APPLIED MATHEMATICS
MAJOR: FLUID DYNAMICS
OPTION (B.S.)

https://ceps.unh.edu/mathematics-statistics/program/be/applied-mathematics-fluid-dynamics-option

Description
This degree program prepares students for employment and/or graduate study in a variety of fields and research specializations in which mathematics plays a critical role in the solution of important scientific and technological problems.

Graduation Requirements
In all courses used to satisfy the requirements for its major programs, the Department of Mathematics and Statistics requires that a student earn a grade of C- or better and have an overall grade-point average of at least 2.00 in these courses.

1 MATH 525 Linearity I may be substituted for MATH 645.
MATH 525 & MATH 526, Linearity, may be substituted for MATH 527, MATH 528, and MATH 645.

2 Applied Mathematics: Economics Option students take MATH 539 Introduction to Statistical Analysis.

### Student Learning Outcomes

- Students recognize common mathematical notations and operations used in mathematics, science and engineering.
- Students can recognize and classify a variety of mathematical models including differential equations, linear and nonlinear systems of algebraic equations, and common probability distributions.
- Students have developed a working knowledge (including notation, terminology, foundational principles of the discipline, and standard mathematical models within the discipline) in at least one discipline outside of mathematics.
- Students are able to extract useful knowledge, both quantitative and qualitative, from mathematical models and can apply that knowledge to the relevant discipline.
