

GEOGRAPHY MINOR

<https://cola.unh.edu/geography/program/minor/geography>

Description

The geography minor allows undergraduates to explore one or more of the three main areas of geography – human geography, environmental geography and geotechniques. Studying geography prepares students to pursue a wide variety of careers or enter graduate school.

Requirements

Students must complete five geography (GEOG) courses (20 credit hours) for the minor with a minimum grade of C-.

Code	Title	Credits
Select five geography courses		20
Total Credits		20

Courses taken Pass/Fail cannot be used for the minor. All minor courses can be used to fulfill Discovery Program requirements.

At the beginning of your final semester at UNH you should complete a [Certification of Completion of Minor form](#). The minor must be approved by your major and minor supervisors.
