ENVIRONMENTAL CONSERVATION AND SUSTAINABILITY MINOR

https://colsa.unh.edu/nren/ecs/environmental-conservation-and-sustainability-minor

Description

The minor in Environmental Conservation and Sustainability allows students from diverse majors across all UNH colleges to incorporate the theory and practice of sustainable resource use into their 4-year baccalaureate studies. Students take required introductory courses in both conservation and sustainability and then can fill out their minor with choices from ecology, social science and management, and a range of advanced topics. As well, students who participate in the EcoQuest Study Abroad Program can apply their courses to the minor.

Requirements

20 credits total required

- Two required courses: NR 435 Contemporary Conservation Issues and Environmental Awareness and NR 437 Principles of Sustainability
- Three other courses: one course from each of the designated categories (2-4) below.
- A grade of C or better in each of the 5 courses.
- No more than 8 credits used to satisfy major requirements may be used for the minor
- Credit/fail courses may not be used for the minor.
