ZOOGY MAJOR (B.S.)

https://colsa.unh.edu/biological-sciences/program/bs/zoology-major

Description

The Bachelor of Science (B.S.) in Zoology builds from the common background of the biology core curriculum to provide ample time for third- and fourth-year students to concentrate in specialized disciplines such as marine and freshwater biology, behavior, cell and developmental biology, ecology, evolution, fisheries, physiology, and neurobiology while giving students the foundation from which they can specialize in the area of zoology. Undergraduate students are encouraged to conduct field or lab-based research which helps determine advanced education disciplines for graduate studies. Many students ultimately work in the government, environmental agencies, education as well as agricultural, pharmaceutical, and biotechnology industries, where they conduct advanced research and/or teaching. Zoology majors had the second highest income and lowest unemployment rate according to data from the 2016 U.S. Census Bureau’s American Community Survey.

New England Regional Student Program

The bachelor’s degree in zoology is one of the specialized curricula recognized by the New England Board of Higher Education and participates in the New England Regional Student Program. Please refer to the Tuition Break Online Database for a list of eligible New England States.

Requirements

Degree Requirements

Minimum Credit Requirements: 128 credits

Minimum Residency Requirement: 32 credits must be taken at UNH

Minimum GPA: 2.0 required for conferral*

Core Curriculum Required: Discovery & Writing Program Requirements

Foreign Language Requirement: No

All Major, Option and Elective Requirements as indicated.

*Major GPA requirements as indicated.

Major Requirements

Minimum grade of A# or better is required in CHEM 403, CHEM 404, CHEM 545, CHEM 546, PHYS 401, PHYS 402, and MATH 424B (if taken); minimum grade of C# or better is required in all other courses. ZOOL 600, BIOL 692, ZOOL 795, or ZOOL 799H may substitute for one elective with academic advisor approval, but only if taken for at least four credits. These four credits may be spread over multiple semesters if they are consecutive and with the same faculty mentor.

Zoology Electives

Animal Survey Courses (Choose 1)

ZOOL 542 Ornithology
ZOOL 555 Introduction to Entomology
ZOOL 566 Herpetology
MEFB 628 Marine Invertebrate Evolution and Ecology
ZOOL 710 Sharks and Bony Fishes
NR 712 Mammalogy

Electives

Select three courses

BIOL 685 Biology Teaching Practices
BIOL 706 Data Science with R for the Life Sciences
BIOL 720 Plant Animal Interactions (C)
BMS 718 Mammalian Physiology
BMS 503/504 General Microbiology
MEFB 503 Introduction to Marine Biology
MEFB 504 Field Wildlife Forensics
MEFB 510 Field Ornithology
MEFB 628 Marine Invertebrate Evolution and Ecology
MEFB 717 Lake Ecology
MEFB 755 Biological Oceanography
MEFB 772 Fisheries Biology Conservation and Management
MEFB 773 Physiology of Fishes
NR 615 Wildlife Habitats
NR 640 Wildlife Population Ecology
NR 642 Introduction to Biogeography
NR 650 Principles of Conservation Biology
NR 712 Mammalogy
NSB 705 Molecular and Cellular Neurobiology (C)
NSB 727 Animal Communication (C)
NSB 728 Research Methods in Animal Behavior
TECH 797 Undergraduate Ocean Research Project 2
ZOOL 529 Developmental Biology
ZOOL 542 Ornithology
ZOOL 555 Introduction to Entomology
ZOOL 613W Animal Behavior
ZOOL 666 Herpetology
ZOOL 690 Field Experience 3
ZOOL 708 Stream Ecology
ZOOL 710 Sharks and Bony Fishes
ZOOL 726 Conservation Behavior (C)
ZOOL 733W Behavioral Ecology (C)
ZOOL 736 Genes and Behavior (C)
ZOOL 740 Acoustic Ecology
ZOOL 770 Senior Seminar in Zoology
Students can obtain this form on the Department’s Capstone page or from their Program Coordinator. Here they will describe their proposed individual experience and how it fulfills at least one of the University’s capstone criteria listed above. If the student is selecting a “C” course for their individual experience, they should obtain the course syllabus from the instructor for information about the course’s content and learning objectives.

2) Enrollment in BIOL 780 Capstone Companion Course

Students will also be required to enroll in BIOL 780 Capstone Companion Course during the semester of their individual experience. BIOL 780 is offered every Fall and Spring semester.

- If the individual experience is a two-semester thesis, BIOL 780 should be taken during the second semester.
- If the individual experience occurs during the summer (e.g., internship), BIOL 780 should be taken during the Fall semester that immediately follows.
- Note: Because BIOL 780 is not offered during the summer, students cannot complete their individual experience during the summer and graduate during that same August. Summer experiences could only be used as individual capstone experiences if completed the summer before the student’s senior year.

### Student Learning Outcomes

Students demonstrate that they understand basic principles of Zoology.

- Understand the biodiversity and ecological roles of selected animal taxa.
- Demonstrate understanding of animal physiology and structure at the cellular and organismal levels.
- Describe and apply key principles and mechanisms of evolution and genetics.
- Comprehend the relationship between organisms and their environments.

Students demonstrate that they can undertake scientifically valid methods of inquiry.

- Demonstrate proficiency in searching, reading, and understanding scientific literature.

Students demonstrate that they can think critically and analytically.

- Analyze and present data using appropriate quantitative and graphical tools.

Students demonstrate that they can communicate effectively.

- Develop effective written and oral communication skills for conveying scientific information effectively to a wide audience.

Students practice science responsibly and ethically, and acknowledge the influence of cultural and historical biases in the sciences.

---

**Capstone Experience**

As part of the University of New Hampshire’s Discovery Program requirements, all students must complete a capstone experience during their senior year (after earning at least 90 credits). The capstone experience for students majoring in ZOOLOGY BS consists of BOTH (1) an approved individual experience AND (2) the successful completion of the BIOL 780 Capstone Companion Course. Students will not be approved for graduation until capstone certification has been granted.

1) The individual experience

The individual experience may be satisfied through various forms of experiential learning (e.g., Honors thesis, mentored research project, internship) or a course denoted with a “(C)” in the courses listed above. The individual experience must fulfill at least one of the University’s capstone criteria:

- synthesizes and applies disciplinary knowledge and skills
- fosters reflection on undergraduate learning and experience
- demonstrates emerging professional competencies
- applies, analyzes, and/or interprets research, data, or artistic expression
- explores areas of interest based on the integration of the prior learning

Before beginning any capstone individual experience, students must submit a completed capstone approval form to their Program Coordinator.
