

BUSINESS MAJOR: ACCOUNTING OPTION (B.A.)

<https://manchester.unh.edu/program/ba/business-major-accounting-option>

Description

The Accounting Option is offered in response to the growing demand for accounting graduates in public accounting firms as well as in industry. Many local public accounting firms have expressed that with an expected high retirement rate among “baby boomers”, there appears to be a need for graduates with robust accounting credentials. Representatives from well-known CPA exam prep course firms expressed the opinion that accountants are in high demand and the unemployment rate in this industry is very low.

The Accounting Option offers students the necessary courses to enable them to sit for the CPA exam, which is one of the major steps in obtaining a CPA license. The requirements for sitting for the CPA exam in the State of New Hampshire are a bachelor’s degree, 24 credits in business subjects, and 30 credits in accounting subjects. The Accounting Option within the Business program provides these required credits.

This program also provides the students an opportunity to seek professional accounting positions in corporate environments. Students would be encouraged to take the CMA (Certified Management Accountant) exam, leading to this desirable certification.
