COMMUNICATION ARTS

Shaping skilled communicators through creativity, technology and hands-on experience

With expert faculty, state-of-the-art studios and a vast network of internship opportunities, our Communication Arts program gives you the skills and experience to turn your passion into a profession. Our highly adaptable program opens doors to limitless career possibilities—shaping the next generation of filmmakers, journalists, HR specialists, marketers and beyond.

Recent data from the American Academy of Arts & Sciences shows that Communication Arts is the largest and most popular of the humanities disciplines. Part of this interest is because we live in a world where communication is a vital part of daily life, regardless of career or industry. But another part, potentially even more important, is the inherent flexibility that students find—not only during college, but in the job market after graduation.

Your interests inspire what you study, allowing you to focus your degree in areas like Advertising and Public Relations, Cinema and Media Arts, Digital Media, and Human Relations. Students can also further their professional and creative interests by doing real-world internships for credit.

Through hands-on learning in our classrooms, in the field and in our audio, video and editing studios, you’ll shape the social, creative, analytical, and technical communication skills you need for success in industries from media to business, healthcare, education, and more.
