

ZOOLOGY MINOR

<https://colsa.unh.edu/biological-sciences/program/minor/zoology>

Description

The Zoology Minor is designed to provide a general introduction to animals and their ecology, while requiring in-depth knowledge of the diversity of at least one group (Animal Survey Course), a course dealing with animal structure, behavior, or physiology, and an additional animal-focused course at the 600 or higher level of the student's choice.

Requirements

The Zoology minor requires five courses.

Code	Title	Credits
Required:		
BIOL 412	Introductory Biology: Evolution, Biodiversity and Ecology	4
BIOL 541	Ecology	4
Select one Animal Survey Course:		4-5
MEFB 628	Marine Invertebrate Evolution and Ecology	
NR 712	Mammalogy	
ZOOL 542	Ornithology	
ZOOL 710	Sharks and Bony Fishes	
Select one animal structure, behavior or physiology course:		4-5
MEFB 628	Marine Invertebrate Evolution and Ecology	
ZOOL 518	Comparative Morphology and Biology of Vertebrates	
ZOOL 529	Developmental Biology	
ZOOL 613	Animal Behavior	
ZOOL 690	Evolution	
Select one additional animal-focused course at the 600 level or higher chosen from the courses above		4-5

College of Life Sciences and Agriculture students: two courses in the major may be used toward the minor, as long as selected from the courses listed above.
