Programs of Study 78
Chemical Engineering & Bioengineering 78
Bioengineering Major (B.S.) 79
Chemical Engineering Major (B.S.) 81
Chemical Engineering Major: Bioengineering Option (B.S.) 83
Chemical Engineering Major: Energy Option (B.S.) 85
Chemical Engineering Major: Environmental Engineering Option (B.S.) 87
Chemistry 89
Chemistry Major (B.A.) 89
Chemistry Major (B.S.) 91
Chemistry Major: Chemical Biology Option (B.S.) 93

Chemistry Minor 94
Civil and Environmental Engineering 95
Civil Engineering Major (B.S) 96
Environmental Engineering Major (B.S.) 99
Environmental Engineering Minor 102
Computer Science 102
Analytics Major (B.S.) 103
Analytics Minor 104
Artificial Intelligence Minor 105
Computer Programming Cognate 105
Computer Science Major (B.S.) 105
Computer Science Major: Artificial Intelligence Option (B.A.) 108
Computer Science Major: Cybersecurity Option (B.A.) 110
Computer Science Major: Systems Option (B.A.) 111
Computer Science Minor 113
Cybersecurity Minor 113
Data Science Major (B.S.) 114
Data Science Minor 115
Information Technology Cognate 116
Information Technology Major (B.S.) 116
Information Technology Minor 118
Earth Sciences 118
Climate Science Minor 119
Earth and Environmental Sciences Major (B.A.) 119
Earth and Environmental Sciences Minor 122
Earth Sciences Major (B.S.) 122
Environmental Sciences Major: Earth Systems Option (B.S.) 126
Ocean Sciences Minor 128
Electrical and Computer Engineering 129
Computer Engineering Major (B.S.) 130
Computer Engineering Major: Biomedical Engineering Option (B.S.) 132
Electrical Engineering Major (B.S.) 134
Electrical Engineering Major: Biomedical Engineering Option (B.S.) 136
Electrical and Computer Engineering Minor 138
Environmental Sciences 138
Materials Science 138
Materials Science Minor 138
Mathematics and Statistics 139
Applied Mathematics Major (B.S.) 139
Applied Mathematics Major: Computation Option (B.S.) 141
Applied Mathematics Major: Economics Option (B.S.) 142
Applied Mathematics Minor 144
Mathematics Education Major (B.S.) 144
Mathematics Education Minor 147
Mathematics Major (B.A.) 147
Mathematics Major (B.S.) 149
Mathematics Minor 150
Statistics Major (B.S.) 151
Statistics Minor 152
Mechanical Engineering 152
Mechanical Engineering Major (B.S.) 153
Mechanical Engineering Minor 156
Ocean Engineering 156
Ocean Engineering Major (B.S.) 156
Ocean Engineering Minor 159
Physics and Astronomy 159
Engineering Physics Major (B.S.) 160
Physics Major (B.A.) 163
Physics Major (B.S.) 164
Astronomy Minor 166
Physics Minor 166
College of Health and Human Services 168
Programs of Study 168
Applied Human Anatomy and Physiology 168
Applied Human Anatomy and Physiology Minor 168
Communication Sciences and Disorders (CSD) 169
Communication Sciences and Disorders Major (B.S.) 169
Exercise Science 171
Exercise Science Major (B.S.) 171
Health and Physical Education 172
Health and Physical Activity Promotion Major (B.S.) 172
Health and Physical Activity Promotion Major: Health and Physical Education Teacher Licensure Option (B.S.) 174
Interdisciplinary Health Education Minor 177
Lifetime Activity Programming and Leadership Minor 177
Physical Education Teaching Minor 177

Health Management and Policy (HMP) 178
Health Analytics Minor 178
Health Management and Policy Major (B.S.) 178
Health Management Minor 181
Public Health Major (B.S.) 181
Public Health Minor 183
Health Sciences 183
Health Sciences Major (B.S.) 184
Human Development and Family Studies (HDFS) 185
Adolescent and Youth Development (Minor) 186
Child Life Minor 186
Human Development and Family Studies Major: Child Development Option (B.S.) 187
Human Development and Family Studies Major: Early Childhood Education Option (Teacher Licensure) (B.S.) 188
Human Development and Family Studies Major: Family and Lifespan Development Option (B.S.) 190
Human Development and Family Studies Minor 192
Kinesiology (KIN) 192
Kinesiology Minor 193
Sport Analytics (Minor) 193
Occupational Therapy (OT) 194
Disability Studies Minor 194
Occupational Therapy Major (B.S.) 195
Recreation Management and Policy (RMP) 197
Outdoor Adventure Recreation Minor 198
Recreation Management and Policy Major: Outdoor Leadership and Management Option (B.S) 198
Recreation Management and Policy Major: Therapeutic Recreation Option (B.S.) 200
Recreation Management and Policy Major: Tourism and Event Management Option (B.S.) 202
Recreation Management Minor 204
Ski Resort Management Cognate 204
Therapeutic Recreation Minor 205
Tourism Minor 206
School of Nursing 206
Nursing Major (B.S.N.) 206
Social Work (SW) 210
Social Work Major (B.S.) 210
Social Work Minor 212
Gerontology Multidisciplinary Minor 212
Sport Management and Leadership 213
Coaching Minor 213
Sport Management and Leadership Major (B.S.) 213
Sport Management Minor 215
College of Liberal Arts 217
Programs of Study 219
Africana Studies (AFAM) 219
Africana Studies Minor 219
American Studies (AMST) 221
American Studies Minor 221
Anthropology (ANTH) 221
Anthropology Major (B.A.) 221
Anthropology Minor 224
Arabic (ARBC) 224
Arabic Minor 224
Art and Art History (ARTS) 225
Arts Major: Art History Option (B.A.) 225
Arts Major: Studio Art Option (B.A.) 226
Arts Major: Studio Art/Art Education Option (B.A.) 227
Fine Arts Major (B.F.A.) 228
Architectural Studies Minor 230
Art History Minor 230
Art Minor 230
Design Studies Minor 230
Studio Arts Minor 231
Asian Studies 231
Asian Studies Minor 231
Chinese (CHIN) 232
Chinese Minor 232
Cinema Studies 232
Cinema Studies Minor 232
Classics (CLAS) 233
Classics Major: Ancient Mediterranean Civilizations Option (B.A.) 233
Classics Major: Classical Languages & Literatures Option (B.A.) 235
Classics Major: Latin & Latin Teaching Option (B.A.) 236
Classics Minor 237
Greek Minor 237
Latin Minor 238
Cognates 238
Art History, Design, and Computer Sciences Cognate 238

Digital Writing and Literature Cognate 238
Intercultural Communication for the Professional World Cognate 239
Medical Sociology Cognate 239
Philosophy of Business, Innovation, & Technology Cognate 240
Political and Legal Philosophy Cognate 240
Skills and Perspectives for the Digital World Cognate 240
Studies in Fashion and Design Cognate 241
Studies in the Design of Interior Space Cognate 241
Technical Writing and Public Speaking Cognate 242
Communication (CMN) 242
Communication Major (B.A.) 243
Communication Major: Business Applications Option (B.A.) 245
Communication Major: Media Practices Option (B.A.) 247
Communication Minor 249
Education (EDUC) 249
Education (B.A.) 250
Education Four-Year, Undergraduate Options 252
Education Minor 252
Educational Studies Dual Major 252
Special Education Minor 254
English (ENGL) 254
English Literature Major (B.A.) 255
English Major (B.A.) 257
English Major: Law 3+3 Option (B.A.) 259
English Major: Text, Business Writing and Digital Studies Option (B.A.) 262
English Teaching Major (B.A.) 264
Journalism and Media Studies Major (B.A.) 266
English Minor 268
Writing Minor 268
French (FREN) 268
French Major (B.A.) 269
French Minor 271
Geography (GEOG) 271
Environmental Justice (Minor) 271
Geography (Minor) 272
Geography Major (B.A.) 272
German (GERM) 274
German Major (B.A.) 274
German Minor 276
History (HIST) 276
History Major (B.A.) 277
History Major: Law 3+3 Option (B.A.) 280
History Minor 282
Social Studies of Science and Technology Minor 283
Homeland Security (HLS) 283
Humanities (HUMA) 283
Humanities Dual Major 283
Humanities Minor 284
Interdisciplinary Humanities Major (B.A.) 284
Italian Studies (ITAL) 286
Italian Studies Major (B.A.) 286
Italian Studies Minor 288
Justice Studies (JUST) 288
Justice Studies Dual Major 289
Justice Studies Minor 290
Forensics Minor 290
Latin American, Latinx and Caribbean Studies 291
Latin American, Latinx and Caribbean Studies Minor 291
Linguistics (LING) 291
Linguistics Major (B.A.) 292
Linguistics Minor 293
TESOL Minor 294
Medical Humanities, Society & Ethics 294
Medical Humanities, Society & Ethics Minor 294
Middle Eastern Studies 295
Middle Eastern Studies Minor 295
Music (MUSI, MUED) 295
Music Education Major (B.M.) 296
Music Major: Composition Option (B.A.) 300
Music Major: Music Liberal Studies Option (B.A.) 302
Music Major: Performance Study Option (B.A.) 304
Music Minor 307
Music Performance Study Major (B.M.) 308
Pre-Teaching Major (B.M.) 311
Native American and Indigenous Studies (NAIS) 315
Native American and Indigenous Studies Minor 315
Neuroscience and Behavior 316
Philosophy (PHIL) 316
Philosophy Major (B.A.) 317

Philosophy Major: Business, Innovation & Technology Option (B.A.) 319
Philosophy Major: Ethics and Social Responsibility Option (B.A.) 321
Philosophy Major: Political and Legal Philosophy Option (B.A.) 323
Philosophy Minor 326
Political Science & International Affairs (PSIA) 326
Global Studies Dual Major 327
Global Studies Minor 329
International Affairs Major (B.A.) 329
International Security Minor 331
Political Science Major (B.A.) 332
Political Science Major: International Security Option (B.A.) 334
Political Science Major: Law 3+3 Option (B.A.) 337
Political Science Minor 340
Survey Research Minor 340
Psychology (PSYC) 340
Psychology Major (B.A.) 341
Psychology Minor 343
Queer Studies 344
Queer Studies Minor 344
Race and Ethnic Studies (RES) 344
Race and Ethnic Studies Minor 344
Religious Studies 345
Religious Studies Minor 345
Russian (RUSS) 345
Russian Major (B.A.) 346
Russian Minor 347
Sociology (SOC) 347
Sociology Major (B.A.) 348
Sociology Minor 350
Medical Sociology Cognate 239
Spanish (SPAN) 351
Spanish Major (B.A.) 351
Spanish Minor 353
Theatre and Dance (THDA) 353
Theatre Major (B.A.) 354
Theatre Major: Acting and Directing Option (B.A.) 356
Theatre Major: Dance Option (B.A.) 358
Theatre Major: Design & Theatre Technology Option (B.A.) 359
Theatre Major: Musical Theatre Option (B.A.) 361
Theatre Major: Secondary Theatre Education Option (B.A.) 363
Arts Administration Minor 366
Dance Minor 367
Musical Theatre Minor 367
Theatre Minor 368
Youth Drama Minor 368
Studies in Fashion and Design Cognate 241
Studies in the Design of Interior Space Cognate 241
Women's and Gender Studies (WGS) 369
Women's and Gender Studies Major (B.A.) 369
Social Justice Leadership Minor 371
Women's and Gender Studies Minor 372
World Languages 372
World Languages Dual Major 373
College of Life Sciences and Agriculture 375
Programs of Study 376
Applications of Acoustics 376
Applications of Acoustics Minor 376
Agribusiness 377
Agribusiness Minor 377
Agriculture and Food Systems (AGFS) 377
Agriculture and Food Systems Major (B.A.) 377
Agriculture and Food Systems Major (B.S.) 379
Agriculture and Food Systems Minor 381
Horticulture Minor 381
Animal Science (ANSC) 382
Animal Science Major (B.S.) 382
Animal Science Major: Dairy Management Option (B.S.) 385
Animal Science Major: Equine Studies Option (B.S.) 387
Animal Science Minor 390
Dairy Management Minor 390
Equine Assisted Services (Minor) 390
Equine Studies Minor 391
Biochemistry, Molecular and Cellular Biology (BMCB) 391
Biochemistry, Molecular and Cellular Biology Major (B.S.) 392
Biochemistry, Molecular and Cellular Biology Minor 395
Biology 395

Biology Major (B.S.) ... 395
Biology Minor ... 398
Plant Biology Minor ... 399

UNDERGRADUATE ACADEMIC CATALOG

The Academic Catalog is intended to provide general information about the University of New Hampshire and program requirements. It is accurate at the time of publishing. The University reserves the right to change, modify, or correct any information contained herein without prior notice, at any time.

Degree, program requirements, and policies in the 2026/2027 Academic Catalog apply to students who enter the University between July 1, 2026 through June 30, 2027.

UNH Nondiscrimination Policy

Consistent with all applicable federal and state laws, rules, regulations and ordinances (e.g. Title III, Title VI, Title VII, Title IX, Section 504 of the Rehabilitation Act, and the Americans with Disabilities Act as amended), and in recognition of its responsibilities to its faculty, staff, and students as well as to the communities in which it operates, the University of New Hampshire affirms its continuing commitment to afford qualified or qualifiable individuals equal access and equal opportunity within the University. To ensure equal access and equal opportunity, the University of New Hampshire shall not discriminate against any individual or group because of race, color, national origin, religion, sex, sexual orientation, gender identity or expression, age, disability, marital status, military/veteran status, genetic information, or any other characteristic protected by federal, state, or local laws. Inquiries regarding discriminatory harassment (including sexual harassment or violence) should be directed to Bohdan J. Zaryckyj, Director of the Civil Rights and Equity Office and Title IX Coordinator, Room 305, Thompson Hall, 105 Main Street, Durham, N.H. 03824, bo.zaryckyj@unh.edu, phone (603) 862-2930 (voice), 7-1-1 (Relay NH), (603) 862-2936 (fax); or to the Office for Civil Rights, U.S. Department of Education, 400 Maryland Ave, SW, Washington, D.C., 20202-1475, phone (202) 453-6020, fax (202) 453-6021, e-mail OCR.DC@ed.gov.

See the UNH Nondiscrimination Policy and/or UNH Sexual Misconduct Policy for information about the resolution of complaints regarding discrimination, discriminatory harassment, sexual harassment, and other forms of sexual misconduct. Further information may be obtained at the Civil Rights and Equity Office or via e-mail unh.civilrights@unh.edu.

About the Catalog

The University provides information pertaining to the Family Educational Rights and Privacy Act of 1974 (the "Buckley Amendment") in the annual student publication, Student Rights, Rules, and Responsibilities. The annual student publication, Student Rights, Rules, and Responsibilities, also contains University regulations and policies regarding student conduct.

The University will supply information about the employment of its graduates who have graduated from our degree and/or certificate programs. This information may be obtained upon request from the University's office of Career and Professional Success and is available by university, college, or school to current and prospective students. Information on employment outcomes depends on student self-reporting. The University does not guarantee employment to its graduates. Chances for employment are enhanced if students have begun career planning early in their degree programs.

Program descriptions may vary from the actual content or requirements because of advancements in the discipline or the active nature of academic planning and decision making. Accordingly, the University reserves the right to make whatever changes are deemed necessary in schedules, course content, requirements, academic programs (including their termination), calendar, tuition and fees, services, or any other aspect of the University's operations, giving whatever notice thereof is reasonable under the circumstances. Therefore, the provisions of this catalog are not an irrevocable contract between the students and the University. The University is also not responsible for failure to provide or for delay in providing expected services and/or facilities when such failure arises from causes beyond the reasonable control of the University.

Academic Calendar

The academic calendar provides important dates for the university's academic periods, including the start and end of classes, holidays, exams, and other key academic events. The University's Master Academic Calendar website provides all detailed academic dates and deadlines related to grades, course registration, graduation, financial and more.

Coursework must be completed by students prior to the last day of classes for a related academic period (semester or term) in which the course is offered.

Academic Core Calendar (2026/2027)

Fall 2026

Full Semester Classes Begin	August 31
Term 1 Classes Begin	August 31
Labor Day, University Holiday	September 7
Mid-Semester Break; no classes	October 12
Classes Follow a Wednesday Schedule	October 13
Mid-Semester	October 16
Term 1 Last Day of Classes	October 23
Term 2 Classes Begin	November 2
Election Day - no exams scheduled	November 3
Veteran's Day, University holiday	November 11
No Classes	November 25
Thanksgiving holiday	November 26-27
Classes resume	November 30
Full Semester Last day of classes	December 14
Reading day, final exams begin at 6:00 p.m.	December 15
Final Exams end	December 22
Term 2 Last Day of Classes	December 24

January Term 2027

Online classes & trips begin	December 28
New Year's Day; University Holiday	January 1
On campus classes begin	January 4
Martin Luther King, Jr. Day; University Holiday	January 18
Last day of classes	January 22

Spring 2027

Full Semester Classes Begin	January 26
Term 3 Classes Begin	January 26
Mid-Semester	March 12
Term 3 Last Day of Classes	March 19
Spring recess	March 22-26
Full Semester Classes resume	March 29
Term 4 Classes Begin	March 29
Full Semester Last day of classes	May 10
Reading Day	May 11
Final exams begin	May 12
Final exams end	May 18
Term 4 Last Day of Classes	May 21
May Graduation - Degree Conferral Date	May 22

Summer 2027

Full Semester Classes Begin	May 24
Summer I Classes Begin	May 24
Summer II Classes Begin	May 24
Memorial Day, University Holiday	May 31
Term 5 Classes Begin	June 1
Summer III Classes Begin	June 7
Juneteenth, University Holiday (Observed)	June 18
Summer I Last Day of Classes	June 25
Summer IV Classes Begin	June 28

Independence Day, University Holiday (Observed)	July 5
Term 5 Last Day of Classes	July 23
Summer II Last Day of Classes	July 30
Summer III Last Day of Classes	July 30
Summer IV Last Day of Classes	July 30
Full Semester Last Day of Classes	August 6

Academic Policies and Procedures

It is the student's responsibility to become familiar with the academic policies and procedures of the University as well as the requirements for academic programs.

A

- Academic Integrity (p. 16)
- Academic Petitions (p. 16)
- Academic Standing & Exclusion, Suspension or Dismissal (p. 17)
- Accelerated Master's and Certificates (p. 17)
- Adding Courses (p. 18)
- Attendance Policy (p. 18)
- Auditing Courses (p. 19)

C

- Change of College (p. 20)
- Change of Major (p. 20)
- Class Level (p. 20)
- Cognate (p. 20)
- Commencement (p. 20)
- Communications (p. 20)
- Core Curriculums (p. 21)
- Corequisite (p. 21)
- Course Numbering System (p. 21)
- Credit Hour Policy (p. 21)
- Credit Load (p. 21)
- Cross Campus Registration (p. 21)

D

- Degree Evaluation (p. 22)
- Degrees & Requirements (p. 22)
- Discovery Program & Requirements (p. 22)
- Dropping & Withdrawal from Course (p. 31)
- Dual Degrees (p. 32)
- Dual Majors (p. 33)

E

- Educational Reprieve (p. 33)
- Enrollment Status (p. 33)
- Enrollment Verification (p. 34)
- Equivalent Courses (p. 34)
- Examinations (p. 34)

G

- General Education Program & Requirements (p. 34)
- Grades (p. 36)
- Graduation Certification (p. 37)

H

- Honors Designations & Eligibility (p. 37)

L

- Leave of Absence (p. 38)

M

- Majors and Options (p. 38)
- Math & Statistics Courses (p. 38)
- Minors (p. 39)
- Mutually Exclusive Courses (p. 39)

P

- Pass/Fail Grading (p. 39)
- Prerequisites (p. 40)
- Prior Learning Assessment (PLA) (p. 40)
- Progress Reports (p. 41)

R

- Registration (p. 41)
- Repeated Courses (p. 42)
- Residence Requirement (p. 42)

S

- Second (Double) Major (p. 42)
- Student Designed Majors (p. 42)
- Study Away Eligibility (p. 42)

T

- Transcripts (p. 43)
- Transfer Credit Policies & Resources (p. 43)

V

- Variable Credit (p. 44)

W

- Withdrawal from the University (p. 44)
- World Language Proficiency Requirement (p. 45)
- Writing Program & Requirements (p. 45)

Academic Integrity

Academic integrity is a core value at the University of New Hampshire. The members of its academic community both require and expect one another to conduct themselves with integrity. This means that each member will adhere to the principles and rules of the University and pursue academic work in a straightforward and truthful manner, free from deception or fraud. The Academic Integrity policy can be found in the annual publication of the Student Rights, Rules, and Responsibilities.

Academic Petitions

Exceptions to academic policies and procedures are rare and made for documented, compelling, non-academic reasons. Requests are considered through a petition process (e.g., a suspension, extension of incomplete, curriculum requirements, etc.)

Petition forms to request variance in academic policy.

Academic Standing & Exclusion, Suspension or Dismissal

Good Standing

Students who earn a semester and cumulative GPA of 2.0 or higher are in good standing.

First Semester Students

First-semester freshman who have attempted at least 12 semester hours and have a semester GPA between 1.0 and 1.49 will be subject to exclusion. First-semester freshman and transfer students who have attempted at least 12 semester hours and have a semester GPA below 1.0 will be subject to suspension.

Academic Exclusion Hold

An Academic Exclusion hold is a temporary registration hold. If not resolved, a student's degree status may be changed to Degree Status Discontinued, Academic Suspension or Academic Dismissal. If an Academic Exclusion hold is not promptly addressed, a student's course registration and University housing will be canceled.

Academic Suspension

Students whose GPA falls below the minimum required GPA relative to their attempted semester credit hours and/or who have demonstrated insufficient progress toward their degrees may be placed on Academic Suspension. Students suspended from the University for academic reasons will not be permitted to return until one regular UNH academic semester (fall or spring) has elapsed from the time of suspension. Therefore, students will not be eligible to take any UNH courses during the period of required separation, whether offered in Durham, Manchester, the College of Professional Studies - Online, or through Continuing Education. Students suspended for any reason will not earn transfer credit for courses taken during the period of required separation.

A suspended student may not participate in any student activities, live in university housing, or be a member of any recognized student organization.

Academic Dismissal

Students who have been placed on Academic Suspension once and whose cumulative GPA remains below the minimum must be dismissed. Only under extraordinary circumstances will a student be readmitted after Academic Dismissal. Students who have been placed on Academic Dismissal may take courses through Continuing Education after one regular UNH semester has elapsed. A dismissed student may not participate in any student activities, live in university housing, or be a member of any recognized student organization.

Return after Academic Suspension

Durham and Manchester students that wish to return from Academic Suspension must complete a Reactivation from Academic Suspension or Leave of Absence Form. College of Professional Studies - Online students should complete a Request to Reactivate. Requests to return are reviewed by the student's Dean's Office or Director of Academic Advising based on home college. Students must provide a statement explaining why they believe they can successfully complete a UNH degree program and specific steps they will take to ensure future academic success. If approved, the student will be reinstated into the major they left and will receive confirmation from the Office of the Registrar. If the student no longer qualifies for the major they left, their request for return will be reviewed by the College of Liberal Arts Dean's Office for reactivation into the Undeclared major.

The Reactivation from Academic Suspension or Leave of Absence form must be submitted no later than 2 weeks before the semester of return begins. A student suspended or dismissed in January may enroll in the following Summer Term with permission from their dean's office.

Return after Academic Dismissal

Only under extraordinary circumstances will a student be readmitted after an Academic Dismissal. Students must consult their former home college Dean's Office prior to applying for readmission through the Office of Admissions.

Appeals

Durham and Manchester students seeking to appeal an Academic Suspension or Dismissal must submit a Petition for Variance in Academic Policy form to their home college Dean's Office. The Academic Standards and Advising Committee will review these appeals. College of Professional Studies - Online students must submit a General Petition form. Cancellation of academic actions will only be granted for documented, compelling, non-academic reasons.

Courses after Academic Suspension or Academic Dismissal

Summer Term: A student suspended following a Spring Semester that was enrolled in a summer session course before being notified of the suspension will be allowed to complete the course(s), but will not be allowed to register for additional summer courses. These courses may be considered in appealing a Spring Semester Academic Suspension.

January Term: A student suspended or dismissed in following a Fall Semester that was enrolled in a January Term (J-Term) course before being notified of the suspension will be allowed to complete the course, but will not be allowed to register for additional January Term Courses. Courses taken during a January Term may not be used in appealing a Fall Semester Academic Suspension.

Accelerated Master's and Certificates

Qualified senior students at the University of New Hampshire may be admitted to an **approved accelerated graduate program** in the Graduate School provided they have followed normal application procedures# they must have been admitted for the semester in which they wish to enroll in courses for dual credit. A 3.20 cumulative grade point average is normally required to be considered for the program. Students are normally admitted prior to the start of their senior year. Students who have been admitted to the program may register for a maximum of 12 credits of 800-level courses prior to completing their bachelor's degree. Such courses may, upon recommendation of the department and approval of the Graduate School, count toward both the bachelor's and master's degrees. Up to 8 credits, upon recommendation of the department and approval of the Graduate School, may count towards both the bachelor's degree and a graduate certificate. For more information and a list of eligible programs, visit: https://gradschool.unh.edu/academics/accelerated-masters-program.

Adding Courses

Students may add a course to their schedule through the end of the add period. The addition may be made in Webcat. Some courses may be restricted or require permission, in which case students should consult with their advisor or the department, on feasibility and process to add that course.

A student may add a course after the add deadline only for compelling reasons, which must be presented in a petition for variance in academic policy signed by the course instructor and approved by the student's advisor and the student's academic dean or their designee.

All registration deadlines can be found on UNH's master academic calendar.

WEBCAT Registration Deadlines

- Webcat registration deadline dates for adding courses are set based on the below logic for reference.
- Webcat registration closes on the last day to add at 11:59 p.m.

Fall Semester	Last day to Add Course
Full Term	Second Friday
Full Term - Grad Thesis	Third Friday
Term 1	First Friday
Term 2	First Friday

January Term	Last day to Add Course
Full Term	First Day of Classes
On Campus	First Day of Classes
Online	First Day of Classes
Study Away	First Day of Classes

Spring Semester	Last day to Add Course
Full Term	Second Friday
Full Term - Grad Thesis	Third Friday
Term 3	First Friday
Term 4	First Friday

Summer	Last day to Add Course
Full Term	July 1st
Term 5	First Friday
Summer Session I	Fifth Business Day of Classes
Summer Session II	Tenth Business Day of Classes
Summer Session III	Eighth Business Day of Classes
Summer Session IV	Fifth Business Day of Classes
Special Summer Session*	*Count Weeks of Course: one business day of add per week of the course

Attendance Policy

Regular class attendance is essential to academic success. Students are expected to attend scheduled class sessions, as consistent participation supports learning, engagement with course material, and progress toward educational goals. At the same time, the University recognizes that unexpected circumstances can interfere with a student's ability to attend class or complete academic work as planned. This policy establishes broad expectations for attendance across the University while providing pathways for reasonable flexibility when circumstances warrant it. Specific attendance requirements for each course are determined at the discretion of the faculty based on the essential requirements of the course and outlined in the course syllabus.

Student Responsibility

Students are expected to attend course meetings and adhere to the schedule of assignments as described in the syllabus. Further, students are expected to proactively communicate with their faculty when circumstances will prevent them from attending class or completing academic work. This communication should happen as early as possible and is the student's responsibility regardless of the reason for the absence. Students should also be prepared to reach out and proactively ask faculty if they are unsure of what is expected of them in the course, as related to their absences or in general.

Attendance Flexibility

Students may request flexibility for a wide variety of reasons. Some of these requests are required by law or specifically approved by the university, while others are general requests that do not rise to the need for formal accommodation but may still warrant consideration.

- **Faculty** – Faculty have discretion to work flexibly with students by setting general attendance policies for their course. In compliance with the Excused Absence section of this policy, faculty are responsible for managing general absence requests, determining when absences may be excused, and short-term absences (students missing one or two days of class). With the exception of medical documentation, faculty may request proof or documentation of absences from students for requests to excuse absences.
- **Dean of Students** – Dean of Student's Letters represent the university's acknowledgment that a student requires additional flexibility for a temporary period due to extenuating circumstances that interfere with the student's ability to complete academic requirements. Dean of Students Letters inform faculty that a student is managing a significant temporary situation. While specific accommodations are at faculty discretion, faculty are expected to work with the student in a flexible manner. Dean of Student's Letters are not issued for situations where students are missing only one or two days of class. More information can be found on the Dean of Students website.
- **Student Accessibility Services (SAS)** - SAS approves accommodations for students with disabilities. Compliance with accommodation implementation is mandatory as per the Americans with Disabilities Act (ADA). Students who are approved for flexibility accommodations (attendance and/or assignments) are eligible for additional flexibility beyond what is in the course syllabus. It is highly recommended that faculty work with SAS to proactively create

a "Flexibility Agreement" to ensure a clear understanding of what flexibility is available for the course.

- **Civil Rights and Equity Office** - The Civil Rights and Equity Office (CREO) can provide assistance with requests for academic flexibility for students who have been impacted by Sexual Misconduct (Title IX) or by Bias/Discrimination based on a protected identity. CREO works with students and their faculty members to arrange appropriate support within current UNH policy and Federal Regulations.

Absences from examination and laboratory periods

Any student who is absent without excuse from an announced test, quiz, examination, or laboratory period may, at the discretion of the instructor, be penalized for such absence or be allowed or disallowed to make up the work missed.

Excused absences

Discretionary Absences. Reasons that faculty **may** excuse student absences include: (a) ill health, (b) personal emergencies, (c) instructional trips, and (d) when students are representing UNH in regional, national, and international academic-related opportunities. In these cases, faculty have discretion regarding what flexibility to offer based on their syllabus policies.

Required Excused Absences. Reasons that faculty must excuse student absences are: (a) participation in official NCAA intercollegiate athletic events (more information can be found in the Intercollegiate Athletics section of this policy), (b) participation in official adaptive sports events facilitated by Northeast Passage, (c) jury duty, (d) required military service, (e) required court appearances, and (f) religious holidays and/or observances. A partial list of religious observances is available on the Civil Rights & Equity Office website, though faculty should be aware this list is not exhaustive. In these cases, it is required that students are not penalized for missed assignments or missed class. Faculty may still set expectations regarding how students make up missed work and learn missed content. Faculty may also request documentation regarding official intercollegiate events, adaptive sports, required military service, and jury duty. Excused absences do not automatically waive the academic standards, learning outcomes, or essential requirements of a course. When the length or nature of the absence may affect the student's ability to complete course requirements, the student should consider other academic options such as dropping/withdrawing from the course, pursuing an incomplete, or taking a leave of absence.

Absence on voting day

To support UNH students in exercising their constitutional right to vote in New Hampshire state and federal elections, no examinations will be scheduled on the first Tuesday of November, and such should be designated in the University calendars. Where possible, students are encouraged to vote at a time that does not conflict with their academic obligations. However, opportunities for makeup of other scheduled exercises on those days should be provided where necessary. Faculty are requested to cooperate to the fullest extent with students from communities scheduling elections at other times.

Intercollegiate Athletics

Student-athletes have the responsibility of notifying each of their instructors before the end of the add/drop period about any possible conflict between scheduled class meetings, exams, or assignment due dates and scheduled athletic contests, especially those involving travel off-campus. Such notification shall be in writing or by email and shall include specific information about the dates the student will not be in class nor available for an exam.

Faculty must be flexible and offer reasonable accommodations for student-athletes whose schedule of official intercollegiate athletic contests requires them to be absent from class or miss scheduled quizzes, exams, or assignment due dates. The specific accommodation offered shall be determined by the faculty member. However, given that student-athletes represent the University when participating in competitions away from campus, absence by student-athletes resulting from their travel to or participation in a regularly-scheduled intercollegiate athletic contest, about which the faculty member has been properly notified, shall not incur an academic penalty (i.e., lower grade), even when a portion of the grade in a course is based on attendance.

No class time shall be missed for practice or other unofficial activities except when a team is traveling to an away-from-home contest and the practice is in conjunction with the contest. Faculty members may not excuse student-athletes from class, or from an exam, quiz, or assignment, because of a conflict with regularly-scheduled athletic practices.

In the event of a conflict between final exams and a scheduled athletic contest, student-athletes have the responsibility to notify as soon as possible the instructor(s) of the course(s) involved in the conflict. Student-athletes have the option of requesting a rescheduling of the exam or using an official team exam proctor, typically arranged by the athletic department academic support staff, and faculty members shall make every reasonable effort to accommodate student-athletes. The final decision regarding rescheduling exams or assignment of alternate coursework remains with the faculty member. More information about Intercollegiate Athletics including a full list of our recognized NCAA teams can be found on the Athletics website.

Auditing Courses

Students may request to audit a course, which allows attendance without receiving academic credit, with approval from the student's assigned academic advisor and the course instructor.

- The registration period to audit a course opens when non-degree student registration begins.
- The deadline for designating a registered course to audit is the the last day to drop without academic liability.
- The instructor will determine requirements for attendance, participation, and any written work.
- Audits appear on the academic record with a grade notation of 'AU'; no credits are earned.
- Students who do not meet the criteria set by the instructor will be dropped from the course.
- Subsequent requests for change to audit will be by petition for variance in academic policy signed by the course instructor and approved by the student's advisor and the student's academic dean or their designee.
- Tuition varies for audit courses; see Fees and Expenses for details.
- To request designation of a course to audit complete an Audit a Course Form.
- Credit Load: An academic petition is required to request permission to audit courses that will exceed the maximum credit load policy limits.

- January Term: An academic petition is required to request permission to audit January Term courses.

Change of College

An undergraduate degree candidate may change from one college in the University to another only with the approval of the academic deans and departments of the colleges involved by submitting a request through the online change of major process or by submitting a change of campus request. This change must be approved by the academic department of the major to which the student wishes to transfer. Degree candidates in undergraduate online programs and any associate degree candidate must apply through the Office of Admissions to change colleges.

Students changing campuses from the UNH Durham or UNH Manchester campus to the College of Professional Studies Online are deactivated from their previous UNH campus. Students have until the end of the add/drop period of their first term of enrollment in a CPS Online program to request a change back to their previous campus, UNH Durham or UNH Manchester, by contacting registrars.office@unh.edu. After that time, students must submit a new application form in order to return to a UNH Durham or Manchester program. Students enrolled in a CPS Online program are no longer eligible to partake of the various campus resources at the Durham or Manchester campus, including, but not limited to, student events and organization involvement, the student recreation center, athletics events, and Health and Wellness. CPS Online students do not pay these mandatory UNH Durham or Manchester student fees and therefore are not eligible to utilize these services. In addition, CPS Online students are not eligible to enroll in the Student Health Benefits Plan.

Change of Major

Students may change their curriculum or major to another within the same college by submitting a request through the online change of major process. This change must be approved by the academic department of the major to which the student wishes to transfer.

Students with dual majors must maintain a 2.5 grade point average to continue as dual majors.

Degree candidates in undergraduate online programs must initiate a change of major with their academic advisor.

Class Level

University of New Hampshire undergraduate degree candidates are assigned class levels on the basis of credit hours of academic work completed with a passing grade as follows:

Baccalaureate Degree Candidates:

- Freshmen 0-25 credit hours
- Sophomore 26-57 credit hours
- Junior 58-89 credit hours
  - (Applied BS/Senior 58+ credit hours)
- Senior 90+ credit hours

Associate Degree Candidates:

- Freshmen 0-25 credit hours
- Senior Associate's 26+ credit hours

Cognate

A cognate is a coherent set of courses in a discipline or interdisciplinary grouping aimed at enhancing career-oriented skills in high demand in the employment market. A cognate will typically consist of 12 or more credits with C or better and a 2.00 grade-point average in courses in the cognate.

Cognate Programs

Commencement

Commencement refers to the formal annual event ceremony held in May. Commencement is organized by University Ceremonies and Events. Walking in the Commencement ceremony does not mean your degree has been officially conferred.[1]

Eligibility to Participate

- Must be within 8 credits of completing degree requirements. *If not within 8 credits, students may petition their college dean for permission to participate.*
- Must have applied to graduate for May, or the following September or December.
- Previous September and December graduates will be invited to participate by the Commencement office.

Register to Participate

Students must register to participate in Commencement after applying to graduate with the Office of the Registrar.
All details and information is available from University Ceremonies and Events.

[1]Degree Conferral refers to the official academic action processed by the Office of the Registrar after graduation certification confirming the successful completion of all degree requirements.

Communications

Communication to Students

University communications are sent to students through the following channels:

WEBCAT

Students receive billing statements, register, and view grades, student accounts, and financial aid awards through Webcat, a part of MyUNH.

UNIVERSITY E-MAIL

Important notifications are sent to students by many departments and offices via a UNH e-mail address that is assigned by the University. Students are responsible for checking this e--mail address on a regular basis.

MYUNH

Course material and University announcements are available through MyUNH, a student portal system.

MAIL TO PERMANENT ADDRESS

Some notifications are sent in the student's name to the permanent mailing address.

Core Curriculums

Discovery Program & Requirements (p. 22)
(Durham & Manchester Students)

General Education Program & Requirements (p. 34)
(College of Professional Studies Online Students)

Writing Program & Requirements (p. 45)
(All Undergraduate Students)

Corequisite

A course corequisite is a class that a student is required to take at the same time as another specific course.

For example, a science lecture may have a lab as a corequisite, meaning students must enroll in both the lecture and the lab in the same semester.

Course Numbering System

The University of New Hampshire's system of numeric designation is as follows:

- **200–299** Historical courses in Thompson School of Applied Science.
- **300–399** Reflected in Aerospace Studies (AERO) courses.
- **400–499** Introductory courses generally not carrying prerequisites and courses generally falling within University and college requirements.
- **500–599** Intermediate-level courses for undergraduate credit only.
- **600–699** Advanced-level undergraduate courses. Entrance to courses numbered 600 and above normally requires junior standing.
- **700–799** Advanced-level undergraduate courses. Ordinarily not open to freshmen and sophomores.
- **800–999** Courses that carry graduate credit only and therefore are open only to admitted or special graduate students.

Credit Hour Policy

Credit Hour Policy

The University of New Hampshire is in compliance with the federal definition of credit hour. For each credit hour, the University requires, at a minimum, the equivalent of three hours of student academic work each week assuming a 15-week semester (student workload for shorter length terms must be increased proportionally per week to maintain required approximately 45 hours of work per credit per term). Academic work includes, but is not limited to, direct faculty instruction, e-learning, recitation, laboratory work, studio work, fieldwork, performance, internships, and practica. Additional academic activities include, but are not limited to, readings, reflections, essays, reports, inquiry, problem solving, rehearsal, collaborations, theses, and electronic interactions. Student work reflects intended learning outcomes and is verified through evidence of student achievement.

Credit Load

Degree Students

Fall and Spring semesters

Undergraduate degree students may enroll for a maximum of 20 credits. Students who wish to exceed 20 credits must petition their college dean and are subject to a tuition overload surcharge (p. 60).

Undergraduate degree student registration is limited to a maximum of 19 credits during the priority registration period (p. 41), except in majors requiring more than 19 credits. Students should consult with their academic advisor.

Continuing students may add additional courses to register up to a maximum of 20 credits on the third Monday in July for **Fall** semester, and the Tuesday before classes begin for **Spring** semester. Minimum GPAs are required as follows PAUL 3.0, all other colleges 2.0.

Part-Time Students (enrolled in less than 12 credits): undergraduate degree students may attend on a part-time basis. No special permission is required, it is not necessary to withdraw or register through Continuing Education. Students must contact Student Accounts regarding billing adjustments.

Summer Session
Undergraduate students may enroll for a maximum of 12 credits. Students who wish to exceed 12 credits in the Summer must contact their their college dean to petition the Academic Standards and Advising Committee for an exception.

January Term
All students are limited to registering for one course and a maximum of 4 credits. Exception: Students may register for more than one course provided the courses DO NOT meet concurrently and the total credits do not exceed the 4 credit maximum.

Non-Degree Students

See Continuing Education, non-degree student credit load policies.

Cross Campus Registration

Eligibility of undergraduate students to register for courses offered by a UNH campus other than the students affiliated campus follows the general rules below.

General Rules

- **Durham Students**
  - May enroll in courses offered by the College of Professional Studies (CPS) Manchester campus.
  - Fall & Spring: May enroll in courses offered by the College of Professional Studies (CPS) Online campus with permission of their home college dean's office.
  - Summer: May enroll in courses offered by the College of Professional Studies (CPS) Online campus.
- **College of Professional Studies (CPS) - Manchester Students**
  - May enroll in courses offered by the Durham campus.
  - May enroll in courses offered by the College of Professional Studies (CPS) Online campus.
- **College of Professional Studies (CPS) - Online Students**
  - May enroll in courses offered by the College of Professional Studies (CPS) Manchester campus.
  - May enroll in courses offered by the Durham campus.

Notes

- Affiliated campus is designated by the campus of the students primary major.
- Students should consult with their academic advisor to determine courses appropriate for cross campus registration.
- Cross campus registration is limited by space availability in courses.
- Courses may have additional campus, college, or major restrictions or require special permission to register.
- A comprehensive schedule of course offerings is published online and includes information about any additional registration restrictions.

Degree Evaluation

Degree Works is the degree evaluation and audit tool available to students, faculty and advisors to view progress toward degree completion. It assists in planning coursework and includes a "what-if" feature to evaluate an academic record against other UNH majors when considering a change.

It is a student's responsibility to monitor degree progress and ensure all requirements are met.

Degrees & Requirements

Requirements in this catalog apply to students who enter the University between July 1, 2026 and June 30, 2027.

Student Responsibility

A student is held responsible for all work required for graduation and for the scheduling of all the necessary courses. Either faculty or PAT (Professional, Administrative, and Technical) staff members may serve as academic advisors depending on departmental procedures. Academic advisors typically help students both schedule classes that meet university and departmental requirements and monitor their progress throughout their academic career. Either academic advisors or other staff of the associated department/college may assist students in various ways, for example to learn of internships and post-graduation opportunities, and they may direct students to relevant support services when appropriate.

Academic Catalog Year

Students must follow the rules and policies of the academic catalog in effect at the time of their admission into a degree program for all University requirements. Students follow the major requirements that are in effect during the academic catalog year the student entered the major program. A student may petition the academic department and dean's office to follow a prior or, if applicable,#future#set#of#major#requirements.#The#student's Core Curriculum, Writing Program, and other graduation requirements remain in effect from the academic catalog year of matriculation. The Office of the Registrar will use the approved petition to update the student's major or core academic catalog year.

Associate Degrees

- Associate in Applied Science (AAS)
- Associate in Arts (AA)
- Associate in Science (AS)

In addition to the particular requirements for specific degrees and the major, all candidates for an associate's degree must obtain a passing grade in a minimum of 60 or 64 credits as indicated in the program degree requirements in courses numbered 400-799, must maintain a cumulative grade-point average of at least 2.00 for all courses taken at the University in which a grade is given, and must successfully meet the designated core curriculum (Discovery or General Education Program), and residence requirements as indicated in the degree requirements for the program.

Baccalaureate Degrees

- Applied Bachelor of Science (ABS)
- Bachelor of Arts (BA)
- Bachelor of Fine Arts (BFA)
- Bachelor of Music (BM)
- Bachelor of Science (BS)

In addition to the particular requirements for specific degrees and the major, all candidates for a bachelor's degree must obtain a passing grade in a minimum of 90, 120 or 128 credits as indicated in the program degree requirements in courses numbered 400-799, must maintain a cumulative grade-point average of at least 2.00 for all courses taken at the University in which a grade is given, and must successfully meet the designated core curriculum (Discovery or General Education Program), Writing Program, foreign language (required for Bachelor of Arts) and residence requirements as indicated in the degree requirements for the program.

Discovery Program & Requirements

UNH Durham and Manchester Undergraduate Degree Programs

The Discovery Program provides the intellectual framework for students in any major. It represents the faculty's collective belief in what constitutes and contributes to essential knowledge of the world. Together, students and faculty attempt to understand fully and use ethically that knowledge, both in the present and as a reservoir from which to draw in the future. These intellectual skills, knowledge, and ethical grounding will help prepare students to contribute to the creation of a more sustainable, healthy, just, and prosperous world.

> *"He who learns but does not think is lost. He who thinks but does not learn is in great danger." Confucius.*

Discovery Program Student Learning Outcomes

After completing the Discovery Program at UNH, students should be able to:

1. Communicate effectively by applying skills in reading, writing, speaking, and listening.
2. Acquire and use information appropriately and effectively to research, organize, and present knowledge.
3. Apply mathematical concepts and/or statistical models to understand phenomena and/or solve problems in multiple contexts.
4. Formulate and evaluate open-ended questions that lead to empirical/researchable investigations of complex problems and issues.
5. Analyze and synthesize ideas and perspectives from diverse traditions from around the world.
6. Analyze and synthesize ideas and perspectives from more than one academic or intellectual discipline.

7. Clarify connections between their academic learning and their own ethical values.
8. Demonstrate the integration of learning they have achieved in their major field of study.
9. Exercise imagination in grappling with complex problems of both the natural and human created worlds, and understand the centrality of imagination to all human endeavors.
10. Make connections among the various branches of human knowledge and endeavor.

Discovery Program Requirements

Discovery Foundation Skills

Inquiry course. This course may fulfill a Discovery category and/or a departmental requirement. It should be taken during a student's first or second year or prior to completion of 57 credits. For students who transfer in with 26 or more credits, the Inquiry requirement is waived automatically.

One course in writing skills. Most students will satisfy the first-year writing requirement with ENGL 401 First-Year Writing. This course should be taken during a student's first year or prior to completion of 32 credits.

One course in quantitative reasoning. This course is normally completed by the end of the first year or 32 credits.

Discovery in the Disciplines

Students must take one course from each Discovery category at the 400-600 levels. Inquiry courses that carry Discovery category designations may be used to satisfy this requirement.

- One course in Biological Science (BS);[1]
- One course in Physical Science (PS);[1]
- One course in Environment, Technology, and Society (ETS);
- One course in Fine and Performing Arts (FPA);
- One course in Historical Perspectives (HP);
- One course in Humanities (HUMA);
- One course in Social Science (SS); and
- One course in World Cultures (WC) (also may be satisfied by approved study abroad programs).

[1] One of these courses must have a Discovery lab component (DLab).

Discovery and Integrative Understanding

One senior capstone experience, supervised and approved within the major.

The capstone experience is typically completed by senior students within the major and is designed to elicit opportunities for educational reflection and synthesis of knowledge and skills; however, students who have completed 90 credits at the end of their junior year may complete their capstone during the summer prior to their senior year. The capstone may be met with an approved experience (as described below). It is not necessarily a course.

Suggested ways of meeting capstone may include: Hamel Center for Undergraduate Research Programs (IROP, SURF USA, URA, INCO 790 Advanced Research Experience), and senior honors theses. Examples of capstone experiences include courses, projects, independent research, internships, artistic expression, or community and service learning opportunities.

The senior capstone experience must meet one or more of the following criteria:

The capstone synthesizes and applies disciplinary knowledge and skills. The capstone fosters reflection on undergraduate learning and experience. The capstone demonstrates emerging professional competencies. The capstone applies, analyzes, and/or interprets research or data or artistic expression. The capstone explores areas of interest based on the integration of prior learning. The capstone requirement will vary across departments and colleges and may be satisfied through a course, thesis, created work or product, mentored research project, or some form of experiential learning (e.g., fieldwork). The capstone should occur during the student's senior year. Departments designate capstones as appropriate to their respective disciplines following the usual administrative procedures for their college or school. Departments are responsible for certifying that graduating seniors have met the capstone requirement for their majors.

Additional Information

Discovery Program requirements shall not be waived on the basis of special examinations or placement tests, except for the College Board Advanced Placement tests and the College Level Examination Program (CLEP) tests. All students transferring to UNH will come in under Discovery Program requirements. For students who transfer in with 26 or more credits, the Inquiry requirement is waived automatically.

Note to Faculty: Students may petition the Discovery Committee to replace a requirement. The student's petition must be approved by the student's major adviser and forwarded to the Dean of the student's college.

The required courses cannot be taken on a pass/fail basis. No single course may be counted in more than one Discovery discipline category. Academic departments may or may not permit Discovery courses to count toward requirements for a major. TSAS courses may not be used for general-education (1984-2009), writing-intensive, or foreign language requirements. TSAS courses that are 400-600 level and Discovery-approved may count for Discovery requirements. All Discovery courses carry 3-4 credits.

Discovery Foundations

Inquiry

All Inquiry courses must contain four individually necessary and collectively sufficient features:

Inspire curiosity: an Inquiry student will compose open-ended questions that lead to further investigation into increasingly focused problems and issues. Develop understanding and perspective: an Inquiry student will explain a central issue or question of the course using at least two unique perspectives. Clarify standards of thinking: an Inquiry student will be able to identify, compare, and evaluate different interpretations (hypotheses, explanations) of a given phenomenon. Create effective communicators: an Inquiry student will present in clearly organized form the results of the investigation into questions or problems the student has posed.

Writing Skills

Please refer to the University Writing Requirement section for complete information about this Discovery Foundation.

Quantitative Reasoning

Quantitative reasoning refers to the ability to think critically and analytically using abstract formal methods with broad application. Mathematics is the foundation for the physical sciences and, increasingly, for the biological sciences. Its principles and processes illuminate significant aspects of the social sciences as well. In its most precise forms, it enables the design of bridges and the orbiting of satellites. Mathematics discloses invisible truths about the world, makes sense of patterns of which we may or may not be aware, and introduces some order to chaos. In its purest form, it creates its own world of beauty and logic. In its more applied forms, it attempts to make sense of individual and collective human behaviors and complex systems. Many courses listed under this category will help students appreciate the principles of mathematics and gain some skill in its applications to realistic situations, while other courses will introduce kindred subjects including symbolic logic, information theory, statistics, and computer science.

Student Learning Outcomes - Quantitative Reasoning

- Demonstrate proficiency in carrying out college-level mathematical procedures.
- Use college-level mathematical thinking to analyze situations and data and to solve

Discovery in the Disciplines

Biological Science

Biology is a branch of science that investigates the structure and function of living organisms. Scientists investigate ideas and observations that solidify our understanding of the diversity of life from single cells to complex organisms. Biology has deep relations with agriculture, chemistry, psychology, and many other fields of study, and it is the foundation of our knowledge of health and disease. Courses under this category deal with the basic structure and function of organisms, the interaction of organisms with their environment, human health, biotechnology, and the concepts and mechanisms of evolution as a fundamental biological paradigm. All courses will provide some understanding of the methods of scientific inquiry and seek knowledge about the living world.

Student Learning Outcomes - Biological Science (BS)

- Learn about aspects of the living world as described in the course description.
- Demonstrate an understanding of fundamental concepts in biological science.
  - Additional Student Learning Outcomes for BS Discovery Lab (DLAB) courses
- Communicate scientific material effectively in written and oral formats.
- Summarize, analyze, and evaluate scientific data.
- Explain how scientific hypotheses are tested or rejected.
- Master appropriate laboratory and field techniques commonly used in biology.

Environment, Technology, and Society

The exponential growth of the sciences and engineering has bred an equally dramatic growth in technological advances. From the flint arrowhead to the latest communication device or weapon, human beings have been inventing things and transforming their lives, their societies, and their environments as they do. But they seldom foresee all the transformations and consequences their inventions bring about. This category stresses the interplay between at least two of these three realms: environment, technology, and society. Topics might include, but are not limited to, the history of a particular kind of technology (such as transport, fuel, writing, or weaponry), how technological change comes about in general, the scientific and/or social bases for a given technology, its impact for good or ill on human society and the natural environment, the effects of a changing environment on the arts and literature, and/or the ethical questions these topics raise.

Student Learning Outcomes - Environment, Technology, and Society (ETS)

```
One or more of the following:
```

- ```
  Explore the social consequences of technological and/or environmental change.
  ```
- ```
  Master a technology described in the course description and evaluate its human impact.
  ```
- ```
  Consider the impact of various technologies on the environment.
  ```
- Understand the way the environmental challenges shape the development of technology.

Fine and Performing Arts

The arts communicate through the intellect, the emotions, and the body, sometimes all at once, in ways simple and subtle, direct and subliminal, gentle and soul shaking. Understanding and appreciating the arts enriches our lives and preserves our cultural heritage for the future. Through its performances, publications, and exhibits, UNH offers many artistic experiences for students and the larger community, some of which are linked to courses under this category. Such courses, which may be about painting, sculpture, architecture, music, dance, theater, or film, will often include learning through practical experience.

Student Learning Outcomes - Fine and Performing Arts (FPA)

```
One or more of the following:
```

- ```
  Develop an understanding and appreciation of differing forms of art expression such as music, visual art, theatre, or architecture.
  ```
- ```
  Develop skills in creative writing.
  ```
- Produce art in the studio, workshop, or theatre.

Historical Perspectives

Even though we are faced daily with evidence of change in our social world and technology, we easily forget that how we live, where we live, and what we see around us are transient states of affairs. It is important to be able to look on one's own world with an imaginative grasp of its history and the forces behind that history. Courses under this category will give students the opportunity to learn about major historical developments and how these developments have shaped contemporary life in all its complexity. Through the study of particular periods and places, students will gain both "historical perspective" and some skill at the methods of historical inquiry. Common to all courses in historical analysis is the presumption that the categories of social analysis are themselves historical and historically contingent, and that to understand the past requires entering imaginatively into languages, institutions, and worldviews quite different from those of the present day.
  ```

Student Learning Outcomes - Historical Perspectives (HP)

- Study the signature events that occurred within the time and geographical expanse specified in the course description.
- Explore the way primary sources reveal the ideas and values of people living in a different time and place.
- Appreciate human diversity through examination of class, race, and/or gender hierarchies of the past.
- Interpret the way past events and belief systems have contributed to and differed from the values and intuitions of the present.

Humanities

The humanities arose in Renaissance universities as an alternative to theology and consisted mainly of Greek and Latin literature, which dealt with any and every aspect of human life; they became central to the liberal arts. Since the nineteenth century, the humanities also have embraced modern literature, the creative arts, philosophy, and history. They focus on questions about meaning, ethics, aesthetics, and the foundations of knowledge; they are as concerned with form as with content. Courses under this category explore major works, ideas, and traditions that have shaped our understandings of the world and our sense of self at different times and places while examining the distinctive methods of humanistic inquiry.

Student Learning Outcomes - Humanities (HUMA)

- Engage with literary, philosophical, artistic and/or cinematic works that explore some aspect of the human condition.
- Pose questions about the nature of being, ethical imperatives, aesthetics, or epistemology.
- Write a critical essay investigating a focused question raised by a literary, philosophical, or artistic work.

Physical Science

The physical sciences seek to discover the components, structures, properties, and laws of the material world from subatomic particles to the entire universe. Through them, we appreciate both the wondrous complexity of the world and its order. The traditional domains of chemistry, physics, astronomy, cosmology, and Earth sciences are the foundations of knowledge in numberless arenas of human activity, while the intersections between these domains and the biological sciences yield astonishing discoveries about living organisms. All courses will provide some understanding of the methods of scientific inquiry, seek knowledge about the physical universe, and evaluate claims in both technical literature and popular media.

Student Learning Outcomes - Physical Science

- Learn about aspects of the physical world specified in the course description.
- Demonstrate an understanding of fundamental concepts in the physical sciences.
- Use mathematical models and computational thinking to understand the physical world.
- Additional Student Learning Outcomes for PS DLAB courses
- Communicate scientific information effectively in written and oral formats.
- Summarize, analyze, and evaluate scientific data.
- Explain how hypotheses are tested or rejected.
- Master appropriate laboratory and field techniques commonly used in physical science.

Social Science

The social sciences investigate human beings and their societies from the smallest bands of hunter gatherers to huge nations and global institutions. Everything from marriage and kinship to law and crime, from ceremonial gift giving to mortgage derivatives, from witchcraft to health insurance, from ancient ritual to modern communication, is a subject of a social science. Courses under this category will explore different theories, methods, and data-gathering techniques as they apply to different social issues. They also will examine how individuals create, interact with, and are shaped by social groups and institutions, including those associated with politics, economics, religion, family, the arts, health, and education.

Student Learning Outcomes - Social Science (SS)

- Apply quantitative and/or qualitative data to investigate the dynamics of social interactions.
- Develop testable hypotheses regarding the social and cultural world they examine.

World Cultures

Living in a world of many cultures has created both cooperation and conflict across borders, between and within nations. This category, which includes intermediate language courses and approved study abroad programs, encourages students to become cosmopolitan citizens by gaining knowledge and understanding of cultures other than those of the United States. Students will learn to recognize others' values and, ultimately, accept the many ways in which we all are human. They are thus encouraged to see their own culture with fresh eyes and know the sheer diversity of human outlooks.

Student Learning Outcomes - World Cultures (WC)

- Explore human diversity by studying societies and cultures outside the United States.
- Recognize the diversity and validity of unfamiliar cultural values.

Discovery Lab (DLAB)

A course that fulfills the laboratory requirement in the Discovery Program should provide students with hands-on experience that reinforces, supports, and/or augments the material presented in other formats throughout the course. It should teach them how the discipline uncovers and validates knowledge; how phenomena are understood through observation, experimentation, and quantitative analysis; how data are collected and interpreted; and how hypotheses are created, tested, modified, confirmed, or invalidated. These experiences also are likely to provide insights into how scientific theories and models are constructed.

A significant portion of specified course time must be devoted to laboratory and laboratory-related activities. For example, a conventional model for a 4-credit laboratory course consists of three 50-minute (or two 75-minute) weekly lecture periods plus one 80-minute weekly laboratory period. However, courses may include different and/or innovative laboratory experiences provided the total amount of course and laboratory time is comparable.

Student Learning Outcomes - Discovery Lab (DLAB)

- Explain phenomena through observation, experimentation, and quantitative analysis.
- Collect and interpret data.
- Create, test, modify, confirm or invalidate hypotheses.
- Master appropriate laboratory and field techniques used in the biological and physical sciences.
- Communicate scientific material effectively in written and oral formats.

Dropping & Withdrawal from Course

Deadlines for the drop and withdrawal periods vary by course duration and are posted on the **UNH Master Academic Calendar**.

Drop Period

During the drop period, a student may unenroll from a course through Webcat or by working with their academic advisor. A course dropped during the drop period will not appear on the student transcript.

Course drop period deadlines (webcat)

- Webcat drop period deadlines for courses are set based on the below logic for reference.
- Webcat drop periods close on the last day to drop at 11:59 p.m.

Fall Semester	Last day to Drop Course
Full Term	100% Refund - Second Friday
	50% Refund - Fifth Friday
Full Term - Grad Thesis	100% Refund - Third Friday
	50% Refund - Fifth Friday
Term 1	100% Refund - Second Friday
Term 2	100% Refund - Second Friday

January Term	Last day to Drop Course
All Terms	100% Refund - First Day of On Campus Courses
	0% Refund – 4th Business Day of On Campus Courses

Spring Semester	Last day to Drop Course
Full Term	100% Refund - Second Friday
	50% Refund - Fifth Friday
Full Term - Grad Thesis	100% Refund - Third Friday
	50% Refund - Fifth Friday
Term 3	100% Refund - Second Friday
Term 4	100% Refund - Second Friday

Summer	Last day to Drop Course
Full Term	First Day of Term
Term 5	Second Friday
Summer Session I	Fifth Business Day of Classes
Summer Session II	Tenth Business Day of Classes
Summer Session III	Eighth Business Day of Classes
Summer Session IV	Fifth Business Day of Classes
Special Summer Session*	*Count Weeks of Course: one business day of drop per week of the course

Withdrawal Period

Following the drop period, there is a withdrawal period. Withdrawal from a course during the withdrawal period will be recorded on a student transcript with a grade of W. The Withdrawal (W) grade is not included in GPA calculations. Students are responsible for consulting with their academic advisor and the Student Accounts Office to understand the academic and financial implications of receiving a Withdrawal (W) grade prior to making changes to their enrollment.

Course Withdrawal Period Deadlines

- Deadline dates for withdrawing from a course are set based on the below logic for reference.

Fall Semester	Last day to Withdraw from Course
Full Term	Ninth Friday
Full Term - Grad Thesis	Ninth Friday
Term 1	Fourth Friday
Term 2	Fourth Friday

January Term	Last day to Withdraw from Course
All Terms	Dependent on Term Dates & Drop Deadline (Listed on UNH Master Calendar if Applicable)

Spring Semester	Last day to Withdraw from Course
Full Term	Tenth Friday
Full Term - Grad Thesis	Tenth Friday
Term 3	Fourth Friday
Term 4	Fourth Friday

Summer	Last day to Withdraw from Course
Full Term	Not Applicable - Students Must Petition
Term 5	Fourth Friday
Summer Session I	Dependent on Term Dates & Drop Deadline (Listed on UNH Master Calendar)
Summer Session II	Dependent on Term Dates & Drop Deadline (Listed on UNH Master Calendar)
Summer Session III	Dependent on Term Dates & Drop Deadline (Listed on UNH Master Calendar)
Summer Session IV	Dependent on Term Dates & Drop Deadline (Listed on UNH Master Calendar)
Special Summer Session	Not Applicable - Students Must Petition

Exclusion from a Course After Enrollment

A student may be excluded from any course after enrollment, with or without penalty, upon recommendation of the instructor and with the approval of the dean of the college in which the student is registered, as soon as it becomes reasonably apparent that such student is unqualified to carry the course successfully.

Refund Policies & Deadlines

For refund policies see Student Accounts and Financial Aid. Refund deadlines are also posted on the UNH Master Academic Calendar.

Dual Degrees

General Policy

The option to pursue two degrees simultaneously enhances and broadens the education of certain students at the undergraduate level. The program is only for those students who can adequately handle the requirements for two different degrees and who can reasonably allocate the additional time and effort needed for the program. Except for specific five-year degree programs, a student may not pursue two different degree levels simultaneously.[1,2]

Requirements

- Students must petition the college dean or deans involved for permission to pursue a dual degree.
- If the student is planning to take one degree in a highly prescribed curriculum, they should register as a freshman in the appropriate school or college for that curriculum.
- It is expected that a candidate for two degrees baccalaureate will complete 32 credits beyond those required for the first degree. It is expected that a candidate for two associate degrees will complete 16 credits beyond those required for the first degree. General Education and degree requirements must be met for both degrees.
- It is expected that students will maintain a minimum 2.5 cumulative grade-point average.

- Students can earn more than one Bachelor of Science (B.S.) degree, provided that each degree is in a different field. Students cannot earn more than one Bachelor of Arts (B.A.) degree.
- Students can earn more than one Associate in Applied Science (A.A.S.), Associate in Arts (A.A.) or Associate in Science (A.S.) degree, provided that each degree is in a different field.
- UNH Durham students may not pursue a dual degree offered by the College of Professional Students- Online.
- UNH College of Professional Studies (CPS) Online division students may not pursue a dual degree offered by a UNH Durham academic college.
- Students must follow the rules and policies of the academic catalog in effect at the time of their admissions into their first degree program for all university requirements. Students follow the major requirements that are in effect during the academic catalog year the student entered the major program.

Supervision

As soon as a student is accepted as a candidate for two degrees, the appropriate dean(s) will appoint supervisors for each of the proposed majors. The supervisors and the student will work out a basic course plan for the two degrees and inform the appropriate dual degree dean(s) of the plan. The supervisors will maintain joint control over the student's academic program. The deans' offices and the supervisors will receive copies of the grade reports and other records for students pursuing two degrees.

Transfer Students

Transfer students already holding a baccalaureate degree from another accredited institution may pursue an additional dissimilar baccalaureate degree at the University of New Hampshire, provided they fulfill the requirements for the dual degree listed in the undergraduate catalog. The degree received at the first institution will be accepted by the University of New Hampshire as awarded by that institution.

[1] College of Professional Studies-Online students: a student may only be fully accepted to one degree program at a time. Students nearing completion of an Associate Degree within CPS-Online and who have applied to graduate, may also apply for admission to one of the College's Bachelor's Degree programs. Students nearing completion of their Bachelor's degree may apply for admission to a Graduate level or Post Baccalaureate program within CPS-Online through the existing application process.

[2] Applied Bachelor of Science degree programs are considered a different degree level than other bachelor of arts or bachelor of science degree programs. Students may not pursue an Applied Bachelor of Science (ABS) degree simultaneously with another Bachelor of Arts (BA) or Bachelor of Science (BS) degree.

Dual Majors

The University offers several designated Dual Major programs to students. Students that wish to pursue a dual major must first declare a primary major, as a dual major cannot stand alone. Students are required to complete a Senior Capstone in each major. One degree is awarded, that of the primary major.

Additionally, the University offers the opportunity for students to add a Second (Double) Major (p. 42).

Educational Reprieve

Upon petition to the Academic Standards and Advising Committee or College of Professional Studies - Online Petition Committee, a former UNH student who has taken no courses at UNH for five or more consecutive years may, prior to readmission, request Educational Reprieve. A student previously enrolled at the UNH Durham or Manchester campus who has taken no courses for three or more consecutive years may, upon application to a program in the College of Professional Studies - Online, request Educational Reprieve.

When Educational Reprieve is granted, all prior UNH coursework is excluded from the cumulative grade-point average, and a new grade-point average is started upon readmission. The former cumulative grade-point average will remain on the academic record for informational purposes. Credit from all courses in which a grade of C- or better was earned will be retained. Credit from Credit/Fail and Pass/Fail courses will also be retained. The notation "Educational Reprieve" will be displayed on the student's academic transcript.

If a student previously earned a D-, D, or D+ in a course that fulfilled a general education or Discovery requirement, they may request permission to have the course continue to fulfill that requirement.

Students may only petition for Educational Reprieve once. This policy only applies to undergraduate degree programs. All courses will continue to be considered when evaluating satisfactory academic progress for financial aid eligibility.

Note: Honors at graduation (p. 37) is based on the restarted grade-point average, provided the minimum graded credits required for honors have been completed at the University of New Hampshire subsequent to the reprieve.

Enrollment Status

Undergraduate Students

Degree candidate

A student who has been formally admitted into a program leading to a degree awarded by the University of New Hampshire.

Full time Status

Enrolled in 12 or more credits in a given semester.

Three-quarter time Status

Enrolled in 9 to 11 credits in given semester.

HALF time Status

Enrolled in 6 to 8 credits in a given semester.

Less than HALF time Status

Enrolled in fewer than 6 credits in a given semester.

Special student status (Non-Degree Students)

A student who has not formally been admitted into a program leading to a degree awarded by the University of New Hampshire. Such students are usually restricted to part-time study unless permission is granted by the Office of Admissions.

Enrollment Verification

An enrollment verification is a document indicating student enrollment status (Full Time, Three-Quarter Time, Half Time, or Less than Half Time), credit hours, and expected date of graduation.[1]

Ordering instructions are available on the Office of the Registrar's website.

[1]For verification of a degree, order an official transcript.

Equivalent Courses

Courses are equivalent when the same course content is taught under different course subject prefixes and/or course numbers.

Equivalent courses may be applied interchangeably to satisfy degree requirements, unless otherwise prohibited by program (major, minor, program) specific rules.

The repeated course (p. 42) rule is applicable if a student takes two equivalent courses. Equivalent courses also include courses in the past taught under different subject prefixes, numbers, titles, or a writing intensive or honors course section.

Examinations

Final Exams

Final Examinations at the end of each fall and spring full semester may be given in any course. All such final examinations must be scheduled during the designated final exam period on the academic calendar and given at the time scheduled.

No announced oral or written test/exam may be given during the last five days of classes preceding the designated final examination period. The following are exceptions:

- Practical examinations covering laboratory work may be given during the last five days of classes preceding the designated final exam period.
- In courses of a modular nature with several instructors, the instructor of the final module may schedule a final exam during the last five days of classes preceding the designated final exam period. Approval must first be obtained from the college dean.

Priority of Final Examinations and Scheduling Conflicts

Students scheduled for three final exams on the same day during the designated final exam period may choose to take only two final exams on the same day. The final exam scheduled in the middle (second) will be rescheduled. The instructor, in consultation with the student, will schedule a makeup final exam.

Students enrolled in a Term 2 or Term 4 course that conflicts with a final exam scheduled during the designated final exam period, the final exam has priority.

Two final exams scheduled at the same time during the designated final exam period should not occur. But, if such a conflict occurs the following priorities are applicable:

- Final exams in courses required by the students major have priority.
- If neither final exam is for a course required by the students major, the student works with both instructors to determine which final exam is rescheduled.
- If an online and in-person final exam are scheduled at the same time, the in-person final exam has priority.
- If a conflict between campuses occurs, the final exam scheduled on the campus of the students major has priority.

Final Common Exams

Students who are scheduled for two final common exams at the same time should check the Common Exam Priority List to determine which exam has priority.

Final Exam Day Curtailments

If a final exam day is curtailed, the Office of the Registrar will make alternate exam time blocks available during the remaining final exam period, as scheduling permits. Available make-up times may include Wednesday and Friday evening blocks (6:00-8:00 p.m. and 8:00-10:00 p.m.). Instructors may choose to reschedule their exams during one of these alternate time blocks. If a curtailment occurs on the last day of the final exam period, exams will not be rescheduled by the Office of the Registrar. In these cases, instructors are responsible for making alternate arrangements for their final exams, such as administering the exam online.

Weekly Common Exam Hours

Weekly common exam hours are designated by the University as "free" hours, which are reserved for convocations or common exams for multi-section courses. Normally, classes and labs are not scheduled during these hours. The Registrar may allow some exceptions to this policy; however, any classes or labs scheduled during these hours must excuse without penalty all students whose attendance is also required for common exams.

Designated Weekly Common Exam Hours
Tuesday, 12:40-2:00 p.m.
Thursday, 12:40-2:00 p.m. and 7:10-9:00 p.m.

Weekly common exam hours are not applicable to the College of Professional Studies (Manchester & Online divisions).

General Education Program & Requirements

UNH College of Professional Studies-Online Division, Undergraduate Degree Programs

The general education program is founded on fostering intellectual curiosity and preparing people to realize their full potential in a complex and changing world. Students explore major fields of knowledge and engage with ideas through action and application. With commitment to and respect for adults of all ages, the general education program will offer students opportunities to:

Communicate, particularly

- Write with clarity.
- Create digital or visual content.
- Communicate interpersonally.

Think critically and comprehensively, particularly

- Evaluate information.
- Reason with numbers.
- Think analytically.
- Define complex problems.

Apply knowledge to workplace and community, particularly

- Engage with diverse individuals, groups, and cultural frameworks.
- Participate in citizenship and community.
- Solve challenging problems using disciplinary knowledge.
- Reflect on learning to guide professional practice.

Communicate

Three required courses.

In transfer, a minimum of 3 credits is required to meet each course requirement.

Code	Title	Credits
ENG 420	The Writing Process	4
COM 460	Interpersonal Communication and Group Dynamics	4
COM 480	Visual Communication	4
Total Credits		**12**

Think Critically and Comprehensively

Three required courses.

In transfer, a minimum of 3 credits is required to meet each course requirement.

Code	Title	Credits
CRIT 501	Introduction to Critical Inquiry	4
CRIT 602	Advanced Critical Analysis and Strategic Thinking [1]	4
MTH 402	Math for Our World	4
or MTH 504	Statistics	
or MTH 510	Pre-Calculus	
Total Credits		**12**

[1] CRIT 602 Advanced Critical Analysis and Strategic Thinking *is not required at the associate level.* CRIT 602 Advanced Critical Analysis and Strategic Thinking *will not be waived for transfer students holding associate degrees but will be waived for students with an earned bachelor's degree in another field.* CRIT 602 Advanced Critical Analysis and Strategic Thinking *must be taken at UNH CPS and cannot be satisfied through transfer credit, testing, or other forms of prior learning assessment.*

Apply Knowledge to Workplace and Community

Four required courses. Select one course from each of the below areas.

In transfer, a minimum of 3 credits is required to meet each course requirement.

Knowledge of Human Behavior and Social Systems: Social Sciences Disciplines

Courses in this area recognize how changes occur in human development, behavior, social values, groups, and/or institutions.

Code	Title	Credits
CRIM 410	Introduction to Criminology	4
CRIM 425	Juvenile Justice	4
CRIM 555	The Criminal Justice System	4
CRIM 600	Crime Prevention and Control	4
CRIM 645	Crime Victim Rights and Remedies	4
CRIM 680	Corrections, Probation and Parole	4
CRIM 707	Constitutional Law	4
ECO 470	Principles of Economics	4
ECO 580	International Economics	4
ECO 635	Economics of Artificial Intelligence	4
POL 450	American Government and Politics	4
POL 554	Law and Society	4
POL 690	The US in World Affairs	4
PSY 410	Introduction to Psychology	4

PSY 530	Social Psychology	4
PSY 602	Theories of Personality	4
PSY 603	Crisis Intervention	4
PSY 626	Educational Psychology	4
PSY 630	Psychology of Adulthood	4
PSY 646	Psychology of Occupational Stress	4
PSY 654	Counseling Theories	4
PSY 665	Principles of Assessment	4
PSY 685	Principles of Psychopathology	4
PSY 725	Cognitive Psychology	4
SOCI 410	Introduction to Sociology	4
SOCI 601	Society and the Individual	4
SOCI 603	Work and Society	4
SOCI 675	Child Abuse and Neglect	4
SOSC 445	Race & Diversity in the U.S.	4
SOSC 602	Men and Women in Cross-Cultural Perspectives	4
SOSC 630	Aspects of Aging and Older Adulthood in a Modern Society	4
SOSC 675	Dynamics of Family Relationships	4
SOSC 680	Stress and the Family	4
SOSC 710	Social Stratification and Inequality	4

Knowledge of Human Thought and Expression: Humanities Disciplines

Courses in this area allow students to ask and explore a variety of questions about human thought and experience.

Code	Title	Credits
ART 401	Introduction to Drawing	4
ART 403	Introduction to Watercolor	4
ART 512	Fundamentals of Design	4
ART 515	Digital Photography	4
ART 550	Art History: Western World	4
ENG 450	Introduction to Literature	4
ENG 505	Introduction to Language and Linguistics	4
ENG 545	The Media and Its Messages	4
ENG 555	Children's Literature	4
ENG 565	Modern American Writers 1865 to the Present	4
ENG 585	Short Fiction	4
ENG 604	Creative Writing	4
ENG 610	War Writing in the 21st Century	4
ENG 615	Young Adult Literature	4
ENG 620	Multicultural Perspectives through Literature	4
ENG 625	Readings in World Literature	4
ENG 645	Disability in Literature and Culture	4
ENG 675	Survey of Classic Literature Through Film	4
ENG 730	The Graphic Novel	4
HIS 402	Great Civilizations	4
HIS 410	United States History to 1865	4
HIS 411	United States History: 1865 to the Present	4

HIS 512	European History: Renaissance through the Industrial Revolution	4
HIS 590	Historical Methods	4
HIS 602	History of New England	4
HIS 611	Themes in World History	4
HIS 718	History of World War II	4
HIS 727	Vietnam War: An Historical Perspective	4
HUMN 470	World Religions	4
HUMN 480	Introduction to Ethics	4
HUMN 502	American Popular Culture	4
HUMN 560	Introductory Spanish I	4
HUMN 565	Introductory Spanish II	4
HUMN 625	Introduction to Cultural Theory	4

Knowledge of Physical and Natural World: Natural Sciences Disciplines

Courses in this area allow students to develop an understanding of the basic facts, principles, theories, and methods of physical and/or biological science.

Code	Title	Credits
PSY 710	The Biology of Addiction	4
PSY 740	Biopsychology	4
SCI 412	Introduction to Astronomy	4
SCI 470	Physical Geography	4
SCI 480	Introduction to Oceanography	4
SCI 490	Human Biology	4
SCI 502	Nutrition and Health	4
SCI 508	Issues in Women's Health	4
SCI 528	Natural History of Northern New England	4
SCI 541	Introduction to Environmental Science	4
SCI 550	Wellness and the Human Body	4
SCI 575	Introduction to Lifestyle Medicine	4
SCI 604	Principles of Exercise Science	4
SCI 610	Contemporary Issues in Personal and Global Health	4
SCI 615	Fitness and Health	4

Interdisciplinary Seminar

This upper-level seminar's specific topic varies by individual course section.

Code	Title	Credits
IDIS 601A	Interdisciplinary Seminar: Being Happy	4
or IDIS 601B	Interdisciplinary Seminar: Business of Beer	
or IDIS 601C	Interdisciplinary Seminar: Paranormal Activities	

[1] ***Note***: *IDIS 601 Interdisciplinary Seminar should be taken after all other general education requirements are completed. IDIS 601 is not required at the associate level. IDIS 601 will not be waived for transfer students holding associate degrees but will be waived for students with an earned bachelor's degree in another field. IDIS 601 must be taken at UNH CPS and cannot be satisfied through transfer credit, testing, or other forms of prior learning assessment.*

Transfer Policy

Students with a conferred Associate Degree from a regionally accredited post-secondary institution will have their lower level Undergraduate General Education requirements waived.

Grades

General Grading Policy

Grading policies as stated apply to all undergraduate students.

An instructor may assign grades as listed below. In general, these are letter grades. The intermediate grades are designated by adding a plus or a minus to the letter grade. Grade points assigned to plus grades are 0.33 higher than those assigned to the letter grade without the plus. Grade points assigned to minus grades are 0.33 lower than those assigned to the letter grade without the minus. In certain cases, where the format of the course creates difficulties for this type of grading, the course will be designated "credit/fail" if authorized by the faculty of the department in which the course is taught, the dean of the appropriate school or college, and the provost and vice president for academic affairs.

Students earning a semester or cumulative grade-point average less than 2.00 are placed on academic warning.

In an attempt to keep evaluation as objective as possible, instructors will assign a letter grade to a student exercising the pass/fail grading alternative. The instructor will not know that the student is exercising this alternative.

The credit hours or other work units covered by the F grade shall be considered in full in figuring the average, except that the F awarded in a pass/fail grading alternative or in a credit/fail course shall not be figured in the average. Courses covered by the CR or P grades shall not be considered in figuring the average. The number of grade points for a course is determined by multiplying the numerical equivalent of the grade times the semester hours of the course. The grade-point average is determined by the sum total of grade points divided by the sum total of graded credits (courses taken under the pass/fail grading alternative or credit/fail courses are not included in the divisor). The grade-point average is calculated to two decimal places. It is not rounded.

No course taken from another institution will be used in figuring the grade-point average.

The Faculty Senate recognizes that grade inflation exists at the University of New Hampshire. The senate, therefore, states that throughout this University the grade of C shall indicate competent, acceptable performance and learning in undergraduate courses; the grade of B shall indicate superior performance and learning; the grade of A shall indicate excellent performance and learning. These standards shall apply equally to all undergraduate courses, instructors, departments, subjects, and colleges.

Grading System

Letter Grade	Grade Points	Note
A	(4.00)	Excellent
A-	(3.67)	Intermediate Grade
B+	(3.33)	Intermediate Grade
B	(3.00)	Superior
B-	(2.67)	Intermediate Grade
C+	(2.33)	Intermediate Grade
C	(2.00)	Satisfactory, Competent
C-	(1.67)	Intermediate Grade
D+	(1.33)	Intermediate Grade
D	(1.00)	Marginal
D-	(0.67)	Intermediate Grade
F	(0.00)	Failure, No Credit
AF	(0.00)	Administrative Failure

CR	Credit: given in specific courses having no letter grades, designated credit/fail
P	Pass: given in a course taken under the student pass/fail grading alternative
W	Withdrawn
AU	Audit: no credit earned
IC	Incomplete Coursework: grade report notation for student's incomplete coursework
IA	Continuing Course or Thesis: indicates "incomplete" in a thesis or continuing course of more than one semester; the grade earned will replace "IA" assigned in previous semesters
IX	Grade not reported by instructor
NR	Not Resolved: pending academic integrity allegation

Administrative Failure (AF)

An AF grade is usually assigned to the student who stops participating in the course and has not completed course work sufficient for the assessment of course outcomes by the faculty member to issue a letter grade. The administrative failure is usually the result of a student's failure to officially drop or withdraw from a course they stopped attending. An AF counts as an F grade in the calculation of grade point averages.

Instructors should be prepared to report the last date of attendance for students receiving an AF grade. An AF grade can have financial implications for students utilizing Federal Financial Aid programs as well as Veteran and/or Military benefits.

Incomplete (IC)

A notation of incomplete (IC) shall be recorded on a student's record only if a major portion of the entire work of the course has been completed and if the instructor approves the student's request for additional time to complete the coursework. The initiation and responsibility for finishing the incomplete work rests with the student.

When the work of the course has been completed, a final grade for the term will be submitted to the student's college dean. The form indicating completion of the work must be filed with the Registrar no later than the middle of the semester immediately following the one in which the incomplete was granted. A petition requesting an extension of time beyond mid-semester, if approved by the instructor, may be submitted to the dean of the student's college. An extension will be granted by the dean only under unusual circumstances.

If the work is not completed within the specified time, the grade will be recorded as F.

An Incomplete (IC) grade in a student's final semester will delay their graduation date even if the course is not required for graduation.

Pass/Fail Grading

See detailed policy information about Pass/Fail grading (p. 39).

Grade Appeals

Instructors must be prepared to discuss and to explain the basis for their evaluations of students. If, after consulting the instructor, students still believe that they were treated unfairly, they have the right to seek redress from the chairperson of the department or program in which the course is offered. Under exceptional circumstances, a final appeal may be made to the dean of the college in which the program is offered.

Grade Changes

Requested grade changes submitted before the middle of the semester immediately following the one in which the grade was granted may be approved by the student's academic dean or their designee. After mid-semester, students must petition the Academic Standards and Advising Committee. Students in the College of Professional Studies Online Division petition the CPS Academic Exceptions Committee.

Graduation Certification

The graduation certification (degree conferral) process is managed by the Office of the Registrar. Degrees are awarded three times a year: December (Fall), May (Spring) and September (Summer). Candidates for graduation shall be certified as to their college requirements by the several college faculties to the Registrar, who shall recommend them to the president for their appropriate degrees provided they have satisfied all university degree requirements for graduation (p. 22).

Students must formally apply to graduate within the published deadlines on the master academic calendar to initiate the graduation certification process. Coursework must be complete by the graduation date for which the student has applied. Incomplete grades in the final semester will prevent graduation.

Honors Designations & Eligibility

Dean's List (Semester Honors)

Dean's list (semester honors) recognizes undergraduate students who demonstrate strong academic performance during a semester. Students who meet the criteria are formally designated to the Dean's List for that semester.

Undergraduate degree students may earn Dean's List honors by meeting either of the following criteria:

- Completed at least 12 letter-graded credits* in UNH courses during the semester and earn a semester GPA of 3.50 or higher; or
- Earn a semester GPA of 3.50 or higher and maintain a cumulative GPA of 3.50 or higher, regardless of the number of graded credits taken during the semester.

**Letter grades include standard grades such as A, B, C, etc. Credits graded CR (Credit) or P/F (Pass/Fail) do not count toward the 12-credit requirement.*

Honors Designation & GPA Requirement

- Highest Honors: 3.85-4.00
- High Honors: 3.65-3.84
- Honors: 3.50-3.64

Graduation Honors

Baccalaureate degree candidates

Students who have earned honors for their entire work at the University will be graduated with honors based on the final cumulative grade-point average, provided that a minimum of 64 graded semester hours (30 for CPS-Online students) has been completed in University of New Hampshire courses. The Latin equivalent of the honors designation will appear on the student's academic record and diploma. The student's honors designation will be noted in the Commencement program.

Honors Designation & GPA Requirement

- Summa Cum Laude: 3.85-4.00
- Magna Cum Laude: 3.65-3.84
- Cum Laude: 3.50-3.64

Associate degree candidates

Students who have earned honors for their entire work at the University will be graduated with honors based on the final cumulative grade-point average, provided that a minimum of 32 graded semester hours (16 for CPS-Online students) has been completed in University of New Hampshire courses. The English equivalent of the honors designation will appear on the student's academic record and diploma. The student's honors designation will be included in the Commencement program.

Honors Designation & GPA Requirement

- Highest Honors: 3.85-4.00
- High Honors: 3.65-3.84
- Honors: 3.50-3.64

Leave of Absence

Any student not subject to any academic or conduct separation wishing to seek a leave of absence from their degree program may consult with their respective college dean's office or the Office of the University Registrar. Reasons for requesting a leave of absence may include financial, academic, personal, or health reasons. Students who request a leave that begins while they are enrolled for a given semester will be subject to the rules governing refunds and the award of a grade of W. Students on a Leave of Absence, including a health leave of absence, may only request prior approval to take classes at another university for a term in which they are otherwise eligible to return to UNH. More information regarding this process, including details regarding when students are eligible to return, can be found in the transfer credit policy. Students are prohibited from study away program participation during the duration of the leave.

Any student taking a leave of absence from UNH for health reasons may consider the Health Leave of Absence process. More information about Health Leaves can be found on the Dean of Students website. Students who are granted a Health Leave of Absence must submit a letter of support from a treatment provider to be reviewed by the Dean of Students prior to approval and reinstatement. Students who are granted a Health Leave of Absence with an effective withdrawal date after the 5-week drop deadline must remain on leave for one complete semester following the semester in which the leave was granted.

To minimize issues with course availability, it is recommended that students returning from a leave notify the appropriate office (Registrar for leave of absence and Dean of Students for Health Leave of Absence) by June 1 when returning for the fall semester and by November 1 when returning for spring semester. Students who request reinstatement on or after the first day of classes will be denied. Students will be reinstated into the same major they were enrolled in at the start of their leave. Leaves of absence may not exceed two academic years or four semesters, exclusive of January Term and Summer Session. Military students who are deployed for longer than one year will be allowed to reactivate into original program requirements as long as they can provide official orders corresponding with their absence from the college. Failure to return from a leave of absence or to formally withdraw is considered a lapse in a student's degree status in the next semester after two academic years have elapsed. In these cases, a transcript notation is recorded "degree status discontinued," and will require students to apply for readmission as a previously enrolled student. Students who apply for readmission will still be asked to fulfill any outstanding responsibilities including receiving approval from the Dean of Students if they took a Health Leave of Absence. Exceptions to the leave of absence policy may be granted by the University Academic Standards and Advising Committee and only in unusual circumstances.

Majors and Options

A student earns an undergraduate degree with at least one declared major. Students must declare a major by the end of their sophomore year and must complete major, core curriculum (Discovery or General Education Program), Writing Program, and degree requirements.

Within majors of four-year programs, students often have choice among two or more 'options.' An option is generally a set of 15-24 required credit hours of related courses within a particular major.[1] The term 'option' is reserved for baccalaureate degrees. Options allow students to specialize within a discipline. The choice of option is recorded on the student's transcript.

[1] College of Professional Studies-Online bachelor's degrees require a minimum of 32 credits in the major/option.

Math & Statistics Courses

Mathematics Course Policies

Code	Title	Credits
MATH 418	**Analysis and Applications of Functions**	**4**
	*Some students who are bound for science but need additional college preparatory mathematics may be required to take this course prior to calculus.	
	*Students may place out of this course by taking a placement test.	
MATH 424A	**Calculus for Social Sciences**	**4**
	*Offered every Fall semester.	
	*Designed primarily for COLA/PAUL students.	
	*No placement test required.	
	*No prerequisite course required.	
MATH 424B	**Calculus for Life Sciences**	**4**
	*Offered every Spring semester.	
	*Designed primarily for COLSA students.	
	*No placement test required.	
	*No prerequisite course required.	
MATH 425	**Calculus I**	**4**

	*Offered every semester.	
	*Designed primarily for CEPS students.	
	*Prerequisite: MATH 418 with grade of C or better OR qualifying score on the placement exam.	
	*If prerequisite is not completed, students must drop this course.	
MATH 426	**Calculus II**	**4**
	*Prerequisite: MATH 425	
	*Students that take MATH 424A or MATH 424B are advised to additionally complete a set of supplementary worksheet modules administered by the Mathematics Center (MaC).	
	*If prerequisite is not completed, students must drop this course.	

Statistics Course Policies

Generally, students cannot receive academic credit for more than one of the statistics courses below. The exception is that a student may receive credit for MATH 539, MATH 540 or MATH 644, after taking a statistics course offered by a department outside of the Mathematics & Statistics Department.

Any student that has completed a statistics course and declares or changes to a major that requires a different statistics course must speak with the new major department.

The department may:

- Accept the statistics course already taken to fulfill the requirement.
- Require a competency exam in the major department's statistic course.
- Require the student to take a different statistics course, which may result in the student losing credit for the first statistics course taken. A student may receive eight credits for two introductory statistics courses if, and only if, the student takes the second of these as a requirement of the program they have moved into after taking the first statistics course.
- Take other action, determined by the major advisor.

Code	Title	Credits
Statistics courses offered by the Mathematics & Statistics Department		
MATH 439	Statistical Discovery for Everyone	4
MATH 539	Introduction to Statistical Analysis	4
MATH 540	Probability & Statistics	4
MATH 644	Statistics for Engineers and Scientists	4
Statistics courses offered by other Departments		
ADMN 510	Business Analytics and Statistics	4
BIOL 528	Applied Biostatistics I	4
HMP 540	Statistics for Health and Human Service Professionals	4
PSYC 402	Statistics in Psychology	4
SOC 402	Statistics	4

Minors

Policies

Bachelor's degree students may earn a minor in any undergraduate discipline designated by the University.[1] Students must consult with their major advisor and also the minor supervisor.

A minor typically consists of 20 credits with C- or better and a 2.0 grade-point average in courses that the minor department approves.[2]

- Students may not earn a minor in the same academic discipline as their major. *(E.g. Students majoring in psychology may not earn a minor in psychology).*
- Courses taken on a pass/fail basis may not be used for a minor.
- No more than 8 credits used to satisfy major requirements may be used for the minor.
- No more than 2 courses or 8 credits may be from transfer coursework. For some minors, all courses must be taken at UNH. The department chair or coordinator is responsible for the minor and must approve any transfer coursework.
- Some minors may have more restrictive requirements as indicated in the specific minors detailed information.
- UNH Durham students may not pursue a minor offered by the College of Professional Studies (CPS)-Online Division.
- UNH College of Professional Studies (CPS) Online Division students may not pursue a minor offered by a UNH Durham college.

Before a student's final term, an application to declare a minor should be made to the dean to have the minor included on the academic record.

View a list of current minors offered by the university.

1 Departments can approve a minor when a student has earned only 18 or 19 credits, provided that the student has completed a minimum of five (5) courses.

2 Students in an Applied Bachelor of Science (ABS) degree program may not earn minors.

Mutually Exclusive Courses

Courses are mutually exclusive when course content is too similar to earn credit for both courses.

Students may not enroll if they have completed any mutually exclusive courses with a passing grade.

Petition for Variance in Academic Policy must be submitted for a mutually exclusive course to:

- Request permission to register due to exceptional circumstances.
- Request permission to exercise the repeated course (p. 42) rule.

Note: credit will not be awarded for the most recent course completed, unless approved by petition.

Pass/Fail Grading

An undergraduate student working toward a bachelor's degree may elect to use the pass/fail grading alternative for a maximum of 4 credits per semester, not to exceed 16 credits during the student's matriculation.[1,2]

An undergraduate student working toward an associate's degree may elect to use the pass/fail grading alternative for a maximum of 4 credits per semester, not to exceed 8 credits during the student's matriculation.

Students in their first term at the University have the option to change up to 4 credits from graded to pass/fail at any point prior to the Friday of the 10th week of the semester and must obtain the approval of their advisor.[1]

All other degree students have the option to change up to 4 credits from graded to pass/fail prior to the end of the add period (the second Friday of classes) and must obtain the approval of their advisor.[1]

The pass/fail grading alternative may not be used for the following types of courses:

1. Core Curriculum requirements (Discovery Program or General Education Program Courses)

2. Writing Intensive requirements
3. Major and minor requirements
4. To repeat a course previously taken
5. Foreign language requirement

The minimum passing grade requirement for a course taken pass/fail is D- (0.67). The course grade of a pass/fail course will not be calculated into the grade-point average of the student, but the pass or fail will be recorded on the student's transcript. In the event of a pass, the student will receive the course credits (credit hours) toward degree requirements. The undergraduate student may elect the pass/fail grading alternative without permission or knowledge of the faculty member (course instructor). Upon request, the Registrar shall inform the instructor of any course of the percentage of students enrolled as pass/fail.

[1] Peter T. Paul College of Business and Economics courses may NOT be taken on a pass/fail basis by a student majoring in business administration, economics, or hotel administration.

[2] Students in bachelor's degree programs within the College of Professional Studies, Online may not exceed 8 credits within a degree program. Advanced approval of the Assistant Dean of Curriculum or Dean of the School of Education is required prior to registration.

Prerequisites

Course prerequisites are those courses that are required to have been successfully completed prior to enrolling in another course and must be so described in the University catalog.

Before registering for a course, students should check the course catalog to determine course prerequisites.

Students who fail a prerequisite to a course for which they are registered must drop the course. This policy applies to degree and non-degree students. It is the responsibility of the student to ensure all prerequisites or other requirements for a course have been met.

Prior Learning Assessment (PLA)

UNH College of Professional Studies (CPS) Online Students

In addition to previous college courses, prior learning acquired through workplace training and/or other life experiences is acknowledged and recognized as the foundation on which to build a degree program. The College provides options to demonstrate how prior learning may satisfy degree requirements.

Preapproved PLA Options

National Training Programs

The American Council on Education (ACE) and the National College Credit Recommendation Service (NCCRS) have evaluated and made recommendations regarding college credit for many formal training programs from business and industry, government, and nonprofit agencies. Credit will be awarded based on the recommendations of the ACE National Guide to Educational Credit for Training Programs and the College Credit Recommendations Directory of the National College Credit Recommendation Service. Students must request an official transcript from ACE or documentation of successful completion from the training sponsor. Official transcripts are sent directly to the College Undergraduate Admissions Office.

Workplace Training Programs Evaluated by CPS

CPS awards credit for college-equivalent learning gained through training. Training that the College has evaluated includes the NH Police Standards and Training Academy, the State of NH Division of Personnel Management, NH Fire Standards and Training, Primex, as well as other training programs. The student must provide official documentation of successful completion of the training program; documentation must be sent directly from the training sponsor to the college.

To pursue credit for preapproved prior learning, see detailed information and FAQs for preapproved prior learning options accepted by the College of Professional Studies-Online Division.

Note: Students must be accepted and enrolled in an undergraduate online degree program with UNH College of Professional Studies-Online Division for prior learning credit to be awarded and transcripted.

Non-Collegiate Course Providers

Credit may also be earned for courses taken with non-collegiate course providers, such as Saylor Academy, Sophia.org, and StraighterLine, which have been evaluated by the American Council on Education (ACE) or the National College Credit Recommendation Service (NCCRS) and recommended for college credit. In order for credit to be awarded, the ACE or NCCRS-recommended score must be achieved on the proctored exam.

Examination Programs

ACE and the NCCRS have also evaluated certain tests to demonstrate college-level knowledge and earn credit. The College recognizes competency demonstrated through Advanced Placement (AP), American Council on the Teaching of Foreign Languages (ACTFL) proficiency testing, College Level Examination Program (CLEP), DSST, NOCTI Business Solutions, and UExcel. Students are responsible for any fees associated with testing options.

The College will award the number of credits and the subject area recommended by ACE or NCCRS. For credit to be awarded, the content of the exam must meet an outstanding degree requirement. Credits acquired through testing cannot duplicate credits earned from other sources. The College limits on credit awarded for examination programs are for all of the sources listed combined.

Contact a CPS Academic Advisor prior to taking any standardized examination to ensure that the examination selected is not duplicative of course work completed or projected, or of other tests.

CLEP (College Level Examination Program)

Students who take a CLEP exam and do not receive a passing score must wait 90 days before retaking the exam. Detailed information about exams, and list of available subjects is available on the CLEP website.

DSST Exams (Defense Subject Standardized Test)

Students who take a DSST exam and do not receive a passing score must wait 90 days before retaking the exam. List of DSST exams and related fees, College Code: 8478.

Portfolio Assessment Options

Portfolio options are available to demonstrate college-level learning acquired through training and/or life experiences. Credit can be requested for specific College courses, or based on courses from other regionally-accredited institutions, or developed by the student with college-level learning outcomes. The following degree requirements are not eligible for portfolio assessment: Integrative Capstones; CRIT 602 Advanced Critical Analysis and Strategic Thinking and IDIS 601A, IDIS 601B, or IDIS 601C; culminating teaching experiences; and field-based courses.

Experiential learning portfolios are developed in CRIT 603 Critical Inquiry in Prior Learning Assessment. In the course, students will work closely with their instructor to develop a portfolio that demonstrates prior learning usually based on the learning outcomes of a specific course needed for a student's degree completion. The portfolio will then be assessed by a trained evaluator and they will determine if the student has displayed evidence of prior learning and if credit may be awarded. After successful completion of the course, students may submit additional credit requests for evaluation. If submitted within one year of completion of the course, no portfolio evaluation fees will apply. If submitted after one year of completion of the course, an evaluation fee of $350 per course equivalent credit request will apply. All credit requests must be submitted within three years of successful completion of the course. CRIT 603 Critical Inquiry in Prior Learning Assessment can be repeated no more than once after withdrawal or failure. Portfolio assessment of prior learning is not available to students who are within 16 credits of degree completion.

If students have completed a prior learning portfolio and received credit at a regionally accredited college or university that isn't a member of the Consortium for the Assessment of College Equivalence (CACE), they may submit their portfolio to the College for assessment. Students choosing this option will be given information about the required portfolio components, evidence validity criteria, and the standards for college-level equivalence. Once the portfolio has been submitted to the College, the Director of Liberal Arts will provide an initial assessment of whether the portfolio meets the minimum requirements to be sent to a faculty evaluator. The student will assume responsibility for any further development of the portfolio based on this initial review prior to sending the portfolio for faculty assessment. The prior learning assessment fee will be charged at the point the student notifies the college that they want the portfolio to be sent for evaluation.

Prior Learning Credit Limits

CPS will apply a maximum of 30 prior learning credits towards an Associate Degree, 45 credits toward an Applied Bachelor of Science and 60 credits towards a Bachelor of Arts or Bachelor of Science Degree for any combination of the prior learning credit options. These credits do not count in the residency requirement for degree programs. Prior learning credit requests should be made within six months of acceptance to maximize potential credit awarded.

Fees

No fee is charged to award credit for standardized exams, training evaluated by the American Council on Education, or the National College Credit Recommendation Service or the Consortium on the Assessment of College Equivalents (CACE). A PLA fee of $350 is charged for credit awarded for workplace training and occupational credentials that the College has previously evaluated and preapproved for credit. For up to one calendar year after admission to the College, the PLA fee covers multiple submissions of documentation. After one calendar year, a fee of $350 per training experience or credential submitted will be charged.

Financial Aid may be used to pay the PLA fee if the student has financial aid eligibility, submits an Award Revision Request Form indicating their intent to use financial aid for this purpose, and completes the Federal Title IV Financial Aid Payment Authorization Form.

Progress Reports

In the weeks preceding the drop deadline, course instructors will provide early alert indicators on any students in their classes with below average performance as indicated through absences/lack of participation, missing/late assignments, or quiz/test results. Some faculty may not assess substantive progress until the Midterm Examination. Faculty members are able to issue an alert or make a referral on individual or groups of students by logging in to myWildcat Success anytime during the semester or term.

Registration

Course attendance in scheduled classes is limited to students who are officially enrolled/registered or approved to audit the course.

Students will receive credit only for courses in which they are officially enrolled/registered.

Priority Registration

Priority registration is the period before open registration in which undergraduate degree students may begin course registration for an upcoming fall/spring semester or term. Dates and deadlines for priority registration are designated by class level (p. 20) and posted on the Academic Calendar. Registration access codes (RACs) are required to complete priority registration by Durham and Manchester undergraduate degree students.

Early Priority Registration

- Veteran students are assigned early priority registration. This means that Veteran students register during the initial registration period of their designated class level.
- Student athletes are assigned early priority registration. This means that student athletes register during the initial registration period for their designated class level.
- Honors students are assigned early priority registration. This means that Honors students register during the initial registration period for their designated class level.

Registration Access Code (RAC)

Registration access codes are assigned to avoid overloading the registration system during the high demand course registration periods for fall and spring courses. Registration access codes are assigned to eligible students based on their current class level (p. 20). RAC times are assigned randomly within class levels from earliest to latest and cannot be changed. RACs are released to students by their academic advisor.

- **Durham and Manchester** undergraduate degree students are assigned a RAC for fall and spring priority registration.

Account Holds

Certain holds on accounts will prevent registration and can be viewed in Webcat.

Repeated Courses

Any student who is regularly registered for a course and who satisfies the requirements shall receive credit except that no student shall earn credit for the same course twice, unless otherwise noted in the catalog. When students repeat a course, the former credits and grade points shall be removed prior to the calculation of their cumulative grade point average and the repeated course information shall be added. Both grades are visible on the official transcript. A notation will be made on the student's record beside the grade received on the repeated course indicating that it is a repeat. In order for a course to be considered "repeated", the course numbers and titles must match exactly. If the course numbers and titles do not match exactly, the student must obtain written permission from their academic advisor and the endorsement of their college dean on a Petition for Variance in Academic Policy form before the adjustment will be made to their transcript. Students may not use the pass/fail grading alternative to repeat a course. Both the original course and the repeated course must be UNH courses.

Residence Requirement

"Residence" is being enrolled in University of New Hampshire courses after admission to and matriculation in a degree program. Students who are candidates for bachelor's and associate degrees must attain the last one-fourth of their credits toward the degree in residence unless granted permission by the Academic Standards and Advising Committee to transfer part of this work from other accredited institutions.[1]

[1]College of Professional Studies-Online students: academic residency begins on the date of application to a degree program. Prior Granite State College credits earned as a non-degree student will apply to the residency requirements if the credit is applicable to the student's approved plan of study. For an Associate Degree, residency is 16 credits. For any Bachelor's Degree, residency is 30 credits. A student who has completed a Granite State College Associate Degree must earn an additional 14 credits in residence in the Bachelor's program.

Second (Double) Major

Undergraduate degree students may choose to fulfill the requirements of two major programs.

- UNH Durham and Manchester students must obtain approval from the department offering the second major, and the dean of the college in which the second major is offered.
- UNH CPS Online students must work with their academic advisor to submit a change of program form to request the second major.

The following rules are applicable to all students pursuing a second major:

- If the two majors confer different degrees (e.g., B.A. vs. B.S.), students must choose one degree to be awarded and fulfill all degree requirements for the selected degree.
- A maximum of eight (8) credits may be shared between the two majors.
- Students in an Applied Bachelor of Science degree program may not pursue a second major.
- UNH Durham students may not pursue a second major offered by UNH CPS Online.
- UNH CPS Online students may not pursue a second major offered by UNH Durham or Manchester.

Student Designed Majors

Under special circumstances, students may design their own majors. This option is offered for highly motivated and self-disciplined students who seek a course of study that is not available through existing programs at the University. It allows students, with the close supervision of faculty members, to cross department and college lines and to create educational experiences on and off campus as part of individual programs of study.

Student-designed majors are administered by a committee of elected faculty that operates through the Office of the Provost and Vice Provost for Academic Affairs. Students who want to design their own majors are required to give the committee evidence of careful thought and planning in a proposal.

Proposals are only reviewed once a semester. Fall submissions are due by October 15 of the student's junior year. Spring submissions are due by February 25. The committee will convene soon after the deadline to review the proposals. Under no circumstances will the committee consider a senior year proposal.

Proposal guidelines are available in the Office of the Provost.

The College of Professional Studies-Online, offers several bachelor's degree programs in Individualized Studies within designated areas. Individualized Studies majors develop an approved program of study leading to a specific educational or professional goal. Students interested in the Individualized Studies major should contact their academic advisor. The student will work with their advisor and the Director of Liberal Arts to determine if an Individualized Studies degree is feasible. Once the student's degree plan has been researched and finalized, the student must submit a proposal to Academic Affairs for approval.

Study Away Eligibility

Academic Eligibility

Students enrolled in UNH baccalaureate or Thompson School of Applied Science degree programs may participate in a UNH Partner, Faculty-led or Exchange global education program provided they meet the following eligibility criteria:

1. Must have earned at least 32 credit hours at the time of departure, at least 12 of which must have been earned at the University of New Hampshire at the baccalaureate level.
   a. Undeclared students are eligible to participate in study abroad programs and should work closely with their academic advisor to be aware of any potential consequences relative to degree completion.
2. Must have a minimum 2.5 cumulative grade point average at the time of application to and at the time of departure for the study away program. Study Away Programs provided by UNH or approved institutions may have higher minimum GPA requirements.
   a. For some faculty-led programs, students who have a cumulative GPA between 2.0 and 2.5 may be considered on a case-by-case basis. Students who wish to be considered for an academic

variance must petition the Academic Standards and Advisory Committee or ASAC with the support of their primary academic advisor and the student's college dean's office. ASAC approval does not guarantee acceptance into the individual program.

3. Athletic Team members participating in Other International Experiences (OIE programs), including first-year students, will establish eligibility for their team trip with the Athletics department. If an athlete is participating in a regular study away program, they will need to follow the UNH study away eligibility requirements as well as any specific criteria required for the program they are applying to.

Additional Information

- Graduate Students do not need to establish eligibility.
- Students who seek to study-away as first-year students will need to submit a petition to request a variance in academic policy to the Academic Standards and Advising Committee (ASAC).
- Transfer students, except transfer students from Thompson School of Applied Science (TSAS), are not eligible to study away during the first semester of their baccalaureate program at UNH.
- Students returning from a leave of absence are not eligible to study-away their first semester back.

Eligibility and Student Conduct Policy

Students studying away must have a clear conduct record at the time of application, departure and while abroad; they are held to the Student Rights, Rules, and Responsibilities throughout their time abroad.

These same conditions will apply in instances where the conduct issue has been addressed through the court system rather than through the University's Student Conduct system.

Students who are on University Disciplinary Probation or who have a demonstrated track record of prior misconduct may be deemed ineligible for education abroad. They have an opportunity to petition. Student eligibility related to conduct will be reviewed and students will be notified if ineligible and be given the opportunity to petition ASAC.

Transcripts

Official academic records are maintained in the Office of the Registrar at the University of New Hampshire.

A university transcript (academic record) is an official document issued by an educational institution that provides a comprehensive record of a student's academic achievements, including courses taken, grades received, GPA, and degree(s) conferred. Official transcripts bear the University seal and the signature of the University Registrar. The university partners with Parchment for its online ordering and official transcript production. Unofficial transcripts are available to students in Webcat.

Transcript Keys

UNH Transcript keys provide guidance to assist in interpreting transcript terminology and grading systems.

Transfer Credit Policies & Resources

Transfer Credit Policies

General Eligibility Requirements

- Transfer courses must be completed at a **regionally accredited college or university**.
- Transfer courses must be completed with a **grade of C- or higher**.
- An **official transcript** sent directly from the institution where the transfer course was completed is required.

Exclusions

- Courses completed on a Pass/Fail or Credit/Fail grading basis; except labs associated with a lecture course.
- Elementary-level foreign language courses, if two or more years of the same language have already been completed in high school.
- Mathematics courses that are below the College Algebra level.
- Remedial or developmental courses.
- Non-credit certificate courses.
- UNH students whose status is suspended due to academic performance may not transfer credits earned during the period of required separation from the University.
- UNH students whose status is suspended due to a conduct violation may not transfer credits earned during the first semester of the suspension from the University.

Grades and GPA

- Transfer credit is not calculated into the UNH grade point average (GPA).
- Transfer course grades are not shown on the UNH transcript, except for courses awarded study away transfer credit.
- If credit has already been earned for a UNH course, transfer credit will not be awarded for an equivalent course completed at another institution and may not be used under the UNH repeated course rule.
- A department may accept an equivalent course completed at another institution to satisfy a specific major/program requirement. In these cases, no transfer credit is awarded, but the grade earned is recorded. The course does not count toward the total credits required for the degree.

Discovery Program Requirements

To apply transfer credit toward UNH's Discovery Program requirements:

- Courses must be completed with a minimum of 2.5 or more semester credits.
- The Inquiry (INQ) requirement must be completed at UNH.

AP Scores and CLEP Exams

To receive transfer credit for Advanced Placement or College Level Examinations:

- Official scores must be sent directly from the College Board to UNH.
- The Registrar's Office will review transfer credit eligibility and apply credit to the student's academic record.
- A notification will be sent to the student's UNH email account when completed.

Approved AP Exam Scores & UNH Equivalency Guides

- Students admitted before Fall 2025
- Students admitted Fall 2025 and after

Credit Conversion

Courses completed at other institutions are transferred to UNH based on semester hour credits:

- A course completed at another institution for 3 credits will be converted to 3 semester hour credits at UNH.
- Courses measured in quarter hours, term hours, or units will be converted to semester hour credits during the transfer credit evaluation process.

Maximum Credit Limit

Durham & Manchester Undergraduate Degree Programs

- 48 credits toward an associate degree
- 96 credits toward a bachelor's degree.
- 72 credits from associate-level coursework toward a bachelor's degree.*
  **Not applicable to Manchester or Thompson School of Applied Science students.*

CPS Online Undergraduate Degree Programs

- 44 credits toward an associate degree.
- 60 credits toward an applied bachelor of science degree.
- 90 credits toward a bachelor of arts or bachelor of science degree.
- In Bachelor's Completion programs, the earned associate degree transfers in full.

Additional information about transfer credit policies for CPS Online students.

Leaves of Absence

Students on an approved leave of absence must be eligible to return to UNH when they take a course at another institution. If a student is not eligible to return at the time the course is completed, the credit will not be considered for transfer.

World Language Courses

Depending on a student's prior language study and the level of the coursework, transfer credits may be considered to fulfill the Bachelor of Arts World Language Proficiency Requirement or may count as general elective credit toward the total credits required for the degree program.

Bachelor of Arts – World Language Proficiency Requirement Credit

Elementary-level language courses may be considered to fulfill this requirement:

- If the coursework is in a different language than the student studied for two or more years in high school.
- If the student completed the coursework in high school through an approved college dual enrollment/credit program (e.g. Running Start, Early College, etc.).
- If two or more years of an elementary-level language have been completed in high school and the student later completes elementary-level coursework in the same language at a college or university, the transfer coursework must be completed at least five years after the student last studied the same language in high school.
- If two or more years of an elementary-level world language have been completed in high school within the previous five years, transfer credit coursework in the same language must be completed at the intermediate level or higher.

Some majors may accept American Sign Language (ASL) courses to fulfill the BA World Language Proficiency Requirement. Refer to the program requirements in the academic catalog *to determine if ASL courses are accepted for a specific major. ASL courses follow the same elementary and intermediate-level course requirements as any other world language course.*

General Elective Credit

Effective Fall 2025, students that have completed two or more years of a language in high school may be eligible for general elective credit for transfer credit in the same language. Transfer credit will count toward the total credits required for the degree program.

Transfer Credit Prior Approval

Current undergraduate students at UNH Durham or UNH College of Professional Studies, Manchester must request a transfer credit prior approval before enrollment in a course at another institution.

Requesting a transfer credit prior approval allows students to plan future transfer coursework and ensures the course is eligible for transfer to UNH. Additionally, the evaluation determines whether a course will fulfill any specific program requirements, such as major, minor, Discovery, or elective credits.

UNH College of Professional Studies, Online students should visit the CPS Transfer Credit Evaluation webpage for details on how to request a transfer credit evaluation.

Prospective or incoming UNH transfer students should visit the Office of Admissions transfer webpage for details on how to request a transfer credit evaluation.

Transferring Completed Coursework

Learn how to transfer completed coursework from another institution to UNH, submit offical transcripts, and navigate the transfer credit process. More information and a step-by-step guide are available on the Office of the Registrar's website.

Variable Credit

Credits in a variable credit course are established either by the student with departmental approval or assigned by the department at the beginning of the semester. In either case, the student may make the change in Webcat by the end of the add period.

Withdrawal from the University

A student may voluntarily withdraw from the University by obtaining, completing, and submitting a withdrawal form from the Registrar's Office through the withdrawal period.

Failure to register in any regular semester or to formally withdraw is considered a lapse in a student's degree status and a transcript notation is recorded "degree status discontinued." The student must subsequently apply for readmission[1].

If a student receiving federal financial aid officially (W) or unofficially (AF) withdraws from coursework in a term or from a degree program, return policies designated by the U.S. Department of Education will apply.

A prorated schedule is used to determine the amount of federal aid a student has earned at the time of the withdrawal up to the 60% point of a student's enrollment. Unearned aid will be returned to the U.S. Department of Education and the student is responsible to the University for any balance incurred as a result of the return.

For students who unofficially withdraw from the term, federal financial aid regulations allow that a student's aid be prorated based on presumed attendance through the half-way point of the payment period or period of enrollment.

If a student withdraws from a course, but is registered for a late start course in the same term (and the drop date has not passed for the late start course), then written confirmation of the student's intent to return is required to be provided to the Office of Financial Aid or a return calculation will be performed.

Students receiving aid through the Department of Defense's (DoD) Federal Tuition Assistance program are subject to the same prorated schedule of returning unearned aid if the student officially or unofficially withdraws from a course(s). The calculation will be based on the student's last date of attendance in the course(s). The unearned aid will be returned to the DoD. Students are responsible for any balances that results from the calculation. The only exception is when the student stops attending due to military obligation.

[1]College of Professional Studies Online division students are exempt from the continuous enrollment requirement.

World Language Proficiency Requirement

The Bachelor of Arts degree requires proficiency in a world language.* This requirement may be fulfilled by completing the equivalent of a full-year elementary-level course in a language not previously studied, or by completing the equivalent of a semester of a course in a world language at the intermediate or higher level, or by earning credit through an approved Advanced Placement or College Board foreign language achievement test (minimum scores vary). The World Language Proficiency requirement must be satisfied by the end of the sophomore year. It is strongly advised that students check with academic departments or academic centers to identify department-advised specific world language proficiency options.

A Student with a documented disability who wishes accommodation on the basis that the disability will prevent them from successfully mastering a world language requirement, or whose world language requirement was waived in high school because of a documented disability, must contact Student Accessibility Services, Smith Hall, (603) 862-2607 (Voice/TDD).

**Previously this requirement was referred to as the Bachelor of Arts Foreign Language Proficiency Requirement.*

Writing Program & Requirements

In 1995, the Academic Senate established the Writing Program as an expression of the following fundamental values and goals for writing at UNH: *As the cornerstone of any higher education, academic and disciplinary literacy is the concern of the entire faculty and the whole University curriculum. Understanding that literacy is a long-term development process, the University community is committed to the following goals for student writing and learning:*

- *Students should use writing as an intellectual process to learn material and to discover, construct, and order meaning.*
- *Students should learn to write effectively in various academic and disciplinary genres for professional and lay audiences.*
- *Students should learn to display competence with the generic features and conventions of academic language.*

In order to help realize the above goals, writing intensive (WI) courses were established as well as the University Writing Requirement (UWR).

All questions can be directed to UNH.Writing.Programs@unh.edu (unh.writing.programs@unh.edu)

University Writing Program Requirements

All bachelor's degree candidates are required to complete four writing-intensive courses. In order to fulfill the University Writing Requirement, all undergraduates must complete the following four[1] courses with a passing grade:[2]

- ENGL 401 First-Year Writing
- One Writing Intensive (WI) Course in the Major
- One Writing Intensive (WI) Course at the 600 Level or Above
- One Additional Writing Intensive (WI) Course (any other)

[1] Students pursuing more than one major or dual degrees must complete a Writing Intensive course in each major.

2 Exceptions to the Writing-Intensive (WI) Requirement

Frequently Asked Questions

"Can the same course satisfy the course-in-the-major requirement and the 600-level or above requirement?"

Answer: Yes, one course can satisfy both of these requirements (see pattern B below), but the course would only count as one of the three WI courses needed. In this case, the student would need to take two other WI courses (in addition to ENGL 401) to satisfy the requirement. Thus, a complete WI sequence would conform to one of the two generic patterns below:

A) Separate Courses for the 600+ Level and in the Major Requirements

1. ENGL 401 First-Year Writing
2. WI in the Major (any level)
3. WI @600+ level (any)
4. WI (any)

B) The Same Course for the 600+ Level and in the Major Requirements

1. ENGL 401 First-Year Writing
2. WI in the Major @600+ level
3. WI (any)
4. WI (any)

Note: the numbers in the above examples are for reference and don't reflect a required sequence. A particular major may have more specific requirements that may depart from the above models.

"I have a double-major. Do I have to take a WI course in each major?"

Yes, you do need to take a WI course in each major. However, you may substitute the fourth (WI "any") course for the additional course in your major. You do *not* have to take an *additional* WI course beyond four WI courses. If you have two majors, your WI courses would conform to the sequence below:

- EN401 (First Year Writing)
- A Writing Intensive (WI) Course in the First Major
- A Writing Intensive (WI) Course in the Second Major
- A Writing Intensive (WI) Course at the 600 Level or Above (any)

"I am enrolled in a Dual Major program. Do I have to take an additional WI course in my major?"

Yes, you do need to take a WI course in the Dual Major. Students must first declare a primary major before enrolling in a dual major. When applicable, the student may apply the same course sequence as the Double Major sequence listed above.

"My major doesn't list any WI courses in the catalogue. What do I do?"

If a major does not offer a WI course in their program, the student can petition to have their capstone or senior thesis course count for the WI credit in the major. The student will then still need to account for the other remaining three WI course requirements. See the section on "WI Transfer Credit and Exceptions" below for how to petition for WI credit.

"I am pursuing Dual Degrees. Do I have to complete 2 sets of WI requirements?"

No. If you fulfill all 4 requirements of the WI program, you have met those requirements for both degrees. For more information on Dual Degrees, see the Academic Catalogue.

The Rationale for Writing and Learning at UNH acknowledges that the WI course structure provides a minimum framework for writing in the curriculum and that there will be writing in non WI-designated courses. The Writing Committee's position is that WI Course Attributes are definitive and that only courses bearing the WI Attribute will count for the WI requirement. In short, students are expected to enroll in UNH WI-designated courses to satisfy the WI requirement.

Writing-Intensive (WI) Course Identification

WI courses are identified by "Writing Intensive Course" in the "Attributes" section of the course descriptions and/or a W following the course number.

Example:

CEP 795W (01) - Investigations
Special assignments in readings, investigations, or field problems, or teaching experience. May be repeated.
Attributes: Writing Intensive Course
Instructors: STAFF

Some courses have both writing-intensive and nonwriting-intensive versions, such as HIST 405 History of Early America and HIST 405W History of Early America. In these cases, only the sections with the "W" in the course number are writing intensive.

Writing-Intensive Courses Master List

Not all courses below are offered every semester. See the course schedule for course offerings by semester.

Code	Title	Credits
ACC 724	Auditing	4
ADMN 400	Introduction to Business	0,4

General Information

The University

UNH offers more than 200 degree programs across 12 schools and colleges to more than 13,500 undergraduate and graduate students. There are thousands of courses to choose from, and 84% of classes enroll no more than 50 students, helping create a 16:1 student-to-faculty ratio that gives UNH students direct access to award-winning faculty. With three out of four undergraduates also completing at least one internship prior to graduation, experiential learning and thoughtful classroom discussions are hallmarks of the UNH experience.

The goal is to help each student become the kind of person the world most needs. And it's working: According to our most recent graduating class survey data, our graduates boast a 94% success rate, with 71.6% of students employed within 12 months after graduation and another 22.2% enrolled in further education. Additionally, the significant majority of employed graduates — 88% — reported that their job was directly or somewhat related to their major. That kind of return on investment is what led UNH to be ranked the No. 1 best value public university in New England for the fifth consecutive year in 2025, according to the Best Value Schools rankings of National Universities by U.S. News & World Report.

UNH students and faculty have been collaborating to make the world a better place for more than 150 years, and not just in the classroom — from the uncharted ocean depths to the edge of our solar system to the Earth we all share, our research transforms lives and delivers solutions to global problems. UNH is a Carnegie Classification R1 institution, putting it in the top tier of research universities nationwide. Undergraduates in every academic discipline enjoy broad access to research experiences – two out of three professors mentor undergraduates on research – and can even get funding to pursue them through the university's Hamel Center for Undergraduate Research. Many conduct independent inquiries, an experience that gives them a leg up on graduate school and employment applications. More than 1,700 students showcase their scholarship at the university's annual Undergraduate Research Conference, a week-long event each spring that is one of the nation's largest.

We know that students who graduate with hands-on, real-world experience are more likely to have successful careers, so in addition to all the classroom learning and research, UNH offers 220+ study abroad programs, a robust career and internship center and a dedicated fellowships office, all of which help students find opportunities that bolster their academic and career goals. Our entrepreneurship center helps aspiring business owners make their dreams reality, and our Hamel Honors and Scholars College, which opened in 2024, builds on the university's longstanding Honors Program to create a transformational home base for student leaders and serves as yet another differentiator for UNH as the state's flagship public university.

Academic excellence with an impact beyond the classroom. Top-ranked programs across a remarkable array of majors and disciplines. Inspiring professors who make a difference in the lives of their students. Research innovation changing the world. Prepared, successful graduates. You'll find all of that and a lot more at UNH.

Mission

The University of New Hampshire is the state's flagship public research university, providing comprehensive, high-quality undergraduate programs and graduate programs of distinction. Its primary purpose is learning: students collaborating with faculty in teaching, research, creative expression and service. UNH has a national and international agenda and holds land-grant, sea-grant and space-grant charters. From its main campus in Durham, its college in Manchester and the UNH Franklin Pierce School of Law in Concord, the university serves New Hampshire and the region through continuing education, cooperative extension, cultural outreach, economic development activities and applied research.

UNH is distinguished by its commitment to high quality undergraduate instruction, select excellence in graduate education, relatively small size, a location in a beautiful and culturally rich part of the seacoast of New England and a strong sense of responsibility for this special place, a commitment to serving the public good and our emergence over the past decade as a significant research institution. The dedication of our faculty to the highest academic standards infuses all we do with the excitement of discovery.

University System of New Hampshire Trustees and Administrative Officers

https://www.usnh.edu/trustees

The University System of New Hampshire is governed by a Board of Trustees comprising the Governor of the State, the President of the Senate, the Speaker of the House, members appointed by the Governor and Executive Council, alumni-elected members, student-elected members, the Commissioner of Education, the Commissioner of Agriculture, the presidents of the University System's colleges and universities, and the Chancellor. The Chancellor is the chief executive officer of the University System. The Board composition is stipulated by State law and is detailed in the USNH Charter, section 187- A: 13.

Academic and Support Services

Aulbani J. Beauregard Center for Equity, Justice, and Freedom

- The Beauregard Center is an inclusive student center and a welcoming space for all students.
- We offer a wide range of student support, engagement, development, and success services and programs that enhances all students' social and academic growth through partnering with students from historically excluded and underserved backgrounds and ally students.
- We facilitate our student success efforts through our Student Support and Development, Student Retention and Success, Education and Development, Programming and Engagement, and Community Engagement function areas.
- In doing so, we prepare students for a diverse, multicultural, and globalized world.

Highlights in the list of student services offered by the Beauregard Center include the CONNECT Program, non-academic advising and confidential resource advisors for disclosures of sexual misconduct, de-stressing and community-building programming (ex: ThirsTea Thursdays and Clocked Out), student employment programs (ex: Front Desk Student Employees and Interns), educational programming (ex: heritage and awareness month programming), leadership development programs (ex: Audre Lorde Summit), community engagement (ex: MLK Day of Service), and recognition programs (ex: Celebration of Excellence and Achievement).

CONNECT Program: An early-arrival residential summer program designed for students attending the Durham Campus. The program is open to all incoming first-year undergraduate students with a focus on students from historically underrepresented backgrounds, including those who are the first in their families to attend college. CONNECT participant move in early into on-campus housing, get matched with a trained and experienced peer mentor, explore student resources, and engage in interactive learning, skill building, and social activities. Program costs, including on-campus housing, meals, and activities, are covered by the University of New Hampshire.

The Beauregard Center is located in the Memorial Union Building (MUB), Suite 120, 83 Main Street, Durham, NH. Visit the Beauregard Center Website to learn more about all of our services or email us at Beauregard.Center@unh.edu or call 603-862-5204.

Career and Professional Success

Career and Professional Success (CaPS) is UNH's career services unit. We help students explore career paths, gain experiences that give them a competitive edge in the job market, find and apply for jobs and experiential learning opportunities, and build connections with employers and alumni.

Our services include:

- Individual appointments and drop-in hours for support with resumes, cover letters, interviews, LinkedIn, internship and job searches, and other career needs.
- Job and internship fairs and employer recruiting events.
- Workshops and classroom presentations on career topics.

For more information, call (603) 862-2070, email caps@unh.edu, visit the CaPS website, or follow @unhcaps on social media.

Internships

Career and Professional Success (CaPS) supports students in locating experiential learning opportunities that build professional skills and align with their academic and career interests. These opportunities may include internships, field experiences, and other career-oriented work experiences across a wide range of settings, from traditional business organizations to nonprofit, government, and community-based environments. Students may find many of these opportunities through Handshake. Students who wish to pursue experiential learning for academic credit should consult with their academic department.

For more information about internships and experiential learning opportunities at UNH, call (603) 862-2070, email caps@unh.edu, visit the CaPS website.

Center for Academic Resources

The Center for Academic Resources (CFAR) provides personalized academic-related services to undergraduate students. Professional educational counselors and student academic mentors work one-on-one coaching students on understanding UNH's academic culture, accessing and utilizing course resources, studying more effectively, and managing personal stressors impacting their academics. Students develop effective note taking and reading strategies, test preparation and taking skills, problem-solving, and organizational and time management skills. Services are easy to access through our drop-in hours, Monday through Thursday from 11am to 3pm at Smith Hall 206. Students meet with an educational counselor to hear about the program, learn tools to try immediately, and get paired to work weekly with a peer academic mentor. Study tools and course specific resources can also be found on our CFAR website. For more information call (603) 862-3698, e-mail cfar.sss@unh.edu, or visit us in Smith Hall.

Honor Societies

The University of New Hampshire has a long and strong/valued tradition of recognizing outstanding student academic achievement through election to a variety of honor societies. Some of these national societies recognize performance in any academic field while others are limited to specific disciplines.

Honor societies are most prevalent in colleges and universities. Based on varying criteria of high academic achievement and leadership, students are invited to join most commonly in their junior or senior year. Although initiated into the campus chapter, students become members of the national society for life.

International Students and Scholars

The Office of International Students and Scholars (OISS) provides a wide range of services to international students, faculty, staff and exchange visitors. These services begin before the international visitors arrive on campus and often continue past the completion of their programs. OISS services include: Preparation of eligibility documents for visa issuance along with pre-arrival instructions and information; Preparation of applications to U.S. immigration offices to secure appropriate work authorization for international faculty and staff; In-depth and engaging orientation programs for new students and scholars covering a variety of issues such as immigration rights and responsibilities, adjusting to life in another culture, working in the U.S., adapting to the U.S. educational system, area attractions and services, and much more; A variety of workshops and seminars are offered covering topics such as immigration and employment and career orientation seminars; Programming and events such as, international student and scholar lunches, presentation series, graduation receptions, trips, and much more.

All international students and scholars are encouraged to maintain contact with the OISS and are required by law to report changes of address, academic program, or source of educational funds.

OISS also serves as a key liaison between international students, faculty and staff and various other UNH offices and departments. For more information visit the website or call (603) 862-1288.

Mathematics Center

The Mathematics Center (MaC) provides drop-in tutoring and support for services for students in 400-level and some 500-level Math courses. The service is free to UNH students. Come in to work on your coursework and to ask our tutors questions about your course material. Drop-in tutoring is a great place to make new friends among your classmates and to form study groups. For more information about the center visit the MaC website.

McNair Scholars Program

Congress established the Ronald E. McNair Post-Baccalaureate Achievement Program (commonly referred to as the McNair Scholars Program) in 1986 to honor the memory of Challenger astronaut and noted laser physicist Dr. Ronald E. McNair. The McNair Scholars Program is a federally funded TRIO program administered by the U.S. Department of Education. The program has been in existence at the University of New Hampshire since 1991.

The mission of the McNair Scholars Program is to prepare talented and highly motivated UNH undergraduates for entrance into graduate school and doctoral study. The program supports the next generation of faculty, researchers, and scholars by providing academic support, research opportunities, and mentoring through academic-year internships and summer research fellowships.

The UNH McNair Scholars Program serves first-generation college students with demonstrated financial need, consistent with federal TRIO program eligibility guidelines. Scholars participate in specialized programming and educational activities designed to strengthen their preparation for graduate education and doctoral study. Program participants engage in courses, seminars, and workshops focused on graduate school preparation; complete an original research project under the guidance of a faculty mentor; and have opportunities to present their research at local, regional, and national conferences.

The McNair Scholars Program office is in Hood House, Room 203, 89 Main Street, Durham, NH. For more information, please visit the McNair Scholars Program website: McNair Scholars Program website.

Military & Veteran Services

The mission of the Military & Veteran Services Office is to provide the highest quality service and support to Student Veterans, Service Members, and other military-affiliated students such as dependents, as

outlined in the Veteran Administration's Principles of Excellence and 8 Keys of Success.

We subscribe to and follow PL 113-146 Section 702, The Veterans Access, Choice and Accountability ACT of 2014.
For more information, please contact the following offices or visit the Military & Veteran Services website.

- Durham Campus - unh.veterans@unh.edu, 603-862-0643
- College of Professional Studies, Manchester and Online Divisions - veterans.cps@unh.edu, 603-641-4329

Psychological and Counseling Services

Psychological and Counseling Services (PACS) is the primary mental health facility on campus. We are fully funded by student fees. Our confidential services are designed to help students who are enrolled in full-time study to achieve their personal and academic goals. PACS utilizes a brief, solution-focused counseling model. We provide individual and group therapy, workshops, consultation, and referrals to clinicians prescribing for mental health concerns. We offer crisis counseling, during business hours, and after hours, through ProtoCall. Students needing more intensive or longer-term service are offered referrals to other university and community agencies.

We also aim to serve the community while being part of the community. As community members with specialized training in working with the university population, we are knowledgeable about the special needs of students, faculty, and staff. A large part of our community work focuses on prevention; we believe that increased awareness of healthy ways to cope with stress can help the UNH community and its individual members achieve their professional and personal goals.

All information about a student's visits to PACS is confidential and cannot be released without the written permission of the student. The University of New Hampshire Psychological and Counseling Services has been accredited by the International Association of Counseling Services since 1978.

For more information, call (603) 862-2090 or visit the PACS website.

Student Accessibility Services

Student Accessibility Services (SAS) is committed to assuring that students with disabilities receive equitable, effective, and meaningful access to all campus programs, resources, and services. SAS helps by supporting students through the accommodation process and by supporting the UNH community. Accommodations commonly include academic, housing, dining, and transportation/parking accommodations. We also assist students with Assistive Technology and accessibility related concerns.

All accommodation requests are considered through an interactive accommodations process. This consists of three important steps: (1) register with SAS, (2) submit documentation, and (3) meet with SAS. There is no deadline to register for accommodations but accommodations cannot be applied retroactively, so we encourage students to get in touch early.

If you would like to request accommodations or would like to learn more about the services offered within SAS, please contact: (603) 862-2607 (voice), 711 (TTY) or 800-735-2964 (Relay NH); (603) 862-4043 (fax); (603); e-mail SAS.office@unh.edu; or visit the SAS website.

General Information for Students with Disabilities

Accommodation Requests - Students seeking academic, housing, dining, parking/transportation or other accommodations should contact Student Accessibility Services (SAS) as soon as possible: voice (603) 862-2607; TTY Users: 711 or 800-735-2964 (Relay NH); e-mail SAS.office@unh.edu.

Housing Options - Students with disabilities who need accessible UNH housing should contact SAS as early as possible to allow for identification of appropriate accommodation(s) and notification from SAS to Housing. Please visit Accessibility & Disability Accommodations, Housing & Residential Life to learn more including information about priority housing deadlines.

Dining Options - For information about dietary restrictions, visit Nutrition, Dining. The UNH Hospitality Service Dietician can help students navigate the dining options and support access to inclusive services.

No otherwise qualified individual may be excluded from or denied access to any program, course of study, or any other offering of the University solely on the basis of a disability. Concerns regarding the institution's compliance with the Americans with Disabilities Amendments Act (ADAA) of 2008, or Section 504 of the Rehabilitation Act of 1973 should be addressed to the ADA/504 Compliance Officer in the Civil Rights & Equity Office at (603) 862-2930 (Voice/TTY).

TRIO Scholars - Student Support Services

The TRIO Scholars (SSS) program is federally funded by the United States Department of Education to increase the retention and graduation rates of program participants. Students are eligible for TRIO Scholars (SSS) if neither parent or guardians have earned a bachelor's degree, if their family income is within program guidelines, or if they have a documented disability.

TRIO Scholars program participants work with a TRIO SSS Education Coordinator to create individualized success plans focusing on academic development, financial literacy, personal development, and professional development to help translate personal goals into action. The TRIO Scholars (SSS) program also includes educational workshops, cultural events, leadership development opportunities, and access to free ongoing, comprehensive tutoring.

The TRIO Scholars (SSS) program is located on the Garden Level in Conant Hall. For more information, visit the TRIO Scholars website.

*UNH TRIO Student Support Services is funded by the US Department of Education and the University of New Hampshire. The project will be funded to serve 200 students in 2026-27.

University Advising Center

The University Advising Center provides academic advising to undeclared students in the College of Liberal Arts. The center's professional staff provides assistance to students in clarifying their interests and skills as they relate to developing a program of study at the University and declaring a major, offering opportunities to explore career possibilities.

The center is the primary academic advising resource for non-degree students and assists all students in identifying and connecting with other resources across campus.

For more information call (603) 862-2064 or visit the University Advising Center website.

University Writing Programs

The University Writing Programs (UWPs) were created to promote, support and assess writing at the University of New Hampshire. The UWPs are housed in Academic Affairs and report to the Senior Vice Provost for Academic Affairs. The UWPs are contained in a single unit that includes responsibility for the Writing Committee, Writing Across the Curriculum (WAC), and the Connors Writing Center (CWC). The curricular component of WAC, consisting of the writing-intensive (WI) courses, is situated within academic departments.

We work with academic units, departments, allied programs, individual faculty, and students to advance the culture of writing at UNH. This approach values and encourages writing as an "activity and subject of study,"[1] not only in writing intensive (WI) classes but wherever writing occurs. Through frequent guided practice, UNH students become accustomed to negotiating the writing process, are more self aware and able to transfer positive writing habits, and can adjust to differing genre conventions. We offer a wide array of services and resources to support students and faculty with their writing-based endeavors in the curriculum.

For more information call (603) 862-3272 or visit the writing program website.

[1]Adler-Kassner, Linda, and Elizabeth Wardle*, Naming What We Know: Threshold Concepts of Writing Studies*. Boulder: UP Colorado. 2015. 15. Print.

Connors Writing Center

The Connors Writing Center offers free, one-on-one writing consultation to currently-enrolled UNH students. We work with writers from all disciplines on many kinds of writing, from analysis essays to lab reports, conference proposals to dissertations. Our support is not limited to one specific type of writing or a single academic field—we collaborate with writers from across the university on a large range of writing. Typically, writers are working on projects for courses, but we also provide support to writers who are working on personal projects, statements of purpose and personal statements for graduate school, and so on.

Our 25- or 50-minute conferences are conducted in person or virtually by trained writing assistants, who are UNH undergraduate and graduate students. Students also have the option to submit their work for written feedback if they are unable to schedule one-on-one appointments.

For more information about resources and services available call (603) 862-3272 or visit the Connors Writing Center website. The Writing Center is located in Dimond Library, room 329.

Accreditation

The University of New Hampshire is accredited by the New England Commission of Higher Education (NECHE).

Accreditation of an institution of higher education by the Commission indicates that it meets or exceeds criteria for the assessment of institutional quality periodically applied though a peer review process. An accredited college or university is one which has available the necessary resources to achieve its stated purposes through appropriate educational programs, is substantially doing so, and gives reasonable evidence that it will continue to do so in the foreseeable future. Institutional integrity is also addressed through accreditation.

Accreditation by the Commission is not partial but applies to the institution as a whole. As such, it is not a guarantee of every course or program offered, or the competence of individual graduates. Rather, it provides reasonable assurance about the quality of opportunities available to students who attend the institution.

Inquiries regarding the accreditation status by the Commission should be directed to the administrative staff of the institution. Individuals may also contact:

New England Commission of Higher Education (NECHE)
3 Burlington Woods Drive, Suite 100, Burlington, MA 01803-4514
(781) 425 7785
E-Mail: info@neche.org

Specialized programs of study are also accredited by various professional organizations.

Veterans and their eligible dependents may apply for educational benefits before the start of each semester. For information, contact the UNH veterans coordinator at UNH.Veterans@unh.edu or by phone at (603) 862-0643.

The University supports the efforts of secondary school officials and governing bodies to have their schools achieve accredited status to provide reliable assurance of the quality of the educational preparation of their applicants for admission.

Admissions

UNH Durham Campus Degree Programs

UNH welcomes campus visitors year-round. In-person campus tours are led by student admissions representatives who provide a general overview of academic programs and campus life opportunities. Professional admissions staff are available to provide information about the criteria used by the admissions committee in reviewing candidates and to address specific concerns. For further information or to schedule a campus and/or group information session, visit the Admissions website. Prior registration is recommended for all in-person visits and students are limited to two guests. More information and requirements regarding the application process to UNH can be found on the Admissions website.

Admission Criteria

Admission to a bachelor's degree program is based upon successful completion of a strong secondary school program of college preparatory coursework. Primary consideration is given to the academic record, as demonstrated by the quality of the candidate's secondary school course selections, achievement in their secondary school courses and recommendation. Consideration is also given to character, initiative, leadership, and special talents. In fall 2020, UNH adopted a test-optional policy. Applicants are not be required to submit their SAT and/or ACT test scores for consideration as part of their admissions application. Due to COVID-19, NCAA Eligibility Center also implemented the test-optional policy to students recruited by our intercollegiate athletic programs.

Applicants for admission must, at a minimum, present at least four years of English, three years of mathematics (algebra I, geometry, and algebra II), two years of laboratory sciences (3 years preferred), two years of history or social science, two years of a single world language is preferred

and 2 additional full-year college preparatory courses to total 15 units. Some programs may have additional requirements for admission.

Students who plan to pursue a major in engineering, biological/physical sciences, mathematics, or forestry should present at least four years of mathematics including trigonometry, as well as laboratory coursework in chemistry and/or physics. Note that students are required to have a math and laboratory science in their senior year to be competitive for admission to a major in our College of Engineering & Physical Sciences and College of Life Sciences & Agriculture. Students pursuing business-related studies should complete four years of mathematics through their senior year, including trigonometry. For students planning to major in health-related disciplines, four years of math, as well as laboratory courses in biology and chemistry, are strongly recommended. Students interested in nursing must complete high school chemistry.

Applicants may indicate their first and second choice majors on the application for admission. An undecided applicant may apply for admission into a bachelor's program as an "undeclared" student to any one of the University's five college divisions in Durham or at UNH Manchester.

UNH students may request a change in major during their undergraduate years. While most are approved, some majors are more restrictive than others and require the completion of specific coursework and an additional application. Change of major requests are considered after a student has been at the University for at least one semester and has permission from the appropriate college dean and department chairperson.

Admission Test Requirements

Beginning fall 2020, first-year applicants have the option to submit SAT or ACT scores to be considered as a part of their admission application. Applicants are not required to submit SAT or ACT scores as part of the admissions application process at the University of New Hampshire. When submitting the admissions application, you will be asked "Would you like us to consider your standardized test scores in the admissions decision?" Please note, that once an admissions decision has been made on your application, you may not change your test score preference.

**If you enroll as a member of UNH's Class of 2027, you may be asked to submit your test scores after the May 1 deposit deadline for university research purposes only.*

International students whose primary language is not English must provide evidence of English proficiency by submitting the results of a Test of English as a Foreign Language (TOEFL), IELTS or Duolingo. The recommended minimum TOEFL score is 213 (computer version) or 550 (paper version) or 80 (Internet version). UNH also accepts the International English Language Testing System (IELTS) English Language proficiency examination in lieu of TOEFL; the minimum acceptable proficiency grade is 6.5; recommended Duolingo score is 105 or higher. International students who earn a 500 or higher on their ERBW (Evidence-Based Reading and Writing) section of the SAT will be waived the English proficiency test requirement.

Music Candidates

Candidates applying for programs in the Department of Music must make arrangements with the department chairperson for an audition. Details regarding audition requirements may be obtained from the department, or may be found on the UNH Department of Music website.

Admission Deadlines

The Office of Admissions welcomes high school students who are interested in being considered for admission to UNH as a first-year student in the fall to apply any time after August 1 at the start of their senior year. The application deadline for Early Action is November 15 and Regular Decision is February 1. Early Action applicants will receive an admissions decision prior to the end of January and Regular Decision applicants will receive an admissions decision prior to the end of March.

Students admitted to UNH are required to confirm their intention to enroll by submitting their enrollment deposit of $600 by May 1, National College Decision Day. The $600 enrollment deposit includes both the enrollment and housing fees. Undergraduate first-year and transfer students under the age of 21 are required to live on campus during their first two years.

The review of first-year candidates begins in November for those applications that are complete. A complete application includes official transcript or grade reports through the end of junior year and a confirmed senior course schedule, the results of the SAT or ACT (for students who indicate on their admissions application that they would like have their test scores included in the application review process), and a letter of recommendation. To apply as an Early Action applicant, candidates must submit and select the Early Action option on their admissions application by November 15. In some cases, the admission committee will request senior mid-year grade reports in order to make a final admission decision. Students accepted to UNH through the Early Action program are not obligated to enroll at UNH and have until May 1 to submit their enrollment deposit to reserve their space at UNH.

All offers of admission are considered conditional and are subject to the verification of satisfactory senior year achievement when final high school transcripts with a confirmed date of graduation are reviewed by the admissions committee.

Deferred Admission

Admitted students to the University may request to defer their admission for up to a year. Requests to defer admission enables students to reserve their space at the University while taking a semester or an academic year away from school for work or travel. With few exceptions, UNH will not approve deferral requests in which the student will be taking college coursework elsewhere. Requests for deferrals must be completed and submitted online using the form found on the admitted student website under the Deferral Information accordion on the bottom on of the page. The University may not be able to offer deferred admission in certain program areas.

Advanced Standing

The University recognizes outstanding secondary school work by means of advanced placement and credit for those who have taken enriched or accelerated courses before entering college. Applicants may qualify for such credit by successfully completing coursework for college credit and satisfactory achievement on University-approved placement examinations, including the College Board Advanced Placement (AP) Tests, International Baccalaureate (IB) Higher Level Examination Test Results, or through the College Level Examination Program (CLEP). Students should have official results sent directly to the Office of Admissions from the testing agency.

The University accepts AP Tests in many subject areas, with credit and course equivalency based on the score achieved. Visit the Admissions website for further information.

The University awards 8 semester credits for each IB Higher Level Examination Test Result of 5, 6, or 7. The University recognizes up to 32 semester credits of CLEP General Examination tests, which may be applied as elective credit only. Scores must be 500 or better in the humanities, natural sciences, and social sciences-history exams. The minimum score for mathematics is 500 and for the English exam with essay, 500. Subject exams, when applicable, may be used to satisfy either departmental or general education requirements. UNH does not accept all CLEP subject exams.

Maximum credit accepted toward a bachelor's degree for all credit by exam and advanced placement testing is 64 semester hours.

Associate Degree Candidacy

The University accepts candidates who have demonstrated ability and motivation for learning through academic achievement, work experience, and/or military service for associate in applied science degree programs.

Students may be considered for admission to associate in applied science degree programs offered by the University's Thompson School of Applied Science in Durham, as well as, associate in arts or science degrees at the Manchester campus. Candidates applying as high school seniors must submit the application and secondary school record. The submission of SAT and/or ACT exams are optional. Students granted first-year admission to the Thompson School are eligible to live in a University residence hall.

Eligibility for Degree Candidacy

Applicants may be candidates for any undergraduate degree offered by the University. However, applicants having a bachelor of arts (B.A.) degree will not be admitted into a program of study that awards the same degree (e.g., B.A. History and B.A. Zoology). Applicants can earn more than one bachelor of science (B.S.) degree, provided that each degree is in a different field. Applicants may also be admitted into a program awarding a different degree (e.g., B.A. History and B.S. Biology; or B.A. History and A.A.S. Applied Animal Science).

Readmission

An undergraduate who withdraws, does not register for UNH coursework in a given semester, or is suspended or dismissed from the University thereby terminates degree candidacy and must apply for readmission by the following deadlines: fall semester, June 1; spring semester, November 1. Readmission applications are processed in the Office of Admissions; however, decisions regarding readmission are made in consultation with the Division of Student and Academic Services and the dean's office of the University college division to which the student is applying.

Before seeking readmission, students on academic suspension must remain away from school for at least one semester. Students suspended for academic reasons should include a statement about their readiness to resume University work with their application.

Only under extraordinary circumstances will students be readmitted after dismissal for academic reasons. Applications submitted by dismissed students are reviewed by the University's Academic Standards and Advising Committee.

It may not be possible for readmission applicants to enroll in programs with established enrollment limitations.

Transfer Students

UNH encourages applications from transfer students. Admission consideration includes review of course selection, academic achievement, and the extent to which that selection addresses the University's general education requirements. Transfer credit is awarded for completed courses taken at an institution that is fully accredited by one of the regional accrediting associations with a grade of C- or better, provided those courses are comparable to courses offered at UNH. Each course must carry at least 3 semester credits and receive a letter grade to qualify for general education consideration.

The application deadline for fall semester admission is April 1; October 15 is the application deadline for spring semester. Some programs have enrollment limitations and may not be open to transfer students. Students enrolled in one of the University's associate degree programs who desire admission to a bachelor's degree program at UNH must apply as transfer students through the Office of Admissions.

Transfer students over the age of 21 may contact the Department of Housing at (603) 862-2120 to determine the availability of on-campus housing. Please note that on-campus housing is not guaranteed to transfer students over the age of 21.

New England Regional Student Program

The University participates in the New England Regional Student Program, in which each state college and university in New England offers certain undergraduate majors to students from other New England states. Under this program, admitted students from other New England states pay a reduced tuition rate. Students must indicate on their admissions application the specific major for which they are applying. Information about the curricula may be obtained from:

The New England Board of Higher Education
45 Temple Place
Boston, MA 02111
(617) 357-9620

Visit the Admissions website for a list of available UNH majors through this program.

Resident Status

All students attending any division of UNH in any capacity shall be charged tuition at a rate to be determined by their primary, legal domicile. Those domiciled within the state of New Hampshire pay the in-state rate. Those domiciled elsewhere pay the out-of-state rate.

Students are classified as residents or nonresidents for tuition purposes at the time of admission to the University. The decisions, made by the Office of Admissions, are based upon information furnished in students' applications and any other relevant information.

All enrolling students living in New Hampshire are required to complete an electronic NH residency statement to the effect that they, if financially independent, or their parents/guardians, if financially dependent, have been legally domiciled in New Hampshire continuously for a period of at least twelve months immediately prior to registering for the term for which the student is claiming in-state status. The electronic NH residency form can be found as a required checklist item in their application portal after they submit their admissions application to UNH. Should you have

issues accessing the NH residency form in your application portal, please contact the Office of Admissions via email at admissions@unh.edu. Students admitted from states other than New Hampshire or from foreign countries are considered nonresident throughout their attendance at the University unless they have acquired bona fide domicile in New Hampshire.

If students maintain residency apart from that of their parents/guardians, they must clearly establish that they are financially independent and that their residence in New Hampshire is for some purpose other than the temporary one of obtaining an education at the University. To qualify for in-state status, students must have been legally domiciled in New Hampshire continuously for a period of at least twelve months prior to registering for the term for which in-state status is claimed.

The burden of proof in all cases is upon the applicant. The University reserves the right to make the final decision concerning resident status for tuition purposes.

A copy of the rules governing residency may be obtained from the Office of Admissions and on the following website: https://www.usnh.edu/policy/bot/iv-financial-policies/e-classification-students-tuition-purposes-residency-rules

Manchester

Manchester Campus Degree Programs

First Year Students

Individuals that have never enrolled at a college or university, or have earned less than 16 credits in college coursework.

- Admissions Criteria, Application Requirements and Deadlines

Transfer Students

Individuals that have previously been enrolled at another college or university, or have earned more than 16 credits in college coursework.

- Admissions Criteria, Application Requirements and Deadlines

Additional Resources

- Application forms and deadlines
- Military & Veteran Students
- International Students
- Previously Enrolled UNH Students

CPS Online (UNH-Granite State College)

cps.unh.edu/online/apply-register

College of Professional Studies (CPS) - Online Division Degree Programs (UNH-Granite State College)

Applications to programs within CPS Online are free and reviewed on a rolling basis. Individuals can apply at any time and enroll in any term during the year.

Admission Requirements

Admission to associate and bachelor's degree programs require a high school diploma, homeschool equivalent, or GED.

Students who have earned college credit at another institution and would like it evaluated for transfer credit should complete the appropriate information on the application. Official transcripts are required for each college indicated.

Some majors offered by CPS Online have additional admissions criteria. These programs include the RN to BSN, Allied Health Leadership, Applied Studies, and Fire Service Administration. See program pages for more information on specific admissions criteria.

Additional Resources

- Military & Veteran Students
- International Students
- Transfer Credit Evaluation
- Teacher Licensure Programs

Degree Status

Inactivation and Withdrawal

CPS Online monitors the progress of degree candidates. A student who is not actively involved in learning experiences in a degree program for a period of three consecutive semesters (including summer) will be inactivated. A student may voluntarily withdraw from a degree program by notifying the College in writing. If requesting withdrawal from a degree program, a student will be considered inactive.

Reactivation/Readmission

Students who have been inactivated for a period of less than one year will complete a Request for Reactivation Form with their Academic Advisor and will be readmitted under original degree requirements, following all policies and procedures in effect at the time of inactivation.

Students requesting readmission one year or more after the date of inactivation must submit a new application.

To protect the privacy of student data, CPS Online follows a record retention schedule and transcripts from other institutions are periodically destroyed in that process. Students who return after an extended absence may be asked to resubmit official transcripts from any previously attended institutions.

States occasionally change their rules and regulations regarding professional licensure and certifications, which may affect the College's authorization in a state. Students in professional licensure or certification degree programs may not be eligible to return to active status if the College is no longer authorized to offer a program in their state.

Transfer Policy

Students with a conferred Associate Degree from a regionally accredited post-secondary institution will have their lower level General Undergraduate Education requirements waived.

Campus & Student Life

Campus Recreation

http://campusrec.unh.edu

Campus Recreation provides outstanding experiences to enhance healthy lifestyles in the UNH community. Looking to work out, play club or intramural sports, or go on an adventure through nature? Campus Recreation has a variety of programming for everyone to enjoy.

Dining Services

www.unh.edu/dining

Our national award-winning program utilizes the Guiding Stars© nutritional rating system to provide our guests with healthy food choices. Our chefs are certified through the American Culinary Federation. We have our own registered dietitian who can help with any special dietary needs. What's more, we work everyday to make sure our practices are sustainable.

Housing and Residential Life

https://www.unh.edu/housing/

College life happens on campus with numerous unique halls to call home, with a community that is friendly and welcoming. Living on campus at UNH is designed to provide fun and engaging activities, promote opportunities to meet new people and offer resources as you find your way on campus. When you choose to live on-campus you have easy access to everything happening at UNH.

Memorial Union Building & Student Activities

https://www.unh.edu/mub/student-organizations

The Memorial Union and Student Activities fosters a sense of community and inclusion at the University of New Hampshire. We provide services and facilities that enhance the quality of campus life, support the academic mission of the University, and create opportunities for student development and engagement.

New Student Programs

https://www.unh.edu/new-students/

New Student Programs provides orientation and transition programs for incoming students and their families. These programs are intended to serve as introductions to the university, its expectations, and its resources. Participating in Orientation and attending Wildcat Days will assist in laying the foundation for your experience as a Wildcat at the University of New Hampshire.

Student Senate

https://www.unh.edu/student-governance/student-senate

The Student Senate is the official voice of UNH's undergraduate student body. The Student Senate and the various offices and officials underneath it work to advocate for student concerns and to sway the Administration to act in the best interests of the Student Body. The Student Senate, autonomous of the Administration, also controls the annually collected Student Activity Fee, a mandatory fee that all undergraduate students pay to fund student activities and events. The Student Senate also must approve changes to the Student Rights, Rules, and Responsibilities, and reviews other sections of the SRRR and the Student Code of Conduct.

Transportation Services

www.unh.edu/transportation

From campus parking to the transit services that connect UNH with the surrounding communities, Transportation Services is committed to operational excellence and providing reliable service that maintains a safe environment for travelers.

University Police

www.unh.edu/upd

The nationally accredited University Police Department's mission is to support the University community in creating a safe environment that is conducive to higher education by protecting life and property while supporting the rights and dignity of all persons. Specific educational programs, including drug and alcohol abuse prevention, are provided by professionally trained police officers. Rape Aggression Defense (RAD) is taught to female students, staff, faculty, or community members, and a walking patrol provides escort services for students, faculty, and staff.

Fees and Expenses

All tuition, fee, and financial aid policies are included in the Student Right, Rules, and Responsibilities.

Important Note: In June of each year the University System of New Hampshire Board of Trustees sets tuition and fee rates for the upcoming academic year. Tuition and fees are listed on the Student Accounts website.

https://www.unh.edu/business-services/

Financial Aid

All tuition, fee, and financial aid related policies are included in the Student Right, Rules, and Responsibilities.

https://www.unh.edu/financialaid/

Health & Wellness

The University has a nationally-accredited health and wellness program.

Mission

Health & Wellness provides whole person-centered care and services, illness prevention and health promotion, co-curricular learning opportunities, and public health leadership and expertise. All are tailored to support our students' health, well-being, and personal development, the health of the campus community, and the mission of our University. Health & Wellness is accredited by the Accreditation Association for Ambulatory Health Care (AAAHC).

Health & Wellness Fee

All UNH students who take five or more credit hours/semester are required to pay the UNH Health & Wellness fee. This fee allows students to access services at Health & Wellness on campus and covers many services at no or reduced cost. When combined with a student's health insurance coverage, the Health & Wellness fee provides for a complete health care package. A student's health insurance is never billed for services covered by the UNH Health & Wellness fee.

Health Insurance

University policy requires full-time degree students that are enrolled in at least one in-person course to have health insurance as a condition of enrollment. Some students have the option of waiving this requirement if they present proof of adequate coverage; alternatively, students can acquire an affordable health benefits plan sponsored by the University: the UNH Student Health Benefits Plan (SHBP). International students with F-1 and J-1 visas are required to purchase the SHBP.
Learn more about the SHBP and the waiver process.

Health Record Requirement

Undergraduate students who have been formally accepted to a degree program are required to have health information on file with UNH Health & Wellness. The three requirements to be completed and submitted by the student online are:

1. proof of Immunization form,
2. tuberculosis questionnaire, and
3. a health history form.

Immunizations

Prior to matriculation at UNH, all students that are enrolled in at least one in-person course at UNH are required to provide proof of immunization or demonstrate their immunity to specific vaccine-preventable diseases as outlined in the Student Rights, Rules, and Responsibilities Immunization policy.

Documentation of proof of vaccination or immunity is required and is typically shown on the immunization form. It is the responsibility of students to provide the documentation before attending any classes. Any student failing to complete these requirements may be prevented from registering for future classes.

These health forms are required before moving into residence halls and starting classes. Failure to submit forms will prohibit students from registering for the next semester classes until they are compliant.

Learn more about incoming student health record requirements.

Medical Services

UNH Health & Wellness provides comprehensive, student-focused, medical care through a team approach. The clinical staff consists of board-certified physician, nurse practitioners, nurses, and medical assistants who are committed to prevention and holistic care. Medical care is provided for a variety of common concerns. Examples include respiratory illnesses (including asthma), infections, injuries, skin concerns, digestive disorders, allergy/immunization services and travel health consultation, chronic illness support, mental health, and gender-affirming care. Sexual/reproductive health services include contraceptive services, cervical cancer (Pap smears) screening/prevention, testing and treatment for sexually transmitted infections, pregnancy testing and counseling, limited sexual assault services, and more.

Students may speak by telephone with a health resource nurse for advice. On-site clinical support services include laboratory, radiology and prescription and non-prescription medication services. Not all services are available during the summer or breaks. Read more about medical services.

For emergencies and after-hours care, well-staffed and well-equipped urgent care centers and community hospitals are nearby, and an emergency ambulance service is available in Durham at all times.

Living Well Services

Living Well Services coordinates health promotion activities on campus. It is committed to helping students make lasting behavior change that supports their academic and personal growth. Their education/counseling services, prevention initiatives, and internship opportunities empower student to gain knowledge, enhancing self-awareness, and implement life-long skills and behaviors to be well and successful now and in the future. Services provided include educational programs, workshops, and classes; individual wellness counseling and coaching to promote healthy lifestyle choices. They work from a whole-person and ell-being framework with expertise in the following areas: alcohol, nicotine, cannabis and other drugs, eating concerns and body image, emotional wellness (stress, mental health), nutrition, sexual well-being, well-being and wellness. Read more about Living Well Services.

Library

The UNH Library advances the educational and research missions of the University of New Hampshire. Experienced research assistance along with group and individual instruction helps students learn how to efficiently research and critically evaluate information.

The library has over three million items, more than two million of which are electronic and accessible through the Library's website. The library's holdings are supplemented by access to the collections of Boston Library Consortium member libraries as well as library collections around the globe through interlibrary loan.

In addition to the main Dimond Library, there are two branch libraries on the Durham campus that offer customized services for the College of Engineering and Physical Sciences, and a branch library to serve the College of Professional Studies on the Manchester campus. All library locations offer wireless Internet access, computer workstations, individual study areas, and collaborative group work spaces.

For additional information about UNH Library resources, services, and expertise, please visit the library's website and for the latest Library information and news, follow us on Instagram, Facebook or LinkedIn @unhlibrary.

https://www.library.unh.edu

Professional Licensure Program Disclosures

UNH Programs and Professional Licensure Eligibility

The University of New Hampshire offers academic programs designed to prepare students for professional licensure or certification in the State of New Hampshire. Completion of a UNH program does not, by itself, guarantee eligibility for or attainment of licensure or certification. Such eligibility may be subject to additional requirements, including but not limited to professional examinations, relevant work experience, background checks, and other criteria established by licensing or certifying authorities.

UNH does not represent or guarantee that its programs satisfy licensure or certification requirements in jurisdictions outside of New Hampshire. Requirements vary by state or territory and are subject to change without notice. In compliance with applicable federal regulations, the University provides public disclosures regarding professional licensure and certification programs, regardless of instructional modality. Students are responsible for reviewing applicable requirements and are advised to consult the appropriate licensing or certification authority in the jurisdiction where they intend to seek licensure or certification.

Additional Information & Resources

State Authorization & NC-SARA

State Authorization

All States require post-secondary educational institutions to be legally authorized to provide regulated activities in their jurisdictions. Many of these State laws and regulations apply to online, distance education instruction offered in that state. As such, the University of New Hampshire and its online distance educations programs must be authorized in certain states prior to offering those programs to students located in those states.

State Regulations and NC-SARA

The U.S. Department of Education requires that any institution offering online distance education programs to students outside of its home state must acquire authorization from the states in which students reside. Regulations vary from state to state.

The University of New Hampshire (UNH) has been approved by New Hampshire to participate in the National Council for State Authorization Reciprocity Agreements (NC-SARA).

NC-SARA is a voluntary, regional approach to state oversight of post-secondary online distance education. As an institutional member of NC-SARA, UNH may offer online programming to students in other SARA member states without seeking authorization in that state.

As of April 2020, 49 states *(excluding California)*, the District of Columbia, Puerto Rico, and the U.S. Virgin Islands have joined SARA.

UNH Online Distance Education Programs

UNH online distance education programs are available to students in each state below unless restrictions apply due to licensure/certification requirements. **If the program that you are considering is designed to lead to professional licensure or certification please refer to the Professional Licensure/Certification Programs section below for more information on whether our program meets your professional licensure requirements.**

UNH programs offered online are available to students in the following States/Territories: *Alabama, Alaska, Arizona, Arkansas, Colorado, Connecticut, Delaware, District of Columbia (D.C.), Florida, Georgia, Hawaii, Idaho, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Michigan, Minnesota, Mississippi, Missouri, Montana, Nebraska, Nevada, New Hampshire, New Jersey, New Mexico, New York, North Carolina, North Dakota, Ohio, Oklahoma, Oregon, Pennsylvania, Puerto Rico, Rhode Island, South Carolina, South Dakota, Tennessee, Texas, U.S. Virgin Islands, Utah, Vermont, Virginia, Washington, West Virginia, Wisconsin, Wyoming.*

Information for California Residents: University of New Hampshire's online distance education programs are offered to residents of California. UNH's online distance education programs are not subject to approval or exemption by the California Bureau for Private Post-secondary Education.

Professional Licensure Programs

What is a professional licensure or certification program?

A professional licensure or certification program is an academic program that is intended to (or advertised to) satisfy educational prerequisites for a State-issued professional license or certification which is required for employment in an occupation.

Professional Licensure/Certification & Online Distance Education Programs

NC-SARA does not cover professional licensing board approval for programs leading to state licensing or certification. If the online distance education program that you are considering is designed to lead to professional licensure or certification in your state, please read the information under each applicable program.

Due to certain states' restrictions and policies, UNH online distance education programs may not meet each state's full requirements. **This may result from extensive requirements for clinical placements, faculty state licensure, prior program curriculum approval and other administrative policies.**

The NC-SARA Professional Licensure Directory provides contact information for each states licensing board.

Disclosure Information & UNH Programs Leading to Professional Licensure or Certification

The University provides the program disclosure information in this catalog which indicates the States where the University has determined through reasonable, good faith effort that the professional licensure or certification program **meets** the applicable professional licensure education requirement for the State/Territory listed.

Disclosure information is included in this catalog about the program, modality the program is offered (e.g. in-person or online), credential earned, professional licensure or certification status and eligibility, and the states/territories UNH has determined that its curriculum **meets** the eligibility requirements for professional licensure or certification.

Additional Resources

UNH Professional Licensure/Certification Programs - Comprehensive Program Information Pages

The **NC-SARA Professional Licensure Directory** *provides contact information for each states licensing board.*

Additional **reference guide** *for state licensing board contact information.*

International Students

Fully online students residing outside the United States are not eligible for admission into UNH programs that lead to professional licensure and/or certification.

Student Relocation

Prospective and current students should keep in mind that licensing requirements vary by state and that relocating during the course of a program to another state could impact whether a student can continue in the program, meet the eligibility requirements of that state, and/or receive

financial aid funding. If students are considering relocating please contact the office of Educational Excellence and Effectiveness at unh.e3@unh.edu.

Student Complaints

The University is committed to supporting a positive student experience. We are ready to listen and help resolve any issues concerning licensure programs, quality of education and consumer protection.

We encourage students to reach out as outlined below with concerns or complaints.

Step 1: All Students

All students, regardless of physical location, should first seek resolution for complaints by speaking with the program director/coordinator to communicate their concerns.

For questions regarding student complaints related to licensure programs offered by UNH or SARA-related issues, please contact the office of Educational Excellence and Effectiveness at UNH.EEE@unh.edu.

General complaints & grievances

Further information about the process for handling general student complaints and grievances may be found in the Student Rights, Rules, and Responsibilities Handbook. Students may also contact the Office of the Dean of Students for advice.

Step 2: Determined by the Student's Physical Location

Located in New Hampshire: If a complaint cannot be resolved through the institution's complaint process (Step 1), students may file a complaint form with the NH Department of Education, Division of Educator Support and Higher Education.

Located outside of New Hampshire: If a complaint cannot be resolved through the institution's complaint process (Step 1), then students located in NC-SARA states, which includes all states except California, may submit complaints to State Authorization Reciprocity Agreements – New Hampshire State Portal Entity Contacts.

Additional Resources for Student Complaints

State Portal Agency Contact Information: NC-SARA provides a complete list of relevant agencies with contact information for each NC-SARA state.

Student Attestation Form

- Student Attestation Form (downloadable pdf)

Internal use: Regulatory Compliance Resources

- Glossary of Compliance Terminology
- Marketing Compliance Reference Sheet
- Regulatory Compliance Checklist
- Regulatory Compliance Training Presentation
- Student Notification Form

Student Attestation Instructions for Use

Federal regulations prohibit UNH from enrolling a student into an online professional licensure program if they reside in a state/territory where UNH does not meet the education requirements. However, if the student indicates in writing that they intend to seek licensure and employment in a state where the program does meet requirements, the student may be enrolled. The student's academic department must keep this signed form on file with the student's records for three years after graduation.

Teacher Licensure

General Special Education (ages 5-22)

*The University of New Hampshire has determined this program **meets** the educational requirements for licensure/certification in:*[1]
Maine, Massachusetts, New Hampshire, Vermont

Additional information and related resources are available on the Registrar's Office website.

[1] State specific post-education requirements are subject to change. Students are responsible for confirming these requirements in their state of residence and intended practice.

Math Studies/Middle Level (B.S.)

Location/Delivery: College of Professional Studies [Online Program]

This program is designed to prepare graduates for professional licensure/certification as follows:

Teacher Licensure

Mathematics (Middle Level)

*The University of New Hampshire has determined this program **meets** the educational requirements for licensure/certification in:*[1]
Maine, Massachusetts, New Hampshire, Vermont

Additional information and related resources are available on the Registrar's Office website.

[1] State specific post-education requirements are subject to change. Students are responsible for confirming these requirements in their state of residence and intended practice.

Math Studies/Middle Level and General Special Education (B.S.)

Location/Delivery: College of Professional Studies [Online Program]

This program is designed to prepare graduates for professional licensure/certification as follows:

Teacher Licensure

Mathematics (Middle Level) and General Special Education (ages 5-22)

*The University of New Hampshire has determined this program **meets** the educational requirements for licensure/certification in:*[1]
Maine, Massachusetts, New Hampshire, Vermont

Additional information and related resources are available on the Registrar's Office website.

[1] State specific post-education requirements are subject to change. Students are responsible for confirming these requirements in their state of residence and intended practice.

Math Studies/Mathematics Upper Level (B.S.)

Location/Delivery: College of Professional Studies [Online Program]

This program is designed to prepare graduates for professional licensure/certification as follows:

Teacher Licensure
Mathematics (Upper Level)

*The University of New Hampshire has determined this program **meets** the educational requirements for licensure/certification in:*[1]
Maine, Massachusetts, New Hampshire, Vermont

Additional information and related resources are available on the Registrar's Office website.

[1] State specific post-education requirements are subject to change. Students are responsible for confirming these requirements in their state of residence and intended practice.

Mathematics Education (B.S.)

Location/Delivery: College of Engineering and Physical Sciences, Durham Campus [In Person Program]

This program is designed to prepare graduates for professional licensure/certification as follows:

Teacher Licensure
Mathematics Middle or Upper Level

*The University of New Hampshire has determined this program **meets** the educational requirements for licensure/certification in:*[1]
Alabama, Alaska, Arizona, Arkansas, California, Colorado, Connecticut, Delaware, Florida, Georgia, Hawaii, Idaho, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Michigan, Minnesota, Mississippi, Missouri, Montana, Nebraska, Nevada, New Hampshire, New Jersey, New Mexico, New York, North Carolina, North Dakota, Ohio, Oklahoma, Oregon, Pennsylvania, Rhode Island, South Carolina, South Dakota, Tennessee, Texas, Utah, Vermont, Virginia, West Virginia, Wisconsin, Wyoming.

Additional information and related resources are available on the Registrar's Office website.

[1] State specific post-education requirements are subject to change. Students are responsible for confirming these requirements in their state of residence and intended practice.

Mathematics, Middle Level (Additional Teacher Licensure)

Location/Delivery: College of Professional Studies [Online Program]

This program is designed to prepare graduates for professional licensure/certification as follows:

Teacher Licensure
Mathematics, Middle Level

*The University of New Hampshire has determined this program **meets** the educational requirements for licensure/certification in:*[1]
Maine, Massachusetts, New Hampshire, Vermont

Additional information and related resources are available on the Registrar's Office website.

[1] State specific post-education requirements are subject to change. Students are responsible for confirming these requirements in their state of residence and intended practice.

Mathematics, Middle Level (Teacher Licensure)

Location/Delivery: College of Professional Studies [Online Program]

This program is designed to prepare graduates for professional licensure/certification as follows:

Teacher Licensure
Mathematics, Middle Level

*The University of New Hampshire has determined this program **meets** the educational requirements for licensure/certification in:*[1]
Maine, Massachusetts, New Hampshire, Vermont

Additional information and related resources are available on the Registrar's Office website.

[1] State specific post-education requirements are subject to change. Students are responsible for confirming these requirements in their state of residence and intended practice.

Mathematics, Upper Level (Additional Teacher Licensure)

Location/Delivery: College of Professional Studies [Online Program]

This program is designed to prepare graduates for professional licensure/certification as follows:

Teacher Licensure
Mathematics, Upper Level

*The University of New Hampshire has determined this program **meets** the educational requirements for licensure/certification in:*[1]
Maine, Massachusetts, New Hampshire, Vermont

Additional information and related resources are available on the Registrar's Office website.

[1] State specific post-education requirements are subject to change. Students are responsible for confirming these requirements in their state of residence and intended practice.

Mathematics Upper Level (Teacher Licensure)

Location/Delivery: College of Professional Studies [Online Program]

This program is designed to prepare graduates for professional licensure/certification as follows:

Teacher Licensure

Mathematics Upper Level

*The University of New Hampshire has determined this program **meets** the educational requirements for licensure/certification in:*[1]
Maine, Massachusetts, New Hampshire, Vermont

Additional information and related resources are available on the Registrar's Office website.

[1] State specific post-education requirements are subject to change. Students are responsible for confirming these requirements in their state of residence and intended practice.

Music Education (B.M.)

Location/Delivery: College of Liberal Arts, Durham Campus [In Person Program]

This program is designed to prepare graduates for professional licensure/certification as follows:

Teacher Licensure

Music Education K-12

*The University of New Hampshire has determined this program **meets** the educational requirements for licensure/certification in:*[1]
Alabama, Alaska, Arizona, Arkansas, California, Colorado, Connecticut, Delaware, Florida, Georgia, Hawaii, Idaho, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Michigan, Minnesota, Mississippi, Missouri, Montana, Nebraska, Nevada, New Hampshire, New Jersey, New Mexico, New York, North Carolina, North Dakota, Ohio, Oklahoma, Oregon, Pennsylvania, Rhode Island, South Carolina, South Dakota, Tennessee, Texas, Utah, Vermont, Virginia, West Virginia, Wisconsin, Wyoming.

Additional information and related resources are available on the Registrar's Office website.

[1] State specific post-education requirements are subject to change. Students are responsible for confirming these requirements in their state of residence and intended practice.

Nursing (B.S.N.)

Location/Delivery: School of Nursing, Durham Campus [In-Person Program]

This program is designed to prepare graduates for professional licensure/certification as follows:

Registered Nurse

National Council Licensure Examination for Registered Nurses

*The University of New Hampshire has determined this program **meets** the educational requirements for licensure/certification in:*[1]
Alaska, American Samoa, Arkansas, Connecticut, Delaware, District of Columbia, Florida, Georgia, Guam, Hawaii, Idaho, Illinois, Indiana, Iowa, Kansas, Kentucky, Maine, Maryland, Massachusetts, Michigan, Minnesota, Mississippi, Missouri, Montana, Nebraska, Nevada, New Hampshire, New Jersey, New Mexico, North Carolina, North Dakota, Northern Mariana Islands, Ohio, Oklahoma, Oregon, Pennsylvania, Puerto Rico, Rhode Island, South Carolina, South Dakota, Texas, U.S. Virgin Islands, Utah, Vermont, Virginia, Washington, West Virginia, Wisconsin, Wyoming.

Additional information and related resources are available on the Registrar's Office website.

[1] State specific post-education requirements are subject to change. Students are responsible for confirming these requirements in their state of residence and intended practice.

Nursing: Adult Gerontology Acute Care Nurse Practitioner (M.S.)

Location/Delivery: School of Nursing [Online Program]

This program is designed to prepare graduates for professional licensure/certification as follows:

Nurse Practitioner

American Association of Critical-Care Nurses (AACN) Certification
American Nurses Credentialing Center (ANCC) Certification

*The University of New Hampshire has determined this program **meets** the educational requirements for licensure/certification in:*[1]
Maine, Massachusetts, New Hampshire, Vermont

Additional information and related resources are available on the Registrar's Office website.

[1] State specific post-education requirements are subject to change. Students are responsible for confirming these requirements in their state of residence and intended practice.

Nursing: Adult Gerontology Acute Care Nurse Practitioner (D.N.P.)

Location/Delivery: School of Nursing [Online Program]

This program is designed to prepare graduates for professional licensure/certification as follows:

Nurse Practitioner
American Association of Critical-Care Nurses (AACN) Certification
American Nurses Credentialing Center (ANCC) Certification

*The University of New Hampshire has determined this program **meets** the educational requirements for licensure/certification in:*[1]
Maine, Massachusetts, New Hampshire, Vermont

Additional information and related resources are available on the Registrar's Office website.

[1] State specific post-education requirements are subject to change. Students are responsible for confirming these requirements in their state of residence and intended practice.

Nursing: Adult Gerontology Acute Care Nurse Practitioner (Post Master's Certificate)

Location/Delivery: School of Nursing [Online Program]

This program is designed to prepare graduates for professional licensure/certification as follows:

Nurse Practitioner
American Association of Critical-Care Nurses (AACN) Certification
American Nurses Credentialing Center (ANCC) Certification

*The University of New Hampshire has determined this program **meets** the educational requirements for licensure/certification in:*[1]
Maine, Massachusetts, New Hampshire, Vermont

Additional information and related resources are available on the Registrar's Office website.

[1] State specific post-education requirements are subject to change. Students are responsible for confirming these requirements in their state of residence and intended practice.

Nursing: Direct Entry (M.S.)

Location/Delivery: School of Nursing [In-Person Program]

This program is designed to prepare graduates for professional licensure/certification as follows:

Registered Nurse
Clinical Nurse Leader Certification
National Council Licensure Examination for Registered Nurses
American Association of Colleges of Nursing (AACN) National Clinical Nurse Leader Examination

*The University of New Hampshire has determined this program **meets** the educational requirements for licensure/certification in:*[1]
Maine, Massachusetts, New Hampshire, Vermont

Additional information and related resources are available on the Registrar's Office website.

[1] State specific post-education requirements are subject to change. Students are responsible for confirming these requirements in their state of residence and intended practice.

Nursing: Primary Care Family Nurse Practitioner (D.N.P)

Location/Delivery: School of Nursing [Online Program]

This program is designed to prepare graduates for professional licensure/certification as follows:

Nurse Practitioner
American Academy of Nurse Practitioners (AANP) Certification
American Nurses Credentialing Center (ANCC) Certification

*The University of New Hampshire has determined this program **meets** the educational requirements for licensure/certification in:*[1]
Maine, Massachusetts, New Hampshire, Vermont

Additional information and related resources are available on the Registrar's Office website.

[1] State specific post-education requirements are subject to change. Students are responsible for confirming these requirements in their state of residence and intended practice.

Nursing: Primary Care Family Nurse Practitioner (M.S.)

Location/Delivery: School of Nursing [Online Program]

This program is designed to prepare graduates for professional licensure/certification as follows:

Nurse Practitioner:
American Academy of Nurse Practitioners (AANP) Certification
American Nurses Credentialing Center (ANCC) Certification

*The University of New Hampshire has determined this program **meets** the educational requirements for licensure/certification in*:[1]
Maine, Massachusetts, New Hampshire, Vermont

Additional information and related resources are available on the Registrar's Office website.

[1] State specific post-education requirements are subject to change. Students are responsible for confirming these requirements in their state of residence and intended practice.

Nursing: Primary Care Family Nurse Practitioner (Post-Master's Certificate)

Location/Delivery: School of Nursing [Online Program]

This program is designed to prepare graduates for professional licensure/certification as follows:

Nurse Practitioner
American Academy of Nurse Practitioners (AANP) Certification
American Nurses Credentialing Center (ANCC) Certification

*The University of New Hampshire has determined this program **meets** the educational requirements for licensure/certification in:*[1]
Maine, Massachusetts, New Hampshire, Vermont

Additional information and related resources are available on the Registrar's Office website.

[1] State specific post-education requirements are subject to change. Students are responsible for confirming these requirements in their state of residence and intended practice.

Nursing: Psychiatric Mental Health Nurse Practitioner (M.S.)

Location/Delivery: School of Nursing [Online Program]

This program is designed to prepare graduates for professional licensure/certification as follows:

Nurse Practitioner
American Nurses Credentialing Center (ANCC) Psychiatric Mental Health Nurse Practitioner Certification Examination

*The University of New Hampshire has determined this program **meets** the educational requirements for licensure/certification in:*[1]
Maine, Massachusetts, New Hampshire, Vermont

Additional information and related resources are available on the Registrar's Office website.

[1] State specific post-education requirements are subject to change. Students are responsible for confirming these requirements in their state of residence and intended practice.

Nursing: Psychiatric Mental Health Nurse Practitioner (D.N.P.)

Location/Delivery: School of Nursing [Online Program]

This program is designed to prepare graduates for professional licensure/certification as follows:

Nurse Practitioner
American Nurses Credentialing Center (ANCC) Psychiatric Mental Health Nurse Practitioner Certification Examination

*The University of New Hampshire has determined this program **meets** the educational requirements for licensure/certification in:*[1]
Maine, Massachusetts, New Hampshire, Vermont

Additional information and related resources are available on the Registrar's Office website.

[1] State specific post-education requirements are subject to change. Students are responsible for confirming these requirements in their state of residence and intended practice.

Nursing: Psychiatric Mental Health Nurse Practitioner (Post-Master's Certificate)

Location/Delivery: School of Nursing [Online Program]

This program is designed to prepare graduates for professional licensure/certification as follows:

Nurse Practitioner
American Nurses Credentialing Center (ANCC) Psychiatric Mental Health Nurse Practitioner Certification Examination

*The University of New Hampshire has determined this program **meets** the educational requirements for licensure/certification in:*[1]
Maine, Massachusetts, New Hampshire, Vermont

Additional information and related resources are available on the Registrar's Office website.

[1] State specific post-education requirements are subject to change. Students are responsible for confirming these requirements in their state of residence and intended practice.

Nutrition and Dietetics (M.S.)

Location/Delivery: College of Life Sciences and Agriculture, Durham Campus [In-Person Program]

This program is designed to prepare graduates for professional licensure/certification as follows:

Registered Dietitian Nutritionist
Registered Dietitian Nutritionist (RDN) Examination

*The University of New Hampshire has determined this program **meets** the educational requirements for licensure/certification in:*[1]
Alabama, Alaska, American Samoa, Arizona, Arkansas, California, Colorado, Connecticut, Delaware, District of Columbia, Federated States of Micronesia, Florida, Georgia, Guam, Hawaii, Idaho, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Michigan, Minnesota, Mississippi, Missouri, Montana, Nebraska, Nevada, New Hampshire, New Jersey, New Mexico, New York, North Carolina, North Dakota, Northern Mariana Islands, Ohio, Oklahoma, Oregon, Pennsylvania, Puerto Rico, Republic of Palau, Republic of the Marshall Islands, Rhode Island, South Carolina, South Dakota, Tennessee, Texas, U.S. Virgin Islands, Utah, Vermont, Virginia, Washington, West Virginia, Wisconsin, Wyoming.

Additional information and related resources are available on the Registrar's Office website.

[1] State specific post-education requirements are subject to change. Students are responsible for confirming these requirements in their state of residence and intended practice.

Occupational Therapy Advanced Standing (M.S.)

Location/Delivery: College of Health and Human Services, Durham Campus [In Person Program]

This program is designed to prepare graduates for professional licensure/certification as follows:

Registered Occupational Therapist

National Board for Certification in Occupational Therapy Certification Examination

*The University of New Hampshire has determined this program **meets** the educational requirements for licensure/certification in:*[1]
Alabama, Alaska, American Samoa, Arizona, Arkansas, California, Colorado, Connecticut, Delaware, District of Columbia, Federated States of Micronesia, Florida, Georgia, Guam, Hawaii, Idaho, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Michigan, Minnesota, Mississippi, Missouri, Montana, Nebraska, Nevada, New Hampshire, New Jersey, New Mexico, New York, North Carolina, North Dakota, Northern Mariana Islands, Ohio, Oklahoma, Oregon, Pennsylvania, Puerto Rico, Republic of Palau, Republic of the Marshall Islands, Rhode Island, South Carolina, South Dakota, Tennessee, Texas, U.S. Virgin Islands, Utah, Vermont, Virginia, Washington, West Virginia, Wisconsin, Wyoming.

Additional information and related resources are available on the Registrar's Office website.

[1] State specific post-education requirements are subject to change. Students are responsible for confirming these requirements in their state of residence and intended practice.

Occupational Therapy Advanced Standing (OTD)

Location/Delivery: College of Health and Human Services, Durham Campus [In Person Program]

This program is designed to prepare graduates for professional licensure/certification as follows:

Registered Occupational Therapist

National Board for Certification in Occupational Therapy Certification Examination

*The University of New Hampshire has determined this program **meets** the educational requirements for licensure/certification in:*[1]
Alabama, Alaska, American Samoa, Arizona, Arkansas, California, Colorado, Connecticut, Delaware, District of Columbia, Federated States of Micronesia, Florida, Georgia, Guam, Hawaii, Idaho, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Michigan, Minnesota, Mississippi, Missouri, Montana, Nebraska, Nevada, New Hampshire, New Jersey, New Mexico, New York, North Carolina, North Dakota, Northern Mariana Islands, Ohio, Oklahoma, Oregon, Pennsylvania, Puerto Rico, Republic of Palau, Republic of the Marshall Islands, Rhode Island, South Carolina, South Dakota, Tennessee, Texas, U.S. Virgin Islands, Utah, Vermont, Virginia, Washington, West Virginia, Wisconsin, Wyoming.

Additional information and related resources are available on the Registrar's Office website.

[1] State specific post-education requirements are subject to change. Students are responsible for confirming these requirements in their state of residence and intended practice.

Occupational Therapy (M.S.)

Location/Delivery: College of Health and Human Service, Durham Campus [In Person Program]

This program is designed to prepare graduates for professional licensure/certification as follows:

Registered Occupational Therapist

National Board for Certification in Occupational Therapy Certification Examination

*The University of New Hampshire has determined this program **meets** the educational requirements for licensure/certification in:*[1]
Alabama, Alaska, American Samoa, Arizona, Arkansas, California, Colorado, Connecticut, Delaware, District of Columbia, Federated States of Micronesia, Florida, Georgia, Guam, Hawaii, Idaho, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Michigan, Minnesota, Mississippi, Missouri, Montana, Nebraska, Nevada, New Hampshire, New Jersey, New Mexico, New York, North Carolina, North Dakota, Northern Mariana Islands, Ohio, Oklahoma, Oregon, Pennsylvania, Puerto Rico, Republic of Palau, Republic of the Marshall Islands, Rhode Island, South Carolina, South Dakota, Tennessee, Texas, U.S. Virgin Islands, Utah, Vermont, Virginia, Washington, West Virginia, Wisconsin, Wyoming.

Additional information and related resources are available on the Registrar's Office website.

[1] State specific post-education requirements are subject to change. Students are responsible for confirming these requirements in their state of residence and intended practice.

Occupational Therapy (OTD)

Location/Delivery: College of Health and Human Services, Durham Campus [In Person Program]

This program is designed to prepare graduates for professional licensure/certification as follows:

Registered Occupational Therapist
National Board for Certification in Occupational Therapy Certification Examination

*The University of New Hampshire has determined this program **meets** the educational requirements for licensure/certification in:*[1]
Alabama, Alaska, American Samoa, Arizona, Arkansas, California, Colorado, Connecticut, Delaware, District of Columbia, Federated States of Micronesia, Florida, Georgia, Guam, Hawaii, Idaho, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Michigan, Minnesota, Mississippi, Missouri, Montana, Nebraska, Nevada, New Hampshire, New Jersey, New Mexico, New York, North Carolina, North Dakota, Northern Mariana Islands, Ohio, Oklahoma, Oregon, Pennsylvania, Puerto Rico, Republic of Palau, Republic of the Marshall Islands, Rhode Island, South Carolina, South Dakota, Tennessee, Texas, U.S. Virgin Islands, Utah, Vermont, Virginia, Washington, West Virginia, Wisconsin, Wyoming.

Additional information and related resources are available on the Registrar's Office website.

[1] State specific post-education requirements are subject to change. Students are responsible for confirming these requirements in their state of residence and intended practice.

Reading and Writing Specialist (Additional Teacher Licensure)

Location/Delivery: College of Professional Studies [Online Program]

This program is designed to prepare graduates for professional licensure/certification as follows:

Teacher Licensure
Reading and Writing Specialist

*The University of New Hampshire has determined this program **meets** the educational requirements for licensure/certification in:*[1]
Maine, Massachusetts, New Hampshire, Vermont

Additional information and related resources are available on the Registrar's Office website.

[1] State specific post-education requirements are subject to change. Students are responsible for confirming these requirements in their state of residence and intended practice.

Reading and Writing Teacher (Additional Teacher Licensure)

Location/Delivery: College of Professional Studies [Online Program]

This program is designed to prepare graduates for professional licensure/certification as follows:

Teacher Licensure
Reading and Writing Teacher

*The University of New Hampshire has determined this program **meets** the educational requirements for licensure/certification in:*[1]
Maine, Massachusetts, New Hampshire, Vermont

Additional information and related resources are available on the Registrar's Office website.

[1] State specific post-education requirements are subject to change. Students are responsible for confirming these requirements in their state of residence and intended practice.

Recreation Management and Policy Major: Therapeutic Recreation Option (B.S.)

Location/Delivery: College of Health and Human Services, Durham Campus [In-Person Program]

This program is designed to prepare graduates for professional licensure/certification as follows:

Certified Therapeutic Recreation Specialist
National Council for Therapeutic Recreation Certification (NCTRC) Examination

*The University of New Hampshire has determined this program **meets** the educational requirements for licensure/certification in:*[1]
Alabama, Alaska, American Samoa, Arizona, Arkansas, California, Colorado, Connecticut, Delaware, District of Columbia, Federated States of Micronesia, Florida, Georgia, Guam, Hawaii, Idaho, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Michigan, Minnesota, Mississippi, Missouri, Montana, Nebraska, Nevada, New Hampshire, New Jersey, New Mexico, New York, North Carolina, North Dakota, Northern Mariana Islands, Ohio, Oklahoma, Oregon, Pennsylvania, Puerto Rico, Republic of Palau, Republic of the Marshall Islands, Rhode Island, South Carolina, South Dakota, Tennessee, Texas, U.S. Virgin Islands, Utah, Vermont, Virginia, Washington, West Virginia, Wisconsin, Wyoming.

Additional information and related resources are available on the Registrar's Office website.

[1] State specific post-education requirements are subject to change. Students are responsible for confirming these requirements in their state of residence and intended practice.

Recreation Management and Policy: Therapeutic Recreation Administration (M.S.)

Location/Delivery: College of Health and Human Services, Durham Campus [In-Person Program]

This program is designed to prepare graduates for professional licensure/certification as follows:

Certified Therapeutic Recreation Specialist

National Council for Therapeutic Recreation Certification (NCTRC) Examination

*The University of New Hampshire has determined this program **meets** the educational requirements for licensure/certification in:*[1]
Alabama, Alaska, American Samoa, Arizona, Arkansas, California, Colorado, Connecticut, Delaware, District of Columbia, Federated States of Micronesia, Florida, Georgia, Guam, Hawaii, Idaho, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Michigan, Minnesota, Mississippi, Missouri, Montana, Nebraska, Nevada, New Hampshire, New Jersey, New Mexico, New York, North Carolina, North Dakota, Northern Mariana Islands, Ohio, Oklahoma, Oregon, Pennsylvania, Puerto Rico, Republic of Palau, Republic of the Marshall Islands, Rhode Island, South Carolina, South Dakota, Tennessee, Texas, U.S. Virgin Islands, Utah, Vermont, Virginia, Washington, West Virginia, Wisconsin, Wyoming.

Additional information and related resources are available on the Registrar's Office website.

[1] State specific post-education requirements are subject to change. Students are responsible for confirming these requirements in their state of residence and intended practice.

Secondary Education (M.A.T.)

Location/Delivery: Durham Campus [In Person Program]

This program is designed to prepare graduates for professional licensure/certification as follows:

Teacher Licensure

Areas: English Language Arts, ESOL, Health, Life Sciences, Mathematics, Music, Physical Education, Social Studies, Theatre, Visual Arts.

*The University of New Hampshire has determined this program **meets** the educational requirements for licensure/certification in:*[1]
Alabama, Alaska, Arizona, Arkansas, California, Colorado, Connecticut, Delaware, Florida, Georgia, Hawaii, Idaho, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Michigan, Minnesota, Mississippi, Missouri, Montana, Nebraska, Nevada, New Hampshire, New Jersey, New Mexico, New York, North Carolina, North Dakota, Ohio, Oklahoma, Oregon, Pennsylvania, Rhode Island, South Carolina, South Dakota, Tennessee, Texas, Utah, Vermont, Virginia, West Virginia, Wisconsin, Wyoming.

Additional information and related resources are available on the Registrar's Office website.

[1] State specific post-education requirements are subject to change. Students are responsible for confirming these requirements in their state of residence and intended practice.

Secondary Education (M.Ed.)

Location/Delivery: Durham Campus [In Person Program]

This program is designed to prepare graduates for professional licensure/certification as follows:

Teacher Licensure

Areas: English Language Arts, ESOL, Health, Life Sciences, Mathematics, Music, Physical Education, Social Studies, Theatre, Visual Arts.

*The University of New Hampshire has determined this program **meets** the educational requirements for licensure/certification in:*[1]
Alabama, Alaska, Arizona, Arkansas, California, Colorado, Connecticut, Delaware, Florida, Georgia, Hawaii, Idaho, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Michigan, Minnesota, Mississippi, Missouri, Montana, Nebraska, Nevada, New Hampshire, New Jersey, New Mexico, New York, North Carolina, North Dakota, Ohio, Oklahoma, Oregon, Pennsylvania, Rhode Island, South Carolina, South Dakota, Tennessee, Texas, Utah, Vermont, Virginia, West Virginia, Wisconsin, Wyoming.

Additional information and related resources are available on the Registrar's Office website.

[1] State specific post-education requirements are subject to change. Students are responsible for confirming these requirements in their state of residence and intended practice.

Social Studies/Elementary Education and General Special Education (B.S.)

Location/Delivery: College of Professional Studies [Online Program]

This program is designed to prepare graduates for professional licensure/certification as follows:

Teacher Licensure

Elementary Education (K-6) and General Special Education (ages 5-22)

*The University of New Hampshire has determined this program **meets** the educational requirements for licensure/certification in:*[1]
Maine, Massachusetts, New Hampshire, Vermont

Additional information and related resources are available on the Registrar's Office website.

[1] State specific post-education requirements are subject to change. Students are responsible for confirming these requirements in their state of residence and intended practice.

Social Studies (B.S.)/General Special Education (Teacher Licensure)

Location/Delivery: College of Professional Studies [Online Program]

This program is designed to prepare graduates for professional licensure/certification as follows:

Teacher Licensure

General Special Education

*The University of New Hampshire has determined this program **meets** the educational requirements for licensure/certification in:*[1]
Maine, Massachusetts, New Hampshire, Vermont

Additional information and related resources are available on the Registrar's Office website.

[1] State specific post-education requirements are subject to change. Students are responsible for confirming these requirements in their state of residence and intended practice.

Theatre Major: Secondary Theatre Education Option (B.A.)

Location/Delivery: College of Liberal Arts, Durham Campus [In-Person Program]

This program is designed to prepare graduates for professional licensure/certification as follows:

Teacher Licensure
Theatre K-12

*The University of New Hampshire has determined this program **meets** the educational requirements for licensure/certification in:*[1]
Alabama, Alaska, Arizona, Arkansas, California, Colorado, Connecticut, Delaware, Florida, Georgia, Hawaii, Idaho, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Michigan, Minnesota, Mississippi, Missouri, Montana, Nebraska, Nevada, New Hampshire, New Jersey, New Mexico, New York, North Carolina, North Dakota, Ohio, Oklahoma, Oregon, Pennsylvania, Rhode Island, South Carolina, South Dakota, Tennessee, Texas, Utah, Vermont, Virginia, West Virginia, Wisconsin, Wyoming.

Additional information and related resources are available on the Registrar's Office website.

[1] State specific post-education requirements are subject to change. Students are responsible for confirming these requirements in their state of residence and intended practice.

Veterinary Technology (A.A.S.)

Location/Delivery: Thompson School of Applied Science, Durham Campus [In-Person Program]

This program is designed to prepare graduates for professional licensure/certification as follows:

Veterinary Technician
Veterinary Technician National Examination (VTNE)

*The University of New Hampshire has determined this program **meets** the educational requirements for licensure/certification in:*[1]
Alabama, Alaska, American Samoa, Arizona, Arkansas, California, Colorado, Connecticut, Delaware, District of Columbia, Federated States of Micronesia, Florida, Georgia, Guam, Hawaii, Idaho, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Michigan, Minnesota, Mississippi, Missouri, Montana, Nebraska, Nevada, New Hampshire, New Jersey, New Mexico, New York, North Carolina, North Dakota, Northern Mariana Islands, Ohio, Oklahoma, Oregon, Pennsylvania, Puerto Rico, Republic of Palau, Republic of the Marshall Islands, Rhode Island, South Carolina, South Dakota, Tennessee, Texas, U.S. Virgin Islands, Utah, Vermont, Virginia, Washington, West Virginia, Wisconsin, Wyoming.

State contact information.

Additional information and related resources are available on the Registrar's Office website.

[1] State specific post-education requirements are subject to change. Students are responsible for confirming these requirements in their state of residence and intended practice.

College of Engineering and Physical Sciences

Cyndee Gruden, Dean
Sharon McCrone, Associate Dean for Academic Affairs

The College of Engineering and Physical Sciences (CEPS) provides an opportunity for students to achieve educational objectives appropriate to their interests in engineering, computer science, information technology, mathematics, the physical sciences, and the teaching of mathematics and physical sciences. The college offers an education in each of its primary disciplines leading to the bachelor of science, as well as bachelor of art degrees with majors in mathematics and each of the three physical sciences. All programs include an opportunity for study in the arts, humanities, and social sciences.

The key to an undergraduate program in the college is flexibility, with a strong emphasis on personal and individualized education. In addition to specific programs, a wide range of options within several majors are available. Special programs can be developed to meet the specific interests of individual students.

Degree Requirements

MATH 425 Calculus I and MATH 426 Calculus II or the equivalent in transfer credits or advanced placement approved by the Department of Mathematics and Statistics are required by all departments of the college. The exceptions to this are the information technology major, the three computer science bachelor of arts majors, and the earth and environmental sciences bachelors of arts, which only require MATH 425 Calculus I. The prerequisites for calculus are three years of college-preparatory mathematics, including a half-year of trigonometry. Before students can register for MATH 425 Calculus I, they are required to take the Mathematics Placement Test or to have taken MATH 418 Analysis and Applications of Functions (or its equivalent) and received a grade of C or better.

Mathematics Placement

First-year students arrive with a wide range of mathematical skills based upon their high school preparation. The college wants students to have a solid mathematics foundation so that they will enjoy an enriched first-semester experience. A student's mathematics development will be assessed as part of the June orientation program. Based upon the Mathematics Placement Test, students are enrolled in the mathematics class that will allow them to continue that development. The initial mathematics entry course is MATH 418 Analysis and Applications of Functions. However, a student is placed into MATH 425 Calculus I if he or she demonstrated a certain level of proficiency in algebra and precalculus through the Mathematics Placement Test. Students with AP or dual enrollment credit for Calculus I and/or Calculus II may elect to accept those credits and continue with a math course at the next level.

Degrees OFFERED

The college offers two undergraduate degrees: the bachelor of arts and the bachelor of science. Some of the courses prescribed in these degree programs partially fulfill the University's Discovery requirements. There are entrance requirements in some programs, and it is not possible to guarantee all change-of-major requests. Students should see their advisers for specific information.

Bachelor of Arts

Programs leading to a bachelor of arts degree are offered in the departments of chemistry, computer science, earth sciences, mathematics, and physics. These programs provide a broad liberal education along with a major in one of these fields.

Bachelor of Science

The programs leading to the bachelor of science degree, offered in each of the departments of the college, emphasize students' preparation for a professional career and continuing or graduate education.

INTERDISCIPLINARY PROGRAMS

Bachelor of Science in Environmental Sciences

The Environmental Sciences program is offered jointly with the College of Life Sciences and Agriculture (COLSA).

Architectural Studies Minor

The Architectural Students Minor is managed jointly by the Civil Engineering Department, and Art & Art History Department in the College of Liberal Arts (COLA).

OTHER Combined Programs of Study

In addition to pursuing a single major, students may combine programs of study as follows:

Minors: Students may pursue one or more minors, each typically comprised of 5 courses. Minors enable students to obtain experience in a specialized area and to retain identification with their major professional area. Minors are available in nearly every discipline within the College of Engineering & Physical Sciences.

Cognates: Students may pursue one or more cognates, each typically comprised of 3 courses and intended to develop career-oriented skills. Cognates in the College of Engineering & Physical Sciences are:

- Computer Programming
- Information Technology
- Skills and Perspectives for the Digital World

Second majors: Students may choose to fulfill the requirements of two dissimilar major programs.

Dual majors: Students may choose to fulfill the requirements of a dual major, typically comprised of 8 courses. Dual majors are designated programs that must be paired with another major of any discipline.

Student-designed majors: Under special circumstances, students may design their own majors. Proposal guidelines are available in the Office of the Provost and Vice President for Academic Affairs and on the Academic Affairs website.

Dual-degrees: Students may choose to fulfill the requirements of two separate degrees, such as a B.A. and a B.S.

Accelerated Master's programs: Students with senior standing and a minimum 3.20 cumulative grade-point average are eligible to take up to 12 credits of graduate level courses prior to completing their undergraduate degree, provided they have been admitted to the Graduate School.

Special Provisions

The requirement of a given topic/course prescribed to meet the requirements of major curriculum may be waived by the faculty of a student's department. This rule offers students the opportunity to develop a somewhat individualized plan of study with intellectual incentives and opportunities in addition to those found in a regular curriculum. The student's petition must be approved by their major advisor and the dean of the college.

Undeclared

Students who are uncertain about choosing a specific major may remain undeclared in the College of Engineering & Physical Sciences during their freshman and sophomore year. All first year undeclared students in the college will take a 1-credit seminar course, TECH 400 Introduction to CEPS Programs (fall) and have the option to take TECH 402 Introduction to CEPS Career Exploration (1 cr, spring) in addition to their other required courses.

Special Programs

Research Opportunities

The talents and expertise of the faculty in all departments are reflected in the number of ongoing research projects. Undergraduates are included in many of these research projects with the intent that they will discover and foster their creative talents. When involved with a funded research project, students may have an opportunity to receive pay while learning about the research area.

The college has world-class laboratories and computer facilities in many areas. A few of these are coastal and ocean mapping, space science, environmental engineering and science, fluid dynamics, wind turbulence, information systems, materials science, nanotechnology, sustainability, and medical imaging. These and other ongoing research areas within the college are described on the college's website: https://ceps.unh.edu/research-facilities.

Students have the opportunity to acquire applied experience by working with faculty members who undertake sponsored professional projects in technical and managerial areas for business, industry, and federal, state, and local governments.

Innovation Scholars Program

The Innovation Scholars program is a research driven introduction to the university for first-year students. Students will be part of a cohort of students under the direction of a faculty member that guides them through a year-long research experience culminating in a presentation of research results at the Undergraduate Research Conference or equivalent activity. Participants will develop skills that will open doors of opportunity at UNH and more broadly, and experience the interconnectedness of UNH scholarly activity with UNH Innovation and UNH Career and Professional Success.

There are currently six research topics, including advanced manufacturing; internet engineering; ocean and environmental sensing; biomaterials; patterns and symmetry; and sustainable energy and water systems. Most cohorts work within a specific laboratory setting, including the Olson Advanced Manufacturing Center, Chase Ocean Engineering Laboratory and the UNH InterOperability Laboratory, to conduct their research. Students participating in the Innovation Scholars program will be enrolled in a 2-credit seminar both semesters of their first year for weekly cohort meetings.

Independent Study and Projects

All departments within the college offer independent study opportunities and projects. The content of these courses varies and is based upon current scientific and technological needs in addition to the interests of the student and faculty involved.

Permission of the faculty member and/or department chairperson is required. One should review the course descriptions for the independent study and project courses for specific requirements. Students interested in working with a faculty member on a project or independent study should discuss this with the faculty member and their academic adviser prior to registering for the course.

Preparing for Teaching

Degrees in mathematics education at the K-8 or secondary level are available through the department of Mathematics and Statistics.

Students interested in teaching chemistry, physics, or earth sciences should refer to the appropriate department advisors for program requirements.

Study Abroad Programs

The College of Engineering and Physical Sciences and the Global Education Center work closely to support students and their Education Abroad experience. Students interested in study abroad are recommended to meet with their CEPS Faculty Study Abroad Advisor early on to determine if any changes will need to be made to their degree plan.

For a full list of international study abroad programs available to UNH students, check out the UNH-Via website. Students interested in participating in a domestic exchange program should go to Domestic Study Programs.

To learn about additional study abroad programs available to students in the College of Engineering and Physical Sciences, contact study.abroad@unh.edu**.**

Accreditation

The baccalaureate-level programs in: Bioengineering; Chemical Engineering; Civil Engineering; Computer Engineering; Electrical Engineering; Environmental Engineering; Mechanical Engineering; and Ocean Engineering are accredited by the Engineering Accreditation Commission of ABET, Inc. The bachelor of science programs in Computer Science and Information Technology are accredited by the Computing Accreditation Commission of ABET, Inc. https://www.abet.org

The Department of Chemistry's undergraduate bachelor of science program is approved by the American Chemical Society.

Chemical Engineering & Bioengineering

Chemical Engineering

Chemical engineering is concerned with the analysis and design of processes that deal with the transfer and transformation of energy and material into products of high value. The practice of chemical engineering includes the conception, development, design, and application of physicochemical processes and their products; the development, design, construction, operation, control, and management of plants for these processes; and activities relating to public service, education, and research.

The curriculum prepares students for productive careers in industry or government and provides a foundation for graduate studies. The college's program emphasizes chemical engineering fundamentals while offering opportunities for focused study in Bioengineering, Energy, and Environmental Engineering.

Traditional employment areas in the chemical process industries include industrial chemicals, petroleum and petrochemicals, plastics, pharmaceuticals, metals, textiles, and food. Chemical engineers are also working in increasing numbers in the areas of energy engineering, pollution abatement, and biochemical and biomedical engineering; in addition, they are employed by many government laboratories and agencies as well as private industries and institutions.

Chemical Engineering Mission Statement

The Chemical Engineering program strives to prepare our students for productive careers in industry or government and also provides our students with a solid foundation for graduate studies. Our program emphasizes chemical engineering fundamentals while offering opportunities for focused studies in bioengineering, energy, and environmental engineering.

Chemical Engineering Program Educational Objectives

The program has the following major educational objectives with the expectation that our alumni will have successful careers in the many diverse areas of chemical engineering profession. Within a few years of obtaining a bachelor's degree in chemical engineering, we expect our graduates to have the following attributes:

(1) Depth: To be effective in applying chemical engineering principles in engineering practice or for advanced study in chemical engineering.

(2) Breadth: To have a productive career in the many diverse fields of chemical engineering such as bioengineering, energy and the environment, or in the pursuit of graduate education in disciplines such as Chemical Engineering, Medicine, Law or Business.

(3) Professionalism: To function effectively in the complex modern work environment with the ability to assume professional leadership roles.

Chemical Engineering Student Outcomes

(1) an ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics.

(2) an ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors.

(3) an ability to communicate effectively with a range of audiences.

(4) an ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts.

(5) an ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives.

(6) an ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions.

(7) an ability to acquire and apply new knowledge as needed, using appropriate learning strategies.

Bioengineering

The Bioengineering program is tailored to students who want to use engineering principles to analyze problems and design solutions in the fields of healthcare, medicine and biology. It's a truly interdisciplinary program, with courses in both the College of Engineering and Physical Sciences and the College of Life Sciences and Agriculture.#Graduates from the bioengineering program solve problems at the interface of biology and engineering in the fields of biotechnology and pharmaceuticals, as well as medicine and biofuels.

The curriculum prepares students by providing a solid foundation of biology and engineering principles through challenging courses and hands-on learning opportunities in our state-of-the-art laboratories. Our faculty have a broad background in modeling physiological and biochemical processes, enzyme kinetics, synthetic biology, biomaterials and biosensor development and related topics such as tissue engineering. Elective courses let you adapt your program to prepare for medical school, other graduate studies or careers in biomanufacturing, biotechnology or biomedical engineering.

Bioengineering Mission Statement

Our Bioengineering program empowers students with broad preparation for pursuing careers related to biotechnology, biomedical and engineering fields.

Bioengineering Program Educational Objectives

The program has the following major educational objectives with the expectation that our alumni will have successful careers in the many diverse areas of bioengineering profession. #Within a few years of obtaining a bachelor's degree in bioengineering, we expect our graduates to have the following attributes:

(1) Depth:#To be effective in applying life science concepts and bioengineering principles in engineering practice or for advanced study.

(2) Breadth: To have productive careers in the many diverse areas of bioengineering or in pursuit of graduate studies in engineering, law, medicine or business.

(3) Professionalism:#To function effectively in the complex modern work environment with the ability to assume professional leadership roles.

Bioengineering Student Outcomes

(1) an ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics.

(2) an ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors.

(3) an ability to communicate effectively with a range of audiences.

(4) an ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts.

(5) an ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives.

(6) an ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions.

(7) an ability to acquire and apply new knowledge as needed, using appropriate learning strategies.

Bioengineering Major (B.S.)

https://www.unh.edu/program/bachelor-science/bioengineering

Description

The Bioengineering program is tailored to students who want to use engineering principles to analyze problems and design solutions in the fields of healthcare, medicine and biology, biotechnology and pharmaceuticals, as well as biofuels.

The bioengineering program is truly interdisciplinary and will train graduates in biology and physiology as well as engineering. The program will provide graduates with capabilities in advanced mathematics (including differential equations and statistics), science, and engineering. Graduates will be conversant with solving problems at the interface of biology and engineering that may arise in a variety of fields. By graduation, students will have experience measuring and interpreting data from living systems and addressing the interactions between living and non-living materials.

For more information on the bioengineering program, please contact Nivedita Gupta (nivedita.gupta@unh.edu), Professor and Chair.

The Bioengineering program (B Sci in Bioengineering) is accredited by the Engineering Accreditation Commission of ABET, https://www.abet.org, under the General Criteria and the Program Criteria for Bioengineering and Biomedical and Similarly Named Engineering Programs.

Requirements

Degree Requirements

Minimum Credit Requirement: 128 credits

Minimum Residency Requirement: 32 credits must be taken at UNH

Minimum GPA: 2.0 required for conferral*

Core Curriculum Required: Discovery & Writing Program Requirements

Foreign Language Requirement: No

All Major, Option and Elective Requirements as indicated.
**Major GPA requirements as indicated.*

Major Requirements

Students are required to obtain a minimum 2.0 grade-point average in CHBE 501 Material Balances and CHBE 502 Energy Balances and in overall standing at the end of the sophomore year in order to continue in the major. Study abroad (Exchange) students are required to have a cumulative GPA of 3.0 or better in math, physics, chemistry, and other required courses at the end of the semester prior to their exchange semester.

Code	Title	Credits
Required Courses		
CHBE 400	Chemical and Bioengineering Lectures	1

CHBE 501	Material Balances	3

[1] MATH 425 Calculus I satisfies the Discovery Foundation Quantitative Reasoning category.
[2] CHEM 405 Chemical Principles for Engineers satisfies the Discovery Physical Science (with lab) category.
[3] ENGL 401 First-Year Writing satisfies the Discovery Foundation Writing Skills category.
[4] BIOL 411 Introductory Biology: Molecular and Cellular satisfies the Discovery Biological Science (with lab) category.
[5] CHBE 502 Energy Balances satisfies the Discovery Inquiry category.

The Discovery ETS category requirement is met upon receiving a passing grade in CHBE 400 Chemical and Bioengineering Lectures; CHBE 761 Biochemical Engineering; CHBE 762 Biomedical Engineering; CHBE 763 Bioengineering Design I; CHBE 764 Bioengineering Design II. Students who do not complete these courses must take a Discovery ETS course to fulfill the requirement.

Student Learning Outcomes

Program Learning Outcomes

By the time of graduation, students will have:

- an ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics.
- an ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors.
- an ability to communicate effectively with a range of audiences.
- an ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts.
- an ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives.
- an ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions.
- an ability to acquire and apply new knowledge as needed, using appropriate learning strategies.

Chemical Engineering Major (B.S.)

https://www.unh.edu/program/bachelor-science/chemical-engineering

Description

Chemical engineering is concerned with the analysis and design of processes that deal with the transfer and transformation of energy and material. The practice of chemical engineering includes the conception, development, design, and application of physicochemical processes and their products; the development, design, construction, operation, control, and management of plants for these processes; and activities relating to public service, education, and research.

The curriculum prepares students for productive careers in industry or government and provides a foundation for graduate studies. The program emphasizes chemical engineering fundamentals while offering opportunities for focused study in bioengineering, energy or environmental engineering.

Traditional employment areas in the chemical process industries include industrial chemicals, petroleum and petrochemicals, plastics, pharmaceuticals, metals, textiles, and food. Chemical engineers also are working in increasing numbers in the areas of energy engineering, pollution abatement, and biochemical and biomedical engineering; in addition, they are employed by many government laboratories and agencies as well as private industries and institutions.

Graduates from the program have the ability to apply knowledge of mathematics, science, and engineering to identify, formulate, and solve chemical engineering problems as well as to design and conduct experiments safely and analyze and interpret data. They are prepared to pursue advanced studies in chemical engineering. Program graduates gain a sense of professional and ethical responsibility with the ability to apply environmental, safety, economic, and ethical criteria in the design of engineering processes. They learn to function as individuals or in a team and gain skills in written and oral communication and effectively use computers for engineering practice, including information search in the library and online. They also understand the need for lifelong learning and the significance of societal and global issues relevant to chemical engineering.

The Chemical Engineering program (B Sci in Chemical Engineering) is accredited by the Engineering Accreditation Commission of ABET, https://www.abet.org, under the General Criteria and the Program Criteria for Chemical, Biochemical, Biomolecular and Similarly Named Engineering Programs.

2. MATH 425 Calculus I satisifies the Discovery Foundation Quantitative Reasoning category.
3. PHYS 407 General Physics I or CHEM 405 Chemical Principles for Engineers satisfies the Discovery Physical Science (with lab) category.
4. CHBE 502 Energy Balances satisfies the Discovery Inquiry requirement.
5. CHBE#708 Chemical Engineering Design satisfies the Discovery Capstone Experience/Course.
6. Chemical Engineering students do not have to take a course in the Discovery ETS category since they satisfy this requirement through a combination of courses in the curriculum.

Student Learning Outcomes

Program Learning Outcomes

By the time of graduation, students will have:

- an ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics.
- an ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors.
- an ability to communicate effectively with a range of audiences.
- an ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts.
- an ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives.
- an ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions.
- an ability to acquire and apply new knowledge as needed, using appropriate learning strategies.

Chemical Engineering Major: Bioengineering Option (B.S.)

https://www.unh.edu/program/bachelor-science/chemical-engineering-bioengineering

Description

Under this option, the required courses deal with the application of basic biological sciences and chemical engineering principles to the design and operation of large-scale bioprocesses for the production of high-value medicinal, food and beverage, pharmaceutical, biomedical, genetic engineering, and health care products. The elective courses permit the student to study topics of special interest in more depth or gain a broader perspective in bioengineering or some closely related subjects such as biochemistry or biotechnology experience in manufacturing or research. Three courses are required, and an additional course of at least three credits should be selected from the electives list. Students interested in the bioengineering option should declare their intention to the department faculty during the sophomore year.

The Chemical Engineering program (B Sci in Chemical Engineering) is accredited by the Engineering Accreditation Commission of ABET, https://www.abet.org, under the General Criteria and the Program Criteria for Chemical, Biochemical, Biomolecular and Similarly Named Engineering Programs.

	Credits	**18-19**
	Total Credits	**132-133**

1. ENGL 401 First-Year Writing satisfies the Discovery Foundation Writing Skills category.
2. MATH 425 Calculus I satisifies the Discovery Foundation Quantitative Reasoning category.
3. PHYS 407 General Physics I or CHEM 405 Chemical Principles for Engineers satisfies the Discovery Physical Science (with lab) category.
4. CHBE 502 Energy Balances satisfies the Discovery Inquiry requirement.
5. CHBE#708 Chemical Engineering Design satisfies the Discovery Capstone Experience/Course.
6. Chemical Engineering students do not have to take a course in the Discovery ETS category since they satisfy this requirement through a combination of courses in the curriculum.

Student Learning Outcomes

Program Learning Outcomes

By the time of graduation, students will have:

- an ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics.
- an ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors.
- an ability to communicate effectively with a range of audiences.
- an ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts.
- an ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives.
- an ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions.
- an ability to acquire and apply new knowledge as needed, using appropriate learning strategies.

Chemical Engineering Major: Energy Option (B.S.)

https://www.unh.edu/program/bachelor-science/chemical-engineering-energy

Description

This option covers the major areas of current interest in the energy field. The required courses provide students with a general background knowledge of fossil fuels, nuclear power, solar energy, and other alternative energy resources. The elective courses will permit the student to study topics of special interest in more depth or gain a broader perspective on energy and some closely related subjects. Three courses are required, and one additional course of at least three credits should be selected from the electives list. Students interested in the energy option should declare their intention to the department faculty during the sophomore year.

The Chemical Engineering program (B Sci in Chemical Engineering) is accredited by the Engineering Accreditation Commission of ABET, https://www.abet.org, under the General Criteria and the Program Criteria for Chemical, Biochemical, Biomolecular and Similarly Named Engineering Programs.

Chemical Engineering Major: Environmental Engineering Option (B.S.)

https://www.unh.edu/program/bachelor-science/chemical-engineering-environmental-engineering

Description

The chemical engineering program, with its substantial requirements in chemistry, fluid dynamics, heat transfer, mass transfer, unit operations, and reaction kinetics, provides students with a unique preparation to deal with many aspects of environmental pollution problems. The option gives students a special focus on the application of chemical engineering principles and processes to the solution of problems relating to air pollution, water pollution, and the disposal of solid and hazardous waste. Three required courses must be selected, plus one elective from the electives list. Each course must carry a minimum of three credits.

Students interested in the environmental engineering option should declare their intention to the department faculty during the sophomore year.

The Chemical Engineering program (B Sci in Chemical Engineering) is accredited by the Engineering Accreditation Commission of ABET, https://www.abet.org, under the General Criteria and the Program Criteria for Chemical, Biochemical, Biomolecular and Similarly Named Engineering Programs.

Student Learning Outcomes

Program Learning Outcomes

By the time of graduation, students will have:

- an ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics.

- an ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors.
- an ability to communicate effectively with a range of audiences.
- an ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts.
- an ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives.
- an ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions.
- an ability to acquire and apply new knowledge as needed, using appropriate learning strategies.

Chemistry

Chemistry is a dynamic, an extremely creative, and yet also a practical discipline. Chemists *analyze* and *quantitate*, like when testing environmental or forensic samples; they *measure* specific characteristics of substances, like the defects present in a material, or the optical properties of atmospheric particles; they *design* and *synthesize* new substances, like antibiotics, catalysts for hydrogen production, and polymers for flexible electronics; they also generate *models* and *theories* that can explain what happens in the laboratory or in Nature. Chemistry is integral to modern science and, ultimately, most phenomena in biology, engineering, environmental science, geology, materials science, and medicine can be described in terms of the chemical and physical behavior of atoms and molecules—because of this, chemistry is often called "The Central Science". Chemists are vital members of the interdisciplinary teams tackling the complicated problems facing our world, including issues in energy, health, security, and defense. Chemists are essential in developing the technologies and materials that support modern life!

The study of chemistry provides students with the critical thinking and problem-solving skills necessary to be successful in a wide variety of careers. You'll find chemists in many industries, including agricultural/food products, biotechnology, coatings, materials, paper, personal care products, petrochemicals, pharmaceuticals, plastics, renewable energy, semiconductors, and solar cells. Chemists are also involved in environmental and health-related sciences, making public policies, patent law and intellectual property, and educating future generations of scientists.

Students are also well-prepared for graduate-level work in chemistry, chemical biology, chemical physics, biochemistry, biophysics, materials chemistry, and other related fields. Students who excel in undergraduate chemistry coursework are often able to obtain funding for their graduate work through teaching or research assistantships and fellowships. Chemistry majors have also been successful in a variety of professional programs where they have studied medicine, pharmacy, dentistry, veterinary medicine, business, or law.

The chemistry program at The University of New Hampshire is small enough to be personal, but broad enough to provide excellent opportunities for challenge and growth. Students interested in pursuing chemistry as an undergraduate degree have three options available to them. These are the Bachelor of Science in Chemistry (B.S.) degree, Bachelor of Science in Chemistry: Chemical Biology option (B.S.) degree, and a Bachelor of Arts (B.A.) degree. The B.S. degrees are certified by the American Chemical Society; the B.A. degree may also lead to ACS certification, depending on program plan. Since the required courses for each degree program are very similar in the first and second years, it is easy to change from one program to another. A chemistry faculty advisor is assigned to a student once they enter the program. The student's advisor provides academic guidance concerning the choice of courses to meet both major and university requirements.

Programs

- Chemistry Major (B.A.) (p. 89)
- Chemistry Major (B.S.) (p. 91)
- Chemistry Major: Chemical Biology Option (B.S.) (p. 93)
- Chemistry Minor (p. 94)

Faculty

Chemistry Department Faculty

Chemistry Major (B.A.)

https://www.unh.edu/program/bachelor-arts/chemistry

Description

The B.A. degree exposes students to the major fields of chemistry but provides more flexibility in course selection than the B.S. degree. The curriculum offers a comprehensive introduction to chemistry's traditional subdisciplines (analytical, inorganic, organic, and physical chemistry) via foundational classroom and laboratory experiences. Undergraduate research is an option, but not a requirement for this degree. The B.A. degree is directed towards students who have interdisciplinary interests and are not planning to either attend a traditional graduate program in chemistry or find immediate employment in the chemical industry. Instead, this degree is geared toward students who plan to attend graduate school in an interdisciplinary field where chemical knowledge will be beneficial, and students who are interested in chemistry but plan to pursue post-graduate degrees in the health sciences, education, business, or other pre-professional programs. With careful selection of elective courses, the B.A. degree may also lead to American Chemical Society certification.

Elective Course	4
Credits	**13**
Total Credits	**128**

Student Learning Outcomes

Program Learning Outcomes

At the time of graduation, a student should be able to:

- Reason with Chemistry's anchoring concepts: that matter consists of atoms that have internal structures that dictate their chemical and physical behavior; that atoms interact via electrostatic forces to form chemical bonds that chemical compounds have geometric structures that influence their chemical and physical behaviors; that intermolecular forces—electrostatic forces between molecules—dictate the physical behavior of matter; that matter changes, forming products that have new chemical and physical properties that energy is the key currency of chemical reactions in molecular scale systems as well as macroscopic systems; that chemical changes have a time scale over which they occur; that all chemical changes are, in principle, reversible, and chemical processes often reach a state of dynamic equilibrium; that Chemistry is generally advanced via experimental observations; and that Chemistry constructs meaning interchangeably at the particulate and macroscopic levels.
- Use Chemistry's cross-cutting concepts to interrogate and explain phenomena: chemical identity (how do we identify chemical substances?); structure-property relationships (how do we predict the properties of materials?); chemical causality (why do chemical processes occur?); chemical mechanism (how do chemical processes occur?); chemical control (how can we control chemical processes?); benefits-costs-risks (how do we evaluate the impacts of chemically transforming matter?)
- Demonstrate the following general scientific practices when displaying knowledge of chemical ideas and concepts: asking questions; developing and using models; constructing explanations; planning and carrying out investigations; engaging in argument from evidence; analyzing and interpreting data; using mathematics and computational thinking; obtaining, evaluating, and communicating information OR Demonstrate the following Chemistry core practices when displaying knowledge of chemical ideas and concepts (a) analysis: development and application of strategies for detecting, identifying, separating, and quantifying chemical substances (b)synthesis: the design of new substances and synthetic routes (c)transformation: controlling chemical processes for non-synthetic purposes.

Chemistry Major (B.S.)

https://www.unh.edu/program/bachelor-science/chemistry

Description

The B.S. Chemistry degree is certified by the American Chemical Society and provides a deep, rigorous experience that prepares students for graduate work or a career in chemical industry and related fields. The curriculum offers thorough training in the major fields of chemistry, covering analytical, inorganic, organic, and physical chemistry, as well as biochemistry and chemical biology. Students gain laboratory experience in molecular synthesis and characterization, chemical biology, analytical and instrumental methods, physical chemical measurements and data analysis, and spectroscopy. At the same time, the program requires students to participate in scientific inquiry, via both advanced laboratory experiences and independent research.

Requirements

Degree Requirements

Chemistry Major: Chemical Biology Option (B.S.)

https://www.unh.edu/program/bachelor-science/chemistry-chemical-biology

Description

Chemical Biology is the interdisciplinary study of the chemicals and chemical reactions involved in biological processes, incorporating the disciplines of chemistry, biochemistry, cell biology, and pharmacology. In contrast to biochemistry which is the study of biomolecules within and between cells, chemical biology is concerned with using chemical principles to probe, manipulate, and control biological systems in vitro and in vivo.

The Chemical Biology major option will prepare students for a world where molecular behavior and design are increasingly important for drug design, tissue engineering, biologically based materials, and agriculture. The program also is excellent foundation for pre-professional (e.g. pre-med, pre-dentistry, pre-pharmacy) students.

The option is available as a set of electives drawn from current course offerings in Chemistry, Chemical Engineering, Bioengineering, Biomedical Science, and Biochemistry, Molecular, and Cellular Biology. This BS degree option fulfils the requirements for certification by the American Chemical Society.

Student Learning Outcomes

Program Learning Outcomes

- Recognize that matter consists of atoms that have internal structures that dictate their chemical and physical behavior.
- Recognize that atoms interact via electrostatic forces to form chemical bonds.
- Recognize that chemical compounds have geometric structures that influence their chemical and physical behaviors.
- Recognize that intermolecular forces—electrostatic forces between molecules—dictate the physical behavior of matter.
- Recognize that matter changes, forming products that have new chemical and physical properties
- Recognize that energy is the key currency of chemical reactions in molecular scale systems as well as macroscopic systems.
- Recognize that chemical changes have a time scale over which they occur.
- Recognize that all chemical changes are, in principle, reversible, and chemical processes often reach a state of dynamic equilibrium.
- Recognize that chemistry is generally advanced via experimental observations.
- Recognize that chemistry constructs meaning interchangeably at the particulate and macroscopic levels.
- Employ the concept of chemical identity (how do we identify chemical substances?).
- Employ structure-property relationships (how do we predict the properties of materials?).
- Employ chemical causality (why do chemical processes occur?).
- Employ chemical mechanism (how do chemical processes occur?).
- Employ chemical control (how can we control chemical processes?).
- Employ benefits-costs-risks (how do we evaluate the impacts of chemically transforming matter?).
- Demonstrate ability to ask questions.
- Develop and use models.
- Construct explanations.
- Plan and carry out investigations.
- Engage in argument from evidence.
- Analyze and interpret data.
- Demonstrate mathematical and computational thinking.
- Obtain, evaluate, and communicate information.

Chemistry Minor

https://www.unh.edu/program/minor/chemistry

Description

In this minor, you'll be introduced to the study of chemistry, providing you with the communication, critical-thinking and problem-solving skills

necessary for success in many careers. The chemistry program offers a wide selection of courses in analytical, inorganic, organic and physical chemistry. You'll have the opportunity to participate in a variety of rigorous laboratory experiences and cutting-edge research. Combine the chemistry minor with a major such as business, education, engineering or a health-related field to enhance your options for a career or graduate studies.

If you are interested in completing the Chemistry Minor, please contact Prof. Stacey Hughes, Undergraduate Coordinator, Chemistry Department at Stacey.Hughes@unh.edu. She will review your coursework and discuss your plans to minor in Chemistry.

Requirements

Academic policies related to Minors.

Minor Requirements

1. Complete a total of 20 credit hours in Chemistry (CHEM) courses.
2. A minimum of 12 credit hours at the 500 level or higher are required.
3. Chemistry courses for the minor cannot be completed on a pass/fail basis.
4. Grade of C- or better is required in all chemistry minor coursework.
5. A cumulative GPA of 2.00 is required for all chemistry minor coursework.
6. Biochemistry (BMCB) courses do not count toward a chemistry minor.
7. Transfer credits can only be applied to the minor with permission of the Chemistry Department Undergraduate Coordinator or Chair. Maximum of 8 transfer credit hours. Transfer courses must meet minimum grade requirements.
8. The following courses cannot be counted toward the Chemistry minor: CHEM 400, CHEM 408, CHEM 409, CHEM 411, CHEM 413, CHEM 501, CHEM 502, CHEM 503 and CHEM 798.

Civil and Environmental Engineering

https://ceps.unh.edu/civil-environmental-engineering

Overview

Civil and Environmental Engineering involves the sustainable planning, design, and construction of public works for the benefit of society while minimizing environmental impact. Civil Engineering concerns the design of buildings, bridges, roads, dams, water transmission systems, water treatment systems, tunnels, and more. Environmental Engineering specializes in environmental cleanup, drinking water systems, wastewater treatment systems, and solid and hazardous waste disposal systems, environmental remediation, all with consideration of people, planet, and profits - known as the triple bottom line. Resulting infrastructure facilities must provide efficient service, be cost effective, and be compatible with the environment. Moreover, civil and environmental engineers work under a code of ethics in which their primary, overriding responsibility, is to uphold the public's trust by working to plan, design, build, and restore safe, sustainable, and environmentally responsible public works.

As civil engineering is such a broad field, it is traditionally divided into sub-disciplines. At the University of New Hampshire, multiple courses are offered in six: materials engineering, environmental engineering, geotechnical engineering, structural engineering, sustainable engineering, and water resources engineering.

Environmental engineering focuses on environmental pollution and public health protection; water, wastewater, reuse and stormwater technology; solid and hazardous waste engineering and remediation; engineering sustainability; environmental microbiology and chemistry; contaminant transport and fate, hydraulics, and hydrology.

Students may readily transfer between the BSCIVE and BSENVE programs within the first three semesters. Transferring between the two programs is also possible later on in the programs, but additional courses may result.

Both engineering degrees provide a firm base in mathematics and engineering, and all majors are expected to develop excellent communication and computer skills. Graduates are prepared to enter the profession and to pursue advanced study. Because of the broad technical background attained, some graduates also successfully pursue further education in business, architecture, education, and law.

Mission

The mission of the Department of Civil and Environmental Engineering at the University of New Hampshire is fourfold:

- To pursue and disseminate knowledge through teaching, scholarship, outreach and public service.
- To provide excellent undergraduate and graduate education.
- To advance the state-of-the-art in science and engineering by conducting research.
- To enhance the quality of life for people in New Hampshire, New England, and beyond.

BSCIVE Program Overview

Civil engineers work as private consultants, for large contracting firms, and for government agencies in a wide variety of indoor and outdoor settings around the world. There is a strong and constant market for civil engineers due to the demands placed on the profession to design, construct, maintain, and repair the infrastructure.

Educational Objectives

In accordance with its University, College, and Department missions, the faculty of the Department of Civil & Environmental Engineering has established clear educational objectives for our BSCIVE graduates, five years after obtaining the degree:

1. Professional employment, primarily in the civil and environmental engineering disciplines.
2. Commitment to continuous learning through graduate and post-graduate education, coursework, and research.
3. Being resourceful in finding solutions, and retaining ownership and accountability for their work.
4. Positions of leadership, directing the work of others.
5. Professional licensure or certification in civil and environmental engineering disciplines and other professions.
6. Positions and active participation in community, public, and professional service.

Student Outcomes

To enable our graduates to achieve our educational objectives, the BSCIVE program is designed to provide the following student outcomes at the time of graduation:

1. To have obtained an ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics.
2. To have obtained an ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors.
3. To have obtained an ability to communicate effectively with a range of audiences.
4. To have obtained an ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts.
5. To have obtained an ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives.
6. To have obtained an ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions.
7. To have obtained an ability to acquire and apply new knowledge as needed, using appropriate learning strategies.

BSENVE Program Overview

Environmental engineers work as private consultants, in industry and for government agencies in a wide variety of indoor and outdoor settings around the world. There is a strong and constant market for environmental engineers due to the demands placed on the profession to construct, maintain, and repair the drinking water, wastewater, water reuse and stormwater, and solid and hazardous waste management infrastructure. The curriculum prepares students to plan, using triple bottom line considerations, and design systems to minimize the impact of human activity on the environment and protect human health.

Educational Objectives

In accordance with its University, College, and Department missions, the faculty of the Department of Civil & Environmental Engineering has established clear educational objectives for our BSENVE graduates, five years after obtaining the degree:

1. Professional employment, primarily in the environmental engineering disciplines.

2. Commitment to continuous learning through graduate and post-graduate education, coursework, and research.

3. Being resourceful in finding solutions and retaining ownership and accountability for their work.

4. Positions of leadership, directing the work of others.

5. Professional licensure or certification in environmental engineering discipline and other professions.

6. Positions and active participation in community, public, and professional service.

Student Outcomes

To enable our graduates to achieve our educational objectives, the BSENVE program is designed to provide the following student outcomes at the time of graduation:

1. To have obtained an ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics.
2. To have obtained an ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors.
3. To have obtained an ability to communicate effectively with a range of audiences.
4. To have obtained an ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts.
5. To have obtained an ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives.
6. To have obtained an ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions.
7. To have obtained an ability to acquire and apply new knowledge as needed, using appropriate learning strategies

- Environmental Engineering Major (B.S.) (p. 99)
- Environmental Engineering Minor (p. 102)

Faculty

Civil and Environmental Engineering Department Faculty

Civil Engineering Major (B.S)

https://www.unh.edu/program/bachelor-science/civil-engineering

Description

Matriculating students should have strong aptitudes in mathematics and science along with imagination, spatial and graphic abilities, communication skills, and creativity.

Students follow a four-year program of study. The first two years of the program provide the necessary technical knowledge in mathematics, chemistry, and physics, while introducing and developing problem-solving techniques in eight courses tailored to civil engineering students. The junior year provides courses in each of the civil engineering sub-disciplines, providing students with skills in each and allowing students to determine which they wish to pursue further. The senior year is flexible, allowing students to choose where to focus attention by selecting from more than forty elective courses in civil and environmental engineering.

Additional opportunities exist for study abroad, cognates, minors, and dual majors, a three-year accelerated track, and early admission into two masters of science degree programs.

The Civil Engineering program (B Sci in Civil Engineering) is accredited by the Engineering Accreditation Commission of ABET, https://www.abet.org, under the General Criteria and the Program Criteria for Civil and Similarly Named Engineering Programs.

Requirements

Degree Requirements

Minimum Credit Requirement: 128 credits

Minimum Residency Requirement: 32 credits must be taken at UNH

Minimum GPA: 2.0 required for conferral*

Core Curriculum Required: Discovery & Writing Program Requirements

Foreign Language Requirement: No

All Major, Option and Elective Requirements as indicated.
**Major GPA requirements as indicated.*

Major Requirements

More than half of the major's total credits and nearly all of the senior-level courses are elected by the student. Of these, there are Discovery Program electives required by the University and other electives required by the department in order to satisfy departmental objectives and accreditation requirements.

The Discovery Program is described in University Academic Requirements. Courses required by the BSCIVE program fulfill Discovery requirements in Inquiry and Environment, Technology, and Society; Writing Skills; Quantitative Reasoning; Physical Sciences and Discovery Lab; and Capstone.

To graduate with a bachelor of science in civil engineering, a student must achieve the following: 128 or more credits, credit for the civil engineering program's major and elective courses, satisfaction of the University's Discovery Program requirements, satisfaction of the University's writing-intensive course requirements, a cumulative grade-point average of 2.0 or better for all courses, and a cumulative grade-point average of 2.0 or better in all CEE courses.

CEE Elective		3-4
CEE Elective		3-4
Senior Technical Elective (choose a course from the '700-level CEE Electives Course List' below, CEPS 700-level course, GEOG 757, INCO 795, NR 757, TECH 750, or TECH 780).		3-4
700-Level CEE Electives		
Select courses from the following lists:		
Project-based Design Elective (PDE) Courses		
CEE 749	Pavement Design and Analysis	
CEE 755	Design of Pressurized Water Transmission Systems	
CEE 758	Stormwater Management Designs	
CEE 759	Stream Restoration	
CEE 778	Foundation Design I	
CEE 791	Reinforced Concrete Design	
CEE 793	Structural Design in Steel	
Additional Design Courses		
CEE 719	Green Building Design	
CEE 730	Public Health Engineering for Rural and Developing Communities	
CEE 731	Advanced Water Treatment Processes	
CEE 732	Solid Waste Facility and Remediation System Design	
CEE 779	Foundation Design II	
CEE 789	Timber Design	
CEE 790	Structural Design in Masonry	
CEE 792	Pre-stressed Concrete	
CEE 794	Bridge Design	
Structural Engineering (STR) Area Courses		
CEE 780	Matrix Structural Analysis and Modeling	
CEE 781	Dynamics of Structures	
CEE 789	Timber Design	
CEE 790	Structural Design in Masonry	
CEE 791	Reinforced Concrete Design	
CEE 792	Pre-stressed Concrete	
CEE 793	Structural Design in Steel	
CEE 794	Bridge Design	
Geotechnical Engineering (GEO) Area Courses		
CEE 765	Engineering Behavior of Soils	
CEE 766	Introduction to Geotechnical Earthquake Engineering	
CEE 768	Geo-Environmental Engineering	
CEE 778	Foundation Design I	
CEE 779	Foundation Design II	
Material (MAT) Area Courses		
CEE 733	Public Infrastructure Asset Management	

CEE 735	Properties and Production of Concrete
CEE 736	Asphalt Mixtures and Construction
CEE 749	Pavement Design and Analysis
Water Resources (WAT) Area Courses	
CEE 751	Open Channel Flow
CEE 753	Snow Hydrology
CEE 754	Engineering Hydrology
CEE 755	Design of Pressurized Water Transmission Systems
CEE 758	Stormwater Management Designs
CEE 759	Stream Restoration
Environmental Engineering (ENV) Area Courses	
CEE 720	Waste Management and Site Remediation
CEE 721	Environmental Sampling and Analysis
CEE 722	Introduction to Marine Pollution and Control
CEE 723	Environmental Engineering Chemistry
CEE 724	Environmental Engineering Microbiology
CEE 730	Public Health Engineering for Rural and Developing Communities
CEE 731	Advanced Water Treatment Processes
CEE 732	Solid Waste Facility and Remediation System Design
CEE 768	Geo-Environmental Engineering
Sustainability (SUS) Area Courses	
CEE 706	Environmental Life Cycle Assessment
CEE 719	Green Building Design
CEE 733	Public Infrastructure Asset Management
Additional CEE Elective Courses	
CEE 700	Building Information Modeling
CEE 703	Site Design and Project Development
CEE 704	

Additional Information

To transfer into the BSCIVE major, a student must satisfy the following:

1. Be a CEPS major or have at least 12 credits of graded work at UNH along with Calculus I, and either chemistry or calculus-based physics.
2. Have an overall UNH grade-point average of 2.33 or greater.
3. Have an overall grade-point average of 2.33 or greater in all CEE courses taken to date;
4. Have a grade-point average of 2.33 or greater in courses taken to date at UNH of MATH 425, PHYS 407, CHEM 403 or CHEM 405, CEE 500 or ME 525 ; and CEE 501 or ME 526 .
5. Have a grade-point average of 2.33 or greater in courses taken to date of CEE 500, CEE 501, ME 525, ME 526

At the time of transferring into the BSCIVE program, only CEE 600-level and CEE 700-level classes with a grade of C- or better may be transferred in.

BSCIVE majors wishing to participate in domestic or international exchange programs must achieve a cumulative grade-point average of 2.75 or better in all CEE courses taken to date at the time of application to the exchange program.

To begin taking the required CEE 600-level courses in the junior year, students must meet the following requirements:

1. MATH 425, PHYS 407, CHEM 403 or CHEM 405, CEE 500 or ME 525 ; and CEE 501 or ME 526 must have been completed with passing grades.
2. The student must have a grade-point average of 2.00 or greater in all CEE courses.
3. The student must have a grade-point average of 2.00 or greater in MATH 425, PHYS 407, CHEM 403 or CHEM 405, CEE 500 or ME 525 , and CEE 501 or ME 526 .
4. The student must have a grade-point average of 2.00 or greater in CEE 500 or ME 525 and CEE 501 or ME 526 .

Degree Plan

Sample Degree Plan

This sample degree plan serves as a general guide; students collaborate with their academic advisor to develop a personalized degree plan to meet their academic goals and program requirements.

First Year		
Fall		**Credits**
CEE 400	Introduction to Civil and Environmental Engineering	4
CEE 520	Environmental Pollution and Protection: A Global Context	4
CEE 402	2D Computer Aided Design	3
MATH 418	Analysis and Applications of Functions (if necessary, 0-4 credits)	
Discovery Program requirement [1]		4
	Credits	**15**
Spring		
MATH 425	Calculus I	4
PHYS 407	General Physics I	4
Elective Spatial Metrics [3]		4
ENGL 401	First-Year Writing	4
	Credits	**16**
Second Year		
Fall		
CEE 500	Statics for Civil Engineers	3
CEE 502	Project Engineering	3
MATH 426	Calculus II	4
PHYS 408	General Physics II	4
Discovery Program requirement [1]		4
	Credits	**18**
Spring		
CEE 501	Strength of Materials	3
CEE 505	Introduction to Sustainable Engineering	3
CHEM 405	Chemical Principles for Engineers	4
MATH 527	Differential Equations with Linear Algebra	4
Discovery Program requirement [1]		4
	Credits	**18**
Third Year		
Fall		
CEE 635	Engineering Materials	4
CEE 650	Fluid Mechanics	4
CEE 680	Classical Structural Analysis	3

Spring		
CEE 798	Project Planning and Design	2
Elective Area Elective 3 [3]		3
Elective Area Elective 4 [3]		3
Elective Civil Engineering [3]		3
Elective Senior Technical Elective [3]		3
	Credits	**14**
	Total Credits	**128**

1. A course satisfying one each of the Discovery Program categories of Biological Science, Humanities, Fine and Performing Arts, Historical Perspectives, Social Science and World Cultures, preferably taken in this order. The Discovery Social Science elective must be selected from CEP 415, ECON 401, ECON 402, NR 411, GEOG 582, or POLT 402.
2. Satisfies capstone requirement for Discovery.
3. Approved list available in the CEE office.

Student Learning Outcomes

Program Learning Outcomes

By the time of graduation students have attained:

- an ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics.
- an ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors.
- an ability to communicate effectively with a range of audiences.
- an ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts.
- an ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives.
- an ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions.
- an ability to acquire and apply new knowledge as needed, using appropriate learning strategies.

Environmental Engineering Major (B.S.)

https://www.unh.edu/program/bachelor-science/environmental-engineering

Description

Environmental engineers graduating with a B.S. EnvE degree will plan, design, and construct public and private facilities to minimize the impact of human activity on the environment through sustainable approaches that protect human health. For example, environmental engineers design and build drinking water treatment systems, municipal and industrial wastewater treatment plants, solid waste management facilities, air pollution control systems, contaminated ground water remediation systems, and hazardous waste remediation facilities. These facilities must meet regulatory requirements, be cost effective to build and maintain, be safe to operate, and have minimal environmental impact.

In CEE 400 Introduction to Civil and Environmental Engineering and CEE 420 Environmental Engineering Gateway, students are introduced to the full spectrum of environmental engineering projects that they will subsequently explore in design teams during their degree program. In CEE 505 Introduction to Sustainable Engineering, students learn tools to analyze life cycles and are exposed to global actions for sustainability. In CEE 520 Environmental Pollution and Protection: A Global Context, students tour field sites, and through junior and senior year classes and student organizations (ASCE, EWRI, EWB), they interact with engineers who talk about engineering consulting, environmental policy, and design practices applied to local and global projects. As part of these projects, students:

1. analyze treatment alternatives;
2. recommend a system that meets regulatory operational needs, and is sustainable; and
3. prepare an implementation schedule and project budget.

Students choose elective courses from areas of Sustainability, Water Resources, Environmental Engineering Design, and other relevant topics. Design projects are completed in a minimum of two design electives. In the capstone design experience courses, students work on a multi-disciplinary environmental engineering project and apply skills learned in other courses while working with real-world problems and clients.

The Environmental Engineering program (B Sci in Environmental Engineering) is accredited by the Engineering Accreditation Commission of ABET, https://www.abet.org, under the General Criteria and the Program Criteria for Environmental Engineering and Similarly Named Engineering Programs.

Requirements

Degree Requirements

Minimum Credit Requirement: 130 credits

Minimum Residency Requirement: 32 credits must be taken at UNH

Minimum GPA: 2.0 required for conferral*

Core Curriculum Required: Discovery & Writing Program Requirements

Foreign Language Requirement: No

All Major, Option and Elective Requirements as indicated.
**Major GPA requirements as indicated.*

Major Requirements

To qualify for graduation, an EnvE major must: have satisfied all specified course requirements, have satisfied the University's Academic Requirements, have a minimum cumulative grade-point average of 2.00, and have a minimum grade-point average of 2.00 in engineering courses.

At the end of the sophomore year, students are required to have a minimum overall grade-point average of 2.00 and a minimum grade-point average of 2.00 in CEE 420, MATH 425, CHEM 405, PHYS 407, MATH 426, CEE 500, CEE 520 to be permitted to enroll in junior-level courses.

Several courses required in the curriculum may fulfill both major and Discovery Program requirements as described in footnotes.

For a full listing of the requirements distributed over four years of study please refer to the sample degree plan.

Code	Title	Credits
Required Courses		
CEE 402	2D Computer Aided Design	3
CEE 420	Environmental Engineering Gateway	3
or CEE 400	Introduction to Civil and Environmental Engineering	
CEE 500	Statics for Civil Engineers	3
CEE 502	Project Engineering	3
CEE 505	Introduction to Sustainable Engineering	3

or MATH 539	Introduction to Statistical Analysis	
PHYS 407	General Physics I [1]	4
or PHYS 407H	Honors/General Physics I	
or PHYS 407S	General Physics I Studio	
Capstone Design Experience		
CEE 797	Introduction to Project Planning and Design [1]	2
CEE 798	Project Planning and Design [1]	2

Electives

- *Design and Environmental/Civil Engineering Electives:* four 700-level courses are required, two courses must be Design Electives, with a minimum of 12 total credits.
- *Additional Electives:* One CEE Lab Elective, one Geospatial Elective, one Sustainability Elective, one Public Health Elective and two Water Resources Electives are required.
- Each elective course can only be used to fulfill one category.
- Course lists are subject to change, check with advisor.

Code	Title	Credits
Design Electives or Environmental/Civil Engineering Electives		
CEE 719	Green Building Design	3
CEE 729	Sources, Control, and Stewardship of Air Pollution	4
CEE 730	Public Health Engineering for Rural and Developing Communities	3

CEE Design Elective (1)		3-4
Water Resources Elective		3-4
	Credits	**15-18**
	Total Credits	**130-137**

The Environmental Engineering B.S. program requires a minimum of 130 total credits for graduation.

[1] Students who passed the ALEKS placement examination as determined by the Mathematics Department may enroll in MATH 425 Calculus I. Subsequent MATH courses (MATH 426 Calculus II, MATH 527 Differential Equations with Linear Algebra Differential Equations with Linear Algebra, MATH 644 Statistics for Engineers and Scientists) will be taken one semester earlier than shown here.

[2] Discovery Program requirements are fulfilled with the following courses:

- Writing Skills: ENGL 401 First-Year Writing
- Quantitative Reasoning (QR): MATH 425 Calculus I
- Physical Science (PS): PHYS 407 General Physics I

- Environmental, Technology, and Society (ETS): CEE 520 Environmental Pollution and Protection: A Global Context
- Biological Science (BS): CEE 724 Environmental Engineering Microbiology
- Capstone: CEE 797 Introduction to Project Planning and Design and CEE 798 Project Planning and Design
- Fine and Performing Arts (FPA), Historical Perspectives (HP), Humanities (HUMA), Social Science (SS), and World Cultures (WC): Courses in the EnvE curriculum designated Discovery Electives can be selected from the University's approved Discovery Program courses to fulfill these requirements. One of these electives must have an Inquiry (INQ) attribute.

[3] Approved lists of sustainability, water resources, design and Environmental/Civil electives are available from the EnvE undergraduate coordinator.

[4] MATH 418 does not count toward the minimum required credits for the degree program.

Student Learning Outcomes

Program Learning Outcomes

By the time of graduation students have attained:

- an ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics.
- an ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors.
- an ability to communicate effectively with a range of audiences.
- an ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts.
- an ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives.
- an ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions.
- an ability to acquire and apply new knowledge as needed, using appropriate learning strategies.

Environmental Engineering Minor

https://www.unh.edu/program/minor/environmental-engineering

Description

The environmental engineering minor is intended primarily for students in engineering and physical sciences who are not in the chemical, civil, or environmental engineering degree programs. Students contemplating such a minor should plan on a strong background in the sciences and mathematics (including differential equations).

The minor provides a comprehensive introduction to major areas of interest in environmental protection through the three required courses. Further breadth in environmental engineering or depth in specific areas can be attained through the choice of appropriate elective courses.

Requirements

Academic policies related to Minors.

Credit toward the minor will only be given for courses passed with C- or better, and a 2.00 grade-point average must be maintained in courses for the minor.

The minor requires a minimum of five courses, as follows:

Code	Title	Credits
Required Courses		
CEE 620	One Water Engineering	4
CEE 705		3
CEE 731	Advanced Water Treatment Processes	4
or CEE 721	Environmental Sampling and Analysis	
Electives		
Select a minimum of two elective CEE courses.		

Choice of elective courses should be made in consultation with the minor area advisor. Students normally start this program in the junior year and should declare their intention to enter the program as early as possible during the sophomore year.

Prerequisite courses required to take the courses listed above include CHEM 404 or CHEM 405, PHYS 407 or 407S, MATH 425, CEE 520, CEE 650, and CEE 723.

Computer Science

Undergraduate students may choose from one of seven degree options: the B.S. in Computer Science, which is intended for students interested in the design and implementation of software systems; the B.A. in Computer Science - Algorithms Option, which focuses#on fundamental concepts in the areas of algorithms, artificial intelligence and machine learning; the B.A. in Computer Science - Cybersecurity Option, which is designed for students who are interested in computer and network security; the B.A. in Computer Science - Systems option, which focuses on fundamental concepts in the areas of computing systems and data communication; the B.S. in Information Technology, which focuses on the application of existing computing technologies to meet the information needs of organizations and individual computer users; the B.S. in Analytics, which emphasizes the application of data science in business and industry; or the B.S. in Data Science, which focuses on the theoretical and computational underpinnings of modern data science.

Analytics Major (B.S.)

https://www.unh.edu/program/bachelor-science/analytics

Description

The BS in Analytics is intended for students interested in either heading into industry immediately upon graduation, or pursuing graduate work in a professionally oriented program. The program places its emphasis on applications of data science in business and industry.

Requirements

Degree Requirements

Minimum Credit Requirement: 128 credits

Minimum Residency Requirement: 32 credits must be taken at UNH

Minimum GPA: 2.0 required for conferral*

Core Curriculum Required: Discovery & Writing Program Requirements

Foreign Language Requirement: No

All Major, Option and Elective Requirements as indicated.
**Major GPA requirements as indicated.*

Major Requirements

Successful completion of the degree program includes earning a minimum of 128 credits, meeting the requirements of the University's Discovery Program, completing 25 required courses in the major as listed below, including the capstone courses.

The following courses or their equivalents must be passed with a grade of C- or better in order to meet the Analytics major requirements: CS 415, CS 416 (or CS 417), CS 457, IT 505 (or CS 515), and IT 520 (or CS 420).

Students are expected to demonstrate consistent progress towards the satisfaction of the core degree requirements and are allowed two repeats of the aforementioned courses before being removed from the program. This can be a single class repeated twice or two classes repeated once. Students may petition to be reinstated after one year out of the program.

Transfer students may transfer up to a maximum of 32 credits to satisfy major requirements (not counting those courses used to satisfy Discovery Program requirements).

	Total Credits	**130**

Student Learning Outcomes

Program Learning Outcomes

- Analyze a complex computing problem and to apply principles of computing and other relevant disciplines to identify solutions.
- Design, implement, and evaluate a computing-based solution to meet a given set of computing requirements in the context of the program's discipline.
- Communicate effectively in a variety of professional contexts.
- Recognize professional responsibilities and make informed judgments in computing practice based on legal and ethical principles.
- Function effectively as a member or leader of a team engaged in activities appropriate to the program's discipline.
- Apply theory, techniques, and tools throughout the data analysis lifecycle and employ the resulting knowledge to satisfy stakeholders' needs.

Analytics Minor

https://www.unh.edu/program/minor/analytics

Description

The demand for data-savvy individuals has never been higher, and the analytics minor gives you an introduction to the tools you'll need for a career involving data science and analytics, focused on the application of data science in industry. In addition to courses in mathematics, computer science and analytics, you can study neural networks and big data. Combine this minor with a major in the sciences, computer science, business, marketing or social sciences to bring enhanced skills to your career or graduate studies. With the experience provided by this minor, you'll gain a competitive advantage in this rapidly growing field. The objective of this minor is to provide a basic background in analytics for those interested in applications.

Students interested in the Analytics minor should contact matthew.magnusson@unh.edu for more information.

Requirements

Academic policies related to Minors.

Code	Title	Credits
Required Courses		
CS 415	Introduction to Computer Science I	4
or CS 410C	Introduction to Scientific Programming/C	
or CS 410P	Introduction to Scientific Programming/Python	
CS 457	Introduction to Data Science and Analytics	4
ADMN 401W	Introduction to Responsible Business Management	4
or ECON 401	Principles of Economics (Macro)	
or ECON 402	Principles of Economics (Micro)	
Select one course from the following:		4
CS 674	Fundamentals of Statistical Learning I	
CS 750	Machine Learning	
IT 630	Data Science and Scalable Data Systems	

MATH 738	Data Mining and Predictive Analytics	
Select one course from the following:		4
ADMN 510	Business Analytics and Statistics	
BIOL 528	Applied Biostatistics I	
BUS 430	Introduction to Business Statistics	
MATH 439	Statistical Discovery for Everyone	
MATH 539	Introduction to Statistical Analysis	
MATH 644	Statistics for Engineers and Scientists	
PSYC 402	Statistics in Psychology	
Total Credits		**20**

Artificial Intelligence Minor

https://www.unh.edu/program/minor/artificial-intelligence

Description

The objective of this minor is to provide a basic background for those who have had an introductory programming class and are interested in diving deeper into the foundations of artificial intelligence and machine learning.

Requirements

Academic policies related to Minors.

Code	Title	Credits
Required Courses		
CS 416	Introduction to Computer Science II [1]	4
or CS 417	From Programs to Computer Science	
or CS 419	Computer Science for Engineers and Scientists	
CS 515	Data Structures and Introduction to Algorithms	4
CS 730	Introduction to Artificial Intelligence	4
or CS 750	Machine Learning	
or CS 752	Foundations of Neural Networks	
Electives		
Select two courses from the following:		8
CS 550	Foundations of Machine Learning	
CS 674	Fundamentals of Statistical Learning I	
CS 675	Fundamentals of Statistical Learning II	
CS 730	Introduction to Artificial Intelligence [2]	
CS 733	Mobile Robotics	
CS 750	Machine Learning	
CS 751	Reinforcement Learning	
CS 752	Foundations of Neural Networks	
CS 753	Information Retrieval and Generation Systems	
CS 755	Computer Vision	
CS 757	Mathematical Optimization for Applications	
CS 759	Natural Language Processing	
CS 781	Data Science for Knowledge Graphs and Text	
Total Credits		**20**

1 CS 416 has a prerequisite of CS 415, CS 410C, or CS 410P.
2 Students may select CS 730 Introduction to Artificial Intelligence if not already taken to fulfill a required course.

Computer Programming Cognate

https://www.unh.edu/program/cognate/computer-programming

Description

The Cognate in Programming is designed so that students who wish to go beyond an introductory computer programming course are able to meet the challenges that technology imposes.

This cognate is for UNH students who are interested in acquiring skills beyond just a basic programming language. This cognate would be an alternative to students who are not going to pursue a minor in Computer Science or Information Technology but still want to have the opportunity to partake a coherent, if short, curriculum that gives them a foundation to participate in programming activities as applicable to their technical areas.

The cognate will appear on each student's transcript.

Requirements

Credit toward the cognate will only be given for courses passed with C- or better, and a 2.00 grade-point average must be maintained in courses for the cognate. Courses taken on a pass/fail basis may not be used for the cognate.

Students need to complete a certification of completion of cognate form at the beginning of their final semester.

Code	Title	Credits
Required Course		
IT 403	Introduction to Internet Technologies	4
Select one of the following options:		8
Option A:		
CS 415	Introduction to Computer Science I	
CS 416	Introduction to Computer Science II	
or IT 505	Integrative Programming	
Option B:		
CS 410P	Introduction to Scientific Programming/Python	
or CS 410C	Introduction to Scientific Programming/C	
CS 417	From Programs to Computer Science	
or IT 505	Integrative Programming	
Total Credits		**12**

Computer Science Major (B.S.)

https://www.unh.edu/program/bachelor-science/computer-science

Description

Computer science focuses on problem solving with a particular emphasis on the design of computer-efficient solutions. Within a few years of obtaining a bachelor's degree alumni will have:

1. Engaged in successful careers in diverse areas of software development and will be pursuing advanced education in computer science or related fields;
2. Applied the full range of core computer science concepts and techniques to fill software development needs of an organization;
3. Adapted to changing directions of computing technology and used state-of-the-art techniques to confront new problems effectively;
4. Navigated the complex interconnections between software and the goals and constraints of the organization served;

5. Participated responsibly in the pervasive and changing role of computing technology in global society as both software engineers and citizens;
6. Operated collaboratively in a team environment and assumed leadership roles.

The Bachelor of Science in Computer Science program is accredited by the Computing Accreditation Commission of ABET, under the commission's General Criteria and Program Criteria for Computer Science and Similarly Named Computing Programs.

Requirements

Degree Requirements

Minimum Credit Requirement: 128 credits

Minimum Residency Requirement: 32 credits must be taken at UNH

Minimum GPA: 2.0 required for conferral*

Core Curriculum Required: Discovery & Writing Program Requirements

Foreign Language Requirement: No

All Major, Option and Elective Requirements as indicated.
**Major GPA requirements as indicated.*

Major Requirements

Computer science majors must maintain an overall grade-point average of 2.0 or better in all required computer science, mathematics, and computer engineering courses in order to graduate. If at the end of any semester, including the first, a student's cumulative grade-point average in these courses falls below 2.0, the student may not be allowed to continue as a CS major.

The following courses or their equivalents must be passed with a grade of C- or better in order to meet the CS major requirements: CS 415, CS 416, CS 420, CS 515, CS 520, and IT 403.

Students are expected to demonstrate consistent progress towards the satisfaction of the core degree requirements and are allowed two repeats of the aforementioned courses before being dismissed from the program. This can be a single course repeated twice or two courses repeated once. Students may petition for reinstatement one-year after program dismissal.

If a student wishing to transfer into the computer science major has any coursework that is applicable to the major, the grades in those courses must satisfy the minimum grade requirements for the B.S. degree in computer science. The student must have an overall grade-point average of 2.0 or better in all courses taken at the university.

Computer science majors must complete the following coursework in computer science, mathematics, computer engineering, and science. (all courses are 4 credits unless indicated otherwise):

Code	Title	Credits
Computer Science Courses		
CS 400	Introduction to Computing	2
CS 415	Introduction to Computer Science I	4
or CS 410C	Introduction to Scientific Programming/C	
or CS 410P	Introduction to Scientific Programming/Python	
CS 416	Introduction to Computer Science II	4
CS 420	Foundations of Programming for Digital Systems	4
IT 403	Introduction to Internet Technologies	4
CS 501	Professional Ethics and Communication in Technology-related Fields	4
CS 515	Data Structures and Introduction to Algorithms	4
CS 518	Introduction to Software Engineering	4

Discovery (7): Historical Perspectives, Humanities, Fine and Performing Arts, Social Science, World Cultures, Physical Science Discovery Lab, Biological Science Discovery Lab with ONE mandatory course with Writing Intensive (WI) attribute

Student Learning Outcomes

Graduates of the UNH BS CS program will have an ability to:

- Analyze a complex computing problem and apply principles of computing and other relevant disciplines to identify solutions.
- Design, implement, and evaluate a computing-based solution to meet a given set of computing requirements in the context of the program's discipline.
- Communicate effectively in a variety of professional contexts.
- Recognize professional responsibilities and make informed judgments in computing practice based on legal and ethical principles.
- Function effectively as a member or leader of a team engaged in activities appropriate to the program's discipline.
- Apply computer science theory and software development fundamentals to produce computing-based solutions.
- Learn independently about new technologies, and develop the skills needed to understand them.

Computer Science Major: Artificial Intelligence Option (B.A.)

https://www.unh.edu/program/bachelor-arts/computer-science-artificial-intelligence

Description

The B.A. in Computer Science will allow students to combine the study of computer science with the study of another field. Given the emergence of computational approaches to virtually all areas of scholarship and creative expression, it is important to offer this flexibility. The three tracks in the B.A. program contain the same computer science core as the B.S. program, but give more control to the student to choose the complementary and advanced courses.

Requirements

Degree Requirements

Minimum Credit Requirement: 128 credits

Minimum Residency Requirement: 32 credits must be taken at UNH

Minimum GPA: 2.0 required for conferral*

Core Curriculum Required: Discovery & Writing Program Requirements

Discovery (7): Historical Perspectives, Humanities, Fine and Performing Arts, Social Science, World Cultures, Physical Science Discovery Lab, Biological Science Discovery Lab.

Two Discovery or General Elective courses must have the Writing Intensive (WI) attribute.

Student Learning Outcomes

Program Learning Outcomes

Graduates of the UNH B.A. CS programs will have an ability to:

- Analyze a complex computing problem and to apply principles of computing and other relevant disciplines to identify solutions.
- Design, implement, and evaluate a computing-based solution to meet a given set of computing requirements in the context of the program's discipline.
- Communicate effectively in a variety of professional contexts.
- Recognize professional responsibilities and make informed judgments in computing practice based on legal and ethical principles.
- Function effectively as a member or leader of a team engaged in activities appropriate to the program's discipline.
- Apply computer science theory and software development fundamentals to produce computing-based solutions.
- Learn independently about new technologies, and have the skills needed to understand them.

Computer Science Major: Systems Option (B.A.)

https://www.unh.edu/program/bachelor-arts/computer-science-systems

Description

The B.A. in Computer Science will allow students to combine the study of computer science with the study of another field. Given the emergence of computational approaches to virtually all areas of scholarship and creative expression, it is important to offer this flexibility. The three tracks in the B.A. program contain the same computer science core as the B.S. program, but give more control to the student to choose the complementary and advanced courses.

Requirements

Degree Requirements

Minimum Credit Requirement: 128 credits

Minimum Residency Requirement: 32 credits must be taken at UNH

Minimum GPA: 2.0 required for conferral*

Core Curriculum Required: Discovery & Writing Program Requirements

Foreign Language Requirement: Yes

All Major, Option and Elective Requirements as indicated.
**Major GPA requirements as indicated.*

Major Requirements

Computer science majors must maintain an overall grade-point average of 2.0 or better in all required computer science, mathematics, and computer engineering courses in order to graduate. If at the end of any semester, including the first, a student's cumulative grade-point average in these courses falls below 2.0, the student may not be allowed to continue as a CS major.

The following courses or their equivalents must be completed with a grade of C- or better in order to meet the CS major requirements: CS 415, CS 416, CS 420, CS 515, CS 520, and IT 403.

Students are expected to demonstrate consistent progress towards the satisfaction of the core degree requirements and are allowed two repeats of the aforementioned courses before being subject to removal from the program. This can be a single class repeated twice or two classes repeated once. Students may petition to be reinstated after a one-year absence from the program.

If a student wishing to transfer into the computer science major has any coursework that is applicable to the major, the grades in those courses must satisfy the minimum grade requirements for the B.S. degree in computer science. The student must have an overall grade-point average of 2.0 or better in all courses taken at the university.

Computer Science Minor

https://www.unh.edu/program/minor/computer-science

Description

The minor in computer science is designed for students in other majors who want to learn the fundamentals of designing and implementing computer software.

Students interested in the Computer Science minor should contact Arvind.Narayan@unh.edu for more information.

Requirements

Academic policies related to Minors.

Code	Title	Credits
Requirements		
CS 415	Introduction to Computer Science I	4
or CS 410C	Introduction to Scientific Programming/C	
or CS 410P	Introduction to Scientific Programming/Python	
CS 416	Introduction to Computer Science II	4
or CS 417	From Programs to Computer Science	
CS 420	Foundations of Programming for Digital Systems	4
CS 515	Data Structures and Introduction to Algorithms	4
Other Courses		
Select one of the following:		4
CS 619	Introduction to Object-Oriented Design and Development	
CS 520	Computer Organization and System-Level Programming	
CS 620	Operating System Fundamentals	
CS 659	Introduction to the Theory of Computation [1]	
CS 761	Programming Language Concepts and Features	
An approved CS 700-level course		

[1] CS 659 Introduction to the Theory of Computation has mathematics prerequisites: MATH 425 Calculus I, MATH 426 Calculus II, and MATH 531 Mathematical Proof.

Cybersecurity Minor

https://www.unh.edu/program/minor/cybersecurity

Description

The cybersecurity minor is designed to teach students about the risks faced by the software and hardware that they use every day, and learn how to protect themselves in an increasingly-hostile digital world. Technology has become a critical component of nearly every aspect of our lives, and this minor lets students work with the tools and techniques used by security professionals to both attack and defend these systems.

Requirements

Academic policies related to Minors.

Credit toward the minor will only be given for courses passed with C- or better, and a 2.00 grade-point average must be maintained in courses for the minor.

This minor may not be declared with the following majors:

- Computer Science Major: Cybersecurity Option (B.A.)
- Information Technology Major (B.S.)

Code	Title	Credits
Required Courses		
CS 400	Introduction to Computing	2
CS 415	Introduction to Computer Science I	4
or CS 410C	Introduction to Scientific Programming/C	
or CS 410P	Introduction to Scientific Programming/Python	
CS 527	Fundamentals of Cybersecurity	4
IT 666	Cybersecurity Practices	4
Electives		
Select two courses from the following:		8
CS 420	Foundations of Programming for Digital Systems	
CS 520	Computer Organization and System-Level Programming	
CS 727	Software Security	
IT 520	Foundations of Information Technology	
IT 718	Cloud Computing Principles	
HLS 410	Introduction to Homeland Security	
HLS 415	Fundamentals of Corporate Security	
HLS 455	Introduction to Cybersecurity	
HLS 515	Critical Infrastructure Security and Resilience	
BIOL 420	Introduction to Forensic Sciences	
JUST 405	Technology, Crime, and Society: A Forensic Exploration of High-Tech and Digital Crime	
Total Credits		**22**

Data Science Major (B.S.)

https://www.unh.edu/program/bachelor-science/data-science

Description

The BS in Data Science is intended for students interested in pursuing advanced degrees and conducting original research in data science. The program places its emphasis on a rigorous introduction to the theoretical mathematical and computational underpinnings of modern data science.

Requirements

Degree Requirements

Minimum Credit Requirement: 128 credits

Minimum Residency Requirement: 32 credits must be taken at UNH

Minimum GPA: 2.0 required for conferral*

Core Curriculum Required: Discovery & Writing Program Requirements

Foreign Language Requirement: No

All Major, Option and Elective Requirements as indicated.
**Major GPA requirements as indicated.*

Major Requirements

Successful completion of the degree program includes earning a minimum of 128 credits, meeting the requirements of the University's Discovery Program, completing all of the 20 required courses in the major as listed below, capstone course, and a minor approved by the advisor.

The following courses or their equivalents must be passed with a grade of C- or better in order to meet the Data Science major requirements: CS 415, CS 416, CS 420, CS 457,and CS 515.

Students are expected to demonstrate consistent progress towards the satisfaction of the core degree requirements and are allowed two repeats of the aforementioned courses before being removed from the program. This can be a single class repeated twice or two classes repeated once. Students may petition to be reinstated after one year out of the program.

Transfer students may transfer up to a maximum of 32 credits to satisfy major requirements (not counting those courses used to satisfy Discovery requirements).

Code	Title	Credits

Total Credits		**20**

Information Technology Cognate

https://www.unh.edu/program/cognate/information-technology

Description

The Toolbox Cognate in Information Technology is designed to provide students with knowledge and skills required by essentially any job today.

With introductory level options, including courses from outside the department, the cognate is of value to students who wish to get a firm foundation in areas related to computing and information technology. The cognate also gives students considering study of Information Technology or Computer Science an opportunity to sample a broad range of courses in the field.

The cognate will appear on each student's transcript.

Requirements

Credit toward the cognate will only be given for courses passed with C- or better, and a 2.00 grade-point average must be maintained in courses for the cognate. Courses taken on a pass/fail basis may not be used for the cognate.

Students submit a cognate certificate of completion form at the beginning of their final semester.

The cognate consists of selecting three courses (12 credits total) from the below. No more than two courses may be taken from the same category. Note: some courses may have prerequisites.

Code	Title	Credits

Information Technology Major (B.S.)

https://www.unh.edu/program/bachelor-science/information-technology

Description

Information technology is concerned primarily with the application of existing computing technologies to the information needs of organizations and individual computer users. The IT program aims to provide graduates with the skills and knowledge to take on appropriate professional positions in information technology upon graduation and grow into leadership positions in the field. Potential careers include network administrator, database developer, system administrator, and webmaster.

The educational objectives of the B.S. Information Technology program are to:

1. Apply the full range of core IT concepts and techniques to fill the IT needs of an organization and be prepared to assume managerial and other advanced responsibilities,
2. Confront new problems effectively and anticipate the changing directions of technology,
3. Communicate effectively with diverse stakeholders as well as function appropriately in a team environment,
4. Navigate within the complex relationships between IT and larger organizational goals, and
5. Understand the pervasive and changing role of computing technology in global society, and participate responsibly as both IT professional and citizen.

The Bachelor of Science in Information Technology program is accredited by the Computing Accreditation Commission of ABET, under the commission's General Criteria and Program Criteria for Information Technology and Similarly Named Computing Programs.

Requirements

Degree Requirements

Minimum Credit Requirement: 128 credits

Minimum Residency Requirement: 32 credits must be taken at UNH

Minimum GPA: 2.0 required for conferral*

Core Curriculum Required: Discovery & Writing Program Requirements

Foreign Language Requirement: No

All Major, Option and Elective Requirements as indicated.
**Major GPA requirements as indicated.*

Major Requirements

Information technology majors must maintain an overall grade-point average of 2.0 or better in all required information technology and computer science required courses in order to graduate. If at the end of any semester, including the first, a student's cumulative grade-point average in these courses falls below 2.0, the student may not be allowed to continue as an IT major. The following courses or their equivalents must be passed with a grade of C- or better in order to meet the IT major requirements: CS 415, CS 417, IT 403, IT 505, and IT 520.

Students are expected to demonstrate consistent progress towards the satisfaction of the core degree requirements and are allowed two repeats of the aforementioned courses before being removed from the program. This can be a single class repeated twice or two classes repeated once. Students may petition to be reinstated after one year out of the program.

If a student wishing to transfer into the Information Technology major has any coursework that is applicable to the major, the grades in those courses must satisfy the minimum grade requirements for the B.S. degree in Information Technology. The student must have an overall grade-point average of 2.0 or better in all courses taken at the University.

In addition to the core IT requirements, each student must complete a complementary set of courses in a particular domain outside of IT to which the student's IT skills can be applied. This set of courses can be completed in one of the following ways: (1) An approved minor; or (2) A second major or UNH dual degree. *A list of preapproved minors is available from the CS Department and requires at least (5) courses to complete.*

Student Learning Outcomes

Students will be able to:

- Analyze a complex computing problem and apply principles of computing and other relevant disciplines to identify solutions.
- Design, implement, and evaluate a computing-based solution to meet a given set of computing requirements in the context of the program's discipline.
- Communicate effectively in a variety of professional contexts.
- Recognize professional responsibilities and make informed judgments in computing practice based on legal and ethical principles.
- Function effectively as a member or leader of a team engaged in activities appropriate to the program's discipline.
- Use systemic approaches to select, develop, apply, integrate, and administer secure computing technologies to accomplish user goals.
- Self-learning skills, exposure to technologies new to the students, practice in understanding those technologies on their own.

Information Technology Minor

https://www.unh.edu/program/minor/information-technology

Description

The information technology (IT) minor is a way for students in non-technical majors to bridge the gap between a primarily non-technical education and a technical world. Graduates from a variety of fields are discovering that there is a great need to have computer competency in addition to the knowledge they gain in their major; the IT minor, which is tailored to grow students' understanding of computer and information technology applications, helps prepare students for the future.

For additional information regarding the IT minor, please contact Michael.Gildersleeve@unh.edu.

Earth Sciences

Earth sciences are vital to understanding our dynamic Earth, ocean, and atmosphere; our changing climate; and how to create a sustainable future. The Department of Earth Sciences offers three majors: the B.S. Earth Sciences, with specializations in Geosciences and Ocean Sciences, the B.S. Environmental Sciences: Earth Systems option, and the B.A. Earth and Environmental Sciences. All of our degree programs provide a strong concentration in Earth sciences that is built upon a solid foundation in mathematics and the physical sciences.

All of our undergraduate degrees are especially well-suited for students who wish to work in the environmental and geosciences industries, energy sector and climate technologies, teaching at the secondary level, state and federal environmental agencies, or to pursue graduate studies in the Earth, environmental, and climate sciences, oceanography, and related fields of study. Students are encouraged to participate in research, field, lab, or internship opportunities to round out their experiences in the degree program.

In addition to the B.S. and B.A. degrees, the Department of Earth Sciences also offers three minors: Earth and Environmental Sciences, Climate Science, and Ocean Sciences.

Descriptions and requirements for the majors and minors are arranged alphabetically.

https://ceps.unh.edu/earth-sciences

Programs

- Climate Science Minor (p. 119)
- Earth and Environmental Sciences Major (B.A.) (p. 119)
- Earth and Environmental Sciences Minor (p. 122)
- Earth Sciences Major (B.S.) (p. 122)
- Environmental Sciences Major: Earth Systems Option (B.S.) (p. 126)
- Ocean Sciences Minor (p. 128)

Climate Science Minor

https://www.unh.edu/program/minor/climate-science

Description

The Department of Earth Sciences offers a minor in Climate Science available to all University students. The Climate Science minor provides an opportunity for students to complement their major field of study with foundational knowledge and essential skills in Climate Science.

Students interested in the Climate Science minor should contact rosemarie.came@unh.edu for more information.

Requirements

Code	Title	Credits
Required Courses		
ESCI 401	Dynamic Earth	4
or ESCI 402	Earth History	
or ESCI 405	Global Environmental Change	
or ESCI 409	Geology and the Environment	
or ESCI 501	Introduction to Oceanography	
ESCI 514	Introduction to Climate	3
Climate and Society Course		
Complete one approved 500/600 level course. Suggested courses include: [1]		4
SOC 565	Environment and Society	
SOC 665	Environmental Sociology	
SOC 693	Global Change and Social Sustainability	
GEOG 405	There Is No Planet B	
GEOG 473	Elements of Weather	
GEOG 574	Global Landscapes and Environmental Processes	
CEE 520	Environmental Pollution and Protection: A Global Context	
Quantitative/Statistics Course		
Select one course from the following:		4
ESCI 701	Quantitative Methods in Earth Sciences	
ESCI 764	Spectral Analysis of Geophysical Time Series Data	
MATH 539	Introduction to Statistical Analysis	
BIOL 528	Applied Biostatistics I	
CS 457	Introduction to Data Science and Analytics	
PSYC 402	Statistics in Psychology	
SOC 402	Statistics	
HMP 540	Statistics for Health and Human Service Professionals	
ADMN 510	Business Analytics and Statistics	
ESCI Climate Science Course		
Select one course from the following:		3-4
ESCI 561	Landscape Evolution	
ESCI 642	Biogeosciences in the Earth System	
ESCI 705	Principles of Hydrology	
ESCI 758	Introductory Physical Oceanography	
ESCI 760	Paleoceanography	
ESCI 765	Paleoclimatology	
ESCI 777	GIS for Earth & Environmental Sciences	
ESCI 778	Remote Sensing Earth & Environmental Sciences	
Total Credits		**18-19**

[1] The course meeting the climate and society requirement should be selected in consultation with the Climate Science Minor advisor.

Student Learning Outcomes

Program Learning Outcomes

- Understand the broad attributes of and interactions within the Earth System.
- Describe the history of Earth's climate, how and why the climate is changing today, and how those changes impact society.
- Perform simple statistical calculations to process and evaluate quantitative climate science data.
- Summarize, analyze, and evaluate the primary climate sciences literature.

Earth and Environmental Sciences Major (B.A.)

https://www.unh.edu/program/bachelor-arts/earth-environmental-sciences

Description

The Bachelor of Arts degree in the Department of Earth Sciences provides students an opportunity to obtain a broad education and a general background in the Earth sciences with a greater degree of freedom in choosing electives than in the B.S. programs. This B.A. degree nicely complements other majors and minors and by careful choice of electives, students can prepare for graduate or professional school and careers in education, resource management and sustainability, environmental consulting, government, business, the non-profit sector, and public service.

Requirements

Degree Requirements

Minimum Credit Requirement: 128 credits

Minimum Residency Requirement: 32 credits must be taken at UNH

Minimum GPA: 2.0 required for conferral*

Core Curriculum Required: Discovery & Writing Program Requirements

Foreign Language Requirement: Yes

All Major, Option and Elective Requirements as indicated.

**Major GPA requirements as indicated.*

Major Requirements

A minimum grade of C- is required in major coursework.

Professional Development		
ESCI 400	First-year Experience	1
ESCI 690	Capstone & Professional Development	1
Capstone Experience		
See below list of suggested capstone experiences		
Total Credits		**70-74**

1. The following courses cannot be taken to fulfill Discovery Program requirements for majors in the Department of Earth Science: ESCI 401, ESCI 402, ESCI 405, ESCI 409, ESCI 420, ESCI 501.
2. Recommended Earth Sciences courses include ESCI 530 Geological Field Methods or ESCI 534 Techniques in Environmental Sciences.
3. ESCI course numbered at/above 514, or NR course numbered at/above 501, or GEOG 560, GEOG 572, GEOG 574, GEOG 670.
4. Other recommended science courses include: CHEM 404, PHYS 407 & PHYS 408 or PHYS 401 & PHYS 402, second semester Biology BIOL 411 or BIOL 412.
5. A minor, second or dual major, additional foundational or Earth Sciences courses should be considered.

It is strongly advised that students complete, as early as possible, a year each of college chemistry and physics.

Capstone Experience

A capstone experience is required of all undergraduate Earth sciences majors during their senior year. All capstone experiences at UNH must meet one or more of the following criteria:

1. The capstone synthesizes and applies disciplinary knowledge and skills.
2. The capstone fosters reflection on undergraduate learning and experience.
3. The capstone demonstrates emerging professional competencies.
4. The capstone applies, analyzes, and/or interprets research or data or artistic expression.
5. The capstone explores areas of interest based on the integration of prior learning.

Suggested ways of meeting the capstone requirement in the Department of Earth Sciences include: approved INCO 790 Advanced Research Experience, ESCI 795 Topics/ESCI 796 Topics field courses, ESCI 799 Senior Thesis, URA/SURF/IROP projects, internships, environmental/geologic field camps, REU programs, or Earth Sciences education and outreach activities designed according to the above criteria.

Capstone experiences must be equivalent to a minimum of 2 academic credits. Students should work closely with their faculty advisors to define the most appropriate capstone experience for their Earth Sciences degree program, although the capstone mentor can be someone other than their primary faculty advisor. All capstone experiences must be approved and certified by the faculty advisor and the capstone mentor. Presentation of projects or experiences developed for the capstone is encouraged at the annual UNH Undergraduate Research Conference or other appropriate venue.

B.A. Foreign Language Proficiency Requirement

The Bachelor of Arts degree requires proficiency in a foreign language. This requirement may be fulfilled by completing the equivalent of a full-year elementary-level course in a language not previously studied, or by completing the equivalent of a semester of a course in a foreign language at the intermediate or higher level, or by earning credit through an approved Advanced Placement or College Board foreign language achievement test (minimum scores vary). The proficiency in a foreign language requirement must be satisfied by the end of the sophomore year. No credit is awarded for elementary year college coursework if the student has had two or more years of that language in high school. It is strongly advised that students check with academic departments or academic centers to identify department-advised specific foreign language proficiency options.

A Student with a documented disability who wishes accommodation on the basis that the disability will prevent them from successfully mastering a foreign language requirement, or whose foreign language requirement was waived in high school because of a documented disability, must contact Student Accessibility Services, Smith Hall, (603) 862-2607 (Voice/TDD).

Degree Plan

Sample Degree Plan

This sample degree plan serves as a general guide; students collaborate with their academic advisor to develop a personalized degree plan to meet their academic goals and program requirements.

First Year		
Fall		**Credits**
ESCI 400	First-year Experience	1
ESCI 401 or ESCI 409	Dynamic Earth or Geology and the Environment	4

MATH 425	Calculus I	4
CHEM 403	General Chemistry I	4
ENGL 401	First-Year Writing (or transfer or AP credit)	4
	Credits	**17**
Spring		
ESCI 402 or ESCI 405 or ESCI 420 or ESCI 501 or NR 403	Earth History or Global Environmental Change or Our Solar System or Introduction to Oceanography or Introduction to Environmental Science	4
MATH 426 or MATH 539 or BIOL 528 or CS 457	Calculus II or Introduction to Statistical Analysis or Applied Biostatistics I or Introduction to Data Science and Analytics	4
CHEM 404	General Chemistry II (strongly recommended science elective)	4
Inquiry Discovery Course [1]		4
	Credits	**16**
Second Year		
Fall		
ESCI 561	Landscape Evolution	4
ESCI ___		3-4
Foreign Language [3]		4
BIOL 41X		4
	Credits	**15-16**

ESCI 512 or NR 501	Principles of Mineralogy or Studio Soils	4
Discovery Course [1]		4
Foreign Language [3]		4
Discovery Course [1]		4
	Credits	**16**
Third Year		
Fall		
PHYS 407	General Physics I (or 2nd major/minor or PHYS 401 strongly recommended)	4
ESCI ___ (number >512)		3-4
Open Elective [4]		4
Discovery Course [1]		4
	Credits	**15-16**
Spring		
ESCI 690	Capstone & Professional Development	1
PHYS 408 or PHYS 402 or BIOL 412	General Physics II (recommended science elective) or Introduction to Physics II or Introductory Biology: Evolution, Biodiversity and Ecology	4
Open Elective [4]		4
Open Elective [4]		4
Discovery Course [1]		4
	Credits	**17**
Fourth Year		
Fall		
ESCI 7__		4
Open Elective [4]		4
Open Elective [4]		4
Discovery Course [1]		4
	Credits	**16**
Spring		
ESCI 7__		4
Open Elective [4]		4
Open Elective [4]		4
Senior Capstone		4
	Credits	**16**
	Total Credits	**128-130**

1 One course must be taken in each of the remaining Disciplinary Groups of the University Discovery Program (Biological Sciences; Environment Technology & Society; Historical Perspectives; World Culture; Fine & Performing Arts; Social Science; Humanities).

2 Three math/science electives must be approved in consultation with departmental advisor. These are typically in the fields of mathematics, chemistry, physics, and biology. Students considering graduate school or licensure as a Professional Geologist should take MATH 426 Calculus II, CHEM 404 General Chemistry II, along with either PHYS 407 General Physics I and PHYS 408 General Physics II, or BIOL 411 Introductory Biology: Molecular and Cellular and BIOL 412 Introductory Biology: Evolution, Biodiversity and Ecology.

3 The Bachelor of Arts degree requires proficiency in a foreign language. This requirement may be fulfilled by completing the equivalent of a full-year elementary-level course in a language not previously studied, or by completing the equivalent of a semester of a course in a foreign language at the intermediate or higher level, or by earning credit through an approved Advanced Placement or College Board foreign language achievement test (minimum scores vary). The proficiency in a foreign language requirement must be satisfied by the end of the sophomore year. No credit is awarded for elementary year college coursework if the student has had two or more years of that language in high school. It is strongly advised that students check with academic departments or academic centers to identify department-advised specific foreign language proficiency options.
A Student with a documented disability who wishes accommodation on the basis that the disability will prevent them from successfully mastering a foreign language requirement, or whose foreign language requirement was waived in high school because of a documented disability, must contact Student Accessibility Services, Smith Hall, (603) 862-2607 (Voice/TDD).

4 Students should consider additional courses in Earth Sciences and other science and math courses.

Student Learning Outcomes

Program Learning Outcomes

Students graduating with a B.A. in Earth and Environmental Sciences should achieve the following learning outcomes:

- Demonstrate a broad understanding of Earth systems and their interactions, as well as their geologic and climatic history, how

and why these are changing today, and how these changes impact society.

- Recognize and understand common Earth materials, geologic structures, dynamics, processes, and cycles.
- Perform calculations and apply computational methods to process and evaluate a range of quantitative Earth and environmental science data.
- Become proficient in basic geological and Earth science laboratory and field techniques.
- Effectively communicate results of scientific inquiries orally, visually, and in writing.

Earth and Environmental Sciences Minor

https://www.unh.edu/program/minor/earth-environmental-sciences

Description

The Department of Earth Sciences offers a minor in Earth and Environmental Sciences that provides a broad foundation and essential skills to complement other majors and prepare students to pursue a wide range of careers that require an understanding of Earth processes and management of natural resources. Students in this minor are able to choose from a broad range of courses to accommodate their specific Earth and environmental science interests.

Students interested in the Earth and Environmental Sciences minor should contact matt.davis@unh.edu for more information.

Requirements

Academic policies related to Minors.

The Earth and Environmental Sciences minor typically is completed with five ESCI courses and may include research credits supervised by an Earth Sciences faculty member.

- Courses in the Earth and Environmental Sciences minor must include both introductory and more advanced ESCI courses.
- Strongly recommended introductory courses include ESCI 401 Dynamic Earth or ESCI 409 Geology and the Environment (students may not receive credit for both ESCI 401 and ESCI 409) and ESCI 402 Earth History.
- More advanced courses must include at least one at the 600 or 700 level.
- Specific courses in the program are selected in consultation with a minor advisor in the Department of Earth Sciences, with flexibility in approved courses to accommodate interests in different aspects of the geosciences.

Approved courses for the minor in Earth and Environmental Sciences

Earth Sciences Major (B.S.)

https://www.unh.edu/program/bachelor-science/earth-sciences

Description

The Bachelor of Science degree in the Department of Earth Sciences has two specializations: Geosciences and Ocean Sciences. The Geosciences specialization is designed for students interested in studying Earth processes recorded in geological, geophysical and geochemical observations and measurements at a range of time and spatial scales. The Ocean Sciences specialization focuses on the interconnected physics, chemistry, biology, and geology of the modern and ancient global oceans. This major is well suited for students who desire a strong concentration in the Earth sciences built upon a broad foundation in mathematics and the physical sciences and immersion in intermediate and advanced coursework to solve problems and advance our understanding of Earth processes. The Earth Sciences degree prepares students for work in the environmental, marine, and geosciences industries, energy sector and climate technologies, teaching at the secondary level, state and federal agencies, graduate studies in

the Earth sciences, oceanography, and related fields of study, and other careers in the Earth sciences and beyond.

Requirements

*Capstone Experience

A capstone experience is required of all undergraduate Earth sciences majors during their senior year. All capstone experiences at UNH must meet one or more of the following criteria:

1. The capstone synthesizes and applies disciplinary knowledge and skills.
2. The capstone fosters reflection on undergraduate learning and experience.
3. The capstone demonstrates emerging professional competencies.
4. The capstone applies, analyzes, and/or interprets research or data or artistic expression.
5. The capstone explores areas of interest based on the integration of prior learning.

Suggested ways of meeting the capstone requirement in the Department of Earth Sciences include approved INCO 790 Advanced Research Experience, ESCI 795 Topics/ESCI 796 Topics, ESCI 799 Senior Thesis, URA/SURF/IROP projects, internships, environmental/geologic field camps, REU programs, or Earth Sciences education and outreach activities designed according to the above criteria. Capstone experiences must be equivalent to a minimum of 2 academic credits. Students should work closely with their faculty advisors to define the most appropriate capstone experience for their Earth Sciences degree program, although the capstone mentor can be someone other than their primary faculty advisor. All capstone experiences must be approved and certified by the faculty advisor and the capstone mentor. Presentation of projects or

experiences developed for the capstone is encouraged at the annual UNH Undergraduate Research Conference or other appropriate venue.

[2] Three science electives must completed from approved list.

Student Learning Outcomes

Program Learning Outcomes

Students graduating with a B.S. in Earth Sciences should achieve the following learning outcomes:

- Demonstrate a broad understanding of Earth systems and their interactions, as well as their geologic and climate history, how and why these are changing today, and how these changes impact society.
- Recognize and understand common Earth materials, geologic structures, dynamics, processes, and cycles
- Perform calculations and apply computational methods to process and evaluate a range of quantitative Earth sciences data.
- Become proficient in basic geological and Earth science laboratory and field techniques.
- Summarize, analyze, evaluate, and explain/present student-generated scientific data and the primary Earth sciences literature.
- Effectively communicate results of scientific inquiries orally, visually, and in writing.

Environmental Sciences Major: Earth Systems Option (B.S.)

https://www.unh.edu/program/bachelor-science/environmental-sciences-earth-systems

Description

The College of Engineering and Physical Sciences (CEPS) and the College of Life Science and Agriculture (COLSA) jointly offer a Bachelor of Science degree in environmental sciences. Environmental sciences, an interdisciplinary field, focuses on the interaction of biological, chemical, and physical processes that shape our natural environment. Students graduating with a degree in environmental sciences will have an understanding of these interacting processes, the ability to communicate effectively with both scientific and lay audiences, competency in field methods appropriate for entry-level environmental science positions, competency in the use and application of Geographic Information Systems (GIS), a basic understanding of environmental policy, and the ability to contribute to multidisciplinary teams. The University of New Hampshire is a recognized leader in environmental sciences research, and the environmental sciences program capitalizes on faculty expertise in this area. The full-time faculty members comprising this program have major teaching and research emphases in the areas of biogeochemical cycling, environmental chemistry, ecosystem science, geospatial science, global change, hydrology, plant ecology, soil science, and water resource management.

Employment opportunities include environmental consulting firms, educational facilities (e.g., science centers), environmental monitoring laboratories (e.g., water treatment plants; the Environmental Protection Agency), government agencies (e.g., the U.S. Geological Survey, Bureau of Land Management, Natural Resource Conservation Service), university and government research laboratories, and nongovernment environmental organizations. The environmental sciences program also constitutes an excellent preparation for graduate programs in several areas relating to the environment. Students should consult with their adviser early if their goals include further study.

The Program has 3 options, and specific course requirements for the major vary by option. The Earth Systems option is managed by the Department of Earth Sciences in CEPS, and the Ecosystems and Soils and Watersheds options are both managed by the Department of Natural Resources and the Environment in COLSA. The Earth Systems option provides students with a solid grounding in quantitative reasoning, with an emphasis on geochemical, hydrologic, and geospatial systems.

Requirements

Degree Requirements

Minimum Credit Requirement: 128 credits

Minimum Residency Requirement: 32 credits must be taken at UNH

Minimum GPA: 2.0 required for conferral*

Core Curriculum Required: Discovery & Writing Program Requirements

Foreign Language Requirement: No

All Major, Option and Elective Requirements as indicated.
**Major GPA requirements as indicated.*

Major Requirements

In addition to the Discovery Program and University writing requirements, all students complete introductory courses, and foundation courses that include introductions to biology, physics, chemistry, geology, calculus, and statistics. Students must complete additional courses for the Earth Systems option, including at least four courses at the 700-level.

Code	Title	Credits
Required Courses		
Foundation		
MATH 425	Calculus I	4
or MATH 425H	Honors/Calculus I	
MATH 426	Calculus II	4
or MATH 426H	Honors/Calculus II	
CHEM 403 & CHEM 404	General Chemistry I and General Chemistry II	4-8
or CHEM 405	Chemical Principles for Engineers

or ESCI 402	Earth History	
or ESCI 409	Geology and the Environment	
ESCI 561	Landscape Evolution	4
ESCI 512	Principles of Mineralogy	4

or NR 501	Studio Soils	
ESCI 642	Biogeosciences in the Earth System	3-4
or ESCI 654	Fate and Transport in the Environment	
NR 602	Natural Resources and Environmental Policy	4
or NR 507	Introduction to our Energy System and Sustainable Energy	
Hydrology Elective		
ESCI 705	Principles of Hydrology	4
or ESCI 710	Groundwater Hydrology	
Geochemistry Elective		
ESCI 741	Geochemistry	4
or ESCI 745	Isotope Geochemistry	
or ESCI 747	Aqueous Geochemistry	
Methods		
ESCI 534	Techniques in Environmental Sciences	3
NR 658	Introduction to Geographic Information Systems	4
or ESCI 777	GIS for Earth & Environmental Sciences	
Select one quantitative methods elective from the following:		4
ESCI 633	Sea Level Rise and Fall	
ESCI 654	Fate and Transport in the Environment	
ESCI 701	Quantitative Methods in Earth Sciences	
ESCI 734	Global Geophysics	
ESCI 764	Spectral Analysis of Geophysical Time Series Data	
CS 410P	Introduction to Scientific Programming/Python	
CS 457	Introduction to Data Science and Analytics	
MATH 527	Differential Equations with Linear Algebra	
MATH 528	Multidimensional Calculus	
MATH 645	Linear Algebra for Applications	
MATH 739	Applied Regression Analysis	
MATH 740	Design of Experiments I	
Math/Science Electives		
Select two approved science electives determined in consultation with departmental advisor.		8
The following should be considered: additional courses in Earth Sciences, Mathematics, Chemistry, and Physics; Computer Science, Engineering, the Biological Sciences, or Natural Resources and the Environment.		
Professional Development		
ESCI 690	Capstone & Professional Development	1
*Capstone Experience**		
Total Credits		**84-89**

For further information about the Earth systems option, students may contact earth.sciences@unh.edu. (earth.sciences@unh.edu)

Some students enroll in the EcoQuest program (a study abroad opportunity in New Zealand), which satisfies the policy requirement, and capstone requirement if taken senior year.

*Capstone Experience

A capstone experience is required of all undergraduate Earth sciences majors during their senior year. All capstone experiences at UNH must meet one or more of the following criteria:

1. The capstone synthesizes and applies disciplinary knowledge and skills.
2. The capstone fosters reflection on undergraduate learning and experience.
3. The capstone demonstrates emerging professional competencies.
4. The capstone applies, analyzes, and/or interprets research or data or artistic expression.
5. The capstone explores areas of interest based on the integration of prior learning.

Suggested ways of meeting the capstone requirement in the Department of Earth Sciences include approved INCO 790 Advanced Research Experience, ESCI 795 Topics, ESCI 796 Topics, ESCI 799 Senior Thesis, URA/SURF/IROP projects, internships, environmental/geologic field camps, REU programs, or Earth Sciences education and outreach activities designed according to the above criteria. Capstone experiences must be equivalent to a minimum of 2 academic credits. Students should work closely with their faculty advisors to define the most appropriate capstone experience for their Earth Sciences degree program, although the capstone mentor can be someone other than their primary faculty advisor. All capstone experiences must be approved and certified by the faculty advisor and the capstone mentor. Presentation of projects or experiences developed for the capstone is encouraged at the annual UNH Undergraduate Research Conference or other appropriate venue.

	Credits	**16**
	Total Credits	**129**

1 One course must be taken in each of the remaining Disciplinary Groups of the University Discovery Program (Environment Technology & Society; Historical Perspectives; World Culture; Fine & Performing Arts; Social Science; Humanities).

2 Three technical electives must be approved in consultation with departmental advisor.
All students must take four writing intensive courses, including ENGL 401 First-Year Writing, a course in the major, and a course at the 600/700 level.

Student Learning Outcomes

Program Learning Outcomes

Students graduating with a B.S. in Environmental Sciences: Earth Systems Option should achieve the following learning outcomes:

- Demonstrate a broad understanding of Earth and environmental systems, with an emphasis on interactions among physical, chemical, and biological processes that shape our natural environment and impact society.
- Recognize and understand common Earth and environmental materials, dynamics, processes, and cycles.
- Perform calculations and apply computational methods to process and evaluate a range of quantitative Earth and environmental science, biogeochemical, and hydrologic data.
- Become proficient in basic Earth and environmental science laboratory, field, and geospatial techniques.
- Summarize, analyze, evaluate, and explain/present student-generated scientific data and the primary Earth and environmental sciences literature.
- Effectively communicate results of scientific inquiries orally, visually, and in writing.

Ocean Sciences Minor

https://www.unh.edu/program/minor/ocean-sciences

Description

The minor is available to students interested in obtaining a broad background in ocean sciences. All courses in the program are selected in consultation with the minor advisor.

Requirements

Academic policies related to Minors.

Code	Title	Credits
Required Courses		
ESCI 501	Introduction to Oceanography	4
Select two courses from the following:		6-8
ESCI 752	Chemical Oceanography	
ESCI 758	Introductory Physical Oceanography	
ESCI 759	Geological Oceanography	
MEFB 755	Biological Oceanography	
Select two courses from the following: [1]		6-8
ESCI 502	Beaches and Coasts	
ESCI 514	Introduction to Climate	
ESCI 701	Quantitative Methods in Earth Sciences	
ESCI 720	Ocean Measurements Lab	
ESCI 747	Aqueous Geochemistry	
ESCI 749W	Ocean Biogeochemistry	
ESCI 754	Sedimentology	
ESCI 756	Geotectonics	
ESCI 765	Paleoclimatology	
ESCI/OE 771	Positioning for Ocean Mapping	
CEE 722	Introduction to Marine Pollution and Control	
MEFB 401	Marine Estuarine and Freshwater Biology: Freshmen Seminar	
MEFB 403	Investigative Marine Biology Laboratory	
MEFB 503	Introduction to Marine Biology	
MEFB 508	Marine Ecosystem Research and Management	
MEFB 530	Evolution and Marine Diversity	
MEFB 535	Marine Mammal Biology	
MEFB 625	Introduction to Marine Botany	
MEFB 628	Marine Invertebrate Evolution and Ecology	
MEFB 674	Ecology and Marine Environment	
MEFB 702	Sustainable Marine Fisheries	
MEFB 725	Marine Ecology	
MEFB 754	Anatomy and Function of Marine Vertebrates	
MEFB 772	Fisheries Biology: Conservation and Management	
MEFB 773	Physiology of Fishes	
OE 490	Introduction to Ocean Engineering	
OE 610	Ocean Instrumentation Lab	
OE 753	Ocean Hydrodynamics	
OE 754	Ocean Waves and Tides	
OE 757	Coastal Engineering and Processes	

TECH 797	Undergraduate Ocean Research Project
ZOOL 610	Principles of Aquaculture
ZOOL 710	Sharks and Bony Fishes

[1] Or a suitable substitute approved by the minor advisor (at least one of these courses should be in the biological sciences).

Electrical and Computer Engineering

Electrical engineers design, develop, and produce the electrical and electronic systems upon which modern society has come to depend: basic infrastructure, such as the electric power grid and fiber optic communication lines; public conveniences, such as mag lev transporters and LED signs; consumer products, such as smart appliances; personal communication devices, such as smart phones; military systems, such as rail guns and laser weapons; instruments that can image the ocean floor or analyze the Earth's atmosphere from satellites; and medical diagnostic machines like CAT and MRI scanners. Almost every facet of modern life is touched by the work of electrical engineers. Students electing this major gain knowledge of advanced electronic circuit and system design through the use of computer-aided design tools, hardware circuit prototyping, and hands-on laboratory testing.

Computers have become embedded in virtually every engineering system, including everyday items ranging from smart watches to electric vehicles. Computer engineering, is a rapidly growing field that emphasizes the design, interfacing, hardware/software tradeoffs, real-time applications of embedded computers, and IOT devices. Students who elect this major will gain a knowledge of both hardware and software concepts, and will learn to design, build, and test systems containing digital computers.

Embedded in both the electrical engineering and computer engineering programs is the biomedical engineering option. The option provides core knowledge expected of a computer and/or electrical engineer to provide engineering services in the biomedical field. Electrical and/or computer engineers with this option combine engineering principles with medical and biological sciences to design and create equipment, devices, computer systems, and software applications used in the healthcare field.

At UNH, the cornerstone of the electrical and computer engineering programs are the involvement of students in the solution of real-world problems.

ECE Department Mission

The mission of the department is to foster and advance knowledge in electrical and computer engineering.

The mission involves:

- teaching courses in electrical and computer engineering and related fields at the bachelor's, master's, and doctoral levels;
- advancing knowledge through research and scholarship;
- serving the state and nation by making the department's intellectual resources available to industry and government agencies. The undergraduate EE and CE programs shall provide a firm foundation in electrical and computer engineering theory and practice, with a mix of laboratory and design experiences. The programs also shall foster teamwork and project management skills.

The department recognizes the need to conduct periodic reviews and adjustments to meet the current and projected needs of the state and nation according to its mission objectives.

Program Educational Objectives

The Department of Electrical and Computer Engineering has adopted a set of program educational objectives that consists of statements describing the expected accomplishments of graduates during the first several years following graduation from either programs:

Electrical Engineering:

Depth: To be effective in applying electrical engineering principles in engineering practice or for advanced study.

Breadth: To have a productive career in the many diverse fields of electrical engineering such as analog engineering, biomedical engineering, communications, and electromagnetics and waves, or in the pursuit of graduate education in disciplines such as electrical engineering, medicine, law or business.

Professionalism: To function effectively in the complex modern work environment with the ability to assume professional leadership roles.

Electrical Engineering Biomedical Engineering Option:

Depth: To be effective in applying electrical engineering principles in engineering practice or for advanced study.

Breadth: To have a productive career in the many diverse fields of electrical engineering such as analog engineering, biomedical engineering, communications, and electromagnetics and waves, or in the pursuit of graduate education in disciplines such as electrical engineering, medicine, law or business.

Professionalism: To function effectively in the complex modern work environment with the ability to assume professional leadership roles.

Computer Engineering:

Depth: To be effective in applying computer engineering principles in engineering practice or for advanced study.

Breadth: To have a productive career in the many diverse fields of computer engineering such as digital engineering, biomedical engineering, security, communications, and embedded systems, or in the pursuit of graduate education in disciplines such as computer engineering, medicine, law or business.

Professionalism: To function effectively in the complex modern work environment with the ability to assume professional leadership roles.

Computer Engineering Biomedical Engineering Option:

Depth: To be effective in applying computer engineering principles in engineering practice or for advanced study.

Breadth: To have a productive career in the many diverse fields of computer engineering such as digital engineering, biomedical engineering, security, communications, and embedded systems, or in the pursuit of graduate education in disciplines such as computer engineering, medicine, law or business.

Professionalism: To function effectively in the complex modern work environment with the ability to assume professional leadership roles.

Student Outcomes

The Department of Electrical and Computer Engineering has adopted a set of student outcomes that consists of statements describing what students are expected to know and be able to do by the time of graduation, the achievement of which indicates that the student is equipped to achieve the program objectives. The current student outcomes are:

1. An ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics.
2. An ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental and economic factors.
3. An ability to communicate effectively with a range of audiences.
4. An ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts.
5. An ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives.
6. An ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions.
7. An ability to acquire and apply new knowledge as needed, using appropriate learning strategies.

Faculty

Electrical and Computer Engineering Faculty

Computer Engineering Major (B.S.)

https://www.unh.edu/program/bachelor-science/computer-engineering

Description

This program is tailored to students who want to understand and participate in the engineering discipline that merges electronics systems with software. Students learn the fundamental concepts of electrical circuits and how those circuits can be controlled by software, gaining skills and technological expertise needed to succeed in graduate studies or a variety of career fields.

In addition to the university's mandatory Discovery Program requirements, degree candidates must complete our core program (freshman through junior years). In the senior year, students select professional technical electives in the areas of their interest. They also carry out a student-designed project to acquire both breadth and depth of study and to integrate knowledge across course boundaries.

The Computer Engineering (B Sci in Computer Engineering) program is accredited by the Engineering Accreditation Commission of ABET, https://www.abet.org, under the General Criteria and the Program Criteria for Electrical, Computer, Communications, Telecommunication(s) and Similarly Named Engineering Programs.

Requirements

Degree Requirements

Minimum Credit Requirement: 129 credits

Minimum Residency Requirement: 32 credits must be taken at UNH

Minimum GPA: 2.0 required for conferral*

Core Curriculum Required: Discovery & Writing Program Requirements

Foreign Language Requirement: No

All Major, Option and Elective Requirements as indicated.
**Major GPA requirements as indicated.*

Major Requirements

In addition to Discovery Program requirements, the department has a number of grade-point average and course requirements:

1. Any computer engineering major whose cumulative grade-point average in ECE and CS courses is less than 2.0 during any three semesters will not be allowed to continue as a computer engineering major.
2. Computer engineering majors must achieve a 2.0 grade-point average in all ECE and CS courses as a requirement for graduation.

To make an exception to any of these departmental requirements based on extenuating circumstances, students must petition the department's undergraduate committee. Mindful of these rules, students, with their advisor's assistance, should plan their programs based on the distribution of courses found in the Degree Plan tab.

Code	Title	Credits
Required Courses		
CS 410C	Introduction to Scientific Programming/C	4
CS 419	Computer Science for Engineers and Scientists	4
ECE 401	Perspectives in Electrical and Computer Engineering	4
ECE 541	Electric Circuits	4
ECE 543	Introduction to Digital Systems	4
ECE 548	Electronic Design I	4
ECE 562	Computer Organization	4
ECE 583	Designing with Programmable Logic	6
ECE 602	Engineering Analysis	3
ECE 603	Electromagnetic Fields and Waves I	3
ECE 633	Signals and Systems I	3
ECE 634	Signals and Systems II	3
ECE 647	Random Processes and Signals in Engineering	3
ECE 649	Embedded Microcomputer Based Design	6

	Total Credits	**129**

[1] Students are required to take either ECON 402 Principles of Economics (Micro) or NR 411 Environmental and Resource Economics Perspectives to fulfill the Social Science Category of the Discovery Program.

[2] Four professional electives must be selected as follows:
- Choose two ECE 7XX courses, one course could be ECE 652 Electronic Design II.
- Students are allowed to take only one as ECE 795 Electrical and Computer Engineering Projects or ECE 796 Special Topics.
- Remaining professional electives can include: CS 619 Introduction to Object-Oriented Design and Development , CS 620 Operating

System Fundamentals, CS 659 Introduction to the Theory of Computation, or any CS 7XX course.

Fulfilling the CE program curriculum taking ECE 401 Perspectives in Electrical and Computer Engineering, ECE 791 Senior Project I, and ECE 792 Senior Project II will automatically meet Discovery Category, "Environment, Technology and Society."

Student Learning Outcomes

The Department of Electrical and Computer Engineering has adopted a set of student outcomes that consists of statements describing what students are expected to know and be able to do by the time of graduation, the achievement of which indicates that the student is equipped to achieve the program objectives.

The current student outcomes are:

- An ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics.
- An ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental and economic factors.
- An ability to communicate effectively with a range of audiences.
- An ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts.
- An ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives.
- An ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions.
- An ability to acquire and apply new knowledge as needed, using appropriate learning strategies.

Computer Engineering Major: Biomedical Engineering Option (B.S.)

https://www.unh.edu/program/bachelor-science/computer-engineering-biomedical-engineering

Description

The Biomedical Engineering (BME) Option is intended to provide the core of knowledge expected of a computer and/or electrical engineer to provide engineering services in the biomedical field. Electrical and/or computer engineers with this option in biomedical engineering combine engineering principles with medical and biological sciences to design and create equipment, devices, computer systems, and software used in healthcare. The BME option is embedded in both the Electrical Engineering (EE) program and the Computer Engineering (CE) program.

The Computer Engineering (B Sci in Computer Engineering) program is accredited by the Engineering Accreditation Commission of ABET, https://www.abet.org, under the General Criteria and the Program Criteria for Electrical, Computer, Communications, Telecommunication(s) and Similarly Named Engineering Programs.

Requirements

Degree Requirements

Minimum Credit Requirement: 129 credits

Minimum Residency Requirement: 32 credits must be taken at UNH

Minimum GPA: 2.0 required for conferral*

Core Curriculum Required: Discovery & Writing Program Requirements

Foreign Language Requirement: No

All Major, Option and Elective Requirements as indicated.
**Major GPA requirements as indicated.*

Major Requirements

In addition to Discovery Program requirements, the department has a number of grade-point average and course requirements:

1. Any computer engineering major whose cumulative grade-point average in ECE and CS courses is less than 2.0 during any three semesters will not be allowed to continue as a computer engineering major.
2. Computer engineering majors must achieve a 2.0 grade-point average in all ECE and CS courses as a requirement for graduation.

To make an exception to any of these departmental requirements based on extenuating circumstances, students must petition the department's undergraduate committee. Mindful of these rules, students, with their advisor's assistance, should plan their programs based on the distribution of courses found in the Degree Plan tab.

Electrical Engineering Major (B.S.)

https://www.unh.edu/program/bachelor-science/electrical-engineering

Description

This program is tailored to students who want to understand and participate in the ever-growing world of electronics technology. Students learn the fundamental concepts related to the design, development, testing and modeling of a wide range of electrical systems. By gaining skills and technological expertise, students leave this program prepared to succeed in graduate studies or a variety of career fields.

In addition to the university's mandatory Discovery Program requirements, degree candidates must complete our core program (freshman through junior years). In the senior year, students select professional technical electives in the areas of their interest. They also carry out a student-designed project to acquire both breadth and depth of study and to integrate knowledge across course boundaries.

For a detailed semester by semester list of requirements for the four years of study, please refer to the Degree Plan tab.

The Electrical Engineering (B Sci in Electrical Engineering) program is accredited by the Engineering Accreditation Commission of ABET, https://www.abet.org, under the General Criteria and the Program Criteria for Electrical, Computer, Communications, Telecommunication(s) and Similarly Named Engineering Programs.

[2] One professional elective must be selected as follows:

- Select any one ECE 700-level course.

ECE 791 Senior Project I and ECE 792 Senior Project II fulfill Discovery Program Capstone Experience.

Fulfilling the EE Program Biomedical Option curriculum taking ECE 401 Perspectives in Electrical and Computer Engineering, ECE 791 Senior Project I, and ECE 792 Senior Project II will automatically meet Discovery Category, "Environment, Technology and Society."

Student Learning Outcomes

The Department of Electrical and Computer Engineering has adopted a set of student outcomes that consists of statements describing what students are expected to know and be able to do by the time of graduation, the achievement of which indicates that the student is equipped to achieve the program objectives. The current student outcomes are:

Program Learning Outcomes

- An ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics.
- An ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental and economic factors.
- An ability to communicate effectively with a range of audiences.
- An ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must

consider the impact of engineering solutions in global, economic, environmental, and societal contexts.
- An ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives.
- An ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions.
- An ability to acquire and apply new knowledge as needed, using appropriate learning strategies.

Electrical and Computer Engineering Minor

https://www.unh.edu/program/minor/electrical-computer-engineering

Description

The Department of Electrical and Computer Engineering encourages highly motivated students outside of the ECE department are encouraged to consider a minor in Electrical and Computer Engineering.

For additional information please contact the ECE Department. Our ECE Minor Faculty Advisor will be happy to answer any questions and help you select courses that best fit your career goals.

Requirements

Academic policies related to Minors.

Required Courses

Code	Title	Credits
ECE 541	Electric Circuits (or ECE 537 with grade of A/A-)	4
ECE 548	Electronic Design I	4
ECE 543	Introduction to Digital Systems	4
Two additional approved ECE courses (500 level or higher) approved by the ECE Undergraduate Curriculum Committee.		

Environmental Sciences

The College of Engineering and Physical Sciences (CEPS) and the College of Life Sciences and Agriculture (COLSA) jointly offer a bachelor of science degree in environmental sciences. The Program has four options, and specific course requirements for the major vary by option. The geosystems and hydrology options are both managed by the Department of Earth Sciences in CEPS, and the ecosystems and soil and watershed management options are both managed by the Department of Natural Resources and the Environment in COLSA.

Environmental sciences, an interdisciplinary field, focuses on the interaction of biological, chemical, and physical processes that shape our natural environment. Students graduating with a degree in environmental sciences will have an understanding of these interacting processes, the ability to communicate effectively with both scientific and lay audiences, competency in field methods appropriate for entry-level environmental science positions, competency in the use and application of Geographic Information Systems (GIS), a basic understanding of environmental policy, and the ability to contribute to multidisciplinary teams. The University of New Hampshire is a recognized leader in environmental sciences research, and the environmental sciences program capitalizes on faculty expertise in this area. The full-time faculty members comprising this program have major teaching and research emphases in the areas of biogeochemical cycling, environmental chemistry, ecosystem science, geospatial science, global change, hydrology, plant ecology, soil science, and water resource management.

Employment opportunities include environmental consulting firms, educational facilities (e.g., science centers), environmental monitoring laboratories (e.g., water treatment plants; the Environmental Protection Agency), government agencies (e.g., the U.S. Geological Survey, Bureau of Land Management, Natural Resource Conservation Service), university and government research laboratories, and nongovernment environmental organizations. The environmental sciences program also constitutes an excellent preparation for graduate programs in several areas relating to the environment. Students should consult with their adviser early if their goals include further study.

Programs

- Environmental Sciences Major: Earth Systems Option (B.S.) (p. 126)
- Environmental Sciences Major: Ecosystems Option (B.S.) (p. 416)
- Environmental Sciences Major: Soil and Watersheds Option (B.S.) (p. 418)

Materials Science

Programs

- Materials Science Minor (p. 138)

Materials Science Minor

https://www.unh.edu/program/minor/materials-science

Description

Materials science is an interdisciplinary field that involves the research, development, and design of new materials. In the past century, materials scientists have enabled major technological advances in areas such as electronic materials for semiconductors, new metal alloys for aircraft and automotive applications, and new polymers for a host of medical and consumer applications. In order to prepare students for continuing growth and innovation in materials science, the materials science program offers this minor, which is open to all students as UNH.

The minor offers a broad introduction to materials science, which reflects the interdisciplinary nature of the field. Students interested in the minor should contact the director of the materials science program Professor James.Krzanowski@unh.edu (james.krzanowski@unh.edu) as early as possible and preferably before the end of their sophomore year.

Requirements

Academic policies related to Minors.

Code	Title	Credits
Required		
ME 561	Introduction to Materials Science [1]	4
Group A: Thermodynamics, Kinetics and Structure of Materials		
Select one of the following:		4-5

CHEM 683 & CHEM 685	Physical Chemistry I and Physical Chemistry Laboratory [2]	
PHYS 508	Thermodynamics and Statistical Mechanics [2,3]	
ME 795	Special Topics	
Group B: Materials Applications and Properties		
Select one of the following:		4-5
CHEM 545 & CHEM 546	Organic Chemistry and Organic Chemistry Laboratory	
CHEM 547 & CHEM 549	Organic Chemistry I and Organic Chemistry Laboratory	
CHEM 651 & CHEM 653	Organic Chemistry I and Organic Chemistry Laboratory	
PHYS 718	Quantum Materials	
ME 786	Introduction to Finite Element Analysis	
ME 795	Special Topics	
Select two to three additional courses from either Group A or Group B [4]		4-6

1 It is strongly recommended that students take this course during their sophomore year.

2 Students cannot receive credit towards the minor for both PHYS 508 Thermodynamics and Statistical Mechanics and CHEM 683 Physical Chemistry I/CHEM 685 Physical Chemistry Laboratory.

3 Students cannot receive credit towards the minor for PHYS 508 Thermodynamics and Statistical Mechanics if they have taken ME 503 Thermodynamics.

4 As needed to reach the required 18 credits

Mathematics and Statistics

The Department of Mathematics and Statistics offers a variety of programs leading to five different degrees:

- B.A. degree: mathematics major;
- B.S. in mathematics degree;
- B.S. in applied mathematics degree;
- B.S. in mathematics education degree; and
- B.S. in statistics degree.

These programs provide flexibility through elective choices and are designed to maximize educational and employment opportunities. Each student must enroll in one specific program; however, changes between programs usually can be accommodated.

The first two years of all programs are similar. In the first year, students are expected to take MATH 425 Calculus I and MATH 426 Calculus II, as well as an introductory programming course (either MATH 445 Mathematics and Applications with MATLAB or CS 410C Introduction to Scientific Programming/C or CS 410P Introduction to Scientific Programming/Python). A sophomore typically takes follow-up calculus courses in MATH 527 Differential Equations with Linear Algebra and MATH 528 Multidimensional Calculus, MATH 539 Introduction to Statistical Analysis, and MATH 531 Mathematical Proof. The senior capstone experience is fulfilled by a variety of designated courses in each of the degree programs; specific details are given in each program's course listing below.

For more information about the department's undergraduate programs, visit http://ceps.unh.edu/mathematics-statistics

Standards for Graduation

In all courses used to satisfy the requirements for its major programs, the Department of Mathematics and Statistics requires that a student earn a grade of C- or better and have an overall grade-point average of at least 2.00 in these courses.

Minoring in Mathematics

The Department of Mathematics and Statistics offers four minor programs: mathematics, applied mathematics, mathematics education, and statistics. These programs, which are open to all students enrolled at the University, require a minimum of five MATH courses as detailed in this catalog. Students whose major program requires more than two courses required by the minor program must substitute additional courses from the list of elective courses to meet the five-course minimum.

https://ceps.unh.edu/mathematics-statistics

Programs

- Applied Mathematics Major (B.S.) (p. 139)
- Applied Mathematics Major: Computation Option (B.S.) (p. 141)
- Applied Mathematics Major: Economics Option (B.S.) (p. 142)
- Applied Mathematics Minor (p. 144)
- Mathematics Education Major (B.S.) (p. 144)
- Mathematics Education Minor (p. 147)
- Mathematics Major (B.A.) (p. 147)
- Mathematics Major (B.S.) (p. 149)
- Mathematics Minor (p. 150)
- Statistics Major (B.S.) (p. 151)
- Statistics Minor (p. 152)

Faculty

Mathematics and Statistics Department Faculty

Applied Mathematics Major (B.S.)

https://www.unh.edu/program/bachelor-science/applied-mathematics

Description

This degree prepares students for careers in science, engineering, and industry by giving students broad exposure to both theoretical and computational models of physical systems in the physical, natural, and social sciences.

Requirements

Degree Requirements

Minimum Credit Requirement: 128 credits

Minimum Residency Requirement: 32 credits must be taken at UNH

Minimum GPA: 2.0 required for conferral*

Core Curriculum Required: Discovery & Writing Program Requirements

Foreign Language Requirement: No

All Major, Option and Elective Requirements as indicated.

Major GPA requirements as indicated.

Major Requirements

In all courses used to satisfy the requirements for its major programs, the Department of Mathematics and Statistics requires that a student earn a grade of C- or better and have an overall grade-point average of at least 2.00 in these courses.

Student Learning Outcomes

Program Learning Outcomes

- Students recognize common mathematical notations and operations used in mathematics, science and engineering.
- Students can recognize and classify a variety of mathematical models including differential equations, linear and nonlinear systems of algebraic equations, and common probability distributions.
- Students have developed a working knowledge (including notation, terminology, foundational principles of the discipline, and standard mathematical models within the discipline) in at least one discipline outside of mathematics.
- Students are able to extract useful knowledge, both quantitative and qualitative, from mathematical models and can apply that knowledge to the relevant discipline.

Applied Mathematics Major: Computation Option (B.S.)

https://www.unh.edu/program/bachelor-science/applied-mathematics-computation

Description

This degree program prepares students for employment and/or graduate study in a variety of fields and research specializations in which mathematics plays a critical role in the solution of important scientific and technological problems.

Total Credits		**20**

[1] This requirement may be satisfied by MATH 525 Linearity I & MATH 526 Linearity II.

Mathematics Education Major (B.S.)

https://www.unh.edu/program/bachelor-science/mathematics-education

Description

This professional degree program prepares students for teaching mathematics at the middle or high school level. The program is coordinated with the education department's teacher licensure programs. Students may complete the degree requirements with full teacher licensure in either four or five years.

Students electing the four-year option leading to licensure must plan for one semester of student teaching in their senior year; this requires careful planning with your program advisor to accommodate the scheduling of required MATH courses.

The five-year program includes a year-long teaching internship in the fifth year. The internship requires admission into a UNH Department of Education graduate program that leads to licensure.

Requirements

Degree Requirements

Minimum Credit Requirement: 128 credits

Minimum Residency Requirement: 32 credits must be taken at UNH

Minimum GPA: 2.0 required for conferral*

Core Curriculum Required: Discovery & Writing Program Requirements

Foreign Language Requirement: No

All Major, Option and Elective Requirements as indicated.
**Major GPA requirements as indicated.*

Major Requirements

- Requirements for admission to student teaching include receiving credit for EDUC 500 and a minimum cumulative 2.8 GPA.
- In all courses used to satisfy the requirements for its major programs, the Department of Mathematics and Statistics requires that a student earn a grade of C- or better and have an overall grade-point average of at least 2.00 in these courses.
- For teacher licensure a grade of B- or better is required in all Education courses.

Code	Title	Credits
Required MATH Courses		
MATH 425	Calculus I	4

Student Learning Outcomes

Program Learning Outcomes

Mathematics Concepts, Practices, and Curriculum. Well-prepared beginning teachers of mathematics:

- Demonstrate robust knowledge of mathematical and statistical concepts that underlie what they encounter in teaching of K-8 or secondary mathematics.
- Engage in appropriate mathematical and statistical practices, and use technological tools to solve mathematical problems, and incorporate educational technology in their teaching.
- Analyze and interpret mathematical curricula, assessments, and standards documents.
- Analyze and interpret students' mathematical work.

Pedagogical Knowledge and Practices for Teaching Mathematics. Well-prepared beginning teachers of mathematics:

- Demonstrate strong foundations of pedagogical knowledge, and effective and equitable mathematics teaching practices.
- Construct instructional explanations, develop tasks, lesson plans and unit plans, that advance students' mathematical understanding.
- Recognize common patterns of student thinking related to particular mathematical topics, and articulate ways of supporting students' mathematical thinking.

Productive dispositions. Well-prepared beginning teachers:

- Demonstrate positive and productive dispositions toward mathematics as a discipline, towards students as learners of mathematics and towards teaching mathematics in ways that support students' sense making, understanding, and reasoning.

Disclosures

Mathematics Education (B.S.)

Location/Delivery: College of Engineering and Physical Sciences, Durham Campus [In Person Program]

This program is designed to prepare graduates for professional licensure/certification as follows:

Teacher Licensure

Mathematics Middle or Upper Level

*The University of New Hampshire has determined this program **meets** the educational requirements for licensure/certification in:*[1]
Alabama, Alaska, Arizona, Arkansas, California, Colorado, Connecticut, Delaware, Florida, Georgia, Hawaii, Idaho, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Michigan, Minnesota, Mississippi, Missouri, Montana, Nebraska, Nevada, New Hampshire, New Jersey, New Mexico, New York, North Carolina, North Dakota, Ohio, Oklahoma, Oregon, Pennsylvania, Rhode Island, South Carolina, South Dakota, Tennessee, Texas, Utah, Vermont, Virginia, West Virginia, Wisconsin, Wyoming.

Additional information and related resources are available on the Registrar's Office website.

[1] State specific post-education requirements are subject to change. Students are responsible for confirming these requirements in their state of residence and intended practice.

Mathematics Education Minor

https://www.unh.edu/program/minor/mathematics-education

Description

Students pursuing a minor in Mathematics Education will be required to take courses that introduce them to teaching, mathematics education topics, and mathematical content to solidify their understanding of secondary mathematics. In addition to the required courses, students will choose electives of interest from options in Education and Mathematics, in consultation with the minor advisor.

Completion of this minor does not lead to teaching certification. Students should meet with the minor advisor to discuss potential pathways and to determine what additional courses are needed.

For further information, please contact the minor coordinator located on the department website.

Requirements

Academic policies related to Minors.

Code	Title	Credits
Required Courses		
MATH 624	Analysis of Secondary School Mathematics A (Number Systems & Functions) [1]	4
or MATH 626	Analysis of Secondary School Mathematics B (Geometry, Statistics, & Probability)	
MATH 700	Introduction to Mathematics Education [1]	4
or MATH 709	Teaching of Mathematics in Grades 6-12	
EDUC 500	Exploring Teaching [1]	4
Electives		
Select one of the following options:		8
Option 1: Select one MATH and one EDUC course from the list below.		
Option 2: Select two MATH courses from the list below. Only one 500-level course may be taken.		
MATH 624	Analysis of Secondary School Mathematics A (Number Systems & Functions) [1]	
or MATH 626	Analysis of Secondary School Mathematics B (Geometry, Statistics, & Probability)	
MATH 531	Mathematical Proof [1]	
MATH 545	Introduction to Linear Algebra [1]	
or MATH 645	Linear Algebra for Applications	
MATH 700	Introduction to Mathematics Education [1]	
or MATH 709	Teaching of Mathematics in Grades 6-12	
MATH 760	Geometry [1]	
MATH 790	Historical Foundations of Mathematics [1]	
MATH 797	Senior Seminar (Math Ed Section) [1]	
EDUC 525	The Idea of Race in Teaching and Learning	
EDUC 556	Peer to Peer Mentoring for Students with Disabilities	
EDUC 605	Educational Perspectives in Critical Times [1]	
EDUC 701	Human Development & Learning: Cultural Perspectives [1]	
EDUC 703C	Classroom Management: Creating Positive Learning Environments	
EDUC 751B	Methods of Inclusive Secondary Education: Literacies, Learning, and Transitions [1]	
Total Credits		**20**

[1] Course is required for the BS in Mathematics Education and/or for teacher certification through UNH. Students in other majors who wish to pursue mathematics teacher certification could take some of these courses as program electives or as part of a master's degree that leads to certification.

Student Learning Outcomes

Program Learning Outcomes

- Demonstrate robust knowledge of mathematical concepts and practices that underlie secondary school mathematics.
- Use technological tools to solve mathematical problems and be able to incorporate educational technology in their teaching.
- Analyze and interpret mathematical curricula, assessments, and standards documents.
- Analyze and interpret students' mathematical work, and articulate ways of supporting students' mathematical thinking.
- Demonstrate strong foundations of pedagogical knowledge and effective and equitable mathematics teaching practices.
- Demonstrate positive and productive dispositions toward mathematics as a discipline, towards students as learners of mathematics and towards teaching mathematics in ways that support students' sense making, understanding, and reasoning.

Mathematics Major (B.A.)

https://www.unh.edu/program/bachelor-arts/mathematics

Description

The bachelor of arts degree with the mathematics major may offer a broader liberal arts program than the bachelor of science degree programs. By a careful selection of electives, students can shape this major into a preparation for graduate school, business, or industry.

Requirements

Degree Requirements

Minimum Credit Requirement: 128 credits

Minimum Residency Requirement: 32 credits must be taken at UNH

Minimum GPA: 2.0 required for conferral*

Core Curriculum Required: Discovery & Writing Program Requirements

Foreign Language Requirement: Yes

All Major, Option and Elective Requirements as indicated.
**Major GPA requirements as indicated.*

Major Requirements

In all courses used to satisfy the requirements for its major programs, the Department of Mathematics and Statistics requires that a student earn a grade of C- or better and have an overall grade-point average of at least 2.00 in these courses.

Code	Title	Credits
Required Courses		
MATH 425	Calculus I	4
or MATH 425H	Honors/Calculus I	
MATH 426	Calculus II	4
or MATH 426H	Honors/Calculus II	
MATH 445	Mathematics and Applications with MATLAB	4
or CS 410P	Introduction to Scientific Programming/Python	
or CS 410C	Introduction to Scientific Programming/C	
MATH 527	Differential Equations with Linear Algebra [1]	4
MATH 528	Multidimensional Calculus [1]	4
MATH 531	Mathematical Proof	4
MATH 539	Introduction to Statistical Analysis	4
MATH 545	Introduction to Linear Algebra [1]	4
or MATH 645	Linear Algebra for Applications	
MATH 761	Abstract Algebra	4
MATH 767	One-Dimensional Real Analysis	4
THREE additional approved MATH courses (selected in consultation with the academic advisor)		12
Capstone		
Select one of the following:		4
MATH 797	Senior Seminar	
MATH 799	Senior Thesis	
Other Required Courses		
Foreign language requirement as defined by the University for all B.A. degrees.		
Total Credits		**56**

[1] The full Linearity sequence, MATH 525 and MATH 526, may be used to replace the MATH 527, MATH 528, and MATH 545 / MATH 645 requirements.
MATH 525 may be used to replace the MATH 545 or MATH 645 requirement.

Student Learning Outcomes

Program Learning Outcomes

- Students can explain core concepts from a range of different branches of mathematics, including analysis, algebra, calculus and statistics.
- Students can correctly interpret mathematical definitions and construct simple proofs which use definitions and logical arguments to establish properties of mathematical objects.
- Students are aware that mathematical objects may have multiple representations and are able to select representations which clarify problems and simplify calculations.
- Students can recognize valid and invalid mathematical arguments.

Mathematics Major (B.S.)

https://www.unh.edu/program/bachelor-science/mathematics-0

Description

This program offers the strongest concentration in mathematics, requiring courses that are intended to prepare the student for graduate work in mathematics. Through a judicious choice of electives, students may design stronger pre-graduate programs, a program in applied mathematics, or slant the program toward a career in business or industry.

Requirements

Degree Requirements

Minimum Credit Requirement: 128 credits

Minimum Residency Requirement: 32 credits must be taken at UNH

Mathematics Minor

https://www.unh.edu/program/minor/mathematics

Description

The mathematics minor will introduce you to central fields of pure mathematics, such as algebra, analysis and geometry. You'll be able to complement the core program requirements with an enticing selection of mathematics electives,including differential geometry, combinatorics, number and set theory, logic and topology. Tailor the minor to enhance a major such as business, economics, education or the sciences to prepare for your future career or graduate studies.

For further information, please contact the minor coordinator located on the department website.

Statistics Major (B.S.)

https://www.unh.edu/program/bachelor-science/statistics

Description

This program prepares students for employment and/or graduate study in a variety of fields and research specializations in which statistical analysis and its applications play a critical role. In addition to its degree programs, the department has an active interest in the actuarial profession. Those interested in actuarial science should seek the advice of departmental coordinator of the actuarial program.

Requirements

Student Learning Outcomes

Program Learning Outcomes

- Communicate theoretical foundations and principles of intermediate-level statistics to diverse audiences.
- Design an appropriate method of data collection for a variety of practical applications.
- Perform analyses using the established tools of applied statistics, including production of appropriate software output and its interpretation.

Statistics Minor

https://www.unh.edu/program/minor/statistics

Description

The minor in statistics is designed for students in other majors who want to learn the fundamentals of statistical analysis and its applications.

For further information, please contact the minor coordinator located on the department website.

Requirements

Academic policies related to Minors.

The minor requires a minimum of five MATH courses as detailed in the minor requirements. Additional courses from the list of course electives may be utilized to meet the five-course minimum.

Code	Title	Credits
Required		
MATH 539	Introduction to Statistical Analysis	4
or MATH 644	Statistics for Engineers and Scientists	
MATH 645	Linear Algebra for Applications [1]	4
Electives		
Select three courses from the following:		12
MATH 736	Advanced Statistical Modeling

MATH 756	Principles of Statistical Inference	
Total Credits		**20**

[1] This requirement may be satisfied by MATH 525 Linearity I.

Mechanical Engineering

Mission

In support of the University and college missions, the Department of Mechanical Engineering is dedicated to educating the highest quality engineering professionals and leaders. Graduates will be prepared to creatively solve engineering problems through the use of analysis, computation, and experimentation. Students completing the program should be well-informed citizens who have the ability to grow intellectually and are able to solve new, challenging problems with self-confidence. It is the department's intent to maintain a general and flexible curriculum that prepares students for both industrial practice and graduate education.

Educational Objectives

The objective of the UNH Mechanical Engineering Program is to produce graduates who are ethical professionals and good citizens. As they progress in the first several years following graduation, they are expected to:

1. Use their engineering education and communication skills for success in:
   a. Technical careers in industry, academia, government, or other organizations;
   b. Graduate school in engineering or physical sciences;
   c. Nontechnical careers or education in areas such as law, medicine, business, public policy, secondary education, service industries, etc.;
   d. Careers involving management or entrepreneurship.
2. Exercise lifelong learning to:
   a. Pursue professional development opportunities in their disciplines;

b. Develop new knowledge and skills;
c. Pursue new areas of expertise or careers.

3. Use their engineering background to:
   a. Solve technical problems for societal benefit;
   b. Develop new knowledge and products that will promote sustainable economic and environmental developments to improve the quality of life;
   c. Promote the practice of engineering.

Mechanical engineering is a challenging profession and has two major emphases. The first is the general area of mechanical design, which involves all types of mechanical motion and the forces and energy that drive it. The other emphasis deals with energy generation and conversion and is grounded in the principles of the thermal and fluid sciences. Other subject areas, which support both emphases and are frequently part of designs and products, are the materials sciences, manufacturing, and control systems. All of these areas are included in the education and training of mechanical engineers. Ocean engineering is another focus area in our department which emphasizes solving engineering problems associated with the sustainable utilization of ocean resources and the scientific exploration and study of the ocean environment. Mechanical engineering requires significant study in mathematics, engineering computing, and basic sciences such as chemistry and physics, as well as basic engineering courses, before reaching the more specialized courses. Additional information can be found at the mechanical engineering website.

https://ceps.unh.edu/mechanical-engineering

Programs

- Mechanical Engineering Major (B.S.) (p. 153)
- Mechanical Engineering Minor (p. 156)

Faculty

Mechanical Engineering Department Faculty

Mechanical Engineering Major (B.S.)

https://www.unh.edu/program/bachelor-science/mechanical-engineering

Description

The B.S.M.E. curriculum provides students with a solid engineering core and prepares students for professional engineering careers or for graduate study. The department has course sequences in mechanics, thermal/fluid sciences, and systems and controls. Modern experimental methods are taught in a course sequences starting in the junior year. The two-semester senior design project requires students to utilize the skills they have learned in their courses and function in an engineering team. The five technical electives required in the program give the students the opportunity to focus on advanced technical areas of their choice.

With their advisers' assistance, students should plan a program based on the following distribution of courses that totals not less than 128 credits. Note: mechanical engineering graduates typically exceed this requirement depending on what elective courses they select in the curriculum. Within the constraints of satisfying all the requirements and having all the necessary prerequisites, schedules may vary because of scheduling needs or student preference. Curriculum flexibility allows students to pursue a co-op experience or a minor, if interested which will potentially delay graduation. Some mechanical engineering elective courses may not be offered every year.

The Mechanical Engineering (B Sci in Mechanical Engineering) program is accredited by the Engineering Accreditation Commission of ABET, https://www.abet.org, under the General Criteria and the Program Criteria for Mechanical and Similarly Named Engineering Programs.

Requirements

Degree Requirements

Minimum Credit Requirement: 128 credits

Minimum Residency Requirement: 32 credits must be taken at UNH

Minimum GPA: 2.0 required for conferral*

Core Curriculum Required: Discovery & Writing Program Requirements

Foreign Language Requirement: No

All Major, Option and Elective Requirements as indicated.
**Major GPA requirements as indicated.*

Major Requirements

Grade-Point Average Requirements

In order to graduate with a mechanical engineering B.S. degree, students must have at least a 2.0 grade-point average in all engineering and science courses, including required technical electives, normally taken as department requirements after the start of the junior year as defined in the degree plan below.

Predictor courses: To enter the sophomore year, students must achieve a greater than (but not equal to) 2.00 GPA in PHYS 407 General Physics I and MATH 426 Calculus II with no grade below a C.

To enter the junior year, students must achieve a minimum GPA of 2.00 in ME 525 Statics, ME 526 Mechanics of Materials, and ME 503 Thermodynamics with only one C- grade allowed and no grades below C-.

Students are allowed two repeats of these predictor courses to achieve the predictor rule requirements before being removed from the Program. This can be a single class repeated twice or two classes repeated once. Students are also removed from the program if if they obtain a semester GPA below 1.5 three times. Students may petition to be reinstated after one year out of the program.

Code	Title	Credits

or TECH 797	Undergraduate Ocean Research Project	
PHYS 407	General Physics I	4
or PHYS 407H	Honors/General Physics I	
or PHYS 407S	General Physics I Studio	
PHYS 408	General Physics II	4
or PHYS 408H	Honors/General Physics II	
or PHYS 408S	General Physics II Studio	

Technical Elective Requirements

Students must complete five (5) technical elective courses.

- One (1) course must be an analytical technical elective selected from the approved list below.
- One (1) course must be a computational/experimental technical elective selected from the approved list below.
- Of the three (3) remaining technical electives: a minimum of two (2) courses must be taken in Mechanical Engineering, Ocean Engineering, or Integrated Applied Mathematics, or any combination therof. These courses must be at least three credits and at the 600- or 700-level. At most one technical elective may be selected from other CEPS courses at the 600- or 700-level. See list below.
  - *Students should consult with their academic advisor before selecting technical electives outside of mechanical/ocean engineering. With departmental approval, the two technical electives outside of mechanical/ocean engineering can be used for studying a focused area/minor, with the restrictions that only one course can be at the 400- or 500-level and the focused area/minor must be in a bachelor's degree program.*

Code	Title	Credits
Approved Analytical Technical Electives		
Select one course from the following:		
ME 707	Analytical Fluid Dynamics	4
ME 712	Waves in Fluids	3
ME 727	Advanced Mechanics of Solids	4

Code	Title	Credits
Approved Computational/Experimental Technical Electives		
Select one course from the following:		
ME 709	Computational Fluid Dynamics	3
ME 710	Experimental Fluid Dynamics	4
ME 772	Control Systems	4
ME 786	Introduction to Finite Element Analysis	4

Code	Title	Credits
Other CEPS Courses		
At most one technical elective may be selected from other 600- or 700-level courses within the College of Engineering and Physical Sciences (CEPS), or from the following courses: [1]		
CS 410C	Introduction to Scientific Programming/C	4
CS 410P	Introduction to Scientific Programming/Python	4
ESCI 501	Introduction to Oceanography	4
ECE 543	Introduction to Digital Systems	4
TECH 750	Intellectual Asset Management for Engineers and Scientists	4
TECH 780	Intellectual Property Law for Engineers & Scientists	3

[1] Or another course approved through an Undergraduate Petition for Variance in Academic Policy. Courses that cover nearly identical material to core mechanical engineering courses, but in another CEPS department, will not be accepted as technical electives, e.g. CHBE 601, CHBE 602, CHBE 604, CEE 635, CEE 650, ECE 633.

Discovery Program Requirements

Students must satisfy the University's Discovery Program requirements. The following features are unique to students in the Mechanical Engineering Program:

As is the case across the University, all students are required to take an Inquiry course or an Inquiry Attributes course during their first two years. This can be satisfied with ME 441 Introduction to Engineering Design and Solid Modeling. Students who are exempt from ME 441 Introduction to Engineering Design and Solid Modeling due to prior engineering design and computer-aided design (CAD) experience must select an Inquiry 444 course or a course with an Inquiry Attribute and enroll in ME 477 Introduction to Solid Modeling. The Discovery Environment, Technology, and Society category requirement is met upon receiving a B.S. degree in mechanical engineering. The Discovery Social Science category must be satisfied with either ECON 402 Principles of Economics (Micro) or NR 411 Environmental and Resource Economics Perspectives. The Discovery senior capstone experience is satisfied with either ME 755 Senior Design Project I and ME 756 Senior Design Project II or TECH 797 Undergraduate Ocean Research Project.

Transfer Policy for UNH Students into the Department of Mechanical Engineering

CEPS Students: To transfer into the freshman or sophomore year, students must earn a combined GPA greater than (but not equal to) 2.00 in PHYS 407 General Physics I and MATH 426 Calculus II with no grade below a C in these two courses.

If students are enrolled in ME 525 Statics (or CEE 500 Statics for Civil Engineers), ME 526 Mechanics of Materials (or CEE 501 Strength of Materials), or ME 503 Thermodynamics, they must earn a combined GPA of 2.00 with no grade below a C- in two of these courses with only one C- grade allowed to transfer into Mechanical Engineering. Note: A combined GPA greater than (but not equal to) 2.00 in PHYS 407 General Physics I and MATH 426 Calculus II with no grade below a C is also required.

Non-CEPS Students: To transfer into the Department of Mechanical Engineering from another college at UNH, students have to satisfy the CEPS college transfer policy as well as the Department of Mechanical Engineering transfer policies listed above according to their status.

Degree Plan

Sample Degree Plan

This sample degree plan serves as a general guide; students collaborate with their academic advisor to develop a personalized degree plan to meet their academic goals and program requirements.

First Year		
Fall		**Credits**
ME 441 or ME 477	Introduction to Engineering Design and Solid Modeling [1] or Introduction to Solid Modeling	4
CHEM 405 or CHEM 403 ***and*** CHEM 404	Chemical Principles for Engineers [2] or General Chemistry I ***and*** General Chemistry II	4

Technical Elective		3-4
Technical Elective		3-4
Technical Elective		3-4
Discovery Program Elective		4
	Credits	**15-18**
	Total Credits	**129-134**

1. ME 441 Introduction to Engineering Design and Solid Modeling satisfies the Discovery Inquiry requirement. Note: ME 477 does not satisfy the Discovery Inquiry requirement. An alternative Discovery Program Inquiry course or Inquiry Attributes course is required. Permission is required to take ME 477 in place of ME 441.
2. CHEM 405 Chemical Principles for Engineers or CHEM 403 General Chemistry I and CHEM 404 General Chemistry II, or PHYS 407 General Physics I satisfies the Discovery Physical Science (with lab) category.
3. MATH 425 Calculus I satisfies the Discovery Foundation Quantitative Reasoning category.
4. ENGL 401 First-Year Writing satisfies the Discovery Foundation Writing Skills category.
5. MATH 525 Linearity I and MATH 526 Linearity II also counts as a 600-level technical elective course typically completed in the senior year of the program. Permission is required to take Linearity I and II.
6. ME 755, ME 756 and TECH 797 satisfy the Discovery Senior Capstone Experience category.

Student Learning Outcomes

Program Learning Outcomes

- an ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics.
- an ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors.
- an ability to communicate effectively with a range of audiences.
- an ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must

consider the impact of engineering solutions in global, economic, environmental, and societal contexts.
- an ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives.
- an ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions.
- an ability to acquire and apply new knowledge as needed, using appropriate learning strategies.

Mechanical Engineering Minor

https://www.unh.edu/program/minor/mechanical-engineering

Description

The minor, administered by the Department of Mechanical Engineering and offers a broad introduction to mechanical engineering.

Interested students should contact the Mechanical Engineering Chair, Dr. Christopher White.

Requirements

Academic policies related to Minors.

Credit toward the minor will only be given for courses passed with C- or better, and a 2.00 grade-point average must be maintained in courses for the minor.

Required Courses

Students must complete a minimum of six courses as follows:

Code	Title	Credits
ME 441	Introduction to Engineering Design and Solid Modeling	4
ME 503	Thermodynamics	3
ME 525	Statics	4
ME 526	Mechanics of Materials	3
ME 627	Dynamics	3
ME 608	Fluid Dynamics	3
Total Credits		**20**

Electrical and Computer Engineering majors should take the following courses:

Code	Title	Credits
ME 477	Introduction to Solid Modeling	1
ECE 633	Signals and Systems I [1]	3
ECE 634	Signals and Systems II [1]	3
ME 503	Thermodynamics	3
ME 525	Statics	4
ME 561	Introduction to Materials Science	4
Select one of the following: [2]		
ME 526	Mechanics of Materials	3
ME 608	Fluid Dynamics	3
ME 627	Dynamics	3

[1] ECE Major Required Courses.

[2] The total number of credits required is 21.

Physics majors should take the following courses:

Code	Title	Credits
PHYS 508	Thermodynamics and Statistical Mechanics [1]	4
PHYS 615	Classical Mechanics and Mathematical Physics I [1]	4
ME 477	Introduction to Solid Modeling	1
ME 526	Mechanics of Materials	3
ME 608	Fluid Dynamics	3
Select one of the following: [2]		
ME 643	Machine Design	3
ME 670	Systems Modeling, Simulation, and Control	4
ME 705	Thermal System Analysis and Design	4

[1] Physics Major Required Courses.

[2] The total number of credits to complete the Physics Minor will be either 18 or 19 depending on what course is selected.

Ocean Engineering

Mission

The undergraduate program in ocean engineering emphasizes ocean engineering fundamentals while offering interdisciplinary opportunities for focused study in civil, electrical, environmental, or mechanical engineering, as well as marine sciences.

Program Educational Objectives

The ocean engineering program seeks to provide an environment that enables students to pursue their goals in an innovative, rigorous, and challenging program with a diversity of offerings. The program has the following major educational objectives, with the expectation that alumni will have successful careers in the many diverse areas of the ocean engineering profession. Within a few years of obtaining a bachelor's degree in ocean engineering, we expect our graduates to have the following attributes:

Depth. To be effective in applying ocean engineering principles in engineering practice or for advanced study in ocean engineering.

Breadth. To have a productive career in the many diverse fields of ocean engineering such as coastal engineering, ocean acoustics, offshore structures, and marine renewable energy, or in the pursuit of graduate education in disciplines that include marine science, engineering, medicine, law, or business.

Professionalism. To function effectively in the complex modern work environment with the ability to assume professional leadership roles.

- Ocean Engineering Minor (p. 159)

Faculty

Ocean Engineering Department Faculty

Ocean Engineering Major (B.S.)

https://www.unh.edu/program/bachelor-science/ocean-engineering

Description

Ocean engineering is a field of study that seeks to solve engineering problems associated with the ocean, including those problems associated with the sustainable utilization of ocean resources and the scientific exploration and study of the ocean environment. Ocean engineering is an interdisciplinary field with roots in mechanical, electrical, civil, and environmental engineering, with strong ties to physical, chemical, biological, and geological oceanography. Students of ocean engineering are best served when they are formally trained inside a framework that fuses the expertise of these often-disparate fields.

The BSOE curriculum provides students with a solid engineering core and prepares students for professional engineering careers or for graduate study. The BSOE starts with foundational classes in math, physics, chemistry, and engineering computing, along with introductions to ocean engineering through seminars and oceanography coursework. Students develop their engineering acumen through coursework and laboratory studies that are focused on analysis, experimentation, and design. Students proceed to increasingly advanced coursework in ocean instrumentation, waves and tides, the design of ocean structures, coastal engineering, ocean measurements, and ocean acoustics. Opportunities exist for at least four technical electives, which help students gain further competence in an area of their choice. Students finish their curriculum with a two-semester senior capstone design project. Elective courses in the arts, humanities, and the social sciences are included to provide a well-rounded education.

Students work with an advisor to plan a program that is based on the required coursework for the degree. Some ocean engineering elective courses may not be offered every year.

The Ocean Engineering (B Sci in Ocean Engineering) program is accredited by the Engineering Accreditation Commission of ABET, http://www.abet.org, under the General Criteria and the Program Criteria for Naval Architecture, Marine Engineering, Ocean Engineering and Similarly Named Engineering Programs.

Requirements

Degree Requirements

Minimum Credit Requirement: 128 credits

Minimum Residency Requirement: 32 credits must be taken at UNH

Minimum GPA: 2.0 required for conferral*

Core Curriculum Required: Discovery & Writing Program Requirements

Foreign Language Requirement: No

All Major, Option and Elective Requirements as indicated.
**Major GPA requirements as indicated.*

Major Requirements

Technical Electives
The Ocean Engineering (OE) program curriculum requires four Technical Electives that are CEPS 600-level or higher courses, and include exceptions for CS 410C Introduction to Scientific Programming/C and CS 410P Introduction to Scientific Programming/Python. The math sequence MATH 525 Linearity I and MATH 526 Linearity II may be substituted for MATH 527 Differential Equations with Linear Algebra and MATH 528 Multidimensional Calculus, and in addition will also count as one Technical Elective. Acceptable Technical Electives from Colleges outside of CEPS include MARI 705 Introduction to Marine Policy: Understanding US Ocean, Coastal and Great Lakes Policy, MARI 730 Research Diving Technologies, MARI 735 Advanced SCUBA, MEFB 702 Sustainable Marine Fisheries, MEFB 755 Biological Oceanography, ZOOL 610 Principles of Aquaculture, TECH 750 Intellectual Asset Management for Engineers and Scientists, and TECH 780 Intellectual Property Law for Engineers & Scientists. Common Technical Electives include sequences that have been identified that will provide students more in-depth opportunities in one of the Ocean Engineering sub-areas. One Technical Elective must one of the following program-approved statistics courses: ESCI 764 Spectral Analysis of Geophysical Time Series Data, MATH 644 Statistics for Engineers and Scientists, or ESCI 701 Quantitative Methods in Earth Sciences.

Discovery Program
Students must satisfy the University's Discovery Program requirements. The following features are unique to students in the Ocean Engineering program: students are required to take an Inquiry course or an Inquiry Attribute course during their first two years. This is satisfied with ESCI 501 Introduction to Oceanography. The Discovery Environment, Technology, and Society (ETS) category requirement is met upon receiving a B.S. degree in ocean engineering. The Discovery Social Science category must be satisfied with either ECON 402 Principles of Economics (Micro) or NR 411 Environmental and Resource Economics Perspectives. The Discovery senior capstone experience is satisfied with TECH 797 Undergraduate Ocean Research Project.

Grade-Point Average
In order to graduate with an Ocean Engineering B.S. degree, students must have at least a 2.0 grade-point average in all engineering and science courses, including required technical electives, normally taken as department requirements after the start of the junior year as defined in the degree plan below.

Predictor courses: To continue beyond the first semester of the junior year, students must achieve at least a 2.00 GPA in the following courses: PHYS 407 General Physics I, MATH 426 Calculus II, ME 525 Statics or CEE 500 Statics for Civil Engineers, and ME 526 Mechanics of Materials or CEE 501 Strength of Materials, with only one grade below C- allowed in the courses.

Students are removed from the program if they obtain a semester GPA <1.5 three times. Students may petition to be reinstated after one year out of the program.

Transfer Policy for UNH Students

CEPS Students: To transfer into the freshman or sophomore year, students must earn a combined GPA greater than (but not equal to) 2.00 in PHYS 407 General Physics I and MATH 426 Calculus II with no grade below a C- in these two courses.

If students are enrolled in ME 525 Statics (or CEE 500 Statics for Civil Engineers), or ME 526 Mechanics of Materials (or CEE 501 Strength of Materials), they must earn a combined GPA of at least 2.00 with no grade below a C- in order to be allowed to transfer into the program.

Non-CEPS Students: To transfer into the Ocean Engineering B.S. from another college at UNH, students have to satisfy the CEPS college

transfer policy as well as the Ocean Engineering program transfer policies listed above according to status.

Code	Title	Credits
Required Courses		
CHEM 405	Chemical Principles for Engineers	4
or CHEM 403 & CHEM 404	General Chemistry I and General Chemistry II	
ECON 402	Principles of Economics (Micro)	4
or NR 411	Environmental and Resource Economics Perspectives	
ECE 537	Introduction to Electrical Engineering	4
ESCI 501	Introduction to Oceanography	4

1 MATH 425 Calculus I satisfies the Discovery Foundation Quantitative Reasoning category.
2 PHYS 407 General Physics I or CHEM 405 Chemical Principles for Engineers or CHEM 403 General Chemistry I and CHEM 404 General Chemistry II satisfies the Discovery Physical Science (with lab) category.
3 ENGL 401 First-Year Writing satisfies the Discovery Foundation Writing Skills category.
4 ESCI 501 Introduction to Oceanography satisfies the Discovery Inquiry requirement.
5 MATH 525 Linearity I and MATH 526 Linearity II may be substituted for MATH 527 Differential Equations with Linear Algebra and MATH 528 Multidimensional Calculus. The MATH 525 and MATH 526 sequence will also count as one Technical Elective.
6 Total technical elective credits must be at 14 credits or higher to meet the UNH required total of 128 credits for graduation

Student Learning Outcomes

Program Learning Outcomes

Upon completion of the B.S. in Ocean Engineering degree program, students will have the:

- ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science and math. Knowledge of fluid mechanics and hydrostatics with depth in at least one. An ability to apply solid mechanics and dynamics through multivariate calculus and differential equations. Knowledge of oceanography, water waves, and underwater acoustics. Ability to apply probability and applied statistics.
- ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety and welfare, as well as global, cultural, social, environmental and economic factors.
- ability to communicate effectively with a range of audiences.
- ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments which must consider the impact of engineering solutions in global, economic, environmental and societal contexts.
- ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives.
- ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions.
- ability to acquire and apply new knowledge as needed, using appropriate learning strategies.

Ocean Engineering Minor

https://www.unh.edu/program/minor/ocean-engineering

Description

The ocean engineering minor allows undergraduate engineering students to acquire a nucleus of knowledge about engineering pertaining to the ocean and the coastal zone.

Students wishing to take the ocean engineering minor should indicate their interest to the ocean engineering minor advisor, Tom Lippmann (t.lippmann@unh.edu).

Requirements

Academic policies related to Minors.

Credit toward the minor will only be given for courses passed with C- or better, and a 2.00 grade-point average must be maintained in courses for the minor.

Code	Title	Credits
Required Course		
OE 490	Introduction to Ocean Engineering	4
Electives		
Select four courses from the following:		
ESCI 501	Introduction to Oceanography	4
ESCI 720	Ocean Measurements Lab	4
ESCI 752	Chemical Oceanography	3
ESCI 758	Introductory Physical Oceanography	3
ESCI 759	Geological Oceanography	4
OE 717	Marine Robotics and Applications	3
OE 753	Ocean Hydrodynamics	3
OE 754	Ocean Waves and Tides	4
OE 757	Coastal Engineering and Processes	3
OE 758	Design of Ocean Structures	3
OE 765	Underwater Acoustics	3
OE 770	Geodesy for Ocean Mapping	3
OE 771	Positioning for Ocean Mapping	4
OE 795	Special Topics	2-4
CEE 722	Introduction to Marine Pollution and Control	4
TECH 797	Undergraduate Ocean Research Project	2

Students typically take ESCI 501 Introduction to Oceanography, TECH 797 Undergraduate Ocean Research Project, and OE 490 Introduction to Ocean Engineering plus two additional engineering courses from the above list to complete the minor.

Physics and Astronomy

Physics is concerned with the properties of matter and the laws that describe its behavior. As a fundamental science, its discoveries and laws are basic to understanding in nearly all areas of science and technology. Advances in such diverse fields as medical instrumentation, solid state electronics, and space research have relied heavily on the application of basic physical laws and principles.

Students interested in the study of physics at the University of New Hampshire will find a strong interaction between research and academic programs. Undergraduates frequently participate in research studies ranging from nuclear scattering experiments at major particle accelerators to astrophysical studies of the solar system using space probes. These experiences have proven beneficial to engineering and physics students alike. The department is located in DeMeritt Hall (completed in 2008) and Morse Hall. Both buildings are equipped with state-of-the-art research facilities and laboratories. DeMeritt Hall also

houses the physics library, classrooms, and a number of open and comfortable meeting areas, which provide an inviting atmosphere for study, interaction, and collaboration.

The suggested programs that follow are indicative of the flexibility available to students, whether they are preparing for graduate work in physics or astronomy, industrial opportunities, governmental research, secondary-level teaching, or a general education that might utilize the fundamental knowledge of physics.

Several undergraduate degree programs are offered through the department of physics. The B.S. degree is designed for students who wish to work as professional physicists or engineers. The B.A. degree is designed for students who want a strong background in physics but also want a broad liberal arts education. The department also offers a B.S. in engineering physics, which offers a deeper understanding of the physical principles needed to support careers in engineering. The BSEP program offers two tracks for students; aerospace and engineering research. Minors for astronomy and physics are also offered by the department.

Interested students are encouraged to contact the department for further information. More detailed information is also on the physics department website.

Faculty

Physics and Astronomy Department Faculty

Engineering Physics Major (B.S.)

https://www.unh.edu/program/bachelor-science/engineering-physics

Description

The goal of the UNH BSEP program is to produce broadly-trained engineers who can provide solutions to today's challenging problems in support of a technologically evolving society. The core of the program is based on interdisciplinary training, complemented with a deeper understanding of the physical principles needed to support careers in engineering, engineering research or, perhaps, further training in systems engineering. The program balances depth and breadth in skill development; flexibility and functionality are what drive the program in the sense that 1) the particular focus is based on the student's interests, and 2) the breadth of the course selection is guided by the post-graduation goals of the student (e.g., employment versus graduate school).

Requirements

Degree Requirements

Minimum Credit Requirement: 128 credits

Minimum Residency Requirement: 32 credits must be taken at UNH

Minimum GPA: 2.0 required for conferral*

Core Curriculum Required: Discovery & Writing Program Requirements

Foreign Language Requirement: No

All Major, Option and Elective Requirements as indicated.
**Major GPA requirements as indicated.*

Major Requirements

A student must have a minimum grade of C in each 400- or 500-level courses that are part of the core requirements and an overall grade-point average of 2.33 in these courses in order to continue in the program.

PHYS 711	Astrophysics II	4
PHYS 718	Quantum Materials	4
PHYS 720	Nuclear Physics	4
PHYS 764	General Relativity and Cosmology	4

Degree Plan

Sample Degree Plan

This sample degree plan serves as a general guide; students collaborate with their academic advisor to develop a personalized degree plan to meet their academic goals and program requirements.

Students are recommended (but not required) to take MATH 425H Honors/Calculus I and PHYS 407H Honors/General Physics I in their first semester and MATH 426H Honors/Calculus II and PHYS 408H Honors/General Physics II in their second semester, if eligible to take calculus first semester. Non-Honors versions of these courses will also satisfy the requirements for either Engineering Physics option.

Aerospace Track

Student Learning Outcomes

Program Learning Outcomes

Students are expected to achieve the outcomes below upon graduation.

- Students will master the fundamentals of a broad set of physics subjects (e.g., mechanics, electricity and magnetism, quantum mechanics, thermodynamics, optics).

- Students will have a solid understanding of mathematics (e.g., calculus, differential equations, linear algebra).
- Students will be able to solve physics and engineering problems using computational methods.
- Students will have excellent knowledge of the principles and practice of their chosen engineering disciplines.
- Students will be able to use physical principles to design systems, apparatuses, experiments or models; collect and analyze data; and develop conclusions.
- Students will be able to identify and solve complex engineering and physics problems by applying physical principles and mathematical tools.
- Students will be able to communicate technical content effectively to a range of audiences.

Physics Major (B.A.)

https://www.unh.edu/program/bachelor-arts/physics

Description

This program provides an opportunity for a broad and liberal education, which in some cases may be sufficient for graduate work. This program can also be excellent preparation for middle and high school physics teachers, pre-med and pre-law students, and those wishing to pursue a technical career in industry. Because there are fewer required courses than for a B.S., you have time to pursue other academic interests. A judicious choice of electives may also prepare students for interdisciplinary programs that require proficiency in a specialized area of physics.

Requirements

Degree Requirements

Minimum Credit Requirement: 128 credits

Minimum Residency Requirement: 32 credits must be taken at UNH

Minimum GPA: 2.0 required for conferral*

Core Curriculum Required: Discovery & Writing Program Requirements

Foreign Language Requirement: Yes

All Major, Option and Elective Requirements as indicated.
**Major GPA requirements as indicated.*

Major Requirements

Code	Title	Credits
Required Courses		
PHYS 400	Physics Seminar I	1
PHYS 407	General Physics I	4
or PHYS 407H	Honors/General Physics I	
or PHYS 407S	General Physics I Studio	
PHYS 408	General Physics II	4
or PHYS 408H	Honors/General Physics II	
or PHYS 408S	General Physics II Studio	
CS 410P	Introduction to Scientific Programming/Python	4
PHYS 505 & PHYS 506	General Physics III and General Physics III Laboratory	4
PHYS 508	Thermodynamics and Statistical Mechanics	4
PHYS 601	Computational Physics Recitation I	1
PHYS 602	Computational Physics Recitation II	1
PHYS 605	Experimental Physics I	5
PHYS 615	Classical Mechanics and Mathematical Physics I	4
PHYS 616	Classical Mechanics and Mathematical Physics II	4
PHYS 701	Quantum Mechanics I: Foundations, Quantum Information, and Quantum Computing	4
PHYS 703	Electricity and Magnetism I	4
PHYS 705	Experimental Physics II	4
Capstone		
Select from the following: [2]		2-8
PHYS 795 & PHYS 799	Independent Study and Thesis	
or INCO 790 & PHYS 799	Advanced Research Experience and Thesis	
or PHYS 798	Senior Project	
Mathematics		
MATH 425	Calculus I	4
or MATH 425H	Honors/Calculus I	
MATH 426	Calculus II	4
or MATH 426H	Honors/Calculus II	
Select one of the following options:		12
Option A:		
MATH 527 & MATH 528	Differential Equations with Linear Algebra and Multidimensional Calculus	
MATH 545	Introduction to Linear Algebra	
or MATH 645	Linear Algebra for Applications	
Option B:		
MATH 525 & MATH 526	Linearity I and Linearity II	
Total Credits		**70-76**

[1] Note that no physics course can satisfy these requirement for a physics major. The rationale behind this is that a course in physics does not broaden the education of a physics major.

[2] A capstone experience is required of all physics majors during their senior year. The Physics Department encourages students to write a senior thesis (PHYS 799 Thesis) for their capstone experience. Other options include independent study research projects (PHYS 795 Independent Study or INCO 590 Student Research Experience) or a special project as part of senior lab (PHYS 705 Experimental Physics II). All capstone experiences must be approved by the undergraduate committee during the student's penultimate semester.

Degree Plan

Sample Degree Plan

This sample degree plan serves as a general guide; students collaborate with their academic advisor to develop a personalized degree plan to meet their academic goals and program requirements.

First Year

Student Learning Outcomes

Program Learning Outcomes

- Students will master the fundamentals of mechanics, electricity and magnetism, quantum mechanics, and thermodynamics.
- Students will have a solid understanding of calculus and differential equations and be able to use mathematics to solve physics problems.
- Students will be proficient at taking measurements in a physics lab and analyzing measurements to draw valid conclusions.
- Students will be able to integrate competently the knowledge and skills acquired in the major and have adequate preparation to succeed in post-undergraduate studies or a professional career.
- Students develop and execute plans for post-graduation to establish their careers. Student will understand the variety of career paths and opportunities that are open to students who have majored in physics.
- Students will be able to present scientific ideas effectively in both written and oral form.

Physics Major (B.S.)

https://www.unh.edu/program/bachelor-science/physics

Description

The bachelor of science degree in physics prepares students for professional work as physicists, and is the first step toward graduate work in physics. It is also excellent preparation for graduate programs in medicine, law, or engineering, as well as for technical jobs in industry. The required courses are those typically necessary for admission to graduate study in physics or astronomy.

Requirements

Degree Requirements

Minimum Credit Requirement: 128 credits

Minimum Residency Requirement: 32 credits must be taken at UNH

Minimum GPA: 2.0 required for conferral*

Core Curriculum Required: Discovery & Writing Program Requirements

Foreign Language Requirement: No

All Major, Option and Elective Requirements as indicated.
**Major GPA requirements as indicated.*

Chemistry:		
CHEM 403	General Chemistry I	4
or CHEM 405	Chemical Principles for Engineers	
Mathematics:		
MATH 425	Calculus I	4
or MATH 425H	Honors/Calculus I	
MATH 426	Calculus II	4
or MATH 426H	Honors/Calculus II	
Select one of the following options: [2]		12
Option A:		
MATH 525 & MATH 526	Linearity I and Linearity II [2]	
Option B:		
MATH 528	Multidimensional Calculus	
MATH 527	Differential Equations with Linear Algebra	
MATH 545	Introduction to Linear Algebra	
or MATH 645	Linear Algebra for Applications	
Computer Programming:		
CS 410P	Introduction to Scientific Programming/Python	4
Capstone: [3]		**2-8**
Select from the following:		
PHYS 795 & PHYS 799	Independent Study and Thesis	
or INCO 790 & PHYS 799	Advanced Research Experience and Thesis	
or PHYS 798	Senior Project	
Total Credits		**90-96**

1 Note that no physics course can satisfy these requirement for a physics major. The rationale behind this is that a course in physics does not broaden the education of a physics major.

2 The Department generally recommends MATH 645 Linear Algebra for Applications over MATH 545 Introduction to Linear Algebra for physics majors.

3 A capstone experience is required of all physics majors during their senior year. The Physics Department encourages students to write a senior thesis (PHYS 799 Thesis) for their capstone experience. Other options include independent study research projects (PHYS 795 Independent Study or INCO 590 Student Research Experience) or a special project as part of senior lab (PHYS 705 Experimental Physics II). All capstone experiences must be approved by the undergraduate committee during the student's penultimate semester.

By the end of the spring semester of the sophomore year, a student must have a minimum grade of C in each 400- or 500-level course specifically required for the B.S. degree and an overall grade-point average of at least 2.33 in these courses in order to continue in the B.S. program.

Physics Electives

In the following table, "electives" include Discovery courses, writing-intensive courses, physics electives, and free-choice electives. Note that physics electives can only be taken in the junior or senior year because of prerequisites, and are in general offered every other year.

Code	Title	Credits
PHYS 708	Optics	4
PHYS 710	Astrophysics I	4
PHYS 712	Space Plasma Physics	4
PHYS 718	Quantum Materials	4
PHYS 720	Nuclear Physics	4
PHYS 764	General Relativity and Cosmology	4

Degree Plan

Sample Degree Plan

This sample degree plan serves as a general guide; students collaborate with their academic advisor to develop a personalized degree plan to meet their academic goals and program requirements.

Student Learning Outcomes

Program Learning Outcomes

- Students will master the fundamentals of mechanics, electricity and magnetism, quantum mechanics, and thermodynamics.
- Students will have a solid understanding of calculus, differential equations, and linear algebra and be able to use mathematics to solve physics problems.
- Students will be able to solve physics problems using computational methods.
- Students will be proficient at taking measurements in a physics lab and analyzing measurements to draw valid conclusions.
- Students will be well prepared for graduate study in physics and related disciplines.
- Students will be well prepared for technical careers.
- Students will be able to present scientific ideas effectively in both written and oral form.

Astronomy Minor

https://www.unh.edu/program/minor/astronomy

Description

This minor program introduces students to the fundamentals of astronomy and astrophysics and also allows students some flexibility in their choice of more focused coursework. The required courses cover the following topics : planets, stars, galaxies, cosmology, and modern astronomical tools. We have two flavors of the minor, one for those also getting a physics degree, and another for students outside of the physics major.

For further information please contact Professor Mark McConnell.

Requirements

Academic policies related to Minors.

- The minor requires a minimum of five courses as detailed in the requirements below.
- Additional courses from the list of course electives may be utilized to meet the five-course minimum.

Code	Title	Credits
Required Courses		
PHYS 406	Introduction to Modern Astronomy	4
PHYS 710	Astrophysics I	4
PHYS 711	Astrophysics II	4
PHYS 505	General Physics III (for non-physics majors only)	3
PHYS 506	General Physics III Laboratory (for non-physics majors only)	1
Select two courses (physics majors) or one course (non-physics majors) from the following:		8
ESCI 420	Our Solar System	
ESCI 741	Geochemistry	
ESCI 745	Isotope Geochemistry	
The following courses have significant physics pre-requisites and so may not be practical for non-physics majors		
PHYS 708	Optics	
PHYS 712	Space Plasma Physics	
PHYS 764	General Relativity and Cosmology	
Total Credits		**24**

Physics Minor

https://www.unh.edu/program/minor/physics

Description

This program allows students to become more deeply involved in physics without the commitment of a major.

To minor in physics, request a minor advisor at the physics office as soon as possible. Advisors assist in course selection to fit your interests, schedule, and help ensure you have met mathematical and physics prerequisites.

Requirements

Academic policies related to Minors.

Credit toward the minor will only be given for courses passed with C- or better, and a 2.00 grade-point average must be maintained in courses for the minor.

The following courses may NOT be used to fulfill minor requirements: PHYS 400, PHYS 401, PHYS 402, PHYS 409, PHYS 501.

Physics minors must take PHYS 407 and PHYS 408 or the equivalent. These two courses are prerequisites for all other physics courses.

Code	Title	Credits
Required Courses		
PHYS 407	General Physics I	4
PHYS 408	General Physics II	4
PHYS 505	General Physics III	3
Elective [1]		4
Elective [1]		4
Total Credits		**19**

[1] Select a four-credit physics course, chosen in consultation with the student's physics minor advisor.

1. PHYS 407, PHYS 408, PHYS 505 General Physics III & PHYS 506 General Physics III Laboratory, PHYS 508 Thermodynamics and Statistical Mechanics, PHYS 615 Classical Mechanics and Mathematical Physics I
2. PHYS 407 General Physics I, PHYS 408 General Physics II, PHYS 406 Introduction to Modern Astronomy, PHYS 615 Classical Mechanics and Mathematical Physics I, PHYS 616 Classical Mechanics and Mathematical Physics II
3. PHYS 407 General Physics I, PHYS 408 General Physics II, PHYS 615 Classical Mechanics and Mathematical Physics I, PHYS 616 Classical Mechanics and Mathematical Physics II, PHYS 703 Electricity and Magnetism I

Note: many physics courses have mathematics prerequisites. Prerequisites are listed in the course descriptions.

College of Health and Human Services

Kirsten N. Corazzini, Dean

Erin Hiley Sharp, Associate Dean, Academic Affairs

Dain LaRoche, Associate Dean, Research

The College of Health and Human Services (CHHS) prepares students for meaningful, high-impact careers across the health and human services professions through immersive, hands-on, experiential learning. Guided by faculty who are leaders in their fields, CHHS offers a diverse portfolio of undergraduate programs that blend rigorous academics with real-world practice.

Students can pursue bachelor of science degrees in communication sciences and disorders, exercise science, health and physical education, health management and policy, health sciences, human development and family studies, nursing, occupational therapy, public health, recreation management and policy, social work, and sport management and leadership.

Across all programs, students develop the professional knowledge, practical skills, and ethical foundations needed to thrive in today's workforce. CHHS also intentionally supports pathways to graduate and professional education when advanced degrees are required for licensure or professional practice, ensuring students are well prepared for continued education and credentialing. A strong grounding in the humanities and social sciences further prepares graduates to lead with cultural competence, critical thinking, and a commitment to improving health and well-being in diverse communities.

CHHS Undeclared Major

CHHS also offers an undeclared option for students who are exploring their interests, providing structured advising and early exposure to disciplines across the college to help them identify the major that best aligns with their goals.

ACE First Year Experience Program

All CHHS students take part in the ACE (Academic and Career Engagement) First-Year Experience Program, a signature initiative designed to support a confident and successful transition from high school to college.

Through personalized academic and career coaching, ACE empowers first-year students to navigate academic and co-curricular resources, build skills in active learning, reflection, and decision-making, and explore a wide range of career pathways and alumni connections. The program also fosters a strong sense of belonging, engagement, and community within CHHS and the broader UNH campus.

During their first year, ACE students enroll in ACE seminars that introduce CHHS majors, support career exploration and goal-setting, and connect students with the many academic, wellness, and professional resources available at UNH. Each student is supported by a dedicated ACE peer mentor and ACE academic coach for ongoing guidance, as well as a faculty mentor within their major unit — ensuring personalized support at every step of the first-year journey.

Degrees Offered

Bachelor of Science (B.S.)

Degree Requirements

Candidates for the Bachelor of Science (B.S.) degree must satisfy all University requirements for graduation, earn at least 128 credits, successfully complete the courses required in one of the majors described in this section, and achieve the required minimum grade-point average in the chosen curriculum. Degree candidates must satisfy all of the University Discovery and Writing Program requirements in addition to satisfying the requirements of an individual major program, which includes a senior capstone course/experience.

Applied Human Anatomy and Physiology

- Applied Human Anatomy and Physiology Minor (p. 168)

Applied Human Anatomy and Physiology Minor

https://www.unh.edu/program/minor/applied-human-anatomy-physiology

Description

The minor is designed to provide students with an opportunity to develop knowledge and skills necessary for pursuing degrees in medicine and allied health.

Admission to the applied Human Anatomy & Physiology minor is based on successful completion of the below courses (or equivalent accepted by the minor advisor) with a grade of C or better and a minimum GPA of 2.75.

Code	Title	Credits
Prerequisite Courses		
BMS 507	Human Anatomy and Physiology I	
& BMS 508	and Human Anatomy and Physiology II	
or ANSC 511	Animal Anatomy and Physiology I	
& ANSC 512	and Animal Anatomy and Physiology II	

Requirements

Academic policies related to Minors.

Code	Title	Credits
Required Courses		
EXSC 620	Physiology of Exercise	4
KIN 652	Clinical Kinesiology	4
KIN 653A	Musculoskeletal Assessment	2
KIN 706	Neurology	6
& KIN 707	and Neurology Lab	
Select one of the following:		4
EXSC 527	Scientific Foundations of Health and Fitness	
EXSC 607	Biology of Aging	
KIN 505	Activity, Injuries and Disease	
Total Credits		**20**

Communication Sciences and Disorders (CSD)

WHAT IS COMMUNICATION SCIENCES AND DISORDERS?

Communication Sciences and Disorders is the profession devoted to assessing and treating disorders, delays, or differences in speech, language, and hearing. In this program, students learn how the ability to communicate develops —including how the brain and speech and hearing mechanisms function to support the acquisition of speech, language, social communication, and cognition. You'll review an array of communication disorders that can affect individuals across the lifespan, learning about assessment and treatment. This pre-professional degree will prepare you to successfully enter clinical or research graduate programs in areas such as audiology, speech-language pathology, cognitive science, and education.

WHY STUDY COMMUNICATION SCIENCES AND DISORDERS AT UNH?

As a student in the communication sciences and disorders (CSD) program at UNH, you will learn about speech, language, and hearing through a unique educational model that includes classroom instruction, clinical observation, and research. Students observe at the on-campus Speech-Language-Hearing Center and Clinic for Neurogenic Communication Disorders, premier diagnostic and intervention centers in New Hampshire. In addition, you have the opportunity to participate in research activities in our state-of-the-art research laboratories. For students interested, a limited number of internships are available each semester.

Communication Sciences and Disorders (CSD) is devoted to helping people overcome disabilities of speech, language, and hearing. The study of Communication Sciences and Disorders may begin in the freshman or sophomore year. Students learn about speech, language, and hearing disorders in the classroom and are involved in clinical observation in the on-campus Speech-Language-Hearing Center and can participate in research projects. Students are encouraged to take elective courses in linguistics, human development, learning theory, early childhood, health administration, special education, and various aspects of rehabilitation.

As this is a pre-professional degree, students generally pursue graduate studies in speech-language pathology or audiology at colleges or universities offering graduate programs leading to a master's or doctoral degree and to subsequent certification by the American Speech-Language-Hearing Association (ASHA). Certified clinicians find employment opportunities in hospitals, schools, community speech and hearing clinics, and private practice. Candidates for a degree must satisfy all of the University Discovery Program requirements, in addition to satisfying the requirements of the Communication Sciences and Disorders major.

The Department of Communication Sciences and Disorders offers an Accelerated Master's program that provides CSD undergraduates with the opportunity to earn graduate credit during their undergraduate senior year, shortening the length of their graduate studies, and jumpstart their careers.

Faculty

Communications Sciences and Disorders Department Faculty

Communication Sciences and Disorders Major (B.S.)

https://www.unh.edu/program/bachelor-science/communication-sciences-disorders

Description

The Department of Communication Sciences and Disorders offers a Bachelor of Science degree in Communication Sciences and Disorders. In this program, students study human communication, including how it develops and how it interacts with social and cognitive systems. Students learn about speech, language, and hearing through a unique model of education, observation, and research. This pre-professional degree will prepare you to successfully enter clinical or research graduate programs in areas such as cognitive science, audiology, and speech-language pathology.

Requirements

Degree Requirements

Minimum Credit Requirement: 128 credits

Minimum Residency Requirement: 32 credits must be taken at UNH

Minimum GPA: 2.0 required for conferral*

Core Curriculum Required: Discovery & Writing Program Requirements

Foreign Language Requirement: No

All Major, Option and Elective Requirements as indicated.
**Major GPA requirements as indicated.*

Major Requirements

Candidates for a bachelor's degree in Communication Sciences and Disorders must satisfy all departmental as well as UNH Discovery and Writing Intensive requirements.

Students must earn a grade of C- or better in all COMM courses.

Code	Title	Credits
Required Courses		
PSYC 401	Introduction to Psychology	4
PSYC 402	Statistics in Psychology	4
LING 405	Introduction to Linguistics	4
PHYS 409	Investigating Physics	4
or CHEM 411	Introductory Chemistry for Life Sciences	
COMM 420	Survey of Communication Disorders	4
MATH 420	Finite Mathematics	4
COMM 504	Basic Audiology	4
BMS 507	Human Anatomy and Physiology I	4
COMM 521	Anatomy and Physiology of the Speech and Hearing Mechanisms	4
COMM 522	Language Acquisition	4
COMM 524	Clinical Phonetics	4
PSYC 581	Child Development	4
COMM 636	Speech and Hearing Science	4
COMM 705	Introduction to Aural Rehabilitation	4
KIN 706 & KIN 707	Neurology and Neurology Lab	6
COMM 707	Language Science	4
COMM 723	Observation Skills in Speech-Language Pathology (satisfies 25 Observation Hours)	2
COMM 741	Pediatric Speech and Language Disorders: Foundations in Clinical Decision-Making	4
COMM 742	Neurological Foundations of Communication Disorders Across the Lifespan	4
Required Breadth Course		
Select one course from the following:		3-4
ASL 435	American Sign Language I	
COMM 744	Seminar in Advanced Child Language Acquisition	
COMM 798	Special Topics	
Capstone		
COMM 724	Senior Capstone	4
or COMM 799	Honors Thesis	
Total Credits		**83-84**

Student Learning Outcomes

Program Learning Outcomes

- Students completing required COMM courses will have an understanding of the theories underlying speech, language, and hearing disorders.
- All CSD students will have a capstone experience which integrates their cumulative learning.
- Students will be introduced to evidence-based practice (EBP) as it relates to the professions of speech language pathology and audiology.
- The Communication Sciences and Disorders (CSD) undergraduate curriculum aligns with the American Speech Language Hearing Association (ASHA) standards. Students completing required COMM courses will have the foundational knowledge to meet ASHA standards.
- Students completing required COMM courses will have the academic preparation to apply to either SLP or Audiology graduate programs.

Exercise Science

Programs

- Exercise Science Major (B.S.) (p. 171)

Exercise Science Major (B.S.)

https://www.unh.edu/program/bachelor-science/exercise-science

Description

This curriculum prepares students for careers in health and fitness promotion and allied programs in hospitals, sports medicine centers, wellness clinics, universities, and rehabilitation facilities. Students are also prepared for advanced degree programs in the health professions, basic biology fields, medicine, or other health-related fields.

Interested students should consult with the undergraduate major coordinator, Aurora.Vellante@unh.edu

Requirements

Degree Requirements

Minimum Credit Requirement: 128 credits

Minimum Residency Requirement: 32 credits must be taken at UNH

Minimum GPA: 2.0 required for conferral*

Core Curriculum Required: Discovery & Writing Program Requirements

Foreign Language Requirement: No

All Major, Option and Elective Requirements as indicated.
**Major GPA requirements as indicated.*

Major Requirements

Students must earn a grade of C (2.0) or better in every required course. Successful completion of prerequisite courses is required before advancing to sequenced and higher-level coursework.

Code	Title	Credits
Required Courses		
BMS 507 & BMS 508	Human Anatomy and Physiology I and Human Anatomy and Physiology II	8
CHEM 403 & CHEM 404	General Chemistry I and General Chemistry II	8
EXSC 520	Contemporary Perspectives in Exercise Science	4

Total Credits		**84**

Code	Title	Credits
Capstone		
Students in exercise science complete the series of Capstone courses [2]		
EXSC 737	Exercise Prescription and Leadership in Healthy and Special Populations	4
EXSC 650A	Internship in Exercise Science [1]	6
EXSC 795	Practicum in Cardiac Rehabilitation	2
Total Credits		**12**

1. Students must complete EXSC 735, EXSC 736, EXSC 737 prior to enrolling in EXSC 650A.
2. These courses give students practical experience in evaluating health and fitness and prescribing exercise to a wide range of individuals. Students become proficient in assessing disease risk factors using tests of blood pressure, blood chemistry, body composition, maximal graded exercise tests#with electrocardiogram and assessed measures of strength and flexibility. Students develop individualized exercise prescriptions for assigned clients and work with them one-on-one to improve their health and fitness. The internship experience is an off-campus, 10-week, 27-hours per week, full-time experience and can only be taken after completion of EXSC737. This is typically taken during the summer after the spring academic term of the junior year.

Student Learning Outcomes

Program Learning Outcomes

- Apply fundamental principles of anatomy & physiology, chemistry, nutrition, exercise physiology, psychology, math and physics to anticipate and understand physiologic responses to acute and chronic exercise.
- Evaluate empirical literature in terms of accuracy, authority, bias and relevance, and synthesize information from a variety of sources for presentation in written and oral forms.
- Demonstrate competency in health and fitness assessments and use them to prescribe evidence-based exercise interventions to improve health, athletic performance, physical function and quality of life in diverse populations.
- Display professionally appropriate behaviors, ethical standards, sensitivity, compassion, and tolerance of individual differences, and demonstrate the ability to work in an interprofessional healthcare team.

Health and Physical Education

Programs

- Health and Physical Activity Promotion Major (B.S.) (p. 172)
- Health and Physical Activity Promotion Major: Health and Physical Education Teacher Licensure Option (B.S.) (p. 174)
- Interdisciplinary Health Education Minor (p. 177)
- Lifetime Activity Programming and Leadership Minor (p. 177)
- Physical Education Teaching Minor (p. 177)

Health and Physical Activity Promotion Major (B.S.)

https://www.unh.edu/program/bachelor-science/health-physical-activity-promotion

Description

The Health and Physical Activity Promotion major provides students a pathway to explore principles of human development, human performance, and behavior change across the lifespan. This major prepares students to work in non-clinical settings that focus on helping people to live healthy and active lifestyles across the lifespan.

The program provides students with an opportunity to take courses that deepen their learning in an area of specialized interest. This may include a self-identified grouping of courses or the declaration of a formal minor.

Students in this major can select between two options. The first, Health and Physical Activity Promotion, prepares students to work with clients of any age in a variety of settings including worksite wellness, fitness centers, community health and wellness programming, camps, sport coaching, and before/after-school programming. The second option, Health and Physical Education Teacher Licensure, specifically prepares students to teach health education and physical education in K-12 school settings.

For questions about the program, contact the undergraduate program coordinator Holly Alperin (holly.alperin@unh.edu) or call (603) 862-1211.

Student Learning Outcomes

Program Learning Outcomes

- Analyze how principles of human development, human performance, and motor behavior affect well-being and movement across the lifespan.
- Apply learning theories, psychological frameworks, behavior change and human performance models to enhance health and physical activity to improve individual and community well-being.
- Use evidence-based practices to develop, implement, and manage programming that improves the health and well-being of participants.
- Assess the effectiveness of health, fitness, and wellness programs at both individual and community levels and develop strategies for data-driven improvements.
- Utilize safety and risk management best practice in a variety of programs related to health, well-being, movement, & fitness.
- Demonstrate leadership, effective communication, and ethical decision-making to enhance health, fitness, and wellness programs in diverse settings.
- Utilize current and emerging technologies to enhance assessment, engagement, and program delivery in health, fitness and wellness programs.

Health and Physical Activity Promotion Major: Health and Physical Education Teacher Licensure Option (B.S.)

https://www.unh.edu/program/bachelor-science/health-physical-activity-promotion-health-physical-education-teacher-licensure

Description

Beginning in the 2026-2027 academic year, the Health and Physical Activity Promotion: Health and Physical Education Teacher Licensure Option (B.S.) is pausing admissions to the program. Current students will continue to have access to the same high-quality education and resources until they graduate.

The Health and Physical Activity Promotion Major: Health and Physical Education teacher licensure option at UNH offers comprehensive training in promoting youth wellness and physical development. Here you'll be able to explore multiple aspects of education—from learning theory and health frameworks to physical activity principles and teaching practices.

With a focus on authentic learning experiences, hands-on teaching opportunities, and evidence-based approaches, our program prepares you to engage with children of all abilities. Through intensive coursework and practical classroom experience, you'll develop the essential skills needed to make a lasting impact on the health and well-being of school-aged youth.

The health and physical education (HPE) licensure option provides a foundation for teaching through a four-year program (BS), or the UNH Department of Education fifth-year program leading to a master of arts in teaching (MAT). Graduates become licensed to teach kindergarten through grade 12 (K-12) health education and physical education in the state of New Hampshire. Extensive supervised practicum experiences that develop teaching skills, including adaptive physical education programming, offer an excellent foundation for preparing high-quality teachers. The combination of health education with physical education and adaptive physical education makes graduates highly marketable.

Requirements

Degree Requirements

Minimum Credit Requirement: 128 credits

Minimum Residency Requirement: 32 credits must be taken at UNH

Minimum GPA: 2.0 required for conferral*

Core Curriculum Required: Discovery & Writing Program Requirements

Foreign Language Requirement: No

All Major, Option and Elective Requirements as indicated.
**Major GPA requirements as indicated.*

Major Requirements

Teaching candidates must receive a minimum grade of C- or better in all major-required courses with the following exceptions: Students must earn a minimum grade of B- or better in the following major-required

courses, HPE 570, HPE 675, HPE 781, and EDUC 605 and a passing grade in BMS 507 and BMS 508.

Background Check Requirements

Teaching candidates will be required to complete a background check for each teaching placement, as determined by the host site. This may include finger-printing and a background check. In addition, the state of New Hampshire requires a background check as a part of admittance to a teacher licensure preparation program. The fee for this processing is the responsibility of the teacher candidate and is paid directly to the school district or State of New Hampshire.

Clinical Placements

Teaching candidates will be required to participate in clinical teaching placements outside of the UNH campus and teacher candidates must be willing and able to travel outside of the Durham area beyond walking distances. This will require teaching candidates to have access to reliable transportation during the duration of each clinical experience. Clinical experiences typically occur within 60 miles of the UNH-Durham campus, though may be modified based on cooperating teacher availability.

Teaching Licensure Program Requirements

Teaching candidates who complete this option will have completed all course requirements to graduate from an *approved teacher preparation program*. All students in the Health and Physical Education Teacher Licensure option must meet state student-teaching requirements (e.g. basic academic skills assessment and criminal background check) and minimum 2.5 overall and 2.67 major GPA and course progression requirements confirmed through application during the spring of their junior year. Teaching candidates must present proof of current CPR/AED & First Aid certification in the areas of Standard First Aid and Adult, Child, and Infant CPR/AED from a professional organization prior to application for student teaching.

Students who do not meet requirements will be transitioned to the Health and Physical Activity Promotion major non-licensure.

Graduates of the Health and Physical Education Teacher Licensure will be eligible for recommendation to the NH Department of Education for the Health Education license and the Physical Education licensure. Licensure by the NH Department of Education also depends on meeting state subject area testing requirements and criminal background check. Completion of additional requirements are outside the UNH teacher licensure program requirements and the responsibility of the teaching candidate.

A teaching license issued by the state of New Hampshire is seen as valid in other states across the country, however each state may have their own additional requirements for licensure in that particular state.

Culminating Experience

The coursework for students choosing the four-year or five-year path to teaching licensure is exactly the same until the final semester of the undergraduate program. The culminating experience for students in the four-year teaching program is student teaching (EDUC 694D /HPE 694). Students must maintain a GPA of 2.5 to be eligible to student teach. Students choosing the fifth-year accelerated masters program receive program acceptance and complete a year-long internship, in lieu of student teaching.

Student Learning Outcomes

Program Learning Outcomes

- Apply evidence-based pedagogical practices that enable effective teaching of health education, physical education, and adapted physical education at all levels.
- Create a learning environment that allows each student to feel safe, challenged, valued, and a sense of belonging by embracing the unique strengths each student brings into the classroom and gymnasium.
- Integrate foundational knowledge and skills of health education and physical education to enhance instructional effectiveness and student learning outcomes.
- Design standard-based curriculum for health education and physical education that supports the development of students' intellectual, physical, social and emotional well-being.
- Design and implement authentic and standardized assessments for health education and physical education that will enhance and inform student learning.
- Demonstrate leadership, effective communication, and ethical decision-making.
- Utilize current and emerging technologies to enhance assessment, engagement, and program delivery in health education and physical education.
- Facilitate interdisciplinary collaboration that improves the health and well-being of students in K-12 settings.

Disclosures

Health and Physical Activity Promotion Major: Health and Physical Education Teacher Licensure Option (B.S.)

Location/Delivery: College of Health and Human Services, Durham Campus [In Person Program]

This program is designed to prepare graduates for professional licensure/certification as follows:

Teacher Licensure

Health and Physical Education K-12

*The University of New Hampshire has determined this program **meets** the educational requirements for licensure/certification in:*[1]
Alabama, Alaska, Arizona, Arkansas, California, Colorado, Connecticut, Delaware, Florida, Georgia, Hawaii, Idaho, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Michigan, Minnesota, Mississippi, Missouri, Montana, Nebraska, Nevada, New Hampshire, New Jersey, New Mexico, New York, North Carolina, North Dakota, Ohio, Oklahoma, Oregon, Pennsylvania, Rhode Island, South Carolina, South Dakota, Tennessee, Texas, Utah, Vermont, Virginia, West Virginia, Wisconsin, Wyoming.

Additional information and related resources are available on the Registrar's Office website.

[1] State specific post-education requirements are subject to change. Students are responsible for confirming these requirements in their state of residence and intended practice.

Interdisciplinary Health Education Minor

https://www.unh.edu/program/minor/interdisciplinary-health-education

Description

The Interdisciplinary Health Education Minor prepares future professionals to approach health and well-being through a culturally-responsive and trauma-informed lens across multiple dimensions of wellness. Students gain the knowledge and skills to promote, support, and affect behavior change in ways that positively impacts the health and well-being of individuals and communities. Those who complete this minor have the ability to apply their knowledge and skills in settings such as schools, before/after-school programs, clinical settings, community health centers, fitness centers, and/or corporate settings.

Requirements

Academic policies related to Minors.

Code	Title	Credits
Core Required Courses		
HPE 648	Moving Towards Well-Being: Principles of Health Behavior Change for Health and Wellness Educators	4
HPE 671	Health Education Pedagogy	4
Electives		
Select 3 courses from the following:		12
EXSC 527	Scientific Foundations of Health and Fitness	
HDFS 746	Human Sexuality	
HMP 669	Human Behavior and the Public Health	
HMP 403	Introduction to Public Health	
HPE 702	Health Content and Youth Risk Behavior	
HPE 712	Health Education Practicum	
HS 770	General Medical Conditions for Health Professions	
NUTR 400	Nutrition in Health and Well Being	
NUTR 610	Nutrition Education and Counseling	
Total Credits		**20**

The following tracks below serve as a guide for students though no requirements exist to complete the minor in a specific track.

School Health: For students interested in school health education, consider the following courses, HPE 702 Health Content and Youth Risk Behavior, HPE 712 Health Education Practicum, HDFS 746 Human Sexuality, NUTR 400 Nutrition in Health and Well Being, EXSC 527 Scientific Foundations of Health and Fitness.

Public Health: For students interested in public and community health education, consider the following courses, NUTR 610 Nutrition Education and Counseling, HMP 669 Human Behavior and the Public Health, HMP 403 Introduction to Public Health, HDFS 746 Human Sexuality, EXSC 527 Scientific Foundations of Health and Fitness, HS 770 General Medical Conditions for Health Professions.

Note some courses have prerequisites.

Students may overlap no more than 8 credits between their major and a minor.

Lifetime Activity Programming and Leadership Minor

https://www.unh.edu/program/minor/lifetime-activity-programming-leadership

Description

The minor in Lifetime Activity Programming and Leadership is for students with an interest in working with youth in out-of-school activity settings such as before or after school programs, summer camps, outdoor/adventure settings, etc. The majority of courses will engage students in purposeful movement and will be physically engaging. Each course will have a teaching component that prepares students to facilitate the various activities with young people in a wide-range of environments.

Requirements

Academic policies related to Minors.

OUT 552	Adventure Programming: Water Based Experiences	
LAP 500 Level Course		
Total Credits		**21-23**

Physical Education Teaching Minor

https://www.unh.edu/program/minor/physical-education-teaching

Description

The minor in Physical Education Teaching is for students with an interest in pursuing a graduate degree to teach physical education after completing their undergraduate degree at UNH. The coursework and practicum experiences lay the foundation for understanding teaching using best practices in the physical education field. The courses provide a foundation in how to teach physical education along with specific instruction on teaching pupils with disabilities. A combination of activity-based courses and field experiences at a local elementary, middle or high school give students a true sense for what teaching physical education is all about. Upon completion of this minor, students will have the baseline content knowledge and experience to teach physical education if they choose to pursue teaching certification at the graduate school level.

Requirements

Academic policies related to Minors.

Health Management and Policy (HMP)

Health Management and Policy is an interdisciplinary program providing students with a broad view of healthcare organizational structure and healthcare policy, while developing analytical skills that are integrated within courses and computer laboratories throughout the curriculum. Students are prepared to pursue careers in a wide range of healthcare organizations focusing on the business aspects and public health aspects within healthcare leadership. Graduates work in private practices, long-term care, rehabilitation facilities, hospitals, start-up organizations, urgent care centers, and other managed care organizations in such areas as finance, information systems, management, marketing, operations, project management, as well as public health departments, community health, community-based and home-health agencies, mental health facilities, regulatory bodies, consulting companies, and insurance companies.

Students have the opportunity to become student members in the Medical Group Management Association (MGMA), American College of Healthcare Executives (ACHE), the Health Care Financial Management Association (HFMA), the American Public Health Association (APHA), and the New Hampshire Public Health Association (NHPHA) to establish a professional network and be informed on current issues within the field. The Health Management and Policy curriculum is approved under the New England Commission of Higher Education (NECHE).

Health Analytics Minor

https://www.unh.edu/program/minor/health-analytics

Description

The objective of this minor is to provide a basic background in analytics for those who are pursuing majors in health or health related fields but would like a more data and analytic rich skills set. The minor will take an application-oriented focus and is intended for those students interested in more exposure to the underlying data related components of data visualization, the data and analytic ecosystem within organizations and society, and the use and implications for use of health analytics. The minor assumes preparation in an undergraduate statistics class.

The minor is meant to allow students to both have a core related to health analytics, but also customize their approach along the continuum of skills via the use of the two electives. For example, students wishing to become more hands on data practitioners and thus facile with the programming environment can do that, whereas students who wish to be more focused on data consumption or data translation for change can elect for that option.

Requirements

Health Management and Policy Major (B.S.)

https://www.unh.edu/program/bachelor-science/health-management-policy

Description

The Health Management & Policy (HMP) curriculum includes a variety of healthcare content areas, such as data, epidemiology, finance, management, marketing, policy, and elective public health courses. Students complete a core of introductory courses prior to junior year. Junior and senior HMP major courses are designed to build sequential knowledge and includes a summer internship.

Students are assigned an HMP faculty advisor to provide guidance on major and University required courses. This Bachelor of Science degree prepares students to be knowledgeable in healthcare upon graduation, with employment opportunities including (but not limited to) healthcare consultants, health data analysts, sales, introductory project management roles, and administrators in training for long term care facilities. Many HMP graduates pursue graduate degrees in business, epidemiology, law, public health, and project management.

It is important to note that internal and external transfers may require an extra year due to prescribed course sequence. Students interested in studying abroad should plan to do so prior to their junior year.

Requirements

Degree Requirements

Minimum Credit Requirement: 128 credits

Minimum Residency Requirement: 32 credits must be taken at UNH

Minimum GPA: 2.0 required for conferral*

Core Curriculum Required: Discovery & Writing Program Requirements

Foreign Language Requirement: No

All Major, Option and Elective Requirements as indicated.
**Major GPA requirements as indicated.*

Major Requirements

- HMP majors must obtain a minimum grade of C in all required courses and prerequisite courses.
- Majors must maintain an overall grade-point average of 2.0 to remain in the major.

Code	Title	Credits
Required Courses		
HMP 401	United States Health Care Systems	4
HMP 403	Introduction to Public Health	4
HMP 501	Epidemiology and Community Medicine	4
HMP 512	Using Data to Improve Human Health	4
HMP 621	Pre-practicum Seminar	2
HMP 622	Field Practicum in Organizational and Project Analysis, and Management Skills Development	3

HMP 744	Law and Ethics in Healthcare	4
HMP 746	Health Policy	4
Statistics Course [1]		
Select one course from the following:		
HMP 540	Statistics for Health and Human Service Professionals	4
or MATH 439	Statistical Discovery for Everyone	
or PSYC 402	Statistics in Psychology	
or SOC 402	Statistics	
or ADMN 510	Business Analytics and Statistics	
Honors in Major		
HMP 798H	Honors Project/Research Design [2]	2
HMP 799H	Honors Project/Research [3]	4

1 AP Statistics does not meet the statistics requirement.
2 HMP 798H is taken for two credits Fall of senior year, if selected for Honors in Major.
3 HMP 799H is taken for four credits Spring of senior year, if completing the Honors in Major thesis.

Field Practicum

HMP 622 Field Practicum in Organizational and Project Analysis, and Management Skills Development is the required 400 hour 10-week field practicum, (or administrative internship), which constitutes an essential part of the HMP academic program. The field practicum occurs during the summer between junior and senior year, typically beginning in late May and ending in late August, requiring a full-time commitment of the student. Students must be an HMP major, in good academic standing in the major, and must retain a cumulative GPA of 2.00 or higher to be granted permission to enroll in the course.

This experience allows students to explore an area of special interest in depth that integrates class work with a supervised field experience. Given sufficient timing of student requests, efforts will be made to arrange practica at distant sites based on special needs. Field practicum sites are selected with student involvement. Typical sites are often concentrated in central and Northern New England, but the experience could also be elsewhere, including abroad.

Academic Requirements

HMP majors must obtain a minimum of a C in all HMP required courses and prerequisite courses. Majors must have an overall grade-point average of 2.00 to remain in the major. Students not continuing to make progress in the major, as evidenced by a low grades (below C), incomplete courses, and/or administrative failures resulting in a cumulative GPA lower than 2.0 may, upon determination by the Health Management and Policy faculty, be excluded from the major and participation in the Field Practicum. Students must complete HMP 401 , HMP 403 , HMP 501 , HMP 512 , and Statistics with a C or better prior to Fall semester of junior year or they will be excluded from the major. An exclusion from the major may also be necessary to resolve questions concerning major departmental requirements or University academic standards.

The academic action of *exclusion* could be a temporary action. Consideration for a temporary action requires that a petition is completed by the student detailing the *extenuating* circumstances and providing supportive documentation to the Health Management and Policy Department for review by faculty with a determination of approval. Should a petition be granted *approval to remain in the major* due to extenuating circumstances, the student must demonstrate academic progress (C in HMP courses and 2.0 GPA) the following semester or they will be excluded from the major without the option to return. If the petition is not determined approved by the faculty, students will be required to change their major.

Internal Applications for HMP Major

Students interested in additional information or in applying for admission to the health management and policy major should attend an HMP information session, and/or contact the academic department

coordinator. Efforts should be made to complete this process during the freshman year or early in the sophomore year to ensure sufficient time to complete the required courses, HMP 401 , HMP 403 , HMP 501 , HMP 512 , and Statistics prior to junior year. Failure to complete the five required courses prior to junior year will result in exclusion from the major. Admitted UNH students can apply to the major once the student meets the application requirements, a minimum cumulative GPA of 2.00; however all HMP required courses must be completed with a C or better to progress in the major.

Honors in Major

The department offers an honors-in-major program. Students must meet the department's requirement of having an overall 3.7 grade-point average at UNH and a 3.7 grade-point average for required HMP courses taken by the end of the spring semester sophomore year to be invited to Honors-in-Major. Honors-in-major students take a total of three honors designated major courses during the junior year and senior year, as well as completing an honors thesis project during the senior year, HMP 798H and HMP 799H . Students work on the honors thesis with a faculty member within the HMP department who has knowledge in the specific topic. Students should contact the academic department coordinator for further information.

Student Learning Outcomes

Program Learning Outcomes

- The complexity of the health care delivery system, quality of care, and it relates to population health as well as the complexity of financing of the US healthcare delivery model.
- Analyze complex management situations, data and apply (appropriate) health management concepts, theories and models to develop recommendations, working within a team environment.

- Ability to describe and discuss the role of Human resource functions and the laws governing, the difference between management and leadership, organizational structures, mergers, acquisitions and affiliations and the role of governmental laws and regulations.
- Identify and prioritize organizational needs and market imperatives in design and development of business plans for health Programs and services in a variety of management settings to compile, present and discuss data and its limitations related to specific managerial problems and ethics for organizational decision making based on regulations and principles that govern the domains and the role of management and leadership.
- Use pf computer analysis tools for calculating, aggregating, presenting and discussing data and its analysis.
- Understand the importance of a Mission and Vision statements and Identification and involvement of stakeholders, recognizing political and legal implications of actions and decisions.
- Describe and generally assess key concepts and elements of health information systems selection and implementation of health care systems and regulatory requirements related to clinical and financial systems, and the role in HIT/HIM as it relates to cost, quality and access.
- Application of economic theory and current mechanisms for advanced financial knowledge to decision making and strategic thinking skills, ability to identify and target market segment and defined appropriate intervals to measure. the time value of money, long-term debt, stocks and equity, and evaluation of capital projects.
- Communicate information, ideas and information effectively in a written and oral format using appropriate professional conventions.

Health Management Minor

https://www.unh.edu/program/minor/health-management

Description

The department of Health Management and Policy (HMP) offers an integrated minor in health management, designed for students in majors outside of Health Management and Policy who are interested in learning about the business leadership aspects of healthcare. Students seeking to minor in health management should meet with the academic department coordinator to discuss the requirements.

Requirements

Academic policies related to Minors.

The minor consists of completing five courses (20 credits).

A minimum grade of C- or better is required in coursework for the minor.

Code	Title	Credits
Required Courses		
HMP 401	United States Health Care Systems	4
HMP 721	Managing Health Care Organizations [1]	4
HMP 740	Health Care Financial Management	4

HMP 642	Health Economics	
HMP 669	Human Behavior and the Public Health	
HMP 703	Translation of Health Data	
HMP 711	Introduction to Healthcare Operations Analytics	
HMP 712	Healthcare Operations Management	
HMP 722	Health Care Management II [1]	
HMP 741	Health Care Financial Management II [1]	
HMP 744	Law and Ethics in Healthcare	
Total Credits		**20**

[1] HMP 401 must be taken before completing 600 and 700 level courses.
[2] Prerequisite courses must be completed for all HMP courses.

Public Health Major (B.S.)

https://www.unh.edu/program/bachelor-science/public-health

Description

The Bachelor of Science in Public Health (BSPH) program provides students with a multi-disciplinary understanding of public health and its determinants. It does this through both core and elective courses examining epidemiology, statistics and data visualization, environmental health, health policy, health communication, and social and behavioral health. The program is designed to prepare students to address public health challenges by examining health equity, disease monitoring and prevention, environmental/planetary health, health policy and promotion and integrative health systems broadly defined.

Throughout the program, students will gain both theoretical knowledge and practical skills necessary to analyze health data, understand the social determinants of health, develop health interventions, and influence health policy and practice. They will engage in coursework that integrates scientific principles with real-world applications in areas such as public health ethics, infectious disease control, and health communication. Coursework will support the core functions of public health: assessment, policy development, and assurance.

Graduates of the BSPH program will be equipped for diverse career opportunities in government agencies, non-profit organizations, healthcare systems, and private industry, or for advanced studies in public health, medicine, or related fields. The program emphasizes experiential learning through the capstone project and fosters a hands-on approach to solving multi-sectoral public health issues at local, national, and global levels.

Students have the opportunity to become student members in the American Public Health Association (APHA), and the New Hampshire Public Health Association (NHPHA) to establish a professional network and be informed on current issues within the field.

Requirements

Degree Requirements

Minimum Credit Requirement: 128 credits

Minimum Residency Requirement: 32 credits must be taken at UNH

Minimum GPA: 2.0 required for conferral*

Core Curriculum Required: Discovery & Writing Program Requirements

Foreign Language Requirement: No

All Major, Option and Elective Requirements as indicated.

Major GPA requirements as indicated.

Major Requirements

Students begin the curriculum with preprofessional courses, which include courses in health care systems, public health, health communication epidemiology and statistics. In addition to meeting the University Discovery and Writing Program requirements, students must complete both the core and courses and select electives from each of the interdisciplinary foci in Health Assessment, Policy Development, Health Assurance and Spatial Mapping.

- Majors must obtain a minimum grade of C in all required courses and prerequisite courses.
- Majors must maintain an overall grade-point average of 2.0 to remain in the major.

Student Learning Outcomes

Program Learning Outcomes

- Apply Core Public Health Principles: Demonstrate a foundational understanding of public health concepts such as epidemiology, biostatistics, health promotion, environmental health, and disease prevention to address population health challenges. Knowledge and skills will support the core functions of public health: assessment, policy development, and assurance.
- Analyze Public Health Data: Use quantitative and qualitative research methods to analyze public health data, identify health trends, and assess the effectiveness of public health interventions.
- Understand Social Determinants and Vital Conditions of Health: Analyze how social, cultural, economic, and environmental factors impact health outcomes and contribute to health disparities within populations.
- Develop and Implement Public Health Interventions: Design and apply evidence-based strategies and interventions that promote health, prevent disease, and improve the well-being of communities.
- Communicate Public Health Information: Effectively communicate public health concepts, research findings, and health policies to diverse audiences, including policymakers, healthcare professionals, and the general public.
- Evaluate Public Health Policies: Critically assess existing public health policies, programs, and laws, and advocate for policy changes that improve population health and health equity.
- Practice Ethical Public Health Leadership: Demonstrate ethical decision-making, both fiduciary and practical, and overall leadership, in public health practice, considering the diverse needs of populations while advocating for justice, equity, and inclusion.
- Collaborate in Multidisciplinary Teams: Work effectively within interdisciplinary teams to address complex public health issues through collaborative problem-solving and community engagement.

Public Health Minor

https://www.unh.edu/program/minor/public-health

Description

The department of Health Management and Policy offers a minor in public health. Public health deals with the health of populations and focuses on health promotion and disease prevention, as well as access to the medical system. The minor introduces students to many of the foundation areas of public health and provides basic exposure to key concepts and skills in the five core disciplines of public health, as articulated by the Council on Education for Public Health. The minor is open to baccalaureate students outside of the Health Management and Policy major at UNH. Students interested in this field may decide to continue their education with the Master of Public Health (MPH), which is also offered through the Department of Health Management and Policy.

Requirements

Academic policies related to Minors.

Code	Title	Credits

1 All prerequisite courses must be met for any listed courses.
2 Other courses could be considered by submission of an academic petition.

Health Sciences

- Health Sciences Major (B.S.) (p. 184)

Health Sciences Major (B.S.)

https://www.unh.edu/program/bachelor-science/health-sciences

Description

The Health Sciences program is designed for students who are committed to joining the distinguished community of health care professionals. Students build essential academic and professional skills while completing rigorous prerequisite coursework that prepares them for advanced study in the health professions, particularly for those who aspire to become health care providers. As many professional programs now require post-baccalaureate training, the curriculum emphasizes the preparation needed to be competitive for admission to graduate or professional school. While many graduates pursue advanced training in fields such as physician assistant studies, medicine, physical therapy, nursing, and related health professions, others enter the workforce in hospital, clinical, or community-based health settings.

Requirements

Degree Requirements

Minimum Credit Requirement: 128 credits

Minimum Residency Requirement: 32 credits must be taken at UNH

Minimum GPA: 2.0 required for conferral*

Core Curriculum Required: Discovery & Writing Program Requirements

Foreign Language Requirement: No

All Major, Option and Elective Requirements as indicated.
**Major GPA requirements as indicated.*

Major Requirements

Students are required to have earned a minimum, cumulative, GPA of 2.85 by the end of their Sophomore/2nd Year in the Health Sciences Major. Students are also required to achieve a C or better in all required courses in the major. Students with a GPA below 2.85 will be excluded (removed) from the Health Sciences Major.

Code	Title	Credits

or HMP 540	Statistics for Health and Human Service Professionals	

[1] Any UNH statistics course satisfies the requirement with advisor approval.

Required University Courses

Candidates for a degree must satisfy all of the University Discovery requirements in addition to satisfying the requirements of the Health Sciences curriculum and any pre-requisite coursework needed to apply to the graduate programs they plan to pursue.

Recommended Electives

A student's plan of elective courses should align with post-baccalaureate pursuits, and be approved by a Health Sciences advisor.

Recommended electives for future health professionals that are external to the Health Sciences courses may include course work in Communication Sciences & Disorders, Human Development & Family Studies, Health & Human Services, Health Management & Policy, Kinesiology, Nursing, Occupational Therapy, Recreation Management & Policy, Social Work, and other coursework in the life sciences and health and human services.

Code	Title	Credits

Student Learning Outcomes

Program Learning Outcomes

- Demonstrate understanding of core principles of biology, chemistry, physics, anatomy and physiology, psychology, and kinesiology.
- Demonstrate comprehension of musculoskeletal evaluation and assessment techniques.
- Demonstrate responsiveness to cultural considerations in healthcare. a.) Understand influence of age, race, ethnicity, gender, sexual orientation, spirituality, socioeconomic status, and other aspects of diversity on individual healthcare needs and health-related quality of life.
- Demonstrate an understanding of scientific research and writing. a.) Ability to identify and analyze scholarly literature. b.) Ability to synthesize and articulate research findings through writing.
- Demonstrate knowledge of behaviors, scopes of practice, and legal and ethical standards for health professions.
- Understand concepts of evidence-based practice and patient-centered care for health professions.

Human Development and Family Studies (HDFS)

As a human development and family studies major at UNH, you'll learn to promote the health and well-being of children, individuals, and families. The program curriculum embraces diversity and emphasizes excellence and innovation in best practice, preparing you for a variety of in-demand careers and graduate programs in education, social services, healthcare, and more. Within the major, students specialize in one of three options: child development, early childhood education teacher licensure, or family and lifespan development.

As a major public research university, UNH emphasizes hands-on experience and research opportunities. Students in the human development and family studies major have multiple opportunities to put theory into practice through practicum and internship opportunities at the Child Study and Development Center, and in schools and community-based settings that serve individuals and families.

Human Development and Family Studies degree options:

- **Child Development**: provides specialized knowledge on the development of infants and children, preparing professionals to work in a variety of careers centered on enhancing child well-being.
- **Early Childhood Education (ECE) Teacher Licensure**: focuses on young children's early learning and teaching strategies to support such learning. This option is approved by the NH State Department of Education with successful completion leading to eligibility for licensure as an early childhood educator (birth - 3rd grade) in the State of NH.
- **Family and Lifespan Development:** emphasizes the quality, and impact of, relationships across the lifespan and individual growth and

well-being, preparing professionals to work in a variety of careers that focus on supporting couples, families, or individuals at any age.

Students in the ECE Teacher Licensure option are required to complete a full-year ECE student teaching internship senior year. Students in the Child Development and Family and Lifespan Development options may choose to apply to the optional, full-year, senior year HDFS Community Internship program. Community internship sites include a variety of non-profit and social service agencies around the Seacoast region of New Hampshire with great care taken to match students to sites that best support their career objectives.

Minors:

The Human Development and Family Studies department offers three complementary undergraduate minors. An undergraduate minor allows students to demonstrate a special area of interest, focus, or expertise and supports their academic major and future educational and career goals. Each HDFS minor highlights key aspects of individual and family development.

- **Child Life**
- **Adolescent and Youth Development**
- **Human Development and Family Studies**

The Human Development and Family Studies minor is only available to non-HDFS majors; however, HDFS majors may choose to minor in Adolescent and Youth Development or Child Life (or a minor outside of the HDFS Department). The Child Life minor may also be taken by HDFS students interested in working with families and children in a hospital setting.

- Human Development and Family Studies Minor (p. 192)

Faculty

Human Development and Family Studies Department Faculty

Adolescent and Youth Development (Minor)

https://www.unh.edu/program/minor/adolescent-youth-development

Description

The departments of Recreation Management and Policy and Human Development and Family Studies offer an interdisciplinary minor designed to give students an opportunity to develop knowledge and skills regarding adolescence and youth development. The two required courses offer a foundation in theory, research, and practice, and students choose three additional courses in order to better prepare students to work with this age group.

Requirements

SW 705	Child and Adolescent Risks and Resiliency: Program, Policy and Practice	4

Other adolescent or youth-based courses as approved by minor coordinator.

Child Life Minor

https://www.unh.edu/program/minor/child-life

Description

The department of Human Development and Family Studies offers a minor in Child Life. The minor introduces undergraduate students to the Child Life profession, which works with children, adolescents, and families facing challenges associated with hospitalization, medical procedures, illness, and disability. You will gain insight on how to support children and their families to effectively cope with the stress and anxiety of hospitalization using developmental play and normalized activities in their environment.

For students who wish to go on to become Child Life Specialists, the full list of UNH approved courses by the Association of Child Life Professionals can be found under HDFS Undergraduate Forms. Read more about ACLE certification.

The Child Life minor may also be taken by HDFS students.

Requirements

Academic policies related to Minors.

Code	Title	Credits
Required Courses		
HDFS 565	Introduction to Child Life [2]	4
or SW 565	Introduction to Child Life	
HDFS 623	Infant and Child Development [2]	4
Select three courses from the following:		12
HDFS 590	Learning Through Play [2]	

HDFS 624	Adolescent Development	
HDFS 635	Teaching and Learning in Early Childhood Settings [2]	
HDFS 641	Parenting Across the Life Span [2]	
HDFS 684	Curriculum for Young Children [2]	
HDFS 697	Special Topics (Child Life Design and Programing)	
HDFS 707	Practicum [1]	
HDFS 709	Child Development Internship [2]	
NURS 535	Death and Dying [2]	
Total Credits		**20**

1 Internship under the supervision of a CCLS. Contingent on approval from instructor and securing an internship site.

2 Approved Child Life Certification course. These courses meet the Association of Child Life Professionals requirements to sit for the Exam. Note: Course work is only part of the ACLP requirements. Please visit the ACLP website for complete information.

Human Development and Family Studies Major: Child Development Option (B.S.)

https://www.unh.edu/program/bachelor-science/human-development-family-studies-child-development

Description

Human Development and Family Studies (HDFS) is an academic discipline focused on understanding the development of individuals and families over time and across the ecological contexts in which they live. The Child Development option within the major is applied and versatile, preparing students for in-demand careers focused on enhancing child and family well-being in settings that include childcare centers, hospitals, schools, and social service agencies. The Child Development curriculum offers students the opportunity to take courses on infant and child development, youth facing risk, teaching and learning, observation and assessment of children, learning through play, parent-child relationships, and more. Coursework emphasizes diverse experiences across gender, race and ethnicity, nationality, socioeconomic status, and family structure to prepare students for inclusive programming and practice.

As a major public research university, UNH emphasizes hands-on experience and research opportunities for undergraduate students. Students within the HDFS Child Development option are provided with opportunities to put theory and research into practice through practicum coursework at the Child Study and Development Center and through an optional senior year internship experience at one of the many community-based organizations that support children and families in the Seacoast region of New Hampshire.

Requirements

Degree Requirements

Minimum Credit Requirement: 128 credits

Minimum Residency Requirement: 32 credits must be taken at UNH

Minimum GPA: 2.0 required for conferral*

Core Curriculum Required: Discovery & Writing Program Requirements

Foreign Language Requirement: No

All Major, Option and Elective Requirements as indicated.
**Major GPA requirements as indicated.*

Major Requirements

The core curriculum required of each Human Development and Family Studies student is designed to give a broad introduction to individual and family development and interpersonal relationships across the lifespan. Building off this curriculum, each student can specialize in one of three options, Child Development, Early Child Education Teacher Licensure, or Family and Lifespan Development which guide further required coursework. Faculty advisors support students in selecting coursework to best prepare them for their specific career objectives. In their senior year, students complete a capstone course and may participate in a year-long community-based internship experience.

Candidates for the Human Development and Family Studies degree must satisfy all of the University Discovery and Writing Program requirements in addition to satisfying the requirements of the major/option.

Code	Title	Credits
Core Requirements		
HDFS 525	Human Development	4
HDFS 545	Intimate Relationships and Families	4
HDFS 555	Research Methods in HDFS	4
Child Development Option Requirements		
HDFS 623	Infant and Child Development	4
HDFS 630W	Youth Facing Adversity	4
HDFS 635	Teaching and Learning in Early Childhood Settings	4
HDFS 771	Observation and Assessment of Young Children	4
Select three elective development in context courses from the following:		12
HDFS 684	Curriculum for Young Children	
HDFS 794	Families and the Law	
HDFS 641	Parenting Across the Life Span	
HDFS 590	Learning Through Play	
HDFS 565	Introduction to Child Life	
HDFS 709	Child Development Internship	
Supporting Courses		
Supporting courses are intended to provide an individualized component to the HDFS curriculum. Because HDFS is interdisciplinary, this allows students to explore related areas that contribute to their academic and professional goals. The 16-credit hour HDFS community internship will satisfy the supporting coursework requirement. For students not completing the internship, at least 4 of their supporting course credits must come from within HDFS. The remaining 12 credits of supporting coursework can include additional courses within HDFS or outside of HDFS as long as those taken outside of HDFS are:		16
1. At the 500-level or above		
2. Approved by an HDFS advisor		
Classes outside of HDFS meeting supporting course criteria are often found in the psychology, sociology, social work, women's and gender studies, education, and communication sciences and disorders departments.		
Capstone		
HDFS 743	Families, Schools, and Community	4

1. Students should enroll in each listed course only once.
2. CD electives refer to development and context courses.
3. Students should use these credit hours towards a dual/double major, minor, accelerated master's program (senior year if applicable), or as general elective coursework.
4. Students should consult their advisor to determine if a course outside of HDFS meets the supporting course requirements. The Community Internship satisfies supporting course requirements. Students who do not complete the internship must earn at least four supporting course credits within HDFS.

Student Learning Outcomes

Program Learning Outcomes

- Use theoretical frameworks and empirical research to understand and explain child development, family process and the interaction of children and families with society.
- Recognize and respect a diversity of family forms and processes. Understand how child development and family interactions are shaped by diverse personal contexts and cultures. Understand and be aware of one's own biases, beliefs, and values.
- Understand ethical decision-making processes, and ethical standards and principles relevant to our discipline. Positively represent the profession in academic, professional and community settings.

Human Development and Family Studies Major: Early Childhood Education Option (Teacher Licensure) (B.S.)

https://www.unh.edu/program/bachelor-science/human-development-family-studies-early-childhood-education-teacher-licensure

Description

Human Development and Family Studies (HDFS) is an academic discipline focused on understanding the development of individuals and families over time and across the ecological contexts in which they live. The Early Childhood Education (ECE) Teacher Licensure option within the major provides an applied focus on preparing students for careers as early childhood (birth - third grade) educators in childcare

centers, preschools, and elementary schools. The ECE Teacher Licensure curriculum offers students the opportunity to take courses on infant and child development, working with children with special needs, teaching and learning in early care and education settings, observation and assessment of children, and building strong family-school-community partnerships. Additionally, students take subject-area coursework focused on developing the skills needed to teach math, science, social studies, and literacy. The principles of equity, diversity, and inclusion are woven throughout every course and internship experience to prepare students for inclusive educational practice.

As a major public research university, UNH emphasizes hands-on experience and research opportunities for undergraduate students. Students within the HDFS Early Childhood Education Teacher Licensure option are provided with opportunities to put theory and research into practice through practicum and internship coursework at the Child Study and Development Center and a required full-year student teaching internship in a Kindergarten through 3rd-grade classroom.

Additional Information

Teacher Licensure Option Requirements

- Students must meet state student-teaching requirements including completing the Basic Academic Skills Assessment (BASA) and a criminal background check.
- Students must have a minimum 3.2 overall and major GPA and meet course progression requirements (B- or better in all Early Childhood Education: Teacher Licensure Option Requirements) confirmed through application during the spring of the junior year. Students not meeting these requirements will be transitioned to the Child Development option.
- Graduates of the Early Childhood Education Teacher Licensure option will be eligible for recommendation to the NH Department of Education for Early Childhood Education (N-3) licensure.
- Licensure by the NH Department of Education also depends on meeting state subject area testing requirements and a criminal background check.

Degree Plan

1 Students should enroll in each listed course only once.

2 Students may use these credit hours towards a minor, accelerated master's program (senior year if applicable), or as general elective coursework.

Student Learning Outcomes

Program Learning Outcomes

- Use theoretical frameworks and empirical research to understand and explain child/lifespan development, family process and the interaction of individuals and families with society.
- Recognize and respect a diversity of family forms and processes. Understand how human development and family interactions are shaped by diverse personal contexts and cultures. Understand and be aware of one's own biases, beliefs, and values.
- Understand ethical decision-making processes, and ethical standards and principles relevant to our discipline. Positively represent the profession in academic, professional and community settings.

Disclosures

Human Development and Family Studies Major: Early Childhood Education Teacher Licensure Option (B.S.)

Location/Delivery: College of Health and Human Services, Durham Campus [In Person Program]

This program is designed to prepare graduates for professional licensure/certification as follows:

Teacher Licensure

Early Childhood Education (Pre K-3)

*The University of New Hampshire has determined this program **meets** the educational requirements for licensure/certification in:*[1]
Alabama, Alaska, Arizona, Arkansas, California, Colorado, Connecticut, Delaware, Florida, Georgia, Hawaii, Idaho, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Michigan, Minnesota, Mississippi, Missouri, Montana, Nebraska, Nevada, New Hampshire, New Jersey, New Mexico, New York, North Carolina, North Dakota, Ohio, Oklahoma, Oregon, Pennsylvania, Rhode Island, South Carolina, South Dakota, Tennessee, Texas, Utah, Vermont, Virginia, West Virginia, Wisconsin, Wyoming.

Additional information and related resources are available on the Registrar's Office website.

1 State specific post-education requirements are subject to change. Students are responsible for confirming these requirements in their state of residence and intended practice.

Human Development and Family Studies Major: Family and Lifespan Development Option (B.S.)

https://www.unh.edu/program/bachelor-science/human-development-family-studies-family-lifespan-development

Description

Human Development and Family Studies (HDFS) is an academic discipline focused on understanding the development of individuals and families over time and across the ecological contexts in which they live. HDFS is an applied field of study and a versatile undergraduate major for students interested in working to enhance the lives of individuals and families through in-demand careers in settings that include early childhood education, schools, hospitals, and social service agencies. The HDFS curriculum offers students the opportunity to take courses from child and adolescent development to adult development and aging; family, parenting, and interpersonal relationships; classroom curriculum, observation, and assessment; and family programming, policy, and law. Courses in the HDFS major emphasize diverse experiences across age, gender, race and ethnicity, nationality, and socioeconomic status and prepare students for inclusive programming and practice.

As a major public research university, UNH emphasizes hands-on experience and research opportunities for undergraduate students. Students in the Human Development and Family Studies program are provided with opportunities to put theory and research into practice through practicum and internship courses in the Child Study and Development Center, and many schools and community-based organizations across the Seacoast region of New Hampshire.

Requirements

Degree Requirements

Minimum Credit Requirement: 128 credits

Minimum Residency Requirement: 32 credits must be taken at UNH

Minimum GPA: 2.0 required for conferral*

Core Curriculum Required: Discovery & Writing Program Requirements

Foreign Language Requirement: No

All Major, Option and Elective Requirements as indicated.
**Major GPA requirements as indicated.*

Major Requirements

The core curriculum required of each Human Development and Family Studies student is designed to give a broad introduction to individual and family development and interpersonal relationships across the lifespan. Building off this curriculum, each student can specialize in one of three options, Child Development, Early Child Education Teacher Licensure, or Family and Lifespan Development which guide further required coursework. Faculty advisors support students in selecting coursework to best prepare them for their specific career objectives. In their senior year, students complete a capstone course and may participate in a year-long community-based internship experience.

Candidates for the Human Development and Family Studies degree must satisfy all of the University Discovery and Writing Program requirements in addition to satisfying the requirements of the major/option.

Code	Title	Credits
Core Requirements		
HDFS 525	Human Development	4
HDFS 545	Intimate Relationships and Families	4
HDFS 555	Research Methods in HDFS	4
Family and Lifespan Development Option Requirements		
HDFS 641	Parenting Across the Life Span	4
HDFS 746	Human Sexuality	4
Select two development courses from the following:		8
HDFS 623	Infant and Child Development	
HDFS 624	Adolescent Development	
HDFS 625	Adult Development	
Select three family services and institutions elective courses from the following:		12
HDFS 586	Families at Risk	
HDFS 553	Personal and Family Finance for Family Life Professionals	
HDFS 610	Introduction to Marriage and Family Therapy	
HDFS 760	Family Programs and Policies	
HDFS 794	Families and the Law	
Supporting Courses		
Supporting courses are intended to provide an individualized component to the HDFS curriculum. Because HDFS is interdisciplinary, this allows students to explore related areas that contribute to their academic and professional goals. The 16-credit hour HDFS Community Internship will satisfy the supporting coursework requirement. For students not completing the Community Internship, at least 4 of their supporting course credits must come from within HDFS. The remaining 12 credits of supporting coursework can include additional courses within HDFS or outside of HDFS as long as those taken outside of HDFS are:		16
1. At the 500-level or above		
2. Approved by an HDFS advisor		
Classes outside of HDFS meeting supporting course criteria are often found in the psychology, sociology, social work, women's studies, education, and communication sciences and disorders departments.		
Capstone [1]		
HDFS 757	Race, Class, Gender, and Families	4
or HDFS 743	Families, Schools, and Community	

[1] Family and Lifespan Development students take HDFS 757 as the capstone course. With permission, a Family and Lifespan Development student may take HDFS 743 as the capstone course.

1. Students should enroll in each listed course only once.
2. Refers to development courses.
3. Students should use these credit hours towards a dual/double major, minor, accelerated master's program (senior year if applicable), or as general elective coursework.
4. FLD Electives refer to 'Family Services & Institutions' courses.
5. Students should consult their advisor to determine if a course outside of HDFS meets the supporting course requirements. The Community Internship satisfies supporting course requirements. Students who do not complete the internship must earn at least four supporting course credits within HDFS.

Student Learning Outcomes

Program Learning Outcomes

- Use theoretical frameworks and empirical research to understand and explain child/lifespan development, family process and the interaction of individuals and families with society.
- Recognize and respect a diversity of family forms and processes. Understand how human development and family interactions are shaped by diverse personal contexts and cultures. Understand and be aware of one's own biases, beliefs, and values.
- Understand ethical decision-making processes, and ethical standards and principles relevant to our discipline. Positively represent the profession in academic, professional and community settings.

Human Development and Family Studies Minor

https://www.unh.edu/program/minor/human-development-family-studies

Description

The Human Development and Family Studies minor complements undergraduate majors in the social sciences, health professions, and related disciplines by providing students with the opportunity to learn about individual and family development, interpersonal relationships, and the ecological contexts of development.

Requirements

Academic policies related to Minors.

Required Courses

Code	Title	Credits
HDFS 525	Human Development	4
HDFS 545	Intimate Relationships and Families	4
Any three additional HDFS courses		12
Total Credits		**20**

Kinesiology (KIN)

The mission of the Department of Kinesiology is to create, share, and apply knowledge in the promotion of health, physical activity, sport, and well-being. We achieve this through high quality teaching and mentoring of our students, conducting scholarly activity, and engaging in community outreach. Our programs purposefully blend theory, research, and practice to support the professional needs of our students in all stages of their careers.

The department offers four areas of study for majors: exercise science, health and physical education, health sciences and sport management and leadership. Candidates for degree requirements in any of the department majors must satisfy all University Discovery Program requirements in addition to satisfying specific program requirements.

Faculty

Kinesiology Department Faculty

Kinesiology Minor

https://www.unh.edu/program/minor/kinesiology

Description

The Department of Kinesiology offers an interdisciplinary curriculum for nonmajors, which is designed to provide students with the basic knowledge of human movement and sport sciences. The minor consists of courses offered by several options within the department.

Requirements

Academic policies related to Minors.

The designation of the completed minor will be "Kinesiology" which means students may create an emphasis in a particular area (i.e. Exercise Science, Health Sciences, Health and Physical Education, Sport Management and Leadership) or take classes from multiple areas in Kinesiology.

Minor Requirements

Credits towards the minor come from courses in EXSC, HPE, HS, KIN, and/or SML.

No more than 6 of the 20 credits may be in activity or coaching courses.

Sport Analytics (Minor)

Description

The **Sport Analytics Minor** provides students with an interdisciplinary foundation at the intersection of sport management and leadership, business analytics, and computer science. The minor equips students with the skills to collect, analyze, visualize and interpret sport-related data, and to translate those insights into practical strategies for decision-making in the sport industry and beyond.

Through coursework and applied projects, students will gain experience with statistical methods, data visualization, and analytic software such as Python. Emphasis is placed on both technical competency and the ability to communicate findings effectively to diverse audiences, preparing graduates to use data to address real-world challenges in sport organizations through data-driven insights.

Requirements

Academic policies related to Minors.

The minor requires students to complete five courses (20 credits) as outlined below.

- Students must earn a grade of C (2.0) or higher in all required and elective courses applied to the minor.
- All prerequisite courses must be successfully completed prior to enrolling in sequenced or advanced coursework.
- Students majoring in Sport Management & Leadership, Computer Science, and/or relevant majors in Paul College should be aware that only up to eight (8) credits can count towards both your major and this minor.

Code	Title	Credits
Required Courses		
SML 580	Sport Industry	4
SML 770	Sport Analytics [1]	4
or DS 620	Topics in Decision Sciences	
CS 410P	Introduction to Scientific Programming/Python	4
or CS 415	Introduction to Computer Science I	
or DS 662	Programming for Business	
Elective Courses		
Select two courses from the following:		8
CS 518	Introduction to Software Engineering	
CS 550	Foundations of Machine Learning	
CS 750	Machine Learning	
IT 630	Data Science and Scalable Data Systems	
ECON 676	Economics of Sports	
MKTG 763	Marketing Analytics	
DS 671	Data Visualization and Prescriptive Analytics	
DS 772	Predictive Analytics and Modeling	
DS 654	Sports Analytics Lab [2]	
Total Credits		**20**

1 ADMN 510 Business Analytics and Statistics MATH 439 Statistical Discovery for Everyone or MATH 539 Introduction to Statistical Analysis is a required pre-requisite to enter SML 770 Sport Analytics.

2 If DS 654 Sports Analytics Lab (2 Credits) is chosen, an additional approved 2-credit course must be taken to reach the 20-credit minimum for the minor.

Student Learning Outcomes

Sports Stats Gathering, Analysis, and Interpretation
- Collect, analyze, and interpret sport data using statistical and computational tools.

Sports Data Intelligence
- Create clear visualizations and reports to communicate analytic insights effectively.

Sports Analytics Competencies
- Apply analytics software and techniques in sport industry contexts.

Analytics Importance

- Understand the role of analytics across different domains of sport, including performance, marketing, and business operations.

Decision Making with Sports Data

- Integrate analytics findings into strategic decision-making within sport organizations.

Occupational Therapy (OT)

Occupational therapy enables individuals of all ages to engage in everyday activities in the areas of work, self-care, home management, school, and leisure/play. Occupational therapists support people to promote their participation in desired activities in natural contexts. This process often involves working on skill development or adapting tasks or an environment to optimize peoples' ability to fulfill their social roles and engage in activities that are meaningful and support health and well-being. A program of study in occupational therapy includes a foundation in the liberal arts; biological, behavioral, and health sciences; and discipline-specific studies in occupational science and occupational therapy.

The occupational therapy master's and doctoral degree programs at the University of New Hampshire are accredited by the Accreditation Council for Occupational Therapy Education (ACOTE) of the American Occupational Therapy Association (AOTA), located at 7501 Wisconsin Avenue, Suite 510E, Bethesda, MD 20814. ACOTE's telephone number c/o AOTA is (301) 652-AOTA and its web address is www.acoteonline.org.

Graduates from an accredited program are eligible to sit for the certification examination for the occupational therapist, administered by the National Board for Certification in Occupational Therapy (NBCOT). After passing this exam, the individual will be a registered occupational therapist (OTR). All states require licensure in order to practice, however, state licenses are usually based on the results of the NBCOT certification examination. A felony conviction may affect a person's ability to sit for the NBCOT certification examination and obtain licensure.

Occupational Therapy Department Faculty

Disability Studies Minor

https://www.unh.edu/program/minor/disability-studies

Description

The minor in Disability Studies gives students the opportunity to explore the meaning, nature and consequences of disability from multiple perspectives. Ways of supporting people with disabilities and their families is addressed including the influences of disability policy, applications of technology, and societal and cultural attitudes and understanding related to persons with disability. This interdisciplinary program introduces topics such as exceptionality, the lived experience of disability and effects of stigma, disability policy, assistive technologies and universal design to enhance function and access, and health and human services for supporting individuals with disability. Students select from a wide range of electives to support their individual areas of interest. Students may expand career options by combining the minor in Disability Studies with majors such as Education, Occupational Therapy, Recreation Management and Policy, Psychology, Human Development and Family Studies, Communication Sciences and Disorders, Kinesiology, and Social Work.

When you minor in Disability Studies at UNH, depending on how you design your program and your course selection, you may work collaboratively with faculty from the Departments of Occupational Therapy, Recreation Management and Policy, Communication Sciences and Disorders, Social Work, Nutrition, Kinesiology, Human Development and Family Studies, and Education. You'll also have the option of pursuing a faculty sponsored independent study or a small-scale research project.

Requirements

Academic policies related to Minors.

Code	Title	Credits
Required Course		
One of the following courses is required from the student's major or any other disability related intensive course outside of the major with permission:		
OT 610	Occupation, Identity, Disability	4
OT 685	Psychosocial Disorders and Everyday Life	4
EDUC 650	Introduction to Disability in Inclusive Schools and Communities [2]	4
RMP 501	Diversity, Equity, Inclusion, and Justice for Recreation Services	4
SW 712	Understanding Developmental Disabilities	4
Electives		
Select 16 credits from the course list below. Note that any of the courses in the required course list above may be used as an elective course if not taken as the required course		
OT 444	Living and Doing with Technology	4
INTR 438	A Socio-cultural Perspective on the Deaf Community	4
NUTR 740	Nutrition for Children with Special Needs	4
OT 730	Assistive Technology for Enhancing Occupational Performance	3
OT 733	Assistive Technology for Physical Access I: Electronic Technologies	2
OT 734	Assistive Technology for Physical Access II: Mobility, Seating, and Transportation	2
OT 735	Assistive Technology for Communication and Cognition	2
OT 736	Assistive Technology for Vision and Hearing	2
OT 520	Happy and Healthy at Work: Promoting Wellness, Diversity and Inclusion	4
HMGT 520		4
EDUC 760	Introduction to Young Children with Special Needs	4
RMP 444A	Taking the "Dis" out of Disability	4
RMP 720	Adaptive Sport Facilitation for Recreation Therapy and Related Professions	4
SW 704	Adolescents with Emotional and Behavioral Challenges	4
HPE 781	Introduction to Adapted Physical Education	4
SW, OT, EDUC, KIN, NUTR, RMP Independent Study with a disability focus [1]		

1. The purpose of the independent study is to explore a topic that provides a detailed focus on an important issue related to individuals with disabilities. A student may also choose to engage in a small-scale research project to investigate an issue that affects individuals with disabilities. Each project will be negotiated with the student's departmental faculty adviser and the coordinator of the minor program.
2. Prerequisite courses EDUC 500 Exploring Teaching and EDUC 402 Introduction to Educational Studies: Social Change and Education in Local and Global Contexts are waived with permission for students in non-education majors.

Occupational Therapy Major (B.S.)

https://www.unh.edu/program/bachelor-science/occupational-therapy

Description

Bachelor of Science (BS) to Advanced Standing MS or OTD Degree

The combined BS/MS or BS/OTD program allows students to complete a bachelor's degree at UNH and smoothly transition into an entry-level OT graduate program (Master of Science (MS) or Clinical Doctorate (OTD). To practice as an Occupational Therapist (OT) in the U.S., you need an MS or an OTD from an ACOTE-accredited program. Our BS in OT curriculum provides a strong foundation in the liberal arts, biological, behavioral and health sciences for the first three years. Courses in the final undergraduate year transition students into the OT-specific content, with select courses counting toward UNH MS or OTD requirements. This advanced standing structure allows students to save one full year compared to traditional, non-combined programs. The combined BS/MS degree program is completed in five years. The combined BS/OTD degree program is completed in 6 years with two summer terms.

This program is offered in-person at the Durham campus.

The occupational therapy master's and doctoral programs are accredited by the Accreditation Council for Occupational Therapy Education (ACOTE) of the American Occupational Therapy Association (AOTA) located at 7501 Wisconsin Ave. Suite 510E, Bethesda, MD 20814. ACOTE's telephone number c/o AOTA is Tel. (301)- 652-AOTA and its Website: https://acoteonline.org/

Requirements

Degree Requirements

Minimum Credit Requirement: 128 credits

Minimum Residency Requirement: 32 credits must be taken at UNH

Minimum GPA: 2.0 required for conferral*

Core Curriculum Required: Discovery & Writing Program Requirements

Foreign Language Requirement: No

All Major, Option and Elective Requirements as indicated.
**Major GPA requirements as indicated.*

Major Requirements

Students begin the BS curriculum with preprofessional courses, which include courses in biological and social sciences as well as occupational therapy. In addition to meeting the University Discovery Program requirements, students take the following courses during the first three years of the program.

Code	Title	Credits
Core Curriculum		
BMS 507	Human Anatomy and Physiology I	4
BMS 508	Human Anatomy and Physiology II	4
OT 500	Behavior and Development of Children	4
OT 501	Developmental Tasks of Adulthood	4
OT 510	Exploring Occupational Therapy and Occupation	4
OT 610	Occupation, Identity, Disability [1]	4
OT 620	Medical Terminology	2
OT 685	Psychosocial Disorders and Everyday Life	4
KIN 652	Clinical Kinesiology	4
KIN 706 & KIN 707	Neurology and Neurology Lab	6
PSYC 401	Introduction to Psychology	4
Select one statistics course from the following:		4
PSYC 402	Statistics in Psychology	
HMP 540	Statistics for Health and Human Service Professionals	
SOC 402	Statistics	
Select one health or social policy course from the following:		4
HDFS 760	Family Programs and Policies	
HDFS 776	Children, Adolescents and the Law	
HDFS 794	Families and the Law	
HMP 401	United States Health Care Systems	
HMP 403	Introduction to Public Health	
HMP 744	Law and Ethics in Healthcare	
HMP 746	Health Policy	
POLT 500	American Public Policy	
RMP 663	Financial Management in Recreation Services	
SW 525	Social Welfare Policy: History of Social and Economic Justice	
SW 705	Child and Adolescent Risks and Resiliency: Program, Policy and Practice	

Details on satisfying these requirements are provided by the student's academic adviser and are outlined in the *OT Department Policy and Procedure Manual*. All students receive an electronic copy of the manual in their first year, and it is also available on the Occupational Therapy Student Resources site on the University learning platform.

Volunteer or work experience in a health and human service organization is recommended, although not required.

Professional Curriculum

Students with a GPA of 3.0 or higher who will apply to enter the Advanced Standing MS or Advanced Standing OTD programs take the following professional level courses during their undergraduate education.

Code	Title	Credits
Required Courses BS-MS and BS-OTD		
OT 710	OT Practice and Professional Roles	3
OT 741	Human Occupation [1]	4
OT 744	Fieldwork and Professionalism - Level 1	1
OT 751	Mind Body Systems/Neurologically Based Function and Dysfunction	4
OT 752 & 752L	Human Movement and Environmental Effects on Everyday Occupations and Human Movement Lab	4
OT 763 & 763L & 763R	Occupational Therapy Evaluation and Intervention for Adults and Occupational Therapy Evaluation and Intervention for Adults Lab and Occupational Therapy Evaluation and Intervention for Adults Recitation	4
OT 781	Introduction to Research and Evidence-Based Practice	3
OT 782	Research Methods and Application (Capstone)	3
OT 792	Level I Fieldwork	1
OT 760 & 760L & 760R	Psychosocial Evaluation and Intervention and Psychosocial Evaluation and Intervention Lab and Psychosocial Evaluation & Intervention Recitation	4
OT 762 & 762L & 762R	Occupational Therapy Evaluation and Intervention for Children and Occupational Therapy Evaluation and Intervention for Children Lab and Occupational Therapy Evaluation and Intervention for Children Recitation	4

[1] This course also fulfills the writing intensive in major course.

Students need to declare their choice for Advanced Standing MS or OTD by the end of their sophomore year. At the end of the senior year, students are awarded a Bachelor of Science Degree in Occupational Therapy. However, students must earn a graduate degree (MS or OTD) to become registered occupational therapists. Students apply to the Graduate School for Occupational Therapy: Advanced Standing MS or the

OTD Program during their senior year. An overall minimum grade point of 3.0 is required for admission to the MS Program or OTD program, and students must earn a minimum grade of B- in all OT classes at the 700 level, with no more than 8 credits of B- in OT courses at the 700 level, pass Level I Fieldwork, and meet professional behavior expectations. Please refer to the Graduate Catalog for additional information about the Advanced Standing MS and OTD Programs and the graduate portion of the professional occupational therapy curriculum including Fieldwork Level II requirements.

Students are responsible for transportation to off-campus practicum and fieldwork locations.

Curriculum review and revision is undertaken annually. The department works closely with students during academic advising sessions and shares information about any policy and requirement changes during registration periods as well as throughout the academic year. Students also are expected to take an active role in verifying expectations and should check with their academic adviser each September for updated policies and requirements. Program requirements and policies for retention in the major are in the *OT Department Policy and Procedure Manual*, which is available online.

Student Learning Outcomes

Program Learning Outcomes

Upon graduation with a BS in OT degree from UNH, students will:

- Critically evaluate biological, psychosocial, and educational theories that influence human behavior and occupational participation.
- Demonstrate an understanding of the value of human occupation in health and wellness.
- Demonstrate critical appraisal of how disease and disability influences health promotion and occupational well-being.
- Recognize the role of culture, socioeconomic status, abilities, and other factors on occupational performance and participation of all members of society.
- Demonstrate an understanding of concepts of occupational deprivation and occupational justice as related to health and well-being for all people.
- Demonstrate competency in information and basic research literacy.
- Demonstrate professional behaviors and skills in written and oral communication.
- Be prepared to apply for graduate study in the field of occupational therapy or other disciplinary area of graduate study.

Recreation Management and Policy (RMP)

Recreation services improve public health and wellness, promote sustainable environments, develop a sense of community, and enhance the quality of life of all citizens. Recreation professionals experience high quality of life and earn competitive salaries as they pursue meaningful work in diverse settings, including human services agencies, commercial businesses, resorts, health care providers, and natural environments such as parks, wilderness areas, and outdoor programs. Economic and workforce projections indicate that recreation service industries will continue to expand and provide numerous professional career opportunities.

The Department of Recreation Management and Policy has been a leader in recreation research and education for over 50 years. Our programs are nationally accredited by the Council on Accreditation of Parks, Recreation, Tourism, and Related Professions (COAPRT), the Association for Experiential Education (AEE), and the Committee on Accreditation of Recreational Therapy Education (CARTE) – an accreditation program under the Commission on Accreditation of Allied Health Education Programs (CAAHEP). The Department's curriculum supports a broad-based education and an opportunity to acquire specialized professional knowledge and skills in event and tourism management, community well-being and inclusion, and outdoor resource and program management.

Curriculum Structure

Students entering the major may choose an option in Tourism and Event Management ("TEM") or Outdoor Leadership and Management ("OLM"). Each curriculum consists of a professional core, required option courses, and electives. Candidates for a degree in Recreation Management and Policy must satisfy all of the University Discovery Program requirements in addition to satisfying the requirements of each individual major option.

Professional Internship

A supervised internship (RMP 764 Internship) is required of all majors and serves as their **major capstone requirement**. The internship is designed to create a bridge between theory and practical application. Students, working with their advisers and the internship coordinator, select an appropriate setting based on their professional and career interests. They must register for an 8 or 12 credit full-time internship that ranges from 10 to 16 weeks under the supervision of a qualified professional. Specific requirements are identified in the *Internship Manual* available from the Department office.

Declaring a Major

First-year students entering UNH who wish to apply to the Bachelor of Science (B.S.) program in Recreation Management and Policy should contact the Office of Admissions. The admissions web site contains complete campus visit information and an online visitor registration. It also contains admission criteria and important dates, as well as an online application form.

How to apply for students transferring from within UNH

Outdoor Leadership and Management: UNH's outdoor leadership and management program prepares students for dynamic careers in outdoor education, adventure programming, outdoor recreation management, parks and protected areas management, youth and after-school programming, and conservation. Our curriculum combines experiential learning in diverse outdoor settings with a classic liberal arts education. Students gain a solid foundation in the theories, philosophies and methods of outdoor recreation leadership and management while gaining skills in activities such as climbing, canoeing and backpacking. To change your major to OLM, complete the online change of major form. OLM applications are accepted throughout the year and decisions are made on a rolling admission basis. If you have questions about the program and event management option, please contact Nate Fitch (nate.fitch@unh.edu).

Tourism and Event Management: This option equips students with an entrepreneurial mindset and prepares students for career-track positions in tourism and event management organizations, emphasizing planning, leadership, and administrative concepts. Students learn to apply skills in settings such as destination marketing and management firms, resorts, residential facilities, community development agencies, and festival and event businesses. To change your major to TEM, complete the online change of major form. TEM applications are accepted throughout the year and decisions are made on a rolling admission basis. If you have questions about the program and event management option, please contact Sean McLaughlin (sean.mclaughlin@unh.edu).

Outdoor Adventure Recreation Minor

https://www.unh.edu/program/minor/outdoor-adventure-recreation

Description

The purpose of the minor in Outdoor Adventure Recreation is to complement major courses of study that prepare students for professional fields that work in outdoor environments across human service, natural resources, educational, or recreation sectors. It will provide an orientation to the technical, risk management, and leadership skills required for personal preparedness and program organization involving backcountry and facilities-based adventure activities. In addition, the minor seeks to improve the standards for fieldwork in professional fields that use the outdoors by offering high-quality training that employs current risk management principles that govern engagement in outdoor activities.

Program Objectives:

- Provide the highest quality professional preparation in outdoor technical skills
- Surpass national standards so students can pursue certifications if desired
- Cultivate life-long learners who are motivated to seek continuous improvement
- Improve quality and help to reduce risks across professional fields that depend on a common skillset
- Expand participation in outdoor activities both on campus and in public and private sectors
- Enhance the experiences of future participants by emphasizing best practices that validate a range of life experiences, identities, and goals

Recreation Management and Policy Major: Outdoor Leadership and Management Option (B.S)

https://www.unh.edu/program/bachelor-science/recreation-management-policy-outdoor-leadership-management

Description

UNH's Outdoor Leadership and Management (OLM) Program is designed for students who want to study and work in outdoor programs, parks, and public or commercial recreation settings. Our graduates are guides, leaders, directors, and managers of agencies that provide healthy outdoor activities for people across their lifespan. Our curriculum combines experiential learning in urban, rural, and backcountry landscapes with a classic liberal arts education. You'll gain a solid foundation in the theories, philosophies, and methods of outdoor recreation leadership and management while gaining skills in outdoor activities, pursuits or disciplines such as climbing, canoeing, and backpacking. This program will prepare you for dynamic careers in outdoor education, adventure programming, outdoor recreation management, parks and protected areas management, youth and after-school programming, conservation, and other outdoor fields.

1. Professional Internship: a supervised internship is required of all majors and serves as the major capstone requirement. The internship is designed to create a bridge between theory and practical application. Students, working with their advisors and the internship coordinator, select an appropriate setting based on their professional and career interests. Students must register for an 8 credit (10-week, 400 hour) or 12 credit (14-week, 560 hour) internship that is under the supervision of a qualified professional. Specific requirements are identified in the *Internship Manual* available from the Department of Recreation Management and Policy.
2. Other courses may be recommended by the academic advisor to fulfill the elective requirement.
3. RMP students enrolled in an accelerated masters program offered by the Carsey School of Public Policy may count any Carsey graduate course as an elective toward their undergraduate RMP degree.

Student Learning Outcomes

Program Learning Outcomes

- Students will know and demonstrate the nature and scope of the outdoor industry, including outdoor education, adventure leadership, and parks and protected-areas management.
- Students will know and demonstrate the techniques and processes used by professionals and staff in the outdoor industry.
- Students will know and demonstrate the foundation of the outdoor industry in history, science, and philosophy.
- Students will be able to demonstrate the ability to design, implement, and evaluate services that facilitate targeted human experiences and that embrace personal and cultural dimensions of diversity in outdoor settings.
- Students will demonstrate entry-level knowledge about operations, strategic management, and administration in the outdoor industry.
- Students will demonstrate the potential to succeed as professionals at supervisory or higher levels in the outdoor industry through participation in structured practicum and internship experiences.

Recreation Management and Policy Major: Therapeutic Recreation Option (B.S.)

https://www.unh.edu/program/bachelor-science/recreation-management-policy-therapeutic-recreation

Description

Beginning in the 2026-2027 academic year, the Recreation Management and Policy: Therapeutic Recreation B.S. is pausing admissions to the program. Current students will continue to have access to the same high-quality education and resources until they graduate.

Therapeutic recreation utilizes recreation to assist people with disabilities or illnesses to develop and use their leisure in ways that enhance health, independence, and well-being. Therapeutic recreation recognizes the importance of quality of life and uses activities to remediate or rehabilitate functional abilities. Therapeutic recreation services are provided in a variety of settings, including hospitals, long-term care facilities, residential treatment facilities, schools, home health care, community recreation, correctional facilities, rehabilitation centers, camp and outdoor education centers, and adult day programs. Observation and applied experience is a component of several courses. Students complete a 14-16-week full-time clinical internship under the supervision of a certified therapeutic recreation specialist (CTRS). The Bureau of Labor Statistics occupational outlook reports the "employment of recreational therapists is projected to grow 8 percent from 2019 to 2029, which is much faster than the average for all occupations. As the large baby-boom generation ages, they will need recreational therapists to help treat age-related injuries and illnesses, such as strokes. Recreational therapists will also be needed to help patients manage chronic conditions such as diabetes and obesity (Bureau of Labor Statistics). A CNN Money report identifies recreation therapy among the top ten "best jobs for saving the world." In particular, they note the profession's high benefit to society and high personal job satisfaction (CNN Money Magazine).

Upon successful completion of this option, students are prepared to meet sitting requirements for the National Council for Therapeutic Recreation Certification Examination. Students/graduates who pass the NCTRC exam and attain the CTRS are eligible to seek licensure to practice in the state of New Hampshire.

Students may be required to submit to a criminal background check.

Student Learning Outcomes

Program Learning Outcomes

- Students will integrate an understanding of history, service models, theory/philosophy, ethics, credentials, professional conduct, evidence-based practice and professional development with Recreational Therapy (RT) practice.

- Students will develop competence to individually screen, assess and systematically collect comprehensive and accurate data about patients/clients in an efficient and effective manner and to analyze the data collected to determine the course of actions subsequent to an individualized treatment/program plan.
- Students will develop competence in the planning and development of individualized treatment plans that identify functional outcome goals, modalities, facilitation techniques and interventions based on assessment data collected and evidence regarding the diagnosis and treatment of specific medical, psychiatric and other disabling conditions.
- Students will know how to use structured, systematic and evidence-based treatment interventions and facilitation techniques to improve patient/client functioning and independence in life activities.
- Students will develop competence to implement the individualized treatment/program plan using appropriate evidence-based treatment interventions and programs to restore, remediate, or rehabilitate patient/client functioning as well as to reduce or eliminate the limitations to participation in life activities resulting from medical, psychiatric or other disabling conditions.
- Students will acquire specific modality/skills and facilitation techniques used as treatment interventions in Recreational Therapy practice.
- Students will systematically conduct evaluation and research to determine the effectiveness of treatment interventions and programs used to reach patient/client outcomes.
- Students will develop the competencies to manage a Recreational Therapy practice, department, and staff.
- Students will develop an understanding of human anatomy and physiology, growth/development, psychology, functioning in life activities and an understanding of health care services to serve as a foundation for Recreational Therapy practice.
- Students will develop entry-level clinical proficiency and professional behavior through field-based clinical opportunities in accordance with professional standards of practice in Recreational Therapy

Recreation Management and Policy Major: Therapeutic Recreation Option (B.S.)

Location/Delivery: College of Health and Human Services, Durham Campus [In-Person Program]

This program is designed to prepare graduates for professional licensure/certification as follows:

Certified Therapeutic Recreation Specialist

National Council for Therapeutic Recreation Certification (NCTRC) Examination

*The University of New Hampshire has determined this program **meets** the educational requirements for licensure/certification in:*[1]
Alabama, Alaska, American Samoa, Arizona, Arkansas, California, Colorado, Connecticut, Delaware, District of Columbia, Federated States of Micronesia, Florida, Georgia, Guam, Hawaii, Idaho, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Michigan, Minnesota, Mississippi, Missouri, Montana, Nebraska, Nevada, New Hampshire, New Jersey, New Mexico, New York, North Carolina, North Dakota, Northern Mariana Islands, Ohio, Oklahoma, Oregon, Pennsylvania, Puerto Rico, Republic of Palau, Republic of the Marshall Islands, Rhode Island, South Carolina, South Dakota, Tennessee, Texas, U.S. Virgin Islands, Utah, Vermont, Virginia, Washington, West Virginia, Wisconsin, Wyoming.

Additional information and related resources are available on the Registrar's Office website.

[1] State specific post-education requirements are subject to change. Students are responsible for confirming these requirements in their state of residence and intended practice.

Recreation Management and Policy Major: Tourism and Event Management Option (B.S.)

https://www.unh.edu/program/bachelor-science/recreation-management-policy-tourism-event-management

Description

In UNH's Tourism and Event Management (TEM) program you'll develop skills in event planning, tourism operations, and recreation management alongside faculty from one of the nation's most respected departments in the recreation administration field. With a curriculum that emphasizes practical experience and industry connections, you'll learn to apply your skills in settings such as tourism and event marketing and management firms, resorts, residential facilities, community development agencies, and festival and event businesses.

If you are already a UNH student and want to change your major to TEM, complete the online change of major form. Applications are accepted throughout the year and decisions are made on a rolling admission basis.

Student Learning Outcomes

Program Learning Outcomes

- Students will know and demonstrate the nature and scope of the recreation, events, and tourism profession and their associated industries.
- Students will know and demonstrate the techniques and processes used by professionals and staff in the recreation, events, and tourism industry.
- Students will know and demonstrate the foundation of the recreation, events, and tourism profession in history, science, and philosophy.
- Students will demonstrate the ability to design, implement, and evaluate services that facilitate targeted human experiences and that embrace personal and cultural dimensions of diversity.
- Students will demonstrate knowledge about operations, strategic management, and administration in recreation, events, and tourism organizations.
- Students will demonstrate the potential to succeed as professionals at supervisory or higher levels in recreation, events, tourism, or related organizations through participation in structured practicum and internship experiences.

Recreation Management Minor

https://www.unh.edu/program/minor/recreation-management

Description

The recreation industry is a broad field including festival and event planning, non-profit administration, travel and tourism, sport, municipal recreation, and outdoor recreation. This industry is experiencing worldwide growth which is opening up tremendous workforce opportunities. The primary goal of the recreation management minor is to provide a basic understanding of the recreation industry and the variety of careers associated with this industry for students interested in staying on their existing academic pathway. The required core course for this minor, provides a comprehensive overview of the recreation industry. Students select additional elective courses from a list of offerings that lend themselves to specific areas of knowledge and interest.

Requirements

Academic policies related to Minors.

The minor consists of completing five courses (18-20 credits).

Code	Title	Credits
Required Course		
RMP 490	Recreation & Tourism in Society	4
Electives		
Select 4 courses from the following:		
RMP 501	Diversity, Equity, Inclusion, and Justice for Recreation Services	4

Ski Resort Management Cognate

https://www.unh.edu/program/cognate/ski-resort-management

Description

Skiing has long been central to New Hampshire's economy and culture and it comprises a large part of the state's tourism market. Snowsports are the second largest contributor to New Hampshire's $3.9 billion dollar outdoor recreation economy and mountain resorts are now a 4-season business encompassing adventure sports, conferences, hospitality, real estate, and events. Combining academic work, field experience, and risk management competencies, this program bridges the gap between students and potential careers in the local, state, and regional ski and snowboard industry. This cognate capitalizes on the growing interest in ski industry jobs and careers.

Requirements

- Credit toward the cognate will only be given for courses passed as credit and/or with C- or better.
- A 2.00 grade-point average must be maintained in courses for the cognate.
- Students must complete a certification of completion of cognate form at the beginning of their final semester.
- Students must complete 14 credits total as outlined below for the cognate.

Code	Title	Credits
Required Courses		
RMP 603	New Hampshire Ski Industry Management	4
RMP 571	Mountain Resort Practicum	3
RMP 411	Applied Recreation Risk Management	3
Electives		
Select one course from the following:		4

ESCI 405	Global Environmental Change	
HMGT 681	Contemporary Resort Development and Management	
RMP 711	Recreation Resource Management	
RMP 775	Entrepreneurial and Commercial Recreation	
Total Credits		**14**

Student Learning Outcomes

Program Learning Outcomes

Ski resort industry knowledge

- Basic understanding of social, economic, operational, and environmental perspectives of the ski and snowboard industry.

Risk management

- Students should leave this course with competency in liability issues and legal considerations at ski and snowboard resort settings.

Practical experience

- This hands-on practicum allows students to apply skills in a professional setting, providing the necessary operational experience for a career in the ski and snowboard industry.

Therapeutic Recreation Minor

https://www.unh.edu/program/minor/therapeutic-recreation

Description

The Therapeutic Recreation (TR) Minor provides students from any major with foundational knowledge and practical skills in using recreation and leisure to promote health, well-being, and quality of life for individuals with disabilities, illnesses, and other health-related needs. The minor introduces students to the principles, processes, and professional competencies of therapeutic recreation through coursework in facilitation techniques, assessment, treatment planning, and the theory and practice of inclusive recreation.

Although the minor alone does not meet all requirements for national certification, it provides significant progress toward eligibility as a Certified Therapeutic Recreation Specialist (CTRS) through the National Council for Therapeutic Recreation Certification (NCTRC). Students who wish to pursue certification can complete remaining supportive coursework and internship requirements through elective choices or post-graduate pathways.

Graduates with a Therapeutic Recreation Minor are prepared for roles in a wide range of settings, including healthcare, rehabilitation, youth and family services, behavioral health, community recreation, and adaptive sports programs. The minor complements majors in health and human services, psychology, education, kinesiology, social work, and other fields where professionals support human development, wellness, and inclusion. By integrating theoretical learning with applied skills, the TR Minor equips students to incorporate recreation-based interventions into their professional practice and to contribute to the health and well-being of diverse populations.

Requirements

Academic policies related to Minors.

Code	Title	Credits
Required Courses		
RMP 502	Foundations of Therapeutic Recreation	4
RMP 612	Therapeutic Communication and Facilitation Techniques in Therapeutic Recreation	4
RMP 614	Assessment and Treatment Planning in Therapeutic Recreation	4
Electives

RMP 503	Therapeutic Recreation Rehabilitation Principles & Interventions	
RMP 504	Therapeutic Recreation Mental Health Principles and Interventions	
RMP 720	Adaptive Sport Facilitation for Recreation Therapy and Related Professions	
RMP 740	Therapeutic Recreation Service Delivery in Community Settings	
Total Credits		**20**

[1] Or another course approved by the Minor Coordinator.

Student Learning Outcomes

Program Learning Outcomes

- Students will integrate an understanding of history, service models, theory/philosophy, ethics, credentials, professional conduct, evidence-based practice and professional development with Recreational Therapy (RT) practice.
- Students will develop competence to individually screen, assess and systematically collect comprehensive and accurate data about patients/clients in an efficient and effective manner and to analyze the data collected to determine the course of actions subsequent to an individualized treatment/program plan.
- Students will develop competence in the planning and development of individualized treatment plans that identify functional outcome goals, modalities, facilitation techniques and interventions based on assessment data collected and evidence regarding the diagnosis and treatment of specific medical, psychiatric and other disabling conditions.
- Students will know how to use structured, systematic and evidence-based treatment interventions and facilitation techniques to improve patient/client functioning and independence in life activities.
- Students will develop competence to implement the individualized treatment/program plan using appropriate evidence-based treatment interventions and programs to restore, remediate, or rehabilitate patient/client functioning as well as to reduce or eliminate the limitations to participation in life activities resulting from medical, psychiatric or other disabling conditions.
- Students will acquire specific modality/skills and facilitation techniques used as treatment interventions in Recreational Therapy practice.
- Students will systematically conduct evaluation and research to determine the effectiveness of treatment interventions and programs used to reach patient/client outcomes.
- Students will develop entry-level clinical proficiency and professional behavior through field-based clinical opportunities in accordance with professional standards of practice in Recreational Therapy

Tourism Minor

https://www.unh.edu/program/minor/tourism

Description

Tourism is one of the world's largest and most diverse industries, spanning a wide range of sectors that shape how people travel, recreate, and experience places. Tourism is a dynamic combination of activities, services, and organizations that deliver travel and visitor experiences through transportation, lodging, food and beverage establishments, retail and shopping, entertainment, outdoor recreation facilities (such as parks and sports venues), cultural and historic sites, and natural resources, among many others.

To support students interested in this rapidly growing field, faculty in Recreation Management and Policy (RMP), Hospitality Management (HMGT), and Natural Resources and the Environment (NREN) have developed an interdisciplinary Minor in Tourism. This minor bundles existing courses across the three departments, allowing non-majors to gain foundational knowledge in tourism while tailoring the program through elective options that align with their interests and career goals. The minor draws on expertise across three colleges: the College of Health and Human Services, the Peter T. Paul College of Business and Economics, and the College of Life Sciences and Agriculture, offering students a well-rounded academic experience grounded in both industry and place-based perspectives.

This minor benefits students by providing practical, career-relevant skills in areas such as visitor experience design, tourism planning and management, sustainability, and the economic and social impacts of tourism. Whether students plan to work in outdoor recreation, hospitality, event management, destination marketing, park and protected area management, or community development, the Tourism minor strengthens their ability to understand and contribute to the tourism sector in thoughtful, ethical, and sustainable ways.

Questions about the minor may be directed to: Dr. Lauren Ferguson, at Lauren.Ferguson@unh.edu

Approval of the Minor for Graduation, verification, and sign-off must be coordinated with Dr. Lauren Ferguson.

School of Nursing

University of New Hampshire School of Nursing

The undergraduate nursing program is nationally accredited by the Commission on Collegiate Nursing Education

Students in the School of Nursing learn about relationship-based care, reflective thinking and clinical decision making while following guidelines for developing safe, quality clinical skills. Nursing students learn from faculty who serve as facilitators and mentors within a supportive, scholarly environment, and as graduates become part of the workforce that will help shape the future of healthcare.

Programs

- Nursing Major (B.S.N.) (p. 206)

Faculty

Nursing Department Faculty

Nursing Major (B.S.N.)

https://www.unh.edu/program/bachelor-science-nursing/nursing

Description

Bachelor of Science in Nursing (BSN)

Program Overview
The Bachelor of Science in Nursing (BSN) program prepares students for professional practice as Registered Nurses who deliver safe, evidence-based, and relationship-centered care across diverse settings. Faculty serve as mentors and partners in learning, fostering a supportive, scholarly environment where students develop clinical judgment, professional identity, and reflective practice. The program emphasizes cultural humility and high standards of quality and safety to prepare graduates for the complexities of modern healthcare.

Curriculum & Learning Experience
Grounded in the biological and social sciences and the humanities, the curriculum develops strong critical thinking, ethical reasoning, and person-centered communication skills. Students progress through a carefully sequenced plan of study aligned with the AACN Essentials, including population health, health equity, leadership, informatics, and interprofessional collaboration. Throughout the program, students gain experience with electronic health records, clinical decision support tools, and emerging digital health technologies to enhance care delivery and outcomes.

Clinical Education, Simulation, and Partnerships
Clinical learning is enhanced through a state-of-the-art simulation center using high-fidelity scenarios, skills practice, and guided debriefing to strengthen clinical judgment, communication, and confidence. Simulation

is integrated across the curriculum to support equitable, evidence-based care.
Students complete diverse clinical placements in acute care, community and public health, primary care, mental health, and long-term care settings. Partnerships with regional health systems and community organizations provide authentic experiences that emphasize collaboration, professionalism, and advocacy.

Senior Capstone: Transition to Practice
In the senior year, students complete a precepted transition-to-practice capstone. Working with an experienced Registered Nurse, students integrate program competencies, manage care priorities, and refine leadership, communication, and time-management skills to support a confident transition into entry-level practice.

Professional Readiness & Outcomes
Graduates are prepared to deliver high-quality, person-centered care; collaborate with interprofessional teams; promote population health; and use data and technology to improve outcomes. Upon completion of program requirements, graduates are eligible to sit for the NCLEX-RN® licensure examination (in accordance with state regulations) and are well prepared for professional practice or graduate study.

Honors in Major (Optional)
Eligible students may pursue Honors in Major, offering opportunities for advanced scholarship, mentorship, leadership development, and engagement in evidence-based or quality improvement projects. (See the Requirements tab for details.)

Requirements

Degree Requirements

Minimum Credit Requirement: 128 credits

Minimum Residency Requirement: 32 credits must be taken at UNH

Minimum GPA: 2.0 required for conferral*

Core Curriculum Required: Discovery & Writing Program Requirements

Foreign Language Requirement: No

All Major, Option and Elective Requirements as indicated.
**Major GPA requirements as indicated.*

Major Requirements

Candidates for the nursing degree must satisfy all of the University Discovery Program requirements in addition to satisfying major requirements.

- Discovery courses that are required for the major require a minimum grade of C or better in the major.
- Most of the prerequisite courses also meet Discovery requirements.
- Major courses require a minimum grade of C or better.
- A cumulative grade-point average of 2.5 must be maintained throughout the program.

Code	Title	Credits
Required Courses		
Two Discovery/Elective/Writing Intensive Courses		8
Seven Discovery/Elective Courses		28
ENGL 401	First-Year Writing [1]	4
BMS 501	Microbes in Human Disease [1]	4
BMS 507	Human Anatomy and Physiology I [1]	4
BMS 508	Human Anatomy and Physiology II [1]	4
HDFS 525	Human Development [1]	4
HHS 401	College of Health and Human Services Seminar	1
HMP 540	Statistics for Health and Human Service Professionals [1]	4
or PSYC 402	Statistics in Psychology	
or SOC 402	Statistics	
or MATH 439	Statistical Discovery for Everyone	
PSYC 401	Introduction to Psychology [1]	4
NURS 530	Professional Nursing Concepts and Theories	4

NURS 633	Nursing Care in Reproductive and Sexual Health [2]	6
NURS 730	Integrated Pediatric and Family Nursing [2]	6
NURS 732W	Nursing Leadership within Healthcare Sysems	4
NURS 733	Transition to Professional Nursing Practice [2]	8
NURS 734	Perspectives in Population Health Nursing [2]	6
Total Credits		**131**

1. Discovery courses that are required for the major require a grade of C or better in the major.
2. Clinical hours are completed through the following required courses: NURS 534, NURS 630, NURS 631, NURS 632, NURS 633, NURS 730, NURS 733, and NURS 734.

Honors-in-Major Program

The Honors-in-Major Program is offered to interested junior nursing students who achieve a minimum grade-point average of 3.75 in NURS courses and cumulative GPA of 3.4 at the end of the sophomore year in nursing and/or junior nursing students who are members of the University Honors Program. A total of 18 credits taken at the honors level is required for the Honors-in-Major Program. Orientation to the Honors-in-Major Program is held at the beginning of the junior nursing year. Students must successfully complete with a grade of B or better 8 additional credits of honors coursework drawn from the following courses:

Code	Title	Credits
Select two courses from the following:		
NURS 630	Nursing Care of Adults with Chronic Conditions	6
NURS 631	Nursing Care of Adults with Acute Conditions	6
NURS 732W	Nursing Leadership within Healthcare Sysems	4
NURS 734	Perspectives in Population Health Nursing	6

Honors-in-major students must also successfully complete with a grade of B or better:

Code	Title	Credits
NURS 648W	Nursing Honors Seminar I	1-4
NURS 748W	Nursing Honors Thesis I	1
NURS 749W	Nursing Honors Thesis II	4

These self-directed learning experiences, related to the student's interests, are designed to help students acquire advanced knowledge and skills to undertake inquiry or scholarly projects. Students must submit a project description to a faculty mentor at the beginning of the senior year. Students have the option to complete a student research project, which must undergo University IRB proposal approval, or a student Quality Improvement project, which must undergo School of Nursing Quality Improvement Committee proposal review. All students

completing Honors-in-Major will complete a written thesis or capstone to be submitted for inclusion in the UNH Scholars' Repository and present at the annual UNH Undergraduate Research Conference.

Degree Plan

Student Learning Outcomes

Program Learning Outcomes

At the completion of the baccalaureate nursing program, the student is prepared to

- Apply knowledge from liberal arts and sciences to deliver safe, competent, and compassionate care to diverse patients, families, and communities.
- Provide holistic, individualized, and evidence-based person and family centered care across the lifespan while advocating for social justice and equity in health care accessibility and quality.
- Engage in collaborative activities with community partners to advocate for equity and justice to improve health-related social needs and enhance population health.
- Utilize scholarly inquiry to inform best practices and compile evidence to address health-related problems across the healthcare system.
- Apply quality improvement science, to identify safety concerns and engage in risk mitigation strategies to improve patient care outcomes.
- Collaborate within multidisciplinary care teams, through effective communication and mutual respect, that enhances the quality of healthcare services and their delivery.
- Identify resources, across transitions of care in ever-changing healthcare systems, applying knowledge of cost-effectiveness and health policies to deliver equitable care.
- Utilize healthcare technologies and informatics processes to inform the provision of safe and effective care and support meaningful changes in nursing practice.
- Demonstrate a professional nursing identity marked by integrity, curiosity, civility, inclusion, and ethical practice.

- Participate in self-reflection to foster personal resilience and well-being and embrace lifelong learning to develop nursing expertise.

Disclosures

Nursing (B.S.N.)

Location/Delivery: School of Nursing, Durham Campus [In-Person Program]

This program is designed to prepare graduates for professional licensure/certification as follows:

Registered Nurse
National Council Licensure Examination for Registered Nurses

*The University of New Hampshire has determined this program **meets** the educational requirements for licensure/certification in:*[1]
Alaska, American Samoa, Arkansas, Connecticut, Delaware, District of Columbia, Florida, Georgia, Guam, Hawaii, Idaho, Illinois, Indiana, Iowa, Kansas, Kentucky, Maine, Maryland, Massachusetts, Michigan, Minnesota, Mississippi, Missouri, Montana, Nebraska, Nevada, New Hampshire, New Jersey, New Mexico, North Carolina, North Dakota, Northern Mariana Islands, Ohio, Oklahoma, Oregon, Pennsylvania, Puerto Rico, Rhode Island, South Carolina, South Dakota, Texas, U.S. Virgin Islands, Utah, Vermont, Virginia, Washington, West Virginia, Wisconsin, Wyoming.

Additional information and related resources are available on the Registrar's Office website.

[1] State specific post-education requirements are subject to change. Students are responsible for confirming these requirements in their state of residence and intended practice.

Social Work (SW)

The Department of Social Work's undergraduate program is accredited by the Council on Social Work Education (CSWE) and must meet rigorous academic standards to retain this accreditation. Social work majors pursue a program that encompasses the professional social work competencies of professional identity, critical thinking, knowledge of diversity and human rights, social, environmental and economic justice, social welfare policy and services, social work practice with all client system sizes, human behavior in the social environment, research, and ethics.

According to the National Association of Social Workers (NASW), "The social work profession provides ethical, practical, and compassionate leadership to help people confront and resolve personal and social challenges" through their work with individuals, families, small groups, organizations, and communities. All social work majors complete a field internship under the direction of a qualified supervisor.

Faculty

Social Work Department Faculty

Social Work Major (B.S.)

https://www.unh.edu/program/bachelor-science/social-work

Description

The Department of Social Work's undergraduate program is accredited by the Council on Social Work Education (CSWE) and must meet rigorous academic standards to retain this accreditation.

The Department of Social Work's undergraduate program offers both a major and a minor in social work. It is a specialized degree that prepares graduates for generalist social work practice with a solid foundation in the liberal arts and in the knowledge, skills, and value base of social work. Through the mastery of core competencies, social work graduates apply their education working with individuals, families, groups, organizations, and communities. In addition, the program prepares qualified students to pursue graduate education in schools of social work and related fields.

Social work majors earn a B.S. degree in social work. Graduates are eligible for practice in a variety of social work settings throughout the United States. In preparation for graduate school, the program offers an Accelerated Masters that qualified students can consider applying for their junior year. In addition, qualified graduates are eligible to apply for advanced standing in M.S.W. programs that offer advanced standing. Depending upon the program, this can mean earning the M.S.W. in one calendar year versus two academic years.

Requirements

Degree Requirements

Minimum Credit Requirement: 128 credits

Minimum Residency Requirement: 32 credits must be taken at UNH

Minimum GPA: 2.0 required for conferral*

Core Curriculum Required: Discovery & Writing Program Requirements

Foreign Language Requirement: No

All Major, Option and Elective Requirements as indicated.
**Major GPA requirements as indicated.*

Major Requirements

Candidates for a degree must satisfy all of the University Discovery Program requirements in addition to satisfying the requirements of the social work major.

Students must maintain a 2.6 Semester GPA and earn a C or better in the 13 social work major courses. In addition, students are expected to successfully complete three additional courses as part of a liberal arts foundation for the major. Students are required to complete 40 hours of advisor approved human service hours by end of first semester junior year.

To connect the theoretical and conceptual content of the classroom with the practice world, students must complete:

- 40 hours of human service related work in an approved agency/program setting by the end of the semester when they apply to the internship. Twenty of the forty hours must be in the same agency/program. The remaining hours may be across multiple sites/programs. This experience may be paid or volunteer and must be pre-approved by the student's faculty adviser. The service hours must be completed post high school and by the end of the semester when to internship applications are due.
- Students complete a 400-hour internship over two consecutive semesters during the senior year. This is the senior capstone experience. The internship placement in the final year of the baccalaureate program is arranged between the student and the internship education coordinator. In compliance with CSWE accreditation standards, the B.S. in social work program does not grant social work course credit for life or work experience.

Student Learning Outcomes

Program Learning Outcomes

- Student demonstrates ethical and professional behavior.
- Engage Anti-Racism, Diversity, Equity, and\\nInclusion (ADEI) in Practice
- Student advances human rights and social, economic and environmental justice.
- Engage in practice informed research and research-informed practice.
- Engages in policy practice.
- Engage with individuals, families, groups, organizations, and communities.
- Assess individuals, families, groups, organizations, and communities.
- Intervenes with individuals, families, groups, organizations, and communities.
- Evaluates practice with individuals, families, groups, organizations, and communities.

Social Work Minor

https://www.unh.edu/program/minor/social-work

Description

Social work is about helping individuals, families and community members with problems in their daily lives and advocating for those who need a voice.In the social work minor, you'll learn about the history, values and ethics of the social work profession and social welfare policy,and be introduced to human behavior and social work practices. Enhance your career opportunities by combining this minor with undergraduate study in areas such as education, healthcare, justice studies or sociology.

Students interested in a minor in social work should consult with the undergraduate program coordinator, Gretchen Bean, Pettee Hall, Room 241, (603) 862-4551.

Requirements

Academic policies related to Minors.

Code	Title	Credits
Required Courses		
SW 424	Introduction to Social Work	4
SW 525	Social Welfare Policy: History of Social and Economic Justice	4
Select any three other courses offered by the department [1]		12
Total Credits		**20**

[1] Excluding SW 622, SW 623, SW 625, SW 740, SW 740A, SW 741, SW 741A.
SW 622, SW 623, and SW 625 are by permission only with program coordinator approval.

Gerontology Multidisciplinary Minor

https://www.unh.edu/program/minor/gerontology-multidisciplinary

Description

The gerontology multidisciplinary minor (GMM) provides students with the opportunity to examine and evaluate the aging process as it affects the individual and society within the United States and in the world. Through a multidisciplinary course selection, students develop an understanding of aging from a variety of perspectives with a focus on how people age physically, cognitively, emotionally, and socially. Students are encouraged to analyze the historical and philosophical foundation from which policies, programs, and professional activities affecting the aged are developed, implemented, and evaluated. The purpose of GMM is to prepare students as they enter their career fields on the effects that the growing elderly population will have in every component of modern life.

Requirements

Academic policies related to Minors.

The minor in gerontology consists of completing five courses (20 credits).

- Special Topic courses on aging-related topics can be used for the minor if approved by the minor coordinator.
- Students must complete courses with a grade of C- or better and a 2.00 grade point average.

Code	Title	Credits
Required Courses		
EXSC 607	Biology of Aging	4
GERO 500	I'm Old, So What! An introduction to aging in the United States	4
Electives		
Select three courses from the following:		12
GERO 795	Independent Study [2]	
HDFS 625	Adult Development	
HDFS 707	Practicum [1]	
HHS 798	Special Topics	
HPE 601	Foundations of Lifetime Physical Activity	
NURS 506	Human Development, Interaction and Learning Across the Lifespan	
NURS 535	Death and Dying	
NUTR 400	Nutrition in Health and Well Being	
NUTR 600	Field Experience in Nutrition [1]	
NUTR 650	Life Cycle Nutrition	
NUTR 773	Clinical Nutrition	

NURS 601	Function and Wellbeing of Older Adults
OT 501	Developmental Tasks of Adulthood
PHIL 660	Law, Medicine, and Ethics
RMP 503	Therapeutic Recreation Rehabilitation Principles & Interventions
RMP 563	Recreation Management and Policy Practicum [1]
SOC 725	Social Demography
SW 702	Aging and Society
SW 740	Social Work Internship Experience [1]
SW 741	Social Work Internship Experience II [1]
Total Credits	**20**

1 Up to 4 credits from the practicum courses including HDFS 707 Practicum, NUTR 600 Field Experience in Nutrition, RMP 563 Recreation Management and Policy Practicum, SW 740 Social Work Internship Experience or SW 741 Social Work Internship Experience II can be used for GMM if a student did their internship at aging-related institutions.

2 GERO 795 Independent Study is not a required course but up to 4 credits can be used toward the minor. GERO 795 is used by students and faculty as an option for creating an individual experience relating to aging. A faculty member must approve and oversee (mentor) the student's work. Additionally, the minor coordinator must also approve of the proposal and retain a copy. A copy of the proposal and the final copy will be kept in the student's major academic folder.

Sport Management and Leadership

- Coaching Minor (p. 213)
- Sport Management and Leadership Major (B.S.) (p. 213)
- Sport Management Minor (p. 215)

Coaching Minor

https://www.unh.edu/program/minor/coaching

Description

The Coaching Minor is an interdisciplinary curriculum designed to provide students interested in coaching at the youth, high school or college levels with basic knowledge and skills necessary for competence in coaching. The minor consists of courses offered by several options within the Department of Kinesiology and Recreation Management and Policy. The proposed coursework lays a theoretical and practical framework for students interested in coaching.

Sport Management Leadership/Sport Studies majors are not permitted to minor in coaching.

Requirements

Academic policies related to Minors.

- Admission into the minor is based on successful completion of SML 565 Principles of Coaching (grade of C- or better), and a minimum GPA of 2.0.

Required Courses

Code	Title	Credits
SML 565	Principles of Coaching	4
SML 765	Advanced Topics in Coaching	4
SML 650D	Internship in Coaching [1]	2-4
Select a minimum of two of the following courses:		4
SML 565A	Clinical Practice in Coaching	2
SML 521	Theory of Coaching Basketball	2
SML 522	Theory of Coaching Football	2
SML 523	Theory of Coaching Ice Hockey	2
SML 525	Theory of Coaching Soccer	2
SML 528	Theory of Coaching Track and Field	2
Select at least one of the following:		4
KIN 505	Activity, Injuries and Disease	4
EXSC 527	Scientific Foundations of Health and Fitness	4
SML 560	Sport Psychology	4
RMP 560	Recreational Sport Management	4
SML 562	Sport Media Relations	4
HPE 675	Motor Development and Learning Across the Lifespan	4
SML 740	Athletic Administration	4
SML 780	Psychological Factors in Sport	4

1 Students will not be permitted to enroll in SML 650D Internship in Coaching, until they have completed 10 Credits toward the minor to include: SML 565 Principles of Coaching; and one of the applicable courses/electives and at least one theory/practical coaching class.

Sport Management and Leadership Major (B.S.)

https://www.unh.edu/program/bachelor-science/sport-management-leadership

Description

The Sport Management and Leadership Major at UNH prepares students for successful careers in the sport industry. The SML major meets the needs of the ever-changing sport marketplace, by balancing academic preparation through related coursework with extensive opportunities to gain experience in the sport industry. Analyzing and integrating the context/culture of sport is embedded throughout our curriculum and grounds students' preparation for careers in interscholastic, intercollegiate, and professional sport including sport marketing, event management, coaching, administration, and sport media/communication. SML also prepares students for graduate study in areas such as sport law, sport business, sport psychology, or sport communication.

Majors take a core of foundation courses, in addition to applied electives and choose one of three focus areas: Sport Marketing and Event Management, Coaching/Athletic Administration, or Sport Media/ Communication. In addition, a targeted internship experience is required since it is critical to career development. Students in this major are expected to complete a minor, cognate or a double major in a related field (e.g. business, communication, english/journalism, psychology, education) that ensures breadth and depth as well as appropriate knowledge and skills for entry into a sport-related career.

Requirements

Degree Requirements

Minimum Credit Requirement: 128 credits

Minimum Residency Requirement: 32 credits must be taken at UNH

Minimum GPA: 2.0 required for conferral*

Core Curriculum Required: Discovery & Writing Program Requirements

Foreign Language Requirement: No

All Major, Option and Elective Requirements as indicated.
**Major GPA requirements as indicated.*

Major Requirements [1]

Majors must earn a grade of B- or better in SML 580 Sport Industry, and a grade of C or better in an approved statistics course as well as each required Sport Management and Leadership course.

Code	Title	Credits
Core Courses		
SML 580	Sport Industry	4

SML 521	Theory of Coaching Basketball	2
SML 522	Theory of Coaching Football	2
SML 523	Theory of Coaching Ice Hockey	2
SML 525	Theory of Coaching Soccer	2
SML 528	Theory of Coaching Track and Field	2
SML 561	History of American Sport and Physical Culture	4
SML 561W	History of American Sport and Physical Culture	4
SML 630	Sport Facility and Event Management	4
SML 631	Sport Media Production	4
SML 643	Social Media Marketing in Sport	4
SML 650C	Internship in Sport Management and Leadership	1-8
SML 693	Teaching Assistantship	2
SML 696	Independent Study	2-4
SML 765	Advanced Topics in Coaching	4
SML 780	Psychological Factors in Sport	4
SML 798	Special Topics	1-4
SML 761	Career Development in Sport Management and Leadership [2]	4

1 All students are required to complete an advisor approved minor, cognate or double major or 20 credits of coursework in a related field and approved in advance by faculty adviser.

2 Majors must complete a minimum of 150 hours of industry experience before they can take SML 761 Career Development in Sport Management and Leadership. Students must be enrolled as a sport managment and leadership major for one full semester before taking SML 761 Career Development in Sport Management and Leadership. See adviser for details.

3 All students are required to have a minimum grade of C in Statistics, PSYC 402, SOC 402, ADMN 510 or HMP 540, or an approved Statistics course.

4 Electives can include any courses listed within any focus area or the two additional courses listed below, including an additional 4 credits of internship. Credits applying to a declared focus area cannot also count as elective credits.

Internal transfer applicants to Sport Management and Leadership must have at least a 2.5 GPA as well as a minimum grade of C in Statistics (PSYC 402, SOC 402, ADMN 510 or HMP 540 or another approved statistics course) and a minimum grade of B- in SML 580 Sport Industry.

Student Learning Outcomes

Program Learning Outcomes

- SML students will understand the socio-cultural components of sport integrated throughout the curriculum while translating theory to practice in order to apply classroom knowledge in the sport setting.
- SML students will distinguish and employ effective leadership principles, management styles, and decision-making skills in sport organizations.
- SML students will identify and understand major issues in sport and how they can reflect as well as bring about change in society relative to diversity, equity, and inclusion.
- SML students will understand the importance of working collaboratively in order to effectively solve problems and reach organizational goals.
- SML students will be exposed to the basic operating principles in the sport industry in order to gain an understanding of the potential career paths.
- SML Students will be able to organize, apply and synthesize information and ideas while effectively expressing these in both oral and written form (critical and technical) through various contexts, technologies and platforms.
- SML students will develop, utilize and reflect on professional skills while demonstrating an ability to self-advocate in their career development.
- SML students will apply critical thinking and problem-solving skills to develop and analyze research data on issues related to the sport industry.

Sport Management Minor

https://www.unh.edu/program/minor/sport-management

Description

The Sport Management minor offers an opportunity for students outside of the major to strategically take classes in our SML curriculum, specifically designed to provide students with the basic knowledge of sport management. The minor consists of two required Sport Management courses and then a variety of options across our SML curriculum and within Paul College.

Admission into the minor is based on successful completion of SML 580 Sport Industry and a minimum GPA of 2.0. Please contact sophia.min@unh.edu for additional information.

Requirements

Academic policies related to Minors.

- This minor may not be declared with the following majors: Sport Management and Leadership/Sport Studies (B.S.).

Required Courses

Code	Title	Credits
Two Required Courses		
SML 580	Sport Industry [1]	4
SML 564	Introduction to Sport Marketing	4
Select two courses from the following:		
SML 630	Sport Facility and Event Management	4
SML 634	Sport Sponsorship and Sales	4
SML 738	Sport Finance	4
SML 740	Athletic Administration	4
SML 764	Advanced Sport Marketing [2]	4
Select one course from the following:		
PAUL 450	Personal Finance	4
MGT 535	Organizational Behavior	4
or ADMN 575	Behavior in Organizations	

MKTG 649	Foundations of Personal Selling	4
ECON 676	Economics of Sports	4

1 SML 580 Sport Industry should be the first class students take in this minor. Additionally, enrolling in this class is when a student fills out the intent to minor form.

2 If not taken as one of the two required courses.

College of Liberal Arts

Michele Dillon, Dean
Jenni Cook, Associate Dean

It is the purpose of the College of Liberal Arts, as a center of learning, research inquiry, and scholarship, to help students achieve an understanding of the heritage of civilization and to educate them in the traditions of the past and realities of the present so they may recognize and act upon their obligations to the future.

The college seeks to meet the educational needs of each student through the development of interests and skills, which, combined with the individual's potential, make possible a richer, more useful, and more purposeful and meaningful life.

Degrees

Bachelor of Arts

These programs primarily provide a broad liberal education along with depth in a major. Requirements for the bachelor of arts degree and information regarding the majors that lead to a bachelor of arts are outlined under Programs of Study (p. 219).

Bachelor of Fine Arts

This curriculum provides training for students who plan to enter a professional graduate school. Requirements for the bachelor of fine arts degree are outlined under Programs of Study/Art and Art History (p. 228).

Bachelor of Music

This curriculum provides professional training in performance, composition, music education, and music pre-teaching and allows students to develop their talent to a standard equivalent to the one achieved at conservatories of music. Requirements for the bachelor of music degree and information regarding the curriculum are presented in Programs of Study/Music (p. 295). Degrees include Music Education, Pre-Teaching, Performance and Composition.

Bachelor of Science

This curriculum provides strong preparation for entry into graduate programs in neuroscience, behavior, pharmacology and medicine. Requirements for the bachelor of science degree and information regarding this major are outlined under Programs of Study/Neuroscience and Behavior.

The homeland security major (p. 683), offered on both the Durham and Manchester campuses, also leads to a bachelor of science degree.

Combined Programs of Study

In addition to pursuing a single major, students may combine programs of study as follows:

Minors: Students may pursue one or more minors, each typically comprised of 5 courses. Minors are available in nearly every discipline within the College of Liberal Arts.

Cognates: Students may pursue one or more cognates, each typically comprised of 3 courses and intended to develop career-oriented skills. The list of cognates and their requirements are found under Cognates (p. 238).

Second (Double) majors: Students may choose to fulfill the requirements of two dissimilar major programs.

Dual majors: Students may choose to fulfill the requirements of a dual major, typically comprised of 8 courses. Dual majors are designated programs that must be paired with another major of any discipline. Dual majors in the College of Liberal Arts are educational studies (p. 252), humanities (p. 283), global studies (p. 327) and justice studies (p. 289).

See College of Life Sciences and Agriculture for information about the Sustainability dual major.

Student-designed majors: Under special circumstances, students may design their own majors.

Dual-degree programs: Students may choose to fulfill the requirements of two separate degrees, such as a B.A. and a B.S.

Interdisciplinary opportunities: See the Interdisciplinary Studies web page for the complete list of interdisciplinary programs within the College of Liberal Arts.

Proficiency in a Foreign Language

Please see the explanation of this University requirement under Foreign Language Requirement (p. 45): Bachelor of Arts.

Within the College of Liberal Arts, only those students majoring in education, linguistics, philosophy, psychology, sociology, theatre and dance, or women's and gender studies may use American Sign Language (ASL) to fulfill their foreign language proficiency requirement. English teaching majors who plan to pursue deaf studies may petition the English department to use ASL to fulfill their foreign language proficiency requirement.

COLA Study Abroad

cola.unh.edu/cola-study-abroad

The College of Liberal Arts offers a number of managed study abroad programs that are designed and administered by college faculty and the College of Liberal Arts. These programs provide opportunities for liberal arts students as well as students in other colleges to experience and learn about different cultures and, in non-English-speaking countries, to increase proficiency in a foreign language.

Because the college administers these programs, registration, finances, and other logistics are streamlined and simple. Students pay UNH tuition and a single program fee, which covers housing, excursions, and, in some cases, board. Most UNH student fees are waived with the exception of the technology fee, a study abroad administration fee, and an international travel insurance fee. Students are eligible for federal financial aid for the semester-long programs.

Please see the list of eligibility requirements under Study Abroad Programs (p. 737).

To learn more about any of the programs, contact the program director listed on the website for each program or the Global Education Office at study.abroad@unh.edu.

Career and Professional Success

cola.unh.edu/careers

The College of Liberal Arts is committed to helping students achieve success in their career and professional endeavors. From one-on-one career counseling appointments to internship placements and employer visits to campus, the Career and Professional Success office supports students with the tools and resources to secure meaningful, impactful, and rewarding careers.

Research Centers

Center for the Humanities

cola.unh.edu/center-humanities

The Center for the Humanities fosters excellence in the humanities, broadly conceived, at the University of New Hampshire. Center resources and programs support faculty research, encourage external grant and fellowship submissions, facilitate reflection and inquiry across the University community and beyond, create interdisciplinary initiatives in many forms, and undertake special projects to raise the visibility of the humanities. To accomplish this, the center endeavors to support the highest quality work by UNH humanities faculty, to build productive collaboration among faculty, to create singular projects that advance its goals, and to be a center of innovation, planning and inspiration for the humanities at the University of New Hampshire. By pursuing its goals, the center supports the University's research mission in particular, as well as its academic plan.

The center is the sponsor of the Saul O Sidore Memorial Lectures and the James H. and Claire Short Hayes Chair in the Humanities.

Crimes Against Children Research Center

www.unh.edu/ccrc

The Crimes Against Children Research Center (CCRC) is concerned with all forms of crimes against children and adolescents, from birth through age 17, both within and outside the family, both known and unknown to law enforcement. These include criminal acts as defined by law, such as sexual assault, abduction, theft, robbery and aggravated assault against children. But it also includes child abuse in all its forms —physical, sexual, emotional—and child neglect, as well as child-to-child violence, such as peer and sibling assaults and bullying. It also includes indirect victimization, where children witness or are affected by the crime victimization of a family member or friend.

The CCRC, created in 1998, grew out of and expands upon the work of the UNH Family Research Laboratory, which has been devoted to the study of family violence and related topics since 1975. Associated with the center is an internationally recognized group of experts who have published numerous books and articles concerning the incidence and impact of violence against children.

CCRC staff has contributed to many pioneering national crime studies, including National Incidence Study of Missing, Abducted, Runaway and Thrownaway Children; National Family Violence Survey; National Youth Victimization Prevention Survey; National Survey of Sexual Abuse in Day Care; Developmental Victimization Survey; Youth Internet Safety Surveys; and Multisite Evaluation of Children's Advocacy Centers.

The CCRC is directed by David Finkelhor, who is also the director of the Family Research Laboratory and professor of sociology at the University of New Hampshire. Finkelhor has been researching criminal violence against children since 1978 and is the author and editor of 12 books and more than 100 articles on the subject.

Family Research Laboratory

cola.unh.edu/family-research-laboratory

Since 1975, the Family Research Laboratory (FRL) has devoted itself primarily to understanding family violence and the impact of violence in families. As public and professional interest in family violence has grown, so has the need for more reliable knowledge. The FRL seeks to fill that need through comprehensive literature reviews, new theories and methodologically sound studies. Researchers at the FRL pioneered many of the techniques that have enabled social scientists to estimate directly the scope of family violence. These efforts have brought international recognition to the FRL.

The FRL is unusual among research centers in the field because it addresses all aspects of the family, violence and abuse. Topics undertaken by the FRL include physical abuse of children, corporal punishment of children, sexual abuse of children, physical abuse of spouses, dating violence, abuse of the elderly, intra-family homicide, rape and marital rape, violence between siblings, peer victimization of children, pornography, and missing and abducted children. This variety of topics is a result of beliefs that have guided FRL research: that various forms of family problems are interrelated, that conflict is as basic to family life as are love and cooperation, and that much of the conflict and violence in the world outside the family can be traced to roots within the family. This holistic view of family violence has contributed both diversity and richness to the FRL's work.

The FRL's prominence in the field is in part a result of the large number, variety and scope of its publications. In a span of 10 years, FRL staff members have published more than 45 books and more than 740 articles on family violence.

The FRL is housed in a suite of offices in McConnell Hall The FRL is directed by David Finkelhor, professor of sociology and director of the Crimes Against Children Research Center.

The Survey Center

https://cola.unh.edu/unh-survey-center

The UNH Survey Center is a full-scale, non-partisan academic survey research center, committed to providing university researchers, government and business leaders, and private organizations with reliable information about public attitudes concerning important policy matters. It is nationally known for its public opinion and political polling for CNN, Fox News and WMUR-TV.

The UNH Survey Center has conducted survey research projects at the University of New Hampshire since 1986: state, regional and national general population surveys based on probability sampling; surveys that target specific populations; surveys that utilize complex stratified sampling techniques; and panel studies. The Survey Center conducts telephone, mail and web surveys, as well as focus groups and other qualitative research projects.

The Survey Center is directed by Andrew E. Smith, who is also associate professor of practice in political science.

Academic and Cultural Centers

new hampshire humanities collaborative

cola.unh.edu/new-hampshire-humanities-collaborative

The New Hampshire Humanities Collaborative (NHHC) is a dynamic hub of faculty and undergraduate student research, pedagogical activity, and

community engagement. Faculty and students already working on or interested in projects that engage with social inequality are invited to connect with NHHC initiatives and resources. Additionally, we broaden faculty and student engagement in these thematic areas by incentivizing new and continuing research with external funding support. NHHC also uses its expertise to facilitate community and industry partnerships, develop internships, and expand collaborative relationships with community colleges in the region.

NHCC draws on funding from an Andrew W. Mellon Foundation grant and College of Liberal Arts donor gift funds. These funds enable faculty and students to pursue projects that are effective in addressing today's pressing societal problems. A key component of this work is a collaborative partnership between the College of Liberal Arts at UNH, the state's flagship public and research-intensive university, and the Community College System of New Hampshire's (CCSNH) seven community colleges.

Programs

- Africana Studies Minor (p. 219)

Africana Studies Minor

https://www.unh.edu/program/minor/africana-studies

Description

The Africana studies minor encompasses multidisciplinary, comparative and global research with and about peoples and cultures of Africa and its Diasporas. Diaspora is defined by dispersals and mobilities of communities, the result of exploration, migration and or coercion. African Diaspora communities exist everywhere, from Europe, the Middle East and Asia, to South and North America. We consider how Africana heritage and culture is shaped by these long-standing, long-range connections between diverse places, making our focus importantly geographic and our content intrinsically cosmopolitan.

We foreground the experiences of African, African Diaspora and African American communities in our research, teaching and engagement. We consider how understanding exceptional experiences and histories of exclusion and communion can inform work for building a more sustainable, equitable and just world.

Blackness is a primary root for study and practice in the minor at UNH. Notwithstanding complex historic antecedents of race and racism, we consider how Blackness (/blackness) emerged as racial phenomena in the fifteenth century through global commodity capitalism. In this process, the modern enslavement and worldwide dispersal of African peoples arguably made up the first historic articulations of Blackness, the first major instance of globalization and one of the worst tragedies of human history with which we still reckon today. Throughout this history, the meanings and operations of race and racism in local contexts have not been altogether uniform but nonetheless reveal common dynamics of Black peoples' marginalization and structural dispossession of sociocultural, political and material resources.

In this root, students learn about varieties of historic and contemporary Blackness and what it means to be Black (/black): as lived experience, categorical attribution and aspect of intersecting identities; as creatively spiritual, aesthetic, and discursive expression and media; as antiracist reclamation and foundation for agency, activism and sociopolitical mobilization; and as a fount for queerness, love, joy and liberation. Our students and faculty consider how Black experiences are multidimensional and multivalent, subject to ongoing clarification within and among diverse communities worldwide, and differently and lyrically voiced and performed for multiple means and ends. We consider how Blackness entails an existential and practical quest for freedom from oppressive orders and boundary-making.

The program has a strong focus on coursework and research on African American and or Black peoples in the United States, as their cultures and history have been integral to the development of the nation-state and also highlight the country's problems and promises. The program also offers many courses on the cultures and history of Africa and its other Diaspora communities. Our courses range from the humanities to the social and natural sciences, and our approaches and methods are applicable to virtually all areas of study at UNH. Students are encouraged to take courses from a variety of disciplines. The minor therefore is designed to serve the needs of all students, regardless of their background, and to complement their work in their major fields of study.

We maintain close intellectual and practical solidarities with UNH's Center for the Humanities, Department of Women's and Gender Studies, and other interdisciplinary minor programs in American Studies, Native American and Indigenous Studies, Latin American, Latinx, and Caribbean Studies, Asian Studies, Queer Studies, and Race and Ethnic Studies. Our program faculty also maintain ties with Black educational and community organizations, such as the Seacoast African American Cultural Center, Black Heritage Trail of New Hampshire, Black Lives Matter chapters, and others in the region.

The introductory course is meant to provide students with a general understanding of subjects and areas within the related fields African, African Diaspora, African American and Black studies. Electives enable students to explore their interests and or develop greater understanding and synthesis of these subjects and areas. The upper-level course requirement is meant to be a culmination of a student's work in the minor and key conversations with program faculty about future research and graduate study, community engagement, and careers. Students should arrange to meet with faculty teaching this course early in the semester to establish goals for this culminating experience. Study abroad credits may also count with permission from the coordinator or other program faculty. A list of approved courses are posted each semester online.

Students can also pursue independent study and internship options as well for their elective or upper-level course requirement, with on-campus or community organizations such as the UNH Beauregard Center, Black Students Union, African Student Association, Seacoast African American Cultural Center, Black Heritage Trail of New Hampshire or local chapters of national organizations. These options are supervised by program faculty and may be taken under the AFAM or other departmental codes.

Requirements

Academic policies related to Minors.

Minor Requirements

The minor consists of completing five courses (20 credits).

Code	Title	Credits
Introductory Course		
Select one course from the following: [1]		4
ANTH 500	Peoples and Cultures of the World (Only topic D: Sub-Saharan Africa)	
GEOG 550	Sub-Saharan Africa: Environmental Politics and Development	
HIST 505	African American History	
HIST 588	History of Modern Africa: 1870 to the Present	
Electives		
Select 12-credits from the following pre-approved elective courses:		12
CLAS 550B	Identities and Difference in the Ancient World: Slaves and Masters	
CLAS 551	Race, Ethnicity, Class & Classics	
CMN 567	Gender, Race, and Class in the Media	
ENGL 440A	Honors/On Race in Culture and Society	
ENGL 550	Introduction to the Literature and Culture of Race	
ENGL 581	Reading the Postcolonial Experience	
ENGL 693	Special Topics in Literature (Only topic: African American Writers)	
ENGL 778	Race and Gender in Film and Popular Culture	
ENGL 787	English Major Seminar (Only topic: Slavery and Culture)	
GEOG 402	World Regions: Asia and Africa	
HIST 440A	Martin Luther King, Jr., and the Struggle for Racial Justice	
HIST 440D	Honors/Citizens and Persons	
HIST 611	Civil War Era	
HIST 690	Seminar: Historical Expl (Only topic: Race in 20th Century America)	
HDFS 757	Race, Class, Gender, and Families	
MUSI 460	Jazz Band [2]	
MUSI 463	Jazz Combo [2]	
MUSI 562	Jazz Piano [2]	
MUSI 563	Jazz Guitar [2]	
MUSI 762	Jazz Piano [2]	
MUSI 763	Jazz Guitar [2]	
PHIL 780	Special Topics (Only topic: Race, Gender and Social Justice)	
SOC 530	Sociology of Race and Ethnicity	
SW 630	Anti Oppressive Practice in Social Work	
WGS 401W	Introduction to Women's Studies	
WGS 405	Gender, Power and Privilege	
WGS 444A	Race Matters	
WGS 505	Survey in Women's Studies	
WGS 798W	Colloquium	
Upper-Level Course		
Select one course from the following: [1, 3]		4
ANTH 685	Gender, Sexuality and HIV/AIDS in Africa	
ENGL 797R	Special Studies in Literature (Race & Racial Theories)	
HIST 600	Explorations (Only topic: Black and Indigenous NH)	
HIST 797	Colloquium (Only topic: Slavery, War and Emancipation)	
SOC 645	Class, Status and Power	
Total Credits		**20**

1. Course must be taught by AFAM program faculty member.
2. May require audition with the Music Department.
3. Internship and other courses with program faculty may also apply with permission.

American Studies (AMST)

Programs

- American Studies Minor (p. 221)

American Studies Minor

https://www.unh.edu/program/minor/american-studies

Description

American studies is the interdisciplinary examination of American life and culture at regional, national, and international scales. It integrates perspectives from a wide variety of disciplines, including history, English, communications, political science, geography, sociology and the arts.

At UNH, the American studies minor is an individualized program of study that allows each student to choose from a broad range of courses offered by several different departments that best match their interests and needs. It is intended to encourage students with particular interests in the United States to develop those interests and learn more about the country from a variety of perspectives.

Requirements

Academic policies related to Minors.

Students must complete five courses approved to satisfy minor requirements as follows:

- At least one course must concentrate on issues of race, gender, or ethnicity.
- No more than three courses may be at the 400 or 500 level.
- No more than two courses may be taken offered by the same department.

Students must earn a C- or better and maintain a 2.0 grade point average in all courses taken to complete the minor.

Code	Title	Credits
Approved Courses		
ANTH 697	Special Topics	4
CMN 505	Analysis of Popular Culture	4
CMN 607	Persuasion in American Politics	4
ENGL 738	Asian American Studies	4
HIST 405	History of Early America	4
HIST 406	History of the Modern United States	4
HIST 410	Historic Survey of American Civilization	4
HIST 600	Explorations	4
HIST 603	European Conquest of North America	4
HIST 611	Civil War Era	4
HIST 613	American Ways of War	4
HIST 618	American Environmental History	4
HIST 620	Foreign Relations of the United States	4
ITAL 444A	Italians Come to America: Representing Emigration and Immigration on Both Sides of the Atlantic	4
MUSI 405	Survey of Music in America	4
POLT 402	American Politics and Government	4
POLT 403	United States in World Affairs	4
POLT 500	American Public Policy	4
POLT 508	Supreme Court and the Constitution	4
POLT 523	American Political Thought	4
RMP 511	Issues of Wilderness and Nature in American Society	4
THDA 450	History of Musical Theatre in America	4
WGS 405	Gender, Power and Privilege	4

Anthropology (ANTH)

Anthropology is a field of visionaries, makers and collaborators, taking a critical, creative and holistic approach to the study of humankind. Our faculty teach hands-on courses in archaeology and sociocultural, applied, biological and forensic anthropology, reflecting our faculty members' research in the Americas, Europe, Africa, the Middle East and Central Asia. Through coursework, fieldwork and study-abroad experiences, students gain life-long learning skills that prepare them for success in cross-cultural understanding and communication, working for diverse organizations and tackling complex social issues in today's global world. Our students are employed in a range of areas such as health care, business, community development, cultural resource management and museums, and education.

Faculty

Anthropology Department Faculty

Anthropology Major (B.A.)

https://www.unh.edu/program/bachelor-arts/anthropology

Description

Anthropology equips learners with skills and theories that explain what makes us human culturally and biologically across time and space. Anthropology also encourages a global perspective on the human condition that educates about how and why human societies and culture changes, similarities and differences between humans and other species and beings, and how our communities, including those of New Hampshire, are connected to the wider globalized world. Further, anthropology fosters a deep view of human adaptation and behavior, from our evolutionary and historic past to the present, demonstrating our past pitfalls and successes as means to create a sustainable future world..

Students take a range of introductory to advanced courses courses involving hands-on and experiential learning in our main areas of focus: cultural and medical anthropology, biological and forensic anthropology, and archaeology. Advanced courses provide opportunities for students to pursue intensive studies and technical training in focused methods and topics, and we pride ourselves on close faculty-student contact in lab and seminar courses. We encourage students' exploration of complementary programs across UNH, world languages, travel through national and international study-away opportunities, and service learning and collaboration with community-based organizations. Our discipline is an intellectual home for students who have broad and diverse interests in what it means to be human.

All anthropology majors graduate with foundational skills in critical and creative thinking driven by curiosity, research design and analysis, and multicultural competency. Students also develop transferable skills that reflect their focus in our diverse discipline and can include: intercultural communication; user experience and design, market research, and patient-oriented services based in ethnography; and lab- and field-based forensic and archaeological research involving excavation, recovery and use of drone, surveying, and modelling technologies.

Anthropology offers a strong foundation for a wide range of careers. Our alumni find successful careers in a range of areas, including: public policy and local government, forensic investigation and identification, clinical and public health practice, business, public relations and marketing, K-12 and adult education, social work, research-driven advocacy, community development, cultural resource management, museum work, consulting, and more.

To declare a major in anthropology, students must have completed at least one introductory level anthropology course at the 400 or 500 level with a grade of C or better.

Requirements

Degree Requirements

Minimum Credit Requirement: 128 credits

Minimum Residency Requirement: 32 credits must be taken at UNH

Minimum GPA: 2.0 required for conferral*

Core Curriculum Required: Discovery & Writing Program Requirements

Foreign Language Requirement: Yes

All Major, Option and Elective Requirements as indicated.
**Major GPA requirements as indicated.*

Major Requirements

Majors must complete a minimum of 40 credits in anthropology with grades of C or better and in accordance with the below requirements. The required minimum overall GPA in major coursework is 2.0.

Code	Title	Credits
Required Courses		
ANTH 411	Global Perspectives on the Human Condition: An Introduction to Anthropology	4
ANTH 412	Broken Pots and Buried Cities: Introduction to World Archaeology	4
or ANTH 415	The Human Story: Evolution, Fossils and DNA	
ANTH 500	Peoples and Cultures of the World	4
or ANTH 501	World Archaeological Cultures	
ANTH 513	Ethnographic Methods	4
or ANTH 514	Method and Theory in Archaeology	
ANTH 611	History of Anthropological Theory	4
Electives		
One additional course numbered 500 or above		4
Three additional courses numbered 600 or above		12
Capstone Requirement		
ANTH 750		4
or ANTH 785	The Anthropology of Dreams and Dreaming	
or ANTH 797	Advanced Topics	
Total Credits		**40**

Additional Information

Students declaring the major in anthropology are expected to make steady progress toward fulfillment of major requirements. Typically, this means taking at least one ANTH course per semester until all of the requirements have been met. Very rarely, and only in specific circumstances such as a complex transfer of ANTH-related credits from another school, will an exception to this policy be made and only in student consultation with their advisor.

Candidates for any UNH degree must satisfy all of the University Discovery Program requirements in addition to satisfying the requirements of each individual major program.

Discovery Program Requirements
Anthropology majors may use one major-required ANTH course to satisfy one Discovery category requirement. These only include: ANTH 411, ANTH 412, ANTH 415, ANTH 500, or ANTH 501.

Capstone Requirement
The Capstone Requirement for the anthropology major also fulfills the Discovery Capstone Requirement, and it must be fulfilled in a Seminar format in any one the following courses: ANTH 750, ANTH 785, or ANTH 797. Students may not substitute ANTH 700 or ANTH 795, ANTH 796 courses for their Capstone Requirement, although these can count as electives for the major.

Bachelor of Arts Language Requirement
Anthropology majors must also satisfy the UNH Bachelor of Arts Language requirement. Anthropology majors may take American Sign Language to satisfy the language requirement.

Interdisciplinary Dual Majors or Minors
Many anthropology majors choose to pursue interdisciplinary dual majors or minors at UNH that cross-list ANTH courses, including Justice Studies (JUST), Humanities (HUMA), Sustainability (SUST), International Affairs (IA), Global Studies (GS), and Forensics. Up to eight credits of ANTH courses (normally two courses) will be permitted to count toward both the anthropology major and the dual major program. Students must carefully plan ahead with their advisors in both majors. Up to one (1) course, internship, or experience not based in Anthropology may be counted as an elective for the Anthropology major, and only with the approval of the student's advisor and department chair.

Study Abroad
Students are also encouraged to explore study abroad options through the UNH Global Education Abroad office. Anthropology majors may acquire up to eight credits (normally two courses) toward their major requirements while studying abroad. Additional courses can be accepted for general credits at UNH. Majors must complete ANTH 513 or ANTH 514, ANTH 611, and their 700-level Senior Seminar on-campus. These cannot be completed on study abroad.

Internships
Internships (ANTH 700, 1-4 credits) and independent study courses (ANTH 795 / ANTH 796, 1-4 credits) are supervised primarily by a faculty member and are developed mutually between a student and faculty. Students should have previously taken at least one course with them, and unless faculty have a grant or an external funding partner, internships for credit that are primarily directly by faculty are not paid. To support their research and supplies related to internships or independent studies, students should seek out opportunities from the Hamel Center for Undergraduate Research. Students are encouraged to meet with UNH Career and Professional Success (CaPS) to explore paid, pre-professional internships with organizations outside of UNH, such as local businesses, nonprofits, and government agencies. Additionally, students should

contact a faculty member to discuss the possibility of receiving academic credit or secondary supervision for their internship.

Honors-in-Major

An Honors-in-Major option is available and separate from the UNH Hamel Honors & Scholars College options. Honors-in-Major requires completion of ANTH 699H Honors Senior Thesis, as well as undertaking any two 600- or 700-level ANTH courses designated as Honors by instructor approval. Students complete ANTH 699H Honors Senior Thesis across two semesters for eight credits total. Students may also choose to pursue their research and complete a two semester, eight credit non-Honors senior thesis (ANTH 699 Senior Thesis). Exceptions to the eight credit-rule only pertain to a UNH Hamel College-related Honors Senior Thesis (also ANTH 699H Honors Senior Thesis) which is supervised by Anthropology faculty and may be taken by any UNH student but only taken once for four credits. Only four credits of any thesis will count as an ANTH 600-level major elective requirement toward the BA degree. Please consult with both your Anthropology advisor and the UNH Hamel Honors & Scholars College directors.

Student Learning Outcomes

Program Learning Outcomes

- Demonstrate ability to conduct anthropological research: to collect primary and secondary source data in the observation, documentation, or excavation of human actions, languages, remains, and or material artifacts.
- Master the ability to write with an anthropological lens: to critically analyze data with respect to historical and current anthropological theories and perspectives, and to construct persuasive arguments.
- Exhibit skills in presentation of anthropological research: in writing (ethnography, technical reports, and other genres), inter-personal and public speaking, and or data visualization (graphic illustration, exhibition, mapping, or modeling, for example).
- Demonstrate the knowledge or ability to collaborate with research partners and communities as part of a commitment to public, applied, engaged, or activist anthropology and archaeology.

- Demonstrate the ability to think comparatively about diversity and inequality across the global as well as within a specific social context, and to apply anthropological methods, perspectives, and theories to the world around them.

Anthropology Minor

https://cola.unh.edu/anthropology/program/minor/anthropology

Description

Anthropology equips learners with skills and theories that explain what makes us human culturally and biologically across time and space. Anthropology also encourages a global perspective on the human condition that educates about how and why human societies and culture change, similarities and differences between humans and other species and beings, and how our communities, including those of New Hampshire, are connected to the wider globalized world. Further, anthropology fosters a deep view of human adaptation and behavior, from our evolutionary and historic past to the present, demonstrating our past pitfalls and successes as means to create a sustainable future world.

Students declaring a minor in anthropology are invited to take a range of introductory to advanced courses involving hands-on and experiential learning in our main areas of focus: cultural and medical anthropology, biological and forensic anthropology, and archaeology. Advanced courses provide opportunities for students to pursue intensive studies and technical training in focused methods and topics, and we pride ourselves on close faculty-student contact in lab and seminar courses. Students who declare a minor find it complementary to a variety of programs across UNH's colleges, including biological sciences and health-related fields, psychology, communication, business, international affairs, history, and more.

Anthropology minors develop foundational skills in critical and creative thinking driven by curiosity, research design and analysis, and multicultural competency. Students may also develop transferable skills that reflect their focus in our diverse discipline and can include: intercultural communication; user experience and design, market research, and patient-oriented services based in ethnography; and lab- and field-based forensic and archaeological research involving excavation, recovery and use of drone, surveying, and modelling technologies.

Anthropology offers a strong foundation for a wide range of careers. Our alumni find successful careers in a range of areas, including: public policy and local government, forensic investigation and identification, clinical and public health practice, business, public relations and marketing, K-12 and adult education, social work, research-driven advocacy, community development, cultural resource management and museum work, consulting, and more.

Arabic (ARBC)

Programs

- Arabic Minor (p. 224)

Arabic Minor

https://www.unh.edu/program/minor/arabic

Description

There are 26 countries where Arabic is the official or co-official language, extending beyond the Middle East region. The Arabic minor facilitates students' acquisition of skills in this critical language (speaking, listening, reading and writing), as well as cross-cultural competence. The linguistic skills achieved in the successful completion of this minor will be at the Advanced or Intermediate-High Proficiency level in Arabic as defined and measured by the American Council on the Teaching of Foreign Languages (ACTFL) Proficiency Guidelines. This minor provides a strong complement to many majors and will prepare students to compete for national fellowship opportunities, graduate school, the job market — any opportunity in which proficiency in Arabic is required or preferred.

Requirements

Academic policies related to Minors.

The Arabic minor consists of completing five courses (20 credits).

Code	Title	Credits
Required Courses		
ARBC 503	Intermediate Arabic	4
ARBC 504	Intermediate Arabic	4
ARBC 631	Advanced Arabic I	4
ARBC 632	Advanced Arabic II	4
Elective Course		
Select one course from the following: [1]		4
ARBC 425	Introduction to Arabic Culture	
HIST 585	Medieval Islam	
HUMA 511A	Medieval Humanities: Rise of Global Empires [2]	
HUMA 511B	Medieval Humanities: Rise of Global Empires [2]	
HUMA 511C	Medieval Humanities: Rise of Global Empires [2]	
POLT 559	Comparative Politics of the Middle East	
Total Credits		**20**

[1] Or another course closely related to the minor area of study with approval of faculty.

[2] Please check with the contact for the minor to make sure that the topics covered are sufficiently relevant to Arabic studies.

Students may take equivalent courses while studying abroad to satisfy any of the courses required for the minor.

Art and Art History (ARTS)

The courses offered by the Department of Art and Art History provide an opportunity, within the liberal arts framework, for students to acquire a thorough knowledge of the basic means of visual expression, to study intensively the history of art, or to prepare themselves for a career in art teaching. In addition, these courses offer foundation experience for students who are interested in art but are majoring in other departments in the University. The Department of Art and Art History offers programs leading to a bachelor of arts degree in the arts with options in studio art, studio art/art education or art history and a bachelor of fine arts degree in studio art. Certification for art teaching in the public schools is offered in cooperation with the Department of Education (see Education, under Programs of Study).

The University reserves the right to retain selections from a student's work for a period of not more than two years.

Double Option in The Arts

Students may earn a B.A. degree in the arts with both a studio art option and an art history option provided the requirements for each option are met. No more than 8 credits used for one option may be used for the second option. These 8 credits will be in Introductory Drawing and Introduction to Art History.

Minors in the Department of Art and Art History

Students must receive a minimum grade of C- in all required courses. For art majors, only two courses from the art and art history major requirements can be applied toward the minor.

A maximum of two courses (8 credits) may be transferred from another accredited institution, provided UNH has accepted them as transfer credits. Transfer courses must be a minimum of three credits. Students with transfer courses that are accepted with less than four semester credits must still meet the credit requirement for completion of the minor.

Art & Art History Department Faculty

Arts Major: Art History Option (B.A.)

https://www.unh.edu/program/bachelor-arts/arts-art-history

Description

The art history curriculum provides a comprehensive, in-depth study of Western art from the ancient world to the present as well as some exposure to non-Western cultures and artistic traditions. All courses in the program teach basic skills of interpretation and critical analysis within the framework of broad cultural perspectives that connect the visual arts to larger historical developments. They also teach good writing and research skills. In addition, art history majors typically branch out into other fields, such as history, literature and foreign languages. By the time they graduate, most majors are well equipped to pursue such traditional careers in the field as museum and gallery work, teaching, publishing or librarianship. But because art historical education is so broad, it also prepares students for a variety of other, more flexible options, such as law, business or architecture.

Requirements

Degree Requirements

Minimum Credit Requirement: 128 credits

Minimum Residency Requirement: 32 credits must be taken at UNH

Minimum GPA: 2.0 required for conferral*

Core Curriculum Required: Discovery & Writing Program Requirements

Foreign Language Requirement: Yes

All Major, Option and Elective Requirements as indicated.
**Major GPA requirements as indicated.*

Major Requirements

- Students must complete a minimum of 10 courses (40 credits) for the major requirements, plus a capstone course as outlined below.
- Major courses must be completed with a minimum grade of C-. The required minimum overall GPA in major coursework is 2.0.
- Art history majors may use two major-required courses to satisfy two Discovery Program category requirements.

Code	Title	Credits
Required Courses		
ARTH 400	Topics in Art History	4
or ARTH 440A	From Digging to Digital: Preserving and Displaying the Past	
or ARTH 444	Mona Lisa to Much Ado About Nothing: An Introduction to Renaissance Culture	
or ARTH 444B	Art and Money	
or ARTH 474	Introduction to Architectural History	
or ARTH 480	Introduction to Art History	
or ARTH 485	Introduction to Global Art History	
ARTS 532	Introductory Drawing [1]	4
ARTH 799	Seminar in Art History	4
Art History Courses		
Six (6) courses total from the areas below (only one 500-level course may be taken).		
Pre-Renaissance - Select one course from the following:		4
ARTH 501	Introduction to Mediterranean Archaeology	
ARTH 674	Greek Art and Architecture	
ARTH 678	Romanesque and Gothic Art	
Renaissance/Baroque - Select one course from the following:		4

ARTH 583	Baroque Art: Realism, Caricature, Shock	
ARTH 681	Early Renaissance Art	
ARTH 682	The High Renaissance	
Modern Art - Select one course from the following:		4
ARTH 686	Sex and Sensuality in 18th-Century Art	
ARTH 688	Histories of Late 19th & 20th Century European Modernism	
ARTH 694	Vision and Modernity: From Panorama to Early Film	
Electives: Pre-Renaissance, Baroque or Modern Art		12
Select three courses from the following:		
ARTH 501	Introduction to Mediterranean Archaeology	
ARTH 502	Ancient Pompeii and the Bay of Naples	
ARTH 583	Baroque Art: Realism, Caricature, Shock	
ARTH 674	Greek Art and Architecture	
ARTH 678	Romanesque and Gothic Art	
ARTH 681	Early Renaissance Art	
ARTH 682	The High Renaissance	
ARTH 686	Sex and Sensuality in 18th-Century Art	
ARTH 694	Vision and Modernity: From Panorama to Early Film	
Capstone		
ARTH 795	Understanding Art History: An In-Depth Overview	4
Total Credits		**40**

[1] Art history students receive preferential placement in this course.

For students considering graduate school recommended languages are German, and, if possible, either French, Italian, or another language relevant to their areas of interest.

Student Learning Outcomes

Program Learning Outcomes

- We expect our art history majors to become conversant with some of the major conventions artists and architects have subscribed to over the millenia, and with how these have been bent or broken and why.
- We expect them to learn to write cogently and clearly, and to be able to analyze orally on the spot what they see in a work of art or architecture, often by comparison and contrast with works they know well.

Arts Major: Studio Art Option (B.A.)

https://www.unh.edu/program/bachelor-arts/arts-studio-art

Description

The B.A. in art - studio art option provides a strong fine arts education and solid foundation that prepares students for a life in the arts, whether it be as a professional or commercial artist, a teacher, an architect, a designer or a museum director. We offer courses in painting, drawing, photography (both digital and wet lab techniques), printmaking, sculpture (all media: steel, aluminum, bronze casting, clay, and wood), furniture design and fabrication, ceramics and design. A degree in studio art provides a foundation for diverse professional achievement.

Requirements

Degree Requirements

Minimum Credit Requirement: 128 credits

Minimum Residency Requirement: 32 credits must be taken at UNH

Minimum GPA: 2.0 required for conferral*

Core Curriculum Required: Discovery & Writing Program Requirements

Foreign Language Requirement: Yes

All Major, Option and Elective Requirements as indicated.
**Major GPA requirements as indicated.*

Major Requirements

- Students must complete a minimum of 14 courses (56 credits) for the major requirements.
- Major courses must be completed with a minimum grade of C in each course. The required minimum overall GPA in major coursework is 2.0.
- Studio art majors may use two major-required courses to satisfy two Discovery category requirements.

Code	Title	Credits
Required Courses		
Core Foundation		
ARTS 510	Principles of Design	4
ARTS 532	Introductory Drawing	4
ARTS 567	Introductory Sculpture	4

ARTS 536	Introduction Printmaking: Intaglio	
ARTS 546	Painting Design I: Perceptual Painting and Color Theory	
ARTS 640	Drawing Workshop	
Select one 500-level 3D course from the following:		4
ARTS 501	Introductory Ceramics	
ARTS 525	Introductory Woodworking	
Select one 500-level Photography course from the following:		4
ARTS 551	Introduction to Darkroom Photography	
ARTS 552	Introductory Digital Photography	
Concentration Courses		
Select four (4) Studio courses in a concentration at 500-600-700 level (see concentration courses below)		16
Advanced Studio Seminar		
ARTS 780	Advanced Studio Seminar	4
Core Art History		
Select one course from the following:		4
ARTH 474	Introduction to Architectural History	
or ARTH 480	Introduction to Art History	
or ARTH 485	Introduction to Global Art History	
Select two 600-level or above art history courses from the following:		8
ARTH 674	Greek Art and Architecture	
ARTH 678	Romanesque and Gothic Art	
ARTH 681	Early Renaissance Art	
ARTH 682	The High Renaissance	
ARTH 686	Sex and Sensuality in 18th-Century Art	
ARTH 688	Histories of Late 19th & 20th Century European Modernism	
ARTH 694	Vision and Modernity: From Panorama to Early Film	
ARTH 695	Topics in Art History	
ARTH 795	Understanding Art History: An In-Depth Overview	
Total Credits		**56**

Concentration Courses

- Students select four concentration courses total.
- Minimum of three 600-700 level studio courses.
- No more than one of the following: a 500-level studio course (select from ARTS 501 , ARTS 525, ARTS 536, ARTS 546, ARTS 551, ARTS 552, ARTS 596), ARTS 598 An Artist's Life, a 600-700 level art

history (see selection of courses in art history requirement above), or ARTS 600 Internship in Studio Art (with approval).

- January Term and Summer online courses cannot be used.

Code	Title	Credits
ARTS 601	Ceramics Workshop (may be repeated)	
ARTS 610	Principles of Typography	
ARTS 611	Animation and Motion Design	
ARTS 612	Interaction & Game Design	
ARTS 613	Design and Place	
ARTS 614	Design and People	
ARTS 625	Wood/Furniture Design Workshop (may be repeated)	
ARTS 636	Printmaking Workshop (may be repeated)	
ARTS 640	Drawing Workshop	
ARTS 651	Photography Workshop (may be repeated)	
ARTS 660	Painting Workshop	
ARTS 667	Sculpture Workshop (may be repeated)	
ARTS 796	Independent Study: Studio Art (K: Wood Design, may be repeated)	

While these courses represent the minimum departmental requirements for the studio art option, students may wish to plan a program involving greater depth in one or several of the studio areas.

Capstone
The Discovery Program capstone requirement will be fulfilled by completing a capstone project that reflects the training received, and personal artistic growth made, throughout the student's years of study at UNH. The capstone project includes participation in the BA/BFA Senior Exhibition in the UNH Museum of Art in April-May. Students will submit a minimum of 5 (or the equivalent what would be the equivalent of 5) recent works for faculty to review and select for the exhibition. At the review a written artist statement and verbal explanation of the work must also be presented.

Candidates for a degree must satisfy all of the University Discovery Program requirements in addition to satisfying the requirements of each individual major program. Bachelor of arts candidates must also satisfy the foreign language proficiency requirement.

Student Learning Outcomes

Program Learning Outcomes

Introductory (500) Level:
- Basic skillset in a particular arts discipline
- Working knowledge of the tools and materials used in a particular arts discipline
- Basic understanding of analytical thinking when making and talking about art
- Demonstrate development of artistry

Intermediate (500/600) Level:
- Demonstrate development of artistry and skill set in a range of artistic disciplines
- Demonstrate knowledge of tools and materials beyond the basics
- Deeper ability to discuss and analyze works of art
- Ability to verbalize intent in a particular work of art
- Ability to research particular artists
- Ability to declare an area of concentration for advanced in a particular arts discipline

Advanced (600/700) Level:
- Demonstrate a high level of artistry
- Ability to work independently
- Develop and Demonstrate an individual sensibility
- Ability to understand and verbalize intent in a work of art
- Ability to construct a professional capstone portfolio or thesis
- Demonstrate in-depth familiarity with a range of artistic movements both historical and contemporary

Arts Major: Studio Art/Art Education Option (B.A.)

https://www.unh.edu/program/bachelor-arts/arts-studio-artart-education

Description

The program in art education is organized into a five-year, teacher-education sequence. This curriculum is designed to prepare teachers of art in the public schools. The satisfactory completion of the B.A. studio art curriculum for art education students and required education courses, in conjunction with the fifth-year internship, will satisfy the initial licensure requirements for teachers of art in the public schools of New Hampshire and in most other states. These requirements may change by the time students apply for certification and the students are required to fulfill the then-current requirements. Art education students may take accredited crafts courses at other institutions as art electives.

A portfolio is required for acceptance to the studio art/art education option.

Requirements

Degree Requirements

Minimum Credit Requirement: 128 credits

Minimum Residency Requirement: 32 credits must be taken at UNH

Minimum GPA: 2.0 required for conferral*

Fine Arts Major (B.F.A.)

https://www.unh.edu/program/bachelor-fine-arts/fine-arts

Description

Incoming first-year and transfer applicants wishing to enter the bachelor of fine arts (B.F.A.) degree program must first apply for, and be admitted to, the bachelor of arts (B.A.) in the Arts: Studio Art option. Students may submit a B.F.A. portfolio **after** they begin their studies at UNH, as early as the spring semester of their first year. A full faculty review is held each spring semester.

The B.F.A. curriculum provides advanced training for students who plan to enter professional graduate school or pursue careers as professional artists.

Requirements

Degree Requirements

Minimum Credit Requirement: 128 credits

Minimum Residency Requirement: 32 credits must be taken at UNH

Minimum GPA: 2.0 required for conferral*

Core Curriculum Required: Discovery & Writing Program Requirements

Foreign Language Requirement: No

All Major, Option and Elective Requirements as indicated.
**Major GPA requirements as indicated.*

Major Requirements

- Students must complete a minimum of 17 courses and (72 credits) for the major requirements.
- Major courses must completed with a minimum grade of C in each course. The required minimum overall GPA in major coursework is 2.0.
- Fine arts majors may use two major-required courses to satisfy two Discovery category requirements.
- Transfer of 3-credit courses from other institutions will require additional course(s) to fulfill the major requirement of 72 credits. Transfer courses can fulfill only 8 requirements.

The possible areas of concentration within the department are painting, sculpture, ceramics, design, drawing, printmaking, photography, and furniture design. Proposals for individualized programs are accepted only by permission of the departmental chairperson, the major adviser, and the departmental bachelor of fine arts committee. Candidates applying for the bachelor of fine arts program are required to submit a portfolio to the B.F.A. committee, which meets each spring semester.

The Discovery Program capstone requirement may be fulfilled by completing .

Candidates for a degree must satisfy all of the University Discovery Program requirements in addition to satisfying the requirements of each individual major program.

Student Learning Outcomes

Program Learning Outcomes

Introductory (500) Level:

- Basic skillset in a particular arts discipline
- Working knowledge of the tools and materials used in a particular arts discipline
- Basic understanding of analytical thinking when making and talking about art
- Demonstrate development of artistry

Intermediate (500/600) Level:

- Demonstrate development of artistry and skill set in a range of artistic disciplines
- Demonstrate knowledge of tools and materials beyond the basics
- Deeper ability to discuss and analyze works of art
- Ability to verbalize intent in a particular work of art
- Ability to research particular artists

- Ability to declare an area of concentration for advanced in a particular arts discipline

Advanced (600/700) Level:

- Demonstrate a high level of artistry
- Ability to work independently
- Develop and Demonstrate an individual sensibility
- Ability to understand and verbalize intent in a work of art
- Ability to construct a professional capstone portfolio or thesis
- Demonstrate in-depth familiarity with a range of artistic movements both historical and contemporary

Architectural Studies Minor

https://www.unh.edu/program/minor/architectural-studies

Description

The minor in architectural studies provides students with an interdisciplinary introduction to the history, theory and methods of architecture and its symbolism. The program allows students who are interested in this field to receive programmatic recognition of their work. It is designed to assist those who are contemplating enrollment at a school of architecture; are particularly interested in architectural history; want to supplement their technical majors (e.g., civil engineering) with strong academic minors; or plan to pursue careers in preservation, education, community service and public relations.

Requirements

Academic policies related to Minors.

The minor consists of completing five courses (18-20 credits total).

Code	Title	Credits
Required Courses		
ARTS 522	Topics in Architecture Design Studio	4
ARTS 532	Introductory Drawing	4
ARTH 474	Introduction to Architectural History	4
or ARTH 501	Introduction to Mediterranean Archaeology	
or CLAS 501	Introduction to Mediterranean Archaeology	
Electives		
Select two courses from the following (in consultation with minor coordinators):		6-8
ARTS 510	Principles of Design	
ARTS 520	Principles of Architectural Design	
ARTS 525	Introductory Woodworking	
or ARTS 567	Introductory Sculpture	
ARTS 600	Internship in Studio Art (only topic C - Architecture)	
ARTS 625	Wood/Furniture Design Workshop	
ARTS 667	Sculpture Workshop (only topic: Kinetic)	
ARTS 796	Independent Study: Studio Art (only topic G: Architectural Design)	
ARTH 400	Topics in Art History (only with architectural papers)	
ARTH 674	Greek Art and Architecture	
ARTH 678	Romanesque and Gothic Art	
ARTH 695	Topics in Art History	
CEE 402	2D Computer Aided Design	
CEE 795	Independent Study	
CEE 700	Building Information Modeling	
CEE 719	Green Building Design	
CLAS 510	Building Rome	
Total Credits		**18-20**

Art History Minor

https://www.unh.edu/program/minor/art-history

Description

The art history minor offers those majoring in other fields (including studio art) the chance to gain a serious knowledge of aspects of the history and meanings of Western art from antiquity to the modern world. Particularly for those working in history and the humanities, a minor in art history will provide new interdisciplinary perspectives on their major fields.

Requirements

Academic policies related to Minors.

The minor consists of completing five courses (20 credits).

Required Courses

Code	Title	Credits
One 400-level art history (ARTH 480 Introduction to Art History or ARTH 474 Introduction to Architectural History recommended but not required)		4
Select two additional art history courses at the 500-level or above		8
Select two additional art history courses at the 600-level or above		8
Total Credits		**20**

Art Minor

https://www.unh.edu/program/minor/art

Description

The art minor is an appropriate option for students who do not want to take the specific requirements for the art history or studio art minors, but who are still interested in taking art history and/or studio classes.

Requirements

Academic policies related to Minors.

The minor in art consists of completing five courses (20 credits) chosen from the offerings of the department. Courses can be all studio art, all art history, or a combination of both.

Required Courses

Code	Title	Credits
Select two ARTS/ARTH courses at the 500-level or above		8
Select three elective ARTS/ARTH courses		12
Total Credits		**20**

Design Studies Minor

https://www.unh.edu/program/minor/design-studies

Description

Situated within the studio arts program, the interdisciplinary minor in design studies brings together the formal and conceptual principles

of design in the visual expressions of the fine arts (painting, sculpture, photography, etc.), the commercial arts (graphic design, illustration, etc.), the industrial arts (engineering) and the performing arts (stage, costume and lighting design).

Course options in communication, marketing, English and art history offer the opportunity to contextualize the principles and products of design in a broader historical, sociological and cultural context.

Course requirements and options within the design studies minor enable students to develop a common skill set of literacy and fluency in a range of design software programs (Photoshop, InDesign, Light Box, Fuse, etc.), the utility of which has become increasingly more essential to a range of fields of study and vocations.

Requirements

Academic policies related to Minors.

The minor consists of completing five courses (20 credits).[1]

Students must receive a minimum grade of C in all required courses.

Required Courses

ENGL 616B	Studies in Film/Authorship	
ENGL 616C	Studies in Film/Culture and Ideology	
ENGL 616D	Studies in Film/Narrative and Style	
MKTG 520	Topics in Marketing (Understanding Your Customer or Digital Marketing Communications)	
Total Credits		**20**

[1] 19 credits are required to complete the minor if CEE 402 or CEE 700 is selected.

Studio Arts Minor

https://www.unh.edu/program/minor/studio-arts

Description

The studio arts minor is for students who are interested in continuing on to the intermediate and advanced levels in a variety of mediums.

Requirements

Academic policies related to Minors.

- The minor in studio arts consists of completing five courses (20 credits).

Required Courses

Code	Title	Credits
ARTS 532	Introductory Drawing	4
Select two studio courses from the 600 level or above		8
Select two additional studio courses chosen from the offerings of the department		8
Total Credits		**20**

Asian Studies

Programs

- Asian Studies Minor (p. 231)

Asian Studies Minor

https://www.unh.edu/program/minor/asian-studies

Description

The aim of the interdisciplinary Asian studies minor program is to foster teaching and learning as well as research in all areas of Asia. The minor offers opportunities to develop proficiency in Asian languages and to study the histories, politics, literatures, cultures and religions of East Asia (China, Japan, Korea and others) and South Asia (India, Pakistan, Sri Lanka, Bhutan and others). Courses offered provide students the chance to explore a wide range of contemporary subjects such as foreign policy, language use, education, environment, the Asian-American experience, ethnic and religious conflict, literary and cultural production, and cross-border movements of industry and ideas.

Requirements

Academic policies related to Minors.

Students must complete five courses (20 credits) for the minor.

No more than three courses can be counted from any one of the following disciplines/subject prefixes: Anthropology (ANTH), Asian American or South Asian Literature (ENGL), Geography (GEOG), History (HIST), Languages, Literatures, and Cultures (CHIN or JPN), Philosophy (PHIL), or Political Science (POLT)

Code	Title	Credits
Approved Courses		
ANTH 500	Peoples and Cultures of the World (Topic D: Asia)	4
ANTH 501	World Archaeological Cultures (Topic F: Asia)	4
CHIN 401	Elementary Chinese I	4
CHIN 402	Elementary Chinese II	4
CHIN 425	Introduction to Chinese Culture	4
CHIN 503	Intermediate Chinese I	4
CHIN 504	Intermediate Chinese II	4
CHIN 632	Advanced Chinese Conversation and Composition II	4
CHIN 795	Independent Study	1-4
ENGL 581	Reading the Postcolonial Experience	4
GEOG 530	China: People, Politics and Economy	4
PHIL 520	Introduction to Eastern Philosophy	4
POLT 546	Wealth and Politics in Asia	4
POLT 556	Politics in China	4
POLT 569	The Rise of China	4
POLT 742	Beyond Bollywood: Politics of India & South Asia	4
POLT 797E	Seminar in International Politics (US/China Decision Making)	4

Additional courses may count toward the minor with permission.

Chinese (CHIN)

Programs

- Chinese Minor (p. 232)

Chinese Minor

https://www.unh.edu/program/minor/chinese

Description

The Chinese minor provides students with linguistic skills and cross-cultural competence that will complement their studies in many other disciplines, such as business, international affairs, education, hotel management and social service. It prepares students for future academic and professional opportunities in which proficiency in Chinese is required or preferred. Students who have studied Chinese at UNH have gone on to use Chinese for a variety of career paths in both domestic and international settings.

Requirements

Academic policies related to Minors.

The Chinese minor consists of completing five courses (20 credits).

Code	Title	Credits
Required Courses		
CHIN 503	Intermediate Chinese I	4
CHIN 504	Intermediate Chinese II	4
CHIN 631	Advanced Chinese Conversation and Composition I	4
CHIN 632	Advanced Chinese Conversation and Composition II	4
CHIN 425	Introduction to Chinese Culture [1]	4
Total Credits		**20**

[1] Or another Chinese culture or literature course approved by the faculty.

Cinema Studies

Programs

- Cinema Studies Minor (p. 232)

Cinema Studies Minor

https://www.unh.edu/program/minor/cinema-studies

Description

The minor in cinema studies offers a variety of opportunities to study a predominant contemporary form of narrative, aesthetic and social discourse: the moving image. Film is the primary medium of study for the minor, but the cinematic practices of video and television also may be included as potential areas of interest. Courses consist of interdisciplinary approaches to the analysis of cinema, covering works from the early cinema to the present, from the U.S. and other nations. Students learn the aesthetics, history, technology, economics and theory of cinema, while also acquiring the language for analyzing its forms and practices. The minor allows for organized and meaningful study of the moving image from a wide range of scholarly interests and approaches that complement the increasingly significant place of cinema in many major disciplines and other programs. Students enrolled in the cinema studies minor will become articulate and critical spectators in the larger cultural contexts of film and media studies.

Requirements

Academic policies related to Minors.

The Cinema Studies Minor consists of completing five courses (20 credits).

Required Courses

Code	Title	Credits
Introductory Course		
ENGL 533	Introduction to Film Studies	4
History and Theory of Film		
LLC 540	Film History	4
or ENGL 618	Film Theory	
Advanced and/or Focused Courses		
Select two of the following:		8
ENGL 616A	Studies in Film/Genre	
ENGL 616B	Studies in Film/Authorship	
ENGL 616C	Studies in Film/Culture and Ideology	
ENGL 616D	Studies in Film/Narrative and Style	
ITAL 525	Italian Cinema	
Elective Courses		
Select one elective course [1]		4
Total Credits		**20**

[1] Electives are drawn from an approved list of courses for the minor, which is compiled and announced every semester. Students also may choose from the advanced and/or focused courses. Elective courses have a significant cinema studies component and may have another

disciplinary focus as well. Contributing departments and/or programs include: American studies, anthropology, arts, communication, English, French, geography, German, history, humanities, Italian, music, philosophy, political science, psychology, Russian, sociology, Spanish, theatre and dance, and women's and gender studies. Students should check with the cinema minor coordinator each semester for approval of the elective.

Classics (CLAS)

Classics encompasses the interdisciplinary study of the Greeks and Romans, as well as the ways in which the ancient world's influence extends to the Medieval Period, the Renaissance and the modern world. Studying classics, therefore, is to investigate several thousand years of material through the study of languages, literature, history, politics, law, archaeology, art, mythology and folklore, gender and sexuality, religious studies, philosophy and more—all with methods derived from a variety of humanistic and social science perspectives. This breadth provides an excellent liberal arts education that prepares students for a variety of careers, as well as for further study. Classics majors from UNH have gone on to law school, medical school, and graduate school in classics and many related disciplines and have taken up careers in teaching, government service, the military and business.

Classics majors have many opportunities at UNH to pursue their own interests in the ancient world while completing their requirements. In addition to Greek and Latin, program faculty may occasionally offer, on request, courses on other ancient languages, including Hittite, Hebrew, Egyptian Hieroglyphs, Syriac and Sanskrit. Students are encouraged to take courses offered outside the department that relate to the field of classics, such as those in ancient history, archaeology, ancient philosophy, classical art, modern languages, linguistics and English literature. Some of these courses can even count for major requirements; a current list of approved courses is available from any departmental adviser. Study abroad is another way that many majors broaden their studies. Students have frequently spent semesters at many study abroad sites, including the Intercollegiate Center for the Classical Studies in Rome. (UNH is part of the consortium of Universities that supports this program.) The Department of Classics, Humanities and Italian Studies regularly runs its own popular January Term course in Rome and manages several other study abroad programs.

The program offers three different options for the classics major. In brief, the differences are:

- The Classical Languages and Literatures (CLL) option allows for the most in-depth study of the ancient languages and requires knowledge of both Ancient Greek and Latin. It thus provides the strongest preparation for students considering graduate study in classics or related areas, and can also be an appropriate choice (with careful planning) for those thinking about teaching Latin in secondary schools. At the same time, it is designed for any student who desires a solid liberal arts education.
- The Ancient Mediterranean Civilizations (AMC) option balances language study with the opportunity for students to select from a wide range of courses covering many aspects of the Greek and Roman worlds, as well as the neighboring peoples in Europe, North Africa and the Near East. The flexibility of this option makes it especially attractive for students who wish to double major in another subject. It is generally not suitable, however, for those who wish to pursue related graduate study or a career in teaching Latin. AMC majors can, however, supplement the requirements with additional coursework to keep these options open.
- The Latin and Latin Teaching (LLT) option is designed to provide a good foundational liberal arts education centered on Latin and the Roman world, but it also includes specific elements that make it particularly appropriate for students who are considering careers teaching Latin in secondary schools after graduation. Students should contact their primary advisor in the Classics program to discuss different pathways to licensure, which may include post-graduate work at an institution that offers an MAT (or MEd), or seeking a site-based license with the appropriate state's department of education.

Classics Major: Ancient Mediterranean Civilizations Option (B.A.)

https://www.unh.edu/program/bachelor-arts/classics-ancient-mediterranean-civilizations

Description

The Ancient Mediterranean Civilizations (AMC) option balances language study with the opportunity for students to select from a wide range of courses covering many aspects of the Greek and Roman worlds, as well as the neighboring peoples in Europe, North Africa and the Near East. The flexibility of this option makes it especially attractive for students who wish to double major in another subject. It is generally not suitable, however, for those who wish to pursue related graduate study or a career in teaching Latin. AMC majors can, however, supplement the requirements with additional coursework to keep these options open.

Requirements

Degree Requirements

Minimum Credit Requirement: 128 credits

Minimum Residency Requirement: 32 credits must be taken at UNH

Minimum GPA: 2.0 required for conferral*

Core Curriculum Required: Discovery & Writing Program Requirements

Foreign Language Requirement: Yes

All Major, Option and Elective Requirements as indicated.
**Major GPA requirements as indicated.*

Major Requirements

Candidates for a degree must satisfy all of the University Discovery Program requirements in addition to satisfying the requirements of each individual major program. Bachelor of arts candidates must also satisfy the foreign language proficiency requirement.

Classics majors may use two major-required courses to satisfy two Discovery category requirements.

The required minimum overall GPA in major coursework is 2.0.

To complete the AMC option of the classics major, a student must complete 10 courses (40 credits), distributed as follows:

Code	Title	Credits
Language Proficiency		
Demonstrate proficiency by taking at least 8 credits in GREK or LATN at the 503 level or above		8
Other Courses		
Select at least 32 additional credits in CLAS, GREK, or LATN courses, including: [1]		32
CLAS 403	Introduction to Greek Civilization	
or CLAS 404	Introduction to Roman Civilization	
At least 8 credits from courses at the 600 level or above		
Capstone Experience		
Select an approved capstone experience of the following:		
CLAS 701W	Capstone Course	
Senior thesis		
Honors thesis		
At least 4 credits in 700-level LATN or GREK courses		
Approved internship		
Approved semester study abroad focused on the classical world		
Total Credits		**40**

[1] No more than 8 credits may come from CLAS courses at the 400 level, with up to an additional 8 credits from LATN and GREK courses at the 400 level. There are also courses taught outside of the program that are approved substitutes for CLAS courses, and the department will accept up to 8 credits from such courses. An up-to-date list of these courses is available from departmental advisers and additional exceptions are allowed with the written approval of the adviser.

Degree Plan

Student Learning Outcomes

Program Learning Outcomes

Students will be able to:

- Analyze and critique the cultural and historical importance of the ancient Greeks and Romans.
- Recognize and assess the relative value, and to integrate, the distinct categories of evidence from antiquity: material and textual.
- Demonstrate an understanding of the steps of the intellectual process as developed in classical antiquity, including: identifying and defining essential questions; research in the best and fullest range of evidence; reasoned critique of the evidence; insightful synthesis of all relevant evidence; critical evaluation and integration of previous interpretations; creating an argument, including in essays or papers, which takes into account all the evidence
- Translate key Latin and/or Greek texts at the intermediate level and demonstrate a knowledge of Latin or Greek vocabulary, morphology, and syntax at an intermediate level.
- Show a familiarity with the essential literary sources from classical antiquity, and how they have been received in later periods.

Classics Major: Classical Languages & Literatures Option (B.A.)

https://www.unh.edu/program/bachelor-arts/classics-classical-languages-literatures

Description

The Classical Languages and Literatures (CLL) option allows for the most in-depth study of the ancient languages and requires knowledge of both Ancient Greek and Latin. It thus provides the strongest preparation for students considering graduate study in classics or related areas, and can also be an appropriate choice (with careful planning) for those thinking about teaching Latin in secondary schools. At the same time, it is designed for any student who desires a solid liberal arts education.

Requirements

Degree Requirements

Minimum Credit Requirement: 128 credits

Minimum Residency Requirement: 32 credits must be taken at UNH

Minimum GPA: 2.0 required for conferral*

Core Curriculum Required: Discovery & Writing Program Requirements

Foreign Language Requirement: Yes

All Major, Option and Elective Requirements as indicated.
**Major GPA requirements as indicated.*

Major Requirements

Candidates for a degree must satisfy all of the University Discovery Program requirements in addition to satisfying the requirements of each individual major program. Bachelor of arts candidates must also satisfy the foreign language proficiency requirement.

Classics majors may use two major-required courses to satisfy two Discovery category requirements.

The required minimum overall GPA in major coursework is 2.0.

To complete the CLL option of the classics major, a student must complete 10 courses (40 credits), distributed as follows:

Code	Title	Credits
Language Courses [1]		
Select at least 12 credits at the 503 level or above [2]		12-24
Including:		
Select at least one class at the 700 level in the primary language (GREK or LATN)		
Select at least one class at the 504 level or above in the secondary language (LATN or GREK)		
Non-Language Courses		
Select at least 16 credits in CLAS courses. As many as 28 credits may be counted toward this option. [3]		16-28
Capstone		
Select an approved capstone experience of the following:		
CLAS 701W	Capstone Course	
Senior thesis		
Honors thesis		
At least 8 credits in 700-level LATN or GREK courses		
Approved internship		
Approved semester study abroad focused on the classical world		
Total Credits		**40**

1. No credits from language courses at the 400 level may be counted toward this option.
2. Students may count as many as 24 toward the CLL major option.
3. No more than 4 credits may come from courses at the 400 level. There are also courses taught outside of the program that are approved substitutes for CLAS courses, and the department will accept up to 8 credits from such courses. An up-to-date list of these courses is available from departmental advisers and additional exceptions are allowed with the written approval of the adviser.

Student Learning Outcomes

Program Learning Outcomes

Students will be able to:

- Translate, contextualize, and interpret key texts in their primary language (Greek or Latin) at the upper level.
- Translate, contextualize, and interpret intermediate-level texts in their secondary language (Greek or Latin).
- Demonstrate an accurate understanding of linguistic concepts related to Greek and Latin including the elements of phonetics, semantics, and morphology and syntax at an upper level for their primary language and at an intermediate level for their secondary language.
- Analyze and critique, including in essays or papers, the cultural, literary, and historical significance of the ancient Greeks and Romans, and how they have been received in later periods.

Classics Major: Latin & Latin Teaching Option (B.A.)

https://www.unh.edu/program/bachelor-arts/classics-latin-latin-teaching

Description

The Latin and Latin Teaching (LLT) option is designed to provide a good foundational liberal arts education centered on Latin and the Roman world, but it also includes specific elements that make it particularly appropriate for students who are considering careers teaching Latin in secondary schools after graduation. This option does not lead directly to state certification.

Requirements

Degree Requirements

Minimum Credit Requirement: 128 credits

Minimum Residency Requirement: 32 credits must be taken at UNH

Minimum GPA: 2.0 required for conferral*

Core Curriculum Required: Discovery & Writing Program Requirements

Foreign Language Requirement: Yes

All Major, Option and Elective Requirements as indicated.
**Major GPA requirements as indicated.*

Major Requirements

Candidates for a degree must satisfy all of the University Discovery Program requirements in addition to satisfying the requirements of each

individual major program. Bachelor of arts candidates must also satisfy the foreign language proficiency requirement.

Classics majors may use two major-required courses to satisfy two Discovery category requirements.

The required minimum overall GPA in major coursework is 2.0.

To complete the LLT option of the classics major, a student must complete 10 courses (40 credits), distributed as follows:

Code	Title	Credits
Latin Language Courses		
Select at least 20 credits of LATN courses at the 504 level or above [1]		20
Other Courses		
Student must take at least three of the following courses in areas concerning mythology or Roman history:		12
CLAS 401	Classical Mythology	
CLAS 404	Introduction to Roman Civilization	
CLAS 601	Classical Myth II: The Power and Persistence of Myth	
CLAS 677	History of Ancient Rome	
CLAS 678	Topics in Ancient Roman History	
Electives		
Select 8 credits of electives (which may include credits earned in a capstone experience) [2]		8
Capstone		
Select an approved capstone experience from the following:		
CLAS 701W	Capstone Course	
Senior thesis		
Honors thesis		
At least 12 credits in 700-level LATN courses		
Approved external internship		
CLAS 694	Supervised Practicum	
Approved semester study abroad focused on the classical world		
Total Credits		**40**

1 At least 4 credits must come at the 700 level.

2 An up-to-date list of these courses is always available from department advisors, and advisors can also approve exceptions in writing. The following CLAS courses do not count: CLAS 403 Introduction to Greek Civilization and CLAS 694 Supervised Practicum. Besides CLAS 401 Classical Mythology and CLAS 404 Introduction to Roman Civilization, no other 400-level courses may count. No Greek language courses are required for the LLT option, but students are encouraged to complete at least the introductory sequence (401–402).

There are also courses taught outside of the program that are approved substitutes for CLAS courses, and the department will accept up to 8 credits from such courses. An up-to-date list of these courses is available from departmental advisors and additional exceptions are allowed with the written approval of the advisor.

Please note that the LLT option does not by itself meet New Hampshire state certification requirements. Students interested in a path to teaching and licensure should inform their primary academic advisor to be connected with the advising contact in Education to discuss teaching licensure paths including a site-based license through the appropriate state department of education.

Student Learning Outcomes

Program Learning Outcomes

- Ability to read major works of Latin authors in prose and poetry, and to translate Latin into idiomatic English.
- Ability to read aloud both prose and poetry in correct meter in Latin using an accepted standard of pronunciation.
- Knowledge of the morphology, phonology, and syntax of Latin; and of the historical development of Latin and the place of Latin in the etymology of English words.
- Ability to write short compositions in Latin.
- Knowledge, as demonstrated in essays or papers, of: a) major aspects of Greek and Roman history, cultural institutions and their connections to the western tradition and other world cultures b) the history and content of Green and Roman literature, in translation or in the original c) classical mythology.

Classics Minor

Cognates

- Art History, Design, and Computer Sciences Cognate (p. 238)
- Digital Writing and Literature Cognate (p. 238)
- Intercultural Communication for the Professional World Cognate (p. 239)
- Medical Sociology Cognate (p. 239)
- Philosophy of Business, Innovation, & Technology Cognate (p. 240)
- Political and Legal Philosophy Cognate (p. 240)
- Skills and Perspectives for the Digital World Cognate (p. 240)
- Studies in Fashion and Design Cognate (p. 241)
- Studies in the Design of Interior Space Cognate (p. 241)
- Technical Writing and Public Speaking Cognate (p. 242)
- Philosophy of Business, Innovation, & Technology Cognate (p. 240)

Art History, Design, and Computer Sciences Cognate

https://www.unh.edu/program/cognate/art-history-design-computer-sciences

Description

The cognate is for students to develop basic skills in art history and design as well as computer programming. The aim is for them to be able to apply programming skills to develop projects related to museum collections management and visitor experience, research projects, website design for cultural institutions, and art market intelligence and data transparency. Students will be encouraged to learn the basic concepts of art history and design and combine them in creative ways with emerging technologies such as Augmented Reality, Virtual Reality, 3D modelling and more traditional website design. The aim is to give students a head start on how emerging technologies can come together with the art market as well as cultural heritage to help document, preserve, investigate and present it for future generations.

Requirements

The cognate consists of completing three courses in total (12 credits) selected from the list below, preferably completed in the order listed.

Code	Title	Credits
Required Courses		
1. Arts		
Select one course from the following:		4
ARTH 440A	From Digging to Digital: Preserving and Displaying the Past	
ARTH 474	Introduction to Architectural History	
ARTH 480	Introduction to Art History	
ARTS 510	Principles of Design	
2. Computer Sciences		
Select one course from the following:		4
CS 408	Living in a Networked World: The Good, the Bad, and the Ugly	
CS 410P	Introduction to Scientific Programming/Python	
CS 415	Introduction to Computer Science I	
CS 457	Introduction to Data Science and Analytics	
IT 403	Introduction to Internet Technologies	
3. Digital Applications [1]		
Select one course from the following:		4
ARTH 674	Greek Art and Architecture	
ARTH 699	Museum Studies	
HIST 771	Museum Studies	
Any other 600-level Art History course, by permission (WI)		
Total Credits		**12**

[1] Students should aim to complete a project focused on digital applications.

Digital Writing and Literature Cognate

https://www.unh.edu/program/cognate/digital-writing-literature

Description

Many jobs nowadays require not only solid reading and writing skills; but also the ability to deploy and adapt these skills in a variety of electronic, professional, public and semi-public platforms. This cognate builds students' ability to comprehend and interpret difficult texts (including complex instructions); to edit, proofread and frame their work for different audiences and contexts; and to navigate rudimentary markup (code) and varied electronic interfaces with confidence and independence.

In consultation with a program advisor, students may choose to follow a specialized track. For example, selecting courses such as Creative Nonfiction and Multimedia Storytelling can form a "creative" track for those interested in digital storytelling and audio production. Similarly, Special Topics in Literature may provide pathways into cultural heritage management or nonprofit careers. Alternatively, students already focused on a specific field, such as journalism, may explore complementary digital tools—such as taking Digital Reporting to strengthen their digital reporting skills.

Contact the Department of English, 230F Hamilton Smith Hall or (603) 862-1313, with questions.

Requirements

- Credit toward the cognate will only be given for courses passed with C- or better, and a 2.00 grade-point average must be maintained in courses for the cognate.
- Courses taken on the pass/fail basis may not be used for the cognate.

Code	Title	Credits
Required

Intercultural Communication for the Professional World Cognate

https://www.unh.edu/program/cognate/intercultural-communication-professional-world

Description

This cognate is designed to provide students with the means to develop a global perspective, intermediate communication skills, and an understanding of the dynamics of intercultural communication. Research has linked study abroad experience with students' future employability, and "intercultural/global competence" in particular is a skill valued by employers in a wide range of fields. This cognate provides students a means to attain these valuable, marketable skills, as well as a means to demonstrate this to potential employers.

Contact the Department of Languages, Literatures and Cultures with questions LLC.dept@unh.edu or call (603) 862-4005.

Requirements

Credit toward the cognate will only be given for courses passed with C- or better, and a 2.00 grade-point average must be maintained in courses for the cognate. Courses taken on the pass/fail basis may not be used for the cognate.

Code	Title	Credits
Required Course		
LLC 535A	Professional Culture in Europe [1]	4
Language Skills		
Choose any modern language course numbered 503 or above (503, 631, 632) consistent with the region covered in the professional culture course above and the study abroad experience below		4
Study Abroad Experience		
Choose any program in country for 5 weeks or longer that involves coursework in the target or host language/language other than English [2]		4
Total Credits		**12**

1 Taught in English, fulfills WC Discovery, no prior knowledge assumed.
2 Students can petition for an alternate experience, such as The Washington Center Program, as long as the internship placement involves foreign language use. Preferably, this will relate to the same region covered in the professional culture course and the language skills course, but that is not required.

Medical Sociology Cognate

https://www.unh.edu/program/cognate/medical-sociology

Description

The medical sociology cognate provides students with an understanding of how social structure shapes the etiology of health and illness as well as the availability, effectiveness and choices around health care on micro and macro levels. It develops students' sociological imagination, fosters their application of a sociological perspective to the study of health, and allows them to gain the skills needed to be informed consumers of empirical health research. The focus on empirical literacy that is central to courses in sociology facilitates students' ability to communicate and apply research findings in their respective professional fields.

Although the sociological perspective will benefit students from all backgrounds, a cognate in medical sociology may be especially relevant for students majoring in biomedical science, neuroscience and behavior, psychology, gerontology, health and physical education, nursing, health policy and administration, business, human development and others.

Requirements

• Any three courses in medical/health focused sociology courses (12 credits) with a grade of C- or better
• Submission of a completed "Certification of Completion of Cognate" form
• Courses taken pass/fail may NOT be used for the cognate.
• Sociology majors may count cognate classes as major electives.

Code	Title	Credits
Required Courses		
Select three courses from the following:		12
SOC 555	Death and Dying in America	
SOC 570	Sexual Behavior	
SOC 620	Drugs and Society	
SOC 625	Mental Health and Society	
SOC 635W	Medical Sociology	
SOC 647	Sociology of Work and Well-Being	
SOC 697	Special Topics (Topic: Work and Well-Being)	
SOC 740	Sociology of Mental Health	

SOC 788	
Total Credits	**12**

Philosophy of Business, Innovation, & Technology Cognate

https://www.unh.edu/program/cognate/philosophy-business-innovation-technology

Description

Our internationally renowned philosophy professors emphasize discussion, debate, and writing in our courses. Wrestling with big questions prepares our students exceptionally well for highly successful careers in business and cutting-edge technology. As a lively and nurturing faculty personally invested in the success of our high achieving students, we take pride in watching our graduates go on to excel in top law schools, elite graduate programs, and prestigious positions from Wall Street to Silicon Valley.

For students unable to major or minor in Philosophy, students may select the three-course cognate in Philosophy of Business, Innovation, and Technology. This cognate provides official recognition for those who choose to emphasize the study of the relationships between markets, technology, and human well-being. Students will choose courses in the philosophy of artificial intelligence, evolution, neuroscience, biotechnology, business ethics, economic policy, environmental ethics and other high impact subjects.

Contact the Philosophy Department with questions at (603) 862-2060 or philosophy@unh.edu.

Requirements

The cognate consists of completing three (3) philosophy courses (12 credits).

Credit toward the cognate will only be given for courses completed with a minimum grade of C- or better, and a 2.00 grade-point average must be maintained in courses for the cognate. Courses taken on the pass/fail basis may not be used for the cognate.

Required Courses

Code	Title	Credits
Select three philosophy courses from the following:		12
PHIL 421	Philosophy and the Arts	
PHIL 424	The Future of Humanity: Science, Technology, and Society	
PHIL 430	Ethics and Society	
PHIL 431	Business Ethics	
PHIL 435	Human Nature and Evolution	
PHIL 436	Social and Political Philosophy	
PHIL 447	A.I., Robots, and People	
PHIL 450	Environmental Ethics	
PHIL 530	Ethics	
PHIL 531	Topics in Professional and Business Ethics	
PHIL 630	Neuroscience and Philosophy	
PHIL 660	Law, Medicine, and Ethics	
an approved 700-level philosophy seminar		

Students do not need to declare a cognate; however, we recommend that students meet with a faculty member from the Philosophy Department to discuss their plan. At the beginning of a student's final semester of study, the student should complete a Certification of Completion of Cognate form, obtain the necessary signatures, and submit it to their Dean's Office.

Political and Legal Philosophy Cognate

https://www.unh.edu/program/cognate/political-legal-philosophy

Description

For students unable to major or minor in philosophy. This option provides official recognition for students who choose to emphasize the study of political and legal philosophy.

You do not need to declare a cognate; however, we recommend that you meet with a faculty member from the Philosophy Department to discuss your plan. At the beginning of your final semester of study, you should complete a certification of completion of cognate form, obtain the necessary signatures, and submit it to your Dean's Office.

Requirements

Credit toward the cognate will only be given for courses passed with C- or better, and a 2.00 grade-point average must be maintained in courses for the cognate. Courses taken on the pass/fail basis may not be used for the cognate.

Code	Title	Credits
Requirements		
Select three courses from the following:		12
PHIL 405	Critical Thinking	4
PHIL 419	Race, Gender and Social Justice	4
PHIL 420	Introduction to Philosophy of Law and Justice	4
PHIL 424	The Future of Humanity: Science, Technology, and Society	4
PHIL 430	Ethics and Society	4
PHIL 431	Business Ethics	4
PHIL 436	Social and Political Philosophy	4
PHIL 450	Environmental Ethics	4
PHIL 510	Philosophy and Feminism	4
PHIL 531	Topics in Professional and Business Ethics	4
PHIL 620	20th Century European Philosophy	4
PHIL 630	Neuroscience and Philosophy	4
PHIL 660	Law, Medicine, and Ethics	4
Approved PHIL seminars, including seminars in neuroscience, happiness, economic philosophy, race and others		4

Skills and Perspectives for the Digital World Cognate

https://www.unh.edu/program/cognate/skills-perspectives-digital-world

Description

Engage with and reflect on the technology associated with the digital world. This cognate provides a foundation for the development of technical and critical skills aligned with one of the 21st century's defining areas: information technology. A recent statement by General Electric's CEO asserts that if you join the company today, as opposed to 20 years ago, you're going to learn to code even though you may be in sales, finance or operations. This cognate gives students and future employees

a fundamental introduction into technologies that are necessary for high functioning in today's world, both in the workplace and beyond.

The curriculum consists of coursework designed to strengthen understanding of the technologies that drive the World Wide Web, explore computer programming, and consider the impact of the technologies on society.

Requirements

Credit toward the cognate will only be given for courses passed with C- or better, and a 2.00 grade-point average must be maintained in courses for the cognate. Courses taken on a pass/fail basis may not be used for the cognate.

Students need to complete a certification of completion of cognate form at the beginning of their final semester.

Code	Title	Credits

Studies in Fashion and Design Cognate

https://www.unh.edu/program/cognate/studies-fashion-design

Description

The Studies in Fashion and Design cognate offers students a foundation for developing the basic skills to enter the field of fashion design. It introduces the art behind the creation of apparel and the basics of marketing strategy connected to fashion design. Students will be educated to develop their own creative process and design method while learning the basic knowledge of marketing and personal business. The cognate prepares students with a means to combine their artistic vision with practical application and helps them become designers who have the skills to support their own artistries.

Students complete coursework selected from three groups:

1. Design Creation: Helps students to adapt their artistic skills to support conceptual ideas. It gives students abilities in creating, analyzing, constructing and presenting works for costume creation. It aims to guide students in developing their own working process with a critical approach to problem solving. Students will be able to use terminology to communicate ideas in the fashion design industry.
2. Design Skills: Gives students the options to understand and apply a skill class of their choice to help them articulate their design ideas visually and digitally. It aims to offer students options to create visual merchandising for their design works through rendering hand skills, graphic design software, or photography.
3. Marketing: Helps students to understand and incorporate business aspects into their creative works. It aims to prepare students to promote and sustain their creative works independently as a personal business or within retail organizations.

Requirements

Student must complete three courses (12 credits), one course in each group listed below.

Code	Title	Credits
Design Creation		
Select one course from the following:		4
THDA 546	Costume Design for the Theatre	
THDA 458	Costume Construction	
Design Skills		
Select one course from the following:		4
ARTS 510	Principles of Design	
ARTS 552	Introductory Digital Photography	
Marketing		
Select one course from the following:		4
MKTG 530	Survey of Marketing	
MKTG 547	Promotion and Advertising	
MKTG 649	Foundations of Personal Selling	
Total Credits		**12**

Studies in the Design of Interior Space Cognate

https://www.unh.edu/program/cognate/studies-design-interior-space

Description

This cognate provides students a pathway to enter the world of interior design. It aims to give students an overview of design creation and execution for space planning. From concept development to project execution, the cognate allows students to formulate design projects that are both practical and aesthetically pleasing. Students will develop a comprehensive creative process through research, problem solving and project development. The cognate prepares students to apply critical thinking to the creation of interior environments utilizing a human-centered approach.

Students complete coursework selected from three groups:

1. Design Development: Helps students obtain the skills in design creation. Students will learn about concept development, research analysis, and psychological and physiological characteristics in space planning. It provides students with the ability to utilize knowledge in design elements and principles in 3D design creation and integrate this knowledge into design concepts as solutions for design projects.
2. Historical Aspect: Gives students an overview of architectural history. It will help students to identify the historical, political, social and economic elements that have influenced the evolution of interior architecture and decorative arts. Students will be able to apply their skills in research and their knowledge of historic design styles in their design creations.
3. Design Skills: Helps students to understand and apply skills related to design execution. It provides students with the option to gain craftsmanship in sketching, rendering, scaled design drawings, CAD (computer-aided drafting), graphic solutions or standards.

Requirements

Student must complete three courses (12 credits), one course in each group listed below.

Code	Title	Credits
Design Development		**4**
Select one course from the following:		
THDA 548	Stage Lighting Design and Execution	
THDA 652	Scene Design

THDA 549	Vectorworks Computer-Aided Design Drafting for the Theatre	
Total Credits		**12**

Technical Writing and Public Speaking Cognate

https://www.unh.edu/program/cognate/technical-writing-public-speaking

Description

The cognate in technical writing and public speaking (TWPS) offers students intensive instruction in oral and written communication as important means of addressing technical, professional or practical problems whose solutions require others' cooperation. Students learn practical precepts for analyzing those "communication situations" and for making informed, strategic decisions when composing oral and written responses in response to them. Students also undergo extensive practice creating standard and, thus, widely applicable forms of spoken and written communication. All students acquire a foundation in effective expression by taking introductory courses in public speaking and in professional and technical writing. Students then build upon that foundation and complete the cognate with one advanced course in either public speaking or professional and technical writing. This cognate is attractive to students who recognize that effective expression is valued in nearly any field of endeavor they are likely to pursue in their post-graduate lives.

Please contact the Liberal Arts Dean's Office for additional information, (603) 862-2062, 110 Murkland Hall.

Requirements

Credit toward the cognate will only be given for courses passed with C- or better, and a 2.00 grade-point average must be maintained in courses for the cognate. Courses taken on the pass/fail basis may not be used for the cognate.

Code	Title	Credits

Communication (CMN)

The Department of Communication at UNH emphasizes a range of studies in human communication, including rhetoric, media and interpersonal communication. Students are taught to analyze verbal, nonverbal and mediated messages from a variety of perspectives including historical, critical, interpretive and empirical approaches. Students explore connections and interrelationships among the people, environments, technologies and messages that comprise the social world.

The communication major prepares students well for a wide variety of careers in business, media, marketing, government, education, health, advocacy and social services. While offering access to a cutting-edge media lab and courses that teach students multi-media production skills, the department's primary focus is analytical rather than vocational. We do not train students to do specific communication tasks, such as managing social media profiles or creating promotional content. Rather, we help students develop an understanding of how communication works the way it does, and how different modes of communication shape understanding and social relations. Students grapple with such "how" and "why" questions as they study real-world political issues, news events, cultural phenomena and communication between friends, family members, colleagues, community members and strangers.

The department is committed to providing a strong liberal arts orientation that helps students develop their abilities to think — to describe, analyze, critique, explore, integrate, synthesize and create ideas. The department's faculty members believe that these are the skills and abilities that will be the most useful resources in students' professional, civic and personal lives after leaving UNH. The program trains students to understand, adapt to and participate in social change. These educational efforts lead to the kind of fundamental understanding that identifies the communication professional and also provides a firm foundation for advanced, graduate study in communication and related fields.

The department's faculty members have a strong national and international reputation for their research and publications. In addition, the department is recognized on campus for its commitment to teaching. About half of the department's tenure-track faculty members have won awards for teaching excellence. The faculty is also very active in university, community and professional service.

The department offers a business applications option for communication majors who want to augment the liberal arts focus of their major with professional training in such areas as marketing, advertising and organizational behavior.

The department offers a media practices option for communication majors who want to augment their major with training in media production and applied media communication through courses at UNH-Manchester Communication Arts Department.

The department also offers internships, which are designed to integrate classroom study and supervised practical experience in a work setting. Internship credits do not count toward completion of the communication major, but they do contribute to the total number of credits needed for graduation.

Faculty

Communications Department Faculty

Communication Major (B.A.)

https://www.unh.edu/program/bachelor-arts/communication

Description

The purpose of the communication major is to prepare students to engage more knowingly with the communicative patterns, problems and practices that they will encounter in their personal, professional and civic lives. This purpose requires that students learn to move beyond commonplace and conventional understandings of "communication" and acquire sophisticated perspectives — workable orientations — for describing, analyzing, reflecting upon and engaging with those patterns, problems and practices. Accordingly, the major not only acquaints students with a variety of empirical, critical, historical, theoretical and pragmatic perspectives on communication phenomena, but encourages them to formulate workable orientations of their own for engaging with communication issues and questions. Students who graduate with a communication major are prepared to become thoughtful and proficient "communication decision-makers" during their postgraduate lives.

Students wishing to declare communication as a major should contact the department's academic adviser, Andrew Sharp (andrew.sharp@unh.edu), for application information and requirements.

Requirements

Degree Requirements

Minimum Credit Requirement: 128 credits

Minimum Residency Requirement: 32 credits must be taken at UNH

Minimum GPA: 2.0 required for conferral*

Core Curriculum Required: Discovery & Writing Program Requirements

Foreign Language Requirement: Yes

All Major, Option and Elective Requirements as indicated.
**Major GPA requirements as indicated.*

Major Requirements

Majors must complete ten courses (40 credits) with a 2.0 overall average in the major. The distribution of required courses for the major is as follows:

Code	Title	Credits
Required Courses		
Select two introductory courses from the following: [1]		8
CMN 455	Introduction to Media Studies	
CMN 456	Propaganda and Persuasion	
CMN 457	Introduction to Language and Social Interaction	
Select three 500-level communication analysis courses [2]		12
Select four upper-division courses [3]		16
Select one elective course at any level		4
Total Credits		**40**

1
- Majors must earn a grade of C or better in each introductory course.

2
- Students must complete at least one 400-level course before taking their first 500-level course. They must complete a second 400-level course before taking their second and third 500-level course.
- Students must take at least two of their 500-level courses in different thematic areas corresponding to the 400-level courses (but it is not necessary to have taken the corresponding 400-level course to enroll in the corresponding 500-level course).
- Majors must earn a grade of C- or better in all three analysis courses.
- CMN 500 Public Speaking and CMN 599 Internship cannot be used to fulfill an analysis course requirement.

3
- Students are eligible to take upper-division courses after successfully completing at least two of the 500-level analysis courses, each from a different thematic area.
- At least one of the student's four upper-division courses must be at the 700 level.
- Majors must earn a grade of C- or better in all upper-division courses.
- Up to four credits of CMN 795 can be used towards the major, but can only fulfill the capstone requirement with department approval.
- CMN 796 Comm-Entary Journal cannot be used to fulfill the advanced-level requirement.

A maximum of 8 credits of independent study (CMN 795 Independent Study) may be counted toward the major. CMN 799H Honors Thesis and CMN 796 Comm-Entary Journal cannot be used to fulfill an advanced course requirement. The Discovery Program Capstone requirement may be fulfilled by completing any 700-level communication course except CMN 796 Comm-Entary Journal. CMN 795 Independent Study can only fulfill the capstone requirement with department approval and can be repeated for a maximum of 8 credits.

Transfer students must complete 20 credits of their communication coursework at UNH to complete the major satisfactorily. Exchange students may transfer no more than 10 approved credits from another institution to be applied toward completion of the communication major at UNH.

Candidates for a degree must satisfy all of the University Discovery Program requirements in addition to satisfying the requirements of each individual major program. Bachelor of arts candidates must also satisfy the foreign language proficiency requirement.

Major department courses may not be used to satisfy Discovery category requirements except in the case of a second or dual major.

Student Learning Outcomes

Program Learning Outcomes

Students will be able to describe the Communication discipline and its central questions. We expect students to be able to:

- Explain and synthesize the history of Communication theory.
- Articulate the differences between approaches within the discipline (media studies, language and social interaction, and rhetorical studies).
- Identify contemporary debates within the field.
- Distinguish Communication scholarship from other areas of study.
- Understand the role of Communication scholarship in society.
- Articulate the relevance of communication in civic life, including an ability to apply key concepts in the field to world events, situations, or problems.

Students will be able to think critically about communication processes by applying communication theories and concepts. We expect students to be able to:

- Identify theories, perspectives, principles, and concepts relevant to the discipline.
- Recognize academic writing, identify the work's thesis, explain its method, assess the evidence used, and determine its significance.
- Engage with communicative patterns, processes, problems, and practices that they encounter in their personal, professional and civic lives.
- Acquire effective frameworks for describing, analyzing, reflecting upon, and engaging with those patterns, processes, problems, and practices.

Prepare students to become thoughtful and proficient communicators. We expect students to be able to:

- Become critical consumers of messages.
- Understand how meanings are constructed by speakers and audiences.
- Evaluate claims and arguments, and to be able to explain how they are grounded.
- Recognize the collaborative construction of meaning and its relation to social change.
- Explore the ways in which various forms of communication constitute, maintain, and transform social life.
- Formulate coherent arguments/theses, provide support for their perspectives, and communicate them clearly and logically.
- Select creative and appropriate modalities and technologies to accomplish communicative goals.

- Adapt messages and coordinate communication with others recognizing the diverse needs.

Communication Major: Business Applications Option (B.A.)

https://www.unh.edu/program/bachelor-arts/communication-business-applications

Description

The Department of Communication, in collaboration with the Department of Marketing and the Department of Management in the Peter T. Paul College of Business and Economics, offers a business applications option for communication students. The objective of the business applications option is to offer a select group of communication students the opportunity to augment the liberal arts focus of their major with professional training in such areas as marketing, advertising and organizational behavior. Qualified students who meet all requirements will graduate[1] with a B.A. degree in communication: business applications, an achievement which will be recorded on their official transcripts.

Minimum Requirements for Option Eligibility

1. Declared communication major.

2. Completion of CMN 455 Introduction to Media Studies, CMN 456 Propaganda and Persuasion, and CMN 457 Introduction to Language and Social Interaction with a C or better.

3. Completion of at least one CMN 500-level course with a C- or better.

4. Maintain minimum in-major GPA of 2.5.

- Student enrollment in the Business Applications Option will be contingent upon **space availability**.
- Overall, total enrollment should **not exceed twenty students** in any given academic year.

[1] Students admitted to the option must earn a minimum 2.5 cumulative grade point average in major courses at graduation or they will, by default, graduate with a BA in Communication without the special option designation on their diplomas.

Requirements

Degree Requirements

Minimum Credit Requirement: 128 credits

Minimum Residency Requirement: 32 credits must be taken at UNH

Minimum GPA: 2.0 required for conferral*

Student Learning Outcomes

Program Learning Outcomes

Students will be able to describe the Communication discipline and its central questions. We expect students to be able to:

- Explain and synthesize the history of Communication theory.
- Articulate the differences between approaches within the discipline (media studies, language and social interaction, and rhetorical studies).
- Identify contemporary debates within the field.
- Distinguish Communication scholarship from other areas of study.
- Understand the role of Communication scholarship in society.
- Articulate the relevance of communication in civic life, including an ability to apply key concepts in the field to world events, situations, or problems.

Students will be able to think critically about communication processes by applying communication theories and concepts. We expect students to be able to:

- Identify theories, perspectives, principles, and concepts relevant to the discipline.
- Recognize academic writing, identify the work's thesis, explain its method, assess the evidence used, and determine its significance.

- Engage with communicative patterns, processes, problems, and practices that they encounter in their personal, professional and civic lives.
- Acquire effective frameworks for describing, analyzing, reflecting upon, and engaging with those patterns, processes, problems, and practices.

Prepare students to become thoughtful and proficient communicators. We expect students to be able to:

- Become critical consumers of messages.
- Understand how meanings are constructed by speakers and audiences.
- Evaluate claims and arguments, and to be able to explain how they are grounded.
- Recognize the collaborative construction of meaning and its relation to social change.
- Explore the ways in which various forms of communication constitute, maintain, and transform social life.
- Formulate coherent arguments/theses, provide support for their perspectives, and communicate them clearly and logically.
- Select creative and appropriate modalities and technologies to accomplish communicative goals.
- Adapt messages and coordinate communication with others recognizing the diverse needs.

Communication Major: Media Practices Option (B.A.)

https://www.unh.edu/program/bachelor-arts/communication-media-practices

Description

The Department of Communication, in collaboration with the Communication Arts Department at the UNH Manchester campus, offers the media practices option. This option is designed for qualified students who want to augment their communication major at Durham with training in media production and applied media communication through courses in the Communication Arts Department at the Manchester Campus.[1] Qualified students who meet all requirements will graduate with a B.A. degree in communication with a media practices option, an achievement which will be recorded on their official transcripts.

Minimum Requirements for Option Eligibility

1. Declared Communication Major.
2. Completion of CMN 455 Introduction to Media Studies, CMN 456 Propaganda and Persuasion, and CMN 457 Introduction to Language and Social Interaction with a C or better.
3. Maintain minimum in-major GPA of 2.5.

[1] Students are responsible for their own travel arrangements between Durham and Manchester campuses.

Requirements

Degree Requirements

Minimum Credit Requirement: 128 credits

Minimum Residency Requirement: 32 credits must be taken at UNH

Minimum GPA: 2.0 required for conferral*

Core Curriculum Required: Discovery & Writing Program Requirements

Foreign Language Requirement: Yes

All Major, Option and Elective Requirements as indicated.
**Major GPA requirements as indicated.*

Candidates for a degree must satisfy all of the University Discovery Program requirements in addition to satisfying the requirements of each individual major program. Bachelor of arts candidates must also satisfy the foreign language proficiency requirement.

Major Requirements

Majors must complete ten courses (40 credits) with a 2.0 overall average in the major.

Major department courses may not be used to satisfy Discovery category requirements except in the case of a second or dual major.

Code	Title	Credits
Required Courses		
Select two introductory courses from the following:		8
CMN 455	Introduction to Media Studies [1]	
CMN 456	Propaganda and Persuasion [1]	
CMN 457	Introduction to Language and Social Interaction [1]	
Communication Analysis Courses		
Select three 500-level courses [2]		12
Communication Upper-Division Electives		
Select four 600/700-level courses [3]		16
Elective		
Select one elective course at any level		4
Total Credits		**40**

[1]
- Majors must earn a grade of C or better in each introductory course.

[2]
- Students must complete at least one 400-level course before taking their first 500-level course. They must complete a second 400-level course before taking their second and third 500-level course.
- Students must take at least two of their 500-level courses in different thematic areas corresponding to the 400-level courses (but it is not necessary to have taken the corresponding 400-level course to enroll in the corresponding 500-level course).
- Majors must earn a grade of C- or better in all three analysis courses.
- CMN 500 Public Speaking and CMN 599 Internship cannot be used to fulfill an analysis course requirement.

[3]
- Students are eligible to take upper-division courses after successfully completing at least two of the 500-level analysis courses, each from a different thematic area.
- At least one of the student's four upper-division courses must be at the 700 level.

- Majors must earn a grade of C- or better in all upper-division courses.
- Up to four credits of CMN 795 can be used towards the major, but can only fulfill the capstone requirement with department approval.
- CMN 796 Comm-Entary Journal cannot be used to fulfill the advanced-level requirement.

Code	Title	Credits
Media Practices Option Requirements		
Select two courses from the following: [1]		8
CA 500	Media Writing	
ARTS 510	Principles of Design	
ARTS 611	Animation and Motion Design	
ARTS 612	Interaction & Game Design	
ARTS 613	Design and Place	
ARTS 614	Design and People	
CA 500	Media Writing	
CA 502	Image and Sound (Manchester)	
CA 512	Screenwriting (Manchester)	
CA 514	Fundamentals of Video Production (Manchester)	
CA 515	Advanced Video Production (Manchester)	
CA 517	Fundamentals of Audio Prod (Manchester)	
CA 520	Special Topics in Applied Communication (Manchester)	
IT 403	Introduction to Internet Technologies	
IT 502	Intermediate Web Design	
Internship		
Based on work experience at a site directly relevant to applied media practices or production completed in one semester. Junior standing is required. [2]		
CMN 599	Internship	4

1 Students may arrange to take Media Practices (CA) courses at any time during the course of their academic programs after they have satisfactorily completed the three 400-level introductory courses. Thus, students may take the 500-level CA courses before, concurrently with, or after completion of CMN 500-level courses and/or CMN 600-level courses.

2 Visit our Internships webpage for procedures on how to arrange internships.

Capstone Requirement

The Discovery Program Capstone requirement may be fulfilled by completing any 700-level communication course except CMN 796. CMN 795 can only fulfill the capstone requirement with department approval and can be repeated for a maximum of 8 credits.

Additional Information

- A maximum of 8 credits of CMN 795 Independent Study may be counted toward the major.
- CMN 799H and CMN 796 cannot be used to fulfill an advanced course requirement.

Transfer students

Must complete 20 credits of their communication coursework at UNH to complete the major satisfactorily. Exchange students may transfer no more than 10 approved credits from another institution to be applied toward completion of the communication major at UNH.

Student Learning Outcomes

Program Learning Outcomes

Students will be able to describe the Communication discipline and its central questions. We expect students to be able to:

- Explain and synthesize the history of Communication theory.
- Articulate the differences between approaches within the discipline (media studies, language and social interaction, and rhetorical studies).
- Identify contemporary debates within the field.
- Distinguish Communication scholarship from other areas of study.
- Understand the role of Communication scholarship in society.
- Articulate the relevance of communication in civic life, including an ability to apply key concepts in the field to world events, situations, or problems.

Students will be able to think critically about communication processes by applying communication theories and concepts. We expect students to be able to:

- Identify theories, perspectives, principles, and concepts relevant to the discipline.
- Recognize academic writing, identify the work's thesis, explain its method, assess the evidence used, and determine its significance.
- Engage with communicative patterns, processes, problems, and practices that they encounter in their personal, professional and civic lives.
- Acquire effective frameworks for describing, analyzing, reflecting upon, and engaging with those patterns, processes, problems, and practices.

Prepare students to become thoughtful and proficient communicators. We expect students to be able to:

- Become critical consumers of messages.
- Understand how meanings are constructed by speakers and audiences.
- Evaluate claims and arguments, and to be able to explain how they are grounded.
- Recognize the collaborative construction of meaning and its relation to social change.
- Explore the ways in which various forms of communication constitute, maintain, and transform social life.
- Formulate coherent arguments/theses, provide support for their perspectives, and communicate them clearly and logically.
- Select creative and appropriate modalities and technologies to accomplish communicative goals.
- Adapt messages and coordinate communication with others recognizing the diverse needs.

Communication Minor

https://www.unh.edu/program/minor/communication

Description

Students who enroll in a communication minor have the flexibility of structuring their pathway of five courses to explore the ways in which various forms of communication constitute, maintain and transform social life. The program trains students to understand, adapt to and participate in social change. We offer courses in media studies, rhetoric and face-to-face interaction. We'll encourage you to "learn how to learn," to become clear and precise writers, and to develop your abilities to think — to describe, analyze, critique, explore, integrate, synthesize and create ideas. The department's faculty members believe that these are the skills and abilities of a strong liberal arts education that will be the most useful resources in students' professional, civic and personal lives after leaving UNH.

Contact the Communication Department for more information about the minor.

Requirements

Academic policies related to Minors.

The Communication Minor consists of completing five courses (20 credits) in Communication (CMN).

- A minimum grade of C or better is required for coursework at the 400-level and a minimum grade of C- or better for coursework at the 500, 600, and 700-levels.
- Students must maintain a minimum grade-point average of 2.0.

Code	Title	Credits
Required Courses		
Select five (5) Communication courses		20
Total Credits		**20**

CMN 500 Public Speaking and CMN 599 Internship may not be counted toward the minor requirements.

A maximum of 4 credits of independent study can count toward the minor.

Education (EDUC)

Undergraduate course work in Education engages students in a diverse and varied collection of educational experiences that prepare them for present and future challenges as well as for a wide range of employment opportunities in education and professional settings engaged in education policy, community-based education, and advocacy.

Accelerated Master's Program

UNH undergraduate students with a 3.2 or higher cumulative grade-point average (GPA) can apply for "early admission" to the Graduate School either one or two semesters prior to their final semester as an undergraduate. Admitted students may register for a maximum of 12 credits of dual-credit coursework (undergraduate & graduate level

coursework) prior to completing their bachelor's degree. To receive graduate credit, students must be admitted to the Graduate School before the start of the semester in which the course(s) will be taken and need to maintain a 3.2 GPA or higher until their undergraduate degree is awarded. Applying for early admission involves the regular Graduate School application at www.gradschool.unh.edu.

Program Philosophy

The professional education unit at the University of New Hampshire seeks to prepare practitioners who will become leaders in their own practice settings and within their profession, applying knowledge to improve education for all students and enrich the lives of clients. Immersion in subject matter, research, theory and field-based experience provide a base for our graduates to make well-reasoned judgments in complex situations, render informed decisions, model exemplary practice, and take initiative for planned change.

Students learn to establish caring and thoughtful environments that celebrate individual differences and backgrounds while fostering cooperation and educational improvement. We stress reflective critical inquiry as a mode of study and community-building as a means to promote change. We value and support both our students' local practice and their broader leadership within the profession.

Faculty

Education Department Faculty

Education (B.A.)

https://www.unh.edu/program/bachelor-arts/education

Description

The Education major offers opportunities to integrate knowledge and research methodologies from several academic disciplines and field sites into a focused examination of the interdisciplinary field of education. The four-year Education major is designed for students who seek a rich understanding of education grounded in science, the arts, and the humanities.

The goal of the program is to graduate civically, globally, and intellectually engaged students who understand the complexities of education, are capable of analyzing and evaluating complex problems influencing education from a variety of disciplinary perspectives, and are committed to becoming leaders and role models in the communities in which they work. Program graduates will be prepared for present and future challenges as well as for a wide range of employment opportunities in educational and professional settings engaged in educational policy, community-based education, and educational advocacy.

The BA in Education does not lead to teacher licensure. Students in the Education major interested in a licensure program (e.g., Elementary School teaching) may apply to the Accelerated Master's program at UNH and potentially finish both the BA in Education and MEd in five years.

Requirements

Degree Requirements

Minimum Credit Requirement: 128 credits

Minimum Residency Requirement: 32 credits must be taken at UNH

Minimum GPA: 2.0 required for conferral*

Core Curriculum Required: Discovery & Writing Program Requirements

Foreign Language Requirement: Yes

All Major, Option and Elective Requirements as indicated.
**Major GPA requirements as indicated.*

Candidates for a degree must satisfy all of the University Discovery Program and Writing Program requirements in addition to satisfying the requirements of each individual major program. Bachelor of Arts candidates must also satisfy the foreign language proficiency requirement.

Major Requirements

The Education BA requires 52 credits, with each course completed with a **B- or better**. The required minimum overall GPA in major coursework is 3.0.

Education Language Requirement

The bachelor of arts degree at the University of New Hampshire requires that students satisfy the foreign language proficiency requirement. The requirement may be met by demonstrating language proficiency equal to a one-year college-level course (401 and 402, 403 and 503, 501 [Latin only], or 503 and above in a spoken language). American Sign Language courses meet the foreign language proficiency requirement for Education majors when COMM 401 and COMM 502 have been completed.

Student Learning Outcomes

Program Learning Outcomes

- GOAL ONE: Our students analyze the social dimensions of education, including culture, gender, equity, health and economics.
- GOAL TWO. Our students demonstrate depth of knowledge in their subjects; recognize how knowledge in their subjects is created, organized and linked to other disciplines; identify the organizing themes and central concepts necessary for understanding a subject; and identify associated content necessary for students to understand these themes and concepts.
- GOAL THREE. Our students understand how students develop and learn; treat students equitably and work diligently to help each student reach their potential; and create and maintain an atmosphere conducive to learning.

- GOAL FOUR. Our students make well-reasoned choices and decisions within the complex and demanding conditions of teaching. They analyze the effects of their actions and make appropriate changes. They consider the moral and philosophical implications of educational decisions. They improve their practice by reflecting on their own experience, observing others, seeking advice and drawing upon educational research and scholarship.
- GOAL FIVE. Our students assess the relative merits of educational reform efforts and determine their appropriateness to the classroom, school and broader societal contexts in which teaching and learning occur. They develop and articulate their own conceptual and philosophical perspective on teaching and learning based on professional experience and current theories and research in education. They understand the nature of educational change, the teacher's role in the change process, and are willing to take risks as advocates for the benefit of students, teachers, and the profession.
- GOAL SIX. Our students are active members of learning and professional communities. They work with colleagues to enhance their own teaching, learning and professional development, and work collaboratively with students, peers, and community members to create and contribute to effective learning environments.

Education Four-Year, Undergraduate Options

https://cola.unh.edu/education/program/bs/education-four-year-undergraduate-options-ba-bm

Description

A bachelor's degree, including a one-semester student-teaching requirement, allows students to be recommended for licensure in the following specialized programs:

- Health and Physical Activity Promotion Major: Health and Physical Education Teacher Licensure Option (B.S.)
- Human Development and Family Studies Major: Early Childhood Education Teacher Licensure Option (B.S.)
- Mathematics Education Major (B.S.)
- Music Education Major (B.M.)
- Theatre Major: Secondary Theatre Education Option (B.A.)

Requirements

For the specialized areas listed on the Description tab, students must fulfill requirements for the major appropriate for the licensure being sought, in addition to the following core professional courses or their equivalent:

Code	Title	Credits
EDUC 500	Exploring Teaching	4
EDUC 605	Educational Perspectives in Critical Times	4
EDUC 701	Human Development & Learning: Cultural Perspectives	4
EDUC 751A	Inclusive Elementary Education: Literacies and Learning for Diverse Learners	4
or EDUC 751B	Methods of Inclusive Secondary Education: Literacies, Learning, and Transitions	
EDUC 694	Courses in Supervised Teaching	8

- A minimum 2.8 cumulative grade-point average at the time of application to student teaching is required.
- Students in music, mathematics, and physical education need to apply by March 1st of the junior year and October 15th of the senior year for spring semester to the Education Department for student teaching.
- An unofficial transcript and a current resume must accompany the application. Return applications to the Education Department Office, 203 Morrill Hall, or Education.Department@unh.edu.

Education Minor

https://www.unh.edu/program/minor/education

Description

Education is happening everywhere, beyond schools and universities. Our education minor offers a broad understanding of the field and is a great way to combine your interests with your major course of study. You will learn about the various perspectives, structures, and issues that arise in education across contexts. In this highly flexible program, you'll choose electives in areas ranging from teaching methods to language and literacy to special education.

Requirements

Academic policies related to Minors.

A minor consists of five courses, twenty (20) credits in Education Department courses.

Code	Title	Credits
Select five (5) education courses		20
Total Credits		**20**

A methods course located in another department may be counted for four (4) of these twenty (20) credits (e.g., ARTS 791 or ARTS 792, ENGL 792, MATH 709, etc.).

No more than eight (8) credits used by the student to satisfy major requirements may be used for the minor.

Courses used in obtaining a minor in special education cannot be used towards a minor in education.

EDUC 500 Exploring Teaching can only be counted once (four credits) towards the minor.

No more than two (2) transferred courses in Education or a closely-related area from another college or university may be used towards a minor in Education. A three-credit (3) course transferred from another school will count for three credits (3) at UNH, not four credits (4).

Educational Studies Dual Major

https://www.unh.edu/program/dual-major/educational-studies

Description

The Educational Studies Dual Major (ESDM) program is for students interested in the foundations, philosophy, paradigms, research, and social structures of education. This flexible, rigorous, transdisciplinary program bridges community engagement with theoretical explorations. Students analyze, evaluate, and develop approaches to challenges

facing education in the context of organizations, cultures, history, and technologies. The program integrates fieldwork and research in a range of educational settings, including classrooms, museums, and nonprofits. It is relevant for future educators, policymakers, researchers, and those who wish to deepen their knowledge of education as informed citizens.

The ESDM does not lead to teacher licensure. Students interested in a licensure program (e.g., Elementary School teacher) may apply to the Accelerated Master's program at UNH and potentially finish both the ESDM and MEd in five years.

Students who are interested in a dual major in Educational Studies will need to file an*Intent to Dual Major Form*. For more information, please contacteducation.department@unh.edu.

Requirements

Degree Requirements

Minimum Credit Requirement: 128 credits

Minimum Residency Requirement: 32 credits must be taken at UNH

Minimum GPA: 2.0 required for conferral*

Core Curriculum Required: Discovery & Writing Program Requirements

Foreign Language Requirement: Yes, if primary major is a Bachelor of Arts

Declared Primary Major

All Major, Option and Elective Requirements as indicated.
**Major GPA requirements as indicated.*

Candidates for a degree must satisfy all of the University Discovery Program and Writing Program requirements in addition to satisfying the requirements of each individual major program. Students interested in the dual major in Educational Studies will need to file an Intent to Dual Major Form. For more information contact the department at education.department@unh.edu.

Educational Studies Dual Major Requirements

The educational studies dual major requires **32 credits**, each course completed with a **C+ or better**. Any education course to be applied for a teacher licensure requirement must be completed with a grade of **B- or better**. The dual major cannot be declared until after a first major has been declared. Students must have a UNH undergraduate GPA of a 2.50 or better at the time of declaring the dual major. The required minimum overall GPA in major coursework is 2.50.

If the student's primary major is a Bachelor of Arts, the foreign language proficiency requirement must also be fulfilled.

Code	Title	Credits
Required Courses		
Foundations		
EDUC 402	Introduction to Educational Studies: Social Change and Education in Local and Global Contexts	4

Select one of the following:		4
EDUC 784	Educators as Engaged Researchers and Reflective Professionals	
EDUC 795	Independent Study	
INCO 790 Advanced Research Experience and URC Presentation		
McNair Research Thesis		
A capstone in the first major, if related to an Educational Studies project and approved by both advisors and the director of Undergraduate Studies.		
Total Credits		**32**

Student Learning Outcomes

Program Learning Outcomes

GOAL ONE:

- Our students effectively analyze the social dimensions of education, to include issues of culture, gender, equity, health, and economics. Specifically, students will:
- demonstrate understanding of the history and politics of education including the principles, assumptions and impacts of school reform initiatives, education, international development and economic globalization as well as alternatives for defining and pursuing diverse conceptions of education, quality of life, and equity.
- demonstrate understanding of how economics and markets shape private and public actions and outcomes with respect to education on local, regional, national and global scales.
- demonstrate understanding of the origins, similarities and differences among concepts of diversity, universality, pluralism, multiculturalism, and cosmopolitanism and their implications for education in formal and informal at a variety of scales.

- demonstrate understanding of the roles of gender, race, ethnicity, and economic class in affecting education in formal and informal settings.
- demonstrate cultural self-awareness and cultural sensitivity in analysis, synthesis, visioning, design and intervention related to studies in education.
- demonstrate an understanding of the connection between public health and education.

GOAL TWO:

- Our students engage diverse histories of education in the context of civic engagement, activism, and commitment to equity and justice for Social Good. Specifically, students will:
- demonstrate understanding of the relationship between awareness and action and be able to articulate theories of ethics and civic engagement in the context of educational initiatives on local, national and international levels.
- demonstrate understanding of the principles, assumptions and frameworks of educating for equity and justice from diverse perspectives.
- critique these issues based on their direct experience in "engaged learning" projects.

GOAL THREE:

- Our students will demonstrate depth of knowledge in their subjects; recognize how knowledge in their subjects is created, organized and linked to other disciplines; identify the organizing themes and central concepts necessary for understanding a subject; and identify associated content necessary for students to understand these themes and concepts.

GOAL FOUR:

- Our students will understand how students develop and learn; treat students equitably and work diligently to help each student reach their potential; and create and maintain an atmosphere conducive to learning.

GOAL FIVE:

- Our students will be active members of learning and professional communities. They work with colleagues to enhance their own teaching, learning and professional development and work collaboratively with students, peers and community members to create and contribute to effective learning environments.

GOAL SIX:

- Our students will make well-reasoned choices and decisions within the complex and demanding conditions of teaching. They analyze the effects of their actions and make appropriate changes. They consider the moral and philosophical implications of educational decisions. They improve their practice by reflecting on their own experience, observing others, seeking advice and drawing upon educational research and scholarship.

Special Education Minor

https://www.unh.edu/program/minor/special-education

Description

In the special education minor, you will engage in an informed, evidence-based examination of inclusive (formerly “special") education and study fundamental issues of values, purposes, and practices in public education systems. The concept of disability in education has a dual nature. It has been represented as a mechanism of protection within schools that recruits efforts and resources to develop all individuals’ abilities and to ensure their meaningful, full participation in society. Disability identification has also been a mechanism for exclusion and inequity, including long-standing intersections with race, language, class, and gender, among others. This minor can be combined with other majors and can provide an accelerated pathway to the Education Department’s professional graduate preparation programs, particularly the M.Ed. in special education.

Requirements

Academic policies related to Minors.

- The Minor in Special Education consists of completing five Education Department courses for a total of twenty (20) credits.
- The Minor in Special Education does not lead to a teaching certification.
- No more than eight (8) credits used by the student to satisfy major requirements may be used for the minor.
- Courses used in obtaining a Minor in Education cannot be used towards the Minor in Special Education.
- EDUC 500 can only be counted once for four (4) credits towards the minor, if the placement was with a special educator.
- No more than two (2) transferred courses in education or a closely-related area from another college or university may be used towards a Minor in Special Education. A three (3) credit course transferred from another school will count for three (3) credits at UNH.

Code	Title	Credits
Required Courses		
EDUC 650	Introduction to Disability in Inclusive Schools and Communities	4
EDUC 656	Advocating for Diverse and Inclusive Family-School-Community Partnerships	4
Electives		
Select three courses from the following:		12
EDUC 556	Peer to Peer Mentoring for Students with Disabilities [1]	
EDUC 739	Assessment and Individualized Educational Planning in Special and Inclusive Education [2]	
EDUC 740	Methods for Supporting Students in Special Education Using Intensive Interventions [2]	
EDUC 751A	Inclusive Elementary Education: Literacies and Learning for Diverse Learners	
EDUC 751B	Methods of Inclusive Secondary Education: Literacies, Learning, and Transitions	
EDUC 760	Introduction to Young Children with Special Needs	
EDUC 761	Designing Curriculum for Inclusive, Equitable Settings for Young Children (birth-8)	
Total Credits		**20**

1 EDUC 556 is a two (2) credit course. To reach the total credit requirement for the minor, this course may be repeated for a total of four (4) credits, or an additional elective course will be required.

2 Department permission required.

English (ENGL)

The English department offers majors in English; English literature; English teaching; English: text, business writing and digital studies; and interdepartmental programs in linguistics and journalism and media studies. We also offer the English/law 3+3 option for students interested in pursuing a JD after just 3 years of undergraduate study.

Though we offer several different programs in the English department, our shared focus is on studying the expressive possibilities of the

English language in its myriad forms. Our classes pursue three teaching missions. First, we train students in professional study of the English language. Second, we offer students ways of understanding the various traditions of works written in English, with emphasis upon close reading and placing works in historical and cultural contexts. Third, and particularly important, we teach students to write with clarity, persuasiveness and elegance, and for a variety of audiences and situations. In all of our undergraduate English majors, we provide our students with critical thinking, writing and research skills that will enrich their personal and professional lives.

Writing Programs

The Department of English offers courses for students interested in becoming writers. Writing workshops are offered in fiction, poetry and creative nonfiction. Intermediate-level courses may be taken more than once for credit, especially with two different instructors.

English Literature Major (B.A.)

https://www.unh.edu/program/bachelor-arts/english-literature

Description

The English literature major serves those students who want to focus particularly on the study of literature — its many forms and styles, its rich history and the range of approaches to its analysis. The English literature track is an especially attractive major for those who plan to go on to graduate school.

As an English literature major, a student will learn about various literary traditions, both British and American literature as well as traditions organized around other principles, such as post-colonial literature, women's literature, African-American literature and genres like poetry and drama. Courses are designed to expose students to many different sorts of works and to help them develop questions and strategies of critical thinking that will make all kinds of literary expression meaningful. And the works students will study will provide many ways of looking at the world and enrich their quality of life. What's more, students have many opportunities to hone critical writing and research skills and to practice the art of presenting research findings to a group, all skills in high demand in today's workplace. The English literature major is an excellent way to combine development of interpretive and writing skills with an exciting, in-depth encounter with some of the very best writing ever produced in the English language.

Students interested in majoring in English literature should contact the Department of English, 230F Hamilton Smith Hall, (603) 862-1313 or the director of the English literature program.

Requirements

Degree Requirements

Minimum Credit Requirement: 128 credits

Minimum Residency Requirement: 32 credits must be taken at UNH

Minimum GPA: 2.0 required for conferral*

Core Curriculum Required: Discovery & Writing Program Requirements

Foreign Language Requirement: Yes

All Major, Option and Elective Requirements as indicated.
**Major GPA requirements as indicated.*

Major Requirements

- The required minimum overall GPA in major coursework is 2.0.
- English Literature majors may use one major-required course to satisfy one Discovery category requirement.
- Majors may only count one online course toward their English major requirements.
- English literature majors complete a minimum of 40 credits of major coursework with a grade of C- or better.
- ENGL 401, ENGL 415, or ENGL 444 may not be used to satisfy major requirements.
- A minimum of six courses must be completed at the 600-level or higher.

Code	Title	Credits
Required Courses		
Coursework must meet the following distribution requirements (a single course may satisfy multiple requirements):		
ENGL 419	How to Read Anything [1]	
Select two 500-level literature courses (see list below)		
Select two Pre-1800 Literature courses (see list below)		
Select two Post-1800 Literature courses (see list below)		
ENGL 714	Critical Skills	
Select one American literature course at the 600/700 level		
Select one British literature course at the 600/700 level		
Select one course that studies Community and Cultures in a U.S. context (see list below)		
Select one course that investigates Anglophone literature in a global or transnational context (see list below)		
Select one course in a specific genre including, poetry, memoir, nonfiction, drama, fiction, and film (see list below) [2]		
Capstone:		
ENGL 787	English Major Seminar	

1 Must be completed with a minimum grade of C.
ENGL 419 is the only 400-level course that may count towards major requirements.

2 With the exception of ENGL 533 Introduction to Film Studies.

Code	Title	Credits
500-level Courses		
Select from the following:		
ENGL/LING 405	Introduction to Linguistics	
ENGL 501	Introduction to Creative Nonfiction	
ENGL 502	Professional and Technical Writing	
ENGL 503	Persuasive Writing	
ENGL 512	British Literature I Age of Heroes: Beowulf to Dr. Faustus	
ENGL 513W	British Literature II Age of Revolutions: Shakespeare to Austen	
ENGL 514W	British Literature III: Revolts, Renewals, Migrations	
ENGL 516W	American Literature II Money, Migration, and Modernity: Huck Finn to Beloved	
ENGL 518W	Bible as Literature	
ENGL 520	Dystopian and Post-Apocalyptic Fiction	
ENGL 526	Introduction to Fiction Writing	
ENGL 527	Introduction to Poetry Writing	
ENGL 533	Introduction to Film Studies	
ENGL 534	21st Century Journalism: How the News Works	
ENGL 550	Introduction to the Literature and Culture of Race	
ENGL 555	Science Fiction	
ENGL 575	Sex and Sensibility: The Rise of Chick Lit	
ENGL 581	Reading the Postcolonial Experience	
ENGL 585	Introduction to Women in Literature	
ENGL 595	Literary Topics	

Code	Title	Credits
Pre-1800 Literature Courses		
Select from the following:		
ENGL 512	British Literature I Age of Heroes: Beowulf to Dr. Faustus	
or ENGL 513W	British Literature II Age of Revolutions: Shakespeare to Austen	
ENGL 595	Literary Topics (if topic is appropriate)	
ENGL 657	Shakespeare	
ENGL 693R	Special Topics in Literature (if topic is appropriate)	
ENGL 751	Medieval Romance	
ENGL 756	Chaucer	
ENGL 758	Advanced Shakespeare	
ENGL 759	Milton	
ENGL 787	English Major Seminar (if topic is appropriate)	

Code	Title	Credits
Post-1800 Literature Courses

Student Learning Outcomes

Program Learning Outcomes

All undergraduate English majors acquire the same core skills. These include:

- Proficiency in analytical writing, critical thinking, and public-speaking.
- Knowledge of important literary genres and subgenres
- Fluency in literary terminology,
- A broad understanding of British-and-American literature, from the medieval period in England and the moment of first contact in America to the present day.
- Demonstrated proficiency in writing an analytical essay that offers a sophisticated close-reading or explication of a literary text. This essay will have a clear thesis and proceed in a logical fashion, with interpretive claims supported by evidence from the text.
- Demonstrated proficiency in literary research and in writing an extended thesis-driven research paper in which sources are correctly and responsibly cited.
- Demonstrated understanding of how to read across the color line in the US and /or how to analyze literary works written in English from outside the UK and the US--from India, Africa, and the Caribbean, for example.

English Major (B.A.)

https://www.unh.edu/program/bachelor-arts/english

Description

Our general English major has two objectives: provide our students with a common core of literary experience and expertise, and offer them the opportunity to shape a course of study suited to their personal interests. By offering flexible requirements, we encourage students to devise a path through coursework that has an intelligent rationale. Students whose primary interest is in literary studies can focus on our many offerings in that area; those who have a special interest in writing can take multiple writing courses in fiction, creative nonfiction and poetry writing (in addition to literature courses). Alternatively, they can match up courses from different areas in the department (say, literature and writing courses focused on poetry). Our major requirements encourage students to sample a range of courses in literature, linguistics, creative or nonfiction writing, and English teaching, so that students become familiar with the various strands of inquiry that compose contemporary English studies. The guiding principle of the general English major, then, is that it is open and liberal by design. It allows students to sample a variety of courses in order to study the operation of language from many perspectives.

If you're interested in majoring in English please contact Carla Cannizzaro, Senior Academic Advisor, Department of English, 230F Hamilton Smith Hall, (603) 862-1313.

English Major: Law 3+3 Option (B.A.)

https://www.unh.edu/program/bachelor-arts/english-law-33

Description

The Law 3+3 program offers highly motivated UNH undergraduate students of English the possibility to earn both a bachelor's degree (B.A.) and a law degree (J.D.) in six, rather than seven, years of study. After completing three years as an undergraduate and gaining admission to the UNH Law School through the approved process, the 3+3 program participant will become a full-time first-year law student. Upon successful completion of the first year of law study, the credits earned will be counted toward the JD degree and as elective credits sufficient to complete UNH's requirements for the bachelor's degree.

Eligibility and Admission Process

STEP ONE: Application to the 3+3 English/Law B.A./JD option

Students apply to the program either when they submit their applications to UNH, selecting the English/J.D .option on the online application, *OR* after they are admitted to UNH, by applying directly to the English Department's "English/Law 3+3 Committee." In both cases, undergraduate applicants must fulfill the general requirements for admission to the English major.

Students applying at the time of admission to UNH will typically present the following high school credentials:

- A **3.5 GPA** in high school (UNH recalculates high school GPA's to a 4.0 weighted scale)
- A rigorous high school curriculum defined as the following:
  - 4 years of college prep (CP) or higher English
  - 4 years of CP or higher mathematics
  - 4 years of CP or higher social studies/history
  - Completed at least level 3 of a foreign language
  - 3 or more years of CP or higher laboratory sciences.
- A recommended score of **1200** or better (combined Math and Verbal) on the SAT or a **29** on the ACT.

Currently enrolled UNH students applying to the program must:

- Have a 3.5 GPA in college courses at the time of application. The English Department committee governing admission to the 3+3 program will also consider past SAT scores, maturity, and the ability to complete a highly demanding program of study based on performance thus far.
- For both groups, it is important to note that satisfying these requirements does not guarantee admission to this program. The review process is holistic (meaning all parts of the application carry weight and influence the final decision) and other components of the application will influence any admission decisions. Available space within the program will also influence who is admitted and how many students can be accepted.

STEP TWO: Application to UNH Law school

To be eligible, students must:

- Complete all Discovery and major requirements, and accrue at least 98 credits before beginning law school in their 4th/"1L" year of academic study.
- Maintain at least a 3.5 GPA (including transfer credits) at time of application to law school, and at the end of their Junior year.

- Take the LSAT or the GRE no later than December of the final undergraduate year (i.e. the Junior year). Students opting to take the LSAT must earn a score of **155 or above**. Students opting to take the GRE must score in the 80% of concurrently tested students.
- Submit the law school application through the Law School Admissions Council by March 15 of the calendar year in which the student wishes to enroll in law school.
- If, for some reason, students are not admitted to UNH Law, they will complete their final, fourth year at UNH, following the typical undergraduate program.

Questions about the English/Law 3+3 undergraduate program should be directed to Carla Cannizzaro, Senior Academic Advisor, Department of English, 230F Hamilton Smith Hall, (603) 862-1313.

Questions about UNH Law School entry should be directed to Kevin Sousa, UNH pre-law advisor, 110 Murkland Hall, (603) 862-2062.

Requirements

Degree Requirements

Minimum Credit Requirement: 128 credits

Minimum Residency Requirement: 32 credits must be taken at UNH

Minimum GPA: 2.0 required for conferral*

Core Curriculum Required: Discovery & Writing Program Requirements

Foreign Language Requirement: Yes

All Major, Option and Elective Requirements as indicated.
**Major GPA requirements as indicated.*

Students in the English/law 3+3 option fulfill the BA degree requirements and English major. See the Degree Plan for the recommended path through the English major.

Participation requires that students:

- Complete all discovery and major requirements and **at least 98 credits** before beginning law school
- Maintain a **3.5 or above** grade point average, including transfer credits
- Take the LSAT or the GRE no later than December of the final undergraduate year (i.e. the Junior year). Students opting to take the LSAT must earn a score of **157 or above**. Students opting to take the GRE must score in the 80% of concurrently tested students.
- Submit the law school application through the Law School Admissions by January 1 of the year in which the student wishes to enroll in law school.

Major Requirements

1. Students must complete a minimum of 40 credits of with a minimum grade of C-.
2. The required minimum overall GPA is 2.0.
3. ENGL 401, ENGL 415, ENGL 444, ENGL 620 and ENGL 788 may not be used to satisfy major requirements.
4. A total of six courses must be at the 600-level or above.
5. One major-required course may be used to satisfy one Discovery category requirement.
6. Only one online course may count toward major requirements.
7. Special Topics in Literature courses (e.g. ENGL 693, ENGL 787, ENGL 797) may be used to satisfy Pre-1800 or Post-1800 and/or Community requirement areas if the designated topic is appropriate.
8. Capstone must be completed with a minimum grade of C. May not be double-counted toward major requirements. Submit a Capstone Declaration form indicating the English course to be taken at the time of registration.

Code	Title	Credits
Required Courses		
ENGL 419	How to Read Anything (Minimum grade of C)	4

Code	Title	Credits
500-level Courses		
Select two courses from the following:		
ENGL/LING 405	Introduction to Linguistics	
ENGL 501	Introduction to Creative Nonfiction	
ENGL 502	Professional and Technical Writing	
ENGL 503	Persuasive Writing	
ENGL 512	British Literature I Age of Heroes: Beowulf to Dr. Faustus	
ENGL 513W	British Literature II Age of Revolutions: Shakespeare to Austen	
ENGL 514W	British Literature III: Revolts, Renewals, Migrations	
ENGL 516W	American Literature II Money, Migration, and Modernity: Huck Finn to Beloved	
ENGL 518W	Bible as Literature	
ENGL 520	Dystopian and Post-Apocalyptic Fiction	
ENGL 526	Introduction to Fiction Writing	
ENGL 527	Introduction to Poetry Writing	
ENGL 533	Introduction to Film Studies	
ENGL 534	21st Century Journalism: How the News Works	
ENGL 550	Introduction to the Literature and Culture of Race	
ENGL 555	Science Fiction	
ENGL 575	Sex and Sensibility: The Rise of Chick Lit	
ENGL 581	Reading the Postcolonial Experience	
ENGL 585	Introduction to Women in Literature	
ENGL 595	Literary Topics	

Code	Title	Credits
Pre-1800 Literature Courses		
Select two courses from the following:		
ENGL 512	British Literature I Age of Heroes: Beowulf to Dr. Faustus	
or ENGL 513W	British Literature II Age of Revolutions: Shakespeare to Austen	
ENGL 595	Literary Topics (if topic is appropriate)	
ENGL 657	Shakespeare	
ENGL 693R	Special Topics in Literature (if topic is appropriate)

ENGL 600-700 Post-1800 Literature Course (If you took 514, 515, or 516, this can be any 600-700-level ENGL course.)		4
LAW 475	Getting Ready to Succeed in Law School (If not previously taken.)	2
	Credits	**18**
	Total Credits	**102**

TOTAL: 98 Credits (40 Discovery, 44 English, 4-8 Foreign Language, 4-8 Elective)

NEED: Beyond ENGL 401 First-Year Writing, 3 more WI courses, one in major, one at 600 level.

Students should take LAW 475 Getting Ready to Succeed in Law School at some point during their Sophomore year but no later than the first semester of their Junior year. This 2-credit course, taught by a UNH Law School faculty member, will teach students how to prepare for a legal education. If LAW 475 is not offered during the appropriate

timeline for student progression to their "1L"/Senior year of study, other 2-credit options that are suitable preparation for law school study include JUST 550 Mock Trial and JUST 551 Mock Trial. For other possible 1-2 credit courses, see the Time & Room Schedule and consult with your academic advisor. The 1-2 credit courses can be completed at any point in your first 3 years at UNH-Durham. You can also complete them during the January term [see, e.g., THDA 531 The London Experience: Discovery, a 2-credit study abroad program] or in the summer.

HONORS: It is not necessary to complete the honors program, but it is possible: Honors in Discovery + Honors in Major with Thesis (See addendum I) .

SEQUENCE: With the exception of ENGL 419 and ENGL 787, English courses don't need to be taken in any specific order; the guide above is only a suggestion. In general, 500-level courses should be taken before 600-700 level ones. However, a student could take a class that satisfies the Race Requirement in Semester I of Junior year rather than Semester II, or a pre-1800 600-700 level literature course in Semester II of Junior year. As long as all the categories listed above are met, students have the flexibility to choose the courses that best meet their interests and schedules. There are some writing and journalism courses that have prerequisites, and students should be careful to note these before choosing upper-level courses in those fields.

ADVISING: It is very important that students progressing through the 3+3 English/Law program maintain close contact with their degree advisor. This will help students remain "on track" to complete degree requirements, and the advisor will guide the student into the next phase of the program, admission to the Law school. Students who **plan early and work closely** with their advisor may find it possible to include study abroad and participation in other University programs, if desired, but only with careful planning.

Law School Degree Plan

This is a sample Law School course planning outline. Variations to this suggested path of courses may be undertaken with the approval of the student's Law school advisor.

Senior/First Year Law (31 credits)

The schedule and track of the second and third years of law school are directed by each student with careful advising from the law faculty.

Student Learning Outcomes

Program Learning Outcomes

- Proficiency in analytical writing, critical thinking, and public-speaking.
- Knowledge of important literary genres and subgenres.
- Fluency in literary terminology.
- A broad understanding of British-and-American literature, from the medieval period in England and the moment of first contact in America to the present day.
- Demonstrated proficiency in writing an analytical essay that offers a sophisticated close-reading or explication of a literary text. This essay will have a clear thesis and proceed in a logical fashion, with interpretive claims supported by evidence from the text.
- Demonstrated proficiency in literary research and in writing an extended thesis-driven research paper in which sources are correctly and responsibly cited.
- Demonstrated understanding of how to read across the color line in the US and /or how to analyze literary works written in English from outside the UK and the US--from India, Africa, and the Caribbean, for example.

English Major: Text, Business Writing and Digital Studies Option (B.A.)

https://www.unh.edu/program/bachelor-arts/english-text-business-writing-digital-studies

Description

The modern workplace requires that employees be adaptable. The Bureau of Labor Statistics conducted a long-term study that showed people held 11.7 jobs between the ages of 18 and 48, and those numbers are increasing with people moving between jobs more frequently every year. It is crucial that we prepare our students not just for one industry, but rather arm them with the transferable skills of critical reading, writing, analysis, production, theory and aesthetics of new forms in digital media and business. Students will leave this major option with the skills that are in the highest demand in all fields today.

This major option addresses the growing demand for graduates who are well-versed in a combination of humanistic and digital skills and able to work in a variety of professional environments. In particular, graduates of this option will be prepared for careers at cultural and historical institutions, as well as in emerging job markets of information management and online content delivery. This specialization complements areas requirements for the English major but it is not limited to English majors. Double majors are encouraged. Small classes, a great sense of community and a diversity of faculty specializations create an atmosphere that propels students toward success. Students will receive real-life work experience through our internship class, and they will also leave this major with a digital portfolio that contains a collection of professional projects that can be used on the job market.

In this English major option, students are trained in the critical reading, analysis, production, theory and aesthetics of new forms in media and business. These forms include but are not limited to social media, business writing conventions, modes of digital storytelling (i.e. audio and video essays, podcasts and wikis), digital archives, web design, and online communities and interaction. Students are also trained in analysis through traditional humanistic literature and they are expected to fulfill the core learning objectives shared by *all English major tracks*. These include:

- the ability to communicate and debate effectively with others, both orally and in writing,
- the ability to closely examine a variety of texts (including modern digital artifacts and archival materials)
- developing the ability to use a variety of media and communication platforms;
- experience and practice in dynamic critical thinking and creativity

If you're interested in majoring in English: Text, Business Writing and Digital Studies please contact Carla Cannizzaro, Senior Academic Advisor, Department of English, 230F Hamilton Smith Hall, (603) 862-1313.

Requirements

Degree Requirements

Minimum Credit Requirement: 128 credits

Minimum Residency Requirement: 32 credits must be taken at UNH

Minimum GPA: 2.0 required for conferral*

Core Curriculum Required: Discovery & Writing Program Requirements

Foreign Language Requirement: Yes

All Major, Option and Elective Requirements as indicated.
**Major GPA requirements as indicated.*

Major Requirements

- Eleven courses (44 credits) are required for the major.
- Courses must be completed with a minimum grade of C- or better.
- Majors may only count one online course towards their major requirements.
- ENGL 403, ENGL 415 and ENGL 444 courses may not be used to satisfy major requirements.
- English majors may use one major-required course to satisfy one Discovery category requirement.
- Students must meet the following distribution requirements below. Note that any one course may satisfy more than one requirement.

Code	Title	Credits
Required Courses		
ENGL 419	How to Read Anything [1]	4
One 500-level Introductory Course. Select from the following:		4
ENGL 501	Introduction to Creative Nonfiction (Digital Essay version)	
ENGL 502	Professional and Technical Writing	
ENGL 503	Persuasive Writing (Text, Business Writing, Digital version)	
ENGL 510		
ENGL 602	Advanced Professional and Technical Writing	
Select three ENGL courses numbered 600 or above [2]		12
Select two pre-1800 literature courses (select from the list below)		8
Select two post-1800 literature courses (select from the list below)		8
Select one course that addresses race, the construction of race, and racial theories (select from the list below)		4
Capstone [3]		
ENGL 796	The Internship Experience	4
Digital Portfolio		

1 Must be completed with a minimum grade of "C" to count towards the major.

2 Students may include any advanced-level ENGL courses in which **20% of student assessment/work includes a digital humanities, digital research, or digital production component** (even it taken to fulfill literature requirements). *ENGL 602 may NOT be double counted for this requirement. Look for the 'DH' designation in the course descriptions during registration.*

3 **The Internship Experience:** Experiential learning course that allows students to apply all of the writing, speaking, and critical thinking skills into an on-the-job experience, enabling them first-hand practice with writing documents at work, peer collaboration, public speaking opportunities/presentations, and supervision and evaluation. Students must have JR or SR status to enroll in this course.
Digital Portfolio: A minimum of six polished projects represented in a digital portfolio started in ENGL 602 and expanded over your career at UNH. A reflective essay will accompany this portfolio. This is a non-credit degree requirement. The Digital Portfolio is completed during enrollment in ENGL 796 'The Internship Experience'.

Code	Title	Credits
Pre-1800 Literature Courses		
Select from the following:		
ENGL 512	British Literature I Age of Heroes: Beowulf to Dr. Faustus	
or ENGL 513W	British Literature II Age of Revolutions: Shakespeare to Austen	
ENGL 595	Literary Topics (if topic is appropriate)	
ENGL 657	Shakespeare	
ENGL 693R	Special Topics in Literature (if topic is appropriate)	
ENGL 751	Medieval Romance	
ENGL 756	Chaucer	
ENGL 758	Advanced Shakespeare	
ENGL 759	Milton	
ENGL 787	English Major Seminar (if topic is appropriate)	

Code	Title	Credits
Post-1800 Literature Courses		
Select from the following:		
ENGL 514W	British Literature III: Revolts, Renewals, Migrations	
or ENGL 516W	American Literature II Money, Migration, and Modernity: Huck Finn to Beloved	
ENGL 595	Literary Topics (if topic is appropriate)	
ENGL 690	African American Literature	
ENGL 693R	Special Topics in Literature (if topic is appropriate)	
ENGL 738	Asian American Studies	
ENGL 775	Modern Irish Literature: A Changing Landscape	
ENGL 777	The English Novel in the World	
ENGL 782	Modern and Contemporary Drama	
ENGL 784	English Novel of the 19th Century	
ENGL 787	English Major Seminar (if topic is appropriate)	
ENGL 797R	Special Studies in Literature (Race & Racial Theories) (if topic is appropriate)	

Code	Title	Credits
Race, the Construction of Race, and Racial Theory Courses		
Select from the following:		
ENGL 440A	Honors/On Race in Culture and Society	
ENGL 550	Introduction to the Literature and Culture of Race	
ENGL 650R	I Hear America Singing: Studying American Literature and Culture	
ENGL 690	African American Literature	
ENGL 693	Special Topics in Literature (subtopic R)	
ENGL 693R	Special Topics in Literature	
ENGL 738	Asian American Studies

Student Learning Outcomes

Program Learning Outcomes

All undergraduate English majors acquire the same core skills. These include:

- Proficiency in analytical writing, critical thinking, and public-speaking.
- Knowledge of important literary genres and subgenres
- Fluency in literary terminology,
- A broad understanding of British-and-American literature, from the medieval period in England and the moment of first contact in America to the present day.
- Demonstrated proficiency in writing an analytical essay that offers a sophisticated close-reading or explication of a literary text. This essay will have a clear thesis and proceed in a logical fashion, with interpretive claims supported by evidence from the text.
- Demonstrated proficiency in literary research and in writing an extended thesis-driven research paper in which sources are correctly and responsibly cited.
- Demonstrated understanding of how to read across the color line in the US and /or how to analyze literary works written in English from outside the UK and the US--from India, Africa, and the Caribbean, for example.

English Teaching Major (B.A.)

https://www.unh.edu/program/bachelor-arts/english-teaching

Description

Are you passionate about serving your community? Do you enjoy reading, writing, creative thinking and imagination? Are you eager to shape the future? The English teaching major could be a wonderful choice for you!

English teaching majors synthesize knowledge across areas — literature, language, composition, speaking, listening, identity, linguistics and education, just to name a few. We think critically and collaborate. We spark learning and we study it. We evaluate texts and resources, examine literacy skills, consider appropriate media, and design reading and writing opportunities and instruction in a variety of contexts. In particular, the English teaching major focuses on preparing future teachers and educational leaders, but the skills students learn are valuable in many settings, from the classroom to the workplace to the broader world.

The goal of the English teaching major is to prepare informed, thoughtful, and skilled English teachers who will become educational leaders in their own communities and in the teaching profession. In the English Department, students learn about literature, cultural theories of race and identity, composition, grammar, a variety of textual and digital media, and instructional practices appropriate to grades five through twelve. In the Education Department, students learn about human development, the history of schooling, and many philosophical perspectives on learning and education.

The final steps to becoming a teacher are completing a Master's program in the Education Department and applying for New Hampshire teacher certification. Students who choose one of these programs will complete graduate-level coursework and undertake a year-long teaching internship where they will collaborate with a teacher to apply their knowledge in a classroom. Students who complete this program are uniquely well prepared to become leaders in the profession over the long term. State certification is transferable to most other states, and, after five years, 88.7% of UNH master's program graduates report that they are teaching or employed in an education-related job. Join the English teaching major and turn your passion for English into a fulfilling career serving your community!

Students interested in majoring in English teaching should consult Carla Cannizzaro, Senior Academic Advisor, Department of English, 230F Hamilton Smith Hall, (603) 862-1313, or the director of the English teaching program, Prof. Alecia Magnifico.

Requirements

Degree Requirements

Minimum Credit Requirement: 128 credits

Minimum Residency Requirement: 32 credits must be taken at UNH

Minimum GPA: 2.0 required for conferral*

Core Curriculum Required: Discovery & Writing Program Requirements

Foreign Language Requirement: Yes

All Major, Option and Elective Requirements as indicated.
**Major GPA requirements as indicated.*

Major Requirements

- Completion of the undergraduate teaching major does not in itself meet state certification requirements.
- Students should enroll in the undergraduate major and pass the following courses with a GPA of 2.5 or better.
- English teaching majors may use one major-required course to satisfy one Discovery category requirement.
- Majors may only count one online course towards the English major requirements.

Code	Title	Credits
Required Courses		
ENGL 419	How to Read Anything	4
ENGL 514W	British Literature III: Revolts, Renewals, Migrations	4
ENGL 516W	American Literature II Money, Migration, and Modernity: Huck Finn to Beloved	4
ENGL 657	Shakespeare	4
ENGL 725 & ENGL 726	Teaching Writing: Seminar in English Teaching and Teaching Literature and Literacy: Seminar in English Teaching	8
or ENGL 710 & ENGL 792	Teaching Writing and Teaching Literature and Literacy

Code	Title	Credits
Community and Cultures Courses		
Select from the following:		
ENGL 440A	Honors/On Race in Culture and Society	
ENGL 550	Introduction to the Literature and Culture of Race	
ENGL 650R	I Hear America Singing: Studying American Literature and Culture	
ENGL 693	Special Topics in Literature (subtopic R)	
ENGL 693R	Special Topics in Literature	
ENGL 738	Asian American Studies	
ENGL 778	Race and Gender in Film and Popular Culture	
ENGL 797R	Special Studies in Literature (Race & Racial Theories)	

1. ENGL 512 or ENGL 513W may be substituted for one of the two required literature courses numbered 600 or above.
2. Other relevant courses may count with prior written approval of the student's advisor. The course used to fulfill this requirement may be double counted within the 'Two literature courses 600 or above' OR 'Additional ENGL Department course…' requirement area.
3. ENGL 401, ENGL 415, and ENGL 444 may not be used to fulfill this requirement.

Additional Information

English teaching majors should apply for the fifth-year teaching internship and master's degree program by fall or spring of the senior year (usually September 30 for the internship and November 1 or February 1 for the master's program). Students with a GPA of 3.2 or better can apply for the master's degree program in their junior year. If accepted early, the student can earn graduate credit for up to three undergraduate English or education courses.

Student Learning Outcomes

Program Learning Outcomes

Students will have the opportunity to compare philosophies of English teaching and learning, and to develop their own approaches to writing and literacy instruction in unit plans and lesson plans. In class, we will discuss theoretical and pedagogical ideas centered on student writing, engage in reading and writing exercises, produce and practice instructional activities and assessments, evaluate approaches to teaching writing, and review state-level standards and tests. Overall, the aim of the course is recognition of literacy skills (including reading, writing, listening, speaking, and viewing) and consideration of how they can be used for learning goals including comprehension, analysis, description, and evaluation.

Students will:

- Design activities, lessons, and units to meet established standards and objectives in writing and language use.
- Adapt materials for a variety of students' needs, including exceptional learners.
- Identify teaching resources among mentors, professional literature, conferences, organizations (e.g., National Council of Teachers of English [NCTE]), technology, and websites.
- Reflect and write on the theoretical bases for instructional decisions, evaluating professional literature and using appropriate academic conventions.
- Deliver engaging, on-point writing and language instruction appropriate to audience and content; practice a variety of presentation and discussion strategies.

Journalism and Media Studies Major (B.A.)

https://www.unh.edu/program/bachelor-arts/journalism-media-studies

Description

Journalism is a rapidly changing discipline that remains crucial in how we negotiate and engage with civic life. This program will provide students with the practical skills journalism demands as well as the theoretical and analytic training to navigate an evolving media landscape in thoughtful and ethical ways. The Journalism and Media Studies major offers a wide variety of courses, introducing students to interviewing, reporting, editing, narrative storytelling, and media production (the "how" of the craft of journalism) as well the rhetoric, evolution, and impact of the media and digital humanities (the "why" of journalism's mission and role in our culture). Together, these practical skills and theoretical perspectives will prepare students for an expansive range of professional opportunities including media writing, editing, and production, and private/public communication; and will help them learn to engage with a complex information environment in whatever field they pursue.

Student Learning Outcomes

Program Learning Outcomes

Strengthen Writing & Storytelling Skills

- Reporting, writing, editing, and storytelling skills necessary for a successful career in journalism and related professions.

Develop Strong Analytical Skills

- Media literacy skills required to navigate, and innovate in our evolving media ecosystem.

Understand Historical Context

- An ethically and historically grounded understanding of mass media systems, with special attention to the integrity of civil discourse in the context of disinformation, AI, and other emerging challenges.

English Minor

https://www.unh.edu/program/minor/english

Description

The English minor offers students the opportunity to develop critical thinking, writing and research skills that will enrich both their personal lives and their professional careers. Students draw upon courses in literature, creative writing, journalism and linguistics to craft their own course of study.

Students interested in minoring in English may contact Carla Cannizzaro, Senior Academic Advisor, Department of English, 230F Hamilton Smith Hall, (603) 862-1313 with any questions.

Requirements

Academic policies related to Minors.

The minor in English consists of completing five courses (20 credits) with a minimum grade of C- or better.

Code	Title	Credits
Required course		
ENGL 419	How to Read Anything	4
Electives [1]		16
Total Credits		**20**

[1] Elective courses: at least three courses at the 600 level or above.

ENGL 401 First-Year Writing, ENGL 415 and ENGL 444 cannot be applied toward the minor.

Writing Minor

https://www.unh.edu/program/minor/writing

Description

With employers stressing the importance of writing skills and the writing demands of all professions increasing, the writing minor is designed to serve students who want to demonstrate sustained work with writing. Students take a concentration of courses in creative writing or journalism, focusing on the creative and practical uses of writing. The completion of a writing minor will enhance the job prospects in fields where the demands for writing is higher than ever. The writing minor also serves students who want to use the imagination to develop stories, poems, essays and screenplays.

Students interested in minoring in English writing may contact Carla Cannizzaro, Senior Academic Advisor, Department of English, 230F Hamilton Smith Hall, (603) 862-1313 with any questions.

Requirements

Academic policies related to Minors.

- Students must complete at least five 4-credit courses (20 credits).
- ENGL 415s, "Literature and...," courses cannot be applied toward the English writing minor.
- The minimum acceptable grade for each course is C-.
- No more than two transfer courses can be applied toward the English writing minor.
- English literature and English teaching majors may declare a writing minor with the approval of their faculty advisor.
- A maximum of two English courses (8 credits) are allowed to double-count toward the literature or teaching major and writing minor.
- Other English Department majors are not eligible to declare a writing minor.

Code	Title	Credits

ENGL 791	English Grammar	
Total Credits		**20**

French (FREN)

Overview

French is a global language of culture, diplomacy, and intellectual exchange, spoken by more than 300 million people across five continents. As one of the official languages of major international organizations —including the United Nations, the European Union, the International

Olympic Committee, and the International Red Cross—French plays a central role in global governance and international relations. In an increasingly interconnected world, proficiency in French provides students with both cultural depth and practical advantages in fields such as business, law, public health, education, and the arts.

Study Abroad

The French major offers students the opportunity to earn UNH credit through approved study abroad programs in France and throughout the Francophone world. Students may choose from four or eight-week summer programs, semester-long study, or a full academic year at accredited universities in cities such as Paris, Lyon, Aix-en-Provence, Nice, Pau, Lille, Geneva, Brussels. Some programs don't require any knowledge of French and can be used to satisfy the language requirement. For more information, students should consult the French program coordinator or the advisors at the UNH Global Education Center. Financial aid applies to all approved programs, making international study accessible and enriching for French majors and minors.

Teaching Assistantship in France (TAPIF)

Each year the French government offers teaching assistantships in French elementary or secondary schools for graduating students who have studied French. The application process begins during the fall semester of the senior year. Consultation with the advisor is recommended.

- French Minor (p. 271)

Faculty

Languages, Literatures, and Cultures Department Faculty

French Major (B.A.)

https://www.unh.edu/program/bachelor-arts/french

Description

The undergraduate major in French offered by the Department of Languages, Literatures and Cultures is centered on the study of the French language and the literatures and cultures of France and the French-speaking world. Students who complete the requirements for the major can expect to become proficient in French at a level that would allow them to communicate with native speakers, to develop an in-depth critical appreciation of French and Francophone cultures and literatures, and to be culturally sensitive members of society.

The program offers courses devoted to authors, works, and literary and cultural movements that span ten centuries and four continents. The curriculum also includes interdisciplinary courses on relations between literature and other areas of study such as history, law, religion, politics and the arts. All courses are conducted in French, and majors are expected to write papers and examinations in that language.

French can be taken either as a primary major or as one of two majors, in consultation with the director of undergraduate studies. Appropriate majors to combine with French might include, but are not limited to, international affairs, political science, English, education, film and media studies, history, music, philosophy, theater studies, women's studies, business and communication.

The French major may interest students desiring a general humanistic education based on the language and literature of the French-speaking world; students planning to teach French at the elementary or secondary level; students who intend to pursue graduate work in preparation for teaching and research at the college level; and students preparing for careers in such areas as international law, business, journalism, international organizations, and public or government service, which require both training in a major foreign language and/or a general background in a humanistic discipline.

Requirements

Degree Requirements

Minimum Credit Requirement: 128 credits

Minimum Residency Requirement: 32 credits must be taken at UNH

Minimum GPA: 2.0 required for conferral*

Core Curriculum Required: Discovery & Writing Program Requirements

Foreign Language Requirement: Yes

All Major, Option and Elective Requirements as indicated.
**Major GPA requirements as indicated.*

Major Requirements

The required minimum overall GPA in major coursework is 2.0.

All students must complete at least 10 classes (40 credits). All coursework required for the French major must be completed with a grade of C or better. Specific course requirements are:

Code	Title	Credits
Language courses [1]		
Students entering major at a higher language level will replace the language courses with additional electives		
FREN 503	Intermediate French I	
FREN 504	Intermediate French II	
FREN 631	Advanced French: Reading and Writing	
FREN 632	Advanced French: Listening and Speaking	
Electives [2]		
Select a minimum of five courses from the following Culture, Linguistics, and Literature category		
FREN 525	A Road Trip Through France: Baguette, Brie, Bordeaux, and Beyond	
FREN 651	Love, War, and Power in French Literature	
FREN 595	French Practicum	
FREN 652	Greatest Hits of French	
FREN 676	Topics in Francophone Culture	
FREN 775	Les Mis and their World	
FREN 795	Special Studies in French Language and Literature	
LLC 540	Film History	
LLC 552	Comparative Literature: Masterpieces of World Literature II	
LLC 595	Language Practicum	
LLC 791	Methods of Foreign Language Teaching	
Capstone: [3]		
LLC 790	World Languages Capstone	
Study Abroad		

An approved foreign study experience in a French-speaking country is required, although an approved equivalent high-impact experience may be substituted for study abroad with a compelling justification

[1] While the major may start counting as early as the Intermediate I level (FREN 503), those who enter the major at a higher level (FREN 504, FREN 631, or FREN 632) will replace the courses they skip from the four in the intermediate and advanced language category with additional electives in the Culture, Linguistics, and Literature category.

[2] More electives required if fewer language credits were completed due to proficiency level and placement.
No limit on the number of classes in English allowed. Students taking no classes in the target language in a given semester will be strongly encouraged to enroll in one credit of conversation hour to maintain their language skills, and many of the courses taught in English will allow students the option to (or even require students to) do some work in the target language.

[3] Or approved equivalent 700-level course taken at UNH, approved study abroad equivalent, or approved high-impact experience (such as internship with a robust target language/culture component).

Transfer students must earn a minimum of 12 major credits at the Durham campus.

Candidates for a degree must satisfy all of the University Discovery Program requirements in addition to satisfying the requirements of each individual major program. Bachelor of arts candidates must also satisfy the foreign language proficiency requirement.

French majors may use two major-required courses to satisfy two Discovery category requirements.

Student Learning Outcomes

Program Learning Outcomes

Upon completion of the French Major, our students are expected to master:

- Communicative Proficiency: Students communicate in the target language, having mastered the four basic communicative skills at the advanced level according to the ACTFL Proficiency Guidelines. They are able to narrate and describe in past, present and future time, use a variety of communication strategies (such as circumlocution, paraphrasing), support their opinions and hypothesize. They can be understood without difficulty by a native interlocutor and carry conversations on a wide variety of topics. They are able to understand native speakers in a variety of situations (academic, everyday life, radio, television).
- Intercultural Competence: During and after their experiences abroad, students are led to reflect on cultural differences and develop cross-cultural competencies. They develop awareness of what it means to interact appropriately and effectively within diverse social and cultural contexts.

- Knowledge and Understanding: Students grasp complex or unfamiliar texts (literary, journalistic, etc.), have an awareness of the esthetic properties of language and literary style, and have developed tools to asses and analyze different linguistic registers. They are able to contextualize and have knowledge of a representative selection of figures, works, and tendencies in the literature and other cultural productions from the Francophone world.
- Critical Thinking: Students are able to critically analyze texts and other cultural artifacts from various areas of the Francophone world, are able to define a position about them, and to substantiate it using research. They are able to establish connections between different areas of knowledge, and are able to collaborate to answer questions and solve problems through task-based activities.

French Minor

https://www.unh.edu/program/minor/french

Description

The minor in French provides students with the components of a well-rounded education: a solid understanding of grammar and pronunciation, intercultural awareness, exposure to Francophone literatures and cultures, and a sufficient command of the language to enhance their chosen field of study, and countless career opportunities across the public, private and nonprofit sectors, including government, international development, journalism, law, communications and business.

Students in the French minor program at UNH are encouraged to complete some portion of their undergraduate studying abroad. Given the increasing globalization of our world, living abroad enhances cross-cultural awareness, competency, and adaptability. Students find that living and studying abroad expands their perspective, improves critical thinking, increases independence and better prepares them for a career in an increasingly global marketplace.

Requirements

Academic policies related to Minors.

The minor in French consists of completing five courses (20 credits).

Required Courses

Code	Title	Credits
Select 5 French courses numbered 503 and above		20
Total Credits		**20**

- No more than one course conducted in English (e.g., FREN 525 A Road Trip Through France: Baguette, Brie, Bordeaux, and Beyond) may be counted toward the minor.
- Students entering the minor at FREN 504 Intermediate French II or higher will be expected to complete FREN 651 Love, War, and Power in French Literature or FREN 652 Greatest Hits of French.

Geography (GEOG)

Geography, as the study of place, space and environment, addresses the "why of where" by uniting social and biophysical sciences, humanities and technology to examine the factors that make a place or environment unique. Connecting academic inquiry to real-world problem solving, our courses teach critical thinking skills that prepare students to transfer classroom and field experience into a wide range of careers. With interests ranging from globalization to climate change and sustainability, urbanization to community development at home and abroad, geography majors gain the knowledge, techniques and perspectives needed to meet current and future challenges.

Geography at UNH is an undergraduate-focused department offering both major and minor degree programs. With small class sizes, personalized advising by department faculty, and opportunities for independent study, our students receive a high degree of individual attention. UNH geography graduates are prepared to enter a variety of careers or professional and graduate degree programs.

Geography Department Faculty

Environmental Justice (Minor)

https://www.unh.edu/program/minor/environmental-justice

Description

The Environmental Justice Minor brings an interdisciplinary and geographic perspective to understanding linkages across social justice and environmental issues. The program is designed to attract students who desire the conceptual rigor of liberal arts coursework in social theory as well as marketable skills. Students will graduate with strengths bridging diverse fields of knowledge and synthesizing these into robust analyses to inform decision making. They will be well-positioned to support New Hampshire and our region into the future as our social and environmental policy challenges continue to evolve over time.

Requirements

Academic policies related to Minors.

- The Environmental Justice minor consists of 20 credits with a C- or better and a 2.0 grade-point average in courses that the minor department approves.
- A minimum of 8 credits of coursework toward the minor must be at the 600 or 700 levels.
- A minimum of 8 credits toward the minor must be coursework under the GEOG subject prefix.
- Students may count GEOG 795 Special Project for up to 4 credits in the Integrated Environmental Justice core category with permission from the Geography Department. This will require the thesis or project to focus on a topic that substantively advances the student's understanding of environmental justice issues through a deeply integrated social and environmental perspective.

- Up to three courses counted toward UNH Discovery category requirements can "double count" toward the minor.
- Up to two courses can be “cross-counted” toward both the Environmental Justic minor and another minor or major.

Total Credits		**20**

1 Alternate courses on racial justice by Geography Department approval.

2 Alternate biological science, physical science, or engineering courses above the 400 level by Geography Department approval.
Students completing a major or minor in the following departments can substitute a relevant course at the 500 level or above: Natural Resources and the Environment, Molecular, Cellular, and Biomedical Sciences, Agriculture, Nutrition and Food Systems, Chemical Engineering and Bioengineering, Civil and Environmental Engineering, Earth Sciences, Biological Sciences

3 Alternate GIS courses by Geography Department approval.

Student Learning Outcomes

Program Learning Outcomes

Integration across disciplines

- Students will integrate social science, spatial, and biophysical perspectives across Geography and other disciplines to understand social justice implications of environmental decisions.

Spatial Analysis

- Students will analyze the spatial relationship between social justice and environment using Geographic Information System (GIS) tools.

Geography (Minor)

https://www.unh.edu/program/minor/geography

Description

The geography minor allows undergraduates to explore one or more of the three main areas of geography — human geography, environmental geography and geotechniques. Studying geography prepares students to pursue a wide variety of careers or enter graduate school.

Requirements

Academic policies related to Minors.

- Students must complete five geography (GEOG) courses (20 credits) for the minor with a minimum grade of C- or better.

Required Courses

Code	Title	Credits
Select five geography courses		20
Total Credits		**20**

Geography Major (B.A.)

https://www.unh.edu/program/bachelor-arts/geography

Description

The geography major provides undergraduates with a solid foundation in geography by uniting social and biophysical sciences, humanities and technology to examine the factors that make a place or environment unique. Connecting academic inquiry to real-world problem solving, you will develop critical thinking skills and be prepared to transfer classroom and field experience into a wide range of careers.

With interests ranging from globalization to climate change and sustainability, urbanization to community development at home and abroad, UNH geography graduates have gone on to careers in urban, regional and transportation planning, community development, environmental conservation and natural resources management, sustainability science, geographic information science, market research, locational analysis, population studies, foreign aid, international diplomacy and education.

Students intending to major in geography should consult with the department chairperson.

Requirements

Degree Requirements

Minimum Credit Requirement: 128 credits

Minimum Residency Requirement: 32 credits must be taken at UNH

Minimum GPA: 2.0 required for conferral*

Core Curriculum Required: Discovery & Writing Program Requirements

Foreign Language Requirement: Yes

All Major, Option and Elective Requirements as indicated.
**Major GPA requirements as indicated.*

Major Requirements

Students must complete 10 Geography courses (40 credits) with a minimum grade of C-minus.

Students complete foundation courses intended to provide a basic understanding of human, physical, and world regional geography. It is recommended the courses be taken as early as possible in a student's program. Students also complete required skills courses, which provide the basic analytical and technical skills used in geography, electives, and a capstone course.

Code	Title	Credits
Foundation Courses		
GEOG 401	World Regions: Europe and the Americas	4
or GEOG 402	World Regions: Asia and Africa	
GEOG 572	Geography of the Natural Environment	4
GEOG 580	Human Geography: People and Places	4

Student Learning Outcomes

Program Learning Outcomes

- Integrate biophysical and socio-cultural disciplinary traditions to explain the complex interrelationships between and among human-natural systems spanning local to global scales.
- Communicate geographic concepts, research, and methods of analysis professionally and effectively through written products, oral presentations, and visualizations appropriate for the intended audience.

German (GERM)

German is the most widely spoken language in Europe, and Germany plays a leading role in a number of areas: EU and global trade and policy, fine arts, alternative energy and sustainability, engineering, philosophy. With their rich cultural and intellectual history, as well as one of the world's primary export-driven economies, the German-speaking countries offer unique career opportunities for globally minded students and citizens.

The University allows students to attend approved study abroad programs for UNH credit at schools in Germany and Austria. Students may attend accredited semester or summer programs at universities in cities like Munich, Vienna, Berlin, Heidelberg, Freiburg or Salzburg. Most study abroad programs require a minimum of two years of college German. For details, see the coordinator of German or the UNH Global Education Center. Internships with a German firm or organization may also be taken for credit (see GERM 595 Internship (p.)). Internships must be approved ahead of time in collaboration with an advisor in the German program. Financial aid applies to all approved programs.

- German Minor (p. 276)

Faculty

Languages, Literatures and Cultures Department Faculty

German Major (B.A.)

https://www.unh.edu/program/bachelor-arts/german

Description

The German major is offered by the Department of Languages, Literatures and Cultures. This program is of interest to the following groups of students:

- Those who have a special interest in the German language, literature and culture.
- Those who intend to enter fields in which a background in foreign languages and cultures is desirable, such as business, engineering, the sciences, law, international affairs, government service and international service.
- Those who plan to teach German in secondary schools. Since most secondary schools require their teachers to teach more than one subject, students planning to enter teaching at this level should plan their programs carefully. They should combine a major in one culture and language with a minor or at least a meaningful sequence of courses in another subject. Dual majors also are possible. For certification requirements, see the section coordinator.

All German majors are strongly encouraged to double major or include a relevant minor in their studies.

Requirements

Degree Requirements

Minimum Credit Requirement: 128 credits

Minimum Residency Requirement: 32 credits must be taken at UNH

Minimum GPA: 2.0 required for conferral*

Core Curriculum Required: Discovery & Writing Program Requirements

Foreign Language Requirement: Yes

All Major, Option and Elective Requirements as indicated.
**Major GPA requirements as indicated.*

Major Requirements

The required minimum overall GPA in major coursework is 2.0.

All students must complete at least 10 classes (40 credits). All coursework required for German major must be completed with a grade C- or better. Specific course requirements are:

Code	Title	Credits
Language Courses [1]		
Students entering major at a higher language level will replace the language courses with additional electives.		
GERM 401	Elementary German I	
GERM 402	Elementary German II	
GERM 503	Intermediate German I	
GERM 504	Intermediate German II	

GERM 631W	Advanced Communications Skills I	
GERM 632	Advanced Communications Skills II	
Electives [2]		
Select a minimum of three courses from the following Culture, Linguistics, and Literature category		
GERM 525	Introduction to German Culture and Civilization	4
GERM 586	Study in Berlin	
GERM 728	Modern German Literature	
GERM 732	Public Discourse and Current Affairs	
GERM 797	Special Studies in German Language and Literature	
GERM 798	Special Studies in German Language and Literature	
LLC 535A	Professional Culture in Europe	
LLC 540	Film History	
LLC 552	Comparative Literature: Masterpieces of World Literature II	
LLC 560	Divine Madness and Dangerous Minds! - Mental Health in Literature and Art	
LLC 791	Methods of Foreign Language Teaching	
Capstone: [3]		
LLC 790	World Languages Capstone	
Study Abroad		

Study abroad is a requirement for the German major, although an approved equivalent high-impact experience may be substituted for study abroad with a compelling justification.

1 While the major may start counting as early as the Elementary I level (GERM 401), those who enter the major at a higher level (GERM 503, GERM 504, GERM 631W or GERM 632) will replace the courses they skip from the elementary, intermediate and advanced language category with additional courses from the electives category.

2 More electives required if fewer language credits were completed due to proficiency level and placement.

Students are encouraged to take as many of the culture, linguistics, and literature elective in the German language as possible, but there is no limit on the number of classes conducted in English from electives category. Students taking no classes in the target language in a given semester will be strongly encouraged to enroll in one credit of conversation hour to maintain their language skills, and many of the courses taught in English will allow students the option to (or even require students to) do some work in the target language.

3 Or approved equivalent 700-level course taken at UNH, approved study abroad equivalent, or approved high-impact experience (such as internship with a robust target language/culture component).

Candidates for a degree must satisfy all of the University Discovery Program requirements in addition to satisfying the requirements of each individual major program. Bachelor of arts candidates must also satisfy the foreign language proficiency requirement.

German majors may use two major-required courses to satisfy two Discovery category requirements.

Student Learning Outcomes

Program Learning Outcomes

Specific outcomes for Linguistic Competency: The German Program applies the ACTFL Proficiency Guidelines to evaluate the linguistic competency of its graduates.

Specific outcomes for Integrative Knowledge: Accompanying the acquisition of German language skills is the study of cultural phenomena, which provides German majors with a breadth of knowledge as found in a traditional liberal arts program. The acquired knowledge helps students engage with various additional fields of study across the UNH campus. Through transferable practice in abstract reasoning, critical examination, and constructive articulation, students extend their intellectual curiosity and learn to aspire to life-long learning.

Linguistic Competency

- Speaking Proficiency: Graduates of the program achieve a speaking proficiency of Intermediate High to Advanced Mid, with the majority of students achieving the level of Advanced Low. Students demonstrate an ability to speak clearly and with precision about personal, professional, and academic topics.
- Writing Proficiency: Graduates of the program achieve a written proficiency of Intermediate High to Advanced Mid, with the majority of students achieving the level of Advanced Low. Students demonstrate an ability to write clearly about professional or academic topics, including introductory research in the area of literature and culture studies.
- Listening Proficiency: Graduates of the program achieve a listening proficiency of Advanced Low to Advanced High, with the majority of students achieving the level of Advanced Mid. Students demonstrate an ability to understand conventional as well as complex narratives that may use uncommon vocabulary or address difficult topics, such as theater plays in the target language.
- Reading Proficiency: Graduates of the program achieve a reading proficiency of Advanced Low to Advanced Mid. Students demonstrate an ability to read and interpret conventional quotidian texts as well as complicated narratives from the 18th-21st centuries, addressing a wide range of topics and genres, including literary, scientific, and cultural theory.

Integrative Knowledge

- Interpretive Reasoning: Particularly in the advanced courses that analyze art in its various forms – literature, film, painting, performance art, et. al. -, we (students and faculty alike) wrestle with interpretation and contextualization. In these courses, we are invested in humanistic inquiry and address tough questions – those concerning value and meaning, realms of knowledge ungraspable by natural science alone. Patterns of narrative, traditions of rhetoric, and history all inform the analyses of the cultural artifacts under study. By fostering the skills of close reading and listening, German majors become more articulate (both in German and their native language) and more proficient in analyzing and synthesizing the various types of knowledge.
- Critical-Constructive Thinking: In the analysis of cultural artifacts, students learn to consider a multitude of perspectives. In addition to critical thinking skills, German majors become better versed at the constructive synthesis. Term papers and presentations in the target language are the culmination of linguistic comprehension and production as well as of interpretation and critique. In assembling such larger projects, German majors learn to construct well-informed arguments that are based on interpretation and scholarly critique.
- Interdisciplinarity: Language study entails a wide range of applications, both personal and professional. It opens up possibilities for travel, genuine encounter, and the fostering of diplomatic and business relationships. German is of particular interest for political, economic, historical, and cultural reasons. With strengths in engineering and heavy manufacturing, Germany is of vital political-economic importance. Our students are encouraged to explore the connections in various scientific fields, the business world, and the humanities at large.
- Transformative Education: Close mentoring of our German majors leads to relevant study-abroad opportunities in which our students make tangible use of their intellectual skillsets in the target culture. Of equal importance, however, is the notion that the actual application of the skillsets during the study abroad experience (but also in our classrooms) offers an opportunity for students to achieve meaningful personal growth by realizing their own cultural underpinnings. As a result of their study of German, some students choose to go to or to return to Germany for work or travel. Thus, the study of German can result in transformative moments in the lives of our students.

German Minor

https://www.unh.edu/program/minor/german

Description

The German minor is offered by the Department of Languages, Literatures and Cultures. This program is of interest to the following groups of students:

- Those who have a special interest in the German language, literature and culture.
- Those who intend to enter fields in which a background in foreign languages and cultures is desirable, such as business, engineering, the sciences, law, international affairs, government service and international service.

Requirements

Academic policies related to Minors.

A minor in German consists of completing five courses (20 credits).

Required Courses

Code	Title	Credits
Five electives selected from GERM 503 or above		20
Total Credits		**20**

The minor may include one course taught in English but not LLC 791 Methods of Foreign Language Teaching.

Students interested in the minor should contact a faculty member from the German program to discuss their course of study.

History (HIST)

The Department of History is one of the top history departments in the country, with an internationally recognized faculty in American, European, and World and Ancient history. History professors have won some of the most important prizes in the profession, and they often appear on television and other media outlets. But what really distinguishes the department's faculty is that we love to teach. Our courses cover a wide

range of times, places and subjects, from ancient history to the history of the modern world.

History is a flexible major, which makes it a good choice for students who want to complete a double major in another discipline. Popular double majors include communication, justice studies, economics and international affairs.

The Education Department's 4+1 graduate program is also available to history majors. Students who complete that program receive their social studies teacher certification in five years and graduate with a B.A. and M.Ed. or M.A.T.

The Department offers a major and minor in history. We also administer an interdisciplinary minor, the social studies of science and technology.

The History Department at UNH has approximately 200 undergraduate majors; about 50 students graduate with a history major every year.

Five-Year BA/MA Program

The History Department offers our majors an opportunity to complete an accelerated Master's Degree in history in as little as one additional year of study. Eligible seniors and juniors are able to take up to 12 credits in graduate history courses, which will count both toward the completion of the history B.A. requirements, and the history M.A. requirements. This accelerated option is available for both the standard track M.A. and the museum studies track.

To be eligible for the program students must have a GPA of 3.2 or higher. Students also must have completed 96 credits by the time they enter the accelerated M.A. program.

Students should apply before April 10th of their junior year. Students interested in applying must complete the UNH graduate studies application. Applications will include two letters of recommendation, a cover letter, a writing sample and a UNH transcript. GRE scores are NOT required. Students should also submit a cover letter and an endorsement from a member of the History Department directly to the graduate director, Professor J (david.bachrach@unh.edu)ason Sokol (jason.sokol@unh.edu).

If you are interested in applying for the accelerated M.A. program, or would like additional information about the program, please contact Professor Jason Sokol.

History Major (B.A.)

https://www.unh.edu/program/bachelor-arts/history

Description

The study of history gives students the analytical and communication skills necessary to succeed in today's workplace. It is also essential for being an informed citizen. The history major covers an array of subjects: the Roman Empire, modern U.S. foreign policy, China's Cultural Revolution, medieval Islam, the American Revolution and many, many others. Every major takes an introductory seminar on historical writing and analysis, and the major concludes with a senior colloquium that allows students to conduct in-depth research on a topic of their choosing. History is a flexible major. That makes history an excellent choice for students who plan to study abroad or who want to complete a double major in another discipline.

Students sometimes ask, "what can you do with a history major?" The answer is practically anything you want. History majors have attended some of the top graduate programs in the country. Many become teachers, but history majors also go into law, medicine and business, as well as careers in technology, international relations, politics and the media. Majoring in history prepares students well for the intellectual flexibility and ability to think outside the box that today's job market demands.

Undergraduate Awards for Majors

The Philip M. Marston Scholarship, an award of $500, is available to students who are interested in colonial or New England history and have demonstrated financial need. There are course requirements for this scholarship. More details are available from the history office.

Each spring, the members of the departmental undergraduate committee choose history majors to receive the following prizes in history:

- The William Greenleaf Prize is given for the best senior colloquium paper. Award candidates must have a minimum grade-point average of 3.2 in history courses. Individuals may nominate themselves or may be nominated by faculty members.
- The Allen Linden Prize for the best senior history thesis is funded by the Signal Fund.
- The Charles Clark Prize is for the best essay or research paper submitted by a history major and is funded by the Signal Fund.

Phi Alpha Theta, the history honor society, is an international scholastic organization dedicated to promoting historical study on the undergraduate and graduate levels. Admission to the UNH Psi Pi chapter is open to undergraduates with an overall grade-point average of 3.0, a grade-point average of 3.4 or better in history courses, and completion of HIST 500 Introduction to Historical Thinking.

Five-Year BA/MA Program

The History Department offers our majors an opportunity to complete an accelerated Master's Degree in history in as little as one additional year of study. Eligible seniors and juniors are able to take up to 12 credits in graduate history courses, which will count both toward the completion of the history B.A. requirements, and the history M.A. requirements. This accelerated option is available for both the standard track M.A. and the museum studies track.

To be eligible for the program students must have a GPA of 3.2 or higher. Students also must have completed 96 credits by the time they enter the accelerated M.A. program.

Students should apply before April 10th of their junior year. Students interested in applying must complete the UNH graduate studies application. Applications will include two letters of recommendation, a cover letter, a writing sample and a UNH transcript. GRE scores are NOT required. Students should also submit a cover letter and an endorsement from a member of the History Department directly to the graduate director, Professor Jason Sokol (jason.sokol@unh.edu).

If you are interested in applying for the accelerated M.A. program, or would like additional information about the program, please contact Professor Jason Sokol.

Requirements

Degree Requirements

Minimum Credit Requirement: 128 credits

Minimum Residency Requirement: 32 credits must be taken at UNH

Minimum GPA: 2.0 required for conferral*

Core Curriculum Required: Discovery & Writing Program Requirements

Foreign Language Requirement: Yes

All Major, Option and Elective Requirements as indicated.
**Major GPA requirements as indicated.*

Major Requirements

To complete a major in history, students must take ten (10) 4-credit history courses or their equivalent. Students who enter the University as history majors, or who declare a major in history, should take the first required course, HIST 500, as soon as possible. To declare a major in history, students must have completed or be enrolled in two history courses. HIST 500 is a prerequisite for the second required course, HIST 797, which fulfills the Discovery Program capstone requirement for history majors and is taken during the senior year. Students should consult the list of topics for HIST 797 advertised each semester.

Code	Title	Credits
HIST 500	Introduction to Historical Thinking	4
HIST 797	Colloquium	4
At least eight (8) additional courses, following the guidelines below. No more than two (2) may be at the 400-level and a minimum of three (3) must be at the 600-level or above.		32
Total Credits		**40**

A student's program of study must include two parts:

1. An area of specialization. A student must select at least four courses to serve as an area of specialization within the major. Up to two courses (each four credits or their equivalent) in the area of specialization may be taken in other departments; such courses must be 500-level or above and have the approval of the student's advisor. The area of specialization may be in a nation, region, a time period, global history, or one of the following:
   * ancient and pre-modern worlds
   * cultural and intellectual history
   * empires and colonialism
   * international and diplomatic history
   * politics, law, and government
   * race, gender, and sexuality
   * religion
   * revolution and social change
   * science, technology, medicine, and the environment
   * war and society
   * world economy
   * design your own (with advisor's permission)
2. Complementary courses. A student must select, in consultation with his or her advisor, at least three history courses in fields outside the area of specialization, chosen to broaden his or her understanding of the range of history. Each major should take at least one course from each of Groups I, II, and III. Group I contains all American history courses, Group II contains all European history courses, and Group III contains all other history courses.

The program must be planned in consultation with an advisor. A copy of the program, signed by the advisor, must be placed in a student's file no later than the second semester of the student's junior year. Courses at the 700-level will be judged by the advisor as to their applicability for area of specialization. The program may be modified with the advisor's approval.

Only one HIST 695 Independent Study may be used to fulfill the 600-level requirement, and no more than two Independent Study courses may count toward the ten-course requirement. No more than two 400-level courses may be counted toward the major requirements. Students must receive at least a C in HIST 500 Introduction to Historical Thinking and at least a C- in the other nine courses. Majors must maintain a 2.0 or better in all history courses.

Candidates for a degree must satisfy all of the University Discovery Program requirements in addition to satisfying the requirements of each individual major program. Bachelor of Arts (B.A.) candidates must also satisfy the foreign language proficiency requirement.

History majors may use history courses to fulfill Discovery category requirements but may not double-count history courses for major and Discovery category requirements.

History majors must satisfy the language requirement for the B.A. degree in an international language that they could use for historical research. That list includes Arabic, Chinese, French, German, Greek, Italian, Latin, Russian, and Spanish. Students may petition the department curriculum committee for exceptions.

For transfer students, a minimum of five (5) of the semester courses used to fulfill the major requirements must be taken at the University. One upper-level course may be transferred to satisfy the requirement that a major must take at least three courses numbered 600 or above. Transfer students must complete both HIST 500 Introduction to Historical Thinking (or its equivalent) and HIST 797 Colloquium.

Students intending to major in history should consult with the department administrative assistant. Suggested programs for students with special interests or professional plans are available in the department office.

Student Learning Outcomes

Program Learning Outcomes

Build historical knowledge.

- Gather and contextualize information in order to convey both the particularity of past lives and the scale of human experience.
- Recognize how humans in the past shaped their own unique historical moments and were shaped by those moments.
- Develop a body of historical knowledge with breadth of time and place—as well as depth of detail—in order to discern context.
- Distinguish the past from our very different present.

Develop historical methods.

- Recognize history as an interpretive account of the human past—one that historians create in the present from surviving evidence.
- Collect, sift, organize, question, synthesize, and interpret complex material.
- Practice ethical historical inquiry that makes use of and acknowledges sources from the past as well as the scholars who have interpreted that past.
- Develop empathy toward people in the context of their distinctive historical moments.

Recognize the provisional nature of knowledge, the disciplinary preference for complexity, and the comfort with ambiguity that history requires.

- Welcome contradictory perspectives and data, which enable us to provide more accurate accounts and construct stronger arguments.
- Describe past events from multiple perspectives.
- Explain and justify multiple causes of complex events and phenomena using conflicting sources.
- Identify, summarize, appraise, and synthesize other scholars' historical arguments.

Apply the range of skills it takes to decode the historical record because of its incomplete, complex, and contradictory nature.

- Consider a variety of historical sources for credibility, position, perspective, and relevance.
- Evaluate historical arguments, explaining how they were constructed and might be improved.
- Revise analyses and narratives when new evidence requires it.

Create historical arguments and narratives.

- Generate substantive, open-ended questions about the past and develop research strategies to answer them.
- Craft well-supported historical narratives, arguments, and reports of research findings in a variety of media for a variety of audiences.

Use historical perspective as central to active citizenship.

- Apply historical knowledge and historical thinking to contemporary issues.

- Develop positions that reflect deliberation, cooperation, and diverse perspectives.

History Major: Law 3+3 Option (B.A.)

https://www.unh.edu/program/bachelor-arts/history-law-33

Description

The Law 3+3 option offers highly motivated UNH undergraduates the opportunity to complete their bachelor's degree (B.A.) with a history major and their law degree (J.D.) at UNH in six years, rather than the usual seven years. It promises significant savings in both time and money. Students apply to the UNH Law School in their junior year (by Jan. 1), following the approved process below, and after taking the LSAT exam. If admitted, undergraduates begin their first year of law school in their senior year. The credits earned upon successful completion of the law school courses will be applied to both the J.D. degree and as elective courses for the B.A. degree. After four years, students receive a B.A. with a history major. After six years, students, having completed all law school requirements successfully, will receive their J.D.

Eligibility and Admission Process

1) **Phase I: applying to the Law 3+3 option.** Students apply to the program either when they submit their applications to UNH by selecting the History/J.D. option on the online application, or after they are admitted, applying directly to the History Department's History/Law 3+3 Committee. In both cases, undergraduate applicants must fulfill the general requirements for admission to the History major.

a. Students applying at time of admission to UNH will typically present the following high school (HS) credentials:

- a 3.5 GPA in HS
- a rigorous HS curriculum defined as the following:
  - 4 years of college prep (CP) or higher English
  - 4 years of CP or higher mathematics
  - 4 years of CP or higher social studies/history
  - Completed at least level 3 of a foreign language
  - 3 or more years of CP or higher laboratory sciences
- a score of 1200 or better (combined Math and Verbal) on the SAT or a 29 on the ACT)

b. Currently enrolled UNH students applying to the program must:

- have a 3.5 GPA in college courses at time of application.
- The History/Law 3+3 Committee governing admission to the program will also consider past SAT scores, maturity, and ability to complete a highly demanding program of study based on performance thus far.

For both groups, it is important to note that satisfying these requirements does not guarantee admission to this program. The review process is holistic (meaning all parts of the application carry weight and influence the final decision) and other components of the application will influence any admission decisions. Available space will also influence who is admitted to the program and how many students can be accepted.

2) **Phase 2: applying to UNH Law School**. To be eligible, students must:

- Complete all Discovery and major requirements, and accrue at least 98 credits before beginning law school in their senior year
- Maintain at least a 3.5 grade point average (including transfer credits) at time of application to law school, and at end of junior year
- Take the LSAT no later than December of the final undergraduate year (i.e. the junior year) and have a **score of 155 or above**
- Submit the law school application through the Law School Admissions Council by March 15 of the calendar year in which the student wishes to enroll in law school
- If, for some reason, students are not admitted to UNH Law, they will complete their final, fourth year at UNH, following the typical undergraduate program.

Requirements

Degree Requirements

Minimum Credit Requirement: 128 credits

Minimum Residency Requirement: 32 credits must be taken at UNH

Minimum GPA: 2.0 required for conferral*

Core Curriculum Required: Discovery & Writing Program Requirements

Foreign Language Requirement: Yes

All Major, Option and Elective Requirements as indicated.
**Major GPA requirements as indicated.*

Major Requirements

Students in the History/Law 3+3 option complete the requirements of the history major. See the Degree Plan for the recommended path through the major.

To complete a major in history, students must take ten (10) 4-credit history courses or their equivalent. Students who enter the University as history majors, or who declare a major in history, should take the first required course, HIST 500, as soon as possible. To declare a major in history, students must have completed or be enrolled in two history courses. HIST 500 is a prerequisite for the second required course, HIST 797, which fulfills the Discovery Program capstone requirement for history majors and is taken during the senior year. Students should consult the list of topics for HIST 797 advertised each semester.

Code	Title	Credits
HIST 500	Introduction to Historical Thinking	4
HIST 797	Colloquium	4
At least eight (8) additional courses, following the guidelines below. No more than two (2) may be at the 400-level and a minimum of three (3) must be at the 600-level or above.		32
Total Credits		**40**

A student's program of study must include two parts:

1. An area of specialization. A student must select at least four courses to serve as an area of specialization within the major. Up to two courses (each four credits or their equivalent) in the area of specialization may be taken in other departments; such courses must be 500-level or above and have the approval of the student's advisor. The area of specialization may be in a nation, region, a time period, global history, or one of the following:
   * ancient and pre-modern worlds
   * cultural and intellectual history
   * empires and colonialism
   * international and diplomatic history

* politics, law, and government
* race, gender, and sexuality
* religion
* revolution and social change
* science, technology, medicine, and the environment
* war and society
* world economy
* design your own (with advisor's permission)

2. Complementary courses. A student must select, in consultation with his or her advisor, at least three history courses in fields outside the area of specialization, chosen to broaden his or her understanding of the range of history. Each major should take at least one course from each of Groups I, II, and III. Group I contains all American history courses, Group II contains all European history courses, and Group III contains all other history courses.

The program must be planned in consultation with an advisor. A copy of the program, signed by the advisor, must be placed in a student's file no later than the second semester of the student's junior year. Courses at the 700-level will be judged by the advisor as to their applicability for area of specialization. The program may be modified with the advisor's approval.

Only one HIST 695 Independent Study may be used to fulfill the 600-level requirement, and no more than two Independent Study courses may count toward the ten-course requirement. No more than two 400-level courses may be counted toward the major requirements. Students must receive at least a C in HIST 500 Introduction to Historical Thinking and at least a C- in the other nine courses. Majors must maintain a 2.0 or better in all history courses.

Candidates for a degree must satisfy all of the University Discovery Program requirements in addition to satisfying the requirements of each individual major program. Bachelor of Arts (B.A.) candidates must also satisfy the foreign language proficiency requirement.

History majors may use history courses to fulfill Discovery category requirements but may not double-count history courses for major and Discovery category requirements.

History majors must satisfy the language requirement for the B.A. degree in an international language that they could use for historical research. That list includes Arabic, Chinese, French, German, Greek, Italian, Japanese, Latin, Portuguese, Russian, and Spanish. Students may petition the department curriculum committee for exceptions.

For transfer students, a minimum of five (5) of the semester courses used to fulfill the major requirements must be taken at the University. One upper-level course may be transferred to satisfy the requirement that a major must take at least three courses numbered 600 or above. Transfer students must complete both HIST 500 Introduction to Historical Thinking (or its equivalent) and HIST 797 Colloquium.

Degree Plan

Sample Degree Plan

This sample degree plan serves as a general guide; students collaborate with their academic advisor to develop a personalized degree plan to meet their academic goals and program requirements.

NOTE: Students should **plan early and work closely with their advisors** if they want to pursue the fast track program. It may be possible to include study abroad and other programs, if desired, but only with careful planning. They are also strongly encouraged to consult with the pre-law advisor on campus (Paula DiNardo, paula.dinardo@unh.edu, 603-862-2064.)

History Elective Course any level (no more than two 400-level courses may be counted towards major)		4
Elective Course		4

Elective Course	4
Credits	**16**
Total Credits	**98**

TOTAL UNDERGRADUATE CREDITS REQUIRED - 98 cr.
40 total Discovery Program credits; 40 history credits; 4-8 foreign language credits; 8-12 elective credits; and two 1-credit courses OR one 2-credit course[1]. In addition to fulfilling the Discovery Program and history major requirements, students need to fulfill the Bachelor of Arts foreign language requirement and take four (4) writing intensive courses. HIST 500 Introduction to Historical Thinking and HIST 797 Colloquium fulfill two (2) WI courses.

[1] **Clarification**: to earn 98 credits in 3 years, **students will need to take one (1) 2-credit course or two (2) 1-credit courses**. The 2-credit course, LAW 475 Getting Ready to Succeed in Law School, is recommended and is best taken in the spring semester of sophomore year or the fall semester of the junior year as it will include LSAT prep. Other 2-credit options include JUST 550 Mock Trial and JUST 551 Mock Trial. For other possible 1-2 credit courses, see the Time & Room Schedule. The 1-2 credit courses can be completed at any point in your first 3 years at UNH-Durham. You can also complete them during the January term [see, e.g., THDA 531 The London Experience: Discovery, a 2-credit study abroad program] or in the summer.

Law School Degree Plan

Fourth Year/First Year Law school

Juris Doctor Sample Degree Plan

The schedule and track of the second and third years of law school are directed by each student with careful advising from the law school faculty.

Student Learning Outcomes

Program Learning Outcomes

Build historical knowledge.
- Gather and contextualize information in order to convey both the particularity of past lives and the scale of human experience.
- Recognize how humans in the past shaped their own unique historical moments and were shaped by those moments.
- Develop a body of historical knowledge with breadth of time and place—as well as depth of detail—in order to discern context.
- Distinguish the past from our very different present.

Develop historical methods.
- Recognize history as an interpretive account of the human past—one that historians create in the present from surviving evidence.
- Collect, sift, organize, question, synthesize, and interpret complex material.
- Practice ethical historical inquiry that makes use of and acknowledges sources from the past as well as the scholars who have interpreted that past.
- Develop empathy toward people in the context of their distinctive historical moments.

Recognize the provisional nature of knowledge, the disciplinary preference for complexity, and the comfort with ambiguity that history requires.
- Welcome contradictory perspectives and data, which enable us to provide more accurate accounts and construct stronger arguments.
- Describe past events from multiple perspectives.
- Explain and justify multiple causes of complex events and phenomena using conflicting sources.
- Identify, summarize, appraise, and synthesize other scholars' historical arguments.

Apply the range of skills it takes to decode the historical record because of its incomplete, complex, and contradictory nature.
- Consider a variety of historical sources for credibility, position, perspective, and relevance.
- Evaluate historical arguments, explaining how they were constructed and might be improved.
- Revise analyses and narratives when new evidence requires it.

Create historical arguments and narratives.
- Generate substantive, open-ended questions about the past and develop research strategies to answer them.
- Craft well-supported historical narratives, arguments, and reports of research findings in a variety of media for a variety of audiences.

Use historical perspective as central to active citizenship.
- Apply historical knowledge and historical thinking to contemporary issues.
- Develop positions that reflect deliberation, cooperation, and diverse perspectives.

History Minor

https://www.unh.edu/program/minor/history

Description

The study of history is an essential element of the liberal education. Studying history provides both an awareness of the past and the tools to evaluate and express one's knowledge.

Requirements

Academic policies related to Minors.

A minor in history consists of five courses (20 credits).

- A minimum grade of C- or better and 2.0 grade-point average is required in courses that the Department of History approves for the minor.
- No more than 12 credits in 400-level courses may be used for this minor.

Required Courses

Code	Title	Credits
Five elective HIST courses		20
Total Credits		**20**

Social Studies of Science and Technology Minor

https://www.unh.edu/program/minor/social-studies-science-technology

Description

How are our lives being changed by technology? Why is science so influential in our society? Is modern science superior to traditional ways of knowing nature? Are science and technology doing more harm than good? The minor in social studies of science and technology enables students to seek answers to such questions through the perspectives of the humanities and social sciences. In this minor, students select courses from a range of disciplines, including anthropology, history, communication, sociology and philosophy, all of which shed light on the role of science and technology in modern society.

The minor presupposes no specialized scientific background and may be combined with any undergraduate major.

Students interested in taking the minor should contact the coordinator, Joshua Lauer, Department of Communication, Horton Social Science Center.

Requirements

Academic policies related to Minors.

To complete a minor in social studies of science and technology, students must complete five courses (20 credits) with a grade of C- or better, choosing no more than three courses from a single department.

Code	Title	Credits
Required Courses		
Select five courses from the following:		20
CEE 520	Environmental Pollution and Protection: A Global Context	
CHBE 410	Energy and Environment	
CMN 696W	Seminar in Media Studies [1]	
CMN 772	Seminar in Media Theory (topic: Critical Approaches to New Media)

Homeland Security (HLS)

Homeland Security Major (B.S.)

Humanities (HUMA)

The humanities program examines the fundamental questions and issues of human civilization. Through studying diverse texts in the arts, music, literature, history, philosophy and science, students seek answers to questions that thoughtful human beings must address in the course of their lives. Whether these questions come from Socrates (What is justice?), from Sir Thomas More (What is obligation to God?), from Raphael (What is beauty?), from Newton (What are the laws of nature?) or from Martin Luther King, Jr. (What is freedom?), they direct our attention to enduring human concerns and to texts that have suggested or illustrated the most profound and powerful answers. The humanities program is housed in the Department of Classics, Humanities and Italian Studies.

Humanities Dual Major

https://www.unh.edu/program/dual-major/humanities

Description

The dual major in humanities is structured in such a way that students can focus on a chosen primary major while taking advantage of the humanities program curriculum and its emphasis on analytical writing, critical thinking and well-rounded interdisciplinary cultural knowledge. Students combine our curriculum with another, disciplinary major that allows them to pursue a narrower field of study in some depth. The dual major in humanities offers students a set of tools and skills so they can understand and forge our 21st century world. Its curriculum provides structure, progression, and rigor. Citizens of the 21st century need to know how to analyze texts and navigate cultures. That is why the humanities are essential to the lives of educated people.

Requirements

Degree Requirements

Minimum Credit Requirement: 128 credits

Minimum Residency Requirement: 32 credits must be taken at UNH

Minimum GPA: 2.0 required for conferral*

Core Curriculum Required: Discovery & Writing Program Requirements

Foreign Language Requirement: Yes, if primary major is a Bachelor of Arts

Declared Primary Major

All Major, Option and Elective Requirements as indicated.
**Major GPA requirements as indicated.*

Humanities Dual Major Requirements

- The humanities dual major consists of a minimum of 32 credits of academic work, with a minimum grade of C-.
- Students cannot declare the dual major until they have declared a primary major.
- Students must have a GPA of 2.75 to be accepted to the dual major program.
- The required minimum overall GPA in major coursework is 2.0.

Code	Title	Credits
Core Requirements: Four Core Courses (16 Credits)		
HUMA 500	Critical Methods in the Humanities [1]	4
Select EITHER two of the following team-taught course topics		
Ancient Humanities: Cultures and Empires (HUMA 510 A, B, C, D)		
Medieval Humanities: Rise of Global Empires (HUMA 511 A, B, C)		
Modern Humanities: Colonies, Constitutions, and Capital (HUMA 512 A, B, C)		
Global Humanities (HUMA 513 A, B, C, D)		
Space, Place & the Environment (HUMA 514 A, B, C, D)		
OR one team-taught course PLUS		
HUMA 401/401W	Introduction to the Humanities	
Discovery Program Capstone		
Select from the following:		
HUMA 701W	Capstone Course (preferably during junior or senior year)	
or		
HUMA 798 & HUMA 799	Research Seminar and Research Seminar [3]	
Additional Requirements (16 Credits)		
Select four area courses in COLA (500 level or above) from at least three of five areas of disciplinary focus [4]		

1 Students will be made acquainted with the methods and technology required for research in humanities.

2 This seminar provides an opportunity for in-depth reading, viewing, and/or listening to texts and artifacts. The emphasis is on the multiple perspectives and methodologies that can be brought to bear upon these works from several humanistic disciplines.

3 Each student participates in the research tutorial (for a total of 6 credits) throughout the senior year. The tutorial provides a context within which students may discuss and receive direction in the course of completing a major research paper, the senior thesis. At the end of the second semester, students present their research to the faculty and their fellow students.

4 Selected with the advice and approval of each student's major adviser or the program coordinator. These offerings should bear some relation to the student's particular interests and senior research paper, as seems appropriate in each individual case.

Student Learning Outcomes

Program Learning Outcomes

- Demonstrate the ability to find and evaluate primary and secondary source material necessary for humanistic research.
- Demonstrate the ability to propose, conduct, and present interdisciplinary humanistic research in a written, oral, or other forms. Identify and interpret creative and cultural forms from a given historical period.
- Compare and contrast the meanings of major texts and other significant cultural productions.

Humanities Minor

https://www.unh.edu/program/minor/humanities

Description

There has never been a more exciting time to be human—or has there? What exactly does it mean to be a human being in the twenty-first century? How can you get the most out of your humanity? Find out by minoring in the humanities. It can help prepare you for a life you may not have considered, in ways you've never imagined.

Requirements

Academic policies related to Minors.

The humanities minor consists of completing five courses (20 credits).

Code	Title	Credits
Required Courses		
Select two courses from the following HUMA Course Topic sequences:		8
Ancient Humanities: Cultures and Empires (HUMA 510 A, B, C, D)		
Medieval Humanities: Rise of Global Empires (HUMA 511 A, B, C)		
Modern Humanities: Colonies, Constitutions, and Capital (HUMA 512 A, B, C)		
Global Humanities (HUMA 513 A, B, C, D)		
Space, Place & the Environment (HUMA 514 A, B, C, D)		
Select two additional courses from other humanities program courses, one of which should be at the 600 level		8
HUMA 701W	Capstone Course (or another approved course)	4
or HUMA 798 & HUMA 799	Research Seminar and Research Seminar	
Total Credits		**20**

Interdisciplinary Humanities Major (B.A.)

https://www.unh.edu/program/bachelor-arts/interdisciplinary-humanities

Description

The interdisciplinary humanities program examines the fundamental questions and issues of human civilization. Through studying diverse texts in the arts, music, literature, history, philosophy, and science, students seek answers to questions that thoughtful human beings must address in the course of their lives. Whether these questions come from Socrates (What is justice?), from Sir Thomas More (What is obligation to God?), from Raphael (What is beauty?), from Newton (What are the laws of nature?), or from Martin Luther King, Jr. (What is freedom?), they direct our attention to enduring human concerns and to texts that have suggested or illustrated the most profound and powerful answers. The humanities program is housed in the Department of Classics, Humanities, and Italian Studies.

Student Learning Outcomes

Program Learning Outcomes

- Demonstrate the ability to find and evaluate primary and secondary source material necessary for humanistic research.
- Demonstrate the ability to propose, conduct, and present interdisciplinary humanistic research in a written, oral, or other forms.
- Compare and contrast the meanings of major texts and other significant cultural productions.
- Identify and interpret creative and cultural forms from a given historical, cultural, or geographic context.

Italian Studies (ITAL)

The Italian studies program offers courses in Italian language, culture, literature, history and cinema, as well as courses on Italian American culture. Italian courses can also be used to fulfill Discovery Program requirements and the bachelor of arts foreign language proficiency requirement. In addition to the Italian studies major, an Italian studies minor is available.

The program provides opportunities both to achieve high competence in Italian language and culture and to apply these knowledge skills to other disciplines. The Italian studies program encourages independent and innovative thinking and research so that students may pursue and achieve individualized goals while they prepare for the challenges of thriving in the world community.

Study Abroad

The Italian studies program allows students to register for approved study abroad programs through the University.

Student Learning Outcomes

Program Learning Outcomes

- Demonstrate speaking proficiency in Italian: Students speak Italian at the Advanced Level per standard guidelines established by the American Council on the Teaching of Foreign Languages (ACTFL).
- Demonstrate listening proficiency in Italian: Students' aural comprehension is at the Advanced Level per standard guidelines established by ACTFL.
- Demonstrate reading proficiency in Italian: Students' read at the Advanced Level per standard guidelines established by ACTFL.
- Demonstrate writing proficiency in Italian: Students' write at the Advanced Level per standard guidelines established by ACTFL.
- Exhibit contemporary cultural competency: Demonstrate knowledge of contemporary aspects of Italian culture and the ability to interact appropriately and effectively within diverse social and cultural contexts.
- Exhibit historical cultural competency: Identify the major movements in Italian cultural history and analyze critically Italian cultural production from the 13th century to the present through close readings and audio and visual texts (e.g., literature, cinema, music, visual arts, traditional and social media) to provide critical insight on a range of topics in Italian culture.
- Exhibit intercultural competency: Present a global perspective through the articulation of cultural differences as well as shared values between cultures, societies, and nations.
- Exhibit research competency: Demonstrate ability to conduct research in both Italian and English: to produce coherent analyses utilizing primary and secondary sources, applying critical thinking and methodologies of argumentation, and integrating disparate areas of knowledge.

Italian Studies Minor

https://www.unh.edu/program/minor/italian-studies

Description

The Italian studies minor provides students with the opportunity to explore the language, culture, and society of Italy through an interdisciplinary program. The minor is advantageous for applicants to graduate and professional schools in Italian, modern languages, linguistics, film, history, theater, philosophy and law. It is also a valuable asset for careers in economics, international affairs, international business, fashion, teaching, communications, translation, interpretation, government and Foreign Service.

The Italian studies minor is offered by the Department of Classics, Humanities and Italian Studies.

Requirements

Academic policies related to Minors.

The minor consists of five courses (20 credits)

All courses for either option listed below must be completed with a minimum grade of C.

Code	Title	Credits
Required		
Select one of the following options:		20
Option 1: Demonstrate linguistic proficiency at the level of intermediate Italian (by completing ITAL 504 or equivalent). One of the remaining elective courses may be from a related field of study, subject to the approval of the Italian Studies advisor.		
Option 2: Demonstrate linguistic proficiency at the level of elementary Italian (by completing ITAL 402 or equivalent). All additional courses must be ITAL course offerings..		
Total Credits		**20**

Student Learning Outcomes

Program Learning Outcomes

- Exhibit intercultural competency: Present a global perspective through the articulation of cultural \\ndifferences as well as shared values between cultures, societies, and nations.
- Exhibit historical cultural competency: Identify the major movements in Italian cultural history and analyze critically Italian cultural production from the 13th century to the present through close readings and audio and visual texts (e.g., literature, cinema, music, visual arts, traditional and social media) to provide critical insight on a range of topics in Italian culture.
- Exhibit contemporary cultural competency: Demonstrate knowledge of contemporary aspects of Italian culture and the ability to interact appropriately and effectively within diverse social and cultural contexts.
- Exhibit linguistic competency at the elementary or intermediate level per standard guidelines established by the American Council on the Teaching of Foreign Languages (ACTFL).

Justice Studies (JUST)

Justice studies students think critically about issues that are part of the national conversation concerning justice: race and policing, cybercrime, the opioid crisis, juvenile delinquency, sexual and interpersonal violence, immigrants and refugees, wrongful convictions and bullying. All majors do applied or research internships in New England or Washington, D.C. Many spend a semester studying in Budapest and participating in Mock Trial. Our graduates excel in various positions including FBI agents, federal probation and parole, police officers from local to federal levels, victim/witness advocates, prison wardens, police prosecutors, attorneys and juvenile justice advocates.

Justice Studies Dual Major

https://cola.unh.edu/justice-studies/program/justice-studies-dual-major

Description

The Justice Studies Dual Major is an interdisciplinary area that blends topics from humanities departments (e.g., Philosophy), social science departments (e.g., Psychology, Sociology, Women's and Gender Studies), departments that include both humanities and social science faculty (History, Political Science), and professionally-oriented departments (Education, Family Studies, Social Work). Topics studied include courts, family violence, rights, substance abuse, juvenile justice, school law, children as witnesses, hate crimes and community policing. Students will be required to choose a first major before they will be able to declare Justice Studies as a second major. The goal is to produce graduates who have a higher level of knowledge about law and justice in American society and in the world so that they will mature into more knowledgeable and effective citizens. The Justice Studies dual major is intended for students who are looking for careers in the justice system or who seek graduate training in law or social sciences and humanities related to the law.

Students are strongly encouraged to contact the Justice Studies Office and to declare the dual major as soon as they develop an interest in majoring. Once a student has been accepted to the JS dual major, they will be assigned an advisor.

Requirements

Degree Requirements

Minimum Credit Requirement: 128 credits

Minimum Residency Requirement: 32 credits must be taken at UNH

Minimum GPA: 2.0 required for conferral*

Core Curriculum Required: Discovery & Writing Program Requirements

Foreign Language Requirement: Yes, if primary major is a Bachelor of Arts

Declared Primary Major

All Major, Option and Elective Requirements as indicated.
**Major GPA requirements as indicated.*

Justice Studies Dual Major Requirements

- The dual major in justice studies requires students to take a minimum of eight courses (32 credits), each completed with a grade of a C- or better.
- Students are required to have a grade-point average of a 2.5 or better before they can be accepted into the program.
- The dual major cannot be declared until after a first major has been declared.
- Students can count no more than two courses for both the first major and dual major, and students are not allowed to take more than two courses from any one department (except for JUST).
- An unlimited number of dual major courses can be used to satisfy Discovery requirements.
- The required minimum overall GPA in major coursework is 2.5.

SW 705	Child and Adolescent Risks and Resiliency: Program, Policy and Practice	4

[2] Bill of Rights, The First Amendment, and Law & Society are allowed to count as the JS SOC/POLT requirement.

Candidates for a degree must satisfy all of the University Discovery Program requirements in addition to satisfying the requirements of each individual major program. Bachelor of Arts candidates must also satisfy the foreign language proficiency requirement.

Student Learning Outcomes

Program Learning Outcomes

- Demonstrate knowledge of fundamental theoretical approaches and key disciplinary concepts of Justice Studies.
- Demonstrate understanding of justice studies methods of research design, data gathering, and analysis.
- Exhibit critical thinking skills in evaluating justice studies research, including the background assumptions, appropriateness of methods used and the strength of explanatory evidence.
- Communicate justice studies knowledge in appropriate oral, written and graphic forms.
- Experience justice studies either in the real world through an internship or in a research lab through a research internship.

Justice Studies Minor

https://cola.unh.edu/justice-studies/program/minor/justice-studies

Description

The justice studies minor is an interdisciplinary program that blends topics from humanities departments (e.g., philosophy), social science departments (e.g., psychology, sociology, women's and gender studies), departments that include both humanities and social science faculty (history, political science) and professionally oriented departments (education, family studies, social work). Topics studied include courts, family violence, rights, substance abuse, juvenile justice, school law, children as witnesses, hate crimes and community policing.

Requirements

The Minor in Justice Studies requires students to take a total of five courses (20 credits), each with a grade of C- or better, in order to complete the program. Students are allowed to "double count" no more than two courses toward their major and minor, and are not allowed to take more than two courses from any one department (except for Justice Studies). In order to officially declare the Minor in Justice Studies, students will need to submit an intent to minor form to Deb Briand in the Justice Studies Office. This form can be found on our website.

Academic policies related to Minors.

Forensics Minor

https://cola.unh.edu/justice-studies/program/minor/forensics

Description

The forensics minor provides students with the opportunity to explore the different components of forensics through the interdisciplinary study of biology, psychology, sociology and justice studies. This well-rounded curriculum will enable students to build upon their interests in justice studies by specializing in an area of increasing importance. Once students have decided to pursue the minor, they are required to meet with the coordinator, academic counselor or appropriate affiliated faculty adviser at least once per semester for regular review and assessment of their program, learning outcomes and progress toward the degree.

Requirements

The forensic minor requires five courses (20 credits) drawn from a list of approved courses. Students must receive a grade of a C- or better for a course to count toward the minor requirements. Justice Studies Dual Majors are required to meet with their Justice Studies advisor before registering for courses each semester to ensure they are on track to completing both the dual major and forensic minor.

Two courses can double count toward your justice studies dual major. These courses are most commonly JUST 401 Introduction to Justice Studies, and SOC 515 Introductory Criminology.

In order to officially declare the forensic minor, students will need to submit an intent to minor form to Deb Briand in the Justice Studies Office. This form can be found on our website.

Latin American, Latinx and Caribbean Studies

- Latin American, Latinx and Caribbean Studies Minor (p. 291)

Latin American, Latinx and Caribbean Studies Minor

https://www.unh.edu/program/minor/latin-american-latinx-caribbean-studies

Description

Latin American, Latinx and Caribbean studies is an interdisciplinary minor encompassing anthropology, communications, economics, geography, history, linguistics, political science and Spanish. Knowledge of Latin America is especially valuable for students who plan to work in education, international organizations, government, social services, and business or for graduate studies related to Latin America.

Requirements

Academic policies related to Minors.

The minor consists of completing five courses (20 credits) representing at least three disciplines as outlined below.

- A minimum grade of C or better is required in coursework for the minor.
- Academic study in Latin America is strongly recommended: Speak with faculty to help you find the study abroad program that best fits your interests. UNH and its affiliates offer several short- and long-term programs throughout Latin America.

Code	Title	Credits
Required Courses		
HIST 532	Modern Latin America [1]	4
SPAN 504	Intermediate Spanish II [2]	4
Electives		
Select three elective courses from the list below in consultation with an advisor.		12
Total Credits		**20**

1 Or an equivalent course approved by the minor advisor.
2 Minimum of high-intermediate level proficiency in Spanish. Equivalent courses or equivalent testing may be counted.

Electives Course List

Students should consult with an advisor or the course instructor to ensure that the majority of this coursework concentrates on Latin America.

Code	Title	Credits
ANTH 500	Peoples and Cultures of the World (Topic: Latin America)	4

SPAN 654	Introduction to Latin American Literature and Thought	4
SPAN 797	Topics in Hispanic Literary and Cultural Studies	4
SPAN 798	Topics in Hispanic Linguistics and Cultural Studies	4
SW 697	Special Topics in Social Welfare (Topic: Social Action in the Dominican Republic)	4
SW 797	Special Topics in Social Welfare (Topic: Social Action in the Dominican Republic)	4

Linguistics (LING)

Linguistics is the study of one of the most important characteristics of human beings—language. It cuts across the boundaries between the sciences and the humanities. The program is an excellent liberal arts major or preprofessional major for education, law, medicine, clergy and others. It is a particularly appropriate major for students who want to teach English as a second language. Dual majors with a foreign language, international affairs, business administration and the like are quite feasible.

Students interested in the major or the minor should consult with the program coordinator or with any professor who teaches linguistics courses. To declare a major in linguistics, a student must meet with the linguistics coordinator to design a course of study.

SPAN 798	Topics in Hispanic Linguistics and Cultural Studies (Subtopic A)	4

[1] Students may count either PSYC 512 Psychology of Primates or PSYC 513 Cognitive Psychology toward the linguistics major or minor, but not both.

Alternative courses may be substituted, with the permission of the student's advisor and the linguistics committee, if they are relevant to the the student's academic program.

Candidates for a degree must satisfy all of the University Discovery Program requirements in addition to satisfying the requirements of each individual major program. Bachelor of arts candidates must also satisfy the foreign language proficiency requirement.

Student Learning Outcomes

Program Learning Outcomes

Students will understand and be able to deploy the analytical tools, modes of critical thinking, and types of writing that are used in studying languages and linguistics. Students will be able to analyze sets of data and make arguments concerning the theoretical analysis of those data.

Core areas:

- Phonetics: Students will understand the acoustic and articulatory properties of speech sounds both for English and for other languages. Students will be able to transcribe and read the International Phonetic Alphabet.
- Phonology: Students will display knowledge of phonological analysis including identifying phonemes and allophones in languages, writing phonological rules using distinctive features, and understanding phonological processes such as assimilation, epenthesis, vowel harmony, etc.
- Morphology: Students will be able to analyze word structure (inflection, derivation, compounding) both in English and in unfamiliar languages. They will understand key concepts concerning the mental lexicon.
- Syntax: Students will be able to analyze the structural properties of sentences in English and in other languages and be familiar with the principles of generative grammar.
- Sociolinguistics, Historical Linguistics, and Typology: Students will understand processes of language change over time, language variation according to region, social class, gender, and education, and the effects of language contact.
- Field Methods: Students will be able to work with a native speaker of an unfamiliar language to collect and analyze data from that language. They will understand the ethical and logistical issues involved in documenting languages.
- Applications: Students will have an understanding of practical applications of linguistic knowledge to daily life, including political issues regarding language (e.g., bilingual education, official languages), language acquisition, disorders that can affect language.

Linguistics Minor

TESOL Minor

https://www.unh.edu/program/minor/tesol

Description

The TESOL minor is a set of courses that are related to teaching English to speakers of other languages. This minor primarily is for students who are interested in teaching English to speakers of other languages, whether that be teaching English abroad or teaching ESL students in U.S. public schools (K-12). It is also appropriate for students who are going into social work or other professions that require regular interaction with nonnative English speakers.

The TESOL minor will not certify students to teach in New Hampshire public schools (K-12). For that purpose, students must complete the ESL certification program that is offered at the graduate level by the Education and English departments. However, the coursework in this minor will provide a very good foundation for students who want to later pursue ESL certification or an M.A. in TESOL at UNH or another institution.

Requirements

Medical Humanities, Society & Ethics

- Medical Humanities, Society & Ethics Minor (p. 294)

Medical Humanities, Society & Ethics Minor

https://www.unh.edu/program/minor/medical-humanities-society-ethics

Description

As an interdisciplinary minor, medical humanities, society and ethics (MHSE) teaches students to use methods from the humanities and social sciences to examine issues related to illness, health, healthcare, the body and the mind in their social, cultural and historical contexts.

MHSE takes as its starting point the dual claim that the central human experiences of health and illness as well as the systems of knowledge that have emerged to classify them are culturally shaped phenomena. Bodies and minds experience illness; people suffer; they age; they die. But the meanings people attach to these processes are not givens in the natural world. They are rather forged within a particular society's attitudes, values, beliefs and practices expressed through language, behavior, ritual and art. They are, moreover, contingent on time and place. Even the modern scientific discipline of medicine, its truth claims, and its terms are embedded in historical cultural domains. They have as much to do with attitudes to gender, race, socioeconomic status, relations of power, structures of authority and social hierarchies as they do with biology.

MHSE aims to bridge the gulf that exists between science and experience, biology and culture by challenging students to examine critically the origins and nature of their beliefs and values about illness and health as well as the beliefs and values embedded in their society's social, cultural, educational, legal and political institutions.

MHSE students will learn that humanistic interpretive practices make cross-cultural and comparative studies of health and illness possible. The minor encourages students to take a broad community and global perspective on experiences of health and illness that address equity, policy and resource allocation.

Requirements

Academic policies related to Minors.

Students are required to take five courses (20 credits) selected from the approved list of courses below. Other courses may be taken that are approved by the minor advisory committee through a petition process. Independent studies, practica and transfer credits may also count for the minor with the approval of the committee.

- At least 4 credits must be at the 600 or 700-level.
- No more than 12 credits may be taken from the same department.
- At least 12 credits must be taken in residence at UNH.
- No more than 4 credits may be taken from courses outside of the College of Liberal Arts.
- Students must receive a grade of C- or better for courses to count toward the minor requirements.
- Once students have declared the minor, they are required to meet with the coordinator or appropriate core faculty advisor at least once per year for regular review and assessment of their program, learning outcomes and progress.

Code	Title	Credits
Approved Courses		
ANTH 525	Anthropology of the Body: Fat, Fitness and Form	4
ANTH 610	Medical Anthropology: Illness and Healing	4
ANTH 685	Gender, Sexuality and HIV/AIDS in Africa	4
CLAS 550C	Identities and Difference in the Ancient World: Sex and Desire in Greece and Rome	4

ENGL 415C	Literature and Medicine	4
ENGL 787	English Major Seminar (Only topic: Literature and Medicine)	4
GERM 798	Special Studies in German Language and Literature (Only topic: Narrating Madness in German Literature)	4
HIST 437H	Honors/The Mad Among Us: A Global History of Mental Disorder	4
HIST 498	Explorations of Historical Perspectives (Only topics: Pandemic! From the Black Death to Coronavirus or Childhood in Global History)	4
HIST 500	Introduction to Historical Thinking (Only topic: Landscape, Environment and Disease)	4
HUMA 526	Humanities and Science (Only topics: The Undead Humanities and Cognitive Science of Religion)	4

Middle Eastern Studies

Programs

- Middle Eastern Studies Minor (p. 295)

Middle Eastern Studies Minor

https://www.unh.edu/program/minor/middle-eastern-studies

Description

The minor in Middle Eastern studies introduces students to the many facets of Middle Eastern cultures and societies through the interdisciplinary study of languages, history, politics, geography, and anthropology. Minor coursework enables students' understanding of the Middle East as a dynamic region in a global and comparative context. This minor therefore encompasses not only the study of the region itself, but also the flows and circulation of migration, diasporas, refugees, ideas, literatures, social movements, war and natural resources that make the region pivotal to world history and the global economy. In addition, participation in the minor prepares students for study abroad experiences, helps them acquire skills and qualifications for graduate study, and enhances employment opportunities.

Students interested in the minor should contact the coordinator and/or affiliated faculty to discuss their program of study.

Requirements

Academic policies related to Minors.

The Middle Eastern Studies minor requires five courses (20 credits) selected from the list of approved elective courses or from exceptional courses and opportunities approved by the affiliate faculty in respective disciplines. The five-course requirement must include one non-language course.

Code	Title	Credits
Required Courses		
Select five courses from the following:		20
ANTH 500	Peoples and Cultures of the World (Topic C)	
ANTH 640	Anthropology of Islam: Muslims' Everyday Lives in Contemporary Communities	
ANTH 700	Internship (A: Preserving Cultural Heritage in Syria and Iraq)	
ARBC 401	Elementary Arabic I	
ARBC 402	Elementary Arabic II	
ARBC 425	Introduction to Arabic Culture	
ARBC 503	Intermediate Arabic	
ARBC 504	Intermediate Arabic	
ARBC 631	Advanced Arabic I	
ARBC 632	Advanced Arabic II	
HIST 425	Foreign Cultures (if related to Middle East)	
HIST 571	Modern Middle East History (Modern Middle East History)	
HIST 575	Ancient Near East	
HIST 585	Medieval Islam	
HUMA 444F	Travelers in the Premodern World	
POLT 559	Comparative Politics of the Middle East	
POLT 740	States and Societies in the Middle East	
Total Credits		**20**

Additional Information

Foreign Language Study

The study of a Middle Eastern language or language relevant to Middle Eastern studies is strongly encouraged but not required. Students are encouraged and permitted to count Arabic toward the five-course requirement. Students who have studied Hebrew, Turkish, Farsi, or other Middle Eastern languages at other institutions may apply for transfer of their credit toward the minor. Through petition to the minor coordinator and with support of affiliate faculty in the respective discipline, students may apply for European languages, such as French and Italian, to count toward minor requirements, provided these are relevant to their research and study interests in the region.

Music (MUSI, MUED)

The Department of Music offers two degree programs: the bachelor of arts in music and the bachelor of music.

The University of New Hampshire Department of Music is an accredited institutional member of the National Association of Schools of Music. All programs have final approval from NASM.

Prospective majors in music are advised to contact the department for information on acceptance into the major.

All music students must earn grades of C- or better in all required music and music education courses. The required minimum overall GPA in required music and music education coursework is 2.0.

Bachelor of Arts in Music

The bachelor of arts in music program offers students an opportunity to major in music within the liberal arts curriculum. This program is intended for those who wish to pursue the serious study of music and to acquire at the same time a broad general education; it is recommended for those considering graduate study leading to master's or doctoral degrees.

To be admitted formally to the B.A. program, students must give evidence of satisfactory musical training by taking an admission audition.

Students must declare music as a major before the beginning of the junior year, but it is highly recommended that they declare as early as possible, considering the large number of required courses.

The bachelor of arts degree is offered with three options: music liberal studies, performance study and composition.

Bachelor of Music Degree Program

The bachelor of music degree program is offered to students who wish to develop their talent in performance, composition or music education to a high professional level. The program is recommended to those considering graduate study leading to the M.M. or D.M.A. degrees. The music education option is part of the undergraduate certification program (see the Department of Education).

To be admitted to the B.M. program, students must demonstrate a high degree of musical competence or significant creative ability during an audition or examination. Selection is made on the professional requirements appropriate to each option. Students must formally declare the B.M. as a degree program before the beginning of the sophomore year. Continuation into the upper level of the program is subject to review by the department faculty.

Four degrees are offered in the bachelor of music curriculum: bachelor of music in music education; bachelor of music in performance; bachelor of music in composition, and bachelor of music pre-teaching.

Faculty

Music Department Faculty

Music Education Major (B.M.)

https://www.unh.edu/program/bachelor-music/music-education

Description

The B.M. music education is the traditional program of choice for students seeking a career as a school music teacher. The bachelor of music degree in music education provides a route to undergraduate certification leading to state of New Hampshire teacher licensure in music, grades K-12 (cert. #612.13). New Hampshire also participates in a reciprocal agreement with many other states: the Interstate Certification Compact.

Successful applicants must demonstrate a high degree of musical competence and promise of future growth as a performer. A firm commitment to leading school musicians to artistic success is expected, as is a willingness to acquire the breadth of skills required for K-12 music licensure. Continuation in the B.M. music education program is made with the recommendation of the appropriate faculty members and contingent upon personal commitment to the teacher licensure program.

Students interested in a five-year, bachelor/masters degree program typically complete the B.M pre-teaching major as an undergraduate and apply to the UNH Department of Education for admission to the Master of Arts in Teaching (Secondary Education) degree program.

The four-year bachelor of music in music education curriculum is highly structured due to the number of required courses to complete. The requirements include a list of additional classes required to earn a degree and licensure to teach. Students may elect a vocal/choral or instrumental emphasis.

Requirements

Degree Requirements

Minimum Credit Requirement: 131 credits (Instrumental Track) or 132 credits (Choral Track)

Minimum Residency Requirement: 32 credits must be taken at UNH

Minimum GPA: 2.0 required for conferral*

Core Curriculum Required: Discovery & Writing Program Requirements

Foreign Language Requirement: No

All Major, Option and Elective Requirements as indicated.
**Major GPA requirements as indicated.*

Major Requirements

Students in music education must maintain an overall minimum 2.8 grade-point average at the time of application for student teaching (February 15 of junior year). Any education courses taken to fulfill a teacher licensure requirement must be completed with a B- or better.

Discovery Program Requirements: B.M. music education majors may use MUSI 501 The Western Musical Canon (a required core course for the major) to satisfy the Fine and Performing Arts Discovery category requirement. In addition, they may use MUSI 502 Musics in Context (a required core course for the major) to satisfy the Inquiry Discovery category requirement, and MUSI 515 Music in World Cultures (a required core course for the major) to satisfy the World Cultures Discovery category requirement.

All bachelor of music students are required to give a public performance during their senior year, which fulfills the Discovery Program capstone requirement.

For students in the music education option, a half recital is required.

Music requirements must receive a grade of C- or better. Education courses require a minimum grade of B- or better to receive credit.

Code	Title	Credits
Core Curriculum

Performing Ensemble: select from the following courses [5, 6, 7]		8
MUSI 441, MUSI 442, MUSI 448, MUSI 450, MUSI 452, MUSI 453, MUSI 454, MUSI 455, MUSI 456, MUSI 457, MUSI 459, MUSI 460, MUSI 462, MUSI 463, MUSI 464		
EDUC 500	Exploring Teaching	4
EDUC 605	Educational Perspectives in Critical Times	4
EDUC 701	Human Development & Learning: Cultural Perspectives	4
EDUC 751B	Methods of Inclusive Secondary Education: Literacies, Learning, and Transitions	4
EDUC 694	Courses in Supervised Teaching	8
Total Credits		**66-67**

1 Vocal track students take 2 credits. Instrumental track students take 3 credits.

2 Required for Vocal track.

3 Required for Instrumental track.

4 Required for Vocal track.

5 Students in the Bachelor of Music Education program are required to complete 8 credits of ensemble; a maximum of 8 ensemble credits may be counted towards graduation. Students will enroll in one conducted ensemble (MUSI 450 Symphony, MUSI 452 Wind Symphony,MUSI 453 Symphonic Band, MUSI 441 Concert Choir, MUSI 442 Chamber Singers, MUSI 460 Jazz Band, MUSI 454 UNH Marching Band) in every semester of their enrollment at UNH except for their student-teaching semester. To compensate, they will enroll in two ensembles during a previous semester.
6 of these required ensembles must be on the student's primary instrument and 4 credits must be in a traditional conducted ensemble (MUSI 450 Symphony, MUSI 452 Wind Symphony, MUSI 453 Symphonic Band, MUSI 441 Concert Choir). For instrumentalists, at least 1 semester of participation in MUSI 454 UNH Marching Band) and MUSI 460 Jazz Band are highly desirable.

6 Guitar music education majors will take four semesters of MUSI 464 Guitar Ensemble and four semesters of a traditional conducted ensemble (MUSI 450 Symphony, MUSI 452 Wind Symphony, MUSI 453 Symphonic Band, MUSI 441 Concert Choir). Therefore, guitarists have a minimum of only 4 semesters required on their primary instrument.

7 Piano music education majors will take four semesters of MUSI 455 Collaborative Piano and four semesters of a traditional conducted ensemble (MUSI 450 Symphony, MUSI 452 Wind Symphony, MUSI 453 Symphonic Band, MUSI 441 Concert Choir). Therefore, pianists have a minimum of only 4 semesters required on their primary instrument.

Junior Standing in Music Education

Recognition of adequate completion of fundamental academic and musical competencies shall earn students declared for the Bachelor of Music: Music Education the title Junior Standing. Students will not receive permission to register for the upper-level music education methods courses (MUED 765, MUED 790, MUED 791) without such recognition. Two of the steps required for recognition are the submission of passing scores on the PRAXIS: Core Academic Skills for Educators tests (scores will be sent directly to the Department of Education) and clearance of the Criminal Background Check as conducted by the State of New Hampshire Department of Safety. Results will be sent directly to the music education coordinator in the Department of Music. There is a charge for each of these steps assessed by the providers. Current students may follow the catalog corresponding to their matriculation year or follow the proposed changes.

Junior Standing Requirements

1. Criminal Background Check
2. Academic Standing
   a. 2.8 overall grade point average
   b. Pass PRAXIS Core Academic Skills for Educators Test
3. Aural Skills: Complete MUSI 574 Ear Training II with a grade of C- or better and a departmental followup assessment
4. Music Performance Skills
   a. Pass Sophomore Performance Jury with a grade of C- or better
   b. Perform for at least 3 semesters as a regular member of at least one of the designated core ensembles
   c. Complete MUSI 576 Functional Piano II with a C- or better and a departmental followup assessment
5. Complete EDUC 500 Exploring Teaching and a departmental followup assessment

Degree Plan

Sample Degree Plan

This sample degree plan serves as a general guide; students collaborate with their academic advisor to develop a personalized degree plan to meet their academic goals and program requirements.

[1] Performing Ensembles are specified in the catalog.

[2] PRAXIS II: Music Content Knowledge #5113 is required before EDUC 694 Student Teaching

Student Learning Outcomes

Program Learning Outcomes

- Students will exhibit the skills necessary for artistic expression at the highest possible level as defined by their particular area of concentration in solo and small ensemble (not conducted) and large ensemble (conducted) settings.
- Students will exhibit competency in musicianship and analysis through: their understanding of musical forms and processes; aural, verbal and visual analyses; skill in performance; academic, pedagogical, and compositional applications; rudimentary ability to create derivative or original music.
- Students will demonstrate familiarity with musical literature from the formal concert repertory and from musical traditions outside of

that repertory. Students will demonstrate the ability to place music in historical, cultural, and stylistic contexts.

- Students will demonstrate collegiate-level skill in the English language and competence in written and oral communication in English.
- Demonstrate the ability to use technologies current to their area of specialization for professional development and entrepreneurship, and career preparation and promotion.
- Students demonstrate ability to lead students to increased musical knowledge and advancing musical performance.
- Students demonstrate knowledge of age-appropriate vocal and instrumental pedagogy.
- Students demonstrate an understanding of best practices and applicable learning theories in music education.
- Students demonstrate the ability to prepare classes and rehearsals via score study and lesson planning that includes awareness of needed modifications.
- Students aurally discern accuracy and expressive elements in student performances.
- Students demonstrate the ability to assess their pupils' learning and progress in conjunction with best educational practices.
- Students are able to assess the success of their own class teaching and rehearsals.

Disclosures

Music Education (B.M.)

Location/Delivery: College of Liberal Arts, Durham Campus [In Person Program]

This program is designed to prepare graduates for professional licensure/certification as follows:

Teacher Licensure

Music Education K-12

*The University of New Hampshire has determined this program **meets** the educational requirements for licensure/certification in:*[1]
Alabama, Alaska, Arizona, Arkansas, California, Colorado, Connecticut, Delaware, Florida, Georgia, Hawaii, Idaho, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Michigan, Minnesota, Mississippi, Missouri, Montana, Nebraska, Nevada, New Hampshire, New Jersey, New Mexico, New York, North Carolina, North Dakota, Ohio, Oklahoma, Oregon, Pennsylvania, Rhode Island, South Carolina, South Dakota, Tennessee, Texas, Utah, Vermont, Virginia, West Virginia, Wisconsin, Wyoming.

Additional information and related resources are available on the Registrar's Office website.

[1] State specific post-education requirements are subject to change. Students are responsible for confirming these requirements in their state of residence and intended practice.

Music Major: Composition Option (B.A.)

https://www.unh.edu/program/bachelor-arts/music-composition

Description

If you want to develop your skills as a composer while also pursuing a broad liberal arts education, the Bachelor of Arts in music with an option in composition is the degree you should pursue. You'll study music theory and analysis, the history and literature of music, and world music and technical skills such as ear training and piano as you grow as a composer and performer.

Students wanting to declare composition as their option must submit a music portfolio in addition to an audition on their major instrument.

Requirements

Degree Requirements

Minimum Credit Requirement: 128 credits

Minimum Residency Requirement: 32 credits must be taken at UNH

Minimum GPA: 2.0 required for conferral*

Core Curriculum Required: Discovery & Writing Program Requirements

Foreign Language Requirement: Yes

All Major, Option and Elective Requirements as indicated.
**Major GPA requirements as indicated.*

Major Requirements

The Discovery Program capstone requirement is fulfilled by a final project or a public performance given during the senior year. For students in the composition option, there is a choice of completing a half lecture, half lecture-recital or a half recital including at least one original composition.

Candidates for a degree must satisfy all of the University Discovery Program requirements in addition to satisfying the requirements of each individual major program. Bachelor of arts candidates must also satisfy the foreign language proficiency requirement.

Major department courses may not be used to satisfy Discovery category requirements except in the case of a second major. B.A. in music majors may use MUSI 502 Musics in Context (a required core course for the major) to satisfy the Inquiry Discovery requirement.

Music requirements must receive a grade of C- or better.

Student Learning Outcomes

Program Learning Outcomes

- Demonstrate the ability to perform a specialization instrument or voice at an appropriate solo level and/or in small ensemble and large ensemble.
- Aurally identify, analyze, and work conceptually with the elements of music in a variety of musical styles.
- Students will demonstrate familiarity with musical literature from the formal concert repertory and from musical traditions outside of that repertory.
- Demonstrate the ability to develop and defend musical judgments in writing and in oral presentation.
- Demonstrate collegiate-level skills in the English language, competence in written and oral communication in English, and fluency in communicating and synthesizing musical, historical and analytical concepts in writing.
- Demonstrate the ability to create substantial original compositions for solo instrument(s), chamber ensemble, or large ensemble.
- Present at least one substantial original composition in performance of a lecture, lecture-recital, or recital.

Music Major: Music Liberal Studies Option (B.A.)

https://www.unh.edu/program/bachelor-arts/music-music-liberal-studies

Description

Students enrolling in the B.A. music liberal studies program — a program that stresses the development of skills in analysis, writing and critical thinking about a wide variety of musics and the larger connection with history, culture and society — are required to submit a writing sample and interview with one of the music liberal studies program faculty members. The writing sample should be non-fiction, preferably an assignment for a course in English, history or a similar subject, 500 words or more in length.

Requirements

- Demonstrate collegiate-level skills in the English language, competence in written and oral communication in English, and fluency in communicating and synthesizing musical, historical and analytical concepts in writing.
- Demonstrate the ability to conduct original research on music with faculty mentoring and independently.
- Demonstrate in writing the ability to integrate concepts from adjacent disciplines—history, aesthetics, sociology, cultural studies—with musical and stylistic analysis.

Music Major: Performance Study Option (B.A.)

https://www.unh.edu/program/bachelor-arts/music-performance-study

Description

The Bachelor of Arts in performance study degree is the program for you if you wish to develop your talent as a performer while also gaining a solid liberal arts education. You'll develop your musicianship through private study, chamber music and some of the best performing ensembles in the region. You'll be immersed in the study of music theory, history, literature and world music while sharpening your listening and performance skills. This program is recommended if you're considering graduate study leading to a master's or doctoral degree in music.

[1] The BA degree has a language requirement

[2] Performing Ensembles are specified in the catalog.

Student Learning Outcomes

Program Learning Outcomes

- Demonstrate the ability to perform a specialization instrument or voice at an appropriate solo level and/or in small ensemble and large ensemble.
- Aurally identify, analyze, and work conceptually with the elements of music in a variety of musical styles.
- Students will demonstrate familiarity with musical literature from the formal concert repertory and from musical traditions outside of that repertory.
- Demonstrate the ability to develop and defend musical judgments in writing and in oral presentation.
- Demonstrate collegiate-level skills in the English language, competence in written and oral communication in English, and fluency in communicating and synthesizing musical, historical and analytical concepts in writing.
- Demonstrate the ability to perform a specialization instrument or voice at the level of an advanced undergraduate student, or young professional, including a high level of technical and artistic competence, and to work independently in both solo practicing and small ensemble rehearsals.
- Demonstrate maturity in musical performance, using performance and liberal-arts tools and insights to create an artistic product.
- Students will plan, prepare, and perform a solo recital in collaboration with faculty and staff that includes both organizational elements and artistic preparation.

Music Minor

https://www.unh.edu/program/minor/music

Description

A music minor is a great option for students who are passionate about the discipline of music but choose to major in another field. The minor includes required coursework in music theory and literature.

Requirements

Academic policies related to Minors.

- The minor in Music consists of completing a minimum of 20 credits of coursework in music.

Code	Title	Credits
Required Courses		
MUSI 471 & MUSI 472 & MUSI 473 & MUSI 474	Theory I and Theory I and Ear Training I and Ear Training I	8
Select two courses from the following:		8
MUSI 401	Introduction to Music	
MUSI 403	Roots of Rock	
MUSI 404	An Introduction to Music, Media, and the Moving Image	
MUSI 405	Survey of Music in America	
MUSI 406	Country Music	
MUSI 444	Music and Social Change	
MUSI 501	The Western Musical Canon	
MUSI 502	Musics in Context	
MUSI 515	Music in World Cultures	
Select 4 credits of MUSI electives		4

Music Performance Study Major (B.M.)

https://www.unh.edu/program/bachelor-music/music-performance-study

Description

The Bachelor of Music in performance degree is the program for you if you wish to focus intensively on developing your skills as a performer. This program places heavy emphasis on performance study and is great preparation for master and doctoral degree programs. You'll develop your musicianship through private study, chamber music and some of the best performing ensembles in the region. You'll be immersed in the study of music theory, history, literature and world music while sharpening your listening and performance skills.

Requirements

Degree Requirements

Minimum Credit Requirement: 128 credits

Minimum Residency Requirement: 32 credits must be taken at UNH

Minimum GPA: 2.0 required for conferral*

Core Curriculum Required: Discovery & Writing Program Requirements

Foreign Language Requirement: No

All Major, Option and Elective Requirements as indicated.
**Major GPA requirements as indicated.*

Major Requirements

All bachelor of music students are required to give a public performance during their senior year, which fulfills the Discovery Program capstone requirement:

- For students in the performance option, a full recital is required. Students in the bachelor of music in performance degree program are required to perform a half junior recital.

Candidates for a degree must satisfy all of the University Discovery Program requirements in addition to satisfying the requirements of each individual major program. B.M. in music majors may use MUSI 502 Musics in Context (a required core course for the major) to satisfy the Inquiry Discovery category requirement, and MUSI 515 Music in World Cultures (a required core course for the major) to satisfy the World Cultures Discovery category requirement.

Music requirements must receive a grade of C- or better.

Code	Title	Credits

MUSI 701	Topics in Music History	
Advanced Music Theory:		3
MUSI 781W	Analysis: Form and Structure	
or MUSI 779	Reading and Writing Musical Scores	
Performance Study (Applied Lessons): select from the following courses		Variable
MUSI 541, MUSI 545, MUSI 546, MUSI 547, MUSI 548, MUSI 549, MUSI 550, MUSI 551, MUSI 552, MUSI 553, MUSI 554, MUSI 555, MUSI 556, MUSI 557, MUSI 558, MUSI 559, MUSI 560, MUSI 561, MUSI 562, MUSI 563, MUSI 564, MUSI 741, MUSI 745, MUSI 746, MUSI 747, MUSI 748, MUSI 749, MUSI 751, MUSI 752, MUSI 753, MUSI 754, MUSI 755, MUSI 756, MUSI 757, MUSI 758, MUSI 759, MUSI 760, MUSI 761, MUSI 762, MUSI 763, MUSI 764		
Performing Ensemble: select from the following courses		Variable
MUSI 441, MUSI 442, MUSI 448, MUSI 450, MUSI 452, MUSI 453, MUSI 454, MUSI 455, MUSI 456, MUSI 457, MUSI 459, MUSI 460, MUSI 462, MUSI 463, MUSI 464		
Total Credits		**38**

1. Students will be given the opportunity to test out of MUSI 471 Theory I, MUSI 475 Functional Piano I, MUSI 476 Functional Piano I and MUSI 575 Functional Piano II, MUSI 576 Functional Piano II.

Bachelor of Music in Performance (Voice)

Degree program has final approval from the National Association of Schools of Music.

Code	Title	Credits
MUED 741	Techniques and Methods in Choral Music	2
MUED 755	Vocal Pedagogy	2
MUSI 520 & MUSI 521	Diction for Singers I and	4
MUSI 701	Topics in Music History	3
MUSI 545/745	Voice (voice lessons) [1]	25
Select 8 credits of the following: [2, 3]		8
MUSI 441	Concert Choir [2]	
MUSI 442	Chamber Singers	
MUSI 448	Vocal Arts Project	
Select one of the following:		8
ITAL 401 & ITAL 402	Elementary Italian I and Elementary Italian II	
GERM 401 & GERM 402	Elementary German I and Elementary German II	
FREN 401 & FREN 402	Elementary French I and Elementary French II	
Total Credits		**52**

1. Three credits of lessons each semester until the student's senior recital semester; then it is 4 credits.
2. Four credits must be MUSI 441 Concert Choir; the remaining 4 credits must be MUSI 441 Concert Choir, MUSI 442 Chamber Singers, or MUSI 448 Vocal Arts Project.
3. Students in the Bachelor of Music Performance program in the vocal track are required to complete 8 credits of ensemble. Students in this program are required to enroll in at least one ensemble in every semester of enrollment at UNH, including at least 4 credits of MUSI 441 Concert Choir, with the remaining credits coming from MUSI 441 Concert Choir, MUSI 442 Chamber Singers, and MUSI 448 Vocal Arts Project.

Bachelor of Music in Performance (Piano)

Degree program has final approval from the National Association of Schools of Music.

Code	Title	Credits
MUED 795	Special Studies	2
Advanced Music Theory [1]		3
MUSI 781W	Analysis: Form and Structure	
Select 3 credits of the following: [2]		3
MUSI 775	Composition	
MUSI 776	Composition	
MUSI 777	Advanced Composition	
MUSI 779	Reading and Writing Musical Scores	
Any 700-level advanced music history or advanced music theory course [2]		3
MUSI 455	Collaborative Piano [3]	4
MUSI 541/741	Piano (piano lessons) [4]	25
Performing Ensemble: select from the following [5]		4
MUSI 441, MUSI 442, MUSI 448, MUSI 450, MUSI 452, MUSI 453, MUSI 454, MUSI 455, MUSI 456, MUSI 457, MUSI 459, MUSI 460, MUSI 462, MUSI 463, MUSI 464		
Total Credits		**44**

1. A B.M. piano performance major must take both MUSI 701 Topics in Music History and MUSI 781W Analysis: Form and Structure.
2. A B.M. piano performance major must take an additional 700-level music history or music theory course.
3. This course will be taken a total of 4 times.
4. Three credits of lessons each semester until the semester of the senior recital; then it is 4 credits.
5. Students in the Bachelor Music Performance program, Piano are required to complete 8 credits of ensemble: 4 of these credits in MUSI 455 Collaborative Piano and 4 of these credits in a conducted ensemble (MUSI 450 Symphony, MUSI 452 Wind Symphony, MUSI 453 Symphonic Band, MUSI 441 Concert Choir, MUSI 442 Chamber Singers, MUSI 460 Jazz Band, MUSI 454 UNH Marching Band).

Bachelor of Music in Performance (All other Instruments)

Degree program has final approval from the National Association of Schools of Music.

Code	Title	Credits
Techniques & Methods: select from the following [1]		2-3
MUED 745	Techniques and Methods in String Instruments	
MUED 747	Techniques and Methods in Woodwind Instruments	
MUED 749	Techniques and Methods in Brass Instruments	
MUED 751	Techniques and Methods in Percussion Instruments	
Select 3 credits of MUSI 700-level Advanced Music History or Advanced Music Theory [2]		3
Performance Study (Applied Lessons): select from the following [3]		25
MUSI 541, MUSI 545, MUSI 546, MUSI 547, MUSI 548, MUSI 549, MUSI 550, MUSI 551, MUSI 552, MUSI 553, MUSI 554, MUSI 555, MUSI 556, MUSI 557, MUSI 558, MUSI 559, MUSI 560, MUSI 561, MUSI 562, MUSI 563, MUSI 564, MUSI 741, MUSI 745, MUSI 746, MUSI 747, MUSI 748, MUSI 749, MUSI 751, MUSI 752, MUSI 753, MUSI 754, MUSI 755, MUSI 756, MUSI 757, MUSI 758, MUSI 759, MUSI 760, MUSI 761, MUSI 762, MUSI 763, MUSI 764		
Performing Ensemble: select from the following [4, 5]		12
MUSI 441, MUSI 442, MUSI 448, MUSI 450, MUSI 452, MUSI 453, MUSI 454, MUSI 455, MUSI 456, MUSI 457, MUSI 459, MUSI 460, MUSI 462, MUSI 463, MUSI 464		
Total Credits		**42-43**

1. B.M. instrumental performance majors take one methods class in the appropriate instrumental family, e.g., a trumpet player would take MUED 749 Techniques and Methods in Brass Instruments, to fulfill this requirement.
2. This is in addition to the advanced music history and advanced music theory class already required.
3. Three credits of lessons are taken each semester until the student's senior recital semester; then it is 4 credits.
4. Students in the Bachelor of Music Performance program in the instrumental track for all instruments except piano are required to complete 12 credits of ensemble. Students in this program are required to enroll in at least one ensemble in every semester of enrollment at UNH, at least 6 of which must be on their primary instrument. Further, instrumentalists specializing in woodwind, brass, string, or percussion instruments should enroll in one credit of a conducted ensemble (MUSI 450 Symphony, MUSI 452 Wind Symphony,MUSI 453 Symphonic Band, MUSI 441 Concert Choir, MUSI 442 Chamber Singers, MUSI 460 Jazz Band, MUSI 454 UNH Marching Band) in every semester of enrollment.

Degree Plan

Sample Degree Plan

This sample degree plan serves as a general guide; students collaborate with their academic advisor to develop a personalized degree plan to meet their academic goals and program requirements.

Student Learning Outcomes

Program Learning Outcomes

- Students will exhibit the skills necessary for artistic expression at the highest possible level as defined by their particular area of concentration in solo and small ensemble (not conducted) and large ensemble (conducted) settings.
- Students will exhibit competency in musicianship and analysis through: their understanding of musical forms and processes; aural, verbal and visual analyses; skill in performance; academic, pedagogical, and compositional applications; rudimentary ability to create derivative or original music.
- Students will demonstrate familiarity with musical literature from the formal concert repertory and from musical traditions outside of that repertory. Students will demonstrate the ability to place music in historical, cultural, and stylistic contexts.
- Students will demonstrate collegiate-level skill in the English language and competence in written and oral communication in English.
- Demonstrate the ability to use technologies current to their area of specialization for professional development and entrepreneurship, and career preparation and promotion.
- Students will demonstrate an understanding of the fundamentals of pedagogy as required in the particular field of study.
- Students in vocal studies will demonstrate competencies in diction and language, as well as interpretive skills, physicality, and stage deportment.
- Students will plan, prepare, and perform a solo recital in collaboration with faculty and staff that includes both organizational elements and artistic preparation.

Pre-Teaching Major (B.M.)

https://www.unh.edu/program/bachelor-music/pre-teaching

Description

The B.M. pre-teaching degree is the program of choice for most students seeking a five-year, combined bachelor's and master's degree program that includes certification to teach music in the public schools. Students will complete all of the skill and knowledge content requirements in this undergraduate program leaving a year-long internship and some advanced study in music and education for the fifth year.

Students applying to the Master of Arts in Teaching program need a cumulative undergraduate grade point average of 3.2 or better to ensure admission to the graduate school. Therefore, students typically apply first to UNH as a B.M. music education major and switch to this B.M. pre-teaching degree in their junior or senior year.

Requirements

Degree Requirements

Minimum Credit Requirement: 128 credits

Minimum Residency Requirement: 32 credits must be taken at UNH

Minimum GPA: 2.0 required for conferral*

Core Curriculum Required: Discovery & Writing Program Requirements

Foreign Language Requirement: No

All Major, Option and Elective Requirements as indicated.
**Major GPA requirements as indicated.*

Major Requirements

Candidates for a degree must satisfy all of the University Discovery Program requirements in addition to satisfying the requirements of the major. B.M. in music majors may use MUSI 502 Musics in Context

to satisfy the Inquiry Discovery category requirement, and MUSI 515 Music in World Cultures to satisfy the World Cultures Discovery category requirement. Additionally, B.M. music education and pre-teaching majors may use MUSI 501 The Western Musical Canon to satisfy the Fine and Performing Arts Discovery category requirement.

All bachelor of music students are required to give a public performance during their senior year, which fulfills the Discovery Program capstone requirement: for students in the pre-teaching option, a half recital is required.

Music requirements must receive a grade of C- or better.

MUSI 781W	Analysis: Form and Structure	
Performance Study (Applied Lessons): select from the following courses		Variable
MUSI 541, MUSI 545, MUSI 546, MUSI 547, MUSI 548, MUSI 549, MUSI 550, MUSI 551, MUSI 552, MUSI 553, MUSI 554, MUSI 555, MUSI 556, MUSI 557, MUSI 558, MUSI 559, MUSI 560, MUSI 561, MUSI 562, MUSI 563, MUSI 564, MUSI 741, MUSI 745, MUSI 746, MUSI 747, MUSI 748, MUSI 749, MUSI 751, MUSI 752, MUSI 753, MUSI 754, MUSI 755, MUSI 756, MUSI 757, MUSI 758, MUSI 759, MUSI 760, MUSI 761, MUSI 762, MUSI 763, MUSI 764		
Performing Ensemble: select from the following courses		Variable
MUSI 441, MUSI 442, MUSI 448, MUSI 450, MUSI 452, MUSI 453, MUSI 454, MUSI 455, MUSI 456, MUSI 457, MUSI 459, MUSI 460, MUSI 462, MUSI 463, MUSI 464		
Total Credits		**39-40**

1 Students will be given the opportunity to test out of MUSI 471 Theory I, MUSI 475 Functional Piano I, MUSI 476 Functional Piano I and MUSI 575 Functional Piano II, MUSI 576 Functional Piano II.

Bachelor of Music Pre-Teaching Curriculum

Degree program has final approval from the National Association of Schools of Music.

Code	Title	Credits
MUED 741	Techniques and Methods in Choral Music	2
MUED 745	Techniques and Methods in String Instruments	2
MUED 747	Techniques and Methods in Woodwind Instruments [1]	2-3
MUED 749	Techniques and Methods in Brass Instruments	2
MUED 751	Techniques and Methods in Percussion Instruments	2
MUED 755	Vocal Pedagogy [2]	2
MUED 765	Instrumental Music Methods [3]	2
MUED 790	Teaching Elementary School Music	3
MUED 791	Teaching Secondary School Music	2
MUSI 520	Diction for Singers I [4]	2
MUSI 732	Conducting	2
MUSI 779	Reading and Writing Musical Scores	3
Performance Study (Applied Lessons): select from the following courses		8
MUSI 541, MUSI 545, MUSI 546, MUSI 547, MUSI 548, MUSI 549, MUSI 550, MUSI 551, MUSI 552, MUSI 553, MUSI 554, MUSI 555, MUSI 556, MUSI 557, MUSI 558, MUSI 559, MUSI 560, MUSI 561, MUSI 562, MUSI 563, MUSI 564, MUSI 741, MUSI 745, MUSI 746, MUSI 747, MUSI 748, MUSI 749, MUSI 751, MUSI 752, MUSI 753, MUSI 754, MUSI 755, MUSI 756, MUSI 757, MUSI 758, MUSI 759, MUSI 760, MUSI 761, MUSI 762, MUSI 763, MUSI 764		
Performing Ensemble: select from the following courses [5, 6, 7]		8
MUSI 441, MUSI 442, MUSI 448, MUSI 450, MUSI 452, MUSI 453, MUSI 454, MUSI 455, MUSI 456, MUSI 457, MUSI 459, MUSI 460, MUSI 462, MUSI 463, MUSI 464		
EDUC 500	Exploring Teaching	4
EDUC 605	Educational Perspectives in Critical Times	4
EDUC 701	Human Development & Learning: Cultural Perspectives	4
EDUC 751B	Methods of Inclusive Secondary Education: Literacies, Learning, and Transitions	4
Total Credits		**58-59**

1 Vocal track students take 2 credits. Instrumental track students take 3 credits.

2 Required for Vocal track.

3 Required for Instrumental track.

4 Required for Vocal track.

5 Students in the Bachelor of Music Education program are required to complete 8 credits of ensemble; a maximum of 8 ensemble credits may be counted towards graduation. Students will enroll in one conducted ensemble (MUSI 450 Symphony, MUSI 452 Wind Symphony,MUSI 453 Symphonic Band, MUSI 441 Concert Choir, MUSI 442 Chamber Singers, MUSI 460 Jazz Band, MUSI 454 UNH Marching Band) in every semester of their enrollment at UNH.

6 of these required ensembles must be on the student's primary instrument and 4 credits must be in a traditional conducted ensemble (MUSI 450 Symphony, MUSI 452 Wind Symphony, MUSI 453 Symphonic Band, MUSI 441 Concert Choir). For instrumentalists, at least 1 semester of participation in MUSI 454 UNH Marching Band) and MUSI 460 Jazz Band are highly desirable.

6 Guitar music education majors will take four semesters of MUSI 464 Guitar Ensemble and four semesters of a traditional conducted ensemble (MUSI 450 Symphony, MUSI 452 Wind Symphony, MUSI 453 Symphonic Band, MUSI 441 Concert Choir). Therefore, guitarists have a minimum of only 4 semesters required on their primary instrument.

7 Piano music education majors will take four semesters of MUSI 455 Collaborative Piano and four semesters of a traditional conducted ensemble (MUSI 450 Symphony, MUSI 452 Wind Symphony, MUSI 453 Symphonic Band, MUSI 441 Concert Choir). Therefore, pianists have a minimum of only 4 semesters required on their primary instrument.

Degree Plan

Sample Degree Plan

This sample degree plan serves as a general guide; students collaborate with their academic advisor to develop a personalized degree plan to meet their academic goals and program requirements.

Pre-Teaching: Choral

First Year

Student Learning Outcomes

Program Learning Outcomes

- Students will exhibit the skills necessary for artistic expression at the highest possible level as defined by their particular area of concentration in solo and small ensemble (not conducted) and large ensemble (conducted) settings.
- Students will exhibit competency in musicianship and analysis through: their understanding of musical forms and processes; aural, verbal and visual analyses; skill in performance; academic, pedagogical, and compositional applications; rudimentary ability to create derivative or original music.
- Students will demonstrate familiarity with musical literature from the formal concert repertory and from musical traditions outside of that repertory. Students will demonstrate the ability to place music in historical, cultural, and stylistic contexts.
- Students will demonstrate collegiate-level skill in the English language and competence in written and oral communication in English.
- Demonstrate the ability to use technologies current to their area of specialization for professional development and entrepreneurship, and career preparation and promotion.

- Students demonstrate ability to lead students to increased musical knowledge and advancing musical performance.
- Students demonstrate knowledge of age-appropriate vocal and instrumental pedagogy.
- Students demonstrate an understanding of best practices and applicable learning theories in music education.
- Students demonstrate the ability to prepare classes and rehearsals via score study and lesson planning that includes awareness of needed modifications.
- Students aurally discern accuracy and expressive elements in student performances.
- Students demonstrate the ability to assess their pupils' learning and progress in conjunction with best educational practices.
- Students are able to assess the success of their own class teaching and rehearsals.

Native American and Indigenous Studies (NAIS)

Programs

- Native American and Indigenous Studies Minor (p. 315)

Native American and Indigenous Studies Minor

https://www.unh.edu/program/minor/native-american-indigenous-studies

Description

As an interdisciplinary minor, Native American and Indigenous studies (NAIS) offers a broad understanding of the history, lands, culture, literature, language and artistic expression, science and technology, race and identity, and social organization and political statuses of Native American and Indigenous peoples within and beyond North America. The minor provides an introduction to Indigenous values and a basis for understanding broad Indigenous issues.

NAIS complements a range of majors, including anthropology, English, history, political science, health and human services, music, psychology, biology, botany, natural resources and sustainability. The UNH Education Abroad program offers a variety of opportunities to UNH students to explore the NAIS minor overseas.

The minor will help students acquire the necessary skills and qualifications for a variety of graduate study and employment opportunities and enhance competitiveness for federal scholarships and programs, such as the Peace Corps, Teach for America or the National Parks Service. Students with NAIS training will be prepared for work with Tribal and Indigenous leaders and officials, public health practitioners and administrators, and/or working with institutions that require employees with cultural and historical sensitivity to Indigenous issues, such as museums or other public institutions. NAIS graduates may also go on to careers with organizations with Indigenous interests in the areas of education, business, arts, government and law, nonprofit and advocacy, and healthcare and science (e.g., the Native American Rights Fund, Native American Arts Council, American Indian Science and Engineering Society).

Requirements

Academic policies related to Minors.

- The minor consists of completing five courses (20 credits).

Code	Title	Credits
Requirements		
NAIS 400	Introduction to Native American and Indigenous Studies [1]	4
Select one of the following options:		16
Option A:		
Select four elective courses from the approved list below		
Option B:		
Select three elective courses from the approved list below [2]		
Select one independent study or credit-bearing internship (HIST 695 or ANTH 700 or other option approved by coordinator)		
Total Credits		**20**

1 Also fulfills World Cultures Discovery requirement
2 Two courses can be from a UNH-approved education abroad program (see below).

Code	Title	Credits
Approved Electives		
AMST 444C	Picturing America: The Arts & Social Change	4
ANTH 412	Broken Pots and Buried Cities: Introduction to World Archaeology	4
ANTH 500	Peoples and Cultures of the World (A: North America and B: Latin America)	4
ANTH 501	World Archaeological Cultures (B: South America)	4
ANTH 513	Ethnographic Methods	4
ANTH 514	Method and Theory in Archaeology	4
ANTH 530	Multispecies Planet: Animals, Plants, and Landscapes Across Cultures	4
ANTH 620	Ritual and Religion of Ancient Mesoamerica	4
ANTH 785	The Anthropology of Dreams and Dreaming	4
BIOL 408	Plants and Civilization	4
ENGL 440A	Honors/On Race in Culture and Society	4
ENGL 550	Introduction to the Literature and Culture of Race	4
HIST 405	History of Early America	4
HIST 498	Explorations of Historical Perspectives	4
HIST 511	History of New Hampshire	4
HIST 532	Modern Latin America	4
HIST 595	Explorations (on an approved topic)	1-4
HIST 600	Explorations (Modern Native America)	4
HIST 603	European Conquest of North America	4
HIST 632	Latin American History: Topics	4
MARI 705	Introduction to Marine Policy: Understanding US Ocean, Coastal and Great Lakes Policy	3
MUSI 515	Music in World Cultures	4
NR 660	Ecology and Biogeography of New Zealand	5
NR 795	Investigations (on an approved topic)	1-4
OUT 515	History of Outdoor Pursuits in North America	4
PSYC 581	Child Development	4
PSYC 791W	Special Topics (on an approved topic)	4
RMP 511	Issues of Wilderness and Nature in American Society (with Forrest Schwartz)	4
SPAN 526	Introduction to Latin American Cultures	4
WGS 505	Survey in Women's Studies (on an approved topic)	4

NAIS UNH-Approved Study Abroad Programs

Thailand-TEAN-Chang Mai; CIEE Khon Kaeo

USAC-Southwest Minzu University (Southwest Universities for Nationalities). Among the courses offered:

- Buddhism and Culture (ANTH/SOC)
- Tibetan Culture and Society (ANTH/SOC
- Guizhou Field Study (ANTH/WLL, 200-level, l credit)

Morocco - IES & CIEE. Courses offered:

- Gender and Society in North Africa and Beyond
- North African Cultural Identities
- Internship/Social Action Seminar
- Islam In Morocco And North Africa (English-taught)
- Arab Media and Issues of Politics and Culture

New Zealand - Otago. Courses offered:

- Maori Studies

Peru - SIT: Indigenous Peoples and Globalization. Courses offered:

- History of Indigenous Cultures in Peru
- Indigenous Peoples in Motion: Changes, Resistance, and Globalization
- Quechua
- Research Methods and Ethics
- Independent Study Project

Senegal -CIEE. Courses offered:

- Contemporary Senegalese Society and Culture
- Intercultural Communication and Leadership (English)
- Environment and Development in Senegal and Sub-Saharan Africa (English)
- Public Health Issues and Challenges in West Africa

Tanzania-CIEE. Courses offered:

- Kiswahili
- Field Research Seminar
- Pre-History, Myths, Legends, and Beliefs of East Africa
- Contemporary Educational Issues in East Africa
- Gender and Development
- History of East Africa
- Poverty Analysis for Socio-economic Development

Bhutan -API at Royal Thimphu College with internship. Courses offered:

- Anthropology of the Himalayas
- Ethnography of Bhutan
- Anthropology of Identity
- Anthropology of Gender
- Kinship and Family
- ASC201: Anthropology of Globalization
- ASC301: Anthropology of Development
- ASC303: Applied Anthropology
- ASC304: Contemporary Issues in Anthropology
- ATH101: Ecological Anthropology
- ATH102: Medical Anthropology
- ATH203: History and Theory of Anthropology
- ATH204: Political Anthropology
- ATH305: Anthropology of Religion and Rituals

Neuroscience and Behavior

Programs

- Neuroscience and Behavior Major (B.S.) (p. 438)

Philosophy (PHIL)

Philosophy has always been at the heart of liberal education, deepening and enriching the lives of those who pursue it. The philosophy major provides students with the opportunity to confront a wide variety of questions, especially those that cannot be dealt with in the framework of other disciplines. Such questions include those about the ultimate nature of reality: Does God exist? Are minds distinct from bodies? Are there more things between heaven and Earth than are dreamed of in science? Other questions probe what it is to know: Do we know that material bodies external to our minds exist? What does it mean to justify a belief? Still other questions are about how we ought to be or act: What is a good person? Are there moral rules? How are they justified? Must we obey them?

Philosophy also concerns itself with other disciplines: What makes something a work of art? What distinguishes a scientific theory from a religious theory or myth? Is capitalism amoral? Is legal authority moral or political?

The Department of Philosophy offers a wide range of courses exposing students to the full scope of philosophical activity. Grappling with major primary texts from the history of philosophy is an important emphasis of the program, for philosophy today is the continuation of a conversation that extends back to the ancient Greeks and the Vedic scriptures. Philosophy also always has wrestled with cutting-edge topics emerging in the current culture. Some recent examples are: What are the prospects for machines with mental lives? What are the implications of new views in cosmology? How do we handle the pressing ethical dilemmas brought on by emerging medical technologies, or by the historically unparalleled rate of destruction of the Earth's environment? Are gender and race socially constructed concepts rather than biological concepts?

Options in the Major

Students may select one of three options for the philosophy major, but are not required to do so. The options do not add additional requirements to the general philosophy major, but rather focus philosophy electives in a specific area.

- The **ethics and social responsibility (ESR) option** provides official recognition for those who choose to emphasize concern with moral responsibility in personal and social contexts, including the political and corporate arenas. You will choose courses in environmental ethics, law, evolution, social and political philosophy, and feminism.
- The **business, innovation, and technology (BIT) option** provides official recognition for those who choose to emphasize the study of the relationships between markets, technology, and human well-being. You will choose courses in the philosophy of artificial intelligence, evolution, neuroscience, biotechnology, business ethics, economic policy, environmental ethics and other high-impact subjects.

- The **political and legal philosophy (PLP) option** provides official recognition for those who choose to emphasize the systematic study of the fundamental philosophical questions regarding politics, law and justice, and how they apply to contemporary issues. You will choose courses in the nature of justice, limits of state power, balancing liberty and equality, capitalism vs. socialism, authoritarian challenges to democracy, fascism and antifascism, privacy, freedom of expression, police ethics, justifications for punishment, racial and gender injustice, wealth inequality and crime, immigration, and other issues at the interface of ethics, justice, law and states.

Research

Students are strongly encouraged to consider the possibility of presenting research at the Philosophy Department Undergraduate Research Conference and/or fulfilling an undergraduate research grant. This is especially encouraged for students considering graduate school in philosophy.

Graduate Preparatory Emphasis

This emphasis is strongly recommended for students who plan to do graduate work in philosophy. Beyond the ten (10) courses required for the major, such students should select, with their adviser's approval, two additional philosophy courses above the 400-level, for a total of twelve (12) courses. Consult the Department of Philosophy website for additional graduate school planning information.

Honors in Philosophy

To graduate "With Honors" in philosophy, students will be expected to complete their philosophy capstone requirement; complete two additional 700-level PHIL courses (The 700-level course options will vary depending upon which departmental honors option [thesis or portfolio] the student fulfills; they will be expected to have an overall GPA of 3.5 or above; they will engage in independent study and research (under the supervision of a faculty member) beyond the requirements of their coursework; and, they will be expected to present and defend a culminating project to the department's faculty. Consult the Department of Philosophy website for more details.

Distinction on Senior Thesis

Distinction on Senior Thesis is granted by a unanimous determination of the student's committee that the thesis exceeds A-level work and is worthy of special recognition.

https://cola.unh.edu/philosophy

Programs

- Philosophy Major (B.A.) (p. 317)
- Philosophy Major: Business, Innovation & Technology Option (B.A.) (p. 319)
- Philosophy Major: Ethics and Social Responsibility Option (B.A.) (p. 321)
- Philosophy Major: Political and Legal Philosophy Option (B.A.) (p. 323)
- Philosophy Minor (p. 326)
- Philosophy of Business, Innovation, & Technology Cognate (p. 240)
- Political and Legal Philosophy Cognate (p. 240)

Faculty

Philosophy Department Faculty

Philosophy Major (B.A.)

https://www.unh.edu/program/bachelor-arts/philosophy

Description

UNH philosophy majors acquire the ability to think systematically and imaginatively about fundamental and enduring issues such as morality, justice, happiness, beauty, gender, race, nature, artificial intelligence, space, time, and the meaning of life and death. Our internationally-renowned professors emphasize discussion, debate and writing in our courses. Wrestling with the “big questions” from diverse and global perspectives will prepare you exceptionally well for a variety of fulfilling careers. A lively and nurturing community personally invested in the success of our high achieving students, we take pride in watching our graduates excel in top law and graduate schools, innovative social justice programs, and various positions from Wall Street to Silicon Valley and beyond that seek hard workers who can think rigorously and communicate clearly.

Requirements

Degree Requirements

Minimum Credit Requirement: 128 credits

Minimum Residency Requirement: 32 credits must be taken at UNH

Minimum GPA: 2.0 required for conferral*

Core Curriculum Required: Discovery & Writing Program Requirements

Foreign Language Requirement: Yes

All Major, Option and Elective Requirements as indicated.
**Major GPA requirements as indicated.*

Major Requirements

Majors must take a minimum of ten (10) philosophy courses, for a total of 40 credits. A single course can satisfy multiple requirements for the major. The required minimum overall GPA in major coursework is 2.00 and minimum grade of C- for all courses counting toward the major. Candidates for a degree must satisfy additional University requirements for graduation, such as:

1. University "Writing Intensive" Requirements,
2. Philosophy majors must satisfy the language requirement for the B.A., as a part of their liberal arts education. See the UNH Advising Handbook for how students may satisfy this requirement. Students who would like to satisfy this requirement with a language not offered by COLA (such as American Sign Language) should speak with their advisor about how to petition for an exception,
3. minimum number of credits (128 credits for B.A. degree), and
4. University Discovery Requirements.

Consult with your advisor early and often to plan the optimal path for fulfilling major and University requirements.

Code	Title	Credits
Core Requirements		
PHIL 412	Beginning Logic	4
PHIL 500	Workshop	4
PHIL 530	Ethics	4
PHIL 570	Ancient Philosophy	4
PHIL 580	Modern Philosophy from Descartes to Kant	4
Electives [1]		
Select three (3) additional philosophy courses of the student's choice.		12
Discovery Capstone Requirement		
Select two (2) 700-level philosophy courses (excluding PHIL 795, PHIL 798, and PHIL 799) of the student's choice, at least one of these should be taken in the senior year		8
Total Credits		**40**

[1] PHIL 495 Tutorial Reading and PHIL 795 Independent Study normally do not count toward fulfilling major requirement credits; exceptions may be granted by special permission.

Note that it is in the nature of 700-level seminars to presuppose by default that students have completed the main 400-level and 500-level core requirements (PHIL 412 Beginning Logic, PHIL 500 Workshop, PHIL 530 Ethics, PHIL 570 Ancient Philosophy, PHIL 580 Modern Philosophy from Descartes to Kant) and so free reference is made to materials, views, techniques, etc. covered in those lower-level core requirements.

Discovery Requirements

For students majoring in only philosophy: philosophy majors may "double count" any two courses toward the major and also to satisfy Discovery requirements. For example, a philosophy major can count (1) PHIL 412 Beginning Logic toward the major requirement as well as using this course to satisfy the Quantitative Reasoning Discovery Category and (2) they can also count PHIL 421 Philosophy and the Arts toward both the major and the Fine and Performing Arts Discovery Category. Because PHIL 412 Beginning Logic and PHIL 570 Ancient Philosophy are required for the major and also satisfy Quantitative Reasoning and Humanities Categories, respectively, all majors could simply count these two courses toward their Discovery requirements. In various circumstances—for instance if a student already satisfied those Discovery requirements before becoming a philosophy major—one might prefer to count other philosophy courses toward different Discovery Categories, and they are free to do so.

For students double majoring with philosophy: The Department sets no limits on how many courses students may "double count" toward both the philosophy major and Discovery categories if philosophy is your **second** major. A double major with philosophy as the second major could in principle count any of the following courses toward the major while satisfying five Discovery Categories:

1. **Quantitative Reasoning (QR)** Discovery Category could be satisfied by PHIL 412 Beginning Logic.
2. **Fine and Performing Arts (FPA)** Discovery Category could be satisfied by PHIL 421 Philosophy and the Arts.
3. **Humanities (HUMA)** Discovery Category could be satisfied by PHIL 401 Introduction to Philosophy, PHIL 405 Critical Thinking, PHIL 410 Happiness, Well-Being , and a Good Life, PHIL 419 Race, Gender and Social Justice, PHIL 420 Introduction to Philosophy of Law and Justice, PHIL 430 Ethics and Society, PHIL 431 Business Ethics, PHIL 436 Social and Political Philosophy, PHIL 440A Honors/ Who Are You? Personal Identity and Humanity, PHIL 440B Honors/ Who's Human Now?, PHIL 510 Philosophy and Feminism, PHIL 525 Existentialism, PHIL 531 Topics in Professional and Business Ethics, or PHIL 570 Ancient Philosophy.
4. **World Cultures (WC)** Discovery Category could be satisfied by PHIL 440C Honors/The Copernican Lens: Finding a Place for Humanity or PHIL 520 Introduction to Eastern Philosophy.
5. **Environment, Technology, and Society (ETS)** Discovery Category could be satisfied by PHIL 424 The Future of Humanity: Science, Technology, and Society, PHIL 435 Human Nature and Evolution, PHIL 447 A.I., Robots, and People, or PHIL 450 Environmental Ethics.

Student Learning Outcomes

UNH philosophy majors acquire the ability to think systematically and imaginatively about fundamental and enduring issues such as morality, justice, happiness, beauty, gender, race, nature, artificial intelligence, space, time, and the meaning of life and death. Our internationally-renowned professors emphasize discussion, debate and writing in our courses. Wrestling with the “big questions” from diverse and global perspectives prepares students exceptionally well for a variety of fulfilling careers. Cultivating a lively and nurturing community personally invested in the success of our high achieving students, we take pride in watching our graduates excel in top law and graduate schools, innovative social justice programs, and various positions from Wall Street to Silicon Valley.

The main way we oversee student progress is through close mentorship, early on in our 2nd year orientation designed for new majors (PHIL 500 Workshop), and culminating in their presentation of research in two required 700-level seminars. We also strongly encourage participation in the annual Philosophy Department Undergraduate Research Conference.

Program Learning Outcomes

- Students understand major philosophers and philosophical ideas accurately.
- Students apply their understanding of ideas in novel contexts.
- Students write effectively.
- Students speak effectively.
- Students argue with depth, precision, balance, and insight.
- Students understand the formal structure of arguments and understand rules of inference.
- Students read analytically, critically, and empathetically.
- Students critically assess their own preconceptions, commitments and ideas.

Philosophy Major: Business, Innovation & Technology Option (B.A.)

https://www.unh.edu/program/bachelor-arts/philosophy-business-innovation-technology

Description

While completing the philosophy major, students may select the option in Philosophy of Business, Innovation and Technology. This option provides official recognition for those who choose to emphasize the study of the relationships between markets, technology and human well-being. Students will choose courses in the philosophy of artificial intelligence, evolution, neuroscience, biotechnology, business ethics, economic policy, environmental ethics and other high impact subjects.

Requirements

Degree Requirements

Minimum Credit Requirement: 128 credits

Minimum Residency Requirement: 32 credits must be taken at UNH

Minimum GPA: 2.0 required for conferral*

Core Curriculum Required: Discovery & Writing Program Requirements

Foreign Language Requirement: Yes

All Major, Option and Elective Requirements as indicated.
**Major GPA requirements as indicated.*

Major Requirements

Students must fulfill the requirements of the philosophy major plus the requirements of the option. Majors must take a minimum of ten (10) philosophy courses, for a total of 40 credits. A single course can satisfy multiple requirements for the major. The required minimum overall GPA in major coursework is 2.00 and the minimum grade for all courses counting toward the major is a "C-." Candidates for a degree must satisfy additional University requirements for graduation, such as:

1. University "Writing Intensive" Requirements,
2. Philosophy majors must satisfy the language requirement for the B.A., as a part of their liberal arts education. See the UNH Advising Handbook for how students may satisfy this requirement. Students who would like to satisfy this requirement with a language not offered by COLA (such as American Sign Language) should speak with their advisor about how to petition for an exception,
3. minimum number of credits (128 credits for B.A. degree), and
4. University Discovery Requirements.

Consult with your advisor early and often to plan the optimal path for fulfilling major and University requirements.

Code	Title	Credits
Core Requirements		
PHIL 412	Beginning Logic	4
PHIL 500	Workshop	4
PHIL 530	Ethics	4

PHIL 570	Ancient Philosophy	4
PHIL 580	Modern Philosophy from Descartes to Kant	4
Electives [1]		
Select three (3) additional philosophy courses of the student's choice.		12
Discovery Capstone Requirement		
Select two (2) 700-level philosophy courses (excluding PHIL 795, PHIL 798, and PHIL 799) of the student's choice, at least one of these should be taken in the senior year		8
Total Credits		**40**

[1] PHIL 495 Tutorial Reading and PHIL 795 Independent Study normally do not count toward fulfilling major requirement credits; exceptions may be granted by special permission.

Business, Innovation, and Technology Option Requirements

This option requires **four (4)** Philosophy courses **(for a total of 16 credits)** from those listed below. Any of these courses can also count toward the general requirements of the Philosophy major, for example, by counting **three (3)** of these courses as the elective courses required for the major.

Code	Title	Credits
Requirements		
Select four courses from the following:		16
PHIL 405	Critical Thinking	
PHIL 419	Race, Gender and Social Justice	
PHIL 420	Introduction to Philosophy of Law and Justice	
PHIL 421	Philosophy and the Arts	
PHIL 424	The Future of Humanity: Science, Technology, and Society	
PHIL 424H	Honors/The Future of Humanity: Science, Technology, and Society	
PHIL 430	Ethics and Society	
PHIL 430W	Ethics and Society	
PHIL 431	Business Ethics	
PHIL 435	Human Nature and Evolution	
PHIL 436	Social and Political Philosophy	
PHIL 436H	Honors/Social and Political Philosophy	
PHIL 436W	Social and Political Philosophy	
PHIL 440B	Honors/Who's Human Now?	
PHIL 447	A.I., Robots, and People	
PHIL 450	Environmental Ethics	
PHIL 531	Topics in Professional and Business Ethics	
PHIL 630	Neuroscience and Philosophy	
PHIL 660	Law, Medicine, and Ethics	
PHIL 780	Special Topics [1]	

[1] By permission because only some sections of this course will count toward the major option.

Note that it is in the nature of 700-level seminars to presuppose by default that students have completed the main 400-level and 500-level core requirements (PHIL 412 Beginning Logic, PHIL 500 Workshop, PHIL 530 Ethics, PHIL 570 Ancient Philosophy, PHIL 580 Modern Philosophy from Descartes to Kant) and so free reference is made to materials, views, techniques, etc. covered in those lower-level core requirements.

Discovery Requirements

For students majoring in only philosophy: philosophy majors may "double count" any two courses toward the major and also to satisfy Discovery requirements. For example, a philosophy major can count (1) PHIL 412 Beginning Logic toward the major requirement as well as using this course to satisfy the Quantitative Reasoning Discovery Category and (2) they can also count PHIL 421 Philosophy and the Arts toward both the major and the Fine and Performing Arts Discovery Category. Because PHIL 412 Beginning Logic and PHIL 570 Ancient Philosophy are required for the major and also satisfy Quantitative Reasoning and Humanities Categories, respectively, all majors could simply count these two courses toward their Discovery requirements. In various circumstances—for instance if a student already satisfied those Discovery requirements before becoming a philosophy major—one might prefer to count other philosophy courses toward different Discovery Categories, and they are free to do so.

For students double majoring with philosophy: The Department sets no limits on how many courses students may "double count" toward both the philosophy major and Discovery categories if philosophy is your **second** major. A double major with philosophy as the second major could in principle count any of the following courses toward the major while satisfying five Discovery Categories:

1. **Quantitative Reasoning (QR)** Discovery Category could be satisfied by PHIL 412 Beginning Logic.
2. **Fine and Performing Arts (FPA)** Discovery Category could be satisfied by PHIL 421 Philosophy and the Arts.
3. **Humanities (HUMA)** Discovery Category could be satisfied by PHIL 401 Introduction to Philosophy, PHIL 405 Critical Thinking, PHIL 410 Happiness, Well-Being , and a Good Life, PHIL 419 Race, Gender and Social Justice, PHIL 420 Introduction to Philosophy of Law and Justice, PHIL 430 Ethics and Society, PHIL 431 Business Ethics, PHIL 436 Social and Political Philosophy, PHIL 440A Honors/ Who Are You? Personal Identity and Humanity, PHIL 440B Honors/ Who's Human Now?, PHIL 510 Philosophy and Feminism, PHIL 525 Existentialism, PHIL 531 Topics in Professional and Business Ethics, or PHIL 570 Ancient Philosophy.
4. **World Cultures (WC)** Discovery Category could be satisfied by PHIL 440C Honors/The Copernican Lens: Finding a Place for Humanity or PHIL 520 Introduction to Eastern Philosophy.
5. **Environment, Technology, and Society (ETS)** Discovery Category could be satisfied by PHIL 424 The Future of Humanity: Science, Technology, and Society, PHIL 435 Human Nature and Evolution, PHIL 447 A.I., Robots, and People, or PHIL 450 Environmental Ethics.

Philosophy Major: Political and Legal Philosophy Option (B.A.)

https://www.unh.edu/program/bachelor-arts/philosophy-political-legal-philosophy

Description

The political and legal philosophy option in the philosophy major gives students interested in politics, law and justice the opportunity to focus their philosophy major courses around their interests in a systematic and rigorous way. Philosophy has long been a major for high-achieving students interested in law, and our graduates are admitted regularly to top law schools such as Harvard, Yale, Stanford, University of Chicago,

NYU and Duke, among others. We are also a home for UNH students interested and active in political philosophy. Our faculty members have considerable expertise in both political and legal philosophy, with some serving on UNH's pre-law advisory committee.

Requirements

Student Learning Outcomes

UNH philosophy majors acquire the ability to think systematically and imaginatively about fundamental and enduring issues such as morality, justice, happiness, beauty, gender, race, nature, artificial intelligence, space, time, and the meaning of life and death. Our internationally-renowned professors emphasize discussion, debate and writing in our courses. Wrestling with the "big questions" from diverse and global perspectives prepares students exceptionally well for a variety of fulfilling careers. Cultivating a lively and nurturing community personally invested in the success of our high achieving students, we take pride in watching our graduates excel in top law and graduate schools, innovative social justice programs, and various positions from Wall Street to Silicon Valley.

The main way we oversee student progress is through close mentorship, early on in our 2nd year orientation designed for new majors (PHIL 500 Workshop), and culminating in their presentation of research in two required 700-level seminars. We also strongly encourage participation in the annual Philosophy Department Undergraduate Research Conference.

Program Learning Outcomes

- Students understand major philosophers and philosophical ideas accurately.
- Students apply their understanding of ideas in novel contexts.
- Students write effectively.
- Students speak effectively.
- Students argue with depth, precision, balance, and insight.
- Students understand the formal structure of arguments and understand rules of inference.
- Students read analytically, critically, and empathetically.

- Students critically assess their own preconceptions, commitments and ideas.

Philosophy Minor

https://www.unh.edu/program/minor/philosophy

Description

UNH philosophy minors acquire the ability to think systematically and imaginatively about fundamental and enduring issues such as morality, justice, happiness, beauty, gender, race, nature, artificial intelligence, space, time, and the meaning of life and death. Our internationally-renowned professors emphasize discussion, debate and writing in our courses. Wrestling with the "big questions" from diverse and global perspectives will prepare you exceptionally well for a variety of fulfilling careers. A lively and nurturing community personally invested in the success of our high achieving students, we take pride in watching our graduates excel in top law and graduate schools, innovative social justice programs, and various positions from Wall Street to Silicon Valley and beyond that seek hard workers who can think rigorously and communicate clearly.

Requirements

Academic policies related to Minors.

- The philosophy minor consists of completing five (5) philosophy courses (20 credits).

Required Courses

Code	Title	Credits
PHIL course at 500-level or higher		4
Four elective PHIL courses		16
Total Credits		**20**

PHIL 495 Tutorial Reading and PHIL 795 Independent Study may be used towards the minor only with special approval.

Political Science & International Affairs (PSIA)

The study of political science includes the study of politics, power, and governance. Students have the opportunity to study both formal and informal institutions of government, political behavior, civil society, public policy, international relations, democratization, crime and punishment, political economy, and comparative political development. Political science provides a strong foundation for informed citizenship and civic engagement. The study of political science is particularly valuable to students planning to enter local, state, or national government; the Foreign Service; law school and the legal profession; non-governmental organizations; political campaigns; and careers in the security/intelligence sector. The major also enhances cognitive abilities, writing, public speaking, critical thinking, and analytical skills.

Internships and Advanced Study

In addition to regularly scheduled courses, the department offers advanced study in Political Science and International Affairs, internships, and experiential learning. Interested students should contact our department advisor, Heather Austin (heather.austin@unh.edu), to learn about the course offerings for a given semester.

Students have engaged in exciting internship opportunities that explore various aspects of government, policy-making, the legal system, and interest groups. These internships provide students with the opportunity to engage with issues at the local, state, national, and international levels. Students must have junior or senior standing and normally have a 3.2 grade point average (GPA) or higher to be eligible for consideration. Students interested in internships should consult with faculty or our department advisor.

Political Science Language Requirement

The bachelor of arts degree at the University of New Hampshire requires that a student satisfy the foreign language proficiency requirement. See Foreign Language Requirement (p. 45) for the full description of this requirement.

The Department of Political Science does not allow American Sign Language (ASL) to count toward the language requirement.

Exceptions to this must be petitioned and approved by the Department of Political Science and International Affairs' undergraduate committee and the student's advisor.

Accelerated M.A. Degree Program

The Accelerated MA program aims to:

1. Improve opportunities for excellent undergraduates to prepare for competitive Ph.D. programs or add an additional credential before entering a competitive job market; and
2. Allow students interested in politics to advance and further specialize their political science education in only one additional year at UNH.

Students must fulfill all programmatic requirements for the current master's degree program, as well as fulfill all programmatic requirements for their bachelor's degree. Students may double-count up to 12 undergraduate credits (i.e., 3 courses) toward the completion of the MA degree.

Interested students must submit a full graduate application by February 15 of their junior year. Minimum GPA required for admission is 3.2.

For additional information you may contact the graduate coordinator, Prof. Mary Malone (mary.malone@unh.edu) or Heather Austin (heather.austin@unh.edu), (603) 862-1767.

Global Studies Dual Major

https://www.unh.edu/program/dual-major/global-studies

Description

The Global Studies dual major complements and adds a global dimension to any major at UNH. The completion of the dual major requires no additional credits for graduation beyond the 128 required of all UNH students.

Note: The Department of Civil Engineering has developed a dual-major program in civil engineering and Global Studies. Students do not need to have pre-existing skills in a foreign language before coming to UNH.

Requirements

Degree Requirements

Minimum Credit Requirement: 128 credits

Minimum Residency Requirement: 32 credits must be taken at UNH

Minimum GPA: 2.0 required for conferral*

Core Curriculum Required: Discovery & Writing Program Requirements

Foreign Language Requirement: Yes, if primary major is a Bachelor of Arts

Declared Primary Major

All Major, Option and Elective Requirements as indicated.
**Major GPA requirements as indicated.*

Global Studies Dual Major Requirements

All coursework required for Global Studies must be completed with a grade of C or better.

Students who wish to declare the Global Studies dual major must earn a C or better in IA 401, have declared a primary major, and have a 2.5 cumulative grade-point average. Students are expected to maintain at least a 2.5 grade-point average, the minimum required for study abroad at UNH.

Code	Title	Credits
Required Core Courses		
IA 401	Foundations of International and Global Studies	4
IA 501	From Ideas to Evidence: Researching Global Issues	4
IA 701	Investigating the World: Seminar in International Affairs and Global Studies	4
Select one of the following:		4
ECON 401	Principles of Economics (Macro)	
ECON 402	Principles of Economics (Micro)	
NR 411	Environmental and Resource Economics Perspectives	
Global Studies Language Requirement [1]		variable
International Experience - Study Abroad [2]		variable
Electives - see list below		
Select one course from each category list, plus one more course from either category (3 courses total):		12
Politics, Culture, & History		
Science, Environment, Economy, & Health		

1 **Global Studies Language Requirement**
GS majors must demonstrate functional reading, writing, and speaking ability equivalent to intermediate II (level 504 at UNH). Students may take placement tests to establish proficiency. Native second language speakers are exempt from this requirement - speak to a GS advisor. Language study may be pursued at UNH; through study abroad in the summer, J-term, or academic year; or through transfer credits from other institutions with the permission of an GS advisor.

2 **International Experience - Study Abroad**
The international experience must be a minimum of eight weeks and is usually completed prior to taking IA 701 Investigating the World: Seminar in International Affairs and Global Studies. Students may spend an academic year, semester, or summer taking classes in an academic institution, doing an internship with a private or public organization, or conducting purposeful travel/research independently. Students must meet with the Study Abroad Advisors at the Global Education Center to plan their international experience, typically a year in advance of study abroad.

Electives (three total)

- Select one elective course from the Politics, Culture, and History category list.
- Select one elective course from the Science, Environment, Economy and Health category list.
- Select one additional elective course from either category list.

Electives are offered across the university and may be used to fulfill Discovery, Honors Program and/or other minor requirements. Up to 8 credits may be double counted between your primary major and the dual major. Additional courses taken in the primary major may count for the dual major if the courses are not counted toward the primary major requirements. Electives may be taken at UNH, during the international experience, or transferred from another university with the permission of the Global Studies advisor.

Student Learning Outcomes

Program Learning Outcomes

- Demonstrate intermediate level proficiency in a foreign language;
- Apply different disciplinary approaches to the study of international affairs, including key themes and theoretical frameworks employed in these disciplines;
- Use critical thinking skills to analyze and discuss important global issues;
- Engage with cultural diversity and complexity through the international experience;
- Demonstrate familiarity with different types of data and sources and their appropriate use in analyzing selected topics in international affairs;
- Demonstrate competence in research design. Students will develop inquiry-based research questions, conduct a literature review, employ appropriate methods and data collection, and interpret their findings accurately.

Global Studies Minor

https://www.unh.edu/program/minor/global-studies

Description

The Global Studies (GS) minor adds a recognized distinction and global context to your primary major at UNH. It was developed for those students who, due to the demands of their primary majors, are unable to complete the more rigorous requirements of the GS dual major.

Requirements

Academic policies related to Minors.

Students must earn a C or better in all GS course requirements and have a 2.5 cumulative grade-point average.

Code	Title	Credits
Required Core Courses		
IA 401	Foundations of International and Global Studies	4
Select one course from the following:		4
ECON 401	Principles of Economics (Macro)	
ECON 402	Principles of Economics (Micro)	
NR 411	Environmental and Resource Economics Perspectives	
Global Studies Language Requirement [1]		4
International Experience - Study Abroad [2]		
Electives		
Select one course from each category list (2 courses total): [3]		8
Politics, Culture, & History		
Science, Environment, Economy, & Health		
Total Credits		**20**

[1] **Global Studies Language Requirement**
Functional reading, writing, and speaking ability equivalent to a first-year, second-semester college level (402). Students may take placement tests to establish equivalency, include language study during the international experience, or transfer credits from other institutions.

[2] **International Experience - Study Abroad**
Minimum of three weeks (or 4 credits). The international experience may include study, directed research, internship or service/volunteer experience abroad. Students should plan with the study abroad advisors (study.abroad@unh.edu) to plan for their international experience well in advance.

[3] See elective category lists under the Global Studies dual major heading. Elective courses may count toward Discovery, Honors, Writing Intensive and major requirements.

International Affairs Major (B.A.)

https://www.unh.edu/program/bachelor-arts/international-affairs

Description

International affairs is the focused study of global issues, drawing on approaches from political science, history, economics, anthropology and related fields. Students acquire the substantive knowledge, practical skills, and real-world experience to address critical issues in international affairs, such as war and diplomacy, climate change and biodiversity, human rights and women's rights, refugees and migration, and inequality and poverty.

Students can focus their studies in one of the following thematic tracks: global development and environment; international security; global ethnic, race, and diversity studies; global health and education; regional or transnational studies in the Middle East, Latin America, Africa, or Asia. The major in IA thus provides students theoretical approaches grounded in the empirical study of places and peoples.

Requirements

Degree Requirements

Minimum Credit Requirement: 128 credits

Minimum Residency Requirement: 32 credits must be taken at UNH

Minimum GPA: 2.0 required for conferral*

Core Curriculum Required: Discovery & Writing Program Requirements

Foreign Language Requirement: Yes

1 **International Affairs Language Requirement**
Students must take a minimum of two language courses and reach level 504 (intermediate II) in the language of their choosing. Students who have reached level 504 with one language course must substitute another course (from the approved list) in order to fulfill the required 40 credit hours for the major. Language study may be pursued at UNH; through study abroad in the summer, J-term, or academic year; or through transfer credits from other institutions with the permission of an IA advisor. Native speakers of a language other than English may fulfill this requirement with alternative classes by permission - please discuss with an IA advisor.

2 We highly recommend that students select all three elective courses within the same track to develop a more focused and cohesive area of study. However, students with diverse interests in international affairs

may choose electives from different tracks to broaden their academic experience.

1. Electives can be courses towards a minor, second major, or other experiences to supplement the primary major and should be selected in consultation with an advisor.
2. IA Capstone can be an internship, study abroad, or an addition 700-level course, depending on the student's interests and timeline, and are selected in consultation with an advisor. The exact timing of an IA Capstone often varies depending on these factors.

Student Learning Outcomes

Program Learning Outcomes

- Apply different disciplinary approaches to the study of international affairs, including key themes and theoretical frameworks employed in these disciplines;
- Use critical thinking skills to analyze and discuss important global issues;
- Engage with cultural diversity and complexity through the international experience;
- Demonstrate familiarity with different types of data and sources and their appropriate use in analyzing selected topics in international affairs;
- Demonstrate competence in research design. Students will develop inquiry-based research questions, conduct a literature review, employ appropriate methods and data collection, and interpret their findings accurately.

International Security Minor

https://www.unh.edu/program/minor/international-security

Description

The International Security minor will provide students with the opportunity to explore the many dimensions of international security through course work in political science, history, and other closely-related disciplines. Students will work with and learn from faculty conducting novel research on topics such as: the arms trade, ethnic conflict, drug-

related violence, human security, and conflicts in regions throughout the war.

Students who successfully complete this major will be well-versed in contemporary international security issues and will learn critical thinking and analysis skills applicable to a wide range of careers. Leaders at all levels count on staff with analytical skills who can communicate effectively with policy-makers. Career paths open to our graduates include: the foreign service, intelligence agencies, international organizations, the UN, journalism, think tank research, law, risk analysis, and business.

Requirements

Academic policies related to Minors.

The minor consists of completing five courses (20 credits).

- Students must receive a grade of C or better for a course to count toward the minor requirements.
- Political science majors pursuing the minor can only double count up to two of the three required Political Science courses below. The third required course must be taken in addition to courses taken to fulfill major requirements.

Political Science Major (B.A.)

https://www.unh.edu/program/bachelor-arts/political-science

Description

The study of government and politics, to which the courses and seminars of the Department of Political Science are devoted, includes the development of knowledge of political behavior by individuals and groups as well as knowledge about governments: their nature and functions, their problems and behavior, and their interactions—at the national and international levels as well as local, state, and regional levels.

Much of the learning offered by the Department of Political Science can also be regarded as essential for good citizenship, since political knowledge helps to explain the formal and informal institutions by which we are governed and the forces that lead to policy decisions, and also seeks to clarify the issues and principles that encourage people toward political involvement. In addition, such learning is especially valuable to students planning to enter local or national government or other public service related fields, including the Foreign Service, and it will be of great help to those who intend to study law and enter the legal profession. For teaching, particularly at the college level, and for many types of government service, graduate work may be indispensable. An undergraduate major in political science will provide a helpful foundation for any further study of politics and related fields in the social sciences and humanities. Such an emphasis will also be valuable for students seeking careers in journalism, international organizations, and the public affairs and administrative aspects of labor, financial, and business organizations.

Requirements

Degree Requirements

Minimum Credit Requirement: 128 credits

Minimum Residency Requirement: 32 credits must be taken at UNH

Minimum GPA: 2.0 required for conferral*

Core Curriculum Required: Discovery & Writing Program Requirements

Foreign Language Requirement: Yes

All Major, Option and Elective Requirements as indicated.
**Major GPA requirements as indicated.*

Major Requirements

The major in political science consists of at least 10 courses (40 credits) and not more than 12 courses (48 credits).

The minimum grade requirement is C- per course. Any grade lower than a C- will not count toward the major. The required minimum overall GPA for major coursework is 2.0.

Political Science majors may use one major-required course to satisfy one Discovery category requirement.

POLT 762	International Political Economy	
POLT 778	International Organization	
POLT 797E	Seminar in International Politics	
Subfield: Methods		
POLT 595	Smart Politics	
POLT 700	Political Science Pro-Seminar	
Discovery Program Capstone		
Select one 700-level POLT course		4
Total Credits		**40**

1 Once students declare the major, three of the following four courses, POLT 401, POLT 402, POLT 403, POLT 404 must be completed within the first calendar year.
Note: POLT 440A, POLT 444, POLT 444B do not count toward the major.

2 Students can take any POLT course at the intermediate level or higher (500-799) to count toward elective credit.
ECON 402 or ECON 605 and ECON 401 or ECON 611 may also be used to fulfill the fifth or sixth elective in this sequence. Additional economics courses will be considered by petition. Only one economics course can count toward this requirement. If students substitute an economics course for a POLT 500-level course, the economics course cannot be used to satisfy Discovery Program category requirements.

[1] Electives can be classes towards a minor, a second major, or other experiences to supplement your primary major and should be chosen in consultation with your advisor.

Student Learning Outcomes

Program Learning Outcomes

- Knowledge Base: a proficient knowledge base of the five subfields of Political Science including American Government, Political Theory, Comparative Politics, International Relations, and Methods. Areas of strength include the study of public opinion, comparative politics and international relations, political economy, environmental politics, Latin American politics, Middle Eastern politics, and Asian politics. In this regard, the program fosters the development of a strong empirical foundation through multiple levels of courses.
- Research Skills: A second goal is to advance the students' abilities to understand and use basic political science research skills. These include computer literacy, knowledge of credible sources of information, basic statistical applications, and support for foreign language proficiency. We also strive to help students identify interesting and important research questions clearly and concisely, gather and assess various types of information, and come to well-reasoned conclusions.
- Critical Thinking: The third objective involves enhancement of student cognitive abilities and critical thinking. We hone the ability to analyze, assess, and reconstruct findings in written, oral, and graphical form. We strive to promote students who are self-disciplined thinkers who understand the rigorous standards of research, are intelligent consumers of political information, and are able to understand and weigh multiple perspectives and interpretations.
- Communication Skills: Another aim is to enhance the written and oral communication skills of our students. We support the goals of the writing intensive requirement and expose students to different genres and conventions in academic writing. Most 500 and 700-level courses emphasize cultivating strong writing and reading skills, while at the 700-level, student engagement in sustained discussion becomes the centerpiece of instruction in many seminars. Writing instruction includes emphasis not only on research papers but on short analytical essays, précis, and reviews that ask students to synthesize complex information, develop arguments, and delve more deeply into interpretation. In some courses, part of this work includes iterated practice of grammar and stylistic choices through revision and proposal assignments.
- Professional Socialization and Support for Post-Graduate Training and Placement: The sixth aim of the program is to give students the requisite skills, preparation and knowledge base to become capable and responsible political actors in their chosen professional careers and future goals. We expect our students to be exposed to the ethics and organizational culture of political science specifically and the social sciences generally. We aim to provide a foundation of professionalism for students who enter both the private and public sectors upon graduation and for those who continue their studies beyond the B.A.
- Inspire Curiosity and Enthusiasm for Inquiry: A final goal is to foster a spirit of inquiry. Faculty in the Department hope to stimulate curiosity about the political world and inspire life-long learners who are engaged in the political process at the local, national and global levels.

Political Science Major: International Security Option (B.A.)

https://www.unh.edu/program/bachelor-arts/political-science-international-security

Description

The International Security option in major allows students to focus the electives in their Political Science major on contemporary international security issues. Topics include: terrorism, ethnic conflict, nuclear weapons, drug-related violence, human security, technology and war, and much more.

Students who elect this option can highlight their focus on international security to potential employers and graduate schools. The option in major will appear on students' transcripts. The option in major will allow

students to develop a network with students who share a passion for international security, and leverage this network at UNH and beyond.

Requirements

Degree Requirements

are engaged in the political process at the local, national and global levels.

Political Science Major: Law 3+3 Option (B.A.)

https://www.unh.edu/program/bachelor-arts/political-science-law-33

Description

The Political Science Law 3+3 program offers highly motivated UNH undergraduate students of Political Science the opportunity to earn both a bachelor's degree (B.A.) and a law degree (J.D.) in six, rather than seven, years of study. After completing three years as an Political Science undergraduate and gaining admission to the UNH Law School through the approved process, the 3+3 Program participant will become a full-time first year law student. Upon successful completion of the first year of law study, the credits earned will be counted toward the JD degree and as elective credits sufficient to complete UNH's requirements for the bachelor's degree.

Eligibility and Admission Process

STEP ONE: Application to the Political Science: Law 3+3 B.A./JD option.

Students apply to the program either when they submit their applications to UNH, selecting the Political Science/JD option on the online application, or after they are admitted to UNH, by applying directly to the assigned committee of the Political Science Department. In both cases, undergraduate applicants must fulfill the general requirements for admission to the Political Science major.

Students applying at the time of admission to UNH will typically present the following high school credentials:

- A 3.5 GPA in high school (UNH recalculates high school GPA's to a 4.0 weighted scale)
- A rigorous high school curriculum is defined as the following:
  - 4 years of college prep (CP) or higher English
  - 3 years of CP or higher mathematics
  - 4 years of CP or higher social studies/history
  - Completed at least level 3 of a foreign language
  - 3 or more years of CP or higher laboratory sciencs.
- A recommended score of 1200 or better (combined Math and Verbal) on the SAT or a 29 on the ACT.

Currently enrolled UNH students applying to the program must:

- Have a 3.5 GPA in college courses at the time of application.
- The Political Science Department Committee governing admission to the 3+3 program will also consider past SAT scores, maturity, and the abilitly to complete a highly demanding program of study based on performance thus far.
- For both groups, it is important to note that satisfying these requirements does not guarantee admission to this program. The review process is holistic (meaning all parts of the application carry weight and influence the final decision) and other components of the application will influence any admission decisions. Available space within the program will also influence who is admitted and how many students can be accepted.

STEP TWO: Application to UNH Law school

To be eligible, students must:

- Complete all Discovery and major requirements, and accrue at least 98 credits before beginning law school in their Senior year.
- Maintain at least a 3.5 GPA (including transfer credits) at time of application to law school, and at the end of their Junior year.
- Take the LSAT no later than February of the final undergraduate year (i.e. the Junior year) and earn a score of 155 or above. (Alternatively, students may take the GRE, on which they need to earn the following scores: verbal 156, quantitative 152, and writing 4.0.)
- Submit the law school application through the Law School Admissions Council by March 15 of the calendar year in which the student wishes to enroll in law school.

Requirements

Degree Requirements

Minimum Credit Requirement: 128 credits

Minimum Residency Requirement: 32 credits must be taken at UNH

Minimum GPA: 2.0 required for conferral*

Core Curriculum Required: Discovery & Writing Program Requirements

Foreign Language Requirement: Yes

All Major, Option and Elective Requirements as indicated.
**Major GPA requirements as indicated.*

Students in the Political Science: Law 3+3 option fulfill the BA degree requirements and Political Science major. See the Degree Plan for the recommended path through the Political Science major and Juris Doctor.

Participation requires that students:

- Complete all discovery and major requirements and **at least 98 credits** before beginning law school.
- Maintain a **3.5 or above** grade point average, including transfer credits.
- Take the LSAT no later than February of the final undergraduate year and have a score of **155 or above**.
- Submit the law school application through the Law School Admissions Office by March 15 of the year in which the student would like to enroll in law school.

Political Science Major Requirements

- Students complete at least 10 courses (40 credits) and not more than 12 courses (48 credits) for the major requirements.
- Major courses must be completed with a minimum grade of C- in each course to count toward major requirements. The required minimum overall GPA in major coursework is 2.0.
- Political Science majors may use one major-required course to satisfy one Discovery category requirement.
- Candidates for a degree must satisfy all of the University Discovery and Writing Program requirements in addition to satisfying the major

requirements. Bachelor of arts candidates must also satisfy the foreign language proficiency requirement.

Code	Title	Credits
Required Courses		
Select three introductory courses from the following: [1]		12
POLT 401	Politics and Society	
POLT 402	American Politics and Government	
POLT 403	United States in World Affairs	
POLT 404	Introduction to Comparative Politics	
500-level Courses		
Select SIX 500-level courses as follows:		24
-Three (3) Subfield Courses (selected from three different subfields below).		
-Three (3) Elective Courses (selected from any of the five subfields below). [2]		
Subfield: American Politics		
POLT 500	American Public Policy	
POLT 502	State and Local Government	
POLT 504	American Presidency	
POLT 505	American Congress	
POLT 506	Parties, Interest Groups, and Voters	
POLT 507	Politics of Crime and Justice	
POLT 508	Supreme Court and the Constitution	
POLT 509	Managing Bureaucracy in America	
POLT 511	Women & Politics	
POLT 512	Public Opinion in American Politics	
POLT 513	Civil Rights and Liberties	
POLT 580	Selected Topics Am Politics	
POLT 701	Courts and Public Policy	
POLT 705	Elections in the United States	
POLT 709	Reforming American Government	
POLT 797B	Seminar in American Politics	
POLT 798B	Seminar in American Politics	
Subfield: Political Thought		
POLT 522	Dissent and the Political Community	
POLT 523	American Political Thought	
POLT 524	Politics and Literature	
POLT 584	Selected Topics in Political Thought	
POLT 721	Feminist Political Theory	
Subfield: Comparative Politics		
POLT 544	Of Dictators and Democrats	
POLT 545	People and Politics in Asia	
POLT 546	Wealth and Politics in Asia	
POLT 548	Drug Wars	
POLT 549	The Politics of Markets	
POLT 550	Comparative Government and Society	
POLT 551	Ethnicity ,Violence, Democracy	
POLT 552	Contemporary European Politics	
POLT 554	Revolution and Protest in Latin America	
POLT 556	Politics in China	
POLT 559	Comparative Politics of the Middle East	
POLT 588	Selected Topics in Comparative Politics	
POLT 740	States and Societies in the Middle East	
POLT 742	Beyond Bollywood: Politics of India & South Asia	
POLT 748	Food and Wine Politics	
POLT 751	Comparative Environmental Politics and Policy	
POLT 797C	Seminar in Comparative Politics	
Subfield: International Politics		
POLT 560	World Politics	
POLT 562	Strategy and National Security Policy	
POLT 566	International Security in Asia	
POLT 568	International Security	
POLT 569	The Rise of China	
POLT 592	Selected Topics in International Politics	
POLT 760	Theories of International Relations	
POLT 762	International Political Economy	
POLT 778	International Organization	
POLT 797E	Seminar in International Politics	
Subfield: Methods		
POLT 595	Smart Politics	
POLT 700	Political Science Pro-Seminar	
Capstone		
Select one 700-level POLT course		4
Total Credits		**40**

1 Once students declare the major, three of the following four courses, POLT 401, POLT 402, POLT 403 or POLT 404 must be completed within the first calendar year.

2 Note: POLT 440A, POLT 444, POLT 444B do not count toward the major. Students can take any POLT course at the intermediate level or higher (500-799) to count toward elective credit. ECON 402 Principles of Economics (Micro) or ECON 605 Intermediate Microeconomic Analysis and ECON 401 Principles of Economics (Macro) or ECON 611 Intermediate Macroeconomic Analysis may also be used to fulfill the fifth or sixth elective in this sequence. Additional economics courses will be considered by petition. Only one economics course can count toward this requirement. If students substitute an economics course for a POLT 500-level course, the economics course cannot be used to satisfy Discovery Program category requirements.

Law School

Juris Doctor (J.D.) Requirements

Degree Plan

Sample Degree Plan

This sample degree plan serves as a general guide; students collaborate with their academic advisor to develop a personalized degree plan to meet their academic goals and program requirements.

First Year		
Fall		**Credits**
ENGL 401	First-Year Writing	4

POLT Capstone Course (700-level)		4
Elective Course		4
Elective Course		4
	Credits	**16**
	Total Credits	**98**

TOTAL: 98 Credits (40 Discovery, 40 Political Science, 4-8 Foreign Language, 8-12 Elective)

NEED: Beyond ENGL 401 First-Year Writing, 3 more WI courses, one in major, one at 600 level.

HONORS: It is not necessary to complete the honors program, but it is possible: Honors in Discovery + Honors in Major with Thesis.

SEQUENCE: Political Science courses don't need to be taken in any specific order; the guide above is only a suggestion. In general, 400-level courses should be taken before 500-level courses, and 500-level courses should be taken before 600-700 level ones. As long as all the categories listed above are met, students have the flexibility to choose the courses that best meet their interests and schedules.

ADVISING: It is very important that students progressing through the 3+3 Political Science/Law program maintain close contact with their degree advisor. This will help students remain "on track" to complete degree requirements, and the advisor will guide the student into the next phase of the program, admission to the Law School. Students who plan early and work closely with their advisor may find it possible to include study abroad and participation in other University programs, if desired, but only with careful planning.

Law School Degree Plan

Fourth Year/First Year Law School

Juris Doctor Sample Degree Plan

The schedule and track of the second and third years of law school are directed by each student with careful advising from the law school faculty.

Student Learning Outcomes

Program Learning Outcomes

- Knowledge Base: a proficient knowledge base of the five subfields of Political Science including American Government, Political Theory, Comparative Politics, International Relations, and Methods. Areas of strength include the study of public opinion, comparative politics and international relations, political economy, environmental politics, Latin American politics, Middle Eastern politics, and Asian politics. In this regard, the program fosters the development of a strong empirical foundation through multiple levels of courses.
- Research Skills: A second goal is to advance the students' abilities to understand and use basic political science research skills. These include computer literacy, knowledge of credible sources of information, basic statistical applications, and support for foreign language proficiency. We also strive to help students identify interesting and important research questions clearly and concisely, gather and assess various types of information, and come to well-reasoned conclusions.
- Critical Thinking: The third objective involves enhancement of student cognitive abilities and critical thinking. We hone the ability to analyze, assess, and reconstruct findings in written, oral, and graphical form. We strive to promote students who are self-disciplined thinkers who understand the rigorous standards of research, are intelligent consumers of political information, and are able to understand and weigh multiple perspectives and interpretations.
- Communication Skills: Another aim is to enhance the written and oral communication skills of our students. We support the goals of the writing intensive requirement and expose students to different genres and conventions in academic writing. Most 500 and 700-level courses emphasize cultivating strong writing and reading skills, while at the 700-level, student engagement in sustained discussion becomes the centerpiece of instruction in many seminars. Writing instruction includes emphasis not only on research papers but on short analytical essays, précis, and reviews that ask students to synthesize complex information, develop arguments, and delve more deeply into interpretation. In some courses, part of this work includes iterated practice of grammar and stylistic choices through revision and proposal assignments.
- Professional Socialization and Support for Post-Graduate Training and Placement: The sixth aim of the program is to give students the requisite skills, preparation and knowledge base to become capable and responsible political actors in their chosen professional careers and future goals. We expect our students to be exposed to the ethics and organizational culture of political science specifically and the social sciences generally. We aim to provide a foundation of professionalism for students who enter both the private and public sectors upon graduation and for those who continue their studies beyond the B.A.
- Inspire Curiosity and Enthusiasm for Inquiry: A final goal is to foster a spirit of inquiry. Faculty in the Department hope to stimulate curiosity about the political world and inspire life-long learners who are engaged in the political process at the local, national and global levels.

Political Science Minor

https://www.unh.edu/program/minor/political-science

Description

The study of government and politics, to which the courses and seminars of the Department of Political Science are devoted, includes the development of knowledge of political behavior by individuals and groups as well as knowledge about governments: their nature and functions; their problems and behaviors; and their interactions across all levels of governance.

Much of the learning offered by the Department of Political Science can also be regarded as essential for good citizenship, since political knowledge helps to explain the formal and informal institutions by which we are governed and the forces which lead to policy decisions, and also seeks to clarify the issues and principles that encourage people toward political involvement. In addition, such learning is especially valuable to students planning to enter local or national government or other public service, including the Foreign Service, and it will be of great help to those who intend to study law and enter the legal profession.

Students that would like to transfer credits from abroad or other universities should meet with our political science advisor, Heather Austin, (heather.austin@unh.edu) to determine eligibility toward the minor.

Requirements

Academic policies related to Minors.

- The Political Science minor consists of completing five courses (20 credits).
- These courses may be taken in any combination of the five subfields and levels (400-700) offered. The fields to choose from are: American politics, political thought, comparative politics, international politics and methods.
- A minimum grade of C- or better is required in coursework towards the minor.

Required Courses

Code	Title	Credits
Five elective POLT courses, with no more than two at the 400 level		20
Total Credits		**20**

Survey Research Minor

https://www.unh.edu/program/minor/survey-research

Description

The Survey Research minor will provide students with the skills necessary to design, conduct, analyze and present survey research in a variety of professional settings. This minor will enable students to gain a strong grounding in the theory and practice of survey research, and learn how public opinion forms and changes over time. Students will apply what they have learned at the UNH Survey Center, nationally recognized for its public opinion and political polling. Students who complete this minor will be poised to pursue an advanced degree in this subject and, ultimately, a career in the field.

Requirements

Academic policies related to Minors.

- The Survey Research minor requires five courses (20 credits).

Psychology (PSYC)

The Department of Psychology focuses on the scientific study of human and non-human behavior. Our bachelor of arts program in psychology is broad, with an emphasis on technical skills and the opportunity to specialize in areas that interest you. Courses cover such topics as clinical and counseling, social psychology, personality, psychological development, cognition in humans and non-humans, neuroscience, sensory psychology and the history of psychology. Opportunities abound to gain research experience in a wide range of laboratories and/or to participate in clinically-oriented internships.

The program in neuroscience and behavior, shared between Liberal Arts and Life Sciences and Agriculture, focuses on the scientific study of the brain and its relationship to behavior. This bachelor of science program is structured around a rigorous core sequence of courses that incorporates an extensive laboratory experience, with the opportunity for specialization. Courses include such topics as endocrinology, genetics, neurology, animal behavior, neuroscience and philosophy, drugs, sensory systems, mood disorders and ecology. A large number of laboratories are available that routinely incorporate undergraduate students.

Advising System

All students in the department will be assigned a professional advisor, either the Academic Department Coordinator or the Academic Advisor. Academic advisors assist students in all phases of educational planning and decision making, including registration, long-range academic planning, degree and program requirements, and career

selection and planning. Faculty advisors are available to consult with students about research and graduate school options.

Programs

- Psychology Major (B.A.) (p. 341)
- Psychology Minor (p. 343)
- Neuroscience and Behavior Major (B.S.) (p. 438)

Faculty

Psychology Department Faculty

Psychology Major (B.A.)

https://www.unh.edu/program/bachelor-arts/psychology

Description

The Psychology Major provides students with a broad education, while also allowing some specialization. The program exposes students to the scientific study of behavior and encourages an increased understanding of the behavior of humans and animals.

To declare a major in psychology, students must have completed PSYC 401 Introduction to Psychology and PSYC 402 Statistics in Psychology with a grade of C or better and have an overall GPA of 2.0.

Additional Information

Undergraduate Awards for Majors

Each year the faculty chooses psychology undergraduates as the recipients of the following awards: the Herbert A. Carroll Award for an outstanding senior in psychology, the George M. Haslerud Award for an outstanding junior in psychology, the Fuller Foundation Scholarship for an outstanding junior in psychology with demonstrated interests in clinical psychology, the Peter S. Fernald Scholarship for an undergraduate psychology major and the Ellen S. Cohn award for an outstanding senior.

Psychology majors with at least a 3.2 grade-point average are eligible for these awards. Faculty nominate students from the eligibility list and final selection of recipients is made by vote of the full-time psychology faculty.

Honors Program in Psychology

The Department of Psychology sponsors an honors program for outstanding students in the major. Students may apply to the honors program in psychology in their sophomore or junior year. Students interested in applying to the honors program should contact the department coordinator by the end of their sophomore year.

Eligibility criteria include:

1. Overall grade-point average of 3.5 or above and 3.5 in major courses
2. Completion of PSYC 401 Introduction to Psychology, PSYC 402 Statistics in Psychology and PSYC 502 Research Methods in Psychology with a grade of B or above in each.

Requirements of the program include:

1. Designate three of the four 700-level psychology courses as honors or equivalent
2. PSYC 797 Senior Honors Tutorial (fall of senior year)
3. PSYC 799 Senior Honors Thesis (spring of senior year)

Undergraduate Research Conference

The Department of Psychology sponsors the annual George M. Haslerud Undergraduate Research Conference each spring. Undergraduate students in the program present their honors theses at the conference. Contact the department coordinator for more information.

Five-Year BA/MA Program

The five-year B.A./M.A. program in experimental psychology aims to:

1. improve opportunities for excellent undergraduates to prepare for competitive Ph.D. programs or add an additional credential before entering a competitive job market; and
2. allow students interested in experimental psychology to advance and further specialize their psychology education in only one additional year at UNH.

The M.A./B.A. requires a minimum of 30 credits. Eight credits will count towards both the B.A. and M.A. degree. These three courses count as electives and do not go towards the undergraduate psychology major. Students must fulfill all programmatic requirements for the master's degree program, as well as fulfill all programmatic requirements for their bachelor's degree.

The first step toward applying to the program is to contact a faculty member whose research is in a topic that matches your interest in order to arrange support for your thesis or paper of publishable quality. Interested students must submit a full graduate application to the graduate school during their junior year.

For additional information, please contact the department at 603-862-2360 or at psychology.dept@unh.edu.

Requirements

Degree Requirements

Minimum Credit Requirement: 128 credits

Minimum Residency Requirement: 32 credits must be taken at UNH

Minimum GPA: 2.0 required for conferral*

Core Curriculum Required: Discovery & Writing Program Requirements

Foreign Language Requirement: Yes

All Major, Option and Elective Requirements as indicated.
**Major GPA requirements as indicated.*

Major Requirements

Students majoring in psychology must complete 44 credits with a minimum grade of C- in each course and a 2.0 overall average in all major requirements.

Code	Title	Credits
Required Courses		
PSYC 400	Psychology Freshmen Advising Seminar	1
Core Courses		

PSYC 401	Introduction to Psychology	4
PSYC 402	Statistics in Psychology	4
PSYC 502	Research Methods in Psychology	4
Breadth (500-level) courses		
Group I - Select two courses from the following:		8
PSYC 511	Sensation and Perception	
PSYC 512	Psychology of Primates	
PSYC 513	Cognitive Psychology	
PSYC 521	Behavior Analysis	
PSYC 522	Behaviorism (offered in Manchester only)	
PSYC 531	Psychobiology	
Group II - Select two courses from the following:		8
PSYC 552	Social Psychology	
PSYC 553	Personality	
PSYC 561	Psychopathology	
PSYC 571	Pioneers of Psychology (offered in Manchester only)	
PSYC 581	Child Development	
Depth (700-level) courses		
Group I - Select two courses from the following:		8
PSYC 705	Tests and Measurement	
PSYC 710	Visual Perception	
PSYC 712W	Psychology of Language	
PSYC 713W	Psychology of Consciousness	
PSYC 713	Psychology of Consciousness	
PSYC 720	Animal Cognition	
PSYC 722	Behaviorism, Culture, and Contemporary Society	
PSYC 731	Brain and Behavior	
PSYC 733	Drugs and Behavior	
PSYC 735	Neurobiology of Mood Disorders	
PSYC 736	Attention Disorders	
PSYC 741W	Special Topics (examples:Fundamentals of Substance Abuse, Neuroscience of Memory, Fundamentals of Cognitive Science, Neurobiology of Spatial Cognition & Memory, Psychology of Curiosity)	
Group II - Select two courses from the following:		8
PSYC 705	Tests and Measurement	
PSYC 755	Psychology and Law	
PSYC 756	Psychology of Crime and Justice	
PSYC 757	Psychology of Happiness	
PSYC 758	Health Psychology	
PSYC 759W	Emotion and the Embodied Mind	
PSYC 760W	Ecopsychology	
PSYC 761W	Sport and Performance Psychology	
PSYC 762	Counseling	
PSYC 762W	Counseling	
PSYC 782W	Autobiographical Memory	
PSYC 785	Social Development	
PSYC 793	Internship	
PSYC 791W	Special Topics (examples: Culture and Human Development, Socio & Moral Judgement Development)	
Capstone		
Select from the following:		
PSYC 793	Internship	
or PSYC 798	Capstone	
or PSYC 799	Senior Honors Thesis	
Total Credits		**45**

Note: Many courses have one or more prerequisites. Students (with advisor assistance) are expected to select breadth courses that will later enable them to select depth courses appropriate to their interests and career goals.

Capstone

The Discovery Program capstone requirement, taken during the senior year, may be fulfilled by completing one of the following options:

- The honors-in-major program with an honors project; honors seminar, and research presentation (PSYC 799 Senior Honors Thesis);
- A 4-credit capstone designated independent study project (PSYC 795 Independent Study);
- PSYC 793 Internship;
- Capstone-designated 700-level course.

Statistics

The psychology department does not accept other departments' statistics courses toward the psychology major. Students who have taken a statistics course other than PSYC 402 must pass a competency exam in order to declare the major and/or register for PSYC 402.

Discovery Program

- Major department courses may not be used to satisfy Discovery category requirements except for PSYC 402, which may be used to satisfy the QR Discovery requirement and the major requirement.
- PSYC 401 cannot be used to fulfill a Social Science.
- PSYC 571 cannot be used to fulfill a Historical Perspective.
- In the case that Psychology is a second major, major courses can be counted toward the Discovery requirements.

Transfer Students

Transfer students who elect to major in psychology must complete at least 24 credits in the program at UNH to qualify for the degree in psychology. Transfer students must earn a total of 44 approved credits for completion of the psychology major. The distribution of these credits will be determined by the department's academic advisor. Transfer students should note that courses are allotted only the number of credits granted by the original institution (after adjustments for semester-hour equivalents). Thus, students transferring from an institution at which courses carry fewer than four credits each must make up for any credit deficit created by the acceptance of transfer credits into the psychology major. Only courses taken in a psychology department can be transferred into the psychology major. Of the four 700-level courses required for the major, at least three must be taken at UNH.

Additional Information

Specific course selections should be discussed with an advisor. Exceptions to the requirements for the major require compelling circumstances and a petition to the department.

Psychology majors planning to go on to graduate study in psychology are advised to include PSYC 705 Tests and Measurement among their courses.

Candidates for a degree must satisfy all of the University Discovery Program requirements in addition to satisfying the requirements of each individual major program. Bachelor of Arts candidates must also satisfy the foreign language proficiency requirement.

Student Learning Outcomes

Program Learning Outcomes

- Demonstrate fundamental knowledge and comprehension of the major concepts, theoretical perspectives, historical trends, and empirical findings in psychology.
- Understand basic research methods in psychology including design, data analysis, and interpretation; and utilize this knowledge to conduct their own psychological research, with an appreciation of the ethical issues involved in human and non-human research.
- Engage in scientific reasoning and problem solving so that they can evaluate the quality and implications of scientific research.
- Write empirical research reports and literature reviews in American Psychological Association style and present findings from scientific research.

Psychology Minor

https://www.unh.edu/program/minor/psychology

Description

Psychology is the study of the mind and human and animal behavior – what motivates us to do the things that we do. In this program, you'll have the opportunity to learn scientific research and analysis methods while studying how we learn and develop, how we interact socially, how our minds affect the way we perceive things and how we identify and define abnormal behavior.

Requirements

Academic policies related to Minors.

- No more than 4 credits of PSYC 795 Independent Study may be applied to the minor.
- A maximum of 9 approved psychology transfer credits can be applied to the UNH psychology minor.
- Transfer courses must be evaluated for their equivalency. Only courses taken in a psychology department can be applied towards the minor.
- Three credit transfer courses can be applied as only three credits. Students must make up the credit deficit created by acceptance of transfer courses, with one exception: one three-credit course accepted in transfer may be applied for a total of 19 credits.
- AP Psychology transferred into UNH is equivalent to PSYC 401.
- Minimum grade of C- in each course.

Required Courses

Code	Title	Credits

Queer Studies

Programs

- Queer Studies Minor (p. 344)

Queer Studies Minor

https://www.unh.edu/program/minor/queer-studies

Description

The queer studies minor provides students with opportunities to research and understand a rapidly growing field whose focus is the study of lesbian, gay, bisexual, trans and allied peoples, their histories and cultures. Queer studies is a method of inquiry that explores the role of same-sex desire and constructions of gender across and among cultures and histories. In these classes, students will consider sexualities and genders as identities and social statuses, as categories of knowledge, and as lenses that help to frame how we understand our world. The minor consists of interdisciplinary coursework in queer studies. Students who wish to pursue the queer studies minor should consult with Professor Holly Cashman (holly.cashman@unh.edu).

Requirements

Academic policies related to Minors.

- The queer studies minor requires five courses (20 credits). One pre-approved elective from the electives list below may count toward the minor.
- A minimum grade of C- or better is required in coursework toward the minor.
- Additional courses may count toward the minor with approval.

Code	Title	Credits
Requirements		
Select five courses from the following:		
ANTH 625	Sexuality in Cross-Cultural Perspective	4
ANTH 685	Gender, Sexuality and HIV/AIDS in Africa	4

Race and Ethnic Studies (RES)

Programs

- Race and Ethnic Studies Minor (p. 344)

Race and Ethnic Studies Minor

https://www.unh.edu/program/minor/race-ethnic-studies

Description

The race and ethnic studies (RES) minor examines how racial and ethnic categories are created and maintained — politically, socially and culturally. RES uses critical, interdisciplinary and comparative approaches to study race relations as they intersect with factors including gender and sexuality, class, religion and immigration status. The minor prepares students for life and work in a world increasingly characterized by difference derived from racial and ethnic identities.

Learning Outcomes

Facilitate understanding of how the social constructions of race affect the social fabric of our historical and contemporary world; enhance students' abilities to appreciate differences and to actively and critically engage in civic responsibilities, especially with respect to social justice; prepare students to negotiate an increasingly interconnected world and apply their education in a wide range of occupations; gain exposure to the theories and methods of ethnic studies; and compare representations of borderlands, hybridity, migration and diaspora from different cultures to comprehend how national boundaries, as well as local, national, and transnational cultures and politics, affect the constitution of racial and ethnic categories.

Requirements

Academic policies related to Minors.

The race and ethnic studies minor consists of five courses (20 credits). To complete a minor, students are required to:

1. Enroll in an introductory-level course. (These are listed on the minor website each semester.)
2. Enroll in at least one course at the 600/700-level.

3. Earn a C- or better in each course and maintain a 2.0 grade-point average in courses taken for the minor.
4. Understand that no more than 8 credits used to satisfy the requirements for a major may be used for a minor.
5. Courses taken pass/fail may not be used toward a minor.

A relevant internship may be substituted for one of the electives.

Code	Title	Credits
Approved Courses		
ANTH 500	Peoples and Cultures of the World (when focus is Latin America, SubSaharan Africa or Middle East/North Africa)	4
ANTH 610	Medical Anthropology: Illness and Healing	4

WGS 798W	Colloquium	4

Religious Studies

- Religious Studies Minor (p. 345)

Religious Studies Minor

https://www.unh.edu/program/minor/religious-studies

Description

The religious studies program at the University of New Hampshire currently offers an interdisciplinary minor, bringing together courses in several fields that address religion as a cross-cultural and experiential phenomenon. Topics include beliefs, rituals, texts and the meaning of life as explored in a variety of religious traditions. A religious studies major is available through the self-designed major program. For more information, consult the coordinator.

Requirements

Academic policies related to Minors.

Code	Title	Credits
Required Courses		
HIST 483	History of World Religions	4
HUMA/RS 505	Introduction to Religion	4
Electives		
Select three additional courses from an approved semester list.		12
Total Credits		**20**

Code	Title	Credits
Examples of Approved Electives		
ANTH 640	Anthropology of Islam: Muslims' Everyday Lives in Contemporary Communities	4
ENGL 518W	Bible as Literature	4
HIST 585	Medieval Islam	4
HUMA 526	Humanities and Science (topic: Cognitive Science of Religion)	4
PHIL 417	God, Religion, and the Meaning of Life	4

Additional Information

Students especially interested in religious studies are encouraged to combine the minor with further pertinent coursework in one of the established departments contributing to the program: classics, humanities and Italian studies; history; philosophy; anthropology and English. The religious studies self-designed major includes the minor requirements of HUMA 505/RS 505 Introduction to Religion and HIST 483 as well as eight other relevant courses, which can include independent studies. The program coordinator can aid in advising such a major program.

Courses ordinarily have some degree of focus on issues related to the academic study of religion, conceptualizing religion, or religious influences as a principal concern, asking comparative questions, and/or developing models of cross-cultural usefulness.

Interested students also should be alert for special topics courses in history (e.g. HIST 600 Explorations), English, anthropology (e.g. ANTH 500 Peoples and Cultures of the World), humanities, classics and other disciplines that might be relevant to the study of religion.

Russian (RUSS)

The Russian program provides students with an opportunity to study one of the world's most important languages, its literature and its culture. In addition to the intrinsic value of Russian language, literature and culture as a liberal arts experience, the Russian major leads to a number of careers, such as teaching, translation and interpreting, government and the Foreign Service. It is also a valuable asset in preparing for careers in law, economics and international trade, and it can serve as a double major with business administration, international affairs, homeland security, the natural and physical sciences, and other liberal arts fields such as English, history, political science, sociology, philosophy, theatre, communication, linguistics and other foreign languages.

Russian Major (B.A.)

https://www.unh.edu/program/bachelor-arts/russian

Description

The Russian program provides students with an opportunity to study one of the world's most important languages, its literature and its culture. In addition to the intrinsic value of Russian language, literature and culture as a liberal arts experience, majoring in Russian leads to a number of careers, such as teaching, translation and interpreting, government and the Foreign Service. The knowledge of the language and cultural proficiency is also a valuable asset in preparing you for careers in law, economics and international trade. All Russian majors are strongly encouraged to double major or include a relevant minor in their studies.

If you would like more information please contact LLC.Dept@unh.edu.

Requirements

Degree Requirements

Minimum Credit Requirement: 128 credits

Minimum Residency Requirement: 32 credits must be taken at UNH

Minimum GPA: 2.0 required for conferral*

Core Curriculum Required: Discovery & Writing Program Requirements

Foreign Language Requirement: Yes

All Major, Option and Elective Requirements as indicated.
**Major GPA requirements as indicated.*

Major Requirements

New students will be assigned to the proper language level course after consultation with the Russian faculty.

Candidates for a degree must satisfy all of the University Discovery Program requirements in addition to satisfying the requirements of each individual major program. Bachelor of arts candidates must also satisfy the foreign language proficiency requirement.

Russian majors may use two major-required courses to satisfy two Discovery category requirements. In addition, Russian majors may take RUSS 521W Devils, Deities, and Madness in Russian Literature to satisfy both a Discovery Inquiry requirement and a major requirement.

Transfer students must earn a minimum of 12 major credits at the Durham campus.

All students must complete at least 10 classes (40 credits). The required minimum overall GPA in major coursework is 2.0. Specific course requirements are:

Code	Title	Credits
Language Courses [1]		
Students entering major at a higher language level will replace the language courses with additional electives		
RUSS 401	Elementary Russian I	
RUSS 402	Elementary Russian II	
RUSS 503	Intermediate Russian I	
RUSS 504	Intermediate Russian II	
RUSS 631	Advanced Russian Conversation and Composition	
RUSS 632	Advanced Russian Conversation and Composition	
Electives [2]		
Select a minimum of three courses from the following Culture, Linguistics, and Literature category:		
RUSS 521W	Devils, Deities, and Madness in Russian Literature	
RUSS 525	Russia: Mythology and Propaganda	
RUSS 691W	Readings in Russian Literature	
RUSS 733	History of Slavic Languages and Culture	
RUSS 797	Special Studies in Russian Language, Literature, and Culture	
LLC 540	Film History	
LLC 552	Comparative Literature: Masterpieces of World Literature II	
LLC 595	Language Practicum	
LLC 791	Methods of Foreign Language Teaching	
Capstone [3]		
LLC 790	World Languages Capstone	4
Study Abroad		

Study abroad is a requirement for the Russian major, although an approved equivalent high-impact experience may be substituted for study abroad with a compelling justification.

1 While the major may start counting as early as the Elementary I level (RUSS 401), those who enter the major at a higher level (RUSS 503, RUSS 504, RUSS 631, or RUSS 632) will replace the courses they skip from the elementary, intermediate and advanced language category with additional courses from the electives category.

2 More electives required if fewer language credits were completed due to proficiency level and placement.
Students are encouraged to take as many of the culture, linguistics, and literature elective in the Russian language as possible, but there is no limit on the number of classes conducted in English from the electives category. Students taking no classes in the target language in a given semester will be strongly encouraged to enroll in one credit of conversation hour to maintain their language skills, and many of the courses taught in English will allow students the option to (or even require students to) do some work in the target language.

3 Or approved equivalent 700-level course taken at UNH, approved study abroad equivalent, or approved high-impact experience (such as internship with a robust target language/culture component).

Student Learning Outcomes

Program Learning Outcomes

- Upon completion of a Russian major, students are able to express themselves orally and in writing on a variety of topics with accuracy, and they are able to support their opinions with evidence found in the media and scholarly reading. Students are able to articulate their ideas and defend their opinions.
- Throughout the language sequence students are expected to give oral presentations on a variety of topics, related to their interest, second major or minor.
- Students have spent at least 8 weeks-semester/year in Russia on a study abroad program, which strengthens their language skills, improves their proficiency, both in language and culturally, and which allows them to interact with native speakers. The major includes at least two courses on Russian literature (one in English and one in Russian), and students are familiar with the works of major Russian authors (i.e. Pushkin, Lermontov, Turgenev, Gogol, Dostoevsky, Tolstoy, Chekhov, Pasternak, Solzhenitsyn, Zoshchenko, Bulgakov, among others.) Students are able to understand the texts in the historical and literary movements of Russia, as well as analyze the works in and of themselves. Students study the cultural history of Russia/Soviet Union/Russia to understand the Russian perspective of itself and the world.

Russian Minor

https://www.unh.edu/program/minor/russian

Description

The Russian program provides students the opportunity to minor in Russian. Students develop language proficiency, a solid knowledge of grammar and pronunciation, and knowledge of Russian culture. Students with a Russian minor will have a sufficient command of the language to enhance their chosen field of study, and will have countless career opportunities, such as the public, private and nonprofit sectors, including government, education, journalism, law, communications, and business.

Students in the Russian minor program at UNH are strongly encouraged to study abroad. Foreign language skills and cultural competencies will open doors for students that would not have been opened without the minor in Russian.

Requirements

Academic policies related to Minors.

The minor in Russian consists of completing five courses (20 credits).

Code	Title	Credits
Required Courses		
RUSS 503 & RUSS 504	Intermediate Russian I and Intermediate Russian II	8
Select at least one of the following:		4
RUSS 631	Advanced Russian Conversation and Composition	
RUSS 632	Advanced Russian Conversation and Composition	
RUSS 691W	Readings in Russian Literature	
Select two elective RUSS courses above RUSS 402		8
Total Credits		**20**

Students wishing to minor are expected to meet with a faculty member from the Russian program to discuss their course of study.

Sociology (SOC)

Sociology is the study of social life, social change, and the social causes and consequences of human behavior. Sociologists investigate the structure of groups, organizations and societies, and how people interact within these contexts.

Since human behavior is shaped by social factors, the subject matter of sociology ranges from the intimate family to the hostile mob; from organized crime to religious cults; from the divisions of race, gender and social class to the shared beliefs of a common culture.

Sociology Major (B.A.)

https://www.unh.edu/program/bachelor-arts/sociology

Description

Majoring in sociology provides a solid, multifaceted foundation in the liberal arts, including analytical thinking and writing, and skills in collecting and analyzing data. Students learn diverse theoretical approaches to the social world and acquire tools for conducting and understanding social science research. The wide range of substantive areas taught in the UNH Department of Sociology include courses concentrating on family and work; environmental sociology; social policy; inequalities of race, class and gender; criminology, social control and deviant behavior; medical sociology and mental health; and religion.

Undergraduate training in sociology is an excellent background for a variety of careers, including the business world, where majors might work in marketing and sales or human resources; government and nonprofit services, where majors might work in education, health services, social welfare or criminal justice; and research. An undergraduate degree in sociology is also excellent preparation for graduate work in law, social work, criminal justice, counseling, public administration, public health, business administration, urban planning or further studies in sociology.

Conjoint minors (allowing double-counting of one or two courses) are available for justice studies; gerontology; American studies; race and ethnic studies; women's and gender studies; and other approved minors. Students also have the opportunity to pursue a second major, including justice studies. Students interested in social work or teaching can develop programs in conjunction with the appropriate departments. The departmental honors program is recommended for students with cumulative grade-point averages over 3.4, and especially for those anticipating graduate study.

Requirements

Degree Requirements

Minimum Credit Requirement: 128 credits

Minimum Residency Requirement: 32 credits must be taken at UNH

Minimum GPA: 2.0 required for conferral*

Core Curriculum Required: Discovery & Writing Program Requirements

Foreign Language Requirement: Yes

All Major, Option and Elective Requirements as indicated.

**Major GPA requirements as indicated.*

Major Requirements

- Majors must complete a minimum of 40 credits in sociology courses.
- Major courses must be completed with a minimum grade of C- or better in each course. The required minimum overall GPA is 2.0 or better in all sociology courses.
- Sociology majors may use two major-required courses to satisfy two Discovery category requirements.

Capstone Requirement		
Select from the following:		
Complete any 600/700-level Sociology course or		
IROP/SURF research experience or		
SOC 799	Senior Thesis	
Total Credits		**40**

1 SOC 599 Sociological Analysis must be completed no later than the junior year and is a prerequisite for majors taking 600- and 700-level courses.

2 SOC 402 Statistics is a prerequisite for SOC 601 Methods of Social Research.

Additional Information

SOC 595 Independent Reading and Research can be used to fulfill one lower-level elective or SOC 799 Senior Thesis can be used to fulfill one upper-level elective.

SOC 599 Sociological Analysis can be used to satisfy both a major requirement and the Inquiry Discovery requirement.

Statistics courses taken in other disciplines are not acceptable as a substitute for SOC 402 Statistics.

Candidates for a degree must satisfy all of the University Discovery Program requirements in addition to satisfying the requirements of each individual major program. B.A. candidates must also satisfy the foreign language proficiency requirement.

Students interested in majoring in sociology should consult with the director of undergraduate program in the sociology department for guidance. It is the responsibility of all sociology majors to obtain the latest information from the department office.

Sociology Language Requirement

The bachelor of arts degree at the University of New Hampshire requires that students satisfy the foreign language proficiency requirement. The requirement may be met by demonstrating language proficiency equal to a one-year college-level course (401 and 402, 403 and 503, 501 [Latin only], or 503 and above in a spoken language). American Sign Language courses meet the foreign language proficiency requirement for sociology majors when ASL I and ASL II have been completed.

Student Learning Outcomes

Program Learning Outcomes

- Outcome 1: Students will learn to articulate and evaluate how individual biographies are shaped by social structures, social institutions, cultural norms, and multiple of dimensions of social stratification and inequality. (Sociological imagination)
- Outcome 2: Students will learn to analyze and evaluate multiple and competing arguments about high-profile social, political, and cultural current events; distinguish between evidence and opinions; and use reason and data to advance an argument. (Critical thinking)
- Outcome 3: Students will learn to use, evaluate, and apply classical and contemporary theoretical perspectives to historical and contemporary events. (Sociological theory)
- Outcome 4: Students will learn how to generate and interpret qualitative and quantitative data in a value-neutral way. (Data analysis)
- Outcome 5: Students will learn how to interpret and evaluate several of the major social science research methodologies, as well as the relationship between research questions and appropriate methods. (Research methods)

- Outcome 6: Students will learn to effectively communicate a sociological perspective both in writing and verbally. (Communication skills)
- Outcome 7: Students will learn to understand how people of different cultural, racial, ethnic, sex, gender, religious, and political identities interpret the world around them. (Living in a complex society)
- Outcome 8: Students will learn to work effectively and respectfully with people of different backgrounds, experiences, and perspectives. (Collaboration)

Sociology Minor

https://www.unh.edu/program/minor/sociology

Description

Minoring in sociology provides a foundation in analytical thinking and writing, and skills in collecting and analyzing data. Students learn diverse theoretical approaches to the social world and acquire tools for conducting and understanding social science research. Course topics include family and work; environmental sociology; social policy; inequalities of race, class and gender; criminology, social control and deviant behavior; medical sociology and mental health; and religion.

Undergraduate training in sociology is an excellent background for a variety of careers, including the business world, working in marketing and sales or human resources; government and nonprofit services, working in education, health services, social welfare or criminal justice; and research. A minor in sociology is also excellent preparation for graduate work in law, social work, criminal justice, counseling, public administration, public health, business administration, urban planning and other fields.

Requirements

Academic policies related to Minors.

Medical Sociology Cognate

https://www.unh.edu/program/cognate/medical-sociology

Description

The medical sociology cognate provides students with an understanding of how social structure shapes the etiology of health and illness as well as the availability, effectiveness and choices around health care on micro and macro levels. It develops students' sociological imagination, fosters their application of a sociological perspective to the study of health, and allows them to gain the skills needed to be informed consumers of empirical health research. The focus on empirical literacy that is central to courses in sociology facilitates students' ability to communicate and apply research findings in their respective professional fields.

Although the sociological perspective will benefit students from all backgrounds, a cognate in medical sociology may be especially relevant for students majoring in biomedical science, neuroscience and behavior, psychology, gerontology, health and physical education, nursing, health policy and administration, business, human development and others.

Requirements

• Any three courses in medical/health focused sociology courses (12 credits) with a grade of C- or better
• Submission of a completed "Certification of Completion of Cognate" form
• Courses taken pass/fail may NOT be used for the cognate.
• Sociology majors may count cognate classes as major electives.

Code	Title	Credits

Spanish (SPAN)

The Spanish program major and minor in the Department of Languages, Literatures and Cultures helps students develop Spanish language proficiency and enhanced knowledge of the cultural and literary achievements of Hispanic societies around the globe. This dual emphasis on communication and cultural analysis prepares students to live in communities where Spanish is increasingly important professionally and personally.

Students also have the option to complete honors in the major providing they complete the necessary classes and a senior thesis in Spanish.

UNH students have the opportunity to study abroad during the academic year or during the summer. Programs are available in Spain and in Latin America, including a six-week summer immersion program in Costa Rica also is available to students. Financial aid is available for eligible students. Visit the COLA Study Abroad website for more information, or contact the departmental program directors.

https://www.unh.edu/program/bachelor-arts/spanish

Description

When you major in Spanish you are opening your opportunities to a variety of fields in which proficiency in the Spanish language and knowledge of Hispanic cultures are desirable or required. Such fields might include international relations, business administration, government, social service and communications. The undergraduate major also provides a basis for graduate study in preparation for scholarly research and teaching at the college level. When combined with coursework or a dual major in other disciplines, the major prepares students for work in Spanish-speaking areas of the world as well as in bilingual regions of the United States.

Requirements

Degree Requirements

Minimum Credit Requirement: 128 credits

Minimum Residency Requirement: 32 credits must be taken at UNH

Minimum GPA: 2.0 required for conferral*

Core Curriculum Required: Discovery & Writing Program Requirements

Foreign Language Requirement: Yes

All Major, Option and Elective Requirements as indicated.
**Major GPA requirements as indicated.*

Major Requirements

All students must complete at least 10 classes (40 credits). All coursework required for the Spanish major must be completed with a grade of C or better.

The required minimum overall GPA for study abroad and the Spanish major coursework is 2.0.

Candidates for a degree must satisfy all of the University Discovery Program requirements in addition to satisfying the requirements of each individual major program. Bachelor of arts candidates must also satisfy the foreign language proficiency requirement.

Spanish majors may use two major-required courses to satisfy two Discovery category requirements.

Code	Title	Credits
Requirements		
Language Courses [1]		
Students entering major at a higher language level will replace the language courses with additional electives		
SPAN 503	Intermediate Spanish I	
SPAN 504	Intermediate Spanish II	
SPAN 631	Advanced Conversation and Composition I	
SPAN 632	Advanced Conversation and Composition II	
Electives [2]		
Select a minimum of five courses from the following Culture, Linguistics, and Literature category		
SPAN 525	Introduction to Spanish Cultures	
SPAN 526	Introduction to Latin American Cultures	
SPAN 641	Spanish Language Variation & Change	
SPAN 645	Intro to Spanish Linguistics	
SPAN 647	Topics in Hispanic Cultural Studies	
SPAN 648	The Hispanic World Today	
SPAN 650	Hispanic Literature and Popular Culture	
SPAN 654	Introduction to Latin American Literature and Thought	
SPAN 790	Topics in Second Language Acquisition/Pedagogy/Methodology	
SPAN 797	Topics in Hispanic Literary and Cultural Studies	
SPAN 798	Topics in Hispanic Linguistics and Cultural Studies	
SPAN 799	Senior Honors	
LLC 540	Film History	
LLC 552	Comparative Literature: Masterpieces of World Literature II	
LLC 555	Discover Cuba: An Arts Experience	
LLC 791	Methods of Foreign Language Teaching	
Capstone [3]		
LLC 790	World Languages Capstone	4
Study Abroad		
An approved foreign study experience in a Spanish-speaking country is required, although an approved equivalent high-impact experience may be substituted for study abroad with a compelling justification		

1 While the major may start counting as early as the Intermediate I level (SPAN 503), those who enter the major at a higher level (SPAN 504, SPAN 631, or SPAN 632) will replace the courses they skip from the four in the intermediate and advanced language category with additional electives in the Culture, Linguistics, and Literature category.

2 More electives required if fewer language credits were completed due to proficiency level and placement.
No limit on the number of classes in English allowed. Students taking no classes in the target language in a given semester will be strongly encouraged to enroll in one credit of conversation hour to maintain their language skills, and many of the courses taught in English will allow students the option to (or even require students to) do some work in the target language.

[3] Or approved equivalent 700-level course taken at UNH, approved study abroad equivalent, or approved high-impact experience (such as internship with a robust target language/culture component).

Student Learning Outcomes

Program Learning Outcomes

Linguistic Proficiency

- Students can demonstrate an Advanced level of proficiency (as defined in ACTFL Proficiency Guidelines) in the target language in speaking, writing, listening and reading.
- Speaking: students are able to handle a variety of communicative tasks. They are able to participate in most informal and formal conversations on topics related to school, home, academic, and other activities. They can also speak about topics related to employment, current events, and matters of public and community interest.
- Writing: students are able to meet work and/or academic writing needs. They demonstrate the ability to narrate, describe and express viewpoints about topics in major time frames with control of aspect.
- Listening and Reading: students are able to understand conventional narrative and descriptive texts (spoken and/or written). They can understand the main facts, tone and style, and supporting details.
- Comprehension: students may often develop understanding primarily from their particular situational and subject-matter knowledge(course materials, contextual knowledges, and study abroad experiences), but each student should be able to extend and expand their comprehension to most areas of specialized and non-specialized materials, especially as that directly relates to any of the student's other major and minor academic subjects of study.

Intercultural and Transcultural Competence

- Students will demonstrate knowledge and understanding of other cultures, and are able to think critically about and are able to recognize and accept culturally differences, and the uniqueness of other cultures and peoples. By the time they graduate from our program, they will be able to:
- Recognize and describe the historical, social, economic, and political forces that shape society in the various target cultures that they have directly studied (taking into account that they cannot be familiar with all the particular specificities of the 23+ nations of the Spanish-Speaking world).
- Analyze and critique the cultural and social products of the target culture(s)(film, literature, art, popular culture, media, etc.) within their context, including conducting basic research projects.
- On a broader level, each student should be able to begin to question the validity of their own cultural beliefs, behaviors and norms, by contrasting and comparing them with those of the target culture (cross-cultural sensitivity and respect).

- Students should be able to perceive and value cultural diversity and reinterpret the place of the self as an individual culturally situated within the global context of the twenty-first century.

Spanish Minor

https://www.unh.edu/program/minor/spanish

Description

When you minor in Spanish you are expanding upon opportunities and opening doors to careers in your field of interest. Many other disciplines such as social service, nursing, teaching and business require Spanish as a second language since Spanish is the second most spoken language in the United States. Increasingly, employers in government at municipal, state and federal levels and business as well as related careers, are viewing such experience and language skills favorably.

Theatre and Dance (THDA)

There is no area of human endeavor that theatre does not touch. To study theatre is to learn a great deal about yourself and about the world in which you will live. No course of study will prepare you better for life in a rapidly changing world.

The award-winning faculty at the University of New Hampshire provide theatre and dance majors with superlative training within a broad liberal arts context. Students may take courses in acting; voice and movement; dialects; directing; choreography; design and theatre technology; the history, theory and criticism of drama and theatre; youth drama; secondary theatre education; playwriting; storytelling; puppetry; ballet; theatre dance (jazz and tap); aerial dance; and musical theatre. Students interested in performance, technical and historical aspects are trained to step into professional careers while still broadening the scope of their preparation through a rich liberal arts education. The program encourages students to explore their interests through independent studies and internships, special projects and active personal involvement in lecture and laboratory classes, with the possibility for integration with other departments. To assist with financial needs, the department awards scholarships to selected majors each spring.

The Department of Theatre and Dance offers various performance opportunities every year. In addition to performing, students are given the opportunity to direct, stage manage, design, choreograph or write scripts for the work done in our department. We offer jazz, tap and ballet studies. In addition, UNH was the first university to add Aerial Dance to course offerings. Students study with faculty who have worked locally, nationally and internationally.

In addition to comprehensive liberal arts preparation, six specific course sequences are available within the theatre major:

1. courses leading to a theatre major with an option in acting & directing;
2. courses leading to a theatre major with an option in dance: ballet, theatre dance (tap and jazz) and aerial dance. Students also have the option of pursuing dance education leading to K-12 dance teacher certification. You may achieve dance licensure in two different ways. You may pursue dance education/licensure through the undergraduate program. This leaves no room for double majors or minors. If you want to broaden your undergraduate education and need more space for classes outside of THDA, you may pursue the five-year program, beginning preparation for teaching at the undergraduate level and then pursuing a graduate degree to get dance certification. Students complete a baccalaureate degree in theatre with a dance option and move into a fifth year of study with a full-year internship, leading to either the Masters in Education (M.Ed.) or a Master of Arts in Teaching (M.A.T.) degree and licensure for teaching;
3. courses leading to a theatre major with an option in design & theatre technology;
4. courses leading to a theatre major with an option in musical theatre;
5. courses leading to a theatre major that, if desired, may be combined with requirements of the Department of Education to pursue a K-12 teacher's license. You may achieve theatre licensure in two different ways. You may pursue secondary theatre education/licensure through the undergraduate program. This leaves no room for double majors or minors. If you want to broaden your undergraduate education and need more space for classes outside of THDA, you may pursue the five-year program, beginning preparation for teaching at the undergraduate level and then pursuing a graduate degree to get theatre arts certification. Students complete a baccalaureate degree in theatre with a secondary theatre education option and move into a fifth year of study with a full-year internship, leading to either the Masters in Education (M.Ed.) or a Master of Arts in Teaching (M.A.T.) degree and licensure for teaching;
6. courses leading to a theatre major that, if desired, may be combined with requirements of the Department of Education, in conjunction with a fifth year master of education (M.Ed.) program, to prepare students for elementary school certification with an undergraduate option in youth drama.

Auditions are required for the acting, dance and musical theatre options. Interviews are strongly encouraged for all other areas. In addition to the audition, students will take part in group acting exercises, do a dance call and have an opportunity to ask questions during a comprehensive department overview. Please note that entrance into Department of Theatre and Dance options is contingent upon acceptance into the University of New Hampshire. Audition dates, as well as detailed entrance requirements, can be found at the Department of Theatre and Dance website.

Minoring in Theatre and Dance

A minor acknowledges a level of competence and academic focus without the depth a major requires. Students may pursue a minor while majoring in another subject when the demands of that major prevent the possibility of a double major.

Theatre and Dance Department Faculty

Theatre Major (B.A.)

https://www.unh.edu/program/bachelor-arts/theatre

Description

The Theatre Major at UNH offers a comprehensive education in performance, dance, theatre history, design, and theatre technology. With a flexible credit load, students can pair theatre studies with another major. The program features award-winning faculty and various performance opportunities, including student productions. Enrichment opportunities involve pursuing independent study to deepen learning regarding areas of interest; applying for R.E.A.C.H. financial assistance to help subsidize practical internships; experiencing a 10-day January Term study-abroad program in London.

There is no area of human endeavor that the theatre does not touch; to teach and learn about theatre is to teach and learn about human life. Whether you live for the stage, have a love of costumes, or see yourself running things behind the scenes, a theatre degree will allow you to engage with your passion for the performing arts and for the life that the performing arts imitate. You'll study performance, theatre history, and the elements of design and theatre technology. The program was designed with a relatively light credit load, allowing you to combine your theatre studies with another major.

The UNH Department of Theatre and Dance offers a variety of performance opportunities every year in musicals, plays and dance concerts, including student productions. The curriculum allows for flexibility to independently study a broad range of interests. Financial assistance provides access to internship opportunities with professional theatre or dance organizations, and our January Term study abroad program immerses students in London theatre as well as gaining insights into politics and societal issues.

Requirements

Degree Requirements

Minimum Credit Requirement: 128 credits

Minimum Residency Requirement: 32 credits must be taken at UNH

Minimum GPA: 2.0 required for conferral*

Core Curriculum Required: Discovery & Writing Program Requirements

Foreign Language Requirement: Yes

All Major, Option and Elective Requirements as indicated.
**Major GPA requirements as indicated.*

Major Requirements

In the freshman and sophomore years, students should enroll for at least two major and two Discovery courses per semester.

The minimum grade requirement for major courses is C- per course. Any grade lower than C- will not count toward the major.

The required minimum overall GPA in major coursework is 2.0.

Under department policy, students who complete both COMM 401 and COMM 502 satisfy the bachelor of arts language proficiency requirement.

All majors must take courses in the following areas: performance, design/theatre technology and theory/history as well as fulfill between four and eight practicums and complete a capstone course. Although timing will vary with each option, it is strongly suggested that all introductory courses be taken prior to the end of the student's sophomore year. Students must also complete a digital portfolio that demonstrates fulfillment of student learning outcomes related to their area of study.

Candidates for a degree must satisfy all of the University Discovery Program requirements in addition to satisfying the requirements of each individual major program. Bachelor of arts candidates must also satisfy the foreign language proficiency requirement.

Theatre department majors may use one major-required course to satisfy one Discovery Program category requirement.

Student Learning Outcomes

Program Learning Outcomes

On completion of the B.A. in Theatre, students will:

- Recognize and distinguish between various styles and forms of theatre or dance that have shaped the evolution of these disciplines.
- Effectively communicate artistic ideas and/or critical analysis of theatre or dance works through appropriate oral, written or practical means.
- Demonstrate knowledge and fundamental skill level of the basic areas of theatre or dance production in areas related to performance, design, technology or management.
- Create and demonstrate informed and personal artistic choices in coursework and productions (i.e., design, dance, directing, acting).

Theatre Major: Acting and Directing Option (B.A.)

https://www.unh.edu/program/bachelor-arts/theatre-acting-directing

Description

The Theatre Major: Acting and Directing Option at UNH is one of the few programs in the nation that offers the opportunity to combine these two disciplines in a single trajectory. Students gain comprehensive skills through courses in acting, voice, movement, directing and more, with this work applied to theatre and media/camera. This is combined with hands-on experience in all areas of production. With a variety of performance opportunities and independent study options, graduates are well-prepared for wide-ranging careers in theatre and beyond. The program offers those who participate in professional internships the ability to apply for departmental financial aid. Students receive additional training with acclaimed guest artists through our Performance Arts Enrichment Initiative (PAEI) and have opportunities to perform professionally with our touring Little Red Wagon family theatre and our applied theatre company, PowerPLAY.

With a focus on creating the self-sufficient theatre artist, this option is designed to develop the skills and artistry necessary for a wide-ranging career in theatre. You'll take multiple levels of acting, voice, movement, and directing courses. Students will delve into virtually every aspect of the theory, history and practice of theatre with additional course work in camera/media performance. With numerous opportunities for hands-on experience in all areas of theatre, students graduating with a theatre degree will have built a formidable base of knowledge and skill for work on stage and beyond.

If you are fully committed and serious about becoming a true theatre artist; if you want to develop the skills and artistry necessary to work professionally; if you are dedicated to growing and applying the five "Cs"--creativity, communication, collaboration, critical analysis and commitment--to everything you do, then studying acting and directing at UNH is the right fit. The NH Seacoast region offers many professional theatres where students can pursue opportunities to build their resumes while at UNH. Featuring an award-winning faculty, our program is demanding yet offers a flexibility in course choices that allows you to further customize a four-year experience that will serve you for your entire career.

- Demonstrate knowledge and fundamental skill level of the basic areas of theatre or dance production in areas related to performance, design, technology or management.
- Create and demonstrate informed and personal artistic choices in coursework and productions (i.e., design, dance, directing, acting).

On completion of the option in Acting and Directing, students will:

- Achieve at minimum an intermediate proficiency in fundamental skills related to theatrical performance.
- Utilize critical thinking and writing skills to analyze plays for both the performance of roles and the direction of productions in a range of styles and genres.
- Effectively communicate and collaborate with all participants in the interactive and creative process of theatre.

- Form, communicate and defend verbally and in writing value judgments about quality and aesthetics of performance and directing in works of theatre.
- Demonstrate knowledge of basic terminology of acting and directing as well as leading practitioners and theorists of the acting and directing process.

Theatre Major: Dance Option (B.A.)

https://www.unh.edu/program/bachelor-arts/theatre-dance

Description

The Theatre Major: Dance Option at UNH is designed to prepare students for dynamic careers in dance and related fields, including performance, choreography, and education. The program features a comprehensive curriculum encompassing diverse dance styles such as Ballet, Pointe, Jazz, Tap, Musical Theatre, and Aerial Dance. Students benefit from the expertise of distinguished faculty and a wide array of performance opportunities, including the UNH Dance Company Concert, Ballet Showcases, and Dance and Aerial Showcases. Additional opportunities include internships, guest artist workshops, and global exposure through study-abroad programs like The London Experience. Alumni from the program have excelled in prestigious venues such as Boston Ballet, Cirque du Soleil, Broadway, and major networks like ABC, HBO, and Disney, exemplifying the program's excellence in preparing students for competitive careers.

The required minimum overall GPA in major coursework is 2.0.

Under department policy, students who complete both COMM 401 and COMM 502 satisfy the bachelor of arts language proficiency requirement.

All majors must take courses in the following areas: performance, design/theatre technology and theory/history as well as fulfill between four and eight practicums and complete a capstone course. Although timing will vary with each option, it is strongly suggested that all introductory courses be taken prior to the end of the student's sophomore year. Students must also complete a digital portfolio that demonstrates fulfillment of student learning outcomes related to their area of study.

Candidates for a degree must satisfy all of the University Discovery Program requirements in addition to satisfying the requirements of each individual major program. Bachelor of arts candidates must also satisfy the foreign language proficiency requirement.

Theatre department majors may use one major-required course to satisfy one Discovery Program category requirement.

Student Learning Outcomes

Program Learning Outcomes

On completion of the B.A. in Theatre, students will:

- Recognize and distinguish between various styles and forms of theatre or dance that have shaped the evolution of these disciplines.
- Effectively communicate artistic ideas and/or critical analysis of theatre or dance works through appropriate oral, written or practical means.
- Demonstrate knowledge and fundamental skill level of the basic areas of theatre or dance production in areas related to performance, design, technology or management.
- Create and demonstrate informed and personal artistic choices in coursework and productions (i.e., design, dance, directing, acting).

On completion of the option in Dance, students will:

- Develop an awareness of proper dance technique, physical expression and kinesthetic exploration.
- Apply choreographic phrases and compositional skills through performance.
- Demonstrate a foundation in dance pedagogy.
- Demonstrate a reflective and critical awareness of dance history.
- Effectively apply dance principles to critical writing via journals, performance critiques, and research assignments.

Theatre Major: Design & Theatre Technology Option (B.A.)

https://www.unh.edu/program/bachelor-arts/theatre-design-theatre-technology

Description

The Theatre: Design and Theatre Technology option at UNH is perfect for students who are interested in blending creativity with technical expertise to shape the visual and sensory world of storytelling. Students will work with award-winning faculty who are also active professionals in the field to craft a course of study tailored to their interests. Whether you're drawn to set design, costume design, lighting design, stage management, technical direction, or costume technology, you'll gain hands-on experience in every aspect of theatrical production.

UNH's Department of Theatre and Dance produces a wide range of performances each year, including musicals, plays, and dance concerts. As a student, you'll have the opportunity to take on real design assignments, build your portfolio, and explore independent study projects. You'll also be eligible to apply for R.E.A.C.H., a unique funding

opportunity that supports internships with professional theatres and dance organizations.

This option can be paired with the Secondary Theatre Education option, preparing you to inspire the next generation of artists in K–12 classrooms.

At UNH, you won't just learn about theatre-you'll live it. Join a community where collaborative creativity thrives and your passion for design and technology can take center stage.

Student Learning Outcomes

Program Learning Outcomes

On completion of the B.A. in Theatre, students will:

- Recognize and distinguish between various styles and forms of theatre or dance that have shaped the evolution of these disciplines.
- Effectively communicate artistic ideas and/or critical analysis of theatre or dance works through appropriate oral, written or practical means.
- Demonstrate knowledge and fundamental skill level of the basic areas of theatre or dance production in areas related to performance, design, technology or management.
- Create and demonstrate informed and personal artistic choices in coursework and productions (i.e., design, dance, directing, acting).

On completion of the option in Design and Theatre Technology, students will:

- Exhibit an understanding of the general principles and practices for the design/tech area.
- Apply knowledge of design/tech skills and technologies to the production of theatrical creations.
- Demonstrate skills in script analysis, research, and critical thinking for design development.
- Demonstrate development of a creative process as well as practical problem-solving skills for artistic work.
- Effectively use communication and collaboration skills in writing, speaking, and visual presentation.
- Utilize critical assessment skills to evaluate the work of other students and to show improvement on their own work as a result of the collective feedback process.
- Develop a resume, portfolio, and interview skills that reflect professional standards.

Theatre Major: Musical Theatre Option (B.A.)

https://www.unh.edu/program/bachelor-arts/theatre-musical-theatre

Description

The Theatre Major: Musical Theatre Option at UNH offers a comprehensive education in musical theatre performance and history. Our program seeks to train actors who sing and dance, with classes in acting, voice, and various dance styles as well as a full musical theatre performance curriculum. Students also gain hands-on experience through required practicums and opportunities to perform in mainstage shows, student showcases, musical theatre studios and cabarets. Students in the program enjoy focused training in musical theatre, including a senior showcase and opportunities to create professional contacts with guest artists and through student trips to the Southeastern Theatre Conference (SETC) and the Kennedy Center American College Theatre Festival (KCACTF), all while earning a well-rounded theatrical education under the liberal arts umbrella of the university. Students can also take advantage of study abroad trips and practical internships.

From Broadway to cabaret, musical theatre is a genre that continues to captivate generations by combining acting, song and dance. In this Theatre degree program at UNH, you'll develop and refine your talents

in performance, movement, and voice while also studying the history of theatre and musical theatre. Our program gives you a well-rounded experience for future work in theatre, affording the opportunity to perform in faculty- and student-directed productions while also gaining hands-on experience through audition courses, visits from guest artists, and student showcases and trips.

In addition to our award-winning faculty, the UNH Department of Theatre and Dance offers numerous performance opportunities every year in musicals, plays or dance concerts, including student productions. Our students get opportunities to ease into the professional world through experiences in class and in our curriculum. Our January Term study-abroad program offers a 10-day experience of London theatre, and we partner with Actor's Connection in New York City to provide a senior showcase for industry professionals before students graduate.

Student Learning Outcomes

Program Learning Outcomes

On completion of the B.A. in Theatre, students will:

- Recognize and distinguish between various styles and forms of theatre or dance that have shaped the evolution of these disciplines.
- Effectively communicate artistic ideas and/or critical analysis of theatre or dance works through appropriate oral, written or practical means.
- Demonstrate knowledge and fundamental skill level of the basic areas of theatre or dance production in areas related to performance, design, technology or management.
- Create and demonstrate informed and personal artistic choices in coursework and productions (i.e., design, dance, directing, acting).

On completion of the option in Musical Theatre, students will:

- Utilize a healthy vocal technique and demonstrate the ability to read music.
- Effectively analyze a dramatic script.
- Apply knowledge of theatre to write critically about both musical and non-musical theatre.
- Demonstrate the ability to perform dance choreography.
- Apply acting techniques both in writing and in practice.
- Utilize knowledge of musical theatre history and styles to select appropriate repertoire for class and auditions.
- Demonstrate the skills and create the elements necessary to compete in the professional theatrical world, including a professional resume and audition book.

Theatre Major: Secondary Theatre Education Option (B.A.)

https://www.unh.edu/program/bachelor-arts/theatre-secondary-theatre-education

Description

The Theatre Major: Secondary Theatre Education Option at UNH prepares students to teach and direct theatre for K-12 students. The curriculum includes theatre history, directing, design, theatre technology, and teaching methods, with practical teaching experience. Graduates can pursue careers as teaching artists, obtain NH K-12 Theatre Arts teacher licensure as an undergraduate or continue to a fifth-year master's program. With over 25 annual performances and opportunities for independent study, the program offers real-world experience, departmental financial assistance, and strong preparation for careers in teaching or youth theatre.

One of only a few programs of its kind in the country, UNH's Secondary Theatre Education Option will prepare you to teach theatre and direct productions with students in kindergarten through 12th grade. You'll study the history of theatre, directing, the elements of design and theatre technology, and methods of teaching in theatre. You'll gain hands-on

practical teaching experience with K-12 students. As you complete your studies, you will have the option to enter theatre education directly as a teaching artist at professional theatres, get NH Theatre Arts K-12 teacher licensure, or pursue a fifth-year Master's in Teaching program through the UNH Education Department.

In addition to our award-winning faculty, the UNH Department of Theatre and Dance offers more than 25 performance opportunities every year in musicals, plays or dance concerts, including student productions. You'll be able to pursue independent studies and be eligible to apply for R.E.A.C.H., financial assistance provided to students who participate in internships with professional theatres or dance organizations. Our theatre education courses provide multiple practical teaching experiences so that you know before the end of your senior year whether teaching K-12 suits your career goals. With the addition of undergraduate or graduate teacher licensure, you'll be well-positioned to pursue a career in teaching or youth theatre.

Education		
EDUC 500	Exploring Teaching [2]	4
Total Credits		**63-68**

1 Students are required to take at least one practicum for every semester they are a major in the Department of Theatre and Dance. In addition, each student must take each type of practicum at least once (Technical, Costume, Performance, Marketing and Promotion).
2 May be taken at the undergraduate level or the graduate level.

NOTE: It is understood that students will fulfill 20 internship contact hours with theatre students in their option area: elementary, middle, or high school. Projects for THDA 729 Community Oriented Drama Programs cannot count as internship hours. Students may fulfill this requirement through a variety of teaching opportunities with the department's outreach program (both during the school year and in the summer), or they may work with local schools teaching, coaching actors, assistant directing, choreographing, or in some other capacity as specifically arranged with their theatre adviser.

It also is understood that students involved in the above course curriculum in order to get state theatre arts certification must apply to either the UNH Department of Education or another university for acceptance into a fifth-year master of arts in teaching (M.A.T.) or master of education (M.Ed.) degree program that fulfills state requirements for certification.

State K-12 Teacher Certification

In order to obtain state theatre arts certification, students must either know from their first year that they are pursuing undergraduate Theatre Arts teacher certification or they must apply to the UNH Department of Education or another university for acceptance into a fifth-year master of arts in teaching (M.A.T.) or masters of education (M.Ed.) degree program, which fulfills state requirements for certification. Students who are accepted into early graduate admission may take up to 12 credits toward the 32 credit masters while finishing their undergraduate degree. For further clarification regarding both undergraduate and graduate

certification options, contact Raina Ames, Paul Creative Arts Center, (603) 862-3044, raina.ames@unh.edu.

4-Year Teacher Licensure B.A. Program

The 4-year teacher licensure B.A. program includes the same requirements as the B.A. secondary theatre education option but with the following modifications.

- The THDA 798/799 requirement is replaced with EDUC 694 Courses in Supervised Teaching
- The following requirements are added.

Code	Title	Credits
EDUC 605	Educational Perspectives in Critical Times	4
EDUC 694	Courses in Supervised Teaching	8
EDUC 701	Human Development & Learning: Cultural Perspectives	4
EDUC 751A	Inclusive Elementary Education: Literacies and Learning for Diverse Learners	4
or EDUC 751B	Methods of Inclusive Secondary Education: Literacies, Learning, and Transitions	
THDA 791	Internship in Theatre and Dance	2

5-Year Teacher Licensure M.A.T. or M.Ed. Program

The 5-year teacher licensure M.A.T. or M.Ed. Program includes the same requirements as the B.A. secondary theatre education option but with the following modifications:

- The following requirements are added.

Student Learning Outcomes

Program Learning Outcomes

On completion of the B.A. in Theatre, students will:

- Recognize and distinguish between various styles and forms of theatre or dance that have shaped the evolution of these disciplines.
- Effectively communicate artistic ideas and/or critical analysis of theatre or dance works through appropriate oral, written or practical means.
- Demonstrate knowledge and fundamental skill level of the basic areas of theatre or dance production in areas related to performance, design, technology or management.
- Create and demonstrate informed and personal artistic choices in coursework and productions (i.e., design, dance, directing, acting).

On completion of the option in Secondary Theatre Education, students will:

- Develop and compile effective lesson plans and teaching materials appropriate to student developmental levels and individual learning styles.
- Define a personal teaching philosophy.
- Demonstrate effective teaching strategies.
- Evaluate teaching abilities through analysis and reflection.
- Develop directing and production skills.
- Match to teaching materials the appropriate national educational standards for arts and non-arts subjects.

Disclosures

Theatre Major: Secondary Theatre Education Option (B.A.)

Location/Delivery: College of Liberal Arts, Durham Campus [In-Person Program]

This program is designed to prepare graduates for professional licensure/certification as follows:

Teacher Licensure

Theatre K-12

*The University of New Hampshire has determined this program **meets** the educational requirements for licensure/certification in:*[1]
Alabama, Alaska, Arizona, Arkansas, California, Colorado, Connecticut, Delaware, Florida, Georgia, Hawaii, Idaho, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Michigan, Minnesota, Mississippi, Missouri, Montana, Nebraska, Nevada, New Hampshire, New Jersey, New Mexico, New York, North Carolina, North Dakota, Ohio, Oklahoma, Oregon, Pennsylvania, Rhode Island, South Carolina, South Dakota, Tennessee, Texas, Utah, Vermont, Virginia, West Virginia, Wisconsin, Wyoming.

Additional information and related resources are available on the Registrar's Office website.

[1] State specific post-education requirements are subject to change. Students are responsible for confirming these requirements in their state of residence and intended practice.

Arts Administration Minor

https://www.unh.edu/program/minor/arts-administration

Description

The Arts Administration Minor is designed to develop the skillset necessary for work in the#diverse field of arts management and arts entrepreneurship. You'll gain experience in#accounting, marketing, and business administration as well as other critical areas that help prepare students for careers in the nonprofit and for-profit arts sectors. The knowledge acquired in this minor is also designed to be applied to the development, funding, marketing and management of projects created by fine and performing artists.

The award-winning faculty in the UNH Departments of Theatre and Dance, Music and Art offer students an enormous spectrum of fine and performing arts opportunities and learning experiences to connect and enhance the study of Arts Administration. #The Paul College of Business and Economics is one of the nation's top ranked business schools with renowned faculty in the areas of marketing, management, finance and accounting. This unique minor is designed to bring exposure to the arts for non-fine and performing arts majors, and business-related skills for those in the arts.

Contact David Kaye (david.kaye@unh.edu), (603) 862-0667.

Total Credits		**20**

1 This course can be taken by students pursuing majors in the fine and performing arts division of COLA. This course cannot also be used toward completion of any major in Art and Art History.

2 This course can be taken by students pursuing majors in the fine and performing arts division of COLA. This course cannot also be used toward completion of the Theatre & Dance major. Course must be specifically focused on Arts Administration.

Dance Minor

https://www.unh.edu/program/minor/dance

Description

The Dance Minor at UNH is a dynamic complement to any major, offering students a well-rounded introduction to the art of dance. This program provides a comprehensive curriculum in dance technique, theory, and performance, allowing students to develop artistic and professional skills in a supportive environment. With its comprehensive curriculum and rich performance opportunities, the Dance Minor equips students to pursue their passion for dance while enhancing career prospects in both artistic and interdisciplinary fields.

Dance Minors at UNH have the opportunity to study diverse dance styles, including Ballet, Pointe, Jazz, Tap, Musical Theatre, and Aerial Dance. The program also includes courses in dance history, choreography, composition and pedagogy, as well as innovative offerings like Dance Technology (Compocinema) and Famous Dancers of the 21st Century.

Students are encouraged to participate in the department's extensive annual performances, such as the UNH Dance Company Concert, Ballet Showcases, and Aerial Dance Showcases. Professional development opportunities include internships, guest artist workshops, and study-abroad experiences like The London Experience, which explores the intersections of theatre, dance, and culture.

Musical Theatre Minor

https://www.unh.edu/program/minor/musical-theatre

Description

From Broadway to cabaret, musical theatre is a genre that continues to captivate generations by combining acting, song, and dance. In the Musical Theatre Minor at UNH, you'll develop and refine your talents in performance, movement, and voice while studying the history of theatre and musical theatre. You'll have the opportunity to perform in faculty- and student-directed productions. You can combine this minor with a major such as Business or Music, or you can pursue a major in Theatre or one of its other theatre or dance options to receive a well-rounded experience for future work in theatre.

In addition to our award-winning faculty, the UNH Department of Theatre and Dance offers numerous performance opportunities every year in musicals, plays or dance concerts, including student productions. Our students get opportunities to ease into the professional world through experiences in class and in our curriculum. Our January Term study-abroad program offers a 10-day experience of London theatre, and we partner with Actor's Connection in New York City to provide a senior showcase for industry professionals before students graduate.

Theatre Minor

https://www.unh.edu/program/minor/theatre

Description

Pursue your passion for the performing arts with the Theatre Minor. Learn about the history and literature of theatre, as well as performing arts skills, design and theatre technology. Tailor the minor to your interests with courses in acting, dance, voice, playwriting, directing, arts administration, stagecraft, puppetry, theatre education and musical theatre. You'll have the opportunity to participate in full-scale theatrical productions offered by our department. Combine the Theatre Minor with any degree, or major in another theatre or dance option, literature, art, music or business to enhance your career opportunities or future studies. In addition to our award-winning faculty, the UNH Department of Theatre and Dance offers various performance opportunities every year in musicals, plays and dance concerts, including student productions. Students can also take part in the January Term study-abroad program, which offers a 10-day experience of London theatre and insights into politics and societal issues.

Youth Drama Minor

https://www.unh.edu/program/minor/youth-drama

Description

If you want to connect with children through the dramatic arts in settings inside or outside the classroom, the Youth Drama Minor is for you. Whether you're interested in elementary school teaching or working as an artist, you'll learn skills in storytelling and theatre, and you'll have the opportunity to work with our master puppeteer. You'll also explore the values and practice of incorporating the arts into a non-arts educational setting. Combine this minor with a major such as business, social work or education, with the option to pursue a fifth-year master's degree in teaching through the UNH Department of Education. In addition to our award-winning faculty, our Department of Theatre and Dance offers more than 25 performance opportunities every year in musicals, plays and dance concerts, including student productions.

Studies in Fashion and Design Cognate

https://www.unh.edu/program/cognate/studies-fashion-design

Description

The Studies in Fashion and Design cognate offers students a foundation for developing the basic skills to enter the field of fashion design. It introduces the art behind the creation of apparel and the basics of marketing strategy connected to fashion design. Students will be educated to develop their own creative process and design method while learning the basic knowledge of marketing and personal business. The cognate prepares students with a means to combine their artistic vision with practical application and helps them become designers who have the skills to support their own artistries.

Students complete coursework selected from three groups:

1. Design Creation: Helps students to adapt their artistic skills to support conceptual ideas. It gives students abilities in creating, analyzing, constructing and presenting works for costume creation. It aims to guide students in developing their own working process with a critical approach to problem solving. Students will be able to use terminology to communicate ideas in the fashion design industry.
2. Design Skills: Gives students the options to understand and apply a skill class of their choice to help them articulate their design ideas visually and digitally. It aims to offer students options to create visual merchandising for their design works through rendering hand skills, graphic design software, or photography.
3. Marketing: Helps students to understand and incorporate business aspects into their creative works. It aims to prepare students to promote and sustain their creative works independently as a personal business or within retail organizations.

Requirements

Student must complete three courses (12 credits), one course in each group listed below.

Code	Title	Credits
Design Creation		
Select one course from the following:		4
THDA 546	Costume Design for the Theatre	

THDA 458	Costume Construction

MKTG 530	Survey of Marketing	
MKTG 547	Promotion and Advertising	
MKTG 649	Foundations of Personal Selling	
Total Credits		**12**

Studies in the Design of Interior Space Cognate

https://www.unh.edu/program/cognate/studies-design-interior-space

Description

This cognate provides students a pathway to enter the world of interior design. It aims to give students an overview of design creation and execution for space planning. From concept development to project execution, the cognate allows students to formulate design projects that are both practical and aesthetically pleasing. Students will develop a comprehensive creative process through research, problem solving and project development. The cognate prepares students to apply critical thinking to the creation of interior environments utilizing a human-centered approach.

Students complete coursework selected from three groups:

1. Design Development: Helps students obtain the skills in design creation. Students will learn about concept development, research analysis, and psychological and physiological characteristics in space planning. It provides students with the ability to utilize knowledge in design elements and principles in 3D design creation and integrate this knowledge into design concepts as solutions for design projects.
2. Historical Aspect: Gives students an overview of architectural history. It will help students to identify the historical, political, social and economic elements that have influenced the evolution of interior architecture and decorative arts. Students will be able to apply their skills in research and their knowledge of historic design styles in their design creations.
3. Design Skills: Helps students to understand and apply skills related to design execution. It provides students with the option to gain craftsmanship in sketching, rendering, scaled design drawings, CAD (computer-aided drafting), graphic solutions or standards.

Requirements

Student must complete three courses (12 credits), one course in each group listed below.

Code	Title	Credits

Women's and Gender Studies (WGS)

Women's and gender studies provides students with an understanding of the status of women in various cultures and historical eras, in the nexus of race, class, sexuality, religious and disability studies. Students learn the use of gender as a category of analysis and increase their knowledge of women's contributions to many fields. Women's and gender studies courses offer students critical perspectives on such basic questions of the social order as assumptions about gender roles and gender identity.

As a relatively small department in the College of Liberal Arts, we provide students with a sense of community and opportunities to contribute directly to changing the campus climate. In a rigorous academic environment, women's and gender studies offers students a springboard for activism. Our internship program enables students to gain first-hand work experience across many fields.

A major or minor in women's and gender studies or social justice leadership prepares students for careers where the changing roles of women are having a perceptible impact. Women's studies graduates go on to law school and graduate school in a variety of disciplines. Some have taken positions with social change or family service agencies, while others have found work in such fields as health care, journalism, education, human rights, social and environmental justice, and the arts.

Student Learning Outcomes

Program Learning Outcomes

- Demonstrate the ability to think critically about categories of difference—including gender, sexuality, race, nation, class, religion-- and explore the relationship between inequality and those categories of difference.
- Demonstrate understanding of how difference influences the values, beliefs, and experiences of individuals and groups in across historical, cultural, political and geographic contexts.
- Define and apply central concepts in Women's and Gender Studies and Queer Studies, including but not limited to sexuality, power, privilege, inequality, justice, violence, the body, reproductive health, and intersectionality (i.e., interlocking and simultaneous forms of oppression).
- Know the history of feminist thought and production, especially as it has been inflected by cultural difference.
- Demonstrate self-reflectiveness, cultural awareness, critical analysis, and the ability to effect personal and community change.
- Write and speak clearly, be able to construct persuasive arguments based on their experiences, the experiences of others, and on scholarship; be able to conduct research using feminist methodologies.

Social Justice Leadership Minor

https://www.unh.edu/program/minor/social-justice-leadership

Description

The minor in social justice leadership engages students in an exploration of policies, power dynamics, institutions and structures that promote and hinder equity and processes of change required for social justice. Students will examine various forms of injustice such as sexism, racism, classism, ableism and environmental degradation. The minor is grounded in three pillars — a theory component, a leadership component and experiential learning activities. The minor is interdisciplinary in nature, drawing on disciplines such as anthropology, education, English, history, philosophy, political science, social work and sociology. After completing the curriculum, students will have gained a historical perspective, theoretical understanding and applied leadership skills that are needed for social justice work and activism. The minor certifies students' knowledge regarding, and commitment to, social justice leadership, which will be useful in postgraduate pursuits.

Students who wish to minor in social justice leadership should consult with the department chair or coordinator.

SW 715	Affirming Practice with Lesbian, Gay, Bisexual, Transgender, Queer+ People	4

The women's and gender studies core faculty will consider approving other courses that include more than 50% of content related to social justice leadership.

Women's and Gender Studies Minor

https://www.unh.edu/program/minor/womens-gender-studies

Description

Women's and gender studies provides students with an understanding of the status of women in various cultures and historical eras, in the nexus of race, class, sexuality, religious and disability studies. Students learn the use of gender as a category of analysis and increase their knowledge of women's contributions to many fields. Women's studies courses offer students critical perspectives on such basic questions of the social order as assumptions about gender roles and gender identity.

As a relatively small department in the College of Liberal Arts, we provide students with a sense of community and opportunities to contribute directly to changing the campus climate. In a rigorous academic environment, women's and gender studies offers students a springboard for activism. Our internship program enables students to gain first-hand work experience across many fields.

A major or minor in women's and gender studies prepares students for careers where the changing roles of women are having a perceptible impact. Alumni go on to law school and graduate school in a variety of disciplines. Some have taken positions with social change or family service agencies, while others have found work in such fields as health care, journalism, education, human rights, social and environmental justice, and the arts.

Requirements

Academic policies related to Minors.

Minor Requirements

- The Women's and Gender Studies (WGS) minor requires students to complete 20 credits of WGS-approved coursework with grades of C- or better.
- Courses taken pass/fail may not be used toward the minor.
- Students may double count no more than two (2) courses between the WGS minor and a major.

Code	Title	Credits
Required Courses		
WGS 401W	Introduction to Women's Studies	4
or WGS 405	Gender, Power and Privilege	
WGS 798W	Colloquium (normally taken at the end of the course sequence)	4
Electives		
Select three (3) WGS-approved elective courses from the list below.		12
Total Credits		**20**

WGS-Approved Electives

Code	Title	Credits
WGS Courses		
WGS 444A	Race Matters	4
WGS 505	Survey in Women's Studies	4
WGS 510	Framing Feminism: Gender Politics in Film	4
WGS 632W	Feminist Thought	4
WGS 795	Independent Study	1-4
WGS 796	Advanced Topics	4
WGS 797	Internship	4
WGS 798W	Colloquium	4

JUST 410	Sexual Harassment and Rape Prevention (SHARPP) Peer Advocacy	2-4
JUST 520	Girls Gone Bad: Delinquent Girls in Cultural Context	4
NURS 450	Making Babies: Technology, Nature, and Social Context	4
NURS 621	Maternal and Newborn Nursing	2
NURS 621C	Maternal Newborn Nurs Clin	2
PHIL 419	Race, Gender and Social Justice	4
PHIL 510	Philosophy and Feminism	4
POLT 511	Women & Politics	4
POLT 721	Feminist Political Theory	4
SOC 570	Sexual Behavior	4
SW 715	Affirming Practice with Lesbian, Gay, Bisexual, Transgender, Queer+ People	4

Additional approved elective courses are listed on the department website *for reference.*

World Languages

- World Languages Dual Major (p. 373)

World Languages Dual Major

https://www.unh.edu/program/dual-major/world-languages

Description

The world languages dual major program must be paired with majors that lead to a B.S. degree. Students focusing on Arabic or Chinese may pair the dual major with a major that leads to either a B.A. or a B.S. degree. The major offers eight language options from which to choose as a focus: Arabic, Chinese, classics, French, German, Italian, Russian and Spanish. Study of a second language adds immense value to a student's academic experience by sharpening skills in communication, decision-making, critical thinking, listening, concentration and multitasking. It also provides excellent professional preparation for careers in business, healthcare, science, engineering and more. Mastering a second language and honing intercultural communication skills in a multicultural America and globalized world will add richness and flexibility to life beyond one's career, as well.

The world languages dual major is administered by the Department of Languages, Literatures and Cultures (LLC) but draws on languages and courses from both LLC and the Department of Classics, Humanities and Italian Studies.

Requirements

Degree Requirements

Minimum Credit Requirement: 128 credits

Minimum Residency Requirement: 32 credits must be taken at UNH

Minimum GPA: 2.0 required for conferral*

Core Curriculum Required: Discovery & Writing Program Requirements

Declared Primary Major

All Major, Option and Elective Requirements as indicated.
**Major GPA requirements as indicated.*

World Languages Dual Major Requirements

The dual major in world languages consists of a total of 8 classes (32 credits), which may include the following, depending on your level/proficiency and language placement entering UNH. The minimum level of proficiency is noted below for each language.

All coursework required for the world languages major must be completed with a grade of C or better.

Code	Title	Credits
Language [1]		
Choose ONE target language from below:		8-24
Arabic Language		
Required courses:		
ARBC 401	Elementary Arabic I	
ARBC 402	Elementary Arabic II	
ARBC 503	Intermediate Arabic	
ARBC 504	Intermediate Arabic	
ARBC 631	Advanced Arabic I	
ARBC 632	Advanced Arabic II (minimum level of proficiency required)	
Chinese Language		
Required courses:		
CHIN 401	Elementary Chinese I	
CHIN 402	Elementary Chinese II	
CHIN 503	Intermediate Chinese I	
CHIN 504	Intermediate Chinese II	
CHIN 631	Advanced Chinese Conversation and Composition I	
CHIN 632	Advanced Chinese Conversation and Composition II (minimum level of proficiency required)	
Classics Language		
Required courses:		
LATN 401	Elementary Latin I	
or GREK 401	Elementary Classical Greek I	
LATN 402	Elementary Latin II	
or GREK 402	Elementary Classical Greek II	
LATN 503	Intermediate Latin I	
or GREK 503	Intermediate Classical Greek I	
LATN 504	Intermediate Latin II (minimum level of proficiency required for LATN or GREK)	
or GREK 504	Intermediate Classical Greek II	
French Language		
Required courses:		
FREN 401	Elementary French I	
FREN 402	Elementary French II	
FREN 503	Intermediate French I	
FREN 504	Intermediate French II	
FREN 631	Advanced French: Reading and Writing	
FREN 632	Advanced French: Listening and Speaking (minimum level of proficiency required)	
German Language		
Required courses:		
GERM 401	Elementary German I	
GERM 402	Elementary German II	
GERM 503	Intermediate German I	
GERM 504	Intermediate German II	
GERM 631W	Advanced Communications Skills I	
GERM 632	Advanced Communications Skills II (minimum level of proficiency required)	
Italian Language		
Required courses:		
ITAL 401	Elementary Italian I	
ITAL 402	Elementary Italian II	
ITAL 503	Intermediate Italian I	
ITAL 504	Intermediate Italian II	
ITAL 631	Advanced Conversation and Composition I	
ITAL 632	Advanced Conversation and Composition II (minimum level of proficiency required)	
Russian Language		
Required courses:		
RUSS 401	Elementary Russian I	
RUSS 402	Elementary Russian II	
RUSS 503	Intermediate Russian I	
RUSS 504	Intermediate Russian II	
RUSS 631	Advanced Russian Conversation and Composition	
RUSS 632	Advanced Russian Conversation and Composition (minimum level of proficiency required)	
Spanish Language		
Required courses:		
SPAN 401	Elementary Spanish I	
SPAN 402	Elementary Spanish II	
SPAN 503	Intermediate Spanish I	
SPAN 504	Intermediate Spanish II	
SPAN 631	Advanced Conversation and Composition I	
SPAN 632	Advanced Conversation and Composition II (minimum level of proficiency required)	
Culture, Linguistics, Literature [2]		
Choose any 400-, 500-, 600- or 700-level courses in your target language program and/or in LLC from the lists below		4-20
Arabic:		
ARBC 425, ARBC 595, ARBC 700, ARBC 795		
Chinese:		
CHIN 425, CHIN 521, CHIN 795		

Classics:

SPAN 403, SPAN 525, SPAN 526, SPAN 595, SPAN 641, SPAN 645, SPAN 647, SPAN 648, SPAN 650, SPAN 651, SPAN 652, SPAN 654, SPAN 683, SPAN 686, SPAN 790, SPAN 795, SPAN 797, SPAN 798, SPAN 799		
LLC:		
LLC 444H, LLC 444I, LLC 535A, LLC 540, LLC 552, LLC 555, LLC 560, LLC 595, LLC 791		
Capstone		
LLC 790	World Languages Capstone [3]	4

1 From 8 to 24 credits, depending on students' proficiency level and language placement on entry. All students must complete at least 8 classes (32 credits). While the major may start counting as early as the Elementary I level (401), those who enter the major at a higher level (e.g., 503, 504, or 631) will replace the lower level language courses with additional electives in the "Culture, Linguistics, Literature" category.

2 Minimum 4 credits up to 20 credits (depending on number required to get to 32 total)

3 Or approved equivalent 700-level course taken at UNH, approved study abroad equivalent, or approved high-impact experience (such as internship with a robust target language/culture component).

An experience such as study abroad, service learning, internship, or faculty-mentored, independent undergraduate research is encouraged but not required. Up to 16 credits toward the major may be earned in a semester-long study abroad program or summer study abroad program, depending on the individual language programs and their study abroad options. Students should consult with a faculty advisor regarding study abroad credits.

Student Learning Outcomes

Program Learning Outcomes

Linguistic Proficiency

- Students will demonstrate an Intermediate-Mid to Intermediate-High level of proficiency based on the ACTFL Perfomance Descriptors for Language Learners in the target language in three modes of communication: interpretive, interpersonal and presentational skills.
- Interpretive: Students are able to understand main ideas and some supporting details on familiar topics relevant to their immediate environment such as everyday life and particular interests. They have sufficient control of language (vocabulary, structure and conventional spoken and written language) to understand fully non-complex texts.
- Interpersonal: Students are able to participate in conversations on familiar topics, ask questions to initiate and sustain conversations, and communicate about self, others and everyday life.
- Presentational: Students are able to communicate information and express their thoughts about familiar topics using simple sentence structures. They are able to create messages in contexts relevant to themselves and others, and their immediate environment.

Intercultural and Transcultural Competence

- Students will demonstrate knowledge and understanding of other cultures. They are able to think critically about and are able to recognize and accept culturally differences, and the uniqueness of other cultures and peoples. By the time they graduate from our program, they will be able to:
- Recognize and describe the target culture products and practices they have directly studied and interpret texts that are read, heard and viewed.
- Analyze and critique the cultural and social products of the target culture (film, literature, art, popular culture, media, etc.) within their context, including conducting basic research projects.
- Begin to question the validity of their own cultural beliefs, behaviors and norms, by contrasting and comparing them with those of the target culture, and reflecting upon cultural differences related to spoken and written communication.

College of Life Sciences and Agriculture

Anthony S. Davis, Dean
Kimberly J. Babbitt, Associate Dean
Anton Bekkerman, Associate Dean
Jesse Stabile Morrell, Assistant Dean

The College of Life Sciences and Agriculture (COLSA) provides students a fundamental education in the agricultural, biological, life, natural, and social sciences. Advanced technical and professional courses are offered to prepare students for graduate school or entry-level positions in their chosen field. Preparation can vary from fundamental studies of cancer cells to community service planning, resource protection to genetic engineering, and molecular biology to biotechnology.

A blend of Discovery and foundational science courses, careful selection of supportive upper level courses, and ample opportunities to engage in internships, research, and study abroad experiences ensures graduates develop the background and experiences necessary to be competitive in the job market. Potential employers include federal, state, and local governments, consulting firms and industrial organizations. Graduates are employed as watershed, soil, and natural resource managers, associates in biomedical and agricultural research laboratories, marketing analysts and extension specialists, nutrition supervisors and environmental regulators, and information educators and communication experts. Community governments employ graduates as service planners and land-use specialists, teachers in traditional education, public health technicians, and urban pest control specialists. Positions are available in private and commercial organizations in production agriculture, food processing, landscaping, agribusiness, sales, and private planning. Graduates may also pursue entrepreneurial careers.

Additionally, COLSA prepares students for advanced study in their chosen field of interest where graduate study is required for attaining their career goals.

Degrees

The college offers three undergraduate degrees: the bachelor of arts, the bachelor of science, and the bachelor of science in forestry. Some of the courses prescribed in these degree programs partially fulfill the University's Discovery requirements. Students should see their advisers for specific information.

General Science Certification

Students majoring in biochemistry, molecular and cellular biology, biomedical science, biology, environmental conservation and sustainability, environmental sciences, forestry, wildlife and conservation biology, or zoology may seek certification to teach science at the middle, junior, or high school level.

For further information, contact the coordinator of teacher education in the Department of Education.

Academic Advising

All students are provided both faculty and professional advising. Additional advising is provided to students pursuing a pre-professional health or veterinary track.

Undeclared Status

Students may select a major upon entering the college or wait until registration for the sophomore year. Students who are uncertain about choosing a specific major may remain undeclared during their freshman year. In most cases, they will take the following courses, after which they should be ready to declare a major.

Course	Title	Credits
Fall		
LSA 400	Freshman Academic Experience I	1
BIOL 412	Introductory Biology: Evolution, Biodiversity and Ecology	4
CHEM 403	General Chemistry I	4
Discovery Program requirement		4
Discovery Program Requirement or an introductory course in any department in the college		4
	Credits	**17**
Spring		
BIOL 411	Introductory Biology: Molecular and Cellular	4
CHEM 404	General Chemistry II	4
MATH 424B	Calculus for Life Sciences	4
Discovery Program requirement		4
	Credits	**16**
	Total Credits	**33**

Undeclared freshmen should explore possible majors by taking courses in the areas or programs that interest them most. They should talk to faculty, students, and their adviser concerning requirements, job opportunities, etc. in the various programs and should be prepared to declare a major when they register for the first semester of the sophomore year.

Bachelor of Arts

The bachelor of arts degree is available in Agriculture and Food Systems, and Zoology. Students must accumulate 128 credits, attain a 2.0 cumulative grade-point average, satisfy Discovery requirements, and complete a foreign language requirement (see University Academic Requirements for specific B.A. language requirements). Check individual departmental listings for specific major requirements and minimum acceptable grades in major courses.

Bachelor of Science

The bachelor of science degree is available in all departments or programs. University requirements are the same as for the bachelor of arts degree, except that a foreign language is not required and minimum acceptable grades may differ in some programs. Check individual departmental or program listings for specific major requirements.

Applications of Acoustics

- Applications of Acoustics Minor (p. 376)

Applications of Acoustics Minor

https://www.unh.edu/program/minor/applications-acoustics

Description

Acoustics is the branch of physics concerned with the properties of sound. Sound is a sensory mode that shapes our everyday lives. It provides a sense of geographical, perceptual and emotional sense of place. The science of acoustics spreads across many facets of human society—music, medicine, architecture, industrial production, warfare and environment. Applied uses of acoustics are playing an important role in addressing many of the societal challenges our nation faces. Acoustics has proven to be a valuable tool for monitoring and assessing impacts related to national security concerns, food security, energy, environment, and health. Acoustics is the only practical underwater sensing modality, and on land and in air, has become directly linked to a variety of applications in environmental acoustics. The Applications of Acoustics Minor will provide a recognized mastery of fundamental acoustics concepts to enhance traditional degrees that employers are looking for in this growing field of applied acoustics.

Requirements

Academic policies related to Minors.

- A minor in Applications of Acoustics is designed to provide a flexible and broad selection of courses to complement any other major area of study.
- A minimum of five 3-4 credit courses (minimum 18 credits) is required to complete the minor.
- A minimum grade of C- is required for all minor courses.

Code	Title	Credits
Required Courses		
Knowledge Tier		
Select one course from the following:		4
BIOL 412	Introductory Biology: Evolution, Biodiversity and Ecology	
ECE 401	Perspectives in Electrical and Computer Engineering

ZOOL 740	Acoustic Ecology	
Up to 4 credits of Independent Study (795) for acoustic-related work, requires pre-approval from minor coordinator		
Total Credits		**18-20**

Student Learning Outcomes

Program Learning Outcomes

- Students apply quantitative skills to acoustic problems within their discipline.
- Students demonstrate that they understand fundamental acoustics concepts, including sound measurement, sound propagation, and sound perception, and apply this knowledge to the diverse applications of acoustics.
- Students apply acoustic principles in their respective fields to address discipline-specific, real-word challenges involving sound,

noise, and vibration, facilitating problem-solving across multiple disciplines.
- Students develop the ability to communicate acoustics concepts effectively across interdisciplinary groups and to diverse audiences.

Agribusiness

Programs

- Agribusiness Minor (p. 377)

Agribusiness Minor

https://www.unh.edu/program/minor/agribusiness

Description

The agribusiness minor is designed to provide students outside environmental and resource economics with training in the management of agricultural and natural resource business firms. The program prepares students for careers in private companies, governmental agencies, and nonprofit organizations. Students interested in operating their own businesses will also find this minor valuable. Courses in the agribusiness minor emphasize the applied use of economic and business management principles in real-world decision-making contexts.

Requirements

Academic policies related to Minors.

Agriculture and Food Systems (AGFS)

The Agriculture and Food Systems (AGFS) program offers a highly flexible curriculum to students interested in cultivating expertise in a wide variety of topics including modern agricultural practices, the science and management of working landscapes, local and regional food systems, value-added agricultural products, and the promotion of healthy eating through sustainable food production and policies.

Our graduates are prepared to pursue careers in a diverse range of fields including the production of food, fiber, and agricultural services; management and marketing of agricultural operations; management of working lands, landscapes, and ecosystems; agriculture/food/nutrition/natural resources-related research; community development; policy-making; regulatory work; and other current and emerging professions.

The program offers both a Bachelor of Science (B.S.) degree and a Bachelor of Arts (B.A.) degree. The B.S. degree best serves those seeking a strong foundation in scientific and technical knowledge and/or who envision pursuing an advanced degree in the agricultural sciences. The B.A. degree offers more flexibility to take courses from a variety of disciplines outside the biological sciences. Both degrees are flexibly designed to enable students to pursue a minor, dual degree, and/or second major.

Programs

- Agriculture and Food Systems Major (B.A.) (p. 377)
- Agriculture and Food Systems Major (B.S.) (p. 379)
- Agriculture and Food Systems Minor (p. 381)
- Horticulture Minor (p. 381)

Faculty

Agriculture, Nutrition and Food Systems Department Faculty

Agriculture and Food Systems Major (B.A.)

https://www.unh.edu/program/bachelor-arts/agriculture-food-systems

Description

The Agriculture and Food Systems B.A. offers a highly flexible curriculum to students interested in cultivating expertise in a wide variety of topics including modern agricultural practices, the science and management of working landscapes, local and regional food systems, value-added agricultural products, and the promotion of healthy eating through sustainable food production and policies. An interdisciplinary field comprising the social, physical, and life sciences and beyond, agriculture and food systems lie at the center of many of the major challenges facing the world, such as producing food to meet the needs of an ever-growing population while conserving natural resources and promoting human wellness.

Our students get hands-on experience in applied coursework and are actively encouraged to conduct impactful research alongside faculty. Our graduates become practitioners and entrepreneurs of agricultural and food businesses, researchers and policy-makers at state/federal agencies and non-profit organizations, laboratory technicians, and agricultural educators. Some go on to obtain advanced degrees in the agricultural sciences.

Requirements

Degree Requirements

Minimum Credit Requirement: 128 credits

Minimum Residency Requirement: 32 credits must be taken at UNH

Minimum GPA: 2.0 required for conferral*

Core Curriculum Required: Discovery & Writing Program Requirements

Foreign Language Requirement: Yes

All Major, Option and Elective Requirements as indicated.
**Major GPA requirements as indicated.*

Major Requirements

The AGFS B.A. program structure includes FOUR major components: foundation courses, courses in a student-designed emphasis area, program elective courses, and a capstone. You must earn a minimum grade of C- in all courses required for the major.

Foundation courses include 37 credits, which satisfy at least 5 of the University Discovery requirements.

Student-Designed Emphasis courses include 20 credits that make up a cohesive emphasis or focus area. Courses may be selected from the *List of Approved Program Electives*, but do not need to be on that list. Each student will define their emphasis area in consultation with their advisor and submit it to the AGFS program committee for approval prior to the start of their 7th semester.

Elective courses include 16 credits, chosen from the *List of Approved Program Elective* courses.

A **Capstone** experience must take place during the senior year. There are two capstone course options below. The capstone *MAY NOT* be counted towards elective or emphasis credits.

Of the Student-Designed Emphasis and Program Elective courses, at least 16 credits (not counting the capstone) must be earned at the 600/700-level.

Code	Title	Credits
Foundation Courses (B.A.)		
AGFS 421	Introductory Horticulture	4
AGFS 405	Sustainable Agriculture and Food Production	4
AGFS 502	Agroecology	4
AGFS 602	Emphasis Development and Professional Pathways in Sustainable Agriculture and Food Systems	1
AGFS 620	Food Systems & Community Resilience	4
AGFS 690	Agricultural and Food Policy	4
or NR 411	Environmental and Resource Economics Perspectives	
or ECON 402	Principles of Economics (Micro)	
ANSC 421	Introduction to Animal Science	4
BIOL 528	Applied Biostatistics I	4
CHEM 411	Introductory Chemistry for Life Sciences [1]	4
or CHEM 403	General Chemistry I	
NR 501	Studio Soils	4
Student-Designed Emphasis Area		
At least 20 credits, proposed using the emphasis area declaration form (see your advisor) at least 1 year prior to planned graduation date.		20
Electives		
Select 16 credits from the approved electives list below.		16
Capstone		
AGFS 733W	Advanced Topics in Agriculture and Food Systems	4
or ANSC 750	Collaborative Farm Design and Development	

[1] Some courses (e.g. genetics, microbiology) require CHEM 403 and CHEM 404 as a prerequisite. If you intend to take these courses, you should take CHEM 403 rather than CHEM 411.

University Requirements

In addition to meeting the AGFS major requirements, students must satisfy all University requirements including those that pertain to the minimum number of credits, grade-point average, writing-intensive courses, the Discovery Program, and foreign language for B.A. students only.

Student Learning Outcomes

Program Learning Outcomes

- Students will demonstrate a working understanding of the interdisciplinary nature of agriculture and food systems and the basic principles underpinning sustainability including: economic viability, environmental stewardship, social responsibility, and the trade-offs between competing metrics of sustainability.
- Students will demonstrate in-depth knowledge, critical thinking and analysis, and effective written communication in a self-declared area of emphasis within the program.
- Students will gain an applied understanding of agriculture and food systems by engaging in an experiential education opportunity.
- Students will be able to independently interpret, evaluate, and engage with research in the agricultural sciences, including its biological, physical, social, and/or economic aspects.

Agriculture and Food Systems Major (B.S.)

https://www.unh.edu/program/bachelor-science/agriculture-food-systems

Description

Building on a strong foundation in the biological sciences, the Agriculture and Food Systems B.S. offers a highly flexible curriculum to students interested in cultivating expertise in a wide variety of topics including modern agricultural practices, the science and management of working landscapes, local and regional food systems, value-added agricultural products, and the promotion of healthy eating through sustainable food production and policies. An interdisciplinary field comprising the social, physical, and life sciences and beyond, agriculture and food systems lie at the center of many of the major challenges facing the world, such as producing food to meet the needs of an ever-growing population while conserving natural resources and promoting human wellness.

Our students get hands-on experience in applied coursework and are actively encouraged to conduct impactful research alongside faculty. Our graduates become practitioners and entrepreneurs of agricultural and food businesses, researchers and policy-makers at state/federal agencies and non-profit organizations, laboratory technicians, and agricultural educators. Some go on to obtain advanced degrees in the agricultural sciences.

Requirements

Degree Requirements

Minimum Credit Requirement: 128 credits

Minimum Residency Requirement: 32 credits must be taken at UNH

Minimum GPA: 2.0 required for conferral*

Core Curriculum Required: Discovery & Writing Program Requirements

Foreign Language Requirement: No

All Major, Option and Elective Requirements as indicated.
**Major GPA requirements as indicated.*

Major Requirements

The AGFS B.S. program structure includes FOUR major components: foundation courses, courses in a student-designed emphasis area, program elective courses, and a capstone. Students must earn a minimum grade of C- in all courses required for the major.

Foundation courses include 49 credits, which satisfy at least 6 of the University Discovery requirements.

Student-Designed Emphasis courses include 20 credits that make up a cohesive emphasis or focus area. Courses may be selected from the *List of Approved Program Electives*, but do not need to be on that list. Each student will define their emphasis area in consultation with their advisor and submit it to the AGFS program committee for approval prior to the start of their 7th semester.

Elective courses include 16 credits, chosen from the *List of Approved Program Elective* courses.

A **Capstone** experience must take place during senior year. There are two capstone course options below. The capstone *MAY NOT* be counted towards elective or emphasis credits.

Of the Student-Designed Emphasis and Program Elective courses, at least 16 credits (not counting the capstone) must be earned at the 600/700-level.

Code	Title	Credits

In addition to meeting the AGFS major requirements, students must satisfy all University requirements including those that pertain to the minimum number of credits, grade-point average, writing-intensive courses, and the Discovery Program.

Student Learning Outcomes

Program Learning Outcomes

- Students will demonstrate a working understanding of the interdisciplinary nature of agriculture and food systems and the basic principles underpinning sustainability including: economic viability, environmental stewardship, social responsibility, and the trade-offs between competing metrics of sustainability.
- Students will demonstrate in-depth knowledge, critical thinking and analysis, and effective written communication in a self-declared area of emphasis within the program.
- Students will gain an applied understanding of agriculture and food systems by engaging in an experiential education opportunity.
- Students will be able to independently interpret, evaluate, and engage with research in the agricultural sciences, including its biological, physical, social, and/or economic aspects.

Agriculture and Food Systems Minor

https://www.unh.edu/program/minor/agriculture-food-systems

Description

Encompassing a broad mixture of the natural sciences, social sciences, and business skills, agriculture and food systems is an interdisciplinary field that lies at the center of many of the major challenges facing the world, such as producing food to meet the needs of an ever-growing population while conserving natural resources and promoting human wellness. An understanding of these challenges and potential solutions can enhance any career.

The required coursework for this minor provides an introduction to sustainable and organic agriculture practices, including an array of strategies to sustainably manage soil, nutrient, water, and genetic resources. Students gain more in-depth knowledge of agriculture and food systems by selecting from a diverse array of electives focused on production systems, management, and/or policy.

Undergraduates in any major field of study (except current majors) may minor in Agriculture and Food Systems.

Requirements

[1] Electives - 16 credits of elective coursework, 8 credits must be at the 600/700 level, selected from the courses listed.

Horticulture Minor

https://www.unh.edu/program/minor/horticulture

Description

Through completion of the horticulture minor, students gain practical, well-rounded knowledge of horticultural production systems. The required Introductory Horticulture course provides the necessary foundation in theoretical and applied knowledge in the plant sciences for the minor. Students then gain more in-depth knowledge by taking additional coursework focused on botany, various specific crop production systems, or integrated pest management strategies.

Our horticulture students study the science and art of cultivating plants and the many ways that plants enhance the human experience. The cultivation of fruits, vegetables, and ornamental plants is key to solving many of the major challenges facing the world, such as producing food to meet the needs of an ever-growing population while conserving natural resources and promoting human wellness. An understanding of these challenges and their potential solutions can enhance any career, and a minor in horticulture may complement any major field of study.

Requirements

Academic policies related to Minors.

Animal Science (ANSC)

The undergraduate program in animal science is designed to prepare students for a variety of careers by providing strong fundamental and applied education in animal nutrition, reproduction, genetics, physiology, health, and animal management. On-campus animal facilities available to provide practical experience with agricultural animals include the Fairchild Dairy Teaching and Research Center, the Lou and Lutza Smith Equine Center, the nearby organic dairy housed at the Burley-Demeritt Farm, two high tunnels for small livestock species, and a small animal veterinary clinic. Program graduates may be employed in animal business ownership, management, marketing, the pharmaceutical industry, agribusiness, finance, manufacturing, public relations, extension, vocational education, or consulting. Students who are considering continuing their studies through graduate school or veterinary school are advised to take the recommended additional courses in chemistry, math, and physics.

Faculty

Agriculture, Nutrition and Food Systems Department Faculty

Animal Science Major (B.S.)

https://www.unh.edu/program/bachelor-science/animal-science

Description

Animal science is the study of the biology and management of animals that enhance human life and well-being. Completion of the Animal Science B.S. is designed to prepare students for a variety of animal-focused careers. Students in our major can work with a wide variety of animal species as part of the curriculum, from dairy cattle to chickens to small animals. Our program allows students to gain a scientific understanding of animals while exploring the many career options in animal management.

The Animal Science B.S. is one of many pathways for admission to veterinary school. Because admission to veterinary school is highly competitive due to the limited number of available spaces and the high standards for admission, students are advised to choose an academic program that deeply interests them. Simply taking the prerequisite courses required by veterinary schools without considering alternate career goals is not advisable.

Requirements

Degree Requirements

Minimum Credit Requirement: 128 credits

Minimum Residency Requirement: 32 credits must be taken at UNH

Minimum GPA: 2.0 required for conferral*

Core Curriculum Required: Discovery & Writing Program Requirements

Foreign Language Requirement: No

All Major, Option and Elective Requirements as indicated.
**Major GPA requirements as indicated.*

Major Requirements

Students will be required to earn a C- or better in all required courses for the animal science major to receive credit toward graduation. Students failing to do this will need to retake the course in order to receive credit.

Code	Title	Credits
Foundation Courses		
BIOL 411	Introductory Biology: Molecular and Cellular	4

ANSC 647	Equine Stable Management	
ANSC 698	Cooperative for Real Education in Agricultural Management (CREAM)	
ANSC 728	Advanced Dairy Management II	
ANSC 795	Investigations	
ANSC 799	Honors Senior Thesis	
Total Credits		**76**

1 Students interested in graduate school should take 2 semesters of Organic Chemistry (CHEM 651/CHEM 653 and CHEM 652/CHEM 654) and one semester of General Biochemistry (BMCB 658/BMCB 659) in place of BMCB 501.

2 ENGL 501 Introduction to Creative Nonfiction, ENGL 502 Professional and Technical Writing, ENGL 503 Persuasive Writing or ENGL 419 How to Read Anything

Capstone Experience

The capstone requirement must be completed during the senior year, and may be satisfied through completion of ANSC 698 Cooperative for Real Education in Agricultural Management (CREAM), ANSC 728 Advanced Dairy Management II, ANSC 750 Collaborative Farm Design and Development, or the ANSC 797 Equine Capstone Experience.
An ANSC 799 Honors Senior Thesis, which typically includes mentored research and some form of experiential learning, can also fulfill the capstone requirement.

Additional Information

Requirements for Students Interested in Graduate/ Veterinary School

- Students interested in veterinary medicine should consult the pre-veterinary medicine program website.

Code	Title	Credits
BMCB 658 & BMCB 659	General Biochemistry and General Biochemistry Lab	5
CHEM 651 & CHEM 653	Organic Chemistry I and Organic Chemistry Laboratory	5
CHEM 652 & CHEM 654	Organic Chemistry II and Organic Chemistry Laboratory	5
MATH 424B	Calculus for Life Sciences	4
PHYS 401	Introduction to Physics I	4
PHYS 402	Introduction to Physics II	4

2+2 Program Pathways and Course Articulations

Students in a 2+2 program pathway below can complete an associate degree and continue into the Bachelor of Science in Animal Science. In these programs, select courses completed as part of the associate degree are approved to satisfy equivalent course or elective requirements in the bachelor's degree program.

The following course equivalencies are approved for the below program pathways:

Code	Title	Credits
Applied Animal Science (A.A.S.) to Animal Science (B.S.)		
AAS 428 satisfies ANSC 512		
Veterinary Technology (A.A.S.) to Animal Science (B.S.)		
AAS 428 satisfies ANSC 512		
VTEC 424 satisfies ANSC 406		
VTEC 430 satisfies Major Elective		
VTEC 449 satisfies ANSC 421		
VTEC 550 satisfies Experiential Major Elective		

VTEC 565 satisfies ANSC 625

VTEC 575 satisfies Major Elective

Degree Plan

Sample Degree Plan

This sample degree plan serves as a general guide; students collaborate with their academic advisor to develop a personalized degree plan to meet their academic goals and program requirements.

First Year		
Fall		**Credits**
Introductory course, ANSC 421 preferred		4
BIOL 411	Introductory Biology: Molecular and Cellular	4

Student Learning Outcomes

Program Learning Outcomes

Students will gain a fundamental knowledge of the animal science related disciplines of:

Anatomy & Physiology
- Students will be able to recognize the complimentary relationship of anatomic structure and function and accurately describe the basic physiologic processes of mammalian organ systems.

Nutrition
- Students will be able to identify, compare, contrast, and link different concepts regarding animal feeding and metabolism of carbohydrates, lipids, and protein in major livestock species and equine.

Genetics
- Students will understand basic principles and applications of inheritance, the difference between qualitative and quantitative genetics, and be able to discuss the various disciplines within genetics.

Disease
- Students will understand the modes of transmission of infectious diseases, recognize signs of illness associated with notable diseases in livestock species, and be able to appropriately apply general concepts of disease prevention and biosecurity to a variety of management situations.

Reproduction
- Students will comprehend the mechanisms and endocrine control of gametogenesis, fertilization, pregnancy, and lactation and understand the variety of factors that can influence reproductive success.

Animal Ethics
- Students will recognize the numerous ways that humans use, benefit from, and conflict with non-human animals and have an awareness of the variety of motivations and influences that drive these relationships.

Critical Analysis & Communication
- Students will be able to develop critical questions that facilitate their independent investigation of topics related to animal science and demonstrate an integration of discipline specific knowledge through engaging in experiential education opportunities.
- Students will be able to conduct literature searches using relevant databases to critically evaluate both academic and popular press resources pertinent to the animal sciences.
- Students will be able to construct well-supported, effectively organized written arguments to express informed perspectives on animal science related topics. These writings will demonstrate professional style, appropriate mechanics (grammar, punctuation, and spelling), and the correct use of citations.

Animal Science Major: Dairy Management Option (B.S.)

https://www.unh.edu/program/bachelor-science/animal-science-dairy-management

Description

The Animal Science: Dairy Management option is designed to provide students with solid training in areas important to the successful management of a dairy enterprise, for employment in related agribusinesses (e.g., pharmaceutical and feed industries), or for those wishing to pursue additional training leading to the M.S. or Ph.D. degree in dairy science or its related disciplines. Dairy management students receive training in areas such as nutrition, reproduction, diseases, genetics, lactation physiology, forages, agribusiness finance, personnel management, computer science, and public relations. Students in the Dairy Management Option will be able to practice hands-on skills on our two modern dairy facilities; the on campus Fairchild Dairy Teaching and Research Center milking 100 Holstein cows and the Burley-DeMeritt Organic Dairy Research Farm in Lee milking 50 Jersey cows.

Requirements

Degree Requirements

Minimum Credit Requirement: 128 credits

Minimum Residency Requirement: 32 credits must be taken at UNH

Minimum GPA: 2.0 required for conferral*

Core Curriculum Required: Discovery & Writing Program Requirements

Foreign Language Requirement: No

All Major, Option and Elective Requirements as indicated.
**Major GPA requirements as indicated.*

Major Requirements

GPA requirements for all students in Animal Science: Students will be required to earn a C- or better in the foundation courses and all required courses for the animal science major to receive credit toward graduation. Students failing to do this will need to retake the course in order to receive credit.

Code	Title	Credits

Animal Science Major: Equine Studies Option (B.S.)

https://www.unh.edu/program/bachelor-science/animal-science-equine-studies

Description

The Animal Science: Equine Studies option is designed to provide students with a foundation in the sciences, a breadth within the animal science discipline, and the depth to serve the equine industry. Through a hands-on curriculum, equine studies students receive training in areas important to pursuing a successful career in equine management and to pursue additional training leading to the M.S. or Ph.D. degree in equine science or its related disciplines. The UNH Equine facilities include a 40-stall barn, indoor and outdoor riding arenas, 3 regulation-size dressage competition arenas, an outdoor competition course, reproductive laboratory, as well as classrooms and conference space.

Requirements

Degree Requirements

Minimum Credit Requirement: 128 credits

Minimum Residency Requirement: 32 credits must be taken at UNH

Minimum GPA: 2.0 required for conferral*

Core Curriculum Required: Discovery & Writing Program Requirements

Foreign Language Requirement: No

All Major, Option and Elective Requirements as indicated.
**Major GPA requirements as indicated.*

Major Requirements

Students will be required to earn a C- or better in the foundation courses and all required courses for the animal science major to receive credit toward graduation. Students failing to do this will need to retake the course in order to receive credit.

A. Foundation Science Courses required for all Animal Science majors

Code	Title	Credits
BIOL 411	Introductory Biology: Molecular and Cellular	4
BIOL 412	Introductory Biology: Evolution, Biodiversity and Ecology	4
BMCB 501	Biological Chemistry [1]	4
BMS 503 & BMS 504	General Microbiology and General Microbiology Laboratory	5
CHEM 403	General Chemistry I	4
CHEM 404	General Chemistry II	4
BIOL 528	Applied Biostatistics I	4
or HMP 540	Statistics for Health and Human Service Professionals	
or PSYC 402	Statistics in Psychology	
or SOC 402	Statistics	

B. Animal Science Core Courses required for all ANSC:Equine Studies option majors

Code	Title	Credits
ANSC 406	Careers in Animal Science	1
ANSC 511	Animal Anatomy and Physiology I	4
ANSC 512	Animal Anatomy and Physiology II	4
ANSC 543	Technical Writing in Animal Sciences [2]	2
ANSC 602	Animal Rights and Societal Issues	4
ANSC 609	Principles of Animal Nutrition	4
ANSC 612	Genetics of Animals	4
ANSC 625	Animal Diseases	4
ANSC 724	Reproductive Management and Artificial Insemination	4

C. Equine Core Courses required for all ANSC:Equine Studies option majors.

Code	Title	Credits
AAS 432	Introduction to Forage and Grassland Management	3
ANSC 427	Introduction to Equine Science	4
ANSC 522	Ethical Horsemanship - Considerations and Theory	3
ANSC 526	Equine Conformation, Movement, and Performance	4
ANSC 538	Equine Handling/Longeing	1
ANSC 647	Equine Stable Management	4
ANSC 665	Agricultural & Equine Event Design, Planning and Management	2
ANSC 704	Advanced Equine Physiology and Lameness	4
ANSC 797	Equine Capstone Experience	4

D. Equine Elective Courses

All Equine Option students will complete ≥ 8 elective credits of the courses listed below. Some courses are not offered every academic year. Students will work with their advisor to plan accordingly and customize their course selection to support their career goals and interests.

Code	Title	Credits
AAS 434	Equipment and Facilities Management	3
ANSC 500	Equine Assisted Services	4
ANSC 536	Preparation and Competition Techniques for the Modern Sport Horse	4
ANSC 548	Agricultural Business Management	4
ANSC 622	Further Explorations in Horsemanship Theory	2
ANSC 640	Principles of Riding Instruction	4
ANSC 641	Principles of Dressage Instruction	2
ANSC 642	Principles of Jumping Instruction	2
ANSC 643	Principles of Therapeutic Riding Instruction	4
ANSC 695	Supervised Teaching Experience	2
ANSC 799	Honors Senior Thesis	1-4

E. Professional Internship or Related Work Experience

Equine Studies option students will demonstrate evidence of a substantive work or internship experience in the equine industry. In collaboration with their advisors, students will select an appropriate setting based on their professional and career interests. Students will document this work via either credit-based ANSC 600 Field Experience or no-credit AAS 597 Applied Animal Science Work Experience.

1 Students interested in graduate school should take 2 semesters of Organic Chemistry (CHEM 651/CHEM 653 and CHEM 652/CHEM 654) and one semester of General Biochemistry (BMCB 658/BMCB 659) in place of BMCB 501.

2 ENGL 501 Introduction to Creative Nonfiction, ENGL 502 Professional and Technical Writing, ENGL 503 Persuasive Writing or ENGL 419 How to Read Anything.

Total Credits: 91

Student Learning Outcomes

Program Learning Outcomes

As part of the foundation and core courses, all Animal Science students will gain a fundamental knowledge of the disciplines of:

Anatomy & Physiology

- Students will be able to recognize the complimentary relationship of anatomic structure and function and accurately describe the basic physiologic processes of mammalian organ systems.

Nutrition

- Students will be able to identify, compare, contrast, and link different concepts regarding animal feeding and metabolism of carbohydrates, lipids, and protein in major livestock species and equine.

Genetics

- Students will understand basic principles and applications of inheritance, the difference between qualitative and quantitative genetics, and be able to discuss the various disciplines within genetics.

Disease

- Students will understand the modes of transmission of infectious diseases, recognize signs of illness associated with notable diseases in livestock species, and be able to appropriately apply general concepts of disease prevention and biosecurity to a variety of management situations.

Reproduction

- Students will comprehend the mechanisms and endocrine control of gametogenesis, fertilization, pregnancy, and lactation and understand the variety of factors that can influence reproductive success.

Animal Ethics

- Students will recognize the numerous ways that humans use, benefit from, and conflict with non-human animals and have an awareness of the variety of motivations and influences that drive these relationships.

Critical Analysis & Communication

- Students will be able to develop critical questions that facilitate their independent investigation of topics related to animal science and demonstrate an integration of discipline specific knowledge through engaging in experiential education opportunities.
- Students will be able to conduct literature searches using relevant databases to critically evaluate both academic and popular press resources pertinent to the animal sciences.
- Students will be able to construct well-supported, effectively organized written arguments to express informed perspectives on animal science related topics. These writings will demonstrate professional style, appropriate mechanics (grammar, punctuation, and spelling), and the correct use of citations.

By completing the Equine Core, students will be able to:

- Explain and demonstrate safe, independent, and humane equine handling while recognizing and adapting to changes in equine behavior.
- Identify, explain, and demonstrate equine health and lameness management practices, parasite management and basic equine first aid.
- Demonstrate stable management skills including proper equine nutrition, feeding, and equipment and facilities management.
- Demonstrate technical proficiency with English tack, boots, bandages, and blankets.
- Demonstrate safe, competent longeing technique using a trained horse.
- Apply understanding of individual animal behavior and physiology to evaluate the connection between riding practices and health and performance of horses across disciplines.
- Communicate effectively, in written and verbal form, about professional topics in the equine industry, including the ability to instruct and supervise others in safe equine practices.

Animal Science Minor

https://www.unh.edu/program/minor/animal-science

Description

The study of animal science will provide you with an introduction to the biology and management of animal species. In this minor, you'll choose from a wide array of electives, with the potential to delve into topics such as animal genetics, diseases, and ethics, and gain hands-on equine, poultry and dairy experience. Your studies will prepare you for careers in various animal industries or further studies in veterinary medicine or graduate school.

Requirements

Academic policies related to Minors.

- A minor in Animal Science consists of completing a minimum of 20 credits of Animal Science (ANSC) courses.
- No more than 7 credits may be taken in the Thompson School of Applied Science (AAS) and at the 400-level.

Code	Title	Credits
Required Courses		
Introductory Courses		
Select one course from the following:		4
ANSC 425	Introduction to Dairy Herd Management	
ANSC 401	Animals and Society	
ANSC 421	Introduction to Animal Science	
ANSC 427	Introduction to Equine Science	
Experiential Courses		
Select a minimum of one course from the following:		2-12
ANSC 515	Explorations in Veterinary Medicine	
ANSC 526	Equine Conformation, Movement, and Performance	
ANSC 647	Equine Stable Management	
ANSC 603	Introduction to Livestock Management	
ANSC 605	Poultry Production and Health Management	
ANSC 698	Cooperative for Real Education in Agricultural Management (CREAM) [1]	
ANSC 728	Advanced Dairy Management II [1]	
ANSC 795	Investigations	
Additional Courses		
Select a minimum of one course from the following:		2-12
ANSC 511	Animal Anatomy and Physiology I	
ANSC 512	Animal Anatomy and Physiology II	
ANSC 543	Technical Writing in Animal Sciences	
ANSC 602	Animal Rights and Societal Issues	
ANSC 609	Principles of Animal Nutrition	
ANSC 612	Genetics of Animals	
ANSC 625	Animal Diseases	
ANSC 627	Animal Health Applications	
ANSC 670	Exotic Companion Species Health and Management	
ANSC 690	Livestock and Wildlife in Namibia: Challenges, Opportunities and Geography	
ANSC 701	Physiology of Reproduction	
ANSC 710	Dairy Nutrition	
ANSC 715	Physiology of Lactation	
ANSC 724	Reproductive Management and Artificial Insemination	
ANSC 750	Collaborative Farm Design and Development	

[1] Note that previous dairy course work is highly recommended for success in these upper level courses

Dairy Management Minor

https://www.unh.edu/program/minor/dairy-management

Description

Learn the fundamentals of running a dairy farm in this minor, from caring for the animals to managing the business end of the operation. In addition to courses in animal science, including biology, animal health, nutrition, genetics and reproduction, you'll be introduced to areas such as agribusiness finance, personnel management and public relations. Combine this minor with a major in animal science, biology, or agriculture and food systems to enhance your career opportunities or prepare for future graduate studies.

Requirements

Academic policies related to Minors.

A minor in Dairy Management consists of completing 20 credits.

Code	Title	Credits
Required Courses		
ANSC 425	Introduction to Dairy Herd Management	4
ANSC 710	Dairy Nutrition	4
ANSC 715	Physiology of Lactation	4
Select 8 credits from the following:		
AAS 423	Dairy Selection	2
ANSC 650	Dairy Industry Travel Course	1
ANSC 698	Cooperative for Real Education in Agricultural Management (CREAM) (must be taken for 2 semesters)	4
ANSC 728	Advanced Dairy Management II	4

Equine Assisted Services (Minor)

https://www.unh.edu/program/minor/equine-assisted-services

Description

The minor in Equine Assisted Services (EAS) provides students with exposure to several disciplines within this diverse field. The required courses introduce students to key concepts in equine handling and EAS, including equine skills and the opportunity to prepare for PATH International CTRI instructor certification in therapeutic riding. The elective courses list for the EAS minor is designed to provide students with supporting knowledge of equine-specific topics and non-profit challenges necessary for professionals working in the EAS field.

Requirements

Academic policies related to Minors.

The minor consists of completing a total of 20 credit hours.

Students pursuing a degree in Equine Studies will NOT be eligible to complete the minor.

Code	Title	Credits
Required Courses		
ANSC 427	Introduction to Equine Science	4
or ANSC 526	Equine Conformation, Movement, and Performance	
ANSC 402	Horsemanship Lab	1

or ANSC 538	Equine Handling/Longeing	
ANSC 500	Equine Assisted Services	4
ANSC 522	Ethical Horsemanship - Considerations and Theory	3
ANSC 643	Principles of Therapeutic Riding Instruction	4
Total Credits		**16**

Code	Title	Credits
Electives		
Select at least 4 credits from the following:		
ANSC 526	Equine Conformation, Movement, and Performance	4
ANSC 548	Agricultural Business Management	4
ANSC 640	Principles of Riding Instruction (W)	4
ANSC 641	Principles of Dressage Instruction	2
OT 510	Exploring Occupational Therapy and Occupation	4
ANSC 795	Investigations [1]	1-4
or ANSC 795W	Investigations	
PSYC 561	Psychopathology	4
RMP 501	Diversity, Equity, Inclusion, and Justice for Recreation Services	4

[1] Topics for ANSC 795 or ANSC 795W must be specific to Equine Assisted Services and serve the student's professional goals. Topics will be approved by the Minor Advisor.

Equine Studies Minor

https://www.unh.edu/program/minor/equine-studies

Description

The equine studies minor supports students' interest in horsemanship while also getting an introduction to equine science, equine industry and management, and equine assisted services. You'll be able to explore equine care and management, equine health, and equine anatomy while also working with horses to develop professional equine skills. Compliment any major with a minor in equine studies to expand your studies and/or possibilities for an equine-related career.

Students wanting to declare a minor in Equine Science must do so on Webcat by their Junior year. It is advisable to meet with the Minor coordinator in advance of this to verify your curriculum choices.

Requirements

Academic policies related to Minors.

A minor in equine studies consists of a completing a minimum of 20 credits of equine-related animal science courses.

- ANSC 402 may be counted only once for minor credit.
- Students must receive a minimum grade of C- in any course used for the minor. Students failing to do this will need to retake the course in order to receive credit.
- No courses taken on a pass(credit)/fail basis may count toward the minor.
- No more than 12 credits at the 400-level may be used for the minor.
- Students may petition equine faculty in their junior year to include a course that is not listed.
- Students must take at least one course at the 600- or 700-level.
- Students who transfer from other institutions may petition the equine program faculty for course approval.
- Students who choose both ANSC 500 and ANSC 643 as two of their courses toward the minor in equine studies will be eligible for PATH International therapeutic riding instructor certification.

Code	Title	Credits
Required Course		
ANSC 427	Introduction to Equine Science	4
Electives		
Select a minimum of 16 credits from the following:		
AAS 434	Equipment and Facilities Management	3
ANSC 402	Horsemanship Lab	1
ANSC 419	Horse Power	4
ANSC 500	Equine Assisted Services	4
ANSC 522	Ethical Horsemanship - Considerations and Theory	3
ANSC 526	Equine Conformation, Movement, and Performance	4
ANSC 536	Preparation and Competition Techniques for the Modern Sport Horse	4
ANSC 538	Equine Handling/Longeing	1
ANSC 548	Agricultural Business Management	4
ANSC 640	Principles of Riding Instruction	4
ANSC 641	Principles of Dressage Instruction	2
ANSC 642	Principles of Jumping Instruction	2
ANSC 643	Principles of Therapeutic Riding Instruction	4
ANSC 647	Equine Stable Management	4
ANSC 665	Agricultural & Equine Event Design, Planning and Management	2
ANSC 695	Supervised Teaching Experience [1]	1-2
ANSC 704	Advanced Equine Physiology and Lameness	4
ANSC 724	Reproductive Management and Artificial Insemination	4
ANSC 795	Investigations [1]	1-4
ANSC 795W	Investigations [1]	1-4
ANSC 799	Honors Senior Thesis [1]	1-4

[1] Subject to approval. Must be equine-related.

Biochemistry, Molecular and Cellular Biology (BMCB)

The field of biochemistry, molecular and cellular biology (BMCB) encompasses a wide range of life sciences, from biophysics and biochemistry to applied biology and medicine. The B.S. in biochemistry, molecular and cellular biology is designed for students to gain a solid foundation in biology, chemistry, physics, and mathematics, along with advanced knowledge in molecular biology, biochemistry, cell biology, and genetics. BMCB students have exposure to cutting-edge techniques and frontier research topics through inquiry-based learning and hands-on research opportunities. The program offers research opportunities with program faculty in the areas of structural biology, cell signaling pathways, cancer biology, gene regulation, neurobiology, cellular structure and function, and proteomics. Graduates are "profession-ready" and well-prepared for entry-level positions in biomedical research or in the biotechnology and pharmaceutical industries, for graduate education, or for post-baccalaureate professional programs (e.g., medical school, veterinary school, dental school, etc.).

The curriculum provides most of the required and recommended courses for students seeking admission to graduate schools and to professional schools in medicine, dentistry, veterinary medicine, or pharmacy. Students obtaining a B.S. in BMCB enjoy excellent job prospects immediately upon graduation, due to high demand for skilled research technicians in biotech and pharmaceutical companies, government agencies, academic research laboratories, and medical diagnostic laboratories. Graduates also have knowledge and skills that are valuable in the fields of management, sales, marketing, regulatory affairs, technical writing, and science journalism. Students who major in BMCB can also

use their training in conjunction with advanced degrees in law and business. With additional courses in education, the B.S. degree in BMCB also qualifies graduates to teach at the elementary, junior high, or high school levels.

Faculty participating in the BMCB major combine a passion for teaching and student advising with strong expertise and achievements in their research areas. BMCB faculty are committed to providing independent research experiences for undergraduate students, and most faculty have active and well-funded research programs utilizing state-of-the-art techniques and instruments. On-campus facilities that students can use to enhance their research experience include the Hubbard Center for Genome Studies, the University Instrumentation Center, and the Center of Integrated Biomedical and Bioengineering Research.

Pre-Professional Health Programs

Students interested in postgraduate education in healthcare occupations (e.g., medical, dental, physician assistant, pharmacy, etc.) should visit the UNH Pre-Professional Health Programs Advising Office. Students interested in veterinary medicine should consult the Pre-Veterinary Medicine Program. While many of the prerequisite courses required by professional schools are also requirements of the BMCB major, students should consult with their faculty adviser to create a plan of study that best prepares them for pursuing a career in the health professions.

Biochemistry, Molecular and Cellular Biology Major (B.S.)

https://www.unh.edu/program/bachelor-science/biochemistry-molecular-cellular-biology

Description

The Biochemistry, Molecular & Cellular Biology (BMCB) major provides you with conceptual competence, analytical skills, and laboratory experiences to understand life at the molecular and cellular level. Your BMCB degree will prepare you for immediate employment as a research associate in industry, for entry into graduate or professional programs in medicine, dentistry or other allied health professions, and other career tracks.

The BMCB program offers advanced coursework and laboratories in diverse research areas of modern biology

- Cancer biology
- Cell biology
- Cell culture & tissue engineering
- Endocrinology
- Molecular biology
- Pharmacology
- Physical biochemistry
- Protein structure, function & proteomics

BMCB majors participate in experiential learning activities

- Many courses have integrated laboratory experiences to foster inquiry-based learning and to train creative and critical thinkers
- Independent research experiences are available in faculty research laboratories
- Many courses provide exposure to cutting-edge techniques and instrumentation
- Job preparation can be enhanced by internships with regional biotechnology and pharmaceutical companies
- Summer undergraduate research fellowships at U.S. or international academic institutions combine travel with research opportunities outside UNH

BMCB graduates have been successful in many careers

- Research associates and laboratory technicians
  - Biotechnology and pharmaceutical companies
  - Government agencies
  - Forensics laboratories
  - Academic research laboratories
  - Hospitals
- Science journalists and technical writers
- Healthcare workers
- Pharmaceutical sales and marketing staff
- Regulatory agency staff
- Primary and secondary school educators (with additional coursework in education)

BMCB graduates are well prepared for post-baccalaureate education

- Masters and doctoral programs in a wide variety of disciplines
- Professional health programs
  - Medical
  - Dental
  - Pharmacy
  - Physician's Assistant and other allied health programs

Note: The BMCB major is designed so you can complete all of the prerequisite courses needed to seek admission to graduate schools or health professional schools in four years.

Requirements

Degree Requirements

Minimum Credit Requirement: 128 credits

Minimum Residency Requirement: 32 credits must be taken at UNH

Minimum GPA: 2.0 required for conferral*

Core Curriculum Required: Discovery & Writing Program Requirements

Foreign Language Requirement: No

All Major, Option and Elective Requirements as indicated.
**Major GPA requirements as indicated.*

Major Requirements

Students in the Biochemistry, Molecular and Cellular Biology (BMCB) major take eight Foundation courses, four Bioscience Core courses, five BMCB Core courses, one Laboratory Techniques course, and three Major Elective courses. One capstone experience, supervised and approved within the major, is required of all seniors. In addition, all other University academic requirements must be completed, including those for the Discovery Program and the University Writing Requirement.

A grade of C- minus or better is required in all Foundation Core, Bioscience Core, BMCB Core, Laboratory Techniques, and Major Elective courses.

Code	Title	Credits
Foundation Core Courses		
CHEM 403	General Chemistry I [1]	4
CHEM 404	General Chemistry II	4
CHEM 547 & CHEM 549	Organic Chemistry I and Organic Chemistry Laboratory [2]	5
CHEM 548 & CHEM 550	Organic Chemistry II and Organic Chemistry Laboratory [2]	5
MATH 424B	Calculus for Life Sciences [3, 4]	4
BIOL 528	Applied Biostatistics I [4]	4
PHYS 401	Introduction to Physics I [5]	4
PHYS 402	Introduction to Physics II [5]	4

1 Fulfills Physical Science Discovery requirement
2 CHEM 651/CHEM 653 & CHEM 652/CHEM 654 can be substituted for CHEM 547/CHEM 549 & CHEM 548/CHEM 550.
3 Fulfills Quantitative Reasoning Discovery requirement
4 MATH 425 and MATH 426 can be substituted for MATH 424B and BIOL 528
5 PHYS 407 and PHYS 408 can be substituted for PHYS 401 and PHYS 402

Code	Title	Credits
Bioscience Core Courses		
BIOL 411	Introductory Biology: Molecular and Cellular [6]	4
BIOL 412	Introductory Biology: Evolution, Biodiversity and Ecology	4
BMS 503 & BMS 504	General Microbiology and General Microbiology Laboratory	5
GEN 604	Principles of Genetics	4

6 BIOL 411 fulfills the Biological Science Discovery requirement, Discovery Laboratory requirement, and Discovery Inquiry requirement

Code	Title	Credits

Select one course from the following:		
BMCB 753	Cell Culture	5
BMCB 754	Molecular Biology Research Methods	5
BMCB 755	Protein Biochemistry Laboratory	5
BMS 725	Cell Phenotyping and Tissue Engineering Laboratory	4
CHEM 741	Chemical Biology Laboratory	4

Code	Title	Credits
BMCB Major Electives		
Select three courses from the following: (A total of three unique major electives are required.)		
BMCB 750		3
BMCB 753	Cell Culture [7]	5
BMCB 754	Molecular Biology Research Methods [7]	5
BMCB 755	Protein Biochemistry Laboratory [7]	5
BMCB 760	Pharmacology	4
BMCB 763	Biochemistry of Cancer	4
BMCB 794	Protein Structure and Function	4
BMCB 795	Investigations in Molecular and Cellular Biology (4-credit minimum) [8]	1-4
BMCB 795W	Investigations in Molecular and Cellular Biology (4-credit minimum) [8]	1-4
BMCB 799	Senior Thesis (4-credit minimum) [8]	1-4
BMCB 799H	Honors Senior Thesis (4-credit minimum) [8]	1-4
BMS 507 & BMS 508	Human Anatomy and Physiology I and Human Anatomy and Physiology II	8
BMS 650	Molecular Diagnostics	4
BMS 702	Endocrinology	4
BMS 704	Pathologic Basis of Disease	4
BMS 705 & BMS 715	Immunology and Immunology Laboratory	5
BMS 706 & BMS 708	Virology and Virology Laboratory	5
BMS 718	Mammalian Physiology	4
BMS 725	Cell Phenotyping and Tissue Engineering Laboratory [7]	4
BMS 735	Molecular and Cellular Parasitology	4
BMS 740	Human Microbiome	4
BIOL 706	Data Science with R for the Life Sciences	4
CHBE 755	Computational Molecular Bioengineering	4
CHEM 740	Chemical Biology	3
CHEM 755	Advanced Organic Chemistry	3
GEN 704	Microbial Genetics and Genomics [7]	5
GEN 705	Population Genetics [9]	3
GEN 706	Human Genetics	4
GEN 711	Genomics and Bioinformatics	4
GEN 712	Programming for Bioinformatics	5
GEN 715	Molecular Evolution	4
GEN 717	Molecular Microbiology	5
GEN 721	Comparative Genomics	4
GEN 771	Molecular Genetics [7]	4
NUTR 750	Nutritional Biochemistry	4

7 If course is used to fulfill BMCB Core or Laboratory Technique requirement, course cannot count as BMCB Major Elective.
8 Choose no more than ONE of the following courses to fulfill a major elective: BMCB 795, BMCB 795W, BMCB 799, BMCB 799H
9 Taking GEN 725 Population Genetics Lab is recommended, but not required.

Approved BMCB Capstone Courses

The capstone explores areas of interest based on the integration of prior learning. The capstone requirement may be satisfied through a course, created work or product, or some form of experiential learning (e.g., honors thesis, mentored research project, or other special student activity). Students may take more than one capstone course. If a second Lab Techniques course is taken, the second Lab Techniques course may count as a Capstone. Capstone completion is never displayed on Degree Works; your advisor will certify capstone completion at the time of graduation. Students must have 90 credits or more when completing their capstone requirement. See your advisor for questions about capstones.

Code	Title	Credits
BMCB 750		3
BMCB 760	Pharmacology	4
BMCB 763	Biochemistry of Cancer	4
BMCB 794	Protein Structure and Function	4
BMCB 795	Investigations in Molecular and Cellular Biology (4-credit minimum)	1-4
BMCB 795W	Investigations in Molecular and Cellular Biology (4-credit minimum)	1-4
BMCB 799	Senior Thesis (4-credit minimum)	1-4
BMCB 799H	Honors Senior Thesis (4-credit minimum)	1-4
BMS 702	Endocrinology	4
INCO 790	Advanced Research Experience (4-credit minimum)	1-4

For a Capstone experience not listed above, such as an internship, submit a Capstone Approval form **prior** to beginning the experience.

Degree Plan

	Total Credits	**128-131**

Student Learning Outcomes

Program Learning Outcomes

Core Knowledge in Biochemistry, Molecular Biology, and Cell Biology

- Students will be able to explain the structure and function of macromolecules, including key functional groups, higher order structure and function of macromolecules, catalysis and enzyme kinetics.
- Students will be able to explain matter and energy conversion, including thermodynamics, catalysis, biological energy, ATP and its function in metabolism.
- Students will be able to explain cellular homeostasis, including major metabolic pathways for carbohydrates, lipids, proteins and nucleic acids, key regulatory steps in these pathways and the organization of metabolic enzymes.
- Students will be able to explain the flow of biological information, including detailed replication, transcription and translation processes in the context of homeostasis and development.

Quantitative Literacy, Inquiry & Analysis

- Students will be able to apply the scientific method to examine experimental evidence and draw informed conclusions.
- Students will be able to use graphs to represent scientific data.
- Students will be able to apply statistical methods to interpret scientific data.

Critical Thinking & Problem Solving

- Students will be able to use data to troubleshoot an unexpected outcome.
- Students will be able to apply core knowledge to critically interpret scientific data.

Written Communication

- Students will demonstrate written skills to communicate scientific knowledge and experimental data.

Oral Communication

- Students will be able to demonstrate oral presentation skills to communicate scientific knowledge and experimental data.

Biochemistry, Molecular and Cellular Biology Minor

https://www.unh.edu/program/minor/biochemistry-molecular-cellular-biology

Description

Students who wish to develop focused competencies in biochemistry, molecular biology, and/or cell biology can complement their major academic program with a minor in biochemistry, molecular and cellular biology (BMCB).

Requirements

Academic policies related to Minors.

The minor consists of completing a minimum of five courses (20 credits).

Select from the following courses:

Code	Title	Credits
BMCB 605	Principles of Cell Biology	4
BMCB 750		3
BMCB 751	Principles of Biochemistry I	4
BMCB 752	Principles of Biochemistry II	4
BMCB 753	Cell Culture	5
BMCB 754	Molecular Biology Research Methods	5
BMCB 755	Protein Biochemistry Laboratory	5
BMCB 760	Pharmacology	4
BMCB 763	Biochemistry of Cancer	4
BMCB 794	Protein Structure and Function	4
BMCB 795	Investigations in Molecular and Cellular Biology (4-credit maximum)	1-4
GEN 704	Microbial Genetics and Genomics	5
GEN 771	Molecular Genetics	4

Biology

UNH's location and facilities provide unique opportunities for the study of biology due to its access to the seacoast, the Shoals Marine Laboratory, the lakes region of NH, and White Mountain National Forest. The Biology faculty strongly believe in a hands-on approach to teaching and active involvement of undergraduates in research. We have a wide range of faculty expertise, including freshwater, estuarine, ecology, physiology, neurobiology, and behavior. A Biology degree provides the background for a variety of professional positions in the public and private sectors, and provides an excellent foundation for students seeking to apply for graduate, medical, or veterinary school.

Biology Major (B.S.)

https://www.unh.edu/program/bachelor-science/biology

Description

Biology is one of the most popular science majors since it provides a broad background in the biological sciences while allowing flexibility and specialization within the major. It integrates theoretical and practical (hands-on laboratory and field work) courses in different aspects of the biology of multicellular life. It encompasses the study of structural and functional relationships of living organisms at the molecular, cellular, and organismal level, the interactions of living systems with the environment and with each other, and the evolutionary relationships of life. Our goal is to create an environment for those with a scholarly interest in the biological sciences, and to extend their understanding, awareness, and appreciation of the diversity inherent in the biological sciences. Our major is aimed at promoting an excellent education in biological sciences by involving undergraduate students in a strong interaction with faculty both in the classroom and in research laboratories.

The biology major prepares students for post graduate degrees in the biological and medical fields, and for job opportunities in industry (environmental, biomedical, pharmaceutical, and biotechnological) and governmental research, and secondary school teaching. Completion of the four-year undergraduate program plus a fifth-year internship will be necessary for biology teaching certification. Students who plan to enter medical, dental, or related professional schools are advised to confer with their faculty adviser to work the requirements for these programs into their academic majors.

Core courses in the biology major are from departments that contribute to the biological sciences community at UNH. The core curriculum consists of introductory and upper-level science courses plus seven additional courses in the biological sciences; three of these must be selected from course lists in three broad categories.

While students are advised to declare the biology major as incoming first-year students to assure adequate program planning, transfer into this major at a later stage is also possible. Several of the other biological science majors share the same biology core curriculum. For the first to two years, it is quite easy to change to or from these other majors.

Requirements

Degree Requirements

Minimum Credit Requirement: 128 credits

Minimum Residency Requirement: 32 credits must be taken at UNH

Minimum GPA: 2.0 required for conferral*

Core Curriculum Required: Discovery & Writing Program Requirements

Foreign Language Requirement: No

All Major, Option and Elective Requirements as indicated.
**Major GPA requirements as indicated.*

Major Requirements

The biology courses in the core curriculum constitute an integrated sequence that train students in the basic skills and concepts of knowledge inherent to the biological sciences. The biology core allows a student to obtain a broad background in biology, and in the related physical sciences and math that provide a foundation for success in understanding biological principals.

To receive the B.S. degree in biology, students must complete 128 credit hours with at least a 2.0 cumulative grade-point average for completion of the degree. All UNH Discovery Program requirements, biology core curriculum requirements, plus seven additional courses from the biological sciences, and a capstone experience. A minimum grade of C- is required in all biological science courses that are counted toward the requirements for a degree in biology. Students who expect to compete successfully for post-baccalaureate programs should attain a cumulative GPA of 3.0 or higher by the end of the sophomore year and maintain it at that level.

Code	Title	Credits
Core Curriculum Courses		
BIOL 400	Professional Perspectives on Biology [1]	1

BIOL 780	Capstone Companion Course	1
Total Credits		**54**

Biology Electives

In addition to the biology core curriculum, students must complete seven biology elective courses. One course must be taken from each of the three categories/disciplines; the other four electives can be chosen from the category lists or can be any other biological sciences course with approval of the student's adviser. All courses must be 500-level or above. There must be one animal-identified course (A) and one plant/fungal/algae course (FP). One capstone experience is required of all seniors; see subsequent section on capstones for detailed requirements. Corequisite lecture and lab courses count as one course.

TECH 797	Undergraduate Ocean Research Project (A, C) [4]	2
ZOOL 610	Principles of Aquaculture	4

1 BIOL 400 Professional Perspectives on Biology is required only for first-year biology majors.

2 Students exploring pre-health professions should take a full year of Organic Chemistry (CHEM 651/CHEM 653 and CHEM 652/CHEM 654).

3 A 600, 695, 795, or 799 experience may substitute for one elective with academic advisor approval, but only if taken for at least four credits. These four credits may be spread over multiple semesters if they are consecutive and with the same faculty mentor.

4 This class requires enrollment in both fall and spring sections, 2 credits/semester for a total of 4 credits.

A 600, 695, 795, or 799 experience may substitute for one elective in any category with academic advisor approval, but only if taken for at least four credits. These four credits may be spread over multiple semesters if they are consecutive and with the same faculty mentor.

Note: It is strongly recommended that students participate in an exchange semester at another university, or in a field-oriented program or internship. There are many exchange opportunities available in which a full semester of credits toward the major may be earned. It is further recommended that students explore possibilities of one or more semesters of independent investigation (research projects). For details, students should contact their adviser. Financial support is available for most of these programs. In addition, students can explore the courses at the Shoals Marine Laboratory (SML), which provides an excellent setting for several "field-oriented" courses during the summer. Often there is financial support available for the SML programs. (See the SML website at https://marine.unh.edu/SML or the Cornell website at http://www.shoalsmarinelaboratory.org for details.)

Capstone Experience

As part of the University of New Hampshire's Discovery Program requirements, all students must complete a capstone experience during their senior year (after earning at least 90 credits). **The capstone experience for students majoring in Biology consists of BOTH (1) an approved individual experience AND (2) the successful completion of the BIOL 780 Capstone Companion Course.** Students will not be approved for graduation until capstone certification has been granted.

1) The individual experience

The individual experience may be satisfied through various forms of experiential learning (e.g., Honors thesis, mentored research project, internship) or a course denoted with a "(C)" in the courses listed above. The individual experience must fulfill **at least one** of the University's capstone criteria:

- synthesizes and applies disciplinary knowledge and skills
- fosters reflection on undergraduate learning and experience
- demonstrates emerging professional competencies
- applies, analyzes, and/or interprets research, data, or artistic expression
- explores areas of interest based on the integration of the prior learning

Before beginning *any* capstone individual experience, students MUST SUBMIT A COMPLETED CAPSTONE APPROVAL FORM to their Program Coordinator.

Students can obtain this form on the Department's Capstone page or from their Program Coordinator. Here they will describe their proposed individual experience and how it fulfills at least one of the University's capstone criteria listed above. If the student is selecting a "C" course for their individual experience, they should obtain the course syllabus from the instructor for information about the course's content and learning objectives.

2) Enrollment in BIOL 780

Students will also be required to enroll in BIOL 780 Capstone Companion Course (1 cr.) **during the semester of their individual experience.** BIOL 780 is offered every Fall and Spring semester.

- If the individual experience is a two-semester thesis, BIOL 780 should be taken during the second semester.
- If the individual experience occurs during the summer (e.g., internship), BIOL 780 should be taken during the Fall semester that immediately follows.
- Note: Because BIOL 780 is not offered during the summer, students cannot complete their individual experience during the summer *and graduate during that same September*. Summer experiences could only be used as individual capstone experiences if completed the summer before the student's senior year.

Degree Plan

Sample Degree Plan

This sample degree plan serves as a general guide; students collaborate with their academic advisor to develop a personalized degree plan to meet their academic goals and program requirements.

First Year		
Fall		**Credits**
BIOL 412	Introductory Biology: Evolution, Biodiversity and Ecology	4
ENGL 401	First-Year Writing	4
CHEM 403	General Chemistry I	4
BIOL 400	Professional Perspectives on Biology	1
Discovery Course		4
	Credits	**17**
Spring		
BIOL 411	Introductory Biology: Molecular and Cellular	4
CHEM 404	General Chemistry II	4
Discovery Course		4
Discovery Course or Major Elective		4
	Credits	**16**
Second Year		
Fall		
BIOL 541W	Ecology	4
CHEM 545 & CHEM 546	Organic Chemistry and Organic Chemistry Laboratory [1]	5
Major Elective		4
Disovery Course		4
	Credits	**17**
Spring

Spring		
Major Elective		4
General Elective		4
General Elective		4
	Credits	**12**
	Total Credits	**125**

[1] Pre-professionals take one year of organic chemistry.

Student Learning Outcomes

Program Learning Outcomes

- Students demonstrate that they understand basic principles of biology. Demonstrate a fundamental understanding of the relationships between structure, function, and process at the level of molecular, cellular, and organismal levels. Describe the principles and mechanisms of organismal evolution and genetics as the central unifying and explanatory concepts of biology. Explain the relationship between organisms and their physical, chemical, and biological environments. Explain what biodiversity is, its value in ecosystems, and the need for its conservation.
- Students demonstrate that they can undertake scientifically valid methods of inquiry. Demonstrate proficiency in searching, reading, and understanding scientific literature. Apply the scientific process, including the framework of initiation, designing, and conducting experiments, and the appropriate analysis and discussion based on the data gathered. Exhibit technical skills in the use of appropriate laboratory and field techniques commonly used in biology.
- Students demonstrate that they can think critically and analytically. Demonstrate an ability to critically and objectively evaluate data, develop hypotheses, interpret and or design biological experiments and studies.
- Students demonstrate that they can communicate effectively. Communicate scientific material effectively in written and oral formats.
- Students practice science responsibly and ethically, and acknowledge the influence of cultural and historical biases in the sciences.

Biology Minor

https://www.unh.edu/program/minor/biology

Description

The Biology Minor is designed to give students a broad background in basic biological understanding of life processes, while providing experiences in ecology, evolution, and organismal diversity. Five courses are required for completion of the minor, of which no more than two can overlap with major requirements.

Requirements

Academic policies related to Minors.

Code	Title	Credits
Required Courses		
BIOL 411	Introductory Biology: Molecular and Cellular	4
BIOL 412	Introductory Biology: Evolution, Biodiversity and Ecology	4
BIOL 541W	Ecology	4
or ZOOL 690	Evolution	
Organismal Survey Courses [1]		
Animal Survey - select one course from the following:		4-5
MEFB 628	Marine Invertebrate Evolution and Ecology	
ZOOL 542	Ornithology	
ZOOL 710	Sharks and Bony Fishes	
ZOOL 566	Herpetology	
NR 712	Mammalogy	
Plant or Fungi Survey - select one course from the following:		4
BIOL 566	Systematic Botany (Plant Survey Course)	
BIOL 752	New England Mushrooms: a Field and Lab Exploration (Fungus Survey Course)	
Total Credits		**20-21**

[1] Two survey courses are required. One course must focus on animals, and the other on plants or fungi.

Student Learning Outcomes

Program Learning Outcomes

- Identify the foundational concepts in the field of Biology.
- Analyze and synthesize data and relevant primary literature.

Plant Biology Minor

https://www.unh.edu/program/minor/plant-biology

Description

The Minor in Plant Biology is designed to provide a broad introduction to plant biology and why plants are important to humans, while providing a framework for understanding plant diversity, function, and behavior. Electives allow the opportunity to choose a specialized area of plant biology that is of interest.

Requirements

Academic policies related to Minors.

Five courses are required for completion of the minor.

Code	Title	Credits
Required Courses		
BIOL 409	Green Life: Introducing the Botanical Sciences	4
BIOL 566	Systematic Botany	4
BIOL 408	Plants and Civilization	4
or AGFS 421	Introductory Horticulture	
Select two additional plant-based courses from the following:		8
AGFS 651	Plant Pathology	4
BIOL 704	Plant-Microbe Interactions	3
BIOL 720	Plant-Animal Interactions	4
BIOL 795	Independent Investigations in Biology (If taken for 4 credits)	4
GEN 772	Evolutionary Genetics of Plants	4
MEFB 625	Introduction to Marine Botany	5
MEFB 747	Aquatic Plants in Restoration/Management	4
MEFB 795	Independent Investigations in Marine, Estuarine, and Freshwater Biology (If taken for 4 credits)	4

Biomedical Science (BMS)

The Biomedical Science (BMS) major focuses on fundamental concepts in biological sciences as they apply to human and animal health, medicine, and disease. Students attracted to Biomedical Science have a profound interest in human and animal physiology and diseases. The BMS major has one option: Medical and Veterinary Sciences (MVS). The option in the BMS major is based on foundational and advanced courses in chemistry and the biological sciences. BMS:MVS focuses on health and manifestations of disease in animals, including humans.

Faculty in the BMS major have expertise in many areas of biomedical science, including physiology, cell biology, infectious diseases, veterinary pathology, and laboratory medicine. The biomedical science faculty strongly encourage students to complement their academic courses with experiential learning opportunities through internships, field experience, and independent research projects conducted with biomedical research faculty. On-campus facilities include state-of-the-art research and teaching laboratories and the New Hampshire Veterinary Diagnostic Laboratory (NHVDL) that provide unique learning opportunities for students interested in veterinary medicine, pathobiology, and laboratory diagnostics.

There is high demand for skilled biomedical scientists as research assistants/technicians in biotechnology companies, pharmaceutical companies, government agencies, forensics, academic research laboratories, and hospitals, so BMS majors enjoy excellent job prospects upon graduation. The BMS curriculum also provides graduates with the required and recommended courses for admission to most graduate schools and professional schools of medicine, veterinary medicine, dentistry, public health, and pharmacy, as well as to physician assistant and pathologist's assistant programs. BMS graduates have a knowledge base that is valuable in the fields of sales, marketing, regulatory affairs, technical writing, patent law, and scientific journalism. With additional courses in education, the B.S. in biomedical science also qualifies graduates to teach at the elementary, junior high, or high school levels.

Pre-Professional Health Programs

Students interested in postgraduate careers in the health care professions (e.g., physician, dentist, physician assistant, pharmacist, etc.) should visit the Pre-Professional Health Programs Advising Office. Students interested in veterinary medicine should consult the Pre-Veterinary Medicine Program. While many of the prerequisite courses required by professional schools are also requirements of the biomedical science major, students should consult with their faculty adviser to create a plan of study that best prepares them for pursuing a career in one of these human and animal health professions.

Biomedical Science Major: Medical and Veterinary Sciences Option (B.S.)

https://www.unh.edu/program/bachelor-science/biomedical-science-medical-veterinary-sciences

Description

The **Biomedical Science: Medical and Veterinary Sciences (BMS:MVS)** program is informed by the principles of the One Health Initiative, which unites human and veterinary medicine. This rigorous academic program meets requirements for entry into veterinary school, medical school, and graduate school in the area of biomedical science or for a career as a research scientist in either the biotechnology/pharmaceutical sector or government and academic research labs.

You will select elective courses from three major areas of study:

- biomedical systems
- pathobiology and disease
- health and environmental issues

As a BMS:MVS major, you have many opportunities for career-relevant learning experiences including:

- NH Veterinary Diagnostic Laboratory located on the UNH campus
- UNH Agricultural Experiment Station farm facilities
- independent research in laboratories of UNH faculty in the biomedical and biological sciences
- experience in local hospitals
- internships in biotechnology and pharmaceutical companies in the Greater Boston area

BMS:MVS graduates are prepared for post-baccalaureate education in:

- **professional health programs**
  - veterinary school
  - medical school
  - allied health programs (physician assistant or pathologist's assistant)
- **graduate programs**
  - biomedical science
  - pathology
  - public health
  - nursing

Careers of previous Medical & Veterinary Sciences graduates include:

- **research scientists/laboratory technicians**
  - biotechnology and pharmaceutical companies
  - academic biomedical research programs
  - forensic laboratories
  - hospitals/health clinics
- **state and federal government employment**
  - public health laboratories
  - health inspector (e.g., Food and Drug Administration)

Requirements

Degree Requirements

Minimum Credit Requirement: 128 credits

Minimum Residency Requirement: 32 credits must be taken at UNH

Minimum GPA: 2.0 required for conferral*

Core Curriculum Required: Discovery & Writing Program Requirements

Foreign Language Requirement: No

All Major, Option and Elective Requirements as indicated.
**Major GPA requirements as indicated.*

Major Requirements

Students in the Medical and Veterinary Sciences (MVS) option take eight Foundation courses, six Bioscience Core courses, three BMS-MVS Core courses, and six BMS-MVS Major Elective courses. One capstone experience, supervised and approved within the major, is required of all seniors. In addition, all other university academic requirements must be completed, including those for the Discovery Program and the University Writing Program requirements.

A grade of C- minus or above is required in all courses within the major, which includes Foundation, Bioscience Core, and BMS-MVS Core courses, and BMS-MVS Major Electives.

Students applying to health profession schools need a full year of English. ENGL 415C, ENGL 419, ENGL 501, ENGL 502 or ENGL 503 should be taken in addition to ENGL 401. For more information contact the Pre-Professional Health Program Advising Office.

Code	Title	Credits
Foundation Courses		
CHEM 403	General Chemistry I [1]	4
CHEM 404	General Chemistry II	4
CHEM 651 & CHEM 653	Organic Chemistry I and Organic Chemistry Laboratory	5
CHEM 652 & CHEM 654	Organic Chemistry II and Organic Chemistry Laboratory	5
MATH 424B	Calculus for Life Sciences [2]	4
BIOL 528	Applied Biostatistics I	4
PHYS 401	Introduction to Physics I	4
PHYS 402	Introduction to Physics II	4

1 CHEM 403 fulfills the Physical Science Discovery requirement
2 MATH 424B fulfills the Quantitative Reasoning Discovery requirement

Code	Title	Credits
Bioscience Core Courses		
BIOL 411	Introductory Biology: Molecular and Cellular [3]	4
BIOL 412	Introductory Biology: Evolution, Biodiversity and Ecology	4
BMS 503 & BMS 504	General Microbiology and General Microbiology Laboratory	5
GEN 604	Principles of Genetics	4
BMCB 605	Principles of Cell Biology	4
BMCB 658 & BMCB 659	General Biochemistry and General Biochemistry Lab	5

[3] BIOL 411 fulfills the Biological Science Discovery requirement, Discovery Laboratory requirement, and the Discovery Inquiry requirement.

ANSC 670	Exotic Companion Species Health and Management	4

BMS: MVS Capstone

The capstone explores areas of interest based on the integration of prior learning. The capstone requirement may be satisfied through a course, created work or product, or some form of experiential learning (e.g., honors thesis, mentored research project, or other special student activity). Students may take more than one capstone course. Capstone completion is never displayed on Degree Works; your advisor will certify capstone completion at the time of graduation. Students must have 90 credits or more when completing their capstone requirement. See your advisor for questions about capstones.

Code	Title	Credits
Approved BMS-MVS Capstone Courses		
BMS 702	Endocrinology	4
BMS 704	Pathologic Basis of Disease	4
BMS 711		4
BMS 712	Experiences in Applied Veterinary Diagnostics (4-credit minimum)	2
BMS 718	Mammalian Physiology	4
BMS 719	Host-Microbe Interactions	4
BMS 740	Human Microbiome	4
BMS 795	Investigations in Biomedical Science (4-credit minimum)	1-8

BMS 795W	Investigations in Biomedical Science (4-credit minimum)	1-8
BMS 799	Senior Thesis (4-credit minimum)	1-4
BMS 799H	Senior Honors Thesis (4-credit minimum)	1-4
BMCB 760	Pharmacology	4
BMCB 763	Biochemistry of Cancer	4
ANSC 605	Poultry Production and Health Management	4

Student Learning Outcomes

Program Learning Outcomes

Core Knowledge

- Students will demonstrate an understanding of core knowledge in biochemistry, molecular biology, cell biology, genetics & biomedical sciences.

Quantitative Literacy, Inquiry & Analysis

- Students will be able to apply the scientific method to examine experimental evidence and draw informed conclusions.
- Students will be able to use graphs to represent scientific data.
- Students will be able to apply statistical methods to interpret scientific data.

Critical Thinking & Problem Solving

- Students will be able to use data to troubleshoot an unexpected outcome.
- Students will be able to apply core knowledge to critically interpret scientific data.

Written Communication

- Students will demonstrate written skills to communicate scientific knowledge and experimental data.

Oral Communication

- Students will be able to demonstrate oral presentation skills to communicate scientific knowledge and experimental data.

Biomedical Science: Medical and Veterinary Sciences option

- Students will be able to list the major organ systems in mammals and describe their basic structure and function.
- Students will be able to describe the differences between Gram-negative and Gram-positive bacteria.
- Students will be able to describe the structure and function of the major cellular organelles.
- Students will understand the principles of Mendelian genetics.
- Students will understand the pathogenesis of disease and effects on the major organ systems.
- Students will be able to describe the inter-relationships between health and disease, society, and the environment.

Biomedical Science Minor

https://www.unh.edu/program/minor/biomedical-science

Description

Students who wish to develop focused competencies in the broad area of the biomedical sciences can complement their major academic program with a minor in biomedical science (BMS).

Requirements

Academic policies related to Minors.

The minor consists of completing a minimum of 20 credits.

Code	Title	Credits
Required Courses		
BIOL 411	Introductory Biology: Molecular and Cellular	4
BMS 508	Human Anatomy and Physiology II	4
or ANSC 512	Animal Anatomy and Physiology II	
Select additional courses from the list below to complete 20 total credits for the minor. Note: some courses may have prerequisites.		
BMS 501	Microbes in Human Disease	4
BMS 503 & BMS 504	General Microbiology and General Microbiology Laboratory	5
BMS 560 & BMS 561	Body Fluids and Body Fluids Laboratory	4
BMS 602 & BMS 603	Pathogenic Microbiology and Pathogenic Microbiology Laboratory	5
BMS 610	Biomedical Lab Management	4
BMS 623	Histology: Microscopic Cellular Structure and Function	4
BMS 635	Preceptorial in Prehospital Care	2
BMS 640	Phlebotomy Theory	2
BMS 644	Clinical Hematology	3
BMS 650	Molecular Diagnostics	4
BMS 655	Human and Animal Parasites	3
BMS 656	Immunohematology	3
BMS 658	Medical Biochemistry	3
BMS 702	Endocrinology	4
BMS 703	Infectious Disease and Health	4
BMS 704	Pathologic Basis of Disease	4
BMS 705	Immunology	3
BMS 706	Virology	3
BMS 711		4
BMS 712	Experiences in Applied Veterinary Diagnostics	2
BMS 718	Mammalian Physiology	4
BMS 719	Host-Microbe Interactions	4
BMS 720	Mycology, Parasitology, and Virology	3
BMS 730	Ethical Issues in Biomedical Science	4
BMS 740	Human Microbiome	4
BMCB 605	Principles of Cell Biology	4
BMCB 753	Cell Culture	5
GEN 704	Microbial Genetics and Genomics	5
GEN 717	Molecular Microbiology	5

NUTR 750	Nutritional Biochemistry	4

Community and Environmental Planning (CEP)

Community and Environmental Planning students have an appreciation for communities designed for people to live, work and play. Our students study a diverse and interconnected number of topics including perspectives in community development, fundamentals of land use planning, community economics, and natural resource conservation issues. If you want to help communities deal with problems associated with the intersection of our built and natural environments, such as economic development, transportation, affordable housing, green space and local agriculture, than a degree in Community and Environmental Planning may be the right fit for you.

Community and Environmental Planning Program Faculty

Community and Environmental Planning Major (B.S.)

https://www.unh.edu/program/bachelor-science/community-environmental-planning

Description

The Community and Environmental Planning (CEP) program is designed to provide students with the knowledge and skills to become effective community planners in the public or private sector. All of the courses are designed to give the student a diverse skill-set in planning for the sustainability of communities. CEP students are provided a solid planning background with planning courses covering local, state and regional planning topics and methods. CEP students also take foundational courses in natural resources, geographic information systems, economics, and statistics, as well as a political science course, and a social issues course. The internship requirement allows the planning student to apply their knowledge in the real world for instrumental hands-on experience. Semester in the City is also an option for the internship experience. CEP students are encouraged to focus their remaining hours

on skills that can enhance their CEP major such as a dual major, a minor, or study abroad.

Expected CEP Student Outcomes:

- The foundational education in planning, natural resources, economics and sustainability.
- The fundamental values of diversity, equity, justice, and protection of community and the environment.
- The ability to assess, discuss, and engage others in the problems and potential solutions associated with impacts of land use changes.
- The ability to work with community members and professionals in the design and implementation of community improvements in building and transportation while protecting natural and built resources.

Students may go on to work in the community development or community planning departments in local communities. They may also choose to work in regional planning agencies, or with a state or federal office. Other options include the private sector, such as architectural or development companies, or the non-profit sector, such as with community development corporations or conservation groups. The American Planning Association provides a certification process for the planning profession (American Institute of Certified Planners) after several years of planning experience. Students may also choose to go on to graduate studies in Community and Environmental Planning, Natural Resources Management, Public Administration, or a related field.

Requirements

Degree Requirements

Minimum Credit Requirement: 128 credits

Minimum Residency Requirement: 32 credits must be taken at UNH

Minimum GPA: 2.0 required for conferral*

Core Curriculum Required: Discovery & Writing Program Requirements

Foreign Language Requirement: No

All Major, Option and Elective Requirements as indicated.
**Major GPA requirements as indicated.*

Major Requirements

- Courses with the subject prefix CEP must be completed with a grade of C- or above. Excluding CEP 794 which is credit/fail grading.
- All students must complete the 13 required core courses listed below, and select one foundational elective and two advanced electives for a total of 16 courses for the major.

Code	Title	Credits
Required Core Courses		
CEP 415	Community Development Perspectives (Discovery Course)	4
CEP 508	Applied Community Development	4
CEP 614	Fundamentals of Planning	4
CEP 627	Community Economics	4
CEP 672	Fundamentals of Real Estate	4
or CEP 673	Green Real Estate	
CEP 777	Topics in Community Planning (Capstone Course)	4
CEP 794	Community and Environmental Planning Internship	4
NR 411	Environmental and Resource Economics Perspectives	4
or ECON 402	Principles of Economics (Micro)	
NR 435	Contemporary Conservation Issues and Environmental Awareness	4
or NR 437	Principles of Sustainability	
or SUST 401	Exploring Sustainability	
NR 602	Natural Resources and Environmental Policy	4
NR 658	Introduction to Geographic Information Systems	4
or ESCI 777	GIS for Earth & Environmental Sciences	
NR 724	Resolving Environmental Conflicts	4
BIOL 528	Applied Biostatistics I	4
or PSYC 402	Statistics in Psychology	
or SOC 402	Statistics	
Electives		
Foundational Electives		
Select one course from the following:		4
NR 507	Introduction to our Energy System and Sustainable Energy	
NR 572	Introduction to Natural Resource Economics	
NR 606	International Energy Topics	
SW 525	Social Welfare Policy: History of Social and Economic Justice	
SOC 450	Contemporary Social Problems	
SOC 565	Environment and Society	
GEOG 560	Natural Hazards and Human Disasters	
GEOG 581	Society, Environment and Justice	
RMP 490	Recreation & Tourism in Society	
POLT 500	American Public Policy	
POLT 502	State and Local Government	
POLT 595	Smart Politics	
Advanced Electives		
Select two courses from the following:		8
CEP 673	Green Real Estate [1]	
or CEP 672	Fundamentals of Real Estate	
NR 608	Economics of Sustainability	
NR 720	International Environmental Politics and Policies for the 21st Century	
NR 757	Remote Sensing of the Environment	
NR 767W	Social Impact Assessment	
NR 784	Sustainable Living - Global Perspectives	
NR 785	Systems Thinking for Sustainable Solutions	
NR 787	Advanced Topics in Sustainable Energy	
RMP 724	Research, Evaluation, and Data-Driven Decisions	
RMP 776	Human Dimensions of Natural Environments	
AGFS 620	Food Systems & Community Resilience	
AGFS 690	Agricultural and Food Policy	
SW 660	Exploring Issues in Housing and Homelessness	
PPOL 712	Strategies for Policy Impact	
Total Credits		**64**

[1] May be taken as an elective if not taken as a core course.

Additional Information

CEP students are encouraged to have a study away/abroad experience, a dual degree, a minor, or focused area of study which add value to the CEP degree. Consider the following to complete the minimum of 128 credits:

- Semester in the City (if you have not done this in the CEP major)
- EcoQuest New Zealand (16 credits in electives - must qualify with EcoQuest)
- Study Away
- Study Abroad
- Minor as approved by the minor program
- Courses to round out a focus area. *It is recommended that you choose upper level courses in NR and EREC.*

Degree Plan

Sample Degree Plan

This sample degree plan serves as a general guide; students collaborate with their academic advisor to develop a personalized degree plan to meet their academic goals and program requirements.

First Year

Fall		Credits
CEP 415	Community Development Perspectives	4
NR 435 or NR 437 or SUST 401	Contemporary Conservation Issues and Environmental Awareness or Principles of Sustainability or Exploring Sustainability	4
NR 411 or ECON 402	Environmental and Resource Economics Perspectives or Principles of Economics (Micro)	4
ENGL 401	First-Year Writing	4
	Credits	**16**

Spring		
Choose 1 Foundational Elective		
NR 507 or NR 572 or NR 606 or SW 525 or SOC 450 or SOC 565 or GEOG 560 or GEOG 581 or RMP 490 or POLT 500 or POLT 502 or POLT 595	Introduction to our Energy System and Sustainable Energy or Introduction to Natural Resource Economics or International Energy Topics or Social Welfare Policy: History of Social and Economic Justice or Contemporary Social Problems or Environment and Society or Natural Hazards and Human Disasters or Society, Environment and Justice or Recreation & Tourism in Society or American Public Policy or State and Local Government or Smart Politics	4
Choose any three Discovery required courses. Consider the following:		
Discovery Biological Science with Lab		4
Discovery Humanities		4
Inquiry Course		4
	Credits	**16**

Second Year

Fall		
CEP 614	Fundamentals of Planning	4
NR 602	Natural Resources and Environmental Policy	4
BIOL 528 or SOC 402 or PSYC 402	Applied Biostatistics I or Statistics or Statistics in Psychology	4
Choose any remaining Discovery required course. Consider the following:		
Discovery Fine and Performing Arts		4
	Credits	**16**

Spring		
CEP 508	Applied Community Development	4
Elective		4
Choose any remaining two Discovery Course requirements. Consider the following:		
Discovery Physical Sciences		4
Discovery Environment, Technology & Society (if not completed)		4
	Credits	**16**

Third Year

Fall		
CEP 627	Community Economics	4
CEP 672 or CEP 673	Fundamentals of Real Estate or Green Real Estate	4
Elective		4
Choose any remaining Discovery required course. Consider the following:		
Discovery Historical Perspectives		4
May consider CEP 794 internship or courses toward a minor.		
	Credits	**16**

Spring		
NR 724	Resolving Environmental Conflicts	4
NR 658 or ESCI 777	Introduction to Geographic Information Systems or GIS for Earth & Environmental Sciences	4
ESCI 777 is currently offered in fall - switch semester with Discovery Historical Perspectives course if needed		
Choose one Advanced Elective (note that some of these have prerequisites)		
CEP 673 or CEP 672 or NR 608 or NR 720 or NR 757 or NR 767W or NR 784 or NR 785 or NR 787 or RMP 724 or RMP 776 or AGFS 620 or AGFS 690 or SW 660 or PPOL 712	Green Real Estate (if not taken as core) or Fundamentals of Real Estate or Economics of Sustainability or International Environmental Politics and Policies for the 21st Century or Remote Sensing of the Environment or Social Impact Assessment or Sustainable Living - Global Perspectives or Systems Thinking for Sustainable Solutions or Advanced Topics in Sustainable Energy or Research, Evaluation, and Data-Driven Decisions or Human Dimensions of Natural Environments or Food Systems & Community Resilience or Agricultural and Food Policy or Exploring Issues in Housing and Homelessness or Strategies for Policy Impact	4
Choose any remaining Discovery required course. Consider the following:		
Discovery World Cultures		4

May consider CEP 794 internship or courses toward a minor.		
	Credits	**16**
Fourth Year		
Fall		
Choose one Advanced Elective (note that some of these have prerequisites)		
NR 608 or NR 720 or NR 757 or NR 767W or NR 784 or NR 785 or NR 787 or RMP 724 or RMP 776 or AGFS 620 or AGFS 690 or SW 660 or PPOL 712	Economics of Sustainability or International Environmental Politics and Policies for the 21st Century or Remote Sensing of the Environment or Social Impact Assessment or Sustainable Living - Global Perspectives or Systems Thinking for Sustainable Solutions or Advanced Topics in Sustainable Energy or Research, Evaluation, and Data-Driven Decisions or Human Dimensions of Natural Environments or Food Systems & Community Resilience or Agricultural and Food Policy or Exploring Issues in Housing and Homelessness or Strategies for Policy Impact	4
CEP 794	Community and Environmental Planning Internship	4
CEP 794 internship may be taken any semester -- including summer -- from sophomore through senior year		
Elective		4
Elective		4
	Credits	**16**
Spring		
CEP 777	Topics in Community Planning	4
Elective		4
Elective		4
Elective		4
	Credits	**16**
	Total Credits	**128**

Student Learning Outcomes

Community Planning and Development Foundational Knowledge

- The foundational education in planning, community and economic development, natural resources, and sustainability.

Community Engagement

- The skills to engage others in the problems and potential solutions associated with community needs and the impacts of land use changes.

Data Collection and Interpretation

- The capability to gather and evaluate data on community issues and recommend planning and community development solutions.

Design and Implementation of Plans and Polices

- The ability to work with community members and professionals in the development and implementation of public policy, plans and associated community improvements while protecting natural and built resources.

Community Planning Minor

https://www.unh.edu/program/minor/community-planning

Description

Planning is a multidisciplinary profession that requires an understanding of social, economic, and environmental connections to land use change. Students may supplement their major with the minor in community planning to enhance their skills to work with communities for improved sustainability.

Requirements

Academic policies related to Minors.

- Students are required to complete five courses (20 credits) for the minor.
- A grade of C- or better is required in coursework for the minor.

Code	Title	Credits
Required Core Courses		
CEP 415	Community Development Perspectives	4
CEP 508	Applied Community Development	4
CEP 614	Fundamentals of Planning	4
Electives		
Select two courses from the following:		8
CEP 627	Community Economics	
CEP 673	Green Real Estate	
or CEP 672	Fundamentals of Real Estate	
CEP 777	Topics in Community Planning [1]	
NR 602	Natural Resources and Environmental Policy	
NR 658	Introduction to Geographic Information Systems	
NR 720	International Environmental Politics and Policies for the 21st Century	
NR 724	Resolving Environmental Conflicts	
NR 784	Sustainable Living - Global Perspectives	
NR 785	Systems Thinking for Sustainable Solutions	
NR 787	Advanced Topics in Sustainable Energy	
Total Credits		**20**

[1] This is the Capstone course for the CEP Major.

Student Learning Outcomes

Program Learning Outcomes

Community Planning and Development Foundational Knowledge

- A foundational understanding of issues related to the intersection of planning, community and economic development, natural resources, and sustainability.

Data Collection and Interpretation

- The capability to gather and evaluate data on community issues and recommend planning and community development solutions.

Practical Skill-building for Community Planning and Development

- The skills to support the design and implementation of public policy, plans, and associated community improvements while protecting natural and built resources.

Diagnostic Science

Programs

- Diagnostic Science Major (B.S.) (p. 407)
- Diagnostic Science Major: Medical Laboratory Science Option (B.S.) (p. 408)

Diagnostic Science Major (B.S.)

https://www.unh.edu/program/bachelor-science/diagnostic-science

Description

The Diagnostic Science program aims to develop the next generation of diagnostic professionals who demonstrate innovation and compassion to advance healthcare. Through interdisciplinary education and a commitment to critical inquiry, our graduates will become pioneers in identifying and solving complex health challenges, driving better outcomes for individuals and communities.

This is the pre-clinical option for students who wish to have a background in diagnostic science but whose goals are to work in roles outside of the clinical laboratory.

Graduates from this program are prepared for a variety of careers due to the clinical laboratory and quality control/assurance principles learned through this curriculum. Additionally, the knowledge gained in quality control and assurance provides graduates of this option with ample skills needed in varying industries.

Requirements

Student Learning Outcomes

Program Learning Outcomes

- Demonstrate an understanding of foundational knowledge in biochemistry, cell biology, genetics, and clinical science.
- Apply scientific and statistical methods to critically evaluate and draw conclusions from experimental evidence or clinical data.
- Use evidence-based strategies to troubleshoot unexpected experimental outcomes or problem solve in clinical scenarios.
- Evaluate the reliability of laboratory results using pertinent quality control and quality assurance data.
- Demonstrate effective written and verbal communication skills to effectively communicate scientific and clinical data.
- Correlate clinical and laboratory data to patient diagnosis and prognosis.
- Perform procedures routinely completed in clinical laboratories within acceptable limits of precision and accuracy.
- Exhibit attitudes, behaviors, and ethics expected of entry-level medical professionals.

Diagnostic Science Major: Medical Laboratory Science Option (B.S.)

https://www.unh.edu/program/bachelor-science/diagnostic-science-medical-laboratory-science

Description

The Diagnostic Science program aims to develop the next generation of diagnostic professionals who demonstrate innovation and compassion to advance healthcare. Through interdisciplinary education and a commitment to critical inquiry, our graduates will become pioneers in identifying and solving complex health challenges - driving better outcomes for individuals and communities.

This degree option is designed for students to be eligible for the American Society for Clinical Pathology (ASCP) Board of Certification Medical Laboratory Scientist generalist examination.

Additionally, students complete the medical laboratory science internship courses in their final semester at an affiliated clinical laboratory. This pathway ensures the student completes all required electives and credit requirements needed for graduation.

The Medical Laboratory Science (MLS) option involves coursework and an applied learning experience at an affiliated hospital laboratory.

The sequence of courses offered in this option fulfills programmatic accreditation requirements outlined by the National Accrediting Agency for Clinical Laboratory Science.

Student Learning Outcomes

Program Learning Outcomes

- Demonstrate an understanding of foundational knowledge in biochemistry, cell biology, genetics, and clinical science
- Apply scientific and statistical methods to critically evaluate and draw conclusions from experimental evidence or clinical data
- Use evidence-based strategies to troubleshoot unexpected experimental outcomes or problem solve in clinical scenarios
- Evaluate the reliability of laboratory results using pertinent quality control and quality assurance data
- Demonstrate effective written and verbal communication skills to effectively communicate scientific and clinical data
- Correlate clinical and laboratory data to patient diagnosis and prognosis
- Perform procedures routinely completed in clinical laboratories within acceptable limits of precision and accuracy.
- Exhibit attitudes, behaviors, and ethics expected of entry-level medical professionals
- Describe essential principles of education and laboratory management.
- Develop an awareness of the need for continuing education amongst medical laboratory professionals

EcoGastronomy

EcoGastronomy is the interdisciplinary study of how food can nourish both people and planet, while cultivating a food system that is equitable, regenerative, and resilient. This program blends culinary arts and hospitality with ecological and social responsibility, recognizing that every meal affects both human and environmental health and wellbeing.

The EcoGastronomy program prepares students for professions within our rapidly evolving food community—from farm to fork to nutrition and health outcomes—where ever-greater integration of agriculture, food, and nutrition requires a broad perspective and a specific blend of skills and knowledge.

Curriculum and International Experience

The courses in the program are multidisciplinary and are designed to integrate UNH strengths in sustainable agriculture, culinary arts, hospitality, and nutrition. This unique academic program emphasizes the interdisciplinary, international, and experiential knowledge that connects these fields. The program is experiential by requiring students to work in the field growing food, in the kitchen preparing food, and developing the skills associated with both. Students experience the local food cultures and get firsthand experience on the issues of food security locally, regionally, and globally. Students who declare the dual major in EcoGastronomy spend a semester abroad in Ascoli Piceno, Italy, (spring, summer or fall semester) and complete courses related to the Italian food system - including culture, history, philosophy, and production. The ECOG 701 EcoGastronomy Capstone, taken during the senior year, provides students the opportunity to synthesize, apply, and reflect on knowledge gained throughout the program's coursework.

To declare a dual major students must have a cumulative grade-point average of 2.5 and have declared a disciplinary major. All required EcoGastronomy coursework must be completed with a grade of C or better.

Programs

- EcoGastronomy (Dual Major) (p. 411)

Faculty

EcoGastronomy Program Faculty

EcoGastronomy (Dual Major)

https://www.unh.edu/program/dual-major/ecogastronomy

Description

EcoGastronomy is the study of how food can nourish both people and the planet, cultivating a food system that is regenerative, just, and resilient. This program blends culinary arts with ecological and social responsibility, recognizing that every meal is part of a larger system affecting planetary and human health and wellbeing. The **Dual Major in EcoGastronomy** integrates UNH strengths in sustainable agriculture, culinary arts, hospitality, and nutrition. EcoGastronomy offers a unique academic program emphasizing the interdisciplinary, international, and experiential knowledge that connects these fields.

The EcoGastronomy Dual Major is a collaboration between the University of New Hampshire's College of Life Sciences and Agriculture and the Peter T. Paul College of Business and Economics.

Requirements

Degree Requirements

Minimum Credit Requirement: 128 credits

Minimum Residency Requirement: 32 credits must be taken at UNH

Minimum GPA: 2.0 required for conferral*

Core Curriculum Required: Discovery & Writing Program Requirements

Foreign Language Requirement: Yes, if primary major is a Bachelor of Arts

Declared Primary Major

All Major, Option and Elective Requirements as indicated.
**Major GPA requirements as indicated.*

EcoGastronomy Dual Major Requirements

Code	Title	Credits
Required Courses		
ECOG 401	Introduction to Ecogastronomy	4
AGFS 405	Sustainable Agriculture and Food Production	4
NUTR 400	Nutrition in Health and Well Being	4
NUTR 403	Culinary Arts Skills Development	4
or HMGT 405	Introduction to Food and Service Management	
NUTR 686	UNH-in-Italy Study Abroad [1]	0
ECOG 701	EcoGastronomy Capstone [2]	2-4
Elective		
Select one course from the following:		4
ANSC 602	Animal Rights and Societal Issues	
ANSC 698	Cooperative for Real Education in Agricultural Management (CREAM)	
AGFS 690	Agricultural and Food Policy	
HIST 618	American Environmental History	
HMGT 771	International Wine and Beverage	
HMGT 570	International Food and Culture	
MGT 662	Exploration in Entrepreneurial Management	
NR 602	Natural Resources and Environmental Policy	
NR 720	International Environmental Politics and Policies for the 21st Century	
NR 784	Sustainable Living - Global Perspectives	
NR 785	Systems Thinking for Sustainable Solutions	
NUTR 625	From Farm to the Italian Table	
NUTR 720	Community Nutrition	
NUTR 730	From Seed to Sea: Examining Sustainable Food Systems	
AGFS 620	Food Systems & Community Resilience	
AGFS 679	Food Production Field Experience I	
SOC 665	Environmental Sociology	
ZOOL 610	Principles of Aquaculture	
MEFB 772	Fisheries Biology: Conservation and Management	
Total Credits		**22-24**

1 NUTR 686 UNH-in-Italy Study Abroad is a variable credit course. ECOG students must complete at least 8 credits of study abroad.

2 Satisfies the capstone requirement of the Discovery Program for the EcoGastronomy major.

Student Learning Outcomes

Program Learning Outcomes

- Students will understand and be able to communicate the interconnected nature of the food system, taking into account the social, political, ethical, environmental, economic, and social justice issues that are intertwined in the system.
- Students will gain practical understanding of food system sustainability by engaging in experiential education opportunities.
- Students will be able to speak fluently in the language of sustainable food systems.
- Students will effectively analyze and evaluate the full lifecycle of a food, or food product, by identifying and applying reliable information.
- Students will demonstrate effective oral communication skills.
- Students will demonstrate effective written communication skills.
- Students will demonstrate effective presentation skills.

Environmental and Resource Economics (EREC)

Programs

- Environmental and Resource Economics Minor (p. 411)

Environmental and Resource Economics Minor

https://www.unh.edu/program/minor/environmental-resource-economics

Description

The Environmental and Resource Economics minor aims to provide students majoring in other disciplines with an understanding of

environmental and resource economics, and their uses in personal, social, business and government decision-making. Students learn how to apply economic analyses in evaluating environmental and resource problems, identifying their causes and examining alternative solutions. The minor also offers courses that teach techniques useful for decision making by local and regional communities. Students also obtain skills in the management of agricultural and natural-resource business firms.

Requirements

Academic policies related to Minors.

The minor consists of completing five courses (20 credits) as outlined below.

Code	Title	Credits
Required Courses		
NR 411	Environmental and Resource Economics Perspectives [1]	4
or ECON 402	Principles of Economics (Micro)	
Electives		
Select a minimum of four courses from the following:		16
NR 572	Introduction to Natural Resource Economics	
NR 602	Natural Resources and Environmental Policy	
or AGFS 690	Agricultural and Food Policy	
NR 608	Economics of Sustainability	
NR 643	Economics of Forestry	
NR 708W	Environmental Economics	
NR 795	Investigations	
ANSC 548	Agricultural Business Management	
CEP 627	Community Economics	
ECON 706	Economics of Climate Change	
Total Credits		**20**

[1] NR 411 cannot be taken for credit if credit has been earned for ECON 402.

Environmental Conservation and Sustainability

Mission of the ECS Major

Graduates of the environmental conservation and sustainability major understand the complexity of social-ecological systems and meet environmental challenges in innovative ways. ECS students understand ecological principles and comprehend the connections between natural resource and social systems (history, economics,law, policy, international perspectives). They integrate scientific information and human values and articulate problems in ways that point to solutions leading to a sustainable future.

ECS graduates have the theoretical, methodological, technical, and practical skills necessary to solve complex problems. They work collaboratively and across disciplinary boundaries and at all scales from the local to the international. Their critical thinking and communication skills allow them to serve as liaisons among diverse interest groups and to design, implement, and facilitate policy and action toward a sustainable future.

ECS graduates are environmental citizens, sustainability advocates, and leaders for constructive change. They typically serve as policy analysts, sustainability officers, resource managers, journalists, scientists, and teachers in business, non-profit organizations, and government agencies, including the Peace Corps and Ameri-Corps. Many ECS graduates attend graduate or professional programs following graduation.

- Environmental Conservation and Sustainability Minor (p. 415)

Faculty

Environmental Conservation and Sustainability Program Faculty

Environmental Conservation and Sustainability Major (B.S.)

https://www.unh.edu/program/bachelor-science/environmental-conservation-sustainability

Description

The ECS major curriculum is comprised of core requirements providing integrative courses in both environmental conservation and sustainability, along with a foundation in biology, ecology, physical and social science, and the basic tools and skills applied to problem solving. These core requirements are typically fulfilled in the first two years. Beginning in their junior year, ECS students, in consultation with their advisers, create a course focus area based on an ecological system or natural resource of their choosing. The focus area provides advanced study in ecology and natural resources; social sciences; tools, skills, and/or natural history and should reflect the student's interests and future goals. Additionally, each ECS student completes a practicum experience and a capstone option.

The ECS major provides the opportunity for students to gain a common foundation of knowledge and skills emphasizing integration and critical thinking, while allowing for sufficient flexibility to pursue their interests and passions within a large and complex field of study. The design of the curriculum will allow each student at least four, and as many as six, free electives, which they may fulfill as they choose. Many students pursue international experiences, such as the UNH EcoQuest program in New Zealand, add a minor or dual degree (such as the dual degree in global studies), and/or pursue research opportunities with our faculty or through another of UNH's undergraduate research opportunity programs.

Requirements

Degree Requirements

Minimum Credit Requirement: 128 credits

Minimum Residency Requirement: 32 credits must be taken at UNH

Minimum GPA: 2.0 required for conferral*

Core Curriculum Required: Discovery & Writing Program Requirements

Foreign Language Requirement: No

All Major, Option and Elective Requirements as indicated.
**Major GPA requirements as indicated.*

Major Requirements

A minimum grade of C- is required in coursework for the major.

Code	Title	Credits
Core Requirements		
Foundational Courses:		
NR 435	Contemporary Conservation Issues and Environmental Awareness	4
NR 437	Principles of Sustainability	4
Natural Science:		
Biology:		8
BIOL 412	Introductory Biology: Evolution, Biodiversity and Ecology	
NR 439	Environmental Biology	
Ecological Principles: Select one of the following		4
BIOL 541W	Ecology	
NR 527	Forest Ecology	
AGFS 502	Agroecology	
Physical Science: Select one of the following		4
NR 403	Introduction to Environmental Science	
CHEM 403	General Chemistry I	
CHBE 410	Energy and Environment	
ESCI 409	Geology and the Environment	
CEE 520	Environmental Pollution and Protection: A Global Context	
PHYS 401	Introduction to Physics I	
Social Science:		
Resource Economics:		4
NR 411	Environmental and Resource Economics Perspectives	
Environmental Ethics and Values: Select one of the following		4
NR 784	Sustainable Living - Global Perspectives	
SOC 565	Environment and Society	
Natural Resources Policy: Select one of the following		4
NR 602	Natural Resources and Environmental Policy	
NR 662	Environmental Policy, Planning and Sustainability in New Zealand	
Essential Tools and Skills:		
Field Methods:		2
NR 415	Natural Resources Field Methods	
Statistics: Select one of the following		4
BIOL 528	Applied Biostatistics I	
SOC 402	Statistics	
Geospatial Analysis: select one of the following		4
NR 658	Introduction to Geographic Information Systems	
ESCI 777	GIS for Earth & Environmental Sciences	
Writing Skills: Select one of the following		4
ENGL 502	Professional and Technical Writing	
ENGL 503	Persuasive Writing	
Presentation Skills: Select one of the following		4
NR 508	Communicating Science	
CMN 500	Public Speaking	
THDA 522	Storytelling, Story Theatre, and Involvement Dramatics	
THDA 583	Introduction to Puppetry	
THDA 624	Theatre for Young Audiences	
Focus Area		
Select seven total courses to create a focus area addressing an environmental issue, ecological system, or natural resource (see below) [1]		28
Ecology and Natural Resources:		
Select one to four courses: no more than one course may be at the 400 or 500 level. Additional courses must be at the 600 or 700 levels.		
ESCI 405	Global Environmental Change	
NR 433	Wildlife Ecology	
NR 501	Studio Soils	
NR 504	Freshwater Resources	
NR 640	Wildlife Population Ecology	
NR 642	Introduction to Biogeography	
NR 650	Principles of Conservation Biology	
NR 660	Ecology and Biogeography of New Zealand	
NR 661	Restoration Ecology and Ecosystem Management in New Zealand	
NR 663	Applied Directed Research in New Zealand	
NR 664	Conservation Genetics and Applied Evolution	
MEFB 628	Marine Invertebrate Evolution and Ecology	
MEFB 674	Ecology and Marine Environment	
AGFS 760W	Integrated Pest Management	
MEFB 702	Sustainable Marine Fisheries	
MEFB 725	Marine Ecology	
MEFB 747	Aquatic Plants in Restoration/Management	
MEFB 755	Biological Oceanography	
MEFB 772	Fisheries Biology: Conservation and Management	
NR 706	Soil Ecology	
NR 730	Terrestrial Ecosystems	
NR 734	Tropical Ecology	
NR 743	Addressing Arctic Challenges	
NR 744	Biogeochemistry	
NR 751	Aquatic Ecosystems	
NR 761	Environmental Soil Chemistry	
NR 765	Community Ecology	
NR 782	Forest Health in a Changing World	
ZOOL 708	Stream Ecology	
ZOOL 726	Conservation Behavior	
Social Sciences		
Select two to five courses: no more than one course may be at the 400 or 500 level. Additional courses must be at the 600 or 700 levels.		
CEP 415	Community Development Perspectives	
TOUR 400	Introduction to Tourism	
CEP 508	Applied Community Development	
NR 507	Introduction to our Energy System and Sustainable Energy	
NR 572	Introduction to Natural Resource Economics	
AGFS 690	Agricultural and Food Policy	
ANTH 695	Globalization and Global Population Health	
CEP 614	Fundamentals of Planning	
CEP 627	Community Economics	
CEP 673	Green Real Estate	
ECON 605	Intermediate Microeconomic Analysis	
ECON 645	International Economics	
HIST 618	American Environmental History	
GEOG 673	From Political Ecology to Climate Justice	
NR 606	International Energy Topics	
NR 608	Economics of Sustainability	
NR 643	Economics of Forestry	
NR 662	Environmental Policy, Planning and Sustainability in New Zealand	
SOC 665	Environmental Sociology	
SOC 693	Global Change and Social Sustainability	
ECON 706	Economics of Climate Change	
MARI 705	Introduction to Marine Policy: Understanding US Ocean, Coastal and Great Lakes Policy	
NR 708W	Environmental Economics	
NR 724	Resolving Environmental Conflicts	
NR 720	International Environmental Politics and Policies for the 21st Century	
NR 784	Sustainable Living - Global Perspectives	
NR 787	Advanced Topics in Sustainable Energy	
POLT 751	Comparative Environmental Politics and Policy	
SOC 730	Communities and the Environment	
Advanced Tools & Skills and Natural History		
Select at least one course		
BIOL 752	New England Mushrooms: a Field and Lab Exploration	
CEP 777	Topics in Community Planning	
NR 425	Field Dendrology	
NR 703	Watershed Water Quality Management	
NR 707	Environmental Modeling	
NR 712	Mammalogy	
NR 713	Quantitative Ecology	
NR 729	Silviculture	
NR 745	Forest Management	
NR 749	Forest Inventory and Modeling	
NR 757	Remote Sensing of the Environment	

NR 759	Digital Image Processing for Natural Resources	
NR 760	Geographic Information Systems in Natural Resources	
NR 785	Systems Thinking for Sustainable Solutions	
NR 767W	Social Impact Assessment	
SOC 601	Methods of Social Research	
ZOOL 542	Ornithology	
Senior Capstone Options		
The ECS major capstone experience may be filled by any one (1) of the following options:		4
Option 1:		
NR 786	Leadership for Sustainability	
or NR 785	Systems Thinking for Sustainable Solutions	
Option 2: Both seminars must be scheduled. At least one must be taken in the senior year.		
NR 753 & NR 754	Sustainability as Abundance and Sense of Place	
Option 3:		
NR 663	Applied Directed Research in New Zealand (NZ Directed projects, if taken in the senior year) [2]	
Option 4:		
Directed projects fulfilling one of the following: NR 799, McNair Research Theses, Hamel Center Programs (IROP, SURF USA, SURF Abroad, etc.) may be applied in consultation with the adviser and ECS program coordinator.		
Work Experience		
NR 600	Work Experience [3]	0

1 The focus area is based upon at least one course in the ecology and natural resources category, along with a combination of courses in the social sciences; tools, skills, and natural history categories; and any additional courses from the ecology and natural resources category reflecting the student's interests and future direction. Focus areas should be designed in close consultation with the adviser. Courses used to fulfill core requirements may not be used in the focus area.

2 If NR 663 Applied Directed Research in New Zealand is taken in the junior year or earlier, then one Critical Issues seminar (2cr) or Leadership for Sustainability must be taken in the senior year to fulfill the capstone requirement.

3 Each ECS major will engage in a practical experience reflecting their interests and goals. The choice of the experience will be made in conjunction with the adviser and may occur any time beginning with the sophomore year.

Degree Plan

Sample Degree Plan

This sample degree plan serves as a general guide; students collaborate with their academic advisor to develop a personalized degree plan to meet their academic goals and program requirements.

First Year		
Fall		**Credits**
BIOL 412	Introductory Biology: Evolution, Biodiversity and Ecology (Inquiry, Disc BS)	4
NR 435	Contemporary Conservation Issues and Environmental Awareness (Disc ETS)	4
NR 411	Environmental and Resource Economics Perspectives (or Discovery Course, not SS or ETS)	4
ENGL 401 or Discovery Course		4
	Credits	**16**
Spring		
NR 437	Principles of Sustainability	4
NR 439	Environmental Biology	4
NR 411	Environmental and Resource Economics Perspectives (or Discovery Course, not SS or ETS)	4
ENGL 401 or Discovery Course		4
	Credits	**16**
Second Year		
Fall		
NR 415	Natural Resources Field Methods	2
Ecological Principles [1]		4
Physical Science (Disc PS) [2]		4
Presentation Skills (possible Disc FPA) [2]		4
Practicum [3]		0
Elective		4
	Credits	**18**
Spring		
Statistics (Disc QR) [2]		4
Writing Skills (Univ. writing req.) [2]		4
NR 658	Introduction to Geographic Information Systems	4
NR 602 or Discovery Course		4
	Credits	**16**
Third Year		
Fall		
NR 602 or Discovery Course		4
Ethics/Values Requirement		4
Focus Area Courses		8
OR Electives		
OR any remaining Discovery or WI requirement		
OR Capstone [4]		
	Credits	**16**
Spring		
Focus Area Courses [5]		16
OR Electives		
OR any remaining Discovery or WI requirements		
OR Capstone [4]		
	Credits	**16**
Fourth Year		
Fall		
Capstone Requirement [5]		2-4
Focus Area Courses		12
OR Electives		
OR any remaining Discovery of WI requirements		
	Credits	**14-16**
Spring		
Capstone Requirement [5]		2-4
Focus Area Courses		12
OR Electives		
OR any remaining Discovery of WI requirements		
	Credits	**14-16**
	Total Credits	**126-130**

1 All choices for the Ecological Principles requirement ***except*** for AGFS 502 are fall courses.

[2] The Statistics, Physical Science, Writing Skills and Presentation Skills requirements may be taken in either the Fall or Spring Semester of the second year.

[3] Work experience, internship, etc may be scheduled any time beginning in the second year.

[4] One of the 2 credit capstone seminars may be taken in either the fall or spring of the junior year.

[5] One 2 credit seminar may be taken in each of the Fall and Spring semesters of the Senior Year OR NR 786 may be taken in the Fall semester of the Senior Year.

Student Learning Outcomes

Program Learning Outcomes

Students will be able to:

- Describe and explain the interactions among physical, biological, chemical, and human components of the environment;
- Formulate tests of environmental questions, acquire data, and apply scientific methods to answer these questions;
- Describe and explain the ecological and societal value of biodiversity, sustainability, and environmental stewardship;
- Use principles of ecology, economics, sustainability, and policy science to solve real-world environmental problems;
- Communicate effectively to peers within the environmental community and with audiences outside of the discipline.

Environmental Conservation and Sustainability Minor

https://www.unh.edu/program/minor/environmental-conservation-sustainability

Description

The minor in Environmental Conservation and Sustainability allows students from diverse majors across all UNH colleges to incorporate the theory and practice of sustainability into their 4-year baccalaureate studies. Students take required introductory courses in both conservation and sustainability and then select electives from ecology, social science and management, and a range of advanced topics. Students who participate in the EcoQuest Study Abroad Program may apply their courses to the minor.

Requirements

Academic policies related to Minors.

The minor consists of completing five courses (20 credits).

Code	Title	Credits
Required Courses		
NR 435	Contemporary Conservation Issues and Environmental Awareness	4
NR 437	Principles of Sustainability	4
or SUST 401	Exploring Sustainability	
Ecology Course		
Select one course from the following:		4
AGFS 502	Agroecology	
BIOL 541W	Ecology	
NR 433	Wildlife Ecology	
NR 527	Forest Ecology	
NR 660	Ecology and Biogeography of New Zealand	
Social Science and Management Course		
Select one course from the following:		4
SUST 501	Sustainability in Action	
NR 507	Introduction to our Energy System and Sustainable Energy	
NR 602	Natural Resources and Environmental Policy	
NR 662	Environmental Policy, Planning and Sustainability in New Zealand	
CEP 627	Community Economics	
NR 786	Leadership for Sustainability	
Advanced Topics in Conservation and Sustainability Course		
Select one course from the following:		4
NR 606	International Energy Topics	
NR 650	Principles of Conservation Biology	
NR 661	Restoration Ecology and Ecosystem Management in New Zealand	
NR 708W	Environmental Economics	
NR 720	International Environmental Politics and Policies for the 21st Century	
NR 724	Resolving Environmental Conflicts	
SUST 750	Sustainability Capstone	
NR 767W	Social Impact Assessment	
NR 784	Sustainable Living - Global Perspectives	
NR 785	Systems Thinking for Sustainable Solutions	
NR 787	Advanced Topics in Sustainable Energy	
NR 795	Investigations [1]	
MARI 705	Introduction to Marine Policy: Understanding US Ocean, Coastal and Great Lakes Policy	
MEFB 702	Sustainable Marine Fisheries	
Total Credits		**20**

[1] NR 795 Investigations requires working with an individual ECS faculty member on a special problem/issue.

Student Learning Outcomes

Program Learning Outcomes

Students will be able to:

- Formulate tests of environmental questions, acquire data, and apply scientific methods to answer these questions;
- Describe and explain the ecological and societal value of biodiversity, sustainability, and environmental stewardship;
- Use principles of ecology, economics, sustainability, and policy science to solve real-world environmental problems;
- Communicate effectively to peers within the environmental community and with audiences outside of the discipline.

Environmental Sciences

The College of Engineering and Physical Sciences (CEPS) and the College of Life Sciences and Agriculture (COLSA) jointly offer a bachelor of science degree in environmental sciences. The Program has four options, and specific course requirements for the major vary by option. The geosystems and hydrology options are both managed by the Department of Earth Sciences in CEPS, and the ecosystems and soil and watershed management options are both managed by the Department of Natural Resources and the Environment in COLSA.

Environmental sciences, an interdisciplinary field, focuses on the interaction of biological, chemical, and physical processes that shape our natural environment. Students graduating with a degree in environmental sciences will have an understanding of these interacting processes, the ability to communicate effectively with both scientific and lay

audiences, competency in field methods appropriate for entry-level environmental science positions, competency in the use and application of Geographic Information Systems (GIS), a basic understanding of environmental policy, and the ability to contribute to multidisciplinary teams. The University of New Hampshire is a recognized leader in environmental sciences research, and the environmental sciences program capitalizes on faculty expertise in this area. The full-time faculty members comprising this program have major teaching and research emphases in the areas of biogeochemical cycling, environmental chemistry, ecosystem science, geospatial science, global change, hydrology, plant ecology, soil science, and water resource management.

Employment opportunities include environmental consulting firms, educational facilities (e.g., science centers), environmental monitoring laboratories (e.g., water treatment plants; the Environmental Protection Agency), government agencies (e.g., the U.S. Geological Survey, Bureau of Land Management, Natural Resource Conservation Service), university and government research laboratories, and nongovernment environmental organizations. The environmental sciences program also constitutes an excellent preparation for graduate programs in several areas relating to the environment. Students should consult with their adviser early if their goals include further study.

Programs

- Environmental Sciences Major: Earth Systems Option (B.S.) (p. 126)
- Environmental Sciences Major: Ecosystems Option (B.S.) (p. 416)
- Environmental Sciences Major: Soil and Watersheds Option (B.S.) (p. 418)

Environmental Sciences Major: Ecosystems Option (B.S.)

https://colsa.unh.edu/natural-resources-environment/program/bs/environmental-sciences-major-ecosystems-option

Description

The College of Life Sciences and Agriculture (COLSA) and the College of Engineering and Physical Sciences (CEPS) jointly offer a bachelor of science degree in environmental sciences. Environmental science is an interdisciplinary field concerned with the interaction of biological, chemical, and physical processes that shape the environment, and control the response of natural systems to human activities. Students graduating with a degree in environmental sciences will have an understanding of these interacting processes, experience working in interdisciplinary teams to apply this understanding, and the ability to communicate effectively with both scientific and lay audiences. While in this program, students will acquire significant experience with field, laboratory and analytical methods appropriate for employment in professional environmental science positions as well as a basic understanding of environmental policy. The University of New Hampshire is a recognized leader in environmental sciences research, and the environmental sciences program capitalizes on faculty expertise in this area. Program faculty emphasize teaching and research in the areas of biogeochemical cycling, environmental chemistry, ecosystem science, global change, hydrology, plant ecology, soil science, and water resource management among many other fields. The Program has four options, and specific course requirements for the major vary by option. The ecosystems and soils and watersheds options are both managed by the Department of Natural Resources and the Environment in COLSA, and the geosystems and hydrology options are both managed by Earth Sciences in CEPS.

In the ecosystems option, students gain the knowledge and skills to understand natural systems and environmental processes in a variety of terrestrial and aquatic ecosystems, including forests, fields, streams, wetlands, rivers, and lakes. A major emphasis is on how to solve environmental problems in a time of rapid global change. Students will gain understanding of field and lab methods, geographic information systems (GIS), environmental policy, and how to communicate effectively with many audiences.

If interested in study abroad, the UNH EcoQuest program takes students to the wide variety of unique environments of New Zealand, and is fully integrated in the major in terms of meeting major requirements. After meeting all major and University general requirements, the student has 19 free credits with which to minor in a subject of interest, dual major in Sustainability, dive in deeper in Environmental Science topics, or simply take courses that are of interest.

This program develops your expertise in ecosystem dynamics and solving environmental problems, preparing you to pursue a career in conservation, resource management, research, education, or sustainability. Employment opportunities include environmental consulting firms; environmental monitoring organizations (e.g., water or wastewater treatment plants, National Ecological Observing Network); government agencies (e.g., the U.S. Geological Survey, the Environmental Protection Agency, Bureau of Land Management, Natural Resource Conservation Service); educational programs (e.g., science centers, Appalachian Mountain Club); university and government research laboratories; and non-government environmental organizations (e.g. Watershed associations). The environmental sciences program also constitutes an excellent preparation for graduate programs in several areas relating to the environment.

Requirements

Degree Requirements

Minimum Credit Requirement: 128 credits

Minimum Residency Requirement: 32 credits must be taken at UNH

Minimum GPA: 2.0 required for conferral*

Core Curriculum Required: Discovery & Writing Program Requirements

Foreign Language Requirement: No

All Major, Option and Elective Requirements as indicated.
**Major GPA requirements as indicated.*

Major Requirements

Code	Title	Credits
Scope of the Major (Introduction - 3 Courses)		
NR 400	Professional Perspectives in Natural Resources	1
NR 403	Introduction to Environmental Science	4
NR 435	Contemporary Conservation Issues and Environmental Awareness	4
or NR 437	Principles of Sustainability	
The Scientific Basis (Foundation - 7 Courses)		
Biology I		
BIOL 412	Introductory Biology: Evolution, Biodiversity and Ecology	4

Biology II		
BIOL 411	Introductory Biology: Molecular and Cellular	4

Integration and Research (The Capstone Experience) [1]		
Capstone:		
NR 663	Applied Directed Research in New Zealand	
or NR 795	Investigations	
or NR 799	Honors Senior Thesis	
Total Credits		**83-85**

Capstone Experience

NR 663 Applied Directed Research in New Zealand (EcoQuest if Senior Year), or NR 795 Investigations, or NR 799 Honors Senior Thesis, or approved research experience, or approved internship. Every student must complete a capstone experience senior year, or during the summer before senior year, if at least 90 credit hours have been completed.

1) A contract form provided by the program must be completed and signed by the student, the advisor, the program coordinator, and the capstone mentor (faculty or off-campus) before the capstone experience, by the end of the junior year.

2) A signed Capstone Experience Evaluation form must be submitted to your advisor by the end of the senior year in order to graduate.

Preparation for Capstone: Please discuss with your faculty advisor regularly what kind of capstone experience you would like to pursue. If you remain uncertain during the junior year, the Earth Science department offers a Capstone Preparation course, ESCI 796 Topics in the spring, but this is not required.

Individualizing Your Education (Electives)
One goal of this program is to allow students the opportunity to pursue minors, dual majors, research and study abroad opportunities, while still completing the degree in four years of full-time enrollment. To this end, the program requires a total of 85 credit hours. The University Discovery program includes 5 areas (20 credit hours) not covered by this major. These include English 401, Fine and Performing Arts, Humanities, Historical Perspectives, World Cultures (NOTE: The World Cultures category can be met by certain study abroad programs, including EcoQuest). Combined, Major and Discovery requirements total 105 credit hours. With a total of 128 credit hours required by the University for graduation, this leaves 23 credit hours that can be put towards minors, dual majors, study abroad, Directed Research, etc.

[1] Many students enroll in the EcoQuest program (a study abroad opportunity in New Zealand), which satisfies the policy requirement, and capstone requirement if taken senior year.

Degree Plan

Student Learning Outcomes

Program Learning Outcomes

Key Learning Objectives:

- The primary Learning Outcome for the Environmental Science Program will be that students will master the content offered in the courses specified in the curriculum as assessed by performance on exams, labs and written assignments. This will include an understanding of the physical, chemical and biological processes central to the function of environmental systems, the mathematical concepts required to understand, explain and predict those processes, and the ability to determine the significance of results, both in terms of statistical probability and impact on the larger world.

The learning process leading to this mastery will require that students will have:

- Knowledge of how physical, chemical, and biological factors interact with human activities to shape the environment;
- Proficiency with environmental techniques including field, lab, GIS, or modeling;
- The ability to solve environmental problems;
- The ability to communicate orally or in writing about environmental dynamics.

Environmental Sciences Major: Soil and Watersheds Option (B.S.)

https://colsa.unh.edu/natural-resources-environment/program/bs/environmental-sciences-major-soil-watersheds-option

Description

The College of Life Sciences and Agriculture (COLSA) and the College of Engineering and Physical Sciences (CEPS) jointly offer a bachelor of science degree in environmental sciences. Environmental science is an interdisciplinary field concerned with the interaction of biological, chemical, and physical processes that shape the environment, and control the response of natural systems to human activities. Students graduating with a degree in environmental sciences will have an

understanding of these interacting processes, experience working in interdisciplinary teams to apply this understanding, and the ability to communicate effectively with both scientific and lay audiences. While in this program, students will acquire significant experience with field, laboratory and analytical methods appropriate for employment in professional environmental science positions as well as a basic understanding of environmental policy. The University of New Hampshire is a recognized leader in environmental sciences research, and the environmental sciences program capitalizes on faculty expertise in this area. Program faculty emphasize teaching and research in the areas of biogeochemical cycling, environmental chemistry, ecosystem science, global change, hydrology, plant ecology, soil science, and water resource management among many other fields. The Program has four options, and specific course requirements for the major vary by option. The ecosystems and soils and watersheds options are both managed by the Department of Natural Resources and the Environment in COLSA, and the geosystems and hydrology options are both managed by Earth Sciences in CEPS.

In the soil and watershed option, students gain the knowledge and skills to understand how watersheds function in order to inform how to protect and manage land and water resources. A major emphasis is on how land and water interact through the connection of soils, flowing water, and human alteration and their impact on soil health, water quantity, and water flow. A major emphasis is on how to solve environmental problems in a time of rapid global change. Students will gain understanding of field and lab methods, geographic information systems (GIS), environmental policy, and how to communicate effectively with many audiences.

If interested in study abroad, the UNH EcoQuest program takes students to the wide variety of unique environments of New Zealand, and is fully integrated in the major in terms of meeting major requirements. After meeting all major and University general requirements, the student has 19 free credits with which to minor in a subject of interest, dual major in Sustainability, dive in deeper in Environmental Science topics, or simply take courses that are of interest.

This program develops your expertise in ecosystem dynamics and solving environmental problems, preparing you to pursue a career in conservation, resource management, research, education, or sustainability. Employment opportunities include environmental consulting firms; environmental monitoring organizations (e.g., water or wastewater treatment plants, National Ecological Observing Network); government agencies (e.g., the U.S. Geological Survey, the Environmental Protection Agency, Bureau of Land Management, Natural Resource Conservation Service); educational programs (e.g., science centers, Appalachian Mountain Club); university and government research laboratories; and non-government environmental organizations (e.g. Watershed associations). The environmental sciences program also constitutes an excellent preparation for graduate programs in several areas relating to the environment.

Requirements

Degree Requirements

Minimum Credit Requirement: 128 credits

Minimum Residency Requirement: 32 credits must be taken at UNH

Minimum GPA: 2.0 required for conferral*

Core Curriculum Required: Discovery & Writing Program Requirements

Foreign Language Requirement: No

All Major, Option and Elective Requirements as indicated.
**Major GPA requirements as indicated.*

Major Requirements

Code	Title	Credits
Scope of the Major (Introduction - 3 Courses)		
NR 400	Professional Perspectives in Natural Resources	1
NR 403	Introduction to Environmental Science	4

or NR 662	Environmental Policy, Planning and Sustainability in New Zealand	
or NR 507	Introduction to our Energy System and Sustainable Energy	
or NR 784	Sustainable Living - Global Perspectives	
or MEFB 702	Sustainable Marine Fisheries	
Environmental Toolkit (Methods - 2 Courses)		
Select two courses from the following:		7-8
ESCI 534	Techniques in Environmental Sciences	
NR 658	Introduction to Geographic Information Systems	
or ESCI 777	GIS for Earth & Environmental Sciences	
NR 757	Remote Sensing of the Environment	

or ESCI 778	Remote Sensing Earth & Environmental Sciences	
NR 707	Environmental Modeling	
NR 713	Quantitative Ecology	
Soil and Watershed Systems (Advanced Topics – 5 courses)		
Advanced Soils:		
NR 761	Environmental Soil Chemistry	4
or NR 706	Soil Ecology	
Watersheds:		
NR 703	Watershed Water Quality Management	4
Ecosystems:		
NR 730	Terrestrial Ecosystems	4
or NR 751	Aquatic Ecosystems	
or NR 661	Restoration Ecology and Ecosystem Management in New Zealand	
or MEFB 508	Marine Ecosystem Research and Management	
Biogeochemistry:		
NR 744	Biogeochemistry	4
or ESCI 642	Biogeosciences in the Earth System	
or ESCI 749W	Ocean Biogeochemistry	
Advanced Soils and Watersheds:		
NR 743	Addressing Arctic Challenges [1]	4
or NR 731	Agriculture and Environmental Change: Challenges and Solutions	
or ESCI 654	Fate and Transport in the Environment	
or ESCI 705	Principles of Hydrology	
or ESCI 710	Groundwater Hydrology	
or ESCI 747	Aqueous Geochemistry	
or CEE 796	Special Topics	
or CEE 754	Engineering Hydrology	
Integration and Research (The Capstone Experience). [2]		
Capstone:		
NR 663	Applied Directed Research in New Zealand	4
or NR 795	Investigations	
or NR 799	Honors Senior Thesis	
OR approved research experience, or approved internship. Every student must complete a capstone experience senior year, or during the summer before senior year,if at least 90 credit hours have been completed.		
a. A Contract form provided by the Program must be completed and signed by the student, the advisor, the program coordinator, and the capstone mentor (faculty or off-campus) before the capstone experience,by the end of Junior Year.		
b. A signed Capstone Experience Evaluation form must be handed in to your advisor by the end of Senior year in order to graduate. Preparation for Capstone: Please discuss with your faculty advisor regularly what kind of capstone experience you would like to pursue. If you remain uncertain during the junior year, the Earth Science department offers a Capstone Preparation course, ESCI 796 Topics in the spring, but this is not required.		
Individualization Your Education (15-16 Credits)		
Program Advisors will help students select additional courses from across the campus that relate to the student's areas of intellectual interest, and assist with the completion of minors, dual majors, study abroad programs, research projects, internships, etc.		15-16
Total Credits		**106-110**

1. NR 706 Soil Ecology or NR 761 Environmental Soil Chemistry if not already taken.
2. Many students enroll in the EcoQuest program (a study abroad opportunity in New Zealand), which satisfies the policy requirement, and capstone requirement if taken senior year.

Student Learning Outcomes

Program Learning Outcomes

Key Learning Objectives:

- The primary Learning Outcome for the Environmental Science Program will be that students will master the content offered in the courses specified in the curriculum as assessed by performance on exams, labs and written assignments. This will include an understanding of the physical, chemical and biological processes central to the function of environmental systems, the mathematical concepts required to understand, explain and predict those processes, and the ability to determine the significance of results, both in terms of statistical probability and impact on the larger world.

The learning process leading to this mastery will require that students will have:

- Knowledge of how physical, chemical, and biological factors interact with human activities to shape the environment;
- Proficiency with environmental techniques including field, lab, GIS, or modeling;
- The ability to solve environmental problems;
- The ability to communicate orally or in writing about environmental dynamics.

Forestry

Forests are central to meeting today's challenges of climate change, biodiversity, and the sustainability of rural communities and economies. The forestry program at the University of New Hampshire prepares its graduates with the scientific and managerial knowledge and skills to address these environmental and resource management problems at local, regional, and global scales.

Forestry is the art and science of managing and understanding forests, their use, and their conservation. It embraces both natural and human dimensions of sustainability. Forestry education at UNH focuses on sustainable management of forests for biodiversity, productivity, and health, based on a multidisciplinary approach. The program's goal is to provide a sound professional preparation, a broad general education, and the flexibility to cultivate special abilities and interests. Students are encouraged to develop an area of concentration or to complete a minor in consultation with their academic adviser. The Bachelor of Science in Forestry degree (B.S.F.) at UNH is accredited by the Society of American Foresters (SAF). The SAF is recognized by the Council on Postsecondary Accreditation and the U.S. Department of Education as the accrediting body for forestry in the United States.

A UNH forestry degree can be the gateway to a rewarding profession. UNH forestry graduates manage forests to provide wildlife habitat and recreation opportunities, care for soil and water resources, protect and restore forest ecosystems, and assure a sustainable supply of forest products. They are employed by private industry, public agencies, public interest groups, education institutions, research organizations, and consulting firms. Many students enter graduate school for advanced study in forest biology or management while others have found exciting international opportunities.

- Forestry Minor (p. 423)

Faculty

Forestry Program Faculty

Forestry Major (B.S.F.)

https://www.unh.edu/program/bachelor-science-forestry/forestry

Description

Forestry is an interdisciplinary profession, embracing the sustainable management of forest ecosystems for productivity, biodiversity, and health. The Forestry program's goals are to provide a solid professional preparation with a strong field component, founded in a broad general education, and with the flexibility to allow students to pursue special abilities and interests. The Bachelor of Science in Forestry (B.S.F.) degree is accredited by the Society of American Foresters.

Forestry graduates help manage and conserve public and private forests, addressing major environmental challenges including climate change, biodiversity protection, and sustainable resource management. They use science, planning, and geospatial technology to protect and restore forest ecosystems, ensure a sustainable forest product industry, provide wildlife habitat and recreational opportunities, and conserve soils and watersheds.

Program Mission, Goals and Objectives

The **mission** of UNH's Department of Natural Resources and the Environment, of which the Forestry Program is an integral part, is to serve as an educational center for the scholarly study of environmental and social sciences, and their application to the policy and management of natural resources from local to global scales. This is accomplished through education, research and outreach. This mission reflects UNH's larger mission to provide comprehensive, high-quality undergraduate programs and graduate programs of distinction, including a strong commitment to serving the public good and promoting the excitement of discovery among faculty and students.

The **goal** of the Forestry Program is to train natural resource professionals to sustainably manage forested landscapes for diverse objectives and in ways that balance changing social, cultural, economic, and environmental interests and priorities.

Our **educational objectives** are to:

1. Develop a strong knowledge base about the ecology and dynamics of forest ecosystems, including interactions between trees, wildlife, insects, soils, water, humans, and other ecosystem components.
2. Understand how different policies and management decisions affect forest dynamics over short to long time scales, and on different spatial scales.
3. Cultivate the necessary skills to manage forests for diverse objectives and to assess, respect, and balance the interests of different groups to achieve societal benefits.
4. Be able to critically evaluate scientific information and integrate this with professional experience and changing societal values to support adaptive management of forest resources.

All forestry majors must satisfy the B.S.F. requirements and all Discovery Program requirements. Students must satisfy the Inquiry requirement of the Discovery Program by completing an Inquiry or Inquiry-attribute course. Seniors must also satisfy the capstone experience requirement of the Discovery Program. The capstone explores areas of interest based on the integration of prior learning. The capstone requirement may be satisfied through a course (NR 745 Forest Management), created work or product, or some form of experiential learning (e.g., honors thesis, mentored research project, and other special student activity). Departments are responsible for certifying that graduating seniors have met the capstone requirement for their majors.

Student Learning Outcomes

Program Learning Outcomes

Students will be able to:

- Identify the major species of plants and wildlife and their distribution and habitat requirements.
- Understand the ecological concepts related to the structure, composition, and dynamics of forest ecosystems, including succession, competition, productivity, nutrient cycling, stand development, and wildlife populations.
- Understand soil properties, hydrology, water resources, and watershed functions.
- Understand how forest health and dynamics are impacted by different human and natural disturbances, including pests and diseases, climate change, pollutants, extreme climate events, management interventions.
- Design and conduct forest inventories using appropriate sampling methods and units of measurement.
- Analyze and interpret forest inventory data, and to use the information to project future forest stand development processes and tree conditions.
- Use a variety of spatial analysis tools to assess landscape scale characteristics and produce maps of forest resources distribution.
- Explain forest development trajectories in both written and oral form and apply appropriate computer models and assessment techniques.
- Understand forest policy and the processes that influence policy development.
- Understand and apply economic principles to assessing the financial opportunities and risks of forestry operations.
- Understand how federal, state, and local laws and regulations govern the practice of forestry.
- Understand the administration, ownership, and organization of forest management enterprises.
- Integrate and effectively communicate the technical, financial, human resources, and legal aspects of administering public and private enterprises.
- Develop management plans that effectively integrate and balance multiple landowner (or stakeholder/societal) objectives and the ecological conditions and constraints of the biophysical system.
- Analyze the economic, environmental and social consequences of forest resource management strategies and decisions, and to evaluate their tradeoffs.
- Apply appropriate decision-making tools and techniques to evaluate alternative forest management practices and plans.
- Demonstrate effective problem-solving and teamwork skills, professional and ethical conduct, and respect for diverse values and interests.
- Describe and explain to different audiences in both written and oral form alternative options for managing forest resources to achieve multiple objectives.

Forestry Minor

https://www.unh.edu/program/minor/forestry

Description

The minor in Forestry serves as a concentrated study, beyond a student's primary major, that allows students to explore their interest in forest ecology and management, and to build skills that can help launch a career in forest conservation.

Requirements

Academic policies related to Minors.

The minor consists of completing five courses (20 credits).

Genetics (GEN)

Genetics and genomics are central to all aspects of the life sciences. Genetics is the branch of biology that deals with heredity, variation of genes among individuals in a population, and the expression and regulation of genes. Genomics focuses on determining the structure and function of genomes and includes the mapping of genes, high-throughput DNA sequencing, and investigating the molecular mechanisms by which genetic and environmental factors contribute to phenotypes. Every day, scientists are using the tools of genetics and genomics to make exciting discoveries in fields such as molecular medicine, cancer research, biodiversity, and sustainability.

Within the Genetics (GEN) major, students may choose the Genomics option (Genetics:Genomics). Genetics provides a solid foundation in biology, biochemistry, microbiology, chemistry, physics, math, and cell biology. Students also take advanced courses in molecular genetics, bioinformatics, molecular evolution, and genomics. Genetics students receive additional training in wet lab techniques. The Genetics:Genomics option provides additional training in genomics, evolutionary genetics, and computer programming for bioinformatics.

There are many opportunities for interested students to gain research experience through formal or informal research projects in faculty members' laboratories. The genetics faculty conduct research on diverse topics such as evolution, gene structure and function, host-microbe interactions, genome sequencing and analysis, heredity, and diversity in populations. Faculty research areas encompass microbial, plant, and animal genetics. Genetics faculty are committed to mentoring undergraduate students in independent research experiences in their laboratories, which provide students with exposure to and training in cutting-edge research technologies.

Students with degrees in genetics or genomics are well prepared to apply to graduate schools (e.g., for training as genetic counselors or researchers) or professional schools, or to pursue careers in biotechnology companies, forensics labs, hospitals, university research laboratories, or government agencies. Two additional courses are needed for application to professional programs (e.g., medical or dental school). Graduates may also be employed in fields such as management, sales, marketing, regulatory affairs, technical writing, or science journalism. With supplementary courses in education, graduates with a bachelor's degree in genetics or genomics can teach at the elementary, middle, or high school level.

Pre-Professional Health Programs

Students interested in postgraduate careers in the health care professions should visit the Pre-Professional Health Programs Advising website. Requirements for specific types of professional schools (e.g., medical, dental, physician assistant, pharmacy, etc.) are available from Pre-Health Advising. Students interested in veterinary medicine should consult the Pre-Veterinary Medicine Program. Many of the prerequisite courses required by professional schools are also requirements of the genetics major, but students should consult with their faculty adviser to create a plan of study that best prepares them for pursuing a career in one of these health professions.

Faculty

Genetics Program Faculty

Genetics Major (B.S.)

https://www.unh.edu/program/bachelor-science/genetics

Description

The **Genetics program (GEN)** explores the world of genetics and genomics in plants, animals, and microbes. Genetics majors are interested in understanding how DNA, along with the environment, specifies simple traits like hair color to more complex traits like high blood pressure, diabetes, and mental illness. The Genetics faculty strongly value hands-on learning and many GEN students conduct undergraduate research under the supervision of our faculty. GEN graduates are prepared for successful careers in the biotechnology fields or for entry into a variety of graduate school, genetic counseling, or health professional programs.

The Genetics program offers course work and laboratories in:

- molecular genetics
- bioinformatics
- human genetics
- comparative genomics
- plant genetics
- microbial genetics and evolution
- population and evolutionary genetics

Students in the Genetics program may participate in a variety of experiential learning activities including:

- independent research experiences in laboratories of UNH faculty
- work at the Hubbard Center for Genome Studies or Research Computing Center
- internships at biotechnology companies in the Greater Boston area
- internships with genetics counselors at area medical centers

GEN graduates have been successful in attaining careers as:

- research scientists and laboratory technicians in
  - biotechnology and pharmaceutical companies
  - academic research programs
  - forensics

- biomedical research centers & medical schools
- government agencies
- genetic counselors
- educators
- technical support associates

GEN graduates are prepared for further education in:

- professional health programs
  - genetic counseling
  - medical school
  - dental school
  - allied health programs (physician assistant, pharmacist, nursing or pathologist's assistant programs)
  - veterinary school
- graduate programs such as
  - Genetics and Genomics
  - Integrative Biology
  - Neurogenomics
  - Molecular Biology
  - Microbiology
  - Environmental Sciences
  - Public Health
  - Computer Science

Requirements

Degree Requirements

Minimum Credit Requirement: 128 credits

Minimum Residency Requirement: 32 credits must be taken at UNH

Minimum GPA: 2.0 required for conferral*

Core Curriculum Required: Discovery & Writing Program Requirements

Foreign Language Requirement: No

All Major, Option and Elective Requirements as indicated.
**Major GPA requirements as indicated.*

Major Requirements

Students majoring in genetics take seven Foundation courses, six Bioscience Core courses, four Genetics Core courses and four Major Elective courses. One capstone experience, supervised and approved within the major, is required of all seniors. In addition, all other University requirements must be completed, including those for the University Discovery Program and Writing Program.

A minimum grade of C- minus or better is required in Statistics and all Bioscience Core, Genetics Core, and Major Elective courses.

Required Courses

Code	Title	Credits
Foundation Courses		
CHEM 403	General Chemistry I [1]	4
CHEM 404	General Chemistry II	4
CHEM 545 & CHEM 546	Organic Chemistry and Organic Chemistry Laboratory [2]	5
MATH 424B	Calculus for Life Sciences [3]	4
BIOL 528	Applied Biostatistics I	4
PHYS 401	Introduction to Physics I	4
PHYS 402	Introduction to Physics II	4

1 Fulfills Physical Science Discovery requirement

2 Students applying to health profession schools need a full year of Organic Chemistry, a full year of Introductory Biology, as well as a full year of English. CHEM 651/CHEM 653 and CHEM 652/CHEM 654 should be taken in place of CHEM 545/CHEM 546; ENGL 502 or ENGL 503 in suggested in addition to ENGL 401. See Pre-Professional Health Program Advising.

3 Fulfills Quantitative Reasoning Discovery requirement

Code	Title	Credits
Bioscience Core Courses		
BIOL 411	Introductory Biology: Molecular and Cellular [4]	4
BIOL 412	Introductory Biology: Evolution, Biodiversity and Ecology	4
GEN 604	Principles of Genetics	4
BMS 503 & BMS 504	General Microbiology and General Microbiology Laboratory	5
BMCB 605	Principles of Cell Biology	4
BMCB 658 & BMCB 659	General Biochemistry and General Biochemistry Lab	5

4 Fulfills Biological Science Discovery requirement, Discovery Inquiry requirement, and Discovery laboratory requirement

Code	Title	Credits
Genetics Core Courses		
GEN 606	Genetics Lab	4
GEN 711	Genomics and Bioinformatics	4
GEN 704	Microbial Genetics and Genomics [5]	5
or GEN 771	Molecular Genetics	
MCBS 401	Professional Perspectives in Molecular, Cellular, and Biomedical Sciences	1

Electives

Four (4) unique major electives are required from the below categories.

Code	Title	Credits
Laboratory-Based Electives		
Select one from the following:		
GEN 704	Microbial Genetics and Genomics [5]	5
GEN 705 & GEN 725	Population Genetics and Population Genetics Lab [5]	5
GEN 717	Molecular Microbiology	5
GEN 795	Investigations in Genetics (4-credit minimum) [6]	1-4
GEN 795W	Investigations in Genetics (4-credit minimum) [6]	1-4
GEN 799	Senior Thesis (4-credit minimum) [6]	1-4
GEN 799H	Honors Senior Thesis (4-credit minimum) [6]	1-4
BMCB 753	Cell Culture	5
BMCB 754	Molecular Biology Research Methods	5
INCO 790	Advanced Research Experience (4-credit minimum) [6]	1-4

Code	Title	Credits
Population/Evolutionary Genetics Electives		
Select one from the following:		
GEN 705 & GEN 725	Population Genetics and Population Genetics Lab [5]	5
GEN 715	Molecular Evolution	4
GEN 772	Evolutionary Genetics of Plants	4
GEN 713	Microbial Ecology and Evolution	4

5 Where listed, this course may fulfill another category (Genetics Core, Laboratory-Based Major Elective, or Population/Evolutionary Genetics Major Elective), IF students take one additional Bioscience Major Elective.

[6] Must be a research project with a genetics focus.

Code	Title	Credits
Bioscience Electives		
Select two from the following:		
GEN 704	Microbial Genetics and Genomics [5]	5
GEN 705 & GEN 725	Population Genetics and Population Genetics Lab [5]	5
GEN 706	Human Genetics	4
GEN 712	Programming for Bioinformatics	5
GEN 713	Microbial Ecology and Evolution	4
GEN 715	Molecular Evolution	4
GEN 717	Molecular Microbiology	5
GEN 721	Comparative Genomics	4
GEN 771	Molecular Genetics	4
GEN 772	Evolutionary Genetics of Plants	4
GEN 774	Techniques in Plant Genetic Engineering and Biotechnology	4
GEN 795	Investigations in Genetics (4-credit minimum) [6]	1-4
GEN 795W	Investigations in Genetics (4-credit minimum) [6]	1-4
GEN 799	Senior Thesis (4-credit minimum) [6]	1-4
GEN 799H	Honors Senior Thesis (4-credit minimum) [6]	1-4
ANSC 602	Animal Rights and Societal Issues	4
ANSC 612	Genetics of Animals	4
ANSC 701	Physiology of Reproduction	4
BIOL 704	Plant-Microbe Interactions	3
BIOL 706	Data Science with R for the Life Sciences	4
BIOL 711	Experimental Design & Analysis	4
BMCB 750		3
BMCB 753	Cell Culture	5
BMCB 754	Molecular Biology Research Methods	5
BMCB 760	Pharmacology	4
BMCB 763	Biochemistry of Cancer	4
BMCB 794	Protein Structure and Function	4
BMS 650	Molecular Diagnostics	4
BMS 702	Endocrinology	4
BMS 705	Immunology	3
BMS 706	Virology	3
BMS 718	Mammalian Physiology	4
BMS 719	Host-Microbe Interactions	4
BMS 735	Molecular and Cellular Parasitology	4
BMS 740	Human Microbiome	4
INCO 790	Advanced Research Experience (4-credit minimum)	1-4
NR 706	Soil Ecology	4
ZOOL 625 & ZOOL 626W	Principles of Animal Physiology and Animal Physiology Laboratory	5
ZOOL 690	Evolution	4
ZOOL 736	Genes and Behavior	4
ZOOL 777W	Neuroethology	4

Capstone

The capstone explores areas of interest based on the integration of prior learning. The capstone requirement may be satisfied through a course, created work or product, or some form of experiential learning (e.g., honors thesis, mentored research project, or other special student activity). Students may take more than one capstone course. Capstone completion is never displayed on Degree Works; your advisor will certify capstone completion at the time of graduation. Students must have 90 credits or more when completing their capstone requirement. Contact your advisor for questions about capstones.

Code	Title	Credits
Approved Capstone Courses		
GEN 704	Microbial Genetics and Genomics	5
GEN 705 & GEN 725	Population Genetics and Population Genetics Lab	5
GEN 715	Molecular Evolution	4
GEN 717	Molecular Microbiology	5
GEN 790	Undergraduate Teaching Experience (4 credit minimum; classroom presentation required)	1-4
GEN 795	Investigations in Genetics (4-credit minimum) [6]	1-4
GEN 795W	Investigations in Genetics (4-credit minimum) [6]	1-4
GEN 799	Senior Thesis (4-credit minimum) [6]	1-4
GEN 799H	Honors Senior Thesis (4-credit minimum) [6]	1-4
INCO 790	Advanced Research Experience (4-credit minimum) [6]	1-4

[6] Must be a research project with a genetics focus.

Student Learning Outcomes

Program Learning Outcomes

Core Knowledge in Genetics

- Students will be able to describe DNA, its role, structure, how DNA is packaged in the chromosomes in terms of histones, nucleosomes, and chromatin, including its discovery, how has modern genomics influenced, and differences between prokaryotes and eukaryotes.
- Students will be able to describe the central dogma of molecular biology, including specific details related to replication, transcription, and translation.
- Students will be able to define and describe evolution, how drift, gene flow, mutation, natural selection, recombination, within a population genetic framework, may result in evolution.
- Students will be able to describe the differences between mitosis and meiosis and how errors in these processes may effect phenotype, cause disease, etc.
- Students will be able to evaluate how genes and the environment can interact to produce a phenotype, including allelic differences and changes in gene regulation.
- Students will be able to describe the concept of deep time, and how comparing genes and genomes allows us to understand evolution and relatedness between species.
- Students will be able to use pedigrees to determine mode of inheritance of a trait.
- Students will be able to describe ethical issues related to modern genomics and implications for health care and insurance, interpersonal relationships, family planning, etc.
- Students will be able to describe high-throughput sequencing, and how it has changed the practice of modern genetics.

Quantitative Literacy, Inquiry & Analysis

- Students will be able to apply the scientific method to examine experimental evidence and draw informed conclusions.
- Students will be able to use graphs to represent scientific data.
- Students will be able to apply statistical methods to interpret scientific data.

Critical Thinking & Problem Solving

- Students will be able to use data to troubleshoot an unexpected outcome .
- Students will be able to apply core knowledge to critically interpret scientific data.

Written Communication

- Students will demonstrate written skills to communicate scientific knowledge and experimental data.

Oral Communication

- Students will be able to demonstrate oral presentation skills to communicate scientific knowledge and experimental data.

Genetics Major: Genomics Option (B.S.)

https://www.unh.edu/program/bachelor-science/genetics-genomics

Description

The **Genetics:Genomics program (GEN)** explores the world of genetics and genomics in plants, animals, and microbes. Genomics is the study of genomes and includes topics like DNA structure and function, high-throughput sequencing, and computational comparison of the genomes of different organisms. The Genetics faculty strongly value hands-on learning and many GEN students conduct undergraduate research under the supervision of our faculty. GEN graduates are prepared for successful careers in biotechnology fields or for entry into a variety of graduate school or health professional programs.

The Genetics program offers course work and laboratories in:

- molecular genetics
- bioinformatics
- human genetics
- comparative genomics
- plant genetics
- microbial genetics
- population and evolutionary genetics

Students in the Genetics program may participate in a variety of experiential learning activities including:

- independent research experiences in laboratories of UNH faculty
- work at the Hubbard Center for Genome Studies or Research Computing Center
- internships at biotechnology companies in the Greater Boston area
- internships with genetics counselors at area medical centers

GEN graduates have been successful in attaining careers as:

- research scientists and laboratory technicians in
  - biotechnology and pharmaceutical companies
  - academic research programs
  - forensics
  - biomedical research centers & medical schools
  - government agencies
- genetic counselors
- educators
- technical support associates

GEN graduates are prepared for further education in:

- professional health programs
  - genetic counseling
  - medical school
  - dental school
  - allied health programs (physician assistant, pharmacist, nursing or pathologist's assistant)
  - veterinary school
- graduate programs such as
  - Genetics and Genomics
  - Integrative Biology
  - Neurogenomics
  - Molecular Biology
  - Microbiology
  - Environmental Sciences
  - Public Health
  - Computer Science

Student Learning Outcomes

Program Learning Outcomes

Core Knowledge in Genetics

- Students will be able to describe DNA, its role, structure, how DNA is packaged in the chromosomes in terms of histones, nucleosomes, and chromatin, including its discovery, how has modern genomics influenced, and differences between prokaryotes and eukaryotes.
- Students will be able to describe the central dogma of molecular biology, including specific details related to replication, transcription, and translation.
- Students will be able to define and describe evolution, how drift, gene flow, mutation, natural selection, recombination, within a population genetic framework, may result in evolution.
- Students will be able to describe the differences between mitosis and meiosis and how errors in these processes may effect phenotype, cause disease, etc.
- Students will be able to evaluate how genes and the environment can interact to produce a phenotype, including allelic differences and changes in gene regulation.
- Students will be able to describe the concept of deep time, and how comparing genes and genomes allows us to understand evolution and relatedness between species.
- Students will be able to use pedigrees to determine mode of inheritance of a trait.
- Students will be able to describe ethical issues related to modern genomics and implications for health care and insurance, interpersonal relationships, family planning, etc.
- Students will be able to describe high-throughput sequencing, and how it has changed the practice of modern genetics.

Quantitative Literacy, Inquiry & Analysis

- Students will be able to apply the scientific method to examine experimental evidence and draw informed conclusions.
- Students will be able to use graphs to represent scientific data.
- Students will be able to apply statistical methods to interpret scientific data.

Critical Thinking & Problem Solving

- Students will be able to use data to troubleshoot an unexpected outcome .
- Students will be able to apply core knowledge to critically interpret scientific data.

Written Communication

- Students will demonstrate written skills to communicate scientific knowledge and experimental data.

Oral Communication

- Students will be able to demonstrate oral presentation skills to communicate scientific knowledge and experimental data.

Genetics Minor

https://www.unh.edu/program/minor/genetics

Description

Students in other majors who wish to develop a focus in the area of genetics and genomics can complement their major academic program with a minor in genetics.

Requirements

Academic policies related to Minors.

The minor consists of a minimum of 20 credits, completed with a grade of C-minus or better.

Code	Title	Credits
Required		
GEN 604	Principles of Genetics	4
Electives		
Transmission/Population Genetics Courses		
Select one course from the following:		
GEN 705	Population Genetics	3
GEN 725	Population Genetics Lab	2
GEN 706	Human Genetics	4
GEN 713	Microbial Ecology and Evolution	4
GEN 715	Molecular Evolution	4
GEN 772	Evolutionary Genetics of Plants	4
ANSC 612	Genetics of Animals	4
NR 664	Conservation Genetics and Applied Evolution	4
Molecular Genetics Courses		
Select one course from the following:		
GEN 704	Microbial Genetics and Genomics	5
GEN 711	Genomics and Bioinformatics	4
GEN 712	Programming for Bioinformatics	5
GEN 717	Molecular Microbiology	5
GEN 721	Comparative Genomics	4
GEN 771	Molecular Genetics	4
BMCB 754	Molecular Biology Research Methods	5
Additional Courses		
Select two additional elective courses from the above lists.		

A maximum of 4 credits of GEN 795 Investigations in Genetics may be used to fulfill minor requirements.

GeoSpatial Analysis

Programs

- Geospatial Analysis Minor (p. 431)

Geospatial Analysis Minor

https://www.unh.edu/program/minor/geospatial-analysis

Description

The geospatial analysis minor is designed for students who wish to gain additional skills in geographic information systems (GIS), remote sensing, and spatial analysis as they relate to their chosen field of study. Skills and tools gained in this minor include applied statistics, interpreting aerial photography, analyzing spatial data using GIS, and completing projects with interdisciplinary teams.

Requirements

Academic policies related to Minors.

The minor consists of completing five courses (20 credits).

Code	Title	Credits
Required Courses		
Basic Statistics		
Select one course from the following:		4
BIOL 528	Applied Biostatistics I	
PSYC 402	Statistics in Psychology	
SOC 402	Statistics	
Other basic statistics course as approved by minor advisor		
Introductory/Field/or Overview		
Select one course from the following:		4
CEE 404	Surveying and Mapping	
NR 415	Natural Resources Field Methods	
NR 615	Wildlife Habitats	
NR 642	Introduction to Biogeography	
GEOG 591	Making Maps: GIS Fundamentals	
NR 757	Remote Sensing of the Environment	
ANTH 674	Archaeological Survey and Mapping in Belize	
NR 795	Investigations (Field Methods in GIS)	
GIS		
Select one course from the following:		4
NR 658	Introduction to Geographic Information Systems	
NR 760	Geographic Information Systems in Natural Resources	
CEE 796	Special Topics (GIS in Water Resources)	
ESCI 777	GIS for Earth & Environmental Sciences	
Remote Sensing		
Select one course from the following:		4
NR 757	Remote Sensing of the Environment	
NR 759	Digital Image Processing for Natural Resources	
ESCI 778	Remote Sensing Earth & Environmental Sciences	
Advanced Analysis		
Select one course from the following:		4
NR 707	Environmental Modeling	
NR 713	Quantitative Ecology	
NR 740	Inventory and Monitoring of Ecological Communities	
NR 749	Forest Inventory and Modeling	
NR 782	Forest Health in a Changing World	
Total Credits		**20**

Green Real Estate

Programs

- Green Real Estate Minor (p. 431)

Green Real Estate Minor

https://www.unh.edu/program/minor/green-real-estate

Description

The green real estate minor will include the basic fundamentals of real estate (a class which is accredited by the New Hampshire Real Estate Commission). Students will learn about local and regional planning, environmental economics and market forces, and environmental issues as they pertain to real estate. In addition, students may choose complementary classes, such as architecture, surveying, land design, soils, wetland delineation, law, etc.

Requirements

Academic policies related to Minors.

The minor consists of completing five courses (18-20 credits).

A minimum grade of C- or better is required in each course, and maintaining a 2.0 average GPA or better.

Code	Title	Credits
Required Courses		
CEP 508	Applied Community Development	4
CEP 672	Fundamentals of Real Estate	4
CEP 673	Green Real Estate	4
Electives		
Select a minimum of 8 credits from the following:		8
CEE 404	Surveying and Mapping	
CEE 700	Building Information Modeling	
CEE 703	Site Design and Project Development	
CEE 705		
CEE 706	Environmental Life Cycle Assessment	
CEE 719	Green Building Design	
CHBE 410	Energy and Environment	
NR 435	Contemporary Conservation Issues and Environmental Awareness	
NR 437	Principles of Sustainability	
NR 507	Introduction to our Energy System and Sustainable Energy	
NR 607		
NR 608	Economics of Sustainability	
NR 753 & NR 754	Sustainability as Abundance and Sense of Place	
NR 756W		
NR 785	Systems Thinking for Sustainable Solutions	
NR 787	Advanced Topics in Sustainable Energy	
Note: The following classes are restricted to Paul College majors only		
FIN 701	Financial Policy	
FIN 702	Investments Analysis	
FIN 608	Real Estate Finance	
MGT 720	Topics in Management II	
Total Credits		**20**

Marine, Estuarine, and Freshwater Biology (MEFB)

The marine, estuarine, and freshwater biology (MEFB) B.S. program is designed to provide a broad background for undergraduates interested in marine, estuarine, and freshwater biology, aquaculture, and fisheries. The program integrates theoretical and practical (hands-on laboratory and field) courses. Students are encouraged to become involved in one or more of the numerous undergraduate research opportunities available in the marine, estuarine, and freshwater sciences.

UNH is located on a seacoast that provides an extraordinary diversity of marine and estuarine habitats. It is also only a short distance from mountain streams, rivers, marshes, bogs, ponds, and lakes. All of the habitats provide outstanding resources for field courses and research. The marine, estuarine, and freshwater faculty are spread across all four departments of the College of Life Sciences and Agriculture. UNH is a Sea Grant university and has an international reputation for teaching and research in aquatic sciences. UNH has aquaculture facilities, and coastal and estuarine research laboratories. In collaboration with Cornell, UNH jointly administers the summer undergraduate programs at the Shoals Marine Laboratory on Appledore Island, seven miles off the coast of New Hampshire and Maine.

- Marine, Estuarine and Freshwater Biology Major (B.S.) (p. 432)
- Marine Biology Minor (p. 435)

Faculty

MEFB Program Faculty

Marine, Estuarine and Freshwater Biology Major (B.S.)

https://www.unh.edu/program/bachelor-science/marine-estuarine-freshwater-biology

Description

The major in Marine, Estuarine, and Freshwater Biology is intended to give students interested in the fields of marine and freshwater biology the background and direct hands-on experience needed to pursue productive careers, including potential advanced study. This strategically cross-disciplinary major builds on a broad set of science courses in high-impact areas of study for today's world, represented by a core curriculum in math, chemistry, physics, and biology. The core background is strengthened by a series of required and elective courses in a diverse range of aquatic sciences spanning watersheds to oceans, providing opportunities for study from organismal to ecosystem scales. Designed to provide a solid foundation of knowledge in freshwater, estuarine, and marine biology, the MEFB Major allows flexibility and encourages students to focus on particular areas of interest from molecular biology to ecosystem and policy studies. Students will have the opportunity to specialize in areas of their own interest, such as aquaculture and fisheries, animal behavior, ecological restoration, or management. While MEFB students must complete rigorous course requirements, our students are encouraged to tailor their elective courses within and across departments and colleges as needed to build their own, unique cross-disciplinary path.

The University of New Hampshire is uniquely located for the study of aquatic organisms and their habitats. We are centered between the Great Bay Estuary and the Gulf of Maine, with easy access to diverse marine environments as well as the freshwater habitats of New Hampshire's Lakes Region and the White Mountain National Forest. We boast three Marine Laboratories that provide exceptional opportunities for our student's research and educational needs, including Jackson Estuarine Laboratory (JEL), the Coastal Marine Lab (CML; part of the larger Judd Gregg Marine Research Center), and the Shoals Marine Laboratory (SML), as well as strong affiliations with the Great Bay National Estuarine Research Reserve. While JEL is located on Great Bay in Durham, CML is in nearby New Castle at the Seacoast, and SML is located seven miles off the coast. SML provides summer undergraduate programing with field-based marine courses that fulfill major electives, as well as internships and research opportunities for advanced study. In addition, UNH's campus maintains two fish aquaculture facilities, a world-class genomics laboratory, and the State Veterinary Diagnostic Laboratory, which provide hands-on opportunities for undergraduates. There is also an active diving program with courses at both beginner and advanced levels. A major strength of the MEFB program is the hands-on approach to learning combined with an emphasis on involving undergraduate students in mentored research opportunities.

Off Campus Coursework and Study Abroad Opportunities

It is strongly recommended that students consider participating in a summer, semester, or year-long study abroad program. UNH's Shoals Marine Laboratory, in conjunction with Cornell University, offers a host of marine biology-related college level courses that meet many degree requirements of the MEFB major over the summer on our island campus in the Isles of Shoals. SML offers both Merit and Need-based Scholarships, multi-course discounts, as well as competitive Research Internships offering summer stipends. UNH Global is the definitive resource for Study Abroad opportunities for undergraduates. UNH Global can provide information on programs of study, while students' academic advisors can assist in course selection options that provide equivalencies to requirements in MEFB so progress toward degree is not compromised. In addition, Ecoquest, run by the Department of Natural Resources, offers summer and semester programs of environmentally oriented courses in New Zealand. These are just some of the many opportunities available for MEFB students and we encourage you to explore more.

Pre-health Professional Program

MEFB majors who wish to pursue postgraduate degrees in the health care professions should visit the premed advising website.

Requirements

Degree Requirements

Minimum Credit Requirement: 128 credits

Minimum Residency Requirement: 32 credits must be taken at UNH

Minimum GPA: 2.0 required for conferral*

Core Curriculum Required: Discovery & Writing Program Requirements

Foreign Language Requirement: No

All Major, Option and Elective Requirements as indicated.
**Major GPA requirements as indicated.*

Major Requirements

A minimum grade of C- is required in all biological science courses that are counted toward the requirements for a degree in MEFB. Students who expect to compete successfully for post-baccalaureate programs should attain a cumulative GPA of 3.0 or higher by the end of the sophomore year and maintain it at that level.

Code	Title	Credits
MEFB Core		
BIOL 412	Introductory Biology: Evolution, Biodiversity and Ecology	4
BIOL 411	Introductory Biology: Molecular and Cellular	4
MEFB 401	Marine Estuarine and Freshwater Biology: Freshmen Seminar	1

PHYS 401	Introduction to Physics I	4
PHYS 402	Introduction to Physics II	4
Choose one Plant Survey course:		
MEFB 625	Introduction to Marine Botany	
MEFB 747	Aquatic Plants in Restoration/Management (C)	
Choose one Systems course:		3-4
MEFB 717	Lake Ecology	
MEFB 755	Biological Oceanography (C)	
ZOOL 708	Stream Ecology (C)	
Choose one Physiology/Function course:		4-5
ZOOL 625 & ZOOL 626W	Principles of Animal Physiology and Animal Physiology Laboratory	
MEFB 773	Physiology of Fishes	
Choose one Animal Survey course:		3-4
MEFB 628	Marine Invertebrate Evolution and Ecology	
MEFB 675	Marine Mammal Biology and Conservation	
ZOOL 542	Ornithology	
ZOOL 566	Herpetology	
ZOOL 710	Sharks and Bony Fishes	
Capstone:		
BIOL 780	Capstone Companion Course	
MEFB Electives [1]		
Select three courses from the following:		
ANSC 701	Physiology of Reproduction	
BIOL 566	Systematic Botany	
BIOL 633	Data Analysis for Life Science	
BIOL 706	Data Science with R for the Life Sciences	
BIOL 720	Plant-Animal Interactions (C)	
BMCB 605	Principles of Cell Biology	
BMS 503 & BMS 504	General Microbiology and General Microbiology Laboratory	
ESCI 501	Introduction to Oceanography	
ESCI 752	Chemical Oceanography	
GEN 713	Microbial Ecology and Evolution	
MARI 705	Introduction to Marine Policy: Understanding US Ocean, Coastal and Great Lakes Policy	
MARI 795W	Crafting Ocean Stories: Research & Writing for the Public in Marine Science & Ocean Engineering	
MEFB 505	Introduction to Applied Science Communication (SML)	
MEFB 506	Marine Parasitology and Disease (SML)	
MEFB 508	Marine Ecosystem Research and Management (SML)	
MEFB 510	Field Ornithology (SML)	
MEFB 530	Evolution and Marine Diversity (SML)	
MEFB 535	Marine Mammal Biology (SML)	
MEFB 545	Field Bioacoustics and Soundscape Ecology (SML)	
MEFB 590	Coastlines in Crisis	
MEFB 625	Introduction to Marine Botany	
MEFB 628	Marine Invertebrate Evolution and Ecology	
MEFB 674	Ecology and Marine Environment (SML)	
MEFB 675	Marine Mammal Biology and Conservation	
MEFB 702	Sustainable Marine Fisheries (SML)	
MEFB 714	Field Animal Behavior (SML)	
MEFB 717	Lake Ecology	
MEFB 741	Sharks: Biology and Conservation (SML)	
MEFB 747	Aquatic Plants in Restoration/Management (C)	
MEFB 751	Research in Biology at the Shoals Marine Lab (SML)	
MEFB 754	Anatomy and Function of Marine Vertebrates (SML)	
MEFB 755	Biological Oceanography (C)	
MEFB 772	Fisheries Biology: Conservation and Management	
MEFB 773	Physiology of Fishes	
NR 504	Freshwater Resources	
NR 703	Watershed Water Quality Management	
NR 712	Mammalogy	
NR 744	Biogeochemistry	
ZOOL 518	Comparative Morphology and Biology of Vertebrates	
ZOOL 542	Ornithology	
ZOOL 566	Herpetology	
ZOOL 610	Principles of Aquaculture	
ZOOL 625 & ZOOL 626W	Principles of Animal Physiology and Animal Physiology Laboratory	
ZOOL 690	Evolution	
ZOOL 710	Sharks and Bony Fishes	
ZOOL 708	Stream Ecology (C)	
ZOOL 733W	Behavioral Ecology (C)	
ZOOL 736	Genes and Behavior (C)	
ZOOL 740	Acoustic Ecology (C)	
ZOOL 777W	Neuroethology (C)	
Research and Special Projects [2]		
Select from the following Courses:		
BIOL 795	Independent Investigations in Biology	
BMS 795	Investigations in Biomedical Science	
BIOL 799H	Honors Senior Thesis (C)	
MEFB 403	Investigative Marine Biology Laboratory (SML)	
MEFB 730	Underwater Research (SML)	
MEFB 751	Research in Biology at the Shoals Marine Lab (SML)	
MEFB 795	Independent Investigations in Marine, Estuarine, and Freshwater Biology	
TECH 797	Undergraduate Ocean Research Project (C) [3]	
MEFB 799H	Honors Senior Thesis in Marine, Estuarine, and Freshwater Biology (C)	

1 A single course cannot be used for both a core requirement and an elective (e.g., ZOOL 542 cannot be used to fulfill the animal survey requirement and as an elective).

2 Primary focus of the project must be Marine, Estuarine and/or Freshwater. A 600, 695, 795, or 799 experience may substitute for one elective with academic advisor approval, but only if taken for at least four credits. These four credits may be spread over multiple semesters if they are consecutive and with the same faculty mentor.

[3] This class requires enrollment in both fall and spring sections, 2 credits/semester for a total of 4 credits.

Capstone Experience

As part of the University of New Hampshire's Discovery Program requirements, all students must complete a capstone experience during their senior year (after earning at least 90 credits). The capstone experience for students majoring in MEFB consists of BOTH (1) an approved individual experience AND (2) the successful completion of the BIOL 780 Capstone Companion Course. Students will not be approved for graduation until capstone certification has been granted.

1) The individual experience

The individual experience may be satisfied through various forms of experiential learning (e.g., Honors thesis, mentored research project, internship) or a course denoted with a "(C)" in the courses listed above. The individual experience must fulfill at least one of the University's capstone criteria:

- synthesizes and applies disciplinary knowledge and skills
- fosters reflection on undergraduate learning and experience
- demonstrates emerging professional competencies
- applies, analyzes, and/or interprets research, data, or artistic expression
- explores areas of interest based on the integration of the prior learning

Before beginning *any* capstone individual experience, students must submit a completed capstone approval form to their Program Coordinator.
Students can obtain this form on the Department's Capstone page or from their Program Coordinator. Here they will describe their proposed individual experience and how it fulfills at least one of the University's capstone criteria listed above. If the student is selecting a "C" course for their individual experience, they should obtain the course syllabus from the instructor for information about the course's content and learning objectives.

2) Enrollment in BIOL 780 Capstone Companion Course

Students will also be required to enroll in BIOL 780 (1 cr.) during the semester of their individual experience. BIOL 780 is offered every Fall and Spring semester.

- If the individual experience is a two-semester thesis, BIOL 780 should be taken during the second semester.
- If the individual experience occurs during the summer (e.g., internship), BIOL 780 should be taken during the Fall semester that immediately follows.
- Note: Because BIOL 780 is not offered during the summer, students cannot complete their individual experience during the summer *and graduate during that same September*. Summer experiences could only be used as individual capstone experiences if completed the summer before the student's senior year.

Degree Plan

Sample Degree Plan

This sample degree plan serves as a general guide; students collaborate with their academic advisor to develop a personalized degree plan to meet their academic goals and program requirements.

First Year		
Fall		**Credits**
MEFB 401	Marine Estuarine and Freshwater Biology: Freshmen Seminar	1
BIOL 412	Introductory Biology: Evolution, Biodiversity and Ecology	4
CHEM 403	General Chemistry I	4
ENGL 401	First-Year Writing	4
Discovery Course		4
	Credits	**17**
Spring		
BIOL 411	Introductory Biology: Molecular and Cellular	4
CHEM 404	General Chemistry II	4

Major Elective		4
Elective		4
Elective		4
	Credits	**16**
	Total Credits	**127-128**

Student Learning Outcomes

Program Learning Outcomes

Students will be able to:

- Show the ability to synthesize diverse sources of information and communicate it effectively.
- Demonstrate a broad understanding of the unique characteristics, as well as the similarities, governing freshwater, estuarine and marine systems.
- Have a broad understanding of biology from the molecular to the ecosystem with a particular appreciation for the abiotic and biotic factors relating to diverse aquatic ecosystems.
- Demonstrate the ability to describe basic principles of scientific inquiry and the importance of scientific study for understanding the natural world.
- Demonstrate the ability to design and experiment, collect data, analyze and graph it appropriately, and summarize the significant findings.
- Demonstrate an ability to critically and objectively evaluate data, develop hypotheses, plus interpret biological experiments and studies.
- Demonstrate an ability to communicate clearly and explicitly, both orally and in writing, following conventional scientific formats.
- Demonstrate a broad understanding of major groups of prokaryotic and eukaryotic aquatic life.

Marine Biology Minor

https://www.unh.edu/program/minor/marine-biology

Description

The Marine Biology minor is designed to provide a foundation in marine biology and related sciences to any UNH undergraduate student, with the exception of students majoring in marine, estuarine, and freshwater biology. It is offered through the Department of Biological Sciences.

Requirements

Academic policies related to Minors.

To fulfill the requirements for the Marine Biology minor, students must complete a minimum of 18 credits across at least five distinct courses.

Code	Title	Credits
Required Course		
MEFB 503	Introduction to Marine Biology	3
Electives		
Select three courses from the following:		
ESCI 501	Introduction to Oceanography	4
ESCI 502	Beaches and Coasts	4
MEFB 506	Marine Parasitology and Disease	4
MEFB 510	Field Ornithology	4
MEFB 530	Evolution and Marine Diversity	4
MEFB 535	Marine Mammal Biology	4
MEFB 590	Coastlines in Crisis	4
MEFB 625	Introduction to Marine Botany	5
MEFB 628	Marine Invertebrate Evolution and Ecology	5
MEFB 674	Ecology and Marine Environment	4
MEFB 675	Marine Mammal Biology and Conservation	3
MEFB 702	Sustainable Marine Fisheries	4
MEFB 714	Field Animal Behavior	4
MEFB 725	Marine Ecology	4
MEFB 741	Sharks: Biology and Conservation	4
MEFB 747	Aquatic Plants in Restoration/Management	4
MEFB 754	Anatomy and Function of Marine Vertebrates	4
MEFB 755	Biological Oceanography	3
MEFB 772	Fisheries Biology: Conservation and Management	4
MEFB 773	Physiology of Fishes	4
ZOOL 610	Principles of Aquaculture	4
ZOOL 710	Sharks and Bony Fishes	4
Select at least one course from the following:		
BIOL 795	Independent Investigations in Biology	4
MARI 533	Basic SCUBA	3
MARI 705	Introduction to Marine Policy: Understanding US Ocean, Coastal and Great Lakes Policy	3
MARI 730	Research Diving Technologies	4
MARI 735	Advanced SCUBA	4
MARI 795W	Crafting Ocean Stories: Research & Writing for the Public in Marine Science & Ocean Engineering	3
MEFB 508	Marine Ecosystem Research and Management	4
MEFB 730	Underwater Research	4
MEFB 751	Research in Biology at the Shoals Marine Lab	4
MEFB 795	Independent Investigations in Marine, Estuarine, and Freshwater Biology	4
ZOOL 795	Independent Investigations in Zoology	4

In addition, students are encouraged to become involved in a research project, either by working in a professor's laboratory or by participating in the Undergraduate Ocean Research Project (TECH 797 Undergraduate Ocean Research Project).

Student Learning Outcomes

Program Learning Outcomes

- Demonstrate an understanding of the unique characteristics of marine systems and the organisms that depend upon them.
- Describe major groups of prokaryotic and eukaryotic marine life.
- Describe biological, chemical, and/or physical processes that are important components of marine ecosystems.
- Demonstrate an understanding of common laboratory, field, and quantitative methods used in marine biology.

- Demonstrate an understanding of how human activities impact the marine environment and how the marine environment impacts human activities.

Microbiology

- Microbiology Major (B.S.) (p. 436)

Microbiology Major (B.S.)

https://www.unh.edu/program/bachelor-science/microbiology

Description

The B.S. in Microbiology program provides a comprehensive scientific education in the study of microorganism. Students will explore the diversity microorganisms, along with their genetics, physiology, and interactions with humans and animals, and the environment. The curriculum is rich with hands-on laboratory experiences, and covers topics such as bacterial pathogenesis, microbial ecology, molecular biology, immunology and virology. Graduates are well prepared for careers in biotechnology, public health, healthcare, food safety, and biological research, as well as for advanced degrees in the biological sciences, medicine and other allied health fields.

Requirements

Degree Requirements
