PSYCHOLOGY MAJOR (B.A.)

https://cola.unh.edu/psychology/program/ba/psychology-major

Description

The psychology major provides students with a broad education, while also allowing some specialization. The program exposes students to the scientific study of behavior and encourages an increased understanding of the behavior of humans and animals.

Students who wish to declare psychology as a major after enrolling in the University should consult with the department’s academic counselor for application procedures and criteria.

Requirements

Degree Requirements

Minimum Credit Requirement: 128 credits

Minimum Residency Requirement: 32 credits must be taken at UNH

Minimum GPA: 2.0 required for conferral*

Core Curriculum Required: Discovery & Writing Program Requirements

Foreign Language Requirement: Yes

All Major, Option and Elective Requirements as indicated.

*Major GPA requirements as indicated.

Major Requirements

Students majoring in psychology must complete 44 credits with a minimum grade of C- in each course and a 2.0 overall average in all major requirements.

Core Courses

| PSYC 401 | Introduction to Psychology | 4       |
| PSYC 402 | Statistics in Psychology   | 4       |
| PSYC 502 | Research Methods in Psychology | 4     |

Breadth (500-level) courses

Select two of the following courses from Group I: 8

| PSYC 511 | Sensation and Perception |       |
| PSYC 512 | Psychology of Primates   |       |
| PSYC 513 | Cognitive Psychology     |       |
| PSYC 521 | Behavior Analysis        |       |
| PSYC 522 | Behaviorism (offered in Manchester only) |       |
| PSYC 531 | Psychobiology            |       |

Select two of the following courses from Group II: 8

| PSYC 552 | Social Psychology        |       |
| PSYC 553 | Personality              |       |
| PSYC 561 | Abnormal Behavior        |       |
| PSYC 571 | Pioneers of Psychology (offered in Manchester only) |       |
| PSYC 581 | Child Development        |       |

Depth (700-level) courses

Select two of the following courses from Group I: 8

| PSYC 705 | Tests and Measurement   |       |
| PSYC 710 | Visual Perception       |       |
| PSYC 712 | Psychology of Language  |       |
| PSYC 713 | Psychology of Consciousness |       |
| PSYC 716 | Cognitive Neuroscience  |       |

Note: Most offerings have one or more prerequisite courses. Students (with the help of their adviser) are expected to select breadth courses that will later enable them to select depth courses appropriate to their interests and career goals.

The Discovery Program capstone requirement, taken during the senior year, may be fulfilled by completing one of the following options:

1. The honors-in-major program with an honors project; honors seminar, and research presentation (PSYC 799 Senior Honors Thesis);
2. a 4-credit capstone designated independent study project (PSYC 795 Independent Study);
3. PSYC 793 Internship;
4. Capstone-designated 700-level course.

The psychology department does not accept other departments’ statistics courses toward the psychology major. Students who have taken a statistics course other than PSYC 402 Statistics in Psychology must pass a competency exam in order to declare the major and/or register for PSYC 402 Statistics in Psychology.

Major department courses may not be used to satisfy Discovery category requirements except for PSYC 402 Statistics in Psychology, which may be used to satisfy the QR Discovery requirement and the major requirement. PSYC 401 Introduction to Psychology cannot be used to fulfill a Social Science; PSYC 571 Pioneers of Psychology cannot be used to fulfill a Historical Perspective. In the case that Psychology is a second major, major courses can be counted toward the Discovery requirements.

Transfer Students

Transfer students who elect to major in psychology must complete at least 24 credits in the program at UNH to qualify for the degree in psychology. Transfer students must earn a total of 44 approved credits for completion of the psychology major. The distribution of these credits will be determined by the department’s academic counselor. Transfer students should note that courses are allotted only the number of credits granted by the original institution (after adjustments for semester-hour
equivalents). Thus, students transferring from an institution at which
courses carry less than four credits each must make up for any credit
deficit created by acceptance of transfer credits into the psychology
major. Only courses taken in a psychology department can be transferred
into the psychology major. Of the four 700-level courses required for the
major, at least three must be taken at UNH.

Additional Notes

Specific course selections should be discussed with advisers. Exceptions
to the requirements for the major require compelling circumstances and a
petition to the department.

Psychology majors planning to go on to graduate study in psychology
are advised to include PSYC 705 Tests and Measurement among their
courses.

Candidates for a degree must satisfy all of the University Discovery
Program requirements in addition to satisfying the requirements of each
individual major program. Bachelor of arts candidates must also satisfy
the foreign language proficiency requirement.

Student Learning Outcomes

- Demonstrate fundamental knowledge and comprehension of the
  major concepts, theoretical perspectives, historical trends, and
  empirical findings in psychology.
- Understand basic research methods in psychology including design,
  data analysis, and interpretation; and utilize this knowledge to
  conduct their own psychological research, with an appreciation of the
  ethical issues involved in human and non-human research.
- Engage in scientific reasoning and problem solving so that they can
  evaluate the quality and implications of scientific research.
- Write empirical research reports and literature reviews in American
  Psychological Association style and present findings from scientific
  research.
