CHEMISTRY MINOR

https://ceps.unh.edu/chemistry/chemistry-minor

Description

If you are interested in obtaining a Chemistry Minor, please contact the Undergraduate Coordinator in the Chemistry Department Office at (603) 862-1550. He/she will meet with you to discuss your plans to minor in Chemistry.

Requirements

1. Complete a total of 20 credit hours in Chemistry (CHEM) courses.¹
2. Chemistry courses for the minor cannot be completed on a pass/fail basis.
3. Grade of C- or better is required in all chemistry minor coursework.
4. A cumulative GPA of 2.00 is required for all chemistry minor coursework.
5. Biochemistry (BMCB) courses do not count toward a chemistry minor.
6. Transfer credits can only be applied to the minor with permission of the Chemistry Department Undergraduate Coordinator or Chair. Maximum of 8 transfer credit hours. Transfer courses must meet minimum grade requirements.
7. The following courses can NOT be applied to the Chemistry minor: CHEM 400, CHEM 408, CHEM 409, CHEM 411, CHEM 496, CHEM 501, CHEM 502, CHEM 503, and CHEM 798.

¹ Student's who have completed CHEM 683 (https://catalog.unh.edu/search/?P=CHEM%20683) Physical Chemistry I and CHEM 685 (https://catalog.unh.edu/search/?P=CHEM%20685) Physical Chemistry Laboratory, may complete the minor with a total of 18 credit hours.

No more than 10 credit hours of chemistry coursework required by the student’s major may be counted toward the chemistry minor. Any remaining credits must come from CHEM courses that are not required for the student’s major.
