NURSING (NURS)

The undergraduate nursing program is nationally accredited by the Commission on Collegiate Nursing Education.

Students in the College's Department of Nursing learn about relationship-based care, reflective thinking and clinical decision making while following guidelines for developing safe, quality clinical skills. Nursing students learn from faculty who serve as facilitators and mentors within a supportive, scholarly environment, and as graduates become part of the workforce that will help shape the future of healthcare.

Programs

- Nursing Major (B.S.)

Courses

Nursing (NURS)

Credits: 4
Examines the process of human birth focusing on the emergent technologies of human genetics, assisted fertility technologies, prenatal diagnosis and treatment, as well as the appropriate and inappropriate use of technology through the labor, delivery, and post-partum experience. The social, cultural, political, and historical context for the development and application of these technologies is explored.
Attributes: Environment, TechSociety (Disc)
Equivalent(s): HHS 450
Grade Mode: Letter Grading

NURS 500 - Introduction to Professional Nursing
Credits: 2
The course provides an overview of professional nursing with a focus on reflective thinking. A synthesis of current and projected trends in nursing practice and education, with an introduction to topics on ethical, social, and legislative issues, are explored. This course is divided into five modules: nursing as a career, nursing as a profession, nursing as art and science, nursing as communication, and nursing and relationship-centered care.
Grade Mode: Letter Grading
Special Fee: Yes

NURS 501 - Research for Nursing Professionals
Credits: 4
The course focuses on the translation of current evidence into nursing practice through the identification of practice issues, appraisal and application of evidence, and the evaluation of outcomes. Development of evidence is examined using the research process. Concepts explored include research ethics and legal precepts, clinical judgment in knowledge development and application, and the integration of client values and preferences. Students learn to use reliable evidence to inform practice and make clinical judgments to promote nursing best practice.
Equivalent(s): HHS #598, NURS 641
Grade Mode: Letter Grading
Special Fee: Yes

NURS 504 - Disease and Drugs I
Credits: 4
The two semester course advances knowledge of human physiology and the pathophysiological variations in selected global disease states in adults and children. Student explore how the human body uses its adaptive powers to maintain a steady state and how alterations affect normal processes. Pharmacological agents used on these alterations are examined.
Prerequisite(s): BMS 507 with a minimum grade of D- and BMS 508 with a minimum grade of D- and BMS 501 (may be taken concurrently) with a minimum grade of D-.
Equivalent(s): NURS 502
Grade Mode: Letter Grading
Special Fee: Yes

NURS 505 - Diseases and Drugs II
Credits: 0 or 4
The two semester course advances knowledge of human physiology and the pathopsychological variations in selected global disease states in adults and children. Students explore how the human body uses its adaptive powers to maintain a steady state and how alterations affect normal processes. Pharmacological agents used on these alterations are examined.
Co-requisite: NURS 506, NURS 601
Prerequisite(s): NURS 500 with a minimum grade of D-.
Equivalent(s): NURS 502
Grade Mode: Letter Grading
Special Fee: Yes

NURS 506 - Human Development, Interaction and Learning Across the Lifespan
Credits: 4
The course emphasizes human development, interaction and learning across the lifespan as essential to safe, effective relationship-centered care. An exploration of selected theoretical perspectives on human development, education and learning and group development prepares students to engage in professional practice.
Co-requisite: NURS 506, NURS 601
Prerequisite(s): NURS 500 with a minimum grade of D-.
Grade Mode: Letter Grading

NURS 516 - Health Assessment and Nursing Fundamentals
Credits: 0 or 4
Focuses on the acquisition of psychomotor and assessment skills required for the delivery of safe nursing care. Students begin by learning clinical skills in the simulation setting and then using those skills with supervision in the clinical setting. An additional focus of this course is understanding fundamental nursing concepts as they pertain to providing safe, effective care.
Co-requisite: NURS 516C
Grade Mode: Letter Grading
Special Fee: Yes
NURS 516C - Health Assessment and Nursing Fundamentals Clinical  
Credits: 2  
This clinical course is designed to provide experiences to apply the  
knowledge to the skills required to perform a systematic examination of a  
healthy adult, to perform basic psychomotor skills and to record findings  
appropriately. Students implement the nursing process by obtaining  
health histories, performing physical and psychosocial assessments,  
establishing a database, and formulating initial nursing plans. Students  
become familiar with the nursing simulation lab.  
Co-requisite: NURS 516  
Grade Mode: Letter Grading  
Special Fee: Yes  

NURS 517C - Clinical Integration  
Credits: 0 or 2  
This course focuses on continued development of nursing skills  
necessary for promoting health in adults. Clinical practicum focuses on  
restorative care by providing supervised professional nursing practice  
for development of multidimensional assessment skills, decision-making  
processes, and evidence-based strategies and interventions for patients  
transitioning across the health care continuum. Application of evidence-  
based practice may include rehabilitative, end of life and palliative care.  
Grade Mode: Letter Grading  
Special Fee: Yes  

NURS 535 - Death and Dying  
Credits: 4  
Encompasses peoples' responses to death throughout the lifecycle.  
Theories of death, dying, and grieving discussed. Students explore  
cultural influences, legal, and ethical dilemmas; the biopsychosocial  
needs of people facing life-threatening situations; resources for care of  
the dying; death rituals; and surviving a major loss.  
Attributes: Social Science (Discovery); Inquiry (Discovery); Writing  
Intensive Course  
Grade Mode: Letter Grading  

NURS 601 - Function and Wellbeing of Older Adults  
Credits: 2  
This course focuses on developing knowledge necessary for promoting  
healthy aging and wellness across the lifespan. Multidimensional  
assessment skills are utilized to develop appropriate evidence-based  
terventions to assist individuals and families to maintain wellness and  
promote healthy lifestyles, and enhance the quality of life for older adults  
with acute and chronic conditions. Students will explore nursing issues  
and principles of promoting wellness across the health care continuum  
including end of life and palliative care.  
Grade Mode: Letter Grading  
Special Fee: Yes  

NURS 611 - Care of the Adult with Acute Illness I  
Credits: 0 or 4  
The first of two courses focused on adult health nursing of clients with  
commonly occurring disease states in the acute care setting. Course  
builds on previously learned knowledge of physical assessment and  
technical skills to focus on key components of acute care nursing.  
Special emphasis placed on the etiology, clinical evaluation and use of  
evidence-based nursing interventions to manage specific health problems  
related to cardiovascular, hematologic, pulmonary, endocrine and renal  
systems. The advanced skills and techniques required to care for clients  
with commonly occurring disease states is included.  
Co-requisite: NURS 611C  
Equivalent(s): NURS 615  
Grade Mode: Letter Grading  

NURS 611C - Care of the Adult with Acute Illness I Clinical  
Credits: 2  
Designed to provide the student with opportunities to apply the nursing  
process and clinical judgment within an acute care setting to clients  
with commonly occurring disease states. The experience focuses on the  
application of knowledge and skills, evidence-based practice, clinical  
judgment and relationship-centered care.  
Co-requisite: NURS 611  
Prerequisite(s): NURS 505 with a minimum grade of D-.  
Equivalent(s): NURS 615C  
Grade Mode: Letter Grading  
Special Fee: Yes  

NURS 612 - Care of the Adult with Acute Illness II  
Credits: 0 or 4  
This is the second of two courses focused on adult health nursing  
of clients with commonly occurring disease states in acute care  
nursing. The course builds on previously learned knowledge of physical  
assessment and technical skills to focus on key components of acute  
care nursing. Special emphasis is placed on the etiology, clinical  
evaluation and use of evidence-based nursing interventions to manage  
specific health problems related to gastrointestinal, neurological,  
musculoskeletal systems and clients undergoing surgery. Complex  
client issues related to oncologic, immunologic and shock states are  
introduced. The advanced skills and interventions required to care for  
clients with commonly occurring disease states and those undergoing  
surgery are included.  
Co-requisite: NURS 612C  
Prerequisite(s): NURS 611 with a minimum grade of D-.  
Equivalent(s): NURS 615  
Grade Mode: Letter Grading  

NURS 612C - Care of the Adult with Acute Illness II Clinical  
Credits: 2  
Course is designed to provide the student with opportunities to apply the  
nursing process and clinical judgment within an acute care setting to  
clients with commonly occurring disease states and those undergoing  
surgery. The experience focuses on the application of knowledge and  
skills, evidence-based practice, clinical judgment and relationship-  
centered care.  
Co-requisite: NURS 612  
Prerequisite(s): NURS 611 with a minimum grade of D-.  
Equivalent(s): NURS 615C  
Grade Mode: Letter Grading  
Special Fee: Yes  

NURS 616 - Living with Mental Illness  
Credits: 2  
This course is designed to provide an understanding of the concepts  
of mental health and major factors affecting human behavior and  
interaction. Specific theoretical concepts guiding nurse-client  
interactions are utilized as a vehicle for supporting the person's and  
family's optimum state of well-being.  
Co-requisite: NURS 616C  
Equivalent(s): NURS 618  
Grade Mode: Letter Grading  
Special Fee: Yes
NURS 616C - Living with Mental Illness Clinical
Credits: 2
In this psychiatric nursing clinical course the nursing process and a situation-based interpretive approach serve as framework for professional nursing action. A special focus is placed on the integration of personal knowledge, therapeutic use of self and communication skills inherent in nurse-client relationships. Through a variety of clinical experiences, the student applies mental health concepts and principles of therapeutic communication in caring for people and families with alterations in mental health.
Co-requisite: NURS 616
Grade Mode: Letter Grading

NURS 621 - Maternal and Newborn Nursing
Credits: 0 or 2
The course allows students an opportunity to develop necessary knowledge, attitudes and skills required for the provision of safe care to child bearing women and their families. Childbirth is viewed as part of the life cycle with emphasis on women and family-centered care, normal physiological childbirth, client advocacy and the provision of therapeutic nursing practice.
Co-requisite: NURS 621C
Equivalent(s): NURS 620
Grade Mode: Letter Grading
Special Fee: Yes

NURS 621C - Maternal Newborn Nurs Clin
Credits: 2
This clinical component of NURS 621, a course that has family as the focus for nursing practice, introducing the student to the care of young families throughout pregnancy, birth, and child-rearing periods. The health needs of the young family are discussed in terms of major morbidity/mortality and contemporary issues. This clinical course offers students experiences in various clinical settings in order to provide opportunities for the development of professional practice roles in maternal health.
Co-requisite: NURS 621
Grade Mode: Letter Grading
Special Fee: Yes

NURS 627 - Clinical Judgment in Nursing
Credits: 4
This course is designed to apply and analyze clinical reasoning and judgement in a variety of situations, focusing on the ability to prioritize and individualize evidence-based nursing interventions.
Attributes: Writing Intensive Course
Grade Mode: Letter Grading

NURS 648W - Nursing Honors Seminar I
Credits: 1-4
Honors seminar is designed to expand the knowledge and skills to develop a research thesis or quality improvement capstone project. Literature review and methods development will be a major focus under the direction of a faculty advisor.
Attributes: Honors course; Writing Intensive Course
Repeat Rule: May be repeated for a maximum of 5 credits.
Grade Mode: Letter Grading

NURS 695 - Independent Study
Credits: 2-4
In-depth study with faculty supervision. May be repeated for different topics.
Grade Mode: Letter Grading

NURS 702 - Child Health Nursing
Credits: 0 or 2
The course considers the child in the context of family as the focus for nursing practice, introducing the student to the care of children using a developmental approach. Commonly occurring health transitions and alterations occurring from infancy through adolescence are examined. A survey of child health explores both professional practice roles of the pediatric nurse in health promotion and illness as well as acute and chronic conditions that impact children at various stages of development.
Equivalent(s): NURS 620
Grade Mode: Letter Grading
Special Fee: Yes

NURS 702C - Child Health in the Community Clinical
Credits: 2
Semester long clinical course focused on the practice of pediatric nursing in the community.
Co-requisite: NURS 702
Grade Mode: Letter Grading
Special Fee: Yes

NURS 704 - Public Health Nursing
Credits: 4
This course prepares the student for population-focused practice. Emphasis is placed on the synthesis of concepts, theories, knowledge and practice from nursing and public health sciences. Students explore the concepts of: community as client, community assessment, health promotion, health protection, illness prevention and vulnerability from a public health nursing perspective.
Equivalent(s): NURS 624
Grade Mode: Letter Grading

NURS 704P - Public Health Nursing Project
Credits: 2
Semester long experience working in teams with a community organization to address a current public health issue. Learning focuses on working in teams to develop a strategic understanding of the identified public health issue and to design, implement, and evaluate a targeted intervention project.
Grade Mode: Letter Grading

NURS 705 - Contemporary Leadership within Health Care Systems
Credits: 4
The course explores the dynamic nature of the healthcare system and practice environments that impact nursing. Emphasis is placed on relationship of ethics, power, change, conflict, communication and politics in health care systems. Focus is placed on the use of models of leadership and management to effectively negotiate change, provided safe quality care, and promote professional practice in the delivery of relationship-centered care.
Co-requisite: NURS 721
Equivalent(s): NURS 703, NURS 705W
Grade Mode: Letter Grading

NURS 711 - Clinical Judgment in Complex Illness
Credits: 0 or 2
This course further develops and refines critical thinking skills by student participation in clinical scenarios and de-briefings. Students prepare for the care of patients with complex illness and engage in health assessment, psychomotor skills, and implementing the nursing process to develop a plan of care. May be waived with special circumstances.
Grade Mode: Letter Grading
Special Fee: Yes
NURS 721 - Integrating Professional Nursing Practice
Credits: 2
Weekly seminar provides an opportunity for the analysis, synthesis, refinement and integration of nursing knowledge. Standardized testing provides timely feedback to facilitate transition to professional practice.
Co-requisite: NURS 721C
Equivalent(s): NURS 720
Grade Mode: Letter Grading
Special Fee: Yes

NURS 721C - Integrating Professional Nursing Practice Clinical
Credits: 6
Clinical synthesis experience to refine and integrate previously learned knowledge and skills into professional practice through a cooperatively designed learning experience. Students plan, deliver and manage care under the supervision of a licensed preceptor.
Co-requisite: NURS 721
Grade Mode: Letter Grading

NURS 748W - Nursing Honors Thesis I
Credits: 1
Honors seminar designed to expand the knowledge and skills presented in previous honors in major courses. Focuses on a project relevant to the discipline of nursing under the direction of a faculty adviser. Open to honors-in-major and senior nursing majors.
Attributes: Honors course; Writing Intensive Course
Prerequisite(s): NURS 648 with a minimum grade of D-.
Equivalent(s): NURS 797
Grade Mode: Letter Grading

NURS 749W - Nursing Honors Thesis II
Credits: 4
Honors seminar designed to expand the knowledge and skills presented in previous honors in major courses. Focuses on a project relevant to the discipline of nursing under the direction of a faculty adviser. Open to honors-in-major and senior nursing majors.
Attributes: Honors course; Writing Intensive Course
Prerequisite(s): NURS 648 with a minimum grade of D- and NURS 748W with a minimum grade of D-.
Equivalent(s): NURS 797
Grade Mode: Letter Grading

NURS 794 - Special Topics
Credits: 0-4
Specialized courses covering information not normally presented in regular course offerings. Description of topics varies. May be repeated but not in duplicate areas of content. Special fee on some sections.
Grade Mode: Letter Grading
Special Fee: Yes

NURS #794W - Special Topics
Credits: 1-4
Specialized courses covering information not normally presented in regular course offerings. Description of topics varies. May be repeated but not in duplicate areas of content. Special fee on some sections.
Attributes: Writing Intensive Course
Equivalent(s): NURS 794
Grade Mode: Letter Grading
Special Fee: Yes
