Description

Students who wish to develop focused competencies in biochemistry, molecular biology, and/or cell biology can complement their major academic program with a minor in biochemistry, molecular and cellular biology (BMCB).

Requirements

Complete 20 credits from the courses listed below, with a grade of C-minus or better. A C average (2.00) is required in courses that the minor program approves.

No more than 8 credits used to satisfy major requirements may be used for the minor.

4 credits of BMCB 795 Investigations in Molecular and Cellular Biology may be used toward the minor.

Pass/fail courses may not be used for the minor.

It is the student's responsibility to complete a [Certification of Completion of Minor form](#) during their final semester at UNH.
