Description

Bachelor of Science to Advanced MS/OTD Program

The University of New Hampshire Department of Occupational Therapy offers a Bachelor’s Degree leading to an entry with Advanced Standing into our MS or OTD program. Students in the Bachelor of Science (BS) program smoothly enter into one of the graduate programs by completing professional level OT courses as part of their BS degree. The BS and MS degree programs are completed in five and half years, while the BS and OTD programs require 6 years with two summer terms. Students declare their intent to graduate with an Advanced Standing MS or an Advanced Standing OTD at the end of their Sophomore year. Students may enter the BS program as first-year students or apply to transfer within UNH into the BS program during their sophomore year, space permitting. Students interested in transferring into this program should contact the Department of Occupational Therapy for information about transfer requirements, the application process and deadlines.

Students’ academic advisor guides them through a stream-lined application process to enter the Occupational Therapy: Advanced Standing MS or OTD Program during the senior year. Students must have a minimum of a 3.0 grade point average, earned a B- or above in all professional level OT courses (700 level or higher), with no more than 8 credits at B-, pass level I fieldwork, and meet professional behavioral standards, which are detailed in the OT Department Policy and Procedure Manual, available to all OT students on the department’s learning platform, MyCourses.

The Accreditation Council for Occupational Therapy Education (ACOTE), located at 6116 Executive Boulevard, Suite 200, North Bethesda, MD 20852-4929; telephone: 301-652-AOTA; website: www.acoteonline.org grants accreditation to entry level MS and OTD programs in the United States. Our Master’s degree program is currently accredited by ACOTE.

The OTD program at the University of New Hampshire has received candidacy for accreditation from the ACOTE. The program must have a pre-accreditation review, complete an onsite evaluation, and be granted Accreditation Status before its graduates will be eligible to sit for the National Certification examination.

After completing the Master’s degree or OTD in occupational therapy, including 24 weeks of Level II Fieldwork, students will be eligible to sit for the national certification examination offered by the National Board for Certification in Occupational Therapy (NBCOT), which is required to practice as an occupational therapist. Detailed information regarding the Occupational Therapy: Advanced Standing MS and OTD Program may be found in the UNH Graduate Catalog. A felony conviction may affect a graduate’s ability to sit for the NBCOT certification examination or attain state licensure.

Requirements

Students begin the BS curriculum with preprofessional courses, which include courses in biological and social sciences as well as occupational therapy. In addition to meeting the University Discovery Program requirements, students take the following courses during the first three years of the program.

Core Curriculum

Select one statistics course from the following:

- HHS 540 Statistics for Health and Human Service Professionals
- PSYC 402 Statistics in Psychology
- SOC 402 Statistics

Select one health or social policy course from the following:

- HDFS 760 Family Programs and Policies
- HDFS 775 Children, Adolescents and the Law
- HDFS 794 Families and the Law
- HMP 401 United States Health Care Systems
- HMP 403 Introduction to Public Health
- HMP 744 Health Ethics and Law
- HMP 746 Health Policy
- POLT 500 American Public Policy
- RMP 663 Management and Finance in the Experience Industry
- SW 705 Child and Adolescent Risks and Resiliency Program, Policy and Practice

Total Credits 54

Details on satisfying these requirements are provided by the student’s academic adviser and are outlined in the OT Department Policy and Procedure Manual. All students receive an electronic copy of the manual in their first year, and it is also available on the Occupational Therapy Student Resources site on the University learning platform.

Volunteer or work experience in a health and human service organization is recommended, although not required.

Professional Curriculum

Students in the BS-MS or BS-OTD curriculum with a GPA of 3.0 or higher transition into the professional program and take professional level courses during their undergraduate education. The following courses are required.

& 752L
OT 763 Occupational Therapy Evaluation and Intervention for Adults 4
& 763L and Occupational Therapy Evaluation and Intervention for Adults Lab
& 763R
OT 781 Introduction to Research and Evidence-Based Practice 3
OT 782 Research Methods and Application 3
OT 792 Level I Fieldwork 1

Select one of the following:
OT 739 Assistive Technology for Enhancing Occupational Performance 4.5
& 739L and Assistive Technology for Enhancing Occupational Performance Lab
or OT 771 and Enabling Participation in Community Groups Lab
& 771L

Select one of the following:
OT 760 Psychosocial Evaluation and Intervention 4
& 760L and Psychosocial Evaluation and Intervention Lab
or OT 762 and Occupational Therapy Evaluation and Intervention for Children Lab
& 762L or OT 762R

Capstone:
OT 741 Human Occupation 4

Total credits for BS-MS: 38-39

1 This course is an elective for students advancing to the BS-MS program and a requirement for students advancing to the BS-OTD program. Total credits for BS-MS is 38-39.
2 This course also fulfills the writing intensive in major course.

Students need to declare their choice for Advanced Standing MS or OTD by the end of their sophomore year. At the end of the senior year, students are awarded a Bachelor of Science Degree in Occupational Therapy. However, students must earn a graduate degree (MS or OTD) to become registered occupational therapists. Students apply to the Graduate School for Occupational Therapy. Advanced Standing MS or the OTD Program during their senior year. An overall minimum grade point of 3.0 is required for admission to the MS Program or OTD program, and students must earn a minimum grade of B- in all OT classes at the 700 level, with no more than 8 credits of B- in OT courses at the 700 level, pass Level I Fieldwork, and meet professional behavior expectations. Please refer to the Graduate Catalog for additional information about the Advanced Standing MS and OTD Programs and the graduate portion of the professional occupational therapy curriculum including Fieldwork Level II requirements.

Students entering as first-year undergraduate students complete both the BS degree and Advanced Standing MS degree in 5.5 academic years (11 semesters and one January-term), including Level II Fieldwork, while those opting for the Advanced Standing OTD will complete the degree in 6 academic years including two summer terms, Level II Fieldwork and a Capstone experience. Students from both advanced standing programs will be eligible to sit for the certification examination administered by the National Board of Certification of Occupational Therapists (NBCOT). A felony conviction may affect a student’s ability to complete fieldwork, sit for the NBCOT certification examination, and/or obtain state licensure.

Students are responsible for transportation to off-campus practicum and fieldwork locations.

Curriculum review and revision is undertaken annually. The department works closely with students during academic advising sessions and shares information about any policy and requirement changes during registration periods as well as throughout the academic year. Students also are expected to take an active role in verifying expectations and should check with their academic adviser each September for updated policies and requirements. Program requirements and policies for retention in the major are in the OT Department Policy and Procedure Manual, which is available online.

### Student Learning Outcomes

Student Learning Outcomes: BS in Occupational Therapy focuses on the study of human participation in life occupations and prepares students for an entry-level graduate degree to become registered occupational therapists. Occupations are the activities that people do every day across the lifespan, including but not limited to self-care, employment, volunteer work, leisure, and play. The aim of the BS program is to prepare students for employment in health services fields, or for graduate study in occupational therapy, or other varied fields and disciplines.

Upon graduation with a BS in OTS degree from UNH, students will:

- Critically evaluate biological, psychosocial, and educational theories that influence human behavior and occupational participation.
- Demonstrate an understanding of the value of human occupation in health and wellness.
- Demonstrate critical appraisal of how disease and disability influences health promotion and occupational well-being.
- Recognize the role of culture, socioeconomic status, abilities, and other factors on occupational performance and participation of all members of society.
- Demonstrate an understanding of concepts of occupational deprivation and occupational justice as related to health and well-being for all people.
- Demonstrate competency in information and basic research literacy.
- Demonstrate professional behaviors and skills in written and oral communication.
- Be prepared to apply for graduate study in the field of occupational therapy or other disciplinary area of graduate study.
