WILDLIFE AND CONSERVATION BIOLOGY MINOR

https://colsa.unh.edu/natural-resources-environment/program/minor/wildlife-conservation-biology

Description

The minor in Wildlife and Conservation Biology serves as a concentrated study, beyond a student’s primary major, that allows students to explore their interest in wildlife ecology and conservation and their passion for nature and the outdoors.

Students interested in a minor in Wildlife and Conservation Biology must complete a minimum of 5 courses and 20 credits. Up to 8 credits can be used to satisfy both major and minor requirements. A maximum of 2 EcoQuest courses may be used to satisfy requirements. Appropriate course substitutes from other study-abroad programs may also be used with permission.
