ENVIRONMENTAL AND RESOURCE ECONOMICS MINOR

https://colsa.unh.edu/natural-resources-environment/program/minor/ environmental-resource-economics

Description

The Environmental and Resource Economics minor aims to provide students majoring in other disciplines with an understanding of environmental and resource economics, and their uses in personal, social, business and government decision-making. Students learn how to apply economic analyses in evaluating environmental and resource problems, identifying their causes and examining alternative solutions. The minor also offers courses that teach techniques useful for decision making by local and regional communities. Students also obtain skills in the management of agricultural and natural-resource business firms.

Requirements

Minor Requirements

- · Complete 5 Courses with a minimum of 20 credits from the courses listed below, with a grade of C- or better.
- · No more than 8 credits used to satisfy major requirements may be used for the minor.
- · Pass/Fail courses may not be used for the minor
