**BEHS 445 - Homeland Security and Emergency Management**

**Credits:** 4

This course presents an overview of the homeland security and emergency management field and enables students entering the profession or expanding their roles to function effectively given a broad array of emergency management issues. This course provides students with a broad view of issues that focus on policy considerations and align with the five National Preparedness System mission areas of prevention, protection, mitigation, response, and recovery. Students learn critical concepts such as the Department of Homeland Security all-hazards approach of emergency management, risk prevention, counter-terrorism, and consequence management and mitigation. This course takes a behavioral science risk-based approach, assessing capabilities and identifying gaps within existing emergency management programs. This approach is instrumental to planning future homeland security and emergency management programs, which facilitate our nation’s ability to improve emergency management.

**Prerequisite(s):** PSY 410 with a minimum grade of D- or PSY 501G with a minimum grade of D- or SOCI 410 with a minimum grade of D- or CRIM 410 with a minimum grade of D- or CRIM 500G with a minimum grade of D- or MGMT 410 with a minimum grade of D- or MGMT 500G with a minimum grade of D-.

**Equivalent(s):** BEHS 505G

**Grade Mode:** Letter Grading

**BEHS 510 - National Incident Management Systems (NIMS)**

**Credits:** 4

This course examines the comprehensive approach guiding the whole community - all levels of government (federal, state, county, and town), nongovernmental organizations (NGOs), and the private sector - to work together seamlessly to prevent, protect against, mitigate, respond to, and recover from the effects of emergency incidents. The course provides students with an understanding of National Incident Management Systems (NIMS) concepts, principles, and components.

**Prerequisite(s):** BEHS 445 with a minimum grade of D- or BEHS 505G with a minimum grade of D-.

**Equivalent(s):** BEHS 510G

**Grade Mode:** Letter Grading

**BEHS 544 - Special Topics: Lower Level**

**Credits:** 1-4

A study of current and variable topics in Behavioral Science. Course content changes from term to term.

**Repeat Rule:** May be repeated up to unlimited times.

**Equivalent(s):** BEHS 544G

**Grade Mode:** Letter Grading

**BEHS 595 - Practicum in Behavioral Science**

**Credits:** 4

This practicum is an entry-level field experience designed to assist behavioral science majors in exploring career and vocational settings in which they can use and apply their behavioral science knowledge and skills. The nature of the practicum is exploratory, involves extensive initiative in designing and implementing the practicum, and is conducted under the supervision of the practicum instructor. A supplementary objective of the practicum is to explore and assess possibilities for settings and situations in which the student may engage in an upper-level behavioral science internship. Earlier registration deadlines may apply.

**Prerequisite(s):** BEHS 445 with a minimum grade of D- or BEHS 505G with a minimum grade of D- or SOCI 410 with a minimum grade of D- or CRIM 500G with a minimum grade of D- or MGMT 410 with a minimum grade of D- or MGMT 500G with a minimum grade of D-.

**Equivalent(s):** BEHS 540G

**Grade Mode:** Letter Grading

**BEHS 610 - Community Emergency Response**

**Credits:** 4

The focus of this course is on disaster preparedness and training and organizing teams that can support communities during disasters. The course provides disaster response process knowledge, such as fire safety, light search and rescue, and disaster medical operations. Community emergency response knowledge is used to develop strategies to protect families, neighbors, and co-workers if a disaster occurs. How to plan, execute, and evaluate disaster preparedness desktop exercises will be addressed.

**Prerequisite(s):** BEHS 445 with a minimum grade of D- or BEHS 505G with a minimum grade of D-.

**Equivalent(s):** BEHS 610G

**Grade Mode:** Letter Grading

**BEHS 644 - Special Topics: Upper Level**

**Credits:** 1-4

A study of current and variable topics in Behavioral Science. Course content changes from term to term. It is expected that the learner will have prior coursework or experience in the subject area.

**Repeat Rule:** May be repeated up to unlimited times.

**Equivalent(s):** BEHS 644G

**Grade Mode:** Letter Grading

**BEHS 665 - Disaster Management**

**Credits:** 4

This course addresses the complexity of issues related to disaster management, including a history of the field, key legislation impacting the field, comprehensive emergency management and integrated emergency management, and current issues in the field. This course explores emergency management systems used to lessen the potential impact of disasters. Approaches related to policy, sustainability, public education, disaster exercises, programming, and the built environment are all considered.

**Prerequisite(s):** BEHS 445 with a minimum grade of D- or BEHS 505G with a minimum grade of D- or SOCI 605 with a minimum grade of D- or FSA 605G with a minimum grade of D-.

**Equivalent(s):** BEHS 617G

**Grade Mode:** Letter Grading
BEHS 675 - Terrorism: Domestic and International  
Credits: 4  
This course is designed to acquaint students with the major issues in the growing threat of domestic and global terrorism. Topics include an overview of the history and development of terrorism, types of terrorism, terrorist groups, the psychology of terrorism, the structure and dynamics of terrorist groups, terrorists’ techniques, financing of terrorism, the media and terrorism, legal issues, and terrorism of the future.  
Equivalent(s): BEHS 615G  
Grade Mode: Letter Grading

BEHS 695 - Internship in Behavioral Science  
Credits: 4  
This course is a field-based internship designed to develop and hone the practical application skills of a Behavioral Science major. Students apply for an internship at a self-selected site and negotiate the terms of the internship experience with a site supervisor under the general auspices of their faculty mentor. The internship requires documented evidence of eighty hours of supervised experience and practice in a field setting where behavioral science-related knowledge and skills are applied.  
NOTE: It is recommended that students have completed the majority of upper level course work in their major prior to enrolling in this course. Registration for this course is by permission of Academic Affairs. Earlier registration deadlines may apply.  
Equivalent(s): BEHS 640G  
Grade Mode: Letter Grading
