in Humanities (HUMA) or choose complementary courses from other disciplines, such as English, Philosophy, Communication Arts, Public Service and Nonprofit Leadership, or Business, which contribute to the student's multidisciplinary theme or topic. <sup>1</sup>		8
<b>Total Credits</b>		<b>20</b>

<sup>1</sup> Select in consultation with a faculty advisor in Humanities.

## Neuropsychology

### Explore the human brain to fuel research, innovation, and discovery

Channel your curiosity about the human brain and behavior in our cutting-edge Neuropsychology program. Fusing core components of biology and psychology, this program prepares students for an impactful career in the growing field of neuroscience.

You'll explore the concepts behind normal human behavior, from learning and memory to sensation and perception. You'll also examine complex neurological conditions like dementia, addiction and mood and movement disorders.

Guided by faculty experts in our innovative research labs, you'll gain the empirical, analytic and communication skills that will make you stand out in your career — or in your application to graduate or medical school.

## Faculty

[Neuropsychology Faculty](#)

## Neuropsychology Major (B.S.)

<https://manchester.unh.edu/program/bs/neuropsychology-major>

## Description

Neuropsychology is the study of the human brain and its relation to behavior. The UNH Manchester program focuses on the biological basis of human functioning in both normal and pathological states (e.g., dementia, depression) and therefore, prepares students for careers working with individuals with various mental health and neurological conditions. This interdisciplinary program offers a concentration of core and advanced courses in psychology and biology while providing sufficient flexibility for students to customize their education in order to meet specific requirements for their chosen career path, including the health professions.

The neuropsychology program prepares students for a variety of careers within the field of neuroscience, including bachelor-level positions and graduate training in research and health professions. At the bachelor-level, students are prepared for positions in healthcare (e.g., clinical laboratory technologist, psychometrician) and biomedical research (research assistant). The program is also designed to provide the flexibility needed to prepare students for graduate training in the health professions, such as being a physician, physician assistant, psychologist, neuropsychologist, or occupational therapist. Students interested in medical school are able to complete premedical requirements within four years.

For more information about the neuropsychology program, contact [Alison Paglia](mailto:alison.paglia@unh.edu) ([alison.paglia@unh.edu](mailto:alison.paglia@unh.edu)), Ph.D., program coordinator, [Daniel Seichepine](mailto:Daniel.Seichepine@unh.edu) ([Daniel.Seichepine@unh.edu](mailto:Daniel.Seichepine@unh.edu)), Ph.D., or the [UNH Manchester Office of Admissions](#) ([unhm.admissions@unh.edu](mailto:unhm.admissions@unh.edu)) at (603) 641-4150.

## Requirements

### Degree Requirements

**Minimum Credit Requirement:** 128 credits

**Minimum Residency Requirement:** 32 credits must be taken at UNH

**Minimum GPA:** 2.0 required for conferral\*

**Core Curriculum Required:** Discovery & Writing Program Requirements

**Foreign Language Requirement:** No

All Major, Option and Elective Requirements as indicated.

\*Major GPA requirements as indicated.

### Major Requirements

Students majoring in neuropsychology must complete a minimum of 128 credits and satisfy the University's Discovery Program, and complete 56 credits in the major with a minimum of C- in each course and a 2.0 overall grade-point average in all major requirements. Three courses in the major can be used to fulfill both a major requirement and a Discovery

requirement, providing students with more flexibility to customize their education.

Transfer students who elect to major in neuropsychology must complete at least 32 credits in the program at UNH to qualify for the degree in neuropsychology. The department’s academic advisors will determine the distribution of these credits. Transfer students should note that courses are allotted only the number of credits granted by the original institution (after adjustments for semester-hour equivalents). Thus, students transferring from an institution at which courses carry less than four credits each must make up for any credit deficit created by acceptance of transfer credits into the neuropsychology major.

Specific course selections should be discussed with the advisor. Exceptions to the requirements for the major require a petition to the department.

## Student Learning Outcomes

A student successfully completing this program will obtain the following competencies:

- Understand fundamental principles in both psychology and biology, such as the scientific method, statistical analysis and cellular biology.
- Understand the biological basis for normal human behavior (e.g. sensation, perception, learning and memory, etc.) and for common neurological disorders (e.g. dementia, addictions, etc.).
- Demonstrate the ability to gather, analyze, evaluate, and integrate peer-reviewed scientific articles in neuroscience. Additionally, students will learn to write literature reviews in American Psychological Association format.
- Understand ethical issues in research and clinical applications of neuropsychology.
- Effectively communicate complex neurobiological topics both orally and in writing.

## Philosophy

### Programs

- [Philosophy Minor \(Manchester\)](#) (p. 451)

## Philosophy Minor (Manchester)

<https://manchester.unh.edu/program/minor/philosophy>

### Description

Philosophy is the study of the fundamental nature of truth, existence, beauty, morality, and justice. People study philosophy to understand the basic principles of science, art, and the human condition.

Though this sounds abstract, a background in philosophy is excellent training for any walk of life. Philosophy offers training for a variety of careers by providing a unique combination of life-long skills: analytic and interpretive skills, critical reasoning skills, the enhanced capacity to detect problems and to solve them, excellence in oral and written presentation and defense of one's ideas, skill at asking probing and central questions about the ideas of others (as well as about one's own ideas), and skill at effectively understanding, organizing, and evaluating complex systems of thought.

For more information, contact [Phillip Deen \(phillip.deen@unh.edu\)](mailto:phillip.deen@unh.edu), minor supervisor.

## Requirements

A philosophy minor consists of five (5) philosophy courses (for a total of 20 credits) with a grade of C- or above. At least one of the philosophy courses must be at the 500-level or higher.

Code	Title	Credits
PHIL course at 500-level or higher		4
Four elective PHIL courses		16
<b>Total Credits</b>		<b>20</b>

PHIL 495 Tutorial Reading and PHIL 795 Independent Study may be used towards the minor only with special approval.

## Psychology

### Explore the biopsychosocial factors that drive thoughts and behaviors

Explore the science of behavior and mental processes in our Psychology program, bringing classroom learning to life in our research labs and in the field. Guided by faculty who are experts in their disciplines, you'll develop a broad background in the field — including perceptual, biological, clinical/counseling, and developmental psychology.

Our program prepares you for careers aimed at improving lives ranging from research assistant to mental health worker, social welfare caseworker to teaching. You'll also foster skills that are attractive and useful in all industries, including critical and logical thinking, data analysis, research, scientific communication and more.

## Psychology Major (B.A.) Manchester

<https://manchester.unh.edu/program/ba/psychology-major>

### Description

Psychology is the scientific study of behavior and mental processes. The UNH Manchester psychology program provides students with a broad background in psychology, introducing them to both the experimental and clinical perspectives in the field.

The psychology program, through its independent study and internship programs, offers opportunities for participation in cooperating New Hampshire mental health, human services, and rehabilitation facilities. Students have worked in hospitals, halfway houses, mental health

centers, and other agencies. The department also invites guest speakers to discuss important issues in the field and sponsors a Psychology/Neuropsychology Club.

Psychology graduates find employment as trained research assistants, mental health aides in a wide variety of human services agencies, social welfare caseworkers, teachers in special education programs, and professionals in government, business, and industry. It is normally expected that students who wish to do professional clinical work will need to pursue graduate training at the master's or doctoral level.

For more information about the psychology program, contact [Alison Paglia](#) ([alison.paglia@unh.edu](mailto:alison.paglia@unh.edu)), program coordinator, or the [UNH Manchester Office of Admissions](#) ([unhm.admissions@unh.edu](mailto:unhm.admissions@unh.edu)) at (603) 641-4150.

# Requirements

## Degree Requirements

- Minimum Credit Requirement:** 128 credits
- Minimum Residency Requirement:** 32 credits must be taken at UNH
- Minimum GPA:** 2.0 required for conferral\*
- Core Curriculum Required:** Discovery & Writing Program Requirements
- Foreign Language Requirement:** Yes

All Major, Option and Elective Requirements as indicated.  
\*Major GPA requirements as indicated.

## Major Requirements

Students majoring in psychology must complete a minimum of 128 credits, satisfy the University's Discovery Program and foreign language requirements, and complete 44 credits with a minimum of C- in each course and a 2.0 overall grade-point average in all major requirements.

Transfer students who elect to major in psychology must complete at least 24 credits in the program at UNH/UNH Manchester to qualify for the degree in psychology. Transfer students must earn a total of 44 approved credits for completion of the psychology major. The department's academic advisors will determine the distribution of these credits. Transfer students should note that courses are allotted only the number of credits granted by the original institution (after adjustments for semester-hour equivalents). Thus, students transferring from an institution at which courses carry less than four credits each must make up for any credit deficit created by acceptance of transfer credits into the psychology major. Only courses taken in a psychology department can be transferred into the psychology major. Of the four 700-level courses required for the major, at least three must be taken at UNH.

The courses listed below are offered on the UNH Manchester and/or Durham campuses; specific course selections should be discussed with the advisor. Exceptions to the requirements for the major require a petition to the department.

Code	Title	Credits
Core Courses		
PSYC 401	Introduction to Psychology	4
PSYC 402	Statistics in Psychology	4
PSYC 502	Research Methods in Psychology	4
Breadth (500-level) courses		

Select two of the following courses from Group I:		8
PSYC 511	Sensation and Perception	
PSYC 512	Psychology of Primates	
PSYC 513	Cognitive Psychology	
PSYC 521	Behavior Analysis	
PSYC 522	Behaviorism	
PSYC 531	Psychobiology	
Select two of the following courses from Group II:		8
PSYC 552	Social Psychology	
PSYC 553	Personality	
PSYC 561	Abnormal Behavior	
PSYC 571	Pioneers of Psychology	
PSYC 581	Child Development	
Depth (700-level) courses		
Select two of the following courses from Group I:		8
PSYC 705	Tests and Measurement <sup>1</sup>	
PSYC 710	Visual Perception	
PSYC 712	Psychology of Language	
PSYC 713	Psychology of Consciousness	
PSYC 716	Cognitive Neuroscience	
PSYC 720	Animal Cognition	
PSYC 722	Behaviorism, Culture, and Contemporary Society	
PSYC 731	Brain and Behavior	
PSYC 733	Drugs and Behavior	
PSYC 735	Neurobiology of Mood Disorders	
PSYC 736	Attention Disorders	
PSYC 737	Behavioral Medicine	
PSYC 741W	Special Topics	
Select two of the following courses from Group II:		8
PSYC 705	Tests and Measurement <sup>1</sup>	
PSYC 755	Psychology and Law	
PSYC 756	Psychology of Crime and Justice	
PSYC 757	Psychology of Happiness	
PSYC 758	Health Psychology	
PSYC 762	Counseling	
PSYC 780	Prenatal Development and Infancy	
PSYC 783	Cognitive Development	
PSYC 785	Social Development	
PSYC 791	Special Topics	
or PSYC 791W	Special Topics	
PSYC 793	Internship	
Capstone Requirement (taken in senior year)		
See below		
Total Credits		44

<sup>1</sup> May be substituted for a Group I or Group II course, but they may not both be used to fill the same group.

## Discovery Capstone:

The Discovery Program capstone requirement, taken during the senior year, may be fulfilled by completing one of the following options:

1. PSYC 793 Internship: This will count towards fulfilling the capstone and a group II 700-level psychology course. By taking PSYC 793 Internship, the capstone will be considered fulfilled.
2. PSYC 795 Independent Study: Students can designate a 4 credit independent study as their capstone experience. Students should also register for PSYC 798 Capstone, a 0 credit course to reflect that the capstone experience is fulfilled.
3. One 700-level course designated as capstone. A capstone designated 700-level course will count towards fulfilling the capstone and a 700-level course. Students will register for PSYC 798 Capstone, a 0 credit course to reflect the capstone experience is fulfilled. **See guidelines below:**

- You may take any eligible 700-level Psychology course in your **senior year** (90+ completed credits) for Capstone credit.
- Ask your professor about the possibility of taking the course for Capstone credit. Remember that your professor is not obligated to designate a course for Capstone credit. Please be respectful in approaching your professor, and if the answer is no, please accept this decision.
- Meet and discuss with your professor what you will be doing to constitute your Capstone experience. In some cases, it will be an extra assignment; in others it will involve the expansion of existing class work. Your professor will use his/her professional discretion to determine what constitutes as your Capstone experience.
- If approved, you will register for PSYC 798 Capstone in addition to the 700-level course.

The psychology department does not accept other departments' statistic courses toward the psychology major. Students who have taken a statistics course other than PSYC 402 Statistics in Psychology must pass a competency exam in order to declare the major and/or register for PSYC 402 Statistics in Psychology.

Students who plan to transfer to Durham should consult with their advisor.

## Degree Plan

This degree plan is a sample and does not reflect the impact of transfer credit or current course offerings. UNH Manchester undergraduate students will develop individual academic plans with their professional advisor during the first year at UNH.

## Student Learning Outcomes

- Demonstrate fundamental knowledge and comprehension of the major concepts, theoretical perspectives, historical trends, and empirical findings in psychology.
- Understand basic research methods in psychology including design, data analysis, and interpretation; and utilize this knowledge to conduct their own psychological research, with an appreciation of the ethical issues involved in human and non-human research.
- Engage in scientific reasoning and problem solving so that they can evaluate the quality and implications of scientific research.
- Write empirical research reports and literature reviews in American Psychological Association style and present findings from scientific research.

## Psychology Minor (Manchester)

<https://manchester.unh.edu/program/minor/psychology>

Description

The Psychology minor brings a unique perspective on society and human behavior to your studies and adds a set of skills that makes you stand out to employers in a variety of industries.

For more information, contact [Alison Paglia](#), program coordinator and minor supervisor.

Requirements

Course Requirements

Code	Title	Credits
PSYC 401	Introduction to Psychology	4
Two PSYC courses at the 500-level or higher		8
Two additional PSYC courses		8
Total Credits		20

- No more than 4 credits of PSYC 795 Independent Study may be applied to the minor.
- A maximum of 9 approved psychology transfer credits can be applied to the UNH psychology minor.
- Transfer courses must be evaluated for their equivalency. Only courses taken in a psychology department can be applied towards the minor.
- Three-credit transfer courses can be applied as only three credits. Students must make up the credit deficit created by acceptance of transfer courses, with one exception: one three-credit course accepted in transfer may be applied for a total of 19 credits.
- AP Psychology transferred into UNH is equivalent as PSYC 401 Introduction to Psychology.

Public Service and Nonprofit Leadership

<https://manchester.unh.edu/academics/degree-programs/public-service-and-nonprofit-leadership>

Overview

*Beginning in the 2023-2024 academic year, the Public Service and Nonprofit Leadership major will no longer be accepting new students. Current Public Service and Nonprofit Leadership students will continue to have access to the same high-quality education and resources until they graduate.*

The bachelor of science degree in public service and nonprofit leadership provides an interdisciplinary, applied approach to the study of public and not-for-profit institutions and actors. Students explore the ways that leaders and citizens work in and around governments to address the complex problems confronted by N.H. and the U.S. today.

All students choose a path that enables them to complete an accelerated Masters in Public Policy or Masters in Public Administration, where they take their most advanced courses in the Major alongside graduate students in the UNH Carsey School of Public Policy. Those courses count as 12 credits toward their BS degree and as 9 credits toward a UNH-Carsey MPP or MPA, should a student choose to continue on to a Masters. Most students entering as

first-year students will be able to complete a combined BS/MPA or BS/MPP within five years.

Community Leadership Minor

<https://manchester.unh.edu/program/minor/community-leadership>

Description

The Community Leadership Minor provides students with opportunities to develop leadership principles, values, practices, and processes with a combination of academic and experiential learning. Coursework emphasizes hands-on student involvement and learning in a variety of settings to build professional and civic competencies.

Upon the completion of the Community Leadership Minor, students will be able to:

- Demonstrate the six Career and Leadership Competencies (critical thinking, communication, teamwork, self-awareness, professionalism, and leadership) necessary to be an effective leader and community member.
- Apply concepts of social justice topics, including social identities, privilege, and power into current and future leadership roles.
- Articulate and apply their leadership philosophy, skills, and attributes into current and future leadership roles.

For more information, contact minor supervisor, [Lisa Enright](#) ([lisa.enright@unh.edu](mailto:lisa.enright@unh.edu)).

Requirements

The Community Leadership Minor consists of 20 credits from the courses below. The minimum grade requirement for each course is C-.

Code	Title	Credits
Required Courses		
PS 425	Exploring Leadership	2
PS 426	Social Justice & Leadership	2
PS 731	Community Leadership - Capstone	4
Elective Courses <sup>1</sup>		12
PS 430	The Mindful Leader	
PS 501	Social and Political-Economic Theory	
or PHIL 436	Social and Political Philosophy	
PS 506	Civil Society and Public Policy	
PS 507	Justice, Law and Politics	
PS 515	New Hampshire Politics in Action	
PS 595	Research for Political and Policy Action	
PS 750	Poverty & Inequality Past and Present	
PHIL 430	Ethics and Society	
BUS 400	Introduction to Business	
BUS 453	Leadership for Managers	

BUS 620	Organizational Behavior
BUS #635	Entrepreneurial Application through Enactus
CA 508	Conflict in Relational Communication
CMN 457	Introduction to Language and Social Interaction
UMST 599	Special Topics (Peer Educator Development)
INCO 505A	Semester in the City Becoming a Problem Solver
INCO 505B	Social Innovator's Toolbox
INCO 505I	Semester in the City: Boston and SITC @ UNH Internship

Total Credits

20

<sup>1</sup> Must take a total of 12 credits. Courses from any discipline that have a significant service-learning component may also count as electives, at the discretion and with the permission of the Minor Advisor/Supervisor.

## Public Service and Nonprofit Leadership Major (B.S.)

<https://manchester.unh.edu/program/bs/public-service-nonprofit-leadership-major>

### Description

*Beginning in the 2023-2024 academic year, the Public Service and Nonprofit Leadership major will no longer be accepting new students. Current Public Service and Nonprofit Leadership students will continue to have access to the same high-quality education and resources until they graduate.*

The bachelor of science degree in public service and nonprofit leadership provides an interdisciplinary, applied approach to the study of public and not-for-profit institutions and actors. Students explore the ways that leaders and citizens work in and around governments to address the complex problems confronted by New Hampshire and the United States today.

All students choose a path that enables them to complete an accelerated Masters in Public Policy or Masters in Public Administration, where they take their most advanced courses in the Major alongside graduate students in the UNH Carsey School of Public Policy. Those courses count as 12 credits toward their BS degree and as 9 credits toward a UNH-Carsey MPP or MPA, should a student choose to continue on to a Masters. Most students entering as first-year students will be able to complete a combined BS/MPA or BS/MPP within five years.

Public Service majors develop essential, transferable skills in critical thinking, practical problem solving, communication, teamwork, leadership, civic and community engagement, research, and data analysis. Coursework emphasizes experiential learning, such as interning at the N.H. State House or with local lobbying firms, engaged research in the real world, and hands-on service learning at a range of not-for-profit organizations in health, human services, advocacy, and the arts. All students must undertake at least one semester-long internship and at least one independent research project to be presented at the UNH Undergraduate Research Conference.

Public service and nonprofit leadership graduates can pursue careers in state and local government, political campaigns, advocacy, non-profit organizations, journalism, education, and more, and are prepared to pursue graduate studies in law, public policy, public administration, community development, and public health.

For more information, contact the UNH Manchester [Admissions office \(unhm.admissions@unh.edu\)](mailto:unhm.admissions@unh.edu). For current students, contact the UNH Manchester [Academic Advising office \(unhm.advising@unh.edu\)](mailto:unhm.advising@unh.edu).

## Requirements

### Degree Requirements

**Minimum Credit Requirement:** 128 credits

**Minimum Residency Requirement:** 32 credits must be taken at UNH

**Minimum GPA:** 2.0 required for conferral\*

## Student Learning Outcomes

By the end of their degree program, Public Service & Nonprofit Leadership majors should be able to demonstrate the following knowledge, skills, and core values so that they are positioned to be leaders in public and nonprofit organizations and effective analysts of and advocates for effective public policies.

### Knowledge

- Describe key theories of policymaking, and explain which of them they think is most useful to make sense of particular issues in particular historical periods.
- Describe the relations between the public, private, and not-for-profit sectors as they effect politics, power, and policy making and explain how those relationships have changed over time.
- Describe the legislative process in the US and their state, offering specific examples of why some Bills become law and others do not.
- Develop and articulate a Theory of Change that encapsulates their own understanding of how political change has happened in the US in the past and of the ways in which political and policy changes that they care about might be enacted in the present and future.

### Skills

- Design and execute an original multi-methods research project, including being able to: craft a well-formulated, researchable research question; develop credible hypotheses; produce a literature review that lays out the context in which their research will take place; design an appropriate means by which their hypotheses might be tested; conduct such original research; analyze those results using quantitative and/or qualitative methods, as appropriate; evaluate the meaning of their findings; produce visual representations (charts, graphs, tables) of their findings.
- Produce a polished, professional-quality Policy Brief.
- Design and execute a legislative advocacy strategy
- Identify sources for relevant, reliable, ethically gathered data and research and retrieve such data, evaluating its validity and reliability.
- Synthesize complex data and information and present it in written or oral form concisely and coherently.

- Effectively present research findings to a public audience, in-person and online.
- Communicate, in writing and verbally, clearly and professionally.
- Work effectively in groups and teams.
- Assume leadership roles if and when appropriate.
- Apply theories of leadership and management to their actually existing workplaces.
- Demonstrate capacity for graduate-level work in Public Policy, Public Administration, and related disciplines in the social sciences and human services.

#### Values

- Embody and act upon knowledge of cultural differences and an appreciation for the diversity of human experience and perspectives.
- Articulate the value of open democracy and engaged citizenship in building healthy communities at the local, national and global levels.
- Describe their own professional mission and their ethic of service.

## Online

College of Professional Studies (CPS) Online programs embrace a powerful goal: no matter where students live, no matter their age or income, if they are motivated to pursue a college education, they should have access to it. Nationally ranked degree programs are designed for working adults balancing personal and professional responsibilities. All degree programs are offered fully online with select face-to-face courses scheduled each term.

Most CPS Online undergraduate students (~90%) arrive with transfer credits, and students with prior knowledge, job training or considerable relevant experience may be able to receive credit towards a degree. Students with an earned associate degree may be eligible for Transfer Pathways, which waive the majority of general education requirements for most bachelor's degrees.

The College of Professional Studies is the leading public provider for online degree programs in New Hampshire and proud to support the University of New Hampshire's educational goals. Graduates from a New Hampshire Community College are eligible for additional tuition savings.

## Degrees

CPS Online offers associate and baccalaureate undergraduate degree programs.

#### Admissions Information

<https://cps.unh.edu/online>

## Academic Centers

#### Business and Technology

**Education** (Educator Preparation Programs)

#### Health Care, Human Services, and Behavioral Sciences

#### Liberal Arts, Communication, and General Education

## Learning Outcomes

### Outcomes-Based Learning

Our greatest concern is that our graduates develop a specific set of skills and abilities.

The College's outcomes-based degree programs and curriculum:

- Provide standards to be met in demonstrating competence.
- Form a base from which to design and pursue learning activities.
- Foster the ability to demonstrate self-directed learning.

In addition to individual student assessment and grading, learning outcomes assessment is conducted in all programs to ensure the quality of our programs and to prompt ongoing improvements in teaching and learning.

### CPS Online Learning Outcomes

At the College of Professional Studies-Online, at all levels and in all programs, we provide opportunities for students to learn to:

**Communicate:** To successfully receive and deliver messages through a variety of means (such as verbal, non-verbal, written, and visual) using the appropriate tools and practices for a given professional or community-based situation.

**Think Critically and Comprehensively:** To effectively collect, evaluate, and analyze information; define problems; make judgments; and draw conclusions that matter in real-world settings.

**Apply Knowledge to Workplace and Community:** To engage with diverse individuals, groups, or cultural frameworks; develop solutions to shared challenges; and reflect on professional practice and community engagement.

**Gain Specialized Knowledge:** To use essential frameworks, research methods, and professional practices of a field or discipline to further personal and professional growth.

## Addictions Studies Minor

### Description

This minor introduces students to the issues associated with supporting people involved with addictive behaviors. Students will study the foundational principles of providing counseling services to individuals with addiction issues as well as the disease model and characteristic needs of this population.

NOTE: This minor may not be declared with the following majors: BS Human Services: Addictions Studies or BS Applied Psychology: Addictions Studies.

Students will have the opportunity to:

1. Identify the characteristics and behaviors of people with addictive behaviors, such as substance use disorder, gambling, video gaming, eating disorders, sex addiction, and other compulsive behaviors.
2. Describe explanations for addictive behaviors.
3. Apply knowledge of addictive behaviors to suggest treatment strategies.

### Requirements

All minor courses must be completed with a minimum grade of C-, and a 2.0 grade point average must be maintained in courses for the minor. Two courses must be at the upper level (600 or 700). Only one overlap is allowed between major and minor.

Code	Title	Credits
Required Courses		
PSY 565	Core Principles of Addiction	4
PSY 654	Counseling Theories	4
PSY 675	Foundations of Addictions Counseling	4
PSY 710	The Biology of Addiction	4
SOCI 680	Issues of Addiction in Special Populations	4
Total Credits		20

## Applied Psychology Major: Addictions Studies Option (B.S.)

### Description

The Bachelor of Science degree in Applied Psychology provides an understanding of human behavior within a socio-cultural context. Students explore the variables affecting human behavior within both individual and group settings. The major positions students for either post-college employment or advanced education. The addictions studies option introduces students to the issues associated with supporting people involved with addictive behaviors.

### Requirements

#### Degree Requirements

**Minimum Credit Requirement:** 120 credits

**Minimum Residency Requirement:** 30 credits must be taken at UNH

**Minimum Cumulative GPA:** 2.0 is required for conferral\*

**Core Curriculum Required:** General Education Program

Major, Option and Elective Requirements as indicated.

*\*GPA: Major and any state certification GPA requirements may be higher and are indicated in program details.*

A minimum grade of C- is required in all Major coursework. Students are allowed a maximum of two course overlaps. Overlaps can be used between Major, Minor, and General Education requirements with only one overlap being utilized between the Major and Minor. Please note that Option requirements are considered part of the Major. Students must complete 16 upper-level credits in majors within the College of Professional Studies, Online.

#### General Education Program Requirements

A minimum grade of D- is required in all General Education coursework. Students are allowed a maximum of two course overlaps. Overlaps can be used between Major, Minor and General Education requirements with only one overlap being utilized between the Major and Minor.

All General Education requirements, including CRIT 602 Advanced Critical Analysis and Strategic Thinking and IDIS 601 Interdisciplinary Seminar, must be taken prior to the capstone.

Code	Title	Credits

## Student Learning Outcomes

Students will have the opportunity to:

- Differentiate and critically analyze biological, developmental, cognitive, and sociocultural theories that provide an understanding of behavior and communicate this knowledge effectively.
- Use computer technology, as well as quantitative and scientific reasoning, to function as informed consumers of psychological research.
- Apply ethical principles that guide and inform the conduct of research and clinical practice.

# Applied Psychology Major: Counseling Foundations Option (B.S.)

## Description

The Bachelor of Science degree in Applied Psychology provides an understanding of human behavior within a socio-cultural context. Students explore the variables affecting human behavior within both

individual and group settings. The major positions students for either post-college employment or advanced education. The counseling foundations option introduces students to the theory and process of delivering counseling services.

## Requirements

### Degree Requirements

**Minimum Credit Requirement:** 120 credits

**Minimum Residency Requirement:** 30 credits must be taken at UNH

**Minimum Cumulative GPA:** 2.0 is required for conferral\*

**Core Curriculum Required:** General Education Program

Major, Option and Elective Requirements as indicated.

*\*GPA: Major and any state certification GPA requirements may be higher and are indicated in program details.*

A minimum grade of C- is required in all Major coursework. Students are allowed a maximum of two course overlaps. Overlaps can be used between Major, Minor, and General Education requirements with only one overlap being utilized between the Major and Minor. Please note that Option requirements are considered part of the Major. Students must complete 16 upper-level credits in majors within the College of Professional Studies, Online.

### General Education Program Requirements

A minimum grade of D- is required in all General Education coursework. Students are allowed a maximum of two course overlaps. Overlaps can be used between Major, Minor and General Education requirements with only one overlap being utilized between the Major and Minor.

All General Education requirements, including CRIT 602 Advanced Critical Analysis and Strategic Thinking and IDIS 601 Interdisciplinary Seminar, must be taken prior to the capstone.

Applied Psychology Major: Emergency Management Strategy and Planning Option (B.S.)

Description

The Bachelor of Science degree in Applied Psychology provides an understanding of human behavior within a socio-cultural context. Students explore the variables affecting human behavior within both individual and group settings. The major positions students for either post-college employment or advanced education. The emergency management strategy and planning option prepares students to address the psychological factors, prescriptive and descriptive models of decision making, cognitive biases, heuristics, risk perception, social influences, and past experiences that together help explain why people tend to be under prepared for potential natural and human-made disasters.

Student Learning Outcomes

- Students will have the opportunity to:
- Differentiate and critically analyze biological, developmental, cognitive, and sociocultural theories that provide an understanding of behavior and communicate this knowledge effectively.
  - Use computer technology, as well as quantitative and scientific reasoning, to function as informed consumers of psychological research.
  - Apply ethical principles that guide and inform the conduct of research and clinical practice.
  - Assess the prescriptive and descriptive models of decision making, preparation for or mitigation of several natural and human-made disasters, and accepted best practices for preparing communities and individuals for hazards.

Applied Psychology Major: Family Studies Option (B.S.)

Description

The Bachelor of Science degree in Applied Psychology provides an understanding of human behavior within a socio-cultural context. Students explore the variables affecting human behavior within both individual and group settings. The major positions students for either post-college employment or advanced education. The family studies option introduces students to the issues associated with providing human services to individuals as well as family groups.

Student Learning Outcomes

- Students will have the opportunity to:
- Differentiate and critically analyze biological, developmental, cognitive, and sociocultural theories that provide an understanding of behavior and communicate this knowledge effectively.
  - Use computer technology, as well as quantitative and scientific reasoning, to function as informed consumers of psychological research.
  - Apply ethical principles that guide and inform the conduct of research and clinical practice.

Applied Psychology Major: Wellness and Prevention Option (B.S.)

Description

The Bachelor of Science degree in Applied Psychology provides an understanding of human behavior within a socio-cultural context. Students explore the variables affecting human behavior within both individual and group settings. The major positions students for either post-college employment or advanced education. The wellness and prevention option introduces students to the key factors that impact the mental and physical well-being of individuals as well as strategies for prevention and health promotion.

Requirements

Degree Requirements

- Minimum Credit Requirement:** 120 credits
- Minimum Residency Requirement:** 30 credits must be taken at UNH
- Minimum Cumulative GPA:** 2.0 is required for conferral\*
- Core Curriculum Required:** General Education Program
- Major, Option and Elective Requirements as indicated.

*\*GPA: Major and any state certification GPA requirements may be higher and are indicated in program details.*

A minimum grade of C- is required in all Major coursework. Students are allowed a maximum of two course overlaps. Overlaps can be used between Major, Minor, and General Education requirements with only one overlap being utilized between the Major and Minor. Please note that Option requirements are considered part of the Major. Students must complete 16 upper-level credits in majors within the College of Professional Studies, Online.

General Education Program Requirements

A minimum grade of D- is required in all General Education coursework. Students are allowed a maximum of two course overlaps. Overlaps can be used between Major, Minor and General Education requirements with only one overlap being utilized between the Major and Minor.

All General Education requirements, including CRIT 602 Advanced Critical Analysis and Strategic Thinking and IDIS 601 Interdisciplinary Seminar, must be taken prior to the capstone.

Code	Title	Credits

IDIS 601	Interdisciplinary Seminar	4
Total Credits		40

Writing Program Requirements

All bachelor's degree candidates are required to complete four writing intensive courses as part of the University [Writing Program Requirements](#) (p. 41) as follows:

Code	Title	Credits
ENG 420	The Writing Process	
One Writing Intensive course in the Major		
One Writing Intensive course at the 600-level or above		
One Additional Writing Intensive Course		

*Writing Intensive courses are identified with the label "Writing Intensive Course" in the "Attributes" section of the course description and/or a W following the course number.*

Major Requirements

Prior to capstone enrollment, students are expected to complete the majority of their required major courses along with CRIT 602 Advanced Critical Analysis and Strategic Thinking and IDIS 601 Interdisciplinary Seminar. Students should consult with their advisor regarding specific major courses that may be completed with their capstone. Academic Advisor approval is required for registration to be processed.

## Electives

Open electives are courses students will need to take in addition to their general education and major requirements in order to satisfy the remaining credit totals for their programs. Open electives are defined as any credit course offered by the College not already included in the student's general education, major, option or minor. Students will need 120 credits total to graduate with a bachelor's degree from the Online Division of the College of Professional Studies.

## Degree Plan

This degree plan is a sample and does not reflect the impact of transfer credit or current course offerings. UNH CPS Online undergraduate students should develop individual academic plans with their academic advisor during their first year at UNH.

Student Learning Outcomes

Students will have the opportunity to:

- Differentiate and critically analyze biological, developmental, cognitive, and sociocultural theories that provide an understanding of behavior and communicate this knowledge effectively.
- Use computer technology, as well as quantitative and scientific reasoning, to function as informed consumers of psychological research.
- Apply ethical principles that guide and inform the conduct of research and clinical practice.

Applied Psychology Minor

Description

The minor in applied psychology is designed to provide the student with the foundational education in psychology.

NOTE: This minor may not be declared with the following majors: BS Human Services: Applied Psychology or BS Applied Psychology (all options).

Students will have the opportunity to:

1. Demonstrate a breadth of knowledge and application of psychological ideas to simple problems.
2. Interpret behavior to draw conclusions about psychological phenomena.
3. Demonstrate familiarity with the formal regulations that govern professional ethics in psychology and begin to embrace the values that will contribute to positive outcomes in work settings and in building a society responsive to multicultural and global concerns.
4. Present information using a scientific approach and express ideas with clarity.

Requirements

All minor courses must be completed with a minimum grade of C-, and a 2.0 grade point average must be maintained in courses for the minor. Two courses must be at the upper level (600 or 700). Only one overlap is allowed between major and minor.

Minor Requirements

Code	Title	Credits
PSY 410	Introduction to Psychology	4
IDIS 560	Research Methods in the Behavioral Sciences	4

PSY 602	Theories of Personality	
PSY 685	Principles of Psychopathology	
SOSC 602	Men and Women in Cross-Cultural Perspectives	
Total Credits		20

Counseling Foundations Minor

Description

This minor enables students to focus on issues and methods associated with providing counseling to individuals in distress. Students will study the personal and situational factors that can cause individuals to seek counseling. Students will also gain knowledge of the methods associated with communicating with individuals in distress to help them to solve problems.

NOTE: This minor may not be declared with the following majors: BS Human Services: Counseling Foundations or BS Applied Psychology: Counseling Foundations.

Students will have the opportunity to:

1. Identify personal and situational factors that lead individuals to seek counseling.
2. Differentiate between different counseling theories and practices.

Requirements

All minor courses must be completed with a minimum grade of C-, and a 2.0 grade point average must be maintained in courses for the minor. Two courses must be at the upper level (600 or 700). Only one overlap is allowed between major and minor.

Minor Requirements

Code	Title	Credits

PSY 603	Crisis Intervention	4
PSY 654	Counseling Theories	4
PSY 665	Principles of Assessment	4
or COM 460	Interpersonal Communication and Group Dynamics	

PSY 685	Principles of Psychopathology	4
Total Credits		20

## Organizational Psychology Minor

### Description

This minor explores the crossover of psychology and business by studying the principles of individual, group, and organizational behavior and applying this knowledge to the solution of problems at work. Principles include organizational culture, stress and conflict in the workplace, and maintaining psychological health within the context of work and organizations.

NOTE: This minor may not be declared with the following majors: BS Applied Psychology: Organizational Psychology, BS Business Management: Organizational Psychology, or BS Human Resource Management.

Students will have the opportunity to:

1. Discuss the role of groups in organizations and how they can influence organizational decision-making, efficiency, and effectiveness.
2. Articulate the nature of interpersonal dynamics within organizational systems that facilitate or impede functionality and affect the change process in organizations.
3. Describe the elements of occupational health and the effects of job stress and how to reduce it.

### Requirements

All minor courses must be completed with a minimum grade of C-, and a 2.0 grade point average must be maintained in courses for the minor. Two courses must be at the upper level (600 or 700). Only one overlap is allowed between major and minor.

## Minor Requirements

Code	Title	Credits

- [Behavioral Science Major: Wellness and Prevention Option \(A.S.\)](#) (p. 484)
- [Emergency Management Strategy and Planning Minor](#) (p. 485)

## Behavioral Science Major: Addictions Studies Option (A.S.)

### Description

The Associate in Science in Behavioral Science provides an interdisciplinary approach to understanding human behavior within a global world view. Foundation courses at an associate level introduce behavioral science students to the biological, psychological, social, and cultural variables of human behavior. This degree prepares students for a smooth transition to the B.S. in Applied Psychology, Health & Wellness, Human Services, or Criminal Justice. The addictions studies option introduces students to the issues associated with supporting people involved with addictive behaviors.

### Requirements

## Degree Requirements

Student Learning Outcomes

Students will have the opportunity to:

- Attain proficiency in the basic concepts, theories, and methods of inquiry in behavioral sciences.
- Evaluate ethical principles of the behavioral sciences.
- Prepare for seamless transition to the Bachelor of Science in Applied Psychology, Health & Wellness, Human Services, or Criminal Justice.

Behavioral Science Major: Emergency Management Strategy and Planning Option (A.S.)

Description

The Associate in Science in Behavioral Science provides an interdisciplinary approach to understanding human behavior within a global world view. Foundation courses at an associate level introduce behavioral science students to the biological, psychological, social, and cultural variables of human behavior. This degree prepares students for a smooth transition to the B.S. in Applied Psychology, Health & Wellness, Human Services, or Criminal Justice. Emergency management strategy and planning involves multidimensional efforts to reduce our vulnerability to natural and human-caused disasters, to diminish the impact of disasters, and to prepare for, respond to, and recover from disasters. This option introduces students to emergency management approaches in order to develop skills and knowledge relating to emergency management strategy and policy development.

Requirements

Degree Requirements

Minimum Credit Requirement: 60 credits

Minimum Residency Requirement: 16 credits must be taken at UNH

Minimum GPA: 2.0 required for conferral\*

Core Curriculum Required: General Education Program

Major, Option, and Elective Requirements as indicated.

\*Major GPA requirements as indicated.

General Education Program Requirements

A minimum grade of D- is required in all General Education coursework. Students are allowed a maximum of one course overlap between the Major and General Education areas.

## Student Learning Outcomes

Students will have the opportunity to:

- Attain proficiency in the basic concepts, theories, and methods of inquiry in behavioral sciences, specifically, in critical infrastructure protection, regional and national security intelligence, and land and maritime border protection within the field of emergency management.
- Evaluate ethical principles of the behavioral sciences, specifically within human behavior, systems, intelligence analysis, and the use of new technologies in emergency management.
- Prepare for seamless transition to the Bachelor of Science in Applied Psychology, Health & Wellness, Human Services, or Criminal Justice.

## Behavioral Science Major: Human Services Option (A.S.)

### Description

The Associate in Science in Behavioral Science provides an interdisciplinary approach to understanding human behavior within a global world view. Foundation courses at an associate level introduce behavioral science students to the biological, psychological, social, and cultural variables of human behavior. This degree prepares students for a smooth transition to the B.S. in Applied Psychology, Health & Wellness, Human Services, or Criminal Justice. The human services option introduces students to the issues associated with providing appropriate services to people with diverse needs.

## Emergency Management Strategy and Planning Minor

### Description

The minor in emergency management strategy and planning enables students to develop knowledge and skills related to emergency management strategy and policy development. It is a comprehensive study of the disaster management cycle, including emergency preparedness, mitigation, response, and recovery. The world is becoming a crowded place with a dense population and increasingly frequent natural and human-made hazards. Thus, there is a high demand for risk reduction and educated, prepared public leadership. Students who complete a minor in emergency management strategy and planning gain insight and knowledge that will strengthen their marketable skills in various international, federal, state, and local governments, private sector businesses, and nonprofit organizations.

NOTE: This minor may not be declared with the following majors: BS Applied Psychology: Emergency Management Strategy and Planning or BS Business Management: Emergency Management Strategy and Planning.

Students will have the opportunity to:

1. Attain proficiency in the fundamental skills needed to successfully participate in an emergency management team.
2. Evaluate the integrated emergency management systems with resources and capabilities networked together, developing the means to address natural and human-made hazards.
3. Explain how different partners and core capabilities contribute to emergency management in their community by building on the resources necessary for developing a comprehensive emergency operations plan.

## Requirements

All minor courses must be completed with a minimum grade of C-, and a 2.0 grade point average must be maintained in courses for the minor. Two courses must be at the upper level (600 or 700). Only one overlap is allowed between major and minor.

## Minor Requirements

Code	Title	Credits
BEHS 445	Homeland Security and Emergency Management	4
BEHS 510	National Incident Management Systems (NIMS)	4
BEHS 610	Community Emergency Response	4
BEHS 665	Disaster Management	4

- Professional Sales Minor (p. 543)

## Accounting and Finance Major (B.S.)

<https://cps.unh.edu/online/program/bs/accounting-finance>

### Description

The Bachelor of Science in Accounting and Finance blends content knowledge in accounting and finance with corresponding knowledge of organizational processes in the field. This program prepares graduates to help organizations better leverage assets, manage budgets, gain efficiencies, and maximize investments. The program provides a foundation for individuals whose future goals may include earning the credential of Certified Public Accountant.

### Requirements

### Degree Requirements

**Minimum Credit Requirement:** 120 credits

**Minimum Residency Requirement:** 30 credits must be taken at UNH

**Minimum Cumulative GPA:** 2.0 is required for conferral\*

**Core Curriculum Required:** General Education Program

Major, Option and Elective Requirements as indicated.

\*GPA: Major and any state certification GPA requirements may be higher and are indicated in program details.

A minimum grade of C- is required in all Major coursework. Students are allowed a maximum of two course overlaps. Overlaps can be used between Major, Minor, and General Education requirements with only one overlap being utilized between the Major and Minor. Please note that Option requirements are considered part of the Major. Students must complete 16 upper-level credits in majors within the College of Professional Studies, Online.

### General Education Program Requirements

A minimum grade of D- is required in all General Education coursework. Students are allowed a maximum of two course overlaps. Overlaps can be used between Major, Minor and General Education requirements with only one overlap being utilized between the Major and Minor.

All General Education requirements, including CRIT 602 Advanced Critical Analysis and Strategic Thinking and IDIS 601 Interdisciplinary Seminar, must be taken prior to the capstone.

Student Learning Outcomes

Students will have the opportunity to:

- Demonstrate knowledge of essentials in the fields of accounting and finance to provide sound information through valid processes to users of accounting and financial services.
- Show thorough competence in understanding quantitative and qualitative methods as applied to problem-solving in the fields of accounting and finance.
- Communicate effectively, both verbally and in writing, to explain, evaluate, and present financial and accounting information to varied audiences.
- Employ integrity, ethics and social responsibility in accounting and financial practices.

Accounting Minor (CPSO)

Description

This minor provides foundational accounting skills for careers requiring bookkeeping and knowledge of organizational processes in the field.

The program prepares graduates to help organizations manage budgets, utilize accounting information systems, and gain knowledge in taxation.

NOTE: This minor may not be declared with the following majors: BS Accounting and Finance or BS Business Management: Accounting.

Students will have the opportunity to:

1. Acquire knowledge of professional accounting practices and research in the field of accounting.
2. Demonstrate working knowledge of essentials in the field of accounting, enabling them to manage their personal and organizational bookkeeping.

Requirements

All minor courses must be completed with a minimum grade of C-, and a 2.0 grade point average must be maintained in courses for the minor. Two courses must be at the upper level (600 or 700). Only one overlap is allowed between major and minor.

Applied Studies Major: Management Option (B.S.)

Description

This transfer-friendly program is designed for students with an Associate's Degree from a regionally accredited college in a technical or specialized field who already have the "hands-on" skills and want to develop the business competencies that will help them advance in their field in a management capacity. The program integrates the technical and general skills developed in an associate degree with the business competencies needed to succeed as a manager in their chosen profession. The focus is on the application of business skills to the student's professional field. Professional licensure, certification or training may serve as a foundation to this degree, upon approval by academic affairs.

Requirements

Degree Requirements

- Minimum Credit Requirement:** 120 credits
- Minimum Residency Requirement:** 30 credits must be taken at UNH
- Minimum Cumulative GPA:** 2.0 is required for conferral\*
- Core Curriculum Required:** General Education Program
- Major, Option and Elective Requirements as indicated.

*\*GPA: Major and any state certification GPA requirements may be higher and are indicated in program details.*

A minimum grade of C- is required in all Major coursework. Students are allowed a maximum of two course overlaps. Overlaps can be used between Major, Minor, and General Education requirements with only one overlap being utilized between the Major and Minor. Please note that Option requirements are considered part of the Major. Students must complete 16 upper-level credits in majors within the College of Professional Studies, Online.

## General Education Program Requirements

A minimum grade of D- is required in all General Education coursework. Students are allowed a maximum of two course overlaps. Overlaps can be used between Major, Minor and General Education requirements with only one overlap being utilized between the Major and Minor.

All General Education requirements, including CRIT 602 Advanced Critical Analysis and Strategic Thinking and IDIS 601 Interdisciplinary Seminar, must be taken prior to the capstone.

Code	Title	Credits
ENG 420	The Writing Process	4
COM 460	Interpersonal Communication and Group Dynamics	4
COM 480	Visual Communication	4
CRIT 501	Introduction to Critical Inquiry	4
Select one of the following:		4
MTH 402	Math for Our World	
MTH 504	Statistics	
MTH 510	Pre-Calculus	
Knowledge of Human Behavior & Social Systems (p. 32)		4
Knowledge of the Physical & Natural World (p. 33)		4
Knowledge of Human Thought & Expression (p. 33)		4
CRIT 602	Advanced Critical Analysis and Strategic Thinking	4
IDIS 601	Interdisciplinary Seminar	4
<b>Total Credits</b>		<b>40</b>

## Writing Program Requirements

All bachelor's degree candidates are required to complete four writing intensive courses as part of the University [Writing Program Requirements](#) (p. 41) as follows:

Code	Title	Credits
ENG 420	The Writing Process	
One Writing Intensive course in the Major		
One Writing Intensive course at the 600-level or above		
One Additional Writing Intensive Course		

*Writing Intensive courses are identified with the label "Writing Intensive Course" in the "Attributes" section of the course description and/or a W following the course number.*

## Major Requirements

**Prerequisite:** Must have completed an Associate Degree or equivalent in a related applied discipline aligning with Management applied discipline aligning with Management.

Prior to capstone enrollment, students are expected to complete the majority of their required major courses along with CRIT 602 Advanced Critical Analysis and Strategic Thinking and IDIS 601 Interdisciplinary Seminar. Students should consult with their advisor regarding specific major courses that may be completed with their capstone. Academic Advisor approval is required for registration to be processed.

## Student Learning Outcomes

Students will have the opportunity to:

- Identify patterns of individual and group behavior in organizations and apply management theories and approaches that enhance the effectiveness and efficiency of organizations.
- Demonstrate leadership skills that enhance organizational performance through application of theories of leadership, motivation, change management, conflict management and managing diversity.
- Apply accounting and finance skills and best practices to enhance the effectiveness of financial decision-making in organizations.
- Integrate legal and ethical principles into decision-making to assure organizational and individual adherence to corporate ethics and social responsibility.
- Integrate and apply management theories and techniques to a specific applied field through an in-depth capstone experience.

## Business Major: Accounting Option (A.S.)

### Description

The Associate in Science degree in Business is designed for students interested in gaining a solid foundation in the field of business. The program includes an overview of general management theory and introduces students to the fundamental concepts of economics, marketing, finance, and organizational behavior. Students are able to further customize their degree by choosing from an array of three-course concentrations to gain specialized knowledge. This degree prepares students for a smooth transition to the B.S. in Business Management or related degree.

### Requirements

#### Degree Requirements

- Minimum Credit Requirement:** 60 credits
- Minimum Residency Requirement:** 16 credits must be taken at UNH
- Minimum GPA:** 2.0 required for conferral\*
- Core Curriculum Required:** General Education Program
- Major, Option, and Elective Requirements as indicated.
- \*Major GPA requirements as indicated.

#### General Education Program Requirements

A minimum grade of D- is required in all General Education coursework. Students are allowed a maximum of one course overlap between the Major and General Education areas.

Code	Title	Credits

- Evaluate ethical principles that guide businesses.
- Prepare for seamless transition to the Bachelor of Science in Business Management program.

Business Major: Hotel, Restaurant, and Travel Option (A.S.)

Description

The Associate in Science degree in Business is designed for students interested in gaining a solid foundation in the field of business. The program includes an overview of general management theory and introduces students to the fundamental concepts of economics, marketing, finance, and organizational behavior. Students are able to further customize their degree by choosing from an array of three-course concentrations to gain specialized knowledge. This degree prepares students for a smooth transition to the B.S. in Business Management or related degree.

Requirements

Degree Requirements

- Minimum Credit Requirement: 60 credits
- Minimum Residency Requirement: 16 credits must be taken at UNH
- Minimum GPA: 2.0 required for conferral\*
- Core Curriculum Required: General Education Program

Major, Option, and Elective Requirements as indicated.  
\*Major GPA requirements as indicated.

General Education Program Requirements

A minimum grade of D- is required in all General Education coursework. Students are allowed a maximum of one course overlap between the Major and General Education areas.

Code	Title	Credits
ENG 420	The Writing Process	4
COM 460	Interpersonal Communication and Group Dynamics	4
COM 480	Visual Communication	4
CRIT 501	Introduction to Critical Inquiry	4
Select one of the following:		4
MTH 402	Math for Our World	
MTH 504	Statistics	
MTH 510	Pre-Calculus	
Knowledge of Human Behavior & Social Systems (p. 32)		4
Knowledge of the Physical & Natural World (p. 33)		4
Knowledge of Human Thought & Expression (p. 33)		4
Total Credits		32

Major Requirements

A minimum grade of C- is required in all Major and Option coursework. Students are allowed a maximum of one course overlap between the Major/Option and General Education areas.

Business Management Major: Accounting Option (B.S.)

Description

The Bachelor of Science degree in Business Management offers students the appropriate breadth and depth of study with a concentration of five courses to pursue other areas of interest in management.

The degree is responsive to the education needs of businesses and includes an appropriate foundation for further graduate study. The outcomes-based program is built upon a foundation of six essential competencies that are integrated throughout the curriculum: critical thinking, effective oral and written communication, applied quantitative analysis, managing in a global environment, ethical practice, and leadership.

## Requirements

### Degree Requirements

**Minimum Credit Requirement:** 120 credits

**Minimum Residency Requirement:** 30 credits must be taken at UNH

**Minimum Cumulative GPA:** 2.0 is required for conferral\*

**Core Curriculum Required:** General Education Program

Major, Option and Elective Requirements as indicated.

*\*GPA: Major and any state certification GPA requirements may be higher and are indicated in program details.*

A minimum grade of C- is required in all Major coursework. Students are allowed a maximum of two course overlaps. Overlaps can be used between Major, Minor, and General Education requirements with only one overlap being utilized between the Major and Minor. Please note that Option requirements are considered part of the Major. Students must complete 16 upper-level credits in majors within the College of Professional Studies, Online.

### General Education Program Requirements

A minimum grade of D- is required in all General Education coursework. Students are allowed a maximum of two course overlaps. Overlaps can be used between Major, Minor and General Education requirements with only one overlap being utilized between the Major and Minor.

All General Education requirements, including CRIT 602 Advanced Critical Analysis and Strategic Thinking and IDIS 601 Interdisciplinary Seminar, must be taken prior to the capstone.

### Electives

Open electives are courses students will need to take in addition to their general education and major requirements in order to satisfy the remaining credit totals for their programs. Open electives are defined as any credit course offered by the College not already included in the student's general education, major, option or minor. Students will need 120 credits total to graduate with a bachelor's degree from the Online Division of the College of Professional Studies.

### Degree Plan

**This degree plan is a sample and does not reflect the impact of transfer credit or current course offerings. UNH CPS Online undergraduate students should develop individual academic plans with their academic advisor during their first year at UNH.**

## Student Learning Outcomes

Students will have the opportunity to:

- Apply business management theories related to production and operations, organizational behavior, human resource management, and leadership throughout various functional areas of organizations.
- Communicate organizational information effectively across an organization through the use of information systems, to a broad spectrum of audiences and in a variety of business situations.
- Apply quantitative tools and information systems in business analysis and decision-making.
- Critically analyze, research and articulate organizational strengths and weaknesses in areas such as competitive advantage, operations, human resources, marketing, financial and strategic positioning.
- Make legal and ethical individual and business decisions based on legalities, evaluation of business sustainability (environmental, socio/cultural, economic, institutional) and ethical practice.
- Manage and lead to enhance the effectiveness of individuals, teams, and business organizations in a global environment.

## Business Management Major: Data Analytics Option (B.S.)

### Description

The Bachelor of Science degree in Business Management offers students the appropriate breadth and depth of study with a concentration of five courses to pursue other areas of interest in management.

The degree is responsive to the education needs of businesses and includes an appropriate foundation for further graduate study. The outcomes-based program is built upon a foundation of six essential competencies that are integrated throughout the curriculum: critical thinking, effective oral and written communication, applied quantitative analysis, managing in a global environment, ethical practice, and leadership.

## Requirements

### Degree Requirements

**Minimum Credit Requirement:** 120 credits

**Minimum Residency Requirement:** 30 credits must be taken at UNH

**Minimum Cumulative GPA:** 2.0 is required for conferral\*

**Core Curriculum Required:** General Education Program

Major, Option and Elective Requirements as indicated.

*\*GPA: Major and any state certification GPA requirements may be higher and are indicated in program details.*

A minimum grade of C- is required in all Major coursework. Students are allowed a maximum of two course overlaps. Overlaps can be used between Major, Minor, and General Education requirements with only one overlap being utilized between the Major and Minor. Please note that Option requirements are considered part of the Major. Students must complete 16 upper-level credits in majors within the College of Professional Studies, Online.

### General Education Program Requirements

A minimum grade of D- is required in all General Education coursework. Students are allowed a maximum of two course overlaps. Overlaps can be used between Major, Minor and General Education requirements with only one overlap being utilized between the Major and Minor.

All General Education requirements, including CRIT 602 Advanced Critical Analysis and Strategic Thinking and IDIS 601 Interdisciplinary Seminar, must be taken prior to the capstone.

Students will have the opportunity to:

- Apply business management theories related to production and operations, organizational behavior, human resource management, and leadership throughout various functional areas of organizations.
- Communicate organizational information effectively across an organization through the use of information systems, to a broad spectrum of audiences and in a variety of business situations.
- Apply quantitative tools and information systems in business analysis and decision-making.
- Critically analyze, research and articulate organizational strengths and weaknesses in areas such as competitive advantage, operations, human resources, marketing, financial and strategic positioning.

- Make legal and ethical individual and business decisions based on legalities, evaluation of business sustainability (environmental, socio/cultural, economic, institutional) and ethical practice.
- Manage and lead to enhance the effectiveness of individuals, teams, and business organizations in a global environment.

## Business Management Major: Emergency Management Strategy and Planning Option (B.S.)

### Description

The Bachelor of Science degree in Business Management offers students the appropriate breadth and depth of study with a concentration of five courses to pursue other areas of interest in management.

The degree is responsive to the education needs of businesses and includes an appropriate foundation for further graduate study. The outcomes-based program is built upon a foundation of six essential competencies that are integrated throughout the curriculum: critical thinking, effective oral and written communication, applied quantitative analysis, managing in a global environment, ethical practice, and leadership.

### Requirements

## Degree Requirements

**Minimum Credit Requirement:** 120 credits

**Minimum Residency Requirement:** 30 credits must be taken at UNH

**Minimum Cumulative GPA:** 2.0 is required for conferral\*

**Core Curriculum Required:** General Education Program

Major, Option and Elective Requirements as indicated.

*\*GPA: Major and any state certification GPA requirements may be higher and are indicated in program details.*

A minimum grade of C- is required in all Major coursework. Students are allowed a maximum of two course overlaps. Overlaps can be used between Major, Minor, and General Education requirements with only one overlap being utilized between the Major and Minor. Please note that Option requirements are considered part of the Major. Students must complete 16 upper-level credits in majors within the College of Professional Studies, Online.

## General Education Program Requirements

A minimum grade of D- is required in all General Education coursework. Students are allowed a maximum of two course overlaps. Overlaps can be used between Major, Minor and General Education requirements with only one overlap being utilized between the Major and Minor.

All General Education requirements, including CRIT 602 Advanced Critical Analysis and Strategic Thinking and IDIS 601 Interdisciplinary Seminar, must be taken prior to the capstone.

## Student Learning Outcomes

Students will have the opportunity to:

- Apply business management theories related to production and operations, organizational behavior, human resource management, and leadership throughout various functional areas of organizations.
- Communicate organizational information effectively across an organization through the use of information systems, to a broad spectrum of audiences and in a variety of business situations.
- Apply quantitative tools and information systems in business analysis and decision-making.
- Critically analyze, research and articulate organizational strengths and weaknesses in areas such as competitive advantage, operations, human resources, marketing, financial and strategic positioning.
- Make legal and ethical individual and business decisions based on legalities, evaluation of business sustainability (environmental, socio/cultural, economic, institutional) and ethical practice.
- Manage and lead to enhance the effectiveness of individuals, teams, and business organizations in a global environment.

# Business Management Major: Hotel, Restaurant, and Travel Option (B.S.)

## Description

The Bachelor of Science degree in Business Management offers students the appropriate breadth and depth of study with a concentration of five courses to pursue other areas of interest in management.

The degree is responsive to the education needs of businesses and includes an appropriate foundation for further graduate study. The outcomes-based program is built upon a foundation of six essential competencies that are integrated throughout the curriculum: critical thinking, effective oral and written communication, applied quantitative analysis, managing in a global environment, ethical practice, and leadership.

## Requirements

### Degree Requirements

**Minimum Credit Requirement:** 120 credits

**Minimum Residency Requirement:** 30 credits must be taken at UNH

**Minimum Cumulative GPA:** 2.0 is required for conferral\*

**Core Curriculum Required:** General Education Program

Major, Option and Elective Requirements as indicated.

*\*GPA: Major and any state certification GPA requirements may be higher and are indicated in program details.*

A minimum grade of C- is required in all Major coursework. Students are allowed a maximum of two course overlaps. Overlaps can be used between Major, Minor, and General Education requirements with only one overlap being utilized between the Major and Minor. Please note that Option requirements are considered part of the Major. Students must complete 16 upper-level credits in majors within the College of Professional Studies, Online.

### General Education Program Requirements

A minimum grade of D- is required in all General Education coursework. Students are allowed a maximum of two course overlaps. Overlaps can be used between Major, Minor and General Education requirements with only one overlap being utilized between the Major and Minor.

All General Education requirements, including CRIT 602 Advanced Critical Analysis and Strategic Thinking and IDIS 601 Interdisciplinary Seminar, must be taken prior to the capstone.

## Student Learning Outcomes

Students will have the opportunity to:

- Apply business management theories related to production and operations, organizational behavior, human resource management, and leadership throughout various functional areas of organizations.
- Communicate organizational information effectively across an organization through the use of information systems, to a broad spectrum of audiences and in a variety of business situations.
- Apply quantitative tools and information systems in business analysis and decision-making.
- Critically analyze, research and articulate organizational strengths and weaknesses in areas such as competitive advantage, operations, human resources, marketing, financial and strategic positioning.
- Make legal and ethical individual and business decisions based on legalities, evaluation of business sustainability (environmental, socio/cultural, economic, institutional) and ethical practice.
- Manage and lead to enhance the effectiveness of individuals, teams, and business organizations in a global environment.

## Business Management Major: Nonprofit Management Option (B.S.)

### Description

The Bachelor of Science degree in Business Management offers students the appropriate breadth and depth of study with a concentration of five courses to pursue other areas of interest in management.

The degree is responsive to the education needs of businesses and includes an appropriate foundation for further graduate study. The outcomes-based program is built upon a foundation of six essential competencies that are integrated throughout the curriculum: critical thinking, effective oral and written communication, applied quantitative analysis, managing in a global environment, ethical practice, and leadership.

### Requirements

### Degree Requirements

**Minimum Credit Requirement:** 120 credits

**Minimum Residency Requirement:** 30 credits must be taken at UNH

**Minimum Cumulative GPA:** 2.0 is required for conferral\*

**Core Curriculum Required:** General Education Program

Major, Option and Elective Requirements as indicated.

*\*GPA: Major and any state certification GPA requirements may be higher and are indicated in program details.*

A minimum grade of C- is required in all Major coursework. Students are allowed a maximum of two course overlaps. Overlaps can be used between Major, Minor, and General Education requirements with only one overlap being utilized between the Major and Minor. Please note that Option requirements are considered part of the Major. Students must complete 16 upper-level credits in majors within the College of Professional Studies, Online.

### General Education Program Requirements

A minimum grade of D- is required in all General Education coursework. Students are allowed a maximum of two course overlaps. Overlaps can be used between Major, Minor and General Education requirements with only one overlap being utilized between the Major and Minor.

All General Education requirements, including CRIT 602 Advanced Critical Analysis and Strategic Thinking and IDIS 601 Interdisciplinary Seminar, must be taken prior to the capstone.

## Student Learning Outcomes

Students will have the opportunity to:

- Apply business management theories related to production and operations, organizational behavior, human resource management, and leadership throughout various functional areas of organizations.
- Communicate organizational information effectively across an organization through the use of information systems, to a broad spectrum of audiences and in a variety of business situations.
- Apply quantitative tools and information systems in business analysis and decision-making.
- Critically analyze, research and articulate organizational strengths and weaknesses in areas such as competitive advantage, operations, human resources, marketing, financial and strategic positioning.
- Make legal and ethical individual and business decisions based on legalities, evaluation of business sustainability (environmental, socio/cultural, economic, institutional) and ethical practice.
- Manage and lead to enhance the effectiveness of individuals, teams, and business organizations in a global environment.

## Data Analytics Minor

### Description

The minor in data analytics addresses the knowledge, skills, and ability to answer data-driven questions within a student's discipline or industry. Students will have the opportunity to prepare data for analysis, draw conclusions based on data, and present the results of data analysis.

NOTE: This minor may not be declared with the following majors: BS Business Management: Data Analytics or BS Computer Information Technology: Data Analytics.

Students will have the opportunity to:

1. Utilize the data analytics process to address industry-specific challenges.
2. Practice data mining, cleaning, and visualization techniques.
3. Define ethical and legal issues related to data analytics.
3. Define ethical and legal issues related to data analytics.

### Requirements

All minor courses must be completed with a minimum grade of C-, and a 2.0 grade point average must be maintained in courses for the minor. Two courses must be at the upper level (600 or 700). Only one overlap is allowed between major and minor.

## Minor Requirements

Code	Title	Credits
DAT 510	Introduction to Data Analytics	4
DAT 535	Data Mining, Cleaning, and Visualization	4
DAT 610	Data Analytics and Technologies	4
DAT 620	Data Analytics in Business Intelligence	4
DAT 670	Advanced Data Analytics	4
Total Credits		20

## Digital Marketing Minor

### Description

The focus of marketing revolves around the consumer and a minor in digital marketing will allow the student to identify consumers, evaluate consumer interest, and meet consumer needs and wants through marketing research, consumer behaviors, and customer relations on a local, national, and global level. Students with a minor in marketing can complement their major areas of study with essential skills that provide students with insight into the modern external functional area of business.

NOTE: This minor may not be declared with the following majors: BS Marketing or BS Business Management: Digital Marketing.

Students will have the opportunity to:

1. Apply relevant marketing theories and models to contemporary marketing issues and professional practice.
2. Identify and discuss promotional skills and competencies for marketing products, services, and ideas.
3. Analyze contemporary marketing problems and situations.

### Requirements

All minor courses must be completed with a minimum grade of C-, and a 2.0 grade point average must be maintained in courses for the minor. Two courses must be at the upper level (600 or 700). Only one overlap is allowed between major and minor.

## Minor Requirements

Code	Title	Credits
MKT 517	Consumer Behavior	4
MKT 612	Agile Marketing	4
MKT 615	Digital Storytelling and Brand Management	4
Select two of the following:		8

COM 647	Writing for Visual Media	
MKT 600	Social Media Marketing	
MKT 645	Marketing Research	
MKT 720	Digital Advertising	
MKT 723	Marketing Design and Usability	
Total Credits		20

## Economic Science Minor

### Description

The minor in economic science provides a foundation in microeconomics and macroeconomics from a variety of lenses. Courses assess the ways in which economics are affected by technology, social, environmental and institutional capital, globalization and psychology. The minor in economics is valuable across many fields. Those who study economics may find career opportunities in business and government such as management consulting, business analysis, market research, and others.

NOTE: This minor may not be declared with the following major: BS Business Management: Economic Science.

Students will have the opportunity to:

1. Demonstrate knowledge of economic principles;
2. Explain the inner working of international goods and services markets;
3. Apply varied lenses to the field of economics.

### Requirements

All minor courses must be completed with a minimum grade of C-, and a 2.0 grade point average must be maintained in courses for the minor. Two courses must be at the upper level (600 or 700). Only one overlap is allowed between major and minor.

## Minor Requirements

Code	Title	Credits
ECO 470	Principles of Economics	4
ECO 580	International Economics	4
ECO 635	Economics of Artificial Intelligence	4
ECO 707	Resource Economics	4
ECO 710	Behavioral Economics	4
Total Credits		20

## Entrepreneurship and Innovation Minor

### Description

The minor in entrepreneurship and innovation is designed to provide the student the opportunity to develop entrepreneurship knowledge, skills, and ability applicable to a wide range of organizational settings, including startup business, new ventures, and social ventures including not-for-profit organizations. The minor in entrepreneurship is suitable for those who might want to have their own business or work in an entrepreneurial environment.

NOTE: This minor may not be declared with the following major: BS Business Management: Entrepreneurship and Innovation or BS Computer Information Technology: Entrepreneurship and Innovation.

Students will have the opportunity to:

1. Understand and assess the feasibility of entrepreneurial endeavors.

2. Effectively utilize their analytical skills to solve entrepreneurial problems.

3. Demonstrate the ability to find an attractive market that can be reached economically.

## Requirements

All minor courses must be completed with a minimum grade of C-, and a 2.0 grade point average must be maintained in courses for the minor. Two courses must be at the upper level (600 or 700). Only one overlap is allowed between major and minor.

## Minor Requirements

Code	Title	Credits
ENT 500	The Entrepreneurial Mindset	4
ENT 600	Launching and Managing Entrepreneurial Ventures	4
ENT 611	Entrepreneurial Marketing	4
ENT 703	Entrepreneurial Finance	4
ENT 707	Legalities and Ethics of Entrepreneurship	4
Total Credits		20

## Finance Minor

### Description

This minor provides foundational skills for careers related to finance. It can also prepare the student to be a member of the financial management team in small or mid-sized enterprises or for self-employment.

NOTE: This minor may not be declared with the following major: BS Accounting and Finance or BS Business Management: Finance.

Students will have the opportunity to:

1. Demonstrate working knowledge of essentials in the field of finance so as to accurately interpret financial data and processes to users of financial services and business financial processes.
2. Ask critical questions about information and research in the field of Finance.

## Requirements

All minor courses must be completed with a minimum grade of C-, and a 2.0 grade point average must be maintained in courses for the minor. Two courses must be at the upper level (600 or 700). Only one overlap is allowed between major and minor.

## Minor Requirements

Code	Title	Credits
ECO 580	International Economics	4
FNC 611	Money and Banking	4
FNC 612	Investment Principles	4
FNC 665	Financial Management	4
FNC 675	Financial Modeling and Decision-Making	4
Total Credits		20

## Global Business Minor

### Description

The minor in Global Business is designed to provide the student with a broad exposure to the global areas of business and the interesting challenges and opportunities it provides. These areas include at a minimum culture, financial forces, international monetary, economics, socioeconomic forces, management, marketing internationally, political forces, and global innovation. The minor in global business is suitable for those who might want to have their own business, conduct business in a global setting, or want a better understanding of how global business differs from domestic business. The global business minor will prepare students for a wide range of diverse opportunities in the global business sector.

NOTE: This minor may not be declared with the following major: BS Business Management: Global Business.

Students will have the opportunity to:

1. Understand how global factors affect domestic concerns.

Identify and evaluate the challenges and opportunities of global business and globalization.

2. Compare the way consumer and industrial products and services are modified for global sale.

3. Understand social, ethical, political, and economic forces as it pertains to the global marketplace.

## Requirements

All minor courses must be completed with a minimum grade of C-, and a 2.0 grade point average must be maintained in courses for the minor. Two courses must be at the upper level (600 or 700). Only one overlap is allowed between major and minor.

## Minor Requirements

Code	Title	Credits
ECO 580	International Economics	4
ENT 500	The Entrepreneurial Mindset	4
MGMT 642	International and Cross-Cultural Management	4
MGMT 680	Global Business	4
MGMT 685	Global Innovation	4
Total Credits		20

## Hotel, Restaurant and Travel Minor

### Description

Students in the Hotel, Restaurant, and Travel minor will explore the theories, principles, and trends of successful hospitality operations in a constantly changing environment. Courses are designed to employ experiential and immersive teaching techniques to assist students in learning how to diagnose and address the diverse range of issues associated with the hospitality industry. This minor focuses on helping students to learn how to develop practical leadership and managerial competencies as well as using systems thinking to discover the

interrelated nature of the industry and the communities that support these vital economic, cultural, and lifestyle operations.

NOTE: This minor may not be declared with the following major: BS Business Management: Hotel, Restaurant, Travel.

Students will have the opportunity to:

1. Identify and evaluate how the various segments of the hotel, restaurant, and travel industries operate in a constantly evolving environment.
2. Evaluate, develop, and apply effective managerial and leadership competencies in the areas of: hotel and restaurant operations, revenue management, cost controls, event/venue planning and management, and travel and tourism management.
3. Analyze, evaluate and solve industry related problems utilizing data driven reasoning concepts, critical systems thinking in all sectors of the hotel, restaurant, and travel industries while applying problem-solving and critical-thinking skills to create efficiencies in hospitality operations, improve interpersonal skills, and to resolve workplace conflict.
4. Articulate the ethical importance of hiring, training, and employing a diverse workforce.
5. Evaluate and employ technology that assists in both financial and operational efficiencies while acknowledging and addressing the inherent ethical and practical issues.

## Requirements

All minor courses must be completed with a minimum grade of C-, and a 2.0 grade point average must be maintained in courses for the minor. Two courses must be at the upper level (600 or 700). Only one overlap is allowed between major and minor.

## Minor Requirements

## Student Learning Outcomes

Students will have the opportunity to:

- Gain competency in the fundamentals of human resources management.
- Engage key concepts in organizational development.
- Explore psychosocial dimensions and their impact on individuals and organizations.
- Demonstrate awareness of and competency with diverse cultures in a global workforce.
- Analyze information effectively to guide evidence-based decision-making.
- Recognize and apply ethical principles and legal standards appropriate to human resources and business practice.
- Advance organizational objectives by deploying human resources knowledge in the context of strategic management.

## Human Resource Management Minor

### Description

This minor develops skills for the varied and significant roles that the human resources professional fills in an organization. The minor focuses on developing leadership and managerial skills for the HR professional as an agent of organizational change in the workplace.

NOTE: This minor may not be declared with the following major: BS Human Resource Management.

Students will have the opportunity to:

1. Apply key concepts and legal/ethical frameworks in human resources to effectively resolving real or potential challenges in organizations.
2. Ask critical questions about information and research in the field of human resources.

### Requirements

All minor courses must be completed with a minimum grade of C-, and a 2.0 grade point average must be maintained in courses for the minor. Two courses must be at the upper level (600 or 700). Only one overlap is allowed between major and minor.

## Leadership, Change, and Social Responsibility Minor

### Description

Leadership is the process of motivating people to achieve project goals. Leadership varies from management, and not all leaders are managers. Courses within this minor allow students to define leadership, explore the leadership qualities within one's self and others, investigate the role of leadership in organizations, and assess leadership theories. Within the minor, students will survey and discuss multiple methodologies used to evaluate teams. Students will analyze how organizational dynamics and structure impact the leader, limit or increase their power, and the ability to perform their job.

NOTE: This minor may not be declared with the following major: BS Business Management: Leadership, Change, and Social Responsibility.

Students will have the opportunity to:

1. Use basic as well as advanced management terms and theories.
2. Compare and contrast multiple motivational and management models.
3. Identify and apply multiple conflict resolution techniques.
4. Identify a leader's source and types of power.
5. Survey and discuss multiple methodologies used to evaluate teams.
6. Analyze how organizational dynamics and structure impact the leader, limit or increase their power, and the ability to perform their job.

### Requirements

All minor courses must be completed with a minimum grade of C-, and a 2.0 grade point average must be maintained in courses for the minor. Two courses must be at the upper level (600 or 700). Only one overlap is allowed between major and minor.

## Student Learning Outcomes

Students will have the opportunity to:

- Identify the activities/issues in marketing that may present ethical challenges and articulate the consequences associated with the unethical behavior.
- Apply relevant marketing theories and models to contemporary marketing issues and professional practice.
- Recognize the role of marketing in today's global society.
- Demonstrate multi-channel communication skills including oral, written, audio/visual and digital.
- Identify and analyze contemporary marketing problems and situations.
- Collect, review, and analyze consumer and sales data to make informed marketing decisions.

## Operations, Supply Chain and Logistics Management Major (B.S.)

<https://cps.unh.edu/online/program/bs/operations-supply-chain-logistics-management>

### Description

The Bachelor of Science degree in Operations, Supply Chain, and Logistics Management provides a sound education in business with an emphasis on operations, including supply chain management, project management, quantitative methods, and quality control. Operations, Supply Chain, and Logistics Management degree graduates understand how to be effective as managers and leaders, and are equipped to make strategic contributions through knowledge of operations, supply chain, logistics, production, quality, project management, transportation, and technology.

### Requirements

## Degree Requirements

**Minimum Credit Requirement:** 120 credits

**Minimum Residency Requirement:** 30 credits must be taken at UNH

**Minimum Cumulative GPA:** 2.0 is required for conferral\*

**Core Curriculum Required:** General Education Program

Major, Option and Elective Requirements as indicated.

*\*GPA: Major and any state certification GPA requirements may be higher and are indicated in program details.*

A minimum grade of C- is required in all Major coursework. Students are allowed a maximum of two course overlaps. Overlaps can be used between Major, Minor, and General Education requirements with only one overlap being utilized between the Major and Minor. Please note

that Option requirements are considered part of the Major. Students must complete 16 upper-level credits in majors within the College of Professional Studies, Online.

## General Education Program Requirements

A minimum grade of D- is required in all General Education coursework. Students are allowed a maximum of two course overlaps. Overlaps can be used between Major, Minor and General Education requirements with only one overlap being utilized between the Major and Minor.

All General Education requirements, including CRIT 602 Advanced Critical Analysis and Strategic Thinking and IDIS 601 Interdisciplinary Seminar, must be taken prior to the capstone.

## Student Learning Outcomes

Students will have the opportunity to:

- Demonstrate knowledge of the theory and practice of operations, supply chain, and logistics management.
- Apply qualitative and quantitative methods to problem-solving in business analysis and operational decision-making.

- Manage and lead strategically to enhance performance for individuals, teams, and organizations.
- Analyze operational, supply chain, and logistics strengths and weaknesses from multiple perspectives, including ethical, legal, fiscal, and quality.
- Communicate and interact productively in culturally responsive ways with a diverse and changing workforce.

## Operations, Supply Chain, and Logistics Minor

### Description

This minor explores how the fast and efficient flow of products in from suppliers and out to customers ensures growth in revenue that would otherwise be unobtainable.

NOTE: This minor may not be declared with the following major: BS Operations, Supply Chain, and Logistics Management.

Students will have the opportunity to:

1. Develop knowledge of supply chain management theories, approaches and practices.
2. Demonstrate an understanding of logistics, the global business environment, purchasing practices, and relationship management through course projects.

### Requirements

All minor courses must be completed with a minimum grade of C-, and a 2.0 grade point average must be maintained in courses for the minor. Two courses must be at the upper level (600 or 700). Only one overlap is allowed between major and minor.

### Minor Requirements

Code	Title	Credits
SCM 570	Supply Chain Purchasing Management	4
SCM 610	Supply Chain Management	4
SCM 715	Logistics Management	4
MGMT 642	International and Cross-Cultural Management	4
MGMT 680	Global Business	4
Total Credits		20

## Organization and Business Administration Minor

### Description

The minor in organization and business administration is designed to provide the student with content and additional in-depth education in marketing, management, accounting, information systems, legal, and ethical issues in business.

NOTE: This minor may not be declared with the following major: BS Business Management: Business Administration.

Students will have the opportunity to:

1. Learn the foundations of the various business disciplines and how they function together to create a sustainable business operation.
2. Research business methods and how to base decisions from your findings.
3. Assess legal and ethical issues in business situations.

### Requirements

All minor courses must be completed with a minimum grade of C-, and a 2.0 grade point average must be maintained in courses for the minor. Two courses must be at the upper level (600 or 700). Only one overlap is allowed between major and minor.

### Minor Requirements

Code	Title	Credits
Select 5 courses from the following:		20
ACCT 533	Managerial Accounting

## Student Learning Outcomes

Students will have the opportunity to:

- Possess a broad and interdisciplinary understanding of the psychosocial, cultural, ethical, and political dimensions of criminal justice in contemporary society.
- Demonstrate an ability to understand and apply ethical thinking and behavior as it relates to their work environment.
- Use research methodology and interpret information as it applies to criminal justice.
- Demonstrate a working knowledge of criminology, criminal justice, law enforcement, corrections, probation/parole, US and NH constitutional law, and advocacy.

## Criminal Justice Minor

### Description

This minor explores the roles of law enforcement, corrections, and criminals within the U.S. criminal justice system. Students will gain a foundational understanding of the theories and practices of individuals in each aspect of the criminal justice system.

NOTE: This minor may not be declared with the following majors: BS Criminal Justice.

Students will have the opportunity to:

1. Identify behaviors of criminals and victims.
2. Define the roles of law enforcement, corrections, and criminals within the justice system.
3. Describe the complex relationship between victims, law enforcement, criminals, and corrections.

### Requirements

All minor courses must be completed with a minimum grade of C-, and a 2.0 grade point average must be maintained in courses for the minor. Two courses must be at the upper level (600 or 700). Only one overlap is allowed between major and minor.

## Adult Learning & Development Minor

### Description

This minor provides knowledge to maximize adult learning in training, consulting, or instructional environments. Students will develop an understanding of the unique qualities, motivations, and capabilities of the adult student.

NOTE: This minor may not be declared with the following major: BS Applied Studies Option in Education and Training.

Students will have the opportunity to:

1. Develop sufficient understanding of adult learner behaviors and capacities to enable the student to respond effectively to possible professional scenarios.
2. Apply knowledge of adult development and learning to solving problems in the context of the student's professional field.
3. Ask critical questions about information and research in the field.

### Requirements

All minor courses must be completed with a minimum grade of C-, and a 2.0 grade point average must be maintained in courses for the minor. Two courses must be at the upper level (600 or 700). Only one overlap is allowed between major and minor.

## Early Childhood Education Minor

### Description

The Early Childhood Education minor is designed for individuals seeking to supplement non-education degrees with courses that may be applied towards DHHS credentialing in early childhood. Courses in this minor model curriculum standards set forth by the National Association for the Education of Young Children.

NOTE: This minor may not be declared with the following majors: BS Early Childhood Education or BS Early Childhood Education with Teacher Certification in Early Childhood Education and Early Childhood Special Education.

Students will have the opportunity to:

1. Develop knowledge and skills in promoting child development with an understanding and application of developmentally appropriate practice.
2. Apply knowledge and skills to develop, implement, and evaluate meaningful curriculum for all children.

### Requirements

All minor courses must be completed with a minimum grade of C-, and a 2.0 grade point average must be maintained in courses for the minor. Two courses must be at the upper level (600 or 700). Only one overlap is allowed between major and minor.

### Minor Requirements

PSY 470	Child Development	4
<b>Total Credits</b>		<b>20</b>

## Early Childhood Education (A.S.)

<https://cps.unh.edu/online/program/as/early-childhood-education>

### Description

The Associate in Science degree in Early Childhood Education has been designed to provide a thorough understanding of the young child. This program creates a broad perspective on child and family development patterns. Students develop skills to guide children in their early education.

### Requirements

### Degree Requirements

**Minimum Credit Requirement:** 60 credits

**Minimum Residency Requirement:** 16 credits must be taken at UNH

**Minimum GPA:** 2.0 required for conferral\*

**Core Curriculum Required:** General Education Program

Major, Option, and Elective Requirements as indicated.  
*\*Major GPA requirements as indicated.*

General Education Program Requirements

A minimum grade of D- is required in all General Education coursework. Students are allowed a maximum of one course overlap between the Major and General Education areas.

Code	Title	Credits
ENG 420	The Writing Process	4
COM 460	Interpersonal Communication and Group Dynamics	4
COM 480	Visual Communication	4
CRIT 501	Introduction to Critical Inquiry	4

Student Learning Outcomes

- Students will have the opportunity to:
- Attain proficiency in basic concepts, theories, and methods in Early Childhood Education.
  - Evaluate ethical principles of Early Childhood Education.
  - Communicate effectively, both in writing and verbally, with families, children, co-workers and stakeholders in Early Childhood settings.

Applied Studies Major: Education and Training Option (B.S.)

Description

This option is designed for students with an area of technical or other specific expertise who wish to train or teach adults. Courses in this option focus on adult learning and the theory and practice of teaching adults.

An Associate Degree in an applied field from a regionally accredited college or the equivalent is the required foundation for this program.

Requirements

Degree Requirements

- Minimum Credit Requirement:** 120 credits
- Minimum Residency Requirement:** 30 credits must be taken at UNH
- Minimum Cumulative GPA:** 2.0 is required for conferral\*
- Core Curriculum Required:** General Education Program

Major, Option and Elective Requirements as indicated.

*\*GPA: Major and any state certification GPA requirements may be higher and are indicated in program details.*

A minimum grade of C- is required in all Major coursework. Students are allowed a maximum of two course overlaps. Overlaps can be used between Major, Minor, and General Education requirements with only one overlap being utilized between the Major and Minor. Please note that Option requirements are considered part of the Major. Students must complete 16 upper-level credits in majors within the College of Professional Studies, Online.

## General Education Program Requirements

A minimum grade of D- is required in all General Education coursework. Students are allowed a maximum of two course overlaps. Overlaps can be used between Major, Minor and General Education requirements with only one overlap being utilized between the Major and Minor.

All General Education requirements, including CRIT 602 Advanced Critical Analysis and Strategic Thinking and IDIS 601 Interdisciplinary Seminar, must be taken prior to the capstone.

## Student Learning Outcomes

Students will have the opportunity to:

- Attain proficiency in the concepts, theories, and methods of inquiry pertinent to education and training of adults.
- Design teaching or training that integrates knowledge of an applied field with adult learning and theory.
- Apply ethical principles that inform the practice of teaching adults.

## Early Childhood Education (B.S.)

<https://cps.unh.edu/online/program/bs/early-childhood-education>

### Description

This program is designed for individuals seeking career options in early childhood care settings. Courses in this program prepare individuals to be qualified early childhood education and child care providers. This major offers a model curriculum which addresses standards set by the National Association for the Education of Young Children. The completion of this degree qualifies individuals for the Early Childhood credential through the New Hampshire Child Development Bureau, Department of Health and Human Services. This degree does not lead to public school teacher certification through the Department of Education.

## Student Learning Outcomes

Students will have the opportunity to:

- Develop knowledge and skills in promoting child development with an understanding and application of developmentally appropriate practice.
- Develop knowledge and skills to develop, implement, and evaluate meaningful curriculum for all children.
- Develop knowledge and skills to communicate and collaborate with children, families, and professionals.

## Early Childhood Education / Early Childhood Education and Early Childhood Special Education (B.S.)

<https://cps.unh.edu/online/program/bs/early-childhood-education>

Description

Individuals who complete this dual certification program will be eligible for the New Hampshire Department of Education teacher certification in Early Childhood (N-3) and Early Childhood Special Education (Birth-Age 8). Additionally, completion of this degree qualifies individuals for the New Hampshire Child Development Bureau, New Hampshire Department of Health and Human Services Credential. The Early Childhood certification will prepare individuals to teach children in public schools beginning at the nursery school level to Grade 3, and Early Childhood Special Education certification will prepare individuals to work with infants, toddlers and children who are at risk of being identified as needing special education services or who are already identified as needing special education services.

This is a field-based program for qualified participants working or volunteering in approved programs or education settings. The key components of this program include mentorship of the teacher candidates by highly skilled professionals in the field, the hands-on experience of working with children in educational settings, and the opportunity to build your teaching capacity over time. Graduates of this program will be eligible for certification and highly qualified in both early childhood and early childhood special education.

## Student Learning Outcomes

- Develop a working understanding of current brain research and its implications for teaching and learning.
- Develop the skills to access and utilize technology as a tool to empower teaching and learning.
- Develop a solid understanding of the utilization of formative and summative assessment for program design, monitoring student progress and evaluating teaching effectiveness.
- Work with colleagues to observe, analyze and provide feedback on student progress and teaching effectiveness.
- Utilize research methods and materials, pedagogies and assessment strategies to teach for understanding and application specific to content area.

## English Language Arts / Early Childhood Education and Early Childhood Special Education (B.S.)

### Description

Individuals who complete this dual certification program will be eligible for New Hampshire Department of Education teacher certification in Early Childhood (Birth-Age 8) and Early Childhood Special Education (Birth-Age 8). The program aligns with the NH Department of Education’s standards for teacher credentialing.

## Writing Program Requirements

All bachelor’s degree candidates are required to complete four writing intensive courses as part of the University [Writing Program Requirements](#) (p. 41) as follows:

Code	Title	Credits
ENG 420	The Writing Process	
One Writing Intensive course in the Major		
One Writing Intensive course at the 600-level or above		
One Additional Writing Intensive Course		

*Writing Intensive courses are identified with the label "Writing Intensive Course" in the "Attributes" section of the course description and/or a W following the course number.*

## Major Requirements

A minimum GPA of 3.0 is required for state certification.

Prior to capstone enrollment, students are expected to complete the majority of their required major courses along with CRIT 602 Advanced Critical Analysis and Strategic Thinking and IDIS 601 Interdisciplinary Seminar. Students should consult with their advisor regarding specific major courses that may be completed with their capstone. Academic Advisor approval is required for registration to be processed.

Code	Title	Credits

EDC 798	Culminating Teaching Experience and Seminar	4
<b>Total Credits</b>		<b>89</b>

<sup>1</sup> Required prior to beginning the last 60 credits of degree program

<sup>2</sup> Passing Praxis Core Exam scores must be submitted prior to taking EDC 700 Introduction to Field Experience and Program Requirements

## Electives

Open electives are courses students will need to take in addition to their general education and major requirements in order to satisfy the remaining credit totals for their programs. Open electives are defined as any credit course offered by the College not already included in the student's general education, major, option or minor. Students will need 120 credits total to graduate with a bachelor's degree from the Online Division of the College of Professional Studies.

## State Certification Requirements

The following requirements must be completed in order to be recommended to the state for Teacher Certification:

- A **minimum GPA of 3.0** is required for state certification
- **Praxis Core Academic Skills For Educators Exam** required. Passing Praxis Core Exam scores must be submitted prior to taking EDC 700 Introduction to Field Experience and Program Requirements
- **Praxis II-EC Education of Young Children Exam** required. Students must attempt to pass Praxis II exam prior to taking the Culminating Teaching Experience & Seminar. Passing exam scores are required for state certification.
- **Pearson Foundations of Reading Exam** required. Passing Pearson Foundations of Reading Exam Scores must be submitted prior to taking the Culminating Teaching Experience & Seminar.

## Degree Plan

This degree plan is a sample and does not reflect the impact of transfer credit or current course offerings. UNH CPS Online undergraduate students should develop individual academic plans with their academic advisor during their first year at UNH.

## Student Learning Outcomes

- Develop a working understanding of current brain research and its implications for teaching and learning.
- Develop the skills to access and utilize technology as a tool to empower teaching and learning.
- Develop a solid understanding of the utilization of formative and summative assessment for program design, monitoring student progress and evaluating teaching effectiveness.
- Work with colleagues to observe, analyze and provide feedback on student progress and teaching effectiveness.
- Utilize research methods and materials, pedagogies and assessment strategies to teach for understanding and application specific to content area.

## English Language Arts / Elementary Education / General Special Education (B.S.)

### Description

Individuals who complete this dual certification program will be eligible for the New Hampshire Department of Education teacher certification in Elementary Education (K-5 or K-8) and General Special Education (K-12). The program aligns with the NH Department of Education’s standards for teacher credentialing.

## Requirements

### Degree Requirements

**Minimum Credit Requirement:** 120 credits

**Minimum Residency Requirement:** 30 credits must be taken at UNH

**Minimum Cumulative GPA:** 2.0 is required for conferral\*

**Core Curriculum Required:** General Education Program

Major, Option and Elective Requirements as indicated.

*\*GPA: Major and any state certification GPA requirements may be higher and are indicated in program details.*

A minimum grade of C- is required in all Major coursework. Students are allowed a maximum of two course overlaps. Overlaps can be used between Major, Minor, and General Education requirements with only one overlap being utilized between the Major and Minor. Please note that Option requirements are considered part of the Major. Students must complete 16 upper-level credits in majors within the College of Professional Studies, Online.

### General Education Program Requirements

A minimum grade of D- is required in all General Education coursework. Students are allowed a maximum of two course overlaps. Overlaps can be used between Major, Minor and General Education requirements with only one overlap being utilized between the Major and Minor.

All General Education requirements, including CRIT 602 Advanced Critical Analysis and Strategic Thinking and IDIS 601 Interdisciplinary Seminar, must be taken prior to the capstone.

## Math Studies / Elementary Education / General Special Education (B.S.)

### Description

Individuals who complete this program will be eligible for the New Hampshire Department of Education teacher certification in Elementary Education (K-6) and General Special Education.

This is a field-based program for qualified participants working or volunteering in approved programs or education settings. The key components of this program include mentorship of the teacher candidates by highly skilled professionals in the field, the hands-on experience of working with children in educational settings, and the opportunity to build your teaching capacity over time. Graduates of this program will be eligible for certification and highly qualified in middle level mathematics.

### Requirements

## Degree Requirements

**Minimum Credit Requirement:** 120 credits

**Minimum Residency Requirement:** 30 credits must be taken at UNH

**Minimum Cumulative GPA:** 2.0 is required for conferral\*

**Core Curriculum Required:** General Education Program

<b>Total Credits</b>		<b>77</b>

<sup>1</sup> Required prior to beginning the last 60 credits of degree program

<sup>2</sup> Passing Praxis Core Exam scores must be submitted prior to taking EDC 700 Introduction to Field Experience and Program Requirements

## Electives

Open electives are courses students will need to take in addition to their general education and major requirements in order to satisfy the remaining credit totals for their programs. Open electives are defined as any credit course offered by the College not already included in the student's general education, major, option or minor. Students will need 120 credits total to graduate with a bachelor's degree from the Online Division of the College of Professional Studies.

## State Certification Requirements

The following requirements must be completed in order to be recommended to the state for Teacher Certification:

- A **minimum GPA of 3.0** is required for state certification
- **Praxis Core Academic Skills For Educators Exam** required. Passing Praxis Core Exam scores must be submitted prior to taking EDC 700 Introduction to Field Experience and Program Requirements .
- **Praxis II-Multiple Subject or Middle School Content Exam** Required. Students must attempt to pass Praxis II exam prior to taking the Culminating Teaching Experience & Seminar. Passing exam scores are required for State Certification.
- **Pearson Foundations of Reading Exam** required. Passing Pearson Foundations of Reading Exam Scores must be submitted prior to taking the Culminating Teaching Experience & Seminar.

## Degree Plan

This degree plan is a sample and does not reflect the impact of transfer credit or current course offerings. UNH CPS Online undergraduate students should develop individual academic plans with their academic advisor during their first year at UNH.

## Student Learning Outcomes

- Develop a working understanding of current brain research and its implications for teaching and learning.
- Develop the skills to access and utilize technology as a tool to empower teaching and learning.
- Develop a solid understanding of the utilization of formative and summative assessment for program design, monitoring student progress and evaluating teaching effectiveness.
- Work with colleagues to observe, analyze and provide feedback on student progress and teaching effectiveness.
- Utilize research methods and materials, pedagogies and assessment strategies to teach for understanding and application specific to content area.

## Math Studies / General Special Education (B.S.)

### Description

Individuals who complete this certification program will be eligible for the New Hampshire Department of Education teacher certification in General Special Education (K-12).

This is a field-based program for qualified participants working or volunteering in approved programs or education settings. The key components of this program include mentorship of the teacher candidates by highly skilled professionals in the field, the hands-on experience of working with children in educational settings, and the opportunity to build your teaching capacity over time.

Graduates of this program will be eligible for certification in General Special Education (K-12).

### Requirements

### Degree Requirements

**Minimum Credit Requirement:** 120 credits

**Minimum Residency Requirement:** 30 credits must be taken at UNH

**Minimum Cumulative GPA:** 2.0 is required for conferral\*

**Core Curriculum Required:** General Education Program

Major, Option and Elective Requirements as indicated.

\*GPA: Major and any state certification GPA requirements may be higher and are indicated in program details.

A minimum grade of C- is required in all Major coursework. Students are allowed a maximum of two course overlaps. Overlaps can be used between Major, Minor, and General Education requirements with only one overlap being utilized between the Major and Minor. Please note that Option requirements are considered part of the Major. Students must complete 16 upper-level credits in majors within the College of Professional Studies, Online.

## General Education Program Requirements

A minimum grade of D- is required in all General Education coursework. Students are allowed a maximum of two course overlaps. Overlaps can be used between Major, Minor and General Education requirements with only one overlap being utilized between the Major and Minor.

All General Education requirements, including CRIT 602 Advanced Critical Analysis and Strategic Thinking and IDIS 601 Interdisciplinary Seminar, must be taken prior to the capstone.

## Social Studies / Elementary Education / General Special Education (B.S.)

### Description

Individuals who complete this dual certification program will be eligible for the New Hampshire Department of Education teacher certification in Elementary Education (K-5) and General Special Education (K-12).

This is a field-based program for qualified participants working or volunteering in approved programs or education settings. The key components of this program include mentorship of the teacher candidates by highly skilled professionals in the field, the hands-on experience of working with children in educational settings, and the opportunity to build your teaching capacity over time. Graduates of this program will be eligible for certification in elementary education and general special education. Additionally, graduates of this program will be highly qualified in elementary education.

### Requirements

Allied Health Leadership Major (B.S.)

Description

The Bachelor of Science in Allied Health Leadership is designed for allied health professionals who seek expanded career options in community health care settings. This program requires an earned associate degree from a regionally accredited college in allied health or the equivalent in professional licensure or advanced training. Courses in this option focus on systems and problem solving in health care, leadership principles and managing teams, advocacy, and navigating health care law, ethics, and policy.

## Requirements

### Degree Requirements

**Minimum Credit Requirement:** 120 credits

**Minimum Residency Requirement:** 30 credits must be taken at UNH

**Minimum Cumulative GPA:** 2.0 is required for conferral\*

**Core Curriculum Required:** General Education Program

- Apply ethical principles that guide leadership practice in community care settings.
- Demonstrate strategies to incorporate a variety of cultural frameworks into allied health practice.
- Understand data gathering tools for analysis and decision-making in health care settings.

## Communication Sciences and Disorders (A.S.)

<https://cps.unh.edu/online/program/as/communication-sciences-disorders>

### Description

The Associate in Science in Communication Sciences and Disorders offers an intensive course of study in the area of speech and language disorders, including supervised field experience in a variety of settings. Upon completion of the Associate in Science in Communication Sciences and Disorders degree program, the graduate is eligible to apply for certification as a Speech Language Pathology Assistant to the New Hampshire Allied Health Speech Language Pathology Governing Board. The program is designed to meet guidelines of the American Speech-Language-Hearing Association. Speech Language Pathology Assistant courses are also available without the Associate in Science degree for those not seeking certification.

If you reside in another state, please check with the appropriate agency to determine if this program meets requirements in that state.

### Requirements

### Degree Requirements

**Minimum Credit Requirement:** 60 credits

**Minimum Residency Requirement:** 16 credits must be taken at UNH

**Minimum GPA:** 2.0 required for conferral\*

**Core Curriculum Required:** General Education Program

Major, Option, and Elective Requirements as indicated.

\*Major GPA requirements as indicated.

### General Education Program Requirements

A minimum grade of D- is required in all General Education coursework. Students are allowed a maximum of one course overlap between the Major and General Education areas.

Code	Title	Credits
ENG 420	The Writing Process	4
COM 460	Interpersonal Communication and Group Dynamics	4
COM 480	Visual Communication	4
CRIT 501	Introduction to Critical Inquiry	4
Select one of the following:		4
MTH 402	Math for Our World	
MTH 504	Statistics	
MTH 510	Pre-Calculus	
Knowledge of Human Behavior & Social Systems: PSY 525		4
Knowledge of the Physical & Natural World (p. 33)		4

### Student Learning Outcomes

Students will have the opportunity to:

- Attain proficiency in the concepts, theories, and methods of inquiry pertinent to allied health leadership.
- Develop essential competencies in organizational management, including skills for inter-professional collaboration.
- Integrate knowledge of an allied health care field with the dynamics and complexity of the health care industry.

Knowledge of Human Thought & Expression (p. 33)	4
<b>Total Credits</b>	<b>32</b>

## Major Requirements

A minimum grade of C- is required in all Concentration coursework.

Code	Title	Credits

## Student Learning Outcomes

Students will have the opportunity to:

- Gain knowledge, field experience, and core technical skills within the field of speech language pathology assisting.
- Meet professional standards in keeping with state and national guidelines for competency and ethics.

## Health and Wellness Major (B.S.)

<https://cps.unh.edu/online/program/bs/health-wellness>

### Description

The Bachelor of Science in Health and Wellness focuses on preparing students for opportunities to help people lead healthier lifestyles. The curriculum provides foundational principles related to health coaching, health education, and wellness planning to optimize individual and population health. The program can be paired with a variety of minors to further customize skills and prepare for post-graduate work.

### Requirements

## Degree Requirements

**Minimum Credit Requirement:** 120 credits

**Minimum Residency Requirement:** 30 credits must be taken at UNH

**Minimum Cumulative GPA:** 2.0 is required for conferral\*

**Core Curriculum Required:** General Education Program

Major, Option and Elective Requirements as indicated.

*\*GPA: Major and any state certification GPA requirements may be higher and are indicated in program details.*

A minimum grade of C- is required in all Major coursework. Students are allowed a maximum of two course overlaps. Overlaps can be used between Major, Minor, and General Education requirements with only one overlap being utilized between the Major and Minor. Please note that Option requirements are considered part of the Major. Students must complete 16 upper-level credits in majors within the College of Professional Studies, Online.

## General Education Program Requirements

A minimum grade of D- is required in all General Education coursework. Students are allowed a maximum of two course overlaps. Overlaps can be used between Major, Minor and General Education requirements with only one overlap being utilized between the Major and Minor.

## Degree Plan

This degree plan is a sample and does not reflect the impact of transfer credit or current course offerings. UNH CPS Online undergraduate students should develop individual academic plans with their academic advisor during their first year at UNH.

## Student Learning Outcomes

Students will have the opportunity to:

- Identify and use evidence-based practice to guide planning and decision-making for individual and population health.
- Communicate in multiple modalities to express wellness and prevention strategies, concepts, and messages.
- Integrate knowledge of cultural frameworks and inter-professional collaboration to improve individual and population health.
- Apply scientific reasoning and evidence-based knowledge to determine health education, health promotion, and disease prevention best practices.
- Develop, implement, and evaluate wellness and prevention interventions.

## Health Care Management Major (B.S.)

### Description

The Bachelor of Science degree in Health Care Management integrates the critical functions of management and leadership to facilitate effective health care operations and delivery systems for patients and communities. The program combines health care specific course work with additional relevant areas of leadership, organizational development, and interprofessional collaboration.

### Requirements

#### Degree Requirements

**Minimum Credit Requirement:** 120 credits

**Minimum Residency Requirement:** 30 credits must be taken at UNH

**Minimum Cumulative GPA:** 2.0 is required for conferral\*

**Core Curriculum Required:** General Education Program

Major, Option and Elective Requirements as indicated.

*\*GPA: Major and any state certification GPA requirements may be higher and are indicated in program details.*

## Student Learning Outcomes

Students will have the opportunity to:

- Demonstrate knowledge of health care systems and the organization and integration of clinical and community support services that lead to optimal patient care.
- Assess health care financial models and processes to enhance managerial decision making and organizational performance and to strategically support patients and communities.
- Examine the fundamental rights, ethical principles, and overarching policies that guide health care professionals.
- Evaluate the efficacy of employing information technology tools to improve health care delivery and optimize health outcomes.
- Explore how socio-cultural, familial, and individual perspectives influence the operation, delivery, and use of health care systems.
- Demonstrate competency in communication, interpersonal relations, management, and leadership to support organizational effectiveness and inter-professional collaboration.

## Health Care Management Minor

### Description

This minor explores significant areas of the dynamic and complex health care industry. This minor provides a solid foundation for health care managers and staff, human resource professionals, and others whose work responsibilities intersect with this growing industry.

NOTE: This minor may not be declared with the following majors: BS Health Care Management or BS Allied Health Leadership.

Students will have the opportunity to:

1. Apply general management or human resource management skills to realistic situations in the field of health care
2. Ask critical questions about information and research in the field of health care.

## Requirements

All minor courses must be completed with a minimum grade of C-, and a 2.0 grade point average must be maintained in courses for the minor. Two courses must be at the upper level (600 or 700). Only one overlap is allowed between major and minor.

## Minor Requirements

## Nursing Major (B.S.) CPSO

### Description

#### RN to BSN

The mission of the RN to BSN program is to prepare registered nurses to meet the dynamic health care needs of diverse populations in New Hampshire and beyond while working in collaborative, inter-professional and evidence-based practice environments. The program is accredited by [Commission on Collegiate Nursing Education](#).

#### Admissions Criteria

For full acceptance applicants must provide the following:

- An active RN license issued from the state where the student is currently practicing; and
- An Associate Degree in nursing from a regionally-accredited college or university OR a nursing diploma earned from a school of nursing or teaching hospital.

Conditionally admitted students who have submitted proof of conferred A.S. Nursing degree and not yet passed the NCLEX-RN® may only take non-NUR courses and NUR 600 Enhancing Your Nursing Career and may not proceed with other NUR courses until they have an active RN license.

## Requirements

## Degree Requirements

**Minimum Credit Requirement:** 120 credits

**Minimum Residency Requirement:** 30 credits must be taken at UNH

**Minimum Cumulative GPA:** 2.0 is required for conferral\*

Core Curriculum Required: General Education Program

Major, Option and Elective Requirements as indicated.

*\*GPA: Major and any state certification GPA requirements may be higher and are indicated in program details.*

A minimum grade of C- is required in all Major coursework. Students are allowed a maximum of two course overlaps. Overlaps can be used between Major, Minor, and General Education requirements with only one overlap being utilized between the Major and Minor. Please note that Option requirements are considered part of the Major. Students must complete 16 upper-level credits in majors within the College of Professional Studies, Online.

Writing Program Requirements

All bachelor's degree candidates are required to complete four writing intensive courses as part of the University [Writing Program Requirements](#) (p. 41) as follows:

Code	Title	Credits
ENG 420	The Writing Process	
One Writing Intensive course in the Major		
One Writing Intensive course at the 600-level or above		
One Additional Writing Intensive Course		

*Writing Intensive courses are identified with the label "Writing Intensive Course" in the "Attributes" section of the course description and/or a W following the course number.*

Core Curriculum General Education Requirements-Satisfied with Associate Degree

An applicant with a Bachelor's or Master's Degree in another discipline will be required to take only the 30 credits of nursing courses, in addition to meeting the Writing Intensive requirements. MTH 504 Statistics will be required if not satisfied in transfer.

Major Requirements

A minimum grade of C is required in all Major coursework. Students are allowed a maximum of two course overlaps. Overlaps can be used between Major, Minor and General Education requirements with only one overlap being utilized between the Major and Minor.

For CRIT 602, SOCI/SOSC Elective, and IDIS 601: Students who do not achieve a C or better may repeat each course one time only.  
For all HLTC and NUR courses: Students are allowed to repeat only one of these required courses. Any other course failures may only be repeated with departmental approval. Subsequent failures will result in dismissal from the nursing program.

A minimum GPA of 2.5 in the major is required.

**Prerequisite:** Conferred Associate Degree in Nursing Required, Registered Nursing License Required

Prior to capstone enrollment, students are expected to complete the majority of their required major courses along with CRIT 602 Advanced Critical Analysis and Strategic Thinking and IDIS 601 Interdisciplinary Seminar. Students should consult with their advisor regarding specific major courses that may be completed with their capstone. Academic Advisor approval is required for registration to be processed.

## Student Learning Outcomes

Students will have the opportunity to:

- Deliver safe, competent, and compassionate care within frameworks of law and ethics to patients, families, and the diverse groups of a community.
- Be productive citizens characterized by significant contributions to society that are enlightened by knowledge of health care policy and politics and how they affect health care and nursing practice.
- Advocate locally and nationally for social justice and equity in healthcare accessibility and quality.
- Use a variety of technologies to intervene in health-related problems of individuals, families, communities, and within the health care system.
- Identify, evaluate, apply and/or compile evidence from a variety of resources to apply to health-related problems of individuals, families, communities, and the health care system.
- Collaborate as a member and/or leader of teams characterized by effective communication and mutual respect that enhance the quality of health care services and their delivery.

## Wellness and Prevention Minor

### Description

This minor provides students with key concepts that impact mental and physical well-being. Students will study foundations for health and explore practices to prevent illness and disease. Obstacles and opportunities for health behavior change are addressed.

NOTE: This minor may not be declared with the following majors: BS Health & Wellness, BS Human Services: Wellness and Prevention, or BS Applied Psychology: Wellness & Prevention.

Students will have the opportunity to:

1. Determine the evidence-based best practices that are common to the field of health and wellness.
2. Recognize the health-related problems of an individual, a community or agency.
3. Apply knowledge of health and wellness concepts to determine interventions that affect behavior change and enhance the overall well-being of an individual or group.

## Requirements

All minor courses must be completed with a minimum grade of C-, and a 2.0 grade point average must be maintained in courses for the minor. Two courses must be at the upper level (600 or 700). Only one overlap is allowed between major and minor.

## Minor Requirements

Code	Title	Credits
HLTC 560	Health Behaviors: Theoretical Foundations for Health Education	4
HLTC 720	Health Program Planning and Evaluation	4
SCI 502	Nutrition and Health	4
HLTC 612 or SCI 550	Population Health Wellness and the Human Body	4

- [Human Services Major: Wellness and Prevention Option \(B.S.\)](#) (p. 595)
- [Human Services Minor](#) (p. 597)

## Education Advocacy Minor

### Description

This minor introduces students to the issues associated with supporting individuals who have specific instructional needs. Students will investigate laws, mechanisms of communication, and specific accommodations associated with education of individuals with needs.

NOTE: This minor may not be declared with the following majors: BS Human Services: Education Advocacy or BS Applied Psychology: Education Advocacy.

Students will have the opportunity to:

- 1. Identify the instructional needs of individuals based on culture, race, ethnicity, or disability.
- 2. Communicate possible accommodations.

Requirements

All minor courses must be completed with a minimum grade of C-, and a 2.0 grade point average must be maintained in courses for the minor. Two courses must be at the upper level (600 or 700). Only one overlap is allowed between major and minor.

Minor Requirements

EDC 713	Family and Community Relations in Early Childhood Education	4
SOSC 610	Multicultural Perspectives in Education	4
Total Credits		20

Family Studies Minor

Description

This minor explores evolving family structures in contemporary American society.

NOTE: This minor may not be declared with the following majors: BS Human Services: Family Studies or BS Applied Psychology: Family Studies.

Students will have the opportunity to:

- 1. Develop a foundation of knowledge related to evolving and diverse familial structures within the American Society.
- 2. Apply knowledge of relationship dynamics to social, human service, or psychological professional contexts.

Requirements

All minor courses must be completed with a minimum grade of C-, and a 2.0 grade point average must be maintained in courses for the minor. Two courses must be at the upper level (600 or 700). Only one overlap is allowed between major and minor.

Minor Requirements

- Communicate in multiple modalities the needs of a diversity of client populations.

## Human Services Major: Court Advocacy Option (B.S.)

### Description

The Bachelor of Science in Human Services is designed for students with career interests in human services. This program offers graduates the opportunity to provide access to assistance programs, offer support, and improve the quality of life for those in need while working with individuals and the community at both the local and state level. The court advocacy option introduces students to the issues associated with supporting individuals as they navigate the criminal justice system.

### Requirements

#### Degree Requirements

**Minimum Credit Requirement:** 120 credits

**Minimum Residency Requirement:** 30 credits must be taken at UNH

**Minimum Cumulative GPA:** 2.0 is required for conferral\*

**Core Curriculum Required:** General Education Program

Major, Option and Elective Requirements as indicated.

*\*GPA: Major and any state certification GPA requirements may be higher and are indicated in program details.*

A minimum grade of C- is required in all Major coursework. Students are allowed a maximum of two course overlaps. Overlaps can be used

between Major, Minor, and General Education requirements with only one overlap being utilized between the Major and Minor. Please note that Option requirements are considered part of the Major. Students must complete 16 upper-level credits in majors within the College of Professional Studies, Online.

## General Education Program Requirements

A minimum grade of D- is required in all General Education coursework. Students are allowed a maximum of two course overlaps. Overlaps can be used between Major, Minor and General Education requirements with only one overlap being utilized between the Major and Minor.

All General Education requirements, including CRIT 602 Advanced Critical Analysis and Strategic Thinking and IDIS 601 Interdisciplinary Seminar, must be taken prior to the capstone.

## Student Learning Outcomes

Students will have the opportunity to:

- Differentiate and critically analyze the concepts, theories, and methods of inquiry pertinent to human services.
- Apply the concepts, theories, and methods of human services.
- Apply ethical principles that inform and guide practice in human services and relevant subfields.
- Communicate in multiple modalities the needs of a diversity of client populations.

## Human Services Minor

### Description

This minor enables a student to examine the organization and delivery of a wide range of human services and professions. Focus areas include ethical practice, intervention approaches, and skill development and theory that students can apply in support roles in a variety of social service and health care agencies.

Note: This minor may not be declared with the following majors: B.S. in Applied Psychology: Human Services or B.S. in Human Services (all options).

Students will have the opportunity to:

1. Develop knowledge of a diverse array of psychological and social theories, approaches and practices.
2. Apply knowledge of human and social behaviors across social and health care professional settings.
3. Ask critical questions about information and research in the field of Human Services.

# Requirements

All minor courses must be completed with a minimum grade of C-, and a 2.0 grade point average must be maintained in courses for the minor. Two courses must be at the upper level (600 or 700). Only one overlap is allowed between major and minor.

## Minor Requirements

## Fire Service Administration Major (B.S.)

### Description

The Bachelor of Science in Fire Service Administration degree prepares fire service professionals with the leadership, management, and administrative knowledge and skills essential to advance in the fire service field. The program integrates knowledge and skills necessary to mitigate the ethical, moral, social, and situational challenges of fire and emergency services. Entry into this program requires a conferred Associate Degree in Fire Science or a related field, and certification as an NFPA 1001 Firefighter II issued by a Pro Board or IFSAC-accredited agency.

### Requirements

#### Degree Requirements

**Minimum Credit Requirement:** 120 credits

**Minimum Residency Requirement:** 30 credits must be taken at UNH

**Minimum Cumulative GPA:** 2.0 is required for conferral\*

**Core Curriculum Required:** General Education Program

Major, Option and Elective Requirements as indicated.

*\*GPA: Major and any state certification GPA requirements may be higher and are indicated in program details.*

A minimum grade of C- is required in all Major coursework. Students are allowed a maximum of two course overlaps. Overlaps can be used between Major, Minor, and General Education requirements with only one overlap being utilized between the Major and Minor. Please note that Option requirements are considered part of the Major. Students must complete 16 upper-level credits in majors within the College of Professional Studies, Online.

## General Education Program Requirements

A minimum grade of D- is required in all General Education coursework. Students are allowed a maximum of two course overlaps. Overlaps can be used between Major, Minor and General Education requirements with only one overlap being utilized between the Major and Minor.

All General Education requirements, including CRIT 602 Advanced Critical Analysis and Strategic Thinking and IDIS 601 Interdisciplinary Seminar, must be taken prior to the capstone.

Code	Title	Credits
ENG 420	The Writing Process	4
COM 460	Interpersonal Communication and Group Dynamics	4
COM 480	Visual Communication	4

Knowledge of Human Thought & Expression (p. 33)		4
CRIT 602	Advanced Critical Analysis and Strategic Thinking	4
IDIS 601	Interdisciplinary Seminar	4
Total Credits		40

## Writing Program Requirements

All bachelor's degree candidates are required to complete four writing intensive courses as part of the University [Writing Program Requirements](#) (p. 41) as follows:

Code	Title	Credits
ENG 420	The Writing Process	
One Writing Intensive course in the Major		
One Writing Intensive course at the 600-level or above		
One Additional Writing Intensive Course		

*Writing Intensive courses are identified with the label "Writing Intensive Course" in the "Attributes" section of the course description and/or a W following the course number.*

## Major Requirements

**Prerequisite:** Must have completed an Associate Degree or equivalent in Fire Science field.

Prior to capstone enrollment, students are expected to complete the majority of their required major courses along with CRIT 602 Advanced Critical Analysis and Strategic Thinking and IDIS 601 Interdisciplinary Seminar. Students should consult with their advisor regarding specific major courses that may be completed with their capstone. Academic Advisor approval is required for registration to be processed.

## Electives

Open electives are courses students will need to take in addition to their general education and major requirements in order to satisfy the remaining credit totals for their programs. Open electives are defined as any credit course offered by the College not already included in the student's general education, major, option or minor. Students will need 120 credits total to graduate with a bachelor's degree from the Online Division of the College of Professional Studies.

## Degree Plan

This degree plan is a sample and does not reflect the impact of transfer credit or current course offerings. UNH CPS Online undergraduate students should develop individual academic plans with their academic advisor during their first year at UNH.

## Sample Course Sequence - For students with conferred associate degree

## Student Learning Outcomes

Students will have the opportunity to:

- Demonstrate leadership skills and utilize administrative techniques related to the organizational management of fire and emergency services.
- Integrate research, critical thinking, and analytical decision-making skills to address challenges faced in the delivery and execution of modern fire and emergency services.
- Apply principles of ethics to evaluate fire and emergency services moral and social issues and make principle-based decisions.
- Identify and prioritize public safety threats and hazards and develop fire and emergency service community risk reduction plans.
- Conduct dynamic situational assessments and apply knowledge of risk reduction to develop strategic incident action plans that are consistent with professional standards and best practices to mitigate emergencies or disasters in the community.

## Nonprofit Management Minor

### Description

The minor in nonprofit management provides a comprehensive view of not-for-profit organizations. The topics discussed in the minor revenue streams, development, and fundraising.

NOTE: This minor may not be declared with the following major: BS Business Management: Nonprofit Management.

Students will have the opportunity to:

- 1. Formulate an understanding of nonprofit management.
- 2. Examine financial management and revenue streams for nonprofit organizations.
- 3. Apply relevant marketing theories and practice to nonprofit organizations.
- 4. Identify best practices in volunteer management.

Requirements

All minor courses must be completed with a minimum grade of C-, and a 2.0 grade point average must be maintained in courses for the minor. Two courses must be at the upper level (600 or 700). Only one overlap is allowed between major and minor.

Minor Requirements

Public Administration and Policy Minor

Description

The minor in Public Administration and Policy offers students the appropriate depth and breadth of public administration, leadership, and public policy curriculum.

Note: This minor may not be declared with the following major: B.S. Public Administration.

Students will have the opportunity to:

- 1. Develop the ability to lead and manage in the public interest.
- 2. Participate in, and contribute to, the policy process.
- 3. Articulate, apply, and advance a public service perspective.

Requirements

All minor courses must be completed with a minimum grade of C-, and a 2.0 grade point average must be maintained in courses for the minor. Two courses must be at the upper level (600 or 700). Only one overlap is allowed between major and minor.

Public Administration Major (B.S.)

<https://cps.unh.edu/online/program/bs/public-administration>

Description

The Bachelor of Science degree in Public Administration offers students depth and breadth in public administration, leadership, and public policy. The degree is designed to meet the educational needs of public administration professionals and includes an appropriate foundation for further graduate study for a Master's in Public Administration or Master's in Leadership. The outcomes-based program is built upon a foundation of essential public administration competencies that are integrated throughout the curriculum: public administration, leadership, public policy, ethics, strategic communication, human resource management, budgeting and finance, government relations, and community engagement.

Requirements

Degree Requirements

Minimum Credit Requirement: 120 credits

Minimum Residency Requirement: 30 credits must be taken at UNH

# Computer Information Technology Major: Data Analytics Option (B.S.)

## Description

The major in Computer Information Technology focuses on information, its management and processing within an organization, and the application of technology to create, exchange, store, and use information in that context. The focus is on the business use of information and the application of computing technology. Graduates will typically follow career paths as applications development programmers, planners and designers of information systems, and information systems managers within organizations. The degree provides versatility through a best practices approach to the core areas of Information Technology.

Student Learning Outcomes

Students will have the opportunity to:

- Possess proficiency in information technology, including programming fundamentals, software, network systems, and databases, as well as their relevant web interfaces and applications.
- Demonstrate both practical skills and theoretical knowledge of information technology, enabling graduates to make a professional contribution to organizations across sectors.
- Engage in effective critical thinking and problem-solving in the field of information technology.
- Assess the needs of technology users and articulate appropriate strategies for meeting those needs through hardware and software.

Computer Information Technology  
Major: Entrepreneurship and  
Innovation Option (B.S.)

Description

The major in Computer Information Technology focuses on information, its management and processing within an organization, and the application of technology to create, exchange, store, and use information in that context. The focus is on the business use of information and the application of computing technology. Graduates will typically follow career paths as applications development programmers, planners and designers of information systems, and information systems managers within organizations. The degree provides versatility through a best practices approach to the core areas of Information Technology.

## Electives

Open electives are courses students will need to take in addition to their general education and major requirements in order to satisfy the remaining credit totals for their programs. Open electives are defined as any credit course offered by the College not already included in the student's general education, major, option or minor. Students will need 120 credits total to graduate with a bachelor's degree from the Online Division of the College of Professional Studies.

## Degree Plan

This degree plan is a sample and does not reflect the impact of transfer credit or current course offerings. UNH CPS Online undergraduate students should develop individual academic plans with their academic advisor during their first year at UNH.

## Student Learning Outcomes

Students will have the opportunity to:

- Possess proficiency in information technology, including programming fundamentals, software, network systems, and databases, as well as their relevant web interfaces and applications.
- Demonstrate both practical skills and theoretical knowledge of information technology, enabling graduates to make a professional contribution to organizations across sectors.
- Engage in effective critical thinking and problem-solving in the field of information technology.
- Assess the needs of technology users and articulate appropriate strategies for meeting those needs through hardware and software.

# Computer Information Technology Major: Software Development Option (B.S.)

## Description

The major in Computer Information Technology focuses on information, its management and processing within an organization, and the application of technology to create, exchange, store, and use information in that context. The focus is on the business use of information and the application of computing technology. Graduates will typically follow career paths as applications development programmers, planners and designers of information systems, and information systems managers within organizations. The degree provides versatility through a best practices approach to the core areas of Information Technology.

## Requirements

### Degree Requirements

**Minimum Credit Requirement:** 120 credits

**Minimum Residency Requirement:** 30 credits must be taken at UNH

**Minimum Cumulative GPA:** 2.0 is required for conferral\*

**Core Curriculum Required:** General Education Program

Major, Option and Elective Requirements as indicated.

*\*GPA: Major and any state certification GPA requirements may be higher and are indicated in program details.*

A minimum grade of C- is required in all Major coursework. Students are allowed a maximum of two course overlaps. Overlaps can be used between Major, Minor, and General Education requirements with only one overlap being utilized between the Major and Minor. Please note that Option requirements are considered part of the Major. Students must complete 16 upper-level credits in majors within the College of Professional Studies, Online.

### General Education Program Requirements

A minimum grade of D- is required in all General Education coursework. Students are allowed a maximum of two course overlaps. Overlaps can be used between Major, Minor and General Education requirements with only one overlap being utilized between the Major and Minor.

All General Education requirements, including CRIT 602 Advanced Critical Analysis and Strategic Thinking and IDIS 601 Interdisciplinary Seminar, must be taken prior to the capstone.

- Assess the needs of technology users and articulate appropriate strategies for meeting those needs through hardware and software.

## Computer Information Technology Minor

### Description

This minor enables managers at any level to understand and use information technology as a resource to improve an organization's efficiency.

Note: This minor may not be declared with the following majors: B.S. Technology Management or B.S. Computer Information Technology (all options).

Students will have the opportunity to:

1. Acquire managerial knowledge of informational technology software, hardware and programming.
2. Apply technological skills to advance efficiency of professional settings.
3. Ask critical questions about information and research in the field of Information Technology.

### Requirements

All minor courses must be completed with a minimum grade of C-, and a 2.0 grade point average must be maintained in courses for the minor. Two courses must be at the upper level (600 or 700). Only one overlap is allowed between major and minor.

# Technology Management Major (B.S.)

<https://cps.unh.edu/online/program/bs/technology-management>

## Description

The Technology Management major provides technology proficiency together with the managerial know-how that employers need. With a sound base of knowledge in the core areas of programming, networks, databases, web, and digital media, combined with both fundamental upper-level management courses such as leadership, organizational development, and project management, graduates will be capable of managing technical staff and projects, but will also develop their capacities as strategic leaders who understand changing organizations and can make a contribution even as trends continuously emerge.

## Requirements

### Degree Requirements

- Minimum Credit Requirement:** 120 credits
- Minimum Residency Requirement:** 30 credits must be taken at UNH
- Minimum Cumulative GPA:** 2.0 is required for conferral\*
- Core Curriculum Required:** General Education Program
- Major, Option and Elective Requirements as indicated.

\*GPA: Major and any state certification GPA requirements may be higher and are indicated in program details.

A minimum grade of C- is required in all Major coursework. Students are allowed a maximum of two course overlaps. Overlaps can be used between Major, Minor, and General Education requirements with only one overlap being utilized between the Major and Minor. Please note that Option requirements are considered part of the Major. Students must complete 16 upper-level credits in majors within the College of Professional Studies, Online.

### General Education Program Requirements

A minimum grade of D- is required in all General Education coursework. Students are allowed a maximum of two course overlaps. Overlaps can be used between Major, Minor and General Education requirements with only one overlap being utilized between the Major and Minor.

All General Education requirements, including CRIT 602 Advanced Critical Analysis and Strategic Thinking and IDIS 601 Interdisciplinary Seminar, must be taken prior to the capstone.

## Student Learning Outcomes

Students will have the opportunity to:

- Demonstrate a sound understanding of fundamental management and accounting practices.
- Possess proficiency in technology, including fundamentals of programming, network systems, databases, and the web.
- Lead teams, manage projects and make decisions effectively.
- Communicate successfully to and with technical and non-technical audiences.
- Engage with emerging trends in the rapidly evolving environments of technology and business, and understand their potential applications and risks.
- Assess the contributions that effective technology management makes to organizational goals and their achievement.
- Apply, integrate, and synthesize competencies gained from technical and management courses to make a strategic contribution to business enterprise.

## Peter T. Paul College of Business and Economics

Lucy Gilson, Dean

Luciana Echazu, Associate Dean for Undergraduate Education

Victoria A. Parker, Associate Dean of Graduate Education and Faculty Administration

The Peter T. Paul College of Business and Economics (Paul College) empowers students to be mindful, dynamic leaders through rigorous academics and experiential-learning opportunities led by industry experts and researchers—creating an engaged academic and professional community. Paul College prepares students for careers in Business, Economics, and Hospitality Management. Each program has its unique disciplinary traditions and the simultaneous commitment to broad educational excellence in critical thought, communication, analytic skills, digital literacy, and ethical reasoning.

Paul College's undergraduate curricula combine a breadth of liberal education with specifics of professional education in business administration, economics, and hospitality management. In tandem with their studies at Paul College, undergraduates enrolled in Paul College programs take part of their coursework in other colleges in the University in order to fulfill the Discovery Program requirements. Beyond those requirements, students are encouraged to elect additional courses in the arts, social sciences, humanities, mathematics, and sciences. Thus, students who complete the Paul College programs in business administration, economics, and hospitality management develop an impressive portfolio of marketable skills and knowledge base that may be applied to a variety of fields.

## Accreditation

Peter T. Paul College of Business and Economics is accredited by the Association to Advance Collegiate Schools of Business (AACSB) for the degree programs of business administration and hospitality management.

## Degrees

- Bachelor of Arts (B.A.) in Economics
- Bachelor of Science (B.S) in Business Administration, Analytical Economics, or Hotel and Hospitality Management

For information concerning advanced degrees, see the Graduate Catalog.

## Degree Requirements

Paul College degree candidates must satisfy all of the University Discovery Program requirements for graduation as well as the particular requirements of their individual major programs. Modifications tend to occur in major(option) programs during the four-year period of a student's undergraduate career; Students are expected to conform to these changes. In addition, candidates must complete a math course (MATH 422 Mathematics for Business Applications, MATH 424A Calculus for Social Sciences, or equivalent) and an ethics course (PHIL 431 Business Ethics or equivalent). Bachelor of Science in Business Administration degree students are required to earn 134 credits. Economics majors must also satisfy specific requirements associated with the bachelor of arts degree (see bachelor of arts degree requirements).

In order to graduate, students must achieve a grade-point average of at least 2.3 (2.0 for the B.A. in economics) in the major courses and a minimum grade of C- (for ADMN 403 Computing Essentials for Business, students must obtain credit) in each major course. Course listings are provided by program, or in the case of business administration by department:

- Accounting and Finance (ACFI)
- Business Administration (ADMN)
- Decision Sciences (DS)
- EcoGastronomy (ECOG)
- Economics (ECON)
- Hospitality Management (HMGH)
- Management (MGT)
- Marketing (MKTG)

Prior to attaining junior rank, students will be considered "provisional Paul" students. Students are limited to two Paul College major required courses per semester during this period. A minimum overall GPA of

2.3 at UNH must be maintained by all Paul students in order to remain in the College. If the minimum overall GPA drops below 2.3 during the provisional period, the student will be placed on Paul College probation for one (1) semester. Failure to achieve a minimum overall GPA of 2.3 after the probationary semester will require the student to change to a major outside Paul College.

Paul College courses may not be taken on a pass/fail basis by a student majoring in business administration, economics, or hospitality management. Any Paul College major required course (including ADMN 403 Computing Essentials for Business) in which a grade below C- is obtained must be repeated. No more than two Paul College courses may be repeated and each course may be repeated at most one time.

Students transferring into Paul College from other universities must have business, economics, and hospitality management courses reviewed and approved by the faculty through the Paul College Undergraduate Programs Office to be considered for major requirements. Transfer credit is normally granted only for 400- and 500-level courses, and normally only when the transferring institution is AACSB-accredited.

## Paul College Programs FIRE (First-year Innovation and Research Experience)

FIRE is an integrated, team-based, and game-like experience, developed for first-year students. Launched in the 2015-2016 academic year and under the direction of the Undergraduate Programs and Advising Office, this program was designed to expand upon the principles and mission of the Peer Advising program by engaging first-year students in developing habits and strategies for success. Students complete a one-credit, credit/fail course each semester (PAUL 405 Freshman Academic Experience I/PAUL 406 Freshman Academic Experience II), guided by peer mentors (selected upper-class students) and alumni. Students collaborate and compete, both individually and in teams, through academic challenges, research, and game scenarios culminating in participation at the Undergraduate Research Conference (URC)

More information can be found on the [FIRE](#) webpage.

## Independent Study/Internship

Juniors or seniors in high academic standing in the Paul College may elect the internship or independent study course for variable credit. For either course, the student must secure a faculty sponsor in the area of interest and submit a written proposal prior to the start of the semester in which the project is to be undertaken. Independent study normally involves research, while internships are usually undertaken with cooperation of an off-campus organization and involve a non-routine but practical application of skills and concepts acquired in a student's program.

Independent studies and internships require considerable self-direction and self-monitoring on the part of the student, who must be in high academic standing. Careful prior review of requirements with the undergraduate adviser and faculty sponsor is necessary. Students may earn no more than 16 credits combined in internships, independent studies, field experience, and supervised student teaching experience.

The [Washington Center internship](#), a semester of supervised work experience in Washington, D.C., as well as the [Semester in the City internship](#), in Boston, are open to any major.

## International Programs

International education is a high priority of Paul College with many Education Abroad opportunities available. Through semester abroad and short-term programs, students have the ability to immerse themselves in a variety of cultural environments to better prepare for a career in a globalized business industry. Paul College students may engage in a diverse array of opportunities:

- Study abroad in countries including, but not limited to: Australia, China, Hungary, Ireland, Italy, Korea, Portugal, and Spain
- Faculty-led programs to destinations such as Ascoli Piceno, Italy and Dominican Republic
- International internships
- Research grant programs
- Volunteer or non-profit work

Students are encouraged to begin planning their international experiences early on in their academic careers by visiting the Paul College Undergraduate Programs and Advising Office. In most cases, students are able to take a semester abroad without losing any time towards graduation. Paul College students are highly encouraged to study abroad at schools accredited by the AACSB (Association to Advance Collegiate Schools of Business) and/or EQUIS (European Quality Improvement System). More information about international experiences can be found on the Paul College [website](#) as well as by programs offered through [UNH Global](#).

## Paul College Honors Program

The Paul College Honors Program is designed to provide high achieving students with an enhanced academic experience. Students in the University Honors Program or current students in Paul College have the opportunity to apply to the program at the beginning of the second semester sophomore year. The application process is competitive and based upon grade point average, extra-curricular experiences, and student interests.

*The Program consists of the following elements:*

**Designation and Designation Workshop** (PAUL 790 Honors/The Workshop) — Students pick a course to designate as honors and work with the professor to create a special honors project related to the course. The Designation Workshop brings all honors students together to share, build upon, and ultimately present their designation work.

**Consulting Project** (PAUL 792 Honors/Seminar)—Designed to broaden perspective and build a bridge to the real world, the Honors Experience matches students with small businesses across New Hampshire. With the help of the Small Business Development Center, we will identify real-world projects and give students a chance to apply their learning.

**Research Seminar** (PAUL 794 Honors/The Research Process)—The Research Seminar is dedicated to preparing students to write their honors thesis. The thesis process is broken into steps, and students complete a thesis proposal. Students will attend and discuss faculty research presented at the Paul Scholars series.

**Thesis**—The culminating experience of Paul Honors is the thesis. Students apply what they have learned and undertake their own research with the help of a faculty mentor.

## Five-Year Programs

### Four-One Program: B.S.-M.B.A.

After completion of the bachelors degree program, students may apply to the Paul College masters of business administration full-time program. This innovative curriculum is designed specifically to accelerate your progress through this highly-ranked AACSB-accredited MBA program. Details are provided in the Programs of Study sections of this catalog and the Graduate Catalog.

### Four-One Program: B.S.-M.S.A.

The American Institute of Certified Public Accountants (AICPA), the national association of professional accountants, mandated that five years of university education be required for national certified public accountant (CPA) certification as of the year 2000. Most states have approved similar requirements for licensing/certification. The Paul College offers a five-year program designed for students who desire a professional accounting career. The program leads to the joint awarding of a bachelor of science in business administration and a master of science in accounting degree. Application for admission to this highly selective program is made in the senior year. Details are provided in the Programs of Study sections of this catalog and the Graduate Catalog.

## Paul College—Minors and Courses for Non-majors

### Minors

Paul College faculty has developed a group of courses for non-majors, which, when combined with certain other courses, can constitute a minor in business administration, economics, entrepreneurship, hospitality management, or leadership.

### Non-majors

Paul College also serves the needs of undergraduates elsewhere in the University, within the limits of its resources, for whom selected courses in business administration, economics, or hospitality management are desirable complements to their primary course of study. To the extent that space is available after majors have enrolled, a limited number of Paul College courses are open to non-majors who have the prerequisite preparation. A maximum of 32 credits in courses offered by the Peter T. Paul College of Business and Economics may be taken by non-Paul College students. Students interested in these courses should contact the Paul College Undergraduate Programs and Advising Office.

## Advising System

Undergraduate advising in the Paul College is carried out jointly by dedicated academic advisers and faculty. The academic advisers are based in the [Paul College Undergraduate Programs and Advising Office](#), where student academic records are kept. The advisers assist students in program planning, preregistration, understanding and meeting general academic/degree requirements, and general career planning. In addition, the advisers coordinate study abroad and domestic exchange programs, as well as the honors programs.

Undergraduates are encouraged to develop an advisory relationship with one or more faculty members with whom they have mutual interests. By providing their own experience and expertise, faculty may provide additional support to students for course, program, and career selection. All students are urged to seek as much assistance as they need from appropriate sources, but are reminded that theirs is the

ultimate responsibility for knowing and meeting the various academic requirements for a degree.

## Accounting and Finance Minor

### Description

The **Minor in Accounting and Financial Information** course of study will help students develop a stronger understanding of the accounting data used for analytical decision-making across all disciplines. Accounting is “the language of business” and every entity uses accounting information for decision-making purposes.

Professionals with greater accounting knowledge can provide greater value to clients and employers by understanding not just “top-level” numbers, but also the relationships between these numbers and how accounting choices and management decisions influence these numbers. Complementing competency in other disciplines, the Minor in Accounting and Financial Information will enable students with the knowledge and skills needed to measure and analyze the effects of business decisions and transactions. Further, the minor will help students understand how specific accounting choices can alter the information used in decision-making and affect outcomes. These skills are critical regardless of career path or employer type (i.e., corporations, small and medium sized businesses, start-ups, government entities and non-profit organizations all use accounting information for decision-making purposes).

The Minor in Accounting and Financial Information will provide students with a broader set of career opportunities and a knowledge base that enhances their judgment and decision-making skills both in their professional career and personal lives.

### Requirements

The **Minor in Accounting and Financial Information** is open to both Paul College and Non-Paul College students. Paul College students must complete Path 1 all other students can select Path 1 or 2. The minor consists of two required courses (8 credits) and three elective courses (12 credits).

Code	Title	Credits
Choose one of two paths <sup>1</sup>		
Path 1: Open to any student required for Paul Students.		
ADMN 502	Financial Accounting	
ADMN 503	Managerial Accounting	

Elective Courses (3 Required)

Path 2: Only for Non-Paul Students.		
ACC 501	Survey of Accounting	
ACC 520	Topics in Accounting (Survey of Accounting II) <sup>2</sup>	
Code	Title	Credits
Elective Courses (3 Required)		
Choose at least 2 courses from the list below: <sup>3</sup>		
ACC 621	Intermediate Financial Accounting I	
ACC 622	Intermediate Financial Accounting II	
ACC 623	Advanced Managerial Accounting	
ACC 626	Introduction to Federal Taxation	
ACC 627	Financial Statement Analysis	
ACC 620	Topics in Accounting (Accounting Analytics) <sup>2</sup>	
If only two courses are chosen from the list above: then choose one course from the list below:		
PAUL 450	Personal Finance	
HMGH 618	Uniform Systems for the Hospitality Industry	
HMP 740	Health Care Financial Management (department approval required)	
TECH 750	Intellectual Asset Management for Engineers and Scientists (department approval required, fall semester course only)	
Additional course(s) by petition to the Department of Accounting and Finance		

- 1 A minor consists of 20 semester hours with a grade of C- or better and a 2.0 grade point average.
  - Courses taken on a pass fail basis may not be used to satisfy minor requirements.
  - No more than 8 credits used to satisfy major requirements may be used for the minor.
  - Students are responsible for checking pre-requisites for all courses listed.
  - All transfer courses must be evaluated for equivalency.
  - No more than two transfer courses may be applied to the minor.
  - Capacity may be limited.
- 2 For course as “Topics in Accounting” (or equivalent), please make sure that the course has the same title (not simply the same number) as the listed course for it to count for the minor.
- 3 Suggested Pathway: The Minor has been designed to allow students from varied backgrounds to pursue study in accounting. The following are NOT required but simply presented as possible groups of courses representing what may be an underlying motivation for studying this Minor. Certified Management Accountant (CMA) or Chartered Global Management Accountant (CGMA) Path:
  - ACC 621 Intermediate Financial Accounting I
  - ACC 623 Advanced Managerial Accounting

## Business Administration (ADMN)

The business administration program provides students with the pillars of a business education as well as specialized options to propel them on their career paths. The curriculum consists of fifteen core courses as well as option/major courses, which imparts students with expertise in one or two areas of business. At the same time, Paul College students achieve a well-rounded education by selecting courses in the liberal arts and the sciences from other colleges and schools in the University, including to complete University Discovery requirements. The Peter T. Paul College's program in business administration is accredited by the Association to Advance Collegiate Schools of Business (AACSB) and is separate from the business program at the UNH-Manchester campus.

## Core Curriculum

The business administration's core curriculum constitutes the fundamental theories, principles, concepts, and skill sets necessary for students to thrive in the professional business world. Each required core course equips students with the knowledge and skills utilized in key areas of business, while building upon their social, competitive, and analytical intelligence. The business administration program also augments its core curriculum with math, ethics, and economics.

In order to graduate, students must achieve a grade-point average of at least 2.3 in the major courses and a minimum grade of C- (for ADMN 403 Computing Essentials for Business, students must obtain credit) in each Paul College major course. Core courses are generally completed in the first five semesters of enrollment at Paul College, with the exception of ADMN 775 Strategic Management: Decision Making (capstone course):

- MATH 422 Mathematics for Business Applications, or MATH 424A Calculus for Social Sciences
- PHIL 431 Business Ethics
- ECON 401 Principles of Economics (Macro)
- ECON 402 Principles of Economics (Micro)
- ADMN 400 Introduction to Business
- ADMN 403 Computing Essentials for Business (1 credit)
- ADMN 410 Management Information Systems
- ADMN 510 Business Statistics
- ADMN 502 Financial Accounting
- ADMN 503 Managerial Accounting
- ADMN 570 Introduction to Financial Management
- ADMN 575 Behavior in Organizations
- ADMN 580 Quantitative Decision Making
- ADMN 585 Marketing
- ADMN 775 Strategic Management: Decision Making (Capstone course, satisfies capstone requirement for the University Discovery Program)

### Additional requirements:

- PAUL 405 Freshman Academic Experience I
- PAUL 406 Freshman Academic Experience II
- PAUL 660 BiP-Social Intelligence Topics
- PAUL 670 BiP-Analytical Intelligence Topics
- PAUL 680 BiP-Competitive Intelligence Topics
- PAUL 690 BiP-Professional Intelligence Topics

## Options in the Business Administration Program

As students advance, they must declare an option within the business administration program (students can complete two options by choice). Bachelor of Science in Business Administration requires the completion of 134 credits total. Declaration of an option occurs during their second semester sophomore year, thus focusing on a particular area of business during their last three semesters. The sophomore option declaration date is set by the Undergraduate Programs and Advising Office and usually by February of the sophomore year. Students are encouraged to discuss

their interests with several faculty members and an academic adviser in this decision-making process. Options comprise a minimum of four courses, but requirements do vary by option and are determined by the nature of the career field. Current business administration options are:

- Accounting
- Entrepreneurial Studies
- Finance
- Information Systems and Business Analytics
- International Business and Economics
- Management
- Marketing
- Student-Designed

Due to the dynamic nature of the business world, the portfolio of options offered may change from time to time. Students are expected to stay attuned to these changes through Paul College Undergraduate Programs and Advising Office. A change of option/major may only be made once per semester.

## Business in Practice (BiP) Program

The Business in Practice (BiP) program enhances Paul College's rigorous academics by bridging the gap between theory and practical application. Through experiential learning projects, you work directly with industry leaders and companies to acquire a deeper grasp of real business issues and responsibilities, giving you the tools, skills and know-how to launch a successful and meaningful business career. The program is designed to be flexible and optimizes your skill level in key intelligence areas most valued by employers.

### BiP INTELLIGENCES AND LEARNING GOALS

You will take a minimum of four courses\*, one in each of the intelligence areas:

- PAUL 660 BiP-Social Intelligence Topics - ability to navigate complex social relationships and environments.
- PAUL 670 BiP-Analytical Intelligence Topics - ability to analyze and evaluate ideas, solve problems and make decisions.
- PAUL 680 BiP-Competitive Intelligence Topics - ability to gather, analyze and distribute information and ideas about products, customers, competitors or the external environment.
- PAUL 690 BiP-Professional Intelligence Topics - ability to achieve professional success.

\*Other Paul College courses or opportunities may be assigned with BiP Intelligence attributes and satisfy a BiP course requirement. Please check with Paul College Undergraduate Programs Office for other potential courses designated with a BiP Intelligence attribute.

## Faculty

<https://paulcollege.unh.edu/directory/all>

## Business Administration Major (B.S.)

<https://paulcollege.unh.edu/business-administration/program/bs/business-administration-major>

## Description

A Bachelor of Science in business administration will help you build the skills, knowledge and experience to land a job and thrive in today's evolving economy. Graduates are in demand in a variety of industries including accounting, finance, information systems and business analytics, management and marketing. Whether you aspire to work for a high-powered firm, start-up or non-profit or launch your own business, a business administration degree opens the doors to many career opportunities.

At Paul College, students in the business administration major take foundation courses in their freshman and sophomore years that cover the fundamental theories, principles, concepts and skill sets in key areas of business, while building upon their social, analytical, competitive and professional intelligence. These foundation courses prepare you to move into a variety of fields and companies. You also must declare an option within your major during the second semester of your sophomore year that provides deeper expertise in a specific business area to propel you on your career path. Many students choose more than one! Options within the major include: accounting, entrepreneurial studies, finance, information systems and business analytics, international business and economics, management, marketing, and student designed.

## Requirements

### Degree Requirements

**Minimum Credit Requirement:** 128 credits

**Minimum Residency Requirement:** 32 credits must be taken at UNH

**Minimum GPA:** 2.0 required for conferral\*

**Core Curriculum Required:** Discovery & Writing Program Requirements

**Foreign Language Requirement:** No

All Major, Option and Elective Requirements as indicated.

\*Major GPA requirements as indicated.

## Major Requirements

The following courses are major-required courses. Students take 16-18 credits per semester. Discovery Program requirements (including the Inquiry requirement in the first two years) and elective courses are taken as well. Students are expected to follow this course plan. In the first three semesters, students cannot take more than two major courses in a single semester. The options have additional requirements as noted in those program descriptions. For a detailed schedule/plan of study for each option, students should check with the Paul College Undergraduate Programs and Advising Office for specific recommendations.

A typical plan of study follows, showing the major-required courses. Students take 16-18 credits per semester. Discovery Program requirements (including the Inquiry requirement in the first two years) and elective courses are taken as well. Students are expected to follow this course plan. In the first three semesters, students cannot take more than two major courses in a single semester. The options have additional requirements as noted. For a detailed schedule/plan of study for each option, students should check with the Paul College Undergraduate Programs and Advising Office for specific recommendations.

<sup>1</sup> This is the capstone course in the business administration program, and satisfies the capstone requirement of the Discovery Program. Students may be required to concurrently enroll in ADMN 700 PAUL Assessment of Core Knowledge (zero credits) for AACSB accreditation purposes.

<sup>2</sup> Students may satisfy PAUL 660, PAUL 670, PAUL 680, PAUL 690 requirements through other courses/experiences with approved intelligence attributes assigned.

Depending on the choice of option and the specific requirements thereof, students may be able to take PAUL or non-PAUL electives in their junior or senior year.

## Student Learning Outcomes

- Students will demonstrate proficiency in the core content areas of business.
- Students will think critically to address business situations.
- Students will demonstrate communication skills to interact effectively in business situations.
- Students will identify and understand the ethical dimensions and implications of business decisions.
- Students will demonstrate the ability to analyze a business situation by applying a multiple stakeholder lens.
- Students will demonstrate an understanding of business practices as they relate to local, national and global competitiveness.

## Business Administration Major: Accounting Option (B.S.)

<https://paulcollege.unh.edu/business-administration/program/bs/business-administration-major-accounting-option>

### Description

The **Option in Accounting** prepares students for careers in a “recession proof profession” with excellent placement and salary statistics.

Accounting is referred to as the “language of business” because all businesses rely on accounting information for decision-making.

Because accounting is inherently subjective, accounting students learn the analytical skills necessary to make idiosyncratic decisions.

However, in contrast to other professions, accountants also learn a technical knowledge base that allows them to understand how accounting choices can affect the information used for decision-making in all disciplines. This deeper understanding of business data helps accounting professionals provide value to clients and employers.

Because every business relies on accounting information, accounting students can select an industry and position that aligns with their personal interests. Examples of commonly selected positions include audit, tax, financial consulting, and management. The Option provides students with the requisite knowledge to obtain certifications in a variety of areas, including accounting (CPA), management (CMA), internal auditing (CIA), forensics (CFE), and information systems (CISA). Students may also take advantage of the four-one (5 year) program to earn a M.S. in Accounting at Paul College, which can speed career progression. Irrespective of the position or educational pathway an individual student selects, the demand for accounting professionals exceeds supply, making accounting a great career choice.

## Business Administration Major: Entrepreneurial Studies Option (B.S.)

<https://paulcollege.unh.edu/business-administration/program/bs/business-administration-major-entrepreneurial-studies-option>

## Description

The **Option in Entrepreneurial Studies** is designed for students interested in entrepreneurship and creativity and who seek to learn about starting high growth business, working for a new venture, investing in start-ups or becoming involved in a new venture creation within an established organization. The ES option fosters an entrepreneurial culture throughout the program with a priority on applied learning in the dynamic environment of entrepreneurial ventures. Students apply what they've learned to a senior project and in conducting due diligence for investors. The ES option studies entrepreneurship from the entrepreneurs, employees and the investor's perspective.

## Business Administration Major: Finance Option (B.S.)

<https://paulcollege.unh.edu/business-administration/program/bs/business-administration-major-finance-option>

### Description

The **Option in Finance** provides students with the knowledge and analytical skills necessary to make informed financial decisions for themselves and their organizations. Business students interested in numbers, quantitative analysis, problem solving, utilizing creativity, and practical applications will appreciate this option. Opportunities exist in a variety of fields, including commercial and investment banking, insurance, corporate finance, money management, venture capital, risk management, and real estate.

The job outlook for finance students is strong, and starting and mid-career salaries are typically among the highest of all majors at a university. Many premier jobs in business, such as hedge fund manager, investment banker, and CFO, are in finance.

- Students will think critically to address business situations.
- Students will demonstrate communication skills to interact effectively in business situations.
- Students will identify and understand the ethical dimensions and implications of business decisions.
- Students will demonstrate the ability to analyze a business situation by applying a multiple stakeholder lens.
- Students will demonstrate an understanding of business practices as they relate to local, national and global competitiveness.

## Business Administration Major: Information Systems and Business Analytics Option (B.S.)

<https://paulcollege.unh.edu/business-administration/program/bs/business-administration-major-information-systems-business>

## Description

The Option in Information Systems and Business Analytics (ISBA) will appeal to students who wish to learn how to take advantage of contemporary technologies to solve complex business problems. Pivotal contributors to the success of any venture must be able to understand and communicate both the business needs as well as the technical details of solutions. The option prepares students for a career in a wide range of industries by helping them master the fundamentals of information systems and business analytics, as well as the ability to implement solutions or provide leading-edge, analytics-based solutions to real business problems. Students work on real-world industry projects and apply concepts and problem-solving skills learned in the classroom. All students in the option develop functional knowledge and skills in information systems and business analytics. Beyond the required courses in the option, students may choose between an emphasis in Information Systems or an emphasis in Business Analytics. The ISBA option can be completed as a single or dual option. In either case, the graduate will have tangible knowledge and skills. Regardless of one's interest area or degree, employers look for people that can help them solve problems efficiently and effectively. The ISBA option prepares students to do just that, and continue learning as technology and business continue to change.

## Requirements

### Degree Requirements

**Minimum Credit Requirement:** 128 credits

**Minimum Residency Requirement:** 32 credits must be taken at UNH

**Minimum GPA:** 2.0 required for conferral\*

**Core Curriculum Required:** Discovery & Writing Program Requirements

**Foreign Language Requirement:** No

All Major, Option and Elective Requirements as indicated.

\*Major GPA requirements as indicated.

### Major Requirements

A typical plan of study follows, showing the major-required courses. Students take 16-18 credits per semester. Discovery Program requirements (including the Inquiry requirement in the first two years) and elective courses are taken as well. Students are expected to follow this course plan. In the first three semesters, students cannot take more than two major courses in a single semester. The options have additional requirements as noted. For a detailed schedule/plan of study for each option, students should check with the Paul College Undergraduate Programs and Advising Office for specific recommendations.

<sup>1</sup> At least two elective courses must be DS courses.  
<sup>2</sup> Only for students completing 2nd option in Accounting, Finance or Marketing.

## Student Learning Outcomes

- Students will demonstrate proficiency in the core content areas of business.
- Students will think critically to address business situations.
- Students will demonstrate communication skills to interact effectively in business situations.
- Students will identify and understand the ethical dimensions and implications of business decisions.
- Students will demonstrate the ability to analyze a business situation by applying a multiple stakeholder lens.
- Students will demonstrate an understanding of business practices as they relate to local, national and global competitiveness.

## Business Administration Major: International Business and Economics Option (B.S.)

<https://paulcollege.unh.edu/business-administration/program/bs/business-administration-major-international-business-economics>

## Description

The Option in International Business and Economics offers an interdisciplinary course of study, providing strong business training

for students pursuing careers at organizations with an international focus, particularly in multinational corporations, international banks, and government agencies. It achieves this by combining general business training with in-depth knowledge in economics, finance, and management. Students are strongly encouraged to round out their education with either an internship at an international organization or by studying abroad for one semester.

## Option in International Business and Economics

Code	Title	Credits
<b>Required courses:</b>		
ECON 645	International Economics	
MGT 655	Doing Business Globally	
<b>Select three of the following:</b> <sup>1</sup>		12
ECON 655	Innovation in the Global Economy	
ECON #668	Economic Development	
ECON 746	International Finance	
FIN 703	International Financial Management	
HMTG #756	International Franchising	
MGT 755	Global Mindset for Sustainable Business	
MKTG 760	International Marketing (Fall only)	
DS 620	Topics in Decision Sciences (Global Supply Chain Management)	
<b>International Experience</b>		4
A one-semester (8 weeks or longer) study abroad experience. Must involve at least one approved International Business or Economics Course.		
A shorter term Faculty-Led international program (e.g., J-Term or Summer international trip)		
1-4 credit internship at an International Organization (must be approved prior to the beginning the internship.)		
<b>Total Credits</b>		16

<sup>1</sup> Students can tailor their option by specializing in International Trade and Finance (ITF) or International Business (IB). For ITF select ECON 655, ECON 746 and FIN 703. For IB select ECON 655, MGT 755, MKTG 760, HMTG #756 or DS 620 (Global Supply Chain Management).

## Student Learning Outcomes

- Students will demonstrate proficiency in the core content areas of international business.
- Students will think critically to address business situations.
- Students will demonstrate communication skills to interact effectively in business situations.
- Students will identify and understand the ethical dimensions and implications of business decisions.
- Students will demonstrate the ability to analyze a business situation by applying a multiple stakeholder lens.
- Students will demonstrate an understanding of business practices as they relate to local, national and global competitiveness.

## Business Administration Major: Management Option (B.S.)

<https://paulcollege.unh.edu/business-administration/program/bs/business-administration-major-management-option>

## Description

**The Option in Management** provides students with the knowledge and skills to assess organizational effectiveness, identify challenges, develop solutions, and implement changes in order to improve internal and external performance. Courses emphasize critical thinking, problem-solving, planning, interpersonal skills related to ethical leadership in the global economy, managing innovation and technology, organizational change and sustainability, and international and cross-cultural issues in organizations.

The option emphasizes the generalist's mindset in concert with a specialist's functional understanding of the firm. This is an excellent option for students who see themselves as "big picture" people. Future career paths include an array of management, supervisory, entrepreneurial, human resources, and other positions in for-profit and non-profit organizations. The option is also recommended for students considering graduate education in management or law.

## Student Learning Outcomes

- Students will demonstrate proficiency in the core content areas of business.
- Students will think critically to address business situations.
- Students will demonstrate communication skills to interact effectively in business situations.
- Students will identify and understand the ethical dimensions and implications of business decisions.
- Students will demonstrate the ability to analyze a business situation by applying a multiple stakeholder lens.
- Students will demonstrate an understanding of business practices as they relate to local, national and global competitiveness.

## Business Administration Major: Marketing Option (B.S.)

<https://paulcollege.unh.edu/business-administration/program/bs/business-administration-major-marketing-option>

## Description

The **Option in Marketing** focuses on how to develop, establish, and maintain products and services of high value for customers as well as how to deliver and communicate them, from both digital and traditional perspectives. The option addresses key linkages critical to effective customer and brand management, from understanding customer needs and problems to delivering appropriate solutions and services. It further examines decision choices facing managers concerning market selection, entry timing, positional advantage to be pursued, targeting, and

executorial approaches. The option emphasizes digital marketing and analytics across its courses.

- Students will identify and understand the ethical dimensions and implications of business decisions.
- Students will demonstrate the ability to analyze a business situation by applying a multiple stakeholder lens.
- Students will demonstrate an understanding of business practices as they relate to local, national and global competitiveness.

### Business Administration Major: Student Designed Option (B.S.)

<https://paulcollege.unh.edu/business-administration/program/bs/business-administration-major-student-designed-option>

### Description

A **Student-Designed Option (SDO) in Business Administration** is for highly motivated and disciplined students to pursue a course of study that is not available through any of the other current options in Paul College. The

SDO should be different from any of the existing options and should serve to further the students’ intellectual development and future career goals.

The SDO cannot be used to avoid portions of existing options that are presumed to be uninteresting or difficult. For example, the SDO cannot consist of all courses from an existing option with one or two substitutions. The SDO will consist of courses from Paul College, and courses from outside of Paul College from existing disciplines (e.g., Psychology, Art, Homeland Security, etc.).

Students should begin planning for their designed major in their sophomore year by finding a faculty advisor and work with them to draft the proposal. All proposals should be submitted by the fall of the student’s junior year.

The faculty coordinator is Professor Carole K. Barnett.

If you are considering this option you should begin to plan for it no later than the second semester of your sophomore year. The formal application deadline is Oct. 15 of your Junior year; you must have a cumulative grade point average of at least 3.0.

Requirements

Degree Requirements

- Minimum Credit Requirement: 128 credits
- Minimum Residency Requirement: 32 credits must be taken at UNH
- Minimum GPA: 2.0 required for conferral\*
- Core Curriculum Required: Discovery & Writing Program Requirements
- Foreign Language Requirement: No

All Major, Option and Elective Requirements as indicated.  
\*Major GPA requirements as indicated.

Major Requirements

A typical plan of study follows, showing the major-required courses. Students take 16-18 credits per semester. Discovery Program requirements (including the Inquiry requirement in the first two years) and elective courses are taken as well. Students are expected to follow this course plan. In the first three semesters, students cannot take more than two major courses in a single semester. The options have additional requirements as noted. For a detailed schedule/plan of study for each option, students should check with the Paul College Undergraduate Programs and Advising Office for specific recommendations.

Student-Designed Option

Code	Title	Credits
Student Designed Option (SDO) Requirements		20
Students will work with a faculty advisor to draft a proposal to be submitted to the Undergraduate Curriculum Committee. Proposals must be submitted by fall of Junior Year. The option must consist of at least 5 courses and include: <sup>1</sup>		
At least two (2) courses from ACC, DS, FIN, MGT, or MKTG departments that meet approval		
At least two (2) other courses from outside of Paul College		
One (1) Additional Course chosen in consultation with your faculty advisor.		

- <sup>1</sup> Students interested in the Student Designed Option must meet with their advisor to discuss their interest and obtain the proposal application.

Student Learning Outcomes

- Students will demonstrate proficiency in the core content areas of business.
- Students will think critically to address business situations.
- Students will demonstrate communication skills to interact effectively in business situations.
- Students will identify and understand the ethical dimensions and implications of business decisions.
- Students will demonstrate the ability to analyze a business situation by applying a multiple stakeholder lens.
- Students will demonstrate an understanding of business practices as they relate to local, national and global competitiveness.

Business Administration Minor

<https://paulcollege.unh.edu/business-administration/program/minor/business-administration>

## Description

The **Minor in Business Administration** offers students majoring in other disciplines the opportunity to develop a well-rounded business background. Students complete coursework in core business areas such as accounting, marketing, management, as well as economics. The minor enables students to enter their selected industries with skills and experience that distinguish them as professionals.

## Requirements

### Business Administration Minor

Code	Title	Credits
<b>Required courses:</b>		
ECON 402	Principles of Economics (Micro)	4
ACC 501	Survey of Accounting	4
or ADMN 502	Financial Accounting	
MKTG 530	Survey of Marketing	4
MGT 535	Organizational Behavior	4
<b>One elective from the following courses:</b>		<b>4</b>
ADMN 510	Business Statistics	
ADMN 503	Managerial Accounting	
DS 520	Topics in Entrepreneurship/Decision Sciences	
ECON 401	Principles of Economics (Macro)	
ECON 625	Economic History of the United States	
ECON 620	Topics in Economics	
FIN 620	Topics in Finance I	
MGT 620	Topics in Management

MKTG 520	Topics in Marketing	
MKTG 547	Promotion and Advertising	
MKTG 649	Foundations of Personal Selling	
PAUL 450	Personal Finance	

\*Other courses may be approved by petition

Please note:

- The courses may be taken in any order; you are responsible for checking pre-requisites for elective courses.
- Capacity in most courses may be limited.
- ACC 501, MKTG 530, and MGT 535 are for Business Administration minor only; they do not carry credit toward Paul College majors.
- The Business Administration minors must also follow UNH's policy on minors.
- Following University policy, you must complete 20 semester hours with a grade of C- or better and a 2.0 grade point average.
- Courses taken on a Pass/Fail basis may not be used for the minor.
- No more than 8 credits used by the student to satisfy major requirements may be used for the minor.
- No more than 8 credits or 2 courses of approved transfer courses may be used toward the minor.

## Ecogastronomy (ECOG)

The Peter T. Paul College of Business and Economics and the College of Life Sciences and Agriculture offer undergraduate students the opportunity to pursue a dual major in EcoGastronomy. The dual major requires completion of the EcoGastronomy program and any other major.

The EcoGastronomy program prepares students for professions within our rapidly evolving food community—from farm to fork to nutrition and health outcomes—where ever-greater integration of agriculture, food, and nutrition requires a broad perspective and a specific blend of skills and knowledge. The dual major in EcoGastronomy is international by providing a context for studying "gastronomy" in Ascoli-Piceno, Italy.

## International Experience

All students who declare the dual major in EcoGastronomy spend a full semester abroad, most likely during their junior year. Students will study in Ascoli Piceno, Italy, (spring, summer or fall semester).

Dual majors will complete a series of upper-level core courses such as history of cuisine and gastronomy, history of food, aesthetics, food law, food technology processes, cross-cultural comparisons, and language.

The study abroad credit requirement is 8 credits.

## Portfolio

Students will be required to submit a portfolio annually to the director, and a cumulative portfolio to the instructor of their capstone course for final assessment.

The courses in the dual major program are multidisciplinary, taught by faculty from different departments in the University. They are designed to integrate UNH strengths in sustainable agriculture, hospitality management, and nutrition to offer a unique academic program emphasizing the interdisciplinary, international, and experiential knowledge that connects all three fields. The program is experiential by requiring students to work in the field growing food, in the kitchen preparing food, and developing the skills associated with both. They will also experience the local food cultures and get firsthand experience on the issues of food security locally, regionally, and globally.

Students who wish to declare a dual major in EcoGastronomy must have a cumulative grade-point average of 2.5; have declared, or be prepared to declare, a disciplinary major; and complete the Introduction to EcoGastronomy course (ECOG 401 Introduction to Ecogastronomy) with a grade of C or better.

ECOG 401 Introduction to Ecogastronomy is prerequisite for study abroad. All required classes and the elective are a pre/corequisite for the senior EcoGastronomy capstone course, ECOG 701 EcoGastronomy Capstone. Exceptions are possible with a late declaration of the dual major. All foreign experiences must be pre-approved by the EcoGastronomy director.

The completion of the dual major requires no additional credits for graduation beyond the 128 required of all UNH students. All coursework required for EcoGastronomy must be completed with a grade C or better. For information, contact the dual major in EcoGastronomy, PAUL 101E, (603) 862-3327, [ecog.info@unh.edu](mailto:ecog.info@unh.edu).

Ecogastronomy Dual Major

https://www.unh.edu/ecogastronomy/curriculum

Description

The Dual Major in EcoGastronomy integrates UNH strengths in sustainable agriculture, hospitality management, and nutrition. EcoGastronomy offers a unique academic program emphasizing the interdisciplinary, international, and experiential knowledge that connects all three fields.

The EcoGastronomy Dual Major is a collaboration with the University of New Hampshire's College of Life Sciences and Agriculture, Peter T. Paul College of Business and Economics, and the Sustainability Institute.

Requirements

Degree Requirements

Minimum Credit Requirement: 128 credits

Minimum Residency Requirement: 32 credits must be taken at UNH

Minimum GPA: 2.0 required for conferral\*

Core Curriculum Required: Discovery & Writing Program Requirements

Foreign Language Requirement: Yes, if primary major is a Bachelor of Arts

Declared Primary Major

All Major, Option and Elective Requirements as indicated.

\*Major GPA requirements as indicated.

EcoGastronomy Dual Major Requirements

Code	Title	Credits
Required Courses:		
ECOG 401	Introduction to Ecogastronomy	4
SAFS 405	Sustainable Agriculture and Food Production	4
NUTR 400	Nutrition in Health and Well Being	4
NUTR 403	Culinary Arts Skills Development	4
or HMG 405	Introduction to Food and Service Management	
NUTR 686	UNH-in-Italy Study Abroad <sup>1</sup>	0
ECOG 701	EcoGastronomy Capstone <sup>2</sup>	2-4
Select one elective from the following courses:		4
ANSC 602	Animal Rights and Societal Issues	
ANSC 698	Cooperative for Real Education in Agricultural Management (CREAM)	
EREC 680	Agricultural and Food Policy	
HIST 618	American Environmental History	
HMG 771	International Wine and Beverage	
HMG 570	International Food and Culture	
MGT 662	Exploration in Entrepreneurial Management	
NR 602	Natural Resources and Environmental Policy	
NR 720	International Environmental Politics and Policies for the 21st Century	
NR 784	Sustainable Living - Global Perspectives	
NR 785	Systems Thinking for Sustainable Solutions	
NUTR 625	From Farm to the Italian Table	
NUTR 720	Community Nutrition	

NUTR 730	From Seed to Sea: Examining Sustainable Food Systems
SAFS 620	Food Systems & Community Resilience
SAFS 679	Food Production Field Experience I
SOC 665	Environmental Sociology
ZOOL 610	Principles of Aquaculture
MEFB 772	Fisheries Biology: Conservation and Management
Total Credits	22-24

<sup>1</sup> NUTR 686 UNH-in-Italy Study Abroad is a variable credit course. ECOG students much complete at least 8 credits of study abroad.  
<sup>2</sup> Satisfies the capstone requirement of the Discovery Program for the EcoGastronomy major.

Student Learning Outcomes

- Students will understand and be able to communicate the interconnected nature of the food system, taking into account the social, political, ethical, environmental, economic, and social justice issues that are intertwined in the system.
- Students will gain practical understanding of food system sustainability by engaging in experiential education opportunities.
- Students will be able to speak fluently in the language of sustainable food systems.
- Students will effectively analyze and evaluate the full lifecycle of a food, or food product, by identifying and applying reliable information.
- Students will demonstrate effective oral communication skills.
- Students will demonstrate effective written communication skills.
- Students will demonstrate effective presentation skills.

Economics (ECON)

Economics is the study of how societies organize themselves to produce goods and services and to distribute those products among the members of society. In the modern world, a combination of market forces, public policies, and social customs perform these basic economic tasks. Economists use concepts, models, and data to analyze efficiency of resource use, fairness of economic outcomes, and development of global and national economies. The economics programs are designed to introduce students to the tools of economic analysis and to show students how they can use those tools to analyze and better understand real-world situations.

Undergraduate training in economics is an excellent background for a variety of careers, including banking and financial services, journalism, international business, public service, the diplomatic corps, entrepreneurial ventures, and government administration. An undergraduate major in economics is also excellent preparation for those interested in graduate work in law, business administration, and international relations.

The department offers the choice of a B.A. degree in economics or a B.S. degree in analytical economics. The B.A. degree is designed to offer students maximum flexibility in designing a program of study. Students are encouraged to take a wide variety of courses, double major, and take advantage of study abroad programs. The B.S. degree differs from the B.A. degree in that it requires more quantitative and data analysis courses but does not require a foreign language. It provides more structure and direction than the B.A. degree and is more professionally focused. Please see Economics programs for further information.

Courses in economics are open to nonmajors on a space-available basis. An economics minor is also available, as students majoring in other programs have found that certain economics courses are useful supplements to their own majors and a help in gaining employment.

## Analytical Economics Major (B.S.)

<https://paulcollege.unh.edu/economics/program/bs/analytical-economics-major>

## Description

**B.S. in Analytical Economics** emphasizes the predictive and prescriptive modeling skills that are in high demand in today's labor market. Prescriptive modeling is quantitative and strategic decision analysis geared toward corporate decisions. Predictive modeling emphasizes data analysis skills used to develop the information needed to make these decisions.

## Requirements

### Degree Requirements

**Minimum Credit Requirement:** 128 credits

**Minimum Residency Requirement:** 32 credits must be taken at UNH

**Minimum GPA:** 2.0 required for conferral\*

**Core Curriculum Required:** Discovery & Writing Program Requirements

**Foreign Language Requirement:** No

All Major, Option and Elective Requirements as indicated.

\*Major GPA requirements as indicated.

### Major Requirements

B.S. analytical economics majors must complete eleven courses in economics with a grade of at least a C- (1.67) in each Paul College major course and an average grade of 2.3 or better in the major courses. In addition, majors must complete MATH 424A and ADMN 403, ADMN 410, ADMN 510, and an ethics course (PHIL 431 Business Ethics

or equivalent). ECON 775 is the capstone course for the B.S. major and satisfies the capstone requirement of the University Discovery Program.

Code	Title	Credits
ECON 401	Principles of Economics (Macro)	4
ECON 402	Principles of Economics (Micro)	4
ECON 501	Business and Economic History	4
ADMN 403	Computing Essentials for Business	1
PAUL 405	Freshman Academic Experience I	1
PAUL 406	Freshman Academic Experience II	1
MATH 424A	Calculus for Social Sciences	4
ADMN 410	Management Information Systems	4
ADMN 510	Business Statistics	4
PHIL 431	Business Ethics	4
ECON 565	Predictive Modeling: Data Driven Economic Analysis	4
ECON 606	Intermediate Microeconomics with Calculus <sup>1</sup>	4
ECON 611	Intermediate Macroeconomic Analysis <sup>1</sup>	4
ECON 726	Introduction to Econometrics	4
ECON 727	Advanced Econometrics <sup>2</sup>	4
<b>Electives:</b>		
At least two (2) Economics electives		8
<b>Capstone:</b>		
ECON 775	Applied Research Skills for Economists <sup>3</sup>	4
<b>Total Credits</b>		<b>63</b>

<sup>1</sup> Major credit toward ECON 606 Intermediate Microeconomics with Calculus and/or ECON 611 Intermediate Macroeconomic Analysis will be awarded to transfer students only if equivalent courses have been taken at the upper level. Transfer students must take at least five of their economics courses at UNH. All economics-related courses taken at other institutions must be approved by the economics department in order for them to count toward the major.

<sup>2</sup> Or other Department approved quantitative course

<sup>3</sup> ECON 775 Applied Research Skills for Economists is the capstone course for the B.S. major and satisfies the capstone requirement of the University Discovery Program.

Students may petition to substitute one business administration course for an economics elective if the course is at the 600 level or above and if a grade of C- or better is earned. Students may earn no more than 16 credits in internships, independent studies, field experience, and supervised student teaching experience. All Analytical Economics majors must satisfy the bachelor of science degree requirements, and all Discovery Program requirements. Students satisfy the Inquiry requirement of the Discovery Program before the end of their sophomore year by completing an Inquiry or Inquiry-attribute course within the Paul College, or another course offered by another college at the University.

## Student Learning Outcomes

- Students have core proficiency in microeconomics. They understand key concepts including opportunity cost, marginal analysis, voluntary exchange, diminishing marginal returns, equilibrium and market structure.
- Students have core proficiency in macroeconomics. They understand key concepts including GDP, inflation, interest rates, business cycles, exchange rates, financial institutions and fiscal and monetary policy.
- Students have strong oral communication skills. This includes fundamental skills in preparing and delivering presentations, as well as being able to explain technical material clearly and concisely.
- Students are able to apply a statistical model to an economic question and interpret the results.

- Students are proficient in applying a programming language to statistical analysis.

## Economics Major (B.A.)

<https://paulcollege.unh.edu/economics/program/ba/economics-major>

### Description

**Bachelor of Arts in Economics** is designed to offer students the maximum flexibility in tailoring a program of study and provides a powerful platform for launching careers in almost all walks of life. Students are encouraged to take a wide variety of courses, double major, and take advantage of study abroad programs.

B.A. economics majors may select to focus their major electives to satisfy the requirements of one of the three options defined by the Department of Economics: Money and Financial Markets, Global Trade and Finance, or Public Policy and Sustainability.

### Requirements

#### Degree Requirements

**Minimum Credit Requirement:** 128 credits

**Minimum Residency Requirement:** 32 credits must be taken at UNH

**Minimum GPA:** 2.0 required for conferral\*

**Core Curriculum Required:** Discovery & Writing Program Requirements

**Foreign Language Requirement:** Yes

All Major, Option and Elective Requirements as indicated.

*\*Major GPA requirements as indicated.*

#### Major Requirements

B.A. economics majors must complete nine courses in economics plus ADMN 510 with a grade of at least C- (1.67) in each Paul College major course and an average grade of 2.0 or better in major courses.

Code	Title	Credits
<b>Freshman Year</b>		
ECON 401	Principles of Economics (Macro)	4
ECON 402	Principles of Economics (Micro)	4
ECON 501	Business and Economic History	4
ADMN 403	Computing Essentials for Business	1
MATH 422	Mathematics for Business Applications	4
or MATH 424A	Calculus for Social Sciences	
PAUL 405	Freshman Academic Experience I	1
PAUL 406	Freshman Academic Experience II	1
PHIL 431	Business Ethics	4
<b>Sophomore Year</b>		
ADMN 510	Business Statistics	4
ECON 605	Intermediate Microeconomic Analysis	4
or ECON 606	Intermediate Microeconomics with Calculus	
ECON 611	Intermediate Macroeconomic Analysis	4
<b>Junior and Senior Years</b>		
ECON 774	Senior Economics Seminar <sup>1</sup>	4
Select four (4) additional ECON electives <sup>2</sup>		16
<b>Total Credits</b>		<b>55</b>

<sup>1</sup> ECON 774 Senior Economics Seminar is the capstone course for the B.A. major and satisfies the capstone requirement of the University Discovery Program.

<sup>2</sup> Specific electives for the BA Options must be chosen from an approved list of courses.

Coursework in accounting and econometrics is recommended but not required. B.A. economics majors may choose to focus their major electives to satisfy the requirements of one of the three options defined by the Department of Economics.

### Student Learning Outcomes

- Students have core proficiency in microeconomics. They understand key concepts including opportunity cost, marginal analysis, voluntary exchange, diminishing marginal returns, equilibrium and market structure.
- Students have core proficiency in macroeconomics. They understand key concepts including GDP, inflation, interest rates, business cycles, exchange rates, financial institutions and fiscal and monetary policy.
- Students have strong oral communication skills. This includes fundamental skills in preparing and delivering presentations, as well as being able to explain technical material clearly and concisely.
- Students are able to use economic models to understand real-world issues relevant to business, public policy and society.
- Students are able to communicate economic concepts clearly in writing. This involves having strong fundamental writing skills as well as being able to explain technical material clearly and concisely.

## Economics Major: Global Trade and Finance Option (B.A.)

<https://paulcollege.unh.edu/economics/program/ba/economics-major-global-trade-finance-option>

### Description

**The Option in Global Trade and Finance** (B.A. degree) studies the global trade and financial systems and their importance for understanding macroeconomics and business activity, foreign direct investments and other international capital flows, globalization, economic growth and development, international financial markets, and currency fluctuations and risk.

Students will learn about the role of the World Trade Organization (WTO), the International Monetary Fund (IMF), and other institutions undergirding the global economy. Students will develop institutional knowledge and analytical skills to study some of the most hotly debated issues of our day, including free-trade policies such as the North American Free Trade Agreement (NAFTA) and WTO, global financial crises, Basel III and other financial reforms, European monetary union, and international policy coordination.

The option is designed for students interested in careers at international organizations such as the IMF, WTO, World Bank, and Organization for Economic Cooperation and Development (OECD). This option also prepares students for careers in the financial services sector, including commercial and investment banking, financial trading, security

analysis, portfolio management, and financial advising, and in the government sector, especially at the Federal Reserve System, U.S. Trade Administration, and U.S. State Department.

## Requirements

### Degree Requirements

**Minimum Credit Requirement:** 128 credits

**Minimum Residency Requirement:** 32 credits must be taken at UNH

**Minimum GPA:** 2.0 required for conferral\*

**Core Curriculum Required:** Discovery & Writing Program Requirements

**Foreign Language Requirement:** Yes

All Major, Option and Elective Requirements as indicated.

\*Major GPA requirements as indicated.

### Major Requirements

B.A. economics majors must complete nine courses in economics plus ADMN 510 Business Statistics with a grade of at least C- (1.67) in each Paul College major course and an average grade of 2.0 or better in major courses.

Code	Title	Credits
<b>Freshman Year</b>		
ECON 401	Principles of Economics (Macro)	4
ECON 402	Principles of Economics (Micro)	4
ECON 501	Business and Economic History	4

MATH 422	Mathematics for Business Applications	4
or MATH 424A	Calculus for Social Sciences	
PAUL 405	Freshman Academic Experience I	1
PAUL 406	Freshman Academic Experience II	1
PHIL 431	Business Ethics	4
<b>Sophomore Year</b>		
ADMN 510	Business Statistics	4
ECON 605	Intermediate Microeconomic Analysis	4
or ECON 606	Intermediate Microeconomics with Calculus	
ECON 611	Intermediate Macroeconomic Analysis	4
<b>Junior and Senior Years</b>		
ECON 774	Senior Economics Seminar <sup>1</sup>	4
Select four (4) additional ECON electives <sup>2</sup>		16
<b>Total Credits</b>		<b>55</b>

<sup>1</sup> ECON 774 Senior Economics Seminar is the capstone course for the B.A. major and satisfies the capstone requirement of the University Discovery Program.

<sup>2</sup> Specific electives for the BA Options must be chosen from an approved list of courses.

Coursework in accounting is recommended but not required. B.A. economics majors may choose to focus their major electives to satisfy the requirements of one of the three options defined by the Department of Economics.

## Global Trade and Finance Option Requirements

(Note: Some courses may have prerequisites that are not part of the option.)

Code	Title	Credits
<b>Required courses:</b>		
ECON 645	International Economics	4
<b>Select two of the following (at least one course must be an ECON course):</b>		<b>8</b>
ECON 635	Money and Banking	
ECON 655	Innovation in the Global Economy	
ECON #668	Economic Development	
ECON 726	Introduction to Econometrics	
ECON 746	International Finance	
FIN 703	International Financial Management <sup>1</sup>	
POLT 546	Wealth and Politics in Asia <sup>1</sup>	
GEOG 582	Global Trade and Local Development <sup>1</sup>	
Other 600-level or 700-level course, must be approved by ECON department		
<b>Total Credits</b>		<b>12</b>

<sup>1</sup> Satisfies the requirement of the option, but does not count toward the four-elective requirement of the economics B.A. degree.

## Student Learning Outcomes

- Students have core proficiency in microeconomics. They understand key concepts including opportunity cost, marginal analysis, voluntary exchange, diminishing marginal returns, equilibrium and market structure.
- Students have core proficiency in macroeconomics. They understand key concepts including GDP, inflation, interest rates, business cycles, exchange rates, financial institutions and fiscal and monetary policy.
- Students have strong oral communication skills. This includes fundamental skills in preparing and delivering presentations, as well as being able to explain technical material clearly and concisely.
- Students are able to use economic models to understand real-world issues relevant to business, public policy and society.
- Students are able to communicate economic concepts clearly in writing. This involves having strong fundamental writing skills as well as being able to explain technical material clearly and concisely.

## Economics Major: Money and Financial Markets Option (B.A.)

<https://paulcollege.unh.edu/economics/program/ba/economics-major-money-financial-markets-option>

### Description

**The Option in Money and Financial Markets** (B.A. degree) explores the complex and interdependent nature of money and financial markets. Students will develop institutional knowledge and analytical skills to understand the role of the financial system in society, fluctuations and risk in asset markets, including those for bonds, stocks, and currency, and how financial derivatives, such as futures, options, and swaps contracts, can be used to hedge risk. Students will also study the conduct and implications of monetary policy, exploring the merits of quantitative

easing, macroprudential policy aimed at reducing systemic risk, and other key issues involving the role of the state in the financial system.

The option is designed for students wanting careers in the financial services sector, including commercial and investment banking, financial trading, security analysis, portfolio management, and financial advising, and in the government sector, especially at the Securities and Exchange Commission (SEC), and the U.S. departments of Treasury, Commerce, and State.

Requirements

- Students are able to communicate economic concepts clearly in writing. This involves having strong fundamental writing skills as well as being able to explain technical material clearly and concisely.

Economics Major: Public Policy and Sustainability Option (B.A.)

<https://paulcollege.unh.edu/economics/program/ba/economics-major-public-policy-sustainability-option>

Description

The Option in Public Policy and Sustainability (B.A. degree) examines the factors that influence economic, social, and environmental outcomes, such as unemployment, poverty, economic inequality, health disparities, technological innovation, and pollution. Students will develop the institutional knowledge and theoretical perspective to understand the impact that decisions of individuals, firms, communities, and

governments have on such outcomes. Students will analyze the impact of specific government policies and potential reforms, theoretically and empirically.

This option is designed for students seeking careers in policy analysis and research positions at government agencies; think tanks such as RAND Corporation, Urban Institute, and Mathematica Policy Research; consulting firms such as Abt Associates; and non-governmental organizations.

## Requirements

HMP 746	Health Policy <sup>1</sup>	
SUST 501	Sustainability in Action <sup>1</sup>	
Other 600-level or 700-level course, with approval from ECON Dept.		
<b>Total Credits</b>		<b>12</b>

<sup>1</sup> Satisfies the requirement of the option, but does not count toward the four-elective requirement of the economics B.A. degree. Some courses may have pre-requisites; students are responsible for checking and meeting pre-requisite requirements.

<sup>2</sup> Course may not be used toward the option requirements more than once.

## Student Learning Outcomes

- Students have core proficiency in microeconomics. They understand key concepts including opportunity cost, marginal analysis, voluntary exchange, diminishing marginal returns, equilibrium and market structure.
- Students have core proficiency in macroeconomics. They understand key concepts including GDP, inflation, interest rates, business cycles, exchange rates, financial institutions and fiscal and monetary policy.
- Students have strong oral communication skills. This includes fundamental skills in preparing and delivering presentations, as well as being able to explain technical material clearly and concisely.
- Students are able to use economic models to understand real-world issues relevant to business, public policy and society.
- Students are able to communicate economic concepts clearly in writing. This involves having strong fundamental writing skills as well as being able to explain technical material clearly and concisely.

# Economics Minor

<https://paulcollege.unh.edu/economics/program/minor/economics>

## Description

Economics is a social science that studies how people coordinate their wants and desires, given the decision-making mechanisms, social customs, and political realities of the society. The key words in economics are coordination and incentives.

For business students, a minor in economics provides an understanding of the foundational issues in business such as agency concerns, for liberal arts majors a minor can provide a tool kit for understanding and critically evaluating public policy issues. Economics is an excellent background for many careers including banking and financial services, consulting, public service, NGOs, entrepreneurial ventures and government. It is also excellent preparation for further study in law, business, and international relations.

## Requirements

A minor in economics consisting of five courses is available. At least three of these courses must be taken at UNH. For more on the minor and options within the major, consult the Paul College Undergraduate Programs Office.

Code	Title	Credits
Required courses:		
ECON 401	Principles of Economics (Macro)	4
ECON 402	Principles of Economics (Micro)	4
One of the following courses:		4
ECON 605	Intermediate Microeconomic Analysis	
ECON 611	Intermediate Macroeconomic Analysis	
ECON 635	Money and Banking	
Two electives from the following list:		8
ECON 565	Predictive Modeling: Data Driven Economic Analysis	
ECON 605	Intermediate Microeconomic Analysis <sup>1</sup>	
ECON 611	Intermediate Macroeconomic Analysis <sup>1</sup>	
ECON 625	Economic History of the United States	
ECON 633	Microfinance	
ECON 635	Money and Banking <sup>1</sup>	
ECON 645	International Economics	
ECON 653	Law and Economics	
ECON 654	Industrial Economics and Business Innovation	
ECON 655	Innovation in the Global Economy	
ECON 656	Labor Economics	
ECON #668	Economic Development	
ECON 676	Economics of Sports	
ECON 706	Economics of Climate Change	
ECON 726	Introduction to Econometrics	
ECON 746	International Finance	
ECON 760	Game Theory	
ECON 620	Topics in Economics	
ECON 620W	Topics in Economics	
ECON 720	Economic Problems	
ECON 720W	Economic Problems	
Any 600 or 700 level ECON course		

<sup>1</sup> ECON 605, ECON 611, ECON 635, may only be applied towards the minor requirements once.

- Note that many of the elective courses have ECON 401 and ECON 402 as prerequisites.
- ECON 501 Business and Economic History cannot be used toward the minor.
- All transfer courses must be evaluated for equivalency. No more than 2 transfer courses may be applied to the minor.
- The ECON minor also follows UNH policy on requirements for minors.

# Entrepreneurship

- [Entrepreneurship Minor](#) (p. 632)

# Entrepreneurship Minor

<https://paulcollege.unh.edu/business-administration/program/minor/entrepreneurship>

## Description

The Minor in Entrepreneurship in the Peter T. Paul College of Business and Economics is for non-business majors. The minor provides non-business students with concepts, tools and techniques to become creative thinkers, conceptualize and articulate problem statements, construct innovative solutions, and explore and seek opportunities. The focus of the minor is not about creating startups, although this may be an ancillary outcome, rather on entrepreneurial thinking that make the students engage in successful careers in their respective disciplines.

The minor consists of required courses offered by Paul College and two courses from a selective list offered by other UNH Colleges. The Paul courses are designed to follow a proscribed sequence that take the student through the entrepreneurial process.

## Requirements

Code	Title	Credits
Required Entrepreneurship sequence courses:		
MGT 520	Topics in Management (Thinking like an Entrepreneur)	4
MKTG 520	Topics in Marketing (Understanding Your Customer)	4
DS 520	Topics in Entrepreneurship/Decision Sciences (Realizing the Entrepreneurial Dream)	4
Two courses from UNH Colleges (possible selections):		8
HIST 522	Science in the Modern World	
HMP 721	Managing Health Care Organizations	
HMP 722	Health Care Management II	
RMP 775	Entrepreneurial and Commercial Recreation	
TECH 750	Intellectual Asset Management for Engineers and Scientists	

\*For other course options contact the Associate Dean for Undergraduate Education

Please note:

- The remaining two courses can be from Paul College or the student's home college, depending on suitability and availability of the courses as well as a student's interest to specialize in a specific area within the Minor, and subject to approval – please contact Undergraduate Programs and Advising Office to discuss approval process.
- Some of the listed courses are “special topics” (or equivalent). Please make sure that the course has the same title (not simply the same number) as the listed course in order for it to count for the minor.
- The Entrepreneurship Minor also follows UNH policy for minors

# Hospitality Management (HMGT)

The program in hotel and hospitality management is an integral part of the offerings of the Peter T. Paul College. It is one of only a few programs worldwide accredited by the Association to Advance Collegiate Schools of Business (AACSB). The hospitality management program at UNH provides a world-class education, personal attention and support, and real-world and international experience, setting students apart from the competition and ensuring they are well prepared for a successful and meaningful career.

The hospitality management program develops graduates to be senior executives. This is accomplished through personal attention and support, training on cutting-edge industry-specific software and technology, career development, mentoring and placement, and the network connection of seasoned alumni in top industry positions. Graduates have accepted management positions in lodging and resorts, food service beverage, event planning and design, software companies, tourism, travel and recreation, among the many potential opportunities.

An important aspect of the program is the required professional development, which includes practical work experiences, career development, mentoring, and placement, preparing students to be more competitive in the job market and for a successful and rewarding career. Employers look for individuals with relevant industry experience, and this is provided through the required 400 hours of an approved work experience.

The hotel and hospitality management program offers a wide range of international education options to study abroad. We have partnered with business schools in countries such as Spain, Australia, Croatia, United Kingdom, and Italy.

# Hotel and Hospitality Management Major (B.S.)

<https://paulcollege.unh.edu/hospitality-management/program/bs/hospitality-management-major>

## Description

Hotel and Hospitality Management is more than an area of study; it's a way of life. At the second-oldest four-year degree program in the country you will study and work using state-of-the-art technology and facilities, receiving relevant industry certifications.

The Hotel and Hospitality Management program curriculum comprises foundation courses in hospitality management, business administration

courses, and a number of University Discovery Program courses. A wide range of elective courses complement the foundation courses.

## Requirements

### Degree Requirements

**Minimum Credit Requirement:** 128 credits

**Minimum Residency Requirement:** 32 credits must be taken at UNH

**Minimum GPA:** 2.0 required for conferral\*

**Core Curriculum Required:** Discovery & Writing Program Requirements

**Foreign Language Requirement:** No

All Major, Option and Elective Requirements as indicated.

\*Major GPA requirements as indicated.

### Major Requirements

To graduate, students must obtain a 2.3 grade-point average in all major required courses and a minimum grade of C- in each Paul College major course. A student must have a minimum of 400-hours of on-the-job, paid work experience in the hospitality industry, earned through a structured paid internship.

A typical plan of study is as follows, showing the requirements of the program. Students complete 16-18 credits per semester, which includes major requirements, electives for the major, Discovery Program requirements, and free electives offered across the college and university.

Code	Title	Credits
<b>Hotel and Hospitality Management (HMGT) Core Courses:</b>		
HMGT 401	Introduction to the Hospitality Industry	4
HMGT 405	Introduction to Food and Service Management	4
HMGT 554	Lodging Operations Management	4
HMGT 618	Uniform Systems for the Hospitality Industry	4
HMGT 635	Hospitality Human Resource Management	4
HMGT 655	Hospitality Finance and Development	4
HMGT 703	Strategic Management in the Hospitality Industry <sup>1</sup>	4
or HMGT 667	Advanced Food & Beverage Operations & Event Management	
Three(3) HMGT Elective Courses <sup>2</sup>		12
Four Hundred(400) hours - paid practicum hours through pre-approved work experiences		
<b>Required Courses (Non-HMGT):</b>		
ADMN 403	Computing Essentials for Business	1
ADMN 502	Financial Accounting	4
ADMN 510	Business Statistics	4
ADMN 585	Marketing	4
MATH 422	Mathematics for Business Applications	4
ECON 401	Principles of Economics (Macro)	4
PAUL 405	Freshman Academic Experience I	1
PAUL 406	Freshman Academic Experience II	1
Two(2) BiP courses: PAUL 660, PAUL 670, PAUL 680, or PAUL 690 <sup>3</sup>		4
PAUL 690	BiP-Professional Intelligence Topics (HMGT specific BiP course titled HMGT: Prep for Success) <sup>4</sup>	2
PHIL 431	Business Ethics	4
One Non-HMGT Elective Course (approved list below)		4
<b>Total Credits</b>		<b>77</b>

## Additional Tracks in Hotel and Hospitality Management

Students may decide to concentrate their electives in a particular area and select one of two tracks (see below), or may combine courses from the two tracks to fulfill the elective requirement.

### Food Service and Event Management Track

Code	Title	Credits
Required for Track:		
HMG 661	Event Design, Planning, and Management	4
HMG 667	Advanced Food & Beverage Operations & Event Management (capstone)	4
Select two(2) of the following courses:		8
HMG 570	International Food and Culture	
HMG 681	Contemporary Resort Development and Management	
HMG 771	International Wine and Beverage	
HMG 777	Casino Management	

### Hotel Administration and Analytics Track

Code	Title	Credits
Required for Track:		
HMG 703	Strategic Management in the Hospitality Industry (capstone)	4
HMG 758	Revenue Management and Pricing	4
Select two(2) of the following courses:		8
HMG 798	Topics (Hospitality Asset and Financial Management)	
HMG 798	Topics (Hospitality Operations and Financial Metrics)	
FIN 708	Real Estate Finance	

### Approved Non-HMG Electives List <sup>6</sup>

Code	Title	Credits
ADMN 410	Management Information Systems	
ADMN 575	Behavior in Organizations	
CMN 500	Public Speaking	
ECOG 401	Introduction to Ecogastronomy	
ECON 402	Principles of Economics (Micro)	
ENGL 502	Professional and Technical Writing	
IA 401	International Perspectives	
MKTG 520	Topics in Marketing (Understanding Your Customer)	
MKTG 649	Foundations of Personal Selling	
MKTG 752	Marketing Research	
MKTG 753	Consumer/Buyer Behavior	
PSYC 401	Introduction to Psychology	
RMP 490	Recreation & Tourism in Society	
RMP 501	Recreation Services for Individuals with Disabilities	
RMP 661	Leadership in Recreation Services	
RMP 680	Festival and Event Planning	
SUST 401	Exploring Sustainability	
TOUR 400	Introduction to Tourism	
TOUR 510	Tourism and Global Understanding	

- <sup>1</sup> HMG degree students must take HMG 703 or HMG 667 as their capstone course.
- <sup>2</sup> Students can not include their elected Capstone course (HMG 703 or HMG 667) as one of their three HMG elective course requirements. It may only apply to one degree requirement.
- <sup>3</sup> Students may take any combination of four(4) credits of BiP intelligence attribute courses: PAUL 660, PAUL 670, PAUL 680 or PAUL 690, or any course that has an assigned BiP intelligence attribute (BIPS, BIPA, BIPC, BIPP).  
Student may not apply the required HMG- PAUL 690 course to fulfill this requirement.
- <sup>4</sup> HMG students must take an HMG designated BiP Professional PAUL 690course. Please check with the Paul Undergraduate Programs and Advising Office if you have questions.

- <sup>5</sup> Please note: HMG 798 Topics and MKTG 520 Topics in Marketing are topics course designations; you must register for the specific Topics Course Title designated in the catalog.
- <sup>6</sup> Some courses have pre-requisites or major restrictions on sections. Students are responsible for checking pre-requisites and section permissions.

## Student Learning Outcomes

- Students will demonstrate the ability to solve complex problems.
- Students will demonstrate knowledge of the core content areas of the hospitality industry.
- Students will demonstrate effective oral communication skills.
- Students will demonstrate effective written communication skills.
- Students will identify and understand the ethical dimensions and implications of business decisions.
- Students will demonstrate a global awareness of challenges facing hospitality businesses.
- Students will engage in effective team behaviors.

## Hospitality Management Minor

<https://paulcollege.unh.edu/hospitality-management/program/minor/hospitality-management>

## Description

**Hospitality Management Minor** is offered as a professional educational opportunity for students as an entree to the world's largest industry, hospitality and tourism. Students pursuing the minor will have opportunities to interview with major hospitality companies for staff and management training positions. In addition, students will be better able to secure meaningful working experiences in the industry during their college career as they progress towards the minor.

The required courses have been selected to ensure all students have a well-rounded learning experience that will strengthen their ability to succeed.

## Requirements

### Hospitality Management Minor

A minor in hospitality management is comprised of three required and two elective courses.

Code	Title	Credits
Required Courses		
HMG 401	Introduction to the Hospitality Industry	4
HMG 405	Introduction to Food and Service Management	4
HMG 554	Lodging Operations Management	4
Select two elective courses from the list below.		8
HMG 520	Happy and Healthy at Work: Promoting Wellness, Diversity and Inclusion	
HMG 570	International Food and Culture	
HMG 635	Hospitality Human Resource Management	
HMG 667	Advanced Food & Beverage Operations & Event Management (by permission only)	
HMG 771	International Wine and Beverage	
HMG 777	Casino Management	
HMG 798	Topics	
ECOG 401	Introduction to Ecogastronomy	
ACC 501	Survey of Accounting	

or ADMN 502	Financial Accounting
MKTG 530	Survey of Marketing
or ADMN 585	Marketing
<hr/>	
<b>Total Credits</b>	<b>20</b>

### Practicum Requirement:

Students completing the minor will work at one of the Gourmet Dinner weekends. This will typically be completed during the semester HMGT 405 Introduction to Food and Service Management is taken.

### Notes:

- MKTG 530 Survey of Marketing and ACC 501 Survey of Accounting I are for the minor only; they do not carry credit toward Paul College majors.
- Following University policy, you must complete 20 semester hours with a grade of C- or better and a 2.0 grade point average.
- Courses taken on a Pass/Fail basis may not be used for the minor.
- No more than 8 credits used by the student to satisfy major requirements may be used for the minor.
- All transfer courses must be evaluated for equivalency. No more than 2 transfer courses may be applied to the minor.

## Leadership

- [Leadership Minor](#) (p. 635)

## Leadership Minor

<https://paulcollege.unh.edu/business-administration/program/minor/leadership>

### Description

The **Minor in Leadership** at Paul College was designed for students motivated by a deep sense of passion and purpose. This program energizes them to mobilize resources which enable people to successfully fulfill their roles and responsibilities in their organizations. The Leadership minor course of study will help you to develop your leadership identity and skills such as effective communicating, inspiring and developing people, and awakening passion in others for great accomplishments.

The Leadership program combines coursework from management and social sciences, along with an experiential learning requirement in leadership. The minor also allows students to pursue their leadership passions through the selection of two elective courses.

### Requirements

The Minor in Leadership consists of specified courses: two(2) required management courses, one(1) behavior/society course, two(2) elective courses, one(1) leadership experience. Requirements and specified course options to satisfy the minor are listed below.

### Leadership Minor

Code	Title	Credits
<b>Two Required Management Courses</b>		
<b>Business Administration Majors Only:</b>		
ADMN 575	Behavior in Organizations	

MGT 713	Leadership Assessment and Development
<b>Non-Business Administration Majors Only:</b>	
MGT 535	Organizational Behavior

AERO 541	Team and Leadership Fundamentals I
AERO 542	Team and Leadership Fundamentals II
JUST 410	Sexual Harassment and Rape Prevention (SHARPP) Peer Advocacy
MILT 401	Leadership Laboratory I
MILT 402	Leadership Laboratory II
PAUL 626	Supervised Student Teaching
PAUL 705	Supervised Student Teaching: Peer Advisor
RMP 593	Special Topics ( campus Recreation Applied Leadership)
Alternative leadership experience by petition	

Please note:

- You are responsible for checking pre-requisites for all courses listed
- Pre-requisites and permissions vary by course and department. Students are responsible for checking and meeting pre-requisite requirements. Some courses may be restricted to certain majors and require permission.
- All transfer courses must be evaluated for equivalency
- No more than 2 transfer courses may be applied to the minor
- Capacity in courses may be limited
- Several of the listed courses are "special topics" (or equivalent). Please make sure that the course has the same title (not simply the same number) as the listed course in order for it to count for the minor.
- The Leadership Minor also follows UNH policy for minors

## Sales

- [Sales Minor](#) (p. 636)

## Sales Minor

<https://paulcollege.unh.edu/business-administration/program/minor/sales>

### Description

**Minor in Sales** – The modern sales professional helps customers solve business problems through active listening, insightful questions, deep empathy, domain competency, and the understanding and communicating of value. The Sales Minor will prepare you to start your career journey into sales by teaching you to sell yourself first and giving you the skills and experience to succeed in your first role. More college graduates will go into sales than any other profession. Why not be prepared and differentiate yourself for the best opportunities by earning a sales minor and developing skills that are transferrable to any profession.

### Requirements

**The Minor in Sales** is open to both Paul College and Non-Paul College students. Please reference the required courses depending on college. The minor consists of three required courses (marketing, sales level-one, sales level-two), two elective courses, and one sales experience. Please contact the Paul College Undergraduate Advising and Programs Office for an up-to-date list of approved elective courses or sales experiences.

## Non-Paul Students – Sales Minor Requirements

Code	Title	Credits
<b>Required Courses:</b>		
MKTG 530	Survey of Marketing	4
MKTG 649	Foundations of Personal Selling	4
MKTG 689	Advanced Sales	4
<b>One Sales Experience: <sup>1</sup></b>		
MKTG 650	Professional Sales Group	
Or qualifying sales internship		
<b>Two Electives from approved list (below)</b>		<b>8</b>

## Paul Student – Sales Minor Requirements

Code	Title	Credits
<b>Required Courses:</b>		
ADMN 585	Marketing	4
MKTG 649	Foundations of Personal Selling	4
MKTG 689	Advanced Sales	4
<b>One Sales Experience: <sup>1</sup></b>		
MKTG 650	Professional Sales Group	
or qualifying sales internship		
<b>Two Elective Courses from approved list (below)</b>		<b>8</b>

### <sup>1</sup> Sales Experience (1 required):

MKTG 650 Professional Sales Group minimum of two semesters of the 2-credit course, PAUL 795 Internship or internship experience approved by Director, Sales Center.

Please note:

- You are responsible for checking pre-requisites for all courses listed
- All transfer courses must be evaluated for equivalency
- No more than 2 transfer courses may be applied to the minor
- Capacity in courses may be limited
- Some of the listed courses are "special topics" (or equivalent). Please make sure that the course has the same title (not simply the same number) as the listed course in order for it to count for the minor.
- The Sales Minor also follows UNH policy for minors

## Tourism Management

- [Tourism Management Minor](#) (p. 637)

## Tourism Management Minor

<https://paulcollege.unh.edu/hospitality-management/program/minor/tourism-management>

### Description

“Tourism” is the world’s largest and most diverse industry. Tourism is a composite of activities, services, and industries delivering travel experiences through transportation, accommodations, eating and drinking establishments, shops, entertainment, activity facilities (parks, sports, and amusement parks), historic sites, natural resources, among others.

The faculty of Recreation Management and Policy [RMP], Hospitality Management [HMG], and Natural Resources and the Environment [NRE] Tourism [Tour] have bundled a number of courses for non-majors which, when combined with certain elective courses, can constitute a Minor in Tourism Management. Each of the courses offered for this minor are already offered in each of the three departments. These programs represent the three Colleges of College of Health and Human Services, Peter T. Paul College of Business and Economics, and the College of Life Science and Agriculture.

#### Questions about the minor may be directed to:

Recreation Management and Policy – Dr. Bob Barcelona,  
[Bob.Barcelona@unh.edu](mailto:Bob.Barcelona@unh.edu)

Tourism Management – Dr. Rob Robertson, [Rob.Robertson@unh.edu](mailto:Rob.Robertson@unh.edu)

Hospitality Management – Dr. Markus Schuckert,

[Markus.Schuckert@unh.edu](mailto:Markus.Schuckert@unh.edu) ([markus.schuckert@unh.edu](mailto:markus.schuckert@unh.edu))

Approval of the Minor for Graduation, verification and sign-off must be coordinated with Dr. Rob Robertson.

## Requirements

- For the minor students must complete 20 credits (five courses) with a grade of C- or better and a 2.0 grade point average.
- Courses taken on a Pass/Fail basis may not be used toward the minor.
- No more than 8 credits used by the student to satisfy major requirements may be used for the minor.
- No transfer courses may be used toward the minor.
- The courses may be taken in any order, and students are responsible for checking pre-requisites for the elective courses.
- Courses taken during study abroad maybe considered as part of the minor; prior approval of an advisor is required.

Code	Title	Credits
<b>Required Courses</b>		
TOUR 400	Introduction to Tourism	4
HMG 401	Introduction to the Hospitality Industry	4
RMP 490	Recreation & Tourism in Society	4
Select Two additional courses. The remaining two courses for the minor may be used to focus studies in an area of interest. One course must be and experiential learning course.		8
Areas of interest, with sample courses, include:		
<i>Lodging and Resort Management</i>		
HMG 681	Contemporary Resort Development and Management	
HMG 570	International Food and Culture (Experiential Learning Course)	
HMG 554	Lodging Operations Management

## Domestic Study Programs

### National Student Exchange Program

The University offers many opportunities for exchange study with other institutions within the U.S. and U.S. territories. The National Student Exchange (NSE) program provides an educational experience at another member college or university, within North America. Participating students will develop new ways of viewing the country and culture, and expand their knowledge of our complex society.

Through the National Student Exchange, UNH students can study at one of more than 180 colleges and universities throughout the United States, U.S. territories (Guam, Puerto Rico, and U.S. Virgin Islands), and Canada. Several Historically Black Colleges and Universities (HBCUs) are exchange members, as are Hispanic Serving Institutions (HSIs), Asian American Native American Pacific Island Serving Institutions (AANAPISIs), and Council of Public Liberal Arts Colleges (COPLAC). For a full list of participating campuses, visit [www.nse.org](http://www.nse.org).

To qualify for exchange study, students must be full-time undergraduate degree candidates in good standing, have a UNH grade-point average of 2.5 or higher, have earned at least 32 credits (16 of which must be from UNH at the baccalaureate level), have declared a major, and receive approval from the UNH NSE coordinator.

NSE participants pay their usual UNH tuition, and pay housing costs to the host campus, if they utilize their housing. Participation in an exchange program does not disrupt the continuity of a student's educational process. Exchange program participants continue to maintain their status as full-time, matriculated UNH students, even while temporarily located at another university. Students do not have to withdraw from UNH and later be readmitted. Maintaining UNH student status also facilitates reentry into classes, on-campus housing, and many other dimensions of UNH life. Students return to UNH to complete their studies.

Interested students should contact UNH Global Education, Conant Hall 310, (603) 862-3485, [National.Student.Exchange@unh.edu](mailto:National.Student.Exchange@unh.edu) ([national.student.exchange@unh.edu](mailto:national.student.exchange@unh.edu)), or visit [www.unh.edu/nse](http://www.unh.edu/nse).

### New Hampshire Consortium (NHCUC) Student Exchange Program

Under the Student Exchange Program of the New Hampshire College and University Council (NHCUC), UNH students may be eligible to enroll for one course per semester, one full semester of courses, or a full year of coursework at a member school on a space-available basis. The NHCUC exchange allows matriculated undergraduates to use educational resources that are not available at the home campus and are considered appropriate for their degree programs. Approval of the UNH academic adviser and exchange coordinator is required, and students must meet all UNH Study Away eligibility standards. Institutions that participate in the NHCUC student exchange consortium include Colby-Sawyer College, Franklin Pierce University, Hellenic American University, New England College, Southern New Hampshire University, Rivier University, Saint Anselm College, UNH Durham, UNH College of Professional Studies, Keene State College, and Plymouth State University. Students will remain as degree candidates and continue to pay normal UNH tuition and fees, but must make their own room and board arrangements if they plan to spend a full semester at another consortium school. For

more information and application, students should contact UNH Global Education, Conant Hall 310, (603) 862-3485.

### New England Land-Grant Exchange Program

In order to provide students at the New England land-grant universities with expanded access to unique programs and faculty expertise, the institutions have agreed to encourage student exchanges of one, but not more than two, semesters. To qualify, students must identify a course or combination of courses related to their area of academic interest and not available on their home campus, be degree candidates in good standing with at least a 2.5 grade-point average, be at least first-semester sophomores, and receive permission from the appropriate university exchange authorities at both the home and host institutions. Interested students should contact Global Education, Conant Hall 310, (603) 862-3485.

### Semester in the City

UNH offers eligible undergraduate students the opportunity to spend a semester in Boston in a rigorous 30+ hour per week internship with a leading social change organization (nonprofit, business, or public sector).

Students are matched with internships in community development, social justice, health, education, environment, and other areas dedicated to the public good. This 16-credit study away program includes an intensive evening course that examines the theory and practice of various social change approaches, and a series of Friday seminars and reflective workshops, thereby equipping a new generation of leaders who understand both direct and systemic approaches to social and environmental change. Participants pay their UNH tuition, and pay housing costs to the host organization if they utilize their housing.

In order to apply, students should contact the UNH Changemaker Collaborative, 603.862.3697 or visit [www.unh.edu/semesterinthecity](http://www.unh.edu/semesterinthecity).

### The Washington Center for Internships & Academic Seminars

Since 1976, UNH has affiliated with The Washington Center (TWC), to offer a rigorous full-time substantive internship and academic opportunities in Washington, D.C. Students enroll in 16-credits in fall or spring semester, or 12-credits in summer. Students intern 32-35 hours per week, enroll in one upper-level evening seminar course, and participate in career-readiness workshops. There are countless internship and networking opportunities for all majors, including in the law, government, media, public policy, international affairs, the environment, health care, law enforcement, and much more. Participants pay UNH tuition, and pay housing costs to The Washington Center, if they utilize their fully-furnished housing.

In order to apply, students must meet all UNH Study Away Eligibility Requirements including but not limited to being full-time undergraduate degree candidates in good standing with at least a 2.5 grade-point average (above 2.75 is strongly preferred). Interested students should contact the UNH Global Education, Conant Hall 310, (603) 862-3485 or visit [www.unh.edu/washington](http://www.unh.edu/washington).

### Fellowship Office

The **UNH Office of National Fellowships** provides information, counseling, and editorial support to highly motivated and high-achieving students applying for national and international fellowships and scholarships.

The office also assists faculty members who serve as mentors and recommenders, and arranges for members of the faculty to take part in interviews and serve on screening committees.

In recruiting, advising, and supporting students who excel in various areas, the office collaborates campus-wide with other offices and departments of the University, including the Beauregard Center, the McNair program, the Honors Program, the Global Education Center, and the Hamel Center for Undergraduate Research, in support of the University's Academic Plan.

The services of the Fellowships Office are available to undergraduates, graduate students, and alumni of the University. The office is located in Conant Room 118A and can be contacted by phone at (603) 862-0733 or email at [national.fellowships@unh.edu](mailto:national.fellowships@unh.edu). Learn more on [the website](http://www.unh.edu/undergrad-research/).

## Hamel Center for Undergraduate Research

[www.unh.edu/undergrad-research/](http://www.unh.edu/undergrad-research/)

The **Hamel Center for Undergraduate Research** encourages students to design and carry out research, scholarly, or creative projects in collaboration with faculty mentors. To facilitate this, the Hamel Center offers a variety of competitive research awards and fellowships specifically for undergraduate students. Research may take place during the academic year, January term, or over the summer, with a wide range of programs available to suit each student's particular needs:

- **Research Experience and Apprenticeship Program (REAP)** offers high-achieving students the opportunity to apprentice with a UNH faculty mentor for ten weeks of full-time research in the summer after their first year.
- **Undergraduate Research Awards (URAs)** are available each semester (including January Term and summer) for students at all levels: first year through senior year. The research time commitment is flexible.
- **Summer Undergraduate Research Fellowships (SURFs)** for the U.S. offer support for ten weeks of full-time research in the summer following sophomore or junior year.
- **SURF Abroad and the International Research Opportunities Program (IROP)** offer support for rising seniors to conduct nine weeks of full-time summer research abroad.
- Also, by registering for INCO 590 Student Research Experience or INCO 790 Advanced Research Experience, students at any level can work directly with faculty members while receiving academic credit and support for research expenses.

Once projects are completed, student researchers may receive further support from a [Research Presentation Grant](#) to present their work at a national or international conference. Students may also publish their research findings in UNH's online undergraduate research journal, *Inquiry* and/or present their research at UNH's [Undergraduate Research Conference \(URC\)](#).

**Hamel Center research opportunities are available to students across ALL disciplines.**

By conducting research at the undergraduate level, students gain professional skills, hands-on experience, and the opportunity to present and publish their findings in professional venues. Awards from the Hamel Center for Undergraduate Research open doors on real-world disciplinary practice, graduate school, post-baccalaureate fellowships,

and professional careers. For information about undergraduate research awards and programs, the *Inquiry* journal, or the URC, contact the Hamel Center for Undergraduate Research at 118 Conant Hall, (603) 862-4323, or visit the website at [www.unh.edu/undergrad-research](http://www.unh.edu/undergrad-research).

## Health Professions Continuing Education Program

### Description

*Offered in Durham and Manchester.*

### WHAT IS THE HEALTH PROFESSIONS Continuing Education Program?

UNH's Health Professions Continuing Education Program, offered at both our Durham and Manchester campuses, is designed for individuals who have earned a bachelors from an accredited college or university but need to complete the prerequisite requirements for admission to a professional healthcare program. Some individuals may need to enhance their existing academic record by retaking some or all their prerequisite coursework to increase the competitiveness of their application. Other individuals may want to change careers and need to complete all their prerequisite coursework.

### WHY COMPLETE YOUR Program AT UNH?

You will complete a rigorous academic program and engage in hands-on learning through fieldwork supported by our state-of-the-art facilities. Our Pre-Professional Health Advising Office helps students interested in pursuing professional degrees make the right academic and extracurricular choices to prepare for the extremely competitive application process. Students who participate in the Health Professions Continuing Education Program will be provided with personalized advising from the Pre-Professional Health Programs Advisor to assist in course registration, answer questions about the application process, review application documents, and navigate other admissions requirements.

### WHAT CLASSES DO I NEED TO COMPLETE?

While most professional programs require similar courses, the classes you need to take depend on the type of program you are planning to apply to in the future. It also depends on what type of student you are.

Record enhancers may want to retake all their prerequisite courses to improve upon their grades or only retake the classes where they earned below B. Career changers, who may have taken some of the non-science prerequisite courses, may want to retake these courses if they are over 5 years old.

Most students apply to medical, dental, and physician assistant programs; the commonly required courses are listed below:

Code	Title	Credits
<b>Medical &amp; Dental</b>		
BIOL 411 or BIOL 413	Introductory Biology: Molecular and Cellular Principles of Biology I	4
BIOL 412 or BIOL 414	Introductory Biology: Evolution, Biodiversity and Ecology Principles of Biology II	4
CHEM 403	General Chemistry I	4
CHEM 404	General Chemistry II	4
CHEM 651 & CHEM 653	Organic Chemistry I and Organic Chemistry Laboratory	5
CHEM 652 & CHEM 654	Organic Chemistry II and Organic Chemistry Laboratory	5

BMCB 658 & BMCB 659	General Biochemistry and General Biochemistry Lab	5
English - one year		8
Psychology - one semester		4
Sociology - one semester		4
Statistics		4
Calculus		4
<b>Physician Assistant</b>		
BIOL 411 or BIOL 413	Introductory Biology: Molecular and Cellular Principles of Biology I	4
BIOL 412 or BIOL 414	Introductory Biology: Evolution, Biodiversity and Ecology Principles of Biology II	4
CHEM 403	General Chemistry I	4
CHEM 404	General Chemistry II	4
CHEM 545 & CHEM 546	Organic Chemistry and Organic Chemistry Laboratory	5
BMCB 658	General Biochemistry	3
BMS 503 & BMS 504	General Microbiology and General Microbiology Laboratory	5
BMS 507	Human Anatomy and Physiology I	4
BMS 508	Human Anatomy and Physiology II	4
Psychology - one semester		4
Statistics - one semester		4

## Honors Program

The University Honors Program (UHP), established by the Academic Senate in 1983, recognizes the achievements and capabilities of outstanding students. The program enriches undergraduate education by offering a personal, intensive approach to learning through small classes, engaged scholarship, and individualized collaborations with faculty.

There are various categories of Honors recognition awarded at graduation. The four-year University Honors curriculum is comprised of Discovery Honors courses plus either Departmental or Interdisciplinary Honors experiences. Departmental Honors is a two-year curriculum of enriched work in an academic department, and can be pursued either as a part of the University Honors Program or on its own. Interdisciplinary Honors is made up of three high-impact academic experiences plus a thesis. No award is given for completion of Discovery Honors courses alone; either Departmental Honors or Interdisciplinary Honors work is required to graduate with University Honors.

## Admissions

The Office of Admissions identifies a number of qualified incoming first-year students to be admitted to the Honors Program. Transfer students are also reviewed by the Admissions office for invitation to the Honors Program. After matriculating at UNH, first-years whose grades are in the top 10% of their year in each college are invited to join the program in January. Students may also petition to join the program if they have a GPA of at least 3.5. Admission to Departmental Honors is determined by each department; many require no invitation or application.

## Required courses and experiences

1. Discovery-level honors courses (16 credits)
  - a. At least 8 credits (usually 2 courses) must be Honors Seminars. Qualifying Honors Seminars have a cap of no more than 20 students, and use discussion as the primary mode of in-class instruction.
  - b. For the remaining 8 credits, students may choose any Honors course at the 400 or 500 level.
  - c. At most one course may be a self-designated Honors course, in which students create their own Honors course in collaboration

with a faculty member. Self-designated courses will not count toward the honors seminar requirement.

2. Departmental Honors OR Interdisciplinary Honors
  - a. Departmental Honors requirements differ by major.
  - b. Interdisciplinary Honors requires three approved high-impact academic experiences.
3. Honors Thesis of at least 4 credits
  - a. Students must register for an Honors Thesis course of at least 4 credits supervised by a faculty member.
  - b. A grade of B or better is required for the Honors Thesis.

## Registering for Honors Discovery Courses

Honors courses can be found on the [course schedule](#) by selecting the attributes "Honors Courses" and "All Discovery Courses." Enrollment in these courses is restricted to members of the University Honors Program. Students who are not members of the University Honors Program, but who wish to take an Honors course, may email [honors.program@unh.edu](mailto:honors.program@unh.edu) to request permission.

## Departmental Honors

Currently, there are more than 50 different departments from all five of the University's undergraduate schools and colleges offering departmental honors programs. Academic work for Departmental Honors usually requires a minimum of 16 credits, at least four of which will be devoted to a senior thesis project. Students should familiarize themselves with their department's requirements and should meet with their departmental honors liaison.

## Interdisciplinary Honors

Interdisciplinary Honors recognizes students who seek academic experiences that extend beyond their course curricula. The distinction is earned by completing three approved high-impact academic experiences as well as a thesis.

Approved high-impact experiences that count toward Interdisciplinary Honors include:

- Study abroad in a UNH managed, exchange, or approved program of at least 8 weeks
- Completing the application process for a major national fellowship
- An IROP, SURF, or other approved research experience
- Named co-authorship on a publication in a peer-reviewed journal
- A presentation at a regional or national academic conference
- A UNH Sustainability Fellowship
- Study away at the Washington Center or Semester in the City
- Participation in the McNair Scholars Program (multiple high-impact experiences may be completed within the program)
- Participation in the NH Epscor Biomade URT Program
- Completing INCO 529 and serving as a Connors Writing assistant for one academic year
- Completing INCO 620: Facilitating Deliberative Democracy
- Other approved high-impact experience (by proposal)

Students should consult with Honors Program advisers before the beginning of Junior year to decide which track they will pursue.

## GPA minimum

Members entering in or after the Fall of 2017 must maintain a GPA of 3.2 in the Freshman year and 3.5 thereafter. Students who do not reach the required GPA by the end of each academic year will be notified and offered an opportunity to petition to remain in the program. Students must meet the required GPA in order to graduate with University Honors.

More information is available at the [University Honors Program](#) website. You may also email [honors.program@unh.edu](mailto:honors.program@unh.edu), call (603) 862-3928, or visit Conant Hall, Suite 115.

<https://www.unh.edu/honors/>

## Marine Policy Minor

<https://marine.unh.edu/marine-policy-minor>

### Description

Effective management of human activities in ocean, coastal, and Great Lakes areas is critical to our future. Effective management of human activities in ocean, coastal, and Great Lakes areas is critical to our future.

For more information contact Professor, Gregg Moore, (603)862-5138.

### Requirements

1. The minor requires five courses for a total of 20 credits.
2. Minimum of C- grade earned in each course.
3. No more than 8 credits in the Major can be counted toward the minor.

Code	Title	Credits
<b>Required</b>		
MARI 705	Introduction to Marine Policy: Understanding US Ocean, Coastal and Great Lakes Policy	3
Select two courses from the following:		
MARI #405	Introduction to Marine Mammal Science and Policy	3
CEE 520	Environmental Pollution and Protection: A Global Context	0 or 4
CEE 705	Introduction to Sustainable Engineering	3
MEFB #507	Examining Marine Climate Changes on Appledore Island, ME	2
MEFB 702	Sustainable Marine Fisheries	4
NR 437	Principles of Sustainability	4
NR 602	Natural Resources and Environmental Policy	4
NR 720	International Environmental Politics and Policies for the 21st Century	4
NR 754	Critical Issues in Sustainability: Sense of Place	2
NR 786	Leadership for Sustainability	4
PHIL 450	Environmental Ethics	4
NUTR 730	From Seed to Sea: Examining Sustainable Food Systems	4
POLT 444	Politics and Policy in a Warming World	4
Select at least one course from the following:		
ESCI 501	Introduction to Oceanography	4
ESCI 502	Beaches and Coasts	4
MEFB 503	Introduction to Marine Biology	0 or 4
MEFB 535	Marine Mammal Biology	4
MEFB 674	Ecology and Marine Environment	4
MEFB 725	Marine Ecology	4
OE #521	Power of the Sea: Scientific Discovery in the Ocean	4
Additional approved courses:		
ME 706	Renewable Energy: Physical and Engineering Principles	3
NR 403	Introduction to Environmental Science	4
NR 435	Contemporary Conservation Issues and Environmental Awareness	4
NR 784	Sustainable Living - Global Perspectives	4

NR 785	Systems Thinking for Sustainable Solutions	4
NR 795	Investigations	1-4
POLT 751	Comparative Environmental Politics and Policy	4
SOC 565	Environment and Society	4
SOC 665	Environmental Sociology	4

## Pre-law Advising

The faculty and staff advisors of the UNH Pre-law Advising Committee work closely with students and alumni to identify interests and explore opportunities within legal education. The committee helps students undertake the best possible preparation for legal education while also bringing the excitement of law to UNH students. The committee achieves this goal through careful consideration of the American Bar Association's (ABA) statement on preparation for legal education (found on the web at [www.americanbar.org/groups/legal\\_education/resources/pre\\_law.html](http://www.americanbar.org/groups/legal_education/resources/pre_law.html)).

In that statement, the ABA explains why no single major or course is required or recommended for students wishing to explore or prepare for legal study. The ABA does, however, describe certain skills and values that are essential to success in law school and to life as a lawyer. These include analytic and problem solving skills, critical reading abilities, writing skills, oral communication and listening abilities, general research skills, task organization and management skills, and the values of serving others and promoting justice.

Pre-law Advising implements the ABA statement by working with student interests and strengths to select UNH courses, internships, leadership opportunities, and experiences that will develop those skills and values. Programmatically, the committee offers individual appointments, sponsors visits to local law schools, and organizes discussions with law school students, admission and financial aid representatives, and with members of the legal community. The committee also provides advising support for LSAT preparation, law school search, writing personal statements, and the application and selection processes.

The Pre-law Advising Office is located in 110 Murkland Hall. Register with the [Pre-Law Office](#). Additional information is available at <https://cola.unh.edu/academics/pre-law-advising/schedule-appointment>.

## Accelerated Academic Programs

UNH offers two accelerated programs that allow students to earn both a bachelor's degree and a law degree at UNH in six years instead of seven:

- [English Major: Law 3+3 Option](#)
- [History Major: Law 3+3 Option](#)

## Pre-Professional Health Advising

The Pre-Professional Health Programs Advising Office in Rudman Hall provides advising for all students preparing for postgraduate careers in medicine, dentistry, chiropractic, naturopathic medicine, optometry, pharmacy, physical therapy, and physician assistant programs. There is no pre-health major at UNH. Health professional graduate programs do not evaluate based on undergraduate major. Interested UNH students should register with the Pre-Professional Health Programs Advising Office online to be added to an email list and be kept informed of important events, opportunities, and deadlines regarding preparation for application.

*Identifying as a pre-health student at UNH consists of the following:*

- 1. *Taking the prerequisite courses for admission.* A list of the specific prerequisite courses for each intended health profession can be found on the UNH Pre-Health website.
- 2. *Gaining volunteer and healthcare experience.* Applicants to health professional programs will be expected to demonstrate a sustained involvement in volunteer and community service. It is also expected that applicants have shadowed healthcare providers. Many students volunteer in various healthcare settings and some students seek out licensure and certificates to provide hands-on patient care. These experiences often include working as an EMT, LNA/CNA, or phlebotomist.
- 3. *Preparing for entrance exams.* Many professional healthcare programs require their applicants to take a standardized entrance exam prior to matriculation. Students applying to medical school are required to take the MCAT exam. Students applying to dental programs are required to take the DAT. Student applying to optometry programs must take the OAT, and student applying to pharmacy programs must take the PCAT. The MCAT, DAT, OAT, and PCAT are standardized, comprehensive exams that test students' knowledge of biological and physical sciences as well as verbal reasoning and writing skills. Exams are usually taken once the student has completed prerequisite coursework. Students applying for physician assistant and physical therapy programs may be required to take the GRE, a more general exam similar to the SAT in structure and content.

Application Process

The Pre-Professional Health Programs Advising Office works with the Pre-Professional Health Advisory Committee, a group of 12-15 UNH faculty members and local healthcare providers, to provide students with comprehensive, confidential evaluation services at the time of application. An application information meeting is held each fall to outline the application process and establish timetables and deadlines. Students should note that the medical and dental school application process begins a full two years before matriculation; e.g., in the fall of a student's junior year if they wish acceptance following graduation. However, a delay of a year or more between graduation and admission is neither unusual nor detrimental, and in many cases, students can use this time to improve their credentials by taking additional courses and/or gaining exposure to the profession.

It is important that students understand that in order to gain admission to a health professional program they must not only satisfy the prerequisite requirements, they must satisfy these requirements at a high level of achievement. The Pre-Professional Health Programs Advising Office can provide students with information on competitive GPA and entrance exam scores for each of the postgraduate health professional programs.

The Pre-Professional Health Programs Advising Office is located in Rudman Hall and can be contacted by phone at (603) 862-3831 or by email at [Premed.Advising@unh.edu](mailto:Premed.Advising@unh.edu). The office also has a website at <https://colsa.unh.edu/academics/pre-professional-health-advising>.

Reserve Officer Training Corps Programs (ROTC)

Students attending the University of New Hampshire may enroll in the **Air Force Reserve Officer Training Corps (AFROTC)** or in the **Army Reserve Officer Training Corps (AROTC)** at the University.

The Army ROTC and Air Force ROTC offer programs leading to a commission as a second lieutenant in their respective services. Students in either ROTC program may pursue any University curriculum that leads to a baccalaureate or higher degree.

Two- and four-year programs are available. The four-year program is open to freshmen, sophomores, and transfer students. The two-year program is open to students who have at least two academic years remaining in their college/university degree program. In addition to on-campus course requirements, students must attend an officer-preparatory training session for a part of one summer.

ROTC scholarships are offered on a competitive basis by both the Army ROTC and Air Force ROTC. Entering freshmen may compete for four-year scholarships during their last year of high school. Additionally, incoming students may compete for scholarships while already in college if they meet specific ROTC requirements. Scholarships may pay up to full tuition, mandatory fees, and required textbooks for college courses. Incoming students with either a four-year or three-year ROTC scholarship may receive a full or partial room and board grant for the entire time they are on an ROTC scholarship. In addition, all scholarship recipients receive a tax-free monthly subsistence allowance. Non-scholarship students in the last two years of the ROTC program also receive the tax-free monthly subsistence allowance.

Both ROTC programs have administrative and medical requirements, which must be met to qualify for a scholarship and a commission.

More specific information about ROTC programs may be obtained by contacting [Army ROTC](#) at (603) 862-1078 or [Air Force ROTC](#) at (603) 862-1480.

Air Force Leadership Minor

Description

The minor in Air Force Leadership consists of courses in aerospace studies, two semester-long leadership positions and field training as outlined in the requirements.

Requirements

- 1. Minimum GPA of 3.20 in Aerospace Studies courses.
- 2. Successful completion of 8 semesters of AERO 301<sup>1</sup>.
- 3. Held at least two semester-long leadership positions, one of which was a leadership position in the AFROTC Group.
- 4. Successful completion of Field Training.

Code	Title	Credits
Required Courses		
AERO 415	Heritage and Values of the United States Air Force I <sup>1</sup>	2
AERO 416	Heritage and Values of the United States Air Force II <sup>1</sup>	2
AERO 541	Team and Leadership Fundamentals I	2
AERO 542	Team and Leadership Fundamentals II	2
AERO 671	Leading People and Effective Communication I	4
AERO 672	Leading People an Effective Communication II	4
AERO 681	National Security Affairs/Preparation for Active Duty I	4
AERO 682	National Security Affairs/Preparation for Active Duty II	4
Total Credits		24

<sup>1</sup> The program often has National Guard or Reserve service members join the program to transition onto active duty with a commission.

Students with this status are exempt from the first year of ROTC requirements because they have already gained this experience during their time in service. As such, AERO 415, AERO 416, and two semesters of AERO 301 are waived for these students in the pursuit of the minor.

## Study Abroad Programs

<http://www.unh.edu/global/education-abroad>

The University offers opportunities for full-time degree candidates meeting eligibility criteria to pursue a wide variety of education abroad experiences, including study, intern, service and research in many countries around the world. UNH-managed and exchange study programs are described in this section. Program availability is subject to UNH international risk management policies. All students who study abroad pay a program fee or tuition, study abroad administration fee and an international travel insurance fee. For more information, contact UNH Global Education, (603) 862-2398, email [study.abroad@unh.edu](mailto:study.abroad@unh.edu) or visit [www.unh.edu/global/education-abroad](http://www.unh.edu/global/education-abroad)

## Belize

### UNHM BSCI 620 Global Science Exploration

This 4-credits course includes a spring break trip to Belize investigating living organisms in their natural habitat. Students will participate in pre-trip seminars on the country, local flora, fauna and habitats they will visit. Students will design a project to integrate their personal interests and objections with in-country investigation. Post-trip seminar will focus on preparation of project and its presentation. Prereq: BIOL 413 and 414, or BIOL 411 and 412. Permission required.

### Archaeological Survey and Mapping in Belize

A January-term course, Archaeological Survey and Mapping in Belize (ANTH #674 Archaeological Survey and Mapping in Belize, 4 credits), offers students hands-on training in survey and mapping techniques, as well as digital cartography using ArcGIS mapping software. For more information, visit [cola.unh.edu/belize-mapping](http://cola.unh.edu/belize-mapping).

## Brazil

### University of Sao Paulo Ribeirao preto Exchange Program

Focused studies in all aspects of music with immersion in Portuguese language and Brazilian culture. This exchange with University of Sao Paulo Ribeirao Preto grew out of collaborations between UNH's and USP-RP's Departments of Music, and offers small group interaction with professors and Brazilian students, and participation in extra-curricular activities, including Filarmonica, Jazz Band, Grupuri (percussion group), and several choirs. This is an ideal exchange for independent students wanting to travel abroad and continue work on their music major. For more information, contact UNH Global Education, (603) 862-2398, email [study.abroad@unh.edu](mailto:study.abroad@unh.edu) or visit [www.unh.edu/global/education-abroad](http://www.unh.edu/global/education-abroad).

## Canada

### National Student Exchange

Students may spend one or two semesters at one of ten campuses in Canada, through the National Student Exchange (NSE) program. While having the opportunity to learn in a Canadian environment, participants maintain their status as UNH students, pay UNH tuition, and will be able to graduate from UNH on schedule. The exchange is open to students

from all UNH majors. Participants must provide proof of proficiency in French for Francophone campuses in Quebec. Interested students should contact Global Education, Conant Hall 310, (603) 862-3485, email [national.student.exchange@unh.edu](mailto:national.student.exchange@unh.edu) or visit [www.unh.edu/nse](http://www.unh.edu/nse).

## Caribbean

### NATIONAL STUDENT EXCHANGE

Students may spend one or two semesters at one of several NSE campuses in the Caribbean (Puerto Rico & U.S. Virgin Islands), through the National Student Exchange (NSE) program. While having the opportunity to learn in a Caribbean environment, participants maintain their status as UNH students, pay UNH tuition, and will be able to graduate from UNH on schedule. All participating campuses in Puerto Rico are designated Hispanic Serving Institutions, where the language of instruction is Spanish. Participants must provide proof of proficiency in Spanish for all campuses in Puerto Rico. Both campuses in the U.S. Virgin Islands are designated Historically Black Colleges and Universities (HBCUs). National Student Exchange is open to full-time undergraduate students from all UNH majors. Interested students should contact UNH Global Education, Conant Hall 310, (603) 862-3485, email [national.student.exchange@unh.edu](mailto:national.student.exchange@unh.edu) or visit [www.unh.edu/nse](http://www.unh.edu/nse).

## China

### Chengdu University Exchange Program

Chengdu University in Chengdu, Sichuan Province, China, is UNH's partner in the Confucius Institute, a non-profit educational institution housed in the College of Liberal Arts that offers a full curriculum in Chinese language and culture. Out of this partnership grew an undergraduate exchange program in which UNH students have the opportunity to study Chinese language and culture in an immersive setting by directly enrolling at Chengdu University. Located in the Shiling Historical and Cultural Scenic Area, the large, gated campus is beautifully landscaped with gardens, ponds, and tree-lined passages with easy access to downtown Chengdu. For more information, contact UNH Global Education, (603) 862-2398, email [study.abroad@unh.edu](mailto:study.abroad@unh.edu) or visit [www.unh.edu/global/education-abroad](http://www.unh.edu/global/education-abroad).

### Shanghai International Studies University Exchange program

Shanghai is the largest city in China and a major economic, financial, trade, and cultural metropolis. SISU is a prestigious institution that offers multinational and multicultural disciplines to train and prepare future global professionals for a wide range of international expertise. Courses available in Chinese language and culture, Business and Global Studies. Contact the Center for International Education and Global Engagement, (603) 862-2398, email [international.exchange@unh.edu](mailto:international.exchange@unh.edu) or visit <http://www.unh.edu/global/outgoing-international-exchange-students>.

## Costa Rica

### Costa Rica Summer Program (San Joaquin de Flores)

This six-week summer immersion program offers a variety of courses in language and culture taught by the Instituto San Joaquin de Flores. The program combines two Spanish courses, cultural field trips, and weekend trips. Classes meet daily Monday through Friday. Students live with Costa Rican families. Upon the completion of the program, students earn the equivalent of 8 credit hours. For more information, visit [cola.unh.edu/costa-rica](http://cola.unh.edu/costa-rica).

SAFS #510 Agriculture and Development in the Neotropics

Course is designed as a three-week immersion into tropical agriculture and Costa Rican ecology and culture. Agriculture plays a pivotal role in Costa Rica's history and in shaping current events. Production of horticultural and agronomic crops occurs on a variety of scales ranging from large export-based systems, to mid-sized operations for domestic sales, and sustenance-based home gardens. Examples of all systems will be visited and discussions will focus on their overall sustainability. Sustainability is a broad concept and requires consideration of socio-cultural, environmental, and economic factors. Agriculture and agricultural products infuse the culture as seen by large participation in farmers markets and appreciation for a wide variety of fruits and vegetables prepared in myriad ways. An appreciation for nature also infuses the culture and is embodied by the country's extensive system of national parks and protected reserves along with the national philosophy of "Pura Vida." SAFS #510 Agriculture and Development in the Neotropics is open to all UNH students and fulfills elective credit for the Sustainable Agriculture and Food Systems major as well as dual major in Sustainability.

Cuba  
Discover Cuba J-term

Discover first hand the rich cultural and artistic life of Cuba through this January-Term course. Led by Prof. Lina Lee, UNH Spanish Program, students will participate in an online academic component prior to a 10-day experiential learning trip to Cuba. The course (LLC #555 Discover Cuba: An Arts Experience, will illuminate the art, history, culture, music, and architecture of Cuba through lectures, tours, guided readings, and site visits. The program will be based in Havana in partnership with Spanish Studies Abroad and will include field trips to the colonial cities of Trinidad and Cienfuegos. All course and site work conducted in English - no knowledge of Spanish required. For more information, visit [cola.unh.edu/cuba](http://cola.unh.edu/cuba).

Dominican Republic  
Perspectives on the Business Environment in the Dominican Republic

Offered in January term, MKTG 620 Topics in Marketing / MKTG 720 Topics in Marketing II, Perspectives on the Business Environment in the Dominican Republic, is a 4-credit course open to all UNH students. Students will participate in a 13-day visit to Santo Domingo in the Dominican Republic, one of the commercial hubs of the Caribbean. The course will include two pre-trip classes held in the fall, in which the students will learn about the business culture of the country, as well as a brief introduction to its history and current demographics. The group will travel to Santo Domingo where three to four hours of each weekday (32 contact hours) will be devoted to meeting with business owners and managers from a variety of industries who will discuss business practices. Upon return to Durham, a final three-hour class will be held in the spring semester to wrap up, assess the learning outcomes, and conclude the experience. Contact [Audrey Ashton-Savage](mailto:Audrey.Ashton-Savage@unh.edu) ([Audrey.Ashton-Savage@unh.edu](mailto:Audrey.Ashton-Savage@unh.edu)), the instructor for this course.

Social Action in the Dominican Republic: Exploring Culture, Poverty, Human Rights, and Social Justice in a Developing Caribbean Nation  
( SW 697 Special Topics in Social Welfare / SW 897 Special Topics in Social Work and Social Welfare)

This course examines issues of culture, poverty, social development, and social justice in the Dominican Republic through direct service learning work and preparatory and reflective class sessions and discussions. Students will have the opportunity to examine development issues that have plagued the island nation for years and current efforts to address these concerns. During spring break, students and a UNH faculty member embark on a service learning adventure to work in the bateyes of the Dominican Republic. Past projects have included the building of schools, clinics, community centers, and residential houses. Additionally, students will be working in local schools, and child welfare centers. Afternoons and evenings will be spent learning about social services in the DR from community leaders and activists, participating in cross-cultural activities with community members, learning about Dominican life and history, and reflecting upon the days' activities. Students will visit other local Haitian immigrant communities (bateyes), and spend an evening in Santo Domingo. Contact [Matthew Toms](mailto:Matthew.Toms@gmail.com) ([matthew.w.toms@gmail.com](mailto:matthew.w.toms@gmail.com)).

France  
Dijon Program

The Dijon Program offers students the chance to spend their junior year or a spring semester in Dijon, France. Students enroll directly in the Universite de Bourgogne (University of Burgundy), where they will take courses alongside French students, or at the CIEF (Centre International d'Etudes Francaises), which hosts students from around the world. Students generally live with French families in the heart of this historic city. Credit for all work completed successfully, up to 16 credits, will be automatically transferred to UNH. Though exceptions can be made by the program faculty, the semester program is generally open to those French majors who have completed:

Code	Title	Credits
FREN 631 & FREN 632	Advanced French: Reading and Writing and Advanced French: Listening and Speaking	8
FREN 651 or FREN 652	Love, War, and Power in French Literature (or equivalent) Greatest Hits of French	4
Total Credits		12

and to French minors who have completed:

Code	Title	Credits
FREN 631 & FREN 632	Advanced French: Reading and Writing and Advanced French: Listening and Speaking	8
FREN 651 or FREN 652	Love, War, and Power in French Literature (or equivalent) Greatest Hits of French	4
Total Credits		12

The program faculty director is Ileana Chirila. For more information, visit [cola.unh.edu/dijon](http://cola.unh.edu/dijon).

Dijon Summer Program

The Dijon Summer Program provides the opportunity to spend four or eight weeks in Dijon, France, taking the equivalent of one or two of the following courses at the Centre International d'Etudes Francaises (CIEF):

Code	Title	Credits
FREN 401	Elementary French I	4
FREN 402	Elementary French II	4

FREN 503	Intermediate French I	4
FREN 504	Intermediate French II	4
FREN 631	Advanced French: Reading and Writing	4
FREN 632	Advanced French: Listening and Speaking	4

An eight-week summer option is also available in the form of FREN 691 Summer Study in Dijon (8 weeks) to French majors who cannot spend a semester abroad for documented reasons. The pre-requisites for FREN 691 Summer Study in Dijon (8 weeks) are:

Code	Title	Credits
FREN 631	Advanced French: Reading and Writing	4
FREN 632	Advanced French: Listening and Speaking	4
FREN 651	Love, War, and Power in French Literature	4
FREN 652	Greatest Hits of French	4

This course is worth 8 credits and consists of eight weeks of intensive French language, literature, culture, and civilization courses at the CIEF at the Universite de Bourgogne in Dijon, France. The program faculty director is Ileana Chirila. For more information, visit [cola.unh.edu/dijon](http://cola.unh.edu/dijon).

## Germany & German-speaking countries

Students may study for a semester or a full year through an approved study abroad program or, in special cases, by applying directly to universities in Germany, Austria, or Switzerland. Many programs require a minimum grade-point average of 3.0 and a B average in the major. Programs vary greatly in academic focus, size, language of instruction, living arrangements, services, and extra-curricular programming provided, and cost. Study abroad goals and requirements should be discussed with a German adviser as early as freshman year. Program and application materials may be obtained through the Global Education Center. For credit in the German major or minor, the program must be conducted in German. After consultation with the major adviser and the study abroad adviser to establish possible UNH course equivalents and fulfillment of major and/or Discovery Program requirements, students submit a planning form indicating the planned course of study abroad. To ensure proper credit transfer, especially if seeking to transfer credits directly from a university abroad without benefit of an Approved Program, students should keep syllabi, course descriptions, and all written work. Students planning study at a university in Germany, Austria, or Switzerland should note major differences in academic calendar (winter semester October-February, summer session April-July), which may be shortened by the Approved Program to accommodate U.S. academic calendars.

### Berlin Program

The Berlin Summer Program offers students the chance to spend five weeks in Berlin, Germany. Students earn 4 or 8 credits through GERM 586 Study in Berlin, designed to give students an immersion experience in the German language and culture. Students will receive eighty hours of intensive language instruction at the appropriate level (elementary, intermediate, or advanced) at the BSI Private Language School in central Berlin. No prior German language study is required. On designated weekday afternoons, students will gather for cultural excursions and discussions with the on-site UNH faculty member. Students enrolling for 4 credits can receive the UNH German Program language course equivalent of one semester of language study. Students enrolling for 8 credits will receive the UNH German Program language course equivalent of one semester of language study as well as engage in additional UNH faculty-guided cultural study, fulfilling GERM 525 Introduction to German Culture and Civilization (Discovery World Cultures) or other pre-approved courses. Students may fulfill the bachelor of arts language requirement by taking the equivalent of Intermediate German at the BSI Language

School or by taking the equivalent of the first semester of Elementary German with the program and then independently continuing language instruction at the BSI for three weeks beyond the program study period, for a total of 8 weeks. Required pre-travel meetings at UNH will prepare students for the Berlin experience. In line with UNH's goals to educate students to become global citizens, this immersion experience will give students insight into what it means to experience a different culture and language. For more information, visit [cola.unh.edu/berlin](http://cola.unh.edu/berlin).

## Intensive Language Courses through the Goethe Institut

Students needing to advance rapidly in proficiency beginning at any level and at any time of year may enroll at a Goethe Institut center in Germany for courses ranging from eight to 16 weeks and receive UNH equivalent credit depending on level of exam passed upon completion of course. For more information, contact UNH Global Education, (603) 862-2398, email [study.abroad@unh.edu](mailto:study.abroad@unh.edu) or visit [www.unh.edu/global/education-abroad](http://www.unh.edu/global/education-abroad).

## German Internship

Students who have completed GERM 504 Intermediate German II or equivalent may apply for a 4-8 credit internship placement in a German-speaking firm or organization. The internship does not alone fulfill the study abroad requirement for the major, but may count toward the minor and may be coupled with academic course work through UNH or any study abroad program to fulfill the major study abroad requirement.

## UNIVERSITY OF MANNHEIM EXCHANGE PROGRAM

Living and studying on a campus surrounding the **Schloss Mannheim** (Mannheim Palace) right at the heart of Europe. This is what students who opt for a semester at the University of Mannheim can expect. The **campus** really deserves to be called **international** – one in five students comes to Mannheim from abroad. Mannheim is very conveniently located: just a few train stops south of Frankfurt (which has a major international airport). For general information, please go to <https://www.uni-mannheim.de/en/academics/coming-to-mannheim/exchange-students/>. According to the 2019 QS World University Ranking by Subject, the University of Mannheim is the best German university in Social Sciences (which includes Business Administration and Economics) and has been ranked number 55 worldwide. The Mannheim Business School has the Triple Crown accreditation: AACSB, EQUIS and AMBA. For more information, contact UNH Global Education, (603) 862-2398, email [study.abroad@unh.edu](mailto:study.abroad@unh.edu) or visit [www.unh.edu/global/education-abroad](http://www.unh.edu/global/education-abroad).

## Global E3 Engineering Exchange Program

Global E3 allows engineering students to enjoy a fulfilling study abroad experience at one of 31 international member institutions. Through participation in the program, Global E3 graduates gain the necessary foreign language ability, cross-cultural skills, and professional experience to excel in the multinational/multicultural business environment of the 21st century. Global E3 students pay tuition at their home institution, and enjoy the benefits of attending an overseas one. Students can study abroad for the fall semester, spring semester, or the entire school year. At some member universities, Global E3 students are able to take on a supplemental internship after their study abroad experience. Member institutions include some of the best universities in Argentina, Australia, Austria, China, Denmark, France, Germany, Indonesia, Italy, Japan, Malaysia, The Netherlands, Singapore, South Korea, Spain, Sweden, and United Kingdom. For more information, contact UNH Global Education,

(603) 862-2398, email [study.abroad@unh.edu](mailto:study.abroad@unh.edu) or visit [www.unh.edu/global/education-abroad](http://www.unh.edu/global/education-abroad).

## Greece

### UNH in GREECE SUMMER PROGRAM

The UNH-in-Greece Program is open to any undergraduate at UNH who is interested in the long history of civilization in Greece, from the classical period to the present day. Athens is famous as the most important city-state in ancient times and as the site of some of the world's most famous and influential architecture and art, but it is also the vibrant capital of modern Greece (The Hellenic Republic), and that combination of antiquity and modernity, as well as the city's position between West and East, makes it an extraordinary location for on-site, experiential learning. Students earn a total of 10 credits from courses taught by both UNH and Hellenic American University faculty. For more information, visit [cola.unh.edu/greece](http://cola.unh.edu/greece).

## Hungary

### Budapest spring justice studies and humanities program

The UNH Budapest Spring Program is open to any student interested to deepening their knowledge of modern European history, culture, and justice systems. Each spring semester a group of students, under the supervision of a UNH faculty member, study at [Károli Gáspár University](http://www.karoli-gaspard-university.hu) of Budapest. Situated along the Danube River, Budapest is an exciting and cosmopolitan city, close to other beautiful European cities such as Prague and Vienna. Under the supervision of a UNH faculty member also in residence, students carry a four-course load, two of which are taught by the UNH faculty member. The program satisfies Historical Perspectives, World Cultures, and, depending on course selection, Humanities and Fine & Performing Arts Discovery Program Requirements. All courses are taught in English. For more information, visit [cola.unh.edu/budapest](http://cola.unh.edu/budapest).

## Ireland

### ANSC #510 Integration of Culture and Agriculture in Ireland: Past, Present, and Future

What was the most natural disaster in 19th century Europe? What characterizes Ireland's agriculture in the 21st century? In this interdisciplinary course, students examine the cultural, historical, political, economic, and religious influences on Ireland's agriculture. The crowning experience of the course, a 10-day study abroad in late May, provides students with a window to the world as they experience the culture, agriculture, and topography of Ireland. Students will immerse themselves in local Irish history and culture as they tour working agricultural farms and significant landmarks.

### SW 785 Study Abroad: Comparative Social Welfare Systems / SW 885 Study Abroad

Students studying abroad on SW 785 Study Abroad: Comparative Social Welfare Systems/SW 885 Study Abroad, examine the historical development of social welfare in another country, including an analysis of the underlying values and attitudes that direct practice and policy decisions. This 4-credit class includes agency site visits, lectures, themed readings, and visits to important cultural sites. Prerequisites are SW 424 Introduction to Social Work and SW 525 Social Welfare Policy: History of Social and Economic Justice. Previous programs have visited Ireland, England, Scotland, and Latvia.

### LITERARY DUBLIN: ENGL 565 Literary Dublin: Short-Term Study Abroad

This two-week UNH managed program allows students to re-imagine what we mean by "Irish" and "Irish American." It introduces a racially diverse side of Dublin specifically, and Ireland broadly, in concert with Irish Americanness as racially other at one time, and subsequently racially white. Through writing, reading, on-site visits and tours, and a host of lectures, students will gain an appreciation of Ireland's many challenges of self- and other identity related to its location, conquest, colonization, emigration, religions, and recent global immigration. The course will provide students who identify as Irish an opportunity to research their genealogy. Student will earn 4 credits for this course, ENGL 565 Literary Dublin: Short-Term Study Abroad. The experience begins in the U.S. with virtual meetings for one week (Monday through Friday, three hours daily), then moves overseas to Dublin for 10 days.

## Italy

### UNH-in-Italy Program

*Semester & Summer Programs.* In partnership with the UNH Department of Agriculture, Nutrition & Food Systems, the UNH-in-Italy Program offers students the opportunity to experience living abroad in the medieval city of Ascoli Piceno, for either a four-course, 13-week semester or a two-course, 5-week summer session. The curriculum focuses on the links between food culture, sustainably-focused agriculture, and the policies and issues impacting the food system. Experiential activities, field trips, and group excursions encourage students to immerse themselves in the unique educational opportunity. Students live in apartments in the historic center of the city and take UNH courses taught in English. The program is open to all UNH students and fulfills the International Experience requirement of the EcoGastronomy Dual major. For more information, please contact [Jesse Stabile Morrell](mailto:Jesse.Stabile.Morrell@unh.edu) ([jesse.morrell@unh.edu](mailto:jesse.morrell@unh.edu)).

### Rome J-Term Program

The Rome Program provides the opportunity to take a January term course in Rome, Italy. Students earn 4 credits and the Fine and Performing Arts Discovery requirement through CLAS #510 Building Rome or 4 credits and the World Cultures Discovery requirement through ITAL #510J Rome: The Eternal City in Italian Culture. Experience the history, architecture, and art history of the ancient Romans the way they did—in Rome itself! Six days of study in the eternal city followed by two days in Pompeii and other sites will give students a sense of the majesty and miracle that was the ancient Roman Empire. A five-day online component prepares students for the on-site portion so that they will be ready to soak in the monuments of the past. For more information, visit [cola.unh.edu/rome](http://cola.unh.edu/rome).

## Japan

### Saitama University Exchange Program

Accelerated Japanese language learning on Saitama University's park-like campus, just outside Tokyo. With its moderate size (9,000 students), generous scholarship opportunities, dynamic student life and recreation facilities, Saitama is an ideal fit for UNH students interested in Japanese language and culture. The university also has a wide variety of courses taught in English, which draws students from around the world. Saitama is known as the "Oasis of Tokyo"—a historic city whose forests were planted centuries ago by peace-loving Samurai who nurtured the land instead of living by the sword. Saitama is the famous backdrop for Japanese animated films. Tokyo is less than an hour away by train. For

more information, contact UNH Global Education, (603) 862-2398, email [study.abroad@unh.edu](mailto:study.abroad@unh.edu) or visit [www.unh.edu/global/education-abroad](http://www.unh.edu/global/education-abroad).

## Waseda University Exchange Program

Study abroad at one of Japan's "Ivy League" universities while paying UNH tuition. Spend a semester or academic year studying in central Tokyo, with over 50,000 students, including 5,000 international students from more than 100 countries. UNH students can enroll in a wide range of courses in English in the liberal arts, business, social sciences, political science and economics, and of course, Japanese language and culture. Waseda has a unique volunteer center, which combines lectures with hands-on activities in the field. For more information, contact UNH Global Education, (603) 862-2398, email [study.abroad@unh.edu](mailto:study.abroad@unh.edu) or visit [www.unh.edu/global/education-abroad](http://www.unh.edu/global/education-abroad).

## The Netherlands

### Radboud University Nijmegen Exchange program

Nijmegen is the oldest city in the Netherlands: it was founded by the Romans more than two thousand years ago. It is a vibrant, green, and safe student town of about 175,000 people, just a few miles from the German border. It only takes a little over an hour by train to get to Amsterdam, and it has great international train connections to Brussels, Paris and Berlin. The city has a very active student life and is also a host to countless festivals and sports activities like the Four Day Marches. Radboud University Nijmegen has about 23,000 students (about 11% of them are international). The campus is beautiful, with lots of green space, incredible buildings and has a state-of-the-art sports center. This semester exchange is open to all Majors. General info can be found at [www.ru.nl/exchangestudents](http://www.ru.nl/exchangestudents). For more information, contact UNH Global Education, (603) 862-2398, email [study.abroad@unh.edu](mailto:study.abroad@unh.edu) or visit [www.unh.edu/global/education-abroad](http://www.unh.edu/global/education-abroad).

### Utrecht University Exchange Program

Open to undergraduate and graduate students in all fields, Utrecht University is one of the top research universities in Europe, with the largest undergraduate population and the largest research budget in the Netherlands. The size, status, and international population of the university ensure that courses in all areas of study are offered in English; these include the humanities, social and behavioral studies, law, economics, governance, and geosciences. Utrecht is the fourth largest city in the Netherlands. It has a classically old-Dutch city center with 17th century buildings, a medieval church, several high-quality museums, and terraced canals that encircle the old city. A university town since the medieval period, Utrecht has long enjoyed a vibrant student culture. Utrecht is easily navigable by foot, bicycle, and bus; the center of the Dutch rail system, it enjoys easy access to other cities in the Netherlands and Europe (Amsterdam is 35 minutes away; Paris three hours; London a day trip by plane). For more information, contact UNH Global Education, (603) 862-2398, email [study.abroad@unh.edu](mailto:study.abroad@unh.edu) or visit [www.unh.edu/global/education-abroad](http://www.unh.edu/global/education-abroad).

### University College Utrecht Exchange Program

An honors exchange is available at the University College Utrecht (UCU), which is an international Liberal Arts and Sciences Honors College of Utrecht University. UCU's mission is to offer ambitious students an academic environment aimed at transforming their broad academic and social interests and their international orientation into academic excellence, intellectual independence, and world citizenship. UCU specializes in undergraduate education and students choose from courses in humanities, science, and social sciences. Among the special

characteristics are the college's small classes and individual attention. Students have access to all academic, social, and recreational facilities that Utrecht University has to offer. For more information, contact UNH Global Education, (603) 862-2398, email [study.abroad@unh.edu](mailto:study.abroad@unh.edu) or visit [www.unh.edu/global/education-abroad](http://www.unh.edu/global/education-abroad).

## New Zealand

### UNH-ECOQUEST: Ecology in action

In partnership with COLSA's Department of Natural Resources and the Environment, the EcoQuest Education Foundation offers an intensive program of applied field studies in ecology, resource management, and environmental policy. New Zealand offers an ideal context for multidisciplinary, field-oriented studies, with its rich cultural traditions, diverse ecosystems, expansive natural areas, and history of innovative approaches to resource management. EcoQuest students engage hands-on in New Zealand's restoration ecology and sustainable resource management initiatives. Semester participants have the opportunity to carry out team oriented, directed research projects while working closely with a faculty mentor and in association with New Zealand research partners. The rural seaside campus is located about an hour's drive southeast of Auckland. Students travel throughout New Zealand's North and South Islands, from the mountains to the sea, to learn more about the unique ecosystems and local culture

Students may choose either a four-course, 15-week fall or spring term for 16 credit hours, or a two-course, five-week summer session for eight credit hours. The UNH-EcoQuest Academic Coordinator is Kimberly Babbitt, Associate Dean of Academic Affairs, COLSA. Contact Donna Dowal, EcoQuest Director of Admissions, at (603) 862-2036 or [Eco.Quest@unh.edu](mailto:Eco.Quest@unh.edu).

### UNH-EcoQuest: Sustainable Agriculture and Food Systems Aotearoa (SAFSA)

In partnership with COLSA's Department of Agriculture, Nutrition, & Food Systems, the EcoQuest Education Foundation offers an intensive field studies program in sustainable agriculture, land management, systems thinking, and food production. Students will gain an in-depth understanding of global trends in agricultural sustainability and the challenges and manifestations of these trends in Aotearoa New Zealand.

Students engage with various agribusinesses in New Zealand and consider agriculture in an ecosystems framework, aligning land use with land use capability, while examining the political, economic and cultural context. The Maori agribusiness sector is distinctive and offers unique opportunities for collaborative models. The integration of people, communities, and values with primary production systems can ultimately result in vibrant and multi-cultural approaches to food systems.

Four fully integrated courses focus on land use capability and sustainability, agroecology and sustainable land management, and pathways to sustainable agriculture and food systems. Each semester, students will spend time in farm or agricultural placements. These practical, hands-on experiences will allow students to gain transferable skills and develop a comprehensive understanding of sustainability initiatives and practices in food systems. Program participants will gain life and professional skills to engage with sustainable food systems as pro-active, solution-focused practitioners.

Students may choose either a four-course, 15-week fall or spring semester term for 16 credit hours. The UNH-EcoQuest Academic Coordinator is Kimberly Babbitt, Associate Dean of Academic Affairs,

COLSA. Contact Donna Dowal, EcoQuest Director of Admissions, at (603) 862-2036 or [Eco.Quest@unh.edu](mailto:Eco.Quest@unh.edu).

## Russia

### Russia Program

This is a four-week summer program in Russian language, culture, mythology, and propaganda in Moscow, St. Petersburg, and on the Trans-Siberian Railway. Studying in the current and former capitals of Russia and the largest city in Europe gives students a profound image of the country, its language, and culture, as well as an overview of recent and ancient history. It is an opportunity for an intensive dose of authentic Russian culture. Prior to departure, students will work on Blackboard with readings and films. In Moscow and St. Petersburg, there will be field trip classes and special lectures. Upon return, students will complete their work on Blackboard and on a project. For more information, visit [cola.unh.edu/russia](http://cola.unh.edu/russia).

## South Korea

### Pusan National University Hong Kong Exchange Program

Study abroad in Busan, South Korea's beautiful second city, known for its beaches, mountains, and temples. Pusan National University is one of Korea's leading research universities and provides a full curriculum of 600 courses offered in English for UNH students of most majors. Pusan is particularly well known for business, STEM fields, and global studies, as well as its campus life and extra-curricular opportunities. Summer study is available. For more information, contact UNH Global Education, (603) 862-2398, email [study.abroad@unh.edu](mailto:study.abroad@unh.edu) or visit [www.unh.edu/global/education-abroad](http://www.unh.edu/global/education-abroad).

## Spain

### Granada Program

The Granada Program is a spring semester program in Granada, Spain. The program is designed for those who have completed SPAN 631 Advanced Conversation and Composition I or its equivalent and have a B average in Spanish, but may be open to intermediate-level students by petition. Many of the courses taught by professors from the University of Granada fulfill requirements for the Spanish major and minor and UNH Discovery Program requirements. Students generally live with host families and take courses at the Centro de Lenguas Modernas at the Universidad de Granada. For further information, visit [cola.unh.edu/granada](http://cola.unh.edu/granada).

### Universidad Carlos III de Madrid Exchange Program

Study abroad in Madrid, Spain's historic and artistic capital that never sleeps. Universidad Carlos III de Madrid, named after a former king of Spain, offers a dynamic campus of 18,000 students and the largest offering of courses taught in English in Spain. Courses are available in the areas of engineering, business (AACSB accredited), finance, accounting, economics, and political science. For more information, contact UNH Global Education, (603) 862-2398, email [study.abroad@unh.edu](mailto:study.abroad@unh.edu) or visit [www.unh.edu/global/education-abroad](http://www.unh.edu/global/education-abroad).

## U.S. Territories (Puerto Rico, U.S. Virgin Islands, and Guam)

### NATIONAL STUDENT EXCHANGE

Students may spend one or two semesters at one of 12 campuses in the U.S. territories of Puerto Rico, U.S. Virgin Islands, and Guam through the

National Student Exchange (NSE) program. Participants maintain their status as UNH students, pay UNH tuition, and will be able to graduate from UNH on schedule. The exchange is open to students from all UNH majors. Participants must provide proof of proficiency in Spanish for all campuses in Puerto Rico. For more information contact, Paula DiNardo, Study Away USA office, Conant Hall 310G, (603) 862-3485, email [national.student.exchange@unh.edu](mailto:national.student.exchange@unh.edu) or visit [www.unh.edu/nse](http://www.unh.edu/nse).

## United Kingdom England

### Lancaster University Exchange Program

Lancaster University is a comprehensive university similar to UNH in size, setting, and program offerings. The program allows students to spend a semester or a year in Lancaster while still making normal progress toward their UNH degree. Lancaster enjoys a diverse campus and is centrally located for travel to Scotland, Wales, Ireland, and London. For more information, contact UNH Global Education, (603) 862-2398, email [study.abroad@unh.edu](mailto:study.abroad@unh.edu) or visit [www.unh.edu/global/education-abroad](http://www.unh.edu/global/education-abroad).

### London Program

The London Program offers students the chance to spend the spring semester at Regent's University in the heart of London, choosing from courses in British studies, the arts, humanities, social sciences, business, and a wide range of other basic subjects. Taught by British and American faculty members, many of the courses are specifically concerned with British studies or have a special British emphasis. For more information, visit [cola.unh.edu/london](http://cola.unh.edu/london).

### The London Experience

This course provides a wonderful opportunity to learn about one of the greatest cities in the world. Travel to the United Kingdom for nine nights/ten days during the January term. See the many amazing historical and cultural sights and take in some of the best theatre in the English-speaking world. The course offers insight into the politics, society, and culture of London and the United Kingdom as students walk, tube, and double-decker bus their way through 2000 years of history. The 4-credit class fulfills the Fine and Performing Arts Discovery requirement. For more information, visit [cola.unh.edu/london-experience](http://cola.unh.edu/london-experience).

### London Travel Writing

Travel writing is for the adventurous. In three weeks, students will learn to navigate London, one of the world's greatest cities, and craft compelling, vivid essays about what they've discovered. Through curiosity, research, and writing they will transcend from tourist to traveler, gaining a confidence in their ability to master the unfamiliar as well as pen publishable stories about place. Prerequisite of ENGL 501 Introduction to Creative Nonfiction or permission of instructor. For more information, visit [cola.unh.edu/london-writing](http://cola.unh.edu/london-writing).

## Northern Ireland, Scotland (& the Highlands), York and London

### HLS 656 Comparative Homeland Security Systems Lab/HIST 600 Explorations, Emergent Topics

All UNH students are invited to enjoy this trip where they can combine their interests in security studies, history and culture, justice studies, sustainability & resilience, intelligence, emergency preparedness or terrorism studies with our nearly 3-week study abroad course to 5

cities in the UK: Belfast, Edinburgh, Pitlochry in the Highlands, York and London. The 18-day trip will explore domestic/civilian security and resilience challenges facing the UK while you explore Northern Ireland, Scotland, and England's rich history, pubs, people and culture. The trip is specifically designed for UNH students and is open to all majors. Our time in Belfast and the Northern Irish Coast will include meetings with real IRA and Loyalist members, a guided tour of the Northern Irish Assembly, the Titanic Museum and a tour of the Antrim Coast including Carrick Fergus Castle, Giant's Causeway and the Rede Rope Bridge; then on to Edinburgh that will include a special guest pass to see the First Minister's Q&A at the Scottish Parliament, and time to enjoy the ancient city as well as a weekend in the Highlands (including hiking Ben Vrackie and a distillery tour). The group will view Alnwyck Castle en route to York, where we are special guests at the UK's Emergency Planning College. A day trip to Bletchley Park (home of the WWII code breakers) precedes our arrival in London, where activities include a custom guided spy walk and visiting the underground Churchill War Rooms. To travel with us, students approved to study abroad will enroll in HLS 656 for 1 credit in the summer (usually mid-May -mid-June). Note that interested students can also (but don't need to) take HLS 555 which is only offered in the spring semester and is designated as a World Cultures Discovery course. HLS 555 focuses on the Troubles in Northern Ireland during the late 20th century, including the struggle for Irish independence, and the broader responses of the UK to domestic security threats from World War II to present times in Ireland and Northern Ireland. Students do not need to take HLS 555 to participate on the study abroad.

## Scotland

### Heriot-Watt University Exchange Program

College of Engineering and Physical Sciences students are eligible to participate in a spring semester exchange with Heriot-Watt University in Edinburgh, Scotland. Heriot-Watt is one of the UK's leading universities for business and industry and has a reputation for innovative education, enterprise, and leading-edge research in science, business, engineering, and design. Often referred to as Scotland's international University, a third of on-campus students in Scotland come from outside the UK, there are campuses in Dubai and Malaysia, and 50 international academic learning partners in 30 countries. The current program is designed for civil and environmental engineering majors. For more information, contact UNH Global Education, (603) 862-2398, email [study.abroad@unh.edu](mailto:study.abroad@unh.edu) or visit [www.unh.edu/global/education-abroad](http://www.unh.edu/global/education-abroad).

## Wales

### Cardiff University Exchange Program

Study abroad at one of the UK's "Ivy League" universities while paying UNH tuition. Founded in 1883, Cardiff University is recognized as one of the leading research and teaching universities in the UK and a member of the Russell Group, the UK's "Ivy League" of world-class universities. Spend a semester or academic year studying at Cardiff and benefit from learning with professors who are pioneers in their fields. Over 27,000 students have been drawn to Cardiff University, coming from Wales, the rest of the UK and more than 100 countries. UNH students can enroll in a wide range of courses and are guaranteed housing in student halls of residence, living among British and other international students. Cardiff is an excellent match for majors in music, computer science, communications, and journalism. The University boasts over one hundred clubs, sporting teams, and societies. Cardiff University is located in the center of the capital of Wales, an exciting and diverse city and the heart of Welsh history, culture, street life, and politics. There is something for everyone in the Welsh capital, with the excitement of the

small city campus located just minutes from the beautiful coastlines, hills, walking trails, and green countryside for which Wales is famous. For more information, contact UNH Global Education, (603) 862-2398, email [study.abroad@unh.edu](mailto:study.abroad@unh.edu) or visit [www.unh.edu/global/education-abroad](http://www.unh.edu/global/education-abroad).

## Sustainability

Sustainability is about balancing environmental stewardship, social well-being, and economic vitality to meet our present needs while ensuring the ability of future generations to meet their needs. At its core, sustainability is a collective commitment to valuing human dignity for all people and ensuring ecological integrity of places that support us.

Students from any UNH college or major can pair the Sustainability Dual Major with their primary major. You'll learn to analyze, evaluate, and create new ideas and models around sustainability. As an interdisciplinary and applied field of study and practice, you'll make connections across issues of science and ethics, policy and technology, and culture and history to better understand and take action on pressing issues of our time. Solving real-life problems requires the skills and perspectives of people from multiple disciplines and backgrounds. The Sustainability Dual Major provides the skills and knowledge needed to understand these systems, identify relevant environmental and social issues, and become agents of change in a complex world.

Sustainability Dual Major (SDM) students will:

#### Comprehend grand challenges

Students will gain knowledge of the fundamental aspects of sustainability challenges, such that they understand the problems and develop solutions to complex issues.

#### Think in systems

Students will have an ability to analyze and synthesize the interconnections among environmental, social, and economic aspects of complex systems, as well as how problems manifest at different scales (local to global) and at different times (connections between past, present, and future).

#### Advocate for values

Students will be able to identify, assess, respect, and navigate the diverse values, interests, and types of knowledge inherent in sustainability challenges, while simultaneously addressing power imbalances and promoting social justice.

#### Apply knowledge to a lifetime of action

Personal practice: Students will understand how sustainability impacts their lives and can assess how their actions impact sustainability at personal, institutional, and societal levels.

Professional practice: All students will, regardless of major, understand how their professional work contributes to sustainable communities, and can apply disciplinary and other forms of knowledge to contribute to sustainable solutions.

Interpersonal practice: Students will learn how to collaborate across disciplines and across stakeholder groups to jointly determine project

goals, create knowledge, and develop solutions to sustainability challenges.

# Sustainability Dual Major

<https://sustainableunh.unh.edu/sdm>

# Description

Students from any UNH college or major can pair the sustainability dual major with their first major. From local to global, you'll learn to analyze, evaluate, and create new ideas and models around sustainability. As a cross-disciplinary and applied field of study and practice, you'll make connections across issues of science and ethics, policy and technology, and culture and history to better understand and take action on pressing issues of our time. Solving real-life problems requires the skills and perspectives of people from multiple disciplines and backgrounds. A sustainability dual major provides the skills and knowledge needed to understand these systems, identify relevant environmental and social issues, and become agents of change in a complex world.

# Requirements

## Degree Requirements

**Minimum Credit Requirement:** 128 credits

**Minimum Residency Requirement:** 32 credits must be taken at UNH

**Minimum GPA:** 2.0 required for conferral\*

**Core Curriculum Required:** Discovery & Writing Program Requirements

**Foreign Language Requirement:** Yes, if primary major is a Bachelor of Arts

**Declared Primary Major**

All Major, Option and Elective Requirements as indicated.  
*\*Major GPA requirements as indicated.*

## Sustainability Dual Major Requirements

The dual major requires 32 credits, including core and elective courses, and a capstone experience.

Code	Title	Credits
Complete the following SUST courses (in order):		
SUST 401	Exploring Sustainability	4
SUST 501	Sustainability in Action	4
SUST 750	Sustainability Capstone	4

Select 20 credits of elective courses <sup>1</sup>	20
<b>Total Credits</b>	<b>32</b>

<sup>1</sup> All SUST majors will take at least one (1) elective course from the natural & biological sciences list and at least one (1) elective course from the social science and humanities list.

## Approved Electives

Code	Title	Credits
<b>Natural Biological Systems</b>		
BIOL 541W	Ecology	0 or 4
CEE 520	Environmental Pollution and Protection: A Global Context	4
CEE 705	Introduction to Sustainable Engineering	3
CEE 706	Environmental Life Cycle Assessment	3
CEE 719	Green Building Design	3
ECOG 401	Introduction to Ecogastronomy	4
ESCI 405	Global Environmental Change	4
ESCI 765	Paleoclimatology	3
GEOG 572	Geography of the Natural Environment	4
GEOG 670	Climate and Society	4
HLS 580	Environmental and Human Security	4
MARI 705	Introduction to Marine Policy: Understanding US Ocean, Coastal and Great Lakes Policy	3
MEFB 702	Sustainable Marine Fisheries	4
MEFB 772	Fisheries Biology: Conservation and Management	4
NR 435	Contemporary Conservation Issues and Environmental Awareness	4
NR 502	Forest Ecosystems and Environmental Change	4
NR 507	Introduction to our Energy System and Sustainable Energy	4
NR 650	Principles of Conservation Biology	4
NR 703	Watershed Water Quality Management	4
NR 785	Systems Thinking for Sustainable Solutions	4
NUTR 595	Mediterranean Diet and Culture	4
NUTR 730	From Seed to Sea: Examining Sustainable Food Systems	4
SAFS 405	Sustainable Agriculture and Food Production	4
SAFS 410	A Taste of the Tropics	4
SAFS 502	Agroecology	4
SAFS #510	Agriculture and Development in the Neotropics	4
SAFS 632	Urban Agriculture	4
SUST 600	Sustainability Independent Study	1-4
SUST 605	Sustainability Internship	1-4
<b>Social Systems &amp; Humanities</b>		
ADMN 444	Business for People, Planet, and Profits	4
ANTH 695	Globalization and Global Population Health	4
ANTH 697	Special Topics	4
DS 620	Topics in Decision Sciences (Supply Chain Management)	1-4
CLAS 540A	Environment, Technology and Ancient Society: Sustaining Ancient Rome Ecology and Empire	4
ECON 633	Microfinance	4
ECON 706	Economics of Climate Change	4
ENGL 521	Nature Writers	4
ENGL 736	Environmental Theory	4
ENGL 787	English Major Seminar	4
EREC 444	The New Pirates of the Caribbean	4
EREC 572	Introduction to Natural Resource Economics	4
EREC #760	Ecological-Economic Modeling for Decision Making	4
FIN 620	Topics in Finance I	2-4
FIN 720	Topics in Finance II (The Finance of CSR and ESG Investing )	4
GEOG 405	There Is No Planet B	4
GEOG 590	Field Research	4
GEOG 673	Political Ecology	4
GEOG 685	Population and Development	4
HMP 501	Epidemiology and Community Medicine	4
HMP 715	Environmental Health	4
INCO 505A	Semester in the City Becoming a Problem Solver	4
INCO 505B	Social Innovator's Toolbox	4
INCO 505I	Semester in the City: Boston and SITC @ UNH Internship	8

MKTG 620	Topics in Marketing (Sustainability and Marketing )	4
NAIS 400	Introduction to Native American and Indigenous Studies	4
NR 602	Natural Resources and Environmental Policy	4
NR 643	Economics of Forestry	4
NR 720	International Environmental Politics and Policies for the 21st Century	4
NR 724	Resolving Environmental Conflicts	4
NR 784	Sustainable Living - Global Perspectives	4
NR 787	Advanced Topics in Sustainable Energy	4
PHIL 431	Business Ethics	4
PAUL 670	BiP-Analytical Intelligence Topics (B-Impact Clinic, Carbon Clinic )	2
PHIL 450	Environmental Ethics	4
POLT 444	Politics and Policy in a Warming World	4
POLT 548	Drug Wars	4
POLT 750	Politics of Poverty	4
POLT 751	Comparative Environmental Politics and Policy	4
RMP 511	Issues of Wilderness and Nature in American Society	4
RUSS #425M	Topics in Russian Culture and Society in Moscow	4
SOC 444A	Honors/Society in the Arctic	4
SOC 565	Environment and Society	4
SOC 665	Environmental Sociology	4
SOC 730	Communities and the Environment	4
SUST 600	Sustainability Independent Study	1-4
SUST 605	Sustainability Internship	1-4
TOUR 767	Social Impact Assessment	4
WS 505	Survey in Women's Studies	4
WS 798	Colloquium	4

## Student Learning Outcomes

### Comprehend grand challenges

- Students gain knowledge of the fundamental aspects of complex sustainability challenges.

### Think in systems

- Students have an ability to analyze and synthesize the interconnections among environmental, social, and economic aspects of complex systems, as well as how problems manifest at different scales (local to global) and at different times (connections between past, present, and future).

### Advocate for values

- Students can identify, assess, respect, and navigate the diverse values, interests, and types of knowledge inherent in sustainability challenges, while simultaneously addressing power imbalances and promoting social justice.

### Apply knowledge to a lifetime of action

- Personal practice:** Students understand how sustainability impacts their lives and can assess how their actions impact sustainability at personal, institutional, and societal levels.
- Professional practice:** All students, regardless of major, understand how their professional work contributes to sustainable communities, can apply disciplinary and other forms of knowledge and skills to contribute to sustainable solutions.
- Collaborative practice:** Students learn how to collaborate across disciplines and across sectors to jointly determine project goals, create knowledge, and develop innovative and effective solutions to sustainability challenges.

## Thompson School of Applied Science

The Thompson School of Applied Science (TSAS), established in 1895, is an academic unit of the College of Life Sciences and Agriculture (COLSA) offering the associate in applied science degree in three program areas. Curricula comprise a balance of professional, science-related, and general education courses that prepare students to meet the specific demands of a technical or applied profession, continuing education, and the general demands of life.

The Thompson School of Applied Science offers dedicated professional faculty who deliver a career-relevant education for students who want an associate degree; students who value a college education combining hands-on experiences and academic knowledge in a small learning environment within the campus of the University of New Hampshire.

Thompson School faculty and staff are committed to educate, train, and retain students to be entrepreneurs, to be solid in their knowledge, to be competent in acquired skills and to be aware of the communities they impact. This is accomplished through the development of mentorships with faculty and advisors, business and industry partnerships, unique programs of study with relevant facilities, and excellent job placement.

## Thompson School of Applied Science Overview

Faculty members at the Thompson School have significant work experience in industry and business; extensive and up-to-date knowledge of their specialties; ongoing contacts with practicing professionals; dedication to students and to excellence in teaching; and a commitment to practical, science-based education. They work closely with students, providing academic advising, career counseling, and special assistance, even outside the classroom, when needed.

Detailed information on our various program areas and concentrations follow.

- Applied Animal Science** students pursuing this associate's degree prepare for a successful career in animal production and management, whether working on a farm or in a related business. Students handle farm animals starting week one, and develop a strong foundation in the science and business of animal agriculture, including breeding, feeding, health care, law and regulations, housing, and marketing. On-campus facilities include the [Thomas P. Fairchild Dairy Teaching and Research Center](#) and UNH's [Organic Dairy Research Farm](#).
- Forest Technology** students integrate all aspects of forest management as they complete projects on more than [3,000 acres of University land](#). Using the school's sawmill and harvesting equipment, they contribute to the sustainable management of UNH lands. In the classroom and the forest, they develop skills and techniques critical to the future ecological and economic health and management of the natural resources of the state and region. Students are expected to enhance class work with an extensive work experience requirement. The educational program in Forest Technology leading to the Associate in Applied Science degree is accredited by the [Society of American Foresters](#) (SAF). The Thompson School's Forest Technology program was the first two-year program in the U.S. to complete the accreditation process.
- Veterinary Technology** students have the unique opportunity to work with both small and large animals at UNH and have access to professional facilities both on and off campus. On-campus facilities

include the Thompson School PAWS Veterinary Clinic, [Thomas P. Fairchild Dairy Teaching and Research Center](#), UNH's [Organic Dairy Research Farm](#), and UNH's equine facilities. The program also partners with the [New Hampshire SPCA](#) (Stratham, N.H.), [Cocheco Valley Humane Society](#) (Dover, N.H.), and [Pope Memorial SPCA](#) (Concord, NH). The program is accredited by the [American Veterinary Medical Association](#) (AVMA). Students who graduate from an accredited program are eligible to take the Veterinary Technician National Exam (VTNE) to become a credentialed veterinary technician.

## Associate in Applied Science

To graduate with an associate in applied science degree, a student must complete 20 credits of Discovery Program coursework with an overall grade-point average of no less than 2.0. In addition, students must earn a minimum of 64 credits (more than 64 credits may be required depending on the program of study).

## Admissions

The Thompson School welcomes applications from both recent high school graduates and non-traditional (adult) students.

For most programs, candidates must, at a minimum, present a solid college preparatory program including at least four years of English, three years of mathematics (one of which must be Algebra I, Geometry, and/or Algebra II), two years of science (biology with a lab, being one of them), and three years of social science. The majority of students are admitted with three years of both college-prep mathematics and science. Some programs have more specific requirements, which are included in the appropriate sections of this catalog.

Transfer students are welcome at the Thompson School. Upon admission to UNH, the Office of Admissions will complete an official credit evaluation and inform the student of the total credits transferred and any general education requirements that have been fulfilled. Please note that it is up to each Thompson School academic program to determine which courses from other institutions will be accepted towards fulfilling major requirements. Transfer students often fulfill program or general education requirements by transferring in credits of unequal value (i.e. transfer in a 3-credit class from elsewhere to meet the requirements of a 4-credit UNH class). Students who do this must pay special attention to ensure they accrue at least the minimum 64 credits overall, meet general education requirements (20 credits), and meet technical concentration, grade point average, and elective requirements for their program.

## How to Apply

Most first-year and transfer applicants to UNH's Thompson School of Applied Science must submit the Common Application to be considered for admission. Veterans, non-traditional students, and N.H. community college transfer students have a slightly different application process.

Although UNH will accept the paper-version of the application, students are strongly encouraged to submit the application electronically through the Common Application website, [www.commonapp.org](http://www.commonapp.org), as this expedites the process (99 percent of students submit their applications electronically). These same options are available to students applying from countries other than the United States.

The electronic version of the Common Application may be submitted from August, once the Common Application opens, through April 1.

The Early Action due date is November 15. Notice of admission to the Thompson School will normally be sent within 30 days following receipt of all required information. Housing may not be guaranteed if application is received after February 1. When applying from April 2 through July 15, the PDF (paper) application must be submitted.

Please note that priority due dates for students requesting UNH residential housing are February 1 for the fall semester and November 1 for the spring semester. Housing assignments are handled on a space-available basis. The UNH Financial Aid due date is March 1 for the following academic year.

## Campus Visits

Prospective students are encouraged to attend an open house, and/or take a tour of the Thompson School and the rest of the UNH campus. An open house/prospective student day is held in the fall, and campus tours can be arranged through the Office of Admissions.

## Expenses, Financial Aid, and Scholarships

Costs for students include tuition, fees, room and board, books and supplies, and personal and travel expenses. These costs are the same for any student enrolled at the University of New Hampshire (see Fees and Expenses), and students majoring at the Thompson School have access to the same student services. (See also Campus Life, Programs and Services for Students, and Health Services.)

Information about scholarships, loans, and work-study is located at <http://financialaid.unh.edu/> or by calling (603) 862-3600. A Free Application for Federal Student Aid (FAFSA) must be processed by the Financial Aid Office by March 1 of each year for a student to be considered for several scholarships for the following academic year. (See also Financial Aid.)

### New England Regional Student Program

The Thompson School at UNH participates in the New England Regional Student Program of the New England Board of Higher Education, through which each state university system in New England offers a number of regional curricula to students from other New England states. Under this program, students pay in-state tuition plus 75 percent. See the following table for Thompson School programs that are eligible in 2017-2018. Eligibility under this program may vary from year to year, so it is suggested that you obtain further information by contacting:

The New England Board of Higher Education  
45 Temple Place  
Boston, MA 02111  
(617) 357-9620

You may also contact the [UNH Office of Admissions](#) for more information.

Associate Degree Program	Available to Residents of
Applied Animal Science	MA, ME, RI, VT
Forest Technology	CT, MA, RI, VT
Veterinary Technology	RI

## Transfer Opportunities

Students completing an associate degree program often apply for transfer into a baccalaureate program. Two plus two articulations are in place for the associate degree programs offered. Forest Technology

articulates with the Forestry B.S., and Applied Animal Science and Veterinary Technology articulate with the B.S. in Animal Science.

Thompson School students can also transfer into many other baccalaureate majors. A final cumulative grade-point average of at least 2.5 is required for transfer to most programs; some UNH baccalaureate programs require a higher cumulative grade-point average. Other colleges and universities, especially those within the University System of New Hampshire, also welcome graduates from the Thompson School.

<https://colsa.unh.edu/thompson-school-applied-science>

## Programs of Study

- [Applied Animal Science \(AAS\)](#) (p. 654)
- [Forest Technology \(FORT\)](#) (p. 656)
- [Veterinary Technology \(VTEC\)](#) (p. 657)

## Applied Animal Science (AAS)

Applied Animal Science (AAS) provides students with hands-on practical skills combined with knowledge and understanding of the latest technology. The core program offers a solid background in anatomy, physiology, nutrition, health, and animal breeding. The curriculum is focused on animal agriculture and emphasizes decision-making, technologies, and processes that address the realities of modern agriculture.

Practical learning experience is provided at the [Thomas P. Fairchild Dairy Teaching and Research Center](#) and the [UNH Organic Dairy Farm](#).

The Thompson School also operates its own veterinary clinic and biology laboratories. The curriculum has a number of animal-related educational partnerships that include field trips to numerous animal-related businesses.

- [Applied Animal Science \(A.A.S.\)](#) (p. 654)

### Faculty

<https://colsa.unh.edu/thompson-school-applied-science/people>

## Applied Animal Science (A.A.S.)

<https://colsa.unh.edu/tsas/aas/animal-agriculture>

### Description

The demand for and production of meat, milk and fiber from animals is expected to continue to grow for decades to come. Students interested in working in the highly technical, rapidly changing field of farm animal production and management, must become well versed in the many species of farm animals, including breeding, feeding, health care, housing and marketing. In the animal agriculture concentration, students apply many of the skills learned in the classroom on farms in the first few semesters of the program. Students learn to work safely with farm livestock and/or poultry. They visit farms and engage in hands-on activities with their instructors. Students will learn to balance rations, identify and treat diseases. They will design appropriate buildings, fences, and learn how to properly care for the land and environment necessary to support farm animals. Students visit and interact with nearby farms with sheep, goats, swine as well as dairy and beef cattle.

Students are encouraged to embrace opportunities to work and study at the University's farms. UNH maintains two modern and well-equipped dairy teaching and research centers, and as an option students interested in dairy cattle can also collaborate to manage the [CREAM \(Cooperative for Real Education in Agriculture\)](#) herd. All students will also study at the

[UNH Organic Dairy Research Farm](#). Students will have the chance to also work with horses, sheep, and poultry on campus.

Students learn the business of farming through field exercises in land management, forage production, financial management, and computer use on a farm as well as through continued practical experience with farm livestock, poultry and dairy cattle. The program prepares students to work both on the farm and in related businesses.

The Thompson School's Animal Agriculture program is in a unique position with the baccalaureate animal science major. Students may start with the Thompson School program, obtain their associate in applied science (A.A.S.) degree then transfer to a four-year major. There they would obtain a B.S. with two additional academic years of full-time study. This allows students to receive two degrees in as little as four years or obtain their A.A.S. degree and work in the field to later return for a B.S. Students wishing to follow this course of action need to work closely with their adviser and maintain a grade of C or better in key applied animal science courses.

## Career Opportunities

Herd or flock manager, agricultural sales and/or service employee, farm manager, artificial insemination (AI) technician, crop manager, farm owner, or animal care or training professional.

## Admissions Requirements

Applicants to the applied animal science program area must present four years of college preparatory English and at least two years, preferably three years of satisfactory work in college preparatory science (one of the sciences being biology, with a lab). One year of laboratory college preparatory chemistry is highly recommended. Also required are three years of Social Science, and three years of college preparatory Mathematics, and SAT/ACT.

### Requirements

## Degree Requirements

**Minimum Credit Requirement:** 64 credits

**Minimum Residency Requirement:** 16 credits must be taken at UNH

**Minimum GPA:** 2.0 required for conferral\*

**Core Curriculum Required:** Discovery Program

Major, Option, and Elective Requirements as indicated.

\*Major GPA requirements as indicated.

## Applied Animal Science Major Requirements

Applied Animal Science (AAS) students must maintain a minimum 2.0 cumulative grade-point average. Students with averages lower than 2.0 must repeat classes with lower grades and raise their average to the required 2.0 before taking additional classes. Students must have a minimum cumulative 2.0 grade-point average in AAS classes to qualify for graduation from the program.

All Applied Animal Science students are required to take:

Code	Title	Credits
AAS 423	Dairy Selection	2
AAS 428	Anatomy and Physiology of Domestic Animals	4
AAS 432	Introduction to Forage and Grassland Management	3
AAS 434	Equipment and Facilities Management	3
AAS 597	Applied Animal Science Work Experience	0
ANSC 406	Careers in Animal Science	1
ANSC 421	Introduction to Animal Science	4
ANSC 543	Technical Writing in Animal Sciences	2
ANSC 546	Animal Business Applications	4
ANSC 548	Agricultural Business Management	4
ANSC 698	Cooperative for Real Education in Agricultural Management (CREAM) <sup>1</sup>	4
or ANSC 603	Introduction to Livestock Management	
or ANSC 605	Poultry Production and Health Management	
or ANSC 427	Introduction to Equine Science	
ENGL 401	First-Year Writing	4
PAUL 450	Personal Finance (or other Quantitative Reasoning Discovery)	4
VTEC 435	Animal Health and Laboratory Diagnostics	4
Discovery Social Science		4
Discovery Course		4
Electives <sup>2</sup>		13
<b>Total Credits</b>		<b>64</b>

20 credits of Discovery courses are required, including Writing Skills (ENGL 401 First-Year Writing), Biological Science (VTEC 435 Animal Health and Laboratory Diagnostics), Quantitative Reasoning (PAUL 450 Personal Finance or other), Social Science, and Discovery elective.

<sup>1</sup> Students that wish to take ANSC 698 Cooperative for Real Education in Agricultural Management (CREAM) must take AAS 425 Introduction to Dairy Herd Management in their first semester. CREAM is a two semester course (fall/spring).

<sup>2</sup> Students without large animal experience are encouraged to enroll in AAS 421 Large Animal Behavior and Handling Techniques, as an elective.

AAS 597	Applied Animal Science Work Experience	0
ANSC 427 or ANSC 605 or ANSC 698	Introduction to Equine Science or Poultry Production and Health Management or Cooperative for Real Education in Agricultural Management (CREAM)	4
ANSC 546	Animal Business Applications	4
Discovery Course: Quantitative Reasoning, PAUL 450 or other		4
Elective		2
<b>Credits</b>		<b>17</b>
<b>Spring</b>		
ANSC 406	Careers in Animal Science	1
ANSC 543	Technical Writing in Animal Sciences	2
ANSC 548	Agricultural Business Management	4
ANSC 698 or ANSC 603	Cooperative for Real Education in Agricultural Management (CREAM) or Introduction to Livestock Management	4
Elective or Discovery if AAS 425 was taken Freshman year <sup>1</sup>		3
<b>Credits</b>		<b>14</b>
<b>Total Credits</b>		<b>64</b>

<sup>1</sup> CREAM must be taken both fall and spring semesters

<sup>2</sup> 20 credits of Discovery required; including ENGL 401 First-Year Writing, VTEC 435 Animal Health and Laboratory Diagnostics, a Quantitative Reasoning course, a Social Sciences course, and 1 other Discovery course

## Student Learning Outcomes

- Students will be able to describe the significance and unique characteristics of animal agriculture in New England, including species and breeds most appropriate for various agricultural enterprises.
- Students will demonstrate they can handle and restrain a variety of domestic animals for routine care, health management practices and training purposes.
- Students will be able to identify and describe the significant anatomical parts of and differences between horses, cattle, small ruminants and poultry.
- Students will understand the basis of disease, major pathogens causing disease, the techniques used in identifying parasites and pathogens, as well as keeping animals healthy through biosecurity measures.
- Students will gain an applied understanding of animal nutrition, animal selection and breeding and animal health practices through experiential coursework with dairy cattle, livestock and/or poultry.
- Students will be able to articulate the career opportunities available in the field of Animal Science.
- Students will be able to identify appropriate land, farm management strategies and forage crops in New England for farm animal feeding in the form of hay, silage and pasture.
- Students will demonstrate written and oral communication skills necessary for marketing animal products and services, information transfer, and animal related business development and promotion.

## Degree Plan

### Applied Animal Science Program of Study

Course	Title	Credits
<b>First Year</b>		
<b>Fall</b>		
AAS 428	Anatomy and Physiology of Domestic Animals	4

<b>Spring</b>		
AAS 423	Dairy Selection	2
AAS 434	Equipment and Facilities Management	3
VTEC 435	Animal Health and Laboratory Diagnostics	4
Discovery Course - Social Science		4
Discovery <sup>2</sup>		4
<b>Credits</b>		<b>17</b>
<b>Second Year</b>		
<b>Fall</b>		
AAS 432	Introduction to Forage and Grassland Management	3

- Finally, students will demonstrate through the development of an animal related business plan that they understand the importance of market analysis, product promotion, sales techniques, labor management, financial statements, insurance and labor management.

## Forest Technology (FORT)

Students in the forest technology (FORT) program are uniquely prepared for careers in forestry, forest industries and natural resource management in New Hampshire and New England. Classroom lecture is supported by practical field work in each of the subject areas. The educational program in Forest Technology leading to the Associate in Applied Science degree is accredited by the Society of American Foresters (SAF) (the first two-year program in the U.S. to complete the accreditation application process) and reviewed by an advisory committee representing the full spectrum of forestry organizations in the region. There is a strong emphasis on leadership, safety, communication skills, accuracy of field work, data collection, and professional presentation. Unique facilities for teaching and learning include centrally located classroom and shop facilities; 3,000+ acres of University-owned forest land; a new sawmill and Forest Industries Training Center (FITC); logging equipment; technologically advanced navigation, data collection, and analysis equipment; and a faculty with vast field experience in the subject areas and who are dedicated to teaching.

## Forest Technology (A.A.S.)

<https://colsa.unh.edu/thompson-school-applied-science/program/aas/forest-technology>

### Description

Forestry is an exciting and rewarding career field, in which practitioners work to solve today's pressing natural resource and environmental challenges. Graduates of the Forest Technology program can become career-ready in two years and learn fundamental forestry skills, techniques, and science. Students are introduced to forest ecology, silviculture, wildlife ecology, forest mapping techniques, wood science, and timber harvesting practices. They learn how to inventory natural resources; design, plan, and supervise forest harvesting operations; harvest timber and mill lumber; map and survey forestland; develop a forest management plan; and identify and mitigate forest health issues – all while applying principles of conservation and sustainability. Students interact with a wide variety of professionals as part of their coursework and often go on to work in wood products-related industries, public forestland management agencies, private forestry consulting firms, urban tree care companies, and a range of conservation organizations. After obtaining an associate degree in forest technology, qualified students may then transfer to the university's accredited four-year

forestry program and obtain a bachelor's degree in two additional years with a full-time course of study or move right into an exciting career.

## Career Opportunities

Forestry consultant, forest fire control and use technician, mapping technician, geographic information systems/global positioning systems (GIS/GPS) technician, timber and log buyer, log scaler, lumber grader, sawmill technician, arborist, urban tree care specialist, timber cruiser/forest inventory technician, or forestry equipment/products sales representative.

### Requirements

## Degree Requirements

**Minimum Credit Requirement:** 64 credits

**Minimum Residency Requirement:** 16 credits must be taken at UNH

**Minimum GPA:** 2.0 required for conferral\*

**Core Curriculum Required:** Discovery Program

Major, Option, and Elective Requirements as indicated.

\*Major GPA requirements as indicated.

## Forest Technology Requirements

Candidates for a degree must take 20 credits of Discovery courses in addition to satisfying the requirements of the Forest Technology program. Forest Technology students are required to take:

Code	Title	Credits
BIOL 528	Applied Biostatistics I	4
or MATH 420	Finite Mathematics	
ENGL 401	First-Year Writing	4
FORT 470	Applied Silviculture	4
KIN 501	First Aid: Responding to Emergencies	1
FORT/NR 527	Forest Ecology	4
FORT 564	Arboriculture	3
FORT 572	Mensuration	4
FORT 573	Management Operation & Analysis	4
FORT 576	Forest Products and Wood Science	4
FORT 577	Forest Harvesting Systems	4
FORT 578	Ecology and Management of Forest Stressors	4
FORT 579	Wildland Fire Ecology and Management	4
FORT 581	Applied Geospatial Techniques	4
FORT 597	Work Experience	0
NR 415	Natural Resources Field Methods	2
NR 425	Field Dendrology	4
NR 433	Wildlife Ecology	4
Social Science Discovery or Humanities Discovery		4
Discovery Course		4
<b>Total Credits</b>		<b>66</b>

### Degree Plan

<b>Credits</b>		<b>19</b>
<b>Total Credits</b>		<b>66</b>

## Student Learning Outcomes

- Identify the flora and fauna of regional forests and understand their role in ecological communities.
- Apply the concepts of forest and wildlife ecology to sustainable natural resource management for the benefit of society.
- Measure, collect, and analyze field data using appropriate technologies to make sound forest management decisions.
- Understand harvesting and processing of forest products.
- Navigate in forested settings, and locate and map property boundaries and natural resource features.
- Identify land cover types and incorporate spatial data to facilitate forest management.
- Identify and evaluate appropriate management strategies in the context of forest insects and pathogens.
- Lead field crews to safely and productively accomplish forest management goals.
- Communicate effectively and professionally in written and oral formats with clients, related agencies, and the general public.

## Veterinary Technology (VTEC)

### Overview

The program provides veterinary technology students with a broad understanding of veterinary medicine and the role of animals in society. Students are instructed in the methods and knowledge of veterinary technology such that they become veterinary technicians who are strong advocates for animals, capable of compassionate and accurate animal care; professional in their actions and judgments; and have a desire for lifelong learning and self-improvement.

The primary goal of the veterinary technology program is to provide students with exceptional technical and clinical reasoning skills and knowledge in veterinary technology such that graduates will be prepared to pass the Veterinary Technician National Exam (VTNE) and to be immediate and valuable members of a veterinary medical team. Additionally, the program aims to develop a firm foundation in both farm animal and companion animal veterinary practices. Courses in the program cover basic sciences, veterinary nursing, and veterinary practice management, with a strong focus on hands-on practical knowledge throughout the curriculum. Students gain basic knowledge and skills for the major domestic animal species (dog, cat, horse, and cow). Integration of knowledge in communication, veterinary ethical and legal issues, clinical reasoning skills, and hands-on technical skills allow students to become complete veterinary technicians, capable of providing high-quality, compassionate, and expert care to animals both small and large.

Practical learning experience is provided at the PAWS Veterinary Teaching Clinic, the [UNH Equine Facilities](#), the [Thomas P. Fairchild Dairy Teaching and Research Center](#) and the [UNH Organic Dairy Research Farm](#). The program has a number of animal-related educational partnerships, including those with the [New Hampshire SPCA](#) in Stratham, N.H., and the [Pope Memorial Humane Society of Cochecho Valley](#) in Dover, N.H.

The program is accredited by the [AVMA](#). Students who graduate from an accredited program are eligible to take the [Veterinary Technician National Exam \(VTNE\)](#) and pursue credentialing.

### Admissions Requirements

Applicants to veterinary technology must present four years of college preparatory English, and a minimum of three years of social sciences, college preparatory mathematics, and college preparatory sciences. Two of the three sciences should be college preparatory biology and chemistry with labs. It is recommended that applicants have some experience with animals in a professional setting, and applicants should include a statement in the student application describing their experience. Successful applicants have an overall minimum GPA of 3.0 on a 4.0 scale.

The program is accredited by the [AVMA](#). Students who graduate from an accredited program are eligible to take the [Veterinary Technician National Exam \(VTNE\)](#) and pursue credentialing.

## Requirements

### Degree Requirements

**Minimum Credit Requirement:** 64 credits

**Minimum Residency Requirement:** 16 credits must be taken at UNH

**Minimum GPA:** 2.0 required for conferral\*

**Core Curriculum Required:** Discovery Program

Major, Option, and Elective Requirements as indicated.

\*Major GPA requirements as indicated.

### Veterinary Technology Requirements

Students must demonstrate all of the following for retention in and completion of the veterinary technology program:

1. Courses must be completed in proper sequence, according to pre-requisites listed in the course catalog.
2. To progress in the program, students must:
  - a. Earn a minimum of 70% on their exam average in each VTEC course.
  - b. Earn a minimum of 80% on their skills grades in VTEC 579 and VTEC 580.
  - c. Receive a minimum grade of C+ (2.33 grade point) or better in all required AAS and VTEC courses.
3. Students who fail to meet retention requirements after 3 semesters will not be allowed to progress further in the program until retention requirements have been met.
  - a. Students are allowed to repeat any major course once. If the student does not meet the grade standard on the retake, they must repeat the class again before taking other major courses.
  - b. Students are allowed to repeat no more than two major courses.
  - c. Students who fail to meet program grade standards in a third course will not be allowed to proceed in the program.
4. Students must maintain a 2.5 GPA in major courses to take additional courses in major.
5. Students must have a minimum cumulative 2.5 GPA in major to qualify for graduation from the program.
6. Students must successfully complete all required skills listed in the Veterinary Technology Essential and Recommended Skills List developed by the AVMA (the accrediting body for this program).
7. All coursework in the veterinary technology curriculum should be completed within five years of initial program enrollment. If this cannot be accomplished, the student may be required to reapply to the program for a new admission status and all veterinary technology specific courses may have to be repeated.

Students must show proof of pre-exposure rabies immunization or adequate rabies titer prior to enrollment in practicum and internship coursework. Transportation is provided to students for practicum coursework. Students are responsible for providing their own transportation during internship experiences.

Code	Title	Credits
<b>Required Courses</b>		
AAS 421	Large Animal Behavior and Handling Techniques	2
AAS 428	Anatomy and Physiology of Domestic Animals	4
CHEM 411	Introductory Chemistry for Life Sciences	4
VTEC 424	Introduction to Veterinary Technology	2
VTEC 430	Companion Animal Behavior and Handling Techniques	4
VTEC 435	Animal Health and Laboratory Diagnostics	4
VTEC 449	Clinical Animal Nursing Techniques I	4
VTEC 497	Veterinary Technology Work Experience	0
VTEC 550	Clinical Animal Nursing Techniques II	4
VTEC 565	Pharmacology for Veterinary Technicians	4
VTEC 575	Veterinary Anesthesia and Surgical Assisting	4
VTEC 579	Small Animal Practicum I	4
VTEC 580	Small Animal Practicum II	4
VTEC 583	Large Animal Practicum	2
VTEC 595	Veterinary Technology Internship	3
VTEC 599	Comprehensive VTNE Review	4
<b>Total Credits</b>		<b>53</b>

### Discovery Program Requirements

Students must complete 20 credits within the Discovery program; with at least one course in the following categories: Writing Skills, Quantitative Reasoning, Biological Science, Physical Science, and Social Science.

Code	Title	Credits
<b>Writing Skills - Required Course</b>		
ENGL 401	First-Year Writing	4
<b>Biological Science - Required Course</b>		
VTEC 435	Animal Health and Laboratory Diagnostics	4
<b>Physical Science - Required Course</b>		
CHEM 411	Introductory Chemistry for Life Sciences	4
<b>Quantitative Reasoning Recommendations</b>		
BIOL 528	Applied Biostatistics I (Recommended for students pursuing ANSC 2+2 articulation)	
MATH 420	Finite Mathematics	
MATH 439	Statistical Discovery for Everyone	
PAUL 450	Personal Finance	
PSYC 402	Statistics in Psychology	
SOC 402	Statistics	
<b>Social Science Category Recommendations</b>		
NURS 535	Death and Dying	
OT 520	Happy and Healthy at Work: Promoting Wellness, Diversity and Inclusion	
PSYC 401	Introduction to Psychology	
SOC 400	Introductory Sociology	
SOC 450	Contemporary Social Problems	
SW 444	You've Got Your Troubles, I've Got Mine	
SW 550	Human Behavior and Social Environment I	
SW 551	Human Behavior and Social Environment II	

VTEC 595	Veterinary Technology Internship	3
VTEC 599	Comprehensive VTNE Review	4
<b>Social Science</b>		<b>4</b>
<b>Credits</b>		<b>17</b>
<b>Total Credits</b>		<b>65</b>

## Student Learning Outcomes

The primary goal of the veterinary technology program is to provide students with exceptional technical and clinical reasoning skills and knowledge in veterinary technology such that graduates will be prepared to pass the Veterinary Technician National Exam (VTNE) and to be immediate and valuable members of a veterinary medical team. Additionally, the program aims to develop a firm foundation in both farm animal and companion animal veterinary practices. Courses in the program cover basic sciences, veterinary nursing, and veterinary practice management, with a strong focus on hands-on practical knowledge throughout the curriculum. Students gain basic knowledge and skills for the major domestic animal species (dog, cat, horse, and cow). Integration of knowledge in communication, veterinary ethical and legal issues, veterinary practice management, clinical reasoning skills, and hands-on technical skills allow students to become complete veterinary technicians, capable of providing high-quality, compassionate, and expert care to animals both small and large.

Specific skills and decision making abilities are outlined by the [American Veterinary Medical Association \(AVMA\)](#) accrediting body.

## Continuing Education, Summer Session, and January Term

Continuing education provides public access to higher education for individuals not formally admitted to a UNH degree program. Taking courses as a non-degree student is an excellent way to prepare for matriculation into a degree program, help advance or change careers, or study a topic of interest.

## Non-Degree Student Status Undergraduate

Undergraduate courses (numbered 300-799) are open to individuals with a high school diploma, GED, or home-schooled secondary education equivalency. Individuals may register for a maximum of 11 credits per semester.

## Graduate

Graduate courses (numbered 800-999) are open to individuals with a baccalaureate degree from an accredited college or university. Individuals may register for a maximum of 8 credits per semester.

## Full-Time Special Student Status Undergraduate

Non-degree students who wish to register for 12 or more credits in a single semester must receive formal permission from UNH Undergraduate Admissions. Special tuition and fee rules apply. Please contact UNH Undergraduate Admissions at 603-862-1360 for more information on how to apply.

## Degree Plan

### Veterinary Technology Program of Study

Course	Title	Credits
<b>First Year</b>		
<b>Fall</b>		
AAS 428	Anatomy and Physiology of Domestic Animals	4
CHEM 411	Introductory Chemistry for Life Sciences	4

VTEC 430	Companion Animal Behavior and Handling Techniques	4
<b>Credits</b>		<b>18</b>
<b>Spring</b>		
VTEC 435	Animal Health and Laboratory Diagnostics	4
VTEC 449	Clinical Animal Nursing Techniques I	4
VTEC 565	Pharmacology for Veterinary Technicians	4
<b>Quantitative Reasoning</b>		<b>4</b>
<b>Credits</b>		<b>16</b>
<b>Second Year</b>		
<b>Fall</b>		
AAS 421	Large Animal Behavior and Handling Techniques	2
VTEC 497	Veterinary Technology Work Experience	0
VTEC 550	Clinical Animal Nursing Techniques II	4
VTEC 575	Veterinary Anesthesia and Surgical Assisting	4
VTEC 579	Small Animal Practicum I	4
<b>Credits</b>		<b>14</b>
<b>Spring</b>		
VTEC 580	Small Animal Practicum II	4
VTEC 583	Large Animal Practicum	2

## Graduate

Non-degree students who wish to register for 9 or more credits in a single semester must receive permission from The Graduate School. Students approved for this special status must pay full-time graduate tuition and fees at the time of registration. Please contact The Graduate School at 603-862-3000 for more information on how to apply.

## NH Senior Citizen Tuition Waiver

New Hampshire residents who are age 65 or older and are not enrolled in a degree program are eligible to take a maximum of two credit-bearing courses (some exceptions apply) per fiscal year (Summer Session/Fall/January Term/Spring) tuition-free. Please visit <https://www.unh.edu/continuingeducation/undergraduate-coursework> for more information, under Registration.

## Pre-Admission Program

The Pre-Admission Program allows students an opportunity to strengthen their academic credentials in preparation for admission to a baccalaureate program by completing coursework that satisfies both general education and introductory-level major requirements. Students complete two semesters in the program, register for up to 12 credits per semester, and then transfer to a baccalaureate program upon successful completion of the outlined criteria. For more information please visit <https://admissions.unh.edu/apply/veterans-non-traditional-students#preadmission>.

## CATS Program

The CATS (Challenging Academically Talented Students) Program is open to highly motivated and academically strong high school juniors and seniors who want to enrich their academic experience with a college-level course. Students may choose from freshman-level courses (400-500 numbered courses). For an application and more information, please visit <https://admissions.unh.edu/apply/cats-challenging-academically-talented-students-program>.

## Prerequisites

Individuals are responsible for meeting all course prerequisites before registering for classes. Prerequisite information is included in undergraduate and graduate course descriptions.

Graduate coursework is advanced study and presumes completion of adequate preparation at the undergraduate level in the same or allied field in which the student wishes to pursue graduate coursework.

## Academic Standards and Expectations

A cumulative grade-point average of 2.00 (C grade) is the minimum acceptable level for undergraduate work and 2.67 (B- grade) is the minimum acceptable level for graduate work at the University. The records of non-degree students are examined periodically and academically deficient students may be warned or excluded from registering. All non-degree students are expected to become familiar with and adhere to the current UNH [Student Rights, Rules, and Responsibilities](#).

## Professional Development and Training

Professional Development & Training is a unit of UNH's Office of Outreach and Engagement and serves individuals, businesses, and organizations by offering a wide range of non-credit professional development opportunities throughout the year. Programs are designed to assist

professionals in developing new or advanced knowledge and skills in a variety of fields. For more information, visit <https://training.unh.edu/>.

## Summer Session

Summer Session provides a wide range of credit courses, institutes, and programs in a variety of term lengths from May to August. From youth-enrichment programs to advanced-level institutes, Summer Session provides educational opportunities for learners of all ages. On-campus housing is available for students enrolled in summer credit courses. Summer credit courses are held to the same academic standards as regular term courses but are typically offered at an accelerated pace. For more information, please visit [www.unh.edu/summersession](http://www.unh.edu/summersession).

## January Term

January Term is a three-week learning opportunity held during winter break. Online, on-campus, and study-away credit courses are available in a variety of academic disciplines at both the undergraduate and graduate levels. Because of the intensive course of study, students may register for only one course during January Term. For more information, visit <https://unh.edu/januaryterm/>.

<https://www.unh.edu/continuingeducation/university-coursework>

## Accounting (ACC)

### Accounting (ACC)

# Course numbers with the # symbol included (e.g. #400) have not been taught in the last 3 years.

#### ACC 501 - Survey of Accounting

**Credits:** 4

Survey of basic accounting concepts, including exposure to financial statements, accounting processes, decision making, and budgeting. This course is designed for students pursuing a Business Administration minor, a minor in Accounting and Financial Information or exploring basic accounting. Not for Paul College Business Administration students.

**Equivalent(s):** ACFI 501, ADMN 502

**Grade Mode:** Letter Grading

#### ACC 520 - Topics in Accounting

**Credits:** 4

Special Topics in Accounting, vary by semester.

**Prerequisite(s):** ACC 501 with a minimum grade of C-.

**Repeat Rule:** May be repeated for a maximum of 16 credits. May be repeated up to 3 times.

**Grade Mode:** Letter Grading

#### ACC 620 - Topics in Accounting

**Credits:** 4

Special Topics in Accounting, topics vary by semester.

**Repeat Rule:** May be repeated for a maximum of 12 credits.

**Grade Mode:** Letter Grading

#### ACC 621 - Intermediate Financial Accounting I

**Credits:** 4

Examination of the nature and applicability of accounting theory and the conceptual framework of accounting. Development of the capacity to address and resolve issues and problems in financial reporting. Topics include financial statements, revenue recognition, and accounting for assets.

**Prerequisite(s):** ADMN 502 with a minimum grade of C- or ACC 520 with a minimum grade of C-.

**Equivalent(s):** ACC 721, ACFI 621

**Grade Mode:** Letter Grading

#### ACC 622 - Intermediate Financial Accounting II

**Credits:** 4

Selected topics within financial reporting such as accounting for leases, pensions, stock options, and deferred taxes. Focus on how and why these issues are accounted for in the manner prescribed by current GAAP.

**Prerequisite(s):** ACC 621 with a minimum grade of C- or ACFI 621 with a minimum grade of C- or ACC 721 with a minimum grade of C-.

**Equivalent(s):** ACC 722, ACFI 622

**Grade Mode:** Letter Grading

#### ACC 623 - Advanced Managerial Accounting

**Credits:** 4

Builds on the basic managerial accounting course by continuing the theme of accounting as a management tool. Emphasis is on cost accounting as a source of data for measuring and improving the economic condition of the enterprise. Newly evolving management themes are integrated into the traditional topics of planning and control, cost analysis, overhead allocation, transfer pricing, and decision modeling.

**Prerequisite(s):** ADMN 503 with a minimum grade of C- or ACC 520 with a minimum grade of C-.

**Equivalent(s):** ACC 723, ACFI 723

**Grade Mode:** Letter Grading

#### ACC 626 - Introduction to Federal Taxation

**Credits:** 4

Federal Income tax concepts and law applicable to individuals. Coverage includes taxable income and deductions, passive activities, alternative minimum tax, property transactions, and compensation.

**Prerequisite(s):** ADMN 502 with a minimum grade of C- or ACC 520 with a minimum grade of C-.

**Equivalent(s):** ACC 726, ACFI 726

**Grade Mode:** Letter Grading

#### ACC 627 - Financial Statement Analysis

**Credits:** 4

Methods and tools of analysis and interpretation of financial statement data. Use of financial information in a variety of decision making situations including a prediction of corporate earnings, debt ratings, and financial distress; lending decisions; risk analysis; and equity valuations.

**Prerequisite(s):** ACC 621 (may be taken concurrently) with a minimum grade of C- or ACC 721 (may be taken concurrently) with a minimum grade of C- or ACFI 721 (may be taken concurrently) with a minimum grade of C-.

**Equivalent(s):** ACC 727, ACFI 725

**Grade Mode:** Letter Grading

#### ACC 720 - Topics in Accounting

**Credits:** 4

Special Topics in Accounting, vary by semester.

**Repeat Rule:** May be repeated for a maximum of 16 credits.

**Grade Mode:** Letter Grading

#### ACC 724 - Auditing

**Credits:** 4

Philosophy and environment of auditing, with attention to an understanding of the major auditing concepts and objectives and its judgement process. Emphasis on the nature and economic purpose of audits, standards, professional ethics, auditors' legal liability, internal control, and audit evidence. Includes audit procedures, reports, and computer software.

**Attributes:** Writing Intensive Course

**Prerequisite(s):** ACFI 621 (may be taken concurrently) with a minimum grade of C- or ACC 721 (may be taken concurrently) with a minimum grade of C-.

**Equivalent(s):** ACFI 724

**Grade Mode:** Letter Grading

**ACC 725 - Independent Studies in Accounting****Credits:** 1-4

Student-designed individual research projects, approved by a faculty sponsor. Paper required. Course credits vary according to the nature of the project, to be determined by the faculty sponsor. Seniors in high standing; by permission.

**Repeat Rule:** May be repeated for a maximum of 12 credits.**Grade Mode:** Letter Grading**ACC 747 - Business Law****Credits:** 4

Law of contracts, agency, sales, negotiable instruments, real and personal property, partnership and corporations, with application of the Uniform Commercial Code.

**Prerequisite(s):** ECON 401 with a minimum grade of C- and ECON 402 with a minimum grade of C- and ADMN 510 with a minimum grade of C-.**Equivalent(s):** MGT 747**Grade Mode:** Letter Grading**ACC 795 - Internship in Accounting****Credits:** 1-8

Accounting fieldwork in a business or other type of organization. Supervision provided by the organization, and consultation provided by the faculty sponsor. Written report required. Course credits vary according to the nature of the fieldwork, to be determined by the faculty sponsor. Seniors in high standing; by permission.

**Repeat Rule:** May be repeated for a maximum of 12 credits.**Grade Mode:** Credit/Fail Grading**ACC 799 - Honors Thesis in Accounting****Credits:** 4-8

Supervised research leading to the completion of an honors thesis or project in accounting; required for graduation from the honors program in administration for students in the accounting option. Permission of director of undergraduate programs and Accounting and Finance department chair.

**Attributes:** Honors course**Grade Mode:** Letter Grading

## Accounting (ACCT) CPSO

# Course numbers with the # symbol included (e.g. #400) have not been taught in the last 3 years.

**ACCT 532 - Financial Accounting****Credits:** 4

This course provides a study and overview of accounting theory, practice, issues, and objectives. The course focuses on the proper interpretation of financial information to understand the financial condition of any type of organization. The course may cover the nature, function, and environment of accounting, the basic accounting statements, and key financial accounting ratios. Excel proficiency is expected prior to enrollment in this course. Students should consider completing CMPL 402 Excel if they have not completed an Excel course in transfer.

**Prerequisite(s):** MTH 402 with a minimum grade of D- or MATH 502G with a minimum grade of D-.**Equivalent(s):** ACCT 511G, MGMT 511G**Grade Mode:** Letter Grading**ACCT 533 - Managerial Accounting****Credits:** 4

This course builds upon fundamental knowledge developed in ACCT 532 Financial Accounting. Students apply the concepts and methods of managerial accounting. Students will learn the differences between variable, fixed and mixed costs. Fundamental ethical principles of accounting as applied in real-world situations will be examined. Topics may include the business environment, cost concepts and classifications, job-order costing, process costing, cost behavior, relationships to volume and profits, variable costing, activity based costing, profit planning, standard costs, relevant costs, applications of differential cost analysis, cash flows, and economic value added.

**Prerequisite(s):** (MGMT 410 with a minimum grade of D- or MGMT 500G with a minimum grade of D- or MGMT 566 with a minimum grade of D- or MGMT 566G with a minimum grade of D-) and (ACCT 532 with a minimum grade of D- or ACCT 511G with a minimum grade of D- or MGMT 511G with a minimum grade of D-).**Equivalent(s):** ACCT 515G, MGMT 510G**Grade Mode:** Letter Grading**ACCT 550 - Accounting Information Systems****Credits:** 4

Accountants use, evaluate, and control information systems as a core dimension of their work with financial data. Information systems shape the capture, processing, and communication of accounting data in organizations. This course provides a thorough introduction to the ways that accounting and information systems intersect. Students may explore both the conceptual and the practical aspects of accounting information systems, including effective communication of information systems needs, the design and development of such systems, and the evaluation of their effectiveness. The dimensions of security, controls, and auditing may be addressed.

**Prerequisite(s):** ACCT 532 with a minimum grade of D- or ACCT 511G with a minimum grade of D- or MGMT 511G with a minimum grade of D-.**Equivalent(s):** ACCT 550G**Grade Mode:** Letter Grading**ACCT 600 - Intermediate Accounting I****Credits:** 4

In this course, students expand their understanding of the accounting process and of reporting. Students will demonstrate how depreciation, impairments, and depletion are relevant to business operations and management decision making. The course builds the conceptual framework for generally accepted accounting principles, which may cover the accounting cycle, net income, financial statement preparation, measuring equity, current assets including cash, receivables, and inventories, as well as depreciation, impairments, and depletion.

**Prerequisite(s):** (ACCT 532 with a minimum grade of D- or ACCT 511G with a minimum grade of D- or MGMT 511G with a minimum grade of D-) and (ACCT 533 with a minimum grade of D- or ACCT 515G with a minimum grade of D- or MGMT 510G with a minimum grade of D-).**Equivalent(s):** ACCT 600G**Grade Mode:** Letter Grading

**ACCT 601 - Intermediate Accounting II****Credits:** 4

In the second half of the intermediate accounting sequence, students may develop a greater understanding of the principles that dictate accounting applications and will apply those principles in increasingly advanced scenarios. Students will apply accounting principles to the development of individual pensions, employee benefit plans, shareholders equity, and the disposition of operational assets. The course also places emphasis on developing advanced spreadsheet techniques and research capabilities.

**Prerequisite(s):** (ACCT 532 with a minimum grade of D- or ACCT 511G with a minimum grade of D- or MGMT 511G with a minimum grade of D-) and (ACCT 533 with a minimum grade of D- or ACCT 515G with a minimum grade of D- or MGMT 510G with a minimum grade of D-) and (ACCT 600 with a minimum grade of D- or ACCT 600G with a minimum grade of D-).

**Equivalent(s):** ACCT 601G**Grade Mode:** Letter Grading**ACCT 629 - Cost Accounting****Credits:** 4

This course covers cost and management accounting environments and various cost management systems which contribute to financial decisions. Students may apply general principles of activity-based cost systems, capital budgeting, and financial management to the financial objectives of an organization. The course helps students develop and use short and long-term organizational performance measures to determine organizational needs.

**Prerequisite(s):** (ACCT 532 with a minimum grade of D- or ACCT 511G with a minimum grade of D- or MGMT 511G with a minimum grade of D-) and (ACCT 533 with a minimum grade of D- or ACCT 515G with a minimum grade of D- or MGMT 510G with a minimum grade of D-) and (FNC 665 with a minimum grade of D- or MGMT 613G with a minimum grade of D-).

**Equivalent(s):** ACCT 610G**Grade Mode:** Letter Grading**ACCT 635 - Taxation****Credits:** 4

This is an introductory course in Federal income tax law relating to individuals and businesses, including proprietorship, partnership and corporation. Topics may include gross income, deductions, losses, tax credits, property transactions, deferred compensation, tax planning and preparation of tax returns.

**Prerequisite(s):** (ACCT 532 with a minimum grade of D- or ACCT 511G with a minimum grade of D- or MGMT 511G with a minimum grade of D-) and (ACCT 533 with a minimum grade of D- or ACCT 515G with a minimum grade of D- or MGMT 510G with a minimum grade of D-) and (ACCT 600 with a minimum grade of D- or ACCT 600G with a minimum grade of D-) and (ACCT 601 with a minimum grade of D- or ACCT 601G with a minimum grade of D-).

**Equivalent(s):** ACCT 612G**Grade Mode:** Letter Grading**ACCT 705 - Advanced Accounting****Credits:** 4

This course is designed to familiarize students with advanced accounting concepts such as foreign currency translations, accounting for consolidations, and partnerships. Students will practice accurately and appropriately journalizing transactions related to these and other advanced accounting scenarios, such as liquidation and reorganization according to GAAP standards. Upon completion of this course, students may articulate why businesses might use such strategies, as well as how to conduct accounting ethically in complex accounting situations.

**Prerequisite(s):** ACCT 601 with a minimum grade of D- or ACCT 601G with a minimum grade of D-.

**Equivalent(s):** ACCT 602G**Grade Mode:** Letter Grading**ACCT 710 - Governmental and Not-For-Profit Accounting****Credits:** 4

The purpose of this course is to familiarize students with the basic differences between accounting for profit-driven entities and accounting for governmental or not-for-profit organizations. The course will help students distinguish how fund accounting for governmental entities operates, including the general fund, capital projects fund, and special revenue fund. Students may learn to identify and implement best practices in accounting within governmental or not-for-profit organizations, in keeping with the regulatory and ethical context of such practices.

**Prerequisite(s):** ACCT 532 with a minimum grade of D- or ACCT 511G with a minimum grade of D- or MGMT 511G with a minimum grade of D-.

**Equivalent(s):** ACCT 603G**Grade Mode:** Letter Grading**ACCT 720 - Auditing****Credits:** 4

This course focuses on the principles and practice of investigating a business's financial statements and supporting financial documents. Students will interpret and explain the roles, responsibilities, procedures, ethical codes, and legal environment of the auditor in business operations according to Generally Accepted Auditing Standards (GAAS). Topics may include roles and responsibilities of the auditor, types of audits, auditing standards, internal control and professional ethics.

**Prerequisite(s):** (ACCT 532 with a minimum grade of D- or ACCT 511G with a minimum grade of D- or MGMT 511G with a minimum grade of D-) and (ACCT 533 with a minimum grade of D- or ACCT 515G with a minimum grade of D- or MGMT 510G with a minimum grade of D-) and (ACCT 600 with a minimum grade of D- or ACCT 600G with a minimum grade of D-) and (ACCT 601 with a minimum grade of D- or ACCT 601G with a minimum grade of D-).

**Equivalent(s):** ACCT 615G**Grade Mode:** Letter Grading

**ACCT 730 - Advanced Data Analytics for Accounting Professionals****Credits:** 4

In this course, students will learn the tools and skills necessary to successfully perform data analytics and provide data-driven insights and recommendations. Students will be exposed to both a Microsoft track (Excel, Power Pivot, and Power BI) and a Tableau track (Tableau Prep and Tableau Desktop). Using multiple tools allows students to learn which tool is best suited for the necessary data analysis, data visualization, and communication of the insights gained. Students should leave this course with the skills necessary to translate accounting and business problems into actionable proposals that they can competently present to internal and external stakeholders.

**Prerequisite(s):** ACCT 550 with a minimum grade of D- or ACCT 550G with a minimum grade of D-.

**Grade Mode:** Letter Grading

## Administration (ADMN)

# Course numbers with the # symbol included (e.g. #400) have not been taught in the last 3 years.

**ADMN 400 - Introduction to Business****Credits:** 0 or 4

This course will introduce students to business organizations, the business disciplines and critical issues in contemporary business. The priority will be in having students develop strong intellectual foundations in business, knowledge of core disciplines of business, and an awareness of businesses' role in the economy and in the larger society. The course will include once a week lectures and also small group discussion sessions. The lectures will be organized by the lead PAUL faculty person and include visits and discussions with executives from New Hampshire companies.

**Attributes:** Writing Intensive Course

**Grade Mode:** Letter Grading

**ADMN 403 - Computing Essentials for Business****Credits:** 0 or 1

Self-paced course covering the fundamental skills and proficiency of general business software applications. Topics will include word processing and spreadsheet applications.

**Grade Mode:** Credit/Fail Grading

**ADMN 410 - Management Information Systems****Credits:** 0 or 4

This course provides an introduction to computer literacy, basic computer hardware and software concepts, business applications of information technology and computer ethics. Hands-on exercises include spreadsheets, databases and web pages. Students registering for this course are expected to be able to bring a laptop computer to each class session running the Windows version of Microsoft Office Professional (including Microsoft Access).

**Prerequisite(s):** ADMN 403 (may be taken concurrently) with a minimum grade of D-.

**Grade Mode:** Letter Grading

**ADMN 444 - Business for People, Planet, and Profits****Credits:** 4

Many experts and practitioners have realized that the traditional approaches of government and the non-profit sector will not - alone - be enough to solve the myriad of social and environmental challenges facing the world. Rather than seeing big business as "part of the problem" many are considering how the immense power of the private sector can contribute to addressing social and environmental issues. This course will allow students to explore the growing phenomenon of "socially and environmentally conscious capitalism," a more considered type of capitalism with the potential to be a platform for social and environmental change.

**Attributes:** Social Science (Discovery); Inquiry (Discovery); Writing Intensive Course

**Grade Mode:** Letter Grading

**ADMN 502 - Financial Accounting****Credits:** 0 or 4

Fundamentals of financial accounting concepts and procedures for analyzing economic events and the preparation and use of financial statements.

**Equivalent(s):** ACC 501, ACFI 501

**Grade Mode:** Letter Grading

**ADMN 503 - Managerial Accounting****Credits:** 0 or 4

The use of information by managers to (1) determine the cost and profitability of the organization's products or services; (2) plan, control, and evaluate routine operations; and (3) make special non-routine decisions. The demand for managerial accounting information is derived from an integrated treatment of organizational objectives, an orientation to customers, and a focus on activities as the unit of analysis for measurement of cost, quality, and time.

**Prerequisite(s):** ADMN 502 with a minimum grade of C-.

**Grade Mode:** Letter Grading

**ADMN 510 - Business Statistics****Credits:** 4

Introductory coverage of statistical methods for managerial decision-making: probability, descriptive and inferential statistics, and regression. Quantitative techniques common to many introductory statistics courses are covered, but the emphasis is on understanding concepts such as uncertainty, inferences from sample data, and model formulation, and on utilizing these techniques as aids in decision-making.

**Attributes:** Quantitative Reasoning(Disc)

**Prerequisite(s):** ADMN 403 with a minimum grade of D- and (MATH 420 with a minimum grade of D- or MATH 422 with a minimum grade of D- or MATH 424A with a minimum grade of D- or MATH 424B with a minimum grade of D- or MATH 425 with a minimum grade of D-).

**Equivalent(s):** ADMN 420

**Mutual Exclusion:** No credit for students who have taken ADM 430, BIOL 528, BUS 430, EREC 525, HHS 540, MATH 439, MATH 539, MATH 644, PSYC 402, PSYC 402H, SOC 402, SOC #402H, SOC 502, SOC 502H.

**Grade Mode:** Letter Grading

**ADMN 520 - Topics in Business****Credits:** 1-4

Special topics, vary by semester.

**Repeat Rule:** May be repeated for a maximum of 12 credits.

**Grade Mode:** Credit/Fail Grading

**ADMN 570 - Introduction to Financial Management****Credits:** 4

The investments, financing, and dividend decisions of the firm in a global setting. Topics include capital budgeting, designing and issuing securities, manager performance evaluation, resolution of agency problems, and working capital management.

**Prerequisite(s):** ECON 401 with a minimum grade of C- and ADMN 510 (may be taken concurrently) with a minimum grade of C- and ADMN 502 (may be taken concurrently) with a minimum grade of C- and ECON 402 (may be taken concurrently) with a minimum grade of C-.

**Equivalent(s):** ADMN 601**Grade Mode:** Letter Grading**ADMN 575 - Behavior in Organizations****Credits:** 4

Behavioral science concepts applied to work settings. Focus on understanding and analyzing individual beliefs, values, goals, perceptions, motivation, commitment, and decision making; group structures and processes (interpersonal skills, communication, conflict resolution, leadership, and team work); organizational control systems (rewards, task design, performance appraisal); outcomes (satisfaction and development of the person as well as the organization); and organizational change.

**Attributes:** Inquiry (Discovery); Writing Intensive Course

**Prerequisite(s):** ADMN 400 with a minimum grade of C- and ADMN 502 with a minimum grade of C-.

**Equivalent(s):** BUS 620

**Mutual Exclusion:** No credit for students who have taken MGT 535, MGT 580.

**Grade Mode:** Letter Grading**ADMN 580 - Quantitative Decision Making****Credits:** 4

Introduction to the use of quantitative tools in the decision-making process of an organization. Planning and operational problems in the manufacturing and services sectors are emphasized. Topics include forecasting, capacity planning, optimization, project scheduling, simulation and risk analysis, quality, inventory management, and waiting lines.

**Prerequisite(s):** ADMN 420 with a minimum grade of C- or ADMN 510 with a minimum grade of C-.

**Grade Mode:** Letter Grading**ADMN 585 - Marketing****Credits:** 4

Covers marketing as the process of planning and developing goods and services to satisfy the needs of target customers: consumers, other businesses, institutions. Focus on how marketing contributes to the firm's goals through product planning, pricing, promotion, and distribution policies, through both digital and traditional channels.

**Prerequisite(s):** ADMN 400 with a minimum grade of C- and (ECON 401 with a minimum grade of C- or ECON 401H with a minimum grade of C-).

**Mutual Exclusion:** No credit for students who have taken HMGT #600, MKTG 530, MKTG 550.

**Grade Mode:** Letter Grading**ADMN 620 - Topics in Business****Credits:** 4

Special topics, vary by semester.

**Repeat Rule:** May be repeated for a maximum of 12 credits.

**Grade Mode:** Letter Grading**ADMN 700 - PAUL Assessment of Core Knowledge****Credits:** 0

One of the learning objectives in the Business Administration Program is that all students will graduate with an understanding of these core knowledge assembled from the various disciplines that contribute courses to the program. We assess this learning as part of our Assurance of Learning Program. The zero credit course provides an administrative mechanism for accomplishing this goal.

**Co-requisite:** ADMN 775**Grade Mode:** Credit/Fail Grading**ADMN 720W - Topics in Business****Credits:** 4

Special topics, vary by semester.

**Attributes:** Writing Intensive Course

**Repeat Rule:** May be repeated for a maximum of 12 credits.

**Grade Mode:** Letter Grading**ADMN 775 - Strategic Management: Decision Making****Credits:** 4

Capstone course: Problem-solving, decision-making, and strategic thinking relative to managerial, economic, ethical, legal, political, social, and technological aspects of an organization's environment. Integrates the functional discipline skills within the role of the general manager as leader and chief strategist, organizational builder and doer. Case discussion and analysis, industry and competitive analysis, environmental scanning, industry simulation, strategic audit, stakeholder analysis, values, ethics and social issues management within the public policy process are important course components.

**Co-requisite:** ADMN 700

**Prerequisite(s):** ADMN 570 with a minimum grade of C- and ADMN 575 with a minimum grade of C- and ADMN 580 with a minimum grade of C- and ADMN 585 with a minimum grade of C-.

**Equivalent(s):** ADMN 703**Grade Mode:** Letter Grading**ADMN 799 - Honors Thesis/Project****Credits:** 4-8

Supervised research leading to the completion of an honors thesis or project; required for graduation from the honors program in administration.

**Attributes:** Honors course; Writing Intensive Course**Grade Mode:** Letter Grading

## Aerospace Studies (AERO)

# Course numbers with the # symbol included (e.g. #400) have not been taught in the last 3 years.

**AERO 301 - Leadership Laboratory****Credits:** 0

Taken by all AFROTC cadets throughout enrollment in AFROTC. Command and staff leadership experiences in cadet corps. Air Force customs and courtesies, drill and ceremonies, career opportunities, and life and work of the junior officer. Student leadership potential developed in a practical, supervised laboratory.

**Repeat Rule:** May be repeated up to unlimited times.

**Grade Mode:** Credit/Fail Grading

**AERO 302 - AFROTC Physical Training****Credits:** 0

Taken by all AFROTC cadets throughout enrollment in AFROTC. Prepares cadets to pass the Air Force Fitness Assessment by introducing a year-round physical conditioning program that emphasizes total fitness that includes proper aerobic conditioning, strength and flexibility training, and healthy eating. Command and staff leadership experiences, Air Force customs and courtesies, and the reinforcement of unit cohesion, military good order and discipline, and esprit de corps.

**Co-requisite:** AERO 301**Grade Mode:** Credit/Fail Grading**AERO 415 - Heritage and Values of the United States Air Force I****Credits:** 2

Heritage and Values of the United States Air Force I, is a survey course designed to introduce students to the United States Air Force and provides an overview of the basic characteristics, missions, and organization of the Air Force.

**Grade Mode:** Letter Grading**AERO 416 - Heritage and Values of the United States Air Force II****Credits:** 2

Heritage and Values of the United States Air Force II, is a survey course designed to introduce students to the United States Air Force and provides an overview of the basic characteristics, missions, and organization of the Air Force. This is a continuation of AERO 415.

**Grade Mode:** Letter Grading**AERO 541 - Team and Leadership Fundamentals I****Credits:** 2

Team and Leadership Fundamentals I, focuses on laying the foundation for teams and leadership. The topics include skills that will allow cadets to improve their leadership on a personal level and within a team. The courses will prepare cadets for their field training experience where they will be able to put the concepts learned into practice. The purpose is to instill a leadership mindset and to motivate sophomore students to transition from AFROTC cadet to AFROTC officer cadet.

**Grade Mode:** Letter Grading**AERO 542 - Team and Leadership Fundamentals II****Credits:** 2

Team and Leadership Fundamentals II, focuses on laying the foundation for teams and leadership. The topics include skills that will allow cadets to improve their leadership on a personal level and within a team. The course will prepare cadets for their field training experience where they will be able to put the concepts learned into practice. The purpose is to instill a leadership mindset and to experience where they will be able to put the concepts learned into practice. The purpose is to instill a leadership mindset and to motivate sophomore students to transition from AFROTC cadet to AFROTC officer candidate. This is a continuation of AERO 541.

**Grade Mode:** Letter Grading**AERO 671 - Leading People and Effective Communication I****Credits:** 4

Leading People and Effective Communication I, teaches cadets advanced skills and knowledge in management and leadership. Special emphasis is placed on enhancing leadership skills and communication. Cadets have an opportunity to try out these leadership and management techniques in a supervised environment as juniors and seniors.

**Grade Mode:** Letter Grading**AERO 672 - Leading People and Effective Communication II****Credits:** 4

Leading People and Effective Communication II, teaches cadets advanced skills and knowledge in management and leadership. Special emphasis is placed on enhancing leadership skills and communication. Cadets have an opportunity to try out these leadership and management techniques in a supervised environment as juniors and seniors. This is a continuation of AERO 671.

**Grade Mode:** Letter Grading**AERO 681 - National Security Affairs/Preparation for Active Duty I****Credits:** 4

National Security Affairs/Preparation for Active Duty I, is designed for college seniors and gives them the foundation to understand their role as military officers in American society. It is an overview of the complex social and political issues facing the military profession and requires a measure of sophistication commensurate with the senior college level. The final semester provides information that will prepare the cadets for Active Duty.

**Grade Mode:** Letter Grading**AERO 682 - National Security Affairs/Preparation for Active Duty II****Credits:** 4

National Security Affairs/Preparation for Active Duty II, is designed for college seniors and gives them the foundation to understand their role as military officers in American society. It is an overview of the complex social and political issues facing the military profession and requires a measure of sophistication commensurate with the senior college level. The final semester provides information that will prepare the cadets for Active Duty. This is a continuation of AERO 681.

**Grade Mode:** Letter Grading**AERO 796 - AFROTC Internship****Credits:** 1-4

This internship is an Air and Space Studies program which prepares students for careers as Air Force Officers by providing experiential learning in an AFROTC detachment. History or Political Science majors are preferred. The internship is supervised by an Air Force Officer.

**Prerequisite(s):** AERO 415 with a minimum grade of D- and AERO 416 with a minimum grade of D- and AERO 541 with a minimum grade of D- and AERO 542 with a minimum grade of D- and AERO 671 with a minimum grade of D- and AERO 672 with a minimum grade of D-.

**Repeat Rule:** May be repeated for a maximum of 4 credits.**Grade Mode:** Letter Grading

## Africana and American Studies (AFAM)

# Course numbers with the # symbol included (e.g. #400) have not been taught in the last 3 years.

No courses are currently active in the course inventory for this subject prefix.

## Agricultural Mechanization (AM)

# Course numbers with the # symbol included (e.g. #400) have not been taught in the last 3 years.

No courses are currently active in the course inventory for this subject prefix.

## American Sign Language (ASL)

# Course numbers with the # symbol included (e.g. #400) have not been taught in the last 3 years.

### ASL 435 - American Sign Language I

**Credits:** 0 or 4

Introduction to American Sign Language with emphasis on visual receptive and expressive use of language, as well as providing opportunities for other forms of visual communication such as facial expression, mime, and gesture. Participants develop their skills through videotapes, classroom participation, and readings that cover issues important to the Deaf community. A weekly, one-hour language laboratory is required as part of this course. Limited to 15 students. No credit if credit has been received for COMM 401 (previously COMM 533).

**Equivalent(s):** COMM 401, COMM 533

**Grade Mode:** Letter Grading

### ASL 436 - American Sign Language II

**Credits:** 0 or 4

Introduction to American Sign Language with emphasis on visual receptive and expressive use of language, as well as providing opportunities for other forms of visual communication such as facial expression, mime, and gesture. Participants develop their skills through videotapes, classroom participation, and readings that cover issues important to the Deaf community. A weekly, one-hour language laboratory is required as part of this course. Limited to 15 students. No credit if credit has been received for COMM 401 (previously COMM 533).

**Prerequisite(s):** ASL 435 with a minimum grade of D-.

**Equivalent(s):** COMM 733

**Grade Mode:** Letter Grading

### ASL 531 - American Sign Language III

**Credits:** 0 or 4

Continuation of ASL 436. Expands on groundwork and grammatical principles established in ASL I and II. Introduces the sociolinguistics aspects of ASL as it functions within the deaf cultural context. Limited to 15 students. Lab.

**Prerequisite(s):** ASL 436 with a minimum grade of D-.

**Grade Mode:** Letter Grading

### ASL 532 - American Sign Language IV

**Credits:** 0 or 4

Continuation of ASL 531. Expands on the groundwork and grammatical principles established in ASL I, II, and III. Introduces the sociolinguistic aspects of ASL as it functions within the deaf cultural context. Areas of investigation include use of formal versus informal sign register; sign variation by region, age, and gender; social factors that give rise to code switching; and political and cultural evolution of the U.S. deaf community. Taught in the target language using the direct experience method. Limited to 15 students. Lab.

**Prerequisite(s):** ASL 531 with a minimum grade of D-.

**Grade Mode:** Letter Grading

### ASL 599 - Special Topics

**Credits:** 1-4

Occasional offerings dependent on availability and interest of faculty. May be repeated barring duplication of subject.

**Repeat Rule:** May be repeated up to unlimited times.

**Grade Mode:** Letter Grading

### ASL 621 - Advanced American Sign Language Discourse I

**Credits:** 0 or 4

Focuses on the use of ASL discourse in formal as well as informal settings. Students explore the genres of public speaking, artistic expression, formal discussion, interview, and narrative. Development of ASL vocabulary in specialized areas not covered in previous courses. Lab.

**Prerequisite(s):** ASL 532 with a minimum grade of D-.

**Grade Mode:** Letter Grading

### ASL 622 - Advanced American Sign Language Discourse II

**Credits:** 0 or 4

In this advanced course, students give two PowerPoint presentations on their research on two selected cutting-edge/current Deaf Studies topics, and are assessed on itemized public speaking skills, grammatical features (linguistics) studies that are a culmination of previous ASL courses, and pragmatic language functions. These presentations are to use high/academic register, appropriate for a large academic audience, demonstrating sensitive awareness of visual acuity and its impact on signing production. Lab.

**Prerequisite(s):** ASL 621 with a minimum grade of D-.

**Grade Mode:** Letter Grading

## American Studies (AMST)

# Course numbers with the # symbol included (e.g. #400) have not been taught in the last 3 years.

### AMST 444C - Picturing America: The Arts & Social Change

**Credits:** 4

How has the camera shaped the way we see ourselves, and the world around us? How are photographers and writers—sometimes self-consciously and sometimes unwittingly affected by the definitions of what it means to be an American? What does something American look like? In this class, we'll try to answer that question in all its complexity by looking at both photographic and written documents, from the late nineteenth century, when photography was a relatively new technology, to the present. How can we "read" a photograph? What kinds of ethical and aesthetic concerns are involved in recording "reality?" What is the relationship between art and social concerns? How do photographs tell stories, and with what consequences?

**Attributes:** FinePerformingArts(Discovery); Inquiry (Discovery); Writing Intensive Course

**Grade Mode:** Letter Grading

### AMST 444D - Long-Ago Stories Behind Everyday Life

**Credits:** 4

This interdisciplinary course focuses on the culture of the United States during a specific and short periods of time (1885-1915; 1915-1940; etc). Emphasis is as much on methods of interdisciplinary studies as on the material itself: we'll approach culture through primary sources from a variety of different disciplines: history, sociology, literature, art, architecture, music, film.

**Attributes:** Humanities(Disc); Inquiry (Discovery); Writing Intensive Course

**Grade Mode:** Letter Grading

## Analytics (DATA)

### DATA 557 - Introduction to Data Science and Analytics

**Credits:** 4

An introduction to data science and analytics. The landscape of analytics, including an overview of industries and sectors using analytics or expected to use analytics in the near future. Data generation, data management, data cleaning, and data preparation. Ethical use of data. Focus on visual and exploratory analysis. Project-based, with an emphasis on collaborative, experiential learning. Programming and statistical software will be used, but previous experience is not required.

**Attributes:** Environment, TechSociety(Disc)

**Grade Mode:** Letter Grading

### DATA 674 - Predictive and Prescriptive Analytics I

**Credits:** 4

A first course in predictive and prescriptive analytics. Supervised learning models including linear models and CART models. Model assessment and scoring methods, including cross-validation. Regularization and model tuning. Unsupervised learning models including k-means clustering. Project-based, with an emphasis on collaborative, experiential learning. Statistical software will be used and programming required.

**Prerequisite(s):** MATH 425 with a minimum grade of D- and COMP 570 with a minimum grade of D- and DATA 557 with a minimum grade of D-.

**Grade Mode:** Letter Grading

### DATA 675 - Predictive and Prescriptive Analytics II

**Credits:** 4

A second course in predictive and prescriptive analytics. Time series analysis and model ensembles. Bootstrapping, simulation, optimization. Monte Carlo methods. Project-based, with an emphasis on collaborative experiential learning. Statistical software will be used and programming required.

**Prerequisite(s):** DATA 674 with a minimum grade of D-.

**Grade Mode:** Letter Grading

### DATA 690 - Internship Experience

**Credits:** 1-4

A field-based learning experience via placement in a business, non-profit, or government organization using analytics. Under the guidance of a faculty advisor and workplace supervisor, students gain practical experience solving problems and improving operational processes using analytics. May be repeated but no more than 4 credits may fill major requirements.

**Prerequisite(s):** UMST 582 with a minimum grade of D-.

**Repeat Rule:** May be repeated for a maximum of 8 credits.

**Grade Mode:** Credit/Fail Grading

### DATA 750 - Neural Networks

**Credits:** 4

Artificial neural networks power the recent advances in computer vision, speech recognition, and machine translation. This is a first course on neural networks with a focus on applications in computer vision and natural language processing. Topics will include generic feedforward neural networks, convolutional neural networks for computer vision tasks, and recurrent neural networks with application to natural language processing, with other topics to be selected based on the interests of the instructor and the class.

**Equivalent(s):** COMP 750

**Grade Mode:** Letter Grading

### DATA #757 - Mining Massive Datasets

**Credits:** 4

A first course in large-scale analytics and data science. Characteristics of big data and the emerging software stack for working with massive datasets, including Hadoop and MapReduce. Algorithms for extracting information from massive datasets. A first course in linear algebra is not a prerequisite, but is recommended.

**Prerequisite(s):** MATH 425 with a minimum grade of D- and DATA 557 with a minimum grade of D-.

**Grade Mode:** Letter Grading

### DATA #790 - Capstone Project

**Credits:** 4

Under direction of a faculty mentor, students work in teams to find solutions to complex real-world problems using analytics. Projects may come from internal or external sources. Students define the problem, obtain the necessary data, develop suitable models and solutions, and present their results.

**Grade Mode:** Letter Grading

## Animal Sciences (ANSC)

# Course numbers with the # symbol included (e.g. #400) have not been taught in the last 3 years.

### ANSC 401 - Animals and Society

**Credits:** 0 or 4

Through an interdisciplinary and historical lens, students delve into the interaction and interdependence of animals and people, the changes and patterns over time, and the resulting implications for the animal industry and the quality of life for animals, people, and the planet. Topics covered include agricultural production, organic farming, sustainability, global agriculture, Community Supported Agriculture (CSAs), research, nutrition, food safety, genetics, animal health, aquaculture, animal welfare, breeding, recreation, companionship, and the reproduction of domestic animals. What are the major changes in meat consumption by humans? What is the effect of these changes on the environment and large and small farm operations? What are the effects of biotechnological research performed on animals for human benefits? What is the difference between animal welfare and animal rights? Why should we care? In what ways does this affect us?

**Attributes:** Biological Science(Discovery); Discovery Lab Course

**Grade Mode:** Letter Grading

**Special Fee:** Yes

### ANSC 402 - Horsemanship Lab

**Credits:** 1

For beginning, intermediate, and advanced riders. Lab (lesson) format with required co-requisite (hybrid or on-line). Correct position and technique for dressage and combined training with application of appropriate theory. Allow time before and after lab for horse care. For the safety of horse and rider, there is a rider weight limit of 200 pounds for all mounted activities in the UNH Equine Program, including ANSC 402.

**Repeat Rule:** May be repeated for a maximum of 8 credits.

**Grade Mode:** Credit/Fail Grading

**Special Fee:** Yes

**ANSC 405 - Theory of Horsemanship****Credits:** 2

Principles and theory of horsemanship, dressage and jumping, including biomechanics of the horse and rider, rider position and aids, cross-country jumping and conditioning, and the horse's instincts, senses, behavior and training as they relate to riding. Online only.

**Grade Mode:** Letter Grading**ANSC 406 - Careers in Animal Science****Credits:** 1

Students explore a variety of career opportunities within the fields of biotechnology, agriculture, animal science and veterinary medicine. Through class presentations and guest speakers students will learn about steps they could take to enhance their prospects for career success, including the internships, career related employment, research, and study abroad opportunities. Students will also prepare a draft and final resume, articulate a career plan, and write reviews about each of the guest speakers and panelists.

**Grade Mode:** Letter Grading**ANSC 411 - Freshman Seminar in Equine Science****Credits:** 1

Seminar format class. This introductory level class provides students with an overview of the equine industry, its economic impact and pressures and the job opportunities available. Class also includes investigation of the requirements and options within the UNH Equine Program and exploration of the opportunities and resources available for students.

**Grade Mode:** Credit/Fail Grading**ANSC 419 - Horse Power****Credits:** 4

Students explore the enduring bond between the horse and man and the effect of that bond on civilization by considering: How has the horse and man's use of the horse shaped civilization and contributed to societal change? How has the progress of civilization and societal change affected the horse and its role in society? What does our use of the horse say about us as individuals and as a society? Cannot receive credit if credit received for ANSC 444B.

**Attributes:** Humanities(Disc)**Equivalent(s):** ANSC 444B**Grade Mode:** Letter Grading**ANSC 421 - Introduction to Animal Science****Credits:** 4

This course provides an overview of the scope and diversity of animal agriculture at the global, national and local levels. It also provides an introduction to the animal sciences through which students 1) learn basic animal science terminology 2) acquire an appreciation of the objectives of various animal enterprises and 3) gain understanding of contemporary trends, challenges and opportunities within animal agriculture.

**Grade Mode:** Letter Grading**Special Fee:** Yes**ANSC 422 - Introduction to Horsemanship Theory****Credits:** 3

For beginning and intermediate riders enrolled in ANSC 402. Hybrid format, includes face-to-face and on-line content, with required lab co-requisite (ANSC 402). Correct theory of basic horsemanship skills, including safe handling practices, introduction to equipment and horse sports, overview of equine senses and behavior, and correct rider position and technique for dressage and jumping. See ANSC 402 (co-requisite) for details on required lab activities.

**Co-requisite:** ANSC 402**Grade Mode:** Letter Grading**ANSC 426 - Equine Conformation and Lameness****Credits:** 4

The study of conformation as it relates to soundness and performance. Students learn to recognize the components of good conformation as they relate to the athletic functions of the horse. Field trips highlight varying disciplines and how conformational changes make horses appropriate for differing activities. Students will also use the University herd to practice assessing conformation and its evaluation for performance types. Students will also learn how conformational faults impact long term soundness.

**Equivalent(s):** AAS 426**Grade Mode:** Letter Grading**Special Fee:** Yes**ANSC 427 - Introduction to Equine Science****Credits:** 4

This course familiarizes students with different aspects of equine management through practical work and a hands-on approach. Topics include selection, fit and care of English tack, bits, grooming, clipping, wound care, safe bandaging techniques, equine behavior, basic health care and monitoring, parasite control, and facility requirements and layout. Students will have hands-on work experience in the UNH stable for a total of 16 hours for the semester. Responsibilities include feeding, cleaning, turnout, and basic care of the University herd.

**Grade Mode:** Letter Grading**Special Fee:** Yes**ANSC 437 - Equine Husbandry Techniques****Credits:** 0 or 4

Course familiarizes students with different aspects of equine management through a practical and hands-on approach. Topics include selection, fit and care of English tack, bits, grooming, clipping, wound care, safe bandaging techniques, equine behavior, farm layout, basic health care and monitoring, parasite control, and equine transportation. Students will have hands-on experience in the UNH stable. Responsibilities include feeding, cleaning, turnout, and basic care of the University herd.

**Equivalent(s):** AAS 437**Grade Mode:** Letter Grading**Special Fee:** Yes**ANSC 500 - Equine Assisted Activities and Therapies****Credits:** 4

Comprehensive examination of Equine Assisted Activities and Therapies including types of therapeutic riding and its physical, cognitive, and emotional benefits for clients with a variety of disabilities. Topics include hippotherapy, therapeutic riding, equine-facilitated mental health, youth at risk, therapeutic vaulting, carriage driving, equipment needs/modifications, special considerations for selecting and training the therapy horse, and the role of the volunteer therapist and instructor. Students have the opportunity to work with horses and riders in the UNH Therapeutic Riding Program during labs, as well as view other programs on mandatory field trips.

**Grade Mode:** Letter Grading**Special Fee:** Yes

**ANSC 504 - Equine Physiology****Credits:** 4

A fundamental equine science course including anatomy, sports medicine, nutrition and preventative care. Students present oral and written journal reviews on equine science topics pertinent to lecture.

**Prerequisite(s):** ANSC 437 with a minimum grade of D- and (ANSC 511 with a minimum grade of D- and ANSC 512 with a minimum grade of D-) or (BMS 507 with a minimum grade of D- and BMS 508 with a minimum grade of D-).

**Equivalent(s):** ANSC 404**Grade Mode:** Letter Grading**Special Fee:** Yes**ANSC #507 - Survey of Equine Training Techniques****Credits:** 3

Physiological development, control, and education; biting, lunging, driving, and equine gymnastics. Lab.

**Grade Mode:** Letter Grading**Special Fee:** Yes**ANSC #510 - Integration of Culture and Agriculture in Ireland: Past, Present, and Future****Credits:** 2 or 4

What was the worst natural disaster in 19th century Europe? What characterizes Ireland's agriculture in the 21st century? In this interdisciplinary course, students examine the cultural, historical, political, economical, and religious influences on Ireland's agriculture, fisheries, and forestry. The crowning experience of the course, a 10-day study abroad in late May, provides students with a window to the world as they experience the culture, agriculture, and topography of Ireland. Students will immerse themselves in local history and culture as they tour working agricultural farms, university research facilities, and cultural landmarks.

**Co-requisite:** INCO 589**Attributes:** World Cultures(Discovery); Writing Intensive Course**Grade Mode:** Letter Grading**Special Fee:** Yes**ANSC 511 - Anatomy and Physiology****Credits:** 0 or 4

Discussion/comparison of the principles of mammalian form and function. Includes molecular and cellular mechanisms of major processes (such as muscle contraction, neural transmission, and signal transduction) and systematic aspects of the nervous, endocrine, cardiovascular, respiratory, gastrointestinal, and renal systems. Lab.

**Prerequisite(s):** BIOL 411 with a minimum grade of D- and BIOL 412 with a minimum grade of D-.

**Mutual Exclusion:** No credit for students who have taken BMS 507.**Grade Mode:** Letter Grading**Special Fee:** Yes**ANSC 512 - Anatomy and Physiology****Credits:** 0 or 4

Discussion/comparison of the principles of mammalian form and function. Includes molecular and cellular mechanisms of major processes (such as muscle contraction, neural transmission, and signal transduction) and systematic aspects of the nervous, endocrine, cardiovascular, respiratory, gastrointestinal, and renal systems. Lab.

**Prerequisite(s):** BIOL 411 with a minimum grade of D- and ANSC 511 with a minimum grade of D-.

**Equivalent(s):** ZOOL 508**Mutual Exclusion:** No credit for students who have taken BMS 508.**Grade Mode:** Letter Grading**Special Fee:** Yes**ANSC 515 - Explorations in Veterinary Medicine****Credits:** 2

This course will introduce the diversity of career paths available in veterinary medicine and aid students in understanding and preparing for the process of applying to veterinary school. Students will also be exposed to current, significant challenges in the US veterinary medical field and will gain hands-on experience in the UNH PAWS veterinary clinic.

**Grade Mode:** Letter Grading**Special Fee:** Yes**ANSC 522 - Ethical Horsemanship - Considerations and Theory****Credits:** 3

For riders of all levels who are enrolled in ANSC 402 for the first time AND for students wishing to learn the concepts of ethical horsemanship theory and practices without enrolling in horsemanship (riding) lab. Hybrid format, includes weekly face-to-face and online lectures/content with optional lab (ANSC 402). Use of an animal for purposes of sport and recreation is a privileged and optional activity, which is not necessary to human survival as the horse's traditional roles once were. Ethical use of the animal in such a context requires thorough knowledge and analysis of the horse's physical and psychological traits, as well as critical evaluation of the rider's goals and techniques in relation to the animal's needs and well-being.

**Co-requisite:** ANSC 402**Attributes:** Writing Intensive Course**Equivalent(s):** ANSC 405**Grade Mode:** Letter Grading**ANSC 526 - Equine Conformation, Movement, and Performance****Credits:** 4

Unique among domesticated species, the horse's primary role is performance rather than food, fiber, or companionship. Although horses are inherently athletic, not all individuals have the same athletic ability, and even individuals with superior physical traits require athletic development to realize them in performance. This class will examine the interrelated concepts of equine conformation, movement, and performance with the goal of understanding the relationship between an animal's natural qualities, its fitness, its athletic potential, and its limitations.

**Prerequisite(s):** ANSC 437 with a minimum grade of D-.

**Grade Mode:** Letter Grading**Special Fee:** Yes**ANSC 536 - Preparation and Competition Techniques for the Modern Sport Horse****Credits:** 4

Course addresses the safe handling and appropriate grooming and clipping techniques for modern sport horses as they are prepared for competition. Additional topics include trailering, studding, post-workout care and other industry skills. Students will evaluate selection and movement of sport-horses while in-hand and demonstrate knowledge by showing horses in best practice for the type and style. Students will demonstrate horse-handling proficiency while showing their assigned horse in-hand at the annual Little Royal Livestock & Horse Show. Lecture and lab format, including industry guest speakers and demonstration.

**Prerequisite(s):** ANSC 437 with a minimum grade of D- and ANSC 422 with a minimum grade of D- and ANSC 522 with a minimum grade of D- and ANSC 402 with a minimum grade of D-.

**Equivalent(s):** AAS 536**Grade Mode:** Letter Grading

**ANSC 538 - Equine Handling/Longeing****Credits:** 1

This seven-week intensive course provides students with the opportunity to learn to longe a variety of University horses in an enclosed arena under private instruction. The emphasis is on safety and welfare of the horse and handler. Proper equipment and fit are addressed along with different training techniques used to improve the horse's quality of movement.

**Equivalent(s):** AAS 538**Grade Mode:** Letter Grading**ANSC 543 - Technical Writing in Animal Sciences****Credits:** 2

Emphasis on writing scientific articles and articles for the end user on subjects pertaining to the animal science industry. Students are expected to make several oral presentations. Resume preparation is also included.

**Attributes:** Writing Intensive Course**Prerequisite(s):** ENGL 401 with a minimum grade of D-.**Equivalent(s):** ANSC 743**Grade Mode:** Letter Grading**ANSC 546 - Animal Business Applications****Credits:** 4

Survey of the various elements of managing an animal and/or agricultural operation regardless of commodity. Topics include: financial statements, credit and interest, insurance considerations, labor management, marketing, promotions, advertising, and sales.

**Equivalent(s):** AAS 546**Grade Mode:** Letter Grading**ANSC 547 - Equine Stable Management****Credits:** 3

Students learn how to make equine management decisions based upon science and business principles. Topics covered include evaluating health parameters, hoof care, vaccination and parasite control, nutrition, accurate record keeping and housing. Students monitor horse health, vaccinate, pull shoes and do fecal exams using the University herd. Business topics include; the importance of contracts, efficient staffing, stable/arena design for function. Field trips highlight different sized equine enterprises.

**Prerequisite(s):** ANSC 437 with a minimum grade of D-.**Equivalent(s):** AAS 547**Grade Mode:** Letter Grading**Special Fee:** Yes**ANSC 548 - Agricultural Business Management****Credits:** 4

This course is designed to give students an opportunity to focus on the agricultural industry relative to specific, operational concepts such as small business start-up, creating a business plan, funding strategies, business development including SWOT analysis, market analysis, branding, product placement and pricing strategy, advertising and using social media, employee hiring and management, supply chain management and analyzing financial statements. An examination of sustainable and socially and environmentally responsible business practices will also be included. The course involves lecture and field study allowing students to examine similar agricultural operations in order to enhance practical understanding of topics covered.

**Equivalent(s):** AAS 548, ANSC 635**Grade Mode:** Letter Grading**ANSC 600 - Field Experience****Credits:** 1-4

A supervised experience providing the opportunity to apply academic experience in settings associated with future professional employment and/or related graduate opportunities. Must be approved by a faculty adviser selected by the student. Permission of supervising faculty member required.

**Repeat Rule:** May be repeated for a maximum of 8 credits.**Grade Mode:** Credit/Fail Grading**ANSC 602 - Animal Rights and Societal Issues****Credits:** 4

To explore all aspects of human-animal interaction and welfare, emphasizing social, ethical, biological, historical and economic aspects of animal care and use.

**Attributes:** Writing Intensive Course**Equivalent(s):** ANSC 407**Grade Mode:** Letter Grading**Special Fee:** Yes**ANSC 603 - Introduction to Livestock Management****Credits:** 4

This course explores the economic, scientific, and practical aspects of livestock management in New England, related to swine, beef, cattle, sheep, goats, and rabbits. This will include breed selection, feeding, reproduction, health, and housing systems. Product harvesting and food safety regulations related to sales and marketing are explored. Students will also be required to manage and care for a flock of sheep at UNH as part of their weekly laboratory exercises.

**Prerequisite(s):** ANSC 421 with a minimum grade of D-.**Grade Mode:** Letter Grading**Special Fee:** Yes**ANSC 605 - Poultry Production and Health Management****Credits:** 4

This course focuses on understanding how the management practices used in raising domestic poultry can promote the production of healthy birds. Discussion centers on chickens in both large and small commercial flocks. Topics covered include breed and stock selection, anatomy & physiology, hatcher and brooder management, commercially important diseases, biosecurity and preventative health care, applicable food safety practices, and welfare. Students will gain hands-on experience working with live poultry during this course.

**Grade Mode:** Letter Grading**Special Fee:** Yes**ANSC 609 - Principles of Animal Nutrition****Credits:** 4

Applied animal nutrition and nutrient metabolism.

**Prerequisite(s):** CHEM 403 with a minimum grade of D- and CHEM 404 with a minimum grade of D- and ANSC 511 with a minimum grade of D-.**Grade Mode:** Letter Grading**ANSC 612 - Genetics of Animals****Credits:** 0 or 4

Application of the physical and chemical bases of heredity to the inheritance patterns and allele frequencies related to qualitative, quantitative, and sex-linked traits in animals. Overview of current genetic, genomic, and biotechnological applications to the health, behavior, and evolutionary relationships of domestic and wild animals.

**Prerequisite(s):** BIOL 411 with a minimum grade of C- or BIOL 413 with a minimum grade of C-.**Grade Mode:** Letter Grading

**ANSC 622 - Further Explorations in Horsemanship Theory****Credits:** 2

For intermediate and advanced riders who have already completed ANSC 522. Online format, with required lab (ANSC 402) as a co-requisite. Students will use online content and independent study projects for in-depth explorations of more advanced topics related to the theory of dressage, jumping, and horsemanship, with particular attention to the application of correct theory to the individual rider's current skills, goals, and lab activities. May be repeated, with a different focus in subsequent semesters.

**Co-requisite:** ANSC 402**Prerequisite(s):** ANSC 522 with a minimum grade of D- or ANSC 405 with a minimum grade of D-.**Repeat Rule:** May be repeated for a maximum of 10 credits.**Grade Mode:** Letter Grading**Special Fee:** Yes**ANSC 625 - Animal Diseases****Credits:** 4

This course focuses on concepts of animal health and disease primarily as they relate to domestic agricultural species. Basic principles of diagnosis, transmission treatment, and prevention are introduced and applied to the presentation of specific disease conditions. The course is divided into sections that focus on the primary body system that is affected by the disease or disorder and a heavy emphasis is placed on learning the skills necessary to recognize and prevent disease.

**Prerequisite(s):** ANSC 511 with a minimum grade of D- and ANSC 512 with a minimum grade of D-.**Grade Mode:** Letter Grading**Special Fee:** Yes**ANSC 627 - Animal Health Applications****Credits:** 4

This course will use a case-based approach to integrate foundational concepts of animal anatomy and physiology with animal health and disease. Independent research of specific animal diseases cases will inform discussion of body systems in a variety of domestic animal species, targeting primarily farm animals, horses, dogs and cats. Hands-on laboratory experiences will use live domestic animals on campus to apply principles of disease diagnostics, prevention and treatment learned in class.

**Prerequisite(s):** ANSC 511 with a minimum grade of D- and ANSC 512 with a minimum grade of D-.**Grade Mode:** Letter Grading**Special Fee:** Yes**ANSC 635 - Nonprofit Management for Agriculture Business****Credits:** 4

This course is designed to give students an opportunity to focus on the agriculture industry relative to specific operational topics for nonprofit businesses. Case studies will include therapeutic riding, agricultural nonprofits, animal welfare/rescue field, animal or agricultural educational programs and nonprofit foundations and the growing field of animal and plant therapy. Topics include; legal structure and organization, credentialing, developing a strategic plan, creating and managing a board of directors, staff and volunteer management, risk management and insurance, fundraising, marketing and public relations, using social media and public accountability. Special consideration will be given to understanding and utilizing financial statements to drive the business and fundraising efforts. The course will involve lecture and project management allowing student to examine similar agricultural business operations in order to enhance practical understanding of topics covered for a final project. Course is offered biennially, in the Fall semester of even-numbered years.

**Equivalent(s):** ANSC 548, CSL 402, CSL 508**Grade Mode:** Letter Grading**ANSC 640 - Principles of Riding Instruction****Credits:** 4

Introduction to the principles, theory and practice of Riding Instruction. Includes discussion of styles of learning and instruction as applied to a riding environment, student assessment, skill acquisition, lesson planning, horse selection and principles of group and private riding instruction. Students will use lab time to observe, assist and practice teaching in sections of ANSC 402, which will be matched according to their abilities and interests. Students will prepare for ARIA licensing examinations as part of class. Fall semester only. Lab.

**Attributes:** Writing Intensive Course**Prerequisite(s):** ANSC 522 with a minimum grade of D- or ANSC 405 with a minimum grade of D-.**Grade Mode:** Letter Grading**ANSC 641 - Principles of Dressage Instruction****Credits:** 2

Advanced principles and theory of dressage and advanced concepts in teaching and coaching dressage. Students will use lab time to observe, assist and practice teaching in dressage-only sections of ANSC 402. Students will prepare for ARIA licensing examinations as part of class. Spring semester only. Lab.

**Prerequisite(s):** ANSC 640 with a minimum grade of D-.**Grade Mode:** Letter Grading**ANSC 642 - Principles of Jumping Instruction****Credits:** 2

Advanced principles and theory of jumping and advanced concepts in teaching and coaching over fences in the arena and cross-country. Students use lab time to observe, assist and practice teaching in intermediate I and II level sections of ANSC 402. Lab. Offered spring semester of every odd numbered year.

**Prerequisite(s):** ANSC 640 with a minimum grade of D-.**Grade Mode:** Letter Grading

**ANSC 643 - Principles of Therapeutic Riding Instruction****Credits:** 4

Principles and theory of teaching therapeutic riding, including special considerations of teaching in a therapeutic environment and methods of instruction for individuals with a variety of disabilities. Lab consists of observing, assisting and practice-teaching in UNH Therapeutic Riding Program as preparation for PATH International CTRI instructor certification. Spring semester only, biannually, odd numbered years.

**Prerequisite(s):** ANSC 500 with a minimum grade of D- and (ANSC 437 with a minimum grade of D- or ANSC 402 with a minimum grade of D-).

**Grade Mode:** Letter Grading**ANSC 650 - Dairy Industry Travel Course****Credits:** 1

Extended field trip to a variety of dairy farms and dairy related businesses in the Northeast with students and faculty from other New England land grants. Includes discussion sessions, case study, problem solving, and journal report.

**Repeat Rule:** May be repeated for a maximum of 2 credits.

**Grade Mode:** Letter Grading**Special Fee:** Yes**ANSC 665 - Agricultural & Equine Event Design, Planning and Management****Credits:** 2

This course provides students with theory and hands-on involvement in the organizational process of planning, managing and executing an agricultural event. Topics include budgeting, logistics, working with forms, sponsorship, publicity, prizes & awards with a focus on facilities, risk, volunteer, and personnel management. Throughout the course, students will apply real-world problem-solving skills and decision-making techniques. Fall semester the class meets for the 1st half and Spring semester, the 2nd half of the term.

**Grade Mode:** Letter Grading**ANSC 670 - Exotic Companion Species Health and Management****Credits:** 4

This course focuses on concepts of health and disease as they relate to companion zoological species (i.e. exotic pets and those species kept in small, living collections) management. Developing an understanding of species specific needs and utilizing this knowledge to promote physical and mental health in a captive environment will be core themes of the course. Previous coursework in animal anatomy & physiology recommended.

**Prerequisite(s):** BIOL 411 with a minimum grade of D- and BIOL 412 with a minimum grade of D-.

**Grade Mode:** Letter Grading**ANSC 690 - Livestock and Wildlife in Namibia: Challenges, Opportunities and Geography****Credits:** 4

This course explores the economic, historic, geographic, scientific and cultural aspects of livestock and wildlife management in Namibia. Its people developed unique models of conservation, as alternatives to national parks and private land in managing wildlife and livestock. Students will gain insight into this unique country and its animals, through lecturers, research, writing and direct interaction with practitioners in the study abroad component.

**Attributes:** World Cultures(Discovery); Writing Intensive Course

**Grade Mode:** Letter Grading**Special Fee:** Yes**ANSC 695 - Supervised Teaching Experience****Credits:** 1-2

Participants are expected to perform such functions as leading discussion sections, directing and assisting in laboratories, and assisting students with their problems in courses that participants have completed successfully. Enrollment is limited to juniors and seniors who have a minimum 3.00 cumulative average.

**Repeat Rule:** May be repeated for a maximum of 4 credits.

**Grade Mode:** Credit/Fail Grading**ANSC 698 - Cooperative for Real Education in Agricultural Management (CREAM)****Credits:** 4

CREAM (Cooperative for Real Education in Agricultural Management) is a 2-semester course in which students perform the work and make the financial management decisions associated with the CREAM dairy herd. Students assume complete responsibility for the management and care of the 25-cow herd for the entire academic year. CREAM provides students with a unique experiential learning model that will help them understand how to work together to manage and operate a small business, the decision-making skills required in production agriculture and the application of science to the management of a dairy herd. Two semesters of 4 cr. each are required.

**Repeat Rule:** May be repeated for a maximum of 8 credits.

**Equivalent(s):** AAS 275, ANSC 615

**Grade Mode:** Letter Grading**ANSC 701 - Physiology of Reproduction****Credits:** 4

Comparative aspects of embryology, anatomy, endocrinology, and physiology of reproduction. Lab.

**Grade Mode:** Letter Grading**ANSC 708 - Ruminant Nutritional Physiology****Credits:** 3

Anatomy of the ruminant gastrointestinal tract, physiological factors related to rumen function, and microbial and whole-body metabolism of carbohydrates, protein, and lipids.

**Prerequisite(s):** BMS 503 with a minimum grade of D- and BMS 504 with a minimum grade of D-.

**Grade Mode:** Letter Grading**ANSC 710 - Dairy Nutrition****Credits:** 4

Feeding management of dairy cattle. Emphasis on feedstuffs, nutritional requirements, and diet formulation for efficient production and optimum health.

**Prerequisite(s):** ANSC 609 with a minimum grade of D- or NUTR 750 with a minimum grade of D-.

**Grade Mode:** Letter Grading**ANSC 715 - Physiology of Lactation****Credits:** 4

Examines the biological and biochemical influences of the lactation process. Emphasis on the physiological effects of environments, hormones, and nutrition on milk synthesis and secretion, mammary physiology, and maternal response.

**Prerequisite(s):** ANSC 511 with a minimum grade of D-.

**Grade Mode:** Letter Grading

**ANSC 724 - Reproductive Management and Artificial Insemination****Credits:** 4

Focus on goals and fundamentals of reproductive management of horses, dairy and livestock animals, and through actual experience, development of competency in performing modern breeding techniques for equine and bovine reproduction. Lab.

**Prerequisite(s):** ANSC 511 with a minimum grade of D-**Equivalent(s):** ANSC 652**Grade Mode:** Letter Grading**Special Fee:** Yes**ANSC 725 - Equine Sports Medicine****Credits:** 4

Course focuses on equine anatomy and physiology in relation to athletic performance and injury. Students write an independent paper assessing the use of an equine heart rate monitor on either a UNH or private horse during the semester.

**Prerequisite(s):** ANSC 504 with a minimum grade of D- and ANSC 512 with a minimum grade of D-**Grade Mode:** Letter Grading**Special Fee:** Yes**ANSC 727 - Advanced Dairy Management I****Credits:** 4

Advanced management evaluation of milking procedures, reproduction, genetics, herd health, feeding, housing, and milking systems.

**Equivalent(s):** ANSC 615**Grade Mode:** Letter Grading**ANSC 728 - Advanced Dairy Management II****Credits:** 4

Advanced management evaluation of record keeping, financial and business management, personnel management, waste management, and marketing.

**Attributes:** Writing Intensive Course**Grade Mode:** Letter Grading**Special Fee:** Yes**ANSC 744 - Advanced Concepts in Therapeutic Riding Instruction****Credits:** 4

This course combines weekly lectures and practice teaching in the UNH Therapeutic Riding Program. Advanced concepts will be explored for mounting and dismounting participants with a higher degree of disability as well as teaching techniques for riders with less mobility and / or significant behaviors. Upon completion of this course, students will be prepared to sit for the national Certified Therapeutic Riding Instructor (CTRI) exam at an additional cost paid to the Professional Association of Therapeutic Horsemanship International (PATH International). Course is not offered every year.

**Prerequisite(s):** ANSC 643 with a minimum grade of D-**Grade Mode:** Letter Grading**ANSC 750 - Collaborative Farm Design and Development****Credits:** 4

As a semester long group project, students will design an economically feasible, fully operational, diversified small farm. Students will need to consider site selection, infrastructure, equipment, labor, animal production and health, financing options, marketing and sales, etc. in their design. The final project will be presented in both an oral and a written format. Independent initiative and group collaboration are both integral to success in this project.

**Attributes:** Writing Intensive Course**Equivalent(s):** ANSC 750W**Grade Mode:** Letter Grading**ANSC 795 - Investigations****Credits:** 1-4

Investigations in genetics, nutrition, management, diseases, histology, equestrian management/agribusiness, physiology, cell biology, microbiology, dairy management, or teaching experience.

**Repeat Rule:** May be repeated for a maximum of 4 credits.**Equivalent(s):** ANSC 795W**Grade Mode:** Letter Grading**ANSC 795W - Investigations****Credits:** 1-4

Investigations in genetics, nutrition, management, diseases, histology, equestrian management/agribusiness, physiology, cell biology, microbiology, dairy management, or teaching experience.

**Attributes:** Writing Intensive Course**Repeat Rule:** May be repeated for a maximum of 4 credits.**Equivalent(s):** ANSC 795**Grade Mode:** Letter Grading**ANSC 796 - Equine Senior Seminar****Credits:** 2

This course is geared to prepare graduating seniors for professional work experience, including skills related to job seeking, resume preparation and interviewing for work in the equine field. In addition, students will engage in dialogue regarding current and relevant controversial topics within the equine industry. Through guided group discussion, selected readings and guest speakers, student are exposed to subjects which equine professionals must confront and address within the equine industry. This course serves as a preparation for and pre-requisite to the Equine Capstone Experience, ANSC 797.

**Equivalent(s):** ANSC 697, ANSC 796W**Grade Mode:** Credit/Fail Grading**ANSC 797 - Equine Capstone Experience****Credits:** 4

This course allows students to review critical professional skills, concepts and theories necessary for success within the equine industry and then to demonstrate competence in these areas, to a panel of equine program faculty. Students also coordinate logistics and content of an outreach Equine Education Day. Successful completion allows students to showcase professional skills and abilities to the non-academic equestrian community.

**Prerequisite(s):** ANSC 796 with a minimum grade of D-**Grade Mode:** Letter Grading**ANSC 799 - Honors Senior Thesis****Credits:** 1-4

Independent research culminating with a written honors thesis in A) Genetics; B) Nutrition; C) Management; D) Diseases; E) Histology; F) Light Horsemanship; G) Physiology; H) Cell Biology; I) Microbiology; J) Dairy Management.

**Attributes:** Honors course; Writing Intensive Course**Repeat Rule:** May be repeated for a maximum of 8 credits.**Grade Mode:** Letter Grading

## Anthropology (ANTH)

# Course numbers with the # symbol included (e.g. #400) have not been taught in the last 3 years.

**ANTH 411 - Global Perspectives on the Human Condition: An Introduction to Anthropology****Credits:** 4

This course introduces students to the core concepts, methods, and research of contemporary cultural anthropology, as well as to the ways in which the discipline is relevant to their daily lives. Students will learn how anthropology approaches the study of culture, language and communication, family and kinship, gender and sexuality, race and ethnicity, economic relationships, political systems, religion, social change and globalization. Ethnographic material from both the U.S. and cross-culturally, as well as a series of hands-on, experiential and interactive activities, will demonstrate anthropological concepts and questions.

**Attributes:** World Cultures(Discovery)**Equivalent(s):** ANTH 411H, ANTH 411W**Grade Mode:** Letter Grading**ANTH 411W - Global Perspectives on the Human Condition: An Introduction to Anthropology****Credits:** 4

This course introduces students to the core concepts, methods, and research of contemporary cultural anthropology, as well as to the ways in which the discipline is relevant to their daily lives. Students will learn how anthropology approaches the study of culture, language and communication, family and kinship, gender and sexuality, race and ethnicity, economic relationships, political systems, religion, social change and globalization. Ethnographic material from both the U.S. and cross-culturally, as well as a series of hands-on, experiential and interactive activities, will demonstrate anthropological concepts and questions.

**Attributes:** World Cultures(Discovery); Writing Intensive Course**Equivalent(s):** ANTH 411, ANTH 411H**Grade Mode:** Letter Grading**ANTH 412 - Broken Pots and Buried Cities: Introduction to World Archaeology****Credits:** 4

Traces the history of archaeology's most spectacular finds and how those moments of adventure and glory developed into a scientific discipline. Provides an introduction to the methods used by archaeologists to recover, analyze, and interpret data in their ongoing effort to understand humanity through the analysis of those small things left behind.

**Attributes:** Social Science (Discovery)**Grade Mode:** Letter Grading**ANTH 415 - The Human Story: Evolution, Fossils and DNA****Credits:** 4

This course uses an evolutionary approach to investigate human biological and bio-cultural variation in time and space. Through a study of the basics of population genetics, an evaluation of our closest living relatives, nonhuman primates, and an exploration of the biological and cultural pathways traversed by our ancestors to become modern *Homo sapiens*, students learn the depth and complexity of the human story. Laboratory exercises dealing with human genetics, hominin fossils, and evolution are integrated with lectures to give students hands-on learning experience. No credit earned if credit received for ANTH 413.

**Attributes:** Biological Science(Discovery)**Equivalent(s):** ANTH 413**Grade Mode:** Letter Grading**ANTH 440A - Honors/Medicine and Culture: Science, Technology and the Body****Credits:** 4

This course takes a comparative, cross-cultural approach to global medicine. Through critical readings, multimedia presentations, class discussions, and expository writing, we consider how techno-scientific developments, transnational flows, environmental transformations, and historical inequities shape how we know and experience our bodies. Key course topics include controversies surrounding new medical technologies, the intersections between Western and non-Western medical systems, and innovative responses to chronic global diseases.

**Attributes:** Environment,TechSociety(Disc); Honors course**Grade Mode:** Letter Grading**ANTH #440B - Honors/Saving Culture: Heritage Management****Credits:** 4

Culture and heritage are increasingly important topics for scholars, art connoisseurs, politicians, and the public alike. The Taj Mahal in India is the UNESCO world heritage site, but is yoga that many around the world engage in? Who decides what heritage is and what counts as culture? How do these decisions impact peoples' daily lives? The course introduces students to the concept of cultural heritage and how it "works" in complex, non-universal ways.

**Attributes:** Honors course; World Cultures(Discovery)**Grade Mode:** Letter Grading**ANTH #444 - The Lost Campus: The Archaeology of UNH****Credits:** 4

In this course, students are active participants in the systematic documentation and examination of the University of New Hampshire's cultural heritage resources. Students are introduced to the practice and process of archaeology through lectures, readings, assignments and hands-on archival research and archaeological fieldwork. Students learn the foundational methods of archaeology including survey, mapping, documentation, excavation, artifact identification, artifact interpretation, and presenting results to the public.

**Attributes:** Historical Perspectives(Disc); Inquiry (Discovery)**Grade Mode:** Letter Grading**ANTH #450 - Introduction to Race, Culture, and Power****Credits:** 4

Race, culture, and power intersect to create differing opportunities and access to social and economic privileges, resources, and power. This course explores how race and racism have functioned to produce movements. The course draws on research on Blackness, Whiteness, and ethnic minorities in the United States and in cross-cultural perspective.

**Equivalent(s):** INCO 450**Grade Mode:** Letter Grading**ANTH 500 - Peoples and Cultures of the World****Credits:** 4

Explores cultures and peoples from specific geographic regions of the world. Broadly considers social, gendered, economic, and political changes in ecological and historical context, focusing on precolonial, colonial, and contemporary societies and globalization. Sections: A. North America, B. Latin America, C. Middle East and North Africa, D. Sub-Saharan Africa, E. Southeast Asia. May be repeated barring duplication of subject.

**Attributes:** World Cultures(Discovery)**Repeat Rule:** May be repeated up to unlimited times.**Equivalent(s):** ANTH 500W**Grade Mode:** Letter Grading

**ANTH 501 - World Archaeological Cultures****Credits:** 4

Explores past peoples and societies from specific geographic regions of the worlds through archaeological material culture, such as tools, art, and architectural remains. Broadly considers social, gendered, economic, and political dynamics of ancient (premodern) societies in ecological and historical context and the role of material culture in the present. Sections: A) North America; B) Mesoamerica; C) South America; D) Near East; E) Europe; F) Asia. May be repeated barring duplication of subject.

**Attributes:** World Cultures(Discovery)**Repeat Rule:** May be repeated up to unlimited times.**Grade Mode:** Letter Grading**ANTH 510 - Animals, Identity, and Culture****Credits:** 4

This course explores the roles of identity and culture in shaping the relationships humans form with other animals. A range of relationships are investigated, including those that figure animals as beings sharing in personhood, as prey, as technologies, as workers, as food, and as family. Inspired by the explosion of new research in multiple disciplines, this course emphasizes cross-cultural and transhistorical variations, while also exploring some of the biosocial features humans share with other animals.

**Grade Mode:** Letter Grading**ANTH 511 - Core Concepts in Anthropology****Credits:** 4

This foundational course, required within the first year of declaring the major, provides students with a cross-field perspective on anthropology through a focus on writing in the discipline. Approaching humankind as cultural and biological beings with distinct as well as interconnected histories, the course exposes students to the varied research practices of cultural, biological, archaeological, and linguistic anthropologists. Students will build skills in reading and research and will practice writing within several disciplinary genres and conventions that reflect anthropology's public as well as scholarly sides. Featured topics provide entry points into key anthropological themes, including the holistic study of human thought, behavior, language, ideologies, and institutions; race, gender, and inequality; and adaptation and change within social and natural environments.

**Grade Mode:** Letter Grading**ANTH 513 - Ethnographic Methods****Credits:** 4

The course introduces students to social science research and differences between quantitative and qualitative research methods, and provides a hands-on experience to develop skills in interviewing, participant-observation, life-history, surveying, socio-linguistics, fieldnotes, and ethics of the research.

**Attributes:** Inquiry (Discovery)**Grade Mode:** Letter Grading**ANTH 514 - Method and Theory in Archaeology****Credits:** 0 or 4

Basic method and theory; techniques in recovering and interpreting data; laboratory exercises in ceramic and lithic analysis. Critical evaluation of archaeological literature.

**Attributes:** Inquiry (Discovery)**Grade Mode:** Letter Grading**ANTH 525 - Anthropology of the Body: Fat, Fitness and Form****Credits:** 4

This course surveys the way our human bodies are valued, transformed, experienced and made subject to control in different societies around the world. It explores cultural constructions of fatness and obesity, fitness and sports as sites of politics, economics and social change, and bodily modification and dis-integration in tattooing, injury, biomedical technology, disability, aging, and extreme environments of war and outerspace. Uses anthropological and feminist theories and introduces ethnographic methods.

**Attributes:** Social Science (Discovery)**Grade Mode:** Letter Grading**ANTH 550 - Introduction to Forensic Anthropology****Credits:** 4

This course provides an overview of forensic anthropology, a sub-field of biological anthropology that applies knowledge of skeletal anatomy to problems of medico-legal significance (i.e., identification of human skeletal remains and interpretation of the circumstances surrounding death). This course outlines concepts underlying the recovery and analysis of human remains, the determination of the biological profile (including age, sex, ancestry, and stature), and the interpretation of skeletal trauma and pathology.

**Grade Mode:** Letter Grading**ANTH 597 - Special Topics****Credits:** 4

Occasional and experimental offerings on an entry level. May be repeated for different topics.

**Repeat Rule:** May be repeated up to unlimited times.**Grade Mode:** Letter Grading**ANTH #610 - Medical Anthropology: Illness and Healing****Credits:** 4

Intermediate-level introduction to medical anthropology through sociocultural and bioarchaeological approaches to describing health-related ideas and practices in cross-cultural, historical and ecological contexts. Focuses on human illness and religious experiences of disease and the end of life. Considers how suffering, diagnosis, treatment, prevention, and care are shaped by: religion and ritual; symbolism and language; age, gender and sexuality; families, social movements, and governments; and the worldwide expansion of biomedical expertise and technologies.

**Equivalent(s):** ANTH 610W**Grade Mode:** Letter Grading**ANTH 611 - History of Anthropological Theory****Credits:** 4

Provides a grounding in the history of social thought in cultural anthropology and sister disciplines from 19th century evolutionism to the present. Course reading is based on primary sources - original essays written by theorists central to the discipline. Assessment is partly based on students' ability to apply theoretical concepts to novel contexts, as well as the ability to evaluate and compare theories on the basis of logic and evidence.

**Grade Mode:** Letter Grading

**ANTH 612 - Applied Anthropology****Credits:** 4

Introduces students to the ways anthropological questions, concepts, and methods are applied to real world problems. Students learn how anthropological knowledge and methods can be used in a wide range of disciplines and careers. The course includes experiential learning where students engage with professionals doing work within applied anthropology. Students gain perspective on the practical possibilities in their major and acquire skills to position themselves for future careers.

**Grade Mode:** Letter Grading**ANTH #616 - Religion, Culture, and Society****Credits:** 4

Major anthropological theories of religion; analysis of religious beliefs as symbolic systems and their interrelations with ritual and other social institutions. Detailed study of specific religions. Operates on a seminar format.

**Attributes:** Writing Intensive Course**Grade Mode:** Letter Grading**ANTH 620 - Ritual and Religion of Ancient Mesoamerica****Credits:** 4

This course examines the religious beliefs and ritual practices of ancient Mesoamerican cultures, such as the Olmec, Maya, and Aztecs. Students learn about the meaning of ritual practices (like human sacrifice and burial rites) and the myths that underlie this mysterious ritual behavior from an archaeological perspective. This class is writing intensive and involves primarily in-class discussion. Students are evaluated based on their participation, oral presentations, and a number of writing assignments.

**Attributes:** Writing Intensive Course**Grade Mode:** Letter Grading**ANTH 625 - Sexuality in Cross-Cultural Perspectives****Credits:** 4

This course examines the ideologies and practices associated with sexuality from a broad perspective that incorporates diverse case studies from the ethnographic record. Working from the argument that much of human sexual behavior is culturally constructed rather than biologically determined, the course invites students to expand their notion of the "normal" and to consider the human condition from a cross-cultural perspective. Topics discussed include cross-cultural varieties of transgendered experience, same-sex sexualities, and heteronormative identities.

**Attributes:** Writing Intensive Course**Grade Mode:** Letter Grading**ANTH 640 - Anthropology of Islam: Muslims' Everyday Lives in Contemporary Communities****Credits:** 4

This course introduces students to different ways of being Muslim in contemporary world, focusing on Muslim communities residing in Central Asia (post-Soviet independent countries, China, and Afghanistan); the United States and some parts of Europe; and the Middle East and North Africa (MENA).

**Grade Mode:** Letter Grading**ANTH #645 - Cultural Sustainability and the Role of Public Archaeology****Credits:** 4

In archaeology, the sustainability movement has encouraged increased outreach and education in an effort to make archaeology relevant to the public and to sustain past lifeways, especially cultural traditions threatened of being erased in our increasingly homogenized and globalized world. Students will be introduced to this field and experience for themselves how to translate academic archaeology to the masses through public programming, from designing museum exhibits to participating in "open archaeology" education for the public.

**Attributes:** Writing Intensive Course**Repeat Rule:** May be repeated for a maximum of 8 credits.**Grade Mode:** Letter Grading**ANTH 650 - Anthropology of Migration and Movement****Credits:** 4

This course uses an anthropological framework to gain a more nuanced understanding of the complexities of global migration and human movement. It will examine the theoretical underpinnings of an anthropological perspective on migration and movement, and will explore a variety of ethnographic case studies to explore the significant political, economic, environmental, legal, and social issues that influence global migration.

**Attributes:** Writing Intensive Course**Grade Mode:** Letter Grading**ANTH 655 - Bioarchaeology of the Human Past****Credits:** 4

Bioarchaeology is the study of human remains from ancient and historical sites. Past populations can be examined by utilizing principles of skeletal and dental biology, as well as archaeological context and ethnohistory, to address anthropological questions. This course will encompass a global survey of bioarchaeological sites and research, with a focus on women and children in the past. Students will explore ethical issues, controversies, excavation methods, and inclusion of indigenous communities.

**Grade Mode:** Letter Grading**ANTH 660 - Human Osteology****Credits:** 4

This course will cover the study of the human skeleton (osteology) and the ethical handling and treatment of human remains. The lecture format will be followed for the first 2/3 of the course while students will participate in hands-on skeletal analysis for the last third of the class. Students will learn about the major bones of the body, common pathologies, trauma analysis and interpretation, and age, sex, stature, and ancestry estimation.

**Grade Mode:** Letter Grading**ANTH #674 - Archaeological Survey and Mapping in Belize****Credits:** 4

Involves hands-on training in field reconnaissance, survey and mapping of archaeological sites, and the use of ARCGIS mapping software. This field course takes place in Belize (Central America) and will be of interest to students studying anthropology, geography and geospatial technologies, among others.

**Co-requisite:** INCO 589**Repeat Rule:** May be repeated for a maximum of 8 credits.**Grade Mode:** Letter Grading**Special Fee:** Yes

**ANTH 675 - Archaeological Field School in Belize****Credits:** 4

The Archaeological Field School in Belize is a hands-on course aimed at training students in all aspects of archaeological field and laboratory work. Students gain experience in field excavations and laboratory processing and analyses of recovered artifacts. The course consists of lectures 2-3 nights/week on a variety of topics related to Archaic and ancient Maya civilization, as well as lecture and class discussion on a range of topics concerning archaeological field and laboratory techniques.

**Repeat Rule:** May be repeated for a maximum of 8 credits.**Grade Mode:** Letter Grading**Special Fee:** Yes**ANTH 680 - Africana Religions: Mobility, Power, and Material Culture****Credits:** 4

Explores Africana indigenous and earth-based and ancestral practices, Islam, and Christianity to show how religion has powerfully shaped communities and always been on the move within and beyond the African continent, including in the Americas and Asia. Uses theories of media and material culture to survey religious environments, ritual, oral, visual, and expressive arts. Students tour virtual and local exhibits and interact with curators, heritage specialists, community members, and museum collections to curate an exhibit.

**Attributes:** Writing Intensive Course**Grade Mode:** Letter Grading**ANTH 685 - Gender, Sexuality and HIV/AIDS in Sub-Saharan Africa****Credits:** 4

HIV/AIDS has been defined as one of the exceptional global pandemics of the Millennium. This course traces the rise and global spread of HIV and AIDS and the introduction of antiretroviral therapies and preventions in sub-Saharan African and its Diasporas with a focus on sex and gender. Includes findings on heterosexual and LGBTIQ individuals, couples, and communities and perspectives on: kinship, marriage, love, transactional sex, reproduction, contraception, gender-based violence, and activist movements. Uses ethnographies and health sciences databases.

**Attributes:** Writing Intensive Course**Grade Mode:** Letter Grading**ANTH 695 - Globalization and Global Population Health****Credits:** 4

This course traces how political economies drive global movements of people, diseases, and health interventions. It takes a multidisciplinary approach through medical anthropology and humanities, public health, and sustainability, looking at: histories of health intervention and biomedical technologies; under-development; shifting public-private sector governance; humanitarianism, cultural knowledge, expertise, and translation; and health-related social justice approaches and liberation theologies. Topics may include: epidemics, non-communicable diseases, metabolic disorders, substance abuse, violence, injury, and aging.

**Attributes:** Writing Intensive Course**Grade Mode:** Letter Grading**ANTH 697 - Special Topics****Credits:** 4

Occasional or experimental offerings. May be repeated for different topics. Operates on a seminar format.

**Attributes:** Writing Intensive Course

**Prerequisite(s):** ANTH 411 with a minimum grade of D- or ANTH 412 with a minimum grade of D- or ANTH 415 with a minimum grade of D-.

**Repeat Rule:** May be repeated up to unlimited times.**Equivalent(s):** ANTH 697W**Grade Mode:** Letter Grading**ANTH #699 - Senior Thesis****Credits:** 4 or 8

Independent work in the library or field; recommended for, but not confined to, majors intending to pursue graduate studies. Contact staff to obtain approval and arrange supervision prior to senior year. 4 or 8 credit 2 semesters; an IA grade (continuous course) given at end of first semester.

**Attributes:** Writing Intensive Course**Repeat Rule:** May be repeated for a maximum of 8 credits.**Equivalent(s):** ANTH 699H**Grade Mode:** Letter Grading**ANTH 699H - Honors Senior Thesis****Credits:** 4 or 8

Independent work in the library or field; recommended for, but not confined to, majors intending to pursue graduate studies; required for honors candidates. Contact staff to obtain approval and arrange supervision prior to senior year. 4 or 8 credit 2 semesters, 8 credits required for honors; an IA grade (continuous course) given at end of first semester.

**Attributes:** Honors course; Writing Intensive Course**Repeat Rule:** May be repeated for a maximum of 8 credits.**Equivalent(s):** ANTH #699**Grade Mode:** Letter Grading**ANTH 700 - Internship****Credits:** 1-4

Provides student with supervised practical experience in anthropology in one of the following areas: A) professional or community support work within an academic or applied anthropology setting; B) teaching; C) museum work; D) archaeological laboratory or fieldwork; E) research on a faculty research project; F) editorial work on a journal or faculty book project.

**Repeat Rule:** May be repeated for a maximum of 8 credits.**Grade Mode:** Letter Grading**ANTH 750 - Islam and Gender: Gendered Lives of Muslims****Credits:** 4

This seminar focuses on the lives of Muslims. While critically questioning some existing ideas about and representations of Muslims, it introduces students to practical and historical aspects of gender politics in different Muslim communities.

**Attributes:** Writing Intensive Course**Grade Mode:** Letter Grading**ANTH 785 - The Anthropology of Dreams and Dreaming****Credits:** 4

This course emphasizes the "dream theories" of indigenous societies and how beliefs and practices associated with dreaming are integrated into cultural, ontological, political, economic, and religious systems. Western theories are also examined from within a comparative perspective—from basic Freudian models to contemporary scientific debates about the neurological origin and significance of dreaming.

**Attributes:** Writing Intensive Course**Grade Mode:** Letter Grading**ANTH 795 - Reading and Research****Credits:** 1-8

A) Cultural/Social Anthropology; B) Anthropological Linguistics; C) Archaeology; D) Physical Anthropology.

**Grade Mode:** Letter Grading

**ANTH 796 - Reading and Research****Credits:** 1-8

A) Cultural/Social Anthropology; B) Anthropological Linguistics; C) Archaeology; D) Physical Anthropology.

**Grade Mode:** Letter Grading**ANTH 797 - Advanced Topics****Credits:** 4

Advanced or specialized courses presenting material not normally covered in regular course offerings. May be repeated, but not in duplicate areas. Course descriptions on file in the department office during registration. A) Social Organization; B) Economic Anthropology; C) Anthropology of Religion; D) Political Anthropology; E) Social Impact Analysis; F) Cultural Ecology; G) Prehistoric Archaeology; H) Historic Archaeology; I) Cultural Resources Conservation; J) Lithic Analysis; K) Ceramic Analysis; L) Faunal Analysis; M) Human Evolution; N) Human Variations; O) Anthropological Theory. Operates on a seminar format.

**Attributes:** Writing Intensive Course**Prerequisite(s):** ANTH 411 with a minimum grade of D- or ANTH 412 with a minimum grade of D- or ANTH 415 with a minimum grade of D-.**Repeat Rule:** May be repeated up to unlimited times.**Grade Mode:** Letter Grading

## Applied Animal Science (AAS)

# Course numbers with the # symbol included (e.g. #400) have not been taught in the last 3 years.

**AAS 421 - Large Animal Behavior and Handling Techniques****Credits:** 2

Introduction to domestic large animal behavior and handling techniques. Cattle, horses, swine, and sheep are used in this course. Students perform routine health-related procedures and gain valuable hands-on skills and safe animal handling techniques which can be applied to the fields of veterinary medicine, animal research, commercial agriculture, and animal control. 1 lec/1 lab.

**Equivalent(s):** ANSC 408, ANSC 508**Grade Mode:** Letter Grading**AAS 423 - Dairy Selection****Credits:** 2

Selection techniques used in cattle for purchase, breeding, and genetic improvement through the use of visual evaluation, pedigrees, production, and progeny information. 1 lec/1 lab.

**Grade Mode:** Letter Grading**Special Fee:** Yes**AAS 425 - Introduction to Dairy Herd Management****Credits:** 4

The course explores economic, scientific and practical aspects of dairy herd management. The topics covered include history, cattle selection, nutrition, housing, milking, and disease prevention strategies. There are a number of field trips and weekly labs emphasizing management and hands-on experience.

**Equivalent(s):** ANSC 409, ANSC 410**Grade Mode:** Letter Grading**AAS 428 - Anatomy and Physiology of Domestic Animals****Credits:** 4

An overview course describing the anatomy (structure) and physiology (function) of domestic animals, focusing on canine, feline, equine, and bovine species. Anatomic and physiologic topics are intertwined as the course progresses through each body system. Relevant species differences are stressed. Focus is on applied concepts appropriate for animal-related careers.

**Equivalent(s):** AAS 228**Grade Mode:** Letter Grading**Special Fee:** Yes**AAS #428B - Anatomy and Physiology of Domestic Animals Lab for VTEC majors****Credits:** 1

Reinforces material presented in AAS 428 lecture and introduces students to the animal body by hands-on study of anatomy. Anatomical relationships and concepts that are important for the medical care of animals are presented. The feline species will be the primary anatomical model used. Comparative anatomy of bovine, equine, and avian species will also be covered. Course is required of Veterinary Technology majors and is designed to be taken along with AAS 428 lecture.

**Co-requisite:** AAS 428**Grade Mode:** Letter Grading**AAS 432 - Introduction to Forage and Grassland Management****Credits:** 3

Introduction to grasslands of the world and their management. Special emphasis on the identification, production, and utilization of New England forage crops for feeding domestic farm animals. The course includes the selection of local plant species and varieties, including their management and recommended harvesting practices. The course also includes a basic introduction to soils, as well as nutrient and fertility management.

**Grade Mode:** Letter Grading**AAS 434 - Equipment and Facilities Management****Credits:** 3

Operation of agricultural equipment and maintenance of agricultural facilities as found in New England. Development of the essential skills and technical information needed to manage and supervise agricultural facilities and equipment. 2 lec/1 lab.

**Grade Mode:** Letter Grading**AAS 439 - Fundamentals of Animal Health****Credits:** 2

Covers the principles of maintaining animal health by preventing and managing disease via husbandry, immunization, diagnostic testing and treatment. Focus is on domestic species; primarily dogs, cats, horses and cows. Topics include external and internal parasitology, microbiology, immunology including vaccination, and disease treatment. Course is designed to be taken along with the appropriate lab section: AAS 439A for Applied Animal Science majors or AAS 439B for VTEC majors, respectively. No credit earned if credit was received for VTEC 439.

**Equivalent(s):** VTEC 439**Grade Mode:** Letter Grading

**AAS #591 - Studies****Credits:** 1-3

Students who have the ability and adequate preparation to work independently may propose a contract to design a course or research project on a topic not available through existing course offerings. The purpose of this research is to explore new areas in the student's field of study or to pursue course material in greater depth. Work is supervised by an appropriate faculty/staff member and credit varies depending on the proposed project/research. Areas may include dairy, light horses, livestock, poultry, meats, forages, management, small animals, or general animal science.

**Repeat Rule:** May be repeated for a maximum of 6 credits.**Equivalent(s):** AAS 291**Grade Mode:** Letter Grading**AAS 597 - Applied Animal Science Work Experience****Credits:** 0

Employment (12 weeks, generally in the summer following the first year) in an approved animal-related position.

**Equivalent(s):** AAS 297**Grade Mode:** Credit/Fail Grading

## Applied Business Management (ABM)

# Course numbers with the # symbol included (e.g. #400) have not been taught in the last 3 years.

No courses are currently active in the course inventory for this subject prefix.

## Applied Studies (APST) CPSO

# Course numbers with the # symbol included (e.g. #400) have not been taught in the last 3 years.

**APST 405 - Career Development and Planning****Credits:** 2

This course engages participants in the career development and life planning process. The course may help students explore and apply to their own life situations knowledge of adult and career development and the skills and methods of career planning. Students may define and articulate the elements important to personal career satisfaction and develop strategies to achieve it. The course may include self-assessments, researching career information, decision-making, goal setting, and job search strategies. NOTE: Students in the A.S. Business and B.S. Business Management programs should take APST 405 and CMPL 402 together.

**Equivalent(s):** APST 505G**Grade Mode:** Letter Grading**APST 705 - Grant Writing****Credits:** 4

This course prepares participants to effectively write different types of grant narratives based on organizational need(s). Topics include the strategic purpose of grants, basic grant elements, effective grant-writing strategies, and grant management and stewardship. Projects may include a completed grant proposal, creation of grant management, and stewardship processes and tools.

**Attributes:** Writing Intensive Course**Prerequisite(s):** ENG 420 with a minimum grade of D- or ENG 500G with a minimum grade of D-.**Equivalent(s):** APST 515G, APST 615G**Grade Mode:** Letter Grading

## Arabic (ARBC)

# Course numbers with the # symbol included (e.g. #400) have not been taught in the last 3 years.

**ARBC 401 - Elementary Arabic I****Credits:** 4

This course introduces students to the language of Arabic and the culture of the Middle East. It teaches writing and pronunciation of Arabic letters and words, as well as a number of common phrases, such as greetings and cordial interactions. Both modern standard Arabic and colloquial Egyptian are taught. It also introduces students to basic aspects of Arabic culture and history.

**Grade Mode:** Letter Grading**Special Fee:** Yes**ARBC 402 - Elementary Arabic II****Credits:** 4

This course builds on skills of learning Arabic acquired in ARBC 401. It continues with the teaching of these skills, which are listening, reading, writing, and speaking. It expands the students' acquisition of grammar, and widens their familiarity with the Middle East culture. It teaches both modern Standard Arabic and colloquial Egyptian.

**Attributes:** Foreign Language Requirement**Prerequisite(s):** ARBC 401 with a minimum grade of D-.**Grade Mode:** Letter Grading**Special Fee:** Yes**ARBC 425 - Introduction to Arabic Culture****Credits:** 4

Conducted in English. This course offers an introduction to Arabic culture and explores its historical, linguistic, social, religious, cultural, and artistic foundations. Students can expect to develop cultural awareness and communicative skills useful when interacting with people from the Arab world, in addition to critical analytical thinking skills through discussion of various Arabic cultural topics.

**Attributes:** World Cultures(Discovery)**Grade Mode:** Letter Grading

**ARBC 503 - Intermediate Arabic****Credits:** 4

This intermediate level course builds on the skills of reading comprehension and the writing and speaking of Modern Standard Arabic that were acquired in first-year Arabic. It takes students to the next level of familiarity with, and the practice of, Arabic. It also puts a heavier weight on using the Egyptian dialect of Arabic in conversation.

**Attributes:** World Cultures(Discovery); Foreign Language Requirement**Prerequisite(s):** ARBC 402 with a minimum grade of D-.**Grade Mode:** Letter Grading**Special Fee:** Yes**ARBC 504 - Intermediate Arabic****Credits:** 4

This intermediate level course builds on the skills of reading and reading comprehension and the writing and speaking of Modern Standard Arabic that were acquired in Arabic 503. Students begin to read Arabic newspapers, websites, and other simple reading materials. An emphasis on using the Egyptian dialect of Arabic in conversation continues.

**Attributes:** World Cultures(Discovery)**Prerequisite(s):** ARBC 503 with a minimum grade of D-.**Grade Mode:** Letter Grading**Special Fee:** Yes**ARBC 595 - Arabic Practicum****Credits:** 2

Practical use of Arabic language and culture through special projects outside the classroom.

**Repeat Rule:** May be repeated for a maximum of 4 credits.**Grade Mode:** Credit/Fail Grading**ARBC 631 - Advanced Arabic I****Credits:** 4

This advanced intermediate level course builds on the skills of reading and reading comprehension, and the writing and speaking, of Modern Standard Arabic that were acquired in ARBC 504. Students continue to read Arabic newspapers, websites and other materials, and bring their findings to share in class discussions. An even greater emphasis than in lower levels of Arabic, are placed on acquiring and practicing the Egyptian dialect of Arabic in class conversations.

**Prerequisite(s):** ARBC 504 with a minimum grade of D-.**Grade Mode:** Letter Grading**ARBC 632 - Advanced Arabic II****Credits:** 4

This advanced intermediate level course builds on the skills of reading and reading comprehension, and the writing and speaking, of Modern Standard Arabic. Students continue to read Arabic newspapers, websites and other materials, and bring their findings to share in class discussions. An even greater emphasis than in lower levels of Arabic, are placed on acquiring and practicing the Egyptian dialect of Arabic in class conversations.

**Prerequisite(s):** ARBC 631 with a minimum grade of D-.**Grade Mode:** Letter Grading**ARBC 700 - Arabic Media****Credits:** 4

This is a content-based language course, which means that this course will help students to improve their Arabic by introducing them to the world of Arabic media. You will be introduced to Media Arabic, which includes the language of print, broadcast, and internet formats. We will be focusing on political, economic and security issues in their cultural contexts as presented in Arabic media.

**Prerequisite(s):** ARBC 504 with a minimum grade of D-.**Grade Mode:** Letter Grading**ARBC 795 - Independent Study in Arabic****Credits:** 1-4

Guided individual study. Topics selected by instructor and student in conference. Barring duplication of content, may be repeated for credit.

**Repeat Rule:** May be repeated up to unlimited times.**Grade Mode:** Letter Grading

## Art History (ARTH)

**ARTH 400 - Topics in Art History****Credits:** 4

Art History will be presented thematically. At least three distinct chronological periods will be treated; students will develop research skills and give oral presentations. Topics will vary: "Art Writers: Their Sources and Their Effects;" "Rome from Romulus to the Fascists;" "Cults of the Original and Cultures of the Copy." Repeatable up to a maximum of 12 credits with different topics. May count towards Architectural Studies Minor if papers take the appropriate emphasis.

**Attributes:** FinePerformingArts(Discovery); Writing Intensive Course**Repeat Rule:** May be repeated for a maximum of 12 credits.**Equivalent(s):** ARTS 400**Grade Mode:** Letter Grading**ARTH 440A - From Digging to Digital: Preserving and Displaying the Past****Credits:** 4

This course introduces the methods for the digital preservation of artifacts and the ethics of cultural conservation. Students will work with objects from the UNH museum to assess digital tools available to conservators, art historians, and archaeologists. We will explore photogrammetry, 3D modeling, virtual reality, web publishing software, and digital applications to study objects and preserve our cultural heritage. Discussion sections will address the social role of museums and international affairs.

**Attributes:** Environment,TechSociety(Disc)**Equivalent(s):** ARTS 440A**Grade Mode:** Letter Grading**ARTH 444 - Mona Lisa to Much Ado About Nothing: An Introduction to Renaissance Culture****Credits:** 4

What did Michelangelo and Shakespeare have in common? This course will read primary sources about the period called the Renaissance, which looked back to Greek and Roman paganism but which also launched Europe toward modernity due to its new emphasis on individual ambition and civic pride.

**Attributes:** FinePerformingArts(Discovery); Inquiry (Discovery); Writing Intensive Course**Equivalent(s):** ARTS 444**Grade Mode:** Letter Grading**ARTH 444B - Art and Money****Credits:** 4

This course explores the relationship between art and money from a variety of perspectives. Topics will range from the art market boom in seventeenth-century Holland, to money as subject matter in twentieth-century art. How do we determine the value of art? How do markets influence taste? How do we define authenticity? What is at stake in the opposition between art and money, and can they be reconciled?

**Attributes:** FinePerformingArts(Discovery); Inquiry (Discovery); Writing Intensive Course**Equivalent(s):** ARTS 444B**Grade Mode:** Letter Grading

**ARTH 444C - Seeing Gender: Feminist Art and Visual Culture****Credits:** 4

What is the role of visual culture in our understanding of sex, gender and sexuality? What role do the history of art, art and film criticism, and philosophical aesthetics play in the creation, interpretation, and appreciation of feminist art? Through close analysis of key artworks, primary sources, and theoretical and literary texts, as well as discussion and writing, this course will explore topics including gender norms, the gaze, patriarchal/stake violence, transgender theory, and global feminism.

**Attributes:** FinePerformingArts(Discovery); Inquiry (Discovery)**Equivalent(s):** ARTS 444C**Grade Mode:** Letter Grading**ARTH 474 - Introduction to Architectural History****Credits:** 4

Survey of representative buildings from the entire history of architecture with analysis of structure, form, and symbolic content, concentrating on major works such as pyramids, the Roman Pantheon, the Gothic cathedral, the Renaissance palace, the Baroque church, and the modern skyscraper. In addition to the overarching narrative of architectural history, further topics include materials and building technologies, design theories, aesthetic principles, and the role of the architect in society.

**Attributes:** Historical Perspectives(Disc)**Equivalent(s):** ARTS 574**Grade Mode:** Letter Grading**ARTH 480 - Introduction to Art History****Credits:** 4

Analysis of the central forms and meanings of art history through intensive study of selected artists and monuments. Includes works of architecture, sculpture, painting, and the graphic arts. Topics will vary but might include the Parthenon, Chartres Cathedral, Michelangelo's Sistine Chapel ceiling. Rembrandt's self-portraits, Monet's landscapes, Picasso's Guernica, Frank Lloyd Wright's Falling water, Georgia O'Keeffe's abstractions, ukiyo-e prints, and Benin sculpture.

**Attributes:** FinePerformingArts(Discovery)**Equivalent(s):** ARTS 480**Grade Mode:** Letter Grading**ARTH 501 - Introduction to Mediterranean Archaeology****Credits:** 4

Survey of representative archaeological sites, architecture, and objects produced by the cultures surrounding the Ancient Mediterranean.

The course will focus on the structure, form, and symbolic content, or sanctuaries, cities, tombs, housing, as well as material culture such as pottery and sculpture. In addition to the overarching narrative of the history of classical archaeology, further topics include cross-cultural influences, materials and building technologies, archaeological theory and practice, and aesthetic principles.

**Attributes:** World Cultures(Discovery)**Equivalent(s):** CLAS 501**Grade Mode:** Letter Grading**ARTH 583 - Baroque Art: Realism, Caricature, Shock****Credits:** 4

The last period of Italian world prominence in the visual arts, the Baroque witnessed a shift of artistic power toward Spain, France, and the Netherlands. The private collecting of pictures, controversies over the legitimacy of religious images, the exploration of etching, pastels, and monotypes, and the serious pursuit of less august subject matter for the visual arts all served to separate Baroque art from its esteemed predecessor, the Renaissance. Bernini, Borromini, Caravaggio, Velazquez, Rembrandt, Rubens, and Poussin are among the artists to be studied.

**Attributes:** Writing Intensive Course**Equivalent(s):** ARTH 683**Grade Mode:** Letter Grading**ARTH 587 - Art in an Age of Revolutions, c. 1715-1900****Credits:** 4

This course surveys visual art made in Europe and North America in a period of profound change: from the dawn of Enlightenment, through the American and French Revolutions and their reverberations throughout Europe, to the eve of WWI. Topics will include the role of portraiture in revolutionary politics from Copley's Paul Revere to David's Marat; crises in modern history painting from Benjamin West to Goya; and the radical realisms of Courbet and the Pre-Raphaelites.

**Attributes:** Writing Intensive Course**Equivalent(s):** ARTS 687**Grade Mode:** Letter Grading**ARTH 592 - Photography's Brave New Worlds****Credits:** 4

Today, we are bombarded by photographs on the Internet, Facebook, Twitter, and Instagram. Indeed, digital photographs seem to have created a "brave new world." However, throughout its history, photography's artistic innovations, technological developments, and creative new uses have transformed the ways in which we navigate the world. This course focuses on photography's game-changing impact on art, science, social reform, popular culture, globalization, and war propaganda from 1839 to the present.

**Attributes:** Historical Perspectives(Disc)**Equivalent(s):** ARTS 592**Grade Mode:** Letter Grading**ARTH 600 - Internship in Art History****Credits:** 1-4

Elective only. Cannot be used to fulfill art history requirements.

**Repeat Rule:** May be repeated for a maximum of 8 credits.**Equivalent(s):** ARTS 600**Grade Mode:** Letter Grading**ARTH 654 - 17th and 18th Century American Architecture****Credits:** 4

Chief architectural styles and significant buildings from the European colonization to the birth of the American republic. A study of religious, public, and domestic architecture and of the settlement patterns of the Spanish, French, Dutch, and English colonies, culminating in the revolutionary classicism of the new republic. Typical works include the California mission church, the New Orleans raised cottage, the Dutch farm house of the Hudson Valley, the plantations of Virginia, and the Boston State House. Field trips.

**Equivalent(s):** ARTS 654**Grade Mode:** Letter Grading

**ARTH 655 - Nineteenth-Century Architecture: The Architecture of Empire**  
**Credits: 4**

Architectural concepts and significant buildings in Europe and America from the Revolutions of the late eighteenth century to the First World War; this course covers religious, civic, commercial, and domestic theories of architecture as well as town planning and urban design during the rise of the modern nation-state and market capitalism. Connections between social and architectural history will be emphasized.

**Attributes:** Writing Intensive Course

**Equivalent(s):** ARTS 655

**Grade Mode:** Letter Grading

**ARTH 656 - Twentieth-Century Architecture: Modern and Contemporary**  
**Credits: 4**

From the turn of the century to recent commissions of living architects, this course provides a global view of twentieth-century architecture, covering the major movements along with more radical engagements with architecture. Important formal, technological, and theoretical debates surrounding Modernism will lead to consideration of Post-Modernity and contemporary values of architectural design. Connections between social and architectural history will be emphasized.

**Attributes:** Writing Intensive Course

**Equivalent(s):** ARTS 656

**Grade Mode:** Letter Grading

**ARTH 674 - Greek Art and Architecture**

**Credits: 4**

Ancient Greece has long been a source of emulation and inspiration. From the legendary Bronze Age palaces of Mycenae and Knossos, through the classical ideas of the city state and its ultimate diffusion through Alexander the Great, this course explores ancient Greek culture through the lens of its art and architecture. We will consider the monuments and surviving artifacts that have influenced art and architecture through the ages and continue to shape the modern world.

**Attributes:** Writing Intensive Course

**Equivalent(s):** ARTS 674

**Grade Mode:** Letter Grading

**ARTH 675 - Roman Art and Architecture**

**Credits: 4**

Starting as a handful of huts overlooking the Tiber River, Rome would grow into a vast empire spanning the Mediterranean. In the process the Roman world would absorb, adapt, and encompass a variety of ancient cultures to create vibrant works of art and architecture. This course will survey the artistic and architectural achievements of ancient Rome. Our aim is to understand the development of Roman material culture and consider its legacy in the modern world.

**Attributes:** Writing Intensive Course

**Equivalent(s):** ARTS 675

**Grade Mode:** Letter Grading

**ARTH 677 - Early Medieval Art**

**Credits: 4**

Development of Christian art from 300 to 1000 A.D. Study of the formulation of a new visual language via the intersection of Mediterranean and northern European traditions. Major focus on early Christian catacombs, Byzantine mosaics, insular manuscripts, and Carolingian imperial art.

**Attributes:** Writing Intensive Course

**Equivalent(s):** ARTS 677

**Grade Mode:** Letter Grading

**ARTH 678 - Romanesque and Gothic Art**

**Credits: 4**

From the fall of the Roman Empire to the fourteenth century, through plague and destruction, glory and honor, heaven and hell, this course tackles the culmination of medieval artistic development, focusing especially on major architectural monuments and their sculptural programs. Treating also the art of tombs, relics, manuscripts, and devotional painting. Connections between social, religious, and art history are emphasized.

**Attributes:** Writing Intensive Course

**Equivalent(s):** ARTS 678

**Grade Mode:** Letter Grading

**ARTH 679 - Northern Renaissance Art I**

**Credits: 4**

Painting, sculpture, graphic arts, and manuscript illumination in France, Germany, and the Netherlands in the 14th and 15th centuries. Emphasis on the development of the traditions of Northern naturalism and the emergence in 15th-century Flanders of a distinct Renaissance consciousness, which runs parallel to contemporary trends in Italy. Major figures include the Limbourg brothers, Claus Sluter, Jan van Eyck, and Hugo van der Goes.

**Attributes:** Writing Intensive Course

**Equivalent(s):** ARTS 679

**Grade Mode:** Letter Grading

**ARTH 680 - Iconoclasm and Collecting: The Art of Early Modern Northern Europe**

**Credits: 4**

The sixteenth century in northern Europe was a time of tumult, religiously, politically, and economically. We will study a formative early phase in the challenge to create an art during ideologically-fraught times (including amusing art), from Bosch's weird monsters to Bruegel's vast landscapes. Prints and drawings greatly expanded the market for art, its capabilities to explore new imagery, and its geographical reach. Lucas van Leyden, key predecessor of Rembrandt, Durer, an unusually well-traveled artist and ambitious to create an art theory for Germans, Holbein, one of whose portraits caused an international debacle, and Bruegel, who turns his back on traditional ambitions, were all valued for their works on paper as well as their paintings.

**Attributes:** Writing Intensive Course

**Equivalent(s):** ARTS 680

**Grade Mode:** Letter Grading

**ARTH 681 - Early Renaissance Art**

**Credits: 4**

How did Europe recover from the Black Death in 1348? How was it possible for Florence to become the center of western creativity both before and after that catastrophe? How did Renaissance art develop elsewhere during the fourteenth and fifteenth centuries? Was was "primitive" about Botticelli?

**Attributes:** Writing Intensive Course

**Equivalent(s):** ARTS 681

**Grade Mode:** Letter Grading

**ARTH 682 - The High Renaissance**

**Credits: 4**

Examines the trajectory from Leonardo to the deaths of Michelangelo and Titian: painting, sculpture, architecture, and works on paper.

**Attributes:** Writing Intensive Course

**Equivalent(s):** ARTS 682

**Grade Mode:** Letter Grading

**ARTH 684 - Baroque Art in Northern Europe****Credits:** 4

Dutch and Flemish painting in the 17th century. Examination of such major figures as Rubens, Rembrandt, Van Dyck, and Vermeer. Attention is also given to the development of the genres and to the many little masters who practiced them.

**Attributes:** Writing Intensive Course**Equivalent(s):** ARTS 684**Grade Mode:** Letter Grading**ARTH 685 - Graphic Art of the Renaissance and Baroque Periods****Credits:** 4

The availability of paper and the invention of the printing press made it possible for drawings and prints to become fundamental elements in the western artistic tradition. Prints have been called major instigators of the production of secular art and of overtly experimental art. They were the first art made with an elite but relatively broad class of collectors in mind, and—in different examples—the first art that could be owned even by the poor. Examination of anonymous works, works by artists famous only as printmakers, and the printed work by or after Mantegna, Durer, Lucas van Leyden, Raphael, Michelangelo, Bruegel, and Rembrandt, as well as drawings of the period.

**Attributes:** Writing Intensive Course**Equivalent(s):** ARTS 685**Grade Mode:** Letter Grading**ARTH 686 - Sex and Sensuality in 18th-Century Art****Credits:** 4

European art of the "long" eighteenth century (1680-1815) experienced radical shifts in aesthetic, social, and political orientation: from the splendors of absolutism to the austere neoclassicism of revolutionary art. This course explores painting and sculpture (and works in other media) in relation to the development of a public sphere, the emergence of individualism, the invention of personal domestic comfort, the introduction of women to artistic power, the scientific revolution, and the birth of global consumer culture.

**Attributes:** Writing Intensive Course**Equivalent(s):** ARTS 686**Grade Mode:** Letter Grading**ARTH 688 - Histories of Late 19th & 20th Century European Modernism****Credits:** 4

An examination of European and American art from Symbolism to Surrealism, from the 1890s to World War II. The course focuses on a series of topics related to the political, social, scientific, and artistic upheavals of the era. Among the topics to be considered are Gauguin and "Primitivism"; Picasso, Cubism, and film; the Bauhaus and Utopian Architecture; Modernist Philosophy; Surrealism and Freud; and the fate of art under Hitler and Stalin.

**Attributes:** Writing Intensive Course**Equivalent(s):** ARTS 688**Grade Mode:** Letter Grading**ARTH 689 - Contemporary Art and Theory: 1945-2000****Credits:** 4

This course examines developments in the fine arts and art theory from 1945 to the present. Special emphasis will be on the issues of the construction of post-war national/culture identities, the relationship between aesthetics and politics, and globalization, in relation to various artistic movements, including Action and color Field Painting, Pop Art, Minimalism and Conceptual Art, Earthworks and Sited Sculpture, Feminist Art, and Digital Art.

**Attributes:** Writing Intensive Course**Equivalent(s):** ARTS 689**Grade Mode:** Letter Grading**ARTH 693 - American Art****Credits:** 4

A chronological survey of American painting and sculpture from the European colonization to the New York Armory Show of 1913, with emphasis on portraiture, narrative, still-life, and landscape painting. Examination of stylistic and thematic developments from the Puritan and Georgian New England portrait, the heroic narrative of the Revolutionary era, the romantic landscape to the realism of the post-Civil War era and the birth of modernism. Typical works include Copley's Portrait of Paul Revere, Cole's Course of Empire, Homer's Fog Warning, Cassatt's At the Opera, and Eakin's Max Schmitt in a Single Scull.

**Attributes:** Writing Intensive Course**Equivalent(s):** ARTS 693**Grade Mode:** Letter Grading**ARTH 694 - Vision and Modernity: From Panorama to Early Film****Credits:** 4

The course examines the emergence of modern visual culture between the end of the 18th century and the beginning of the 20th century. It tracks the development of new technologies and conditions of viewing—from the panorama to photography to early cinema—and situates those developments in relation to larger social, intellectual, and cultural shifts in our conceptions of subjectivity, collectivity, and the mechanics of optical perception. The visual material at the center of our discussions will include nineteenth- and twentieth-century photographs, as well as paintings, prints, film, and other forms of visual entertainment and ephemera.

**Attributes:** Writing Intensive Course**Equivalent(s):** ARTS 694**Grade Mode:** Letter Grading**ARTH 695 - Topics in Art History****Credits:** 4

Topics and prerequisites to be announced before registration. May be repeatable twice with different topics.

**Attributes:** Writing Intensive Course**Repeat Rule:** May be repeated for a maximum of 8 credits.**Equivalent(s):** ARTS 695**Grade Mode:** Letter Grading

**ARTH 697 - Topics in Asian Art****Credits:** 4

A thematic study of the major artistic achievements in India, China, and/or Japan from pre-history to the twentieth century. Works of art in various media, including painting, sculpture, ceramics, calligraphy, prints, architecture, and gardens, will be examined in relation to philosophical concepts and to their cultural/historical contexts. May be repeated twice with different topics.

**Attributes:** Writing Intensive Course**Repeat Rule:** May be repeated for a maximum of 8 credits.**Equivalent(s):** ARTS 697**Grade Mode:** Letter Grading**ARTH 699 - Museum Studies****Credits:** 4

Introduction to the history and practice of American museums, including their purposes, organization, interpretation, policies and practices. Use of the UNH Museum of Art with occasional visits to other museums and art conservators. This course may not be used by studio art/art ed or B.F.A majors to fulfill the art history requirements.

**Attributes:** Writing Intensive Course**Equivalent(s):** ARTS 699**Grade Mode:** Letter Grading**ARTH 700H - Honors Seminar in Art History****Credits:** 4 or 8

The thesis course involves substantial research in an original problem in art history. A 1-2 page written proposal needs to be endorsed by a faculty member and the Department Honors Committee. The thesis proposal identifies the specific goals, methodology, anticipated outcome, and general timeline and must be submitted the semester prior to the start of the project. Upon completion, the student and faculty mentor will present the thesis project to the Honors-in-Major Committee.

**Attributes:** Honors course**Repeat Rule:** May be repeated for a maximum of 8 credits.**Equivalent(s):** ARTS #700H**Grade Mode:** Letter Grading**ARTH 795 - Understanding Art History: An In-Depth Overview****Credits:** 4

Art history is by its nature interdisciplinary, and so this course, while it is intended as the capstone for art history majors, also welcomes voices (and eyes) from other disciplines. We will look at a variety of case studies addressing works of art and architecture, and students will research their own topics, in an effort to understand better the strengths and weaknesses of art historical thought, both past and present.

**Attributes:** Writing Intensive Course**Equivalent(s):** ARTS 795**Grade Mode:** Letter Grading**ARTH 796 - Independent Study: Art History****Credits:** 1-4

Open to highly qualified juniors or seniors who have completed the advanced level courses. May be repeated for a maximum of 8 credits. Written proposal required and permission from supervising faculty member.

**Repeat Rule:** May be repeated for a maximum of 8 credits.**Equivalent(s):** ARTS 796**Grade Mode:** Letter Grading**ARTH 799 - Seminar in Art History****Credits:** 4

Topics and prerequisites to be announced before registration. May be repeated with permission of instructor.

**Attributes:** Writing Intensive Course**Repeat Rule:** May be repeated for a maximum of 8 credits.**Equivalent(s):** ARTS 799**Grade Mode:** Letter Grading

## Arts & Culture (ART) CPSO

# Course numbers with the # symbol included (e.g. #400) have not been taught in the last 3 years.

**ART 401 - Introduction to Drawing****Credits:** 4

This studio art course fosters a hands-on approach to basic drawing and composition. Students explore, comprehend, and employ the basic elements and principles of art, use various graphic media, and become familiar with the vocabulary, concepts, and techniques of drawing. Projects emphasize composition and guide students toward mastering the skills needed to produce an effective and expressive drawing.

**Attributes:** FinePerformingArts(Discovery); Human Thought Exp (Gen Ed)**Equivalent(s):** ARTS 501G**Grade Mode:** Letter Grading**ART 403 - Introduction to Watercolor****Credits:** 4

This is a course for all levels of students, including students with no previous studio art experience. The course introduces students to a variety of approaches to the watercolor medium through the use of hands-on experience, demonstrations, instructor and peer feedback, and discussions. Students will develop watercolor painting skills and visual literacy through recognizing and practicing common watercolor techniques leading to a portfolio of work by the end of the term.

**Attributes:** FinePerformingArts(Discovery); Human Thought Exp (Gen Ed)**Equivalent(s):** ARTS 503G**Grade Mode:** Letter Grading**ART 512 - Fundamentals of Design****Credits:** 4

This course introduces the design elements, principles, and skills needed to succeed in the graphic design industry. Students will have the opportunity to learn the fundamentals of professional layout using Adobe Creative Cloud while demonstrating an understanding of composition, color, typography, vectors, and bitmap creation, along with other essential attributes of graphic design. The design process, design as visual communication, and the designer's role in concept development for media, web, and video will also be emphasized.

**Equivalent(s):** ARTS 504G, ARTS 512G**Grade Mode:** Letter Grading

**ART 515 - Digital Photography****Credits:** 4

This course explores the fundamentals of digital photography. It is structured to help the student master the technical tools of digital photography and image-editing software while cultivating the ability to perceive and understand the world visually and artistically. Students practice constructively critiquing their own work and that of others. This course also examines the unique place photography has within the context of other art forms, such as painting, cinema, music, and literature. In order to meet the learning outcomes of this course, students must have access to a standalone digital camera (DSLR) for required use in the class.

**Attributes:** Environment,TechSociety(Disc); Human Thought Exp (Gen Ed)**Equivalent(s):** ARTS 515G**Grade Mode:** Letter Grading**ART 544 - Special Topics: Lower Level****Credits:** 4

A study of current and variable topics in Arts and Culture. Course content changes from term to term. Lower level.

**Equivalent(s):** ARTS 544G**Grade Mode:** Letter Grading**ART 550 - Art History: Western World****Credits:** 4

The primary goal of this course is to develop an appreciation of the important role that the arts and the individual artist have played through the ages. The course examines the formal qualities and technical achievements of important works from each major period in Western art, as well as the historical and cultural context in which they were created.

**Attributes:** FinePerformingArts(Discovery); Human Thought Exp (Gen Ed)**Equivalent(s):** ARTS 550G**Grade Mode:** Letter Grading**ART 644 - Special Topics: Upper Level****Credits:** 1-4

A study of current and variable topics in Arts and Culture. Course content changes from term to term. Upper level.

**Repeat Rule:** May be repeated up to unlimited times.**Equivalent(s):** ARTS 644G**Grade Mode:** Letter Grading

## Arts/History & Studio (ARTS)

# Course numbers with the # symbol included (e.g. #400) have not been taught in the last 3 years.

**ARTS 501 - Introductory Ceramics****Credits:** 4

Theory and practice of basic ceramics; includes all methods of basic construction, decoration, glazing, and kiln firing. Emphasis on each individual's perceptual development. Lab.

**Grade Mode:** Letter Grading**Special Fee:** Yes**ARTS 510 - Principles of Design****Credits:** 4

An introduction to the principles of design. Students will explore the foundational elements and processes of design principles found in the development of the fine and commercial arts. Lectures will explore the history of design concepts and movements, while studio/lab sessions will enable students to develop their own projects and animation designs. Students will develop basic proficiencies in design software programs.

**Attributes:** FinePerformingArts(Discovery)**Grade Mode:** Letter Grading**ARTS 515 - Principles of Interior Design****Credits:** 4

Students will explore the foundational elements and processes in the design of interior spaces. Lectures will explore the history of interior design; the fundamentals of workign with materials, objects, textures, colors and lighting; how to create plans, maps and diagrams; and how to work with clients. Studio/lab sessions will enable students to develop their own projects and designs. Students will develop proficiencies in related software programs.

**Grade Mode:** Letter Grading**ARTS 520 - Principles of Architectural Design****Credits:** 4

An entry level architectural design studio. Course assignments feature hand drafting, hand rendering, model building, and project presentations while developing skills in verbal, written, and graphic communication. Drafting, hand-rendering, and model making materials and tools are required for this course. Knowledge of CAD or 3-D computer modeling is required.

**Grade Mode:** Letter Grading**ARTS 525 - Introductory Woodworking****Credits:** 4

This course introduces students to the process of designing and building furniture with wood as the primary material. Students think creatively to brainstorm and develop their own, individual designs and use a variety of hand tools, power tools, and machines to build their objects. This course is a prerequisite to upper level woodworking and furniture design workshop courses, which subsequently investigate more sophisticated furniture concepts and woodworking techniques. Studio.

**Attributes:** FinePerformingArts(Discovery)**Grade Mode:** Letter Grading**Special Fee:** Yes**ARTS 532 - Introductory Drawing****Credits:** 4

This course is an introduction to the basic principles of studio drawing. Students work towards mastering the technical skills to produce drawings from observation, a working knowledge of the historical time line in drawing, and insight into the complexities of the creative process. A variety of materials are explored, pencil, charcoal, ink and collage. Art historical and contemporary drawing practices are shown in lectures and books to amplify the concepts introduced in the daily studio work.

**Attributes:** FinePerformingArts(Discovery)**Equivalent(s):** ARTS 532H**Grade Mode:** Letter Grading**Special Fee:** Yes

**ARTS 532H - Honors/Introductory Drawing****Credits:** 4

This course is an introduction to the basic principles of studio drawing. Students work towards mastering the technical skills to produce drawings from observation, a working knowledge of the historical time line in drawing, and insight into the complexities of the creative process. A variety of materials are explored, pencil, charcoal, ink and collage. Art historical and contemporary drawing practices are shown in lectures and books to amplify the concepts introduced in the daily studio work.

**Attributes:** FinePerformingArts(Discovery); Honors course**Equivalent(s):** ARTS 532**Grade Mode:** Letter Grading**Special Fee:** Yes**ARTS 536 - Introduction Printmaking: Intaglio****Credits:** 4

Study of intaglio printmaking techniques, including etching, dry point, and engraving. Lab.

**Prerequisite(s):** ARTS 532 with a minimum grade of C-.**Grade Mode:** Letter Grading**Special Fee:** Yes**ARTS 546 - Painting Design I: Perceptual Painting and Color Theory****Credits:** 4

Color is the central formal issue in painting. This course explores in some detail all basic aspects of color, introducing color terms and examining the meaning of color contrast. Students become familiar with the color wheel and perform color-mixing assignments. Ideas about color are related to paintings done in class based on a variety of subjects. Students receive training on the essential vocabulary of color (as well as materials, techniques, etc.). Lectures on great colorist, critiques and outside assignments are also featured as part of the studio routine of this course.

**Prerequisite(s):** ARTS 532 with a minimum grade of C-.**Grade Mode:** Letter Grading**Special Fee:** Yes**ARTS 551 - Introduction to Darkroom Photography****Credits:** 4

This studio course introduces the fundamentals of photographic practice. Students learn technical aspects of exposure, developing and printing in the darkroom as they explore and respond to the visual qualities of the medium. The format includes class demonstrations, lab work, field assignments and critiques. Manual 35mm film camera will be provided.

**Grade Mode:** Letter Grading**Special Fee:** Yes**ARTS 552 - Introductory Digital Photography****Credits:** 4

Introduction to the basic principles and applications of digital photography. The philosophical and technical relationship between camera and computer is an integral part of today's digital literacy needs. Techniques learned correspond to traditional darkroom processes and include creative shooting, editing and image manipulation. The students uses new skills and techniques towards developing a unique artistic vision. Digital camera required (point and shoot or DSLR).

**Attributes:** Environment,TechSociety(Disc)**Grade Mode:** Letter Grading**Special Fee:** Yes**ARTS 567 - Introductory Sculpture****Credits:** 4

Introduces the beginning student to the theory and practice of designing three-dimensional compositions using a series of progressive assignments. The student develops a practical understanding of sculptural elements, including line, form, space, mass, and plane. Multiple materials are explored including clay, plaster, wire and wood. This course is a prerequisite to upper level sculpture workshop courses, which subsequently focus on in-depth investigations of a particular topic.

**Attributes:** FinePerformingArts(Discovery)**Grade Mode:** Letter Grading**Special Fee:** Yes**ARTS 596 - Special Topics in Studio Art****Credits:** 4

Introductory level topics to be announced before registration. Topics can be either a lecture or studio course. May be repeated with different topics.

**Repeat Rule:** May be repeated for a maximum of 12 credits.**Grade Mode:** Letter Grading**ARTS 598 - An Artist's Life****Credits:** 4

This course looks at the visual arts from the standpoint of artists. Biographies of artists and their environments are emphasized. Studio methods, professional activities, and ideas of historical and contemporary artists are also studied. The semester includes readings, discussions, and field trips. The course encourages students to develop ideas about the relationship of the visual arts to other disciplines in fine arts, literature and the sciences.

**Attributes:** Inquiry (Discovery)**Grade Mode:** Letter Grading**ARTS 600 - Internship in Studio Art****Credits:** 1-4

Internship can be taken for university elective credits or can be applied to a major concentration requirement with approval.

**Repeat Rule:** May be repeated for a maximum of 8 credits.**Grade Mode:** Letter Grading**ARTS 601 - Ceramics Workshop****Credits:** 4

Application of new ceramic materials and techniques, with emphasis on ideas and their expression through form and content. Experimentation encouraged. Specific focus to be announced each semester. Lab.

**Prerequisite(s):** ARTS 501 with a minimum grade of C-.**Repeat Rule:** May be repeated for a maximum of 16 credits.**Grade Mode:** Letter Grading**Special Fee:** Yes**ARTS 610 - Principles of Typography****Credits:** 4

Introduction to the principles of typography. Students will explore the foundational elements and processes of typographic principles used in graphic design and publishing. Lectures will explore the history of typographic concepts and movements, while studio/lab sessions will enable students to develop their own projects and typographic designs. Students will develop basic proficiencies in design software programs.

**Grade Mode:** Letter Grading

**ARTS 611 - Animation and Motion Design****Credits:** 4

This course is an introduction to animation and motion design, and will cover the history and aesthetics of animation and motion design, ways to think in time and space, techniques and methods for planning motion sequences, how to create and use storyboards and scripts, how to use live action video footage in your designs, and the use of motion-specific industry-standard software tools (AfterEffects, Flash, Premier and others).

**Grade Mode:** Letter Grading**ARTS 612 - Interaction & Game Design****Credits:** 4

This course is an exploration of the principles of interaction design as they relate to physical and digital space, with a focus on designing user-centered artifacts, games, and experiences. Theoretical concepts like ethnography, user-testing, and the use of mapping in design will be explored. We will also examine the landscape of technology as it relates to interaction, and the use of appropriate tools and software to create prototypes and functioning digital designs.

**Grade Mode:** Letter Grading**ARTS 613 - Design and Place****Credits:** 4

This course is an exploration of designing objects and experiences for spaces and places, both physical and digital. This branch of design is known as experiential and/or environmental graphic design. Lectures will focus on wayfinding, sense making, accessibility and universal design, and others. Studio work will engage students in creating projects like signage systems, exhibition design, packaging and design for retail spaces, and 3-dimensional digital spaces.

**Grade Mode:** Letter Grading**ARTS 614 - Design and People****Credits:** 4

An exploration of designing with and for people and communities. How do designers create work for specific audiences, and how do they collaborate with people to make useful designs? Lectures will explore communication theory, user observation and ethnography, participatory design, modes of persuasion, system design, sustainability, how to design for niche audiences, and others. Studio work will focus on connecting students to specific audiences to create design projects that solve problems or address social issues.

**Grade Mode:** Letter Grading**ARTS 625 - Wood/Furniture Design Workshop****Credits:** 4

In this studio course students learn how to design and build furniture and non-functional objects using a variety of techniques, hand tools, and machines. Emphasis is on challenging and exploring creativity to examine preconceived ideas about what furniture forms should look like while developing a solid understanding of various techniques.

**Prerequisite(s):** ARTS 525 with a minimum grade of C-.**Repeat Rule:** May be repeated for a maximum of 16 credits.**Grade Mode:** Letter Grading**Special Fee:** Yes**ARTS 632 - Intermediate Drawing****Credits:** 4

Intermediate Drawing reinforces and builds upon skills developed in Introductory Drawing. Strong emphasis is given to resolving spatial relationships and composition (examination of 2D and 3D space). Line as abstraction, gesture, tonal development, perspective, and drawing from the human figure are important topics of this course. Materials such as graphite, charcoal, ink, and mixed media are covered, as well as the use of different papers. Outside assignments and class critiques play an expanded role.

**Prerequisite(s):** ARTS 532 with a minimum grade of C-.**Grade Mode:** Letter Grading**Special Fee:** Yes**ARTS 633 - Life Drawing****Credits:** 4

A continuation of the more formal aesthetic issues introduced in introductory and intermediate drawing with an emphasis on drawing the human figure from life. Lab.

**Prerequisite(s):** ARTS 532 with a minimum grade of C-.**Grade Mode:** Letter Grading**Special Fee:** Yes**ARTS 636 - Printmaking Workshop****Credits:** 4

Emphasis on development of the individual's imagery in lithography and/or intaglio, including an introduction to multicolor printmaking.

**Prerequisite(s):** ARTS 536 with a minimum grade of C- or ARTS 537 with a minimum grade of C-.**Repeat Rule:** May be repeated for a maximum of 16 credits.**Grade Mode:** Letter Grading**ARTS 646 - Painting Design II: Perceptual Painting and the Individual Artist's Vision****Credits:** 4

Students paint in class and begin to consider the character of their own work as artists. Themes related to color development are explored further. Teachers of this course help students understand the stylistic attributes of great artists/mentors. Lectures, demonstrations, outside assignments, and class critiques continue to augment the daily regime of class painting. Other painting media besides oil paint (acrylic, water media) may be featured in the class.

**Prerequisite(s):** ARTS 546 with a minimum grade of C-.**Repeat Rule:** May be repeated for a maximum of 8 credits.**Grade Mode:** Letter Grading**Special Fee:** Yes**ARTS 651 - Photography Workshop****Credits:** 4

Individualized projects involving creative methods, including color, manipulative, and documentary techniques. Students provide their own cameras. Lab.

**Prerequisite(s):** ARTS 551 with a minimum grade of C- or ARTS 552 with a minimum grade of C-.**Repeat Rule:** May be repeated for a maximum of 16 credits.**Grade Mode:** Letter Grading**Special Fee:** Yes

**ARTS 667 - Sculpture Workshop****Credits:** 4

Design and production of sculpture focusing on various materials and techniques and how they relate to composition and content. Emphasis on understanding visual language while developing an individual style. Lab.

**Prerequisite(s):** ARTS 567 with a minimum grade of C-.**Repeat Rule:** May be repeated for a maximum of 12 credits.**Grade Mode:** Letter Grading**Special Fee:** Yes**ARTS 696 - Special Topics in Studio Art****Credits:** 4

Topics and prerequisites to be announced before registration. May be repeated with different topics.

**Repeat Rule:** May be repeated for a maximum of 12 credits.**Grade Mode:** Letter Grading**ARTS #700H - Honors Seminar****Credits:** 4 or 8

The studio art honors thesis course involves a significant independent body of work. A 1-2 page written proposal that identifies the specific goals, methodology, anticipated outcome, and general timeline needs to be endorsed by a faculty member and the Department Honors Committee and must be submitted the semester prior to the start of the project.

Upon completion, the thesis project and a written artist statement will be presented to the Honors-in-Major Committee. Senior BFA majors can designate ARTS 798 Thesis Seminar as honors in place for ARTS #700H.

**Attributes:** Honors course**Repeat Rule:** May be repeated for a maximum of 8 credits.**Grade Mode:** Letter Grading**ARTS 732 - Advanced Drawing****Credits:** 4

Treatment of more complex compositional problems; application of a broader range of solutions to pictorial problems to reinforce and expand individual concepts of image and technique. Lab.

**Prerequisite(s):** ARTS 632 with a minimum grade of C- and ARTS 633 with a minimum grade of C-.**Repeat Rule:** May be repeated for a maximum of 12 credits.**Grade Mode:** Letter Grading**Special Fee:** Yes**ARTS 746 - Painting Design III: Perceptual Painting and Narrative Themes****Credits:** 4

Daily class routine remains grounded in practical aspects of color development, technique, and formal mastery. Outside assignments begin to stress narrative motives in a variety of assignments that present the student with opportunities to explore ideas. A higher level of ambition is encouraged in the student/artist.

**Prerequisite(s):** ARTS 646 with a minimum grade of C-.**Repeat Rule:** May be repeated for a maximum of 12 credits.**Grade Mode:** Letter Grading**Special Fee:** Yes**ARTS 791 - Art Education (Elementary)****Credits:** 4

Children's creative growth as revealed through their visual expression. Development of elementary art education programs with emphasis on objectives, methods, materials and techniques to foster creativity. EDUC 500 is suggested to take prior to this course.

**Grade Mode:** Letter Grading**ARTS 792 - Art Education (Secondary)****Credits:** 4

The creative process in the visual arts in relation to the development and skills of middle and high school students in the public schools; mechanics of beginning and maintaining a secondary art program; exploring resources for art education programs on the secondary level. EDUC 500 is suggested to take prior to this course.

**Grade Mode:** Letter Grading**ARTS 796 - Independent Study: Studio Art****Credits:** 1-8

Open to highly qualified juniors or seniors who have completed the advanced level courses. May be repeated for a maximum of 12 credits with no more than 8 credits in a single medium. Same term multi-enrollment in different media only. A) Photography, B) Sculpture, C) Drawing, D) Painting, E) Printmaking, F) Watermedia, G) Design, H) Architectural Design, J) Ceramics, K) Wood Design. Special fee in some mediums. Written proposal and permission required.

**Repeat Rule:** May be repeated for a maximum of 12 credits.**Grade Mode:** Letter Grading**Special Fee:** Yes**ARTS 798 - Seminar/Senior Thesis****Credits:** 4-8

Readings and discussions oriented toward the intellectual premises of art. Culminates in mounting an exhibition of the student's work. Required of all students in the B.F.A program. Other advanced students may elect with instructor's permission. A year-long course; an IA grade (continuous course) will be given at the end of the first semester. Lab. B.F.A. majors must take 8 credits total. Special fee for Photography students.

**Repeat Rule:** May be repeated for a maximum of 8 credits.**Grade Mode:** Letter Grading**Special Fee:** Yes

## Behavioral Science (BEHS) CPSO

# Course numbers with the # symbol included (e.g. #400) have not been taught in the last 3 years.

**BEHS 445 - Homeland Security and Emergency Management****Credits:** 4

This course presents an overview of the homeland security and emergency management field and enables students entering the profession or expanding their roles to function effectively given a broad array of emergency management issues. This course provides students with a broad view of issues that focus on policy considerations and align with the five National Preparedness System mission areas of prevention, protection, mitigation, response, and recovery. Students learn critical concepts such as the Department of Homeland Security all-hazards approach of emergency management, risk prevention, counter-terrorism, and consequence management and mitigation. This course takes a behavioral science risk-based approach, assessing capabilities and identifying gaps within existing emergency management programs. This approach is instrumental to planning future homeland security and emergency management programs, which facilitate our nation's ability to improve emergency management.

**Prerequisite(s):** PSY 410 with a minimum grade of D- or PSY 501G with a minimum grade of D- or SOC 501G with a minimum grade of D- or SOCI 410 with a minimum grade of D- or CRIM 410 with a minimum grade of D- or CRIM 500G with a minimum grade of D- or MGMT 410 with a minimum grade of D- or MGMT 500G with a minimum grade of D-.

**Equivalent(s):** BEHS 505G

**Grade Mode:** Letter Grading

**BEHS 510 - National Incident Management Systems (NIMS)****Credits:** 4

This course examines the comprehensive approach guiding the whole community - all levels of government (federal, state, county, and town), nongovernmental organizations (NGOs), and the private sector - to work together seamlessly to prevent, protect against, mitigate, respond to, and recover from the effects of emergency incidents. The course provides students with an understanding of National Incident Management Systems (NIMS) concepts, principles, and components.

**Prerequisite(s):** BEHS 445 with a minimum grade of D- or BEHS 505G with a minimum grade of D-.

**Equivalent(s):** BEHS 510G

**Grade Mode:** Letter Grading

**BEHS 544 - Special Topics: Lower Level****Credits:** 1-4

A study of current and variable topics in Behavioral Science. Course content changes from term to term.

**Repeat Rule:** May be repeated up to unlimited times.

**Equivalent(s):** BEHS 544G

**Grade Mode:** Letter Grading

**BEHS 595 - Practicum in Behavioral Science****Credits:** 4

This practicum is an entry-level field experience designed to assist behavioral science majors in exploring career and vocational settings in which they can use and apply their behavioral science knowledge and skills. The nature of the practicum is exploratory, involves extensive initiative in designing and implementing the practicum, and is conducted under the supervision of the practicum instructor. A supplementary objective of the practicum is to explore and assess possibilities for settings and situations in which the student may engage in an upper-level behavioral science internship. Earlier registration deadlines may apply.

**Prerequisite(s):** PSY 410 with a minimum grade of D- or PSY 501G with a minimum grade of D- or SOC 501G with a minimum grade of D- or SOCI 410 with a minimum grade of D- or CRIM 500G with a minimum grade of D- or CRIM 410 with a minimum grade of D-.

**Equivalent(s):** BEHS 540G

**Grade Mode:** Letter Grading

**BEHS 610 - Community Emergency Response****Credits:** 4

The focus of this course is on disaster preparedness and training and organizing teams that can support communities during disasters. The course provides disaster response process knowledge, such as fire safety, light search and rescue, and disaster medical operations. Community emergency response knowledge is used to develop strategies to protect families, neighbors, and co-workers if a disaster occurs. How to plan, execute, and evaluate disaster preparedness desktop exercises will be addressed.

**Prerequisite(s):** BEHS 445 with a minimum grade of D- or BEHS 505G with a minimum grade of D-.

**Equivalent(s):** BEHS 610G

**Grade Mode:** Letter Grading

**BEHS 644 - Special Topics: Upper Level****Credits:** 1-4

A study of current and variable topics in Behavioral Science. Course content changes from term to term. It is expected that the learner will have prior coursework or experience in the subject area.

**Repeat Rule:** May be repeated up to unlimited times.

**Equivalent(s):** BEHS 644G

**Grade Mode:** Letter Grading

**BEHS 665 - Disaster Management****Credits:** 4

This course addresses the complexity of issues related to disaster management, including a history of the field, key legislation impacting the field, comprehensive emergency management and integrated emergency management, and current issues in the field. This course explores emergency management systems used to lessen the potential impact of disasters. Approaches related to policy, sustainability, public education, disaster exercises, programming, and the built environment are all considered.

**Prerequisite(s):** BEHS 445 with a minimum grade of D- or BEHS 505G with a minimum grade of D- or FSA 605 with a minimum grade of D- or FSA 605G with a minimum grade of D-.

**Equivalent(s):** BEHS 617G

**Grade Mode:** Letter Grading

**BEHS 675 - Terrorism: Domestic and International****Credits:** 4

This course is designed to acquaint students with the major issues in the growing threat of domestic and global terrorism. Topics include an overview of the history and development of terrorism, types of terrorism, terrorist groups, the psychology of terrorism, the structure and dynamics of terrorist groups, terrorists' techniques, financing of terrorism, the media and terrorism, legal issues, and terrorism of the future.

**Equivalent(s):** BEHS 615G**Grade Mode:** Letter Grading**BEHS 695 - Internship in Behavioral Science****Credits:** 4

This course is a field-based internship designed to develop and hone the practical application skills of a Behavioral Science major. Students apply for an internship at a self-selected site and negotiate the terms of the internship experience with a site supervisor under the general auspices of their faculty mentor. The internship requires documented evidence of eighty hours of supervised experience and practice in a field setting where behavioral science-related knowledge and skills are applied.

NOTE: It is recommended that students have completed the majority of upper level course work in their major prior to enrolling in this course. Registration for this course is by permission of Academic Affairs. Earlier registration deadlines may apply.

**Equivalent(s):** BEHS 640G**Grade Mode:** Letter Grading

## Biochemistry, Molecular & Cellular Biology (BMCB)

# Course numbers with the # symbol included (e.g. #400) have not been taught in the last 3 years.

**BMCB 401 - Professional Perspectives in Biochemistry, Molecular and Cellular Biology****Credits:** 1

Introduction to the fields of biochemistry, molecular and cellular biology. Explores professional opportunities for BMCB majors. Guest speakers from on- and off-campus present seminars and lead discussions on contemporary issues in subject area. Development of strategies for achieving professional goals.

**Grade Mode:** Credit/Fail Grading**BMCB 501 - Biological Chemistry****Credits:** 4

Survey of the molecular basis of life with a focus on the mechanisms of biochemical reactions in metabolic pathways, beginning with an overview of functional groups and organic reactions relevant for living organisms. Bioenergetics of carbohydrate, lipid, and nitrogen metabolic pathways.

**Prerequisite(s):** (CHEM 403 with a minimum grade of D- and (CHEM 404 with a minimum grade of D- or CHEM 404H with a minimum grade of D-)) or CHEM 411 with a minimum grade of D-.

**Mutual Exclusion:** No credit for students who have taken BMCB 658, BMCB 751, BMCB 752.

**Grade Mode:** Letter Grading**BMCB 605 - Principles of Cell Biology****Credits:** 4

Cell and developmental biology of multicellular eukaryotic organisms. Structure and function of major cellular compartments; mechanisms of cellular communication and dynamics; embryonic development. Special topics: subcellular organization and function; membrane biogenesis; signal transduction; mitogenesis; apoptosis; autophagy; tumor suppressors and cell cycle regulation; cytokinesis; cytoskeletal dynamics; cellular shape and motility; stem cell biology; organogenesis; morphogenesis and patterning.

**Prerequisite(s):** (BIOL 411 with a minimum grade of D- or BIOL #411H with a minimum grade of D- or BIOL 413 with a minimum grade of D-) and (BIOL 412 with a minimum grade of D- or BIOL 412H with a minimum grade of D- or BIOL 414 with a minimum grade of D-) and CHEM 403 with a minimum grade of D- and (CHEM 404 with a minimum grade of D- or CHEM 404H with a minimum grade of D-).

**Equivalent(s):** BIOL 605, BSCI #735**Grade Mode:** Letter Grading**BMCB 658 - General Biochemistry****Credits:** 3

Comprehensive, introductory course emphasizing the cellular metabolism and the structure and function of proteins, nucleic acids, carbohydrates, and lipids.

**Co-requisite:** BMCB 659

**Prerequisite(s):** (BIOL 411 with a minimum grade of D- or BIOL #411H with a minimum grade of D- or BIOL 413 with a minimum grade of D- or BMS 507 with a minimum grade of D-) and ((CHEM 545 with a minimum grade of D- and CHEM 546 with a minimum grade of D-) or (CHEM 547 with a minimum grade of D- and CHEM 548 with a minimum grade of D-) or (CHEM 651 with a minimum grade of D- and CHEM 652 with a minimum grade of D-)).

**Equivalent(s):** BMCB 658A

**Mutual Exclusion:** No credit for students who have taken BMCB 501.

**Grade Mode:** Letter Grading**BMCB 658A - General Biochemistry****Credits:** 3

Comprehensive, introductory course emphasizing the cellular metabolism and the structure and function of proteins, nucleic acids, carbohydrates, and lipids. This course is intended for programs that do not require a biochemistry laboratory.

**Prerequisite(s):** (BIOL 411 with a minimum grade of D- or BIOL #411H with a minimum grade of D- or BIOL 413 with a minimum grade of D- or BMS 507 with a minimum grade of D-) and ((CHEM 545 with a minimum grade of D- and CHEM 546 with a minimum grade of D-) or (CHEM 547 with a minimum grade of D- and CHEM 548 with a minimum grade of D-) or (CHEM 651 with a minimum grade of D- and CHEM 652 with a minimum grade of D-)).

**Equivalent(s):** BMCB 658

**Mutual Exclusion:** No credit for students who have taken BMCB 501.

**Grade Mode:** Letter Grading**BMCB 659 - General Biochemistry Lab****Credits:** 2

Structured laboratory experiments that provide training in analytical and preparative techniques fundamental to modern biochemistry and molecular biology.

**Co-requisite:** BMCB 658**Equivalent(s):** BCHM 659, BMCB 659W**Grade Mode:** Letter Grading**Special Fee:** Yes

**BMCB 659W - General Biochemistry Lab****Credits:** 2

Structured laboratory experiments that provide training in analytical and preparative techniques fundamental to modern biochemistry and molecular biology.

**Co-requisite:** BMCB 658**Attributes:** Writing Intensive Course**Equivalent(s):** BCHM 659, BMCB 659**Grade Mode:** Letter Grading**Special Fee:** Yes**BMCB 750 - Physical Biochemistry****Credits:** 3

Structure, interactions, and physical-chemical properties of biomolecules. Thermodynamic, kinetic, and spectroscopic methods for the study of proteins and nucleic acids.

**Prerequisite(s):** ((CHEM 545 with a minimum grade of D- and CHEM 546 with a minimum grade of D-) or (CHEM 547 with a minimum grade of D- and CHEM 548 with a minimum grade of D-) or (CHEM 651 with a minimum grade of D- and CHEM 652 with a minimum grade of D-)) and (MATH 424B with a minimum grade of D- or MATH 425 with a minimum grade of D-).

**Equivalent(s):** BCHM 750**Grade Mode:** Letter Grading**BMCB 751 - Principles of Biochemistry****Credits:** 4

In-depth survey of biochemistry: macromolecular structure; structure and function of proteins, nucleic acids, carbohydrates, and lipids; introduction to metabolic pathways.

**Prerequisite(s):** (CHEM 547 with a minimum grade of D- and CHEM 548 with a minimum grade of D-) or (CHEM 651 with a minimum grade of D- and CHEM 652 with a minimum grade of D-).

**Equivalent(s):** BCHM 751**Mutual Exclusion:** No credit for students who have taken BMCB 501.**Grade Mode:** Letter Grading**BMCB 752 - Principles of Biochemistry****Credits:** 4

In-depth survey of biochemistry: metabolism of amino acids, nucleotides, carbohydrates and lipids; synthesis and regulation of macromolecules; molecular biology of the eukaryotic cell.

**Prerequisite(s):** BMCB 751 with a minimum grade of D-.

**Equivalent(s):** BCHM 752**Mutual Exclusion:** No credit for students who have taken BMCB 501.**Grade Mode:** Letter Grading**BMCB 753 - Cell Culture****Credits:** 5

Principles and technical skills fundamental to the culture of animal and plant cells, tissues, and organs. Introduction to the techniques of sub-culturing, establishing primary cultures, karyotyping, serum testing, cloning, growth curves, cryopreservation, hybridoma formation and monoclonal antibody production, and organ cultures. Application of cell culture to contemporary research in the biological sciences. Lab.

**Prerequisite(s):** BMS 503 with a minimum grade of D- and BMS 504 with a minimum grade of D-.

**Equivalent(s):** ANSC 751, MICR 751, PBIO 751**Grade Mode:** Letter Grading**Special Fee:** Yes**BMCB 754 - Molecular Biology Research Methods****Credits:** 5

Theory and application of current technologies to manipulate DNA. Hands-on research experience that includes DNA isolation and quantitation methods, cloning, PCR, DNA sequencing, and analysis of gene products. Lab.

**Attributes:** Writing Intensive Course**Prerequisite(s):** GEN 604 with a minimum grade of D-.**Equivalent(s):** BCHM 754, BSCI 765, GEN 754, PBIO 754**Grade Mode:** Letter Grading**Special Fee:** Yes**BMCB 755 - Protein Biochemistry Laboratory****Credits:** 5

Application of modern approaches to the characterization and purification of proteins. Emphasis on recombinant protein production and purification, analytical techniques for characterization of proteins, enzyme kinetics, and molecular visualization of protein structure.

**Attributes:** Writing Intensive Course

**Prerequisite(s):** BMCB 658 with a minimum grade of D- or BMCB 751 with a minimum grade of D-.

**Grade Mode:** Letter Grading**Special Fee:** Yes**BMCB 760 - Pharmacology****Credits:** 4

Introduction to the basic principles and fundamental concepts of pharmacology, with a focus on molecular mechanisms and pathological basis of therapeutics and their curative effects. Topics include: foundations of pharmacology including pharmacodynamics and pharmacogenomics; drugs affecting other systems; chemotherapeutic drugs.

**Prerequisite(s):** BMCB 658 with a minimum grade of D- or BMCB 751 with a minimum grade of D-.

**Mutual Exclusion:** No credit for students who have taken BSCI 680.**Grade Mode:** Letter Grading**BMCB 763 - Biochemistry of Cancer****Credits:** 4

Evaluation of the hallmarks of cancer, including molecular mechanisms of carcinogenesis, roles of oncogenes and dysregulated cell development, function and metabolism, tumor immunology, and the biological basis of cancer therapy.

**Prerequisite(s):** (BMCB 658 with a minimum grade of D- or BMCB 751 with a minimum grade of D-) and BMCB 605 with a minimum grade of D-.

**Equivalent(s):** BCHM 763**Grade Mode:** Letter Grading**BMCB 790 - Undergraduate Teaching Experience****Credits:** 1-4

Provide academic support to graduate teaching assistants or faculty in preparing, presenting, and executing Biochemistry, Molecular and Cellular Biology lectures or labs.

**Repeat Rule:** May be repeated for a maximum of 4 credits.

**Grade Mode:** Letter Grading

**BMCB 794 - Protein Structure and Function****Credits:** 4

Analysis of how the three-dimensional architecture of soluble and membrane proteins contributes to their biochemical function; methods for determining the structure of proteins; protein folding; protein targeting; mechanisms of enzyme catalysis. Computer resources used for protein modeling and structural prediction.

**Prerequisite(s):** BMCB 658 with a minimum grade of D- or BMCB 751 with a minimum grade of D-.

**Equivalent(s):** BCHM 794

**Grade Mode:** Letter Grading

**BMCB 795 - Investigations in Molecular and Cellular Biology****Credits:** 1-4

Advanced research or scholarly projects developed and conducted under the supervision of a faculty member. Provides the opportunity to apply advanced knowledge and techniques of the major to a specific problem or question.

**Repeat Rule:** May be repeated for a maximum of 8 credits.

**Equivalent(s):** BCHM 795, BCHM 795W, BMCB 795W

**Grade Mode:** Letter Grading

**BMCB 795W - Investigations in Molecular and Cellular Biology****Credits:** 1-4

Advanced research or scholarly projects developed and conducted under the supervision of a faculty member. Provides the opportunity to apply advanced knowledge and techniques of the major to a specific problem or question.

**Attributes:** Writing Intensive Course

**Repeat Rule:** May be repeated for a maximum of 8 credits.

**Equivalent(s):** BCHM 795, BCHM 795W, BMCB 795

**Grade Mode:** Letter Grading

**BMCB 799 - Senior Thesis****Credits:** 1-4

Independent research project under the direction of a faculty sponsor for seniors in biochemistry, molecular and cellular biology. Final product is a written thesis. One or two semesters.

**Attributes:** Writing Intensive Course

**Repeat Rule:** May be repeated for a maximum of 8 credits.

**Equivalent(s):** BCHM 699, BCHM 799, BCHM 799H, BMCB 799H

**Grade Mode:** Letter Grading

**BMCB 799H - Honors Senior Thesis****Credits:** 1-4

Independent research project under the direction of a faculty sponsor for seniors in biochemistry, molecular and cellular biology and in the Honors Program. Final product is a written thesis. One or two semesters.

**Attributes:** Honors course; Writing Intensive Course

**Repeat Rule:** May be repeated for a maximum of 8 credits.

**Equivalent(s):** BCHM 799, BCHM 799H, BMCB 799

**Grade Mode:** Letter Grading

## Bioengineering (BENG)

# Course numbers with the # symbol included (e.g. #400) have not been taught in the last 3 years.

## Biological Science (BSCI)

# Course numbers with the # symbol included (e.g. #400) have not been taught in the last 3 years.

**BSCI 401 - The Secret Lives of Whales****Credits:** 4

The evolution and classification of whales living in their global ocean ecosystem will be investigated along with the influence and impact of humans on whale populations throughout history. Current research methods used to perform whale research will be presented. The implementation and current status of the effects of regulation, enforcement, management on the conservation of whale populations will be discussed. The impact of climate change, pollution and ocean water quality will be investigated.

**Attributes:** Biological Science(Discovery)

**Grade Mode:** Letter Grading

**BSCI 410 - Contemporary Health Issues****Credits:** 4

This course exposes students to the three major dimensions of health - physical, emotional, and social. Nutrition, infectious diseases, substance abuse and addiction, mental health, sexual health, aging and stress management are among the issues that will be discussed. Students will learn to intelligently relate health knowledge to the social issues of the day.

**Attributes:** Biological Science(Discovery)

**Grade Mode:** Letter Grading

**BSCI 421 - Diseases of the 21st Century****Credits:** 4

Provides a basic understanding of several different diseases that may be prevalent over the next century. Treatment and prevention of the disease are also discussed. Students will acquire a basic understanding of the research methodologies underlying several fields within the biological sciences, such as microbiology, immunology, and molecular biology. Agents of biological warfare are also discussed.

**Attributes:** Biological Science(Discovery)

**Prerequisite(s):** ENGL 401 with a minimum grade of D-.

**Equivalent(s):** UMST 599G

**Grade Mode:** Letter Grading

**BSCI 432 - Medical Terminology****Credits:** 2

This course is an introduction to medical terminology. The origin, roots, prefixes and suffixes of common scientific and medical terms are examined. Course is totally online and includes assigned online interactive material. Appropriate for biology majors, prePA, premed, and other interested majors.

**Grade Mode:** Letter Grading

**BSCI 450 - The Small Microbial World****Credits:** 0 or 4

An introduction to the invisible world of microbes and microorganisms and their impact on human life and ecosystems. Laboratory will be an opportunity for science and non-science students to learn the scientific method while they participate in citizen or crowdsourced science and contribute to scientific knowledge. Vaccines, antibiotics, and other topics will be presented.

**Attributes:** Biological Science(Discovery); Discovery Lab Course

**Grade Mode:** Letter Grading

**Special Fee:** Yes

**BSCI 599 - Special Topics in Biology****Credits:** 1-4

This course explores and investigates topics in biology that would not normally be covered in other courses in the curriculum.

**Repeat Rule:** May be repeated for a maximum of 12 credits.**Grade Mode:** Letter Grading**BSCI 620 - Global Science Exploration****Credits:** 4

This course includes a spring break trip abroad investigating living organisms in their natural habitat. Students will participate in pre-trip seminars on the country, local flora, fauna and habitats they will visit. Students will design a project to integrate their personal interests and objections with in-country investigation. Post-trip seminar will focus on preparation of project and its presentation. May be repeated if the spring break trip is to a different country.

**Attributes:** Writing Intensive Course**Prerequisite(s):** (BIOL 413 with a minimum grade of C- and BIOL 414 with a minimum grade of C-) or (BIOL 411 with a minimum grade of C- and BIOL 412 with a minimum grade of C-).**Repeat Rule:** May be repeated for a maximum of 8 credits.**Grade Mode:** Letter Grading**Special Fee:** Yes**BSCI 650 - Antibiotic Discovery****Credits:** 0 or 4

Advanced students with microbiology experience will participate in a research project focused on the discovery of novel antibiotics from soil bacteria. Each student will work with faculty to generate hypotheses and carry out one or more short antibiotic discovery and/or antibacterial chemical experiments. Satisfies the Advanced Microbiology requirement for Biotechnology majors. No credit earned if previously taken BSCI 797/ Antibiotic Discov Research and BSCI 798/Antibiotic Discovery.

**Attributes:** Writing Intensive Course**Prerequisite(s):** (BMS 503 with a minimum grade of C- and BMS 504 with a minimum grade of C-) or BSCI 450 with a minimum grade of C-.**Grade Mode:** Letter Grading**Special Fee:** Yes**BSCI 670 - Clinical Pathophysiology****Credits:** 4

This course covers the principles and mechanisms of disease at the cellular, tissue, organ, and system levels, including responses to cell injury, death and adaptation, and inflammation. Acute and chronic disease processes as well as trauma are used to both understand the impact of these processes on body function as well as a means to gain a better understanding of integrative body systems. No credit if credit earned for BMS 794 or UMST 599 Clinical Pathophysiology.

**Prerequisite(s):** (BIOL 413 with a minimum grade of C- and BIOL 414 with a minimum grade of C-) or (BMS 507 with a minimum grade of C- and BMS 508 with a minimum grade of C-) or (BIOL 411 with a minimum grade of C- and BIOL 412 with a minimum grade of C-).**Equivalent(s):** BMS 704**Grade Mode:** Letter Grading**BSCI 680 - Pharmacology****Credits:** 4

This course is designed to cover the concepts of basic pharmacology and drug therapy. It includes examination of the body systems and the related drugs therapy within each system. It explores the basic drug groups, key similarities and differences among drugs in each group. Emphasis is placed on the mechanism of action for each group and how these medications act in relation to normative and pathophysiology. The therapeutic use and adverse effects of drugs as well as understanding recreational drug use will be included. No credit if credit received for UMST 599 Pharmacology.

**Prerequisite(s):** (BIOL 413 with a minimum grade of C- and BIOL 414 with a minimum grade of C-) or (BMS 507 with a minimum grade of C- and BMS 508 with a minimum grade of C-) or (BIOL 411 with a minimum grade of C- and BIOL 412 with a minimum grade of C-).**Mutual Exclusion:** No credit for students who have taken BMCB 760.**Grade Mode:** Letter Grading**BSCI 692 - Evolutionary Medicine****Credits:** 4

This course introduces the theory of evolution by natural selection and the influence of evolutionary theory on our understanding of the cause and treatment of human disease. Topics covered include evolutionary theory, natural selection, human evolution, pathogen evolution, evolutionary mismatch, and the evolution of aging, cancer, and reproduction.

**Attributes:** Writing Intensive Course**Prerequisite(s):** GEN 604 with a minimum grade of C-.**Grade Mode:** Letter Grading**BSCI 695 - Exploring Biology Teaching****Credits:** 1-4

Students assist in teaching labs in undergraduate courses supervised by the lab coordinator/instructor. Responsibilities include facilitating lab endeavors, giving a presentation, and writing a report.

**Repeat Rule:** May be repeated for a maximum of 4 credits.**Equivalent(s):** BIOL 695**Grade Mode:** Letter Grading**BSCI 701 - Senior Seminar I****Credits:** 1

To be taken during the last two semesters of the senior year as students complete their Capstone project. Course emphasizes written and oral communication, discussion of current topics in biology, and career guidance. Fall and spring semester.

**Grade Mode:** Credit/Fail Grading**BSCI #735 - Cell Biology****Credits:** 4

This course is an upper level biology class that expands on the basic knowledge of cellular structure and function. The focus is on molecular biology and cell signaling. Experiments by preeminent scientists are explored and analyzed.

**Prerequisite(s):** BIOL 413 with a minimum grade of C- and BIOL 414 with a minimum grade of C- and CHEM 403 with a minimum grade of C- and CHEM 404 with a minimum grade of C-.**Equivalent(s):** BMCB 605**Grade Mode:** Letter Grading

**BSCI 737 - Microbial Genomics****Credits:** 0 or 4

Microbial genomics (primarily bacteria and bacteriophages) and genome-scale approaches to addressing questions in microbial physiology and pathogenesis are the focus of the course. Large-scale sequencing projects, genome structure and evolution, metagenomics, and other challenges in comparative genomics are discussed. Hands-on wet laboratory and bioinformatics projects are included in this laboratory-lecture course.

**Prerequisite(s):** GEN 604 with a minimum grade of C- and BMS 503 with a minimum grade of C- and BMS 504 with a minimum grade of C-.

**Grade Mode:** Letter Grading**Special Fee:** Yes**BSCI 740 - Aquatic Microbiology****Credits:** 4

Lectures and labs focus on Lake Massabesic and its use as the source of supply as the drinking water for approximately 160,000 New Hampshire residents. The course covers a basic history of the Lake, the importance of watershed protection, EPA regulations, and standards and the various techniques and methods available to analyze water for basic quality. No credit for students who have earned credit for UMST 599 Aquatic Microbiology.

**Attributes:** Writing Intensive Course

**Prerequisite(s):** BMS 503 with a minimum grade of C- and BMS 504 with a minimum grade of C-.

**Grade Mode:** Letter Grading**Special Fee:** Yes**BSCI 750 - Cancer Biology: From Benchtop Research to Therapeutic Interventions****Credits:** 4

The development and progression of cancer can be defined by several molecular and cellular biological characteristics. In this course, we will utilize primary literature to begin to understand (1) how specific cellular processes are altered during cancer initiation and progression; (2) how different cancers and the genetic landscape underlying them are being studied using models in the laboratory; and (3) how innovative therapeutics are being designed to target tumors based upon their individual molecular signatures.

**Prerequisite(s):** GEN 604 with a minimum grade of C-.

**Grade Mode:** Letter Grading**BSCI 792 - Research****Credits:** 1-4

Advanced independent research under the direction of a faculty mentor. Content area to be determined in consultation with faculty member. Prereq: permission. Up to 4 credits may be applied to self-designed concentration. Up to 4 credits may be applied to the Capstone requirement. Fall and spring semester.

**Repeat Rule:** May be repeated for a maximum of 8 credits.

**Grade Mode:** Credit/Fail Grading**BSCI 793 - Internship****Credits:** 1-4

Field-based learning opportunities in the biological sciences through placement in the appropriate outside agency, under the direction of a faculty mentor and representative of outside agency. Content area to be determined in consultation with faculty mentor. Up to 4 credits may be applied to self-designed concentration. Up to 4 credits may be applied to the Capstone requirement. Fall and spring semester.

**Repeat Rule:** May be repeated for a maximum of 8 credits.

**Grade Mode:** Credit/Fail Grading**BSCI #794 - Clinical Microbiology Internship****Credits:** 4

Advanced instruction in clinical bacteriology, mycology, parasitology, and/or virology at a local hospital or reference laboratory. Isolation, identification, determination of antibiotic sensitivities, and modern advanced testing for common pathogens are emphasized.

**Prerequisite(s):** BMS 602 with a minimum grade of C-.

**Equivalent(s):** BMS 751, BMS 761

**Grade Mode:** Credit/Fail Grading**BSCI 795 - Independent Study****Credits:** 1-4

Advanced individual study under the direction of a faculty mentor. Content area to be determined in consultation with faculty mentor. Up to 4 credits may be applied to self-designed concentration. Up to 4 credits may be applied to the Capstone requirement. Fall and spring semester.

**Repeat Rule:** May be repeated for a maximum of 8 credits.

**Grade Mode:** Credit/Fail Grading**BSCI 797 - Special Topics in Biology****Credits:** 1-4

This course explores and investigates topics in biology and biotechnology that would not normally be covered in other courses in the curriculum.

**Repeat Rule:** May be repeated for a maximum of 12 credits.

**Grade Mode:** Letter Grading**BSCI 798 - Special Laboratory Topics in Biology****Credits:** 0-4

This laboratory course explores and investigates advanced topics in biology that would not normally be covered in other courses in the curriculum.

**Repeat Rule:** May be repeated for a maximum of 12 credits.

**Grade Mode:** Letter Grading

## Biology (BIOL)

# Course numbers with the # symbol included (e.g. #400) have not been taught in the last 3 years.

**BIOL 400 - Professional Perspectives on Biology****Credits:** 1

Where can a degree in biology take me? This course views the scope of biology and explores professional opportunities for biological science majors. Guest speakers from on- and off-campus present seminars and lead discussions on contemporary issues in biology. This course will help you learn the skills required to succeed in biology and develop strategies for college success. Today, the field is multidimensional, offering many career opportunities for the future. Required for all first semester biology majors.

**Grade Mode:** Credit/Fail Grading**BIOL 402 - Biology in our Daily Lives****Credits:** 4

Students will learn about the nature and practice of science as it relates to biology, and the ways in which our activities have a biological impact on the world around us. Throughout the course, the students will examine the biological messages with which we are constantly bombarded, and by linking background scientific principles to those messages, practice distinguishing science from pseudoscience.

**Attributes:** Biological Science(Discovery)**Grade Mode:** Letter Grading

**BIOL 408 - Plants and Civilization****Credits:** 4

Global experience of human interactions with plants, and the ways in which plants have contributed to the development and the flourishing of human societies. Includes role of plants in providing sustenance, clothing and shelter, quest for spices, the historical consequences of plant explorations and exploitations, the power to heal or kill, plants in mythology and spiritual endeavors, plants that alter consciousness, plant diseases and human history, plants as energy for society, and the Green Revolution in global change and feeding the world in the future.

**Attributes:** Biological Science(Discovery); Discovery Lab Course**Equivalent(s):** PBIO 400**Grade Mode:** Letter Grading**Special Fee:** Yes**BIOL 409 - Green Life: Introducing the Botanical Sciences****Credits:** 0 or 4

All human and other animal life on earth depends upon green life: i.e., the plant world. In its diverse forms, green life is the ultimate source of our food, and of the atmospheric breath of life: oxygen. This course explores the structure, function, growth, reproduction, and remarkable evolutionary diversity of plants in their natural and human-influenced environments. Lab.

**Attributes:** Biological Science(Discovery); Discovery Lab Course**Equivalent(s):** BOT 412, PBIO 412**Grade Mode:** Letter Grading**Special Fee:** Yes**BIOL 410 - Principles of Molecular and Cellular Biology****Credits:** 3

Introduction to structure and function of cells, tissues and organs, physiological processes; genes and heredity. No Laboratory. All COLSA and pre-professional health students should take BIOL 411, (with lab).

**Attributes:** Biological Science(Discovery)**Grade Mode:** Letter Grading**BIOL 411 - Introductory Biology: Molecular and Cellular****Credits:** 0 or 4

Introduction to structure and function of cells; tissues and organs; physiological processes; genes and heredity. Required for majors in the biological sciences. Lab. Students not permitted to enroll in BIOL 411 and BIOL 412 in the same semester.

**Attributes:** Biological Science(Discovery); Discovery Lab Course; Inquiry (Discovery)**Equivalent(s):** BIOL #411H**Mutual Exclusion:** No credit for students who have taken BIOL 413.**Grade Mode:** Letter Grading**Special Fee:** Yes**BIOL #411H - Honors/Principles of Biology I****Credits:** 0 or 4

Introduction to structure and function of cells, tissues and organs, physiological processes and genes and heredity. Required for majors in the biological sciences. Lab.

**Attributes:** Biological Science(Discovery); Discovery Lab Course; Honors course; Inquiry (Discovery)**Equivalent(s):** BIOL 411**Mutual Exclusion:** No credit for students who have taken BIOL 413.**Grade Mode:** Letter Grading**Special Fee:** Yes**BIOL 412 - Introductory Biology: Evolution, Biodiversity and Ecology****Credits:** 0 or 4

Evolution is the paradigm through which we understand Biology. This course will introduce students to evolutionary concepts that underlie the tremendous biodiversity present on Earth, and explore the ecological interactions that occur among individuals and species. Indoor and outdoor lab activities. Required for majors in the biological sciences. Students are not permitted to enroll in BIOL 411 and BIOL 412 in the same semester. Lab.

**Attributes:** Biological Science(Discovery); Discovery Lab Course; Inquiry (Discovery)**Equivalent(s):** BIOL 412H**Mutual Exclusion:** No credit for students who have taken BIOL 414.**Grade Mode:** Letter Grading**Special Fee:** Yes**BIOL 412H - Honors/Introductory Biology: Evolution, Biodiversity, and Ecology Laboratory****Credits:** 0 or 4

Evolution is the paradigm through which we understand Biology. This course will introduce students to evolutionary concepts that underlie the tremendous biodiversity present on Earth, and explore the ecological interactions that occur among individuals and species. Indoor and outdoor lab activities. Required for majors in the biological sciences. Students are not permitted to enroll in BIOL 411 and BIOL 412 in the same semester. Lab.

**Attributes:** Biological Science(Discovery); Discovery Lab Course; Honors course; Inquiry (Discovery)**Equivalent(s):** BIOL 412**Mutual Exclusion:** No credit for students who have taken BIOL 414.**Grade Mode:** Letter Grading**Special Fee:** Yes**BIOL 413 - Principles of Biology I****Credits:** 0 or 4

Lecture and Laboratory introduction to biological principles; cell structure, function, replication, energetics and transport mechanisms; physiological processes; Mendelian, molecular genetics and gene technology. Required for students majoring in the life sciences. Lab.

**Attributes:** Biological Science(Discovery); Discovery Lab Course; Inquiry (Discovery)**Mutual Exclusion:** No credit for students who have taken BIOL 411, BIOL #411H.**Grade Mode:** Letter Grading**Special Fee:** Yes**BIOL 414 - Principles of Biology II****Credits:** 0 or 4

Lecture and laboratory survey of the five kingdoms of life; physiology of cells, tissues, organs, and organ systems; evolution; human impact on the biosphere. Required for students majoring in the life sciences. Cannot be taken for credit after BIOL 412 or equivalent. Lab.

**Attributes:** Biological Science(Discovery); Discovery Lab Course**Mutual Exclusion:** No credit for students who have taken BIOL 412, BIOL 412H.**Grade Mode:** Letter Grading**Special Fee:** Yes

**BIOL 420 - Introduction to Forensic Sciences****Credits:** 0 or 4

Explore the forensic sciences! How do you collect, preserve, and analyze evidence related to a crime scene investigation? Hear from the experts and apply scientific principles and techniques in laboratory exercises that follow a crime scene scenario. The goal of this class will be to provide students with an understanding of what criminalistics entails and to prepare them for additional, more in-depth classes in criminalistics or forensic science.

**Attributes:** Biological Science(Discovery); Discovery Lab Course**Grade Mode:** Letter Grading**Special Fee:** Yes**BIOL 430 - Biology of the City****Credits:** 4

This course explores biological systems, functions, and interaction of organisms in an urban environment. Using the campus as our laboratory, the course will progress from exploring the effects of urbanization on biodiversity, biological responses to urbanization, urban forestry, urban agriculture, and conclude with topics in sustainable urban development and conservation. Students in the course will develop an understanding of ecological concepts, problems, and solutions to improving ecological systems of urban areas.

**Attributes:** Biological Science(Discovery); Discovery Lab Course**Grade Mode:** Letter Grading**BIOL 444A - Biotechnology and Society****Credits:** 4

The history and science of biotechnology and genetic engineering of bacteria, plants, and animals including humans. Applications of DNA technology, cloning and genetic engineering to agriculture, biomedicine, industrial products, and environmental problems. Discussion of economic, social, environmental, legal, and ethical issues related to the applications of biotechnology and genetic engineering.

**Attributes:** Environment,TechSociety(Disc); Inquiry (Discovery)**Mutual Exclusion:** No credit for students who have taken BIOT 422, BSCI 422.**Grade Mode:** Letter Grading**BIOL 444B - Current Controversial Issues in Biology****Credits:** 4

An inquiry into current controversial issues in biology and their scientific and technical bases, but with an emphasis on exploring the various perspectives or beliefs related to each topic and their social and environmental implications.

**Attributes:** Biological Science(Discovery); Inquiry (Discovery)**Grade Mode:** Letter Grading**BIOL #495 - Research Experience in Biological Sciences****Credits:** 1-2

Hands-on research experience for high school students and UNH freshmen under the supervision of a Biological Sciences faculty member. This independent-study course introduces students to the research process and requires them to undertake a research project that involves laboratory and/or field work. Before a student can register for the course, he/she must meet with a Biological Sciences faculty member who will serve as mentor and supervisor, and the two of them must have a formal agreement on the specific research activities that the student must carry out.

**Repeat Rule:** May be repeated for a maximum of 4 credits.**Grade Mode:** Letter Grading**BIOL 510 - Mushrooms, Molds, and Mildews: Introduction to the Fungal Kingdom****Credits:** 4

Fungi are a fascinating group of organisms that occupy nearly every habitat on the planet. We encounter fungi in everyday life from the dangerous to the delicious. This course is a fun, approachable introduction to the world of fungi. Students will learn about the role fungi play in human society, review basic concepts of fungal biology and discuss important issues of our time: how we use fungi to make medicines, how fungi feed us, how plant diseases and food spoilage affect food supply, and how fungi contribute to ecosystem functioning.

**Grade Mode:** Letter Grading**BIOL 520 - Our Changing Planet****Credits:** 4

Ecosystem interrelations and factors critical to maintain sustainability will be addressed in this course. Environmental issues such as water usage, pollution, and treatment; air and soil quality; fossil fuels and alternative energy sources will be presented. Not for credit if credit earned for ENE 520.

**Attributes:** Environment,TechSociety(Disc)**Equivalent(s):** CIE 520, ENCV 520, ENE 520**Grade Mode:** Letter Grading**BIOL 528 - Applied Biostatistics I****Credits:** 4

Knowledge of biostatistics is essential to understanding our observations of life on Earth and properly design and conduct scientific research. Students develop skills in organizing data and performing, presenting, and interpreting statistical analyses. Theoretical concepts are applied using statistical software(s) and prepared biological data. Topics include descriptive statistics, continuous and discrete probability distributions, inferential statistics, confidence intervals, hypothesis testing for a difference of means and proportions, linear regression, non-parametric hypothesis testing, and graphing.

**Attributes:** Quantitative Reasoning(Disc)**Mutual Exclusion:** No credit for students who have taken ADM 430, ADMN 420, ADMN 510, EREC 525, HHS 540, MATH 439, MATH 539, MATH 644, PSYC 402, PSYC 402H, SOC 402, SOC #402H, SOC 502, SOC 502H.**Grade Mode:** Letter Grading**BIOL 541W - Ecology****Credits:** 0 or 4

Physical and biological factors affecting distribution, abundance, and adaptations of organisms. Population, community, and ecosystem structure and function. Lab.

**Attributes:** Writing Intensive Course**Prerequisite(s):** (BIOL 411 with a minimum grade of D- or BIOL #411H with a minimum grade of D- or BIOL 413 with a minimum grade of D- or NR 439 with a minimum grade of D-) and (BIOL 412 with a minimum grade of D- or BIOL 412H with a minimum grade of D- or BIOL 414 with a minimum grade of D-).**Equivalent(s):** BIOL 541**Grade Mode:** Letter Grading**Special Fee:** Yes

**BIOL #550 - Mushroom Madness****Credits:** 3

An intensive 2-week summer field and lab course that emphasizes the identification of mushrooms and other macrofungi that occur in New England forests. The role of mycorrhizal fungi, decomposers, and pathogens in forest ecosystems will be examined. Recent changes in our understanding of the evolution and systematics of macrofungi will be explored. Collecting trips to the White Mountain National Forest, NH and Massachusetts state and town forests will be followed by lab identification sessions that utilize traditional methods (microscopy, spore prints, staining reactions) as well as modern molecular techniques (DNA barcoding, RFLP). Smart phone apps will be used for recording field notes and images, and for uploading observations to on-line repositories (iNaturalist and MushroomObserver). One overnight field trip will be scheduled.

**Grade Mode:** Letter Grading**Special Fee:** Yes**BIOL 566 - Systematic Botany****Credits:** 0 or 4

Scientific basis of plant taxonomy and the identification and classification of major plant families, native trees, shrubs, and wildflowers. Field trips, plant collection. Lab.

**Prerequisite(s):** (BIOL 412 with a minimum grade of D- or BIOL 412H with a minimum grade of D- or BIOL 414 with a minimum grade of D- or BIOL 409 with a minimum grade of D-).

**Equivalent(s):** PBIO 566**Grade Mode:** Letter Grading**Special Fee:** Yes**BIOL 600 - Field Experience****Credits:** 1-4

A supervised experience providing the opportunity to apply academic experience in settings associated with future professional employment and/or related graduate opportunities. Must be approved by a faculty adviser selected by the student.

**Repeat Rule:** May be repeated for a maximum of 8 credits.**Grade Mode:** Credit/Fail Grading**BIOL 601 - Biology and Ecology of Plants****Credits:** 4

Because plants can't move, they have evolved extraordinary adaptations that allow them to inhabit a wide variety of environments and respond to environmental changes. This course introduces students to these adaptations by focusing on how the relationship between plants and their environment has influenced their morphology, physiology, community structure, and distribution. Emphasis is on terrestrial plants. Labs will be field-based. Lab.

**Prerequisite(s):** (BIOL 412 with a minimum grade of D- or BIOL 412H with a minimum grade of D- or BIOL 414 with a minimum grade of D-).

**Grade Mode:** Letter Grading**BIOL 633 - Data Analysis for Life Science****Credits:** 4

Expand your statistical knowledge and resume by learning R. Use project-based learning to explore topics such as inequalities of life expectancy, heart disease and risk behaviors, biomagnification of ecotoxins, and impacts of ticks on wildlife populations while learning statistical skills and R. In this course students will learn to become proficient in R (data manipulation, graphing, hypothesis testing, importing and cleaning data) and learn to effectively communicate statistical results.

**Grade Mode:** Letter Grading**BIOL #675 - Medical Botany****Credits:** 4

This course is an integrated study of the medical, psychoactive, and poisonous plants, their active constituents their physiological effects on people, their mode of action and their role in historical and current medical practice. Emphasis is placed on the impact that plants have on human health. Students will take an active role in class, and will develop their own knowledge of medicinal plants through guided discussions and in-class group activities.

**Prerequisite(s):** (BIOL 411 with a minimum grade of D- or BIOL #411H with a minimum grade of D- or BIOL 413 with a minimum grade of D-) and (BIOL 412 with a minimum grade of D- or BIOL 412H with a minimum grade of D- or BIOL 414 with a minimum grade of D-).

**Grade Mode:** Letter Grading**BIOL 695 - Biology Teaching Practices****Credits:** 1-4

Students assist instructor in biology course labs. Responsibilities may include assisting instructors with field trips, lab set-up and clean-up, helping students during lab and field exercises, presenting material, and creating a project that enhances the curriculum. You may be expected to present material or create a project that enhances the curriculum. This course is by invitation only.

**Repeat Rule:** May be repeated for a maximum of 4 credits.**Equivalent(s):** BSCI 695**Grade Mode:** Letter Grading**BIOL 700 - Current and Controversial Issues in Biology****Credits:** 4

This course explores current issues in the biological sciences that are controversial and have a significant impact on individuals and society. Issues related to human population growth, evolution, cloning, synthetic biology, genetically modified organisms, free will, etc. Biology capstone. Only open to Animal Science, Zoology, Neuroscience and Behavior, Biology, Marine & Freshwater Biology, and Sust Agriculture & Food Systems majors.

**Grade Mode:** Letter Grading**BIOL 701 - Plant Physiology****Credits:** 4

Knowledge about principles of plant physiology is critical to understand how plants work and what happens between planting a seed and picking up a flower or a fruit. This course focuses on fundamentals of plant physiology and metabolism using lecture and laboratory investigations. Lecture topics include: plant-water relations, mineral nutrition, photosynthesis and respiration, plant metabolism, signaling and hormones, growth and development, and plant-environment interactions. Labs will be project-based and students will conduct experiments to explore basic plant processes.

**Prerequisite(s):** (SAFS 421 with a minimum grade of D- or BIOL 409 with a minimum grade of D- or BIOL 411 with a minimum grade of D- or BIOL #411H with a minimum grade of D- or BIOL 413 with a minimum grade of D-) and (BIOL 412 with a minimum grade of D- or BIOL 412H with a minimum grade of D- or BIOL 414 with a minimum grade of D-) and (CHEM 411 with a minimum grade of D- or CHEM 403 with a minimum grade of D-).

**Grade Mode:** Letter Grading

**BIOL 704 - Plant-Microbe Interactions****Credits:** 3

Microbes and plants have developed intriguing strategies to encourage, resist or profit from their coexistence. The primary objective of the course is to provide students with a comprehensive overview of the various ways in which microbes interact with plants, the outcomes of that interplay, and applications of these interactions and explore how these interactions impact ecosystem function.

**Prerequisite(s):** (BIOL 411 with a minimum grade of D- or BIOL #411H with a minimum grade of D- or BIOL 413 with a minimum grade of D-) and (BIOL 412 with a minimum grade of D- or BIOL 412H with a minimum grade of D- or BIOL 414 with a minimum grade of D-) and (GEN 604 with a minimum grade of D- or (BMS 503 with a minimum grade of D- and BMS 504 with a minimum grade of D-)).

**Grade Mode:** Letter Grading**BIOL 706 - Data Science with R for the Life Sciences****Credits:** 4

Introduces students to the basic data analysis and programming tools commonly used throughout the life sciences. Students will become proficient in R programming, data wrangling and cleaning, the principles of open and reproducible science, SQL database management, version control via Git/Github, building maps, and Bash command lines. Data sets and case studies from across the life sciences will be used throughout the course. The class culminates with an small group project.

**Grade Mode:** Letter Grading**BIOL 709 - Plant Stress Physiology****Credits:** 3

Plants cannot move in order to avoid challenging environmental conditions. Hence, plants developed other mechanisms that allow them to cope with stress. This course focuses on the mechanisms deployed by plants to respond to stressful conditions, some responses being nothing short of chemical and biological warfare. Biotic and abiotic stresses covered include pathogens, herbivores, drought, salinity, temperature, UV radiation, and heavy metals. Agricultural and ecological implications are discussed.

**Equivalent(s):** PBIO 709**Grade Mode:** Letter Grading**BIOL 711 - Experimental Design & Analysis****Credits:** 4

Design and analysis of biological and ecological research experiments. "Real world" studies used to discuss the identification of hypotheses, appropriate experimental design, and the application of statistical analyses including ANOVA, ANCOVA, correlation and regression, cluster analysis, classification and ordination techniques. Theoretical statistical concepts tailored to consider students' own thesis and dissertation research, allowing statistical problems to be addressed at various stages of the research process. Common computer packages used for analyses include Excel, JMP, Systat, and R.

**Grade Mode:** Letter Grading**BIOL 714W - Model Organisms in Biological and Medical Research****Credits:** 2

Animals, plants, and microbes serve as powerful tools for both basic and biomedical research. This course integrates historical, philosophical, sociological, and biological perspectives to examine how models are chosen and used. and how to evaluate their strengths and weaknesses. Students will study particular model species in depth, and address general epistemological questions about the choice and use of model organisms. This course is designed for graduate students and advanced undergraduates interested in research. 58 hours of Undergrad Coursework, including advanced study in at least one specified area required.

**Attributes:** Writing Intensive Course**Equivalent(s):** BIOL 714**Grade Mode:** Letter Grading**BIOL 720 - Plant-Animal Interactions****Credits:** 4

Animals and plants engage in a range of interactions, from plant-pollinator and plant-ant mutualisms to plant-herbivore and carnivorous plant antagonisms. This course will explore the consequences of a variety of interactions on the evolution of traits in both animals and plants, considering implications for both conservation and agriculture. Weekly recitation.

**Prerequisite(s):** (BIOL 412 with a minimum grade of D- or BIOL 412H with a minimum grade of D- or BIOL 414 with a minimum grade of D-).

**Grade Mode:** Letter Grading**BIOL 752 - New England Mushrooms: a Field and Lab Exploration****Credits:** 4

This is a hands-on field, lab and lecture course in the identification, classification, life histories, and ecology of mushrooms and other macrofungi. Lectures focus on macrofungal ecology and systematics. Laboratory instruction emphasizes morphological, microscopic, and molecular identification techniques, plus the use of smart-phone field note recording and on-line resources. Several field trips are required in addition to the weekly laboratory. Previous experience with fungi is not required. Grades are based on a collection, a project, and presentations. **Prerequisite(s):** ((BIOL 411 with a minimum grade of D- or BIOL #411H with a minimum grade of D- or BIOL 413 with a minimum grade of D-) or (BIOL 412 with a minimum grade of D- or BIOL 412H with a minimum grade of D- or BIOL 414 with a minimum grade of D-)) or BIOL 409 with a minimum grade of D-.

**Equivalent(s):** BOT 752, PBIO 752**Grade Mode:** Letter Grading**Special Fee:** Yes**BIOL 770 - Senior Seminar in Biology****Credits:** 2

Explore and synthesize your undergraduate biological knowledge and skills through an integrated outlook at a topic relating to your professional future. Each semester revolves around a different overarching topic on which students read assigned topical papers, prepare critical analyses, and give presentations to the class.

**Grade Mode:** Letter Grading

**BIOL 780 - Capstone Companion Course****Credits:** 1

This course is the required companion course to a student's individual capstone experience. It must be taken during the same semester as the individual experience, or in the fall immediately following a summer experience. This course will help connect a student's individual capstone experience to their broader academic program, and will be a forum for sharing individual experiences with peers. Thesis students should enroll in BIOL 780 during the second semester of the thesis. Should also be taken with a pre-approved individual capstone experience.

**Grade Mode:** Credit/Fail Grading**BIOL 795 - Independent Investigations in Biology****Credits:** 1-4

Independent study in a topic related to Biology, arranged by the student with a faculty sponsor. Enrollment by permission only.

**Repeat Rule:** May be repeated for a maximum of 8 credits. May be repeated up to 5 times.

**Equivalent(s):** BIOL 795W**Grade Mode:** Letter Grading**BIOL 795W - Independent Investigations****Credits:** 1-4

Topics may include teaching or research practicum in a biological science, supervised by a faculty member.

**Attributes:** Writing Intensive Course

**Repeat Rule:** May be repeated for a maximum of 4 credits.

**Equivalent(s):** BIOL 795**Grade Mode:** Letter Grading**BIOL 799H - Honors Senior Thesis****Credits:** 2-8

Independent research requiring a written proposal, a thesis, and a final public presentation (e.g. the Undergraduate Research Conference). Intended for biology majors completing biology Honors-in-major requirements. Contact biology program coordinator prior to senior year to arrange supervision and obtain permission. Two consecutive semesters. (4 credit minimum total; 8 credits maximum).

**Attributes:** Honors course; Writing Intensive Course

**Repeat Rule:** May be repeated for a maximum of 8 credits.

**Equivalent(s):** BIOL 799**Grade Mode:** Letter Grading

## Biomedical Science (BMS)

# Course numbers with the # symbol included (e.g. #400) have not been taught in the last 3 years.

**BMS 401 - Professional Perspectives in Biomedical Sciences****Credits:** 1

Introduction to the major and the options in Biomedical Sciences. Strategies for successfully achieving academic and professional goals in the biomedical sciences. Professional opportunities for BMS majors are presented.

**Equivalent(s):** MEDT 401, MLS 401**Grade Mode:** Credit/Fail Grading**BMS 405 - In Sickness and in Health: Understanding Why Bodies Fail****Credits:** 4

This course describes the basic structure and function of various organs and systems, then discuss many common diseases and conditions that impact humans, such as meningitis, Alzheimer's, diabetes, HIV/AIDS, asthma, and schizophrenia. Primary focus is on the physical process of disease but the course will also examine the emotional and social impact of certain diseases.

**Attributes:** Biological Science(Discovery)**Grade Mode:** Letter Grading**BMS 407 - Germs 101****Credits:** 4

Societal and technological impact of the invisible microbial world on our lives and on the planet. Weekly extra-class activities enable students to use the scientific method of inquiry to explore topics like bacteria that use sunlight to live or use of bacteria in genetic engineering.

Presents germs from different perspectives: as living organisms, as human enemies or friends, and as represented in newspapers or on TV. Especially useful for people with microphobia. No credit for BMS or Biology majors.

**Attributes:** Biological Science(Discovery)**Equivalent(s):** BIOL 407, BMS 408, MICR 407**Grade Mode:** Letter Grading**BMS 408 - Germs 101****Credits:** 4

Online version of BMS 407. Societal and technological impact of the invisible microbial world on our lives and on the planet. Weekly extra-class activities enable students to use the scientific method of inquiry to explore topics like bacteria that use sunlight to live or the use of bacteria in genetic engineering. Presents germs from different perspectives: as living organisms, as human enemies or friends, and as represented in newspapers or on TV. Especially useful for people with microphobia. No credit for BMS or Biology majors.

**Attributes:** Biological Science(Discovery)**Equivalent(s):** BMS 407, MICR 407**Grade Mode:** Letter Grading**Special Fee:** Yes**BMS 501 - Microbes in Human Disease****Credits:** 4

Identification, pathogenesis, epidemiology, treatment, and prevention of medically important microorganisms. The biology of clinically relevant bacteria, viruses, fungi, and parasites is presented in relation to disease progress and host defense mechanisms. Clinical correlations that indicate microbes are causative agents of disease are emphasized. The laboratory introduces techniques for identification of pathogenic microorganisms to reinforce and expand the theoretical content. Lab.

**Attributes:** Biological Science(Discovery); Discovery Lab Course**Equivalent(s):** BMS 501H, MICR 501, MICR 501H, MICR 502**Grade Mode:** Letter Grading**Special Fee:** Yes

**BMS 503 - General Microbiology****Credits:** 3

Principles of microbiology; morphology, physiology, genetics, culture, and classification of bacteria and other microorganisms; relationships of microbes to agriculture, environment, industry, sanitation, and infectious diseases.

**Co-requisite:** BMS 504

**Prerequisite(s):** (BIOL 411 with a minimum grade of D- or BIOL #411H with a minimum grade of D- or BMS 507 with a minimum grade of D- or BIOL 413 with a minimum grade of D-) and ((CHEM 403 with a minimum grade of D- and (CHEM 404 with a minimum grade of D-) or CHEM 404H with a minimum grade of D-) or CHEM 405 with a minimum grade of D-).

**Equivalent(s):** MICR 503**Grade Mode:** Letter Grading**BMS 504 - General Microbiology Laboratory****Credits:** 2

Practical laboratory training in general microbiology. Topics include safe handling, visualization, and physiological identification of microorganisms with special attention given to aseptic technique.

**Co-requisite:** BMS 503

**Prerequisite(s):** (BIOL 411 with a minimum grade of D- or BIOL #411H with a minimum grade of D- or BMS 507 with a minimum grade of D- or BIOL 413 with a minimum grade of D-) and ((CHEM 403 with a minimum grade of D- and (CHEM 404 with a minimum grade of D-) or CHEM 404H with a minimum grade of D-) or CHEM 405 with a minimum grade of D-).

**Grade Mode:** Letter Grading**Special Fee:** Yes**BMS 507 - Human Anatomy and Physiology I****Credits:** 0 or 4

Cellular and systematic aspects of the human body. Laboratory exercises utilize preserved specimens, dissectible models, living tissue and computer-aided instruction. Systems covered include: the cell, chemistry, tissues, integument, osseous tissue and the skeleton, muscular tissue and muscles, nerves, the brain, spinal cord, autonomic nervous system, and special senses. Lab.

**Attributes:** Biological Science(Discovery); Discovery Lab Course**Mutual Exclusion:** No credit for students who have taken ANSC 511.**Grade Mode:** Letter Grading**Special Fee:** Yes**BMS 508 - Human Anatomy and Physiology II****Credits:** 0 or 4

Cellular and systematic aspects of the human body. Laboratory exercises utilize preserved specimens, dissectible models, living tissue and computer-aided instruction. Systems covered include: endocrine, blood, cardiovascular, respiratory, immune, digestive and metabolism, urinary, acid-base and electrolyte balance, reproductive.

**Attributes:** Biological Science(Discovery); Discovery Lab Course

**Prerequisite(s):** BIOL 411 with a minimum grade of D- or BMS 507 with a minimum grade of D- or BIOL 413 with a minimum grade of D-.

**Mutual Exclusion:** No credit for students who have taken ANSC 512.**Grade Mode:** Letter Grading**Special Fee:** Yes**BMS 560 - Body Fluids****Credits:** 3

The study of diseases and disorders through the analysis of extra-vascular body fluids. Emphasizes renal anatomy and physiology, and diseases and metabolic disorders affecting renal function.

**Equivalent(s):** BMS 660, MEDT 665, MLS 660, MLS 665**Grade Mode:** Letter Grading**BMS 561 - Body Fluids Laboratory****Credits:** 1

Practical experience in the performance and clinical correlation of urinalysis and selected body fluid procedures.

**Co-requisite:** BMS 560**Equivalent(s):** BMS 661, MEDT 665, MLS 661, MLS 665**Grade Mode:** Letter Grading**Special Fee:** Yes**BMS 600 - Field Experience****Credits:** 1-4

Supervised experience providing the opportunity to apply academic experience in settings associated with future professional employment and/or related graduate opportunities. Must be approved by a faculty advisor selected by the student. Only 4 credits can be used toward the major.

**Repeat Rule:** May be repeated for a maximum of 8 credits.**Equivalent(s):** BMS 600W, MICR 600, MICR 600W**Grade Mode:** Credit/Fail Grading**BMS 602 - Pathogenic Microbiology****Credits:** 3

An introduction to microbial disease, with a focus on bacterial and viral diseases in humans and animals. This course examines the clinical presentation, laboratory diagnosis, and treatment of specific microbial pathogens. Molecular aspects of both microbial infection and host immune response are discussed. Case studies based on real clinical and research microbiology problems are presented.

**Prerequisite(s):** BMS 501 with a minimum grade of D- or (BMS 503 with a minimum grade of D- and BMS 504 with a minimum grade of D-).

**Equivalent(s):** MICR 602, MICR 700, MICR 800**Grade Mode:** Letter Grading**BMS 603 - Pathogenic Microbiology Laboratory****Credits:** 2

An introduction to morphologic, cultural, biochemical and pathogenic characteristics of microorganisms causing human and animal diseases. Laboratory exercises focus on both classical and modern laboratory diagnostic testing.

**Co-requisite:** BMS 602

**Prerequisite(s):** BMS 501 with a minimum grade of D- or (BMS 503 with a minimum grade of D- and BMS 504 with a minimum grade of D-).

**Grade Mode:** Letter Grading**Special Fee:** Yes**BMS 610 - Biomedical Lab Management****Credits:** 4

Overview of biomedical laboratory management, including lab operation, compliance, financial management, personnel management, information systems, and leadership.

**Attributes:** Writing Intensive Course**Equivalent(s):** MEDT 610, MLS 610**Grade Mode:** Letter Grading

**BMS 623 - Histology: Microscopic Cellular Structure and Function****Credits:** 4

Cellular structure, function, and physiology, as well as the interactions between cells in different organ systems, are examined at the microscopic level. Digital microscopic images are utilized to examine the cellular structure of all organ systems and the interactions between cells in these organs. Hybrid course with online lab.

**Prerequisite(s):** (ANSC 511 with a minimum grade of D- and ANSC 512 with a minimum grade of D-) or ((BIOL 411 with a minimum grade of D- or BIOL #411H with a minimum grade of D- or BMS 507 with a minimum grade of D- or BIOL 413 with a minimum grade of D-) and BMS 508 with a minimum grade of D-).

**Grade Mode:** Letter Grading**BMS 635 - Preceptorial in Prehospital Care****Credits:** 2

Practice and evaluation of prehospital care. Understand the roles of different provider levels in a healthcare setting. Students participate in ambulance activities, then discuss assessment and treatment of patients in the prehospital setting. Licensure by the New Hampshire Bureau of EMS required before course start date.

**Prerequisite(s):** KIN 684 with a minimum grade of D- and KIN 685 with a minimum grade of D-.

**Repeat Rule:** May be repeated for a maximum of 4 credits.

**Grade Mode:** Credit/Fail Grading**BMS 640 - Phlebotomy Theory****Credits:** 2

Theory and demonstration of procedures involved in blood collection with an emphasis on safety and professionalism. Hands-on practice of selected techniques.

**Equivalent(s):** MLS 640, MLS 650A

**Grade Mode:** Letter Grading**Special Fee:** Yes**BMS 641 - Phlebotomy Clinical Internship****Credits:** 1-2

Students obtain experience and proficiency in routine blood collection techniques at a health care facility (80 to 120 hours).

**Prerequisite(s):** BMS 640 with a minimum grade of D-.

**Equivalent(s):** MLS 641, MLS 650B

**Grade Mode:** Credit/Fail Grading**Special Fee:** Yes**BMS 642 - Clinical Immunology and Serology****Credits:** 2

Innate and specific immunity in the context of chemical and cellular responses to antigenic challenge. Also introduces the immunologic basis of autoimmunity, immune proliferation and deficiency, and hypersensitivity. Current clinical analytical methodologies and diagnostic criteria used to identify, differentiate and/or monitor these responses and conditions included.

**Prerequisite(s):** ((BIOL 411 with a minimum grade of D- or BIOL #411H with a minimum grade of D-) and (BIOL 412 with a minimum grade of D-) or BIOL 412H with a minimum grade of D-) or (BMS 507 with a minimum grade of D- and BMS 508 with a minimum grade of D-) or (ANSC 511 with a minimum grade of D- and ANSC 512 with a minimum grade of D-).

**Equivalent(s):** MEDT 651, MLS 642, MLS 651

**Grade Mode:** Letter Grading**BMS 643 - Clinical Serology Laboratory****Credits:** 2

Performance, interpretation and application of serological techniques for the diagnosis of immune system disorders.

**Co-requisite:** BMS 642

**Equivalent(s):** MEDT 651, MLS 643, MLS 651

**Grade Mode:** Letter Grading**Special Fee:** Yes**BMS 644 - Clinical Hematology****Credits:** 3

Human blood cell physiology in both health and disease. Includes benign and malignant conditions of red blood cells and white blood cells.

**Equivalent(s):** MLS 644, MLS 652

**Grade Mode:** Letter Grading**BMS 645 - Clinical Hematology Laboratory****Credits:** 2

Analysis of whole blood for cellular components with special emphasis on differentiating benign from malignant processes, as well as cellular identification by morphologic characteristics and cytochemical staining.

**Co-requisite:** BMS 644

**Equivalent(s):** MLS 645, MLS 652L

**Grade Mode:** Letter Grading**Special Fee:** Yes**BMS 646 - Clinical Hemostasis****Credits:** 1

Introduction to hemostasis through evaluation of platelets, blood vessels, coagulation factors and fibrinolysis, including dysfunction and disease states.

**Prerequisite(s):** BMS 644 (may be taken concurrently) with a minimum grade of D-.

**Grade Mode:** Letter Grading**BMS 650 - Molecular Diagnostics****Credits:** 4

Fundamental principles of molecular technology and techniques used in clinical laboratories such as nucleic acid extraction, DNA amplification, sequencing and hybridization, gel electrophoresis, and chromosome analysis. Prediction and detection of human disease (infectious disease, cancer, and other inherited disease), identity testing, molecular epidemiology, pharmacogenetics, and ethical issues. Previous knowledge of genetics and biochemistry lab techniques is highly recommended.

**Attributes:** Environment,TechSociety(Disc)

**Equivalent(s):** BMS 755, BSCI 765, MLS 755

**Grade Mode:** Letter Grading**BMS 655 - Human and Animal Parasites****Credits:** 3

Introduction to the parasitic process in humans and different animals indigenous to domestic and foreign areas of the world. Topics include epidemiology, infection, control, genetics, and immunology, as well as global economic consequences.

**Prerequisite(s):** BMS 503 with a minimum grade of D- and BMS 504 with a minimum grade of D-.

**Grade Mode:** Letter Grading

**BMS 656 - Immunohematology****Credits:** 3

The immunology of blood, including blood group systems and the critical role they play in safe transfusion medicine. Additional topics include blood collection, component use, transfusion reactions, and transfusion-transmitted infections.

**Equivalent(s):** MEDT 653, MLS 653, MLS 656**Grade Mode:** Letter Grading**BMS 657 - Blood Banking Laboratory****Credits:** 1

Hands-on experience in clinical blood banking practices including blood typing, antibody screening and identification, cross matching, and confirmatory testing.

**Co-requisite:** BMS 656**Equivalent(s):** MEDT 653, MLS 653, MLS 657**Grade Mode:** Letter Grading**Special Fee:** Yes**BMS 658 - Medical Biochemistry****Credits:** 3

Use of body fluids to assess specific disease states including the pathophysiology of the disease, pre-analytical issues, analytical methodologies, and instrumentation. Topics include the biochemistry of analytes (amino acids, proteins, enzymes, tumor markers, non-protein nitrogen metabolites, carbohydrates, lipids, electrolytes, blood gases, etc.), clinical endocrinology, toxicology and therapeutic drug monitoring.

**Prerequisite(s):** BMCB 658 with a minimum grade of D- and BMS 659 with a minimum grade of D- and (BIOL 528 with a minimum grade of D- or PSYC 402 with a minimum grade of D- or SOC 402 with a minimum grade of D- or MATH 439 with a minimum grade of D-).

**Equivalent(s):** MEDT 654, MLS 654, MLS 658**Grade Mode:** Letter Grading**BMS 659 - Clinical Chemistry Laboratory****Credits:** 2

Measurement of blood analytes such as proteins, glucose, electrolytes, and cholesterol, etc. Screening for drugs in urine and evaluation of clinical significance in human specimens. Principles of spectrometry, immunoassay, point-of-care testing, chromatography, mass spectrometry, electrophoresis, automation, and ion selective electrodes, with emphasis on instrumentation, quality control, and pre-analytical and analytical issues.

**Co-requisite:** BMS 658**Equivalent(s):** MLS 654L, MLS 659**Grade Mode:** Letter Grading**Special Fee:** Yes**BMS #699W - Independent Study in Biomedical Science****Credits:** 1-6

In-depth studies under faculty supervision.

**Attributes:** Writing Intensive Course**Repeat Rule:** May be repeated for a maximum of 16 credits.**Equivalent(s):** BMS 696, BMS 696W, BMS 699**Grade Mode:** Credit/Fail Grading**BMS 702 - Endocrinology****Credits:** 4

Structure and function of vertebrate endocrine systems through the lens of physiology, biochemistry, and cell and molecular biology, with special reference to mammals. Current investigations of the body's major endocrine glands, such as the brain, thyroid, pancreas, adrenals and gonads, as regulators and integrators of biological systems. BMS 605 recommended.

**Prerequisite(s):** BMS 605 with a minimum grade of D-.**Equivalent(s):** ANSC 702, BCHM 702**Grade Mode:** Letter Grading**BMS 703 - Infectious Disease and Health****Credits:** 4

Principles underlying the nature of infectious disease agents, including representative parasites, fungi, bacteria, viruses, and prions. Established pathogens and emerging human and animal disease agents highlighting zoonotic diseases. Epidemiology, pathogenesis, host immune response, disease transmission, treatment, and control. Weekly review and discussion of current world disease events.

**Prerequisite(s):** BMS 503 with a minimum grade of D- and BMS 504 with a minimum grade of D-.

**Equivalent(s):** MICR 702**Grade Mode:** Letter Grading**BMS 704 - Pathologic Basis of Disease****Credits:** 4

Principles and mechanisms of disease at the cellular and tissue levels, including responses to cell injury, death and adaptation, inflammation, circulatory disturbances, disorders of the immune system, and neoplasia. ANSC 511 and ANSC 512, or BMS 507 and BMS 508 recommended.

**Equivalent(s):** ANSC 704**Grade Mode:** Letter Grading**BMS 705 - Immunology****Credits:** 3

An introduction to the fundamental mechanisms of immune function. Topics include the cells and organs of the immune system, humoral and cellular immune responses, the generation of immune cells, and how immune cells fight various infectious pathogens. Coreq: BMS 715 for BMS:MM majors only.

**Prerequisite(s):** BMS 503 with a minimum grade of D- and BMS 504 with a minimum grade of D-.

**Equivalent(s):** MICR 705**Grade Mode:** Letter Grading**BMS 706 - Virology****Credits:** 3

Principles of animal and selected plant and bacterial virology in relation to infection and disease. Emphasizes the molecular biology of viruses, viral replication, isolation, propagation, assay, pathogenesis, diagnosis, detection, epidemiology, and control. Coreq: BMS 708 for BMS:MM majors only.

**Prerequisite(s):** BMS 503 with a minimum grade of D- and BMS 504 with a minimum grade of D-.

**Equivalent(s):** MICR 706**Grade Mode:** Letter Grading

**BMS 708 - Virology Laboratory****Credits:** 2

Principles and practices of animal, selected plants, and bacterial virological methods for the propagation, detection and enumeration of viruses.

**Co-requisite:** BMS 706**Prerequisite(s):** BMS 503 with a minimum grade of D- and BMS 504 with a minimum grade of D-.**Equivalent(s):** MICR 708**Grade Mode:** Letter Grading**Special Fee:** Yes**BMS 711 - Toxicology****Credits:** 4

Examination of mechanisms by which chemicals and other toxicants produce adverse effects in biological systems. Consideration of toxicant exposure and absorption, systemic and cellular distribution and metabolism, altered cellular mechanisms, and systemic and organ-specific effects of toxicity. Case-based discussions of toxicants affecting humans and other species in environmental and clinical contexts.

**Prerequisite(s):** BMB 658 with a minimum grade of D-.**Grade Mode:** Letter Grading**BMS 712 - Experiences in Applied Veterinary Diagnostics****Credits:** 2

Students interact with different components of a working veterinary diagnostic laboratory. Through group reviews of New Hampshire Veterinary Diagnostic Lab cases, students learn about diseases using cases tailored to individual student interests. Pathologists and NHVDL staff provide information on disease processes, pathogenesis, and testing modalities. Students observe diagnostic techniques and archived gross and digital tissue specimens. Emphasis is on integrating knowledge of anatomy, physiology, microbiology, immunology, etc. within the context of molecular pathogenesis.

**Prerequisite(s):** (BMS 507 with a minimum grade of D- and BMS 508 with a minimum grade of D-) or (ANSC 511 with a minimum grade of D- and ANSC 512 with a minimum grade of D-).**Repeat Rule:** May be repeated for a maximum of 4 credits. May be repeated up to 2 times.**Grade Mode:** Letter Grading**BMS 715 - Immunology Laboratory****Credits:** 2

This applied immunology laboratory course highlights both historic and current methodologies important for elucidation and diagnosis of immune function. Techniques used to study phagocytosis, antibody production, immunodiffusion, and T-cell function will be introduced. Applications of the antibody technologies to other scientific disciplines (ELISA, immunofluorescence microscopy, immunoblotting, etc.) will also be covered.

**Co-requisite:** BMS 705**Prerequisite(s):** BMS 503 with a minimum grade of D- and BMS 504 with a minimum grade of D-.**Equivalent(s):** MICR 715**Grade Mode:** Letter Grading**Special Fee:** Yes**BMS 715W - Immunology Laboratory****Credits:** 2

This applied immunology laboratory course highlights both historic and current methodologies important for elucidation and diagnosis of immune function. Techniques used to study phagocytosis, antibody production, immunodiffusion, and T-cell function will be introduced. Applications of the antibody technologies to other scientific disciplines (ELISA, immunofluorescence microscopy, immunoblotting, etc.) will also be covered.

**Co-requisite:** BMS 705**Attributes:** Writing Intensive Course**Prerequisite(s):** BMS 503 with a minimum grade of D- and BMS 504 with a minimum grade of D-.**Grade Mode:** Letter Grading**Special Fee:** Yes**BMS #716 - Public Health: Food- and Water-borne Diseases****Credits:** 4

How and why food-borne and water-borne agents (virus, protozoal, bacterial and toxic material) are still prevalent within our society with focus on the roles of government, disease and epidemiology, and sources of anthropogenic pollution. Field trips to wastewater plant and/or drinking water plant, town meetings and/or public policy hearings. Lab.

**Attributes:** Writing Intensive Course**Prerequisite(s):** BMS 503 with a minimum grade of D- and BMS 504 with a minimum grade of D-.**Equivalent(s):** MICR 714**Grade Mode:** Letter Grading**Special Fee:** Yes**BMS 718 - Mammalian Physiology****Credits:** 4

Advanced study of the systems that control mammalian functions with emphasis on cellular and molecular mechanisms. Includes the nervous, muscular, cardiovascular, renal, gastrointestinal, and endocrine systems.

**Attributes:** Writing Intensive Course**Prerequisite(s):** BMS 507 with a minimum grade of D- or BMS 508 with a minimum grade of D- or ANSC 511 with a minimum grade of D- or ANSC 512 with a minimum grade of D-.**Equivalent(s):** ANSC 718**Grade Mode:** Letter Grading**BMS 719 - Host-Microbe Interactions****Credits:** 4

An examination of the way microorganisms interact with their hosts, with an emphasis on the pathogenic and commensal organisms of humans. Course material is introduced via reading, analysis and group presentations of primary scientific literature. Students are not only introduced to different types of host-microbe interactions, but different methods, systems and model organisms used to study these interactions.

**Prerequisite(s):** (BMS 501 with a minimum grade of D- or (BMS 503 with a minimum grade of D- and BMS 504 with a minimum grade of D-)) and GEN 604 with a minimum grade of D-.**Grade Mode:** Letter Grading**BMS 720 - Mycology, Parasitology, and Virology****Credits:** 3

Theoretical basis of the pathogenesis, epidemiology, and diagnosis of fungal, parasitic, and viral infections.

**Prerequisite(s):** BMS 602 with a minimum grade of D- and BMS 603 with a minimum grade of D-.**Equivalent(s):** MEDT 720, MLS 720**Grade Mode:** Letter Grading

**BMS 721 - Mycology, Parasitology, and Virology Laboratory****Credits:** 2

Practical experience in medical mycology and parasitology diagnostic techniques. Isolation and identification of mycological and parasitological specimens. Principles and practices of proper specimen collections, analysis, and interpretation of results.

**Co-requisite:** BMS 720**Equivalent(s):** MLS 720L, MLS 721**Grade Mode:** Letter Grading**Special Fee:** Yes**BMS 725 - Cell Phenotyping and Tissue Engineering Laboratory****Credits:** 4

Introduction to culture and phenotyping of mammalian cells (cell line models), with applications to bioengineering and biomedical sciences. Skills, techniques, and knowledge covered include sterile technique, cell culture, cell line models, cell proliferation, cell survival, cell migration, cell adhesion, and drug response. Inquiry-based team projects investigate cell proliferation, cell death, transfection, flow cytometry, 3D scaffolds, or cell imaging.

**Prerequisite(s):** BMS 503 with a minimum grade of D- and BMS 504 with a minimum grade of D-.**Equivalent(s):** BMS 620**Grade Mode:** Letter Grading**Special Fee:** Yes**BMS 730 - Ethical Issues in Biomedical Science****Credits:** 4

An examination of the importance of scientific integrity in the biomedical sciences. Students are introduced to the ethical issues that scientists must be familiar with when conducting research. Issues include scientific record keeping, authorship and peer review, conflicts of interest, use of animals and humans in research, and recombinant DNA technology. Class is discussion-based, encouraging both an appreciation of established guidelines and an opportunity to critically examine them.

**Attributes:** Writing Intensive Course**Prerequisite(s):** (BIOL 411 with a minimum grade of D- or BIOL #411H with a minimum grade of D-) and GEN 604 with a minimum grade of D- and BMS 503 with a minimum grade of D- and BMS 504 with a minimum grade of D-.**Equivalent(s):** MICR 718**Grade Mode:** Letter Grading**BMS 735 - Molecular and Cellular Parasitology****Credits:** 4

Parasites continue to present a major challenge to public health. Despite their significant impact on human health, many aspects of the molecular and cellular biology of these diverse organisms remain unknown. This course explores the latest research on these fascinating organisms through analysis and discussion of original research papers focusing on three of the major human parasites.

**Prerequisite(s):** BMS 503 with a minimum grade of D- and GEN 604 with a minimum grade of D- and (BMS 655 with a minimum grade of D- or BMS 720 with a minimum grade of D-).**Grade Mode:** Letter Grading**BMS 740 - Human Microbiome****Credits:** 4

The human microbiome is a new, rapidly growing field of microbiology that has already made important contributions to the understanding of human health. This laboratory course utilizes current research methodology to investigate the microbiome of the human skin. Students gain hands-on experience in PCR, genomics, bioinformatics, and modern clinical identification techniques. They also generate primary data to make their own contribution to this important field of research. Lab.

**Prerequisite(s):** (BMS 501 with a minimum grade of D- or (BMS 503 with a minimum grade of D- and BMS 504 with a minimum grade of D-) and GEN 604 with a minimum grade of D-).**Grade Mode:** Letter Grading**Special Fee:** Yes**BMS 747 - Case Studies in Bloodbanking****Credits:** 1

Patient case studies are analyzed in immunohematology. Correlation of patient history with clinical presentation and interpretation of clinical laboratory results. Learn to interpret given information, recognize abnormal results and their clinical significance, generate etiologic possibilities, and determine the best diagnosis for the patient condition including appropriate treatment and recommended follow-up testing.

**Prerequisite(s):** BMS 656 with a minimum grade of D- and BMS 657 with a minimum grade of D-.**Grade Mode:** Letter Grading**BMS 748 - Case Studies in Medical Biochemistry****Credits:** 1

Patient case studies are analyzed in medical biochemistry. Correlation of patient history with clinical presentation and interpretation of clinical laboratory results. Learn to interpret given information, recognize abnormal results and their clinical significance, generate etiologic possibilities, and determine the best diagnosis for the patient condition including appropriate treatment and recommended follow-up testing.

**Prerequisite(s):** BMS 658 with a minimum grade of D- and BMS 659 with a minimum grade of D-.**Grade Mode:** Letter Grading**BMS 749 - Case Studies in Hematology and Immunology****Credits:** 2

Patient case studies are analyzed in hematology and immunology. Correlation of patient history with clinical presentation and interpretation of clinical laboratory results. Learn to interpret given information, recognize abnormal results and their clinical significance, generate etiologic possibilities, and determine the best diagnosis for the patient condition including appropriate treatment and recommended follow-up testing.

**Attributes:** Writing Intensive Course**Prerequisite(s):** BMS 642 with a minimum grade of D- and BMS 643 with a minimum grade of D- and BMS 644 with a minimum grade of D- and BMS 645 with a minimum grade of D-.**Grade Mode:** Letter Grading

**BMS 750 - Case Studies in Microbiology****Credits:** 2

Patient case studies are analyzed in microbiology. Correlation of patient history with clinical presentation and interpretation of clinical laboratory results. Learn to interpret given information, recognize abnormal results and their clinical significance, generate etiologic possibilities, and determine the best diagnosis for the patient condition including appropriate treatment and recommended follow-up testing.

**Attributes:** Writing Intensive Course**Prerequisite(s):** BMS 602 with a minimum grade of D- and BMS 603 with a minimum grade of D- and BMS 720 with a minimum grade of D- and BMS 721 with a minimum grade of D-.**Grade Mode:** Letter Grading**BMS 751 - Advanced Clinical Microbiology Internship****Credits:** 5

Instruction and clinical practice of microbiology-related techniques and their applications in the medical laboratory setting. Includes the principles and practices of proper specimen collection, clinical diagnosis testing, and interpretation of results.

**Equivalent(s):** BMS 751W, MEDT 751, MLS 751, MLS 751W**Grade Mode:** Letter Grading**Special Fee:** Yes**BMS 752 - Advanced Hematology Internship****Credits:** 5

Instruction and clinical practice of hematology-related techniques and their applications in the medical laboratory setting. Includes the principles and practices of special hematology procedures including diagnostic staining, advanced hemostasis studies, and evaluation of blood cells in disease states.

**Equivalent(s):** BMS 752W, MEDT 752, MLS 752, MLS 752W**Grade Mode:** Letter Grading**BMS 753 - Advanced Immunohematology Internship****Credits:** 5

Introduction and clinical practice of immunohematology-related techniques and their applications in the medical laboratory setting. Includes the principles and practices of advanced blood-banking procedures, including antibody identification, and component therapy.

**Equivalent(s):** BMS 753W, MEDT 753, MLS 753, MLS 753W**Grade Mode:** Letter Grading**BMS 754 - Advanced Clinical Chemistry Internship****Credits:** 5

Instruction and clinical practice of clinical chemistry-related techniques and their applications in the medical laboratory setting. Includes the principles and practices of advanced laboratory analysis of body fluid chemistries. Enzymology, isotopes, hormones, blood gases, and toxicology. Theory, operation, evaluation and maintenance of automated chemistry systems.

**Equivalent(s):** BMS 754W, MEDT 754, MLS 754, MLS 754W**Grade Mode:** Letter Grading**BMS 761 - Clinical Microbiology Internship****Credits:** 20

Advanced instruction in clinical bacteriology, mycology, parasitology, and virology at local hospital or reference laboratory. Isolation, identification, and antibiotic sensitivities for common pathogens are emphasized.

**Equivalent(s):** BMS 754W, MEDT 761, MLS 754W, MLS 761**Grade Mode:** Letter Grading**Special Fee:** Yes**BMS 790 - Undergraduate Teaching Experience****Credits:** 1-4

Provide academic support to graduate teaching assistants or faculty in preparing, presenting, and executing Biomedical Science lectures or labs.

**Repeat Rule:** May be repeated for a maximum of 4 credits.**Equivalent(s):** MICR 790**Grade Mode:** Letter Grading**BMS 795 - Investigations in Biomedical Science****Credits:** 1-8

Advanced research or scholarly projects developed and conducted under the supervision of a faculty member. Provides the opportunity to apply knowledge and techniques of the major to a specific problem or question.

**Repeat Rule:** May be repeated for a maximum of 8 credits.**Equivalent(s):** BMS 795W, MICR 795, MICR 795W**Grade Mode:** Letter Grading**BMS 795W - Investigations in Biomedical Science****Credits:** 1-8

Advanced research or scholarly projects developed and conducted under the supervision of a faculty member. Provides the opportunity to apply knowledge and techniques of the major to a specific problem or question.

**Attributes:** Writing Intensive Course**Repeat Rule:** May be repeated for a maximum of 8 credits.**Equivalent(s):** BMS 795, MICR 795W**Grade Mode:** Letter Grading**BMS 799 - Senior Thesis****Credits:** 1-4

Independent research project under the direction of a faculty sponsor for seniors in biomedical sciences. Final product is a written thesis. One or two semesters.

**Attributes:** Writing Intensive Course**Repeat Rule:** May be repeated for a maximum of 8 credits.**Equivalent(s):** BMS 799H**Grade Mode:** Letter Grading**BMS 799H - Senior Honors Thesis****Credits:** 1-4

Independent research project under the direction of a faculty sponsor for seniors in biomedical sciences and in the Honors Program. Final product is a written thesis. One or two semesters.

**Attributes:** Honors course; Writing Intensive Course**Repeat Rule:** May be repeated for a maximum of 8 credits.**Equivalent(s):** BMS 799**Grade Mode:** Letter Grading

## Biotechnology (BIOT)

**BIOT 415 - Millyard Scholars Seminar****Credits:** 2

Through in-class activities, workshops and guest speakers, students in the Millyard Scholars Program will explore career paths, and develop resources and skills for academic success. All student work, planning and experiences will be showcased in a digital portfolio.

**Equivalent(s):** BSCI 415**Grade Mode:** Letter Grading

**BIOT 418 - Phage Bioinformatics Lab****Credits:** 2

In the course, students undertake a hands-on undergraduate research experience to describe, document, and publish the discovery of new bacteriophages (bacterial viruses). In doing so, students will elucidate how the genome codes biological information. The aim of the course is for students to develop further research and computational analysis skills while preparing to publish their scientific discoveries. The course will focus on research data analysis and presentation of research data to scientists and the public.

**Equivalent(s):** BSCI 418**Grade Mode:** Letter Grading**BIOT 422 - Biotechnology and Society****Credits:** 4

Provides a basic understanding of genetic engineering. Techniques discussed include cloning, gene transfer, the polymerase chain reaction (PCR), in vitro fertilization, organ transplants, and paternity testing. Ethical issues involved with each technological advance are examined.

**Attributes:** Biological Science(Discovery)**Equivalent(s):** BSCI 422**Mutual Exclusion:** No credit for students who have taken BIOL 444A.**Grade Mode:** Letter Grading**BIOT 501 - Ethical Issues in Biology****Credits:** 4

This course is an introduction to the ethical issues associated with current and future use of biotechnology. Students will think critically about different ethical problems that emerge from scientific research and its applications to medical technology. The focus will be on personal and public policy decision making.

**Attributes:** Writing Intensive Course

**Prerequisite(s):** (BIOL 413 with a minimum grade of C- and BIOL 414 with a minimum grade of C-) or (BIOL 411 with a minimum grade of C- and BIOL 412 with a minimum grade of C-).

**Equivalent(s):** BSCI 501**Grade Mode:** Letter Grading**BIOT 502 - Introduction to Biotechnology Manufacturing****Credits:** 4

Introduction to the terminology and practices of the biotechnology industry, with an emphasis on the business, regulatory, legal, and basic scientific underpinnings of modern biotechnology in the commercial and government sectors.

**Equivalent(s):** BSCI 502**Grade Mode:** Letter Grading**BIOT 510 - Introduction to Biofabrication****Credits:** 4

This project-based course introduces students to the techniques and challenges of biofabrication. Students learn how additive manufacturing is used to combine cells with a variety of biolinks to create living tissues such as skin, cartilage, vascularized bone, and blood vessels. During this process students learn how to design for and operate 3D printing and bioprinting equipment. An emphasis will be placed on the ways in which this emerging technology impacts our society.

**Attributes:** Environment,TechSociety(Disc)**Equivalent(s):** BSCI 510**Grade Mode:** Letter Grading**BIOT 515 - Second Year Millyard Scholars Seminar****Credits:** 2

The Millyard Scholars Second Year Seminar will introduce students to a series of data analytics methods employed in biotech research and clinical settings in order to promote problem solving and critical thinking skills. Recent data generated from the biotech research and from clinical trials will form the basis of the data analyzed during the course. Guest speakers will help inform discussions about the importance of data analytics in biotechnology and in clinical settings.

**Grade Mode:** Credit/Fail Grading**BIOT 655 - Advanced Phage Biology****Credits:** 4

Students undertake an advanced exploration of bacteriophage biology through wet-lab and/or bioinformatic investigation of previously-discovered bacterial viruses. In the setting of bacteriophage genome study, students develop working fluency with coding of genetic information, annotation of genomes, publication and presentation of discoveries, and design of experiments to assess questions in viral structure and function.

**Prerequisite(s):** BSCI 418 with a minimum grade of C- or BMS 503 with a minimum grade of C-.

**Repeat Rule:** May be repeated for a maximum of 8 credits.**Grade Mode:** Letter Grading**BIOT 704 - New and Emerging Biotechnology****Credits:** 4

In this course students investigate emerging technologies, innovations and new products in the biotechnology industry, through case studies and scientific literature. Modern biotechnology focuses mainly on medicine. New treatments for rare and complex diseases as well as genetic testing to identify genetically-inherited diseases are continually being developed and discovered. Technology that makes these and other advances possible is the focus of this course.

**Attributes:** Writing Intensive Course**Prerequisite(s):** GEN 604 with a minimum grade of C-.**Grade Mode:** Letter Grading**BIOT 747 - Industrial Microbiology and Fermentation****Credits:** 0 or 5

Production of biologics and food by the biotechnology and agribusiness industries is the major focus of this course. Development of procedures for fermentation and bioprocessing, from proof of concept through scale-up stages will be emphasized, utilizing both theory and quantitative understanding as well as hands-on wet lab experience with modern bioprocessing equipment. Troubleshooting, safety, and QC considerations will be addressed.

**Prerequisite(s):** BMS 503 with a minimum grade of C- and BMS 504 with a minimum grade of C-.

**Equivalent(s):** BSCI 606, BSCI 747**Grade Mode:** Letter Grading**Special Fee:** Yes**BIOT 753 - Cell Culture Lecture****Credits:** 3

Fundamental biological principles that underlie cell culture and its applications are the foundation of the lecture component of this course. Applications of cell culture techniques to current research areas in academic and biopharmaceutical settings will be discussed.

**Co-requisite:** BIOT 754

**Prerequisite(s):** BMS 503 with a minimum grade of C- and BMS 604 with a minimum grade of C-.

**Equivalent(s):** BENG 620, BMCB 753, BMS 620**Grade Mode:** Letter Grading

**BIOT 754 - Cell Culture Lab****Credits:** 2

Fundamental biological principles that underlie cell culture and its applications are the foundation of the lecture component of this course. Applications of cell culture techniques to current research areas in academic and biopharmaceutical settings will be discussed.

**Co-requisite(s):** BIOT 753**Prerequisite(s):** BMS 503 with a minimum grade of C- and BMS 504 with a minimum grade of C-.**Equivalent(s):** BENG 620, BMCB 753, BMS 620**Grade Mode:** Letter Grading**Special Fee:** Yes**BIOT 755 - Advanced Therapies****Credits:** 4

In this course students will gain an understanding of the fundamentals of biomaterials, gene therapy, cell therapy, and tissue engineering. We will cover chemical, structural, and biological aspects of therapeutic materials along with systemic literature reviews involving advanced therapy medical products (ATMPs) utilizing molecules, genes, cells, and tissues. We will also discuss synthetic polymers and biomolecules such as peptides, proteins, polysaccharides and oligonucleotides. No credit for students who have taken BSCI 797 "SpcTop/Advanced Therapies".

**Prerequisite(s):** CHEM 404 with a minimum grade of C- and (BIOL 414 with a minimum grade of C- or BIOL 412 with a minimum grade of C-).**Grade Mode:** Letter Grading**BIOT 760 - Numerical & Statistical Analysis in Biotechnology****Credits:** 0 or 4

In this course, students will gain an understanding of how best to conduct data analysis experiments utilizing data specific to biotechnology applications. Hands-on exercises involve using computer software programs such as Matlab and JMP. Data input/manipulation, descriptive and inferential statistics, hypothesis testing, curve fitting, and Matlab coding will be covered. Upon completion of the course, students should be able to conduct data analysis experiments within the context of biotech. No credit for students who have taken BSCI 797 "SpcTop/Num & Statistical Analysis".

**Prerequisite(s):** CHEM 403 with a minimum grade of C- and (BIOL 413 with a minimum grade of C- or BIOL 411 with a minimum grade of C-).**Grade Mode:** Letter Grading**BIOT 765 - Nucleic Acid Techniques****Credits:** 4

Laboratory course focused on application of molecular biology techniques for the extraction, detection, and use of nucleic acids. Emphasis is on recombinant DNA cloning and bioengineering techniques in biotechnology.

**Prerequisite(s):** GEN 604 with a minimum grade of C-.**Equivalent(s):** BMCB 754, BMS 650, BSCI 765**Grade Mode:** Letter Grading**Special Fee:** Yes**BIOT 766 - Protein and Immunologic Techniques****Credits:** 0 or 4

Laboratory course focused on application of molecular biology techniques for the isolation, quantitation, detection, analysis, and use of proteins. Substantial emphasis on the use of immunoassays and antibodies in protein work. Modern proteomics techniques are also discussed. Emphasis on recombinant protein expression in the field of biotechnology.

**Prerequisite(s):** GEN 604 with a minimum grade of C-.**Equivalent(s):** BSCI 766**Grade Mode:** Letter Grading**Special Fee:** Yes**BIOT 770 - Stem Cell and Biomaterials Engineering Laboratory****Credits:** 0 or 4

Introduction to stem cells and how biomaterials are utilized in their applications involving biotechnology and biomedical engineering. Lab topics such as aseptic technique, stem cell cultures, biomaterials engineering, bioprinting, biocompatibility and bioactivity analyses will be covered. Lectures will focus on the current literature while the lab portion involves inquiry-based projects that will investigate how biomaterials and molecules modulate stem cell proliferation and differentiation.

**Prerequisite(s):** CHEM 403 with a minimum grade of C- and (BIOL 414 with a minimum grade of C- or BIOL 412 with a minimum grade of C-).**Grade Mode:** Letter Grading**BIOT 772 - Pluripotent Stem Cell Laboratory****Credits:** 0 or 4

Introduction to human pluripotent stem cells (hPSCs) and how they are utilized in biomedical applications. Lab topics such as aseptic techniques, pluripotent stem cell cultures, stem cell differentiation, and cellular analyses will be covered. Lectures will focus on the current literature while the lab portion involves inquiry-based projects that will investigate how pluripotent stem cells proliferate and differentiate. Special focus will be given to induced pluripotent stem cell (iPSC) cultures.

**Prerequisite(s):** (BIOT 753 with a minimum grade of D- and BIOT 754 with a minimum grade of D-) or BIOT 770 with a minimum grade of D-.**Grade Mode:** Letter Grading**Special Fee:** Yes**BIOT 775 - Biopharmaceutical Production Processes****Credits:** 0 or 5

This course will provide students with an overview of biopharmaceutical production processes through lectures. The course begins by introducing students to the proteins and biotechnology companies and to cGMP. During lab, students will use mammalian cells to produce and monoclonal antibody, by developing manufacturing SOPs, including upstream and downstream processing, and quality control and assurance. Students will also gain experience with T-cell culture as part of the CAR-T technology utilized in personal medicine.

**Prerequisite(s):** CHEM 651 with a minimum grade of C- and CHEM 653 with a minimum grade of C-.**Mutual Exclusion:** No credit for students who have taken ANSC 651, CHBE 651, CHE 651.**Grade Mode:** Letter Grading

**BIOT 777 - Molecular Biology and Biotechnology****Credits:** 0 or 5

The organization, expression, and control of RNA and protein-coding genes in prokaryotic and eukaryotic cells. The focus of the course is on mechanisms of genetics at the molecular level and the application of modern techniques to laboratory biotechnology projects.

**Prerequisite(s):** GEN 604 with a minimum grade of C-.**Equivalent(s):** BSCI 777**Grade Mode:** Letter Grading**Special Fee:** Yes**BIOT 780 - Techniques in Microscopy and Image Analysis****Credits:** 0 or 4

Laboratory course focused on application of microscopy techniques (light, fluorescent, confocal) and the subsequent analysis strategies for investigating biological specimens. Special focus will be directed towards cellular microscopy-based assays, both structural and functional. Image analysis topics will touch on filtering, segmentation, and registration.

**Prerequisite(s):** BMS 504 with a minimum grade of C-.**Grade Mode:** Letter Grading**BIOT 788 - Advanced Studies****Credits:** 1-2

Advanced scholarly work at the undergraduate level supervised by a graduate faculty member for students enrolled in Accelerated Masters programs. The particular area of study will vary according to the semester or the specific course offering with which this course is paired.

**Repeat Rule:** May be repeated for a maximum of 8 credits.**Grade Mode:** Letter Grading**BIOT 799 - Seminar in Biotechnology****Credits:** 2

The seminar in biotechnology will run from time to time with different topics, including the following: 1) Cutting-edge issues facing the biotechnology industry. 2) Instrumentation and technologies utilized in the biotechnology industry.

**Repeat Rule:** May be repeated for a maximum of 4 credits.**Grade Mode:** Credit/Fail Grading

## Business (BUS)

# Course numbers with the # symbol included (e.g. #400) have not been taught in the last 3 years.

**BUS 400 - Introduction to Business****Credits:** 4

Introduces the study of business: examines the origins and development of American business, its place in a global economy, and its legal and ethical roles in modern society. Includes an overview of the functional areas of business such as finance, marketing, and organizational behavior. Designed for business majors as well as for students considering a major in business.

**Equivalent(s):** ADMN 400**Grade Mode:** Letter Grading**BUS 405 - Introduction to Business Computer Applications****Credits:** 4

This course is designed to prepare students for both their computer related course work in other classes, but also for both internship and permanent professional problems. The skills and knowledge contained in this class are critical to early student success, and should be taken on arrival to the UNHM Business program. These skills are: word processing, presentation development, database creation and access, and spreadsheet data display and analysis. Open to all majors.

**Equivalent(s):** COMP 411**Grade Mode:** Letter Grading**BUS #410 - Introduction to Entrepreneurship****Credits:** 4

This course explores the structure and framework of entrepreneurial endeavors, both inside and outside of the business world. Questions to be addressed include: What is entrepreneurship? What is opportunity recognition and selection? How can you create and define connective advantage? How can you think about people in the entrepreneurial context? How can you garner support (financial and other) for an entrepreneurial venture? What do you do when nothing works as planned?.

**Grade Mode:** Letter Grading**BUS 430 - Introduction to Business Statistics****Credits:** 0 or 4

The use of statistical methods for managerial decision making. Emphasis is on understanding concepts, including inferences from sample data and model formulation, as aids in decision-making. Lab: Using class-focused statistics problems, designed to provide opportunity to develop course-specific problem solving strategies; to adapt from mathematical to statistical thinking; to analyze and communicate significance and meaning of numerical outcomes; to develop course-specific test taking prowess.

**Attributes:** Quantitative Reasoning(Disc)**Prerequisite(s):** MATH 420 with a minimum grade of D- or MATH 422 with a minimum grade of D- or MATH 425 with a minimum grade of D-.**Mutual Exclusion:** No credit for students who have taken ADM 430, ADMN 420, ADMN 510, BIOL 528, EREC 525, HHS 540, MATH 439, MATH 539, MATH 644, PSYC 402, PSYC 402H, SOC 402, SOC #402H, SOC 502, SOC 502H.**Grade Mode:** Letter Grading**BUS 453 - Leadership for Managers****Credits:** 4

This course provides the critical element of analytical and intellectual examination and reflection of certain core issues in the practice of leadership. These objectives are achieved through open discussion, honest self-assessment, experiential exercises, and observation of real-life leadership practice. What is valued in this course are honest relationships and dialogue, risk-taking, dedication to the topic of leadership, initiative, and exploring the confusion and gray areas involved in these topics.

**Prerequisite(s):** BUS 400 with a minimum grade of D-.**Grade Mode:** Letter Grading

**BUS 455 - Management of Human Resources****Credits:** 4

This course emphasizes the development of skills for dealing with selected aspects of human resource management. It aims to enhance the students' ability to apply theoretical concepts and alternative approaches for dealing with common issues concerning the human side of the enterprise. The course is geared to serve the needs of line and staff administrators in supervisory positions. Thus, it strives to train students and facilitate the development of better understanding of human resources issues as they relate to other managerial functions, organizational behavior, and the ability of managers and the organization to achieve prescribed goals.

**Prerequisite(s):** BUS 400 with a minimum grade of D-.**Grade Mode:** Letter Grading**BUS 492 - American Business History****Credits:** 4

This course explores the historical development of American business institutions from the colonial era to the present. Thematic units organize the material focusing in turn on the most significant developments in the American business environment. The goal is a cumulative understanding of the development of the system. A great deal of our discussion and reading centers on the interaction of market operations and social values and how these interactions influenced the business environment at different times. It is the study of business in the context of past times that makes this course different from a course in business methods or institutions. Through the study of the past students develop their critical thinking and writing skills.

**Attributes:** Historical Perspectives(Disc)**Grade Mode:** Letter Grading**BUS #520 - Training and Development****Credits:** 4

Students interested in career options in training and development of human resources development learn some of the theoretical bases, core practices, competencies, and issues of this professional field, as well as considerations for global training and development. They are exposed to research and discoveries on skills and knowledge related to training and adult learning, and models for effective training. They learn the most current trends and issues in international training and development, including the push for management and leadership training for intercultural understanding.

**Prerequisite(s):** BUS 400 with a minimum grade of D- and BUS 455 with a minimum grade of D-.**Grade Mode:** Letter Grading**BUS 530 - Personal Finance****Credits:** 4

This course is designed to give students some expertise in the life decisions that almost everyone must make concerning tax planning, purchasing or renting of a home or automobile, medical, life, auto and home insurance needs. Investments and planning for retirement among other financial decisions that adults must make.

**Attributes:** Quantitative Reasoning(Disc)**Grade Mode:** Letter Grading**BUS 532 - Introduction to Financial Accounting****Credits:** 4

Fundamental concepts of accounting and their impact on the business world and society as a whole. Emphasis on the recording of economic transactions, and preparation and analysis of financial statements. No credit for students who have had ACFI 501, ACFI 502, ADMN 502.

**Grade Mode:** Letter Grading**BUS 533 - Introduction to Managerial Accounting****Credits:** 4

Emphasizes how organizational managers use accounting information to support their functions of planning, control, and decision making. Examples taken from corporations, small business, and not-for-profit organizations. No credit for students who have received credit for ACFI 503, ADMN 503.

**Grade Mode:** Letter Grading**BUS 535 - Federal Taxation****Credits:** 4

Introduction to the basics of the federal income tax rules for individuals. Basic concepts in federal taxation include gross income, exclusions, adjusted gross income, deductions, exemptions, and credits. Additional tax concepts included are cash and accrual methods, passive loss rules, and like-kind exchange. No credit for taking BUS 710 (Federal Taxation) or BUS 675 (Special Topic Federal Taxation).

**Equivalent(s):** BUS 710**Grade Mode:** Letter Grading**BUS 565 - Selling and Sales Management****Credits:** 4

The sales and selling management (SSM) course covers both the strategies, and the tactics, of selling, from the wide-ranging perspectives of sales people and customers. Management topics include: motivation and behavior, sales methodologies, channel optimization, recruiting and selecting representatives, training, compensation, and evaluation. Class also covers in-depth through the class practice sales tactics such as: prospecting and sales call planning, communicating the sales message, negotiating for win-win situations, overcoming objections, closing the sale, and follow-up management. Reflecting the nature of practice selling, the SSM course is offered in a short series of longer days. BUS 400 or BUS 610 are encouraged to take prior to this course. No credit earned if credit earned for BUS 675 if listed as Selling and Sales Management.

**Grade Mode:** Letter Grading**BUS 575 - Students Consulting Organizations****Credits:** 2

A hands-on course where students will work directly with organizations in the Manchester area helping to solve, marketing, financial, managerial, and technology issues. Clients are secured through the SBDC at UNH. The class will meet once a week for one hour where strategy sessions with the clients take place, lectures on business strategy are given, and presentations from guest speakers will be given. It is expected that students will have to do some outside work based on the needs of the clients. At the end of the semester, students will make a formal, professional presentation and provide a document for action to the client. This course can be applied to the management option requirement.

**Prerequisite(s):** BUS 400 with a minimum grade of D-.**Repeat Rule:** May be repeated for a maximum of 4 credits.**Grade Mode:** Letter Grading**BUS 601 - Financial Management****Credits:** 4

Study of investment, finance, and dividend decisions of the business firm. Topics include capital budgeting, designing and issuing securities, management of working capital and evaluating manager performance.

**Prerequisite(s):** BUS 400 with a minimum grade of D- and BUS 532 with a minimum grade of D- and BUS 533 with a minimum grade of D-.**Grade Mode:** Letter Grading

**BUS 603 - Intermediate Financial Accounting I****Credits:** 4

The first of two in-depth financial accounting courses. Course provides student with the in-depth understanding of the theory, conceptual framework, and development of generally accepted accounting principles giving them the knowledge necessary to properly account for and present information in financial statements prepared for external uses. Topics include the income statement, the statement of cash flows and balance sheet with an emphasis on asset accounts. No credit if credit received for BUS 675 Intermediate Accounting I.

**Prerequisite(s):** BUS 532 with a minimum grade of D- and BUS 533 with a minimum grade of D-.

**Grade Mode:** Letter Grading

**BUS 610 - Marketing Principles and Applications****Credits:** 4

Studies the process of planning and distributing goods and services to the marketplace. Topics include product planning, pricing, promotion, and distribution. Emphasis on the application of marketing principles to real world business cases.

**Prerequisite(s):** BUS 400 with a minimum grade of D- and ECN 412 with a minimum grade of D-.

**Equivalent(s):** ADMN 585

**Grade Mode:** Letter Grading

**BUS 615 - Intermediate Financial Accounting II****Credits:** 4

The second of two in-depth financial accounting courses. Course provides students with an in depth understanding of the theory, conceptual framework, and development of generally accepted accounting principles giving them the knowledge necessary to properly account for and present information in financial statements prepared for external users. Topics include time value of money, current and non-current liabilities, leases, deferred taxes, retirement benefits, stockholders equity, earning per share, accounting changes and errors, and statement of cash flows. No credit if credit received for BUS 675 Intermediate Accounting.

**Prerequisite(s):** BUS 603 with a minimum grade of D-.

**Grade Mode:** Letter Grading

**BUS 620 - Organizational Behavior****Credits:** 4

Applications of behavioral science concepts to work settings. Topics include worker incentives and perceptions toward work, group versus individual decision making, conflict resolution, interpersonal and leadership skills, and the study of other behaviors relevant to effective managing of a business organization.

**Attributes:** Writing Intensive Course

**Prerequisite(s):** PTC 500 with a minimum grade of D-.

**Equivalent(s):** ADMN 575

**Grade Mode:** Letter Grading

**BUS 629 - Adv Managerial Accounting****Credits:** 4

Further develop the basic managerial accounting knowledge base and skill set. Emphasis on the cost accounting concepts and techniques used to produce the information needed to make both planning and control decisions as well as cost analysis, overhead allocation, transfer pricing, and decision making. No credit if received for BUS 675 Intermediate Accounting.

**Prerequisite(s):** BUS 532 with a minimum grade of D- and BUS 533 with a minimum grade of D-.

**Grade Mode:** Letter Grading

**BUS #635 - Entrepreneurial Application through Enactus****Credits:** 3

This is a three credit project driven course aimed at teaching students an understanding of free enterprise through the application of economic activities within the community. In addition, students will have special topic sessions on leadership, time management, public speaking, project management, and fundraising. Emphasis on teamwork. Course is open to all students who have junior or senior level standing, in and out of the business program.

**Repeat Rule:** May be repeated for a maximum of 12 credits.

**Grade Mode:** Letter Grading

**Special Fee:** Yes

**BUS 640 - Business Communication and Conflict****Credits:** 4

This course is designed to give students a comprehensive view of communication, its scope and importance in business, and the role of communication in establishing a favorable outside the firm environment as well as an affective internal communications program. The various types of business communication media are covered. This course also develops an awareness of the importance of succinct written expression to modern business communication.

**Prerequisite(s):** BUS 455 with a minimum grade of D-.

**Equivalent(s):** ADM 640

**Grade Mode:** Letter Grading

**BUS 661 - Integrated Marketing Communication****Credits:** 4

Integrated Marketing Communications (IMC) is a fast evolving field in business and marketing. This course covers the full spectrum of planning, budgeting, data collection and analysis, creative tools and models, including perspectives on both Business to Consumer and Business to Business, IMC. Special emphasis for: cultural, lifestyle and ethnic sensitivity, global versus individual country tactics, and the fast evolving techniques of social and mobile marketing. All of the above are in the context of building brands and customer loyalty. No credit earned if credit earned for BUS 675 or BUS #685 if listed as Marketing Communication.

**Prerequisite(s):** BUS 400 with a minimum grade of D- and BUS 610 with a minimum grade of D-.

**Grade Mode:** Letter Grading

**BUS 662 - Digital Marketing Applications****Credits:** 4

This course introduces students to a broad range of marketing applications and digital marketing concepts. The goal is to provide them with hands-on learning opportunities to apply these concepts to real-world marketing problems. A range of marketing and data management tools will be taught to foster understanding and student credentialing on a variety of key 'Software as a Service' platforms. No credit if students have taken BUS 675 - Special Topics - Marketing Demand Applications.

**Prerequisite(s):** BUS 400 with a minimum grade of D- and BUS 610 with a minimum grade of D-.

**Grade Mode:** Letter Grading

**BUS 663 - Services Marketing and Operations Management****Credits:** 4

This course is designed to prepare students for NH business and marketing careers by understanding the issues, challenges, and terminology inherent in industries as diverse as health care, construction, education, professional and technical offices, transportation, information and publishing, tourism, retailing, etc. Case studies are used throughout the term. We study many of these sectors, both as academicians and as consumers, to build a portfolio of understanding across divergent sectors. Students learn about services marketing strategies and management models that: increase customer satisfaction, improve customer retention and create dominant service brands that can create a competitive advantage for firms in any given industry. No credit if credit earned for BUS 675 or BUS #685 if listed as Services Marketing.

**Prerequisite(s):** BUS 400 with a minimum grade of D- and BUS 610 with a minimum grade of D-.

**Grade Mode:** Letter Grading

**BUS 665 - International Marketing Strategy Management****Credits:** 4

The primary missions of the International Marketing Strategy Management (IMSM) course are to help students to: (1) develop understanding and knowledge of the important role International marketing plays in business (2) develop and improve global thinking, problem solving and integrative skills in a case based context (3) learn and apply the varying tools and models for evaluating when, where are how international marketing investments should be made. (4) understand and implement special approaches for cultural and ethnic differences in taste and attitudes, including trade legalities and regulations. No credit if credit earned for BUS 675 or BUS #685 if listed as International Marketing.

**Prerequisite(s):** BUS 400 with a minimum grade of D- and BUS 610 with a minimum grade of D-.

**Grade Mode:** Letter Grading

**BUS 675 - Special Topics in Business Administration****Credits:** 1-4

Provides students with an opportunity to explore a topic in business administration such as marketing, management, finance, or accounting. Topics will vary. Barring duplication of subject, may be repeated for credit.

**Repeat Rule:** May be repeated up to unlimited times.

**Grade Mode:** Letter Grading

**BUS #685 - Applications in Business Management****Credits:** 4

Selected topics. Topics will vary. Barring duplication of subject, may be repeated for credit.

**Repeat Rule:** May be repeated for a maximum of 8 credits.

**Equivalent(s):** ADM 685

**Grade Mode:** Letter Grading

**BUS 690 - Business Program Internship****Credits:** 1-4

Supervised internship practicum within the private, public or non-profit sector. Focus is for the student to gain valuable insights into both professional and managerial positions, applying their college knowledge to a variety of roles and projects, influencing their career trajectory through 'real world' experience. Can be taken multiple times for credit, with credit varying from 1-4 hours based on time spent on the internship. For the 16 credit concentration, up to 4 BUS 690 credits can be applied. Credits beyond will be applied to general credits. Does not substitute for the internship required as part of the Business Capstone Course BUS 750 - Business Internship Senior Seminar. Offered, Fall, Spring and Summer.

**Repeat Rule:** May be repeated for a maximum of 12 credits.

**Grade Mode:** Credit/Fail Grading

**BUS 695 - Independent Study in Business****Credits:** 1-4

Independent study exploring a special topic emphasizing the managerial, organizational, strategic, political or economic context(s) within which business decisions are made.

**Prerequisite(s):** BUS 400 with a minimum grade of D-.

**Repeat Rule:** May be repeated for a maximum of 8 credits.

**Equivalent(s):** ADM 695

**Grade Mode:** Letter Grading

**BUS 705 - Business Ethics****Credits:** 4

Because Business Ethics is a capstone course, it is imperative that students understand the business psychology concepts relative to power, politics, communication, and decision making to name a few. Organizational Behavior provides knowledge in those areas and this will give students greater depth and cognitive analysis when addressing and applying principles in the ethics course.

**Attributes:** Writing Intensive Course

**Prerequisite(s):** BUS 620 with a minimum grade of D- and BUS 610 with a minimum grade of D-.

**Grade Mode:** Letter Grading

**BUS 712 - Accounting Information Systems****Credits:** 4

Course centers on how organizations collect, record, process, and store accounting information and data. Topics include information systems concepts, transaction cycles and processing, flowcharting, XBRL, e-business and ERP systems, computer fraud and IT security, internal controls, auditing with AIS, Quickbooks processing, and ethics. Topics include introduction to data analytics and blockchain technology.

**Prerequisite(s):** BUS 615 with a minimum grade of D-.

**Grade Mode:** Letter Grading

**BUS #715 - Forensic Accounting/Fraud Examination****Credits:** 4

This course will develop the students' understanding of what forensic accounting is and how it pertains to both civil and criminal matters. The participant in this course will gain a basic understanding of the characteristics of forensic accounting, the tools used in this area and the applications in the business world today, including financial statement and tax fraud, bankruptcy, divorce, identity theft, organized crime and litigation services.

**Prerequisite(s):** BUS 720 (may be taken concurrently) with a minimum grade of D-.

**Grade Mode:** Letter Grading

**BUS 720 - Auditing****Credits:** 4

Introduction to the basics of auditing and other assurance services theory and practice. It provides an overview and understanding of the public accounting profession and the professional auditing standards. The class also integrates auditing material with previous financial and managerial accounting course. No credit if credit received for BUS 675 Auditing.

**Prerequisite(s):** BUS 532 with a minimum grade of D- and BUS 533 with a minimum grade of D- and BUS 603 with a minimum grade of D- and BUS 615 with a minimum grade of D-.

**Grade Mode:** Letter Grading**BUS 725 - Financial Statement Analysis****Credits:** 4

This course will examine: financial reporting, the quality of accounting information, and US GAPP and IFRS. The flexibility which is built into GAAP will be examined, noting how firms may take advantage of this flexibility to manipulate financial information while staying within the bounds of the rules for proper reporting. Also examined will be the relationships found within the reported numbers by comparing various elements of the financial statements.

**Prerequisite(s):** BUS 720 with a minimum grade of D-.

**Grade Mode:** Letter Grading**BUS 750 - Business Capstone Senior Seminar - Internship****Credits:** 4

The capstone seminar course in which students complete their degree with an internship, while also conducting case analyses, class exercises, and a variety of reflective writings via selected readings. written and oral student reports.

**Prerequisite(s):** BUS 400 with a minimum grade of C- and BUS 405 with a minimum grade of C- and BUS 430 with a minimum grade of C- and BUS 532 with a minimum grade of C- and BUS 533 with a minimum grade of C- and BUS 610 with a minimum grade of C- and BUS 620 with a minimum grade of C- and BUS 690 with a minimum grade of C- and BUS 705 with a minimum grade of C- and ECN 411 with a minimum grade of C- and ECN 412 with a minimum grade of C- and (COMP 405 with a minimum grade of C- or COMP 415 with a minimum grade of C-) and (MATH 420 with a minimum grade of C- or MATH 425 with a minimum grade of C-) and PTC 500 with a minimum grade of C-.

**Mutual Exclusion:** No credit for students who have taken BUS 760.

**Grade Mode:** Letter Grading**Special Fee:** Yes**BUS 760 - BUS SR SEM - Research Project****Credits:** 4

The capstone seminar course is for students with extensive professional experience. Extensive independent research and writing required. Also conducting case analyses, class exercises, and a variety of reflective writings via selected readings, written and oral student reports.

**Prerequisite(s):** BUS 400 with a minimum grade of C- and BUS 405 with a minimum grade of C- and BUS 430 with a minimum grade of C- and BUS 532 with a minimum grade of C- and BUS 533 with a minimum grade of C- and BUS 610 with a minimum grade of C- and BUS 620 with a minimum grade of C- and BUS 690 with a minimum grade of C- and BUS 705 with a minimum grade of C- and ECN 411 with a minimum grade of C- and ECN 412 with a minimum grade of C- and (COMP 405 with a minimum grade of C- or COMP 415 with a minimum grade of C-) and (MATH 420 with a minimum grade of C- or MATH 425 with a minimum grade of C-) and PTC 500 with a minimum grade of C-.

**Mutual Exclusion:** No credit for students who have taken BUS 750.

**Grade Mode:** Letter Grading

## Chemical Engineering & Bioengineering (CHBE)

# Course numbers with the # symbol included (e.g. #400) have not been taught in the last 3 years.

**CHBE 400 - Chemical and Bioengineering Lectures****Credits:** 1

Introduces the profession, the process engineer as designer and problem solver; and the goals of the chemical engineering/bioengineering curriculum. Lectures by faculty and practitioners. Introduction to computer skills, engineering ethics, safety, and careers in chemical engineering and bioengineering.

**Equivalent(s):** CHE 400**Grade Mode:** Credit/Fail Grading**CHBE 410 - Energy and Environment****Credits:** 4

Energy supply in this country and the world; conventional fuel reserves: coal, oil, natural gas; alternative sources: nuclear, solar, geothermal, et. Forecasts and strategies to meet needs. Environmental pollution, sources, and economic and environmental impacts. Methods for pollution control. Regulatory standards for environmental protection.

**Attributes:** Physical Science(Discovery)**Equivalent(s):** CHE 410**Grade Mode:** Letter Grading**CHBE 501 - Material Balances****Credits:** 3

Systems of units; material balances and chemical reactions; gas laws; phase phenomena.

**Equivalent(s):** CHE 501**Grade Mode:** Letter Grading**CHBE 502 - Energy Balances****Credits:** 3

Energy and material balances for systems with and without chemical reactions; design case studies.

**Attributes:** Inquiry (Discovery)**Equivalent(s):** CHE 502**Grade Mode:** Letter Grading**CHBE 601 - Fluid Mechanics and Unit Operations****Credits:** 3

Continuity, momentum, and energy equations; laminar and turbulent flow in pipes; rheology. Applications to flow in porous media, filtration, and fluidization.

**Equivalent(s):** CHE 601**Grade Mode:** Letter Grading**CHBE 602 - Heat Transfer and Unit Operations****Credits:** 3

Thermal properties of materials, steady-state and transient conduction and convection; radiation; applications to heat exchangers and process equipment.

**Equivalent(s):** CHE 602**Grade Mode:** Letter Grading

**CHBE 603 - Applied Mathematics for Chemical Engineers****Credits:** 4

Mathematical modeling and analysis of chemical engineering problems. Analytical methods for first and second-order differential equations; numerical solutions; series solutions; Bessel functions; Laplace transforms; matrix algebra. Interpretation and solution of partial differential equations. Lab.

**Equivalent(s):** CHE 603**Grade Mode:** Letter Grading**CHBE 604 - Chemical Engineering Thermodynamics****Credits:** 3

Volumetric and phase behavior of ideal and real gases and liquids; cycles; steady-flow processes; chemical equilibrium.

**Equivalent(s):** CHE 604**Grade Mode:** Letter Grading**CHBE 612 - Chemical Engineering Laboratory I****Credits:** 3

Selected experiments in fluid mechanics, heat transfer, and unit operations.

**Attributes:** Writing Intensive Course**Equivalent(s):** CHE 612**Grade Mode:** Letter Grading**CHBE 614 - Separation Processes****Credits:** 3

Adsorption, Chromatography, Membrane Separations, Liquid-liquid Extraction and Crystallization.

**Equivalent(s):** CHE 614**Grade Mode:** Letter Grading**CHBE 651 - Biotech Experience/Biomufacturing****Credits:** 4

Course begins by introducing students to the proteins and companies of biotechnology and to current good manufacturing practices. For remainder of the course, students use cell culture of bacteria, mammalian and yeast cells to produce human proteins using the tools and manufacturing standards, operating procedures of biotechnology, including upstream and downstream processing of proteins, and quality control of protein production.

**Equivalent(s):** CHE 651**Mutual Exclusion:** No credit for students who have taken BIOT 775.**Grade Mode:** Letter Grading**CHBE 695 - Chemical Engineering Project****Credits:** 1-4

Independent research problems carried out under faculty supervision.

**Equivalent(s):** CHE 695**Grade Mode:** Letter Grading**CHBE 696 - Independent Study****Credits:** 1-4

Permission of the adviser and department chairperson required; granted only to students having superior scholastic achievement.

**Equivalent(s):** CHE 696**Grade Mode:** Letter Grading**CHBE 703 - Mass Transfer and Stagewise Operations****Credits:** 3

Diffusion in gases, liquids, and solids; design and analysis of distillation, absorption, and other stagewise equipment and operations.

**Equivalent(s):** CHE 703**Grade Mode:** Letter Grading**CHBE 705 - Fossil Fuels and Renewable Energy Sources****Credits:** 4

Processing and refining of coal, crude oil, natural gas, tar sands and shale oil. Biomass co-combustion, biofuel extraction, impediments to widespread utilization. Exploration of environmental issues with energy generation and consumption. Lab.

**Equivalent(s):** CHE 705**Grade Mode:** Letter Grading**CHBE 706 - Electrochemical Methods for Energy Applications****Credits:** 4

Fundamentals and applications of thermodynamics of electrochemical processes; kinetics of electrochemical reactions; electrocatalysis basics and current technologies for batteries, supercapacitors and fuel cells.

**Prerequisite(s):** CHEM 683 with a minimum grade of D- and CHEM 684 with a minimum grade of D-.

**Equivalent(s):** CHE 706**Grade Mode:** Letter Grading**CHBE 707 - Chemical Engineering Kinetics****Credits:** 3

Use of laboratory data to design commercial reactors. Continuous, batch, plug-flow, and stirred-tank reactors for homogeneous and catalytic multiphase reactions.

**Equivalent(s):** CHE 707**Grade Mode:** Letter Grading**CHBE 708 - Chemical Engineering Design****Credits:** 4

Introduction to cost engineering. Application of acquired skills to design of chemical processes. Individual major design project required. Safety for industrial processes. Lab.

**Attributes:** Writing Intensive Course**Equivalent(s):** CHE 708**Grade Mode:** Letter Grading**CHBE 709 - Fundamentals of Air Pollution and Its Control****Credits:** 4

The origin and fate of air pollutants. Fundamentals of atmospheric meteorology, chemistry, and dispersion phenomena. Control of air pollutants and the related equipment. Current issues. Lab.

**Equivalent(s):** CHE 709**Grade Mode:** Letter Grading**CHBE 712 - Introduction to Nuclear Engineering****Credits:** 4

Development of nuclear reactors; binding-energy; radioactivity; elements of nuclear reactor theory; engineering problems of heat transfer, fluid flow, materials selection, and shielding; environmental impacts.

**Equivalent(s):** CHE 712**Grade Mode:** Letter Grading**CHBE 713 - Chemical Engineering Laboratory II****Credits:** 3

Selected experiments in mass transfer, stagewise operations, thermodynamics, and kinetics.

**Attributes:** Writing Intensive Course**Equivalent(s):** CHE 713**Grade Mode:** Letter Grading

**CHBE 714 - Chemical Sensors****Credits:** 4

Interdisciplinary approach using thermodynamic, physical and surface chemistry, kinetic, electrochemical, and optical principles to analyze and design chemical sensors. Topics will include selectivity and sensitivity of sensors, biosensors, electrochemical sensors, mass sensors, optical sensors, and multivariate sensors. Lab.

**Prerequisite(s):** MATH 527 with a minimum grade of D- and CHEM 405 with a minimum grade of D-.

**Equivalent(s):** CHE 714

**Grade Mode:** Letter Grading

**CHBE 722 - Introduction to Microfluidics****Credits:** 4

Fundamentals and applications of microfluidics; scaling laws; microfabrication technology; hydrodynamics and electrostatics; interfacial phenomena; capillary effects and diffusion; microvalves; micropumps; lab-on-a-chip systems; biochips.

**Prerequisite(s):** CHBE 601 with a minimum grade of D-.

**Equivalent(s):** CHE 722

**Grade Mode:** Letter Grading

**CHBE 725 - Cell Phenotyping and Tissue Engineering Laboratory****Credits:** 4

Introduction to culture and phenotyping of mammalian cells (cell line models), with applications to bioengineering and biomedical sciences. Skills, techniques, and knowledge covered include sterile technique, cell culture, cell line models, cell proliferation, cell survival, cell migration, cell adhesion, and drug response. Inquiry-based team projects investigate cell proliferation, cell death, transfection, flow cytometry, 3D scaffolds, or cell imaging.

**Prerequisite(s):** BMS 503 with a minimum grade of D- and BMS 504 with a minimum grade of D-.

**Equivalent(s):** BENG 725

**Grade Mode:** Letter Grading

**CHBE 744 - Corrosion****Credits:** 4

Fundamentals of corrosion processes in industrial and environmental settings; thermodynamics, kinetics, and mass transport in local corrosion cells; protection by electrochemical, chemical, surface modification or barrier methods; instrumental methods in corrosion science. Lab.

**Equivalent(s):** CHE 744

**Grade Mode:** Letter Grading

**CHBE 752 - Process Dynamics and Control****Credits:** 4

Dynamic behavior of chemical engineering processes described by differential equations; feedback control concepts and techniques; stability analysis. Lab.

**Equivalent(s):** CHE 752

**Grade Mode:** Letter Grading

**CHBE 755 - Computational Molecular Bioengineering****Credits:** 4

Introduction to fundamental concepts in bioengineering with primary emphasis on understanding details of biomolecular structures integrated with molecular modeling, simulation, and visualization techniques. The course will introduce structural details of various biomolecules (proteins, nucleic-acids, sugars, and lipids), followed by concepts in thermodynamics and physical chemistry (such as intermolecular forces, energy, entropy, chemical potential, and Boltzmann's distribution), the applications of which will be discussed in the context of drug-receptor interactions, molecular recognition, biomolecular folding, enzyme catalysis, allosteric communication, diffusion, and transport. The laboratory will include training and learning about advanced simulation and visualization software engines. Preference will be given to bioengineering majors.

**Equivalent(s):** BENG 755

**Grade Mode:** Letter Grading

**CHBE 761 - Biochemical Engineering****Credits:** 4

Immobilized enzyme technology, microbial biomass production, transport phenomena in microbial systems, biological reactor design, process instrumentation and control, applications in separation and purification processes. Lab.

**Equivalent(s):** CHE 761

**Grade Mode:** Letter Grading

**CHBE 762 - Biomedical Engineering****Credits:** 4

Overview of the biomedical engineering through topical studies such as drug delivery and sensors. Discussion of modern engineering methods through primary research sources. Differential equations and statistics required prior to taking this course.

**Attributes:** Writing Intensive Course

**Equivalent(s):** BENG 762, CHE 762

**Grade Mode:** Letter Grading

**CHBE 763 - Bioengineering Design I****Credits:** 2

Bioengineering design course will cover safety, regulations and ethics for development of bioengineering devices and processes. Topics include product design, benchmarks, design team functioning, marketing and finances. Students will also learn about current Good Manufacturing Practices, process validation and intellectual property considerations. Students will produce the following documents during the course: preliminary design, materials and supplies list, project schedule and budget, innovation map, FDA approval plan.

**Attributes:** Writing Intensive Course

**Equivalent(s):** BENG 763

**Grade Mode:** Letter Grading

**CHBE 764 - Bioengineering Design II****Credits:** 4

Team based laboratory course focuses on developing the project planned in CHBE 763. Major report is due at mid-semester after first prototype is completed. A second report is due at the end of the semester to indicate improvements on initial design.

**Attributes:** Writing Intensive Course

**Equivalent(s):** BENG 764

**Grade Mode:** Letter Grading

**CHBE 766 - Biomaterials****Credits:** 4

Fundamental principles of biology and material science, along with latest topics in biomaterials research. Topics include cell biology, wound healing, host response to foreign materials, polymers, hydrogels, diffusion and methods of material characterization. Specific medical applications of biomaterials such as orthopedic and dental implants, heart valves, artificial blood vessels, cochlear and ophthalmic implants and tissue engineering. Laboratory. Students are expected to have some background in chemistry, mathematics, and high school biology.

**Equivalent(s):** BENG 766, CHE 766**Grade Mode:** Letter Grading

## Chemical Engineering (CHE)

See [Chemical Engineering & Bioengineering \(CHBE\)](#) (p. 716)

## Chemistry (CHEM)

# Course numbers with the # symbol included (e.g. #400) have not been taught in the last 3 years.

**CHEM 400 - Freshman Seminar****Credits:** 1

An introduction to the chemistry profession. Talks and workshops on the career of a chemist in academia, industry, medicine, law, teaching and government. Required for chemistry majors.

**Repeat Rule:** May be repeated for a maximum of 2 credits.**Grade Mode:** Credit/Fail Grading**CHEM 403 - General Chemistry I****Credits:** 0 or 4

Fundamental laws and concepts applied to nonmetals, metals, and their compounds. For students who plan to take further chemistry courses. Previous chemistry recommended. Knowledge of algebra, exponentials, and logarithms required. Lab. Cannot be taken for credit if credit received for CHEM 405. Required for chemistry majors.

**Attributes:** Discovery Lab Course; Physical Science(Discovery)**Equivalent(s):** CHEM 405**Grade Mode:** Letter Grading**Special Fee:** Yes**CHEM 404 - General Chemistry II****Credits:** 0 or 4

Fundamental laws and concepts applied to nonmetals, metals, and their compounds. For students who plan to take further chemistry courses. Previous chemistry recommended. Knowledge of algebra, exponentials, and logarithms required. Required for chemistry majors. Lab.

**Attributes:** Discovery Lab Course; Physical Science(Discovery)**Prerequisite(s):** CHEM 403 with a minimum grade of D-**Equivalent(s):** CHEM 404H, CHEM 405, CHEM 415, CHEM 416**Grade Mode:** Letter Grading**Special Fee:** Yes**CHEM 404H - Honors/General Chemistry II****Credits:** 0 or 4

Fundamental laws and concepts applied to nonmetals, metals, and their compounds. For students who plan to take further chemistry courses. Previous chemistry recommended. Knowledge of algebra, exponentials, and logarithms required. Required for chemistry majors. Lab. Honors course is designed for students who have enrolled in the honors degree program. Lab. Cannot be taken for credit if credit received for CHEM 402.

**Attributes:** Discovery Lab Course; Honors course; Physical Science(Discovery)**Prerequisite(s):** CHEM 403 with a minimum grade of D-**Equivalent(s):** CHEM 404, CHEM 405, CHEM 415, CHEM 416**Grade Mode:** Letter Grading**Special Fee:** Yes**CHEM 405 - Chemical Principles for Engineers****Credits:** 0 or 4

Basic principles; atomic structure, bonding, equilibria, and thermodynamics. One year of high school chemistry, algebra, and knowledge of logarithms. Cannot be taken for credit if credit received for CHEM 403 and CHEM 404. Required for chemical engineering, mechanical engineering, electrical and computer engineering, environmental engineering; industrial majors. Not applicable for credit for majors in chemistry or biochemistry.

**Attributes:** Discovery Lab Course; Physical Science(Discovery)**Equivalent(s):** CHEM 403, CHEM 404, CHEM 404H, CHEM 413, CHEM 414**Grade Mode:** Letter Grading**Special Fee:** Yes**CHEM 408 - Green Goggles: Introduction to Green Chemistry****Credits:** 4

In this course, we investigate the principles and practice of Green Chemistry as they connect to real world examples. Green Chemistry is the field of science that uses a principle-based approach to design chemical reactions and processes to make them more sustainable. In exploring green chemistry, many of the fundamental concepts of a general chemistry course are investigated. Some topics include use of renewable feedstocks, atom economy, catalysis, waste prevention, and design for degradation.

**Attributes:** Physical Science(Discovery)**Equivalent(s):** CHEM 444G**Grade Mode:** Letter Grading**CHEM 409 - Chemistry and Society****Credits:** 4

Elementary survey of chemistry; integrates principles and applications. For students who do not intend to take any other chemistry courses and those interested in satisfying a general education science requirement. Not a prerequisite for any other chemistry courses. (Not offered every year.) Chemistry majors are excluded from taking this course.

**Attributes:** Physical Science(Discovery); Inquiry (Discovery)**Grade Mode:** Letter Grading**CHEM 411 - Introductory Chemistry for Life Sciences****Credits:** 0 or 4

Fundamental and pragmatic aspects of chemistry, particularly as foundation for nutritional biochemistry. Includes basics of bonding, acid/base behavior, reaction energy, intermolecular forces, stoichiometry, and equilibrium. High school chemistry not required. This course is not a replacement to CHEM 403 and is not an acceptable pre-requisite for CHEM 404.

**Attributes:** Discovery Lab Course; Physical Science(Discovery)**Grade Mode:** Letter Grading**Special Fee:** Yes

**CHEM 413 - General Chemistry Lecture I****Credits:** 3

Fundamental laws and concepts applied to nonmetals, metals, and their compounds. For students who plan to take further chemistry courses. Previous chemistry recommended. Knowledge of algebra, exponentials, and logarithms required. Not offered every summer. Cannot be taken for credit if credit received for CHEM 401, CHEM 403, CHEM 405, or CHEM 409.

**Equivalent(s):** CHEM 403, CHEM 405**Grade Mode:** Letter Grading**CHEM 415 - General Chemistry Lecture II****Credits:** 3

Fundamental laws and concepts applied to nonmetals, metals, and their compounds. For students who plan to take further chemistry courses. Previous chemistry recommended. Knowledge of algebra, exponentials, and logarithms required. Cannot be taken for credit if credit received for CHEM 402 or CHEM 404.

**Prerequisite(s):** (CHEM 403 with a minimum grade of D- or CHEM 413 with a minimum grade of D-).**Equivalent(s):** CHEM 404, CHEM 404H**Grade Mode:** Letter Grading**CHEM 416 - General Chemistry Lab II****Credits:** 1

Lab application of fundamental laws and concepts applied to nonmetals, metals and their compounds. Previous general chemistry lecture required. Special permission. Not offered every summer. Cannot be taken for credit if credit received for CHEM 402 or CHEM 404. Not open to Chemistry majors.

**Prerequisite(s):** (CHEM 403 with a minimum grade of D- or CHEM 414 with a minimum grade of D-).**Equivalent(s):** CHEM 404, CHEM 404H**Grade Mode:** Letter Grading**Special Fee:** Yes**CHEM 501 - Peer-led Team Learning in Chemistry****Credits:** 2

Initial experience as peer instructional leader. Practical application of theories of cognition, group dynamics, learning, and motivation to helping other students learn chemistry in general chemistry. Requires one weekly meeting with students.

**Prerequisite(s):** (CHEM 403 with a minimum grade of D- or CHEM 404 with a minimum grade of D- or CHEM 404H with a minimum grade of D-).**Grade Mode:** Letter Grading**CHEM 502 - Advanced Peer-led Team Leadership in Chemistry****Credits:** 1

Development and assessment of leadership skills. Practical application of theories of cognition, group dynamics, learning, and motivation to helping other students learn chemistry in general chemistry. Requires one weekly meeting with students.

**Prerequisite(s):** CHEM 501 with a minimum grade of D-.**Grade Mode:** Letter Grading**CHEM 503 - Mentoring for Peer Team Learning****Credits:** 1

Experienced leaders mentor a new leader in implementation of PLTL model, including initial co-leading and observational formative assessment. Mentors report on mentee development, visit other experienced leaders, and provide a final evaluation. Mentors lead their own weekly group and assist part-time in the PLTL leader meetings.

**Prerequisite(s):** CHEM 501 with a minimum grade of D-.**Grade Mode:** Letter Grading**CHEM 517 - Introduction to Chemical Measurement Science****Credits:** 3

Application of chemical principles, particularly equilibrium, to quantitative measurement of chemical substances. Measurement design and control, accuracy and precision, calibration of instruments, sample representativeness and integrity.

**Prerequisite(s):** (CHEM 404 with a minimum grade of D- or CHEM 405 with a minimum grade of D-).**Grade Mode:** Letter Grading**CHEM 518 - Practical Chemical Measurement Techniques and Instrumentation****Credits:** 2

Development of practical skills for quantitative measurement of chemical substances, proper use of laboratory tools and instruments. Introduction to analytical separations, ion-selective electrodes, spectrophotometry.

**Co-requisite:** CHEM 517**Prerequisite(s):** (CHEM 404 with a minimum grade of D- or CHEM 405 with a minimum grade of D-).**Grade Mode:** Letter Grading**Special Fee:** Yes**CHEM 545 - Organic Chemistry****Credits:** 3

Introductory study of carbon compounds for those who desire a brief terminal course. This course is a one semester course only. CHEM 545 and 546 are not applicable for pre-med, pre-vet, pharmacological majors or minors requiring a year long course of organic. CHEM 545 and CHEM 546 cannot be used to meet semester 1 of the year long-organic course (CHEM 547 or CHEM 651). CHEM 545 and CHEM 546L are co-requisites and must be taken together.

**Co-requisite:** CHEM 546**Prerequisite(s):** (CHEM 404 with a minimum grade of D- or CHEM 404H with a minimum grade of D- or CHEM 405 with a minimum grade of D-).**Grade Mode:** Letter Grading**CHEM 546 - Organic Chemistry Laboratory****Credits:** 2

Introductory study of carbon compounds for those who desire a brief terminal course. Lab.

**Co-requisite:** CHEM 545**Prerequisite(s):** (CHEM 404 with a minimum grade of D- or CHEM 404H with a minimum grade of D- or CHEM 405 with a minimum grade of D-).**Grade Mode:** Letter Grading**CHEM 547 - Organic Chemistry I****Credits:** 3

Principal classes of organic compounds, aliphatic and aromatic; class reactions and structural theory. Intended primarily for chemistry and biochemistry majors. Students receiving credit for CHEM 547-548 may not receive credit for either CHEM 545 or CHEM 651 and CHEM 652.

**Co-requisite:** CHEM 549**Prerequisite(s):** (CHEM 404 with a minimum grade of D- or CHEM 404H with a minimum grade of D- or CHEM 405 with a minimum grade of D-).**Equivalent(s):** CHEM 651**Grade Mode:** Letter Grading

**CHEM 548 - Organic Chemistry II****Credits:** 3

Principal classes of organic compounds, aliphatic and aromatic; class reactions and structural theory. Intended primarily for chemistry and biochemistry majors. Students receiving credit for CHEM 547 and CHEM 548 may not receive credit for either CHEM 545 or CHEM 651 and CHEM 652. Only listed majors allowed: Chemistry (BS), Chemistry (BA), Bchmmolcebio, and Biochemistry.

**Co-requisite:** CHEM 550**Prerequisite(s):** (CHEM 404 with a minimum grade of D- or CHEM 404H with a minimum grade of D- or CHEM 405 with a minimum grade of D-) and CHEM 547 with a minimum grade of D-.**Equivalent(s):** CHEM 652**Grade Mode:** Letter Grading**CHEM 549 - Organic Chemistry Laboratory****Credits:** 2

Lab.

**Co-requisite:** CHEM 547**Equivalent(s):** CHEM 546, CHEM 653**Grade Mode:** Letter Grading**Special Fee:** Yes**CHEM 550 - Organic Chemistry Laboratory****Credits:** 2

Organic Chemistry Laboratory.

**Co-requisite:** CHEM 548**Equivalent(s):** CHEM 654**Grade Mode:** Letter Grading**Special Fee:** Yes**CHEM 574 - Chemistry Across the Periodic Table****Credits:** 4

Ninety-eight elements form the building blocks of every substance on Earth-they are elegantly organized into what we now call The Periodic Table. This course will discuss the structure/property/reactivity patterns inherent in The Periodic Table, their origins according to the quantum mechanical model of the atom, and how they are manifest in current research advancements and modern applications of main group element chemistry, transition metal chemistry, and the chemistry of solids and materials.

**Attributes:** Inquiry (Discovery)**Prerequisite(s):** (CHEM 404 with a minimum grade of D- or CHEM 404H with a minimum grade of D- or CHEM 405 with a minimum grade of D-).**Grade Mode:** Letter Grading**CHEM 576 - Experimental Inorganic Chemistry****Credits:** 2

This laboratory course is an introduction to synthetic methods in inorganic chemistry and the study of the elements across the periodic table. This course will emphasize the use of spectroscopic and analytical techniques specifically aimed at characterizing and identifying inorganic compounds, such as multi-nuclear NMR, UV\Vis, IR spectroscopy, X-ray diffraction and mass spectrometry. An introduction to scientific writing will be included.

**Prerequisite(s):** CHEM 574 (may be taken concurrently) with a minimum grade of D-.**Grade Mode:** Letter Grading**Special Fee:** Yes**CHEM 651 - Organic Chemistry I****Credits:** 3

Principal classes of organic compounds, aliphatic and aromatic, class reactions and structural theory. Intended primarily for pre-healing arts, biological science, and health science students. Students receiving credit for CHEM 651 and CHEM 652 may not receive credit for either CHEM 545 or CHEM 547 and CHEM 548.

**Co-requisite:** CHEM 653**Prerequisite(s):** (CHEM 404 with a minimum grade of D- or CHEM 404H with a minimum grade of D- or CHEM 405 with a minimum grade of D-).**Equivalent(s):** CHEM 547**Grade Mode:** Letter Grading**CHEM 652 - Organic Chemistry II****Credits:** 3

Principal classes of organic compounds, aliphatic and aromatic, class reactions and structural theory. Intended primarily for pre-healing arts, biological science, and health science students.

**Co-requisite:** CHEM 654**Prerequisite(s):** CHEM 651 with a minimum grade of D- and CHEM 653 with a minimum grade of D-.**Equivalent(s):** CHEM 548**Grade Mode:** Letter Grading**CHEM 652A - Organic Chemistry II****Credits:** 3

Principal classes of organic compounds, aliphatic and aromatic, class reactions, and structural theory. Intended primarily for pre-healing arts, biological science, and health science students. Students receiving credit for CHEM 651 and CHEM 652 may not receive credit for either CHEM 545 or CHEM 547 and CHEM 548. This course is for Chemical Engineers only.

**Prerequisite(s):** CHEM 651 with a minimum grade of D- and CHEM 653 with a minimum grade of D-.**Grade Mode:** Letter Grading**CHEM 653 - Organic Chemistry Laboratory****Credits:** 2

Lab.

**Co-requisite:** CHEM 651**Equivalent(s):** CHEM 546, CHEM 549**Grade Mode:** Letter Grading**Special Fee:** Yes**CHEM 654 - Organic Chemistry Laboratory****Credits:** 2

Organic Chemistry Laboratory.

**Co-requisite:** CHEM 652**Equivalent(s):** CHEM 550**Grade Mode:** Letter Grading**Special Fee:** Yes

**CHEM 683 - Physical Chemistry I****Credits:** 3

Topics may be chosen from: properties of gases, liquids, and solids; thermochemistry, and thermodynamics; chemical equilibria; reaction rates; quantum chemistry and spectroscopy.

**Co-requisite:** CHEM 685

**Prerequisite(s):** (CHEM 404 with a minimum grade of D- or CHEM 404H with a minimum grade of D- or CHEM 405 with a minimum grade of D-) and (MATH 426 with a minimum grade of D- or MATH 426H with a minimum grade of D-) and (PHYS 402 (may be taken concurrently) with a minimum grade of D- or PHYS 407 (may be taken concurrently) with a minimum grade of D- or PHYS 407H (may be taken concurrently) with a minimum grade of D- or PHYS 407S (may be taken concurrently) with a minimum grade of D-).

**Grade Mode:** Letter Grading**CHEM 684 - Physical Chemistry II****Credits:** 3

Topics may be chosen from: properties of gases, liquids, and solids; thermochemistry, and thermodynamics; chemical equilibria; reaction rates; quantum chemistry and spectroscopy.

**Co-requisite:** CHEM 686

**Prerequisite(s):** CHEM 683 with a minimum grade of D- and (MATH 426 with a minimum grade of D- or MATH 426H with a minimum grade of D-).

**Grade Mode:** Letter Grading**CHEM 685 - Physical Chemistry Laboratory****Credits:** 2

Measurement of thermodynamic properties, chemical kinetics, and methods of determining the structure of matter.

**Co-requisite:** CHEM 683

**Prerequisite(s):** (CHEM 404 with a minimum grade of D- or CHEM 404H with a minimum grade of D- or CHEM 405 with a minimum grade of D-) and (MATH 426 with a minimum grade of D- or MATH 426H with a minimum grade of D-) and (PHYS 407 (may be taken concurrently) with a minimum grade of D- or PHYS 407H (may be taken concurrently) with a minimum grade of D- or PHYS 402 (may be taken concurrently) with a minimum grade of D- or PHYS 407S (may be taken concurrently) with a minimum grade of D-).

**Grade Mode:** Letter Grading**Special Fee:** Yes**CHEM 686 - Physical Chemistry Laboratory****Credits:** 2

Measurement of thermodynamic properties, chemical kinetics, and methods of determining the structure of matter.

**Co-requisite:** CHEM 684

**Prerequisite(s):** CHEM 683 with a minimum grade of D- and CHEM 685 with a minimum grade of D- and (PHYS 407 (may be taken concurrently) with a minimum grade of D- or PHYS 407H with a minimum grade of D- or PHYS 402 (may be taken concurrently) with a minimum grade of D- or PHYS 407S (may be taken concurrently) with a minimum grade of D-).

**Grade Mode:** Letter Grading**Special Fee:** Yes**CHEM 696 - Independent Study****Credits:** 1-4

For exceptional students. Individual reading, writing, or laboratory work carried out under the tutelage of a faculty member. May be used to replace specific required courses in chemistry.

**Prerequisite(s):** (CHEM 404 with a minimum grade of D- or CHEM 404H with a minimum grade of D- or CHEM 405 with a minimum grade of D-).

**Grade Mode:** Letter Grading**CHEM 708 - Spectroscopic Investigations of Organic Molecules****Credits:** 3

Identification and structural analysis of chemical compounds by selected instrumental methods. Typical topics include proton and carbon-13 NMR spectroscopy, IR and UV spectroscopy, and mass spectrometry.

**Grade Mode:** Letter Grading**CHEM 740 - Chemical Biology****Credits:** 3

How does the COVID vaccine work? What is an antibody conjugate? What is bioconjugation? How do we see mRNA in living cells? How do we evolve enzymes? Chemical Biology is the interdisciplinary study of the chemicals and chemical reactions involved to probe, manipulate, and control biological systems in vitro and in vivo. This course is designed for biologists, chemists, and engineers who want to understand cutting edge and relevant research techniques used in modern medicine.

**Prerequisite(s):** (CHEM 547 with a minimum grade of D- and CHEM 548 with a minimum grade of D-) or (CHEM 651 with a minimum grade of D- and CHEM 652 with a minimum grade of D-).

**Grade Mode:** Letter Grading**CHEM 755 - Advanced Organic Chemistry****Credits:** 3

Methods of synthesis and determination of structure, including stereochemistry of complex organic compounds.

**Prerequisite(s):** (CHEM 548 with a minimum grade of D- or CHEM 652 with a minimum grade of D-).

**Grade Mode:** Letter Grading**CHEM 762 - Advanced Chemical Analysis Instrumentation****Credits:** 3

Theory, instrumentation, and application of methods to qualitative identification and quantitative measurement of trace chemical substances including environmental pollutants. Includes methods of such as atomic spectroscopy, gas and liquid chromatography, IR and UV-VIS spectrophotometry, electrochemistry, fluorescence, mass spectrometry, X-ray techniques.

**Co-requisite:** CHEM 763

**Prerequisite(s):** CHEM 517 with a minimum grade of D- and CHEM 518 with a minimum grade of D-.

**Grade Mode:** Letter Grading**CHEM 763 - Advanced Chemical Instrumentation Laboratory****Credits:** 2 or 3

Hands-on experience with modern instrumentation for trace chemical analysis described in CHEM 762. Performance capabilities and limitations, care, and safety.

**Co-requisite:** CHEM 762

**Prerequisite(s):** CHEM 518 with a minimum grade of D-.

**Grade Mode:** Letter Grading**Special Fee:** Yes**CHEM 774 - Inorganic Chemistry****Credits:** 3

Basic theoretical concepts and their applications to inorganic reactions and compounds.

**Prerequisite(s):** (CHEM 548 with a minimum grade of D- or CHEM 652 with a minimum grade of D-).

**Grade Mode:** Letter Grading

**CHEM 776 - Physical Chemistry III****Credits:** 3

Application of quantum theory to atomic electron structure, molecular structure, and spectroscopy. Advanced topics in physical chemistry.

**Prerequisite(s):** CHEM 684 with a minimum grade of D-.**Grade Mode:** Letter Grading**Special Fee:** Yes**CHEM 777 - Advanced Synthesis and Characterization****Credits:** 0 or 3

This is an advanced laboratory course involving the synthesis and characterization of organic and inorganic compounds. Students will leave this course with sufficient proficiency to reproduce synthetic procedures and prepare compounds from the chemical literature.

**Prerequisite(s):** CHEM 550 with a minimum grade of D- and CHEM 576 with a minimum grade of D-.**Grade Mode:** Letter Grading**Special Fee:** Yes**CHEM 795 - Special Topics****Credits:** 2-4

New or specialized topics not covered in regular course offerings.

**Repeat Rule:** May be repeated for a maximum of 4 credits.**Grade Mode:** Letter Grading**CHEM 798 - Senior Seminar****Credits:** 1

Student reports on topics of interest.

**Attributes:** Writing Intensive Course**Prerequisite(s):** (CHEM 548 with a minimum grade of D- or CHEM 652 with a minimum grade of D-) and CHEM 684 with a minimum grade of D-.**Equivalent(s):** CHEM 698**Grade Mode:** Credit/Fail Grading**CHEM 799 - Senior Thesis****Credits:** 4

Yearlong investigation in a selected topic, with background and experimental investigation. For chemistry majors who have completed CHEM 548, CHEM 694, and CHEM 762. Required for B.S. majors. Strongly recommended for B.A. chemistry majors. 2.50 average and approval of department chairperson. Lab. Two semesters of 4 credits each are required.

**Attributes:** Writing Intensive Course**Prerequisite(s):** CHEM 548 with a minimum grade of D- and CHEM 684 with a minimum grade of D-.**Repeat Rule:** May be repeated up to 1 time.**Equivalent(s):** CHEM 699**Grade Mode:** Letter Grading

## Chinese (CHIN)

# Course numbers with the # symbol included (e.g. #400) have not been taught in the last 3 years.

**CHIN #400 - Conversational Chinese****Credits:** 4

This course, for students with no previous training in Chinese, is designed to promote conversational skills in the target language. Communicative strategies are developed within the context of cultural components. Topics include those which enable students to function in China in everyday situations (e.g., food, leisure activities, transportation, business exchanges, tourism, and daily life). This course does not satisfy the foreign language requirement.

**Repeat Rule:** May be repeated for a maximum of 8 credits.**Grade Mode:** Letter Grading**CHIN 401 - Elementary Chinese I****Credits:** 4

Designed for students without previous knowledge of Chinese. Focuses on developing communicative proficiency in listening, speaking, reading, and writing. Students will learn basic vocabulary and sentence structures for use in essential everyday situations, as well as aspects of Chinese culture and society related to the course materials.

**Grade Mode:** Letter Grading**CHIN 402 - Elementary Chinese II****Credits:** 4

Focuses on developing communicative proficiency in listening, speaking, reading, and writing. Students will learn basic vocabulary and sentence structures for use in essential everyday situations, as well as aspects of Chinese culture and society related to the course materials. CHIN 401 and CHIN 402 taken together satisfies the foreign language requirement. Cannot be taken separately without permission of the instructor.

**Attributes:** Foreign Language Requirement**Prerequisite(s):** CHIN 401 with a minimum grade of D-.**Grade Mode:** Letter Grading**CHIN #410 - Communicative Chinese for the Professions****Credits:** 4

A skill-based course for students who wish to focus on the Chinese language in relation to the health fields, business, law, tourism, and social service. Helps students develop a practical understanding of China through communicative activities in specific fields. Does not satisfy the foreign language requirement.

**Repeat Rule:** May be repeated for a maximum of 8 credits.**Grade Mode:** Letter Grading**CHIN #420 - Summer Experience in China****Credits:** 4

This course is designed to let students experience the Chinese language and culture first hand. It is conducted in China each summer. Students first travel to Beijing, Xian, Chengdu and Shanghai for about a week with a faculty. They then need to learn the basic Chinese conversation for two and a half weeks at Chengdu University. Students can choose to take either elementary or intermediate Chinese in Chengdu.

**Co-requisite:** INCO 589**Repeat Rule:** May be repeated for a maximum of 8 credits.**Grade Mode:** Letter Grading

**CHIN 425 - Introduction to Chinese Culture****Credits:** 4

Conducted in English. This course offers a critical introduction to Chinese culture, including its three philosophical foundations (Confucianism, Daoism, Buddhism), various branches of cultural production (e.g. language, food, painting, military strategy), and modern transformation. Explores the intellectual, literary, artistic, and socio-political issues that have shaped Chinese culture for the past two and a half millennia. Students can expect to gain in-depth knowledge of some major elements that define the Chinese tradition.

**Attributes:** World Cultures(Discovery)**Grade Mode:** Letter Grading**CHIN 503 - Intermediate Chinese I****Credits:** 4

Focuses on developing communicative proficiency in listening, speaking, reading, and writing. Students will strengthen the language skills learned at previous levels, and acquire more advanced vocabulary and sentence patterns, as well as related cultural knowledge, to deal with more complicated everyday situations.

**Attributes:** World Cultures(Discovery)**Prerequisite(s):** CHIN 402 with a minimum grade of D-.**Grade Mode:** Letter Grading**CHIN 504 - Intermediate Chinese II****Credits:** 4

Focuses on developing communicative proficiency in listening, speaking, reading, and writing. Students will strengthen the language skills learned at previous levels, and acquire more advanced vocabulary and sentence patterns, as well as related cultural knowledge, to deal with more complicated everyday situations. Cannot be taken separately without permission of the instructor.

**Attributes:** World Cultures(Discovery)**Prerequisite(s):** CHIN 503 with a minimum grade of D-.**Grade Mode:** Letter Grading**CHIN 521 - What does it Mean to be Modern? Lenses of Modern Chinese Literature and Film****Credits:** 4

Conducted in English. This course explores various facets of the modern experience through the lenses of 20th and 21st century Chinese literature and film. We will discuss both the general intellectual, ethical, socio-political, historical and aesthetic issues that shape the global modernity, and the particular situations China faces as a non-Western culture with its own unique history. Major works from mainland China, Hong Kong, and Taiwan.

**Attributes:** Humanities(Disc); Writing Intensive Course**Grade Mode:** Letter Grading**CHIN 631 - Advanced Chinese Conversation and Composition I****Credits:** 4

Focuses on developing communicative proficiency in listening, speaking, reading, and writing at an advanced level. While students continue to consolidate their speaking and listening skills, more emphasis will be placed on reading and writing skills.

**Prerequisite(s):** CHIN 504 with a minimum grade of D-.**Grade Mode:** Letter Grading**CHIN 632 - Advanced Chinese Conversation and Composition II****Credits:** 4

Focuses on developing communicative proficiency in listening, speaking, reading, and writing at an advanced level. While students continue to consolidate their speaking and listening skills, more emphasis will be placed on reading and writing skills. Cannot be taken separately without permission of the instructor.

**Prerequisite(s):** CHIN 631 with a minimum grade of D-.**Grade Mode:** Letter Grading**CHIN #686 - Spring Semester in Chengdu China****Credits:** 0-16

\*Discovery World Cultures fulfilled by length of time in county\*. The program provides a unique opportunity to study abroad in Chengdu, China during the spring semester. It enables upper-level students in the Chinese language program as well as students in other colleges to spend a full semester immersed in another language and culture.

**Co-requisite:** INCO 588**Attributes:** World Cultures(Discovery)**Grade Mode:** Credit/Fail Grading**Special Fee:** Yes**CHIN 795 - Independent Study****Credits:** 1-4

Open to highly qualified juniors and seniors. To be taken only with the permission of department chairperson and of the supervising faculty member or members. Barring duplication of subject, may be repeated for credit.

**Repeat Rule:** May be repeated up to 4 times.**Grade Mode:** Letter Grading

## Civil & Environmental Engineering (CEE)

# Course numbers with the # symbol included (e.g. #400) have not been taught in the last 3 years.

**CEE 400 - Introduction to Civil Engineering****Credits:** 0 or 4

Introduction to the civil engineering profession: structural, geotechnical, water resources, materials, and environmental. Overviews the civil project process including the creative design process, teamwork, bidding and construction. The relationship between civil engineering works and society including ethics, earthquakes, failures, successful signature structures, current events, and professional licensure. The production of professional engineering documents including writing tasks and calculations sets. Campus resources, the University system, and relationship between required curriculum, student objectives, and the civil engineering profession. Introduction to spreadsheet software, data analysis, and probability and statistics.

**Attributes:** Environment,TechSociety(Disc); Inquiry (Discovery)**Equivalent(s):** CIE 402**Grade Mode:** Letter Grading

**CEE 402 - 2D Computer Aided Design****Credits:** 3

This course will serve as an introduction to some of the fundamental principles of building design and land planning. You will prepare plans representative of building construction and land development commonly used in the architectural, engineering, surveying and construction fields. The emphasis will be on the end result: Preparing complete and professional plans. Through this, you will acquire basic skills in designing and plan layout required by these industries. We will approach this material by designing and drafting using computer software (AutoCAD). Another end outcome is that you will gain a certain level of competency with this AutoCAD software, a program used by the majority of the firms in these professions.

**Equivalent(s):** TECH 564**Grade Mode:** Letter Grading**Special Fee:** Yes**CEE 403 - GIS for Civil and Environmental Engineering****Credits:** 3

This course will serve as an introduction to some of the fundamental principles of Geographic Information Systems integral to Civil and Environmental Engineering. Students will develop an understanding of imagery and data acquisition; develop skills in identification, interpretation, and mapping of civil and land features, terrain analysis, and achieve an understanding of map projections; gain experience in GIS software to perform fundamental geoprocessing and mapping techniques.

**Grade Mode:** Letter Grading**Special Fee:** Yes**CEE 404 - Surveying and Mapping****Credits:** 0 or 4

Principles of land measurements by ground, photogrammetric and satellite methods to model the environment. Application of theory of measurements to perform and adjust engineering survey. Conformal mapping and its application to state plane coordinates. Digital mapping and Geographic Information Systems. Construction and cadastral surveying. Lab.

**Attributes:** Writing Intensive Course**Prerequisite(s):** MATH 425 (may be taken concurrently) with a minimum grade of D-.**Equivalent(s):** CIE 505**Grade Mode:** Letter Grading**CEE 420 - Environmental Engineering Lectures I****Credits:** 3

Introduces the profession, the environmental engineer as planner, designer, problem solver, and interdisciplinary team player; and the goals of the environmental engineering curriculum. Lectures by faculty and practitioners. Introduction to computer skills required for environmental engineering. Engineering ethics.

**Equivalent(s):** ENCV 400, ENE 400**Grade Mode:** Letter Grading**CEE 500 - Statics for Civil Engineers****Credits:** 3

Introduction to statics with emphasis on civil engineering topics; two and three dimensional force systems; static equilibrium; friction; analysis of trusses and beams; centroids; and moment and shear diagrams for flexural members.

**Prerequisite(s):** PHYS 407 with a minimum grade of D- and MATH 426 (may be taken concurrently) with a minimum grade of D-.**Equivalent(s):** CIE 525, CIE 528, ME 525**Grade Mode:** Letter Grading**CEE 501 - Strength of Materials****Credits:** 3

Strength of materials with emphasis on civil engineering applications. Virtual work; work and energy relationships; analysis of members subjected to flexure, torsion, and axial loads; stresses and strains; and stability of columns.

**Prerequisite(s):** CEE 500 with a minimum grade of D- or ME 525 with a minimum grade of D-.**Equivalent(s):** CIE 526, CIE 529, ME 526**Grade Mode:** Letter Grading**CEE 502 - Project Engineering****Credits:** 3

Techniques for financial analysis, and operation and management of engineering systems, engineering economics, material take-offs, estimating, scheduling, modeling physical systems, and decision-making. CEE major or permission.

**Equivalent(s):** CIE 533, CIE 633, CIE 733**Grade Mode:** Letter Grading**CEE 505 - Introduction to Sustainable Engineering****Credits:** 3

This course begins with exploration of the precept that we live in, and must design engineering works for, a world with a finite supply of natural resources and with limited life support capacity. Tools for sustainability engineering are the focus of the course, which includes life cycle analysis and life cycle impact analysis, the metrics and mass and energy flow analyses used in the field of industrial ecology, and environmental management systems.

**Grade Mode:** Letter Grading**CEE 520 - Environmental Pollution and Protection: A Global Context****Credits:** 0 or 4

Introduces environmental science and engineering and the anthropogenic causes of environmental change. Emphasizes the causes, effects, and controls of air, water, and land pollution. The political, ecological, economic, ethical, and engineering aspects of environmental pollution and control are discussed. Field trips.

**Attributes:** Environment,TechSociety(Disc); Writing Intensive Course**Equivalent(s):** BIOL 520, ENCV 520, ENE 520**Grade Mode:** Letter Grading**CEE 620 - Fundamental Aspects of Environmental Engineering****Credits:** 4

Application of fundamental concepts of mass balance in treatment processes. Physical, chemical, and biological aspects of pollution control, and design concepts for operations and processes used in environmental engineering are discussed. Concepts of engineering ethics are presented. Students participate in a design project that involves an oral presentation and written report.

**Attributes:** Writing Intensive Course**Prerequisite(s):** (CHEM 404 with a minimum grade of D- or CHEM 405 with a minimum grade of D-) and CEE 650 with a minimum grade of D- and CEE 520 with a minimum grade of D-.**Equivalent(s):** ENCV 645, ENE 645**Grade Mode:** Letter Grading

**CEE 635 - Engineering Materials****Credits:** 0 or 4

Structural properties and applications of the various materials used in civil engineering projects, including steel, cement, mineral aggregates, concrete, timber, and bituminous materials. Microstructure and properties of common metals, plastics, and ceramics. Lab.

**Attributes:** Writing Intensive Course**Prerequisite(s):** CEE 501 with a minimum grade of D- or ME 526 with a minimum grade of D-.**Equivalent(s):** CIE 622**Grade Mode:** Letter Grading**CEE 650 - Fluid Mechanics****Credits:** 0 or 4

Properties of fluids, fluid statics, continuity, momentum and energy equations, resistance to flow, boundary layer theory, flow in open channels and piping systems, dimensional analysis, similitude, drag, and lift. Laboratory exercises on measurement of fluid properties, energy principles, flow resistance, discharge measurements, momentum, hydropower, groundwater flow, and settling of spheres. Lab.

**Attributes:** Writing Intensive Course**Prerequisite(s):** PHYS 407 with a minimum grade of D-.**Equivalent(s):** CIE 642**Grade Mode:** Letter Grading**CEE 665 - Soil Mechanics****Credits:** 0 or 4

Soil classification and physical properties. Permeability, compressibility, consolidation, and shearing resistance are related to the behavior of soils subjected to various loading conditions. Lab.

**Prerequisite(s):** CEE 635 with a minimum grade of D- and CEE 650 with a minimum grade of D-.**Equivalent(s):** CIE 665**Grade Mode:** Letter Grading**CEE 680 - Classical Structural Analysis****Credits:** 3

Analytical stress and deflection analysis of determinate and indeterminate structures under static and moving loads by classical methods.

**Prerequisite(s):** CEE 501 with a minimum grade of D-.**Equivalent(s):** CIE 681**Grade Mode:** Letter Grading**CEE 700 - Building Information Modeling****Credits:** 3

Building Information Modeling (BIM) is the process of generating and managing project data during its life cycle by integrating 3D multidisciplinary drawings with dynamic scheduling and visualization. BIM provides a digital representation of project data to facilitate the exchange of information beyond the standard two dimensional plan set. This course introduces students to the fundamentals of model creation, scheduling, material take-offs, visualizations, and animations that improve the communication of information to potential clients.

**Prerequisite(s):** CEE 402 (may be taken concurrently) with a minimum grade of D-.**Equivalent(s):** CIE 780**Grade Mode:** Letter Grading**CEE 703 - Site Design and Project Development****Credits:** 3

Provides an in-depth introduction to the various design activities undertaken for Land Development (Site Design) projects. Investigates aspects of site design: parking, grading, drainage, traffic, due diligence, permitting, cost estimating, and financing. Introduces concepts of Project Development process including project management, financing, delivery methods, design development, client relations, and construction administration. Course format will include lectures, guest presenters, and site visits. Grading based upon writing examination, assignments, group project, and professional development activities.

**Prerequisite(s):** CEE 502 with a minimum grade of D-.**Equivalent(s):** CIE 753**Grade Mode:** Letter Grading**CEE 704 - Transportation Eng & Planning****Credits:** 3

Fundamental relationships of traffic speed, density, and flow applied to public and private modes of transport. Principles of demand forecasting and urban systems planning.

**Equivalent(s):** CIE 751, CIE 754**Grade Mode:** Letter Grading**CEE 705 - Introduction to Sustainable Engineering****Credits:** 3

This course begins with exploration of the precept that we live in, and must design engineering works for, a world with a finite supply of natural resources and with limited life support capacity. Tools for sustainability engineering are the focus of the course, which includes life cycle analysis and life cycle impact analysis, the metrics and mass and energy flow analyses used in the field of industrial ecology, and environmental management systems.

**Grade Mode:** Letter Grading**CEE 706 - Environmental Life Cycle Assessment****Credits:** 3

This course teaches knowledge and hands-on-skills in conducting environmental life cycle assessment (LCA), which is a widely used technique by industries, academics, and governments. Students will learn to use popular LCA software (e.g. SimaPro), apply proper LCA techniques, critically analyze LCA results, and provide client-oriented suggestions during this course. Class time is primarily devoted to a combination of lectures and computer labs.

**Grade Mode:** Letter Grading**CEE 719 - Green Building Design****Credits:** 3

This course gives an overview of green designs and sustainable practices in building construction. We will cover technical topics and requirements of a nationally recognized rating system (LEED), with a specific focus on Green Building Design and Construction. Students are introduced to basic building designs and systems related to sustainability. Additionally, they learn about green design topics such as site plans, water and energy efficiency, material and resources usage, environmental quality and renewable energy source. As an outcome of the course, students are able to assess and incorporate green technologies and designs into building projects.

**Equivalent(s):** CIE 781**Grade Mode:** Letter Grading

**CEE 720 - Solid and Hazardous Waste Engineering****Credits:** 3

A thorough examination of the problems that exist in hazardous and solid waste management are presented in terms of the current regulations and engineering approaches used to develop solutions. Topics include risk-based decision making, transport and fate of contaminants, and the fundamental physical, chemical, and biological concepts, which make up the basis for technological solutions to these waste management problems. Case studies are used throughout the course to highlight key concepts and provide real-world examples.

**Equivalent(s):** ENCV 742, ENE 742**Grade Mode:** Letter Grading**CEE 721 - Environmental Sampling and Analysis****Credits:** 4

Theory of analytical and sampling techniques used in environmental engineering. Topics include potentiometry, spectroscopy, chromatography, automated analysis, quality control, sampling design, and collection methods. Methods discussed in lecture are demonstrated in labs. Lab.

**Prerequisite(s):** (CHEM 404 with a minimum grade of D- or CHEM 405 with a minimum grade of D-) and CEE 620 with a minimum grade of D-.**Equivalent(s):** CEE 721W, ENCV 643, ENE 643, ENE 743, ENE 743W**Grade Mode:** Letter Grading**CEE 722 - Introduction to Marine Pollution and Control****Credits:** 4

Introduces the sources, effects, and control of pollutants in the marine environment. Dynamic and kinetic modeling; ocean disposal of on-shore wastes, shipboard wastes, solid wastes, dredge spoils, and radioactive wastes; and oil spills.

**Prerequisite(s):** CEE 620 with a minimum grade of D-.**Equivalent(s):** ENCV 747, ENE 747**Grade Mode:** Letter Grading**CEE 723 - Environmental Water Chemistry****Credits:** 4

Emphasizes the use of chemical equilibrium principles and theory, calculations, and applications of ionic equilibrium stresses. Topics include thermodynamics, kinetics, acid/base, complexation, precipitation/dissolution, and redox equilibria. Computer equilibrium modeling is presented.

**Prerequisite(s):** CHEM 404 with a minimum grade of D- or CHEM 405 with a minimum grade of D-.**Equivalent(s):** ENCV 749, ENE 749**Grade Mode:** Letter Grading**CEE 724 - Environmental Engineering Microbiology****Credits:** 4

Concepts of environmental engineering microbiology. Topics include taxonomy of species important in environmental engineering processes; microbial metabolism, interaction, and growth kinetics in environmental treatment processes; biogeochemical cycling in water; and effects of environmental parameters on environmental engineering microbial processes. Laboratories focus on microbiological methods and laboratory-scale biological treatment experiments. Lab.

**Attributes:** Writing Intensive Course**Prerequisite(s):** CEE 520 with a minimum grade of D- and CEE 650 with a minimum grade of D-.**Equivalent(s):** ENCV 656, ENE 656, ENE 756**Grade Mode:** Letter Grading**CEE 729 - Sources, Control, and Stewardship of Air Pollution****Credits:** 4

Sources and fate of air pollutants from natural and engineered systems. Fundamentals of pollutant chemistry, atmospheric dispersion, and engineering controls. Includes regulatory policy, environmental, and social justice issues.

**Prerequisite(s):** CEE 720 with a minimum grade of D-.**Grade Mode:** Letter Grading**CEE 730 - Public Health Engineering for Rural and Developing Communities****Credits:** 3

The application of environmental health engineering and sanitation principles in disease prevention and control are discussed. Special emphasis is given to areas of the world where communicable and related diseases have not yet been brought under control and to what can happen in more advanced countries when basic sanitary safeguards are relaxed. The following topics are covered: water-related diseases to include their transmission and control; safe water development, treatment, distribution and storage; and on-site wastewater treatment and disposal system.

**Equivalent(s):** ENCV 740, ENE 740**Grade Mode:** Letter Grading**CEE 731 - Advanced Water Treatment Processes****Credits:** 4

The primary objective of this course is to provide the environmental engineer with an overview of physical-chemical and biological unit water treatment processes. Major emphasis is placed on the analysis and design of both conventional and advanced water treatment unit processes/operations.

**Equivalent(s):** ENCV 744, ENE 744**Grade Mode:** Letter Grading**CEE 732 - Solid and Hazardous Waste Design****Credits:** 4

Selection, design, and evaluation of unit processes employed in the treatment of solid wastes and hazardous wastes will be studied. Topics include design of materials recovery facilities, landfills, waste-to-energy facilities and hazardous waste site remedial technologies. A group term project taken from a real-world project will be required. An oral presentation by the group and preparation of a final written engineering report including alternative evaluation, permits, scheduling and economic analysis will be required from each group.

**Attributes:** Writing Intensive Course**Prerequisite(s):** CEE 720 with a minimum grade of D-.**Equivalent(s):** ENCV 748, ENE 748**Grade Mode:** Letter Grading

**CEE 733 - Public Infrastructure Asset Management****Credits:** 4

The course provides a thorough examination of the growing engineering field of Public Infrastructure Assess Management (IAM). The course enables the student to design an IAM system. It touches upon all types of public infrastructure with a particular focus on water infrastructure for the semester design project. Students build upon their engineering economics and project engineering skills and use simple IAM software along with GIS applications. Practice leaders from the industry provide guest lectures throughout the semester. A focus on triple bottom line or the Societal, Environmental and Economic aspects of IAM are included. The format is a modified team base design learning experience providing practice in processing of technical lecture material, personal performance evaluation (frequent quizzes) and team based performance evaluation. Student groups will present their design to the class and provide a written engineering report.

**Prerequisite(s):** CEE 502 (may be taken concurrently) with a minimum grade of D- and CEE 620 (may be taken concurrently) with a minimum grade of D-.

**Equivalent(s):** ENE 739

**Grade Mode:** Letter Grading

**CEE 735 - Properties and Production of Concrete****Credits:** 3

Basic properties of hydraulic cements and mineral aggregates, and their interactions in the properties of plastic and hardened concrete; modifications through admixtures; production handling and placement problems; specifications; quality control and acceptance testing; lightweight, heavyweight, and other special concretes.

**Prerequisite(s):** CEE 635 with a minimum grade of D-.

**Equivalent(s):** CIE 722

**Grade Mode:** Letter Grading

**CEE 736 - Asphalt Mixtures and Construction****Credits:** 3

Specification of asphalt cements, aggregates and proportioning of mixture constituents for paving applications. Asphalt mixture design methods, production, construction, and quality control are discussed. Current new material production and construction technologies are introduced.

**Prerequisite(s):** CEE 635 with a minimum grade of D-.

**Equivalent(s):** CIE 723

**Grade Mode:** Letter Grading

**CEE 737 - Pavement Rehabilitation, Maintenance, and Management****Credits:** 3

This course covers the technical and financial strategies to extend the life of highway and airfield pavements. The course topics will include: Assessment of pavement functional and structural condition, suitability of pavement maintenance and repair techniques, use of pavement preservation processes, and application of asset management to extend the life of pavement infrastructure.

**Prerequisite(s):** CEE 635 with a minimum grade of D-.

**Grade Mode:** Letter Grading

**CEE 748 - Pavement Design Project****Credits:** 1

Semester long design project accompanying CEE 749 Pavement Design Analysis. The design project will require weekly meetings (either online or in person) for the duration of the semester. Meeting times will be arranged based on student schedules. This course, in combination with the 3-credit CEE 749 Pavement Design Analysis, will satisfy a senior level materials principal design elective in the CEE department.

**Co-requisite:** CEE 749

**Grade Mode:** Letter Grading

**CEE 749 - Pavement Design and Analysis****Credits:** 3

Introduction to flexible and rigid pavement design and analysis for highways and airports. Examines design inputs, materials, analysis methods, design tools, and maintenance treatments. This course satisfies a senior level materials design elective in the CEE department. This course, in combination with the 1-credit CEE 748 Pavement Design Project, will satisfy a senior level materials principal design elective in the CEE department.

**Prerequisite(s):** CEE 635 with a minimum grade of D- and CEE 665 with a minimum grade of D-.

**Equivalent(s):** CIE 721

**Grade Mode:** Letter Grading

**CEE 751 - Open Channel Flow****Credits:** 3

Energy and momentum principles in open channel flow; flow resistance; channel controls and transitions; unsteady flow concepts and dam failure studies. Modeling with HEC programs.

**Prerequisite(s):** CEE 650 with a minimum grade of D-.

**Equivalent(s):** CIE 741

**Grade Mode:** Letter Grading

**CEE 753 - Snow Hydrology****Credits:** 3

Snow is a significant component of the hydrologic cycle in high latitude and high elevation environments. It is also a part of engineering design and practice that is frequently overlooked. In this course, we will examine spatial controls on snow accumulation and the dynamics of snowmelt processes through readings in snow hydrology, field assays of snow distribution, and analytical exercises. Of particular interest will be the role of snow in water resource engineering.

**Prerequisite(s):** CEE 650 with a minimum grade of D- and (MATH 539 with a minimum grade of D- or MATH 644 with a minimum grade of D-).

**Grade Mode:** Letter Grading

**CEE 754 - Engineering Hydrology****Credits:** 3

Hydrologic cycle, probability theory related to hydrology and the design of water resources structures, water law, flood discharge prediction, hydrograph development, hydraulic and hydrologic river routing, reservoir routing, theory of storage, reservoir operations, hydropower development, modeling of watershed hydrology with program HEC-1, HEC-HMS, multipurpose projects.

**Equivalent(s):** CIE 745

**Grade Mode:** Letter Grading

**CEE 755 - Design of Pressurized Water Transmission Systems****Credits:** 4

Theory developed for individual components to large complex systems. Analysis and designs of components and systems. Topics include: steady and unsteady closed conduit flow, valves and meters, pump requirements, pump selection, system planning and layout, water hammer, and system operation and maintenance. Pressure system modeling with program EPANET.

**Prerequisite(s):** CEE 650 with a minimum grade of D-.**Equivalent(s):** CIE 755**Grade Mode:** Letter Grading**CEE 758 - Stormwater Management Designs****Credits:** 3

Historic review of stormwater management leading up to the current regulatory framework. Overview of stormwater management strategies, strategy selection, and the targeting of specific contaminants, contaminant removal efficiencies, construction and site selection, and system maintenance. Hydrologic concepts including watershed and storm characteristics, design hydrology (peak flows, storm and treatment volumes), hydrograph routing, and critical review of hydrology and drainage reports. Design and sizing of treatment systems including: conventional, BMPs, low impact development, and manufactured devices. Rainfall runoff calculations with US SCS TR55 model.

**Prerequisite(s):** CEE 650 with a minimum grade of D-.**Equivalent(s):** CIE 758**Grade Mode:** Letter Grading**CEE 759 - Stream Restoration****Credits:** 4

The assessment, planning, design, engineering, and monitoring of stream and watershed practices intended to protect and restore the quality and quantity of flowing surface waters and stream corridors. Lecture material covers hydrology, geomorphology, and ecosystems, with the intent of understanding the variables associated with stream systems and their interplay. Students measure field variables and then are challenged with actual designs. Examples of stream restoration issues include: in-stream flow, dam removal, induced recharge, improvements to fish habitat, and channel stabilization.

**Prerequisite(s):** CEE 650 with a minimum grade of D-.**Equivalent(s):** CIE 759**Grade Mode:** Letter Grading**CEE 765 - Engineering Behavior of Soils****Credits:** 4

Review of stress and strain in soil. Introduction to continuum mechanics. Development of engineering soil properties. Application of soil mechanics to shear strength and stress-strain behaviors of soils. Failure states and residual strength. Application of stress paths in engineering problems. Unstaturated soil mechanics. Laboratory exercises using direct shear test, triaxial test, and soil-water retention measurements.

**Equivalent(s):** CIE 767**Grade Mode:** Letter Grading**CEE 766 - Introduction to Geotechnical Earthquake Engineering****Credits:** 3

Overviews earthquake source mechanisms; magnitude and intensity; seismicity of the United States. Dynamics of simple structures; response spectra. Selection of design parameters; source, magnitude, input records. Measurement of dynamic characteristics of soils; site response, liquefaction, and ground deformation.

**Prerequisite(s):** CEE 778 with a minimum grade of D-.**Equivalent(s):** CIE 762**Grade Mode:** Letter Grading**CEE #767 - Geological Engineering****Credits:** 3

Functional classification of rocks and rock masses, stereographic projection, engineering properties of rocks, and rock mechanics. The influence of geology in the design of underground excavations, tunneling, foundations, and rock slope engineering.

**Prerequisite(s):** ESCI 401 with a minimum grade of D-.**Equivalent(s):** CIE 763**Grade Mode:** Letter Grading**CEE 768 - Geo-Environmental Engineering****Credits:** 3

Soil composition and structure; contaminant fate and transport; containment design including landfills, geo-synthetics for liners and covers, and leachate collection systems; vertical cutoff walls and slope stability analyses; geo-environmental site characterization and investigation using geotechnical and geophysical methods; ground water, soil and gas monitoring and sampling; remediation including in situ and ex situ techniques and treatment methods.

**Equivalent(s):** CIE 766**Grade Mode:** Letter Grading**CEE 778 - Foundation Design I****Credits:** 4

Foundation design based on subsurface investigation and characterization using current methods of laboratory and in situ testing. Use of consolidation theory and bearing capacity theory for the design of shallow foundations including footings and rafts. Basic design of pile foundations. Earth pressure theory applied to design of retaining walls. Slope stability theory and applications.

**Prerequisite(s):** CEE 665 with a minimum grade of D-.**Equivalent(s):** CIE 760**Grade Mode:** Letter Grading**CEE 779 - Foundation Design II****Credits:** 3

Advanced pile and pier design under vertical and lateral loads. Slope stability by circular and noncircular arc methods. Design of flexible bulkhead walls and mechanically stabilized walls. Excavation and dewatering. Soil and site improvement.

**Prerequisite(s):** CEE 778 with a minimum grade of D-.**Equivalent(s):** CIE 761**Grade Mode:** Letter Grading**CEE 780 - Matrix Structural Analysis and Modeling****Credits:** 3

Modeling and analysis of determinate and indeterminate structures by matrix computer methods. Creation of matrix elements using compatibility, equilibrium, and constitutive relationships. Plane trusses, beams, frames, and space trusses.

**Prerequisite(s):** CEE 680 with a minimum grade of D-.**Equivalent(s):** CIE 685, CIE 783**Grade Mode:** Letter Grading**CEE 781 - Dynamics of Structures****Credits:** 3

Dynamics of single- and multi-story buildings. Response due to earthquakes, blasting, traffic, and mechanical equipment. Analysis in the time domain and through the Fourier Transform. Fundamentals of structural vibration measurement.

**Prerequisite(s):** CEE 780 with a minimum grade of D-.**Equivalent(s):** CIE 787**Grade Mode:** Letter Grading

**CEE 789 - Timber Design****Credits:** 3

Introduces the design of timber structures. Structural properties of wood, determination of horizontal and vertical loads, horizontal and vertical load-resisting systems, and design of horizontal diaphragms, shear walls, beams, and columns. Bolted, screwed, and nailed connections.

**Prerequisite(s):** CEE 680 with a minimum grade of D-**Equivalent(s):** CIE 782**Grade Mode:** Letter Grading**CEE 790 - Structural Design in Masonry****Credits:** 3

Introduces the design of reinforced masonry structural members by the stress and strength method and considering deflection and other serviceability performance criteria. Includes development of wind and seismic load, curtain wall, shear wall, lintels and columns. Prereq: CEE 635, CEE 680; or permission.

**Prerequisite(s):** CEE 635 with a minimum grade of D- and CEE 680 with a minimum grade of D-**Equivalent(s):** CIE 776**Grade Mode:** Letter Grading**CEE 791 - Reinforced Concrete Design****Credits:** 0 or 4

Introduces the design of reinforced concrete structural members by the strength method and considering deflection performance. Includes loads, approximate analyses, slabs, beams, and columns.

**Prerequisite(s):** CEE 635 with a minimum grade of D- and CEE 680 with a minimum grade of D-**Equivalent(s):** CIE 774**Grade Mode:** Letter Grading**CEE #792 - Pre-stressed Concrete****Credits:** 3

Analysis and design of prestressed and post-tensioned concrete sections in flexure and shear. Strength, deflection, and losses in flexural members. Optimization of section and prestressing force selection.

**Prerequisite(s):** CEE 791 with a minimum grade of D-**Equivalent(s):** CIE 791**Grade Mode:** Letter Grading**CEE 793 - Structural Design in Steel****Credits:** 4

Introduction to steel member design, including horizontal and vertical members for design and analysis of buildings. Examines design inputs, material choice, analysis methods and design and construction methodologies.

**Prerequisite(s):** CEE 635 with a minimum grade of D- and CEE 680 with a minimum grade of D-**Equivalent(s):** CIE 793**Grade Mode:** Letter Grading**CEE 794 - Bridge Design****Credits:** 3

Analysis of two-span, continuous, slab and beam bridges using the AASHTO LRFD Bridge Design Specifications. Use of influence lines, load distribution, load factoring, deck design, analysis and design of composite beams and plate girders. Bridge aesthetics.

**Prerequisite(s):** CEE 791 with a minimum grade of D- and CEE 793 (may be taken concurrently) with a minimum grade of D-**Equivalent(s):** CIE 792**Grade Mode:** Letter Grading**CEE 795 - Independent Study****Credits:** 1-4

Seniors in good standing may pursue independent studies under faculty guidance. A written culminating report is required.

**Repeat Rule:** May be repeated up to unlimited times.**Equivalent(s):** CIE 795**Grade Mode:** Letter Grading**CEE 796 - Special Topics****Credits:** 1-4

Advanced or specialized topics not normally covered in regular course offerings. May be repeated, but not in duplicate areas.

**Repeat Rule:** May be repeated up to unlimited times.**Equivalent(s):** CIE 795**Grade Mode:** Letter Grading**CEE 797 - Introduction to Project Planning and Design****Credits:** 2

Part one of a two-part sequence. Student groups develop a project statement to address a large-scale civil engineering system design. Each team prepares a project plan to be executed in CEE 798, part two of this sequence.

**Equivalent(s):** CIE 784**Grade Mode:** Letter Grading**CEE 798 - Project Planning and Design****Credits:** 2

Student groups are formed into design teams to prepare a design plan for a large-scale civil engineering system including consideration of budgetary constraints, building code criteria, and environmental impacts. Each team prepares a final written report and gives a formal presentation.

**Attributes:** Writing Intensive Course**Prerequisite(s):** CEE 797 with a minimum grade of D-**Equivalent(s):** CIE 682, CIE 788**Grade Mode:** Letter Grading**CEE 799H - Senior Honors Thesis****Credits:** 4

Students in the honors program in civil engineering complete a project under the direction of a faculty sponsor resulting in a written thesis which must be accepted by the sponsor by the end of the second semester, senior year. Four credits total during senior year; 3 of which may be used to fulfill a CEE non-design elective.

**Attributes:** Honors course**Equivalent(s):** CIE 799H**Grade Mode:** Letter Grading

## Civil Technology (CT)

# Course numbers with the # symbol included (e.g. #400) have not been taught in the last 3 years.

No courses are currently active in the course inventory for this subject prefix.

## Classics (CLAS)

# Course numbers with the # symbol included (e.g. #400) have not been taught in the last 3 years.

**CLAS 400 - Exploring and Experiencing the Ancient World and its Legacy**  
**Credits:** 2

Covers aspects of the ancient world and its subsequent importance not found in the rest of the Classics curriculum or dealt with only briefly. Topics are chosen to be timely by connecting antiquity to current events, including pop culture, or to be enduring but under-appreciated. Emphasis on active and engaged learning and, where possible, experiential activities. May be repeated on different topics. Does not satisfy major requirements.

**Repeat Rule:** May be repeated for a maximum of 16 credits.

**Grade Mode:** Letter Grading

**CLAS 401 - Classical Mythology**

**Credits:** 4

Survey of myths and sagas of ancient Greece and Rome. No classical preparation necessary. Background course for majors in English, the arts, music, history, modern languages, classics.

**Attributes:** Humanities(Disc)

**Equivalent(s):** CLAS 401H

**Grade Mode:** Letter Grading

**CLAS 403 - Introduction to Greek Civilization**

**Credits:** 4

A broad historical exploration of Greek civilization. Topics include: architecture, art, law, literature, philosophy, poetry, politics, religion, society, warfare, and the Greeks' legacy to the modern world. Open to all students. No prior knowledge of the ancient world assumed; all readings are in English. Ideal background for students of English, philosophy, history, Latin, Greek, the arts, music, modern languages.

**Attributes:** Historical Perspectives(Disc)

**Equivalent(s):** CLAS 405, HIST 403

**Grade Mode:** Letter Grading

**CLAS 404 - Introduction to Roman Civilization**

**Credits:** 4

A broad historical exploration of Roman civilization. Topics include: architecture, art, law, literature, philosophy, poetry, politics, religion, society, warfare, and the Romans' legacy to the modern world. Open to all students. No prior knowledge of the ancient world assumed; all readings are in English. Ideal background for students of English, philosophy, history, Latin, Greek, the arts, music, modern languages.

**Attributes:** Historical Perspectives(Disc)

**Equivalent(s):** CLAS 406, HIST 404

**Grade Mode:** Letter Grading

**CLAS 444 - Individual and Society in the Ancient World**

**Credits:** 4

This class examines one of the major issues faced by people throughout history, whether and under what circumstances an individual should act against the wishes of society. The great philosophical and historical works of the ancient world shed light not only on how the Greeks and Romans approached the idea of personal responsibility but also on the assumptions we today make about human nature and the relationships on which society depends. No prior knowledge of the ancient world required. All readings are in English.

**Attributes:** Humanities(Disc); Inquiry (Discovery); Writing Intensive Course

**Grade Mode:** Letter Grading

**CLAS 444D - Athens, Rome, and the Birth of the United States**

**Credits:** 4

What did Washington, Jefferson, Adams (John and Abigail), Madison and Paine have in common? They were all instrumental in shaping the US political system, but they were also educated in the classics. When building the framework of our democratic republic, they continually looked to Athens and Rome as models, inspirations and warnings. The course examines ancient political systems and how they helped fashion our founder's notion of the ideal government and continue to do so.

**Attributes:** Historical Perspectives(Disc); Inquiry (Discovery); Writing Intensive Course

**Grade Mode:** Letter Grading

**CLAS 501 - Introduction to Mediterranean Archaeology**

**Credits:** 4

Survey of representative archaeological sites, architecture, and objects produced by the cultures surrounding the Ancient Mediterranean.

The course will focus on the structure, form, and symbolic content, or sanctuaries, cities, tombs, housing, as well as material culture such as pottery and sculpture. In addition to the overarching narrative of the history of classical archaeology, further topics include cross-cultural influences, materials and building technologies, archaeological theory and practice, and aesthetic principles.

**Attributes:** World Cultures(Discovery)

**Equivalent(s):** ARTH 501

**Grade Mode:** Letter Grading

**CLAS #510 - Building Rome**

**Credits:** 4

An introduction to the buildings and structures for which the Romans remain famous, such as the Pantheon, the Colosseum, and the aqueducts that allowed Rome to become a metropolis. A major focus is the connection between the changes in Roman society and the development of Roman architecture. Looks at both Rome and other important cities in the Roman Empire. All readings are in English. No prior knowledge of the ancient world required.

**Co-requisite:** INCO 589

**Attributes:** FinePerformingArts(Discovery)

**Grade Mode:** Letter Grading

**Special Fee:** Yes

**CLAS 511 - Special Studies in Greek History**

**Credits:** 4

The course uses historical and literary sources in conjunction with the city of Athens itself and its archaeological remains to explore the history of a particular theme, cultural practice or institution in ancient Greek civilization. The topics changes with different instructors but always takes a fundamentally historical orientation to the material and the city, even if interdisciplinary approaches are incorporated into the coursework. CLAS 511 is offered only as part of a study abroad program.

**Attributes:** Historical Perspectives(Disc); Inquiry (Discovery)

**Grade Mode:** Letter Grading

**CLAS 520A - Classical Society, Politics and Ethics: Democracies and Republics****Credits:** 4

We frequently use the terms "democracy" and "republic" to describe our own political system, but where did these words and ideas originally come from? This course examines the historical development of the original democracies in Greece (primarily Athens) and the Roman Republic, as well as the particular institutions and practices that were associated with each. Course will also cover the development of democratic and republican institutions in the modern world.

**Attributes:** Historical Perspectives(Disc)**Grade Mode:** Letter Grading**CLAS 520B - Classical Society, Politics and Ethics: Happiness and Ancient Views of the Good Life****Credits:** 4

How did the Greeks and Romans define happiness and was happiness considered an essential component of the "good life"? How do ancient concepts of the "good life" influence later views of human flourishing and how do specific historical circumstances alter utopian visions of a life well lived? This course traces the concept of the "good life" from ancient Greece to today and challenges students to create their own vision of a "good life".

**Attributes:** Historical Perspectives(Disc)**Grade Mode:** Letter Grading**CLAS 520C - Classical Society, Politics and Ethics: Sports, Spectacle and Competition****Credits:** 4

This course treats the details of athletic training and competition, but its primary focus is on investigating the importance of athletics to society and how athletics reflected the broader cultural values of the Greeks and Romans. Open to all students. All readings in English.

**Attributes:** Historical Perspectives(Disc)**Grade Mode:** Letter Grading**CLAS 520D - Classical Society, Politics and Ethics: Greek and Roman Religion****Credits:** 4

This course traces the historical development of ancient Greek and Roman religion from its antecedents in Near Eastern, Minoan, and Mycenaean culture to the rise of Christianity in Rome's early imperial period. This course also introduces students to the methods and materials of historians of religion. Topics covered in this course include: changing conceptions of divinity, animal sacrifice, sanctuaries, festivals, death and the afterlife, divination, magic, and mystery cults.

**Attributes:** Historical Perspectives(Disc)**Equivalent(s):** CLAS 520**Grade Mode:** Letter Grading**CLAS 525 - Greek and Latin Origins of Medical Terms****Credits:** 4

Study of medical terminology. Exercises in etymology and the development of vocabulary in a context at once scientific, historical, and cultural. No knowledge of Greek or Latin is required. Useful to premedical, pre-dental, pre-veterinary, nursing, medical technology, and other students in the biological and physical sciences. Open to all students.

**Grade Mode:** Letter Grading**CLAS 530A - Classical Literary Performance Genres: War and Adventure in Ancient Epic****Credits:** 4

Storytelling has long been one of the primary means to preserve and transmit cultural ideas and traditions. In this course students read and analyze the earliest epic tales from the Greek and Roman period with a view toward understanding the roots and nature of epic, the myths it told, and the influence it has had on subsequent literature. No credit earned if credit received for CLAS 444B.

**Attributes:** Humanities(Disc); Writing Intensive Course**Equivalent(s):** CLAS 444B**Grade Mode:** Letter Grading**CLAS 530B - Classical Literary and Performance Genres: Tragedy and Comedy on the Ancient Stage****Credits:** 4

Investigations into the dramatic works of the Greek and Romans, the power of performance, and the cultural importance of stage productions. Readings include the tragedies of Aeschylus, Sophocles, and Euripides, and the comedies of Aristophanes, Menander, and Plautus. Ideal background for students of all theatrical and performance traditions. Open to all students. All readings in English.

**Attributes:** Humanities(Disc)**Equivalent(s):** CLAS 530**Grade Mode:** Letter Grading**CLAS 540A - Environment, Technology and Ancient Society: Sustaining Ancient Rome Ecology and Empire****Credits:** 4

This course examines the interplay between the ancient Roman environment, Roman technological innovations, and the values of Roman imperial society. Examining Roman innovations in water supply, building technology, mining, and more, this course explores the ethical questions that arise through the use of ancient Roman technology, evaluates the effects of these technologies on the environment and Roman society, and determines whether Roman values encouraged or discouraged a responsible approach to technology and the environment.

**Attributes:** Environment,TechSociety(Disc)**Equivalent(s):** CLAS 515**Grade Mode:** Letter Grading**CLAS 540B - Environment, Technology and Ancient Society: Roman Houses, Domestic Space and Public Life****Credits:** 4

The Romans used the house as a communication technology for defining and expressing their identities in society and in the natural world. In this course, we examine literary and visual sources for Roman houses, apartments, villas, and palaces, and we compare and contrast the role of the house in the ancient world and in American society. We pay special attention to how domestic space shapes and is shaped by environment, politics, and culture.

**Attributes:** Environment,TechSociety(Disc)**Grade Mode:** Letter Grading

**CLAS 540C - Environment, Technology and Ancient Society: Tech, Tools and Engineering in the Ancient World****Credits:** 4

This course examines positive and negative impacts of ancient technological advances: engineering (fire, metallurgy), writing technology (scripts, including the alphabet, the emergence of papyrus and vellum), military technology (shipbuilding, defensive and offensive technologies, and navigation), artistic (invention of dyes, lost-wax methods of bronze casting), infrastructure (roads, bridges, and aqueducts), and monumentality (Stonehenge, Greek temples, and the Roman Colosseum). Focus on the ways in which societal and environmental factors influenced technological development and vice versa.

**Attributes:** Environment,TechSociety(Disc)**Grade Mode:** Letter Grading**CLAS 550A - Identities and Difference in the Ancient World: Greek and Roman Women****Credits:** 4

The impact of women on society in Greece and Rome throughout Antiquity. The role of women in public, religious, and private life as well as their legal status through law codes. Men's views of women in different literary texts. Especially concentrating on the few existing texts written by women. All readings are in English.

**Attributes:** Historical Perspectives(Disc); Writing Intensive Course**Equivalent(s):** CLAS 550**Grade Mode:** Letter Grading**CLAS 550B - Identities and Difference in the Ancient World: Slaves and Masters****Credits:** 4

Students explore the different ways slavery developed in the Greek and Roman worlds with an emphasis on the connections to other historical developments such as the practice of warfare, changes in political systems, and ancient views about human rights. To better understand the development of Greek and Roman slavery, we look at how the ancient systems compare to slavery in the American South and modern human trafficking.

**Attributes:** Historical Perspectives(Disc)**Grade Mode:** Letter Grading**CLAS 550C - Identities and Difference in the Ancient World: Sex and Desire in Greece and Rome****Credits:** 4

This course provides an introduction to ancient Greek and Roman conceptions of desire and sexuality, to how these conceptions developed and changed over time, and how they differ from modern ways of understanding sex, desire, and sexuality. Topics discussed include "romantic" love, attitudes towards homosexual practices, man-boy love, lesbianism, ancient views of "cross-dressing," and attitudes towards prostitution, among others.

**Attributes:** Historical Perspectives(Disc); Writing Intensive Course**Grade Mode:** Letter Grading**CLAS 551 - Race, Ethnicity, Class & Classics****Credits:** 4

Examines race, ethnicity, and class, and the ways in which they intersect with the study of the ancient world. The approach will use critical lenses alert to the impact of power imbalances both on how we view these subjects in the ancient world and how the ancients have been used to create and reinforce hierarchies in the modern world. The exact focus will vary by semester (students may repeat once if on a different topic).

**Attributes:** World Cultures(Discovery)**Repeat Rule:** May be repeated for a maximum of 8 credits.**Grade Mode:** Letter Grading**CLAS 575 - Ancient Near East****Credits:** 4

From the Neolithic revolution to the time of Alexander the Great. Rise of civilization; nature of human artistic and intellectual development in the earliest civilizations of Mesopotamia and Egypt; Judaism in its historical setting. Course meets the History major requirements for Group III.

**Equivalent(s):** HIST 575**Grade Mode:** Letter Grading**CLAS 601 - Classical Myth II: The Power and Persistence of Myth****Credits:** 4

An in-depth look at the myths of the Greeks and Romans, at the power of myth as a cultural force, and at the importance of myth both in the ancient period as well as the modern era. The focal point is on the myths of the Greeks and Romans, but the myths of other cultures are addressed. All readings are in English.

**Attributes:** Writing Intensive Course**Grade Mode:** Letter Grading**CLAS 675 - History of Ancient Greece****Credits:** 4

Discover the exciting, turbulent, and innovative world of the Greeks through their history, from the emergence of small cities in the archaic period to the empire of Alexander the Great. Special focus will be on the political, economic and social developments in the rise of the polis (city), the Persian and Peloponnesian Wars, the rise of Macedon and Alexander the Great's conquests. CLAS 403/HIST 403 is encouraged but not necessary.

**Equivalent(s):** HIST 675**Grade Mode:** Letter Grading**CLAS 676 - Topics in Ancient Greek History****Credits:** 4

Advanced historical study of a particular period or theme in ancient Greek history. May be repeated barring duplication of subject.

**Repeat Rule:** May be repeated for a maximum of 8 credits.**Equivalent(s):** HIST 676**Grade Mode:** Letter Grading**CLAS 677 - History of Ancient Rome****Credits:** 4

Discover the fascinating and tumultuous history of the ancient Roman world, from its small beginnings in the early Republic to the high Empire, when Rome controlled the whole Mediterranean basin. Special focus will be on the political and economic conflicts between social classes, the Punic Wars, the fall of the Republic, its transformation into a monarchy, and the golden age of imperial rule. CLAS 404/HIST 404 is encouraged but not necessary.

**Equivalent(s):** HIST 677**Grade Mode:** Letter Grading**CLAS 678 - Topics in Ancient Roman History****Credits:** 4

Advanced historical study of a particular period or theme in ancient Roman history. May be repeated barring duplication of subject.

**Repeat Rule:** May be repeated for a maximum of 8 credits.**Equivalent(s):** HIST #678**Grade Mode:** Letter Grading

**CLAS 686 - UNH in Greece Study Abroad****Credits:** 0-6

Study abroad in Greece. Interested students should consult a Classics advisor. Students should be advised they must meet program and university requirements for study abroad. (IA grade will be assigned until official transcript is received from the foreign institution.)

**Co-requisite:** CLAS 511, INCO 589**Grade Mode:** Credit/Fail Grading**Special Fee:** Yes**CLAS 694 - Supervised Practicum****Credits:** 2 or 4

Participants earn credit for suitable pre-professional activities, including high school outreach, assisting in undergraduate courses and work with professional organizations, museum work. Enrollment limited to juniors and seniors who are Classics, Latin, or Greek majors or minors and have above-average G.P.A.s. Writing assignments are required. Course does not count toward Classics, Latin, or Greek major or minor requirements.

**Repeat Rule:** May be repeated for a maximum of 8 credits.**Grade Mode:** Credit/Fail Grading**CLAS 695 - Special Studies****Credits:** 2 or 4

Advanced work in classics. Research paper. Not open to freshmen and sophomores.

**Grade Mode:** Letter Grading**CLAS 696 - Special Studies****Credits:** 2 or 4

Advanced work in classics. Research paper. Not open to freshmen and sophomores.

**Grade Mode:** Letter Grading

## College of Liberal Arts (COLA)

# Course numbers with the # symbol included (e.g. #400) have not been taught in the last 3 years.

**COLA #400 - Hired: A Career Boot Camp for Liberal Arts Majors****Credits:** 2

This 7-week boot camp style course equips liberal arts students with the tools needed to land a job or internship. Specifically, students craft resumes, cover letters, and online profiles that effectively communicate their values, interests, and strengths. Students also execute organized job and internship searches, critique job offers and benefits packages, and hone interview skills that enable them to speak confidently about the transferable skills they have gained throughout their academic and co-curricular experience.

**Grade Mode:** Credit/Fail Grading**COLA 401 - Liberal Arts Advising Seminar****Credits:** 1

Extended Orientation course for COLA first year students.

**Grade Mode:** Credit/Fail Grading**COLA 402 - Digging Deep: Cool COLA Research****Credits:** 1

This course, featuring research presentations and Q&A with select faculty, introduces students to what is entailed in doing research from within Liberal Arts. It will showcase the range of research projects and methods used by COLA faculty and taught to COLA students. Presentations will also illuminate how research in COLA disciplines enriches and complements other fields (e.g., natural resources, marine science, computer science, business, finance, health services) and teaches skills applicable to numerous careers tracks.

**Grade Mode:** Credit/Fail Grading**COLA 458 - Global Preparedness for Budapest****Credits:** 1

This course is delivered online in the weeks leading up to the start of the Budapest Spring Semester Program and while students are abroad. The course will prepare students to get more out of their study abroad experience in Hungary by developing knowledge of the destination city, the procedures and features of the program, and basic intellectual training. All students participating in the program must enroll in this course.

**Grade Mode:** Credit/Fail Grading**COLA 500 - Pathfinder - Career Planning for Liberal Arts Majors****Credits:** 2

Explore existing and emerging employment opportunities for liberal arts majors in fields including technology, health & wellness, marketing, education & training, sales, financial services, and consulting. Weekly panel conversations with industry experts, self-reflection exercises, and career assessments will facilitate this exploration. Ultimately, you will develop a tailored Career Development Plan based on your skills, values, and interests.

**Grade Mode:** Credit/Fail Grading**COLA 505 - Hired: A Career Boot Camp for Liberal Arts Majors****Credits:** 2

This 7-week boot camp style course equips liberal arts students with the tools needed to land a job or internship. Specifically, students craft resumes, cover letters, and online profiles that effectively communicate their values, interests, and strengths. Students also execute organized job and internship searches, critique job offers and benefits packages, and hone interview skills that enable them to speak confidently about the transferable skills they have gained throughout their academic and co-curricular experience.

**Equivalent(s):** COLA #400**Grade Mode:** Credit/Fail Grading**COLA 510 - COLA Peer Navigator Mentor Training****Credits:** 0-1

The purpose of this course is to develop your leadership skills and prepare you to support first-year and transfer students through their first semester at UNH. Peer Navigators serve an important role in COLA and in the lives of first-year transfer students, serving as a bridge to the UNH campus and community. As part of this course, you will learn to facilitate activities and discussions in-class and online, give positive feedback, hold office hours, refer students to campus resources, and act as a learning coach and student advocate.

**Repeat Rule:** May be repeated for a maximum of 6 credits.**Grade Mode:** Credit/Fail Grading

**COLA 653 - Introduction to British Culture****Credits:** 4

Why do the British say “Sorry” for everything? What is the role of the monarchy? Does the British class system still exist? What is it like being British-born of Indian parents? How many languages are spoken in London? What is a stiff upper lip anyway? These are only a tiny fraction of the questions that will surface during your stay in London. Through class discussions, readings, written ruminations, and excursions, you will in this course explore a range of cultural elements and challenges unique to the United Kingdom in general and London in particular, from the light (British etiquette) to the substantial (the impact of immigration).

**Co-requisite:** COLA 655, COLA 670, INCO 588**Grade Mode:** Letter Grading**COLA 655 - London Program****Credits:** 0-18

Enables students to pursue a semester or academic year of in UNH's programs in London, England. Students must be admitted before enrolling in the course. For information and application forms, consult program secretary. IA (continuous grading) grade will be assigned until official transcript is received. Program fee.

**Co-requisite:** COLA 653, INCO 588**Attributes:** World Cultures(Discovery)**Grade Mode:** Credit/Fail Grading**Special Fee:** Yes**COLA #657 - Justice Studies Budapest Program****Credits:** 0-16

This program is designed to introduce students interested in the field to a broader appreciation of the cross-cultural perspective. Each fall, fifteen UNH students spend the semester in residence at the Budapest University of Economic Sciences in Budapest, Hungary, where they have an opportunity to witness first hand the evolution of a criminal justice system within a context of significant cultural, political, economic, and social change. Situated along the Danube in one of Europe's oldest cities, the program offers a unique educational experience to students interested in the study of criminology, law and society, and the administration of justice. Under the supervision of a UNH faculty member also in residence, students carry a four course load, two of which are taught by the UNH faculty member. All courses are taught in English. Eligible students must hold sophomore standing, have completed either SOC 515 or POLT 507 and one other course in the Justice Studies curriculum, and have a minimum cumulative grade point average of 2.50.

**Co-requisite:** INCO 588**Attributes:** World Cultures(Discovery)**Grade Mode:** Credit/Fail Grading**Special Fee:** Yes**COLA 658 - Humanities Spring Budapest Program****Credits:** 0-16

Enables students to pursue a spring semester in UNH's program in Budapest, Hungary. The program is designed to provide undergraduates with an intensive study abroad experience focusing on modern Hungarian and Central European history and culture. Students study at Corvinus University and take courses taught by Hungarian and University of New Hampshire faculty. Under the supervision of a UNH faculty member in residence, students carry a four course load, two of which (HUMA 550 and HUMA 551) are taught by the UNH faculty member. All courses are taught in English. Students must be admitted before enrolling in this course. For information and application forms, consult the COLA Study Abroad Coordinator. IA (Continuous grading) grade is assigned until official transcript of courses taken at Corvinus University is received.

**Attributes:** World Cultures(Discovery)**Grade Mode:** Credit/Fail Grading**Special Fee:** Yes**COLA 670 - The London Project****Credits:** 4

The London Project will be one of the two UNH courses that UNH students participating in the UNH London Program will be required to take. This course will guide students through the research, writing/producing, and presentation of a project that explores one very narrow slice of London. The goal is to allow each student to gain insight and understanding of a subject that intrigues him/her and to present findings in a form that is appropriate for the subject and the talents of the author. Those forms could range from an academic research paper, a piece of creative writing, a multimedia slide show, a video, a podcast, or perhaps a Power Point presentation. By asking students to become fluent in one London issue, this course complements the other UNH course, Introduction to British Culture, which covers a range of British customs, challenges, and cultural elements.

**Co-requisite:** COLA 653**Grade Mode:** Letter Grading**COLA 702 - Research Interrupted: Qualitative Research During a Pandemic****Credits:** 2

The goal of this team-taught course is to provide an introduction to digital research and tools, and information about alternative resources and effective social science research techniques in the time of limited or no face-to-face interactions, and limited or no access to hands-on research sites.

**Grade Mode:** Credit/Fail Grading

## Communication (CMN)

# Course numbers with the # symbol included (e.g. #400) have not been taught in the last 3 years.

**CMN 440A - Honors/Communication, Identity and Addiction****Credits:** 4

Exploration of how diverse ways of talking about addiction contribute to our understanding – and ultimate approach toward – addictive behaviors. Focus will be on a relational approach to understanding the complex lives of human in their social contexts; it is an approach that challenges the dominant individualistic and scientific models of a person. Examination of the ways in which the moral, disease, and psychosocial models of addiction invite us to ignore larger social, cultural, and global issues that contribute to addiction.

**Attributes:** Honors course; Social Science (Discovery)**Grade Mode:** Letter Grading**CMN 455 - Introduction to Media Studies****Credits:** 4

Nature, development, and the effects of mass media. Overview of mass communication history and theory.

**Attributes:** Social Science (Discovery)**Equivalent(s):** CMN 455H**Grade Mode:** Letter Grading**CMN 456 - Propaganda and Persuasion****Credits:** 4

Introduction to theories of propaganda and persuasion. Examination of symbolic strategies designed to secure or resist social and institutional change. Attention given to case studies of social, political, economic, and religious reformation. Special consideration of the ethical ramifications of such efforts.

**Attributes:** Humanities(Disc)**Equivalent(s):** CMN 456H**Grade Mode:** Letter Grading**CMN 457 - Introduction to Language and Social Interaction****Credits:** 4

An introduction to the study of the conversational basis of social reality. Presents an overview of interpersonal communication processes and the ways in which they influence the formation of identity, personal relationships, gender, interactional patterns, conflict, culture, and power. Readings and class material from a variety of authors in the communication discipline as well as related fields in the humanities and the social sciences.

**Attributes:** Social Science (Discovery)**Grade Mode:** Letter Grading**CMN 500 - Public Speaking****Credits:** 4

Performance course buttressed by practical theories of public discourse. Focus on analysis of speaking situations and audiences, message construction, presentation, and critical evaluation. Does not count towards the CMN major.

**Equivalent(s):** CA 450**Grade Mode:** Letter Grading**CMN 504 - Introduction to Argumentation****Credits:** 4

Persuasive discourse as inquiry and advocacy grounded in practical inductive and deductive reasoning. Discovery, analysis, and testing of practical arguments. The nature and function of proof. Some emphasis on applied presentation.

**Attributes:** Inquiry (Discovery); Writing Intensive Course**Prerequisite(s):** CMN 456 with a minimum grade of C.**Grade Mode:** Letter Grading**CMN 505 - Analysis of Popular Culture****Credits:** 4

Locates the development of popular cultural artifacts and practices within the 20th-century social history of the U.S. Examines the political-economic forces that underpinned the commercialization of art, leisure, sports, and other elements of culture in industrial and postindustrial America.

**Attributes:** Inquiry (Discovery)**Prerequisite(s):** CMN 456 with a minimum grade of C.**Grade Mode:** Letter Grading**CMN 507 - Introduction to Rhetorical Theory and Analysis****Credits:** 4

Major precepts of rhetorical theory. Application of those precepts in analysis and understanding of a wide range of human communication. Consideration of how precepts and issues of rhetorical theory apply to contemporary issues and problems.

**Attributes:** Inquiry (Discovery)**Prerequisite(s):** CMN 456 with a minimum grade of C.**Grade Mode:** Letter Grading**CMN 514 - Analysis of Online Identity****Credits:** 4

This course will explore how digital media technologies inform strategies of self-presentation and practices of identity formation. We will situate contemporary practices of self-presentation within the historical development of the internet and sociological theories of identity. Students will be encouraged to examine how the internet and mobile technologies challenge existing understandings of concepts such as anonymity, authenticity, reputation, and privacy. Throughout the course, students will be asked to think critically about the ways in which traditional identity markers - such as race, gender, and class - are both challenged and reproduced in digital environments. Drawing on the current digital media landscape, we will explore several contemporary issues including privacy and reputation, self-branding and microcelebrity, online dating, and self-tracking. Throughout the semester, students will use academic literature to identify and address real-world problems.

**Grade Mode:** Letter Grading**CMN #515 - Analysis of News****Credits:** 4

Explores the psychological, social, economic, political, and cultural factors that influence the definition and reporting of news.

**Prerequisite(s):** CMN 455 with a minimum grade of C.**Grade Mode:** Letter Grading**CMN 519 - Advertising as Social Communication****Credits:** 4

Social role of advertising, public policy debates concerning advertising, influence of advertising on culture, and methods of analyzing advertising messages.

**Prerequisite(s):** CMN 455 with a minimum grade of C.**Grade Mode:** Letter Grading**CMN 525 - Persuasion & Public Relations****Credits:** 4

An exploration of the persuasion genres, techniques, roles, and stages in the practice of public relations across the full range of rhetorical situations and organizations.

**Attributes:** Writing Intensive Course**Grade Mode:** Letter Grading

**CMN 529 - Data for Sale: Capitalism and the Surveillance Economy****Credits:** 4

Surveillance, the practice of tracking and recording information about people, is central to modern capitalist societies. Capitalists rely on surveillance systems to supervise workers and managers, identify customer markets, keep accounts, and calculate the risk of investments and innovations. While such practices can increase profits, they also pose threats for privacy and individual freedom. This course explores the relationship between capitalism and surveillance, and considers the role of surveillance as a mode of economic world-building and social control in the past and present.

**Attributes:** Environment, TechSociety(Disc)**Grade Mode:** Letter Grading**CMN 535 - Digital Democracies****Credits:** 4

This course explores how emerging digital technologies alternately enhance and obstruct the pursuit of democratic values, broadly conceived. We examine the history and meaning of terms like democracy and freedom in the context of both politics (campaigns, voting, legislation) and culture (music, entertainment, and the arts); the history of computers and the Internet; and the impact of digital media on international politics and professional journalism.

**Prerequisite(s):** CMN 455 with a minimum grade of C.**Grade Mode:** Letter Grading**CMN 540 - Special Topics in Communication****Credits:** 4

Selected topics not covered by existing Communication courses. Topics may vary. Courses are available in the department office or online prior to each semesters registration period. May be repeated barring duplication of topic.

**Repeat Rule:** May be repeated up to unlimited times.**Grade Mode:** Letter Grading**CMN 545 - Media, Religion, and Culture****Credits:** 4

This course examines the impact of media on religious belief, practice, and institutions in an American context. We cover the rise of evangelicalism; the development of religious denominations and political parties; the birth of religious broadcasting including the rise of televangelism; and the decline of institutional religion with the emergence of a "spiritual marketplace." We examine religious representations in popular film, music, and news, and ask whether digital technologies have become imbued with religious meaning.

**Prerequisite(s):** CMN 455 with a minimum grade of C.**Grade Mode:** Letter Grading**CMN 562 - Collaborative Leadership in the 21st Century****Credits:** 4

This course grounds the study of interaction in groups via theories of inter-organizational collaboration. Students will leave this course with a very specific set of knowledge and skills related to dialogue, principled negotiation, constructive conflict, consensus decision making and appreciative inquiry. Lessons focus on the development of a responsible ethic regarding how to share power among diverse group members. This ethic prepares you to lead collaborative groups in organizations, communities, and as family members.

**Prerequisite(s):** CMN 457 with a minimum grade of C.**Grade Mode:** Letter Grading**CMN 567 - Gender, Race, and Class in the Media****Credits:** 4

The purpose of this course is to introduce students to contemporary critical scholarship on the construction of gender, race, and class in the media - particularly popular media. Subjects such as the portrayal of ethnic groups, ideal body image, blue collar men, and gay, lesbian, bisexual, and transgender groups are case studies. This course is one that introduces students to performing communication analysis.

**Prerequisite(s):** CMN 455 with a minimum grade of C.**Grade Mode:** Letter Grading**CMN 572 - Analysis of Language and Social Interaction****Credits:** 4

In this mid-level course, students develop the observational and analytic skills necessary for the in-depth study of interaction in a variety of everyday and institutional social settings. Settings may include dialogue, multiparty interaction, non-verbal communication and embodiment, identity talk, and communication in organizations. Special attention to developing the reading and research skills used in upper level interpersonal communication courses.

**Prerequisite(s):** CMN 457 with a minimum grade of C.**Grade Mode:** Letter Grading**CMN #575 - Research Practicum****Credits:** 1-4

Student engagement through direct participation in faculty research projects. Elective credits which do not count towards the major.

**Prerequisite(s):** CMN 455 with a minimum grade of C and CMN 456 with a minimum grade of C and CMN 457 with a minimum grade of C.**Repeat Rule:** May be repeated for a maximum of 8 credits.**Grade Mode:** Credit/Fail Grading**CMN 580 - Lying, Deception and the Truth****Credits:** 4

The ability to lie is a defining feature of the social life of higher order primates and humans. Deceiving, concealing, lying and evading are forms of communication which are a basic part of everyday human life. This course will explore the structure and function of lying, deception and evasion in the course of communication. As we do so we will also explore the nature of truth as it applies to human interaction in the world.

**Prerequisite(s):** CMN 457 with a minimum grade of C.**Grade Mode:** Letter Grading**CMN 588 - Analyzing Institutional Interaction****Credits:** 4

Examinations of institutional interactions in emergency services, justice/law, medicine, family school encounters, journalism and politics. Shows how the work of society gets done through interaction. Students get hands-on experience analyzing persons' conduct in these interactions. This course is designed to develop students' analytic skills in studying social interaction in institutions, using recorded data in the form of naturally-occurring interactions in these settings.

**Attributes:** Inquiry (Discovery)**Prerequisite(s):** CMN 457 with a minimum grade of C.**Grade Mode:** Letter Grading**CMN 596 - Special Topics in Media Studies****Credits:** 4

Selected topics not covered by existing courses in media studies. Topics vary; course descriptions are available in department office during preregistration. May be repeated for credit if topics differ.

**Prerequisite(s):** CMN 455 with a minimum grade of C.**Equivalent(s):** CMN 595**Grade Mode:** Letter Grading

**CMN 597 - Special Topics in Rhetorical Studies****Credits:** 4

Selected topics not covered by existing courses in rhetorical studies. Topics vary; course descriptions are available in department office during registration. May be repeated for credit if topics differ.

**Prerequisite(s):** CMN 456 with a minimum grade of C.**Grade Mode:** Letter Grading**CMN 598 - Special Topics in Interpersonal Studies****Credits:** 4

Selected topics not covered by existing courses in interpersonal communication. Topics vary; course descriptions are available in department office during registration. May be repeated for credit if topics differ.

**Prerequisite(s):** CMN 457 with a minimum grade of C.**Repeat Rule:** May be repeated for a maximum of 8 credits.**Grade Mode:** Letter Grading**CMN 599 - Internship****Credits:** 1-4

Internships are designed to integrate classroom study and supervised practical experience in a work setting. Each student is required to write a series of reports focusing on aspects of the work experience that are related to coursework in the Communications Department. These assignments are designed to enhance a student's ability to reflect critically on the internship experience and to merge theory and practice. Assignments are available, depending on the number of credits granted (1-4). Students are expected to hold the common exam time (TR, 1240-2) open for occasional meetings. Before starting the internship, students must submit a written proposal to both the work supervisor and the faculty sponsor. The proposal should include detailed information on the duties and responsibilities to be undertaken at the internship site and on the goals and learning objectives as relevant to the Communication Department curriculum.

**Prerequisite(s):** CMN 455 with a minimum grade of C and CMN 456 with a minimum grade of C and CMN 457 with a minimum grade of C.**Repeat Rule:** May be repeated for a maximum of 8 credits.**Grade Mode:** Credit/Fail Grading**CMN #600 - Public Speaking as a Civic Art****Credits:** 4

Performance course buttressed by the traditional civic art of rhetoric. Focuses on analysis of speaking situations and audiences, message of construction, presentation, and critical evaluation using major precepts of rhetorical theory. Theoretical and critical issues in the context of rhetorical practices. Students are required to have taken two 500 level CMN courses (C-) prior to this course, unless granted instructor permission.

**Attributes:** Writing Intensive Course**Prerequisite(s):** CMN 455 with a minimum grade of C and CMN 456 with a minimum grade of C and CMN 457 with a minimum grade of C.**Grade Mode:** Letter Grading**CMN 602 - Theories of Interpersonal Communication****Credits:** 4

Analysis and criticism of contemporary perspectives on interpersonal communication. Theories and concepts, issues, and research models are examined as they contribute to our understanding of social interaction. Students are required to have taken two 500 level CMN courses (C-) prior to this course, unless granted instructor permission.

**Attributes:** Writing Intensive Course**Prerequisite(s):** CMN 455 with a minimum grade of C and CMN 456 with a minimum grade of C and CMN 457 with a minimum grade of C.**Grade Mode:** Letter Grading**CMN 607 - Persuasion in American Politics****Credits:** 4

Study of the forms and strategies of persuasive discourse employed by contemporary American political leaders. Analysis of important political addresses of the 20th century, with attention to theoretical and critical issues in political communication and public address. Discussion of the status of rhetoric in modern politics, and the impact of persuasive discourse on campaigns, policy decisions, crisis management, political scandal, and the national identity. Students are required to have taken two 500 level CMN courses (C-) prior to this course, unless granted instructor permission.

**Attributes:** Writing Intensive Course**Prerequisite(s):** CMN 455 with a minimum grade of C and CMN 456 with a minimum grade of C and CMN 457 with a minimum grade of C.**Grade Mode:** Letter Grading**CMN 614 - Gender, Race and Technology****Credits:** 4

Why do digital assistants have women's voices? Are highways racist? This course explores the influence of gender and race on communication technologies. Drawing on communication, gender studies, critical race studies, and science and technology studies, this class engages in a social examination of everyday technologies. We examine the historical relationship between gender, race, and technology and understand how design decisions influence the meanings of communication tools. Students are required to have taken two 500 level CMN courses (C-) prior to this course, unless granted instructor permission.

**Attributes:** Writing Intensive Course**Prerequisite(s):** CMN 455 with a minimum grade of C and CMN 456 with a minimum grade of C and CMN 457 with a minimum grade of C.**Grade Mode:** Letter Grading**CMN #619 - Histories of New Media****Credits:** 4

New media are a defining feature of 21st-century society, from the internet to social networking sites. But what makes new media "new"? How do new media affect existing social norms, including notions of intimacy, privacy, community, and identity? This course considers the concept of new media from a historical and cultural perspective, examining the social construction of technology, the idea of technological progress, and comparative studies of both "old" and "new" media. Students are required to have taken two 500 level CMN courses (C-) prior to this course, unless granted instructor permission.

**Prerequisite(s):** CMN 455 with a minimum grade of C and CMN 456 with a minimum grade of C and CMN 457 with a minimum grade of C.**Equivalent(s):** CMN 619W**Grade Mode:** Letter Grading

**CMN 619W - Histories of New Media****Credits:** 4

New media are a defining feature of 21st-century society, from the internet to social networking sites. But what makes new media "new"? How do new media affect existing social norms, including notions of intimacy, privacy, community, and identity? This course considers the concept of new media from a historical and cultural perspective, examining the social construction of technology, the idea of technological progress, and comparative studies of both "old" and "new" media. Students are required to have taken two 500 level CMN courses (C-) prior to this course, unless granted instructor permission.

**Attributes:** Writing Intensive Course**Prerequisite(s):** CMN 455 with a minimum grade of C and CMN 456 with a minimum grade of C and CMN 457 with a minimum grade of C.**Equivalent(s):** CMN #619**Grade Mode:** Letter Grading**CMN 620W - Global Media, Culture, and Power****Credits:** 4

This past century, communication and transportation technologies connected the world as never before. As people and ideas move with increasing ease, how are traditional notions of culture being challenged worldwide? This course uses theory and examples from politics and popular culture to explore the construction of culture and cultural difference. It examines the political and economic consequences of mediated ideas of culture, including their relationship to race, nationalism, and transnational inequities. Completion of two CMN 500-level courses required prior to taking this course.

**Attributes:** Writing Intensive Course**Prerequisite(s):** CMN 455 with a minimum grade of D- and CMN 456 with a minimum grade of D- and CMN 457 with a minimum grade of D-.**Grade Mode:** Letter Grading**CMN 622 - Digital Rhetoric****Credits:** 4

This course examines how traditional rhetorical theories and methods apply in contemporary digitized environments. It asks whether we can employ, as is, traditional theories and methods, many of which were developed centuries ago, or whether we need to develop new approaches in order to understand persuasion in online contests. As it explores these issues, this course tackles both rhetorical production and rhetorical analysis. That is, it asks students to both create and analyze digital rhetoric. Students are required to have taken two 500 level CMN courses (C-) prior to this course, unless granted instructor permission.

**Attributes:** Writing Intensive Course**Prerequisite(s):** CMN 455 with a minimum grade of C and CMN 456 with a minimum grade of C and CMN 457 with a minimum grade of C.**Grade Mode:** Letter Grading**CMN 627 - Great Speakers and Speeches****Credits:** 4

Historical and critical survey of masterpieces of oratory examining the rhetorical situation and artistic features of great works of spoken discourse. Demosthenes, Cicero, Edmund Burke, Daniel Webster, Frederick Douglass, Abraham Lincoln, and Elizabeth Cady Stanton may be among the orators studied. The course will engage students in critical assessment of eloquence by emphasizing study of historical circumstances, ethical choices, and artistic virtue of the most effective and admired public speakers in Western tradition. Students are required to have taken two 500 level CMN courses (C-) prior to this course, unless granted instructor permission.

**Attributes:** Writing Intensive Course**Prerequisite(s):** CMN 455 with a minimum grade of C and CMN 456 with a minimum grade of C and CMN 457 with a minimum grade of C.**Equivalent(s):** CMN 557**Grade Mode:** Letter Grading**CMN 630 - Psychology of Communication****Credits:** 4

Recasts human psychology as a communicative accomplishment, offering a critique of the individualist tradition. Emphasis on the ways in which identity, knowledge, values, and beliefs are constructed in daily social engagements and the pragmatic, political, and moral implications of this view. Implications for our major cultural institutions such as education, health, and politics. Students are required to have taken two 500 level CMN courses (C-) prior to this course, unless granted instructor permission.

**Attributes:** Writing Intensive Course**Prerequisite(s):** CMN 455 with a minimum grade of C and CMN 456 with a minimum grade of C and CMN 457 with a minimum grade of C.**Grade Mode:** Letter Grading**CMN 634 - Media and Politics****Credits:** 4

The goal of this course is to study the role of the media in American politics, and what media evolution means for future politics. Topics such as political campaigns, media effects, news reporting, framing terrorists, etc. are studied in depth. Timely topics such as "are the media liberal or conservative?" are debated in class. Research projects and papers study questions related to important social issues such as women in the media. Students are required to have taken two 500 level CMN courses (C-) prior to this course, unless granted instructor permission.

**Attributes:** Writing Intensive Course**Prerequisite(s):** CMN 455 with a minimum grade of C and CMN 456 with a minimum grade of C and CMN 457 with a minimum grade of C.**Grade Mode:** Letter Grading

**CMN 635 - Contemplative Media Studies****Credits:** 4

Contemplative Media Studies involves the application of contemplative practices and principles to the critical analysis of media content, technology, and institutions. It links Media Studies to Contemplative Studies, which integrates empirical social-science research (neuroscience, psychology) to first-person practices like meditation, yoga, and art therapy. Through academic essays and arts-based assignments, students strive to become more mindful digital citizens-creative yet critical, hopeful yet judicious with regard to the current and future course of technical development. Students are required to have taken two 500 level CMN courses (C-) prior to this course, unless granted instructor permission.

**Attributes:** Writing Intensive Course**Prerequisite(s):** CMN 455 with a minimum grade of C and CMN 456 with a minimum grade of C and CMN 457 with a minimum grade of C.**Grade Mode:** Letter Grading**CMN 637 - Controversy and Reasoning in Law****Credits:** 4

Uses rhetorical analysis and criticism to evaluate communication practices in courtroom disputes. Compares conventional American litigation to alternative methods. Explains how stages of a trial shape communication options and norms. Illustrates common subjects and forms for judicial reasoning. Students are required to have taken two 500 level CMN courses (C-) prior to this course, unless granted instructor permission.

**Attributes:** Writing Intensive Course**Prerequisite(s):** CMN 455 with a minimum grade of C and CMN 456 with a minimum grade of C and CMN 457 with a minimum grade of C.**Grade Mode:** Letter Grading**CMN 640 - Seminar in Communication****Credits:** 4

Variable topics in communication research, theory, and practice. May be repeated for different topics. Topic descriptions are available at the department office or online during registration. Students are required to have taken two 500 level CMN courses (C-) prior to this course, unless granted instructor permission.

**Prerequisite(s):** CMN 455 with a minimum grade of C and CMN 456 with a minimum grade of C and CMN 457 with a minimum grade of C.**Repeat Rule:** May be repeated up to unlimited times.**Grade Mode:** Letter Grading**CMN 647 - Rhetorical Criticism of Media****Credits:** 4

Use of rhetorical approaches and methods in the analysis and criticism of contemporary forms of visual media culture. Students examine the social, political, and aesthetic implications of contemporary media forms from within a framework of rhetorical theory. Emphasis on practical analysis employing various rhetorical approaches with a goal of understanding persuasive elements in contemporary media (including television, film, print & broadcast advertising, internet, and social media). Students are required to have taken two 500 level CMN courses (C-) prior to this course, unless granted instructor permission.

**Attributes:** Writing Intensive Course**Prerequisite(s):** CMN 455 with a minimum grade of C and CMN 456 with a minimum grade of C and CMN 457 with a minimum grade of C.**Grade Mode:** Letter Grading**CMN 650W - Critical Perspectives on Film****Credits:** 4

Advanced, focused study of film theory as cultural practice. Topics vary from year to year and with instructor. May be repeated for different topics. Focus may range from general considerations of film theory, criticism, and history, to specific analyses of selected genres, directors, national cinemas, and periods. Course descriptions available in department office during preregistration. Students are required to have taken two 500 level CMN courses (C-) prior to this course, unless granted instructor permission. May be repeated for credit if topic is different.

**Attributes:** Writing Intensive Course**Prerequisite(s):** CMN 455 with a minimum grade of C and CMN 456 with a minimum grade of C and CMN 457 with a minimum grade of C.**Repeat Rule:** May be repeated for a maximum of 12 credits.**Equivalent(s):** CMN 650**Grade Mode:** Letter Grading**Special Fee:** Yes**CMN 656 - Environmental Communication and Rhetoric****Credits:** 4

Working from a rhetorical perspective toward communication as persuasive action, students learn to analyze environmental communication in public spheres. Communication about the environment is examined in visual and popular culture, print and digital news, advertising and marketing, science communication, corporate communication and advertising, and campaigns and movements. Special attention to issues of public engagement, citizen activism, and public advocacy. Students work on a semester long case study in which they analyze, evaluate, and respond to communication about an environmental problem in a local town. Students are required to have taken two 500 level CMN courses (C-) to take this course, unless granted instructor permission.

**Attributes:** Writing Intensive Course**Prerequisite(s):** CMN 455 with a minimum grade of C and CMN 456 with a minimum grade of C and CMN 457 with a minimum grade of C.**Grade Mode:** Letter Grading**CMN 662 - Public Dialogue and Deliberation****Credits:** 4

This course explores the theory behind the practice of public dialogue and deliberation. It considers the distinctions and appropriateness of different types and aims of public participation, and how to best facilitate conversations important in the public sphere. The course anchors civil discourse as vital to democracy. Students will design, organize, and implement a public dialogue on campus, facilitating discussions on a relevant topic serving our community. Students marry practice with deep consideration of issues of equity, diversity, voice, representation, neutrality, and power. Students are required to have taken two 500 level CMN courses (C-) to take this course, unless granted instructor permission.

**Attributes:** Writing Intensive Course**Prerequisite(s):** CMN 455 with a minimum grade of C and CMN 456 with a minimum grade of C and CMN 457 with a minimum grade of C and CMN 562 with a minimum grade of D-.**Grade Mode:** Letter Grading

**CMN 666 - Conversation Analysis****Credits:** 4

Exploration in how participants in interpersonal communication display their orientation to the fundamental orderliness of conversational sequences in everyday, institutional, and mass media settings. Basic concepts covered include the interactional co-construction of turn-taking, repair, overlap, openings, closings, silences, adjacency, pairs, disagreement, preference, and the role of various linguistic, paralinguistic, and nonlinguistic features in the conversation process. Students are required to have taken two 500 level CMN courses (C-) to take this course, unless granted instructor permission.

**Attributes:** Writing Intensive Course

**Prerequisite(s):** CMN 455 with a minimum grade of C and CMN 456 with a minimum grade of C and CMN 457 with a minimum grade of C.

**Grade Mode:** Letter Grading

**CMN 667 - Popular Music Studies****Credits:** 4

This course provides an opportunity to critically examine and study popular music. Popular music represents one of the most significant global cultural industries, transcending borders and economies, especially as technology ushers in new ways to listen, share, produce, and perform music. This course will look at the role of contemporary popular music in providing a mediated form of communication and culture by examining its historical and cultural development. Students are required to have taken two 500 level CMN courses (C-) to take this course, unless granted instructor permission.

**Attributes:** Writing Intensive Course

**Prerequisite(s):** CMN 455 with a minimum grade of C and CMN 456 with a minimum grade of C and CMN 457 with a minimum grade of C.

**Grade Mode:** Letter Grading

**CMN 670 - From Silicon Valley to Foxconn: Global Digital Capitalism****Credits:** 4

From young Internet users in Ghana's Internet cafe to American teenagers to Chinese factory workers assembling iPhones, and Indian coders migrating to Australia, this course exposes you to the multifaceted lived experiences under global digital capitalism while grounding them in the history and theory of capitalism as an uneven world system. The design of this course encourages you to think critically about what's new and not so new about capitalism in its contemporary digital/neoliberal phase. It helps identify the on-going technology-driven social transformations on a global scale. Students are required to have taken two 500 level CMN courses (C-) to take this course, unless granted instructor permission.

**Attributes:** Writing Intensive Course

**Prerequisite(s):** CMN 455 with a minimum grade of C and CMN 456 with a minimum grade of C and CMN 457 with a minimum grade of C.

**Grade Mode:** Letter Grading

**CMN 680 - Perspectives on Culture and Communication****Credits:** 4

Critical interpretation of culture focused on the communication practices and resources of diverse groups. Examination of the reciprocal relationship between communication practices, forms of culture, and cultural identity. Exploration of the conditions necessary for dialogue between differing cultural groups. Emphasis on the role of communication in constructing race, power, cultural domination, and globalization. Students are required to have taken two 500 level CMN courses (C-) to take this course, unless granted instructor permission.

**Attributes:** Writing Intensive Course

**Prerequisite(s):** CMN 455 with a minimum grade of C and CMN 456 with a minimum grade of C and CMN 457 with a minimum grade of C.

**Grade Mode:** Letter Grading

**CMN 685 - Gendered Rhetorics****Credits:** 4

This course focuses on exploration of the social, rhetorical, and communicative construction of gender through contemporary contexts. We will examine popular and political discourse and discuss how such discourse structures and disciplines our everyday experiences of sex (male/female) and gender (how society shapes understanding of those categories). Students are required to have taken two 500 level CMN courses (C-) to take this course, unless granted instructor permission.

**Attributes:** Writing Intensive Course

**Prerequisite(s):** CMN 455 with a minimum grade of C and CMN 456 with a minimum grade of C and CMN 457 with a minimum grade of C.

**Grade Mode:** Letter Grading

**Special Fee:** Yes

**CMN #696 - Seminar in Media Studies****Credits:** 4

Variable topics in media research, theory, and practice. May be repeated for different topics. Topic descriptions available in department office during preregistration. Students are required to have taken two 500 level CMN courses (C-) to take this course, unless granted instructor permission.

**Prerequisite(s):** CMN 455 with a minimum grade of C and CMN 456 with a minimum grade of C and CMN 457 with a minimum grade of C.

**Repeat Rule:** May be repeated up to 1 time.

**Equivalent(s):** CMN 696W

**Grade Mode:** Letter Grading

**CMN 696W - Seminar in Media Studies****Credits:** 4

Variable topics in media research, theory, and practice. May be repeated for different topics. Topic descriptions available in department office during preregistration. Students are required to have taken two 500 level CMN courses (C-) to take this course, unless granted instructor permission.

**Attributes:** Writing Intensive Course

**Prerequisite(s):** CMN 455 with a minimum grade of C and CMN 456 with a minimum grade of C and CMN 457 with a minimum grade of C.

**Repeat Rule:** May be repeated up to 1 time.

**Equivalent(s):** CMN #696

**Grade Mode:** Letter Grading

**CMN 697 - Seminar in Rhetorical Study****Credits:** 4

Variable topics in rhetorical research, theory, and practice. May be repeated for different topics. Topic descriptions available in department office during preregistration. Students are required to have taken two 500 level CMN courses (C-) to take this course, unless granted instructor permission.

**Attributes:** Writing Intensive Course**Prerequisite(s):** CMN 455 with a minimum grade of C and CMN 456 with a minimum grade of C and CMN 457 with a minimum grade of C.**Repeat Rule:** May be repeated up to 1 time.**Equivalent(s):** CMN 697H**Grade Mode:** Letter Grading**CMN 698 - Seminar Interpersonal Studies****Credits:** 4

Variable topics in interpersonal research, theory, and practice. May be repeated for different topics. Topic descriptions available in department office during preregistration. Students are required to have taken two 500 level CMN courses (C-) to take this course, unless granted instructor permission.

**Attributes:** Writing Intensive Course**Prerequisite(s):** CMN 455 with a minimum grade of C and CMN 456 with a minimum grade of C and CMN 457 with a minimum grade of C.**Repeat Rule:** May be repeated up to 2 times.**Equivalent(s):** CMN 695**Grade Mode:** Letter Grading**CMN 702 - Seminar in Interpersonal Communication Theory****Credits:** 4

In-depth concentration on a particular theoretical orientation in interpersonal communication. Original works are read. Theoretical orientation varies by semester. May be repeated for different topics. Students are required to have taken two 500 level CMN courses (C-) to take this course, unless granted instructor permission.

**Attributes:** Writing Intensive Course**Prerequisite(s):** CMN 455 with a minimum grade of C and CMN 456 with a minimum grade of C and CMN 457 with a minimum grade of C.**Repeat Rule:** May be repeated up to unlimited times.**Grade Mode:** Letter Grading**CMN 703 - Seminar in Rhetorical Theory****Credits:** 4

Focused study of problems in rhetorical theory construction through examination and criticism of selected theoretical frameworks used to explain or interpret rhetorical phenomena. May be repeated for different topics. Students are required to have taken two 500 level CMN courses (C-) to take this course, unless granted instructor permission.

**Attributes:** Writing Intensive Course**Prerequisite(s):** CMN 455 with a minimum grade of C and CMN 456 with a minimum grade of C and CMN 457 with a minimum grade of C.**Repeat Rule:** May be repeated up to unlimited times.**Grade Mode:** Letter Grading**CMN 714 - Youth and Media****Credits:** 4

This course will situate contemporary debates about youth and media in historical and theoretical context by examining the ways in which media texts and technologies construct and reflect ideas about youth culture. With a focus on western societies, we will examine the cultural, economic, and political factors that contributed to the social construction of adolescence as a distinct lifecycle stage in the twentieth century. In particular, we will look at how media industries have worked to define and commodify this life stage, thereby creating expectations about what it means to "grow up" in western cultures. We will explore the importance of media texts - including music and fashion - in the construction of youth subcultures. Our investigation of subcultures will consider the role of race, class, and gender in academic theories about young people. We will examine how "moral panics" about youth culture and counter cultural movements are reflected and reproduced in current fears about the effects of media technologies and texts on teenagers. We will conclude by investigating how these various interventions play out in discussions about adolescents' media production, particularly in a digital environment in which young people are simultaneously constructed as savvy "digital natives" and vulnerable victims of media messages.

**Attributes:** Writing Intensive Course**Grade Mode:** Letter Grading**CMN 719 - Surveillance and Society****Credits:** 4

Surveillance is fundamentally concerned with social control. The course tracks the historical development of surveillance, from its origins in embodied experience and record keeping through the rise of computing, social media and big data. This history provides a backdrop against which critical theories of surveillance are introduced, drawing attention to how power is exercised through systems of identification, social classification, visibility, and statistical knowledge. Students are required to have taken two 500 level CMN courses (C-) to take this course, unless granted instructor permission.

**Attributes:** Writing Intensive Course**Prerequisite(s):** CMN 455 with a minimum grade of C and CMN 456 with a minimum grade of C and CMN 457 with a minimum grade of C.**Grade Mode:** Letter Grading**CMN #730 - Family Communication****Credits:** 4

Exploration of the patterned communication in families and the ways in which our understanding of these patterns can be utilized to understand and transform unwanted family interactions. Varying cultural discourses of family communication are used to explore the dialogic construction of family and self. Students are required to have taken two 500 level CMN courses (C-) to take this course, unless granted instructor permission.

**Attributes:** Writing Intensive Course**Prerequisite(s):** CMN 455 with a minimum grade of C and CMN 456 with a minimum grade of C and CMN 457 with a minimum grade of C.**Grade Mode:** Letter Grading

**CMN 735 - Media & Ethics****Credits:** 4

This course asks how human beings can flourish (i.e. lead meaningful and purposeful lives) in the context of increasingly complex systems of digital media and information systems. We do so through the lens of virtue ethics, meaning that we place special emphasis on concepts like authenticity, wisdom, courage, and integrity. The course's capstone project asks students to develop a clear and well-informed ethical framework for the mass-mediated aspects of their personal, professional, and civic lives. Students are required to have taken two 500 level CMN courses (C-) to take this course, unless granted instructor permission.

**Attributes:** Writing Intensive Course**Prerequisite(s):** CMN 455 with a minimum grade of C and CMN 456 with a minimum grade of C and CMN 457 with a minimum grade of C.**Grade Mode:** Letter Grading**CMN 740 - Seminar in Communication Research and Theory****Credits:** 4

In-depth concentration on particular theoretical and methodological orientations within communication research. Orientations vary by semester. May be repeated barring duplication of subject. Students are required to have taken two 500 level CMN courses (C-) to take this course, unless granted instructor permission.

**Attributes:** Writing Intensive Course**Prerequisite(s):** CMN 455 with a minimum grade of C and CMN 456 with a minimum grade of C and CMN 457 with a minimum grade of C.**Repeat Rule:** May be repeated up to unlimited times.**Grade Mode:** Letter Grading**CMN 742 - Dialogue and Teamwork****Credits:** 4

This course is about team building, alternative conflict resolution, and creative problem solving. We will explore the idea that, contrary to prevailing cultural assumptions, a significant factor in our achievements at work and play can be traced not to our individual attributes but rather to the relationships that we develop in our conversations with others. We will examine the dialogic basis of these relationships, drawing on a range of philosophic traditions and practical activities that highlight the social basis of thought. Students are required to have taken two 500 level CMN courses (C-) to take this course, unless granted instructor permission.

**Attributes:** Writing Intensive Course**Prerequisite(s):** CMN 455 with a minimum grade of C and CMN 456 with a minimum grade of C and CMN 457 with a minimum grade of C.**Grade Mode:** Letter Grading**CMN 756 - Rhetorics of Display****Credits:** 4

This course examines a selection of displays with the goal of acquiring perspective for understanding and evaluating how they engage with people who come into contact with them. Displays examined range among oratory, photographs, advertisements, films, architecture, monuments, and statuary, public demonstrations, and presentations of self. Attention is given to questions about identity and belonging, authenticity and simulation, and public memory. Students are required to have taken two 500 level CMN courses (C-) to take this course, unless granted instructor permission.

**Attributes:** Writing Intensive Course**Prerequisite(s):** CMN 455 with a minimum grade of C and CMN 456 with a minimum grade of C and CMN 457 with a minimum grade of C.**Grade Mode:** Letter Grading**Special Fee:** Yes**CMN #757 - Public Address and the American Experience****Credits:** 4

Study of persuasive texts set firmly in their historical and social contexts. Discussion of the impact of popular discourse on historically significant political and social events. Analysis of how leading persuasive speakers and writers responded to the fundamental questions confronting their age and articulated ideas in a manner that provoked or motivated their community, state, or nation. Historical period studied will vary. May be repeated when topic varies. Students are required to have taken two 500 level CMN courses (C-) to take this course, unless granted instructor permission.

**Attributes:** Writing Intensive Course**Prerequisite(s):** CMN 455 with a minimum grade of C and CMN 456 with a minimum grade of C and CMN 457 with a minimum grade of C.**Repeat Rule:** May be repeated for a maximum of 12 credits.**Equivalent(s):** CMN 657**Grade Mode:** Letter Grading**CMN 760 - Mediation****Credits:** 4

This course will explore different theories and models of mediation as they inform the broader topic of conflict resolution. Emphasis will be on models that examine relational processes as opposed to models that provide a list of skills or techniques for mediation. To that end, the course will focus on transformative dialogue as a mode of mediation and conflict resolution rather than on compromise or consensus models. Students are required to have taken two 500 level CMN courses (C-) to take this course, unless granted instructor permission.

**Attributes:** Writing Intensive Course**Prerequisite(s):** CMN 455 with a minimum grade of C and CMN 456 with a minimum grade of C and CMN 457 with a minimum grade of C.**Grade Mode:** Letter Grading**CMN 762 - Organizational Communication and Society****Credits:** 4

This course will demonstrate how communication is key to understanding how organizations work. Through such topics as culture, identity, structure, systems, globalization, and change, the course examines the ways individuals and society are shaped by interactions with the organizations. Through case studies, we examine the way people communicate in organizational contexts, and the social, ethical, and sometimes political implications. Students are required to have taken two 500 level CMN courses (C-) to take this course, unless granted instructor permission.

**Attributes:** Writing Intensive Course**Prerequisite(s):** CMN 455 with a minimum grade of C and CMN 456 with a minimum grade of C and CMN 457 with a minimum grade of C.**Grade Mode:** Letter Grading

**CMN #770 - From Pokemon to K-Pop: East Asian Media and Popular Culture****Credits:** 4

From K-pop to Pokemon, from TV drama to video games, this course introduces you to the media and popular cultural scene in one of the most dynamic regions of the world economy today. It gives you the theoretical tool to understand and analyze these media and cultural phenomena. While acknowledging some common defining characteristics of East Asian societies, we will pay attention to the internal diversities, differences and transcultural flows within the region as well as East Asian nations. Students are required to have taken two 500 level CMN courses (C-) to take this course, unless granted instructor permission.

**Attributes:** Writing Intensive Course**Prerequisite(s):** CMN 455 with a minimum grade of C and CMN 456 with a minimum grade of C and CMN 457 with a minimum grade of C.**Grade Mode:** Letter Grading**CMN 772 - Seminar in Media Theory****Credits:** 4

Detailed analysis of major theories related to the interaction of communication technologies and society. Application to current examples in politics, advertising, and entertainment. May be repeated for a different topic. Students are required to have taken two 500 level CMN courses (C-) to take this course, unless granted instructor permission.

**Attributes:** Writing Intensive Course**Prerequisite(s):** CMN 455 with a minimum grade of C and CMN 456 with a minimum grade of C and CMN 457 with a minimum grade of C.**Repeat Rule:** May be repeated up to unlimited times.**Grade Mode:** Letter Grading**CMN 780 - Communication and Sports Coaching****Credits:** 4

There is a long-standing literature on what makes for good or bad coaching in sports, but less in what interactional practices are involved in the actual activities of coaching. Here we learn about the processes of Communication used by Coaches and Athletes when in sports settings. The course will explore the basic process of communication underpinning learning in settings of movement and learning. Students will develop a focal project on practices of Communication in Coaching.

**Attributes:** Writing Intensive Course**Grade Mode:** Letter Grading**CMN 785 - Communication and Deliberation Across Differences****Credits:** 4

This course will focus on the art of rhetoric in a civic context, or how students may engage with the rhetorical tradition to focus on connections among communication, democracy, knowledge, power, and equity. Students will focus on learning the skill of deliberation, or bringing people together in conversation across difference to discover shared values, and to identify key tensions, in order to explore possible solutions to thorny public problems. Students are required to have taken two 500 level CMN courses (C-) to take this course, unless granted instructor permission.

**Attributes:** Writing Intensive Course**Prerequisite(s):** CMN 455 with a minimum grade of C and CMN 456 with a minimum grade of C and CMN 457 with a minimum grade of C.**Grade Mode:** Letter Grading**CMN 788 - Opening Everyday Interaction****Credits:** 4

Examination of how everyday human social interactions begin. Provides hands-on experience analyzing verbal and nonverbal social actions during naturally occurring interactions, including telephone conversations and especially face-to-face encounters between previously acquainted and unacquainted persons socializing and/or doing work. Explores how parties use the openings of interactions to (re)-create and maintain social relationships. Encourages students to develop intellectual curiosity about everyday social life. Students are required to have taken two 500 level CMN courses (C-) to take this course, unless granted instructor permission.

**Attributes:** Writing Intensive Course**Prerequisite(s):** CMN 455 with a minimum grade of C and CMN 456 with a minimum grade of C and CMN 457 with a minimum grade of C.**Grade Mode:** Letter Grading**CMN 795 - Independent Study****Credits:** 1-4

Advanced individual study in rhetoric, media, or interpersonal communication. Project to be developed with supervising instructor.

**Repeat Rule:** May be repeated for a maximum of 8 credits.**Equivalent(s):** CMN #795W**Grade Mode:** Letter Grading**CMN #795W - Independent Study****Credits:** 1-4

Advanced individual study in rhetoric, media, or interpersonal communication. Project to be developed with supervising instructor.

**Attributes:** Writing Intensive Course**Repeat Rule:** May be repeated for a maximum of 8 credits.**Equivalent(s):** CMN 795**Grade Mode:** Letter Grading**CMN 796 - Comm-Entary Journal****Credits:** 1

Serve on the editorial board of student run communication journal. Elective credit which does not count toward the major. Students are required to have taken two 500 level CMN courses (C-) to take this course, unless granted instructor permission.

**Prerequisite(s):** CMN 455 with a minimum grade of C and CMN 456 with a minimum grade of C and CMN 457 with a minimum grade of C.**Repeat Rule:** May be repeated for a maximum of 2 credits.**Grade Mode:** Credit/Fail Grading**Special Fee:** Yes**CMN 799H - Honors Thesis****Credits:** 4

Written thesis based on substantial and original research under the direction of a full-time member of the communication faculty. Thesis must be in the form and style of a publishable, scholarly work. Restricted to seniors seeking honors in major.

**Attributes:** Honors course**Grade Mode:** Letter Grading

## Communication (COM) CPSO

# Course numbers with the # symbol included (e.g. #400) have not been taught in the last 3 years.

**COM 440 - Persuasive Communication****Credits:** 4

This course provides an in-depth understanding of persuasive principles with the purpose of identifying and critiquing communication strategies encountered on a daily basis. Students are introduced to the theory and practice of persuasive communication with an understanding of how classical modes of rhetoric offer an excellent framework for improving information-age communication skills. Speaking, listening, leading, motivating, negotiating, creating and delivering a message, and engaging with an audience are emphasized as key elements of persuasive communication. Students will be able to recognize the persuasive strategies used in interpersonal and mass communication settings, critique the effectiveness of the strategies used, and develop persuasive strategies for themselves.

**Attributes:** Writing Intensive Course**Equivalent(s):** COMM 540G**Grade Mode:** Letter Grading**COM 460 - Interpersonal Communication and Group Dynamics****Credits:** 4

Designed to provide both a theoretical and practical introduction to interpersonal communication and group dynamics, this course explores the unique process, purposes, problems and possibilities of communication. Emphasis is placed on participation and awareness of communication behaviors, both in interpersonal settings and in small groups, as portrayed in the generic roles of member, leader, and process observer. The course challenges students to analyze the complex nature of relationships by applying the concepts of collaboration, cohesiveness, group decision-making, conflict resolution, the function of teams, and the role of facilitation. COM 460 students are guided in developing basic interpersonal, intercultural, and group communication skills that they can apply to personal and professional encounters in everyday life.

**Attributes:** Communication (Gen Ed)**Equivalent(s):** COMM 542G**Grade Mode:** Letter Grading**COM 465 - Communication Theory****Credits:** 2

This course introduces students to the major theories of communication that are foundational to the discipline. Students will conceptualize how theory can be used to describe, analyze, and explain communication issues and events. Attention is also given to the ethical implications of theory in various contexts.

**Equivalent(s):** COMM 510G**Grade Mode:** Letter Grading**COM 480 - Visual Communication****Credits:** 4

In contemporary communication, visual information has become the predominant means to convey messages and information. Students will explore and analyze the different ways images can be used to communicate information, concepts, and narratives, as well as to support persuasive arguments in oral presentations. Students will apply what they have learned to two major projects, each designed to communicate a central message to a defined audience. An introduction to copyright, Fair Use, and Creative Commons is included.

**Attributes:** Communication (Gen Ed)**Equivalent(s):** COMM 543G**Grade Mode:** Letter Grading**COM 504 - Web Development I****Credits:** 4

This course is an introduction to multimedia design with an emphasis on website creation. Students gain an understanding of the terminology, development tools, and fundamental skills related to designing a successful website. Current software applications are learned as appropriate to the process.

**Equivalent(s):** COMM 504G**Grade Mode:** Letter Grading**COM 535 - Visual Media Production****Credits:** 4

This course focuses on how to create visual narratives through digital media. Course projects and use of visual media production software provide an opportunity to carefully execute each step of the production process, to include: conceptualizing, outlining, writing script for voiceover, creating the storyboard, recording, editing, and sharing. Attention to copyright, attribution, and other ethical considerations are also addressed. Recommended: COM 480 Visual Communication.

**Equivalent(s):** COMM 505G**Grade Mode:** Letter Grading**COM 544 - Special Topics: Lower Level****Credits:** 1-4

A study of current and variable topics in Communication. Course content changes from term to term.

**Repeat Rule:** May be repeated up to unlimited times.**Equivalent(s):** COMM 544G**Grade Mode:** Letter Grading**COM 545 - Digital Illustration****Credits:** 4

This course introduces Adobe Photoshop and Illustrator. Course assignments focus on creating and preparing raster and vector-based images for print and web. Students will have the opportunity to attain basic proficiency with both software programs while applying knowledge and skill to a variety of projects. Concepts such as photo manipulation, use of digital illustration in layout, basic animation, storage and file management, and copyright and ethical issues are addressed.

**Prerequisite(s):** ART 512 with a minimum grade of D- or ARTS 512G with a minimum grade of D-.**Equivalent(s):** COMM 545G**Grade Mode:** Letter Grading**COM 560 - Intercultural Communication****Credits:** 2

Effective intercultural communication skills are important in a multicultural society, particularly for those individuals working in positions that require effective interactions with people from diverse cultures. This course is a study of cross-cultural contacts and will include analysis of verbal and nonverbal communication and related factors within and between various cultures, predictions of patterns and effects, and communication barriers. The course provides opportunities for students to develop both an appreciation for cultural differences and effective intercultural communication skills. NOTE: COM 560 and COM 562 are recommended elective choices for Professional Communication majors.

**Equivalent(s):** COMM 560G**Grade Mode:** Letter Grading

**COM 562 - Gender and Communication****Credits:** 2

In this course, students examine multiple influences that have shaped definitions of masculinity and femininity over time. Students explore the impact of these definitions on "appropriate" prescriptions for verbal and nonverbal communication, and on interactions in personal and professional contexts. Through the analysis and critique of the effects of gender on communication in diverse relationships (family, friendships, romantic, professional) and in diverse contexts (personal and professional spheres), as well as how gender is depicted in the media, students recognize the profound impact that gender has upon our lives. NOTE: COM 562 and COM 560 are recommended elective choices for Professional Communication majors.

**Equivalent(s):** COMM 562G**Grade Mode:** Letter Grading**COM 565 - Strategic Communication****Credits:** 4

In contrast to Organizational Communication, the study of Strategic Communication focuses on how organizations communicate with their external publics, to include vendors, clients, and shareholders, among others. This course surveys public relations, insofar as it explores how an organization crafts, maintains, and redefines its image, in times of success as well as crisis. Students practice producing reliable strategic writing in the form of press releases, newsletters, and brochures, with particular emphasis upon skills in instant response, clarifying and simplifying complex information, as well as considerations of privacy, ethics, and legality.

**Equivalent(s):** COMM 565G**Grade Mode:** Letter Grading**COM 590 - Professional Communication****Credits:** 4

This course prepares students to navigate the complexity of professional communication in the 21st-century workplace, with a particular emphasis upon refining the writing skills that are essential to clear, concise, and professional communication. The types of professional writing addressed may include: proposals, emails, newsletters, presentations, and agendas, among others. Emphasis is also placed upon how to discern which channel-written, verbal, or digital-is most appropriate relative to context, purpose, and audience.

**Attributes:** Writing Intensive Course

**Prerequisite(s):** (ENG 420 with a minimum grade of D- or ENG 500G with a minimum grade of D-) and (COM 460 with a minimum grade of D- or COMM 542G with a minimum grade of D-) or (Has Accred Associate Deg with a score of WAIV or Has Accred Bachelor Deg with a score of WAIV).

**Equivalent(s):** COMM 605G**Grade Mode:** Letter Grading**COM 595 - Writing for Voiceover****Credits:** 2

Writing and performing voiceover audio is a specialty skill all media producers will be called upon to develop. A well-written script for voiceover will enable the audience to clearly understand messages and meaning according to the producer's goal. This course introduces students to the foundational principles of writing voiceover copy and provides opportunities to refine voiceover performances to engage the audience and establish credibility. Through a workshop format, students will create original works and performances as well as adapt and refine works written by others.

**Equivalent(s):** COMM 648G**Grade Mode:** Letter Grading**COM 644 - Special Topics: Upper Level****Credits:** 1-4

The study of current and variable topics in Communication. Course content changes from term to term. It is expected that the learner will have prior coursework or experience in the subject area.

**Repeat Rule:** May be repeated up to unlimited times.**Equivalent(s):** COMM 644G**Grade Mode:** Letter Grading**COM 645 - Advanced Digital Illustration****Credits:** 4

This course builds upon COM 545 Digital Illustration by challenging students to advance their skills in Adobe Photoshop and Illustrator. Course projects entail combining vector and raster images, advanced image manipulation, and utilizing web graphics, print images, and interactive motion graphics for web and video. Effective application of design elements and principles in concept generation will be emphasized. Through peer review, instructor feedback, and reflection, students explore each phase of the design process in depth. Strategies for assembling a digital portfolio are also explored.

**Prerequisite(s):** COM 545 with a minimum grade of D- or COMM 545G with a minimum grade of D-.

**Equivalent(s):** COMM 645G**Grade Mode:** Letter Grading**COM 647 - Writing for Visual Media****Credits:** 4

By emphasizing the interplay between text and image in the production of meaning, this course introduces students to the unique attributes of writing for visual media. In a workshop format, students will refine skills in areas such as blogging, copy writing, landing pages, social media, and public relations. The course surveys various stages in the writing process, to include concept, drafting, integrating stakeholder feedback, and revision, in order to produce a final product.

**Attributes:** Writing Intensive Course**Equivalent(s):** COMM 547G**Grade Mode:** Letter Grading**COM 665 - Media and Strategic Communication****Credits:** 4

This course explores the use of media in strategic communication toward the attainment of organizational objectives. Students will explore the impact of public relations, media outreach, marketing, branding, and leadership communication on both internal and external audiences in a variety of settings and sectors. The role and purpose of the organizational spokesperson, the function of the leader as the chief communicator, the strategic alignment of message and messenger, and effective use of technology in business communications will be discussed. This course provides knowledge of opportunities and pitfalls of the media environment, particularly in the digital, 24-hour news cycle age.

**Attributes:** Writing Intensive Course**Equivalent(s):** COMM 602G**Grade Mode:** Letter Grading

**COM 670 - Advanced Visual Communication****Credits:** 4

This course builds upon the foundation in analyzing and curating visual media established in COM 480 by focusing on how to compose, design, and deliver presentations using industry standard software (such as Microsoft PowerPoint) and web-based tools (such as Zoom, Screencast-o-matic and Prezi), among others. Equal time is devoted to each of the three stages of producing effective presentations- writing, technological design, and delivery-all of which contribute to achieving the intended purpose.

**Prerequisite(s):** COM 480 with a minimum grade of D- or COMM 543G with a minimum grade of D- or Has Accred Associate Deg with a score of WAIV or Has Accred Bachelor Deg with a score of WAIV.

**Equivalent(s):** COMM 615G

**Grade Mode:** Letter Grading

**COM 675 - Organizational Communication****Credits:** 4

Organizations are a fundamental component of human life: from schools, to workplaces, as well as volunteer and recreational groups, we all function within in organizations. This course examines the multi-level communication that occurs within organizations - among leaders, members, committees, teams, and departments - as vital to its success and longevity. Students analyze how organizations rely upon effective communication to anticipate and mitigate conflict. Students also devise strategies to utilize various forms of communication to contribute uniquely and meaningfully to organizations.

**Attributes:** Writing Intensive Course

**Equivalent(s):** COMM 620G

**Grade Mode:** Letter Grading

**COM 680 - Trends in Digital and Social Media****Credits:** 4

This course provides an opportunity for students to explore key technical, ethical, and experiential elements in contemporary digital and social media and integrate them into a project-based solution of the student's choosing. Topics are drawn from immediate trends and are interrogated for their effects on individuals, communities, society, and the world. Students also select a topic of their own for further study.

**Attributes:** Writing Intensive Course

**Equivalent(s):** COMM 601G

**Grade Mode:** Letter Grading

**COM 685 - Web Development II****Credits:** 4

Building on skills learned in Web Development I, students continue to gain an understanding of the terminology, development tools, and fundamental skills related to designing a successful website. Current software applications are learned as appropriate to the process.

**Prerequisite(s):** COM 504 with a minimum grade of D- or COMM 504G with a minimum grade of D-.

**Equivalent(s):** COMM 604G

**Grade Mode:** Letter Grading

**COM 707 - Communication for Training and Performance Improvement****Credits:** 2

The ability to write, design, speak, and record media for the purpose of training instruction draws upon specialized communication skills and knowledge of a systematic creative process. This course prepares students to contribute meaningfully to teams and organizations by introducing them to the foundational principles of instructional design as a form of communication, and then facilitates practice in the technical skills to produce media for the purpose of addressing a training or performance improvement need.

**Prerequisite(s):** COM 535 with a minimum grade of D- or COMM 505G with a minimum grade of D-.

**Equivalent(s):** COMM 607G

**Grade Mode:** Letter Grading

**COM 710 - Managerial Communication****Credits:** 4

Managerial roles increasingly emphasize negotiation, coaching, collaboration, and consensus building. Situational analysis and planning are key attributes of effective managerial communication. As such, this course develops and sharpens students' decision-making, team-building, and analytical problem-solving abilities. The course also embraces peer and instructor feedback as tools to refine students' impromptu and formal presentation skills in managerial contexts.

**Attributes:** Writing Intensive Course

**Prerequisite(s):** COM 590 with a minimum grade of D- or COMM 605G with a minimum grade of D-.

**Equivalent(s):** COMM 610G

**Grade Mode:** Letter Grading

**COM 743 - Synthetic Media and the Construction of Reality****Credits:** 4

In the past 25 years, electronic media, mobile devices, and algorithmically optimized information networks have intensified how humans have engaged with mediated information. This course examines the collateral effects of this phenomenon on our habits, norms, beliefs, and cognitive processing. Students will study the historical, political, and theoretical narrative that has led to questions about the construction of social worlds, the construct of reality, and the legitimacy of information. A special focus will be made in studying the implications of synthetic deepfake and AI-driven text generating systems in accelerating these effects.

**Equivalent(s):** COMM 643G

**Grade Mode:** Letter Grading

**COM 797 - Integrative Capstone: Project in Professional Communication**  
**Credits: 4**

This capstone course for the Professional Communication major builds on previous study in the field and provides an opportunity to apply learning in an in-depth project. Projects must employ applied research, demonstrate knowledge of communication theory, and integrate reflection on cultural and/or organizational dimensions of communication. Students synthesize their knowledge of theory and practice to develop and implement a project in their own area of professional interest. Prior to capstone enrollment, students are expected to complete the majority of their required major courses. Students should consult with their advisor regarding specific major courses that may be completed with their capstone. NOTE: Students who were admitted to the college before Fall 2019 and have remained active in their original catalog year are not required to take IDIS 601.

**Attributes:** Writing Intensive Course

**Prerequisite(s):** (CRIT 602 with a minimum grade of D- or CRIT 602G with a minimum grade of D- or CRIT 502G with a minimum grade of D-) and (IDIS 601 with a minimum grade of D- or IDIS 601G with a minimum grade of D-).

**Equivalent(s):** COMM 650G

**Grade Mode:** Letter Grading

**COM 798 - Integrative Capstone: Project in Digital Communication Design**

**Credits: 4**

The Capstone course for the Digital Communication Design major enables the student to apply what they have learned throughout their academic career within a project of their choosing. Students will propose, design, develop, and report on a project that touches upon each of the Programmatic Outcomes for their major and concentration to demonstrate their knowledge and proficiency. Students will work in partnership with faculty to create a project that meets the requirements, output, and format of Capstone-level research. Prior to capstone enrollment, students are expected to complete the majority of their required major courses. Students should consult with their advisor regarding specific major courses that may be completed with their capstone. NOTE: Students who were admitted to the college before Fall 2019 and have remained active in their original catalog year are not required to take IDIS 601.

**Attributes:** Writing Intensive Course

**Prerequisite(s):** (CRIT 602 with a minimum grade of D- or CRIT 602G with a minimum grade of D- or CRIT 502G with a minimum grade of D-) and (IDIS 601 with a minimum grade of D- or IDIS 601G with a minimum grade of D-).

**Equivalent(s):** COMM 651G

**Grade Mode:** Letter Grading

## Communication Arts (CA)

# Course numbers with the # symbol included (e.g. #400) have not been taught in the last 3 years.

**CA 450 - Introduction to Public Speaking**

**Credits: 4**

Theories of rhetoric applied to the practice of speech composition, oral performance, and critical evaluation. Focus on student speeches for a variety of situations and audiences. Not for credit if credit earned for CMN 500.

**Equivalent(s):** CMN 403, CMN 500

**Grade Mode:** Letter Grading

**CA 500 - Media Writing**

**Credits: 4**

An introduction to business, creative and freelance writing for a variety of media. Writing, editing and rewriting in areas such as video scripts, short magazine articles, audio scripts, ads, press releases, news, short one-act plays, blogs and more.

**Attributes:** Writing Intensive Course

**Prerequisite(s):** ENGL 401 with a minimum grade of D-.

**Grade Mode:** Letter Grading

**CA 501 - Internship/Communication in the Urban Community**

**Credits: 1-4**

Field-based learning experiences. Connects students to the urban community and integrates their classroom education within a business or organizational setting. Students work under the direction of a faculty advisor and workplace supervisor to fulfill the obligations of the workplace internship plan and to complete individually-designed academic projects. Projects must be approved in advance by the faculty advisor. Open to matriculated students with a GPA of 2.50 or better and junior standing. Permission of instructor required. May be repeated, with 4 credits maximum accepted toward satisfaction of requirements for the CA major.

**Repeat Rule:** May be repeated for a maximum of 8 credits.

**Grade Mode:** Credit/Fail Grading

**CA 502 - Image and Sound**

**Credits: 4**

Image and Sound is a foundation course in the aesthetics of motion picture and sound production. This course explores the aesthetic principles that are used to communicate stories, emotions and messages in popular media. Students will study film, television and new media and survey production methods. This is not a production course per se, but is particularly helpful to students interested in video and film production. No credit for students who have completed CA 444.

**Attributes:** FinePerformingArts(Discovery)

**Equivalent(s):** CA 444

**Grade Mode:** Letter Grading

**CA 507 - Relational Violence**

**Credits: 4**

This course explores relational violence and its impact on individuals, families, and communities. Topics include relational violence as a continuum, types of relational violence (domestic, gangs, hate crimes), causes of relational violence, PTSD, responding to relational violence, silencing, compassion fatigue, and restorative justice.

**Prerequisite(s):** CMN 457 with a minimum grade of D-.

**Grade Mode:** Letter Grading

**CA 508 - Conflict in Relational Communication**

**Credits: 4**

Introduces communication theories relevant to the study of conflict interaction in interpersonal relationships. Considers interpersonal concerns contributing to conflict such as power, face-saving, and goals. Examines behaviors that affect our ability to resolve conflict, and strategies, such as mediation, to resolve conflict. Develops the ability to diagnose productive and destructive conflict patterns in relationships. The course is both theoretical and practical in orientation. A combination of lecture, discussion, case studies, and in-class group assignments are employed.

**Prerequisite(s):** CMN 457 with a minimum grade of D-.

**Grade Mode:** Letter Grading

**CA 512 - Screenwriting****Credits:** 4

Examines the preproduction phase of moving image media, focusing especially on the art and business of writing for the screen. Covers the process of developing student work from original story idea to completed, first draft screenplay. Topics include script formats, narrative structure, plot development, characterization, style, and marketing strategies. Cannot receive credit if credit received for CA 512 Scriptwriting.

**Attributes:** Writing Intensive Course**Prerequisite(s):** ENGL 401 with a minimum grade of D- and (CMN 455 with a minimum grade of D- or CMN 456 with a minimum grade of D-).**Grade Mode:** Letter Grading**CA 514 - Fundamentals of Video Production****Credits:** 4

Beginning electronic field production using digital video and nonlinear editing formats. Covers basic aesthetic principles and practices of video communication. Introduces techniques for effective image and sound recording in the field, fundamentals of shot and sequence construction, and basic postproduction practices on nonlinear editing systems. Preference given to CA majors.

**Prerequisite(s):** ENGL 401 with a minimum grade of D- and (CA 502 with a minimum grade of D- or CA 444 with a minimum grade of D-) and CMN 455 with a minimum grade of D-.**Grade Mode:** Letter Grading**Special Fee:** Yes**CA 515 - Advanced Video Production****Credits:** 4

Advanced electronic field production and post production using digital video and nonlinear editing formats. Emphasizes original student work of increasing conceptual, formal, and technical complexity that begins to incorporate a wider range of images, sounds, and editing techniques. Preference given to CA majors. May be repeated with permission.

**Prerequisite(s):** CA 514 with a minimum grade of D-.**Repeat Rule:** May be repeated for a maximum of 8 credits.**Grade Mode:** Letter Grading**Special Fee:** Yes**CA 517 - Fundamentals of Audio Prod****Credits:** 4

This course provides students with an introduction to the history, principles, and techniques of audio production. Through hands-on experience, class projects, and homework assignments, student learn how to use voice, music, writing, sound effects, and audio hardware and software to design sound and tell a story. This class will also look at the radio industry and how sound design is being used by a variety of industries.

**Grade Mode:** Letter Grading**Special Fee:** Yes**CA 518 - Advanced Topics in Digital Media Production****Credits:** 1-4

Advanced topics in digital media production not covered in depth in other course offerings. Topics vary and change. May be repeated if topics differ.

**Prerequisite(s):** CA 514 with a minimum grade of D- or CIS 515 with a minimum grade of D-.**Repeat Rule:** May be repeated for a maximum of 12 credits.**Grade Mode:** Letter Grading**CA 519 - Advanced Screenwriting****Credits:** 4

Advanced examination of the preproduction phase of moving image media, focusing on the art and business of screenwriting. Develops student works from original idea through the numerous steps to completed, second draft screenplay. Advanced topics and genres may vary. May be repeated with permission. Cannot receive credit if credit earned for CA 520 Special Topics in Communication: Advanced Screenwriting.

**Prerequisite(s):** CA 512 with a minimum grade of D-.**Repeat Rule:** May be repeated for a maximum of 8 credits.**Grade Mode:** Letter Grading**CA 520 - Special Topics in Applied Communication****Credits:** 1-4

New or specialized topics in applied communication not covered in regular course offerings. Topics vary; descriptions listing course content and any prerequisites are available during preregistration. May be repeated for credit if topics differ. Prerequisite requirements are contingent on topic.

**Repeat Rule:** May be repeated for a maximum of 12 credits.**Grade Mode:** Letter Grading**CA 522 - Graphic Design I****Credits:** 4

Presents fundamentals of Graphic Design while touching on foundation art theories and vocabulary. Through examination and analysis of professional graphic design, students become familiar with the relationship between graphic design process, creative solutions and critical thinking. Students work with a variety of traditional and digital media, with an emphasis on the process of design, composition and typography. Class includes a significant amount of computer lab and creative studio time.

**Grade Mode:** Letter Grading**CA 523 - Graphic Design II****Credits:** 4

Students explore the creative process that helps them communicate ideas and information to a target audience. Higher level, theoretical ideas related to communication, design and cognitive theories will be introduced. Students will engage in intermediate design projects through software and traditional media. Class includes a significant amount of computer lab and creative studio time.

**Prerequisite(s):** CA 522 with a minimum grade of D-.**Grade Mode:** Letter Grading**CA 527 - History of Film****Credits:** 4

The history of film since 1948. Historical analysis of the development of cinema since the emergence of television, both in the United States and abroad. Selected topics include cinema and the cold war, international stylistic movements, film exhibition, the decline of the studio system, new technologies, third cinema, globalization and economic consolidation.

**Prerequisite(s):** CMN 455 with a minimum grade of D-.**Grade Mode:** Letter Grading**Special Fee:** Yes**CA 531 - History and Organization of Advertising****Credits:** 4

Examines the development of advertising in historical context, focusing on the evolving structure and function of advertising agencies, market research practices, advertising design, anthropological approaches to advertising and consumer culture, and contemporary policy issues.

**Prerequisite(s):** CMN 455 with a minimum grade of D-.**Grade Mode:** Letter Grading

**CA 532 - Typography I****Credits:** 4

Typography is the formal study of letterforms. Students gain perspective into this important field by starting with a focus on early visual communication, symbols, handwritten letterforms, calligraphy and the development of movable type. Students explore ways to categorize type into families and identify and define similarities and subtle differences in classical typefaces. Class discussions, projects, critiques and lectures focus of typography terminology, as well as the aesthetic discipline of using type effectively as designer.

**Grade Mode:** Letter Grading**CA 536 - LGBT Images and Perspectives****Credits:** 4

This course explores the perspectives and images of lesbian, gay, bisexual, trans, and queer individuals, from antiquity through modern day. Topics include: history, aging, religion, the media, and the law.

**Prerequisite(s):** CMN 457 with a minimum grade of D-.**Grade Mode:** Letter Grading**CA 538 - Gender****Credits:** 4

How gender is created, maintained, repaired, and transformed through communication in particular historical, cultural, and relational contexts. Examines a variety of topics including the relationship between sex and gender, language, cultural mythologies, identity, health care, sexuality, and strategies for resisting conventional gender definitions. May not be taken for credit if student has already taken CA 506: Gender.

**Prerequisite(s):** CMN 457 with a minimum grade of D-.**Equivalent(s):** CA 506**Grade Mode:** Letter Grading**CA 539 - Communicating in Families****Credits:** 4

Explores the role of communication in the creation, maintenance, and transformation of family systems. Focus on how meanings of "family" are constructed through familial and popular discourses, and the consequences these communication practices have for lived experience.

**Prerequisite(s):** CMN 457 with a minimum grade of D-.**Grade Mode:** Letter Grading**CA 540 - Public Relations****Credits:** 4

This course provides students with an overview of the field of public relations, including its history, ethics, and current practices. Will include case studies of major public relations issues that have occurred both historically and in recent years; individual and class projects that enable students to determine how best to plan for and respond to public relations issues; and quest practitioners who work in various fields, including business, government, the non-profit sector, and education.

**Prerequisite(s):** CMN 456 with a minimum grade of D- or CMN 455 with a minimum grade of D-.**Grade Mode:** Letter Grading**CA 542 - Social Media for Organizations and Business****Credits:** 4

Focuses on the history, development and practical use of social media for organizational and business communications. A primary focus is on the latest social media tools and their use in developing social media campaigns. Hands-on student work is an important part of the course. Cannot receive credit if earned for CA 520 Social Media for Organizations and Business.

**Prerequisite(s):** ENGL 401 with a minimum grade of D- and (CMN 455 with a minimum grade of D- or CA 500 with a minimum grade of D-).**Grade Mode:** Letter Grading**CA 550 - Special Topics in Communication Organization, History, and Policy****Credits:** 1-4

New or specialized topics in the organization, history, and policy of communication practices not covered in regular course offerings. Topics vary; descriptions of course content and any prerequisites are available during preregistration. May be repeated if topics differ.

**Repeat Rule:** May be repeated for a maximum of 12 credits.**Grade Mode:** Letter Grading**CA 610 - Communication Technologies and Culture****Credits:** 4

The role of communication technologies in shaping cultural meanings and human consciousness. Covers the work of Innis, McLuhan, Ong, Postman, Carey and others to understand the historical development of shifting communication technologies and patterns of culture from orality to computer communication. Also explores the dynamic between mass culture and sub-cultural appropriations of media forms and content.

**Attributes:** Writing Intensive Course**Grade Mode:** Letter Grading**CA 612 - Narrative****Credits:** 4

Considers the ways humans make sense of experience through the stories we construct within particular relational, cultural, and historical contexts. Explores a variety of topics including narrative conventions, canonical stories, subjectivity and reflexivity, the relationship between story and audience, space and time, memory and imagination, and narrative truth. Each student will conduct an original narrative research project.

**Attributes:** Writing Intensive Course**Grade Mode:** Letter Grading**CA 615 - Film History/Theory and Method****Credits:** 4

Intensive study of philosophical, rhetorical, and methodological issues in film history research. Examines a series of selected historical problems in the areas of social, aesthetic, industrial, and technological film history up to 1948 and reviews existing historiography on these problems. Focus is on original student research.

**Attributes:** Writing Intensive Course**Grade Mode:** Letter Grading**Special Fee:** Yes**CA 618 - Documentary****Credits:** 4

Exploration of the historical development, ethics, funding, socio-cultural significance, and communication strategies of documentary film and video. May focus on a particular genre or genres.

**Attributes:** Writing Intensive Course**Grade Mode:** Letter Grading**Special Fee:** Yes**CA 720 - Seminar****Credits:** 4

Intensive readings and research course in a highly focused area of study. Topics vary. Descriptions of course content and any prerequisites are available during preregistration. May be repeated if topics differ.

**Attributes:** Writing Intensive Course**Repeat Rule:** May be repeated for a maximum of 12 credits.**Grade Mode:** Letter Grading

**CA 795 - Independent Study****Credits:** 1-4

Advanced individual study under the direction of a faculty member.

Content area and research project to be developed in consultation with faculty supervisor. May be repeated, with 4 credits maximum accepted toward satisfaction of requirements for the CA major.

**Repeat Rule:** May be repeated for a maximum of 8 credits.**Grade Mode:** Letter Grading

## Communication Sciences & Disorders (COMM)

# Course numbers with the # symbol included (e.g. #400) have not been taught in the last 3 years.

**COMM 401 - American Sign Language I****Credits:** 4

This course provides an introduction to American Sign Language with emphasis on visual receptive and expressive use of language, as well as providing opportunities for other forms of visual communication such as facial expression, mime, and gesture. Participants develop their skills through videotapes, classroom participation, and readings that cover issues important to the Deaf community. An online language laboratory is required as part of this course.

**Equivalent(s):** ASL 435**Grade Mode:** Letter Grading**COMM 420 - Survey of Communication Disorders****Credits:** 4

This course provides an introduction of Communication Sciences and Disorders (CSD) as it relates to the CSD undergraduate major and the professions of Speech-Language Pathology and Audiology. Students will learn about foundational knowledge of the speech and hearing mechanism, language development, normal communication processes, diagnoses, and treatment across different communication disorders and lifespans. Given the importance of communication, the course information can be applied to various human service careers.

**Equivalent(s):** COMM 520**Grade Mode:** Letter Grading**COMM 502 - American Sign Language II****Credits:** 4

This course provides continued acquisition of American Sign Language with an emphasis on active language use to improve speed and accuracy. Advanced linguistic principles of ASL as well as the cultural considerations are presented. Comparison of ASL with signed languages from around the world will be explored. An online language laboratory is required as part of this course.

**Equivalent(s):** ASL 436, COMM 402**Grade Mode:** Letter Grading**COMM 504 - Basic Audiology****Credits:** 4

This course provides an overview of the profession and practice of Audiology. Students will learn about the causes of hearing loss and the diagnostic process. The anatomy and physiology of the auditory system will be reviewed. The physical properties of sound will be studied, particularly as these relate to hearing loss.

**Prerequisite(s):** COMM 522 with a minimum grade of C and COMM 636 with a minimum grade of C.**Equivalent(s):** COMM 704**Grade Mode:** Letter Grading**COMM 521 - Anatomy and Physiology of the Speech and Hearing Mechanisms****Credits:** 4

This course provides the fundamentals of anatomy, physiology, neurology, and function of the mechanisms associated with speech, language, swallowing, and hearing. Multi-media platforms, class and group discussions, and problem-based learning will be utilized. Students will gain the essential foundation and knowledge for assessment, treatment, and management related to communication and swallow disorders.

**Prerequisite(s):** BMS 507 with a minimum grade of D-.**Grade Mode:** Letter Grading**COMM 522 - Language Acquisition****Credits:** 4

This course is an introduction to typical language acquisition. The progression of language development is examined within a linguistic framework, phonology, morphology, syntax, semantics, and pragmatics. Theories of language acquisition overviewed.

**Prerequisite(s):** COMM 524 with a minimum grade of C.**Grade Mode:** Letter Grading**COMM 524 - Clinical Phonetics****Credits:** 4

This course focuses on the application of the International Phonetic Alphabet to describe adult, child, and disordered speech production. Students will learn to use broad and narrow transcriptions of speech. Information on basic speech science, acoustic and articulatory phonetics, and acoustic analysis of speech production will be provided.

**Prerequisite(s):** LING 405 with a minimum grade of D- or ENGL 405 with a minimum grade of D-.**Grade Mode:** Letter Grading**COMM 610 - Fact, Fiction, Fraud: Evaluating Motivations, Claims, and Evidence****Credits:** 4

This course provides students with an understanding of evidence-based practice in communication sciences and disorders. Students will learn critical thinking skills through the evaluation of products, interventions, and claims about them. The course also discusses issues involved in fraudulent claims and the role of the media in perpetuating false claims about different areas of study.

**Prerequisite(s):** PSYC 402 with a minimum grade of D-.**Equivalent(s):** COMM 510**Grade Mode:** Letter Grading**COMM 636 - Speech and Hearing Science****Credits:** 4

This course provides the student with information on the understanding and application of waveform analysis (acoustic and aerodynamic), basic processing of auditory information, and physiological and cultural bases of hearing and speech production/perception.

**Prerequisite(s):** COMM 521 with a minimum grade of C.**Grade Mode:** Letter Grading**COMM 701 - Principles of Assessment****Credits:** 2

Principles and practice for diagnosis of speech and language disorders; examination procedures and measurement techniques. Accelerated Master's CSD majors only.

**Prerequisite(s):** COMM 723 with a minimum grade of D- and COMM 724 with a minimum grade of D-.**Grade Mode:** Letter Grading

**COMM 702 - Principles of Intervention****Credits:** 2

An introduction to the clinical process. Part I emphasizes the theory and practice of interventions. Part II addresses oral and written communication involved in the clinical process, the importance of clinical writing, and common reports/documents. Accelerated Master's CSD majors only.

**Prerequisite(s):** COMM 723 with a minimum grade of D- and COMM 724 with a minimum grade of D-.

**Grade Mode:** Letter Grading

**COMM 703 - Ethical and Professional Issues in Communication Sciences and Disorders I****Credits:** 1

Introduction to ethical and professional issues that professionals will encounter in various work settings including regulatory, billing practices, service delivery models, and the role of advocacy for client services. Accelerated Master's CSD majors only.

**Prerequisite(s):** COMM 723 with a minimum grade of D- and COMM 724 with a minimum grade of D-.

**Grade Mode:** Letter Grading

**COMM 705 - Introduction to Aural Rehabilitation****Credits:** 4

This course provides an overview of auditory perception and the re(h)abilitative process for individuals with hearing loss and auditory disorders. The principles of intervention, communication options, and vocational/educational resources will be studied. Students will learn about amplification systems and other technology used to improve audition, including hearing aids and cochlear implants.

**Prerequisite(s):** COMM 504 with a minimum grade of D-.

**Grade Mode:** Letter Grading

**COMM 711 - Brain and Behavior****Credits:** 3

This course is an overview to Neuroscience/Neurology as it applies to Communication Sciences and Disorders (CSD). Neuroscience is a multidisciplinary field that combines biological, chemical and psychological perspectives to better understand neuron structure and function, thought, emotion, and behavior. It integrates research approaches of a variety of disciplines, ranging from cellular and molecular neurosciences to the psychology of cognition and perception. The focus will be limited to the brain and cognition and application to CSD. Accelerated Master's CSD majors only.

**Prerequisite(s):** COMM 723 with a minimum grade of D- and COMM 724 with a minimum grade of D- and COMM 742 with a minimum grade of D- and COMM 701 with a minimum grade of D-.

**Grade Mode:** Letter Grading

**COMM 721 - Speech Sound Disorders****Credits:** 3

Course provides students with detailed knowledge of speech sound disorders in children and adults with communication disorders. Current practices are discussed in relation to the early identification, screening, differential diagnosis, and possible etiology of speech sound disorders. Evidence-based practices across the life-span are critically reviewed related to different speech sound disorders and how different remediation approaches are needed depending on the specific problem demonstrated by a client. Accelerated Master's CSD majors only.

**Prerequisite(s):** COMM 723 with a minimum grade of D- and COMM 724 with a minimum grade of D- and COMM 701 with a minimum grade of D- and COMM 702 with a minimum grade of D-.

**Grade Mode:** Letter Grading

**COMM 723 - Observation Skills in Speech-Language Pathology****Credits:** 2

This course is designed to provide opportunities to observe clients with communication disorders. Observations will include both assessment and intervention techniques. Students successfully completing this course will accrue observation hours that can be applied to the requirement for graduate studies.

**Grade Mode:** Credit/Fail Grading

**COMM 724 - Senior Capstone****Credits:** 4

This course allows students to synthesize and apply their knowledge and skills of communication sciences and disorders. It is designed to foster a reflection of their undergraduate learning experience and further explores areas of professional pathways.

**Attributes:** Writing Intensive Course

**Prerequisite(s):** COMM 420 with a minimum grade of C and COMM 522 with a minimum grade of C and (COMM 504 with a minimum grade of C or COMM 604 with a minimum grade of C).

**Equivalent(s):** COMM 635

**Grade Mode:** Letter Grading

**COMM 740 - Treatment of Adults with Acquired Brain Injury****Credits:** 1-4

This course provides a "hands-on" interdisciplinary experience. Students will acquire clinical skills and professional competence in a community-based day program. This experience includes assisting adults with acquired brain injury to meet their physical, emotional, cognitive-linguistic, social, spiritual, recreational, and vocational needs.

**Grade Mode:** Letter Grading

**COMM 741 - Speech-Language Pathology I****Credits:** 4

This course provides foundational knowledge related to pediatric speech and language disorders, as well as exposure to principles of assessment and treatment in these populations. Students extend their knowledge of language development in the areas of morphology, syntax, semantics, and pragmatics as well as their knowledge of how the speech mechanism works, to learn about communication breakdowns that may occur during childhood.

**Prerequisite(s):** KIN 706 with a minimum grade of D- and COMM 636 with a minimum grade of C and KIN 707 with a minimum grade of D-.

**Equivalent(s):** COMM 631, COMM 731

**Grade Mode:** Letter Grading

**COMM 742 - Speech-Language Pathology II****Credits:** 4

This course provides the neurologic bases for understanding the communication disorders from birth to geriatrics, with an emphasis on motor, linguistic, and cognitive communication disorders. Introduction to common approaches to treatment for these disorders is also provided.

**Prerequisite(s):** COMM 504 with a minimum grade of C and COMM 741 with a minimum grade of C.

**Equivalent(s):** COMM 630

**Grade Mode:** Letter Grading

**COMM 795 - Independent Study****Credits:** 1-8

Individual or group projects involving directed study of an area of communication sciences and disorders that students wish to explore in greater depth than is covered in the required curriculum.

**Repeat Rule:** May be repeated for a maximum of 8 credits.

**Grade Mode:** Letter Grading

**COMM 798 - Special Topics****Credits:** 1-4

New or specialized topics not covered in regular course offerings. Special fee on some topics.

**Repeat Rule:** May be repeated for a maximum of 8 credits.

**Grade Mode:** Letter Grading

**Special Fee:** Yes

**COMM 799 - Honors Thesis****Credits:** 1-4

Supervised research leading to the completion of an honors thesis required for graduation from the university honors program in major.

**Attributes:** Honors course; Writing Intensive Course

**Repeat Rule:** May be repeated for a maximum of 4 credits.

**Grade Mode:** Letter Grading

## Community & Environmental Planning (CEP)

# Course numbers with the # symbol included (e.g. #400) have not been taught in the last 3 years.

**CEP 415 - Community Development Perspectives****Credits:** 4

Introduces students to a range of community development and environmental planning issues facing communities as they undergo social, economic, and environmental change. Through class discussion and examination of case studies, this course instills basic principles and processes of community development and environmental planning, formulation, and conflict resolution. Community and environmental planning topics covered in the course include land use conflict, urban/suburban sprawl, rural development, economic development, local food systems, community infrastructure, and environmental stewardship. Emphasis is placed on the roles and responsibilities of community development professionals, including land use planners, municipal administrators, and community leaders.

**Attributes:** Social Science (Discovery)

**Equivalent(s):** CD 415

**Grade Mode:** Letter Grading

**CEP 508 - Applied Community Development****Credits:** 4

Students work in an actual community, assisting individuals and groups to identify needs and problems, establish attainable and objective goals, assess requirements and resources, and formulate programs for development and methods of collection, analysis, and integration of pertinent primary and secondary economic, social, political, and physical data for community development. Lab.

**Prerequisite(s):** CEP 415 with a minimum grade of D- or TOUR 510 with a minimum grade of D-.

**Equivalent(s):** CD 508

**Grade Mode:** Letter Grading

**CEP 614 - Fundamentals of Planning****Credits:** 4

Community planning process in nonmetropolitan communities; practical application of planning techniques. Communities' components: housing, jobs, schools, recreation, transportation, community appearance, and the administrative structure for planning. Use of planning tools: data gathering and analysis, the master plan, zoning and subdivision regulations, community development programs.

**Attributes:** Writing Intensive Course

**Prerequisite(s):** (EREC 411 with a minimum grade of D- or ECON 402 with a minimum grade of D-) and CEP 508 with a minimum grade of D-.

**Grade Mode:** Letter Grading

**CEP 672 - Fundamentals of Real Estate****Credits:** 4

This course covers timely subjects in National and regional real estate, such as types of property ownership, easements, financing, contracts, appraisal, brokerage, property listings, commissions, fair housing, and property management. The goal of this class is to prepare students to pass the New Hampshire Real Estate Sales Agent License Exam and/or be knowledgeable real estate investors.

**Prerequisite(s):** MATH 420 with a minimum grade of D-.

**Equivalent(s):** CD 672, NR 672

**Grade Mode:** Letter Grading

**CEP 673 - Green Real Estate****Credits:** 4

This class covers issues related to existing and new real estate development with respect to history, law (state statutes and federal legislation), economics, and technology. The course looks at impacts of green development from an individual building level, and out to regional and global levels. We look at common problems and solutions, review case studies, and discuss emerging trends in "green development."

**Grade Mode:** Letter Grading

**CEP 777 - Topics in Community Planning****Credits:** 4

Advanced treatment of the concepts and tools required for effective local and regional planning to guide land use, capital investment in infrastructure, and organization for service delivery.

**Attributes:** Writing Intensive Course

**Prerequisite(s):** CEP 614 with a minimum grade of D-.

**Grade Mode:** Letter Grading

**CEP 794 - Community and Environmental Planning Internship****Credits:** 4-12

Fieldwork in a planning office for student's professional development. Student must be supervised by a qualified planner or faculty-approved supervisor throughout the internship and remain in consultation with a faculty advisor. A Memorandum of Understanding between the student, the internship supervisor, and the faculty advisor, as well as midterm and final written reports are required. May be taken for 4 credits with 150 hours of internship up to a maximum of 12 credits for 450 hours of internship.

**Repeat Rule:** May be repeated for a maximum of 12 credits.

**Equivalent(s):** CD 794

**Grade Mode:** Credit/Fail Grading

**CEP 795 - Investigations****Credits:** 2-4

Special assignments in readings, investigations, or field problems, or teaching experience. May be repeated.

**Equivalent(s):** CD 795, CD 795W, CEP 795W

**Grade Mode:** Letter Grading

## Community Leadership (CSL)

# Course numbers with the # symbol included (e.g. #400) have not been taught in the last 3 years.

No courses are currently active in the course inventory for this subject prefix.

## Computer Science (CS)

# Course numbers with the # symbol included (e.g. #400) have not been taught in the last 3 years.

### CS 400 - Introduction to Computing

**Credits:** 2

Introduces students to the available computing-related majors and a variety of topics foundational to success in computing-related fields. Coverage includes ethics, skills, and knowledge applicable to a broad range of computing disciplines.

**Grade Mode:** Letter Grading

### CS #401 - Computers and Their Applications

**Credits:** 4

Use of computers to manage and analyze information across a variety of settings and disciplines. Introduces major categories of computer software, including word processing, spreadsheets and database systems. Covers basic computer concepts and the computer's role in today's society. Significant hands-on work required outside of the class. Not open to CS majors. CEPS students should check with their major department for approval.

**Attributes:** Environment,TechSociety(Disc)

**Equivalent(s):** CIE 530, CS 401H, CS 495, DCE 491, DCE 492, INCO 495

**Grade Mode:** Letter Grading

### CS 405 - Introduction to Applications Programming

**Credits:** 4

Introduces the concepts and techniques of computer programming. Particular emphasis on computer programming as a problem-solving technique for business applications. The basic software development process (modeling, algorithm design, programming, testing and debugging) is illustrated. CEPS students should check with their major department for approval. Not open to CS and IT majors.

**Grade Mode:** Letter Grading

### CS 408 - Living in a Networked World: The Good, the Bad, and the Ugly

**Credits:** 4

The objective of this course is to explore the implications of living in a networked world. The course surveys the fundamental technologies and practices that make up the Internet and then ask the student to examine the ramifications of using the technologies. Users of the technologies should understand the technology in order to make educated decisions about how to use it safely and effectively. Students have the opportunity to self-publish by using various current technologies including blogs, discussion boards, email and creating web pages using xhtml.

**Attributes:** Environment,TechSociety(Disc)

**Grade Mode:** Letter Grading

### CS 410C - Introduction to Scientific Programming/C

**Credits:** 0 or 4

Introduces the concepts and techniques of computer programming. Particular emphasis on computer programming as a problem-solving technique in science and engineering applications. Good programming style is stressed. Significant out-of-class programming required.

**Equivalent(s):** CS 410P, CS 415

**Mutual Exclusion:** No credit for students who have taken .

**Grade Mode:** Letter Grading

### CS 410P - Introduction to Scientific Programming/Python

**Credits:** 0 or 4

Introduces the concepts and techniques of computer programming. Particular emphasis on computer programming as a problem-solving technique in science and engineering applications. Good programming style is stressed. Significant out-of-class programming required. Not open to students who have completed CS 415 or the equivalent.

**Equivalent(s):** CS 410C, CS 415

**Grade Mode:** Letter Grading

### CS 414 - From Problems to Algorithms to Programs

**Credits:** 4

This course is an introduction to the design and implementation of computer programs. The basic software development process (modeling, algorithm design, programming, testing and debugging) is illustrated through problem examples. Programming techniques are introduced to allow students to implement and evaluate solutions as programs.

**Attributes:** Quantitative Reasoning(Disc)

**Grade Mode:** Letter Grading

### CS 415 - Introduction to Computer Science I

**Credits:** 0 or 4

Theory and practice of computer science. Algorithm development and analysis; data abstraction techniques; elementary data structures; dynamic memory manipulation; debugging; and program design issues. Computer systems and applications. Intended for CS majors.

**Equivalent(s):** CS 410C, CS 410P

**Mutual Exclusion:** No credit for students who have taken .

**Grade Mode:** Letter Grading

### CS 416 - Introduction to Computer Science II

**Credits:** 0 or 4

Theory and practice of computer science. Algorithm development and analysis; data abstraction techniques; elementary data structures; dynamic memory manipulation; debugging; and program design issues. Computer systems and applications. Intended for CS majors.

**Prerequisite(s):** CS 410C with a minimum grade of D- or CS 410P with a minimum grade of D- or CS 415 with a minimum grade of D-.

**Equivalent(s):** CS 417

**Grade Mode:** Letter Grading

### CS 417 - From Programs to Computer Science

**Credits:** 0 or 4

Programming techniques for students with programming experience from an introductory programming course. Covers basic algorithm analysis. Topics include basics of classes, inheritance, and data abstraction; linear data structures (vectors, lists, stacks and queues); trees and simple graphs; hash tables; sorting and searching; recursion; and basic graph traversal algorithms. Numerous labs and programming assignments build skills in planning, problem solving, and debugging; this is a hands on course.

**Prerequisite(s):** CS 410P with a minimum grade of C- or CS 410C with a minimum grade of C- or CS 415 with a minimum grade of C-.

**Equivalent(s):** CS 416

**Grade Mode:** Letter Grading

**CS 419 - Computer Science for Engineers and Scientists****Credits:** 4

This course provides an accelerated coverage of programming techniques for students with programming experience from an introductory programming course. Topics covered include: basics of classes, inheritance, and data abstraction; linear data structures (vectors, lists, stacks, and queues); trees and simple graphs; hash tables; sorting and searching; and recursion. Students will learn basic algorithm analysis. Numerous labs and programming assignments will build skills in planning, problem solving, and debugging: this is a hands-on course.

**Prerequisite(s):** CS 410C with a minimum grade of D-.**Equivalent(s):** CS 416, CS 417**Grade Mode:** Letter Grading**CS 420 - Foundations of Programming for Digital Systems****Credits:** 0 or 4

A systems-oriented introduction to C, with an emphasis on low-level operations, memory management, and debugging. Foundational digital systems concepts and methods will be introduced, including Boolean algebra, basic logic gates, number systems & conversions, integer representation, and theoretical aspects of combinational and sequential logic. Aspects of effective programming such as incremental development, appropriate structure and commenting, and basic testing will be stressed.

**Prerequisite(s):** CS 410C with a minimum grade of C- or CS 410P with a minimum grade of C- or CS 414 with a minimum grade of C- or CS 415 with a minimum grade of C-.**Grade Mode:** Letter Grading**CS 457 - Introduction to Data Science and Analytics****Credits:** 4

An introduction to data science and analytics. Overview of the use of analytics by industry, government, and nongovernmental organizations. Impact of analytics on society, ethical use of analytics. Methods of data generation, data management, data cleaning, and data preparation, with a focus on visual and exploratory analysis. Project-based, with an emphasis on collaborative, experiential learning. Design and implementation of programs, use of statistical software. Not open to CS and IT majors.

**Attributes:** Environment,TechSociety(Disc)**Equivalent(s):** DATA 557**Grade Mode:** Letter Grading**CS 501 - Professional Ethics and Communication in Technology-related Fields****Credits:** 4

A mixed lecture/seminar course intended to improve both reasoning and ability to communicate effectively in front of an audience. Students learn basic forms of ethical argument, they read about ethical situations in which technology and technology professions play a key role, and they participate in student-led discussions about the reading. Students also make oral presentations about both ethical and technical topics, and evaluate each other's presentations in order to improve their sense for what makes a good presentation.

**Attributes:** Environment,TechSociety(Disc); Inquiry (Discovery)**Prerequisite(s):** ENGL 401 with a minimum grade of D-.**Grade Mode:** Letter Grading**CS 515 - Data Structures and Introduction to Algorithms****Credits:** 0 or 4

Reviews basic data structures. Covers the mechanics and relative efficiencies of advanced data structures. Students will implement several data structures such as AVL trees, heaps, hash tables, and adjacency lists. Discusses abstract data types such as maps, priority queues, and graphs. Introduction to algorithm analysis, sorting algorithms, and graph algorithms.

**Prerequisite(s):** CS 416 with a minimum grade of C- or CS 417 with a minimum grade of C-.**Grade Mode:** Letter Grading**CS 518 - Introduction to Software Engineering****Credits:** 0 or 4

Study of software development practices and processes in the following areas: software life cycle; system validation and verification; development pipeline; cloud infrastructures; virtual machines, and containers; logging, instrumentation, and performance; fundamental security concepts. Experience working in groups. Restricted to students not in Senior Standing.

**Prerequisite(s):** CS 416 with a minimum grade of D- or CS 417 with a minimum grade of D-.**Grade Mode:** Letter Grading**CS 520 - Computer Organization and System-Level Programming****Credits:** 0 or 4

Study software/hardware interaction, understand data and program representation. Topics include fundamentals of computer organization, CPU, memory, registers, addressing modes, instruction sets, assemblers, linkers, concurrency, memory hierarchy and memory management.

**Prerequisite(s):** (CS 416 with a minimum grade of C- or CS 417 with a minimum grade of C-) and CS 420 with a minimum grade of C-.**Grade Mode:** Letter Grading**CS 527 - Fundamentals of Cybersecurity****Credits:** 4

An entry-level introduction to a wide range of fundamental cybersecurity topics: authentication, authorization, auditing, cryptography, human element, network security, OS security, mobile & IoT security. The emphasis is to explain basic concepts with real world examples.

**Prerequisite(s):** CS 416 with a minimum grade of D- or CS 417 with a minimum grade of D-.**Grade Mode:** Letter Grading**CS #580 - Introduction to Topics in Computing****Credits:** 1-2

Introductory material not normally covered in regular course offerings, but of value to students prior to internships or senior-level courses.

**Repeat Rule:** May be repeated for a maximum of 6 credits.**Grade Mode:** Credit/Fail Grading**CS 619 - Introduction to Object-Oriented Design and Development****Credits:** 4

Principles of problem analysis and software design applied to the development cycle of a software system (i.e. from system requirements specification to design, implementation, and system test). Design and implementation using object-oriented principles, patterns, and tools. Experience in understanding and debugging software systems. Experience in working in groups.

**Prerequisite(s):** CS 515 with a minimum grade of C- and CS 518 with a minimum grade of D-.**Grade Mode:** Letter Grading

**CS 620 - Operating System Fundamentals****Credits:** 4

Introduces operating system concepts and design. Process and memory management; scheduling; file systems; storage devices; inter-process communication.

**Prerequisite(s):** CS 520 with a minimum grade of D-.**Grade Mode:** Letter Grading**CS 659 - Introduction to the Theory of Computation****Credits:** 4

Review of sets, relations, and languages. Induction and diagonalization. Finite automata, context-free languages, pushdown automata. Basic complexity theory.

**Prerequisite(s):** MATH 531 with a minimum grade of D-.**Grade Mode:** Letter Grading**CS 696 - Independent Study****Credits:** 1-6

Individual projects developed and conducted under the supervision of a faculty member.

**Repeat Rule:** May be repeated up to unlimited times.**Equivalent(s):** CS 696W**Grade Mode:** Letter Grading**CS 696W - Independent Study****Credits:** 1-6

Individual projects developed and conducted under the supervision of a faculty member.

**Attributes:** Writing Intensive Course**Repeat Rule:** May be repeated for a maximum of 8 credits. May be repeated up to 1 time.**Equivalent(s):** CS 696**Grade Mode:** Letter Grading**CS 699 - Internship****Credits:** 1

Provides the opportunity to apply academic experience in settings associated with future professional employment. A written proposal for the internship must be approved by the instructor. The proposal must specify what the student will learn from the internship, why the student is properly prepared for the internship and what supervision is available during the internship. A mid-semester report and final report are required. Prereq: permission.

**Repeat Rule:** May be repeated for a maximum of 4 credits. May be repeated up to 3 times.**Grade Mode:** Credit/Fail Grading**CS 712 - Compiler Design****Credits:** 4

Formal languages and formal techniques for syntax analysis and parsing; organization of the compiler and its data structures; code generation.

LL and LR parsing; automatic generation of scanners and parsers from high level descriptions. Implementation of features from imperative and object-oriented languages. Students required to design and implement a compiler for a simple language.

**Prerequisite(s):** CS 520 with a minimum grade of D-.**Grade Mode:** Letter Grading**CS 720 - Systems Programming****Credits:** 4

Study and simulation of various types of systems that include assemblers, linkers, memory management, concurrency and other resource management techniques.

**Prerequisite(s):** CS 520 with a minimum grade of D-.**Grade Mode:** Letter Grading**CS 722 - Cloud Computing Systems****Credits:** 4

The course covers a variety of topics in cloud computing systems, or more precisely, distributed systems that enable modern cloud computing. The topics include virtualization and its impact on configuration management. The course also covers the latest advancements in cloud computing/systems, IoT, edge, and fog computing.

**Prerequisite(s):** CS 620 with a minimum grade of D-.**Grade Mode:** Letter Grading**CS 723 - Performance Evaluation of Computer Systems****Credits:** 4

Introduces the main concepts, techniques, and tools needed to evaluate the performance of computer systems under various configurations and workloads. The techniques allow one to perform capacity planning based on quality of service requirements of users and workload characteristics. Course is mainly based on the use of analytic queuing network models of computers systems. The performance techniques are applied to study the performance of centralized, distributed, parallel, and client/server systems. The course also discusses performance measuring tools for operating systems such as Unix and Windows NT.

**Prerequisite(s):** CS 620 with a minimum grade of D- and (MATH 539 with a minimum grade of D- or MATH 644 with a minimum grade of D-).**Grade Mode:** Letter Grading**CS 725 - Computer Networks****Credits:** 4

Introduction to fundamental concepts of computer networks and exploration of widely-used networking technologies. Topics include principles of congestion and error control; network routing; local, wireless and access networks; application protocol design; and network programming. In-depth discussion of the Internet suite of protocols.

**Prerequisite(s):** CS 520 with a minimum grade of D-.**Equivalent(s):** IT 725**Grade Mode:** Letter Grading**CS 727 - Software Security****Credits:** 4

Mechanisms and implementation of techniques in software security. Various fundamental security topics include cryptography, access control, protocols, software vulnerabilities, and reverse engineering.

**Prerequisite(s):** CS 520 with a minimum grade of C- and CS 527 with a minimum grade of D-.**Grade Mode:** Letter Grading**CS 730 - Introduction to Artificial Intelligence****Credits:** 4

In-depth introduction to artificial intelligence, concentrating on aspects of intelligent problem-solving. Topics include situated agents, advanced search techniques, knowledge representation, logical reasoning techniques, reasoning under uncertainty, advanced planning and control, and learning.

**Prerequisite(s):** CS 515 with a minimum grade of D-.**Grade Mode:** Letter Grading**CS 733 - Mobile Robotics****Credits:** 4

An introduction to the foundational theory and practices in mobile robotics. Topics include Kinematics of wheeled mobile robots, Sensors for mobile robots, Robot navigation and perception, Robot vision, Localization and mapping of mobile robots. Hands-on experience directed towards implementation with a real robot. Programming course required prior to taking this course.

**Grade Mode:** Letter Grading

**CS 735 - Introduction to Parallel and Distributed Programming****Credits:** 4

Programming with multiple processes and threads on distributed and parallel computer systems. Introduces programming tools and techniques for building applications on such platforms. Course requirements consist primarily of programming assignments.

**Prerequisite(s):** CS 761 with a minimum grade of D-.**Grade Mode:** Letter Grading**CS 745 - Formal Specifications and Verification of Software Systems****Credits:** 4

Course focuses on the formal specification and verification of reactive systems, most notably concurrent and distributed systems. Topics relevant to these systems, such as non-determinism, safety and liveness properties, asynchronous communication or compositional reasoning, as discussed. We rely on a notation (TLA+, the Temporal Logic of Actions) and a support tool (TLC, the TLA+ Model Checker).

**Prerequisite(s):** CS 520 with a minimum grade of D- and CS 659 with a minimum grade of D-.**Grade Mode:** Letter Grading**CS 750 - Machine Learning****Credits:** 4

An introduction to fundamental concepts and common methods in machine learning. In addition to theoretical topics, the course involves hands-on experience in making predictions using synthetic and real-world datasets. Programming course required prior to taking this course.

**Prerequisite(s):** MATH 539 with a minimum grade of D- or MATH 644 with a minimum grade of D-.**Mutual Exclusion:** No credit for students who have taken .**Grade Mode:** Letter Grading**CS 751 - Reinforcement Learning****Credits:** 4

Reinforcement learning studies how agents can learn to act to achieve goals in complex, stochastic environments. This course introduces students to fundamental theoretical concepts of reinforcement learning, standard algorithms, and practical techniques. In addition to theoretical topics, the course involves implementing basic algorithms in a high-level programming language.

**Prerequisite(s):** (CS 415 with a minimum grade of D- or CS 410P with a minimum grade of D-) and (MATH 539 with a minimum grade of D- or MATH 644 with a minimum grade of D-).**Grade Mode:** Letter Grading**CS 752 - Foundations of Neural Networks****Credits:** 4

Neural networks are a class of machine learning models which have recently revolutionized many applied machine learning domains such as natural language understanding, image/video processing, bioinformatics, time series analysis. This course teaches students to develop new neural network architectures from scratch and customize them. The course covers all necessary foundations of neural networks including gradient descent optimization and vector calculus. Students will learn how to design models using idioms such as observed variables, latent variables, gate variables and different functions as well as a wide range of state-of-the-art architectures as design examples.

**Prerequisite(s):** CS 515 with a minimum grade of D-.**Grade Mode:** Letter Grading**CS 753 - Information Retrieval****Credits:** 4

Fundamental algorithms and techniques for text processing and text-based information retrieval systems. Topics include how to build an end-to-end information retrieval system, such as a Web search engine.

**Prerequisite(s):** CS 515 with a minimum grade of D-.**Grade Mode:** Letter Grading**CS 755 - Computer Vision****Credits:** 4

Studying techniques that make a machine 'see' and 'understand' the world in a human-like fashion. The course discusses the theory behind common computer vision techniques and trains students on designing their own algorithms for understanding image or video.

**Prerequisite(s):** MATH 539 with a minimum grade of D- or MATH 644 with a minimum grade of D-.**Grade Mode:** Letter Grading**CS 757 - Mathematical Optimization for Applications****Credits:** 4

This course introduces the foundations of mathematical optimization and reinforces them via applications. The content includes convex optimization, first and second-order methods, constrained problems, duality, linear and quadratic programming, as well as discrete and non-convex optimization. Applications will focus on machine learning methods but also include problems from engineering and operations research. Programming proficiency in MATLAB, R, Java, C, Python, or equivalent required.

**Prerequisite(s):** MATH 426 with a minimum grade of D-.**Equivalent(s):** MATH 757**Grade Mode:** Letter Grading**CS 758 - Algorithms****Credits:** 4

An introduction to important concepts in the design and analysis of algorithms and data structures, including implementation, complexity analysis, and proofs of correctness.

**Prerequisite(s):** CS 420 with a minimum grade of C- and CS 515 with a minimum grade of C- and CS 659 with a minimum grade of D-.**Grade Mode:** Letter Grading**CS 759 - Natural Language Processing****Credits:** 4

This class covers natural language processing, including both methods and well-known applications. Methods discussed will range from classical probabilistic methods such as Naive Bayes and Hidden Markov Models, to contemporary neural network methods, including word vector models, recurrent neural networks, and Transformer-based models. Applications discussed will include text classification, machine translation, and conversation systems.

**Prerequisite(s):** CS 515 with a minimum grade of D- and (MATH 539 with a minimum grade of D- or MATH 644 with a minimum grade of D-).**Grade Mode:** Letter Grading

**CS 761 - Programming Language Concepts and Features****Credits:** 4

Explores the main features of modern, high-level, general-purpose programming languages from the user (programmer) standpoint. Students learn how specific features of programming languages can be used effectively in solving programming problems. The course is also an opportunity to use paradigms that expand on simple imperative programming, such as object-oriented, functional and concurrent programming. Some knowledge of Java required.

**Prerequisite(s):** CS 520 with a minimum grade of C-.**Equivalent(s):** CS 671**Grade Mode:** Letter Grading**CS 770 - Computer Graphics****Credits:** 4

Input-output and representation of pictures from hardware and software points of view; interactive techniques and their applications; three-dimensional image synthesis techniques and their applications.

**Prerequisite(s):** CS 515 with a minimum grade of C- and CS 520 with a minimum grade of C-.**Grade Mode:** Letter Grading**CS #771 - Web Programming Paradigms****Credits:** 4

In this course you will learn languages to program the Web. Languages integrated into browsers, like JavaScript, and languages invoked on the server, like Ruby. You will also learn about frameworks, like Rails, and various techniques used to support the programming process. In addition, you will learn languages you will need to create, modify, and process Web documents. Although we will learn how to read and write in these languages, our primary goal will be an understanding of how the design of these multi-paradigm dynamic languages support the process of developing Web applications.

**Prerequisite(s):** CS 761 with a minimum grade of D-.**Grade Mode:** Letter Grading**CS 775 - Database Systems****Credits:** 4

Introduction to database management systems — design, implementation, and usage — with focus on the relational model. Data description, manipulation, and query language in the context of MySQL. Schema design and normalization; indexes, transaction processing. Web access of databases (PHP); overview of XML and noSQL systems.

**Prerequisite(s):** CS 515 with a minimum grade of D-.**Mutual Exclusion:** No credit for students who have taken IT 775.**Grade Mode:** Letter Grading**CS 780 - Topics****Credits:** 1-4

Material not normally covered in regular course offerings. May be repeated for credit.

**Grade Mode:** Letter Grading**CS 781 - Data Science for Knowledge Graphs and Text****Credits:** 4

This course covers advanced text processing and machine learning algorithms and techniques for data science with knowledge graph and text data. This includes a wide range of algorithms for neural networks, machine learning, graph processing, text processing, and information retrieval with a focus of gaining insights into the knowledge stored in data. This an implementation-intensive research-oriented seminar, where a particular data science application will be developed by reading research publication and implementing a software prototype.

**Prerequisite(s):** CS 752 with a minimum grade of B- or CS 753 with a minimum grade of B- or CS 759 with a minimum grade of B-.**Grade Mode:** Letter Grading**CS 791 - Senior Project I****Credits:** 2

First semester of the capstone design experience. Modern software engineering practices and tools are surveyed and applied in team projects. Students begin development on software projects proposed by faculty or external sponsors, including initial stages of design, implementation, and documentation, with an interim presentation of progress expected toward the end of the semester. Principles of security, testability, and maintainability are stressed.

**Prerequisite(s):** CS 520 with a minimum grade of C- and ((CS 619 with a minimum grade of D- and CS 620 with a minimum grade of D-) or (CS 620 with a minimum grade of D- and (CS 727 with a minimum grade of D- or IT 666 with a minimum grade of D-)) ).**Grade Mode:** Letter Grading**CS 792 - Senior Project II****Credits:** 2

Continuation of CS 791: Senior Project I. Students complete the project by implementing their design. Students work in teams. Successful completion of this course fulfills the Capstone Experience requirement for Computer Science majors.

**Attributes:** Writing Intensive Course**Prerequisite(s):** CS 791 with a minimum grade of D-.**Grade Mode:** Letter Grading**CS 799 - Thesis****Credits:** 1-5

Students work under the direction of a faculty sponsor to plan and carry out independent research resulting in a written thesis. Required for honors-in-major. Additional CS 600-level course required. Minimum GPA should be 3.4 or higher.

**Attributes:** Writing Intensive Course**Prerequisite(s):** CS 520 with a minimum grade of C- and CS 619 with a minimum grade of D-.**Repeat Rule:** May be repeated for a maximum of 8 credits.**Grade Mode:** Letter Grading

## Computer/Information Tech (CMPL)

# Course numbers with the # symbol included (e.g. #400) have not been taught in the last 3 years.

**CMPL 402 - Excel****Credits:** 2

A comprehensive examination of spreadsheet software. Students will build a variety of spreadsheets using simple and complex formulas, functions, graphics, database features, sorts, linkages within spreadsheet and between spreadsheets, and macros. Basic Algebra and knowledge of computer operating system required. This course is valuable for all Business students and Computer Science Students. It provides competency and fluency in the standard software used for business analysis and as a link between large computer software systems and the end user.

**Equivalent(s):** CMPL 502G, MGMT 502G**Grade Mode:** Letter Grading**CMPL 415 - Programming Fundamentals****Credits:** 4

The course is designed to provide students with a sound background in structured programming logic and design. These foundational concepts can be applied regardless of which programming languages a student eventually uses to write programs. The demonstration language for programming concepts will be Microsoft Visual Basic. The course covers the key mathematical and logical constructs that are the basis of much programming. Topics include the software development life cycle, particularly the programming phase; structured programming techniques; problem-solving and algorithm development; decision control structures, including selection (IF/CASE) and repetition (looping) structures; variables and arrays; and data structures. Proficiency in Excel is necessary for success in this course.

**Prerequisite(s):** MTH 402 with a minimum grade of D- or MATH 502G with a minimum grade of D-.**Equivalent(s):** CMPL 515G**Grade Mode:** Letter Grading**CMPL 512 - Advanced Software Tools****Credits:** 4

This is a project-oriented software applications course to help the student gain competency with advanced features of office productivity software and to introduce more advanced database application concepts. NOTE: Excel is recommended for success in this course.

**Equivalent(s):** CMPL 612G**Grade Mode:** Letter Grading**CMPL 525 - Foundations of Cybersecurity****Credits:** 4

This course addresses the foundations of cybersecurity, including threats and vulnerabilities as well as the tools, technologies, and strategies used to manage those threats and vulnerabilities.

**Attributes:** Environment, TechSociety(Disc)**Equivalent(s):** CMPL 525G**Grade Mode:** Letter Grading**CMPL 530 - Introduction to Programming with Python****Credits:** 4

In this introductory programming with Python course, students will have the opportunity to learn about data types, control flow, object-oriented programming, and graphical user interface-driven applications. The examples and problems used in this course are drawn from diverse areas such as text processing, simple graphics creation, and image manipulation. This course will explore the large standard library of Python 3, which supports many common programming tasks.

**Prerequisite(s):** CMPL 415 with a minimum grade of D- or CMPL 515G with a minimum grade of D-.**Equivalent(s):** CMPL 530G**Grade Mode:** Letter Grading**CMPL 540 - Best Practices in Website Design****Credits:** 2

This hands-on course outlines the fundamentals of web design. Students consider ethical use of information and best practices when creating websites using free web page design programs. Working with a basic design program, students explore layout, graphics, text, color, links, tables, frames and content. Students use website design software to create a simple website of their own, as well as examine publication and promotion options. NOTE: Basic computer competence is required. This course is not appropriate for Information Technology majors and may not be combined with other Information Technology courses to satisfy degree requirements.

**Equivalent(s):** CMPL 540G**Grade Mode:** Letter Grading**CMPL 544 - Special Topics: Lower Level****Credits:** 1-4

A study of current and variable topics in Computer Science. Course content changes from term to term.

**Repeat Rule:** May be repeated up to unlimited times.**Equivalent(s):** CMPL 544G**Grade Mode:** Letter Grading**CMPL 614 - Computer and Network Systems****Credits:** 4

This course offers a practical study of the hardware and software of modern computing systems and networks. Course topics include operating system software by studying the functions and interactions of computer and peripheral components such as central processing units (CPU), memory, storage, print engines, etc. Learners also study the workings of network components such as protocols, hubs, routers, and switches. Through exposure to a mix of theory, extensive vocabulary, and specific knowledge about trends in contemporary systems, learners develop skills to effectively communicate with others regarding the specification, purchase, and installation of an office or home computer system/network.

**Prerequisite(s):** CMPL 415 with a minimum grade of D- or CMPL 515G with a minimum grade of D- or CMPL 512 with a minimum grade of D- or CMPL 612G with a minimum grade of D-.**Equivalent(s):** CMPL 614G**Grade Mode:** Letter Grading**CMPL 620 - Virtualization and Cloud Computing****Credits:** 4

In this course students will have the opportunity to learn the fundamental concepts, components, infrastructure, as well as security and privacy considerations of cloud computing and virtualization systems. Course activities will address the skills and knowledge necessary to install, configure, and manage virtual environments and how to effectively plan, implement, and manage cloud computing.

**Prerequisite(s):** (CMPL 614 with a minimum grade of D- or CMPL 614G with a minimum grade of D-) and (CMPL 525 with a minimum grade of D- or CMPL 525G with a minimum grade of D-).**Equivalent(s):** CMPL 620G**Grade Mode:** Letter Grading

**CMPL 622 - Human Computer Interaction****Credits:** 4

This course builds an understanding of human behavior with interactive objects, focusing on how to develop and evaluate interactive software using a human-centered approach. This includes examining the many different types of interactive software, understanding the principles of effective graphical user interface design, evaluating human-centered software and software development and exploring aspects of collaboration and communication as they affect individual and group interaction with software systems.

**Attributes:** Environment, TechSociety(Disc); Writing Intensive Course**Equivalent(s):** CMPL 622G**Grade Mode:** Letter Grading**CMPL 637 - Intermediate Programming with Python****Credits:** 4

Students will have the opportunity to take their Python programming skills to the next level with this intermediate course. This course includes a review of basic concepts such as lists, strings, and dictionaries, and more advanced topics such as threading, multiprocessing, context managers, and generators.

**Prerequisite(s):** CMPL 530 with a minimum grade of D- or CMPL 530G with a minimum grade of D-.**Equivalent(s):** CMPL 537G**Grade Mode:** Letter Grading**CMPL 641 - Database Management Systems****Credits:** 4

This course provides prospective users of data base management systems with a solid theoretical and practical foundation for using these systems in a variety of contemporary organizational environments. The course traces the nature of DBMS from general conceptual structures, through the design, interface and implementation of actual database systems. The course includes a mix of classical database theory with practical hands-on application using state of the art DBMS packages; similar to those used today by large and small organizations alike to run their information systems.

**Prerequisite(s):** (CMPL 415 with a minimum grade of D- or CMPL 515G with a minimum grade of D-) and (CMPL 512 with a minimum grade of D- or CMPL 612G with a minimum grade of D-).**Equivalent(s):** MGMT 622G**Grade Mode:** Letter Grading**CMPL 642 - Systems Analysis and Design****Credits:** 4

This hands-on course introduces students to the role of the systems analyst in the development of information systems for organizations. The systems analyst is a problem-solver. As such, this course emphasizes development of effective solutions and communicating those solutions to the development team. Use of accepted design techniques, project management approaches, written and verbal communication, collaboration and teamwork, and organizational tools prepares the learner for the many demands of an entry-level systems analyst.

**Prerequisite(s):** (MTH 504 with a minimum grade of D- or MATH 504G with a minimum grade of D-) and (CMPL 512 with a minimum grade of D- or CMPL 612G with a minimum grade of D- or CMPL 415 with a minimum grade of D- or CMPL 515G with a minimum grade of D-).**Equivalent(s):** MGMT 623G**Grade Mode:** Letter Grading**CMPL 643 - Managing Information Technology****Credits:** 4

This course helps students understand the important role of information technology in business strategy. Emphasizing the management of information technology rather than specific technical aspects, students explore the alignment of information technology with organizational goals, efficiencies gained through technology solutions, project management and the implementation of information technology, and organizational and industry changes driven by information technology. Investments in information technology for competitive advantage, the positioning of information technology in the organization, the pace of innovation in a digital economy, and emerging trends in information technology are discussed.

**Prerequisite(s):** MGMT 410 with a minimum grade of D- or MGMT 500G with a minimum grade of D- or PADM 500 with a minimum grade of D- or PADM 500G with a minimum grade of D- or MGMT 501G with a minimum grade of D- or MGMT 566 with a minimum grade of D- or MGMT 566G with a minimum grade of D-.**Equivalent(s):** MGMT 624G**Grade Mode:** Letter Grading**CMPL 644 - Special Topics: Upper Level****Credits:** 1-4

The study of current and variable topics in Computer Science. Course content changes from term to term. It is expected that the learner will have prior coursework or experience in the subject area.

**Repeat Rule:** May be repeated up to unlimited times.**Equivalent(s):** CMPL 644G**Grade Mode:** Letter Grading**CMPL 660 - Mobile Application Development****Credits:** 4

This course introduces students to programming technologies, design, and development related to mobile applications. Topics include application user interfaces, styling, navigation, simple animation, and Android and iOS-specific components and APIs. Students will program cross-platform mobile applications using JavaScript and React Native, an open-source user interface framework. Through course activities, students will have the opportunity to develop the skills needed to create basic applications for mobile devices.

**Prerequisite(s):** CMPL 530 with a minimum grade of D- or CMPL 530G with a minimum grade of D-.**Equivalent(s):** CMPL 633G**Grade Mode:** Letter Grading**CMPL 665 - Web Application Development****Credits:** 4

This course covers modern website design and development using Hypertext Markup Language (HTML), Cascading Style Sheets (CSS), and JavaScript. Students will learn the history and overall structure of the Internet and its key paradigms and technologies. Students will also learn how to design and code websites for various audiences and client technologies. The course will also cover current website management technologies including content management systems, JavaScript libraries, and website development frameworks.

**Prerequisite(s):** CMPL 530 with a minimum grade of D- or CMPL 530G with a minimum grade of D-.**Equivalent(s):** CMPL 638G**Grade Mode:** Letter Grading

**CMPL 725 - Advanced Programming with Python****Credits:** 4

This course introduces advanced programming skills and focuses on the core concepts of object-oriented programming (OOP) using Python, a high-level language. OOP shifts the focus from thinking about code as a sequence of actions, to looking at your program as a collection of objects that interact with each other. The course focuses on the understanding and practical mastery of object-oriented concepts such as classes, objects, data abstraction, methods, and the three tenets of OOP: encapsulation, inheritance, and polymorphism.

**Prerequisite(s):** CMPL 637 with a minimum grade of D- or CMPL 537G with a minimum grade of D-.

**Equivalent(s):** CMPL 625G

**Grade Mode:** Letter Grading

**CMPL 795 - Integrative Capstone: Internship in Computer Information Tech and Tech Management****Credits:** 4

This upper level course is a field-based experience designed to develop and hone the practical application skills of students in a Computer Information Technology or Technology Management major. Students apply for an internship at a self-selected site and negotiate the terms of the internship experience with a site supervisor under the auspices of their GSC internship mentor. The internship requires documented evidence of eighty hours of supervised experience and practice in a field setting where Computer Information Technology or Technology Management knowledge and skills are applied. This course is the capstone for the BS in Computer Information Technology and BS in Technology Management. NOTE: Registration for this course as an internship is by permission of the Office of Academic Affairs. Early registration deadlines may apply. Prior to capstone enrollment, students are expected to complete the majority of their required major courses. Students should consult with their advisor regarding specific major courses that may be completed with their capstone. NOTE: Students who were admitted to the college before Fall 2019 and have remained active in their original catalog year are not required to take IDIS 601.

**Attributes:** Writing Intensive Course

**Prerequisite(s):** (CRIT 602 with a minimum grade of D- or CRIT 602G with a minimum grade of D- or CRIT 502G with a minimum grade of D-) and (IDIS 601 with a minimum grade of D- or IDIS 601G with a minimum grade of D-).

**Equivalent(s):** CMPL 651G

**Grade Mode:** Letter Grading

**CMPL 797 - Integrative Capstone: Best Practices in Information Technology****Credits:** 4

This course is a project-oriented capstone learning experience that is designed to integrate learning from coursework with related work or other experience. Students focus on best practices in information technology and project management, with specific attention to their area of specialization. Students will complete an integrative project related to their program option and career interests. Prior to capstone enrollment, students are expected to complete the majority of their required major courses. Students should consult with their advisor regarding specific major courses that may be completed with their capstone. NOTE: Students who were admitted to the college before Fall 2019 and have remained active in their original catalog year are not required to take IDIS 601.

**Attributes:** Writing Intensive Course

**Prerequisite(s):** (CRIT 602 with a minimum grade of D- or CRIT 602G with a minimum grade of D- or CRIT 502G with a minimum grade of D-) and (IDIS 601 with a minimum grade of D- or IDIS 601G with a minimum grade of D-).

**Equivalent(s):** CMPL 650G

**Grade Mode:** Letter Grading

## Computing Technology (COMP)

# Course numbers with the # symbol included (e.g. #400) have not been taught in the last 3 years.

**COMP 405 - Introduction to Web Design and Development****Credits:** 4

Students learn the fundamentals of how the Internet works, gain practice with foundational technologies that power websites and learn how to solve problems like a programmer. A significant portion of the course covers web front-end design and development; students create a website using HTML/CSS, and are introduced to JavaScript language and responsive web design techniques. Topics include Internet history and structure, legal and ethical issues. No prior programming experience is required.

**Attributes:** Environment, TechSociety(Disc)

**Equivalent(s):** IT 403

**Grade Mode:** Letter Grading

**COMP 415 - Mobile Computing First and For Most****Credits:** 4

This course examines how mobile computing is transforming our everyday lives and the society and environment in which we live. In this course the students will engage the mobile ecosystem by inventing apps and solving problems of personal, social, and environmental relevance. Students will learn computational thinking skills and create mobile apps using AppInventor, a free and open source visual blocks-based programming environment. Students will share their creative apps with peers and communities. They will also exercise inclusion, civic engagement, and peer learning in the context of innovating with free and open source software that empower individuals and communities.

**Attributes:** Environment, TechSociety(Disc)

**Grade Mode:** Letter Grading

**COMP 424 - Applied Computing 1: Foundations of Programming****Credits:** 4

Integrates three essential computing competencies: Problem solving, data analysis, and programming. Problems are chosen from data-driven real-world examples such as astronomy, cryptography, environmental simulation, image processing, and video games. Emphasis is on formulating problems, thinking creatively about how computations can solve problems, and expressing solutions clearly and accurately. Using Python, students learn design, implementation, testing, and analysis of algorithms and programs.

**Equivalent(s):** CS 410, CS 414, CS 415**Grade Mode:** Letter Grading**COMP #425 - Introduction to Programming****Credits:** 4

An introduction to problem solving and object-oriented programming. Emphasis is on programming concepts and techniques and their application to software development. Students learn to write, review, document, share, and demonstrate interactive applications and participate in pair programming, peer-led tutoring, and collaborative learning throughout the course.

**Equivalent(s):** CS 410, CS 414**Grade Mode:** Letter Grading**COMP 430 - Systems Fundamentals****Credits:** 4

The underlying hardware and software infrastructure upon which applications are constructed is collectively described by the term "computer systems." Computer systems broadly span the subdisciplines of operating systems, parallel and distributed systems, communications networks, and computer architecture. The class will present an integrative view of these fundamental concepts in a unified albeit simplified fashion, providing a common foundation for the different specialized mechanisms and policies appropriate to the particular domain area.

**Grade Mode:** Letter Grading**COMP 500 - Discrete Structures****Credits:** 4

This course prepares students for understanding computational complexity; i.e., what makes a given task/problem hard and how hardness is measured. It accomplishes this through the study of algorithms, permutations, combinations, probability, graph theory, and trees.

**Grade Mode:** Letter Grading**COMP 520 - Database Design and Development****Credits:** 4

An introduction to developing database applications with business users. Topics include fundamentals of the relational model, structured query language, data modeling and database design and implementation. Students use a variety of database management system tools to model, code, debug, document, and test database applications. Students complete real-world team projects.

**Equivalent(s):** CIS 520, IT 505**Grade Mode:** Letter Grading**COMP 525 - Data Structures Fundamentals****Credits:** 4

Data structures and algorithms are fundamental to developing solutions for computational problems. In this course students design and implement data and functional abstractions; analyze and select appropriate data structures to solve computational problems; practice programming and software development techniques to implement computational solutions.

**Prerequisite(s):** COMP 424 with a minimum grade of D- or COMP #425 with a minimum grade of D-.**Equivalent(s):** CS 416, CS 417**Grade Mode:** Letter Grading**COMP 530 - Machine and Network Architecture****Credits:** 4

Examines the following topics. Machine organization: program and data representation; registers, instructions, and addressing modes; assemblers and linkers. Impact of hardware on software and software on hardware. Introduces the Internet protocol suite and network tools and programming and discusses various networking technologies.

**Prerequisite(s):** COMP 430 with a minimum grade of D-.**Grade Mode:** Letter Grading**COMP 550 - Networking Concepts****Credits:** 4

Explores the fundamentals of data communications and networking requirements for an organization, including the standard layers of network organization; network technologies; and protocols for LANs, WANs, wireless networks, and switched and routed networks. Includes issues of security, topology, management, and future developments.

**Grade Mode:** Letter Grading**COMP 560 - Ethics and the Law in the Digital Age****Credits:** 4

Examines classical and ethical and legal constructs as they pertain to current and topical issues. Students develop and articulate a personal point of view on a broad range of issues based on sound ethical principles and consider the impact of such views on co-workers, employers, and society in general. Topics also include: major social issues involving intellectual property, privacy, current U.S. and international relations relevant to ethical theories. The interplay between ethics and law is explored through current case studies and students formulate and support conclusions based on ethical constructs presented in class. Case study analysis is a major component in course delivery.

**Attributes:** Humanities(Disc); Writing Intensive Course**Grade Mode:** Letter Grading**COMP 570 - Statistics in Computing and Engineering****Credits:** 4

An introduction to tools from probability and statistics that are needed by computing and engineering professionals. Exploratory data analysis including graphic data analysis. discrete and continuous probability distributions, inference, linear regression, and analysis of variance, with applications from artificial intelligence, machine learning, data mining, and related topics. Project work and use of statistical software are an integral part of the course.

**Prerequisite(s):** MATH 425 with a minimum grade of D-.**Grade Mode:** Letter Grading

**COMP 574 - Applied Computing 2: Foundations of Machine Learning****Credits:** 4

Introduction to making informed, data-based decisions with machine learning, data representation and analysis tools, and programming. Emphasis is on the importance of gathering, cleaning, normalizing, visualizing and analyzing data to drive informed decision-making in any field of study. Students learn to use tools and techniques to work on real-world datasets using procedural and basic machine learning algorithms. Students also learn to ask good, exploratory questions and develop metrics to come up with a well-thought-out analysis.

**Prerequisite(s):** COMP 424 with a minimum grade of D-.**Grade Mode:** Letter Grading**COMP 625 - Data Structures and Algorithms****Credits:** 4

An introduction to object-oriented design, analysis, and implementation of data structures and algorithms. Students apply concepts and techniques to develop information processing applications. Best programming practices of editing, debugging, documentation, testing, and code review are stressed. Familiarity with an object-oriented programming language and experience with application development are required.

**Prerequisite(s):** COMP #425 with a minimum grade of D-.**Equivalent(s):** CS 515**Grade Mode:** Letter Grading**COMP 630 - Systems Software****Credits:** 4

Today's organizations need to deliver applications and services by automating processes that develop and deploy software and manage scalable computing infrastructures. Students will learn how to integrate development, operations, and cloud computing and gain experience with design approaches, version control, continuous integration, cloud-based APIs, and monitoring metrics. Key to systems software tools and automation processes are increased communication and collaboration practiced in the course team projects. Students who took COMP 698 Sp/Topic Systems Software cannot repeat for credit.

**Prerequisite(s):** COMP 530 with a minimum grade of D-.**Grade Mode:** Letter Grading**COMP 650 - Network Administration and Maintenance****Credits:** 4

Advances the understanding of networks through practical application of administering and maintaining an intranet and its servers. Students use a modern server operating system and network management tools. Routine tasks include: install and configure servers, setup directory services and access privileges, tune network services, understand and implement network security, perform routine maintenance, and practice troubleshooting techniques.

**Prerequisite(s):** COMP 550 with a minimum grade of D-.**Grade Mode:** Letter Grading**COMP 690 - Internship Experience****Credits:** 4

The internship provides field-based learning experience through placement in a computing field. Students gain practical computing experience in a business, non-profit, or government organization. Under the direction of a faculty advisor, the student is expected to contribute to the information technology products, processes, or services of the organization. Majors only. May be repeated but no more than 4 credits may fill major requirements.

**Prerequisite(s):** UMST 582 with a minimum grade of D-.**Repeat Rule:** May be repeated for a maximum of 8 credits.**Grade Mode:** Letter Grading**COMP 698 - Special Topics****Credits:** 1-4

Course topics not offered in other courses. Topics covered vary depending on contemporary computing topics, programmatic need, and availability and expertise of faculty. Barring duplication of subject, may be repeated for credit.

**Repeat Rule:** May be repeated for a maximum of 8 credits.**Grade Mode:** Letter Grading**COMP 705 - Full Stack Development****Credits:** 4

Students work in teams and implement, test, document, demonstrate, and deploy web systems that solve organizational needs expressed by real clients. Emphasis is on advanced server-side and client-side programming and integration of web application with database and web server applications. Free and open source development and communication tools are used to carry out the course project.

**Grade Mode:** Letter Grading**COMP 715 - Information Security****Credits:** 4

Topics include general security principles and practices, network and system security, access control methodology, and cryptography. Students develop a simple cryptographic system based on sound mathematical principals, work to improve it, and find ways to attack it. Some programming required.

**Grade Mode:** Letter Grading**COMP 720 - Database Systems and Technologies****Credits:** 4

This is a project course that provides practical experience with developing a storage subsystem of a computer information system. Topics include data modeling, database design, system implementation, and integration with a target application. Emphasis is on implementation activities, database application development artifacts, project communication, and supporting system development and project management tools.

**Grade Mode:** Letter Grading**COMP 721 - Big Data for Data Engineers****Credits:** 4

In this course students gain practical experience developing data-oriented applications in modern infrastructure frameworks, also known as the cloud data solutions. Guided by what a data scientist profile is, students become familiar with the use cases of data oriented applications. They will apply key data modeling and data design concepts to meet business requirements. Students will also apply modern software development to iteratively construct solutions using established reference architectures. Project work will be based in Google Cloud Platform and Amazon Web Services.

**Grade Mode:** Letter Grading**Special Fee:** Yes**COMP 725 - Programming Languages****Credits:** 4

Explores the main features of modern, high-level, general purpose programming languages from the user point of view. Provides students with an opportunity to use non-imperative programming paradigms, such as object-oriented, functional, and visual, and to learn how specific features of such languages can be used efficiently in solving problems. The purpose is to gain knowledge regarding the languages studied as well as providing the basis to conduct analysis related to comparisons and divergence in capabilities.

**Equivalent(s):** CIS 698, COMP 698, ET 647**Grade Mode:** Letter Grading

**COMP 730 - Software Development****Credits:** 4

Presents an iterative methodology for developing software systems. Development activities include requirements elicitation and analysis, system and object design, implementation and testing, project and configuration management, infrastructure maintenance, and system deployment to end user. Students work in teams, assume developer roles, build models of a real-world system, and deliver a proof-of-concept or prototype.

**Attributes:** Writing Intensive Course**Prerequisite(s):** COMP 525 with a minimum grade of D-.**Grade Mode:** Letter Grading**COMP 740 - Machine Learning Applications and Tools****Credits:** 4

Introduces students to practical approaches of machine learning. The course is an exploration of creative applications of artificial intelligence using modern machine learning components and tools. Different application domains are considered, such as computer vision, natural language processing, and cyber security. Students learn to evaluate machine learning systems as well as their potential prediction problems. Cannot receive credit if credit earned for COMP 780 AdvTop/ML Tools & Appl.

**Grade Mode:** Letter Grading**COMP 741 - Practical Artificial Intelligence****Credits:** 4

Balancing the science of AI with its engineering applications, the course focuses on AI foundations and principles for building intelligent computational systems. Reasoning, planning, learning, explaining, and acting with certainty and uncertainty are AI areas in which students will practice how to build AI systems that solve real-world problems. Particular attention is given to the impact of AI applications on our society and related ethical, privacy, security, and safety implications.

**Prerequisite(s):** COMP 525 with a minimum grade of D-.**Grade Mode:** Letter Grading**COMP 745 - Fundamentals of Computer Vision****Credits:** 4

This course provides a comprehensive introduction to computer vision, covering both the theoretical and practical skills needed to pursue a career in computer vision, pattern recognition, image processing, and signal processing. Students will learn basic concepts as well as hands-on experience to solve various real-life problems in image processing, feature extraction, object recognition, and image understanding. Not offered for credit if credit is received for COMP 780 "Computer Vision".

**Grade Mode:** Letter Grading**COMP 750 - Neural Networks****Credits:** 4

Artificial neural networks power the recent advances in computer vision, speech recognition, and machine translation. This is a first course on neural networks with a focus on applications in computer vision and natural language processing. Topics will include generic feedforward neural networks, convolutional neural networks for computer vision tasks and recurrent neural networks with application to natural language processing, with other topics to be selected based on the interests of the instructor and the class.

**Equivalent(s):** DATA 750**Grade Mode:** Letter Grading**COMP 755 - Digital Forensics****Credits:** 4

This course studies cyber-attack prevention, planning, detection, response, and investigation with the goals of counteracting cybercrimes. The topics covered in this course include fundamentals of digital forensics, forensic duplication and analysis, network surveillance, intrusion detection and response, incident response, anti-forensics techniques, anonymity and pseudonymity, computer security policies and guidelines, and methods and standards for extraction and preservation of digital evidence.

**Prerequisite(s):** COMP 525 with a minimum grade of D-.**Grade Mode:** Letter Grading**COMP 760 - Data Visualization & Communication****Credits:** 4

Through hands-on experience with a leading data visualization tool, the course introduces the concepts of data visualization to allow students to communicate and analyze data effectively using visual techniques.

**Grade Mode:** Letter Grading**COMP 780 - Advanced Topics in Computing****Credits:** 1-4

The course includes advanced topics and emerging areas in computing. Barring duplication of subject, the course may be repeated for credit.

**Grade Mode:** Letter Grading**COMP 785 - Applied Cryptography****Credits:** 4

This course aims to give students an overview of cryptographic concepts and methods, a good knowledge of some commonly used cryptographic primitives and protocols, a sound understanding of theory and implementation, as well as limitations and vulnerabilities, and an appreciation of the engineering difficulties involved in employing cryptographic tools to build secure systems. Some programming required.

**Prerequisite(s):** COMP 525 with a minimum grade of D-.**Grade Mode:** Letter Grading**COMP 790 - Capstone Project****Credits:** 4

This course requires the development of a real world project that responds to an IT organizational need. The project is undertaken by a team of students. An iterative approach is used to incrementally address the project requirements while constructing a prototype of the IT solution to the original problem.

**Attributes:** Writing Intensive Course**Prerequisite(s):** COMP 690 with a minimum grade of D- and CIS 610 with a minimum grade of D-.**Grade Mode:** Letter Grading**COMP 791 - Senior Thesis****Credits:** 4

This course requires the development of a real world project representative of the computing discipline of their major. An iterative approach is used to incrementally address the project requirements while constructing a prototype of the solution to the original problem. A thesis, describing the work, will be the final product, submitted at the end of the course and presented to a committee of faculty.

**Prerequisite(s):** COMP 690 with a minimum grade of D-.**Equivalent(s):** COMP 790**Grade Mode:** Letter Grading

**COMP 795 - Independent Study****Credits:** 1-4

Advanced individual study under the direction of a faculty mentor. Content area to be determined in consultation with faculty mentor. May be repeated.

**Grade Mode:** Letter Grading

## Criminal Justice (CRIM) CPSO

# Course numbers with the # symbol included (e.g. #400) have not been taught in the last 3 years.

**CRIM 410 - Introduction to Criminology****Credits:** 4

This course introduces the learner to the field of criminology by reviewing the historical underpinnings of the modern-day study of crime and criminals, examining the theoretical causes of crime and criminality, and evaluating society's responses to crime. Learners are introduced to the sociological, biological, and psychological schools of criminological thought. Topics include crime statistics and social and legal mechanisms used to address criminal activity and the individual criminal.

**Attributes:** HumanBehavSocial Sys (Gen Ed)**Equivalent(s):** CRIM 500G**Grade Mode:** Letter Grading**CRIM 425 - Juvenile Justice****Credits:** 4

This course will take an in-depth view of how the components of the criminal justice system address juvenile delinquency. How and why a juvenile is entered into the criminal justice system will be examined and alternatives to entry will be explored. These alternatives include diversionary programs and second-chance protocols. Social and economic disparities will be discussed regarding how those factors figure into the propensity of crimes being committed by juveniles. Additionally, youthful offender procedures that result in juveniles being charged, tried, and, in some cases, incarcerated in the adult system will be explored. Lastly, the course will explore the basic competencies of professionals who interact with juveniles in the criminal justice system and in the agencies that contribute to the rehabilitation and reintegration of juveniles after a finding of delinquency.

**Attributes:** HumanBehavSocial Sys (Gen Ed)**Equivalent(s):** CRIM 525G**Grade Mode:** Letter Grading**CRIM 544 - Special Topics: Lower Level****Credits:** 1-4

A study of current and variable topics in Criminology. Course content changes from term to term.

**Repeat Rule:** May be repeated up to unlimited times.**Equivalent(s):** CRIM 544G**Grade Mode:** Letter Grading**CRIM 555 - The Criminal Justice System****Credits:** 4

This course presents an overview of the criminal and juvenile justice systems and the variety of agencies charged with the detection, prosecution, and subsequent application of penalties. The course begins with an examination of the extent and nature of crime in the U.S. It then reviews the subsystems associated with the criminal and juvenile justice fields, including the police, criminal and juvenile courts, and corrections and treatment processes. The review of each subsystem includes a discussion of its historical development as well as issues currently confronting the profession. Students also explore and evaluate differing philosophies underlying corrections. The course concludes with an examination of the future of the criminal and juvenile justice systems from political and sociological perspectives.

**Attributes:** HumanBehavSocial Sys (Gen Ed)**Equivalent(s):** CRIM 555G**Grade Mode:** Letter Grading**CRIM 600 - Crime Prevention and Control****Credits:** 4

This course focuses on situational crime prevention by both law enforcement personnel and the general public. Theoretical and practical aspects of techniques of situational prevention are examined. Students formulate their own theories on crime prevention and control, and evaluate methods for the reduction of crime and corresponding financial and social costs.

**Attributes:** HumanBehavSocial Sys (Gen Ed)**Prerequisite(s):** CRIM 410 with a minimum grade of D- or CRIM 500G with a minimum grade of D-.**Equivalent(s):** CRIM 600G**Grade Mode:** Letter Grading**CRIM 644 - Special Topics: Upper Level****Credits:** 1-4

A study of current and variable topics in Criminology. Course content changes from term to term. It is expected that the learner will have prior coursework or experience in the subject area.

**Repeat Rule:** May be repeated up to unlimited times.**Equivalent(s):** CRIM 644G**Grade Mode:** Letter Grading**CRIM 645 - Crime Victim Rights and Remedies****Credits:** 4

The course examines the various relationships between the crime victim and the police, courts, advocates, and other agencies such as the media. Specific categories of crime victims are studied, including drunk driving victims, sexual assault victims, domestic violence and stalking victims, hate crime victims, and child and elderly victims.

**Attributes:** HumanBehavSocial Sys (Gen Ed)**Prerequisite(s):** CRIM 410 with a minimum grade of D- or CRIM 500G with a minimum grade of D- or PSY 410 with a minimum grade of D- or PSY 501G with a minimum grade of D- or SOC 501G with a minimum grade of D- or SOCI 410 with a minimum grade of D-.**Equivalent(s):** CRIM 603G**Grade Mode:** Letter Grading

**CRIM 680 - Corrections, Probation and Parole****Credits:** 4

This course presents an extensive examination of the organization and operations of correctional, probation and parole agencies as particular segments of the United States criminal justice system. Learners study corrections, probation and parole from a variety of standpoints, including historical and philosophical foundations, the theoretical concerns that the options present, as well as the practical aspects of those services. Other topics include a review of community-based corrections, options for treatment and intermediate sanctions, issues surrounding court orders and pre-sentence reports, and an examination of correctional and probation and parole officers' professional roles, and the legal decisions affecting practice in this field.

**Attributes:** HumanBehavSocial Sys (Gen Ed)

**Prerequisite(s):** (CRIM 410 with a minimum grade of D- or CRIM 500G with a minimum grade of D-) and (CRIM 555 with a minimum grade of D- or CRIM 555G with a minimum grade of D-).

**Equivalent(s):** CRIM 606G**Grade Mode:** Letter Grading**CRIM 707 - Constitutional Law****Credits:** 4

This course examines the United States Constitution and the New Hampshire Constitution using a substantive approach. Learners participate in a critical analysis of how both the United States Supreme Court and the New Hampshire Supreme Court deal with constitutional issues of major societal importance. The course also focuses on the historical development of constitutional law by studying the many diverse and often controversial matters with which the U.S. and NH Supreme Courts deal. An emphasis is placed on reading and analyzing leading constitutional case law and gaining in-depth knowledge of the relationship between the NH and U.S. Constitutions.

**Attributes:** HumanBehavSocial Sys (Gen Ed)

**Prerequisite(s):** (CRIT 501 with a minimum grade of D- or CRIT 501G with a minimum grade of D-) and (POL 554 with a minimum grade of D- or POL 554G with a minimum grade of D-).

**Equivalent(s):** CRIM 607G**Grade Mode:** Letter Grading**CRIM 725 - Ethical Decision Making in the Criminal Justice System****Credits:** 4

This course introduces students to the discipline of ethical decision making by criminal justice professionals in a system where great authority is given, and even greater responsibility is expected. The concept of discretion will be an ever-present factor in discussions of critical decisions made by law enforcement, the courts, and corrections. In this course, students will be exposed to ethical scenarios, and they will be asked to discuss what the proper course of action was, or should have been. In addition to real-life case studies, students will be asked to work through challenging hypotheticals that test their understanding of ethical dilemmas in the criminal justice field. In sum, the student of this course will have the opportunity to develop a much greater awareness of the ethical tests faced by criminal justice professionals on a daily basis and the expectations of society in that regard.

**Attributes:** Writing Intensive Course

**Prerequisite(s):** CRIM 555 with a minimum grade of D- or CRIM 555G with a minimum grade of D-.

**Equivalent(s):** CRIM 610G**Grade Mode:** Letter Grading**CRIM 795 - Integrative Capstone: Internship in Criminal Justice****Credits:** 4

This capstone course is a field-based internship designed to develop and hone the practical application skills of a Criminal Justice major. The course requires students to integrate the knowledge and skills gained from other courses in the program and to demonstrate the ability to apply their knowledge to new subject matter and practical situations. Students apply for an internship at a self-selected site and negotiate the terms of the internship experience with a site supervisor under the auspices of their faculty mentor. The internship requires documented evidence of eighty hours of supervised experience and practice in a field setting where criminal-justice-related knowledge and skills are applied. NOTE: Registration for this course, an internship, is by permission of Academic Affairs. Early registration deadlines may apply. Prior to capstone enrollment, students are expected to complete the majority of their required major courses. Students should consult with their advisor regarding specific major courses that may be completed with their capstone. NOTE: Students who were admitted to the college before Fall 2019 and have remained active in their original catalog year are not required to take IDIS 601.

**Attributes:** Writing Intensive Course

**Prerequisite(s):** (CRIT 602 with a minimum grade of D- or CRIT 602G with a minimum grade of D- or CRIT 502G with a minimum grade of D-) and (IDIS 601 with a minimum grade of D- or IDIS 601G with a minimum grade of D-).

**Equivalent(s):** CRIM 651G**Grade Mode:** Letter Grading**CRIM 797 - Integrative Capstone: Project in Criminal Justice****Credits:** 4

This capstone course in the Criminal Justice degree program is designed to offer learners the opportunity to reflect upon and synthesize prior learning and to apply it at a higher level of understanding. Knowledge and skills from other courses in the program and from experience are integrated in focused individual projects. Such projects might include independent research or a work-related or other applied project. Analysis of the individual project in light of theory and research in the field is a key component of this course. Prior to capstone enrollment, students are expected to complete the majority of their required major courses. Students should consult with their advisor regarding specific major courses that may be completed with their capstone. NOTE: Students who were admitted to the college before Fall 2019 and have remained active in their original catalog year are not required to take IDIS 601.

**Attributes:** Writing Intensive Course

**Prerequisite(s):** (CRIT 602 with a minimum grade of D- or CRIT 602G with a minimum grade of D- or CRIT 502G with a minimum grade of D-) and (IDIS 601 with a minimum grade of D- or IDIS 601G with a minimum grade of D-).

**Equivalent(s):** CRIM 650G**Grade Mode:** Letter Grading

## Critical Thinking (CRIT) CPSO

# Course numbers with the # symbol included (e.g. #400) have not been taught in the last 3 years.

**CRIT 501 - Introduction to Critical Inquiry****Credits:** 4

Introduction to Critical Inquiry provides the foundation for an informed and meaningful college experience through the cultivation of intellectual curiosity. Through the study of media and popular culture and the completion of short writing assignments, students learn how to develop and scale a personally-motivated research question, refine their topic, determine effective search strategies for finding credible and appropriate information, and learning to recognize bias and logical fallacies.

Important aspects of the research process are learning how to analyze different types of argument and to evaluate information sources from a variety of venues. Critical Inquiry fosters the self-awareness and intellectual perspective that are the hallmarks of well-educated persons and lifelong, engaged students in the twenty-first century.

**Attributes:** Critical Inquiry (Gen Ed); Inquiry (Discovery); Writing Intensive Course

**Prerequisite(s):** ENG 420 with a minimum grade of D- or ENG 500G with a minimum grade of D- or ENGL 401 with a minimum grade of D-.

**Equivalent(s):** CRIT 501G

**Grade Mode:** Letter Grading

**CRIT 602 - Advanced Critical Analysis and Strategic Thinking****Credits:** 4

What is the link between an academic degree and one's career or professional development? In this course, students explore trends in their field of study and connect them to their academic and professional context. Students synthesize and present their research findings through a variety of formal and informal written communication formats. This course reinforces critical analysis and strategic thinking skills for students developing their course of study, seeking professional advancement, or preparing for future graduate study. Students with a regionally-accredited associate degree do not have to take either ENG 420 or CRIT 501 as prerequisites for CRIT 602.

**Attributes:** Critical Inquiry (Gen Ed); Writing Intensive Course

**Prerequisite(s):** (ENG 420 with a minimum grade of D- or ENG 500G with a minimum grade of D-) and (CRIT 501 with a minimum grade of D- or CRIT 501G with a minimum grade of D-) or (Has Accred Associate Deg with a score of WAIV).

**Equivalent(s):** CRIT 502G, CRIT 602G

**Grade Mode:** Letter Grading

**CRIT 603 - Critical Inquiry in Prior Learning Assessment****Credits:** 4

This course is designed for adults who have identified prior experiential learning equivalent to outstanding degree requirements through a systematic process of goal-setting and self-assessment in the context of degree-planning. Students use the conceptual framework of critical inquiry to demonstrate this learning in an eportfolio. For each course-equivalent credit request, the portfolio will identify the context for the student's learning in the subject matter, trace the progression of the learning over time, and explain how the learning is equivalent to a degree requirement. The student will demonstrate mastery of each learning outcome for the credit request and integrate the learning outcomes in a relevant personal case study in decision-making. Two credit requests that meet the criteria to be submitted to Academic Affairs for evaluation are required to pass CRIT 603. NOTE: Students within 16 credits of their projected degree completion date are not eligible to take CRIT 603.

**Attributes:** Writing Intensive Course

**Prerequisite(s):** CRIT 602 with a minimum grade of D- or CRIT 502G with a minimum grade of D- or CRIT 602G with a minimum grade of D-.

**Equivalent(s):** CRIT 503G, CRIT 603G

**Grade Mode:** Letter Grading

**Culinary Arts & Nutrition (CAN)**

# Course numbers with the # symbol included (e.g. #400) have not been taught in the last 3 years.

No courses are currently active in the course inventory for this subject prefix.

**Cybersecurity Policy & Risk Management (CPRM)**

# Course numbers with the # symbol included (e.g. #400) have not been taught in the last 3 years.

**CPRM 710 - Foundations of Cybersecurity Policy****Credits:** 4

Examine the societal and organizational impacts of cybersecurity policy in our interconnected world that is increasingly dependent on advanced technologies and systems for communications and control. Explore the components of information systems and control systems and review the history and development of cybersecurity. Gain an appreciation of policy as one tool for managing risk and start to consider the challenges of cybersecurity policy-making.

**Grade Mode:** Letter Grading

**CPRM 720 - Policy Development and Communications****Credits:** 4

Discover the fundamental concepts and practices for developing and drafting organizational policy, including related documents to support implementation. Explore how to communicate policies to internal and external audiences (in both written and oral communications). Learn how to incorporate organizational priorities and mandates into managerial policies. Case studies are primarily based in security studies, but other professional fields are welcomed.

**Grade Mode:** Letter Grading

**CPRM 730 - Security Measures I****Credits:** 4

This course introduces common technological and organizational measures for cybersecurity, with a focus on protection concepts. Students assess the organizational impacts of security measures, and explore how best practices, standards, and organizational policy can help manage such measures. Topics include identity management, authentication, access control, data and system security and availability, encryption, integrity mechanisms, system maintenance, and continuity of operations. Note that we do not focus on how to technically implement these security measures.

**Grade Mode:** Letter Grading

**CPRM 740 - Cybersecurity Standards, Regulations, and Laws****Credits:** 4

We survey laws, regulations, and standards for cybersecurity in the United States, including "soft law" and self-regulation. Topics include the pros and cons of regulatory solutions and market solutions; the different approach to data protection regulation in the European Union; and cybersecurity concerns and regulatory authorities in various U.S. industries and sectors. Students become familiar with key standards bodies involved in cybersecurity, and explore organizational processes for remaining current with industry best practices.

**Grade Mode:** Letter Grading

**CPRM 750 - Security Measures II****Credits:** 4

This course continues surveying common technologies and organizational measures for cybersecurity, with a focus on detection and organizational relationships. Topics include auditing and log records; monitoring and testing for threat detection; vulnerability scans; and the security of external services (e.g., cloud providers) and supply chains. We do not focus on how to technically implement these measures. Students assess organizational impacts and explore how best practices and standards can help manage such measures.

**Grade Mode:** Letter Grading**CPRM #790 - Organizations, Change Management, and Leadership****Credits:** 4

This course examines both private and public institutions as systems whose effectiveness depends on how an organization adapts to opportunities, threats, and demands (external and internal). Students explore the design and leadership of ethical and socially responsible organizations. In course examples and exercises, students will apply this knowledge to their respective research interests (e.g., cybersecurity, analytics, criminal justice, public health, etc.).

**Grade Mode:** Letter Grading

## Data Analytics (DAT)

# Course numbers with the # symbol included (e.g. #400) have not been taught in the last 3 years.

**DAT 510 - Introduction to Data Analytics****Credits:** 4

Data analytics is defined as a scientific process that produces actionable insights. Students will be introduced to the concepts of data analysis, what the role of a data analyst will do, and the tools that are used to perform daily functions. This course will cover data analytics and data governance where students will learn about the fundamentals of data gathering, data mining, and how the decision-making process can be affected. This course also addresses the skills that are required to effectively communicate data to co-workers, leadership, and stakeholders. Excel proficiency is expected prior to enrollment in this course. Students should consider completing CMPL 402 Excel if they have not completed an Excel course in transfer.

**Equivalent(s):** DATA 510G**Grade Mode:** Letter Grading**DAT 535 - Data Mining, Cleaning, and Visualization****Credits:** 4

This course will cover data mining, cleaning, and visualization preparation, including what data mining is and how it pertains to data analytics. Data cleaning and preparation for data analysis will also be covered. Students will have the opportunity to learn about data visualizations, which includes data modeling, mapping data attributes to graphical attributes, and using data visualization tools.

**Prerequisite(s):** DAT 510 with a minimum grade of D- or DATA 510G with a minimum grade of D-.

**Equivalent(s):** DATA 520G**Grade Mode:** Letter Grading**DAT 610 - Data Analytics and Technologies****Credits:** 4

Students will have the opportunity to explore contemporary systems and technologies impacting the field of data analytics, including the cloud, AI, and machine learning. This course will also explore areas of technology that provide opportunities for future professional specialization, such as emerging Big Data technologies that support the work of data analysts, and the role of Information Technology (IT).

**Prerequisite(s):** DAT 535 with a minimum grade of D- or DATA 520G with a minimum grade of D-.

**Equivalent(s):** DATA 610G**Grade Mode:** Letter Grading**DAT 620 - Data Analytics in Business Intelligence****Credits:** 4

This course will examine the role of data analysis through the lens of multiple business disciplines such as business, health care, and marketing. Students will have the opportunity to explore key areas in the analytical process, including how data are created, stored, and accessed. The course covers how businesses and organizations work with data to create environments in which analytics can drive effective and efficient decision making.

**Prerequisite(s):** DAT 610 with a minimum grade of D- or DATA 610G with a minimum grade of D-.

**Equivalent(s):** DATA 620G**Grade Mode:** Letter Grading**DAT 670 - Advanced Data Analytics****Credits:** 4

Students will have the opportunity to explore more advanced data analytics methods such as collaborating on hypothesis testing and performing root cause analysis and practice presenting visualizations of data analysis that highlight the insights gained from analysis. The handling of imperfect data will also be covered.

**Prerequisite(s):** (DAT 620 with a minimum grade of D- or DATA 620G with a minimum grade of D-).

**Equivalent(s):** DATA 630G**Grade Mode:** Letter Grading

## Decision Sciences (DS)

# Course numbers with the # symbol included (e.g. #400) have not been taught in the last 3 years.

**DS 444 - Meaning of Entrepreneurship****Credits:** 4

This course explores the idea and ideals of entrepreneurship, the creating of value through individual initiative, creativity and innovation. The idea of entrepreneurship is of significant relevance in the highly dynamic and competitive 21st century global economy. It is an idea that is important for students to understand and to critically consider and apply. Encourages the development of multiple views of entrepreneurship, and uses a broad, not just business, approach to the study as it engages students in the subject matter. Open to all majors.

**Attributes:** Environment,TechSociety(Disc); Inquiry (Discovery); Writing Intensive Course

**Grade Mode:** Letter Grading

**DS 520 - Topics in Entrepreneurship/Decision Sciences****Credits:** 4

Special topics in entrepreneurship, information systems and business analytics. Vary by semester.

**Repeat Rule:** May be repeated for a maximum of 8 credits.**Grade Mode:** Letter Grading**DS 620 - Topics in Decision Sciences****Credits:** 1-4

Special topics, vary by semester.

**Repeat Rule:** May be repeated for a maximum of 12 credits.**Grade Mode:** Letter Grading**DS 650 - The Mel Rines Student Angel Investment Fund****Credits:** 2

The Mel Rines Student Angel Investment Fund is a cross-disciplinary, undergraduate, student-managed private equity fund. The Fund allows students to learn angel and venture capital investment strategies through the first-hand experience of investing in start-up companies. Students evaluate entrepreneur pitches, conduct due diligence on potential investments, work with angel partners, and present to an investment committee their recommendations to invest capital. Students interested in joining the Fund must submit an application and undergo an interview process. Students in good standing may retake the course.

**Repeat Rule:** May be repeated for a maximum of 12 credits.**Grade Mode:** Letter Grading**DS 662 - Programming for Business****Credits:** 4

Introduces students to programming concepts. Covers fundamentals including functions, variable types, conditionals, and data structures. Students apply these concepts to a variety of business analytics problems including data collection, wrangling, reshaping, summarizing, and visualization.

**Prerequisite(s):** ADMN 410 with a minimum grade of C-.**Equivalent(s):** DS 562**Grade Mode:** Letter Grading**DS 671 - Data Visualization and Prescriptive Analytics****Credits:** 4

The course focuses on Descriptive and Prescriptive Analytics. Students gain modeling and data analysis and visualization skills necessary to address a wide variety of business problems. In Descriptive Analytics, students learn principles of data visualization, data cleanup and wrangling, advanced data analysis and visualization tools, and dashboard design. In Prescriptive Analytics, students learn advanced spreadsheet modeling/programming, formulating and solving a variety of optimization problems, and performing sensitivity analysis.

**Prerequisite(s):** ADMN 410 with a minimum grade of C- and ADMN 510 with a minimum grade of C-.**Equivalent(s):** DS 766**Grade Mode:** Letter Grading**DS 673 - Database Management****Credits:** 4

Provides students with the skills necessary to understand the database environment of the firm. Topics include data models, normalization, SQL, data warehouses, and nosQL databases. Students learn to design and implement moderately complex relational databases in multi-user, client/server environments.

**Prerequisite(s):** ADMN 410 with a minimum grade of C-.**Equivalent(s):** DS 773**Grade Mode:** Letter Grading**DS 720 - Topics in Decision Sciences II****Credits:** 4

Introduces students to commonly used predictive analytics techniques and necessary programming with focus on regression analysis and model building. The course coverage is supported with real data applications and illustrations. The topics include linear and non-linear regression model building/selection, residual analysis, search algorithms, generalized linear models/classification, and clustering algorithms.

**Repeat Rule:** May be repeated for a maximum of 8 credits.**Grade Mode:** Letter Grading**DS 741 - Private Equity/Venture Capital****Credits:** 4

The focus is private equity in the context of financing innovation especially from the investor's perspective. This course covers screening entrepreneurial ideas and business plans through the spectrum of entrepreneurial financing stages from seed, start-up, later-stage financing, to acquisition/buyouts and IPOs. Students will research, discuss and present state-of-the-art analyses and practices and have exclusive access to PitchBook database that provides users intelligence on the private markets, angels, venture capital, mergers & acquisitions, and private companies.

**Prerequisite(s):** ADMN 570 with a minimum grade of C-.**Grade Mode:** Letter Grading**DS 742 - Internship in Entrepreneurial and Management Practice****Credits:** 4

Involves working for leading companies and dynamic entrepreneurs, as well as classroom instruction. The priority experiential, real-world, and real-time learning in the high-growth environment of entrepreneurial ventures. Focus on several topic areas, including venture capital.

**Grade Mode:** Letter Grading**DS 768 - Forecasting Analytics****Credits:** 4

The course focuses on Predictive Analytics. Businesses and organizations need to be able to forecast effectively in order to make decisions. Students learn the background necessary to develop forecasts for real-world business situations. An applied, hands-on approach is used in the course. Students learn and use SAS to analyze data and fit models. Topics include regression analysis in forecasting, model building, residual checking, analysis of seasonal and cyclical trends, and times series models.

**Prerequisite(s):** ADMN 510 with a minimum grade of C-.**Grade Mode:** Letter Grading**DS 772 - Predictive Analytics and Modeling****Credits:** 4

The course introduces students to commonly used predictive analytics methods and necessary programming with a focus on regression analysis, classification, and model building. The course coverage is supported using real data applications and illustrations. The topics include linear and non-linear regression model building/selection, residual analysis, search algorithms, generalized linear models/classification, and applied machine learning methods for business use.

**Prerequisite(s):** ADMN 510 with a minimum grade of D-.**Grade Mode:** Letter Grading

**DS 774 - E-Business****Credits:** 4

Covers the concepts, tools, and strategies for understanding the challenges and exploiting the opportunities associated with e-commerce/e-business. Students gain a comprehensive understanding of online payment systems, cyber security, e-commerce marketing and advertising, web development, and web and social media analytics. DS 562 or CS 405 is strongly recommended prior to taking this course.

**Prerequisite(s):** ADMN 410 with a minimum grade of C-.**Grade Mode:** Letter Grading**DS 775 - Corporate Project Experience****Credits:** 4

Provides real-life experience in organizations. Work in groups on information systems and/or business analytics projects identified by sponsoring organizations. Integrate concepts and skills learned in prior business, analytics, and information systems courses. Learn project management concepts, work with project management tools, and use presentation techniques. Two ISBA Electives required prior to taking this course.

**Attributes:** Writing Intensive Course**Prerequisite(s):** DS 673 with a minimum grade of C-.**Grade Mode:** Letter Grading**DS 799H - Honors Thesis in Decision Sciences****Credits:** 4

Supervised research leading to the completion of an honors thesis or project in decision sciences; required for graduation from the honors program in business administration.

**Attributes:** Honors course**Repeat Rule:** May be repeated for a maximum of 8 credits.**Grade Mode:** Letter Grading

## Digital Language Arts (DLA)

# Course numbers with the # symbol included (e.g. #400) have not been taught in the last 3 years.

**DLA #501 - Digital Creative Writing****Credits:** 4

This writing-intensive workshop teaches the basic principles of transmedia and multimedia creative writing. the course's inductive, poetics-oriented approach to writing in virtual spaces allows for careful consideration of genre, hardware, software, accessibility, different compositional and dissemination models, emerging technology, post-internet cultural theory, and more. In addition to creative work, students will produce "white papers" outlining digital projects larger in size and scope than the workshop model can accommodate. No prior creative writing experience is required. May not be taken for credit if ENGL 595: Special Topics (Digital Creative Writing) has already been taken for credit.

**Attributes:** Writing Intensive Course**Grade Mode:** Letter Grading

## Earth Sciences (ESCI)

# Course numbers with the # symbol included (e.g. #400) have not been taught in the last 3 years.

**ESCI 400 - Freshman Field Seminar****Credits:** 1

A field introduction for new or prospective majors to New Hampshire's mountains, rivers, estuaries, and beaches. Field excursions (approximately five) are scheduled on Friday afternoons.

**Grade Mode:** Credit/Fail Grading**Special Fee:** Yes**ESCI 401 - Dynamic Earth****Credits:** 4

In this course we study the minerals, rocks and fluids which make up the Earth; the landforms on the surface of the Earth such as mountains, flood plains and stratovolcanoes; and processes such as volcanism, earthquakes, erosion and glaciation that create and alter them. The rock cycle and plate tectonics are used to integrate activity at the surface of the Earth with processes in the Earth's interior. Campus field exercises. Lab.

**Attributes:** Discovery Lab Course; Physical Science(Discovery)**Mutual Exclusion:** No credit for students who have taken ESCI 409.**Grade Mode:** Letter Grading**Special Fee:** Yes**ESCI 402 - Earth History****Credits:** 4

Course provides knowledge and skills necessary to interpret, understand, and appreciate the Earth's 4.6 billion-year history. The first third of the course introduces basic principles, including geological materials, plate tectonics, geological time, fossil preservation, and biological evolution. The remainder of the course tells the story of Earth history through case studies that illustrate scientific methods used to reconstruct critical events in our planet's evolution through time. Topics include the origin of the Earth, the Cambrian explosion of life, building of the Appalachians, assembly of Pangaea, the rise and fall of dinosaurs, the formation of the Rocky Mountains, mammalian evolution, human origins, and Pleistocene glaciation. Students gain experience in making geological observations through laboratory exercises and during one afternoon field trip. Lab.

**Attributes:** Discovery Lab Course; Physical Science(Discovery)**Grade Mode:** Letter Grading**Special Fee:** Yes**ESCI 405 - Global Environmental Change****Credits:** 4

Human activity rivals nature as an agent of change in the global environment. Explores evidence of environmental degradation in Earth's crust, hydrosphere, and atmosphere; considers prospects for future sustainable human health, diversity, and economic development. Problem solving through critical analysis of environmental variables.

**Attributes:** Physical Science(Discovery)**Grade Mode:** Letter Grading**Special Fee:** Yes**ESCI 409 - Geology and the Environment****Credits:** 4

Environmental impact of geologic processes; natural hazards, landslides, earthquakes, volcanoes, flooding, erosion, and sedimentation; land exploitation and site investigations; environmental considerations of water-supply problems; the recovery of energy and mineral resources. Lab.

**Attributes:** Discovery Lab Course; Physical Science(Discovery)**Mutual Exclusion:** No credit for students who have taken ESCI 401.**Grade Mode:** Letter Grading**Special Fee:** Yes

**ESCI 410 - Earth Hazards****Credits: 4**

Introductory-level physical science course concerning Earth processes that impact humanity, with natural disasters as the focus. Topics include the causes and effects of earthquakes, tsunamis, volcanic eruptions, floods, and landslides. The course covers basic concepts of physical geology using hands-on-activities, small-group discussions, and in-class demonstrations and is intended for students with little or no previous experience in Earth sciences.

**Attributes:** Discovery Lab Course; Physical Science(Discovery)

**Grade Mode:** Letter Grading

**Special Fee:** Yes

**ESCI 420 - Our Solar System****Credits: 4**

Course focuses on the nature and formation of our solar system and the planets associated bodies it contains, with emphasis on the physical and chemical processes significant in the system's origin and evolutionary history. Our approach provides the basis for understanding key differences between the Earth-like terrestrial planets and those farther out in the solar system (the gas giants). We also explore recent discoveries on Mars and moons of the gas giant planets and their implications for the search for life elsewhere in our solar system.

**Attributes:** Discovery Lab Course; Physical Science(Discovery)

**Grade Mode:** Letter Grading

**Special Fee:** Yes

**ESCI 444A - Philosophy of Earth Science****Credits: 4**

Course provides an introduction to the discipline of Philosophy of Science, but from an Earth Science perspective. Considers various philosophical perspectives on the nature of science and scientific progress, drawing from works by thinkers such as Aristotle, Popper, Kuhn and Lakatos. Particular attention is given to the following questions: What is scientific knowledge? Is the acquisition of scientific knowledge a rational process? And, what makes some scientific discoveries "revolutionary"? These questions are considered using examples from the history of scientific progress in the Earth Sciences, focusing on groundbreaking discoveries such as the age of the earth, the evolution of organisms as observed in the fossil record, sea-floor spreading, and modern-day global warming.

**Attributes:** Environment,TechSociety(Disc); Inquiry (Discovery)

**Grade Mode:** Letter Grading

**ESCI 451 - Earth in Film****Credits: 4**

Introductory-level focusing on interactions between Earth system and its inhabitants, with special emphasis on understanding societal implications of Earth system processes. Topics include Earth's interior processes, volcanism, earthquakes, climate change, storms, tornadoes, and biological change. Students are expected to learn about Earth system processes and critique cinematic portrayal of such processes. Taken together this approach affords building a foundation in the natural sciences and provides insights into societal portrayal of scientific ideas.

**Attributes:** Physical Science(Discovery)

**Grade Mode:** Letter Grading

**Special Fee:** Yes

**ESCI 501 - Introduction to Oceanography****Credits: 4**

Introduces students to the four oceanographic disciplines: the geology of the ocean basins, including the creation of oceans and continents. The physics of the seas, including the origin of the ocean currents and their effect on the Earth's climate. The chemistry of the ocean waters, including how the distribution of elements reflects circulation and biology. The life in the ocean, including animals, plants and microbes, and humanity's influence on them. Lab.

**Attributes:** Discovery Lab Course; Physical Science(Discovery); Inquiry (Discovery)

**Grade Mode:** Letter Grading

**Special Fee:** Yes

**ESCI 502 - Beaches and Coasts****Credits: 4**

Introductory-level physical science course on ocean, air, and landform dynamics affecting beaches and coasts, with considerations of natural processes associated with waves and currents, wind and rain, sediments and rocks, and ecology. Emphasis is placed on impacts on ecosystem and human health, the economics of coastal industry, and consequences of pollution and engineering practices. Topics are approached via real world examples, small-group discussions, and field trips to local sites. Recitation.

**Attributes:** Physical Science(Discovery)

**Grade Mode:** Letter Grading

**Special Fee:** Yes

**ESCI 512 - Principles of Mineralogy****Credits: 4**

Minerals record variations in chemistry, pressure, temperature, and time in the Earth. This course emphasizes minerals and mineral assemblages in rocks, sediments and soils; their identification, symmetry, chemistry, equilibria, and physical properties. Introduction to x-ray diffraction and optical techniques. Special fee for field trips. Lab.

**Prerequisite(s):** CHEM 403 with a minimum grade of D- or CHEM 405 with a minimum grade of D-.

**Grade Mode:** Letter Grading

**Special Fee:** Yes

**ESCI 514 - Introduction to Climate****Credits: 3**

The climate as a system controlled by the fluid, chemical, geological, and biological dynamics of the earth. Investigation of natural and man-made climate change over the period of 100 to 100 million years, including the greenhouse effects, tectonic climate forcing, astronomic (Milankovitch) cycles, deep ocean circulation, and biological feedback. How past climate is measured.

**Prerequisite(s):** ESCI 401 with a minimum grade of D- or ESCI 409 with a minimum grade of D- or ESCI 402 with a minimum grade of D- or ESCI 501 with a minimum grade of D-.

**Grade Mode:** Letter Grading

**ESCI 530 - Geological Field Methods****Credits:** 4

An introduction to basic geologic field mapping of bedrock and surficial materials using pace and compass, surveying and GPS techniques. Observational data plotted on topographic maps and/or aerial photographs, accompanied with stratigraphic measurements and sampling sites where appropriate, provide the basis for interpretative maps, cross sections and written reports and a field context for more advanced Earth sciences course work and independent research. One weekend field trip to western or northern New England.

**Attributes:** Writing Intensive Course**Prerequisite(s):** (ESCI 401 with a minimum grade of D- or ESCI 409 with a minimum grade of D-) and ESCI 402 with a minimum grade of D-.**Equivalent(s):** ESCI 534**Grade Mode:** Letter Grading**Special Fee:** Yes**ESCI 534 - Techniques in Environmental Sciences****Credits:** 3

Elementary mapping and monitoring methods. Map interpretation, preparation of maps; survey techniques including pace and compass, leveling, and global positioning systems; environmental monitoring. Field lab. Cannot receive credit if taken after receiving credit for ESCI 530 or NR 542.

**Attributes:** Writing Intensive Course**Equivalent(s):** ESCI 530, NR 542**Grade Mode:** Letter Grading**Special Fee:** Yes**ESCI 561 - Landscape Evolution****Credits:** 4

Course focuses on the processes that shape the Earth's surface. Lectures discuss the development of landscapes in a wide variety of climatic and geologic settings, with an emphasis on understanding the process mechanics that create landforms and surficial deposits. Labs involve topographic map interpretation, geomorphic data analysis, and short field exercises. Course incorporates one weekend field trip that explores the landscapes of Cape Cod. Students also gain practical experience in geomorphic research by teaming up and completing a required lab- or field-based project. Lab.

**Prerequisite(s):** ESCI 401 with a minimum grade of D- or ESCI 409 with a minimum grade of D-.**Grade Mode:** Letter Grading**Special Fee:** Yes**ESCI 614 - Introduction to Petrology****Credits:** 0 or 4

Description, classification and formation of igneous, sedimentary, and metamorphic rocks in the field, hand specimen, and thin section. Lab and field trips.

**Prerequisite(s):** (ESCI 401 with a minimum grade of D- or ESCI 409 with a minimum grade of D- or ESCI 402 with a minimum grade of D- or ESCI 501 with a minimum grade of D-) and ESCI 512 with a minimum grade of D-.**Grade Mode:** Letter Grading**Special Fee:** Yes**ESCI 631 - Structural Geology****Credits:** 4

Structural units of the Earth's crust and mechanics of their formation. Lab and fieldwork.

**Prerequisite(s):** ESCI 530 with a minimum grade of D-.**Grade Mode:** Letter Grading**Special Fee:** Yes**ESCI 642 - Biogeosciences in the Earth System****Credits:** 3

This interdisciplinary course applies concepts from chemistry, physics, biology and geology to understand biogeochemical cycles in the Earth system. Course topics includes terrestrial, ocean and freshwater environments; water and energy cycles; carbon, nitrogen, phosphorous and sulfur cycles; biogeochemical cycles through Earth history and a synthesis of how humans have impacted the Earth system. Students will use quantitative methods to explore relationships between causes and effects, positive and negative feedbacks, and thresholds in the Earth systems.

**Prerequisite(s):** (MATH 426 with a minimum grade of D- or MATH 424B with a minimum grade of D-) and (CHEM 404 with a minimum grade of D- or CHEM 405 with a minimum grade of D- or NR 561 with a minimum grade of D-).**Grade Mode:** Letter Grading**ESCI 654 - Fate and Transport in the Environment****Credits:** 4

An introduction to the basic processes controlling the migration and transformation of chemicals in surface water, groundwater, and the atmosphere, including advection, diffusion, dispersion, retardation, and chemical reaction. Extensive practice with quantitative problem solving in the environmental sciences, including constructing and using box models.

**Prerequisite(s):** (CHEM 404 with a minimum grade of D- or CHEM 405 with a minimum grade of D- or NR 561 with a minimum grade of D-) and (MATH 425 with a minimum grade of D- or MATH 424B with a minimum grade of D-).**Grade Mode:** Letter Grading**ESCI 695 - Topics****Credits:** 1-4

Geologic, hydrologic, and oceanographic problems and independent studies by means of conferences, assigned readings, and field or laboratory work fitted by ESCI faculty to individual student needs; or new or specialized courses. Topics include geochemistry; geomorphology; geophysics; glaciology; groundwater; structural and regional geology; crystallography; mineralogy; petrology; thermodynamics; ore deposits; earth resource policy; paleontology; sedimentation; stratigraphy; water resources management; chemical, physical, and geological oceanography; Earth systems. May be repeated barring duplication of subject.

**Repeat Rule:** May be repeated up to unlimited times.**Grade Mode:** Letter Grading**ESCI 696 - Topics****Credits:** 1-4

Geologic, hydrologic, and oceanographic problems and independent studies by means of conferences, assigned readings, and field or laboratory work fitted by ESCI faculty to individual student needs; or new or specialized courses. Topics include geochemistry; geomorphology; geophysics; glaciology; groundwater; structural and regional geology; crystallography; mineralogy; petrology; thermodynamics; ore deposits; earth resource policy; paleontology; sedimentation; stratigraphy; water resources management; chemical, physical, and geological oceanography; Earth systems. May be repeated barring duplication of subject.

**Repeat Rule:** May be repeated up to unlimited times.**Grade Mode:** Letter Grading

**ESCI 701 - Quantitative Methods in Earth Sciences****Credits:** 4

Introduces quantitative tools necessary for upper level Earth Science courses. Includes basic statistical descriptions of spatially and temporally varying data, curve fitting, and time-series analysis with emphasis on atmospheric, oceanic and terrestrial data sets. Students learn to construct simple numerical models of Earth Systems. Instruction in data and analysis and modeling in Matlab.

**Prerequisite(s):** MATH 426 with a minimum grade of D- and (ESCI 401 with a minimum grade of D- or ESCI 402 with a minimum grade of D- or ESCI 501 with a minimum grade of D-).

**Grade Mode:** Letter Grading

**ESCI 705 - Principles of Hydrology****Credits:** 4

Basic physical principles important in the land phase of the hydrologic cycle, including precipitation, snowmelt, infiltration and soil physics, evapotranspiration, and surface and subsurface flow to streams. Problems of measurement and aspects of statistical treatment of hydrologic data. Field trips. Lab.

**Attributes:** Writing Intensive Course

**Prerequisite(s):** ESCI 654 with a minimum grade of D- or ((MATH 426 with a minimum grade of D- or MATH 424B with a minimum grade of D-) and (PHYS 401 with a minimum grade of D- or PHYS 407 with a minimum grade of D-)).

**Grade Mode:** Letter Grading

**Special Fee:** Yes

**ESCI 710 - Groundwater Hydrology****Credits:** 4

Principles for fluid flow in porous media with emphasis on occurrence, location, and development of groundwater but with consideration of groundwater as a transporting medium. Major topics include well hydraulics, regional groundwater flow, exploration techniques, and groundwater modeling. Laboratory exercises involve use of fluid, electrical, and digital computer models to illustrate key concepts. Lab.

**Prerequisite(s):** ESCI 654 with a minimum grade of D- or CEE 650 with a minimum grade of D- or NR 504 with a minimum grade of D-.

**Grade Mode:** Letter Grading

**Special Fee:** Yes

**ESCI 720 - Ocean Measurements Lab****Credits:** 4

Measurements of fundamental ocean processes and parameters. Emphasizes understanding typical coastal and estuarine measurements their applications, and the use of acquired data in terms of the effects on structures and processes in the ocean.

**Equivalent(s):** OE 710

**Grade Mode:** Letter Grading

**ESCI 726 - Igneous and Metamorphic Petrology****Credits:** 4

This course focuses on the origin and evolution of igneous and metamorphic rocks from field, petrographic mineral chemistry, experimental, and theoretical studies. Igneous systems include volcanic and plutonic suites, with emphasis on mineralogic records of magma chamber systematics. Metamorphic systems include pelitic, mafic, and calc sillcate rocks, with special emphasis on closed- and open-system reactions, mutl-systems, reaction space, and pressure-temperature-time paths. Field trips. Lab.

**Attributes:** Writing Intensive Course

**Prerequisite(s):** ESCI 614 with a minimum grade of D-.

**Grade Mode:** Letter Grading

**Special Fee:** Yes

**ESCI 734 - Geophysics****Credits:** 0 or 4

The structure of the solid Earth, including the continental and oceanic lithosphere and the deep interior as revealed by investigations of seismic waves, the Earth's gravitational and magnetic fields, heat flow, and earthquakes. Lab.

**Prerequisite(s):** ESCI 401 with a minimum grade of D- and MATH 426 with a minimum grade of D- and PHYS 408 with a minimum grade of D-.

**Grade Mode:** Letter Grading

**Special Fee:** Yes

**ESCI 741 - Geochemistry****Credits:** 4

Course focuses on the application of chemical principles to solve problems in the Earth sciences. Students learn the chemical tools of thermodynamics and kinetics, element partitioning, conservation of mass, and isotope geochemistry. Explore geochemical properties/ processes in the deep Earth and the Earth surface, atmosphere and marine systems, and cosmo-chemistry and investigate the interactions between these components of the Earth system. Lab.

**Attributes:** Writing Intensive Course

**Prerequisite(s):** MATH 426 with a minimum grade of D- and (CHEM 404 with a minimum grade of D- or CHEM 405 with a minimum grade of D-).

**Grade Mode:** Letter Grading

**ESCI 745 - Isotope Geochemistry****Credits:** 4

Course focuses on the application of radiogenic, radioactive and stable isotopes to improve students' knowledge about the processes and timescales relevant to the formation of the planet and solar system, the evolution of the Earth system and interactions in the hydrosphere and biosphere. Topics include geochronology, tracer applications, Earth surface applications, as well as applications in the hydrosphere and biosphere. Systems discussed include the classic radiogenic systems (K-Ar, Rb-Sr, Sm-Nd, Lu-Hf and U-Th-Pb), traditional (H, C, N, O) as well as nontraditional (e.g., Mg, Ca, Fe) stable isotope systems, and radioactive isotopes (e.g., radiocarbon). Course consists of lecture, where students are exposed to these applications, and a lab section to work through any questions on the homework assignments, discuss relevant papers from the literature, and carry out a project. Lab.

**Prerequisite(s):** MATH 426 with a minimum grade of D- and (CHEM 404 with a minimum grade of D- or CHEM 405 with a minimum grade of D-).

**Grade Mode:** Letter Grading

**Special Fee:** Yes

**ESCI 747 - Aqueous Geochemistry****Credits:** 4

The chemical processes that determine the composition of aquatic systems such as rivers, lakes, groundwater and the ocean. The goal is to quantitatively understand the behavior of inorganic species such as carbon dioxide, nutrients, trace metals and inorganic pollutants in natural waters. Topics include, acid-based equilibria, carbonate chemistry, reduction-oxidation reactions, organic complexation and mineral precipitation and dissolution. Lab. Prereq: one year college chemistry or geochemistry or permission.

**Prerequisite(s):** MATH 426 with a minimum grade of D- and (CHEM 404 with a minimum grade of D- or CHEM 405 with a minimum grade of D-).

**Grade Mode:** Letter Grading

**ESCI 752 - Chemical Oceanography****Credits:** 3

This course investigates the physical and biogeochemical processes that determine the composition of seawater. Topics include biological effects on chemistry, ocean nutrient cycles, air-sea gas exchange, radiogenic and stable isotopes as tracers of ocean processes, sediment and trace-metal chemistry.

**Prerequisite(s):** MATH 426 with a minimum grade of D- and (CHEM 404 with a minimum grade of D- or CHEM 405 with a minimum grade of D-).

**Grade Mode:** Letter Grading

**ESCI 754 - Sedimentology****Credits:** 4

This course focuses on modern sedimentary processes and ancient sedimentary records through the examination, identification, and interpretation of sediments and sedimentary rocks. Topics such as sediment transport mechanisms, depositional environments, and time in sedimentary records will provide a strong framework for any student studying Earth processes and sedimentary systems. Lab and field trips.

**Prerequisite(s):** (ESCI 401 with a minimum grade of D- or ESCI 402 with a minimum grade of D- or ESCI 409 with a minimum grade of D- or ESCI 501 with a minimum grade of D-) and ESCI 512 with a minimum grade of D-.

**Grade Mode:** Letter Grading

**Special Fee:** Yes

**ESCI 756 - Geotectonics****Credits:** 3

The geological record of plate tectonics past and present. The first part of the course focuses on modern tectonic settings with an emphasis on plate geometries, geodynamical processes, and sedimentary products. The second part of the course focuses on reconstructing ancient tectonic settings with an emphasis on methodology (paleomagnetism, basin analysis, provenance) and case studies (e.g. India-Asia collision). Field trip.

**Attributes:** Writing Intensive Course

**Prerequisite(s):** ESCI 614 with a minimum grade of D- or ESCI 631 with a minimum grade of D-.

**Grade Mode:** Letter Grading

**Special Fee:** Yes

**ESCI 758 - Introductory Physical Oceanography****Credits:** 3

Descriptive treatment of atmosphere-ocean interaction; general wind-driven and thermo-haline ocean circulation; waves and tides; continental shelf and near-shore processes; instrumentation and methods used in ocean research. Simplified conceptual models demonstrate the important principles.

**Prerequisite(s):** PHYS 407 with a minimum grade of D- and ESCI 501 with a minimum grade of D-.

**Grade Mode:** Letter Grading

**ESCI 759 - Geological Oceanography****Credits:** 4

Major geological features and processes of the ocean floor; geological and geophysical methods; composition of the earth, sedimentary processes, plate tectonics and paleoceanography.

**Attributes:** Writing Intensive Course

**Prerequisite(s):** ESCI 501 with a minimum grade of D-.

**Grade Mode:** Letter Grading

**ESCI 760 - Paleoceanography****Credits:** 3

This course introduces the basic principles of paleoceanography, such as the preservation of ocean history in sediment archives and the analysis/interpretation of paleoceanographic data. The course focuses on the capabilities and limitations of paleoceanographic techniques, and empowers students to critically assess the strengths and weaknesses of results presented in scientific journals. Topics include Milankovitch cycles, faunal assemblages, temperature and circulation proxies, linear and non-linear responses to climate forcings, abrupt climate events, atmospheric teleconnections and monsoons.

**Prerequisite(s):** ESCI 514 with a minimum grade of D- and (CHEM 404 with a minimum grade of D- or CHEM 405 with a minimum grade of D-).

**Grade Mode:** Letter Grading

**ESCI 762 - Glacial Geology****Credits:** 4

Course provides a survey of glacier dynamics and processes, with an emphasis on understanding the origin and significance of glacial deposits and landforms. The first half of the course examines the physics of glaciers, and the second half focuses on glacial geologic processes. Lectures discuss glaciers and ice sheets as key agents of large-scale geomorphic change, as well as their central role in the Earth's past and present climate system. Labs involve analysis of glaciological data, glacial-geologic map interpretation, and short field exercises. Course incorporates one mandatory weekend field trip that explores the glacial landscapes of New England. Lab.

**Attributes:** Writing Intensive Course

**Prerequisite(s):** ESCI 561 with a minimum grade of D-.

**Grade Mode:** Letter Grading

**Special Fee:** Yes

**ESCI 764 - Spectral Analysis of Geophysical Time Series Data****Credits:** 4

This course considers basic exploratory techniques and in-depth spectral analysis for estimation with geophysical time series data, including calculations of confidence intervals and significance testing. This course prepares students for interpreting time series data with science and engineering applications. Topics include sampling theory, filtering, statistics, probability, spectral analysis, and empirical orthogonal functions. Students gain experience in code-writing for the analysis of time series data.

**Prerequisite(s):** MATH 426 with a minimum grade of D-.

**Equivalent(s):** OE 764

**Grade Mode:** Letter Grading

**ESCI 765 - Paleoclimatology****Credits:** 3

Course reviews the study of past changes in the Earth's climate system. Main discussion topics include astronomical theories of ice ages, Quaternary dating methods, Antarctic and Greenland ice core records, greenhouse gases, marine-based climate proxies, glacial mega-floods, and linkages between ocean circulation and abrupt climate change. Emphasis on climate variability during the Quaternary period (the last approximately 2.6 million years), a time interval dominated by cycles of global glaciation. Lectures include discussion of recent and emerging scientific papers in order to keep pace with the latest findings in paleoclimatic research.

**Attributes:** Writing Intensive Course

**Grade Mode:** Letter Grading

**ESCI 766 - Volcanology****Credits:** 4

Provides a comprehensive overview of volcanic processes and their influences on planetary evolution and modern-day Earth systems. Lectures discuss the generation and properties of magma, tectonic setting of volcanism, eruption styles, volcanic landforms and products, monitoring of active volcanoes, volcanic hazards, and volcanism on other planets. Laboratory topics include modeling volcanic processes, hand-sample observation, topographic map interpretation, volcanographical data analysis, and two afternoon field trips. As volcanology is a rapidly developing field of active research, the course incorporates discussions of recent and emerging scientific papers from the literature and student-led updates of ongoing volcanic activity. Lab.

**Attributes:** Writing Intensive Course

**Prerequisite(s):** MATH 426 with a minimum grade of D- and (ESCI 401 with a minimum grade of D- or ESCI 409 with a minimum grade of D- or ESCI 402 with a minimum grade of D-).

**Grade Mode:** Letter Grading**Special Fee:** Yes**ESCI 771 - Geodesy and Positioning for Ocean Mapping****Credits:** 4

The science and technology of acquiring, managing, and displaying geographically-referenced information; the size and shape of the earth, datums and projections; determination of precise positioning of points on the earth and the sea, including classical terrestrial-based methods and satellite-based methods; shoreline mapping, nautical charting and electronic charts.

**Prerequisite(s):** MATH 426 with a minimum grade of D- and PHYS 408 with a minimum grade of D-.

**Equivalent(s):** OE 771**Grade Mode:** Letter Grading**ESCI 777 - GIS for Earth & Environmental Sciences****Credits:** 4

Geospatial technologies provide insight into spatial and temporal aspects of environmental and earth systems. Students will master basic skills of a geographical information system. Weekly laboratory exercises will build upon a foundation of conceptual knowledge and data processing skills. Focus on applied research questions and projects will be addressed.

The course will use the opensource program QGIS. Additional work will develop programming skills using the python language. Programming background is not a requirement but beneficial.

**Grade Mode:** Letter Grading**ESCI 778 - Remote Sensing Earth & Environmental Sciences****Credits:** 4

Remote sensing provides insight into spatial and temporal aspects of environmental and Earth systems. Students will examine digital image processing techniques, different sensor and platform technologies, and new trends and frontiers in remote sensing science. Weekly laboratory exercises build upon conceptual knowledge, data processing skills, and development of programming skills. Applied research questions and projects will use Google Earth Engine. Hyperspectral, lidar, and unmanned aerial systems will be presented.

**Grade Mode:** Letter Grading**ESCI 795 - Topics****Credits:** 1-4

Geologic, hydrologic, and oceanographic problems and independent studies by means of conferences, assigned readings, and field or laboratory work fitted by ESCI faculty to individual student needs; or new or specialized courses. Topics include geochemistry; geomorphology; geophysics; glaciology; groundwater; structural and regional geology; crystallography; mineralogy; petrology; thermodynamics; ore deposits; earth resource policy; paleontology; sedimentation; stratigraphy; water resources management; chemical, physical, and geological oceanography; earth systems. Also, senior synthesis and earth science teaching methods.

**Repeat Rule:** May be repeated for a maximum of 4 credits. May be repeated up to 3 times.

**Grade Mode:** Letter Grading**ESCI 796 - Topics****Credits:** 1-4

Geologic, hydrologic, and oceanographic problems and independent studies by means of conferences, assigned readings, and field or laboratory work fitted by ESCI faculty to individual student needs; or new or specialized courses. Topics include geochemistry; geomorphology; geophysics; glaciology; groundwater; structural and regional geology; crystallography; mineralogy; petrology; thermodynamics; ore deposits; earth resource policy; paleontology; sedimentation; stratigraphy; water resources management; chemical, physical, and geological oceanography; earth systems. Also, senior synthesis and earth science teaching methods. Special fee on some topics.

**Repeat Rule:** May be repeated for a maximum of 4 credits. May be repeated up to 3 times.

**Grade Mode:** Credit/Fail Grading**Special Fee:** Yes**ESCI 799 - Senior Thesis****Credits:** 1-4

Students work under the direction of a faculty sponsor to plan and carry out independent research resulting in an oral presentation and a written thesis. Research projects should include the development of a research question; collection analysis, and synthesis of data; and interpretation and presentation of results. A copy of the written thesis must be submitted to the Chair of the Department of Earth Sciences prior to graduation. A total of 4 credits is required and may be completed over multiple semesters.

**Attributes:** Writing Intensive Course

**Repeat Rule:** May be repeated for a maximum of 4 credits.

**Grade Mode:** Letter Grading

## Ecogastronomy (ECOG)

# Course numbers with the # symbol included (e.g. #400) have not been taught in the last 3 years.

**ECOG 401 - Introduction to Ecogastronomy****Credits:** 0 or 4

This interdisciplinary course introduces students to the principles and practices of EcoGastronomy. It provides students with a foundation for understanding the connections among food production, ecology, ethics, cuisine, nutrition and health within the framework of sustainability. The course includes guest lectures, class discussion, film reviews, activities, and food tastings.

**Attributes:** Environment, TechSociety(Disc)**Grade Mode:** Letter Grading

**ECOG 695 - Independent Analysis****Credits:** 1-4

Study and research project for students to advance knowledge in EcoGastronomy fields.

**Repeat Rule:** May be repeated for a maximum of 8 credits.

**Grade Mode:** Letter Grading

**ECOG 696 - Supervised Student Teaching Experience****Credits:** 4

Participants are expected to perform such functions as attending classes, leading discussion groups, assisting faculty, presenting information in undergraduate courses that they have successfully completed, holding office hours, grading papers and exams. Enrollment is limited to juniors and seniors who have had above average GPAs.

**Prerequisite(s):** ECOG 401 with a minimum grade of C-.

**Grade Mode:** Credit/Fail Grading

**ECOG 701 - EcoGastronomy Capstone****Credits:** 2-4

This is a one to two-semester course in which students will synthesize their EcoGastronomy experience with their undergraduate education, including their primary major, and will explore an integrated outlook on their professional future. Field trips, guest lecturers, experimental activities, and related readings and research will provide the foundation for the completion of a portfolio. A research paper is presented at the Undergraduate Research Conference in the spring.

**Attributes:** Writing Intensive Course

**Prerequisite(s):** ECOG 401 with a minimum grade of C-.

**Repeat Rule:** May be repeated for a maximum of 4 credits. May be repeated up to 1 time.

**Grade Mode:** Letter Grading

## Economics (ECN) CPSM

# Course numbers with the # symbol included (e.g. #400) have not been taught in the last 3 years.

**ECN 410 - History of Literary Economics****Credits:** 4

An examination of the contributions of fiction writers to the history of economic thought. Novels and short stories are analyzed in conjunction with studying influential and heterodox schools of economic thought. Fiction writers will vary by semester (e.g., Mark Twain, Edith Wharton, Charlotte Perkins Gilman, Theodore Dreiser, Jack London, Ayn Rand, F. Scott Fitzgerald and Louisa May Alcott). Schools of economic thought examined include critics as well as advocates of free market capitalism.

**Attributes:** Humanities(Disc); Inquiry (Discovery); Writing Intensive Course

**Grade Mode:** Letter Grading

**ECN 411 - Introduction to Macroeconomic Principles****Credits:** 4

Studies how an economy functions. Develops measures and theories of economic performance to study such issues as unemployment, inflation, international trade and finance, and the level of national production. Examines government policies designed to correct for unemployment and inflation with close attention to the use of fiscal and monetary policies in the U.S.

**Attributes:** Social Science (Discovery)

**Mutual Exclusion:** No credit for students who have taken ECON 401, ECON 401H.

**Grade Mode:** Letter Grading

**ECN 411W - Introduction to Macroeconomic Principles****Credits:** 4

Studies how an economy functions. Develops measures and theories of economic performance to study such issues as unemployment, inflation, international trade and finance, and the level of national production. Examines government policies designed to correct for unemployment and inflation with close attention to the use of fiscal and monetary policies in the U.S.

**Attributes:** Social Science (Discovery); Writing Intensive Course

**Equivalent(s):** ECN 411

**Mutual Exclusion:** No credit for students who have taken ECON 401, ECON 401H.

**Grade Mode:** Letter Grading

**ECN 412 - Introduction to Microeconomic Principles****Credits:** 4

Studies the behavior and interaction of fundamental decision-making units in an economy, especially consumers and business firms. Applies such economic principles as scarcity, supply and demand, and elasticity to a variety of social issues. Topics include the resource allocation problems of households and business firms, economic theories of social problems (such as crime, divorce, and discrimination), and the economic implications of government policies affecting the environment, the workplace, and industrial organization.

**Attributes:** Social Science (Discovery)

**Equivalent(s):** ECN 412W

**Mutual Exclusion:** No credit for students who have taken ECON 402, ECON 402A, ECON 402H, EREC 411.

**Grade Mode:** Letter Grading

**ECN 412W - Introduction to Microeconomic Principles****Credits:** 4

Studies the behavior and interaction of fundamental decision-making units in an economy, especially consumers and business firms. Applies such economic principles as scarcity, supply and demand, and elasticity to a variety of social issues. Topics include the resource allocation problems of households and business firms, economic theories of social problems (such as crime, divorce, and discrimination), and the economic implications of government policies affecting the environment, the workplace, and industrial organization.

**Attributes:** Social Science (Discovery); Writing Intensive Course

**Equivalent(s):** ECN 412, ECN 412A

**Mutual Exclusion:** No credit for students who have taken ECON 402, ECON 402A, ECON 402H, EREC 411.

**Grade Mode:** Letter Grading

**ECN #505 - Contemporary Economic Issues****Credits:** 4

The course applies microeconomic and macroeconomic principles to analyze current economic problems and issues with attention to developing an evaluating different economic policies for addressing the economic problems that are identified. The course includes a service learning component in which students will work with a community partner (e.g., local business, nonprofit organization or government agency) to identify an economic problem and help design and evaluate policy options to enact a solution to the problem. Topics will vary each semester but will include a cross-section of local, state, national and international economic issues with related readings.

**Prerequisite(s):** ECN 411 with a minimum grade of D- and ECN 412 with a minimum grade of D-.

**Grade Mode:** Letter Grading

**ECN 640 - Business Law and Economics****Credits:** 4

A study of the legal environment of business. Emphasis is on using economic analysis to examine laws of property, contract, and tort affecting business. Includes the ethical foundations of law and ethical issues involving business. Specific topics may include commercial free speech, white collar crime and managerial responsibility, product liability, cyberlaw, copyright, trademark and patent law.

**Attributes:** Writing Intensive Course**Prerequisite(s):** BUS 400 with a minimum grade of D- and ECN 412 with a minimum grade of D-.**Equivalent(s):** ECN 540**Grade Mode:** Letter Grading**ECN 650 - Economics for Managers****Credits:** 4

Examines how economic principles can be applied to resource allocation problems confronted by managers in a variety of industry settings. Emphasis on both theory and application. Topics include cost analysis, production decisions, and pricing policies of business managers within perfectly competitive, monopolistic, oligopolistic, and monopolistically competitive environments.

**Prerequisite(s):** BUS 400 with a minimum grade of D- and ECN 412 with a minimum grade of D-.**Grade Mode:** Letter Grading

## Economics (ECO) CPSO

# Course numbers with the # symbol included (e.g. #400) have not been taught in the last 3 years.

**ECO 470 - Principles of Economics****Credits:** 4

Economics is the study of how we coordinate our wants and needs as a society. The economic perspective includes three main concepts: scarcity and choice, rational behavior, and marginal analysis. Pertinent and relevant examples of current events may be used to illustrate economic principles. Students will relate international trade and trade policies to the concept of comparative advantage and the impact on production of goods and services in various countries. This survey course addresses both macroeconomic and microeconomic principles.

**Attributes:** HumanBehavSocial Sys (Gen Ed)**Equivalent(s):** ECO 512G**Grade Mode:** Letter Grading**ECO 580 - International Economics****Credits:** 4

This course is an in-depth look at how the international market for goods and services works. Students may investigate the workings of tariffs and non-tariff restrictions on trade, trade regulations, and industrial policies, first in the developed economies and then in the developing countries. Regional and multilateral trade agreements are examined. The course may examine an investigation of international monetary relationships, including balance of payments, foreign exchange and exchange rate of determinants, and how balance of payments adjustments are made.

**Attributes:** HumanBehavSocial Sys (Gen Ed)**Prerequisite(s):** ECO 470 with a minimum grade of D- or ECO 512G with a minimum grade of D-.**Equivalent(s):** ECO 600G**Grade Mode:** Letter Grading**ECO 635 - Economics of Artificial Intelligence****Credits:** 4

This course examines Artificial Intelligence (AI) as an enhancement to human intelligence in business practice in terms of various senses and processes such as language, vision, analysis and decision-making. This course has a focus on developing strategies for maximizing the revolutionary power of AI as it impacts functions within businesses and economies. Selected topics may include productivity, prediction, innovation, labor, leadership and privacy. The primary course objective is to design an AI based plan for successfully leading your life, your career and your organization. Students may evaluate how AI is being employed in the private and public sectors such as in healthcare, engineering, culture, entertainment, hospitality, agriculture, law, journalism, politics, and in government.

**Attributes:** HumanBehavSocial Sys (Gen Ed)**Equivalent(s):** ECO 605G**Grade Mode:** Letter Grading**ECO 707 - Resource Economics****Credits:** 4

This course examines sustainable resource use and acquisition. In an ever-changing, increasingly volatile global environment, consistent access to quality labor, materials, and political capital is paramount. Real-world data analysis and the use of evidence-based models enables forward-thinking organizations to identify the essential resources required for their progress. The interdependence among material resources, human talent, and political capital may also be addressed.

**Prerequisite(s):** ECO 470 with a minimum grade of D- or ECO 512G with a minimum grade of D-.**Equivalent(s):** ECO 607G**Grade Mode:** Letter Grading**ECO 710 - Behavioral Economics****Credits:** 4

Behavioral economics integrates the business of life, which is economics, with the science of human behavior, which is psychology. The economics model holds that people are rational and act in their own best interests. Psychology focuses on the cognitive, cultural, and biological influences in decision-making. This course may cover the insights of behavioral economics toward developing solutions to the real-world challenges experienced in management, marketing, IT, entrepreneurship, strategy, communications, finance, and other domains.

**Prerequisite(s):** ECO 470 with a minimum grade of D- or ECO 512G with a minimum grade of D- or ECO 635 with a minimum grade of D- or ECO 605G with a minimum grade of D- or PSY 410 with a minimum grade of D- or PSY 501G with a minimum grade of D- or SOC 410 with a minimum grade of D- or SOC 501G with a minimum grade of D-.**Equivalent(s):** ECO 610G**Grade Mode:** Letter Grading

## Economics (ECON)

# Course numbers with the # symbol included (e.g. #400) have not been taught in the last 3 years.

**ECON 401 - Principles of Economics (Macro)****Credits:** 0 or 4

Basic functions of the United States economy viewed as a whole; policies designed to affect its performance. Economic scarcity, supply and demand, the causes of unemployment and inflation, the nature of money and monetary policy, the impact of government taxation and spending, the federal debt, and international money matters. ECON 401A emphasizes applications to the international economy. ECON 401H is open to students in the Honors Program.

**Attributes:** Social Science (Discovery)**Mutual Exclusion:** No credit for students who have taken ECN 411, ECN 411W, ECON 401H.**Grade Mode:** Letter Grading**ECON 401H - Honors/Principles of Economics (Macro)****Credits:** 4

Basic functions of the United States economy viewed as a whole; policies designed to affect its performance. Economic scarcity, supply and demand, the causes of unemployment and inflation, the nature of money and monetary policy, the impact of government taxation and spending, the federal debt, and international money matters. ECON 401A emphasizes applications to the international economy. ECON 401H is open to students in the Honors Program.

**Attributes:** Honors course; Social Science (Discovery); Inquiry (Discovery)**Mutual Exclusion:** No credit for students who have taken ECN 411, ECN 411W, ECON 401.**Grade Mode:** Letter Grading**ECON 402 - Principles of Economics (Micro)****Credits:** 4

Functions of component units of the economy and their interrelations. Units of analysis are the individual consumer, the firm, and the industry. Theory of consumer demand and elasticity, supply and costs of production, theory of the firm under conditions of perfect and imperfect competition, demand for and allocation of economic resources, general equilibrium, and basic principles and institutions of international trade. ECON 402A emphasizes applications to the international economy. ECON 402H is open to students in the Honors Program.

**Attributes:** Social Science (Discovery)**Equivalent(s):** ECON 402H, EREC 411**Mutual Exclusion:** No credit for students who have taken ECN 412, ECN 412W.**Grade Mode:** Letter Grading**ECON 402H - Honors/Principles of Economics (Micro)****Credits:** 4

ECON 402A emphasizes applications to the international economy. ECON 402H is open to students in the Honors Program.

**Attributes:** Honors course; Social Science (Discovery); Inquiry (Discovery); Writing Intensive Course**Equivalent(s):** ECON 402, ECON 402A**Mutual Exclusion:** No credit for students who have taken ECN 412, ECN 412W, EREC 411.**Grade Mode:** Letter Grading**ECON 501 - Business and Economic History****Credits:** 4

This course studies the historical influence of business enterprises on the development of capitalist economies, with an emphasis on the United States. Topics include the rise of manufacturing, development of financial institutions and markets, innovation and new markets, the role of the entrepreneur, and the impact of government policy on business development. Because this is an Inquiry course, each student will pursue a major research project. Does not satisfy Economics Major or Minor requirements. DISC: HP and INQ.

**Attributes:** Historical Perspectives(Disc); Inquiry (Discovery)**Grade Mode:** Letter Grading**ECON 565 - Predictive Modeling: Data Driven Economic Analysis****Credits:** 4

This course expands upon core topics in statistics through the study and practice of data management, data analysis, and statistical programming. Statistical programming and analytical skills are the key components of predictive modeling. Students will develop tools for collecting, organizing, interpreting, presenting, and analyzing business information. As an economics course an emphasis will be placed on how to use data to improve the information needed to make sound economic and business decisions based on marginal analysis.

**Prerequisite(s):** (ADMN 420 with a minimum grade of C- or ADMN 510 with a minimum grade of C-) and (ECON 402 with a minimum grade of C- or ECON 402H with a minimum grade of C- or EREC 411 with a minimum grade of C-).**Grade Mode:** Letter Grading**ECON 605 - Intermediate Microeconomic Analysis****Credits:** 4

Analysis of supply and demand. Determination of prices, production, and the distribution of income in noncompetitive situations and in the purely competitive model. General equilibrium.

**Prerequisite(s):** (ECON 402 with a minimum grade of C- or ECON 402H with a minimum grade of C- or EREC 411 with a minimum grade of C-).**Equivalent(s):** ECON 605W**Mutual Exclusion:** No credit for students who have taken ECON 606.**Grade Mode:** Letter Grading**ECON 606 - Intermediate Microeconomics with Calculus****Credits:** 4

Consumer theory. Determination of prices, production, and the distribution of income in perfectly and imperfectly competitive markets. Demand and supply analysis. Welfare analysis of public policies. General Equilibrium. Topics employ calculus.

**Prerequisite(s):** (ECON 402 with a minimum grade of C- or ECON 402H with a minimum grade of C- or EREC 411 with a minimum grade of C-) and (MATH 424A with a minimum grade of D- or MATH 424B with a minimum grade of D- or MATH 425 with a minimum grade of D-).**Mutual Exclusion:** No credit for students who have taken ECON 605.**Grade Mode:** Letter Grading**ECON 611 - Intermediate Macroeconomic Analysis****Credits:** 4

Macroeconomic measurement, theory, and public policy determination.

**Prerequisite(s):** (ECON 401 with a minimum grade of C- or ECON 401H with a minimum grade of C-) and (ECON 402 with a minimum grade of C- or ECON 402H with a minimum grade of C- or EREC 411 with a minimum grade of C-).**Grade Mode:** Letter Grading

**ECON 620 - Topics in Economics****Credits:** 4

Special topics cover a variety of areas in economics, often of special interest to the instructor.

**Prerequisite(s):** ECON 401 with a minimum grade of C- and ECON 402 with a minimum grade of C-.

**Repeat Rule:** May be repeated for a maximum of 16 credits.

**Grade Mode:** Letter Grading

**ECON 620W - Topics in Economics****Credits:** 4

Special topics cover a variety of areas in economics, often of special interest to the instructor.

**Attributes:** Writing Intensive Course

**Prerequisite(s):** (ECON 401 with a minimum grade of C- or ECON 401H with a minimum grade of C-) and (ECON 402 with a minimum grade of C- or ECON 402H with a minimum grade of C- or EREC 411 with a minimum grade of C-).

**Repeat Rule:** May be repeated for a maximum of 16 credits.

**Grade Mode:** Letter Grading

**ECON 625 - Economic History of the United States****Credits:** 4

This course studies the development of the U.S. economy from colonial times to the 21st century. The role that institutions, innovations and government policy play in economic development is a central theme of the course. Western settlement, slavery and abolition, the rise of manufacturing and the corporate business, emergence of affluence and consumer society, and the Great Depression are some of the topics addressed.

**Prerequisite(s):** ECON 401 with a minimum grade of C- or ECON 402 with a minimum grade of C-.

**Equivalent(s):** ECON 515, ECON 515W

**Grade Mode:** Letter Grading

**ECON 626 - Supervised Student Teaching****Credits:** 2-4

Participants are expected to perform such functions as leading discussion groups, assisting faculty in undergraduate courses that they have successfully completed. For juniors and seniors with 3.0 or better cumulative GPA. No more than four credits may be earned as a teaching assistant in any one course. Permission of instructor and undergraduate programs office required.

**Repeat Rule:** May be repeated for a maximum of 16 credits.

**Grade Mode:** Credit/Fail Grading

**ECON 633 - Microfinance****Credits:** 4

Microfinance focuses on features of the informal economy in developing countries especially small-scale changes in finance, commerce, technology, and in social and environmental organization that have led to transformational economic breakthroughs. Besides financial services, the course examines innovative customer segments, market-based solutions, the role of government subsidies, a range of development issues, and how to measure success for projects, programs, and institutions.

**Grade Mode:** Letter Grading

**ECON 635 - Money and Banking****Credits:** 4

Study of how the financial sectors of globally interconnected economies impact real economic activity. It includes interrelationships of interest rates, exchange rates, expectations, financial markets, financial institutions, central banks, systemic crises, the supply and demand for money and other financial instruments, and an introduction to monetary theory, policy and regulation.

**Prerequisite(s):** (ECON 401 with a minimum grade of C- or ECON 401H with a minimum grade of C-) and (ECON 402 with a minimum grade of C- or ECON 402H with a minimum grade of C- or EREC 411 with a minimum grade of C-).

**Grade Mode:** Letter Grading

**ECON 645 - International Economics****Credits:** 4

Covers both international trade theory and open-economy macroeconomics. Some of the major issues include whether free trade is always preferred to restricted trade, the controversy over industrial policy and how best to structure the international financial system. Students gain an understanding of topics including currency exchange rate movements, and trade policy, among others.

**Prerequisite(s):** (ECON 401 with a minimum grade of C- or ECON 401H with a minimum grade of C-) and (ECON 402 with a minimum grade of C- or ECON 402H with a minimum grade of C- or EREC 411 with a minimum grade of C-).

**Equivalent(s):** ECON 645W

**Grade Mode:** Letter Grading

**ECON 652 - Economics of Artificial Intelligence****Credits:** 4

This course will provide students with a survey of economic models, applied to Artificial Intelligence (AI). The course is divided into three sections. In the first one, we introduce the concept of AI as a General-Purpose Technology that can improve prediction. In the second part, we look at how improved prediction can help decision-making under uncertainty. Finally, we analyze how AI can impact several aspects of business, society, and in particular the labor market.

**Attributes:** Writing Intensive Course

**Prerequisite(s):** ECON 401 with a minimum grade of D- or ECON 402 with a minimum grade of D-.

**Grade Mode:** Letter Grading

**ECON 653 - Law and Economics****Credits:** 4

Introduces the field of Law and Economics. Focuses on the legal system and the economic consequences of property, contract, tort, criminal law and mediation.

**Attributes:** Writing Intensive Course

**Prerequisite(s):** (ECON 402 with a minimum grade of C- or ECON 402H with a minimum grade of C- or EREC 411 with a minimum grade of C-).

**Grade Mode:** Letter Grading

**ECON 654 - Industrial Economics and Business Innovation****Credits:** 4

This course will provide students with a survey of economic models in industrial organization, applied to innovation-related issues. The course is divided into three sections. In the first one, we introduce the concept of innovation, its measurement and how it is related to knowledge. In the second part, we look at innovation at the firm level. In particular, we delve into the "knowledge-creating" company and its strategies. Finally, we analyze the structure and evolution of several hi-tech industries, in terms of survival of existing firms and creation of new firms.

**Attributes:** Writing Intensive Course

**Prerequisite(s):** (ECON 401 with a minimum grade of C- or ECON 401H with a minimum grade of C-) and (ECON 402 with a minimum grade of C- or ECON 402H with a minimum grade of C- or EREC 411 with a minimum grade of C-).

**Grade Mode:** Letter Grading**ECON 655 - Innovation in the Global Economy****Credits:** 4

This course will provide students with a survey of economic models in international trade, applied to innovation-related issues. The course is divided into three sections. In the first one, we look at the role that industry, universities, and the government play in the national innovation system. In the second part, we look at innovation from an international perspective. In particular, we delve into the relationship between globalization and innovation. Finally, we analyze the role of externalities in the knowledge economy and particularly network effects in the diffusion of new technologies.

**Attributes:** Writing Intensive Course

**Prerequisite(s):** (ECON 401 with a minimum grade of C- or ECON 401H with a minimum grade of C-) and (ECON 402 with a minimum grade of C- or ECON 402H with a minimum grade of C- or EREC 411 with a minimum grade of C-).

**Grade Mode:** Letter Grading**ECON 656 - Labor Economics****Credits:** 4

Functioning of labor markets from theoretical and policy perspectives. Labor demand and supply, wages and employment. Welfare programs, human capital, discrimination in the labor market, unions, wage differentials.

**Prerequisite(s):** (ECON 401 with a minimum grade of C- or ECON 401H with a minimum grade of C-) and (ECON 402 with a minimum grade of C- or ECON 402H with a minimum grade of C- or EREC 411 with a minimum grade of C-) and (ECON 605 with a minimum grade of C- or ECON 606 with a minimum grade of C-).

**Grade Mode:** Letter Grading**ECON #668 - Economic Development****Credits:** 4

An exploration of the theorizing (ways of seeing) and resulting policies (ways of doing) in Third World development. How the 'West' constructed the 'Rest'. Theories of development and underdevelopment. Development as industrialization with its urban bias. A planet of slums? The ambivalent effects of technological change in the Third World. An examination of agriculture (famines, green revolution, case study of opium cultivation in Afghanistan). International institutions' versus NGO's approaches to development. Grassroots development, participation and post-development.

**Attributes:** Writing Intensive Course

**Prerequisite(s):** (ECON 401 with a minimum grade of C- or ECON 401H with a minimum grade of C-) and (ECON 402 with a minimum grade of C- or ECON 402H with a minimum grade of C- or EREC 411 with a minimum grade of C-).

**Grade Mode:** Letter Grading**ECON 676 - Economics of Sports****Credits:** 4

Focuses on the major economic aspects of North American professional and collegiate sports and special topics like the Olympics, discrimination, and tournament sports drawing from public finance, labor economics, and industrial organization.

**Attributes:** Writing Intensive Course

**Prerequisite(s):** (ECON 402 with a minimum grade of C- or ECON 402H with a minimum grade of C- or EREC 411 with a minimum grade of C-).

**Grade Mode:** Letter Grading**ECON 706 - Economics of Climate Change****Credits:** 4

Explores the economics and public policy of global climate change and develops the economic theory including the concepts of externalities, stock pollutant models, the social discount rate, and complicating factors such as information, uncertainty, technological progress, and risk. Students use economic analysis to compare different policy instruments such as administrative regulation, marketable permits, tax incentives, and direct subsidies. Also covers the political economy of international environmental agreements, including an analysis of the Kyoto Protocol.

**Attributes:** Writing Intensive Course

**Prerequisite(s):** ECON 401 with a minimum grade of C- and ECON 605 with a minimum grade of C-.

**Grade Mode:** Letter Grading**ECON 720 - Economic Problems****Credits:** 4

Special topics cover a variety of areas in economics, often of special interest to the instructor.

**Prerequisite(s):** ECON 401 with a minimum grade of C- and ECON 402 with a minimum grade of C-.

**Repeat Rule:** May be repeated for a maximum of 16 credits.**Grade Mode:** Letter Grading**ECON 720W - Economic Problems****Credits:** 4

Special topics cover a variety of areas in economics, often of special interest to the instructor.

**Attributes:** Writing Intensive Course

**Prerequisite(s):** ECON 401 with a minimum grade of C- and ECON 402 with a minimum grade of C-.

**Repeat Rule:** May be repeated for a maximum of 16 credits.**Grade Mode:** Letter Grading

**ECON 725 - Independent Study****Credits:** 1-4

Individual research projects that are student designed. Initial sponsorship of a Paul College faculty member must be obtained followed by approval of Paul advisor and Dean's Office. Special permission required to earn more than 4 credits in one semester. For Paul College Juniors and Seniors with 3.0 or better cumulative GPA.

**Repeat Rule:** May be repeated for a maximum of 12 credits.**Grade Mode:** Letter Grading**ECON 725W - Independent Study****Credits:** 1-4

Individual research projects that are student designed. Initial sponsorship of an economics faculty member must be obtained followed by approval of PAUL advisor and dean's office. Special permission required to earn more than 4 credits in one semester. For Paul College juniors and seniors in with 3.0 or better cumulative GPA.

**Attributes:** Writing Intensive Course**Equivalent(s):** ECON 695W**Grade Mode:** Letter Grading**ECON 726 - Introduction to Econometrics****Credits:** 0 or 4

Introduces regression techniques as used in economics and management; estimation and statistical inference in the context of the general linear model; discussion of problems encountered and their solutions; extensions of the general linear model.

**Prerequisite(s):** (ADMN 420 with a minimum grade of C- or ADMN 510 with a minimum grade of C- or MATH 539 with a minimum grade of C- or BIOL 528 with a minimum grade of C- or EREC 525 with a minimum grade of C- or MATH 644 with a minimum grade of C-).

**Grade Mode:** Letter Grading**ECON 727 - Advanced Econometrics****Credits:** 4

Method of least squares estimation with treatments for hereogeneity and endogeneity. Method of maximum likelihood estimation. Binary choice models. Panel data models. Survival analysis. Topics employ calculus.

**Prerequisite(s):** ECON 726 with a minimum grade of C- and (MATH 424A with a minimum grade of D- or MATH 424B with a minimum grade of D- or MATH 425 with a minimum grade of D-).

**Grade Mode:** Letter Grading**ECON 746 - International Finance****Credits:** 4

International monetary mechanism; balance of payments, international investment, exchange rates, adjustment systems, international liquidity, foreign aid, multinational corporations.

**Attributes:** Writing Intensive Course**Prerequisite(s):** ECON 645 with a minimum grade of C-.**Grade Mode:** Letter Grading**ECON 760 - Game Theory****Credits:** 4

Game theory is the study of strategic interactions. In order for a decision-maker to decide the best course of action, he must take into account the actions of others, including how his own behavior influences the thinking and payoffs of others. Game theory helps us develop an understanding of how people actually behave and how they should be advised to behave in strategic situations. Game theory models conflict and cooperation between rational decision-making agents and has applications in a wide variety of areas, including statistical decision theory, artificial intelligence, economics and business, biology, political science and philosophy.

**Prerequisite(s):** (ECON 605 with a minimum grade of C- or ECON 606 with a minimum grade of C- or ADMN 580 with a minimum grade of C-).

**Grade Mode:** Letter Grading**ECON 774 - Senior Economics Seminar****Credits:** 4

Capstone experience for students enrolled in the Economics B.A. program. Topics and format of the class depends on the interests and expertise of the faculty member and students of the course. The course is organized around a "big" idea and focuses on an important topic that has broad interest and social consequences.

**Attributes:** Writing Intensive Course

**Prerequisite(s):** ECON 605 with a minimum grade of C- and ECON 611 with a minimum grade of C-.

**Grade Mode:** Letter Grading**ECON 775 - Applied Research Skills for Economists****Credits:** 4

Capstone course for students enrolled in B.S. in analytical economics. Students conduct economic research by bringing their understanding of economic theory and empirical/analytical skills to investigate contemporary economic problems, issues, and phenomena. Presentations are calculus-based. The topics and course design vary depending on the instructor.

**Attributes:** Writing Intensive Course

**Prerequisite(s):** ECON 606 with a minimum grade of C- and ECON 611 with a minimum grade of C- and ECON 726 with a minimum grade of C-.

**Grade Mode:** Letter Grading**ECON 795 - Internship****Credits:** 1-16

On-the-job skill development through fieldwork in an organization (business, industry, health, public service, etc.). Normally, supervision is provided by a qualified individual in the organization, with frequent consultation by a faculty sponsor. Written report required. Internships may be part or full time, with course credits assigned accordingly. May not be used as a major elective.

**Grade Mode:** Credit/Fail Grading**ECON 799 - Honors Thesis****Credits:** 4-8

Supervised research leading to the completion of an honors thesis; required for graduation from the honors program in economics.

**Attributes:** Honors course; Writing Intensive Course**Grade Mode:** Letter Grading

## Education (EDC) CPSO

# Course numbers with the # symbol included (e.g. #400) have not been taught in the last 3 years.

**EDC 500 - Foundations of Education****Credits:** 4

This course is the introductory course to the education programs. The purpose is to examine the theoretical foundations of education in the United States. Historical, political, and social influences on the development of the education system are examined. Students develop their own educational philosophy and compare it to the philosophies which have shaped American education. A twenty-hour practicum is required.

**Attributes:** Writing Intensive Course**Equivalent(s):** EDU 510G**Grade Mode:** Letter Grading**EDC 501 - Foundations of Early Childhood Education****Credits:** 4

This course provides an overview of the historical, philosophical, and social foundations of the early childhood profession and how these roots influence current practice. Students examine and write about the issues facing children, families, early childhood programs, and professionals. A variety of educational theories and models are reviewed with regard to how effectively they address the needs of children, parents, and communities. Students establish their own sense of professionalism with connections to the literature, organizations, and resources in the field and by writing their personal philosophies of early childhood education.

**Prerequisite(s):** PSY 470 with a minimum grade of D- or PSY 508G with a minimum grade of D-.**Equivalent(s):** EDU 550G**Grade Mode:** Letter Grading**EDC 502 - Creative Arts in Early Childhood Education****Credits:** 4

This course provides a hands-on approach to facilitating the creative development of children. Students explore their own creativity through a variety of media, including art, music, drama, and creative movement. The focus is on the creative process rather than products. Topics include definitions of creativity, how it affects domains of development, and ways it enhances learning. Students apply knowledge of developmentally appropriate practices and integrate them with creative experiences into a well-rounded curriculum that incorporates a variety of learning styles.

**Prerequisite(s):** PSY 470 with a minimum grade of D- or PSY 508G with a minimum grade of D-.**Equivalent(s):** EDU 553G**Grade Mode:** Letter Grading**EDC 503 - Language and Literacy Development****Credits:** 4

This course provides in-depth study of the development of children's language and communication skills from birth through age eight. Students identify the various developmental levels exhibited by children, and choose and create diverse materials to enhance language and literacy development. The course focuses on analyzing and creating language-rich programs designed to foster listening, oral and written language, and pre-reading and reading skills at the appropriate developmental level. Students formulate developmentally appropriate questions and responses to enrich the child's experience. The course addresses how everyday experiences can present opportunities for creating meaningful communication between children, their peers, and adults.

**Prerequisite(s):** PSY 470 with a minimum grade of D- or PSY 508G with a minimum grade of D- or PSY 525 with a minimum grade of D- or PSY 509G with a minimum grade of D-.**Equivalent(s):** EDU 555G**Grade Mode:** Letter Grading**EDC 504 - Health, Safety & Nutrition in Early Childhood Settings****Credits:** 4

This course provides a comprehensive overview of health, safety and nutrition best practices in early care and education group settings. How best to promote the physical, mental, and emotional health of each child will be explored. State regulations, program procedures, and curriculum integration will be the focus of the course.

**Equivalent(s):** EDU 556G**Grade Mode:** Letter Grading**EDC 505 - Mathematics and Science in Early Childhood Education****Credits:** 4

The course focuses on the cognitive development of children birth to age eight with emphasis upon the development and interrelatedness of math and science concepts. Using a hands-on approach, students explore the various materials used in learning centers to stimulate and develop children's logico-mathematical thinking. Students identify the various developmental levels of children's thinking and create developmentally appropriate materials and settings. The course emphasizes the application of developmental principles to investigate and devise experiences which employ mathematical reasoning and scientific processes.

**Prerequisite(s):** PSY 470 with a minimum grade of D- or PSY 508G with a minimum grade of D-.**Equivalent(s):** EDU 600G**Grade Mode:** Letter Grading**EDC 506 - Young Children with Exceptionalities, Birth-Age 8****Credits:** 4

This course focuses on promoting the optimal development of young children with special needs in an inclusionary early childhood setting. Building on a foundation of child development and the components of high-quality early childhood programs, students investigate specific physical, emotional, and psychological conditions which delay or modify the course of a child's healthy development. Students observe children with special needs in order to design adaptations in the curriculum and environment. Students develop strategies for collaborating with families and community services providers, based on a knowledge of legislative mandates regarding special education.

**Prerequisite(s):** PSY 470 with a minimum grade of D- or PSY 508G with a minimum grade of D-.**Equivalent(s):** EDU 602G**Grade Mode:** Letter Grading**EDC 507 - Early Childhood Program Administration****Credits:** 4

This course provides an overview of the various policies, procedures, and leadership practices that relate to the administration of quality early childhood programs. Topics include program development, budgeting and financial management, organizational structures, and staffing and supervision. The role of directors as leaders is explored. This course is designed for early childhood administrators, as well as for those aspiring to be directors. Prior completion of EDC 713 Family and Community Relations in ECE and EDC 602 Learning and Early Childhood Environments is recommended.

**Prerequisite(s):** EDC 501 with a minimum grade of D- or EDU 550G with a minimum grade of D-.**Equivalent(s):** EDU 605G**Grade Mode:** Letter Grading

**EDC 508 - Enhancing Supervision through Mentoring****Credits:** 4

In this course early childhood educators who are primary supervisors of teachers or assistant teachers explore the various dimensions of their role. Based on concepts of adult development and the stages of teacher development, participants learn how to establish mentoring relationships and balance supervisory responsibilities as they gain skills to guide new employees, set goals, provide feedback on performance, resolve conflicts, and create positive working environments.

**Attributes:** Writing Intensive Course**Equivalent(s):** EDU 604G**Grade Mode:** Letter Grading**EDC 544 - Special Topics: Lower Level****Credits:** 1-4

A study of current and variable topics in Education. Course content changes from term to term.

**Repeat Rule:** May be repeated up to unlimited times.**Equivalent(s):** EDU 544G**Grade Mode:** Letter Grading**EDC 601 - Positive Behavior Guidance in Early Childhood Education****Credits:** 4

This course provides an overview of children's social and emotional development and an exploration of factors that influence behavior. Topics include the impact of differing development, external factors, relationships, and stress and trauma on child development. Participants will analyze children's behavior in a variety of situations and reflect on how children respond to stimuli. The role of adults in affecting positive development will be explored. Evidence based strategies and techniques for guiding positive behavior will be applied.

**Equivalent(s):** EDU 560G**Grade Mode:** Letter Grading**EDC 602 - Learning and Early Childhood Environments****Credits:** 4

This course addresses how to optimize children's learning through play and daily routines. Using theories of child development, participants analyze how the physical arrangement of the classroom and outdoor area can maximize development. Students plan an environment that meets safety and health needs, that allows for child directed choices and activities, and supports the child's physical, cognitive, language, social, and creative growth. Students apply practices to environments that are both developmentally and culturally inclusive.

**Prerequisite(s):** PSY 470 with a minimum grade of D- or PSY 508G with a minimum grade of D-.**Equivalent(s):** EDU 551G**Grade Mode:** Letter Grading**EDC 644 - Special Topics: Upper Level****Credits:** 4

A study of current and variable topics in Education. Course content changes from term to term.

**Equivalent(s):** EDU 644G**Grade Mode:** Letter Grading**EDC 700 - Introduction to Field Experience and Program Requirements****Credits:** 1

This course is required for all students enrolled in teaching certification programs. Students work with Field-Placement Faculty to create a field experience plan, develop prerequisite lesson planning and formative assessment skills, and gain the technical and professional understandings required for successful completion of teacher certification programs. This is a pre-requisite course for all clinical field-based courses.

**Equivalent(s):** EDU 622G**Grade Mode:** Letter Grading**EDC 701 - Special Education Law****Credits:** 4

The current field of special education was established by law and further refined through the courts in litigation. In this writing intensive class, students trace the historical development of federal, state, and local laws and regulations such as the Individuals with Disabilities Education Act (IDEA) and the New Hampshire Standards for the Education of Students with Disabilities. Students will gain an understanding of the relationship between constitutional law, statutory law, regulatory law, and case law as it relates to current special education law. The focus on policies and procedures provides the background future teachers and paraprofessionals need to fulfill their legal and ethical responsibilities and to understand the ever changing, complex nature of special education law.

**Attributes:** Writing Intensive Course**Equivalent(s):** EDU 621G**Grade Mode:** Letter Grading**EDC 703 - The Dynamic Role of the Special Educator****Credits:** 4

In this clinical course, students will examine the multifaceted role of the special education teacher as evaluator, consultant, case manager, and teacher. Courses taken throughout the teacher certification program support the development of skills for each of these roles. This is an introductory course designed to accomplish the following outcomes: (a) explore the college's digital library; (b) introduce the American Psychological Association annotation and format requirements; (c) provide a beginning teacher with an organizational framework for the varying roles of a special education teacher; (d) provide an in-depth understanding of their case management responsibilities; (e) plan for the effective supervision of paraeducators; (f) introduce the reflective analysis of student work teaching and assessment cycle; and (g) apply the components of systematic direct instruction in lesson plan development.

**Prerequisite(s):** EDC 700 with a minimum grade of D- or EDU 622G with a minimum grade of D-.**Equivalent(s):** EDU 606G**Grade Mode:** Letter Grading**Special Fee:** Yes

**EDC 704 - Assessment of Young Children in Early Childhood and Early Childhood Spec. Education, Birth to Age 8****Credits:** 4

In this course, students use procedures involved in the evaluation process for determination of eligibility for special education. Students develop the skills necessary to administer and interpret assessment tools commonly used by early intervention staff and early childhood special education teachers. Under the supervision of the district mentor, students review early support and services records and/or school records, gather information, observe an evaluation team meeting, consult with district evaluators, and review a variety of assessment tools and evaluation reports for young children through age eight. Students participate in preparing an assessment plan, administering chosen assessment tools, and writing assessment reports. Emphasis is placed on working with team members in the evaluation process.

**Prerequisite(s):** EDC 700 with a minimum grade of D- or EDU 622G with a minimum grade of D-.

**Equivalent(s):** EDU 624G

**Grade Mode:** Letter Grading

**EDC 705 - Collaboration, Consultation and Teaming In Early Childhood & Early Childhood Special Education****Credits:** 4

In this course, students research and evaluate family, community, and professional partnerships which support the growth and development of children with disabilities. The specific roles and responsibilities of each contributing partner will be explored and analyzed. Students, using knowledge acquired in areas of collaboration, consultation, and teaming, construct service delivery models to support young children with diverse needs and their families. Fifty to sixty supervised clinical hours are required.

**Prerequisite(s):** EDC 700 with a minimum grade of D- or EDU 622G with a minimum grade of D-.

**Equivalent(s):** EDU 627G

**Grade Mode:** Letter Grading

**EDC 706 - IFSPs, IEPs, and Transition Planning - Birth to Age 8****Credits:** 2

This clinical course focuses on the components and processes involved in the legal aspects and development of Individualized Family Service Plans (IFSPs) and Individualized Education Programs (IEPs). Under the supervision of a district mentor, students review school records; observe IFSP/IEP team meetings; consult with district evaluators, students, and parents; analyze previously written IFSPs/IEPs and progress reports; and develop the skills necessary to prepare IFSPs/IEPs inclusive of transition plans and/or services. The culminating activities of the course include the development of an IFSP an IEP, and a research paper which addresses the legal/ethical considerations and implications in the development of IFSPs and IEPs. Fifty to sixty supervised clinical hours are required.

**Prerequisite(s):** EDC 700 with a minimum grade of D- or EDU 622G with a minimum grade of D-.

**Equivalent(s):** EDU 628G

**Grade Mode:** Letter Grading

**EDC 707 - Behavior Interventions for Young Children in Early Childhood/ Early Childhood Special Education****Credits:** 4

In this clinical course, students examine basic principles and components of life skills that children need as foundation for the development of positive social skills, e.g., attachment, affiliation, self-regulation, initiative, problem solving, and respect. The student develops and implements a variety of activities and lesson plans to teach young children these critical life skills. Students develop strategies to be used with young children receiving early intervention services and/or to motivate young children in their preschool programs/classrooms by facilitating the development of positive peer relationships, addressing emotional needs, and minimizing disruptions resulting in increased learning. The student documents the use of individual activities and/or classroom strategies in a professional portfolio. Fifty to sixty supervised clinical hours are required.

**Attributes:** Writing Intensive Course

**Prerequisite(s):** EDC 700 with a minimum grade of D- or EDU 622G with a minimum grade of D-.

**Equivalent(s):** EDU 630G

**Grade Mode:** Letter Grading

**Special Fee:** Yes

**EDC 708 - Science, Technology, Engineering & Mathematics in Early Childhood and Early Childhood Spec Education****Credits:** 4

In this clinical course, students focus on STEM content, effective practice, instructional strategies, materials and curriculum integration, based on standards, inquiry, and connections to the real world. STEM concepts of curiosity, creativity, collaboration, and critical thinking are researched and explored. Students will learn about the Scientific Method, as well as the roles of observation, classification, description, experimentation, application, and imagination. Students will learn how to use technology and interactive media in the early childhood classroom to support learning. The role of engineering in the curriculum will be investigated, including design of methods and ideas for product development. Students will understand and apply math process standards of problem-solving, reasoning and proof, communication, connection, and representation. The course emphasizes application of principles in order to investigate and create experiences which employ STEM concepts and teaching strategies.

**Attributes:** Writing Intensive Course

**Prerequisite(s):** (MTH 402 with a minimum grade of D- or MATH 502G with a minimum grade of D-) and (EDC 700 with a minimum grade of D- or EDU 622G with a minimum grade of D-).

**Equivalent(s):** EDU 625SG

**Grade Mode:** Letter Grading

**Special Fee:** Yes

**EDC 709 - Teaching Language Arts and Literacy in Early Childhood and Early Childhood Special Education****Credits:** 6

In this clinical course, students develop an understanding of language and literacy development from birth through grade three. Topics include the reciprocal connections between speaking and listening, rhythm and rhyme, communication activities, hearing and reading literature, stories, poetry, music, and written expression. Students engage in appropriate literacy interactions, activities, and assessments to meet the literacy needs of a diverse range of children. Students work with parents and care givers as partners in promoting literacy. The key components of reading (e. g. word recognition, fluency, phonological awareness, etc.) identified by the National Reading Panel for this age level are studied in depth. Students apply their knowledge of how young children develop their own reading skills using these key components of the reading process. Students then evaluate the effectiveness of their instruction.

**Prerequisite(s):** EDC 700 with a minimum grade of D- or EDU 622G with a minimum grade of D-.

**Equivalent(s):** EDU 601AG

**Grade Mode:** Letter Grading

**Special Fee:** Yes

**EDC 710 - Curriculum, Assessment and Instruction in Early Childhood/ Early Childhood SPED - Birth to Age 8****Credits:** 4

In this clinical course, students examine, develop, and evaluate developmentally appropriate curriculum and instruction in early childhood and special education settings, for young children age five (kindergarten) through age eight (grade 3). Students use district and state curriculum and integrate subjects with one another. Students develop skills to create and advocate for healthy, supportive, respectful, and challenging learning environments for all children, ages five through eight.

**Attributes:** Writing Intensive Course

**Prerequisite(s):** EDC 700 with a minimum grade of D- or EDU 622G with a minimum grade of D-.

**Equivalent(s):** EDU 626G

**Grade Mode:** Letter Grading

**Special Fee:** Yes

**EDC 711 - Managing Student Behavior (non-clinical)****Credits:** 4

This course is designed for non-teacher preparatory candidates to provide an overview of classroom behavior management. Students observe effective teachers using instructional management strategies. They administer and interpret questionnaires to analyze the classroom environment and identify student needs. They identify strategies to help students meet these needs, to increase motivation, to develop positive peer relationships, and to minimize disruption.

**Prerequisite(s):** PSY 525 with a minimum grade of D- or PSY 509G with a minimum grade of D- or PSY 470 with a minimum grade of D- or PSY 508G with a minimum grade of D- or PSY 410 with a minimum grade of D- or PSY 501G with a minimum grade of D-.

**Equivalent(s):** EDU 623G

**Grade Mode:** Letter Grading

**EDC 712 - Observation and Assessment in Early Childhood Education****Credits:** 4

This course is designed to provide early childhood educators with the ability to use a variety of assessment methods to determine the developmental levels and needs of young children. Students are introduced to the meaning and uses of authentic assessment as well as various tools and assessment strategies. The course addresses the interpretation of observational and assessment data to monitor children's progress, guide instructional practice, and identify and refer at-risk children. Prior completion of EDC 602 Learning and Early Childhood Environments is recommended.

**Attributes:** Writing Intensive Course

**Prerequisite(s):** PSY 470 with a minimum grade of D- or PSY 508G with a minimum grade of D-.

**Equivalent(s):** EDU 601G

**Grade Mode:** Letter Grading

**EDC 713 - Family and Community Relations in Early Childhood Education****Credits:** 4

This course examines various ways of enhancing the young child's development through promoting positive interrelationships among child care providers, parents, and others in the community. Using an ecological systems framework, the course builds knowledge of the roles of diverse family structures, cultural identities, stressors and supports, economic circumstances, and community characteristics and resources in facilitating child development. Students develop skills needed for communicating effectively with families, facilitating parent education, and promoting family involvement with child care settings as well as utilization of community resources. NOTE: Prior completion of SOSC 675 Dynamics of Family Relationships is recommended.

**Attributes:** Writing Intensive Course

**Equivalent(s):** EDU 603G

**Grade Mode:** Letter Grading

**EDC 716 - Students with Disabilities****Credits:** 4

This course provides an overview of the thirteen Individuals with Disabilities Education Act (IDEA) educational disabilities and the opportunity to explore the implications of disability on learning. Students will develop knowledge of specific disabilities including: definition, diagnosis, etiology, prevalence, characteristics, adaptive behavior, and systems of support and resources. Students will explore how disability impacts learning and access to the general education curriculum. Students will research and identify teaching strategies, Universal Design for Learning (UDL) strategies, interventions, and educational and assistive technologies to enhance learning and provide equity in the classroom for students with disabilities.

**Equivalent(s):** EDU 617G

**Grade Mode:** Letter Grading

**EDC 717 - Managing Student Behavior****Credits:** 4

In this clinical course, students explore theory of social emotional development, preventative intervention strategies, and the characteristics of safe and supportive learning communities. Students examine specific strategies for motivating students and promoting positive relationships between colleagues, students, and parents in an effort to enhance learning. Students conduct a functional behavior assessment as they develop a comprehensive perspective on classroom culture through the development of proactive management skills and intervention strategies.

**Attributes:** Writing Intensive Course**Prerequisite(s):** EDC 700 with a minimum grade of D- or EDU 622G with a minimum grade of D-.**Equivalent(s):** EDU 619G**Grade Mode:** Letter Grading**Special Fee:** Yes**EDC 718 - Transition Planning & Developing IEPs****Credits:** 2

This clinical course focuses on the components and processes involved in the development of Individualized Education Programs (IEPs). Under the supervision of a supervising practitioner, students review school records, observe IEP team meetings, consult with district evaluators, student and parents, analyze previously written IEPs and progress reports, and develop the skills necessary to prepare IEPs inclusive of transition plans. During the culminating activity of the course, students develop an IEP and transition plan as a vehicle for exploring the legal and ethical considerations and implications in the development, implementation, and evaluation of IEPs.

**Prerequisite(s):** EDC 700 with a minimum grade of D- or EDU 622G with a minimum grade of D-.**Equivalent(s):** EDU 609G**Grade Mode:** Letter Grading**EDC 719 - Using Technology to Teach Social Studies****Credits:** 4

Technology is a necessary tool in teaching today's youth. In this clinical course, students focus on developing three broad skills: (1) how to design and teach an integrated social studies unit that challenges and assists K-8 students to think deeply, (2) how to incorporate into the plan a wide range of mostly constructivist instructional strategies, and (3) how to integrate a rich array of technology tools and digital educational content in a way that amplifies student learning.

**Prerequisite(s):** EDC 700 with a minimum grade of D- or EDU 622G with a minimum grade of D-.**Equivalent(s):** EDU 612G**Grade Mode:** Letter Grading**Special Fee:** Yes**EDC 720 - Instructional Methods, Strategies, and Technologies to Meet the Needs of All Students****Credits:** 4

Through the development of lesson plans in this clinical course, students demonstrate knowledge and expertise of a variety of instructional methods and research-based strategies to improve learning for diverse student populations facing complex individual learning challenges. Students will research instructional strategies and metacognition to determine its effectiveness in increasing independence, enhancing learning, and developing thinking skills in mathematics. Through their understanding of the principles of instruction, assessment, remediation, and technology integration, students develop a comprehensive math unit.

**Prerequisite(s):** EDC 700 with a minimum grade of D- or EDU 622G with a minimum grade of D-.**Equivalent(s):** EDU 607G**Grade Mode:** Letter Grading**Special Fee:** Yes**EDC 721 - Assessment of Students with Disabilities****Credits:** 4

This clinical course focuses on the tools and procedures involved in the evaluation and determination of education disabilities. Under the supervision of the district mentor, students review school records, observe an evaluation team meeting, consult with district evaluators, review a variety of assessment tools and evaluation reports, and develop the skills necessary to administer and interpret some of the assessments commonly used by special education teachers. The culminating activity of the course is the development of a formal assessment report.

**Prerequisite(s):** EDC 700 with a minimum grade of D- or EDU 622G with a minimum grade of D-.**Equivalent(s):** EDU 611G**Grade Mode:** Letter Grading**EDC 722 - Strategies for Teaching Science****Credits:** 4

This clinical course focuses on learning theories and their application to science instruction. Students examine a variety of instructional strategies through readings, observation and participation in their clinical placements, and determine the appropriateness of each in the learning process. Topics include constructivist learning, differentiated learning, and an in-depth look at how the state and national standards guide science instruction. Additional topics include integrated STEM curricula, the appropriate use of technology, and effective formative, summative, and alternative assessment strategies. Students plan, teach and evaluate an integrated thematic unit with lessons that align with Next Generation Science Standards.

**Attributes:** Writing Intensive Course**Prerequisite(s):** EDC 700 with a minimum grade of D- or EDU 622G with a minimum grade of D-.**Equivalent(s):** EDU 613G**Grade Mode:** Letter Grading**Special Fee:** Yes

**EDC 723 - Teaching Language Arts and Literacy****Credits:** 6

This clinical course examines the theoretical foundations of reading and the range of approaches to literacy instruction in the United States. Students explore the interrelated components of reading and writing and develop comprehensive strategies for supporting reading development for all children in grades K-8. In this course students observe classroom instruction in literacy, have opportunities to engage with children in using literacy strategies, and use a range of strategies to assess students' reading and writing. Fifty to sixty supervised clinical hours are required.

**Prerequisite(s):** EDC 700 with a minimum grade of D- or EDU 622G with a minimum grade of D-.

**Equivalent(s):** EDU 610G

**Grade Mode:** Letter Grading

**Special Fee:** Yes

**EDC 724 - Elementary School Mathematics Methods****Credits:** 4

This clinical course focuses on learning theories and their application to elementary school mathematics instruction. Students research a variety of instructional strategies through readings, observation, and participation in a clinical placement and determine the appropriateness of each in the learning process. Topics include constructivist learning, differentiated learning, and an in-depth look at how the Common Core State Standards in Mathematics guide mathematics instruction. Additional topics include integrated curricula, the appropriate use of technology, and effective formative, summative, and alternative assessment strategies. Students plan two five-lesson mathematics units for two different grade levels, teaching and reflecting on lessons taught in one of the units.

**Attributes:** Writing Intensive Course

**Prerequisite(s):** EDC 700 with a minimum grade of D- or EDU 622G with a minimum grade of D-.

**Equivalent(s):** EDU 616G

**Mutual Exclusion:** No credit for students who have taken MATH 703.

**Grade Mode:** Letter Grading

**Special Fee:** Yes

**EDC 731 - Aspects of Mathematics Learning****Credits:** 4

The clinical course is designed to provide prospective secondary school and middle school teachers with the skills to develop an integrated approach to teaching and learning. It will cover cultural and psychological aspects of learning mathematics, models of instruction and planning, teaching and learning styles, assessment strategies, models and organization and selection of curriculum materials, classroom management, and the role of technology and media within these. Ninety supervised clinical hours are required.

**Attributes:** Writing Intensive Course

**Prerequisite(s):** EDC 700 with a minimum grade of D- or EDU 622G with a minimum grade of D-.

**Equivalent(s):** EDU 652G

**Mutual Exclusion:** No credit for students who have taken MATH 700.

**Grade Mode:** Letter Grading

**Special Fee:** Yes

**EDC 732 - Reading and Writing in the Mathematics Content Area****Credits:** 4

This clinical course is designed to provide prospective secondary and middle school teachers with the knowledge, skills, and resources necessary to incorporate literacy skills into their mathematics content area plans. Emphasis will be on integrating the teaching of reading, writing, and oral literacy skills from various fields; students will explore and practice the methods and strategies, including testing and measurement assessments necessary to meet the diverse literacy needs of today's students allowing them to become independent students. Teaching and discussing theoretical and practical application of current theories and methods involved in teaching literacy to diverse secondary and middle student population within the contemporary pluralistic classroom, including differentiated learning styles through socioeconomic status, gender, and heritage will be emphasized. Ninety supervised clinical hours are required.

**Attributes:** Writing Intensive Course

**Prerequisite(s):** EDC 700 with a minimum grade of D- or EDU 622G with a minimum grade of D- or EDC 731 with a minimum grade of D- or EDU 652G with a minimum grade of D-.

**Equivalent(s):** EDU 653G

**Grade Mode:** Letter Grading

**Special Fee:** Yes

**EDC 733 - Middle School Mathematics Methods****Credits:** 4

This clinical course focuses on mathematics learning theories and their application to middle school mathematics instruction. Students examine a variety of instructional strategies through readings, observation and supervised teaching. Topics include constructivist learning, differentiated learning, and an in-depth look at how the state and national standards guide mathematics instruction. Additional topics include integrated curricula, the appropriate use of technology, and effective formative, summative, and alternative assessment strategies. Students plan two, five-lesson mathematics units for two different grade levels, teaching and reflecting on lessons taught in one of the units. Depending on the certification program, a range of fifty to ninety supervised clinical hours are required.

**Attributes:** Writing Intensive Course

**Prerequisite(s):** (EDC 700 with a minimum grade of D- or EDU 622G with a minimum grade of D-) and (EDC 732 with a minimum grade of D- or EDU 653G with a minimum grade of D-).

**Equivalent(s):** EDU 614G

**Mutual Exclusion:** No credit for students who have taken MATH 703, MATH 709.

**Grade Mode:** Letter Grading

**Special Fee:** Yes

**EDC 734 - Secondary School Mathematics Methods****Credits:** 4

This clinical course focuses on mathematics learning theories and their application to secondary mathematics instruction. Students examine a variety of instructional strategies through readings, observation, and supervised teaching. Topics include constructivist learning, differentiated learning, and an in-depth look at how the state and national standards guide mathematics instruction. Additional topics include integrated curricula, the appropriate use of technology, and effective formative, summative, and alternative assessment strategies. Students plan two, 5-lesson mathematics units for two different grade levels, teaching and reflecting on lessons taught in one of the units. Depending on the certification program, a range of fifty to ninety supervised clinical hours are required.

**Attributes:** Writing Intensive Course

**Prerequisite(s):** (EDC 700 with a minimum grade of D- or EDU 622G with a minimum grade of D-) and (EDC 732 with a minimum grade of D- or EDU 653G with a minimum grade of D-).

**Equivalent(s):** EDU 615G**Mutual Exclusion:** No credit for students who have taken MATH 709.**Grade Mode:** Letter Grading**Special Fee:** Yes**EDC 790 - Integrative: English Language Arts****Credits:** 4

This capstone course in English Language Arts builds on all previous work in both education and English. Students explore current research in the field of English Language Arts education and synthesize their knowledge to build effective instructional practices that support children's learning. Prior to capstone enrollment, students are expected to complete the majority of their required major courses. Students should consult with their advisor regarding specific major courses that may be completed with their capstone. NOTE: Students who were admitted to the college before Fall 2019 and have remained active in their original catalog year are not required to take IDIS 601.

**Prerequisite(s):** (CRIT 602 with a minimum grade of D- or CRIT 602G with a minimum grade of D- or CRIT 502G with a minimum grade of D-) and (IDIS 601 with a minimum grade of D- or IDIS 601G with a minimum grade of D-).

**Equivalent(s):** EDU 660G**Grade Mode:** Letter Grading**EDC 791 - Integrative: Social Studies****Credits:** 4

This capstone course in Social Studies builds on all previous work in both education and Social Studies. Students explore current research in the field of Social Studies and synthesize their knowledge to build effective instructional practices that support children's learning. Prior to capstone enrollment, students are expected to complete the majority of their required major courses. Students should consult with their advisor regarding specific major courses that may be completed with their capstone. NOTE: Students who were admitted to the college before Fall 2019 and have remained active in their original catalog year are not required to take IDIS 601.

**Prerequisite(s):** (CRIT 602 with a minimum grade of D- or CRIT 602G with a minimum grade of D- or CRIT 502G with a minimum grade of D-) and (IDIS 601 with a minimum grade of D- or IDIS 601G with a minimum grade of D-).

**Equivalent(s):** EDU 661G**Grade Mode:** Letter Grading**EDC 792 - Integrative: Mathematics Studies****Credits:** 4

This capstone course in Math Studies builds on all previous work in both education and Math Studies. Students explore current research in the field of Math and synthesize their knowledge to build effective instructional practices that support children's learning. Prior to capstone enrollment, students are expected to complete the majority of their required major courses. Students should consult with their advisor regarding specific major courses that may be completed with their capstone. NOTE: Students who were admitted to the college before Fall 2019 and have remained active in their original catalog year are not required to take IDIS 601.

**Prerequisite(s):** (CRIT 602 with a minimum grade of D- or CRIT 602G with a minimum grade of D- or CRIT 502G with a minimum grade of D-) and (IDIS 601 with a minimum grade of D- or IDIS 601G with a minimum grade of D-).

**Equivalent(s):** EDU 665G**Grade Mode:** Letter Grading**EDC 797 - Practicum: Professionalism in Early Childhood Education****Credits:** 4

This clinical course is designed to provide an opportunity for students to apply early childhood educational and developmental theory to practice in a licensed early childhood setting. Students participate in an approved site where they plan and implement curriculum under the supervision of a credentialed early childhood professional. This capstone experience allows the student to integrate course work in early childhood education, curriculum, assessment, and child development. In addition, students reflect upon and analyze field experiences. Prior to capstone enrollment, students are expected to complete the majority of their required major courses. Students should consult with their advisor regarding specific major courses that may be completed with their capstone. NOTE: Students who were admitted to the college before Fall 2019 and have remained active in their original catalog year are not required to take IDIS 601.

**Prerequisite(s):** (CRIT 602 with a minimum grade of D- or CRIT 602G with a minimum grade of D- or CRIT 502G with a minimum grade of D-) and (IDIS 601 with a minimum grade of D- or IDIS 601G with a minimum grade of D-).

**Equivalent(s):** EDU 650G**Grade Mode:** Letter Grading**EDC 798 - Culminating Teaching Experience and Seminar****Credits:** 4

This course is the culminating experience in the plan of study toward NH teacher certification. This course gives teacher candidates an opportunity to be mentored in their field of certification by experienced teachers holding graduate degrees and to practice the variety of methods and strategies studied in the teacher preparation program. Teacher candidates enrolled in this course may be at different stages of acquiring the three hundred sixty to four hundred forty hours of supervised teaching experience. Additionally, teacher candidates will use the Teacher Candidate Assessment of Performance process to develop a final culminating document that demonstrates their proficiency in the areas of contextualization, planning and preparation, instruction, academic language, assessment, and reflection.

**Attributes:** Writing Intensive Course**Equivalent(s):** EDU 651G**Grade Mode:** Letter Grading**Special Fee:** Yes

## Education (EDUC)

# Course numbers with the # symbol included (e.g. #400) have not been taught in the last 3 years.

### **EDUC 400 - Careers in Education: Exploring Professional Contexts**

**Credits:** 1

Designed for students interested in learning about careers in education, this survey course explores professional opportunities in both formal and informal education settings within P-12 teaching and beyond (i.e., research, museum director, counseling, social work, educational software developer, etc.). Faculty from multiple disciplines and local professionals will present seminars and lead discussions about their role in addressing contemporary issues in education. Students will consider pathways that can be taken to pursue professional goals.

**Grade Mode:** Credit/Fail Grading

### **EDUC 402 - Introduction to Educational Studies: Social Change and Education in Local and Global Contexts**

**Credits:** 4

This course introduces students to Educational Studies: the ways that social, cultural, and political factors influence education outside of conventional school settings. We examine the relationship between education and social change in local and global contexts. Guiding questions include: How does schooling produce certain kinds of citizens? How do grassroots movements use education to resist colonial/colonizing agendas? What role does education play in promoting democracy, and social and economic equality?

**Grade Mode:** Letter Grading

### **EDUC 444B - Public Issues, Democratic Schooling & Active Citizenship in a Global Context**

**Credits:** 4

This is a first-year inquiry course intended primarily for students participating in the Common Purposes residential living program. The course offers multidisciplinary content focused on active citizenship in a pluralistic democracy. The primary organizing concept of the course is community; assignments focus on deliberative dialogue, public reasoning, collective action, and social justice. The course is taught as a seminar and includes on-campus and off-campus applied projects.

**Attributes:** Social Science (Discovery); Inquiry (Discovery)

**Grade Mode:** Letter Grading

### **EDUC 500 - Exploring Teaching**

**Credits:** 4

For students considering a teaching career. In-school experiences to develop introductory skills in teaching. On-site seminars for analysis and evaluation. Assessment and advising related to teaching as a career. Prerequisite for further work toward teacher licensure. Minimum of 7 hours a week, plus travel time, required.

**Repeat Rule:** May be repeated for a maximum of 8 credits.

**Grade Mode:** Credit/Fail Grading

**Special Fee:** Yes

### **EDUC 506 - Mentoring Readers and Writers in the Elementary Grades**

**Credits:** 4

This course supports and extends the experiences of students who are simultaneously volunteering with the Seacoast Reads program. Students explore mentoring relationships, elementary students' engagement and motivation, effective practices for supporting literacy development, lesson planning, understanding student growth, and volunteers' own development as educators.

**Repeat Rule:** May be repeated for a maximum of 8 credits.

**Grade Mode:** Letter Grading

### **EDUC 520 - Education, Poverty, and Development**

**Credits:** 4

An examination of the human and institutional relationships among education, poverty, and social development. This course will emphasize the ways in which access to universal, effective education is correlated with the incidence of childhood poverty and its reduction in the US and selected countries in the developing world. Interactive, discussion-based classes. Prior coursework in social or political sciences, economics, international affairs, health sciences, or related fields suggested. A minimum of 15 hours of fieldwork beyond classroom time is required. Students can fulfill this requirement through a variety of experiences on and off campus.

**Attributes:** Social Science (Discovery)

**Grade Mode:** Letter Grading

### **EDUC 525 - Teaching Race**

**Credits:** 4

This course examines the idea of race from the perspective of science, history, and lived experience to help the student properly evaluate inequalities of treatment (on the basis of race or any other marker) in various sectors of life in the United States. The course aims at helping the student a) perceive what is taught about race and what is communicated in our schools and colleges about the meaning of racial ascription, of color, and whiteness and b) to figure out how the power of educational institutions can best be used to promote equality and racial justice in society.

**Grade Mode:** Letter Grading

### **EDUC 550 - Language and Linguistic Diversity in Schools**

**Credits:** 4

The course offers a broad examination of language and linguistic diversity and identities, drawing from education, sociolinguistics, anthropology, child development, and related fields. Content includes a critical examination of the evolution of the laws and policies affecting linguistic minorities in the U.S. and how they inform the educational rights of emerging and developing bilingual learners. A minimum of 20hrs of fieldwork beyond classroom time is required. Students have the opportunity to identify age group preference for field placement.

**Grade Mode:** Letter Grading

**EDUC 556 - Peer to Peer Mentoring for Students with Disabilities**  
**Credits:** 2

This in person course is open to all undergraduates pursuing any major who have an interest in learning more and experiencing the importance of mentoring and diversity expansion at UNH. The primary goal is to introduce UNH undergraduates with and without intellectual disabilities to a mentoring experience. UNH students will develop a beginning understanding of the importance of expanding the diversity of the UNH campus to include students with disabilities in authentic campus life experiences including taking courses, extra-curricular activities, residential life, and on campus employment. Each mentor/mentee relationship will be individualized based on the needs of the students enrolled in the course and mentoring relationships will be matched based on the completion of individualized student directed personalized future planning.

**Repeat Rule:** May be repeated for a maximum of 12 credits.

**Grade Mode:** Letter Grading

**EDUC 605 - Educational Perspectives in Critical Times**

**Credits:** 4

In this course students inquire, reflect on and teach ethical dilemmas in the practice of education. Students will establish a foundation of knowledge on which to build philosophies of education in preparation for a career in which they face policies influenced by political agendas, fads, and economic interests. Through readings, discussions and field experiences, students will become more practiced and comfortable in having difficult discussions related to pressing issues of education and equity.

**Attributes:** Writing Intensive Course

**Grade Mode:** Letter Grading

**Special Fee:** Yes

**EDUC 610H - Field Experience in Educational Studies**

**Credits:** 1-4

Work with an agency, institution, or organization to gain technical and/or professional competence not otherwise available. Student plans experience with departmental adviser. Credit approval subject to recommendation of faculty members and performance of student.

**Repeat Rule:** May be repeated for a maximum of 8 credits.

**Grade Mode:** Credit/Fail Grading

**EDUC 650 - Introduction to Disability in Inclusive Schools and Communities**

**Credits:** 4

In this foundational course, students will be introduced to evidenced based practices in equity-based inclusive education leading to improved academic, social, communication, and behavioral outcomes for all students. Through a variety of films, readings, podcasts, interviews, and fieldwork assignments, students will explore education through the lens of learners with disabilities, families, and educators perspectives. Students in this course represent a broad array of disciplines including special education, social work, communication disorders, family studies, occupational therapy, early childhood, and more.

**Prerequisite(s):** EDUC 500 with a minimum grade of D- or EDUC 402 with a minimum grade of D-.

**Grade Mode:** Letter Grading

**EDUC 656 - Advocating for Diverse and Inclusive Family-School-Community Partnerships**

**Credits:** 4

The course is to examine the socio-cultural circumstances surrounding racially, culturally and linguistically diverse (RCLD) families raising children with disabilities, address the implications of the Individuals with Disabilities Education Act (IDEA) and Every Student Succeeds Act (ESSA) for families and professionals, discuss issues regarding families' experience during the special education process, assess family strengths and coping styles, and develop knowledge and skills to advocate for diverse and inclusive family-school-community partnerships.

**Grade Mode:** Letter Grading

**EDUC 694 - Courses in Supervised Teaching**

**Credits:** 8

Supervised Teaching of Music. Supervised Teaching of Adult and Occupational Education. Supervised Teaching of Mathematics.

**Grade Mode:** Credit/Fail Grading

**Special Fee:** Yes

**EDUC 694A - Supervised Teaching/Music**

**Credits:** 8

Supervised Teaching of Music.

**Grade Mode:** Credit/Fail Grading

**Special Fee:** Yes

**EDUC 694C - Supervised Teaching/Mathematics**

**Credits:** 8

Supervised Teaching of Mathematics.

**Grade Mode:** Credit/Fail Grading

**EDUC 694D - Supervised Teaching/Kinesiology**

**Credits:** 4

Supervised Teaching of Kinesiology.

**Grade Mode:** Credit/Fail Grading

**Special Fee:** Yes

**EDUC #700 - Educational Structure and Change**

**Credits:** 4

To assume leadership roles, beginning teachers need to develop an informed understanding of how they can operate effectively as decision-makers and agents of change within educational institutions. Such understanding entails knowledge of the politics, history, organization, and function of schools from a variety of viewpoints: historical, sociological, political, and cross-cultural. This course focuses on the structure of public education, on the nature of educational change, and the teacher's role in the change process.

**Grade Mode:** Letter Grading

**EDUC 701 - Human Development & Learning: Cultural Perspectives**

**Credits:** 4

Learning in formal and informal contexts and cultural aspects of learning and development with an emphasis on childhood and adolescence. Theories of learning including behaviorism, constructivism, sociocultural, and design perspectives. Topics include research and varied cultural perspectives on intelligence, motivation, identity and the self, concept learning and knowledge, noncognitive aspects of learning, social and emotional learning, deficit thinking and social justice perspectives, design-based perspectives on educational innovation, and assessment. Junior and Senior status.

**Attributes:** Writing Intensive Course

**Grade Mode:** Letter Grading

**Special Fee:** Yes

**EDUC 703C - Classroom Management: Creating Positive Learning Environments****Credits:** 4

This course is designed to help prospective and current teachers create and maintain caring, respectful classroom communities in which learners feel safe, valued, cared for, valued, and empowered. The course includes a strong emphasis on developing knowledge about the culture and backgrounds of children and families in order to establish positive interactions within the classroom community. The course addresses the challenges and opportunities in creating community in the increasingly diverse student populations in US schools. We will consider what it means to be culturally responsive in order to establish a classroom in which all students can succeed academically and socially.

**Grade Mode:** Letter Grading**EDUC 703D - Social Studies Methods for Middle and High School Teachers****Credits:** 4

The social studies theory and methods course begins with an overview of the varied and, at times, competing goals and visions of the profession. Students examine these goals and their underlying rationales, and then develop their own philosophy of social studies teaching and learning. Students also examine state and national scope and sequence frameworks for the social studies, as well as the language arts Common Core standards. A variety of classroom strategies and methods are explored during the remainder of the course, including unit design, leading class discussions, how to approach controversial issues, teaching concepts and generalizations, increasing student engagement and empathy with the past, incorporating technology and the arts, management and discipline, and formats for assessment and grading.

**Grade Mode:** Letter Grading**EDUC 703F - Teaching Elementary School Science****Credits:** 4

This course is designed to increase pre-service teachers' pedagogical content knowledge and enthusiasm with respect to teaching science at the elementary level. Throughout this course, students will familiarize themselves with reform-based approaches to elementary science instruction through inquiry, readings, and class discussions. Science will be explored not only as an important element of elementary education, but also as a means by which to support a diverse class of elementary students in literacy and mathematics learning.

**Grade Mode:** Letter Grading**EDUC 703M - Teaching Elementary Social Studies****Credits:** 4

Social Studies Methods explores practical teaching models, techniques of implementation, and relationships to curricula in elementary classroom instruction. The New Hampshire Social Studies Frameworks and Common Core Curriculum Standards for instruction are identified and implemented in creating lesson plans for a mini unit.

**Grade Mode:** Letter Grading**Special Fee:** Yes**EDUC #705 - Contemporary Educational Perspectives****Credits:** 4

Students formulate, develop, and evaluate their own educational principles, standards, and priorities.

**Attributes:** Writing Intensive Course**Grade Mode:** Letter Grading**Special Fee:** Yes**EDUC 706 - Teaching & Learning Literacy in the Elementary Classroom****Credits:** 4

Methods in reading and writing instruction, including current theories, practices and materials for teaching, learning and assessment. Course includes a weekly practicum in an elementary classroom and satisfies reading/language arts requirement for prospective elementary teachers in the elementary or P-3 certification programs.

**Grade Mode:** Letter Grading**Special Fee:** Yes**EDUC 707 - Teaching Reading through the Content Areas****Credits:** 2

Approaches and methods for teaching reading through content materials; coursework includes practical applications through development of instructional strategies and materials. Required for candidates seeking certification in art, biology, chemistry, earth science, general science, physical science, physics, or social science.

**Grade Mode:** Letter Grading**EDUC 710 - Navigating Difficult Dialogue****Credits:** 4

This course is designed to support navigating the inevitable 'difficult dialogues' we encounter in schools (and life). This course emphasizes practicing basic counseling skills and deeper listening skills to facilitate effective dialogue and outcomes in a variety of settings. Teachers and administration in schools, managers in the workplace, business leaders in organizations, leaders in communities, and other educators in various fields will find this course useful in their professional work with individuals and groups.

**Grade Mode:** Letter Grading**EDUC 712 - Teaching Multilingual Learners****Credits:** 4

This course is for people interested in teaching in schools and/or community agencies serving multilingual populations. Topics include: theories of first and second language acquisition, translanguaging, language policies and laws, strategies for teaching academic content to emerging bilinguals in mainstream classroom, creating classroom/school cultures that invite all students into learning, and the role of advocacy and professional collaboration in linguistically diverse public schools. In addition to designing and exploring a variety of teaching activities and techniques, students conduct a rich collection of field assignments including interviewing bi-/multilingual adults; visiting community agencies; and collaboratively designing community engagement activities.

**Grade Mode:** Letter Grading**EDUC 718 - Critical Social Justice in and Beyond Education****Credits:** 4

Students will become familiar with key concepts and principles of critical theory, critical pedagogy, and social justice education so that they may use this body of work to inform their teaching, leadership, and scholarship. We will examine the role of a) schools in providing equity of educational access and outcomes, b) teacher agency to change unjust conditions, and c) micro experiences within schools and the macro layer of context (i.e., history, politics, economics, culture).

**Grade Mode:** Letter Grading

**EDUC 720 - Educational Technology****Credits:** 4

Educators with any experience level will develop the skills and mindset to find and use technology tools that can enhance student learning. Assignments and online discussions focus on foundational educational technology topics, including ethical and social justice considerations, best practices, and national technology standards. Assignments are completed using each week's tech tool category, such as presentations, image/video editing, and website creation. Participants will curate educational technology tools that fit their preferences and needs. This class will include the focus on facilitating remote learning.

**Grade Mode:** Letter Grading**EDUC 733 - Teaching Writing in the Elementary Grades****Credits:** 4

An exploration of writing and writing instruction across a range of expressive forms, including digital technologies, social media, and video. Special emphasis on engagement with and preparation to teach multimodal literacies in elementary classrooms. Includes a focus on language diversity, the relationship between reading, writing, and literacy development, student-centered assessments, and integrating the arts into the reading and writing workshop.

**Attributes:** Writing Intensive Course**Grade Mode:** Letter Grading**EDUC 734 - Critical Perspectives on Children's Literature****Credits:** 4

Interpretive and critical study of literature and nonfiction texts written for elementary and middle school readers. Applications of children's literature in educational settings.

**Grade Mode:** Letter Grading**EDUC 739 - Equitable Assessment and Individualized Educational Planning: Building Access and Agency****Credits:** 4

The first course in a two-semester sequence, this course develops beginning inclusive and special educators' abilities in assessing learners and learning environments, designing, implementing, and evaluation intensive instruction, and implementing high-leverage practices in the areas of collaboration, assessment, and social/emotional/behavioral supports. Provides a focus on federal and state legal and procedural mandates.

**Prerequisite(s):** EDUC 650 with a minimum grade of D- and EDUC 751 with a minimum grade of D-.**Grade Mode:** Letter Grading**EDUC 740 - Advanced Methods for Inclusive Curricular Design and Teaching: Building Access and Agency, Part II****Credits:** 4

The second course in a two-semester sequence, this course develops educator expertise to analyze learners and learning environments; specify learner characteristics; and to design, implement, and evaluate specialized appropriate educational interventions in the areas of language and literacies, mathematics, content area and social/behavioral competencies.

**Prerequisite(s):** EDUC 739 with a minimum grade of D-.**Grade Mode:** Letter Grading**EDUC #741 - Exploring Mathematics with Young Children****Credits:** 4

A laboratory course offering those who teach young children mathematics, and who are interested in children's discovery learning and creative thinking, offers a chance to experience exploratory activities with concrete materials, as well as mathematical investigations, on an adult level, that develop the ability to provide children a mathematically rich environment, to ask problem-posing questions, and to establish a rationale for doing so.

**Prerequisite(s):** MATH 601 with a minimum grade of D-.**Grade Mode:** Letter Grading**EDUC 745 - Math with Technology in Early Education****Credits:** 2

The primary goal of this course is that students gain knowledge of learning standards and teaching methods for the instruction of mathematics in early education settings with infants through 3rd grade. In addition, participants gain experience in applying their newfound knowledge in the areas of mathematics with technology through a combination of teaching and digital experiences. On-line course; no campus visits required. Please note the minimal technical requirements for a UNH e-course.

**Grade Mode:** Letter Grading**EDUC 751A - Inclusive Elementary Education: Literacies and Learning for Diverse Learners****Credits:** 4

This course examines the role and responsibility of the elementary educator as an advocate for, and educator of, students with diverse learning needs. Methods and structure to enable educators to understand, engage, and respond to the challenges presented within an academically diverse classroom are addressed. Special focus is given to research and applications for facilitating emergent literacies and social, emotional and behavioral development.

**Grade Mode:** Letter Grading**Special Fee:** Yes**EDUC 751B - Methods of Inclusive Secondary Education: Literacies, Learning, and Transitions****Credits:** 4

This course examines the role and responsibility of the secondary educator as an advocate for, and educator of students with diverse learning needs. Methods and structures to enable educators to understand, engage, and respond to the challenges presented within an academically diverse classroom are addressed. Special focus is given to research and applications for developing literacy, knowledge and competence within the content areas, and for facilitating post secondary transitions.

**Grade Mode:** Letter Grading**Special Fee:** Yes**EDUC 760 - Introduction to Young Children with Special Needs****Credits:** 4

Needs of children (birth to eight years) with developmental delays or who are at risk for disabilities. Strengths and special needs of such children; causes, identification, and treatment; current legislation; parent and family concerns; program models.

**Grade Mode:** Letter Grading

**EDUC 761 - Designing Curriculum for Inclusive, Equitable Settings for Young Children (birth-8)****Credits:** 4

This course focuses on designing curriculum for inclusive and equitable settings for young children, birth through age 8. Classroom applications for constructivist theory in the areas of curriculum planning and implementation; issues of equity and diversity in curriculum and assessment; overview of research and theory related to teaching and learning of specific content areas, with emphasis on integrated approach to early childhood curriculum. Stresses the reciprocal nature of student-teacher relationship in the inclusive and equitable settings.

**Grade Mode:** Letter Grading**EDUC 762 - Curriculum for Young Children with Special Needs: Evaluation and Program Design****Credits:** 4

Overview of evaluation and intervention issues relevant to early childhood special education, focusing on ages three through eight. Norm-referenced and criterion-referenced assessment tools. Judgment-based evaluation and observation skills. Translation of evaluation information into goals and objectives for individual education programs. Developing appropriate programs in inclusive settings.

**Grade Mode:** Letter Grading**EDUC #767 - Students, Teachers, and the Law****Credits:** 4

Our public schools play a vital role in our society. What shall be taught and who shall teach our children are perennial questions. This course explores how the law impacts the educational lives of students and teachers, including issues of church-state relations, free speech, dress codes, and search and seizure.

**Equivalent(s):** JUST 767**Grade Mode:** Letter Grading**EDUC 784 - Educators as Community-Engaged Researchers****Credits:** 4

With the guidance and support of the instructor, students work in collaborative teams to conduct a systematic inquiry into a current educational studies issue and present their findings and interpretations at a professional or community forum open to the public. Students are encouraged to conduct their research in non-formal education settings including but not limited to community agencies, museums, and after-school programs. Note: EDUC 784 is the principal option for the DMES capstone.

**Grade Mode:** Letter Grading**EDUC 795 - Independent Study****Credits:** 2 or 4

Juniors and seniors only, with approval by appropriate faculty member. Neither course may be repeated.

**Grade Mode:** Letter Grading**EDUC 797 - Special Topics in Education****Credits:** 1-4

An experimental course for the purpose of introducing a new course or teaching a special topics for a semester in an area of specialization in Education.

**Repeat Rule:** May be repeated up to 2 times.**Grade Mode:** Letter Grading**Special Fee:** Yes**EDUC 798 - Internship and Seminar in Inclusive Teaching****Credits:** 4

This course is the fall teaching internship for students enrolled in the BA: Equity, Diversity, and Inclusion program. This internship (as part of a two course sequence) is the culminating field experience as required for certification. Students will complete internships hours with a certified teacher, supervised by a UNH instructor. Students will also attend a weekly seminar where course assignments will be completed.

**Grade Mode:** Credit/Fail Grading**EDUC 799 - Internship and Seminar in Inclusive Teaching****Credits:** 8

This course is the spring teaching internship for students enrolled in the BA: Equity, Diversity, and Inclusion program. This internship (as part of a two course sequence) is the culminating field experience as required for certification. Students will complete internships hours with a certified teacher, supervised by a UNH instructor. Students will also attend a weekly seminar where course assignments will be completed.

**Grade Mode:** Credit/Fail Grading

## Electrical & Computer Engineering (ECE)

# Course numbers with the # symbol included (e.g. #400) have not been taught in the last 3 years.

**ECE 401 - Perspectives in Electrical and Computer Engineering****Credits:** 4

An introductory course for electrical and computer engineering majors that introduces incoming students to the fundamental concepts of analysis and design. Concepts are presented through an examination of real-world problems. Students are introduced to electrical and computer engineering problem solving and design through active learning techniques in lecture and in a laboratory setting. Provides a context for the electrical engineering and computer engineering curriculum and introduces the profession and activities of electrical and computer engineering. Lab.

**Attributes:** Inquiry (Discovery)**Grade Mode:** Letter Grading**ECE #444 - Bionics: Technology from Nature****Credits:** 4

Bionics is the study of living systems with the intention of applying their principles to the design of useful technology for mankind. Students learn strategies to discover bio-inspired technology. The student investigates the fields of bio-inspired cyborgs, defense and attack mechanisms in biology leading to military applications including non-lethal weapons, bio-inspired sensors including brain-computer interfaces, bio-inspired robots, and animal and plants that generate energy for technology. Lab.

**Attributes:** Biological Science(Discovery); Discovery Lab Course; Inquiry (Discovery); Writing Intensive Course**Grade Mode:** Letter Grading**ECE 537 - Introduction to Electrical Engineering****Credits:** 4

Fundamentals of electrical engineering. Topics are circuit elements; signal waveforms; circuit laws and theorems; transfer functions; free, forced, and steady state responses; power calculations; amplifiers; and magnetic circuits. Lab.

**Prerequisite(s):** PHYS 408 with a minimum grade of D- and MATH 527 (may be taken concurrently) with a minimum grade of D-.**Grade Mode:** Letter Grading

**ECE 541 - Electric Circuits****Credits:** 0 or 4

Linear passive circuits beginning with resistive circuits, power and energy relations, mesh and node analysis. Transient and steady-state behavior of simple circuits containing energy storage elements (capacitors, inductors). Introduction to linear active circuits using dependent source models and ideal op amps. Introduction to transfer function and frequency response concepts. Lab.

**Prerequisite(s):** MATH 426 (may be taken concurrently) with a minimum grade of D- and PHYS 408 (may be taken concurrently) with a minimum grade of D-.

**Grade Mode:** Letter Grading**ECE 543 - Introduction to Digital Systems****Credits:** 4

Fundamental analysis and design principles. Number systems, codes, Boolean algebra, and combinational and sequential digital circuits. Lab: student-built systems using modern integrated circuit technology and an introductory design session on a CAD workstation. Lab.

**Grade Mode:** Letter Grading**ECE 548 - Electronic Design I****Credits:** 4

Introduction to electronic design for analog signal processing. Basic Concepts of Semiconductor Materials (electrons and holes, n-type and p-type semiconductors), Diodes (Modeling, Biasing, Zener Diodes, and Rectifier Circuits), FETs (Device Structure, Modes of Operation, and I-V Characteristics), BJTs (Device Structure, Modes of Operation, and I-V Characteristics), Transistor Amplifiers (Biasing a Transistor, Small-Signal Modeling, and Configurations), Operational Amplifier circuits for amplification and filtering. Lab.

**Prerequisite(s):** ECE 541 with a minimum grade of D-.

**Grade Mode:** Letter Grading**ECE 562 - Computer Organization****Credits:** 4

Basic computer structure, including arithmetic, memory, control, and input/output units; the tradeoffs between hardware, instruction sets, speed, and cost. Laboratory experiments will use hardware and software to understand the concepts of instruction set architecture, machine language programming, control and data path design, and I/O interfacing.

**Prerequisite(s):** ECE 543 with a minimum grade of D- and CS 410C with a minimum grade of D-.

**Grade Mode:** Letter Grading**ECE 583 - Designing with Programmable Logic****Credits:** 6

This course covers topics related to field programmable logic devices. Students will be introduced to Hardware Description Language (HDL) design entry languages and simulation procedures, along with common logic synthesis tools. In laboratory exercises, each student will prototype a digital system starting with HDL entry, functional and timing simulations, logic synthesis, device programming, logic probing, and system verification. Labs will develop report writing skills. This course is required for CE majors and optional for EE majors.

**Prerequisite(s):** ECE 543 with a minimum grade of D- and ECE 562 with a minimum grade of D-.

**Grade Mode:** Letter Grading**ECE 602 - Engineering Analysis****Credits:** 3

Analyze and solve engineering problems using linear algebra and integral and differential calculus of functions of several variables. Boundary-value problems in mechanics, fluid dynamics, and electrostatics. Examination of electrostatics, magnetostatics, and fluid and wave mechanics using vector differential and integral calculus. Introduction of approximation and error analysis methods as fundamental engineering tools.

**Prerequisite(s):** MATH 527 with a minimum grade of D- and MATH 645 (may be taken concurrently) with a minimum grade of D-.

**Grade Mode:** Letter Grading**ECE 603 - Electromagnetic Fields and Waves I****Credits:** 3

Maxwell's equations in integral and differential form with applications to static and dynamic fields. Uniform plane waves in free space and material media. Boundary conditions; simple transmission line theory; parallel plate and rectangular waveguides; simple radiating systems.

**Prerequisite(s):** PHYS 408 with a minimum grade of D- and ECE 602 with a minimum grade of D-.

**Grade Mode:** Letter Grading**ECE 617 - Junior Laboratory I****Credits:** 4

Application of laboratory instrumentation to the investigation of active and passive circuit characteristics; introduction to computer-aided design, analysis, and testing; development of report writing and oral presentation skills.

**Attributes:** Writing Intensive Course

**Prerequisite(s):** ECE 633 (may be taken concurrently) with a minimum grade of D- and ECE 651 (may be taken concurrently) with a minimum grade of D-.

**Grade Mode:** Letter Grading**ECE 618 - Junior Laboratory II****Credits:** 0 or 4

Laboratory exercises in the design and analysis of active circuits, techniques of signal processing, and the properties of distributed circuits. Continued development of report writing and oral presentation skills.

**Attributes:** Writing Intensive Course

**Prerequisite(s):** ECE 617 with a minimum grade of D- and ECE 603 (may be taken concurrently) with a minimum grade of D-.

**Grade Mode:** Letter Grading**ECE 633 - Signals and Systems I****Credits:** 3

Mathematical characterization of continuous-time systems using time- and frequency-domain concepts. Properties of linear systems described by ordinary differential equations. Fourier analysis of signals and system frequency response functions. Applications to communication and control systems. Introduction to system simulation using computer methods.

**Prerequisite(s):** MATH 527 with a minimum grade of D- and MATH 645 (may be taken concurrently) with a minimum grade of D-.

**Equivalent(s):** ECE 633H**Grade Mode:** Letter Grading

**ECE 633H - Honors/Signals and Systems I****Credits:** 4

Mathematical characterization of continuous-time systems using time- and frequency-domain concepts. Properties of linear systems described by ordinary differential equations. Fourier analysis of signals and system frequency response functions. Applications to communication and control systems. Introduction to system simulation using computer methods. Honors students will attend an additional one-hour meeting each week.

**Attributes:** Honors course**Prerequisite(s):** MATH 527 with a minimum grade of D- and MATH 645 (may be taken concurrently) with a minimum grade of D-.**Grade Mode:** Letter Grading**ECE 634 - Signals and Systems II****Credits:** 3

Transient response analysis of linear systems using Laplace transforms, application to feedback control systems. Introduction to discrete-time linear systems; system response determination using Z-transform; elementary design of digital filters and controllers. State variable formulation of dynamical systems.

**Prerequisite(s):** ECE 633 with a minimum grade of D-.**Grade Mode:** Letter Grading**ECE 647 - Random Processes and Signals in Engineering****Credits:** 3

Emphasis on applied engineering concepts such as component failure, quality control, noise propagation. Topics include random variables, probability distributions, mean and variance, conditional probability, correlation, power spectral density.

**Prerequisite(s):** MATH 426 with a minimum grade of D- and ECE 602 with a minimum grade of D-.**Equivalent(s):** ECE 647H**Grade Mode:** Letter Grading**ECE 647H - Honors/Random Processes and Signals****Credits:** 4

Emphasis on applied engineering concepts such as component failure, quality control, noise propagation. Topics include random variables, probability distributions, mean and variance, conditional probability, correlation, power spectral density. Honors students attend an additional one-hour meeting each week.

**Attributes:** Honors course**Prerequisite(s):** MATH 426 with a minimum grade of D- and ECE 602 with a minimum grade of D-.**Grade Mode:** Letter Grading**ECE 649 - Embedded Microcomputer Based Design****Credits:** 6

This course covers topics related to architectures for embedded processors, hardware and software aspects of interfacing, handling interrupts, low-level programming including debugging of real-time systems, and embedded application implementations. Laboratory exercises will reinforce theoretical and applied concepts using an embedded architecture and develop report writing skills. Programming experience required. This course is required for CE majors and is optional for EE majors.

**Prerequisite(s):** ECE 562 with a minimum grade of D- and ECE 583 with a minimum grade of D-.**Grade Mode:** Letter Grading**ECE 651 - Electronic Design II****Credits:** 4

Design of fundamental circuit blocks in electronic systems. Multistage amplifiers; feedback systems and stability; power amplifiers. Nonlinear electronic circuits: oscillators, function generators; clippers and peak detectors; A/D and D/A conversion. Switching mode and logic circuits.

**Prerequisite(s):** ECE 548 with a minimum grade of D-.**Grade Mode:** Letter Grading**ECE 652 - Electronic Design II****Credits:** 6

Design of fundamental circuit blocks in electronic systems. Multistage amplifiers; feedback systems and stability; power amplifiers. Laboratory exercises in the design and analysis of active circuits. Application of laboratory instrumentation to the investigation of active circuit characteristics; computer-aided design, analysis, and testing; development of report writing skills. This course is required of EE majors, but it is not required of CE majors.

**Prerequisite(s):** ECE 548 with a minimum grade of D-.**Grade Mode:** Letter Grading**ECE 653 - Electronic Design III****Credits:** 6

Continuation of ECE 652 with emphasis on more advanced circuits including: active filters, Nonlinear electronic circuits: oscillators, function generators, phase-locked loops; clippers and peak detectors; A/D and D/A conversion, switching mode circuits. Laboratory exercises in the design and analysis of active circuits. Further advanced application of laboratory instrumentation to the investigation of active circuit characteristics; computer-aided design, analysis, and testing; development of report writing skills. This course is required of EE majors, but it is not required of CE majors.

**Prerequisite(s):** ECE 652 with a minimum grade of D-.**Grade Mode:** Letter Grading**ECE 714 - Introduction to Digital Signal Processing****Credits:** 4

Introduction to digital signal processing theory and practice, including coverage of discrete time signals and systems, frequency domain transforms and practical spectral analysis, digital filter terminology and design, and sampling and reconstruction of continuous time signals. Laboratory component providing an introduction to DSP design tools and real-time algorithm implementation. Lab.

**Prerequisite(s):** ECE 634 with a minimum grade of D-.**Grade Mode:** Letter Grading**ECE 715 - Introduction to VLSI****Credits:** 4

Principles of VLSI (Very Large Scale Integration) systems at the physical level. CMOS circuit and logic design, CAD tools, CMOS system case studies. Students exercise the whole development cycle of a VLSI chip: design and layout with the up-to-date commercial EDA tools. An IA (continuous grading) grade is given at the end of semester I. Lab.

**Grade Mode:** Letter Grading

**ECE 717 - Introduction to Digital Image Processing****Credits:** 4

Digital image representation; elements of digital processing systems; multidimensional sampling and quantization; image perception by humans, image transformations including the Fourier, the Walsh, and the Hough Transforms; image enhancement techniques including image smoothing, sharpening, histogram equalization, and pseudo color processing; image restoration fundamentals; image compression techniques, image segmentation and use of descriptors for image representation and classification. Lab.

**Prerequisite(s):** ECE 634 with a minimum grade of D- and ECE 647 with a minimum grade of D-.

**Grade Mode:** Letter Grading

**ECE #724 - Ubiquitous Computing Fundamentals****Credits:** 4

Ubiquitous computing, or ubicomp, explores embedded, interconnected computing devices that are part of everyday objects and activities. This course takes an interdisciplinary look at the foundations of ubiquitous computing. Topics include software and hardware for ubicomp, human-computer interaction in ubicomp, and issues related to privacy and security in ubicomp. Students undertake a research project inspired by the material. Registration by permission only.

**Grade Mode:** Letter Grading

**ECE 757 - Fundamentals of Communication Systems****Credits:** 4

Spectra of deterministic and random signals; baseband and bandpass digital and analog signaling techniques; transmitter and receiver architectures; performance analysis of digital and analog signaling in additive noise channels; carrier and symbol timing synchronization methods. Lab.

**Prerequisite(s):** ECE 634 with a minimum grade of D- and ECE 647 with a minimum grade of D-.

**Grade Mode:** Letter Grading

**ECE 772 - Control Systems****Credits:** 4

Development of advanced control system design concepts such as Nyquist analysis; lead-lag compensation; state feedback; parameter sensitivity; controllability; observability; introduction to non-linear and modern control. Includes interactive computer-aided design and real-time digital control. Lab.

**Prerequisite(s):** ECE 634 with a minimum grade of D-.

**Equivalent(s):** ME 772

**Grade Mode:** Letter Grading

**ECE 775 - Applications of Integrated Circuits****Credits:** 4

Design and construction of linear and nonlinear electronic circuits using existing integrated circuits. Limitations and use of operational amplifiers. Laboratory course in practical applications of non-digital integrated circuit devices. Lab.

**Prerequisite(s):** ECE 651 with a minimum grade of D-.

**Grade Mode:** Letter Grading

**ECE 784 - Biomedical Instrumentation****Credits:** 4

Principles of physiological and biological instrumentation design including transducers, signal conditioning, recording equipment, and patient safety. Laboratory includes the design and use of instrumentation for electrocardiography, electromyography, electroencephalography, pulse measurement, blood pressure, phonocardiography, spirometry, and temperature. Current research topics such as biotelemetry, ultrasonic diagnosis, and computer applications.

**Prerequisite(s):** ECE 548 with a minimum grade of D- or ECE 537 with a minimum grade of D-.

**Grade Mode:** Letter Grading

**ECE 791 - Senior Project I****Credits:** 3

First semester of the capstone design experience. Topics include creativity, design methodology, specification development, project management, ethics, safety, reliability and preparation for oral and written reports. Students develop project plans, and prepare and present written and oral project proposals. The project plans must include aspects of design, implementation and evaluation. At the end of the semester, students prepare a written progress report. All ECE Core Course Requirements must be met prior to enrolling in Senior Project I.

**Attributes:** Writing Intensive Course

**Equivalent(s):** ECE 791H

**Grade Mode:** Letter Grading

**ECE 791H - Senior Honors Project I****Credits:** 4

First semester of the capstone honors senior thesis research. Topics include creativity, design methodology, specification development, project management, ethics, safety, reliability and preparation for oral and written reports. Students develop project plans, and prepare and present written and oral project proposals. The project plans must include aspects of design, implementation and evaluation, similar to ECE 791. However, honors thesis research must also include independent research beyond the normal scope of ECE 791. At the end of the semester students prepare a written progress report. All ECE Core Course Requirements must be met prior to enrolling in Senior Honors Project I.

**Attributes:** Honors course; Writing Intensive Course

**Equivalent(s):** ECE 791

**Grade Mode:** Letter Grading

**ECE 792 - Senior Project II****Credits:** 3

This course requires the completion of the capstone design experience begun in ECE 791. At the end of the semester students prepare written final project reports, and present their results in a research poster session.

**Attributes:** Writing Intensive Course

**Prerequisite(s):** ECE 791 with a minimum grade of D-.

**Equivalent(s):** ECE 792H

**Grade Mode:** Letter Grading

**ECE 792H - Senior Honors Project II****Credits:** 4

This course requires the completion of the capstone honors thesis research begun in ECE 791H. At the end of the semester students prepare honors theses, and present their research results in a research poster session. ECE 791H/792H fulfills the requirement of one professional elective.

**Attributes:** Honors course; Writing Intensive Course**Prerequisite(s):** ECE 791H with a minimum grade of D-.**Equivalent(s):** ECE 792**Grade Mode:** Letter Grading**ECE 795 - Electrical and Computer Engineering Projects****Credits:** 1-4

Laboratory course. Student undertakes a project of mutual interest with an ECE faculty advisor. A written final report must be filed with the ECE Department.

**Grade Mode:** Letter Grading**ECE 796 - Special Topics****Credits:** 1-4

New or specialized courses and/or independent study. 1 to 4 credits some sections may use credit/fail grading.

**Grade Mode:** Letter Grading

## Engineering Technology (ET)

# Course numbers with the # symbol included (e.g. #400) have not been taught in the last 3 years.

**ET 401 - Introduction to 3D Printing****Credits:** 4

This project-based course explores the latest techniques in designing and fabricating 3D models using 3D printing technology. Through the integration of techniques from mathematics, engineering, and computing, students learn to design 3D models and manufacture them using 3D printers. The course challenges students to apply their skills in a variety of engineering projects that require creative problem-solving and critical thinking.

**Attributes:** Environment, TechSociety(Disc)**Grade Mode:** Letter Grading**ET 405 - Engineering Design****Credits:** 4

This course introduces the engineering design process and solid modeling software tools to create 3D CAD models and generate professional industry engineering drawings. Industry codes and procedures are practiced e.g. Geometric Dimensioning & Tolerancing (GD&T). Students complete hands-on projects and activities. The engineering design process includes: problem identification, concept creation, modeling, analysis, and documentation. Industry standard 3D modeling software is used with project design methodology for graphical, written, and oral communication of mechanical design ideas.

**Attributes:** Inquiry (Discovery)**Grade Mode:** Letter Grading**ET 411 - Manufacturing and Materials Processing****Credits:** 0 or 4

This course covers the basic manufacturing processes used to convert raw materials into finished goods. Various manufacturing methods including both traditional and computer controlled covered include: machining, forming, casting, welding, 3D printing. The complex relationship between design and manufacturability is investigated and emphasized. The lab portion of this course will demonstrate the use of various machining processes which are capable in the UNHM Machine Shop Lab.

**Prerequisite(s):** MATH 418 with a minimum grade of C- and ET 405 with a minimum grade of C-.**Grade Mode:** Letter Grading**Special Fee:** Yes**ET 421 - Digital Electronics I****Credits:** 0 or 4

The fundamental analysis and design concepts of digital theory needed for more advanced study of digital circuits. Topics covered include: number systems, codes, Boolean algebra, K-mapping, and combinational, sequential digital circuits. Lab exercises explore modern integrated circuit technology and introductory design using Electronic Design Automation (EDA) tools.

**Co-requisite:** COMP 424**Prerequisite(s):** MATH 418 with a minimum grade of C-.**Grade Mode:** Letter Grading**ET 431 - Circuit Analysis I****Credits:** 0 or 4

First course in electronic circuit analysis exploring the fundamental idea of current and voltage. Topics include the basic laws and theorems that govern simple electrical systems; Kirchhoff's laws, Ohm's law, power relationships, resistance, inductance, and capacitance. Laboratory exercises will introduce the student to the basic measurement techniques of electronic systems using circuit building, power supplies, multi-meters and oscilloscopes. This course will also introduce basic circuit simulation techniques.

**Prerequisite(s):** MATH 418 (may be taken concurrently) with a minimum grade of C-.**Grade Mode:** Letter Grading**ET 432 - Circuit Analysis II****Credits:** 0 or 4

Second course in electronic circuit analysis, introducing time varying circuits and more advanced electronic circuit analysis; including super position, node/mesh methods, phasor representation, frequency response, impedance, and reactance. Lab exercises use oscilloscopes, function generators to build and analyze circuits with reactive elements.

**Co-requisite:** MATH 425**Prerequisite(s):** MATH 418 with a minimum grade of C- and ET 431 with a minimum grade of C-.**Grade Mode:** Letter Grading

**ET 450 - Statics and Strength of Materials****Credits:** 0 or 4

The statics portion of the course analyzes equilibrium force systems applied to rigid bodies and the internal stresses and strains which result. The strength of materials portion of the course investigates the relationship between internal stress and strain to material properties and behavior. Topics include free body diagrams, equilibrium force analysis, tension, compression, shear and moment diagrams, torsion, bending, trusses, and beam deflection analysis. Lab.

**Prerequisite(s):** MATH 418 with a minimum grade of C- and PHYS 407 (may be taken concurrently) with a minimum grade of C-.

**Grade Mode:** Letter Grading**ET 502 - Measurement and Control****Credits:** 0 or 4

The course covers basic electricity and electronics (analog and digital) and electronic components (transistors, op-amps, SCR's). Electromechanical principles are introduced involving sensors and transducers used in production processes. Programming using the Arduino software and microcontroller is introduced. The basics of Programmable Logic Control (PLC) using Relay Ladder Logic programming is covered. Students use both hardware and software covered in the lecture portion of the course in the laboratory session.

**Prerequisite(s):** MATH 418 with a minimum grade of C-.

**Grade Mode:** Letter Grading**ET 505 - Material Science****Credits:** 0 or 4

This course studies the properties and behavior of engineering materials. Materials considered are ferrous and nonferrous metals and alloys, as well as plastics, ceramics, and composites. Material property and behavior modification through thermal and mechanical means is studied: such as heat treatment of steel or cold work forming. Selection of materials based upon manufacturing and design requirements is emphasized. Lab experiments will complement lecture material where appropriate.

**Prerequisite(s):** MATH 425 with a minimum grade of C- and ET 450 with a minimum grade of C-.

**Grade Mode:** Letter Grading**ET 522 - Digital Electronics II****Credits:** 0 or 4

Advanced topics in digital design techniques. Topics covered include: complex digital circuits, Flip-Flop circuits, counters, state machines, state diagrams, and memory devices. Laboratory exercises work with modern digital design methods with schematic entry, synthesis using VHDL, simulation modern digital systems implemented on Field Programmable Gate Arrays (FPGA).

**Prerequisite(s):** ET 421 with a minimum grade of C-.

**Grade Mode:** Letter Grading**ET 529 - Introduction to Thermodynamics****Credits:** 4

This course covers the fundamentals of equilibrium thermodynamics. Topics include: thermodynamic properties of gases and liquids, thermodynamic tables, ideal gas laws, open and closed systems, thermodynamic processes and process diagrams, First and Second Laws of Thermodynamics, entropy, and an introduction to thermodynamic cycles.

**Prerequisite(s):** MATH 425 with a minimum grade of C-.

**Grade Mode:** Letter Grading**ET 541 - Electronic Devices****Credits:** 4

Introductory course in Electronic devices looking at modern components used in current electronic systems. This course will develop techniques to analyze basic semiconductor devices such as diodes, field effect transistors and bipolar transistors. Specific diode circuits covered include: rectifying, clipping, and clamping circuit configurations. Methods to model, analyze and bias the basic transistor amplification circuits will be developed. Lab exercises will explore these types of circuit both in physical prototyping and simulation.

**Prerequisite(s):** MATH 425 with a minimum grade of C- and ET 431 with a minimum grade of C- and ET 432 with a minimum grade of C-.

**Grade Mode:** Letter Grading**ET 542 - Analog Electronics****Credits:** 0 or 4

Design of fundamental analog circuit blocks in electronic systems. Multistage amplifiers; feedback systems and stability; power amplifiers. Nonlinear electronic circuits: oscillators, function generators; clippers and peak detectors; A/D and D/A conversion. Laboratory exercises will explore building physical prototypes and the use of simulation to build and analyze Analog systems.

**Grade Mode:** Letter Grading**ET 550 - Dynamics and Machine Design I****Credits:** 0 or 4

The dynamics portion of the course covers basic fundamentals of particle and rigid body dynamics, rectilinear and curvilinear motion, and kinematic motion. The machine design portion covers static and dynamic stress analysis theories, combined stress, and fatigue and endurance strength. Introduction to various machine element analyses are begun including fasteners, springs, and shaft design. Computer applications are employed where appropriate using CAD and Excel. Lab.

**Prerequisite(s):** ET 405 with a minimum grade of C- and ET 450 with a minimum grade of C- and MATH 425 (may be taken concurrently) with a minimum grade of C-.

**Grade Mode:** Letter Grading**ET 560 - Machine Design II****Credits:** 0 or 4

This course is a continuation of ET 550 Machine Design portion. Additional machine elements and their related analyses are covered. Power transmission drive components such as gears, belts, chains, clutches and brakes are covered. Lab projects will involve individual components or combined items above. Computer application software is used where appropriate, including CAD and Excel. Lab.

**Prerequisite(s):** ET 550 with a minimum grade of C-.

**Grade Mode:** Letter Grading**ET 590 - Embedded Microcontrollers****Credits:** 0 or 4

The purpose of this course is to explore the subject of microprocessors and embedded systems, covering architectural issues, programming, and interfacing. The course will also cover processor organization, emphasizing the typical structure of today's microcontrollers, processor models, and programming styles. Throughout the material, the consideration of input/output systems to the use of various embedded peripherals and interfacing external loads for a spectrum of diverse applications will be addressed.

**Prerequisite(s):** ET 522 with a minimum grade of C-.

**Grade Mode:** Letter Grading

**ET 625 - Technical Communications****Credits:** 4

Designed to improve students' capabilities to prepare and present technical information in written and oral form and through electronic means. ET majors should take this course early in their program of study so that proficiencies developed can be utilized in later courses. (Also listed as ENGL 502.)

**Attributes:** Writing Intensive Course**Equivalent(s):** ENGL 502, ENGL 502H**Grade Mode:** Letter Grading**ET 635 - Fluid Technology and Heat Transfer****Credits:** 0 or 4

Fundamental principles of fluid technology and basic principles of heat transfer, with applications in solving practical problems, and how these concepts are used in the HVAC area. Lab.

**Prerequisite(s):** ET 529 with a minimum grade of C-.**Grade Mode:** Letter Grading**ET 641 - Production Systems****Credits:** 4

Market forecasting; waiting line theory; manufacturing inventories and their control; production scheduling; quality control.

**Prerequisite(s):** MATH 425 with a minimum grade of C-.**Grade Mode:** Letter Grading**Special Fee:** Yes**ET 644 - Mechanical Engineering Technology Concepts in Analysis and Design****Credits:** 4

Kinematics, kinetics, work and energy, fluids, heat transfer; application of these concepts to problems in mechanical design.

**Prerequisite(s):** ET 450 with a minimum grade of C- and ET 560 with a minimum grade of C-.**Grade Mode:** Letter Grading**ET 645 - Fluid Technology and Heat Transfer II****Credits:** 0 or 4

The course prepares the student to apply thermal and fluid engineering principles to situations typical of those encountered in industry. Topics covered include thermodynamics of two phase fluids, fluid dynamics of piping systems, principles of turbomachinery, and analysis of power cycles. No credit for students who have taken ET #696 Special Topics in Mechanical Engineering Technology for credit. Lab.

**Prerequisite(s):** ET 635 with a minimum grade of C- and MATH 425 with a minimum grade of C-.**Grade Mode:** Letter Grading**ET 671 - Digital Systems****Credits:** 0 or 4

Digital systems design and application using TTL and CMOS devices, design of systems, and interfacing. Digital design project required. Lab.

**Prerequisite(s):** ET 522 with a minimum grade of C-.**Grade Mode:** Letter Grading**ET 674 - Control Systems and Components****Credits:** 0 or 4

Topics include linear systems analysis, the Laplace transform and its properties, controllers, root locus technique, transient response analysis, first- and second-order systems, error analysis, and control system design. Lab.

**Prerequisite(s):** MATH 425 with a minimum grade of C-.**Grade Mode:** Letter Grading**ET 675 - Electrical Technology****Credits:** 0 or 4

Electrical circuits: DC and AC network analysis, power factors, transformers, power supplies. Electronic circuits—diodes, transistors and operational amplifiers. Digital circuits and introduction to computer-aided engineering. Lab.

**Prerequisite(s):** MATH 425 with a minimum grade of C-.**Grade Mode:** Letter Grading**ET 677 - Analog Systems****Credits:** 0 or 4

Operational amplifiers. Transducers and measurement systems. Frequency response. Grounding and shielding. Signal and power interfacing techniques. Design project. Lab.

**Prerequisite(s):** ET 542 with a minimum grade of C-.**Grade Mode:** Letter Grading**ET 680 - Communications and Fields****Credits:** 0 or 4

Topics include Fourier series analysis; the Fourier transform and its properties; convolution; correlation including PN sequences; modulation theory; encoding and decoding of digital data (NRZ-M, NRZ-S, RZ, Biphasic-L, and Manchester); antennas and antenna pattern; Radar Range Equation; and an introduction to information theory. Lab.

**Prerequisite(s):** MATH 425 with a minimum grade of C-.**Grade Mode:** Letter Grading**ET #696 - Topics in Mechanical Engineering****Credits:** 0-4

New or specialized courses not covered in regular course offerings.

**Repeat Rule:** May be repeated for a maximum of 4 credits.**Equivalent(s):** ET 695**Grade Mode:** Letter Grading**ET #697 - Topics in Electrical Engineering Technology****Credits:** 0-4

New or specialized courses not covered in regular course offerings.

**Repeat Rule:** May be repeated for a maximum of 4 credits.**Grade Mode:** Letter Grading**ET 751 - Mechanical Engineering Technology Project****Credits:** 4 or 8

Students are required to find solutions to actual technological problems in design, fabrication, and testing as posed by industry. Students define the problem, prepare a budget, and work with the client company to research, design, build, and test the software and/or hardware needed. A year-long course: 4 credits per semester; an IA grade (continuous course) given at the end of first semester. Withdrawal from course results in loss of credit.

**Attributes:** Writing Intensive Course**Repeat Rule:** May be repeated for a maximum of 8 credits.**Grade Mode:** Letter Grading**ET 781 - Introduction to Automation Engineering****Credits:** 4

Students are introduced to the topics needed to develop a good understanding of the basic principles of Automation Engineering. This introductory course covers a wide variety of topics such as performance of sensors, actuators, motors and drives, PLC's and HMI, environmental controls, robots, machine vision systems, and controls and system integration. Open to Electrical Engineering Technology, and Mechanical Engineering Technology majors only.

**Grade Mode:** Letter Grading

**ET 788 - Introduction to Digital Signal Processing****Credits:** 0 or 4

This course will deal with the topics of spectral representation of periodic and non-periodic analog signals followed by discrete sampling and aliasing and how it relates to Nyquist sampling theorem. The z-transform will be introduced as the required mathematical tool along with an introduction to MATLAB and its associated DSP tool box. Spectral analysis of digital signal will be accomplished using these tools. Convolution and digital filtering will also be covered. Lab.

**Prerequisite(s):** ET 680 with a minimum grade of C-.**Grade Mode:** Letter Grading**ET 790 - Microcomputer Technology****Credits:** 0 or 4

Microcomputer systems design, including assembly language, interfacing, processor timing and loading, and inter-processor communications via local area networks. Hardware, software, and architecture of both Intel 80X86 and Motorola 68XX0 microprocessors. Microcomputer applications with emphasis on lab work using Motorola HCLII microcontroller. Lab.

**Prerequisite(s):** ET 671 with a minimum grade of C-.**Grade Mode:** Letter Grading**ET 791 - Electrical Engineering Technology Project****Credits:** 4 or 8

Students are required to find solutions to actual technological problems in design, fabrication, and testing, as posed by industry. Students define the problem, prepare a budget, and work with the client company to research, design, build, and test the software and/or hardware needed. A year-long course: an IA grade (continuous course) given at end of first semester. Withdrawal from course results in loss of credit.

**Attributes:** Writing Intensive Course**Repeat Rule:** May be repeated for a maximum of 8 credits.**Grade Mode:** Letter Grading

## English (ENG) CPSO

# Course numbers with the # symbol included (e.g. #400) have not been taught in the last 3 years.

**ENG 420 - The Writing Process****Credits:** 4

This course introduces students to the foundational concepts and skills needed to communicate effectively in writing for academic study and professional development. Students will learn how to use the four stages of the writing process - prewriting, drafting, revising, and editing - to create written communication that meets its intended purpose for its intended audience. Students will also be introduced to rhetorical styles and the role of outside sources in academic writing. Constructing and implementing effectively-designed search strategies for information to answer a critical inquiry or research question are also addressed in this course.

**Attributes:** English (Gen Ed); Writing Intensive Course**Equivalent(s):** ENG 500G**Grade Mode:** Letter Grading**ENG 450 - Introduction to Literature****Credits:** 4

This writing and reading intensive course is foremost intended to increase students' exposure to and appreciation of literature in its many forms. Students will therefore read and discuss the primary genres of poetry, the short story, drama, and the novel. The second goal of the course is to hone students' abilities to read, write, and think critically about the ways in which human experience itself is shaped by language in literary texts. Through the development of literary analysis skills and the practice of writing about literature, students will learn to communicate meaningfully about literature as an art form with aesthetic, social, cultural, and political significance.

**Attributes:** Human Thought Exp (Gen Ed); Humanities(Disc); Writing Intensive Course**Prerequisite(s):** (CRIT 501 with a minimum grade of D- or CRIT 501G with a minimum grade of D-) and (ENG 420 with a minimum grade of D- or ENG 500G with a minimum grade of D- or ENGL 401 with a minimum grade of D-).**Equivalent(s):** ENG 504G**Grade Mode:** Letter Grading**ENG 505 - Introduction to Language and Linguistics****Credits:** 4

This course promotes meaningful literacy instruction through the study of language, language acquisition, the study of sounds and sound formation, word formation, and how words combine into larger meaningful units. The prescriptive standardization of such language forms as spelling, semantics, pronunciation, style, and register are addressed in this course. Basic components of descriptive grammar, to include syntax, semantics, phonology, and morphology are applied. Students will have the opportunity to develop an appreciation for regional and ethnic dialects and examine how language changes and develops over time.

**Attributes:** Human Thought Exp (Gen Ed); Writing Intensive Course**Prerequisite(s):** ENG 420 with a minimum grade of D- or ENG 500G with a minimum grade of D-.**Equivalent(s):** ENG 505G**Grade Mode:** Letter Grading**ENG 544 - Special Topics: Lower Level****Credits:** 1-4

A study of current and variable topics in English. Course content changes from term to term.

**Prerequisite(s):** ENG 420 with a minimum grade of D- or ENG 500G with a minimum grade of D-.**Repeat Rule:** May be repeated up to unlimited times.**Equivalent(s):** ENG 544G**Grade Mode:** Letter Grading

**ENG 545 - The Media and Its Messages****Credits:** 4

Grounded within the context of media studies, this course engages students in a critical and analytical exploration of the media and its influences on American culture and society. The course examines the various ways that the media functions as both a lens for interpreting culture and a tool through which culture is shaped. Through critical engagement with various forms of media, students explore the roles of film, visual art, television, music, mass media, and web-based media in shaping their understanding of literature, writing, and culture.

**Attributes:** Environment,TechSociety(Disc); Human Thought Exp (Gen Ed); Writing Intensive Course

**Prerequisite(s):** ENG 420 with a minimum grade of D- or ENG 500G with a minimum grade of D-.

**Equivalent(s):** ENG 508G

**Grade Mode:** Letter Grading

**ENG 555 - Children's Literature****Credits:** 4

What are the qualities that make a particular work of children's literature endure? Why do some deceptively simple books remain favorites for years? Citing the work of psychologists, art historians, educators, and authors, students explore these and similar questions. The course considers picture books, traditional literature, and Young Adult novels. Students prepare annotated bibliographies of various genres, taking a personal look at the important role particular books play in the moral and social development of children.

**Attributes:** Human Thought Exp (Gen Ed); Humanities(Disc)

**Prerequisite(s):** ENG 420 with a minimum grade of D- or ENG 500G with a minimum grade of D- or ENGL 401 with a minimum grade of D-.

**Equivalent(s):** ENG 555G

**Grade Mode:** Letter Grading

**ENG 565 - Modern American Writers 1865 to the Present****Credits:** 4

For the past 150 years, American writers have grappled with the concept of what America is and what it might become. By reading fiction, poetry, drama, and non-fiction from 1865 to the present, this course explores how modern writers have shaped—and revealed—American identities. Readings may include authors of "Local Color" writing, Realism, the "Lost Generation," and the Postmodern era, as well as writers of the Harlem, Southern, and Native American Renaissances, in their historical, literary, and cultural contexts. Through reading, writing, and research, learners will interrogate evolving American experiences.

**Attributes:** Human Thought Exp (Gen Ed); Humanities(Disc)

**Prerequisite(s):** ENG 420 with a minimum grade of D- or ENG 500G with a minimum grade of D- or ENGL 401 with a minimum grade of D-.

**Equivalent(s):** ENG 510G

**Grade Mode:** Letter Grading

**ENG 585 - Short Fiction****Credits:** 4

This class focuses on late 19th through early 21st century short fiction, including both the short story and the novella. Readings and discussion of primary works by selected authors combine with study of secondary commentaries that outline the evolution of and theories about the genre. Students develop a basis for interpreting complex texts and for analyzing the techniques and characteristics that give short fiction its distinctive literary flavor.

**Attributes:** Human Thought Exp (Gen Ed); Writing Intensive Course

**Prerequisite(s):** ENG 420 with a minimum grade of D- or ENG 500G with a minimum grade of D-.

**Equivalent(s):** ENG 633G

**Grade Mode:** Letter Grading

**ENG 590 - Expository Writing****Credits:** 4

This course extends and refines writing, reading, and critical thinking skills. Through analysis of texts, study of language as a symbol system, and exploration of advanced expository and persuasive techniques, students identify and apply effective strategies for creating and communicating meaning in their own essays. Writing within the course integrates research and citation in ways that are appropriate to the individual learner's chosen field of study. The workshop format of the course includes class discussion, individual conferences with the instructor, and peer critique of work in progress.

**Attributes:** Writing Intensive Course

**Prerequisite(s):** (CRIT 501 with a minimum grade of D- or CRIT 501G with a minimum grade of D-) and (ENG 420 with a minimum grade of D- or ENG 500G with a minimum grade of D-).

**Equivalent(s):** ENG 600G

**Grade Mode:** Letter Grading

**ENG 604 - Creative Writing****Credits:** 4

The goal of this course is for students to develop their own capacity for creative expression by writing in fiction, poetry, and other genres using the major craft forms and elements of the genre. They will also generate strategies for reading and interpreting contemporary published writing in the same genres. A workshop format will be used for students to learn how discussing works in progress with other writers can advance their own creative expression and support the creative expression of others. The workshop format will also introduce students to the unique challenges posed by the revision process in reworking an original creative work for an external audience.

**Attributes:** FinePerformingArts(Discovery); Human Thought Exp (Gen Ed); Writing Intensive Course

**Prerequisite(s):** ENG 420 with a minimum grade of D- or ENG 500G with a minimum grade of D-.

**Equivalent(s):** ENG 604G

**Grade Mode:** Letter Grading

**ENG 610 - War Writing in the 21st Century****Credits:** 4

This course is designed to bridge the ever-widening civilian-military gap in the United States by examining the twenty-first century war experience through literature. The course will explore stories in multiple genres such as fiction, poetry, memoir, drama, and blogs to gain insights into the value of stories portraying combat and its aftermath. The course will also explore representations of military families on the home front. In addition to assigned readings, learners will have the opportunity to design research projects tailored to their own interests. This course provides insight to those who work with veterans and/or military families in the fields of behavioral health, health care, business, or education, and to anyone exercising their civic duties in a democracy.

**Attributes:** Human Thought Exp (Gen Ed); Writing Intensive Course**Prerequisite(s):** ENG 420 with a minimum grade of D- or ENG 500G with a minimum grade of D-.**Equivalent(s):** ENG 550G**Grade Mode:** Letter Grading**ENG 615 - Young Adult Literature****Credits:** 4

This course explores a wide range of literature for young adults, along with social and literary criticism that help to illuminate the impact of this literature. Through readings and discussion of both current and classic literature, students identify why literature is a powerful tool and how it can help young adults shape their lives. Learners respond to young adult literature through written analyses and critiques.

**Attributes:** Human Thought Exp (Gen Ed); Humanities(Disc)**Prerequisite(s):** ENG 420 with a minimum grade of D- or ENG 500G with a minimum grade of D- or ENGL 401 with a minimum grade of D-.**Equivalent(s):** ENG 560G**Grade Mode:** Letter Grading**ENG 620 - Multicultural Perspectives through Literature****Credits:** 4

As the new realities of the global village erode long-standing assumptions about discrete nationhood and fixed cultures, the concept of what it means to be an American is also shifting. Through representative literary works, this course explores the challenges individuals from various ethnic, racial, and cultural backgrounds confront within a pluralistic society. Students construct a more inclusive definition of culture, assess traditional attitudes about race and ethnicity, and appreciate just how deeply Native, African, Hispanic, Asian, and European Americans have enriched our national identity.

**Attributes:** Human Thought Exp (Gen Ed); Humanities(Disc)**Prerequisite(s):** ENG 420 with a minimum grade of D- or ENG 500G with a minimum grade of D- or ENGL 401 with a minimum grade of D-.**Equivalent(s):** ENG 620G**Grade Mode:** Letter Grading**ENG 625 - Readings in World Literature****Credits:** 4

This course surveys representative texts in English by writers around the world, past and present. Readings from diverse periods and genres introduce major themes, movements, and topics in selected works from any or all of the following: antiquity, Europe, Asia, Africa, Latin America, the Caribbean, and the Pacific. Discussions of political, historical, and cultural contexts suggest the powerful forces that have shaped and continue to influence literary forms and traditions outside the U.S. and Britain.

**Attributes:** Human Thought Exp (Gen Ed)**Prerequisite(s):** ENG 420 with a minimum grade of D- or ENG 500G with a minimum grade of D-.**Equivalent(s):** ENG 625G**Grade Mode:** Letter Grading**ENG 644 - Special Topics: Upper Level****Credits:** 1-4

A study of current and variable topics in English. Course content changes from term to term. It is expected that the student will have prior coursework or experience in the subject matter.

**Repeat Rule:** May be repeated up to unlimited times.**Equivalent(s):** ENG 644G**Grade Mode:** Letter Grading**ENG 645 - Disability in Literature and Culture****Credits:** 4

This course provides students with an in-depth study of how the portrayal of people with disabilities of many kinds - physical, emotional, social, and mental - in literature is reflective of the social and historical context in which it was written. Students apply close textual analysis of the imagery used to describe people with disabilities and evaluate the cultural attitudes this use of language reveals. Students read literature written by both disabled and non-disabled authors and analyze the ways that many stereotypical portrayals of disability undermine the disability community. Questions of how a culture decides what is "normal," how portrayals of the disability experience in literature differ between adults and children, and how the advocacy role is portrayed in literature are also examined. The goal of this course is to discover how literature can challenge our own assumptions about the experience of the disabled by contemplating what ultimately makes us human.

**Attributes:** Human Thought Exp (Gen Ed); Writing Intensive Course**Prerequisite(s):** ENG 420 with a minimum grade of D- or ENG 500G with a minimum grade of D-.**Equivalent(s):** ENG 645G**Grade Mode:** Letter Grading

**ENG 675 - Survey of Classic Literature Through Film****Credits:** 4

This course explores the interaction between film and literature in order to introduce students to major literary texts and their adaptations through film. Students will have the opportunity to read and analyze a selection of novels, plays, and poetry from major American and British writers. The course invites students to investigate cinematic interpretations of major works, and to position them within their historical and cultural contexts (taking careful consideration of portrayals of race, gender, class, religion, and sexuality). Students will practice analyzing literary text and film, and engage in scholarly and critical research. Additionally, they will use their work over the course of the semester to either create their own research on the topic or develop a lesson plan that incorporates literature and film for K-12 students. Selections of texts and films will represent commonly taught works.

**Attributes:** Human Thought Exp (Gen Ed)**Prerequisite(s):** ENG 420 with a minimum grade of D- or ENG 500G with a minimum grade of D- or Has Accred Associate Deg with a score of WAIV or Has Accred Bachelor Deg with a score of WAIV.**Equivalent(s):** ENG 636G**Grade Mode:** Letter Grading**ENG 730 - The Graphic Novel****Credits:** 4

This course will explore several different kinds of graphic novellas, memoir, fantasy, social critiques, adaptations, etc. in an effort to understand how writers and illustrators weave words and images together to create meaning in unique ways that transcend traditional genres and harness new modes of expression. The students will have an opportunity to broaden their knowledge and appreciation of graphic novels as they apply critical concepts to their study and produce their own comics. Recommended: ART 401 and CRIT 501.

**Attributes:** Human Thought Exp (Gen Ed)**Prerequisite(s):** ENG 420 with a minimum grade of D- or ENG 500G with a minimum grade of D-.**Equivalent(s):** ENG 630G**Grade Mode:** Letter Grading

## English (ENGL)

# Course numbers with the # symbol included (e.g. #400) have not been taught in the last 3 years.

**ENGL 400 - English for International Students****Credits:** 1-4

Designed for international students to provide additional support in course work. Students continue to develop skills in listening comprehension, speaking, reading, and writing in English. No letter grades.

**Attributes:** Writing Intensive Course**Repeat Rule:** May be repeated for a maximum of 4 credits.**Equivalent(s):** ENGL 400A**Grade Mode:** Credit/Fail Grading**ENGL 401 - First-Year Writing****Credits:** 4

Training to write more skillfully and to read with more appreciation and discernment. Frequent individual conferences for every student.

**Attributes:** Writing Skills(Discovery); Writing Intensive Course**Equivalent(s):** ENGL 401A, ENGL 401H**Grade Mode:** Letter Grading**ENGL 401A - First Year Writing for Multi-Lingual Students****Credits:** 4

A special section of first-year writing for students whose native language is not English. Training to write more skillfully and to read with more appreciation and discernment, with special attention to the challenges of non-native speakers of English. Supplemental work on listening and speaking as necessary. Frequent individual conferences for every student. Students may not take both ENGL 401 and ENGL 401A for credit.

**Attributes:** Writing Skills(Discovery); Writing Intensive Course**Equivalent(s):** ENGL 401, ENGL 401H**Grade Mode:** Letter Grading**ENGL 401H - Honors/First-Year Writing****Credits:** 4

Training to write more skillfully and to read with more appreciation and discernment. Frequent individual conferences for every student.

**Attributes:** Honors course; Writing Skills(Discovery); Writing Intensive Course**Equivalent(s):** ENGL 401, ENGL 401A**Grade Mode:** Letter Grading**ENGL 401S - Literacy Studio****Credits:** 2

Develops college-level literacy skills through scaffolded instruction, necessary for success in English 401.

**Co-requisite:** ENGL 401**Grade Mode:** Credit/Fail Grading**ENGL #403W - Exploring Literature****Credits:** 4

The art of thoughtfully enjoying major literary works.

**Attributes:** Humanities(Disc); Writing Intensive Course**Equivalent(s):** ENGL 403**Grade Mode:** Letter Grading**ENGL 405 - Introduction to Linguistics****Credits:** 4

Overview of the study of language: universal properties of human language, Chomsky's innateness of hypothesis, language acquisition in children, dialects and language variation, language change. Includes introduction to modern grammar (phonology, syntax, semantics) and to scientific linguistic methodology.

**Attributes:** Social Science (Discovery); Inquiry (Discovery)**Equivalent(s):** ENGL 405H, ENGL 505, ENGL 505H, LING 405, LING 405H, LING 505, LING 505H**Grade Mode:** Letter Grading**ENGL 415C - Literature and Medicine****Credits:** 4

Literary representations of medical practice are used to prompt discussion of broad issues concerning medical philosophy and medical ethics, the image of the medical professional in the media, differing conceptions of healing in various social contexts worldwide, and changes in biological science and medicine on the larger society. Ideal for students interested in: Health Care, Biomedical Sciences, Physical therapy, and Nutrition.

**Attributes:** Humanities(Disc); Writing Intensive Course**Prerequisite(s):** ENGL 401 with a minimum grade of B.**Equivalent(s):** ENGL 415A, ENGL 415B, ENGL 415E, ENGL 415F, ENGL 415G, ENGL 415J**Grade Mode:** Letter Grading

**ENGL 419 - How to Read Anything****Credits:** 4

Whether epic or tweet, song lyric or script, English 419 prepares you for close, detailed, and critical readings and for writing with clarity and precision. You'll discover selected prose, poetry, plays and films from across the English-speaking world throughout history. Whatever your major, this course develops skills in research, writing, and critical thinking. Prerequisite (with minimum grade of C) for declaring one of the four majors or two options offered in the English Department.

**Attributes:** Inquiry (Discovery); Writing Intensive Course**Equivalent(s):** ENGL 419H**Grade Mode:** Letter Grading**ENGL 440A - On Race in Culture and Society****Credits:** 4

Of our special concern will be the claim that race is a culturally or socially, not biologically, constructed category. The reading list will include literary texts (Toni Morrison's "Recitatif"), works of African American comedians (Bill Cosby, Richard Pryor, Eddie Murphy, etc.), philosophical texts (Immanuel Kant, W.E.B. DuBois, K.A. Appiah, etc.) as well as some legal documents (recent U.S. Supreme Court decisions concerning affirmative action). We will also do two case studies, one on the name of Redskins and one the Whiteness Project. The general goal of the course is to improve the student's ability to speak and think critically about race and race relations in the U.S.

**Attributes:** Honors course; Humanities(Disc); Writing Intensive Course**Grade Mode:** Letter Grading**ENGL 440B - Honors/Seeing is Believing: How the Copernican Revolution Changed the Way We See Ourselves****Credits:** 4

This course explores the various ways that scientists, philosophers, poets, novelists, and literary theorists have tried to reconcile what we see (or think we see) with what we know (or think we know), from the ancient past to the 21st century. Our special focus will be on how the Copernican Revolution prompted a wholesale reevaluation of perception and knowledge. We will explore how writers, artists musicians, and philosophers embraced or lamented the enormous cultural and psychological changes that the Copernican evolution helped to introduce. We also will investigate how these changes continue to shape our worldview in the 21st-century.

**Attributes:** Honors course; Humanities(Disc)**Grade Mode:** Letter Grading**ENGL 444D - The Irish Experience****Credits:** 4

Explores the historical causes and literary effects of emigration from Ireland to other regions in the North and South Atlantic. Considers the political and economic conditions of Ireland itself and asks how Irish identities are first formed dialectically through contact with indigenous others and then nostalgically constituted through the experience of migration.

**Attributes:** Humanities(Disc); Inquiry (Discovery); Writing Intensive Course**Grade Mode:** Letter Grading**ENGL 444N - Monsters!!!****Credits:** 4

This course will introduce students to a number of critical thinking processes by examining one of the most symbolically significant human archetypes, Monsters. By engaging works of historical significance and popular texts, students will explore a familiar subject from historical, political, psychological, and literary points of view.

**Attributes:** Humanities(Disc); Inquiry (Discovery); Writing Intensive Course**Grade Mode:** Letter Grading**ENGL 501 - Introduction to Creative Nonfiction****Credits:** 4

A writing course that explores types of creative nonfiction such as nature writing, the profile, the memoir, and the personal essay. Extensive reading of contemporary authors to study the sources and techniques used in creative nonfiction. Regular papers, conferences, and workshops.

**Attributes:** FinePerformingArts(Discovery); Writing Intensive Course**Prerequisite(s):** ENGL 401 with a minimum grade of D-.**Equivalent(s):** ENGL 501H**Grade Mode:** Letter Grading**ENGL 502 - Professional and Technical Writing****Credits:** 4

A writing course introducing students to the effective communication of technical information through various workplace documents including resumes, memos, business letters, reports, brochures, etc. Special emphasis on an introduction to professional conventions and genres and to the transferable skills of rhetorical and audience analysis, document design and collaborative work.

**Attributes:** Writing Intensive Course**Prerequisite(s):** ENGL 401 with a minimum grade of D-.**Equivalent(s):** ENGL 502H, ET 625**Grade Mode:** Letter Grading**ENGL 503 - Persuasive Writing****Credits:** 4

Writing of all types of persuasive nonfiction prose, including argumentative essays and position papers. Special attention to argumentative structures and analysis of audiences. Weekly papers of varying lengths and formats, frequent conferences.

**Attributes:** Writing Intensive Course**Prerequisite(s):** ENGL 401 with a minimum grade of D-.**Grade Mode:** Letter Grading**ENGL 504 - Resume Writing****Credits:** 2

Write your resume now! Readings from recruiters, scholars, and managers reveal what employers want in resumes and cover letters, and what they don't want. Topics include: understanding ATS (applicant tracking systems); analyzing purpose and audience; learning cutting-edge designs; writing detailed and efficient content; tailoring your resume to the job advertisement; writing persuasive cover letters; and formatting and editing tips. Students will identify two job advertisements and write a resume and letter for each.

**Grade Mode:** Credit/Fail Grading

**ENGL 510 - Introduction to the Digital Humanities****Credits:** 4

Digital methods can greatly intensify our understanding of literary works, non-fiction writing, film and many other modes of expression in the humanities. This course introduces students to the methods of thought, research and argumentation that digital technology makes possible. These may include identifying quantifiable language patterns, working with archival documents, mapping locations in written works, illuminating historical works, creating digital visualizations of texts, or working with translation tools and concordances.

**Attributes:** Writing Intensive Course**Prerequisite(s):** ENGL 401 with a minimum grade of D-**Repeat Rule:** May be repeated for a maximum of 8 credits.**Grade Mode:** Letter Grading**ENGL 511 - Major Writers in English****Credits:** 4

In-depth study and discussion of a few American and/or British writers. Topics and approaches vary depending on instructors. May be repeated for credit, barring duplication of topic.

**Attributes:** Humanities(Disc); Writing Intensive Course**Grade Mode:** Letter Grading**ENGL 512 - British Literature I Age of Heroes: Beowulf to Dr. Faustus****Credits:** 4

An introduction to the earliest poetry, prose and drama in English, considered in chronological order and in historical context. Examine important literary works as the old English epic Beowulf, Chaucer's entertaining collection Canterbury Tales, the Arthurian romance Sir Gawain and the Green Knight, the devotional autobiography The Book of Margery Kempe, the sermon in dramatic form Everyman, Edmund's Spenser's chivalric saga The Faerie Queen and the sonnets of Philip Sidney and William Shakespeare.

**Attributes:** Humanities(Disc); Writing Intensive Course**Grade Mode:** Letter Grading**ENGL 513W - British Literature II Age of Revolutions: Shakespeare to Austen****Credits:** 4

The English literary tradition from the Renaissance to the early Romantics spans a period of great social tumult. It includes civil war, new ideas in science, theology, and politics, and expanding British power abroad. Amidst such change flourished reinvented classical genres like the epic, satire, and stage comedy, as well as new forms like the novel, the pamphlet and the newspaper. This class provides a brisk survey of the revolutionary literature of this fascinating age.

**Attributes:** Humanities(Disc); Writing Intensive Course**Equivalent(s):** ENG 513H, ENGL 513**Grade Mode:** Letter Grading**ENGL #514 - British Literature III: Revolts, Renewals, Migrations****Credits:** 4

Encounter the Romantic fantasies of John Keats's nature poetry and Mary Shelley's Frankenstein, the Victorian novels that brought us Jane Eyre, Ebenezer Scrooge and Mr. Hyde, the experiments of Modernists like Virginia Woolf and James Joyce, and Postmodern transformations by a shifting cast of contemporaries. We'll read these works in the context of imperial expansion and contraction, the crises of world wars, and the civil rights and independence struggles of the 20th and 21st centuries.

**Attributes:** Humanities(Disc)**Equivalent(s):** ENGL 514H, ENGL 514W**Grade Mode:** Letter Grading**ENGL 514W - British Literature III: Revolts, Renewals, Migrations****Credits:** 4

Encounter the Romantic fantasies of John Keats's nature poetry and Mary Shelley's Frankenstein, the Victorian novels that brought us Jane Eyre, Ebenezer Scrooge and Mr. Hyde, the experiments of Modernists like Virginia Woolf and James Joyce, and Postmodern transformations by a shifting cast of contemporaries. We'll read these works in the context of imperial expansion and contraction, the crises of world wars, and the civil rights and independence struggles of the 20th and 21st centuries.

**Attributes:** Humanities(Disc); Writing Intensive Course**Equivalent(s):** ENGL #514, ENGL 514H**Grade Mode:** Letter Grading**ENGL #515W - American Literature I Conquest and Nation: First Contact to the Civil War****Credits:** 4

Read texts from the English settlement of North America to the founding of the U.S. and to the national crisis of the Civil War. Encounter an astonishing range of voices in exploration accounts, sermons, captivity narratives, Native American writings, Revolutionary texts, autobiographies, fiction, nature writing, slave narratives, and poetry. The course offers students knowledge of the formative period of American literature and experience in textual analysis through reading and writing about multiple genres.

**Attributes:** Humanities(Disc); Writing Intensive Course**Grade Mode:** Letter Grading**ENGL #516 - American Literature II Money, Migration, and Modernity: Huck Finn to Beloved****Credits:** 4

Students will discuss novels, plays, poems, and essays that address the difficult issues of national rebuilding, the temptations of a new consumer culture, the devastations of numerous wars fought overseas, and encounters with European, Jewish, Latin American, and Asian immigrants. Whether comparing nineteenth-century Huckleberry Finn with twentieth-century Beloved or making sense of modern and postmodern literary playfulness, students will become thoughtful readers and writers.

**Attributes:** Humanities(Disc)**Equivalent(s):** ENGL 516H, ENGL 516W**Grade Mode:** Letter Grading**ENGL 516W - American Literature II Money, Migration, and Modernity: Huck Finn to Beloved****Credits:** 4

**Attributes:** Humanities(Disc); Writing Intensive Course**Equivalent(s):** ENGL #516, ENGL 516H**Grade Mode:** Letter Grading

**ENGL #517 - Black Creative Expression****Credits:** 4

What is African American culture? What defines it? This course surveys the diverse forms of African American creative expression, from literature and music to theatre and the visual arts Set against the historical backdrop of the slave trade, Civil War, and the black freedom movement, we will examine how writers, artists, and performers have engaged the African American experience of home and family; life and death; past and future.

**Attributes:** Humanities(Disc); Inquiry (Discovery); Writing Intensive Course

**Equivalent(s):** AMST 502, ENGL 517H

**Grade Mode:** Letter Grading

**ENGL 518W - Bible as Literature****Credits:** 4

Have you ever wanted to read the Bible to gain a better understanding of history, religion, and the arts? Do you want to be able to discuss current religious and political issues in a Biblically informed way? Or maybe you just want bragging rights. Approaching the Bible as a literary work, this course investigates the intense and complicated emotional relationship between God and humanity. For people of faith, some faith, or no faith.

**Attributes:** Humanities(Disc); Writing Intensive Course

**Equivalent(s):** ENGL 518, ENGL 518H

**Grade Mode:** Letter Grading

**ENGL 520 - Dystopian and Post-Apocalyptic Fiction****Credits:** 4

What's behind the explosion of the dystopian and post-apocalyptic subgenres in the past decade? How do these seer-like representations of the future revisit older narrative traditions? We will discover why these prophetic forms--straddling the realms of science, politics, literature, and psychology--are at the forefront of the popular imagination. Assignments include blog posts, an op-ed, an imitative style exercise, and participation in online group chats from which you have a wide selection of times.

**Attributes:** Humanities(Disc)

**Grade Mode:** Letter Grading

**ENGL 521 - Nature Writers****Credits:** 4

Literary non-fiction writings by naturalists on natural environments. The course explores questions about what is "nature" or "natural" and why are they valued? What is sought, exploited, abused, known in "nature"? What does nature writing achieve or relieve? What might it teach us as writers and planetary citizens? Is nature or nature writing raced? Gendered? Gilbert White, Henry David Thoreau, Emerson, Muir, Carson, and a diversity of others.

**Attributes:** Humanities(Disc); Writing Intensive Course

**Equivalent(s):** ENGL 521H

**Grade Mode:** Letter Grading

**ENGL 526 - Introduction to Fiction Writing****Credits:** 4

Writing fiction asks us to say: who am I? What's happening in the world around me? Awakening to the story in your life, and thus to your own imagination, will change your life. Repeatedly, we see fiction writers find their power as creative people. You might become the head of a major corporation! You might just write a great novel or short story. Or just be happier. Join us: write stories, change your life.

**Attributes:** FinePerformingArts(Discovery); Writing Intensive Course

**Prerequisite(s):** ENGL 401 with a minimum grade of D-.

**Grade Mode:** Letter Grading

**ENGL 527 - Introduction to Poetry Writing****Credits:** 4

Writing poetry is training for life - its practice deepens both the liveliness and rigor of the mind. This course is run in a workshop/discussion format - it uses innovative exercises, guided prompts, language games, and readings that teach the basics of craft, while showing you how to think like a writer, opening up to the pleasures and surprises of the creative process. No prior experience necessary.

**Attributes:** FinePerformingArts(Discovery); Writing Intensive Course

**Prerequisite(s):** ENGL 401 with a minimum grade of D-.

**Grade Mode:** Letter Grading

**ENGL 533 - Introduction to Film Studies****Credits:** 4

A survey of the international development of the motion picture from the silent period to the present, emphasizing film's narrative practices. Introduces students to the study of the art, history, technology, economics, and theory of cinema. Films and film makers of various nations, periods, movements, and genres examined.

**Attributes:** Humanities(Disc)

**Equivalent(s):** ENGL 533H, ENGL 533W

**Grade Mode:** Letter Grading

**ENGL 534 - 21st Century Journalism: How the News Works****Credits:** 4

This class explores ways new technology, including social media, has affected the practice of journalism, and examines journalism past and present. Students discuss libel law, ethics and how to define plagiarism in the digital age. This survey is meant not only to lay a foundation for prospective journalists, but also to provide a broad understanding of the news media for those interested in how the news works.

**Attributes:** Environment,TechSociety(Disc)

**Grade Mode:** Letter Grading

**ENGL 549 - In the Groove: African American Music as Literature****Credits:** 4

This is a music appreciation course that focuses on getting students into, behind, and under "the groove" of African American music and its intellectual traditions of black pride, power, and cultural expressivity. This course will contain a broad introduction to African American music origins but it will also consider the impact of cultural contexts such as slavery and Euro-American musical influences on African American culture. Students will gain new appreciation for the multi-faceted and wide-ranging ways in which African American music is performed how this music has helped unite one nation under its soulful groove.

**Attributes:** FinePerformingArts(Discovery)

**Grade Mode:** Letter Grading

**ENGL 550 - Introduction to the Literature and Culture of Race****Credits:** 4

This course introduces students to readings across the field of ethnic literature and culture in order to form their capacity to speak and think critically about race relations in America. Readings will include those in race theory, racial construction and authenticity, histories of raced subjects in America, the rise of ethnic studies, white ignorance and whiteness studies, the intersectionality of race with gender, sexual orientation, economic class, religion, and faith. Includes Asian American, African American, Native, and Latino/a literature.

**Attributes:** Humanities(Disc); Inquiry (Discovery); Writing Intensive Course

**Repeat Rule:** May be repeated for a maximum of 8 credits.

**Grade Mode:** Letter Grading

**ENGL 555 - Science Fiction****Credits:** 4

This course examines stories, novels, and film from the popular genre of science fiction. A variety of literary critical approaches are deployed to discuss a number of key authors and texts from the nineteenth century to the present.

**Attributes:** Humanities(Disc)**Equivalent(s):** ENGL 555H**Grade Mode:** Letter Grading**ENGL 560 - Introduction to Latinx Literature and Culture****Credits:** 4

This course introduces students to the field of Latinx literature and culture in order to develop the ability to speak and think critically about race relations in the USA. Course readings will be drawn from texts produced primarily in English by individuals of Latin American descent. Readings may include immigration and borderlands discourse, art, music, television and film, histories of Latinx subjects in America, and the intersectionality of race with gender, sexual orientation, economic class and religion.

**Attributes:** Humanities(Disc); Inquiry (Discovery); Writing Intensive Course**Grade Mode:** Letter Grading**ENGL 565 - Literary Dublin: Short-Term Study Abroad****Credits:** 4

In this short-term study abroad experience, students will gain an appreciation of Ireland's many challenges of self- and other identity related to its location, conquest, colonization, emigration, religions, and recent global immigration. Contemporary course selections reference people (including Irish Americans) and events brought to life on site in Dublin. The course includes UNH guest speakers from English, history, and anthropology; Dublin-based speakers when available. Offers Irish American students research into their genealogy. Students must have a 3.25 GPA and 32 credits.

**Attributes:** Humanities(Disc)**Grade Mode:** Letter Grading**Special Fee:** Yes**ENGL 575 - Sex and Sensibility: The Rise of Chick Lit****Credits:** 4

This course examines the courtship novel, with an emphasis on female protagonists. How have various writers addressed the institution of marriage and long-term commitment, and the role finances play in partner choice? We'll start with the novels of Jane Austen and move to contemporary "chick lit", the latest incarnation of the romantic quest narrative, in order to understand this genre's continuing popularity. Assignments include blogs, online chats, research essays, and creative writing opportunities.

**Attributes:** Humanities(Disc)**Grade Mode:** Letter Grading**ENGL 581 - Reading the Postcolonial Experience****Credits:** 4

Modern South Asia and Africa have been shaped by their history of colonization. What is it like to live in places once dominated by foreigners, then reshaped by nationalisms and various injustices intensified by globalization? In this course, we'll read literary depictions that illuminate the lives, dreams, joys, hates, and failures of individuals and groups in these places, exploring both ordinary life and extraordinary experiences created by dispossession, political tyranny, civil war, and environmental trauma.

**Attributes:** World Cultures(Discovery); Writing Intensive Course**Equivalent(s):** ENGL 581H**Grade Mode:** Letter Grading**ENGL 585 - Introduction to Women in Literature****Credits:** 4

The goal of this course is to examine women's roles in literary traditions, including women as authors and women as characters. We interrogate categories of sex, gender, and sexuality as they intersect with other categories of identity including race, class, and nation. Specific topics differ each semester according to the individual instructor. Recent semesters have included "Jewish Women Writers" and "Female Authors of the Mystery Novel". May be repeated for credit, barring duplication of topic.

**Attributes:** Writing Intensive Course**Repeat Rule:** May be repeated for a maximum of 8 credits.**Equivalent(s):** ENGL 585H, ENGL 585R**Grade Mode:** Letter Grading**ENGL 585R - Introduction to Women in Literature****Credits:** 4

The goal of this course is to examine women's roles in literary traditions, including women as authors and women as characters. We interrogate categories of sex, gender, and sexuality as they intersect with other categories of identity including race, class, and nation. Specific topics differ each semester according to the individual instructor. Recent semesters have included "Jewish Women Writers" and "Female Authors of the Mystery Novel". **Attributes:** Writing Intensive Course**Repeat Rule:** May be repeated for a maximum of 8 credits.**Equivalent(s):** ENGL 585**Grade Mode:** Letter Grading**ENGL 595 - Literary Topics****Credits:** 4

Investigate in depth a literary topic of particular interest, in a course specially designed for both majors and non-majors. Themes vary from semester to semester—recent topics include the contemporary short story, Irish literature, animals in literature, and the literature of the Vietnam War. See the English Department for details of current offerings. May be repeated for credit, barring duplication of topic.

**Attributes:** Writing Intensive Course**Repeat Rule:** May be repeated for a maximum of 8 credits.**Equivalent(s):** ENGL 595H, ENGL 595W**Grade Mode:** Letter Grading

**ENGL 600 - English for International Students****Credits:** 1-4

Designed for international students to provide additional support in course work. Students continue to develop skills in listening comprehension, speaking, reading, and writing in English. No letter grades. Credits received for this course can help satisfy the requirements for student visa, but they will normally not count towards a graduate degree. Students are encouraged to check with their individual academic advisors.

**Repeat Rule:** May be repeated for a maximum of 4 credits.**Grade Mode:** Graduate Credit/Fail grading**ENGL 602 - Advanced Professional and Technical Writing****Credits:** 4

An advanced writing course focusing on writing in a global and technological workplace. In addition to fluency in the documents of the workplace, students focus on visual rhetoric in a technological environment through web design and usability while studying the issues of globalism, ethics, and the environment that affect all professional writing today.

**Attributes:** Writing Intensive Course**Grade Mode:** Letter Grading**ENGL 605 - Intermediate Linguistic Analysis****Credits:** 4

Introduces analysis methods and problem solving in phonology, morphology, and syntax using data from many languages. Emphasis will be both practical (learning how to describe the grammar and sound system of a language) and theoretical (understanding languages' behavior).

**Prerequisite(s):** ENGL 405 with a minimum grade of D- or LING 405 with a minimum grade of D-.**Equivalent(s):** LING 605**Grade Mode:** Letter Grading**ENGL 606 - Languages of the World****Credits:** 4

A survey of the languages of the world from genetic, areal, and typological perspectives. Students learn about the geographic and demographic distribution of language families and language isolates, as well as about structural characteristics of languages, language families and language areas. Additional topics include language endangerment and the question of linguistic universals. Students work collaboratively on a project investigating a particular language family, giving in class presentations and writing up a final project report. Some prior knowledge of phonetics, phonology, morphology, and syntax is necessary.

**Prerequisite(s):** ENGL 605 with a minimum grade of D- or LING 605 with a minimum grade of D- or ENGL 405 with a minimum grade of D- or LING 405 with a minimum grade of D-.**Equivalent(s):** LING 606**Grade Mode:** Letter Grading**ENGL 609 - Ethnicity in America: The African American Experience in the 20th Century****Credits:** 4

Investigation of the music, literature, and social history of African American America in the period of the Harlem Renaissance, in the Great Depression, World War II, and in the 1960s. Special attention to the theme of accommodation with and rejection of dominant white culture.

**Attributes:** Writing Intensive Course**Equivalent(s):** AMST 609, HUMA 609**Grade Mode:** Letter Grading**ENGL 616A - Studies in Film/Genre****Credits:** 4

Advanced, focused study of the narrative, dramatic, and poetic practices of cinema, within one of four possible subject areas: A) Genre; B) Authorship; C) Culture and Ideology; D) Narrative and Style. Precise issues and methods may vary, ranging from general and specific considerations of how a given subject area involves film theory, criticism, and history, to its use in diverse analyses of selected national cinemas, periods, movements, and filmmakers. May be repeated for credit barring duplication of topic. Barring duplication of material taken for credit in CMN 650, course may be repeated for credit. Detailed course descriptions available in the English department office.

**Attributes:** Writing Intensive Course**Repeat Rule:** May be repeated up to unlimited times.**Equivalent(s):** AMST 605, ENGL 616**Grade Mode:** Letter Grading**ENGL 616B - Studies in Film/Authorship****Credits:** 4

**Attributes:** Writing Intensive Course**Repeat Rule:** May be repeated up to unlimited times.**Equivalent(s):** AMST 605, ENGL 616**Grade Mode:** Letter Grading**ENGL 618 - Film Theory****Credits:** 4

Examines basic theories of film and their relationship to the practice of close analysis of film. Theories are meant to provide students with a vocabulary for critical analysis and stress the many ways of seeing film.

**Grade Mode:** Letter Grading**ENGL 620 - English Major Internship****Credits:** 1-4

Open to all English majors. Internships allow students to use skills learned in the major in a supervised work setting. In addition to the job experience, the English major internship requires research and writing assignments overseen by a faculty sponsor. These supplementary assignments must be outlined in a written proposal describing the work involved in the internship and how it relates to the student's academic training. Registration requires permission from the employer, faculty sponsor, major advisor, and department chairperson. The employer must be an established organization approved by Career Services. This course does not count toward the English major or substitute for English 720, the Journalism Internship.

**Repeat Rule:** May be repeated for a maximum of 8 credits.**Grade Mode:** Credit/Fail Grading**ENGL 621 - News Writing****Credits:** 4

Students get a strong journalistic foundation with hands-on experience reporting and writing compelling news stories for print and digital platforms. Skills taught include finding news stories and tracking down sources; conducting interviews and verifying facts; and drafting and revising stories. ENGL 621 may be taken more than once for credit with the approval of the Journalism Program Director. Students must fill out a Permission to Repeat an English Course For Credit form, available in the department office.

**Attributes:** Writing Intensive Course**Prerequisite(s):** ENGL 401 with a minimum grade of D- and ENGL 534 with a minimum grade of D-.**Repeat Rule:** May be repeated for a maximum of 8 credits.**Grade Mode:** Letter Grading**ENGL 623 - Creative Nonfiction****Credits:** 4

Intensive writing course emphasizing the blend of basic elements that constitute creative nonfiction: research, observation, and personal experience. Also readings and discussion of some of the best published creative nonfiction. Students must fill out a Permission to Repeat an English Course For Credit form, available in the department office.

**Attributes:** Writing Intensive Course**Prerequisite(s):** ENGL 501 with a minimum grade of D- or ENGL 526 with a minimum grade of D- or ENGL 527 with a minimum grade of D-.**Repeat Rule:** May be repeated for a maximum of 8 credits.**Grade Mode:** Letter Grading**ENGL 625 - Intermediate Fiction Writing Workshop****Credits:** 4

Students continue to explore the aspects of fiction writing. Through short exercises students learn to create visual scenes, integrate exposition with dramatic scene, and construct convincing characters in believable situations. We'll continue to explore the basic elements of what makes a short story, such as point of view, dialogue, dramatization, voice, meaning, language. Students write short stories and significantly revise them. Through discussion of student writing in a workshop format, as well as reading and responding to short stories by published authors, we'll address the questions: What is a short story? How do we create a world in which the reader is fully involved? Where does the story evoke emotion or meaning? ENGL 625 may be taken more than once for credit, recommended with two different instructors. Students must fill out a Permission to Repeat an English Course For Credit form, available in the department office.

**Attributes:** Writing Intensive Course**Prerequisite(s):** ENGL 501 with a minimum grade of D- or ENGL 526 with a minimum grade of D- or ENGL 527 with a minimum grade of D-.**Repeat Rule:** May be repeated for a maximum of 8 credits.**Grade Mode:** Letter Grading**ENGL 625A - Intermediate Fiction Writing Workshop: Screenwriting****Credits:** 4

In this course, intermediate creative writers will learn the craft of writing scripts for film and television. Students will continue to explore the elements of effective storytelling by writing and significantly revising loglines, outlines, and complete short screenplays. The course will combine in-depth analysis of classic and contemporary screenplays (including shorts, teleplays, and feature-length films) with lectures, writing exercises, and peer workshops. Topics will include dramatic structure, professional formatting and planning, and how to develop vividly compelling characters, scenes, conflict and dialogue. The aim of the course will not be to simply reinforce existing narrative principles but rather to test the validity of existing conventions. Throughout we will address the questions: What makes a story relevant, moving, thrilling, or meaningful? Why does this story need to be told visually? What makes a great script great? ENGL 625A may be taken more than once for credit, recommended with two different instructors. Students must fill out a Permission to Repeat an English Course For Credit form, available in the department office.

**Attributes:** Writing Intensive Course**Prerequisite(s):** ENGL 501 with a minimum grade of D- or ENGL 526 with a minimum grade of D- or ENGL 527 with a minimum grade of D-.**Repeat Rule:** May be repeated for a maximum of 8 credits.**Grade Mode:** Letter Grading

**ENGL 627 - Intermediate Poetry Writing Workshop****Credits:** 4

Workshop discussion of poems written by students, with focus on more complex techniques and forms. Individual conferences with instructor. ENGL 627 may be taken more than once for credit, recommended with two different instructors. Students must fill out a Permission to Repeat an English Course For Credit form, available in the department office.

**Attributes:** Writing Intensive Course

**Prerequisite(s):** ENGL 501 with a minimum grade of D- or ENGL 526 with a minimum grade of D- or ENGL 527 with a minimum grade of D-.

**Repeat Rule:** May be repeated for a maximum of 8 credits.**Grade Mode:** Letter Grading**ENGL 631 - Digital Reporting****Credits:** 4

This course immerses students in the digital news landscape and teaches them to report across multiple platforms. Students learn reporting tools and strategies for producing dynamic digital journalism.

**Attributes:** Writing Intensive Course**Prerequisite(s):** ENGL 621 with a minimum grade of B.**Equivalent(s):** ENGL 531**Grade Mode:** Letter Grading**ENGL 636 - Literature and the Environment****Credits:** 4

How do writers represent the environment? What's at stake in those depictions? Includes both literary and critical readings. Topics may vary and engage different historical periods: women and environmental justice, the urban environment, postcolonial environmental writers. Interdisciplinary perspectives (drawn from history, geography, visual arts, media studies, etc.) may inform the discussion of the readings. May be repeated for credit, barring duplication of topic.

**Attributes:** Writing Intensive Course**Repeat Rule:** May be repeated for a maximum of 8 credits.**Grade Mode:** Letter Grading**ENGL 650 - I Hear America Singing: Studying American Literature and Culture****Credits:** 4

Examine unique themes, theories, and works of art in American Studies that are not offered on a regular basis. This course explores the intersection of literature and medicine; as well as comics and graphic narrative; music and social protest, photography and nonfiction; the literature of Stonewall. Learn how to approach the proposed subject, its specialized vocabulary, history and politics in its pages, and its value for the contemporary moment. May be repeated for credit, barring duplication of topic.

**Attributes:** Writing Intensive Course**Repeat Rule:** May be repeated for a maximum of 8 credits.**Equivalent(s):** AMST 603, ENGL 650R**Grade Mode:** Letter Grading**ENGL 650R - I Hear America Singing: Studying American Literature and Culture****Credits:** 4

Examine unique themes, theories, and works of art in American Studies that are not offered on a regular basis. This course explores the intersection of literature and medicine; as well as comics and graphic narrative; music and social protest, photography and nonfiction; the literature of Stonewall. Learn how to approach the proposed subject, its specialized vocabulary, history and politics in its pages, and its value for the contemporary moment. May be repeated for credit, barring duplication of topic.

**Attributes:** Writing Intensive Course**Repeat Rule:** May be repeated for a maximum of 8 credits.**Equivalent(s):** AMST 603, ENGL 650**Grade Mode:** Letter Grading**ENGL 655 - Reading in all Directions: Comics and Graphic Narrative****Credits:** 4

"Reading happens in all directions," says Hilary Chute about the study of comics and graphic narrative. In this course, students will learn to read images and texts from all directions: up, down, horizontally, vertically, across panels and jacket flaps, in seriality and on the internet. Comics' ability to represent both trauma and the trivial takes students from newspaper funnies to the Holocaust, from superheroes in mid-century floppies to Underground comix and current autobiographical comics, comics journalism, comics history, and fiction.

**Attributes:** Writing Intensive Course**Repeat Rule:** May be repeated for a maximum of 8 credits.**Grade Mode:** Letter Grading**ENGL 657 - Shakespeare****Credits:** 4

An introduction to the main periods of Shakespeare's playwriting career, addressing representative works from each of the genres in which he wrote (tragedy, comedy, history, romance). We will discuss such matters as a Renaissance theater architecture and performance conventions, Shakespeare's poetic language, the representation of women, commoners and minorities on stage, royal power and court politics, love, sex, religion, and revenge. Live and filmed performances will be included as available.

**Attributes:** Writing Intensive Course**Prerequisite(s):** ENGL 401 with a minimum grade of D-.**Equivalent(s):** ENGL 657H**Grade Mode:** Letter Grading**ENGL 681 - Contemporary African Literature****Credits:** 4

What was the first African novel in English? Should African writers write in the language of erstwhile colonizers? What is literature's function in corrupt autocracies? What was theatre like under apartheid? Who are the New South Africa's major writers? We'll explore answers to these and many other questions. Marked by colonial history and cultural exchanges between Africans, Arabs, Europeans and Asians, postcolonial African literature will challenge your understanding of Africa and of literature itself.

**Attributes:** Writing Intensive Course**Grade Mode:** Letter Grading

**ENGL 690 - African American Literature****Credits:** 4

Whether in poetry and prose, or fiction and nonfiction, what issues have occupied African American writers and readers? What joy do these writers and readers derive from the written word and oral tradition? Motivated by these questions, this class traces the origins of an African American literary tradition in British North American; charts the circulation of ideas about democracy and citizenship in the nineteenth-century United States; and maps ongoing debates about race and representation today.

**Attributes:** Writing Intensive Course**Grade Mode:** Letter Grading**ENGL 693 - Special Topics in Literature****Credits:** 4

A) Old English Literature, B) Medieval Literature, C) 16th Century, D) 17th Century, E) 18th Century, F) English Romantic Period, G) Victorian Period, H) 20th Century, I) Drama, J) Novel, K) Poetry, L) Nonfiction, M) American Literature, N) A Literary Problem, O) Literature of the Renaissance, R) Race and Racial Theories. The precise topics and methods of each section vary. Barring duplication of subject, course may be repeated for credit. For details, see course descriptions available in the English department. (Not offered every year.) Special fee on some topics.

**Attributes:** Writing Intensive Course**Repeat Rule:** May be repeated up to 2 times.**Grade Mode:** Letter Grading**Special Fee:** Yes**ENGL 693R - Special Topics in Literature****Credits:** 4

A) Old English Literature, B) Medieval Literature, C) 16th Century, D) 17th Century, E) 18th Century, F) English Romantic Period, G) Victorian Period, H) 20th Century, I) Drama, J) Novel, K) Poetry, L) Nonfiction, M) American Literature, N) A Literary Problem, O) Literature of the Renaissance, R) Race and Racial Theories. (Not offered every year.) Special fee on some topics.

**Attributes:** Writing Intensive Course**Repeat Rule:** May be repeated for a maximum of 8 credits.**Equivalent(s):** ENGL 693**Grade Mode:** Letter Grading**Special Fee:** Yes**ENGL 694 - Special Topics in Creative Writing****Credits:** 4

Courses offered under this number feature a variety of topics having to do with creative writing. Barring duplication of subject, course may be repeated for credit. For details, see the course descriptions available in the English Department.

**Attributes:** Writing Intensive Course**Repeat Rule:** May be repeated for a maximum of 8 credits.**Grade Mode:** Letter Grading**ENGL 701 - Advanced Fiction Writing Workshop****Credits:** 4

Students come to this course with a firm grasp of all the elements of fiction, ready to write short stories that construct convincing characters in believable situations. In a workshop format, students give and receive critiques on classmates' work. Significant revisions of short stories and thorough discussions of work by published authors will round out the course as students continue to explore the art of writing the short story. Students are responsible for leading discussion of published stories.

ENGL 701 may be taken more than once for credit, recommended with two different instructors.

**Attributes:** Writing Intensive Course**Prerequisite(s):** ENGL 625 with a minimum grade of D-.**Repeat Rule:** May be repeated for a maximum of 8 credits.**Grade Mode:** Letter Grading**ENGL #703T - Travel Writing****Credits:** 4

A workshop devoted to reading and writing and writing narratives of place. Travel writing requires the author to research and reflect, exploring both the external--the place--and the internal--the author's experience.

Students write multiple travel pieces and read widely essays of place by writers such as John Steinbeck, Joan Didion, Pico Iyer and Eliza Griswold.

**Co-requisite:** INCO 589**Attributes:** Writing Intensive Course

**Prerequisite(s):** ENGL 501 with a minimum grade of D- or ENGL 621 with a minimum grade of D- or ENGL 623 with a minimum grade of D-.

**Equivalent(s):** ENGL 703**Grade Mode:** Letter Grading**Special Fee:** Yes**ENGL 710 - Teaching Writing****Credits:** 4

This course will introduce you both to the theories and practices of teaching writing in middle and high school at a time of increased accountability. The course is designed for students who are interested in exploring teaching as a possible career. In the course we will try out varied literacy activities and study teaching writing using a process approach. We discuss different approaches to planning instruction and various forms of writing assessment, including state-wide tests.

**Attributes:** Writing Intensive Course**Grade Mode:** Letter Grading**ENGL 711 - Editing****Credits:** 4

Survey of newspaper and news website editing, covering topics ranging from grammar and style to headline writing to ethics.

**Attributes:** Writing Intensive Course**Prerequisite(s):** ENGL 621 with a minimum grade of D-.**Grade Mode:** Letter Grading**ENGL 712 - Multimedia Storytelling****Credits:** 4

In this course, students explore the theory and practice of visual storytelling -- including composition, lighting, editing and more -- to produce short yet vibrant journalistic video documentaries. Students learn to shoot and edit audio and video. They explore narrative techniques and structure. They broaden their reportorial range, bringing visual sensitivity to storytelling.

**Attributes:** Writing Intensive Course**Prerequisite(s):** ENGL 621 with a minimum grade of D-.**Grade Mode:** Letter Grading

**ENGL 714 - Critical Skills****Credits:** 4

This course provides training in critical analysis of various texts (literature, film, and media). Criticism is often applied to the hot-button issues of the day. We ask questions like: How does gender shape the way we read? How to interpret texts in a globalized world? Does the truth matter? This course satisfies a post-1800 literature requirement for English Department majors; may be taken for elective credit by English Teaching Majors.

**Attributes:** Writing Intensive Course**Prerequisite(s):** ENGL 419 with a minimum grade of D-.**Equivalent(s):** ENGL 617**Grade Mode:** Letter Grading**ENGL 715 - Teaching English as a Second Language: Theory and Methods****Credits:** 4

A course on the linguistic, psychological, and sociological theories that inform our understanding of language acquisition and current best practices in the teaching of ESOL. Provides an overview of first and second language acquisition, bilingualism, learner individual differences (e.g., age, motivation, aptitude, learning strategies), and sociocultural contexts of ESL teaching and learning.

**Attributes:** Writing Intensive Course**Grade Mode:** Letter Grading**ENGL 716 - Curriculum, Materials and Assessment in English as a Second Language****Credits:** 4

A hands-on approach to developing curriculum and course material for teaching English as a Second Language. Students work on lesson plan development (needs analysis, objective writing, task sequencing, assessment of proficiency and objective), conduct ESL classroom observations, and engage in teaching demonstrations.

**Attributes:** Writing Intensive Course**Grade Mode:** Letter Grading**ENGL #717 - Languages in Contact****Credits:** 4

This course will explore topics related to languages in contact, including borrowing, code-switching, second language acquisition, bilingual mixed languages, language shift and maintenance, pidgins and creoles, and the linguistic and social factors which play a role in language contact.

**Attributes:** Writing Intensive Course**Prerequisite(s):** ENGL 405 with a minimum grade of D- or LING 405 with a minimum grade of D-.**Equivalent(s):** LING 717**Grade Mode:** Letter Grading**ENGL 718 - Morphology****Credits:** 4

Morphology is the study of word formation and the mental lexicon. This course explores processes of derivation, compounding and inflection that allow us to form new words. Students will become proficient in analyzing word formation processes in English and other languages, including deploying terminology used by morphologists. Students will learn and practice the conventions of "writing like a linguist".

**Attributes:** Writing Intensive Course**Prerequisite(s):** ENGL 405 with a minimum grade of D- or LING 405 with a minimum grade of D-.**Equivalent(s):** LING 718**Grade Mode:** Letter Grading**ENGL 719 - Sociolinguistics Survey****Credits:** 4

How language varies according to the characteristics of its speakers: age, sex, ethnicity, attitude, time, and class. Quantitative analysis methods; relationship to theoretical linguistics. Focus is on English, but some other languages are examined.

**Prerequisite(s):** ENGL 405 with a minimum grade of D- or LING 405 with a minimum grade of D-.**Equivalent(s):** LING 719**Grade Mode:** Letter Grading**ENGL 720 - Journalism Internship****Credits:** 1-16

Students intending to pursue careers in journalism spend a semester working full or part time, reporting and writing, editing or producing content for a news organization.

**Attributes:** Writing Intensive Course**Prerequisite(s):** ENGL 621 with a minimum grade of D-.**Grade Mode:** Letter Grading**ENGL 721 - Advanced Reporting****Credits:** 4

While the theme of this course is teaching students advanced techniques of writing and reporting, each semester the course is offered it focuses on different areas of journalism. One semester, students may learn multimedia reporting - storytelling across multiple platforms, including video and audio - and in other semesters the course may focus on sportswriting. Yet in others, students will develop their news reporting skills. The course may be taken multiple times for credit with the approval of the Journalism Program Director.

**Attributes:** Writing Intensive Course**Prerequisite(s):** ENGL 621 with a minimum grade of D-.**Repeat Rule:** May be repeated for a maximum of 12 credits.**Grade Mode:** Letter Grading**ENGL 722 - Feature Writing****Credits:** 4

An intermediate workshop that asks students to report in greater depth and experiment with different storytelling methods.
