ENVIRONMENTAL AND RESOURCE ECONOMICS MAJOR (B.S.)

https://colsa.unh.edu/natural-resources-environment/program/bs/environmental-resource-economics-major

Description

Beginning in the 2024-2025 academic year, the Environmental and Resource Economics B.S. is pausing admissions to the program. Current students will continue to have access to the same high-quality education and resources until they graduate.

Students majoring in environmental and resource economics will normally concentrate in one of the following three areas: environmental and natural resource economics, agricultural economics, or community economics. One capstone experience, supervised and approved within the major, is required of all seniors. The capstone explores areas of interest based on the integration of prior learning. The capstone requirement may be satisfied through a course, created work or product, or some form of experiential learning (e.g., honors thesis, mentored research project, and other special student activity). In addition, students must satisfy University requirements, including those for the Discovery Program.

Upon graduation, students are qualified for a wide variety of opportunities. Private business, public institutions, and government agencies currently have a strong demand for specialists trained in natural resource development; land and water use policy; natural resource and small business management; agricultural, fisheries, and forestry marketing; and community development. In many cases, students may wish to improve their qualifications by pursuing more specialized graduate studies.

Requirements

Degree Requirements

Minimum Credit Requirement: 128 credits

Minimum Residency Requirement: 32 credits must be taken at UNH

Minimum GPA: 2.0 required for conferral*

Core Curriculum Required: Discovery & Writing Program Requirements

Foreign Language Requirement: No

All Major, Option and Elective Requirements as indicated.

*Major GPA requirements as indicated.

Major Requirements

Select at least five of the following, two must be 700 level:

- EREC 572 Introduction to Natural Resource Economics 4
- EREC 606 Land Economics Perspectives: Uses, Policies, and Taxes 4
- EREC 627 Community Economics 4
- EREC 708 Environmental Economics 4
- EREC 756 Rural and Regional Economic Development 4
- ANSC 548 Agricultural Business Management 4
- NR 602 Natural Resources and Environmental Policy 4
- NR 643 Economics of Forestry 4
- CEP 614 Fundamentals of Planning 4
- CEP 777 Topics in Community Planning 4
- TOUR 767 Social Impact Assessment 4

Capstone

The capstone can be fulfilled through a course (EREC 708, EREC 756, CEP 777 or TOUR 767), or a created work or product, or some form of experiential learning (e.g., honors theses, mentored research projects in EREC #795, EREC #799, and other special student activities)

1 EREC 411 cannot be used to satisfy the Social Science Discovery program requirement; or taken for credit if credit has been earned for ECON 402.

2 Offered once a semester by Economics Department

Students are encouraged to consider adding additional courses from the economics (ECON) department to their program. In special cases, students may petition to have these courses, particularly ECON 706 and ECON 726, substitute for major EREC electives.
