APPLIED PSYCHOLOGY
MAJOR: EMERGENCY MANAGEMENT STRATEGY AND PLANNING OPTION (B.S.)

https://cps.unh.edu/online/program/bs/applied-psychology-emergency-management-strategy-planning-option

Description

The Bachelor of Science degree in Applied Psychology provides an understanding of human behavior within a socio-cultural context. Students explore the variables affecting human behavior within both individual and group settings. The major positions students for either post-college employment or advanced education. The emergency management strategy and planning option prepares students to address the psychological factors, prescriptive and descriptive models of decision making, cognitive biases, heuristics, risk perception, social influences, and past experiences that together help explain why people tend to be under prepared for potential natural and human-made disasters.
